Based upon this methodology, local education agencies shall report to the superintendent, by November 1, 1986, the total costs incurred, including costs funded from state, federal, and local sources, for providing noneducational services in the 1985–86 fiscal year to special education pupils who (1) received psychotherapy or other mental health services pursuant to an individualized education plan, or (2) were classified as seriously emotionally disturbed, as defined by paragraph 8, subdivision (b) of Section 300.5 of Title 34 of the Code of Federal Regulations, and received residential care pursuant to an individualized education plan. This review may be based, if necessary, upon a random sample. The Auditor General may adjust the reported costs by the percentage inflation adjustment provided in Item 6100-226-001(g) in order to reflect the effects of inflation on 1985–86 costs.

For purposes of this provision, the amount transferred to the State Department of Mental Health shall be deemed as not including the amount specified in Provision 19.

19. In the report required by Provision 16, the Auditor General shall estimate to what extent, if any, the amount recommended for transfer to the State Department Mental Health pursuant to Provision 17 exceeds the amount expended by local education agencies in the 1985–86 fiscal year (as adjusted for inflation) for psychotherapy and other mental health services provided pursuant to an individualized education plan and which, pursuant to Chapter 26 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code, will be provided by the State Department of Mental Health commencing in the 1986–87 fiscal year. No funds appropriated in this item or Item 6610-021-146 or Item 6610-301-146 may be used by the Trustees of the California State University to reclassify instructional capacity space, administrative space, library space, or faculty offices to other uses unless and until any such proposed reclassification is first approved by the Department of Finance and 30 days' written notification is provided to the Chairperson of the Joint Legislative Budget Committee or his or her designee, or not sooner than such lesser time as the chairperson of the committee, or his or her designee, may in each instance determine.
5. Since it is the intent of the Legislature in enacting this act that no qualified student be denied admission to the California State University because of a budget deficiency caused by unanticipated additional enrollments, the Director of Finance may, following the adoption of a resolution by the Trustees of the California State University declaring an enrollment emergency, authorize the accelerated expenditure of amounts budgeted for the state university, in the form of an agreement to seek a supplementary appropriation from the General Fund to the extent necessary to ensure that all qualified students can be admitted when the Director of Finance certifies that the systemwide enroll-

ment of the California State University exceeds by 2 percent or more the enrollment upon which the budget for the state university was based; provided, that no increased expenditure may exceed $6,000,000 in the aggregate for both the California State University and the University of California or be authorized sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than such lesser time as the chairperson of such committee, or his or her designee, may in each instance determine.

In the event that the systemwide enrollment of the California State University is under the budgeted enrollment by more than 2 percent, such excess shall be unallocated by the Director of Finance. Unallocated funds may be reallocated to preclude layoffs only after the Director of Finance has approved such action and shall not be authorized sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than such lesser time as the chairperson of such committee, or his or her designee, may in each instance determine.

Based upon fall annualized full-time equivalent (FTE) students, all surplus funds withdrawn from any campus consistent with the policy of the California State University (CSU) system due to fluctuations in student enrollments, shall be returned:

(a) To campuses with enrollments in excess of the budgeted level consistent with the CSU policy and

(b) To all campuses for allocation to the programs of "Instruction" and "Academic Support".

"Surplus" is defined as those funds in excess of that returned to the state pursuant to this section. No exceptions to the above prescribed allocation may be made unless prior approval is given by the Department of Finance and is reported to the Chairperson of the Joint Legisla-

tive Budget Committee, and the financial necessity of any such exception shall be identified.

6. The funds appropriated in this item for Program 05—Student Service, to provide financial aid to California State University students, shall be used to provide financial aid to needy students according to the nationally accepted needs analysis methodology.
7. Of the funds herein appropriated, $25,410,000 is for increases in salaries and wages, including increases in benefits related thereto for nonfaculty employees, and $4,509,000 is for increases in other benefits for faculty and nonfaculty employees, in such amounts as will make sufficient money available for each employee of the California State University, whose compensation, or portion thereof, is chargeable to the General Fund, to receive any such increases provided on or after July 1, 1986 by the Trustees of the California State University.

   Funds appropriated for employee compensation increases are to be expended in accordance with approved memoranda of understanding or, for employees excluded from collective bargaining in units not yet certified, or in units that are certified but are not bargaining for a 1986–87 memorandum of understanding as of the date of this act, in accordance with salary and benefit schedules established by the Trustees of the California State University.
9. Effective Winter Quarter (or Spring Semester) 1987, no funds shall be appropriated for enrollment in courses for participation in intramural athletics, student orientation to the university, or student orientation to the campus library, if these courses, upon review, are determined not to be academically based. The chancellor, with the advice of the Academic Senate, shall develop guidelines, including criteria for identifying these courses. This provision shall be implemented by January 1, 1987. The chancellor shall submit a report to the Joint Legislative Budget Committee by March 30, 1987, on the guidelines, including a description of the process for developing the guidelines and a list of the courses affected.

Each such schedule is a restriction or limitation upon the expenditure of the respective appropriation made by this act, does not itself appropriate any money, and is not itself an item of appropriation.

As used in this act in reference to such schedules "category", "program", or "project" means a class of expenditures such as, but not limited to:

The appropriations made by Sections 20751, 20752, 20782, 20783, 22828, and 22829 of the Government Code and by Sections 23000 and 23400 of the Education Code, shall continue to be available for expenditure, and shall be charged for any expenditure which is not chargeable to an appropriation for support or other expenses as provided in this section. (2) Subtract the amount computed pursuant to paragraph 1 from each district's base revenues, for the appropriate fiscal year, as computed pursuant to Section 84701 of the Education Code.

(g) Subdivisions (b) and (c) shall be effective only if the Public Employees' Retirement System's Board of Administration authorizes the amounts related to the reduction to the reserve against deficiencies and the surplus IDDA funds to be used as employer contribution relief and implementing legislation is enacted.

(h) For computation of district revenue limits for the 1987–88 fiscal year, the reductions made pursuant to subdivisions (e) and (f) shall be disregarded.

The Department of Finance shall certify to the State Controller the amount of the reductions in this act by item and category. In addition, for purposes of calculating the "appropriations subject to limitation" as defined in Section 8 of Article XIII B of the California Constitution, the appropriations in this act shall be deemed to be the amounts remaining after the reductions required by this section are made.

Notwithstanding any other provisions of law, the unencumbered balances as of June 30, 1986, of the appropriations made by Items 0160-001-001 and 8840-001-001 of the Budget Act of 1985 are reappropriated and shall be available for encumbrance until June 30, 1987 for the same programs and purposes for which appropriations for these items have been made by this act.

Pursuant to Section 12460 of the Government Code, this report shall be based on financial and statistical reports, duly verified and covering the period of each fiscal year, from all agencies of the state included within the provisions of Section 13300 of the Government Code.

These reports shall be submitted to the Controller by July 31 of the subsequent fiscal year. If any agency fails to submit a report by September 30 of the subsequent fiscal year, the Controller shall cease to pay all warrants, bills, and other liabilities acquired by the agency. RESOURCES

SEC. 18.10. No expenditure from an appropriation made by this act to the Department of Parks and Recreation shall be made to modify, execute, or approve an operating lease, or an operating agreement with any local entity or any nonprofit corporation, unless either of the following has occurred:

(1) The Legislature has reviewed the lease, or agreement as part of the support or capital outlay budget of the Department of Parks and Recreation and expressed approval of the expenditure from an appropriation made by this act through the supplemental language report.

(2) The State Public Works Board has approved the lease, or an agreement not sooner than 20 days after the Director of Finance has provided written notification to the Chairperson of the Joint Legislative Budget Committee, the Chairperson of the Assembly Ways and Means Committee, and the Chairperson of the Senate Budget and Fiscal Review Committee, and upon a determination by the board that the proposal could not have reasonably been presented to the Legislature through the annual budget process.

The Department of Parks and Recreation shall include with the proposed lease or agreement sufficient documentation to enable the Legislature, or the board, as the case may be, to evaluate fully the estimated operating costs and revenues and all terms upon which the lease or agreement is proposed to be entered into. Specifically, the documentation shall identify (1) any anticipated costs to the state for operation or development under the agreement and the anticipated state share of total operation and development costs and (2) the anticipated annual revenues, net of operation costs, for the unit and the state's share of these revenues.

(b) Subdivision (a) shall become operative only to the extent that federal funds budgeted in this act are not allocated to the state. The Director of Finance shall notify the Legislature of any such augmentation through the process outlined in Section 28.00.

SEC. 24.30. (b) If, after apportioning funds pursuant to subdivision (a), there are funds still available pursuant to Chapter 24 (commencing with Section 17780) of Part 10 of the Education Code, the State Allocation Board shall apportion the remaining funds in accordance with subdivision (c).

(c) (1) School districts may submit applications to the State Allocation Board for deferred maintenance funding in addition to the amounts specified in Section 39619 of the Education Code. These matching funds shall be deposited in the District Deferred Maintenance Account established pursuant to Section 39618 of the Education Code.

SEC. 24.40. Notwithstanding any other provision of law, the State Allocation Board may make available to the Director of General Services up to $15,000,000 annually from the State School Building Lease-Purchase Fund to be utilized to purchase portable classrooms for the purposes of Section 17788 of the Education Code.

GENERAL GOVERNMENT

SEC. 26.00. No funds appropriated by this act shall be encumbered for the purpose of funding any increased state costs or local governmental costs, or both such costs, arising from the issuance of an executive order as defined in Section 17516 of the Government Code or in Section 2209 of the Revenue and Taxation Code or subject to the provisions of Section 6 of Article XIII B of the California Constitution, or of Section 2231 of the Revenue and Taxation Code, unless such funds to be encumbered are appropriated for such purpose.

SEC. 27.00. (a) Approval by the Department of Finance to the creation of deficiencies pursuant to Section 11006 or approval to expend at rates which, in the opinion of the Director of Finance, will require a deficiency appropriation shall not be made unless the approval is made in writing and filed with the Chairperson of the Joint Legislative Budget Committee and chairperson of the committee in each house which considers appropriations not later than 30 days prior to the effective date of the approval, except for an approval for an emergency expenditure or an approval which is due to caseload increases in Medi-Cal, Aid to Families with Dependent Children (AFDC), and Supplemental Security Income/State Supplementary Program (SSI/SSP). All notifications shall include (1) the date a deficiency request was received by the Department of Finance, (2) the reason for the proposed deficiency, and (3) the approved amount.

(b) Approval for any emergency expenditure shall be made in writing and filed with the Chairperson of the Joint Legislative Budget Committee and the chairperson of the committee in each house which considers appropriations not later than 10 days after the effective date of the approval. All notices shall state the reason for and amount of the deficiency.

As used in this section, "emergency expenditure" means an ex-

penditure incurred in response to conditions of disaster or extreme peril which threaten the health or safety of person or property within the state.

(c) The Department of Finance shall report quarterly to the Chairperson of the Joint Legislative Budget Committee and the fiscal committee of each house on the cumulative deficiency requests approved pursuant to subdivisions (a) and (b). The report shall contain the information required in subsections (1), (2), and (3) of subdivision (a). This report shall be filed within 15 days after the close of each fiscal quarter.

(d) The Department of Finance shall provide copies of all requests from agencies to spend at rates which will result in a deficiency appropriation to the Chairperson of the Joint Legislative Budget Committee and the chairperson of the committee in each house which considers appropriations. The department shall submit these copies within 10 days of receipt. The transmittal of this information to the Legislature shall not be construed by the requesting agency as approval of the deficiency request.

(e) For purposes for which the Governor previously vetoed funding, allocation of funds or authorization for deficiency expenditures shall not be made under the emergency provisions.

SEC. 28.00. (a) The Director of Finance may authorize the augmentation of the amount available for expenditure for any category or program in the schedule set forth for any appropriation in this act or any additional category or program in the amount of any funds which he or she estimates will be received by an officer, department, division, bureau, or other agency during the 1986–87 fiscal year from any other state agency, from any agency of local government or the federal government, from any appropriation made by the Legislature or from any other source which he or she determines has not been taken into consideration in the schedule or is in excess of the amount so taken into consideration.

(b) The Director of Finance may also reduce any category or program whenever he or she determines that funds to be received will be less than the amount taken into consideration in the schedule.

(c) The following augmentations or reductions may not be authorized sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the chairperson of the joint committee, or his or her designee, may in each instance determine:

(1) Augmentations or reductions which either are (a) in excess of $100,000 or (b) are in excess of 10% of the amount available for expenditure in the affected category or program.

(2) Any other augmentations which the Director of Finance determines constitute an increase in the level of services above that authorized by this act or other existing law or are for a new program

not identified in this act as such.

(3) Any other reductions which the Director of Finance determines constitute a decrease in the level of service below that authorized by this act or other existing law.

(4) Any augmentation, regardless of the amount, for the purpose of funding a task force or advisory council created by executive order of the Governor.

(d) Any personnel action which is dependent on funds subject to the provisions of this section shall not be effective until after the provisions of this section have been complied with. Any authorization made pursuant to this section too late for inclusion in the Governor's Budget for the 1987–88 fiscal year shall remain in effect for such period as the director may determine in each instance, but in no event after June 30, 1988.

(e) All authorizations reported or requested under the provisions of this section shall include all of the following:

(1) A description of the proposed expenditure and identification of the statutory authority for the expenditure.

(2) A determination whether the expenditure, if federally funded, is specifically designed to be one-time, a continuing federal obligation, or one that the state is required (or expected) to fund at some future date.

(3) A determination whether the expenditure, if federally funded, supplements or replaces existing state expenditures.

(4) A determination whether the expenditure has previously been considered at some point in the legislative process and has been denied; and, if denied, for what reasons.

(f) All increased expenditures from department indirect cost funds in excess of the amount budgeted in this act or identified in a prior Section 28 notification are subject to the reporting requirements of this section.

SEC. 29.00. The Department of Finance shall calculate and publish a listing of total personnel-years and estimated salary savings for each department and agency. These listings shall be published by the Department of Finance at the same time as the publication of (a) the Governor's Budget, (b) the May revision and (c) the Final Change Book.

(a) The listing provided at the time of the publication of the Governor's Budget shall contain estimates of personnel-years for the prior year, current year, and budget year.

(b) The listing provided at the time of publication of the May revision shall contain estimates of personnel-years proposed for the budget year.

(c) The listing provided at the time of the publication of the Final Change Book shall contain estimates of personnel-years for the budget year just enacted.

SEC. 29.50. (a) The Director of Finance shall provide the Joint Legislative Budget Committee and the legislative fiscal committees

with a specified list of personal services contracts contained in the Governor's Budget that are proposed for the budget year. The Director of Finance shall also report personal service contracts proposed by departments, during the calendar year prior to the January 10th Governor's Budget, which are considered innovative and are for a new service not previously considered in the Legislature's review of previous Governor's Budgets.

(b) The reports set forth in subdivision (a) shall be submitted to the Joint Legislative Budget Committee and the legislative fiscal committees on or before January 10th of each year and shall include: (1) personal services contracts determined by the Department of Finance to be new or innovative; (2) the amount of the proposed contract; (3) the basis for the contract pursuant to Section 19130 of the Government Code; (4) the number of personnel-years to be eliminated or avoided if a contract is implemented; and (5) identification of the various contracts by agency and department.

SEC. 30.00. Section 13340 of the Government Code is amended to read:

13340. On and after July 1, 1987, no moneys in any fund which, by any statute other than a Budget Act, is continuously appropriated without regard to fiscal years, may be encumbered unless the Legislature, by statute, specifies that the moneys in the fund are appropriated for encumbrance.

SEC. 31.00. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code and Article 2.5 (commencing with Section 13332) of Chapter 3 of Part 3 of Division 3 of Title 2 of the Government Code requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

The fiscal year budget shall authorize in such manner as the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new position shall be established unless authorized by the Department of Finance on the basis of work program and organization.

The Director of Finance, or his or her authorized designee, shall notify the Chairperson of the Joint Legislative Budget Committee within 30 days of authorizing any position not authorized for that fiscal year by the Legislature or any reclassification to a position with a minimum step of $2,636 per month. He or she shall also report all transfers to blanket authorizations and the establishment of any permanent positions out of a blanket authorization.

All positions administratively established pursuant to this section during the 1986–87 fiscal year shall terminate on June 30, 1987, except that those positions which have been (a) included in the 1987–88 Governor's Budget as proposed new positions, or (b) approved by the Department of Finance and reported to the Legislature after the 1987–88 Governor's Budget submission to the Legislature, may be

reestablished by the Department of Finance during the 1987–88 fiscal year, provided these positions are shown in the 1988–89 proposed Governor's Budget submitted to the Legislature, or in subsequent Department of Finance letters to the Legislature, and provided that these positions do not result in establishment of positions deleted by the Legislature through the 1987–88 budget process.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. A copy of this document shall be submitted to the Department of Finance upon request. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to the allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for ex penditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. This transfer shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any 1986–87 fiscal year appropriation not appropriated for that purpose may be expended for increases in salary ranges or any other employee compensation action(s) unless the Department of Finance certifies to the salary and other compensation-setting authority prior to the adoption of these action(s) that funds are available to pay the increased salary or employee compensation resulting therefrom. Prior to certification, the Department of Finance shall determine whether this increase in salary range or employee compensation action will require supplemental funding in the 1987–88 fiscal year. If the Department of Finance determines that supplemental funding will be required, no certification shall be issued unless notification in writing is given by the Department of Finance, at least 30 days before certification is made, to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee, or such lesser time as the chairman of the joint committee, or his or her designee, determines.

A certification on a payroll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the State Controller that these expenditures comply with the provisions of this section.

Each agency, department, board, commission, and institution, for whose benefit and support appropriations are made in this act, shall certify to the Director of Finance that its expenditures have been made for the purposes stated in the budget, as implemented by the

Budget Act, except as the purposes stated have been revised, in accordance with law, by the Department of Finance subsequent to the enactment of the Budget Act.

SEC. 32.00. The officers of the various departments, boards, commissions and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of such appropriations, except the consent of the Department of Finance be first obtained, and a certificate, in writing, duly signed by the director of said department, of the unavoidable necessity of such expenditure; and any indebtedness attempted to be created against the state in violation of the provisions of this section shall be absolutely null and void; and shall not be allowed by the State Controller nor paid out of any state appropriation. Any member of any such department, board, commission or institution, who shall vote for any expenditure, or create any indebtedness against the state in excess of the respective appropriations made by this act, except by the consent of the Department of Finance and the certificate in this section provided to be first obtained, shall be liable both personally and on his official bond for the amount of such indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm or corporation to whom such indebtedness is owing.

The Department of Finance shall submit copies of certificates approved by it under this section to the Chairman of the Joint Legislative Budget Committee, and the chairman of the committee in each house which considers appropriations, quarterly, and shall indicate in the case of each certificate the code section or section of this act under which the department gave its consent to exceed the particular appropriation.

SEC. 33.00. If any item of appropriation in this act is vetoed, eliminated, or reduced by the Governor under Section 10 of Article IV of the Constitution, while approving portions of this act, such veto, elimination, or reduction shall not affect the other portions of this act, and these other portions of this act, so approved, shall have the same effect in law as if any vetoed or eliminated items of appropriation had not been present in this act, and as if any reduced item of appropriation had not been reduced.

SEC. 34.00. If any portion of this act is held unconstitutional, such decision shall not affect the validity of any other portion of this act. The Legislature hereby declares that it would have passed this act, and each portion thereof, irrespective of the fact that any other portion be declared unconstitutional.

SEC. 35.00. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under the provisions of Section 8 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 36.00. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the

meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This act makes appropriations and contains related provisions for support of state and local government for the 1986–87 fiscal year and provides for capital outlay appropriations, in continuation of existing programs and to promote and sustain the economy of the state. It is imperative that these appropriations be available for expenditure commencing not later than July 1, 1986. It is therefore necessary that the act go into immediate effect.

CHAPTER 187

An act to amend Section 20231.5 of the Public Contract Code, relating to transit districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 24, 1986. Filed with Secretary of State June 25, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 20231.5 of the Public Contract Code is amended to read:

20231.5. (a) The Legislature finds and declares that the award of purchase contracts by the Southern California Rapid Transit District under competitive bid procedures may not be feasible for products and materials which are undergoing rapid technological changes or for the introduction of new technologies into district operations, and that in these circumstances it is in the public interest to consider the broadest possible range of competing products and materials available, fitness of purpose, manufacturer's warranty, and other similar factors in addition to price in the award of these contracts.

(b) This section applies only to the purchase by the district of computers, telecommunications equipment, fare collection equipment, microwave equipment, and other related electronic equipment and apparatus, and of rail cars. This section does not apply to contracts for construction or for the procurement of any product available in substantial quantities to the general public.

(c) The board may, after a finding by a two-thirds vote that a particular procurement qualifies under subdivision (b), direct that the procurement be conducted through competitive negotiation under this section. For purposes of this section, competitive negotiation includes, but is not limited to, all of the following requirements:

(1) The request for proposals shall be prepared and submitted to an adequate number of qualified sources, as determined by the board, to permit reasonable competition consistent with the nature and requirements of the procurement. In addition, notice of the request for proposals shall be published at least twice in a newspaper of general circulation, at least 10 days before the date for receipt of the proposals.

(2) The request for proposals shall identify all significant evaluation factors, including price, and their relative importance.

(3) The board shall provide reasonable procedures for technical evaluation of the proposals received, identification of qualified sources, and selection for contract award.

(4) Award shall be made to the qualified proposer whose proposal will be most advantageous to the district, with price and all other factors considered.

(d) The board may reject any and all proposals and request new proposals, at its discretion.

(e) Upon making an award to a qualified proposer, the board, upon request, shall make available to all other proposers and to the public, an analysis of the award which provides the basis for the selection of that particular qualified proposal.

(f) Any proposer may protest any acquisition conducted in accordance with this section by filing with the district, within 10 days after receiving notice of the recommended award, exclusive of Saturdays and Sundays, a full and complete written statement specifying in detail the grounds of the protest and the facts supporting the protest, and shall be granted an opportunity to appear and be heard before the board prior to the final award.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts consituting the necessity are:

In order to facilitate the acquistion by the Southern California Rapid Transit District of rail cars required for the commencement of the district's Metro Rail project, it is necessary that this act take effect immediately.

CHAPTER 188

An act to amend Section 36503.5 of the Government Code, and to add Section 23302.1 to the Elections Code, relating to elections.

[Approved by Governor June 24, 1986 Filed with Secretary of State June 25, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 23302.1 is added to the Elections Code, to read:

23302.1. (a) This section applies only to special districts electing members of the governing body in November of odd-numbered years. As used in this section, "special district" means an agency of the state formed pursuant to general law or special act, for the local performance of governmental or proprietary functions within limited boundaries, except a city, county, city and county, school or community college district, or special assessment district.

(b) Notwithstanding any other provision of law, a governing body of a special district may, by resolution, require that its elections of governing body members be held on the same day as the statewide general election. The resolution setting the election shall also include dates that are consistent with the primary or general election with respect to nominations, notices, canvass of votes, certification of election, and all other procedural requirements of the Elections Code pertaining to the primary or general election. The resolution shall be submitted to the board of supervisors no later than 240 days prior to the date of the currently scheduled district election. The board of supervisors shall notify all districts located in the county of the receipt of the resolution to consolidate and shall request input from each district on the effect of consolidation. The election official shall prepare and transmit to the board of supervisors an impact analysis of the proposed consolidation.

The board of supervisors, within 60 days from the date of submission, shall approve the resolution unless it finds that the ballot style, voting equipment, or computer capacity is such that additional elections or materials cannot be handled. The votes of the districts affected by the consolidation shall be notified at the district's expense of the approval of the resolution by the board of supervisors. Public notices of the proceedings in which the resolution is to be considered for adoption shall be made pursuant to Section 25151 of the Government Code. If a special district is located in more than one county the special district may not consolidate an election if any county in which the special district is located denies the request for consolidation.

(c) If, pursuant to subdivision (b), an election is held on the same day as the statewide general election, those governing body members whose terms of office would have, prior to the adoption of

the resolution, expired prior to that election shall, instead, continue in their offices until their successors are elected and qualified, but in no event shall the term be extended more than one year.

(d) If a governing body adopts a resolution pursuant to subdivision (b), the elections following the adoption of the ordinance shall be held on the same day as the statewide general election, unless the resolution in question is later repealed by the governing body.

SEC. 2. Section 36503.5 of the Government Code is amended to read:

36503.5. (a) A city council may enact an ordinance requiring its general municipal election to be held on the same day as the statewide direct primary election, the day of the statewide general election, or on the day of school district elections, as set forth in Section 2602 of the Elections Code. Any ordinance adopted pursuant to this subdivision shall become operative upon the approval of the board of supervisors. An ordinance shall be approved by the board of supervisors unless the ballot style, voting equipment, or computer capability is such that additional elections or materials cannot be handled.

(b) As the result of the adoption of an ordinance pursuant to this section, no term of office shall be increased or decreased by more than 12 months.

(c) If an election is held pursuant to subdivision (a), and the election is consolidated with another election, Part 2.5 (commencing with Section 23300) of Division 14, except Section 23302, of the Elections Code shall govern the consolidation, and, if the county clerk is requested to conduct the municipal election, Section 22003 of the Elections Code shall be applicable to that election.

(d) If, pursuant to subdivision (a), a general municipal election is held on the same day as a statewide election or the same day as a school district election, those city officers whose terms of office would have, prior to the adoption of the ordinance, expired on the Tuesday succeeding the second Tuesday in April of an even-numbered year, shall, instead, continue in their offices until no later than the fourth Tuesday after the day of the general municipal election, and until their successors are elected and qualified.

(e) Within 30 days after the ordinance becomes operative pursuant to subdivision (a), the city clerk shall cause a notice to be mailed to all registered voters informing the voters of the change in the election date. The notice shall also inform the voters that as a result in the change in the election date, elected city officeholders' terms in office will be changed.

(f) If a city adopts an ordinance pursuant to subdivision (a), the municipal election following the adoption of the ordinance and each municipal election thereafter shall be conducted on the date specified by the city council, in accordance with subdivision (a), unless the ordinance in question is later repealed by the city council.

If the date of a general municipal election is changed pursuant to

this section, at least one election shall be held before the ordinance, as approved by the board of supervisors, may be subsequently repealed or amended.

SEC. 3. Reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), shall be made from the State Mandates Claims Fund.

CHAPTER 189

An act to add Section 50076.5 to the Government Code, relating to public finance.

[Approved by Governor June 24, 1986 Filed with Secretary of State June 25, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 50076.5 is added to the Government Code, to read:

50076.5. (a) In any judicial action or proceeding to validate, attack, review, set aside, void, or annul any ordinance or resolution providing for the imposition of a development fee by any city, county, or district in which there is at issue whether the development fee is a special tax within the meaning of Section 50076, the city, county, or district has the burden of producing evidence to establish that the development fee does not exceed the cost of the service, facility, or regulatory activity for which it is imposed.

(b) No party may initiate any action or proceeding pursuant to subdivision (a) unless both of the following requirements are met:

(1) The development fee was directly imposed on the party as a condition of project approval.

(2) At least 30 days prior to initiating the action or proceeding, the party requests the city, county, or district to provide a copy of the documents which establish that the development fee does not exceed the cost of the service, facility, or regulatory activity for which it is imposed. In accordance with Section 6257, the city, county, or district may charge a fee for copying the documents requested pursuant to this paragraph.

(c) For purposes of this section, costs shall be determined in accordance with fundamental fairness and consistency of method as to the allocation of costs, expenses, revenues, and other items included in the calculation.

CHAPTER 190

An act to amend Sections 54990, 65803, and 65863.7 of the Government Code, relating to planning and zoning, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 24, 1986. Filed with Secretary of State June 25, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 54993 of the Government Code is amended to read:

54993. This chapter shall apply only to fees and charges as described in Sections 35103, 35104, 54776.3, 54990, 54991, 56132, 56133, 56291.5, 65250, 65551, 65863.7, 65909.5, and 66451.2 of this code, and in Sections 17951, 19132.3, and 19852 of the Health and Safety Code.

SEC. 1.5. Section 65803 of the Government Code is amended to read:

65803. Except as otherwise provided, this chapter shall not apply to a charter city, except to the extent that the same may be adopted by charter or ordinance of the city.

SEC. 2. Section 65863.7 of the Government Code is amended to read:

65863.7. (a) Prior to the conversion of a mobilehome park to another use, except pursuant to the Subdivision Map Act (Division 2 (commencing with Section 66410) of Title 7), or prior to closure of a mobilehome park or cessation of use of the land as a mobilehome park, the person or entity proposing the change in use shall file a report on the impact of the conversion, closure, or cessation of use upon the displaced residents of the mobilehome park to be converted or closed. In determining the impact of the conversion, closure, or cessation of use on displaced mobilehome park residents, the report shall address the availability of adequate replacement housing in mobilehome parks and relocation costs.

(b) The person proposing the change in use shall provide a copy of the report to a resident of each mobilehome in the mobilehome park at least 15 days prior to the hearing, if any, on the impact report by the advisory agency, or if there is no advisory agency, by the legislative body.

(c) When the impact report is filed prior to the closure or cessation of use, the person or entity proposing the change shall provide a copy of the report to a resident of each mobilehome in the mobilehome park at the same time as the notice of the change is provided to the residents pursuant to paragraph (2) of subdivision (f) of Section 798.56 of the Civil Code.

(d) When the impact report is filed prior to the closure or cessation of use, the person or entity filing the report or park resident may request, and shall have a right to, a hearing before the legislative

body on the sufficiency of the report.

(e) The legislative body, or its delegated advisory agency, shall review the report, prior to any change of use, and may require, as a condition of the change, the person or entity to take steps to mitigate any adverse impact of the conversion, closure, or cessation of use on the ability of displaced mobilehome park residents to find adequate housing in a mobilehome park. The steps required to be taken to mitigate shall not exceed the reasonable costs of relocation.

(f) If the closure or cessation of use of a mobilehome park results from an adjudication of bankruptcy, the provisions of this section shall not be applicable.

(g) The legislative body may establish reasonable fees pursuant to Chapter 13 (commencing with Section 54990) of Part 1 of Division 2 of Title 5 to cover any costs incurred by the local agency in implementing this section. Those fees shall be paid by the person or entity proposing the change in use.

(h) This section is applicable to charter cities.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because self-financing authority is provided in Section 65863.7 of the Government Code to cover any costs that may be incurred in carrying on any program or performing any service required to be carried on or performed by this act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

It is anticipated that there will be many mobilehome park closures in charter cities in the near future and thousands of mobilehome owners may be displaced. This act will provide some remedy for the situation, and it is necessary that this act take effect immediately.

CHAPTER 191

An act to add Section 56863 to the Food and Agricultural Code, relating to produce markets.

[Approved by Governor June 24, 1986. Filed with Secretary of State June 25, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 56863 is added to the Food and Agricultural Code, to read:

56863. This chapter does not apply to any market in Los Angeles County.

CHAPTER 192

An act to amend Section 42005 of the Vehicle Code, relating to traffic violator schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 24, 1986. Filed with Secretary of State June 25, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 42005 of the Vehicle Code is amended to read:

42005. (a) The court may order any person convicted of a traffic violation to attend a traffic violator school licensed pursuant to Chapter 1.5 (commencing with Section 11200) of Division 5.

(b) In lieu of adjudicating a traffic offense, and with the consent of the defendant, or after conviction of a traffic offense, the court may order any person issued a notice to appear for a traffic violation to attend a traffic violator school licensed pursuant to Chapter 1.5 (commencing with Section 11200) of Division 5.

(c) Except as otherwise provided in subdivision (d), any person so ordered may choose the traffic violator school the person will attend. The court shall make available to each person subject to such an order the current list of traffic violator schools published by the department pursuant to Section 11205.

(d) In those counties where prior to January 1, 1985, one or more individual courts, or the county acting on behalf of one or more individual courts, contracted for the provision of instructional services to traffic violators referred by the court pursuant to a pretrial diversion program, the courts may restrict referrals under this section to those schools for traffic violators or licensed driving schools which are under contract with the court or with the county to provide instructional services for persons referred pursuant to subdivision (a).

A county described in Section 28023 of the Government Code may continue to provide the program authorized by this section in accordance with the provisions of current and future contracts as may be amended and approved by the individual courts within that county and the county shall be exempt from state regulations relative to maximum classroom attendance.

(e) Any person who willfully fails to comply with a court order to attend traffic violator school is guilty of a misdemeanor.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide the courts with an expedient means of prosecuting violators of its order to attend traffic violator school, it is necessary for this act to take effect immediately.

No action in eminent domain to acquire property or interests therein outside the boundaries of the county or counties in which the district is located shall be commenced unless the board of supervisors of each affected county has consented to such acquisition by resolution.

(d) To establish, equip, and maintain a fire department, and to establish and enforce rules and regulations for the administration, operation, and maintenance thereof.

(e) To appoint and employ necessary employees, and to define their qualifications, duties, and responsibilities, and to provide for a pay schedule and for payment in a reasonable sum for the performance of such duties.

(f) To employ counsel.

SEC. 41. Section 13867 is added to the Health and Safety Code,

to read:

13867. The district board may clear or order the clearing of land or remove, or order the removal of, dry grass, stubble, brush, rubbish, litter, or other flammable material, if, in its judgment, the flammable material endangers the public safety by creating a fire hazard. The provisions of Part 5 (commencing with Section 14875) of this division, are made applicable to districts organized and existing pursuant to this division, including, but not limited to, the provisions with respect to the assessment of property owners for the expense of abatement, and the procedure set forth therein shall apply to dry grass, stubble, brush, rubbish, litter, or other flammable material which endangers the public safety by creating a fire hazard. In the application of the provisions of Part 5 (commencing with Section 14875) of this division to proceedings under this chapter, the terms "board of supervisors" or "board," when used in Part 5, shall mean the district board acting under this chapter; and the officers designated in Section 14890 shall mean the employees of the fire department designated by the district board.

SEC. 42. Section 13868 is added to the Health and Safety Code, to read:

13868. The district board may clear any or all townlots, homesites, villa lots, or lands immediately adjacent within the district of dry grass, weeds, stubble, brush, rubbish, litter, or other flammable material.

SEC. 42.1. Chapter 4 (commencing with Section 4100) is added to Part 1 of Division 2 of the Public Contract Code, to read:

CHAPTER 4. SUBLETTING AND SUBCONTRACTING

4100. This chapter may be cited as the "Subletting and Subcontracting Fair Practices Act."

4100.5. With the exclusion of that portion of work covering street lighting and traffic signals, this chapter does not apply to the balance of contracts for the construction, improvement, or repair of streets or highways, including bridges.

4101. The Legislature finds that the practices of bid shopping and bid peddling in connection with the construction, alteration, and repair of public improvements often result in poor quality of material and workmanship to the detriment of the public, deprive the public of the full benefits of fair competition among prime contractors and subcontractors, and lead to insolvencies, loss of wages to employees, and other evils.

4103. Nothing in this chapter limits or diminishes any rights or remedies, either legal or equitable, which:

(a) An original or substituted subcontractor may have against the prime contractor, his or her successors or assigns.

(b) The state or any county, city, body politic, or public agency may have against the prime contractor, his or her successors or assigns, including the right to take over and complete the contract.

4104. Any officer, department, board or commission taking bids for the construction of any public work or improvement shall provide in the specifications prepared for the work or improvement or in the general conditions under which bids will be received for the doing of the work incident to the public work or improvement that any person making a bid or offer to perform the work, shall, in his or her bid or offer, set forth:

(a) The name and the location of the place of business of each subcontractor who will perform work or labor or render service to the prime contractor in or about the construction of the work or improvement, or a subcontractor licensed by the State of California who, under subcontract to the prime contractor, specially fabricates and installs a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in an amount in excess of one-half of 1 percent of the prime contractor's total bid.

(b) The portion of the work which will be done by each subcontractor under this act. The prime contractor shall list only one subcontractor for each portion as is defined by the prime contractor in his or her bid.

4105. Circumvention by a general contractor who bids as a prime contractor of the requirement under Section 4104 for him or her to list his or her subcontractors, by the device of listing another contractor who will in turn sublet portions constituting the majority of the work covered by the prime contract, shall be considered a violation of this chapter and shall subject that prime contractor to the penalties set forth in Sections 4110 and 4111.

4106. If a prime contractor fails to specify a subcontractor or if a prime contractor specifies more than one subcontractor for the same portion of work to be performed under the contract in excess of one-half of 1 percent of the prime contractor's total bid, the prime contractor agrees that he or she is fully qualified to perform that portion himself or herself, and that the prime contractor shall perform that portion himself or herself.

If after award of contract, the prime contractor subcontracts, except as provided for in Sections 4107 or 4109, any such portion of the work, the prime contractor shall be subject to the penalties named in Section 4111.

4107. No prime contractor whose bid is accepted shall:

(a) Substitute any person as subcontractor in place of the subcontractor listed in the original bid, except that the awarding authority, or its duly authorized officer, may, except as otherwise provided in Section 4107.5, consent to the substitution of another person as a subcontractor in any of the following situations:

(1) When the subcontractor listed in the bid after having had a reasonable opportunity to do so fails or refuses to execute a written contract, when that written contract, based upon the general terms, conditions, plans and specifications for the project involved or the terms of that subcontractor's written bid, is

presented to the subcontractor by the prime contractor.

(2) When the listed subcontractor becomes bankrupt or insolvent.

(3) When the listed subcontractor fails or refuses to perform his or her subcontract.

(4) When the listed subcontractor fails or refuses to meet the bond requirements of the prime contractor as set forth in Section 4108.

(5) When the prime contractor demonstrates to the awarding authority, or its duly authorized officer, subject to the further provisions set forth in Section 4107.5, that the name of the subcontractor was listed as the result of an inadvertent clerical error.

(6) When the listed subcontractor is not licensed pursuant to the Contractors License Law.

(7) When the awarding authority, or its duly authorized officer, determines that the work performed by the listed subcontractor is substantially unsatisfactory and not in substantial accordance with the plans and specifications, or that the subcontractor is substantially delaying or disrupting the progress of the work.

Prior to approval of the prime contractor's request for the substitution the awarding authority, or its duly authorized officer, shall give notice in writing to the listed subcontractor of the prime contractor's request to substitute and of the reasons for the request. The notice shall be served by certified or registered mail to the last known address of the subcontractor. The listed subcontractor who has been so notified shall have five working days within which to submit written objections to the substitution to the awarding authority. Failure to file these written objections shall constitute the listed subcontractor's consent to the substitution.

If written objections are filed, the awarding authority shall give notice in writing of at least five working days to the listed subcontractor of a hearing by the awarding authority on the prime contractor's request for substitution.

(b) Permit any subcontract to be voluntarily assigned or transferred or allow it to be performed by anyone other than the original subcontractor listed in the original bid, without the consent of the awarding authority, or its duly authorized officer.

(c) Other than in the performance of "change orders" causing changes or deviations from the original contract, sublet or subcontract any portion of the work in excess of one-half of 1 percent of the prime contractor's total bid as to which his or her original bid did not designate a subcontractor.

4107.2. No subcontractor listed by a prime contractor under Section 4104 as furnishing and installing carpeting, shall voluntarily sublet his or her subcontract with respect to any portion of the labor to be performed unless he or she specified the subcontractor in his or her bid for that subcontract to the prime contractor.

4107.5. The prime contractor as a condition to assert a claim of

inadvertent clerical error in the listing of a subcontractor shall within two working days after the time of the prime bid opening by the awarding authority give written notice to the awarding authority and copies of that notice to both the subcontractor he or she claims to have listed in error and the intended subcontractor who had bid to the prime contractor prior to bid opening.

Any listed subcontractor who has been notified by the prime contractor in accordance with this section as to an inadvertent clerical error shall be allowed six working days from the time of the prime bid opening within which to submit to the awarding authority and to the prime contractor written objection to the prime contractor's claim of inadvertent clerical error. Failure of the listed subcontractor to file the written notice within the six working days shall be primary evidence of his or her agreement that an inadvertent clerical error was made.

The awarding authority shall, after a public hearing as provided in Section 4107 and in the absence of compelling reasons to the contrary, consent to the substitution of the intended subcontractor:

(a) If (1) the prime contractor, (2) the subcontractor listed in error, and (3) the intended subcontractor each submit an affidavit to the awarding authority along with such additional evidence as the parties may wish to submit that an inadvertent clerical error was in fact made, provided that the affidavits from each of the three parties are filed within eight working days from the time of the prime bid opening, or

(b) If the affidavits are filed by both the prime contractor and the intended subcontractor within the specified time but the subcontractor whom the prime contractor claims to have listed in error does not submit within six working days, to the awarding authority and to the prime contractor, written objection to the prime contractor's claim of inadvertent clerical error as provided in this section.

If the affidavits are filed by both the prime contractor and the intended subcontractor but the listed subcontractor has, within six working days from the time of the prime bid opening, submitted to the awarding authority and to the prime contractor written objection to the prime contractor's claim of inadvertent clerical error, the awarding authority shall investigate the claims of the parties and shall hold a public hearing as provided in Section 4107 to determine the validity of those claims. Any determination made shall be based on the facts contained in the declarations submitted under penalty of perjury by all three parties and supported by testimony under oath and subject to cross-examination. The awarding authority may, on its own motion or that of any other party, admit testimony of other contractors, any bid registries or depositories, or any other party in possession of facts which may have a bearing on the decision of the awarding authority.

4108. (a) It shall be the responsibility of each subcontractor submitting bids to a prime contractor to be prepared to submit a

faithful performance and payment bond or bonds if so requested by the prime contractor.

(b) In the event any subcontractor submitting a bid to a prime contractor does not, upon the request of the prime contractor and at the expense of the prime contractor at the established charge or premium therefor, furnish to the prime contractor a bond or bonds issued by an admitted surety wherein the prime contractor shall be named the obligee, guaranteeing prompt and faithful performance of the subcontract and the payment of all claims for labor and materials furnished or used in and about the work to be done and performed under the subcontract, the prime contractor may reject the bid and make a substitution of another subcontractor subject to Section 4107. The bond or bonds may be required at the expense of the subcontractor only if the prime contractor in his or her written or published request for subbids (1) specifies that the expense for the bond or bonds shall be borne by the subcontractor and (2) clearly specifies the amount and requirements of the bond or bonds.

4109. Subletting or subcontracting of any portion of the work in excess of one-half of 1 percent of the prime contractor's total bid as to which no subcontractor was designated in the original bid shall only be permitted in cases of public emergency or necessity, and then only after a finding reduced to writing as a public record of the awarding authority setting forth the facts constituting the emergency or necessity.

4110. A prime contractor violating any of the provisions of this chapter violates his or her contract and the awarding authority may exercise the option, in its own discretion, of (1) canceling his or her contract or (2) assessing the prime contractor a penalty in an amount of not more than 10 percent of the amount of the subcontract involved, and this penalty shall be deposited in the fund out of which the prime contract is awarded. In any proceedings under this section the prime contractor shall be entitled to a public hearing and to five days' notice of the time and place thereof.

4111. Violation of this chapter by a licensee under Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code constitutes grounds for disciplinary action by the Contractors State License Board, in addition to the penalties prescribed in Section 4110.

4112. The failure on the part of a contractor to comply with any provision of this chapter does not constitute a defense to the contractor in any action brought against the contractor by a subcontractor.

4113. As used in this chapter, the word "subcontractor" shall mean a contractor, within the meaning of the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, who contracts directly with the prime contractor.

"Prime contractor" shall mean the contractor who contracts directly with the awarding authority.

4114. In counties with a population of 6,000,000 or more, the

county board of supervisors, when it is the awarding authority, may delegate its functions under Sections 4107 and 4110 to a hearing officer designated by the board.

The hearing officer shall make a written recommendation to the board of supervisors. The board of supervisors may adopt the recommendation without further notice or hearing, or may set the matter for a de novo hearing before the board.

section, competitive negotiation includes, but is not limited to, all of the following requirements:

(1) The request for proposals shall be prepared and submitted to an adequate number of qualified sources, as determined by the commission, to permit reasonable competition consistent with the nature and requirement of the procurement.

(2) Notice of the request for proposals shall be published at least twice in a newspaper of general circulation, at least 10 days before the date for receipt of the proposals.

(3) The request for proposals shall identify all significant evaluation factors, including price, and their relative importance.

(4) The commission shall provide reasonable procedures for technical evaluation of the proposals received, identification of qualified sources, and selection for contract award.

(5) Award shall be made to the qualified proposer whose proposal will be most advantageous to the commission with price and all other factors considered.

(d) The commission, at its discretion, may reject any and all proposals and request new proposals.

(e) Any proposer may protest any acquisition conducted in accordance with this section by filing with the commission, within 10 days after receiving notice of the recommended award, exclusive of Saturdays and Sundays, a full and complete written statement specifying in detail the grounds of the protest and the facts supporting the protest. The protesting proposer shall be granted an opportunity to appear and be heard before the commission prior to the final award. The decision of the commission on the protest is final.

Subject to any rules, regulations, or tariffs applicable to any public utility or public agency, the agreement also may provide, among other things, for any of the following: the supplying or approval by the public utility or public agency of plans and specifications; a contribution of labor, materials, or money by the public utility or public agency; the performance by the public utility or public agency of all, or any part, of the work or improvement; and payment to the public utility or public agency for any work or improvement performed or service rendered by it.

Any agreement shall be made prior to the adoption of the resolution ordering the work. If the proceedings are abandoned, the agreement shall be given no further force or effect. To the extent that the agreement provides that all, or any part, of the work or improvement is to be performed by the public utility or public agency, the provisions of this division requiring competitive bidding and the award of the contract to the lowest responsible bidder shall be inapplicable.

When served, the resolution is notice to that person of the intention to order the work designated in the resolution.

SEC. 159. Section 6784 is added to the Streets and Highways Code, to read:

6784. The person served shall notify, in writing, the superintendent of streets of the city where the work is to be done if the person elects to enter upon the direct performance of the work at his or her own charge or expense. owner of the track with the authority to enter into a contract made in accordance with this chapter and the Public Contract Code for doing the work.

The superintendent of streets shall thereupon be vested with authority to, and he or she shall, advertise for bids for the work and fix in the notice the time for receiving bids which shall be not less than five days from the first publication of the notice.

The resolution may propose that a temporary zone be established, which zone will be benefited by the work, for the purpose of levying a special tax in the zone to finance the cost of the work.

The resolution shall contain that matter required by Section 19166. Notice and hearing of the resolution shall be substantially as required by Sections 19168 and 19169. If the board of supervisors determines at the hearing, by a four-fifths vote, that it is just and equitable and in the public interest that the obsolete lighting be replaced and that the proposed temporary zone be formed, it shall fix and describe the boundaries of the proposed zone in a manner so as to exclude any territory which will not be benefited by inclusion in the zone; it shall declare the zone established; it shall designate the zone by a name or number; and it shall specify the duration and purposes of the zone, not to exceed 10 years from the beginning of the next ensuing fiscal year in which a special tax levy may be made in the zone.

The petition shall contain all of the following:

(a) A general description of the nature of the proposed replacement lights, together with a map showing the location thereof.

(b) An estimate of all costs or charges which will be incurred in connection with the removal of the old lights and the installation of the new lights, together with a statement as to the period of time, not to exceed three years, proposed for the payment of the costs or

charges.

(c) An estimate of the average monthly cost of maintenance of the replacement lights.

The board of directors may adopt necessary regulations, not in conflict with law, concerning the use of the highway. During that period, the board may exclude from the highway any vehicular or other traffic which, in the opinion of the board of directors, may be detrimental to the public safety or will result in injury to the roadway during the progress of the improvement.

For the purpose of doing work or acquiring rights-of-way therefor, the board may authorize a contract to be entered into between the district and the political subdivision or agency of the state with which it proposes to cooperate, and full power and authority is granted to the city, county, joint highway, or other district, or the Department of Transportation, to enter into the contracts for cooperative work, construction, or purchase of rights-of-way, in such a manner and upon such apportionment of the cost thereof as may be agreed upon between them. Any work may extend across, through, or within any city, county, joint highway district, or other district, if the work is an extension of an approach to a bridge operated by the district and connects the bridge as a main or alternate route with state highways or other through routes leading to or from the bridge.

CHAPTER 196

An act to add Section 46010.1 of the Education Code, relating to schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 26, 1986 Filed with Secretary of State June 27, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 46010.1 is added to the Education Code, to read:

46010.1. Commencing in the fall of the 1986–87 academic year, the governing board of each school district shall, each academic year, notify pupils in grades 7 to 12, inclusive, and the parents or guardians of all pupils enrolled in the district, that school authorities may excuse any pupil from the school for the purpose of obtaining confidential medical services without the consent of the pupil's parent or guardian.

The notice required pursuant to this section may be included with any other notice given pursuant to this code.

SEC. 2. Reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), shall be made from the State Mandates Claims Fund.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the provisions of this act to apply with the commencement of the 1986–87 academic year, it is necessary for this act to take effect immediately.

CHAPTER 197

An act to add Section 55409 to the Food and Agricultural Code, relating to wine grapes.

[Approved by Governor June 26, 1986. Filed with Secretary of State June 27, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 55409 is added to the Food and Agricultural Code, to read:

55409. Juice or must used for wine which, as a condition of sale, is required to be pressed or crushed from grapes in the field or at a facility not owned by the purchasing vintner, is a farm product for purposes of this chapter. Juice or must which was not required to be pressed or crushed from grapes as a condition of a sale, and which is stored for the account of the producer who grew the grapes, is not a farm product when it is sold.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 198

An act to add Sections 30526 and 31108.5 to the Public Resources Code, relating to the coastal zone.

[Approved by Governor June 26, 1986. Filed with Secretary of State June 27, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 30526 is added to the Public Resources Code, to read:

30526. (a) Because of the intensity of development contemplated, the area's steep topography and highly erodible soils, and the demonstrated impacts from development despite the utilization of mitigation measures, the Legislature finds that the threat from development to wetlands in the City of San Diego requires that a mitigation fee program be included in the city's local coastal program. Therefore, the City of San Diego shall provide in its local coastal program for payment of a reasonable fee to the State Coastal Conservancy by applicants for a coastal development permit if the proposed development has, or is reasonably expected to have,

a direct and significant effect on coastal resources within a specific geographic watershed in the coastal zone which can be mitigated through the incorporation of feasible onsite and offsite mitigation measures into the proposed development and through the mitigation fee program.

(b) Fees paid by an applicant pursuant to subdivision (a) shall be deposited in an account established by the State Coastal Conservancy . None of the funds in the account shall be appropriated for any purpose not specified in this section. Except as provided in this section, any fee paid pursuant to this section may only be used to restore, replace, or improve resources or ecological systems which are adversely affected by the proposed development and with respect to which the fee constitutes partial or total mitigation. Any fees established pursuant to this section are not required for any development that is undertaken by a public agency for the purpose of providing resource enhancement or public recreation. In the event that mitigation of all development impacts cannot be feasibly carried out within the watershed, the conservancy may, with the approval of the local government and the commission, complete the mitigation for the development outside of the watershed.

(c) This section and Section 31108.5 apply only to the Los Penasquitos Lagoon area in the City of San Diego.

SEC. 2. Section 31108.5 is added to the Public Resources Code, to read:

31108.5. The conservancy shall not expend any fees received pursuant to Section 30526, except to restore, replace, or improve resources or ecological systems in a manner that is consistent with the certified local coastal program of the local public agency in whose jurisdiction the development is located, or in whose jurisdiction the site of the mitigation project is to be located, as the case may be, and only after full consultation and consent of that local public agency.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.

CHAPTER 199

[Approved by Governor June 26, 1986. Filed with Secretary of State June 27, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 20013.7 of the Government Code is amended to read:

20013.7. (a) Effective January 1, 1985, there shall be an alternative level of benefits available to the following state miscellaneous members: (1) members who are excluded from the definition of state employee in subdivision (c) of Section 3513; (2) members who are supervisory employees as defined in Section 3522.1; (3) members employed by the executive branch of government who are not members of the civil services; and (4) members in state bargaining units for which a memorandum of understanding has been agreed to by the state employer and the recognized employee organization to become subject to this section. Effective September 1, 1986, this section shall apply to members employed by the state as provided for in Article VI of the Constitution. The board shall provide the affected members a one-month election period commencing on August 1, 1986. This section shall not apply to state miscellaneous members employed by the California State University or the University of California. This section shall not apply to any employee described by Section 20364 unless and until the employer, as defined in Section 20817, adopts a resolution approving that application.

(b) Effective September 1, 1986, there shall be an alternate level of benefits available to the following state industrial members: (1) members in State Bargaining Unit No. 1, Administrative, Financial, and Staff Services, State Bargaining Unit No. 2, Attorney and Hearing Officer, and State Bargaining Unit No. 16, Physician, Dentist, and Podiatrist, provided that a memorandum of understanding has been agreed to by the state employer and the recognized employee organization to become subject to this section; (2) members who are excluded from the definition of state employees in subdivision (c) of Section 3513; (3) members who are supervisory employees as defined in Section 3522.1; and (4) members employed by the executive branch of government who are not members of the civil service. The board shall provide the affected members a one-month election period commencing on August 1, 1986.

(c) Members eligible to participate in the alternative level of benefits (hereinafter in this part referred to as the Second Tier) may make an irrevocable election to: (1) become subject to the Second Tier benefits provided for in Section 21251.146 for all past state miscellaneous and state industrial service and all future state miscellaneous and state industrial service not excluded by this section; or (2) become subject to the Second Tier benefits provided for in Section 21251.147 for state miscellaneous and state industrial service rendered on and after the effective date of the election to be

subject to the Second Tier. Any election by a member to be subject to Section 21251.146 or Section 21251.147 shall also be signed by the spouse of the member and both signatures shall be notarized.

On an annual basis, the board shall provide a 30-day period for eligible members to make an irrevocable election to be subject to the Second Tier level of benefits provided for in Section 21251.146 or Section 21251.147. Eligible members who previously elected Section 21251.147 may make an irrevocable election to become subject to Section 21251.146 for all past state miscellaneous and state industrial service during this annual election period.

(d) Persons who become state miscellaneous or state industrial members described in this section or who become such members under Article 3 (commencing with Section 20360) of Chapter 3 of this part on or after the Second Tier effective date applicable to the member, shall be subject to Section 21251.147 unless an election is filed with the board to be subject to Section 21251.13. The appointing authority shall provide the member with the election form and the member shall make the election within 120 days of becoming a member.

(e) A state miscellaneous or state industrial member who, on or after the effective date of an election to be subject to Section 21251.146 or Section 21251.147, ceases to be a member pursuant to Section 20390 or Section 20390.1 shall, upon again becoming a state miscellaneous or state industrial member, be subject to Section 21251.146 or Section 21251.147 in accordance with his or her previous irrevocable election. This subdivision does not apply to persons who return to membership as employees of the California State University.

Except as otherwise provided in this part, a state miscellaneous or state industrial member subject to Section 21251.146 or Section 21251.147 is subject to all other provisions applicable to state miscellaneous members except those provisions that provide for the payment of an annuity based on contributions. Notwithstanding anything to the contrary in this part, member contributions are not required for any service credit that is subject to Section 21251.146.

(f) The board shall report to the Governor, the Legislature, and the Department of Personnel Administration on the savings which are the result of the implementation of the Second Tier retirement plan for state miscellaneous and state industrial members. The report shall first be submitted in April 1986, and annually in April of every year thereafter until April 1990.

SEC. 2. Section 20390 of the Government Code is amended to read:

20390. A person ceases to be a member:

(a) Upon retirement, except while participating in reduced worktime for partial service retirement.

(b) If he or she is paid his or her normal contributions, unless payment of contributions is the result of an election pursuant to paragraph (1) of subdivision (b) of Section 20013.7, or unless, after

reducing the member's credited service by the service applicable to the contributions being withdrawn, the member meets the requirements of Section 20390.1 or if he or she is paid a portion of his or her normal contributions where more than one payment is made, or these contributions are held pursuant to Section 20208. For the purposes of this subdivision, (1) deposit in the United States mail of a warrant drawn in favor of a member, addressed to the latest address of the member on file in the office of this system, constitutes payment to the member of the amount for which the warrant is drawn or (2) electronic fund transfer to the person's bank, savings and loan association or credit union account, constitutes payment to the person of the amount of the warrant of funds electronically transferred.

(c) If the member has less than five years of service credit and no accumulated contributions in the retirement fund at the time of termination of service.

SEC. 3. Section 20393 of the Government Code is amended to read:

20393. Notwithstanding any other provision of this part, a member who is credited with less than the years of service specified in Article 1 (commencing with Section 20950) of Chapter 8 of this part who enters employment as a member of a public retirement system supported, in whole or in part, by state funds, including the University of California Retirement System, or as a member of a retirement system established under the County Employees Retirement Law of 1937, within six months of leaving state service, shall have the right to elect to leave such accumulated contributions on deposit in the retirement fund. Failure to make such election shall be deemed an irrevocable election to withdraw such accumulated contributions. This section shall also apply to a member who is subject to Section 21251.146, except that no election to leave contributions on deposit is required for service that is subject to Section 21251.146.

An election to allow accumulated contributions to remain in the retirement fund may be revoked by the member at any time, except: (1) while the member is employed in state service in a position in which the member is not excluded from membership with respect to such service; or (2) while the member is in service as a member of a public retirement system supported, in whole or in part, by state funds, including the University of California Retirement System; or (3) while the member is in service, entered within six months after discontinuing state service, as a member of a retirement system established under the County Employees Retirement Law of 1937. All contributions accumulated up to the time of revocation may then be withdrawn. A member whose membership continues under this section is subject to the same age and disability requirements as apply to other members for service or for disability retirement. After the qualification of such member for retirement by reason of age, which shall be the lowest age applicable to any membership category

in which the member has credited service, or disability, the member shall be entitled to receive a retirement allowance based upon the amount of the member's accumulated contributions and service standing to the member's credit at the time of retirement and on the employer contributions held for the member and calculated in the same manner as for other members, except that the provisions in this part for minimum service and disability retirement allowances shall not apply to the member, unless the member meets such minimum service requirements. If a basic death benefit becomes payable under Article 5 (commencing with Section 21360) of Chapter 9 of this part because of death before retirement of such a member, the average annual compensation earnable in the year preceding the date of termination of such service, rather than in the year preceding death, shall be used in computing such benefit under such Article 5 of Chapter 9.

The provisions of this section, as it read prior to June 21, 1971, shall continue with respect to a member whose membership continued under this section on such date.

SEC. 4. Section 20653 of the Government Code is amended to read:

20653. A member who elects to be subject to Section 21251.146 shall be paid his or her accumulated contributions plus current year interest through the date on which the claim is filed with the office of the Controller for service rendered as a state miscellaneous or state industrial member. This section does not apply to a member who elects to be subject to Section 21251.147.

SEC. 5. Section 20803.95 is added to the Government Code, to read:

20803.95. Sections 20803.3, 20803.4, 20803.7, 20803.8, and 20803.9 shall not apply to a state miscellaneous or state industrial member subject to Section 21251.146 or Section 21251.147 who becomes a patrol member, a state safety member, or a state peace officer/firefighter member as a result of an amendment to this part defining such members, or is reclassified as a state peace officer/firefighter member pursuant to Sections 20017.98 or 20017.99, unless the member elects to: (a) deposit in the Retirement Fund an amount equal to any accumulated contributions that he or she withdrew pursuant to Section 20653, plus an amount equal to the interest which would have been credited to his or her account, to the date of completion of payments, had such contributions not been withdrawn; and, (b) deposit in the Retirement Fund the amount which he or she would have contributed had he or she not been subject to subdivision (c) of Section 20603, plus an amount equal to the interest, to the date of completion of payments, which would have been credited to those contributions had he or she been subject to subdivision (a) or (b) of Section 20603.

SEC. 6. Section 20813.1 of the Government Code is amended to read:

20813.1. A member who elects to be subject to Section 21251.146

shall be credited at no cost with all creditable previous state miscellaneous or state industrial service after the member is credited with one year of service under Section 21251.146. The member shall apply for and identify time periods for such service to the board. The one-year requirement shall be waived if the person becomes disabled pursuant to Section 21020. This section shall not apply to a member who elects to be subject to Section 21251.147.

SEC. 7. Section 20950.1 of the Government Code is amended to read:

20950.1. A state miscellaneous member, other than one subject to Section 21251.13, shall be retired for service upon his or her written application to the board if he or she has attained age 55 and is credited with 10 years of state service, except that a member who elects pursuant to Section 21251.146 or Section 21251.147 may retire if he or she has attained age 50 and is credited with less than 10 years of state service if the member has five years of service prior to January 1, 1985.

SEC. 8. Section 21224.5 of the Government Code is amended to read:

21224.5. Notwithstanding anything to the contrary in this article, the monthly allowance for service subject to Section 21251.146 or Section 21296.01 shall be adjusted annually beginning with the second calendar year following retirement for time commencing on April 1 and payable on the first day of May. The adjusted monthly allowance shall be equal to the base allowance increased by 3 percent per year compounded for the number of years intervening between the end of the base year and the beginning of the calendar year in which the adjustment is made.

SEC. 9. Section 21251.146 of the Government Code is amended to read:

21251.146. The service retirement allowance for a state miscellaneous or state industrial member who has elected the benefits of this section is a pension equal to the fraction of one-hundredth of the member's final compensation set forth opposite the member's age at retirement, taken to the preceding completed quarter year in the following table, multiplied by the member's number of years of state miscellaneous service:

SEC. 10. Section 21251.147 of the Government Code is amended to read:

21251.147. The service retirement allowance for a state miscellaneous or state industrial member who elects to be subject to this section shall be: the sum of the allowance for service rendered subsequent to the effective date of the election, computed pursuant to Section 21251.146, added to the allowance for service rendered as a state miscellaneous or state industrial member prior to the effective date of the election, computed pursuant to Section 21251.13.

SEC. 11. Section 21251.15 of the Government Code is amended to read:

21251.15. For a member reinstated from service retirement or partial service retirement, the current service pension, or current and prior service pensions, as the case may be, upon his or her service retirement subsequent to such reinstatement, shall be the sum of (1) a current service pension calculated on the basis of service rendered after reinstatement in accordance with the formula applicable to him or her in such service and membership, plus, if such subsequent retirement occurs before he or she renders, after his or her reinstatement, at least one year of state service credited under this system, (2) his or her current service pension, or current and prior service pensions, as the case may be, as it was prior to his or her reinstatement, adjusted for any service on which such pension was based which was included in coverage of the federal system during reinstatement according to the formula applicable to such service in employment for which he or she was retired, and further adjusted according to any change after reinstatement in the provisions governing the calculation of his or her pension which would have applied to him or her had he or she continued in retirement but been subject to the formula applied in the first adjustment; or, for state miscellaneous and state industrial service subject to Section 21251.146, in lieu of (2), plus (3) a current service pension, or current and prior service pensions, as the case may be, as it would have been prior to his or her reinstatement under the formula applicable to Section 21251.146, adjusted for any service on which such pension was based which was included in coverage of the federal system during reinstatement according to the formula applicable to such service in employment for which he or she was retired, and further adjusted according to any change after reinstatement in the provisions governing the calculations of his or her pension which would have applied to him or her had he or she continued in retirement and been subject to the formula applicable to Section 21251.146, or if he or she has rendered one year or more of state service after reinstatement, in lieu of (2) or (3), plus (4), a current service pension based on current service rendered prior to such reinstatement, calculated

on the basis of the formula currently applicable to the employment in which the service was rendered but on the basis of an age taken to the preceding completed quarter year but not less than the minimum retirement age applicable to him or her at his or her last retirement and determined by deducting from his or her at his or her subsequent retirement, the aggregate time during which he or she was under retirement. For such a member reinstated from nonindustrial disability retirement, the current service pension upon his or her service retirement after attaining an age one year less than the minimum age at which he or she could have retired without an actuarial discount because of age in the employment from which he or she was last retired, or upon his or her disability retirement after attaining such minimum age, and subsequent to such reinstatement, shall be calculated in the manners described in the preceding sentence, but the age determined upon subsequent retirement after rendering at least one year of state service credited under the system shall not be taken at less than one year less than such minimum age if the subsequent retirement is for service, or such minimum age if the retirement is for disability.

The current service pension otherwise payable under this section to a member whose allowance prior to reinstatement was paid pursuant to his or her election under Section 21338 shall be reduced by the actuarial equivalent, on the date of retirement subsequent to reinstatement, of the amount (converted as below), if any, by which—

(a) The total amount, paid in the period during which a temporary annuity was included in the payments, said amount being reduced by the total amount that would have been payable during said period had said election not been made; exceeds

(b) The excess of the total amount that would have been payable, had said election not been made, during the time subsequent to said period and prior to reinstatement over the total amount actually paid during said time.

The amount determined by the above formula shall be converted to an amount equaling the actuarial equivalent on the date of reinstatement and this latter amount shall be the basis of the actuarial equivalent, on the date of retirement subsequent to reinstatement.

Actuarial equivalents required by this section shall be based on the interest rate and mortality tables in use by this system on the date of retirement subsequent to reinstatement.

Notwithstanding this section, or any other provision of this part, the current service pension payable to any member subject to this section who rendered one year or more of state service credited under the system after reinstatement on retirement for service subsequent to reinstatement from service retirement for any credited service for which a current service pension was paid prior to reinstatement shall not be less than the current service pension which would be payable on the date of such subsequent retirement had the member not been reinstated, or for state miscellaneous and state industrial service subject to Section 21251.146, the current ser-

vice pension payable for any credited service for which a current service pension was paid prior to reinstatement shall not be less than the current service pension which would have been payable on the date of the subsequent retirement had the member's retirement been subject to the formula under Section 21251.146 and had not been reinstated, adjusted, however, by any reduction under this section because of an election under Section 21338 and, for any service so credited which was included in coverage of the federal system during reinstatement, according to the formula applicable to such service in employment from which he or she was retired.

SEC. 12. Section 21262 of the Government Code is repealed.

SEC. 13. Section 21292.3 is added to the Government Code, to read:

21292.3. Upon the industrial disability retirement of a state miscellaneous member within Section 21022.2, or a state industrial member, who is not subject to Section 21292.6, whose service is subject to Section 21251.146, the disability allowance shall be 50 percent of his or her final compensation plus an annuity purchased with his or her accumulated additional contribution, if any, or if qualified for service retirement, he or she shall receive his or her service retirement allowance, if such allowance, after deducting the annuity, is greater.

SEC. 14. Section 21292.51 of the Government Code is amended to read:

21292.51. Notwithstanding any provision of this part, a state safety member employed by the Department of Corrections or the Department of the Youth Authority with 25 years or more of service credit as such, shall, upon retirement on or after January 1, 1982, for industrial disability, receive the disability allowance provided for in Section 21292.5 or a disability allowance equal to 1/50th of final compensation multiplied by the number of years of state safety member service in the Department of Corrections or the Department of the Youth Authority with which the member is credited at retirement.

This section shall not become operative for any eligible member, unless and until it is first agreed to in a memorandum of understanding reached between the state and the exclusive representatives of the employees in State Bargaining Unit No. 6 pursuant to the State Employer-Employee Relations Act, Chapter 10.3 (commencing with Section 3512) of Division 4 of Title 1, and approved by the Legislature pursuant to law.

Payment of benefits pursuant to this section for any eligible member shall be retroactive to the effective date of the retirement of the member.

SEC. 15. Section 21292.6 of the Government Code is amended to read:

21292.6. Notwithstanding any other provision of this part, the industrial disability retirement allowance of a member whose membership commenced after January 1, 1980, in the category of membership in which the member was serving at the time of suffering the disability or incurring the disease causing retirement for industrial

disability, shall not exceed the service retirement allowance that would be payable as a result of service in that category of membership if the member's service had continued to age 55, if a patrol, state peace officer/firefighter member, state safety, or local safety member, age 65, if service is subject to Section 21251.146, or age 63, if any other category of member.

This section shall not be applicable to a member who is subject to Section 21307, or a member whose disability results from an injury which is a direct consequence of a violent act perpetrated upon his or her person or occurs during the performance of those portions of his or her duties which are particularly hazardous and dangerous.

SEC. 16. Section 21296.01 of the Government Code is amended to read:

21296.01. The disability retirement pension for state miscellaneous or state industrial service subject to Section 21251.146 shall be either of the following:

(a) Ninety percent of the factor applicable at age 65 as set forth in Section 21251.146 times final compensation multiplied by the number of years of service credited to him or her.

(b) If the disability retirement allowance computed under subdivision (a) does not exceed one-third of his or her final compensation, 90 percent of the benefit which would be payable to the member had the member continued in employment until age 65, but in such case the retirement allowance shall not exceed one-third of the final compensation.

(c) If the disability retirement allowance is derived from this section and Section 21296, and would otherwise exceed such maximums, the pension payable with respect to each section shall be reduced in the same proportion as the allowance bears to the total allowance computed as though there was no limit, so that the total of such pensions shall equal the maximum allowed. This subdivision is not applicable to members who are not entitled, at time of retirement, to be credited with at least 10 years of state service.

[Approved by Governor June 26, 1986 Filed with Secretary of State June 27, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 18930 of the Health and Safety Code is amended to read:

18930. (a) Any building standard adopted by state agencies shall be submitted, to and approved by, the State Building Standards Commission prior to codification. Prior to submission to the commission, building standards which are adopted by state agencies shall be adopted in compliance with the procedures specified in Article 5 (commencing with Section 11346) of Chapter 3.5 of Part 1 of Division 3 of Title 2 of the Government Code. Building standards adopted by state agencies and submitted to the commission for approval shall be accompanied by an analysis written by the adopting agency which shall, to the satisfaction of the commission, justify the approval thereof in terms of the following criteria:

(1) The proposed building standard does not conflict with, overlap, or duplicate other building standards.

(2) The proposed building standard is within the parameters established by enabling legislation and is not expressly within the exclusive jurisdiction of another agency.

(3) The public interest requires the adoption of the building standards.

(4) The proposed building standard is not unreasonable, arbitrary, unfair, or capricious, in whole or in part.

(5) The cost to the public is reasonable based on the overall benefit to be derived from the building standards.

(6) The proposed building standard is not unnecessarily ambiguous or vague, in whole or in part.

(7) (A) The applicable national specifications, published standards, and model codes have been incorporated therein as provided in this part, where appropriate.

(B) If a national specification, published standard, or model code does not adequately address the goals of the state agency, a statement defining the inadequacy shall accompany the proposed building standard when submitted to the commission.

(C) If there is no national specification, published standard, or model code that is relevant to the proposed building standard, the state agency shall prepare a statement informing the commission and submit that statement with the proposed building standard.

(8) The format of the proposed building standards is consistent with that adopted by the commission.

(9) The proposed building standard, if intended to promote fire and panic safety, has the written approval of the State Fire Marshal.

(b) In reviewing building standards submitted for its approval, the commission shall consider only the following:

(1) Except as provided in subdivision (b) of Section 11342.3 of the Government Code, the record of the proceedings of the adopting agency.

(2) The evidence submitted to, and considered by, the adopting agency.

(c) The commission shall give great weight to the determinations and analysis of the adopting agency on each of the criteria for approval set forth in subdivision (a). Any factual determinations of the adopting agency shall be considered conclusive by the commission unless the commission specifically finds, and sets forth its reasoning in writing, that such factual determination is arbitrary and capricious or substantially unsupported by the evidence considered by the adopting agency.

Whenever the commission makes such a finding, it shall return the standard to the adopting agency for a reexamination of its original determination of the disputed fact.

(d) Whenever a building standard is principally intended to protect the public health and safety, its adoption shall not be a "factual determination" for purposes of subdivision (c). Whenever a building standard is principally intended to conserve energy or other natural resources, the commission shall consider or review the cost to the public or benefit to be derived as a "factual determination" pursuant to subdivision (c). Whenever a building standard is intended to promote fire and panic safety, the commission shall, unless adopted by the State Fire Marshal, submit the building standard to the State Fire Marshal for prior approval.

(e) Whenever the commission finds, pursuant to paragraph (2) of subdivision (a), that a building standard is adopted by an adopting agency pursuant to statutes requiring adoption of the building standard, the commission shall not consider or review whether the adoption is in the public interest pursuant to paragraph (3) of subdivision (a).

(4) A description of any alternatives the agency has identified that would lessen any adverse impact on small businesses. It is not the intent of this subdivision to require the agency to artificially construct alternatives or to justify why it has not identified alternatives.

(b) Prepare and submit to the office with the adopted regulation a final statement of reasons which shall include all of the following:

(1) An update of the information contained in the initial statement of reasons. If the update identifies any data or any technical, theoretical or empirical study, report, or similar document on which the agency is relying in proposing the adoption or amendment of a regulation which was not identified in the initial statement of reasons, or which was otherwise not identified or made available for public review prior to the close of the public comment period, the agency shall comply with the provisions of subdivision (d) of Section 11346.8.

If the agency finds that the mandate is not reimbursable, it shall state the reasons for that finding.

(3) A summary of each objection or recommendation made regarding the specific adoption, amendment, or repeal proposed, together with an explanation of how the proposed action has been changed to accommodate each objection or recommendation, or the reasons for making no change. This requirement applies only to objections or recommendations specifically directed at the agency's proposed action or to the procedures followed by the agency in proposing or adopting the action.

(4) A determination with supporting information that no alternative considered by the agency would be more effective in carrying out the purpose for which the regulation is proposed or would be as effective and less burdensome to affected private persons than the adopted regulation, and an explanation setting forth the reasons for rejecting any proposed alternatives that would lessen the adverse economic impact on small businesses.

(c) Prepare and submit to the office with the adopted regulation an updated informative digest containing a clear and concise summary of the immediately preceding laws and regulations, if any, relating directly to the adopted, amended, or repealed regulation and the effect of the adopted, amended, or repealed regulation. The informative digest shall be drafted in a format similar to the Legislative Counsel's Digest on legislative bills.

(d) A state agency which adopts or amends a regulation mandated by federal law or regulations, the provisions of which are identical to a previously adopted or amended federal regulation, shall be deemed to have complied with the provisions of this section if a statement to the effect that a federally mandated regulation or amendment to a regulation is being proposed, together with a citation to where an explanation of the provisions of the regulation can be found, is included in the notice of proposed adoption or amendment prepared pursuant to Section 11346.5. However, the agency shall comply fully with the provisions of this chapter with respect to any provisions in the regulation which the agency proposes to adopt or amend which are different from the corresponding provisions of the federal regulation.

Any member reinstated to membership pursuant to Section 23913 is not eligible to file a preretirement election of an option until one

SECTION 1. Section 60061 of the Education Code is amended to read:

60061. A publisher or manufacturer shall:

(a) Furnish the instructional materials offered by him or her at a price in this state that, including all costs of transportation to that place, does not exceed the lowest price at which the publisher offers those instructional materials for adoption or sale to any state or school district in the United States.

(b) Automatically reduce the price of those instructional materials to any governing board to the extent that reductions are made elsewhere in the United States.

(c) Provide any instructional materials free of charge in this state to the same extent as that received by any state or school district in the United States.

(d) Guarantee that all copies of any instructional materials sold in this state are at least equal in quality to the copies of those instructional materials that are sold elsewhere in the United States, and are kept revised, free from all errors, and up to date as may be required by the state board.

(e) Not in any way, directly or indirectly, become associated or connected with any combination in restraint of trade in instructional materials, or enter into any understanding, agreement, or combination to control prices or restrict competition in the sale of instructional materials for use in this state.

(f) Maintain a representative, office, or depository in the State of California or arrange with an independently owned and operated depository in the State of California to receive and fill orders for instructional materials.

For purposes of the preceding paragraph of this subdivision, "instructional materials" means textbooks, or instructional materials systems or instructional materials sets which include textbooks.

(g) Upon the willful failure of the publisher or manufacturer to comply with the requirements of this section, be liable to the governing board in the amount of three times the total sum that the

publisher or manufacturer was paid in excess of the price required under subdivisions (a), (b), and (e), and in the amount of three times the total value of the instructional materials and services that the governing board is entitled to receive free of charge under subdivision (c).

SEC. 2. Section 60063 of the Education Code is amended to read:

60063. Any governing board may order any publisher or manufacturer who violates any provision of this division to cease to offer or sell any instructional materials to that governing board. If that order is made, it shall be unlawful for that publisher or manufacturer to sell instructional materials to that governing board until the publisher or manufacturer has demonstrated, to the governing board that made the order, that it is no longer violating the specified provision of this part.

SEC. 3. Section 60200 of the Education Code is amended to read:

60200. The state board shall adopt instructional materials for use in kindergarten and grades 1 to 8, inclusive, for governing boards, subject to Section 60265 and to the following provisions:

(a) At least biennially, adoptions shall be made for all applicable levels for each of the following categories: (1) language arts, (2) mathematics, (3) reading, (4) science, (5) social science, (6) bilingual or bicultural subjects, and (7) any other subject, discipline, or interdisciplinary areas for which the state board determines the adoption of instructional materials to be necessary or desirable to promote the maximum efficiency of pupil learning.

(b) While categories may be designated to be adopted in alternate years, the state board shall adopt not less than five but no more than 15 of any of the following for basic instructional materials in each subject in each grade: (a) instructional materials, (b) instructional materials systems, (c) instructional materials sets, and, (d) a combination of instructional materials, instructional materials systems, and instructional materials sets, as the state board may select. However, less than five items per subject per grade may be adopted when the state board establishes that adequate materials are not available for certain grades and subjects.

Nothing in this subdivision shall limit the authority of the state board to adopt materials that are not basic instructional materials, and the adoption of those materials shall not be governed by the maximum and minimum limits specified by this subdivision.

(c) In the event that a district board establishes to the satisfaction of the state board that the state-adopted instructional materials do not promote the maximum efficiency of pupil learning in the district, the state board shall authorize that district board to use its instructional materials allowances to purchase materials as specified by the state board, in accordance with standards and procedures established by the state board.

(d) The state board shall establish procedures to provide the most open and flexible submissions, as to timing and processing, to provide collections of instructional materials that, when taken as a whole,

illustrate diverse points of view; represent cultural pluralism and provide a broad spectrum of knowledge, information, and opinions; and allow for a combination of approaches and media to best meet the goals of a program and the needs of pupils.

(e) Upon making an adoption, the state board shall make available to listed publishers and manufacturers and all school interests a listing of instructional materials, including the most current unit cost of those materials as computed pursuant to subdivision (b) of Section 60222 and Section 60223. Items placed upon lists shall remain thereon, and be available for procurement through the state's systems of financing, for a period of not less than four years following the date of initial use as established pursuant to subdivision (i). All previous adoptions shall be integrated on lists and made available by subject and level.

(f) The state board may approve multiple lists of instructional materials, without designating a grade or subject, and the state board may designate more than one grade or subject whenever it determines that a single subject designation or a single grade designation would not promote the maximum efficiency of pupil learning. Any materials so designated may be placed on single grade or single subject lists, or multigrade or interdisciplinary lists, or may be placed on separate lists including other materials with similar grade or subject designations; however, all materials so designated shall be adopted subject to the limitations of subdivision (b).

(g) A composite listing in the format of an order form may be used to meet the requirements of this section.

(h) The lists maintained pursuant to this section shall not be deemed to control the use period by any local district.

(i) The state board shall, at the time of initiating the call for bids for instructional materials, establish the date upon which those state-adopted materials shall initially be available for use by the pupils.

SEC. 4. Section 60222 of the Education Code is amended to read:

60222. Publishers and manufacturers shall, at a time designated by the state board, submit the following information:

These specifications shall be complied with by the publisher or manufacturer if the material is adopted and purchased in completed form by the state board or any district board. If the material is adopted under a lease contract, the Department of General Services shall follow the same specifications in manufacturing the material. Changes in specifications may be made when approved by the state board and the publisher or manufacturer.

within any specified period of time.

SEC. 5. Section 60226 of the Education Code is amended to read:

60226. Publishers and manufacturers shall, in accordance with rules and regulations adopted by the state board, develop plans to improve the quality and reliability of instructional materials through learner verification. District boards shall be encouraged to permit publishers and manufacturers to have limited access to classrooms for necessary testing and observation. Publishers and manufacturers shall provide copies of test results and evaluations made as part of learner verification at the request of any governing board.

SEC. 6. Section 60241 of the Education Code is amended to read:

60241. The fund shall be administered by the State Department of Education under policies established by the state board. The state board shall encumber part of the fund to:

60264. All district orders made pursuant to subdivision (a) of Section 60242 for state-adopted instructional materials shall be forwarded as directed by the Superintendent of Public Instruction for procurement of those materials in the most economical and timely manner pursuant to Article 5 (commencing with Section 60280) of this chapter. However, in cases in which the district does not qualify as a city school district and is an elementary district with fewer than 901 average daily attendance or a unified district with an average daily attendance of less than 1,501, the county superintendent of schools shall approve the orders for instructional

materials by the districts before forwarding as directed by the Superintendent of Public Instruction.

The state board, in order to procure textbooks, shall tabulate all orders for each textbook title received from school districts and nonpublic school pupils pursuant to subdivision (a) of Section 60243. The Department of General Services shall select from the tabulation those titles that can be manufactured by the department at a unit cost lower than that specified in the price schedule submitted by the publisher or manufacturer pursuant to subdivision (b) of Section 60222, less the amount of sales tax payments on those titles to the State of California, and for which the department can complete manufacture in time to permit delivery to the school districts and nonpublic school pupils prior to the opening of school in the year in which the textbooks are to be used. (c) Every general acute care hospital which identifies a Medi-Cal eligible or Medicare/Medi-Cal eligible patient for referral to a long-term health care facility shall contact by telephone the appropriate State Department of Health Services Medi-Cal field office for the purpose of conducting preadmission screening.

(d) Preadmission screening shall not be required for persons referred to certified programs for the mentally ill or developmentally disabled.

(e) For the purpose of conducting preadmission screening, and subject to applicable confidentiality requirements, including Section 14100.2, the State Department of Health Services, or its designated representatives, shall have access to all medical records of Medi-Cal or Medicare/Medi-Cal eligible persons who apply or are referred for admission to a long-term health care facility. It is further the intent of the Legislature that the State Department of Health Services shall coordinate with the Multipurpose Senior Services Program or similar case management agencies, to the extent possible.

(f) All persons who are admitted to nursing homes for a short stay as a result of preadmission screening shall have a discharge plan, including projected length of stay and proposed discharge goal, which shall be reviewed at least monthly for up to four months until the medical status, the ability to perform activities of daily living, and the determination of service needs indicate referral to community-based services for care at home is appropriate.

All persons who are admitted to nursing homes for prolonged care as a result of preadmission screening shall be reviewed for their potential for community-based care during the process of reauthorization of prolonged care Treatment Authorization Request (TAR) and, if appropriate, be referred to community-based service.

(g) All Medi-Cal recipients residing in nursing homes who have not been preadmission screened shall be reviewed for their potential for postadmission screening. Those persons identified as having the potential for living in the community with the support of community-based services shall be postadmission screened and referral made to community-based services, if appropriate. Priority for postadmission screening shall be given to those persons who have been in nursing homes six months or less. All Medi-Cal recipients residing in nursing homes on a six month or less Treatment Authorization Request (TAR) shall be postadmission screened within six months of the effective date of this section. All other Medi-Cal recipients residing in nursing homes shall be postadmission screened within 12 months of the effective date of this section. The State Department of Health Services shall give priority to qualified Multipurpose Senior Services Providers (MSSP) to conduct postadmission screening.

(h) Persons admitted to a long-term health care facility who have been residing in the residential care facility portion of the multilevel facility, as defined in paragraph (9) of subdivision (d) of Section 15432 of the Government Code, are not subject to this section.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 214

An act to amend Sections 6592 and 6593 of, to add Section 6471.4 to, and to add Article 1.5 (commencing with Section 6480) to Chapter 5 of Part 1 of Division 2 of, the Revenue and Taxation Code, relating to taxation, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 27, 1986. Filed with Secretary of State June 27, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 6471.4 is added to the Revenue and Taxation Code, to read:

6471.4. Any person required to make prepayment pursuant to Article 1.5 (commencing with Section 6480) shall not be required to make additional prepayment pursuant to this article, provided that more than 75 percent of the gross receipts of that person are from the retail sale of motor vehicle fuel.

SEC. 2. Article 1.5 (commencing with Section 6480) is added to Chapter 5 of Part 1 of Division 2 of the Revenue and Taxation Code, to read:

Article 1.5. Prepayment of Sales Tax on Motor Vehicle Fuel Distributions

6480. (a) For purposes of this article, the terms "distributor," "broker," "distribution," "motor vehicle fuel," "person," and "in this state" are defined pursuant to Part 2 (commencing with Section 7301).

(b) This article does not apply to motor vehicle fuel exempt from license taxes pursuant to paragraph (3) of subdivision (a) of Section 7401.

6480.1. (a) After service of written notification by the board, on the first distribution in this state of motor vehicle fuel subject to the motor vehicle fuel license tax, the distributor shall collect prepayment of retail sales tax from the person to whom the motor vehicle fuel is distributed. The prepayment required to be collected by the distributor constitutes a debt owed by the distributor to this state until paid to the board, until satisfactory proof has been submitted to prove that the retailer of the fuel has paid the retail sales tax to the board, or until a distributor or broker who has consumed the fuel has paid the use tax to the board. Each distributor shall report and pay the prepayment amounts to the board on a form prescribed by the board. On each subsequent distribution of that motor vehicle fuel, each seller, other than the retailer, shall collect from his or her purchaser an amount equal to the amount of the prepayment paid by the seller to the person from whom he or she acquired the fuel. Each distributor shall provide his or her purchaser with a receipt or invoice for the collection of the prepayment amounts which shall be separately stated thereon.

(b) After service of written notification by the board, the broker shall collect prepayment of the retail sales tax from the person to whom the motor vehicle fuel is transferred. The prepayment required to be collected by the broker constitutes a debt owed by the broker to the state until paid to the board, or until satisfactory proof has been submitted to prove that the retailer of the fuel has paid the tax to the board. Each broker shall provide his or her purchaser with a receipt or invoice for the collection of the prepayment amounts which shall be separately stated thereon.

Each broker shall report and pay the prepayment amounts to the board on a form prescribed by the board. The amount of prepayment paid by the broker to his or her vendor shall constitute a credit against the amount of prepayment required to be collected and remitted by the broker to the board.

(c) A distributor or broker who pays the prepayment and issues a resale certificate to the seller, but subsequently consumes the fuel, shall be entitled to a credit against his or her sales and use taxes due and payable for the period in which the prepayment was made, provided that he or she reports and pays the use tax to the board on the consumption of that fuel.

(d) The amount of a prepayment paid by the retailer or a distributor or broker who has consumed the fuel to the seller from whom he or she acquired the fuel shall constitute a credit against his or her sales and use taxes due and payable for the period in which the prepayment was made. Failure of the distributor or broker to report prepayments or the distributor's or broker's failure to comply with any other duty under this article shall not constitute grounds for denial of the credit to the retailer or broker, either on a temporary

or permanent basis or otherwise. The retailer or broker shall be entitled to the credit to the extent of the amount prepaid to his or her supplier as evidenced by purchase documents, invoices, or receipts stating separately the amount of tax prepayment.

(e) The rate of the prepayment required to be collected during the period from July 1, 1986, through March 31, 1987, shall be four cents ($0.04) per gallon of motor vehicle fuel distributed or transferred.

(f) On April 1 of each succeeding year, the rate per gallon, rounded to the nearest one-half of one cent, of the required prepayment shall be established by the board based upon 80 percent of the combined state and local sales tax rate established by Sections 6051 and 7202 on the arithmetic average selling price (excluding sales tax) as determined by the State Energy Resources Conservation and Development Commission, in its latest publication of the "Quarterly Oil Report," of all grades of gasoline sold through a self-service gasoline station. The board shall make its determination of the rate no later than November 1 of the year prior to the effective date of the new rate. Immediately upon making its determination and setting of the rate, the board shall each year, no later than January 1, notify by mail every distributor, broker, and retailer of motor vehicle fuel.

6480.2. (a) If the board determines that it is necessary for the efficient administration of this part, the board may require a distributor or broker to provide the board with a list of purchasers to whom the motor vehicle fuel was transferred.

(b) In addition to any other reports required under this article, the board may, by rule and otherwise, require additional, other, or supplemental reports, in any form which the board may require, from distributors or brokers with respect to their sales of motor vehicle fuel defined pursuant to Part 3 (commencing with Section 8601).

(c) Any distributor or broker who fails to comply with this section is guilty of a misdemeanor punishable as provided in Section 7153.

6480.3. The distributor or broker shall file his or her prepayment form together with a remittance of the prepayment amounts required to be collected pursuant to Section 6480.1 payable to the State Board of Equalization, on or before the 25th day of the calendar month following the monthly period to which the prepayment form or each prepayment relates.

6480.4. Any distributor or broker who fails to make a timely remittance to the board of the prepayment required pursuant to Sections 6480.1 and 6480.3 shall also pay a penalty of 25 percent of the amount of the prepayment due but not paid, plus interest at the modified adjusted rate per month, or fraction thereof, established pursuant to Section 6591.5, from the date the prepayment became due and payable to the state until the date of payment.

6480.5. Notification by the board provided for in Section 6480.1 may be served personally or by mail upon each distributor or broker

in the manner prescribed in Section 6486 for service of notice of a deficiency determination, or by mailing with blank tax return forms.

6480.6. (a) The following persons who have paid prepayment amounts either directly to the board or to the person from whom it was purchased, on the distribution of motor vehicle fuel which was subject to the motor vehicle fuel license tax, shall be refunded those amounts:

(1) Any person who exports the motor vehicle fuel for subsequent sale outside this state.

(2) Any person who sells the motor vehicle fuel which is exempt from the sales or use tax pursuant to Sections 6352, 6357, 6381, and 6396.

(3) Any person who has lost the motor vehicle fuel through fire, flood, theft, leakage, evaporation, shrinkage, spillage, or accident, prior to any retail sale.

(b) In lieu of a refund, the board may authorize a credit to be taken by the person to whom the refund is due upon his or her prepayment form or sales and use tax return.

6480.7. (a) The board may require any distributor or broker subject to this article to place with the board any security that the board determines is necessary to ensure compliance with this article. The amount of the security shall be fixed by the board but shall not be greater than three times the estimated average liability of distributors or brokers required to file returns for monthly periods, determined in any manner that the board deems proper, or five hundred thousand dollars ($500,000), whichever amount is less. These amounts apply regardless of the type of security placed with the board. The amount of the security may be increased or decreased by the board subject to the maximum amounts. The security required pursuant to this section is in addition to the bond or bonds required pursuant to Section 7486.

(b) The board may sell the security at public auction if it becomes necessary to so do in order to recover any tax or any amount required to be collected or penalty due. Notice of the sale may be served upon the person who placed the security personally or by mail. If service is by mail, service shall be made in the manner prescribed for service of a notice of a deficiency determination and shall be addressed to the person at his or her address as it appears in the records of the board. However, security in the form of a bearer bond issued by the United States or the State of California which has a prevailing market price may be sold by the board at a private sale at a price not lower than the prevailing market price thereof. Upon any sale, any surplus above the amounts due shall be returned to the distributor or broker who placed the security.

6480.8. (a) Any retailer required to make prepayment to the seller from whom he or she acquired the motor vehicle fuel, shall be allowed to credit against the tax liability due for the monthly or quarterly period preceding the effective date of this article, an amount of tax equal to the tax liability imposed at four cents ($0.04)

per gallon of motor vehicle fuel sold by that retailer during the month in which the retailer sold the highest number of gallons of motor fuel during the 12-month period immediately preceding the effective date of this article. However, nothing in this section shall entitle the retailer to any refund to which he or she would not otherwise be entitled to receive.

(b) Any excess of credit over the amount of tax liability due for that monthly or quarterly period shall be taken as a credit against the tax liability due for the following monthly or quarterly period.

(c) The amount of credit allowed by this section shall be remitted to the board, without interest on a return in such form as the board may prescribe, at a rate of 25 percent per quarter on or before the end of the month following each of the four calendar quarters following the quarter or month in which the credit was allowed. Any balance is due and payable on the return required to be filed for the period in which the taxpayer ceases to be engaged in business.

Any retailer who fails to make a timely remittance to the board of the amount of credit required to be paid under this section, shall also pay a penalty of 10 percent of the amount of the credit due but not paid, plus interest at the modified adjusted rate per month, or fraction thereof, established pursuant to Section 6591.5, from the date the prepayment became due and payable to the state until the date of payment.

SEC. 3. Section 6592 of the Revenue and Taxation Code is amended to read:

6592. If the board finds that a person's failure to make a timely return or payment is due to reasonable cause and circumstances beyond the person's control, and occurred notwithstanding the exercise of ordinary care and the absence of willful neglect, the person may be relieved of the penalty provided by Sections 6476, 6477, 6480.4, 6480.8, 6511, 6565, 6591, and 7051.2.

Any person seeking to be relieved of the penalty shall file with the board a statement under penalty of perjury setting forth the facts upon which he or she bases his or her claim for relief.

SEC. 4. Section 6593 of the Revenue and Taxation Code is amended to read:

6593. If the board finds that a person's failure to make a timely return or payment was due to a disaster, and occurred notwithstanding the exercise of ordinary care and the absence of willful neglect, the person may be relieved of the interest provided by Sections 6459, 6480.4, 6480.8, 6513, and 6591.

Any person seeking to be relieved of the interest shall file with the board a statement under penalty of perjury setting forth the facts upon which he or she bases his or her claim for relief.

SEC. 4.5. The sum of three hundred thirty-eight thousand dollars ($338,000) is hereby appropriated from the General Fund to the State Board of Equalization for startup costs to implement this act.

SEC. 5. This act shall become operative on July 1, 1986.

SEC. 6. No reimbursement is required by this act pursuant to

Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure the timely remittance of sales tax revenues from the sale of motor vehicle fuel at the earliest possible time, it is necessary that this act take immediate effect.

CHAPTER 215

An act to amend Section 4800 of the Civil Code, relating to family law.

[Approved by Governor June 28, 1986. Filed with Secretary of State June 30, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 4800 of the Civil Code is amended to read:

4800. (a) Except upon the written agreement of the parties, or on oral stipulation of the parties in open court, or as otherwise provided in this section, the court shall, either in its judgment of dissolution of the marriage, in its judgment decreeing the legal separation of the parties, or at a later time if it expressly reserves jurisdiction to make such a property division, divide the community estate of the parties equally. For purposes of making this division, the court shall value the assets and liabilities as near as practicable to the time of trial, except that, upon 30 days' notice by the moving party to the other party, the court for good cause shown may value all or any portion of the assets and liabilities at a date after separation and prior to trial to accomplish an equal division of the community estate of the parties in an equitable manner.

For the purposes of division and in confirming or assigning the liabilities of the parties for which the community estate is liable, the court shall characterize liabilities as separate or community and confirm or assign them to the parties in accordance with subdivision (c).

As used in this section, "community estate" includes both the community and quasi-community assets and liabilities of the parties.

(b) Notwithstanding subdivision (a), the court may divide the community estate as follows:

(1) Where economic circumstances warrant, the court may award any asset to one party on such conditions as it deems proper to effect

a substantially equal division of the property.

(2) As an additional award or offset against existing property, the court may award, from a party's share, any sum it determines to have been deliberately misappropriated by the party to the exclusion of the interest of the other party in the community estate.

(3) If the net value of the community estate is less than five thousand dollars ($5,000) and one party cannot be located through the exercise of reasonable diligence, the court may award all such property to the other party on such conditions as it deems proper in its judgment decreeing the dissolution of the marriage or in its judgment decreeing the legal separation of the parties.

(4) Community estate personal injury damages shall be assigned to the party who suffered the injuries unless the court, after taking into account the economic condition and needs of each party, the time that has elapsed since the recovery of the damages or the accrual of the cause of action, and all other facts of the case, determines that the interests of justice require another disposition. In such a case, the community property personal injury damages shall be assigned to the respective parties in such proportions as the court determines to be just, except that at least one-half of the damages shall be assigned to the party who suffered the injuries. As used in this subdivision, "community estate personal injury damages" means all money or other property received or to be received by a person in satisfaction of a judgment for damages for his or her personal injuries or pursuant to an agreement for the settlement or compromise of a claim for the damages, if the cause of action for the damages arose during the marriage but is not separate property as defined in Section 5126, unless the money or other property has been commingled with other assets of the community estate.

(5) Notwithstanding subdivisions (a) and (c), educational loans shall be assigned pursuant to Section 4800.3 and liabilities subject to paragraph (2) of subdivision (b) of Section 5122 shall be assigned to the spouse whose act or omission provided the basis for the liability, without offset.

(c) The debts for which the community estate is liable which are unpaid at the time of trial or for which the community estate becomes liable after trial, shall be confirmed or divided as follows:

(1) Debts incurred by either spouse before the date of marriage shall be confirmed without offset to the spouse who incurred the debt.

(2) Debts incurred by either spouse after the date of marriage but prior to the date of separation shall be divided as set forth in subdivisions (a) and (b). To the extent that community debts exceed total community and quasi-community assets, the excess of debt shall be assigned as the court deems just and equitable, taking into account factors such as the parties' relative ability to pay.

(3) Debts incurred by either spouse after the date of separation but before entry of a judgment of dissolution or legal separation shall

be confirmed as follows:

(A) Debts incurred by either spouse for the common necessaries of life of either spouse or the necessaries of life of the minor children of the marriage, in the absence of a court order or written agreement for support or for the payment of these debts, shall be confirmed to either spouse according to the parties' respective needs and abilities to pay at the time the debt was incurred.

(B) Debts incurred by either spouse for nonnecessaries of that spouse or minor children of the marriage shall be confirmed without offset to the spouse who incurred the debt.

(4) Debts incurred by either spouse after entry of a judgment of dissolution but prior to termination of the parties' marital status or after entry of a judgment of legal separation shall be confirmed without offset to the spouse who incurred the debt.

(d) Notwithstanding subdivision (c), all separate debts, including those debts incurred by a spouse during marriage and before the date of separation that were not incurred for the benefit of the community, shall be confirmed without offset to the spouse who incurred the debt.

(e) The court has jurisdiction to order reimbursement in cases it deems appropriate for debts paid after separation but prior to trial.

(f) The court may make such orders as it deems necessary to carry out the purposes of this section.

CHAPTER 216

(6) A provision that the storage, use, or other consumption in the district of tangible personal property is exempt from the tax if the

For purposes of this subdivision, the storage, use, or other consumption of, or possession of, or exercise of any right or power over, tangible personal property shall be deemed not to be obligated pursuant to a contract or lease for any period of time for which any party to the contract or lease has the unconditional right to terminate the contract or lease upon notice, whether or not the right is exercised.

For the public purpose of assuring equity in the payment of diesel fuel taxes among school districts and community college districts, the Legislature, in enacting this act, intends to clarify existing law and

to affect all applicable pending proceedings which come within the provisions of paragraph (5) of subdivision (b) of Section 8655 of the Revenue and Taxation Code, as follows:

(a) Notwithstanding Section 8782 of the Revenue and Taxation Code, for reporting periods prior to July 1, 1984, the notice of determination to a school district, community college district, or county superintendent of schools shall be given within three years after the last day of the month following the period for which the return was due. (b) No interest imposed pursuant to Section 8803 or 8876, or penalties imposed pursuant to Section 8801, 8804, or 8876, of the Revenue and Taxation Code shall apply to unpaid tax liabilities determined for any periods prior to July 1, 1984.

(c) With respect to unpaid tax liabilities determined for the period between July 1, 1981, and July 1, 1984, pursuant to Section 8801 or 8876, the taxes may, at the option of the taxpayer, be paid over a period of up to 10 years. This chapter does not prevent or prohibit an individual, firm, or corporation engaged in any line of business other than the practice of land surveying from employing a licensed land surveyor or registered civil engineer to perform land surveying services incidental to the business of that individual, firm, or corporation.

This section shall not prevent the use of the name of any partnership, firm, company, association, or corporation in existence on June 1, 1941, if all of the members or officers and directors of that partnership, firm, company, association, or corporation were on that date individually licensed as land surveyors pursuant to this chapter or registered civil engineers pursuant to Chapter 7.

The board may also, in its discretion, renew, restore, reinstate, or reissue a license if the applicant has been practicing with an expired license or delinquent license, and the board may attach conditions to the renewal, restoration, reinstatement, or reissuance of the expired license or delinquent license.

(b) The licensee pays all of the fees which would be required if applying for the license for the first time.

Notwithstanding any other provision of law, the board may adopt rules to provide an opportunity from January 1, 1987, to December 31, 1988, for current delinquent licensees to have their licenses renewed, restored, reinstated, or reissued. The board may impose a special fee, including any appropriate penalties, for the license renewal, restoration, reinstatement, or reissuance. The board may require the taking of an examination if the applicant's license is more than five years' delinquent.

SEC. 25. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

(1) The cattle are transported for pasture purposes.

(2) The cattle are transported a distance of not more than 50 miles from the point of origin to the point of destination.

(3) There is no change of ownership of the cattle.

(b) The department may charge a fee to cover its costs in issuing and renewing the annual permit. The fee may not exceed one hundred dollars ($100).

The people of the State of California do enact as follows:

SECTION 1. Section 8249 of the Fish and Game Code is amended to read:

8249. This article shall remain in effect only until January 1, 1989, and as of that date is repealed unless a later enacted statute, which is enacted before January 1, 1989, deletes or extends that date.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 239

An act to amend Sections 50406 and 50532 of, and to add Section 50517.7 to, the Health and Safety Code, relating to housing, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 2, 1986 Filed with Secretary of State July 2, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 50406 of the Health and Safety Code is amended to read:

50406. For the purposes of this division, the department shall have all of the following powers:

(a) To sue and be sued in its own name.

(b) To have an official seal and to alter it at pleasure.

(c) To make and execute contracts and all other instruments necessary or convenient for the exercise of its powers and functions.

(d) To employ architects, planners, engineers, attorneys, accountants, experts in housing construction, management and finance, and any other advisers, consultants, and agents necessary for the performance of its functions and to fix their compensation in accordance with applicable law.

(e) To provide advice, technical information, and consultative and technical services as provided in this division.

(f) To establish, revise from time to time, and charge and collect fees and charges for services provided pursuant to this division.

(g) To accept gifts or grants or loans of funds or property or financial or other aid from any federal or state agency or private source and to comply with conditions thereof not contrary to law.

(h) To enter into agreements or other transactions with any governmental agency, including an agreement for administration of a housing or community development program of the governmental agency by the department, or for administration by another governmental agency of a program of the department, either in whole or in part.

(i) To enter into any agreements and perform any acts necessary to obtain subsidies for use in connection with the exercise of powers and functions of the department, and to transfer those subsidies to others as required by the agreement.

(j) To appear in its own behalf before boards, commissions, departments, or other agencies of local, state, or federal government.

(k) To establish any regional offices necessary to effectuate the department's purposes and functions.

(*l*) To acquire real or personal property, or any interest therein, on either a temporary or long-term basis, in its own name by gift, purchase, transfer, foreclosure, lease, option, or otherwise, including easements or other incorporeal rights in property.

(m) To provide bilingual staff in connection with services of the department and make available departmental publications in a language, other than English, where necessary to effectively serve groups for which the services or publications are made available.

(n) To do any and all things necessary to carry out its purposes and exercise the powers expressly granted by this division.

(o) To sell real property acquired by the department in a foreclosure, by deed in lieu of foreclosure, or sale under a power of sale on a deed of trust, lien, or by exercise of any other security interest on real property securing repayment of a loan or performance under a grant or loan made by the department. Real property so acquired shall be sold for market value and sale proceeds shall be placed in the fund from which the secured loan or grant was made. The department may establish terms, conditions, and restrictions for the sale, including a requirement that the real property be used for housing for persons and families of low or moderate income, and those terms, conditions, and restrictions shall be set forth in the deed or other instrument of conveyance. The sales shall be conducted by the Department of General Services, except that the department may conduct the sale, utilize the assistance of any local public agency authorized to conduct sales of real property, or contract with a licensed real estate broker to conduct the sale, if, with the approval of the Department of General Services, the department determines that one of those options will result in a more prompt or cost-efficient sale and if the real property includes 20 or fewer units or consists of less than 20 acres. Sales made pursuant to this section are not subject to the requirements of Sections 11011 and 11011.1 of the Government Code. Failure to comply with this subdivision shall not invalidate any right, title, or interest acquired by a bona fide purchaser or encumbrancer for value.

SEC. 2. Section 50517.7 is added to the Health and Safety Code, to read:

50517.7. In counties in which a disaster has been declared by the Governor pursuant to Chapter 7 (commencing with Section 8550) of Division 1 of Title 2 of the Government Code and for a period of 12 months after the declaration, the department may provide grants from the fund established by subdivision (b) of Section 50517.5, subject to the following terms and conditions, which are applicable only to this section:

(a) Grants may be made to local public entities, nonprofit corporations, and housing owners comprised of either homeowners who are agricultural employees or owners of rental property used primarily by agricultural households.

(b) The department may enter into master agreements with nonprofit corporations or local public entities or it may enter into contracts directly with housing owners to carry out the activities authorized by this section.

(c) The department may make grants directly to housing owners or through master agreements for the cost of preparation of applications for funds, and supervision of expenditures from the fund, including, but not limited to estimates, work writeups, bidding supervision, and inspections. Funds granted pursuant to this subdivision shall not be secured by, and subject to, the liens required by Section 50517.5.

(d) The department, either directly or through master

agreements, may provide grants to housing owners which shall be used for housing construction or rehabilitation, and related costs, other than those costs accruing pursuant to subdivision (c). Only those funds from the fund which are actually utilized pursuant to this subdivision shall be secured by, and subject to, the liens required by Section 50517.5.

SEC. 3. Section 50532 of the Health and Safety Code is amended to read:

50532. The fund shall be administered by the director and any persons within the department designated by the director.

The fund shall be administered in accordance with all of the following requirements:

(a) The department shall not commit more than 30 percent of the total moneys in the fund for land purchase loans.

(b) The department shall not commit more than 20 percent of the total moneys appropriated to the fund to any single borrower at any point in time.

(c) The department shall require adequate security for all loans made from the fund. For the purposes of this subdivision, "adequate security" includes, but need not be limited to, a security interest in any property purchased with fund moneys, a promissory note, or an assignment of a land option, except that in the case of Indian trust land a mortgage on a leasehold interest in the property shall be acceptable.

(d) No predevelopment loan may be made pursuant to this chapter unless the department may reasonably anticipate that a commitment can be obtained by an eligible sponsor for construction financing or long-term financing that will permit occupancy primarily by persons of low income, as specified in subdivision (b) of Section 50531. The department may make land purchase loans to eligible sponsors to enable those sponsors to exercise options or to purchase land on which no option can be obtained even though the sponsor is not able at the time the loan is made to proceed with the development of assisted housing on the purchased site. If the eligible sponsor is unable to proceed with the development of assisted housing on the purchased site within three years of its acquisition, the sponsor, upon demand of the department, shall convey the site to the department. The department shall dispose of the site in accordance with subdivision (o) of Section 50406, and the net proceeds shall be paid into the fund.

(e) The department shall, from time to time, direct the Treasurer to invest moneys of the fund which are not required for its current needs in eligible securities which the department designates from among those specified in Section 16430 of the Government Code. The department may direct the Treasurer to deposit moneys from the fund in interest-bearing accounts in state or national banks or other financial institutions having principal offices in this state. The department may alternatively require the transfer of moneys in the fund to the Surplus Money Investment Fund for investment

pursuant to Article 4 (commencing with Section 16470) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code. All interest, dividends, and pecuniary gains from those investments or deposits shall accrue to the fund.

(f) In complying with Section 50408, the department shall also report annually to the Legislature and the Governor on the administration of the fund. The report shall include, but need not be limited to, all of the following information:

(1) The number of units assisted.

(2) The average income of households assisted and the distribution of annual incomes among assisted households.

(3) The rents in assisted units.

(4) The number and amount of loans made to each eligible sponsor in the preceding year.

(5) Data on the number of delinquencies and defaults.

(6) Recommendations, as needed, to improve the operation of the fund.

(7) The number of loans made at interest rates lower than 7 percent per annum, and the income of households assisted by those loans.

(8) The public transportation services conveniently available to assisted households.

(9) The number of manufactured housing units assisted under Section 50531 and this section.

(10) The location, size, and cost of land, and option rights purchased with land purchase loans.

(g) (1) Except as provided in paragraph (2), the balance of any loan made from the fund or its predecessor fund which remains unpaid on September 22, 1983, except any portion which is delinquent, and all loans made from the fund on or after that date, shall bear interest at a rate of 7 percent per annum.

(2) The department may reduce or eliminate interest on the loans, if, in the exercise of sound discretion, the department determines that action is necessary for the provision of decent housing to very low income households, as described in Section 50105. However, if the department eliminates interest on a loan, it shall charge a loan origination fee not to exceed 2 percent of the loan amount.

(h) Other things being equal, the department shall give priority to assisting development which will be located in public transit corridors.

(i) The department may make predevelopment loans or land purchase loans for the development of mobilehome parks and manufactured housing subdivisions.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

There is an immediate need for the provision of assistance to

farmworkers living in housing which was damaged by the recent flooding which occurred earlier this year. However, current law includes provisions which prohibit or reduce the ability of the Farmworker Housing Grant Program to use program funds to assist low-income farmworkers who suffer from disasters, such as the recent flooding. This requires revisions in existing program statutes to allow program funds to be used in this and future state disasters. It is, therefore, necessary for this act to take effect immediately.

CHAPTER 240

An act to add Sections 4875.2, 4875.4, and 4875.6 to the Business and Professions Code, relating to veterinarians, and making an appropriation therefor.

[Approved by Governor July 2, 1986 Filed with Secretary of State July 2, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 4875.2 is added to the Business and Professions Code, to read:

4875.2. If, upon completion of an investigation, the executive officer has probable cause to believe that a veterinarian or an unlicensed person acting as a veterinarian has violated provisions of this chapter, he or she may issue a citation to the veterinarian or unlicensed person, as provided in this section. Each citation shall be in writing and shall describe with particularity the nature of the violation, including a reference to the provision of this chapter alleged to have been violated. In addition, each citation may contain an order of abatement fixing a reasonable time for abatement of the violation, and may contain an assessment of a civil penalty. The citation shall be served upon the veterinarian or unlicensed individual personally or by any type of mailing requiring a return receipt. Before any citation may be issued, the executive officer shall submit the alleged violation for review and investigation to at least one designee of the board who is a veterinarian licensed in or employed by the state. The review shall include attempts to contact the veterinarian or unlicensed person to discuss and resolve the alleged violation. Upon conclusion of the board designee's review, the designee shall prepare a finding of fact and a recommendation. If the board designee concludes that probable cause exists that the veterinarian or unlicensed person has violated any provisions of this chapter, a civil citation shall be issued to the veterinarian or unlicensed person.

SEC. 2. Section 4875.4 is added to the Business and Professions Code, to read:

4875.4. (a) The board shall, in the manner prescribed in Section

4808, adopt regulations covering the assessment of civil penalties under this article which give due consideration to the appropriateness of the penalty with respect to the following factors:

(1) The gravity of the violation.

(2) The good faith of the person being charged.

(3) The history of previous violations.

(b) In no event shall the civil penalty for each citation issued be assessed in an amount greater than two thousand dollars ($2,000).

SEC. 3. Section 4875.6 is added to the Business and Professions Code, to read:

4875.6. (a) If a veterinarian or an unlicensed person desires to administratively contest a civil citation or the proposed assessment of a civil penalty therefor, he or she shall, within 10 business days after service of the citation, notify the executive officer in writing of his or her request for an informal conference with the executive officer or his or her designee. The executive officer or his or her designee shall hold, within 60 days from the receipt of the request, an informal conference. At the conclusion of the informal conference, the executive officer may affirm, modify, or dismiss the citation or proposed assessment of a civil penalty, and he or she shall state with particularity in writing his or her reasons for the action, and shall immediately transmit a copy thereof to the board, the veterinarian or unlicensed person, and the person who submitted the verified complaint. If the veterinarian or unlicensed person desires to administratively contest a decision made after the informal conference, he or she shall inform the executive officer in writing within five business days after he or she receives the decision resulting from the informal conference.

If the veterinarian or unlicensed person fails to notify the executive officer in writing that he or she intends to contest the citation or the proposed assessment of a civil penalty therefor or the decision made after an informal conference within the time specified in this subdivision, the citation or the proposed assessment of a civil penalty or the decision made after an informal conference shall be deemed a final order of the board and shall not be subject to further administrative review.

(b) If an alleged violation is resolved by payment of the assessed civil penalty, or by an agreement to comply with the order of abatement, at or prior to the informal conference, the civil citation and any records relating thereto shall be confidential and shall not be subject to public disclosure.

(c) A veterinarian or an unlicensed person may, in lieu of contesting a citation pursuant to this section, transmit to the board the amount assessed in the citation as a civil penalty, within 10 business days after service of the citation. An unlicensed person may notify the board that he or she wishes to proceed directly to a judicial hearing which may be brought by the board under subdivision (e), without engaging in an informal conference or administrative hearing.

(d) If a veterinarian or an unlicensed person has notified the executive officer in a timely manner that he or she intends to contest the decision made after the informal conference, the executive officer shall arrange a hearing to be held in accordance with Section 11512 of the Government Code, except that the hearing shall be held before the board and an administrative law judge. After the hearing, the board and administrative law judge shall issue a decision, based on findings of fact, affirming, modifying, or vacating the citation, or directing other appropriate relief which shall include, but need not be limited to, a notice that the failure of a veterinarian or unlicensed person to comply with any provision of the board's decision constitutes grounds for suspension, or denial of licensure, or both. The proceedings under this section shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the board shall have all the powers granted therein.

(e) After the exhaustion of the review procedures provided for in this section, the board may bring an action in the appropriate court in the county in which the offense occurred to recover the civil penalty and obtain an order compelling the cited person to comply with the order of abatement. In that action, the complaint shall include a certified copy of the final order of the board, together with the factual findings and recommendation of the board's designee. The findings of the board's designee shall be prima facie evidence of the facts stated therein, and in the absence of contrary evidence may serve as the basis for the issuance of the judgment and order.

(f) Any civil penalties received under this chapter shall be deposited in the Board of Examiners in Veterinary Medicine Contingent Fund.

CHAPTER 241

An act to amend Section 2006 of the Streets and Highways Code, relating to highways.

[Approved by Governor July 2, 1986 Filed with Secretary of State July 2, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 2006 of the Streets and Highways Code is amended to read:

2006. The board of supervisors of each county shall appoint a single road commissioner for all road districts in the county. Every person who is appointed road commissioner after December 31, 1965, shall be a registered civil engineer. However, the City and County of San Francisco may appoint a person road commissioner who is not a registered civil engineer. Any person appointed road

commissioner on or before December 31, 1965, need not be a registered civil engineer if he or she is approved by the board of supervisors as qualified and competent to handle the road and highway work of the county. Any person who is a road commissioner in any county on December 31, 1965, need not be a registered civil engineer to be appointed road commissioner of another county after December 31, 1965. After October 1, 1952, no person shall be appointed road commissioner until the board of supervisors holds a public hearing on the qualifications of the candidate or candidates for the position of road commissioner. At least 14 days but not more than 30 days prior to the hearing, notice of the hearing shall be posted at the county courthouse and published at least once in a newspaper of general circulation in the county. Nothing in this section precludes one person from serving two or more counties. An elective county official shall not be appointed road commissioner after October 1, 1952, unless the official is holding the position of road commissioner on that date. The road commissioner is, at all times, under the direction and supervision of the board of supervisors but may be dismissed, after a hearing, only upon a majority vote of the board. This paragraph is not applicable in chartered counties whose charter requires the county surveyor to perform the duties of, or exercise the powers conferred by law on, the road commissioner.

Each county shall furnish evidence to the Controller that it has complied with this section.

Neither the Controller nor any other state officer shall make any allocations or payments to any county from the Highway Users Tax Account in the State Transportation Fund until the county has complied with the requirements of this section; except that, if a vacancy occurs in the office of road commissioner of a county, the allocations or payments to the county shall not be suspended pursuant to this section unless the county has not appointed a new road commissioner in accordance with this section within 180 days from the date the vacancy first occurred.

The 180-day time limit is contingent on the condition that there be a qualified acting road commissioner functioning during the interim period under direct appointment by the board of supervisors.

CHAPTER 242

Certified prior service credit is optional to the contracting agency. The provisions of this

subdivision shall not apply to any department or to its volunteers unless and until the department elects to be subject to it by an amendment to its contract which is approved pursuant to Section 50973.

In no event shall any member be credited with more than eight years of prior service credit.

SEC. 2. Section 50973 of the Government Code is amended to read:

50973. Approval of the contract shall be by an ordinance adopted by the affirmative vote of a majority of the electorate of the area served by the department voting thereon.

If a governing body of a department is permitted by law to act by resolution, any action required by this article to be taken by ordinance may also be taken by adoption of a resolution.

In either case, the board shall inform the governing body of the projected costs of the program or of any changes in the program and of the method of financing. The governing body shall certify to the board that the governing body has fully informed the electorate of the costs of the program or of any changes in the program and of the method of financing.

CHAPTER 244

An act to amend Section 52 of the Civil Code, relating to civil rights.

[Approved by Governor July 2, 1986. Filed with Secretary of State July 2, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 52 of the Civil Code is amended to read:

52. (a) Whoever denies, or who aids, or incites such denial, or

whoever makes any discrimination, distinction or restriction on account of sex, color, race, religion, ancestry, or national origin contrary to the provisions of Section 51 or 51.5, is liable for each and every such offense for the actual damages, and such amount as may be determined by a jury, or a court sitting without a jury, up to a maximum of three times the amount of actual damage but in no case less than two hundred fifty dollars ($250), and such attorney's fees as may be determined by the court in addition thereto, suffered by any person denied the rights provided in Section 51 or 51.5.

CHAPTER 247

An act to amend Section 411.30 of the Code of Civil Procedure, relating to health.

[Approved by Governor July 2, 1986 Filed with Secretary of State July 2, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 411.30 of the Code of Civil Procedure is amended to read:

411.30. (a) In any action for damages arising out of the professional negligence of a person holding a valid physician's and surgeon's certificate issued pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code, or of a person holding a valid dentist's license issued pursuant to Chapter 4 (commencing with Section 1600) of Division 2 of the Business and Professions Code, or of a person holding a valid podiatrist's certificate issued pursuant to Article 22 (commencing with Section 2460) of Chapter 5 of Division 2 of the Business and Professions Code, or of a person licensed pursuant to the Chiropractic Act, on or before the date of service of the complaint on any defendant, the plaintiff's attorney shall file the certificate specified in subdivision (b).

(b) A certificate shall be executed by the attorney for the plaintiff declaring one of the following:

(1) That the attorney has reviewed the facts of the case, that the attorney has consulted with at least one physician and surgeon, dentist, podiatrist, or chiropractor who is licensed to practice and practices in this state or any other state or teaches at an accredited college or university and who the attorney reasonably believes is knowledgeable in the relevant issues involved in the particular action, and that the attorney has concluded on the basis of such review and consultation that there is reasonable and meritorious cause for the filing of such action.

(2) That the attorney was unable to obtain the consultation required by paragraph (1) because a statute of limitations, including the provisions of Article 2 (commencing with Section 583.210) of Chapter 1.5 of Title 8, would impair the action and that the certificate required by paragraph (1) could not be obtained before the impairment of the action. If a certificate is executed pursuant to this paragraph, the certificate required by paragraph (1) shall be filed

within 60 days after service of the complaint.

(3) That the attorney was unable to obtain the consultation required by paragraph (1) because the attorney had made three separate good faith attempts with three separate physicians and surgeons, dentists, podiatrists, or chiropractors to obtain such consultation and none of those contacted would agree to such a consultation.

(c) Where a certificate is required pursuant to this section, only one such certificate shall be filed notwithstanding that multiple defendants have been named in the complaint or may be named at a later time.

(d) Where the attorney intends to rely solely on the doctrine of "res ipsa loquitur", as defined in Section 646 of the Evidence Code, or exclusively on a failure to inform of the consequences of a procedure, or both, this section shall be inapplicable. The attorney shall certify upon filing of the complaint that the attorney is solely relying on the doctrines of "res ipsa loquitur" or failure to inform of the consequences of a medical procedure or both, and for that reason is not filing a certificate required by this section.

(e) If a request by the plaintiff for the defendant's records has been made pursuant to Section 1158 of the Evidence Code, and if the defendant has failed to produce such records within the time limits specified by that section, the time for filing the certificate of merit shall be extended for the period by which the time for furnishing records set forth in Section 1158 of the Evidence Code is exceeded by the defendant to a maximum of 60 days after which the requirement for the certificate is voided.

(f) For purposes of this section, and subject to Evidence Code Section 912, an attorney who submits a certificate as required by paragraph (1) or (2) of subdivision (b) has a privilege to refuse to disclose the identity of the physician or surgeon, dentist, podiatrist, or chiropractor consulted and the contents of such consultation. Such privilege shall also be held by the physician or surgeon, dentist, podiatrist, or chiropractor so consulted, provided when the attorney makes a claim under paragraph (3) of subdivision (b) that he was unable to obtain the required consultation with the physician and surgeon, dentist, podiatrist, or chiropractor, the court may require the attorney to divulge the names of physicians and surgeons, dentists, podiatrists, or chiropractors refusing such consultation.

(g) A violation of the provisions of this section may constitute unprofessional conduct and be grounds for discipline against the attorney.

(h) The failure to file a certificate required by this section shall be grounds for a demurrer pursuant to Section 430.10.

(i) The provisions of this section shall not be applicable to a plaintiff who is not represented by an attorney.

(j) This section shall remain in effect until January 1, 1989, and on that date is repealed unless a later enacted statute deletes or extends that date.

Conflicting interests rank according to priority in time of filing or perfection. In the case of a judgment lien, priority dates from the time filing is first made covering the personal

property. In the case of a security interest, priority dates from the time a filing is first made covering the personal property or the time the security interest is first perfected, whichever is earlier, provided that there is no period thereafter when there is neither filing nor perfection.

(c) For the purposes of subdivision (b), a date of filing or perfection as to personal property is also a date of filing or perfection as to proceeds.

(e) If a purchase money security interest in inventory has priority over a judgment lien pursuant to subdivision (d) and a conflicting security interest has priority over the purchase money security interest in the same inventory pursuant to subdivision (3) of Section 9312 of the Commercial Code, the conflicting security interest also has priority over the judgment lien on the inventory subject to the purchase money security interest notwithstanding that the conflicting security interest would not otherwise have priority over the judgment lien.

For the purpose of this subdivision, a secured party shall be deemed not to have knowledge of a judgment lien on personal property until (1) the judgment creditor serves a copy of the notice of judgment lien on the secured party personally or by mail and (2) the secured party has knowledge of the judgment lien on personal property, as "knowledge" is defined in Section 1201 of the Commercial Code. If a notice of taking of deposition is also served, that other notice may be set forth in a single document with the notice required by this subdivision.

(f) Any consumer whose personal records are sought by a subpoena duces tecum may, prior to the date for production, bring a motion under Section 1987.1 to quash or modify the subpoena duces tecum. Notice of the bringing of that motion shall be given to the witness prior to production. No witness shall be required to produce personal records after receipt of notice that the motion has been brought, except upon order of the court in which the action is pending or by agreement of the parties, witnesses, and consumers affected

(g) Upon good cause shown and provided that the rights of witnesses and consumers are preserved, a subpoenaing party shall be entitled to obtain an order shortening the time for service of a subpoena duces tecum or waiving the requirements of subdivision (b) where due diligence by the subpoenaing party has been shown.

(h) Nothing in this section applies to any subpoena duces tecum which does not request the records of any particular consumer or consumers and which requires a custodian of records to delete all information which would in any way identify any consumer whose records are to be produced.

(i) This section does not apply to proceedings conducted under Division 1 (commencing with Section 50), Division 4 (commencing with Section 3200), Division 4.5 (commencing with Section 6100), or Division 4.7 (commencing with Section 6200) of the Labor Code.

1596.871. It is the intent of the Legislature in enacting this section to require the fingerprints of those individuals whose contact with child day care facility clients may pose a risk to the children's health and safety.

(a) Before issuing a license or special permit to any person to operate or manage a day care facility, the department shall secure from an appropriate law enforcement agency a criminal record to determine whether the applicant or any other person specified in subdivision (b) has ever been convicted of a crime other than a minor traffic violation. No fee shall be charged by the Department of Justice or the department for the fingerprinting of an applicant for a license to serve six or fewer children or for obtaining a criminal record of such an applicant pursuant to this section. If it is found that the applicant or any other person specified in subdivision (b) has been convicted of a crime, other than a minor traffic violation, the application shall be denied, unless the director grants an exemption pursuant to subdivision (e).

(b) In addition to the applicant, this section shall be applicable to criminal convictions of the following persons:

(1) Adults responsible for administration or direct supervision of staff.

(2) Any person, other than a child, residing in the facility.

(3) Any person who provides care and supervision to the children.

(4) Any staff person or employee who has frequent and routine contact with the children. In determining who has frequent contact, any volunteer who is in the facility shall be exempt unless the volunteer is used to replace or supplement staff in providing direct care and supervision of children in care. In determining who has routine contact, staff and employees under direct onsite supervision and who are not providing direct care and supervision or who have only occasional or intermittent contact with clients shall be exempt. At the time of employment, all staff and employees required to be fingerprinted shall sign a statement regarding prior criminal convictions and be fingerprinted. Fingerprints shall be submitted to

the licensing agency within 20 days following employment.

(5) If the applicant is a firm, partnership, association, or corporation, the chief executive officer, other person serving in like capacity, or a person designated by the chief executive officer as responsible for the operation of the facility.

(6) Additional officers of the governing body of the applicant, or other persons with a financial interest in the applicant, as determined necessary by the department by regulation. The criteria used in the development of these regulations shall be based on the person's capability to exercise substantial influence over the operation of the facility.

(7) This section does not apply to adult volunteers or adult staff employed by the applicant on an intermittent basis for less than 10 days per month, provided that these adults are under constant supervision by adults who meet the requirements of this section.

(8) This section does not apply to employees of child care and development programs under contract with the State Department of Education who have completed a criminal records clearance as part of an application to the State Commission on Teacher Credentialing, and who possess a current credential or permit issued by the commission. The State Commission on Teacher Credentialing shall notify the department upon revocation of a current credential or permit issued to an employee of a child care and development program under contract with the State Department of Education.

(c) Subsequent to initial licensure, any person specified in subdivision (b) and not exempted from fingerprinting shall, as a condition to employment, residence, or presence in a child day care facility, be fingerprinted and sign a declaration under penalty of perjury regarding any prior criminal conviction. The licensee shall submit these fingerprints to the licensing agency not later than 20 days following employment, residence, or initial presence in the child day care facility. Except for persons specified in paragraph (2) of subdivision (b), the licensee shall endeavor to ascertain the previous employment history of persons required to be fingerprinted under this subdivision If it is determined by the department, on the basis of fingerprints submitted to the Department of Justice, that the person has been convicted of a sex offense against a minor, or has been convicted of an offense specified in Section 243.4, 273a, or 273d of the Penal Code, or has been convicted of a felony, the State Department of Social Services shall notify the licensee to act immediately to terminate the person's employment, remove the person from the child day care facility, or bar the person from entering the child day care facility. The department may subsequently grant an exemption pursuant to subdivision (e) If the conviction was for another crime, except a minor traffic violation, the licensee shall, upon notification by the State Department of Social Services, act immediately to either (1) terminate the person's employment and remove and bar the person from the child day care facility, or (2) seek an exemption pursuant

to subdivision (e). The department shall determine if the person shall be allowed to remain in the facility until a decision on the exemption is rendered.

(d) For the purposes of this section or any other provision of this chapter, a conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action which the department is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, notwithstanding a subsequent order pursuant to Sections 1203.4 and 1203.4a of the Penal Code permitting the person to withdraw his or her plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment. For the purposes of this section or any other provision of this chapter, the record of a conviction, or a copy of the record certified by the clerk of the court or by a judge of the court in which the conviction occurred, shall be conclusive evidence of the conviction.

(e) After review of the record, the director may grant an exemption from disqualification for a license or special permit pursuant to subdivision (a), or for employment, residence, or presence in a child day care facility as specified in subdivision (c) if the director has substantial and convincing evidence to support a reasonable belief that the applicant and the person convicted of the crime, if other than the applicant, are of such good character as to justify issuance of the license or special permit or granting an exemption for the purposes of subdivision (c). However, no exemption shall be granted pursuant to this subdivision if the conviction was for an offense specified in Section 220, 243.4, or 264.1, or paragraph (1) of Section 273a or Section 273d, 288, or 289 of the Penal Code, or was a conviction of another crime against an individual specified in subdivision (c) of Section 667.5 of the Penal Code.

(f) Upon request of the provider, who shall enclose a self-addressed stamped postcard for this purpose, the department shall verify receipt of the fingerprints.

(g) For the purposes of compliance with this section, the department shall permit an individual to transfer a current criminal records clearance, as defined in subdivision (a), from one facility to another when changing employment. The department shall supply the individual with documentation of the clearance within 30 days of a written request for the records.

(2) The person has received a hazardous waste facilities permit for the well issued pursuant to Section 25200.6.

(3) The injection well does not discharge hazardous waste into or above a formation which contains a source of drinking water within one-half mile of the well.

(b) A person may apply to the department to exempt an injection well from paragraph (1) of subdivision (a) if the person has received a hazardous waste facilities permit and the person has filed a report

pursuant to Section 25159.18 with the department on or before January 1, 1987, which has been approved by the department, pursuant to Section 25159.18. (b) The department shall require complete mechanical integrity testing of the well bore at least once a year and shall require pressure tests at least once every six months. The testing program shall be designed to detect defects, damage, and corrosion in the well, well casings, injection tube, packer cement, and the screened or perforated portion of the well.

(c) The operator of an injection well into which hazardous waste is discharged shall conduct monitoring of the surface equipment, the well, and the movement of injected wastes, in the following manner:

(1) Injection fluids shall be sampled and analyzed at least monthly to yield representative data of their characteristics at all injection wells located at onsite facilities. If the injection well is located at an offsite facility, the fluids shall be sampled and analyzed every time the composition of the hazardous waste discharged into the injection well is different than the waste discharged immediately prior to the new discharge.

(2) Pressure gauges shall be installed and maintained in proper operating condition at all times on the injection tubing and annulus.

(3) Continuous recording devices shall be installed and maintained in proper operating condition at all times to record injection temperatures and pressures, injection flow rates, injection volumes, and annulus pressure.

The department shall pay the award to the person who provides information which results in the imposition of a civil penalty, and the county shall pay the award to the person who provides information which results in the imposition of a criminal fine. No reward paid pursuant to this subdivision shall exceed five thousand dollars ($5,000).

(b) No informant shall be eligible for a reward for a violation known to the department, unless the information materially contributes to the imposition of criminal or civil penalties for a violation specified in this section.

(c) If there is more than one informant for a single violation, the first notification received by the department shall be eligible for the reward. If the notifications are postmarked on the same day or telephoned notifications are received on the same day, the reward shall be divided equally among those informants.

(d) Public officers and employees of the United States, the State of California, or counties and cities in California are not eligible for the reward pursuant to subdivision (a), unless reporting those violations does not relate in any manner to their responsibilities as public officers or employees.

(e) An informant who is an employee of a business and who provides information that the business violated this chapter is not eligible for a reward if the employee intentionally or negligently caused the violation or if the employee's primary and regular responsibilities included investigating the violation, unless the business knowingly caused the violation.

SEC. 151. Section 25291 of the Health and Safety Code is amended to read:

25291. Every underground storage tank installed after January 1, 1984, shall meet all of the following requirements:

(a) Be designed and constructed to provide primary and secondary levels of containment of the hazardous substances stored in it in accordance with the following performance standards:

(1) Primary containment shall be product-tight.

(2) Secondary containment shall be constructed to prevent structural weakening as a result of contact with any released hazardous substances, and also shall be capable of storing the hazardous substances for the maximum anticipated period of time necessary for the recovery of any released hazardous substance.

(3) In the case of an installation with one primary container, the secondary containment shall be large enough to contain at least 100 percent of the volume of the primary tank.

(4) In the case of multiple primary tanks, the secondary container shall be large enough to contain 150 percent of the volume of the largest primary tank placed in it, or 10 percent of the aggregate

internal volume of all primary tanks, whichever is greater.

(5) If the facility is open to rainfall, then the secondary containment shall be able to additionally accommodate the maximum volume of a 24-hour rainfall as determined by a 25-year storm history.

(6) Single-walled containers do not fulfill the requirement of an underground storage tank providing both a primary and a secondary containment. However, an underground storage tank with a primary container constructed with a double complete shell shall be deemed to have met the requirements for primary and secondary containment set forth in this section if the outer shell is constructed primarily of nonearthen materials, including, but not limited to, concrete, steel, and plastic, which provide structural support and a continuous leak detection system with alarm is located in the space between the shells; the system is capable of detecting the entry of hazardous substances from the inner container into the space; and the system is capable of detecting water intrusion into the space from the outer shell.

(7) The design and construction of underground storage tanks for motor vehicle fuels storage need not meet the requirements of paragraphs (1) to (6), inclusive, if all of the following conditions exist:

(A) The primary containment construction is of glass fiber reinforced plastic, cathodically protected steel, or steel clad with glass fiber reinforced plastic.

(B) Any alternative primary containment is installed in conjunction with a system that will intercept and direct a leak from any part of the tank to a monitoring well to detect any release of motor vehicle fuels stored in the tank.

(C) The system is designed to provide early leak detection and response, and to protect the groundwater from releases.

(D) The monitoring is in accordance with the alternative method identified in paragraph (4) of subdivision (b) of Section 25292.

(E) Pressurized piping systems connected to underground storage tanks used for the storage of motor vehicle fuels and monitored in accordance with paragraph (4) of subdivision (b) of Section 25292 also meet the requirements of this subdivision if the tank meets the conditions of subparagraphs (A) to (D), inclusive.

(b) Be designed and constructed with a monitoring system capable of detecting the entry of the hazardous substance stored in the primary containment into the secondary containment. If water could intrude into the secondary containment, a means of monitoring for water intrusion and for safely removing the water shall also be provided.

(c) When required by the local agency, a means of overfill protection for any primary tank, including an overfill prevention device or an attention-getting higher level alarm, or both. Primary tank filling operations of underground storage tanks containing motor vehicle fuels which are visually monitored and controlled by a facility operator satisfy the requirements of this subdivision.

(d) If different substances are stored in the same tank and in combination may cause a fire or explosion, or the production of flammable, toxic, or poisonous gas, or the deterioration of a primary or secondary container, then they shall be separated in both the primary and secondary containment so as to avoid potential intermixing.

(e) If water could enter into the secondary containment by precipitation or infiltration, the facility shall contain a means of removing the water by the owner or operator. This removal system shall also prevent uncontrolled removal of this water and provide for a means of analyzing the removed water for hazardous substance contamination and a means of disposing of the water, if so contaminated, at an authorized disposal facility.

(f) Before the underground storage tank is covered, enclosed, or placed in use, the standard installation testing for requirements for underground storage systems specified in Section 2-7 of the Flammable and Combustible Liquids Code, adopted by the National Fire Protection Association, (NFPA 30) as amended and published in the respective edition of the Uniform Fire Code, shall be followed.

(g) Before the underground storage tank is placed in service, the underground storage systems shall be tested in operating condition using a precision test as defined in National Fire Protection Association Pamphlet 329, "Recommended Practice for Handling Underground Leakage of Flammable and Combustible Liquids," as amended, for proving the integrity of an underground storage tank.

(h) If the underground storage tank is designed to maintain a water level in the secondary containment, the tank shall be equipped with a safe method of removing any excess water to a holding facility and the owner or operator shall inspect the holding facility monthly for the presence of excess water overflow. If excess water is present in the holding facility, the permitholder shall provide a means to analyze the water for hazardous substance contamination and a means to dispose of the water, if so contaminated, at an authorized disposal facility.

SEC. 217. Section 23735 of the Revenue and Taxation Code is amended to read:

23735. (a) In computing under Section 23732 the unrelated business taxable income for any taxable year the following shall apply:

(1) There shall be included with respect to each debt-financed property as an item of gross income derived from an unrelated trade or business an amount which is the same percentage (but not in excess of 100 percent) of the total gross income derived during the taxable year from or on account of that property as (A) the average acquisition indebtedness (as defined in paragraph (7) of subdivision (c)) for the taxable year with respect to the property is of (B) the average amount (determined under regulations prescribed by the Franchise Tax Board) of the adjusted basis of that property during the period it is held by the organization during that taxable year.

(2) There shall be allowed with respect to each debt-financed property, as a deduction to be taken into account in computing unrelated debt-financed income, an amount determined by applying (except as provided in the last sentence of this paragraph) the percentage derived under paragraph (1) to the sum determined under paragraph (3). The percentage derived under this paragraph shall not be applied with respect to the deduction of any capital loss resulting from the carryover of net capital losses under Section 18152.

(3) The sum referred to in paragraph (2) is the sum of the deductions under this part which are directly connected with the debt-financed property or the income therefrom, except that if the debt-financed property is of a character which is subject to the allowance for depreciation provided in Section 24349, the allowance shall be computed only by use of the straight line method.

(b) For the purpose of this section:

(1) "Debt-financed property" means any property which is held to produce income and with respect to which there is an acquisition indebtedness (as defined in subdivision (c)) at any time during the taxable year (or, if the property was disposed of during the taxable year, with respect to which there was an acquisition indebtedness at any time during the 12-month period ending with the date of the disposition), except that "debt-financed property" does not include any of the following:

(A) (i) Any property substantially all the use of which is substantially related (aside from the need of the organization for income or funds) to the exercise or performance by that organization of its charitable, educational, or other purpose of function constituting the basis for its exemption under Section 17631 or 23701.

(ii) Any property to which clause (i) does not apply, to the extent that its use is so substantially related.

(B) Except in the case of income excluded under paragraph (5) of subdivision (b) of Section 23732, any property to the extent that the income from that property is taken into account in computing the gross income of any unrelated trade or business.

(C) Any property to the extent that the income from that property is excluded by reason of paragraph (6), (7), or (8) of subdivision (b) of Section 23732 in computing the gross income of any unrelated trade or business.

(D) Any property to the extent that it is used in any trade or business described in subdivision (a), (b), or (c) of Section 23734. For purposes of subparagraph (A), substantially all the use of a property shall be considered to be substantially related to the exercise or performance by an organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under Section 17631 or 23701, if the property is real property subject to a lease to a medical clinic entered into primarily for purposes which are substantially related (aside from the need of that organization for income or funds or the use it makes of the rents derived) to the exercise or performance by that organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under Section 17631 or 23701.

(2) For purposes of applying subparagraphs (A), (C), and (D) of paragraph (1), the use of any property by an exempt organization which is related to an organization shall be treated as use by that organization.

(3) (A) If an organization acquires real property for the principal purpose of using the land (commencing within 10 years of the time of acquisition) in the manner described in subparagraph (A) of paragraph (1) and at the time of acquisition the property is in the neighborhood of other property owned by the organization which is used in that manner, the real property acquired for the future use shall not be treated as debt-financed property so long as the organization does not abandon its intent to so use the land within the

10-year period. The preceding sentence shall not apply for any period after the expiration of the 10-year period, and shall apply after the first five years of the 10-year period only if the organization establishes to the satisfaction of the Franchise Tax Board that it is reasonably certain that the land will be used in the described manner before the expiration of the 10-year period.

(B) If the first sentence of subparagraph (A) is inapplicable only because either of the following applies:

(i) The acquired land is not in the neighborhood referred to in subparagraph (A).

(ii) The organization (for the period after the first five years of the 10-year period) is unable to establish to the satisfaction of the Franchise Tax Board that it is reasonably certain that the land will be used in the manner described in subparagraph (A) of paragraph (1) before the expiration of the 10-year period, but the land is converted to that use by the organization within the 10-year period,

the real property (subject to subparagraph (D)) shall not be treated as debt-financed property for any period before the conversion. For purposes of this subparagraph, land shall not be treated as used in the manner described in subparagraph (A) of paragraph (1) by reason of the use made of any structure which was on the land when acquired by the organization.

(C) (i) Subparagraphs (A) and (B) shall apply with respect to any structure on the land when acquired by the organization, or to the land occupied by the structure, only if (and so long as) the intended future use of the land in the manner described in subparagraph (A) of paragraph (1) requires that the structure be demolished or removed in order to use the land in that manner.

(ii) Subparagraphs (A) and (B) shall not apply to structures erected on the land after the acquisition of the land.

(iii) Subparagraphs (A) and (B) shall not apply to property subject to a lease which is an "Article 2" lease (as defined in Section 23735a).

(D) If an organization for any taxable year has not used land in the manner to satisfy the actual use condition of subparagraph (B) before the time prescribed by law (including extensions thereof) for filing the return for that taxable year, the tax for that year shall be computed without regard to the application of subparagraph (B), but if and when that use condition is satisfied, subparagraph (B) shall then be applied to that taxable year. If the actual use condition of subparagraph (B) is satisfied for any taxable year after the time for filing the return, and if credit or refund of any overpayment for the taxable year resulting from the satisfaction of that use condition is prevented at the close of the taxable year in which the use condition is satisfied, by the operation of any law or rule of law (other than Section 25781, relating to closing agreements and compromises), credit or refund of the overpayment may nevertheless be allowed or made if claim therefor is filed before the expiration of one year after

the close of the taxable year in which the use condition is satisfied.

(E) In applying this paragraph to a church or convention or association of churches, in lieu of the 10-year period referred to in subparagraphs (A) and (B) a 15-year period shall be applied, and subparagraph (A) and clause (ii) of subparagraph (B) shall apply whether or not the acquired land meets the neighborhood test.

(c) For the purpose of this section:

(1) "Acquisition indebtedness" means with respect to any debt-financed property, the unpaid amount of all of the following:

(A) The indebtedness incurred by the organization in acquiring or improving that property.

(B) The indebtedness incurred before the acquisition or improvement of that property if the indebtedness would not have been incurred but for that acquisition or improvement.

(C) The indebtedness incurred after the acquisition or improvement of that property if the indebtedness would not have been incurred but for that acquisition or improvement and the incurrence of that indebtedness was reasonably foreseeable at the time of that acquisition or improvement; except that in case of any taxable year beginning before January 1, 1972, any indebtedness incurred before June 28, 1966, shall not be taken into account unless that indebtedness constitutes Article 2 lease indebtedness (as defined in Section 23735a).

(2) Property acquired subject to mortgage shall be subject to the following rules, exceptions, and limitations:

(A) Where property (no matter how acquired) is acquired subject to a mortgage or other similar lien, the amount of the indebtedness secured by that mortgage or lien shall be considered as an indebtedness of the organization incurred in acquiring that property even though the organization did not assume or agree to pay that indebtedness.

(B) Where property subject to a mortgage is acquired by an organization by bequest or devise, the indebtedness secured by the mortgage shall not be treated as acquisition indebtedness during a period of 10 years following the date of the acquisition. If an organization acquires property by gift subject to a mortgage which was placed on the property more than five years before the gift, which property was held by the donor more than five years before the gift, the indebtedness secured in that mortgage shall not be treated as acquisition indebtedness during a period of 10 years following the date of that gift. This subparagraph shall not apply if the organization, in order to acquire the equity in the property by bequest, devise, or gift, assumes and agrees to pay the indebtedness secured by the mortgage, or if the organization makes any payment for the equity in the property owned by the decedent or the donor.

(C) Where state law provides for either of the following:

(i) A lien for taxes.

(ii) A lien for assessments, made by a state or a political subdivision thereof attaches to property prior to the time when those

taxes or assessments become due and payable, then that lien shall be treated as similar to a mortgage (within the meaning of subparagraph (A)) but only after those taxes or assessments become due and payable and the organization has had an opportunity to pay those taxes or assessments in accordance with state law.

(3) An extension, renewal, or refinancing of an obligation evidencing a preexisting indebtedness shall not be treated, for the purpose of this section, as the creation of a new indebtedness.

(4) "Acquisition indebtedness" does not include indebtedness the incurrence of which is inherent in the performance or exercise of the purpose or function constituting the basis of the organization's exemption.

(5) "Acquisition indebtedness" does not include an obligation to pay an annuity which does the following:

(A) Is the sole consideration (other than a mortgage to which subparagraph (B) of paragraph (2) applies) issued in exchange for property if, at the time of the exchange, the value of the annuity is less than 90 percent of the value of the property received in the exchange.

(B) Is payable over the life of one individual in being at the time the annuity is issued or over the lives of two individuals in being at that time.

(C) Is payable under a contract which satisfies both of the following:

(i) Does not guarantee a minimum amount of payments or specify a maximum amount of payments.

(ii) Does not provide for any adjustment of the amount of the annuity payments by reference to the income received from the transferred property or any other property.

(6) "Acquisition indebtedness" does not include an obligation, to the extent that it is insured by the Federal Housing Administration, to finance the purchase, rehabilitation, or construction of housing for low- and moderate-income persons.

(7) "Average acquisition indebtedness" for any taxable year with respect to a debt-financed property means the average amount determined under regulations prescribed by the Franchise Tax Board, of the acquisition indebtedness during the period the property is held by the organization during the taxable year, except that for the purpose of computing the percentage of any gain or loss to be taken into account on a sale or other disposition of debt-financed property, that term means the highest amount of the acquisition indebtedness with respect to that property during the 12-month period ending with the date of the sale or other disposition.

(8) (A) Except as provided in subparagraph (B), "acquisition indebtedness" does not, for purposes of this section, include indebtedness incurred by a qualified organization in acquiring or improving any real property.

(B) Subparagraph (A) does not apply in any of the following cases:

(i) The price for the acquisition or improvement is not a fixed amount determined as of the date of the acquisition or the completion of the improvement.

(ii) The amount of any indebtedness or any other amount payable with respect to that indebtedness, or the time for making any payment of that amount, is dependent, in whole or in part, upon any revenue, income, or profits derived from that real property.

(iii) The real property is at any time after the acquisition leased by the qualified organization to the person selling that property to that organization or to any person who bears a relationship described in Section 267(b) or 707(b) of the Internal Revenue Code to that person.

(iv) The real property is acquired by a qualified trust from, or is at any time after the acquisition leased by that trust to, any person who satisfies either of the following:

(I) Bears a relationship which is described in subparagraph (C), (E), or (G) of Section 4975(e)(2) of the Internal Revenue Code to any plan with respect to which that trust was formed.

(II) Bears a relationship which is described in subparagraph (F) or (H) of Section 4975(e)(2) of the Internal Revenue Code to any person described in subclause (I).

(v) Any person described in clause (iii) or (iv) who provides the qualified organization with financing in connection with the acquisition or improvement.

(vi) The real property is held by a partnership unless the partnership meets the requirements of clauses (i) to (v), inclusive, and unless either of the following is met:

(I) All of the partners of the partnership are qualified organizations.

(II) Each allocation to a partner of the partnership which is a qualified organization is a qualified allocation within the meaning of Section 168(j)(9) of the Internal Revenue Code.

For purposes of subclause (I) of clause (vi), an organization shall not be treated as a qualified organization if any income of that organization would be unrelated business taxable income (determined without regard to this paragraph).

(C) For purposes of this paragraph, "qualified organization" means either of the following:

(i) An organization described in Section 170(b)(1)(A)(ii) of the Internal Revenue Code and its affiliated support organizations described in subdivision (a) of Section 23709.

(ii) Any trust which constitutes a qualified trust under Section 401 of the Internal Revenue Code.

(D) Rules similar to the rules of clause (vi) of subparagraph (B) shall also apply in the case of any pass-thru entity other than a partnership and in the case of tiered partnerships and other entities.

(d) If the property was acquired in a complete or partial liquidation of a corporation in exchange for its stock, the basis of the property, for the purposes of this article, shall be the same as it would

be in the hands of the transferor corporation, increased by the amount of gain recognized to the transferor corporation upon that distribution and by the amount of any gain to the organization which was included, on account of such distribution, in its unrelated business taxable income under subdivision (a).

(e) Where debt-financed property is held for purposes described in subparagraph (A), (B), (C), or (D) of paragraph (1) of subdivision (b) as well as for other purposes, proper allocation shall be made with respect to basis, indebtedness, and income and deductions. The allocations and exclusions required by this section shall be made in accordance with regulations prescribed by the Franchise Tax Board to the extent proper to carry out the purposes of this section.

(f) The Franchise Tax Board shall prescribe any regulations which may be necessary or appropriate to carry out the purposes of this section, including regulations to prevent the circumvention of any provision of this section through the use of segregated asset accounts.

When the juvenile court terminates its jurisdiction over a minor who has been adjudged a dependent child of the juvenile court prior to the persons' attainment of the age of 18 years, and either proceedings for the declaration of the nullity or dissolution of the marriage of the minor's parents are pending in the superior court of the same county, or an order has been entered with regard to the custody of that minor, the juvenile court on its own motion, may issue an order directed to either of the parents enjoining any action specified in paragraph (2) or (3) of subdivision (a) of Section 4359 of the Civil Code or determining the custody of or visitation with the child.

Any order issued pursuant to this section shall continue until modified or terminated by a subsequent order of the superior court. The order of the juvenile court shall be filed in the proceeding for nullity or dissolution at the time the juvenile court terminates its jurisdiction over the minor, and shall become a part thereof.

SEC. 247. Section 729 of the Welfare and Institutions Code, as added by Chapter 297 of the Statutes of 1982, is amended and renumbered to read:

729.1. (a) If a minor is found to be a person described in Section 602 by reason of the commission of a crime which takes place on a public transit vehicle, and the court does not remove the minor from the physical custody of the parent or guardian, the court as a condition of probation, except in any case in which the court makes a finding and states on the record its reasons that the condition would be inappropriate, shall require the minor to wash, paint, repair or replace the damaged or destroyed property, or otherwise make restitution to the property owner. If restitution is found to be inappropriate, the court, except in any case in which the court makes a finding and states on the record its reasons that the condition would be inappropriate, shall require the minor to perform specified community service. Nothing in this section shall be construed to limit the authority of a juvenile court to provide conditions of probation.

(b) As used in subdivision (a), "public transit vehicle" means any motor vehicle, street car, trackless trolley, bus, shuttle, light rail system, rapid transit system, subway, train, taxi cab, or jitney, which transports members of the public for hire.

To that end, and notwithstanding the provisions of Sections 1752.8 and 1752.81, the Youth Authority may deduct from a ward's trust fund any amounts that are necessary to pay for intentional damage to public property caused by the ward while confined within an institution or other facility of the Youth Authority.

(b) The Youth Authority shall utilize the procedures in its regulations for disciplinary actions to determine whether the damage or destruction was intentionally caused by the ward and, if so, to determine the amount to be deducted to pay for the damage or destruction.

(c) Funds that are deducted shall remain with the Youth Authority and shall be used to repair or replace the public property damaged or destroyed as provided for in the Budget Act for that fiscal year.

SEC. 254. Chapter 4.8 (commencing with Section 9396) is added to Division 8.5 of the Welfare and Institutions Code, to read:

CHAPTER 4.8. COMMUNITY CARE FACILITY DEMONSTRATION PROJECT FOR THE ELDERLY

9396. (a) There is hereby established the Community Care Facility Demonstration Project for the Elderly in accordance with the provisions of this section. The Multipurpose Senior Services Program shall administer the Community Care Facilities Demonstration Project for the Elderly. The Multipurpose Senior Services Program may contract with the State Department of Health Services for the utilization of funds from the Health Care Deposit Fund upon determination that the demonstration project qualifies for federal financial participation as stipulated in subdivision (e).

(b) The Multipurpose Senior Services Program shall contract with two local Multipurpose Senior Services Program sites to serve as demonstration sites. One site shall be in the northern and one in the southern part of the state. The sites shall be selected through a request for proposal process.

(c) The project shall serve a selected number of frail elderly persons, whose current medical assessment does not indicate the need for long-term intermediate or skilled nursing care. "Frail elderly persons," for purposes of this chapter, means those persons as defined in Section 9111 who meet current Medi-Cal criteria for being "certified" or "certifiable" for admission into intermediate or skilled nursing care facilities, and whom a physician has determined may remain in a community care facility with services as provided for by this section. Participating facilities shall be limited to those licensed community care facilities serving adults, as defined in Section 80001 of Title 22 of the California Administrative Code. During the demonstration project a total of 120 persons at any one time shall be served in the two local Multipurpose Senior Services Program sites selected for participation under this chapter. Personal care services shall be purchased through the use of funds appropriated for purposes of Chapter 7 (commencing with Section 14000) of Part 3 of Division 9. Participation by a person or a

community care facility shall be voluntary. Personal care provided pursuant to this chapter shall supplement, and not replace, personal care provided by community care facilities pursuant to statutory and regulatory requirements which are required to be met in order to obtain and maintain a community care facility license. This supplemental care shall be provided only when the level of care needed by a person participating under this chapter exceeds that which can be provided by the community care facility pursuant to existing statutory and regulatory requirements which are required to be met in order to obtain and maintain a community care facility license. Determination as to the necessary level of care shall be based on an assessment of need performed initially, and at six-month intervals thereafter by the case manager.

(d) The pilot project shall be operated for a period of three years. The Multipurpose Senior Services Program shall submit an evaluation of this project to the Legislature not later than July 1, 1988. The evaluation shall do all of the following:

(1) Describe the service providers and the services they provide and compare them to services provided to persons within skilled nursing, intermediate care, and nonmedical community care facilities and persons receiving home health services while residing in their own homes.

(2) Describe the program participants and compare them to those residing in skilled nursing, intermediate care, and nonmedical community care facilities and persons receiving home health services while in their own homes.

(3) Contain a description of the criteria used to select participants and compare them to criteria used to determine who would be more suitably cared for in skilled nursing or intermediate care facilities.

(4) Compare the total governmental costs incurred for persons participating in this project with the costs of care provided by skilled nursing facilities.

(5) Assess the extent to which the demonstration project, in fact, did delay or prevent care in an intermediate or skilled nursing facility and the cost effectiveness of the project.

(e) Implementation of the demonstration project is dependent upon the availability of federal financial participation for the services to be provided.

Implementation of the project shall be subject to receipt of required waivers or waiver amendments. Use of existing federal waivers and existing program authority shall be the first priority for implementation of this chapter. The Multipurpose Senior Services Program shall seek new waivers from the federal government if implementation cannot be carried out through existing waivers or existing categorical programs. The Secretary of the Health and Welfare Agency shall have the authority to waive existing state statutes or regulations at the request of the Multipurpose Senior Services Program that would prohibit or restrict the ability of the Multipurpose Senior Services Program to provide for the services

authorized by this section.

(f) This chapter shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute enacted prior to January 1, 1989, extends or deletes that date. This demonstration project shall not be extended or expanded unless conclusive evidence has been presented to the Legislature showing that it has been cost-effective and can be replicated.

(b) A refugee required to participate in the WIN program pursuant to Section 11310 shall be required, as a condition of eligibility under this chapter, and subject to the sanctions specified in Section 11308, to participate in programs funded by the Federal Office of Refugee Resettlement if these programs are deemed by the Employment Development Department as appropriate programs to prepare a refugee for employment. WIN program cases currently designated as unclassified shall have the first priority for referral.

(c) A refugee participating in the WIN program pursuant to this section shall have the same rights to receive support services as any other WIN program participant.

(d) A refugee participating in the WIN program pursuant to this section shall have all rights provided to any other WIN program recipient pursuant to Chapter 4 (commencing with Section 5300) of Division 2 of the Unemployment Insurance Code.

(e) The department, together with the State Department of Social Services, shall seek additional federal funding to pay for allowances, training-related expenses, work-related expenses, incentive payments, and other supportive service payments.

Except for this subdivision, this section shall be implemented only if adequate federal funding is made available. In determining whether adequate funds are available, pursuant to this subdivision, federal work incentive program funding shall not be included.

Toward the achievement of this end, and notwithstanding any other provision of law, the State Department of Social Services shall have authority to establish a Work Incentive Demonstration Program in accordance with Section 445 of the federal Social Security Act (42 U.S.C. Sec. 645). The Work Incentive Demonstration Program shall provide for no more than the following:

(a) County welfare departments shall have the responsibility for registering applicants and recipients for the program.

(b) In implementing the program, the State Department of Social Services shall contract with the Employment Development Department to provide services pursuant to Division 2 (commencing with Section 5000) of the Unemployment Insurance Code to applicants and recipients of aid under this chapter who are registered under subdivision (a) of Section 11310. Under the terms of the contract, the Employment Development Department is authorized to carry out any or all of the functions specified in Division 2 (commencing with Section 5000) of the Unemployment Insurance Code, except as otherwise provided under subdivision (c).

(c) The State Department of Social Services shall conduct the hearings regarding any dispute which concerns issues under the Work Incentive Demonstration Program. "Good cause" shall be as defined in Sections 5007 and 5007.5 of the Unemployment Insurance Code. The hearings shall be requested and conducted under the provisions of Chapter 7 (commencing with Section 10950) of Part 2. (b) The director shall seek federal waivers from the Secretary of the United States Department of Health and Human Services, in

order to ensure federal financial participation. In the event of an initial determination by the Secretary of the United States Department of Health and Human Services that any provision of this section is in conflict with any federal statute or regulation, the department shall take all available and necessary steps to obtain a final determination reversing that decision. In the event that a final determination is made which finds a conflict with federal law, the director shall immediately request the Attorney General to seek judicial review of the determination, and the director shall notify the appropriate policy and fiscal committees of both houses of the Legislature of its request. Notwithstanding the outcome of the director's efforts to obtain waivers under this subdivision, or a final judicial decision holding that any provision of this section is in conflict with federal law, subdivision (a) shall be implemented on July 1, 1985, or the date upon which waivers are obtained under this subdivision, whichever is earlier. Failure to obtain waivers pursuant to this subdivision shall not affect implementation of subdivision (a).

(2) Under the Federal Budget Reconciliation Act of 1981, however, states may apply for a Section 1915(c) waiver to allow a person to be eligible for SSI and Medicaid when medical and social services provided in the home can be shown to be less costly than services provided in an institution.

(3) Whenever possible, medical and social services should be provided in the least restrictive setting and at the lowest cost to the programs involved.

(4) The State Department of Health Services has already successfully applied for the Section 1915(c) waiver as applied to certain defined populations of developmentally disabled, elderly, and medically acute clients.

(b) The State Director of Health Services shall apply for additional waivers when appropriate to expand the number and types of persons who will be eligible for in-home services.

(c) The State Director of Health Services shall report to the Legislature the department's findings as to the appropriateness of, and the possibility for, additional applications for the Section 1915(c) waivers no later than July 30, 1985.

renumbered to read:

14105.15. (a) In determining rates of reimbursement for inpatient hospital services the department shall use reimbursement policy existing on the date prior to the effective date of this act. The director shall have authority to modify this reimbursement policy. The director shall implement a new reimbursement policy of peer grouping of hospitals through the promulgation of emergency regulations after required federal approvals are obtained. The department may adjust interim payment percentages to hospitals in order to approximate final settlement and may control or freeze charges in order to carry out the provisions of this section. The provisions of this section shall cease to apply to a hospital when the department enters into a contract, pursuant to Article 2.6 (commencing with Section 14081), either with that hospital or with other hospitals to the exclusion of that hospital for services covered under the contracts.

(b) Notwithstanding any other provision of law, the department may make interim rate adjustments and also implement collection procedures to recover overpayments to hospitals, at tentative and final settlement. These recoveries shall be based on audits or examinations made by or on behalf of the department pursuant to Sections 10722 and 14170, including the application of Sections 51536, 51537, and 51539 of Title 22 of the California Administrative Code at tentative and final settlement. Recovery may be made whether or not appeals by the hospitals are pending. Collection of overpayments shall be made in accordance with Section 14172.5.

(c) The amendment of this section made at the 1985 portion of the 1985–86 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the existing law. This declaration shall not apply to any lawsuits filed on or before July 9, 1985.

SEC. 263. Section 14105.9 of the Welfare and Institutions Code, as added by Chapter 1622 of the Statutes of 1984, is amended and renumbered to read:

SEC. 265. Section 14110.7 of the Welfare and Institutions Code, as added by Chapter 10 of the Statutes of 1985, is repealed. The repeal made by this section shall not affect the existence or validity of

Section 14110.7 of the Welfare and Institutions Code, as added by Chapter 11 of the Statutes of 1985.

SEC. 266. Section 14123 of the Welfare and Institutions Code is amended to read:

14123. Participation in the Medi-Cal program by a provider of service is subject to suspension in order to protect the health of the recipients and the funds appropriated to carry out this chapter.

(a) The director may suspend a provider of service from further participation under the Medi-Cal program for violation of any provision of this chapter or Chapter 8 (commencing with Section 14200) or any rule or regulation promulgated by the director pursuant to those chapters. Any such suspension may be for an indefinite or specified period of time and with or without conditions or may be imposed with the operation of the suspension stayed or probation granted. The director shall suspend a provider of service for conviction of any felony or any misdemeanor involving fraud, abuse of the Medi-Cal program or any patient, or otherwise substantially related to the qualifications, functions, or duties of a provider of service.

If the provider of service is a clinic, group, corporation, or other association, conviction of any officer, director, or shareholder with a 10 percent or greater interest in that organization, of such a crime shall result in the suspension of that organization and the individual convicted if the director believes that suspension would be in the best interest of the Medi-Cal program. If the provider of services is a political subdivision of the state or other government agency, the conviction of the person in charge of the facility of such a crime may result in the suspension of that facility. The record of conviction or a certified copy thereof, certified by the clerk of the court or by the judge in whose court the conviction is had, shall be conclusive evidence of the fact that the conviction occurred. A plea or verdict of guilty, or a conviction following a plea of nolo contendere is deemed to be a conviction within the meaning of this section.

After conviction but before the time for appeal has elapsed or the judgment of conviction has been affirmed on appeal, the director, if he or she believes that suspension would be in the best interests of the Medi-Cal program, may order the suspension of a provider of service. When the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence irrespective of any subsequent order under Section 1203.4 of the Penal Code allowing a person to withdraw his or her plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information or indictment, the director shall order the suspension of a provider of service. The suspension shall not take effect earlier than the date of the director's order. Suspension following a conviction is not subject to the proceedings required in subdivision (c). However, the director may grant an informal hearing at the request of the provider of service to

determine in the director's sole discretion if the circumstances surrounding the conviction justify rescinding or otherwise modifying the suspension provided for in this subdivision.

If the provider of service appeals the conviction and the conviction is reversed, the provider may apply for reinstatement to the Medi-Cal program after the conviction is reversed. Notwithstanding Section 14126.6, the application for reinstatement shall not be subject to the one-year waiting period for the filing of a reinstatement petition pursuant to Section 11522 of the Government Code.

(b) Whenever the director receives written notification from the Secretary of the United States Department of Health and Human Services, that a physician or other individual practitioner has been suspended from participation in the Medicare or Medicaid programs, the director shall, promptly suspend the practitioner from participation in the Medi-Cal program. This automatic suspension is not subject to the proceedings required in subdivision (c). No payment from state or federal funds may be made for any item or service rendered by the practitioner during the period of suspension.

(c) The proceedings for suspension shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, except that hearings may be conducted by departmental hearing officers appointed by the director. The director may periodically subcontract with the Office of Administrative Hearings to conduct the hearings. The director may temporarily suspend any provider of service prior to any hearing when in his or her opinion that action is necessary to protect the public welfare or the interests of the Medi-Cal program. The director shall notify the provider of service of the temporary suspension and the effective date thereof and at the same time serve the provider with an accusation. The accusation and all proceedings thereafter shall be in accordance with the sections of the Government Code specified in this subdivision. Upon receipt of a notice of defense by the provider, the director shall set the matter for hearing within 30 days after receipt of the notice. The temporary suspension shall remain in effect until such time as the hearing is completed and the director has made a final determination on the merits. The temporary suspension shall, however, be deemed vacated if the director fails to make a final determination on the merits within 60 days after the original hearing has been completed. This subdivision does not apply where the suspension of a provider is based upon the conviction of any crime involving fraud, abuse of the Medi-Cal program, or suspension from the federal Medicare program. In those instances, suspension shall be automatic.

(d) The suspension by the director of any provider of service shall preclude the provider from submitting claims for payment, either personally or through claims submitted by any clinic, group, corporation, or other association to the Medi-Cal program for any services or supplies the provider has provided under the program, except for services or supplies provided prior to the suspension. No

clinic, group, corporation, or other association which is a provider of service shall submit claims for payment to the Medi-Cal program for any services or supplies provided by a person within the organization who has been suspended or revoked by the director, except for services or supplies provided prior to the suspension.

Where the provisions of this chapter or Chapter 8 (commencing with Section 14200) or the regulations promulgated by the director are violated by a provider of service which is a clinic, group, corporation, or other association, the director may suspend the organization and any individual person within the organization who is responsible for the violation.

(e) Notice of the suspension shall be sent by the director to the provider's state licensing, certifying, or registering authority, along with the evidence upon which the suspension was based.

SEC. 269. Section 14124.10 of the Welfare and Institutions Code, as added by Chapter 10 of the Statutes of 1985, is repealed. SEC. 270. Section 14133.6 of the Welfare and Institutions Code, as added by Chapter 1164 of the Statutes of 1981, is amended and renumbered to read:

14133.61. The State Director of Health Services shall implement and pilot test the use of a micrographics document location and retrieval system in the San Francisco Medi-Cal Field Office during fiscal year 1981–82 as a means to reduce treatment authorization request requirements on providers in the area served by that field office. The purpose of the pilot test is to demonstrate the feasibility of using a micrographics supported records system to reduce TAR requirements on providers of Medi-Cal services. System implementation shall be through a lease contract with a micrographics company doing business in California. The State Director of Health Services shall report progress on this pilot project to the Legislature by July 31, 1982.

SEC. 271. Section 14149 of the Welfare and Institutions Code is amended and renumbered to read:

14137. The State Department of Health Services, following review and approval from the State Health and Welfare Agency, shall seek all necessary waivers from the United States Department of Health and Human Services in order to provide in-home and community-based care, as provided for under Section 2176 of the federal Omnibus Budget Reconciliation Act of 1981. The waiver

proposal shall specifically include plans for the provision of services to any person who would be eligible for community-based and in-home services, as defined by the Department of Health Services, and who would be eligible for the Medi-Cal program, provided for pursuant to this chapter, except for the person's income and who can, therefore, become eligible by meeting spend-down requirements.

SEC. 272. Section 14462 of the Welfare and Institutions Code, as amended by Chapter 1579 of the Statutes of 1985, is amended and renumbered to read:

14463. (a) Except as otherwise provided in this chapter, each prepaid health plan shall be responsible for all of the costs of services rendered under the provisions of this chapter to any Medi-Cal beneficiary enrolled in the plan.

(b) The department shall bear the costs of providing to each Medi-Cal beneficiary enrolled in a prepaid health plan the services covered under the plan, to the extent that the aggregate of these costs, based on Medi-Cal reimbursement levels, and exclusive of third-party recoveries, exceeds the 12-month risk limit. The risk limit shall not exceed twenty-five thousand dollars ($25,000) based on Medi-Cal reimbursement levels, shall be specified in the contract between the department and the plan, and shall be determined concurrently with the annual determination of rates of payment.

The department shall have the authority to adopt regulations to increase the risk limit, to an amount not to exceed thirty-five thousand dollars ($35,000). Regulations to increase the risk limit shall be based upon and supported by changes in prepaid health plan rates paid by the department and changes in the medical component of the Consumer Price Index (CPI) as actuarially determined by the department. It is the intent of the Legislature that these risk limit adjustments are not to exceed thirty-five thousand dollars ($35,000) until the 1986–87 fiscal year or beyond. For plans having contracts in existence on the effective date of this section, the risk limit shall be announced on or before the first day of each state fiscal year, to become effective concurrently with the effective date for the new rates of payment for the next succeeding state fiscal year.

The department may negotiate with a prepaid health plan a mutually agreed-to risk limit in an amount in excess of thirty-five thousand dollars ($35,000).

Within 90 days of the receipt of the documentation required under paragraph (2), the department shall pay the reimbursement provided for by this section to the extent that it determines that the services rendered were medically necessary, and that the amount of the payments sought for those services is reasonable. The department may, if a dispute exists as to whether the services rendered were medically necessary or if the amount of the payments for those services was reasonable, delay paying the reimbursement for such services until a final determination of the dispute is made.

(1) Each prepaid health plan shall arrange and provide initial payment, at Medi-Cal reimbursement levels, for medically necessary

care for any Medi-Cal beneficiary enrolled in the plan when the cost for this care exceeds the 12-month risk limit. No person shall be disenrolled by any prepaid health plan for the sole reason that the cost of his or her care under the plan has exceeded the risk limit.

(2) As a condition of reimbursement for costs of care in excess of the risk limit as to a Medi-Cal beneficiary enrolled in a prepaid health plan, the plan must submit to the department, in a format to be designated by the department, documentation of all costs incurred for services to the beneficiary during the 12-month period.

(c) No prepaid health plan may enter into any subcontract that would in any way limit its obligation assumed under this chapter to retain the significant risk of the cost of services rendered under this chapter to any Medi-Cal beneficiary enrolled in the plan.

(d) As a condition of the department's approval of any subcontract entered into by a prepaid health plan under this chapter, the plan shall specify its retention of significant risk by designating one of the options under subdivision (e) as its operating definition of significant risk, or by any other method approved by the department that would meet the requirement set forth in subdivision (c).

(e) "Significant risk" means financial responsibility for either of the following:

(1) All expenditures in excess of 115 percent of the specified total expenditures estimated under each subcontract.

(2) All inpatient hospitalization expenditures as determined by the department, including expenditures for services connected with hospitalization.

SEC. 273. Section 16145 of the Welfare and Institutions Code, as added by Chapter 1116 of the Statutes of 1984, is amended and renumbered to read:

16144.1. To facilitate the adoption of foreign-born children, licensed private adoption agencies may enter into agreements with domestic and foreign adoption agencies, provided that these agreements do not violate state adoption laws or department regulations.

The report shall be transmitted by the department which took the report to the State Department of Justice, in a format and according to procedures established by the State Department of Justice, which shall transmit the report to the National Crime Information Center Missing Person

System, or, at the option of the local police or sheriff's department, the local police or sheriff's department may transmit the report directly to federal agencies. If the person reported missing is under 12 years of age, the local police or sheriff's department shall transmit the report to the National Crime Information Center Missing Person System within four hours after accepting the report. The police or sheriff's department having jurisdiction of the place in which the person reported missing was last seen may initiate the investigation of the location of the missing person, irrespective of the area of jurisdiction of the department taking the report.

Included with the form shall be instructions which state that if the person reported missing is still missing 30 days after the report is made, the release form signed by a member of the family or next of kin of the missing person should be taken to the dentist or dentists of the missing person to obtain the release of the dental records and that dental records should be submitted within 10 days by the person to whom released to the police or sheriff's department or other law enforcement authority to which the missing person report was made. When the person reported missing has not been found within 30 days and no family or next of kin exists or can be located, the law enforcement authority may execute a written declaration, stating that an active investigation seeking the location of the missing person is being conducted, and that the dental records are necessary for the exclusive purpose of furthering the investigation. The written declaration, signed by a peace officer, is sufficient authority for the dentist or dentists to release the missing person's dental records.

(c) When a person reported missing has not been found within 45 days, the sheriff, chief of police, or other law enforcement authority initiating and conducting the investigation for the missing person shall confer with the coroner or medical examiner prior to the preparation of a missing person report. circumstances or when the law enforcement authority determines that the person missing is under 13 years of age and has been missing at least 14 days, and that dental records and a recent photograph of the missing juvenile should be submitted immediately thereafter to the law enforcement authority. Where authorized to execute a written declaration to obtain the release of dental records, the law enforcement authority may do so immediately when a person reported missing who is under 18 years of age is determined by the authority to have disappeared under suspicious circumstances. In each case, the law enforcement authority should confer immediately with the coroner or medical examiners and should submit its report including the dental records within 24 hours thereafter to the Department of Justice.

(e) When a person reported missing has been found, the sheriff, chief of police, coroner or medical examiner, or other law enforcement authority shall report that information to the Department of Justice. After receiving that report, the department shall erase all records with respect to that person which are maintained pursuant to subdivision (f).

(f) The Department of Justice shall maintain a file of information concerning persons reported to it as missing and who have not been reported as found. The file shall contain the information referred to in subdivision (c) and any other information that the Department of Justice finds to be relevant to assisting in the location of a missing person.

The Department of Justice files shall be made available to law enforcement agencies attempting to locate missing persons. The department shall develop a system of cataloging missing person reports according to a variety of characteristics to facilitate locating particular categories of reports as needed.

The Department of Justice shall compile a missing children registry consisting of reports of missing juveniles as specified in subdivisions (a), (b), (c), and (d), and shall distribute a missing children bulletin on a quarterly basis to local law enforcement agencies and public schools throughout this state. The Department of Justice shall also make this information accessible to other parties involved in efforts to locate missing children as prescribed and to other parties as the department deems appropriate.

SEC. 10. Section 11114.1 is added to the Penal Code, to read:

(b) The Department of Justice shall select up to six juveniles per month from the missing children registry maintained pursuant to Section 11114 and shall produce posters with photographs and information regarding these children, including the missing children hotline telephone number and reward information. The department shall make these posters available to parties as prescribed and as the

department deems appropriate.

SEC. 11. Section 11114.2 is added to the Penal Code, to read:

11114.2. (a) The Department of Justice shall provide appropriate local reporting agencies with a list of persons still listed as missing who are under 18 years of age on the date this section becomes effective, with an appropriate waiver form in order to assist the reporting agency in obtaining a photograph of each of the missing juveniles.

(b) Local reporting agencies shall attempt to obtain the most recent photograph available for persons still listed as missing and forward those photographs to the Department of Justice.

(c) The department shall include these photographs, as they become available, in the quarterly bulletins pursuant to subdivision (f) of Section 11114.

(d) State and local elected officials, agencies, departments, boards, and commissions may enclose in their mailings information regarding missing children obtainable from the Department of Justice or any organization that is recognized as a nonprofit, tax exempt organization under state or federal law and that has an ongoing missing children program. Elected officials, agency secretaries, and directors of departments, boards, and commissions are urged to develop policies to enclose missing children information in mailings when it will not increase postage costs, and is otherwise deemed appropriate.

SEC. 12. The Department of Justice may employ additional personnel, as required, to implement the provisions of this act.

SEC. 13. Section 221 is added to the Streets and Highways Code, to read:

221. The department shall, to the extent feasible, post at appropriate safety roadside rests information regarding missing children provided by the Department of Justice pursuant to Section 11114.1 of the Penal Code.

SEC. 14. The Legislature urges school districts to implement programs to notify parents when their child is absent from elementary or junior high school.

The Legislature also urges school districts to cooperate with local law enforcement authorities, the Department of Justice, or appropriate nonprofit organizations approved by the Department of Justice which develop optional programs to provide interested parents with a fingerprint card or photo identification card of their child.

SEC. 15. The sum of two hundred three thousand dollars ($203,000) is hereby appropriated for the purposes of the Davis-Grisham Missing Children Act of 1986, to be allocated as follows:

(a) Twenty-four thousand dollars ($24,000) from the Victim-Witness Assistance Fund to the Missing Children Reward Fund created by this act.

(b) One hundred seventy-nine thousand dollars ($179,000) from

the General Fund to the Controller for allocation for the other purposes of this act.

SEC. 16. Reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), shall be made from the State Mandates Claims Fund.

SEC. 17. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Over 1,600 children in California remain missing despite extensive efforts under existing provisions of law. Immediate mobilization of further state and local resources in innovative programs will facilitate the location of many of these children. In order that this effort may be commenced at once, it is essential that this act take effect immediately.

CHAPTER 250

An act to add Chapter 12.2 (commencing with Section 8875) to Division 1 of Title 2 of the Government Code, relating to seismic safety, and making an appropriation therefor.

[Approved by Governor July 2, 1986. Filed with Secretary of State July 3, 1986.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature recognizes that California is situated in a seismically active region with earthquake faults which subject large areas of the state to high seismic risk. The Legislature further recognizes that the existence and occupancy of potentially hazardous buildings constitute a severe threat to the public safety in the event of an earthquake of moderate to high magnitude.

(b) The Legislature additionally finds that the Seismic Safety Commission estimates that there may be more than 60,000 unreinforced masonry buildings constructed before 1933 which remain in use in this state. As part of an effort to protect the public health and safety, the Legislature declares the need to establish programs in the seismically active areas of the state to identify potentially hazardous buildings within local governmental jurisdictions.

SEC. 2. Chapter 12.2 (commencing with Section 8875) is added to Division 1 of Title 2 of the Government Code, to read:

CHAPTER 12.2. BUILDING EARTHQUAKE SAFETY

8875. Unless the context otherwise requires, the following definitions shall govern the construction of this chapter:

(a) "Potentially hazardous building" means any building constructed prior to the adoption of local building codes requiring earthquake resistant design of buildings and constructed of unreinforced masonry wall construction. "Potentially hazardous building" includes all buildings of this type, including, but not limited to, public and private schools, theaters, places of public assembly, apartment buildings, hotels, motels, fire stations, police stations, and buildings housing emergency services, equipment, or supplies, such as government buildings, disaster relief centers, communications facilities, hospitals, blood banks, pharmaceutical supply warehouses, plants, and retail outlets. "Potentially hazardous building" does not include warehouses or similar structures not used for human habitation, except for warehouses or structures housing emergency services equipment or supplies. "Potentially hazardous building" does not include any building having five living units or less. "Potentially hazardous building" does not include, for purposes of subdivision (a) of Section 8877, any building which qualifies as "historical property" as determined by an appropriate governmental agency under Section 37602 of the Health and Safety Code.

(b) "Local building department" means a department or agency of a city or county charged with the responsibility for the enforcement of local building codes.

8876. A program is hereby established within all cities, both general law and chartered, and all counties and portions thereof located within seismic zone 4, as defined and illustrated in Chapter 2-23 of Part 2 of Title 24 of the California Administrative Code, to identify all potentially hazardous buildings and to establish a program for mitigation of identified potentially hazardous buildings.

By September 1, 1987, the Seismic Safety Commission, in cooperation with the League of California Cities, the County Supervisors Association, and California building officials, shall prepare an advisory report for local jurisdictions containing criteria and procedures for purposes of Section 8877.

8877. Local building departments shall do all of the following:

(a) Identify all potentially hazardous buildings within their respective jurisdictions on or before January 1, 1990. This identification shall include current building use and daily occupancy load. In regard to identifying and inventorying the buildings, the local building departments may establish a schedule of fees to recover the costs of identifying potentially hazardous buildings and carrying out this chapter.

(b) Establish a mitigation program for potentially hazardous buildings to include notification to the legal owner that the building is considered to be one of a general type of structure that historically has exhibited little resistance to earthquake motion. The mitigation

program may include the adoption by ordinance of a hazardous buildings program, measures to strengthen buildings, measures to change the use to acceptable occupancy levels or to demolish the building, tax incentives available for seismic rehabilitation, low-cost seismic rehabilitation loans available under Division 32 (commencing with Section 55000) of the Health and Safety Code, application of structural standards necessary to provide for life safety above current code requirements, and other incentives to repair the buildings which are available from federal, state, and local programs. Compliance with an adopted hazardous buildings ordinance or mitigation program shall be the responsibility of building owners.

Nothing in this chapter makes any state building subject to a local building mitigation program or makes the state or any local government responsible for paying the cost of strengthening a privately owned structure, reducing the occupancy, demolishing a structure, preparing engineering or architectural analysis, investigation, or design, or other costs associated with compliance of locally adopted mitigation programs.

(c) By January 1, 1990, all information regarding potentially hazardous buildings and all hazardous building mitigation programs shall be reported to the appropriate legislative body of a city or county and filed with the Seismic Safety Commission.

8878. Local jurisdictions undertaking inventories and providing structural evaluations of potentially hazardous buildings pursuant to this chapter shall have the same immunity from liability for action or inaction taken pursuant to this chapter as is provided by Section 19167 of the Health and Safety Code for action or failure to take any action pursuant to Article 4 (commencing with Section 19160) of Chapter 2 of Part 3 of Division 13 of the Health and Safety Code.

8879. The Seismic Safety Commission shall report annually, commencing on or before June 30, 1987, to the Legislature on the filing of mitigation programs from local jurisdictions. The annual report required by this section shall review and assess the effectiveness of building reconstruction standards adopted by cities and counties pursuant to this article and shall supersede the reporting requirement pursuant to Section 19169 of the Health and Safety Code.

8879.5. The Seismic Safety Commission shall coordinate the earthquake-related responsibilities of government agencies imposed by this chapter to ensure compliance with the purposes of this chapter.

SEC. 3. The sum of one hundred fifty thousand dollars ($150,000) is hereby appropriated from the General Fund to the Seismic Safety Commission to develop the advisory report required pursuant to Chapter 12.2 (commencing with Section 8875) of Division 1 of Title 2 of the Government Code.

It is the intent of the Legislature that funding for the program in the 1987–88 fiscal year and thereafter be provided for through the annual budget process.

Costs incurred by local building departments in identifying potentially hazardous buildings or in preparing a mitigation program prior to the effective date of this act shall not be considered state-mandated costs and shall not be reimbursed pursuant to this act.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 251

[Approved by Governor July 3, 1986 Filed with Secretary of State July 3, 1986]

The people of the State of California do enact as follows:

SECTION 1. Article 6 (commencing with Section 32060) is added to Chapter 1 of Part 19 of the Education Code, to read:

Article 6. Toxic Art Supplies in Schools

32060. (a) The Legislature finds and declares that art supplies which contain toxic substances or which are potential human carcinogens pose a significant danger to the health and safety of school children. The Legislature also finds and declares that school children are not sufficiently protected by present health laws in so far as materials which may be seriously harmful are not so labeled and therefore children are not properly warned as to the dangers inherent in the use of those materials.

(b) The Legislature intends by this article to ensure that elementary school children are protected by prohibiting the sale of these toxic substances to schools, school districts, and private schools for use in kindergarten and grades 1 to 6, inclusive, and that the toxic substances may be purchased by schools, school districts, and private schools for students in grades 7 to 12, inclusive, only if the materials are properly labeled, as described in Section 32064.

32061. "Art or craft material" means any raw or processed material or manufactured product marketed or being represented

by the manufacturer or repackager as being suitable for use in the demonstration or the creation of any work of visual or graphic art of any medium. 32063. "Toxic substance causing chronic illness" means any of the following:

(a) Human carcinogens.

(b) Potential human carcinogens.

(c) Any substance included in the list of hazardous substances prepared by the Director of Industrial Relations, pursuant to Section 6382 of the Labor Code, notwithstanding exemptions made for substances on the list which are used in particular forms, circumstances, or concentrations, if the health hazard presented by the substance is not the subject of label statements required by federal law.

32064. (a) For the 1987–88 academic year and for each academic year thereafter, no art or craft material which is deemed by the State Department of Health Services to contain a toxic substance, as defined by the California Hazardous Substance Act, Chapter 13 (commencing with Section 28740) of Division 22 of the Health and Safety Code, or a toxic substance causing chronic illness, as defined in this article, shall be ordered or purchased by any school, school district, or governing authority of a private school in California for use by students in kindergarten and grades 1 to 6, inclusive.

(b) Commencing June 1, 1987, any substance which is defined in subdivision (a) as a toxic substance causing chronic illness shall not be purchased or ordered by a school, school district, or governing authority of a private school for use by students in grades 7 to 12, inclusive, unless it meets the labeling standards specified in Section 32065.

(c) If the State Department of Health Services finds that, because the chronically toxic, carcinogenic, or radioactive substances contained in an art or craft product cannot be ingested, inhaled, or otherwise absorbed into the body during any reasonably foreseeable use of the product in a way that could pose a potential health risk, the department may exempt the product from these requirements to the extent it determines to be consistent with adequate protection

of the public health and safety.

(d) For the purposes of this article, an art or craft material shall be presumed to contain an ingredient which is a toxic substance causing chronic illness if the ingredient, whether an intentional ingredient or an impurity, is 1 percent or more by weight of the mixture or product, or if the State Department of Health Services determines that the toxic or carcinogenic properties of the art or craft material are such that labeling is necessary for the adequate protection of the public health and safety.

32065. Warning labels for substances specified in Section 32064 shall meet all of the following standards:

(a) The warning label shall be affixed in a conspicuous place and shall contain the signal word "WARNING," to alert users of potential adverse health effects.

(b) The warning label shall contain information on the health-related dangers of the art or craft material.

(1) If the product contains a human carcinogen, the warning shall contain the statement: "CANCER HAZARD! Overexposure may create cancer risk."

(2) If the product contains a potential human carcinogen, and does not contain a human carcinogen, the warning shall contain the statement: "POSSIBLE CANCER HAZARD! Overexposure might create cancer risk."

In this event, the label shall contain a statement to refer to the package insert, such as "CAUTION: See package insert before use." For puposes of this section, "package insert" means a display of written, printed, or graphic matter upon a leaflet or suitable material accompanying the art supply. The language on this insert shall be nontechnical and nonpromotional in tone and content.

The requirements set forth in subdivisions (a) to (g), inclusive, shall not be considered to be complied with unless the required words, statements, or other information appear on the outside container or wrapper, or on a package insert which is easily legible through the outside container or wrapper and is painted in a color in contrast with the product or the package containing the product.

An art or craft material shall be considered to be in compliance with this section if Article 4 (commencing with Section 28794) of Chapter 13 of Division 22 of the Health and Safety Code requires labeling of the art or craft material, and if the material is in compliance with that article.

The Superintendent of Public Instruction shall distribute the lists to all school districts and the governing authorities of all private schools in California, and shall make the lists available to preschools, childcare centers, and other businesses and organizations which involve children in the use of art or craft materials.

The superintendent shall inform school districts and governing authorities of all private schools of the requirements of this article, and shall encourage school districts and the governing authorities of all private schools to dispose of art or craft material which may contain human carcinogens, potential human carcinogens, or chronically toxic substances, but which is not affected by this article.

SEC. 2. Article 5 (commencing with Section 49350) of Chapter 8 of Part 27 of the Education Code is repealed.

SEC. 3. This act shall become operative June 1, 1987.

George Deukmejian

The people of the State of California do enact as follows:

SECTION 1. Section 51262 is added to the Education Code, to read:

51262. The Legislature hereby finds and declares that the use of anabolic steroids to expedite the physical development and to enhance the performance level of secondary school athletes presents a serious health hazard to these student athletes. It is the intent of the Legislature in enacting this measure that, beginning with the 1987–88 school year, schools be encouraged to include in instruction in grades 7 to 12, inclusive, in science, health, drug abuse, or physical education programs a lesson on the effects of the use of anabolic steroids.

In order to increase the knowledge of students about the effects

of the use of anabolic steroids, the Superintendent of Public Instruction shall develop a steroid education package consisting of teacher lesson plans, student pamphlets, parent pamphlets, and video tapes to be distributed directly to school districts.

SEC. 2. There is hereby appropriated from the General Fund to the Superintendent of Public Instruction the sum of sixty-eight thousand four hundred ninety dollars ($68,490) for the 1986–87 fiscal year for the purposes of Section 51262 of the Education Code.

Services covered under this chapter shall include rehabilitative services for the physically or cognitively impaired stroke patient, or a patient who has brain injury for whom the medical prognosis and signs indicate potential for faster or more complete recovery, or maintenance or prevention of degeneration, in a variety of situations, including acute inpatient intensive rehabilitation immediately after the occurrence of stroke or injury, inpatient maintenance for the chronically impaired in a hospital or long-term care facility, outpatient services in a rehabilitation clinic

or an adult day health care center, and in-home care or home health agency services for the patient at home.

Rehabilitative services for the physically or cognitively impaired patient only for those whom the medical prognosis and signs indicate potential for faster or more complete recovery, or maintenance or prevention of degeneration, shall be considered to fall within the definition of medical necessity, as that term is used in Section 14133.3.

For purposes of this section, "brain injury" means clinically evident brain damage resulting directly or indirectly from tumor, trauma, infection, anoxia, or vascular lesions not primarily due to degenerative or aging processes which result in temporary or permanent physical or cognitive deficits.

This section shall not negate the department's utilization review authority under subdivision (a) of Section 14133.

CHAPTER 259

An act to amend Section 21061 of the Public Contract Code, relating to the San Bernardino County Flood Control District.

SECTION 1. Section 21061 of the Public Contract Code is amended to read:

21061. All contracts for any improvement or unit of work, except as provided, estimated to cost in excess of twenty-five thousand dollars ($25,000), shall be let to the lowest responsible bidder in the manner provided.

The board of supervisors of the district shall advertise by five or more insertions in a daily newspaper of general circulation, or by two or more insertions in a weekly newspaper of general circulation, printed and published in the district, inviting sealed proposals for the construction of the improvement or work. The board shall require the successful bidder or bidders to file with the board good and sufficient bonds, to be approved by the board, conditioned upon the faithful performance of the contract and upon the payment of all claims for labor and material in connection therewith, the bonds to contain the terms and conditions set forth in Chapter 7 (commencing with Section 3247) of Title 15 of Part 4 of Division 3 of the Civil Code and to be subject to that chapter.

The board may also reject any and all bids not suitable to the best interests of the district. If all proposals are rejected or no proposals are received pursuant to advertisement therefor, or the work consists of channel protection, dam protection, temporary work, maintenance work, or of emergency work when necessary in order

to protect life and property from impending flood damage, the board of supervisors may, without advertising for bids therefor, have the work done by force account. Emergency work, found by the board of supervisors to be necessary in order to protect life and property from impending flood damage, may also be done by negotiated contract without advertising for bids or requiring bonds therefor.

The board of supervisors may authorize the flood control engineer to execute changes for any contract in an amount not to exceed five thousand dollars ($5,000) for contracts of fifty thousand dollars ($50,000) or less, or 10 percent for contracts over fifty thousand dollars ($50,000), but in no event to exceed a net additional total of twenty-five thousand dollars ($25,000).

CHAPTER 260

An act to amend Section 25208.8 of the Health and Safety Code, relating to surface impoundments.

[Approved by Governor July 9, 1986 Filed with Secretary of State July 10, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 25208.8 of the Health and Safety Code is amended to read:

25208.8. A person who receives a notice from a regional board, pursuant to Section 25208.7, or who files an application for an exemption pursuant to Section 25208.5 or 25208.13, shall submit a hydrogeological assessment report to the regional board. A qualified person shall be responsible for the preparation of the report and shall certify its completeness and accuracy. The report shall contain, for each surface impoundment, any information required by the state board or the regional board, and all of the following information:

(a) A description of the surface impoundment, including its physical characteristics, its age, the presence or absence of a liner, a description of the liner, the liner's compatibility with the hazardous wastes discharged to the impoundment, and the design specifications of the impoundment.

(b) A description of the volume and concentration of hazardous waste constituents placed in the surface impoundment, based on a representative chemical analysis of the specific hazardous waste type and accounting for variance in hazardous waste constituents over time.

(c) A map showing the distances, within the facility, to the nearest surface water bodies and springs, and the distances, within one mile from the facility's perimeter, to the nearest surface water bodies and springs.

(d) Tabular data for each surface water body and spring shown on

the map specified in subdivision (c) which indicate its flow and a representative water analysis. The report shall include an evaluation and characterization of seasonal changes and, if substantive changes result from season to season, the tabular data shall reflect these seasonal changes.

(e) A map showing the location of all wells within the facility and the locations of all wells within one mile of the facility's perimeter. The report shall include, for each well, a description of the present use of the well, a representative water analysis from the well, and, when possible, the water well driller's report or well log.

(f) An analysis of the vertical and lateral extent of the perched water and water-bearing strata which could be affected by leachate from the surface impoundment, and the confining beds under and adjacent to the surface impoundment. This analysis shall include all of the following:

(1) Maps showing contours of equal elevation of the water surface for perched water, unconfined water, and confined groundwater required to be analyzed by this subdivision.

(2) An estimate of the groundwater flow, direction of the perched water, and all water-bearing strata on both the maps and the subsurface geologic cross sections.

(3) An estimate of the transmissivity, permeability, and storage coefficient for each perched zone of water and water-bearing strata identified on the maps specified in paragraph (1).

(4) A determination of the rate of groundwater flow.

(5) A determination of the water quality of each zone of the water-bearing strata and perched water which is identified on the maps specified in paragraph (1) and which is under, or adjacent to, the facility. This determination shall be conducted by taking samples either from upgradient of the surface impoundment or from another location which has not been affected by leakage from the surface impoundment.

(g) An indication as to whether the groundwater is contiguous with regional bodies of groundwater and the depth measured to the groundwater, including the depth measured to perched water and water-bearing strata identified on the maps specified in paragraph (1).

(h) The following climatological information:

(1) A map showing the contours for the mean annual long-term precipitation for the surrounding region within 10 miles of the surface impoundment.

(2) Calculations estimating the maximum 24-hour precipitation and maximum and minimum annual precipitation at the facility based upon direct measurement at the facility or upon measured values of precipitation from a nearby climatologically similar station.

(3) The projected volume and pattern of runoff for any streams which, in a 100-year interval, could effect the facility, including peak stream discharges associated with storm conditions.

(i) A description of the composition of the vadose zone beneath

the surface impoundment. This description shall include a chemical and hydrogeological characterization of both the consolidated and unconsolidated rock material underlying the surface impoundment, and an analysis for pollutants, including those constituents discharged into the surface impoundment. This description shall also include soil moisture readings from a representative number of points around the surface impoundment's perimeter and at the maximum depth of the surface impoundment. The report shall arrange all monitoring data in a tabular form so that the data, the constituents, and the concentrations are readily discernible.

(j) A measurement of the chemical characteristics of the soil made by collecting a soil sample upgradient from the impoundment or from an area which has not been affected by seepage from the surface impoundment and which is in a hydrogeologic environment similar to the surface impoundment. The measurement shall be analyzed for the same pollutants analyzed pursuant to subdivision (i).

(k) A description of the existing monitoring being conducted to detect leachate, including vadose zone monitoring, the number and positioning of the monitoring wells, the monitoring wells' distances from the surface impoundment, the monitoring wells' design data, the monitoring wells' installation, the monitoring development procedures, the sampling methodology, the sampling frequency, the chemical constituents analyzed, and the analytical methodology. The design data of the monitoring wells shall include the monitoring wells' depth, the monitoring wells' diameters, the monitoring wells' casing materials, the perforated intervals within the well, the size of the perforations, the gradation of the filter pack, and the extent of the wells' annular seals.

(*l*) Documentation demonstrating that the monitoring system and methods used at the facility can detect any seepage before the hazardous waste constituents enter the waters of the state. This documentation shall include, but is not limited to, substantiation of each of the following:

(1) The monitor wells are located close enough to the surface impoundment to identify lateral and vertical migration of any constituents discharged to the impoundment.

(2) The monitoring wells are not located within the influence of any adjacent pumping wells which might impair their effectiveness.

(3) The monitor wells are only screened in the aquifer to be monitored.

(4) The chosen casing material does not interfere with, or react to, the potential contaminants of major concern at the facility.

(5) The casing diameter allows an adequate amount of water to be removed during sampling and allows full development of the monitor well.

(6) The annular seal prevents pollutants from migrating down the monitor well.

(7) The methods of water sample collection require that the

sample is collected after at least five well volumes have been removed from the well and that the samples are transported and handled in accordance with the United States Geological Survey's "National Handbook of Recommended Methods for Water-Data Acquisition," which provides guidelines for collection and analysis of groundwater samples for selected unstable constituents.

(8) The hazardous waste constituents selected for analysis are specific to the facility, taking into account the chemical composition of hazardous wastes previously placed in the surface impoundment. The monitoring data shall be arranged in tabular form so that the date, the constituents, and the concentrations are readily discernible.

(9) The frequency of monitoring is sufficient to give timely warning of leachate so that remedial action can be taken prior to any adverse changes in the quality of the groundwater.

(10) A written statement from the qualified person preparing the report indicating whether any constituents have migrated into the vadose zone, surface water bodies, perched water, or water-bearing strata.

(11) A written statement from the qualified person preparing the report indicating whether any migration of leachate into the vadose zone, surface water bodies, perched water, or water-bearing strata is likely or not likely to occur within five years, and any evidence supporting that statement.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 f Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

(1) That, when taxes are paid, the tax collector issue a receipt or certificate of payment for use in certification of the affidavit.

(2) That the county recorder forward the affidavit to the tax collector if the county recorder receives an affidavit for recording by mail and the affidavit does not contain the tax collector's certification that the taxes have been paid.

(3) That, if applicable, the tax collector then certify that the taxes have been paid on the face of the affidavit and return the document to the county recorder for recording.

(4) That, if the taxes have not been paid, the tax collector return the affidavit unrecorded to the filer.

(f) As used in this section, "self-insured employee welfare benefit plan" means any plan or program of benefits provided by an employer or an employee organization, or both, for the purpose of providing hospital, medical, surgical, nursing, or dental services, or indemnification for the costs incurred for such services, to such employer's employees or their dependents.

Every insurer shall communicate the availability of such benefits to all group policyholders and to all prospective group policyholders with whom they are negotiating.

The sum shall be deposited within seven days of the close of the meeting with the official registering agency of California thoroughbred racehorses in a depository approved by the board. After deduction of expenses, not to exceed 5 percent, and approval of all the deductions by the board, the fund shall then be distributed on a prorated percentage basis of first moneys earned to the persons owning California-bred thoroughbreds at the time of their wins, in accordance with the qualifying standards specified in subdivision (c) of Section 19617.

CHAPTER 276

An act to add Section 25210.66a to the Government Code, relating to county service areas.

[Approved by Governor July 11, 1986. Filed with Secretary of State July 11, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 25210.66a is added to the Government Code, to read:

25210.66a. For any county service area or zone of a county service area providing services under this article, the board of supervisors may fix and collect charges to pay, in whole or in part, for the costs of providing the services. The revenue obtained thereby may be in lieu of, or supplemental to, revenue obtained by the levy of taxes or other methods. The charges may vary by reason of the nature of the use to correspond to the cost and the value of the services. The charges may be determined by apportioning the total cost, not otherwise offset by other available revenue, of the service to each parcel therein in proportion to the estimated benefit from the service to be received by each parcel. Alternatively, the board of supervisors may apportion the total cost by using any method which it determines to be fair and reasonable in apportioning benefit.

Any county service area or zone of any county service area which has fixed charges pursuant to this section may, by ordinance, provide

a procedure for, and collect the charges, on the tax roll in the same manner and at the same time as its general ad valorem property taxes are collected as provided in this section, except that the board of supervisors shall not impose a charge upon a federal or a state governmental agency or another local agency. Any ordinance shall provide that:

(a) Once a year the board of supervisors shall cause to be prepared a written report which shall contain a description of each parcel of real property receiving the particular extended service and the amount of the charge for each parcel for the year computed in conformity with the procedure set forth in the ordinance authorizing collection of the charges on the tax roll. The report shall be filed with the clerk of the board of supervisors.

(b) Upon filing of the report, the clerk shall fix a time, date, and place for hearing thereon and for filing objections or protests to the report. The clerk shall publish notice of the hearing as provided in Section 6066, prior to the date set for hearing, in a newspaper of general circulation printed and published in the county.

(c) At any time, date, and place stated in the notice, the board of supervisors shall hear and consider all objections or protests, if any, to the report and may continue the hearing from time to time. Upon conclusion of the hearing, the board of supervisors may adopt, revise, change, reduce, or modify any charge and shall make its determination upon each charge as described in the report and thereafter, by resolution, shall confirm the report.

(d) The charges set forth in the report, as confirmed, shall appear as a separate item on the tax bill. The charge shall be collected at the same time and in the same manner as ordinary county ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for such taxes. All laws applicable to the levy, collection, and enforcement of county ad valorem property taxes shall be applicable to such charge, except that, if for the first year the charge is levied the real property to which the charge relates has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of the taxes would become delinquent, the charge confirmed pursuant to this section shall not result in a lien against the real property but, instead, shall be transferred to the unsecured roll for collection.

(e) Whenever a railroad, gas, water, or electric utility right-of-way or electric line right-of-way is included within the service area, or zone of the service area, the railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be subject to the charges authorized only if, and to the extent that, it is found that it will benefit from the particular extended service, and the railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be subject to the same penalties, and the same procedure and sale, in case of delinquency as other properties in the service area or

zone. In determining whether or not the railroad, gas, water, or electric utility right-of-way or electric line right-of-way benefits from the extended service, its use as a right-of-way for a railroad, gas, water, or electric utility shall be presumed to be permanent.

CHAPTER 277

An act to amend Section 781 of the Welfare and Institutions Code, relating to juvenile court law.

[Approved by Governor July 11, 1986. Filed with Secretary of State July 11, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 781 of the Welfare and Institutions Code is amended to read:

781. (a) In any case in which a petition has been filed with a juvenile court to commence proceedings to adjudge a person a ward of the court, in any case in which a person is cited to appear before a probation officer or is taken before a probation officer pursuant to Section 626, or in any case in which a minor is taken before any officer of a law enforcement agency, the person or the county probation officer may, five years or more after the jurisdiction of the juvenile court has terminated as to the person, or, in a case in which no petition is filed, five years or more after the person was cited to appear before a probation officer or was taken before a probation officer pursuant to Section 626 or was taken before any officer of a law enforcement agency, or, in any case, at any time after the person has reached the age of 18 years, petition the court for sealing of the records, including records of arrest, relating to the person's case, in the custody of the juvenile court and probation officer and any other agencies, including law enforcement agencies, and public officials as the petitioner alleges, in his or her petition, to have custody of the records. The court shall notify the district attorney of the county and the county probation officer, if he or she is not the petitioner, and the district attorney or probation officer or any of their deputies or any other person having relevant evidence may testify at the hearing on the petition. If, after hearing, the court finds that since the termination of jurisdiction or action pursuant to Section 626, as the case may be, he or she has not been convicted of a felony or of any misdemeanor involving moral turpitude and that rehabilitation has been attained to the satisfaction of the court, it shall order all records, papers, and exhibits in the person's case in the custody of the juvenile court sealed, including the juvenile court record, minute book entries, and entries on dockets, and other records relating to the case in the custody of the other agencies and officials as are named in the order. In any case in which a ward of the juvenile court is subject to

the registration requirements set forth in Section 290 of the Penal Code, a court, in ordering the sealing of the juvenile records of the person, also shall provide in the order that the person is relieved from the registration requirement and for the destruction of all registration information in the custody of the Department of Justice and other agencies and officials. Notwithstanding any other provision of law, the court shall not order the person's records sealed in any case in which the person has been found by the juvenile court to have committed an offense listed in subdivision (b) of Section 707 until at least three years have elapsed since commission of the offense listed in subdivision (b) of Section 707. Once the court has ordered the person's records sealed, the proceedings in the case shall be deemed never to have occurred, and the person may properly reply accordingly to any inquiry about the events, the records of which are ordered sealed. The court shall send a copy of the order to each agency and official named therein, directing the agency to seal its records and stating the date thereafter to destroy the sealed records. Each such agency and official shall seal the records in its custody as directed by the order, shall advise the court of its compliance, and thereupon shall seal the copy of the court's order for sealing of records that it, he, or she received. The person who is the subject of records sealed pursuant to this section may petition the superior court to permit inspection of the records by persons named in the petition, and the superior court may so order. Otherwise, except as provided in subdivision (b), the records shall not be open to inspection.

(b) In any action or proceeding based upon defamation, a court, upon a showing of good cause, may order any records sealed under this section to be opened and admitted into evidence. The records shall be confidential and shall be available for inspection only by the court, jury, parties, counsel for the parties, and any other person who is authorized by the court to inspect them. Upon the judgment in the action or proceeding becoming final, the court shall order the records sealed.

(c) (1) Subdivision (a) does not apply to Department of Motor Vehicle records of any convictions for offenses under the Vehicle Code or any local ordinance relating to the operation, stopping and standing, or parking of a vehicle where the record of any such conviction would be a public record under Section 1808 of the Vehicle Code. However, if a court orders a case record containing any such conviction to be sealed under this section, and if the Department of Motor Vehicles maintains a public record of such a conviction, the court shall notify the Department of Motor Vehicles of the sealing and the department shall advise the court of its receipt of the notice.

Notwithstanding any other provision of law, subsequent to the notification, the Department of Motor Vehicles shall allow access to its record of convictions only to the subject of the record and to insurers which have been granted requester code numbers by the

department. Any insurer to which such a record of conviction is disclosed, when such a conviction record has otherwise been sealed under this section, shall be given notice of the sealing when the record is disclosed to the insurer. The insurer may use the information contained in the record for purposes of determining eligibility for insurance and insurance rates for the subject of the record, and the information shall not be used for any other purpose nor shall it be disclosed by an insurer to any person or party not having access to the record.

(2) This subdivision shall not be construed as preventing the sealing of any record which is maintained by any agency or party other than the Department of Motor Vehicles.

(3) This subdivision shall not be construed as affecting the procedures or authority of the Department of Motor Vehicles for purging department records.

(d) Unless for good cause the court determines that the juvenile court record shall be retained, the court shall order the destruction of a person's juvenile court records that are sealed pursuant to this section as follows: five years after the record was ordered sealed, if the person who is the subject of the record was alleged or adjudged to be a person described by Section 601; or when the person who is the subject of the record reaches the age of 38 if the person was alleged or adjudged to be a person described by Section 602. Any other agency in possession of sealed records may destroy its records five years after the record was ordered sealed.

CHAPTER 278

An act to amend Section 9314 of the Public Resources Code, relating to resource conservation districts.

[Approved by Governor July 11, 1986 Filed with Secretary of State July 11, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 9314 of the Public Resources Code is amended to read:

9314. (a) The term of office of the five directors, except those first elected, shall be four years. The expiration of the term of any director does not constitute a vacancy, and the director shall hold office until his or her successor has qualified.

(b) As an alternative to the election of directors, the board of directors may, by a resolution presented to the board of supervisors of the principal county, request the board of supervisors to appoint directors, except those first elected. In any election year, the board of directors shall file its request with the board of supervisors no later than 125 days prior to the election. A copy of the resolution shall be

furnished to the official responsible for conducting the election at the time it is presented to the board of supervisors of the principal county. The board of supervisors shall, by ordinance, appoint directors, after consultation with the board of supervisors of any other county which contains any part of the district, from those candidates who have filed an application with the board of supervisors. Each application shall include the signatures of 10 qualified voters of the district, a statement that there shall be no election for that district, and any other information specified by the board of supervisors. If the directors are to be appointed, a notice of election shall not be published, but a notice of vacancy shall be posted pursuant to Section 54974 of the Government Code.

Appointment of directors by the board of supervisors does not affect the status of a district as an independent special district.

If the board of supervisors does not conduct interviews of potential candidates or make an appointment within 60 days after the expiration of the term, the board of directors may make the appointment.

CHAPTER 279

An act to amend Section 933.1 of, and to add Section 933.6 to, the Penal Code, relating to grand juries.

[Approved by Governor July 11, 1986. Filed with Secretary of State July 11, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 933.1 of the Penal Code is amended to read:

933.1. A grand jury may at any time examine the books and records of a redevelopment agency, a housing authority, created pursuant to Division 24 (commencing with Section 33000) of the Health and Safety Code, or a joint powers agency created pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code, and, in addition to any other investigatory powers granted by this chapter, may investigate and report upon the method or system of performing the duties of such agency or authority.

SEC. 2. Section 933.6 is added to the Penal Code, to read:

933.6. A grand jury may at any time examine the books and records of any nonprofit corporation established by or operated on behalf of a public entity the books and records of which it is authorized by law to examine, and, in addition to any other investigatory powers granted by this chapter, may investigate and report upon the method or system of performing the duties of such nonprofit corporation.

CHAPTER 280

An act to amend Section 1799.91 of the Civil Code, and to amend Section 7 of Chapter 987 of the Statutes of 1985, relating to consumer credit.

[Approved by Governor July 11, 1986 Filed with Secretary of State July 11, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 1799.91 of the Civil Code is amended to read:

1799.91. (a) Unless the persons are married to each other, each creditor who obtains the signature of more than one person on a consumer credit contract shall deliver to each person who does not in fact receive any of the money, property, or services which are the subject matter of the consumer credit contract, prior to that person's becoming obligated on the consumer credit contract, a notice in English and Spanish in at least 10-point type as follows:

NOTICE TO COSIGNER (Traducción en Inglés Se Requiere Por La Ley)

You are being asked to guarantee this debt. Think carefully before you do. If the borrower doesn't pay the debt, you will have to. Be sure you can afford to pay if you have to, and that you want to accept this responsibility.

You may have to pay up to the full amount of the debt if the borrower does not pay. You may also have to pay late fees or collection costs, which increase this amount.

The creditor can collect this debt from you without first trying to collect from the borrower. The creditor can use the same collection methods against you that can be used against the borrower, such as suing you, garnishing your wages, etc. If this debt is ever in default, that fact may become a part of YOUR credit record.

This notice is not the contract that makes you liable for the debt.

AVISO PARA EL FIADOR (Spanish Translation Required By Law)

Se le está pidiendo que garantice esta deuda. Piénselo con cuidado antes de ponerse de acuerdo. Si la persona que ha pedido este préstamo no paga la deuda, usted tendrá que pagarla. Esté seguro de que usted podrá pagar si sea obligado a pagarla y de que usted desea aceptar la responsabilidad.

Si la persona que ha pedido el préstamo no paga la deuda, es posible que usted tenga que pagar la suma total de la deuda, mas los cargos por tardarse en el pago o el costo de cobranza, lo cual aumenta

el total de esta suma.

El acreedor (financiero) puede cobrarle a usted sin, primeramente, tratar de cobrarle al deudor. Los mismos metodos de cobranza que pueden usarse contra el deudor, podran usarse contra usted, tales como presentar una demanda en corte, quitar parte de su sueldo, etc. Si alguna vez no se cumpla con la obligación de pagar esta deuda, se puede incluir esa información en la historia de credito de usted.

Este aviso no es el contrato mismo en que se le echa a usted la responsabilidad de la deuda.

(b) Whenever notice is required to be given under subdivision (a) and the consumer credit contract is written in a language other than English or Spanish, the creditor shall deliver the notice as required in subdivision (a) in English and, in addition to or in lieu of Spanish, in the language in which the consumer contract is written.

(c) The requirements of subdivisions (a) and (b) do not apply to a creditor offering or extending open-end credit, as defined in Regulation Z, to joint applicants if all of the following conditions are satisfied:

(1) The application or agreement signed by each applicant clearly and conspicuously discloses that after credit approval each applicant shall have the right to use the open-end credit plan to the extent of any limit set by the creditor and may be liable for all amounts extended under the plan to any joint applicant.

(2) After credit approval, the creditor issues for the use of each applicant any credit device such as a credit card which may be used to obtain credit under the open-end credit plan and sends the credit device to the address specified in the application or otherwise delivers the credit device in a manner specified in the application or agreement signed by each applicant.

This paragraph does not apply to a creditor who does not issue a credit card or other credit device in order to obtain credit under the creditor's open-end credit plan.

(d) "Regulation Z" has the meaning set forth in Section 1802.18.

SEC. 2. Section 7 of Chapter 987 of the Statutes of 1985 is amended to read:

Sec. 7. Except as provided in subdivision (d) of this section, until January 1, 1987, a creditor shall be deemed in compliance with this title if the creditor provides any of the following:

(a) The notice required by Section 1799.91 of the Civil Code, prior to January 1, 1986.

(b) The notice provided in Section 444.3 of Title 16 of the Code of Federal Regulations and any Spanish language translation thereof approved by any state agency.

(c) The notice required by Section 1799.91 of the Civil Code.

(d) The creditor shall clearly and conspicuously disclose the information required by subdivision (c) of Section 1799.91 of the Civil Code in all open-end credit application forms or agreements

printed after January 1, 1986, and in all open-end credit application forms or agreements used by the creditor after January 1, 1987.

Except as provided in Section 1799.96 of the Civil Code and subdivision (d) of this section, after January 1, 1987, a creditor shall be deemed in compliance with Title 1.85 (commencing with Section 1799.90) of Part 4 of Division 3 of the Civil Code only if the creditor provides the notice required by Section 1799.91 of the Civil Code.

SEC. 3. The amendment of Section 1799.91 of the Civil Code made at the 1985–86 Regular Session of the Legislature by this act does not constitute a change in, but is declaratory of, the existing law.

CHAPTER 281

An act to amend Section 431.30 of the Code of Civil Procedure, relating to civil procedure.

[Approved by Governor July 11, 1986 Filed with Secretary of State July 11, 1986]

The people of the State of California do enact as follows:

(c) Affirmative relief may not be claimed in the answer.

If the complaint is verified, unless the complaint is subject to Article 2 (commencing with Section 90) of Chapter 5 of Title 1 of Part 1, the denial of the allegations shall be made positively or according to the information and belief of the defendant. However, if the cause of action is a claim assigned to a third party for collection and the complaint is verified, the denial of the allegations shall be made positively or according to the information and belief of the defendant, even if the complaint is subject to Article 2 (commencing with Section 90) of Chapter 5 of Title 1 of Part 1.

(e) If the defendant has no information or belief upon the subject sufficient to enable him or her to answer an allegation of the complaint, he or she may so state in his or her answer and place his or her denial on that ground.

(f) The denials of the allegations controverted may be stated by reference to specific paragraphs or parts of the complaint; or by express admission of certain allegations of the complaint with a general denial of all of the allegations not so admitted; or by denial of certain allegations upon information and belief, or for lack of sufficient information or belief, with a general denial of all allegations not so denied or expressly admitted.

(c) In each municipal court district, the municipal court district may provide by local rule, when it is determined to be in the best interests of justice, that all at-issue civil actions pending on or filed after the operative date of this chapter in such judicial district, shall be submitted to arbitration by the presiding judge or the judge designated under this chapter. The provisions of this section shall not apply to any action maintained pursuant to Section 1781 of the Civil Code or Section 116.2 or 1161 of this code.

CHAPTER 288

An act to amend Section 71603.3 of the Government Code, and to amend Section 5 of Chapter 32 of the Statutes of 1986, relating to courts.

[Approved by Governor July 11, 1986 Filed with Secretary of State July 11, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 71603.3 of the Government Code is amended to read:

71603.3. Notwithstanding the provisions of Sections 71602 and 71603, the board of supervisors of a county with a population of 200,000 or less according to the 1970 federal census, with the concurrence of a majority of the judges affected, may by ordinance abolish the office of constable and, instead, require that the duties of constable be performed by the sheriff or marshal; provided, that if the constable holds an elective office, such an ordinance shall become effective only upon the approval of the electors of the county; and further provided, that no member of the office of the constable shall lose salary, rank, or benefits, and that sworn personnel shall be exempt from meeting the requirements set by the Commission on Peace Officer Standards and Training, in the event the office of constable is abolished pursuant to this section.

SEC. 2. Section 5 of Chapter 32 of the Statutes of 1986 is amended to read:

Sec. 5. With respect to the amendments set forth in Sections 2 and 4 of this act, the Legislature finds and declares the following:

(a) That Chapter 1469 of the Statutes of 1984 enacted provisions intended to accomplish each of the following objectives:

(1) Authorized, until January 1, 1989, a new procedure for additional state reimbursement for costs of homicide trials in counties with a population of 300,000 or less.

(2) Directed the Office of Planning and Research to undertake a study, in cooperation with specified public agencies, concerning this provision for reimbursement and to report to the Governor and the Legislature no later than July 1, 1987.

(b) That pending the study outcome there is an immediate need to provide further interim state assistance to small rural counties, with a population of 150,000 or less, that are facing worsening fiscal crises and serious cash flow problems due to extraordinary costs of the investigation and prosecution of a rash of multiple homicides.

(c) That authorization, for an interim period, be provided by this act establishing a revised procedure for small rural counties allowing them to be eligible for additional reimbursement, payable on a regularly scheduled basis, to help relieve the onerous financial burdens suddenly encumbered by excessive costs of homicide cases

over which the small counties have virtually no control.

(d) That the short-term fiscal relief provided by subdivision (b) of Section 15202 of the Government Code, as amended by Section 2 of this act, recognizes and is consistent with the fiscal and programmatic relationships and responsibilities between the state and small rural counties as they involve funding and criminal justice program delivery of partnership programs of local and statewide significance.

(e) That the short-term fiscal relief provided by subdivision (b) of Section 15202 of the Government Code, as amended by Section 2 of this act, shall only be made available to the applicable counties for the costs incurred by them as set forth in that section involving activities undertaken following the filing, in the superior court, of an indictment or information.

SEC. 3. Section 2 of this act corrects a technical error in the law and does not constitute a change in, but is declaratory of, existing law.

CHAPTER 289

[Approved by Governor July 11, 1986 Filed with Secretary of State July 11, 1986.]

CHAPTER 290

An act to add Section 19827.1 to the Government Code, relating to correctional officer compensation.

[Approved by Governor July 11, 1986 Filed with Secretary of State July 11, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 19827.1 is added to the Government Code, to read:

19827.1. (a) The state recognizes the historic problem of recruitment and retention of peace officers in the Department of Corrections and the Department of Youth Authority. As evidence of this recognition there has been a trend in recent years to improve salaries and benefits for these correctional peace officers. However, due to the continuing need to recruit new officers to fill vacancies, retain seasoned correctional peace officers to reduce turnover rates, and provide comparability in pay to effectively compete with large peace officer employers and ensure necessary staffing levels, salaries must be improved and maintained by the state for peace officers in the Department of Corrections and the Department of the Youth Authority.

(b) To effect the intent of paragraph (a) the department shall take into consideration the salary and benefits of other large employers of peace officers in California.

CHAPTER 291

An act to amend Section 66477 of the Government Code, relating to subdivisions.

[Approved by Governor July 11, 1986 Filed with Secretary of State July 11, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 66477 of the Government Code is amended to read:

66477. The legislative body of a city or county may, by ordinance, require the dedication of land or impose a requirement of the payment of fees in lieu thereof, or a combination of both, for park or recreational purposes as a condition to the approval of a tentative map or parcel map, provided that:

(a) The ordinance has been in effect for a period of 30 days prior to the filing of the tentative map of the subdivision or parcel map.

(b) The ordinance includes definite standards for determining

the proportion of a subdivision to be dedicated and the amount of any fee to be paid in lieu thereof. The amount of land dedicated or fees paid shall be based upon the residential density, which shall be determined on the basis of the approved or conditionally approved tentative map or parcel map and the average number of persons per household. There shall be a rebuttable presumption that the average number of persons per household by units in a structure is the same as that disclosed by the most recent available federal census or a census taken pursuant to Chapter 17 (commencing with Section 40200) of Part 2 of Division 3 of Title 4. However, the dedication of land, or the payment of fees, or both, shall not exceed the proportionate amount necessary to provide three acres of park area per 1,000 persons residing within a subdivision subject to this section, unless the amount of existing neighborhood and community park area, as calculated pursuant to this subdivision, exceeds that limit, in which case the legislative body may adopt the calculated amount as a higher standard not to exceed five acres per 1,000 persons residing within a subdivision subject to this section.

(1) The park area per 1,000 members of the population of the city, county, or local public agency shall be derived from the ratio that the amount of neighborhood and community park acreage bears to the total population of the city, county, or local public agency as shown in the most recent available federal census. The amount of neighborhood and community park acreage shall be the actual acreage of existing neighborhood and community parks of the city, county, or local public agency as shown on its records, plans, recreational element, maps, or reports as of the date of the most recent available federal census.

(2) For cities incorporated after the date of the most recent available federal census, the park area per 1,000 members of the population of the city shall be derived from the ratio that the amount of neighborhood and community park acreage shown on the records, maps, or reports of the county in which the newly incorporated city is located bears to the total population of the new city as determined pursuant to Section 11005 of the Revenue and Taxation Code. In making any subsequent calculations pursuant to this section, the county in which the newly incorporated city is located shall not include the figures pertaining to the new city which were calculated pursuant to this paragraph. Fees shall be payable at the time of the recording of the final map or parcel map or at a later time as may be prescribed by local ordinance.

(c) The land, fees, or combination thereof are to be used only for the purpose of developing new or rehabilitating existing neighborhood or community park or recreational facilities to serve the subdivision.

(d) The legislative body has adopted a general plan or specific plan containing policies and standards for parks and recreation facilities, and the park and recreational facilities are in accordance with definite principles and standards.

(e) The amount and location of land to be dedicated or the fees to be paid shall bear a reasonable relationship to the use of the park and recreational facilities by the future inhabitants of the subdivision.

(f) The city, county, or other local public agency to which the land or fees are conveyed or paid shall develop a schedule specifying how, when, and where it will use the land or fees, or both, to develop park or recreational facilities to serve the residents of the subdivision. Any fees collected under the ordinance shall be committed within five years after the payment of such fees or the issuance of building permits on one-half of the lots created by the subdivision, whichever occurs later. If the fees are not committed, they, without any deductions, shall be distributed and paid to the then record owners of the subdivision in the same proportion that the size of their lot bears to the total area of all lots within the subdivision.

(g) Only the payment of fees may be required in subdivisions containing 50 parcels or less, except that when a condominium project, stock cooperative, or community apartment project exceeds 50 dwelling units, dedication of land may be required notwithstanding that the number of parcels may be less than 50.

(h) Subdivisions containing less than five parcels and not used for residential purposes shall be exempted from the requirements of this section. However a condition may be placed on the approval of such parcel map that if a building permit is requested for construction of a residential structure or structures on one or more of the parcels within four years the fee may be required to be paid by the owner of each such parcel as a condition to the issuance of such permit.

(i) If the subdivider provides park and recreational improvements to the dedicated land, the value of the improvements together with any equipment located thereon shall be a credit against the payment of fees or dedication of land required by the ordinance.

Land or fees required under this section shall be conveyed or paid directly to the local public agency which provides park and recreational services on a communitywide level and to the area within which the proposed development will be located, if such agency elects to accept the land or fee. The local agency accepting such land or funds shall develop the land or use the funds in the manner provided in this section.

If park and recreational services and facilities are provided by a public agency other than a city or a county, the amount and location of land to be dedicated or fees to be paid shall, subject to subdivision (b), be jointly determined by the city or county having jurisdiction and such public agency.

This section does not apply to commercial or industrial subdivisions or to condominium projects or stock cooperatives which consist of the subdivision of airspace in an existing apartment building which is more than five years old when no new dwelling units are added.

Planned developments, real estate developments, stock cooperatives, and community apartment projects, as defined in Sections 11003, 11003.1, 11003.2, 11003.4, and 11004, respectively, of the Business and Professions Code, and condominiums, as defined in Section 783 of the Civil Code, shall be eligible to receive a credit, as determined by the legislative body, against the amount of land required to be dedicated, or the amount of the fee imposed, pursuant to this section, for the value of private open space within the development which is usable for active recreational uses.

Park and recreation purposes shall include land and facilities for the activity of "recreational community gardening," which activity consists of the cultivation by persons other than, or in addition to, the owner of such land, of plant material not for sale.

CHAPTER 292

An act to amend Section 25503.16 of the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor July 11, 1986 Filed with Secretary of State July 11, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 25503.16 of the Business and Professions Code is amended to read:

25503.16. (a) Nothing in this division shall prohibit the issuance or transfer of any retail onsale or offsale license to any person with respect to premises which are an integral part of the operations of a hotel or motel owned by, or operated by or on behalf of, the licensee notwithstanding that a manufacturer, winegrower, manufacturer's agent, California winegrower's agent, rectifier, distiller, bottler, importer, or wholesaler has any interest, directly or indirectly, in the premises, in the retail license, or in the retail licensee, and notwithstanding that the issuance or transfer would otherwise result in a violation of subdivision (a) of Section 25500, subdivisions (a) or (b) of Section 25501, or subdivision (a), (b), (c), or (d) of Section 25502, provided that each of the following conditions is met:

(1) The hotel or motel consists of not less than 150 guestroom accommodations.

(2) No more than one-quarter of the total gross annual revenues of such hotel or motel is derived from the sale by such hotel or motel of alcoholic beverages.

(3) The retail licensee shall purchase no beer or distilled spirits for sale in this state other than from a wholesale licensee, and the retail licensee shall purchase no alcoholic beverages for sale in this state from any wholesale licensee which has any interest, directly or

indirectly, in the premises, in the retail license, or in the retail licensee.

(b) For purposes of this section, "hotel" and "motel" shall mean an establishment containing guestroom accommodations with respect to which the predominant relationship existing between the occupants thereof and the owner or operator of the establishment is that of innkeeper and guest; for purposes of this subdivision, the existence of other legal relationships as between some occupants and the owner or operator thereof shall be immaterial.

(c) The Legislature finds that it is necessary and proper to require a separation between manufacturing interests, wholesale interests, and retail interests in the production and distribution of alcoholic beverages in order to prevent suppliers from dominating local markets through vertical integration and to prevent excessive sales of alcoholic beverages produced by overly aggressive marketing techniques. The Legislature further finds that the exception established by this section to the general prohibition against tied interests must be limited to its express terms so as not to undermine the general prohibition, and intends that this section be construed accordingly.

CHAPTER 293

An act to amend Section 7048 of the Business and Professions Code, relating to contractors.

[Approved by Governor July 11, 1986 Filed with Secretary of State July 11, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 7048 of the Business and Professions Code is amended to read:

7048. This chapter does not apply to any work or operation on one undertaking or project by one or more contracts, the aggregate contract price for which for labor, materials, and all other items, is less than three hundred dollars ($300), that work or operations being considered as of casual, minor, or inconsequential nature.

This exemption does not apply in any case wherein the work of construction is only a part of a larger or major operation, whether undertaken by the same or a different contractor, or in which a division of the operation is made in contracts of amounts less than three hundred dollars ($300) for the purpose of evasion of this chapter or otherwise.

This exemption does not apply to a person who advertises or puts out any sign or card or other device which might indicate to the public that he or she is a contractor or that he or she is qualified to engage in the business of a contractor.

22731. Notwithstanding any other provisions of this part, whenever the Governor, by executive order, determines that because of an impending curtailment of, or change in the manner of performing service, the best interests of the state would be served by encouraging the retirement of state employees, and that sufficient economies could be realized to offset any cost to state agencies resulting from this section, an additional two years of service shall be credited to members, who are state employees, if the following conditions exist:

(a) The member is credited with five or more years of service and retires during a period not to exceed 120 days or less than 60 days commencing no sooner than the date of issuance of the Governor's executive order which shall specify such period.

Notwithstanding any other provisions of this part, whenever the Governor, by executive order, determines that because of an impending curtailment of, or change in the manner of performing service, the best interests of the state would be served by encouraging the retirement of state employees, and that sufficient economies could be realized to offset any cost to state agencies resulting from this section, an additional two years of service shall be credited to state members, other than school members, if the following conditions exist:

(a) The member is credited with five or more years of service and retires during a period not to exceed 120 days or less than 60 days commencing no sooner than the date of issuance of the Governor's executive order which shall specify such period.

(c) The appointing power or the Board of Regents or the Board of Trustees determines that it is electing to exercise the provisions of this section, pursuant to the Governor's order, and certifies to the State Department of Finance and to the Office of Legislative Analyst, as to the specific economies that will be realized were the additional service credit towards retirement granted.

As used in this section, "member" means a state employee who is employed in a job classification, department, or other organizational unit designated by the appointing power, as defined in Section 18524, the Board of Regents of the University of California, or the Board of Trustees of the California State University.

The appointing power or the Board of Regents or the Board of Trustees shall make such payment with respect to all eligible employees who retired pursuant to this section.

Any member who qualifies under this section, upon subsequent reentry to the system shall forfeit the service credit acquired under this section.

(d) That, in order to proceed in a expeditious manner with the development and implementation of those projects, each of the nine counties in the San Francisco Bay area should be provided the opportunity to review and determine whether there is a need for the development and implementation of a county transportation expenditure plan that goes significantly beyond current federal, state, and local funding.

(e) Therefore, it is in the public interest to allow the voters in any county in the nine-county San Francisco Bay area to either create a county transportation authority or to authorize the commission to implement a retail transactions and use tax for the purpose of funding a local transportation expenditure plan showing a need for the proceeds from that tax.

estimates of federal, state, and local funds may not be adequately available, may establish, on or after January 1, 1986, in conjunction with the city selection committee a process to develop a countywide consensus on the need for these projects and on a proposed county transportation expenditure plan to adequately fund the construction, maintenance, repair, or operation of these projects. The process may include the establishment of a committee or committees as the board of supervisors and the city selection committee deem necessary. The process shall provide for the participation of representatives of cities and the county, representatives of transit agencies serving the county, the department, the commission, and other agencies determined to be necessary by the board of supervisors and the city selection committee. (e) A recommendation on whether the adoption of a retail transactions and use tax ordinance would be necessary to fund the projects listed in subdivision (a). If a recommendation is made for the adoption of that ordinance, it shall include a recommendation as to whether the tax shall be permanent or for a specific term. The recommendation shall also address the issue of whether a bonding authority should be sought and on the limitations of that authority.

(f) A recommendation on whether the board of supervisors should request the voters to authorize the creation of a county transportation authority pursuant to this division to impose and administer the proceeds of the tax ordinance recommended in subdivision (e), or whether the board of supervisors should request the commission to impose and administer the proceeds of the tax. The ordinance shall be subject to the approval of a majority of the electors voting on the measure to approve the imposition of the tax.

(g) If the recommendation is for the board of supervisors to ask the voters to request the commission to impose the tax, a recommendation shall be made for the establishment and membership of an advisory committee to advise the commission on the administration of the recommended county transportation expenditure plan.

(h) If the recommendation is for the creation of a county transportation authority, the recommendation shall also include the membership of the authority, specifying the number to represent local governments and the number to represent the county.

(i) A recommendation as to whether to seek the support of adjacent counties for projects that have intercounty impact by requesting the board of supervisors and the city selection committee of each of the adjacent counties to develop a county transportation expenditure plan for their respective county. Adjacent counties shall endeavor to work cooperatively together to develop mutual traffic and transportation projects identified in their respective county transportation expenditure plan.

131052. The recommended county transportation expenditure plan shall be subject to a public hearing and then to a review by the commission, before submittal to the board of supervisors and local governments for adoption.

131053. The commission shall, within 45 days after receipt of a draft county transportation expenditure plan forwarded pursuant to Section 131052, approve the draft plan unless one or more of the following findings is made:

131055. If the commission approves a draft county transportation expenditure plan, the commission shall return the draft plan to the board of supervisors for its approval and to local governments for their approval. A majority of the board of supervisors, and a majority of the local governments representing a majority of the population of the county in the incorporated areas by a majority vote of their respective councils, are required for the adoption of the draft county expenditure plan. The adopted county transportation expenditure plan shall be published by the county within 30 days after its adoption.

131056. (a) Not less than one year prior to the date of the last general election in which a retail transactions and use tax ordinance is in effect pursuant to this division, the commission or the county transportation authority administering the adopted county expenditure transportation plan shall prepare a new draft county transportation expenditure plan for approval pursuant to this chapter.

(b) Upon approval of the draft plan, the board of supervisors shall submit, at the next primary or general election, the question of whether the ordinance shall remain in effect to fund the approved plan.

131057. The commission and any county transportation authority, in administering the adopted county transportation expenditure plan and imposing the retail transactions and use tax, shall have only those powers necessary for those purposes.

Not more than 75 percent of the proceeds of the tax shall be allocated for highway capital improvements, including administration of this division, legal actions related thereto, planning, environmental reviews, design, construction, and repair. 142257. (a) Not less than 25 percent of the proceeds of the retail transactions and use tax shall be allocated to each city and the county for local transportation purposes determined to be priority projects by local governments to which funds are allocated. The distribution of these funds shall be based upon a formula allocation in which 25 percent of the funds are allocated on the basis of proportionate total street miles and 75 percent of the funds are allocated on the basis of proportionate population using the latest estimate of population.

For purposes of this subdivision, the population of the county is the

population of the unincorporated area of the county.

(b) Prior to the authority allocating funds, each local government shall certify to the authority that the funds will not be substituted for property tax funds which are currently utilized to fund existing local transportation programs. If the local government is unable to segregate property tax revenues from other general fund revenues which cannot be so distinguished, substitution of funds from the authority for general funds is also prohibited.

(c) The authority shall require that local governments to which funds are allocated to separately account for those funds and maintain records of expenditures in accordance with administrative code requirements adopted by the authority.

(b) Based on the evaluation, the transportation planning agency shall prepare a plan for the expenditure of the revenues expected to be derived from the transactions and use tax imposed pursuant to this chapter, together with other federal, state, and local improvements, for a period of not less than 20 years. The first five years of the plan shall be incorporated into the transportation planning agency's annual submission to the California Transportation Commission for the state transportation improvement program pursuant to Chapter 2.5 (commencing with Section 65080) of Division 1 of Title 7 of the Government Code.

(c) The expenditure plan shall also include projections of revenues likely to be available in the next five years for capital, maintenance, and operational purposes in categories of transportation facilities, including, but not limited to, freeways, expressways, and conventional state highways, and local streets and roads and transit.

(d) Before adoption of an expenditure plan, the transportation planning agency shall conduct public hearings on the plan.

142259. Except as otherwise provided by Section 142260, the transportation planning agency may amend the expenditure plan annually.

142260. (a) The authority may, by the affirmative vote of a majority of the members, annually approve, or approve subject to amendment, the expenditure plan adopted pursuant to Section 142258. The authority shall take all appropriate actions to give highest priority to the projects in the initial expenditure plan, and any amendments shall not delay or delete any project in the initial plan without the authority holding a public hearing and adopting a

resolution specifically detailing the reason why the amendments are necessary relative to conditions beyond control of the authority.

(b) The authority shall notify the transportation planning agency, the board of supervisors, and the city council of each city in the county and provide them with a copy of the proposed amendments.

(c) The proposed amendments shall become effective 45 days after notice is given pursuant to subdivision (b). A public hearing shall be held on the proposed amendments prior to final adoption if any city or the county objects to the amendment in writing within 30 days of receiving the notice.

142261. If a retail transactions and use tax is adopted pursuant to this chapter, the authority shall prepare and submit a report to the Department of Transportation, to the board of supervisors, to the city council of each city in the county, and to the transportation planning agency, on or before each January 1 after taxes are imposed pursuant to this chapter. The report shall evaluate and report the progress made in implementing the expenditure plan during the preceding fiscal year.

142262. The authority, subject to the approval of the voters, may impose the retail transactions and use tax at a maximum rate of one-half of 1 percent under this chapter and Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code, and may state the maximum tax rate in terms of not to exceed one-half of 1 percent.

142263. (a) The board of supervisors, as part of the ballot proposition to approve the imposition of a retail transactions and use tax, shall seek authorization from the electors to issue bonds payable solely from the proceeds of the tax.

(b) The maximum bonded indebtedness which may be authorized shall be an amount equal to the sum of the principal and interest on the bonds, not to exceed the estimated proceeds of the tax, for a period of not more than 20 years. The actual wording of the proposition on any short form of ballot card, label, or other device, regardless of the system of voting used, shall read as follows:

IMPROVING ROADS AND TRANSPORTATION IN FRESNO COUNTY To provide for countywide road improvements and rehabilitation, freeway expansion, and local transportation purposes which would contribute to better traffic flow, improved air quality, and increased safety; this proposition authorizes the Fresno County Transportation Authority to impose, by ordinance, a one-half of 1 percent transactions and use tax (for a period of not to exceed 20 years) with not more than 75 percent for highway improvements in Fresno County and not less than 25 percent for local transportation purposes and to issue bonds payable from the proceeds of that tax and establishes the appropriations limit of the authority in the amount of _____ dollars ($_____). 	NO	

142264. (a) The bonds authorized by the voters concurrently with the approval of the retail transactions and use tax may be issued by the authority at any time, and from time to time, payable solely from the proceeds of the tax. The bonds shall be referred to as "limited tax bonds."

(b) The pledge of the tax to the limited tax bonds authorized under this chapter has priority over the use of any of the tax for pay-as-you-go financing, except to the extent that that priority is expressly restricted in the resolution authorizing the issuance of the bonds.

142265. Limited tax bonds shall be issued pursuant to a resolution adopted at any time by an affirmative vote of a majority of the members of the authority. Each resolution shall provide for the issuance of bonds in the amounts as may be necessary, until the full amount of the bonds authorized have been issued. The full amount of bonds may be divided into two or more series and different dates of payment fixed for the bonds of each series. A bond need not mature on its anniversary date.

142266. (a) A resolution authorizing the issuance of limited tax bonds shall state all of the following:

(1) The purpose for which the proposed debt is to be incurred, which may include all costs and estimated costs incidental to or connected with the accomplishment of those purposes, including, without limitation, engineering, inspection, legal, fiscal agents, financial consultant and other fees, bond and other reserve funds, working capital, bond interest estimated to accrue during the construction period and for a period not to exceed three years thereafter, and expenses of all proceedings for the authorization,

issuance, and sale of the bonds.

(2) The estimated cost of accomplishing those purposes.

(6) The denomination or denominations of the bonds, which shall not be less than five thousand dollars ($5,000).

(7) The form of the bonds, including, without limitation, registered bonds and coupon bonds, to the extent permitted by federal law, and the form of any coupons to be attached thereto, the registration, conversion, and exchange privileges, if any, pertaining thereto, and the time when all of, or any part of, the principal becomes due and payable.

(b) The resolution may also contain any other matters authorized by this chapter or any other provision of law.

142267. The bonds shall bear interest at a rate or rates not exceeding the maximum allowable by law, payable semiannually, except that the first interest payable on the bonds, or any series thereof, may be for any period not exceeding one year, as determined by the authority.

142268. In the resolution authorizing the issuance of the bonds, the authority may also provide for call and redemption of the bonds prior to maturity at the times and prices and upon other terms as specified. However, no bond is subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

142269. The principal of, and interest on, the bonds shall be payable in lawful money of the United States at the office of the auditor-controller-treasurer of the county and other places as may be designated by the authority.

142270. (a) The bonds, or each series thereof, shall be dated and numbered consecutively and shall be signed by the chairperson or vice chairperson of the authority and the auditor-controller-treasurer of the county, and the official seal of the authority shall be attached.

(b) The interest coupons of the bonds, if any, shall be signed by the auditor-controller-treasurer of the county.

(c) All signatures and the seal may be printed, lithographed, or mechanically reproduced, except that one of the signatures on the bonds shall be manually affixed.

(d) If any officer whose signature appears on the bonds or coupons ceases to be that officer before the delivery of the bonds, the officer's signature is as effective as if the officer had remained in office.

142271. The bonds may be sold as the authority determines by resolution. The authority may sell the bonds at a price below par,

whether by negotiated or public sale.

142272. Delivery of any bonds may be made at any place either inside or outside the state, and the purchase price may be received in cash or bank credits.

142273. All accrued interest and premiums received on the sale of the bonds shall be placed in the fund to be used for the payment of principal of, and interest on, the bonds, and the remainder of the proceeds of the bonds shall be placed in the treasury of the authority and applied to secure the bonds or for the purposes for which the debt was incurred. However, when the purposes have been accomplished, any money remaining shall be either (a) transferred to the fund to be used for the payment of principal of, and interest on, the bonds or (b) placed in a fund to be used for the purchase of outstanding bonds of the authority from time to time in the open market at prices and in the manner, either at public or private sale or otherwise, as determined by the authority. Bonds so purchased shall be canceled immediately.

142274. (a) The authority may provide for the issuance, sale, or exchange or refunding bonds to redeem or retire any bonds issued by the authority upon the terms, at the times, and in the manner which it determines.

(b) Refunding bonds may be issued in a principal amount sufficient to pay all, or any part of, the principal of the outstanding bonds, the premiums, if any, due upon call and redemption thereof prior to maturity, all expenses of the refunding, and either of the following:

(1) The interest upon the refunding bonds from the date of sale thereof to the date of payment of the bonds to be refunded out of the proceeds of the sale of the refunding bonds or to the date upon which the bonds to be refunded will be paid pursuant to call or agreement with the holders of the bonds.

(2) The interest upon the bonds to be refunded from the date of sale of the refunding bonds to the date of payment of the bonds to be refunded or to the date upon which the bonds to be refunded will be paid pursuant to call or agreement with the holders of the bonds.

(c) The provisions of this chapter for the issuance and sale of bonds apply to the issuance and sale of refunding bonds.

142275. (a) The authority may borrow money in anticipation of the sale of bonds which have been authorized pursuant to this chapter, but which have not been sold and delivered, and may issue negotiable bond anticipation notes therefor and may renew the bond anticipation notes from time to time. However, the maximum maturity of any bond anticipation notes, including the renewals thereof, shall not exceed five years from the date of delivery of the original bond anticipation notes.

(b). The bond anticipation notes, and the interest thereon, may be paid from any money of the authority available therefor, including the revenues from the retail transactions and use taxes imposed pursuant to this chapter. If not previously otherwise paid, the bond

anticipation notes, or any portion thereof, or the interest thereon, shall be paid from the proceeds of the next sale of the bonds of the authority in anticipation of which the notes were issued.

(c) The bond anticipation notes shall not be issued in any amount in excess of the aggregate amount of bonds which the authority has been authorized to issue less the amount of any bonds of the authorized issue previously sold, and also less the amount of other bond anticipation notes therefor issued and then outstanding. The bond anticipation notes shall be issued and sold in the same manner as the bonds.

(d) The bond anticipation notes and the resolutions authorizing them may contain any provisions, conditions, or limitations which a resolution of the authority authorizing the issuance of bonds may contain.

142276. Any bonds issued under this chapter are legal investments for all trust funds; for the funds of insurance companies, commercial and savings banks, and trust companies; and for state school funds; and whenever any money or funds may, by any law now or hereafter enacted, be invested in bonds of cities, counties, school districts, or other districts within the state, that money or funds may be invested in the bonds issued under this chapter; and whenever bonds of cities, counties, school district, or other districts within the state may, by any law now or thereafter enacted, be used as security for the performance of any act or the deposit of any public money, the bonds issued under this chapter may be so used. The provisions of this chapter are in addition to all other laws relating to legal investments and shall be controlling as the latest expression of the Legislature with respect thereto.

142277. Any action or proceeding wherein the validity of the adoption of the retail transactions and use tax ordinance provided for in this chapter, or the issuance of any bonds thereunder, or any of the proceedings in relation thereto, is contested, questioned, or denied, shall be commenced within six months from the date of the election at which the ordinance is approved; otherwise, the bonds and all proceedings in relation thereto, including the adoption and approval of the ordinance, shall be held to be valid and in every respect legal and incontestable.

410. As used in this article, the following definitions apply:

(a) "Customer" means any person who requests a repairperson to do work on a vessel which is in the possession of that person.

(b) "Repairperson" means any person engaged in the business of repairing vessels.

(c) "Vessel" means any vessel which is subject to registration with the Department of Motor Vehicles and which is manufactured or used for noncommercial purposes or is leased, rented, or chartered to another for noncommercial use.

411. This article applies only to work done on a vessel with an estimated cost of one hundred dollars ($100) or more.

412. Notwithstanding Section 502, a repairperson has no lien on a vessel under this article for compensation for services rendered to the vessel, unless the repairperson has complied with this article.

413. No repairperson shall commence work for compensation without specific authorization from the customer or his or her agent in accordance with all of the following requirements:

(a) The repairperson shall give to the customer either of the following:

(1) A written estimated price for labor and parts for a specific job.

(2) A written estimate of the maximum cost for a specific job which does not differentiate between labor and parts, but which shall not be exceeded by the actual cost of the job, including labor and parts.

No work shall be done or parts supplied in excess of, or different from, the original written estimate without the separate oral or written consent of the customer. If the consent is oral, the repairperson shall make a notation on the work order and on the invoice of the date, time, name of person authorizing the additional work or change in work, and the telephone number called, if any, together with a specification of the additional parts and labor and the total additional cost.

(b) If it is necessary to disassemble a vessel or its component in order to prepare a written estimated price for required work, the repairperson shall first give the customer a written estimated price for the disassembly and reassembly. The estimate shall also include the cost of parts and necessary labor to replace items such as gaskets, seals, and O rings that are normally destroyed by disassembling the component. If the disassembling might prevent the restoration of the component to its former condition, the repairperson shall write that information on the work order containing the estimate before the work order is signed by the customer.

The repairperson shall inform the customer orally, and conspicuously in writing on the work order, of the maximum time it will take the repairperson to reassemble the vessel or its component if the customer elects not to proceed with the work. The repairperson shall not charge the customer for more time than the specified maximum time if the customer elects not to proceed with the work.

After the disassembling has been performed, the repairperson shall prepare a written estimated price for labor and parts necessary for the requested work. Before performing the requested work, the repairperson shall obtain the customer's authorization to either perform the work or to reassemble the vessel or its components.

(c) When the customer is unable to deliver the vessel to the repairperson during business hours, and the customer has requested the repairperson to take possession of the vessel for the purpose of performing work on the vessel or estimating the cost of the work, the repairperson shall not undertake work on the vessel for compensation unless the repairperson has done all of the following:

(1) The repairperson has prepared a work order stating the written estimated price for labor and parts necessary to perform the work.

(2) By telephone or otherwise, the customer has been given all of the information on the work order, and the customer has approved the work order.

(3) The customer has given oral or written authorization to the repairperson to make the repairs pursuant to the work order.

If the authorization is oral, the repairperson shall make, on both

the work order and the invoice, a notation of the name of the customer, the date, the time, and the telephone number called, if any.

414. Any repairperson who gives an original estimate in good faith, shall not be obligated to complete a job within the quoted or written estimated price if additional, unforeseen work is necessary to complete the job and the customer refuses to consent to payment for the cost of that additional work.

415. All work done by a repairperson, including all warranty work, shall be recorded on an invoice and shall describe all work done and parts supplied.

Work and parts shall be listed separately on the invoice, which shall also state separately the subtotal prices for work and for parts, not including sales tax, and shall state separately the sales tax, if any, applicable to each.

If any used, rebuilt, or reconditioned parts are supplied, the invoice shall clearly state that fact. If a part of a component system is composed of new and used, rebuilt, or reconditioned parts, the invoice shall clearly state that fact.

One copy of the invoice shall be given to the customer and one copy shall be retained by the repairperson.

416. The invoice shall show the repairperson's business name and address.

If the repairperson's telephone number is on the invoice, it shall be the telephone number that appears in any advertisement or on an advertising sign, and shall be the same number as that listed for the repairperson's firm name and address in the telephone directory, or on the telephone company records if the number is assigned to the repairperson subsequent to the publication of the telephone directory.

417. Notwithstanding Section 413, upon authorization from the customer as to a specific job, a repairperson may work on a vessel on a time and materials basis.

418. (a) This article does not apply to a vessel in distress which is in need of immediate work critical to its preservation and safety, for which consent cannot expeditiously be obtained.

(b) This section does not include any situation or accident caused to the vessel by the negligence or conduct of the repairperson or the repairperson's agent.

SEC. 2. Section 502 of the Harbors and Navigation Code is amended to read:

502. (a) Except as provided in Article 1.5 (commencing with Section 410) of Chapter 1 of Division 3, every person has a lien dependent upon possession of the vessel for the compensation to which he or she is legally entitled for services rendered to or storage of any vessel subject to registration with the Department of Motor Vehicles. The lien shall arise at the time a written statement of lien is sent to the registered owner of the vessel which specifies the charges for services or storage rendered and states that the vessel is

subject to sale pursuant to the California Boater's Lien Law.

(b) Notwithstanding subdivision (a), no lien provided by this section for storage or service provided upon the request of any person other than the legal owner as shown on the registration certificate of the vessel shall be valid against the interest of the legal owner to the extent that the lien exceeds seven hundred fifty dollars ($750) unless the person performing such storage or service obtains the consent of the legal owner to the amount of the excess. The legal owner may limit his or her consent to a specified dollar amount or period of time. The lien claimant shall give actual notice in writing, prior to exceeding such amount, either by personal service or by registered mail to the legal and registered owner or owners as named and at the addresses as shown on the registration certificate, on a standard form provided by the department, containing a description of the storage or services, or both, a description and registration number of the vessel, the name of the registered owner or owners, the dollar amount or rate of the charges for the storage or services, and a statement in boldface type that, with respect to storage charges, consent of the legal owner shall be presumed unless the legal owner notifies the lien claimant within 15 days of receipt of the request for consent that he or she declines to consent to such storage.

(c) Notwithstanding subdivision (b), any claim for the cost of services may exceed the estimate given therefor by an amount not in excess of 10 percent thereof and the lien of the lien claimant shall be valid against the legal owner to the full amount of such excess to the same extent as would be a lien for the original estimate.

(d) With respect to claims for storage charges, a legal owner shall be presumed to consent to storage charges if he or she fails to respond to the request for consent set forth in subdivision (b) within 15 days after receipt thereof, such response to be addressed to the lien claimant at the address stated in the request for consent. In addition, consent in all cases is presumed for the 30-day period immediately following the giving of the request for consent notice.

(e) The legal owner may, upon declining consent, remove the vessel from the lien claimant only upon satisfying the lien of the lien claimant.

(f) Any lien arising under this section shall be extinguished, and no lien sale shall be conducted unless, 60 days after the lien arises, the lienholder does either of the following:

(1) Applies to the department for an authorization to conduct a lien sale.

(2) Files an action on the claim in court.

(g) Nothing in this section shall impair any rights or remedies which are otherwise available to the lien claimant against the registered owner under any other provisions of law.

SECTION 1. Section 1797.7 is added to the Health and Safety Code, to read:

1797.7. (a) The Legislature finds and declares that the ability of some prehospital emergency medical care personnel to move from the jurisdiction of one local EMS agency which issued certification and authorization to the jurisdiction of another local EMS agency which utilizes the same level of emergency medical care personnel is unreasonably hindered by the current requirements that those personnel be retested and recertified by each local EMS agency.

(b) It is the intent of the Legislature in enacting this section and Section 1797.185 to ensure that prehospital emergency medical care personnel who have met state competency standards for their basic scope of practice, as defined in Division 9 (commencing with Section 100000) of Title 22 of the California Administrative Code, and are currently certified are recognized statewide without having to repeat testing or certification for that same basic scope of practice.

(c) It is the intent of the Legislature that local EMS agencies may require prehospital emergency medical care personnel who were certified in another jurisdiction to be oriented to the local EMS system and receive training and demonstrate competency in any optional skills for which they have not received accreditation.

(d) It is the intent of the Legislature that subdivisions (a) and (b) not be construed to hinder the ability of local EMS agencies to maintain medical control within their EMS system in accordance with the requirements of this division.

SEC. 2. Section 1797.185 is added to the Health and Safety Code, to read:

1797.185. (a) On or before July 1, 1987, the authority shall establish criteria for the statewide recognition of the certification or authorization of prehospital emergency medical care personnel in the basic scope of practice of those personnel. The criteria shall include, but need not be limited to, the following:

(1) Standards for training, testing, certification, or authorization, and revocation of certification or authorization, as required for statewide recognition of certification and authorization.

(2) Conditions for local accreditation of certified and authorized prehospital emergency medical care personnel which are reasonable in order to maintain medical control and the integrity of the local EMS system, as determined by the authority and approved by the

commission.

(3) Provisions for local accreditation in approved optional scope of practice, if any, as allowed by applicable state regulations and statutes.

(4) Provisions for collection of fees by the appropriate agency for testing, certification, or authorization and accreditation in the appropriate scope of practice.

(b) On or before July 1, 1987, the authority shall amend all relevant regulations for prehospital emergency medical care personnel to include criteria developed pursuant to subdivision (a) to ensure statewide recognition of certification or authorization for the basic scope of practice of those personnel.

(c) All future regulations for prehospital emergency medical care personnel adopted by the authority shall, where relevant, include provisions for statewide recognition of certification or authorization for the basic scope of practice of those personnel.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy fees, by reason of paragraph (4) of subdivision (a) of Section 1797.185 of the Health and Safety Code, as added by Section 2 of this act, sufficient to pay for the program or level of service mandated by this act.

CHAPTER 313

An act to amend Section 61601.16 of, and to add Sections 61601.17, 61601.19, and 61765.11 to the Government Code, relating to local government.

[Approved by Governor July 14, 1986 Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 61601.16 of the Government Code is amended to read:

61601.16. In addition to the powers which may be exercised pursuant to Section 61600, whenever the Board of Directors of the Cameron Park Community Services District, the Board of Directors of the Cameron Estates Community Services District, the Board of Directors of the Tenaja Community Services District, or the Board of Directors of the Brooktrails Community Services District determines by resolution, entered in the minutes, that it is feasible, economically sound, and in the public interest, and if a majority of the voters voting on the proposition vote in favor of the adoption of the additional purpose pursuant to Section 61601, the district may enforce the covenants, conditions, and restrictions adopted for each tract within the boundaries of the district, and assume the duties of

the architectural control committee for each tract within the boundaries of the district and for other tracts as may be annexed from time to time, for the purpose of maintaining uniform standards of development within the district as adopted in the covenants, conditions, and restrictions. However, the district shall exercise the duties of an architectural control committee for any tract only to the extent authorized by the covenants, conditions, and restrictions applicable to the tract.

The power to carry on that activity may be divested in the same manner as the power was acquired.

For the purposes of this section, "tract" means any parcel of land for which the county has authorized development.

SEC. 2. Section 61601.17 is added to the Government Code, to read:

61601.17. Notwithstanding the provisions of Sections 61600 and 61601, whenever the Board of Directors of the Ranch House Estates Community Services District determines by resolution that it is feasible, economically sound, and in the public interest for the district to exercise its power for the purpose of enforcing the covenants, conditions, and restrictions adopted for each tract within the boundaries of the district, and to assume the duties of the architectural control committee for each tract within the boundaries of the district and for other tracts as may be annexed from time to time, for the purpose of maintaining uniform standards of development within the district as adopted in the covenants, conditions, and restrictions, the board shall adopt the additional purpose by resolution entered in the minutes and the power of the district may be exercised thereafter.

The board may thereafter divest the district of the power to carry on activities in the same manner as it may acquire the power.

For the purposes of this section, "tract" means any parcel of land for which the county has authorized development.

SEC. 3. Section 61601.19 is added to the Government Code, to read:

61601.19. Notwithstanding Section 61600 and 61601, whenever the Board of Directors of the Ranch House Estates Community Services District determines by resolution that it is feasible, economically sound, and in the public interest for the district to exercise its power for the purpose of constructing, improving, maintaining, or operating facilities for the collection, treatment, and disposal of sewage and waste water of inhabitants inside its boundaries, the board may adopt the additional purposes by resolution entered in the minutes, and the powers of the district may be exercised therefor.

The board may thereafter divest the district of the power to carry on activities in the same manner as it may acquire the power.

SEC. 4. Section 61765.11 is added to the Government Code, to read:

61765.11. Notwithstanding Section 61765, in the Descanso

Community Water District, the water standby or availability charge shall not exceed forty dollars ($40) per year for each acre of land on which the charge is levied or forty dollars ($40) per year for a parcel less than one acre.

This section, applicable only to the Descanso Community Water District, is necessary because of the unique and special water management and financing problems in the area included within the district.

SEC. 5. The Legislature finds and declares that the Ranch House Estates Community Services District, the Tenaja Community Services District, Brooktrails Community Services District, and the Descanso Community Water District have special needs to exercise the powers set forth in this act. The Legislature further finds and declares that this need is not common to all districts formed under the Community Services District Law. It is, therefore, hereby declared that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the Constitution, and that the enactment of this act as a special law is necessary for the solution of problems existing in the Ranch House Estates Community Services District, the Tenaja Community Services District, the Brooktrails Community Services District, and the Descanso Community Water District.

CHAPTER 314

An act to amend Sections 71202 and 71203 of the Education Code, relating to community colleges.

[Approved by Governor July 14, 1986 Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds that:

(1) The proper handling, including treatment, storage, transportation, and disposal of hazardous substances and hazardous waste is an area of increasing public concern.

(2) There is an ever-increasing need for workers with knowledge of the proper handling of hazardous substances and wastes, including applicable regulations, surveillance, monitoring and cleanup procedures, and industrial hygiene methodologies in both the public and private sectors.

(3) Training in basic hazardous substances and wastes information and emergency response techniques is currently being provided by many California community colleges offering fire technology curriculums.

(4) Community colleges are the appropriate institution to expand the instruction of the proper handling of hazardous substances to

nonfire service personnel.

(b) In enacting this act, it is the intent of the Legislature that the establishment and maintenance of in-service training programs involving hazardous substances and wastes receive high priority.

SEC. 2. Section 71202 of the Education Code is amended to read:

71202. (a) For the purposes of this article, a qualified in-service training program is one which provides all of the following:

(1) Addresses one or more vocational education curriculum areas that are affected by changing technology and workplace skills, including, but not limited to, the following:

(A) Culinary arts and food service.

(B) Hazardous substances and wastes management.

(2) Provides for a local contribution to match state funds through financial support or in-kind services. For the purposes of this paragraph, local matching funds may include, but not be limited to, funds received from any of the following:

(b) For purposes of this section, the only item of approved expenditure attributable to the state appropriation for this article shall be the stipends for the teacher or counselor and the 10 percent administration expenses. Approvable costs shall not include reimbursements to private industry for facilities or employer services.

SEC. 3. Section 71203 of the Education Code is amended to read:

71203. In selecting proposals to receive in-service training grants under this article, the chancellor shall ensure that all of the following criteria are met:

(a) The maximum amount that an individual district receives within a 12-month period shall not exceed one hundred thousand dollars ($100,000), except that multicollege districts may qualify to receive within a 12-month period an amount equal to fifty thousand dollars ($50,000) multiplied times the number of colleges within the district.

(b) The proposals selected shall reflect the diverse makeup of geographical regions, district sizes, and vocational education program offerings of the community college districts. The chancellor shall ensure, to the extent local applications are submitted for consideration, that culinary arts and food service programs receive a reasonable share of the in-service training grants.

The chancellor shall ensure, to the extent local applications are submitted for consideration, that in-service training programs for

hazardous substances and wastes management receive a share of the in-service training grant funds available for purposes of Section 71200 in proportion to the demand for in-service training programs in hazardous substances and wastes management compared with the demand for other in-service training programs under that article.

(c) The proposals selected shall reflect areas of greatest need, taking into consideration the projected demand for skilled employees in particular occupational areas as well as the prior in-service training, coursework, and work experience of instructors and counselors in all vocational education curriculum areas who are eligible to participate in the program.

CHAPTER 315

An act to amend and renumber Section 52314.5 of, and to add Article 1.5 (commencing with Section 52335) to Chapter 9 of Part 28 of, the Education Code, relating to school attendance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 14, 1986 Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 52314.5 of the Education Code, as added by Chapter 1073 of the Statutes of 1984, is amended and renumbered to read:

52314.6. (a) The average daily attendance of pupils enrolled in a regional occupational center or program pursuant to paragraph (2) of subdivision (b) of Section 52314 shall not exceed the following amount:

(1) Divide the enrollment of pupils under the age of 16 years in the regional occupational center or program in the 1982–83 fiscal year by three.

(2) Multiply the amount computed pursuant to paragraph (1) by 0.25.

(b) Not later than January 30, 1986, the Department of Education shall recommend to the Legislature and to the Department of Finance a process by which school personnel can identify those pupils under the age of 16 years that are appropriately served by regional occupational centers and programs.

SEC. 2. Article 1.5 (commencing with Section 52335) is added to Chapter 9 of Part 28 of the Education Code, to read:

Article 1.5. Apportionment of Funds for Regional Occupational Centers

52335. Commencing with the 1986–87 fiscal year, funds for

regional occupational centers and programs shall be apportioned in accordance with this article.

For purposes of this article, "ROC/P" shall mean regional occupational center or program.

52335.1. From funds appropriated in the annual Budget Act for that purpose, the Superintendent of Public Instruction shall apportion funds for ROC/Ps according to the following priorities:

(a) Apportionments for necessary small ROC/Ps pursuant to Section 52324.6.

(b) Apportionments for ROC/P revenue limits pursuant to Section 52335.2.

52335.2. The Superintendent of Public Instruction shall calculate a revenue limit for each ROC/P in the following manner:

(a) Calculate a base revenue limit per unit of average attendance for the current fiscal year by increasing the ROC/P's base revenue limit per unit of average daily attendance computed pursuant to this subdivision for the prior fiscal year by the percentage inflation adjustment specified in the Budget Act for the current fiscal year.

For the 1986–87 fiscal year, the base revenue limit per unit of average daily attendance for the prior year shall be deemed to be the base revenue limit per unit of average daily attendance calculated pursuant to paragraph (1) of subdivision (a) of provision 2 of Item 6100-102-001 of the Budget Act of 1985.

(b) Calculate a revenue limit per unit of average daily attendance for program growth by increasing the revenue limit per unit of average daily attendance for program growth computed pursuant to this subdivision for the prior fiscal year by the percentage inflation adjustment specified in the Budget Act for the current fiscal year.

For the 1986–87 fiscal year, the revenue limit per unit of average daily attendance for program growth for the prior fiscal year shall be deemed to be the revenue limit per unit of average daily attendance for program growth computed pursuant to paragraph (2) of subdivision (a) of provision 2 of Item 6100-102-001 of the Budget Act of 1985.

(c) Multiply the amount computed pursuant to subdivision (a) by the lesser of the ROC/P's annual units of average daily attendance for the current fiscal year or the ROC/P's annual units of average daily attendance for the 1982–83 fiscal year.

(d) Subtract the ROC/P's annual units of average daily attendance for the 1982–83 fiscal year from the ROC/P's annual units of average daily attendance for the current fiscal year and multiply the difference by the amount computed pursuant to subdivision (b). If the product computed pursuant to this subdivision is negative, it shall be deemed to be zero.

(e) Except as provided in Section 52335.3, the Superintendent of Public Instruction shall apportion to the ROC/P the sum of the amounts computed pursuant to subdivisions (c) and (d).

(f) The average daily attendance used for purposes of this section shall not include the average daily attendance in schools receiving

funding pursuant to Section 52324.6.

52335.3. The Superintendent of Public Instruction shall deduct from the amount computed pursuant to subdivision (e) of Section 52335.2 for each ROC/P operated by a county office of education any local revenue that would otherwise be deemed restricted and not available for expenditure in the current fiscal year pursuant to subdivision (e) of Section 2558. Any local revenue so deducted shall be used by the county office for support of the ROC/P.

52335.4. The Superintendent of Public Instruction shall determine each ROC/P's pro rata share of funded growth average daily attendance based on the percentage allowable growth in average daily attendance funded in the Budget Act for each of the fiscal years 1982–83 through the current fiscal year. An ROC/P's pro rata share of funded growth average daily attendance in each fiscal year shall not include excess growth average daily attendance as determined by the Superintendent of Public Instruction, regardless of whether the excess growth was funded.

52335.5. In the event that the funds appropriated for purposes of this article are insufficient to fully fund the apportionments herein authorized, the Superintendent of Public Instruction shall reduce the amounts computed pursuant to Section 52335.2 for each ROC/P based on equal amounts per unit of average daily attendance, consistent with the following priorities:

(a) First priority shall be given to fully funding average daily attendance that is less than or equal to the 1982–83 fiscal year average daily attendance.

(b) Second priority shall be given to fully funding each ROC/P's pro rata share of funded growth average daily attendance for each succeeding fiscal year determined pursuant to Section 52335.4 plus funded growth average daily attendance for ROC/Ps that had below average rates of participation and for ROC/Ps that experienced annexation of service territory not previously included in an ROC/P.

(c) Third priority shall be given to funding current year annual average daily attendance that exceeds the sum of the average daily attendance specified in subdivisions (a) and (b).

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to implement the changes required by this act in the current fiscal year, it is necessary that this act take effect immediately.

CHAPTER 316

An act to add Section 12811.2 to the Public Utilities Code, relating to public utilities.

[Approved by Governor July 14, 1986. Filed with Secretary of State July 15, 1986.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature in enacting this act to enable municipal utility districts to provide effective financial relief to qualified needy customers who are temporarily unable to pay for essential public utility services furnished by the district. The Legislature finds and declares that the implementation of this act will fulfill essential public purposes and does not constitute a gift of public funds.

SEC. 2. Section 12811.2 is added to the Public Utilities Code, to read:

12811.2. (a) Notwithstanding any other provision of law, a district may establish a temporary relief program for assistance to needy customers of the district who are financially unable to pay in full bills for services furnished by the district within the normal period for payment thereof, and may expend funds, enter into contracts, and cooperate with and accept cooperation from any state or local public agency or private nonprofit organization in the implementation of such a program.

(b) As used in this section, "needy" means either of the following:

(2) A household with an income which meets guidelines for existing public assistance programs funded by the federal government.

CHAPTER 317

An act to amend Section 24343 of, and to add Sections 17133.5 and 24314 to, the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor July 14, 1986 Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 17133.5 is added to the Revenue and Taxation Code, to read:

17133.5. The following phrase (or its substantial equivalent) in other codes or statutes does not exempt the gain or loss from the sale or transfer of bonds from the provisions of this part:

"The issuance, transfer and interest income earned on any bonds issued by an agency (state or local) under this article (chapter, section, etc.) is exempt from taxation of every kind by any state or local entity."

SEC. 2. Section 24314 is added to the Revenue and Taxation Code, to read:

24314. The following phrase (or its substantial equivalent) in other codes or statutes does not exempt the gain or loss from the sale or transfer of bonds from the provisions of this part:

"The issuance, transfer and interest income earned on any bonds issued by an agency (state or local) under this article (chapter, section, etc.) is exempt from taxation of every kind by any state or local entity."

SEC. 3. Section 24343 of the Revenue and Taxation Code is amended to read:

24343. (a) There shall be allowed as a deduction all the ordinary and necessary expenses paid or incurred during the income year in carrying on any trade or business, including—

(1) A reasonable allowance for salaries or other compensation for personal services actually rendered, including, but not limited to, any payments, reimbursements, or contributions to employees for child care. For purposes of this section, "child care" means programs designed to provide or facilitate the provisions of care and nurture for children under the age of 15 while their parents or guardians are working or in training.

(2) Rentals or other payments required to be made as a condition to the continued use or possession, for purposes of the trade or business, of property to which the taxpayer has not taken or is not taking title or in which it has no equity.

(3) Traveling expenses (including amounts expended for meals and lodging other than amounts which are lavish or extravagant under the circumstances) while away from home in the pursuit of a trade or business.

(b) (1) No deduction shall be allowed under subdivision (a) for any payment made, directly or indirectly, to an official or employee of any government, or of any agency or instrumentality of any government, if the payment constitutes an illegal bribe or kickback or, if the payment is to an official or employee of a foreign government, the payment would be unlawful under the laws of the United States if such laws were applicable to such payment and to such official or employee. The burden of proof in respect of the issue, for the purposes of this paragraph, as to whether a payment

constitutes an illegal bribe or kickback (or would be unlawful under the laws of the United States) shall be upon the Franchise Tax Board to the same extent as it bears the burden of proof when the issue relates to fraud.

(2) No deduction shall be allowed under subdivision (a) for any payment (other than a payment described in paragraph (1)) made, directly or indirectly, to any person, if the payment constitutes an illegal bribe, illegal kickback, or other illegal payment under any law of the United States, or under any law of a state (but only if such state law is generally enforced), which subjects the payer to a criminal penalty or the loss of license or privilege to engage in a trade or business. For purposes of this paragraph, a kickback includes a payment in consideration of the referral of a client, patient, or customer. The burden of proof in respect of the issue, for purposes of this paragraph, as to whether a payment constitutes an illegal bribe, illegal kickback, or other illegal payment shall be upon the Franchise Tax Board to the same extent as it bears the burden of proof when the issue relates to fraud. However, a deduction shall not be disallowed under this paragraph, if, with respect to a payment described herein, the taxpayer in a court of competent jurisdiction is acquitted of making an illegal bribe, kickback, or payment.

(3) No deduction shall be allowed under subdivision (a) for any kickback, rebate, or bribe made by any provider of services, supplier, physician, or other person who furnishes items or services for which payment is or may be made under the Social Security Act, or in whole or in part out of federal funds under a state plan approved under such act, if such kickback, rebate, or bribe is made in connection with the furnishing of such items or services or the making or receipt of such payments. For purposes of this paragraph, a kickback includes a payment in consideration of the referral of a client, patient, or customer.

(c) No deduction shall be allowed under subdivision (a) for any contribution or gift which would be allowable as a deduction under Sections 24357, 24358, and 24359 were it not for the percentage limitations, or the requirements as to the time of payment, set forth in such sections.

(d) For purposes of this part, whenever the amount of capital contributions evidenced by a share of stock issued pursuant to Section 303(c) of the Federal National Mortgage Association Charter Act (12 U.S.C., Section 1718) exceeds the fair market value of the stock as of the issue date of such stock, the initial holder of the stock shall treat the excess as ordinary and necessary expenses paid or incurred during the income year in carrying on a trade or business.

(e) No deduction shall be allowed under subdivision (a) for any fine or similar penalty paid to a government for the violation of any law.

(f) If in a criminal proceeding a taxpayer is convicted of a violation of the antitrust laws, or its plea of guilty or nolo contendere to an indictment or information charging such a violation is entered

or accepted in such a proceeding, no deduction shall be allowed under subdivision (a) for two-thirds of any amount paid or incurred—

(1) On any judgment for damages entered against the taxpayer under Section 4 of the act entitled "An act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," approved October 15, 1914 (commonly known as the Clayton Act), on account of such violation or any related violation of the antitrust laws which occurred prior to the date of the final judgment of such conviction, or

(2) In settlement of any action brought under such Section 4 on account of such violation or related violation.

The preceding sentence shall not apply with respect to any conviction or plea before January 1, 1971, or to any conviction or plea on or after such date in a new trial following an appeal of a conviction before such date.

(g) (1) The deduction allowed by subdivision (a) shall include all the ordinary and necessary expenses (including, but not limited to, traveling expenses described in paragraph (2) of subdivision (a) and the cost of preparing testimony) paid or incurred during the income year in carrying on any trade or business—

(A) In direct connection with appearances before, submission of statements to, or sending communications to, the committees, or individual members, or Congress or of any legislative body of a state, a possession of the United States, or a political subdivision of any of the foregoing with respect to legislation or proposed legislation of direct interest to the taxpayer, or

(B) In direct connection with communication of information between the taxpayer and an organization of which it is a member with respect to legislation or proposed legislation of direct interest to the taxpayer and to that organization, and that portion of the dues so paid or incurred with respect to any organization of which the taxpayer is a member which is attributable to the expenses of the activities described in subparagraphs (A) and (B) carried on by that organization.

(2) The provisions of paragraph (1) shall not be construed as allowing the deduction of any amount paid or incurred (whether by way of contribution, gift, or otherwise)—

(A) For participation in, or intervention in, any political campaign on behalf of any candidate for public office, or

(B) In connection with any attempt to influence the general public, or segments thereof, with respect to legislative matters, elections, or referendums.

(h) In the case of a transfer of property to which Section 83 of the Internal Revenue Code applies or a cancellation of a restriction described in Section 83(d) of the Internal Revenue Code, there shall be allowed as a deduction under this section, to the corporation or bank for whom were performed the services in connection with which that property was transferred, an amount equal to the amount

included under subsection (a), (b), or (d) (2) of Section 83 of the Internal Revenue Code (as incorporated by Section 17081) in the gross income of the person who performed those services. The deduction shall be allowed for the income year of that corporation or bank in which or with which ends the taxable year in which that amount is included in the gross income of the person who performed those services.

SEC. 4. Sections 1 and 2 of this act do not constitute a change in, but are declaratory of, the existing law.

SEC. 5. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

amended to read:

58783. At the hearing, the director shall receive, in addition to other necessary or relevant matters, evidence upon the matters which are set forth in Article 7 (commencing with Section 58811).

SEC. 3. Section 58784 of the Food and Agricultural Code is amended to read:

58784. At any public hearing which is held in connection with the formulation or amendment of a marketing order or marketing agreement, the director shall present testimony with respect to the procedure used to develop the official producer or handler list, as the case may be.

CHAPTER 320

An act to amend Section 25129 of the Government Code, relating to counties.

[Approved by Governor July 14, 1986 Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 25129 of the Government Code is amended to read:

25129. After the code has been adopted all ordinances thereafter adopted pertaining to the subjects in the code shall be amendatory or revisory of the code. No section or subsection of the code shall be revised or amended by reference. The ordinance section or subsection revised or amended shall be adopted and published in the manner prescribed in Section 25124. Nothing in this section shall preclude repealing or rendering inoperative by reference any section or subsection if language in the ordinance fairly identifies the subject matter of the sections or subsections which would be repealed or rendered inoperative by the ordinance.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

CHAPTER 321

An act to amend Sections 25351, 25356.2, 25356.3, 25356.4, 25356.6 and 25356.8 of, and to add Section 25356.10 to, the Health and Safety Code, relating to hazardous substance.

[Approved by Governor July 14, 1986. Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 25351 of the Health and Safety Code is amended to read:

25351. (a) Consistent with the requirements of Section 114(c) of the federal act (42 U.S.C. Sec. 9614(c)), moneys in the state account may be expended by the director, upon appropriation by the Legislature, for all of the following purposes:

(1) The costs and expenses reasonably necessary for, and incidental to, the administration of this chapter by the department.

(2) The state share mandated pursuant to Section 104(c)(3) of the federal act (42 U.S.C. Sec. 9604(c)(3)).

(3) The purchase by the state, or by any local agency with the prior approval of the director, of hazardous substance response equipment and other preparations for response to a release of hazardous substances. However, all equipment shall be purchased in a cost-effective manner after consideration of the adequacy of existing equipment owned by the state or the local agency, and the availability of equipment owned by private contractors.

(4) For payment of all costs of removal and remedial action incurred by the state, or by any local agency with the approval of the director in response to a release or threatened release of a hazardous substance to the extent the costs are not reimbursed by the federal act.

(5) For payment of all costs of actions taken pursuant to subdivision (b) of Section 25358.3, to the extent that these costs are not paid by the federal act.

(6) All costs incurred in cooperation with the Agency for Toxic Substances and Disease Registry established pursuant to Section 104(i) of the federal act (42 U.S.C. Sec. 9604(i)) and all costs of health effects studies undertaken regarding specific sites or specific substances at specific sites. Funds appropriated for this purpose shall not exceed five hundred thousand dollars ($500,000) in any single fiscal year. However, these actions shall not duplicate reasonably available federal actions and studies.

(7) Repayment of the principal of, and interest on, bonds sold pursuant to Article 7.5 (commencing with Section 25385).

(8) The reasonable and necessary costs and expenses of the Hazardous Substance Cleanup Arbitration Panel created pursuant to Section 25356.2.

(b) The director shall expend federal funds in the state account consistent with the requirements specified in Section 114 of the federal act (42 U.S.C. Sec. 9614), upon appropriation by the Legislature, for the purposes for which they were provided to the state.

(c) Moneys in the state account shall not be expended to conduct removal or remedial actions if any significant portion of the hazardous substances to be removed or remedied originated from a source outside of the state.

(d) Moneys in the state account may be expended, upon appropriation by the Legislature, to support the Toxic Substance Enforcement program in the office of the Attorney General in carrying out the purposes of this chapter.

On or before October 1 of each year, the Attorney General shall report to the Legislature on the expenditure of any funds appropriated to the office of the Attorney General pursuant to this subdivision for the preceding fiscal year.

SEC. 1.5. Section 25356.2 of the Health and Safety Code is amended to read:

25356.2. (a) There is hereby created in the Office of the Secretary of Environmental Affairs a Hazardous Substance Cleanup Arbitration Panel.

(b) The panel shall apportion liability for the costs of removal and remedial actions in accordance with Sections 25356.3 and 25356.4. All meetings of the panel are exempt from Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of, and Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of, the Government Code.

(c) The panel shall be comprised of independent private arbitrators who have applied to the Office of the Secretary of Environmental Affairs for membership on the panel. Panel members shall have (1) relevant arbitration background and (2) expertise in engineering, expertise in the physical, biological, or health sciences, or other relevant experience and qualifications. Three arbitrators shall be selected from the panel to apportion liability for a single hazardous waste site. A majority of the arbitrators selected for a single site may apportion liability for the panel under this chapter.

(d) The arbitrators shall be selected for an individual hazardous waste site as follows:

(1) One arbitrator shall be selected by the department or by the regional water quality control board.

(2) One arbitrator shall be selected by the potentially responsible party, or a majority of the potentially responsible parties, who have submitted to binding arbitration by the panel.

(3) The two arbitrators selected pursuant to paragraphs (1) and (2) shall jointly select a third arbitrator.

SEC. 2. Section 25356.3 of the Health and Safety Code is amended to read:

25356.3. (a) The department or the regional water quality

control board shall serve a copy by mail of the draft remedial action plan upon all potentially responsible parties identified in the plan. Within 15 days after the issuance of a final remedial action plan, any potentially responsible parties with aggregate alleged liability in excess of 50 percent of the costs of removal and remedial action, as set forth in the statement of reasons issued pursuant to subdivision (d) of Section 25356.1, but excluding any costs which are the subject of an agreement under which any party agrees to assume liability for those costs, may convene an arbitration proceeding by agreeing to submit to binding arbitration by the panel. If an arbitration panel is convened pursuant to this section, any other potentially responsible party may elect to submit to binding arbitration by the panel. Any person submitting to arbitration under this section shall agree not to contest the fact of liability in the arbitration. The panel shall, and the parties are entitled to, address the proper apportionment of liability pursuant to subdivision (b). Submission to arbitration under this section is not an admission of liability for any other purpose or in any other proceeding, including a subsequent arbitration proceeding concerning the same site. The department or the regional water quality control board, whichever issued the final remedial action plan, shall participate in the arbitration proceedings to the same extent as the potentially responsible parties which have submitted to the arbitration.

(b) The panel shall apportion liability for the costs of all removal and remedial actions specified in the final remedial action plan.

(c) In panel proceedings, liability for the costs of removal and remedial actions shall be apportioned among all identifiable potentially responsible parties regardless of whether those parties are before the panel or have otherwise been released, or are immune, from liability pursuant to this chapter or any other provision of law. The panel shall apportion liability based on all of the following criteria:

(1) The amount of hazardous substance for which each party may be responsible.

(2) The degree of toxicity of the hazardous substance.

(3) The degree of involvement of the potentially responsible parties in the generation, transportation, treatment, or disposal of the hazardous substance.

(4) The degree of care exercised by the potentially responsible parties with respect to the hazardous substances, taking into account the characteristics of the substance.

(5) The degree of cooperation by the potentially responsible parties with federal, state, and local officials to prevent harm to human health and the environment.

(d) The panel may issue subpoenas and subpoenas duces tecum to require attendance of a person or the production of documents, at the request of any person identified as potentially responsible in the remedial action plan, on its own motion, or at the request of the department or the appropriate regional water quality control board.

A person requesting a subpoena duces tecum shall comply with Section 1985 of the Code of Civil Procedure. The jurisdiction of subpoenas and subpoenas duces tecum issued by the panel extends to all parts of the state. The subpoenas and subpoenas duces tecum shall be served pursuant to Sections 1987 and 1988 of the Code of Civil Procedure.

If the panel determines that a person is refusing to respond to a subpoena or subpoena duces tecum, or is guilty of a misconduct during the arbitration and negotiation process, the panel shall certify the facts to the superior court of the county in which the site is located. The court shall thereupon issue an order directing the person to appear before the court and show cause why the person should not be punished for contempt pursuant to Section 1209 of the Code of Civil Procedure. The order and a copy of the certified statement shall be served on the person, and thereafter the court shall have jurisdiction of the matter. The same proceedings shall be followed, the same penalties may be imposed, and the person charged may be purged of contempt in the same way as if the person has committed a contempt in the trial of a civil action before a superior court.

After receipt of documents pursuant to a subpoena duces tecum, any party may request the panel for a continuance for a reasonable period of time to review the documents prior to proceeding with the arbitration. The panel may grant a continuance for that purpose upon a showing of good cause.

(e) This chapter does not require a regional water quality control board or the State Water Resources Control Board to engage in arbitration pursuant to this section or Section 25356.2 for any enforcement action taken pursuant to Division 7 (commencing with Section 13000) of the Water Code.

(f) The costs of conducting the arbitration shall be borne by the potentially responsible parties submitting to the arbitration pursuant to subdivision (a), except that any filing fees, witness fees, costs of discovery, or any other costs necessarily incurred by one party shall not be shared by any other party.

SEC. 3. Section 25356.4 of the Health and Safety Code is amended to read:

25356.4. (a) After making an apportionment of liability among the potentially responsible parties pursuant to Section 25356.3, the panel shall prepare a draft arbitration decision which contains a statement of reasons supporting the apportionment and shall circulate the draft arbitration decision for at least 30 days for public comment. After review and consideration of any public comment, the panel shall issue the final arbitration decision within 30 days after the comment period.

(b) Each potentially responsible party whose liability has been apportioned by the panel is liable to the department or the regional water quality control board for its apportioned share of the costs of all removal and remedial actions at the site which is the subject of

the final remedial action plan issued pursuant to Section 25356.1. The department or the regional water quality control board and one or more potentially responsible parties may enter into a cleanup agreement which is consistent with the remedial action plan and which provides for the satisfaction of the liability of a potentially responsible party by the party's performance of specified removal or remedial actions at the site.

(c) The moneys in the state account or the Hazardous Substance Cleanup Fund may be expended, upon appropriation by the Legislature, to pay any share of those potentially responsible parties who did not submit to binding arbitration pursuant to Section 25356.3 or did not otherwise agree to pay the costs of the removal and remedial actions specified in the remedial action plan.

(d) The department or the regional water quality control board shall identify, and the Attorney General shall pursue recovery from, those potentially responsible parties who have not submitted to binding arbitration pursuant to Section 25356.3 or who have not discharged their obligations required by the final arbitration decision or the cleanup agreement.

(e) Advances from the state account, upon appropriation by the Legislature, shall be made available, where appropriate, to those responsible parties who are required by a cleanup agreement to perform specified removal or remedial actions pursuant to the remedial action plan. Moneys from the Hazardous Substance Cleanup Fund may be expended by the department, upon appropriation by the Legislature, to make advances, where appropriate, to responsible parties who are required by a cleanup agreement to perform specified removal or remedial actions pursuant to the remedial action plan, for the purposes specified in Section 25385.6.

SEC. 4. Section 25356.6 of the Health and Safety Code is amended to read:

25356.6. (a) Notwithstanding any other provision of state law or any local ordinance or regulation, except as provided in subdivision (b), to encourage the prompt and effective cleanup of hazardous substance release sites, a potentially responsible party has no additional civil liability to any governmental entity under state or local law, for any prior acts or omissions associated with the conditions addressed in the remedial action plan which is the subject of the arbitration decision, if the potentially responsible party has submitted to binding arbitration and has discharged its obligations under the arbitration decision, either by paying that party's apportioned share of the costs of all removal and remedial actions to the department or the regional water quality control board, or by performing the specified removal and remedial actions pursuant to a cleanup agreement. The release from liability specified in this section is conditioned on complete implementation of the remedial action plan, including, where appropriate, adequate sampling, testing, and maintenance of the site to which the remedial action

plan is applicable to ensure that the level of cleanup required is achieved and maintained. However, this section does not affect the liability of any person for costs recoverable under Section 25352, unless these costs are specifically addressed in the arbitration decision or cleanup agreement. Where these costs are not addressed in the arbitration decision or cleanup agreement, the liability for these costs shall be determined pursuant to the applicable sections of this chapter and may be apportioned among the potentially responsible parties pursuant to Sections 25356.3 and 25356.4.

(b) The department, the regional water quality control board, any party to the arbitration decision, or any party substantially affected by the arbitration decision may petition the panel to modify the apportionment of liability in an arbitration decision. Upon a showing of a material change in the facts known to the parties to the arbitration decision at the time it was issued, the panel shall modify the apportionment of liability specified in the arbitration decision, as appropriate, to reflect these changed facts. Upon a showing of a material change in the facts known to the department at the time it issued the final remedial action plan, or the discovery of new facts, the department or regional board shall modify the remedial action plan, as appropriate, to reflect new or additional facts. The arbitration panel shall then modify its arbitration decision to reflect any modification of the remedial action plan made by the department.

(c) This section does not affect the existing rights of any individual to recover civil damages or to obtain equitable relief against any person, including a potentially responsible party, for physical injury or property damage caused by the release of hazardous substances at the site covered by the arbitration decision or at any other location.

(d) A party who has submitted to arbitration pursuant to this article and whose liability has been apportioned by the arbitration panel in an arbitration proceeding may seek indemnity from any other person liable for the party's apportioned share of the removal and remedial actions taken at a site which is the subject of the arbitration decision, including any department, agency contractor, or any other governmental agency. A potentially responsible party who does not submit to binding arbitration pursuant to this article, but whose liability has been apportioned in the arbitration decision and is subsequently found liable under this chapter has no right to indemnification for any removal or remedial action which is the subject of the arbitration decision from any party to that arbitration decision who has discharged its obligation under the arbitration decision or the cleanup agreement.

SEC. 5. Section 25356.8 of the Health and Safety Code is amended to read:

25356.8. (a) Judicial review of the arbitration decision on the apportionment of liability is limited to a showing of fraud by a party to the arbitration proceeding or an abuse of discretion by the panel,

or both.

(b) Judicial review of a decision by the department or the regional water quality control board modifying the remedial action plan pursuant to subdivision (b) of Section 25356.6 shall be conducted pursuant to Section 1085 of the Code of Civil Procedure and the standard of review shall be the same as that specified in subdivision (f) of Section 25356.1.

SEC. 6. Section 25356.10 is added to the Health and Safety Code, to read:

25356.10. The Office of the Secretary of Environmental Affairs shall adopt, and may, from time to time, modify, revise, or repeal, regulations, consistent with this article, to implement the provisions of this article concerning arbitration proceedings. The regulations may include, but are not required to be limited to, all of the following:

(a) The method of initiating arbitration.

(b) The place of hearing, based upon the convenience of the parties.

(c) Procedures for the selection of neutral arbitrators.

(e) Procedure for conducting hearings.

(f) The providing of experts to assist the arbitrators if assistance is needed.

(g) Procedures for reimbursing the expenses which the panel incurs in conducting arbitrations.

CHAPTER 322

An act to amend Section 5350 of the Welfare and Institutions Code, relating to conservatorship.

[Approved by Governor July 14, 1986 Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 5350 of the Welfare and Institutions Code is amended to read:

5350. A conservator of the person, of the estate, or of the person and the estate may be appointed for any person who is gravely disabled as a result of mental disorder or impairment by chronic alcoholism.

The procedure for establishing, administering and terminating conservatorship under this chapter shall be the same as that provided in Division 4 (commencing with Section 1400) of the Probate Code, except as follows:

(a) A conservator may be appointed for a gravely disabled minor.

(b) Appointment of a conservator under this part shall be subject to the list of priorities in Section 1812 of the Probate Code unless the

officer providing conservatorship investigation recommends otherwise to the superior court.

(c) No conservatorship of the estate pursuant to this chapter shall be established if a conservatorship or guardianship of the estate exists under the Probate Code. When a gravely disabled person already has a guardian or conservator of the person appointed under the Probate Code, the proceedings under this chapter shall not terminate the prior proceedings but shall be concurrent with and superior thereto. The superior court may appoint the existing guardian or conservator of the person or another person as conservator of the person under this chapter.

(d) The person for whom conservatorship is sought shall have the right to demand a court or jury trial on the issue whether he is gravely disabled. Demand for court or jury trial shall be made within five days following the hearing on the conservatorship petition. If the proposed conservatee demands a court or jury trial before the date of the hearing as provided for in Section 5365, such demand shall constitute a waiver of the hearing.

Court or jury trial shall commence within 10 days of the date of the demand, except that the court shall continue the trial date for a period not to exceed 15 days upon the request of counsel for the proposed conservatee.

This right shall also apply in subsequent proceedings to reestablish conservatorship.

(e) Conservatorship investigation shall be conducted pursuant to this part and shall not be subject to Section 1826 or Chapter 2 (commencing with Section 1850) of Part 3 of Division 4 of the Probate Code.

(f) Notice of proceedings under this chapter shall be given to a guardian or conservator of the person or estate of the proposed conservatee appointed under the Probate Code.

(g) As otherwise provided in this chapter.

CHAPTER 323

An act to amend Section 5151 of the Welfare and Institutions Code, relating to mental health.

[Approved by Governor July 14, 1986 Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 5151 of the Welfare and Institutions Code is amended to read:

5151. If the facility for 72-hour treatment and evaluation admits the person, it may detain him or her for evaluation and treatment for a period not to exceed 72 hours. Saturdays, Sundays, and holidays

may be excluded from the 72-hour period if the Department of Mental Health certifies for each facility that evaluation and treatment services cannot reasonably be made available on those days. The certification by the department is subject to renewal every two years. The department shall adopt regulations defining criteria for determining whether a facility can reasonably be expected to make evaluation and treatment services available on Saturdays, Sundays, and holidays.

Prior to admitting a person to the facility for 72-hour treatment and evaluation pursuant to Section 5150, the professional person in charge of the facility or his or her designee shall assess the individual in person to determine the appropriateness of the involuntary detention.

If in the judgment of the professional person in charge of the facility providing evaluation and treatment, or his or her designee, the person can be properly served without being detained, he or she shall be provided evaluation, crisis intervention, or other inpatient or outpatient services on a voluntary basis.

Nothing in this section shall be interpreted to prevent a peace officer from delivering individuals to a designated facility for assessment under Section 5150. Furthermore, the preadmission assessment requirement of this section shall not be interpreted to require peace officers to perform any additional duties other than those specified in Sections 5150.1 and 5150.2.

SEC. 2. Reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), shall be made from the State Mandates Claims Fund.

CHAPTER 324

An act to amend Section 23186 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor July 14, 1986. Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 23186 of the Revenue and Taxation Code is amended to read:

23186. (a) Except as otherwise provided in this section, the rate of tax on banks and financial corporations shall be a percentage equal to the percentage of the total amount of net income, allocable to this state, of every corporation taxable under Section 23151 or subdivision

(c) of Section 23151.1 or paragraph (1) of subdivision (d) of Section 23151.1, as the case may be, other than public utilities as defined in the Public Utilities Act, for the next preceding calendar year or fiscal years ended during such calendar year, required to be paid to this state as franchise taxes according to or measured by such net income, and required to be paid to this state or its political subdivisions by such corporations as personal property taxes during the preceding calendar year or fiscal years ended in such calendar year; provided, however, that said rate of tax shall not exceed 13 percent. The percentage of the net income of every corporation taxable under Section 23151, or subdivision (c) of Section 23151.1, or paragraph (1) of subdivision (d) of Section 23151.1, as the case may be, other than public utilities as defined in the Public Utilities Act, required to be paid to this state or its political subdivisions in personal property taxes shall be determined by ascertaining the ratio which the total amount of such personal property taxes, less 9 percent thereof, bears to the total amount of net income of such corporations allocable to California, increased by the amount of such personal property taxes; provided, however, that if any such corporation sustains a net loss allocable to California the personal property taxes required to be paid by such corporation to this state or its political subdivisions during the preceding calendar year or fiscal year ended during such calendar year shall be considered for the purpose of determining such ratio only to the extent which such personal property taxes exceed such net loss allocable to California.

(b) The rate of tax on banks and financial corporations for income years ending in 1980, 1981, 1982, 1983, and 1984 shall be as follows:

(1)	1980	11.6 percent
(2)	1981	11.6 percent
(3)	1982	10.907 percent
(4)	1983	10.907 percent
(5)	1984	10.930 percent

(c) For income years ending in 1985 and thereafter, the rate of tax on banks and financial corporations shall be a percentage equal to the percentage of the total amount of net income, allocable to this state, of every corporation taxable under Article 2 (commencing with Section 23151) of this chapter, other than public utilities as defined in the Public Utilities Act, for the next preceding calendar year or fiscal years ended during such calendar year, required to be paid to this state as franchise taxes according to or measured by such net income, and required to be paid to this state or its political subdivisions by such corporations as personal property taxes and business license taxes during the preceding calendar year or fiscal years ended in such calendar year; provided, however, that said rate of tax shall not exceed 12 percent. The percentage of the net income of every corporation taxable under Article 2 (commencing with Section 23151) of this chapter, other than public utilities as defined

in the Public Utilities Act, required to be paid to this state or its political subdivisions in personal property taxes and business license taxes shall be determined by ascertaining the ratio which the total amount of such personal property taxes and business license taxes, less the rate prescribed in Section 23151, bears to the total amount of net income of such corporations allocable to California, increased by the amount of such personal property taxes and business license taxes; provided, however, that if any such corporation sustains a net loss allocable to California the personal property taxes and business license taxes required to be paid by such corporation to this state or its political subdivisions during the preceding calendar year or fiscal years ended during such calendar year shall be considered for the purpose of determining such ratio only to the extent which such personal property taxes and business license taxes exceed such net loss allocable to California. Total amounts of net income shall be determined without regard to deductions attributable to carryover or carryback of net operating losses (if any).

(d) For income years ending in 1982 and thereafter, for the purposes of subdivision (c), the total amount of personal property taxes and business license taxes required to be paid during the income year shall be based on a statistical sample by the Franchise Tax Board, consisting of all of the following:

(1) Every corporation with a net income determined without regard to deductions attributable to carryover or carryback of net operating losses (if any) of more than five million dollars ($5,000,000) for the income year.

(2) Every corporation required to pay one hundred thousand dollars ($100,000) or more of personal property tax or business license tax, or a combination thereof, during the income year.

(3) Two percent or more of all other corporations on a random basis.

For the purposes of this subdivision, "corporation" means a corporation taxable under Article 2 (commencing with Section 23151), other than public utilities as defined in the Public Utilities Act.

(e) For the purpose of verifying local business license taxes reported by corporations taxable under Article 2 (commencing with Section 23151), other than public utilities as defined in the Public Utilities Act, the Franchise Tax Board is authorized to receive source information listings directly from the cities as to the amount of business license taxes paid and the date of payment for each taxpayer subject to the business license tax, notwithstanding any city ordinance prohibiting that disclosure.

(f) If, after notice and demand by the Franchise Tax Board, a taxpayer declines or refuses to furnish the Franchise Tax Board with information regarding personal property taxes, business license taxes, or net income required to determine the rate of tax on banks and financial corporations as provided by this section, then in that event, unless the failure is due to reasonable cause, the Franchise Tax

Board shall disallow any deductions claimed by a taxpayer for the applicable period for personal property taxes and business license taxes and a penalty of five thousand dollars ($5,000) shall be assessed.

(g) The Franchise Tax Board shall redetermine the rate of tax for banks and corporations determined in 1979 (and 1980 if applicable), taking into account additional local tax billings prior to January 1, 1982, resulting from the final court decision not to uphold the application of the tax rate provided by Article XIII A of the Constitution to the 1978–79 unsecured roll. Any additional taxes resulting from the redetermined rate will be due and payable within 30 days of mailing of a notice and demand by the Franchise Tax Board. In making the redetermination, the Franchise Tax Board shall utilize the statistical sampling method provided in subdivision (e), except that business license taxes shall not be taken into account.

SEC. 2. Interest on refunds of taxes resulting from the rate applicable to income years ended in 1983 as provided by this act shall be allowed pursuant to Section 26080 of the Revenue and Taxation Code.

SEC. 3. In 1979, several amendments were made to Section 23186 of the Revenue and Taxation Code by Chapter 1150 of the Statutes of 1979. One of the amendments required the Franchise Tax Board to determine the annual bank tax rate with historical data rather than data for the current income year. The change was effective for income years ending in 1982 and thereafter. The change was not noticed by the Franchise Tax Board until 1985, and at that time, the rate for 1982 and 1983 had already been determined by the Franchise Tax Board using current, rather than historical data. The rates were determined after notice and public hearings were held in which the public and banking/financial industry were invited to inspect and question the data base.

The discovery by the Franchise Tax Board in 1985 was immediately communicated to all interested parties and the 1984 rate was thereafter determined by the Franchise Tax Board using historical rather than current data, in compliance with the 1979 amendment.

As the Franchise Tax Board had determined the 1983 rate using current (1983) data, the 1983 data was already available so it was used again to determine the 1984 rate. This rate, 10.930 percent is the rate reflected in Section 23186 of the Revenue and Taxation Code for income years ending in 1984, as provided by this act.

For income years ending in 1983, the available 1982 data (already used to determine the 1982 rate) would result in a rate for income years ending in 1983 of 10.907 percent, which is the rate reflected in Section 23186 of the Revenue and Taxation Code for income years ending in 1983, as provided by this act.

For income years ending in 1982, there is no available 1981 data because for that year the rate was statutorily set at 11.6 percent, so there was no need to collect data for that year to determine the rate. Collecting sufficient 1981 data to determine the 1982 bank tax rate

will be difficult, if not impossible to do. Some taxpayer records have been destroyed. Collection of the necessary data will be very burdensome on general corporations and will result in significant administration costs for the Franchise Tax Board. At best, only incomplete data could be used to determine the 1982 rate. As time passes, the difficulty of obtaining the necessary data increases rapidly. As an alternative to recomputing the 1982 bank tax rate based on incomplete data, the 1982 rate already determined by the Franchise Tax Board based on current data is within a reasonable historical experience projection range. That rate, 10.907 percent, is therefore the rate reflected in Section 23186 of the Revenue and Taxation Code for income years ending in 1982, as provided by this act.

The Legislature therefore finds and declares that because of the difficulty, if not impossibility, of collecting the data necessary to determine the 1982 bank tax rate with reasonable accuracy, and because of the resulting burden on general corporations and the administration expense of the Franchise Tax Board, it is in the best interest of the state to statutorily set the bank tax rate for income years ending in 1982 as 10.907 percent.

SEC. 4. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 325

An act to amend Section 27459 of the Vehicle Code, relating to vehicles.

[Approved by Governor July 14, 1986 Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

The snow-tread tires shall be of a type and design manufactured for use on snow as a

replacement for tire chains, shall be in good condition, and shall bear the marking of M-S, M/S, or other marking indicating that the tire was manufactured for use on snow, or, in the case of tires purchased before January 1, 1987, shall either bear the markings or, in the opinion of the inspecting officer, comply with the tread pattern requirements of Section 558.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 326

An act to amend Section 14087.21 of the Welfare and Institutions Code, relating to the medical assistance program, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 14, 1986. Filed with Secretary of State July 15, 1986.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature that access to services for severely handicapped children under the Robert W. Crown California Children's Services Act (Article 2 (commencing with Section 248) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code) as currently provided under Medi-Cal shall be protected during the pilot project status of the experimental Medi-Cal capitation programs, expanded choice of health care plans and county health systems.

No later than March 30, 1988, the California Medical Assistance Commission, in consultation with the State Department of Health Services shall conduct a study to determine the effect of including crippled children's services in capitation programs while continuing to ensure that crippled children in California are served appropriately.

SEC. 2. Section 14087.21 of the Welfare and Institutions Code is amended to read:

14087.21. Commencing November 1, 1984, reimbursement to children's hospitals shall be on a basis that reflects the relative severity of pediatric diagnostic case types. For the purposes of this section, "children's hospital" means those hospitals where 30 percent of the infants and children served by the single institution qualify for Medi-Cal payment systems, and the institution serves primarily children.

The commission shall report to the Legislature by March 30, 1989,

on its findings on the reimbursement methodology based on case mix adjustments under the provisions of this section.

This section shall remain in effect until November 1, 1989, and as of that date is repealed, unless a later enacted statute, which is chaptered before that date, changes or eliminates that date.

SEC. 3. (a) The California Medical Assistance Commission, in consultation with the State Department of Health Services, shall conduct a study to determine the effect of including crippled children's services-eligible conditions in Medi-Cal capitation programs. This study shall also assess the utilization of crippled children's services eligible under the Medi-Cal program in San Mateo County. The commission shall report to the Legislature on the results of the study on or before March 30, 1988.

(b) The study shall include, but not be limited to, all of the following:

(1) A review of the feasibility of applying the pediatric diagnostic case type reimbursement methodology, as set forth in Section 14087.21 of the Welfare and Institutions Code, for the purposes of including crippled children's services in capitation proposals.

(2) A review, evaluation, and report of the effects on crippled children and their families of the inclusion of crippled children's services-eligible conditions within the Santa Barbara Health Initiative and the San Mateo County Organized Health System.

(c) The study may include a review, evaluation, and report of other publicly funded programs which have elected to include or exclude crippled children's services-eligible conditions within Medi-Cal capitation projects.

SEC. 4. (a) Services in experimental Medi-Cal capitation programs, expanded choice health care plans, and county health systems for children having a crippled children's services-eligible condition shall be reimbursed under the currently existing state crippled children's services and crippled children's services/Medi-Cal payment systems until March 30, 1988, except for the pediatric reimbursement methodology as set forth in Section 2 of this act, when the California Medical Assistance Commission has reported the results of the study required by Section 3 of this act, and recommendations have been made to the Legislature with respect to the effect of the inclusion of crippled children's services-eligible conditions in Medi-Cal capitation programs.

(b) This section shall not apply to the Santa Barbara County Health Initiative, unless otherwise requested by the Santa Barbara County Health Initiative and approved by the State Department of Health Services.

(c) This section shall not apply to the San Mateo County Organized Health System unless otherwise requested by the San Mateo County Organized Health System and approved by the California Medical Assistance Commission.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Procedures for negotiating contracts to provide health care to Medi-Cal recipients on a capitated prepaid basis by July 1986, and the children's hospitals of the state will be adversely affected unless the effects of including or excluding crippled children's services in Medi-Cal eligibility conditions in pilot capitation proposals is quantitatively considered in negotiating contracts along with other factors included in this act.

The legislative body shall make a determination upon each assessment as described in the report or as determined at the hearing, and thereafter, by ordinance or resolution, shall determine and levy the assessment.

or proceeding to validate, attack, review, set aside, void, or annul an ordinance or resolution levying an assessment or modifying or amending an existing ordinance or resolution.

If an ordinance or resolution provides for an automatic adjustment in an assessment, and the automatic adjustment results in an increase in the amount of an assessment, any action or proceeding to attack, review, set aside, void, or annul the increase shall be commenced within 90 days of the effective date of the increase.

Any appeal from a final judgment in the action or proceeding brought pursuant to this section shall be filed within 30 days after entry of the judgment.

SEC. 2. Section 22651 of the Vehicle Code is amended to read:

22651. Any peace officer, as defined in Chapter 4.5 (commencing

with Section 830) of Title 3 of Part 2 of the Penal Code; or any regularly employed and salaried employee, who is engaged in directing traffic or enforcing parking laws and regulations, of a city or a county in which a vehicle is located may remove a vehicle from a highway located within the territorial limits in which the officer or employee may act under any of the following circumstances:

(c) When any vehicle is found upon a highway and a report has previously been made that the vehicle has been stolen or a complaint has been filed and a warrant thereon issued charging that the vehicle has been embezzled.

(d) When any vehicle is illegally parked so as to block the entrance to a private driveway and it is impractical to move the vehicle from in front of the driveway to another point on the highway.

(m) Wherever the use of the highway, or any portion thereof, is authorized by local authorities for a purpose other than the normal flow of traffic or for the movement of equipment, articles, or structures of unusual size, and the parking of any vehicle would prohibit or interfere with that use or movement, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by local authorities pursuant to the ordinance.

(n) Whenever any vehicle is parked or left standing where local authorities, by resolution or ordinance, have prohibited parking and have authorized the removal of vehicles. No vehicle may be removed unless signs are posted giving notice of the removal.

(o) When any vehicle is found upon a highway with a registration expiration date in excess of one year before the date it is found on the highway. Grant deeds conveying lots created by recorded tract maps shall be exempt from the user fee. Except as otherwise provided in subdivision (b), the fees shall be forwarded monthly by the county recorder to the county treasurer for deposit to the county survey monument preservation fund. Following the establishment of the fund, the board of supervisors may extinguish the fund if a finding is made by the board that the need for the fund no longer exists.

(b) Notwithstanding subdivision (a) or (c), if a city engineer of a city with a population of more than 1,500,000 persons conducts the survey pursuant to Section 27584, any user fees collected pursuant to subdivision (a) on and after January 1, 1987, with respect to any grant deed conveying real property located wholly within the city shall be transferred monthly by the county recorder to the city treasurer of the city to reimburse the city for the expenses incurred by the city engineer in conducting that survey.

(c) Notwithstanding Section 2231 of the Revenue and Taxation Code, and except as otherwise provided in subdivision (b), no funds collected by the county recorder for the survey monument preservation fund shall be transferred to, or deposited in, any other fund or used for any other purpose.

SEC. 2. The Legislature finds and declares that a general law cannot be made applicable and that a special statute applicable only to the City of Los Angeles is necessary within the meaning of Section 16 of Article IV of the California Constitution because the City of Los Angeles conducts the remonument surveys within its boundaries but current law precludes the city from receiving reimbursement for their costs from the County of Los Angeles.

The person or agency responsible for the mental health treatment of conservatees shall execute a written agreement or protocol with the conservatorship investigator and administrator for the provision of services to conservatees. The agreement or protocol shall specify the responsibilities of each person or agency who is a party to the agreement or protocol, and shall specify a procedure to resolve disputes or conflicts of interest between agencies or persons.

A notice to the buyer shall accompany the mailing, shipping, or providing of the substitute goods or services which informs the buyer of the substitution; describes fully how the substitute differs from the goods or services ordered, except that obvious nontechnical differences, such as color, need not be described; and discloses the buyer's right to reject the substitute goods or services and obtain a full refund of the amount paid, plus the cost of returning the substitute goods or services.

(b) For purposes of paragraphs (3) and (4) of subdivision (a), goods or services shall be considered of "equivalent or superior

quality" only if they are (1) substantially similar to the goods or services ordered, (2) fit for the usual purposes for which the goods or services ordered are used, and (3) normally offered by the vendor at a price equal to or greater than the price of the goods or services ordered.

SEC. 2. Section 35942 of the Food and Agricultural Code is repealed.

SEC. 3. No reimbursement is required by this act pursuant to

[Approved by Governor July 15, 1986 Filed with Secretary of State July 15, 1986]

The people of the State of California do enact as follows:

SECTION 1. In enacting this legislation, it is the purpose of the Legislature to eliminate various reports to the Legislature by the State Department of Health Services mandated on a regular basis. Many of these reports are obsolete in their focus and subject matter due to changes in the law or regulations, or a lack of program funding that prevented the programs from being implemented.

SEC. 2. Section 1277 of the Health and Safety Code is amended to read:

1277. (a) No license shall be issued by the state department unless it finds that the premises, the management, the bylaws, rules and regulations, the equipment, the staffing, both professional and nonprofessional, and the standards of care and services are adequate and appropriate, and that the health facility is operated in the manner required by this chapter and by the rules and regulations adopted hereunder.

However, this durational limitation upon waivers shall not apply to active candidates for a doctoral degree in social work, social welfare, or social science, who are enrolled at an accredited university, college, or professional school, but these limitations shall apply following completion of that training. A waiver pursuant to this subdivision shall be granted only to the extent necessary to qualify for licensure, except that personnel recruited for employment from outside this state and whose experience is sufficient to gain admission to a licensing examination shall nevertheless have one year from the date of their employment in California to become licensed, at which time licensure shall have been obtained or the employment shall be terminated, provided that the employee shall take the licensure examination at the earliest possible date after the date of his or her employment, and if the employee does not pass the examination at that time, he or she shall have a second opportunity to pass the examination, subject to the one-year limit.

(c) A special permit shall be issued by the state department when it finds that the staff, both professional and nonprofessional, and the standards of care and services are adequate and appropriate, and that the special services unit is operated in the manner required in this chapter and by the rules and regulations adopted hereunder.

In no event, shall the number of bills not processed for payment within 30 days of receipt exceed 9 percent of the total bills inventory.

(b) Contracts awarded under this section shall be awarded on a bid basis, and before entering into any contract, the director shall publish notice soliciting bids.

The people of the State of California do enact as follows:

SECTION 1. Section 4461 of the Vehicle Code is amended to read:

4461. (a) No person shall lend any certificate of ownership, registration card, license plate, special plate, or permit issued to him or her if the person desiring to borrow it would not be entitled to its use, nor shall any person knowingly permit its use by one not entitled to it.

For purposes of this subdivision, "disabled person placard" means a placard issued pursuant to Section 22511.5 or 22511.9.

(c) This section shall become inoperative on July 1, 1987, and, as of January 1, 1988, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1988, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 2. Section 4461 is added to the Vehicle Code, to read:

4461. (a) No person shall lend any certificate of ownership, registration card, license plate, special plate, or permit issued to him or her if the person desiring to borrow it would not be entitled to its use, nor shall any person knowingly permit its use by one not entitled to it.

(b) No person shall lend any disabled person placard issued to him or her, nor shall any person knowingly permit its use by one not entitled to it. A disabled person placard holder may permit another person to use the placard for the purpose of transporting the disabled person. A violation of this subdivision is a misdemeanor.

(e) This section shall become operative on July 1, 1987.

SEC. 3. Section 22511.5 of the Vehicle Code is amended to read:

22511.5. (a) A disabled person is any of the following:

(1) Any person who has lost, or has lost the use of, one or more lower extremities or both hands, or who has significant limitation in the use of lower extremities, or who has a diagnosed disease or disorder which substantially impairs or interferes with mobility, or who is so severely disabled as to be unable to move without the aid of an assistant device.

(2) Any person who is blind to the extent that the person's central visual acuity does not exceed 20/200 in the better eye, with corrective lenses, as measured by the Snellen test, or visual acuity that is greater than 20/200, but with a limitation in the field of vision such that the widest diameter of the visual field subtends an angle not greater than 20 degrees.

(3) Any person who suffers from lung disease to the extent that the person's forced (respiratory) expiratory volume for one second when measured by spirometry is less than one liter or the person's arterial oxygen tension (pO_2) is less than 60 mm/Hg on room air at rest.

(4) Any person who is impaired by cardiovascular disease to the extent that the person's functional limitations are classified in severity as class III or class IV according to standards accepted by the American Heart Association.

(b) A disabled person shall be allowed to park for unlimited periods in a restricted zone described in subdivision (e) of Section 21458. A disabled person shall be allowed to park for unlimited periods in parking zones restricted as to the length of time parking is permitted as indicated by a sign erected pursuant to a local ordinance. A disabled person shall be allowed to park in any metered parking space without being required to pay any parking meter fees. This section does not apply to those zones in which the stopping, parking, or standing of all vehicles is prohibited absolutely by state law or local ordinance or which are reserved for special types of vehicles.

(c) As a condition to this privilege, the vehicle shall display a distinguishing license plate which shall be issued for a vehicle registered to the disabled person, or a vehicle which is not registered to the disabled person, but which is used primarily to transport a disabled person and which would otherwise qualify for a distinguishing license plate if the vehicle were registered to the disabled person. The distinguishing license plate shall be issued without additional fees by the Department of Motor Vehicles pursuant to procedures adopted by the department.

(d) Any disabled person may also apply to the Department of

Motor Vehicles for the issuance of a distinguishing placard. The placard may be used in lieu of the distinguishing license plate for parking purposes described in subdivision (b) when displayed on the dashboard of a vehicle. It is the intent of the Legislature to hereby encourage the use of these distinguishing placards which provide law enforcement officers with a more readily recognizable symbol for distinguishing vehicles qualified for the parking privilege. The placard shall be the size and color determined by the Department of Motor Vehicles.

The Department of Motor Vehicles may establish procedures for the issuance and renewal of the placards. The placards shall have a fixed expiration date of June 30 every two years. Whenever any application for a placard is submitted to the Department of Motor Vehicles on or after January 1 of the year of expiration, the fee shall be for the current and subsequent renewal period. The first renewal of placards issued between July 1, 1985, and December 31, 1986, shall be on or before June 30, 1987.

The fee for an original application or renewal application shall be six dollars ($6).

As used in this section, "year" means the period between the inclusive dates of July 1 through June 30.

No disabled person is eligible for more than one placard at any time. Organizations and agencies involved in the transportation of disabled persons may apply for a placard for each vehicle used for the purpose of transporting disabled persons.

(e) The Department of Motor Vehicles shall issue new placards to replace placards issued prior to July 1, 1985. The new placards shall be issued as soon as possible on or after July 1, 1985. All placards issued prior to July 1, 1985, shall expire on October 1, 1985. The Department of Motor Vehicles may charge a fee sufficient to cover its actual costs for issuance of substitute placards.

(f) Prior to issuing a disabled person a distinguishing license plate or placard, the Department of Motor Vehicles may require an applicant to submit a certificate signed by a physician or surgeon substantiating the disability. However, the disability of a person who has lost, or has lost the use of, one or more lower extremities or both hands, or who has significant limitation in the use of lower extremities, may also be certified by a licensed chiropractor. The blindness of any person applying shall be certified by a licensed physician or surgeon who specializes in diseases of the eye or a licensed optometrist.

(g) A person who is temporarily disabled for a period of less than one year may apply for a placard as prescribed in subdivision (d).

(h) A disabled person shall be allowed to park a vehicle displaying a distinguishing disabled person license plate or placard issued by a foreign jurisdiction with the same parking privileges authorized in this code as a vehicle issued a distinguishing disabled person license plate or displaying a placard issued pursuant to subdivision (d) by the Department of Motor Vehicles.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 353

An act to amend Section 995.3 of, to add and repeal Article 4.5 (commencing with Section 53296) of Chapter 2 of Part 1 of Division 2 of Title 5 of, and to repeal and add Sections 10548 and 19683 of, the Government Code, relating to public employees.

[Approved by Governor July 15, 1986 Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that state and local public employees throughout the state should feel that they have a personal investment in the integrity of the state and of the workplace.

The Legislature further finds and declares that in some instances public employees are made to feel that they will betray supervisors and lose benefits if they speak out against violations of public laws, rules, or regulations, gross mismanagement or a significant waste of public funds, abuse of authority, and substantial and specific danger to the public health and safety. Threats, coercion, and unfair employment practices are sometimes perpetrated upon public employees by management and supervisory personnel in order to either conceal or to discourage disclosure of violations of public laws, rules, or regulations, gross mismanagement or a significant waste of public funds, abuse of authority, or a substantial and specific danger to the public health and safety. Thus, protection must be provided to public employees who speak out against these practices in the workplace.

SEC. 2. Section 995.3 of the Government Code is amended to read:

995.3. (a) If a state employee provides his or her own defense

against an action brought for an alleged violation of Section 10543, and if it is established that no violation of Section 10543 occurred, the public entity shall reimburse the employee for any costs incurred in the defense.

(b) A public entity which does provide for the defense of a state employee charged with a violation of Section 10543 shall reserve all rights to be reimbursed for any costs incurred in that defense. If a state employee is found to have violated Section 10543, he or she is liable for all defense costs and shall reimburse the public entity for those costs.

SEC. 3. Section 10548 of the Government Code is repealed.

SEC. 4. Section 10548 is added to the Government Code, to read:

10548. (a) A state employee or applicant for state employment who files a written complaint with his or her supervisor, manager, or the appointing power alleging actual or attempted acts of reprisal, retaliation, threats, coercion, or similar improper acts prohibited by Section 10543, may also file a copy of the written complaint with the State Personnel Board, together with a sworn statement that the contents of the written complaint are true, or are believed by the affiant to be true, under penalty of perjury. The complaint filed with the board, shall be filed within 12 months of the most recent act of reprisal complained about.

(b) Any person who intentionally engages in acts of reprisal, retaliation, threats, coercion, or similar acts against a state employee or applicant for state employment for having disclosed improper governmental activities, is subject to a fine not to exceed ten thousand dollars ($10,000), and imprisonment in the county jail for up to a period of one year. Any state civil service employee who intentionally engages in that conduct shall be disciplined by adverse action as provided by Section 19572. If no adverse action is instituted by the appointing power, the State Personnel Board shall invoke adverse action as provided in Section 19583.5.

(c) In addition to all other penalties provided by law, any person who intentionally engages in acts of reprisal, retaliation, threats, coercion, or similar acts against a state employee or applicant for state employment for having disclosed improper governmental activities shall be liable in an action for damages brought against him or her by the injured party. Punitive damages may be awarded by the court where the acts of the offending party are proven to be malicious. Where liability has been established, the injured party shall also be entitled to reasonable attorney's fees as provided by law. However, any action for damages shall not be available to the injured party unless the injured party has first filed a complaint with the State Personnel Board pursuant to subdivision (a) of this section, and the board has failed to reach a decision regarding any hearing conducted pursuant to Section 19683.

(d) This section is not intended to prevent an appointing power, manager, or supervisor from taking, directing others to take, recommending, or approving any personnel action or from taking or

failing to take a personnel action with respect to any state employee or applicant for state employment if the appointing power, manager, or supervisor reasonably believes any action or inaction is justified on the basis of evidence separate and apart from the fact that the person has disclosed improper governmental activities as defined in subdivision (b) of Section 10542.

SEC. 5. Section 19683 of the Government Code is repealed.

SEC. 6. Section 19683 is added to the Government Code, to read:

19683. (a) The State Personnel Board shall initiate an investigation of a written complaint of reprisal or retaliation as prohibited by Section 10543 within 10 working days of its submission. The executive officer shall complete findings of the investigation within 60 working days thereafter, and shall provide a copy of the investigation report to the complaining state employee or applicant for state employment and to the appropriate supervisor, manager, or appointing authority.

(b) If the findings of the executive officer set forth acts of alleged misconduct by the supervisor, manager, or appointing power, the supervisor, manager, or appointing power may request a hearing before the State Personnel Board regarding the findings of the executive officer. The request for hearing and any subsequent determination by the board shall be made in accordance with the board's normal rules governing appeals, hearings, investigations, and disciplinary proceedings.

(c) If, after the hearing, the State Personnel Board determines that a violation of Section 10543 occurred, or if no hearing is requested and the findings of the executive officer conclude that improper activity has occurred, the board may order any appropriate relief, including, but not limited to, reinstatement, backpay, restoration of lost service credit, if appropriate, and the expungement of any adverse records of the state employee or applicant for state employment who was the subject of the alleged acts of misconduct prohibited by Section 10543.

(d) Whenever the board determines that a manager or supervisor has violated Section 10543, it shall cause an entry to that effect to be made in the manager's or supervisor's official personnel records. Adverse action shall also be invoked by the appointing power against the offending manager or supervisor in accordance with the provisions of Sections 10548 and 19572.

(e) Notwithstanding Section 10548, any state officer or employee filing a complaint of reprisal or retaliation pursuant to subdivision (a) also shall have previously filed a complaint of improper governmental activity with the Joint Legislative Audit Committee, pursuant to Section 10547.

(f) In order for the Governor and the Legislature to determine the need to continue or modify state personnel procedures as they relate to the investigation of reprisals or retaliation for the disclosure of information by public employees, the State Personnel Board shall, on June 30, 1987, and annually thereafter, submit a report to the

Governor and the Legislature regarding complaints filed, hearings held, and legal actions taken pursuant to this section.

SEC. 7. Article 4.5 (commencing with Section 53296) is added to Chapter 2 of Part 1 of Division 2 of Title 5 of the Government Code, to read:

(b) Prior to filing a written complaint pursuant to this article, the employee shall first make a good faith effort to exhaust all available administrative remedies. (b) This article is not intended to prevent a local agency from taking, directing others to take, recommending, or approving any personnel action with respect to any employee or applicant for employment if the local agency reasonably believes that the action or inaction is justified on the basis of separate evidence which shows any of the following:

(1) The employee's complaint has disclosed information that he or she knows to be false or has disclosed information without regard for the truth or falsity thereof.

(2) The employee's complaint has disclosed information from records which are closed to public inspection pursuant to law.

Punitive damages may be awarded by the court where the offending party has acted with malice. Where liability has been established, the injured employee shall also be entitled to reasonable attorney's fees as provided by law. In no way, shall the provisions of this article establish any liability for punitive damages or any new cause of action against the local public entity other than liabilities contained in existing law.

53299. (a) In order for the Governor and the Legislature to determine the need to continue or modify local agency personnel procedures as they relate to disclosure of information by public employees, the League of California Cities in consultation with the County Supervisors Association of California, may submit on June 30, 1987, and annually thereafter, a report to the Governor and the Legislature regarding complaints filed, hearings held, and legal actions taken pursuant to this section.

(b) This article shall remain in effect only until January 1, 1990, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1990, deletes or extends that date.

SEC. 8. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

The person in charge of any secure detention facility under the jurisdiction of the Department of Corrections or the Youth Authority shall release the name of, and any descriptive information about, any person who has escaped from custody to other law enforcement agencies or to other persons if the release of the information would be necessary to assist in recapturing the person or would be necessary to protect the public from substantial physical harm.

The hearing shall be held within 20 days of mailing a written notice to the association.

However, a guarantor shall not be included within the meaning of "obligor" if, in connection with a loan the association has determined, in good faith, that the primary obligor has qualified for the loan irrespective of the existence of the guarantor. Research indicates that at schools where pupil achievement is higher than might be expected, principals provide strong leadership and support. Teachers at these schools report that their principals facilitate innovation, support teachers in efforts to promote new ideas, and assist staff to acquire needed skills and materials. Other studies show that the principal is the most effective agent for bringing about educational improvement.

The Legislature further recognizes that although principal leadership is essential to effective instruction, research shows that many principals are neither prepared nor encouraged to be educational leaders. According to principals and others, administrator training does not always match responsibilities of the job, and opportunities for continuing development are inadequate.

The Legislature, by the provisions of this article, intends to provide site and central district administrators ongoing opportunities to improve their management and leadership skills. The Legislature intends that administrator support and development activities funded by this article will result in direct improvements in services to California public school pupils. The Legislature further intends that current funding for duplicative educational programs be redirected to fund the provisions of this article.

It is also the intention of the Legislature to enhance the desirability of teaching as a profession by promoting a school environment that facilitates a constructive working relationship between teachers and administrators.

SEC. 2. Section 44683 of the Education Code is amended to read:

44683. (a) The three-year plan developed pursuant to paragraph (1) of subdivision (b) of Section 44682 shall address, but need not be limited to, objectives identified pursuant to Sections 44670.4, 52014, and 52015, and the capacity of site and central district administrators to provide leadership necessary to do the following:

(1) Improve instructional, management, human development, and counseling skills.

(2) Ensure that curricula, instruction, and materials are keyed to the educational needs of each pupil, with particular emphasis on pupils who have not achieved proficiency in basic reading, writing, and computational skills, limited and non-English speaking pupils, disadvantaged pupils, and pupils with exceptional abilities or needs.

(3) Develop curricula and instructional materials in a wide variety of areas such as arts and humanities and physical, natural, and social sciences.

(4) Promote, facilitate, and ensure active participation of the school staff in the school decisionmaking process, and collaboration among the school staff, and among the staff and members of the school community, in the educational and administrative planning, implementing, and evaluating of the school program.

(5) Improve the school and classroom environment, including relationships between and among pupils, school personnel, and community members, including parents.

(6) Make available followup activities to assist participating individuals in using newly acquired skills on the job.

(b) Each three-year plan shall describe the following:

(1) General staff development objectives and steps necessary to achieve the objectives in subdivision (a), including intended outcomes.

(2) A proposed budget.

(3) Procedures for ongoing evaluation and modification of training activities, including evaluation on a continuing basis by participating administrators and outside personnel as necessary.

(c) Administrator training and evaluation programs shall be designed and implemented under the direction of participating school and district administrators, including the district administrators or administrators responsible for supervision of curriculum and instruction, and in cooperation with teacher training institutions. The programs shall allow for diversity in development activities, including, but not limited to, small groups, self-directed learning, and systematic observation during visits to other schools.

The district administrator or administrators responsible for curriculum and instruction, or other central district administrators shall be included as active participants in one or more staff

development activities pursuant to this article whenever appropriate.

The amendments made to Section 44681 and to paragraph (4) of subdivision (a) of this section by the Statutes of 1986 shall be applicable only to three-year plans developed on or after January 1, 1987.

An order made pursuant to this section shall not prejudice the rights of the parties or children with respect to any subsequent order which may be made. Any such order may be modified or revoked at any time except as to any amount that may have accrued prior to the date of filing of the notice of motion or order to show cause to modify or revoke.

(b) Notwithstanding any other provision of law, orders for child support entered pursuant to this section remain in full force and effect until revoked by the court or until the order terminates by operation of law pursuant to Sections 196, 196.5, and 4700 of the Civil Code, notwithstanding that the proceeding has not been brought to trial within the time limits specified in Chapter 1.5 (commencing with Section 583.110) of Title 8 of Part 2 of the Code of Civil Procedure. However, such an order is not enforceable during any period in which the parties have reconciled and are living together, unless the order specifies otherwise.

SEC. 2. Section 583.161 is added to the Code of Civil Procedure, to read:

583.161. No petition filed pursuant to Section 4503 of the Civil Code shall be dismissed pursuant to this chapter if an order for child support has been issued in connection with the proceeding and the order has not been revoked by the court or has not terminated pursuant to Sections 196, 196.5, and 4700 of the Civil Code.

CHAPTER 367

[Approved by Governor July 15, 1986 Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 653w of the Penal Code is amended to read:

653w. A person is guilty of failure to disclose the origin of a recording when, for commercial advantage or private financial gain, he or she knowingly advertises or offers for sale or resale, or sells or resells, or rents, or possesses for these purposes, any recording, the outside cover box or jacket of which does not clearly and conspicuously disclose the actual true name and address of the manufacturer thereof and the name of the actual author, artist, performer, producer, programmer, or group. This section does not require the original manufacturer or authorized licensees of software producers to disclose the contributing authors or programmers.

As used in this section, "recording" means any tangible medium upon which information, sounds, or images are recorded or

otherwise stored, including any phonograph record, disc, tape, audio or video cassette, wire, film, or other medium on which information, sounds, or images are recorded or otherwise stored.

Failure to disclose the origin of a recording is a misdemeanor punishable by imprisonment in the county jail not exceeding six months, or by a fine not to exceed five thousand dollars ($5,000).

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 368

An act to amend Section 8560 of, and to add Section 8568.5 to, the Fish and Game Code, relating to marine resources, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) Increased access to the swordfish fishery will benefit the economy and availability of this important food.

(b) The decline and collapse of the domestic tuna harvesting and processing industry in California and its relocation to foreign ports and plants has been estimated to have had a negative economic impact of 1.3 billion dollars ($1,300,000,000) on the national economy and has increased the deficit in the balance of trade by nearly 60 million dollars ($60,000,000) in the four years of 1980 to 1984, which has increased in 1985.

(c) Some remaining tuna fishermen operating from California have fished off Mexico under permits from Mexico since it imposed a 200-mile economic and fisheries zone and after negotiating access to Mexican ports and bays. These permits are no longer economically available through causes beyond the control of the fishermen.

(d) The economy of this state would substantially benefit from retaining the operation of deep sea fishing vessels from our ports, promoting the resurrection of California-based commercial fish harvesting and processing industries.

(e) Access to the restricted and limited swordfish fishery by displaced tuna fishermen is an economically viable alternative to alleviate and, possibly, reverse the loss of their valuable experience from California, with close regulation to prevent overharvest of the

shark fishery with which the swordfish fishery is closely associated.

SEC. 2. Section 8560 of the Fish and Game Code is amended to read:

8560. The Legislature finds and declares as follows:

(a) The drift gill net shark fishery is expanding at a rapid rate.

(b) The principal species taken by the fishery are long-lived and have a low rate of reproduction.

(c) The drift gill net shark fishery affects the important swordfish and marlin fisheries.

Therefore, the department shall study the drift gill net shark fishery for biological and fishery management purposes and shall prepare a report on the status of the thresher shark and swordfish resources off California and on the effects of the fishery on other resources and submit this report to the Legislature on or before January 1, 1989.

SEC. 2.5. Section 8560 of the Fish and Game Code is amended to read:

8560. The Legislature finds and declares as follows:

(a) The drift gill net shark fishery is expanding at a rapid rate.

(b) The principal species taken by the fishery are long-lived and have a low rate of reproduction.

(c) The drift gill net shark fishery affects the important swordfish and marlin fisheries.

(d) The swordfish resource in both California waters and Pacificwide is in a healthy condition.

Therefore, the department shall study the drift gill net shark fishery for biological and fishery management purposes and shall prepare a report on the status of the thresher shark and swordfish resources off California and on the effects of the fishery on other resources and submit this report to the Legislature on or before January 1, 1989.

SEC. 3. Section 8568.5 is added to the Fish and Game Code, to read:

8568.5. (a) Notwithstanding Sections 8568, 8569, and 8570, a drift gill net shark and swordfish permit may also be issued to a person meeting all of the following requirements:

(1) Possession of a California commercial fishing license for at least 15 years.

(2) Possession of a general gill net permit issued under Section 8681.

(3) Previously possessed a license from the Republic of Mexico permitting fishing for tuna in Mexican waters for at least two seasons prior to the 1985 calendar year.

(4) Landed tuna from the vessel used in Mexican waters which was owned by that person in at least two seasons prior to the 1985 calendar year.

(5) Ownership of a shark and swordfish gill net of at least 14-inch mesh and reel of a value of at least twenty-five thousand dollars ($25,000).

(6) Ownership or an ownership interest in a vessel suitable to take shark or swordfish with drift gill nets.

(b) Evidence satisfactory to the department to show proof of qualifications, including copies of the Mexican license issued for at least two seasons prior to 1985, shall be submitted with the application for a permit under this section, except that the applicant may satisfy the requirements of paragraphs (5) and (6) of subdivision (a) within six months after his or her application for a permit is received by the department. After satisfaction of those requirements, the department shall issue the permit.

(c) Applications for a permit shall be delivered to the headquarters office of the department in Sacramento, or mailed with a postmark, within 10 days, exclusive of Saturday, Sunday, or holidays, after the effective date of this section as added in the 1985–86 Regular Session of the Legislature.

(d) On and after seven months after that effective date of this section, the department shall issue no additional permits under this section.

(e) Section 8101 does not apply to any permit authorized to be issued under this section.

(f) A permit may be reissued only to the person who was originally issued the permit pursuant to this section and who continues to meet the requirements of a prior permittee pursuant to subdivision (a) of Section 8568 or who becomes entitled to the permit pursuant to subdivisions (b) and (c) of Section 8102 and in the immediately following permit year meets the requirements of a prior permittee pursuant to subdivision (a) of Section 8568.

(g) Notwithstanding the seasons specified in subdivisions (a), (b), and (c) of Section 8575, a permittee issued a permit under this section shall not use drift gill nets to take shark or swordfish between May 1 and May 31 within 75 nautical miles from the mainland coastline. Except as expressly provided in this section, a permittee under this section shall otherwise comply with the requirements of this article.

SEC. 4. Section 2.5 of this bill incorporates amendments to Section 8560 of the Fish and Game Code proposed by both this bill and AB 2914. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1987, but this bill becomes operative first, (2) each bill amends Section 8560 of the Fish and Game Code, and (3) this bill is enacted after AB 2914, in which case Section 8560 of the Fish and Game Code, as amended by Section 2 of this bill, shall remain operative only until the operative date of AB 2914, at which time Section 2.5 of this bill shall become operative.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty

for a crime or infraction, or eliminates a crime or infraction.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the provisions of this act to become effective for as much of the shark and swordfish season beginning on May 1, 1986, as possible, it is necessary that this act take effect immediately.

CHAPTER 369

An act to amend Sections 22238 and 22724 of, to add Section 22204.6 to, the Education Code, and to amend Section 20215 of the Government Code, relating to public retirement systems.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 22204.6 is added to the Education Code, to read:

22204.6. Due to an increase in the demand for retirement counseling services, the system, notwithstanding any other provision of law, may contract with a county superintendent or other employing agency to provide retirement counseling, employing retired public employees on a part-time basis for that purpose, unless and until the study required by subdivision (b) of Section 7 of Chapter 1532 of the Statutes of 1985 recommends against the employment of retired public employees for these purposes. This authorization is subject to the availability of funds appropriated for that purpose in the annual Budget Act.

SEC. 2. Section 22238 of the Education Code, as amended by Chapter 69 of the Statutes of 1986, is amended to read:

22238. Notwithstanding any other provision of law, the board may, pursuant to Section 22222 and in conformance with its fiduciary duty as set forth in Section 22225.5, enter into correspondent agreements with private lending institutions in this state to utilize the retirement fund to assist system members and retirants, through financing, to obtain homes in this state.

The terms and conditions of the correspondent agreements shall address all of the following:

(a) That home loans be made available to currently employed members and retirants for the purchase of single-family dwellings, single-family cooperative apartments, and single-family condominiums.

(b) That the private lending institution shall originate and service these home loans.

(c) That the recipients of the loans occupy the homes as their permanent residences pursuant to rules and regulations adopted by the board or as these terms are defined in the correspondent agreements.

(d) That home loans shall be available only for the purchase of homes in this state.

(e) That the amount and length of the loans shall include terms and conditions that set a loan to value ratio of a maximum of 95 percent for the first loan, and 80 percent for each additional loan. The portion of any loan exceeding 80 percent of value shall be insured by an admitted mortgage guaranty insurer conforming to the provisions of Chapter 2A (commencing with Section 12640.01) of Part 6 of Division 2 of the Insurance Code in an amount so that the unguaranteed portion of the loan does not exceed 75 percent of the market value of the property together with improvements thereon.

(f) That there may be prepayment penalties assessed on loans, the terms and conditions of which shall be set forth in the correspondent agreement.

(g) That the criteria and terms for loans shall provide the greatest benefit to members and retirants consistent with the financial integrity of the program and the sound investment of the retirement fund.

(h) That loans shall not be made at a rate lower than the market rate.

(i) Such other terms and conditions as the parties to the correspondent agreement may deem appropriate.

SEC. 3. Section 22724 of the Education Code is amended to read:

22724. Notwithstanding any other provision of this chapter, the governing board of a school district or a community college district or a county superintendent of schools may establish regulations which allow an employee who is a member of this system to reduce his or her workload from full-time to part-time duties, and receive the service credit the member would receive if the member was employed on a full-time basis and have his or her retirement allowance, as well as any other benefits that the member is entitled to under this part, based upon the salary that the member would have received if employed on a full-time basis.

The regulations shall include, but shall not be limited to, the following:

(a) The option of part-time employment shall be exercised at the request of the member and can be revoked only with the mutual consent of the employer and the member.

(b) The member shall have been employed full time in a position requiring membership in this system for at least 10 years of which the immediately preceding five years were full-time employment.

(c) During the period immediately preceding a request for a reduction in workload, the employee shall have been employed full time in a position requiring membership in this system for a total of at least five years without a break in service. For purposes of this

subdivision, sabbaticals and other approved leaves of absence shall not constitute a break in service. Time spent on a sabbatical or other approved leave of absence shall not be used in computing the five-year full-time service requirement prescribed by this subdivision.

(d) The member shall have reached the age of 55 prior to reduction in workload.

(e) The period of part-time employment shall not exceed 10 years.

(f) The minimum part-time employment shall be the equivalent of one-half of the number of days of service required by the member's contract of employment during his or her final year of service in a full-time position.

(g) The member shall be paid a salary which is the pro rata share of the salary the member would be earning had he or she not elected to exercise the option of part-time employment.

Prior to the reduction of an employee's workload under this section, the district personnel responsible for the administration of this program, in conjunction with the administrative staff of the State Teachers' Retirement System and the Public Employees' Retirement System, shall verify the eligibility of the applicant for the reduced workload program.

The member shall contribute to the Teachers' Retirement Fund the amount that would have been contributed had the member been employed full time.

The employer shall contribute to the Teachers' Retirement Fund an amount based upon the salary that would have been paid to the member had the member been employed full time and at the rate specified by the board.

The employer shall maintain the necessary records to separately identify each member receiving credit pursuant to this section.

SEC. 4. Section 20215 of the Government Code is amended to read:

20215. Notwithstanding any other provision of law, the board may establish a program utilizing the retirement fund to assist system members and annuitants, through financing, to obtain homes in this state.

The board shall adopt regulations governing the program which shall, among other things, provide:

(a) That home loans be made available to currently employed members and annuitants for the purchase of single-family dwellings, single-family cooperative apartments, and single-family condominiums.

(b) That private lending institutions in this state shall originate and service such home loans pursuant to agreements entered into between such institutions and the board.

(c) That the recipients of the loans occupy the homes as their permanent residences in accord with rules and regulations established by the board.

(d) That such home loans shall be available only for the purchase of homes in this state.

(e) That the amount and length of the loans shall be pursuant to a schedule periodically established by the board which shall provide a loan to value ratio of a maximum of 95 percent for the first loan and 80 percent for each additional loan. The portion of any loan exceeding 80 percent of value shall be insured by an admitted mortgage guaranty insurer conforming to the provisions of Chapter 2A (commencing with Section 12640.01) of Part 6 of Division 2 of the Insurance Code in an amount so that the unguaranteed portion of the loan does not exceed 75 percent of the market value of the property together with improvements thereon.

(f) That there may be prepayment penalties assessed on such loans in accordance with rules and regulations established by the board.

(g) That the criteria and terms for such loans shall provide the greatest benefit to members and annuitants consistent with the financial integrity of the program and the sound investment of the retirement fund.

(h) Such other terms and conditions as the board shall deem appropriate.

CHAPTER 370

An act to add Article 2.5 (commencing with Section 89050) to Chapter 1 of Part 55 of the Education Code, relating to the California State University.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

SECTION 1. Article 2.5 (commencing with Section 89050) is added to Chapter 1 of Part 55 of the Education Code, to read:

Article 2.5. Study by the Trustees

89050. (a) The Legislature finds and declares all of the following:

(1) Many school districts are developing year-round programs in an effort to relieve overcrowding. This development affects the ability of teacher educators to match their programs for student teachers to district calendars and to provide in-service training to certificated teachers.

(2) Chapter 498 of the Statutes of 1983 requires teacher educators to spend substantial time working in public school classrooms every three years; however, there is no mechanism identified to implement this provision.

(3) Many faculty in the California State University system use mastery learning and criterion referenced assessments in their teaching. The current grading system does not appear to be appropriate for these teaching methods.

(b) The trustees shall study and assess, with input from the academic senate, the exclusive bargaining agent, students, and other affected constituents, the implications and impact of the developments described in subdivision (a). The study and assessment shall be completed and submitted to the Legislature on or before September 1, 1987. In light of those developments, and in addition to any other appropriate considerations, the trustees shall develop, if necessary and desirable, a budgetary proposal for consideration by the Governor and the Legislature through the normal budget process.

CHAPTER 371

An act to amend Section 45134 of the Education Code, relating to school employment.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 16, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 45134 of the Education Code is amended to read:

45134. (a) Notwithstanding any other provisions of law, no minimum or maximum age limits shall be established for the employment or continuance in employment of persons a part of the classified service.

(b) Any person possessing all of the minimum qualifications for any employment shall be eligible for appointment to that employment, and no rule or policy, either written or unwritten, heretofore or hereafter adopted, shall prohibit the employment or continued employment, solely because of the age of any such person in any school employment who is otherwise qualified therefor.

(c) No person shall be employed in school employment while he or she is receiving a retirement allowance under any retirement system by reason of prior school employment, except that a person may be hired as an aide in one of the following circumstances:

(1) An aide is needed in a class with a high pupil-teacher ratio.

(2) An aide is needed to provide one-on-one instruction in remedial classes or for underprivileged students.

A person working as an aide pursuant to this subdivision shall not receive service credits for purposes of the State Teachers' Retirement System.

(d) The provisions of subdivision (c) shall be inapplicable to

persons who were employed in the classified service of any school district as of September 18, 1959, and who are still in the employ of the same district on the effective date of this subdivision, and the rights of such persons shall be fixed and determined as of September 18, 1959; and no such person shall be deprived of any right to any retirement allowance or eligibility for any such allowance to which he would have been entitled as of that date. Any such person who, by reason of any provision of law to the contrary, has been deprived of any right to retirement allowance or eligibility for such an allowance, shall, upon the filing of application therefor, be reinstated to such rights as he would have had had this subdivision been in effect on September 18, 1959.

(e) This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

CHAPTER 372

[Approved by Governor July 16, 1986 Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

(1) Plans, specifications, or other documentation sufficient to identify the scope and character of the proposed improvements.

(2) Evidence indicating the probable time of completion of the proposed improvements.

(3) Reasonably clear and appropriate evidence of development costs.

(e) Base estimates of anticipated future income and expenses which form a basis for value, on reasonably clear and appropriate evidence and reasonable projections in the marketplace.

1922.4. Any person performing a certified appraisal of real property shall do all of the following:

(d) Establish the date of the certified appraisal report and the date for which the valuation is effective, if different from the date of the report.

(e) Identify and analyze the highest and best use of the property, or interest in the property, or expressly conclude why consideration of that factor is deemed not necessary or appropriate, and the reasons for that conclusion.

(f) Determine and set forth, with sufficient precision for the purposes of the appraisal, the facts, assumptions, and conditions upon which the appraisal was based and the impact they have on any conclusion reached.

(g) Select and pursue the appraisal procedure or procedures to be followed and the data to be considered in following that procedure, identify whether that procedure is the direct sales comparison approach, the income approach, the cost approach, some other analysis or appraisal approach appropriate for the assignment, or a combination of these approaches, and determine why any specific approach or approaches are selected. If more than one approach is selected, any differences in opinions or conclusions which result shall be reconciled. or disclose to the user of the appraisal that no inspection of the real property has been made and the reason therefor.

1922.6. (a) Any certified appraisal report shall be presented in clear and unequivocal terms with sufficient information to enable the user of that report or any person who may be expected to rely on it, to understand it properly, and in such a manner to avoid being misleading.

(b) Any written certified appraisal report shall include, but not be limited to, all of the following:

(1) A specific discussion of each of the items specified in subdivisions (d) and (e) of Section 1922.2 and in Section 1922.4.

(2) Disclosure of any other material fact.

(3) A discussion of any qualifications of the opinions or conclusions contained in the report or, in contrast with generally recognized appraisal practices, any limitations on the scope of the report or omissions.

(4) A statement as to whether any person other than the appraiser whose signature appears on the report, prepared the analysis, opinion, or conclusions contained in the report, and, if so, the identity of that person.

(5) A statement as to whether the person signing the report has a present or contemplated future interest in the property which is the subject of the appraisal or has a relationship with the owner of the property or with the prospective user of the appraisal data which would constitute a conflict of interest. If the report contains an affirmative statement with respect to these factors, it shall also include a conspicuous and accurate statement of the relationship.

(6) A certification that the statements of fact contained in the report are true and correct, to the best knowledge and belief of the appraiser.

(7) A certification that the analysis, opinion, and conclusions were developed and the report was prepared in conformity with the provisions of this title, or a statement of the particulars for which that certification is not made.

1922.8. No person shall do any of the following:

(a) Accept an engagement to make a certified appraisal or to prepare a certified appraisal report in which the employment itself or the fee payable for the service is contingent upon the appraiser reporting a predetermined or specified amount of value, or in which the employment or fee to be paid is otherwise contingent upon a preestablished analysis, opinion, or conclusion or preestablished finding in the certified appraisal report.

(b) Claim or accept compensation for a certified appraisal or a certified appraisal report contingent upon the amount of, or otherwise determined as a percentage of, an award of monetary damages arising out of a condemnation or other legal action in which the value of the property to be appraised is disputed.

1922.10. A person performing a certified appraisal shall retain for three years from the date of submitting the certified appraisal report

to his or her client, originals or true copies of the following:

(a) Any contract for the performance of the certified appraisal.

(b) The certified appraisal report.

(c) Any supporting documentation or data required by this title or otherwise necessary to the formulation and preparation of the certified appraisal.

1922.11. Any person who has been damaged, or can demonstrate that he or she will potentially be irreparably damaged, may bring an action for damages, equitable relief, or both, against any person who violates this title. The court may award costs and reasonable attorneys' fees to the prevailing party, as determined by the court. The rights and remedies provided in this title are not exclusive of other rights or remedies provided by law.

1922.12. Prior to January 1, 1989, no state agency or department may require the use of a certified appraisal or certified appraisal report for any transaction, other than a transaction to which the state is a party, without express statutory authorization.

1922.14. The people of the State of California do enact as follows:

SECTION 1. Section 270 is added to the Code of Civil Procedure, to read:

270. (a) Notwithstanding Section 269 or any other provision of law, the Judicial Council shall establish a demonstration project to assess the costs, benefits, and acceptability of utilizing audio and video recording as a means of producing a verbatim record of proceedings in up to 11 superior court departments selected from the following counties:

(1) Not more than five departments in Los Angeles County.

(2) Not more than three departments in Orange County.

(3) Not more than two departments in Riverside County at the county seat.

(4) Not more than two departments in the central or west district

of San Bernardino County.

(5) Not more than three departments in San Diego County.

In each county, the project shall only commence after the board of supervisors adopts a resolution finding that there are sufficient funds for the project, and the superior court adopts local rules for implementation of the project. The demonstration project in each county shall terminate on or after January 1, 1991, but not later than January 1, 1992.

(b) In courtrooms operating under the demonstration project, audio or video recording may be used in lieu of the verbatim record prepared by a court reporter except in any criminal or juvenile proceedings.

(c) The Judicial Council shall adopt the following: (1) specifications for audio and video recording equipment; (2) rules for courtroom monitoring of audio and video recording; and (3) rules for certification of transcripts produced by means of audio and video recording.

(e) A transcript of a proceeding in a court of the demonstration project shall be provided by the court to a party in the same manner and form and at the same cost as a transcript prepared and delivered by an official court reporter. If a portion of a video or audio recording fails or is unable to be understood, a transcript of such portion of the proceeding shall designate such condition as "inaudible" and "unintelligible," respectively.

(f) No presently employed permanent court reporter shall have his or her hours of employment reduced as a result of the demonstration project nor shall be required to prepare a transcript of a proceeding in a court of the demonstration project.

(g) The Judicial Council shall report to the Legislature on or before January 1, 1989, and thereafter as the Legislature may require, as to the costs, benefits, and acceptability of such audio or video recording as a method of keeping the verbatim court record.

(h) The Joint Rules Committee shall appoint an advisory committee consisting of two certified shorthand reporters, one person skilled in courtroom audio recording, one person skilled in courtroom video recording, two judges experienced in trial work, one court administrator, and two attorneys experienced in trial work to evaluate the demonstration project, and it shall report its findings and recommendations, including minority views, if any, to the Legislature at the same times as the Judicial Council reports pursuant to subdivision (g). The advisory committee shall be afforded access to all material relating to the conduct and operation of the demonstration project, including, but not limited to, copies of audio and video tapes, logs thereof, transcripts, transcript requests, and the identity of any vendor and consultants involved in the demonstration

project.

SEC. 2. Section 69950 of the Government Code is amended to read:

69950. The fee for transcription for original ribbon copy is seventy cents ($0.70) for 100 words, and for each copy for the party buying the original made at the same time, ten cents ($0.10) each for 100 words. The fee for a first copy to any other person shall be twenty cents ($0.20) for each 100 words, and for each additional copy, made at the same time, ten cents ($0.10) for each 100 words.

SECTION 1. Section 56200 of the Education Code is amended to read:

56200. Each local plan submitted to the superintendent under this part shall contain all the following:

(c) (1) Description of the governance and administration of the plan.

(2) Multidistrict plans, submitted pursuant to subdivision (b) or (c) of Section 56170, shall specify the responsibilities of each participating county office and district governing board in the policymaking process, the responsibilities of the superintendents of each participating district and county in the implementation of the plan, and the responsibilities of district and county administrators of special education in coordinating the administration of the local plan.

(d) Copies of joint powers agreements or contractual agreements, as appropriate, for districts and counties that elect to enter into such agreements pursuant to subdivision (b) or (c) of Section 56170.

The annual budget plan shall be adopted at a public hearing held by the district, special education services region, or county office, as appropriate. Notice of this hearing shall be posted in each school in the services region at least 15 days prior to the hearing. The annual budget plan may be revised during the fiscal year, and these revisions may be submitted to the superintendent as amendments to the allocations set forth in the plan. However, the revisions shall, prior to submission to the superintendent, be approved according to the policymaking process, established pursuant to paragraph (2) of subdivision (c).

(f) Verification that the plan has been reviewed by the community advisory committee and that the committee had at least 30 days to conduct this review prior to submission of the plan to the superintendent.

(g) Description of the identification, referral, assessment, instructional planning, implementation, and review in compliance with Chapter 4 (commencing with Section 56300).

(h) A description of the process being utilized to meet the requirements of Section 56303.

SEC. 2. Section 56728.6 of the Education Code is amended to read:

56728.6. (a) Notwithstanding subdivision (d) of Section 56760, in the 1985–86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of those instructional personnel service units operated and fundable for services to children three years of age or older at the second principal apportionment of the prior fiscal year, so long as the pupil count divided by the number of instructional personnel service units is equal to or greater than the following:

(1) For special classes and centers—9, based on the unduplicated pupil count.

(2) For resource specialist programs—21, based on the unduplicated pupil count.

(3) For designated instruction and services—20, based on the unduplicated pupil count, or 39, based on the duplicated pupil count.

(b) Notwithstanding subdivision (d) of Section 56760, in the 1984–85 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of instructional personnel service units for services to children three years of age or older in excess of the number of instructional personnel service units operated and fundable at the second principal apportionment of the prior fiscal year only with the authorization of the Superintendent of Public Instruction.

(1) The superintendent shall not authorize additional units for a special education local plan area if, for that special education local plan area, the percentage of pupils in kindergarten and grades 1 through 12 enrolled in special education programs, excluding pupils less than three years of age, would exceed 10 percent.

(2) The superintendent shall not authorize additional units for a special education local plan area if, for that special education local plan area, the ratio of pupils in kindergarten and grades 1 through 12 receiving a specific instructional service, excluding pupils less than three years of age, would exceed the following:

(A) For special classes and centers—0.028.

(B) For resource specialist programs—0.040.

(C) For designated instruction services—0.042.

(3) The superintendent may authorize additional units for a special education local plan area only if the area's pupil-instructional personnel unit ratios, based on the unduplicated pupil count, meet or exceed the ratios specified in paragraphs (1), (2), and (3) of subdivision (a).

(c) The Superintendent of Public Instruction shall base the authorization of funding for special education local plan areas pursuant to this section, including the reallocation of instructional personnel service units, upon criteria which shall include, but not be limited to, all of the following:

(1) Changes in the total number of pupils enrolled in kindergarten and grades 1 through 12.

(2) High- and low-average caseloads per instructional personnel service unit for each instructional setting.

(3) Lower than average and higher than average percentages of pupils in kindergarten and grades 1 through 12 who are currently enrolled in special education programs.

(d) A special education local plan area may apply for, and the superintendent may grant, a waiver of any of the standards and criteria specified in this section if compliance would prevent the provision of a free, appropriate public education or would create undue hardship. In granting the waivers, the superintendent shall consider the following:

(1) Pupil density of 25 or fewer units of average daily attendance per square mile in local plan areas of 30,000 or fewer average daily attendance, or pupil density of 20 or fewer units of average daily attendance per square mile in local plan areas of more than 30,000 average daily attendance.

(2) The location of licensed children's institutions, foster family homes, residential medical facilities, and other similar facilities within the boundaries of a local plan if 3 percent or more of the local plan's unduplicated pupil count resides in those facilities.

(e) For the purpose of this section, a special education local plan area may apply for, and the superintendent may grant, a waiver of the standards specified in paragraph (2) of subdivision (b) if the waiver is programmatically justified.

(f) By authorizing units pursuant to this section, the superintendent shall not increase the statewide total number of instructional personnel service units for purposes of state apportionments unless an appropriation specifically for growth in the number of instructional personnel service units is made in the

annual Budget Act or other legislation. If such an appropriation is made, units authorized by the superintendent pursuant to this subdivision that result in an increase in the statewide total number of instructional personnel service units are subject to the following restrictions:

(1) The units shall be funded only by such appropriation and no other funds may be apportioned for the units.

(2) All units shall be fully funded pursuant to Chapter 7 (commencing with Section 56700) of Part 30.

(g) This section shall become operative July 1, 1985.

SEC. 3. Section 56728.8 of the Education Code is amended to read:

56728.8. (a) Notwithstanding subdivision (d) of Section 56760, for the 1985–86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of those instructional personnel service units operated and fundable for services to individuals with exceptional needs younger than three years of age at the second principal apportionment of the prior fiscal year, so long as the unduplicated pupil count of these pupils divided by the number of instructional personnel service units is not less than the following:

(1) For special classes and centers—12.

(2) For resource specialist programs—24.

(3) For designated instruction and services—12.

(b) Notwithstanding subdivision (d) of Section 56760, in the 1985–86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of instructional personnel service units for services to individuals with exceptional needs younger than three years of age in excess of the number of instructional personnel service units operated and fundable at the second principal apportionment of the prior fiscal year only with the authorization of the Superintendent of Public Instruction.

(c) The Superintendent of Public Instruction shall base the authorization of funding for special education local plan areas pursuant to this section, including the reallocation of instructional personnel service units, upon criteria that shall include, but not be limited to, the following:

(1) Changes in the total number of pupils younger than three years of age enrolled in special education programs.

(2) High- and low-average caseloads per instructional personnel service unit for each instructional setting.

(d) Notwithstanding subdivision (e) of Section 56760, infant programs in special classes and centers funded pursuant to this item shall be supported by two aides, unless otherwise required by the Superintendent of Public Instruction.

(e) Infant services in resource specialist programs funded pursuant to this item shall be supported by one aide.

(f) In determining the number of instructional personnel service units for which a special education local plan area may qualify, a

minimum of six infants shall constitute eligibility for the initial unit. However, programs operating pursuant to Section 56425 shall be allowed a minimum of one initial unit for the 1985–86 fiscal year. When units are allocated pursuant to this subsection, the Superintendent of Public Instruction shall allocate only the least expensive unit appropriate.

(g) Beginning with the 1986–87 fiscal year, those programs operating pursuant to Section 56425 with fewer than six infants shall receive a partial unit, as determined by the Superintendent of Public Instruction.

(h) A special education local plan area may apply for, and the superintendent may grant, a waiver of any of the standards and criteria specified in this section if compliance would prevent the provision of a free, appropriate public education or would create undue hardship. In granting the waivers, the superintendent shall give priority to the following factors:

(1) Pupil density of 25 or fewer units of average daily attendance per square mile in local plan areas of 30,000 or fewer average daily attendance, or pupil density of 20 or fewer units of average daily attendance per square mile in local plan areas with an average daily attendance of more than 30,000.

(2) The location of licensed children's institutions, foster family homes, residential medical facilities, or similar facilities within the boundaries of a local plan if 3 percent or more of the local plan's unduplicated pupil count resides in those facilities.

(i) By authorizing units pursuant to this section, the superintendent shall not increase the statewide total number of instructional personnel service units for purposes of state apportionments unless an appropriation specifically for growth in the number of instructional personnel service units is made in the annual Budget Act or other legislation. If such an appropriation is made, units authorized by the superintendent pursuant to this section are subject to the following restrictions:

(1) The units shall be funded only by such an appropriation and no other funds may be apportioned for the units.

(2) All units shall be fully funded pursuant to Chapter 7 (commencing with Section 56700) of Part 30.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide for the reimbursement of claims for special education programs at the earliest possible time, it is necessary that this act take effect immediately.

SEC. 5. Sections 2 and 3 of this act shall become operative on July 1, 1986, unless this act becomes effective after July 1, 1986, in which case Sections 2 and 3 shall become operative immediately upon its enactment. If this act becomes operative after July 1, 1986, it is the intention of the Legislature that the changes made in Sections

56728.6 and 56728.8 of the Education Code by Sections 2 and 3, respectively, of this act shall apply for the entire 1986–87 fiscal year and subsequent fiscal years.

SEC. 6. Reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), shall be made from the State Mandates Claims Fund.

The board shall also cause a copy of the notice of the filing of the report and of the time, date, and place of hearing thereon to be mailed to each parcel or property owner whose property would be subject to the assessment. The notice shall be mailed at least two weeks prior to the date set for hearing to those persons whose name and address appear on the last equalized county assessment roll, the State Board of Equalization assessment roll, or as known to the board.

SEC. 94. At any time not later than the hour set for the hearing, any holder, whether a fee owner, lessee, or otherwise, of the interest in the property which is proposed to be assessed and who will be obligated to pay any proposed assessment, may make written protest against the proposed assessment. The protest shall be in writing, shall contain a description of the property and the interest in the property which each signer of the protest represents, sufficient to identify the property, and, if the signers are not shown on the last equalized assessment roll as the owners of that property, shall contain, or be accompanied by, written evidence that the signers are the holders of the property interest proposed to be charged and who will be obligated to pay the proposed charge. If the board finds that the protest is made by holders of property interests proposed to be assessed and who will be obligated to pay the proposed assessment, representing more than 5 percent but less than 50 percent of the total amount of expected revenue from the assessment, and protests are not withdrawn so as to reduce the same to less than 5 percent, the proposed assessment so protested shall either be submitted to approval by a majority of the voters of the district, zone, or area of benefit voting on the proposition or abandoned.

The district shall pay each county for costs, if any, incurred by the county in conducting the election. An election called by the board pursuant to this article is subject to all provisions of the Elections Code applicable to elections called by the district.

SEC. 97. If it shall be necessary, in order to find whether a 5 percent protest exists, to determine whether any or all of the signers of written protests are the holders of property interests proposed to be assessed and who will be obligated to pay the proposed assessment, the board shall make the determination from the latest equalized assessment roll, any written evidence submitted with a written protest, and any other evidence received at the hearing. The legislative body shall be under no duty to obtain or consider any other evidence as to the holding of property interests, and its determination of valid protests shall be final and conclusive.

If no protests or objections in writing have been delivered to the board up to the hour set for hearing thereof, or if valid protests have been found by the board to be less than 5 percent of the total amount of expected revenue the board may, upon the conclusion of the hearing adopt, revise, change, reduce, or modify each or any assessment. The board shall make a determination upon each assessment as described in the report or as determined at the hearing, and thereafter, by ordinance, shall determine and levy the assessment.

SEC. 98. The board may provide for the collection of the assessment in the same manner, and subject to the same penalties as, other fees, charges, and taxes fixed and collected by, or on behalf of the district. If the assessments are collected by the county, the county

may deduct reasonable costs incurred for that service before remittal of the balance to the district's treasury.

SEC. 99. The provisions of Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure apply to any judicial action or proceeding to validate, attack, review, set aside, void, or annul an ordinance levying an assessment or modifying or amending an existing ordinance.

If an ordinance provides for an automatic adjustment in an assessment, and the automatic adjustment results in an increase in the amount of an assessment, any action or proceeding to attack, review, set aside, void, or annul the increase shall be commenced within 90 days of the effective date of the increase.

Any appeal from a final judgment in the action or proceeding brought pursuant to this section shall be filed within 30 days after entry of the judgment.

SEC. 100. This article does not limit or prohibit the levy or collection of any other fee, charge, assessment or tax for district services authorized by any other provisions of this act or other law.

It shall also include those other interested persons designated by either the Board of Corrections or the Board of Pharmacy.

(2) The correctional facilities referred to in subdivision (a) shall include both state and local facilities for adults and for juveniles.

(c) Meetings of the advisory committee shall be held in different areas of the state in order that input may be contributed by local departments, institutions, and facilities. There shall be no funds appropriated under this section for travel expenses or other expenses relating to the duties of the members of the advisory committee.

(d) After consultation with, and consideration by, the Board of Pharmacy and the advisory committee, the Board of Corrections shall develop specific proposed regulations for the various types of correctional facilities and shall make specific recommendations relating to the adoption of regulations. The Board of Corrections shall adopt regulations for local detention facilities under subdivision (d) of Section 6030. The Board of Corrections shall submit proposed regulations for state prisons to the Department of Corrections, and proposed regulations for state juvenile facilities and proposed regulations for local juvenile facilities to the Youth Authority. The Board of Corrections shall adopt specific proposals for legislation, if any is deemed necessary, and shall make recommendations as to any other action as deemed desirable, and shall set forth the related estimated costs. These matters shall be included in a written report prepared by the Board of Corrections and the Board of Pharmacy to the Legislature and the Joint Committee on Prison Construction and Operations on or before January 1, 1988.

CHAPTER 377

An act to amend Section 1717 of the Civil Code, and to amend Sections 1021, 1024, 1031, 1034.5, 1038, and 1141.21 of, to add Section 1033.5 to, to repeal and add Sections 1032, 1033, and 1034 of, and to repeal Sections 1032.5, 1032.7, 1032.8, 1033½, 1037, and 1039 of, the Code of Civil Procedure, relating to litigation costs.

[Approved by Governor July 16, 1986. Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 1717 of the Civil Code is amended to read:

1717. (a) In any action on a contract, where the contract specifically provides that attorney's fees and costs, which are incurred to enforce the provisions of that contract, shall be awarded either to one of the parties or to the prevailing party, then the party who is determined to be the party prevailing on the contract, whether he or she is the party specified in the contract or not, shall be entitled to reasonable attorney's fees in addition to other costs.

Where a contract provides for attorney's fees, as set forth above, such provision shall be construed as applying to the entire contract, unless each party was represented by counsel in the negotiation and execution of the contract, and the fact of that representation is specified in the contract.

Reasonable attorney's fees shall be fixed by the court, upon notice and motion by a party, and shall be an element of costs.

Attorney's fees provided for by this section shall not be subject to waiver by the parties to any contract which is entered into after the effective date of this section. Any provision in that contract which provides for a waiver of attorney's fees is void.

(b) (1) The court, upon notice and motion by a party, shall determine who is the party prevailing on the contract for purposes of this section, whether or not the suit proceeds to final judgment. Except as provided in paragraph (2), the party prevailing on the contract shall be the party who recovered a greater relief in the action on the contract. The court may also determine that there is no party prevailing on the contract for the purposes of this section.

(2) Where an action has been voluntarily dismissed or dismissed pursuant to a settlement of the case, there shall be no party prevailing on the contract for purposes of this section.

(3) Where the defendant alleges in his or her answer that he or she tendered to the plaintiff the full amount to which he or she was entitled, and thereupon deposits in court, for the plaintiff, the amount so tendered, and the allegation is found to be true, then the defendant is deemed to be a party prevailing on the contract within the meaning of this section.

Where a deposit has been made pursuant to this section, the court

shall, on the application of any party to the action, order the deposit to be invested in an insured, interest-bearing account. Interest on the amount shall be allocated to the parties in the same proportion as the original funds are allocated.

SEC. 2. Section 1021 of the Code of Civil Procedure is amended to read:

1021. Except as attorney's fees are specifically provided for by statute, the measure and mode of compensation of attorneys and counselors at law is left to the agreement, express or implied, of the parties; but parties to actions or proceedings are entitled to their costs, as hereinafter provided.

SEC. 3. Section 1024 of the Code of Civil Procedure is amended to read:

1024. When an application is made to the court or referee to postpone a trial, the payment of the expenses occasioned by the postponement may be imposed, in the discretion of the court or referee, as a condition of granting the same.

SEC. 4. Section 1031 of the Code of Civil Procedure is amended to read:

1031. In actions for the recovery of wages for labor performed, where the amount of the demand, exclusive of interest, does not exceed three hundred dollars ($300), the court shall add, as part of the cost, in any judgment recovered by the plaintiff or cross-complainant, an attorney's fee not exceeding 20 percent of the amount recovered.

SEC. 5. Section 1032 of the Code of Civil Procedure is repealed.

SEC. 6. Section 1032 is added to the Code of Civil Procedure, to read:

1032. (a) As used in this section, unless the context clearly requires otherwise:

(1) "Complaint" includes a cross-complaint.

(2) "Defendant" includes a cross-defendant or a person against whom a complaint is filed.

(3) "Plaintiff" includes a cross-complainant or a party who files a complaint in intervention.

(4) "Prevailing party" includes the party with a net monetary recovery, a defendant in whose favor a dismissal is entered, a defendant where neither plaintiff nor defendant obtains any relief, and a defendant as against those plaintiffs who do not recover any relief against that defendant. When any party recovers other than monetary relief and in situations other than as specified, the "prevailing party" shall be as determined by the court, and under those circumstances, the court, in its discretion, may allow costs or not and, if allowed may apportion costs between the parties on the same or adverse sides pursuant to rules adopted under Section 1034.

(b) Except as otherwise expressly provided by statute, a prevailing party is entitled as a matter of right to recover costs in any action or proceeding.

(c) Nothing in this section shall prohibit parties from stipulating

to alternative procedures for awarding costs in the litigation pursuant to rules adopted under Section 1034.

SEC. 7. Section 1032.5 of the Code of Civil Procedure is repealed.

SEC. 8. Section 1032.7 of the Code of Civil Procedure is repealed.

SEC. 9. Section 1032.8 of the Code of Civil Procedure is repealed.

SEC. 10. Section 1033 of the Code of Civil Procedure is repealed.

SEC. 11. Section 1033 is added to the Code of Civil Procedure, to read:

1033. Costs or any portion of claimed costs shall be as determined by the court in its discretion in accordance with Section 1034 where the prevailing party recovers a judgment that could have been rendered in a court of lesser jurisdiction.

SEC. 12. Section 1033½ of the Code of Civil Procedure is repealed.

SEC. 13. Section 1033.5 is added to the Code of Civil Procedure to read:

1033.5. (a) The following items are allowable as costs under Section 1032:

(4) Service of process by a public officer, registered process server, or other means, as follows:

(A) When service is by a public officer, the recoverable cost is the fee authorized by law at the time of service.

(B) If service is by a process server registered pursuant to Chapter 16 (commencing with Section 22350) of Division 8 of the Business and Professions Code, the recoverable cost is the amount actually incurred in effecting service, including, but not limited to, a stake out or other means employed in locating the person to be served, unless such charges are successfully challenged by a party to the action.

(C) When service is by publication, the recoverable cost is the sum actually incurred in effecting service.

(D) When service is by a means other than that set forth in subparagraph (A), (B) or (C), the recoverable cost is the lesser of the sum actually incurred, or the amount allowed to a public officer in this state for such service, except that the court may allow the sum actually incurred in effecting service upon application pursuant to paragraph (4) of subdivision (c).

(5) Expenses of attachment including keeper's fees.

(6) Premiums on necessary surety bonds.

(7) Ordinary witness fees pursuant to Section 68093 of the Government Code.

(13) Any other item that is required to be awarded to the prevailing party pursuant to statute as an incident to prevailing in the action at trial or on appeal.

(b) The following items are not allowable as costs, except when expressly authorized by law:

(1) Fees of experts not ordered by the court.

(2) Investigation expenses in preparing the case for trial.

(3) Postage, telephone, and photocopying charges, except for exhibits.

(4) Costs in investigation of jurors or in preparation for voir dire.

(5) Transcripts of court proceedings not ordered by the court.

(c) Any award of costs shall be subject to the following:

(1) Costs are allowable if incurred, whether or not paid.

(2) Allowable costs shall be reasonably necessary to the conduct of the litigation rather than merely convenient or beneficial to its preparation.

(3) Allowable costs shall be reasonable in amount.

(4) Items not mentioned in this section and items assessed upon application may be allowed or denied in the court's discretion.

(5) When any statute of this state refers to the award of "costs and attorney's fees," attorney's fees are an item and component of the costs to be awarded and are within the ambit of paragraph (10) of subdivision (a).

SEC. 14. Section 1034 of the Code of Civil Procedure is repealed.

SEC. 15. Section 1034 is added to the Code of Civil Procedure, to read:

1034. (a) Prejudgment costs allowable under this chapter shall be claimed and contested in accordance with rules adopted by the Judicial Council.

SEC. 17. Section 1037 of the Code of Civil Procedure is repealed.

SEC. 18. Section 1038 of the Code of Civil Procedure is amended

to read:

1038. (a) In any civil proceeding under the California Tort Claims Act or for express or implied indemnity or for contribution in any civil action, the court, upon motion of the defendant or cross-defendant, shall, at the time of the granting of any summary judgment, motion for directed verdict, motion for judgment under Section 631.8, or any nonsuit dismissing the moving party other than the plaintiff, petitioner, cross-complainant, or intervenor, or at a later time set forth by rule of the Judicial Council adopted under Section 1034 determine whether or not the plaintiff, petitioner, cross-complainant, or intervenor brought the proceeding with reasonable cause and in the good faith belief that there was a justiciable controversy under the facts and law which warranted the filing of the complaint, petition, cross-complaint, or complaint in intervention. If the court should determine that the proceeding was not brought in good faith and with reasonable cause, an additional issue shall be decided as to the defense costs reasonably and necessarily incurred by the party or parties opposing the proceeding, and the court shall render judgment in favor of that party in the amount of all reasonable and necessary defense costs, in addition to those costs normally awarded to the prevailing party.

(b) "Defense costs," as used in this section, shall include reasonable attorneys' fees, expert witness fees, the expense of services of experts, advisers, and consultants in defense of the proceeding, and where reasonably and necessarily incurred in defending the proceeding.

(c) This section shall be applicable only on motion made prior to the discharge of the jury or entry of judgment, and any party requesting the relief pursuant to this section waives any right to seek damages for malicious prosecution. (d) This section shall only apply if the defendant or cross-defendant has made a motion for summary judgment, judgment under Section 631.8, directed verdict, or nonsuit and the motion is granted.

SEC. 19. Section 1039 of the Code of Civil Procedure is repealed.

SEC. 20. Section 1141.21 of the Code of Civil Procedure is amended to read:

1141.21. (a) If the judgment upon the trial de novo is not more favorable in either the amount of damages awarded or the type of relief granted for the party electing the trial de novo than the arbitration award, the court shall order that party to pay the following nonrefundable costs and fees, unless the court finds in writing and upon motion that the imposition of such costs and fees would create such a substantial economic hardship as not to be in the interest of justice:

(i) To the county, the compensation actually paid to the arbitrator, less any amount paid pursuant to paragraph (iv).

(ii) To the other party or parties, all costs specified in Section 1033.5, and the party electing the trial de novo shall not recover his or her costs.

(iii) To the other party or parties, the reasonable costs of the services of expert witnesses, who are not regular employees of any party, actually incurred or reasonably necessary in the preparation or trial of the case.

(iv) To the other party or parties, the compensation paid by the other party or parties to the arbitrator, pursuant to subdivision (b) of Section 1141.28.

Such costs and fees, other than the compensation of the arbitrator, shall include only those incurred from the time of election of the trial de novo.

(b) If the party electing the trial de novo has proceeded in the action in forma pauperis and has failed to obtain a more favorable judgment, the costs and fees under paragraphs (ii) and (iii) of subdivision (a) shall be imposed only as an offset against any damages awarded in favor of that party.

(c) If the party electing the trial de novo has proceeded in the action in forma pauperis and has failed to obtain a more favorable judgment, the costs under paragraph (i) of subdivision (a) shall be imposed only to the extent that there remains a sufficient amount in the judgment after the amount offset under subdivision (b) has been deducted from the judgment.

CHAPTER 378

An act to add Chapter 21 (commencing with Section 22500) to Division 8 of the Business and Professions Code, relating to ticket sellers.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

SECTION 1. Chapter 21 (commencing with Section 22500) is added to Division 8 of the Business and Professions Code, to read:

CHAPTER 21. TICKET SELLERS

22500. A ticket seller shall have a permanent business address from which tickets may only be sold and that address shall be included in any advertisement or solicitation, and shall be duly licensed as may be required by any local jurisdiction.

22501. A ticket seller shall maintain records of ticket sales, deposits, and refunds.

22502. A ticket seller shall, prior to sale, disclose to the purchaser

by means of description or a map the location of the seat or seats represented by the ticket or tickets.

22503. A ticket seller, as used in this chapter, means any person who for compensation, commission, or otherwise sells admission tickets to sporting, musical, theatre, or any other entertainment event.

22503.5. This chapter does not apply to any primary contractor or seller of tickets for the primary contractor operating under a written contract with the primary contractor.

"Primary contractor" means the person or organization who is responsible for the event for which tickets are being sold.

22503.6. This chapter does not apply to an officially appointed agent of an air carrier, ocean carrier or motor coach carrier who purchases or sells tickets in conjunction with a tour package accomplished through the primary event promoter or his or her agent by written agreement.

22504. This chapter does not apply to any person who sells six tickets or less to any one single event, provided the tickets are sold off the premises where the event is to take place, including, but not limited to, designated parking areas and points of entry to the event.

22505. A violation of any provision of this chapter shall constitute a misdemeanor.

22506. Any partial or full deposit received by a ticket seller on a future event for which tickets are not available shall be refundable except for a service charge of not more than 10 percent until tickets for the event are actually available.

22507. The ticket price of any event which is canceled, postponed, or rescheduled shall be fully refunded to the purchaser by the ticket seller upon request. Any local jurisdiction may require a ticket seller to provide a bond of not more than fifty thousand dollars ($50,000) to provide for any refunds that may be required by this section.

22508. A ticket seller shall disclose that a service charge is imposed by the ticket seller and is added to the actual ticket price by the seller in any advertisement or promotion for any event by the ticket seller.

22509. Any ticket seller who includes tickets to an event in conjunction with the sale of a tour or event package, including, among other things, transportation, meals, lodging, or beverages, shall disclose in any advertisements or promotional materials the price charged or allotted for the tickets.

22510. Nothing in this chapter prohibits any local agency from imposing any local fees or taxes.

22511. This chapter does not apply to any nonprofit charitable tax-exempt organization selling tickets to an event sponsored by the organization.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district

will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 379

An act to amend Section 347 of the Penal Code, relating to crimes.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 16, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 347 of the Penal Code is amended to read:

347. (a) Every person who willfully mingles any poison or harmful substance with any food, drink, medicine, or pharmaceutical product or who willfully places any poison or harmful substance in any spring, well, reservoir, or public water supply, where the person knows or should have known that the same would be taken by any human being to his or her injury, is guilty of a felony punishable by imprisonment in the state prison for two, four, or five years.

Any violation of this subdivision involving the use of a poison or harmful substance which may cause death if ingested or which causes the infliction of great bodily injury on any person shall be punished by an additional term of three years.

(b) Any person who maliciously informs any other person that a poison or other harmful substance has been or will be placed in any food, drink, medicine, pharmaceutical product, or public water supply, knowing that such report is false, is guilty of a crime punishable by imprisonment in the state prison, or by imprisonment in the county jail not to exceed one year.

(c) The court may impose the maximum fine for each item tampered with in violation of subdivision (a).

CHAPTER 380

An act to amend Sections 21659 and 21660 of the Public Utilities Code, relating to aviation.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 21659 of the Public Utilities Code is amended to read:

21659. (a) No person shall construct or alter any structure or

permit any natural growth to grow at a height which exceeds the obstruction standards set forth in the regulations of the Federal Aviation Administration relating to objects affecting navigable airspace contained in Title 14 of the Code of Federal Regulations, Part 77, Subpart C, unless a permit allowing the construction, alteration, or growth is issued by the department.

(b) The permit is not required if the Federal Aviation Administration has determined that the construction, alteration, or growth does not constitute a hazard to air navigation or would not create an unsafe condition for air navigation. Subdivision (a) does not apply to a pole, pole line, distribution or transmission tower, or tower line or substation of a public utility.

(c) Section 21658 is applicable to subdivision (b).

SEC. 2. Section 21660 of the Public Utilities Code is amended to read:

21660. The department may refuse issuance of a permit under Section 21659 if it determines that the construction or alteration of the structure or growth of the natural growth would constitute a hazard to air navigation or create an unsafe condition for air navigation.

Any person denied a permit shall, upon request, be granted a hearing by the department to determine whether a permit shall be issued. The hearing shall be held pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

CHAPTER 381

An act to add Chapter 12.3 (commencing with Section 8876.1) to Division 1 of Title 2 of the Government Code, relating to seismic safety, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

SECTION 1. Chapter 12.3 (commencing with Section 8876.1) is added to Division 1 of Title 2 of the Government Code, to read:

CHAPTER 12.3. CALIFORNIA CENTER FOR EARTHQUAKE ENGINEERING

8876.1. The Legislature finds and declares that:

(a) California is located on the Circum-Pacific seismic belt, and it is inevitable that earthquakes occurring along the state's numerous faults would cause extensive damage to property and could cause

extensive loss of life and injury.

(b) A moderate earthquake will probably occur in central California within two or three years, another great earthquake in southern California can be anticipated in the next 20 years, recently increased earthquake activity in the San Francisco Bay Area could be the return to a normal cycle of severe activity, and a damaging earthquake in San Diego is not unlikely.

(c) Earthquake hazard reduction measures often benefit many state and local programs and practices in engineering and other professional fields leading to improvements in existing and new buildings, dams and utility systems, transportation facilities, communications systems, fire and toxic materials safety, and disaster preparedness.

(d) It is in the interests of the safety of all California residents and visitors that the California Center for Earthquake Engineering be created to develop new and improved hazard reduction measures through engineering research and application that will reduce the potential for death, injury, and damage.

(e) The National Science Foundation, as part of its program to sponsor special centers for engineering excellence at notable United States universities, will financially support the work of the center in the sum of up to three million dollars ($3,000,000) per year for five years beginning in 1986, if matching funds are provided.

8876.2. (a) The Seismic Safety Commission shall contract with a consortium of public and private institutions of higher education for the establishment of the California Center for Earthquake Engineering.

(b) The objective of the center is to greatly increase the effectiveness of hazard reduction through earthquake engineering and research and application.

(c) The center's role will be to establish a comprehensive, multiuniversity research program focusing on common problems that will take full advantage of the facilities and programs of the participating institutions.

(d) In order to meet this objective, the center shall undertake the following responsibilities:

(1) To find and disseminate practical and economical ways to prevent the collapse of existing earthquake-hazardous structures of all types.

(2) To train future engineers and others in the latest theories and techniques of earthquake-resistant design, so that related professional practices, standards, and codes are improved throughout the state.

(3) To develop improved techniques for determining the suitability of sites for the construction of large structures, to produce better information about building design criteria, to develop improved computer models and techniques for understanding the critical design relationships between soil conditions, foundations, and building systems, to develop techniques for strengthening existing

buildings, to design simpler methods of evaluating the actual performance of buildings, and to plan and conduct experiments on existing buildings.

(4) To improve the analytical methods used for the earthquake-resistant design of dams, to develop techniques for improving the evaluation of the earthquake resistance of existing dams, and to conduct related experiments and field studies.

(5) To implement improved methods for analysis of utility and transportation systems, to expand the data base about their performance in previous earthquakes, to prepare and disseminate practical mitigation strategies, to develop standards for new design, and to develop cost-effective methods for strengthening structures of this type, including bridges, airports, and marine ports, and key components of electrical power, telecommunication, water treatment, and sewage disposal systems.

8876.3. In carrying out the above responsibilities, the center shall do all of the following:

(a) Encourage California universities and research organizations having special facilities and expertise to submit proposals in cooperation with the participating universities.

(b) Improve, to the extent necessary, laboratory and testing equipment to assure the capability to conduct adequate studies and experiments, and to study the needs for large-scale and innovative experimental and testing facilities to support earthquake engineering research.

(c) Design the scope of its projects to involve practicing engineers, design and construction personnel, governmental officials, and researchers and practitioners from other disciplines, to assure a multidisciplinary approach and an early understanding and application of the results.

(d) In cooperation with other organizations, sponsor courses, seminars, conferences, and other methods of achieving the widespread dissemination and understanding of the results of the research.

(e) Give special attention to involving students directly in the projects and dissemination efforts, so that they are better able to apply and communicate their knowledge.

8876.4. The contracting institution or consortium of institutions shall establish a board of governors to establish policy and oversee the work of the center, and appoint a director. The director shall serve at the pleasure of the board of governors.

An advisory council shall be appointed by and report to the board of governors on research priorities, criteria for the selection of projects, and methods for effectively transferring results into practice. Members shall be appointed for two-year terms. The Seismic Safety Commission shall appoint a member of the commission or staff to serve on the advisory council. Representatives of other state agencies selected by the board of governors for membership shall be appointed by their respective department

heads.

8876.5. In carrying out its responsibilities, the Seismic Safety Commission shall monitor the work of the center, recommend priorities and projects, help interpret the results of research that could affect state law and policy, recommend ways to promote the application of research, and do whatever else is necessary to assure high quality research and effective operations of the center.

SEC. 2. The sum of three million dollars ($3,000,000) is hereby appropriated from the General Fund, contingent upon the Director of Finance determining that matching federal funds have been approved, to the Seismic Safety Commission for the purposes of this act for expenditure during the 1986-87 fiscal year. The commission may retain a maximum of one hundred thousand dollars ($100,000) per year to pay for its costs associated with the center. The commission shall request the same amount for at least the four subsequent fiscal years, contingent upon the Director of Finance determining that matching federal funds have been approved. The commission is authorized to contract as authorized in Section 8876.2 of the Government Code for the conduct of work pursuant to this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to significantly reduce the threats to life and safety from expected earthquakes in the near future, and to take advantage of the support of the National Science Foundation, and in order that the research, development, and implementation of the work of the California Center for Earthquake Engineering may be done as soon as possible, it is necessary for this act to take effect immediately.

CHAPTER 382

An act to amend Section 1036 of, and to add Sections 1034.5 and 1039 to, the Public Utilities Code, relating to carriers.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 16, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 1034.5 is added to the Public Utilities Code, to read:

1034.5. Every corporation or person who knowingly and willfully issues, publishes, or affixes, or causes or permits the issuance, publishing, or affixing, of any oral or written advertisement, broadcast, or other holding out to the public, or any portion thereof, that the corporation or person is in operation as a passenger stage corporation without having a valid certificate or issued under this

article is guilty of a misdemeanor punishable, if an individual, by a fine of not more than one thousand dollars ($1,000) or by imprisonment in the county jail for not more than six months, or by both, or, if a corporation, by a fine of not more than five thousand dollars ($5,000).

SEC. 2. Section 1036 of the Public Utilities Code is amended to read:

1036. (a) Each application for a certificate of public convenience and necessity made under this article shall be accompanied by a fee of five hundred dollars ($500), unless the applicant is already operating in the immediate vicinity under the jurisdiction of the commission.

(b) No certificate issued pursuant to, or rights to conduct any of the services authorized by, this article shall be sold, leased, or assigned, or otherwise transferred or encumbered, unless authorized by the commission. A filing fee of three hundred dollars ($300) shall accompany all applications for that authorization.

SEC. 3. Section 1039 is added to the Public Utilities Code, to read:

1039. In every written or oral advertisement of the service it offers, every passenger stage corporation shall state the number of its certificate or identifying symbol, as specified by the commission.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 383

An act to amend Sections 3445, 3446, and 3447 of, to amend the heading of Chapter 3 (commencing with Section 3445) of Title 2 of Part 2 of Division 4 of, and to repeal and add Chapter 1 (commencing with Section 3439) of Title 2 of Part 2 of Division 4 of, the Civil Code, and to amend Section 487.020 of the Code of Civil Procedure, relating to fraudulent transfers.

become due is presumed to be insolvent.

(d) Assets under this section do not include property that has been transferred, concealed, or removed with intent to hinder, delay, or defraud creditors or that has been transferred in a manner making the transfer voidable under this chapter.

(e) Debts under this section do not include an obligation to the extent it is secured by a valid lien on property of the debtor not included as an asset.

3439.03. Value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or an antecedent debt is secured or satisfied, but value does not include an unperformed promise made otherwise than in the ordinary course of the promisor's business to furnish support to the debtor or another person.

3439.04. A transfer made or obligation incurred by a debtor is fraudulent as to a creditor, whether the creditor's claim arose before or after the transfer was made or the obligation was incurred, if the debtor made the transfer or incurred the obligation as follows:

3439.06. For the purposes of this chapter:

(a) A transfer is made:

(1) With respect to an asset that is real property other than a fixture, but including the interest of a seller or purchaser under a contract for the sale of the asset, when the transfer is so far perfected that a good faith purchaser of the asset from the debtor against whom applicable law permits the transfer to be perfected cannot acquire an interest in the asset that is superior to the interest of the transferee; and

(2) With respect to an asset that is not real property or that is a fixture, when the transfer is so far perfected that a creditor on a simple contract cannot acquire a judicial lien otherwise than under this chapter that is superior to the interest of the transferee.

(b) If applicable law permits the transfer to be perfected as

provided in subdivision (a) and the transfer is not so perfected before the commencement of an action for relief under this chapter, the transfer is deemed made immediately before the commencement of the action.

(c) If applicable law does not permit the transfer to be perfected as provided in subdivision (a), the transfer is made when it becomes effective between the debtor and the transferee.

(d) A transfer is not made until the debtor has acquired rights in the asset transferred.

(e) An obligation is incurred:

(1) If oral, when it becomes effective between the parties; or

(2) If evidenced by a writing, when the writing executed by the obligor is delivered to or for the benefit of the obligee.

3439.07. (a) In an action for relief against a transfer or obligation under this chapter, a creditor, subject to the limitations in Section 3439.08, may obtain:

(1) Avoidance of the transfer or obligation to the extent necessary to satisfy the creditor's claim.

(2) An attachment or other provisional remedy against the asset transferred or its proceeds in accordance with the procedures described in Title 6.5 (commencing with Section 481.010) of Part 2 of the Code of Civil Procedure.

(3) Subject to applicable principles of equity and in accordance with applicable rules of civil procedure, the following:

(A) An injunction against further disposition by the debtor or a transferee, or both, of the asset transferred or its proceeds.

(B) Appointment of a receiver to take charge of the asset transferred or its proceeds.

(C) Any other relief the circumstances may require.

(b) If a creditor has commenced an action on a claim against the debtor, the creditor may attach the asset transferred or its proceeds if the remedy of attachment is available in the action under applicable law and the property is subject to attachment in the hands of the transferee under applicable law.

(c) If a creditor has obtained a judgment on a claim against the debtor, the creditor may levy execution on the asset transferred or its proceeds.

(d) A creditor who is an assignee of a general assignment for the benefit of creditors, as defined in Section 493.010 of the Code of Civil Procedure, may exercise any and all of the rights and remedies specified in this section if they are available to any one or more creditors of the assignor who are beneficiaries of the assignment, and, in that event (1) only to the extent the rights or remedies are so available and (2) only for the benefit of those creditors whose rights are asserted by the assignee.

3439.08. (a) A transfer or obligation is not voidable under subdivision (a) of Section 3439.04, against a person who took in good faith and for a reasonably equivalent value or against any subsequent transferee or obligee.

(b) Except as otherwise provided in this section, to the extent a transfer is voidable in an action by a creditor under paragraph (1) of subdivision (a) of Section 3439.07, the creditor may recover judgment for the value of the asset transferred, as adjusted under subdivision (c), or the amount necessary to satisfy the creditor's claim, whichever is less. The judgment may be entered against the following:

(1) The first transferee of the asset or the person for whose benefit the transfer was made.

(2) Any subsequent transferee other than a good faith transferee who took for value or from any subsequent transferee.

(c) If the judgment under subdivision (b) is based upon the value of the asset transferred, the judgment shall be for an amount equal to the value of the asset at the time of the transfer, subject to adjustment as the equities may require.

(d) Notwithstanding voidability of a transfer or an obligation under this chapter, a good faith transferee or obligee is entitled, to the extent of the value given the debtor for the transfer or obligation, to the following:

(1) A lien on or a right to retain any interest in the asset transferred.

(2) Enforcement of any obligation incurred.

(3) A reduction in the amount of the liability on the judgment.

(e) A transfer is not voidable under subdivision (b) of Section 3439.04 or Section 3439.05 if the transfer results from the following.

(1) Termination of a lease upon default by the debtor when the termination is pursuant to the lease and applicable law.

(2) Enforcement of a lien in a noncollusive manner and in compliance with applicable law, including Division 9 (commencing with Section 9101) of the Commercial Code, other than a retention of collateral under subdivision (2) of Section 9505 of the Commercial Code and other than a voluntary transfer of the collateral by the debtor to the lienor in satisfaction of all or part of the secured obligation.

3439.09. A cause of action with respect to a fraudulent transfer or obligation under this chapter is extinguished unless action is brought pursuant to subdivision (a) of Section 3439.07 or levy made as provided in subdivision (b) or (c) of Section 3439.07:

(a) Under subdivision (a) of Section 3439.04, within four years after the transfer was made or the obligation was incurred or, if later, within one year after the transfer or obligation was or could reasonably have been discovered by the claimant.

(b) Under subdivision (b) of Section 3439.04 or Section 3439.05, within four years after the transfer was made or the obligation was incurred.

(c) Notwithstanding any other provision of law, a cause of action with respect to a fraudulent transfer or obligation is extinguished if no action is brought or levy made made within seven years after the transfer was made or the obligation was incurred.

3439.10. Unless displaced by the provisions of this chapter, the principles of law and equity, including the law merchant and the law relating to principal and agent, estoppel, laches, fraud, misrepresentation, duress, coercion, mistake, insolvency, or other validating or invalidating cause, supplement its provisions.

3439.11. This chapter shall be applied and construed to effectuate its general purpose to make uniform the law with respect to the subject of this chapter among states enacting it.

CHAPTER 398

An act to amend Sections 36060 and 36447 of the Water Code, relating to California water districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 17, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 36060 of the Water Code is amended to read:

36060. This article applies only to the Irvine Ranch, Moulton-Niguel, Rancho California, and Santa Margarita Water Districts. "District" as used in this article means the Irvine Ranch Water District, the Moulton-Niguel Water District, the Rancho California Water District, or the Santa Margarita Water District.

SEC. 2. Section 36447 of the Water Code is amended to read:

36447. This chapter shall apply to the Irvine Ranch Water District, the Santa Margarita Water District, and the Moulton-Niguel Water District. As used in this chapter, "district" means the Irvine Ranch Water District, the Santa Margarita Water District, or the Moulton-Niguel Water District.

SEC. 3. The Legislature finds and declares that there are special financial circumstances unique to the Rancho California Water District and the Moulton-Niguel Water District which make Sections 1 and 2 of this act necessary and that a general law cannot be made applicable.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

(a) Reduced issuance expenses and a more favorable interest rate can be achieved for bonds of the Moulton-Niguel Water District's improvement districts if authority is given to the district to market them as consolidated bonds of the district in lieu of selling them separately on behalf of each respective improvement district. To afford the district the earliest possible opportunity to lower the financial burden of debt service for the ratepayers and taxpayers, it is necessary that this act take effect immediately.

(b) A reduction in debt service cost is achievable for bonds of the improvement districts of the Rancho California Water District if authority is given to the district to utilize a specified test to determine whether that reduction will result from a refunding of bonds bearing interest at a fixed rate with bonds bearing interest at a variable rate. To afford the district the earliest possible opportunity to lower the financial burden of debt service for the rate payers and taxpayers, it is necessary that this act take effect immediately.

CHAPTER 399

An act to add Section 14087.53 to the Welfare and Institutions Code, relating to health care, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 16, 1986 Filed with Secretary of State July 17, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 14087.53 is added to the Welfare and Institutions Code, to read:

14087.53. It is necessary that a special commission be established in Ventura County in order to meet the problems of the delivery of publicly assisted medical care in the county and to demonstrate ways of promoting quality care and cost efficiency. Because there is no general law under which such a commission could be formed, the adoption of a special act and the formation of a special commission is required.

The Board of Supervisors of Ventura County may, by ordinance, establish a commission to negotiate the exclusive contract specified in Section 14087.5 and to arrange for the provision of health care services provided pursuant to this chapter. If the board of supervisors elects to enact this ordinance, all rights, powers, duties, privileges, and immunities vested in a county by this article shall be vested in the county commission. Any reference in this article to "county" shall mean the commission established pursuant to this section.

The enabling ordinance shall specify the membership of the county commission, the qualifications for individual members, the manner of appointment, selection, or removal of commissioners, and how long they shall serve, and any other matters as the board of supervisors deems necessary or convenient for the conduct of the county commission's activities. The commission so established shall be considered an entity separate from the county, shall file the statement required by Section 53051 of the Government Code, and shall have, in addition to the rights, powers, duties, privileges, and immunities previously conferred, the power to acquire, possess, and dispose of real or personal property, as may be necessary for the performance of its functions, to employ personnel and contract for services required to meet its obligations, and to sue or be sued. Any obligations of the commission, statutory, contractual, or otherwise, shall be the obligations solely of the commission and shall not be the obligations of the county or of the state.

Upon creation, the commission may borrow from the county and the county may lend the commission funds, or issue revenue anticipation notes to obtain those funds necessary to commence operations.

In the event the commission may no longer function for the

purposes for which established, at such time as the commission's then existing obligations have been satisfied or the commission's assets have been exhausted, the board of supervisors may by ordinance terminate the commission.

Prior to the termination of the commission, the board of supervisors shall notify the State Department of Health Services of its intent to terminate the commission. The department shall conduct an audit of the commission's records within 30 days of notification to determine the liabilities and assets of the commission. The department shall report its findings to the board within 10 days of completion of the audit. The board shall present a plan to resolve all liabilities of the commission to the department within 30 days upon receipt of these findings.

Any assets of the commission shall be disposed of pursuant to provisions contained in the contract entered into between the state and the commission pursuant to this article.

It is the intent of the Legislature that if such a commission is formed, the County of Ventura shall, with respect to its medical facilities and programs, occupy no greater or lesser status than any other health care provider in negotiating with the commission for contracts to provide health care services.

Notwithstanding the other provisions of this section, upon termination of the commission by the board, the County of Ventura shall be responsible for any liabilities of the commission until superseded by a department approved plan.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure that Medi-Cal beneficiaries are able to receive essential health care services, it is necessary that this act go into immediate effect.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

(b) It is unlawful to issue, or cause to be issued, a weighmaster certificate if the certificate does not contain all the information required by Sections 12714, 12714.5, and 12715 for the commodity weighed, measured, or counted. The issuance of a receipt showing

the weight, measure, or count of fish, mollusks, or crustaceans pursuant to Article 6 (commencing with Section 8010) of Chapter 1 of Part 3 of Division 6 of the Fish and Game Code constitutes the issuance of a weighmaster certificate under this chapter when issued by a person who is a weighmaster pursuant to Section 12700.

12715. Each certificate shall provide for the following information as applicable to the transaction:

(f) The name of the owner, or his or her agent, and the consignee.

(g) At least one of the following:

(1) The gross weight of the commodity and the vehicle or container, if only the gross weight was determined.

(h) The tare weights, and the code identification or description of boxes, bins, pallets, or other containers.

(i) The correct identification of the vehicle, combination of vehicles, or other means by which the commodity was delivered. If an equipment number is used to identify a vehicle or combination of vehicles, there shall be traceability to the registered vehicle license numbers through the weighmaster's records.

(j) The unit of measure, such as pounds, tons, gallons, kilograms, or cubic yards, used to identify the quantity.

SEC. 3. Section 12716 of the Business and Professions Code is amended to read:

12716. 12722. (a) In accordance with this chapter and regulations adopted by the director, any weighmaster may use a tare weight for a vehicle, container, or pallet which has been previously determined by a weighmaster. It is the responsibility of the party for whom the tare weight was established to maintain the tare weight within the variations prescribed by the director

(b) Any weighmaster weighing any vehicle moving earth, stone, rock, sand, gravel, or asphalt paving material may use a predetermined tare weight. The issuance of predetermined tare weights are exempt from the provisions of Subchapter 9 (commencing with Section 4400) of Chapter 9 of Title 4 of the California Administrative Code. (a) The gross weight of the commodity and the vehicle at the time of the initial weighing.

(b) The gross weight of the commodity and the vehicle after the adjustment.

(c) The name and address of the seller and of either the purchaser or broker of the commodity as provided by the driver of the vehicle.

SEC. 8. No reimbursement is required by this act pursuant to

providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter except that, notwithstanding anything in the State General Obligation Bond Law, the maximum maturity of the bonds shall not exceed 20 years from the date of each respective series. The maturity of each respective series shall be calculated from the date of such series.

7302. There is in the State Treasury the 1986 Prison Construction Fund, which fund is hereby created. The proceeds of the sale of bonds authorized by this act shall be deposited in this fund and may be transferred upon request of the Department of Corrections and upon approval of the Director of Finance, to the 1984 Prison Construction Fund established by Section 7202. If the moneys are so transferred, "fund" means the 1984 Prison Construction Fund.

7303. The 1986 Prison Construction Committee is hereby created. The committee shall consist of the Controller, the State Treasurer, and the Director of Finance. That committee shall be the "committee," as that term is used in the State General Obligation Bond Law.

The Department of Corrections is the "board" for the purpose of the State General Obligation Bond Law and this chapter.

7304. The committee is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate of five hundred million dollars ($500,000,000), in the manner provided in this chapter. That debt or debts, liability or liabilities, shall be created for the purpose of providing the fund to be used for the object and work specified in Section 7306.

(c) All money deposited in the fund which has been derived from

premium and accrued interest on bonds sold shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

(d) All money deposited in the fund pursuant to any provision of law requiring repayments to the state which are financed by the proceeds of the bonds authorized by this chapter shall be available for transfer to the General Fund. (b) That sum as is necessary to carry out the provisions of Section 7309, which sum is appropriated without regard to fiscal years.

7309. For the purpose of carrying out the provisions of this chapter, the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund and shall be disbursed by the committee in accordance with this chapter. Any money made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter. Those withdrawals from the General Fund shall be returned to the General Fund with interest at the rate which would otherwise have been earned by those sums in the Pooled Money Investment Fund.

7310. All proceeds from the sale of bonds, except those derived from premiums and accrued interest, shall be available for the purpose provided in Section 7306 but shall not be available for transfer to the General Fund to pay principal and interest on bonds. Opposite the square there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting of the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof, are in compliance with this section.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The Legislature and the people of California have determined that immediate expansion of the prison system by the swiftest possible means is necessary to relieve the system from current and anticipated overcrowding and to maintain the public safety and security. The provisions included in this bill are essential to permit the state to deal with what is an immediate and current crisis.

CHAPTER 410

An act to add Chapter 10.7 (commencing with Section 13895) to Division 7 of the Water Code, relating to financing a program to provide aid in the planning, design, and construction of facilities for the protection of domestic water supplies through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 17, 1986. Filed with Secretary of State July 17, 1986]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10.7 (commencing with Section 13895) is added to Division 7 of the Water Code, to read:

CHAPTER 10.7. CALIFORNIA SAFE DRINKING WATER BOND LAW OF 1986

13895. This chapter shall be known and may be cited as the California Safe Drinking Water Bond Law of 1986.

13895.1. The Legislature hereby finds and declares all of the following:

(a) The State Department of Health Services has discovered toxic chemicals in 126 of California's large public drinking water systems.

(b) Many of the chemical contaminants in California's drinking water supplies are known or suspected of causing cancer, birth defects, and other serious illnesses.

(c) Following the passage of the California Safe Drinking Water Bond Law of 1984, the State Department of Health Services received 1,359 requests for eight hundred twenty-five million dollars ($825,000,000) to improve public drinking water systems. The department has determined that an additional five hundred million dollars ($500,000,000) is needed immediately for public water systems to correct deficiencies which pose a health hazard to enable hundreds of systems to meet mininum health standards.

(d) New monitoring programs for small public water systems are expected to identify many new toxic contamination problems. It is unlikely that these problems can be solved without financial assistance from the State of California.

13895.2. The Legislature further finds and declares that the protection of the health, safety, and welfare of the people of California requires that water supplied for domestic purposes be at all times pure, wholesome, and potable, and that it is in the interest of the people that the State of California provide technical and financial assistance to the end that the people of California are assured a safe, dependable, and potable supply of water for domestic purposes and that water is available in adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes.

13895.3. The Legislature further finds and declares that it is the intent of the Legislature to provide for the upgrading of domestic water supply systems to assure that all domestic water supplies at least meet minimum domestic water supply standards established under Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

13895.4. The State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued pursuant to this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter, except that notwithstanding anything in the State General Obligation Bond Law, the bonds authorized hereunder shall bear the rates of interest, or maximum rates, as may, from time to time, be fixed by the Treasurer, with the approval of

the committee, and the maximum maturity of bonds shall not exceed 50 years from the date of the bonds, or from the date of each respective series. The maturity of each respective series shall be calculated from the date of the series.

13895.5. As used in this chapter, and for purposes of this chapter as used in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), the following terms shall have the following meanings:

(a) "Committee" means the Safe Drinking Water Finance Committee created by Section 13895.6.

(b) "Department" means the Department of Water Resources.

(c) "Domestic water system" means a system for the provision to the public of piped water for human consumption, if the system has at least five service connections or regularly supplies water to at least 25 individuals. The term includes any water supply, treatment, storage, and distribution facilities under the control of the operator of the system.

(d) "Fund" means the California Safe Drinking Water Fund.

(e) "Supplier" or "supplier of water" means any person, partnership, corporation, association, or other entity or political subdivision of the state which owns or operates a domestic water system.

(f) "Federal assistance" means funds available, or which may become available, to a supplier either directly or through allocation by the state from the federal government as grants or loans for the improvement of domestic water systems.

(g) "Treatment works" means any devices or systems used in the treatment of water supplies, including necessary lands, which render water supplies pure, wholesome, and potable for domestic purpose.

(h) "Project" means proposed facilities for the construction, improvement, or rehabilitation of the domestic water system, and may include water supply, treatment works, and all or part of a water distribution system, if necessary to carry out the purpose of this chapter.

(i) "Public agency" means any city, county, city and county, district, joint powers authority, or other political subdivision of the state which owns or operates a domestic water system. For purposes of this chapter, Chapter 10.2 (commencing with Section 13810), Chapter 10.5 (commencing with Section 13850), and Chapter 10.6 (commencing with Section 13880), a political subdivision of the state may be any public agency.

13895.6. The Safe Drinking Water Finance Committee is hereby created. The committee shall consist of the Governor, the Treasurer, the Director of Finance, the Director of Water Resources, and the State Director of Health Services or their designated representatives. A majority of the committee may act for the committee.

13895.7. There is in the State Treasury the California Safe Drinking Water Fund, which fund is hereby created.

13895.8. The committee may create a debt or debts, liability or liabilities, of the State of California, in an aggregate amount of one hundred million dollars ($100,000,000) in the manner provided in this chapter. The debt or debts, liability or liabilities, shall be created for the purpose of providing the money to be used for the objects and works specified in Section 13895.9.

13895.9. (a) An aggregate amount of one hundred million dollars ($100,000,000) of the moneys in the fund are hereby continuously appropriated and shall be used for the purposes set forth in this section and Section 13898.

(b) The department may enter into contracts with suppliers having authority to construct, operate, and maintain domestic water systems, for loans to suppliers to aid in the construction of projects which will enable the supplier to meet, at a minimum, safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

(c) Any contract entered into pursuant to this section may include provisions as agreed by the parties thereto, and the contract shall include, in substance, all of the following provisions:

(1) An estimate of the reasonable cost of the project.

(2) An agreement by the department to loan to the supplier, during the progress of construction or following completion of construction as agreed by the parties, an amount which equals the portion of construction costs found by the department to be eligible for a state loan.

(3) An agreement by the supplier to repay the state over a period not to exceed 50 years, (A) the amount of the loan, (B) the administrative fee as described in Section 13897, and (C) interest on the principal, which is the amount of the loan plus the administrative fee.

(4) An agreement by the supplier, (A) to proceed expeditiously with, and complete, the project, (B) to commence operation of the project upon completion thereof, and to properly operate and maintain the project in accordance with the applicable provisions of law, (C) to apply for, and make reasonable efforts to secure, federal assistance for the project, (D) to secure approval of the department and of the State Department of Health Services before applying for federal assistance in order to maximize and best utilize the amounts of that assistance available, and (E) to provide for payment of the supplier's share of the cost of the project, if any.

(d) Bond proceeds may be used for a grant program in accordance with this chapter, with grants provided to suppliers that are political subdivisions of the state that are otherwise unable to meet minimum safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code. The total amount of grants made pursuant to this chapter shall not exceed twenty-five million dollars ($25,000,000).

(e) Notwithstanding any other provision, the proceeds of any bonds authorized to be issued under the California Safe Drinking Water Bond Law of 1976 (Chapter 10.5 (commencing with Section 13850)), and the California Safe Drinking Water Bond Law of 1984 (Chapter 10.2 (commencing with Section 13810)) which are unissued and uncommitted on the effective date of this chapter, shall be used for loans and grants to suppliers in accordance with the terms, conditions, and purposes of this chapter. Loans made after November 6, 1984, pursuant to Chapter 10.2 (commencing with Section 13810) shall carry an interest rate calculated as prescribed in Section 13897.3.

13896. (a) The department may make state grants to suppliers that are political subdivisions of the state, from moneys in the fund available for that purpose pursuant to subdivision (d) of Section 13895.9, to aid in the construction of projects which will enable the public agency to meet, at a minimum, safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code. A grant may be made by the department only upon the specific approval of the Legislature, by an act enacted after the receipt of a report filed pursuant to Section 13896.2

(b) Any contract for a grant entered into pursuant to this chapter may include provisions as agreed by the parties thereto, and the contract shall include, in substance, all of the following provisions:

(1) An estimate of the reasonable cost of the project.

(2) An agreement by the department to grant to the public agency, during the progress of construction or following completion of construction as agreed by the parties, an amount which equals the portion of construction costs found by the department to be eligible for a state grant.

(3) An agreement by the public agency, (A) to proceed expeditiously with, and complete, the project, (B) to commence operation of the project upon completion thereof, and to properly operate and maintain the project in accordance with the applicable provisions of law, (C) to apply for, and make reasonable efforts to secure, federal assistance for the project, (D) to secure approval of the department and of the State Department of Health Services before applying for federal assistance in order to maximize and best utilize the amounts of that assistance available, and (E) to provide for payment of the public agency's share of the cost of the project, if any.

13896.1. Applications for grants under this chapter shall be made to the department in the form and with the supporting material as prescribed by the department.

13896.2. The department shall prepare a report on each grant application pursuant to this chapter. The report shall be filed with the Legislature, if it is in session or, if it is not in session, with the Joint Rules Committee. The department shall be authorized to make the grant only upon the specific approval of the grant by the Legislature,

by an act enacted after the receipt of the report from the department.

13896.3. (a) Loans and grants may be made only for projects for domestic water systems. The State Department of Health Services may make reasonable allowance for future water supply needs and may provide for additional capacity when excessive costs would be incurred by later enlargement. The loans and grants may be made for all, or any part, of the cost of constructing, improving, or rehabilitating any system when, in the judgment of the State Department of Health Services, improvement or rehabilitation is necessary to provide pure, wholesome, and potable water in adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes. The State Department of Health Services shall determine and notify applicants of eligibility of components requested to be included in the proposed project. The department shall use this determination as a basis for disbursing funds. No single public agency shall receive grants pursuant to this chapter totaling more than four hundred thousand dollars ($400,000). Loans may be made to provide for the purchase of a water system or the purchase of watershed lands. No loan to an individual supplier shall exceed the sum of five million dollars ($5,000,000), unless the Legislature by an act raises the limit specified in this section.

(b) Upon receipt of an application for a grant or loan pursuant to this chapter, the department shall propose to the applicant improvements to the applicant's water development, distribution, and utilization system which will conserve water in a cost-effective manner. These improvements may include, but need not be limited to, leak detection and repair programs, valve repair and replacement, meter calibration and replacement, physical improvements to achieve corrosion control, distribution and installation of water conservation devices and fixtures, and other capital improvements which can be demonstrated to conserve water in a cost-effective manner. The department and applicant may agree to include these capital improvements in the grant or loan. Failure by the applicant to include water conservation capital improvements in the grant or loan application shall not be sufficient cause for the department to refuse to make the grant or loan.

13896.4. An application for a grant pursuant to this chapter shall not be approved by the department, unless the department determines that the public agency is otherwise unable to meet minimum safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

No grant shall be made by the department except upon approval by the State Department of Health Services of project plans submitted by the applicant and upon written approval by the State Department of Health Services that the proposed project is consistent with Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

13896.5. First priority for grants shall be granted to public agencies having immediate health related problems, as certified by the State Department of Health Services. Additional high priority shall be granted to projects to correct immediate problems, as opposed to grants for construction of projects to meet future growth needs.

13896.6. First priority for loans shall be given to suppliers with the most critical public health problems. Priority for loans shall also be given to suppliers which have a lesser capability to reasonably finance system improvements.

13896.7. Preliminary design work, including a cost estimate for the project, shall be completed before a loan or grant is awarded. Operation and maintenance costs shall be the responsibility of the supplier and may not be considered as part of the project cost. Costs for planning and preliminary engineering studies may be reimbursed following the receipt of a loan or grant, subject to approval by the department and the State Department of Health Services.

13896.8. No application for a grant may be made pursuant to this chapter unless the public agency has also applied for a loan pursuant to this chapter. A public agency shall be eligible for a grant only to the extent that the department finds that the agency is found unable to repay the full costs of a loan.

If the department has determined that the applicant is unable to repay the full costs of a loan, the applicant may also file for a grant. Upon receipt of a grant application, the department shall determine that portion of the full costs that the applicant is capable of repaying. Grant funds shall only be provided for that portion that the applicant is not capable of repaying.

13896.9. Grant funds shall be expended by the public agency within three years of the making of the grant. No grant funds may be expended by the public agency unless the public agency is able to demonstrate to the department, within one year of the making of the grant, supported by an acceptable bid, that the amount to be expended for the project will be within 20 percent of the public agency's cost estimate for the project.

13897. For the purpose of administering this chapter, the total expenditures of the department and the State Department of Health Services may not exceed 5 percent of the total amount of the bonds authorized to be issued under this chapter. The department shall establish a reasonable schedule of administrative fees for loans, which fees shall be paid by the supplier pursuant to Section 13895.9, to reimburse the state for the costs of state administration of this chapter.

Charges incurred by the Attorney General in protecting the state's interests in the use and repayment of grant and loan funds under this chapter shall be paid from the proceeds of bond sales under this chapter. These charges shall not be paid from funds allocated for administrative purposes, but shall be treated as a program expense

not to exceed 1.5 percent of the total amount of the bonds authorized to be sold under this chapter.

13897.1. As much of the moneys in the fund as may be necessary shall be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

13897.2. Repayment of all or part of the principal, which is the loan plus the administrative fee, may be deferred during a development period not exceeding 10 years within the maximum 50-year repayment period, when, in the department's judgment, the development period is justified under the circumstances. Interest on the principal shall not be deferred. Repayment of principal which is deferred during a development period may, at the option of the supplier, be paid in annual installments during the remainder of the loan repayment period.

13897.3. The department shall annually establish the interest rate for loans made pursuant to this chapter at 50 percent of the average interest rate, computed by the true interest cost method, paid by the state on general obligation bonds for the prior calendar year. All loans made pursuant to this chapter shall carry the established interest rate for the calendar year in which the funds are committed to the loan, as of the date of the letter of commitment from the department, and shall remain at that interest rate for the duration of the loan.

13897.4. (a) The department, after public notice and hearing and with the concurrence of the State Department of Health Services, shall adopt rules and regulations necessary to carry out the purposes of this chapter. The regulations shall include, but not be limited to, criteria and procedures for establishing the eligibility of a supplier.

(b) The department shall adopt rules and regulations that, in its judgment, will most effectively carry out this chapter in the public interest, to the end that the people of California are most efficiently and most economically provided supplies of pure, wholesome, and potable domestic water. The rules and regulations may provide for the denial of funds when the purposes of this chapter may most economically and efficiently be attained by means other than the construction of the proposed project.

(c) Notwithstanding subdivision (a) or any other provision of law, existing rules and regulations adopted by the department pursuant to the California Safe Drinking Water Bond Law of 1984 (Chapter 10.2 (commencing with Section 13810)) which are in effect on the effective date of this chapter, may, at the option of the department, be utilized upon voter approval of this chapter for purposes of implementing this chapter. The department, with the concurrence of the State Department of Health Services, may subsequently revise those rules and regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code as necessary to implement provisions of this

chapter which differ from Chapter 10.2 (commencing with Section 13810) or for any other reason to carry out the purposes of this chapter.

13897.5. The State Department of Health Services shall notify suppliers that may be eligible for loans pursuant to this chapter of (a) the purposes of this chapter and (b) the rules and regulations adopted by the department.

13897.6. (a) The State Department of Health Services, after public notice and hearing and with the advice of the department, shall, from time to time, establish a priority list of suppliers to be considered for financing.

(b) Notwithstanding subdivision (a) or any other provision of law, the priority list established by the State Department of Health Services pursuant to the California Safe Drinking Water Bond Law of 1984 (Chapter 10.2 (commencing with Section 13810)) in effect on the effective date of this chapter may, at the option of the State Department of Health Services, be utilized upon voter approval of this chapter until the State Department of Health Services adopts a new priority list.

13897.8. Not more than twenty-five million dollars ($25,000,000) of state loans for projects shall be authorized by the department in a single calendar quarter. No contract shall be approved by the department, unless the department finds that the supplier has the capacity to repay the loan amounts specified in the contract.

At the request of the department, the Public Utilities Commission shall furnish comments concerning the ability of suppliers subject to its jurisdiction to finance the project from other sources and the ability to repay the loan.

13897.9. All bonds authorized, which have been duly sold and delivered pursuant to this chapter, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereon.

There shall be collected annually in the same manner, and at the same time as other state revenue is collected, a sum, in addition to the ordinary revenues of the state, that is required to pay the principal and interest on the bonds, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of that revenue, to do and perform each and every act which shall be necessary to collect that additional sum.

All money deposited in the fund which has been derived from premium on bonds sold is available for transfer to the General Fund as a credit to expenditures for bond interest.

13898. (a) All money repaid to the state pursuant to any contract executed under Section 13895.9 shall be deposited in the General Fund and, when so deposited, shall be applied as a reimbursement to the General Fund on account of principal and interest on bonds issued pursuant to this chapter which has been paid from the General Fund.

(b) The department may enter into contracts with suppliers of water for grants or short-term loans for the purpose of investigating and identifying alternatives for system improvements. Any loans or grants pursuant to this section shall be made from the fund. No supplier may receive for a single investigation more than twenty-five thousand dollars ($25,000) in the form of a loan or grant pursuant to this section. The State Department of Health Services shall review all proposed investigations and shall determine if they are necessary and appropriate.

(c) Any contract entered into pursuant to this section shall include terms and conditions consistent with this chapter, and any loan contract shall provide for a repayment period not to exceed 24 months.

(d) Not more than three million dollars ($3,000,000) may be expended for the purposes of this section, of which not more than one million dollars ($1,000,000) may be used for grants to public agencies. A loan or grant made for the purposes of this section shall not decrease the maximum amount of any other loan or grant which may be made under this chapter, Chapter 10.2 (commencing with Section 13810), Chapter 10.5 (commencing with Section 13850), or Chapter 10.6 (commencing with Section 13880).

13898.1. There is hereby appropriated from the General Fund in the State Treasury, for the purpose of this chapter, an amount equal to the sum of the following:

(a) The amount annually necessary to pay the principal of, and the interest on, the bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The amount necessary to carry out Section 13898.2, which amount is appropriated without regard to fiscal years.

13898.2. For the purpose of carrying out this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of carrying out this chapter.

Any amounts withdrawn shall be deposited in the fund and shall be disbursed by the department in accordance with this chapter. Any money made available under this section to the department shall be returned by the department to the General Fund plus interest the money would have earned in the Pooled Money Investment Account from money received from the first sale of bonds sold for the purpose of carrying out this chapter subsequent to the withdrawal.

13898.3. Upon request of the department, supported by a statement of the proposed arrangements to be made pursuant to Section 13895.9 for the purposes stated therein, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make those arrangements, and, if so, the amount of bonds then to be issued and sold. Successive issues of bonds may be authorized and sold to make

those arrangements progressively, and it shall not be necessary that all of the bonds authorized to be issued shall be sold at any one time.

13898.4. The committee may authorize the Treasurer to sell all or any part of the bonds authorized at the time or times as fixed by the Treasurer.

13898.5. All proceeds from the sale of bonds, except those derived from premiums and accrued interest, are available for the purpose provided in Section 13898.5, but are not available for transfer to the General Fund to pay principal and interest on bonds. The money in the fund may be expended only as provided in this chapter.

Opposite the square there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in a manner to carry out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 415

An act to amend Sections 10556, 10950, 10952.5, 10953, 10954, 10957, 10958, 10959, 10960, 10961, and 12700 of, to add Sections 10953.5, 10958.1, 10966, and 10967 to, and to repeal Section 15060 of, the Welfare and Institutions Code, relating to public social services, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 17, 1986 Filed with Secretary of State July 17, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 10556 of the Welfare and Institutions Code is amended to read:

10556. The chief administrative law judge of the department shall be an attorney, and shall otherwise meet such qualifications as may be prescribed by the State Personnel Board. The director shall appoint the chief administrative law judge. The office of the chief administrative law judge shall not be made a part of any other division, office, or subdivision of the department. The chief administrative law judge shall be directly responsible to the director.

SEC. 2. Section 10950 of the Welfare and Institutions Code is amended to read:

10950. If any applicant for or recipient of public social services is dissatisfied with any action of the county department relating to his application for or receipt of public social services, if his application is not acted upon with reasonable promptness, or if any person who desires to apply for public social services is refused the opportunity

to submit a signed application therefor, and is dissatisfied with such refusal, he shall, in person or through an authorized representative, without the necessity of filing a claim with the board of supervisors, upon filing a request with the State Department of Social Services or the State Department of Health Services, whichever department administers the public social service, be accorded an opportunity for a fair hearing.

Priority in setting and deciding cases shall be given in those cases in which aid is not being provided pending the outcome of the hearing. This priority shall not be construed to permit or excuse the failure to render decisions within the time allowed under federal and state law.

Notwithstanding any other provision of this code, there is no right to a state hearing when either (1) state or federal law requires automatic grant adjustments for classes of recipients unless the reason for an individual request is incorrect grant computation, or (2) the sole issue is a federal or state law requiring an automatic change in services or medical assistance which adversely affects some or all recipients.

For the purposes of administering health care services and medical assistance, the State Director of Health Services shall have those powers and duties conferred on the Director of Social Services by this chapter to conduct fair hearings in order to secure approval of a state plan under the provisions of applicable federal law.

The State Director of Health Services may contract with the State Department of Social Services for the provisions of fair hearings in accordance with this chapter

As used in this chapter, "recipient" means an applicant for or recipient of public social services except aid exclusively financed by county funds or aid under Chapter 3 (commencing with Section 12000) of Part 3 of this division, or those activities conducted under Chapter 6 (commencing with Section 18350) of Part 6.

If regulations require a public or private agency to write a position statement concerning the issues in question in a fair hearing, or if the public or private agency chooses to develop such a statement, not less than two working days prior to the date of a hearing provided for pursuant to this chapter, the public or private agency shall make available to the applicant for, or recipient of, public social services requesting a fair hearing, a copy of the public or private agency's position statement on the forthcoming hearing. The public or private agency shall make the copy available to the applicant or recipient at the county welfare department. A public or private agency shall be required to comply with the provisions of this section only if the public or private agency has received a 10-day prior notice of the date and time of the scheduled hearing.

If the public or private agency does not make the position statement available not less than two working days prior to the

hearing or if the public or private agency decides to modify the position statement, the hearing shall be postponed upon the request of the applicant or recipient, provided an applicant or recipient agrees to waive the right to obtain a decision on the hearing within the deadline that would otherwise be applicable under regulations. A postponement for reason of the public or private agency not making the position statement available within not less than two working days shall be deemed a postponement for good cause for purposes of determining eligibility to any applicable benefits pending disposition of the hearing.

For purposes of this section "public or private agency" shall not include the State Department of Health Services.

SEC. 3. Section 10953 of the Welfare and Institutions Code is amended to read:

10953. A hearing under this chapter shall be conducted by administrative law judges employed by the department, unless the director orders that it shall be conducted by himself or herself. However, the director may contract with the Office of Administrative Hearings to conduct hearings.

All persons in the office of the chief referee employed as hearing officers by the department prior to the effective date of this section shall be deemed to be administrative law judges.

SEC. 5. Section 10954 of the Welfare and Institutions Code is amended to read:

10954. The director or administrative law judge conducting the hearing, shall have all of the powers and authority conferred upon the head of a department in Article 2 (commencing with Section 11180) of Chapter 2 of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 6. Section 10957 of the Welfare and Institutions Code is amended to read:

10957. The person conducting the hearing, upon good cause shown, may continue the hearing for a period of not to exceed 30 days. When the refusal of a county to accept a signed application for aid or services is an issue, the director may require the county to accept the application, and may continue the case until the results of the investigation have been reported to him or her. In any such case in which aid is awarded by the director or his or her designee, the payments shall commence at the time indicated by the director

or his or her designee.

SEC. 7. Section 10958 of the Welfare and Institutions Code is amended to read:

10958. If the hearing is conducted by an administrative law judge, he or she shall prepare a fair, impartial, and independent proposed decision, in writing and in such format that it may be adopted as the director's decision and, after approval of the decision by the chief administrative law judge of the department, the chief administrative law judge shall file a copy of the proposed decision, within 75 days after the conclusion of the hearing, with the director.

SEC. 7.5. Section 10958.1 is added to the Welfare and Institutions Code, to read:

10958.1. The issues at the hearing shall be limited to those issues which are reasonably related to the request for hearing or other issues identified by either party which they have mutually agreed, prior to or at the hearing, to discuss. All of those issues shall be addressed in the hearing decisions.

SEC. 8. Section 10959 of the Welfare and Institutions Code is amended to read:

10959. Within 30 days after the department has received a copy of the administrative law judge's proposed decision, the director may adopt the decision in its entirety; decide the matter himself or herself on the record, including the transcript, with or without taking additional evidence; or order a further hearing to be conducted by himself or herself, or another administrative law judge on behalf of the director. Failure of the director to adopt the proposed decision, decide the matter himself or herself on the record, including the transcript, with or without taking additional evidence or order a further hearing within the 30 days shall be deemed an affirmation of the proposed decision. If the director decides the matter, a copy of his or her decision shall be served on the applicant or recipient and on the affected county, and, if his or her decision differs materially from the proposed decision of the administrative law judge, a copy of that proposed decision shall also be served on the applicant or recipient and on the affected county. If a further hearing is ordered, it shall be conducted in the same manner and within the same time limits specified for the original hearing.

The director shall immediately serve a copy of the request on the other party to the hearing and such other party may within five days of the service file with the director a written statement supporting or objecting to the request. The director shall grant or deny the request no earlier than the fifth nor later than the 15th working day after the

receipt of the request. If the director grants the request, the rehearing shall be conducted in the same manner and subject to the same time limits as the original hearing. If action is not taken by the director within the time allowed, the request shall be deemed denied.

SEC. 9.5. Section 10961 of the Welfare and Institutions Code is amended to read:

10961. The decision of the director need not specify the amount of the award to be paid unless the amount of the award is an issue. If the decision is in favor of the applicant or recipient, the county department shall pay to the applicant or recipient, without the necessity of establishing his or her present need, the amount of aid the director finds he or she is entitled to receive pursuant to the director's decision, payment to commence as of the date the person was first entitled thereto, or grant to him or her the services to which he or she is entitled.

The award shall be determined no later than 30 days following the date that the hearing decision is received by the county, or 30 days from the date the additional information needed for compliance with the decision is provided to the county. After the award is made, the county and the claimant shall be notified by the department of its determination regarding the county's compliance with the decision.

SEC. 10. Section 10966 is added to the Welfare and Institutions Code, to read:

10966. The authority to adopt final decisions shall not be contingent upon the outcome of the judge's resolution of the case or issue, nor upon the identity of a particular administrative law judge. The defined areas of delegation shall be published by the department after interested groups such as the Coalition of California Welfare Rights Organizations, legal aid societies, and the County Welfare Directors Association have had a reasonable amount of time to review and comment.

(b) Notwithstanding any other provisions of this chapter, decisions rendered by the administrative law judges under the authority of this section shall be treated, for all purposes, as the decision of the director. The written delegation instrument shall include paragraphs (1) and (2) of the following, and may include paragraph

If the administrative law judge determines that adequate notice was provided, the recipient shall agree to discuss the substantive issue or issues or the case shall be dismissed. If the administrative law judge determines that adequate notice was not provided, the case will be postponed unless the recipient waives the adequate notice requirement and agrees to discuss the substantive issue or issues at the hearing. No loan in excess of fifteen thousand dollars ($15,000) shall be made to any individual under this section.

The department shall establish through the Office of Services to the Blind the terms and conditions of loans made pursuant to this section, and shall prescribe the procedure to be followed in making application for such loans. All funds received in repayment of loans made pursuant to this section shall be deposited in the Revolving Loan Fund, and shall be available for the making of additional loans as provided in this section.

The collection procedures appropriate to the purposes and objectives of the loan fund shall be prescribed by the Office of

Services to the Blind.

SEC. 12. Section 15060 of the Welfare and Institutions Code is repealed.

SEC. 13. Savings due to reductions in aid paid pending as a result of this act may be used to fund part of the cost of reallocating hearing officers to administrative law judges. For this purpose, the State Department of Social Services may transfer an amount not to exceed three hundred sixty thousand dollars ($360,000) for the 1986–87 fiscal year, from the department's local assistance budget contained in Items 5180-101-001 and 5180-101-890 of the Budget Act for the 1986–87 fiscal year, to the department's support budget items contained in 5180-001-001 and 5180-001-890 of the Budget Act for the 1986–87 fiscal year.

SEC. 14. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

When an application for public social services is denied, or when an existing grant is terminated or reduced, relief may be obtained only by appeal through the administrative hearing process. During this process applicants receive no public assistance and many recipients face reduced or complete termination of benefits. Recent increases in the backlog of appeals have caused critical delays in the timeliness of hearing decisions. In order to permit immediate improvements in the administrative process thereby reducing delays to all needy families applying for and receiving benefits, it is necessary for this act to take immediate effect.

[Approved by Governor July 21, 1986 Filed with Secretary of State July 21, 1986.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature to emphasize to all pupils in California that each pupil's primary responsibility is to meet the academic challenge of learning. It is further the intent that extracurricular and cocurricular activities are an integral, but supplemental, part of educational programs in grades 7 to 12, inclusive.

It is the intent of the Legislature to foster academic excellence in the public school system and to encourage students to learn the importance of establishing priorities that are designed to lead toward total personal development. It is further the intent of the Legislature to promote balance in students' lives, enabling them to realize complete success in the educational system that will translate into complete success in all walks of life.

In addition, this act shall not be construed as a means to exclude students from participation in extracurricular activities, but rather a means to encourage and to promote academic excellence. To the extent that students are excluded from these activities, the schools are encouraged to do whatever is possible to assist these students in meeting the academic standards prescribed in this act, including the utilization of student support services, including, but not limited to, counseling and tutoring.

SEC. 2. Section 35160.5 of the Education Code is amended to read:

35160.5. (a) On or before December 1, 1984, the governing board of each school district shall, as a condition for the receipt of school apportionments from the State School Fund, adopt rules and regulations establishing school district policies as they relate to the following:

evaluation for teachers they are assigned to evaluate. The determination of whether school personnel meet the district's adopted policies shall be made by the governing board.

(2) The establishment of district policies ensuring that each probationary certificated employee is assigned to a school within the district with assurances that his or her status as a new teacher and his or her potential needs for training, assistance, and evaluations will be recognized by the district.

(3) The establishment of policies and procedures that parents or guardians of pupils enrolled in the district may use to present complaints regarding employees of the district. These policies and procedures shall provide for appropriate mechanisms to respond to, and where possible, to resolve the complaints.

(b) The governing board of each school district that maintains one or more schools containing any of grades 7 to 12, inclusive, shall, as a condition for the receipt of an inflation adjustment pursuant to Section 42238.1, establish a school district policy regarding participation in extracurricular and cocurricular activities by pupils in grades 7 to 12, inclusive. The criteria, which shall be applied to extracurricular and cocurricular activities, shall ensure that pupil participation is conditioned upon satisfactory educational progress in the previous grading period. Pupils who are eligible for differential standards of proficiency pursuant to subdivision (d) of Section 51215 are covered by this section consistent with that subdivision. No person shall classify a pupil as eligible for differential standards of proficiency pursuant to subdivision (d) of Section 51215 for the purpose of circumventing the intent of this subdivision.

(1) For purposes of this subdivision, "extracurricular activity" means a program that has all of the following characteristics:

(A) The program is supervised or financed by the school district.

(B) Students participating in the program represent the school district.

(C) Students exercise some degree of freedom in either the selection, planning, or control of the program.

(D) The program includes both preparation for performance and performance before an audience or spectators.

(2) For purposes of this subdivision, an "extracurricular activity" is not part of the regular school curriculum, is not graded, does not offer credit, and does not take place during classroom time.

(3) For purposes of this subdivision, a "cocurricular activity" is defined as a program that may be associated with the curriculum in a regular classroom.

(4) For purposes of this subdivision, "satisfactory educational progress" shall include, but not be limited to, the following:

(A) Maintenance of minimum passing grades, which is defined as at least a 2.0 grade point average in all enrolled courses on a 4.0 scale.

(B) Maintenance of minimum progress toward meeting the high school graduation requirements prescribed by the governing board.

(5) A program that has, as its primary goal, the improvement of

academic or educational achievements of pupils is not an extracurricular or cocurricular activity as defined by this section.

(6) The governing board of each school district may adopt, as part of its policy established pursuant to this subdivision, provisions that would allow a pupil who does not achieve satisfactory educational progress, as defined in paragraph (4), in the previous grading period to remain eligible to participate in extracurricular and cocurricular activities during a probationary period. The probationary period shall not exceed one semester in length, but may be for a shorter period of time, as determined by the governing board of the school district. A pupil who does not achieve satisfactory educational progress, as defined in paragraph (4), during the probationary period shall not be allowed to participate in extracurricular and cocurricular activities in the subsequent grading period.

(7) Nothing in this subdivision shall preclude the governing board of a school district from imposing a more stringent academic standard than that imposed by this subdivision. If the governing board of a school district imposes a more stringent academic standard, the governing board shall establish the criteria for participation in extracurricular and cocurricular activities at a meeting open to the public pursuant to Section 35145.

The governing board of each school district shall annually review the school district policies adopted pursuant to the requirements of this section.

SECTION 1. Chapter 21.7 (commencing with Section 17696) is added to Part 10 of the Education Code, to read:

CHAPTER 21.7. GREENE-HUGHES SCHOOL BUILDING LEASE-PURCHASE BOND LAW OF 1986

17696. This chapter may be cited as the Greene-Hughes School Building Lease-Purchase Bond Law of 1986.

17696.1. The State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) is adopted for the purpose of the issuance,

sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and that law.

17696.15. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(b) "Board" means the State Allocation Board.

(c) "Fund" means the State School Building Lease-Purchase Fund.

17696.2. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 22 (commencing with Section 17700)), and of all acts amendatory thereof and supplementary thereto, and to provide funds to repay any money advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act, and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of eight hundred million dollars ($800,000,000) in the manner provided herein, but not in excess thereof.

17696.25. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on the bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of the revenue, to do and perform each and every act which shall be necessary to collect the additional sum.

On the several dates of maturity of the principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund exclusive of funds transferred pursuant to subdivision (f) of Section 6217 of the Public Resources Code, not in excess of the principal of and interest on the bonds then due and payable, except as herein provided for the prior redemption of the bonds, and, in the event the money so returned on the dates of maturity is less than the principal and interest then due and payable, then the balance remaining unpaid shall be returned to the General Fund in the State Treasury out of the fund

as soon thereafter as it shall become available.

17696.3. All money deposited in the fund under Section 17732 and pursuant to Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code shall be available only for transfer to the General Fund, as provided in Section 17696.25. When transferred to the General Fund, the money shall be applied as a reimbursement of the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by the transfer of funds.

17696.35. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, an amount that will equal the following:

(a) The sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as the principal and interest become due and payable.

(b) The sum as is necessary to carry out Section 17696.4, which sum is appropriated without regard to fiscal years.

17696.4. For the purposes of carrying out the provisions of this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund for moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

17696.5. Upon request of the board from time to time, supported by a statement of the apportionments made and to be made under Chapter 22 (commencing with Section 17700), the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to fund the apportionments, and, if so, the amount of bonds to be issued and sold. Four hundred million dollars ($400,000,000) shall be available for apportionment on December 1, 1986, and four hundred million dollars ($400,000,000) shall become available for apportionment on December 1, 1987, such that a total of eight hundred million dollars ($800,000,000) has become available for apportionment. The Treasurer shall sell the bonds so determined at such different times as necessary to service expenditures required by the apportionments.

17696.6. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, the

computation to be made on a 360-day-year basis.

17696.7. The committee may authorize the Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the Treasurer.

17696.8. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 17695.25 to pay principal and interest on bonds.

17696.9. With respect to the proceeds of bonds authorized by this chapter, all provisions of Chapter 22 (commencing with Section 17700) shall apply.

17696.95. Out of the first money realized from the sale of bonds under this chapter, there shall be repaid any moneys advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act.

17696.96. Not more than three hundred sixty million dollars ($360,000,000) of the moneys authorized by this chapter shall be reserved for the reconstruction or modernization of facilities within the meaning of Chapter 22 (commencing with Section 17700).

17696.98. An amount not to exceed 5 percent of the proceeds from the sale of bonds pursuant to this chapter may be used to purchase and install air-conditioning equipment and insulation materials pursuant to Section 17717.6.

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares as follows:

(a) California's economic and social prosperity relies on a higher education system that keeps pace with California's growth. In the coming decades, the state's economic prosperity will depend on increasing the productivity of the work force and on the ability to compete successfully in the world marketplace.

(b) The system of public higher education in this state includes the University of California, the California State University, the California Community Colleges, and the California Maritime Academy. Each of these institutions plays a vital role in maintaining California's dominance in higher education in the United States.

(c) Over the last several years, studies have been completed by the University of California, the California State University, and the California Community Colleges to assess their long-term and short-term capital needs, which studies demonstrate that these needs total, in the aggregate, several billion dollars.

(d) The purpose of the Higher Education Facilities Bond Act of 1986 is to take the first step toward meeting the capital outlay financing needs of California's public higher education system.

SEC. 2. Chapter 14.5 (commencing with Section 67350) is added to Part 40 of the Education Code, to read:

The Treasurer shall serve as chairperson of the committee.

67354. For the purposes of carrying out the provisions of this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund, together with interest in the amount that those moneys would have earned in the Pooled Money Investment Account, which repayment shall be made from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

CHAPTER 425

An act to amend Section 1522 of the Health and Safety Code, relating to community care facilities.

[Approved by Governor July 21, 1986 Filed with Secretary of State July 22, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 1522 of the Health and Safety Code is amended to read:

1522. It is the intent of the Legislature in enacting this section to require the fingerprints of those individuals whose contact with community care clients may pose a risk to the clients' health and safety.

(a) Before issuing a license or special permit to any person or persons to operate or manage a community care facility, the state department shall secure from an appropriate law enforcement agency a criminal record to determine whether the applicant or any other person specified in subdivision (b) has ever been convicted of a crime other than a minor traffic violation. No fee shall be charged by the Department of Justice or the state department for the fingerprinting of an applicant for a license or special permit to operate a facility providing nonmedical board, room, and care for six or less children or for obtaining a criminal record of the applicant pursuant to this section. If it is found that the applicant or any other person specified in subdivision (b) has been convicted of a crime, other than a minor traffic violation, the application shall be denied, unless the director grants an exemption pursuant to subdivision (e).

(b) In addition to the applicant, this section shall be applicable to criminal convictions of the following persons:

(1) Adults responsible for administration or direct supervision of staff.

(2) Any person, other than a client, residing in the facility.

(3) Any person who provides client assistance in dressing, grooming, bathing, or personal hygiene.

(4) Any staff person or employee who has frequent and routine contact with the clients. In determining who has frequent contact, any volunteer who is in the facility shall be exempt unless the volunteer is used to replace or supplement staff in providing direct care and supervision of clients. In determining who has routine contact, staff and employees under direct onsite supervision and who are not providing direct care and supervision or who have only occasional or intermittent contact with clients shall be exempt.

(5) Except for staff members of social rehabilitation facilities serving minors with alcohol or drug abuse problems, staff members of social rehabilitation facilities, other than those specified in paragraphs (1) and (2), are exempt from fingerprinting

requirements.

(6) If the applicant is a firm, partnership, association, or corporation, the chief executive officer or other person serving in like capacity.

(7) Additional officers of the governing body of the applicant, or other persons with a financial interest in the applicant, as determined necessary by the department by regulation. The criteria used in the development of these regulations shall be based on the person's capability to exercise substantial influence over the operation of the facility.

(c) Subsequent to initial licensure, any person specified in subdivision (b) and not exempted from fingerprinting shall, as a condition to employment, residence, or presence in a community care facility, be fingerprinted and sign a declaration under penalty of perjury regarding any prior criminal convictions. The licensee shall submit these fingerprints to the licensing agency not later than 20 days following employment, residence, or initial presence in the community care facility. These fingerprints may be on a card provided by the Department of Social Services or by a local law enforcement office for the purpose of obtaining a permanent set of fingerprints. Upon request of the provider, who shall enclose a self-addressed stamped postcard for this purpose, the department shall verify receipt of the fingerprints.

Within 10 working days of the receipt of these fingerprints, the Department of Social Services shall submit them to the Department of Justice. Within 10 working days of the receipt of the criminal record or information regarding criminal convictions from the Department of Justice, the department shall, when necessary as determined by the department, notify the licensee of the criminal convictions, as provided in this subdivision. If new fingerprints are required for processing, the Department of Social Services shall notify the licensee within five working days from the date of notification by the Department of Justice that the fingerprints were illegible. Except for persons specified in paragraph (2) of subdivision (b), the licensee shall endeavor to ascertain the previous employment history of persons required to be fingerprinted under this subdivision. If it is determined by the Department of Social Services, on the basis of the fingerprints submitted to the Department of Justice, that the person has been convicted of a sex offense against a minor, or has been convicted for an offense specified in Section 243.4, 273a or 273d of the Penal Code, or has been convicted of a felony, the Department of Social Services shall notify the licensee to act immediately to terminate the person's employment, remove the person from the community care facility, or bar the person from entering the community care facility. The Department of Social Services may subsequently grant an exemption pursuant to subdivision (e). If the conviction was for another crime, except a minor traffic violation, the licensee shall, upon notification by the Department of Social Services, act immediately to either (1)

terminate the person's employment, remove the person from the community care facility, or bar the person from entering the community care facility; or (2) seek an exemption pursuant to subdivision (e). The Department of Social Services shall determine if the person shall be allowed to remain in the facility until a decision on the exemption is rendered.

(d) For purposes of this section or any other provision of this chapter, a conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action which the state department is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, notwithstanding a subsequent order pursuant to the provisions of Sections 1203.4 and 1203.4a of the Penal Code permitting the person to withdraw his or her plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment. For purposes of this section or any other provision of this chapter, the record of a conviction, or a copy thereof certified by the clerk of the court or by a judge of the court in which the conviction occurred, shall be conclusive evidence of the conviction.

(e) After review of the record, the director may grant an exemption from disqualification for a license or special permit pursuant to subdivision (a), or for employment, residence, or presence in a community care facility as specified in subdivision (c) if the director has substantial and convincing evidence to support a reasonable belief that the applicant and the person convicted of the crime, if other than the applicant, are of such good character as to justify issuance of the license or special permit or granting an exemption for purposes of subdivision (c). No exemption shall be granted pursuant to this subdivision if the conviction was for an offense specified in Section 220, 243.4, or 264.1, or paragraph (1) of Section 273a, or Sections 273d, 288, or 289 of the Penal Code, or was a conviction of another crime against an individual specified in paragraph (3), (4), (5), or (6) of subdivision (c) of Section 667.5 of the Penal Code. However, the director may grant an exemption if the employee or prospective employee, who was convicted of a crime against an individual in paragraph (1), (2), (7), or (8) of subdivision (c) of Section 667.5 of the Penal Code, has been rehabilitated as provided in Section 4852.03 of the Penal Code and has maintained the conduct required in Section 4852.05 of the Penal Code for at least 10 years and has the recommendation of the district attorney representing the employee's county of residence, or if the employee or prospective employee has received a certificate of rehabilitation pursuant to Chapter 3.5 (commencing with Section 4852.01) of Title 6 of Part 3 of the Penal Code.

An act to amend Sections 54711 and 54715 of the Government Code, relating to benefit assessments.

[Approved by Governor July 22, 1986 Filed with Secretary of State July 22, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 54711 of the Government Code is amended to read:

54711. (a) No benefit assessment shall be levied pursuant to this chapter unless it meets all of the following requirements:

(1) The amount of the assessment imposed on any parcel of property shall be related to the benefit to the parcel which will be derived from the provision of the service. Except as provided in subdivision (d) or (e) of Section 54715, in the case of a benefit assessment for flood control services, the benefit may be determined on the basis of the proportionate storm water runoff from each parcel.

(2) The annual aggregate amount of the assessment shall not exceed the estimated annual cost of providing the service.

(3) The revenue derived from the assessment shall not be used to pay the cost of any service other than the service for which the assessment was levied.

(b) This section does not limit or prohibit the levy or collection of any other fee, charge, or tax for the provision of services, except that a maintenance district formed pursuant to Chapter 7 (commencing with Section 1550) of Division 2 of the Streets and Highways Code may impose an assessment pursuant to this chapter only as an alternative to imposing a property tax for the provision of street lighting services.

SEC. 2. Section 54715 of the Government Code is amended to read:

54715. (a) The legislative body of a local agency may by ordinance or resolution, adopted after notice and public hearing, determine and propose for adoption an annual assessment on each parcel of real property within the jurisdiction of the local agency, except that the governing body shall not impose an assessment upon a federal or state governmental agency or another local agency.

(b) The legislative body may establish zones or areas of benefit within the local agency and may restrict the imposition of the assessment to areas lying within one or more of the zones or areas of benefit established within the local agency.

(c) The benefit assessment shall be levied on a parcel, class of improvement to property, or use of property basis, or a combination thereof, within the boundaries of the local agency, zone, or area of benefit. Except as provided in subdivision (d) or (e), in the case of a benefit assessment for flood control services, the benefit assessment may be levied on the basis of proportionate storm water runoff from each parcel.

The assessment may be levied against any parcel, improvement, or use of property to which such services may be made available, whether or not such service is actually used.

(d) Whenever a railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way is included within an area proposed to be assessed, the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way shall be subject to the assessment only if, and to the extent that, it is found that it will benefit from the service, and the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way shall be subject to the same penalties, and the same procedure and sale, in the event of delinquencies, as other parcels in the assessment area. In determining whether or not the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way benefits from the services provided, its use as a right-of-way for a railroad, gas, water, telephone, cable television,

electric, or other utility shall be presumed to be permanent.

(e) Proportionate storm water runoff may be used as a measure of benefit on an undeveloped parcel of land pursuant to this section only if, and to the extent that, it is found that it will benefit from the service.

For the purposes of this section, an undeveloped parcel of land means a parcel of rural land in its undeveloped natural state, although the land may be grazed, if otherwise undisturbed, in a manner consistent with the normally accepted grazing land management practices for that geographic area. An undeveloped parcel of land also includes wetlands and marshlands if undisturbed and subject to periodic inundation. For purposes of this section, rural land is land which is outside of an urbanized area, as designated by the most recent federal decennial census of the United States Bureau of the Census.

The issuing authority may include any reasonable restrictions or conditions which the authority finds necessary for the prevention of fire and explosion, the preservation of life, safety, or the control and security of explosives within the authority's jurisdiction. If, for any reason, the issuing authority refuses to endorse the permit previously issued in the area of intended use or storage, the authority shall immediately notify

(3) Every person who sells, gives away, delivers, or otherwise disposes of explosives to another person shall first be satisfied that the person receiving the explosives has a permit valid for that purpose. When the permit to receive explosives indicates that the intended storage or use of the explosives is other than in that area in which the permittee receives the explosives, the person who sells, gives away, delivers, or otherwise disposes of the explosives shall insure that the permit has been properly endorsed by a local issuing authority and, further, shall immediately send a copy of the record of sale to the issuing authority who originally issued the permit in the area of intended storage or use. The issuing authority in the area in which the explosives are received or sold shall not issue a permit for the possession, use, or storage of explosives in an area not within the authority's jurisdiction.

(d) In the event any person desires to receive explosives for use in an area outside of this state, a permit to receive the explosives shall be obtained from the State Fire Marshal.

(f) A permit shall remain valid only until the time when the act or acts authorized by the permit are performed, but in no event shall the permit remain valid for a period longer than one year from the date of issuance of the permit.

(g) Any valid permit which authorizes the performance of any act shall not constitute authorization for the performance of any act not stipulated in the permit.

(h) An issuing authority shall not issue a permit authorizing the transportation of explosives pursuant to this section if the display of placards for that transportation is required by Section 27903 of the Vehicle Code, unless the driver possesses a license for the transportation of hazardous materials issued pursuant to Division 14.1 (commencing with Section 32000) of the Vehicle Code, or the explosives are a hazardous waste or extremely hazardous waste, as defined in Sections 25117 and 25115 of the Health and Safety Code, and the transporter is currently registered as a hazardous waste hauler pursuant to Section 25163 of the Health and Safety Code.

SEC. 3. Section 32006 of the Vehicle Code is repealed.

Application for renewal registration shall be made on or before a date 60 days prior to the date that the current registration expires.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

(3) Authorize cash payments to or on behalf of the victim for job retraining or similar employment-oriented rehabilitative services.

36632. Upon the request of any interested person, the director may, following a properly noticed hearing, grant a temporary standard for a new milk product for an initial period of one year. However, in no case shall a temporary standard be granted for a product for which a definition and standard was contained in a bill which was not enacted during the immediately preceding session of the Legislature. A hearing called pursuant to this section shall be by written brief, unless an oral hearing is specifically requested by an interested person.

The petition shall include a proposed definition, standard, nomenclature, and label for the new product. The petition shall also

address the relation between the proposed product and existing definitions and standards established for comparable products.

36633. (a) A hearing called pursuant to this article shall be for the following purposes:

(1) Establishing if the product proposed for a temporary standard qualifies as a new dairy product.

(2) Evaluating the appropriateness of the proposed product definition, standard, nomenclature, and label offered by the petitioner.

(b) Following the hearing, the director shall evaluate the temporary standard request on the basis of all of the following:

(c) The petitioner for a temporary standard shall be notified of the director's decision on the request not later than 30 days following the hearing. The director's decision to grant a temporary standard shall take effect immediately, with subsequent review and approval by the Office of Administrative Law as provided in Section 36637.

36635. An unsuccessful petitioner for a temporary standard may repetition not earlier than 60 days following written notification of the denial of the original temporary standard request, if the proposed definition and standard have been modified in the interim or other conditions have changed so that a favorable ruling by the director might reasonably be expected.

36636. A temporary standard granted pursuant to this article may be renewed for a period of one year if the director determines that the renewal is necessary to adequately assess the market potential of the product. A second renewal of a temporary standard may be granted at the discretion of the director, except that in no case shall the second renewal be granted if legislation intended to permanently establish a standard and definition for the product currently being marketed pursuant to a temporary standard has not been introduced during the term of the standard.

The maximum duration of a temporary standard, including any renewals, shall not exceed three years.

36637. Upon granting a petition under this article, the director

shall adopt the standard as an emergency regulation pursuant to Chapter 3.5 (commencing with Section 11340) of Chapter 3.5 of Part 1 of Division 3 of Title 2 of the Government Code. For the purposes of that chapter, any regulations adopted shall be deemed to be necessary for the immediate preservation of the public peace, health and safety, or general welfare.

CHAPTER 444

An act to add Section 14680.8 to the Government Code, relating to state property, and making an appropriation therefor.

[Approved by Governor July 22, 1986 Filed with Secretary of State July 22, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 14680.8 is added to the Government Code, to read:

14680.8. (a) The Department of General Services shall conduct a state property management demonstration project within a defined geographic region to be determined by the department. The federal and local governments may add funds to the total amount the state makes available for consulting fees in exchange for the consultant's analysis of the market value of locally or federally owned public buildings and the consultant's evaluation of opportunities to adopt proactive assets management procedures and strategies with respect to those properties.

(b) In conducting this demonstration project, the department shall, utilizing a request for proposal process, contract with real estate investment and development consultants, alternative public sector financing consultants, and public management and policy consultants, in order to provide all of the following services:

(1) Develop an information base on state-occupied property to include location, size, and present use in leased space, and location, size, present use, and estimated market value of state-owned space.

(2) Identify segments of state-owned properties, such as, by market value, size, geographic region, proximity to commercial development, or historical significance, and recommend an order of priorities in which proactive assets managers should consider disposition or ownership restructuring alternatives.

(3) Describe and analyze in terms of cost and benefits to the state alternatives for selling, exchanging, or restructuring ownership of land or buildings currently owned by the state. These alternatives shall include, but not be limited to, appropriate forms of leveraged leasing.

(4) Enumerate possible options for earning revenue on the state's real estate holdings, including estimates of overall revenue currently foregone due to the lack of proactive assets management, and expected interest earnings on investment of the revenue from sale

of state-owned properties the present use of which is not economical from a proactive assets management point of view.

(5) Develop a proactive assets management methodology, with recommendations structuring cost controls and performance incentives within state government to meet strategic goals, including, but not limited to, all of the following:

(A) To reduce occupancy costs.

(B) To maximize efficiency of space utilization.

(C) To maintain or increase the value of state-owned property.

(D) To maximize revenue from state-controlled property.

(E) To manage property to support and implement state programs and policies, with an emphasis on the utilization of existing state-owned facilities.

(6) Assess the strength of bureaucratic resistance to proactive assets management in state government and suggest means of managing this resistance, including identification of appropriate areas for compromise.

(7) Analyze existing state and federal laws pertaining to proactive assets management options in state government, identify existing legal barriers to proposed alternative models for proactive assets management, and recommend changes in legislation necessary to facilitate the alternatives that would minimize state costs and maximize state revenue.

(8) Analyze the public policy implications of the recommendations for implementation of a proactive assets management approach to state-owned and state-controlled real estate, including, but not limited to, all of the following:

(A) Long-term versus short-term advantages and disadvantages of custodial property management and proactive assets management.

(B) Normalization parameters for public-private partnerships created for the purpose of conducting property management activities on behalf of the state, including an analysis of civil service barriers to contracting for specialized services.

(C) The comparative effectiveness of personal versus institutional incentives for performance of public obligations.

(c) The department shall appoint an advisory committee to assist the department and the consultants utilized under the demonstration project. The advisory committee shall participate in all aspects of the pilot project, including the assistance in the development of the request for proposals, as required under subdivision (a), and reviewing and commenting upon the final recommendations of the consultants prior to submission to the Governor and the Legislature. The department shall invite the federal government and affected local governments to participate in the advisory committee. The advisory committee shall include, but is not limited to, representatives, who shall be either directors or business service officers, of the state agencies that own or occupy property in the designated pilot project area.

(d) The department shall submit to the Legislature and the Governor the final recommendations of the consultants utilized under this section, along with any comments made on those recommendations by the advisory committee created under subdivision (c).

SEC. 2. The sum of one hundred twenty-five thousand dollars ($125,000) is hereby appropriated from the Property Acquisition Law Account to the Department of General Services in order to implement this act.

CHAPTER 445

An act to add Section 224b to the Civil Code, relating to adoption.

[Approved by Governor July 22, 1986 Filed with Secretary of State July 22, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 224b is added to the Civil Code, to read:

224b. (a) The State Department of Social Services shall establish a statewide photo-listing service which shall serve all licensed adoption agencies in the state as a means of recruiting adoptive families for children who have been legally freed, and whose case plan goal is adoption. The photo-listing service shall maintain a book that, except as provided in this section, contains a photograph and description of each child who has been legally freed, and whose case plan goal is adoption. Registration of children with the photo-listing service and notification by the licensed adoption agency of changes in a child's photo-listing status shall be reflected in the book within 30 working days of receipt of the registration or notification.

(b) The department shall promulgate regulations governing the operations of the photo-listing service and shall establish procedures for monitoring compliance with this section.

(c) The photo-listing service shall be provided to all licensed adoption agencies; adoption support groups; and state, regional, or national photo-listings or exchanges requesting copies of the photo-listing service.

(d) All legally freed children for whom adoption is the case plan shall be photo-listed, unless deferred as in subdivision (e) or (f). Licensed adoption agencies shall send a recent photograph and description of each legally freed child to the photo-listing service within 15 working days of the time a child is legally freed for adoption. When adoption has become the plan for a particular child, the agency may photo list that child prior to the child's becoming legally freed for adoption.

(e) A child shall be deferred from the photo-listing service when that child's foster parents or other identified individuals have applied

to adopt the child and their applications have not yet been processed by the adoption agency.

(f) A child who is 12 years old, or older, may be deferred from the photo-listing service if the child does not consent to being adopted.

Children who are not listed for the reason specified in subdivision (e) shall be listed with the photo-listing service within 60 working days of the date the child was legally freed, unless a notice of adoptive placement has been filed.

(g) The department shall establish procedures for semiannual review of the photo-listing status of all legally freed children whose case plan goal is adoption, including those who are registered with the photo-listing service and those whose registration has been deferred.

(h) Within 15 working days following a one-year period in which a child is listed in the book, the agency shall submit a revised description and photograph of that child.

(i) Licensed adoption agencies shall notify the photo-listing service, by telephone, of any adoptive placements or of significant changes in the child's photo-listing status within two working days of that change.

(j) This section does not apply to independent or intercountry adoptions.

SEC. 2. Pursuant to Section 17579 of the Government Code, the Legislature finds that there is no mandate contained in this act which will result in costs incurred by a local agency or school district for a new program or higher level of service which require reimbursement pursuant to Section 6 of Article XIII B of the California Constitution and Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

CHAPTER 446

An act to add and repeal Chapter 8.5 (commencing with Section 9650) of Part 1 of Division 8.5 of the Welfare and Institutions Code, relating to respite care services, and making an appropriation therefor.

[Approved by Governor July 22, 1986 Filed with Secretary of State July 22, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 8.5 (commencing with Section 9650) is added to Part 1 of Division 8.5 of the Welfare and Institutions Code, to read:

CHAPTER 8.5. RESPITE CARE SERVICES

9650. The Legislature finds and declares all of the following:

(a) Sixty to 80 percent of the care provided frail elderly persons and functionally impaired adults is delivered by family members or friends who are not paid for their services.

(b) These caregivers provide 24-hour care in the home, and are under substantial physical, psychological, and financial stress.

(c) Without assistance in the form of respite care, the stress these caregivers experience may lead to abuse or neglect of the frail elderly person or functionally impaired adult.

(d) Without respite care, a caregiver may be forced to place his or her loved one in an institution because he or she cannot continue the burden of care alone.

(e) Without respite care, caregivers may suffer deteriorating health or financial impoverishment, and may find themselves in need of health services or institutional placement, often at public expense.

It is the intent of the Legislature, therefore, to establish respite care projects in order to begin to meet the critical need for respite care and to provide data and information on the costs and effectiveness of respite care services in the home or out of the home, and to compare these services when provided through a variety of delivery models.

It is further the intent of the Legislature that projects be designed to determine the extent to which providing financial assistance to clients and caregivers reduces financial impoverishment and prevents them from becoming eligible for public assistance programs.

9651. Respite care projects established pursuant to this chapter shall do all of the following:

(a) Assist caregivers in maintaining the frail elderly or functionally impaired adult at home.

(b) Meet intermittent planned or emergency needs by securing services to relieve the caregiver for a temporary period of time.

(c) Restore or maintain a caregiver's physical or mental well-being or the well-being of the person for whom he or she provides care.

(d) Allow a caregiver or a person in need of care the opportunity for personal time and other necessities or activities of daily life.

(e) Provide or secure support services, such as counseling and information, to assist the caregiver in providing adequate care to a frail elderly person or a functionally impaired adult.

(f) Study the cost effectiveness of providing respite care in a variety of settings, both in home and out of home.

(g) If AB 2391 of the 1985–86 Regular Session is chaptered, projects established pursuant to this chapter shall also develop respite care registries according to the guidelines of AB 2391.

9652. As used in this chapter:

(a) "Caregiver" means a spouse, relative, or friend who has primary responsibility for care of a frail elderly person or functionally impaired adult, and who provides care on a substantially continuous basis, and does not receive financial compensation for this care.

(b) "Frail elderly adult" means a person at least 60 years of age or older who is at risk of institutional placement due to chronic physical and mental limitations which restrict his or her ability to independently perform personal and instrumental activities of daily living.

(c) "Functionally impaired adult" means an individual who is at least 18 years of age, and less than 60 years of age, who is at risk of institutional placement due to chronic physical and mental limitations which restrict his or her ability to independently perform personal and instrumental activities of daily living.

(d) "Personal activities of daily living" means dressing, feeding, toileting, bathing, breathing, transferring, and mobility and associated tasks.

(e) "Instrumental activities of daily living" means shopping, housework, meal preparation and cleanup, laundry, taking of medication, money management, transportation, correspondence, telephoning, and related tasks.

(f) "Respite care" means intermittent or regularly scheduled substitute care of frail elderly or functionally impaired adults with the primary purpose of relieving the caregivers and helping to support them in their constant care responsibilities.

(g) "Department" means the Department of Aging.

(h) "Director" means the Director of the Department of Aging.

(i) "Grantee" means any organization providing services under Section 9390, that applies for funds under this chapter and is chosen by the director, based on criteria established by the department.

9653. The department shall administer two-year projects in respite care. Grantees operating respite care projects funded under this chapter shall provide or arrange for the provision of services with the specific purpose of providing respite for caregivers, both in home and out of home, based on the individual needs of caregivers and clients.

Grants shall be made to at least five sites. At least one allocation shall be made in a rural area.

9653.5. It is the intent of the Legislature to collect data and information on a variety of types of services that can meet the needs for respite care. Grantees shall make referrals to both home care and 24-hour out-of-home placement. The actual services provided shall be determined by the needs of the caregiver, and the level of care requirements of the client.

9654. Grants shall not exceed ten thousand dollars ($10,000) for each site.

9655. The department shall give priority to grantees who:

(a) Demonstrate community support for the project.

(b) Design the project to coordinate with other community

services and to be an integrated component in the community long-term care system.

(c) Design the project to utilize and develop existing services and resources in a creative manner to provide respite care.

9655.5. The department shall consult with the State Department of Health Services and the State Department of Social Services to develop flexibility in regulations applicable to providers under this chapter who are licensed by the State Department of Health Services and the State Department of Social Services, to ensure that temporary care is possible, and that regulatory requirements do not inhibit successful provision of respite care.

9656. A respite care project shall identify existing publicly funded services for which the client may be eligible and these services shall be used, to the extent possible, to provide respite care for the caregiver.

9657. The department shall develop or identify an assessment process to be utilized by the respite care projects to determine a caregiver's need for respite care, and to help respite care projects identify a person who is at risk of institutional placement if his or her caregiver does not receive supportive services. The department may permit client assessments performed by other agencies to satisfy the assessment requirement, in order to avoid duplication of services.

Eligibility for services under this chapter shall be based on a determination by the projects that a client is at risk of institutional placement or there is a potentially serious risk to the caregiver's mental or physical health if they do not receive supportive services.

9658. On or before July 1, 1988, the department shall submit a report to the Legislature on the implementation of this chapter which shall address the following:

(a) The number of persons served by the projects, the types of services provided to them and the actual costs of those services.

(b) An assessment of the demand for respite care services and a description of the services needed to fulfill the intent of this chapter, which were not available and why.

(c) An assessment of the extent to which the services provided in the respite care projects did delay or prevent permanent placement in an intermediate or skilled nursing facility of either clients or caregivers.

(d) Specific identification of any factors which significantly enhance or inhibit the successful provision of respite care.

(e) Recommendations for future funding for respite care services, including, but not limited to, the types of services to be funded, eligibility criteria, and target populations.

The report required by this section may be integrated into the annual report required by the department under the provisions of Chapter 1637 of the Statutes of 1984.

9659. This chapter shall remain in effect until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1989, deletes or extends the

dates on which it becomes inoperative and is repealed.

SEC. 2. There is hereby appropriated the sum of fifty thousand dollars ($50,000), without regard to fiscal years, from the General Fund to the Department of Aging for purposes of implementing respite care projects, as provided for under Chapter 8.5 (commencing with Section 9650) of Division 8.5 of the Welfare and Institutions Code.

CHAPTER 447

An act to amend Section 62.1 of the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1986 Filed with Secretary of State July 22, 1986.]

The people of the State of California do enact as follows:

SECTION 1. Section 62.1 of the Revenue and Taxation Code is amended to read:

62.1. Change in ownership shall not include either of the following:

(a) Any transfer, on or after January 1, 1985, of a mobilehome park to a nonprofit corporation, stock cooperative corporation, or other entity, as described in Section 50561 of the Health and Safety Code, formed by the tenants of a mobilehome park for the purpose of purchasing the mobilehome park.

(b) Any transfer or transfers on or after January 1, 1985, and before January 1, 1987, of rental spaces in a mobilehome park to the individual tenants of the rental spaces, provided that (1) at least 51 percent of the rental spaces are purchased by individual tenants renting their spaces prior to purchase, and (2) the individual tenants of these spaces form, within one year after the first purchase of a rental space by an individual tenant, a nonprofit corporation, stock cooperative, or other entity, as described in Section 50561 of the Health and Safety Code, to operate and maintain the park. If, on or after January 1, 1985, and before January 1, 1987, an individual tenant or tenants notify the county assessor of the intention to comply with the conditions set forth in the preceding sentence, any mobilehome park rental space which is purchased by an individual tenant in that mobilehome park during that period shall not be reappraised by the assessor. However, if all of the conditions set forth in the first sentence of this subdivision are not satisfied, the county assessor shall thereafter levy escape assessments for the spaces so transferred. This subdivision shall apply only to those rental mobilehome parks which have been in operation for five years of more.

Subdivision (a) shall remain in effect only until January 1, 1989.

Subdivision (b) shall remain in effect only until January 1, 1987.

SEC. 2. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent residents of rental mobilehome parks who have purchased their parks from losing their mobilehome spaces, shares, or interests due to the cost of increased property tax assessments, it is necessary that this act take immediate effect.

CHAPTER 448

An act to add Sections 61601.18 and 61765.11 to the Government Code, relating to local agencies, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1986. Filed with Secretary of State July 22, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 61601.18 is added to the Government Code, to read:

61601.18. Notwithstanding the provisions of Sections 61600 and 61601, whenever the Board of Directors of the Mission Viejo Community Services District determines by resolution that it is feasible, economically sound, and in the public interest for the district to exercise its power for the purpose of funding the activities of the Mission Viejo Municipal Advisory Council, the board shall adopt this additional purpose by resolution entered in the minutes, and the powers of the district may be exercised for this additional purpose. The amount of funding provided by the board to the Mission Viejo Municipal Advisory Council pursuant to this section shall not exceed four thousand dollars ($4,000) in any fiscal year. The board may thereafter divest itself of such power in the same manner as it acquired the power.

SEC. 2. Section 61765.11 is added to the Government Code, to read:

61765.11. Notwithstanding Sections 61621.5 and 61765, in the Smith River Community Services District, the water standby or availability charge shall not exceed forty-eight dollars ($48) per year

or four dollars ($4) per month for each acre of land on which the charge is levied or forty-eight dollars ($48) per year or four dollars ($4) per month for each parcel of land less than one acre.

In fixing and collecting water standby or availability charges, the district shall follow the procedures for fixing and collecting water standby or availability charges set forth in this chapter.

This section, applicable only to the Smith River Community Services District, is necessary because of the unique and special water management and financing problems in the area included within the district.

SEC. 3. The Legislature finds and declares that the Mission Viejo Community Services District has a special need for the power to finance the activities of the Mission Viejo Municipal Advisory Council, because the district is the successor agency to County Service Area No. 9 which previously funded the activities of the Mission Viejo Municipal Advisory Council. The Legislature further finds and declares that a general act cannot be made applicable to this special situation and it is therefore necessary to enact this special act relating to only the Mission Viejo Community Services District.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to enact timely financial provisions necessary for local agencies, it is necessary that this act take immediate effect.

CHAPTER 449

An act to amend Sections 5871, 5872, 5878.1, 5882, and 5890 of, and to add Section 5305 to, the Streets and Highways Code, relating to improvement acts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1986 Filed with Secretary of State July 22, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 5305 is added to the Streets and Highways Code, to read:

5305. The legislative body may provide for deferral of payment of assessments in accordance with procedures prescribed by Chapter 8 (commencing with Section 10700) of Division 12.

SEC. 2. Section 5871 of the Streets and Highways Code is amended to read:

5871. (a) This chapter applies to the construction of sidewalks, gutters, pavements, driveways, and curbs, and the installation of storm and sanitary drainage facilities, water mains, pipes, conduits,

tunnels, hydrants, and other necessary works and appliances for providing water service, parkway trees, and street lighting facilities in front of properties in any block where a sidewalk, gutter, pavement, driveway, the installation of storm and sanitary sewer drainage facilities, water mains, pipes, conduits, tunnels, hydrants, and other necessary works and appliances for providing water service, parkway trees, and street lighting facilities, or curb, or all of them, have been previously constructed in front of properties in the block constituting more than 50 percent of the front footage of the block, or where the owners of more than 60 percent of the front footage of the block, as shown by the last equalized assessment roll of the city, file a petition with the city clerk requesting the installation of any of those improvements, or where a petition signed by the owners of more than 60 percent of the front footage of any part of an unimproved portion or portions of a block has been filed with the city clerk requesting the installation of those improvements in front of that part.

(b) This chapter does not apply to the construction of improvements of the type specified in subdivision (a) fronting on, or otherwise adjacent to, or in conjunction with, an arterial or collector street section. For purposes of this section, an "arterial or collector street section" is a street section with more than one traffic lane in each direction either before or after the proposed improvement, or a street section on which more than 70 percent of the average daily vehicle trips do not originate or end within the proposed assessment district.

(c) Notwithstanding subdivision (b), this chapter applies to the construction of sidewalks, curbs, and gutters appurtenant thereto, sufficient paving to provide a parking lane, and to parkway trees and street lighting facilities, but only to the extent that those improvements are in front of the property on arterial or collector street sections, which is otherwise subject to assessment, if the property has not been subject to any other special assessment to pay for construction of sidewalks, curbs, gutters, parking lane paving, parkway trees, or street lighting facilities within the preceding 10 years. As used in this subdivision, "gutters" shall include only above-ground structures appurtenant to sidewalks and curbs.

As used in this subdivision, "parking lane" means a paved area adjacent to the curb which is used exclusively for on-street parking. It does not include any portion of the street used for through traffic or as a bicycle lane. An assessment for parking lane purposes shall not include the cost of any signs necessitated by the parking lane. If property is assessed for a parking lane pursuant to this chapter and the parking lane is subsequently converted to another use, the amount of the assessment paid, together with interest at the prime rate plus 3 percent, shall be paid by the city to the then owner of the property.

(d) This chapter does not apply to driveway construction in front of a vacant lot, or in front of an unimproved property, unless

requested by the owner.

(e) This chapter does not apply to the repair, resurfacing, or maintenance of streets.

(f) As used in this chapter, "sidewalks or curbs" includes "gutters," "driveways," "pavement" to the centerline of the street, "full pavement" in alleys, "storm and sanitary drainage facilities," "water mains," "pipes," " conduits," "tunnels," "hydrants," and "other necessary works and appliances for providing water service," "paving to provide a parking lane on arterial or collector street sections," "parkway trees," and "street lighting facilities;" and "superintendent of streets" includes any other person or persons who may be designated by the legislative body to perform any of the duties of the superintendent of streets set forth in this chapter.

(g) "Fronting" and "facing," as used in this chapter, means "abutting" in the case of property adjoining an alley improvement.

(h) In the case of street lighting, in determining how much of the front footage of a block has been improved, the front footage of property benefiting from existing installations may be included regardless of the side of the street on which the installation has been constructed.

SEC. 3. Section 5872 of the Streets and Highways Code is amended to read:

5872. This chapter constitutes a separate and alternative procedure for performing the work specified herein, and except as otherwise provided in this chapter, no other provision of this division, excepting definitions, shall apply to proceedings instituted hereunder. Chapter 8 (commencing with Section 5220) applies to any proceedings taken under this chapter. The "Special Assessment Investigation, Limitation and Majority Protection Act of 1931" does not apply to proceedings taken under this chapter.

SEC. 4. Section 5878.1 of the Streets and Highways Code is amended to read:

5878.1. The notice shall also specify the day, hour, and place when the legislative body will hear and pass upon objections or protests, if any, which may be raised by any property owner or other interested persons, but in no case shall the hearing be sooner than 10 days after giving of notice. Upon the day and hour fixed for the hearing, the legislative body shall hear and pass upon objections or protests in accordance with Chapter 8 (commencing with Section 5220).

The hearing required by this section is in addition to the hearing required by Section 5881.

SEC. 5. Section 5882 of the Streets and Highways Code is amended to read:

5882. Upon the completion of the construction, the superintendent of streets shall prepare and file with the legislative body a report specifying the work which has been done, the cost of construction, a description of the real property in front of which the work has been done and the assessment against each lot or parcel of land proposed to be levied to pay the cost or portion thereof. The

report may include work done in front of any number of parcels of property, whether contiguous to each other or not. In determining the amount of the assessment against each lot or parcel of land, the superintendent shall assess the same portion of the total cost of the work against each lot or parcel as that parcel will receive of the total benefit from the work.

SEC. 6. Section 5890 of the Streets and Highways Code is amended to read:

5890. The assessments proposed by the superintendent of streets pursuant to Section 5882, as may be amended by the legislative body during the hearing held pursuant to Section 5883, may be confirmed and levied by the legislative body against the parcels of property fronting upon the sidewalks or curbs so constructed, and the cost so assessed, if not paid within five days after its confirmation by the legislative body, shall constitute a special assessment against each of those parcels, and shall be a lien on the property for the amount thereof from the time of recordation of the notice of lien, which lien shall continue until the assessment and all interest thereon is paid, or until it is discharged of record.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that assessment proceedings which commence during the 1986–87 fiscal year may be conducted pursuant to this act, it is necessary that this act take effect immediately.

CHAPTER 450

An act to add Section 19596.8 to the Business and Professions Code, relating to fairs.

[Approved by Governor July 22, 1986 Filed with Secretary of State July 23, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 19596.8 is added to the Business and Professions Code, to read:

19596.8. Funds allocated by the director pursuant to subdivision (c) of Section 19596.5 for fire and life safety improvement projects, California Administrative Code compliance projects, and long-term maintenance projects at fairs shall be allocated in accordance with a project schedule determined by the department in compliance with this section.

The department shall prepare a three-year schedule of these projects which commences July 1, 1987, and shall annually update the schedule. The initial schedule and the annual updates shall be

submitted to the Legislature. The schedule shall list individual project costs, contain a project description, and specify estimated project completion dates.

CHAPTER 451

An act to amend Sections 48800, 48800.5, and 76001.5 of, and to add Section 84384.1 to, the Education Code, relating to community colleges, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1986 Filed with Secretary of State July 23, 1986]

The people of the State of California do enact as follows:

SECTION 1. Section 48800 of the Education Code is amended to read:

48800. The governing board of any school district may determine which students would benefit from advanced scholastic or vocational work. The intent of this section is to provide educational enrichment opportunities for a limited number of eligible pupils, rather than to reduce current course requirements of elementary and secondary schools. The governing board may authorize those students, upon recommendation of the principal of the school that the pupil attends, and with parental consent, to attend a community college as special part-time students and to undertake one or more courses of instruction offered at the community college level.

The students shall receive credit for community college courses that they complete at the level determined appropriate by the school district and community college district governing boards.

SEC. 2. Section 48800.5 of the Education Code is amended to read:

48800.5. (a) A parent or guardian of any pupil, regardless of the pupil's age or class level, may petition the governing board of the school district in which the pupil is enrolled to authorize the attendance of the pupil at a community college as a special full-time student on the ground that the pupil would benefit from advanced scholastic or vocational work that would thereby be available. If the governing board denies the petition, the pupil's parent or guardian may file an appeal with the county board of education, which shall render a final decision on the petition.

Any pupil who attends a community college as a special full-time student pursuant to this section is exempt from compulsory school attendance under Chapter 2 (commencing with Section 46100) of Part 26.

(b) A parent or guardian of a pupil who is not enrolled in a public school may directly petition the president of any community college

to authorize the attendance of the pupil at the community college as a special part-time or full-time student on the ground that the pupil would benefit from advanced scholastic or vocational work that would thereby be available.

(c) Any pupil authorized to attend a community college as a special full-time student shall, nevertheless, be required to undertake courses of instruction of a scope and duration sufficient to satisfy the requirements of law.

(d) For purposes of allowances and apportionments from the State School Fund, a community college shall be credited with additional units of average daily attendance attributable to the attendance of special full-time students at the community college.

SEC. 3. Section 76001.5 of the Education Code is amended to read:
