The Department of Finance shall have the authority to exempt departments from the provisions of this subdivision in cases where the funds appropriated for the purchase of an elective commercial insurance policy have been approved for expenditure under the provisions of subdivision (a).

SEC. 7.50. Whenever an expenditure is authorized from the reserve for contingencies or emergencies, from price increase funds, from employee benefits or special salary adjustments funds, from total equivalent compensation funds, from the salary increase funds, or from a fund pursuant to Section 11006 of the Government Code, in addition to an appropriation made by this act, such authorized expenditures may, for accounting purposes, be deemed to be an augmentation and increase of the appropriation made by this act.

SEC. 8.50. (a) In making appropriations to state agencies which are eligible for federal programs, it is the intent and understanding of the Legislature that applications made by such agencies for federal funds under any such programs shall be for the maximum amount allowable under federal law. Therefore, any amounts received from the federal government are hereby appropriated, from the Federal Trust Fund for expenditure or for transfer to and disbursement from the State Treasury Fund established for the purpose of receiving such federal assistance subject to any provisions of this act which are applicable to the expenditure of such funds, including Section 28.00.

(b) However, if federal funds for block grant programs assumed by the state are reduced by more than 5 percent of the amount appropriated in this act, the Director of Finance shall notify the chairperson of the committee in each house which considers appropriations, and the Chairperson of the Joint Legislative Budget Committee, in writing within 30 days after notification by the federal government that federal funds have been reduced, and shall include a plan of reduced expenditures for the federal block grant programs affected. The plan shall be operational on an interim basis for up to 45 days pending legislative review, after which time the plan shall become permanent.

(c) In addition, the Department of Finance shall notify the Chairperson of the Joint Legislative Budget Committee, and the chairpersons of the fiscal committees, within 30 days after notification from the federal government, in the event that federal funds for any item receiving federal funds are reduced by more than 5 percent of the amount appropriated in this act. Notification shall include an esti-

mate of (a) the amount of federal funds available or anticipated, (b) state fiscal year 1985–86 expenditures for each program affected by the reduction, and (c) the effect of reduced funding on service levels authorized by this act.

(d) The director of any department who submits a proposal for applications for federal grant funds to the Director of Finance for prior review shall, at the same time this proposal is submitted, send a copy thereof to the chairperson of the committee in each house which considers appropriations and to the Chairperson of the Joint Legislative Budget Committee.

(e) On or before October 1, 1985, the director of any department which received federal grant funds in the 1984–85 fiscal year shall submit to the chairperson of the committee in each house which considers appropriations and to the Chairperson of the Joint Legislative Budget Committee a report listing the amount and source of all federal funds received by that department during the 1984–85 fiscal year.

The Supplemental Report of the Committee of Conference on the Budget Bill, which contains agreed language on statements of intent or requests for studies and which was submitted to the Senate and Assembly concurrently with consideration of the Budget Bill for the 1985–86 fiscal year, reflects the intent of the Legislature in enacting the Budget Act of 1985 and should be interpreted as such by the various agencies of state government affected by the statements contained in the report. The Legislative Analyst shall transmit copies of the report to all agencies to which statements of intent and requests for studies are directed in order that each may be fully informed of the intent of the Legislature.

SEC. 9.20. Notwithstanding Section 15860 of the Government Code, the amount of funds expended for administrative costs associated with any appropriation contained herein for acquisition of property pursuant to the Property Acquisition Law shall be limited to the amount specified for such costs in the Supplemental Report of the Committee on Conference on the 1985 Budget Act. Notwithstanding the foregoing, any amounts needed for administrative costs associated with acquisition through the condemnation authority of the State Public Works Board shall be provided through augmentation of the affected appropriations as authorized by existing law. Amounts for administrative costs may be augmented by no more than 5 percent by the State Public Works Board.

SEC. 9.50. Unless otherwise stated herein, all reappropriations for capital outlay from the General Fund shall be payable from the Special Account for Capital Outlay.

SEC. 11.50. (a) Notwithstanding any other provisions of law, the allocation to the Energy and Resources Fund made pursuant to subdivision (g) of Section 6217 of the Public Resources Code and subdivision (d) of this section shall be six million one hundred sixty-eight thousand dollars ($6,168,000) for the 1985–86 fiscal year. The Director of Finance may allocate funds among the Energy and Resources Fund; the Energy Account, Energy and Resources Fund; and the Resources Account, Energy and Resources Fund.

(d) Notwithstanding any other provisions of law, the allocations of revenues, following the allocation made pursuant to subdivision (d) of Section 6217 of the Public Resources Code shall, for the next one hundred fifty million dollars ($150,000,000), be distributed, equally each month among the funds designated in subdivisions (a), (b), and (c) of this section and in subdivision (f) of Section 6217 of the Public Resources Code subject to the dollar limitations contained in subdivisions (a), (b), and (c) of this section and subdivision (f) of Section 6217 of the Public Resources Code. Revenues, moneys and remittances received in excess of the one hundred fifty million dollar ($150,000,000) amount shall be allocated to subdivisions (a) and (b) of this section and subdivision (f) of Section 6217 of the Public Resources Code and subdivision (c) of this section in that order, subject to the dollar limitations contained in subdivisions (a), (b), and (c) of this section and subdivision (f) of Section 6217 of the Public Resources Code, with any remaining amounts deposited in the General Fund.

SEC. 12.00. For the purposes of Article XIII B of the California Constitution, there is hereby established a state "appropriations limit" of twenty-three billion two million dollars ($23,002,000,000) for 1985–86. Any judicial action or proceeding to attack, review, set aside, void or annul the "appropriations limit" for the 1985–86 fiscal year shall be commenced within 45 days of the effective date of this act.

SEC. 12.30. (a) The contingency reserve for economic uncertainties established within the General Fund by Section 12.3 of the Budget Act of 1980 is hereby continued in existence. This reserve represents a reserve fund within the meaning of Section 5 of Article XIII B of the California Constitution. Notwithstanding Sections 16310 and 16314 of the Government Code, the Controller, may transfer as necessary from the contingency reserve for economic uncertainties or from the Special Accounts in the General Fund to the General Fund such amounts as are needed to meet cash needs of the General Fund. The Controller shall return all such moneys so transferred without payment of interest as soon as there are sufficient moneys in the General Fund.

(b) The State Controller shall transfer from the contingency reserve for economic uncertainties to the unappropriated balance of the General Fund an amount necessary to eliminate any General Fund deficit as of June 30, 1985 or as of June 30, 1986. The amount of transfer for each fiscal year shall be determined on the basis of the State of California Preliminary Annual Report—Accrual Basis, for such fiscal year. Any subsequent adjustments shall be determined jointly by the State Controller and the Director of Finance.

(c) There is hereby appropriated from the General Fund for transfer by the Controller upon order of the Director of Finance, to the contingency reserve for economic uncertainties, an amount necessary to bring the balance of the reserve up to one billion forty million one hundred thousand dollars ($1,040,100,000) as of July 1, 1985.

(d) For budgeting and accounting purposes, any appropriations heretofore or hereafter made specifically from the contingency reserve for economic uncertainties by this act or any other act, other than appropriations contained in this section, shall be deemed an appropriation from the General Fund.

(e) There is hereby appropriated from the General Fund, without regard to fiscal years, for transfer by the State Controller to the contingency reserve for economic uncertainties as of June 30, 1986, the lesser of the following amounts:

(1) The unencumbered balance in the General Fund.

(2) The difference between the state's 1985–86 "appropriations subject to limitation" and its "appropriation limit" as defined in Section 8 of Article XIII B of the California Constitution and established in this act, as jointly estimated by the Legislative Analyst's Office and the Department of Finance.

(f) Notwithstanding the provisions of paragraph (d), the appropriations contained in AB 36 and SB 20 of the 1985–86 Regular Session shall be deemed to be appropriations from the Contingency Reserve for Economic Uncertainties in the 1985–86 fiscal year.

SEC. 12.40. It is the intent and commitment of the Legislature that the Reserve for Economic Uncertainties be established at 3.7% of General Fund expenditures for the beginning of the 1985–86 and the 1986–87 fiscal years.

This Budget is faithful to that commitment. Above that, this Budget reflects the use of a recently discovered and unanticipated $874 million in revenues to meet the immediate unmet needs of Californians, especially in health, education, children's services, toxics, and AIDS. The Legislature recognizes that these increased expenditures increase the baseline expenditures for this budget year, and could likewise increase the baseline budget for future years. It is the intent of the Legislature, with respect to this proposed expansion of the base, if the future economy does not sustain these expenditures, to work cooperatively with the administration in enacting future Budgets to retain the 3.7% reserve without a general tax increase, while still meeting the needs of Californians.

It is further the intent of the Legislature that funding for voluntary and court-ordered desegregation claims for the 1983–84 through 1985–86 fiscal years be provided, if and insofar as at all, from the $200 million additional 1985–86 revenues recently identified by the Commission on State Finance.

SEC. 12.50. (a) The contingency reserve for economic uncertainties established within each special fund by Section 12.35 of the Budget Act of 1981 is hereby continued in existence. These reserves represent reserve funds within the meaning of Section 5 of Article XIII B of the California Constitution.

(b) There is hereby appropriated from each reserve account in each special fund, an amount sufficient to fund any appropriation made by this act or other statute from the fund in which the reserve account is established.

(c) There is hereby appropriated on June 30, 1986, the unappropriated balance in each special fund to the reserve account in that special fund.

SEC. 13.00. Notwithstanding any other provisions of law, expenditures under Item 0160-001-001 of this act or any appropriation in augmentation of such item shall be exempt from the provisions of Chapter 7 (commencing with Section 11700) of Part 1 of, Article 2 (commencing with Section 13320) of Chapter 3 of Part 3 of, Chapter 3 (commencing with Section 14250) of Part 5 of, and Chapter 6 (commencing with Section 14780) of Part 5.5 of, Division 3 of Title 2 of, the Government Code, Division 2 (commencing with Section 10100) of the Public Contract Code, subdivision (a) of Section 713 of Title 2 of the California Administrative Code and Section 5.50 of this act, and may be expended as set forth in the Governor's Budget, or for such other purposes, including expenditures for such number of positions in various classifications as may be authorized by the Joint

Committee on Rules.

Notwithstanding any other provisions of law, the unencumbered balances as of June 30, 1985, of the appropriations made by Items 0160-001-001 and 0180-001-001 of the Budget Act of 1984 are reappropriated and shall be available for encumbrance until June 30, 1986, for the same programs and purposes for which appropriations for these items have been made by this act.

SEC. 15.00 The sum of fourteen million four hundred ninety-five thousand dollars ($14,495,000) is hereby appropriated from the General Fund for transfer by the State Controller to the Emergency Telephone Number Account in the General Fund on June 30, 1985. For year-end reporting purposes, this transfer will be treated as a 1984–85 fiscal year transaction.

BUSINESS, TRANSPORTATION AND HOUSING

SEC. 16.00 If funds in the Transportation Planning and Development Account, State Transportation Fund, during the 1985–86 fiscal year are less than total 1985–86 appropriations and allocations from the account, the Director of Finance shall unallot sufficient funds to make total allotments from the account equal to the funds in the account. The unallotments shall be made no sooner than 30 days after notification in writing to the Chairperson of the Joint Legislative Budget Committee and the chairpersons of the fiscal committees of the impact of such unallotments on individual projects, programs, and activities authorized in this act or other enacted legislation.

SEC. 17.00. (a) There is hereby appropriated to the Secretary of the Business, Transportation and Housing Agency from the Transportation Planning and Development Account in the State Transportation Fund, 60 percent of the revenues transferred into the Transportation Planning and Development Account in the State Transportation Fund pursuant to paragraph (1) of subdivision (a) of, and subdivision (e) of, Section 7102 of the Revenue and Taxation Code during the 1985–86 fiscal year for allocation in the 1985–86 fiscal year pursuant to subdivision (b).

(b) (1) 70 percent of the appropriation made in subdivision (a) shall be allocated pursuant to Section 99313 of the Public Utilities Code.

SEC. 18.10. No expenditure from an appropriation made by this act to the Department of Parks and Recreation shall be made to modify, execute, or approve an operating lease, or an operating agreement with any local entity or any nonprofit corporation, unless either of the following has occurred:

(1) The Legislature has reviewed the lease, or agreement as part of the support or capital outlay budget of the Department of Parks and Recreation and expressed approval of the expenditure from an appropriation made by this act through the supplemental language report.

(2) The State Public Works Board has approved the lease, or an agreement not sooner than 20 days after the Director of Finance has provided written notification to the Chairperson of the Joint Legislative Budget Committee, the Chairperson of the Assembly Ways and Means Committee, and the Chairperson of the Senate Finance Committee, and upon a determination by the board that the proposal could not have reasonably been presented to the Legislature through the annual budget process.

The Department of Parks and Recreation shall include with the proposed lease or agreement sufficient documentation to enable the Legislature, or the board, as the case may be, to evaluate fully the estimated operating costs and revenues and all terms upon which the lease or agreement is proposed to be entered into. Specifically, the documentation shall identify (1) any anticipated costs to the state for operation or development under the agreement and the anticipated state share of total operation and development costs and (2) the anticipated annual revenues, net of operation costs, for the unit and the state's share of these revenues.

The amounts accruing to the State School Fund under this section shall be disbursed fully before any General Fund transfers to Section A or Section B of the State School Fund are disbursed for regular apportionments.

SEC. 24.10. Notwithstanding the provisions of Section 1464 of the Penal Code, added by Chapter 530, Statutes of 1980, and Sections 42050 and 42052 (a) of the Vehicle Code, as amended by Chapter 530, Statutes of 1980, and Section 41304 of the Education Code, the Con-

SEC. 24.40. Notwithstanding any other provision of law, the State Allocation Board may each year reserve up to 10 percent of the funds transferred from any source to the State School Deferred Maintenance Fund for apportionments to school districts of any size in instances of extreme hardship. Repayments of the amounts borrowed shall be made by reducing CSU's lottery allocation for the following year with interest at the pooled money investment rate. The Governor may evaluate this loan program as of January 1, 1986, and decide whether the state's fiscal condition is such that this program can be continued for the balance of the 1985–86 fiscal year, or whether the program should be modified.

SEC. 24.60. From the funds appropriated in Items 6100-226-001, 6440-001-001, and 6610-001-001, and the funds provided for cost-of-living adjustments in Schedule (a) of Item 6870-101-001 of this act, the local education agencies through the Superintendent of Public Instruction, Regents of the University of California, Trustees of the California State University system, and community college districts through the Chancellor shall report to the Legislature by September 1, 1986, the amount of lottery funds which each entity received and the purposes for which the funds were expended in the 1985–86 fiscal year, including administrative costs and proposed expenditures and purposes for expenditure for the 1986–87 fiscal year.

SEC. 24.70. The Legislature acknowledges and supports the basic premises of human dignity and self-determination, recognizing that fundamental freedoms and democratic principles are the cornerstones of individual rights.

The Legislature condemns in the strongest terms possible the denial of human rights throughout the world, including the official apartheid policies of the Republic of South Africa. These policies, which deny freedom, equality, self-determination, physical security and economic opportunity to black and other nonwhite individuals, are contrary to the fundamental concepts of human rights and liberty cherished in our country and upon which it was founded.

The Legislature recognizes that numerous state-level public entities, including the Regents of the University of California, the Public Employees' Retirement System, the State Teachers' Retirement System, and the State Legislators' Retirement System, now control investments totaling in excess of $10 billion in value in corporations doing business in South Africa, and that these holdings may constitute an effective tool in the effort toward freeing all human beings in South Africa from the burdens of apartheid.

Pursuant to its commitment to human rights and equality, and recognizing the fiduciary responsibilities of the governing boards of the state's retirement systems, the Legislature declares that no later than January 1, 1986, the governing boards of the Public Employees' Retirement System, State Teachers' Retirement System, Legislators' Retirement System, Judges' Retirement System, and University of California Retirement System shall adopt a policy and plan which shall include provisions for the following:

1. Before January 1, 1986, end all new investments in institutions which make new investments or new loans to the Republic of South Africa or any of its political subdivisions.
2. Prior to July 1, 1986, adopt a plan for divestment in firms which provide military supplies used for oppressive purposes or support the apparatus of apartheid control (e.g., passbooks, work permits).
3. Carry out annual review to determine whether to proceed to adopt further policies/steps toward divestment or other practices.
4. Actively encourage and support investment and voting proxies toward active policies within South Africa that will help end apartheid and/or otherwise improve the opportunities and conditions for nonwhite persons in South Africa and other countries which deny basic human rights to their citizens.

GENERAL GOVERNMENT

SEC. 26.00. No funds appropriated by this act shall be encumbered for the purpose of funding any increased state costs or local governmental costs, or both such costs, arising from the issuance of an executive order as defined in Section 2209 of the Revenue and Taxation Code or subject to the provisions of Section 6 of Article XIII B of the California Constitution, or of Section 2231 of the Revenue and Taxation Code, unless (a) such funds to be encumbered are appropriated for such purpose, or (b) notification in writing of the necessity of the encumbrance of funds available to the state agency, department, board, bureau, office, or commission is given by the Department of Finance, at least 30 days before such encumbrance is made, to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or such lesser time as the chairperson of the committee, or his or her designee, determines.

SEC. 27.00. (a) Approval by the Department of Finance to the creation of deficiencies pursuant to Section 11006 or approval to expend at rates which, in the opinion of the Director of Finance, will require a deficiency appropriation shall not be made unless the approval is made in writing and filed with the Chairperson of the Joint Legislative Budget Committee and chairperson of the committee in each house which considers appropriations not later than 30 days prior to the effective date of the approval, except for an approval for an emergency expenditure or an approval which is due to caseload increases in Medi-Cal, Aid to Families with Dependent Children (AFDC), and Supplemental Security Income/State Supplementary Program (SSI/SSP). effective date of the approval. All notices shall state the reason for and amount of the deficiency.

As used in this section, "emergency expenditure" means a proposed expenditure arising from unexpected conditions or losses for which no appropriation, or insufficient appropriation, has been made by law and which, in the judgment of the Director of Finance, requires immediate action to avert undesirable consequences or to preserve the public peace, health or safety.

(c) The Department of Finance shall report quarterly to the Chairperson of the Joint Legislative Budget Committee and the fiscal committee of each house on the cumulative deficiency requests approved pursuant to subdivisions (a) and (b). SEC. 28.00. (a) The Director of Finance may authorize the augmentation of the amount available for expenditure for any category or program in the schedule set forth for any appropriation in this act or any additional category or program in the amount of any funds which he or she estimates will be received by an officer, department, division, bureau, or other agency during the 1985–86 fiscal year from any other state agency, from any agency of local government or the federal government, from any appropriation made by the Legislature or from any other source which he or she determines has not been taken into consideration in the schedule or is in excess of the amount so taken into consideration.

(b) The Director of Finance may also reduce any category or program whenever he or she determines that funds to be received will be less than the amount taken into consideration in the schedule.

(c) The following augmentations or reductions may not be authorized sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the chairperson of the joint committee, or his or her designee, may in each instance determine:

(1) Augmentations or reductions which either are (a) in excess of $100,000 or (b) are in excess of 10% of the amount available for expenditure in the affected category or program.

(2) Any other augmentations which the Director of Finance determines constitute an increase in the level of services above that authorized by this act or other existing law or are for a new program not identified in this act as such.

(3) Any other reductions which the Director of Finance determines constitute a decrease in the level of service below that authorized by this act or other existing law.

(4) Any augmentation, regardless of the amount, for the purpose of funding a task force or advisory council created by executive order of the Governor.

(d) Any personnel action which is dependent on funds subject to the provisions of this section shall not be effective until after the provisions of this section have been complied with. Any authoriza-

(3) A determination whether the expenditure, if federally funded, supplements or replaces existing state expenditures.

(4) A determination whether the expenditure has previously been considered at some point in the legislative process and has been denied; and, if denied, for what reasons.

(f) All increased expenditures from department indirect cost funds in excess of the amount budgeted in this act or identified in a prior Section 28 notification are subject to the reporting requirements of this section.

SEC. 29.00. The Department of Finance shall calculate and publish a listing of total personnel-years and estimated salary savings for each department and agency. These listings shall be published by the Department of Finance at the same time as the publication of (a) the Governor's Budget, (b) the May revision and (c) the Final Change Book.

(a) The listing provided at the time of the publication of the Governor's Budget shall contain estimates of personnel-years for the prior year, current year, and budget year.

(b) The listing provided at the time of publication of the May revision shall contain estimates of personnel-years proposed for the budget year.

(c) The listing provided at the time of the publication of the Final Change Book shall contain estimates of personnel-years for the budget year just enacted.

SEC. 29.50. The Department of Finance shall provide the Joint Legislative Budget Committee with a specified list of personal services contracts contained in the Governor's Budget. This list shall reflect only those personal services contracts which the Department of Finance determines to be new or innovative.

The list shall include (1) the amount of the proposed contract, (2) the basis for the contract pursuant to Section 19130 of the Government Code, and (3) the number of personnel-years to be eliminated or avoided if a contract is implemented. The contracts shall be listed by agency and department.

The Department of Finance shall also report to the Legislature on a quarterly basis when a department proposes the use of innovative personal services contracting for a new service not previously considered in the Governor's Budget.

SEC. 30.00. Section 13340 of the Government Code is amended to read:

13340. On and after July 1, 1986, no moneys in any fund which, by any statute other than a Budget Act, is continuously appropriated without regard to fiscal years, may be encumbered unless the Legislature, by statute, specifies that the moneys in the fund are appropriated for encumbrance.

SEC. 31.00. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code and Article 2.5 (commencing with Section 13332)

of Chapter 3 of Part 3 of Division 3 of Title 2 of the Government Code requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

The fiscal year budget shall authorize in such manner as the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new position shall be established unless authorized by the Department of Finance on the basis of work program and organization.

The Director of Finance, or his/her authorized designee, shall notify the Chairperson of the Joint Legislative Budget Committee within 30 days of authorizing any position not authorized for that fiscal year by the Legislature or any reclassification to a position with a minimum step of $2,160 per month. He/she shall also report all transfers to blanket authorizations and the establishment of any permanent positions out of a blanket authorization.

All positions administratively established pursuant to this section during the 1985–86 fiscal year shall terminate on June 30, 1986, except that those positions which have been (a) included in the 1986–87 Governor's Budget as proposed new positions, or (b) approved by the Department of Finance and reported to the Legislature after the 1986–87 Governor's Budget submission to the Legislature, may be reestablished by the Department of Finance during the 1986–87 fiscal year, provided such positions are shown in the 1987–88 proposed Governor's Budget submitted to the Legislature, or in subsequent Department of Finance letters to the Legislature, and provided, such positions do not result in establishment of positions deleted by the Legislature through the 1986–87 budget process.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. A copy of this document shall be submitted to the Department of Finance upon request. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to such allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. Such transfer shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any 1985–86 fiscal year appropriation not appropriated for that purpose may be expended for increases in salary ranges or any other salary action (s) unless the Department of Finance certifies to the salary setting authority prior to the adoption of such action (s) that funds are available to pay the increased salary or wage resulting therefrom. Provided, that prior to certification the Department of Finance shall determine whether such increase in salary range or salary action will require supplemental funding in the 1986–87 fiscal year. If the Department of Finance determines that supplemental funding will be required, no certification shall be issued unless notification in writing is given by the Department of Finance, at least 30 days before certification is made, to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee, or such lesser time as the chairman of the committee, or his designee, determines.

A certification on a payroll claim that expenditures therein are in

accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the State Controller that such expenditures comply with the provisions of this section.

Each agency, department, board, commission, and institution, for whose benefit and support appropriations are made in this act, shall certify to the Director of Finance that its expenditures have been made for the purposes stated in the budget, as implemented by the Budget Act, except as the purposes stated have been revised, in accordance with law, by the Department of Finance subsequent to the enactment of the Budget Act.

SEC. 32.00. The officers of the various departments, boards, commissions and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of such appropriations, except the consent of the Department of Finance be first obtained, and a certificate, in writing, duly signed by the director of said department, of the unavoidable necessity of such expenditure; and any indebtedness attempted to be created against the state in violation of the provisions of this section shall be absolutely null and void; and shall not be allowed by the State Controller nor paid out of any state appropriation. Any member of any such department, board, commission or institution, who shall vote for any expenditure, or create any indebtedness against the state in excess of the respective appropriations made by this act, except by the consent of the Department of Finance and the certificate in this section provided to be first obtained, shall be liable both personally and on his official bond for the amount of such indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm or corporation to whom such indebtedness is owing.

The Department of Finance shall submit copies of certificates approved by it under this section to the Chairman of the Joint Legislative Budget Committee, and the chairman of the committee in each house which considers appropriations, quarterly, and shall indicate in the case of each certificate the code section or section of this act under which the department gave its consent to exceed the particular appropriation.

SEC. 33.00. If any item of appropriation in this act is vetoed, eliminated, or reduced by the Governor under Section 10 of Article IV of the Constitution, while approving portions of this act, such veto, elimination, or reduction shall not affect the other portions of this act, and these other portions of this act, so approved, shall have the same effect in law as if any vetoed or eliminated items of appropriation had not been present in this act, and as if any reduced item of appropriation had not been reduced.

SEC. 33.35. No funds appropriated for the Office of Family Planning shall be granted, directly or indirectly, to any group, clinic, or organization which performs, promotes, or advertises abortions, or which receives any direct or indirect compensation, advantage, benefit, or gain from referrals for abortion services.

SEC. 34.00. If any portion of this act is held unconstitutional, such decision shall not affect the validity of any other portion of this act. The Legislature hereby declares that it would have passed this act, and each portion thereof, irrespective of the fact that any other portion be declared unconstitutional.

SEC. 35.00. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under the provisions of Section 8 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 36.00. This act is an urgency statute necessary for the im-

mediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This act makes appropriations and contains related provisions for support of state and local government for the 1985–86 fiscal year and provides for capital outlay appropriations, in continuation of existing programs and to promote and sustain the economy of the state. It is imperative that these appropriations be available for expenditure commencing not later than July 1, 1985. It is therefore necessary that the act go into immediate effect.

CHAPTER 112

An act to amend Section 97.2 of, and to add Section 97.65 to, the Revenue and Taxation Code, relating to property taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 28, 1985 Filed with Secretary of State June 28, 1985]

The people of the State of California do enact as follows:

SECTION 1. This act shall be know and may be cited as the Roos-Johnson-Marks Property Tax Limitation Act of 1985.

SEC. 2. Section 97.2 of the Revenue and Taxation Code is amended to read:

97.2. (a) Where jurisdictions which levy a property tax rate for voter-approved indebtedness, other than bonded indebtedness, no higher than the rate for that indebtedness in the 1982–83 fiscal year, or levy no rate for indebtedness, other than bonded indebtedness, if the amount of property tax revenue allocated to a jurisdiction in any or all of the 1978–79, 1979–80, 1980–81, 1981–82, or 1982–83 fiscal years is found to be incorrect due to the inclusion of property taxes levied for voter-approved indebtedness as property tax revenues pursuant to Section 26912 of the Government Code, and subdivision (c) of Section 95 by some jurisdictions, then, in making the appropriate corrections to each jurisdiction's base-year allocation for those fiscal years, the amount apportioned in the 1983–84 fiscal year and 1984–85 fiscal year shall be based on the base-year amount for the 1982–83 fiscal year, prior to any corrections of the incorrectly included amounts for voter approved indebtedness.

(b) In counties where the allocation of property tax revenue was incorrect for any of, or all of, the fiscal years from 1978–79 to 1982–83, inclusive, due to the inclusion of property taxes levied for voter-approved indebtedness in the calculation of property tax revenues pursuant to Section 26912 of the Government Code or subdivision (c) of Section 95 for any jurisdictions, the amount apportioned in the 1985–86 fiscal year and any fiscal year thereafter shall be based on the base-year amount used in the allocation of property tax revenue for the 1982–83 fiscal year. However, the county auditor shall adjust the base-year amount used in the allocation of property tax revenues for the 1982–83 fiscal year to comply with the requirements of Sections 97.3, 97.7, 97.75, and 97.8,

and Section 1 of Senate Bill No. 692 of the 1985–86 Regular Session of the Legislature, if that bill is chaptered and takes effect.

SEC. 3. Section 97.65 is added to the Revenue and Taxation Code, to read:

97.65. (a) For the 1985–86 fiscal year and each fiscal year thereafter, no jurisdiction shall impose a property tax rate pursuant to subdivision (a) of Section 93, unless it is imposed for one or more of the following purposes:

(1) To make annual payments for the interest and principal on general obligation bonds approved by the voters before July 1, 1978.

(2) To make payments to the State of California under contracts for the sale, delivery, or use of water entered into pursuant to California Water Resources Development Bond Act in Chapter 8 (commencing with Section 12930) of Part 6 of Division 6 of the Water Code or to make payments to the United States or another public agency under voter-approved contracts for the sale, delivery, or use of water or for the repayment of voter-approved obligations for the construction, maintenance, or operation of water conservation, treatment, or distribution facilities, provided that the indebtedness was approved by the voters before July 1, 1978.

(3) To make payments pursuant to lease-purchase programs approved by the voters before July 1, 1978, provided that the jurisdiction imposed the property tax rate in the 1982–83 fiscal year.

(4) To make payments in support of pension programs approved by the voters before July 1, 1978, provided that the local agency imposed the property tax rate in the 1982–83 or 1983–84 fiscal year.

(5) To make payments in support of paramedic, library, or zoo programs approved by the voters before July 1, 1978, provided that the jurisdiction imposed the property tax rate in the 1982–83 fiscal year.

(6) To make payments for the interest and principal on an indebtedness, pursuant to Section 5544.2 of the Public Resources Code, approved by the voters before July 1, 1978, provided that the local agency imposed the property tax rate in the 1982–83 fiscal year.

(b) In the 1985–86 fiscal year and any fiscal year thereafter, a jurisdiction shall not impose a property tax rate, pursuant to subdivision (a) of Section 93, in excess of the rate it imposed in the 1982–83 or 1983–84 fiscal year. Notwithstanding the limit imposed by this subdivision, a higher property tax rate may be imposed whenever necessary to make payments for any of the purposes specified in paragraphs (1), (2), and (3) of subdivision (a) However, no property tax rate increase in excess of the rate imposed in the 1984–85 fiscal year shall be imposed if the purpose of the rate increase is to fund a reduction in the rates charged for water at the time of the property tax rate increase.

(c) Notwithstanding subdivisions (a) and (b), a charter city may levy an ad valorem property tax rate to make payments in support of a retirement system for fire and police employees if all of the following criteria are met:

(1) The retirement system is part of the city's charter and was approved by the voters before July 1, 1978.

(2) The city did not levy a separate ad valorem property tax rate to support the retirement system in the 1983–84 fiscal year.

(3) The retirement system provides for a cost-of-living adjustment which is indexed to a consumer price index and does not limit the annual increases which may be paid to members after their retirement.

(4) The retirement system is not currently available to newly hired fire and police employees and will not be available in the future.

(5) Before January 1, 1985, the city unsuccessfully litigated a limit to the cost-of-living adjustment which may be paid to members of the retirement system after their retirement.

(6) After July 1, 1985, the city conducted an election and a question authorizing the levying of an ad valorem property tax for the purpose of making payments in support of the retirement system received the affirmative votes of at least 60 percent of those voting on that question.

The proceeds of an ad valorem property tax rate levied pursuant to this subdivision shall be used only to pay for the obligations of a retirement system described by this subdivision. The proceeds shall not be used to finance more than 75 percent of the annual obligations of this retirement system. A city shall not levy an ad valorem property tax pursuant to this subdivision after June 30, 2034.

(d) If a jurisdiction imposes a rate in excess of the maximum rate authorized by subdivision (a), (b), or (c), the amount of property tax allocated to the jurisdiction pursuant to this chapter shall be reduced by one dollar ($1) for each one dollar ($1) of property tax revenue attributable to the excess rate. Any property tax revenue which has been subtracted from a jurisdiction's allocation pursuant to this subdivision shall be allocated to elementary, high school, and unified school districts within the jurisdiction's jurisdiction in proportion to the average daily attendance of each district.

(e) This section shall be deemed to be a limit on the maximum property tax rate pursuant to Section 20 of Article XIII of the California Constitution.

SEC. 4. It is the intent of the Legislature in enacting paragraph (5) of subdivision (a) of Section 97.65 of the Revenue and Taxation Code to avoid serious and sudden fiscal dislocations to the cities which have levied extraordinary property tax rates with voter approval to make payments in support of paramedic, library, or zoo programs. In enacting that paragraph, it is not the intent of the Legislature to make any statement regarding the constitutionality of those property tax rates, a matter which is left to the courts. Further, it is not the intent of the Legislature in enacting that paragraph to make any statement regarding the outcome of Patton v. City of Alameda, 161 Cal. App. 3d 1786, a case which is currently before the California Supreme Court.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The moratorium on extraordinary property tax rates created by Chapter 491 of the Statutes of 1983 ends on June 30, 1985. In order that the allocation of property tax revenues for the 1985–86 fiscal year may be made in accordance with this act, it is necessary for this act to take effect immediately.

CHAPTER 113

An act to amend Sections 25174, 25174.8, and 25174.9 of, to amend, repeal, and add Section 25174.6 of, and to add Sections 25174.02 and 25178.1 to, the Health and Safety Code, relating to hazardous waste, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 28, 1985 Filed with Secretary of State June 28, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 25174 of the Health and Safety Code is amended to read:

25174. (a) Each person who disposes of hazardous wastes onsite, or who submits the hazardous waste for disposal offsite, shall pay a fee directly to the State Board of Equalization for disposal of those wastes, except that if the waste was produced outside the state, but is disposed of within the state, the disposal site operator shall collect the fees from the person submitting the hazardous waste and shall transmit these fees to the State Board of Equalization.

The director shall establish a schedule of the fees to be paid to the State Board of Equalization for disposal of hazardous waste, which shall provide revenues which shall not exceed the amount necessary, but shall be sufficient, to cover all costs incurred in the administration of this chapter or related provisions regulating hazardous wastes, and to provide a 5 percent operating reserve. The fee schedule shall include a base rate calculated pursuant to Section 25174.02 for determining the relative fees for hazardous waste which is not extremely hazardous waste and for that hazardous waste which is extremely hazardous waste. The fees shall be deposited by the State Board of Equalization in the Hazardous Waste Control Account in the General Fund. The funds deposited in that account are continuously appropriated for expenditure without regard to fiscal years for the following purposes:

(1) To the State Board of Equalization to pay refunds of fees collected pursuant to Section 43051 of the Revenue and Taxation Code.

(2) To the department to carry out the provisions of this chapter.

(b) This section shall become operative on July 1, 1985.

SEC. 2. Section 25174.02 is added to the Health and Safety Code, to read:

25174.02. (a) The State Board of Equalization shall set the base rate for the hazardous wastes specified in Section 25174.6, for the

period from July 1, 1985, to June 30, 1986, inclusive, in accordance with the following formula:

$$\text{Base rate} = \frac{(B\text{-}M) + .05\ B}{(T_1 + T_2 + T_7)\ 25 + (T_3 + T_4)\ 2\ 00 + (T_5)\ 05 + T_6 + (T_8)\ 10}$$

Where all of the following apply:

(1) "B" is the amount appropriated in the Budget Act of 1985 for the hazardous waste control account including, but not limited to, any amounts appropriated for the compensation of employees.

(2) "M" is any unobligated funds remaining in the fund from previous fiscal years.

(3) "T_1" is the total amount in tons of waste specified in paragraph (1) of subdivision (a) of Section 25174.6.

(4) "T_2" is the total amount in tons of waste specified in paragraph (2) of subdivision (a) of Section 25174.6.

(5) "T_3" is the total amount in tons of waste specified in paragraph (3) of subdivision (a) of Section 25174.6.

(6) "T_4" is the total amount in tons of waste specified in paragraph (4) of subdivision (a) of Section 25174.6.

(7) "T_5" is the total amount in tons of waste specified in paragraph (5) of subdivision (a) of Section 25174.6.

(8) "T_6" is the total amount in tons of waste specified in paragraph (6) of subdivision (a) of Section 25174.6.

(9) "T_7" is the total amount in tons of waste specified in paragraph (7) of subdivision (a) of Section 25174.6.

(10) "T_8" is the total amount in tons of waste specified in subdivision (c) of Section 25174.6.

(b) The base rate specified in subdivision (a) shall apply to persons subject to the fee specified in Section 25174 for all hazardous waste which they dispose of onsite, or submit for disposal offsite, on and after July 1, 1985. Upon the enactment of the Budget Act of 1985, the State Board of Equalization shall determine the base rate, in accordance with the formula specified in subdivision (a), to reflect any necessary adjustments to cover the costs specified in Section 25174, using the adjusted tonnage estimates supplied by the department for the period between July 1, 1985, and June 30, 1986. The department shall supply these estimates to the State Board of Equalization before July 1, 1985, so as to give the Board of Equalization sufficient time to determine the base rate. Within 30 days after the enactment of the Budget Act of 1985, the State Board of Equalization shall send a notice of the adjusted fee rate to every person subject to the fee specified in Section 25174.

SEC. 3. Section 25174.6 of the Health and Safety Code is amended to read:

25174.6. (a) Except as otherwise provided in Section 25174.9, the fee provided pursuant to Section 25174 to be paid, until June 30, 1985, by the operators of onsite and offsite hazardous waste

facilities for each ton, or fraction thereof, of hazardous waste which the operator disposes of on land or applies to land, shall be at the following rates:

(1) Two dollars and forty-eight cents ($2.48) for each ton, or fraction thereof, for up to the first 3,500 tons of hazardous waste disposed of, or submitted for offsite disposal, at each specific facility by each producer or at each specific onsite facility, per month, except as provided in subdivision (f), which is not subject to Subchapter III (commencing with Section 6921) of Chapter 82 of Title 42 of the United States Code, pursuant to subsection (b) of Section 6921 of Title 42 of the United States Code and which is not otherwise subject to the fee specified in paragraph (3) or (4), or hazardous waste for which the Administrator of the Environmental Protection Agency has determined that regulation is unwarranted, as specified in subparagraph (C) of paragraph (2) of, and subparagraph (c) of paragraph (3) of, subsection (b) of Section 6921 of Title 42 of the United States Code and which is not otherwise subject to the fee specified in paragraph (3) or (4). Except as provided in subdivision (f), any of this hazardous waste disposed of, or submitted for offsite disposal, which exceeds 3,500 tons per month, is exempt from any fee imposed by this section.

(2) Two dollars and forty-eight cents ($2.48) for each ton, or fraction thereof, for up to the first 3,500 tons, of hazardous waste disposed of, or submitted for offsite disposal, at each specific facility by each producer or at each specific onsite facility, per month, except as provided in subdivision (f), which result from the extraction, beneficiation, and processing of ores and minerals, including phosphate rock and the overburden from the mining of uranium ore and which is not otherwise subject to the fee specified in paragraph (3) or (4). Except as provided in subdivision (f), any of this hazardous waste disposed of, or submitted for offsite disposal, which exceeds 3,500 tons per month is exempt from any fee imposed by this section.

(3) Nineteen dollars and eighty-four cents ($19.84) for each ton, or fraction thereof, of extremely hazardous waste.

(4) Nineteen dollars and eighty-four cents ($19.84) for each ton, or fraction thereof, of restricted hazardous wastes listed in Section 66900 of Title 22 of the California Administrative Code.

(5) Fifty cents ($0.50) for each ton or fraction thereof of solid hazardous waste residues resulting from incineration or other controlled chemical or physical treatment processes if the department determines that the processes alter the physical properties of the waste being incinerated or treated and effectively remove all free liquids and volatile organic constituents from the waste being incinerated or treated.

(6) Nine dollars and ninety-two cents ($9.92) for each ton, or fraction thereof, for up to the first 3,500 tons of hazardous waste disposed of, or submitted for offsite disposal, at each specific

facility by each producer or at each specific onsite facility, per month, of hazardous waste, except as provided in subdivision (f), which is not otherwise subject to the fees specified in paragraph (1), (2), (3), (4) or (5).

(b) The amount of fees payable to the State Board of Equalization pursuant to this section shall be calculated using the total wet weight, measured in tons or fractions thereof, of the hazardous waste in the form in which the hazardous waste existed at the time of disposal, submission for disposal, or application to land using the land disposal methods defined in Section 66122 of Title 22 of the California Administrative Code.

(c) Notwithstanding subdivision (a), the fee rate for hazardous waste disposed of, or submitted for offsite disposal, into a surface impoundment which is double lined, meets the criteria specified in paragraph (1), and for which a report has not been submitted pursuant to paragraph (2), is ninety-nine cents ($0.99) for each ton or fraction thereof, of hazardous waste so disposed of or submitted for disposal. The owner or operator of the surface impoundment shall certify to the State Board of Equalization that the requirements of subparagraphs (A), (B), (C), (D), and (E) of paragraph (1) have been met before the fee rate specified in this subdivision may be applied to the hazardous waste disposed of, or submitted for disposal, into the surface impoundment.

(1) This subdivision applies only to hazardous waste disposed of, or submitted for disposal, into a surface impoundment which meets all the following criteria:

(A) The surface impoundment is double lined and is equipped with a leachate collection system which is in place and in operation, and complies with existing federal and state regulations and guidance documents published by the United States Environmental Protection Agency prior to July 1, 1984.

(B) The surface impoundment has in place and in operation a minimum of one up-gradient and two down-gradient monitoring wells capable of identifying the migration of any hazardous waste constituents disposed of into the surface impoundment.

(C) The surface impoundment has in place and in operation a vadose zone monitoring system capable of identifying the migration of any hazardous waste constituents disposed of into the surface impoundment from the impoundment into the zone between the surface and the water table.

(D) The surface impoundment has an enforceable site closure plan which initiates closure of the impoundment within 12 years after the surface impoundment is certified pursuant to this subdivision. This plan shall require the surface impoundment, and any surrounding soils contaminated by the impoundment, to be returned to a nonhazardous condition within five years of initiating closure.

(E) The owner or operator has submitted to the department and to the California Regional Water Quality Control Board

documentation demonstrating full compliance with subparagraphs (A), (B), (C), and (D).

(2) Upon discovering that, or receiving notification that, a surface impoundment certified for the fee rate specified in this subdivision has leaked or overflowed, and that there is migration into the vadose zone or into the waters of the state, the owner or operator of the surface impoundment shall report the migration to the department and the California Regional Water Quality Control Board within 24 hours after the migration or unauthorized release has been detected. The owner or operator shall transmit a full written report to the department and the regional board within five working days after the detection of the migration. The reporting requirements imposed by this paragraph are in addition to any requirements which may be imposed by Section 13271 of the Water Code. Unless the regional board, or its executive officer, determines that the presence of the hazardous waste constituents in the migration do not pose any short-term or long-term, present or potential, hazards to human health or the environment, the regional board shall issue a cease and desist order pursuant to Section 13301 of the Water Code prohibiting any discharge into the surface impoundment and shall take any other actions which are necessary.

(3) After a surface impoundment has been the subject of a report specified in paragraph (2), the fee rate specified in this subdivision for hazardous waste disposed of, or submitted for disposal, into that surface impoundment shall not apply and the fees shall be calculated pursuant to subdivision (a). The fee rate specified in this subdivision may again be applied to the hazardous waste disposed of, or submitted for disposal, into the surface impoundment only after the department and the California Regional Water Quality Control Board determines that hazardous constituents are no longer migrating from the surface impoundment, and that there is no significant potential for them to migrate from the surface impoundment into the vadose zone or into the waters of the state, so that the presence of the hazardous constituents poses, or would pose, a present or potential hazard to human health or the environment.

(4) Hazardous waste, as used in this subdivision, includes restricted hazardous waste.

(d) All fees imposed by this section shall be paid in accordance with Part 22 (commencing with Section 43001) of Division 2 of the Revenue and Taxation Code.

(e) This section shall remain in effect until June 30, 1985, and on that date is repealed.

SEC. 4. Section 25174.6 is added to the Health and Safety Code, to read:

25174.6. (a) From July 1, 1985, to June 30, 1986, the fee provided pursuant to Section 25174 to be paid by persons disposing of hazardous waste onsite, or submitting hazardous waste for

disposal offsite, for each ton, or fraction thereof, of hazardous waste disposed of on land or applied to land, shall be determined as a percentage of the base rate, as adjusted by the State Board of Equalization, pursuant to Section 25174.02. The percentages of the base rate for determining these fees are as follows:

(1) Twenty-five percent of the base rate for each ton, or fraction thereof, for up to the first 3,500 tons of hazardous waste disposed of, or submitted for offsite disposal, at each specific facility by each producer or at each specific onsite facility, per month, except as provided in subdivision (f), which is not subject to Subchapter III (commencing with Section 6921) of Chapter 82 of Title 42 of the United States Code, pursuant to subsection (b) of Section 6921 of Title 42 of the United States Code and which is not otherwise subject to the fee specified in paragraph (3) or (4), or hazardous waste for which the Administrator of the Environmental Protection Agency has determined that regulation is unwarranted, as specified in subparagraph (C) of paragraph (2) of, and subparagraph (c) of paragraph (3) of, subsection (b) of Section 6921 of Title 42 of the United States Code and which is not otherwise subject to the fee specified in paragraph (3) or (4). Except as provided in subdivision (f), any of this hazardous waste disposed of, or submitted for offsite disposal, which exceeds 3,500 tons per month, is exempt from any fee imposed by this section.

(2) Twenty-five percent of the base rate for each ton, or fraction thereof, for up to the first 3,500 tons, of hazardous waste disposed of, or submitted for offsite disposal, at each specific facility by each producer or at each specific onsite facility, per month, except as provided in subdivision (f), which result from the extraction, beneficiation, and processing of ores and minerals, including phosphate rock and the overburden from the mining of uranium ore and which is not otherwise subject to the fee specified in paragraph (3) or (4). Except as provided in subdivision (f), any of this hazardous waste disposed of, or submitted for offsite disposal, which exceeds 3,500 tons per month is exempt from any fee imposed by this section.

(3) Two hundred percent of the base rate for each ton, or fraction thereof, of extremely hazardous waste.

(4) Two hundred percent of the base rate for each ton, or fraction thereof, of restricted hazardous wastes listed in Section 66900 of Title 22 of the California Administrative Code.

(5) Five percent of the base rate for each ton or fraction thereof of solid hazardous waste residues resulting from incineration or other controlled chemical or physical treatment processes if the department determines that the processes alter the physical properties of the waste being incinerated or treated and effectively remove all free liquids and volatile organic constituents from the waste being incinerated or treated.

(6) One hundred percent of the base rate for each ton, or

fraction thereof, for up to the first 3,500 tons of hazardous waste disposed of, or submitted for offsite disposal, at each specific facility by each producer or at each specific onsite facility, per month, of hazardous waste, except as provided in subdivision (f), which is not otherwise subject to the fees specified in paragraph (1), (2), (3), (4), (5), or (7) of this subdivision or subdivision (c).

(7) Twenty-five percent of the base rate for each ton, or fraction thereof, of waste resulting from the shredding of automobile bodies, sheet metal, and household appliances, if the producer of the shredder waste has certified in writing, to the department, that the producer has in place an ongoing program for inspection and removal of all automobile batteries, mufflers, tailpipes, and wheelweights from the shredder feed, and if the producer meets any other regulations imposed by the department.

(b) The amount of fees payable to the State Board of Equalization pursuant to this section shall be calculated using the total wet weight, measured in tons or fractions thereof, of the hazardous waste in the form in which the hazardous waste existed at the time of disposal, submission for disposal, or application to land using the land disposal methods defined in Section 66122 of Title 22 of the California Administrative Code.

(c) Notwithstanding subdivision (a), the fee rate for hazardous waste disposed of, or submitted for offsite disposal, into a surface impoundment which is double lined, meets the criteria specified in paragraph (1), and for which a report has not been submitted pursuant to paragraph (2), is 10 percent of the base rate for each ton or fraction thereof, of hazardous waste so disposed of or submitted for disposal. The owner or operator of the surface impoundment shall certify to the State Board of Equalization that the requirements of subparagraphs (A), (B), (C), (D), and (E) of paragraph (1) have been met before the fee rate specified in this subdivision may be applied to the hazardous waste disposed of, or submitted for disposal, into the surface impoundment.

(1) This subdivision applies only to hazardous waste disposed of, or submitted for disposal, into a surface impoundment which meets all the following criteria:

(A) The surface impoundment is double lined and is equipped with a leachate collection system which is in place and in operation, and complies with existing federal and state regulations and guidance documents published by the United States Environmental Protection Agency prior to July 1, 1984.

(B) The surface impoundment has in place and in operation a minimum of one up-gradient and two down-gradient monitoring wells capable of identifying the migration of any hazardous waste constituents disposed of into the surface impoundment.

(C) The surface impoundment has in place and in operation a vadose zone monitoring system capable of identifying the migration of any hazardous waste constituents disposed of into the

surface impoundment from the impoundment into the zone between the surface and the water table.

(D) The surface impoundment has an enforceable site closure plan which initiates closure of the impoundment within 12 years after the surface impoundment is certified pursuant to this subdivision. This plan shall require the surface impoundment, and any surrounding soils contaminated by the impoundment, to be returned to a nonhazardous condition within five years of initiating closure.

(E) The owner or operator has submitted to the department and to the California Regional Water Quality Control Board documentation demonstrating full compliance with subparagraphs (A), (B), (C), and (D).

(2) Upon discovering that, or receiving notification that, a surface impoundment certified for the fee rate specified in this subdivision has leaked or overflowed, and that there is migration into the vadose zone or into the waters of the state, the owner or operator of the surface impoundment shall report the migration to the department and the California Regional Water Quality Control Board within 24 hours after the migration or unauthorized release has been detected. The owner or operator shall transmit a full written report to the department and the regional board within five working days after the detection of the migration. The reporting requirements imposed by this paragraph are in addition to any requirements which may be imposed by Section 13271 of the Water Code. Unless the regional board, or its executive officer, determines that the presence of the hazardous waste constituents in the migration do not pose any short-term or long-term, present or potential, hazards to human health or the environment, the regional board shall issue a cease and desist order pursuant to Section 13301 of the Water Code prohibiting any discharge into the surface impoundment and shall take any other actions which are necessary.

(3) After a surface impoundment has been the subject of a report specified in paragraph (2), the fee rate specified in this subdivision for hazardous waste disposed of, or submitted for disposal, into that surface impoundment shall not apply and the fees shall be calculated pursuant to subdivision (a). The fee rate specified in this subdivision may again be applied to the hazardous waste disposed of, or submitted for disposal, into the surface impoundment only after the department and the California Regional Water Quality Control Board determines that hazardous constituents are no longer migrating from the surface impoundment, and that there is no significant potential for them to migrate from the surface impoundment into the vadose zone or into the waters of the state, so that the presence of the hazardous constituents poses, or would pose, a present or potential hazard to human health or the environment.

(4) Hazardous waste, as used in this subdivision, includes

restricted hazardous waste.

(d) All fees imposed by this section shall be paid in accordance with Part 22 (commencing with Section 43001) of Division 2 of the Revenue and Taxation Code.

(e) The fees specified in subdivision (a) shall be effective commencing July 1, 1985, and shall remain in effect only until June 30, 1986.

(f) The monthly tonnage limits on the amount of hazardous waste subject to the fee imposed by this section shall remain in effect only until June 30, 1986, and after that date the fees specified in this section shall apply to all amounts of the hazardous waste disposed of, or submitted for offsite disposal, per month.

(g) This section shall become operative on July 1, 1985.

SEC. 5. Section 25174.8 of the Health and Safety Code is amended to read:

25174.8. Any person who owns or operates a site which is contaminated with hazardous wastes, and who has a written agreement with the department to voluntarily clean up and remove contaminated soils or sludges from the site, may request that these soils or sludges be exempted by the department from the fees specified in Sections 25174 and 25174.6. The department may exempt from these fees those soils or sludges removed from the site which exceed 2,500 tons per month, and which are removed or transferred to an authorized facility, if all of the following applies:

(a) No disposal of hazardous wastes has occurred at the site undergoing cleanup, or on any portion of the site, from July 1, 1983, to July 1, 1986.

(b) The department has approved a site mitigation and cleanup plan submitted by the owner or operator of the site.

(c) The department determines that granting this exemption will not discourage the use of waste treatment or destruction technologies that would otherwise be economically feasible.

SEC. 6. Section 25174.9 of the Health and Safety Code is amended to read:

25174.9. Notwithstanding any other provision of law, the department may, by emergency regulation, increase or decrease the amount of the fee established pursuant to Section 25174 or 25174.6 if it determines that the fees established are insufficient or excessive to fund the appropriations from the Hazardous Waste Control Account and to provide for a 5 percent operating reserve.

For purposes of the Administrative Procedure Act, the adoption of these regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, and general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, these regulations shall not be subject to review, approval, or repeal by the Office of Administrative Law. The fees adopted pursuant to these

regulations shall be consistent with the formula specified in subdivision (a) of Section 25174.02, and shall remain in effect only until June 30, 1986.

SEC. 7. Section 25178.1 is added to the Health and Safety Code, to read:

(c) Identification of taxes paid to Hazardous Substance Account, by each industry, according to both of the following:

(1) The percentage of overall tax paid by each industry, using the Standard Industrial Code.

(2) Within each tax category, the percent paid by each industry, using the Standard Industrial Code.

(d) Identification of the fees paid to the Hazardous Waste Control Account, by industry, according to both of the following:

(1) Fees paid for waste disposed of at off-site facilities. The information shall include the manifest data in each fee category for each industry, using the Standard Industrial Code, the type and percentage of waste disposal method in each fee category, the percentage of hazardous wastes disposed of which are not subject to the fees, and the type and percentage of hazardous waste streams not subject to the fees.

(2) Fees paid for waste disposed of at on-site facilities. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

SEC. 10. Section 1 of this act shall become operative on July 1, 1985.

SEC. 11. The Legislature finds and declares that, notwithstanding Section 12080.8 of the Government Code, the

changes made to Sections 25174, 25174.6, 25174.8, and 25174.9 of the Health and Safety Code by this act, and the addition of Sections 25174.02 and 25178.1 to the Health and Safety Code made by this act, are not inconsistent with the Governor's Reorganization Plan No. 1 of the 1985–86 Regular Session of the Legislature and shall not be suspended if the reorganization plan takes effect. If the Governor's Reorganization Plan No. 1 of the 1985–86 Regular Session takes effect, the Legislative Counsel, in preparing a bill pursuant to Section 12081 of the Government Code, shall make those changes in the statutes that are necessary to incorporate the changes made to Sections 25714, 25714.6, 25714.8, and 25714.9 of the Health and Safety Code by this act, and the addition of Sections 25174.02 and 25178.1 to the Health and Safety Code made by this act, in addition to the changes made by the reorganization plan.

SEC. 12. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to maintain the operation of state monitoring and control of the disposal of toxic materials and to prevent the endangerment of public health and safety which may be commenced prior to January 1, 1986, it is necessary that this act take effect immediately.

Otherwise, the vote shall be by the landowners with each landowner having one vote for each acre of land or portion of an acre

of land that he or she owns within the area. The proposal may take effect without a vote if there are less than 12 registered voters and a petition or other written consent to the levy of the assessment, executed by the owners of at least 60 percent in area of lands within the area of benefit established by the local agency, is filed with the legislative body during the hearing. "Landowner" or "owner of land" means any person shown as the owner of land on the last equalized assessment roll or otherwise known to be the owner of the land by the legislative body. The legislative body has no obligation to obtain other information as to the ownership of the land, and its determination of ownership shall be final and conclusive for the purposes of this provision. Ballots for a special election for this purpose may be distributed to qualified electors by mail with return postage prepaid.

(b) The legislative body may annually thereafter determine the cost of the service which is financed by the assessment and, by ordinance or resolution, determine and impose the assessment.

SEC. 3. Section 65010 of the Government Code is amended to read:

65010. (a) Formal rules of evidence or procedure applicable in judicial actions and proceedings shall not apply in any proceeding subject to this title except to the extent that a public agency otherwise provides by charter, ordinance, resolution, or rule of procedure.

(b) No action, inaction, or recommendation by any public agency or its legislative body or any of its administrative agencies or officials on any matter subject to this title shall be held invalid or set aside by any court on the ground of the improper admission or rejection of evidence or by reason of any error, irregularity, informality, neglect, or omission (hereafter, error) as to any matter pertaining to petitions, applications, notices, findings, records, hearings, reports, recommendations, appeals, or any matters of procedure subject to this title, unless the court finds that the error was prejudicial and that the party complaining or appealing suffered substantial injury from that error and that a different result would have been probable if the error had not occurred. There shall be no presumption that error is prejudicial or that injury was done if the error is shown.

SEC. 4. Section 65302 of the Government Code is amended to read:

65302. The general plan shall consist of a statement of development policies and shall include a diagram or diagrams and text setting forth objectives, principles, standards, and plan proposals. The plan shall include the following elements:

(a) A land use element which designates the proposed general distribution and general location and extent of the uses of the land for housing, business, industry, open space, including agriculture, natural resources, recreation, and enjoyment of scenic beauty, education, public buildings and grounds, solid and liquid waste disposal facilities, and other categories of public and private uses of

land. The land use element shall include a statement of the standards of population density and building intensity recommended for the various districts and other territory covered by the plan. The land use element shall identify areas covered by the plan which are subject to flooding and shall be reviewed annually with respect to those areas. The land use element shall designate, in a land use category that provides for timber production, those parcels of real property zoned for timberland production pursuant to the California Timberland Productivity Act of 1982, Chapter 6.7 (commencing with Section 51100) of Part 1 of Division 1 of Title 5. The diagram for the land use element shall designate those parcels of real property for timberland production which have been so zoned pursuant to the California Timberland Productivity Act of 1982.

(b) A circulation element consisting of the general location and extent of existing and proposed major thoroughfares, transportation routes, terminals, and other local public utilities and facilities, all correlated with the land use element of the plan.

(c) A housing element as provided in Article 10.6 (commencing with Section 65580).

(d) A conservation element for the conservation, development, and utilization of natural resources including water and its hydraulic force, forests, soils, rivers and other waters, harbors, fisheries, wildlife, minerals, and other natural resources. That portion of the conservation element including waters shall be developed in coordination with any countywide water agency and with all district and city agencies which have developed, served, controlled or conserved water for any purpose for the county or city for which the plan is prepared. The conservation element may also cover:

(1) The reclamation of land and waters.

(2) Prevention and control of the pollution of streams and other waters.

(3) Regulation of the use of land in stream channels and other areas required for the accomplishment of the conservation plan.

(4) Prevention, control, and correction of the erosion of soils, beaches, and shores.

(5) Protection of watersheds.

(6) The location, quantity and quality of the rock, sand and gravel resources.

(7) Flood control.

The conservation element shall be prepared and adopted no later than December 31, 1973.

(e) An open-space element as provided in Article 10.5 (commencing with Section 65560).

(f) A noise element which shall identify and appraise noise problems in the community. The noise element shall recognize the guidelines established by the Office of Noise Control in the State Department of Health Services and shall analyze and quantify, to the extent practicable, as determined by the legislative body, current and projected noise levels for all of the following sources:

(1) Highways and freeways.

(2) Primary arterials and major local streets.

(3) Passenger and freight on-line railroad operations and ground rapid transit systems.

(4) Commercial, general aviation, heliport, helistop, and military airport operations, aircraft overflights, jet engine test stands, and all other ground facilities and maintenance functions related to airport operation.

(5) Local industrial plants, including, but not limited to, railroad classification yards.

(6) Other ground stationary noise sources identified by local agencies as contributing to the community noise environment.

Noise contours shall be shown for all of these sources and stated in terms of community noise equivalent level (CNEL) or day-night average level (L_{dn}). The noise contours shall be prepared on the basis of noise monitoring or following generally accepted noise modeling techniques for the various sources identified in paragraphs (1) to (6), inclusive.

The noise contours shall be used as a guide for establishing a pattern of land uses in the land use element that minimizes the exposure of community residents to excessive noise.

The noise element shall include implementation measures and possible solutions that address existing and foreseeable noise problems, if any. The adopted noise element shall serve as a guideline for compliance with the state's noise insulation standards.

(g) A safety element for the protection of the community from any unreasonable risks associated with the effects of seismically induced surface rupture, ground shaking, ground failure, tsunami, seiche, and dam failure; slope instability leading to mudslides and landslides, subsidence and other geologic hazards known to the legislative body; flooding; and wild land and urban fires. The safety element shall include mapping of known seismic and other geologic hazards. It shall also address evacuation routes, peak load water supply requirements, and minimum road widths and clearances around structures, as those items relate to identified fire and geologic hazards.

To the extent that a county's safety element is sufficiently detailed and contains appropriate policies and programs for adoption by a city, a city may adopt that portion of the county's safety element that pertains to the city's planning area in satisfaction of the requirement imposed by this subdivision.

Each county and city shall submit to the Division of Mines and Geology of the Department of Conservation one copy of the safety element and any technical studies used for developing the safety element.

SEC. 5. Section 65352 of the Government Code is amended to read:

65352. Prior to action by a legislative body to adopt or substantially amend a general plan, the planning agency shall refer

the proposed action to all of the following entities:

(a) Any city or county, within or abutting the area covered by the proposal, and any special district which may be significantly affected by the proposed action, as determined by the planning agency.

(b) The local agency formation commission.

(c) Any areawide planning agency whose operations may be significantly affected by the proposed action, as determined by the planning agency.

(d) Any federal agency if its operations or lands within its jurisdiction may be significantly affected by the proposed action, as determined by the planning agency.

Each entity receiving a proposed general plan or amendment of a general plan pursuant to this section shall have 45 days from the date the referring agency mails it or delivers it in which to comment unless a longer period is specified by the planning agency.

This section is directory, not mandatory, and the failure to refer a proposed action to the other entities specified in this section does not affect the validity of the action, if adopted.

To the extent that the requirements of this section conflict with the requirements of Chapter 4.4 (commencing with Section 65919), the requirements of Chapter 4.4 shall prevail.

SEC. 8. Section 66422 of the Government Code is repealed.

SEC. 9. Section 66464 of the Government Code is amended to read:

66464. (a) Unless otherwise provided by the county, if the final map or map parcel is not subject to Section 66493, after the approval by the city of a final map of a subdivision or a parcel map, the city clerk shall transmit the map to the county recorder.

(b) If a final map or parcel map is subject to Section 66493, after all certificates and security required under Section 66493 have been filed and deposited with the clerk of the board of supervisors and approved by the county, the clerk of the board of supervisors shall certify that the certificates have been filed and deposits have been made and shall transmit the final map or parcel map to the county recorder.

(c) After the approval by the county of a final or parcel map of a subdivision within unincorporated territory, the map shall be transmitted ultimately to the county recorder.

SEC. 10. Section 66477.1 of the Government Code is amended to read:

66477.1. (a) At the time the legislative body approves a final map, it shall also accept, accept subject to improvement, or reject any offer of dedication. The clerk of the legislative body shall certify on the map the action by the legislative body.

(b) The legislative body of a county may accept into the county road system, pursuant to Section 941 of the Streets and Highways Code, any road for which an offer of dedication has been accepted or accepted subject to improvements.

SEC. 11. Section 66492 of the Government Code is amended to

read:

66492. Prior to the filing of the final map or parcel map with the legislative body, the subdivider shall file with the county recorder of the county in which any part of the subdivision is located, a certificate from the official computing redemptions in any public agency in which any part of the subdivision is located, showing that, according to the records of that office, there are no liens against the subdivision or any part thereof for unpaid, state, county, municipal or local taxes or special assessments collected as taxes, except taxes or special assessments not yet payable.

SEC. 12. Section 66493 of the Government Code is amended to read:

66493. (a) Whenever any part of the subdivision is subject to a lien for taxes or special assessments collected as taxes which are not yet payable, the final map or parcel map shall not be recorded until the owner or subdivider does both of the following:

(1) Files with the clerk of the board of supervisors of the county wherein any part of the subdivision is located, a certificate prepared by the appropriate state or local official giving his or her estimate of those taxes or assessments.

(2) Executes and files with the clerk of the board of supervisors of the county wherein any part of the subdivision is located, security conditioned upon the payment of all state, county, municipal, and local taxes and the current installment of principal and interest of all special assessments collected as taxes, which at the time the final map is recorded are a lien against the property, but which are not yet payable.

(b) If the land being subdivided is a portion of a larger parcel shown on the last preceding tax roll as a unit, the security for payment of taxes need be only for that sum as may be determined by the county to be sufficient to pay the current and delinquent taxes on the land being subdivided, together with all accrued penalties and costs if those taxes have been or are allowed to become delinquent. Separate assessor's parcel numbers shall be given to the portion of the larger parcel which is not within the proposed subdivision and to the parcel or parcels which are within the proposed subdivision.

If the land being subdivided is sold for taxes, it may be redeemed for the sale without the redemption of the remainder of the larger parcel of which it is a part pursuant to the Revenue and Taxation Code as if it were held in ownership separate from and other than the ownership of the remainder.

(c) Whenever land subject to a special assessment or bond which may be paid in full is divided by the line of a lot or parcel of the subdivision, that assessment or bond shall be paid in full, or security shall be filed with the clerk of the board of supervisors, payable to the county as trustee for the assessment bondholders for the payment of the special assessment or bond. This section does not apply to bonds issued under the Improvement Bond Act of 1915, Division 10 (commencing with Section 8500) of the Streets and

Highways Code.

(d) The amount of security for "taxes" in subdivision (a) or "current taxes" for subdivision (b), shall consider only amounts shown on the regular assessment roll or shown on any supplemental rolls prepared pursuant to Chapter 3.5 (commencing with Section 75) of Part 0.5 of Division 1 of the Revenue and Taxation Code.

SEC. 13. Section 46050.1 of the Health and Safety Code is amended to read:

46050.1. Notwithstanding Section 65040.2 of the Government Code, the office shall adopt, in coordination with the Office of Planning and Research and each state department and agency as it deems appropriate, guidelines for the preparation and content of noise elements as required by Section 65302 of the Government Code.

In adding Section 39850.1 to the Health and Safety Code, which was the predecessor to this section, and amending Section 65302 of the Government Code by Chapter 1124 of the Statutes of 1975, it was the intent of the Legislature to ensure, insofar as possible, that new and periodically revised noise elements in local governments' general plans be more standardized, comprehensive, and utilitarian than they had been previously.

However, the Legislature also recognized that some cities and counties had already adopted noise elements pursuant to the existing Section 65302 of the Government Code and that others had received extensions on the due date of their noise element until September 20, 1975. Those cities and counties were not required to resubmit new noise elements consistent with Section 65302 of the Government Code, or to recognize guidelines adopted pursuant to this section, but are required, upon initial and periodic revision of the noise element, to comply with Section 65302 of the Government Code and to recognize those guidelines.

SEC. 14. Section 56032 of the Health and Safety Code is amended to read:

56032. A plan for a large scale urban development shall contain, as a minimum, all of the following elements:

(a) A legal description of the exterior boundaries of the site proposed as a large scale urban development together with a map encompassing the area and delineating thereon the boundaries.

(b) A comprehensive plan for the financing of public improvements and services, including both the costs of capital outlay and the costs of operation and maintenance pursuant to Section 56036. The plan shall address public improvement financing measures to be taken in the event that the sponsor falls behind the construction schedule set out in the plan, or if the sponsor abandons the project at any point.

(c) A specific timetable for the completion of each phase of the development.

(d) A comprehensive development plan which is consistent with state and local general plan requirements, and which specifies the

uses to which the proposed parcels will be dedicated. At least 20 percent of the gross acreage shall be set aside for open-space or park purposes. If the comprehensive development plan is not consistent with the applicable local general plan, it shall be accompanied by any necessary general plan amendment which may be considered simultaneously with the development application. However, any amendment of the general plan pursuant to this subdivision shall not be counted as a general plan amendment for the purposes of subdivision (b) of Section 65358 of the Government Code.

(e) Information on the number of jobs to be created in the large scale urban development and an assessment of the income levels of the jobs. The plan shall provide for development of a balance of jobs and housing that would maximize the opportunities of large scale urban development residents to work there. If the legislative body finds that the sponsor is not making adequate efforts to achieve this balance between jobs and housing at the end of each three-year period following approval of the plan, the legislative body shall take whatever actions it deems necessary to ensure that balance, including halting the issuance of development approvals.

(f) A detailed plan for the provision of housing for all income ranges based on the identified housing needs created by the large scale urban development. Not less than 25 percent of the housing units shall be affordable to low- and moderate-income households. The plan shall provide that, at the end of each three-year period from the time of approval of the plan, at least 25 percent of the housing units completed or under construction shall be affordable to low- and moderate-income households. The timetable required pursuant to subdivision (c) shall provide for the development of housing in accordance with this subdivision.

(g) An evaluation of the impact, if any, of the plan on agricultural lands located within, or in proximity to, the area to be included within the plan and on crop production of these lands. The evaluation shall include, at a minimum, an assessment of the economic impact of converting agricultural lands to other uses, the necessity of preserving lands in agricultural use, and any adverse impact which the development of a large scale urban development pursuant to this division would have on agricultural operations in proximity to the large scale urban development. The legislative body shall, based on the findings of these evaluations, require measures necessary to mitigate the adverse impact, if any, of the large scale urban development on agricultural lands and crop production within or in proximity to the proposed boundaries of the large scale urban development.

(h) A detailed plan for the development of commercial and industrial sites which may be necessary to provide a balanced economic base for the large scale urban development and to provide economic opportunities for the residents of the large scale urban development.

(i) A comprehensive plan for the development of public facilities,

such as transit and schools, which may be required to meet the needs of the large scale urban development.

(j) An evaluation of impact of the plan on the capacity of existing sewer facilities and water resources in contiguous cities and in other affected areas.

(k) An evaluation of the impact of the plan on existing or planned industrial and commercial developments in contiguous cities.

(*l*) An evaluation of the impact of the plan on air and water quality within the region in which the large scale urban development is to be located and on the public service facilities within that region.

SEC. 15. Section 21551 of the Public Contract Code is repealed.

SEC. 16. Section 21551 is added to the Public Contract Code, to read:

21551. All contracts for the construction of any unit of work estimated to cost over ten thousand dollars ($10,000) shall be let to the lowest responsible bidder in accordance with Chapter 2 (commencing with Section 21000). If cost of the project or service will not exceed ten thousand dollars ($10,000), the district may have the work done by force account. The district may purchase in the open market, without advertising for bid, materials and supplies for use in any work either under contract or by force account.

SEC. 17. Section 941 of the Streets and Highways Code is amended to read:

941. (a) Boards of supervisors shall, by proper order, cause those highways which are necessary to public convenience to be established, recorded, constructed, and maintained in the manner provided in this division.

(b) No public or private road shall become a county highway until and unless the board of supervisors, by appropriate resolution, has caused the road to be accepted into the county road system. No county shall be held liable for failure to maintain any road unless and until it has been accepted into the county road system by resolution of the board of supervisors.

(c) The acceptance of any road or the acceptance of any road subject to improvements pursuant to Section 66477.1 of the Government Code does not constitute the acceptance of the road into the county road system in the absence of the adoption of a resolution by the board of supervisors accepting the road into the county road system.

SEC. 18. Section 33 of the San Diego County Flood Control District Act (Chapter 55 of the Statutes of 1966, First Extraordinary Session) is repealed.

SEC. 19. Section 51 is added to the San Diego County Flood Control District Act (Chapter 55 of the Statutes of 1966, First Extraordinary Session), to read:

Sec. 51. Title to all easements and other real property owned by the district lying within the boundaries of an incorporated city shall, on July 1, 1985, automatically vest solely in the city. Whenever an

easement or other real property owned by the district is annexed to a city, title to the easement or other real property shall automatically vest solely in the city.

SEC. 20. Notwithstanding Sections 54902 and 54903 of the Government Code, the incorporation of the City of Mammoth Lakes is effective for purposes of the allocation of property tax revenues pursuant to Sections 96 through 99 of the Revenue and Taxation Code for the 1985–86 fiscal year if the statement and map or plat required by Section 54900 of the Government Code were filed on or before July 1, 1985.

SEC. 21. The Legislature finds and declares that a special law is necessary and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution because of the unique circumstances of the City of Mammoth Lakes. The Legislature finds, therefore, that this special act is necessary. The city was unable to file the statement amd map or plat required by Section 54900 of the Government Code by January 1, 1985, as required by Section 54902 of that code in order to receive an allocation of property tax revenues for the 1985–86 fiscal year.

SEC. 22. No appropriation is made by this act pursuant to Section 6 of Article XIII B of the California Constitution because there are savings as well as costs in this act which in the aggregate do not result in additional net costs. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 4 (commencing with Section 17550) of Part 7 of Division 2 of Title 2 of the Government Code.

SEC. 23. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to correct certain cross-references in the law to other provisions of law and to revise certain provisions relating to the rules of evidence or procedure applicable to proceedings under the planning and zoning law, in order to reorganize, recast, and clarify other provisions of law relating to local governments, and in order to authorize the distribution of property tax revenues to the City of Mammoth Lakes as soon as possible, it is necessary for this act to take effect immediately.

In addition, Section 33 of Chapter 912 of the Statutes of 1984 was unintentionally superseded by Article 120 of Chapter 1128 of the Statutes of 1984. In order to allow the district to operate under contracting procedures applicable to the County of San Diego as intended by the Legislature and in order to clarify property rights between the district and cities which will be detached from the district by July 1, 1985, this chapter must take effect immediately.

This computation shall be included in computations made by the superintendent pursuant to Article 2 (commencing with Section 56710) of Chapter 7 of Part 30.

(b) For any county office of education that received an apportionment pursuant to subdivision (a), that offers less than 180 days of instruction in the 1986–87 year or any fiscal year thereafter, and that does not provide the minimum number of instructional minutes specified in subdivision (a) of Section 46201.5 for that fiscal year, the Superintendent of Public Instruction shall reduce the special education apportionment per unit of average daily attendance for that fiscal year by an amount attributable to the increase received pursuant to subdivision (a), as adjusted in fiscal years subsequent to the 1985–86 fiscal year.

SEC. 3. Section 46201.5 is added to the Education Code, to read:

46201.5. (a) In each of the 1985–86 and 1986–87 fiscal years, for each county office of education that certifies to the Superintendent of Public Instruction that, for special day classes pursuant to Section 56364, it offers at least the amount of instructional time specified in this subdivision, the Superintendent of Public Instruction shall determine an amount equal to eighty dollars ($80) in the 1985–86 fiscal year and forty dollars ($40) in the 1986–87 fiscal year per unit of current year second principal apportionment average daily attendance for special day classes in kindergarten and grades 1 to 8, inclusive, and one hundred sixty dollars ($160) in the 1985–86 fiscal year and eighty dollars ($80) in the 1986–87 fiscal year per unit of current year second principal apportionment average daily attendance for special day classes in grades 9 to 12, inclusive.

If a district or county office offered those programs in the 1980-81 fiscal year but in a subsequent year transfers the programs to another district or county office in the special education local plan area, the district or county office shall be exempt from the provisions of this section in any year when the programs are offered by the district or county office to which they were transferred.

56711. The county superintendent shall compute for each district and county office the sum of all the following:

(a) Instructional personnel services amount pursuant to Article 3 (commencing with Section 56720).

(b) Support services amount pursuant to Article 4 (commencing with Section 56730).

(c) Amount for pupils in nonpublic, nonsectarian schools pursuant to Article 5 (commencing with Section 56740).

(d) Amount for instructional time entitlement for special day classes under Sections 46200.5 and 46201.5.

SEC. 6.5. Section 56728.6 of the Education Code is amended to read:

56728.6. (a) Notwithstanding subdivision (d) of Section 56760, in the 1984–85 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of those instructional personnel service units operated and fundable at the second principal apportionment of the prior fiscal year, so long as the unduplicated pupil count divided by the number of instructional personnel service units is equal to or greater than the following:

(1) For special classes and centers—9.

(2) For resource specialist programs—21.

(3) For designated instruction and services—20.

(b) Notwithstanding subdivision (d) of Section 56760, in the 1984–85 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of instructional personnel service units in excess of the number of instructional personnel service units operated and fundable at the second principal apportionment of the prior fiscal year only with the

authorization of the Superintendent of Public Instruction.

(1) The superintendent shall not authorize additional units for a special education local plan area if, for that special education local plan area, the percentage of pupils in kindergarten and grades 1 through 12 enrolled in special education programs would exceed 10 percent.

(2) The superintendent shall not authorize additional units for a special education local plan area if, for that special education local plan area, the ratio of pupils in kindergarten and grades 1 through 12 receiving a specific instructional service would exceed the following:

(A) For special classes and centers—0.028 percent.

(B) For resource specialist programs—0.040 percent.

(C) For designated instruction services—0.042 percent.

(c) The Superintendent of Public Instruction shall base the authorization of funding for special education local plan areas pursuant to this section, including the reallocation of instructional personnel service units, upon criteria which shall include, but not be limited to, all of the following:

(1) Changes in the total number of pupils enrolled in kindergarten and grades 1 through 12.

(2) High and low average caseloads per instructional personnel service unit for each instructional setting.

(3) Lower-than-average and higher-than-average percentages of pupils in kindergarten and grades 1 through 12 who are currently enrolled in special education programs.

(d) A special education local plan area may apply for, and the superintendent may grant, a waiver of any of the standards and criteria specified in this section if compliance would prevent the provision of a free, appropriate public education or would create undue hardship. In granting the waivers, the superintendent shall consider the following:

(1) Pupil density of 25 or fewer units of average daily attendance per square mile in local plan areas of 30,000 or fewer average daily attendance.

(2) The location of licensed children's institutions, foster family homes, residential medical facilities, and other similar facilities within the boundaries of a local plan if 5 percent or more of the local plan's unduplicated pupil count resides in those facilities.

(e) For the purpose of this section, a special education local plan area may apply for, and the superintendent may grant, a waiver of the standards specified in paragraph (2) of subdivision (b) if the waiver is programmatically justified.

(f) For the 1984–85 fiscal year only, a special education local plan area may apply for, and the superintendent may grant, a waiver of any of the standards and criteria specified in this section if either of the following applies:

(1) Compliance would require the termination of a contract employee in violation of Section 44949 or 44955.

(2) The special education local plan area's duplicated pupil count divided by the number of designated instruction and service units is equal to or greater than 39.

(g) By authorizing units pursuant to this subdivision, the superintendent shall not increase the statewide total number of instructional personnel service units for purposes of state apportionments unless an appropriation specifically for growth in the number of instructional personnel service units is made in the annual Budget Act or other legislation. If such an appropriation is made, units authorized by the superintendent pursuant to this subdivision that result in an increase in the statewide total number of instructional personnel service units are subject to the following restrictions:

(1) The units shall be funded only by such appropriation and no other funds may be apportioned for the units.

(2) All units shall be fully funded pursuant to Chapter 7 (commencing with Section 56700) of Part 30.

(h) This section shall become operative July 1, 1984.

(i) This section shall become inoperative on July 1, 1985, and, as of January 1, 1986, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1986, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 7. Section 56728.6 is added to the Education Code, to read:

56728.6. (a) Notwithstanding subdivision (d) of Section 56760, in the 1985–86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of those instructional personnel service units operated and fundable for services to children three years of age or older at the second principal apportionment of the prior fiscal year, so long as the pupil count divided by the number of instructional personnel service units is equal to or greater than the following:

(1) For special classes and centers—9, based on the unduplicated pupil count.

(2) For resource specialist programs—21, based on the unduplicated pupil count.

(3) For designated instruction and services—20, based on the unduplicated pupil count, or 39, based on the duplicated pupil count.

(b) Notwithstanding subdivision (d) of Section 56760, in the 1984–85 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of instructional personnel service units for services to children three years of age or older in excess of the number of instructional personnel service units operated and fundable at the second principal apportionment of the prior fiscal year only with the authorization of the Superintendent of Public Instruction.

(1) The superintendent shall not authorize additional units for a special education local plan area if, for that special education local plan area, the percentage of pupils in kindergarten and grades 1 through 12 enrolled in special education programs, excluding pupils

less than three years of age, would exceed 10 percent.

(2) The superintendent shall not authorize additional units for a special education local plan area if, for that special education local plan area, the ratio of pupils in kindergarten and grades 1 through 12 receiving a specific instructional service, excluding pupils less than three years of age, would exceed the following:

(A) For special classes and centers—0.028.

(B) For resource specialist programs—0.040.

(C) For designated instruction services—0.042.

(3) The superintendent may authorize additional units for a special education local plan area only if the area's pupil-instructional personnel unit ratios, based on the unduplicated pupil count, meet or exceed the ratios specified in paragraphs (1), (2), and (3) of subdivision (a).

(c) The Superintendent of Public Instruction shall base the authorization of funding for special education local plan areas pursuant to this section, including the reallocation of instructional personnel service units, upon criteria which shall include, but not be limited to, all of the following:

(1) Changes in the total number of pupils enrolled in kindergarten and grades 1 through 12.

(2) High- and low-average caseloads per instructional personnel service unit for each instructional setting.

(3) Lower than average and higher than average percentages of pupils in kindergarten and grades 1 through 12 who are currently enrolled in special education programs.

(d) A special education local plan area may apply for, and the superintendent may grant, a waiver of any of the standards and criteria specified in this section if compliance would prevent the provision of a free, appropriate public education or would create undue hardship. In granting the waivers, the superintendent shall consider the following:

(1) Pupil density of 25 or fewer units of average daily attendance per square mile in local plan areas of 30,000 or fewer average daily attendance, or pupil density of 20 or fewer units of average daily attendance per square mile in local plan areas of more than 30,000 average daily attendance.

(2) The location of licensed children's institutions, foster family homes, residential medical facilities, and other similar facilities within the boundaries of a local plan if 5 percent or more of the local plan's unduplicated pupil count resides in those facilities.

(e) For the purpose of this section, a special education local plan area may apply for, and the superintendent may grant, a waiver of the standards specified in paragraph (2) of subdivision (b) if the waiver is programmatically justified.

(f) By authorizing units pursuant to this section, the superintendent shall not increase the statewide total number of instructional personnel service units for purposes of state apportionments unless an appropriation specifically for growth in

the number of instructional personnel service units is made in the annual Budget Act or other legislation. If such an appropriation is made, units authorized by the superintendent pursuant to this subdivision that result in an increase in the statewide total number of instructional personnel service units are subject to the following restrictions:

(1) The units shall be funded only by such appropriation and no other funds may be apportioned for the units.

(2) All units shall be fully funded pursuant to Chapter 7 (commencing with Section 56700) of Part 30.

(g) This section shall become operative July 1, 1985.

SEC. 8. Section 56728.8 is added to the Education Code, to read:

56728.8. (a) Notwithstanding subdivision (d) of Section 56760, for the 1985–86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of those instructional personnel service units operated and fundable for services to individuals with exceptional needs younger than three years of age at the second principal apportionment of the prior fiscal year, so long as the unduplicated pupil count of these pupils divided by the number of instructional personnel service units is not less than the following:

(1) For special classes and centers—12.

(2) For resource specialist programs—24.

(3) For designated instruction and services—12.

(b) Notwithstanding subdivision (d) of Section 56760, in the 1985–86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of instructional personnel service units for services to individuals with exceptional needs younger than three years of age in excess of the number of instructional personnel service units operated and fundable at the second principal apportionment of the prior fiscal year only with the authorization of the Superintendent of Public Instruction.

(c) The Superintendent of Public Instruction shall base the authorization of funding for special education local plan areas pursuant to this section, including the reallocation of instructional personnel service units, upon criteria that shall include, but not be limited to, the following:

(1) Changes in the total number of pupils younger than three years of age enrolled in special education programs.

(2) High- and low-average caseloads per instructional personnel service unit for each instructional setting.

(d) Notwithstanding subdivision (e) of Section 56760, infant programs in special classes and centers funded pursuant to this item shall be supported by two aides, unless the Superintendent of Public Instruction determines otherwise.

(e) Infant services in resource specialist programs funded pursuant to this item shall be supported by one aide.

(f) In determining the number of instructional personnel service units for which a special education local plan area may qualify, a

minimum of six infants shall constitute eligibility for the initial unit. However, programs operating pursuant to Section 56425 shall be allowed a minimum of one initial unit for the 1985–86 fiscal year. When units are allocated pursuant to this subsection, the Superintendent of Public Instruction shall allocate only the least expensive unit appropriate.

(g) Beginning with the 1986–87 fiscal year, those programs operating pursuant to Section 56425 with fewer than six infants shall receive a partial unit, as determined by the Superintendent of Public Instruction.

(h) A special education local plan area may apply for, and the superintendent may grant, a waiver of any of the standards and criteria specified in this section if compliance would prevent the provision of a free, appropriate public education or would create undue hardship. In granting the waivers, the superintendent shall give priority to the following factors:

(1) Pupil density of 25 or fewer units of average daily attendance per square mile in local plan areas of 30,000 or fewer average daily attendance, or pupil density of 20 or fewer units of average daily attendance per square mile in local plan areas of more than 30,000 average daily attendance.

(2) The location of licensed children's institutions, foster family homes, residential medical facilities, or similar facilities within the boundaries of a local plan if 5 percent or more of the local plan's unduplicated pupil count resides in those facilities.

(i) By authorizing units pursuant to this section, the superintendent shall not increase the statewide total number of instructional personnel service units for purposes of state apportionments unless an appropriation specifically for growth in the number of instructional personnel service units is made in the annual Budget Act or other legislation. If such an appropriation is made, units authorized by the superintendent pursuant to this section are subject to the following restrictions:

(1) The units shall be funded only by such an appropriation and no other funds may be apportioned for the units.

(2) All units shall be fully funded pursuant to Chapter 7 (commencing with Section 56700) of Part 30.

SEC. 9. Section 56730.5 of the Education Code is repealed.

SEC. 10. Section 56730.5 is added to the Education Code, to read:

56730.5. (a) For the 1985–86 fiscal year, the Superintendent of Public Instruction shall adopt and disseminate to all local education agencies, program cost accounting procedures that meet all of the following conditions:

(1) The procedures shall require all local education agencies to use the same methods of allocating direct support costs to specific programs.

(2) The methodology used to allocate direct support costs shall be readily supported by documentation or be the result of standards prescribed by the cost accounting procedures.

(3) For each category of support costs, a single allocation method shall be employed unless documentation as prescribed by the accounting procedures specified by the Superintendent of Public Instruction is available.

(b) Local education agencies shall be required to use the cost accounting procedures provided for under this section during the 1985–86 fiscal year, and to report their 1985–86 fiscal year costs to the State Department of Education using these procedures on forms prescribed by the Superintendent of Public Instruction.

SEC. 11. Section 56760 of the Education Code is amended to read:

56760. The annual budget plan, required by subdivision (e) of Section 56200, shall comply with the following proportions, unless a waiver is granted by the superintendent pursuant to Section 56761:

(a) The district, special education services region, or county office, shall estimate the pupils to be served in the subsequent fiscal year by instructional personnel service. This estimate shall be computed as the ratio of pupils to be served by instructional personnel service to the enrollment of pupils in kindergarten and grades 1 to 12, inclusive, of the districts and county offices participating in the plan.

(1) The ratio of pupils funded by the state by instructional personnel service during the regular school year, including pupils for whom education and services are provided for by contract with nonpublic, nonsectarian schools, to the enrollment in kindergarten and grades 1 to 12, inclusive, shall not exceed 0.10.

(2) The ratio of pupils funded by the state by instructional personnel service to the enrollment in kindergarten and grades 1 to 12, inclusive, receiving a specific instructional service shall not exceed the following:

(A) For special classes and centers, 0.028.

(B) For resource specialist programs, 0.040.

(C) For designated instruction services, 0.042.

(b) The district, special education services region, or county office shall divide the amounts in paragraphs (1), (2), and (3) by the appropriate ratios computed pursuant to paragraph (2) of subdivision (a).

(1) For special classes and centers, 10 pupils.

(2) For resource specialist programs, 24 pupils.

(3) For designated instruction and services, 24 pupils.

(c) The district, special education services region, or county office shall divide the sum of the estimated enrollments on October 1 of the subsequent fiscal year in kindergarten and grades 1 to 12, inclusive, of each district and county office participating in the plan by each of the amounts computed pursuant to paragraphs (1), (2), and (3) of subdivision (b).

(d) The amounts computed pursuant to subdivision (c) shall be the authorized instructional personnel service units the state will fund for the district, special education services region, or county office in the then current year. The allocation of these instructional

personnel service units shall be described in the annual budget plan.

(e) The number of units of instructional services funded pursuant to this article for a local plan shall not exceed for special classes and centers, an average of one teacher and 1.05 aide per special class or center actually operated.

SEC. 12. Article 8 (commencing with Section 56771) is added to Chapter 7 of Part 30 of the Education Code, to read:

Article 8. Low Incidence Funding

56771. (a) Commencing with the 1985–86 fiscal year, and for each fiscal year thereafter, funds to support specialized books, materials, and equipment as required under the individualized education program for each pupil with low incidence disabilities, as defined in Section 56026.5, shall be determined by dividing the total number of pupils with low incidence disabilities in the state, as reported on December 1 of the prior fiscal year, into the annual appropriation provided for this purpose in the Budget Act.

(b) The per-pupil entitlement determined pursuant to subdivision (a) shall be multiplied by the number of pupils with low incidence disabilities in each special education local plan area to determine the total funds available for each local plan.

(c) The superintendent shall apportion the amount determined pursuant to subdivision (b) to the responsible local agency in the special education local plan area for purposes of puchasing and coordinating the use of specialized books, materials, and equipment.

(d) As a condition of receiving these funds, the responsible local agency shall ensure that the appropriate books, materials, and equipment are purchased, that the use of the equipment is coordinated as necessary, and that the books, materials, and equipment are reassigned to local educational agencies within the special education local plan area once the agency that originally received the books, materials, and equipment no longer needs them.

(e) It is the intent of the Legislature that special education local plan areas share unused specialized books, materials, and equipment with neighboring special education local plan areas.

SEC. 13. Section 56830 is added to the Education Code, to read:

56830. (a) The Legislature hereby finds and declares that, since the 1980–81 fiscal year, there have been significant annual deficiencies in special education funding that have created fiscal hardships for many school districts and county offices of education and adversely impacted the quality of services to many individuals with exceptional needs, in abrogation of the objectives set forth in Section 56000.

(b) It is the intent of the Legislature that the sum of at least sixty million dollars ($60,000,000) be appropriated in the Budget Act for the 1986–87 fiscal year, and at least one hundred twenty million dollars ($120,000,000) be appropriated in the Budget Act for the 1987–88 fiscal year, in excess of the appropriations and cost-of-living

adjustments for the 1985–86 fiscal year, to support programs for individuals with exceptional needs.

(1) Priority for appropriation of these funds in the 1986–87 fiscal year shall be accorded to programs that directly improve special education program quality, including, but not limited to, the restoration of instructional aide time in special day classes for nonseverely handicapped students and in the resource specialist program to the level originally required by this part; further expansion of infant services and vocational programs; growth in the low incidence fund; and additional growth in the number of instructional personnel service units.

(2) Based on the cost accounting information produced pursuant to Section 56730.5, consideration shall also be given in the 1987–88 fiscal year to revision of support services ratios, funding of the local general fund contribution computed pursuant to Section 56751 or 56753, and the expansion of low incidence funding to include specialized services, as appropriate, in addition to specialized materials and equipment.

SEC. 14. For the 1985–86 fiscal year, instructional personnel service units that were operated in the 1984–85 fiscal year to provide services to children younger than three years of age shall be excluded from funding computations made pursuant to Section 56728.6 of the Education Code, but shall be included in funding computations made pursuant to Section 56728.8 of the Education Code.

SEC. 14.5. Reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), shall be made from the State Mandates Claims Fund.

SEC. 15. Notwithstanding Section 2231.5 of the Revenue and Taxation Code, this act does not contain a repealer, as required by that section; therefore, the provisions of this act shall remain in effect unless and until they are amended or repealed by a later enacted act.

SEC. 16. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that essential revisions in the structure of special education funding may be made for application to the Budget Act for the 1985–86 fiscal year, it is necessary that this act take effect immediately.

CHAPTER 116

An act to amend Sections 17052.5, 17052.8, 23601, and 23601.5 of the Revenue and Taxation Code, and to amend Item 9100-101-001 of Section 2.00 of the Budget Act of 1985, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor June 28, 1985. Filed with Secretary of State June 28, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 17052.5 of the Revenue and Taxation Code is amended to read:

17052.5. (a) (1) There shall be allowed as a credit against the amount of "net tax" (as defined in Section 17039), an amount equal to the amount determined in paragraph (2), (3), or (6).

(2) Except as provided in subparagraph (A), the amount of the credit allowed by this section shall be 55 percent of the cost (as defined in subdivision (h)) incurred by the taxpayer for any solar energy system installed on premises in California which are owned by the taxpayer at the time of installation. For any such solar energy system installed on dwellings, including multifamily dwellings, on or after August 1, 1983, and before August 1, 1985, the percentage specified by this paragraph, subparagraph (C), subparagraph (A) of paragraph (6), and subdivision (g) shall be 50 percent, and the credit shall not exceed three thousand dollars ($3,000) per solar energy system as defined in subdivision (h). For any such solar energy system installed on dwellings, excluding multifamily dwellings, on or after August 1, 1985, the percentage specified by this paragraph, subparagraph (C), subparagraph (A) of paragraph (6), and subdivision (g) shall be 10 percent and the credit shall not exceed one thousand dollars ($1,000) per solar energy system as defined in subdivision (h).

(A) Only the owner of the premises (as defined in subdivision (h)) on which the solar energy system is installed may claim the tax credit for costs incurred; however, an owner-builder or owner-developer of new single-family dwellings may elect not to claim the solar energy tax credit for any or all systems installed on new single-family dwellings. If an owner-builder or owner-developer irrevocably elects not to claim the tax credit for a solar energy system, the original purchaser of the new single-family dwelling on which the system is installed may claim the credit provided that the purchaser can confirm the election, if necessary, by a written document signed by the owner-builder or owner-developer.

If an owner-builder or owner-developer of new single-family dwellings elects to claim the credit for any system installed prior to August 1, 1985, for which the federal credit is allowed, the credit shall be equal to 15 percent of the cost of these systems. If an

owner-builder or owner-developer of new single-family dwellings elects to claim the credit for any other installations made prior to August 1, 1985, which qualify for this credit, the credit shall be as defined in paragraph (2).

(B) The solar energy tax credit shall be claimed in the state income tax return for the taxable year in which the solar energy system was installed; however, if an owner-builder or owner-developer irrevocably elects not to claim the tax credit for a solar energy system, the original purchaser of the new single-family dwelling on which the system is installed may claim the credit for the taxable year during which the purchaser's escrow closed or the taxable year during which the purchaser acquired legal title to the single-family dwelling.

(C) A taxpayer who claimed the solar energy tax credit in the state income tax return for the taxable year in which the solar energy system was installed, may claim the credit in subsequent years for additions to the system or additional systems on the basis of the formula in this paragraph, so long as the total amount of the credit claimed does not exceed three thousand dollars ($3,000) per system for installations made on or before July 31, 1985, and one thousand dollars ($1,000) per system for installations made on or after August 1, 1985.

(3) With regard to premises in California which are owned by the taxpayer, other than single-family dwellings and those multifamily dwellings on which systems are installed before August 1, 1985, the amount of the credit allowed by this section shall be 25 percent of the cost (as defined in subdivision (h)) of the solar energy system, except for wind energy systems installed on or after January 1, 1986, for which the credit shall be 15 percent of the cost. This paragraph shall apply to solar energy systems installed on multifamily dwellings on or after August 1, 1985.

A taxpayer who claimed the solar energy tax credit in the state income tax return for the taxable year in which the solar energy system was installed, may claim the credit in subsequent years for additions to the system or additional systems by the amount prescribed by this paragraph.

(4) If a solar energy system serves two or more dwellings, the owner or owners of the system shall be eligible to receive the credit in proportion to the number of dwelling units served. The amount of the credit shall be determined by dividing the cost (as defined in paragraph (7)) of the solar energy system by the number of dwelling units served by the system, and applying the formula described in paragraph (2) or (6) to the per dwelling cost. This paragraph shall not apply to systems installed on or after August 1, 1985.

(5) Energy conservation measures applied in conjunction with solar energy systems to reduce the total cost or backup energy requirements of such systems shall be considered part of the systems, and shall be eligible for the tax credit. Qualified energy conservation measures installed within six months of the date of installation of the

solar energy system are considered to be installed "in conjunction with" the solar energy system, even if the period spans two taxable years. In cases involving more than six months between the dates of installation of the energy conservation measures and the solar energy system, the taxpayer must be able to provide persuasive evidence that the energy conservation measures were in fact installed in conjunction with a solar energy system. Eligible conservation measures applied in conjunction with solar space heating shall include, but not be limited to, ceiling, wall, and floor insulation above that required by law at the time of original construction. Eligible conservation measures applied in conjunction with solar water heating shall include, but not be limited to, water heater insulation jackets, and shower and faucet flow reducing devices. Energy conservation measures which shall be eligible for the tax credit when applied in conjunction with solar energy systems shall be defined by the Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(6) Taxpayers who lease a solar energy system installed on premises in California owned by the taxpayer shall receive a tax credit as provided in subparagraph (A) or (B) provided the lessee can confirm, if necessary, by a written document signed by the lessor that (i) the lessor irrevocably elects not to claim a state tax credit for the solar energy system, and (ii) if the system is installed in a locality served by a municipal solar utility, that the lessor holds a valid permit from the municipal solar utility. Leasing requirements may be established by the Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(A) Except as provided in subparagraph (B), the credit shall equal 55 percent of the cost (as defined in subdivision (h)) of the purchased portion, and 55 percent of the principal recovery portion (as defined in subdivision (h)) of the lease payments for the term of the lease, not to exceed 10 years. That credit shall not exceed three thousand dollars ($3,000) for each system installed on or before July 31, 1985, and one thousand dollars ($1,000) for each system installed on or after August 1, 1985. In any one year, the tax credit shall apply only to the principal recovery portion of lease payments made during that year and to amounts expended on the purchased portion of the solar energy system (including installation charges) during that year. For any solar energy system installed on or after August 1, 1983, and on or before July 31, 1985, the percentage specified by this subparagraph shall be 50 percent. For any solar energy system installed on dwellings, exclusive of multifamily dwellings, on or after August 1, 1985, the percentage specified by this subparagraph shall be 10 percent.

(B) In the case of premises other than single-family dwellings and those multifamily dwellings on which systems are installed before August 1, 1985, the credit shall equal 25 percent of the cost (as defined in subdivision (h)) of the purchased portion and 25 percent

of the principal recovery portion (as defined in subdivision (h)) of the lease payments for the term of the lease, not to exceed 10 years. This subparagraph shall apply to systems installed on multifamily dwellings on and after August 1, 1985. In any one year, the tax credit shall apply only to the principal recovery portion of lease payments made during that year and to amounts expended on the purchased portion of the solar energy system (including installation charges) during that year.

(7) For purposes of computing the credit provided by this section, the cost of any solar energy system eligible for the credit provided by this section shall be reduced by any grant provided by a public entity for such system.

(b) The basis of any system for which a credit is allowed shall be reduced by the amount of the credit and any grant provided by a utility or public agency for such solar energy system. The basis adjustment shall be made for the taxable year for which the credit is allowed.

(c) With the exception of a husband and wife, if there is more than one owner of a premises on which a solar energy system is installed, each owner shall be eligible to receive the solar energy tax credit in proportion to his or her ownership interests in the premises.

(d) In the case of a partnership, the solar energy tax credit may be divided between the partners pursuant to a written partnership agreement. In the case of a husband or wife who files a separate return, the credit may be taken by either or equally divided between them.

(e) In the case where the credit allowed under this section exceeds the "net tax" for the taxable year, that portion of the credit which exceeds the "net tax" may be carried over to the "net tax" in succeeding taxable years, until the credit is used. The credit shall be applied first to the earliest years possible. With respect to solar energy systems installed before January 1, 1985, where the credit allowed exceeds the taxpayer's net tax for the taxable year in which the system was installed, no excess portion of the credit shall be applied against the taxpayer's "net tax" for the 1985 taxable year and no more than one-third of the excess portion of the credit shall be applied against the taxpayer's "net tax" for each of the 1986, 1987, and 1988 taxable years. For the 1989 taxable year and taxable years thereafter, any remaining excess credit may be applied and carried forward without restriction. With regard to wind energy systems purchased and installed on or after August 1, 1985, and on or before December 31, 1985, no more than one-third of the allowable credit under this section shall be applied against the taxpayer's "net tax" for each of the 1985, 1986, and 1987 taxable years. Any credit remaining after the 1987 taxable year shall be applied and carried forward without restriction. However, the full credit allowed under this section for wind energy systems may be applied against the taxpayer's "net tax" for the 1985 taxable year if (i) a written binding contract to purchase the primary components of a system is entered

into by the taxpayer or any other party before August 1, 1985, and (ii) the system is installed on or before December 31, 1985. With regard to wind energy systems installed on or after January 1, 1986, no more than one-third of the allowable credit under this section shall be applied against the taxpayer's "net tax" for each of the taxpayer's 1986, 1987, and 1988 taxable years. Any credit remaining after the 1988 taxable year shall be applied and carried forward without restriction.

(f) The Energy Resources Conservation and Development Commission shall, after one or more public hearings, establish guidelines and criteria for solar energy systems which shall be eligible for the credit provided by this section. These guidelines and criteria may include, but shall not be limited to, minimum requirements for safety, reliability and durability of solar energy systems. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section.

(g) To the extent that federal energy tax credits are allowed or allowable for costs incurred by a taxpayer for the purchase and installation of a solar energy system as defined in this section, the state credit provided in paragraph (2) of subdivision (a) and subparagraph (A) of paragraph (6) of subdivision (a) shall be reduced so that the combined effective credit shall not exceed 55 percent of these costs, notwithstanding the carryover provisions of subdivision (e). For any solar energy system installed on or after August 1, 1983, and on or before July 31, 1985, the percentage specified by this subdivision shall be 50 percent. This subdivision shall not apply to solar energy systems installed on or after August 1, 1985.

(h) For purposes of this section:

(1) "Installed" means placed in position in a functionally operative state.

(2) "Cost" includes all of the following:

(A) Equipment and installation charges.

(B) Compensation paid to the owner of burdened property in connection with the acquisition of a solar easement, as defined in Section 801.5 of the Civil Code, and the fees for the recording of this easement.

(C) In the case of a system which is leased, the principal recovery portion of lease payments, which is the cost incurred by the taxpayer in acquiring the solar energy system excluding interest charges and maintenance expenses.

"Cost" does not include interest charges and costs associated with the acquisition of an easement other than a solar easement.

(3) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease or easement granting use of the premises, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a duly recorded holder

of legal title, or a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(4) "Premises" means the principal stationary location in California where the system is installed for direct use or for purposes of sale of energy, and includes land, easements, buildings or portions thereof, and mobilehomes.

(5) "Dwelling" means a building, or portion thereof, used for residential purposes, and includes each of the following:

(A) "Single-family dwelling" means single-family residences, mobilehomes, and the individual units of condominiums.

(B) "Multifamily dwelling" means cooperatives, apartment buildings, or other similar multiple dwellings.

(6) (A) "Solar energy system" means the use of solar devices for the individual function of:

(i) Domestic or service water heating.

(ii) Space conditioning.

(iii) Production of electricity.

(iv) Process heat.

(v) Solar mechanical energy.

(vi) Wind energy for the production of electricity or mechanical work.

The term "solar energy system" shall include, but is not limited to, passive thermal systems, semipassive thermal systems, active thermal systems, photovoltaic systems and wind-driven systems.

(B) Eligible solar energy systems shall have a useful life of not less than three years.

(7) "Solar device" means the equipment associated with the collection, conversion, transfer, distribution, storage or control of solar energy. In the case of a solar device associated with two or more solar energy systems, the credit allowed for the solar device may be taken for any one of the systems, or divided equally between them.

(8) "Passive thermal system" means a system which utilizes the structural elements of the building, and is not augmented by mechanical components, to provide for collection, storage, or distribution of solar energy for heating or cooling.

(9) "Active thermal system" means a system which utilizes solar devices thermally isolated from the living or commercial space to provide for collection, storage, or distribution of solar energy for heating or cooling.

(10) "Semipassive thermal system" means a system which utilizes the structural elements of a building and is augmented by mechanical components to provide for collection, storage, or distribution of solar energy for heating or cooling.

(11) "Municipal solar utility" means a city, county, or municipal utility district, or agency thereof, which sells or leases solar or other energy generating equipment or energy saving devices for residential, commercial, agricultural, or industrial uses or which issues permits to companies engaged in the leasing of this

equipment.

(i) In lieu of claiming the tax credit provided by this section, the taxpayer may elect to take depreciation pursuant to Section 17250. In addition, the taxpayer may take depreciation pursuant to that section for the cost of a solar energy system in excess of the amount of the tax credit claimed under this section.

(j) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the current or any prior taxable year as energy conservation measures under this part.

(k) This section shall remain in effect only until January 1, 1987, and on that date is repealed, unless a later enacted statute, which is chaptered before this date, deletes or extends the date. However, any unused credit may be used beyond that date on the same basis and to the same extent as permitted under the law immediately prior to January 1, 1987.

(*l*) Notwithstanding the provisions of subdivision (k), a taxpayer or any other party who has undertaken significant construction or expenditures associated with the acquisition or installation of a solar energy system on or before October 31, 1986, shall be eligible for the tax credit authorized by this section in the taxable year in which the system is installed if the installation is completed on or before June 30, 1987.

For purposes of this section, "significant construction or expenditures associated with the acquisition or installation of a solar energy system" requires the completion of at least two of the following:

(i) The placement of at least 50 percent of the funds necessary for project completion in an escrow account. Funds placed in escrow may include funds borrowed pursuant to a construction loan or other debt arrangement.

(ii) The payment of all necessary earnest money required to maintain interconnection priority with a purchasing utility and the receipt of all required building permits or zoning approval, such as a conditional use permit.

(iii) The signing of a binding agreement (such as a lease, easement, or purchase agreement) for the land necessary for the solar energy system and the signing of a binding agreement for major solar energy production equipment purchases necessary for the solar energy system.

SEC. 2. Section 17052.8 of the Revenue and Taxation Code is amended to read:

17052.8. (a) (1) There shall be allowed as a credit against the amount of "net tax" (as defined in Section 17039, an amount equal to the amount determined in paragraph (2), (3), or (5).

(2) Except as provided in paragraphs (3) and (5), the amount of the credit allowed by this section shall be 40 percent of the cost (as defined in paragraph (7)) incurred by the taxpayer for energy conservation measures installed on premises in California which are

owned by the taxpayer at the time of installation. For energy conservation measures which are installed on or after August 1, 1983, and before August 1, 1985, including measures installed on multifamily dwellings before August 1, 1985, the percentage specified in the preceding sentence shall be 35 percent, and the credit shall not exceed one thousand five hundred dollars ($1,500) for each premises. For energy conservation measures which are installed on or after August 1, 1985, excluding measures installed on multifamily dwellings on or after August 1, 1985, the percentage specified in the preceding sentence shall be 10 percent, and the credit shall not exceed seven hundred fifty dollars ($750) for each premises. The owner of the premises on which the energy conservation measures are installed may claim the tax credit for costs incurred; however, an owner-builder or owner-developer of new single-family dwellings may elect not to claim the energy conservation tax credit for any or all energy conservation measures installed on new single-family dwellings. If an owner-builder or owner-developer irrevocably elects not to claim the tax credit for energy conservation measures, the original purchaser of the new single-family dwelling on which the measures are installed may claim the credit provided that the purchaser can confirm the election by a written document signed by the owner-builder or owner-developer.

The energy conservation tax credit shall be claimed in the state income tax return for the taxable year in which the energy conservation measures were installed. However, if an owner-builder or owner-developer irrevocably elects not to claim the tax credit for energy conservation measures, the original purchaser of the new single-family dwelling on which the energy conservation measures are installed may claim the credit in the taxable year during which the purchaser's escrow closed or the taxable year during which the purchaser acquired legal title to the single-family dwelling.

A taxpayer who claimed the energy conservation tax credit in the state income tax return for the taxable year in which the energy conservation measure was installed, may in any subsequent year claim an energy conservation tax credit for additional energy conservation measures installed in that tax year.

(3) With regard to premises in California which are owned by the taxpayer, other than single-family dwellings and those multifamily dwellings on which measures are installed before August 1, 1985, the amount of the credit allowed by this section which is applicable to installations of measures made prior to January 1, 1986 shall be 25 percent of the cost (as defined in paragraph (7)) of the energy conservation measures. With regard to premises in California which are owned by the taxpayer, other than single-family dwellings, the amount of the credit allowed by this section which is applicable to installations made on or after January 1, 1986, shall be 20 percent of the cost, as defined in paragraph (7) of the energy conservation measures.

(4) If energy conservation measures serve two or more dwelling units, the owner or owners of the dwellings shall be eligible to receive the credit in proportion to the number of dwelling units served. The amount of the credit shall be determined by dividing the cost (as defined in paragraph (7)) of the energy conservation measures by the number of dwelling units served by the energy conservation measures, and applying the formula described in paragraph (2) or (5) to the per dwelling cost. This paragraph shall not apply to energy conservation measures installed on or after August 1, 1985.

(5) Taxpayers who partially own and partially lease on premises in California which are owned by the taxpayer energy conservation measures from a utility or other lessor shall receive a tax credit as provided in subparagraph (A) or (B).

(A) Except as provided in subparagraph (B), the credit provided by this paragraph shall equal 40 percent of the cost (as defined in paragraph (7)) of the purchased portion and 40 percent of the principal recovery portion (as defined in paragraph (7)) of the lease payments for the first three years of operation or until the energy conservation tax credit terminates, whichever occurs first. For energy conservation measures which are installed on dwellings, including multifamily dwellings, on or after August 1, 1983, and on or before July 31, 1985, the percentage specified in the preceding sentence shall be 35 percent and the credit shall not exceed one thousand five hundred dollars ($1,500) for each premises. For energy conservation measures which are installed on dwellings, excluding multifamily dwellings, on or after August 1, 1985, the percentage specified in the preceding sentence shall be 10 percent, and the credit shall not exceed seven hundred fifty dollars ($750) for each premises. In any one year, the tax credit shall apply only to the principal recovery portion of the lease payments made during that year and to amounts expended on the purchased portion of the measure (including installation charges) during that year.

(B) In the case of premises, other than single-family dwellings and those multifamily dwellings on which measures are installed before August 1, 1985, the credit provided by this paragraph for installation of measures made before January 1, 1986, shall equal 25 percent of the cost (as defined in paragraph (7)) of the purchased portion and 25 percent of the principal recovery portion (as defined in paragraph (7)) of the lease payments for the first three years of operation or until the energy conservation tax credit terminates, whichever occurs first. In the case of premises, other than single-family dwellings, the credit provided by this paragraph for installations of measures made on or after January 1, 1986, shall equal 20 percent of the cost (as defined in paragraph (7)) of the purchased portion and 20 percent of the principal recovery portion (as defined in paragraph (7)) of the lease payment for the first three years of operation or until the credit terminates, whichever occurs first. In any one year, the tax credit shall apply only to the principal recovery portion of the

lease payments made during that year and to amounts expended on the purchased portion of the measure (including installation charges) during that year.

(6) For purposes of computing the credit provided by this section and the basis of the property, the cost of any energy conservation measure eligible for the credit provided by this section shall be reduced by the amount of any grant or any nonreimbursable financial assistance (other than interest charges) provided by a utility or a public entity.

(7) For the purpose of computing the credit provided by this section, "cost" shall include installation charges, but shall exclude interest charges. In the case of measures which are leased, "cost" shall mean the principal recovery portion of monthly lease payments. "Principal recovery portion" means the cost incurred by the lessor in acquiring the energy conservation measures, but does not include interest charges, sales taxes, or maintenance expenses.

(b) The basis of any energy conservation measure for which a credit is allowed shall be reduced by the amount of the credit. The basis adjustment shall be made for the taxable year for which the credit is allowed.

(c) With the exception of a husband and wife, if there is more than one owner of a premises on which energy conservation measures are installed, each owner shall be eligible to receive the energy conservation tax credit in proportion to his or her ownership interests in the premises. In the case of a partnership, the energy conservation tax credit may be divided between the partners pursuant to a written partnership agreement. In the case of a husband or wife who files a separate return, the credit may be taken by either or equally divided between them.

(d) In the case where the credit allowed under this section exceeds the "net tax" for the taxable year, that portion of the credit which exceeds such "net tax" may be carried over to the "net tax" in succeeding taxable years, provided that no excess portion of the allowable credit available with respect to measures installed before January 1, 1985, shall be applied against the taxpayer's "net tax" for the 1985 taxable year and no more than one-third of the allowable excess portion of the credit shall be applied against the taxpayer's "net tax" for each of the taxpayer's 1986, 1987, and 1988 taxable years. For the 1989 taxable year and taxable years thereafter, any unused portion of the credit shall be applied and carried forward without restriction.

(e) The Energy Resources Conservation and Development Commission shall, after one or more public hearings, adopt regulations which establish minimum standards which any item of a generic category of energy conservation measure, as defined by this section, must meet to be eligible for an energy conservation tax credit. Such standards shall include minimum provisions for effectiveness, safety and consumer protection which are consistent with standards established pursuant to the National Energy

Conservation Policy Act and other applicable federal and state law. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section. Regulations adopted by the Energy Resources Conservation and Development Commission and the Franchise Tax Board, pursuant to this section, shall be in language which is easily understood by the general public.

(f) (1) If a federal income tax credit is enacted for costs incurred by a taxpayer for the purchase and installation of energy conservation measures in dwelling units, then to the extent such credit is allowed or allowable for an energy conservation measure as defined in this section, the state credit provided in paragraph (2) of subdivision (a) shall be reduced so that the combined effective credit shall not exceed either 40 percent of the cost for measures installed on or before July 31, 1983, or 35 percent of the costs for measures installed on or after August 1, 1983, and on or before July 31, 1985, notwithstanding the carryover provisions of subdivision (e). This paragraph shall not apply to measures installed on or after August 1, 1985.

(2) If a federal income tax credit is enacted for costs incurred by a taxpayer for the purchase and installation of energy conservation measures in other than dwelling units, then to the extent the credit is allowed or allowable for an energy conservation measure as defined in this section, the state credit provided in paragraph (3) of subdivision (a), for measures installed prior to August 1, 1985, shall be reduced by the amount of the federal credit. This paragraph shall not apply to measures installed on or after August 1, 1985.

(g) For purposes of this section:

(1) "Installed" means placed in position in a functionally operative state.

(2) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a duly recorded holder of legal title, or a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(3) "Premises" means land, buildings, or portions thereof, or mobilehomes.

(4) "Dwelling" means a building used for residential purposes, and includes each of the following:

(G) Wall insulation.

(H) Floor insulation in premises with electrical resistance heating.

(I) Ventilation cooling fans, attic ventilators, and economizer systems.

(J) Heat pumps and water heating heat pumps (including those which use air, water, or earth as a source or sink of heat) which replace electric resistance heaters or are used in conjunction with a solar energy system.

(K) Covers for swimming pools or hot tubs which transmit the sun's radiation energy into the water or reduce heat loss or water evaporation.

(L) For existing dwellings, such other measures or devices as may be designated "residential energy conservation measures" approved and adopted as part of the operational California plan approved in 1983 pursuant to Section 456.204 of Title 10 of the Code of Federal Regulations and maintained under the authority of this section until December 31, 1985, or an appropriate operational Residential Conservation Service Plan pursuant to the provisions of Section 210 of Title II of the National Energy Conservation Policy Act (92 Stat. 3206) and recommended as the result of an audit conducted under the auspices of such a plan. Energy conservation measures in the generic categories of subparagraphs (A), (B), (C), (D), (E), (F), and (K) installed in any premises shall be ineligible as energy conservation measures and shall have no force or effect in the computation of taxes for taxable years which begin after December 31, 1986.

Energy conservation measures in the generic categories of subparagraphs (G), (H), (I), (J), (L), (M), and (N) installed on single-family dwellings shall be ineligible as energy conservation measures and shall have no force or effect in the computation of taxes for taxable years which begin after December 31, 1985. State agencies shall ensure that taxpayers may qualify for a tax credit under the provisions of subparagraph (L) until the termination date specified in this paragraph.

Energy conservation measures in the generic categories of subparagraphs (G), (H), (I), (J), and (M) installed on premises, other than single-family dwellings, shall be ineligible as energy

conservation measures and shall have no force or effect in the computation of taxes for taxable years which begin after December 31, 1986.

(6) The energy conservation tax credit provided by this section shall also apply to the cost of conducting energy audits and engineering feasibility studies resulting therefrom.

(7) "Operational Residential Conservation Service Plan" means the operational California plan approved in 1983 pursuant to Section 456.204 of Title 10 of the Code of Federal Regulations and maintained under the authority of this section until December 31, 1985, or a Residential Conservation Service (RCS) Plan, developed pursuant to the provisions of Section 210 of Title II of the National Energy Conservation Policy Act (92 Stat. 3206), and which provides energy audits for measures identified in this section in accordance with the requirements of such an RCS Plan. The Energy Resources Conservation and Development Commission shall, after at least one public hearing, certify when participating utilities identified in the California Plan for the Residential Conservation Service dated January 1981, have operational RCS Plans. In the case of a publicly owned utility, a Residential Conservation Service Plan developed pursuant to the provisions of Section 210 of Title II of the National Energy Conservation Policy Act (92 Stat. 3206), shall be certified by the governing board of the publicly owned utility to be operational. Certification that a plan is operational by the commission or the governing board of a publicly owned utility shall occur only after a finding is made that audits are available to utility customers within the time specified in the appropriate approved plan.

(h) In lieu of claiming the tax credit provided by this section, the taxpayer may elect to take depreciation pursuant to Section 17253. In addition, the taxpayer may take depreciation pursuant to that section for the cost of an energy conservation measure in excess of the amount of the tax credit claimed under this section.

(i) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the taxable year in which the energy conservation measure was installed or for any prior taxable year.

(j) No credit shall be allowed under this section if the amount would (but for this subdivision) be less than ten dollars ($10).

(k) (1) Except as provided in paragraph (2) of this subdivision, the tax credit provided by this section shall not apply to energy conservation measures required by state laws and regulations pursuant thereto, at the time of installation.

(2) Notwithstanding the provisions of paragraph (1), a credit shall be allowed for energy conservation measures specified in subparagraph (K) of paragraph (5) of subdivision (g).

This section shall remain in effect only until January 1, 1987, and as of that date is repealed, unless a later enacted statute, which is chaptered before that date, deletes or extends that date.

SEC. 3. Section 23601 of the Revenue and Taxation Code is

amended to read:

23601. (a) (1) There shall be allowed as a credit against the taxes imposed by this part (except the minimum franchise tax and the tax on preference income), an amount equal to the amount determined in paragraph (2), (3), or (6).

(2) Except as provided in subparagraph (A), the amount of the credit allowed by this section shall be 55 percent of the cost (as defined in subdivision (f)) incurred by the taxpayer for any solar energy system installed on premises in California which are owned by the taxpayer at the time of installation. For any such solar energy system installed on dwellings, including multifamily dwellings, on or after August 1, 1983, and before August 1, 1985, the percentage specified by this paragraph, subparagraph (C), subparagraph (A) of paragraph (6), and subdivision (e) shall be 50 percent, and the credit shall not exceed three thousand dollars ($3,000) per solar energy system as defined in subdivision (f). For any such solar energy system installed on single-family dwellings, on or after August 1, 1985, the percentage specified by this paragraph, subparagraph (C), subparagraph (A) of paragraph (6), and subdivision (e) shall be 10 percent, and the credit shall not exceed one thousand dollars ($1,000) per solar energy system as defined in subdivision (f).

(A) Only the owner of the premises (as defined in subdivision (f)) on which the solar energy system is installed may claim the tax credit for costs incurred; however, an owner-builder or owner-developer of new single-family dwellings may elect not to claim the solar energy tax credit for any or all systems installed on new single-family dwellings. If an owner-builder or owner-developer irrevocably elects not to claim the tax credit for a solar energy system, the original purchaser of the new single-family dwelling on which the system is installed may claim the credit provided that the purchaser can confirm the election if necessary, by a written document signed by the owner-builder or owner-developer.

If an owner-builder or owner-developer of new single-family dwellings elects to claim the credit for any system installed prior to August 1, 1985, for which the federal credit is allowed, the credit shall be equal to 15 percent of the cost of these systems. If an owner-builder or owner-developer of new single-family dwellings elects to claim the credit for any other installations made prior to August 1, 1985, which qualify for this credit, the credit shall be as defined in paragraph (2).

(B) The solar energy tax credit shall be claimed in the state return for the income year in which the solar energy system was installed; however, if an owner-builder or owner-developer irrevocably elects not to claim the tax credit for a solar energy system, the original purchaser of the new single-family dwelling on which the system is installed may claim the credit for the year during which the purchaser's escrow closed or the year during which the purchaser acquired legal title to the single-family dwelling.

(C) A taxpayer who claimed the solar energy tax credit in the

state income tax return for the income year in which the solar energy system was installed, may claim the credit in subsequent years for additions to the system or additional systems on the basis of the formula in this paragraph, so long as the total amount of the credit claimed does not exceed three thousand dollars ($3,000) per system for installations made on or before July 31, 1985, and one thousand dollars ($1,000) per system for installations made on or after August 1, 1985.

(3) With regard to premises in California which are owned by the taxpayer, other than single-family dwellings and those multifamily dwellings on which systems are installed before August 1, 1985, the amount of the credit allowed by this section shall be 25 percent of the cost (as defined in subdivision (f)) of the solar energy system, except for wind energy systems installed on or after January 1, 1986, for which the credit shall be 15 percent of the cost. This paragraph shall apply to solar energy systems installed on multifamily dwellings on or after August 1, 1985.

A taxpayer, who claimed the solar energy tax credit on the state income tax return for the income year in which the solar energy system was installed, may claim the credit in subsequent years for additions to the system or additional systems by the amount prescribed by this paragraph.

(4) If a solar energy system serves two or more dwellings, the owner or owners of the system shall be eligible to receive the credit in proportion to the number of dwelling units served. The amount of the credit shall be determined by dividing the cost (as defined in paragraph (8)) of the solar energy system by the number of dwelling units served by the system, and applying the formula described in paragraph (2) or (6) to the per dwelling cost. This paragraph shall not apply to systems installed on or after August 1, 1985.

(5) Energy conservation measures applied in conjunction with solar energy systems to reduce the total cost or backup energy requirements of such systems shall be considered part of the systems, and shall be eligible for the tax credit. Qualified energy conservation measures installed within six months of the date of installation of the solar energy system are considered to be installed "in conjunction with" the solar energy system, even if the period spans two taxable years. In cases involving more than six months between the dates of installation of the energy conservation measures and the solar energy system, the taxpayer must be able to provide persuasive evidence that the energy conservation measures were in fact installed in conjunction with a solar energy system. Eligible conservation measures applied in conjunction with solar space heating shall include, but not be limited to, ceiling, wall, and floor insulation above that required by law at the time of original construction. Eligible conservation measures applied in conjunction with solar water heating shall include, but not be limited to, water heater insulation jackets, and shower and faucet flow reducing devices. Energy conservation measures which shall be eligible for the tax credit when

applied in conjunction with solar energy systems shall be defined by the Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(6) Taxpayers who lease a solar energy system installed on premises in California owned by the taxpayer shall receive a tax credit as provided in subparagraph (A) or (B) provided that the lessee can confirm, if necessary, by a written document signed by the lessor that (i) the lessor irrevocably elects not to claim a state tax credit for the solar energy system, and (ii) if the system is installed in a locality served by a municipal solar utility, that the lessor holds a valid permit from the municipal solar utility. Leasing requirements may be established by the Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(A) Except as provided in subparagraph (B), the credit shall equal 55 percent of the cost (as defined in subdivision (f)) of the purchased portion, and 55 percent of the principal recovery portion (as defined in subdivision (f)) of the lease payments for the term of the lease, not to exceed 10 years. That credit shall not exceed three thousand dollars ($3,000) for each system installed on or before July 31, 1985, and one thousand dollars ($1,000) for each system installed on or after August 1, 1985. In any one year, the tax credit shall apply only to the principal recovery portion of lease payments made during that year and to amounts expended on the purchases portion of the solar energy system (including installation charges) during that year. For any solar energy system installed on or after August 1, 1983, and on or before July 31, 1985, the percentage specified by this subparagraph shall be 50 percent. For any solar energy system installed on single-family dwellings on or after August 1, 1985, the percentage specified by this subparagraph shall be 10 percent.

(B) In the case of premises other than single-family dwellings and those multifamily dwellings on which systems are installed before August 1, 1985, the credit shall equal 25 percent of the cost (as defined in subdivision (f)) of the purchased portion and 25 percent of the principal recovery portion (as defined in subdivision (f)) of the lease payments for the term of the lease, not to exceed 10 years. This subparagraph shall apply to systems installed on multifamily dwellings on or after August 1, 1985. In any one year, the tax credit shall apply only to the principal recovery portion of lease payments made during that year and to amounts expended on the purchased portion of the solar energy system (including installation charges) during that year.

(7) For purposes of computing the credit provided by this section, the cost of any solar energy system eligible for the credit provided by this section shall be reduced by any grant provided by a public agency for such system.

(b) The basis of any system for which a credit is allowed shall be reduced by the amount of the credit and grant provided by a utility or public agency for such solar energy system. The basis adjustment

shall be made for the income year for which the credit is allowed.

In the case of a partnership, the solar energy tax credit may be divided between the partners pursuant to a written partnership agreement.

(c) In the case where the credit allowed under this section exceeds the taxes imposed by this part (except the minimum franchise tax and the tax on preference income) for the income year, that portion of the credit which exceeds such taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax and the tax on preference income) in succeeding income years until the credit is used. The credit shall be applied first to the earliest years possible. With respect to solar energy systems installed before January 1, 1985, where the credit allowed exceeds the taxpayer's taxes imposed by this part (except the minimum franchise tax and the tax on preference income) for the income year in which the system was installed, no excess portion of the credit shall be applied against the taxpayer's taxes imposed by this part (except the minimum franchise tax and the tax on preference income) for the 1985 income year and no more than one-third of the excess portion of the credit shall be applied against the taxpayer's taxes imposed by this part (except the minimum franchise tax and the tax on preference income) for each of the 1986, 1987, and 1988 income years. For the 1989 income year and income years thereafter, any remaining excess credit may be applied and carried forward without restriction. With regard to wind energy systems purchased and installed on or after August 1, 1985, and on or before December 31, 1985, no more than one-third of the allowable credit under this section shall be applied against the taxes imposed by this part (except the minimum franchise tax and the tax on preference income) for each of the 1985, 1986, and 1987 income years. Any credit remaining after the 1987 taxable year shall be applied and carried forward without restriction. However, the full credit allowed under this section for wind energy systems may be applied against the taxpayer's taxes imposed by this part (except the minimum franchise tax and the tax on preference income) for the 1985 income year if (i) a written binding contract to purchase the primary components of a system is entered into by the taxpayer or any other party before August 1, 1985, and (ii) the system is installed on or before December 31, 1985. With regard to wind energy systems installed on or after January 1, 1986, no more than one-third of the allowable credit under this section shall be applied against the taxes imposed by this part (except the minimum franchise tax and the tax on preference income) for each of the 1986, 1987, and 1988 income years. Any credit remaining after the 1988 income year may be applied and carried forward without restriction.

(d) The Energy Resources Conservation and Development Commission shall, after one or more public hearings, establish guidelines and criteria for solar energy systems which shall be eligible for the credit provided by this section. These guidelines and

criteria may include, but shall not be limited to, minimum requirements for safety, reliability and durability of solar energy systems. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section.

(e) If federal income tax credit is enacted for costs incurred by a taxpayer for the purchase or lease and installation of solar energy systems, then to the extent such credit is allowed or allowable for a solar energy system as defined in this section, the state credit provided in paragraph (2) of subdivision (a) and subparagraph (A) of paragraph (6) shall be reduced so that the combined effective credit shall not exceed 55 percent of such costs, notwithstanding the carryover provisions of subdivision (c). For any solar energy system installed on or after August 1, 1983, and before August 1, 1985, the percentage specified by this subdivision shall be 50 percent. This subdivision shall not apply to solar energy systems installed on or after August 1, 1985.

(f) The following definitions govern construction of this section:

(1) "Installed" means placed in position in a functionally operative state.

(2) "Cost" includes equipment and installation charges, but shall exclude interest charges. In the case of a system which is leased, "cost" means the principal recovery portion of lease payments which is the cost incurred by the taxpayer in acquiring the solar energy system, but excluding interest charges and maintenance expenses.

(3) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease or easement granting use of the premises, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a duly recorded holder of legal title, or a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(4) "Premises" means the principal stationary location in California where the system is installed for direct use or for purposes of sale of energy, and includes land, easements, buildings or portions thereof, and mobilehomes.

(5) "Dwelling" means a building, or portion thereof, used for residential purposes, and includes each of the following:

(A) "Single-family dwelling" means single-family residences, mobilehomes, and the individual units of condominiums.

(B) "Multifamily dwelling" means cooperatives, apartment buildings, or other similar multiple dwellings.

(6) (A) "Solar energy system" means the use of solar devices for the individual function of:

(i) Domestic or service water heating.

(ii) Space conditioning.

(iii) Production of electricity.

(iv) Process heat.

(v) Solar mechanical energy.

(vi) Wind energy for the production of electricity or mechanical work.

The term "solar energy system" shall include, but is not limited to, passive thermal systems, semipassive thermal systems, active thermal systems, photovoltaic systems and wind-driven systems.

(B) Eligible solar energy systems shall have a useful life of not less than three years.

(7) "Solar device" means the equipment associated with the collection, conversion, transfer, distribution, storage or control of solar energy. In the case of a solar device associated with two or more solar energy systems, the credit allowed for the solar device may be taken for any one of the systems, or divided equally between them.

(8) "Passive thermal system" means a system which utilizes the structural elements of the building, and is not augmented by mechanical components, to provide for collection, storage, or distribution of solar energy for heating or cooling.

(9) "Active thermal system" means a system which utilizes solar devices thermally isolated from the living or commercial space to provide for collection, storage, or distribution of solar energy for heating or cooling.

(10) "Semipassive thermal system" means a system which utilizes the structural elements of a building and is augmented by mechanical components to provide for collection, storage, or distribution of solar energy for heating or cooling.

(11) "Municipal solar utility" means a city, county, or municipal utility district, or agency thereof, which sells or leases solar or other energy generating equipment or energy saving devices for residential, commercial, agricultural, or industrial uses, or which issues permits to companies engaged in the leasing of this equipment.

(g) In lieu of claiming the tax credit provided by this section, the taxpayer may elect to take a depreciation pursuant to Section 24349. Also, the taxpayer may take depreciation pursuant to that section for the cost of a solar energy system in excess of the amount of the tax credit claimed under this section.

(h) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the current or any prior taxable year as energy conservation measures under this part.

(i) This section shall remain in effect only until January 1, 1987, and on that date is repealed, unless a later enacted statute, which is chaptered before this date, deletes or extends the date. However, any unused credit may be used beyond that date on the same basis and to the same extent as permitted under the law immediately prior to January 1, 1987.

(j) Notwithstanding the provisions of subdivision (i), a taxpayer or any other party who has undertaken significant construction or

expenditures associated with the acquisition or installation of a solar energy system on or before October 31, 1986, shall be eligible for the tax credit authorized by this section in the income year in which the system is installed if the installation is completed on or before June 30, 1987.

For purposes of this section, "significant construction or expenditures associated with the acquisition or installation of a solar energy system" requires the completion of at least two of the following:

(i) The placement of at least 50 percent of the funds necessary for project completion in an escrow account. Funds placed in escrow may include funds borrowed pursuant to a construction loan or other debt arrangement.

(ii) The payment of all necessary earnest money required to maintain interconnection priority with a purchasing utility and the receipt of all required building permits or zoning approval, such as a conditional use permit.

(iii) The signing of a binding agreement (such as a lease, easement, or purchase agreement) for the land necessary for the solar energy system and the signing of a binding agreement for major energy production equipment purchases necessary for the solar energy system.

SEC. 4. Section 23601.5 of the Revenue and Taxation Code is amended to read:

23601.5. (a) (1) There shall be allowed as a credit against the taxes imposed by this part (except the minimum franchise tax and the tax on preference income), an amount equal to the amount determined in paragraph (2), (3), or (5).

(2) Except as provided in paragraphs (3) and (5), the amount of the credit allowed by this section shall be 40 percent of the cost (as defined in paragraph (7)) incurred by the taxpayer for energy conservation measures installed on premises in California which are owned by the taxpayer at the time of installation. For energy conservation measures which are installed on or after August 1, 1983, and before August 1, 1985, including measures installed on multifamily dwelling units before August 1, 1985, the percentage specified in the preceding sentence shall be 35 percent (in lieu of 40 percent) and the credit shall not exceed one thousand five hundred dollars ($1,500) for each premises. For energy conservation measures installed on or after August 1, 1985, excluding measures installed on multifamily dwellings on or after August 1, 1985, the percentage specified in the preceding sentence shall be 10 percent, and the credit shall not exceed seven hundred fifty dollars ($750) for each premises. The owner of the premises on which the energy conservation measures are installed may claim the tax credit for costs incurred; however, an owner-builder or owner-developer of new single-family dwellings may elect not to claim the energy conservation tax credit for any or all measures installed on new single-family dwellings. If an owner-builder or owner-developer

irrevocably elects not to claim the tax credit for energy conservation measures, the original purchaser of the new single-family dwelling on which the measures are installed may claim the credit, provided that the purchaser can confirm the election by a written document signed by the owner-builder or owner-developer.

The energy conservation tax credit shall be claimed in the state return for the income year in which the energy conservation measures were installed; however, if an owner-builder or owner-developer irrevocably elects not to claim the tax credit for energy conservation measures, the original purchaser of the new single-family dwelling on which the measures are installed may claim the credit in the year during which the purchaser's escrow closed or the year during which the purchaser acquired legal title to the new single-family dwelling.

A taxpayer who claimed the energy conservation tax credit in the state income tax return for the year in which the energy conservation measures were installed, may in any subsequent year claim an energy conservation tax credit for additional energy conservation measures installed in that year.

(3) With regard to premises in California which are owned by the taxpayer, other than single-family dwellings and those multifamily dwellings on which measures are installed before August 1, 1985, the amount of the credit allowed by this section which is applicable to installations of measures made prior to January 1, 1986, shall be 25 percent of the cost (as defined in paragraph (7)) of the energy conservation measure. With regard to premises in California which are owned by the taxpayer, other than single-family dwellings, the amount of the credit allowed by this section which is applicable to installations made on or after January 1, 1986, shall be 20 percent of the cost (as defined in paragraph (7)) of the energy conservation measure.

(4) If energy conservation measures serve two or more dwelling units, the owner or owners of the dwellings shall be eligible to receive the credit in proportion to the number of dwelling units served. The amount of the credit shall be determined by dividing the cost (as defined in paragraph (7)) of the energy conservation measures by the number of dwelling units served by the measures, and applying the formula described in paragraph (2) or (5) to the per dwelling cost. This paragraph shall not apply to energy conservation measures installed on or after August 1, 1985.

(5) Taxpayers who partially own and partially lease on premises in California which are owned by the taxpayer energy conservation measures from a utility or other lessor shall receive a tax credit as provided in subparagraph (A) or (B).

(A) Except as provided in subparagraph (B), the credit provided by this paragraph shall equal 40 percent of the cost (as defined in paragraph (7) of the purchased portion and 40 percent of the principal recovery portion (as defined in paragraph (7) of the lease payments for the first three years of operation or until the energy

conservation tax credit terminates, whichever occurs first. For energy conservation measures which are installed on dwellings, including multifamily dwellings, on or after August 1, 1983, and on or before July 31, 1985, the percentage specified in the preceding sentence shall be 35 percent and the credit shall not exceed one thousand five hundred dollars ($1,500) for each premises. For energy conservation measures which are installed on dwellings, excluding multifamily dwellings, on or after August 1, 1985, the percentage specified in the preceding sentence shall be 10 percent and the credit shall not exceed seven hundred fifty dollars ($750) for each premises. In any one year, the tax credit shall apply only to the principal recovery portion of the lease payments made during that year and to amounts expended on the purchased portion of the measure (including installation charges) during that year.

(B) In the case of premises, other than single-family dwellings and those multifamily dwellings on which measures are installed before August 1, 1985, the credit provided by this paragraph for installation of measures made before January 1, 1986, shall equal 25 percent of the cost (as defined in paragraph (7)) of the purchased portion and 25 percent of the principal recovery portion (as defined in paragraph (7)) of the lease payments for the first three years of operation or until the energy conservation tax credit terminates, whichever occurs first. In the case of premises, other than single-family dwellings, the credit provided by this paragraph for installations of measures made on or after January 1, 1986, shall equal 20 percent of the cost (as defined in paragraph (7)) of the purchased portion and 20 percent of the principal recovery portion (as defined in paragraph (7) of the lease payments for the first three years of operation or until the credit terminates, whichever occurs first. In any one year, the tax credit shall apply only to the principal recovery portion of the lease payments made during that year and to amounts expended on the purchased portion of the measure (including installation charges) during that year.

(6) For purposes of computing the credit provided by this section and the basis of the property, the cost of any energy conservation measure eligible for the credit provided by this section shall be reduced by the amount of any grant or any nonreimbursable financial assistance (other than interest charges) provided by a utility or a public entity.

(7) For the purpose of computing the credit provided by this section, "cost" shall include installation charges, but shall exclude interest charges. In the case of measures which are leased, "cost" shall mean the principal recovery portion of monthly lease payments. "Principal recovery portion" means the cost incurred by the lessor in acquiring the energy conservation measures but does not include interest charges, sales taxes, or maintenance expenses.

(b) The basis of any system for which a credit is allowed shall be reduced by the amount of the credit. The basis adjustment shall be made for the income year for which the credit is allowed.

In the case of a partnership, the energy conservation tax credit may be divided between the partners pursuant to a written partnership agreement.

(c) In the case where the credit allowed under this section exceeds the taxes imposed by this part (except the minimum franchise tax and the tax on preference income) for the income year, that portion of the credit which exceeds such taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax and the tax on preference income) in succeeding income years, provided that no excess portion of the allowable credit available with respect to measures installed before January 1, 1985, is applied against the taxpayer's taxes imposed by this part (except the minimum franchise tax and the tax on preference income) for the 1985 income year and no more than one-third of the excess portion of the credit is applied against the taxpayer's taxes imposed by this part (except the minimum franchise tax and the tax on preference income) for each of the taxpayer's 1986, 1987, and 1988 income years. For the 1989 income year and income years thereafter, any unused portion of credit shall be applied and carried forward without restriction.

(d) The Energy Resources Conservation and Development Commission shall, after one or more public hearings, adopt regulations which establish minimum standards which any item of a generic category of energy conservation measure, as defined by this section, must meet to be eligible for an energy conservation tax credit. Such standards shall include minimum provisions for effectiveness, safety and consumer protection which are consistent with standards established pursuant to the National Energy Conservation Policy Act and other applicable federal and state law. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section. Regulations adopted by the Energy Resources Conservation and Development Commission and the Franchise Tax Board, pursuant to this section, shall be in language which is easily understood by the general public.

(e) (1) If a federal income tax credit is enacted for costs incurred by a taxpayer for the purchase and installation of energy conservation measures in dwelling units, then to the extent such credit is allowed or allowable for an energy conservation measure as defined in this section, the state credit provided in paragraph (2) of subdivision (a) shall be reduced so that the combined effective credit shall not exceed either 40 percent of the costs for measures installed on or before July 31, 1983, or 35 percent of the costs for measures installed on or after August 1, 1983, and on or before July 31, 1985, notwithstanding the carryover provisions of subdivision (c). This paragraph shall not apply to measures installed on or after August 1, 1985.

(2) If a federal income tax credit is enacted for costs incurred by a taxpayer for the purchase and installation of energy conservation measures in other than dwelling units, then to the extent the credit

is allowed or allowable for an energy conservation measure as defined in this section, the state credit provided in paragraph (3) of subdivision (a) for measures installed prior to August 1, 1985, shall be reduced by the amount of such federal credit. This paragraph shall not apply to measures installed on or after August 1, 1985.

(f) The following definitions govern construction of this section:

(1) "Installed" means placed in position in a functionally operative state.

(2) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a duly recorded holder of legal title, or a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(3) "Premises" means land, buildings or portions thereof, or mobilehomes.

(4) "Dwelling" means a building used for residential purposes, and includes each of the following:

(A) "Single-family dwelling" means single-family residences, mobilehomes, and individual units of condominiums.

(B) "Multifamily dwelling" means cooperatives, apartment buildings, or other similar multiple dwellings.

(5) "Energy conservation measure" means any item with a useful life of not less than three years of one of the following generic categories which meets the minimum standards as specified pursuant to subdivision (d):

(C) An external water heater insulation blanket.

(D) Low flow devices on all accessible shower heads.

(E) Caulking or sealing of all major cracks and joints and other openings in building exteriors to reduce the loss of heated or cooled air or the entry of outside air where feasible, and sealing of wall outlets.

(F) Insulation of all accessible supply and return heating and cooling system ducts and plenums which are located in unheated or uncooled areas and sealing of all duct and plenum joints with pressure-sensitive tape or mastic.

(G) Wall insulation.

(H) Floor insulation in premises with electrical resistance heating.

(I) Ventilation cooling fans; attic ventilators, and economizer systems.

(J) Heat pumps and water heating heat pumps (including those

which use air, water, or earth as a source or sink of heat) which replace electric resistance heaters or are used in conjunction with a solar energy system.

(K) Covers for swimming pools or hot tubs which transmit the sun's radiation energy into the water or reduce heat loss or water evaporation.

(L) For existing dwellings, such other measures or devices as may be designated "residential energy conservation measures" approved and adopted as part of the operational California plan approved in 1983 pursuant to Section 456.024 of Title 10 of the Code of Federal Regulations and maintained under the authority of this section until December 31, 1985, or an appropriate operational Residential Conservation Service Plan pursuant to the provisions of Section 210 of Title II of the National Energy Conservation Policy Act (92 Stat. 3206) and recommended as the result of an audit conducted under the auspices of such a plan. This generic category includes, but is not limited to:

(i) Electrical or mechanical furnace ignition systems which replace gas pilot lights.

(ii) Devices modifying the opening of heating and cooling systems which achieve increased efficiency.

(iii) Storm or thermal windows or doors for the exterior of dwellings, evaporative coolers, heat absorbing or heat reflective glazed windows and door materials, exterior shading devices, and movable insulation such as shutters or thermal drapes, which substantially reduce the energy needed for space heating and cooling.

(iv) Load management devices to reduce the direct or indirect use of electricity through interruption, storage or load limiting.

(v) Floor insulation, except as specified in subparagraph (H).

(M) For existing dwellings where there is no operational Residential Conservation Service (RCS) Plan certified in accordance with this section or in regions where such a plan does not provide energy audits, and for premises other than dwellings:

(i) Electrical or mechanical furnace ignition systems which replace gas pilot lights.

(ii) Devices modifying the openings of restaurant food preparation appliances or heating and cooling systems so as to achieve increased energy efficiency.

(iii) Storm or thermal windows or doors for the exterior of dwellings, evaporative coolers, heat absorbing or heat reflective glazed window and door materials, exterior shading devices, and movable insulation such as shutters or thermal drapes which substantially reduce the energy needed for space heating and cooling, and glazing material (other than doors and windows), controls or automatic switching devices for effective use of natural light to replace electric interior lighting which result in a net energy savings.

(iv) Load management devices to reduce the direct or indirect

use of electricity through interruption, storage or load limiting.

(v) Floor insulation, except as specified in subparagraph (H).

(N) For newly constructed dwellings:

(i) Storm or thermal windows or doors for the exterior of dwellings.

(ii) Evaporative coolers.

(iii) Heat absorbing or heat reflective glazed windows and door materials.

(iv) Exterior shading devices.

(v) Movable insulation such as shutters or thermal drapes.

(vi) Load management devices.

(vii) Floor insulation.

Energy conservation measures in the generic categories of subparagraph (A), (B), (C), (D), (E), (F), and (K) installed in any premises shall be ineligible as energy conservation measures and shall have no force or effect in the computation of taxes for income years which begin after December 31, 1986.

Energy conservation measures in the generic categories of subparagraphs (G), (H), (I), (J), (L), (M), and (N) installed on single-family dwellings shall be ineligible as energy conservation measures and shall have no force or effect in the computation of taxes for income years which begin after December 31, 1985. State agencies shall ensure that taxpayers may qualify for a tax credit under the provisions of subparagraph (L) until the termination date specified in this paragraph.

Energy conservation measures in the generic categories of subparagraphs (G), (H), (I), (J), and (M) installed on premises, other than single-family dwellings, shall be ineligible as energy conservation measures and shall have no force or effect in the computation of taxes for income years which begin after December 31, 1986.

(6) The energy conservation tax credit provided by this section shall also apply to the cost of conducting energy audits and engineering feasibility studies resulting therefrom.

(7) "Operational Residential Conservation Service Plan" means the operational California plan approved in 1983 pursuant to Section 456.024 of Title 10 of the Code of Federal Regulations and maintained under the authority of this section until December 31, 1985, or a Residential Conservation Service (RCS) Plan, developed pursuant to the provisions of Section 210 of Title II of the National Energy Conservation Policy Act (92 Stat. 3206), and which provides energy audits for measures identified in this section in accordance with the requirements of such an RCS Plan. The Energy Resources Conservation and Development Commission shall, after at least one public hearing, certify when participating utilities identified in the California Plan for the Residential Conservation Service dated January 1981, have operational RCS Plans. In the case of a publicly owned utility, a Residential Conservation Service Plan developed pursuant to the provisions of Section 210 of Title II of the National

Energy Conservation Policy Act (92 Stat. 3206), shall be certified by the governing board of the publicly owned utility to be operational. Certification that a plan is operational by the commission or the governing board of a publicly owned utility shall occur only after a finding is made that audits are available to utility customers within the time specified in the appropriate approved plan.

(g) In lieu of claiming the tax credit provided by this section, the taxpayer may elect to take depreciation pursuant to Section 24349.7. In addition, the taxpayer may take depreciation pursuant to that section for the cost of an energy conservation measure in excess of the amount of the tax credit claimed under this section.

(h) No tax credit shall be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the income year in which the energy conservation measure was installed or any prior income year.

(i) No credit shall be allowed under this section if the amount would (but for this subdivision) be less than ten dollars ($10).

(j) (1) Except as provided in paragraph (2) of this subdivision, the energy credit provided by this section shall not apply to any energy conservation measure required by state laws and regulations pursuant thereto, at the time of installation.

(2) Notwithstanding the provisions of paragraph (1), a credit shall be allowed for energy conservation measures specified in subparagraph (K) of paragraph (5) of subdivision (f).

This section shall remain in effect only until January 1, 1987, and as of that date is repealed, unless a later enacted statute, which is chaptered before that date, deletes or extends that date.

CHAPTER 117

An act to amend, repeal, and add Section 25208.4 of the Health and Safety Code, relating to hazardous wastes, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 28, 1985. Filed with Secretary of State June 28, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 25208.4 of the Health and Safety Code is amended to read:

25208.4. (a) Notwithstanding any other provision of law, unless granted an exemption pursuant to subdivision (b) or Section 25208.13, a person shall not discharge liquid hazardous wastes or hazardous wastes containing free liquids into a surface impoundment after June 30, 1988, if the surface impoundment, or the land immediately beneath it, contains hazardous wastes and is within one-half mile upgradient from a potential source of drinking water.

A person who owns a surface impoundment which meets the conditions specified in this subdivision shall close the impoundment.

(b) A person may apply to a regional board to exempt a surface impoundment from subdivision (a) pursuant to this subdivision. A

person shall submit the application for exemption to the regional board on or before January 1, 1986.

(1) A regional board shall either grant or deny an exemption from subdivision (a) on or before December 31, 1987. A regional board may grant an exemption from subdivision (a) only if the regional board makes both of the following findings:

(A) No extremely hazardous wastes are currently being discharged into the surface impoundment, and either one of the following applies:

(i) The records of the person applying for an exemption indicate that no extremely hazardous wastes have been discharged into the surface impoundment.

(ii) Extremely hazardous wastes are not present in the surface impoundment, in the vadose zone, or in the waters of the state.

(B) The surface impoundment is in compliance with Section 25208.5, and a report has been filed pursuant to Section 25208.8.

(2) An exemption granted pursuant to this subdivision shall not be effective for more than five years. Applications for an exemption or a renewal of an exemption shall be accompanied by the fee specified in the fee schedule adopted by the state board pursuant to Section 25208.3. A regional board shall not renew the exemption unless the regional board makes both of the following findings:

(A) No hazardous waste constituents have migrated from the surface impoundment into the vadose zone or the waters of the state in concentrations which pollute the vadose zone, or pollute, or threaten to pollute, the waters of the state.

(B) Continuing the operation of the surface impoundment does not pose a significant potential of hazardous waste constituents migrating from the surface impoundment into the vadose zone or the waters of the state, thus polluting the vadose zone, or polluting, or threatening to pollute, these waters.

(3) Except as provided in paragraph (4), the regional board shall revoke an exemption granted pursuant to this subdivision and require the person granted the exemption to comply with subdivision (a) if the regional board determines that the surface impoundment granted the exemption is polluting, or threatening to pollute, the waters of the state or that hazardous waste constituents are migrating from the surface impoundment into the vadose zone or the waters of the state in concentrations which pollute or threaten to pollute these waters. The regional board shall also issue a cease and desist order pursuant to Section 13301 of the Water Code and require appropriate removal and remedial actions by the person granted the exemption, or the responsible parties, to clean up any pollution which may have occurred.

(4) Notwithstanding paragraph (3), a regional board may continue in effect an exemption granted pursuant to this subdivision if the regional board orders the person to double line the surface impoundment, equip the surface impoundment with a leachate collection system, and conduct groundwater monitoring, as specified

in subdivision (a) of Section 25208.5, within one year after granting this continuance, and if the regional board makes all of the following findings:

(A) The surface impoundment granted the exemption has hazardous waste constituents, in concentrations which threaten to pollute the waters of the state, which are migrating from the surface impoundment into the vadose zone, but no hazardous waste constituents have migrated into the waters of the state.

(B) Installing double liners and a leachate collection system and conducting groundwater monitoring, as specified in subdivision (a) of Section 25208.5, will abate the threat to the waters of the state before any hazardous waste constituents migrate to the waters.

(C) All removal and remedial actions necessary to abate the threat specified in subparagraph (A) can be completed prior to the migration of any hazardous waste constituents into the waters of the state.

(5) Notwithstanding paragraph (4), the regional board shall revoke the exemption continued pursuant to paragraph (4) and shall require the person granted this continuance to comply with subdivision (a) if the regional board determines either of the following:

(A) The surface impoundment is polluting the waters of the state or that hazardous waste constituents are migrating from the surface impoundment into the vadose zone or the waters of the state in concentrations which pollute, or threaten to pollute, these waters.

(B) The person does not comply with the board's order or conduct the necessary removal or remedial actions, as required by paragraph (4).

The regional board shall also issue a cease and desist order pursuant to Section 13301 of the Water Code and require appropriate removal and remedial actions by the person granted the exemption, or the responsible parties, to clean up any pollution which may have occurred, upon making either of these determinations.

(c) Notwithstanding any other provision of law, a person shall not do either of the following, unless the person is granted an exemption pursuant to Section 25208.13, or unless the person is granted a variance for the discharge of a restricted hazardous waste pursuant to subdivision (d) by the department:

(1) On or after January 1, 1985, discharge restricted hazardous wastes containing cyanide wastes or polychlorinated biphenyls (PCBs), in the concentrations specified in paragraphs (1) and (4) of subdivision (a) of Section 25122.7, into a surface impoundment.

(2) On or after January 1, 1986, discharge any restricted hazardous waste, not otherwise specified in paragraph (1), into a surface impoundment.

(d) The department may grant a variance, in accordance with Section 66930 of Title 22 of the California Administrative Code, except as specified in paragraph (2) of this subdivision, from the requirements of paragraph (2) of subdivision (c) for restricted

hazardous wastes which do not contain cyanide wastes or polychlorinated biphenyls (PCBs), in the concentrations specified in paragraphs (1) and (4) of subdivision (a) of Section 25122.7, if the department determines the discharge is in compliance with the provisions of this article and that sufficient recycling or treatment capacity for a particular restricted hazardous waste stream or category of restricted hazardous waste is not available in this state.

(1) No variance shall be granted by the department unless the application is accompanied by a demonstration, satisfactory to the department, that the surface impoundment will be equipped, on or before January 1, 1986, and before the issuance of the variance, with double liners, a leachate collection system, and a groundwater monitoring program, as specified in subdivision (a) of Section 25208.5, and that the applicant has done one of the following:

(A) Entered into a binding commitment to, and has applied for all required permits to, construct, or to otherwise provide for, alternative treatment or recycling facilities.

(B) If the variance is for an onsite facility, the applicant is making changes in the operations of the onsite facility which will eliminate the discharge of the restricted hazardous waste stream or category of restricted hazardous waste into the surface impoundment.

(2) All applications for a variance pursuant to this subdivision shall be filed with the department on or before September 30, 1985.

(3) Any person applying for a variance shall, on or before January 1, 1986, do one of the following:

(A) Submit a hydrogeological assessment report to the regional board, as set forth in Section 25208.8.

(B) If the surface impoundment meets the conditions specified in subdivision (a), the applicant may apply for an exemption pursuant to subdivision (b).

(4) Notwithstanding any other provision of law, the regional board shall give the highest priority to acting upon any exemption application or hydrogeological assessment report filed pursuant to this subdivision. The regional board shall review the exemption application or the hydrogeological assessment report and shall approve or disapprove the report or exemption application within nine months after receiving the report or exemption application.

(5) Any person applying for a variance for a discharge pursuant to this subdivision shall make available to the department and to the regional board any records concerning the discharge which are relevant to the findings required to be made by the department or regional board pursuant to this subdivision.

(6) Notwithstanding subdivision (d) of Section 66930 of Title 22 of the California Administrative Code, a variance issued pursuant to this subdivison shall become effective only when the variance is issued by the department, and the variance shall not be deemed issued if the department fails to issue a decision approving or denying the variance petition within the time specified in that subdivision (d). The department may grant a variance only for a limited period

of time, but for a period of no longer than one year. The variance shall include a date by which the generator or disposal facility receiving a variance shall construct recycling or treatment facilities or cease the discharge into the surface impoundment. The variance shall specify the date when the restricted hazardous waste stream or category of restricted hazardous waste shall be subject to the requirements specified in subdivision (c). The department may annually extend the variance of an individual applicant for an additional time, but not more than twice, if the applicant demonstrates to the department, and the department makes a written finding that, the applicant is making reasonable progress towards the reduction and final elimination of the discharge into the surface impoundment.

(7) The department shall, within 30 days after granting a variance pursuant to this subdivision, submit a copy of the variance to the appropriate regional board, to each member of the Legislature in whose district is located the discharge to be exempted by the variance, to the Senate Committee on Toxics and Public Safety Management, and to the Assembly Committee on Environmental Safety and Toxic Materials.

(8) All variances granted pursuant to this subdivison are subject to review at the discretion of the department and may be revoked at any time. The department shall revoke a variance granted pursuant to this subdivision if either the regional board or the department determines that the discharge of restricted hazardous wastes is polluting, or threatens to pollute, the waters of the state or that hazardous waste constituents are migrating from the surface impoundment into the vadose zone or the waters of the state in concentrations which pollute or threaten to pollute these waters.

(e) This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1989, deletes or extends that date.

SEC. 2. Section 25208.4 is added to the Health and Safety Code, to read:

25208.4. (a) Notwithstanding any other provision of law, unless the person was granted an exemption pursuant to subdivision (b) on or before December 31, 1987, pursuant to Section 25208.4, as it read on December 31, 1988, or pursuant to Section 25208.13, a person shall not discharge liquid hazardous wastes or hazardous wastes containing free liquids into a surface impoundment, if the surface impoundment, or the land immediately beneath it, contains hazardous wastes and is within one-half mile upgradient from a potential source of drinking water.

A person who owns a surface impoundment which meets the conditions specified in this subdivision shall close the impoundment.

(b) A person may apply to a regional board to exempt a surface impoundment from subdivision (a) pursuant to this subdivision. A person shall submit the application for exemption to the regional board on or before January 1, 1986.

(1) A regional board shall either grant or deny an exemption from subdivision (a) on or before December 31, 1987. A regional board may grant an exemption from subdivision (a) only if the regional board makes both of the following findings:

(A) No extremely hazardous wastes are currently being discharged into the surface impoundment, and either one of the following applies:

(i) The records of the person applying for an exemption indicate that no extremely hazardous wastes have been discharged into the surface impoundment.

(ii) Extremely hazardous wastes are not present in the surface impoundment, in the vadose zone, or in the waters of the state.

(B) The surface impoundment is in compliance with Section 25208.5, and a report has been filed pursuant to Section 25208.8.

(2) An exemption granted pursuant to this subdivision shall not be effective for more than five years. Applications for an exemption or a renewal of an exemption shall be accompanied by the fee specified in the fee schedule adopted by the state board pursuant to Section 25208.3. A regional board shall not renew the exemption unless the regional board makes both of the following findings:

(A) No hazardous waste constituents have migrated from the surface impoundment into the vadose zone or the waters of the state in concentrations which pollute the vadose zone, or pollute, or threaten to pollute, the waters of the state.

(B) Continuing the operation of the surface impoundment does not pose a significant potential of hazardous waste constituents migrating from the surface impoundment into the vadose zone or the waters of the state, thus polluting the vadose zone, or polluting, or threatening to pollute, these waters.

(3) Except as provided in paragraph (4), the regional board shall revoke an exemption granted pursuant to this subdivision and require the person granted the exemption to comply with subdivision (a) if the regional board determines that the surface impoundment granted the exemption is polluting, or threatening to pollute, the waters of the state or that hazardous waste constituents are migrating from the surface impoundment into the vadose zone or the waters of the state in concentrations which pollute or threaten to pollute these waters. The regional board shall also issue a cease and desist order pursuant to Section 13301 of the Water Code and require appropriate removal and remedial actions by the person granted the exemption, or the responsible parties, to clean up any pollution which may have occurred.

(4) Notwithstanding paragraph (3), a regional board may continue in effect an exemption granted pursuant to this subdivision if the regional board orders the person to double line the surface impoundment, equip the surface impoundment with a leachate collection system, and conduct groundwater monitoring, as specified in subdivision (a) of Section 25208.5, within one year after granting this continuance, and if the regional board makes all of the following

findings:

(A) The surface impoundment granted the exemption has hazardous waste constituents, in concentrations which threaten to pollute the waters of the state, which are migrating from the surface impoundment into the vadose zone, but no hazardous waste constituents have migrated into the waters of the state.

(B) Installing double liners and a leachate collection system and conducting groundwater monitoring, as specified in subdivision (a) of Section 25208.5, will abate the threat to the waters of the state before any hazardous waste constituents migrate to the waters.

(C) All removal and remedial actions necessary to abate the threat specified in subparagraph (A) can be completed prior to the migration of any hazardous waste constituents into the waters of the state.

(5) Notwithstanding paragraph (4), the regional board shall revoke the exemption continued pursuant to paragraph (4) and shall require the person granted this continuance to comply with subdivision (a) if the regional board determines either of the following:

(A) The surface impoundment is polluting the waters of the state or that hazardous waste constituents are migrating from the surface impoundment into the vadose zone or the waters of the state in concentrations which pollute, or threaten to pollute, these waters.

(B) The person does not comply with the board's order or conduct the necessary removal or remedial actions, as required by paragraph (4).

The regional board shall also issue a cease and desist order pursuant to Section 13301 of the Water Code and require appropriate removal and remedial actions by the person granted the exemption, or the responsible parties, to clean up any pollution which may have occurred, upon making either of these determinations.

(c) Notwithstanding any other provision of law, a person shall not discharge any restricted hazardous waste into a surface impoundment, unless the person is granted an exemption pursuant to Section 25208.13.

(d) This section shall become operative January 1, 1989.

SEC. 3. The Legislature finds and declares that Chapter 1543 of the Statutes of 1984 was enacted for the purpose of ensuring that existing surface impoundments are made either safe or are closed, so that they do not contaminate the air and waters of the state, and so that the health, property, and resources of the people of the state are protected.

The Legislature therefore expressly finds and declares that Chapter 1543 of the Statutes of 1984 was not intended to reduce or eliminate in any manner previously existing public health, environmental, and safety standards as they relate to discharge of restricted hazardous wastes into existing surface impoundments in the state.

The Legislature further finds and declares that, notwithstanding

Section 12080.8 of the Government Code, amendments made to Section 25208.4 of the Health and Safety Code by this act are not inconsistent with the Governor's Reorganization Plan No. 1 of the 1985–86 Regular Session of the Legislature and shall not be suspended if the reorganization plan takes effect. If the Governor's Reorganization Plan No. 1 of the 1985–86 Regular Session takes effect, the Legislative Counsel, in preparing a bill pursuant to Section 12081 of the Government Code, shall make those changes in the statutes as may be necessary to incorporate the amendments made to Section 25208.4 of the Health and Safety Code by this act and the changes made in that section by the reorganization plan.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide a safe, uniform, and orderly process to ensure the public health is protected from the discharge of restricted hazardous wastes into pits, ponds and lagoons, and to provide sufficient time for the proper permitting of new treatment and recycling facilities for the disposal of restricted hazardous wastes to land, it is necessary that this act take effect immediately.

CHAPTER 118

An act relating to hazardous substances, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 28, 1985 Filed with Secretary of State June 28, 1985]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding Section 25351 of the Health and Safety Code, the sum of three hundred fifty-four thousand four hundred forty-one dollars and fifty-eight cents ($354,441.58) is hereby appropriated from the reserve account for emergencies in the Hazardous Substance Account, created pursuant to subdivision (a) of Section 25354 of the Health and Safety Code, to the Department of Fish and Game in augmentation of Item 3600-001-200 of the Budget Act of 1984 (Chapter 258 of the Statutes of 1984), to be available under the same terms and conditions as the funds in Item 3600-001-200.

The State Department of Health Services shall pursue recovery, from the responsible party, those costs incurred by the state, including any legal fees, which were spent in response to the hazardous substance release which occurred in the City of Santa Barbara on May 18, 1984, and shall deposit the funds collected in the

Hazardous Substance Account. If the Department of Fish and Game recovers any funds from a responsible party for the hazardous substance release which occurred in the City of Santa Barbara on May 18, 1984, the Department of Fish and Game shall transfer these funds to the State Department of Health Services, for deposit in the Hazardous Substance Account.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to reimburse the Department of Fish and Game for the cleanup of a hazardous substance release, it is necessary that this act take effect immediately.

CHAPTER 119

An act to amend, add, and repeal Section 11311 of the Welfare and Institutions Code, relating to Aid to Families with Dependent Children, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 28, 1985. Filed with Secretary of State June 28, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 11311 of the Welfare and Institutions Code is amended to read:

11311. The State Department of Social Services, shall contract with San Diego County, at the county's option, to provide experimental work experience assignments for unemployed parents receiving aid under this chapter who have completed job search assistance workshops and are still unemployed and for whom such work experience assignments are appropriate based upon an assessment by the county under contract with the State Department of Social Services. Participants shall be the designated unemployed parent from two-parent families receiving aid under this chapter, and the unemployed parent in the single-parent household. For purposes of participation, only one custodial parent who is legally obligated to support the child, or, in cases where an eligible child has two legal guardians, only one legal guardian shall be required to participate in the program.

A work experience assignment shall provide all of the following:

(a) Appropriate standards for health, safety, and other conditions applicable to the performance of work.

(b) Assignments which do not result in displacement of persons currently employed (including reduction in overtime pay), the filling of established unfilled position vacancies, or infringement

upon promotional opportunities, which would otherwise be available to currently employed regular employees by any actions taken on behalf of a participant in other than an entry-level position, prior to compliance with applicable personnel procedures and collective bargaining agreements. Assignments shall not be made in any bargaining unit where positions are vacant or where employees are on layoff.

(c) Reasonable conditions of work, taking into account the geographic region, the residence of the participants, and the proficiency of the participants.

(d) Participants shall not be required to travel an unreasonable distance from their homes or remain away from their homes overnight.

(e) (1) The maximum number of hours in any month that a participant may be required to work is that number which equals the amount of aid payable with respect to the family of which the individual is a member, less any amount of child support received by the parent, or by the county on behalf of a child eligible for aid under this chapter divided by the greater of the federal or the applicable minimum wage. This paragraph shall apply to all participants currently assigned to an EWEP project on the effective date of the amendments made to this section during the 1985 portion of the 1985–86 Regular Session of the Legislature.

(2) The maximum number of hours in any month that a participant may be required to work is that number which equals the amount of aid payable with respect to the family of which the individual is a member, less any amount of child support received by the parent, or by the county on behalf of a child eligible for aid under this chapter, divided by the greater of (A) the federal or applicable minimum wage or (B) the wage which would be equivalent to the wage for a position most similar to the assignment. This paragraph shall apply to assignments to any EWEP project site developed after the effective date of the amendments made to this section during the 1985 portion of the 1985–86 Regular Session of the Legislature. After September 1, 1985, this paragraph shall additionally apply to participants newly assigned to EWEP project sites in existence on the effective date of the amendments made to this section during the 1985 portion of the 1985–86 Regular Session of the Legislature.

For purposes of paragraphs (1) and (2), work experience assignments shall not exceed 13 weeks in duration. In no event shall the hours of required work exceed 32 hours in four days of any given workweek, the fifth day of the workweek remaining for job search.

(f) Transportation and other costs reasonably necessary and directly related to participation in the assignment. The county shall make every effort to provide transportation expenses in advance of need, and when it is not possible to do so, the county shall reimburse the participant within 14 days from the time that the expense is incurred. To facilitate advance payments of transportation expenses, the department shall seek a federal waiver to hold the county

harmless for reimbursements disallowed because a recipient failed to participate in the program. In the event a federal waiver cannot be obtained, the state and county shall share the cost of the disallowed reimbursements equally.

(g) An assignment shall not be developed in response to, or be associated with, the existence of a strike, lockout, or other bona fide labor dispute, or be in violation of any existing collective bargaining agreement between employees and employers.

(h) An assignment shall not be developed through replacement of a person in a position that has been created by termination or layoff of a person for purposes of this section.

(i) A person shall not be required to accept a work experience assignment, if the assignment would result in the removal of the individual from a training program which utilizes funds made available pursuant to the federal Job Training Partnership Act (P.L. 97-300, 29 U.S.C. 1501, et seq.), or any other recognized training program or an accredited educational institution, if the individual is enrolled in nine or more semester units, or their equivalent, toward the attainment of a degree or a certification. A nonexempt individual who is enrolled in an educational program for nine or more semester units, or their equivalent, shall not be required to participate in the Employment Preparation Program pursuant to Article 3.5 (commencing with Section 11325) until the summer recess or other academic recess which provides sufficient time to complete the Employment Preparation Program without an interruption in the individual's educational program.

(j) If an overpayment occurs, pursuant to Section 11004, an amount equal to the minimum wage multiplied by the number of hours worked in that month in a community work experience position shall be deducted from the overpayment assessed for the month in which that work was performed. This paragraph shall become inoperative unless a federal waiver is secured.

(k) All participants shall receive at the time of orientation a description of the program, including what will be expected of the participant and the consequences of failing to participate, what services will be available, and the resources available to a participant in the event the participant believes that the program imposes undue hardship.

(*l*) The participant shall be allowed to select his or her work experience assignment from a list of project sites provided by the county.

The purpose of the work experience experiment shall be to determine the usefulness of such an approach in achieving the eventual employment of the unemployed parent.

The work experience assignment shall be in public and private nonprofit agencies which meet the requirements of subdivision (e) of Section 5007.5 of the Unemployment Insurance Code.

If it appears that a participant is not willing to take part in the program, the county shall provide an opportunity for that person to

establish good cause for lack of participation. Good cause criteria to be utilized, commencing on July 1, 1985, by Work Incentive Demonstration programs and the Employment Preparation Program, provided for pursuant to Article 3.5 (commencing with Section 11325), shall also apply to this section effective January 1, 1986, to the extent that they are consistent with this section.

Good cause shall include all of the following:

(a) Illness or incapacity.

(b) Court-required appearances or temporary incarceration.

(c) Major family crisis.

(d) Breakdown in transportation arrangements with no readily accessible alternative means of transportation.

(e) Inclement weather which prevented the recipient and other persons similarly situated from traveling to or participating in the prescribed activity.

(f) Breakdown in child care arrangements.

(g) Lack of other supportive services necessary for participation.

(h) Refusal to accept major medical services even if the refusal precludes participation in the program.

(i) Other substantial and compelling reasons.

The conciliation procedures provided for under subdivision (b) of Section 5302 of the Unemployment Insurance Code shall apply to this section.

Notwithstanding Section 11308, if a principal wage earner is sanctioned due to failure to meet the requirements of this section, failure to meet these requirements shall not affect the eligibility for aid of any other member of the family unit. This paragraph shall not be operative if it is found to jeopardize federal financial participation for the remaining portions of the program authorized by this section provided that the federal government issues a final order and the state has exhausted all available remedies.

Notwithstanding Section 11308, if a principal wage earner is sanctioned due to failure to meet the requirements of Article 3.5 (commencing with Section 11325), failure to meet these requirements shall not affect the eligibility for aid of any other member of the family unit. This provision shall become inoperative unless a federal waiver is secured. The State Department of Social Services shall seek a waiver from the federal government in order to implement this paragraph.

If at any time during the time the participant or family is ineligible for aid, the participant agrees to participate, the sanctions procedure shall stop, and the participant or family unit shall be considered eligible for the benefits it was entitled to prior to the imposition of sanctions, except that this provision shall not apply if sanctions are imposed against a participant more than once. Retroactive payments shall not be made for the sanction period unless the sanctions were made erroneously. All notice of action letters shall come from the department, and not from the Employment Development Department. This paragraph shall apply to persons sanctioned for

failure to meet the requirements of this section and Article 3.5 (commencing with Section 11325). This paragraph shall become inoperative unless a federal waiver is secured.

From whatever state or federal funds are appropriated to support community work experience programs, funds shall be allocated sufficient to meet the child care needs of eligible participants, including those participants with school age children who are in need of care before or after school hours. No registrant shall be required to participate until a thorough, individual assessment of child care needs is conducted, and appropriate child care arrangements are made. The evaluation of the need for child care shall be conducted jointly between the registrant and the county social worker assigned to the case. The county shall assist the registrant in obtaining suitable child care. Appropriate child care may be arranged by any of the following:

(1) Direct referral to licensed child care homes and facilities.

(2) Referral to a state-funded resource and referral agency.

(3) Independently arranged in-home or out-of-home child care by family members.

The county shall conduct a periodic review of child care arrangements to ensure adequate care and supervision of the children throughout the registrant's participation in the program components. This review shall be conducted at least bimonthly and the results of the review, as well as the results of the initial assessment, shall be thoroughly documented in the registrant's case file.

Approved child care arrangements shall be by direct payment to the child care provider.

A cooperative agencies resources for education program shall be established in San Diego County at a local community college. Where it is appropriate, recipients participating in employment preparation programs or community work experience program may be referred to this cooperative agencies resources for education program.

There shall be an annual report to the Legislature on the San Diego County Work Experience Program including utilization of the Employment Preparation Program and any other components which might be added at a later date. This annual report shall be designed and submitted by the State Department of Social Services in consultation with the Employment Development Department, and the County of San Diego, and shall be submitted to the Joint Legislative Budget Committee for approval by the office of the Legislative Analyst. The office of the Legislative Analyst shall produce the report. The report shall include, but not be limited to, all of the following categories of data:

(1) The number of applicants for, and recipients of, aid under this chapter participating in each component of the program.

(2) The number of participants entering employment from each component.

(3) The average wage of participants entering employment by component.

(4) The types of jobs obtained by participants, by component.

(5) The duration of employment in jobs by component.

(6) The average cost per participant, by component.

(7) The average cost per employed participant, by component.

(8) The number of, and reason for, terminations, by component.

(9) The number and reasons for sanctions, by component.

(10) Prior work history of all participants before they entered the program, including wages and benefits.

(11) Caseload statistics which reflect how many families were on aid at the beginning and end of the fiscal year.

This section shall become inoperative on July 1, 1987, and, as of January 1, 1988, is repealed, unless either:

(1) Federal financial participation cannot be obtained for recipients of aid under this chapter participating in the program provided for in this section, in which case this section shall remain in effect only until July 1, 1986, and as of that date is repealed.

(2) A later enacted statute, which becomes effective on or before January 1, 1988, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 2. Section 11311 is added to the Welfare and Institutions Code, to read:

11311. The State Department of Social Services, shall contract with San Diego County, at the county's option, to provide experimental work experience assignments for unemployed parents receiving aid under this chapter who have completed job search assistance workshops and are still unemployed and for whom such work experience assignments are appropriate based upon an assessment by the county under contract with the State Department of Social Services. Participants shall be the designated unemployed parent from two-parent families receiving aid under this chapter, and the unemployed parent in a single-parent household. For purposes of participation, only one custodial parent who is legally obligated to support the child, or, in cases where an eligible child has two legal guardians, only one legal guardian shall be required to participate in the program.

A work experience assignment shall provide all of the following:

(a) Appropriate standards for health, safety, and other conditions applicable to the performance of work.

(b) Assignments which do not result in displacement of persons currently employed (including reduction in overtime pay), the filling of established unfilled position vacancies, or infringement upon promotional opportunities, which would otherwise be available to currently employed regular employees by any actions taken on behalf of a participant in other than an entry-level position, prior to compliance with applicable personnel procedures and collective bargaining agreements. Assignments shall not be made in any bargaining unit where positions are vacant or where employees are

on layoff.

(c) Reasonable conditions of work, taking into account the geographic region, the residence of the participants, and the proficiency of the participants.

(d) Participants shall not be required to travel an unreasonable distance from their homes or remain away from their homes overnight.

(e) (1) The maximum number of hours in any month that a participant may be required to work is that number which equals the amount of aid payable with respect to the family of which the individual is a member, less any amount of child support received by the parent, or by the county on behalf of a child eligible for aid under this chapter, divided by the greater of the federal or the applicable minimum wage. This paragraph shall apply to all participants currently assigned to an EWEP project on the effective date of this section.

(2) The maximum number of hours in any month that a participant may be required to work is that number which equals the amount of aid payable with respect to the family of which the individual is a member, less any amount of child support received by the parent, or by the county on behalf of a child eligible for aid under this chapter, divided by the greater of (A) the federal or applicable minimum wage or (B) the wage which would be equivalent to the wage for a position most similar to the assignment. This paragraph shall apply to assignments to any EWEP project site developed after the effective date of this section. After September 1, 1985, this paragraph shall additionally apply to participants newly assigned to EWEP project sites in existence on the effective date of this section.

For purposes of paragraphs (1) and (2), work experience assignments shall not exceed 13 weeks in duration. In no event shall the hours of required work exceed 32 hours in four days of any given workweek, the fifth day of the workweek remaining for job search.

(f) Transportation and other costs reasonably necessary and directly related to participation in the assignment. The county shall make every effort to provide transportation expenses in advance of need, and when it is not possible to do so, the county shall reimburse the participant within 14 days from the time that the expense is incurred. To facilitate advance payments of transportation expenses, the department shall seek a federal waiver to hold the county harmless for reimbursements disallowed because a recipient failed to participate in the program. In the event a federal waiver cannot be obtained, the state and county shall share the cost of the disallowed reimbursements equally.

(g) An assignment shall not be developed in response to, or be associated with, the existence of a strike, lockout, or other bona fide labor dispute, or be in violation of any existing collective bargaining agreement between employees and employers.

(h) An assignment shall not be developed through replacement of a person in a position that has been created by termination or layoff

of a person for purposes of this section.

(i) A person shall not be required to accept a work experience assignment, if the assignment would result in the removal of the individual from a training program which utilizes funds made available pursuant to the federal Job Training Partnership Act (P.L. 97-300, 29 U.S.C. 1501, et seq.), or any other recognized training program or an accredited educational institution, if the individual is enrolled in nine or more semester units, or their equivalent, toward the attainment of a degree or a certification. A nonexempt individual who is enrolled in an educational program for nine or more semester units, or their equivalent, shall not be required to participate in the Employment Preparation Program pursuant to Article 3.5 (commencing with Section 11325) until the summer recess or other academic recess which provides sufficient time to complete the Employment Preparation Program without an interruption in the individual's educational program.

(j) If an overpayment occurs, pursuant to Section 11004, an amount equal to the minimum wage multiplied by the number of hours worked in that month in a community work experience position shall be deducted from the overpayment assessed for the month in which that work was performed. This paragraph shall become inoperative unless a federal waiver is secured.

(k) All participants shall receive at the time of orientation a description of the program, including what will be expected of the participant and the consequences of failing to participate, what services will be available, and the resources available to a participant in the event the participant believes that the program imposes undue hardship.

(*l*) The participant shall be allowed to select his or her work experience assignment from a list of project sites provided by the county.

The purpose of the work experience experiment shall be to determine the usefulness of such an approach in achieving the eventual employment of the unemployed parent.

The work experience assignment shall be in public and private nonprofit agencies which meet the requirements of subdivision (e) of Section 5007.5 of the Unemployment Insurance Code.

If it appears that a participant is not willing to take part in the program, the county shall provide an opportunity for that person to establish good cause for lack of participation. Good cause criteria to be utilized, commencing on July 1, 1985, by Work Incentive Demonstration programs and the Employment Preparation Program, provided for pursuant to Article 3.5 (commencing with Section 11325), shall also apply to this section effective January 1, 1986, to the extent that they are consistent with this section.

Good cause shall include all of the following:

(a) Illness or incapacity.

(b) Court-required appearances or temporary incarceration.

(c) Major family crisis.

(d) Breakdown in transportation arrangements with no readily accessible alternative means of transportation.

(e) Inclement weather which prevented the recipient and other persons similarly situated from traveling to or participating in the prescribed activity.

(f) Breakdown in child care arrangements.

(g) Lack of other supportive services necessary for participation.

(h) Refusal to accept major medical services even if the refusal precludes participation in the program.

(i) Other substantial and compelling reasons.

The conciliation procedures provided for under subdivision (b) of Section 5302 of the Unemployment Insurance Code shall apply to this section.

Notwithstanding Section 11308, if a principal wage earner is sanctioned due to failure to meet the requirements of this section , failure to meet these requirements shall not affect the eligibility for aid of any other member of the family unit. This paragraph shall not be operative if it is found to jeopardize federal financial participation for the remaining portions of the program authorized by this section provided that the federal government issues a final order and the state has exhausted all available remedies.

Notwithstanding Section 11308, if a principal wage earner is sanctioned due to failure to meet the requirements of Article 3.5 (commencing with Section 11325), failure to meet these requirements shall not affect the eligibility for aid of any other member of the family unit. This provision shall become inoperative unless a federal waiver is secured. The State Department of Social Services shall seek a waiver from the federal government in order to implement this paragraph.

If at any time during the time the participant or family is ineligible for aid, the participant agrees to participate, the sanctions procedure shall stop, and the participant or family unit shall be considered eligible for the benefits it was entitled to prior to the imposition of sanctions, except that this provision shall not apply, if sanctions are imposed against a participant more than once. Retroactive payments shall not be made for the sanction period unless the sanctions were made erroneously. All notice of action letters shall come from the department, and not from the Employment Development Department. This paragraph shall apply to persons sanctioned for failure to meet the requirements of this section and Article 3.5 (commencing with Section 11325). This paragraph shall become inoperative unless a federal waiver is secured.

From whatever state or federal funds are appropriated to support community work experience programs, funds shall be allocated sufficient to meet the child care needs of eligible participants, including those participants with school age children who are in need of care before or after school hours. No registrant shall be required to participate until a thorough, individual assessment of child care needs is conducted, and appropriate child care

arrangements are made. The evaluation of the need for child care shall be conducted jointly between the registrant and the county social worker assigned to the case. The county shall assist the registrant in obtaining suitable child care. Appropriate child care may be arranged by any of the following:

(1) Direct referral to licensed child care homes and facilities.

(2) Referral to a state-funded resource and referral agency.

(3) Independently arranged in-home or out-of-home child care by family members.

The county shall conduct a periodic review of child care arrangements to ensure adequate care and supervision of the children throughout the registrant's participation in the program components. This review shall be conducted at least bimonthly and the results of the review, as well as the results of the initial assessment shall be thoroughly documented in the registrant's case file.

Approved child care arrangements shall be by direct payment to the child care provider.

A cooperative agencies resources for education program shall be established in San Diego County at a local community college. Where it is appropriate, recipients participating in employment preparation programs or community work experience program may be referred to this cooperative agencies resources for education program.

There shall be an annual report to the Legislature on the San Diego County Work Experience Program including utilization of the Employment Preparation Program and any other components which might be added at a later date. This annual report shall be designed and submitted by the State Department of Social Services in consultation with the Employment Development Department, and the County of San Diego, and shall be submitted to the Joint Legislative Budget Committee for approval by the office of the Legislative Analyst. The office of the Legislative Analyst shall produce the report. The report shall include, but not be limited to, all of the following categories of data:

(1) The number of applicants for, and recipients of, aid under this chapter participating in each component of the program.

(2) The number of participants entering employment from each component.

(3) The average wage of participants entering employment by component.

(4) The types of jobs obtained by participants, by component.

(5) The duration of employment in jobs by component.

(6) The average cost per participant, by component.

(7) The average cost per employed participant, by component.

(8) The number of, and reason for, terminations, by component.

(9) The number and reasons for sanctions, by component.

(10) Prior work history of all participants before they entered the program, including wages and benefits.

(11) Caseload statistics which reflect how many families were on

aid at the beginning and end of the fiscal year.

This section shall become inoperative on July 1, 1987, and, as of January 1, 1988, is repealed, unless either:

(1) Federal financial participation cannot be obtained for recipients of aid under this chapter participating in the program provided for in this section, in which case this section shall remain in effect only until July 1, 1986, and as of that date is repealed.

(2) A later enacted statute, which becomes effective on or before January 1, 1988, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 3. Section 1 of this act shall become operative only if this act is chaptered on or before July 1, 1985.

Section 2 of this act shall become operative only if this act is chaptered after July 1, 1985.

SEC. 4. In order to implement this act:

(a) There is hereby appropriated, in augmentation of Item 5180-141-001 of the Budget Act of 1985, from the General Fund to the State Department of Social Services, the sum of one hundred seventy-five thousand dollars ($175,000) for county administration.

(b) There is hereby appropriated, in augmentation of Item 5180-141-890 of the Budget Act of 1985, from the Federal Trust Fund, to the State Department of Social Services, the sum of three hundred fifty thousand dollars ($350,000) for county administration.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure the continued operation of the San Diego County employment program for Aid to Families with Dependent Children program recipients, it is necessary that this act go into immediate effect.

[Approved by Governor July 1, 1985 Filed with Secretary of State July 1, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 48295 of the Education Code is amended to read:

48295. Any judge of a municipal or justice court in which the school district is located, or in which the offense is committed, has jurisdiction of offenses committed under this article. A juvenile court

has jurisdiction of a violation of Section 48293 as provided by Section 601.4 of the Welfare and Institutions Code.

SEC. 2. Section 601.4 is added to the Welfare and Institutions Code, to read:

601.4. (a) Whenever a case is before a juvenile court alleging that a person under the age of 18 years is a person described in subdivision (b) of Section 601, the juvenile court judge may be assigned to sit as a municipal court judge to hear any complaint alleging that the parent, guardian, or other person having control or charge of that minor has violated Section 48293 of the Education Code. The jurisdiction of the juvenile court granted by this section shall not be exclusive and the charge may be prosecuted instead in a municipal or justice court. However, upon motion, that action shall be transferred to the juvenile court.

(b) Notwithstanding Section 737 of the Penal Code, a violation of Section 48293 of the Education Code may be prosecuted pursuant to subdivision (a), by written complaint filed in the same manner as an infraction may be prosecuted in a municipal or justice court. The juvenile court judge, sitting as a municipal court judge, may coordinate the action involving the minor with the action involving the parent, guardian, or other person having control or charge of the minor. Both matters may be heard and decided at the same time unless the parent, guardian, other person having control or charge of the minor, or any member of the press or public objects to closed hearing of the proceedings charging violation of Section 48293 of the Education Code.

SEC. 3. Section 656 of the Welfare and Institutions Code is amended to read:

(d) The name, age, and address, if any, of the minor upon whose behalf the petition is brought.

(e) The names and residence addresses, if known to petitioner, of both of the parents and any guardian of the minor. If there is no parent or guardian residing within the state, or if his or her place of residence is not known to petitioner, the petition shall also contain the name and residence address, if known, of any adult relative residing within the county, or, if there are none, the adult relative residing nearest to the location of the court.

(f) A concise statement of facts, separately stated, to support the conclusion that the minor upon whose behalf the petition is being brought is a person within the definition of each of the sections and subdivisions under which the proceedings are being instituted.

(g) The fact that the minor upon whose behalf the petition is

brought is detained in custody or is not detained in custody, and if he or she is detained in custody, the date and the precise time the minor was taken into custody.

(h) A notice to the father, mother, spouse, or other person liable for support of the minor child, that: (1) Section 903 makes that person, the estate of that person, and the estate of the minor child, liable for the cost of the care, support, and maintenance of the minor child in any county institution or any other place in which the child is placed, detained, or committed pursuant to an order of the juvenile court; (2) Section 903.1 makes that person, the estate of that person, and the estate of the minor child, liable for the cost to the county of legal services rendered to the minor by a private attorney or a public defender appointed pursuant to the order of the juvenile court; (3) Section 903.2 makes that person, the estate of that person, and the estate of the minor child, liable for the cost to the county of the probation supervision of the minor child by the probation officer pursuant to the order of the juvenile court; and (4) the liabilities established by these sections are joint and several.

In those cases, the petition shall also include notice that the parent, guardian, or other person having control or charge of the minor has the right to a hearing on the infraction before a judge different than the judge who has heard or is to hear the proceeding pursuant to Section 601. The notice shall explain the provisions of Section 170.6 of the Code of Civil Procedure.

SEC. 4. Section 661 of the Welfare and Institutions Code is amended to read:

661. In addition to the notice provided in Sections 658 and 659, the juvenile court may issue its citation directing any parent, guardian, or foster parent of the person concerning whom a petition has been filed to appear at the time and place set for any hearing under the provisions of this chapter, including a hearing under the provisions of Section 257, and directing any person having custody or control of the minor concerning whom the petition has been filed to bring the minor with him or her. The notice shall in addition state that a parent, guardian, or foster parent may be required to participate in a counseling or education program with the minor concerning whom the petition has been filed. If the proceeding is one alleging that the minor comes within the provisions of Section 601, the notice shall in addition contain notice to the parent, guardian, or other person having control or charge of the minor that failure to comply with the compulsory school attendance laws is an infraction, which may be charged and prosecuted before the juvenile court judge sitting as a municipal court judge. In those cases, the notice shall also include notice that the parent, guardian, or other

person having control or charge of the minor has the right to a hearing on the infraction before a judge different than the judge who has heard or is to hear the proceeding pursuant to Section 601. The notice shall explain the provisions of Section 170.6 of the Code of Civil Procedure. Personal service of the citation shall be made at least 24 hours before the time stated therein for the appearance.

SEC. 5. Section 661 of the Welfare and Institutions Code is amended to read:

661. In addition to the notice provided in Sections 658 and 659, the juvenile court may issue its citation directing any parent, guardian, or foster parent of the person concerning whom a petition has been filed to appear at the time and place set for any hearing or financial evaluation under the provisions of this chapter, including a hearing under the provisions of Section 257, and directing any person having custody or control of the minor concerning whom the petition has been filed to bring the minor with him or her. The notice shall in addition state that a parent, guardian, or foster parent may be required to participate in a counseling or education program with the minor concerning whom the petition has been filed. If the proceeding is one alleging that the minor comes within the provisions of Section 601, the notice shall in addition contain notice to the parent, guardian, or other person having control or charge of the minor that failure to comply with the compulsory school attendance laws is an infraction, which may be charged and prosecuted before the juvenile court judge sitting as a municipal court judge. In those cases, the notice shall also include notice that the parent, guardian, or other person having control or charge of the minor has the right to a hearing on the infraction before a judge different than the judge who has heard or is to hear the proceeding pursuant to Section 601. The notice shall explain the provisions of Section 170.6 of the Code of Civil Procedure. Personal service of the citation shall be made at least 24 hours before the time stated therein for the appearance.

SEC. 6. Section 700.2 is added to the Welfare and Institutions Code, to read:

700.2. Upon his or her appearance before the juvenile court on a complaint charging violation of Section 48293 of the Education Code, the juvenile court shall inform the parent, guardian, or other person having control or charge of the minor of the right to an open hearing and of the right to have a hearing on the complaint before a judge different than the judge who has heard or is to hear the proceeding pursuant to Section 601. The provisions of Section 170.6 of the Code of Civil Procedure shall be explained to the parent, guardian, or other person having control or charge of the minor.

SEC. 7. Section 5 of this bill incorporates amendments to Section 661 of the Welfare and Institutions Code proposed by both this bill and SB 1252. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1986, (2) each bill amends Section 661 of the Welfare and Institutions Code, and (3) this

bill is enacted after SB 1252, in which case Section 4 of this bill shall not become operative.

[Approved by Governor July 1, 1985. Filed with Secretary of State July 1, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 5500 of the Fish and Game Code is amended to read:

5500. It is unlawful to use explosives in the waters of this state inhabited by fish, except under a permit first obtained by the user from the department consistent with terms and conditions set by the commission, or except in case of emergency, to remove an accidental obstruction to the flow of water. Any person may appeal the department's decision to grant or deny a permit to the commission.

CHAPTER 122

An act to amend Section 803 of the Penal Code, relating to crimes, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 1, 1985 Filed with Secretary of State July 1, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 803 of the Penal Code is amended to read:

(b) No time during which prosecution of the same person for the same conduct is pending in a court of this state is a part of a limitation of time prescribed in this chapter.

(c) A limitation of time prescribed in this chapter does not commence to run until discovery of an offense described in this subdivision. This subdivision applies to an offense punishable by imprisonment in the state prison a material element of which is fraud or breach of a fiduciary obligation or the basis of which is misconduct in office by a public officer, employee, or appointee, including but not limited to the following offenses:

(1) Grand theft of any type, forgery, falsification of public records, or acceptance of a bribe by a public official or a public employee.

SEC. 2. The intent of the Legislature in the enactment of Chapter 2 (commencing with Section 799) of Title 3 of Part 2 of the Penal Code, as added by Chapter 1270 of the Statutes of 1984, was, and is, that the "maximum punishment" referred to in subdivision (a) of Section 805 of the Penal Code is that sentence which was prescribed as of January 1, 1985, or any sentence prescribed thereafter, regardless of any sentence prescribed for that offense prior to January 1, 1985. It was, and is, the further intent of the Legislature in the enactment of Chapter 1270 that it shall not be construed to bar prosecution of an offense for which a maximum punishment of eight years or more in state prison was prescribed as of January 1, 1985, and which could have been prosecuted under the law in effect immediately prior to the operative date of that chapter.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent an erroneous interpretation of law, pertaining to the statute of limitations, resulting in the dismissal of criminal charges against persons accused of serious crimes, it is necessary that this act take immediate effect.

CHAPTER 123

An act to amend Sections 18056.2 and 18056.4 of the Health and Safety Code, relating to manufactured housing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 1, 1985 Filed with Secretary of State July 1, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 18056.2 of the Health and Safety Code is amended to read:

18056.2. On or before January 1, 1986, the department shall adopt regulations to prescribe the following:

(a) A definition of basic requirements for continuing education, except as provided in subdivision (b), of both of the following:

(1) Twenty-four hours of attendance at approved educational courses, seminars, or conferences, or their equivalent, achieved during a two-year period preceding renewal application in the case of the dealer.

(2) Thirty-six hours of attendance at approved educational courses, seminars, or conferences, or their equivalent, achieved during a three-year period preceding renewal application in the case of a salesperson.

(b) (1) A requirement that a dealer or salesperson who applies for license renewal on or after January 1, 1987, but no later than July 1, 1987, shall achieve no less than 12 hours of continuing education to meet the requirements of this article.

(2) A requirement that a salesperson who applies for license renewal after July 1, 1987, but no later than July 1, 1988, shall achieve no less than 24 hours of continuing education to meet the requirements of this article.

(c) A basis and method of qualifying educational programs, the certification of attendance at which, or challenging the course of which, will satisfy the requirements of this article.

(d) A procedure for evaluation of petitions based on a claim of equivalency with the requirements of subdivision (a), and a reasonable standard by which activity would be judged equivalent, including, but not limited to, instruction in manufactured housing educational programs, law, or research.

In exercising the authority under this article, the department shall establish standards which will assure reasonable currency of knowledge as a basis for a level of manufactured housing practice which will provide a high level of consumer protection and service. The standards shall include, where qualified, generally accredited educational institutions, private vocational schools, correspondence institutions, educational programs and seminars of professional societies and organizations, other organized educational programs or technical subjects, or equivalent offerings.

SEC. 2. Section 18056.4 of the Health and Safety Code is amended to read:

18056.4. On or after January 1, 1987, no dealer's or salesperson's license shall be issued or renewed unless the department finds that

the applicant has completed the preliminary or continuing education required by this article. Any denial of license issuance or renewal is subject to Article 2 (commencing with Section 18050).

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Chapter 1528 of the Statutes of 1984 established a deadline of July 1, 1985, for the Department of Housing and Urban Development to adopt specified regulations. Since this deadline is not feasible, it is necessary to extend the date before the deadline is reached. Therefore, it is necessary for this act to take effect immediately.

(b) The department may issue a permit to any person, as defined in Section 67, authorizing that person to offer a prize or other inducement as a reward for the taking of trout, striped bass, or black bass. The department may issue a permit if it finds that there would be no detriment to the resource. The permit shall be subject to regulations adopted by the commission, except that no permit shall be required for any person where the total value of all of the prizes or other inducements does not exceed two hundred dollars ($200) for each individual contest, tournament, or derby. The application for the permit shall be accompanied by a fee in the amount determined by the department as necessary to cover the reasonable administrative costs incurred by the department in issuing the permit.

(c) This section does not apply to any person, as defined in Section 67, conducting what are generally known as frog-jumping contests or fish contests conducted in waters of the Pacific Ocean.

SEC. 2. No reimbursement is required by this act pursuant to

Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 125

An act to add Section 16477 to the Public Utilities Code, relating to public utility districts.

[Approved by Governor July 1, 1985. Filed with Secretary of State July 1, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 16477 is added to the Public Utilities Code, to read:

16477. Notwithstanding Section 16475, the Board of Directors of the Fallbrook Public Utility District may fix and collect an annual water standby or immediate availability charge not to exceed thirty dollars ($30) per acre or any parcel of less than one acre.

The Legislature hereby finds and declares that this section, applicable only to the Fallbrook Public Utility District, is necessary because of the unique and special water management problems within that district.

The charges on loans shall be computed on the basis of the number of days actually elapsed, for the purpose of which computations a month is any period of 30 consecutive days.

(b) The loan contract shall provide for payment of the aggregate amount contracted to be paid in substantially equal periodical installments, the first of which shall be due not less than 15 days nor more than one month and 15 days from the date the loan is made.

This subdivision shall not apply to a loan made to a graduate student at an accredited college or university while the student is actively pursuing a study program leading to a postbaccalaureate degree, or to a student loan made by an eligible lender under the Higher Education Act of 1965, as amended (20 U.S.C. Before approving or conditionally approving a proposal pursuant to this subdivision, a commission shall find that there is a reasonable probability that the proposal will be consistent with the spheres of influence being prepared for the local agency for which the proposal is proposed.

(c) Until June 30, 1985, a commission which has not adopted a sphere of influence for local governmental agencies which do not provide facilities or services related to development may review, approve, conditionally approve, or disapprove proposals which include territory which might be contained within the sphere of influence of these local agencies. If the proposal would result in the conversion of prime agricultural land within the agricultural preserves to nonagricultural use, the commission shall make written determinations explaining the reasons for its decision.

(d) A commission shall not approve or conditionally approve any proposal which would result in the conversion of agricultural land to nonagricultural use if the commission has not adopted a sphere of influence for each local governmental agency which might, as determined by the commission, include the subject territory in its sphere of influence and which provides facilities or services related to development.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Due to heavy workloads, many local agency formation commissions will be unable to complete the required sphere of influence determinations for local agencies within their jurisdictions by the January 1, 1985 statutory deadline, thus precluding any futher proceedings on proposals for which substantial preliminary work has already progressed. In order that local agencies may continue to process those proceedings which were initiated by December 31, 1984, but for which the required spheres of influence are not completed by the January 1, 1985 deadline, it is necessary that this act go into effect immediately.

(f) An industrial loan company has suspended payment of its obligations.

(g) An industrial loan company is in such condition that it is unsound or unsafe for it to transact business.

(h) An industrial loan company neglects or refuses to observe any order of the commissioner made pursuant to this division, unless the enforcement of such order is restrained in a proceeding brought by the industrial loan company.

(i) An industrial loan company fails to participate as a member of Thrift Guaranty Corporation of California in accordance with Chapter 7 (commencing with Section 18475) or fails to pay any assessment levied pursuant thereto within the time specified.

(j) A member industrial loan company of Guaranty Corporation refuses to permit Guaranty Corporation, its appointed certified public accountant or public accountant, or specialized committees or employees to fulfill their duties under Section 18496.

(k) An industrial loan company has sold or issued investment certificates in violation of the provisions of this division.

(*l*) An industrial loan company has failed to maintain in effect a bond required under the provisions of this division.

(m) Any fact or condition exists which, if it had existed at the time of the original application for authority to organize and establish a corporation to engage in the industrial loan business reasonably would have warranted the commissioner in disapproving the application.

If the commissioner takes possession of the business and property of an industrial loan company, the company, with the consent of the commissioner, may resume business upon prescribed conditions.

18415.1. Whenever the commissioner has taken possession of the property and business of an industrial loan company, that industrial loan company, within 10 days after the taking, if it deems itself aggrieved thereby, may apply to the superior court in the county in which the head office of the industrial loan company is located to enjoin further proceedings. The commissioner may exercise all powers granted by this article during the 10-day period after taking possession of the property and business of the industrial loan company. The court, after citing the commissioner to show cause why further proceedings should not be enjoined and after a hearing and a determination of the facts upon the merits may dismiss the application or enjoin the commissioner from further proceedings and direct the commissioner to surrender the property and business to the industrial loan company, or make such further order as may be just.

18415.2. An appeal may be taken from the judgment of the court by the commissioner or by the industrial loan company in the manner provided by law for appeals from the judgment of a superior court.

18415.3. (a) Whenever the net worth of an industrial loan company, exclusive of its good will, is less than 90 percent of the aggregate sum of its outstanding investment certificates, exclusive of those hypothecated with the company issuing them, divided by the fraction which is its investment certificates ratio permitted by the commissioner, the commissioner shall by written order direct the company to make good the alleged deficiency of new worth. Pursuant to the commissioner's orders, the company's net worth shall be at least 100 percent of the aggregate sum of its outstanding investment certificates, exclusive of those hypothecated with the company issuing them, divided by the fraction which is its investment certificates ratio permitted by the commissioner.

(b) If the company fails to cure the alleged deficiency of net worth within the commissioner's specified time, not to exceed 120 days, the commissioner may take possession of the company's property and business. If the alleged deficiency is not cured within 120 days of the order, the commissioner shall take possession of the company's property and business.

18415.4. The commissioner may also, upon the request of the board of directors of a company, take possession of the property and business of a company and as conservator, take such action as the commissioner deems proper.

18415.5. Upon taking possession of the property and business of any industrial loan company, the commissioner shall give notice of that fact to all persons holding or having in their possession any assets of the company. The notice required by this section shall not be deemed to be a prerequisite to the taking of possession of the property and business of the industrial loan company. No person knowing of the taking, or who has been notified thereof, shall have a lien or charge upon any assets of the company for any payment, advance or clearance thereafter made, or for any liability thereafter incurred.

Notice is deemed given when the commissioner has either made personal service of the notice, or mailed the notice to the person by certified mail.

18415.6. Any officer, agent, employee, director, or stockholder of a company who refuses to comply with the demand for possession issued under Section 18415 shall be guilty of a misdemeanor punishable by a fine of not more than one thousand dollars ($1,000) or imprisonment not exceeding one year or by both such fine and imprisonment.

18415.7. On demand of the commissioner, it shall be the duty of the sheriff of any county of the state, and of the police department of any municipal corporation therein, to furnish the commissioner with deputies, patrolmen, or officers as may be necessary to assist the commissioner in making and enforcing any seizure under Section 18415.

18415.8. Upon taking possession of the property and business of any company, the superior court for the county in which the head

office of the company is located shall have exclusive original jurisdiction of all proceedings relating thereto and of any action or other proceedings brought under the provisions of this chapter. All papers relating to the taking of possession, including copies of the certificate of appointment of any special deputy, shall be filed and be made a part of the record of the proceeding within 45 days of the date of taking possession. All papers filed with the superior court, including inventories required to be filed, shall be made a part of the record of the proceeding without the payment of any additional fees therefor.

18415.9. At any time after the order taking possession issued under Section 18415 has been filed with the court, the commissioner may remove the principal office of the person proceeded against to the City and County of San Francisco or to the City of Los Angeles. In the event of removal, the court where the proceeding was commenced shall, upon the application of the commissioner, direct the superior court clerk to transmit all of the papers filed therein with that clerk to the Superior Court Clerk of the City and County of San Francisco or of the County of Los Angeles as the case may require. The proceeding shall thereafter be conducted in the same manner as though it had been commenced in the county to which it had been transferred.

18415.10. The commissioner may, at any time, examine under oath any officer, director, agent, employee or stockholder of a company to determine whether or not all property and assets have been transferred or delivered to the commissioner's possession.

18415.11. Upon taking possession of the property and business of any company, the commissioner has authority and the duty to collect all moneys due to the company and to do such other acts as are necessary or expedient to collect, conserve, or protect its assets, property and business. The commissioner shall also proceed to conserve or liquidate the affairs thereof as provided in this chapter.

18415.12. The commissioner may file a petition with the court and the court shall issue such injunctions or orders, as may be deemed necessary, to prevent any of the following occurrences:

(a) Interference with the commissioner or the proceeding.

(b) The institution of any actions or proceedings, or the prosecution of any actions or proceedings already commenced.

(c) Waste of assets of the entity.

(d) The obtaining of preferences, judgments, attachments or other liens against the company or its assets.

(e) The making of any levy against the company or its assets.

(f) The sale or deed for nonpayment of taxes or assessments levied by any taxing agency of any of the following:

(1) Property owned by the company.

(2) Property upon which the company holds an encumbrance.

(3) Property upon which the company has prior thereto commenced an action to foreclose any deed of trust or mortgage or has exercised the power of sale under any trust deed or mortgage

which sale or foreclosure proceedings have not yet been completed or upon which no trustee's deed or judgment of court or sheriff's certificate of sale has been issued.

"Taxing agency," as used in this section, has the same meaning as defined in Section 121 of the Revenue and Taxation Code. The injunctions or orders authorized by this subdivision may be modified, dissolved, or rescinded by the court on motion of the commissioner, the Controller, or the person charged with the collection of taxes or assessments on such property. The recording in the office of the county recorder of any county in the state of an order or injunction issued pursuant to this section, shall constitute service of the order or injunction upon any taxing agency with respect to property or interest therein located in such county.

18415.13. After the taking of possession of the property and business of any company, the commissioner may terminate or adopt any executory contract to which the company may be a party, including leases of real or personal property. The termination or adoption shall be made within six months after obtaining knowledge of the existence of the contract or lease. Any provision in the contract or lease which provides for damages or cancellation fees upon termination shall not be binding on the commissioner or the company seized. The commissioner and the company shall only be liable for actual damages and in no event in excess of one thousand dollars ($1,000). Any claim must be filed within 30 days of the date of the termination.

18415.14. The commissioner may proceed against any debtor or alleged debtor by way of summary procedure or by order to show cause issued by the court upon application by the commissioner.

18415.15. The commissioner may make examinations of the seized company and review the activities of any conservator or liquidator.

18415.16. The actual cost of any examination, investigation or services, including the actual amount of salary or other compensation paid to the persons making the examination, investigation or rendering services and the overhead costs in connection therewith, as fixed by the commissioner, shall be paid out of the assets of the company.

18415.17. The determination by the commissioner to liquidate a company, evidenced by filing written notice of the determination with the court, operates to stay or dissolve all actions or attachments instituted or levied within 90 days next preceding the taking of possession of the company by the commissioner, and pending the process of liquidation, no attachment or execution shall be levied or lien created upon any of the property of the company.

18415.18. Upon taking possession of the property, and business of a company in any proceeding under this article, the commissioner shall have the power to do all of the following:

(a) Appoint one or more special deputy commissioners as his or her agent or agents with the powers specified in the certificate of

appointment to assist in the duty of conservation or of liquidation and distribution.

(b) Employ the Attorney General as counsel or employ private counsel as may be deemed necessary to assist the commissioner in the performance of his or her duties under this chapter. Appointment of private counsel shall be made only with the consent of the Attorney General. The compensation of that counsel shall be fixed by the commissioner, subject to the approval of the court.

(c) Set the compensation of a special deputy commissioner.

(d) Require from each special deputy commissioner and from each assistant such security for the faithful performance of their duties as the commissioner may deem proper.

18415.19. All expenses of taking possession of, conserving, conducting, liquidating, disposing of or otherwise dealing with the business and property of any company under this article shall be paid out of the assets of that company. Those expenses shall include, among other things, the compensation of special deputy commissioners, clerks and assistants and the actual cost of any services attributable to the conservatorship or liquidation performed by the commissioner and staff, including the actual amount of salary or compensation paid to the person performing the services and overhead costs in connection therewith as fixed by the commissioner.

18415.21. Any transaction occurring within six months of the date of taking possession shall be voidable by the conservator or liquidator if the transaction has the effect of giving to, or enabling any creditor of, the company, any affiliate of the company, any officer, director, stockholder, employee or any relative thereof, to obtain a preference over any other creditor of the company.

18415.22. No obligation may be purchased or discounted under any agreement between the company and any person involving the purchase or discount of obligation from the person, with or without recourse, from the moment of taking possession pursuant to Section 18415. Any guarantees, recourse or repurchase agreements given at the time of purchase, or discount of any obligation prior to the date of taking possession, shall continue to be binding on the person. Any reserves, withholds or other security held by the company under the terms of the agreement shall be considered liabilities of the company in the general creditor classification and may not be used as offset against any obligation purchased or discounted under the agreement. No distribution of assets shall be made on these liabilities until the obligations purchased or discounted under the agreement have been satisfied.

In case of sale of the obligations by the liquidator, the reserves, withholds or other security shall remain as a liability to be paid off in the normal course of liquidation.

18415.23. No attachment or execution shall be issued against the property of any company before final judgment in any action or proceeding in any court.

18420. The commissioner, as conservator or liquidator, after taking possession of the company, shall, in his or her name, in the name of the company, in the name of both, or otherwise, have authority to do all of the following:

(a) Collect all obligations and money due the company.

(b) Exercise and possess all the rights, powers and privileges of the company, its officers and directors.

(c) Institute, prosecute, maintain, defend, intervene, and otherwise participate in any and all actions, suits, or other legal proceedings by and against the conservator or liquidator or company, or in which the conservator, the company or its creditors or debtors, or any of them, have an interest, and in every way to represent the company, its creditors, and debtors.

(d) Execute, acknowledge, and deliver any and all deeds, contracts, leases, assignments, bills of sale, releases, extensions, satisfactions, and other instruments necessary or proper for any purposes.

(e) Be the custodian of all moneys collected by the commissioner or coming into his or her possession in the course of any proceeding under this chapter, but he or she may deposit those moneys, or any part thereof, in a bank insured by the Federal Deposit Insurance Corporation.

(f) Invest or reinvest such portions of funds and assets of the company, in a manner as he or she may deem suitable for the best interests of the creditors of the company.

(g) To revise, refinance, extend, or settle any loan or obligation upon those terms and conditions as he or she may deem to be most advantageous to the company.

(h) To sell, compound, compromise or assign for the purpose of collection upon those terms and conditions he or she deems best, any bad or doubtful debts due the company.

(i) To compound, compromise, or in any manner negotiate settlements of claims against the company upon those terms and conditions as he or she shall deem to be most advantageous to the company.

(j) To sell, acquire, hypothecate, encumber, lease, improve, abandon, or otherwise dispose of or deal with any real or personal property which has come into ownership of the company by way of repossession, foreclosure, execution, suit or by other such means on a basis of reasonable market value, without notice, for cash, on terms, or upon such other terms and conditions as he or she may deem proper.

(k) To settle, compromise, or obtain the release of, for cash or other consideration, claims and demands against the company or the conservator.

(*l*) To sell for cash or on terms, exchange, or otherwise dispose of, in whole or in part, any or all the assets and property of the company, real, personal, and mixed, tangible and intangible, of any nature.

(m) Execute, acknowledge, and deliver any and all deeds,

contracts, leases, assignments, bills of sale, releases, extensions, satisfactions, and any other instruments necessary or proper for any purposes, including, but not limited to, the effectuation, termination, or modification of any sale, lease, or transfer of real, personal, or mixed property, or that shall be necessary or proper to liquidate or carry on the business of the company. Any deed or other instrument executed pursuant to the authority hereby given shall be as valid and effectual for all purposes as if it had been executed as the act and deed of the company.

(n) Pay out and expend such sums as the commissioner deems necessary or advisable including the following:

(1) To pay off or discharge any taxes, assessments, liens, claims, or charges of any nature against the company, the conservator or liquidator, any asset or property of any nature of the company, or upon any asset or property on which the company or conservator or liquidator has an interest of a value of any nature.

(2) For or in connection with the preservation, maintenance, conservation, protection, remodeling, repair, rehabilitation, or improvement of any asset or property of any nature of the company.

(3) To pay all costs and expenses of the conservatorship or liquidation and all costs of carrying out or exercising the commissioner's rights, powers, privileges, and duties as conservator.

(4) To pay valid creditor obligations, interest owed on debts, debts incurred during conservatorship or liquidation and all other debts of the company or conservatorship or liquidation of any nature.

(5) To pay all costs and expenses in the operation of the conservatorship or liquidation of the company.

(o) Do such things, and have such rights, powers, privileges, immunities and duties, whether or not otherwise granted in this chapter, as shall be authorized, directed, conferred, or imposed from time to time in specific cases by order of the court.

18420.1. No transaction involving real or personal property, investment or reinvestment of funds or assets, or settlement or compromise of pending lawsuits shall be made without first obtaining permission of the court, and then only in accordance with such terms as the court may prescribe, when either of the following exist:

(a) The principal sum of any obligation due the company or settlement or compromise of a pending lawsuit exceeds the sum of fifteen thousand dollars ($15,000).

(b) The market value of any real or personal property, except obligations due the company, exceeds the sum of ten thousand dollars ($10,000).

18420.2. The commissioner may, with ex parte approval of the court, sell all or any part of the company's assets to another industrial loan company, to a bank, to a savings and loan association, to Guaranty Corporation, or to an instrumentality of the United States government. In like manner, the commissioner may borrow from Guaranty Corporation, an instrumentality of the United States

government, or a private insurer which insures or guarantees the company's investment certificates, any amount necessary to facilitate the assumption of investment certificate liabilities by a newly chartered or existing industrial loan company, assigning any part or all of the assets of the company as security for that loan.

18420.5. The commissioner may appoint a person to act as conservator or liquidator of the company. The person appointed may be Thrift Guaranty Corporation of California. If the company's outstanding thrift obligations are insured by an instrumentality of the United States government, the commissioner may appoint that instrumentality to act as conservator or liquidator of the company. Subject to the other provisions of this division, a conservator or liquidator, while in possession of the property and business of a company, has the same powers and rights and is subject to the same duties and obligations as the commissioner while in possession of the property and business of a company. During such time, the rights of the company and of all persons with respect thereto, subject to the other provisions of this chapter, are the same as if the commissioner had taken possession of such properties and business, except that the commissioner may limit those powers and rights as he or she may deem necessary.

18420.6. The commissioner shall have the authority to terminate the appointment of a conservator or liquidator whenever the commissioner deems it in the best interest of the company, its creditors, and investors. The commissioner shall file a copy of the notice of termination with the court.

18420.7. The commissioner may require a conservator or liquidator to provide such bond as the commissioner deems proper. The conservator or liquidator shall receive a salary, fixed by the commissioner, in an amount no greater than that which would be paid by the commissioner to a special deputy commissioner in charge of the liquidation of the company.

18425. If at any time after taking possession of the property and business of a company it shall appear to the commissioner that it would be futile to proceed as conservator with the conduct of the business of the company, the commissioner may order the company to be liquidated. A copy of the liquidation order shall be filed with the clerk of the superior court.

18425.1. The liquidator shall cause notice to be given by publication for four successive weeks in a newspaper of general circulation at or near the principal place of business in the state of the company, to all persons having claims against the company, other than investment certificate holders, whether or not an action is pending to enforce any claim for demand, requiring them to present and file their claims and make legal proof thereof at a place and within a time designated in the notice. The time shall not be less than 90 days after the first publication of the notice. The notice shall also state that all claims other than those of investment certificate holders appearing upon the books or records of the company and any claims,

whether or not an action is pending to enforce any such claim or demand, shall be forever barred if not filed within the time designated. The liquidator shall also mail a similar notice to all persons whose names appear as creditors upon the books of the company and any person who has an action pending to enforce a claim or demand whose address appears upon the books or records of the company and shall enclose therewith a printed form or notice of claim.

18425.2. All claims, demands, or causes of action of creditors, and persons other than investors against any property owned or held by it in trust, or otherwise, must be presented to the liquidator in writing, verified by the claimant, or someone on his or her behalf, within the period specified in the notice for the presentation of claims, whether or not an action is pending to enforce any such claim or demand. The liquidator shall not approve any claim not so presented, and any such claim, demand, or cause of action not so presented is forever barred.

18425.3. If the liquidator doubts the validity of any claim, the liquidator may reject the claim and serve notice of rejection upon the claimant either by certified mail or personally. A notice of rejection given by mail, addressed to the claimant at the address set forth in the claim, shall constitute sufficient notice of the rejection. Any action upon a claim so rejected must be brought within 30 days after the mailing of the notice or personal service of the notice in the court in which the liquidation proceeding is pending for an order to show cause why the claim should not be allowed. Failure to bring such action within 30 days to enforce the payment of or establish any rejected claim shall forever bar any such action.

18425.4. A claim shall set forth, under oath, on the form prescribed by the commissioner, all of the following:

(a) The particulars of the claim, and the consideration for the claim.

(b) Whether the claim is secured or unsecured, and, if secured, the nature and amount of the security.

(c) The payments, if any, made thereon.

(d) That the sum claimed is justly owing from such person to the claimant.

(e) That there is no offset to the claim.

(f) Such other data or supporting documents as the liquidator requires.

18425.5. When an investment certificate holder is also a debtor, the liquidator may offset any balance due the investment certificate holder against the debt and the interest due on that debt up to the date of offset, in an amount not to exceed the amount of the debt or the amount of the thrift obligation guaranteed by the Thrift Guaranty Corporation of California, whichever is less.

18425.6. The amount of a claim of an investment certificate holder shall be the amount which the investment certificate holder would have been entitled to withdraw as of the date of taking

possession, pursuant to Section 18415, plus interest thereon accrued to that date, without regard to whether the account is subject to any pledge. In the case of an account with a fixed or minimum term or a qualifying or notice period that has not expired as of the date of taking possession, interest shall be computed as if the account had been withdrawn on that date without penalty or reduction in interest.

The liquidator shall give notice to each investment certificate holder of the amount of his or her claim and the investment certificate holder shall not be required to file a claim unless he or she disputes the amount of the liquidator's determination.

18425.7. When the time fixed for the presentation of claims has expired, the liquidator shall make in duplicate a full and complete list of all claims presented, including and specifying those claims that have been rejected by the liquidator, and a list of all claims of investment certificate holders as shown by the books or records of the company, and shall file one copy of the list in the commissioner's office and one with the clerk of the superior court in which the liquidation proceedings are being held. Before each application to the court for leave to declare a dividend, the liquidator shall file a supplemental list of claims presented since the last preceding list was filed, including and specifying the claims as have been rejected by the liquidator. The list of claims and of claims of investment certificate holders as shown by the books or records of the company shall be open for inspection at all reasonable times.

18425.8. Objections to any claim not rejected by the liquidator may be made by any person interested by filing his or her objections, in writing, with the liquidator, who shall present the objections to the court. The court shall dispose of the objections or may order reference for that purpose, and should the objections to any claim be sustained by the court or by the referee, that claim shall not be allowed by the liquidator until the claimant has established his or her claim by judgment. Any objections to a claim shall be filed within 60 days from the date of filing of the schedule of claims as required by this article with the court or be forever barred.

18425.9. The liquidator, with the approval of the court, may pay one or more dividends to investment certificate holders prior to the expiration of the time for filing claims. After the time for filing of claims has elapsed, the liquidator, after obtaining approval of the court, may pay one or more dividends upon all approved claims out of the funds remaining in the liquidator's possession after the payment of expenses and after setting aside an amount to pay creditors whose claims have been rejected and whose time for filing an application to show cause under this article has not yet elapsed or whose application is still pending. At any time after the expiration of one year from the date of the first publication of notice of creditors, and with court approval, the liquidator may pay a final distribution which shall consist of the remaining funds available for distribution, being distributed pro rata to all approved creditor claims.

18425.10. (a) Claims allowed in a proceeding under this article shall be given preference in the following order:

(1) All costs and expenses of administration of conservatorship and liquidation.

(2) Taxes due to the State of California.

(3) Claims having preference by the laws of the United States and by laws of this state.

(4) All claims of creditors, including contractual claims for interest to the date of payment, whose claims are fully secured.

(5) Claims of investment certificate holders.

(6) Claims of general creditors.

(7) Claims on obligations subordinated to the claims of investment certificate holders and general creditors.

Paragraphs (5) and (6) apply only in liquidation proceedings, where the commissioner has taken possession of the property and business of the company on or after the effective date of this section, and paragraph (6) shall apply only with respect to persons who become general creditors on or after that date. It is the intent of the Legislature that no change in the law contained in this section shall be construed to affect the rights and obligations of parties with regard to transactions occurring prior to the effective date of this section. It is the intent of the Legislature that the rights and obligations of parties existing prior to the effective date of this section shall be determined by the law in effect prior to the effective date of this section and without application of changes in the law effected by this section.

(b) All approved claims shall bear interest at the rate provided by law or judgments from the date that the commissioner takes possession of the property and business of the company, to the extent funds are available to pay such interest, otherwise interest shall be prorated.

Interest shall be given the same preference as the claim on which it is based, but no interest on any claim shall be paid until all claims within the same class have received the full principal amount of the claim.

(c) Any funds remaining shall be returned to the stockholders of the company pursuant to the provisions of this article.

18425.11. Whenever the commissioner determines to liquidate a company, the commissioner shall cause an inventory of all the assets of the company to be made in duplicate, file the original with the court, and file the duplicate in the commissioner's office.

18425.12. If it appears improbable that anything can be realized from any property of the company and that the cost of maintaining, preserving, or protecting the property would probably be lost, the court may direct the liquidator to abandon the property.

18425.13. If a purchaser of any property or any bad or doubtful debt or claim of a company cannot be obtained and it appears improbable that recovery thereon can be had, and that the cost of action to enforce collection of the same would probably be lost, the

superior court may direct that suit on the debt or claim need not be brought.

18425.14. When the liquidator has fully liquidated all claims other than claims of stockholders, made due provision for any and all known but unclaimed liabilities, excepting claims of stockholders, and paid all expenses of liquidation, the liquidator may file an application for an order for the liquidation of a domestic corporation, or at any time thereafter, the commissioner may apply for, and the court shall make, an order dissolving the corporation.

18425.15. Upon the payment of a final dividend in liquidation, the commissioner shall prepare and file with the court a full and final statement of the liquidation, including a summary of the receipts and disbursements, and a duplicate of the statement shall be filed in the office of the commissioner. After hearing and approval by the court, the liquidation shall be closed.

18425.16. In making its order approving the commissioner's final statement of the liquidation of the company, the court shall determine the amounts of the liquidating dividends to which claimants are entitled but which then remain unpaid or unclaimed in the hands of the commissioner. The order of the court shall direct the commissioner to deposit those amounts with the Treasurer. All amounts so deposited shall be deemed to be deposited in the State Treasury under the provisions of Chapter 7 (commencing with Section 1500) of Title 10 of Part 3 of the Code of Civil Procedure, and shall be subject to claim or disposition as provided in that chapter.

18425.17. The order of the court approving the final statement on liquidation shall provide for the destruction or other disposition of the books and records of the company or pertaining to the liquidation of the company, and the court may declare the company dissolved as a corporation. The liquidator shall file a copy of the order of dissolution with the Secretary of State.

SEC. 2. In this act, unless the context otherwise requires:

(a) "Commissioner" means the California Commissioner of Corporations.

(b) "Guaranty Corporation" means Thrift Guaranty Corporation of California, a corporation organized under the laws of the State of California.

(c) "Western Community" means Western Community Money Center, a corporation organized under the laws of the State of California.

SEC. 3. The Legislature finds and declares that Western Community has been seized by the commissioner; that thousands of California residents hold investment or thrift certificates issued by Western Community; many such residents are not able to meet their financial obligations because Western Community is unable to honor the obligations and because Guaranty Corporation under law cannot fully utilize its assets to honor its guarantees on all investment or thrift certificates issued by Western Community; many residents face eviction, repossession of property or collection action; the

financial status of many such residents is threatened; and that it is in the interest of this state's economy to act to stabilize this financial crisis. It is in the public interest to assist Guaranty Corporation by appropriating moneys from the Contingency Reserve for Economic Uncertainties and making them available either to provide security for a guarantee supporting and securing a loan to Guaranty Corporation or to provide a loan directly to Guaranty Corporation.

SEC. 4. In order to expedite payments up to the guaranteed amount to investment or thrift certificate holders of Western Community, the commissioner is hereby authorized to execute, on behalf of the State of California, a guarantee of a private loan to Guaranty Corporation, and to pledge, as a source of payment on the guarantee, amounts deposited in the Industrial Loan Special Fund, as security for the guarantee, subject to the following conditions:

(a) The state will guarantee the payment of principal and interest to the person who makes the loan to Guaranty Corporation.

(b) The principal amount of the loan to be guaranteed shall not exceed sixty-three million dollars ($63,000,000).

(c) All proceeds of the loan shall be used to pay all investment or thrift certificate holders of Western Community up to the guaranteed amount of their eligible accounts (see Section 18523 of the Financial Code).

(d) The loan shall be repaid (1) from the proceeds of the liquidation of Western Community and from the assets of Guaranty Corporation to the extent provided below, and (2) if the amounts are not sufficient for timely payment of principal, interest, and any other amounts due in respect of the loan, by the commissioner on behalf of the state pursuant to the guarantee. However, the Thrift Guarantee Fund shall not be reduced below six million dollars ($6,000,000) or 1 percent of guaranteed accounts, whichever is less, in repaying the loan, except that all assets may be used to repay the loan if Guaranty Corporation is either liquidated or ceases providing a guarantee of member investment certificates. At maturity of the guaranteed loan, the full amount of any appropriation deposited in the Industrial Loan Special Fund may be made available for timely payment of principal, interest, and any other amounts due in respect of the loan.

(e) The terms and conditions of the loan to Guaranty Corporation shall be subject to the approval of the commissioner

(f) The commissioner may pledge and grant a security interest in the amounts deposited in the Industrial Loan Special Fund. This pledge and grant may be exclusive and may create a first lien on all amounts in or credited to that fund. No further appropriation or legislative action of any kind shall be required to make amounts available from the fund to satisfy the guaranty obligation, if and when necessary, and the appropriate officers of the state are hereby authorized, if necessary, to take whatever action may be required to make these amounts so available.

SEC. 5. If Guaranty Corporation is unable to negotiate a loan

An investment certificate of an unincorporated association not engaged in an independent activity shall be deemed to be owned by the persons comprising such association and, for guarantee purposes, the interest of each owner in the investment certificate shall be added to any other investment certificates individually owned by such person and guaranteed up to fifty thousand dollars ($50,000) in the aggregate.

(f) Joint investment certificates.

(1) Investment certificates owned jointly, whether as joint tenants with right of survivorship, as tenants by the entireties, as tenants in common, or by husband and wife as community property, shall be guaranteed separately from investment certificates individually owned by the co-owners.

(2) A joint investment certificate shall be deemed to exist, for purposes of guarantee of investment certificates, only if each co-owner has personally executed an investment certificate signature card and possesses redemption rights.

(3) An investment certificate owned jointly which does not qualify as a joint investment certificate for purposes of guarantee of investment certificates shall be treated as owned by the named persons as individuals and the actual ownership interest of each such person in such investment certificate shall be added to any other investment certificates individually owned by such person and guaranteed up to fifty thousand dollars ($50,000) in the aggregate.

(4) All joint investment certificates owned by the same combination of individuals shall first be added together and guaranteed up to fifty thousand dollars ($50,000) in the aggregate.

(5) The interest of each co-owner in all joint investment certificates owned by different combinations of individuals shall then be added together and guaranteed up to fifty thousand dollars ($50,000) in the aggregate.

(g) Trust investment certificates. All trust interests for the same beneficiary invested in investment certificates established pursuant to valid trust arrangements created by the same settlor (grantor) shall be added together and guaranteed up to fifty thousand dollars ($50,000) in the aggregate, separately from other investment certificates of the trustee of such trust funds or the settlor or beneficiary of such trust arrangements.

(h) Thrift obligations withdrawn by checks that have not cleared a member's bank account at the time the commissioner has taken possession of the property and business of a member. The owner of the funds represented by such a check shall be recognized for all purposes of a claim for guaranteed thrift obligations to the same extent as if his or her name and interest were disclosed on the records of the member.

SEC. 32. Section 18523.2 of the Financial Code is repealed.

SEC. 33. Section 18524 of the Financial Code is repealed.

SEC. 34. Section 18525 is amended to read:

18525. Notwithstanding any other provision of this division, Guaranty Corporation, with the written consent of the commissioner, shall have the power to assume obligations, enter into contracts, including contracts of guarantee or suretyship, incur liabilities, borrow money, lend money or otherwise use its credit, and secure any of its obligations, contracts, or liabilities by mortgage, pledge, security interest, or other encumbrances of all or any part of its property and assets, including, but not limited to, income from assessments of members or rights thereto, and income.

SEC. 34.5. Section 18535 of the Financial Code is amended to read:

18535. Guaranty Corporation shall establish and maintain a guarantee fund as follows:

(a) Each new member, other than a new special member, shall pay one hundred thousand dollars ($100,000) to the guarantee fund to become a member.

(b) Whenever the commissioner finds that the controlling interest or 50 percent or more of the stock of a member which paid less than one hundred thousand dollars ($100,000) to become a member has been transferred, the member shall pay to the fund whatever sums are necessary to bring the member's total contribution pursuant to subdivision (a) to one hundred thousand dollars ($100,000) or 1 percent of the member's total outstanding thrift obligations on the date of transfer, whichever is less.

As used in this subdivision "controlling interest" means any percentage of stock which allows the stockholder to have control of management of the member company.

The provisions of this subdivision shall not be applicable (1) if the transfer of stock is between affiliated companies of a holding company and the holding company is exempt from the qualification requirement of Section 25130 of the Corporate Securities Law of 1968 by subdivision (a) or (b) of Section 25101 of the Corporations Code,

or (2) if the actual or contemplated change of ownership is to the transferor's ancestors, descendants, or spouse, or any custodian or trustee for the account of the transferor or the transferor's ancestors, descendants, or spouse, or to a transferee by a trustee or custodian for the account of the transferee or the transferee's ancestors, descendants, or spouse.

This subdivision shall apply, commencing January 1, 1987, to any member in existence prior to January 1, 1982. All other members shall be subject to this subdivision on and after January 1, 1982.

(c) If the total amount in the fund (less any then unpaid demand made by the commissioner pursuant to Section 18492) on March 15 of any year is less than 1½ percent of the total outstanding thrift obligations of all members, other than special members, as shown on the most recent independent audit reports required by Section 18405, then on or before May 1 of that year Guaranty Corporation shall levy an assessment. Each member, other than a special member, shall be assessed an amount equal to fifteen-hundredths of 1 percent of its outstanding thrift obligations as shown on its most recent independent audit report required by Section 18405. Guaranty Corporation may levy this assessment quarterly, based on members' quarterly reports, at one quarter of the annual assessment rate authorized by this subdivision.

(d) If the total amount in the fund (less any then unpaid demand made by the commissioner pursuant to Section 18492) on March 15 of any year hereafter is equal to or in excess of 1½ percent of the total outstanding thrift obligations of all members, other than special members, as shown on the most recent independent audit reports required by Section 18405, then on or before May 1 of that year Guaranty Corporation shall levy an assessment on each member, other than a special member, that has not fulfilled both the following conditions as of March 15 of that year:

(1) Paid total cumulative assessment payments to Guaranty Corporation exceeding in the aggregate 1½ percent of the total outstanding thrift obligations of that member shown on its most recent independent audit report required by Section 18405;

(2) Has a member's account balance in Guaranty Corporation exceeding 1½ percent of the total outstanding thrift obligations of that member shown on its most recent independent audit report required by Section 18405.

Each member who has failed to fulfill both the preceding conditions as of March 15 of that year shall be assessed an amount equal to fifteen-hundredths of 1 percent of its outstanding thrift obligations as shown on its most recent independent audit report required by Section 18405.

(e) If two members merge prior to May 1 of any year, the surviving member shall be liable for the assessment of the disappearing member that would have been payable to Guaranty Corporation pursuant to subdivision (c) or (d) had the merger not occurred prior to May 1.

SEC. 35. Section 18537 of the Financial Code is repealed.

SEC. 36. Section 18537 is added to the Financial Code, to read:

18537. (a) On the effective date of the act which adds this section, and annually thereafter, Guaranty Corporation shall levy a special assessment, to be known as the 1985 calendar year special assessment, on all members. The special assessment shall be in addition to the assessment levied pursuant to Section 18535. Each member shall be assessed an amount equal to .075 percent of its outstanding thrift obligations as shown on its most recent independent audit report required by Section 18405. Guaranty Corporation may levy this special assessment quarterly, based on members' quarterly reports, at one quarter of the annual assessment rate authorized by this section. A member shall only be required to pay a maximum of five annual assessments.

(b) "Outstanding thrift obligations" of special members, for purposes of this section, shall be fixed at the amount of thrift obligations outstanding on the day the special member obtained coverage of its thrift obligations by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by a private insurer, surety or guarantee corporation described in Section 18476.

(c) Outstanding thrift obligations of any member which redeems its thrift obligations on or after January 1, 1985, pursuant to Section 18508 and surrenders its license as an industrial loan company, for purposes of this section, shall be fixed as of December 31 of the calendar year immediately preceding the year in which such member redeems its outstanding thrift obligations.

(d) Any member who is a special member or who becomes a special member within three years of the effective date of this act shall only be required to pay three annual special assessments beginning with the 1985 calendar year special assessment.

(e) This section shall be repealed five years and one day after the operative date of the act which added this section.

SEC. 36.1. In this act, unless the context otherwise requires:

(a) "Commissioner" means the California Commissioner of Corporations.

(b) "Guaranty Corporation" means Thrift Guaranty Corporation of California, a corporation organized under the laws of the State of California.

(c) "Western Community" means Western Community Money Center, a corporation organized under the laws of the State of California.

SEC. 36.2. The Legislature finds and declares that Western Community has been seized by the commissioner; that the facts, circumstances and conditions which caused the failure of Western Community and its seizure by the commissioner were unique in the history of the thrift and loan industry in California; that thousands of California residents hold investment or thrift certificates issued by Western Community; many such residents are not able to meet their

financial obligations because Western Community is unable to honor the obligations and because Guaranty Corporation under law cannot fully utilize its assets to honor its guarantees on all investment or thrift certificates issued by Western Community; many residents face eviction, repossession of property or collection action; the financial status of many such residents is threatened; that it is in the interest of this state's economy to act to stabilize this financial crisis; that it is in the public interest to assist Guaranty Corporation by appropriating moneys from the Contingency Reserve for Economic Uncertainties and making them available either to provide security for a guarantee supporting and securing a loan to Guaranty Corporation or to provide a loan directly to Guaranty Corporation; and that the action taken is not in any manner to be construed as a precedent or to imply that the state has any legal obligation to so act now or in the future and that action hereby taken by the Legislature is based solely upon the facts, circumstances, and conditions which prevailed at the time of the seizure of Western Community by the commissioner.

SEC. 36.3. In order to expedite payments up to the guaranteed amount to investment or thrift certificate holders of Western Community, the commissioner is hereby authorized to execute, on behalf of the State of California, a guarantee of a private loan to Guaranty Corporation, and to pledge, as a source of payment on the guarantee, amounts deposited in the Industrial Loan Special Fund established by Section 36.6 of this act as security for the guarantee subject to the following conditions:

(a) The state will guarantee the payment of principal and interest to the person who makes the loan to Guaranty Corporation.

(b) The principal amount of the loan to be guaranteed shall not exceed sixty-six million dollars ($66,000,000).

(c) All proceeds of the loan shall be used to pay all investment or thrift certificate holders of Western Community up to the guaranteed amount of their eligible investment certificates (see Section 18523 of the Financial Code).

(d) The loan shall be repaid (1) from the proceeds of the liquidation of Western Community and from the assets of Guaranty Corporation to the extent provided in this section, and (2) if these amounts are not sufficient for timely payment of principal, interest, and any other amounts due in respect of the loan, by the commissioner on behalf of the state pursuant to the guarantee authorized by subdivision (f) of this section. However, the Thrift Guarantee Fund shall not be reduced below six million dollars ($6,000,000) or 1 percent of guaranteed accounts, whichever is less, in repaying the loan, except that all assets may be used to repay the loan if Guaranty Corporation is either liquidated or ceases providing a guarantee of member investment certificates. At maturity of the guaranteed loan, the full amount of the appropriation made by Section 36.6 of this act may be made available for timely payment of principal, interest, and any other amounts due in respect of the loan.

(e) The terms and conditions of the loan to Guaranty Corporation shall be subject to the approval of the commissioner.

(f) The commissioner may pledge and grant a security interest in the amounts deposited in the Industrial Loan Special Fund established by Section 36.6 of this act. This pledge and grant may be exclusive and may create a first lien on all amounts in or credited to that fund. No further appropriation or legislative action of any kind shall be required to make amounts available from the fund to satisfy this guaranty obligation, if and when necessary, and the appropriate officers of the state are hereby authorized, if and when necessary, to take these actions as may be required to make these amounts so available.

SEC. 36.31. If Guaranty Corporation is unable to negotiate a loan acceptable to the commissioner within 30 days of the effective date of this act, or if Guaranty Corporation is unable to secure a loan for the amount necessary to pay the full guaranteed amounts described in subdivision (d), the commissioner is authorized to lend some or all of the amount appropriated pursuant to Section 36.6 of this act on behalf of the State of California, to Guaranty Corporation, subject to the following conditions:

(a) The principal amount of the loan shall not exceed sixty-six million dollars ($66,000,000).

(b) The term of the loan shall not exceed five years.

(c) The loan shall bear an initial interest rate comparable to the last available daily rate of return earned by the Pooled Money Investment Account on the actual date of transfer of the loan funds. The loan rate shall be adjusted annually to reflect changes in the rate of return earned by the Pooled Money Investment Account.

(d) All proceeds of the loan shall be used by Guaranty Corporation to pay all investment or thrift certificate holders of Western Community up to the guaranteed amount of their eligible investment certificates (see Section 18523 of the Financial Code).

(e) A loan made pursuant to this section may be in combination with the loan described in Section 36.3 of this act, but the aggregate amount of these loans shall not exceed sixty-six million dollars ($66,000,000).

(f) The loan shall be repaid from the proceeds of the liquidation of Western Community and from the assets of Guaranty Corporation. All loan repayments under this section shall be deposited in the Contingency Reserve for Economic Uncertainties established by Section 12.3 of the Budget Act of 1980. However, the Thrift Guarantee Fund shall not be reduced below six million dollars ($6,000,000) or 1 percent of guaranteed accounts, whichever is less, in repaying the loan, except that all assets may be used to repay the loan if Guaranty Corporation is either liquidated or ceases providing a guarantee of member investment certificates.

SEC. 36.4. The commissioner shall take all steps necessary and appropriate to protect the interests of the state in any and all transactions under this act.

SEC. 36.5. (a) The commissioner shall administer the provisions of this act.

(b) All state agencies, upon request, shall provide to the commissioner any assistance he or she may require in carrying out the provisions of this act.

SEC. 36.6. There is in the State Treasury the Industrial Loan Special Fund, which is hereby created, for the purpose of implementing Sections 36.3 and 36.31 of this act.

In addition to any other appropriation, and notwithstanding subdivision (d) of Section 12.30 of the Budget Act of 1984, the sum of forty million dollars ($40,000,000) is hereby continuously appropriated from the Contingency Reserve for Economic Uncertainties, as provided in Section 12.30 of the Budget Act of 1984, to the Industrial Loan Special Fund. Funds in the Industrial Loan Special Fund shall be invested by the State Treasurer. Interest or increments earned on investment of amounts in the Industrial Loan Special Fund shall be retained in the Industrial Loan Special Fund and shall be available for implementing Sections 36.3 and 36.31 of this act. Notwithstanding subdivision (d) of Section 12.30 of the Budget Act of 1984, this appropriation shall not be deemed an appropriation from the General Fund. Upon full discharge of the guarantee authorized by Section 36.3 of this act or full payment of the loan authorized by Section 36.31 of this act, all amounts remaining in the Industrial Loan Special Fund shall be returned to the Contingency Reserve for Economic Uncertainties, as provided in Section 12.30 of the Budget Act of 1984. In the event of partial discharge of the guarantee or partial repayment of the loan, any amounts not required by the terms of the guarantee or the terms of the loan remaining in the Industrial Loan Special Fund shall be returned to the Contingency Reserve for Economic Uncertainties, as provided in Section 12.30 of the Budget Act of 1984.

SEC. 37. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 38. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 39. It is the intent of the Legislature that this bill shall not become operative unless and until Assembly Bill No. 36 of the 1985–86 Regular Session of the Legislature is enacted and becomes effective on or before January 1, 1986.

SEC. 40. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into

immediate effect. The facts constituting the necessity are:

The recent failure of a large industrial loan company has imposed a threat to the state's economy. It is necessary that this act take effect immediately in order to safeguard the public health, safety, and welfare, to alleviate real danger to lives and property, and to relieve the severe hardship suffered by thousands of California residents.

CHAPTER 143

The people of the State of California do enact as follows:

SECTION 1. Section 37220 of the Education Code is amended to read:

37220. Except as otherwise provided, the public schools shall continue in session or close on specified holidays as follows:

(a) The public schools shall close on January 1st, the third Monday in January known as "Dr. Martin Luther King, Jr. Day," February 12th known as "Lincoln Day," the third Monday in February known as "Washington Day," the last Monday in May known as "Memorial Day," July 4th, the first Monday in September known as "Labor Day," November 11th known as "Veterans Day," that Thursday in November proclaimed by the President as "Thanksgiving Day," and December 25th. However, the governing board of a school district may elect to celebrate Dr. Martin Luther King, Jr. Day on the Friday or Monday of the week in which January 15th occurs, or the third Monday in January, Lincoln Day on the Friday or Monday of the week in which February 12th occurs, or Veterans Day on the Friday or Monday of the week in which November 11th occurs.

(b) The Governor in appointing any other day for a public fast, thanksgiving, or holiday may provide whether the public schools shall close on the day. If the Governor does not provide whether the public schools shall close, they shall continue in session on all special or limited holidays appointed by the Governor, but shall close on all other days appointed by the Governor for a public fast, thanksgiving, or holiday.

(c) The public schools shall close on every day appointed by the President as a public fast, thanksgiving, or holiday, unless it is a special or limited holiday.

(d) The public schools shall continue in session on all legal holidays other than those designated by or pursuant to this section and shall hold proper exercises commemorating the day.

(e) When any of the holidays on which the schools would be closed fall on Sunday, the public schools shall close on the Monday following.

(f) When any of the holidays on which the schools would be closed fall on Saturday, the public schools shall close on the preceding Friday, and that Friday shall be declared a state holiday.

(g) If any holiday on which the public schools are required to close pursuant to subdivision (a) occurs under federal law on a date different than the date specified in subdivision (a), the governing board of any school district may close the public schools of the district on the date recognized by federal law and maintain classes on the date specified in subdivision (a).

(h) Nothing in this section is to be interpreted as authorizing a school district governing board to maintain schools in its district for a lesser number of days during the school year than the minimum established by law.

SEC. 2. (a) It is the intent of the Legislature that the Education Code be reviewed in order to identify references that are inconsistent, ambiguous, obsolete, or otherwise inappropriate. This review is intended to thereby enable the Legislature to identify methods of relieving the governing boards of school districts and county offices of education of the administrative burden of seeking waivers of inappropriate provisions of the Education Code, and to afford the governing boards and county offices flexibility in the implementation of education policy and programs. The Legislature hereby finds that the nature of this review as a neutral and independent assessment requires that it be performed by a private individual or organization.

(b) The Legislative Analyst is directed to contract with a private individual or organization, subject to applicable provisions of law regarding public contracting, to conduct a study of those provisions of Title 1 (commencing with Section 1) and Title 2 (commencing with Section 33000) of the Education Code that relate to elementary or secondary education, or to the programs or operations of the county superintendents of schools. The contract for performance of this study shall be awarded within 90 days following the date of enactment of this act, and shall require that the study be completed in accordance with this act and submitted to the Legislative Analyst no later than 10 months after the date of the award of the contract. Upon receipt of the completed study, the Legislative Analyst shall report the results of the study to the Governor and to the fiscal and education policy committees of each house of the Legislature.

(c) Each section of the Education Code within the scope of the study shall be assessed by the study to determine, in furtherance of the purposes set forth in subdivision (a), all of the following:

(1) Whether the inclusion of the section in the Education Code is either necessary or beneficial, in view of the general authority granted to the governing boards of school districts under Article 4 (commencing with Section 35160) of Chapter 2 of Part 21 of the

Education Code.

(2) Whether the substantive effect of the section has been superseded by subsequent codification of legislative policy.

(3) Whether the section is inaccurate or otherwise inappropriate as it interacts with other sections of the Education Code.

(d) In conducting the study, suggested revisions to the Education Code from all of the following individuals and entities shall be solicited and considered:

(1) Each of the 58 county counsels.

(2) Each county superintendent of schools.

(3) Each school district.

(4) At least 10 organizations representing employees, management, or governing bodies of California school districts.

(5) At least 10 law firms having significant experience in the interpretation or application of the Education Code.

(6) The Legislative Counsel.

(7) The Superintendent of Public Instruction.

(8) The Attorney General.

(9) The Teachers' Retirement Board.

SEC. 3. The sum of one hundred thousand dollars ($100,000) is hereby appropriated from the General Fund to the Legislative Analyst for the purposes of contracting for the performance of a study as described in this act, paying any administrative costs arising from the supervision of the contract, and producing a report of the results of that study to the Governor and to the fiscal and education policy committees of each house of the Legislature.

SEC. 4. (a) Notwithstanding subdivision (a) of Section 35532 of the Education Code, and Sections 54900 to 54903.1, inclusive, of the Government Code, the formation of the Cuyama Unified School District shall be effective on July 1, 1985.

(b) Exclusively for the purposes of Sections 54900 to 54903.1, inclusive, of the Government Code, the effective date of the formation of the Cuyama Unified School District shall be deemed to be July 1, 1986.

SEC. 5. Due to the unique circumstances concerning the formation of the Cuyama Unified School District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the revision of references in the Education Code that are inconsistent, ambiguous, obsolete, or otherwise inappropriate may occur at the earliest possible date, so as to enhance the effectiveness of operation of governing boards of school districts and county offices of education, and that the formation of the Cuyama Unified School District may be effective on July 1, 1985, as approved

by the local electorate, it is necessary that this act take effect immediately.

SEC. 7. Section 1 of this act shall become operative on July 1, 1986.

The public agency employer also may elect to provide coverage to its management and confidential employees and to its employees who are not a part of an appropriate unit, but the election shall not be contingent upon coverage of other employees of the public agency employer.

Upon filing of such an election, the filing entity shall, upon approval by the director, become an employer subject to Part 2 (commencing with Section 2601) to the same extent as other employers, and services performed by its employees who are subject to an election under this section shall constitute employment subject to that part.

Sections 986 and 2903 shall apply to an employer making an election pursuant to this section.

SEC. 2. Section 2602 of the Unemployment Insurance Code is amended to read:

2602. (a) Except as otherwise provided, the provisions and definitions of Part 1 (commencing with Section 100) of this division apply to this part. In case of any conflict between the provisions of Part 1 and the provisions of this part, the provisions of this part shall prevail with respect to unemployment compensation disability benefits, and the provisions of Part 1 shall prevail with respect to

SEC. 4. Notwithstanding Section 2231.5 of the Revenue and Taxation Code, this act does not contain a repealer, as required by that section; therefore, the provisions of this act shall remain in effect unless and until they are amended or repealed by a later enacted act.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to continue permitting local agencies to elect to become an employer for unemployment disability insurance purposes with respect to its employees as soon as possible after December 31, 1984, this act shall go into immediate effect.

On or before October 1 of each year, the Attorney General shall report to the Legislature on the expenditure of any funds appropriated to the office of the Attorney General pursuant to this subdivision for the preceding fiscal year.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that funds in the Hazardous Substance Account may be

The people of the State of California do enact as follows:

SECTION 1. Section 9 of the Civil Code is amended to read:

9. All other days than those mentioned in Section 7 are business days for all purposes; provided, that as to any act appointed by law or contract, or in any other way, to be performed by, at, or through any bank organized under the laws of or doing business in this state, any optional bank holiday as defined in Section 3123 of the Commercial Code is not a business day; and provided, that any act appointed by law or contract, or in any other way, to be performed on any day which is an optional bank holiday as defined in Section 3123 of the Commercial Code, by, at, or through any bank or branch or office thereof, whether acting in its own behalf or in any other capacity whatsoever, may be performed on that optional bank holiday if the bank or branch or office by, at, or through which the act is to be performed is open for the transaction of business on that optional bank holiday, or, at the option of the person obligated to perform the act, it may be performed on the next succeeding business day.

An instrument payable on demand is not to be presented for payment on an optional bank holiday but is to be presented for payment on the next succeeding business day, except that where the instrument is payable by or at a banking house or any branch or separate office thereof and the particular banking house or branch or separate office by or at which the instrument is payable is open

for the transaction of business on an optional bank holiday, the holder of the instrument may at his or her option present the instrument for payment at the banking house or branch or separate office by or at which the instrument is payable on that optional bank holiday or on the next succeeding business day.

(2) For the purpose of this section "optional bank holiday" means:

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the ecessity are:

Due to the fact that the Federal Reserve System has recently adopted a uniform schedule of bank holidays, due to the fact that there is continual confusion regarding bank holidays, and due to the fact that the banks would like to clarify the holidays that may be observed in 1985 and adjust their calendars accordingly, it is necessary that this act take effect immediately.

(d) Orders setting administrative civil liability shall become effective and final upon issuance thereof, and payment shall be made within 30 days. 20783. When work is done by the district itself by force account, the amount shall not exceed five thousand dollars ($5,000). When the expenditure required for the work exceeds twenty-five thousand dollars ($25,000), it shall be contracted for and let to the lowest responsible bidder after notice. The notice inviting bids shall set a date for the opening of bids. The first publication or posting of the notice shall be at least 10 days before the date of opening the bids. Notice shall be published at least twice, not less than five days apart, in a newspaper of general circulation, printed and published in the district, or if there is none, it shall be posted in at least three public places in the district that have been designated by the district board as the places for posting such notice. The notice shall distinctly state the work to be done.

In its discretion, the district board may reject any bids presented and readvertise. If two or more bids are the same and the lowest, the district board may accept the one it chooses. If no bids are received, the district board may have the work done without further bid.

If all bids are rejected, the district board, on a resolution adopted by a four-fifths vote, may declare that the work can be performed more economically by day labor, or the materials or supplies furnished at a lower price in the open market and may have the work done in a manner stated in the resolution in order to take advantage of this lower cost.

If there is a present or anticipated great public calamity, including an extraordinary fire, flood, storm, or other disaster the district board may, by resolution adopted by a four-fifths vote declaring that the public interest and necessity demand immediate expenditure of public money to safeguard life, health, or property, expend any sum required in the emergency without submitting such expenditure to bid.

Cost records of the work shall be kept in the manner provided in Sections 4000 to 4007, inclusive, of the Government Code.

This section shall not apply to sewerage maintenance, repair work, or to any uncompleted works under construction by district forces prior to the enactment of this section, and shall not be construed to exempt any work from the provisions of Part 7 (commencing with Section 1720) of Division 2 of the Labor Code.

(c) The land or fees, or both, transferred to a school district shall be used only for the purpose of providing interim elementary or high school classroom and related facilities. If fees are paid in lieu of the dedication of land and those fees are utilized to purchase land, no more land shall be purchased than is necessary for the placement thereon of interim facilities.

(d) The location and amount of land to be dedicated or the amount of fees to be paid, or both, shall bear a reasonable relationship and shall be limited to the needs of the community for interim elementary or high school facilities and shall be reasonably related and limited to the need for schools caused by the development. However, the fees shall not exceed the amount necessary to pay five annual lease payments for the interim facilities. In lieu of the fees, the builder of a residential development may, at his or her option and at his or her expense, provide interim facilities, owned or controlled by the builder, at the place designated by the school district, and at the conclusion of the fifth school year the builder shall, at the builder's expense, remove the interim facilities from that place.

If the payment of fees is required, the payment shall be made at the time the building permit is issued or at a later time as may be specified in the ordinance.

Only the payment of fees may be required in subdivisions containing 50 parcels or less.

SEC. 2. If the proposed agreement is a lease, the board of supervisors shall also make both of the following determinations:

(1) That the public benefit of the proposed lease agreement is expected to be greater than the public benefit which would result from the sale of the property.

(2) That a reasonable expectation exists that future public need justifies retention of the fee ownership of the property.

If the property to be used or developed is adjacent to, or a portion of, real property which is, or will be, used for other governmental activities, the board of supervisors shall also determine that the agreement will not interfere with the use or development of the remaining public property.

(c) In managing any of its property acquired after January 1, 1984, and after complying with Section 65402 and Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5, a county may sell, lease, develop, or otherwise dispose of that property in the manner set forth in this section. In lieu of publication a copy of the notice of default may be delivered personally to the truster or mortgagor within that 10 days or at any time before publication is completed.

(f) No request for a copy of any notice filed for record pursuant to this section, no statement or allegation in any such request, and no record thereof shall affect the title to real property or be deemed notice to any person that any person requesting copies of notice has or claims any right, title or interest in, or lien or charge upon, the property described in the deed of trust or mortgage referred to therein.

SEC. 2. Section 409 of the Code of Civil Procedure is amended to read:

409. (a) In an action concerning real property or affecting the title or the right of possession of real property, the plaintiff, at the time of filing the complaint, and the defendant, at the time of filing a cross-complaint, or at any time afterwards, may record in the office of the recorder of the county in which the property is situated, a notice of the pendency of the action, containing the names of the parties, and the object of the action or cross-action, and a description of the property in that county affected thereby. This section authorizes a notice of an action concerning real property pending in any United States district court to be recorded and indexed in the same manner and in the same place as herein provided with respect to notices of action pending in courts of this state. From the time of filing such notice for record only, shall a purchaser or encumbrancer of the property affected thereby be deemed to have constructive notice of the pendency of the action as it relates to the real property and only of its pendency against parties designated by their real names.

(b) In an action concerning real property or affecting the title or the right of possession of real property, the clerk, or the judge if there is no clerk, shall issue a notice of pendency of action to a party requesting it, or an attorney of record in such an action may sign and issue a notice of pendency of action, or the person causing the notice of the pendency of the action to be recorded may obtain certification from the court in which the action is pending that an action concerning real property or affecting the title or the right of possession of real property has been filed between the named parties. Such a certification may issue ex parte. A notice of pendency of action may not be recorded, except by a public agency bringing an action in eminent domain pursuant to Title 7

(commencing with Section 1230.010) of Part 3, unless it is issued by the court, or issued by the attorney of record in the action or proceeding, or accompanied by a certified copy of the certification. The fee for issuance of the notice of pendency of action by the court, or making the certification, shall be as specified in Section 26836 of the Government Code.

(c) Except in actions brought under Title 7 (commencing with Section 1230.010) of Part 3, the person causing the notice of the pendency of the action to be recorded shall first cause a copy of the notice to be mailed, by registered or certified mail, return receipt requested to all known addresses of the adverse parties and to all owners of record as shown by the latest county assessment roll or more recent assessment information in the possession of the county assessor. A copy of the notice of the pendency of the action shall also be filed with the court in which the lawsuit is filed. Service shall also be made immediately upon each adverse party who is later brought into the action pursuant to Section 472 or 473.

(d) Any notice of the pendency of the action recorded pursuant to subdivision (a) shall be void and invalid as to any adverse party or owner of record, unless the requirements of subdivision (c) are met for the party or owner, and a proof of service, as set forth in Section 1013a, has been recorded with the notice of the pendency of the action. If there is no known address for service on an adverse party or owner as required under subdivision (c), then as to that party a declaration under penalty of perjury to such effect shall be recorded instead of the proof of service described above, and the service on that party shall not be required.

8193. (a) During the period commencing on July 1, 1982, and ending when 600 newly constructed dwelling units have been completed and initially occupied, the authority shall have currently occupied or make available at affordable rents to low-income households at least 25 percent of the existing dwelling units.

(b) Beginning when 600 newly constructed dwelling units have been completed and initially occupied, the authority shall have currently occupied or make available at affordable rents to low-income households at least 25 percent of the total number of dwelling units located on property leased by the authority from the department.

(c) The number of dwelling units which are required to be made available in the manner specified in subdivisions (a) and (b) shall be increased or decreased to reflect increases or decreases in the number of the units which are leased by the authority from the department.

(d) The term "existing dwelling units," as used in this section, means residential units located on property which was leased by the authority from the department on July 1, 1979.

(e) The term "newly constructed dwelling units," as used in this section, means residential units located on property which is first leased by the authority from the department after July 1, 1979.

(f) The term "affordable rents," as used in this section, means rents (including utility allowances established by the authority) not exceeding those allowed under the United States Department of Housing and Urban Development Section 8 Housing Assistance Payments Program (42 U.S.C. Sec. 1437f) or its successor.

(g) The term "low-income households," as used in this section, means persons and families whose income does not exceed 80 percent of the median income of the Sacramento County Standard Metropolitan Statistical Area as adjusted by the United States Department of Housing and Urban Development.

(h) During the period commencing on January 1, 1980, and ending when 800 newly constructed dwelling units have been completed and occupied, the authority shall establish a schedule of rents designed to make available to low-income households not less than 400 units at as close to affordable rents as the authority deems practicable in light of its budgetary needs regarding its duties and obligations. The schedule shall be designed to impose market rate rents for remaining units leased by the authority from the department.

(i) During period set forth in subdivision (h), rents for the 400 units referred to in subdivision (h) shall only be increased by an amount the authority determines is equal to the increase in the cost of operation and maintenance (including overhead) of the units. The foregoing determination shall be based on evidence presented at a regular or special meeting of the authority's governing body.

(j) During the period commencing on January 1, 1980, and ending when 600 newly constructed dwelling units have been completed and occupied, the provisions of subdivision (b) shall be a goal of the authority, which the authority shall pursue, giving due consideration to the provisions of the redevelopment plans and other duties and obligations of the authority. To this end, the authority shall utilize to the extent it deems appropriate:

(1) Tax exempt financing for the construction of residential dwelling units, and

(2) Federal and state programs for the subsidization of low-income households.

(k) On or before November 1, 1980, and annually thereafter, the authority shall make public a status report regarding the authority's progress in achieving the housing production goals set forth in subdivisions (a) and (b). The status report shall (1) set forth the degree to which the authority has achieved this goal, and (2) specify programs the authority intends to pursue to achieve this goal.

(l) At the time the authority leases property for newly constructed dwelling units, it shall enter into a written lease with the developer of the units, designating the number of the units, if any, to be made available on a priority basis within that development to low-income households. If the number of units occupied by low-income households in the development ever falls below the designated number, then units which become available for occupancy shall, subject to available subsidies, be made available on a priority basis to low-income households until the number of units so occupied equals at least the number specified in the agreement. The authority may from time to time review agreements designating these units and, subject to agreement with the developer or his or

her successors, may increase the number of units to be made available to low-income households. For the purpose of determining whether the authority is satisfying subdivision (b), units designated pursuant to this agreement shall be conclusively presumed to be available to low-income households at affordable rent. This presumption shall not apply in an action to enforce any provision of any lease or other agreement between the authority and the developer of newly constructed units. The authority shall monitor and enforce the provisions of this subdivision.

SEC. 2. Section 50177 is added to the Health and Safety Code, to read:

50177. The Treasurer, or his or her designee, is designated as the state official to certify that an issue of qualified mortgage bonds meets the requirements of subsection (g) of Section 103A of the Internal Revenue Code of 1954, as amended, (42 U.S.C. Sec. 103A(g)) and to take any and all actions as may be necessary or appropriate in connection therewith.

SEC. 3. Section 50192 of the Health and Safety Code is amended to read:

50192. Any local agency may by written agreement assign to any other issuer having the authority to issue qualified mortgage bonds under the laws of this state all or any part of the local agency's allocation pursuant to Section 50189 for the calendar year, but only if the assignment is solely for use by the issuer to provide financing for properties located within the territory of the assigning local agency (including a proportionate share of costs of issuance, underwriters discount, capitalized interest, reserve funds and similar expenses associated with the financing), provided that the assignment shall not be deemed ineffective if, after issuance of the qualified mortgage bonds and for reasons beyond the control of the issuer, the issuer is unable to use any portion of the proceeds of such qualified mortgage bonds to provide financing for properties located within the territory of the assigning local agency, as required by the assigned allocation, and the proceeds are instead used to redeem the qualified mortgage bonds or to provide financing for properties authorized to be financed under the state law under which the bonds were issued and located within the county within which the assigning local agency is located.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to facilitate the issuance of bonds in a timely and orderly fashion to minimize the costs of borrowing, and to provide for additional affordable housing as soon as possible, it is necessary for this act to take effect immediately.

CHAPTER 157

An act to amend Section 683.2 of, and to add Chapter 7 (commencing with Section 887.010) to Title 5 of Part 2 of Division 2 of, the Civil Code, and to amend Section 701.680 of the Code of Civil Procedure, relating to property.

[Approved by Governor July 4, 1985 Filed with Secretary of State July 8, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 683.2 of the Civil Code is amended to read:

683.2. (a) Subject to the limitations and requirements of this section, in addition to any other means by which a joint tenancy may be severed, a joint tenant may sever a joint tenancy in real property as to the joint tenant's interest without the joinder or consent of the other joint tenants by any of the following means:

(1) Execution and delivery of a deed that conveys legal title to the joint tenant's interest to a third person, whether or not pursuant to an agreement that requires the third person to reconvey legal title to the joint tenant.

(2) Execution of a written instrument that evidences the intent to sever the joint tenancy, including a deed that names the joint tenant as transferee, or of a written declaration that, as to the interest of the joint tenant, the joint tenancy is severed.

(b) Nothing in this section authorizes severance of a joint tenancy contrary to a written agreement of the joint tenants, but a severance contrary to a written agreement does not defeat the rights of a purchaser or encumbrancer for value in good faith and without knowledge of the written agreement.

(c) Severance of a joint tenancy of record by deed, written declaration, or other written instrument pursuant to subdivision (a) is not effective to terminate the right of survivorship of the other joint tenants as to the severing joint tenant's interest unless one of the following requirements is satisfied:

(1) Before the death of the severing joint tenant, the deed, written declaration, or other written instrument effecting the severance is recorded in the county where the real property is located.

(2) The deed, written declaration, or other written instrument effecting the severance is executed and acknowledged before a notary public by the severing joint tenant not earlier than three days before the death of that joint tenant and is recorded in the county where the real property is located not later than seven days after the death of the severing joint tenant.

(d) Nothing in subdivision (c) limits the manner or effect of:

(1) A written instrument executed by all the joint tenants that severs the joint tenancy.

(2) A severance made by or pursuant to a written agreement of all the joint tenants.

(3) A deed from a joint tenant to another joint tenant.

(e) Subdivisions (a) and (b) apply to all joint tenancies in real property, whether the joint tenancy was created before, on, or after January 1, 1985, except that in the case of the death of a joint tenant before January 1, 1985, the validity of a severance under subdivisions (a) and (b) is determined by the law in effect at the time of death. Subdivisions (c) and (d) do not apply to or affect a severance made before January 1, 1986, of a joint tenancy.

SEC. 2. Chapter 7 (commencing with Section 887.010) is added to Title 5 of Part 2 of Division 2 of the Civil Code, to read:

CHAPTER 7. ABANDONED EASEMENTS

887.010. As used in this chapter, "easement" means a burden or servitude upon land, whether or not attached to other land as an incident or appurtenance, that allows the holder of the burden or servitude to do acts upon the land.

887.020. This chapter does not apply to an easement that is part of a unified or reciprocal system for the mutual benefit of multiple parties.

887.030. This chapter supplements and does not limit or otherwise affect the common law governing abandonment of an easement or any other procedure provided by statute or otherwise for clearing an abandoned easement from title to real property.

887.040. (a) The owner of real property subject to an easement may bring an action to establish the abandonment of the easement and to clear record title of the easement.

(b) The action shall be brought in the superior court of the county in which the real property subject to the easement is located.

(c) The action shall be brought in the same manner and shall be subject to the same procedure as an action to quiet title pursuant to Chapter 4 (commencing with Section 760.010) of Title 10 of Part 2 of the Code of Civil Procedure, to the extent applicable.

887.050. (a) For purposes of this chapter, an easement is abandoned if all of the following conditions are satisfied for a period of 20 years immediately preceding commencement of the action to establish abandonment of the easement:

(1) The easement is not used at any time.

(2) No separate property tax assessment is made of the easement or, if made, no taxes are paid on the assessment.

(3) No instrument creating, reserving, transferring, or otherwise evidencing the easement is recorded.

(b) This section applies notwithstanding any provision to the contrary in the instrument creating, reserving, transferring, or otherwise evidencing the easement or in another recorded document, unless the instrument or other document provides an earlier expiration date.

887.060. (a) The owner of an easement may at any time record a notice of intent to preserve the easement.

(b) In lieu of the statement of the character of the interest claimed and the record location of the documents creating or evidencing the easement claimed, as otherwise required by paragraph (2) of subdivision (b) of Section 880.330, and in lieu of the legal description of the real property in which the interest is claimed, as otherwise required by paragraph (3) of subdivision (b) of Section 880.330, and notwithstanding the provisions of Section 880.340, or any other provision in this title, a notice of intent to preserve an easement may refer generally and without specificity to any or all easements claimed by the claimant in any real property situated in the county.

(c) An easement is not abandoned for purposes of this chapter if either of the following occurs:

(1) A notice of intent to preserve the easement is recorded within 20 years immediately preceding commencement of the action to establish the abandonment of the easement.

(2) A notice of intent to preserve the easement is recorded pursuant to Section 887.070 after commencement of the action to establish the abandonment of the easement and before judgment is entered in the action.

887.070. In an action to establish the abandonment of an easement pursuant to this chapter, the court shall permit the owner of the easement to record a late notice of intent to preserve the easement as a condition of dismissal of the action, upon payment into court for the benefit of the owner of the real property the litigation expenses attributable to the easement or portion thereof as to which the notice is recorded. As used in this section, the term "litigation expenses" means recoverable costs and expenses reasonably and necessarily incurred in preparation for the action, including a reasonable attorney's fee.

887.080. An abandoned easement is unenforceable and is deemed to have expired. A court order establishing abandonment of an easement pursuant to this chapter is equivalent for all purposes to a conveyance of the easement to the owner of the real property.

887.090. Subject to Sections 880.370 (grace period for recording notice) and 887.020, this chapter applies to all easements, whether executed or recorded before, on, or after January 1, 1986.

SEC. 3. Section 701.680 of the Code of Civil Procedure, as amended by Chapter 41 of the Statutes of 1985, is amended to read:

701.680. (a) Except as provided in paragraph (1) of subdivision (c), a sale of property pursuant to this article is absolute and may not be set aside for any reason.

(b) If the judgment is reversed, vacated, or otherwise set aside, the judgment debtor may recover from the judgment creditor the proceeds of a sale pursuant to the judgment with interest at the rate on money judgments to the extent the proceeds were applied to the satisfaction of the judgment.

(c) If the sale was improper because of irregularities in the proceedings, because the property sold was not subject to execution, or for any other reason:

(1) The judgment debtor, or the judgment debtor's successor in interest, may commence an action within six months after the date of sale to set aside the sale if the purchaser at the sale is the judgment creditor. Subject to paragraph (2), if the sale is set aside, the judgment of the judgment creditor is revived to reflect the amount that was satisfied from the proceeds of the sale and the judgment creditor is entitled to interest on the amount of the judgment as so revived as if the sale had not been made.

(2) The judgment debtor, or the judgment debtor's successor in interest, may recover damages caused by the impropriety. If damages are recovered against the judgment creditor, they shall be offset against the judgment to the extent the judgment is not satisfied. If damages are recovered against the levying officer, they shall be applied to the judgment to the extent the judgment is not satisfied.

(d) For the purposes of subdivision (c), the purchaser of the property at the sale is not a successor in interest.

CHAPTER 158

An act to amend Section 71003 of, to add Section 71005 to, and to repeal and add Section 71001 of, the Education Code, relating to community colleges, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 4, 1985 Filed with Secretary of State July 8, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 71001 of the Education Code is repealed.

SEC. 2. Section 71001 is added to the Education Code, to read:

71001. (a) Except for the student member and the faculty member, the terms of office of the members of the board appointed by the Governor shall be as follows:

(1) To the positions expiring on December 1, 1985, the Governor shall appoint two persons whose terms shall expire on January 15, 1989.

(2) To the positions expiring on November 30, 1986, the Governor shall appoint three persons whose terms shall expire on January 15, 1988; three persons whose terms shall expire on January 15, 1990; and one person whose term shall expire on January 15, 1991.

(3) To the position expiring on January 2, 1987, the Governor shall appoint one person whose term shall expire on January 15, 1991.

(4) Commencing January 15, 1987, all terms of office of the

members of the board, except the terms of the student member and the faculty member appointed by the Governor, shall be four years.

(b) Each term of office shall commence at the expiration of the preceding term.

(c) A member whose term has expired shall continue to discharge the duties of office until his or her successor is appointed by the Governor.

SEC. 3. Section 71003 of the Education Code is amended to read:

71003. (a) Except for the student member and the faculty member appointed by the Governor, any vacancy in an appointed position on the board shall be filled by appointment by the Governor, subject to confirmation by two-thirds of the Senate. A vacancy in the office of the student member or the office of the faculty member shall be filled by appointment by the Governor.

(b) The appointee to fill a vacancy shall hold office only for the balance of the unexpired term.

SEC. 4. Section 71005 is added to the Education Code, to read:

71005. The board annually shall select two of its members as president and vice president, respectively.

SEC. 5. The Legislature recognizes that after the enactment of Chapter 1184 of the Statutes of 1977, the members of the Board of Governors of the California Community Colleges have not served staggered terms which commence and expire on a fixed date. The Legislature finds and declares that this has produced uncertainty about the commencement and expiration of the terms of office for members of the board.

It is the intent of the Legislature to clarify the provisions governing the terms of office for members of the Board of Governors of the California Community Colleges by specifically providing for staggered terms for the members appointed by the Governor, other than the student member and the faculty member, and to fix January 15 as the commencement and expiration date of those terms.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make this act applicable to future appointments to the Board of Governors of the California Community Colleges and thereby restore continuity to the board and to clarify current law, it is necessary that this act take effect immediately.

CHAPTER 159

An act to amend Sections 17240, 17250, 17251, 17270, 17505, 18033, 18036, 18500, 18510, 18530, 19411.1, 24369, 24372, and 24416 of, to add Sections 18802.2, 24372.3, and 25401c to, and to repeal Sections 17263, 17273, 17279, 18032, 18034, and 18523 of, the Revenue and Taxation

Code, to amend Section 13028 of, and to add Sections 13028.1, 13028.5, and 13028.6 to, the Unemployment Insurance Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor July 4, 1985 Filed with Secretary of State July 8, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 17240 of the Revenue and Taxation Code is amended to read:

(b) A deduction shall be allowed for all of the following:

(1) Transportation expenses described in Section 17242.

(2) Political contributions described in Section 17245.

(c) In determining the contribution deduction the following shall apply:

(1) Artistic property defined in Section 17243 shall be included and treated as a capital asset for taxable years beginning before January 1, 1985, and shall be subject to the reduction under Section 170(e)(1) of the Internal Revenue Code.

(2) The definitions and percentage limitations prescribed in Section 18162.5 shall be used in making the reduction required to be made under Section 170(e)(1) of the Internal Revenue Code for appreciated property.

(d) In determining the carryover of excess contributions as stated in Section 170(d)(1)(A) of the Internal Revenue Code, the carryover shall be determined as the amount by which the taxpayer's charitable contributions for the contribution year (as described in Section 170(b)(1)(A) of the Internal Revenue Code) exceed the amount allowed by Section 17241 (computed without regard to the taxpayer's charitable contributions).

SEC. 2. Section 17250 of the Revenue and Taxation Code is amended to read:

17250. (a) The provisions of Section 168 of the Internal Revenue Code shall not be used to determine what is a reasonable allowance for purposes of Section 167(a) of the Internal Revenue Code, except as provided in Section 17250.5.

(b) No deduction shall be allowed for any of the following:

(1) Amortization of certain railroad rolling stock as provided for by Section 184 of the Internal Revenue Code.

(2) Amortization of railroad grading and tunnel bores as provided for by Section 185 of the Internal Revenue Code.

(c) The deduction for amortization of pollution control facilities shall be determined in accordance with Section 169 of the Internal Revenue Code, except that the deduction shall be available only with respect to facilities located in this state, and the "state certifying authority," as defined in Section 169(d)(2) of the Internal Revenue Code, means the State Department of Health Services.

(d) The capitalization of expenditures incurred in planting and developing fruit and nut groves shall be determined in accordance with Section 17261, in lieu of Section 278 of the Internal Revenue Code.

(e) For property used in a trade or business, or held for production of income, there shall be allowed as a depreciation deduction a reasonable allowance for the cost of a solar energy system and allowable conservation measures over a 60-month period for taxable years beginning before January 1, 1987.

SEC. 3. Section 17251 of the Revenue and Taxation Code is amended to read:

17251. (a) Every taxpayer at his or her election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any cogeneration equipment (as defined in subdivision (k)), or alternative energy equipment (as defined in subdivision (*l*)), based on a period of either 12 months or 60 months. That amortization deduction shall be an amount with respect to each month of that period within the taxable year, equal to the amortizable basis of the cogeneration equipment, or alternative energy equipment at the end of that month divided by the number of months (including the month for which the deduction is computed) remaining in the period. That amortizable basis at the end of the month shall be computed without regard to the amortization deduction for that month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to that cogeneration equipment, or alternative energy equipment for that month provided by Section 167 of the Internal Revenue Code. The amortization deduction provided by this section shall be in lieu of the solar tax credit provided by Section 17052.5. The 12-month or 60-month amortization period shall begin, as to any cogeneration equipment, or alternative energy equipment, at the election of the taxpayer, with the month following the month in which that facility was completed or acquired, or with the succeeding taxable year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 12-month or 60-month amortization period with the month following the month in which the cogeneration equipment, or alternative energy equipment is completed or acquired, or with the taxable year succeeding the taxable year in which that cogeneration equipment, or alternative energy equipment is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of that election. The election of the 12-month amortization period shall be irrevocable. The Franchise Tax Board, in determining the eligibility of alternative energy equipment for which a taxpayer has filed a statement of election, may consult with the California Energy Commission regarding the technical qualifications of that equipment.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may, at any time after making that election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of that month. The depreciation deduction provided under Section 167 of the Internal Revenue Code shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to that cogeneration equipment, or alternative energy equipment.

(d) (1) For purposes of this section, the term "amortizable basis" means that portion of the adjusted basis (for determining gain) of the cogeneration equipment, or alternative energy equipment which may be amortized under this section. For purposes of the deduction for alternative energy equipment provided in this section, the amortizable basis shall be reduced by the amount of any grant provided by a public entity for that alternative energy equipment.

(2) (A) If the cogeneration equipment, or alternative energy equipment has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of that cogeneration equipment, or alternative energy equipment shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of that cogeneration equipment, or alternative energy equipment, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of that cogeneration equipment, or alternative energy equipment.

(B) The amortizable basis of the cogeneration equipment, or alternative energy equipment with respect to which an election under this section is in effect shall not be increased, for purposes of

this section, for additions or improvements after the amortization period has begun.

(e) The depreciation deduction provided by Section 167 of the Internal Revenue Code shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(f) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(g) For special rule with respect to certain gain derived from the disposition of property the adjusted basis of which is determined with regard to this section, see Section 1245 of the Internal Revenue Code.

(h) The amendments made to subdivision (d) of former Section 17226 by the 1977–78 Regular Session of the Legislature shall apply to taxable years beginning after December 31, 1976. Those amendments shall not apply in the case of any property with respect to which the amortization period under former Section 17226 began before January 1, 1977.

(i) The 12-month period of amortization provided for under subdivision (a) shall be available only for cogeneration equipment or alternative energy equipment located in this state.

(j) This section shall not apply with respect to cogeneration equipment, or alternative energy equipment placed in service after December 31, 1985.

(k) For purposes of this section, "cogeneration equipment" shall have the same meaning as it is described in Section 25134 of the Public Resources Code.

(*l*) "Alternative energy equipment" means equipment used to produce or convert energy from the following sources:

(1) Cogeneration.

(2) Solar energy.

(3) Geothermal energy.

(4) Biomass energy.

(5) Small hydroelectric energy.

(m) "Biomass energy" means the use of vegetative material to generate steam, electricity, or mechanical energy by direct burning or conversion to another form of fuel.

(n) "Solar energy" means the use of solar or wind energy devices for production of electricity, mechanical work, space heating, water heating, or industrial process heat.

(o) "Geothermal energy" means the process of using heat from the earth to generate electricity or for heating purposes.

(p) "Small hydroelectric energy" means the use of hydroelectric generating equipment with an installed capacity of less than 25 megawatts.

(q) For the purposes of this section, "alternative energy equipment" shall not apply to and no claim shall be made for:

(1) Equipment for any project for which a building permit or binding financial commitment has been applied for before January 1, 1980.

(2) Equipment that uses either fossil fuel or nuclear fuel as its primary energy source.

(r) Property described in this section which is amortized for 12 or 60 months shall be considered to be Section 1250 property under the Internal Revenue Code and for the purposes of that section, "additional depreciation" means amortization adjustments in excess of the amount of depreciation adjustments which would have resulted under the straight line method.

SEC. 4. Section 17263 of the Revenue and Taxation Code is repealed.

SEC. 5. Section 17270 of the Revenue and Taxation Code is amended to read:

(1) The place of residence of a member of the Legislature within the district represented shall be considered the tax home.

(2) The provisions of Section 162(h) of the Internal Revenue Code, relating to state legislators' travel expenses away from home, shall not be applied.

(3) The provisions of Section 274(h)(6) of the Internal Revenue Code, relating to treatment of conventions in certain Caribbean countries shall not be applied.

(b) The denial of deductions for expenses and interest relating to tax-exempt income shall be determined in accordance with Section 17280, in lieu of Section 265 of the Internal Revenue Code.

(b) The Franchise Tax Board may waive (in whole or in part) the penalty imposed under subdivision (a) if the taxes imposed under this part with respect to the individual for the taxable year are equal to or less than the sum of both of the following:

(1) The credits against those taxes allowed by Chapter 2 (commencing with Section 17041) and Section 18551.1.

SEC. 18. Section 24369 of the Revenue and Taxation Code is amended to read:

24369. The deduction for soil and water conservation expenses shall be determined in accordance with Section 175 of the Internal Revenue Code.

SEC. 19. Section 24372 of the Revenue and Taxation Code is amended to read:

24372. (a) Every taxpayer at its election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any cogeneration equipment (as defined in subdivision (j)), or alternative energy equipment (as defined in subdivision (k)), based on a period of either 12 months or 60 months. Such amortization deduction shall be an amount, with respect to each month of that period within the income year, equal to the amortizable basis of the cogeneration equipment, or alternative energy equipment at the end of that month divided by the number of months (including the month for which the deduction is computed) remaining in the period. That amortizable basis at the end of the month shall be computed without regard to the amortization deduction for that month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to that cogeneration equipment, or alternative energy equipment for that month provided by Section 24349. The amortization deduction provided by this section shall be in lieu of the solar tax credit provided by Section 23601. The 12-month or 60-month amortization period shall begin, as to any cogeneration equipment,

or alternative energy equipment, at the election of the taxpayer, with the month following the month in which that facility was completed or acquired, or with the succeeding income year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 12-month or 60-month amortization period with the month following the month in which the cogeneration equipment, or alternative energy equipment is completed or acquired, or with the income year succeeding the income year in which that cogeneration equipment, or alternative energy equipment is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election. The election of the 12-month amortization period shall be irrevocable. The Franchise Tax Board, in determining the eligibility of alternative energy equipment for which a taxpayer has filed a statement of election, may consult with the California Energy Commission regarding the technical qualifications of such equipment.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of that month. The depreciation deduction provided under Section 24349 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to that cogeneration equipment, or alternative energy equipment.

(d) (1) For purposes of this section, the term "amortizable basis" means that portion of the adjusted basis (for determining gain) of the cogeneration equipment, or alternative energy equipment which may be amortized under this section. For purposes of the deduction for alternative energy equipment provided in this section, the amortizable basis shall be reduced by the amount of any grant provided by a public entity for that alternative energy equipment.

(2) (A) If the cogeneration equipment, or alternative energy equipment has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of that cogeneration equipment, or alternative energy equipment shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of that cogeneration equipment or alternative energy equipment, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of that cogeneration equipment, or alternative energy equipment.

(B) The amortizable basis of the cogeneration equipment, or

alternative energy equipment with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(e) The depreciation deduction provided by Section 24349 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(f) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(g) The amendment made to former subdivision (d) by the 1977–78 Legislature shall apply to income years beginning after December 31, 1976. Those amendments shall not apply in the case of any property with respect to which the amortization period under this section began before January 1, 1977.

(h) The 12-month period of amortization provided for under subdivision (a) shall be available only for cogeneration equipment, or alternative energy equipment located in this state.

(i) This section shall not apply with respect to cogeneration equipment, or alternative energy equipment placed in service after December 31, 1985.

(j) For purposes of this section, "cogeneration equipment" shall have the same meaning as it is described in Section 25134 of the Public Resources Code.

(k) "Alternative energy equipment" means equipment used to produce or convert energy from the following sources:

(1) Cogeneration.

(2) Solar energy.

(3) Geothermal energy.

(4) Biomass energy.

(5) Small hydroelectric energy.

(*l*) "Biomass energy" means the use of vegetative material to generate steam, electricity, or mechanical energy by direct burning or conversion to another form of fuel.

(m) "Solar energy" means the use of solar or wind energy devices for production of electricity, mechanical work, space heating, water heating, or industrial process heat.

(n) "Geothermal energy" means the process of using heat from the earth to generate electricity or for heating purposes.

(o) "Small hydroelectric energy" means the use of hydroelectric generating equipment with an installed capacity of less than 25 megawatts.

(p) "Cogeneration" means the use of cogeneration technology as defined in Section 25134 of the Public Resources Code. For the purposes of this section, "alternative energy equipment" shall not apply to and no claim shall be made for:

(1) Equipment for any project for which a building permit or binding financial commitment has been applied for before January

1, 1980.

(2) Equipment that uses either fossil fuel or nuclear fuel as its primary energy source.

(b) If an individual makes an election under Section 3405 (a) (2) or Section 3405 (b) (3) of the Internal Revenue Code not to have tax withheld, that election shall apply to withholding under this division, unless the individual elects, with the consent of the payer, to have those payments subject to withholding under this division. If an individual has not made an election under Section 3405 (a) (2) or Section 3405 (b) (3) of the Internal Revenue Code, that individual may elect to exclude those payments from withholding under this division. Elections provided in this subdivision shall be made pursuant to regulations of the director.

(f) The department shall, in consultation with the affected payers and payees, issue regulations to implement this section.

Those regulations shall provide for delay (but not beyond January 1, 1987) of the application of this section with respect to any payer or class of payers until such time as the payers are able to comply without undue hardship with the requirements of this section. In that case, no retroactive compliance shall be required.

SEC. 23. Section 13028.1 is added to the Unemployment Insurance Code, to read:

13028.1. If the director determines that nonpayment of tax by a nonresident under the income tax laws of this state may occur, the director shall notify the payer of payments described in subdivision (a) of Section 13028 that withholding shall be made from those payments. Upon notice from the director, the payer shall withhold from those payments as if they were subject to Section 13020. (b) For purposes of subdivision (a), "supplemental unemployment compensation benefits" means amounts which are paid to an employee, pursuant to a plan to which the employer is a party, because of an employee's involuntary separation from employment (whether or not that separation is temporary), resulting directly from a reduction in force, the discontinuance of a plant or operation, or other similar conditions, but only to the extent those benefits are includable in the employee's gross income.

SEC. 25. Section 13028.6 is added to the Unemployment Insurance Code, to read:

13028.6. (a) For purposes of this division (and so much of Part 10 (commencing with Section 17001) of Division 2 of the Revenue and Taxation Code as relates to this division), any payment to an individual of sick pay which does not constitute wages (determined without regard to this subdivision), if at the time the payment is made a request that such sick pay be subject to withholding under this division is in effect, shall be treated as if it were a payment of wages by an employer to an employee for a payroll period.

(b) For purposes of this subdivision, "sick pay" means any amount which satisfies both of the following:

(1) Is paid to an employee pursuant to a plan to which the employer is a party.

(2) Constitutes remuneration or a payment in lieu of remuneration for any period during which the employee is temporarily absent from work on account of sickness or personal injuries.

(c) If a payee makes a request that any sick pay be subject to withholding under this chapter, the amount to be deducted and withheld under this chapter from any payment to which that request applies shall be an amount (not less than a minimum amount determined by the Franchise Tax Board) specified by the payee in that request. The amount deducted and withheld with respect to a payment which is greater or less than a full payment shall bear the same relation to the specified amount as that payment bears to a full payment.

making the payments a written statement of change or termination which shall take effect in the same manner as provided in the preceding sentence. At the election of the payer, any such request (or statement of change or revocation) may take effect earlier than as provided in this subparagraph.

(2) Any sick pay paid pursuant to a collective bargaining agreement between employee representatives and one or more employers which contains a provision specifying that this paragraph is to apply to sick pay paid pursuant to that agreement and contains a provision for determining the amount to be deducted and withheld from each payment of that sick pay as follows:

(A) The requirement of paragraph (3) of subdivision (a) that a request for withholding be in effect shall not apply.

(B) Except as provided in Section 13026, the amounts to be deducted and withheld under this chapter shall be determined in accordance with that agreement.

The preceding sentence shall not apply with respect to sick pay paid pursuant to any agreement to any individual, unless the social security number of that individual is furnished to the payer and the payer is furnished with that information as is necessary to determine whether the payment is pursuant to the agreement and to determine the amount to be deducted and withheld.

SEC. 26. Regulations adopted to implement Sections 22, 23, 24, and 25 of this act shall be submitted by the Director of Employment Development to the Office of Administrative Law for approval pursuant to the Administrative Procedure Act provided for in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code no later than January 1, 1986. [Approved by Governor July 4, 1985 Filed with Secretary of State July 8, 1985]

The people of the State of California do enact as follows:

SECTION 1. Article 1.8 (commencing with Section 31499.10) is added to Chapter 3 of Part 3 of Division 4 of Title 3 of the Government Code, to read:

Article 1.8. Alternative Optional, Integrated, Noncontributory Plan for Counties of the 20th Class

31499.10. (a) The retirement plan created by this article shall be known as Retirement Plan 3.

(b) This article shall be applicable in the retirement system of any county of the 20th class as described by Section 28041, if the board of supervisors adopts, by majority vote, a resolution providing that the article shall be applicable.

(c) The purpose of this article is to provide an optional, noncontributory retirement plan for general members as an

alternative to the provisions and benefits otherwise contained in this chapter.

(d) The retirement benefits of (1) all general members employed after the date this article is made operative and who elect the plan created by this article and (2) existing general members who transfer to the plan created by this article, shall be governed by this article.

(e) In the event of a conflict, this article shall supersede and prevail over other provisions or application of provisions otherwise contained in this chapter.

(f) Except as otherwise provided below, the provisions contained in this chapter shall apply:

(1) Article 9 (commencing with Section 31700) of this chapter shall not be applicable.

(2) Article 10 (commencing with Section 31720) of this chapter shall not be applicable.

(4) Article 12 (commencing with Section 31780) of this chapter shall not be applicable.

(5) Article 16.5 (commencing with Section 31780) of this chapter shall not be applicable.

(g) Article 15 (commencing with Section 31830) shall only be applicable for service retirement. Those provisions of Article 15 dealing with disability retirement, death benefits, and the requirement relating to the deposit of accumulated member contributions shall not be applicable.

(h) Except as otherwise provided, any member who upon retirement receives a retirement pension calculated in accordance with sections or provisions added to this article subsequent to the effective date of this article shall have his or her pension calculated under each such section or provision only for the period of time that those sections or provisions were in effect, unless otherwise mutually agreed between the employer and its employee representatives.

(i) Unless specifically otherwise provided, no amendment to this article subsequent to the effective date of this article shall apply to any county or to the employees of any county unless mutually agreed to by the employer and emloyee representatives and adopted by majority resolution of the board of supervisors.

31499.11. Unless the context otherwise requires, the definitions contained in this section govern the construction of this article.

(a) "Board" means the board of retirement.

(b) "Employer" means the county or district or agency whose employees are members of the retirement system of the county.

(c) "Federal system" means the Old Age and Survivors Insurance provisions of the Social Security Act.

(d) "Final compensation" means the average annual compensation earnable by a general member during any three years, whether or not consecutive, elected by the member at or before the

time an application for retirement is filed, or, if no election is made, during the three years in which the member or former member last earned compensation preceding retirement. If a member or former member has less than three years of service, final compensation shall be determined by dividing total compensation by the number of months of service credited to the member or former member and multiplying by 12. In no event shall final compensation include any disability benefits received by the member or former member under a disability plan provided by the employer.

(e) "Member" or "general member" means an employee hired on a permanent basis, as defined by the employer, except an employee eligible for safety member.

(f) "Primary insurance amount" means the monthly retirement benefit payable under the federal system at the age of 65.

(g) "Service" means the period of uninterrupted employment of a member and the time in which a member or former member (1) is totally disabled, and (2) is receiving disability benefits or is eligible to receive disability benefits either during or after any elimination or qualifying period, under a disability plan provided by the employer.

Except as otherwise provided in this article, a member shall not be credited with service for any period of time in which the member is absent from work without pay.

Unless otherwise provided, service shall not include military service or public service other than service with the employer.

31499.12. (a) There shall be no general members' contributions under the plan created by this article.

(b) A member who transfers to the retirement plan created by this article shall have refunded, within a reasonable period of time, not to exceed nine months from the date of receipt of election to transfer by the board, the member's accumulated contributions, together with interest thereon, which are credited to the member's account. Interest shall be credited to the June 30 or December 31 date, whichever is later, immediately preceding the date of the refund warrant. Any refund under this section shall be payable to the member.

31499.13. (a) Except as provided in Section 31499.17 and under reciprocal provisions of this article, a member who was in public service prior to becoming a member may not elect to receive credit in this retirement plan for the public service time, and shall not receive credit for that prior public service.

(b) Absence from work or termination of employment while an eligible employee or disability beneficiary, as defined by a disability plan provided by the employer, shall not be considered as breaking the continuity of service.

(c) For the purposes of subdivision (b) of Section 31499.14, an unpaid leave of absence of not to exceed one year, or a leave of absence for which an employee received any benefit which has been approved by the employer, shall not be considered an interruption

of service. However, the period of time of unpaid leave shall not be considered as service in calculating the benefits otherwise provided under this article.

31499.14. (a) Retirement of a member or former member who has met the requirements for age and service shall be made by the board, at which time the member or former member becomes a retired member.

(b) Any member who has completed 10 years of service shall be vested under the plan created by this article.

(c) Any member who is not vested, whose employment terminated, and who is then reemployed shall not receive credit for his or her previous service credited under Plan 3, provided, that the service was rendered in Plan 3.

(d) Any vested member or vested former member who has attained the age of 65 years may be retired upon filing with the board a written application on a form provided by the board for normal retirement setting forth the desired effective retirement date.

(e) Any vested member or vested former member who has attained the age of 55 years may be retired upon filing with the board a written application on a form provided by the board for early retirement setting forth the desired effective retirement date.

(f) The normal retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member equal to 2 percent of his or her final compensation multiplied by the number of years of service to the preceding completed month to which the member is entitled to be credited at retirement, not to exceed 35 years, added to 1 percent of the member's final compensation multiplied by the number of years of service in excess of 35, not to exceed 20 years, reduced by the estimated primary insurance amount, if any, multiplied by the fraction of the number of years of service with the employer subject to coverage under the federal system, not to exceed 35 years, divided by 35.

In no event shall the normal retirement pension, when added to the estimated primary insurance amount, exceed 70 percent of the member's final compensation unless the years of service to which the member is entitled to be credited at retirement exceeds 35, in which case the normal retirement pension, when added to the estimated primary insurance amount, shall not exceed 80 percent of the member's final compensation.

(g) The early retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member in an amount which is the actuarial equivalent of the normal retirement pension to which the retired member would be entitled if otherwise eligible for normal retirement, which shall be computed by multiplying the normal retirement pension by the early retirement adjustment factor set forth opposite the member's age as of the birthday immediately preceding the date of retirement in the following table:

Age	ERA factor
55	.39
56	.43
57	.47
58	.51
59	.56
60	.61
61	.67
62	.74
63	.82
64	.90

The early retirement adjustment factor set forth in this subdivision shall be used until adjusted by the board in accordance with the interest and mortality tables adopted by the board.

(h) The board, upon the advice of the actuary, shall establish and adjust, as required, the table of estimated primary insurance amounts, which shall be utilized in computing the retirement benefit. For purposes of this article, the primary insurance amount shall be estimated based on the employee's age and salary as of the date of retirement or the date of termination of a vested member, whichever is applicable, provided that:

(1) An employee's prior career earnings shall be assumed to have been subject to the federal system and to have increased on a year-to-year basis at a rate equivalent to the rate of increase in the average per worker total wages reported by the Social Security Administration, and

(2) For those members who have not attained the normal retirement age under the federal system as of the date of retirement (A) future earnings in employment covered by the federal system shall be assumed to continue at the rate of pay received by the employee from the employer as of the date of retirement or the date of termination of a vested member, whichever is applicable, and (B) future wage bases, as defined by the federal system, shall be assumed to continue at the wage base in effect in the year of retirement or the year of termination of a vested member, whichever is applicable, and (C) cost-of-living increases in the year of retirement and delayed retirement credit provided under the federal system shall not be included in the calculation of the estimated primary insurance amount.

(i) The employer shall certify the years of service to be credited at retirement and the final compensation to be utilized in computing the normal and early retirement pension.

(j) At the time of application for retirement, the member or former member shall provide adequate proof (1) of age and (2) of the eligibility of persons, if any, who at that time would otherwise qualify for the survivor allowance provided for in Section 31499.15.

(k) Notwithstanding subdivision (f), any retired member receiving a normal retirement pension shall, as soon as possible but not later than six months following retirement, present evidence required by the board of the retired member's actual primary insurance amount. For purposes of this subdivision, the actual primary insurance amount shall be the amount payable under the federal system on the retired member's date of retirement without regard to delayed retirement credit or any deductions on account of work. Following receipt of that evidence, the board shall adjust the retired member's pension from the date of retirement to equal the amount of the pension to which he or she would have been entitled on that date had the estimated primary insurance amount equaled the actual primary insurance amount.

31499.15. (a) Upon the death of a retired member, 50 percent of the retirement pension, if not modified in accordance with the optional survivor allowance in subdivision (b), shall be continued during and throughout the life of his or her surviving spouse, if he or she was married to the member at least one year prior to the date of retirement. If there is no surviving spouse entitled to this allowance, or if he or she dies before every child of the deceased retired member, including stepchild or adopted child, attains the age of 18 years, then the allowance which the surviving spouse would have received had he or she lived, shall be paid to the deceased retired member's child or children under the age of 18 years. If the survivor allowance is to be paid to surviving children, the allowance shall be divided among the children in equal amounts. However, the right of any child to share in the allowance shall cease upon his or her death, marriage, or upon attaining the age of 18 years.

Notwithstanding any other provisions of this subdivision, the allowance otherwise payable to the children of the retired member shall be paid to the children through the age of 21, if the children remain unmarried and are regularly enrolled as full-time students in any accredited school as determined by the board.

(b) A vested member, or vested former member, in lieu of the normal or early retirement pension for the retired member's life alone, may elect to have the actuarial equivalent of the retired member's pension as of the date of retirement applied to a lesser amount payable throughout the retired member's life, and thereafter to have a survivor allowance as approved by the board, upon the advice of the actuary, continued throughout the life of and paid to the person or persons having an insurable interest in the life of the retired member, as the member or former member nominates by written designation duly executed and filed with the board at the time of retirement.

(c) No designation pursuant to subdivision (b) shall, in the opinion of the board and the actuary, place any additional actuarial cost burden upon the retirement system.

31499.16. Any person employed subsequent to the effective date of this article who would otherwise qualify as a member shall not

become a member until he or she certifies to the board his or her election to be covered by the retirement plan established by this article or to be covered by the retirement provisions and benefits otherwise available to members on the date preceding the effective date of this article. As a condition of continued employment, the certification shall be made within 60 days of employment. The employer shall make available to the person a disclosure of the elements of each of the available retirement plans prior to accepting his or her election.

31499.17. (a) General members may, within 180 days of the effective date of this article, elect to transfer to the retirement plan created by this article upon proper application executed by the member and filed with the board. The transfer is voluntary and shall be irrevocable.

(b) The retirement benefits of the transferred members are governed and defined by this article.

(c) Transferring members relinquish and waive any and all previously available vested or accrued retirement, survivor, disability and death benefits. All transferring members whose contributions for public service have been refunded to them shall not receive credit for such service.

(d) Any member who selects Retirement Plan 3 upon reentering into county service and who has not received credit as a Plan 3 member for previous county service, may elect to repurchase his or her previous service by redepositing his or her withdrawn contributions, plus interest, from date of termination, and shall then receive credit for that service under the plan status at the time of original employment.

(e) Any member who has elected or transferred to the plan created by this article and who terminates his or her employment and is later reemployed shall not be entitled to change his or her election upon that reemployment.

31499.18. Until the completion of the next regularly scheduled actuarial survey of the retirement system, the employer contribution required to finance the plan created by this article shall be established by the board, upon the recommendation of the actuary.

31499.19. If any provision of this article, or the application thereof, to any person or circumstances, is held invalid, the invalidity shall not affect other provisions or application of the article which can be given effect without the invalid provisions or application and, to this end the provisions of this article are severable.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.

SEC. 3. Notwithstanding Section 2231.5 of the Revenue and Taxation Code, this act does not contain a repealer, as required by that section; therefore, the provisions of Section 1 of this act shall remain

in effect unless and until they are amended or repealed by a later enacted act.

SECTION 1. Section 11114 of the Penal Code is amended to read:

11114. (a) When any person makes a report of a missing person to a police or sheriff's department or other law enforcement authority, the person making the report shall be given in person or by mail a form supplied by the Department of Justice authorizing the release of the dental records of the person reported missing. Included with the form shall be instructions which state that if the person reported missing is still missing 30 days after the report is made, the release form signed by a member of the family or next of kin of the missing person should be taken to the dentist or dentists of the missing person to obtain the release of the dental records and that dental records should be submitted within 10 days by the person to whom released to the police or sheriff's department or other law enforcement authority to which the missing person report was made. When the person reported missing has not been found within 30 days and no family or next of kin exists or can be located, the law enforcement authority may execute a written declaration, stating that an active investigation seeking the location of the missing person is being conducted, and that the dental records are necessary for the exclusive purpose of furthering the investigation. The written declaration, signed by a peace officer, is sufficient authority for the dentist or dentists to release the missing person's dental records.

(b) When a person reported missing has not been found within 45 days, the sheriff, chief of police, or other law enforcement authority initiating and conducting the investigation for the missing person shall confer with the coroner or medical examiner prior to the preparation of a missing person report. Where authorized to execute a written declaration to obtain the release of dental records, the law enforcement authority may do so immediately when a person reported missing who is under 18 years of age is determined by the authority to have disappeared under suspicious circumstances. In any such case, the law enforcement authority should confer immediately with the coroner or medical examiners and should submit its report including the dental records within 24 hours thereafter to the Department of Justice.

(d) When a person reported missing has been found, the sheriff, chief of police, coroner or medical examiner, or other law enforcement authority shall report that information to the Department of Justice. After receiving the report, the department shall erase all records with respect to such person which are maintained pursuant to subdivision (e).

(e) The Department of Justice shall maintain a file of information concerning persons reported to it as missing and who have not been reported as found. The file shall contain the information referred to in subdivision (b) and any other information as the Department of Justice finds to be relevant to assisting in the location of a missing person.

The department shall develop a system of cataloging missing person reports according to a variety of characteristics to facilitate locating particular categories of reports as needed.

(b) Prior to the end of each calendar year, the Department of Finance shall review all statutes which created "costs mandated by the state" for which reimbursement was made enacted in the fifth preceding year. The department shall report to the Legislature on the effectiveness of each statute which created costs mandated by the state and the amount of reimbursements made for each statute to local agencies and school districts for each fiscal year. CHAPTER 184

An act to amend Section 84313 of, and to add Section 84310.2 to, the Education Code, relating to community college finance, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 9, 1985 Filed with Secretary of State July 9, 1985.]

I am deleting the $5 million appropriation contained in Section 3 (d) of Assembly Bill No 539

I am concerned that the shortfall in funding for the Los Angeles Community College District (LACCD) may have resulted from their failure to exercise prudent fiscal management Before additional funds are allocated, I believe reforms should be instituted to assure that this shortfall is not repeated

I am willing to support a loan for LACCD if it is accompanied by strong auditing provisions and a permanent incentive for improved fiscal management As a case in point, I believe that community college students should have the same opportunity as students attending the University of California and CSU to choose the campus which most closely meets the students' needs and interests Further, competition in operational efficiency and in program development among community college districts which would result from granting students this choice can provide incentives for improved management Therefore, I have requested Senator Bob Beverly to amend his Senate Bill 225 to include an appropriation for a loan to LACCD, because SB 225 includes this necessary reform.

With this reform, I would support the proposed LACCD loan

With this deletion, I approve Assembly Bill No. 539

George Deukmejian, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 84310.2 is added to the Education Code, to read:

84310.2. In providing comments and recommendations to the Director of Finance pursuant to subdivision (d) of Section 84310, the chancellor shall consider the percentage of the district's budget that

is expended on the costs of administration, on salaries of nonteaching certificated staff, and on salaries of classroom teaching staff, and the workload of classroom instructors in the district, and include comments and recommendations regarding the impact of these factors on the district's ability to repay the loan.

SEC. 2. Section 84313 of the Education Code is amended to read:

84313. For each of three fiscal years, the Controller shall deduct from apportionments paid to a community college district pursuant to law, an amount not less than one-third of the amount actually allocated to the district pursuant to this article, together with amounts representing interest at a rate based on the most current investment rate of the Pooled Money Investment Account as of the date of the disbursement of funds to the district.

For each of three fiscal years, the amount deducted by the Controller pursuant to this section shall be reapportioned to the source of the funds allocated to the district pursuant to this article. Amounts so reapportioned to Section B of the State School Fund shall be apportioned by the Chancellor of the California Community Colleges to community college districts to alleviate any deficits in state funding in the year in which the loan is made or during the period of repayment. Unless otherwise determined pursuant to Section 84313.5, the three-year repayment period shall consist of three consecutive fiscal years commencing with the fiscal year following the year in which the emergency apportionment is made.

SEC. 3. The sum of nine million eight hundred thousand dollars ($9,800,000) is hereby appropriated from the General Fund to Section B of the State School Fund for emergency apportionments pursuant to Article 2 (commencing with Section 84309) of Chapter 3 of Part 50 of the Education Code, according to the following schedule:

(a) For Chaffey Community College District, for the 1984–85 fiscal year	$2,000,000
(b) For Lassen Community College District, for the 1984–85 fiscal year	$ 800,000
(c) For Peralta Community College District, for the 1984–85 fiscal year	$2,000,000
(d) For Los Angeles Community College District, for the 1984–85 fiscal year	$5,000,000

SEC. 4. As a condition of receiving an emergency apportionment pursuant to this act, the governing board of the Los Angeles Community College District shall biannually report to the Legislature and the Governor describing what progress, if any, has been made with regard to the sale of surplus property owned by the district, and compliance with previous directives given to the governing board in prior fiscal years.

SEC. 5. Due to the unique circumstances affecting the Chaffey Community College District, the Los Angeles Community College

District, the Lassen Community College District, and the Peralta Community College District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide necessary emergency apportionments to enable the Chaffey Community College District, the Lassen Community College District, the Los Angeles Community College District, and the Peralta Community College District to meet their contractual obligations and other cash flow requirements for the 1984–85 fiscal year, and in order to make the new requirements pertaining to emergency apportionments established by this act applicable to the emergency apportionments to those districts, it is necessary that this act take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 11126 of the Government Code is amended to read:

11126. (a) Nothing contained in this article shall be construed to prevent a state body from holding closed sessions during a regular or special meeting to consider the appointment, employment, or dismissal of a public employee or to hear complaints or charges brought against that employee by another person or employee unless the employee requests a public hearing. As a condition to holding a closed session on the complaints or charges to consider disciplinary action or to consider dismissal, the employee shall be given written notice of his or her right to have a public hearing, rather than a closed session, which notice shall be delivered to the employee personally or by mail at least 24 hours before the time for holding a regular or special meeting. If notice is not given, any disciplinary or other action taken against any employee at the closed session shall be null and void. The state body also may exclude from any such public or closed session, during the examination of a witness, any or all other witnesses in the matter being investigated by the state body. Following the public hearing or closed session, the body may deliberate on the decision to be reached in a closed session.

For the purposes of this section, "employee" shall not include any person who is elected to, or appointed to a public office by, any state body. However, officers of the California State University who receive compensation for their services, other than per diem and ordinary and necessary expenses, shall, when engaged in that capacity, be considered employees.

(b) Nothing in this article shall be construed to prevent state bodies which administer the licensing of persons engaging in businesses or professions from holding closed sessions to prepare, approve, grade, or administer examinations.

(c) Nothing in this article shall be construed to prevent an advisory body of a state body which administers the licensing of persons engaged in businesses or professions from conducting a closed session to discuss matters which the advisory body has found would constitute an unwarranted invasion of the privacy of an individual licensee or applicant if discussed in an open meeting, provided the advisory body does not include a quorum of the members of the state body it advises. Those matters may include review of an applicant's qualifications for licensure and an inquiry specifically related to the state body's enforcement program concerning an individual licensee or applicant where the inquiry occurs prior to the filing of a civil, criminal, or administrative disciplinary action against the licensee or applicant by the state body.

(d) Nothing in this article shall be construed to prohibit a state body from holding a closed session to deliberate on a decision to be reached based upon evidence introduced in a proceeding required to be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 or similar provision of law.

(e) Nothing in this article shall be construed to prevent any state body from holding a closed session to consider matters affecting the national security.

(f) Nothing in this article shall be construed to grant a right to enter any correctional institution or the grounds of a correctional institution where that right is not otherwise granted by law, nor shall anything in this article be construed to prevent a state body from holding a closed session when considering and acting upon the determination of a term, parole, or release of any individual or other disposition of an individual case, or if public disclosure of the subjects under discussion or consideration is expressly prohibited by statute.

(g) Nothing in this article shall be construed to prevent any closed session to consider the conferring of honorary degrees, or gifts, donations, and bequests which the donor or proposed donor has requested in writing to be kept confidential.

(h) Nothing in this article shall be construed to prevent the Alcoholic Beverage Control Appeals Board from holding a closed session for the purpose of holding a deliberative conference as provided in Section 11125.

(i) Nothing in this article shall be construed to prevent the Trustees of the California State University from holding closed sessions dealing with site selection for the state university.

(j) Nothing in this article shall be construed to prevent the California Postsecondary Education Commission from holding closed sessions to consider matters pertaining to the appointment or termination of the Director of the California Postsecondary Education Commission.

(k) Nothing in this article shall be construed to prevent the Franchise Tax Board from holding closed sessions for the purpose of discussion of confidential tax returns or data the public disclosure of which is prohibited by law, or from considering matters pertaining to the appointment or removal of the executive officer of the Franchise Tax Board.

(*l*) Nothing in this article shall be construed to prevent the Board of Corrections from holding closed sessions when considering reports of crime conditions under the provisions of Section 6027 of the Penal Code.

(m) Nothing in this article shall be construed to prevent the State Air Resources Board from holding closed sessions when considering the proprietary specifications and performance data of manufacturers.

(n) Nothing in this article shall be construed to prevent a state body which invests retirement, pension, or endowment funds from holding closed sessions when considering investment decisions. For

purposes of consideration of shareholder voting on corporate stocks held by the state body, closed sessions for the purposes of voting may be held only with respect to election of corporate directors, election of independent auditors, and other financial issues which could have a material effect on the net income of the corporation.

(o) Nothing in this article shall be construed to prevent a state body, or such boards, commissions, administrative officers, or other representatives as may properly be designated by law or by a state body, from holding closed sessions with its representatives in discharging its responsibilities under Chapter 10 (commencing with Section 3500) of Division 4 of Title 1 as the sessions relate to salaries, salary schedules, or compensation paid in the form of fringe benefits. For the purposes enumerated in the preceding sentence, a state body may also meet with a state conciliator who has intervened in the proceedings.

(p) Notwithstanding any other provision of law, any meeting of the Public Utilities Commission at which the rates of entities under the commission's jurisdiction are changed shall be open and public.

Nothing in this article shall be construed to prevent the Public Utilities Commission from holding closed sessions to deliberate on the institution of proceedings, or disciplinary actions against regulated utilities.

(q) Nothing in this article shall be construed to prevent a state body from holding a closed session to confer with legal counsel regarding pending litigation when discussion in open session concerning those matters would adversely affect or be detrimental to the public interest.

(r) Nothing in this article shall be construed to prevent a state body which invests in retirement, pension, or endowment funds from holding closed sessions to confer with legal counsel regarding pending litigation, when discussion in open session concerning these matters would adversely affect, or be detrimental to, those funds. For purposes of subdivision (q) and this subdivision, litigation shall be considered pending when a complaint, claim or petition for writ of mandate has been filed, or the threat of litigation is imminent in the sound opinion of the state body.

(s) Nothing in this article shall be construed to prevent the examining committee established by the State Board of Forestry, pursuant to Section 763 of the Public Resources Code, from conducting a closed session to consider disciplinary action against an individual professional forester prior to the filing of an accusation against the forester pursuant to Section 11503.

(t) Nothing in this article shall be construed to prevent an administrative committee established by the State Board of Accountancy pursuant to Section 5020 of the Business and Professions Code from conducting a closed session to consider disciplinary action against an individual accountant prior to the filing of an accusation against the accountant pursuant to Section 11503. Nothing in this article shall be construed to prevent an examining

committee established by the Board of Accountancy pursuant to Section 5023 of the Business and Professions Code from conducting a closed hearing to interview an individual applicant or accountant regarding the applicant's qualifications.

(u) Nothing in this article shall be construed to prevent a state body, as defined in Section 11121.2, from conducting a closed session to consider any matter which properly could be considered in closed session by the state body whose authority it exercises.

(v) Nothing in this article shall be construed to prevent a state body, as defined in Section 11121.7, from conducting a closed session to consider any matter which properly could be considered in a closed session by the body defined as a state body pursuant to Section 11121, 11121.2, or 11121.5.

(w) Nothing in this article shall be construed to prevent a state body, as defined in Section 11121.8, from conducting a closed session to consider any matter which properly could be considered in a closed session by the state body it advises.

(x) Nothing in this article shall be construed to prevent the State Board of Equalization from holding closed sessions when considering matters pertaining to the appointment or removal of the executive secretary of the State Board of Equalization, or for the purpose of hearing confidential taxpayer appeals or data, the public disclosure of which is prohibited by law.

(y) Nothing in this article shall be construed to prevent the California Earthquake Prediction Evaluation Council, or other body appointed to advise the Director of the Office of Emergency Services or the Governor pursuant to Section 8590 concerning matters relating to volcanic or earthquake predictions, from holding closed sessions when considering the evaluation of possible predictions.

SEC. 2. Section 65913.5 of the Government Code is amended to read:

65913.5. (a) Any party may protest the establishment of the imposition of any fees, taxes (other than ad valorem property taxes imposed pursuant to Division 1 (commencing with Section 50) of the Revenue and Taxation Code), assessments, dedications, reservations, or other exactions imposed on a residential housing development by a city, county, city and county, or any other local public entity at any time prior to the expiration of the limitation period of subdivision (d) by meeting both of the following requirements:

(1) Tendering any required payment in full or providing satisfactory evidence of arrangements to ensure performance of the conditions necessary to meet the requirements of the imposition.

(2) Serving written notice on the governing body of the entity which notice shall contain all of the following information:

(A) A statement that the required payment is tendered, or that any conditions which have been imposed are provided for or satisfied, under protest.

(B) A statement informing the governing body of the factual elements of the dispute and the legal theory forming the basis for the

protest.

(b) Compliance by any party with the provisions of subdivision (a) shall not be the basis for a city, county, city and county, or any other local public entity to withhold approval of any map, plan, permit, zone change, license, or other form of permission, or concurrence, whether discretionary, ministerial, or otherwise, incident to, or necessary for, the development of the residential housing development. This section does not limit the ability of a public agency to ensure compliance with all applicable provisions of law in determining whether or not to approve or disapprove a development project.

(c) Where a reviewing public agency makes proper and valid findings that the construction of certain public improvements or facilities, the need for which is directly attributable to the proposed residential housing development, is required for reasons related to the public health, safety, and welfare, and elects to impose a requirement for construction of those improvements or facilities as a condition of approval of the proposed development, then in the event a protest is lodged pursuant to this section, such approval shall be suspended pending withdrawal of the protest, the expiration of the limitation period of subdivision (d) without the filing of an action, or resolution of any action filed. This subdivision confers no new or independent authority for imposing fees, taxes, assessments, dedications, reservations, or other exactions not presently governed by other law.

(d) A protest filed pursuant to subdivision (a) shall be filed within 90 days after the date of the establishment of the fees, taxes, assessments, dedications, reservations, or other exactions to be imposed on a residential housing development. Any party who files a protest pursuant to subdivision (a) may file an action to attack, review, set aside, void, or annul the imposition of the fees, taxes, assessments, dedications, reservations, or other exactions imposed on a residential housing development by a city, county, city and county, or any other local public entity within 180 days after the date of the establishment of the imposition. Thereafter, notwithstanding any other law to the contrary, all persons are barred from any such action or proceeding or any defense of invalidity or unreasonableness of such imposition. Any such proceeding shall take precedence over all matters of the calendar of the court except criminal, probate, eminent domain, forcible entry, and unlawful detainer proceedings.

(e) If the court finds in favor of the plaintiff in any action or proceeding brought pursuant to subdivision (d), the court shall direct the city, county, city and county, or any other local public entity to refund the unlawful portion of the payment or return the unlawful portion of the exaction imposed, with interest at the rate of 8 percent per annum.

SEC. 3. Section 61 of the Revenue and Taxation Code is amended to read:

61. Except as otherwise provided in Section 62, change in

ownership, as defined in Section 60, includes, but is not limited to:

(a) The creation, renewal, sublease, assignment, or other transfer of the right to produce or extract oil, gas, or other minerals regardless of the period during which the right may be exercised. The balance of the property, other than the mineral rights, shall not be reappraised pursuant to this section.

(b) The creation, renewal, sublease, or assignment of a taxable possessory interest in tax exempt real property for any term.

(c) (1) The creation of a leasehold interest in taxable real property for a term of 35 years or more (including renewal options), the termination of a leasehold interest in taxable real property which had an original term of 35 years or more (including renewal options), and any transfer of a leasehold interest having a remaining term of 35 years or more (including renewal options); or (2) any transfer of a lessor's interest in taxable real property subject to a lease with a remaining term (including renewal options) of less than 35 years.

Only that portion of a property subject to such lease or transfer shall be considered to have undergone a change of ownership.

For the purpose of this subdivision, for 1979–80 and each year thereafter, it shall be conclusively presumed that all homes eligible for the homeowners' exemption, other than mobilehomes located on rented or leased land and subject to taxation pursuant to Part 13 (commencing with Section 5800), which are on leased land have a renewal option of at least 35 years on the lease of such land, whether or not in fact such renewal option exists in any contract or agreement.

(d) The creation, transfer, or termination of any joint tenancy interest, except as provided in subdivision (f) of Section 62, Section 63 and Section 65.

(e) The creation, transfer, or termination of any tenancy-in-common interest, except as provided in subdivision (a) of Section 62 and in Section 63.

(f) Any vesting of the right to possession or enjoyment of a remainder or reversionary interest which occurs upon the termination of a life estate or other similar precedent property interest, except as provided in subdivision (d) of Section 62 and in Section 63.

(g) Any interests in real property which vest in persons other than the trustor (or, pursuant to Section 63, his spouse) when a revocable trust becomes irrevocable.

(h) The transfer of stock of a cooperative housing corporation, as defined in Section 17265, vested with legal title to real property which conveys to the transferee the exclusive right to occupancy and possession of such property, or a portion thereof.

(i) The transfer of any interest in real property between a corporation, partnership, or other legal entity and a shareholder, partner, or any other person.

SEC. 4. Section 62 of the Revenue and Taxation Code is amended to read:

62. Change in ownership shall not include:

(a) (1) Any transfer between coowners which results in a change in the method of holding title to the real property transferred without changing the proportional interests of the coowners in that real property, such as a partition of a tenancy in common.

(2) Any transfer between an individual or individuals and a legal entity or between legal entities, such as a cotenancy to a partnership, a partnership to a corporation, or a trust to a cotenancy, which results solely in a change in the method of holding title to the real property and in which proportional ownership interests of the transferors and transferees, whether represented by stock, partnership interest, or otherwise, in each and every piece of real property transferred, remain the same after the transfer. The provisions of this paragraph shall not apply to transfers also excluded from change in ownership under the provisions of subdivision (b) of Section 64.

(b) Any transfer for the purpose of perfecting title to the property.

(c) (1) The creation, assignment, termination, or reconveyance of a security interest; or (2) the substitution of a trustee under a security instrument.

(d) Any transfer by the trustor, or by the trustor's spouse, or by both, into a trust for so long as (1) the transferor is the present beneficiary of the trust, or (2) the trust is revocable; or any transfer by a trustee of such a trust described in either clause (1) or (2) back to the trustor; or, any creation or termination of a trust in which the trustor retains the reversion and in which the interest of others does not exceed 12 years duration.

(e) Any transfer by an instrument whose terms reserve to the transferor an estate for years or an estate for life; however, the termination of such an estate for years or estate for life shall constitute a change in ownership, except as provided in subdivision (d) and in Section 63.

(f) The creation or transfer of a joint tenancy interest if the transferor, after the creation or transfer, is one of the joint tenants as provided in subdivision (b) of Section 65.

(g) Any transfer of a lessor's interest in taxable real property subject to a lease with a remaining term (including renewal options) of 35 years or more. For the purpose of this subdivision, for 1979–80 and each year thereafter, it shall be conclusively presumed that all homes eligible for the homeowners' exemption, other than mobilehomes located on rented or leased land and subject to taxation pursuant to Part 13 (commencing with Section 5800), which are on leased land and have a renewal option of at least 35 years on the lease of that land, whether or not in fact that renewal option exists in any contract or agreement.

(h) Any purchase, redemption, or other transfer of the shares or units of participation of a group trust, pooled fund, common trust fund, or other collective investment fund established by a financial institution.

(i) Any transfer of stock or membership certificate in a housing cooperative which was financed under one mortgage, provided that mortgage was insured under Section 213, 221(d)(3), 221(d)(4), or 236 of the National Housing Act, as amended, or that housing cooperative was financed or assisted pursuant to Section 514, 515, or 516 of the Housing Act of 1949 or Section 202 of the Housing Act of 1959, or the housing cooperative was financed by a direct loan from the California Housing Finance Agency, and provided that the regulatory and occupancy agreements were approved by the governmental lender or insurer, and provided that the transfer is to the housing cooperative or to a person or family qualifying for purchase by reason of limited income. Any subsequent transfer from the housing cooperative to a person or family not eligible for state or federal assistance in reduction of monthly carrying charges or interest reduction assistance by reason of the income level of that person or family shall constitute a change of ownership.

(j) Any transfer during the period March 1, 1975 to March 1, 1981, between coowners in any property which was held by them as coowners for all or part of that period, and which was eligible for a homeowner's exemption during the period of the coownership, notwithstanding any other provision of this chapter. Any transferee whose interest was revalued in contravention of the provisions of this subdivision shall obtain a reversal of that revaluation with respect to the 1980–81 assessment year and thereafter, upon application to the county assessor of the county in which the property is located filed on or before March 26, 1982. No refunds shall be made under this subdivision for any assessment year prior to the 1980–81 fiscal year.

(k) Any transfer of property or an interest therein between a corporation sole, a religious corporation, a public benefit corporation, and a holding corporation as defined in Section 23701h holding title for the benefit of any of the aforementioned corporations, or any combination thereof (including any transfer from one such entity to the same type of entity), provided that both the transferee and transferor are regulated by laws, rules, regulations, or canons of the same religious denomination.

(*l*) Any transfer, which would otherwise be a transfer subject to reappraisal under this chapter, between or among the same parties for the purpose of correcting or reforming a deed to express the true intentions of the parties, provided that the original relationship between the grantor and grantee is not changed.

(m) Any intrafamily transfer of an eligible dwelling unit from a parent or parents or legal guardian or guardians to a minor child or children or between or among minor siblings as a result of a court order or judicial decree due to the death of the parent or parents. As used in this subdivision, "eligible dwelling unit" means the dwelling unit which was the principal place of residence of the minor child or children prior to the transfer and remains the principal place of residence of the minor child or children after the transfer.

(n) Any transfer of an eligible dwelling unit, whether by will,

devise, or inheritance, from a parent or parents to a child or children, or from a guardian or guardians to a ward or wards, if the child, children, ward, or wards have been disabled, as provided in subdivision (e) of Section 12304 of the Welfare and Institutions Code, for at least five years preceding the transfer and if the child, children, ward, or wards have adjusted gross income which, when combined with the adjusted gross income of a spouse or spouses, parent or parents, and child or children, does not exceed twenty thousand dollars ($20,000) in the year in which the transfer occurs. As used in this subdivision, "child" or "ward" includes a minor or an adult. As used in this subdivision, "eligible dwelling unit" means the dwelling unit which was the principal place of residence of the child or children, or ward or wards for at least five years preceding the transfer and remains the principal place of residence of the child or children, or ward or wards after the transfer. Any transferee whose property was reassessed in contravention of the provisions of this subdivision for the 1984–85 assessment year shall obtain a reversal of that reassessment upon application to the county assessor of the county in which the property is located. Application by the transferee shall be made to the assessor no later than 30 days after the later of either the transferee's receipt of notice of reassessment pursuant to Section 75.31 or the end of the 1984–85 fiscal year.

SEC. 5. Section 68 of the Revenue and Taxation Code is amended to read:

68. For purposes of Section 2 of Article XIII A of the Constitution, the term "change in ownership" shall not include the acquisition of real property as a replacement for comparable property if the person acquiring the real property has been displaced from property in this state by eminent domain proceedings, by acquisition by a public entity, or by governmental action which has resulted in a judgment of inverse condemnation.

The adjusted base year value of the property acquired shall be the lower of the fair market value of the property acquired or the value which is the sum of the following:

(a) The adjusted base year value of the property from which the person was displaced.

(b) The amount, if any, by which the full cash value of the property acquired exceeds 120 percent of the amount received by the person for the property from which the person was displaced.

The provisions of this section shall apply to eminent domain proceedings, acquisitions, or judgments of inverse condemnation after March 1, 1975, and shall affect only those assessments of that property which occur after June 8, 1982.

Persons acquiring replacement property between March 1, 1975, and January 1, 1983, shall request assessment under this section with the assessor on or before January 1, 1987. Persons acquiring replacement property on and after January 1, 1983, shall request assessment within four years of the date the property was acquired by eminent domain or purchase or the date the judgment of inverse

condemnation becomes final.

Any change in the adjusted base year value of the replacement property acquired, resulting from the application of the provisions of this section, shall be deemed to be effective on the first day of the month following the month in which the property is acquired. The change in value shall be treated as a change in ownership for the purpose of placing supplemental assessments on the supplemental roll pursuant to Chapter 3.5 (commencing with Section 75). The assessor shall, however, appraise the replacement property acquired in accordance with the provisions of this section rather than the provisions of Section 75.10. The provisions of Chapter 3.5 shall be liberally construed in order to provide the benefits of this section and Section 2 of Article XIII A of the California Constitution to affected property owners at the earliest possible date.

SEC. 6. Section 75.10 of the Revenue and Taxation Code is amended to read:

75.10. (a) Commencing with the 1983–84 assessment year and each assessment year thereafter, whenever a change in ownership occurs or new construction resulting from actual physical new construction on the site is completed, the assessor shall appraise the property changing ownership or the new construction at its full cash value (except as provided in Section 68) on the date the change in ownership occurs or the new construction is completed. The value so determined shall be the new base year value of the property or the new construction.

(b) For purposes of this section, "actual physical new construction" includes the discovery of previously unknown reserves of oil or gas.

SEC. 7. Section 75.15 of the Revenue and Taxation Code, as added by Section 6.5 of Chapter 946 of the Statutes of 1984, is amended to read:

75.15. (a) For fixtures, other than fixtures which are included in a change of ownership or which are included in a structure and are assessed at the completion of the new construction of a structure pursuant to Section 75.12, taxpayers shall report, beginning in 1985, to the assessor once each year at the time the annual property statement is due, on the fixtures added to real property and fixtures removed from real property, the dates of those additions and removals, and the cost of each in the prior 12-month period from March 1 to March 1. One supplemental tax bill shall be prepared for those fixtures based on the cost of the fixtures added and subtracted from real property, the date of each addition or subtraction, and the appropriate tax rate computed pursuant to Section 75.41.

The taxes due from the resulting tax bill shall be collected in the same manner and at the same times as other supplemental tax bills mailed on the same date.

(b) As used in this section, a fixture is an item of tangible property, the nature of which was originally personalty, but which is classified as realty for property tax purposes because it is physically or

constructively annexed to realty with the intent that it remain annexed indefinitely.

The phrase "annexed indefinitely" means the item is intended to remain annexed until worn out, until superseded by a more suitable replacement, or until the purpose to which the realty is devoted has been accomplished or materially altered.

Property is physically annexed if it is attached to, imbedded in, or permanently resting upon land or improvements in accordance with Section 660 of the Civil Code, or by other means that are normally used for permanent installation. If the property being classified cannot be removed without substantially damaging it or the real property with which it is being used, it is to be considered physically annexed. If the property can be removed without material damage but is actually attached, it is to be classified as a fixture unless there is an intent, as manifested by outward appearance or historic usage, that the item is to be moved and used at other locations.

Property may be considered physically annexed if the weight, the size, or both are such that relocation or removal of the property would be so difficult that the item appears to be intended to remain in place indefinitely.

Property shall not be considered physically annexed to realty solely because of attachment of the realty by "quick disconnect" attachments, such as simple wiring and conduit connections.

Property not physically annexed to realty (including fixtures) is constructively annexed if it is a necessary, integral, or working part of the realty. Factors to be considered in determining whether the property is a necessary, integral, or working part of the realty are whether the nonattached item is designed or committed for use with specific realty, or whether the realty can perform its desired function without the nonattached item.

Property connected to the realty by quick disconnect conduits which contain power or electronic cable, or allow for heating, cooling, or ventilation service to the connected property is constructively annexed only if it satisfies one of the factors in the above paragraph.

(c) For the purposes of the supplemental roll, taxpayers shall report pursuant to this section only those fixtures which are taxable on the supplemental roll.

(d) This section shall cease to be operative on March 1, 1987, and on that date is repealed.

SEC. 8. Section 75.15 of the Revenue and Taxation Code, as added by Section 6.9 of Chapter 946 of the Statutes of 1984, is amended to read:

75.15. (a) For fixtures, other than fixtures which are included in a change of ownership or which are included in a structure and are assessed at the completion of the new construction of a structure pursuant to Section 75.12, taxpayers shall report, beginning in 1987, to the assessor once each year at the time the annual property statement is due, on the fixtures added to real property and fixtures

removed from real property, the dates of those additions and removals, and the cost of each in the prior 12-month period from March 1 to March 1. One supplemental tax bill shall be prepared for those fixtures based on the cost of the fixtures added and subtracted from real property, the date of each addition or subtraction, and the appropriate tax rate computed pursuant to Section 75.41.

The taxes due from the resulting tax bill shall be collected in the same manner and at the same times as other supplemental tax bills mailed on the same date.

(b) For the purposes of the supplemental roll, taxpayers shall report pursuant to this section only those fixtures which are taxable on the supplemental roll.

(c) This section shall become operative on March 1, 1987, and shall apply to supplemental taxes for the 1987–88 fiscal year and fiscal years thereafter.

SEC. 9. Section 75.21 of the Revenue and Taxation Code is amended to read:

75.21. (a) Exemptions shall be applied to the amount of the supplemental assessment, provided that the property is not receiving any other exemption on either the current roll or the roll being prepared except as provided for in subdivision (b), that the assessee is eligible for the exemption, and that in those instances in which the provisions of this division require the filing of claims for exemption, the assessee makes a claim for the exemption.

(b) If the property received an exemption on the current roll or the roll being prepared and the assessee on the supplemental roll is eligible for an exemption and in those instances in which the provisions of this division require the filing of claims for exemption, the assessee makes a claim for an exemption of a greater amount, then the difference in the amount between the two exemptions shall be applied to the supplemental assessment.

(c) In those instances in which the provisions of this division require the filing of claims for exemption, any person claiming to be eligible for an exemption to be applied against the amount of the supplemental assessment shall file a claim or an amendment to a current claim, in such form as prescribed by the board, on or before the 30th day following the date of notice of the supplemental assessment, in order to receive 100 percent exemption.

(1) With respect to property as to which the college, cemetery, church, religious, exhibition, veterans' organization, free public libraries, free museums, public schools, community colleges, state colleges, state universities, or welfare exemption was available but for which a timely application for exemption was not filed, 90 percent of any tax or penalty or interest thereon shall be canceled or refunded, provided that an appropriate application for exemption is filed on or before the date on which the first installment of taxes on the supplemental tax bill becomes delinquent, as provided by Section 72.52. Notwithstanding the above provision, any tax or penalty or interest thereon exceeding two hundred fifty dollars

($250) in total amount shall be canceled or refunded, provided that it is imposed upon property entitled to relief under the above provision for which an appropriate claim for exemption has been filed.

(2) With respect to property as to which the veterans', homeowners', or disabled veterans' exemption was available but for which a timely application for exemption was not filed, 80 percent of any tax or penalty or interest thereon shall be canceled or refunded, provided that an appropriate application for exemption is filed on or before the date on which the first installment of taxes on the supplemental tax bill becomes delinquent, as provided by Section 75.52.

(3) With respect to property as to which any other exemption was available, but for which a timely application for exemption was not filed, 90 percent of any tax or penalty or interest thereon shall be canceled or refunded, provided that an appropriate application for exemption is filed on or before the date on which the first installment or taxes on the supplemental tax bill becomes delinquent, as provided by Section 72.52.

Where a late application for exemption has not been filed on or before the date on which the first installment of taxes on the supplemental tax bill becomes delinquent, no exemption is available. Other provisions of this division pertaining to the late filing of claims for exemption do not apply to assessments made pursuant to this chapter.

SEC. 10. Section 75.31 of the Revenue and Taxation Code is amended to read:

75.31. (a) Whenever the assessor has determined a new base year value as provided in Section 75.10, the assessor shall send a notice to the assessee showing the following:

(1) The new base year value of the property which has changed ownership, or the new base year value of the completed new construction which shall be added to the existing taxable value of the remainder of the property.

(2) The taxable value appearing on the current roll, and if the change in ownership or completion of new construction occurred between March 1 and May 31, the taxable value on the roll being prepared.

(3) The date of the change in ownership or completion of new construction.

(4) The amount of the supplemental assessments.

(5) The exempt amount, if any, on the current roll or the roll being prepared.

(6) The date the notice was mailed.

(7) A statement that the supplemental assessment was determined in accordance with Article XIII A of the California Constitution which generally requires reappraisal of property whenever a change in ownership occurs or property is newly constructed.

(8) Any other information which the board may prescribe.

(b) In addition to the information specified in subdivision (a), the notice shall inform the assessee of the procedure for filing a claim for exemption which is to be filed within 30 days of the date of the notice.

(c) The notice shall advise the assessee of the right to appeal the supplemental assessment, and, unless subject to subdivision (d), that the appeal must be filed within 60 days of the date of the notice. For the purposes of equalization proceedings, the supplemental assessment shall be considered an assessment made outside of the regular assessment period as provided in Section 1605, except that the application shall be filed within 60 days of notice, unless governed by subdivision (d).

(d) For counties of the first class, the notice shall advise the assessee of the right to appeal the supplemental assessment, and that the appeal must be filed within 60 days of the date of the mailing of the tax bill. For the purposes of equalization proceedings, the supplemental assessment shall be considered an assessment made outside of the regular assessment period as provided in Section 1605.

(e) The notice shall advise the assessee that if the supplemental assessment is a negative amount the auditor shall make a refund of a portion of taxes paid on assessments made on the current roll, or the roll being prepared, or both.

(f) The notice shall be furnished by the assessor to the assessee by regular United States mail directed to the assessee at the assessee's latest address known to the assessor.

SEC. 11. Section 110.1 of the Revenue and Taxation Code is amended to read:

110.1. (a) For purposes of subdivision (a) of Section 2 of Article XIII A of the California Constitution, "full cash value" of real property, including possessory interests in real property, means the fair market value as determined pursuant to Section 110 for either of the following:

(1) The 1975 lien date.

(2) For property which is purchased, is newly constructed, or changes ownership after the 1975 lien date, either of the following:

(A) The date on which a purchase or change in ownership occurs.

(B) The date on which new construction is completed, and if uncompleted, on the lien date.

(b) The value determined under subdivision (a) shall be known as the base year value for the property.

(c) Notwithstanding Section 405.5, for property which was not purchased or newly constructed or has not changed ownership after the 1975 lien date, if the value as shown on the 1975–76 roll is not its 1975 lien date base year value and if the value of that property had not been determined pursuant to a periodic reappraisal under Section 405.5 for the 1975–76 assessment roll, a new 1975 lien date base year value shall be determined at any time until June 30, 1980, and placed on the roll being prepared for the current year; provided, however, that for any county over four million in population the

board of supervisors may adopt a resolution granting the assessor of that county until June 30, 1981, the authority to determine those values. Regardless of the foregoing restrictions, property that escaped taxation for 1975 and was not merely underassessed for that year, shall be added to the roll in any year in which the escape is discovered at its 1975 base year value indexed to reflect inflation as provided in subdivision (f). In determining the new base year value for that property, the assessor shall use only those factors and indicia of fair market value actually utilized in appraisals made pursuant to Section 405.5 for the 1975 lien date. The new base year values shall be consistent with the values established by reappraisal for the 1975 lien date of comparable properties which were reappraised pursuant to Section 405.5 for the fiscal year. In the event that determination is made, no escape assessment may be levied and the newly determined "full cash value" shall be placed on the roll for the current year only; provided, however, the preceding shall not prohibit a determination which is made prior to June 30 of a fiscal year from being reflected on the assessment roll for the current fiscal year.

(d) If the value of any real property as shown on the 1975–76 roll was determined pursuant to a periodic appraisal under Section 405.5, that value shall be the 1975 lien date base year value of the property.

(e) As used in subdivisions (c) and (d), a parcel of property shall be presumed to have been appraised for the 1975–76 fiscal year if the assessor's determination of the value of the property for the 1975–76 fiscal year differed from the value used for purposes of computing the 1974–75 fiscal year tax liability for the property, but the assessor may rebut that presumption by evidence that, notwithstanding the difference in value, that parcel was not appraised pursuant to Section 405.5 for the 1975–76 fiscal year.

(f) For each lien date after the lien date in which the full cash value is determined pursuant to this section, the full cash value of real property, including possessory interests in real property, shall be adjusted by an inflation factor, which shall be determined as provided in subdivision (a) of Section 51.

SEC. 11.1. Section 276 of the Revenue and Taxation Code is amended to read:

276. (a) A claimant for the disabled veterans' property tax exemption for the 1976–77 fiscal year or any year thereafter may qualify for a partial exemption if the claimant fails to file the required affidavit with the assessor by 5 p.m. on April 15 of the calendar year in which the fiscal year begins, but files the claims on or before the following December 1. Commencing with the 1979–80 assessment year, late-filed claims for the forty thousand dollar ($40,000) exemption provided in Section 205.5 shall receive the lesser of thirty-two thousand dollars ($32,000) or 80 percent of the full value of the dwelling. Late-filed claims for the sixty thousand dollar ($60,000) exemption provided in Section 205.5, when filed in conjunction with the late-filed claim for the forty thousand dollar

($40,000) exemption, shall receive the lesser of forty-eight thousand dollars ($48,000) or 80 percent of the full value of the dwelling. Late-filed claims for the sixty thousand dollar ($60,000) exemption, when filed in conjunction with timely filed claims for the forty thousand dollar ($40,000) exemption, shall receive the lesser of fifty-six thousand dollars ($56,000) or forty thousand dollars ($40,000) plus 80 percent of the full value of the dwelling over forty thousand dollars ($40,000). Commencing with the 1984–85 assessment year, late-filed claims for the one hundred thousand dollars ($100,000) exemption provided in Section 205.5 shall receive the lesser of eighty thousand dollars ($80,000) or 80 percent of the full value of the dwelling.

38503. The board may by notice of levy, served personally or by first-class mail, require all persons having in their possession, or under their control, any credits or other personal property belonging to a timber owner liable for any amount under this part to withhold from those credits or other personal property the amount of any tax, interest, or penalties due from the timber owner, or the amount of any liability incurred by him or her under this part, and to transmit the amount withheld to the board at such times as it may designate.

In the case of a financial institution, to be effective, the notice shall state the amount due from the taxpayer and shall be delivered or mailed to the branch or office of the financial institution where the credits or other property is held, unless another branch or office is designated by the financial institution to receive the notice.

SEC. 14. Section 38525 is added to the Revenue and Taxation Code, to read:

38525. (a) If the board determines that the amount of tax, interest, and penalties are sufficiently secured by a lien or other property or that the release or subordination of the lien imposed under this article will not jeopardize the collection of the amount of the tax, interest, and penalties, the board may at any time release all or any portion of the property subject to the lien from the lien or may subordinate the lien to other liens and encumbrances.

(b) If the board finds that the liability represented by the lien imposed under this article, including any interest accrued thereon, is legally unenforceable, the board may release the lien.

(c) A certificate by the board to the effect that any property has been released from a lien or that the lien has been subordinated to other liens and encumbrances is conclusive evidence that the property has been released or that the lien has been subordinated as provided in the certificate.

Chapter 6 of Part 18.5 of Division 2 of the Revenue and Taxation Code, to read:

Article 7. Payment on Termination of Business and Successor's Liability

38561. If any person liable for any amount under this part sells out his or her business or quits the business, the person's successors or assigns shall withhold sufficient of the purchase price to cover the amount until the former owner produces a receipt from the board showing that it has been paid or a certificate stating that no amount is due.

38562. If the purchaser of a business fails to withhold purchase price as required, the purchaser becomes personally liable for the payment of the amount required to be withheld by him or her to the extent of the purchase price, valued in money. Within 60 days after receiving a written request from the purchaser for a certificate, or within 60 days from the date the former owner's records are made available for audit, whichever period expires the later, but in any event not later than 90 days after receiving the request, or 90 days from the date of the sale of the business, whichever period expires later, the board shall either issue the certificate or mail notice to the purchaser, at his or her address as it appears on the records of the board, of the amount that must be paid as a condition of issuing the certificate. Failure of the board to mail the notice will release the purchaser from any further obligation to withhold purchase price as above provided. The time within which the obligation of the successor may be enforced shall start to run at the time the person sells out his or her business or at the time that the determination against the person becomes final, whichever event occurs later.

38563. The certificate may be issued after the payment of all amounts due under this part, according to the records of the board as of the date of this certificate, or after the payment of the amounts is secured to the satisfaction of the board. This security is not subject to the limitations contained in Section 38501.

38564. The obligation of the successor shall be enforced by serving a notice of successor liability on the person. The notice shall be served in the manner prescribed for service of a notice of a deficiency determination. The successor may petition for reconsideration in the manner provided in Article 5 (commencing with Section 38441) of Chapter 5. The notice shall become final and the amount due and payable in the manner provided in that article except that no additional penalty shall apply if not paid when due and payable. The provisions of this chapter with respect to the collection of any amount required to be paid under this part shall apply when the notice becomes final.

38565. If at the time a business is discontinued the board holds security pursuant to Section 38501 in the form of cash, government bonds, or insured deposits in banks or savings and loan institutions,

this security when applied to the account of the taxpayer shall be deemed to be a payment on account of any liability of the taxpayer to the board on the date the business is discontinued.

SEC. 16. The heading of Article 7 (commencing with Section 38561) of Chapter 6 of Part 18.5 of Division 2 of the Revenue and Taxation Code is amended and renumbered to read:

SEC. 18. Section 38562 of the Revenue and Taxation Code is amended and renumbered to read:

SEC. 19. Section 38563 of the Revenue and Taxation Code is amended and renumbered to read:

38573. In all proceedings under this chapter the board may act on behalf of the people of the State of California.

38574. (a) Upon termination, dissolution, or abandonment of a corporate business, any officer or other person having control or supervision of, or who is charged with the responsibility for the filing of returns or the payment of tax, or who is under a duty to act for the corporation in complying with any requirement of this part, shall be personally liable for any unpaid taxes and interest and penalties on those taxes, if that officer or other person willfully fails to pay or to cause to be paid any taxes due from the corporation pursuant to this part.

(b) The officer or other person shall be liable only for taxes which became due during the period he or she had the control, supervision, responsibility, or duty to act for the corporation described in subdivision (a), plus interest and penalties on those taxes.

(c) For purposes of this section, "willfully fails to pay or cause to be paid" means that the failure was the result of an intentional, conscious, and voluntary course of action.

(d) The sum due for the liability under this section may be collected by determination and collection in the manner provided in Chapter 5 (commencing with Section 38401) and Chapter 6 (commencing with Section 38501).

SEC. 20.5. It is the intent of the Legislature in enacting Sections 11 and 11.3 of this act, which amend Sections 110.1 and 532.3 of the

Revenue and Taxation Code, to clarify the application of these provisions to property which existed on the 1975 lien date, but escaped taxation entirely and was not identified and placed on the roll prior to June 30, 1980 (or June 30, 1981, in the case of counties over four million in population). In these cases, it is the intent of the Legislature that any of these properties which escaped taxation shall be placed on the current roll even though the property was not discovered until after the dates of June 30, 1980, and June 30, 1981.

(b) A city may initiate the transfer of territorial jurisdiction described in subdivision (a) if the city council agrees to reimburse the county for all costs incurred by the county in conducting the transfer and adopts, or has adopted, both of the following ordinances:

(1) An ordinance pursuant to Section 33101 declaring the need for an agency to function in the city.

(2) An ordinance adopting the same redevelopment plan for the project area that was previously adopted by the board of supervisors or an ordinance adopting that redevelopment plan, with amendments. However, no amendment to a redevelopment plan may be adopted if the amendment would violate any agreement entered into by the agency of the county or the board of supervisors, as determined by the board of supervisors, prior to the effective date of the transfer of territorial jurisdiction, as determined pursuant to subdivision (c)

(c) The effective date of the transfer of territorial jurisdiction is the first day of the fiscal year which begins following the effective date of the later enacted of the ordinances adopted pursuant to subdivision (b).

(d) The transfer of territorial jurisdiction shall have all of the following effects on and after the effective date of the transfer of territorial jurisdiction, as determined pursuant to subdivision (c):

(1) The agency of the city and the city council shall have all of the rights, powers, and responsibilities provided by this part with respect to the project area and the redevelopment plan for that project area.

(2) The debts and any other obligations of the agency of the county or the board of supervisors in connection with the project area or the redevelopment plan for that project area shall be assumed by the agency of the city.

(3) For the purposes of this part, including Section 33670, the redevelopment plan for the project area for which territorial jurisdiction is transferred from the agency of the county to the agency of the city pursuant to this section shall be considered to have been adopted by the city council on the date the redevelopment plan was originally adopted by the board of supervisors.

(e) The agency of the county, the board of supervisors, the agency of the city, and the city council may enter into any agreements which those entities mutually determine to be necessary or desirable to facilitate the transfer of territorial jurisdiction provided for by this section.

SEC. 3. Section 33216 is added to the Health and Safety Code, to

read:

33216. (a) If all, or a substantial portion, of the territory included within a project area selected pursuant to Section 33322 is subsequently annexed to a city or included within the boundaries of a new city, the territorial jurisdiction of the agency of the county over all, or a substantial portion, of the territory in that project area may be transferred from the agency of the county to the agency of the city pursuant to this section.

(b) The transfer of territorial jurisdiction described in subdivision (a) is not effective unless all of the following occur:

(1) The agency of the county and the agency of the city enter into the agreement described in subdivision (c) and the city council and the board of supervisors both adopt a resolution approving that agreement.

(2) The city council adopts, or has adopted, both of the following ordinances:

(A) An ordinance pursuant to Section 33101 declaring the need for an agency to function in the city.

(B) An ordinance adopting the same redevelopment plan for the project area that was previously adopted by the board of supervisors.

(c) The agreement required to be entered into between the agency of the county and the agency of the city pursuant to paragraph (1) of subdivision (b) shall contain all of the provisions described in paragraphs (1), (2), (3), and (4) and may contain the provisions described in paragraphs (5) and (6):

(1) A provision specifying that all of the territory included within the project area is transferred from the agency of the county to the agency of the city, or a provision specifying the portions of the project area over which each agency will have territorial jurisdiction.

(2) (A) If all of the territory included within the project area is transferred from the agency of the county to the agency of the city, a provision providing for the allocation of all of the taxes payable from the project area pursuant to subdivision (b) of Section 33670 to the agency of the city.

(B) If a substantial portion of the territory included within the project area is transferred from the agency of the county to the agency of the city, a provision providing for the allocation of taxes payable from the project area pursuant to subdivision (b) of Section 33760 between the agency of the city and the agency of the county. That allocation of taxes shall be reasonably related to the costs the agency of the county and the agency of the city expect to incur in carrying out the redevelopment plan and the outstanding indebtedness the agency of the county has incurred in carrying out the redevelopment plan. That allocation of taxes may differ from the allocation that would have been made if the portion of the project area under the territorial jurisdiction of the county and the portion of the project area under the territorial jurisdiction of the city had been separate project areas at the time of adoption of the redevelopment plan by the board of supervisors.

(3) A requirement that all taxes payable from the project area pursuant to subdivision (b) of Section 33670 which are allocated to the agency of the city, as required by subparagraph (B) of paragraph (2), shall be available if necessary to pay any indebtedness incurred by the agency of the county prior to the effective date of the transfer of jurisdiction in connection with the project area and the redevelopment plan if that indebtedness was secured by the taxes payable from the project area pursuant to subdivision (b) of Section 33670.

(4) If a substantial portion of the territory included within the project area is transferred from the agency of the county to the agency of the city, a requirement that any amendment to the redevelopment plan for that portion of the territory of the project area under the jurisdiction of the county proposed by the agency of the county shall, in addition to any other requirements under this part, be approved by an ordinance adopted by the city council and that any amendment to the redevelopment plan for that portion of the territory of the project area under the jurisdiction of the city proposed by the agency of the city shall, in addition to any other requirements under this part, be approved by an ordinance adopted by the board of supervisors.

(5) If a substantial portion of the territory included within the project area is transferred from the agency of the county to the agency of the city, a provision permitting the agency of the county to undertake activities to implement the redevelopment plan in portions of the project area under the territorial jurisdiction of the agency of the city or for the agency of the city to undertake activities to implement the redevelopment plan in portions of the project area under the territorial jurisdiction of the county.

(6) Any other terms and conditions which the agency of the county, the board of supervisors, the agency of the city, or the city council mutually determine to be necessary or desirable to facilitate the transfer of territorial jurisdiction over all, or a substantial portion, of the project area and the implementation of the redevelopment plan.

(d) The effective date of the transfer of territorial jurisdiction is the first day of the fiscal year which begins following the effective date of the resolution adopted pursuant to paragraph (1) of subdivision (b) or the effective date of the later enacted of the ordinances adopted pursuant to paragraph (2) of subdivision (b), whichever date is later.

(e) On and after the effective date of the transfer of territorial jurisdiction:

(1) Except as otherwise provided by the agreement entered into pursuant to paragraph (1) of subdivision (b), the agency of the city and the city council shall have all of the rights, powers, and responsibilities provided by this part with respect to all, or the portion, of the project area for which the territorial jurisdiction has been transferred to the city and with respect to all, or the portion.

of the redevelopment plan for all, or that portion, of the project area.

(2) The debts and any other obligations of the agency of the county or the board of supervisors in connection with the project area, or a substantial portion of the project area transferred to the city, as the case may be, or the redevelopment plan for that project area, or portion of the project area, shall be assumed by the agency of the city.

(3) For the purposes of this part, including Section 33670, the redevelopment plan for all, or a substantial portion of, the project area for which territorial jurisdiction is transferred from the agency of the county to the agency of the city pursuant to this section shall be considered to have been adopted by the city council on the date the redevelopment plan was orginally adopted by the board of supervisors.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 194

An act to add Chapter 9 (commencing with Section 19999.5) to Part 2.6 of Division 5 of Title 2 of the Government Code, relating to state employees.

[Approved by Governor July 9, 1985 Filed with Secretary of State July 10, 1985]

The people of the State of California do enact as follows:

SECTION 1. Chapter 9 (commencing with Section 19999.5) is added to Part 2.6 of Division 5 of Title 2 of the Government Code, to read:

CHAPTER 9. TAX-DEFERRED SAVINGS PLANS

19999.5. In order to encourage savings and increase the savings options available to state employees, the department may establish and administer tax-deferred savings plans in accordance with Section 401 (k) of the Internal Revenue Code. The department may develop specifications and contract for the administration of the plans to the extent necessary to carry out this section. These plans shall be provided in addition to the retirement and deferred compensation programs currently authorized, shall offer the maximum flexibility available under current federal law, and may provide for employer as well as employee contributions.

CHAPTER 195

An act to amend Section 66484.3 of, and to add Section 50029 to, the Government Code, relating to bridges and roads, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 9, 1985 Filed with Secretary of State July 10, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 50029 is added to the Government Code, to read:

50029. The board of supervisors of the County of Orange or the city council of any city in that county may, by resolution, establish a fee program requiring the payment of a fee as a condition of issuing a building permit for purposes of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares pursuant to the procedures set forth in Section 66484.3.

SEC. 2. Section 66484.3 of the Government Code is amended to read:

66484.3. (a) The Board of Supervisors of the County of Orange and the city council of any city in that county may, by ordinance, require the payment of a fee as a condition of approval of a final map or as a condition of issuing a building permit for purposes of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares.

(b) The local ordinance may require payment of fees pursuant to this section if:

(1) The ordinance refers to the circulation element of the general plan and, in the case of bridges, to the transportation provisions or flood control provisions of the general plan which identify railways, freeways, streams, or canyons for which bridge crossings are required on general plan or local roads and in the case of major thoroughfares, to the provisions of the circulation element which identify those major thoroughfares whose primary purpose is to carry through traffic and provide a network connecting to or which is part of the state highway system, and the circulation element, transportation provisions, or flood control provisions have been adopted by the local agency 30 days prior to the filing of a map or application for a building permit. Bridges which are part of a major thoroughfare need not be separately identified in the transportation or flood control provisions of the general plan.

(2) The ordinance provides that there will be a public hearing held by the governing body for each area benefited. Notice shall be given pursuant to Section 65905. In addition to the requirements of Section 65905, the notice shall contain preliminary information

related to the boundaries of the area of benefit, estimated cost, and the method of fee apportionment. The area of benefit may include land or improvements in addition to the land or improvements which are the subject of any map or building permit application considered at the proceedings.

(3) The ordinance provides that at the public hearing, the boundaries of the area of benefit, the costs, whether actual or estimated, and a fair method of allocation of costs to the area of benefit and fee apportionment are established. The method of fee apportionment, in the case of major thoroughfares, shall not provide for higher fees on land which abuts the proposed improvement except where the abutting property is provided direct usable access to the major thoroughfare. A description of the boundaries of the area of benefit, the costs, whether actual or estimated, and the method of fee apportionment established at the hearing shall be incorporated in a resolution of the governing body, a certified copy of which shall be recorded by the governing body conducting the hearing with the recorder of the county in which the area of benefit is located. The resolution may subsequently be modified in any respect by the governing body. Modifications shall be adopted in the same manner as the original resolution. Any modification shall be subject to the protest procedures prescribed by paragraph (6) of this subdivision. The resolution may provide for automatic periodic adjustment of fees based upon the California Construction Cost Index prepared and published by the Department of Transportation, without further action of the governing body, including, but not limited to, public notice or hearing. The apportioned fees shall be applicable to all property within the area of benefit and shall be payable as a condition of approval of a final map or as a condition of issuing a building permit for any of the property or portions of the property. Where the area of benefit includes lands not subject to the payment of fees pursuant to this section, the governing body shall make provision for payment of the share of improvement costs apportioned to those lands from other sources, but those sources need not be identified at the time of the adoption of the resolution.

(4) The ordinance provides that payment of fees shall not be required unless the major thoroughfares are in addition to, or a reconstruction or widening of, any existing major thoroughfares serving the area at the time of the adoption of the boundaries of the area of benefit.

(5) The ordinance provides that payment of fees shall not be required unless the planned bridge facility is an original bridge serving the area or an addition to any existing bridge facility serving the area at the time of the adoption of the boundaries of the area of benefit. Fees imposed pursuant to this section shall not be expended to reimburse the cost of existing bridge facility construction, unless these costs are incurred in connection with the construction of an addition to an existing bridge for which fees may be required.

(6) The ordinance provides that if, within the time when protests

may be filed under its provisions, there is a written protest, filed with the clerk of the legislative body, by the owners of more than one-half of the area of the property to be benefited by the improvement, and sufficient protests are not withdrawn so as to reduce the area represented to less than one-half of that to be benefited, then the proposed proceedings shall be abandoned, and the legislative body shall not, for one year from the filing of that written protest, commence or carry on any proceedings for the same improvement or acquisition under the provisions of this section, unless the protests are overruled by an affirmative vote of four-fifths of the legislative body.

Nothing in this section shall preclude the processing and recordation of maps in accordance with other provisions of this division if proceedings are abandoned.

Any protests may be withdrawn in writing by the owner who filed the protest, at any time prior to the conclusion of a public hearing held pursuant to the ordinance.

If any majority protest is directed against only a portion of the improvement then all further proceedings under the provisions of this section to construct that portion of the improvement so protested against shall be barred for a period of one year, but the legislative body shall not be barred from commencing new proceedings not including any part of the improvement or acquisition so protested against. Nothing in this section shall prohibit the legislative body, within the one-year period, from commencing and carrying on new proceedings for the construction of a portion of the improvement so protested against if it finds, by the affirmative vote of four-fifths of its members, that the owners of more than one-half of the area of the property to be benefited are in favor of going forward with that portion of the improvement or acquisition.

(c) Fees paid pursuant to an ordinance adopted pursuant to this section shall be deposited in a planned bridge facility or major thoroughfare fund. A fund shall be established for each planned bridge facility project or each planned major thoroughfare project. If the benefit area is one in which more than one bridge or major thoroughfare is required to be constructed, a fund may be so established covering all of the bridge or major thoroughfare projects in the benefit area. Moneys in the fund shall be expended solely for the construction or reimbursement for construction of the improvement serving the area to be benefited and from which the fees comprising the fund were collected, or to reimburse the county or a city for the cost of constructing the improvement.

(d) An ordinance adopted pursuant to this section may provide for the acceptance of considerations in lieu of the payment of fees.

(e) The county or a city imposing fees pursuant to this section may advance money from its general fund or road fund to pay the cost of constructing the improvements and may reimburse the general fund or road fund from planned bridge facility or major thoroughfares funds established to finance the construction of the

improvements.

(f) The county or a city imposing fees pursuant to this section may incur an interest-bearing indebtedness for the construction of bridge facilities or major thoroughfares. The sole security for repayment of the indebtedness shall be moneys in planned bridge facility or major thoroughfares funds.

(g) The term "construction," as used in this section, includes design, acquisition of right-of-way, administration of construction contracts, and actual construction.

(h) Nothing in this section shall be construed to preclude the County of Orange or any city within that county from providing funds for the construction of bridge facilities or major thoroughfares to defray costs not allocated to the area of benefit.

(i) Any city within the County of Orange may require the payment of fees in accordance with this section as to any property in an area of benefit within the city's boundaries, for facilities shown on its general plan or the county's general plan, whether the facilities are situated within or outside the boundaries of the city, and the county may expend fees for facilities or portions thereof located within cities in the county.

(j) The validity of any fee required pursuant to this section shall not be contested in any action or proceeding unless commenced within 60 days after recordation of the resolution described in paragraph (3) of subdivision (b). The provisions of Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure shall be applicable to any such action or proceeding. This subdivision shall also apply to modifications of fee programs.

SEC. 3. The Legislature finds and declares that unique circumstances which exist in the County of Orange dictate the necessity of providing an alternative procedure for that county and the cities within that county, as set forth in Section 1 of this act, and that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 4. The Legislature finds and declares that the provisions of Section 1 of this act are declaratory of existing law.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the County of Orange and cities within that county may implement plans for the construction of needed bridges and thoroughfares within developing areas without undue delay, it is essential that this act go into effect immediately.

Notwithstanding any penal sanctions which may apply, any person who makes, utters, draws, or delivers any check, or draft, or order upon any bank or depository, or person, or firm, or corporation, for the payment of money, which refuses to honor the same for lack of funds or credit to pay, or because the maker has no account with the drawee, and who fails to pay the same amount in cash to the payee within 30 days following a written demand therefor mailed to the maker by certified mail, shall be liable to the payee, in addition to the amount owing upon that check or draft or order, for damages of treble the amount so owing, but in no case less than one hundred dollars ($100), and in no case more than five hundred dollars ($500), plus the costs of mailing the written demand for payment.

A cause of action under this section may be brought in small claims court, if it does not exceed the jurisdiction of that court, or in any other appropriate court.

SEC. 2. Section 2484 of the Business and Professions Code is amended to read:

If an approved postgraduate podiatric surgical training residency was not available nationally for the applicant, a one-year preceptorship approved by the committee may be substituted until January 1, 1987, and it is the intent of the Legislature that this date not be extended beyond January 1, 1987.

SEC. 3. Section 2499.5 of the Business and Professions Code is amended to read:

2499.5. The following fees apply to certificates to practice podiatric medicine. The amount of fees prescribed for doctors of podiatric medicine shall be those set forth in this section unless a lower fee is fixed by the committee in accordance with Section 2499.6.

(a) Each applicant for a certificate by written examination, unless otherwise provided by this chapter, shall pay an application fee fixed by the committee at an amount of one hundred fifty dollars ($150). If the applicant's credentials are insufficient or if the applicant does not desire to take the examination, and has so notified the committee 30 days prior to the examination date, the sum of twenty dollars ($20) shall be retained and the remainder of the fee is returnable to the applicant. If the license will expire less than one year after its issuance, then the initial license fee is an amount equal to 50 percent of the initial license fee fixed by the committee. The committee may waive or refund the initial license fee where the license will expire within 45 days after it is issued.

(d) The biennial renewal fee shall be five hundred twenty-five dollars ($525) until June 30, 1987. Effective July 1, 1987, the biennial renewal fee shall not exceed four hundred fifty dollars($450). Any licensee enrolled in an approved residency program shall be required to pay only 50 percent of the biennial renewal fee at the time of his or her first renewal.

(k) The fee for certification under Section 2473 shall be fixed by the committee at an amount of two hundred fifty dollars ($250).

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Because of the status of the Podiatry Fund balance and the need to have adequate funds to accomplish the mission of the committee, it is necessary that this act take effect immediately.

(a) Engage in the business for which the dealer is licensed without at all times maintaining an established place of business.

(b) Employ any person as a salesperson who is not licensed pursuant to this part, or whose license is not displayed on the premises of the dealer as provided in Section 18063.

(c) Permit the use of his or her dealer's license, supplies, or books by any other person for the purpose of permitting that person to engage in the sale of manufactured homes, mobilehomes, or commercial coaches, or to permit the use of the dealer's license, supplies, or books to operate a branch or secondary location to be used by any other person, if, in either situation, the licensee has no financial or equitable interest or investment in the manufactured homes, mobilehomes, or commercial coaches sold by, or the business of, or branch or secondary location used by, the person, or has no such interest or investment other than commissions, compensations, fees, or any other thing of value received for the use of the dealer's license, supplies, or books to engage in the sale of manufactured homes, mobilehomes, or commercial coaches.

(d) Advertise any specific manufactured home, mobilehome, or commercial coach for sale without identifying the manufactured home, mobilehome, or commercial coach by its serial number.

(e) Advertise the total price of a manufactured home, mobilehome, or commercial coach without including all costs to the purchaser at time of delivery at the dealer's premises, except sales tax, title and registration fees, finance charges, and any dealer documentary preparation charge. The dealer documentary

(f) Exclude from the advertisement of a manufactured home, mobilehome, or commercial coach for sale information to the effect that there will be added to the advertised total price at the time of sale, charges for sales tax, title and registration fees, escrow fees, and any dealer documentary preparation charge.

(g) Represent the dealer documentary preparation charge as a governmental fee.

(h) Refuse to sell the manufactured home, mobilehome, or commercial coach to any person at the advertised total price for that manufactured home, mobilehome, or commercial coach, exclusive of sales tax, title fee, finance charges, and dealer documentary preparation charge, which charge shall not exceed twenty dollars ($20), while it remains unsold, unless the advertisement states the advertised total price is good only for a specified time and that time has elapsed.

(i) Not post the salesperson's license in a place conspicuous to the public on the premises where they are actually engaged in the selling of manufactured homes, mobilehomes, and commercial coaches for the employing dealer. The license shall be displayed continuously during their employment. If a salesperson's employment is terminated, the dealer shall return the license to the salesperson.

(j) Offer for sale, rent, or lease within this state a new manufactured home, mobilehome, or commercial coach whose manufacturer is not licensed under this part.

SEC. 5. Section 18075.5 of the Health and Safety Code is amended to read:

18075.5. Manufactured homes, mobilehomes, and commercial coaches sold or used within this state shall be subject to annual registration with the department except as follows:

(a) Manufactured homes and mobilehomes subject to local property taxation pursuant to Part 13 (commencing with Section 5800) of Division 1 of the Revenue and Taxation Code, and not installed on foundation systems pursuant to Section 18551, shall be subject to registration only at the time of sale, resale, or transfer of title.

(b) Manufactured homes, mobilehomes, and commercial coaches installed or to be installed on foundation systems pursuant to Section 18551 shall be exempt from registration so long as they remain affixed to the foundation system. In the event that the manufactured home, mobilehome, or commercial coach, is removed from a foundation system for any purpose other than dismantling or reinstallation on a foundation system, it shall be immediately subject to registration with the department.

(c) A nonresident owner of a foreign manufactured home or mobilehome otherwise subject to registration under this code may, subject to exceptions and special provisions contained in this chapter, occupy or permit occupancy of the manufactured home or mobilehome within this state without registering the manufactured

home or mobilehome in, or paying any fees to, this state, subject to the condition that the manufactured home or mobilehome at all times, when occupied in this state, is duly registered in the place of residence of the owner and displays on the manufactured home or mobilehome a valid registration issued for that manufactured home or mobilehome in the place of residence of the owner.

For the purposes of the exceptions and special provisions of this part, a registration issued by any foreign jurisdiction shall be deemed to be valid for not more than one year from the date of initial use in this state.

(d) Any nonresident owner of a foreign manufactured home or mobilehome who is a member of the armed forces of the United States on active duty within this state shall be entitled to the exemption granted under subdivision (c) under the conditions set forth therein. Any member of the armed forces, whether a resident or nonresident, shall also be entitled to exemption from registration with respect to a manufactured home or mobilehome owned by the person upon which there is displayed a valid registration issued for the manufactured home or mobilehome in a foreign jurisdiction where the owner was regularly assigned and stationed for duty by competent military orders at the time the registration was issued. Competent military orders shall not include military orders for leave, for temporary duty, nor for any other assignment of any nature requiring the owner's presence outside the foreign jurisdiction where the owner was regularly assigned and stationed for duty.

(e) Any nonresident owner of a manufactured home or mobilehome of a type subject to registration in this state who, while temporarily living within this state, accepts gainful employment within this state shall be entitled to the exemption granted under subdivision (c), but only until the expiration of the valid home state registration on the manufactured home or mobilehome which was in effect at the time the nonresident accepted gainful employment within this state.

(f) Any nonresident owner of a manufactured home or mobilehome of a type subject to registration under this part who becomes a legal resident of this state shall be entitled to the exemption granted under subdivision (c), but only until the expiration of the valid home state registration on the manufactured home or mobilehome which was in effect at the time the owner became a resident of this state.

(g) Any person who enters California for the purpose of establishing or reestablishing residence or accepting gainful employment following his or her discharge from the armed forces of this country may occupy a manufactured home or mobilehome owned by that person at the time of his or her discharge and registered to him or her in a foreign jurisdiction where his or her military orders required his or her presence without registering the manufactured home or mobilehome in this state until the expiration of the registration period current at the time of his or her discharge

and entrance into California.

(h) Any new and previously unregistered, unoccupied manufactured home, mobilehome, or commercial coach which is part of an inventory held for sale by a manufacturer or dealer in the course of business.

The department may adopt regulations for exempting additional classes of manufactured homes, mobilehomes, and commercial coaches from registration under a temporary or one-trip permit system which permits the lawful transportation and use of manufactured homes, mobilehomes, and commercial coaches not otherwise subject to registration.

SEC. 6. Section 18075.6 is added to the Health and Safety Code, to read:

18075.6. Unless installed on a foundation system pursuant to Section 18551, any manufactured home, mobilehome, or commercial coach used as an office at a manufacturer's, distributor's, or dealer's established place of business is subject to registration by the department.

SEC. 7. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 200

An act to amend Sections 408, 408.2, 481, 19052, and 26072 of the Revenue and Taxation Code, relating to taxation.

(a) Except as otherwise provided in subdivisions (b) and (c), any information and records in the assessor's office which are not required by law to be kept or prepared by the assessor, and homeowners' exemption claims, are not public documents and shall not be open to public inspection. Property receiving the homeowners' exemption shall be clearly identified on the assessment roll. The assessor shall maintain records which shall be open to public inspection to identify those claimants who have been granted the homeowners' exemption.

(b) The assessor may provide any appraisal data in his or her possession to the assessor of any county and shall provide any market

data in his or her possession to an assessee of property or his or her designated representative upon request. The assessor shall permit an assessee of property or his or her designated representative to inspect at the assessor's office any information and records, whether or not required to be kept or prepared by the assessor, relating to the appraisal and the assessment of his or her property. Except as provided in Section 408.1, an assessee or his or her designated representative, however, shall not be provided or permitted to inspect information and records, other than market data, which also relate to the property or business affairs of another person, unless that disclosure is ordered by a competent court in a proceeding initiated by a taxpayer seeking to challenge the legality of his or her assessment.

(c) The assessor shall disclose information, furnish abstracts, or permit access to all records in his or her office to law enforcement agencies, the county grand jury, the board of supervisors or their duly authorized agents, employees or representatives when conducting an investigation of the assessor's office pursuant to Section 25303 of the Government Code, the Controller, inheritance tax referees, employees of the Franchise Tax Board for tax administration purposes only, staff appraisers of the Department of Transportation, the State Board of Equalization, and other duly authorized legislative or administrative bodies of the state pursuant to their authorization to examine the records. Whenever the assessor discloses information, furnishes abstracts, or permits access to records in his or her office to staff appraisers of the Department of Transportation pursuant to this section, the department shall reimburse the assessor for any costs incurred as a result thereof.

(d) For purposes of this section, "market data" means any information in the assessor's possession, whether or not required to be prepared or kept by him or her, relating to the sale of any property comparable to the property of the assessee, if the assessor bases his or her assessment of the assessee's property, in whole or in part, on that comparable sale or sales. The assessor shall provide the names of the seller and buyer of each property on which the comparison is based, the location of that property, the date of the sale, and the consideration paid for the property, whether paid in money or otherwise, but for purposes of providing market data, the assessor shall not display any document relating to the business affairs or property of another.

SEC. 2. Section 408.2 of the Revenue and Taxation Code is amended to read:

408.2. (a) Except as otherwise provided in Sections 451 and 481 of this code and in Section 6254 of the Government Code, any information and records in the assessor's office which are required by law to be kept or prepared by the assessor, other than homeowners' exemption claims, are public records and shall be open to public inspection. Property receiving the homeowners' exemption shall be clearly identified on the assessment roll. The assessor shall

maintain records which shall be open to public inspection to identify those claimants who have been granted the homeowners' exemption.

(b) The assessor may provide any appraisal data in his or her possession to the assessor of any county and shall provide any market data in his or her possession to an assessee of property or his or her designated representative upon request. The assessor shall permit an assessee of property or his or her designated representative to inspect at the assessor's office any information and records, whether or not required to be kept or prepared by the assessor, relating to the appraisal and the assessment of his or her property. Except as provided in Section 408.1, an assessee or his or her designated representative, however, shall not be provided or permitted to inspect information and records, other than market data, which also relate to the property or business affairs of another person, unless that disclosure is ordered by a competent court in a proceeding initiated by a taxpayer seeking to challenge the legality of his or her assessment.

(c) The assessor shall disclose information, furnish abstracts, or permit access to all records in his or her office to law enforcement agencies, the county grand jury, the board of supervisors or their duly authorized agents, employees or representatives when conducting an investigation of the assessor's office pursuant to Section 25303 of the Government Code, the Controller, probate referees, employees of the Franchise Tax Board for tax administration purposes only, the State Board of Equalization, and other duly authorized legislative or administrative bodies of the state pursuant to their authorization to examine the records.

(d) For purposes of this section, "market data" means any information in the assessor's possession, whether or not required to be prepared or kept by him or her, relating to the sale of any property comparable to the property of the assessee, if the assessor bases his or her assessment of the assessee's property, in whole or in part, on that comparable sale or sales. The assessor shall provide the names of the seller and buyer of each property on which the comparison is based, the location of that property, the date of the sale, and the consideration paid for the property, whether paid in money or otherwise, but for purposes of providing market data, the assessor shall not display any document relating to the business affairs or property of another.

(e) This section shall apply only to a county with a population which exceeds 4,000,000.

SEC. 3. Section 481 of the Revenue and Taxation Code is amended to read:

19052. (a) Except as provided in subdivision (b), if the Franchise Tax Board determines that the taxpayer paid an amount not required to be paid under this part, the Franchise Tax Board without obtaining the approval of the State Board of Control, shall set forth that fact in its records and may either credit the amount on any amounts then due and payable under this part from the taxpayer by whom the amount was paid or refund the amount or the balance to the taxpayer or his or her successors, administrators, or executors.

(b) No refund exceeding fifty thousand dollars ($50,000) shall be allowed or made until approved by the State Board of Control. Notwithstanding the preceding sentence, State Board of Control approval shall not be required with respect to a refund resulting either from withholding, or the payment of estimated tax, or prepayment of taxes during and for the taxable year.

SEC. 5. Section 26072 of the Revenue and Taxation Code is amended to read:

26072. (a) Except as provided in subdivision (b), if the Franchise Tax Board determines that the taxpayer paid an amount not required to be paid under this part, the Franchise Tax Board without obtaining the approval of the State Board of Control, shall set forth that fact in its records and may either credit the amount on any amounts then due and payable under this part from the taxpayer by whom the amount was paid or refund the amount or the balance to the taxpayer or its successors.

SEC. 6. Reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), shall be made from the State Mandates Claims Fund.

CHAPTER 202

(b) No person described in subdivision (a) may apply for deer license tags for the following license year.

CHAPTER 204

An act to amend Section 42311 of the Health and Safety Code, relating to air pollution.

[Approved by Governor July 9, 1985 Filed with Secretary of State July 10, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 42311 of the Health and Safety Code is amended to read:

42311. (a) A district board may adopt, by regulation, a schedule of annual fees to be paid for the evaluation, issuance, and renewal of permits to cover the cost of district programs related to permitted stationary sources authorized or required under this division that are not otherwise funded. In no event shall the fees assessed under this section exceed, for any fiscal year, the actual cost of district programs for the immediately preceding fiscal year with an adjustment no greater than the change in the annual California Consumer Price Index, as determined pursuant to Section 2212 of the Revenue and Taxation Code, for the preceding year. Any revenues received by the

district pursuant to the fees, which exceed the cost of the programs, shall be carried over for expenditure in the subsequent fiscal year, and the schedule of fees shall be changed to reflect that carryover. Every person applying for a permit, notwithstanding Section 6103 of the Government Code, shall pay the fees required by the schedule.

(b) In addition to the fees authorized by subdivision (a), the district board may adopt, by regulation, a fee schedule for district programs related to permitted stationary sources for fiscal years ending before July 1, 1986, which allows the district to offset the loss of any state and federal subvention funds. In no event shall the total amount raised by this fee schedule exceed the amount of funds lost from state and federal subventions.

(c) Except as provided in Section 42313, all the fees shall be paid to the district treasurer to the credit of the district.

(d) This section does not apply to the south coast district board which is governed by Section 40510.

(e) In addition to providing notice as otherwise required, before adopting a regulation charging fees pursuant to this section, the district board shall hold at least one public meeting, at which oral or written presentations can be made, as part of a regularly scheduled meeting. Notice of the time and place of the meeting, including a general explanation of the matter to be considered, and a statement that the information required by this section is available, shall be mailed at least 14 days prior to the meeting to any interested party who files a written request with the district board. Any written request for the mailed notices shall be valid for one year from the date on which it is filed unless a renewal request is filed. Renewal requests for the mailed notices shall be filed on or before April 1 of each year. The district board may establish a reasonable annual charge for sending the notices based on the estimated cost of providing that service. At least 10 days prior to the meeting, the district board shall make available to the public information indicating the amount of cost, or estimated cost, required to provide the service for which the fee is charged and the revenue sources anticipated to provide the service. Any costs incurred by the district board in conducting the required meeting may be recovered from fees charged for the programs which were the subject of the meeting.

(f) The Legislature finds and declares that, because districts vary greatly in their dependence on state and federal subvention programs, county and district property tax support, and permit fees, it is necessary to provide a transition period to develop an equitable funding mechanism for local districts. Subdivision (b) accordingly authorizes districts to adopt certain fee schedules only for fiscal years ending before July 1, 1986, unless a later enacted statute deletes or extends this date.

(g) In addition to any other fees authorized by this section, a district board may adopt, by regulation, a schedule of annual fees to be assessed against permitted nonvehicular sources emitting toxic air

contaminants identified pursuant to the procedure set forth in Sections 39660, 39661, and 39662. A district board shall demonstrate that the fees assessed under this subdivision do not exceed the reasonable, anticipated costs of funding district activities mandated by Section 39666 related to nonvehicular source emissions. In making the demonstration, the district shall account for all direct and indirect costs of district activities related to each toxic air contaminant. If the district does not make this demonstration, it shall make reimbursement for that portion of the fee not determined to be reasonable.

CHAPTER 205

An act to amend Sections 51350 and 51360 of the Health and Safety Code, relating to housing, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

or entered into on behalf of the agency with respect to its bonds or its benefits, or the security of the holders of the bonds.

(c) Except as provided in subdivisions (d), (e), (f), and (g), the aggregate principal amount of bonds which may be outstanding at any time pursuant to this part shall not exceed seven hundred fifty million dollars ($750,000,000), exclusive of the principal indebtedness of bonds issued to refund or renew previously issued bonds of the agency, to the extent of the outstanding principal indebtedness of the previously issued bonds and any redemption premium thereon and any interest accrued or to accrue to the date of redemption of the bonds, during the period in which both the previously issued bonds and the refunding or renewal bonds are outstanding.

(d) Effective January 1, 1980, the aggregate principal amount of bonds which may be outstanding at any time pursuant to this part shall be increased by seven hundred fifty million dollars ($750,000,000), exclusive of (1) bonds previously authorized pursuant to subdivision (c), and (2) the principal indebtedness of bonds issued to refund or renew bonds of the agency previously issued under the authority of this subdivision, but only to the extent of the outstanding principal indebtedness of the previously issued bonds and any redemption premium thereon and any interest accrued or to accrue to the date of redemption of the bonds, during the period in which both the previously issued bonds and such refunding or renewal bonds are outstanding.

(e) Effective January 1, 1983, the aggregate principal amount of bonds which may be outstanding at any time pursuant to this part shall be additionally increased by three hundred fifty million dollars ($350,000,000) exclusive of (1) bonds previously authorized pursuant to subdivision (c) or (d), and (2) the principal indebtedness of bonds issued to refund or renew bonds of the agency previously issued under the authority of this subdivision, but only to the extent of the outstanding principal indebtedness of the previously issued bonds and any redemption premium thereon and any interest accrued or to accrue to the date of the redemption of the bonds, during the period in which both the previously issued bonds and such refunding or renewal bonds are outstanding.

(f) Effective January 1, 1984, the aggregate principal amount of bonds which may be outstanding at any time pursuant to this part shall be additionally increased by five hundred million dollars ($500,000,000) exclusive of (1) bonds previously authorized pursuant to subdivision (c), (d), or (e), and (2) the principal indebtedness of bonds issued to refund or renew bonds of the agency previously issued under the authority of this subdivision, but only to the extent of the outstanding principal indebtedness of the previously issued bonds and any redemption premium thereon and any interest accrued or to accrue to the date of the redemption of the bonds, during the period in which both the previously issued bonds and such refunding or renewal bonds are outstanding.

(g) Effective upon the effective date of the amendments to this

section amended by the Statutes of 1985, the aggregate principal amount of bonds which may be outstanding at any time pursuant to this part shall be additionally increased by six hundred million dollars ($600,000,000) exclusive of (1) bonds previously authorized pursuant to subdivision (c), (d), (e), or (f), and (2) the principal indebtedness of bonds issued to refund or renew bonds of the agency previously issued under the authority of this subdivision, but only to the extent of the outstanding principal indebtedness of the previously issued bonds and any redemption premium thereon and any interest accrued or to accrue to the date of the redemption of the bonds, during the period in which both the previously issued bonds and such refunding or renewal bonds are outstanding.

SEC. 2. Section 51360 of the Health and Safety Code is amended to read:

51360. (a) There is hereby created a Housing Bond Credit Committee composed of the Governor, the State Controller, the State Treasurer, the Director of Finance, and the executive director of the agency. The State Treasurer shall be the chairperson of the committee. The members of the committee shall serve on the committee without compensation. A majority of the members may act for the committee. Prior to the issuance of any bonds, the board shall submit to the committee a statement of the purpose for which the bonds are proposed to be issued and the amount of the proposed issuance. The committee shall determine the general adequacy of the program's security in protecting the state's credit. If the committee finds the state's credit would be subject to an undue risk, it may disapprove the proposed issuance or reduce the amount of the proposed issuance.

(b) The committee chairperson shall appoint a financial adviser who shall aid the committee in the performance of its duties under this chapter, perform independent financial research and assessment, provide liaison between the committee and the agency, and perform any other duties as may be required by the committee.

The agency shall reimburse the committee for any compensation paid by the committee to the financial adviser.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The California Housing Finance Agency needs an authorization to issue additional bonds to finance housing developments. In order to provide that authority as soon as possible, this bill must take effect immediately.

CHAPTER 206

An act to amend Section 42005 of the Vehicle Code, relating to vehicles, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 9, 1985 Filed with Secretary of State July 10, 1985.]

The people of the State of California do enact as follows:

Notwithstanding Section 13340 of the Government Code, all money transferred to the Fish and Game Preservation Fund, under this article, is hereby continuously appropriated to the Department of Fish and Game for the purposes specified in Section 1771 of the Fish and Game Code, and is subject to review by the budget committees of the Legislature.

[Approved by Governor July 9, 1985 Filed with Secretary of State July 10, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 18930 of the Health and Safety Code is amended to read:

18930. (a) Any building standard adopted by state agencies shall be submitted to and approved by the State Building Standards Commission prior to codification. Prior to submission to the commission, building standards which are adopted by state agencies shall be adopted in compliance with the procedures specified in Article 5 (commencing with Section 11346) of Chapter 3.5 of Part 1 of Division 3 of Title 2 of the Government Code. Building standards adopted by state agencies and submitted to the commission for approval shall be accompanied by an analysis written by the adopting agency which shall, to the satisfaction of the commission, justify the approval of the building standards in terms of the following criteria:

(1) The proposed building standard does not conflict with, overlap, or duplicate other building standards.

(2) The proposed building standard is within the parameters established by enabling legislation and is not expressly within the exclusive jurisdiction of another agency.

(3) The public interest requires the adoption of the building standards.

(4) The proposed building standard is not unreasonable, arbitrary, unfair, or capricious, in whole or in part.

(5) The cost to the public is reasonable based on the overall benefit to be derived from such building standards.

(6) The proposed building standard is not unnecessarily ambiguous or vague, in whole or in part.

(7) The applicable national specifications, published standards, and model codes have been incorporated therein as provided in this part, where appropriate.

(8) The format of the proposed building standards is consistent with that adopted by the commission.

(9) The proposed building standard, if intended to promote fire and panic safety, has the written approval of the State Fire Marshal.

(b) In reviewing building standards submitted for its approval, the commission shall consider only the following:

(1) Except as provided in subdivision (b) of Section 11342.3 of the Government Code, the record of the proceedings of the adopting agency.

(2) The evidence submitted to and considered by the adopting agency.

(c) The commission shall give great weight to the determinations and analysis of the adopting agency on each of the criteria for approval set forth in subdivision (a). Any factual determinations of the adopting agency shall be considered conclusive by the commission unless the commission specifically finds, and sets forth its reasoning in writing, that such factual determination is arbitrary and capricious or substantially unsupported by the evidence considered by the adopting agency.

Whenever the commission makes such a finding, it shall return the standard to the adopting agency for a reexamination of its original determination of the disputed fact.

(d) Whenever a building standard is principally intended to protect the public health and safety, its adoption shall not be a "factual determination" for purposes of subdivision (c). Whenever a building standard is principally intended to conserve energy or other natural resources, the commission shall consider or review the cost to the public or benefit to be derived as a "factual determination" pursuant to subdivision (c). Whenever a building standard is intended to promote fire and panic safety, the commission shall, unless adopted by the State Fire Marshal, submit the building standard to the State Fire Marshal for prior approval.

(e) Whenever the commission finds, pursuant to paragraph (2) of subdivision (a) that a building standard is adopted by an adopting agency pursuant to statutes requiring adoption of such building standard, the commission shall not consider or review whether such adoption is in the public interest pursuant to paragraph (3) of subdivision (a).

SEC. 2. Section 18938 of the Health and Safety Code is amended to read:

18938. (a) Building standards shall be filed with the Secretary of State and codified only after they have been approved by the commission and shall not be published in any other title of the California Administrative Code. Emergency standards shall be filed with the Secretary of State and shall take effect only after they have been approved by the commission as required by Section 18937. The filing of building standards adopted or approved pursuant to this part, or any certification with respect thereto, with the Secretary of State, or elsewhere as required by law, shall be done solely by the commission.

(b) If a regulation is determined to be a building standard, it shall only become effective upon its codification in the triennial edition of the State Building Standards Code or one of its supplements, or at any later date as approved by the Building Standards Commission.

(c) This section shall not be applicable to the time limits set forth in Sections 17922 and 17958 for approval of uniform codes and for changes by local agencies in the State Building Standards Code.

18253. The Legislature finds and declares that the specific requirements relating to construction, maintenance, occupancy, use, and design of mobilehome parks are best developed by the department in accordance with the criteria established by this part. Placing this responsibility with the department will allow for modifications of specific requirements in a rapid fashion and in a manner responsive to the needs of mobilehome park residents and owners.

SEC. 4. Section 18254 of the Health and Safety Code is amended to read:

18254. (a) It is the purpose of this part to accomplish both of the following:

(1) Assure protection of the health, safety, and general welfare of mobilehome park residents.

(2) Allow modifications in regulations adopted pursuant to this part in a manner consistent with the criteria established in this part.

(b) The regulations adopted by the department pursuant to the authority granted in this part shall provide equivalent or greater protection to residents of mobilehome parks than the statutes and regulations in effect prior to January 1, 1978.

SEC. 5. Section 18300 of the Health and Safety Code, as amended by Section 107 of Chapter 1076 of the Statutes of 1983, is amended to read:

18300. (a) This part applies to all parts of the state and supersedes any ordinance enacted by any city, county, or city and county, whether general law or chartered, applicable to this part. (c) The department shall adopt regulations which set forth the conditions for assumption and may include required qualifications of local enforcement agencies. The conditions set forth and the qualifications required in the regulations which set forth the conditions for assumption shall relate solely to the ability of local agencies to enforce properly this part and the regulations adopted pursuant to this part. The regulations which set forth the conditions for assumption shall not set requirements for local agencies different than those which the state maintains for its own enforcement program. When assumption is approved, the department shall transfer the responsibility for enforcement to the city, county, or city and county, together with all records of mobilehome parks within the jurisdiction of the city, county, or city and county.

(d) (1) In the event of nonenforcement of this part or the regulations adopted pursuant to this part by a city, county, or city and county, the department shall enforce this part and the regulations adopted pursuant to this part in the city, county, or city and county after the department has given written notice to the governing body of the city, county, or city and county setting forth in what respects the city, county, or city and county has failed to discharge its responsibility, and the city, county, or city and county has failed to initiate corrective measures to carry out its responsibility within 30 days of the notice.

(2) Where the department determines that the local enforcement agency is not properly enforcing this part, the local enforcement agency shall have the right to appeal the decision to the director of the department.

(f) Every city, county, or city and county, within its jurisdiction, shall enforce this part and the regulations adopted pursuant to this part, as they relate to manufactured homes or mobilehomes and to mobilehome accessory buildings or structures located outside of mobilehome parks.

(g) This part shall not prevent local authorities of any city, county, or city and county, within the reasonable exercise of their police powers, from doing any of the following:

(1) From establishing, subject to the requirements of Sections 65852.3 and 65852.7 of the Government Code, certain zones for manufactured homes, mobilehomes, or mobilehome parks, recreational vehicle parks, temporary recreational vehicle parks, or tent camps within the city, county, or city and county, or establishing types of uses and locations, including family mobilehome parks, adult mobilehome parks, mobilehome condominiums, mobilehome

(2) From regulating the construction and use of equipment and facilities located outside of a manufactured home, mobilehome, or recreational vehicle used to supply gas, water, or electricity thereto, except facilities owned, operated, and maintained by a public utility, or to dispose of sewage or other waste therefrom when the facilities are located outside a mobilehome park, recreational vehicle park, or temporary recreational vehicle park for which a permit is required by this part or the regulations adopted pursuant thereto.

(3) From requiring a permit to use a manufactured home, mobilehome, or recreational vehicle outside a mobilehome park, recreational vehicle park, or temporary recreational vehicle park for which a permit is required by this part or by regulations adopted pursuant thereto, and require a fee therefor by local ordinance commensurate with the cost of enforcing this part and local ordinance with reference to the use of manufactured homes, mobilehomes, and recreational vehicles, which permit may be refused or revoked if the use violates this part or Part 2 (commencing with Section 18000), any regulations adopted pursuant thereto, or any local ordinance applicable to that use.

(h) (1) A city, including a charter city, county, or city and county, shall not require the average density in a new mobilehome park to be less than that permitted by the applicable zoning ordinance, plus any density bonus, as defined in Section 65915 of the Government Code, for other affordable housing forms.

(2) A city, including a charter city, county, or city and county, shall not require a new mobilehome park to include a clubhouse. Recreational facilities, recreational areas, accessory structures, or improvements may be required only to the extent that the facilities or improvements are required in other types of residential developments containing a like number of residential dwelling units.

(i) This section shall remain in effect only until January 1, 1988, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1988, deletes or extends that date.

The conditions set forth and the qualifications required in the regulations which set forth the conditions for assumption shall relate solely to the ability of local agencies to enforce properly the this part and the regulations promulgated pursuant to this part. The regulations which set forth the conditions for assumption shall not set requirements for local agencies different than those which the state maintains for its own enforcement program. When assumption is approved, the department shall transfer the responsibility for enforcement to the city, county, or city and county, together with all records of mobilehome parks within the jurisdiction of the city, county, or city and county.

(d) (1) In the event of nonenforcement of this part or the regulations adopted pursuant to this part by a city, county, or city and county, the department shall enforce this part and the regulations adopted pursuant to this part in any city, county, or city and county after the department has given written notice to the governing body of the city, county, or city and county setting forth in what respects the city, county, or city and county has failed to discharge its responsibility, and the city, county, or city and county has failed to initiate corrective measures to carry out its responsibility within 30 days of the notice.

(f) Every city, county, or city and county, within its jurisdiction, shall enforce this part and the regulations adopted pursuant to this part, as they relate to manufactured homes, mobilehomes, and to manufactured home or mobilehome accessory buildings or

structures located outside of mobilehome parks.

(g) This part shall not prevent local authorities of any city, county, or city and county, within the reasonable exercise of their police powers, from doing any of the following:

(1) From establishing, subject to the requirements of Section 65852.3 of the Government Code, certain zones for manufactured homes or mobilehomes or mobilehome parks, recreational vehicle parks, temporary recreational vehicle parks, or tent camps within the city, county, or city and county, or establishing types of uses and locations, including family mobilehome parks, adult mobilehome parks, mobilehome condominiums, mobilehome subdivisions, or mobilehome planned unit developments within the city, county, or city and county, as defined in the zoning ordinance, or from adopting rules and regulations by ordinance or resolution prescribing standards of lot, yards, or park area, landscaping, walls or enclosures, signs, access, and vehicle parking or from prescribing the prohibition of certain uses for mobilehome parks, recreational vehicle parks, temporary recreational vehicle parks, or tent camps.

(2) From regulating the construction and use of equipment and facilities located outside of a manufactured home, mobilehome, or recreational vehicle used to supply gas, water, or electricity thereto, except facilities owned, operated, and maintained by a public utility, or to dispose of sewage or other waste therefrom when the facilities are located outside a mobilehome park, recreational vehicle park, or temporary recreational vehicle park for which a permit is required by this part, or the regulations adopted pursuant thereto.

(3) From requiring a permit to use a mobilehome or recreational vehicle outside a mobilehome park, recreational vehicle park, or temporary recreational vehicle park for which a permit is required by this part or by regulations adopted pursuant thereto, and require a fee therefor by local ordinance commensurate with the cost of enforcing this part and local ordinance with reference to the use of mobilehomes and recreational vehicles, which permit may be refused or revoked if the use violates this part or Part 2 (commencing with Section 18000), any regulations adopted pursuant thereto, or any local ordinance applicable to that use.

SEC. 3. Section 11589.5 is added to the Insurance Code, to read:

11589.5. No insurer who provides professional liability insurance for persons licensed under the provisions of Part 1 (commencing with Section 10000) of Division 4 of the Business and Professions Code shall exclude from coverage under that policy liability arising from the breach of the duty of the licensee arising under Article 2 (commencing with Section 2079) of Chapter 3 of Title 6 of Part 4 of Division 3 of the Civil Code. Notwithstanding the foregoing, an insurer may exclude coverage against liability arising out of a dishonest, fraudulent, criminal, or malicious act, error, or omission committed by, at the direction of, or with the knowledge of the insured.

For the purposes of this section, "professional liability insurance" means insurance against liability for damages caused by any act or omission of a real estate licensee in rendering professional services in this state.

SEC. 4. It is the intent of the Legislature that this act codify and make precise the holding in Easton v. Strassburger (152 Cal. App. 3d 90). The Legislature finds that the imprecision of terms in the Easton case and the absence of a comprehensive declaration of duties, standards, and exceptions has caused insurers to modify professional liability coverage of real estate licensees and has caused confusion among real estate licensees as to the manner of performing the duty ascribed to them by the court, and that it is necessary to resolve and make precise these issues in an expeditious manner. The Legislature

finds that it is desirable to facilitate the issuance of professional liability insurance as a resource for aggrieved members of the public, and declares that the provisions of this act are, and shall be interpreted as, a definition of the duty of care found to exist by Easton v. Strassburger, and the manner of its discharge.

CHAPTER 224

The people of the State of California do enact as follows:

SECTION 1. Section 3289.5 is added to the Civil Code, to read:

3289.5. For purposes of Section 3289, the rate of the contracted finance charge shall be the legal rate of interest stipulated by a retail installment contract subject to Chapter 1 (commencing with Section 1801) of Title 2 of Part 4 of Division 3.

CHAPTER 225

An act to amend Sections 1642, 1642.3, 1642.9, 1643.3 and 22834 of the Elections Code, relating to elections.

[Approved by Governor July 12, 1985. Filed with Secretary of State July 12, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 1642 of the Elections Code is amended to read:

1642. The county clerk shall also publish the list of the polling places designated for each election precinct, followed by the list of names of precinct board members appointed. The list of names of precinct board members need not be published in precinct order, at the discretion of the county clerk. Publication shall be pursuant to Section 6061 of the Government Code in the county where the election is to be held and in any newspaper of general circulation designated by the county clerk.

SEC. 2. Section 1642.3 of the Elections Code is amended to read:

1642.3. (a) Following the notification of the precinct board members appointed pursuant to Section 1641, the county clerk shall mail or deliver to the county central committee of each qualified political party a copy of the list, and the clerk may notify the same

committee of any substitute appointments that are made until the time the notice of final order is sent to the precinct inspector. This list shall have the names of precinct board members in precinct order.

(b) In addition, the clerk shall make available a copy of the list prescribed in subdivision (a) to any person requesting a copy.

Any person requesting a copy of the list shall sign a roster specifying his or her name, telephone number, and address and shall provide the clerk with adequate personal identification.

SEC. 3. Section 1642.9 of the Elections Code is amended to read:

1642.9. In each county where the county clerk determines that the public interest, convenience, and necessity require the local publication of the list of the names of precinct board members appointed and polling places designated for each election precinct in order to afford adequate notice of this subject to the electorate, publication of this list shall be made as provided in this section and Section 1643.

After such determination, the county clerk shall divide and distribute the list of precinct board members and polling places and cause the same to be published in newpapers of general circulation published in different places in the county as hereinafter provided, the publication to be at least one week before the day of election. The list of precinct board members appointed need not be in precinct order for purposes of publication, at the discretion of the county clerk.

Divisions of the list of names of the precinct board members and polling places may be published in that daily newspaper of general circulation published or circulated in one or more cities in the county, with the exception of the county seat, which it is determined will give to the electorate in each city adequate notice of the election. If there is no daily newspaper, publication may be made in a semiweekly newspaper, a triweekly newspaper, or a weekly newspaper of general circulation which it is determined will give the electorate in the city adequate notice of the election.

The list of names of the precinct board members appointed and polling places designated for various portions of the unincorporated area of the county and of the county seat may be published in those daily, semiweekly, triweekly, or weekly newspapers of general circulation published or circulated within the various portions of the unincorporated area and the county seat, deemed by the county clerk to be those newspapers which will give adequate notice of the election to the voters of the respective portions of the unincorporated area and the county seat.

SEC. 4. Section 1643.3 of the Elections Code is amended to read:

1643.3. In any case where the provisions of this chapter require the publication or distribution of a list of the names of precinct board members, or a portion of the list, the officers charged with the duty of publication shall ascertain the name of the political party, if any, with which each such precinct board member is affiliated, as shown

in the affidavit of registration of such person. When the list is published or distributed there shall be printed the name of the board member's party or an abbreviation of the name to the right of the name, or immediately below the name, of each such precinct board member. If a precinct board member is not affiliated with a political party, the words "No party," "Nonpartisan," or "Decline to state" shall be printed in place of the party name.

SEC. 5. Section 22834 of the Elections Code is amended to read:

22834. Not later than 20 days prior to any municipal election, the city clerk shall publish the list of the polling places designated for each election precinct. This list shall be followed by the list of names of election officers appointed. The list of names of election officers need not be published in precinct order, at the discretion of the city clerk. Publication shall be in the city and pursuant to Section 6061 of the Government Code. If there is no newspaper of general circulation published and circulated in the city, the list shall be typewritten and copies shall be posted conspicuously within the time prescribed in at least three public places in the city. CHAPTER 226

An act to amend Sections 2982.5, 2983.2, and 2983.3 of the Civil Code, to amend Sections 22005 and 24005 of, and to add Sections 22465, 22465.5, 24465, and 24465.5 to, the Financial Code, relating to loans.

[Approved by Governor July 12, 1985 Filed with Secretary of State July 12, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 2982.5 of the Civil Code is amended to read:

2982.5. (a) Nothing contained in this chapter shall be deemed to affect a loan, or the security therefor, between a purchaser of a motor vehicle and a supervised financial organization, other than the seller of the motor vehicle, all or a portion of which loan is used in connection with the purchase of a motor vehicle. As used herein "supervised financial organization" means a person organized, chartered, or holding a license or authorization certificate under a law of this state or the United States to make loans and subject to supervision by an official or agency of this state or the United States.

(b) Nothing in this chapter shall be deemed to prohibit the seller's assisting the buyer in obtaining a loan upon any security from any third party to be used as a part or all of the downpayment or any other payment on a conditional sale contract or purchase order; provided that the conditional sale contract sets forth on its face the amount of the loan, the finance charge, the total thereof, the number of installments scheduled to repay the loan and the amount of each installment, that the buyer may be required to pledge security for the loan, which security must be mutually agreed to by the buyer and the lender and notice to the buyer in at least eight-point type that he or she is obligated for the installment payments on both the conditional sale contract and the loan. The seller shall not provide any security or other guarantee of payment on the loan, nor shall the seller receive any commission or other remuneration for assisting the buyer to obtain the loan. If the buyer obligates himself to purchase, or receives possession of, the motor vehicle prior to securing the loan, and if the buyer upon appropriate application for the loan is unable to secure the loan, on the conditions stated in the conditional sale contract, the conditional sale contract or purchase order shall be deemed rescinded and all consideration thereupon shall be returned by the respective parties without demand.

(c) The proceeds of any such loan payable to the seller after the date of the contract but prior to the due date of the second payment otherwise scheduled thereunder shall not be subject to a finance charge and the amount thereof shall be disclosed pursuant to subparagraph (B) of paragraph (6) of subdivision (a) of Section 2982.

(d) Nothing in this chapter shall be deemed to prohibit the seller's

assisting the buyer in obtaining a loan from any third party to be used to pay for the full purchase price, or any part thereof, of a motor vehicle provided that each of the following provisions shall apply:

(1) The loan may be upon any security, but except as provided in paragraph (2), the loan shall not be secured in whole or in part by a lien on real property. Any lien on real property taken in violation of this section shall be void and unenforceable.

(2) A lien on real property may be taken to secure a loan of seven thousand five hundred dollars ($7,500) or more used to pay the full purchase price, or any part thereof, of a recreational vehicle, as defined in Section 18010 of the Health and Safety Code, which is not less than 20 feet in length.

(3) The provisions of Sections 2983.2, 2983.3, and 2984.4 shall apply to the loan, but shall not authorize the lender or the lender's successor in interest to charge for any costs, fees, or expenses or to obtain any other benefit which the lender is prohibited from charging or obtaining under any regulatory law applicable to the lender. Notwithstanding this paragraph, the provisions of Sections 2983.2 and 2983.3 shall not apply to a loan made by a lender licensed under Division 9 (commencing with Section 22000) or Division 10 (commencing with Section 24000) of the Financial Code.

(4) The lender or the lender's successor in interest shall be subject to all claims and defenses which the buyer could assert against the seller, but liability may not exceed the amount of the loan.

(5) If the buyer becomes obligated to purchase, or receives possession of, the motor vehicle prior to obtaining the loan, the agreement between the buyer and the seller shall set forth on its face the amount of the loan, the finance charge, the total thereof, the number of installments scheduled to repay the loan and the amount of each installment, that the buyer may be required to pledge security for the loan, which security must be mutually agreed to by the buyer and the lender, and notice to the buyer in at least eight-point type that the buyer is obligated for the installment payments on the loan and for any payments which may be due on the agreement between the buyer and the seller. The seller shall not provide any security or other guarantee of payment on the loan, and the seller shall not receive any commission or other remuneration for assisting the buyer to obtain the loan. If the buyer upon proper application for the loan is unable to obtain the loan, on the condition stated in the agreement between the buyer and the seller, the agreement shall be deemed rescinded and all consideration thereupon shall be returned by the respective parties without demand.

(6) Any waiver by the buyer of the provisions of this section shall be void and unenforceable.

This subdivision shall not apply to state or federally chartered banks and savings and loan associations and shall not be construed to affect existing law regarding a seller's assisting a buyer to obtain a loan from a bank or savings and loan association or any loan obtained

by the buyer from those lenders.

SEC. 2. Section 2983.2 of the Civil Code is amended to read:

2983.2. (a) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, at least 15 days' written notice of intent to dispose of a repossessed or surrendered motor vehicle must be given to all persons liable on the contract. The notice shall be personally served or shall be sent by certified mail, return receipt requested, or first-class mail, postage prepaid, directed to the last known address of the persons liable on the contract. Except as otherwise provided in Section 2983.8, those persons shall be liable for any deficiency after disposition of the repossessed or surrendered motor vehicle only if the notice prescribed by this section is given within 60 days of repossession or surrender and does all of the following:

(1) Sets forth that those persons shall have a right to redeem the motor vehicle by paying in full the indebtedness evidenced by the contract until the expiration of 15 days from the date of giving or mailing the notice and provides an itemization of the contract balance and of any deliquency, collection or repossession costs and fees and sets forth the computation or estimate of the amount of any credit for unearned finance charges or canceled insurance as of the date of the notice.

(2) States either that there is a conditional right to reinstate the contract until the expiration of 15 days from the date of giving or mailing the notice and all the conditions precedent thereto or that there is no right of reinstatement and provides a statement of reasons therefor.

(3) States that, upon written request, the seller or holder shall extend for an additional 10 days the redemption period or, if entitled to the conditional right of reinstatement, both the redemption and reinstatement periods. The seller or holder shall provide the proper form for applying for the extensions with the substance of the form being limited to the extension request, spaces for the requesting party to sign and date the form, and instructions that it must be personally served or sent by certified or registered mail, return receipt requested, to a person or office and address designated by the seller or holder and received before the expiration of the initial redemption and reinstatement periods.

(4) Discloses the place at which the motor vehicle will be returned to those persons upon redemption or reinstatement.

(5) Designates the name and address of the person or office to whom payment shall be made.

(6) States the seller's or holder's intent to dispose of the motor vehicle upon the expiration of 15 days from the date of giving or mailing the notice, or if by mail and either the place of deposit in the mail or the place of address is outside of this state, the period shall be 20 days instead of 15 days, and further, that upon written request to extend the redemption period and any applicable reinstatement period for 10 days, the seller or holder shall without further notice

extend the period accordingly.

(7) Informs such persons that upon written request, the seller or holder shall furnish a written accounting regarding the disposition of the motor vehicle as provided for in subdivision (b). The seller or holder shall advise them that such request must be personally served or sent first-class mail, postage prepaid, or certified mail, return receipt requested, to a person or office and address designated by the seller or holder.

(8) Includes notice, in at least 10-point bold type if the notice is printed, reading as follows: "NOTICE. YOU MAY BE SUBJECT TO SUIT AND LIABILITY IF THE AMOUNT OBTAINED UPON DISPOSITION OF THE VEHICLE IS INSUFFICIENT TO PAY THE CONTRACT BALANCE AND ANY OTHER AMOUNTS DUE."

(b) Unless automatically provided to the buyer within 45 days after the disposition of the motor vehicle, the seller or holder shall provide to any person liable on the contract within 45 days after their written request, if the request is made within one year after the disposition, a written accounting regarding the disposition. The accounting shall itemize:

(1) The gross proceeds of the disposition.

(2) The reasonable and necessary expenses incurred for retaking, holding, preparing for and conducting the sale and to the extent provided for in the agreement and not prohibited by law, reasonable attorney fees and legal expenses incurred by the seller or holder in retaking the vehicle from any person not a party to the contract.

(3) The satisfaction of indebtedness secured by any subordinate lien or encumbrance on the motor vehicle if written notification of demand therefor is received before distribution of the proceeds is completed. If requested by the seller or holder, the holder of a subordinate lien or encumbrance must seasonably furnish reasonable proof of its interest, and unless it does so, the seller or holder need not comply with its demand.

(c) In all sales which result in a surplus, the seller or holder shall furnish an accounting as provided in subdivision (b) whether or not requested by the buyer. Any surplus shall be returned to the buyer within 45 days after the sale is conducted.

(d) This section shall not apply to a loan made by a lender licensed under Division 9 (commencing with Section 22000) or Division 10 (commencing with Section 24000) of the Financial Code.

SEC. 3. Section 2983.3 of the Civil Code is amended to read:

2983.3. (a) In the absence of default in the performance of any of the buyer's obligations under the contract, the seller or holder may not accelerate the maturity of any part or all of the amount due thereunder or repossess the motor vehicle.

(b) If after default by the buyer, the seller or holder repossesses or voluntarily accepts surrender of the motor vehicle, any person liable on the contract shall have a right to reinstate the contract and the seller or holder shall not accelerate the maturity of any part or

all of the contract prior to expiration of the right to reinstate, unless the seller or holder reasonably and in good faith determines that:

(1) The buyer or any other person liable on the contract by omission or commission intentionally provided false or misleading information of material importance on his or her credit application.

(2) The buyer or any other person liable on the contract in order to avoid repossession has concealed the motor vehicle or removed it from the state; or

(3) The buyer or any other person liable on the contract has committed or threatens to commit acts of destruction, or has failed to take care of the motor vehicle in a reasonable manner, so that the motor vehicle has or may become substantially impaired in value.

(c) Exercise of the right to reinstate the contract shall be limited to once in any 12 months period and twice during the term of the contract.

(d) The provisions of this subdivision shall govern the method by which a contract shall be reinstated with respect to curing events of default which were a ground for repossession or occurred subsequent to repossession.

(1) Where the default is the result of the buyer's failure to make any payment due under the contract, the buyer or any other person liable on the contract shall make the defaulted payments and pay any applicable delinquency charges.

(2) Where the default is the result of the buyer's failure to keep and maintain the motor vehicle free from all encumbrances and liens of every kind, the buyer or any other person liable on the contract shall either satisfy all encumbrances and liens or, in the event the seller or holder satisfies the encumbrances and liens, the buyer or any other person liable on the contract shall reimburse the seller or holder for all reasonable costs and expenses incurred therefor.

(3) Where the default is the result of the buyer's failure to keep and maintain insurance on the motor vehicle, the buyer or any other person liable on the contract shall either obtain the insurance or, in the event the seller or holder has obtained the insurance, the buyer or any other person liable on the contract shall reimburse the seller or holder for premiums paid and all reasonable costs and expenses incurred therefor.

(4) Where the default is the result of the buyer's failure to perform any other obligation under the contract, unless the seller or holder has made a good faith determination that the default is so substantial as to be incurable, the buyer or any other person liable on the contract shall reimburse the seller or holder for all reasonable costs and expenses incurred therefor.

(5) Additionally, the buyer or any other person liable on the contract shall, in all cases, reimburse the seller or holder for all reasonable and necessary collection and repossession costs and fees incurred, including attorney's fees and legal expenses expended in retaking and holding the vehicle.

(e) If the seller or holder denies the right to reinstatement under

subdivision (b) or paragraph (4) of subdivision (d), the seller or holder shall have the burden of proof that the denial was justified in that it was reasonable and made in good faith. If the seller or holder fails to sustain the burden of proof, the seller or holder shall not be entitled to a deficiency.

(f) This section shall not apply to a loan made by a lender licensed under Division 9 (commencing with Section 22000) or Division 10 (commencing with Section 24000) of the Financial Code.

SEC. 4. Section 22005 of the Financial Code is amended to read:

(c) Court costs, excluding attorney's fees, incurred in a suit and recovered against a debtor who defaults on his or her loan.

Amounts received by a licensee from a seller pursuant to this subdivision may not exceed 6 percent of the loan proceeds paid to the seller at the direction of the borrower.

(f) Actual fees not exceeding one hundred fifty dollars ($150) paid in connection with the repossession of a motor vehicle to repossession agencies licensed pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code provided the licensee complies with Sections 22465 and 22465.5.

(1) Sets forth that those persons shall have a right to redeem the motor vehicle by paying in full the indebtedness evidenced by the loan note until the expiration of 15 days from the date of giving or mailing the notice, provides an itemization of the loan balance and of any costs and fees authorized by this division, and sets forth the computation or estimate of the amount of any credit for unearned finance charges or canceled insurance as of the date of the notice.

(2) States either that there is a conditional right to reinstate the loan until the expiration of 15 days from the date of giving or mailing the notice and all the conditions precedent thereto or that there is no right of reinstatement and provides a statement of reasons therefor.

(3) States that, upon written request, the licensee shall extend for an additional 10 days the redemption period or, if entitled to the conditional right of reinstatement, both the redemption and reinstatement periods. The licensee shall provide the proper form for applying for these extensions with the substance of the form being limited to the extension request, spaces for the requesting party to sign and date the form, and instructions that it must be personally served or sent by certified or registered mail, return receipt requested, to a person or office and address designated by the licensee and received before the expiration of the initial redemption and reinstatement periods.

printed, reading as follows: "NOTICE. YOU MAY BE SUBJECT TO SUIT AND LIABILITY IF THE AMOUNT OBTAINED UPON DISPOSITION OF THE VEHICLE IS INSUFFICIENT TO PAY THE LOAN BALANCE AND ANY OTHER AMOUNTS DUE."

(c) Unless automatically provided to the borrower within 45 days after the disposition of the motor vehicle, the licensee shall provide to any person liable on the loan within 45 days after their written request, if the request is made within one year after the disposition, a written accounting regarding the disposition. The accounting shall itemize:

(3) Where the default is the result of the borrower's failure to keep and maintain insurance on the motor vehicle, the borrower or any other person liable on the loan shall either obtain the insurance or, in the event the licensee has obtained the insurance, the borrower or any other person liable on the loan shall reimburse the licensee for premiums paid and all reasonable costs and expenses incurred therefor.

(f) If the licensee denies the right to reinstatement under subdivision (c) or paragraph (4) of subdivision (e), the licensee shall have the burden of proof that the denial was justified in that it was reasonable and made in good faith. If the licensee fails to sustain the burden of proof, the licensee shall not be entitled to a deficiency.

(e) Amounts received by a licensee from a seller, from whom the borrower obtains money, goods, labor, or services on credit, in connection with a transaction under an open end credit program which are paid or deducted from the loan proceeds paid to the seller at the direction of the borrower and which are an obligation of the seller to the licensee for the privilege of allowing the seller to participate in the licensee's open end credit program. Amounts received by a licensee from a seller pursuant to this subdivision may not exceed 6 percent of the loan proceeds paid to the seller at the direction of the borrower.

(f) Actual fees not exceeding one hundred fifty dollars ($150) paid in connection with the repossession of a motor vehicle to repossession agencies licensed pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code provided the licensee complies with Sections 24465 and 24465.5.

SEC. 8. Section 24465 is added to the Financial Code, to read:

24465. (a) This section applies to a loan secured in whole or in part by a lien on a motor vehicle as defined by subdivision (k) of Section 2981 of the Civil Code.

(b) Any provision in any loan contract to the contrary notwithstanding, at least 15 days' written notice of intent to dispose of a repossessed or surrendered motor vehicle must be given to all persons liable on the loan. The notice shall be personally served or shall be sent by certified mail, return receipt requested, or first-class mail, postage prepaid, directed to the last known address of the persons liable on the loan. Except as otherwise provided in Section 2983.8 of the Civil Code, those persons shall be liable for any deficiency after disposition of the repossessed or surrendered motor vehicle only if the notice prescribed by this section is given within 60 days of repossession or surrender and does all of the following:

(1) Sets forth that those persons shall have a right to redeem the motor vehicle by paying in full the indebtedness evidenced by the loan note until the expiration of 15 days from the date of giving or mailing the notice, provides an itemization of the loan balance and of any costs and fees authorized by this division, and sets forth the computation or estimate of the amount of any credit for unearned finance charges or canceled insurance as of the date of the notice.

(2) States either that there is a conditional right to reinstate the loan until the expiration of 15 days from the date of giving or mailing the notice and all the conditions precedent thereto or that there is no right of reinstatement and provides a statement of reasons therefor.

(3) States that, upon written request, the licensee shall extend for an additional 10 days the redemption period or, if entitled to the conditional right of reinstatement, both the redemption and reinstatement periods. The licensee shall provide the proper form for applying for these extensions with the substance of the form being limited to the extension request, spaces for the requesting party to sign and date the form, and instructions that it must be personally served or sent by certified or registered mail, return receipt requested, to a person or office and address designated by the licensee and received before the expiration of the initial redemption and reinstatement periods.

(4) Discloses the place at which the motor vehicle will be returned to the persons liable on the loan upon redemption or reinstatement.

(5) Designates the name and address of the person or office to whom payment shall be made.

(6) States the licensee's intent to dispose of the motor vehicle upon the expiration of 15 days from the date of giving or mailing the notice, or if by mail and either the place of deposit in the mail or the place of address is outside of this state, the period shall be 20 days instead of 15 days, and further, that upon written request to extend the redemption period and any applicable reinstatement period for 10 days, the licensee shall, without further notice, extend the period accordingly.

(7) Informs the persons liable on the loan that, upon written request, the licensee shall furnish a written accounting regarding the disposition of the motor vehicle as provided for in subdivision (c). The licensee shall advise them that the request must be personally served or sent by first-class mail, postage prepaid, or certified mail, return receipt requested, to a person or office and address designated by the licensee.

(8) Includes notice, in at least 10-point bold type if the notice is printed, reading as follows: "NOTICE. YOU MAY BE SUBJECT TO SUIT AND LIABILITY IF THE AMOUNT OBTAINED UPON DISPOSITION OF THE VEHICLE IS INSUFFICIENT TO PAY THE LOAN BALANCE AND ANY OTHER AMOUNTS DUE."

(c) Unless automatically provided to the borrower within 45 days after the disposition of the motor vehicle, the licensee shall provide to any person liable on the loan within 45 days after their written request, if the request is made within one year after the disposition, a written accounting regarding the disposition. The accounting shall itemize:

(1) The gross proceeds of the disposition.

(2) The reasonable and necessary costs and fees authorized by this division incurred in repossessing the motor vehicle.

(3) The satisfaction of indebtedness secured by any subordinate lien or encumbrance on the motor vehicle if written notification of demand therefor is received before distribution of the proceeds is completed. If requested by the licensee, the holder of a subordinate

lien or encumbrance must seasonably furnish reasonable proof of its interest, and unless it does so, the seller or holder need not comply with its demand.

(d) In all sales which result in a surplus, the licensee shall furnish an accounting as provided in subdivision (c) whether or not requested by the borrower. The surplus shall be returned to the borrower within 45 days after the sale is conducted.

SEC. 9. Section 24465.5 is added to the Financial Code, to read:

24465.5. (a) This section applies to a loan secured in whole or in part by a lien on a motor vehicle as defined by subdivision (k) of Section 2981 of the Civil Code.

(b) In the absence of default in the performance of any of the borrower's obligations under the loan, the licensee may not accelerate the maturity of any part or all of the amount due thereunder or repossess the motor vehicle.

(c) If, after default by the borrower, the licensee repossesses or voluntarily accepts surrender of the motor vehicle, any person liable on the loan shall have a right to reinstate the loan and the licensee shall not accelerate the maturity of any part or all of the loan prior to the expiration of the right to reinstate, unless the licensee reasonably and in good faith determines that:

(1) The borrower or any other person liable on the loan by omission or commission intentionally provided false or misleading information of material importance on his or her credit application.

(2) The borrower or any other person liable on the loan in order to avoid repossession has concealed the motor vehicle or removed it from the state.

(3) The borrower or any other person liable on the loan has committed or threatens to commit acts of destruction, or has failed to take care of the motor vehicle in a reasonable manner, so that the motor vehicle has or may become substantially impaired in value.

(d) Exercise the right to reinstate the loan shall be limited to once in any 12-month period and twice during the term of the loan.

(e) The provisions of this subdivision shall govern the method by which a loan shall be reinstated with respect to curing events of default which were a ground for repossession or occurred subsequent to repossession.

(1) Where the default is the result of the borrower's failure to make any payment due under the loan, the borrower or any other person liable on the loan shall make the defaulted payments and pay any applicable delinquency charges.

(2) Where the default is the result of the borrower's failure to keep and maintain the motor vehicle free from all encumbrances and liens of every kind, the borrower or any other person liable on the loan shall either satisfy all the encumbrances and liens or, in the event the licensee satisfies the encumbrances and liens, the borrower or any other person liable on the loan shall reimburse the licensee for all reasonable costs and expenses incurred therefor.

(3) Where the default is the result of the borrower's failure to

keep and maintain insurance on the motor vehicle, the borrower or any other person liable on the loan shall either obtain the insurance or, in the event the licensee has obtained the insurance, the borrower or any other person liable on the loan shall reimburse the licensee for premiums paid and all reasonable costs and expenses incurred therefor.

(4) Where the default is the result of the borrower's failure to perform any other obligation under the loan, unless the licensee has made a good faith determination that the default is so substantial as to be incurable, the borrower or any other person liable on the loan shall reimburse the licensee for all reasonable costs and expenses incurred therefor.

(5) Additionally, the borrower or any other person liable on the loan shall reimburse the licensee for actual fees not exceeding one hundred fifty dollars ($150) paid in connection with the repossession of a motor vehicle to a repossession agency licensed pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code.

(f) If the licensee denies the right to reinstatement under subdivision (c) or paragraph (4) of subdivision (e), the licensee shall have the burden of proof that the denial was justified in that it was reasonable and made in good faith. If the licensee fails to sustain the burden of proof, the licensee shall not be entitled to a deficiency.

SEC. 2. The Legislature finds and declares that there are special financial circumstances unique to the Irvine Ranch Water District and the Santa Margarita Water District which make the provisions of this act necessary and that a general law within the meaning of Section 16 of Article IV of the California Constitution cannot be made applicable.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

If bonds of certain improvement districts of the Irvine Ranch

Water District can be assured of a satisfactory creditworthiness other than through adherence to the present assessed valuation limitation, these bonds can be sold with the bonds of other improvement districts meeting that limitation, thereby allowing all of these improvement districts to participate concurrently in certain regional facilities, with consequent reduction in cost. To afford the district the opportunity to lower the financial burden of debt service for the ratepayers and taxpayers in each of these improvement districts as soon as possible, it is necessary that this act take effect immediately.

CHAPTER 241

An act to amend Section 4601 of the Labor Code, relating to workers' compensation.

[Approved by Governor July 25, 1985 Filed with Secretary of State July 26, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 4601 of the Labor Code is amended to read:

4601. (a) If the employee so requests, the employer shall tender the employee one change of physicians. Upon request of the employee for a change of physicians, the maximum amount of time permitted by law for the employer or insurance carrier to provide the employee an alternative physician or, if requested by the employee, a chiropractor, shall be five working days from the date of the request. The employee is entitled, in any serious case, upon request, to the services of a consulting physician or chiropractor of his or her choice at the expense of the employer. The treatment shall be at the expense of the employer.

(b) If an employee requesting a change of physicians pursuant to subdivision (a) has notified his or her employer in writing prior to the date of injury that he or she has a personal chiropractor, the alternative physician provided, if requested by the employee, shall be the employee's personal chiropractor. For the purpose of this section, "personal chiropractor" means the employee's regular chiropractor licensed pursuant to Chapter 2 (commencing with Section 1000) of Division 2 of the Business and Professions Code, who has previously directed treatment of the employee, and who retains the employee's chiropractic treatment records, including his or her chiropractic history.

SEC. 2. Reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), shall be made from the State Mandates Claims

Fund.

SEC. 3. Notwithstanding Section 2231.5 of the Revenue and Taxation Code, this act does not contain a repealer, as required by that section; therefore, the provisions of this act shall remain in effect unless and until they are amended or repealed by a later enacted act.

CHAPTER 242

An act to amend Section 20742 of the Government Code, relating to the Public Employees' Retirement System, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 25, 1985. Filed with Secretary of State July 26, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 20742 of the Government Code is amended to read:

20742. Notwithstanding any other provision of this part, the state's contribution to the Public Employees' Retirement Fund during fiscal year 1985–86 is a sum equal to the percentages of compensation paid the following categories:

(a) 17.604 percent with respect to state miscellaneous members.

(b) 19.749 percent with respect to state industrial members.

(c) 20.518 percent with respect to state safety members.

(d) 24.868 percent with respect to state patrol members.

(e) 24.310 percent with respect to state peace officer/firefighter members.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the state's employers' rates of contribution to the Public Employees' Retirement Fund for fiscal year 1985–86 may be expressed in the statutes on or before the commencement of fiscal year 1985–86, it is necessary that this act take effect immediately.

CHAPTER 243

An act to repeal and add Chapter 2.85 (commencing with Section 35565) of Part 5 of Division 13 of the Water Code, relating to water districts.

[Approved by Governor July 25, 1985 Filed with Secretary of State July 26, 1985]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.85 (commencing with Section 35565) of Part 5 of Division 13 of the Water Code is repealed.

SEC. 2. Chapter 2.85 (commencing with Section 35565) is added to Part 5 of Division 13 of the Water Code, to read:

CHAPTER 2.85. PROVISIONS PERTAINING ONLY TO THE BORREGO WATER DISTRICT

35565. This chapter applies only to the Borrego Water District.

35565.1. The objectives of the district include all of the following:

(a) To provide for the control of flood and storm waters of the district and the surface or subsurface streams created by storm water runoff from sources outside of the district and to conserve all the waters for beneficial and useful purposes by spreading, storing, retaining, slowing, and causing those waters to percolate, either by natural or artificial means, into the soil strata.

(b) To protect from damage from those flood or storm waters the personal or real property within the district and the lives of the inhabitants thereof.

(c) To protect, preserve, and restore watersheds within or without the district.

35565.2. The district may acquire by grant, purchase, lease, gift, devise, contract, or condemnation, real or personal property of any kind, including land, structures, buildings, rights-of-way, or easements within or without the district, and may construct, operate, maintain, repair, and alter all projects, improvements, or facilities, within or outside of the district necessary or proper to carry out the objectives authorized by Section 35565.1.

Improvements or facilities include, but are not limited to, dams, levees, channels, conduits, canals, pipelines, reservoirs, spillways, ponds, or replenishment wells.

35565.3. The district may conduct technical investigations and prepare analyses, studies, and reports pertaining to water supply, water rights, erosion, control of floods, storm patterns, water basin supplies, replenishment methods, water usage and water quality, soil characteristics, and other matters relative and necessary to the objective set forth in Section 35565.1.

In order to carry out technical investigations, the district has the right of access to, and may, to the extent permitted by the California Constitution, enter upon, any lands within or without the district, with or without permission of the owner or owners of the land. The entry by the district or its authorized representative does not constitute, and does not give rise to, any cause of action in favor of the owners of the land, except for injuries resulting from negligence,

wantonness, or malice.

35565.4. For the purpose of providing mosquito abatement and vector control services to the lands and inhabitants of the district, and in addition to the powers contained in this division, the district may exercise any of the powers of a mosquito abatement district or vector control district as set forth in Article 4 (commencing with Section 2270) of Chapter 5 of Division 3 of the Health and Safety Code.

35565.5. Mosquito abatement and vector control and flood control services are lawful district purposes, and charges may be levied pursuant to Section 35470 to defray the expenses of those services.

35565.6. The district may establish zones of benefit for the purpose of providing mosquito abatement and vector control and flood control services. A zone may include the entire district, or any portion thereof, depending upon the need for, or level of, services provided. The charges authorized pursuant to Section 35565.5 may vary from zone to zone, and territory may be annexed to, or detached from, a zone.

35565.7. No zone shall be established, and no land shall be annexed to, or detached from, any existing zone, unless the board, by resolution, declares its intent to do so and holds a public hearing thereon at a specified time and place where all interested persons may appear and be heard. Notice of the hearing shall be given by publishing a copy of the resolution in a newspaper of general circulation published in the County of San Diego pursuant to Section 6066 of the Government Code.

SEC. 3. The provisions of this act are necessary because of the great need for flood control services within the area of the Borrego Water District. There is no other local governmental entity willing to provide these services to the people of the district. This problem is not common to all districts formed under this division. It is, therefore, declared that a general law within the meaning of Section 16 of Article IV of the California Constitution cannot be made applicable and that the enactment of this act as a special law is necessary for the solution of problems existing in the Borrego Water District.

CHAPTER 244

An act to amend Section 23200 of the Vehicle Code, relating to driving offenses.

[Approved by Governor July 25, 1985 Filed with Secretary of State July 26, 1985.]

SECTION 1. Section 23200 of the Vehicle Code is amended to read:

23200. (a) In any case charging a violation of Section 23152 or 23153 and the offense occurred within five years of one or more separate violations of Section 23152 or 23153 which resulted in convictions, or one or more separate violations of Section 23103 as specified in Section 23103.5 which occurred on or after January 1, 1982, and resulted in one or more convictions, or any combination, or all, of those three provisions, the court shall not strike any separate conviction of those offenses for purposes of sentencing in order to avoid imposing, as part of the sentence or term of probation, the minimum time of imprisonment and the minimum fine, as provided in this chapter, or for purposes of avoiding revocation, suspension, or restriction of the privilege to operate a motor vehicle, as provided in this code.

(b) In any case charging a violation of Section 23152 or 23153, the court shall obtain a copy of the driving record of the person charged from the Department of Motor Vehicles and may obtain any records from the Department of Justice or any other source to determine if one or more separate violations of Section 23152 or 23153, or both, which resulted in one or more convictions, or one or more separate violations of Section 23103 as specified in Section 23103.5, which occurred on or after January 1, 1982, and resulted in one or more convictions, have occurred within five years of the charged offense. The court may obtain, and accept as rebuttable evidence, a printout from the Department of Motor Vehicles of the driving record of the person charged, maintained by electronic and storage media pursuant to Section 1801 for the purpose of proving those separate violations.

(c) If any separate convictions of violations of Section 23152 or 23153 are reported to have occurred within five years of the charged offense, the court shall notify each court where any of the separate convictions occurred for the purpose of enforcing terms and conditions of probation pursuant to Section 23207.

(d) The owner of a heavy vehicle, which is subject to the heavy vehicle use tax imposed pursuant to Section 4481 of Title 26 of the United States Code, has not presented sufficient evidence, as determined by the department, that the tax for the vehicle has been paid pursuant to that section.

SEC. 3. Sections 1 and 2 of this act shall become operative when the Secretary of the Treasury prescribes the forms for the proof of payment of the heavy vehicle use tax, pursuant to subsection (d) of Section 141 of Title 23 of the United States Code.

CHAPTER 246

(a) A final redevelopment plan for the project area is adopted on or after January 1, 1986.

(b) A final redevelopment plan for the project area was adopted prior to January 1, 1986, but its boundaries are changed on or after January 1, 1986, to add land to, or to exclude land from, the project area. However, in the case of a project area which changes its boundaries on or after January 1, 1986, to add land to the project area,

the reimbursement shall relate only to expenses incurred by the county with respect to the added area.

CHAPTER 247

An act to add Section 53079 to the Government Code, relating to local public entities.

Interest shall be paid from the date the security is provided to the local public entity until the date that all, or any portion, of the balance of the security deposit is returned to the person who furnished the security.

(c) The Legislature finds and declares that the payment of interest by local public entities for security furnished, as described in subdivision (b), is a matter of statewide interest and concern and the Legislature intends by this section to occupy the field of this regulation.

3. The member's parents
4. The member's brothers and sisters.

Payment shall be to the members of the group entitled, share and share alike. No payment shall be made to persons in any group if at the date of death there are living persons in any group preceding it; provided, however, that children of a deceased child of the member shall receive, share and share alike, the share that such child would have received were he living at the date of the member's death.

If there is no effective beneficiary designation and there are no survivors entitled to the benefit under this section the benefit shall be paid to the estate of the member.

Payment pursuant to the board's determination in good faith upon

evidence satisfactory to it of the existence, identity or other facts relating to entitlement of persons under this section shall constitute a complete discharge of and release of the system from liability for the benefit so paid.

SEC. 3. Section 21368 of the Government Code is repealed.

CHAPTER 256

An act to amend Sections 14004.5, 14005, and 14006.7 of the Food and Agricultural Code, relating to pesticides.

[Approved by Governor July 25, 1985 Filed with Secretary of State July 26, 1985.]

CHAPTER 257

An act to amend Section 7280 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 26, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 7280 of the Revenue and Taxation Code is amended to read:

7280. (a) The legislative body of any city or county may levy a tax on the privilege of occupying a room or rooms in a hotel, inn, tourist home or house, motel, or other lodging unless the occupancy is for any period of more than 30 days. The tax when levied by the legislative body of a county shall apply only to the unincorporated areas of the county.

(b) For purposes of this section, the term "the privilege of occupying a room or rooms in a hotel, inn, tourist home or house, motel, or other lodging" does not include the right of an owner of a timeshare estate in a room or rooms in a timeshare project, or the guest of that owner, to occupy the room, rooms, or other real property in which that owner retains the timeshare estate.

For purposes of this subdivision, "timeshare estate" means a timeshare estate, as defined by Section 11003.5 of the Business and Professions Code, and the term "guest of that owner" means a person who occupies real property accompanied by the owner of a timeshare estate in that real property, or who exercises that owner's right of occupancy of a timeshare estate without payment of any compensation to the owner. The term "guest of that owner" specifically includes a person occupying a timeshare unit pursuant to any form of exchange program.

(c) Subdivision (b) shall not affect or apply to the authority of any city or county to collect a transient occupancy tax from timeshare projects which were in existence as of May 1, 1985, and which timeshare projects were then subject to such a tax imposed by an ordinance duly enacted prior to May 1, 1985, pursuant to this section. The act adding this subdivision shall not in any way affect any litigation pending on or prior to December 31, 1985.

CHAPTER 258

An act to amend Section 29301, as amended by Section 6 of Chapter 889 of the Statutes of 1982, of, to amend Section 29304 of, to add Section 29159.4 to, and to repeal Section 29154, as added by Section 4 of Chapter 487 of the Statutes of 1981, and Section 29301, as added by Section 7 of Chapter 889 of the Statutes of 1982, of, the Food and Agricultural Code, relating to bees.

[Approved by Governor July 26, 1985. Filed with Secretary of State July 26, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 29154 of the Food and Agricultural Code, as added by Section 4 of Chapter 487 of the Statutes of 1981, is repealed.

(b) The inspector's supervision shall be in addition to, but not in conflict with, the applicable air pollution control district or air quality maintenance district regulations and fire control laws. Burning without the knowledge of and supervision of the inspector is a violation of this section.

(c) If abatement is by delivery to a licensed wax salvage plant, the person abating shall provide the inspector with information as to the date and location of delivery.

(d) If the inspector determines that abatement by burning is appropriate, the inspector's costs for supervising the burning shall be borne by the beekeeper with the diseased hives.

SEC. 3. Section 29301 of the Food and Agricultural Code, as amended by Section 6 of Chapter 889 of the Statutes of 1982, is amended to read:

29301. (a) The beekeeper, apiary owner, apiary operator, or the person in possession of any apiary shall pay to the director an annual assessment fee not to exceed thirty-five cents ($0.35) per colony as determined by the director, after consultation with the Apiary Board, to be necessary to carry out this article. However, the fee shall only be paid once each year by any one of these persons. For bees imported into the state, the fees shall be collected at the time the bees are received in the state.

(b) Beekeepers, apiary owners, apiary operators, or persons in possession of any apiary are exempt from the assessments required under this section if they own and operate less than 40 colonies.

(c) The department shall match any funds raised by the

assessments imposed under this section and transfer these matching funds to the State Treasury for credit to the Department of Food and Agriculture Fund for the purposes stated in Section 29303.

This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1989, deletes or extends that date.

SEC. 4. Section 29301 of the Food and Agricultural Code, as added by Section 7 of Chapter 889 of the Statutes of 1982, is repealed.

This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1989, deletes or extends that date.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 259

An act to amend Section 4051 of the Business and Professions Code, relating to pharmacy.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 26, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 4051 of the Business and Professions Code is amended to read:

4051. (a) This chapter does not prohibit the dispensing of drugs by anyone who holds a physician's and surgeon's certificate or a certificate to practice podiatry, and who is duly registered as such by the Board of Medical Quality Assurance or the Board of Osteopathic Examiners of this state, if all of the following conditions are met:

(1) The drugs are dispensed to the physician's or the podiatrist's own patient and the drugs are not furnished by a nurse or attendant.

(2) The drugs are necessary in the treatment of the condition for which the physician or podiatrist is attending the patient.

(3) The physician or podiatrist does not keep a pharmacy, open shop, or drugstore, advertised or otherwise, for the retailing of drugs or poisons.

(4) The physician or podiatrist fulfills all of the labeling requirements imposed upon pharmacists by Section 4047.5, all of the recordkeeping requirements of this chapter, and all of the packaging requirements of good pharmaceutical practice, including the use of child-proof containers. This paragraph shall not prohibit the furnishing of a limited quantity of samples by a physician or podiatrist, if the physician or podiatrist dispenses the samples to the patient in the package provided by the manufacturer, no charge is made to the patient therefor, and an appropriate record is entered in the patient's chart.

(5) The physician or podiatrist does not use a mechanical dispensing device unless he or she personally owns the device and the contents of it and personally dispenses the drugs to the patient packaged, labeled, and recorded in accordance with paragraph (4).

(b) The Board of Medical Quality Assurance and the Board of Osteopathic Examiners shall have authority with the Board of Pharmacy to assure compliance with this section, and those boards are specifically charged with the enforcement of this chapter with respect to their respective licensees.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 260

An act to amend Sections 1026 and 1026.3 of the Penal Code, relating to insanity.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 26, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 1026 of the Penal Code is amended to read:

1026. (a) When a defendant pleads not guilty by reason of insanity, and also joins with it another plea or pleas, the defendant shall first be tried as if only such other plea or pleas had been entered, and in that trial the defendant shall be conclusively presumed to have been sane at the time the offense is alleged to have been committed. If the jury shall find the defendant guilty, or if the defendant pleads only not guilty by reason of insanity, then the question whether the defendant was sane or insane at the time the offense was committed shall be promptly tried, either before the same jury or before a new jury in the discretion of the court. In that trial, the jury shall return a verdict either that the defendant was

sane at the time the offense was committed or was insane at the time the offense was committed. If the verdict or finding is that the defendant was sane at the time the offense was committed, the court shall sentence the defendant as provided by law. If the verdict or finding be that the defendant was insane at the time the offense was committed, the court, unless it shall appear to the court that the sanity of the defendant has been recovered fully, shall direct that the defendant be confined in a state hospital for the care and treatment of the mentally disordered or any other appropriate public or private treatment facility approved by the county mental health director, or the court may order the defendant placed on outpatient status pursuant to Title 15 (commencing with Section 1600) of Part 2. The court shall transmit a copy of its order to the county mental health director or a designee, and if the defendant is ordered confined in a state hospital or other treatment facility, copies of the arrest reports and the report of the county mental health director required under subdivision (b) shall accompany the person to the state hospital or other treatment facility where the defendant is to be confined.

(b) Prior to making such order directing that the defendant be confined in a state hospital or other treatment facility or placed on outpatient status, the court shall order the county mental health director or a designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be placed on outpatient status or confined in a state hospital or other treatment facility. No person shall be admitted to a state hospital or other treatment facility or placed on outpatient status under this section without having been evaluated by the county mental health director or a designee. If, however, it shall appear to the court that the sanity of the defendant has been recovered fully, the defendant shall be remanded to the custody of the sheriff until the issue of sanity shall have been finally determined in the manner prescribed by law. A defendant committed to a state hospital or other treatment facility or placed on outpatient status pursuant to Title 15 (commencing with Section 1600) of Part 2 shall not be released from confinement, parole, or outpatient status unless and until the court which committed the person shall, after notice and hearing, find and determine that the person's sanity has been restored. Nothing in this section shall prevent the transfer of such person from one state hospital to any other state hospital by proper authority. Nothing in this section shall prevent the transfer of the patient to a hospital in another state in the manner provided in Section 4119 of the Welfare and Institutions Code.

(c) If the defendant is committed or transferred to a state hospital pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the state hospital and the county mental health director that the defendant be transferred to a public or private treatment facility approved by the county mental health director, order the defendant transferred to that facility. If the

defendant is committed or transferred to a public or private treatment facility approved by the county mental health director, the court may, upon receiving the written recommendation of the county mental health director, order the defendant transferred to a state hospital or to another public or private treatment facility approved by the county mental health director. Where either the defendant or the prosecuting attorney chooses to contest either kind of order of transfer, a petition may be filed in the court requesting a hearing which shall be held if the court determines that sufficient grounds exist. At that hearing, the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same procedures and standards of proof as used in conducting probation revocation hearings pursuant to Section 1203.2.

(d) Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the county mental health director or a designee.

(e) If the defendant is confined in a state hospital or other treatment facility as an inpatient or is on parole under the provisions of subdivision (a) or (b) of Section 1611, the medical director of the facility shall, at six-month intervals, submit a report in writing to the court and the county mental health director of the county of commitment or a designee setting forth the status and progress of the defendant. The court shall transmit copies of these reports to the prosecutor and defense counsel.

(f) When directing that the defendant be confined in a state hospital pursuant to subdivision (a), the court shall select the state hospital in accordance with the policies established by the State Department of Mental Health.

SEC. 2. Section 1026.3 of the Penal Code is amended to read:

1026.3. A person committed to a state hospital or other treatment facility under Section 1026, and a person placed pursuant to subdivision (e) of Section 1026.2 as amended by Section 3.5 of Chapter 1488 of the Statutes of 1984, may be placed on outpatient status from the commitment as provided in Title 15 (commencing with Section 1600) of Part 2.

This section shall not be applicable to any community college district or other employing agency until the district or agency notifies the board, in writing, of its election to be subject thereto.

This section shall become operative on January 1, 1983, and shall remain in effect only until January 1, 1989, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1989, deletes or extends such date.

SEC. 2. Section 24213 is added to the Education Code, to read:

24213. The board shall develop, adopt, and implement an additional alternative retirement plan which will allow a school district or other employing agency to permit those members with 30 years of credited service that the school district or agency deems appropriate to retire at age 55 or older and receive an annual allowance equal to 2 percent of final compensation for each year of credited service with the allowance reduced by one-quarter of 1 percent for each full month or fraction of a month which will elapse until the member would have reached age 60 if the member retires on and after June 1, 1979.

The employing school district or other employing agency shall pay the amount which is determined by the board to be the present value of the benefits provided under this section. The board shall permit such payments to be made over a three-year period in equal amounts. Interest shall be charged on the unpaid balance at a rate approximating the average yield on moneys invested by the board during the previous year from the effective date of the member's retirement.

This section shall become operative on July 1, 1985, and shall remain in effect only until July 1, 1988, and as of January 1, 1989, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1989, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 3. It is the intent of the Legislature that if this bill is not enacted by July 1, 1985, Section 2 of this act shall be construed as

becoming operative on July 1, 1985.

SEC. 4. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure the benefits of this act to continue to provide school districts, community college districts, and other employing agencies with a method to solve personnel management problems which may arise, it is necessary that this act take effect immediately.

CHAPTER 262

An act to amend Section 5101 of, to repeal Section 5108 of, to repeal Article 6 (commencing with Section 10200) of Chapter 1 of, and to repeal Article 6 (commencing with Section 10800) of Chapter 2.5 of, Part 2 of Division 2 of, the Public Contract Code, relating to public contracts.

If the plaintiff fails to recover judgment, the plaintiff shall pay all costs incurred by the public entity in the suit, including a reasonable attorney's fee to be fixed by the court.

The report shall be available for inspection as a public record and shall be filed with the State Board of Control; except that in the case of the University of California or a California State University, the report shall be filed

[Approved by Governor July 26, 1985. Filed with Secretary of State July 26, 1985.]

The people of the State of California do enact as follows:

SECTION 1. It is the finding of the Legislature that third party payors should pay health or medical care claims in a timely fashion. It is the Legislature's further finding that to do this, health care providers should be expressly authorized to offer third party payors discounts for reimbursement made within time deadlines established by the health care providers.

SEC. 2. Section 657 is added to the Business and Professions Code, to read:

657. (a) To encourage the prompt payment of health or medical care claims by third party payors, health care providers are hereby expressly authorized to grant discounts in health or medical care claims submitted to third party payors when payment by the third party payor is made promptly within time limits prescribed by the health care providers or institutions rendering the service or treatment.

(b) "Health care provider," as used in this section, means any person licensed or certified pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code, or licensed pursuant to the Osteopathic Initiative Act, or the Chiropractic Initiative Act, or licensed pursuant to Chapter 2.5 (commencing with Section 1440) of Division 2 of the Health and Safety Code; and any clinic, health dispensary, or health facility, licensed pursuant to Division 2 (commencing with Section 1200) of the Health and Safety Code.

CHAPTER 264

An act to amend Section 33447 of the Health and Safety Code, relating to redevelopment.

[Approved by Governor July 26, 1985. Filed with Secretary of State July 26, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 33447 of the Health and Safety Code is amended to read:

33447. In addition to any other authority contained in this division and subject to the requirements of this section, taxes levied in a project area and allocated to the agency as provided in subdivision (b) of Section 33670 may be used as provided thereby anywhere within the territorial jurisdiction of the agency to finance the construction or acquisition of public improvements meeting the following criteria, as determined by resolution of the agency:

(a) The public improvements will enhance the environment of a residential neighborhood containing housing for persons and families of low or moderate income, as defined in Section 50093, including very low-income households, as defined in Section 50105.

(b) The public improvements will be of benefit to the project area. That determination shall be final and conclusive as to the issue of benefit to the project area.

(c) Public improvements eligible for financing under this section shall be limited to the following:

(1) Street improvements.

(2) Water, sewer, and storm drainage facilities.

(3) Neighborhood parks and related recreational facilities.

This section shall be applicable to redevelopment projects within the City of Paramount for which the redevelopment plan authorizes tax-increment financing pursuant to Section 33670, whether the redevelopment plan is adopted prior or subsequent to January 1, 1978. Financing of public improvements pursuant to this section shall be authorized by the redevelopment plan or by resolution of the agency. Any ordinance or resolution implementing this section shall specify the public improvements to be financed thereunder.

As a condition to financing public improvements as provided in this section on or after January 1, 1983, the redevelopment agency of the City of Paramount shall establish a Low and Moderate Income Housing Fund, and, with respect to any project made subject to this section, shall deposit in that fund not less than 20 percent of that portion of revenues allocated and paid to the agency pursuant to subdivision (b) of Section 33670 on and after January 1, 1983, which is not required to pay the principal of, or interest on, bonds or other indebtedness of the agency issued or incurred prior to that date. Moneys deposited in the Low and Moderate Income Housing Fund

pursuant to this section shall be utilized to rehabilitate housing for occupancy by persons and families of low or moderate income.

If it utilizes the authority specified by this section on or after January 1, 1981, the redevelopment agency of the City of Paramount shall, on or before January 1, 1985, submit to the Legislature a report which (1) details expenditures made pursuant to this section, (2) describes public improvements and housing financed pursuant to this section, (3) describes public improvements and housing financed or to be financed under this section which are not yet completed, and (4) specifies the number of households benefited by housing units assisted pursuant to this section.

The Legislature finds and declares that effective redevelopment within the City of Paramount requires the existence of adequate public services and facilities for persons residing in the surrounding community, including persons employed by industry which is located in a redevelopment project, and that public improvements of the types specified in this section are particularly needed in the low- and moderate-income neighborhoods of the City of Paramount in order to encourage stability and prevent decline which could have serious negative impact on redevelopment, as well as necessitate additional redevelopment. Because of the unusually compelling need in the City of Paramount and because of the impracticability of financing all required improvements by other means, it is the intent of the Legislature in enacting this section to augment the powers of the redevelopment agency of the City of Paramount to permit the use of tax-increment revenues in the manner, and for the purposes prescribed by this section.

This section shall remain in effect only until January 1, 1991, and on that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1991, deletes or extends that date. However, the repeal of this section on that date shall not affect the validity of any ordinance or resolution adopted prior thereto as provided in this section, and shall not affect the validity of any bonds issued pursuant to the ordinance or resolution, or any pledge pursuant to Section 33671 of tax revenues to accrue on or after that date.

CHAPTER 265

[Approved by Governor July 26, 1985. Filed with Secretary of State July 26, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 17 of the Penal Code, as added by Section 2 of Chapter 1270 of the Statutes of 1980, is repealed.

SEC. 2. Section 19e of the Penal Code is amended to read:

19e. Except where a lesser maximum fine is expressly provided for violation of any of such sections, any such violation which is an infraction is punishable by a fine not exceeding two hundred fifty dollars ($250).

Except for Section 14601.1 of the Vehicle Code based upon failure to appear, a conviction for any offense made an infraction under subdivision (d) of Section 17 shall not be grounds for the suspension, revocation, or denial of any license, or for the revocation of probation or parole of the person convicted.

SEC. 3. Section 5 of Chapter 1270 of the Statutes of 1980 is repealed.

CHAPTER 266

An act to amend Section 19995.5 of the Government Code, relating to state employees, and declaring the urgency thereof, to take effect immediately.

The county adoption agency or the State Department of Social Services may defer, waive, or reduce the fee when its payment would cause economic hardship to the adoptive parents detrimental to the welfare of the adopted child,

when the child has been in the foster care of the adoptive parents for at least one year, or if necessary for the placement of a hard-to-place child. A "hard-to-place" child is a child who because of his or her age, ethnic background, race, color, language, or physical, mental, emotional, or medical handicaps has become difficult to place in an adoptive home.

Nothing in this section shall be construed to require the payment of the fee to a county in the case of an adoption resulting from the independent placement of a child.

CHAPTER 271

(b) Upon application made within one year of retirement, the officer may, in the discretion of the Governor, be granted an honorary advancement to the next grade above that held on the date of application for retirement. The Adjutant General shall adopt regulations governing the application procedure, qualifications required, and rights and privileges in connection with honorary post-retirement promotions under this subdivision. However, inactive service in a reserve component of the armed forces of the United States shall not be considered in computing the total state service for retirement purposes. Retirement from state active duty with the office of the Adjutant General does not prohibit a person from active service in the California National Guard. In these cases, the length of service shall be computed as provided in this section and Section 215.

SEC. 2. Section 256 of the Military and Veterans Code is amended to read:

256. (a) Any enlisted member of the California National Guard who has served 20 years in the active service of the state may, on application, in the discretion of the Governor, be retired. Service in

However, inactive service in a reserve component of the armed forces of the United States shall not be considered in computing the total state service for retirement purposes. In these cases, the length of service shall be computed as provided in this section and Section 215.

Approval of funding advances shall be subject to the grantee's meeting accounting criteria established by the Department of Rehabilitation.

SEC. 4. Section 19807 of the Welfare and Institutions Code, as added by Section 1 of Chapter 1566 of the Statutes of 1984, is amended and renumbered to read:

19806. (a) For each fiscal year commencing with the 1984–85 fiscal year, an independent living center shall not be required to provide any matching funds through private contributions as a condition of receiving state funds except to acquire state incentive funds. An independent living center whose allocation of funds pursuant to this chapter, excluding state incentive funds, is less than one hundred fifty thousand dollars ($150,000) shall, to the extent funds are appropriated by the Legislature and allocated in accordance with regulations adopted by the department, receive, during the 1984–85 fiscal year, an amount of state funds pursuant to this section, in an amount equal to 50 percent of the difference between one hundred fifty thousand dollars ($150,000) and the independent living center's allocation under this chapter. During the 1985–86 fiscal year, and each fiscal year thereafter, each independent living center shall receive, to the extent funds are appropriated by the Legislature and allocated in accordance with

regulations adopted by the department, except for state incentive funds, at least one hundred fifty thousand ($150,000) in funds allocated under this chapter.

(b) (1) In addition to funds received pursuant to subdivision (a), and subject to the limitations of subdivision (c), to the extent funds are appropriated by the Legislature, and allocated in accordance with regulations adopted by the department, each independent living center shall have the amount of its private contributions which, for any fiscal year, exceeds the amount of private contributions received by the independent living center during the 1982–83 fiscal year matched by state incentive funds on the basis of one dollar ($1) in state incentive funds for each one dollar ($1) received in private contributions.

(2) Available state incentive funds shall be allocated during each fiscal year based upon the private contributions received by the independent living center in the immediately preceding fiscal year.

(3) For the purpose of determining eligibility for state incentive funds, any independent living center that uses a fiscal year other than the state fiscal year may elect to use a different fiscal year so long as the closing date of the fiscal year so elected does not precede the closing date of the equivalent state fiscal year by more than 11 months.

(4) The amount of private contributions claimed by an independent living center for each fiscal year, including the 1982–83 fiscal year, shall be verified by the department by utilizing appropriate financial records including, but not limited to, independent audits. Audits may be performed by the department up to three years from the close of the fiscal year during which state incentive funds were received by the independent living center being audited.

(c) The maximum amount of incentive funds as defined in subdivision (d) that may be acquired by any independent living center in any single fiscal year shall be computed as follows:

(1) Each independent living center funded under Section 19803 shall be entitled to acquire state incentive funds as specified in subdivision (b) in an amount not to exceed the total available state incentive funds, divided by the number of independent living centers then funded under Section 19803.

(2) Incentive funds remaining after the initial allocation pursuant to paragraph (1) shall be allocated among centers with remaining unmatched private contributions. Each center with remaining unmatched private contributions shall be allowed to match remaining incentive funds in an amount equal to the total remaining incentive funds divided by the number of centers with remaining private contributions. Subsequent distributions shall be made pursuant to the formula described in the preceding sentence and shall be repeated as many times as is necessary to allocate incentive funds to the greatest extent possible.

(3) State incentive funds not distributed to independent living

centers under paragraph (1) or (2) shall not be allocated under Section 19803 nor retained by the department for distribution as state incentive funds in later fiscal years.

(2) "State incentive funds" means state funds appropriated by the Legislature for purposes of this chapter, except those funds allocated by the department pursuant to Section 19803 and subdivision (a) of this section.

(e) Any funds allocated under this chapter to any independent living center, other than as part of the initial allocation for each fiscal year, shall be made by contract amendment. Any such contract amendment shall require the provision of services in addition to that required by the contract being amended. All such services required by contract amendment shall not be performed prior to the date the contract amendment is approved by the state.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure that, to the extent state incentive funds are available, independent living centers with unmatched private contributions receive matching funds as soon as possible, it is necessary that this act go into immediate effect.

(d) For purposes of this section, "hotel" or "motel" shall mean an establishment which is licensed to sell alcoholic beverages and which contains guestroom accommodations with respect to which the predominant relationship existing between the occupants thereof and the owner or operator of the establishment is that of innkeeper and guest. For purposes of this subdivision, the existence of other legal relationships as between some occupants and the owner or operator thereof shall be immaterial.

SEC. 2. The Legislature declares that nothing in this act shall be construed in any manner whatsoever as modifying, revoking, repealing, or otherwise altering the prohibitions of Article 2 (commencing with Section 25631) of Chapter 16 of this division.

CHAPTER 281

(2) The legal duties imposed on police officers to make arrests and offer protection and assistance including guidelines for making felony and misdemeanor arrests.

(3) Techniques for handling incidents of domestic violence that minimize the likelihood of injury to the officer and that promote the safety of the victim.

(4) The nature and extent of domestic violence.

(5) The legal rights of, and remedies available to, victims of domestic violence.

Local law enforcement agencies are encouraged to include, as part of their advanced officer training program, periodic updates and training on domestic violence. The commission shall assist where possible.

(d) The course of instruction, the learning and performance objectives, the standards for the training, and the guidelines shall be developed by the commission in consultation with appropriate groups and individuals having an interest and expertise in the field of domestic violence. The groups and individuals shall include, but shall not be limited to, the following: one representative each from the California Peace Officers' Association, the Peace Officers' Research Association of California, the State Bar of California, the California Women Lawyers' Association, and the State Commission on the Status of Women; two representatives from the commission; two representatives from the California Alliance Against Domestic Violence; two peace officers, recommended by the commission, who are experienced in the provision of domestic violence training; and two domestic violence experts, recommended by the California Alliance Against Domestic Violence, who are experienced in the provision of direct services to victims of domestic violence. At least one of the persons selected shall be a former victim of domestic violence.

The commission, in consultation with these groups and individuals, shall review existing training programs to determine in what ways domestic violence training might be included as a part of ongoing programs.

(e) Forty thousand dollars ($40,000) is appropriated from the Peace Officers Training Fund in augmentation of Item 8120-001-268 of the Budget Act of 1984, to support the travel, per diem, and associated costs for convening the necessary experts.

CHAPTER 282

An act to amend Section 17958.5 of the Health and Safety Code, relating to housing.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 26, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 17958.5 of the Health and Safety Code is amended to read:

17958.5. (a) Except as provided in Section 17922.6, in adopting the ordinances or regulations pursuant to Section 17958, a city or county may make such changes or modifications in the requirements contained in the provisions published in the State Building Standards Code and the other regulations adopted pursuant to Section 17922 as it determines, pursuant to the provisions of Section 17958.7, are reasonably necessary because of local climatic, geological, or topographical conditions.

For purposes of this subdivision, a city and county may make reasonably necessary modifications to the requirements, adopted pursuant to Section 17922, contained in the provisions of the code and regulations on the basis of local conditions.

(b) On or before October 1, 1981, and each October 1 thereafter, the department shall transmit a report to the State Building Standards Commission on the modifications and changes made by cities and counties to the building standards published in the State Building Standards Code and the other regulations of the commission. The report shall include a summary by the department of the reasons cited as the necessity for the modifications and changes. The report required pursuant to this section shall apply to modifications and changes made after January 1, 1980.

CHAPTER 283

An act to amend Section 261 of the Penal Code, relating to crimes.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 26, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 261 of the Penal Code is amended to read:

261. Rape is an act of sexual intercourse accomplished with a person not the spouse of the perpetrator, under any of the following circumstances:

(1) Where a person is incapable, because of mental disease,

defect, or disorder or because of physical disability, of giving legal consent, and this is known or reasonably should be known to the person committing the act. Notwithstanding the existence of a conservatorship pursuant to the provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code), the prosecuting attorney shall prove, as an element of the crime, that a mental disease, defect, or disorder or physical disability rendered the alleged victim incapable of giving consent.

(2) Where it is accomplished against a person's will by means of force or fear of immediate and unlawful bodily injury on the person or another.

(3) Where a person is prevented from resisting by any intoxicating or anesthetic substance, or any controlled substance, administered by or with the privity of the accused.

(4) Where a person is at the time unconscious of the nature of the act, and this is known to the accused.

(5) Where a person submits under the belief that the person committing the act is the victim's spouse, and this belief is induced by any artifice, pretense, or concealment practiced by the accused, with intent to induce the belief.

(6) Where the act is accomplished against the victim's will by threatening to retaliate in the future against the victim or any other person, and there is a reasonable possibility that the perpetrator will execute the threat. As used in this paragraph "threatening to retaliate" means a threat to kidnap or falsely imprison, or to inflict extreme pain, serious bodily injury, or death.

(7) Where the act is accomplished against the victim's will by threatening to use the authority of a public official to incarcerate, arrest, or deport the victim or another, and the victim has a reasonable belief that the perpetrator is a public official. As used in this paragraph, "public official" means a person employed by a governmental agency who has the authority, as part of that position, to incarcerate, arrest, or deport another. The perpetrator does not actually have to be a public official.

CHAPTER 284

An act relating to the Cosumnes River Water and Power Authority.

[Approved by Governor July 26, 1985. Filed with Secretary of State July 26, 1985.]

The people of the State of California do enact as follows:

SECTION 1. As used in this act, the following terms shall have the following meaning:

(a) "Authority" means the Cosumnes River Water and Power Authority, operating under a joint powers agreement, as amended from time to time, for the purpose of developing water and power in the Cosumnes River Water Basin, as set forth in the joint powers agreement. The authority consists of the Amador County Water Agency, the El Dorado County Water Agency, the Sacramento County Water Agency, and the San Joaquin County Flood Control and Water Conservation District.

(b) "Project" means all, or a part, of the Cosumnes River Water and Power Project, as described in various studies of the authority, as amended from time to time.

SEC. 2. Notwithstanding any other provision of law, the requirements of the authority for the letting of contracts for the erection, construction, alteration, repair, or replacement of any public improvement of any kind of the authority shall be those requirements applicable to a county water district, as provided in the County Water District Law (Division 12 (commencing with Section 30000) of the Water Code).

SEC. 3. The Legislature finds and declares that this act is necessary as a special statute since a general statute within the meaning of Section 16 of Article IV of the California Constitution cannot be made applicable. The Legislature finds that the Cosumnes River Water and Power Authority, whose member agencies operate under different legislative acts with varying public bidding requirements, requires an established public bidding procedure to pursue various financing alternatives for the development of the project and that the requirements under the County Water District Law are best suited to allow those financing alternatives.

CHAPTER 285

An act to amend Section 4383 of the Civil Code, relating to family law.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 26, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 4383 of the Civil Code is amended to read:

4383. (a) Notwithstanding Section 4380, a judgment, order, or decree for the payment of child or spousal support may be enforced by a writ of execution without prior court approval for amounts that are not more than 10 years overdue on the date of the application for the writ.

(b) The application for a writ of execution shall be accompanied

by an affidavit stating the total amount due and unpaid that is not more than 10 years overdue on the date of the application. If interest on the overdue installments is sought, the affidavit shall state the total amount of the interest and the amount of each due and unpaid installment and the date it became due. The affidavit shall be filed in the action and a copy shall be attached to the writ of execution delivered to the levying officer. Where the law relating to the enforcement of judgments requires a writ of execution to be served on the judgment debtor, the levying officer shall serve the copy of the affidavit on the judgment debtor when the writ of execution is first served on the judgment debtor pursuant to a levy under the writ.

CHAPTER 286

An act to amend Section 66477 of the Government Code, relating to subdivisions.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 26, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 66477 of the Government Code is amended to read:

66477. The legislative body of a city or county may, by ordinance, require the dedication of land or impose a requirement of the payment of fees in lieu thereof, or a combination of both, for park or recreational purposes as a condition to the approval of a tentative map or parcel map, provided that:

(a) The ordinance has been in effect for a period of 30 days prior to the filing of the tentative map of the subdivision or parcel map.

(b) The ordinance includes definite standards for determining the proportion of a subdivision to be dedicated and the amount of any fee to be paid in lieu thereof. The amount of land dedicated or fees paid shall be based upon the residential density, which shall be determined on the basis of the approved or conditionally approved tentative map or parcel map and the average number of persons per household. There shall be a rebuttable presumption that the average number of persons per household by units in a structure is the same as that disclosed by the most recent available federal census or a census taken pursuant to Chapter 17 (commencing with Section 40200) of Part 2 of Division 3 of Title 4. However, the dedication of land, or the payment of fees, or both, shall not exceed the proportionate amount necessary to provide three acres of park area per 1,000 persons residing within a subdivision subject to this section, unless the amount of existing neighborhood and community park area, as calculated pursuant to this subdivision, exceeds that limit, in

which case the legislative body may adopt the calculated amount as a higher standard not to exceed five acres per 1,000 persons residing within a subdivision subject to this section.

(1) The park area per 1,000 members of the population of the city, county, or local public agency shall be derived from the ratio that the amount of neighborhood and community park acreage bears to the total population of the city, county, or local public agency as shown in the most recent available federal census. The amount of neighborhood and community park acreage shall be the actual acreage of existing neighborhood and community parks of the city, county, or local public agency as shown on its records, plans, recreational element, maps, or reports as of the date of the most recent available federal census.

(2) For cities incorporated after the date of the most recent available federal census, the park area per 1,000 members of the population of the city shall be derived from the ratio that the amount of neighborhood and community park acreage shown on the records, maps, or reports of the county in which the newly incorporated city is located bears to the total population of the new city as determined pursuant to Section 11005 of the Revenue and Taxation Code. In making any subsequent calculations pursuant to this section, the county in which the newly incorporated city is located shall not include the figures pertaining to the new city which were calculated pursuant to this paragraph. Fees shall be payable at the time of the recording of the final map or parcel map or at a later time as may be prescribed by local ordinance.

(c) The land, fees, or combination thereof are to be used only for the purpose of developing new or rehabilitating existing neighborhood or community park or recreational facilities to serve the subdivision.

(d) The legislative body has adopted a general plan or specific plan containing policies and standards for parks and recreation facilities, and the park and recreational facilities are in accordance with definite principles and standards.

(e) The amount and location of land to be dedicated or the fees to be paid shall bear a reasonable relationship to the use of the park and recreational facilities by the future inhabitants of the subdivision.

(f) The city, county, or other local public agency to which the land or fees are conveyed or paid shall develop a schedule specifying how, when, and where it will use the land or fees, or both, to develop park or recreational facilities to serve the residents of the subdivision. Any fees collected under the ordinance shall be committed within five years after the payment of such fees or the issuance of building permits on one-half of the lots created by the subdivision, whichever occurs later. If the fees are not committed, they, without any deductions, shall be distributed and paid to the then record owners of the subdivision in the same proportion that the size of their lot bears to the total area of all lots within the subdivision.

(g) Only the payment of fees may be required in subdivisions containing 50 parcels or less.

(h) Subdivisions containing less than five parcels and not used for residential purposes shall be exempted from the requirements of this section. However a condition may be placed on the approval of such parcel map that if a building permit is requested for construction of a residential structure or structures on one or more of the parcels within four years the fee may be required to be paid by the owner of each such parcel as a condition to the issuance of such permit.

(i) If the subdivider provides park and recreational improvements to the dedicated land, the value of the improvements together with any equipment located thereon shall be a credit against the payment of fees or dedication of land required by the ordinance.

Land or fees required under this section shall be conveyed or paid directly to the local public agency which provides park and recreational services on a communitywide level and to the area within which the proposed development will be located, if such agency elects to accept the land or fee. The local agency accepting such land or funds shall develop the land or use the funds in the manner provided in this section.

If park and recreational services and facilities are provided by a public agency other than a city or a county, the amount and location of land to be dedicated or fees to be paid shall, subject to subdivision (b), be jointly determined by the city or county having jurisdiction and such public agency.

This section does not apply to commercial or industrial subdivisions or to condominium projects or stock cooperatives which consist of the subdivision of airspace in an existing apartment building which is more than five years old when no new dwelling units are added.

Planned developments, real estate developments, stock cooperatives, and community apartment projects, as defined in Sections 11003, 11003.1, 11003.2, 11003.4, and 11004, respectively, of the Business and Professions Code, and condominiums, as defined in Section 783 of the Civil Code, shall be eligible to receive a credit, as determined by the legislative body, against the amount of land required to be dedicated, or the amount of the fee imposed, pursuant to this section, for the value of private open space within the development which is usable for active recreational uses.

Park and recreation purposes shall include land and facilities for the activity of "recreational community gardening," which activity consists of the cultivation by persons other than, or in addition to, the owner of such land, of plant material not for sale.

SEC. 2. Reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand

dollars ($500,000), shall be made from the State Mandates Claims Fund.

SEC. 3. Notwithstanding Section 2231.5 of the Revenue and Taxation Code, this act does not contain a repealer, as required by that section; therefore, the provisions of this act shall remain in effect unless and until they are amended or repealed by a later enacted act.

CHAPTER 287

An act to amend Section 21083.2 of the Public Resources Code, relating to environmental quality.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 26, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 21083.2 of the Public Resources Code is amended to read:

21083.2. (a) As part of the determination made pursuant to Section 21080.1, the lead agency shall determine whether the project may have a significant effect on archaeological resources. If the lead agency determines that the project may have a significant effect on unique archaeological resources, the environmental impact report shall address the issue of those resources. An environmental impact report, if otherwise necessary, shall not address the issue of nonunique archaeological resources. A negative declaration shall be issued with respect to a project if, but for the issue of nonunique archaeological resources, the negative declaration would be otherwise issued.

(b) If it can be demonstrated that a project will cause damage to a unique archaeological resource, the lead agency may require reasonable efforts to be made to permit any or all of these resources to be preserved in place or left in an undisturbed state. Examples of such treatment, in no order of preference and not limited thereto, may include any of the following:

(1) Planning construction to avoid archaeological sites.

(2) Deeding archaeological sites into permanent conservation easements.

(3) Capping or covering archaeological sites with a layer of soil before building on the sites.

(4) Planning parks, greenspace, or other open space to incorporate archaeological sites.

(c) To the extent that unique archaeological resources are not preserved in place or not left in an undisturbed state, mitigation measures shall be required as provided in this subdivision. The project applicant shall provide a guarantee to the lead agency to pay one-half the estimated cost of mitigating the significant effects of the

project on unique archaeological resources. In determining payment, the lead agency shall give due consideration to the in-kind value of project design or expenditures that are intended to permit any or all archaeological resources or California Native American culturally significant sites to be preserved in place or left in an undisturbed state. When a final decision is made to carry out or approve the project, the lead agency shall, if necessary, reduce the specified mitigation measures to those which can be funded with the money guaranteed by the project applicant plus the money voluntarily guaranteed by any other person or persons for those mitigation purposes. In order to allow time for interested persons to provide the funding guarantee referred to in this subdivision, a final decision to carry out or approve a project shall not occur sooner than 60 days after completion of the recommended special environmental impact report required by this section.

(d) Excavation as mitigation shall be restricted to those parts of the unique archaeological resource that would be damaged or destroyed by the project. Excavation as mitigation shall not be required for a unique archaeological resource if the lead agency determines that testing or studies already completed have adequately recovered the scientifically consequential information from and about the resource, if this determination is documented in the environmental impact report.

(e) In no event shall the amount paid by a project applicant for mitigation measures required pursuant to subdivision (c) exceed the following amounts:

(1) An amount equal to one-half of 1 percent of the projected cost of the project for mitigation measures undertaken within the site boundaries of a commercial or industrial project.

(2) An amount equal to three-fourths of 1 percent of the projected cost of the project for mitigation measures undertaken within the site boundaries of a housing project consisting of a single unit.

(3) If a housing project consists of more than a single unit, an amount equal to three-fourths of 1 percent of the projected cost of the project for mitigation measures undertaken within the site boundaries of the project for the first unit plus the sum of the following:

(A) Two hundred dollars ($200) per unit for any of the next 99 units.

(B) One hundred fifty dollars ($150) per unit for any of the next 400 units.

(C) One hundred dollars ($100) per unit in excess of 500 units.

(f) Unless special or unusual circumstances warrant an exception, the field excavation phase of an approved mitigation plan shall be completed within 90 days after final approval necessary to implement the physical development of the project or, if a phased project, in connection with the phased portion to which the specific mitigation measures are applicable. However, the project applicant may extend that period if he or she so elects. Nothing in this section

shall nullify protections for Indian cemeteries under any other provision of law.

(g) As used in this section, "unique archaeological resource" means an archaeological artifact, object, or site about which it can be clearly demonstrated that, without merely adding to the current body of knowledge, there is a high probability that it meets any of the following criteria:

(1) Contains information needed to answer important scientific research questions and that there is a demonstrable public interest in that information.

(2) Has a special and particular quality such as oldest of its type or best available example of its type.

(3) Is directly associated with a scientifically recognized important prehistoric or historic event or person.

(h) As used in this section, "nonunique archaeological resource" means an archaeological artifact, object, or site which does not meet the criteria set forth in subdivision (g). A nonunique archaeological resource need be given no further consideration, other than the simple recording of its existence by the lead agency if it so elects.

(i) As part of the objectives, criteria, and procedures required by Section 21082 or as part of conditions imposed for mitigation, a lead agency may make provisions for archaeological sites accidentally discovered during construction. These provisions may include an immediate evaluation of the find. If the find is determined to be a unique archaeological resource, contingency funding and a time allotment sufficient to allow recovering an archaeological sample or to employ one of the avoidance measures may be required under the provisions set forth in this section. Construction work may continue on other parts of the building site while archaeological mitigation takes place.

(j) This section does not apply to any project described in subdivision (a) or (b) of Section 21065 if the lead agency elects to comply with all other applicable provisions of this division. This section does not apply to any project described in subdivision (c) of Section 21065 if the applicant and the lead agency jointly elect to comply with all other applicable provisions of this division.

(k) Any additional costs to any local agency as a result of complying with the requirements of this section with respect to a project of other than a public agency shall be borne by the project applicant.

(*l*) This section shall remain in effect only until January 1, 1994, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1994, deletes or extends that date.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 288

An act to amend Section 20031 of, and to add Section 20651.4 to, the Government Code, relating to the Public Employees' Retirement Law.

The people of the State of California do enact as follows:

SECTION 1. Section 20031 of the Government Code is amended to read:

20031. "Accumulated contributions" means accumulated normal contributions plus any accumulated additional contributions standing to the credit of a member's account.

SEC. 2. Section 20651.4 is added to the Government Code, to read:

20651.4. The payment, on or after January 1, 1986, of accumulated contributions to a former member shall include current year interest through the date in which the claim is filed with the office of the Controller.

In addition, satisfactory completion of periodic refresher training or appropriate testing in cardiopulmonary resuscitation and other first aid as prescribed by the Emergency Medical Services Authority shall also be required.

(b) The course of training leading to the basic certificate issued by the commission shall include adequate instruction in the procedures described in subdivision (a). No reimbursement shall be made to

local agencies based on attendance at any such course which does not comply with the requirements of this subdivision.

(c) As used in this section, "primarily clerical or administrative" means the performance of clerical or administrative duties for a minimum of 90 percent of the time worked within a pay period.

SEC. 2. It is the intent of the Legislature that peace officer members of a marshal's office meet the first aid and cardiopulmonary resuscitation standards prescribed by the Emergency Medical Services Authority as part of the selection and training standards for marshals and deputy marshals established by the Commission on Peace Officer Standards and Training. A marshal's office choosing not to comply with the optional selection and training standards of the commission will not be required to meet the first aid and cardiopulmonary resuscitation training requirements prescribed by the Emergency Medical Services Authority.

Any member who qualifies under this section and subsequently reenters the system, shall forfeit the service credit acquired under this section.

This section shall not be applicable to any member otherwise eligible if the member receives any unemployment insurance payments arising out of employment with an employer subject to this part during a period extending one year beyond the effective date of the formal action, or if the member is not otherwise eligible to retire for service.

This section shall become inoperative on July 1, 1987, and, as of January 1, 1988, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1988, deletes or extends the dates on which it becomes inoperative and is repealed.

The transfer to the retirement fund shall be made in a manner and time period acceptable to the Teachers' Retirement Board.

(c) The governing board transmits to the retirement fund the administrative costs incurred by the State Teachers' Retirement

System in implementing this section, as determined by the Teachers' Retirement Board.

(d) The community college district has certified to the chancellor, prior to the formal action becoming effective in a community college district, that the net effect of the formal action will result in no costs to the State Teachers' Retirement System or the district.

The amount of service credit shall be two years regardless of credited service, but shall not exceed the elapsed period of time intervening between the date of the member's retirement and the date the member attains normal retirement age as determined by the Teachers' Retirement Board. The community college district shall make the payment with respect to all eligible employees who retired pursuant to this section and Section 22726.

Any employee who qualifies under this section and Section 22726 and subsequently reenters the State Teachers' Retirement System, shall forfeit the service credit acquired under this section and Section 22726.

This section shall become inoperative on July 1, 1987, and, as of January 1, 1988, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1988, deletes or extends the dates on which it becomes inoperative and is repealed.

(c) In exercising its authority under this section, the governing board shall consider the needs of students, most particularly those who are unable to complete a term due to illness or other extenuating circumstances, while at the same time making the drop date meaningful to the measurement of average daily attendance.

SEC. 4. Section 84706 of the Education Code is amended to read:

84706. (a) For the purpose of this article, average daily attendance shall include only the attendance of state residents, except as provided in Section 78462, attending within the district. All attendance of all students shall be reported in accordance with instructions provided by the chancellor.

(b) Community college districts shall be allowed to increase their funded average daily attendance over the prior year as determined by the chancellor in accordance with the following procedures:

(1) For the 1983–84 fiscal year, districts may be allowed to increase their funded average daily attendance to the level funded in the 1981–82 fiscal year less the adjustments made pursuant to Provision 11 of Item 6870-101-001 of the Budget Act of 1982. Increases for each district provided by this paragraph shall be in addition to the increases provided by paragraphs (2) and (4) and shall be allowed only to the extent that increases in statewide average daily attendance provided by this section, exclusive of paragraph (4), does not exceed the rate of change of the adult population of the state as determined by the Department of Finance, or funds remain available statewide pursuant to paragraph (3).

(2) Increases in statewide average daily attendance shall be based on the rate of change of the adult population of the state as determined by the Department of Finance. The allocation of changes on a district-by-district basis shall be determined by the chancellor, based on such factors as the rate of change in the adult population, as determined by the Department of Finance, unemployment, refugee population, new or underutilized physical capacity for student enrollment, and adult participation in instructional programs of the district. The chancellor shall allocate at least 0.01 times the base average daily attendance of the district or 100 units of average daily attendance, whichever is greater, unless adjusted pursuant to paragraph (5) of this subdivision.

The statewide adult population percentage change reported by the Department of Finance shall be based on the resident adult population 18 years of age and older and shall be consistent with actual and projected adult population data reported for like purposes. The percentage change of the adult population of the community college districts shall be compatible with the changes reported for the statewide adult population and shall be determined within the geographic boundaries of the district which shall be

consistent with the geographic boundaries used to determine the assessed valuation of property within the district.

The allocation of allowable increases in average daily attendance on a district-by-district basis shall not exceed a reasonable anticipated normal growth for any district, based on information that the chancellor may receive from the district.

(3) The level of funding available for increases in average daily attendance for each district, based on increases specified in paragraph (2), shall be the sum of the following:

(A) The percentage of allowable increase in average daily attendance specified in paragraph (2) times the level of base noncredit average daily attendance of the current fiscal year times the incremental cost rate specified in subdivision (a) of Section 84702.5.

(B) The percentage of allowable increase in average daily attendance specified in paragraph (2) times the level of base credit average daily attendance of the current fiscal year times the incremental cost rate specified in subdivision (b) of Section 84702.5.

(4) The chancellor shall allocate additional increases in average daily attendance for program growth in areas of statewide concern that are funded in the annual Budget Act or any other act of the Legislature, based on criteria adopted for those allocations.

(5) In the event of a deficit in funding for workload increases, all allowable increases in average daily attendance provided by this section shall be reduced proportionally.

(c) All increases in funded credited average daily attendance shall be accounted for in the following categories of the course classification system of the community colleges, as determined by the chancellor:

(1) Units of average daily attendance in courses that provide transfer credit to a baccalaureate-awarding institution.

(2) Units of average daily attendance in occupational education and vocational and technical programs and courses.

(3) Units of average daily attendance which prepare students for courses identified in paragraphs (1) and (2).

SEC. 5. Section 84895 of the Education Code is amended to read:

84895. (a) The chancellor's office shall adjust the actual units of average daily attendance of a district operating under a plan approved in accordance with Sections 84893 and 84894 to reflect the conduct of staff, student, and instructional improvement activities in lieu of scheduled instruction during flexible time. The adjusted units of average daily attendance shall be computed by multiplying the actual units of average daily attendance in the academic year, exclusive of any intersessions, computed pursuant to Section 84520 by a factor which does not change the average daily attendance which would otherwise have been generated if the time for the improvement activities had not been permitted and scheduled instruction had instead taken place.

(b) For courses other than those described in subdivision (b) of

Section 84520, this multiplier factor shall equal the sum of the following:

(1) 1.0.

(2) The total of all the actual hours of flexible time of all instructors pursuant to Section 84890 in the fiscal year, divided by the total of all the actual hours of classroom instruction of all instructors in the academic year, exclusive of any intersessions.

(c) For those courses described in subdivision (b) of Section 84520, this multiplier factor shall equal the maximum term length multiplier set forth in that subdivision.

SEC. 6. Section 12463 of the Government Code is amended to read:

12463. The Controller shall annually compile and publish reports of the financial transactions of each county, city, and school district, as defined in Section 80 of the Education Code, within this state, together with such other matter as he or she deems of public interest. The reports shall be made in the time, form, and manner prescribed by the Controller.

SEC. 7. Section 626.9 of the Penal Code is amended to read:

[Approved by Governor July 26, 1985 Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 18290 of the Financial Code is amended to read:

18290. An industrial loan company may provide and collect the costs for credit life insurance on the life of one or more of the borrowers and credit disability insurance to provide indemnity for payments becoming due on the indebtedness, with his or her consent, the form to be approved by the Commissioner of Insurance, and in an amount not in excess of the amount of the indebtedness. The amount charged to the borrower for such insurance shall not exceed, in the case of credit life insurance, the amount provided in (1) or (2) following, whichever is less, or, in the case of credit disability insurance, unless a regulation has been promulgated and established pursuant to Section 18412, in which case the amount charged shall not exceed the amount prescribed by such regulation, the amount provided in (1) following:

(1) The premium rate filed with the Commissioner of Insurance for the coverage provided pursuant to Article 5.9 (commencing with Section 779.1) of Chapter 1 of Part 2 of Division 1 of the Insurance Code and which has not been disapproved by the Insurance Commissioner, or

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such different maximum as is fixed by the Commissioner of Insurance by a valid and effective regulation hereafter adopted.

SEC. 2. Section 18300 of the Financial Code is amended to read:

18300. (a) As used in this article, "open-end loan" means a loan or loans made by an industrial loan company pursuant to a loan agreement which expressly states that it is made pursuant to this section and pursuant to which:

(1) The industrial loan company may permit the borrower to obtain advances of money from the industrial loan company from time to time or the industrial loan company may advance money on behalf of the borrower from time to time as directed by the borrower.

(2) The amount of each advance and the charges and other permitted costs are debited to an account.

(3) The charges are computed from time to time on the unpaid balances of the borrower's account, excluding from the computation any unpaid charges other than permitted fees, costs and expenses.

(4) The borrower has the privilege of paying the account in full at any time or in monthly installments.

(b) Subject to the written approval of the commissioner of the industrial loan company's plan of business for making open-end loans as not being misleading or deceptive and subject to regulations the commissioner may promulgate with respect to open-end loans under Section 18347, an industrial loan company may make open-end loans pursuant to this section and may contract for and receive thereon charges as set forth in Section 18212. Such charges may be calculated on an amount not exceeding the greater of:

(1) The actual daily unpaid balances of the open-end account in the billing cycle for which the charge is made, in which case one-thirtieth of the monthly rate may be charged for each day the unpaid balance is outstanding.

(2) The average daily unpaid balance of the open-end account in the billing cycle for which the charge is made, which is the sum of the amount unpaid each day during that cycle divided by the number of days in that cycle. The amount unpaid on a day is determined by adding to the balance unpaid as of the beginning of that day all advances and other debits and deducting all payments and other credits made or received as of that day.

The billing cycle shall be monthly. A billing cycle is monthly if the closing date of that cycle is the same date each month or does not vary by more than four days from the regular date.

(c) No industrial loan company shall enter into any agreement for an open-end loan that provides for a minimum payment that would result in the full repayment of principal over more than the maximum periods set forth below opposite the respective size of loans.

Principal amount of loan	Maximum period
Less than $1,500	24 months and 15 days
$1,500 but less than $2,500	36 months and 15 days
$2,500 but less than $4,000	48 months and 15 days
$4,000 but less than $6,000	60 months and 15 days
$6,000 but less than $10,000	84 months and 15 days

The minimum payment shall be determined by the amount of the initial loan advance and shall continue at that amount until a subsequent loan advance is made, at which time the minimum payment shall be determined by the amount of the unpaid balance of the loan after the advance and including the advance. Minimum payments after each advance shall be determined in the same manner.

(d) On open-end loans the industrial loan company may contract for and receive the fees, costs and expenses permitted on other loans, including those permitted by Sections 18215, 18218, 18290, 18294, and

18412, subject to all of the conditions and restrictions set forth in those sections with the following variations:

(1) The charge for credit life insurance shall be on a monthly basis. No credit life insurance written in connection with an open-end loan shall be cancelled by the lender because of delinquency of the borrower in the making of the minimum payments thereon unless one or more of such payments is past due for a period of 90 days or more, and the lender shall advance to the insurer the amounts required to keep the insurance in force during such period, which amounts may be debited to the borrower's account.

(e) An industrial loan company shall not make an open-end loan in excess of ten thousand dollars ($10,000) principal amount.

(f) The loan contract shall provide for payment of minimum payments complying with subdivision (c). All loans made pursuant to this section shall be repayable by equal or substantially equal monthly payments during the term of the loan.

(g) In lieu of applying the provisions of Section 18290, the provisions contained herein shall apply to open-end loans.

An industrial loan company may provide insurance on the life of one or more borrowers with the borrower's consent. The form of the insurance shall be approved by the Insurance Commissioner and shall be in an amount not in excess of the indebtedness. The amount charged to the borrower for such insurance shall not exceed the amount provided in paragraph (1) or (2) following, whichever is less:

(1) The premium rate filed with the Insurance Commissioner for the coverage provided pursuant to Article 5.9 (commencing with Section 779.1) of Chapter 1 of Part 2 of Division 1 of the Insurance Code and which has not been disapproved by the Insurance Commissioner.

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such different maximum as is fixed by the Insurance Commissioner by a valid and effective regulation hereafter adopted.

Notwithstanding Section 18291, any such life insurance shall be in force as soon as the loan is made or coverage is agreed upon, whichever is later.

(h) The open-end loan agreement shall contain the name and address of the industrial loan company and shall disclose the nature of the security taken, if any, the method of determining the minimum payments which will be required to repay the initial advance, and any subsequent advances on the loan, and the agreed rate of charge.

(i) At the time the open-end loan agreement is made the industrial loan company shall obtain from the borrower a signed statement as to whether any person has performed any act as a broker in connection with the making of the loan. If such statement discloses a broker or other person has participated, the company shall obtain

a full statement of all sums paid or payable to the broker or other person. The open-end loan agreement and the statement required by this subdivision shall be kept for a period of two years after the date the loan has been paid in full, or has matured according to its terms, or has been charged off.

(j) Except in the case of an account which the industrial loan company deems to be uncollectible, or with respect to which delinquency collection procedures have been instituted, the company shall deliver or cause to be delivered to the borrower, or any one thereof, for each billing cycle at the end of which there is an outstanding balance in the account or with respect to which a finance charge is imposed, a statement setting forth the outstanding balance in the account at the beginning of the billing cycle, the date and amount of any subsequent loan advance during the period, the amounts and dates of crediting to the account during the billing cycle for payments, the amount of any finance charge debited to the account during the billing cycle, the annual percentage rate of finance charged determined under Regulation Z promulgated by the Board of Governors of the Federal Reserve System (12 C.F.R. 226), the balance on which the finance charge was computed, the closing date of the billing cycle, the outstanding balance on that date, and the minimum monthly payment required in the absence of any additional advance. If there has been any change in the nature of the security for the loan since the next preceding advance, the statement shall contain or be accompanied by a statement of the nature of the security for the loan after such change.

(k) An industrial loan company shall not take any instrument in connection with an open-end loan in which blanks are left to be filled in after execution.

(*l*) Subdivision (a) of Section 18205, and Sections 18206, 18214, 18222, 18231, and 18235 shall not apply to open-end loans.

(m) An industrial loan company shall not make an open-end loan secured by real property in whole or in part.

(n) An industrial loan company shall not charge for, offer or provide credit disability insurance in connection with an open-end loan.

(o) This section shall not apply to loans other than open-end loans.

Payment of the sum specified in this section shall be in accordance with the terms of the settlement reached by the plaintiff, the defendant State of California, and the defendant County of Los Angeles.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

An act to amend Sections 23703, 23710, 23711, and 23722 of the Government Code, relating to counties.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 23703 of the Government Code is amended to read:

23703. It shall be the duty of the county clerk, within 30 days after the filing of the petition, to examine the same, and to ascertain from the record of the registration of voters of the county, whether the petition is signed by the requisite number of eligible registered voters. If required by the clerk, the governing body shall authorize him to employ persons specially to assist him in the work of examining the petition, and shall provide for their compensation.

SEC. 2. Section 23710 of the Government Code is amended to

read:

23710. The proposed charter or revised charter shall be submitted by the governing body to the eligible registered voters of the county at a special election held on the next established election date not less than 88 days after the completion of the publication, or posting provided for in Section 23709.

SEC. 3. Section 23711 of the Government Code is amended to read:

23711. As an alternative to the procedure provided for in Sections 23700 through 23710 of this article, the governing body of any county, on its own motion may propose or cause to be proposed or revise or cause to be revised, a proposed charter and submit the proposal for adoption to the voters at either a special election called for that purpose or at any general or special election. Any charter so submitted shall be advertised in the same manner as provided for the advertisement of a charter proposed by a charter commission; and the election on such charter shall be held on the next established election date not less than 88 days after the completion of the advertising in the official paper.

SEC. 4. Section 23722 of the Government Code is amended to read:

23722. Upon the presentation of a petition, or upon its own submission of a proposal to amend or repeal the charter, the governing body shall submit the amendment or amendments proposed or the question of the repeal of the charter to the eligible registered voters of the county at a special election held on the next established election date not less than 88 days after the presentation of the petition, or submission of the proposal. In submitting the question of charter repeal or amendment, any alternative article or proposition may be presented for the choice of the voters, and may be voted on separately without prejudice to others.

The county clerk shall cause the complete text of the proposed amendment or amendments to be printed and mailed, at least 10 days prior to the date of the election, to each eligible registered voter in the county. Such complete text is "official matter" within the meaning of Section 10010 of the Elections Code. The county clerk shall also prepare and mail to each eligible registered voter in the county a sample ballot. The sample ballot shall be mailed with and at the same time as the complete text of the proposed amendment or amendments.

CHAPTER 302

An act to amend Sections 318 and 366.25 of the Welfare and Institutions Code, relating to juvenile court law.

[Approved by Governor July 26, 1985. Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 318 of the Welfare and Institutions Code is amended to read:

318. (a) Notwithstanding the provisions of Section 317, when a minor who is alleged to be a person described in subdivision (d) of Section 300 appears before the juvenile court at a detention hearing, the court shall appoint counsel. The court may appoint the county counsel to represent the minor, if there is no conflict of interest between the county and the minor, or the district attorney pursuant to Section 351.

(b) The counsel appointed by the court shall represent the minor at the detention hearing and at all subsequent proceedings before the juvenile court.

(c) Any counsel upon entering an appearance on behalf of a minor shall continue to represent that minor unless relieved by the court upon the substitution of other counsel or for cause.

(d) The counsel shall be charged in general with the representation of the child's interests. To that end, counsel shall make such further investigations as he or she deems necessary to ascertain the facts, including the interviewing of witnesses, and he or she shall examine and cross-examine witnesses in both the adjudicatory and dispositional hearings; he or she may also introduce and examine his or her own witnesses, make recommendations to the court concerning the child's welfare, and participate further in the proceedings to the degree necessary to adequately represent the child. In addition, the counsel shall investigate the interests of the child beyond the scope of the juvenile proceeding and report to the court other interests of the child that may be protected by other administrative or judicial proceedings, including but not limited to, a civil action pursuant to subdivision (b) of Section 11172 of the Penal Code. The court shall take whatever appropriate action is necessary to fully protect the interests of the child.

(e) Notwithstanding any other provision of law, counsel shall be given access to all records relevant to the case which are maintained by state or local public agencies. Counsel shall be given access to records maintained by hospitals or by other medical or nonmedical practitioners or by child care custodians, in the manner prescribed by Section 1158 of the Evidence Code.

SEC. 2. Section 366.25 of the Welfare and Institutions Code is amended to read:

366.25. (a) In order to provide stable, permanent homes for children, a court shall, if the minor cannot be returned home pursuant to subdivision (e) of Section 366.2, conduct a permanency planning hearing to make a determination regarding the future status of the minor no later than 12 months after the original

dispositional hearing in which the child was removed from the custody of his or her parent, parents, or guardians, and in no case later than 18 months from the time of the minor's original placement pursuant to Section 319 or Section 16507.4 and periodically, but no less frequently than once each 18 months, thereafter during the continuation of foster care. The permanency planning hearing may be combined with the six months' review as provided for in Section 366. In the case of a minor who has been removed from his or her parent or guardian pursuant to paragraph (5) of subdivision (b) of Section 361 because of severe physical abuse, and concerning whom the court has found, pursuant to subdivision (c) of Section 366, that return of the minor to his or her parent or guardian would be detrimental to the minor, a permanency planning hearing shall be held immediately upon the making of such a finding, or as soon thereafter as is reasonably feasible.

(b) Notice of the proceeding to conduct the review shall be mailed by the probation officer to the same persons as in an original proceeding, to the minor's present custodian, and to the counsel of record, by certified mail addressed to the last known address of the person to be notified, or shall be personally served on those persons not earlier than 30 days, nor later than 15 days prior to the date the review is to be conducted.

(c) Except in cases where permanency planning is conducted pursuant to subdivision (c) of Section 366, the court shall first determine at the hearing whether the minor should be returned to his or her parent or guardian, pursuant to subdivision (e) of Section 366.2. If the minor is not returned to the custody of his or her parent or guardian the court shall determine whether there is a substantial probability that the minor will be returned to the physical custody of his or her parent or guardian within six months. If the court so determines it shall set another review hearing for not more than six months, which shall be a permanency planning hearing. In the case of a minor who has been removed from the physical custody of his or her parent or guardian because of severe physical abuse pursuant to paragraph (5) of subdivision (b) of Section 361, and concerning whom the court has found pursuant to subdivision (c) of Section 366 that attempts at reunification with his or her parent or guardian would be detrimental, the court shall not continue proceedings for further review pursuant to this subdivision.

(d) If the court determines that the minor cannot be returned to the physical custody of his or her parent or guardian and that there is not a substantial probability that the minor will be returned within six months, the court shall develop a permanent plan for the minor. In order to enable the minor to obtain a permanent home the court shall make the following determinations and orders:

(1) If the court finds that it is likely that the minor can or will be adopted, the court shall authorize the appropriate county or state agency to proceed to free the minor from the custody and control of his or her parents or guardians pursuant to Section 232 of the Civil

Code unless the court finds that any of the following conditions exist:

(A) The parents or guardians have maintained regular visitation and contact with the minor and the minor would benefit from continuing this relationship.

(B) A minor 12 years of age or older objects to termination of parental rights.

(C) The minor's foster parents are unable to adopt the minor because of exceptional circumstances which do not include an unwillingness to accept legal responsibility for the minor, but are willing and capable of providing the minor with a stable and permanent environment and the removal of the minor from the physical custody of his or her foster parents would be seriously detrimental to the emotional well-being of the minor.

(2) If the court finds that it is not likely that the minor can or will be adopted or that one of the conditions in subparagraph (A), (B), or (C) of paragraph (1) applies, the court shall order the appropriate county department to initiate or facilitate the placement of the minor in a home environment that can be reasonably expected to be stable and permanent. This may be accomplished by initiating legal guardianship proceedings or long-term foster care. Legal guardianship shall be considered before long-term foster care, if it is in the best interests of the child and if a suitable guardian can be found. When the minor is in a foster home and the foster parents are willing and capable of providing a stable and permanent environment, the minor shall not be removed from the home if the removal would be seriously detrimental to the emotional well-being of the minor because the minor has substantial psychological ties to the foster parents.

(3) (A) If the court finds that it is not likely that the minor can or will be adopted, that there is no suitable adult available to become the legal guardian of the minor, and that there are no suitable foster parents except exclusive-use homes available to provide the minor with a stable and permanent environment, the court may order the care, custody, and control of the minor transferred from the county welfare department or probation department to a licensed homefinding agency. The court shall consider the written recommendation of the county welfare director or chief probation officer regarding the suitability of such a transfer. The transfer shall be subject to further court orders.

(B) The licensed homefinding agency shall place the minor in a suitable licensed or exclusive-use home which has been certified by the agency as meeting licensing standards. The licensed homefinding agency shall be responsible for supporting the minor and for providing appropriate services to the minor, including those services ordered by the court. Responsibility for support of the minor shall not in and of itself create liability on the part of the homefinding agency to third persons injured by the minor. Those minors whose care, custody, and control are transferred to a homefinding agency shall not be eligible for foster care maintenance payments or child

welfare services, except for emergency response services pursuant to Section 16504.

(C) Notwithstanding the provisions of subdivision (j), subsequent reviews for these minors shall be conducted every six months by the court. The licensed homefinding agency shall be required to submit reports for each minor in its care, custody, and control to the court concerning the continuing appropriateness and extent of compliance with the minor's permanent plan, the extent of compliance with the case plan, and the type and adequacy of services provided to the minor.

(e) Notwithstanding Section 1510 of the Probate Code, the proceeding for the appointment for a guardian for a minor under this section shall be in the juvenile court. In such a case, the juvenile court may appoint a guardian pursuant to the standards and procedures otherwise specified by the Probate Code.

(f) When an adoption of the minor has been granted, the court shall terminate its jurisdiction over the minor.

(g) Periodic reviews conducted by the court subsequent to the initial permanency planning hearing shall determine the appropriateness of the placement, the continuing appropriateness and extent of compliance with the permanent plan for the child, the extent of compliance with the case plan, and adequacy of services provided to the child.

(h) Physical custody of a minor by his or her parents or guardians for insubstantial periods during the 12-month period prior to a permanency planning hearing shall not serve to interrupt the running of such periods.

(i) Subsequent permanency planning hearings need not be held if (1) the child has been freed for adoption and placed in the adoptive home identified in the previous permanency planning hearing and is awaiting finalization of the adoption or (2) the child is a ward of a guardian.

(j) Subsequent reviews shall be conducted every six months and be conducted by an administrative review board except when the court requires a court review or a court review is requested by the minor's parents or guardian or by the minor.

(k) Notwithstanding any other provision of law, the application of any person who, as a foster parent, has cared for a dependent child for whom the court has approved a permanent plan for adoption, or who has been freed for adoption, shall be given preference with respect to that child over all other applications for adoptive placement if the agency making the placement determines that the child has substantial emotional ties to the foster parent and removal from the foster parent would be seriously detrimental to the child's well-being.

As used in this subdivision, "preference" means that the application shall be processed and, if satisfactory, the family study shall be completed before the processing of the application of any other person for the adoptive placement of the child.

CHAPTER 303

An act to amend Section 4700.7 of the Civil Code, relating to family law.

[Approved by Governor July 26, 1985. Filed with Secretary of State July 29, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 4700.7 of the Civil Code is amended to read:

4700.7. In any proceeding involving child support or spousal support, no party to the proceeding may refuse to submit copies of his or her state income tax returns to the court, whether individual or joint. The tax returns may be examined by the other party and are discoverable by the other party. A party also may be examined by the other party as to the contents of a tax return so submitted. If the judge finds that it is relevant to the case to retain the tax return, the tax return shall be sealed and maintained as a confidential record of the court. If the court finds that the tax return is not relevant to disposition of the case, all copies of the tax return shall be returned to the party that submitted it.

CHAPTER 304

An act to amend Section 129 of the Code of Civil Procedure, to amend Sections 27491, 27491.1, 27491.2, and 27491.3 of the Government Code, and to amend Section 10250 of the Health and Safety Code, relating to coroners.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 29, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 129 of the Code of Civil Procedure is amended to read:

129. Notwithstanding any other provision of law, no copy, reproduction, or facsimile of any kind shall be made of any photograph, negative, or print, including instant photographs and video tapes, of the body, or any portion of the body, of a deceased person, taken by or for the coroner at the scene of death or in the course of a post mortem examination or autopsy made by or caused to be made by the coroner, except for use in a criminal action or proceeding in this state which relates to the death of that person, or except as a court of this state permits, by order after good cause has been shown and after written notification of the request for the court order has been served, at least five days before the order is made,

upon the district attorney of the county in which the post mortem examination or autopsy has been made or caused to be made.

This section shall not apply to the making of such a copy, reproduction, or facsimile for use in the field of forensic pathology, for use in medical, or scientific education or research, or for use by any law enforcement agency in this or any other state or the United States.

This section shall apply to any such copy, reproduction, or facsimile, and to any such photograph, negative, or print, heretofore or hereafter made.

SEC. 2. Section 27491 of the Government Code is amended to read:

27491. It shall be the duty of the coroner to inquire into and determine the circumstances, manner, and cause of all violent, sudden, or unusual deaths; unattended deaths; deaths wherein the deceased has not been attended by a physician in the 20 days before death; deaths related to or following known or suspected self-induced or criminal abortion; known or suspected homicide, suicide, or accidental poisoning; deaths known or suspected as resulting in whole or in part from or related to accident or injury either old or recent; deaths due to drowning, fire, hanging, gunshot, stabbing, cutting, exposure, starvation, acute alcoholism, drug addiction, strangulation, aspiration, or where the suspected cause of death is sudden infant death syndrome; death in whole or in part occasioned by criminal means; deaths associated with a known or alleged rape or crime against nature; deaths in prison or while under sentence; deaths known or suspected as due to contagious disease and constituting a public hazard; deaths from occupational diseases or occupational hazards; deaths of patients in state mental hospitals serving the mentally disabled and operated by the State Department of Mental Health; deaths of patients in state hospitals serving the developmentally disabled and operated by the State Department of Developmental Services; deaths under such circumstances as to afford a reasonable ground to suspect that the death was caused by the criminal act of another; and any deaths reported by physicians or other persons having knowledge of death for inquiry by coroner. Inquiry pursuant to this section does not include those investigative functions usually performed by other law enforcement agencies.

In any case in which the coroner conducts an inquiry pursuant to this section, the coroner or a deputy shall personally sign the certificate of death. If the death occurred in a state hospital, the coroner shall forward a copy of his or her report to the state agency responsible for the state hospital.

The coroner shall have discretion to determine the extent of inquiry to be made into any death occurring under natural circumstances and falling within the provisions of this section, and if inquiry determines that the physician of record has sufficient knowledge to reasonably state the cause of a death occurring under natural circumstances, the coroner may authorize that physician to

sign the certificate of death.

For the purpose of inquiry, the coroner shall have the right to exhume the body of a deceased person when necessary to discharge the responsibilities set forth in this section.

Any funeral director, physician, or other person who has charge of a deceased person's body, when death occurred as a result of any of the causes or circumstances described in this section, shall immediately notify the coroner. Any person who does not notify the coroner as required by this section is guilty of a misdemeanor.

SEC. 3. Section 27491.1 of the Government Code is amended to read:

27491.1. In all cases in which a person has died under such circumstances as to afford a reasonable ground to suspect that the person's death has been occasioned by the act of another by criminal means, the coroner, upon determining that such reasonable grounds exist, shall immediately notify the law enforcement agency having jurisdiction over the criminal investigation. Notification shall be made by the most direct communication available. The report shall state the name of the deceased person, if known, the location of the remains, and all other information received by the coroner relating to the death.

SEC. 4. Section 27491.2 of the Government Code is amended to read:

27491.2. (a) The coroner or the coroner's appointed deputy, on being informed of a death and finding it to fall into the classification of deaths requiring his or her inquiry, may immediately proceed to where the body lies, examine the body, make identification, make inquiry into the circumstances, manner, and means of death, and, as circumstances warrant, either order its removal for further investigation or disposition or release the body to the next of kin.

(b) For purposes of inquiry, the body of one who is known to be dead from any of the causes or under any of the circumstances described in Section 27491 shall not be disturbed or moved from the position or place of death without permission of the coroner or the coroner's appointed deputy. Any violation of this subdivision is a misdemeanor.

SEC. 5. Section 27491.3 of the Government Code is amended to read:

27491.3. (a) In any death into which the coroner is to inquire, the coroner may take charge of any and all personal effects, valuables, and property of the deceased at the scene of death or related to the inquiry and hold or safeguard them until lawful disposition thereof can be made. The coroner may lock the premises and apply a seal to the door or doors prohibiting entrance to the premises, pending arrival of a legally authorized representative of the deceased. However, this shall not be done in such a manner as to interfere with the investigation being conducted by other law enforcement agencies. Any costs arising from the premises being locked or sealed while occupied by property of the deceased may be a proper and

legal charge against the estate of the deceased. Unless expressly permitted by law, any person who enters any premises or tampers with or removes any lock or seal in violation of this section is guilty of a misdemeanor.

(b) Any property or evidence related to the investigation or prosecution of any known or suspected criminal death may, with knowledge of the coroner, be delivered to a law enforcement agency or district attorney, receipt for which shall be acknowledged.

(c) Except as otherwise provided in subdivision (d), any person who searches for or removes any papers, moneys, valuable property or weapons constituting the estate of the deceased from the person of the deceased or from the premises, prior to arrival of the coroner or without the permission of the coroner, is guilty of a misdemeanor. At the scene of any death, when it is immediately apparent or when it has not been previously recognized and the coroner's examination reveals that police investigation or criminal prosecution may ensue, the coroner shall not further disturb the body or any related evidence until the law enforcement agency has had reasonable opportunity to respond to the scene, if their purposes so require and they so request. Custody and control of the body shall remain with the coroner at all times. Reasonable time at the scene shall be allowed by the coroner for criminal investigation by other law enforcement agencies, with the time and location of removal of the remains to a convenient place to be determined at the discretion of the coroner.

(d) A peace officer may search the person or property on or about the person of the deceased, whose death is due to a traffic accident, for a driver's license or identification card to determine if an anatomical donor card is attached. If a peace officer locates such an anatomical donor card which indicates that the deceased is an anatomical donor, the peace officer shall immediately furnish such information to the coroner having jurisdiction.

"Peace officer," as used in this subdivision, means only those persons designated in Sections 830.1 and 830.2 of the Penal Code.

SEC. 6. Section 10250 of the Health and Safety Code is amended to read:

10250. A physician, funeral director, or other person shall immediately notify the coroner when he or she has knowledge of a death which occurred or has charge of a body in which death occurred under any of the following circumstances:

(a) Without medical attendance.

(b) During the continued absence of the attending physician.

(c) Where the attending physician is unable to state the cause of death.

(d) Where suicide is suspected.

(e) Following an injury or an accident.

(f) Under such circumstances as to afford a reasonble ground to suspect that the death was caused by the criminal act of another.

Any person who does not notify the coroner as required by this

section is guilty of a misdemeanor.

SEC. 7. Notwithstanding Section 6 of Article XIII B of the California Constitution and Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act for the purpose of making reimbursement pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

SEC. 8. Notwithstanding Section 2231.5 of the Revenue and Taxation Code, this act does not contain a repealer, as required by that section; therefore, the provisions of this act shall remain in effect unless and until they are amended or repealed by a later enacted act.

CHAPTER 305

An act relating to wildlife, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

(b) The waystation serves a statewide public purpose in providing temporary shelter and rehabilitation for wild animals, and the grant provided by this act is necessary to the continued operation of the waystation.

SEC. 2. (a) The sum of three hundred thousand dollars ($300,000) is hereby appropriated from the California Environmental License Plate Fund to the Department of Fish and Game for a grant to the Wildlife Waystation in Los Angeles County for the purpose of making improvements necessary to protect the health and safety of the wild animals temporarily located at the Wildlife Waystation, in accordance with a plan approved by the Department of Fish and Game.

(1) The Director of Fish and Game has determined that the funds appropriated in subdivision (a) are required by the Wildlife Waystation in order to effectuate the purposes of this act.

(2) The plan referred to in subdivision (a) has been approved and the present owner has transferred, subject to any encumbrance existing on or before July 9, 1985, title to the 20 acres, including all

If the 20 acres are ever transferred to any natural person or corporation, other than a successor corporation that is a California nonprofit corporation, title to the 20 acres and all improvements thereon shall become vested in the state.

(c) The Director of Fish and Game shall be authorized to review the financial records of the Wildlife Waystation to the extent necessary to effectuate the provisions of paragraph (1) of subdivision (b).

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to fund, as soon as possible, urgently needed improvements to Wildlife Waystation property which will permit the continued operation of the organization's wildlife compound, it is necessary that this act take effect immediately.

CHAPTER 306

An act to add Sections 34312.4 and 34350.2 to the Health and Safety Code, relating to housing authorities.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 34312.4 is added to the Health and Safety Code, to read:

34312.4. (a) Subject to the requirements of Article 5 (commencing with Section 34350), for purposes of implementing a home financing program an authority has the following powers and duties:

(1) To acquire, contract, and enter into advance commitments to acquire, home mortgages made or owned by lending institutions at the purchase prices and upon the other terms and conditions as shall be determined by the authority or other person as it may designate as its agent, to make and execute contracts with lending institutions for the origination and servicing of home mortgages and to pay the reasonable value of services rendered under those contracts. Prior to executing any contract with a lending institution, an authority shall adopt regulations establishing criteria for qualification of lending institutions eligible to originate and service home mortgages under home financing programs authorized by this section and shall, with respect to each home financing program, permit each qualified lending institution which transacts business in the area of operation

of the authority the opportunity to participate in the program on an equitable basis with other participating lending institutions.

(2) To make loans to lending institutions under terms and conditions which, in addition to other provisions as determined by the authority, shall require the lending institutions to use all of the net proceeds thereof, directly or indirectly, for the making of home mortgages in an aggregate principal amount equal to the amount of the net proceeds.

(3) To establish, by rules or regulations, in resolutions relating to any issuance of bonds or in any documents relating to the issuance, standards, and requirements applicable to the purchase of home mortgages or the making of loans to lending institutions the authority deems necessary or desirable to effectuate the purposes of this section, which may include without limitation any of the following:

(A) The time within which lending institutions are required to make commitments and disbursements for home mortgages.

(B) The location and other characteristics of homes to be financed by home mortgages.

(C) The terms and conditions of home mortgages to be acquired.

(D) The amounts and types of any insurance coverage required on homes, home mortgages, and bonds.

(E) The representations and warranties of lending institutions confirming compliance with the standards and requirements.

(F) Restrictions as to interest rate and other terms of home mortgages or the return realized therefrom by lending institutions.

(G) The type and amount of collateral security to be provided to assure repayment of any loans from the authority and to ensure repayment of bonds.

(H) Any other matters related to the purchase of home mortgages or the making of loans to lending institutions deemed relevant by the authority.

(4) To require from each lending institution from which home mortgages are purchased or to which loans are made the submission of evidence satisfactory to the authority of the ability and intention of the lending institution to make home mortgages, and the submission, within the time specified by the authority for making disbursements for home mortgages, of evidence satisfactory to the authority of the making of home mortgages and of compliance with any standards and requirements established by the authority.

(b) Each authority which finances housing pursuant to this section shall designate a person or entity to administer the program.

(c) Each authority which finances housing pursuant to this section shall adopt regulations establishing criteria for the qualification of persons and families, which may differ among different areas of operation of authorities to reflect varying economic and housing conditions. In developing this criteria, factors similar to the following shall be taken into consideration:

(1) The amount of the income of the person or family that is available for housing needs.

(2) The size of the household.

(3) The costs and condition of available housing.

(4) The eligibility of the persons or families for federal housing assistance of any type.

(d) Criteria for qualification of persons and families pursuant to this section shall include a maximum household income, which maximum shall not exceed the following:

(1) One hundred twenty percent of the median household income for mortgages made for improving a home or for homes where the purchaser will be the first occupant. Upon the resale of a home for which financing was originally provided under this paragraph, the maximum income of persons and families shall also be 120 percent of the median household income.

(2) The median household income where the purchaser will not be the first occupant. However, the authority shall ensure that no less than one-half of the funds allocated for home mortgages where the purchaser will not be the first occupant shall be for households whose income does not exceed 80 percent of that median household income. However, the authority may, by resolution, increase this income limitation to 90 percent of median household income if the authority finds that there are insufficient numbers of creditworthy persons whose income does not exceed 80 percent of median household income. The resolution is final and conclusive as to the findings required by this paragraph.

(3) One hundred fifty percent of the median household income for mortgages made for improving a home or for homes where the purchaser will be the first occupant in any city, the entire area of which, or in any county in which a portion of the county, is designated by the United States Department of Commerce, Economic Development Administration as a special impact area within a Title IV redevelopment area, pursuant to Section 401 of the federal Public Works and Economic Development Act of 1965, as amended, and which is eligible for Urban Development Action Grant funds under the current distress standards established for cities and counties by the Secretary of the United States Department of Housing and Urban Development pursuant to Section 119 of the Housing and Community Development Act of 1974, if the homes purchased or improved are situated within the boundaries of a special impact area as defined by the Economic Development Administration, and that designation is in effect on the date of sale of revenue bonds issued under this section.

As used in this subdivision, "median household income" means the highest of (A) statewide median household income, (B) countywide median household income, or (C) median family income for area as determined by the United States Department of Housing and Urban Development, with respect to either a standard metropolitan statistical area or an area outside of a standard metropolitan statistical area.

(e) Each authority which finances housing pursuant to this section

shall allocate no less than 60 percent of the dollar amount of its financing from bond proceeds to fund loans for the purchase of homes where the purchaser will be the first occupant, or for substantial rehabilitation. Sec. 5. Each storm water district shall be under the control of three trustees, to be elected as hereinafter provided, who shall constitute the governing board thereof. Each trustee shall be a freeholder of the district and shall have resided therein at least one year next preceding his or her election; provided, however, that when unincorporated territory is included with incorporated territory in the district, at least one of the trustees shall be an eligible freeholder of the unincorporated territory, if an eligible person resides in the unincorporated territory, and shall post a bond in the sum the board of supervisors who formed the district determines. The bond shall be approved by a superior judge of the county and filed with the county clerk thereof. The trustees, except those first elected, shall take office at noon of the last Friday of the November in which they were elected, and shall hold office for the term of four years and until their successors are elected and qualified.

Notice of the election, stating the time, place or places and purpose thereof, and the names of the election officers shall be given by the board of supervisors by publication in a newspaper of general circulation designated by the board of supervisors and published in the county, for two weeks before the election. The election shall, except as herein otherwise provided, be held in conformity to the law for holding special elections, as to matters provided for thereby, and as to other matters in conformity to the general district elections, so far as applicable; but no sample ballots shall be sent out. The election board shall count the votes as soon as the polls are closed, and forward the returns of the election to the board of supervisors. The board of supervisors at their next regular meeting thereafter shall canvass the returns, and issue certificates of election to the persons elected. The board of trustees so elected shall meet and organize on the next Monday after their certificates of election are issued to them, and shall hold office for the term provided by Section 23506 of the Elections Code. All

subsequent elections of trustees shall be held at the times and in the manner provided in the Uniform District Election Law (Part 3 (commencing with Section 23500) of Division 14 of the Elections Code). The trustees elected at the first general district election held after January 1, 1986, or at the first general district election held after the formation of a district shall meet as soon as practicable to determine their respective terms of office in the manner provided in subdivision (c) of Section 23506 of the Elections Code. Should a vacancy occur or be found to exist in the office of trustee, the board of trustees shall submit to the board of supervisors a list of suggested appointees, and the board of supervisors shall fill the vacancy by appointment. If the board of supervisors does not make the appointment from the list submitted by the board of trustees, it shall make a finding stating the reasons for its selection. A notice of the vacancies shall be posted in three or more conspicuous places in the district at least 15 days before any appointment is made pursuant to this subdivision. The board of trustees shall determine the term of office of each of the new trustees so appointed, but in no event shall the term designated by the board be for more than four years. The terms of office thus created shall be determined in such a manner as to keep as nearly equal as practicable the number of trustees to be elected at each subsequent general district election. Upon the expiration of the term so designated by the board of trustees, the office shall be filled at the next general district election and general district elections held thereafter for the election of officers of the district. The term of office of each trustee elected at a general district election is four years or until his or her successor qualifies and takes office.

(b) At any time after the adoption of a resolution pursuant to subdivision (a), the resolution may be repealed by a unanimous vote of the trustees. Immediately upon the effective date of the repeal of the resolution, the additional offices created by the resolution shall be deemed vacated and abolished.

SEC. 4. Section 7 of the Storm Water District Act of 1909 (Chapter 222 of the Statutes of 1909) is amended to read:

They shall hold regular meetings at such office, at such times as they shall by order prescribe. Special meetings may be held on written order of any two trustees and two days written notice to any trustee not joining in the order. The order shall specify the business for which the special meeting is called and no other business shall be transacted at that meeting.

CHAPTER 314

An act to amend Section 35580 of the Water Code, and to add Section 4.13 to the Yuba County Water Agency Act (Chapter 788 of the Statutes of 1959), relating to special districts.

[Approved by Governor July 26, 1985. Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 35580 of the Water Code is amended to read:

35580. This chapter applies only to the Chowchilla Water District, the La Branza Water District, the Rock Creek Water District, and the Tea Pot Dome Water District. The Biggs-West Gridley Water District, the Butte Water District, and the Sutter Extension Water District may also exercise the powers granted by this chapter to construct, maintain, and operate one or more plants for the generation of hydroelectric power on the Thermolito Afterbay of the Oroville Dam Project of the State Water Resources Development System.

The power to construct, operate, and maintain works to develop hydroelectric energy does not include, and nothing in this chapter authorizes, the acquisition of property already employed in the generation of hydroelectric energy for public utility purposes except by mutual agreement between the district and the owner of that property.

SEC. 2. Section 4.13 is added to the Yuba County Water Agency Act (Chapter 788 of the Statutes of 1959), to read:

Sec. 4.13. The agency may develop hydroelectric alternate energy supply sources under 75 megawatts in accordance with Chapter 3.2 (commencing with Section 4217.10) of Division 5 of Title 1 of the Government Code.

SEC. 3. The Biggs-West Gridley Water District, the Butte Water District, and the Sutter Extension Water District have a potential source of hydroelectric power in their water facilities which can be generated as an incident to the operation of those facilities. This incidental source of hydroelectric power is not common to other California water districts. The Legislature therefore finds and declares that a special law is necessary with respect to the Biggs-West Gridley Water District, the Butte Water District, and the Sutter Extension Water District, that the provisions of Section 1 of this act are needed to meet special circumstances within those districts, and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 4. Sections 1 and 3 of this act shall not become operative if Senate Bill 245 of the 1985–86 Regular Session is enacted and becomes operative.

CHAPTER 315

An act to amend Sections 8894, 8961.4, 8961.6, 8990, 8991, and 9004 of the Health and Safety Code, relating to public cemetery districts.

[Approved by Governor July 26, 1985. Filed with Secretary of State July 29, 1985.]

8894. "Nonresident fee," as used in this part, means a fee established by the trustees which meets the following criteria:

(a) The fee shall be established at an amount which will permit that portion of the cemetery in which the grave is located to be maintained on a self-supporting basis and shall be in an amount which will at least reimburse the district for the cost of the grave and the cost of services.

(b) The fee shall include a surcharge of at least 15 percent of the amount required by subdivision (a).

(c) The fee shall also include a deposit to the endowment care fund which shall be established by the trustees in an amount not less than the minimum amount set forth in Section 8738 or any amendments thereto. The amount of the deposits shall not be greater than the amount which is required to produce sufficient income to defray actual costs of care and maintenance of the cemetery or cemeteries for which the endowment care fund has been established.

SEC. 2. Section 8961.4 of the Health and Safety Code is amended to read:

8961.4. The board of trustees shall establish rates to be charged for burials within cemeteries of the district, which rates shall, insofar as possible, be established at an amount which will permit that portion of the cemetery in which the grave is located to be maintained on a self-supporting basis and shall be in an amount which will at least reimburse the district for the cost of the grave and the cost of services.

The board shall require a deposit in the endowment care fund which shall be established by the trustees in an amount not less than the minimum amount set forth in Section 8738 or any amendments thereto. The amount of the deposits shall not be greater than the amount which is required to produce sufficient income to defray actual costs of care and maintenance of the cemetery or cemeteries

for which the endowment care fund has been established.

SEC. 3. Section 8961.6 of the Health and Safety Code is amended to read:

8961.6. Notwithstanding the provisions of Sections 8961 to 8961.4, inclusive, a district may contract with the county in which the district is located to bury any nonresident indigents for the county if the trustees determine that there is more space available in the cemetery of the district than is necessary to meet the foreseeable needs of the district.

The contract shall require the county with which it is made to pay all costs incident to the burial of any indigent in the cemetery of the district and to pay a deposit in the endowment care fund in the amount established by the district and at least the minimum set forth in Section 8738 or any amendments thereto or to pay any future costs incurred by the district in maintaining the grave of the indigent.

SEC. 4. Section 8990 of the Health and Safety Code is amended to read:

8990. As soon after the first day of July as practicable, the trustees shall file with the board, or boards of supervisors if the district is situated in more than one county, a report, setting forth all their transactions during the fiscal year, and containing an itemized account of all their receipts and disbursements during the fiscal year, together with proper vouchers for them.

SEC. 5. Section 8991 of the Health and Safety Code is amended to read:

8991. The board of supervisors, or boards of supervisors if the district is situated in more than one county, may provide by an order entered upon the minutes of the board, or upon the minutes of each board, that, in lieu of the trustees reports required by Sections 8990 and 9004, the trustees shall file with the board, or each board, a verified copy of the audit report of the annual audit of the district made pursuant to Section 26909 of the Government Code. The copy shall be filed with the board or boards as soon after the first day of July as is practicable.

SEC. 6. Section 9004 of the Health and Safety Code is amended to read:

9004. The trustees shall include in the report filed pursuant to Section 8990 with the board or boards of supervisors of the county or counties in which the district is situated, an itemized report of the receipts and expenditures from the fund.

(a) Possession of, claim to, or right to the possession of land or improvements, except when coupled with ownership of the land or improvements in the same person.

(b) Taxable improvements on tax-exempt land.

Any possessory interest may, in the discretion of the county board of supervisors, be considered as sufficient security for the payment of any taxes levied thereon and may be placed on the secured roll.

Leasehold estates for the production of gas, petroleum and other hydrocarbon substances from beneath the surface of the earth, and other rights relating to these substances which constitute incorporeal hereditaments or profits a prendre, are sufficient security for the payment of taxes levied thereon. These estates and rights shall not be classified as possessory interests, but shall be placed on the secured roll.

If the tax on any possessory interest or leasehold estate for the production of gas, petroleum and other hydrocarbon substances is unpaid when any installment of secured taxes become delinquent, the tax collector may use those collection procedures which are available for the collection of assessments on the unsecured roll.

If the tax on any possessory interest or leasehold estate for the production of gas, petroleum and other hydrocarbon substances remains unpaid at the time set for the declaration of default for taxes carried on the secured roll, the possessory interest tax together with any penalty and costs which may be accrued thereon while on the secured roll shall be transferred to the unsecured roll.

SEC. 2. Section 405.1 of the Revenue and Taxation Code is repealed.

SEC. 3. Section 455 of the Revenue and Taxation Code is amended to read:

(a) The property has not been declared tax defaulted for delinquent taxes, and,

(b) The property has been redeemed from the tax sale and deed to the taxing agency, or

(c) The tax deed to the taxing agency has been held to be invalid and has been canceled; provided, however, that the statute of limitations provided for in Section 532 shall not apply.

(b) All property which was tax-deeded to the state prior to the enactment of Chapter 988 of the Statutes of 1984 and was unassessed because of the tax deed to the state shall be assessed as if the tax deed was never issued.

SEC. 9. Section 613 of the Revenue and Taxation Code is amended to read:

613. A mistake in the name of the owner or supposed owner of real estate does not render invalid an assessment or any deed to a purchaser at a tax sale.

A mistake in the name of an owner or supposed owner of property on the unsecured roll which does not prevent the person from reasonably ascertaining that he or she is the assessee does not render invalid an assessment or any tax sale.

SEC. 10. Section 614 of the Revenue and Taxation Code is amended to read·

614. After each assessment of tax-defaulted property the assessor shall enter on the roll the fact that it is tax defaulted and the date of the declaration of default.

SEC. 11. Section 2188.7 of the Revenue and Taxation Code is amended to read:

2188.7. (a) Whenever the assessor receives a written request for separate assessment of a community apartment project, a stock cooperative, or a limited equity housing cooperative as defined in Section 11003.2, 11003.4, or 11004 of the Business and Professions Code, or any other similarly organized housing cooperative, the assessor shall, on the first lien date which occurs more than 60 days following the request, and on each lien date thereafter, separately assess the individual interests described in subdivision (b) held by the owners of the project or shareholders of the corporation if the conditions specified in subdivision (c) have been met. Whenever a community apartment project or cooperative housing corporation is separately assessed, it shall continue to be separately assessed in subsequent fiscal years and once a request for separate assessment is made, it is binding on all future owners and occupants of the project or corporation.

(b) For community apartment projects, and similarly organized projects, the interest that is to be separately assessed pursuant to subdivision (a) is the value of the right of exclusive occupancy in a portion of the real property coupled with an undivided interest in the land. For cooperative housing corporations, limited equity housing cooperatives and similarly organized cooperatives, the interest that is to be separately assessed is the value of the right of exclusive occupancy which is transferable only concurrently with the transfer of the share or shares of stock in the corporation held by the person having such right of occupancy, together with an interest in appurtenant common areas.

(c) Except as provided in subdivision (a), a separate assessment of any interest described in subdivision (b) may not be made by the assessor unless:

(1) The person making the request certifies that the owners or shareholders have been notified and the request for separate assessment has been approved in the manner provided in the organizational documents of the organization involved for approval of matters affecting the affairs of the organization generally; and

(2) A diagrammatic floor plan of the improvements and a survey plot map of the land showing the location of the improvements on the land, prepared in the form required by Chapter 2 (commencing with Section 66425) of Division 2 of Title 7 of the Government Code, has been recorded with the county recorder and filed with the assessor.

(d) Notwithstanding the provisions of subdivision (c), this section shall not be construed to require applicants for separate assessments to meet the requirements of the Subdivision Map Act, nor shall the approval of any governmental agency be required for separate assessment except for the assessor's approval prior to recordation of the plot map and diagrammatic plan required by subdivision (c).

(e) Notwithstanding the provisions of Section 2605 and regardless of whether the board of supervisors has adopted a resolution in accordance with Section 2700, the tax on interests in a cooperative

housing corporation or a limited-equity housing corporation separately assessed pursuant to subdivision (a) shall be entered on the secured roll and may be paid in two installments as provided in Chapter 2.1 (commencing with Section 2700) of Part 5. However, if:

(1) The tax on the separately assessed interest is unpaid when any installment of taxes on the secured roll becomes delinquent, the tax collector may use the procedures applicable to the collection of delinquent taxes on the unsecured roll; and

(2) The tax on the separately assessed interest remains unpaid at the time set for the declaration of default for delinquent taxes, the tax on the separately assessed interest, together with any penalties and costs which may have accrued thereon while on the secured roll, shall be transferred to the unsecured roll.

(f) The tax on an individual interest in a community apartment project, separately assessed pursuant to subdivision (a), shall be a lien solely on that interest and shall be entered on and be subject to all provisions of law applicable to taxes on the secured roll.

(g) The assessor shall provide to the principal office of each community apartment project and cooperative housing corporation within the taxing jurisdiction, at the time and in the manner as he or she deems appropriate, adequate notice of the provisions of this section and other pertinent information relative to the implementation thereof.

(h) The assessor may charge a fee for the initial cost of separately assessing a project or corporation which may be collected on the tax bill.

SEC. 12. Section 2189.5 of the Revenue and Taxation Code is amended to read:

2189.5. Every tax on personal property and improvements, located upon or appurtenant to a leasehold estate for the production of gas, petroleum or other hydrocarbon substances from beneath the surface of the earth, and belonging to the owner of the leasehold estate, may be secured by the leasehold estate, when, in the opinion of the assessor, the leasehold estate is of sufficient value to constitute security for the payment of all taxes upon that personal property or improvements and upon that leasehold estate. In the event of delinquency in the payment of that tax, the personal property, improvements, and leasehold estate shall be subject to seizure and sale in the same manner as provided for the seizure and sale of unsecured personal property, in Sections 2951 to 2962, inclusive, at any time within three years after the delinquency. Suit may be brought against an assessee of those taxes in the event of delinquency in the payment thereof.

If the tax thereon remains unpaid at the time set for the declaration of default for delinquent taxes, the tax together with any penalty and costs as may have accrued thereon while on the secured roll shall be transferred to the current unsecured roll.

Those taxes that are delinquent at the time the amendment to this section, enacted at the 1973–74 Regular Session, goes into effect may

also be transferred to the current unsecured roll.

SEC. 13. Section 2189.6 of the Revenue and Taxation Code is amended to read:

2189.6. Improvements which constitute component parts of a water distribution system located in whole or in part on property assessed to a person other than the assessee of the land on which they are located shall be assessed as improvements on the secured roll. However, those assessments shall not be a lien on the land on which those improvements are located and that fact shall be noted on the secured roll.

If the tax thereon is unpaid when any installment of secured taxes becomes delinquent, the tax collector may use the same collection procedures available for the collection of taxes on the unsecured roll.

If the tax thereon remains unpaid at the time set for the declaration of default for delinquent taxes, the tax together with any penalty and costs which may have accrued thereon while on the secured roll shall be transferred to the current unsecured roll.

SEC. 14. Section 2190 of the Revenue and Taxation Code is amended to read:

2190. Notwithstanding any provision of law to the contrary, the assessment of any possessory interest in tax-exempt real estate to which the exemption authorized by Section 218 has been applied shall be entered on the secured roll. However, the assessment shall not be a lien on the tax-exempt real estate and that fact shall be noted on the secured roll.

If the tax thereon is unpaid when any installment of taxes on the secured roll becomes delinquent, the tax collector may use the procedures which are applicable to the collection of taxes on the unsecured roll.

If the tax thereon remains unpaid at the time set for the declaration of default for delinquent taxes, the tax applicable to the possessory interest together with any penalties and costs which may have accrued thereon while on the secured roll shall be transferred to the unsecured roll.

SEC. 15. Section 2191.6 of the Revenue and Taxation Code is amended to read:

2191.6. Except as otherwise provided in Section 2191.4, the lien resulting from the recording of the certificate pursuant to Section 2191.3 shall be removed and discharged either:

(a) Upon payment of the tax, any applicable penalty and interest, and a recording fee in the amount required by Section 27361.3 of the Government Code for each release of lien issued for each county in which the certificate was recorded, and upon the recording of a certificate of release or discharge of the lien in the office of the recorder of each county in which the certificate was filed. The recording fee, together with a certificate of release or discharge, shall be transmitted to the county recorder who shall record the certificate; or

(b) When the tax is legally canceled and a certificate of release or

discharge is recorded in the office of the county recorder. A recording under this subdivision shall be made without fee.

SEC. 16. Section 2610.5 of the Revenue and Taxation Code is amended to read:

2610.5. On or before November 1 each year, the tax collector of every county shall mail a county tax bill or copy thereof for any property on the secured roll. This requirement need not be met where the computation of taxes results in a zero amount. The failure to receive a tax bill does not relieve the fee owner from the liability to pay taxes owed, nor does it relieve the imposition of penalties imposed by this code. However, the penalty imposed for delinquent taxes as provided in Section 2617, 2618, 2621, 2704, 2705, 2759, 2760, 2761, 2762, or 2922 shall be waived by the auditor or tax collector if the assessee or fee owner demonstrates that the delinquency is due to the failure of the tax collector to mail the tax bill to the address as provided on the tax assessor's roll.

With respect to a late, amended, or corrected tax bill, the penalty imposed for delinquent taxes shall be waived by the auditor or tax collector for the period of 30 days following the date the late, amended, or corrected bill is mailed.

SEC. 17. Section 2768 of the Revenue and Taxation Code is amended to read:

2768. Notwithstanding the provisions of Sections 2756, 2759 and 2763, the board of supervisors of any county which has adopted a resolution pursuant to this chapter may by resolution provide that taxes on the secured roll are due and payable October 1st, and the first installment shall be delinquent on October 25th at 5 p.m. Thereafter, a delinquent penalty of 10 percent attaches to the installment. If October 25th falls on a Saturday, Sunday, or legal holiday, the time of delinquency is at 5 p.m. on the next business day.

A resolution adopted pursuant to this section shall provide that the auditor shall have to and including October 1st in which to deliver the secured roll to the tax collector as required by Section 2754.

SEC. 18. Section 2853 of the Revenue and Taxation Code is amended to read:

2853. When this alternative method of collection of taxes on the secured roll is adopted all entries formerly required by law to be made on the delinquent roll shall thereafter be made on the secured roll except that after the date of the declaration of default for delinquent taxes the entries shall be made on the abstract list.

SEC. 19. Section 3101 of the Revenue and Taxation Code is amended to read:

3101. If any tax, interest, or penalty imposed under this part is not paid by the last day of the month succeeding the delinquency date, the official collecting taxes on the unsecured roll may file, no sooner than 10 days after the mailing of the notice required in subdivision (b), in the office of the county clerk, without fee, a certificate specifying as follows:

(a) The fact that a notice of intent to file the certificate had been

sent, by registered mail, to the assessee, at his or her last known address, not less than 10 days prior to the date of the certificate.

(b) The fact that the notice required in subdivision (a) set forth the following information:

(1) The name of the assessee.

(2) The description of the property assessed.

(3) The assessed value of the property.

(4) The fact that judgment will be sought in the amount of the tax, penalty, or interest that will remain unpaid at the time of the filing of the certificate.

(5) The fact that, upon the issuance and recordation of that judgment, additional penalties will continue to accrue at the rate prescribed by law, and that any bond premium posted or other costs to enforce the judgment shall be an added charge.

(6) The fact that a recording fee in the amount set forth in Section 27361.3 of the Government Code will be required to be paid for the purpose of the recordation of any release of the judgment lien.

(c) The name of the assessee.

(d) The amount for which judgment is to be entered.

(e) The fact that the county has complied with all provisions of this part in the computation and the levy of the tax, penalty, or interest.

(f) The fact that a request is therein made for the issuance and entry of judgment against the assessee.

SEC. 20. Section 3107 of the Revenue and Taxation Code is amended to read:

3107. (a) The judgment is satisfied and the lien removed when, but not before, the certificate of release or discharge from the judgment lien is recorded in the office of the county recorder. In addition to the judgment amount, and any additional penalty authorized by this part, the tax collector shall collect the recording fee in the amount required by Section 27361.3 of the Government Code and shall transmit it to the county recorder together with the documents for release or discharge.

(b) The judgment is also satisfied and the lien removed when, but not before the tax is legally canceled and a release or discharge from the judgment lien is recorded in the office of the county recorder. A recording under this subdivision shall be made without fee.

SEC. 21. Section 3381 of the Revenue and Taxation Code is amended to read:

3381. In each county where the tax collector or, if the county is a chartered county, the board of supervisors determines that the public interest, convenience and necessity require the local publication of the delinquent list required by Section 3371, or the published notice of power and intent to sell required by Section 3361, in order to afford adequate notice, all items required to be published shall be published as provided in this article.

After the determination, the tax collector or, if the county is a chartered county, the board of supervisors shall divide and distribute

the items to be published and cause the same to be published either within (a) the municipal corporations, (b) the elementary, high school, or junior college districts, (c) the supervisorial districts, (d) judicial districts, (e) tax districts, areas included in map books, or tax code areas, or (f) by any annexation or annexations of same, or any combination of same, or any combination of those districts, annexations, areas included in map books, and code areas, within the county as they shall determine most likely to afford adequate notice to owners of the property.

Except as provided in this article, the publication shall be in the same manner as provided in Article 1.7 (commencing with Section 3371).

The publication provided for in this article shall be made once a week for two successive weeks in a newspaper or newspapers of general circulation. The publication shall be made in a newspaper published not less frequently than once a week.

SEC. 22. Section 3382 of the Revenue and Taxation Code is amended to read:

3382. Annually, the board of supervisors shall let the contracts for publication of the published delinquent list, or the published notice of power and intent to sell, and shall determine the rate to be paid for those publications or any portions thereof.

The publication rate shall be based on a common denominator of measurement for all newspapers and may be graduated according to circulation.

SEC. 26. Section 3692 of the Revenue and Taxation Code is

amended to read:

3692. The tax collector shall attempt to sell tax-defaulted property as provided in this chapter within two years of the time that the property becomes subject to sale for nonpayment of taxes unless by other provisions of law the property is not subject to sale. If there are no acceptable bids at the attempted sale, the tax collector shall attempt to sell the property at intervals of no more than four years until the property is sold.

(a) When oil, gas, or mineral rights are subject to sale for nonpayment of taxes, the tax collector may offer the interest at minimum bid to the holders of outstanding interests where the interest subject to sale is a partial interest or, where the interest subject to sale is a complete and undivided interest, to the owner or owners of the property to which the oil, gas, or mineral rights are appurtenant.

(b) The lien for taxes or assessments or other rights of any taxing agency which does not consent to the sale under this chapter.

(c) Liens for special assessments levied upon the property conveyed which were, at the time of the sale under this chapter, not included in the amount necessary to redeem the tax-defaulted property, and, where a taxing agency which collects its own taxes has consented to the sale under this chapter, not included in the amount required to redeem from sale to the taxing agency.

(a) To the purchaser, or his or her grantee or successor in interest, the amount of taxes, penalties and costs expended by him or her as determined by the court in pursuit of title to the property, and when the purchaser at that sale or the grantee in any deed for taxes or his or her grantee or successor in interest is in possession of that property in good faith and claiming the property under a tax deed, which is regular upon its face, and has made permanent improvements thereon, the court shall not make that decree until there has also been repaid to the purchaser or his or her grantee or successor in interest a sum, as determined by the court, equal to the amount by which the value of the property has been enhanced by those permanent improvements; and

(b) To the county tax collector, the balance, if any, of the correct amount as determined by the court that should be paid upon redemption, which shall be distributed by the county to the taxing agencies and revenue districts as redemption money.

(b) Any amounts which were apportioned to funds at the time of the levy in the manner authorized by this chapter shall be distributed to the apportioned tax resources accounts. The pro rata of redemption penalties or interest collected on any amounts levied but not apportioned to funds at the time of levy shall be distributed to the respective funds and the balance of redemption penalties or interest together with delinquency penalties shall be apportioned to the tax losses reserve fund.

(c) Amounts collected as costs shall be distributed to the county general fund.

The remaining 5 percent of the tax amounts shall be apportioned to the tax losses reserve fund. These apportionments shall constitute a full liquidation of the share of each fund in the liens for delinquent taxes appearing on the abstract list and any amounts thereafter received through redemption or sale of the property shall be apportioned in the manner prescribed by Sections 4708, 4710, and 4711 for years in which the procedure authorized by this chapter has been in effect.

If a tax payment which is insufficient to cover the amount of taxes due and payable is received by the tax collector of a county that has elected to follow the procedure authorized by this chapter, the tax collector shall place the tax payment in a trust fund and immediately notify the taxpayer of the deficiency.

In the case of a deficiency in the payment of secured taxes, the taxpayer may pay the balance due until the date on which the property becomes tax defaulted by operation of law. If payment of the balance due is not received on or before that date, the insufficient payment shall be returned to the taxpayer, and shall become tax defaulted in the usual manner as provided in this code.

In the case of a deficiency in the payment of unsecured taxes, the taxpayer may pay the balance due within six months after the date of the insufficient payment. If payment of the balance due is not

made within that time, the tax collector or other officer collecting unsecured taxes shall credit the amount of the insufficient payment on the unsecured roll.

If payment of the balance due is made within the time specified in this section, any delinquent penalty which attaches by operation of law shall be computed only upon the additional amount required to bring the payment to a nondelinquent status.

The county auditor shall make the necessary adjustments in the tax rolls and in the tax and penalty charges.

The tax collector may accept payments which are within ten dollars ($10) of the tax due as payment in full. The auditor or controller shall prescribe methods for accounting and adjusting their accounts in this matter.

bill is mailed, whichever is later. The tax collector shall include with the property tax bill a notice of the payment provisions of this section.

If payment by installments is requested, 20 percent of the tax shall be paid no later than the deadline for filing the written request. The current taxes and prior year taxes with penalties and costs thereon shall be paid with or prior to the initial installment payment. In each succeeding fiscal year, the assessee shall pay, before the delinquency date of the second installment of current taxes on the secured roll, all current year taxes, and a sum at least sufficient to reduce the outstanding balance of the tax by 20 percent of the original amount.

No penalties shall be charged so long as installment payments are made timely. If any installment is not paid timely, or if the property on the secured roll becomes tax defaulted, or if the property changes ownership, or if taxes for the property on the unsecured roll are not paid before becoming delinquent, the balance of the tax remaining to be paid shall immediately become due and payable, no further installment payments for that escape assessment or correction shall be authorized, and the remaining balance of the tax shall become subject to all of the provisions of this division applicable to delinquent taxes.

date and is not distributed by description, either because it is unknown, or is included in a general distribution clause without description, or is property as to which no probate proceedings have been taken, all taxes levied upon the real property are valid and any tax sale for those taxes conveys the same title thereto as if no escheat had occurred, notwithstanding any provision of law to the contrary. All those taxes levied upon the real property and tax sales duly taken pursuant to law occurring before the effective date of this section are hereby validated.

If any such real property is discovered prior to tax sale, the public administrator of the county in which the property is situated shall immediately commence probate proceedings with respect to the property, and the tax sale shall not be made.

SEC. 89. Section 4991 of the Revenue and Taxation Code is amended to read:

(b) If the taxes on any mobilehome which are not a lien on real property of the owner of the mobilehome remain unpaid at the time set for the declaration of default for delinquent taxes, the taxes on the mobilehome, together with any penalties and costs which may have accrued thereon while on the secured roll, shall be transferred to the unsecured roll.

(b) The final negotiated offering is consistent with common practices in the industry and is comparable to other bond offerings of a comparable amount that have been offered within the previous six months.

50665.14. The bonds are special obligations of the local agency and shall be a charge against and are secured by a lien upon and shall be payable, as to the principal thereof and interest thereon, and any premiums upon the redemption thereof, from the revenues and such funds as are described in the resolution authorizing the issuance of the bonds. If funds and revenues described in the authorizing resolution are insufficient for the payment of interest and principal on the bonds, the local agency, at its discretion, may make such payments from any other funds or revenues that may be legally applied to their payment.

50666. By resolution, the legislative body may pledge, place a charge upon, and assign all or any part of the revenues for the security of the bonds.

50666.1. The payment of interest on and principal of the bonds and any premiums upon the redemption of any thereof are secured by an exclusive pledge, charge, and lien upon all of the revenues.

50666.2. The revenues and any interest earned on the revenues constitute a trust fund for the security and payment of the interest on and principal of the bonds.

50666.3. So long as any bonds or interest thereon are unpaid following their maturity, the revenues and interest thereon shall not be used for any other purpose.

50666.4. If the interest and principal of the bonds and all charges to protect or secure them are paid when due, an amount or amounts for other purposes may be apportioned from the revenues.

50666.5. Bonds of the same issue shall be equally secured by a

pledge, charge, and lien upon the revenues specified in the resolution authorizing the issuance of the bonds, without priority for number, date of bonds, of sale, of execution, or of delivery pursuant to this article and the resolution authorizing the issuance of the bonds; except that any local agency may authorize the issuance of bonds of different series and may provide that the bonds in any series shall, to the extent and in the manner prescribed in the resolution, be subordinated and be junior in standing, with respect to the payment of principal and interest and the security thereof, to such other bonds as may be specified in the resolution.

50666.6. The general fund of a local agency is not liable for the payment of the bonds or their interest.

50666.7. The general credit or taxing power of the local agency, other than the revenues pledged, is not liable for the payment of the bonds or their interest.

50666.8. The holder of the bonds shall not compel the exercise of the taxing power by the local agency, other than the revenues pledged, or the forfeiture of its property.

50666.9. The principal of, and interest on, the bonds and any premiums upon the redemption of any thereof are not a debt of the local agency, nor a legal or equitable pledge, charge, lien, or encumbrance, upon any of its property, or upon any of its income, receipts, or revenues except the revenues that have been pledged to their payment.

50667. Every bond shall recite in substance that the principal of, and interest on, the bond are payable solely from the revenues pledged to the payment of the principal and interest and that the local agency is not obligated to pay the principal or interest except from the pledged revenues.

50667.1. The bonds and, any interest on, or income from, the bonds are exempt from taxation in this state, except from bank and corporation franchise, gift, inheritance, and estate taxes.

50667.2. In the resolution authorizing the bonds, the legislative body may insert any of the provisions authorized by this article, which shall become a part of the contract with the bondholders.

50667.3. The legislative body may provide limitations on:

(a) The purpose to which the proceeds of sale of any issue of bonds may be applied.

(b) The issuance of additional bonds for the same purpose and on the lien of additional bonds.

50667.4. The legislative body may provide for events of default and terms upon which the bonds may be declared due before maturity and the terms upon which the declaration and its consequences may be waived.

50667.5. The legislative body may provide for the rights, liabilities, powers, and duties arising upon the local agency's breach of any covenants, conditions, or obligations.

50667.6. The legislative body may provide for the vesting in a trustee of the right to enforce covenants to secure payment of, or in

relation to, the bonds and the trustee's powers and duties, and the limitation of his or her liabilities.

50667.7. The legislative body may provide for the terms upon which the bondholders or any percentage of the bondholders may enforce covenants or duties imposed by this article.

50667.8. The legislative body may provide in the resolution authorizing issuance of the bonds for a procedure for amending or abrogating the terms of the resolution with the consent of the holders of a specified number of the bonds.

50667.9. Any resolution containing a procedure specified in Section 50667.8 may also provide for meetings of bondholders or for their written assent without a meeting and the manner of consenting, with or without a meeting.

50668. The resolution shall specifically state the effect of amendment upon the rights of the holders of all of the bonds and shall be binding upon the holders of all of the bonds issued pursuant to the resolution.

50668.1. The legislative body may provide for any other acts and things necessary, convenient, or desirable to secure the bonds or tending to make them more marketable.

50668.2. The local agency shall pay or cause to be paid the principal and interest of the bonds on the date, at the place, and in the manner mentioned in the bonds and in accordance with the resolution authorizing their issuance.

50668.3. A separate, distinct, and special fund shall be created at or before the issuance of the bonds, which shall be maintained continuously during the time that any of the bonds or the interest thereon are outstanding and unpaid.

50668.4. All pledged revenue shall be deposited in the special fund and payments shall be made therefrom in the order specified in Section 50665.6.

50668.5. The local agency shall preserve and protect the security of the bonds and the rights of the bondholders and shall warrant and defend the rights of the bondholders against all claims and demands of all persons.

50668.6. In order to fully preserve and protect the priority and security of the bonds the local agency shall pay and discharge all lawful claims for labor, materials, and supplies, which if unpaid may become a lien or charge upon the revenues prior or superior to the lien of the bonds or impair the security of the bonds.

50668.7. The local agency shall hold in trust the revenues pledged to the payment of the principal of and interest on the bonds for the benefit of the bondholders and shall apply the same pursuant to the resolution authorizing the issuance of the bonds or to the resolution as modified.

50668.8. The local agency may invest funds held in reserve, or in any sinking fund, or funds not required for immediate disbursement, in property or securities in which the local agency may legally invest funds subject to its control. No such investment shall be made in

contravention of any covenant or agreement in any resolution authorizing the issuance of any outstanding bonds.

50668.9. The local agency shall keep proper books of record and accounts of the revenues, separate from all other records and accounts, in which complete and correct entries shall be made of all transactions relating to the revenues.

50669. At all times, the books shall be subject to the inspection of the holders of not less than 10 percent of the outstanding bonds or their representatives authorized in writing.

50669.1. The local agency shall cause to be published a summary statement showing the amount of revenues collected which are required as security for payment of the principal of and interest on the bonds, the disbursements from such revenues in reasonable detail, and a general financial statement.

50669.2. The statement shall be published annually, not more than 120 days after the close of each fiscal year. The local agency shall furnish a copy of the statement to any bondholder upon request.

50669.3. In the resolution authorizing the bonds, the local agency may agree that the statement shall be prepared or audited by an independent certified public accountant and shall be in the form and contain the detail specified in the resolution.

50669.4. The duties set forth in this article do not require the local agency to expend any funds other than revenues pledged to secure payment of the principal of or interest on bonds as provided in this article.

50669.5. A fiscal or paying agent may be appointed as now, or hereafter, provided in Article 7 (commencing with Section 54550) of Chapter 6 of Division 2 of Title 5.

50669.6. A validating proceeding may be conducted as now, or hereafter, provided in Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure.

50669.7. Bondholders shall have the remedies as now, or hereafter, provided in Article 10 (commencing with Section 54640) of Chapter 6 of Division 2 of Title 5.

50669.8. The bonds may be refunded in the manner now, or hereafter, provided in Article 11 (commencing with Section 54660) of Chapter 6 of Division 2 of Title 5.

50670. All bonds issued in pursuance of the provisions of this article shall by their issuance be conclusive evidence of the regularity, validity, and legal sufficiency of all proceedings, acts, and determinations in any wise pertaining thereto, had or made hereunder.

50670.1. Any action, suit, or proceeding of any kind or nature in which the validity of any of the proceedings taken under the provisions of this article is questioned or attacked, shall be filed within 30 days after the day of the adoption of the resolution providing for the issuance of the bonds and in case such action is not brought raising such issue within that period, then thereafter all persons whatsoever shall be barred in any action, suit, or proceeding

from pleading, asserting, or claiming that any of the proceedings or other actions herein specified, were defective, faulty, or invalid in any respect.

50670.3. This article provides an alternative authority and procedure for the subject to which it relates but does not affect any other law relating to the same or a similar subject. When proceeding under this article, its provisions only need be followed.

50670.4. This article and all of its provisions shall be liberally construed to the end that the purposes of this article may be effective. If any section, subdivision, sentence, clause, or phrase of this article is for any reason held to be unconstitutional, that decision shall not affect the validity of the remaining portion of this article. It is hereby declared that this article would have been passed irrespective of the fact that any one or more sections, subdivisions, sentences, clauses, or phrases be declared unconstitutional.

CHAPTER 321

An act to add Section 1361 to the Civil Code, relating to common interest subdivisions.

[Approved by Governor July 26, 1985. Filed with Secretary of State July 29, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 1361 is added to the Civil Code, to read:

1361. (a) If the declaration for a common interest subdivision referred to in Section 11004.5 of the Business and Professions Code requires an affirmative vote of owners having more than 50 percent of the votes in the owners association, in a single-class voting structure, or owners having more than 50 percent of the votes in more than one class in a voting structure with more than one class, to amend the declaration, the association, or any member thereof who is also an owner of a lot, unit, parcel, or area within the common interest subdivision, may petition the superior court of the county in which the common interest subdivision or a portion of the common interest subdivision is located, for an order reducing the percentage of the affirmative votes necessary for such an amendment. The petition shall describe the efforts that have been made to solicit approval of the association members in the manner provided in the declaration, the number of affirmative and negative votes actually received, and the number or percentage of affirmative votes required to effect the amendment in accordance with the existing declaration, and other matters the petitioner considers relevant to the court's determination. The petition shall also contain, as exhibits thereto, copies of all of the following:

(1) The existing declaration.

(2) The bylaws and articles of incorporation, if any.

(3) A complete text of the amendment.

(4) Copies of any notice and solicitation materials utilized in the solicitation of owner approvals.

(5) A short explanation of the reason for the amendment.

(6) Any other documentation relevant to the court's determination.

(b) Upon filing the petition, the court shall set the matter for hearing and issue an ex parte order setting forth the manner in which notice shall be given.

(c) The court may, but shall not be required to, grant the petition if it finds all of the following:

(1) The petitioner has given not less than 15 days written notice of the court hearing to all members of the owners association and to any mortgagee of a mortgage or beneficiary of a deed of trust affecting any lot, unit, or parcel within the common interest subdivision who is entitled to notice under the terms of the declaration.

(2) Balloting on the amendment was conducted pursuant to, and in compliance with, all applicable provisions of the existing declaration and the other governing documents of the common interest subdivision.

(3) A reasonably diligent effort was made to cause all eligible members to vote on the amendment.

(4) Owners having more than 50 percent of the votes in the association, in a single-class voting structure, voted in favor of the amendment. In a voting structure with more than one class, owners having more than 50 percent of the votes of each class, required by the declaration to vote in favor of the amendment, voted in favor of the amendment.

(5) The amendment is reasonable.

(6) Granting the petition is not improper by virtue of any reason stated in subdivision (e).

(d) If the court makes the findings required by subdivision (c), any order issued pursuant to this section may confirm the amendment as being validly approved on the basis of the affirmative votes actually received during the balloting period or the order may dispense with any requirement relating to quorums or to the number or percentage of votes needed for approval of the amendment that would otherwise exist under the declaration and the other governing documents of the association.

(e) Subdivision (a) to (d), inclusive, notwithstanding, the court shall not be empowered by this section to approve any amendment to the declaration that:

(1) Would change provisions in the declaration requiring the approval of owners having more than 50 percent of the votes in more than one class to vote in favor of an amendment, unless owners having more than 50 percent of the votes in each affected class approved the amendment.

(2) Would impair the security interest of a mortgagee of a mortgage or the beneficiary of a deed of trust if the declaration requires the approval of a specified percentage of these mortgagees and beneficiaries without the approval of the percentage of these mortgagees and beneficiaries, specified in the declaration.

(3) Would eliminate any special rights, preferences, or privileges designated in the declaration as belonging to the declarant, without the consent of the declarant. As used in this paragraph, "declarant" means the person or group of persons designated in the declaration as the "declarant," or, if no declarant is designated, the person or group of persons who signed the original declaration or who succeeded to special rights, preferences, or privileges designated in the declaration as belonging to the signator of the original declaration.

(f) An amendment is not effective, pursuant to this section, until the amendment and court order have been recorded in every county in which a portion of the common interest subdivision is located. The amendment may be acknowledged and recorded by any person designated for that purpose, or, if no one is designated for that purpose, by the president of the association. Upon recordation, the declaration, as amended in accordance with this section, shall have the same force and effect as if the amendment were adopted in compliance with every requirement imposed by the declaration and the association's other governing documents.

(g) Within a reasonable time after the amendment is recorded, the association shall mail a copy of the amendment to each member of the association and a statement that the amendment has been recorded.

SEC. 2. Section 1 of this act shall not become operative if AB 314 of the 1985–86 Regular Session of the Legislature is chaptered, becomes effective on or before January 1, 1986, and adds Title 6 (commencing with Section 1350) to Part 4 of Divison 2 of the Civil Code.

CHAPTER 322

An act to amend Sections 70050 and 70052 of, and to add Section 70038 to, the Education Code, relating to education, and making an appropriation therefor.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 70038 is added to the Education Code, to read:

70038. Notwithstanding Section 70064 of the Education Code,

Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, or any other provision of law, the chief fiscal officer of the California Maritime Academy shall deposit into and maintain in local trust accounts, or in trust accounts in accordance with the provisions of Sections 16305 to 16305.7, inclusive, of the Government Code, or in the California Maritime Academy Trust Fund in the State Treasury, moneys received in connection with the following sources or purposes:

(a) Gifts, bequests, devises, and donations received under Section 70028.

(b) Any student loan or scholarship fund program including, but not limited to, student loan programs of the state and federal governments, and private sources.

(c) Advance payment for anticipated expenditures or encumbrances in connection with federal grants or contracts.

(d) Miscellaneous receipts in the nature of deposits and subject to return upon approval of a proper application.

(e) Fees and charges for services, materials, and facilities required of persons who at their option use the services or facilities, or are provided the materials, for which the fees or charges are made. Fees and charges so received and deposited shall be used solely to meet the costs of providing those services, facilities, and materials.

(f) Fees for student activities, as defined by the board of governors, and revenues derived from the conduct of student activities. The board of governors is authorized to administer and use the fees and revenues to support the student activities.

Money deposited and maintained under this section is continuously appropriated, without regard to fiscal year, to the California Maritime Academy for the support and improvement of the California Maritime Academy as may be determined by the Board of Governors consistent with the terms and conditions of any gift, bequest, devise, donation, or agreement under which the money was received. The money so deposited and maintained may be invested by the chief fiscal officer of the California Maritime Academy, or by the State Treasurer, as appropriate, upon approval of the board of governors, in those eligible securities listed in Section 16430 of the Government Code. All interest and other earnings received from that investment shall be used for purposes as may be determined by the board of governors consistent with this section and the terms and conditions of any gift, bequest, devise, donation, or agreement under which the funds were received.

SEC. 2. Section 70050 of the Education Code is amended to read:

70050. The board may, out of any appropriation made for the support of the school, without at the time furnishing vouchers and itemized statements, withdraw a sum or sums not to exceed fifty thousand dollars ($50,000) to be paid to the commanding officer of the vessel used by the school to provide for the payment of expenses of cruises. The sum or sums so drawn for any cruise or cruises shall, not later than two months following the termination of the cruise or

cruises, be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the State Controller. Any unexpended balance of the sum or sums so withdrawn shall be returned to the appropriation from which originally withdrawn.

SEC. 3. Section 70052 of the Education Code is amended to read:

70052. The commanding officer shall give a bond in the sum of fifty thousand dollars ($50,000), with a surety or sureties approved by the board for the proper disbursement of and accounting for the advances.

CHAPTER 323

An act to amend Section 11379.6 of the Health and Safety Code, and to amend Section 1203.073 of the Penal Code, relating to controlled substances, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 11379.6 of the Health and Safety Code is amended to read:

11379.6. (a) Except as otherwise provided by law, every person who manufactures, compounds, converts, produces, derives, processes, or prepares, either directly or indirectly by chemical extraction or independently by means of chemical synthesis, any controlled substance specified in Section 11054, 11055, 11056, 11057, or 11058 shall be punished by imprisonment in the state prison for three, five, or seven years.

(b) Except as otherwise provided by law, every person who offers to perform an act which is punishable under subdivision (a) shall be punished by imprisonment in the state prison for three, four, or five years.

SEC. 2. Section 1203.073 of the Penal Code is amended to read:

1203.073. (a) A person convicted of a felony specified in subdivision (b) may be granted probation only in an unusual case where the interests of justice would best be served; when probation is granted in such a case, the court shall specify on the record and shall enter in the minutes the circumstances indicating that the interests of justice would best be served by such a disposition.

(b) Except as provided in subdivision (a), probation shall not be granted to, nor shall the execution or imposition of sentence be suspended for, any of the following persons:

(1) Any person who is convicted of violating Section 11351 of the Health and Safety Code by possessing for sale 28.5 grams or more of cocaine, or a substance containing 28.5 grams or more of cocaine.

(2) Any person who is convicted of violating Section 11378 of the Health and Safety Code by possessing for sale 28.5 grams or more of methamphetamine, or a substance containing 28.5 grams or more of methamphetamine.

(3) Any person who is convicted of violating subdivision (a) of Section 11379.6 of the Health and Safety Code, except those who manufacture phencyclidine, or who is convicted of an act which is punishable under subdivision (b) of Section 11379.6 of the Health and Safety Code, except those who offer to perform an act which aids in the manufacture of phencyclidine.

As used in this section, the term "manufacture" refers to the act of any person who manufactures, compounds, converts, produces, derives, processes, or prepares, either directly or indirectly by chemical extraction or independently by means of chemical synthesis.

SEC. 3. The Legislature finds and declares that Assembly Bill No. 3165 of the 1983–84 Regular Session of the Legislature was introduced to increase the penalties for those who illegally manufacture controlled substances. Due to a drafting error, the bill would have created an ambiguity regarding the application of Section 1203.07 of the Penal Code to the new provisions added by Assembly Bill No. 3165. Accordingly, the bill was returned by the Governor at the author's request.

The Legislature finds and declares that some provisions of Assembly Bill No. 3165 were nevertheless codified through the enactment of Assembly Bill No. 3876, Chapter 1635 of the Statutes of 1984, which conforms state and federal schedules classifying controlled substances.

The Legislature further finds and declares that it is the intent of this act to correct the ambiguities that were contained in Assembly Bill No. 3165 of the 1983–84 Regular Session of the Legislature and to provide related technical changes necessary to conform that bill with the provisions added by Assembly Bill No. 3876 of the 1983–84 Regular Session of the Legislature. Nothing in either measure, or their combined enactment, is or was intended to reduce any previously existing penalty relating to controlled substances.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent the further manufacture of controlled substances at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 324

An act to amend Section 1094.5 of the Code of Civil Procedure, to amend Sections 44944, 44944.1, 44948.3, 44948.5, 44949, 87678, 87679, 87680, 87681, 87682, and 87740 of the Education Code, and to amend Sections 11370.2, 11370.3, 11500, 11502, 11502.1, 11510, 11512, 11513, 11517, 11521, 11523, 11524, 11528, and 27727 of the Government Code, relating to administrative law.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 1094.5 of the Code of Civil Procedure is amended to read:

1094.5. (a) Where the writ is issued for the purpose of inquiring into the validity of any final administrative order or decision made as the result of a proceeding in which by law a hearing is required to be given, evidence is required to be taken, and discretion in the determination of facts is vested in the inferior tribunal, corporation, board, or officer, the case shall be heard by the court sitting without a jury. All or part of the record of the proceedings before the inferior tribunal, corporation, board, or officer may be filed with the petition, may be filed with respondent's points and authorities, or may be ordered to be filed by the court. Except when otherwise prescribed by statute, the cost of preparing the record shall be borne by the petitioner. Where the petitioner has proceeded pursuant to Section 68511.3 of the Government Code and the Rules of Court implementing that section and where the transcript is necessary to a proper review of the administrative proceedings, the cost of preparing the transcript shall be borne by the respondent. Where the party seeking the writ has proceeded pursuant to Section 1088.5, the administrative record shall be filed as expeditiously as possible, and may be filed with the petition, or by the respondent after payment of the costs by the petitioner, where required, or as otherwise directed by the court. If the expense of preparing all or any part of the record has been borne by the prevailing party, the expense shall be taxable as costs.

(b) The inquiry in such a case shall extend to the questions whether the respondent has proceeded without, or in excess of jurisdiction; whether there was a fair trial; and whether there was any prejudicial abuse of discretion. Abuse of discretion is established if the respondent has not proceeded in the manner required by law, the order or decision is not supported by the findings, or the findings are not supported by the evidence.

(c) Where it is claimed that the findings are not supported by the evidence, in cases in which the court is authorized by law to exercise its independent judgment on the evidence, abuse of discretion is

established if the court determines that the findings are not supported by the weight of the evidence. In all other cases, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record.

(d) Notwithstanding subdivision (c), in cases arising from private hospital boards or boards of directors of districts organized pursuant to The Local Hospital District Law, Division 23 (commencing with Section 32000) of the Health and Safety Code, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record. However, in all cases in which the petition alleges discriminatory actions prohibited by Section 1316 of the Health and Safety Code, and the plaintiff makes a preliminary showing of substantial evidence in support of that allegation, the court shall exercise its independent judgment on the evidence and abuse of discretion shall be established if the court determines that the findings are not supported by the weight of the evidence.

(e) Where the court finds that there is relevant evidence which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before respondent, it may enter judgment as provided in subdivision (f) remanding the case to be reconsidered in the light of that evidence; or, in cases in which the court is authorized by law to exercise its independent judgment on the evidence, the court may admit the evidence at the hearing on the writ without remanding the case.

(f) The court shall enter judgment either commanding respondent to set aside the order or decision, or denying the writ. Where the judgment commands that the order or decision be set aside, it may order the reconsideration of the case in the light of the court's opinion and judgment and may order respondent to take such further action as is specially enjoined upon it by law, but the judgment shall not limit or control in any way the discretion legally vested in the respondent.

(g) Except as provided in subdivision (h), the court in which proceedings under this section are instituted may stay the operation of the administrative order or decision pending the judgment of the court, or until the filing of a notice of appeal from the judgment or until the expiration of the time for filing the notice, whichever occurs first. However, no such stay shall be imposed or continued if the court is satisfied that it is against the public interest; provided that the application for the stay shall be accompanied by proof of service of a copy of the application on the respondent. Service shall be made in the manner provided by Title 5 (commencing with Section 405) of Part 2 or Chapter 5 (commencing with Section 1010) of Title 14 of Part 2. If an appeal is taken from a denial of the writ, the order or decision of the agency shall not be stayed except upon the order of the court to which the appeal is taken. However, in cases where a stay is in effect at the time of filing the notice of appeal, the stay

shall be continued by operation of law for a period of 20 days from the filing of the notice. If an appeal is taken from the granting of the writ, the order or decision of the agency is stayed pending the determination of the appeal unless the court to which the appeal is taken shall otherwise order. Where any final administrative order or decision is the subject of proceedings under this section, if the petition shall have been filed while the penalty imposed is in full force and effect, the determination shall not be considered to have become moot in cases where the penalty imposed by the administrative agency has been completed or complied with during the pendency of the proceedings.

(h) (1) The court in which proceedings under this section are instituted may stay the operation of the administrative order or decision of any licensed hospital or any state agency made after a hearing required by statute to be conducted under the provisions of the Administrative Procedure Act, as set forth in Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, conducted by the agency itself or an administrative law judge on the staff of the Office of Administrative Hearings pending the judgment of the court, or until the filing of a notice of appeal from the judgment or until the expiration of the time for filing the notice, whichever occurs first. However, the stay shall not be imposed or continued unless the court is satisfied that the public interest will not suffer and that the licensed hospital or agency is unlikely to prevail ultimately on the merits; and provided further that the application for the stay shall be accompanied by proof of service of a copy of the application on the respondent. Service shall be made in the manner provided by Title 5 (commencing with Section 405) of Part 2 or Chapter 5 (commencing with Section 1010) of Title 14 of Part 2.

(2) The standard set forth in this subdivision for obtaining a stay shall apply to any administrative order or decision of an agency which issues licenses pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code or pursuant to the Osteopathic Initiative Act or the Chiropractic Initiative Act. With respect to orders or decisions of other state agencies, the standard in this subdivision shall apply only when the agency has adopted the proposed decision of the administrative law judge in its entirety or has adopted the proposed decision but reduced the proposed penalty pursuant to subdivision (b) of Section 11517 of the Government Code; otherwise the standard in subdivision (g) shall apply.

(3) If an appeal is taken from a denial of the writ, the order or decision of the hospital or agency shall not be stayed except upon the order of the court to which the appeal is taken. However, in cases where a stay is in effect at the time of filing the notice of appeal, the stay shall be continued by operation of law for a period of 20 days from the filing of the notice. If an appeal is taken from the granting of the writ, the order or decision of the hospital or agency is stayed pending the determination of the appeal unless the court to which

the appeal is taken shall otherwise order. Where any final administrative order or decision is the subject of proceedings under this section, if the petition shall have been filed while the penalty imposed is in full force and effect, the determination shall not be considered to have become moot in cases where the penalty imposed by the administrative agency has been completed or complied with during the pendency of the proceedings.

SEC. 2. Section 44944 of the Education Code is amended to read:

44944. (a) In a dismissal or suspension proceeding initiated pursuant to Section 44934, if a hearing is requested by the employee, the hearing shall be commenced within 60 days from the date of the employee's demand for a hearing. The hearing shall be initiated, conducted, and a decision made in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code. However, the hearing date shall be established after consultation with the employee and the governing board, or their representatives, and the Commission on Professional Competence shall have all the power granted to an agency in that chapter, except that the right of discovery of the parties shall not be limited to those matters set forth in Section 11507.6 of the Government Code but shall include the rights and duties of any party in a civil action brought in a superior court. Notwithstanding any provision to the contrary, and except for the taking of oral depositions, no discovery shall occur later than 30 calendar days after the employee is served with a copy of the accusation pursuant to Section 11505 of the Government Code. In all cases, discovery shall be completed prior to seven calendar days before the date upon which the hearing commences. If any continuance is granted pursuant to Section 11524 of the Government Code, the time limitation for commencement of the hearing as provided in this subdivision shall be extended for a period of time equal to such continuance. However, the extension shall not include that period of time attributable to an unlawful refusal by either party to allow the discovery provided for in this section.

If the right of discovery granted under the preceding paragraph is denied by either the employee or the governing board, all the remedies in Section 2034 of the Code of Civil Procedure shall be available to the party seeking discovery and the court of proper jurisdiction, to entertain his or her motion, shall be the superior court of the county in which the hearing will be held.

The time periods in this section and of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall not be applied so as to deny discovery in a hearing conducted pursuant to this section.

The superior court of the county in which the hearing will be held may, upon motion of the party seeking discovery, suspend the hearing so as to comply with the requirement of the preceding

paragraph.

No witness shall be permitted to testify at the hearing except upon oath or affirmation. No testimony shall be given or evidence introduced relating to matters which occurred more than four years prior to the date of the filing of the notice. Evidence of records regularly kept by the governing board concerning the employee may be introduced, but no decision relating to the dismissal or suspension of any employee shall be made based on charges or evidence of any nature relating to matters occurring more than four years prior to the filing of the notice.

(b) The hearing provided for in this section shall be conducted by a Commission on Professional Competence. One member of the commission shall be selected by the employee, one member shall be selected by the governing board, and one member shall be an administrative law judge of the Office of Administrative Hearings who shall be chairperson and a voting member of the commission and shall be responsible for assuring that the legal rights of the parties are protected at the hearing. If either the governing board or the employee for any reason fails to select a commission member at least seven calendar days prior to the date of the hearing, the failure shall constitute a waiver of the right to selection, and the county board of education or its specific designee shall immediately make the selection. When the county board of education is also the governing board of the school district or has by statute been granted the powers of a governing board, the selection shall be made by the Superintendent of Public Instruction, who shall be reimbursed by the school district for all costs incident to the selection.

The member selected by the governing board and the member selected by the employee shall not be related to the employee and shall not be employees of the district initiating the dismissal or suspension and shall hold a currently valid credential and have at least five years' experience within the past 10 years in the discipline of the employee.

(c) The decision of the Commission on Professional Competence shall be made by a majority vote, and the commission shall prepare a written decision containing findings of fact, determinations of issues, and a disposition which shall be, solely:

(1) That the employee should be dismissed.

(2) That the employee should be suspended for a specific period of time without pay.

(3) That the employee should not be dismissed or suspended.

The decision of the Commission on Professional Competence that the employee should not be dismissed or suspended shall not be based on nonsubstantive procedural errors committed by the school district or governing board unless the errors are prejudicial errors.

The commission shall not have the power to dispose of the charge of dismissal by imposing probation or other alternative sanctions. The imposition of suspension pursuant to paragraph (2) shall be available only in a suspension proceeding authorized pursuant to

subdivision (b) of Section 44932 or Section 44933.

The decision of the Commission on Professional Competence shall be deemed to be the final decision of the governing board.

The board may adopt from time to time such rules and procedures not inconsistent with provisions of this section as may be necessary to effectuate this section.

The governing board and the employee shall have the right to be represented by counsel.

(d) (1) If the member selected by the governing board or the member selected by the employee is employed by any school district in this state the member shall, during any service on a Commission on Professional Competence, continue to receive salary, fringe benefits, accumulated sick leave, and other leaves and benefits from the district in which the member is employed, but shall receive no additional compensation or honorariums for service on the commission.

(2) If service on a Commission on Professional Competence occurs during summer recess or vacation periods, the member shall receive compensation proportionate to that received during the current or immediately preceding contract period from the member's employing district, whichever amount is greater.

(e) If the Commission on Professional Competence determines that the employee should be dismissed or suspended, the governing board and the employee shall share equally the expenses of the hearing, including the cost of the administrative law judge. The state shall pay any costs incurred under paragraph (2) of subdivision (d), the reasonable expenses, as determined by the administrative law judge, of the member selected by the governing board and the member selected by the employee, including, but not limited to payments or obligations incurred for travel, meals, and lodging, and the cost of the substitute or substitutes, if any, for the member selected by the governing board and the member selected by the employee. The Controller shall pay all claims submitted pursuant to this paragraph from the General Fund, and may prescribe reasonable rules, regulations, and forms for the submission of the claims. The employee and the governing board shall pay their own attorney fees.

If the Commission on Professional Competence determines that the employee should not be dismissed or suspended, the governing board shall pay the expenses of the hearing, including the cost of the administrative law judge, any costs incurred under paragraph (2) of subdivision (d), the reasonable expenses, as determined by the administrative law judge, of the member selected by the governing board and the member selected by the employee, including, but not limited to payments or obligations incurred for travel, meals, and lodging, the cost of the substitute or substitutes, if any, for the member selected by the governing board and the member selected by the employee, and reasonable attorney fees incurred by the employee.

As used in this section, "reasonable expenses" shall not be deemed "compensation" within the meaning of subdivision (d).

If either the governing board or the employee petitions a court of competent jurisdiction for review of the decision of the commission, the payment of expenses to members of the commission required by this subdivision shall not be stayed.

In the event that the decision of the commission is finally reversed or vacated by a court of competent jurisdiction, then either the state, having paid the commission members' expenses, shall be entitled to reimbursement from the governing board for those expenses, or the governing board, having paid the expenses, shall be entitled to reimbursement from the state.

Additionally, either the employee, having paid a portion of the expenses of the hearing, including the cost of the administrative law judge, shall be entitled to reimbursement from the governing board for the expenses, or the governing board, having paid its portion and the employee's portion of the expenses of the hearing, including the cost of the administrative law judge, shall be entitled to reimbursement from the employee for that portion of the expenses.

(f) The hearing provided for in this section shall be conducted in a place selected by agreement among the members of the commission. In the absence of agreement, the place shall be selected by the administrative law judge.

SEC. 3. Section 44944.1 of the Education Code is amended to read:

44944.1. At a hearing conducted pursuant to Section 44944, the administrative law judge, before admitting any testimony or evidence concerning an individual pupil, shall determine whether the introduction of the testimony or evidence at an open hearing would violate any provision of Article 5 (commencing with Section 49073) of Chapter 6.5 of Part 27 of Division 4, relating to privacy of pupil records. If the administrative law judge, in his or her discretion, determines that any of such provisions would be violated, he or she shall order that the hearing, or any portion thereof at which the testimony or evidence would be produced, be conducted in executive session.

SEC. 4. Section 44948.3 of the Education Code is amended to read:

44948.3. (a) First and second year probationary employees may be dismissed during the school year for unsatisfactory performance determined pursuant to Article 11 (commencing with Section 44660) of Chapter 3, or for cause pursuant to Section 44932. Any dismissal pursuant to this section shall be in accordance with all of the following procedures:

(1) The superintendent of the school district or the superintendent's designee shall give 30 days' prior written notice of dismissal, not later than March 15 in the case of second year probationary employees. The notice shall include a statement of the reasons for the dismissal and notice of the opportunity to appeal. In

the event of a dismissal for unsatisfactory performance, a copy of the evaluation conducted pursuant to Section 44664 shall accompany the written notice.

(2) The employee shall have 15 days from receipt of the notice of dismissal to submit to the governing board a written request for a hearing. The governing board may establish procedures for the appointment of an administrative law judge to conduct the hearing and submit a recommended decision to the board. The failure of an employee to request a hearing within 15 days from receipt of a dismissal notice shall constitute a waiver of the right to a hearing.

(b) The governing board, pursuant to this section, may suspend a probationary employee for a specified period of time without pay as an alternative to dismissal.

(c) This section applies only to probationary employees whose probationary period commenced during the 1983–84 fiscal year or any fiscal year thereafter, and does not apply to probationary employees in a school district having an average daily attendance of less than 250 pupils.

SEC. 5. Section 44948.5 of the Education Code is amended to read:

44948.5. (a) This section applies only to (1) probationary employees of a school district with an average daily attendance of less than 250 pupils, or (2) those persons currently employed as probationary employees whose probationary period commenced prior to the 1983–84 fiscal year.

(b) No later than March 15 and before a probationary employee is given notice by the governing board that his or her services will not be required for the ensuing year for reasons other than those specified in Section 44955, the governing board and the employee shall be given written notice by the superintendent of the district or his or her designee, or, in the case of a district which has no superintendent, by the clerk or secretary of the governing board, that it has been recommended that the notice be given to the employee, and stating the reasons therefor.

If the probationary employee has been in the employ of the district for less than 45 days on March 15, the giving of the notice may be deferred until the 45th day of employment and all time period and deadline dates prescribed by this subdivision shall be coextensively extended.

Until the employee has requested a hearing as provided in subdivision (c) or has waived his or her right to a hearing, the notice and the reasons therefor shall be confidential and shall not be divulged by any person, except as may be necessary in the performance of duties. However, the violation of this requirement of confidentiality, in and of itself, shall not in any manner be construed as affecting the validity of any hearing conducted pursuant to this section.

(c) The employee may request a hearing to determine if there is cause for not reemploying him or her for the ensuing year. A request

for a hearing shall be in writing and shall be delivered to the person who sent the notice pursuant to subdivision (b), on or before a date specified in that subdivision, which shall not be less than seven days after the date on which the notice is served upon the employee. If an employee fails to request a hearing on or before the date specified, his or her failure to do so shall constitute a waiver of his or her right to a hearing. The notice provided for in subdivision (b) shall advise the employee of the provisions of this subdivision.

(d) In the event a hearing is requested by the employee, the proceeding shall be conducted and a decision made in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and the governing board shall have all the power granted to an agency therein, except that all of the following shall apply:

(1) The respondent shall file his or her notice of defense, if any, within five days after service upon him or her of the accusation and he or she shall be notified of this five-day period for filing in the accusation.

(2) The discovery authorized by Section 11507.6 of the Government Code shall be available only if request is made therefor within 15 days after service of the accusation, and the notice required by Section 11505 of the Government Code shall so indicate.

(3) The hearing shall be conducted by an administrative law judge who shall prepare a proposed decision, containing findings of fact and a determination as to whether the charges sustained by the evidence are related to the welfare of the schools and the pupils thereof. The proposed decision shall be prepared for the governing board and shall contain a determination as to the sufficiency of the cause and a recommendation as to disposition. However, the governing board shall make the final determination as to the sufficiency of the cause and disposition. None of the findings, recommendations, or determinations contained in the proposed decision prepared by the administrative law judge shall be binding on the governing board. Nonsubstantive procedural errors committed by the school district or governing board of the school district shall not constitute cause for dismissing the charges unless the errors are prejudicial errors. Copies of the proposed decision shall be submitted to the governing board and to the employee on or before May 7 of the year in which the proceeding is commenced. All expenses of the hearing, including the cost of the administrative law judge, shall be paid by the governing board from the district funds.

The board may adopt from time to time such rules and procedures not inconsistent with provisions of this section as may be necessary to effectuate this section.

(e) The governing board's determination not to reemploy a probationary employee for the ensuing school year shall be for cause only. The determination of the governing board as to the sufficiency of the cause pursuant to this section shall be conclusive, but the cause

shall relate solely to the welfare of the schools and the pupils thereof. The decision made after the hearing shall be effective on May 15 of the year the proceeding is commenced.

(f) Notice to the probationary employee by the governing board that his or her service will not be required for the ensuing year, shall be given no later than May 15.

(g) If a governing board notifies a probationary employee that his or her services will not be required for the ensuing year, the board shall, within 10 days after delivery to it of the employee's written request, provide the employee with a statement of its reasons for not reemploying him or her for the ensuing school year.

(h) Any notice or request shall be deemed sufficient when it is delivered in person to the employee to whom it is directed, or when it is deposited in the United States registered mail, postage prepaid and addressed to the last known address of the employee.

(i) In the event that the governing board does not give notice provided for in subdivision (e) on or before May 15, the employee shall be deemed reemployed for the ensuing school year.

(j) If after request for hearing pursuant to subdivision (c) any continuance is granted pursuant to Section 11524 of the Government Code, the dates prescribed in subdivisions (d), (e), (f), and (i) which occur on or after the date of granting the continuance shall be extended for a period of time equal to the continuance.

SEC. 6. Section 44949 of the Education Code is amended to read:

Until the employee has requested a hearing as provided in subdivision (b) or has waived his or her right to a hearing, the notice and the reasons therefor shall be confidential and shall not be divulged by any person, except as may be necessary in the performance of duties. However, the violation of this requirement of confidentiality, in and of itself, shall not in any manner be construed as affecting the validity of any hearing conducted pursuant to this section.

(b) The employee may request a hearing to determine if there is cause for not reemploying him or her for the ensuing year. A request for a hearing shall be in writing and shall be delivered to the person who sent the notice pursuant to subdivision (a), on or before a date specified in that subdivision, which shall not be less than seven days after the date on which the notice is served upon the employee. If an employee fails to request a hearing on or before the date specified, his or her failure to do so shall constitute his or her waiver of his or

her right to a hearing. The notice provided for in subdivision (a) shall advise the employee of the provisions of this subdivision.

(c) In the event a hearing is requested by the employee, the proceeding shall be conducted and a decision made in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and the governing board shall have all the power granted to an agency therein, except that all of the following shall apply:

(1) The respondent shall file his or her notice of defense, if any, within five days after service upon him or her of the accusation and he or she shall be notified of this five-day period for filing in the accusation.

(2) The discovery authorized by Section 11507.6 of the Government Code shall be available only if request is made therefor within 15 days after service of the accusation, and the notice required by Section 11505 of the Government Code shall so indicate.

However, the governing board shall make the final determination as to the sufficiency of the cause and disposition. None of the findings, recommendations, or determinations contained in the proposed decision prepared by the administrative law judge shall be binding on the governing board. Nonsubstantive procedural errors committed by the school district or governing board of the school district shall not constitute cause for dismissing the charges unless the errors are prejudicial errors. Copies of the proposed decision shall be submitted to the governing board and to the employee on or before May 7 of the year in which the proceeding is commenced. All expenses of the hearing, including the cost of the administrative law judge, shall be paid by the governing board from the district funds.

The board may adopt from time to time such rules and procedures not inconsistent with provisions of this section as may be necessary to effectuate this section.

(d) Any notice or request shall be deemed sufficient when it is delivered in person to the employee to whom it is directed, or when it is deposited in the United States registered mail, postage prepaid and addressed to the last known address of the employee.

to the continuance.

SEC. 17. Section 11502.1 of the Government Code is amended to read:

11502.1. There is hereby established in the Office of Administrative Hearings a unit of administrative law judges who shall preside over hearings conducted pursuant to Part 1.5 (commencing with Section 437) of Division 1 of the Health and Safety Code. In addition to meeting the qualifications of

administrative law judges as prescribed in Section 11502, the administrative law judges in this unit shall have a demonstrated knowledge of health planning and certificate-of-need matters. As many administrative law judges as are necessary to handle the caseload shall be permanently assigned to this unit. In the event there are no pending certificate of need of health planning matters, administrative law judges in this unit may be assigned to other matters pending before the Office of Administrative Hearings. Health planning matters shall be given priority on the calendar of administrative law judges assigned to this unit.

SEC. 18. Section 11510 of the Government Code is amended to read:

11510. (a) Before the hearing has commenced, the agency or the assigned administrative law judge shall issue subpoenas and subpoenas duces tecum at the request of any party for attendance or production of documents at the hearing. Compliance with Section 1985 of the Code of Civil Procedure shall be a condition precedent to the issuance of a subpoena duces tecum. After the hearing has commenced, the agency itself hearing a case or an administrative law judge sitting alone may issue subpoenas and subpoenas duces tecum.

(b) The process issued pursuant to subdivision (a) shall be extended to all parts of the state and shall be served in accordance with Sections 1987 and 1988 of the Code of Civil Procedure. No witness shall be obliged to attend unless the witness is a resident of the state at the time of service.

(c) All witnesses appearing pursuant to subpoena, other than the parties or officers or employees of the state or any political subdivision thereof, shall receive fees, and all witnesses appearing pursuant to subpoena, except the parties, shall receive mileage in the same amount and under the same circumstances as prescribed by law for witnesses in civil actions in a superior court. Witnesses appearing pursuant to subpoena, except the parties, who attend hearings at points so far removed from their residences as to prohibit return thereto from day to day shall be entitled in addition to fees and mileage to a per diem compensation of three dollars ($3) for expenses of subsistence for each day of actual attendance and for each day necessarily occupied in traveling to and from the hearing. Fees, mileage, and expenses of subsistence shall be paid by the party at whose request the witness is subpoenaed.

SEC. 19. Section 11512 of the Government Code is amended to read:

11512. (a) Every hearing in a contested case shall be presided over by an administrative law judge. The agency itself shall determine whether the administrative law judge is to hear the case alone or whether the agency itself is to hear the case with the administrative law judge.

(b) When the agency itself hears the case, the administrative law judge shall preside at the hearing, rule on the admission and exclusion of evidence, and advise the agency on matters of law; the

agency itself shall exercise all other powers relating to the conduct of the hearing but may delegate any or all of them to the administrative law judge. When the administrative law judge alone hears a case, he or she shall exercise all powers relating to the conduct of the hearing.

(c) An administrative law judge or agency member shall voluntarily disqualify himself or herself and withdraw from any case in which he or she cannot accord a fair and impartial hearing or consideration. Any party may request the disqualification of any administrative law judge or agency member by filing an affidavit, prior to the taking of evidence at a hearing, stating with particularity the grounds upon which it is claimed that a fair and impartial hearing cannot be accorded. Where the request concerns an agency member, the issue shall be determined by the other members of the agency. Where the request concerns the administrative law judge, the issue shall be determined by the agency itself if the agency itself hears the case with the administrative law judge, otherwise the issue shall be determined by the administrative law judge. No agency member shall withdraw voluntarily or be subject to disqualification if his or her disqualification would prevent the existence of a quorum qualified to act in the particular case.

(d) The proceedings at the hearing shall be reported by a phonograhic reporter. However, upon the consent of all the parties, the proceedings may be reported electronically.

(e) Whenever, after the agency itself has commenced to hear the case with an administrative law judge presiding, a quorum no longer exists, the administrative law judge who is presiding shall complete the hearing as if sitting alone and shall render a proposed decision in accordance with subdivision (b) of Section 11517 of the Government Code.

SEC. 20. Section 11513 of the Government Code is amended to read:

11513. (a) Oral evidence shall be taken only on oath or affirmation.

(b) Each party shall have these rights: to call and examine witnesses, to introduce exhibits; to cross-examine opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination; to impeach any witness regardless of which party first called him or her to testify; and to rebut the evidence against him or her. If respondent does not testify in his or her own behalf, he or she may be called and examined as if under cross-examination.

(c) The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of the evidence over objection in civil actions. Hearsay evidence may be used for the purpose of

supplementing or explaining other evidence but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. The rules of privilege shall be effective to the extent that they are otherwise required by statute to be recognized at the hearing, and irrelevant and unduly repetitious evidence shall be excluded.

(d) The hearing shall be conducted in the English language, except that a party who does not proficiently speak or understand the English language and who requests language assistance shall be provided an interpreter approved by the administrative law judge or hearing officer conducting the proceedings. The cost of providing the interpreter shall be paid by the agency having jurisdiction over the matter if the administrative law judge or hearing officer so directs, otherwise the party for whom the interpreter is provided.

The administrative law judge's or hearing officer's decision to direct payment shall be based upon an equitable consideration of all the circumstances in each case, such as the ability of the party in need of the interpreter to pay, except with respect to hearings before the Workers' Compensation Appeals Board or the Division of Industrial Accidents relating to workers' compensation claims. With respect to these hearings, the payment of the costs of providing an interpreter shall be governed by the rules and regulations promulgated by the Workers' Compensation Appeals Board or the Administrative Director of the Division of Industrial Accidents, as appropriate. Such an interpreter shall be selected pursuant to regulations issued by both of the following:

(1) The State Personnel Board, which shall establish criteria for an interpreter's proficiency in both English and the language in which the person will testify.

(2) The employing agency, which shall establish materials and examinations for an interpreter's understanding of its technical program terminology and procedures.

(e) The State Personnel Board shall compile and publish a list of interpreters it has determined to be proficient in various languages and any interpreter so listed shall be eligible to be examined by each employing agency relating to its technical program terminology and procedures. Any interpreter whose language proficiency and knowledge of the terminology and procedures has been satisfactorily determined by the employing agency shall be deemed to be approved by an administrative law judge or a hearing officer of the agency.

(f) In the event that interpreters on the approved list cannot be present at the hearing, or if there is no interpreter on the approved list for a particular language, the hearing agency shall have discretionary authority to provisionally qualify and utilize other interpreters.

(g) Every state agency affected by this section shall advise each party of their right to an interpreter at the same time that each party is advised of the hearing date. Each party in need of an interpreter

shall also be encouraged to give timely notice to the agency conducting the hearing so that appropriate arrangements can be made.

(h) The rules of confidentiality of the agency, if any, which may apply in an adjudicatory hearing, shall apply to any interpreter in the hearing, whether or not the rules so state.

(i) The interpreter shall not have had any involvement in the issues of the case prior to the hearing.

As used in subdivisions (d) and (e), the terms "administrative law judge" and "hearing officer" shall not be construed to require the use of an Office of Administrative Hearings' administrative law judge or hearing officer.

SEC. 21. Section 11517 of the Government Code is amended to read:

11517. (a) If a contested case is heard before an agency itself, the administrative law judge who presided at the hearing shall be present during the consideration of the case and, if requested, shall assist and advise the agency. Where a contested case is heard before an agency itself, no member thereof who did not hear the evidence shall vote on the decision.

(b) If a contested case is heard by an administrative law judge alone, he or she shall prepare within 30 days after the case is submitted a proposed decision in such form that it may be adopted as the decision in the case. The agency itself may adopt the proposed decision in its entirety, or may reduce the proposed penalty and adopt the balance of the proposed decision.

Thirty days after receipt of the proposed decision, a copy of the proposed decision shall be filed by the agency as a public record and a copy shall be served by the agency on each party and his or her attorney.

(c) If the proposed decision is not adopted as provided in subdivision (b), the agency itself may decide the case upon the record, including the transcript, with or without taking additional evidence, or may refer the case to the same administrative law judge to take additional evidence. By stipulation of the parties, the agency may decide the case upon the record without including the transcript. If the case is assigned to an administrative law judge he or she shall prepare a proposed decision as provided in subdivision (b) upon the additional evidence and the transcript and other papers which are part of the record of the prior hearing. A copy of the proposed decision shall be furnished to each party and his or her attorney as prescribed in subdivision (b). The agency itself shall decide no case provided for in this subdivision without affording the parties the opportunity to present either oral or written argument before the agency itself. If additional oral evidence is introduced before the agency itself, no agency member may vote unless the member heard the additional oral evidence.

(d) The proposed decision shall be deemed adopted by the agency 100 days after delivery to the agency by the Office of

Administrative Hearings, unless within that time the agency commences proceedings to decide the case upon the record, including the transcript, or without the transcript where the parties have so stipulated, or the agency refers the case to the administrative law judge to take additional evidence. In a case where the agency itself hears the case, the agency shall issue its decision within 100 days of submission of the case. In a case where the agency has ordered a transcript of the proceedings, the 100-day period shall begin upon delivery of the transcript. If the agency finds that a further delay is required by special circumstances, it shall issue an order delaying the decision for no more than 30 days and specifying the reasons therefor. The order shall be subject to judicial review pursuant to Section 11523.

(e) The decision of the agency shall be filed immediately by the agency as a public record and a copy shall be served by the agency on each party and his or her attorney.

SEC. 22. Section 11521 of the Government Code is amended to read:

11521. (a) The agency itself may order a reconsideration of all or part of the case on its own motion or on petition of any party. The power to order a reconsideration shall expire 30 days after the delivery or mailing of a decision to respondent, or on the date set by the agency itself as the effective date of the decision if that date occurs prior to the expiration of the 30-day period or at the termination of a stay of not to exceed 30 days which the agency may grant for the purpose of filing an application for reconsideration. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied.

(b) The case may be reconsidered by the agency itself on all the pertinent parts of the record and such additional evidence and argument as may be permitted, or may be assigned to an administrative law judge. A reconsideration assigned to an administrative law judge shall be subject to the procedure provided in Section 11517. If oral evidence is introduced before the agency itself, no agency member may vote unless he or she heard the evidence.

SEC. 23. Section 11523 of the Government Code is amended to read:

11523. Judicial review may be had by filing a petition for a writ of mandate in accordance with the provisions of the Code of Civil Procedure, subject, however, to the statutes relating to the particular agency. Except as otherwise provided in this section, any such petition shall be filed within 30 days after the last day on which reconsideration can be ordered. The right to petition shall not be affected by the failure to seek reconsideration before the agency. The complete record of the proceedings, or such parts thereof as are designated by the petitioner, shall be prepared by the agency and shall be delivered to petitioner, within 30 days after a request therefor by him or her, upon the payment of the fee specified in

Section 69950 of the Government Code, as now or hereinafter amended, for the transcript, the cost of preparation of other portions of the record, and for certification thereof. The complete record includes the pleadings, all notices and orders issued by the agency, any proposed decision by an administrative law judge, the final decision, a transcript of all proceedings, the exhibits admitted or rejected, the written evidence, and any other papers in the case. Where petitioner, within 10 days after the last day on which reconsideration can be ordered, requests the agency to prepare all or any part of the record, the time within which a petition may be filed shall be extended until 30 days after its delivery to him or her. The agency may file with the court the original of any document in the record in lieu of a copy thereof.

SEC. 24. Section 11524 of the Government Code is amended to read:

11524. (a) The agency may grant continuances. When an administrative law judge of the Office of Administrative Hearings has been assigned to the hearing, no continuance may be granted except by him or her or by the administrative law judge in charge of the appropriate regional office of the Office of Administrative Hearings, for good cause shown.

(b) When seeking a continuance, a party shall apply for the continuance within 10 working days following the time the party discovered or reasonably should have discovered the event or occurrence which establishes the good cause for the continuance. A continuance may be granted for good cause after the 10 working days have lapsed if the party seeking the continuance is not responsible for and has made a good faith effort to prevent the condition or event establishing the good cause.

(c) In the event that an application for a continuance by a party is denied by an administrative law judge of the Office of Administrative Hearings, and the party seeks judicial review thereof, the party shall, within 10 working days of the denial, make application for appropriate judicial relief in the superior court or be barred from judicial review thereof as a matter of jurisdiction. A party applying for judicial relief from the denial shall give notice to the agency and other parties. Notwithstanding Section 1010 of the Code of Civil Procedure, the notice may be either oral at the time of the denial of application for a continuance or written at the same time application is made in court for judicial relief. This subdivision does not apply to the Department of Alcoholic Beverage Control.

SEC. 25. Section 11528 of the Government Code is amended to read:

11528. In any proceedings under this chapter any agency, agency member, secretary of an agency, hearing reporter, or administrative law judge has power to administer oaths and affirmations and to certify to official acts.

SEC. 26. Section 27727 of the Government Code is amended to read:

27727. Any county or other local public entity may contract with the Office of Administrative Hearings of the State of California, and the office is hereby authorized to contract for services for an administrative law judge or a hearing officer to conduct proceedings pursuant to this chapter.

CHAPTER 325

An act to amend Sections 51326, 52020, 52097, 52097.5, and 52099 of, to add Section 52097.5 to, and to repeal Section 52097.5 of, the Health and Safety Code, relating to housing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 26, 1985. Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 51326 of the Health and Safety Code is amended to read:

51326. This chapter shall remain in effect only until January 1, 1988, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1988, deletes or extends that date.

SEC. 2. Section 52020 of the Health and Safety Code, as amended by Section 2 of Chapter 342 of the Statutes of 1984, is amended to read:

52020. (a) For purposes of a home financing program authorized by this part, a city or county has the following powers and duties:

(1) To acquire, contract, and enter into advance commitments to acquire, home mortgages made or owned by lending institutions at the purchase prices and upon the other terms and conditions as shall be determined by the city or county or other person as it may designate as its agent, to make and execute contracts with lending institutions for the origination and servicing of home mortgages, and to pay the reasonable value of services rendered under those contracts. Prior to executing any contract with a lending institution, a city or county shall adopt regulations establishing criteria for qualification of lending institutions eligible to originate and service home mortgages under home financing programs authorized by this part and shall, with respect to each home financing progam, permit each qualified lending institution which transacts business in the city or county the opportunity to participate in the program on an equitable basis with other participating lending institutions. Two or more cities in the same county, or a county and one or more cities within the county, or two or more adjacent counties and any number of cities within those counties may enter into an agreement to join or cooperate with one another in the exercise jointly, or otherwise, of any or all of their powers for the purpose of financing home

mortgages pursuant to this part with respect to property within the boundaries of any one or more of the entities.

(2) To make loans to lending institutions under terms and conditions which, in addition to other provisions as determined by the city or county, require the lending institutions to use all of the net proceeds thereof, directly or indirectly, for the making of home mortgages in an aggregate principal amount equal to the amount of the net proceeds.

(3) To establish, by rules or regulations, in resolutions relating to any issuance of bonds or in any documents relating to the issuance, the standards and requirements applicable to the purchase of home mortgages or the making of loans to lending institutions as the city or county deems necessary or desirable to effectuate the purposes of this part, which may include without limitation any of the following:

(A) The time within which lending institutions are required to make commitments and disbursements for home mortgages.

(B) The location and other characteristics of homes to be financed by home mortgages.

(C) The terms and conditions of home mortgages to be acquired.

(D) The amounts and types of any insurance coverage required on homes, home mortgages, and bonds.

(E) The representations and warranties of lending institutions confirming compliance with the standards and requirements.

(F) Restrictions as to interest rate and other terms of home mortgages or the return realized therefrom by lending institutions.

(G) The type and amount of collateral security to be provided to assure repayment of any loans from the city or county and to assure repayment of bonds.

(H) Any other matters related to the purchase of home mortgages or the making of loans to lending institutions as deemed relevant by the city or county.

(4) To require from each lending institution from which home mortgages are purchased or to which loans are made the submission of evidence satisfactory to the city or county of the ability and intention of the lending institution to make home mortgages, and the submission, within the time specified by the city or county for making disbursements for home mortgages, of evidence satisfactory to the city or county of the making of home mortgages and of compliance with any standards and requirements established by it.

(b) Each city or county which finances housing pursuant to this part shall designate a person or entity to administer the program.

(c) Each city or county which finances housing pursuant to this part shall adopt regulations establishing criteria for qualification of persons and families, which may differ among different cities or counties to reflect varying economic and housing conditions. In developing this criteria, factors similar to the following shall be taken into consideration:

(1) The amount of the income of the person or family that is available for housing needs.

(2) The size of the household.

(3) The costs and condition of available housing.

(4) The eligibility of the persons or families for federal housing assistance of any type.

(d) Criteria for qualification of persons and families pursuant to this section shall include a maximum household income, which maximum shall not exceed the following:

(1) One hundred fifty percent of the median household income for mortgages made for improving a home or for homes where the purchaser will be the first occupant. Upon the resale of a home for which financing was originally provided under this paragraph, the maximum income of persons and families shall also be 150 percent of the median household income. For purposes of this paragraph, a mortgage made for improving a home includes a home improvement loan as defined in Section 103A of Title 26 of the United States Code.

(2) One hundred twenty percent of the median household income where the purchaser will not be the first occupant. However, the city or county shall ensure that no less than 20 percent of the funds allocated for home mortgages where the purchaser will not be the first occupant shall be for households whose income does not exceed 110 percent of the median household income. However, the legislative body of the city or county may, by resolution, increase this income limitation to 120 percent of median household income if the legislative body finds that there are insufficient numbers of creditworthy persons whose income does not exceed the median household income. The resolution is final and conclusive as to the findings required by this paragraph. However, the finding shall not be made by the legislative body before six months from the date mortgages were first made under the program and only if participating lenders have entered into an agreement with the city, county, or city and county that lenders will advertise at least monthly the availability of funds and will forfeit one-quarter of their origination fees if they are unable to use 20 percent of the funds to make mortgages to households whose income does not exceed 110 percent of the median income.

(3) One hundred fifty percent of the median household income for mortgages made for improving a home or for homes where the purchaser will be the first occupant in any city, the entire area of which, or in any county in which a portion of the county, is designated by the United States Department of Commerce, Economic Development Administration as a special impact area within a Title IV redevelopment area, pursuant to Section 401 of the federal Public Works and Economic Development Act of 1965, as amended, and which is eligible for Urban Development Action Grant funds under the current distress standards established for cities and counties by the Secretary of the United States Department of Housing and Urban Development pursuant to Section 119 of the Housing and Community Development Act of 1974, if the homes

purchased or improved are situated within the boundaries of a special impact area as defined by the Economic Development Administration, and that designation is in effect on the date of sale of revenue bonds issued under this part.

As used in this subdivision, "median household income" means the highest of (A) statewide median household income, (B) countywide median household income, or (C) median family income for area as determined by the United States Department of Housing and Urban Development, with respect to either a standard metropolitan statistical area or an area outside of a standard metropolitan statistical area.

Any city or county which issued bonds pursuant to this chapter after August 1, 1981, may elect to apply this subdivision and subdivision (c) to mortgagors obtaining mortgages from the proceeds of the bonds.

(e) Each city or county which finances housing pursuant to this part shall allocate no less than 60 percent of the dollar amount of its financing from bond proceeds to fund loans for the purchase of homes where the purchaser will be the first occupant, or for substantial rehabilitation. As used in this chapter, "substantial rehabilitation" means rehabilitation in which the costs of rehabilitation equal or exceed 20 percent of the value of the structure after rehabilitation.

(f) Each city or county which finances housing pursuant to this part shall require each mortgagor under the program to certify his or her intention to occupy the home for a minimum of two years after receiving a home mortgage, with appropriate exceptions in hardship cases determined by the city or county.

(g) To do any and all things necessary to carry out the purposes and exercise the powers expressly granted by this part.

(h) This section shall remain in effect only until January 1, 1987, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1987, deletes or extends that date. However, this section shall remain applicable to loans made on or after January 1, 1987, with the proceeds of bonds issued prior to that date.

SEC. 3. Section 52020 of the Health and Safety Code, as amended by Section 3 of Chapter 342 of the Statutes of 1984, is amended to read:

52020. (a) For purposes of a home financing program authorized by this part, a city or county has the following powers and duties:

(1) To acquire, contract, and enter into advance commitments to acquire, home mortgages made or owned by lending institutions at the purchase prices and upon the other terms and conditions as shall be determined by the city or county or other person as it may designate as its agent, to make and execute contracts with lending institutions for the origination and servicing of home mortgages and to pay the reasonable value of services rendered under those contracts. Prior to executing any contract with a lending institution,

a city or county shall adopt regulations establishing criteria for qualification of lending institutions eligible to originate and service home mortgages under home financing programs authorized by this part and shall, with respect to each home financing program, permit each qualified lending institution which transacts business in the city or county the opportunity to participate in the program on an equitable basis with other participating lending institutions. Two or more cities in the same county, or a county and one or more cities within the county, or two or more adjacent counties and any number of cities within those counties may enter into an agreement to join or cooperate with one another in the exercise jointly, or otherwise, of any or all of their powers for the purpose of financing home mortgages pursuant to this part with respect to property within the boundaries of any one or more of the entities.

(2) To make loans to lending institutions under terms and conditions which, in addition to other provisions as determined by the city or county, require the lending institutions to use all of the net proceeds thereof, directly or indirectly, for the making of home mortgages in an aggregate principal amount equal to the amount of the net proceeds.

(3) To establish, by rules or regulations, in resolutions relating to any issuance of bonds or in any documents relating to the issuance, standards and requirements applicable to the purchase of home mortgages or the making of loans to lending institutions as the city or county deems necessary or desirable to effectuate the purposes of this part, which may include without limitation any of the following:

(A) The time within which lending institutions are required to make commitments and disbursements for home mortgages.

(B) The location and other characteristics of homes to be financed by home mortgages.

(C) The terms and conditions of home mortgages to be acquired.

(D) The amounts and types of any insurance coverage required on homes, home mortgages and bonds.

(E) The representations and warranties of lending institutions confirming compliance with the standards and requirements.

(F) Restrictions as to interest rate and other terms of home mortgages or the return realized therefrom by lending institutions.

(G) The type and amount of collateral security to be provided to assure repayment of any loans from the city or county and to assure repayment of bonds.

(H) Any other matters related to the purchase of home mortgages or the making of loans to lending institutions as deemed relevant by the city or county.

(4) To require from each lending institution from which home mortgages are purchased or to which loans are made the submission of evidence satisfactory to the city or county of the ability and intention of the lending institution to make home mortgages, and the submission, within the time specified by the city or county for making disbursements for home mortgages, of evidence satisfactory

to the city or county of the making of home mortgages and of compliance with any standards and requirements established by it.

(b) Each city or county which finances housing pursuant to this part shall designate a person or entity to administer the program.

(c) Each city or county which finances housing pursuant to this part shall adopt regulations establishing criteria for qualification of persons and families, which may differ among different cities or counties to reflect varying economic and housing conditions. In developing this criteria, factors similar to the following shall be taken into consideration:

(1) The amount of the income of the person or family that is available for housing needs.

(2) The size of the household.

(3) The costs and condition of available housing.

(4) The eligibility of the persons or families for federal housing assistance of any type.

(d) Criteria for qualification of persons and families pursuant to this section shall include a maximum household income, which maximum shall not exceed the following:

(1) One hundred twenty percent of the median household income for mortgages made for improving a home or for homes where the purchaser will be the first occupant. Upon the resale of a home for which financing was originally provided under this paragraph, the maximum income of persons and families shall also be 120 percent of the median household income.

(2) The median household income where the purchaser will not be the first occupant. However, the city or county shall ensure that no less than one-half of the funds allocated for home mortgages where the purchaser will not be the first occupant shall be for households whose income does not exceed 80 percent of that median household income. However, the legislative body of the city or county may, by resolution, increase this income limitation to 90 percent of median household income if the legislative body finds that there are insufficient numbers of creditworthy persons whose income does not exceed 80 percent of median household income. The resolution is final and conclusive as to the findings required by this paragraph.

(3) One hundred fifty percent of the median household income for mortgages made for improving a home or for homes where the purchaser will be the first occupant in any city, the entire area of which, or in any county in which a portion of the county, is designated by the United States Department of Commerce, Economic Development Administration as a special impact area within a Title IV redevelopment area, pursuant to Section 401 of the federal Public Works and Economic Development Act of 1965, as amended, and which is eligible for Urban Development Action Grant funds under the current distress standards established for cities and counties by the Secretary of the United States Department of Housing and Urban Development pursuant to Section 119 of the

Housing and Community Development Act of 1974, if the homes purchased or improved are situated within the boundaries of a special impact area as defined by the Economic Development Administration, and that designation is in effect on the date of sale of revenue bonds issued under this part.

As used in this subdivision, "median household income" means the highest of (A) statewide median household income, (B) countywide median household income, or (C) median family income for area as determined by the United States Department of Housing and Urban Development, with respect to either a standard metropolitan statistical area or an area outside of a standard metropolitan statistical area.

(e) Each city or county which finances housing pursuant to this part shall allocate no less than 60 percent of the dollar amount of its financing from bond proceeds to fund loans for the purchase of homes where the purchaser will be the first occupant, or for substantial rehabilitation. As used in this chapter, "substantial rehabilitation" means rehabilitation in which the costs of rehabilitation equal or exceed 20 percent of the value of the structure after rehabilitation.

(f) Each city or county which finances housing pursuant to this part shall require each mortgagor under the program to certify his or her intention to occupy the home for a minimum of two years after receiving a home mortgage, with appropriate exceptions in hardship cases determined by the city or county.

(g) Each city and county may do any and all things necessary to carry out the purposes and exercise the powers expressly granted by this part.

(h) This section shall become operative January 1, 1987.

SEC. 4. Section 52097 of the Health and Safety Code is amended to read:

52097. Except as otherwise provided in this article, this chapter shall not be construed to limit or otherwise restrict the authority of chartered cities to issue bonds for the purpose of financing the construction or development of multifamily rental housing or for the provision of capital improvements in connection with and determined necessary to that multifamily rental housing. For purposes of this article, certificates of participation in any form of obligation of a city, county, or city and county shall be considered to be bonds.

SEC. 5. Section 52097.5 of the Health and Safety Code is amended to read:

52097.5. At least 30 days prior to issuing bonds pursuant to this chapter, a charter provision, or ordinance for the purposes specified in Section 52097, a city, county, or city and county shall notify the State Treasurer that it intends to issue bonds pursuant to this chapter, a charter provision, or ordinance, the amount of bonds expected to be issued, and the approximate date on which the bonds will be issued. The State Treasurer shall advise the city, county, or city and

county of the aggregate amount of bonds previously issued in the calendar year pursuant to this chapter, a charter provision, or ordinance.

(b) Within five days of the issuance of bonds pursuant to this chapter, a charter provision, or ordinance, the city, county, or city and county shall notify the State Treasurer of the amount of bonds issued.

(c) The maximum aggregate amount of bonds which may be issued pursuant to this chapter, a charter provision, or ordinance for the purposes specified in Section 52097, shall not exceed two billion eight hundred million dollars ($2,800,000,000) in any calendar year. However, bonds may be issued without regard to that limitation for any development which is subject to a covenant which requires that, for the period required by subdivision (b) of Section 52080, not less than 10 percent of the total number of units in the development will be reserved for occupancy by individuals or families whose adjusted gross income does not exceed 50 percent of the median adjusted gross income for the area, adjusted for family size, as determined pursuant to Section 8 of the United States Housing Act of 1937 (42 U.S.C.A. Sec. 1437f), or its successor, and if the rents for those units do not exceed the amount derived by multiplying 30 percent times 50 percent of the median adjusted gross income for the area, adjusted for family size, as determined pursuant to Section 8 of the United States Housing Act of 1937, (42 U.S.C.A. Sec. 1437f), or its successor, for a family of one person in the case of a studio unit, two persons in the case of a one bedroom unit, three persons in the case of a two bedroom unit, four persons in the case of a three bedroom unit, and five persons in the case of a four bedroom unit.

(d) No city, county, or city and county may issue any of the additional amount of bonds authorized to be issued pursuant to Assembly Bill 2052 of the 1985–86 Regular Session of the Legislature during the 1985 calendar year until any of the information required to be filed by Section 52098 has also been filed with the Treasurer and the Treasurer certifies to the Legislature that the information has been filed by that city, county, or city and county.

This section shall remain in effect until January 1, 1986, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1986, deletes or extends that date.

SEC. 6. Section 52097.5 is added to the Health and Safety Code, to read:

52097.5. (a) At least 30 days prior to issuing bonds pursuant to this chapter, a charter provision, or an ordinance for the purposes specified in Section 52097, an issuer shall notify the Mortgage Bond Allocation Committee in writing that the issuer intends to issue bonds pursuant to this chapter or such other authority. The notification shall specify the amount of bonds expected to be issued, the development or developments to be financed, and the development or developments, if any, that are subject to the restriction on occupancy described in subdivision (d). The Mortgage

Bond Allocation Committee shall advise the issuer of the aggregate amount of bonds previously issued in the calendar year pursuant to this chapter, charter provisions, or ordinances.

(b) An issuer shall certify to the Mortgage Bond Allocation Committee, at the time of filing the notification of intent to issue, that it has in an escrow specifically established for the purpose, an amount equal to 1 percent of the amount of bonds expected to be issued for developments other than developments to be owned by nonprofit or public entities. To the extent that bonds are not issued for the development or developments before the later of the end of the calendar year in which the notification of intent was filed or the passage of nine months during which amounts were available for the issuance under subdivision (d), a pro rata proportion of the amount in the escrow shall be forwarded to the Mortgage Bond Allocation Committee for immediate deposit in the Rental Housing Construction Fund established pursuant to Section 50740. To the extent that bonds are issued for the development or developments, or notwithstanding the preceding sentence, are not issued during the periods specified in the preceding sentence for reasons beyond the control of the issuer or the developer, as determined by the issuer, the amount in escrow may be released by the issuer to the appropriate person or entity and not forwarded to the committee for deposit in that fund.

(c) Within five days of the issuance of bonds pursuant to this chapter, a charter provision, or an ordinance for the purposes specified in Section 52097, the city, county, or city and county shall notify the Mortgage Bond Allocation Committee of the amount of the bonds issued.

(d) The maximum aggregate amount of bonds which may be issued pursuant to this chapter, charter provisions, or ordinances for the purposes specified in Section 52097, shall not exceed one billion five hundred million dollars ($1,500,000,000) in any calendar year. Not less than 10 percent of the total number of units in any development which is financed with any bonds issued on or after January 1, 1986, shall be reserved for occupancy by individuals or families whose adjusted gross income does not exceed 50 percent of the median adjusted gross income for the area, adjusted for family size, as determined pursuant to Section 8 of the United States Housing Act of 1937 (42 U.S.C.A. Sec. 1437f), or its successor, and the rents for those units shall not exceed the amount derived by multiplying 30 percent times 50 percent of the median adjusted gross income for the area, adjusted for family size, as determined pursuant to Section 8 of the United States Housing Act of 1937, (42 U.S.C.A. Sec. 1437f), or its successor, for a family of one person in the case of a studio unit, two persons in the case of a one bedroom unit, three persons in the case of a two bedroom unit, four persons in the case of a three bedroom unit, and five persons in the case of a four bedroom unit.

(e) No city, county, or city and county may issue any bonds until

any information required to be filed pursuant to Section 8855.5 of the Government Code has been filed with the California Debt Advisory Commission and the Treasurer certifies to the Legislature that the city, county, or city and county has filed that information. Section 52098 shall not apply to bonds issued on or after January 1, 1986.

This section shall become operative January 1, 1986.

SEC. 7. Section 52099 of the Health and Safety Code is amended to read:

52099. This chapter shall remain in effect only until January 1, 1988, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1988, deletes or extends that date.

SEC. 8. Reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), shall be made from the State Mandates Claims Fund.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to extend the authorization to issue revenue bonds to finance multifamily rental housing and to increase the amount of bonds that may be issued for that purpose as soon as possible, it is necessary for this act to take effect immediately.

[Approved by Governor July 26, 1985 Filed with Secretary of State July 29, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 27 is added to the Labor Code, to read:

27. Whenever the term "referee" is used in this code in connection with the workers' compensation law, the term shall mean "workers' compensation judge."

SEC. 2. Section 123 of the Labor Code is amended to read:

123. The administrative director may employ necessary assistants, officers, experts, statisticians, actuaries, accountants,

workers' compensation judges, and other employees. The salaries of the workers' compensation judges shall be fixed by the Department of Personnel Administration for a class of positions which perform judicial functions.

SEC. 3. Section 123.3 of the Labor Code is amended to read:

123.3. Any official reporter employed by the administrative director shall render stenographic or clerical assistance as directed by the presiding workers' compensation judge of the office to which the reporter is assigned, when the presiding workers' compensation judge determines that the reporter is not engaged in the performance of any other duty imposed by law.

SEC. 4. Section 123.5 of the Labor Code is amended to read:

123.5. Workers' compensation judges employed by the administrative director pursuant to this chapter shall be taken from an eligible list of attorneys, having the qualifications prescribed by the State Personnel Board. In establishing eligible lists for this purpose, state civil service examinations shall be conducted by the State Personnel Board on a nonpromotional basis.

A workers' compensation judge may not receive his or her salary as a workers' compensation judge while any cause before the workers' compensation judge remains pending and undetermined for 90 days after it has been submitted for decision.

SEC. 5. Section 123.6 of the Labor Code is amended to read:

123.6. All workers' compensation judges employed by the administrative director shall subscribe to the California Code of Judicial Conduct adopted by the Conference of California Judges and shall not otherwise, directly or indirectly, engage in conduct contrary to that code.

SEC. 6. Section 123.7 of the Labor Code is amended to read:

123.7. The appeals board may, by rule or regulation, establish procedures whereby attorneys who are either certified specialists in workers' compensation by the California State Bar, or are eligible for this certification, may be appointed by the presiding workers' compensation judge of each board office to serve as a pro tempore workers' compensation judge in a particular case, upon the stipulation of the employee or his or her representative, and the employer or the insurance carrier. Service in this capacity by an attorney shall be voluntary and without pay. It is the intent of the Legislature that the use of pro tempore workers' compensation judges pursuant to this section shall not result in a reduction of the number of permanent civil service employees or the number of authorized full-time equivalent positions.

SEC. 7. Section 124 of the Labor Code is amended to read:

124. There is within the Division of Industrial Accidents a Disability Evaluation Bureau. The administrative director shall appoint a qualified specialist in the evaluation of permanent disability to serve as the chief of that bureau, and may appoint such assistant disability evaluation specialists as the work of the bureau may require. Those persons holding positions on the staff of the

division's permanent disability rating bureau shall be appointed and continue respectively as chief and assistant disability evaluation specialists under this section. The chief and the assistant disability evaluation specialists under his or her control and supervision shall:

(a) With the aid and advice of the medical director prepare the forms for approval by the administrative director as may be necessary or convenient for use of the division and of employees and employers, and those acting on their behalf, to facilitate and expedite the determination of the proper percentage of permanent disability, if any, for injuries under Division 4 (commencing with Section 3200) and Division 4.5 (commencing with Section 6100).

(b) Furnish to the administrative director, the appeals board, workers' compensation judges, and to employers and employees and those acting on their behalf, under such conditions as the administrative director may in rules and regulations prescribe, estimates of the percentages of permanent disability, if any, due under Article 3 (commencing with Section 4650), Chapter 2, Part 2, Division 4, either before or after the filing of an application under Chapter 3 (commencing with Section 5500), Part 4, Division 4.

(c) Include the formula used in computing the rating in every rating report, estimate, or recommendation prepared in writing.

(d) Perform those other functions as may be delegated to the Disability Evaluation Bureau by the administrative director.

SEC. 8. Section 130 of the Labor Code is amended to read:

130. The appeals board and each of its members, its secretary, assistant secretaries, and workers' compensation judges, may administer oaths, certify to all official acts, and issue subpoenas for the attendance of witnesses and the production of papers, books, accounts, documents and testimony in any inquiry, investigation, hearing or proceeding in any part of the state.

SEC. 9. Section 131 of the Labor Code is amended to read:

131. Each witness who appears by order of the appeals board or any of its members, or a workers' compensation judge, shall receive, if demanded, for his or her attendance the same fees and mileage allowed by law to a witness in civil cases, paid by the party at whose request the witness is subpoenaed, unless otherwise ordered by the appeals board. When any witness who has not been required to attend at the request of any party is subpoenaed by the appeals board, his or her fees and mileage may be paid from the funds appropriated for the use of the appeals board in the same manner as other expenses of the appeals board are paid. Any witness subpoenaed, except one whose fees and mileage are paid from the funds of the appeals board, may, at the time of service, demand the fee to which he or she is entitled for travel to and from the place at which he or she is required to appear, and one day's attendance. If a witness demands his or her fees at the time of service, and they are not at that time paid or tendered, he or she shall not be required to attend as directed in the subpoena. All fees and mileage to which any witness is entitled under this section may be collected by action

therefor instituted by the person to whom the fees are payable.

SEC. 10. Section 132 of the Labor Code is amended to read:

132. The superior court in and for the county in which any proceeding is held by the appeals board or a workers' compensation judge may compel the attendance of witnesses, the giving of testimony and the production of papers, including books, accounts, and documents, as required by any subpoena regularly issued hereunder. In case of the refusal of any witness to obey the subpoena the appeals board or the workers' compensation judge, before whom the testimony is to be given or produced, may report to the superior court in and for the county in which the proceeding is pending, by petition, setting forth that due notice has been given of the time and place of attendance of the witness, or the production of the papers, that the witness has been subpoenaed in the prescribed manner, and that the witness has failed and refused to obey the subpoena, or has refused to answer questions propounded to him or her in the course of the proceeding, and ask an order of the court, compelling the witness to attend and testify or produce the papers before the appeals board. The court shall thereupon enter an order directing the witness to appear before the court at a time and place fixed in the order, the time to be not more than 10 days from the date of the order, and then and there show cause why he or she had not attended and testified or produced the papers before the appeals board or the workers' compensation judge. A copy of the order shall be served upon the witness. If it appears to the court that the subpoena was regularly issued hereunder and that the witness was legally bound to comply therewith, the court shall thereupon enter an order that the witness appear before the appeals board or the workers' compensation judge at a time and place fixed in the order, and testify or produce the required papers, and upon failure to obey the order, the witness shall be dealt with as for contempt of court. The remedy provided in this section is cumulative, and shall not impair or interfere with the power of the appeals board or a member thereof to enforce the attendance of witnesses and the production of papers, and to punish for contempt in the same manner and to the same extent as courts of record.

SEC. 11. Section 139 of the Labor Code is amended to read:

139. The administrative director shall appoint a Medical and Chiropractic Advisory Committee composed of eight members, seven of whom shall be physicians and surgeons certificated to practice medicine in this state. One member of the Medical and Chiropractic Advisory Committee shall be a chiropractor licensed to practice chiropractic in this state. The seven physician and surgeon members of the advisory committee shall represent medical specialties concerned with the treatment of industrial injury and disease. The physician and surgeon members shall be appointed after consultation with statewide and local associations of the medical profession for two-year staggered terms. The chiropractic member shall be appointed after consultation with statewide and local

associations of the chiropractic profession for a term of two years. Vacancies shall be filled by appointment for the unexpired terms. Members shall receive actual necessary traveling expenses and a per diem of one hundred dollars ($100) for each day spent in meetings of the Medical and Chiropractic Advisory Committee. The Medical and Chiropractic Advisory Committee members shall counsel and assist the medical director and shall perform other duties as the administrative director may direct.

The members of the Medical and Chiropractic Advisory Committee shall, within the scope of each member's professional training, do all the following:

(a) Maintain liaison with the medical and chiropractic professions.

(b) Assist in recruiting doctors for the medical bureau.

(c) Advise the medical director as to selection and removal of independent medical or chiropractic examiners.

(d) Assist, within the scope of each member's professional training, in developing guidelines for determination of disputed questions of clinical fact.

(e) Suggest standards for improving care furnished injured employees.

(f) Undertake continuing studies of developments in the field of rehabilitation, and continuously inform treating physicians and surgeons and chiropractors of these developments.

(g) Advise the division regarding reasonable levels of fees for physicians and surgeons and chiropractors performing services under this code.

The administrative director shall appoint for renewable terms of two years, independent expert medical examiners in each of the respective specialties as may be required. The administrative director shall appoint for renewable terms of two years, independent expert chiropractic examiners.

Assignment of cases to independent examiners shall be made at the request of the administrative director, the secretary of the appeals board, or a workers' compensation judge by the medical director or his or her assistant in each office where a unit of the medical bureau is maintained or by the workers' compensation judge in charge in other offices of the division. Insofar as possible, a rotation method of assignment of independent medical or expert chiropractic examiners shall be followed.

The examiners shall conduct examinations and report their findings and opinions in accordance with guidelines developed for that purpose by the medical director of the division.

Payment for the examination shall be made by the Division of Industrial Accidents from funds appropriated for that purpose or for the support of the division's medical bureau, or in accordance with Section 5703.5.

SEC. 12. Section 4409.5 of the Labor Code is amended to read:

4409.5. The administrative director shall appoint workers' compensation judges and support staff who shall give priority to the

processing of the claims of asbestos workers.

5307.5. The appeals board or a workers' compensation judge may:

(a) Appoint a trustee or guardian ad litem to appear for and represent any minor or incompetent upon the terms and conditions which it deems proper. The guardian or trustee shall, if required by the appeals board, give a bond in the form and of the character required by law from a guardian appointed by a superior court and in the amount which the appeals board determines. The bond shall be approved by the appeals board, and the guardian or trustee shall not be discharged from liability until he or she files an account with the appeals board or with the superior court and the account is approved. The trustee or guardian shall receive the compensation for his or her services fixed and allowed by the appeals board or by the superior court.

(b) Provide for the joinder in the same proceeding of all persons interested therein, whether as employer, insurer, employee, dependent, creditor, or otherwise.

SEC. 14. Section 5309 of the Labor Code is amended to read:

5309. The appeals board may, in accordance with rules of practice and procedure which it shall adopt and upon the agreement of the parties, on the application of either, or of its own motion, and with or without notice, direct and order a workers' compensation judge:

(a) To try the issues in any proceeding before it, whether of fact or of law, and make and file a finding, order, decision, or award based thereon.

(b) To hold hearings and ascertain facts necessary to enable the appeals board to determine any proceeding or to make any order, decision, or award that the appeals board is authorized to make under Divisions 4 or 5, or necessary for the information of the appeals board.

SEC. 15. Section 5310 of the Labor Code is amended to read:

5310. The appeals board may appoint one or more workers' compensation judges in any proceeding, as it may deem necessary or advisable, and may refer, remove to itself, or transfer to a workers' compensation judge the proceedings on any claim. The administrative director may appoint workers' compensation judges. Any workers' compensation judge appointed by the administrative director has the powers, jurisdiction, and authority granted by law, by the order of appointment, and by the rules of the appeals board.

SEC. 16. Section 5311 of the Labor Code is amended to read:

5311. Any party to the proceeding may object to the reference of the proceeding to a particular workers' compensation judge upon any one or more of the grounds specified in Section 641 of the Code of Civil Procedure and the objection shall be heard and disposed of by the appeals board. Affidavits may be read and witnesses examined as to the objections.

SEC. 17. Section 5312 of the Labor Code is amended to read:

5312. Before entering upon his or her duties, the workers' compensation judge shall be sworn, before an officer authorized to administer oaths, faithfully and fairly to hear and determine the matters and issues referred to him or her, to make just findings and to report according to his or her understanding.

SEC. 18. Section 5313 of the Labor Code is amended to read:

5313. The appeals board or the workers' compensation judge shall, within 30 days after the case is submitted, make and file findings upon all facts involved in the controversy and an award, order, or decision stating the determination as to the rights of the parties. Together with the findings, decision, order or award there shall be served upon all the parties to the proceedings a summary of the evidence received and relied upon and the reasons or grounds upon which the determination was made.

SEC. 19. Section 5315 of the Labor Code is amended to read:

5315. Within 60 days after the filing of the findings, decision, order or award, the appeals board may confirm, adopt, modify or set aside the findings, order, decision, or award of a workers' compensation judge and may, with or without further proceedings, and with or without notice, enter its order, findings, decision, or award based upon the record in the case.

SEC. 20. Section 5500.5 of the Labor Code is amended to read:

5500.5. (a) Except as otherwise provided in Section 5500.6, liability for occupational disease or cumulative injury claims filed or asserted on or after January 1, 1978, shall be limited to those employers who employed the employee during a period of four years immediately preceding either the date of injury, as determined pursuant to Section 5412, or the last date on which the employee was employed in an occupation exposing him or her to the hazards of the occupational disease or cumulative injury, whichever occurs first. Commencing January 1, 1979, and thereafter on the first day of January for each of the next two years, the liability period for occupational disease or cumulative injury shall be decreased by one year so that liability is limited in the following manner:

For claims filed or asserted on or after:	The period shall be:
January 1, 1979	three years
January 1, 1980	two years
January 1, 1981 and thereafter	one year

In the event that none of the employers during the above referenced periods of occupational disease or cumulative injury are insured for workers' compensation coverage or an approved alternative thereof, liability shall be imposed upon the last year of employment exposing the employee to the hazards of the occupational disease or cumulative injury for which an employer is insured for workers' compensation coverage or an approved alternative thereof.

Any employer held liable for workers' compensation benefits as a result of another employer's failure to secure the payment of compensation as required by this division shall be entitled to reimbursement from the employers who were unlawfully uninsured during the last year of the employee's employment, and shall be subrogated to the rights granted to the employee against the unlawfully uninsured employers under the provisions of Article 1 (commencing with Section 3700) of Chapter 4 of Part 1 of Division 4.

If, based upon all the evidence presented, the appeals board or workers' compensation judge finds the existence of cumulative injury or occupational disease, liability for the cumulative injury or occupational disease shall not be apportioned to prior or subsequent years; however, in determining the liability, evidence of disability due to specific injury, disability due to nonindustrial causes, or disability previously compensated for by way of a findings and award or order approving compromise and release, or a voluntary payment of disability, may be admissible for purposes of apportionment.

(b) Where a claim for compensation benefits is made on account of an occupational disease or cumulative injury which may have arisen out of more than one employment, the application shall state the names and addresses of all employers liable under subdivision (a), the places of employment, and the approximate periods of employment where the employee was exposed to the hazards of the occupational disease or cumulative injury. If the application is not so prepared or omits necessary and proper employers, any interested party, at or prior to the first hearing, may request the appeals board to join as defendant any necessary or proper party. If the request is made prior to the first hearing on the application, the appeals board shall forthwith join the employer as a party defendant and cause a copy of the application together with a notice of the time and place of hearing to be served upon the omitted employer; provided, the notice can be given within the time specified in this division. If the notice cannot be timely given or if the motion for joinder is made at the time of the first hearing, then the appeals board or the workers' compensation judge before whom the hearing is held, if it is found that the omitted employer named is a necessary or proper party, may order a joinder of the party and continue the hearing so that proper notice may be given to the party or parties so joined. Only one continuance shall be allowed for the purpose of joining additional parties. Subsequent to the first hearing the appeals board shall join as a party defendant any additional employer when it appears that the employer is a proper party, but the liability of the employer shall not be determined until supplemental proceedings are instituted.

(c) In any case involving a claim of occupational disease or cumulative injury occurring as a result of more than one employment within the appropriate time period set forth in subdivision (a), the employee making the claim, or his or her dependents, may elect to proceed against any one or more of the employers. Where such an election is made, the employee must successfully prove his or her

claim against any one of the employers named, and any award which the appeals board shall issue awarding compensation benefits shall be a joint and several award as against any two or more employers who may be held liable for compensation benefits. If, during the pendency of any claim wherein the employee or his or her dependents has made an election to proceed against one or more employers, it should appear that there is another proper party not yet joined, the additional party shall be joined as a defendant by the appeals board on the motion of any party in interest, but the liability of the employer shall not be determined until supplemental proceedings are instituted. Any employer joined as a defendant subsequent to the first hearing or subsequent to the election provided herein shall not be entitled to participate in any of the proceedings prior to the appeal board's final decision, nor to any continuance or further proceedings, but may be permitted to ascertain from the employee or his or her dependents such information as will enable the employer to determine the time, place, and duration of the alleged employment. On supplemental proceedings, however, the right of the employer to full and complete examination or cross-examination shall not be restricted.

(d) (1) In the event a self-insured employer which owns and operates a work location in the State of California, sells or has sold the ownership and operation of the work location pursuant to a sale of a business or all or part of the assets of a business to another self-insured person or entity after January 1, 1974, but before January 1, 1978, and all the requirements of subparagraphs (A) to (D), inclusive, exist, then the liability of the employer-seller and employer-buyer, respectively, for cumulative injuries suffered by employees employed at the work location immediately before the sale shall, until January 1, 1986, be governed by the provisions of this section which were in effect on the date of that sale.

(A) The sale constitutes a material change in ownership of such work location.

(B) The person or entity making the purchase continues the operation of the work location.

(C) The person or entity becomes the employer of substantially all of the employees of the employer-seller.

(D) The agreement of sale makes no special provision for the allocation of liabilities for workers' compensation between the buyer and the seller.

(2) For purposes of this subdivision:

(A) "Work location" shall mean any fixed place of business, office, or plant where employees regularly work in the trade or business of the employer.

(B) A "material change in ownership" shall mean a change in ownership whereby the employer-seller does not retain, directly or indirectly, through one or more corporate entities, associations, trusts, partnerships, joint ventures, or family members, a controlling interest in the work location.

(3) This subdivision shall have no force or effect on or after January 1, 1986, unless otherwise extended by the Legislature prior to that date, and it shall not have any force or effect as respects an employee who, subsequent to the sale described in paragraph (1) and prior to the date of his or her application for compensation benefits has been filed, is transferred to a different work location by the employer-buyer.

(4) If any provision of this subdivision or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of this subdivision which can be given effect without the invalid provision or application, and to this end the provisions of this subdivision are severable.

(e) At any time within one year after the appeals board has made an award for compensation benefits in connection with an occupational disease or cumulative injury, any employer held liable under the award may institute proceedings before the appeals board for the purpose of determining an apportionment of liability or right of contribution. The proceeding shall not diminish, restrict, or alter in any way the recovery previously allowed the employee or his or her dependents, but shall be limited to a determination of the respective contribution rights, interest or liabilities of all the employers joined in the proceeding, either initially or supplementally; provided, however, if the appeals board finds on supplemental proceedings for the purpose of determining an apportionment of liability or of a right of contribution that an employer previously held liable in fact has no liability, it may dismiss the employer and amend its original award in such manner as may be required.

(f) If any proceeding before the appeals board for the purpose of determining an apportionment of liability or of a right of contribution where any employee incurred a disability or death resulting from silicosis in underground metal mining operations, the determination of the respective rights and interests of all of the employers joined in the proceedings either initially or supplementally shall be as follows:

(1) All employers whose underground metal mining operations resulted in a silicotic exposure during the period of the employee's employment in those operations shall be jointly and severally liable for the payment of compensation and of medical, surgical, legal and hospital expense which may be awarded to the employee or his or her estate or dependents as the result of disability or death resulting from or aggravated by the exposure.

(2) In making its determination in the supplemental proceeding for the purpose of determining an apportionment of liability or of a right of contribution of percentage liabilities of the various employers engaged in underground metal mining operations the appeals board shall consider as a rebuttal presumption that employment in underground work in any mine for a continuous period of more than three calendar months will result in a silicotic exposure for the employee so employed during the period of employment if the under-

ground metal mine was driven or sunk in rock having a composition which will result in dissemination of silica or silicotic dust particles when drilled, blasted, or transported.

(g) Any employer shall be entitled to rebut the presumption by showing to the satisfaction of the appeals board, or the workers' compensation judge, that the mining methods used by the employer in the employee's place of employment did not result during his or her employment in the creation of silica dust in sufficient amount or concentration to constitute a silicotic hazard. Dust counts, competently made, at intervals and in locations as meet the requirements of the Division of Occupational Safety and Health for safe working conditions may be received as evidence of the amount and concentration of silica dust in the workings where the counts have been made at the time when they were made. The appeals board may from time to time, as its experience may indicate proper, promulgate orders as to the frequency with which dust counts shall be taken in different types of workings in order to justify their acceptance as evidence of the existence or nonexistence of a silicotic hazard in the property where they have been taken.

(h) The amendments to this section adopted at the 1959 Regular Session of the Legislature shall operate retroactively, and shall apply retrospectively to any cases pending before the appeals board or courts. From and after the date this section becomes effective no payment shall be made out of the fund used for payment of the additional compensation provided for in Section 4751, or out of any other state funds, in satisfaction of any liability heretofore incurred or hereafter incurred, except awards which have become final without regard to the continuing jurisdiction of the appeals board on that effective date, and the state and its funds shall be without liability therefor. This subdivision shall not in any way effect a reduction in any benefit conferred or which may be conferred upon any injured employee or his dependents.

The appeals board or a workers' compensation judge in any proceeding before the appeals board may cause evidence to be taken in other jurisdictions before the agency authorized to hear workers' compensation matters in those other jurisdictions.

(b) Where the employer or insurance carrier requests a deposition to be taken of an injured employee, or any person claiming benefits as a dependent of an injured employee, the deponent is entitled to receive in addition to all other benefits:

Nothing herein contained shall prevent the enforcement of any final order, decision, or award, in the manner provided in this division.

SEC. 29. Section 5902 of the Labor Code is amended to read:

5902. The petition for reconsideration shall set forth specifically and in full detail the grounds upon which the petitioner considers the final order, decision or award made and filed by the appeals board or a workers' compensation judge to be unjust or unlawful, and every issue to be considered by the appeals board. be given to the petitioner and adverse parties and to other persons as the appeals board orders.

SEC. 32. Section 5907 of the Labor Code is amended to read:

(b) The governing board of any school district may, by majority vote, delegate to such officer or employee as the governing board may designate, the power to enter into any lease, permit, or agreement for the use by the district of buildings or other facilities if the use is to be granted to the district without charge.

CHAPTER 337

An act to add Article 8 (commencing with Section 53150) to Chapter 1 of Part 1 of Division 2 of Title 5 of the Government Code, relating to emergency response.

[Approved by Governor July 28, 1985 Filed with Secretary of State July 29, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Article 8 (commencing with Section 53150) is added to Chapter 1 of Part 1 of Division 2 of Title 5 of the Government Code, to read:

Article 8. Costs of Emergency Response

53150. Any person who is under the influence of an alcoholic beverage or any drug, or the combined influence of an alcoholic

beverage and any drug, whose negligent operation of a motor vehicle caused by that influence proximately causes any incident resulting in an appropriate emergency response, and any person whose intentionally wrongful conduct proximately causes any incident resulting in an appropriate emergency response, is liable for the expense of an emergency response by a public agency to the incident.

53151. Any person who is under the influence of an alcoholic beverage or any drug, or the combined influence of an alcoholic beverage and any drug, whose negligent operation of any boat or vessel caused by that influence proximately causes any incident resulting in an appropriate emergency response, and any person whose intentionally wrongful conduct proximately causes any incident resulting in an appropriate emergency response, is liable for the expense of an emergency response by a public agency to the incident.

53152. Any person who is under the influence of an alcoholic beverage or any drug, or the combined influence of an alcoholic beverage and any drug, whose negligent operation of a civil aircraft caused by that influence proximately causes any incident resulting in an appropriate emergency response, and any person whose intentionally wrongful conduct proximately causes an incident resulting in an appropriate emergency response, is liable for the expense of an emergency response by a public agency to the incident.

53153. For purposes of this article, a person is under the influence of an alcoholic beverage or any drug, or the combined influence of an alcoholic beverage and any drug, when as a result of drinking an alcoholic beverage or using a drug, or both, his or her physical or mental abilities are impaired to a degree that he or she no longer has the ability to operate a motor vehicle, boat or vessel, or aircraft with the caution characteristic of a sober person of ordinary prudence under the same or similar circumstances. For purposes of this article, the presumptions described in Sections 23152 and 23155 of the Vehicle Code shall apply.

53154. The expense of an emergency response shall be a charge against the person liable for expenses under this article. The charge constitutes a debt of that person and is collectible by the public agency incurring those costs in the same manner as in the case of an obligation under a contract, expressed or implied, except that liability for the expenses provided for in this article shall not be insurable and no insurance policy shall provide or pay for the expenses.

53155. In no event shall a person's liability under this article for the expense of an emergency response exceed five hundred dollars ($500) for a particular incident.

53156. As used in this article:

(a) "Expense of an emergency response" means reasonable costs incurred by a public agency in reasonably making an appropriate

emergency response to the incident, including the costs of providing police, firefighting, rescue, and emergency medical services at the scene of the incident, but shall only include those costs directly arising because of the response to the particular incident.

(b) "Public agency" means the state and any city, county, municipal corporation, district, or public authority located, in whole or in part, within this state which provides or may provide firefighting, police, ambulance, medical, or other emergency services.

(c) "Intentionally wrongful conduct" means conduct intended to injure another person or property.

53157. Any testimony, admission, or any other statement made by the defendant in any proceeding brought pursuant to this article, or any evidence derived from the testimony, admission, or other statement, shall not be admitted or otherwise used in any criminal proceeding arising out of the same incident.

53158. It is not the intent of the Legislature, in enacting this article, to occupy the field of recovery of the expense of an emergency response by a public agency, nor is it the intent of the Legislature to preempt local regulations or to otherwise limit the remedies available to any public agency to recover the expenses of an emergency response to any incident not involving persons who operate a motor vehicle, boat or vessel, or civil aircraft while under the influence of an alcoholic beverage or any drug, or the combined influence of an alcoholic beverage and any drug.

CHAPTER 338

An act to amend Sections 65357 and 65456 of the Government Code, and to amend Section 21152 of the Public Resources Code, relating to land use regulation.

[Approved by Governor July 28, 1985. Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 65357 of the Government Code is amended to read:

65357. (a) A copy of the adopted general plan or amendment to the general plan shall be sent to all public entities specified in Section 65352 and any other public entities that submitted comments on the proposed general plan or amendment to the general plan during its preparation. Failure to send the adopted general plan or amendment as provided in this section shall not affect its validity in any manner.

(b) Copies of the documents adopting or amending the general plan, including the diagrams and text, shall be made available to the general public as follows:

(1) Within one working day following the date of adoption, the clerk of the legislative body shall make the documents adopting or amending the plan, including the diagrams and text, available to the public for inspection.

(2) Within two working days after receipt of a request for a copy of the adopted documents adopting or amending the plan, including the diagrams and text, accompanied by payment for the reasonable cost of copying, the clerk shall furnish the requested copy to the person making the request.

(c) A city or county may charge a fee for a copy of the general plan or amendments to the general plan that is reasonably related to the cost of providing that document.

SEC. 2. Section 65456 of the Government Code is amended to read:

65456. (a) The legislative body, after adopting a specific plan, may impose a specific plan fee upon persons seeking governmental approvals which are required to be consistent with the specific plan. The fees shall be established so that, in the aggregate, they defray but as estimated do not exceed, the cost of preparation, adoption, and administration of the specific plan, including costs incurred pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code. As nearly as can be estimated, the fee charged shall be a prorated amount in accordance with the applicant's relative benefit derived from the specific plan. It is the intent of the Legislature in providing for such fees to charge persons who benefit from specific plans for the costs of developing those specific plans which result in savings to them by reducing the cost of documenting environmental consequences and advocating changed land uses which may be authorized pursuant to the specific plan.

(b) Notwithstanding Section 54992, a city or county may require a person who requests adoption or amendment of a specific plan to deposit with the planning agency an amount equal to the estimated cost of preparing the plan or amendment prior to its preparation by the planning agency.

(c) Copies of the documents adopting or amending the specific plan, including the diagrams and text, shall be made available to local agencies, and shall be made available to the general public as follows:

(1) Within one working day following the date of adoption, the clerk of the legislative body shall make the documents adopting or amending the plan, including the diagrams and text, available to the public for inspection.

(2) Within two working days after receipt of a request for a copy of the documents adopting or amending the plan, including the diagrams and text, accompanied by payment for the reasonable cost of copying, the clerk shall furnish the requested copy to the person making the request.

(d) A city or county may charge a fee for a copy of a specific plan or amendments to a specific plan in an amount that is reasonably related to the cost of providing that document.

SEC. 3. Section 21152 of the Public Resources Code is amended to read:

21152. (a) Whenever a local agency approves or determines to carry out a project which is subject to this division, it shall file notice of the approval or the determination within five working days after the approval or determination becomes final with the county clerk of the county, or counties, in which the project will be located. The notice shall indicate the determination of the local agency whether the project will, or will not, have a significant effect on the environment and shall indicate whether an environmental impact report has been prepared pursuant to this division. The notice shall also include certification that the final environmental impact report with comments and responses, if one was prepared, is available to the general public.

(b) Whenever a local agency determines that a project is not subject to this division pursuant to subdivision (b) of Section 21080 or pursuant to Section 21085 or 21172, and it approves or determines to carry out the project, it, or the person specified in subdivision (b) or (c) of Section 21065, may file notice of the determination with the county clerk of the county, or counties, in which the project will be located. Any notice filed pursuant to this subdivision by a person specified in subdivision (b) or (c) of Section 21065 shall have a certificate of determination attached to it issued by the local agency responsible for making the determination that a project is not subject to this division pursuant to subdivision (b) of Section 21080 or pursuant to Section 21085 or 21172. The certificate of determination may be in the form of a certified copy of an existing document or record of the local agency.

(c) All notices filed pursuant to this section shall be available for public inspection, and shall be posted on a weekly basis in the office of the county clerk. Each notice shall remain posted for a period of 30 days, and thereafter, the clerk shall return to the local agency the notice with a notation of the period it was posted. The local agency shall retain the notice for not less than nine months.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 339

An act to amend Section 46111, as amended by Section 1 of Chapter 246 of the Statutes of 1983, and to amend Section 46111, as added by Section 2 of Chapter 246 of the Statutes of 1983, of the Education Code, relating to schools.

[Approved by Governor July 28, 1985. Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 46111 of the Education Code, as amended by Section 1 of Chapter 246 of the Statutes of 1983, is amended to read:

46111. No pupil in a kindergarten shall be kept in school in any day more than four hours exclusive of recesses.

This section shall not apply to the Pasadena Unified School District, the San Bernardino Unified School District, or counties of the third class as determined pursuant to Section 28024 of the Government Code, as it read on January 1, 1977.

This section shall remain in effect only until January 1, 1990, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1990, deletes or extends such date.

SEC. 2. Section 46111 of the Education Code, as added by Section 2 of Chapter 246 of the Statutes of 1983, is amended to read:

46111. No pupil in a kindergarten shall be kept in school in any day more than four hours exclusive of recesses.

This section shall not apply to the Pasadena Unified School District or counties of the third class as determined pursuant to Section 28024 of the Government Code, as it read on January 1, 1977.

This section shall become operative January 1, 1990.

SEC. 3. Due to the unique circumstances concerning the kindergarten program of the San Bernardino Unified School District and the school district's efforts to desegregate and integrate, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the Constitution.

CHAPTER 340

An act to add Section 36064 to the Water Code, relating to California water districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 28, 1985 Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 36064 is added to the Water Code, to read:

36064. Bonds may be refunded by defeasance or call for redemption, subject to all of the following requirements:

(a) Notwithstanding Sections 53557 and 53585 of the Government Code, the proceeds of the sale of refunding bonds deposited in escrow or trust may be invested or reinvested in any combination of

federal securities and securities permitted by subdivisions (c) and (d) of Section 53635 of the Government Code, except that investment and reinvestment of the proceeds shall not be permitted in securities issued by the district or on behalf of any of its improvement districts. The ratings of any securities permitted by subdivision (d) of Section 53635 of the Government Code in which the escrow or trust is invested or reinvested, or debt service insurance or other credit enhancement with respect to those securities, or any combination thereof, shall produce a rating on those securities when acquired equivalent to the highest long-term debt rating category of either Moody's Investors Service, Inc., or Standard and Poor's Corporation. Notwithstanding Section 53584 of the Government Code, the securities may be acquired from the issuer thereof or any other source approved by the board.

(b) The escrow or trust shall be established in an amount sufficient to pay when due the principal of, redemption premium, if any, and interest on, the bonds being refunded. Securities in the escrow or trust may be exchanged or sold and the proceeds used to purchase other securities only when the escrow agent or trustee holding the fund deems the exchange or sale necessary to maintain the ability to pay when due the principal of, redemption premium, if any, and interest on, the bonds being refunded. If the escrow or trust becomes insufficient to pay the principal, redemption premium, if any, and interest when due, the board may, to the extent of the insufficiency, augment the escrow or trust from assessments or charges, or both, fixed and collected for that purpose, notwithstanding Section 53561 of the Government Code and Section 36063 of this code.

(c) Notwithstanding Section 53583 of the Government Code, the bonds being refunded need not be called and paid at the first or any subsequent date on which the bonds may legally be called, if the board determines that to do so would be consistent with prudent management of the district's fiscal affairs.

SEC. 2. The Legislature finds and declares that there are special financial circumstances unique to the Irvine Ranch Water District and the Moulton-Niguel Water District which make the provisions of this act necessary and that a general law within the meaning of Section 16 of Article IV of the California Constitution cannot be made applicable.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Increased cost savings are achievable in refunding bonds of the Irvine Ranch Water District's improvement districts if authority is given to those districts to invest refunding bond proceeds in certain governmental securities in addition to those currently permitted, and if those districts are relieved of the requirement of calling the bonds being refunded at the first available call date. To afford the

district the earliest possible opportunity to lower the financial burden of debt service for the ratepayers and taxpayers, it is necessary that this act take effect immediately.

CHAPTER 341

An act to amend Section 5473.10 of the Health and Safety Code, relating to sanitation and sewerage systems.

[Approved by Governor July 28, 1985. Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 5473.10 of the Health and Safety Code is amended to read:

5473.10. The entity may provide for a basic penalty of not more than 10 percent for nonpayment of the charges within the time and in the manner prescribed by it, and in addition may provide for a penalty of not exceeding 1 and one-half percent per month for nonpayment of the charges and basic penalty. It may provide for collection of the penalties herein provided for.

CHAPTER 342

An act to add Sections 44548 and 44549 to the Health and Safety Code, relating to pollution control facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 28, 1985 Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that small businesses have had difficulty establishing adequate security for bonds issued by the California Pollution Control Financing Authority on their behalf, and that in order to increase opportunities for financing for small businesses, as directed by the Legislature in Section 44537.5 of the Health and Safety Code, it is appropriate for the authority to establish one or more common reserve funds to help provide reasonable security for its bonds and to help make the authority's services available to small businesses which are presently unable to use them. The Legislature hereby approves and ratifies the actions of the authority toward establishment of a common reserve fund program undertaken after December 16, 1983, and enacts this act to clarify the authority's powers and to provide the authority the

necessary flexibility to fully implement this program.

SEC. 2. Section 44548 is added to the Health and Safety Code, to read:

44548. (a) Subject to any prior contractual obligations to any of its bondholders, the authority may establish one or more common reserve funds for any or all of its bonds in order to assist small businesses to achieve financing of pollution control facilities. For the purpose of establishing and maintaining common reserve funds as it deems necessary or desirable to secure its bonds or any issuance thereof, the authority, pursuant to its contracts with participating parties, may levy fees or other charges on, or require deposits from, participating parties receiving financing for a project under this division. The total amount of these fees, charges, and deposits with respect to a single issue of bonds shall not exceed 3 percent of the principal amount of that issue of bonds. Prior to levying any fees or charges or requiring deposits, the authority shall adopt regulations for the operation of the common reserve funds, the amounts and any payment schedule for the fees, charges, or deposits, eligibility standards for small businesses desiring to use or benefit from the common reserve funds, and any other matters the authority deems necessary for the establishment and maintenance of common reserve funds. The regulations may provide for differential fees from participating parties based upon the size of a project financed by the authority or other factors deemed relevant by the authority, and the regulations may restrict any benefits to those eligible small businesses as may be specified in the regulations. The authority may transfer any funds available to it or set aside for its administrative expenses to any common reserve fund established under this section.

(b) The liability of any common reserve fund with respect to any single issue of bonds of the authority may not exceed one million dollars ($1,000,000).

(c) The forms of financial assistance which the authority may provide under this section include, but are not limited to, payments to reduce, but not eliminate, the interest rate on loans; payments of part or all of the cost of acquiring letters of credit, insurance, guarantees, or other forms of credit support; and payment of part or all of the authority's expenses in issuing revenue bonds. The authority may pledge any common reserve fund, not to exceed the limit specified in subdivision (b), to repay the principal of, or interest or premium on, any issue of bonds of the authority. The authority may contract with qualified financial institutions including, but not limited to, banks, investment and mortgage bankers, insurance companies, sureties, and guarantors, to provide any necessary assistance in the granting of credit for these purposes.

(d) Each common reserve fund established pursuant to this section shall be deposited in a special account which the Controller shall create. Notwithstanding any other provision of law, and subject to any requirements of federal tax law or regulations relative to maintaining the tax exempt status of the obligations of the authority,

all interest or other gains earned by investment or deposit of money in the special account pursuant to any provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code or pursuant to any other provision of law shall be credited to, and deposited in, the account.

SEC. 3. Section 44549 is added to the Health and Safety Code, to read:

44549. Any funds of the authority, including proceeds from the sale of bonds or notes issued after the effective date of this section, money set aside for the authority's administrative expenses, and common reserve funds created under Section 44548, may be invested in any obligations of any state or local government meeting the requirements of subdivision (a) of Section 103 of the Internal Revenue Code of 1954 (26 U.S.C. Sec. 103 (a)) including mutual funds, trusts, and similar instruments representing a pool of obligations. The Treasurer may adopt regulations providing appropriate investment standards for these investments. If the Treasurer deems it necessary to assure compliance with federal tax laws or regulations, the authority may, notwithstanding any other provision of law, deposit funds received as fees from the issuance of its obligations, including common reserve funds, with a bank or trust company acting on behalf of the authority.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Many small businesses require immediate assistance by the California Pollution Control Authority to finance needed pollution control facilities because of impending environmental deadlines. In order to implement the common reserve fund program created by this act as soon as possible to assist qualifying small businesses, and to ensure that investments of funds of the authority comply with new provisions of federal tax law, it is necessary that this act take effect immediately.

CHAPTER 343

An act to amend Sections 62707 and 62711 of, and to add Section 62074.5 to, the Food and Agricultural Code, relating to market milk.

[Approved by Governor July 28, 1985 Filed with Secretary of State July 29, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 62074.5 is added to the Food and Agricultural Code, to read:

62074.5. A stabilization and marketing plan may contain

provisions necessary to encourage the availability of market milk for those usages for which class 1 and class 2 milk is mandatory.

SEC. 2. Section 62707 of the Food and Agricultural Code is amended to read:

62707. The formulation committee shall make recommendations to the director for inclusion in the pooling plan, and the director shall include in the pooling plan, all of the following:

(a) The establishment of one or more pools throughout the state.

(b) (1) The base period to be used in determining the production and class 1 usage bases of each producer directly affected by the pooling plan. The base period shall, at the producer's option, be his or her fluid milk production and usage in the pool area during the calendar year 1967 on an average daily basis or his or her production and usage in the pool area during the last six months of 1966 on an average daily basis.

(2) As to a producer south and east of San Gorgonio Pass, his or her production base may, at his or her option, be four times his or her production in the months of December, 1966, and January and February, 1967.

(3) If a producer, during any base period, had a valid contract with a distributor, or as a member of a cooperative association had an allocation, which provided that the distributor or cooperative association was required to accept a larger amount of fluid milk from the producer than the producer actually produced during the period, on proof satisfactory to the director of the contract or allocation, the producer may, at his or her option, have the amount specified in the contract or allocation established as his or her production base.

(c) The establishment of a class 1 usage for each producer, which shall be the amount of his or her production of fluid milk accounted for as class 1, and any fluid milk sold for use as class 1 to a United States military installation but which was not accounted for as class 1.

(d) The allocation to each producer within any pool of a pool quota, which, initially, shall be 110 percent of that producer's class 1 usage, as determined in subdivision (c).

(e) (1) The determination of new class 1 usage and the allocation of pool quota based thereon in a manner consistent with effectuating the purposes of this chapter.

(2) All producers who have not reached the equalization point shall share in the allocation of pool quota on the basis of a formula which gives substantial weight to each producer's production base, but which, at the same time, allocates a larger percentage to hardship cases and low class 1 usage producers.

(3) The allocations shall be made on the basis of each individual producer, with each cooperative association considered as a single producer. The cooperative associations of producers shall reassign any new quota to their own members subject to the provisions of Section 62710.

(4) Annually, within no more than four months after August 31 of each year, the pool quota shall be adjusted by each component to reflect any additional pool quota. Any increase in pool quota shall be determined from the amount of new class 1 solids not fat usage which developed during the preceding annual period which exceeded the previous highest identical annual period since the enactment of this chapter.

There shall be no downward adjustment of pool quota below the quota initially established pursuant to this chapter.

(f) The establishment of production bases and pool quotas for new fluid milk producers who wish to enter the pooling plan after the effective date of the plan. The recommendations of the committee shall be reasonably equitable to both the new producers and to participating producers and consistent with effectuating the purposes of this chapter.

(g) The transfer of production bases and pool quotas from one fluid milk producer to another under conditions so designed as to prevent abuses in the transfers and to avoid the development of excessive values for the bases and quotas.

(h) Notwithstanding Section 62711, any provision which may be necessary to encourage the availability of market milk for those usages for which class 1 and class 2 milk is mandatory.

(i) Any and all other matters necessary and desirable to effectuate the provisions of this chapter.

The recommendations of the formulation committee and the pooling plan may provide exceptions from the plan's general application for individual cases of hardship.

SEC. 3. Section 62711 of the Food and Agricultural Code is amended to read:

62711. Except as provided in subdivision (h) of Section 62707, each producer shall be paid the highest usage for that amount of his or her fluid milk production which is equal to his or her pool quota and shall be paid the next highest usage for the difference between his or her pool quota and his or her production base under the production pool designated pursuant to this chapter and the lowest usage for all milk produced in excess of his or her production base under the overproduction pool designated pursuant to this chapter.

CHAPTER 344

An act to amend Section 40070 of the Education Code, relating to education, and declaring the urgency thereof, to take effect immediately.

CHAPTER 356

An act to amend Section 227p of the Civil Code, and to amend Sections 1822 and 1827.5 of, and to add Section 1461.4 to, the Probate Code, relating to civil law.

[Approved by Governor July 29, 1985. Filed with Secretary of State July 30, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 227p of the Civil Code is amended to read:

227p. (a) Any adult person may adopt any other adult person younger than himself or herself, except the spouse of the adopting person, by an agreement of adoption approved by a decree of adoption of the superior court of the county in which either the person adopting or the person adopted resides, as provided in this section. The agreement of adoption shall be in writing and shall be executed by the person adopting the person to be adopted, and shall set forth that the parties agree to assume toward each other the legal relation of parent and child, and to have all of the rights and be subject to all of the duties and responsibilities of that relation.

A married person not lawfully separated from his or her spouse

The adopting person and the person to be adopted may file in the superior court of the county in which either resides a petition praying for approval of the agreement of adoption by the issuance of a decree of adoption. The court shall fix a time and place for hearing on the petition, and both the person adopting and the person to be adopted shall appear at the hearing in person, unless an appearance is impossible, in which event an appearance may be made for either or both of the persons by counsel, empowered in writing to make the appearance. The court may require notice of the time and place of the hearing to be served on any other interested persons, and any such interested person may appear and object to the proposed adoption. No investigation or report to the court by any public officer or agency is required, but the court may require the county probation officer or the State Department of Social Services to investigate the circumstances of the proposed adoption and report thereon, with recommendations, to the court prior to the hearing.

At the hearing the court shall examine the parties, or the counsel of any party not present in person. If the court is satisfied that the adoption will be for the best interests of the parties and in the public interest, and that there is no reason why the petition should not be granted, the court shall approve the agreement of adoption, and make a decree of adoption declaring that the person adopted is the child of the person adopting him or her; otherwise, the court shall withhold approval of the agreement and deny the petition.

A married minor child may be adopted pursuant to the provisions of this section if he or she has the written consent of his or her spouse to the adoption.

(b) The person seeking to adopt shall mail or personally serve notice of the hearing and a copy of the petition to the director of the regional center for the developmentally disabled, established pursuant to Chapter 5 (commencing with Section 4620) of Division 4.5 of the Welfare and Institutions Code, and to any living parents or adult children of the proposed adoptee, at least 30 days before the day of the hearing on a petition for adoption in any case in which both of the following conditions exist:

(2) No person shall adopt more than one unrelated adult person within one year of his or her adoption of an unrelated adult unless the person to be adopted is the sibling by birth of a person previously adopted pursuant to this section, or unless the person to be adopted is disabled or physically handicapped. No person shall adopt an unrelated adult person within one year of any adoption of an unrelated adult by his or her spouse, unless the person to be adopted is the sibling by birth of a person previously adopted pursuant to this section.

(3) If the person seeking to adopt is a provider of board and care, treatment, habilitation, or other services to persons with developmental disabilities, or is a spouse or employee of a provider, and seeks to adopt an unrelated adult with developmental disabilities, the regional center for the developmentally disabled notified pursuant to subdivision (b) shall file a written report with the court regarding the suitability of the proposed adoption in meeting the needs of the proposed adoptee, and regarding any known previous adoption by the petitioner.

(4) A hearing with regard to the adoption of a person or the termination of a parent and child relationship established pursuant to this section may, in the discretion of the court, be open and public.

(5) In determining whether or not the adoption of any person pursuant to this subdivision is in the public interest or the best interests of the persons seeking the adoption, the court may consider evidence, oral or written, whether or not it is in conformity with the Evidence Code.

(6) Any person who has been adopted under the provisions of this section may, upon written notice to the adoptive parent, file a petition to terminate the relationship of parent and child. The petition shall indicate the name and address of the petitioner, the name and address of the adoptive parent, the date and place of the adoption, and the circumstances upon which the petition is based. If the adoptive parent consents in writing to the termination, an order terminating the relationship of parent and child may be issued by the court without further notice.

(7) If the adoptive parent does not consent to the termination, a verified, written response shall be filed within 30 days of the date of mailing of the notice, and the matter shall be set for hearing. The court may require an investigation by the county probation officer or the State Department of Social Services.

SEC. 2. Section 1461.4 is added to the Probate Code, to read:

1461.4. (a) The petitioner shall mail or personally serve a notice of the hearing and a copy of the petition to the director of the regional center for the developmentally disabled at least 30 days before the day of the hearing on a petition for appointment in any case in which all of the following conditions exist:

The report may be received in evidence upon stipulation of all interested parties.

When the probation officer or domestic relations investigator is directed by the court to conduct a custody investigation or to undertake visitation work, including necessary evaluation, supervision, and reporting, the court shall make inquiry into the financial condition of the parent, guardian, or such other person

charged with the support and maintenance of the minor, and if the court finds the parent, guardian, or other person able, in whole or in part, to pay the expense of the investigation, report, and recommendation, the court may make an order requiring that parent, guardian, or other person to repay to the county that part, or all, of the expense of investigation, report, and recommendation as, in the opinion of the court, is proper. The repayment shall be made to the county officer designated by the board of supervisors, who shall keep suitable accounts of these expenses and repayments and shall deposit these collections in the county treasury.

Nothing in this section shall prohibit the probation officer or domestic relations investigator from recommending to the court that counsel be appointed pursuant to Section 4606 to represent the minor child or children. In making any recommendation, the probation officer or domestic relations investigator shall inform the court of the reasons why it would be in the best interests of the minor child or children to have counsel appointed.

SEC. 2. Section 4606 of the Civil Code is amended to read:

4606. In any initial or subsequent proceeding under this part where there is in issue the custody of or visitation with a minor child, the court may, if it determines it would be in the best interests of the minor child, appoint private counsel to represent the interests of the minor child. When the court appoints counsel to represent the minor, counsel shall receive a reasonable sum for compensation and expenses, the amount of which shall be determined by the court. Such amount shall be paid by the parents in such proportions as the court deems just.

SEC. 3. Section 4607 of the Civil Code is amended to read:

4607. (a) In any proceeding where there is at issue the custody of or visitation with a minor child, and where it appears on the face of the petition or other application for an order or modification of an order for the custody or visitation of a child or children that either or both such issues are contested, as provided in Section 4600, 4600.1 or 4601, the matter shall be set for mediation of the contested issues prior to or concurrent with the setting of the matter for hearing. The purpose of such mediation proceeding shall be to reduce acrimony which may exist between the parties and to develop an agreement assuring the child or children's close and continuing contact with both parents. The mediator shall use his or her best efforts to effect a settlement of the custody or visitation dispute.

(b) Each superior court shall make available a mediator. Such mediator may be a member of the professional staff of a family conciliation court, probation department, or mental health services agency, or may be any other person or agency designated by the court. In order to provide mediation services, the court shall not be required to institute a family conciliation court. The mediator shall meet the minimum qualifications required of a counselor of conciliation as provided in Section 1745 of the Code of Civil Procedure.

(c) Mediation proceedings shall be held in private and shall be confidential, and all communications, verbal or written, from the parties to the mediator made in a proceeding pursuant to this section shall be deemed to be official information within the meaning of Section 1040 of the Evidence Code.

(d) The mediator shall have the authority to exclude counsel from participation in the mediation proceedings where, in the discretion of the mediator, exclusion of counsel is deemed by the mediator to be appropriate or necessary. The mediator shall have the duty to assess the needs and interests of the child or children involved in the controversy and shall be entitled to interview the child or children when the mediator deems such interview appropriate or necessary.

(e) The mediator may, consistent with local court rules, render a recommendation to the court as to the custody or visitation of the child or children. The mediator may, in cases where the parties have not reached agreement as a result of the mediation proceeding, recommend to the court that an investigation be conducted pursuant to Section 4602, or that other action be taken to assist the parties to effect a resolution of the controversy prior to any hearing on the issues. The mediator may, in appropriate cases, recommend that mutual restraining orders be issued, pending determination of the controversy, to protect the well-being of the children involved in the controversy. Any agreement reached by the parties as a result of mediation shall be reported to the court and to counsel for the parties by the mediator on the day set for mediation or any time thereafter designated by the court.

(f) Nothing in this section shall prohibit the mediator from recommending to the court that counsel be appointed pursuant to Section 4606 to represent the minor child or children. In making any recommendation, the mediator shall inform the court of the reasons why it would be in the best interests of the minor child or children to have counsel appointed.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 362

An act to amend Sections 4383 and 4801.4 of, and to add Sections 4370.5 and 4800.4 to, the Civil Code, and to amend Section 699.560 of the Code of Civil Procedure, relating to family law.

[Approved by Governor July 29, 1985. Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 4370.5 is added to the Civil Code, to read:

4370.5. (a) The court may make an award under this chapter where the making of the award, and the amount of the award, is just and reasonable under the circumstances of the respective parties.

(b) In determining what is just and reasonable under the circumstances, the court shall take into consideration both of the following:

(1) The need for the award to enable each party, to the extent practical, to have sufficient financial resources to adequately present his or her case, taking into consideration to the extent relevant the circumstances of the respective parties described in subdivision (a) of Section 4801.

(2) The extent to which the conduct of each party and the attorney furthers or frustrates the policy of the law to promote settlement of litigation, and, where possible, to reduce the cost of litigation by encouraging cooperation between the parties and attorneys.

(c) The court may order payment of the award from any type of property, whether community or separate, principal or income.

SEC. 2. Section 4383 of the Civil Code is amended to read:

4383. (a) Notwithstanding Section 4380, a judgment, order, or decree for the payment of child or spousal support may be enforced by a writ of execution without prior court approval for amounts that are not more than 10 years overdue on the date of the application for the writ. Notwithstanding Section 4351, a judgment, order, or decree for the payment of child or spousal support may be enforced against an employee pension benefit plan regardless of whether the plan has been joined as a party to a proceeding under this part. Notwithstanding Section 697.710 of the Code of Civil Procedure, an execution lien created by a levy on the judgment debtor's right to payment of benefits from an employee pension benefit plan to enforce a judgment, order, or decree for the payment of child or spousal support continues until the date the plan has withheld and paid over to the levying officer, as provided in Section 701.010 of the Code of Civil Procedure, the full amount specified in the notice of levy, unless the plan is directed to stop withholding and paying over before that time by court order or by the levying officer.

(b) The application for a writ of execution shall be accompanied by an affidavit stating the total amount due and unpaid that is not more than 10 years overdue on the date of the application. If interest on the overdue installments is sought, the affidavit shall state the total amount of the interest and the amount of each due and unpaid installment and the date it became due. The affidavit shall be filed in the action and a copy shall be attached to the writ of execution

delivered to the levying officer. The levying officer shall serve the copy of the affidavit on the judgment debtor when the writ of execution is first served on the judgment debtor pursuant to a levy under the writ.

(c) A writ of execution pursuant to which a levy is made on the judgment debtor's right to payment of benefits from an employee pension benefit plan under this section shall be returned not later than one year after the date the execution lien expires under subdivision (a).

SEC. 3. Section 4800.4 is added to the Civil Code, to read:

4800.4. (a) In a proceeding for division of the community property and the quasi-community property, the court has jurisdiction, at the request of either party, to divide the separate property interests of the parties in real and personal property, wherever situated and whenever acquired, held by the parties as joint tenants or tenants in common. The property shall be divided together with, and in accordance with the same procedure for and limitations on, division of community property and quasi-community property.

(b) This section applies to proceedings commenced on or after January 1, 1986, regardless of whether the property was acquired before, on, or after January 1, 1986.

SEC. 4. Section 4801.4 of the Civil Code is amended to read:

4801.4. For the purposes of Section 4801, where it is just and reasonable in view of the circumstances of the respective parties, the court, in determining the needs of a supported spouse, may include an amount sufficient to purchase an annuity for the supported spouse or to maintain insurance for the benefit of the supported spouse on the life of the spouse required to make the payment of support, or may require the spouse required to make the payment of support to establish a trust to provide for the support of the supported spouse, so that the supported spouse will not be left without means for support in the event that the order for support is terminated by the death of the party required to make the payment of support. Except as otherwise agreed to by the parties in writing, an order made under this section may be modified or terminated at the discretion of the court at any time prior to the death of the party required to make the payment of support.

SEC. 5. Section 699.560 of the Code of Civil Procedure is amended to read:

699.560. (a) Except as provided in subdivisions (b) and (c), the levying officer to whom the writ of execution is delivered shall return the writ to the court, together with a report of the levying officer's actions and an accounting of amounts collected and costs incurred, at the earliest of the following times:

(1) Two years from the date of issuance of the writ.

(2) Promptly after all of the duties under the writ are performed.

(3) When return is requested in writing by the judgment creditor.

(4) If no levy takes place under the writ within 180 days after its

issuance, promptly after the expiration of the 180-day period.

(5) Upon expiration of the time for enforcement of the money judgment.

(b) If a levy has been made under Section 700.200 upon an interest in personal property in the estate of a decedent, the writ shall be returned within the time prescribed in Section 700.200.

(c) If a levy has been made under Section 4383 of the Civil Code on the judgment debtor's right to the payment of benefits from an employee pension benefit plan, the writ shall be returned within the time prescribed in that section.

CHAPTER 371

An act to amend Sections 5540, 5544.1, and 5544.2 of the Public Resources Code, relating to regional park, park and open-space, and open-space districts.

[Approved by Governor July 29, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 5540 of the Public Resources Code is amended to read:

5540. A district may take by grant, appropriation, purchase, gift, devise, condemnation, or lease, and may hold, use, enjoy, and lease or dispose of real and personal property of every kind, and rights in real and personal property, within or without the district, necessary to the full exercise of its powers.

Lands subject to the grant of an open-space easement executed and accepted by the district in accordance with this article are enforceably restricted within the meaning of Section 8 of Article XIII of the California Constitution. An easement or other interest in real property may be dedicated for park or open-space purposes, or both, by the adoption of a resolution by the board of directors, and any interest so dedicated may be conveyed only as provided in this section.

A district may not validly convey any interest in any real property actually dedicated and used for park or open-space, or both, purposes without the consent of a majority of the voters of the district voting at a special election called by the board and held for that purpose. Consent need not first be obtained for a lease of any real property for a period not exceeding 25 years; and consent need not first be

obtained for a conveyance of any real property if the Legislature, by concurrent resolution, authorizes a conveyance after a resolution of intention has been adopted by at least a two-thirds vote of the board of directors of the district, specifically describing the property to be conveyed.

SEC. 2. Section 5544.1 of the Public Resources Code is amended to read:

5544.1. Notwithstanding any other provisions of this article, the board may borrow money by the issuance of promissory notes or other evidences of indebtedness in an amount, or of a value, not exceeding, in the aggregate at any one time, the greater of 5 percent of the total of the district's general fund and development fund budgets for the year in which the loan is made, or the sum of five hundred thousand dollars ($500,000), to be used for any revenue-producing purpose for which the district may expend funds.

A district shall not exercise the borrowing authority conferred by this section if the district, at any time during the previous two years, has not met the loan repayment requirements of this section and the repayment provisions set forth in the promissory note or other evidence of indebtedness issued for a loan entered into pursuant to this section. A district shall not expend, in any one year, any amount of money in excess of what it collects in property taxes, state and federal subventions, grants, loans, fees, gifts, bequests, or income from other sources.

Indebtedness incurred pursuant to this section shall be repaid during a period not to exceed five years from June 30th of the fiscal year in which it is incurred and shall bear interest at a rate not exceeding 10 percent per annum, or the rate allowed under Section 53531 of the Government Code, if higher, payable annually or semiannually or in part annually and in part semiannually.

Each indebtedness incurred under this section shall be authorized by a resolution of the board unanimously adopted, shall be evidenced by a promissory note or contract signed by the president of the board and attested by the secretary or treasurer, and shall be sold at not less than 95 percent of the principal amount in the manner determined by the board at a discount which equals the underwriter's spread. The board shall determine that the discount reflects an underwriter's spread which is both reasonable and customary under the prevailing market conditions. One of the two signatures may be by facsimile reproduction.

The indebtedness authorized to be incurred by this section shall be in addition to, and the provisions of this section shall not apply to, any bonded indebtedness authorized by vote of the electors.

Nothing in this section limits or restricts the authority of the district to issue promissory notes or deeds of trust in the acquisition of real property or the exercise of its right of eminent domain subject to the limitations in Section 5568.

Nothing in this section limits the authority of the district to borrow pursuant to Section 5544.3.

SEC. 3. Section 5544.2 of the Public Resources Code is amended to read:

5544.2. (a) A district may acquire all necessary and proper lands and facilities, or any portion thereof, by means of a plan to borrow money or by purchase on contract.

(b) The amount of indebtedness to be incurred shall not exceed an amount equal to the anticipated tax income for the next four-year period derived pursuant to Section 5545 or the anticipated tax income for the next 10-year period derived pursuant to Section 50077 of the Government Code, or both; or, with respect to the East Bay Regional Park District only, the anticipated tax income for the next two-year period derived pursuant to Sections 5545 and 5545.5 or the anticipated tax income for the next 10-year period derived pursuant to Section 50077 of the Government Code, or both. All indebtedness which is incurred on or after July 1, 1982, pursuant to this section shall be repaid during a period not to exceed 10 years from the date on which it is incurred and shall bear interest at a rate not exceeding 10 percent per annum, or the rate allowed pursuant to Section 53531 of the Government Code, if higher, payable annually or semiannually or in part annually and in part semiannually. Each indebtedness shall be authorized by a resolution adopted by the affirmative votes of at least two-thirds of the members of the district board, shall be evidenced by a promissory note or contract signed by the president of the board and attested by the secretary or treasurer, and shall be sold at not less than 95 percent of the principal amount in the manner determined by the board at a discount which equals the underwriter's spread. The board shall determine that the discount reflects an underwriter's spread which is both reasonable and customary under the prevailing market conditions. One of the two signatures may be by facsimile reproduction. At the time of making the general tax levy after incurring each indebtedness and annually thereafter until the indebtedness is paid or until there is a sum in the treasury set apart for that purpose sufficient to meet all payments of principal and interest on the indebtedness as they become due, a portion of the taxes levied and collected pursuant to Section 50077 of the Government Code, if any, and pursuant to Sections 5545 and 5545.5 shall be levied and collected and set aside sufficient to pay the interest on the indebtedness and the part of the principal that will become due before the proceeds of a tax levied at the next general tax levy will be available.

(c) The indebtedness authorized to be incurred by this section shall be in addition to, and the provisions of this section shall not apply to, any bonded indebtedness authorized by vote of the electors.

CHAPTER 372

An act to amend Section 13412 of the Business and Professions Code, relating to disabled drivers.

[Approved by Governor July 29, 1985 Filed with Secretary of State July 30, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 13412 of the Business and Professions Code is amended to read:

13412. (a) Every person, firm, partnership, association, trustee, or corporation which operates a gasoline service station, or other facility which offers gasoline or other motor vehicle fuel for sale to the public from such a facility, shall provide, upon request, refueling service to a disabled driver of a vehicle which displays a disabled person's plate or placard, or disabled veteran's plate or placard, issued by the Department of Motor Vehicles. The price charged for the motor vehicle fuel in such a case shall be no greater than that which the facility otherwise would charge the public generally to purchase motor vehicle fuel without refueling service.

(b) Every person, firm, partnership, association, trustee, or corporation subject to subdivision (a) shall post the following notice in a manner and single location which is conspicuous to a driver seeking refueling service:

Service to Disabled Persons

Disabled individuals properly displaying a handicapped parking placard or plate are entitled to request and receive refueling service at this gas station for which they may not be charged more than the self-service price.

(c) The provisions of this section do not apply to any of the following facilities:

(1) Exclusive self-service gas stations which have remotely controlled gas pumps, which are operated by a single cashier, and which never provide pump island service.

(2) Convenience stores which sell gasoline, which have remotely controlled gas pumps, which are operated by a single cashier, and which never provide pump island service.

(d) Any person who, as a responsible managing individual setting service policy of a station or facility or as an employee acting independently against set service policy, acts in violation of this section is guilty of an infraction punishable by a fine of twenty-five dollars ($25).

(e) Notwithstanding the provisions of Sections 12103.5 and 13590, the provisions of this section shall be enforced by the Director of the Department of Rehabilitation, the district attorney, city attorney, or

the Attorney General.

(f) The Director of the Department of Rehabilitation may, upon his or her own motion, and shall, upon the verified complaint of any person or public agency, investigate the actions of any person, firm, partnership, association, trustee, or corporation alleged to have violated this section. If the director determines that there may have been a violation, he or she shall refer the matter for prosecution to the district attorney, the city attorney, or the Attorney General.

(g) In addition to those matters referred pursuant to subdivision (f), the district attorney, the city attorney, or the Attorney General, upon his or her own motion, may investigate and prosecute alleged violations of this section.

(h) A notice setting forth the provisions of this section shall be provided by the Board of Equalization, in its quarterly newsletter, to every person, firm, partnership, association, trustee, or corporation which operates a gasoline service station, or other facility which offers gasoline or other motor vehicle fuel for sale to the public from such a facility.

(i) A notice setting forth the provisions of this section shall be provided by the Department of Motor Vehicles to every person who is issued a disabled person's plate or placard or a disabled veteran's plate or placard.

(j) For the purposes of this section, "refueling service" means the service of pumping motor vehicle fuel into the fuel tank of a motor vehicle.

SEC. 2. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 373

An act to add Section 4708 to the Civil Code, and to amend Section 11475.1 of the Welfare and Institutions Code, relating to family law.

[Approved by Governor July 29, 1985 Filed with Secretary of State July 30, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 4708 is added to the Civil Code, to read:

4708. In any case, in which, a parent has been ordered to make payments for the support, maintenance, and education of a minor child, an action to recover an arrearage in those payments may be

maintained at any time within the period otherwise specified for the enforcement of such a judgment, notwithstanding the fact that the child has attained the age of 18 years.

SEC. 2. Section 11475.1 of the Welfare and Institutions Code is amended to read:

11475.1. Each county shall maintain a single organizational unit located in the office of the district attorney which shall have responsibility for promptly and effectively enforcing child and spousal support obligations and determining paternity in the case of a child born out of wedlock. The district attorney shall take appropriate action, both civil and criminal, to enforce this obligation when the child is receiving public assistance, and when requested to do so by the individual on whose behalf the enforcement efforts will be made when the child is not receiving public assistance. This responsibility shall apply to spousal support only where the spousal support obligation has been reduced to an order of a court of competent jurisdiction. In any action brought or enforcement proceedings instituted by the district attorney pursuant to this section for payment of child or spousal support, an action to recover an arrearage in support payments may be maintained by the district attorney at any time within the period otherwise specified for the enforcement of a support judgment, notwithstanding the fact that the child has attained the age of majority. The county shall undertake an outreach program to inform the public that this service is available to persons not receiving public assistance. There shall be prominently displayed in every public area of every office of the units established by this section a notice, in clear and simple language prescribed by the Director of Social Services, that child and spousal support enforcement services are provided to all individuals whether or not they are recipients of public social services.

To the extent required by federal law, where the child and spouse are not receiving public assistance and the district attorney is collecting support, the person obligated to pay the support shall also be obligated to pay the district attorney a fee equal to 10 percent of the total support collected by the district attorney, including any past due support. This fee shall not apply to any support assigned under Section 11477. No part of this fee may be collected until all support installments for which the district attorney is responsible for collecting, including past due support, have been paid in full, excluding sums to become due in the future. This fee shall be enforced in the same manner as any other judgment or order of a superior court for child support. The effective date of the fee for purposes of applying any time limitations on its enforcement shall be the date when the support collected to which the fee applies, was paid, except that the time limitations shall be tolled until all past due support to be collected by the district attorney has been so collected. Nothing in this section shall prevent an applicant for collection of support under this section from requesting the collection to be discontinued prior to the collection of sums to which the fee would

otherwise apply, but the discontinuance shall have no effect on the enforcement collection of any fee which has become due because of the collection of support.

Nothing in this section shall prohibit the district attorney from entering into cooperative arrangements with other county departments as necessary to carry out the responsibilities imposed by this section pursuant to plans of cooperation with the departments approved by the State Department of Social Services.

Nothing in this section shall otherwise limit the ability of the district attorney from securing and enforcing orders for support of a spouse or former spouse as authorized under any other provision of law.

CHAPTER 374

An act to amend Section 1463.16 of the Penal Code, relating to driving offenses.

[Approved by Governor July 29, 1985. Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 1463.16 of the Penal Code is amended to read:

1463.16. (a) Notwithstanding Section 1203.1 or 1463, fifty dollars ($50) of each fine for each conviction of a violation of Section 23103, 23104, 23152, or 23153 of the Vehicle Code shall be deposited with the county treasurer in a special account for exclusive allocation by the county for the county's alcoholism program, with approval of the board of supervisors, for alcohol programs and services for the general population. These funds shall be allocated through the local planning process pursuant to specific provision in the county alcohol program plan which is submitted to the State Department of Alcohol and Drug Programs. Programs shall be certified by the Department of Alcohol and Drug Programs or have made application for certification to be eligible for funding under this section. The county shall implement the intent and procedures of subdivision (b) of Section 11812 of the Health and Safety Code while distributing funds under this section.

(b) In a county of the first, second, third, or fifteenth class, notwithstanding Section 1463, of the moneys deposited with the county treasurer pursuant to Section 1463, fifty dollars ($50) for each conviction of a violation of Section 23103, 23104, 23152, or 23153 of the Vehicle Code shall be deposited in a special account for exclusive allocation by the administrator of the county's alcoholism program, with approval of the board of supervisors, for alcohol programs and services for the general population. These funds shall be allocated

through the local planning process pursuant to a specific provision in the county plan which is submitted to the State Department of Alcohol and Drug Programs. For those services for which standards have been developed and certification is available, programs shall be certified by the State Department of Alcohol and Drug Programs or shall apply for certification to be eligible for funding under this section. The county alcohol administrator shall implement the intent and procedures of subdivision (b) of Section 11812 of the Health and Safety Code while distributing funds under this section.

(c) It is the specific intent of the Legislature that funds expended under this part shall be used for ongoing alcoholism program services as well as for contracts with private nonprofit organizations to upgrade facilities to meet state certification and state licensing standards and federal nondiscrimination regulations relating to accessibility for handicapped persons.

(d) Counties may retain up to 5 percent of the funds collected to offset administrative costs of collection and disbursement.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.

CHAPTER 375

An act to amend Sections 50739, 50755, 50756, 50757, 50758, 50759, and 50760 of, and to amend the heading of Article 3 (commencing with Section 50755) of Chapter 9 of Part 2 of Division 31 of, the Health and Safety Code, relating to housing.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. The heading of Article 3 (commencing with Section 50755) of Chapter 9 of Part 2 of Division 31 of the Health and Safety Code is amended to read:

Article 3. Contracts with Local Public Entities

SEC. 2. Section 50739 of the Health and Safety Code is amended to read:

50739. At the time the department makes a payment pursuant to Article 2 (commencing with Section 50745), 3 (commencing with Section 50755), or 4 (commencing with Section 50765) or contracts to make annuity fund payments in connection with a rental housing development, or both, a written agreement between the

department and the agency, local finance entity, or local public entity shall be executed, designating the number of units within the rental housing development available to, or occupied by, very low income households, other lower income households, and other households. If the number of units occupied by very low income households or other lower income households in any housing development ever falls below the number agreed to by the department and agency, local finance entity, or local public entities, then units which become available for occupancy shall be made available on a priority basis to very low income households or other lower income households, as required, until the number of units so occupied equals at least the number specified in the agreement.

The department and the agency, local finance entity, or local public entity, may reduce the number of assisted units to less than 30 percent of a rental housing development only if necessary to maintain the development's fiscal integrity. Any reduction in the number of assisted units shall be reviewed annually to determine whether it is necessary to continue that reduction in the number of assisted units.

SEC. 3. Section 50755 of the Health and Safety Code is amended to read:

50755. The department may contract with local public entities to provide funds to be used by those entities to obtain a right of occupancy or leasehold for eligible households in some or all of the units in a rental housing development. In order to maximize the number of units for which a right of occupancy or leasehold is obtained, the payment made by the local public entity in obtaining the right or leasehold shall not exceed the costs of developing the unit. The local public entity may be authorized by the department to pay the entire amount of the development costs as soon as the unit is available for occupancy.

Any contract executed pursuant to this article which provides for a right of occupancy or leasehold in favor of a local public entity shall be recorded or referenced in a recorded document in the office of the county recorder of the county in which the real property is located. The contract shall particularly describe the real property subject to the right of occupancy or leasehold, designate the specific rental units or proportion of the rental housing development subject to the right of occupancy or leasehold, and specify the period for which the right of occupancy or leasehold extends.

SEC. 4. Section 50756 of the Health and Safety Code is amended to read:

50756. Each contract pursuant to Section 50755 shall be recorded or referenced in a recorded document in the office of the county recorder of the county in which the rental housing development is located, and shall be indexed by the recorder in the grantor index to the name of the sponsor and in the grantee index to the name of the State of California. The contract shall contain all of the following provisions:

(a) The amount and terms of payments to be provided under this article.

(b) A description of the way in which the payments will be used to provide affordable rents to eligible households occupying dwelling units within the rental housing development.

(c) A description of the rental housing development, projected rent levels for all units, and the number of units to be occupied by eligible households.

(d) A requirement for periodic reports by the local public entity, which shall at a minimum include information on the fiscal condition of the rental housing development, the maintenance of the development, and the number of units occupied by eligible households.

(e) The terms of the regulatory agreement to be entered into between the sponsor and the local public entity pursuant to Section 50757 after the department's approval.

(f) Standards which govern selection of tenants by housing sponsors to ensure occupancy by eligible households consistent with the requirements of Sections 50736 and 50739 and the terms of occupancy agreements to be used in rental housing developments.

(g) Provisions sufficient to ensure that dwelling units shall be available to, or occupied by, eligible households for a period of not less than 30 years.

(h) Provisions which specify the timing and manner in which payments are made by the department so as to ensure the economic feasibility of the rental housing development and to protect the interests of the state.

(i) A provision which specifies the conditions under which the department and any intended beneficiary may enforce the regulatory agreement.

(j) A provision that failure to operate the assisted units in accordance with the regulatory agreement shall be deemed a violation of the regulatory agreement or deed of trust, as the case may be. In the alternative, or in addition, the agreement may contain a lien on the rental housing development for the purpose of securing performance of the agreement. That lien shall include a legal description of the assisted real property which is subject to the lien and shall specify the duration of the lien on the assisted property.

(k) Provisions necessary for the administration, disbursement, and protection of annuity fund payments, including provisions specifying the conditions under which the department may recover or reallocate all or any part of those payments for the benefit of eligible households in additional or existing assisted units.

(*l*) Provisions that do both of the following:

(1) Govern the recovery and reallocation by the department of rent revenues, derived by the sponsor from the assisted units which are not necessary to defray costs of operation attributable to the units.

(2) Specify the allowable return on the sponsor's investment.

Those rent revenues shall be handled by the department in the same manner as annuity payments recovered pursuant to subdivision (k).

(m) Authorization for the local public entity to fix and alter rents pursuant to subdivision (a) of Section 50759.

(n) Any other provisions necessary to carry out the purposes and to exercise the powers granted by this chapter.

SEC. 5. Section 50757 of the Health and Safety Code is amended to read:

50757. Any rental housing development assisted pursuant to this article shall be governed by a regulatory agreement between the sponsor and the local public entity. The regulatory agreements shall contain all of the following:

(a) Restrictions on occupancy of the dwelling units within the rental housing development necessary to meet the requirements of Sections 50736 and 50739.

(b) A requirement that all contractors and subcontractors use affirmative action in hiring.

(c) Provisions implementing the terms of tenant selection standards and occupancy agreements.

(d) Provisions necessary for the administration and protection of annuity funds established pursuant to Section 50748 and for recapture and reallocation of annuity fund payments and rent revenues pursuant to subdivisions (k) and (*l*) of Section 50756.

(e) Any other provisions necessary to carry out the purposes and to exercise the powers granted by this chapter.

SEC. 6. Section 50758 of the Health and Safety Code is amended to read:

50758. With respect to units for which a local public entity has obtained a leasehold or right of occupancy, the local public entity may manage the units or may contract for management of the units with the housing sponsor or other persons designated by the local public entity, with the approval of the department.

SEC. 7. Section 50759 of the Health and Safety Code is amended to read:

50759. With respect to housing units developed pursuant to this article, the local public entity shall do all of the following:

(a) Fix and alter from time to time a schedule of rents necessary to permit occupancy of the units by eligible households. The rents on the units shall not exceed the costs of maintenance, management, and operation, property taxes, and where applicable, utilities. No housing sponsor shall increase the rent without the prior permission of the local public entity which shall be given only if the sponsor affirmatively demonstrates that the increase is required to defray necessary operating costs or to avoid jeopardizing the fiscal integrity of the rental housing development.

Prior to the time any rent increase is effective, the housing sponsor or local public entity shall notify every affected tenant, in writing, of, informal meetings with the housing sponsor or local public entity to

review the proposed rent increase. Each tenant, upon request, shall be provided the information submitted to the local public entity pursuant to this subdivision. In the event that the local public entity does not act upon a request for a rent increase within 60 days from documented receipt of the request, the increase shall be deemed approved. Thirty days' notice of any rent increase shall be given in writing.

(b) Determine standards for, and ensure fair procedures for, the selection of tenants by housing sponsors or other management designated pursuant to Section 50758 to ensure occupancy by eligible households consistent with the requirements of Sections 50736 and 50739.

(c) Regulate the terms of tenant occupancy agreements.

SEC. 8. Section 50760 of the Health and Safety Code is amended to read:

50760. With respect to units developed pursuant to this article, the local public entity may, and at the direction of the department shall, do any of the following:

(a) Through its agents or employees enter upon and inspect the lands, buildings, equipment, and books and records of the rental housing development at any time before, during, or after construction of the units assisted pursuant to this article. Entry or inspection of any occupied unit is subject to Section 1954 of the Civil Code.

(b) Supervise the operation and maintenance of any housing assisted pursuant to this section and order any repairs necessary to protect the public interest or the health, safety, or welfare of occupants of the housing.

CHAPTER 376

The people of the State of California do enact as follows:

A state agency may determine the eligibility of any person to enter into a contract under this article by requiring the person to submit a statement under penalty of perjury declaring that neither the person nor any subcontractor to be engaged by the person has been convicted of any of the offenses referred to in this section within the preceding three years.

10285.2. Before suspending any person under this article, the state agency shall provide a hearing upon reasonable notice. In determining whether to suspend, and the duration of any suspension, the state agency shall consider, in addition to any other relevant factors, both of the following:

(a) The degree to which the person cooperated with the state or federal authorities in the criminal proceeding.

(b) The degree to which the person has agreed to restitution for any damages incurred by the public entity as a result of the acts upon which the conviction was based.

10285.3. In the event that any state agency has suspended any person under this article, any other state agency shall adopt the terms of that suspension without further notice or hearing.

10285.4. In the event that any state agency has suspended any person under this article, that agency may terminate the suspension if it determines that termination is in the best interest of the agency. In the event of termination, any suspension by adoption pursuant to Section 10285.3 also shall be terminated.

10285.5. Nothing in this article shall require any state agency to contract with, or to permit the employment of a person as a subcontractor, or any person on any project funded in whole or part by federal funds, if the person has been suspended or debarred by the federal agency providing the funds.

The amendment of the articles to convert to a cooperative corporation shall revise the statement of purpose, make such other changes as may be necessary or desired, and, if any shares have been issued, provide for the cancellation of those shares or for the conversion of those shares to memberships of the cooperative corporation, if necessary.

(c) If shares have been issued, an amendment to convert to a nonprofit corporation shall be approved by all of the outstanding shares of all classes regardless of limitations or restrictions on the voting rights thereof and an amendment to convert to a cooperative corporation shall be approved by the outstanding shares (Section 152) of each class regardless of limitations or restrictions on the voting rights thereof.

(d) If an amendment pursuant to this section is included in a merger agreement, the provisions of this section apply, except that any provision for cancellation or conversion of shares shall be in the merger agreement rather than in the amendment of the articles.

(d) If the articles or bylaws are amended so that any statement required by subdivision (b) upon outstanding membership certificates is no longer accurate, then the board may cancel the outstanding certificates and issue in their place new certificates conforming to the articles or bylaw amendments.

(e) Where new membership certificates are issued in accordance with subdivision (d), the board may order holders of outstanding certificates to surrender and exchange them for new certificates within a reasonable time fixed by the board. The board may further

provide that the holder of a certificate so ordered to be surrendered shall not be entitled to exercise any of the rights of membership until the certificate is surrendered and exchanged, but rights shall be suspended only after notice of such order is given to the holder of the certificate and only until the certificate is exchanged. The duty of surrender of any outstanding certificates may also be enforced by civil action.

SEC. 5. Section 7813.5 of the Corporations Code is amended to read:

CHAPTER 379

An act to amend Sections 4721, 4722, and 4723 of, and to add Sections 196.5 and 4728.5 to, the Civil Code, and to amend Section 6 of Chapter 1605 of the Statutes of 1984, relating to parent and child, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 196.5 is added to the Civil Code, to read:

196.5. The duty imposed by Section 196 shall continue to exist as to any unmarried child who has attained the age of 18, is a full-time high school student, and resides with a parent, until such time as he or she completes the 12th grade or attains the age of 19, whichever first occurs. This obligation may be enforced in the manner described in Section 196a.

This section does not apply to support agreements made or judgments entered before March 4, 1972. Nothing in this section shall be interpreted so as to limit a parent's ability to agree to provide additional support or to limit the court's power to inquire whether such an agreement has been made.

SEC. 2. Section 4721 of the Civil Code is amended to read:

4721. In determining the ability of parents to pay the mandatory minimum child support award and to calculate the actual monthly payments to be made by each parent, all of the following provisions apply:

(a) The annual gross income of each parent shall be determined and then adjusted to obtain the annual net disposable income. To determine and apportion the mandatory minimum child support award, as defined in Section 4722, the court shall also consider, to the extent consistent with the best interests of the child or children, the earning capacity of either or both parents. The annual gross income means income from whatever source derived, except as specified in subdivision (b), and includes, but is not limited to, all of the following:

(1) Income such as commissions, salaries, royalties, wages, bonuses, rents, dividends, pensions, interest, trust income, annuities, workers' compensation benefits, unemployment insurance benefits, disability insurance benefits, and spousal support actually received from a person not a party to the order.

(2) Income from the proprietorship of a business, such as gross receipts from the business reduced by expenditures required for the operation of the business.

(3) To the extent that income derived from paragraphs (1) and (2) is insufficient to produce a mandatory minimum child support award at the AFDC standard for the same number of children, upon

the request of either party, the court may consider investment assets of either or both parties which could be liquidated. To determine and apportion the mandatory minimum child support award at the AFDC level, the court shall also consider, to the extent consistent with the best interests of all of the children, the earning capacity of either or both parents.

(b) Annual gross income shall not include any income derived from child support payments actually received and income derived from any public assistance program, eligibility for which is based on a determination of need.

(c) The annual net disposable income of each parent shall be computed by deducting from his or her annual gross income the actual amounts attributable only to the following items, after which the remainder shall be adjusted to reflect the monthly net disposable income of each parent:

(1) The state and federal income taxes attributed to the parent. Federal and state income tax deductions shall bear an accurate relationship to the tax status of the parties (that is, single, married, married filing separately, or head of household) and number of dependents.

(2) Deductions attributed to the employee's contribution or the self-employed worker's contribution pursuant to the Federal Insurance Contributions Act (FICA), or an amount not to exceed that allowed under FICA for persons not subject to FICA, provided that the deducted amount is used to secure retirement or disability benefits for the parent.

(3) Deductions for mandatory union dues and retirement benefits, provided that they are required as a condition of employment.

(4) Deductions for health insurance premiums and state disability insurance premiums.

(5) Any child or spousal support actually being paid by the parent pursuant to a court order, to or for the benefit of any person who is not a subject of the award to be established by the court.

(d) For the purposes of verifying total gross income and amounts allowed for deductions, copies of the parents' state income tax returns for the previous two years, copies of present wage stubs, and any other relevant documents shall be subject to discovery by the parties. Further, the court may require copies of the parents' tax returns for the previous two years, copies of present wage stubs, and such other documentation as it may deem necessary, including a current income and expense declaration in the form prescribed by the Judicial Council for family law matters.

(e) For the purpose of determining the parent's annual gross income, in calculating the mandatory minimum child support award, the court shall not include any portion of the earned income and income derived from the separate property of the current spouse or the nonmarital partner of either parent. This requirement does not apply to a child support obligation arising from the marriage

between the obligated parents.

(f) The court shall inquire of each party as to the total number of minor children he or she is legally obligated to support.

SEC. 3. Section 4722 of the Civil Code is amended to read:

4722. (a) The standard established pursuant to Section 11452 of the Welfare and Institutions Code, as adjusted by Section 11453 of the Welfare and Institutions Code, establishes a minimum family support level based on the number of eligible needy persons in the family.

(b) Each parent's ability to pay a minimum mandatory amount of child support, whether for a temporary or a permanent order, shall be determined in accord with the standards established by Section 11452 of the Welfare and Institutions Code, and prior to the computation of the spousal support liability, as follows:

(1) The combined monthly net disposable income of both parents shall be multiplied by the following percentage factors: 18 percent for one child; 27 percent for two children; 36 percent for three children; 40 percent for four children; and an additional four percent for each child thereafter, up to a total of 10 children.

(2) If the resulting amount is less than the AFDC standard for the number of children involved, the court shall find that the parents are unable to pay at the level of the children's portion of the AFDC standard and shall set a minimum award according to the actual combined net income and the percentages set forth above.

(3) If the resulting amount is at, or greater than, the AFDC standard for the same number of children, the court shall order a minimum award that equals the AFDC standard.

(c) The AFDC standard for the number of children to be supported shall be the minimum basic standard of adequate care specified in Section 11452 of the Welfare and Institutions Code, as in effect July 21, 1983, annually adjusted pursuant to Section 11453 of the Welfare and Institutions Code, for the number of children to be supported.

(d) The amount each parent shall contribute to the mandatory minimum award shall be determined by multiplying the minimum award by the proportionate share of each parent's contribution to their combined net disposable income.

(e) If more than 10 minor children are to be supported, the minimum award shall be the same as for 10 children.

(f) The award set pursuant to this chapter is the mandatory minimum child support award.

(g) The formula established by this section is represented algebraically as follows:

WHERE:

MB = Minimum base

$$P = \text{percent} = \frac{NCN}{NCN + CN}$$

NCN = noncustodial spouse net income

CN = custodial spouse net income

F = factor (.18 for one child, .27 for two, .36 for three, and .04 for each additional child over three children)
S = the AFDC needs standard for the appropriate number of children to be supported by this order
Y = yield

Then calculation of the minimum support is as follows:

Step 1: F x (CN+NCN) = Y
Step 2: If $Y \geq S$, MB = S
If $Y < S$, MB = Y
Step 3: MB x P = portion of award to be paid by noncustodial spouse.

(h) The formula delineated in this section shall be used only for calculations made under this section for the establishment of a minimum level of child support. Nothing in this section shall be construed to affect the duty or ability of any public agency pursuant to any other provision of law to secure or bring suit for reimbursement of AFDC public assistance paid to a family unit, eligible therefor under the applicable provisions of law, in an amount not to exceed the total amount of aid actually paid.

SEC. 4. Section 4723 of the Civil Code is amended to read:

4723. The mandatory minimum child support award established pursuant to this chapter is intended to assure adequate basic living expenses, including food, shelter, and clothing, for the supported children. The court shall not assume that any other costs related to the rearing of children are provided within the mandatory minimum award. Child care expenses, special educational expenses, expenses for special medical, dental, or mental health needs, and expenses related to any other special needs of the children are not provided for in the mandatory minimum child support award. These expenses shall be considered by the court in making an award in addition to the child support obligation determined pursuant to Section 4722 or pursuant to the discretionary guidelines in use in the county if those guidelines meet the criteria specified in subdivision (a) of Section 4724. These additional awards may be made in separate orders by the court.

SEC. 5. Section 4728.5 is added to the Civil Code, to read:

4728.5. In ordering payment of the temporary or permanent awards determined under this chapter, the court may consider as payment a portion of the rental value of the family residence in which the children for the support of whom the award was made are allowed to reside, to the extent that it exceeds the mortgage payments, homeowner's insurance, and property taxes.

SEC. 6. Section 6 of Chapter 1605 of the Statutes of 1984 is amended to read:

Sec. 6. (a) The Judicial Council shall develop and promulgate forms and tables necessary to implement the provisions of this act, together with instructions for their usage, for the use of the courts

and private citizens, by July 1, 1985. The tables developed implementing the formula contained in subdivision (g) of Section 4722 of the Civil Code shall be expressed in fifty dollar ($50) income increments and described as the portion of the mandatory minimum for which the noncustodial parent is responsible. The informational materials required by Section 4729 of the Civil Code shall be prepared and published by July 1, 1985.

(b) The instructions for use shall include directions for the completion of the form required by Section 4726 of the Civil Code. Further, the instructions shall clearly and simply instruct the court to establish child support awards in all judgments occurring after June 30, 1985, in the following manner:

Step 1: Determine the net income of each party pursuant to Section 4721 of the Civil Code.

Step 2: Using the discretionary schedules in use in the county, arrive at the appropriate award level. If the award is to be presented at that level or above, proceed to Step 4. If the court wishes to state an award lower than that derived from the discretionary schedule, go to Step 3. Discretionary schedules shall meet the standards set in Section 4724 of the Civil Code.

Step 3: Enter the reasons for setting a level of child support lower than the discretionary guidelines on the record. Compute the mandatory minimum child support award pursuant to Section 4722 of the Civil Code, as modified by Sections 4725 and 4727 of the Civil Code where applicable, and enter an award no lower than this amount.

Step 4: Review the case for eligibility for a supplemental award pursuant to Section 4723 of the Civil Code.

Step 5: Review the case for eligibility for a spousal support award, as appropriate.

(c) The instructions adopted pursuant to subdivision (b) are not applicable to any case in which a stipulated agreement has been entered into, so long as the requirements for such an agreement set forth in Section 4728 of the Civil Code have been fully met. The instructions shall contain a statement expressing this prohibition.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for this act to achieve maximum implementation, it is necessary that it take effect at the earliest date possible.

[Approved by Governor July 30, 1985. Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 23 of the Food and Agricultural Code is amended to read:

23. (a) Inasmuch as the planned production of trees, vines, rose bushes, ornamental plants and other horticultural crops is distinguishable from the production of other products of the soil only in relation to the time elapsing before maturity, plants which are being produced by nurseries shall be considered to be "growing agricultural crops" for the purpose of any laws which pertain to the agricultural industry of the state.

(b) For the reasons stated in subdivision (a), a nursery where the primary activity is the planned production of horticultural crops, is a farm. However, for the purposes of this section and any laws which pertain to farms in this state, a retail nursery is not a farm.

SEC. 2. Section 5009 is added to the Food and Agricultural Code, to read:

5009. "Horticultural product" means those products as stated in Group Number 18 of the Standard Industrial Classification Manual which are grown under cover or outdoors, including bulbs, flowers, shrubbery, florist greens, fruit stock, floral products, nursery stock, ornamental plants, potted plants, roses, seed, sod, fruits, food crops grown in greenhouses, vegetables, and horticultural specialties not otherwise specified.

SEC. 3. Section 5010 is added to the Food and Agricultural Code, to read:

5010. Agricultural or farm products include any horticultural product.

CHAPTER 381

An act to repeal and add Section 10086 of the Business and Professions Code, relating to real estate.

[Approved by Governor July 30, 1985. Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 10086 of the Business and Professions Code is repealed.

SEC. 2. Section 10086 is added to the Business and Professions Code, to read:

10086. (a) If the commissioner determines through an investigation that a person has engaged or is engaging in an activity which is a violation of a provision of this part, other than a provision of Article 8 (commencing with Section 10249) of Chapter 3, or which is a violation of a regulation of the commissioner adopted for the purpose of implementing any provision of this part, other than a regulation adopted pursuant to a provision of Article 8 (commencing with Section 10249) of Chapter 3, the commissioner may direct the person to desist and refrain from such activity by issuance of an order specifying the nature of the activity and the factual and legal basis for his or her determination. The respondent to whom the order is directed shall immediately, upon receipt of the order, cease the activity described in the order.

(b) The respondent may, within 30 days after service of the order to desist and refrain, file a request for a hearing. If, with the request for hearing, the respondent also files a written verification that the order of the commissioner precludes him or her from further engaging in a substantial proportion of his or her business, the commissioner shall, within 10 days thereafter, file an action in superior court to restrain the respondent from continuing the activity or doing any act in furtherance thereof pending the completion of a hearing pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

If the commissioner fails to bring the action in superior court within the time prescribed by this section, or if the court refuses to restrain the respondent pending the decision of the commissioner following the administrative hearing, the respondent may resume the activities in question pending the rendering of the decision of the commissioner following the administrative hearing.

(c) The administrative hearing shall be commenced by the commissioner within 30 days after receipt of respondent's request unless the respondent agrees to a postponement. If the hearing is not commenced within 30 days after receipt of respondent's request or on the date to which continued with respondent's consent, or if the commissioner does not render a decision within 15 days after receipt of the proposed decision following the hearing, the order shall be deemed rescinded.

(d) The provisions of Section 11019, and not the provisions of this section, shall apply in the case of an activity which the commissioner determines to be in violation of Article 8 (commencing with Section 10249) of Chapter 3 or of a regulation of the commissioner for implementation of any provision of that article.

CHAPTER 382

An act to amend Section 56368 of, and to add Section 56368.5 to, the Government Code, and to amend Sections 32121 and 32130 of the Health and Safety Code, relating to hospital districts, and declaring the urgency thereof, to take effect immediately.

Diablo Hospital District, organized pursuant to the Local Hospital District Law, Division 23 (commencing with Section 32000) of the Health and Safety Code, have transferred all of the assets of the districts to nonprofit corporations and declared their intention to dissolve the hospital districts.

The Legislature finds and declares that it has expanded and revised the statutes governing local hospital districts in recent years in order to permit those districts to remain competitive in the ever changing health care environment, including among other changes, the addition of subdivision (p) to Section 32121 of the Health and Safety Code by Chapter 1594 of the Statutes of 1982 and the further amendment of that provision by Chapter 836 of the Statutes of 1983. The Legislature declares that the purpose of the latter provision was to permit a local hospital district to transfer its assets to a nonprofit corporation for the nonprofit corporation to operate and maintain for the benefit of the hospital district. The Legislature declares that it did not intend to permit the board of directors of a local hospital district to transfer all of its assets to a nonprofit corporation, without consideration, and then to dissolve the district. Instead, the Legislature intended for the board of directors of hospital districts to continue to govern the affairs of the districts; to maintain control over the activities of the nonprofit corporations to the extent permitted by any transfer agreement; and to exercise influence, to the extent possible, over the members of the board of directors of the nonprofit corporations who the Legislature required to be appointed by the hospital district board of directors.

(b) The Legislature declares that the agreement entered into by the Board of Directors of the Mt. Diablo Hospital District, whereby the board of directors agreed to transfer all of the assets of the district to a nonprofit corporation and to dissolve the district, exceeded its statutory authority . Therefore, the Legislature declares the agreement entitled "Agreement for Reorganization of Mt. Diablo Hospital Medical Center" between the Mt. Diablo Hospital District and the Mt. Diablo Hospital Medical Center, Inc., to be null and void unless all of the following occur:

(1) The Board of Directors of the Mt. Diablo Hospital District and Mt. Diablo Hospital Medical Center, Inc., rescind, on or before August 15, 1985, the agreement entitled "Agreement for Reorganization of Mt. Diablo Hospital Medical Center."

(2) Mt. Diablo Hospital Medical Center, Inc., transfers, assigns, conveys, and delivers to Mt. Diablo Hospital District on or before August 15, 1985, all of the assets transferred, assigned, conveyed, and

delivered by the district to the medical center.

(3) (A) The Board of Directors of Mt. Diablo Hospital District requests the Board of Supervisors of Contra Costa County to call a special election to be held November 5, 1985, in which case the board of supervisors shall call a special election to be held on that date, at which election the following question shall be submitted to the voters of the district:

"Shall the Mt. Diablo Hospital District be dissolved and shall the board of directors of the district be authorized to transfer all of the assets of the district to a nonprofit public benefit corporation to be held in public trust?"

(B) The expense of conducting the special election shall be borne by the Mt. Diablo Hospital District. The election shall be conducted, insofar as is practicable, as determined by the county clerk, in accordance with Chapter 4 (commencing with Section 56100) of Part 1 of Division 1 of Title 6 of the Government Code.

(4) (A) Neither the Board of Supervisors of Contra Costa County nor the Contra Costa County Local Agency Formation Commission shall have any authority, power, or duty to review and approve or disapprove with or without amendment, wholly, partially, or conditionally the proposal to dissolve Mt. Diablo Hospital District.

(B) If a majority of the voters voting on the issue vote in favor of dissolving the Mt. Diablo Hospital District, the district is dissolved and the assets shall be transferred to a nonprofit public benefit corporation to be held in public trust by that corporation for the benefit of the residents who reside within the territory included within the district at the time of the dissolution of the district. The nonprofit public benefit corporation is not limited to providing health care services within the former territorial limits of the district.

If the voters approve the dissolution of the district, the board of directors of the district shall have all of the following powers necessary to dissolve and wind up the affairs of the district:

(i) To employ agents and attorneys to liquidate or wind up its affairs.

(ii) To continue the conduct of the affairs of the district insofar as necessary for the disposal or winding up of those affairs.

(iii) To carry out contracts and collect, pay, compromise, and settle debts and claims for or against the district.

(iv) To defend suits brought against the district.

(v) To sue, in the name of the district, for all sums due or owing to the district or to recover any of its property.

(vi) In general, to make contracts and to do any and all things in the name of the district which may be proper or convenient for the purposes of winding up, settling, and liquidating the affairs of the district.

(C) If less than a majority of the voters voting on the issue vote in favor of dissolving the Mt. Diablo Hospital District, the board of directors of the district shall continue to govern the district in accordance with the Local Hospital District Law, Division 23

(commencing with Section 32000) of the Health and Safety Code.

(5) Any nonprofit public benefit corporation to which the assets of the Mt. Diablo Hospital District are transferred by the district shall hold those assets in a public trust and the corporation shall adopt a bylaw concurrently with the transfer of those assets requiring that, upon the winding up and dissolution of the nonprofit corporation, all of the assets of the corporation which remain after the satisfaction of all debts and liabilities against the corporation shall be distributed in the same manner as would have been required by Section 56507 of the Government Code and in accordance with Section 6713 of the Corporations Code had the district been dissolved on the effective date of this act.

(c) The board of directors, officers, agents, employees, or shareholders of the Mt. Diablo Hospital District and the Mt. Diablo Hospital Medical Center, Inc., are not liable for any actions taken in good faith pursuant to the agreement entitled "Agreement for Reorganization of Mt. Diablo Hospital Medical Center."

SEC. 6. The Legislature finds and declares that a general statute, within the meaning of Section 16 of Article IV of the Constitution, cannot be made applicable to the unique problems that Section 5 of this act is intended to remedy, and that, therefore, this special statute is necessary.

SEC. 7. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to clarify the statutory authority of local hospital districts to transfer the assets of the districts to nonprofit corporations and to make other statutory changes relating to the governance and financial affairs of local hospital districts as soon as possible, this act must take effect immediately.

CHAPTER 383

The lease shall also provide for payment, which may be taken in kind, of either a royalty, to be taken in money or in kind, at the option of the commission, of not less than 10 percent of the gross value of all mineral production from the leased lands, less any charges approved by the commission that were made or incurred with respect to transporting or processing the state's royalty share of production, or a percentage, to be determined by the commission, of the net profits derived from mineral extraction operations under the lease. Payment as a royalty or as a percentage of net profits shall be specified in the permit. Notwithstanding the 960-acre limitation of this section, whenever the lands for which a lease is sought are tide and submerged lands, the commission may divide the lands into the size and number of parcels as the commission determines will not substantially impair the public rights to navigation and fishing or interfere with the trust upon which the lands are held.

CHAPTER 393

An act to amend Sections 2795 and 3724.5 of the Public Resources Code, relating to resources, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 2795 of the Public Resources Code is amended to read:

2795. (a) Notwithstanding any other provision of law, the first two million dollars ($2,000,000) of moneys from mining activities on federal lands disbursed by the United States each fiscal year to this state pursuant to Section 35 of the Mineral Lands Leasing Act, as amended (30 U.S.C. Sec. 191), shall be deposited in the Surface Mining and Reclamation Account in the General Fund, which account is hereby created, and may be expended, upon

appropriation by the Legislature, for purposes of this chapter. However, if in any fiscal year, the amount of money disbursed to the state pursuant to Section 35 of the Mineral Lands Leasing Act is less than twenty million dollars ($20,000,000), then only the first one million one hundred thousand dollars ($1,100,000) of that money shall be deposited in the Surface Mining and Reclamation Account for the next fiscal year.

(b) Proposed expenditures from the account shall be included in a separate item in the Budget Bill for each fiscal year for consideration by the Legislature. Each appropriation from the account shall be subject to all of the limitations contained in the Budget Act and to all other fiscal procedures prescribed by law with respect to the expenditure of state funds.

SEC. 2. Section 3724.5 of the Public Resources Code is amended to read:

3724.5. To provide funds for the supervision of geothermal resource wells, the supervisor shall establish an annual well fee, and penalties for late payment, to be applied on an equal basis to all wells as provided under this section.

The annual well fee shall be imposed upon each producing, service, and idle well that existed at any time during the calendar year preceding the statewide fee-assessment date. However, the annual well fee shall not be imposed on any well used for observation purposes, irrespective of its depth, and any low-temperature well, including any well drilled for the purpose of filling a hot water spa or pool intended for human immersion, or any well for which the supervisor has approved suspension.

The annual well fee shall be established so that the sum of the annual well fees plus the estimated sum of those well permit fees provided in Sections 3724 and 3724.1 and pursuant to any regulation adopted under Section 3724.35 are equal to the appropriation for the supervision of geothermal resource wells as provided in the Governor's Budget. The establishment of the annual well fee shall take into account any budget adjustments for actual expenditures in the current and prior fiscal years. Any budget change proposal for support of the provisions of this chapter shall be submitted by the supervisor to geothermal operators for review and comment. A system for determining the fee and penalties and administering the fee and penalty collection shall be adopted by the supervisor by regulation after public hearing.

SEC. 3. Section 1 of this act shall become operative on July 1, 1986.

SEC. 4. The sum of three hundred sixty-three thousand dollars ($363,000) shall be transferred from the General Fund to the Surface Mining and Reclamation Account in the General Fund and appropriated from the Surface Mining and Reclamation Account to the Department of Conservation in augmentation of Item 3480-001-035 of the Budget Act of 1985 for expenditure during the 1985–86 fiscal year subject to the provisions specified in that item.

SEC. 6. This act is an urgency statute necessary for the

immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

It is essential that the provisions of this act pertaining to the regulation of oil and gas wells and geothermal resources wells and pertaining to funding for purposes of mining and reclamation be enacted as soon as possible. This act would also make an appropriation for an ongoing program of state government for the 1985–86 fiscal year that affects local government and the economy of various localities of the state. It is imperative that the money be available early in the 1985–86 fiscal year to maintain program continuity and to allow for an orderly planning process at both the state and local level. It is therefore necessary that this act take effect immediately.

CHAPTER 394

An act to add Section 10175.2 to the Business and Professions Code, relating to real estate.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 10175.2 is added to the Business and Professions Code, to read:

10175.2. (a) If the Real Estate Commissioner determines that the public interest and public welfare will be adequately served by permitting a real estate licensee to pay a monetary penalty to the department in lieu of an actual license suspension, the commissioner may, on the petition of the licensee, stay the execution of all or some part of the suspension on the condition that the licensee pay a monetary penalty and the further condition that the licensee incur no other cause for disciplinary action within a period of time specified by the commissioner.

(b) The commissioner may exercise the discretion granted to him under subdivision (a) either with respect to a suspension ordered by a decision after a contested hearing on an accusation against the licensee or by stipulation with the licensee after the filing of an accusation, but prior to the rendering of a decision based upon the accusation. In either case, the terms and conditions of the disciplinary action against the licensee shall be made part of a formal decision of the commissioner which satisfies the requirements of Section 11518 of the Government Code.

(c) If a licensee fails to pay the monetary penalty in accordance with the terms and conditions of the decision of the commissioner, the commissioner may, without a hearing, order the immediate

execution of all or any part of the stayed suspension in which event the licensee shall not be entitled to any repayment nor credit, prorated or otherwise, for money paid to the department under the terms of the decision.

(d) The amount of the monetary penalty payable under this section shall not exceed two hundred fifty dollars ($250) for each day of suspension stayed nor a total of ten thousand dollars ($10,000) per decision regardless of the number of days of suspension stayed under the decision.

(e) Any monetary penalty received by the department pursuant to this section shall be credited to the Recovery Account of the Real Estate Fund.

CHAPTER 395

An act to amend Section 33000.5 of the Education Code, relating to the State Board of Education.

The student member shall be a voting member with the full rights and duties of the other 10 members of the board.

(e) The process for selecting the student member shall be as follows:

(1) The State Board of Education shall notify every school district governing board, district superintendent, high school principal, high school student activities director, and student body president by September 15 of each year that applications are being accepted for

the student member's position.

(2) Applications for the student member's position shall be submitted to the State Board of Education no later than October 31 of each year.

(3) A screening committee of the State Board of Education shall select 12 semifinalists for the student member's position.

CHAPTER 396

An act to amend Sections 11200, 11202, 11204, 11205, 11206, 11208, 11209, 11210, 11211, 11212, 11213, 11214, 11215, 11221, 11222, and 42007 of, to add Sections 626, 626.2, 626.4, 626.6, 626.8, 11202.5, and 11219.5 to, and to repeal and add Section 42005 of, the Vehicle Code, relating to schools for traffic violators, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 626 is added to the Vehicle Code, to read:

626. A "traffic violator school" is a business which for compensation provides, or offers to provide, instruction in traffic safety, including, but not limited to, classroom defensive-driver concepts, for persons referred by a court pursuant to Section 42005.

SEC. 2. Section 626.2 is added to the Vehicle Code, to read:

626.2. A "traffic violator school branch or classroom location" is any place where a traffic violator school conducts instruction or maintains records.

SEC. 3. Section 626.4 is added to the Vehicle Code, to read:

626.4. A "traffic violator school instructor" is any person who provides instruction to traffic violators on behalf of a traffic violator school.

SEC. 4. Section 626.6 is added to the Vehicle Code, to read:

626.6. A "traffic violator school operator" is the person who directs and manages the operations of a traffic violator school.

A "traffic violator school operator" may be either the traffic violator school owner or another person designated by the traffic

violator school owner to personally direct and manage the traffic violator school for the traffic violator school owner.

SEC. 5. Section 626.8 is added to the Vehicle Code, to read:

626.8. A "traffic violator school owner" is any natural person, association, or corporation that owns a traffic violator school.

SEC. 6. Section 11200 of the Vehicle Code is amended to read:

11200. The department shall license schools for traffic violators for purposes of Section 42005. No person shall own or operate a traffic violator school or, except as provided in Section 11206, give instruction for compensation in a traffic violator school without a currently valid license issued by the department.

SEC. 7. Section 11202 of the Vehicle Code is amended to read:

11202. (a) Except as provided in subdivision (c), a traffic violator school owner shall meet the following criteria before a license may be issued for the traffic violator school:

(1) Be a person who has not been convicted of a crime involving an act of dishonesty, fraud, or deceit with the intent to benefit himself or herself or another substantially, or to injure another substantially. A conviction after a plea of nolo contendere is a conviction for purposes of this paragraph.

(2) Maintain an established place of business in this state which is open to the public. No office or place of business of a traffic violator school, including any traffic violator school branch or classroom location, may be situated within 500 feet of any building used by the department as an office, or any court of law, unless the owner was established at the location on or before July 1, 1984.

(3) Conform to standards which shall be established by regulation of the department. In adopting the standards, the department shall consider those practices and instructional programs which may reasonably foster the knowledge, skills, and judgment necessary for the compliance with traffic laws. The standards may include, but are not limited to, school personnel, equipment, curriculum, procedures for the testing and evaluation of students, recordkeeping, and business practices.

(4) Except as provided in Section 11203, procure and file with the department a bond in the amount of two thousand dollars ($2,000) executed by an admitted surety and conditioned upon the applicant not practicing any fraud or making any fraudulent representation which will cause a monetary loss to a person taking instruction from the applicant.

(5) Have a classroom approved by the department and the proper equipment necessary for giving instruction to traffic violators.

(6) Have a lesson plan approved by the department. An approved lesson plan shall provide a minimum of 400 minutes of instruction, except that a lesson plan for instructing persons under the age of 18 may provide a minimum of 600 minutes of instruction.

(7) Execute and file with the department a good and sufficient instrument designating the director as agent of the applicant for the purpose of service of process, as provided in this paragraph, in any

action or actions which may thereafter be commenced against the applicant arising out of any claim for damages suffered by any firm, person, association, or corporation by reason of (A) a violation by the applicant of any of the provisions of this code committed in relation to the specifications of the applicant's traffic violator school or (B) any condition of the bond required by paragraph (4). The applicant shall stipulate and agree in the instrument that any process directed to the applicant, when personal service of process upon him or her cannot be made in this state after due diligence, may be served instead upon the director, or in the event of the director's absence from the department's principal offices, upon any employee in charge of the office of the director, and this substituted service shall be of the same legal force and effect as personal service of the applicant.

The instrument shall further stipulate and agree that the agency created by the designation shall continue for and during the period covered by the license issued pursuant to this section and so long thereafter as the applicant may be made to answer in damages for a violation of this code for which the surety may be made liable or any condition of the bond. The instrument designating the director as agent for service of process shall be acknowledged by the applicant before a notary public. In any case where the director or an employee of the department, in lieu of the director, is served with a summons and complaint on behalf of the licensee, one copy of the summons and complaint shall be left with the director or in the director's office in Sacramento or mailed to the office of the director in Sacramento. A fee of five dollars ($5) shall also be paid to the director or employee at the time of service of the copy of the summons and complaint, or shall be included with a summons and complaint served by mail. The service on the director or department employee pursuant to this section is sufficient service on the licensee if a notice of the service and a copy of the summons and complaint is, on the same business day as the service or mailing of the summons and complaint, sent by registered mail by the plaintiff or his or her attorney to the licensee. A copy of the summons and complaint shall also be mailed by the plaintiff or plaintiff's attorney to the surety on the licensee's bond at the address of the surety given in the bond, postpaid and registered with request for return receipt.

The director shall keep a record of all processes so served upon him or her, which shall show the day and hour of service, and shall retain the documents served in the department's files. Where the licensee is served with legal process by service upon the director or a department employee in lieu of the director, the licensee shall be allowed 30 days from and after the service within which to answer any complaint or other pleading which may be filed in the cause. For purposes of venue, where the licensee is served with process by service upon the director or a department employee in lieu of the director, the service shall be deemed to have been made upon the licensee in the county in which the licensee has or last had his or her

established place of business.

(b) The qualifying requirements specified in subdivision (a) shall be met within one year from the date of application for a license, or a new application and fee shall be required.

(c) Paragraphs (4) and (7) of subdivision (a) do not apply to public schools or other public agencies, which shall also not be required to post a cash deposit pursuant to Section 11203.

SEC. 8. Section 11202.5 is added to the Vehicle Code, to read:

11202.5. The department shall license traffic violator school operators. No person shall act as a traffic violator school operator without a currently valid license issued by the department. Every person in order to qualify as a traffic violator school operator shall meet all of the following criteria in order to be issued a traffic violator school operator's license:

(a) Be a person who has not been convicted of a crime involving an act of dishonesty, fraud, or deceit with the intent to benefit the person or another substantially. A conviction following a plea of nolo contendere is a conviction for purposes of this paragraph.

(b) Be a person who has not committed any act which, if the applicant were licensed as a traffic violator school operator, would be grounds for suspension or revocation of the license.

(c) Within three attempts, pass an examination as required by the department on traffic laws, safe driving practices, operation of motor vehicles, teaching methods and techniques, traffic violator school statutes and regulations, and office procedures and recordkeeping.

(d) Be 18 years of age of older.

All the qualifying requirements specified in this section shall be met within one year from the date of application for the license or the application shall lapse. However, the applicant may thereafter submit a new application upon payment of the requisite fee.

SEC. 9. Section 11204 of the Vehicle Code is amended to read:

11204. The department shall issue a license certificate to each traffic violator school owner and each traffic violator school operator licensed pursuant to this chapter. The term of the license shall be for a period of one year from the date of issue unless canceled, suspended, or revoked by the department. The license shall be renewed annually. The department shall require compliance with Section 11202 for renewal of the license of a traffic violator school owner. The department shall require compliance with Section 11202.5 for renewal of the license of a traffic violator school operator.

Where in its judgment the public interest so requires, the department may issue a probationary license subject to special conditions to be observed by the licensee in the conduct of the traffic violator school. The conditions to be attached to the license shall be such as may, in the judgment of the department, be in the public interest and suitable to the qualifications of the applicant as disclosed by the application and investigation by the department of the information contained therein. The conditions shall not appear on the license certificate.

Upon notification of death of a traffic violator school licensee, the department may issue a temporary license to the executor or administrator of the estate of a deceased holder of a validly outstanding license to conduct a traffic violator school, or if no executor or administrator has been appointed and until a certified copy of an order making such an appointment is filed with the department, a temporary license may be issued to the surviving spouse or other heir entitled to conduct the business of the deceased. The temporary license shall permit the holder to conduct the traffic violator school for a period of one year from and after the date of the original licensee's death, and necessary one-year extensions may be granted to permit disposal of the business and qualification for a license of a purchaser of the business or the surviving spouse or heir. The department may restrict or condition a temporary license and attach to the exercise of the privilege thereunder any terms and conditions that in the department's judgment are required for the protection of the public.

SEC. 10. Section 11205 of the Vehicle Code is amended to read:

11205. The department shall publish annually, or more often as necessary to serve the purposes of this chapter, a list of all schools which are licensed pursuant to this chapter. The list may identify classroom facilities within a judicial district that are at a different location from a licensed school's principal facility. The department shall transmit a copy of the list to each justice court and each municipal court in the state. The department shall periodically revise the list so that each court may have a current list of all licensed traffic violator schools.

Except as otherwise provided in subdivision (d) of Section 42005, the court shall only use the current list of traffic violator schools published by the department when it orders a person to attend a traffic violator school pursuant to subdivision (a) or (b) of Section 42005.

SEC. 11. Section 11206 of the Vehicle Code is amended to read:

11206. The department shall license traffic violator school instructors. Except as exempted by this section, no person shall act as a traffic violator school instructor without a currently valid instructor's license issued by the department. Every person, in order to qualify as a traffic violator school instructor, shall meet all of the following requirements before an instructor's license may be issued:

(a) Be a person who has not been convicted of a crime involving an act of dishonesty, fraud, or deceit with the intent to benefit himself or another substantially, or to injure another substantially. A conviction after a plea of nolo contendere is a conviction for purposes of this section.

(b) Have a high school education.

(c) Within three attempts, pass an examination as required by the department, on traffic laws, safe driving practices, operation of motor vehicles, and teaching methods and techniques.

(d) Hold a currently valid California driver's license, which shall

not be subject to probation pursuant to Section 14250 due to the applicant being a negligent operator within the meaning of Section 12810 or 12810.5. The applicant's driving record shall not have any outstanding notice for violating a written promise to appear in court or for willfully failing to pay a lawfully imposed fine, as provided in Section 40509.

(e) Be 18 years of age or older.

All the qualifying requirements specified by this section shall be met within one year from the date of application for a license or the application shall lapse. However, the applicant may thereafter submit a new application upon payment of the requisite fee.

A license issued pursuant to this section is not required to provide instruction to traffic violators in a public school or other public educational institution by a person holding a valid teaching credential with satisfactory training or experience in the subject area, as determined by the department. Persons exempt from licensure under this section are not required to obtain a license certificate pursuant to Section 11207.

SEC. 12. Section 11208 of the Vehicle Code is amended to read:

11208. (a) Fees for issuance by the department of a license to a traffic violator school owner shall be as follows:

(1) For the original license or an ownership change which requires a new application, except as provided by Section 42231, a fee of one hundred fifty dollars ($150), with an additional fee of seventy dollars ($70) for each separate traffic violator school branch or classroom location licensed. The fee prescribed by this subdivision is nonrefundable.

(2) For annual renewal of the license for a traffic violator school and for each branch or classroom location, a fee of fifty dollars ($50).

(3) If alteration of an existing license is required by a firm name change, a change in corporate officer structure, address change, or the addition of a traffic violator school branch or classroom location, a fee of seventy dollars ($70).

(4) For replacement of the license certificate when the original license is lost, stolen, or mutilated, a fee of fifteen dollars ($15).

(b) Fees for issuance by the department of a license for a traffic violator school operator shall be as follows:

(1) For the original license a nonrefundable fee of one hundred dollars ($100).

(2) For annual renewal of the license, a fee of fifty dollars ($50).

(3) If alteration of an existing license is caused by a change in the name or location of the established principal place of business of the traffic violator school operated by the licensee, including a transfer by a licensee from one traffic violator school to another, a fee of fifteen dollars ($15).

(4) For replacement of the license certificate when the original license is lost, stolen, or mutilated, a fee of fifteen dollars ($15).

(c) Fees for issuance by the department of a license for a traffic violator school instructor shall be as follows:

(1) For the original license, except as provided by Section 42231, a nonrefundable fee of thirty dollars ($30).

(2) For the triennial renewal of a license, a fee of thirty dollars ($30).

(3) If alteration of an existing license is required by a change in the instructor's employing school's name or location, or transfer of the instructor's license to another employing school, a fee of fifteen dollars ($15).

(4) For replacement of the instructor's license certificate when the original license is lost, stolen, or mutilated, a fee of fifteen dollars ($15).

(d) The department shall charge a fee not to exceed three dollars ($3) for each completion certificate issued by a traffic violator school to each person completing instruction at the traffic violator school. The amount of the fee shall be determined by the department and shall be a fee sufficient to defray the actual costs incurred by the department for publication and distribution of lists of schools for traffic violators pursuant to Section 11205, for monitoring instruction, business practices, and records of schools for traffic violators and for any other activities deemed necessary by the department to assure high quality education for traffic violators. Upon satisfactory completion of the instruction offered by a licensed traffic violator school, the traffic violator school shall provide the student with a certificate of completion furnished by the department. A traffic violator school shall not charge a fee in excess of the fee charged by the department pursuant to this subdivision for furnishing a certificate of completion or duplicate thereof. The student shall present this certificate of completion to the court as proof of completion of instruction, and no other proof of completion of instruction may be accepted by the court.

SEC. 13. Section 11209 of the Vehicle Code is amended to read:

11209. Any traffic violator school owner, traffic violator school operator, or traffic violator school instructor required to be licensed under this chapter who fails to renew the license within 30 days after the expiration of the license may not renew that license, but may reapply for an original license pursuant to provisions of this chapter. For purposes of this section, a license that has been canceled may not be renewed and a license that is suspended or revoked may not be renewed until reinstatement or reissuance by the department. If the period of suspension or revocation extends more than 30 days beyond the expiration of a license, it may not be renewed, but the person may apply for a new license thereafter.

SEC. 14. Section 11210 of the Vehicle Code is amended to read:

11210. Pending determination by the department that an applicant for a license fully satisfies the requirements of this chapter, the department may issue a temporary permit to the applicant. A temporary permit may authorize the operation of a traffic violator school or acting as a traffic violator school operator or traffic violator school instructor for a period not to exceed 120 days while the

department is completing its investigation and determination of all facts relative to the qualifications of the applicant for the license.

The department may cancel a temporary permit when it has determined or has reasonable cause to believe that the application is incorrect or incomplete or the temporary permit was issued in error. A temporary permit is invalid upon cancellation or once the applicant has been issued or denied the license applied for.

SEC. 15. Section 11211 of the Vehicle Code is amended to read:

11211. (a) The department may refuse to issue a license to any applicant under this chapter when it is satisfied that any of the following exist:

(1) The applicant was previously the holder of a license under this chapter which was revoked or suspended.

(2) The applicant has done any act or series of acts which would be a cause for suspension or revocation of licensure under Section 11215, regardless of whether the applicant was licensed under this chapter at the time of the act or acts.

(3) If the applicant is a partnership or corporation, one or more of the limited or general partners, stockholders, directors, or officers, was the holder of a previously issued license under this chapter that was suspended or revoked; or one or more of these partners, stockholders, or officers has done any act or series of acts which would be a cause for suspension or revocation of licensure under Section 11215, regardless of whether the person was licensed under this chapter at the time of the act or acts.

(4) By reason of the facts and circumstances touching the organization, control, and management of the partnership or corporation, it is likely that both of the following will occur:

(A) The policy or operation of the business will be directed, controlled, or managed by an individual who, by reason of an act, series of acts, or conduct described in paragraphs (2) and (3), would be ineligible for a license.

(B) By licensing the corporation or partnership the purposes of this division would likely be defeated.

(5) The applicant has knowingly made a false statement or knowingly concealed a material fact in applying for a license under this chapter.

(b) Upon refusal of the department to issue a license under this chapter, the applicant shall be entitled to a hearing upon demand in writing submitted to the department within 60 days after notice of refusal. The hearing shall be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(c) A person whose license has been revoked or application for a license has been refused may reapply for the license after a period of not less than one year has elapsed from the effective date of the decision revoking the license or refusing the application.

SEC. 16. Section 11212 of the Vehicle Code is amended to read:

11212. (a) Every owner licensed under this chapter shall keep a

record at the traffic violator school's primary business location showing all of the following for each student:

(2) The name and address of each person given instruction.

(3) The instruction permit number or driver's license number of every person given instruction.

(4) The name and number of the license issued pursuant to Section 11207 of the traffic violator school instructor.

(5) The particular type of instruction given and the date or dates of the instruction.

(6) A statement as to whether the approved lesson plan was followed.

(7) The total number of hours of instruction.

(8) The total cost to the student of the instruction, which shall not exceed the amount of the fee represented or advertised by the traffic violator school at the time of the student's enrollment.

(9) The court docket number under which the student was referred to a traffic violator school.

(10) The number of the completion certificate issued to the student pursuant to subdivision (e) of Section 11208 and, if different, the number of any copy thereof issued to the student.

(b) The records shall be retained for a minimum of three years and shall be open to the inspection during business hours and at all other reasonable times by the department, the court, a private entity providing monitoring pursuant to Section 11222, the Legislative Analyst, and the Auditor General or authorized employees thereof, but shall be only for confidential use.

(c) Whenever a licensee suspends or terminates the licensed activity, the licensee shall surrender the records specified in subdivision (a) to the department for examination not later than the end of the third day, excluding Saturdays, Sundays, and legal holidays, after the date of suspension or termination. The department may duplicate or make a record of any information contained therein. All these records shall be returned to the licensee not later than 30 days after the date of surrender.

SEC. 17. Section 11213 of the Vehicle Code is amended to read:

11213. (a) Every traffic violator school owner licensed pursuant to this chapter shall notify the department within 10 days of any change in the ownership or corporate structure of the licensee.

(b) Every traffic violator school owner shall immediately notify the department of the following activities:

SEC. 26. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 397

An act to amend Section 10760 of, and to repeal Article 4 (commencing with Section 10910) of Chapter 3 of Part 5 of Division 2 of, the Revenue and Taxation Code, relating to the taxation of mobilehomes, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 10760 of the Revenue and Taxation Code is amended to read:

10760. (a) Notwithstanding any other provision of law, a mobilehome sold new on or before June 30, 1980, on which the license fee required to be paid under this part has been delinquent for 120 days or more, shall not be subject to local property taxation, if a request for reinstatement to the vehicle license fee under this part is filed with the Department of Housing and Community Development with a postmark dated no later than December 31, 1986, showing verification by the county tax collector that payment of property taxes on the mobilehome is current, as of the date of filing.

(b) Applications for filing for reinstatement pursuant to this section shall be provided by the Department of Housing and Community Development through its offices and offices of county assessors and county tax collectors.

(c) A mobilehome shall not qualify for reinstatement to the license fee under this part unless payment of property taxes on the mobilehome is current. Reinstatement applications shall include a provision for county tax collectors to verify that the payment of property taxes is current. For purposes of this section, mobilehome owners who submit reinstatement applications to the tax collector for verification prior to September 1st of the fiscal year for which property taxes on the mobilehome will be due and whose verified applications are filed with the department with a postmark date no later than 30 days thereafter are considered current on the payment of property taxes if the payment of property taxes on the mobilehome for prior fiscal years has been satisfied.

(d) A mobilehome, on which the license fee required to be paid under this part has been delinquent for 120 days or more, which was

not actually enrolled on the local property tax roll prior to October 1, 1984, shall not be subject to local property taxation as a condition of reinstatement to the license fee under this part. Tax collectors shall verify on the reinstatement application that such a mobilehome was not enrolled prior to October 1, 1984. Any license fee and penalty which would otherwise be due under this part during the period of delinquency shall be paid to the Department of Housing and Community Development as a condition of reinstatement to the license fee.

(e) Any used mobilehome, the sale of which has not been subject to sales or use tax pursuant to Section 6379 or Section 18116.5 of the Health and Safety Code, shall not qualify for reinstatement to the license fee under this part unless, in addition to the other requirements of this section, the full sales or use tax liability on the last sale, which would have been owed if the mobilehome had not been subject to property taxation, is paid.

(f) The Department of Housing and Community Development, upon receiving the verified reinstatement application and determining that the requirements of this section have been complied with, shall reinstate the mobilehome to the license fee, establish a license fee renewal date for the mobilehome, and notify the county tax assessor to remove the mobilehome from the local property tax roll.

SEC. 2. Article 4 (commencing with Section 10910) of Chapter 3 of Part 5 of Division 2 of the Revenue and Taxation Code is repealed.

SEC. 3. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent mobilehome owners previously delinquent on state vehicle license fees, whose mobilehomes were not already placed on local property tax rolls by October 1, 1984, from being subject to property taxation as a condition of reinstatement to the license fee pursuant to Chapter 1760 of the Statutes of 1984, it is necessary that this act take effect immediately.

WARNING TO PERSON EXECUTING THIS DOCUMENT

This is an important legal document. Before executing this document, you should know these important facts:

This document gives the person you designate as your agent (the attorney in fact) the power to make health care decisions for you.

Your agent must act consistently with your desires as stated in this document or otherwise made known.

Except as you otherwise specify in this document, this document gives your agent the power to consent to your doctor not giving treatment or stopping treatment necessary to keep you alive.

Notwithstanding this document, you have the right to make medical and other health care decisions for yourself so long as you can give informed consent with respect to the particular decision. In addition, no treatment may be given to you over your objection, and health care necessary to keep you alive may not be stopped or withheld if you object at the time.

This document gives your agent authority to consent, to refuse to consent, or to withdraw consent to any care, treatment, service, or procedure to maintain, diagnose, or treat a physical or mental condition. This power is subject to any statement of your desires and any limitations that you include in this document. You may state in this document any types of treatment that you do not desire. In addition, a court can take away the power of your agent to make health care decisions for you if your agent (1) authorizes anything that is illegal, (2) acts contrary to your known desires, or (3) where your desires are not known, does anything that is clearly contrary to your best interests.

Unless you specify a shorter period in this document, this power will exist for seven years from the date you execute this document and, if you are unable to make health care decisions for yourself at the time when this seven-year period ends, this power will continue to exist until the time when you become able to make health care decisions for yourself.

You have the right to revoke the authority of your agent by notifying your agent or your treating doctor, hospital, or other health care provider orally or in writing of the revocation.

Your agent has the right to examine your medical records and to consent to their disclosure unless you limit this right in this document.

Unless you otherwise specify in this document, this document gives your agent the power after you die to (1) authorize an autopsy, (2) donate your body or parts thereof for transplant or therapeutic or educational or scientific purposes, and (3) direct the disposition of your remains.

If there is anything in this document that you do not understand, you should ask a lawyer to explain it to you.

(b) The printed form described in subdivision (a) shall also include the following notice: "This power of attorney will not be valid for making health care decisions unless it is either (1) signed by two qualified adult witnesses who are personally known to you and who are present when you sign or acknowledge your signature or (2) acknowledged before a notary public in California."

(c) A durable power of attorney prepared for execution by a person resident in this state that permits the attorney in fact to make

health care decisions and that is not a printed form shall include one of the following:

(1) The substance of the statements provided for in subdivision (a) in capital letters.

(2) A certificate signed by the principal's lawyer stating: "I am a lawyer authorized to practice law in the state where this power of attorney was executed, and the principal was my client at the time this power of attorney was executed. I have advised my client concerning his or her rights in connection with this power of attorney and the applicable law and the consequences of signing or not signing this power of attorney, and my client, after being so advised, has executed this power of attorney."

(d) If a durable power of attorney includes the certificate provided for in paragraph (2) of subdivision (c) and permits the attorney in fact to make health care decisions for the principal, the applicable law of which the client is to be advised by the lawyer signing the certificate includes, but is not limited to, the matters listed in subdivision (a).

SEC. 6. Section 2440 of the Civil Code is amended to read:

2440. Nothing in this article authorizes an attorney in fact to consent to health care, or to consent to the withholding or withdrawal of health care necessary to keep the principal alive, if the principal objects to the health care or to the withholding or withdrawal of the health care. In such a case, the case is governed by the law that would apply if there were no durable power of attorney for health care.

SEC. 6.5. Section 2444 is added to the Civil Code, to read:

2444. (a) Notwithstanding Section 2433, on and after January 1, 1986, a printed form of a durable power of attorney for health care may be sold or otherwise distributed if it complies with Section 2433 as amended by Section 5 of Chapter 312 of the Statutes of 1984, or with Section 2433 as in effect at the time of sale or distribution; however, any printed form of a durable power of attorney for health care printed on or after January 1, 1986, that is sold or otherwise distributed in this state for use by a person who does not have the advice of legal counsel shall comply with Section 2433 as in effect at the time of sale or distribution.

(b) Notwithstanding Section 2432, a printed form of a durable power of attorney for health care may be sold or otherwise distributed if it complies with Section 2432 as originally enacted, or with Section 2432 as amended; however, any printed form of a durable power of attorney for health care printed on or after January 1, 1986, shall comply with the requirements of Section 2432 as amended.

(c) A durable power of attorney for health care executed on or after January 1, 1986, is not invalid if it complies with Section 2432 as originally enacted in lieu of Section 2432, as amended. A durable power of attorney for health care executed on or after January 1, 1986, using a printed form that complied with Section 2433 as

amended by Section 5 of Chapter 312 of the Statutes of 1984, is as valid as if it had been executed using a printed form that complied with Section 2433 as thereafter amended.

SEC. 7. Section 2450 of the Civil Code is amended to read:

2450. The use of the following form in the creation of a power of attorney is lawful, and when used, the power of attorney shall be construed in accordance with the provisions of this chapter and, if the power of attorney is a durable power of attorney, shall be subject to the provisions of Article 3 (commencing with Section 2400) of Chapter 2:

(2) A Statutory Short Form Power of Attorney that satisfies the requirements of Chapter 3 (commencing with Section 2450).

(b) A printed form of a durable power of attorney that is sold or otherwise distributed in this state for use by a person who does not have the advice of legal counsel shall contain, in not less than 10-point boldface type or a reasonable equivalent thereof, the following warning statement:

WARNING TO PERSON EXECUTING THIS DOCUMENT

This is an important legal document. It creates a durable power of attorney. Before executing this document, you should know these important facts:

This document may provide the person you designate as your attorney in fact with broad powers to manage, dispose, sell, and convey your real and personal property and to borrow money using your property as security for the loan.

These powers will exist for an indefinite period of time unless you limit their duration in this document. These powers will continue to exist notwithstanding your subsequent disability or incapacity.

You have the right to revoke or terminate this power of attorney.

If there is anything about this form that you do not understand, you should ask a lawyer to explain it to you.

(c) Nothing in subdivision (b) invalidates any transaction in which a third person relied in good faith upon the authority created by the durable power of attorney.

2510.5. (a) Notwithstanding Section 2510, on and after January 1, 1986, a printed form of a durable power of attorney may be sold or otherwise distributed if it complies with subdivision (b) of Section 2400 as originally enacted, or with Section 2510; however, except as provided in subdivision (a) of Section 2510, any printed form of a durable power of attorney printed on or after January 1, 1986, that is sold or otherwise distributed in this state for use by a person who does not have the advice of legal counsel shall comply with Section 2510.

2511. For the purposes of the declaration of witnesses required by Section 2450 or 2500, "convincing evidence" means the absence of any information, evidence, or other circumstances which would lead a reasonable person to believe that the person signing or acknowledging the power of attorney as principal is not the individual he or she claims to be and any one of the following:

(2) The power of attorney appears on its face to be valid.

Nothing in this section affects any immunity that may otherwise exist apart from this section.

2513. A power of attorney, whether or not a durable power of attorney, may by its terms apply to all or a portion of the real and personal property of the principal, whether owned by the principal at the time of the giving of the power of attorney or thereafter acquired, whether located in this state or elsewhere, without the need for a description of each item or parcel of property.

CHAPTER 404

An act to amend Sections 4701, 4702, and 4801.7 of, and to amend, repeal, and add Section 4801.6 of, the Civil Code, relating to support.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 4701 of the Civil Code, as amended by Section 1 of Chapter 1463 of the Statutes of 1984, is amended to read:

4701. (a) In any proceeding where the court has ordered either or both parents to pay any amount for the support of a minor child,

the court may order either parent or both parents to assign to either the person to whom support has been ordered to have been paid or the county officer designated by the court to receive the payment, that portion of salary or wages of either parent due or to be due in the future as will be sufficient to pay the amount ordered by the court for the support, maintenance, and education of the minor child. The order shall operate as an assignment and shall be binding upon any existing or future employer of the defaulting parent upon whom a copy of the order is served. Any such order may be modified or revoked at any time by the court.

(b) (1) Notwithstanding the provisions of subdivision (a), in any proceeding where the court has ordered either or both parents to pay any amount for the support of a minor child, upon a petition signed under penalty of perjury by the person or county officer to whom support has been ordered to have been paid that the parent so ordered is in arrears in payment in a sum equal to the amount of one month of the payment within the 24-month period immediately preceding filing of the petition with the court, the court shall issue without notice to the parent ordered to pay support an order requiring the parent ordered to pay support to assign either to the person to whom support has been ordered to have been paid or to a county officer designated by the court to receive the payment, that portion of the salary or wages of the parent due or to be due in the future as will be sufficient to pay the amount ordered by the court for the support, maintenance, and education of the minor child. Such an order shall operate as an assignment and shall be binding upon any existing or future employer of the parent ordered to pay support upon whom a copy of the order is served.

The petition shall state the number of previous times a petition for assignment has been filed pursuant to this subdivision and the county in which any such petition was filed.

(2) No petition shall be accepted for filing pursuant to this subdivision unless it contains a declaration stating that the parent, or any other person designated pursuant to subdivision (a), to whom support has been ordered to be paid has given the parent ordered to pay support a written notice of his or her intent to seek a wage assignment in the event of a default in support payments and that the notice was transmitted by certified mail or personally served at least 15 days prior to the date of the filing of the petition. A written notice of intent to seek a wage assignment may be given at the time of filing a petition or complaint for support or at any time subsequent thereto. In addition to any other penalty provided by law, the filing of a petition with knowledge of the falsity of the declaration of notice is punishable as a contempt pursuant to Section 1209 of the Code of Civil Procedure. The parent ordered to pay support may at any time waive the written notice required by this subdivision.

(3) The parent to whom support has been ordered to be paid shall notify the court and the employer of the parent ordered to pay support, by any form of mailing requiring a return receipt, of any

change of address within a reasonable period of time after any such change. In instances in which payments have been ordered to be made to a county officer designated by the court, the parent to whom support has been ordered to be paid shall notify the court and the county officer, by any form of mail requiring a return receipt, of any address change within a reasonable period of time after any such change. If the employer or county officer is unable to deliver payments under the assignment for a period of six months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address, the employer or county officer shall not make any further payments under the assignment and shall return all undeliverable payments to the employee.

(4) An assignment order made pursuant to this subdivision shall not become effective until 10 days after service of the order on an employer.

(5) Within 10 days of service of an assignment order issued pursuant to this subdivision on an employer, the employer shall deliver a copy of the assignment order to the parent ordered to pay support.

(6) A parent alleged to be in default may move to quash an assignment order issued under this subdivision within 10 days after service on the parent of notice of the assignment order by his or her employer if the parent states under oath that a default in the amount alleged in the petition has not occurred within the 24-month period referred to in the petition or that the amount is not owed. The motion and notice of motion to quash the assignment order shall be filed with the court issuing the assignment order within 10 days after service on the parent of notice of the order by the employer. The clerk of the court shall set the motion to quash for hearing within not less than 15 days, nor more than 20 days, after receipt of the notice of motion and shall mail to the petitioner at the return address contained in the petition a copy of the notice of motion by first-class mail within five days after receipt of the notice of motion.

(7) The employer shall continue to withhold and forward support as ordered by the court until served with notice that the motion to quash under this subdivision has been granted.

(8) The due date of support payments under this subdivision shall be the date specifically stated in the order of support or if no date is stated in the support order, then it shall be the last day of the month in which the support payment is to be paid.

(9) For purposes of this subdivision, arrearages of payment shall be computed on the basis of the payments owed and unpaid on the date that the parent ordered to pay support has been given notice of the order of assignment and the fact that the parent ordered to pay support may have subsequently paid the arrearages shall not relieve the court of its duty under this subdivision to order the assignment.

(10) Upon petition by the parent ordered to pay support, the

court shall terminate an order of assignment entered pursuant to this subdivision upon proof of full payment pursuant to the wage assignment for the appropriate period of time, as follows:

(A) An assignment pursuant to this subdivision pursuant to an initial petition shall continue until support payments are current.

(B) An assignment under this subdivision pursuant to a second petition filed within 24 months shall continue for 24 months.

(C) An assignment under this subdivision pursuant to a third or subsequent petition filed within 48 months shall not be terminated unless upon a petition by the parent ordered to pay support the court determines that there is good cause to terminate the assignment.

Upon petition by the parent ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision if the employer or county officer has been unable to deliver payments under the assignment for a period of six months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address.

(c) The Judicial Council shall prescribe forms for the orders for wage assignment required or authorized by this section. The employer may deduct from the salary or wages of the employee the sum of one dollar ($1) for each payment made pursuant to the order. Any such assignment made pursuant to court order shall have priority as against any attachment, execution, or other assignment, unless otherwise ordered by the court.

(d) The employer shall cooperate with and provide relevant employment information to the district attorney for the purpose of enforcing the child support obligation.

(e) No employer shall use any assignment authorized by this section as grounds for the dismissal of that employee.

(f) As used in this section "employer" includes the United States government and any public entity as defined in Section 811.2 of the Government Code.

(g) On declaration or affidavit of the parent to whom support has been ordered to be paid to the court that: (1) the parent ordered to make support payments is in default in the payment in the amount specified in subdivision (b), and (2) the whereabouts of the defaulting parent or the identity of his or her employer are unknown to the parent to whom support has been ordered to be paid, the district attorney shall contact the central registry maintained by the Department of Justice in the manner prescribed in Section 11478.5 of the Welfare and Institutions Code, and upon receiving the requested information, notify the court of the last known address of the absent parent and the name and address of the absent parent's last known employer. The court shall then order the defaulting parent to make support payments pursuant to subdivision (b).

(h) Nothing in this section shall limit the authority of the district attorney to utilize any and all civil and criminal remedies to enforce child support obligations regardless of whether or not the custodial

parent receives welfare moneys.

(i) The provisions of this section apply to the money and benefits described in Sections 704.110 and 704.113 of the Code of Civil Procedure to the extent that the money and benefits are subject to a wage assignment for support under Chapter 4 (commencing with Section 703.010) of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(j) Notwithstanding any other provision of law, when a certified copy of any order of assignment is served on any public entity described in Section 704.110 of the Code of Civil Procedure other than the United States government, that entity shall comply with any request for a return of employee contributions by an employee named in the order by delivering the contributions to the clerk of the court from which the order issued, unless the entity has received a certified copy of an order terminating the order of assignment. Upon receipt of moneys pursuant to this section, the clerk of the court, within 10 days, shall send written notice of that fact to the parties, and any agency through whom payments have been ordered under Section 4702. These moneys shall be subject to any procedure available to enforce an order for child support, but if no enforcement procedure is commenced after 30 days have elapsed from the date the notice of receipt is sent, the clerk shall, upon request, return the moneys to the public entity that delivered the moneys to the court unless the public entity has informed the court in writing that the moneys shall be released to the defaulting parent. A court shall not directly or indirectly condition the issuance, modification, or termination of, or condition the terms or conditions of, any order for the support of a minor child upon the issuance of such a request by such an employee.

(k) Notwithstanding subdivisions (a) and (b), in any case where support is ordered to be paid through the county officer designated by the court for those purposes, or where the district attorney requests, the court shall order a wage assignment pursuant to this section.

(*l*) In any case where support for a minor child is ordered to be paid through the county officer designated by the court for that purpose, and where support is being paid on behalf of a minor child not receiving public assistance pursuant to the Family Economic Security Act of 1982 (Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code), the county shall forward the support received to the minor child's custodial parent within seven days of receipt.

(m) This section shall remain in effect only until January 1, 1987, and as of that date is repealed.

SEC. 2. Section 4701 of the Civil Code, as amended by Section 1.5 of Chapter 1463 of the Statutes of 1984, is amended to read:

4701. (a) In any proceeding where the court has ordered either or both parents to pay any amount for the support of a minor child, the court may order either parent or both parents to assign to either

the person to whom support has been ordered to have been paid or the county officer designated by the court to receive the payment, that portion of salary or wages of either parent due or to be due in the future as will be sufficient to pay the amount ordered by the court for the support, maintenance, and education of the minor child. The order shall operate as an assignment and shall be binding upon any existing or future employer of the defaulting parent upon whom a copy of the order is served. Any such order may be modified or revoked at any time by the court.

(b) (1) Notwithstanding the provisions of subdivision (a), in any proceeding where the court has ordered either or both parents to pay any amount for the support of a minor child, upon a petition signed under penalty of perjury by the person or county officer to whom support has been ordered to have been paid that the parent so ordered is in arrears in payment in a sum equal to the amount of one month of the payment within the 24-month period immediately preceding filing of the petition with the court, the court shall issue without notice to the parent ordered to pay support an order requiring the parent ordered to pay support to assign either to the person to whom support has been ordered to have been paid or to a county officer designated by the court to receive the payment, that portion of the salary or wages of the parent due or to be due in the future as will be sufficient to pay the amount ordered by the court for the support, maintenance, and education of the minor child. Such an order shall operate as an assignment and shall be binding upon any existing or future employer of the parent ordered to pay support upon whom a copy of the order is served.

The petition shall state the number of previous times a petition for assignment has been filed pursuant to this subdivision and the county in which any such petition was filed.

(2) No petition shall be accepted for filing pursuant to this subdivision unless it contains a declaration stating that the parent, or any other person designated pursuant to subdivision (a), to whom support has been ordered to be paid has given the parent ordered to pay support a written notice of his or her intent to seek a wage assignment in the event of a default in support payments and that the notice was transmitted by certified mail or personally served at least 15 days prior to the date of the filing of the petition. A written notice of intent to seek a wage assignment may be given at the time of filing a petition or complaint for support or at any time subsequent thereto. In addition to any other penalty provided by law, the filing of a petition with knowledge of the falsity of the declaration of notice is punishable as a contempt pursuant to Section 1209 of the Code of Civil Procedure. The parent ordered to pay support may at any time waive the written notice required by this subdivision.

(3) The parent to whom support has been ordered to be paid shall notify the court and the employer of the parent ordered to pay support, by any form of mailing requiring a return receipt, of any change of address within a reasonable period of time after any such

change. In instances in which payments have been ordered to be made to a county officer designated by the court, the parent to whom support has been ordered to be paid shall notify the court and the county officer, by any form of mail requiring a return receipt, of any address change within a reasonable period of time after any such change. If the employer or county officer is unable to deliver payments under the assignment for a period of three months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address, the employer or county officer shall not make any further payments under the assignment and shall return all undeliverable payments to the employee.

(4) An assignment order made pursuant to this subdivision shall not become effective until 10 days after service of the order on an employer.

(5) Within 10 days of service of an assignment order issued pursuant to this subdivision on an employer, the employer shall deliver a copy of the assignment order to the parent ordered to pay support.

(6) A parent alleged to be in default may move to quash an assignment order issued under this subdivision within 10 days after service on the parent of notice of the assignment order by his or her employer if the parent states under oath that a default in the amount alleged in the petition has not occurred within the 24-month period referred to in the petition or that the amount is not owed. The motion and notice of motion to quash the assignment order shall be filed with the court issuing the assignment order within 10 days after service on the parent of notice of the order by the employer. The clerk of the court shall set the motion to quash for hearing within not less than 15 days, nor more than 20 days, after receipt of the notice of motion and shall mail to the petitioner at the return address contained in the petition a copy of the notice of motion by first-class mail within five days after receipt of the notice of motion.

(7) The employer shall continue to withhold and forward support as ordered by the court until served with notice that the motion to quash under this subdivision has been granted.

(8) The due date of support payments under this subdivision shall be the date specifically stated in the order of support or if no date is stated in the support order, then it shall be the last day of the month in which the support payment is to be paid.

(9) For purposes of this subdivision, arrearages of payment shall be computed on the basis of the payments owed and unpaid on the date that the parent ordered to pay support has been given notice of the order of assignment and the fact that the parent ordered to pay support may have subsequently paid the arrearages shall not relieve the court of its duty under this subdivision to order the assignment.

(10) Upon petition by the parent ordered to pay support, the court shall terminate an order of assignment entered pursuant to this

subdivision upon proof of full payment pursuant to the wage assignment for the appropriate period of time, as follows:

(A) An assignment pursuant to this subdivision pursuant to an initial petition shall continue until support payments are current.

(B) An assignment under this subdivision pursuant to a second petition filed within 24 months shall continue for 24 months.

(C) An assignment under this subdivision pursuant to a third or subsequent petition filed within 48 months shall not be terminated unless upon a petition by the parent ordered to pay support the court determines that there is good cause to terminate the assignment.

Upon petition by the parent ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision if the employer or county officer has been unable to deliver payments under the assignment for a period of three months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address.

(c) The Judicial Council shall prescribe forms for the orders for wage assignment required or authorized by this section. The employer may deduct from the salary or wages of the employee the sum of one dollar ($1) for each payment made pursuant to the order. Any such assignment made pursuant to court order shall have priority as against any attachment, execution, or other assignment, unless otherwise ordered by the court.

(d) The employer shall cooperate with and provide relevant employment information to the district attorney for the purpose of enforcing the child support obligation.

(e) No employer shall use any assignment authorized by this section as grounds for the dismissal of that employee.

(f) As used in this section "employer" includes the United States government and any public entity as defined in Section 811.2 of the Government Code.

(g) On declaration or affidavit of the parent to whom support has been ordered to be paid to the court that: (1) the parent ordered to make support payments is in default in the payment in the amount specified in subdivision (b), and (2) the whereabouts of the defaulting parent or the identity of his or her employer are unknown to the parent to whom support has been ordered to be paid, the district attorney shall contact the central registry maintained by the Department of Justice in the manner prescribed in Section 11478.5 of the Welfare and Institutions Code, and upon receiving the requested information, notify the court of the last known address of the absent parent and the name and address of the absent parent's last known employer. The court shall then order the defaulting parent to make support payments pursuant to subdivision (b).

(h) Nothing in this section shall limit the authority of the district attorney to utilize any and all civil and criminal remedies to enforce child support obligations regardless of whether or not the custodial parent receives welfare moneys.

(i) The provisions of this section apply to the money and benefits described in Sections 704.110 and 704.113 of the Code of Civil Procedure to the extent that the money and benefits are subject to a wage assignment for support under Chapter 4 (commencing with Section 703.010) of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(j) Notwithstanding any other provision of law, when a certified copy of any order of assignment is served on any public entity described in Section 704.110 of the Code of Civil Procedure other than the United States government, that entity shall comply with any request for a return of employee contributions by an employee named in that order by delivering the contributions to the clerk of the court from which the order issued, unless the entity has received a certified copy of an order terminating the order of assignment. Upon receipt of moneys pursuant to this section, the clerk of the court, within 10 days, shall send written notice of that fact to the parties, and any agency through whom payments have been ordered under Section 4702. These moneys shall be subject to any procedure available to enforce an order for child support, but if no enforcement procedure is commenced after 30 days have elapsed from the date the notice of receipt is sent, the clerk shall, upon request, return the moneys to the public entity that delivered the moneys to the court unless the public entity has informed the court in writing that the moneys shall be released to the defaulting parent. A court shall not directly or indirectly condition the issuance, modification, or termination of, or condition the terms or conditions of, any order for the support of a minor child upon the issuance of such a request by such an employee.

(k) Notwithstanding subdivisions (a) and (b) in any case where support is ordered to be paid through the county officer designated by the court for those purposes, or where the district attorney requests, the court shall order a wage assignment pursuant to this section.

(*l*) In any case where support for a minor child is ordered to be paid through the county officer designated by the court for that purpose, and where support is being paid on behalf of a minor child not receiving public assistance pursuant to the Family Economic Security Act of 1982 (Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code), the county shall forward the support received to the minor child's custodial parent within seven days of receipt.

(m) This section shall become operative on January 1, 1987.

SEC. 3. Section 4702 of the Civil Code is amended to read:

4702. (a) Notwithstanding the provisions of Section 4701, in any proceeding where a court makes or has made an order requiring the payment of child support to a parent receiving welfare moneys for the maintenance of minor children, the court shall direct that the payments of support shall be made to the county officer designated by the court for that purpose, and shall direct the district attorney

to appear on behalf of the welfare recipient in any proceeding to enforce the order.

(b) In any proceeding where a court makes or has made an order requiring the payment of child support to the person having custody of any minor children of the marriage, the court may direct that the payments shall be made to the county officer designated by the court for that purpose, and may direct the district attorney to appear on behalf of the minor children in any action to enforce the order. The court shall include in its order any service charge imposed under the authority of Section 580.5 of the Welfare and Institutions Code.

(c) Notwithstanding any other provision of law, in any proceeding where the custodial parent resides in one county and the parent ordered to pay support resides in another county, the court may direct payment to be made to the county officer designated by the court for those purposes in the county of residence of the custodial parent, and may direct the district attorney of either county to enforce the order. Civil enforcement by the district attorney of the county of residence of the custodial parent, where the order is in the county of the noncustodial parent or any other county, may be brought in accordance with Section 1697 of the Code of Civil Procedure. If the court directs the district attorney of the county of residence of the noncustodial parent to enforce the order, the expenses of the district attorney with respect to the enforcement shall be a charge upon the county of residence of the noncustodial parent.

(d) Except as provided in subdivision (c), expenses of the county officer designated by the court, and expenses of the district attorney incurred in the enforcement of any order of the type described in subdivision (a) or (b), shall be a charge upon the county where the proceedings are pending. Any fees for service of process in the enforcement of any such order shall be a charge upon the county where the process is served.

SEC. 4. Section 4801.6 of the Civil Code is amended to read:

4801.6. (a) In any proceeding where the court has ordered a party to pay any amount of spousal support to the other party, the court, upon a showing of good cause, may order the party required to make a payment of spousal support to assign to either the person to whom support has been ordered to have been paid or the county officer designated by the court to receive the payment, that portion of salary or wages of the party due or to be due in the future as will be sufficient to pay the amount ordered by the court for spousal support. The order shall operate as an assignment and shall be binding upon any existing or future employer of the party required to make the payment of spousal support upon whom a copy of the order is served. Any such order may be modified or revoked at any time by the court.

(b) (1) Notwithstanding the provisions of subdivision (a), in any proceeding where the court has ordered a party to pay spousal support to the other party, upon a petition signed under penalty of

perjury by the person to whom support has been ordered to have been paid alleging that the party ordered to pay spousal support is in arrears in payment in a sum equal to the amount of one month of the payment within the 24-month period immediately preceding filing of the petition, the court, without notice to the defaulting party, shall order the defaulting party to assign either to the person to whom support has been ordered to have been paid or to a county officer designated by the court to receive the payment, that portion of the salary or wages of the party required to make the payment of spousal support as will be sufficient to pay the amount ordered by the court for spousal support.

Such an order shall operate as an assignment and shall be binding upon any existing or future employer of the party required to make a payment of spousal support upon whom a copy of the order is served.

The petition shall state the number of previous times a petition for assignment has been filed pursuant to this subdivision and the county in which any such petition was filed.

(2) No petition shall be accepted for filing pursuant to this subdivision unless it contains a declaration stating that the person to whom support has been ordered to be paid has given the person ordered to pay support a written notice of his or her intent to seek a wage assignment in the event of a default in support payments and that the notice was transmitted by certified mail or personally served at least 15 days prior to the date of the filing of the petition. A written notice of intent to seek a wage assignment may be given at the time of the entry of the decree of dissolution or at any time subsequent thereto. In addition to any other penalty provided by law, the filing of a petition with knowledge of the falsity of the declaration of notice is punishable as a contempt pursuant to Section 1209 of the Code of Civil Procedure. The person ordered to pay support may at any time waive the written notice required by this subdivision.

(3) The party to whom support has been ordered to be paid shall notify the court and the employer of the party ordered to pay spousal support, by any form of mail requiring a return receipt, of any change of address within a reasonable period of time after any such change. In instances in which payments have been ordered to be made to a county officer designated by the court, the party to whom spousal support has been ordered to be paid shall notify the court and the county officer, by any form of mail requiring a return receipt, of any address change within a reasonable period of time after any changes. If the employer or county officer is unable to deliver payments under the assignment for a period of six months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address, the employer or county officer shall not make any further payments under the assignment and shall return all undeliverable payments to the employee.

(4) An assignment order made pursuant to this subdivision shall

not become effective until 10 days after service of the order on an employer.

(5) Within 10 days of service of an assignment order issued pursuant to this subdivision on an employer, the employer shall deliver a copy of the assignment order to the person ordered to pay support.

(6) A person alleged to be in default may move to quash an assignment order issued under this subdivision within 10 days after service on the person of notice of the assignment order by his or her employer if the person states under oath that a default in the amount alleged in the petition has not occurred within the 24-month period referred to in the petition or that the amount is not owed. The motion and notice of motion to quash the assignment order shall be filed with the court issuing the assignment order within 10 days after service on the person of notice of the order by the employer. The clerk of the court shall set the motion to quash for hearing within not less than 15 days, nor more than 20 days, after receipt of the notice of motion and shall mail to the petitioner at the return address contained in the petition a copy of the notice of motion by first-class mail within five days after receipt of the notice of motion.

(7) The employer shall continue to withhold and forward support as ordered by the court until served with notice that the motion to quash under this subdivision has been granted.

(8) The due date of support payments under this subdivision shall be the date specifically stated in the order of support or if no date is stated in the support order, then it shall be the last day of the month in which the support payment is to be paid.

(9) For purposes of this subdivision, arrearages of payment shall be computed on the basis of the payments owed and unpaid on the date that the person ordered to pay support has been given notice of the order of assignment, and the fact that the person ordered to pay support may have subsequently paid the arrearages shall not relieve the court of its duty under this subdivision to order the assignment.

(10) Upon petition by the person ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision upon proof of full payment pursuant to the wage assignment for the appropriate period of time, as follows:

(A) An assignment pursuant to this subdivision pursuant to an initial petition shall continue until support payments are current.

(B) An assignment under this subdivision pursuant to a second petition filed within 24 months shall continue for 24 months.

(C) An assignment under this subdivision pursuant to a third or subsequent petition filed within 48 months shall not be terminated unless upon a petition by the person ordered to pay support the court determines that there is good cause to terminate the assignment.

Upon petition by the person ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision if the employer or county officer has been unable to

deliver payments under the assignment for a period of six months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address.

(c) The Judicial Council shall prescribe forms for the orders for wage assignment required or authorized by this section. The employer may deduct from the salary or wages of the employee the sum of one dollar ($1) for each payment made pursuant to the order. Any such assignment made pursuant to court order shall have priority as against any attachment, execution, or other assignment, unless otherwise ordered by the court, with the exception of assignments made pursuant to Section 4701.

(d) The employer shall cooperate with, and provide relevant employment information to, the district attorney for the purpose of enforcing the spousal support obligation.

(e) No employer shall use any assignment authorized by this section as grounds for the dismissal of an employee.

(f) As used in this section "employer" includes the United States government and any public entity as defined in Section 811.2 of the Government Code.

(g) On declaration or affidavit of the party to whom spousal support has been ordered to be paid to the court that: (1) the party ordered to make a spousal support payment is in default in that payment in the amount specified in subdivision (b), and (2) the whereabouts of such defaulting party or the identity of his or her employer are unknown to the party to whom spousal support has been ordered to be paid, the district attorney shall contact the central registry maintained by the Department of Justice in the manner prescribed in Section 11478.5 of the Welfare and Institutions Code, and upon receiving the requested information, notify the court of the last known address of the absent party and the name and address of the absent party's last known employer. The court shall then order the party obligated to make spousal support payments to show cause why an order for assignment pursuant to subdivision (b) should not issue. The county may charge a reasonable fee not to exceed two dollars and fifty cents ($2.50) for the services of the district attorney under this subdivision.

(h) Nothing in this section shall limit or expand the authority of the district attorney to utilize any and all civil and criminal remedies to enforce spousal support obligations regardless of whether or not the party to be supported receives welfare moneys.

(i) The provisions of this section apply to the money and benefits described in Sections 704.110 and 704.113 of the Code of Civil Procedure to the extent that those moneys and benefits are subject to a wage assignment for support under Chapter 4 (commencing with Section 703.010) of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(j) Notwithstanding any other provision of law, when a certified copy of any order of assignment is served on any public entity

described in Section 704.110 of the Code of Civil Procedure other than the United States government, that entity shall comply with any request for a return of employee contributions by an employee named in the order by delivering the contributions to the clerk of the court from which the order issued, unless the entity has received a certified copy of an order terminating the order of assignment. Upon receipt of moneys pursuant to this section, the clerk of the court, within 10 days, shall send written notice of that fact to the parties, and any agency through whom payments have been ordered under Section 4801.7. The moneys shall be subject to any procedure available to enforce an order for spousal support, but if no enforcement procedure is commenced after 30 days have elapsed from the date the notice is sent, the clerk shall, upon request, return the moneys to the public entity that delivered the moneys to the court unless the public entity has informed the court in writing that the moneys shall be released to the defaulting party. A court shall not directly or indirectly condition the issuance, modification or termination of, or condition the terms or conditions of, any order for spousal support upon the issuance of such a request by such an employee.

(k) The procedures specified in this section are applicable to any proceeding where the court has ordered a party to pay any amount for family support.

(*l*) This section shall remain in effect only until January 1, 1987, and as of that date is repealed.

SEC. 5. Section 4801.6 is added to the Civil Code, to read:

4801.6. (a) In any proceeding where the court has ordered a party to pay any amount of spousal support to the other party, the court, upon a showing of good cause, may order the party required to make a payment of spousal support to assign to either the person to whom support has been ordered to have been paid or the county officer designated by the court to receive the payment, that portion of salary or wages of the party due or to be due in the future as will be sufficient to pay the amount ordered by the court for spousal support. The order shall operate as an assignment and shall be binding upon any existing or future employer of the party required to make the payment of spousal support upon whom a copy of the order is served. Any such order may be modified or revoked at any time by the court.

(b) (1) Notwithstanding the provisions of subdivision (a), in any proceeding where the court has ordered a party to pay spousal support to the other party, upon a petition signed under penalty of perjury by the person to whom support has been ordered to have been paid alleging that the party ordered to pay spousal support is in arrears in payment in a sum equal to the amount of one month of the payment within the 24-month period immediately preceding filing of the petition, the court, without notice to the defaulting party, shall order the defaulting party to assign either to the person to whom support has been ordered to have been paid or to a county

officer designated by the court to receive the payment, that portion of the salary or wages of the party required to make the payment of spousal support as will be sufficient to pay the amount ordered by the court for spousal support.

Such an order shall operate as an assignment and shall be binding upon any existing or future employer of the party required to make a payment of spousal support upon whom a copy of the order is served.

The petition shall state the number of previous times a petition for assignment has been filed pursuant to this subdivision and the county in which any such petition was filed.

(2) No petition shall be accepted for filing pursuant to this subdivision unless it contains a declaration stating that the person to whom support has been ordered to be paid has given the person ordered to pay support a written notice of his or her intent to seek a wage assignment in the event of a default in support payments and that the notice was transmitted by certified mail or personally served at least 15 days prior to the date of the filing of the petition. A written notice of intent to seek a wage assignment may be given at the time of the entry of the decree of dissolution or at any time subsequent thereto. In addition to any other penalty provided by law, the filing of a petition with knowledge of the falsity of the declaration of notice is punishable as a contempt pursuant to Section 1209 of the Code of Civil Procedure. The person ordered to pay support may at any time waive the written notice required by this subdivision.

(3) The party to whom support has been ordered to be paid shall notify the court and the employer of the party ordered to pay spousal support, by any form of mail requiring a return receipt, of any change of address within a reasonable period of time after any such change. In instances in which payments have been ordered to be made to a county officer designated by the court, the party to whom spousal support has been ordered to be paid shall notify the court and the county officer, by any form of mail requiring a return receipt, of any address change within a reasonable period of time after any changes. If the employer or county officer is unable to deliver payments under the assignment for a period of three months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address, the employer or county officer shall not make any further payments under the assignment and shall return all undeliverable payments to the employee.

(4) An assignment order made pursuant to this subdivision shall not become effective until 10 days after service of the order on an employer.

(5) Within 10 days of service of an assignment order issued pursuant to this subdivision on an employer, the employer shall deliver a copy of the assignment order to the person ordered to pay support.

(6) A person alleged to be in default may move to quash an

assignment order issued under this subdivision within 10 days after service on the person of notice of the assignment order by his or her employer if the person states under oath that a default in the amount alleged in the petition has not occurred within the 24-month period referred to in the petition or that the amount is not owed. The motion and notice of motion to quash the assignment order shall be filed with the court issuing the assignment order within 10 days after service on the person of notice of the order by the employer. The clerk of the court shall set the motion to quash for hearing within not less than 15 days, nor more than 20 days, after receipt of the notice of motion and shall mail to the petitioner at the return address contained in the petition a copy of the notice of motion by first-class mail within five days after receipt of the notice of motion.

(7) The employer shall continue to withhold and forward support as ordered by the court until served with notice that the motion to quash under this subdivision has been granted.

(8) The due date of support payments under this subdivision shall be the date specifically stated in the order of support or if no date is stated in the support order, then it shall be the last day of the month in which the support payment is to be paid.

(9) For purposes of this subdivision, arrearages of payment shall be computed on the basis of the payments owed and unpaid on the date that the person ordered to pay support has been given notice of the order of assignment, and the fact that the person ordered to pay support may have subsequently paid the arrearages shall not relieve the court of its duty under this subdivision to order the assignment.

(10) Upon petition by the person ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision upon proof of full payment pursuant to the wage assignment for the appropriate period of time, as follows:

(A) An assignment pursuant to this subdivision pursuant to an initial petition shall continue until support payments are current.

(B) An assignment under this subdivision pursuant to a second petition filed within 24 months shall continue for 24 months.

(C) An assignment under this subdivision pursuant to a third or subsequent petition filed within 48 months shall not be terminated unless upon a petition by the person ordered to pay support the court determines that there is good cause to terminate the assignment.

Upon petition by the person ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision if the employer or county officer has been unable to deliver payments under the assignment for a period of three months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address.

(c) The Judicial Council shall prescribe forms for the orders for wage assignment required or authorized by this section. The employer may deduct from the salary or wages of the employee the

sum of one dollar ($1) for each payment made pursuant to the order. Any such assignment made pursuant to court order shall have priority as against any attachment, execution, or other assignment, unless otherwise ordered by the court, with the exception of assignments made pursuant to Section 4701.

(d) The employer shall cooperate with, and provide relevant employment information to, the district attorney for the purpose of enforcing the spousal support obligation.

(e) No employer shall use any assignment authorized by this section as grounds for the dismissal of an employee.

(f) As used in this section "employer" includes the United States government and any public entity as defined in Section 811.2 of the Government Code.

(g) On declaration or affidavit of the party to whom spousal support has been ordered to be paid to the court that: (1) the party ordered to make a spousal support payment is in default in that payment in the amount specified in subdivision (b), and (2) the whereabouts of such defaulting party or the identity of his or her employer are unknown to the party to whom spousal support has been ordered to be paid, the district attorney shall contact the central registry maintained by the Department of Justice in the manner prescribed in Section 11478.5 of the Welfare and Institutions Code, and upon receiving the requested information, notify the court of the last known address of the absent party and the name and address of the absent party's last known employer. The court shall then order the party obligated to make spousal support payments to show cause why an order for assignment pursuant to subdivision (b) should not issue. The county may charge a reasonable fee not to exceed two dollars and fifty cents ($2.50) for the services of the district attorney under this subdivision.

(h) Nothing in this section shall limit or expand the authority of the district attorney to utilize any and all civil and criminal remedies to enforce spousal support obligations regardless of whether or not the party to be supported receives welfare moneys.

(i) The provisions of this section apply to the money and benefits described in Sections 704.110 and 704.113 of the Code of Civil Procedure to the extent that those moneys and benefits are subject to a wage assignment for support under Chapter 4 (commencing with Section 703.010) of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(j) Notwithstanding any other provision of law, when a certified copy of any order of assignment is served on any public entity described in Section 704.110 of the Code of Civil Procedure other than the United States government, that entity shall comply with any request for a return of employee contributions by an employee named in the order by delivering the contributions to the clerk of the court from which the order issued, unless the entity has received a certified copy of an order terminating the order of assignment. Upon receipt of moneys pursuant to this section, the clerk of the court,

within 10 days, shall send written notice of that fact to the parties, and any agency through whom payments have been ordered under Section 4801.7. The moneys shall be subject to any procedure available to enforce an order for spousal support, but if no enforcement procedure is commenced after 30 days have elapsed from the date the notice is sent, the clerk shall, upon request, return the moneys to the public entity that delivered the moneys to the court unless the public entity has informed the court in writing that the moneys shall be released to the defaulting party. A court shall not directly or indirectly condition the issuance, modification or termination of, or condition the terms or conditions of, any order for spousal support upon the issuance of such a request by such an employee.

(k) The procedures specified in this section are applicable to any proceeding where the court has ordered a party to pay any amount for family support.

(*l*) This section shall become operative on January 1, 1987.

SEC. 6. Section 4801.7 of the Civil Code is amended to read:

4801.7. (a) In any proceeding where a court makes or has made an order requiring payment of spousal support, the court may direct that payment shall be made to the county officer designated by the court for the purpose. The court may include in any such order any service charge imposed under the authority of Section 279 of the Welfare and Institutions Code.

(b) In any proceeding where the court has entered an order pursuant to subdivision (a) the court may also refer the matter of enforcement of the spousal support order to the district attorney. The district attorney may bring such enforcement proceedings as he or she in his or her discretion deems appropriate. Nothing in this section shall be construed to prohibit the district attorney from bringing an action or from initiating process to enforce or to punish the failure to obey an order for spousal support under any provision of law which empowers the district attorney to bring such an action or initiate such a process, whether or not there has been a referral by the court pursuant to this section.

(c) Notwithstanding the provisions of subdivision (b), in any case in which the district attorney is required to appear on behalf of a welfare recipient in a proceeding to enforce an order requiring payment of child support, the district attorney shall also enforce any order requiring payment to the welfare recipient of spousal support that is in arrears.

(d) Insofar as expenses of the county officer designated by the court and expenses of the district attorney incurred in the enforcement of any order referred by the court exceed any service charge imposed under Section 279 of the Welfare and Institutions Code, they shall be a charge upon the county where the proceedings are pending. Any fees for service of process in the enforcement of any such order shall be a charge upon the county where the process is served.

SEC. 7. Section 4701 of the Civil Code, as amended by Section 1 of Chapter 1463 of the Statutes of 1984, is amended to read:

4701. (a) In any proceeding where the court has ordered either or both parents to pay any amount for the support of a minor child, the court may order either parent or both parents to assign to either the person to whom support has been ordered to have been paid or the county officer designated by the court to receive the payment, that portion of salary or wages of either parent due or to be due in the future as will be sufficient to pay the amount ordered by the court for the support, maintenance, and education of the minor child. The order shall operate as an assignment and shall be binding upon any existing or future employer of the defaulting parent upon whom a copy of the order is served. Any such order may be modified or revoked at any time by the court.

(b) (1) Notwithstanding the provisions of subdivision (a), in any proceeding where the court has ordered either or both parents to pay any amount for the support of a minor child, upon a petition signed under penalty of perjury by the person or county officer to whom support has been ordered to have been paid that the parent so ordered is in arrears in payment in a sum equal to the amount of one month of the payment within the 24-month period immediately preceding filing of the petition with the court, the court shall issue without notice to the parent ordered to pay support an order requiring the parent ordered to pay support to assign either to the person to whom support has been ordered to have been paid or to a county officer designated by the court to receive the payment, that portion of the salary or wages of the parent due or to be due in the future as will be sufficient to pay the amount ordered by the court for the support, maintenance, and education of the minor child. Such an order shall operate as an assignment and shall be binding upon any existing or future employer of the parent ordered to pay support upon whom a copy of the order is served.

The petition shall state the number of previous times a petition for assignment has been filed pursuant to this subdivision and the county in which any such petition was filed.

(2) No petition shall be accepted for filing pursuant to this subdivision unless it contains a declaration stating that the parent, or any other person designated pursuant to subdivision (a), to whom support has been ordered to be paid has given the parent ordered to pay support a written notice of his or her intent to seek a wage assignment in the event of a default in support payments and that the notice was transmitted by certified mail or personally served at least 15 days prior to the date of the filing of the petition. A written notice of intent to seek a wage assignment may be given at the time of filing a petition or complaint for support or at any time subsequent thereto. In addition to any other penalty provided by law, the filing of a petition with knowledge of the falsity of the declaration of notice is punishable as a contempt pursuant to Section 1209 of the Code of Civil Procedure. The parent ordered to pay support may at any time

waive the written notice required by this subdivision.

(3) The parent to whom support has been ordered to be paid shall notify the court and the employer of the parent ordered to pay support, by any form of mailing requiring a return receipt, of any change of address within a reasonable period of time after any such change. In instances in which payments have been ordered to be made to a county officer designated by the court, the parent to whom support has been ordered to be paid shall notify the court and the county officer, by any form of mail requiring a return receipt, of any address change within a reasonable period of time after any such change. If the employer or county officer is unable to deliver payments under the assignment for a period of six months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address, the employer or county officer shall not make any further payments under the assignment and shall return all undeliverable payments to the employee.

(4) An assignment order made pursuant to this subdivision shall not become effective until 10 days after service of the order on an employer.

(5) Within 10 days of service of an assignment order issued pursuant to this subdivision on an employer, the employer shall deliver a copy of the assignment order to the parent ordered to pay support.

(6) A parent alleged to be in default may move to quash an assignment order issued under this subdivision within 10 days after service on the parent of notice of the assignment order by his or her employer if the parent states under oath that a default in the amount alleged in the petition has not occurred within the 24-month period referred to in the petition or that the amount is not owed. The motion and notice of motion to quash the assignment order shall be filed with the court issuing the assignment order within 10 days after service on the parent of notice of the order by the employer. The clerk of the court shall set the motion to quash for hearing within not less than 15 days, nor more than 20 days, after receipt of the notice of motion and shall mail to the petitioner at the return address contained in the petition a copy of the notice of motion by first-class mail within five days after receipt of the notice of motion.

(7) The employer shall continue to withhold and forward support as ordered by the court until served with notice that the motion to quash under this subdivision has been granted.

(8) The due date of support payments under this subdivision shall be the date specifically stated in the order of support or if no date is stated in the support order, then it shall be the last day of the month in which the support payment is to be paid.

(9) For purposes of this subdivision, arrearages of payment shall be computed on the basis of the payments owed and unpaid on the date that the parent ordered to pay support has been given notice of the order of assignment and the fact that the parent ordered to

pay support may have subsequently paid the arrearages shall not relieve the court of its duty under this subdivision to order the assignment.

(10) Upon petition by the parent ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision upon proof of full payment pursuant to the wage assignment for the appropriate period of time, as follows:

(A) An assignment pursuant to this subdivision pursuant to an initial petition shall continue until support payments are current.

(B) An assignment under this subdivision pursuant to a second petition filed within 24 months shall continue for 24 months.

(C) An assignment under this subdivision pursuant to a third or subsequent petition filed within 48 months shall not be terminated unless upon a petition by the parent ordered to pay support the court determines that there is good cause to terminate the assignment.

Upon petition by the parent ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision if the employer or county officer has been unable to deliver payments under the assignment for a period of six months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address.

(c) The Judicial Council shall prescribe forms for the orders for wage assignment required or authorized by this section. The employer may deduct from the salary or wages of the employee the sum of one dollar ($1) for each payment made pursuant to the order. Any such assignment made pursuant to court order shall have priority as against any attachment, execution, or other assignment, unless otherwise ordered by the court.

(d) The employer shall cooperate with and provide relevant employment information to the district attorney for the purpose of enforcing the child support obligation.

(e) Orders for wage assignment required or authorized by this section shall include a requirement that the parent ordered to pay support notify the parent or other person designated to receive payment of any change of employment.

(f) No employer shall use any assignment authorized by this section as grounds for the dismissal of that employee.

(g) As used in this section "employer" includes the United States government and any public entity as defined in Section 811.2 of the Government Code.

(h) On declaration or affidavit of the parent to whom support has been ordered to be paid to the court that: (1) the parent ordered to make support payments is in default in the payment in the amount specified in subdivision (b), and (2) the whereabouts of the defaulting parent or the identity of his or her employer are unknown to the parent to whom support has been ordered to be paid, the district attorney shall contact the central registry maintained by the Department of Justice in the manner prescribed in Section 11478.5

of the Welfare and Institutions Code, and upon receiving the requested information, notify the court of the last known address of the absent parent and the name and address of the absent parent's last known employer. The court shall then order the defaulting parent to make support payments pursuant to subdivision (b).

(i) Nothing in this section shall limit the authority of the district attorney to utilize any and all civil and criminal remedies to enforce child support obligations regardless of whether or not the custodial parent receives welfare moneys.

(j) The provisions of this section apply to the money and benefits described in Sections 704.110 and 704.113 of the Code of Civil Procedure to the extent that the money and benefits are subject to a wage assignment for support under Chapter 4 (commencing with Section 703.010) of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(k) Notwithstanding any other provision of law, when a certified copy of any order of assignment is served on any public entity described in Section 704.110 of the Code of Civil Procedure other than the United States government, that entity shall comply with any request for a return of employee contributions by an employee named in the order by delivering the contributions to the clerk of the court from which the order issued, unless the entity has received a certified copy of an order terminating the order of assignment. Upon receipt of moneys pursuant to this section, the clerk of the court, within 10 days, shall send written notice of that fact to the parties, and any agency through whom payments have been ordered under Section 4702. These moneys shall be subject to any procedure available to enforce an order for child support, but if no enforcement procedure is commenced after 30 days have elapsed from the date the notice of receipt is sent, the clerk shall, upon request, return the moneys to the public entity that delivered the moneys to the court unless the public entity has informed the court in writing that the moneys shall be released to the defaulting parent. A court shall not directly or indirectly condition the issuance, modification, or termination of, or condition the terms or conditions of, any order for the support of a minor child upon the issuance of such a request by such an employee.

(*l*) Notwithstanding subdivisions (a) and (b), in any case where support is ordered to be paid through the county officer designated by the court for those purposes, or where the district attorney requests, the court shall order a wage assignment pursuant to this section.

(m) In any case where support for a minor child is ordered to be paid through the county officer designated by the court for that purpose, and where support is being paid on behalf of a minor child not receiving public assistance pursuant to the Family Economic Security Act of 1982 (Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code), the county shall forward the support received to the minor child's

custodial parent within seven days of receipt.

(n) This section shall remain in effect only until January 1, 1987, and as of that date is repealed.

SEC. 8. Section 4701 of the Civil Code, as amended by Section 1.5 of Chapter 1463 of the Statutes of 1984, is amended to read:

4701. (a) In any proceeding where the court has ordered either or both parents to pay any amount for the support of a minor child, the court may order either parent or both parents to assign to either the person to whom support has been ordered to have been paid or the county officer designated by the court to receive the payment, that portion of salary or wages of either parent due or to be due in the future as will be sufficient to pay the amount ordered by the court for the support, maintenance, and education of the minor child. The order shall operate as an assignment and shall be binding upon any existing or future employer of the defaulting parent upon whom a copy of the order is served. Any such order may be modified or revoked at any time by the court.

(b) (1) Notwithstanding the provisions of subdivision (a), in any proceeding where the court has ordered either or both parents to pay any amount for the support of a minor child, upon a petition signed under penalty of perjury by the person or county officer to whom support has been ordered to have been paid that the parent so ordered is in arrears in payment in a sum equal to the amount of one month of the payment within the 24-month period immediately preceding filing of the petition with the court, the court shall issue without notice to the parent ordered to pay support an order requiring the parent ordered to pay support to assign either to the person to whom support has been ordered to have been paid or to a county officer designated by the court to receive the payment, that portion of the salary or wages of the parent due or to be due in the future as will be sufficient to pay the amount ordered by the court for the support, maintenance, and education of the minor child. Such an order shall operate as an assignment and shall be binding upon any existing or future employer of the parent ordered to pay support upon whom a copy of the order is served.

The petition shall state the number of previous times a petition for assignment has been filed pursuant to this subdivision and the county in which any such petition was filed.

(2) No petition shall be accepted for filing pursuant to this subdivision unless it contains a declaration stating that the parent, or any other person designated pursuant to subdivision (a), to whom support has been ordered to be paid has given the parent ordered to pay support a written notice of his or her intent to seek a wage assignment in the event of a default in support payments and that the notice was transmitted by certified mail or personally served at least 15 days prior to the date of the filing of the petition. A written notice of intent to seek a wage assignment may be given at the time of filing a petition or complaint for support or at any time subsequent thereto. In addition to any other penalty provided by law, the filing

of a petition with knowledge of the falsity of the declaration of notice is punishable as a contempt pursuant to Section 1209 of the Code of Civil Procedure. The parent ordered to pay support may at any time waive the written notice required by this subdivision.

(3) The parent to whom support has been ordered to be paid shall notify the court and the employer of the parent ordered to pay support, by any form of mailing requiring a return receipt, of any change of address within a reasonable period of time after any such change. In instances in which payments have been ordered to be made to a county officer designated by the court, the parent to whom support has been ordered to be paid shall notify the court and the county officer, by any form of mail requiring a return receipt, of any address change within a reasonable period of time after any such change. If the employer or county officer is unable to deliver payments under the assignment for a period of three months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address, the employer or county officer shall not make any further payments under the assignment and shall return all undeliverable payments to the employee.

(4) An assignment order made pursuant to this subdivision shall not become effective until 10 days after service of the order on an employer.

(5) Within 10 days of service of an assignment order issued pursuant to this subdivision on an employer, the employer shall deliver a copy of the assignment order to the parent ordered to pay support.

(6) A parent alleged to be in default may move to quash an assignment order issued under this subdivision within 10 days after service on the parent of notice of the assignment order by his or her employer if the parent states under oath that a default in the amount alleged in the petition has not occurred within the 24-month period referred to in the petition or that the amount is not owed. The motion and notice of motion to quash the assignment order shall be filed with the court issuing the assignment order within 10 days after service on the parent of notice of the order by the employer. The clerk of the court shall set the motion to quash for hearing within not less than 15 days, nor more than 20 days, after receipt of the notice of motion and shall mail to the petitioner at the return address contained in the petition a copy of the notice of motion by first-class mail within five days after receipt of the notice of motion.

(7) The employer shall continue to withhold and forward support as ordered by the court until served with notice that the motion to quash under this subdivision has been granted.

(8) The due date of support payments under this subdivision shall be the date specifically stated in the order of support or if no date is stated in the support order, then it shall be the last day of the month in which the support payment is to be paid.

(9) For purposes of this subdivision, arrearages of payment shall

be computed on the basis of the payments owed and unpaid on the date that the parent ordered to pay support has been given notice of the order of assignment and the fact that the parent ordered to pay support may have subsequently paid the arrearages shall not relieve the court of its duty under this subdivision to order the assignment.

(10) Upon petition by the parent ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision upon proof of full payment pursuant to the wage assignment for the appropriate period of time, as follows:

(A) An assignment pursuant to this subdivision pursuant to an initial petition shall continue until support payments are current.

(B) An assignment under this subdivision pursuant to a second petition filed within 24 months shall continue for 24 months.

(C) An assignment under this subdivision pursuant to a third or subsequent petition filed within 48 months shall not be terminated unless upon a petition by the parent ordered to pay support the court determines that there is good cause to terminate the assignment.

Upon petition by the parent ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision if the employer or county officer has been unable to deliver payments under the assignment for a period of three months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address.

(c) The Judicial Council shall prescribe forms for the orders for wage assignment required or authorized by this section. The employer may deduct from the salary or wages of the employee the sum of one dollar ($1) for each payment made pursuant to the order. Any such assignment made pursuant to court order shall have priority as against any attachment, execution, or other assignment, unless otherwise ordered by the court.

(d) The employer shall cooperate with and provide relevant employment information to the district attorney for the purpose of enforcing the child support obligation.

(e) Orders for wage assignment required or authorized by the section shall include a requirement that the parent ordered to pay support notify the parent or other person designated to receive payment of any change of employment.

(f) No employer shall use any assignment authorized by this section as grounds for the dismissal of that employee.

(g) As used in this section "employer" includes the United States government and any public entity as defined in Section 811.2 of the Government Code.

(h) On declaration or affidavit of the parent to whom support has been ordered to be paid to the court that: (1) the parent ordered to make support payments is in default in the payment in the amount specified in subdivision (b), and (2) the whereabouts of the defaulting parent or the identity of his or her employer are unknown

to the parent to whom support has been ordered to be paid, the district attorney shall contact the central registry maintained by the Department of Justice in the manner prescribed in Section 11478.5 of the Welfare and Institutions Code, and upon receiving the requested information, notify the court of the last known address of the absent parent and the name and address of the absent parent's last known employer. The court shall then order the defaulting parent to make support payments pursuant to subdivision (b).

(i) Nothing in this section shall limit the authority of the district attorney to utilize any and all civil and criminal remedies to enforce child support obligations regardless of whether or not the custodial parent receives welfare moneys.

(j) The provisions of this section apply to the money and benefits described in Sections 704.110 and 704.113 of the Code of Civil Procedure to the extent that the money and benefits are subject to a wage assignment for support under Chapter 4 (commencing with Section 703.010) of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(k) Notwithstanding any other provision of law, when a certified copy of any order of assignment is served on any public entity described in Section 704.110 of the Code of Civil Procedure other than the United States government, that entity shall comply with any request for a return of employee contributions by an employee named in that order by delivering the contributions to the clerk of the court from which the order issued, unless the entity has received a certified copy of an order terminating the order of assignment. Upon receipt of moneys pursuant to this section, the clerk of the court, within 10 days, shall send written notice of that fact to the parties, and any agency through whom payments have been ordered under Section 4702. These moneys shall be subject to any procedure available to enforce an order for child support, but if no enforcement procedure is commenced after 30 days have elapsed from the date the notice of receipt is sent, the clerk shall, upon request, return the moneys to the public entity that delivered the moneys to the court unless the public entity has informed the court in writing that the moneys shall be released to the defaulting parent. A court shall not directly or indirectly condition the issuance, modification, or termination of, or condition the terms or conditions of, any order for the support of a minor child upon the issuance of such a request by such an employee.

(*l*) Notwithstanding subdivisions (a) and (b) in any case where support is ordered to be paid through the county officer designated by the court for those purposes, or where the district attorney requests, the court shall order a wage assignment pursuant to this section.

(m) In any case where support for a minor child is ordered to be paid through the county officer designated by the court for that purpose, and where support is being paid on behalf of a minor child not receiving public assistance pursuant to the Family Economic

Security Act of 1982 (Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code), the county shall forward the support received to the minor child's custodial parent within seven days of receipt.

(n) This section shall become operative on January 1, 1987.

SEC. 9. Section 4801.6 of the Civil Code is amended to read:

4801.6. (a) In any proceeding where the court has ordered a party to pay any amount of spousal support to the other party, the court, upon a showing of good cause, may order the party required to make a payment of spousal support to assign to either the person to whom support has been ordered to have been paid or the county officer designated by the court to receive the payment, that portion of salary or wages of the party due or to be due in the future as will be sufficient to pay the amount ordered by the court for spousal support. The order shall operate as an assignment and shall be binding upon any existing or future employer of the party required to make the payment of spousal support upon whom a copy of the order is served. Any such order may be modified or revoked at any time by the court.

(2) No petition shall be accepted for filing pursuant to this subdivision unless it contains a declaration stating that the person to whom support has been ordered to be paid has given the person ordered to pay support a written notice of his or her intent to seek a wage assignment in the event of a default in support payments and that the notice was transmitted by certified mail or personally served at least 15 days prior to the date of the filing of the petition. A written notice of intent to seek a wage assignment may be given at the time of the entry of the decree of dissolution or at any time subsequent

thereto. In addition to any other penalty provided by law, the filing of a petition with knowledge of the falsity of the declaration of notice is punishable as a contempt pursuant to Section 1209 of the Code of Civil Procedure. The person ordered to pay support may at any time waive the written notice required by this subdivision.

(3) The party to whom support has been ordered to be paid shall notify the court and the employer of the party ordered to pay spousal support, by any form of mail requiring a return receipt, of any change of address within a reasonable period of time after any such change. In instances in which payments have been ordered to be made to a county officer designated by the court, the party to whom spousal support has been ordered to be paid shall notify the court and the county officer, by any form of mail requiring a return receipt, of any address change within a reasonable period of time after any changes. If the employer or county officer is unable to deliver payments under the assignment for a period of six months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address, the employer or county officer shall not make any further payments under the assignment and shall return all undeliverable payments to the employee.

(4) An assignment order made pursuant to this subdivision shall not become effective until 10 days after service of the order on an employer.

(5) Within 10 days of service of an assignment order issued pursuant to this subdivision on an employer, the employer shall deliver a copy of the assignment order to the person ordered to pay support.

(6) A person alleged to be in default may move to quash an assignment order issued under this subdivision within 10 days after service on the person of notice of the assignment order by his or her employer if the person states under oath that a default in the amount alleged in the petition has not occurred within the 24-month period referred to in the petition or that the amount is not owed. The motion and notice of motion to quash the assignment order shall be filed with the court issuing the assignment order within 10 days after service on the person of notice of the order by the employer. The clerk of the court shall set the motion to quash for hearing within not less than 15 days, nor more than 20 days, after receipt of the notice of motion and shall mail to the petitioner at the return address contained in the petition a copy of the notice of motion by first-class mail within five days after receipt of the notice of motion.

(7) The employer shall continue to withhold and forward support as ordered by the court until served with notice that the motion to quash under this subdivision has been granted.

(8) The due date of support payments under this subdivision shall be the date specifically stated in the order of support or if no date is stated in the support order, then it shall be the last day of the month in which the support payment is to be paid.

(9) For purposes of this subdivision, arrearages of payment shall be computed on the basis of the payments owed and unpaid on the date that the person ordered to pay support has been given notice of the order of assignment, and the fact that the person ordered to pay support may have subsequently paid the arrearages shall not relieve the court of its duty under this subdivision to order the assignment.

(10) Upon petition by the person ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision upon proof of full payment pursuant to the wage assignment for the appropriate period of time, as follows:

(A) An assignment pursuant to this subdivision pursuant to an initial petition shall continue until support payments are current.

(B) An assignment under this subdivision pursuant to a second petition filed within 24 months shall continue for 24 months.

(C) An assignment under this subdivision pursuant to a third or subsequent petition filed within 48 months shall not be terminated unless upon a petition by the person ordered to pay support the court determines that there is good cause to terminate the assignment.

Upon petition by the person ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision if the employer or county officer has been unable to deliver payments under the assignment for a period of six months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address.

(c) The Judicial Council shall prescribe forms for the orders for wage assignment required or authorized by this section. The employer may deduct from the salary or wages of the employee the sum of one dollar ($1) for each payment made pursuant to the order. Any such assignment made pursuant to court order shall have priority as against any attachment, execution, or other assignment, unless otherwise ordered by the court, with the exception of assignments made pursuant to Section 4701.

(d) The employer shall cooperate with, and provide relevant employment information to, the district attorney for the purpose of enforcing the spousal support obligation.

(e) No employer shall use any assignment authorized by this section as grounds for the dismissal of an employee.

(f) Orders for wage assignment required or authorized by this section shall include a requirement that the person ordered to pay support notify the other party or other person designated to receive payment of any change of employment.

(g) As used in this section "employer" includes the United States government and any public entity as defined in Section 811.2 of the Government Code.

(h) On declaration or affidavit of the party to whom spousal support has been ordered to be paid to the court that: (1) the party ordered to make a spousal support payment is in default in that

payment in the amount specified in subdivision (b), and (2) the whereabouts of such defaulting party or the identity of his or her employer are unknown to the party to whom spousal support has been ordered to be paid, the district attorney shall contact the central registry maintained by the Department of Justice in the manner prescribed in Section 11478.5 of the Welfare and Institutions Code, and upon receiving the requested information, notify the court of the last known address of the absent party and the name and address of the absent party's last known employer. The court shall then order the party obligated to make spousal support payments to show cause why an order for assignment pursuant to subdivision (b) should not issue. The county may charge a reasonable fee not to exceed two dollars and fifty cents ($2.50) for the services of the district attorney under this subdivision.

(i) Nothing in this section shall limit or expand the authority of the district attorney to utilize any and all civil and criminal remedies to enforce spousal support obligations regardless of whether or not the party to be supported receives welfare moneys.

(j) The provisions of this section apply to the money and benefits described in Sections 704.110 and 704.113 of the Code of Civil Procedure to the extent that those moneys and benefits are subject to a wage assignment for support under Chapter 4 (commencing with Section 703.010) of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(k) Notwithstanding any other provision of law, when a certified copy of any order of assignment is served on any public entity described in Section 704.110 of the Code of Civil Procedure other than the United States government, that entity shall comply with any request for a return of employee contributions by an employee named in the order by delivering the contributions to the clerk of the court from which the order issued, unless the entity has received a certified copy of an order terminating the order of assignment. Upon receipt of moneys pursuant to this section, the clerk of the court, within 10 days, shall send written notice of that fact to the parties, and any agency through whom payments have been ordered under Section 4801.7. The moneys shall be subject to any procedure available to enforce an order for spousal support, but if no enforcement procedure is commenced after 30 days have elapsed from the date the notice is sent, the clerk shall, upon request, return the moneys to the public entity that delivered the moneys to the court unless the public entity has informed the court in writing that the moneys shall be released to the defaulting party. A court shall not directly or indirectly condition the issuance, modification or termination of, or condition the terms or conditions of, any order for spousal support upon the issuance of such a request by such an employee.

(*l*) The procedures specified in this section are applicable to any proceeding where the court has ordered a party to pay any amount for family support.

(m) This section shall remain in effect only until January 1, 1987, and as of that date is repealed.

SEC. 10. Section 4801.6 is added to the Civil Code, to read:

4801.6. (a) In any proceeding where the court has ordered a party to pay any amount of spousal support to the other party, the court, upon a showing of good cause, may order the party required to make a payment of spousal support to assign to either the person to whom support has been ordered to have been paid or the county officer designated by the court to receive the payment, that portion of salary or wages of the party due or to be due in the future as will be sufficient to pay the amount ordered by the court for spousal support. The order shall operate as an assignment and shall be binding upon any existing or future employer of the party required to make the payment of spousal support upon whom a copy of the order is served. Any such order may be modified or revoked at any time by the court.

(b) (1) Notwithstanding the provisions of subdivision (a), in any proceeding where the court has ordered a party to pay spousal support to the other party, upon a petition signed under penalty of perjury by the person to whom support has been ordered to have been paid alleging that the party ordered to pay spousal support is in arrears in payment in a sum equal to the amount of one month of the payment within the 24-month period immediately preceding filing of the petition, the court, without notice to the defaulting party, shall order the defaulting party to assign either to the person to whom support has been ordered to have been paid or to a county officer designated by the court to receive the payment, that portion of the salary or wages of the party required to make the payment of spousal support as will be sufficient to pay the amount ordered by the court for spousal support.

Such an order shall operate as an assignment and shall be binding upon any existing or future employer of the party required to make a payment of spousal support upon whom a copy of the order is served.

The petition shall state the number of previous times a petition for assignment has been filed pursuant to this subdivision and the county in which any such petition was filed.

(2) No petition shall be accepted for filing pursuant to this subdivision unless it contains a declaration stating that the person to whom support has been ordered to be paid has given the person ordered to pay support a written notice of his or her intent to seek a wage assignment in the event of a default in support payments and that the notice was transmitted by certified mail or personally served at least 15 days prior to the date of the filing of the petition. A written notice of intent to seek a wage assignment may be given at the time of the entry of the decree of dissolution or at any time subsequent thereto. In addition to any other penalty provided by law, the filing of a petition with knowledge of the falsity of the declaration of notice is punishable as a contempt pursuant to Section 1209 of the Code of

Civil Procedure. The person ordered to pay support may at any time waive the written notice required by this subdivision.

(3) The party to whom support has been ordered to be paid shall notify the court and the employer of the party ordered to pay spousal support, by any form of mail requiring a return receipt, of any change of address within a reasonable period of time after any such change. In instances in which payments have been ordered to be made to a county officer designated by the court, the party to whom spousal support has been ordered to be paid shall notify the court and the county officer, by any form of mail requiring a return receipt, of any address change within a reasonable period of time after any changes. If the employer or county officer is unable to deliver payments under the assignment for a period of three months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address, the employer or county officer shall not make any further payments under the assignment and shall return all undeliverable payments to the employee.

(4) An assignment order made pursuant to this subdivision shall not become effective until 10 days after service of the order on an employer.

(5) Within 10 days of service of an assignment order issued pursuant to this subdivision on an employer, the employer shall deliver a copy of the assignment order to the person ordered to pay support.

(6) A person alleged to be in default may move to quash an assignment order issued under this subdivision within 10 days after service on the person of notice of the assignment order by his or her employer if the person states under oath that a default in the amount alleged in the petition has not occurred within the 24-month period referred to in the petition or that the amount is not owed. The motion and notice of motion to quash the assignment order shall be filed with the court issuing the assignment order within 10 days after service on the person of notice of the order by the employer. The clerk of the court shall set the motion to quash for hearing within not less than 15 days, nor more than 20 days, after receipt of the notice of motion and shall mail to the petitioner at the return address contained in the petition a copy of the notice of motion by first-class mail within five days after receipt of the notice of motion.

(7) The employer shall continue to withhold and forward support as ordered by the court until served with notice that the motion to quash under this subdivision has been granted.

(8) The due date of support payments under this subdivision shall be the date specifically stated in the order of support or if no date is stated in the support order, then it shall be the last day of the month in which the support payment is to be paid.

(9) For purposes of this subdivision, arrearages of payment shall be computed on the basis of the payments owed and unpaid on the date that the person ordered to pay support has been given notice

of the order of assignment, and the fact that the person ordered to pay support may have subsequently paid the arrearages shall not relieve the court of its duty under this subdivision to order the assignment.

(10) Upon petition by the person ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision upon proof of full payment pursuant to the wage assignment for the appropriate period of time, as follows:

(A) An assignment pursuant to this subdivision pursuant to an initial petition shall continue until support payments are current.

(B) An assignment under this subdivision pursuant to a second petition filed within 24 months shall continue for 24 months.

(C) An assignment under this subdivision pursuant to a third or subsequent petition filed within 48 months shall not be terminated unless upon a petition by the person ordered to pay support the court determines that there is good cause to terminate the assignment.

Upon petition by the person ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision if the employer or county officer has been unable to deliver payments under the assignment for a period of three months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address.

(c) The Judicial Council shall prescribe forms for the orders for wage assignment required or authorized by this section. The employer may deduct from the salary or wages of the employee the sum of one dollar ($1) for each payment made pursuant to the order. Any such assignment made pursuant to court order shall have priority as against any attachment, execution, or other assignment, unless otherwise ordered by the court, with the exception of assignments made pursuant to Section 4701.

(d) The employer shall cooperate with, and provide relevant employment information to, the district attorney for the purpose of enforcing the spousal support obligation.

(e) No employer shall use any assignment authorized by this section as grounds for the dismissal of an employee.

(f) Orders for wage assignment required or authorized by the section shall include a requirement that the person ordered to pay support to the other party or other person designated to receive payment of any change of employment.

(g) As used in this section "employer" includes the United States government and any public entity as defined in Section 811.2 of the Government Code.

(h) On declaration or affidavit of the party to whom spousal support has been ordered to be paid to the court that: (1) the party ordered to make a spousal support payment is in default in that payment in the amount specified in subdivision (b), and (2) the whereabouts of such defaulting party or the identity of his or her employer are unknown to the party to whom spousal support has

been ordered to be paid, the district attorney shall contact the central registry maintained by the Department of Justice in the manner prescribed in Section 11478.5 of the Welfare and Institutions Code, and upon receiving the requested information, notify the court of the last known address of the absent party and the name and address of the absent party's last known employer. The court shall then order the party obligated to make spousal support payments to show cause why an order for assignment pursuant to subdivision (b) should not issue. The county may charge a reasonable fee not to exceed two dollars and fifty cents ($2.50) for the services of the district attorney under this subdivision.

(i) Nothing in this section shall limit or expand the authority of the district attorney to utilize any and all civil and criminal remedies to enforce spousal support obligations regardless of whether or not the party to be supported receives welfare moneys.

(j) The provisions of this section apply to the money and benefits described in Sections 704.110 and 704.113 of the Code of Civil Procedure to the extent that those moneys and benefits are subject to a wage assignment for support under Chapter 4 (commencing with Section 703.010) of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(k) Notwithstanding any other provision of law, when a certified copy of any order of assignment is served on any public entity described in Section 704.110 of the Code of Civil Procedure other than the United States government, that entity shall comply with any request for a return of employee contributions by an employee named in the order by delivering the contributions to the clerk of the court from which the order issued, unless the entity has received a certified copy of an order terminating the order of assignment. Upon receipt of moneys pursuant to this section, the clerk of the court, within 10 days, shall send written notice of that fact to the parties, and any agency through whom payments have been ordered under Section 4801 7. The moneys shall be subject to any procedure available to enforce an order for spousal support, but if no enforcement procedure is commenced after 30 days have elapsed from the date the notice is sent, the clerk shall, upon request, return the moneys to the public entity that delivered the moneys to the court unless the public entity has informed the court in writing that the moneys shall be released to the defaulting party. A court shall not directly or indirectly condition the issuance, modification or termination of, or condition the terms or conditions of, any order for spousal support upon the issuance of such a request by such an employee.

(*l*) The procedures specified in this section are applicable to any proceeding where the court has ordered a party to pay any amount for family support.

(m) This section shall become operative on January 1, 1987.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 39141.6 of the Education Code is amended to read:

39141.6. For the purposes of this article and Article 6 (commencing with Section 39210), "school building" does not include (a) any building of a school district or county superintendent of schools which is used solely for classes or programs in outdoor science, conservation, and forestry in accordance with Article 5 (commencing with Section 8760) of Chapter 4 of Part 6 of Division 1 of Title 1 and which does not occupy, in whole or in part, the same parcel of land upon which there is situated any school maintained by the district or county superintendent, or (b) agricultural education laboratory facilities used primarily for plant and animal production or the storage of materials, equipment, and supplies involved in this production.

SEC. 2. Section 81131.6 of the Education Code is amended to read:

81131.6. For the purposes of this article and Article 8 (commencing with Section 81160), "school building" does not include any of the following:

(a) Any building of a community college district which is used solely for classes or programs in outdoor science, conservation, and forestry in accordance with Article 5 (commencing with Section 8760) of Chapter 4 of Part 6 of Division 1 of Title 1, and which does not occupy, in whole or in part, the same parcel of land upon which there is situated any school maintained by the district.

(b) Agricultural facilities that were not built for classroom purposes and which are used primarily for plant and animal production or the storage of materials, equipment, and supplies involved in that production:

(c) Animal kennels and facilities used to house animals as part of an animal health instruction program.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to authorize certain agricultural facilities and animal kennels and facilities used to house animals to be exempted from the approval and supervision of plans and specifications of the so-called "Field Act" at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 407

An act to add Section 42201.1 to the Vehicle Code, relating to vehicles, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 42201.1 is added to the Vehicle Code, to read:

42201.1. Fines and forfeitures received by a county under Section 1463 of the Penal Code may be used to reimburse the state for the construction of platform scales and vehicle inspection facilities in the county.

SEC. 2. Notwithstanding Section 26401 of the Public Resources Code, the sum of three million dollars ($3,000,000) is hereby appropriated from the Special Account for Capital Outlay in the General Fund to the Department of Transportation for allocation by the California Transportation Commission for the construction of one or more platform scales and vehicle inspection facilities on major state highway routes connecting a major metropolitan area where hazardous wastes are generated and a class I disposal site, as defined in Section 25148 of the Health and Safety Code, as determined by the commission, after the commission has included the project or projects in the state transportation improvement program. However, the department shall endeavor to obtain a federal grant or grants available under the Resource Conservation and Recovery Act of 1976 (42 U.S.C. Sec. 6901 et seq.), in order to wholly or partially fund this project, and shall deposit any grant money received for this purpose in the Special Account for Capital Outlay as reimbursement for the appropriation made under this section. This appropriation shall take precedence over all other appropriations and transfers from the Special Account for Capital Outlay.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The closing of waste disposal sites in major metropolitan areas of this state and the further inability of remaining sites in these areas to take certain hazardous waste has resulted in a very substantial increase in the number of trucks carrying volatile and toxic chemicals on those portions of state highways which connect these metropolitan areas and other, more remote, disposal sites. Since the prompt construction of truck inspection stations would result in a reduction of accidents occurring involving volatile and toxic substances, it is necessary that this act take effect immediately.

CHAPTER 408

An act to amend Section 14133.8 of the Welfare and Institutions Code, relating to Medi-Cal, and declaring the urgency thereof, to take effect immediately.

(b) The program shall provide reimbursement for both donor and recipient surgery.

(c) The department may establish inpatient rates of reimbursement not in accordance with the state plan for those hospitals not under contract with the state pursuant to Article 2.6 (commencing with Section 14081), provided that the state plan is subsequently amended to reflect the method of reimbursement.

(d) This section shall not be construed as prohibiting

reimbursement for any bone marrow transplants otherwise provided for under this chapter.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent potential reductions in federal financial participation under the Medi-Cal program, it is necessary that this act go into immediate effect.

CHAPTER 409

An act to amend Section 8152 of the Fish and Game Code, relating to sardines.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

SECTION 1. Section 8152 of the Fish and Game Code is amended to read:

8152. (a) In addition to any other provision of this article, 150 tons of sardines may be taken and possessed for live bait purposes during any calendar year. (c) The permit may be revoked or suspended by the commission, when requested by the department, for noncompliance with subdivision (b) or upon a conviction for a violation of this article.

(d) If 150 tons of sardines are taken for live bait purposes under this section, sardines may continue to be taken for live bait purposes, as provided for in Sections 8150.5 and 8151.

(e) This section shall become inoperative on July 1, 1988, and, as of January 1, 1989, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1989, deletes or extends the dates on which it becomes inoperative and is repealed.

(c) "Dispensing unit," as used in this section, means a stationary liquefied petroleum gas installation, other than a bulk plant, from which a product is dispensed, for final utilization, into mobile fuel tanks or portable cylinders.

any order, permit, rule, or regulation of the state board or of a district, including a district hearing board, adopted pursuant to Part 1 (commencing with Section 39000) to Part 4 (commencing with Section 41500), inclusive, is guilty of a misdemeanor and is subject to a fine not to exceed one thousand dollars ($1,000), or imprisonment in the county jail for a period not to exceed six months, or both.

(b) Every day during any portion of which the violation occurs constitutes a separate offense.

(c) If a violation under subdivision (a) with regard to the failure to operate a vapor recovery system on a gasoline cargo tank is directly caused by the actions of an employee under the supervision of, or of any independent contractor working for, any person subject to this part, the employee or independent contractor, as the case may be, causing the violation is guilty of a misdemeanor. The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares:

(1) That it is vital that the people of California be informed and advised about the roots of hatred, bigotry, and prejudice, which have so adversely affected the lives and well-being of so many human beings, through such mass murder as the Armenian Genocide and the Nazi Holocaust and other genocides, and the continuing discrimination against racial minorities in our own country, all in order that these inhumanities cease.

(2) That the Simon Wiesenthal Center's new Museum of Tolerance, which is under construction and scheduled for occupancy in 1986, will be the only museum of its kind in the world explicitly intended and designed to explore the issues and roots of prejudice, tolerance and intolerance, aggression, bigotry, and anti-Semitism (including the Holocaust) through a computer-based installation in a museum context, all in a way that seeks to challenge the visitor's notions about himself or herself and society through a carefully programmed learning experience.

(3) That this museum and the exhibits contained therein will serve a statewide public purpose by informing the public of the devastating consequences to society as a whole, with respect to both present and future generations, as a result of prejudice against a segment of that society, and the root causes thereof.

(b) It is the intent of the Legislature that:

(1) The museum shall be operated for a general public educational purpose, and in a nonsectarian, nonreligious manner.

(2) The Board of Trustees of the Simon Wiesenthal Center of Los Angeles shall convene a broad-based Museum Advisory Committee, representing business, community groups, educational institutions, the Legislature, and the Governor. The advisory committee shall review the exhibits and activities of the museum and advise the board thereon.

(3) One member of the advisory committee shall be appointed by the Speaker of the Assembly, and one member of the advisory committee shall be appointed by the Senate Rules Committee.

SEC. 2. (a) The sum of five million dollars ($5,000,000) is hereby appropriated. without regard to fiscal years, from the General Fund to the Controller for allocation to the Simon Wiesenthal Center of Los Angeles for purposes of building the Simon Wiesenthal Center's new Museum of Tolerance and acquiring therefor exhibits relating to man's inhumanity to man, past and present.

(b) The funds appropriated by subdivision (a) shall not be encumbered unless the State of California and the Simon Wiesenthal Center of Los Angeles execute an agreement, which shall provide that:

(1) By January 1, 1987, the Simon Wiesenthal Center of Los

Angeles shall raise, and encumber, at least five million dollars ($5,000,000) of funds from private sources, for the purposes indicated in subdivision (a).

(2) If the condition set forth in paragraph (1) is not met, any portion of the funds appropriated by subdivision (a) which has not been matched dollar-for-dollar by private funds raised and encumbered by the Simon Wiesenthal Center of Los Angeles in accordance with paragraph (1), shall be a loan from the State of California to the Simon Wiesenthal Center of Los Angeles. This loan shall be repaid in full on or before January 1, 1988, with interest thereon to be calculated at the same rate earned by moneys in the Pooled Money Investment Account.

SEC. 3. The Simon Wiesenthal Center of Los Angeles shall submit a report on the status of the funding arrangement of the new Museum of Tolerance to the Chairperson of the Joint Legislative Budget Committee and the chairpersons of the legislative fiscal committees on or before March 1, 1987.

CHAPTER 418

An act to amend Sections 21093 and 21094 of the Public Resources Code, relating to environmental quality.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 21093 of the Public Resources Code is amended to read:

21093. (a) The Legislature finds and declares that tiering of environmental impact reports will promote construction of needed housing and other development projects by (1) streamlining regulatory procedures, (2) avoiding repetitive discussions of the same issues in successive environmental impact reports, and (3) ensuring that environmental impact reports prepared for later projects which are consistent with a previously approved policy, plan, program, or ordinance concentrate upon environmental effects which may be mitigated or avoided in connection with the decision on each later project. The Legislature further finds and declares that tiering is appropriate when it helps a public agency to focus upon the issues ripe for decision at each level of environmental review and in order to exclude duplicative analysis of environmental effects examined in previous environmental impact reports.

(b) To achieve this purpose, environmental impact reports shall be tiered whenever feasible, as determined by the lead agency.

SEC. 2. Section 21094 of the Public Resources Code is amended to read:

21094. (a) Where a prior environmental impact report has been prepared and certified for a program, plan, policy, or ordinance, the lead agency for a later project that meets the requirements of this section shall examine significant effects of the later project upon the environment by using a tiered environmental impact report, except that the report on the later project need not examine those effects

which the lead agency determines were either (1) mitigated or avoided pursuant to subdivision (a) of Section 21081 as a result of the prior environmental impact report, or (2) examined at a sufficient level of detail in the prior environmental impact report to enable those effects to be mitigated or avoided by site specific revisions, the imposition of conditions, or by other means in connection with the approval of the later project.

(b) This section applies only to a later project which the lead agency determines (1) is consistent with the program, plan, policy, or ordinance for which an environmental impact report has been prepared and certified, (2) is consistent with applicable local land use plans and zoning of the city, county, or city and county in which the later project would be located, and (3) is not subject to Section 21166.

(c) For purposes of compliance with this section, an initial study shall be prepared to assist the lead agency in making the determinations required by this section. The initial study shall analyze whether the later project may cause significant effects on the environment that were not examined in the prior environmental impact report.

(d) All public agencies which propose to carry out or approve the later project may utilize the prior environmental impact report and the environmental impact report on the later project to fulfill the requirements of Section 21081.

(e) When tiering is used pursuant to this section, an environmental impact report prepared for a later project shall refer to the prior environmental impact report and state where a copy of the prior environmental impact report may be examined.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

CHAPTER 419

An act to amend Sections 4351, 4700, 4700.9, and 4800.7 of the Civil Code, relating to family law.

SEC. 2. Section 4700 of the Civil Code is amended to read:

4700. (a) In any proceeding where there is at issue the support of a minor child or a child for whom support is authorized under Section 206, the court may order either or both parents to pay any amount necessary for the support, maintenance, and education of the child. At the request of either party, the court shall make appropriate findings with respect to the circumstances on which the order for the support of a minor child is based. Upon a showing of good cause, the court may order the parent or parents required to make the payment of support to give reasonable security therefor. All payments of support shall be made by the person owing the support payment prior to the payment of any debts owing to creditors. Any order for child support may be modified or revoked as the court may deem necessary, except as to any amount that may have accrued prior to the date of the filing of the notice of motion or order to show cause to modify or revoke. The order of modification or revocation may be made retroactive to the date of the filing of the notice of motion or order to show cause to modify or revoke, or to any date subsequent thereto. The order of modification or revocation may include an award of attorney fees and court costs to the prevailing party.

(b) When a court orders a person to make specified payments for support of a child during the child's minority, or until the child is married or otherwise emancipated, or until the death of, or the occurrence of a specified event as to, a child for whom support is authorized under Section 206, the liability of the person ordered to pay support terminates upon the happening of the contingency. If the custodial parent or other person having physical custody of the child, to whom payments are to be made, fails to notify the person ordered to make such payments, or the attorney of record of the person ordered to pay support, of the happening of the contingency, and continues to accept support payments, the person shall refund any and all moneys received which accrued after the happening of the contingency, except that the overpayments shall first be applied to any and all support payments which are then in default. The court may, in the original order for support, order the custodial parent or other person to whom payments are to be made to notify the person ordered to make the payments, or his or her attorney of record, of the happening of the contingency.

(c) In the event obligations for support of a child are discharged in bankruptcy, the court may make all proper orders for the support, maintenance and education of the child, as the court may deem just.

SEC. 3. Section 4700.9 of the Civil Code is amended to read:

4700.9. Notwithstanding any other provision of law, the court shall have the authority to approve a stipulated agreement by the parties to pay child support for the support of any adult children or for the continuation of child support after a child attains the age of 18. These child support orders shall be enforced in the same manner as any other award of child support, including, but not limited to, contempt.

SEC. 4. Section 4800.7 of the Civil Code is amended to read:

4800.7. (a) As used in this section, "family home award" means an order that awards temporary use of the family home to the party having custody of minor children and children for whom support is authorized under Section 206 in order to minimize the adverse impact of dissolution or legal separation on the welfare of the children.

(b) Except as otherwise agreed to by the parties in writing:

(1) A family home award may be modified or terminated at any time at the discretion of the court.

(2) If the party awarded the temporary use of the family home remarries, or there is otherwise a change in circumstances affecting the economic status of the parties or the children on which the award is based, a rebuttable presumption, affecting the burden of proof, is created that further delay in the sale of the family home and division of the proceeds of the sale is no longer an equitable method of minimizing the adverse impact of the dissolution or legal separation on the welfare of the children.

(c) The provisions of this section are applicable regardless of whether the family home award is made before or after January 1, 1985.

CHAPTER 420

An act to add Section 23509.2 to the Elections Code, and to repeal and add Chapter 9 (commencing with Section 13625) of Division 7 of the Water Code, relating to water, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

23509.2. (a) Notwithstanding any other provision of law, the governing board of the Marina County Water District in the County of Monterey may adopt a resolution requiring its general district election to be held on the same day as the statewide direct primary

(b) If an election is held pursuant to subdivision (a), and the election is consolidated with another election, the provisions contained in Part 2.5 (commencing with Section 23300) shall govern the consolidation, and, if the county clerk is requested to conduct the election, Section 22003 shall apply to that election.

(c) If, pursuant to subdivision (a), a general district election is held on the same day as a statewide election, those officers whose four-year terms of office would have, prior to the adoption of the resolution, expired on the last Friday in November following the general district election in an odd-numbered year shall, instead, either continue in their offices until no later than the fourth Tuesday after the day of the general district election or, at the option of the governing board, cease to hold office prior to the expiration of their four-year term and upon the qualification of their successors at the time prescribed by the governing board.

SEC. 2. Chapter 9 (commencing with Section 13625) of Division 7 of the Water Code is repealed.

SEC. 3. Chapter 9 (commencing with Section 13625) is added to Division 7 of the Water Code, to read:

13627. (a) Supervisors and operators of municipal or private utility waste water treatment plants shall possess a certificate of

appropriate grade in accordance with, and to the extent recommended by the advisory committee and required by, regulations adopted by the state board. The state board shall develop and specify in its regulations the training necessary to qualify a supervisor or operator for certification for each type and class of plant. The state board may accept experience in lieu of qualification training. In lieu of a properly certified waste water treatment plant operator, the state board may approve use of a water treatment plant operator of appropriate grade certified by the State Department of Health Services, where water reclamation is involved.

(b) A person employed as a municipal or private utility waste water treatment plant supervisor or operator on the effective date of regulations adopted pursuant to this chapter shall be issued an appropriate certificate if the person meets the training, education, and experience requirements prescribed by regulations.

(c) The state board may refuse to grant, suspend, or revoke any certificate issued by the state board to operate a municipal or private utility waste water treatment plant, or may place on probation, or reprimand, the certificate holder upon any reasonable ground, including, but not limited to, all of the following reasons:

(d) The state board shall conduct all proceedings for the refusal to grant a certificate, and suspension or revocation of a certificate, pursuant to subdivision (c), in accordance with the rules adopted pursuant to Section 185.

13628. Certificates issued pursuant to this chapter shall be renewed biennially, subject to compliance by applicants with renewal requirements prescribed by regulations. Fees shall be payable to the state board at the time of issuance of a certificate and at the time of renewal. The state board shall establish a fee schedule to provide revenues to cover the cost of this program.

13629. The state board may approve courses of instruction at higher educational institutions which will qualify operators for each grade of certification. The state board shall also approve courses of instruction given by professional associations, or other nonprofit private or public agencies which shall be deemed equivalent to courses of instruction given by higher educational institutions.

13630. The state board is the state agency which is authorized to represent the state and its local governmental agencies in administering any federal or state funds available for municipal or private utility waste water treatment plant operator training. The state board may provide technical and financial assistance to organizations providing operator training programs.

13631. Prior to adopting or amending any regulations or approving any courses for operator training, the state board shall appoint an advisory committee to assist it in carrying out its responsibilities under this chapter.

SEC. 4. SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to allow the Marina County Water District to consolidate its elections with the statewide elections so that the district need not hold a district election in 1985, and to require supervisors and operators of private utility waste water treatment plants to possess certificates of competency as soon as possible, it is necessary that this act take effect immediately.

CHAPTER 423

An act to add and repeal Title 6.8 (commencing with Section 13980) to Part 4 of the Penal Code, relating to narcotics, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Title 6.8 (commencing with Section 13980) is added to Part 4 of the Penal Code, to read:

TITLE 6.8. TARGETED URBAN CRIME NARCOTICS TASK FORCE

13980. The Legislature makes the following findings and declarations:

(a) There exists a serious narcotics crime enforcement problem affecting urban areas throughout the state.

(b) These crimes indicate a complex level of planning and execution and are perpetuated and aided by the inability of the overall criminal justice system to respond effectively.

(c) There is currently no program funded specifically to promote

the interagency coordination and response necessary to effectively mitigate and prevent these crimes.

(d) There exists a need for local government jurisdictions to acquire, establish, and practice to the fullest extent possible law enforcement and prosecution techniques that would effectively discourage the commission of these crimes.

(e) The Legislature intends to support a pilot program to test and establish effective organizational and operational techniques that will have statewide application in the prevention, enforcement, and prosecution of these crimes.

(f) The Legislature finds that Alameda County is uniquely situated for this pilot program because of increasing patterns of violent drug gang activities in the urban areas of Oakland and Berkeley. In the last two years, 62 drug-related homicides have occurred in Oakland, including two police officers. The courts have been severely impacted and there are 450 felony drug cases awaiting preliminary hearing and 250 pending felony drug trials in the Alameda County Superior Court.

13981. There shall be two-year pilot project, operative only in Alameda County, which shall be known as the Targeted Urban Crime Narcotics Task Force. The Task Force shall consist of at least nine representatives from local governmental agencies including, but not limited to, representatives from the district attorney, superior and municipal courts, county probation department, public defender, sheriff, and local, state, and federal law enforcement agencies. The Alameda County Board of Supervisors shall be the appointing authority.

13982. All moneys provided for the project shall be administered by the Office of Criminal Justice Planning. The office shall monitor the progress of the project and report to the Legislature on or before July 1, 1987, on the project's impact.

13983. (a) The goal of this project is to discourage the commission of narcotics crimes by demonstrating the effective response of the criminal justice system to narcotics violations, including, but not limited to, violations of Sections 11350, 11351, 11352, 11378, 11378.5, 11379, and 11379.5 of the Health and Safety Code.

(b) The pilot project shall have the following objectives:

(1) To reduce the elapsed time between arrest and trial in narcotics cases.

(2) To reduce the number of narcotics crimes committed by defendants while awaiting trial.

(3) To increase the enforcement of restrictive conditions of own recognizance release and bail, and to increase the enforcement of court-ordered conditions of probation, for perpetrators of narcotics crimes.

(4) To reduce the violence and other related crimes associated with narcotics crimes.

(5) To increase the number of trials and convictions in narcotics

crime cases in both municipal and superior courts.

(6) To demonstrate the effectiveness of utilizing temporary, targeted personnel to process narcotics crimes court caseloads.

(7) To establish narcotics crimes prevention, enforcement, and prosecution techniques with statewide application.

(8) To increase the awareness, focus, and commitment of time of participating agency personnel in the area of narcotics crimes.

(9) To establish an organizational base that will provide the nucleus for effective criminal justice system response to narcotics crimes.

13984. The Office of Criminal Justice Planning shall submit an annual report to the Legislature regarding the specific achievements of the program. The report shall include a program evaluation, financial statement, and general comments. A statewide analysis and needs assessment shall be part of the report. The annual report shall be due on the first and second anniversary dates of the effective date of the program.

13985. This title shall become inoperative on October 1, 1987, and, as of January 1, 1988, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1988, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 2. (a) The sum of four million dollars ($4,000,000) is hereby appropriated from the General Fund to the Office of Criminal Justice Planning for the purposes of this act, as follows:

(1) Two million dollars ($2,000,000) to be appropriated on the effective date of this act.

(2) Two million dollars ($2,000,000) to be appropriated one year from the effective date of this act.

(b) The funds appropriated by this section shall be available for expenditure without regard to fiscal years.

(c) The Office of Criminal Justice Planning shall not allocate any portion of those funds unless Alameda County has filed with the office a plan to expend the funds.

(d) The Office of Criminal Justice Planning shall not allocate any portion of the funds appropriated by this section unless Alameda County agrees to provide 25 percent local matching funds.

SEC 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to reduce and punish the widespread and voluminous narcotics crimes violations which adversely affect the general health, welfare, and safety of urban communities and to continue effective enforcement and prosecution efforts at the earliest possible time, it is necessary that this act go into immediate effect

CHAPTER 424

(a) That the applicant is 18 years of age.

(b) That the applicant has done either of the following:

(1) Graduated from a college of pharmacy or department of pharmacy of a university recognized by the board.

(2) If the applicant was a nonresident of the United States for at least five of the 10 years prior to enrollment in a foreign pharmacy school, and the applicant has graduated from a foreign pharmacy school that the applicant has done either of the following:

(A) The applicant has successfully completed, in the foreign pharmacy school or by a combination of coursework in the foreign pharmacy school and a college of pharmacy or department of pharmacy of a university recognized by the board, the courses established by the board as being equivalent to those required for domestic graduates.

(d) That the applicant has earned at least a baccalaureate degree in a course of study devoted to the practice of pharmacy.

(e) That the applicant has had 1,500 hours of practical experience in accordance with regulations adopted by the board.

(f) That the applicant has passed a written and practical examination given by the board.

CHAPTER 425

An act to amend Sections 14018, 14018.2, and 14133.1 of, and to add Section 14133.15 to, the Welfare and Institutions Code, relating to medical assistance.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 14018 of the Welfare and Institutions Code is amended to read:

14018. The Medi-Cal card shall be authorization for payment for health care services rendered, during and subsequent to the month of application of a person eligible under Section 14005.1, or a person eligible under Section 14005.4 or 14005.7 who is certified by the department.

The Medi-Cal card shall be signed and dated in the space provided on the card by the beneficiary upon receipt of the card and prior to presentation of the card for any service. This provision shall not apply to:

(a) Persons 17 years of age and under.

(b) Persons in long-term care.

SEC. 2. Section 14018.2 of the Welfare and Institutions Code is amended to read:

14018.2. (a) Reimbursement shall not be denied to any qualified health care provider for care rendered to an eligible Medi-Cal beneficiary for the sole reason that a proof of eligibility label does not accompany the bill.

Proof of eligibility labels may, however, continue to be used as such and shall be made available to an eligible Medi-Cal beneficiary through the local office which has determined the person's eligibility or through the department. The provider may submit machine-reproduced copies of the beneficiary Medi-Cal card for billing purposes as long as the copy is made from the original unaltered Medi-Cal card under circumstances controlled by the provider, for example, on the premises of the provider with copying equipment controlled by the provider.

(b) It shall remain the responsibility of a Medi-Cal beneficiary to provide information and evidence of Medi-Cal eligibility, restrictions on the eligibility, and non-Medi-Cal health coverage, to that person's health care providers, if this information is requested by those providers prior to rendering services to that beneficiary.

(c) It shall be the responsibility of the provider prior to rendering Medi-Cal reimbursable services to persons presenting themselves as Medi-Cal beneficiaries to make a good faith effort to verify the person's identity, if the person is not known to the provider, by matching the name and signature on his or her Medi-Cal card against

the signature on a valid California driver's license, or California identification card issued by the Department of Motor Vehicles, or another type of picture identification card or other credible document of identification. When the provider verifies the beneficiary's identity with a signed Medi-Cal card and one of the documents described above, the state will deem this to be a good faith effort. If the provider does not make a good faith effort of reasonable identification prior to rendering Medi-Cal reimbursable services and renders services to a presenting person who is ineligible for those Medi-Cal services, payment for those services may later be disallowed.

This provision shall not apply to:

(1) Persons 17 years of age and under.

(2) Persons in long-term care.

(3) Persons receiving emergency services.

(d) Notwithstanding subdivision (b) of this section, county welfare departments may provide Medi-Cal eligibility information to other governmental agencies and their designated agents as necessary for proper administration of the Medi-Cal program.

SEC. 3. Section 14133.1 of the Welfare and Institutions Code is amended to read:

14133.1. (a) The director shall determine which of the utilization controls in Section 14133 shall be applied to any specific service or group of services which are subject to utilization controls Each utilization control shall be reasonably related to the purpose for which it is imposed.

(b) Except as provided in Sections 14103.6 and 14133.15, neither prior authorization nor the limitation specified in subdivision (d) of Section 14133 shall be required for the first two services per month which are included among the services listed in subdivision (a) of Section 14132, or for the first two drug prescriptions purchased during any one month, provided that the prescription drugs are included in the Medi-Cal Drug Formulary and the prescription otherwise conforms to applicable formulary requirements.

(c) The director shall, after a determination of cost benefit, eliminate the requirement of prior authorization as a control for treatment, supplies, or equipment which cost less than one hundred dollars ($100), except for prescribed drugs, provided that the requirement of prior authorization for treatment, supplies, or equipment costing less than one hundred dollars ($100) may be reinstituted upon a finding by the department that the elimination of the requirement has resulted in unnecessary utilization, and upon notice to the Joint Legislative Budget Committee 30 days prior to the reinstitution of the requirement of prior authorization.

SEC. 4. Section 14133.15 is added to the Welfare and Institutions Code, to read:

14133.15. (a) The provision of services to beneficiaries eligible for medical assistance benefits may be subject to utilization controls, as provided for in Section 50793 of Title 22 of the California

Administrative Code as the section existed on January 1, 1984, when the director finds that the utilization controls are necessary to carry out the provisions of this chapter.

(b) Where the director determines that a recipient has been abusing drugs or services, the recipient may, in order to prevent his or her abuse, be placed on utilization controls for a maximum period of two years, which may be extended for an additional period upon a determination by the director that the potential for abuse still exists after notice and hearing, as set forth in subdivisions (f) and (g).

(c) If the director determines that a recipient has violated utilization controls placed upon that recipient pursuant to subdivision (b), the director may provide that the recipient shall receive medical assistance benefits referred, ordered, or prescribed through only one primary care provider of services for a maximum period of two years, which may be extended for an additional period upon a determination by the director that the potential for abuse still exists after notice and hearing, as set forth in subdivisions (f) and (g). The director shall afford the beneficiary an opportunity to nominate a primary care provider for department consideration. Circumvention of beneficiary utilization controls includes, but is not limited to, the following acts:

(1) Altering restricted Medi-Cal identification cards.

(2) Obtaining temporary nonrestricted cards.

(3) Establishing an additional nonrestricted eligibility status.

(1) Forging prescriptions.
(2) Sale or lending of Medi-Cal identification cards.

The proceedings for restriction shall be conducted in accordance with Chapter 7 (commencing with Section 10950) of Part 2, or any rule or regulation promulgated by the director pursuant to this section.

(h) The imposition of restrictions, pursuant to this section, with respect to the eligibility of any individual shall not affect the eligibility of any other person for medical assistance benefits under this program, regardless of the relationship between that individual and the other person.

The people of the State of California do enact as follows:

SECTION 1. Section 19995.35 is added to the Government Code immediately following Section 19995.3, to read:

19995.35. Each state department shall report to the Department of Personnel Administration by no later than July 1, 1986, on its level of compliance with the Injured State Worker Assistance Program guidelines issued by the Department of Personnel Administration. The reports shall detail how the program has been implemented, whether or not and in what fashion return-to-work coordinators have fulfilled their responsibilities, whether or not Return to Work Councils have been formed, how they are composed, how often they have met, and whether or not the return-to-work coordinator has been informed on a timely basis of all vacant positions in the department. Each department shall report: the number of employees disabled in the reporting period; the kind of disablement (job or nonjob); the number who were provided information and counseling in person by a vocational rehabilitation counselor or other appropriate specialist; the number of disabled employees provided with reasonable accommodations or special equipment or both; the number retrained for a new position and the number successfully

returned to work at the same or some other position, either within the department or in some other state agency; the number who were eligible for and accepted disability retirement within the reporting period; the number eligible for temporary disability benefits (job or nonjob) who left employment and engaged in retraining and rehabilitation, if that information can be obtained.

Each department shall provide, if possible, and by mail if necessary, each employee engaged in a rehabilitation program or a retraining program, within the last 12 months with a copy of this section and the opportunity to comment on the level of effective retraining and rehabilitation provided by the department. Representative samples of disabled employee comment shall be included in the report.

The Department of Personnel Administration shall coordinate departmental responses to this section, to assess the relative success of the program on a department-by-department basis, and make recommendations to the Legislature by December 2, 1986, on how the state can more successfully return to productive work in state service individual state workers who suffer job and nonjob-related disabilities, avoiding the General Fund costs of disability retirement, and the human costs of wasted lives. The Department of Personnel Administration shall also recommend whether legislation giving a revised Injured State Worker Assistance Program statutory status is advisable.

SEC. 2. Section 20140.1 is added to the Government Code, to read.

20140.1. In addition to any other reports that it may be required to make by law, the board shall annually file, commencing January 1, 1987, a separate report to the Legislature and each appointing power and other appointing authority on the number of new state retirees, by individual state employer, that are processed in the immediately preceding fiscal year to the service, disability, and industrial disability retirement rolls and on the incurred cost of the system for state members for the immediately preceding three fiscal years, provided, that only experience in a fiscal year which commences on or after the effective date of this section shall be included in the report.

As used in this section, "incurred cost" means all paid and expected future cost of an industrial disability retirement. There shall be deducted from the gross incurred cost the amount of service time accrued by an employee.

SEC. 3. There is hereby appropriated from the Public Employees' Retirement Fund to the Public Employees' Retirement System the sum of forty-three thousand dollars ($43,000) for expenditure for the implementation of Section 2 of this act.

CHAPTER 430

An act to amend Sections 4007 and 4024.2 of the Penal Code, relating to prisoners.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 4007 of the Penal Code is amended to read:

4007. When there is no jail in the county, or when the jail becomes unfit or unsafe for the confinement of prisoners, the judge of the superior court may, by a written order filed with the county clerk, designate the jail of a contiguous county for the confinement of the prisoners of his county, or of any of them, and may at any time modify or vacate such order.

When there are any reasonable grounds to believe that a prisoner may be forcibly removed from a county jail the sheriff may remove such prisoner to any California state prison for safekeeping and it is hereby made the duty of the warden of such prison to accept and detain such prisoner in his custody until his removal is ordered by the superior court of the county from which he was delivered. Immediately upon receiving such prisoner the warden shall advise the Director of Corrections of that fact in writing.

When a county prisoner requires medical treatment necessitating hospitalization which cannot be provided at the county jail or county hospital because of lack of adequate detention facilities, and when, because of his past or present behavior, such prisoner presents a serious custodial problem, with the consent of the Director of Corrections, the judge of the superior court may, upon request of the county sheriff, by a written order filed with the county clerk, designate, for the confinement of such prisoner, the nearest prison or correctional facility of this state which would be able to provide the necessary medical treatment and secure confinement of such prisoner, and may at any time modify or vacate such order. The rate of compensation for such medical treatment and confinement within a California state prison or correctional facility shall be established by the Department of Corrections of this state and shall be a charge against the county making the request for such treatment and confinement.

When there are any reasonable grounds to believe that there is a prisoner in a county jail who is likely to be a threat to other persons in the facility or is likely to cause substantial damage to the facility, with the consent of the Director of Corrections, the judge of the superior court may, upon the request of the county sheriff, by written order filed with the county clerk, designate for the confinement of that person the nearest state prison or correctional facility of the state which would, subject to space available, be able

to secure confinement of that prisoner. The court shall immediately calendar the matter for a hearing to determine if the order shall continue or be rescinded. The hearing shall be held within 48 hours of the initial order or the next judicial day, whichever occurs later. At the hearing, the prisoner shall be entitled to be present and to be represented by counsel. The court may at any time modify or vacate that order. The rate of compensation for that confinement within a California state prison or correctional facility shall be established by the Department of Corrections and shall be a charge against the county making the request for the confinement.

SEC. 2. Section 4024.2 of the Penal Code is amended to read:

4024.2. (a) Notwithstanding any other provision of law, the board of supervisors of any county may authorize the sheriff or other official in charge of county correctional facilities to offer a voluntary program under which any person committed to such facility may perform a minimum of 8 and a maximum of 10 hours of labor on the public works or ways in lieu of one day of confinement under the direction of a responsible person appointed by the sheriff or other official in charge. The hours of labor to be performed pursuant to this section shall be uniform for all persons committed to such facilities in a county and may be determined by the sheriff or other official in charge of county correctional facilities, within the minimum and maximum herein set forth, in accordance with the normal working hours of county employees assigned to supervise the labor of such persons.

As used in this section "labor on the public works and ways" means manual labor to improve or maintain public facilities, including but not limited to, streets, parks, and schools.

(b) The board of supervisors may prescribe reasonable rules and regulations under which such labor is to be performed and may provide that such persons wear clothing of a distinctive character while performing such work. As a condition of participating in a work release program, a person shall give his or her promise to appear for work by signing a notice to appear before the sheriff at a time and place specified in the notice and shall sign an agreement that the sheriff may immediately retake such person into custody to serve the balance of his or her sentence if such person fails to appear for work at the time and place agreed to, does not perform the work assigned, or for any other reason is no longer a fit subject for release under this section. A copy of the notice shall be delivered to the person and a copy shall be retained by the sheriff. Any person who willfully violates his or her written promise to appear at the time and place specified in the notice is guilty of a misdemeanor.

Whenever a peace officer has reasonable cause to believe the person has failed to appear at the time and place specified in the notice or fails to appear or work at the time and place agreed to or has failed to perform the work assigned, the peace officer may, without a warrant, retake the person into custody, or the court may issue an arrest warrant for the retaking of the person into custody,

to complete the remainder of the original sentence. A peace officer may not retake a person into custody under this subdivision, without a warrant for arrest, unless the officer has a written order to do so, signed by the sheriff or other person in charge of the program, which describes with particularity the person to be retaken.

(c) Nothing in this section shall be construed to require the sheriff or other such official to assign labor to a person pursuant to this section if it appears from the record that such person has refused to satisfactorily perform labor as assigned or has not satisfactorily complied with the reasonable rules and regulations governing such assignment or any other order of the court.

A person shall be eligible for work release under this section only if the sheriff or other official in charge concludes that such person is a fit subject therefor.

(d) If the court sentences the defendant to a period of confinement of 15 days or more, it may restrict or deny his or her eligibility for the work release program.

(e) The board of supervisors may prescribe a program administrative fee, not to exceed the pro rata cost of administration, to be paid by each such person according to his or her ability to pay.

(f) This section shall remain in effect until January 1, 1990, and on that date is repealed.

CHAPTER 436

An act to amend Sections 8609, 8610, 8664.8, and 8696 of the Fish and Game Code, relating to fish nets, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 30, 1985. Filed with Secretary of State July 30, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 8609 of the Fish and Game Code is amended to read:

8609. (a) The Legislature finds and declares that:

(1) The central California nearshore gill and trammel net fisheries for California halibut (Paralichthys californicus) and white croaker (Genyonemus lineatus) and the use of gill nets in these fisheries are expanding at a rapid rate.

(2) The incidental take of certain species of seabirds and marine

mammals in set gill and trammel nets could be increasing to a level which may be adversely impacting the viability of such populations of nontarget species.

(b) The department shall conduct a study of all of the following:

(1) The effects on local populations of seabirds and marine mammals of the use of gill and trammel nets in the central California halibut, rockfish, and white croaker fishery.

(2) The effects of monofilament gill nets in comparison with nets constructed from other materials and make recommendations with respect to the continued use of monofilament gill nets or modifications of those nets.

(3) The extent, if any, of the incidental take of salmon or striped bass in gill and trammel nets in Districts 10 and 17.

(4) The feasibility of a monitoring program to allow the department to provide a prompt response to the migration of seabird and marine mammal populations by closing and opening areas to gill and trammel net fishing to allow the maximum protection possible to large seabird and marine mammal populations and to allow the greatest area possible for the use of gill and trammel nets, and the department recommendations as to personnel and budget requirements of such a monitoring program.

(5) The total number of gill and trammel net fishermen operating in Districts 10 and 17 involved in the take of halibut, rockfish, and croaker, together with its recommendations for the optimum number of permits that should be allowed and whether, and in what form, the number of permits should be limited, including provisions for new entrants.

(c) The department shall report its findings to the Legislature on or before January 1, 1987, except for the report on permits which shall be made on or before June 1, 1986.

(d) The provisions of this section are intended as interim measures until the report by the department to the Legislature is made and are specific to the set gill and trammel net fisheries of Districts 10 and 17 only.

SEC. 2. Section 8610 of the Fish and Game Code is amended to read:

8610. (a) Notwithstanding Sections 8693, 8696, and 8724, no person shall use set gill or trammel nets in District 10 or 17 or that portion of District 18 north of a line extending due west magnetic from Pfeiffer Point in Monterey County, except for those individuals issued a nontransferable special permit.

(b) An individual qualifying for and issued a special permit pursuant to this section shall be designated on the permit as the principal permittee.

(c) At the time the principal permittee applies for and is issued the special permit, he or she may designate on the special permit the names of up to three co-permittees, each of whom shall satisfy all of the following conditions:

(1) Possesses a valid general gill and trammel net permit.

(2) Demonstrates to the department that a formal partnership existed, prior to 90 days following the effective date of the act amending this section enacted in the 1985 portion of the 1985–86 Regular Session of the Legislature, between the principal permittee and the co-permittee or co-permittees. Each individual in the partnership shall hold at least a 10 percent interest in the partnership by investment in any combination of the following:

(A) A currently registered commercial fishing vessel.

(B) The net reel and hydraulics used to recover gill or trammel nets aboard that vessel.

(C) The gill or trammel nets used aboard that vessel.

(D) The engine used to propel that vessel.

(E) The labor to prepare the vessel for fishing gill and trammel nets.

Verification of the partnership shall be by notarized agreement. Verification shall be supported by signed and dated receipts or purchase vouchers for equipment, and vessel registration certificates issued by the state or federal government.

(d) A principal permittee shall not be designated as a co-permittee on any special permit. A co-permittee shall be so designated on only one special permit at any one time.

(e) A co-permittee may become the principal permittee only if he or she meets all of the folowing conditions:

(1) The principal permittee dies or notifies the department that he or she otherwise relinquishes his or her interest in the special permit.

(2) The co-permittee is designated as an owner or operator of a vessel based on vessel registration information furnished to the department pursuant to subdivision (d) of Section 7884.

(3) The person possesses a valid general gill and trammel net permit.

(4) The co-permittee was designated as a co-permittee prior to April 1, 1986.

(5) The annual landing or notice of intent requirements of paragraph (3) of subdivision (h) have been met for the permit.

(f) A co-permittee, when in possession of a valid special permit upon which he or she is so designated, may conduct fishing operations without the principal permittee or other co-permittees present.

(g) Until March 31, 1986, a special permit shall be issued by the department, upon application, to any person who, prior to the effective date of the act amending this section enacted in the 1985 portion of the 1985–86 Regular Session of the Legislature, possessed a valid special permit; or to any person who meets the qualifications of paragraphs (1) and (2) and either paragraph (3) or (4), as follows:

(1) The person is designated as an owner or operator of a vessel on registration information furnished to the department pursuant to subdivision (d) of Section 7884.

(2) The person possesses a valid general gill and trammel net

permit.

(3) The person has made one or more deliveries of halibut, flounder, croaker, or rockfish, or any combination thereof, which were taken with set gill or trammel nets in District 10 or 17, or that portion of District 18 north of Pfeiffer Point in Monterey County, or any combination thereof, including Department of Fish and Game catch block numbers 539 and 540, during the period between January 1, 1982, and September 13, 1984. Proof of the taking under this paragraph may be made by receipts issued pursuant to Section 8014 during that time period, or by logbook entries required pursuant to Section 8681 of this code and Section 174 of Title 14 of the California Administrative Code.

(4) Both of the following: (A) The person made a total investment of not less than two thousand dollars ($2,000), with at least one thousand dollars ($1,000) of that amount having been for a net of not less than 2¾ inch mesh, a reel used for recovery of such a net, or both the net and the reel, or a boat, net, and reel or combination of such equipment. If the investment for the above equipment is less than $2,000, the remainder of the investment shall have been for hydraulic equipment to operate the net reel, shipyard fees, including cost of materials and installation of marine plywood, fiberglass, marine hardware, anchors, chain, and marine electronic navigation and radio equipment, which were purchased after April 1, 1983, and before September 13, 1984, for use in the halibut, rockfish, or croaker fisheries in District 10 or 17 or that portion of District 18 north of Pfeiffer Point in Monterey County. The investment in a net reel shall be substantiated by receipts or invoices for that equipment and by matching cancelled bank checks or drafts, or through documents produced through direct contact with manufacturers or suppliers of materials and labor.

(B) The person made a landing of fish other than shark, swordfish, sole, opah, albacore, Pacific bonito, sablefish, herring, salmon, Pacific mackeral, shrimp, crab, or squid in 1983 or before September 13, 1984, which were taken in District 10 or 17 or that portion of District 18 north of Pfeiffer Point in Monterey County.

(h) After March 31, 1986, and except as provided in subdivision (i), the special permit shall be issued by the department, upon application, to any person who meets all of the following requirements:

(1) Possesses a valid general gill and trammel net permit.

(2) Was issued a valid special permit during the previous permit year (April 1 through March 31).

(3) Either of the following: (A) Landed at least 500 pounds of halibut, or at least 1,000 pounds of croaker, or at least 2,000 pounds of rockfish, or at least 500 pounds of shark, or at least 2,000 pounds of any combination of the above species, which were taken under authority of the permit during the previous permit year. Only landings which can be verified by landing receipts submitted to the department pursuant to Section 8011 shall be used to determine

qualification for the permit.

(B) Declared, before the permit was issued and prior to June 1 of the previous permit year, that he or she did not intend to use the special permit in that permit year, but declared his or her intent to fish and landed at least 2,500 pounds, or $2,500 worth of fish ex-vessel value in that permit year. These landings shall be verified at the time of application for the special permit in the current permit year. Verification of landings or value for purposes of this section, made at ports other than in California, shall be by fish receipts acceptable to the agency having jurisdiction over fisheries in the state of landing. Only one declaration may be made pursuant to this subparagraph in any five consecutive years.

(i) After March 31, 1986, no special permits shall be issued under this subdivision by the department to a person who does not qualify for a special permit under subdivision (h) unless the total number of special permits issued under subdivision (h) is less than 135. The number of special permits issued under this subdivision shall not exceed the difference between 135 and the number of special permits issued under subdivision (h). The issuance of special permits under this subdivision, if the total number of special permits issued under subdivision (h) is less than 135, shall be based upon a random drawing of names of interested individuals who possessed a valid general gill and trammel net permit during two of the past three years.

(j) A special permit issued pursuant to this section is valid from April 1 of the year of issue to March 31 of the next succeeding year. The department may establish a fee for the special permit, which does not exceed one hundred fifty dollars ($150).

(k) The special permit issued pursuant to this section may be revoked or suspended by the department upon a conviction of a violation of any provision of Article 1 (commencing with Section 8601) or Article 5 (commencing with Section 8680) of Chapter 3, or violation of any condition of the special permit by the principal permittee, a co-permittee, permittee's agent, servant, employee, or person acting under the direction or control of the principal permittee or a co-permittee.

(*l*) Any person denied a special permit pursuant to this section may appeal to the director where evidence can be presented that illness or loss of vessel resulted in the person not meeting the qualifications for the special permit.

(m) It is the intent of the Legislature that paragraph (4) of subdivision (g), authorizing the department to directly verify investment expenditures through contact with manufacturers or suppliers of materials and labor, be limited to those instances where it can be reasonably determined that the person making the investment was unable to converse in the English language.

(n) This section shall become inoperative on April 1, 1989, and, as of January 1, 1990, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1990, deletes or extends the

date on which it becomes inoperative and is repealed.

SEC. 3. Section 8664.8 of the Fish and Game Code is amended to read:

8664.8. (a) Notwithstanding Sections 8687, 8696, and 8724, gill or trammel nets shall not be used, except as permitted in Section 8664.9, from May 1 through September 30 in the following ocean waters:

(1) In waters which are 25 fathoms or less in depth at mean lower low water along the south facing shoreline of the Point Reyes headlands between a line extending 270° magnetic from the west point and 105° magnetic from the east point of the Point Reyes headlands in Marin County.

(g) Gill and trammel nets used to take fish in District 10 shall be marked at each end with a buoy displaying above its waterline in Arabic numerals at least 2 inches high, the certificate of vessel registration number issued by the department under Section 7881 for the vessel from which the net is being used. Nets shall be marked at both ends and at least every 250 fathoms between the ends with flags of the same color and at least 144 square inches in size, acceptable to the department.

(h) This section shall remain in effect only until January 1, 1988, and as of that date is repealed unless a later enacted statute which is enacted before January 1, 1988, deletes or extends that date.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The sum of one million five hundred thousand dollars ($1,500,000) is hereby appropriated from the Special Account for Capital Outlay within the General Fund to the Business, Transportation and Housing Agency, without regard to fiscal years, to permit the State of California to participate in the 1986 World Exposition in Vancouver, British Columbia, Canada. The funds shall be used for the design, construction, and operation of a California Pavilion at the exposition. The pavilion shall be used primarily to showcase California's aerospace and communications industries. The Secretary of the Business, Transportation and Housing Agency is authorized to expend two hundred thousand dollars ($200,000) of this appropriation to contract for the first phases of design of a California exhibit. No additional expenditures from this appropriation are authorized until such time as the Secretary of the Business, Transportation and Housing Agency receives written commitments of private industry in-kind support, as determined by the secretary, or direct-dollar support for California's participation in a sum equal to at least one million five hundred thousand dollars ($1,500,000).

At such time that the in-kind support or the matching funds are committed, the Secretary of the Business, Transportation and Housing Agency is authorized to expend the remainder of this appropriation for the purpose of completing the design, construction, and operation of the California exhibit.

If the Secretary of the Business, Transportation and Housing Agency decides, for any reason, that the State of California will not participate in the 1986 World Exposition, or if the secretary is unable to secure written commitments of in-kind support or direct-dollar private sector matching funds, the remainder of the one million five hundred thousand dollar ($1,500,000) appropriation made pursuant to this section shall revert to the Special Account for Capital Outlay within the General Fund.

SEC. 2. The sum of one hundred thousand dollars ($100,000) is hereby appropriated from the General Fund to the California State World Trade Commission Fund to permit the State of California to participate in the 1985 Asia and Pacific International Trade Fair in Beijing, China. The funds shall be used to secure space within the United States Pavilion and to design, construct, and operate a California exhibit which will showcase California's advanced technologies.

If, for any reason, the California State World Trade Commission decides that the State of California will not participate in the 1985 Asia and Pacific International Trade Fair, moneys appropriated by this section shall revert to the General Fund.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the State of California may begin planning for its participation in the 1985 Asia and Pacific International Trade Fair in Beijing, China and the 1986 World Exposition in Vancouver, British Columbia, Canada, it is necessary that this act take effect immediately.

CHAPTER 439

An act to add Section 5412.6 to the Business and Professions Code, relating to outdoor advertising.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 31, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 5412.6 is added to the Business and Professions Code, to read:

5412.6. The requirement by a governmental entity that a lawfully erected display be removed as a condition or prerequisite for the issuance or continued effectiveness of a permit, license, or other approval for any use, structure, development, or activity other than a display constitutes a compelled removal requiring compensation under Section 5412, unless the permit, license, or approval is requested for the construction of a building or structure which cannot be built without physically removing the display.

CHAPTER 440

An act to amend Sections 319 and 361 of the Welfare and Institutions Code, relating to juvenile court law.

[Approved by Governor July 30, 1985 Filed with Secretary of State July 31, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 319 of the Welfare and Institutions Code is amended to read:

319. At the initial petition hearing the court shall examine the minor, the minor's parents, guardians, or other persons having relevant knowledge and hear the relevant evidence as the minor, the minor's parents or guardians, or their counsel desires to present.

The probation officer shall report to the court on the reasons why the minor has been removed from the parent's custody, the need, if any, for continued detention, and on the available services and the referral methods to be used which would facilitate the return of the minor to the custody of the minor's parents or guardians. The court shall order the release of the minor from custody unless it finds any of the following:

(a) There is a substantial danger to the physical health of the minor or the minor is suffering severe emotional damage, and there are no reasonable means by which the minor's physical or emotional health may be protected without removing the minor from the parents' or guardians' physical custody.

(b) The minor has violated an order of the juvenile court or has escaped from the commitment of the juvenile court.

(c) The minor is a threat to the person or property of another or his or her parent or guardian or responsible relative is likely to flee the jurisdiction of the court.

(d) The minor indicates an unwillingness to return home, if the minor has been sexually molested by a person residing in the home.

(e) Continued detention of the minor is a matter of immediate and urgent necessity for the protection of the minor.

Whenever a court orders a minor detained, the court shall state the facts on which the decision is based. The court shall also make a determination in the order as to whether reasonable services have been provided to aid the parents or guardians in order to prevent the need for removal of the child. Where the first contact with the family has occurred during an emergency situation in which the child could not safely remain at home, even with reasonable services being provided, the court shall make a finding that the lack of preplacement preventive efforts were reasonable.

When the minor is not released from custody the court may order that the minor shall be placed in an emergency shelter or other suitable licensed place or a place exempt from licensure designated by the juvenile court for a period not to exceed 15 judicial days.

SEC. 2. Section 361 of the Welfare and Institutions Code is amended to read:

361. (a) In all cases in which a minor is adjudged a dependent child of the court on the ground that the minor is a person described by Section 300, the court may limit the control to be exercised over the dependent child by any parent or guardian and shall by its order clearly and specifically set forth all such limitations. The limitations shall not exceed those necessary to protect the child.

(b) No dependent child shall be taken from the physical custody of his or her parents or guardians unless, upon the hearing, the juvenile court finds clear and convincing evidence of any of the following:

(1) There is a substantial danger to the physical health of the minor or would be if the minor was returned home, and there are no reasonable means by which the minor's physical health can be

protected without removing the minor from the minor's parents' or guardians' physical custody.

(2) The parent or guardian of the minor is unwilling to have physical custody of the minor, and the parent or guardian has been notified that if the minor remains out of their physical custody for the period specified in Section 366.25, the minor may be declared permanently free from their custody and control under Section 232 of the Civil Code.

(3) The minor is suffering severe emotional damage, as indicated by extreme anxiety, depression, withdrawal, or untoward aggressive behavior toward self or others, and there are no reasonable means by which the minor's emotional health may be protected without removing the minor from the minor's parents' or guardians' physical custody.

(4) The minor has been sexually abused and there are no reasonable means by which the minor can be protected from further sexual abuse without removing the minor from his or her parent or guardian or the minor does not wish to return to his or her parent or guardian.

(5) The minor, while under the age of three, was a victim of severe physical abuse by any parent or guardian seeking custody of the minor, or by any person sharing the home of the parent or guardian at the time he or she seeks custody of the minor. For the purposes of this section, "severe physical abuse" means any of the following: any single act of abuse which causes physical trauma of sufficient severity that, if left untreated, it would cause permanent physical disfigurement, permanent physical disability, or death; any single act of sexual abuse which causes significant bleeding, deep bruising, or significant external or internal swelling; or repeated acts of physical abuse, each of which causes bleeding, deep bruising, significant external or internal swelling, bone fracture, or unconsciousness. A minor may not be removed from the physical custody of his or her parents or guardians on the basis of a finding of severe physical abuse unless the probation officer has made such an allegation pursuant to Section 332.

(6) The minor has been left without any provision for his or her support and there is no parent or guardian available to maintain care, custody, and control of the minor due to either of the following circumstances:

(A) The minor's parent or guardian is incarcerated or institutionalized.

(B) The whereabouts of the parent or guardian is unknown and reasonable efforts to locate him or her have been unsuccessful.

The court shall state the facts on which the decision to remove the child is based. The court shall make a determination as to whether reasonable efforts were made to prevent or to eliminate the need for removal of the child from his or her home or, if the minor is removed for one of the reasons stated in paragraph (6), whether it was reasonable under the circumstances not to make any such efforts.

The court also shall inform the parent or parents of the provisions of Section 366.25 of this code and Section 232 of the Civil Code and shall specify one of the following: (A) if the minor is removed for one of the reasons stated in paragraphs (1) to (4), inclusive, of this subdivision, or because of severe physical abuse inflicted by a person other than the parent or parents pursuant to paragraph (5) of this subdivision, that the parent's or parents' parental rights may be terminated permanently under Section 366.25 of this code and Section 232 of the Civil Code if they are not able to resume custody within 12 months or (B) if the minor is removed because of severe physical abuse by a parent or parents as stated in paragraph (5) of this subdivision, the parental rights of the parent or parents inflicting that abuse may be terminated permanently under Section 366.25 of this code and Section 232 of the Civil Code if the court finds, upon completion of the investigation required under subdivision (e), that reunification with the parent or parents would be detrimental to the minor. In such a case, the court shall specifically advise the parent or parents of paragraph (8) of subdivision (a) of Section 232 of the Civil Code and of the consequences which may result pursuant to the provisions of that paragraph from matters proven in and found by the juvenile court.

(c) If the minor is taken from the physical custody of the minor's parents or guardians and unless the minor is placed with relatives, the minor shall be placed in foster care in the county of residence of the minor's parents or guardians in order to facilitate reunification of the family.

In the event that there are no appropriate placements available in the parents' or guardians' county, a placement may be made in an appropriate place in another county, preferably a county located adjacent to the parents' or guardians' community of residence.

Nothing in this section shall be interpreted as requiring multiple disruptions of the minor's placement corresponding to frequent changes of residence by the parents or guardians. In determining whether the minor should be moved, the probation officer will take into consideration the potential harmful effects of disrupting the placement on the minor and the parents' or guardians' reason for the move.

(d) Whenever the probation officer must change the placement of the minor and is unable to find a suitable placement within the county and must place the minor outside the county, no such placement shall be made until he or she has served written notice on the parents or guardians in the same manner as provided in Section 366 at least 14 days prior to the placement unless the child's health or well-being is endangered by delaying the action or would be endangered if prior notice were given. The notice shall state the reasons which require placement outside the county. The parents or guardians may object to the placement not later than seven days after receipt of the notice and, upon objection the court shall hold a hearing not later than five days after the objection and prior to the

placement. The court shall order out-of-county placement if it finds that the minor's particular needs require placement outside the county.

(e) The court shall make all the findings required by subdivision (a) of Section 366 in either of the following circumstances:

(1) The minor has been taken from the custody of his or her parents or guardians and has been living in an out-of-home placement pursuant to Section 319.

(2) The minor has been living in a voluntary out-of-home placement pursuant to Section 16507.4.

(f) (1) In any case where a minor is removed from a parent's or guardian's custody for one of the reasons stated in paragraphs (1) to (4), inclusive, or in paragraph (6), of subdivision (b), or because of severe physical abuse inflicted by a person other than the parent or parents pursuant to paragraph (5) of subdivision (b), the juvenile court shall order the probation officer to provide child welfare services to the minor and the minor's parents or guardians for the purpose of facilitating reunification of the family within a maximum time period not to exceed 12 months. When counseling or other treatment services are ordered, the parent shall be ordered to participate in those services, unless the parent's participation is deemed by the court to be inappropriate or potentially detrimental to the child. Services may be extended up to an additional six months if it can be shown that the objectives of the service plan can be achieved within the extended time period. Physical custody of the minor by the parents or guardians during the 18-month period shall not serve to interrupt the running of the period. In any case where a minor is removed from a parent's or guardian's custody because of severe abuse by a parent or parents as stated in paragraph (5) of subdivision (b), the juvenile court shall order the probation officer to provide appropriate reunification services except unsupervised visits and trial placements in the home and to investigate the circumstances surrounding the severe physical abuse of the minor and to prepare a report which advises the court whether there are circumstances which, in spite of the severe physical abuse, indicate that it would not be detrimental to the minor to continue to attempt reunification of the family. The probation officer shall provide the parent or parents with a copy of the report, including his or her conclusion that it would or would not be detrimental to the minor to continue to attempt reunification of the family, at least 14 days before the hearing. This report shall be submitted to the juvenile court at the first review hearing required by subdivision (a) of Section 366. The report shall include a statement of the circumstances relied upon in drawing the conclusion that it would or would not be detrimental to the minor to continue to attempt reunification of the family. If the report concludes that reunification would be detrimental to the minor, the report shall make recommendations concerning an appropriate permanent plan for the minor.

If the parent or guardian is incarcerated or institutionalized, reasonable services may include, but shall not be limited to, all of the following:

(A) Maintaining contact between parent and child through collect phone calls.

(B) Transportation services where appropriate.

(C) Visitation services where appropriate.

(D) Reasonable services to extended family members or foster parents providing care for the child if the services are not detrimental to the child.

An incarcerated parent may be required to attend counseling, parenting classes, or vocational training programs as part of the service plan if these programs are available.

(2) Services need not be ordered when the court finds, by clear and convincing evidence, any of the following:

(A) That the whereabouts of the parent is unknown. A finding pursuant to this subparagraph shall be supported by an affidavit or by proof that a reasonably diligent search has failed to locate the parent. The posting or publication of notices is not required in such a search.

(B) That the parent is incarcerated or institutionalized and the court finds that the resources or policies and procedures of the facility do not permit the provision of the services.

(C) That the parent is suffering from a mental disability that is described in paragraph (5) or (6) of subdivision (a) of Section 232 of the Civil Code and that renders him or her incapable of utilizing those services.

(3) If the whereabouts of a parent become known within six months of the out-of-home placement of the minor, the court shall order the probation officer to provide family reunification services in accordance with this subdivision.

When a parent is released from incarceration or institutionalization, the court shall order the probation officer to provide family reunification services in accordance with this subdivision.

(4) In making a determination pursuant to this subdivision, in addition to other evidence, the court may take into consideration evidence of past efforts made to facilitate the reunification of the parent and any other of his or her children.

CHAPTER 444

An act to amend Sections 1032.7 and 2019 of the Code of Civil Procedure, relating to depositions.

[Approved by Governor July 31, 1985 Filed with Secretary of State July 31, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 1032.7 of the Code of Civil Procedure is amended to read:

1032.7. Any person allowed costs under the provisions of this chapter shall, in addition to other costs, be entitled to the reasonable cost of taking, videotaping, and transcribing depositions, together with the reasonable cost of one copy of each deposition, unless it shall appear to the court that the taking of the deposition was unnecessary, or, if the deposition was videotaped, that the videotaping was unnecessary in which case that cost shall not be allowed, and, in addition, the reasonable cost of one copy of all depositions taken by the party or parties against whom such costs are allowed.

SEC. 2. Section 2019 of the Code of Civil Procedure is amended to read:

2019. (a) (1) A party desiring to take the deposition of any person upon oral examination shall give notice in writing to every other party to the action. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known, and, if the name is not known, a general description sufficient to identify the person or the particular class or group to which the person belongs. The notice must be at least 10 days, adding also one day for every 300 miles of the distance of the place of examination from the residence of the person to whom the notice is given, except that on motion of any party, with or without notice, and for good cause shown, the court may enlarge or shorten the time, or may stay the taking of the deposition until the hearing and determination of a motion for an order pursuant to subdivision (b) of this section. Service of the notice or motion may be made upon any party or his attorney in the manner provided in Chapter 5 (commencing with Section 1010) of Title 14 of Part 2.

(2) Notwithstanding Section 1989 and the distance provisions specified in paragraph (4), the deposition, whether of a party or any other person, shall be taken only in the county of residence of the deponent or at a place not more than 75 miles from the residence of the deponent or, if the deponent is a party, in the county of place of trial when the place of deposition is less than 150 miles from the residence of the deponent, unless the court, pursuant to paragraph (1) or (2) of subdivision (b), otherwise orders. If the parties so stipulate in writing, depositions may be taken before any person, at any time or place, upon any notice, and in any manner and when so taken may be used like other depositions.

(3) If an adverse party is in default for not appearing within the time allowed by the law or the court, or if, in a special proceeding, some or all of the parties interested have not appeared, a deposition may be taken without the giving of any notice to the party so in default or not appearing; and in any case on motion of any party, with or without notice, and for good cause shown, the court may authorize the taking of a deposition without the giving of notice to parties who have not been served with summons.

(4) In the case of depositions of a party to the record of any civil

action or proceeding or of anyone who at the time of taking the deposition is an officer, director or managing agent of that party, the service of a subpoena upon that deponent is not required if proper notice of the taking of the deposition is given to the attorney for the party or to the party, if the party has no attorney. In the case of depositions of a person for whose immediate benefit an action or proceeding is prosecuted or defended or of anyone who at the time of taking the deposition is an officer, director or managing agent of that person, the service of a subpoena upon that deponent is not required if proper notice of the taking of the deposition is given to the attorney of the party prosecuting or defending the action or proceeding for the immediate benefit of the deponent or to that party, if the party has no attorney. A notice to take the deposition of a person described in this paragraph cannot require the attendance of that person at a place more than 150 miles from the residence of the person, unless the party desiring to take the deposition first obtains an order pursuant to the provisions of paragraph (2) of subdivision (b).

(5) In the case of depositions for which the production of books, documents, or other things is required of a party to the record of any civil action or proceeding or person for whose immediate benefit an action or proceeding is prosecuted or defended or anyone who is an officer, director, or managing agent of that party or person, the service of a subpoena duces tecum and affidavit upon that person is not required if proper notice is served upon the attorney of the party or person. The notice shall specify the exact materials or things to be produced.

(6) A party may, in the party's notice or in a subpoena, name as the deponent a public or private corporation or partnership or association or governmental agency and describe with reasonable particularity the matters on which examination is requested. In that event, the organization so named shall designate one or more officers, directors, or managing agents, or other persons who consent, to testify on its behalf, and may set forth, for each person designated, the matters on which each person will testify in accordance with the demand. A subpoena shall advise a nonparty organization of its duty to make such a designation. The person so designated shall testify as to matters known or reasonably available to the organization. This subdivision does not preclude taking a deposition by any other procedure authorized by law and does not preclude the party, on such terms as are just, from offering evidence by other witnesses regarding the matters specified in the notice or subpoena.

(b) (1) Upon motion seasonably made by any party or by the person to be examined or notified to produce books, documents, or other things and upon notice, or upon the court's own motion and after giving counsel an opportunity to be heard, and in either case for good cause shown, the court in which the action is pending may make an order that the deposition shall not be taken, or that it may be taken only at some designated time or place other than stated in

the notice of taking the deposition, or that the deposition may be taken outside the county of residence and at a place more than 75 miles and less than 150 miles from the residence of the deponent in cases not provided for by paragraph (2) of subdivision (a) of this section, or that it shall not be taken except by allowing written interrogatories by one or more parties, or that certain matters shall not be inquired into, or that the scope of the examination shall be limited to certain matters, books, documents, or other things, or that the examination shall be held with no one present except the parties to the action and their officers or counsel, or that after being sealed the deposition shall be opened only by order of the court, or that secret processes, developments, or research need not be disclosed, or that the parties shall simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the court; or the court may make any other order which justice requires to protect the party or witness from annoyance, embarrassment, or oppression. In granting or refusing such order the court may impose upon either party or upon the witness the requirement to pay such costs and expenses, including attorney's fees, as the court may deem reasonable.

(2) Notwithstanding Section 1989, the court may, upon motion on 10 days' written notice and for good cause shown, make an order requiring a deponent who is a party to the record of any civil action or proceeding or is a person for whose immediate benefit the action is prosecuted or defended or is at the time of the taking of the deposition an officer, director or managing agent of any such party or person to attend a deposition at a place more than 150 miles from the residence of such deponent. In granting or refusing the order, the court shall consider whether the moving party selected the forum, whether the deponent will be present at the trial, the convenience of the deponent, the suitability of discovery through a deposition by written interrogatories or other discovery methods, the number of depositions sought under this section, the expense to the parties of requiring the deponent to be taken within 150 miles of the residence of the deponent, the whereabouts of the deponent at the time the deposition is scheduled to be taken, and all other factors tending to show whether or not the interests of justice and the convenience of the parties and witnesses will be served by requiring the deponent to appear for the deposition at a place more than 150 miles from the deponent's residence. The order may provide that the party desiring to take the deposition shall pay the reasonable expenses incurred by the deponent in attending the deposition and that the party furnish an undertaking approved by the court to secure that payment and may contain such other terms and conditions as are equitable and just.

(c) The officer before whom the deposition is to be taken shall put the witness on oath and shall personally, or by someone acting under the officer's direction and in the officer's presence, record the testimony of the witness. The testimony shall be taken

stenographically and transcribed unless the parties agree otherwise. A party may videotape the deposition if the notice of taking deposition states that the deposition will also be videotaped, or if all parties agree that the deposition will also be videotaped. The videotape operator shall be a person before whom depositions may be taken as provided in Section 2018. All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, parties served with notice of taking a deposition may transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim.

(d) At any time during the taking of the deposition, on motion of any party or of the deponent, or upon the court's own motion and after giving counsel an opportunity to be heard, and in either case upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the court in which the action is pending or the superior court in the county where the deposition is being taken may order the officer conducting the examination to cease forthwith from taking the deposition, or may limit the scope and manner of the taking of the deposition as provided in subdivision (b) of this section. If the order made terminates the examination, it shall be resumed thereafter only upon the order of the court in which the action is pending. Upon demand of the objecting party or deponent, the taking of the deposition shall be suspended for the time necessary to make a motion for an order. In granting or refusing that order the court may impose upon either party or upon the witness the requirement to pay such costs or expenses, including attorney's fees, as the court may deem reasonable.

(e) (1) Unless the parties agree on the record to another procedure for reading, correcting, and signing the original of the deposition, when the testimony is fully transcribed the officer shall notify the deponent and counsel in writing that the original of the deposition is available for reading, correcting and signing at the office of the officer, and shall remain so available during business hours of business days for a period of 30 calendar days following such notification. The examination and reading of the transcribed testimony may be waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition. The deponent may correct or approve or refuse to approve the deposition for a period of 30 days following the notification prescribed in this subdivision by means of a letter addressed and mailed or delivered to the transcribing officer indicating any changes to be made, approval, or refusal to approve the deposition. The changes, approval, or refusal to approve the

deposition, when made by letter, shall be equivalent to personal changes, approval, or refusal to approve the deposition.

If the deponent fails to appear at the office of the officer or notify him or her by letter as provided in this subdivision within the 30-day period, or if the witness so appears or sends the letter but refuses to approve or sign the deposition, the officer shall indicate on the original the fact that the deponent failed to appear, or the fact that the deponent refused to sign together with any reason given therefor. Thereafter the deposition shall have the same force and effect as though it had been read, corrected and signed by the deponent, unless on a motion to suppress under subdivision (d) of Section 2021 the court holds that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

(2) The stenographic transcript of the deposition prepared by the officer employed by the person noticing the deposition, shall constitute the official record of the deposition for the purpose of trial and any subsequent hearing or appeal. In cases where the deposition was also videotaped, the court may permit the playing of the original videotape or portions thereof for the purpose of the trial or any hearing, other than an appeal, upon a showing of good cause.

(3) The original videotape shall be retained by the operator who recorded the deposition. That operator shall, upon request, provide any party with a copy of the recording upon payment of a reasonable charge.

The operator may discard the videotape after written notice to all parties unless a party promptly objects thereto in writing. The written transcript of the videotaped deposition shall be certified, delivered, and used in the same manner as other transcripts.

(f) (1) The officer shall certify on the deposition and each copy thereof that the witness was duly sworn by that officer and that the deposition is a true record of the testimony given by the witness. Promptly upon the correction, approval, or refusal to approve the deposition, or upon the expiration of 30 calendar days following notification to the witness that the deposition is available for reading, correcting and signing, the officer shall then securely seal the deposition in an envelope endorsed with the title of the action and marked "Deposition of (here insert name of witness)". Depositions shall not be filed unless and until their contents become relevant to an issue in the trial or other pending proceedings at which time the court may order that the deposition or a copy thereof certified by the officer, reflecting any changes made by the witness, be filed as part of the record.

(2) The officer taking the deposition shall give prompt notice to all parties of (i) the availability of the deposition for reading, correction, and approval; and (ii) all changes in the deposition made by the witness. Upon request made before the delivery or mailing of the deposition and payment of reasonable charges therefor, the officer shall furnish a certified copy of the deposition to any party to the action or to the deponent.

(3) Unless the parties agree on the record that the party noticing the deposition shall do so, the officer taking the deposition shall keep the deposition for six months following the final disposition of the case. If the officer discontinues his or her occupation of taking depositions, by reason of death or otherwise, the officer or an agent of the officer shall file the deposition with the court.

Whenever a deposition is taken out of this state pursuant to Section 2024, or by stipulation of the parties, the officer before whom the deposition is taken shall, by accepting the commission or undertaking to act pursuant to agreement, be deemed to have consented to be bound by all provisions of this code relating to the reporting, transcribing, certification, copying, signing, refusal to sign or change, sealing, and custody of the deposition, unless otherwise agreed by the parties on the record.

Notwithstanding paragraph (1) of subdivision (f), if the officer before whom such a deposition is taken is not a shorthand reporter having in this state a place of business where the deposition will be kept, the officer shall promptly upon sealing, send the deposition to the clerk of the court in which the action is pending for filing, unless the parties agree on record to the contrary. The clerk shall accept and file the deposition.

A reasonable filing fee, as determined by the Judicial Council, may be charged by the clerk for filing a deposition. In the event a filing fee is charged, the fee shall be paid to the officer at the time the deposition is taken by the party noticing it or by stipulation, and the officer shall pay the fee to the clerk at the time of filing.

(g) (1) If the party giving the notice of the taking of a deposition fails to attend and proceed therewith and another party attends in person or by attorney pursuant to the notice, the court may order the party giving the notice to pay that other party the amount of the reasonable expenses incurred by that other party and that other party's attorney in so attending, including reasonable attorney's fees.

(2) If the party giving the notice of the taking of a deposition of a witness fails to serve a subpoena upon the witness and the witness because of such failure does not attend, and if another party attends in person or by attorney because that other party expects the deposition of that witness to be taken, the court may order the party giving the notice to pay to such other party the amount of the reasonable expenses incurred by such other party and such other party's attorney in so attending, including reasonable attorney's fees.

(h) The Judicial Council may adopt rules governing the display and presentation of videotaped depositions in court.

The people of the State of California do enact as follows:

SECTION 1. Section 61408 of the Food and Agricultural Code is amended to read:

61408. Upon any action being commenced upon the bond, the director may require the filing of a new bond in the amount determined by the director to be sufficient to satisfy claims for payment of producers thereafter supplying manufacturing milk to the manufacturing milk handler, and immediately upon a recovery in any action upon the bond, the failure of a manufacturing milk handler to have filed a new bond within 10 days after notice from the director constitutes grounds for the revocation or suspension of the manufacturing milk handler's license of the manufacturing milk handler.

SEC. 2. Section 61410 of the Food and Agricultural Code is amended to read:

61410. The failure of any manufacturing milk handler that purchases manufacturing milk from producers to execute and deliver the bond as provided and required in this article shall constitute grounds for suspension, revocation, or refusal of the manufacturing milk handler's license. Article 8. Manufacturing Milk Handler Licenses

61490. For the purposes of this article, each subsidiary manufacturing milk plant, or branch manufacturing milk plant, whether under one ownership or not, shall be considered as an individual manufacturing milk handler.

The license provided for in this article is in addition to any license which is required by Division 15 (commencing with Section 32501), or by any law or ordinance of any county or municipality of this state.

61493. Application for the license provided by this article shall be made on forms prescribed by the director, accompanied by an application fee of three dollars ($3), and state the name and address of the applicant and any details specifically related to the nature of the applicant's business that the director may require. The applicant shall further satisfy the director of his or her character, responsibility, and good faith in seeking to carry on the business stated in the application.

61494. Licenses shall be issued for a period of 12 months from the first day of each year or for the remainder of the calendar year from the date of issuance. Application for renewal of a license for the following year by a licensee, together with the application fee of three dollars ($3), shall be made prior to the expiration date of the license held. However, this paragraph does not authorize the sale within this state of any milk product as a sterilized product unless the product meets the standards and requirements for sterilized products contained in Division 15 (commencing with Section 32501).

(4) Any market milk, market skim milk, or market cream which is used in the manufacture of yogurts which are directly sold for use in states other than this state.

(b) Any market milk, market skim milk, or market cream which is used in any other milk product, or products resembling milk products, in which the use of market milk, or any components or derivatives of market milk, is required by, or pursuant to, this code, except any product defined in Section 61933 as class 2.

(c) Any market milk, market skim milk, market cream, market milk fat, or market milk solids not fat which is used in the standardizing or fortifying of any milk product which is defined in this section as class 1.

(d) Any market milk, market skim milk, or market cream which is used in any product not otherwise classified, which is required by any regulations adopted by the director pursuant to Article 2 (commencing with Section 36631) of Chapter 1 of Part 3 of Division 15 to be made from market milk or any components or derivatives of market milk.

(e) Any market milk, market skim milk, market cream, market milk fat, or market milk solids not fat used in any filled product or imitation milk product, when the product imitated or resembled, is defined in this section as class 1.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

In the case of an enrollment pursuant to this subdivision, the State Bar shall terminate the enrollment when the member has had the fact of his or her restoration to capacity judicially determined, upon the member's release from inpatient status at the California Rehabilitation Center or its branches pursuant to Section 3053, 3109, or 3151 of the Welfare and Institutions Code, or upon the member's unconditional release from the medical facility pursuant to Section 5304 or 5305 of the Welfare and Institutions Code; and on payment of all fees required.

When a member is placed in, returned to, or released from inpatient status at the California Rehabilitation Center or its branches, or discharged from the narcotics treatment program, the Director of Corrections or his or her designee shall transmit to the State Bar a certified notice attesting to that fact.

(D) The balance of interests, as between the attorney on the one hand and the attorney's clients and the public on the other hand, favors an involuntary inactive enrollment.

(E) The public interest would be served by an involuntary inactive enrollment.

(3) The board shall formulate and adopt rules of procedure to implement this subdivision.

In the case of an enrollment pursuant to this subdivision, the board shall terminate the involuntary inactive enrollment upon proof that the attorney's conduct no longer poses an imminent threat of harm to the attorney's clients or the public.

(b) The board may provide by rule for procedures for the conduct of an expedited disciplinary proceeding against a member of the State Bar upon receipt by the State Bar of a certified copy of a final order determining that the member has been found culpable of professional misconduct in a proceeding in another jurisdiction conducted as specified in subdivision (a). The issues in the expedited proceeding shall be limited to the following:

(3) Whether the proceedings of the other jurisdiction lacked fundamental constitutional protection.

The member of the State Bar subject to the proceeding under this section shall bear the burden of establishing that the issues in paragraphs (2) and (3) do not warrant the imposition of discipline in this state.

(c) In proceedings conducted under subdivision (b), the parties need not be afforded an opportunity for discovery unless the State Bar Court department or panel having jurisdiction so orders upon a showing of good cause.

On the return of the attachment, and the production of the person attached, the superior court has jurisdiction of the matter, and the person charged may purge himself or herself of the contempt in the same way, and the same proceedings shall be had, and the same penalties may be imposed, and the same punishment inflicted, as in the case of a witness subpoenaed to appear and give evidence on the trial of a civil cause before a superior court.

In lieu of the procedure specified above, the court may enter an order directing the person alleged to be in contempt to appear before the court at a specified time and place and then and there show cause why he or she has not attended or testified or produced the writings as required. (4) With the consent of the client, file notices, motions and pleadings on behalf of the client where jurisdictional time limits are involved and other legal counsel has not yet been obtained.

No person shall incur any liability for any act done or omitted to be done pursuant to order of the court under this article. No person or entity shall be liable for failure to apply for court jurisdiction under this article. Nothing in this section shall affect any obligation otherwise existing between the affected attorney and any other person or entity.

SEC. 2. Section 8 of the Lower San Joaquin Levee District Act (Chapter 1075 of the Statutes of 1955) is amended to read:

Sec. 8. (a) Annually, on or before the first day of June, the board shall cause to be prepared an estimate of the total amount of money necessary to be raised by assessment for all district purposes during the next ensuing fiscal year, including any expenditures necessary in connection with or resulting from the assurances and local cooperation described in Section 7 of this act. The board shall add thereto an amount equal to 10 percent thereof for anticipated tax delinquencies. The board shall apportion that total amount of money among the counties of the district equitably in the same proportion as the acreage of lands of the district in each county bears to the total acreage of the lands in the district or in the same proportion as the value of lands, exclusive of improvements, of the district in each county bears to the total value of lands, exclusive of improvements, in the district as determined by the board. The amount as apportioned to each county shall be by resolution of the board, and a certified copy of the resolution shall be transmitted to the boards of supervisors of each of the counties of the district. The board of supervisors shall cause the assessments to be levied on the lands of the district within their respective counties, exclusive of improvements thereon, in proportion to the value thereof sufficient to raise the amounts so apportioned to their respective counties. The assessments shall be collected at the same time, in the same manner, and together with county taxes. Upon collection, all officers of the counties collecting or having in their possession funds derived from the assessments shall immediately transmit the funds to the County Treasurer of Merced County for the credit of the district.

(b) (1) In lieu of any other assessment provided by law, the board may elect to require that a benefit assessment be levied in the manner set forth in this subdivision, which assessment shall be sufficient to raise the amount or amounts certified by the board as required by the district for the district operations during the coming fiscal year. The Legislature hereby finds and declares that a fair and proper benefit assessment for flood control purposes may be levied on the basis of the use to which benefited land in the district may be put.

(2) The assessment authorized to be levied on each parcel under this subdivision shall be based upon the parcel's proportionate

benefit expressed as a product of the degree of protection it receives as determined from its size, and its capacity for being put to use, with respect to all of the parcels in the district. A parcel's benefit product shall equal the acreage of the parcel multiplied by the parcel's land use factor, as specified in paragraph (3). Any parcel less than ⅓ acre in size shall be deemed to be ⅓ acre.

(3) Each county shall assign each parcel to one of the following land use categories based upon the current land use of the parcel as shown on the records of its county assessor:

CATEGORY	LAND USE FACTOR
(A) Waste or Unuseable Land	0
(B) Agricultural-Grazing	1
(C) Agricultural-Other	2
(D) Single-family Residential	5
(E) Commercial, Industrial and Other	10

(4) Prior to April 1 of any year, landowners in the district may petition the board, or the board of supervisors of any county may request the board, to review the land use categories and land use factors set forth in paragraph (3), or the board may elect to do so on its own motion. Any landowner petition shall be signed by at least 50 landowners within the district. The board shall set a time and place for a hearing upon the petition or request, or upon its own motion, and shall give notice of the hearing in the manner set forth in Section 6066 of the Government Code. At the hearing, the board shall hear all evidence presented regarding the land use factors and categories and shall determine whether the categories or land use factors assigned to each category should be altered, expanded, or modified in any respect. The board may, by resolution at the conclusion of the hearing, modify the categories and factors as, in its judgment, is required for fair and practical special benefit assessments for the maintenance of the district works.

Notwithstanding any other provision, the board, at any hearing held pursuant to this paragraph during the 1985 calendar year, may order reductions or cancellations of any assessment wrongfully levied pursuant to this section during the 1984–85 fiscal year, and the district treasurer shall refund any assessments wrongfully paid in accordance with any such order of the board. The Legislature hereby finds and declares that this paragraph is necessary because of confusion which occurred in the levy of the assessment during the 1984–85 fiscal year, the first levy of the assessment following the amendment of this section at the 1983–84 Regular Session of the Legislature.

(5) The amount assessed to each parcel in the district in each county under this subdivision shall be determined by the following formula: The benefit product of the parcel multiplied by the total amount to be collected in the county, divided by the sum of the

various benefit products of all parcels in the county which are in the district.

(6) The board may elect to have its assessments collected by the county officers of the Counties of Merced, Madera, and Fresno with regard to the portions of the district located within those respective counties and may have its taxes collected by the county officials of the counties if the board declares its election by resolution and files a certified copy of the resolution with the auditors of those counties on or before the first day of August. Thereafter, each year, until otherwise provided by the board, all assessments shall be made and collected for the district by the county assessors and tax collectors respectively of those counties. In that case, the auditor of each county shall, on or before the second Monday of August of each year, transmit to the board a statement, in writing, showing the sum of the various benefit products of all parcels in the county which are in the district, and the board shall, on or before the first weekday in September or, if that weekday falls on a holiday, on the first business day thereafter, determine the portion of the tax to be collected by each county and shall immediately thereafter transmit to the county auditors a statement of the amount of assessment to be collected by each county. Upon collection, all officers of the counties collecting or having in their possession funds derived from the assessments shall immediately transmit the funds to the County Treasurer of Merced County for the credit of the district.

(7) Each county may recover the reasonable costs of its services in preparing and levying the assessments. Each county auditor shall submit an estimate, not later than the first day of August each year, which estimates shall then be included as a part of the board's determination of costs set forth hereinabove.

(8) There shall be no allocation of property tax revenues pursuant to Chapter 6 (commencing with Section 95) of Part 0.5 of Division 1 of the Revenue and Taxation Code to the district if the district utilizes the provisions of this subdivision. If the district utilizes the provisions of this subdivision, the district shall notify the county auditor pursuant to Section 100 of the Revenue and Taxation Code that the district does not desire to receive a property tax allocation.

(c) Whenever any land and improvements situated in the district have been sold for taxes and have been redeemed, the money paid for that redemption shall be apportioned and paid by the appropriate county treasurer to the district in the proportion which the tax due to the district bears to the total tax for which the land and improvements were sold.

(d) All taxes levied under the provisions of this act are a lien upon the land and improvements on which they are levied and, unless the board has by resolution otherwise provided, the enforcement of the collection of those taxes shall in the same manner and by the same means as provided by law for the enforcement of liens for state and county taxes. All provisions of the law relating to the enforcement of county taxes are made a part of this act.

(e) Whenever in this act the word "tax" is used, the word shall not be deemed or construed as referring to a tax in the technical sense of that term, but shall be deemed only to refer to assessments as are provided for by this act.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to permit the levy of equitable benefit assessments by the Lower San Joaquin Levee District to finance necessary flood control activities of the district at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 456

An act to add Article 2 (commencing with Section 11965) to Chapter 2 of Part 3 of Division 10.5 of the Health and Safety Code, relating to drug abuse prevention, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 31, 1985 Filed with Secretary of State September 3, 1985]

The people of the State of California do enact as follows:

SECTION 1. Article 2 (commencing with Section 11965) is added to Chapter 2 of Part 3 of Division 10.5 of the Health and Safety Code, to read:

Article 2. The School-Community Primary Prevention Program

11965. The Legislature makes the following findings and declarations of intent:

(a) A statewide drug abuse primary prevention program is essential in order to address the continuing problem of drug abuse throughout the state, which often exists in combination with other problems such as crime and juvenile delinquency. The program is labeled as "primary" prevention because it is intended to prevent drug abuse before it begins or before it has reached later stages requiring treatment.

(b) The program necessarily emphasizes a continuing partnership between education agencies, drug abuse agencies, community service agencies, parents, and other members of the community. In order to facilitate this partnership, the Legislature finds and declares that it is of vital importance that fiscal and management responsibilities for the program be shared equitably by education and drug agencies at both the state and county levels, and that this cooperation is a major tool in efforts to achieve the

successful prevention of drug abuse.

(c) The program established pursuant to this article is intended by the Legislature to delegate primary responsibility for program planning to local school and local drug abuse authorities and their constituents. These agencies are best suited for dealing with lifetime drug using patterns, which are formed during youth and in the family setting

(d) This article places primary emphasis on youth, families, and communitywide drug abuse prevention planning. Therefore, programs to acquaint professionals serving youth and families, community representatives, parents, and youth with the skills and strategies needed for program implementation is an important aspect of the total program.

11965.3. In view of the purposes and intent of this article as expressed in Section 11965, highest priority for program funding under this article shall be designated to programs which emphasize joint school-community program drug abuse prevention planning and implementation, and which focus on children, youth, and families.

It is the intent of the Legislature that, to the maximum extent possible, funds made available for the purposes of this article be used to support programs which will meet the needs of children and families.

11965.5. This article shall affect only those counties in which the board of supervisors and the county board of education have each adopted a resolution electing to apply for available funds and have been awarded funds pursuant to Section 11966. Programs funded, planned, and implemented under this article shall emphasize a joint school-community primary prevention program, which may include:

(a) School and classroom-oriented programs, including, but not limited to, programs designed to encourage sound decisionmaking, an awareness of values, an awareness of drugs and their effects, enhanced self-esteem, social and practical skills that will assist students toward maturity, enhanced or improved school climate and relationships among all school personnel and students, furtherance of cooperative efforts of school- and community-based personnel.

(b) School- or community-based nonclassroom alternative programs, or both, including, but not limited to, positive peer group programs, programs involving youth and adults in constructive activities designed as alternatives to drug use, and programs for special target groups, such as women, ethnic minorities, and other high-risk, high-need populations.

(c) Family-oriented programs, including, but not limited to, programs aimed at improving family relationships and involving parents constructively in the education and nurturing of their children, as well as in specific activities aimed at preventing drug abuse.

11965.7. In those counties electing to apply for funds under this article, both the county administrator and the county office of

education shall designate units with primary responsibility for planning and administering the School-Community Primary Prevention Program. These units shall work together on a cooperative basis to review the school and community program application for funds. The joint application of the county administrator and the county office of education shall be submitted to the local primary prevention advisory committee, as established pursuant to subdivision (b) of Section 11966, for review and comment. After this review, the application shall be submitted to the state. Applications for funding shall be reviewed by an external review selection committee. This committee shall be comprised of no less than six members, three being appointed by the State Department of Education and three being appointed by the State Department of Alcohol and Drug Programs. The committee shall review applications and make recommendations for grant awards. The State Department of Alcohol and Drug Programs and the State Department of Education shall enter into an interagency agreement in order to carry out the provisions of this chapter. Approval of both state departments is required for funding.

11966. The planning process at the county level shall include all of the following, which shall be incorporated into each local school-community primary drug abuse prevention plan submitted to the State Department of Education and the State Department of Alcohol and Drug Programs:

(a) A copy of the resolutions of the board of supervisors and the county board of education electing to apply for funding under this article, and documentation of public notice as required by Section 11967.

(b) Incorporation of comments on program plans provided by the local primary prevention advisory committee. This committee may be the existing drug abuse advisory board unless the county board of supervisors and the county board of education have each adopted a resolution requiring the formation of an independent committee Independent committees so established shall consist of 10 members, five members being appointed by the board of supervisors and five by the county board of education.

(c) Certification by the county drug program administrator and the county office of education of each others plans, emphasizing public notice and nonduplication of programming, especially with respect to nonduplication of the drug program application and of any services provided pursuant to Section 51260 of the Education Code.

(d) Submission of the application as required under Section 11965.7.

(e) Evidence that there has been coordination with existing successful programs in the development of the county plans, and assurance of maintenance of current efforts in order to preclude the use of funds to support existing programs.

(f) Provision for no more than 5 percent of the county level program funds being used for program administration, and

specification of measurable goals and objectives for each program to be funded pursuant to the application.

(g) Evidence that any program funded for two years or more under this article has substantially achieved its measurable goals and objectives as specified in the approved application. The county agencies allocating funds to individual applicants or programs pursuant to the county application shall have responsibility to institute monitoring systems to insure compliance with this requirement.

(h) In counties in which the board of education is appointed by the board of supervisors, the board of supervisors shall have final authority for application, planning, and implementation of programs funded under this article.

11966.5. The application from each county shall be submitted, with appropriate documentation as provided in Section 11966, on or before the existing deadline for the county drug program plan.

11967. Upon receiving letters from the State Department of Education and the State Department of Alcohol and Drug Programs, respectively, specifying the eligible county allocation, as required under subdivision (c) of Section 11967.5, both the county drug program administrator and the county office of education shall announce the availability of funds locally under the School-Community Primary Prevention Program pursuant to Section 6061.3 of the Government Code, and shall also disseminate such information to the public media, to school districts within the county, and to community nonprofit organizations providing preventive services to youth. The public notice shall specify the nature and content of the program as provided in this article, and shall inform agencies and organizations concerning the details of applying for funds.

11967.5. Funds provided for purposes of this article shall be administered and allocated as follows:

(a) One-half of the total funds available shall be administered by the State Department of Education through an interagency agreement with the State Department of Alcohol and Drug Programs. The other half shall be administered by the State Department of Alcohol and Drug Programs.

(b) No more than 5 percent of the total amount for each state department shall be used for administrative costs. The maximum amount shall be inclusive of administrative costs at the state level. An appropriate portion of such maximum amount shall be used by the state departments to work together on a cooperative basis to jointly develop program application guidelines. Both departments shall jointly develop program application guidelines that are consistent with the legislative intent prescribed in Section 11965.7.

(c) The balance of program funds provided under this article shall be allocated to programs on a competitive basis.

11968. Upon completion of the review process and selection of grant awards, the state agencies shall negotiate contracts with public

agencies to carry out primary prevention programs. These shall include county drug offices and offices of education which meet the requirements of Section 11965.

11969. The county drug program administrator and the county office of education may enter into interagency agreements between themselves which will allow any of the management or fiscal tasks, or both, created pursuant to this article and assigned to both the county office and the drug program administrator to be performed by only one of them.

11969.5. The State Department of Education and the State Department of Alcohol and Drug Programs shall establish mutually cooperative arrangements for sharing reports on the implementation of this article.

SEC. 2. The Legislative Analyst shall report on the implementation of the School-Community Primary Prevention Program established pursuant to Article 2 (commencing with Section 11965) of Chapter 2 of Part 3 of Division 10.5 of the Health and Safety Code in the Analysis of the 1987–88 Budget Bill. This report shall include the findings, comments, and recommendations as the Legislative Analyst determines are appropriate.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to insure that the School-Community Primary Prevention Program continues into the 1985–86 fiscal year and beyond, it is necessary that this act take effect immediately.

CHAPTER 457

An act to amend Sections 12085, 12086, 12088, 12089, 12090, 12091, 12092, and 12730 of, and to add Section 12085.5 to, the Government Code, relating to economic opportunity.

[Approved by Governor August 31, 1985 Filed with Secretary of State September 3, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 12085 of the Government Code is amended to read:

12085. Although the economic well-being of the state has progressed to a level surpassing that of any other achieved in world history, and although these benefits are widely shared throughout the state, poverty continues to be the lot of a substantial number of citizens of the state. California can achieve its full economic and social potential as a state only if every individual has the opportunity to contribute the full extent of his or her capabilities and to

participate in the workings of society. The Legislature hereby declares that it is the policy of the state to eliminate poverty by providing everyone with the opportunity for education, training, work, and the opportunity to live with dignity and decency. The Legislature finds that it is the purpose of this article to strengthen, supplement, and coordinate efforts to further this policy.

In order to employ the resources of both the public and private sectors of the state, and to effectuate the purposes of this article, there is in state government, a Department of Economic Opportunity.

SEC. 2. Section 12085.5 is added to the Government Code, to read:

An act to amend Sections 669, 1170, and 1170.1 of, and to add Section 12022.4 to, the Penal Code, relating to firearms.

[Approved by Governor September 4, 1985 Filed with Secretary of State September 5, 1985.]

The people of the State of California do enact as follows:

SECTION 1. Section 669 of the Penal Code is amended to read:

669. When any person is convicted of two or more crimes, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same judge or by different judges, the second or other subsequent judgment upon which sentence is ordered to be executed shall direct whether the terms of imprisonment or any of them to which he is sentenced shall run concurrently or consecutively; life sentences, whether with or without the possibility of parole, may be imposed to run consecutively with one another or with any other term of imprisonment for a felony conviction. Whenever a person is committed to prison on a life sentence which is ordered to run consecutive to any determinate term of imprisonment imposed pursuant to Sections 1170, 1170.1, 667.5, 12022, 12022.4, 12022.5, 12022.6, and 12022.7, the determinate term of imprisonment shall be served first and no part thereof shall be credited toward the person's eligibility for parole as calculated pursuant to Section 3046.

In the event that the court at the time of pronouncing the second or other judgment upon such person had no knowledge of a prior existing judgment or judgments, or having knowledge, fails to determine how the terms of imprisonment shall run in relation to each other, then, upon such failure so to determine, or upon such prior judgment or judgments being brought to the attention of the court at any time prior to the expiration of 60 days from and after the actual commencement of imprisonment upon the second or other subsequent judgments, the court shall, in the absence of the defendant and within 60 days of such notice, determine how the term of imprisonment upon said second or other subsequent judgment shall run with reference to the prior incompleted term or terms of imprisonment. Upon the failure of the court so to determine how the terms of imprisonment on the second or subsequent

judgment shall run, the term of imprisonment on the second or subsequent judgment shall run concurrently.

The Department of Corrections shall advise the court pronouncing the second or other subsequent judgment of the existence of all prior judgments against the defendant, the terms of imprisonment upon which have not been completely served.

SEC. 2. Section 1170 of the Penal Code is amended to read:

1170. (a) (1) The Legislature finds and declares that the purpose of imprisonment for crime is punishment. This purpose is best served by terms proportionate to the seriousness of the offense with provision for uniformity in the sentences of offenders committing the same offense under similar circumstances. The Legislature further finds and declares that the elimination of disparity and the provision of uniformity of sentences can best be achieved by determinate sentences fixed by statute in proportion to the seriousness of the offense as determined by the Legislature to be imposed by the court with specified discretion.

(2) In any case in which the punishment prescribed by statute for a person convicted of a public offense is a term of imprisonment in the state prison of 16 months, two or three years; two, three, or four years; two, three, or five years; three, four, or five years; two, four, or six years; three, four, or six years; three, five, or seven years; three, six, or eight years; five, seven, or nine years; five, seven, or 11 years, or any other specification of three time periods, the court shall sentence the defendant to one of the terms of imprisonment specified unless such convicted person is given any other disposition provided by law, including a fine, jail, probation, or the suspension of imposition or execution of sentence or is sentenced pursuant to subdivision (b) of Section 1168 because he had committed his crime prior to July 1, 1977. In sentencing the convicted person, the court shall apply the sentencing rules of the Judicial Council. The court, unless it determines that there are circumstances in mitigation of the punishment prescribed, shall also impose any other term which it is required by law to impose as an additional term. Nothing in this article shall affect any provision of law which imposes the death penalty, which authorizes or restricts the granting of probation or suspending the execution or imposition of sentence, or expressly provides for imprisonment in the state prison for life. In any case in which the amount of preimprisonment credit under Section 2900.5 or any other provision of law is equal to or exceeds any sentence imposed pursuant to this chapter, the entire sentence, including any period of parole under Section 3000, shall be deemed to have been served and the defendant shall not be actually delivered to the custody of the Director of Corrections. However, any such sentence shall be deemed a separate prior prison term under Section 667.5, and a copy of the judgment and other necessary documentation shall be forwarded to the Director of Corrections.

(b) When a judgment of imprisonment is to be imposed and the statute specifies three possible terms, the court shall order imposition

of the middle term, unless there are circumstances in aggravation or mitigation of the crime. At least four days prior to the time set for imposition of judgment either party may submit a statement in aggravation or mitigation to dispute facts in the record or the probation officer's report, or to present additional facts. In determining whether there are circumstances that justify imposition of the upper or lower term, the court may consider the record in the case, the probation officer's report, other reports including reports received pursuant to Section 1203.03 and statements in aggravation or mitigation submitted by the prosecution or the defendant, and any further evidence introduced at the sentencing hearing. The court shall set forth on the record the facts and reasons for imposing the upper or lower term. The court may not impose an upper term by using the fact of any enhancement upon which sentence is imposed under Section 667.5, 1170.1, 12022, 12022.4, 12022.5, 12022.6, or 12022.7. A term of imprisonment shall not be specified if imposition of sentence is suspended.

(c) The court shall state the reasons for its sentence choice on the record at the time of sentencing The court shall also inform the defendant that as part of the sentence after expiration of the term he may be on parole for a period as provided in Section 3000.

(d) When a defendant subject to this section or subdivision (b) of Section 1168 has been sentenced to be imprisoned in the state prison and has been committed to the custody of the Director of Corrections, the court may, within 120 days of the date of commitment on its own motion, or at any time upon the recommendation of the Director of Corrections or the Board of Prison Terms, recall the sentence and commitment previously ordered and resentence the defendant in the same manner as if he had not previously been sentenced, provided the new sentence, if any, is no greater than the initial sentence. The resentence under this subdivision shall apply the sentencing rules of the Judicial Council so as to eliminate disparity of sentences and to promote uniformity of sentencing. Credit shall be given for time served.

(e) Any sentence imposed under this article shall be subject to the provisions of Sections 3000 and 3057 and any other applicable provisions of law.

(f) (1) Within one year after the commencement of the term of imprisonment, the Board of Prison Terms shall review the sentence to determine whether the sentence is disparate in comparison with the sentences imposed in similar cases. If the Board of Prison Terms determines that the sentence is disparate, the board shall notify the judge, the district attorney, the defense attorney, the defendant, and the Judicial Council. The notification shall include a statement of the reasons for finding the sentence disparate.

Within 120 days of receipt of this information, the sentencing court shall schedule a hearing and may recall the sentence and commitment previously ordered and resentence the defendant in the same manner as if the defendant had not been sentenced

previously, provided the new sentence is no greater than the initial sentence. In resentencing under this subdivision the court shall apply the sentencing rules of the Judicial Council and shall consider the information provided by the Board of Prison Terms.

(2) The review under this section shall concern the decision to deny probation and the sentencing decisions enumerated in paragraphs (2), (3), (4), and (5) of subdivision (a) of Section 1170.3 and apply the sentencing rules of the Judicial Council and the information regarding the sentences in this state of other persons convicted of similar crimes so as to eliminate disparity of sentences and to promote uniformity of sentencing.

(g) Prior to sentencing pursuant to this chapter, the court may request information from the Board of Prison Terms concerning the sentences in this state of other persons convicted of similar crimes under similar circumstances.

(h) A sentence to state prison for a determinate term for which only one term is specified, is a sentence to state prison under this section.

SEC. 3. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all such convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667.5, 667.6, or 12022.1. The principal term shall consist of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to Section 12022, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7 or 12022.8. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined in subdivision (c) of Section 667.5 exceed five years. The subordinate term for each consecutive offense which is a "violent felony" as defined in subdivision (c) of Section 667.5, including those offenses described in paragraph (8) of subdivision (c) of Section 667.5, shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall include one-third of any enhancements imposed pursuant to Section 12022, 12022.4, 12022.5, or 12022.7.

(b) When a consecutive term of imprisonment is imposed under Sections 669 and 1170 for two or more convictions for kidnapping, as

defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 12022, 12022.4, 12022.5, or 12022.7. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while such person is confined in a state prison, or is subject to reimprisonment for escape from such custody and the law either requires the terms to be served consecutively or the court imposes consecutive terms, the term of imprisonment for all such convictions which such person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

(d) When the court imposes a prison sentence for a felony pursuant to Section 1170 the court shall also impose the additional terms provided in Sections 667.5, 12022, 12022.4, 12022.5, 12022.6, and 12022.7, unless the additional punishment therefore is stricken pursuant to subdivision (g). The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the Judicial Council.

(e) When two or more enhancements under Sections 12022, 12022.4, 12022.5, and 12022.7 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of robbery, rape or burglary, or attempted robbery, rape or burglary the court may impose both (1) one enhancement for weapons as provided in either Section 12022, 12022.4, or 12022.5 and (2) an enhancement for great bodily injury as provided in Section 12022.7.

(f) The enhancements provided in Sections 667.5, 667.6, 12022, 12022.1, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, and 12022.8 shall be pleaded and proven as provided by law.

of this section, or an enhancement is imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.6 or 12022.7 or the defendant stands convicted of felony escape from an institution in which he is lawfully confined.

(h) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in Sections 667.5, 12022, 12022.4, 12022.5, 12022.6, and 12022.7 if it determines that there are circumstances in mitigation of the additional punishment and states on the record its reasons for striking the additional punishment.

(i) For any violation of subdivision (2) or (3) of Section 261, Section 264.1, subdivision (b) of Section 288, Section 289, or sodomy or oral copulation by force, violence, duress, menace or threat of great bodily harm as provided in Section 286 or 288a, the number of enhancements which may be imposed shall not be limited, regardless of whether such enhancements are pursuant to this or some other section of law. Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

SEC. 3.5. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667.5, 667.6, or 12022.1. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined in subdivision (c) of Section 667.5 exceed five years. (b) When a consecutive term of imprisonment is imposed under

Sections 669 and 1170 for two or more convictions for kidnapping, as defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 12022, 12022.4, 12022.5,, 12022.7, or 12022.9. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while the person is confined in a state prison, or is subject to reimprisonment for escape from such custody and the law either requires the terms to be served consecutively or the court imposes consecutive terms, the term of imprisonment for all the convictions which the person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

(d) When the court imposes a prison sentence for a felony pursuant to Section 1170 the court shall also impose the additional terms provided in Sections 667.5, 12022, 12022.4, 12022.5, 12022.6, 12022.7, and 12022.9, unless the additional punishment therefore is stricken pursuant to subdivision (g). The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the Judicial Council.

(e) When two or more enhancements under Sections 12022, 12022.4, 12022.5, 12022.7, and 12022.9 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of robbery, rape or burglary, or attempted robbery, rape or burglary the court may impose both (1) one enhancement for weapons as provided in either Section 12022, 12022.4, or 12022.5 and (2) an enhancement for great bodily injury as provided in Section 12022.7 or 12022.9.

(f) The enhancements provided in Sections 667.5, 667.6, 12022, 12022.1, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.8, and 12022.9 shall be pleaded and proven as provided by law.

(g) The term of imprisonment shall not exceed twice the number of years imposed by the trial court as the base term pursuant to

subdivision (b) of Section 1170 unless the defendant stands convicted of a "violent felony" as defined in subdivision (c) of Section 667.5, or a consecutive sentence is being imposed pursuant to subdivision (c) of this section, or an enhancement is imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.6, 12022.7, or 12022.9 or the defendant stands convicted of felony escape from an institution in which he is lawfully confined.

(h) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in Sections 667.5, 12022, 12022.4, 12022.5, 12022.6, 12022.7, and 12022.9 if it determines that there are circumstances in mitigation of the additional punishment and states on the record its reasons for striking the additional punishment.

(i) For any violation of subdivision (2) or (3) of Section 261, Section 264.1, subdivision (b) of Section 288, Section 289, or sodomy or oral copulation by force, violence, duress, menace or threat of great bodily harm as provided in Section 286 or 288a, the number of enhancements which may be imposed shall not be limited, regardless of whether such enhancements are pursuant to this or some other section of law. Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

SEC 4. Section 12022.4 is added to the Penal Code, to read:

12022.4. Any person who, during the commission or attempted commission of a felony, furnishes or offers to furnish a firearm to another for the purpose of aiding, abetting, or enabling that person or any other person to commit a felony shall, in addition and consecutive to the punishment prescribed by the felony or attempted felony of which the person has been convicted, be punished by an additional term of two years in the state prison. The additional term provided in this section shall not be imposed unless the fact of the furnishing is charged in the accusatory pleading and admitted or found to be true by the trier of fact.

The designated commission shall establish criteria for determining those programs which shall receive funding. The commission shall accept all program proposals, shall prioritize these proposals, and shall make recommendations to the board of supervisors as to those proposals which the commission feels should receive funding. Upon that showing, the court shall grant the request unless information presented by the defendant or noticed by the court establishes that the support person's attendance during the testimony of the prosecuting witness would pose a substantial risk of influencing or affecting the content of that testimony.

(c) The testimony of the person or persons so chosen who are also prosecuting witnesses shall be presented before the testimony of the prosecuting witness. The prosecuting witness shall be excluded from

the courtroom during that testimony. Whenever the evidence given by that person or those persons would be subject to exclusion because given before the corpus delicti has been established, the evidence shall be admitted subject to the court's or the defendant's motion to strike that evidence from the record if the corpus delicti is not later established by the testimony of the prosecuting witness.

(d) Nothing in this section shall be construed to prohibit any person from holding office or being employed as a superintendent, supervisor, or employee having custodial responsibilities in an institution operated by a probation department, if at the time of the person's hire a prior conviction of a felony was known to the person's employer, and the class of office for which the person was hired was not declared by law to be a class prohibited to persons convicted of a felony, but as a result of a change in classification, as provided by law, the new classification would prohibit employment of a person convicted of a felony.

CHAPTER 469

An act to repeal Section 20810.5 of, and to add Section 20930.1 to, the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor September 4, 1985 Filed with Secretary of State September 5, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 20810.5 of the Government Code is repealed.

SEC. 2. Section 20930.1 is added to the Government Code, to read:

20930.1. "Public service" for the employee of a student body organization, which is not a contracting agency, of a community college, means the period of such employment prior to becoming a member of the permanent classified service of the district pursuant

to Section 76062 or 88020 of the Education Code. A member electing to receive public service credit under this section shall contribute an amount equal to the total employee contributions which would have been requisitioned under Section 20585 had such service been rendered in the employ of the community college district and the member rates and compensation on the date of transfer had been in effect throughout the period of service credited.

The county superintendent of schools or superintendent of schools of an independently contracting community college district shall draw a requisition against the funds of the community college district for an amount equal to the total employer contribution which would have been requisitioned under Section 20585 had such service been rendered in the employ of the community college district and the employer rate and member compensation on the date of transfer had been in effect throughout the period of service credited.

The governing board may, at its discretion, establish a method of recovering a portion of, or the total liability for, the amount so requisitioned.

Section 20932 shall not apply to a member electing public service credit under this section.

CHAPTER 470

An act to add Chapter 4.8 (commencing with Section 84670) to Part 50 of the Education Code, relating to community colleges.

[Approved by Governor September 4, 1985 Filed with Secretary of State September 5, 1985]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4.8 (commencing with Section 84670) is added to Part 50 of the Education Code, to read:

CHAPTER 4.8. EQUIPMENT REPLACEMENT PROGRAM

84670. The Legislature finds and declares that it is in the interest of the people of the State of California to ensure the continuation of the quality of instructional programs in the California Community Colleges. The Legislature recognizes that in many community college districts high operational costs and limited district revenues have combined to restrict the ability of the district to provide for adequate equipment in instructional programs.

It is the intent of the Legislature in enacting this chapter that funds be allocated pursuant to the requirements of this chapter to provide for the necessary repair of instructional equipment and the replacement of instructional equipment that is outmoded. It is further the intent of the Legislature that an annual appropriation of

state funds be made for this purpose in the annual Budget Act.

84671. The Board of Governors of the California Community Colleges shall adopt rules and regulations for the allocation of funds appropriated for the purposes of this chapter, for the acquisition, maintenance, and replacement of equipment as appropriate to maintain or establish a high level of quality in the operation of instructional programs.

84672. Allocations shall not be based on specific projects identified by the districts, except as provided in Section 84673, but on a general allocation formula that, in the judgment of the board of governors, reasonably reflects the needs of districts on a statewide basis. The board of governors shall establish criteria for the allocation of funds under this formula on the basis of its review of districts throughout the state.

84673. (a) The board of governors may withhold up to 20 percent of the funds appropriated for the purposes of this chapter, for allocation to specifically identified projects where the board finds that the funds allocated to a district are not sufficient to fund a critically needed instructional equipment expenditure, or that special funding is necessary as a condition of a contribution from private business or industry pursuant to an instructional equipment expenditure.

(b) The board of governors may allocate up to 5 percent of the funds withheld under subdivision (a) for purposes of review and administration costs incurred by the Chancellor of the California Community Colleges pursuant to that subdivision.

84674. (a) The governing board of a community college district may expend funds allocated under the general allocation formula for any equipment acquisition, maintenance, or replacement necessary to the purposes of this chapter. Equipment expenditures made through funding under this chapter should ensure that students are able to obtain the desired level of knowledge in educational programs leading to their enrollment in four-year educational institutions or, for students in occupational education programs, to obtain the necessary skill and knowledge for entry into the work force.

(b) Each community college district receiving funds under this chapter shall separately account for those funds and may spend the funds only for the purpose or purposes for which they are allocated. These funds may be utilized to obtain equipment by purchase, lease, or lease with an option to purchase.

CHAPTER 471

An act to amend Section 12413 of the Insurance Code, relating to insurance.

(D) Unless written notification has been received from the financial institution to which the deposit was made establishing a longer period, for any item drawn on any state or federal credit union located in a state other than this state, that period established by regulations, issued pursuant to Article 1.8 (commencing with Section 866) of Chapter 7 of Division 1 of the Financial Code by the department having regulatory authority over the financial institution to which the item was deposited, as a reasonable time for permitting customers to draw on the item which was drawn on a financial institution located in a state other than this state, notwithstanding any provision in the regulations limiting their application to items having a face amount less than a stated amount.

(E) When the financial institution to which the item has been deposited considers the item available for withdrawal as a matter of right, and when a final settlement will occur, as indicated to the title insurance company, controlled escrow company, or underwritten title company, in writing, by the depository financial institution with respect to that item or type of item.

(e) As used herein, the deposit to an escrow account of an item, or the submission for collection of an item, shall be deemed to have occurred on the date denominated the day of deposit as set forth in the regulations adopted pursuant to Article 1.8 (commencing with Section 866) of Chapter 7 of Division 1 of the Financial Code, applicable to the financial institution to which the item is deposited or submitted for collection by the title insurer, controlled escrow company, or underwritten title company.

(f) For purposes of this section, the term "escrow account" means any depository account with a financial institution to which items or drafts are deposited with respect to any transaction wherein one person, for the purpose of effecting the sale, transfer, encumbering or leasing of real or personal property to another person, delivers any written instrument, money, evidence of title to real or personal property, or other thing of value to a third person to be held by such third person until the happening of a specified event or the

performance of a prescribed condition, when it is then to be delivered by such third person to a grantee, grantor, promisee, promisor, obligee, obligor, bailee, bailor, or any agency or employee of the latter.

(i) No title insurance company, controlled escrow company, or underwritten title company shall be liable for a violation of this section if the violation was not intentional or resulted from a bona fide error notwithstanding the maintenance of procedures reasonably adapted to avoid that error. Examples of bona fide errors include, but are not limited to clerical, calculation, computer malfunction and programming, and printing errors.

(j) Nothing in this section shall be deemed to prohibit the recordation of documents prior to the time funds would be available for disbursement with respect to a transaction provided the parties to the transaction consent in writing prior thereto.

20803. When the expenditure required for a district project exceeds ten thousand dollars ($10,000), it shall be contracted for and let to the lowest responsible bidder after notice, subject to the provisions of Section 20805.

In enacting this chapter, the Legislature intends to support increased efforts by local law enforcement agencies to investigate and apprehend career criminals through management, organization and operational techniques that have been demonstrated to be effective in selected cities and counties in this and other states, and through advanced state-of-the-art techniques that focus law enforcement efforts and resources on identifying persons subject to career criminal apprehension efforts.

SEC. 2. Section 13851 of the Penal Code is amended to read:

(c) Such allocation and award of funds shall be made upon application executed by the chief law enforcement officer of the applicant unit of government and approved by the legislative body. Funds disbursed under this chapter shall not supplant local funds that would, in the absence of the California Career Criminal Apprehension Program, be made available to support the apprehension of multiple or repeat felony criminal offenders.

(d) The Executive Director of the Office of Criminal Justice Planning shall prepare and issue administrative guidelines and procedures for the California Career Criminal Apprehension Program consistent with this chapter.

Highly qualified and experienced personnel shall be assigned to staff career criminal apprehension programs.

(2) Each career criminal apprehension program as one of its ongoing functions, shall maintain coordination with the prosecutor assigned to each case resulting from its efforts. This coordination should include, but not be limited to, case preparation, processing, and adjudication.

SEC. 4. Section 13853 of the Penal Code is amended to read:

13853. An individual may be the subject of career criminal apprehension efforts who is under investigation for the commission or attempted commission of one or more of the following felonies: homicide, rape or sexual assault, child molestation, robbery, burglary, arson, any unlawful act relating to controlled substances in violation of Section 11351 or 11352 of the Health and Safety Code, receiving stolen property, grand theft and grand theft auto; and who is determined to have committed three or more separate felony offenses not arising out of the same transaction, or has suffered at least one conviction during the preceding 10 years for the commission or attempted commission of any felony listed in subdivision (a), or at least two convictions during the preceding 10 years for the commission or attempted commission of any felony listed in subdivision (b):

The department shall require written evidence that the necessary consents have been obtained pursuant to this section and shall require application for either a transportation permit or manufactured home, mobilehome, or commercial coach registration as the department may decide is appropriate to the circumstances. Immediately upon removal, as defined in this section, the manufactured home, mobilehome, or commercial coach shall be deemed to have become personal property and subject to all laws governing the same as applicable to a manufactured home, mobilehome, or commercial coach.

(h) Notwithstanding any other provision of law, any manufactured home, mobilehome, or commercial coach installed on a foundation system, attached, or otherwise permanently affixed to, real property without compliance with subdivisions (b), (c), and (d), shall not be deemed a fixture or improvement to the real property. This subdivision shall not be construed to affect the application of sales and use or property taxes.

This subdivision shall only apply to the conversion of a rental mobilehome park which has been operated as a rental mobilehome park for a minimum period of five years.

With respect to financing activities conducted pursuant to Part 3 (commencing with Section 50900) or Part 4 (commencing with Section 51600) of Division 31, the authority shall obtain certification as a qualified mortgage lender pursuant to Section 50094.

(e) Provide counseling, referral, and advisory services to persons and families of low or moderate income in connection with the purchase, rental, occupancy, maintenance, or repair of housing.

(f) Provide the security which the authority deems necessary for the protection of a project and its inhabitants.

(g) Assist housing projects pursuant to Section 34312.3.

(h) Acquire, plan, undertake, construct, improve, develop, maintain, and operate land on which mobilehomes or a mobilehome park are, or may be, located, so long as not less than 20 percent of the mobilehomes are designated for occupancy by, or are occupied by, persons of low income. For purposes of this subdivision, "mobilehome" has the meaning specified in Section 18008, and "mobilehome park" has the meaning specified in Section 18214.

SEC. 4. Section 34516 of the Health and Safety Code is amended to read:

34516. A state public body may do any of the following:

(a) Any and all things, necessary or convenient, to aid and cooperate in the planning, undertaking, construction, or operation of housing projects.

(b) Purchase or legally invest in any of the bonds of a housing authority and exercise all of the rights of any holder of the bonds.

(c) Enter into leases or installment payment contracts without any limitation on the duration thereof for the purpose of aiding and cooperating with a housing authority in financing the acquisition, planning, undertaking, construction, or operation of land on which mobilehomes or a mobilehome park are, or may be, located, and exercise any powers with respect to that financing and land as it may exercise with respect to housing projects, if the requirements of subdivision (h) of Section 34312 are satisfied with respect to the percentage of occupancy by persons of low income.

It shall only become operative if (1) both bills become effective on or before January 1, 1986, but this bill becomes operative first, (2) each bill amends Section 18551 of the Health and Safety Code, and (3) this bill is enacted after AB 1567, in which case Section 18551 of the Health and Safety Code, as amended by Section 1 of this bill, shall remain operative only until the operative date of AB 1567, at which time Section 2 of this bill shall become operative.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide for uniformity with respect to foundation systems on mobilehomes at the earliest possible time, this act must take effect immediately. Moreover, many low-income owners and tenants of mobilehomes are in danger of losing their mobilehome residences because the value of the land on which their mobilehomes are located is disproportionate to its continued use as a mobilehome

site. This act would enable cities and housing authorities to cooperate in the financing of sites for mobilehomes. In order to allow financing in time to prevent loss of mobilehome sites for persons of low income, it is necessary that this act take immediate effect.

CHAPTER 486

An act to amend Sections 1522 and 1596.871 of the Health and Safety Code, relating to care facilities.

[Approved by Governor September 6, 1985 Filed with Secretary of State September 6, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 1522 of the Health and Safety Code is amended to read:

1522. It is the intent of the Legislature in enacting this section to require the fingerprints of those individuals whose contact with community care clients may pose a risk to the clients' health and safety.

(a) Before issuing a license or special permit to any person or persons to operate or manage a community care facility, the state department shall secure from an appropriate law enforcement agency a criminal record to determine whether the applicant or any other person specified in subdivision (b) has ever been convicted of a crime other than a minor traffic violation. No fee shall be charged by the Department of Justice or the state department for the fingerprinting of an applicant for a license or special permit to operate a facility providing nonmedical board, room, and care for six or less children or for obtaining a criminal record of the applicant pursuant to this section. If it is found that the applicant or any other person specified in subdivision (b) has been convicted of a crime, other than a minor traffic violation, the application shall be denied, unless the director grants an exemption pursuant to subdivision (e).

(b) In addition to the applicant, this section shall be applicable to criminal convictions of the following persons:

(1) Adults responsible for administration or direct supervision of staff.

(2) Any person, other than a client, residing in the facility.

(3) Any person who provides client assistance in dressing, grooming, bathing, or personal hygiene.

(4) Any staff person or employee who has frequent and routine contact with the clients. In determining who has frequent contact, any volunteer who is in the facility shall be exempt unless the volunteer is used to replace or supplement staff in providing direct care and supervision of clients. In determining who has routine contact, staff and employees under direct on site supervision and

who are not providing direct care and supervision or who have only occasional or intermittent contact with clients shall be exempt.

(5) Except for staff members of social rehabilitation facilities serving minors with alcohol or drug abuse problems, staff members of social rehabilitation facilities, other than those specified in paragraphs (1) and (2), are exempt from fingerprinting requirements.

(6) If the applicant is a firm, partnership, association, or corporation, the chief executive officer or other person serving in like capacity.

(7) Additional officers of the governing body of the applicant, or other persons with a financial interest in the applicant, as determined necessary by the department by regulation. The criteria used in the development of these regulations shall be based on the person's capability to exercise substantial influence over the operation of the facility.

(c) Subsequent to initial licensure, any person specified in subdivision (b) and not exempted from fingerprinting shall, as a condition to employment, residence, or presence in a community care facility, be fingerprinted and sign a declaration under penalty of perjury regarding any prior criminal convictions. The licensee shall submit these fingerprints to the licensing agency not later than 20 days following employment, residence, or initial presence in the community care facility. These fingerprints may be on a card provided by the Department of Social Services or by a local law enforcement office for the purpose of obtaining a permanent set of fingerprints. Upon request of the provider, who shall enclose a self-addressed stamped postcard for this purpose, the department shall verify receipt of the fingerprints.

Within 10 working days of the receipt of these fingerprints, the Department of Social Services shall submit them to the Department of Justice. Within 10 working days of the receipt of the criminal record or information regarding criminal convictions from the Department of Justice, the department shall, when necessary as determined by the department, notify the licensee of the criminal convictions, as provided in this subdivision. If new fingerprints are required for processing, the Department of Social Services shall notify the licensee within five working days from the date of notification by the Department of Justice that the fingerprints were illegible. Except for persons specified in paragraph (2) of subdivision (b), the licensee shall endeavor to ascertain the previous employment history of persons required to be fingerprinted under this subdivision. If it is determined by the Department of Social Services, on the basis of the fingerprints submitted to the Department of Justice, that the person has been convicted of a sex offense against a minor, or has been convicted for an offense specified in Section 243.4, 273a or 273d of the Penal Code, or has been convicted of a felony, the Department of Social Services shall notify the licensee to act immediately to terminate the person's

employment, remove the person from the community care facility, or bar the person from entering the community care facility. The Department of Social Services may subsequently grant an exemption pursuant to subdivision (e). If the conviction was for another crime, except a minor traffic violation, the licensee shall, upon notification by the Department of Social Services, act immediately to either (1) terminate the person's employment, remove the person from the community care facility, or bar the person from entering the community care facility; or (2) seek an exemption pursuant to subdivision (e). The Department of Social Services shall determine if the person shall be allowed to remain in the facility until a decision on the exemption is rendered.

(d) For purposes of this section or any other provision of this chapter, a conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action which the state department is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, notwithstanding a subsequent order pursuant to the provisions of Sections 1203.4 and 1203.4a of the Penal Code permitting the person to withdraw his or her plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment. For purposes of this section or any other provision of this chapter, the record of a conviction, or a copy thereof certified by the clerk of the court or by a judge of the court in which the conviction occurred, shall be conclusive evidence of the conviction.

(e) After review of the record, the director may grant an exemption from disqualification for a license or special permit pursuant to subdivision (a), or for employment, residence, or presence in a community care facility as specified in subdivision (c) if the director has substantial and convincing evidence to support a reasonable belief that the applicant and the person convicted of the crime, if other than the applicant, are of such good character as to justify issuance of the license or special permit or granting an exemption for purposes of subdivision (c). However, no exemption shall be granted pursuant to this subdivision if the conviction was for an offense specified in Section 220, 243.4 or 264.1 or paragraph (1) of Section 273a, Section 273d, 288, or 289 of the Penal Code, or was a conviction of another crime against an individual specified in subdivision (c) of Section 667.5 of the Penal Code.

SEC. 2. Section 1596.871 of the Health and Safety Code is amended to read:

1596.871. It is the intent of the Legislature in enacting this section to require the fingerprints of those individuals whose contact with child day care facility clients may pose a risk to the children's health and safety.

(a) Before issuing a license or special permit to any person to

operate or manage a day care facility, the department shall secure from an appropriate law enforcement agency a criminal record to determine whether the applicant or any other person specified in subdivision (b) has ever been convicted of a crime other than a minor traffic violation. No fee shall be charged by the Department of Justice or the department for the fingerprinting of an applicant who will serve six or fewer children for a license or for obtaining a criminal record of such an applicant pursuant to this section. If it is found that the applicant or any other person specified in subdivision (b) has been convicted of a crime, other than a minor traffic violation, the application shall be denied, unless the director grants an exemption pursuant to subdivision (e).

(b) In addition to the applicant, this section shall be applicable to criminal convictions of the following persons:

(1) Adults responsible for administration or direct supervision of staff.

(2) Any person, other than a child, residing in the facility.

(3) Any person who provides assistance to the children in care in dressing, grooming, bathing, or personal hygiene.

(4) Any staff person or employee who has frequent and routine contact with the children. In determining who has frequent contact, any volunteer who is in the facility shall be exempt unless the volunteer is used to place or supplement staff in providing direct care and supervision of children in care. In determining who has routine contact, staff and employees under direct onsite supervision and who are not providing direct care and supervision or who have only occasional or intermittent contact with clients shall be exempt. At the time of employment, all staff and employees required to be fingerprinted shall sign a statement regarding prior criminal convictions and be fingerprinted. Fingerprints shall be submitted to the licensing agency within 20 days following employment.

(5) If the applicant is a firm, partnership, association, or corporation, the chief executive officer, other person serving in like capacity, or a person designated by the chief executive officer as responsible for the operation of the facility.

(6) Additional officers of the governing body of the applicant, or other persons with a financial interest in the applicant, as determined necessary by the department by regulation. The criteria used in the development of these regulations shall be based on the person's capability to exercise substantial influence over the operation of the facility.

(7) This section does not apply to adult volunteers or adult staff employed by the applicant on an intermittent basis for less than 10 days per month, provided that these adults are under constant supervision by adults who meet the requirements of this section.

(8) This section does not apply to employees of school districts operating day care centers under contract with the State Department of Education.

(c) Subsequent to initial licensure, any person specified in

subdivision (b) and not exempted from fingerprinting shall, as a condition to employment, residence, or presence in a child day care facility be fingerprinted and sign a declaration under penalty of perjury regarding any prior criminal conviction. The licensee shall submit these fingerprints to the licensing agency not later than 20 days following employment, residence, or initial presence in the child day care facility. Except for persons specified in paragraph (2) of subdivision (b), the licensee shall endeavor to ascertain the previous employment history of persons required to be fingerprinted under this subdivision. If it is determined by the department, on the basis of fingerprints submitted to the Department of Justice, that the person has been convicted of a sex offense against a minor, or has been convicted of an offense specified in Section 243.4, 273a or 273d of the Penal Code, or has been convicted of a felony, the Department of Social Services shall notify the licensee to act immediately to terminate the person's employment, remove the person from the child day care facility, or bar the person from entering the child day care facility. The department may subsequently grant an exemption pursuant to subdivision (e). If the conviction was for another crime except a minor traffic violation, the licensee shall, upon notification by the Department of Social Services, act immediately to either (1) terminate the person's employment, remove, and bar the person from the child day care facility, or (2) seek an exemption pursuant to subdivision (e). The department shall determine if the person shall be allowed to remain in the facility until a decision on the exemption is rendered.

(d) For purposes of this section or any other provision of this chapter, a conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action which the department is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, notwithstanding a subsequent order pursuant to Sections 1203.4 and 1203.4a of the Penal Code permitting the person to withdraw his or her plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment. For purposes of this section or any other provision of this chapter, the record of a conviction, or a copy thereof certified by the clerk of the court or by a judge of the court in which the conviction occurred, shall be conclusive evidence of the conviction.

(e) After review of the record, the director may grant an exemption from disqualification for a license or special permit pursuant to subdivision (a), or for employment, residence, or presence in a child day care facility as specified in subdivision (c) if the director has substantial and convincing evidence to support a reasonable belief that the applicant and the person convicted of the

crime, if other than the applicant, are of such good character as to justify issuance of the license or special permit or granting an exemption for purposes of subdivision (c). However, no exemption shall be granted pursuant to this subdivision if the conviction was for an offense specified in Section 220, 243.4, or 264.1, or paragraph (1) of Section 273a or 273d, or Section 288 or 289 of the Penal Code, or was a conviction of another crime against an individual specified in subdivision (c) of Section 667.5 of the Penal Code.

(f) Immediately upon the denial of any application for a license or for a special permit, the department shall notify the applicant in writing. Within 15 days after the department mails the notice, the applicant may present his or her written petition for a hearing to the department. Upon receipt by the department of the petition, the petition shall be set for hearing. The hearing shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the department has all the powers granted in that chapter.

(g) For the purposes of compliance with this section, the department may designate a child care resource and referral agency or other agency in each county to maintain a file of criminal records clearances, as defined in subdivison (a), for individuals employed on a temporary basis by applicants in that county.

(h) The department shall provide written confirmation to applicants within 30 days after receipt of materials submitted for compliance with this section.

(i) For the purposes of compliance with this section, the department shall permit an individual to transfer a current criminal records clearance, as defined in subdivision (a), from one facility to another when changing employment. The department shall supply the individual with documentation of the clearance within 30 days of a written request for the records.

SEC. 2.5. Section 1596.871 of the Health and Safety Code, as added by Section 9 of Chapter 1615 of the Statutes of 1984, is amended to read:

(a) Before issuing a license or special permit to any person to operate or manage a day care facility, the department shall secure from an appropriate law enforcement agency a criminal record to determine whether the applicant or any other person specified in subdivision (b) has ever been convicted of a crime other than a minor traffic violation. No fee shall be charged by the Department of Justice or the department for the fingerprinting of an applicant for a license to serve six or fewer children or for obtaining a criminal record of such an applicant pursuant to this section. If it is found that the applicant or any other person specified in subdivision (b) has been convicted of a crime, other than a minor traffic violation, the

(1) Adults responsible for administration or direct supervision of staff.

(2) Any person, other than a child, residing in the facility.

(6) Additional officers of the governing body of the applicant, or other persons with a financial interest in the applicant, as determined necessary by the department by regulation. The criteria used in the development of these regulations shall be based on the person's capability to exercise substantial influence over the operation of the facility.

(7) This section does not apply to adult volunteers or adult staff employed by the applicant on an intermittent basis for less than 10 days per month, provided that these adults are under constant supervision by adults who meet the requirements of this section.

(8) This section does not apply to employees of child care and development programs under contract with the State Department of Education who have completed a criminal records clearance as part of an application to the state commission on Teacher Credentialing, and who possess a current credential or permit issued by the commission. (c) Subsequent to initial licensure, any person specified in subdivision (b) and not exempted from fingerprinting shall, as a condition to employment, residence, or presence in a child day care facility be fingerprinted and sign a declaration under penalty of perjury regarding any prior criminal conviction. The licensee shall submit these fingerprints to the licensing agency not later than 20

days following employment, residence, or initial presence in the child day care facility. Except for persons specified in paragraph (2) of subdivision (b), the licensee shall endeavor to ascertain the previous employment history of persons required to be fingerprinted under this subdivision. If it is determined by the department, on the basis of fingerprints submitted to the Department of Justice, that the person has been convicted of a sex offense against a minor, or has been convicted of an offense specified in Section 243.4, 273a, or 273d of the Penal Code, or has been convicted of a felony, the Department of Social Services shall notify the licensee to act immediately to terminate the person's employment, remove the person from the child day care facility, or bar the person from entering the child day care facility. The department may subsequently grant an exemption pursuant to subdivision (e). If the conviction was for another crime except a minor traffic violation, the licensee shall, upon notification by the Department of Social Services, act immediately to either (1) terminate the person's employment, remove and bar the person from the child day care facility, or (2) seek an exemption pursuant to subdivision (e). The department shall determine if the person shall be allowed to remain in the facility until a decision on the exemption is rendered.

(d) For purposes of this section or any other provision of this chapter, a conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action which the department is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, notwithstanding a subsequent order pursuant to Sections 1203.4 and 1203.4a of the Penal Code permitting the person to withdraw his or her plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment. For purposes of this section or any other provision of this chapter, the record of a conviction, or a copy thereof certified by the clerk of the court or by a judge of the court in which the conviction occurred, shall be conclusive evidence of the conviction.

(e) After review of the record, the director may grant an exemption from disqualification for a license or special permit pursuant to subdivision (a), or for employment, residence, or presence in a child day care facility as specified in subdivision (c) if the director has substantial and convincing evidence to support a reasonable belief that the applicant and the person convicted of the crime, if other than the applicant, are of such good character as to justify issuance of the license or special permit or granting an exemption for purposes of subdivision (c). However, no exemption shall be granted pursuant to this subdivision if the conviction was for an offense specified in Section 220, 243.4, or 264.1, or paragraph (1)

of Section 273a or 273d, or Section 288 or 289 of the Penal Code, or was a conviction of another crime against an individual specified in subdivision (c) of Section 667.5 of the Penal Code.

(f) The department shall provide written confirmation to applicants within 30 days after receipt of fingerprint cards and fees submitted for compliance with this section.

(g) For the purposes of compliance with this section, the department shall permit an individual to transfer a current criminal records clearance, as defined in subdivision (a), from one facility to another when changing employment. The department shall supply the individual with documentation of the clearance within 30 days of a written request for the records.

SEC. 2.7. Section 2.5 of this bill incorporates amendments to Section 1596.871 of the Health and Safety Code proposed by both this bill and SB 84. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1986, (2) each bill amends Section 1596.871 of the Health and Safety Code, and (3) this bill is enacted after SB 84, in which case Section 2 of this bill shall not become operative.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

[Approved by Governor September 6, 1985 Filed with Secretary of State September 9, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 44252 of the Education Code is amended to read:

44252. (a) The commission shall establish standards and procedures for the initial issuance and renewal of credentials.

(b) Commencing on February 1, 1983, the Commission on Teacher Credentialing shall not issue initially any credential, permit, certificate, or renewal of an emergency credential to any person to serve in the public schools unless the person has demonstrated proficiency in basic reading, writing, and mathematics skills in the English language as provided in Section 44252.5. However, an emergency credential holder who has passed the basic skills proficiency test shall not be required to repeat the test in order to obtain a renewal of his or her emergency credential. The commission shall exempt from the basic skills proficiency test requirement any of the following persons:

(1) A person credentialed solely for the purpose of teaching adults in an apprenticeship program.

(2) An applicant for an adult education designated subject credential for other than an academic subject.

(3) A person credentialed in another state who is an applicant for employment in a school district in this state who has passed a basic skills proficiency examination which has been developed and administered by the school district offering that person employment. School districts administering a basic skills proficiency examination under this paragraph shall comply with the requirements of subdivision (h) of Section 44830. Such an applicant shall be granted a nonrenewable emergency credential, valid for not longer than one year, pending fulfillment of the basic skills proficiency requirement

pursuant to Section 44261.5. The commission shall report to the Legislature no later than January 1, 1984, on the number of teachers receiving emergency credentials without fulfilling the basic skills proficiency requirement, the districts in which these teachers are employed, the number of teachers granted clear credentials after the expiration of an emergency credential granted under these conditions, and a comparison of success rate of these teachers on the basic skills test with the success rate of the general pool of credential applicants.

(4) An applicant for a child care center permit or a permit authorizing service in a development center for the handicapped, so long as the holder of the permit is not required to have a baccalaureate degree.

(5) The holder of a credential, permit, or certificate to teach, other than an emergency credential, who seeks an additional authorization to teach.

(6) An applicant for a credential to provide service in the health profession.

(c) By December 31, 1982, the Superintendent of Public Instruction shall adopt an appropriate state test to measure proficiency in these basic skills. In adopting the test, the superintendent shall seek assistance from the commission and an advisory board. A majority of the members of the advisory board shall be classroom teachers. The board shall also include representatives of local school boards, school administrators, parents, and postsecondary institutions.

The superintendent shall adopt any normed test that the superintendent determines will sufficiently test basic skills for purposes of this section.

The superintendent, in conjunction with the commission and approved teacher training institutions, shall take steps necessary to insure the effective implementation of this provision.

(d) Nothing in this section shall be construed as requiring the holders of, or applicants for, a designated subjects special subjects credential or vocational designated subject credential to pass the state basic skills proficiency test, unless the requirements for the specific credential required the possession of a baccalaureate degree. The governing board of each school district, or each governing board of a consortium of school districts, or each governing board involved in a joint powers agreement, which employs a holder of a designated subjects special subjects credential or vocational designated subject credential shall establish its own basic skills proficiency criteria for the holders of these credentials and shall arrange for those individuals to be assessed. The basic skills proficiency criteria established by the governing board shall be at least equivalent to the test required by the district, or in the case of a consortium or a joint powers agreement, by any of the participating districts, for graduation from high school. The governing board or boards may charge a fee to individuals being tested to cover the costs of the test,

including the costs of developing, administering, and grading the test.

(e) The commission shall compile data regarding the rate of passing the state basic skills proficiency test by persons who have been trained in various institutions of higher education. The data shall be available to members of the public, including to persons who intend to enroll in teacher education programs.

SEC. 2. Section 44256 of the Education Code is amended to read:

44256. Authorization for teaching credentials shall be of four basic kinds, as defined below:

(a) "Single subject instruction" means the practice of assignment of teachers and students to specified subject matter courses, as is commonly practiced in California high schools and most California junior high schools. The holder of a single subject teaching credential or a standard secondary credential who has completed 20 semester hours of coursework or 10 semester hours of upper division or graduate coursework approved by the commission at an accredited institution in any subject commonly taught in grades 7 to 12, other than the subject for which he or she is already certificated to teach, shall be eligible to have this subject appear on the credential as an authorization to teach this subject. The commission, by regulation, may require that evidence of additional competence is a condition for instruction in particular subjects, including, but not limited to, foreign languages. The commission may establish and implement alternative requirements for additional authorizations to the single subject credential on the basis of specialized needs.

(b) "Multiple subject instruction" means the practice of assignment of teachers and students for multiple subject matter instruction, as is commonly practiced in California elementary schools and as is commonly practiced in early childhood education.

The holder of a multiple subject teaching credential or a standard elementary credential who has completed 20 semester hours of coursework or 10 semester hours of upper division or graduate coursework approved by the commission at an accredited institution in any subject commonly taught in grades 6, 7, 8, and 9 shall be eligible to have that subject appear on the credential as authorization to teach the subject in departmentalized classes in grades 6, 7, 8, and 9. The holder of a multiple subject teaching credential or a standard elementary credential shall be authorized to teach any subject in departmentalized classes to a given class or group of students below grade 9, provided that the teacher has completed at least eight semester units, or four upper division or graduate units, of coursework at an accredited institution in each subject to be taught. The authorization shall be with the teacher's consent and shall be restricted to a partial assignment. However, the commission, by regulation, may provide that evidence of additional competence is necessary for instruction in particular subjects, including, but not limited to, foreign languages. The commission may establish and implement alternative requirements for additional authorizations to

the multiple subject credential on the basis of specialized needs.

(c) "Specialist instruction" means any specialty requiring advanced preparation or special competence including, but not limited to, reading specialist, mathematics specialist, specialist in special education, or early childhood education, and such other specialties as the commission may determine.

(d) "Designated subjects" means the practice of assignment of teachers and students to designated technical, trade, or vocational courses which courses may be part of a program of trade, technical, or vocational education.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to authorize the holders of single subject, multiple subject, and standard elementary and secondary teaching credentials meeting the coursework requirements prescribed by this act to teach in the subjects authorized for their credentials by this act in the 1985-86 school year, it is necessary that this act take effect immediately.

liquid spillage when used in a proper manner. To the maximum extent practicable, the additional performance standards shall allow flexibility in the design of gasoline vapor recovery systems and their components.

(c) The state board shall certify any gasoline vapor control system, upon its determination that the system, if properly installed and maintained, will meet the requirements of subdivision (a). The state board shall enumerate the specifications used for issuing such certification. After a system has been certified, if circumstances beyond control of the state board cause the system to no longer meet the required specifications, the certification may be revoked or modified.

(h) With respect to those vapor recovery systems subject to certification by the state board, there shall be no criminal or civil proceedings commenced or maintained for failure to comply with any statute, rule, or regulation requiring a specified vapor recovery efficiency if the vapor control equipment which has been installed to comply with applicable vapor recovery requirements has been:

(2) Installed, operated, and maintained in accordance with the instructions of the equipment manufacturer.

(i) Notwithstanding subdivision (g), until the time that more than one system, including at least one balance-type system, is certified under the standards adopted by the state board pursuant to subdivision (c) and by the Division of Measurement Standards pursuant to subdivision (c) of Section 41956, gasoline vapor control systems which have been installed and are operating in compliance with the requirements of the Bay Area Air Quality Management District shall be exempt from any requirements for retrofitting those systems with new or additional equipment for the purpose of achieving greater vapor recovery efficiency. In addition, a rebuilder of a vapor control system shall remove any identification of the original manufacturer where the removal does not affect the continued safety or performance of the vapor control system.

(c) The state board shall identify equipment defects in systems for the control of gasoline vapors resulting from motor vehicle fueling operations which substantially impair the effectiveness of the systems in reducing air contaminants.

(d) When a district determines that a component contains a defect specified pursuant to subdivision (b), the district shall mark the component "Out of Order". No person shall use or permit the use of the component until the component has been repaired, replaced, or adjusted, as necessary, and the district has reinspected the component or has authorized use of the component pending reinspection.

If, within seven days, the operator provides the district with adequate evidence that the component is in good working order, the operator shall not be subject to liability under this division.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 511

An act to amend and repeal Section 6571 of, and to add and repeal Section 6546.13 of, and to add Article 12 (commencing with Section 53590) to Chapter 3 of Division 2 of Title 5 of, the Government Code, relating to local agencies, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 8, 1985 Filed with Secretary of State September 9, 1985]

The people of the State of California do enact as follows:

SECTION 1. Section 6546.13 is added to the Government Code, to read:

6546.13. Notwithstanding Section 6553, any agency, commission, or board established by joint powers agreement pursuant to Article 1 (commencing with Section 6500) and created in a county of the fifth class, as determined by Section 28026, with authority to finance the acquisition, construction, and renovation of public health facilities, in the case of bonds issued with a rate of interest which is subject to periodic variation during the term of the bond issue and which are subject to the maximum rate of interest set forth in Section 6553, may provide for payment of interest on those bonds at a rate which exceeds the maximum allowable rate of interest in effect at

the time of issuance if (a) the initial rate of interest payable on the bonds does not exceed that maximum allowable rate, (b) prior to the issuance of the bonds the governing body of the hospital financing authority has estimated that the average rate of interest on the bonds during the term of the bond issue will not exceed the maximum allowable rate in effect at the time of issuance, which estimation shall be final and conclusive, and (c) the interest payable on the bonds does not exceed the greater of either (1) a rate which is 1 percent per annum above the prime rate of interest then in effect as used by a banking institution designated by the authority, or (2) the maximum allowable rate in effect at the time of issuance.

Notwithstanding Section 6553, interest on bonds of the authority may be made at times determined by the authority, as provided in the indenture authorizing issuance of the bonds, but no less frequently than annually.

This section shall remain in effect only until January 1, 1988, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1988, deletes or extends that date.

SEC. 2. Section 6571 of the Government Code is amended to read:

6571. The bonds shall be issued and sold as the governing body may determine and for not less than par and accrued interest to date of delivery, except that, in the case of a project for the generation or transmission of electric energy, a project for the disposal, treatment, or conversion of energy and reusable materials of solid waste, or a project for a purpose specified in Section 6546.6, or a project for an intermodal container transfer facility specified in Section 6546.12, or a project for a health facility specified in Section 6546.13, or in the case of bonds of a fair and exhibition authority, the bonds may be sold at less than par if the governing body determines that sale of the bonds at less than par will result in more favorable terms for the bonds. The sale shall be conducted in compliance with Chapter 10 (commencing with Section 5800) of Division 6 of Title 1, unless, in the case of a project for the generation or transmission of electric energy, a project for the disposal, treatment, or conversion of energy and reusable materials of solid waste, a project for the development and construction of an intermodal container transfer facility specified in Section 6546.12, a project for a health facility specified in Section 6546.13, or in the case of bonds of a fair and exhibition authority, the governing body determines that a negotiated sale of the bonds is necessary, in which case the bonds shall be sold on such terms as shall be approved by the governing body.

The proceeds from the sale (except premium and accrued interest, which shall be paid into the bond service or other fund designated or established for the payment of the principal and interest of the bonds) shall be paid into the construction fund or other fund designated by the indenture authorizing the issuance of the bonds and shall be applied exclusively to the objects and purposes set forth in such indenture, including all expenses incidental thereto

or in connection therewith, and also including the payment of interest on the bonds during the period of study and construction of the project and for a period not to exceed 12 months after completion of such construction.

This section shall remain in effect only until January 1, 1988, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1988, deletes or extends that date. If that date is not deleted or extended, then, on and after January 1, 1988, pursuant to Section 9611 of the Government Code, Section 6571 of the Government Code, as amended by Section 3 of Chapter 914 of the Statutes of 1983, shall have the same force and effect as if this temporary provision had not been enacted.

SEC. 3. Article 12 (commencing with Section 53590) is added to Chapter 3 of Division 2 of Title 5 of the Government Code, to read:

Article 12. Financial Advisers and Bond Counsel

53590. The following terms shall have the following meanings for purposes of this article.

(a) "Bond counsel" means any attorney or firm of attorneys that represent the issuer of a new issue of bonds with respect to the issuance of the bonds and that renders a written legal opinion to, or as counsel for, the issuer with respect to the validity of the bonds.

(b) "Bond" means any bonds, notes, certificates of participation, or other evidences of indebtedness issued by any local agency pursuant to any provision of law of the state. "New issue of bonds" means the original issuance of bonds, including refunding bonds, by the issuer to one or more purchasers until, in the case of underwriters, the end of the underwriting period. In the case of bonds with a tender or put option feature, or commercial paper, "new issue of bonds" means only the original issuance and not any remarketing, rollover, or reissuance.

(c) "A financial advisory relationship" exists when an investment firm, or other person or firm in the business of providing financial advisory or consulting services to issuers with respect to municipal securities, renders, or enters into an agreement to render, financial advisory or consultant services to, or on behalf of, an issuer with respect to a new issue or issues of bonds, including advice with respect to the structure, timing, terms, and other similar matters concerning the issue or issues, for a fee or other compensation or in expectation of such compensation for the rendering of those services. However, a financial advisory relationship does not to exist when, in the course of acting as an underwriter, an investment firm renders advice to an issuer, including advice with respect to the structure, timing, terms, and other similar matters concerning a new issue of bonds.

(d) "Investment firm" means any bank, investment bank, partnership, corporation, association, or other firm engaged in the business of buying and selling bonds for its own account or for the

account of others as part of its regular business.

(e) "Local agency" means a public district, public corporation, authority, agency, board, commission, county, city and county, city, school district, or other local public entity.

53591. No investment firm that has a financial advisory relationship with respect to a new issue of bonds shall acquire as principal either alone or as a participant in a syndicate or other similar account formed for the purpose of purchasing, directly or indirectly, from the issuer all or any portion of the issue, or arrange for the acquisition or participation by a person controlling, controlled by, or under common control with the investment firm, unless the issue is to be sold by the issuer at competitive bid and the issuer has, prior to the bid, expressly consented in writing to the acquisition or participation. The limitations and requirements set forth in this section also apply to any investment firm controlling, controlled by, or under common control with the investment firm having a financial advisory relationship. The use of the term "indirectly" in this section does not preclude any investment firm which has a financial advisory relationship with respect to a new issue of bonds from purchasing any of those bonds from an underwriter, either for its own trading account or for the account of its customers, except to the extent that the purchase is made to contravene the purpose and intent of this section.

53592. Each financial advisory relationship shall be evidenced by a written document executed prior to, upon, or promptly after the inception of the financial advisory relationship, or promptly after the creation or selection of the issuer if the issuer does not exist or has not been determined at the time the relationship commences. That written document shall set forth the basis of compensation for the financial advisory services to be rendered, which shall be on a basis other than as a percentage of the amount of the bonds to be sold.

53593. No bond counsel with respect to a new issue of bonds shall also be counsel, with respect to that new issue of bonds, to the underwriter or other purchaser of the bonds. This section does not preclude the bond counsel from rendering one or more opinions to the underwriter or purchaser with respect to the bonds, the documents or laws pursuant to which the bonds are issued, the official statement, offering circular, or other disclosure document describing the bonds, or any related matters, if the opinion is rendered as bond counsel and not as counsel to the underwriter or purchaser.

53594. Injunctive relief shall be available, subject to judicial discretion, to prohibit or enjoin any violation of this article, but no violation shall affect the authority, validity, or enforceability of bonds.

SEC. 4. Due to unique circumstances affecting the acquisition, construction, and renovation of public health facilities by a joint powers entity established by local agencies in a county of the fifth class, the Legislature finds and declares that a general act, within the

meaning of Section 16 of Article IV of the California Constitution, cannot be made applicable for the purposes of Sections 1 and 3 of this act.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Public entities have recently been able to reduce the cost of borrowing for capital improvements through the issuance of variable rate bonds. The joint exercise of powers law presently contains restrictions on the issuance of bonds which make it very difficult to issue variable rate bonds. In order to enable joint powers authorities to issue variable rate bonds to finance health facilities and in order to enact provisions regulating financial advisory relationships as soon as possible, it is necessary that this act take effect immediately.

(b) An appointing power may terminate, demote, or transfer an employee who fails to meet a requirement for continuing employment that is prescribed by the board on or after January 1, 1986, in the specification for the classification to which the employee is appointed; provided that as prescribed by Article 11 (commencing
