The reduction shall be calculated as follows:

(2) Positions supported by funds received pursuant to Section 42243.6 of the Education Code.

(3) Positions supported, to the extent of employer contributions not exceeding $25,000 by any single educational agency, from a revenue source determined on the basis of equity to be properly excludable from this subdivision by the Superintendent of Public Instruction with the approval of the Director of Finance.

(d) For accounting purposes, the reduction made by this provision may be reflected as an expenditure from appropriate sources of revenue as directed by the Superintendent of Public Instruction.

The reduction shall be calculated as follows:

(a) Determine the amount of employer contributions that would have been made in the 1986–87 fiscal year if the applicable Public Employees' Retirement System employer contribution rate in effect immediately prior to July 1, 1986, were in effect during the 1986–87 fiscal year.

(d) For accounting purposes, the reduction made by this provision may be reflected as an expenditure from appropriate sources of revenue as directed by the Superintendent of Public Instruction.

It is the intent of the Legislature to make adjustments to school district revenue limits for the 1987–88 fiscal year to reflect savings that these districts will realize in the contributions to the Public Employees' Retirement System due to a reduced contribution rate for the 1987–88 fiscal year. If, however, any other chaptered legislation accomplishes this intent and performs these adjustments for the 1987–88 fiscal year, this provision shall be inoperative.

7. Notwithstanding Subdivision (e) of Section 42239 of the Education Code, for the 1987–88 fiscal year, the Superintendent of Public Instruction shall allocate a minimum of $5,300 for supplemental summer school programs in those districts whose prior year enrollment was less than 500 and that, in the 1987–88 fiscal year, offer at least 1,500 hours of supplemental sum-

	It is the intent of the Legislature that the total appropriation provided for summer school programs offered pursuant to paragraph (2) of subdivision (d) of Section 42239 of the Education Code for the 1988–89 fiscal year be based upon 5 percent of prior-year statewide enrollment, times 120 hours, times the hourly rate for the 1988–89 fiscal year determined pursuant to subdivision (c) of Section 42239 of the Education Code.

In each of the fiscal years 1988–89 through 1992–93, the superintendent shall reduce the district's number of units of ADA by 60 units below the level that the district would otherwise be entitled to claim. It is the intent of the Legislature to assist the district in overcoming the severe impacts on its cash flow of a reorganization election which reduced the district's ADA by 70 percent for the 1987–88 fiscal year. It is further the intent of the Legislature that such assistance be provided at no net cost to the state.

to be unearned. The Department of Education shall report quarterly the settlement of claims payable from unearned contract funds balances by program. Further, the Department of Education shall report quarterly the reencumbrance of unearned contract funds made pursuant to Education Code Section 8278 by program, specifying the purpose and need for each expenditure.

7. For purposes of obtaining federal reimbursement for child care services provided to children of participants in approved employment and training programs, the Department of Social Services shall continue the procedure to collect from each participant information on the number of child care service units used that are eligible for federal financial participation each month. The State Department of Education shall ensure that the child care provider certifies that the information provided by the participants is accurate. Based upon the participant's information provided by the Department of Social Services, the State Department of Education shall submit, by the first day of each quarter, cost data for the quarter preceding the previous quarter to the Department of Social Services and the Department of Finance for use in claiming federal reimbursement.
8. Legislature within 10 days of its occurrence. A sufficient amount is hereby appropriated to the Director of Finance for such purposes.

9. The California Child Care Initiative shall ensure that the $250,000 in state funds are matched on a one-to-four basis, with private corporations and local governments providing up to $1,000,000.

10. Recognizing that the availability of child care is essential to economic self-sufficiency, it is the intent of the Legislature to fund child care services as necessary to support the goal of full employment.

Effective July 1, 1986, and notwithstanding the provisions of Sections 8263 and 8468.5 of the Education Code, if a GAIN participant reaches the top of a State Department of Education (SDE) waiting list and income and eligibility criteria for SDE programs are met, he or she shall be retained at the top of the list and enrollment in an SDE-subsidized space shall be deferred until the parent becomes employed or is separated from GAIN, whichever comes first. At this time, the participant who has been deferred for an SDE space shall have priority in the order of deferral for the next available SDE-subsidized space, regardless of income level that meets SDE criteria (with the exception of priorities for abused and neglected children).

These requirements shall not apply to parents whose children are enrolled in an SDE-subsidized space prior to the parents' enrollment in GAIN.

The Department of Social Services (DSS) and SDE shall enter into a memorandum of understanding that specifies a level of service requirement by SDE programs for AFDC recipients. Both DSS and SDE shall collect the data by November 15, 1986, necessary to identify and monitor AFDC participation levels in SDE child care programs.

The Auditor General shall review the departments' data and certify by January 1, 1988, to the GAIN Oversight Committee the existing level of AFDC participation in SDE programs. In addition, the Auditor General shall evaluate

and report on the potential availability of subsidized child care services to working poor who have not been GAIN participants.

If participation by AFDC recipients falls below the levels certified by the Auditor General, then the enrollment of GAIN participants as specified above shall not be deferred. Deferrals shall resume only if the AFDC participation levels are in excess of those certified above.

12. Notwithstanding Section 8278 of the Education Code, up to $64,000 of unearned child development contract funds may be used in the 1987–88 fiscal year on a one-time basis to fund the provision of additional technical assistance to school age community child care agencies. The funds may be used by the Local Assistance Bureau and the Child Development Division of the State Department of Education to provide short-term on-site technical assistance, regional workshops, and informational materials for school age community child care contracting and applicant agencies.

Notwithstanding this one-time expenditure, the State Department of Education shall continue to have ongoing responsibility to provide necessary technical assistance to school age community child care agencies.

13. Notwithstanding any provision of law to the contrary, for each school age community child care program approved for funding, the Superintendent of Public Instruction shall subsidize no more than 50 percent of the total net program costs or 50 percent of the assigned reimbursement rate multiplied by the total units of services provided, whichever is less. The superintendent shall use child days of enrollment as the basis for complying with this provision. This change shall be deemed effective July 1, 1987.
14. Notwithstanding any provision of law to the contrary, the cost of any school age community child care program granted a waiver shall not exceed the regional market rate. For purposes of this provision, the regional market rate means care costing no more than 1.5 market standard deviations above the mean cost of care for that region.
15. The State Department of Education shall de-

These rules and regulations shall specifically address the conditional status process and the waiver process for all child development programs, especially school-aged child care programs. These rules and regulations shall be prepared in draft form for public hearing by December 1, 1987, and shall be submitted in final form to the Office of Administrative Law by April 1, 1988.

If these rules and regulations are not prepared for public hearing by December 1, 1987, the Department of Finance shall not approve any out-of-state travel requested by the State Department of Education with the sole exception of the superintendent. In addition, the Controller shall not honor any travel claim for out-of-state travel occurring on or after December 2, 1987. This prohibition shall remain in effect until the regulations are prepared in draft form by the State Department of Education.

(a) The Director of Finance shall provide the Joint Legislative Budget Committee and the legislative fiscal committees with a specified list of personal services contracts contained in the Governor's Budget that are proposed for the budget year. The Director of Finance shall also report personal services contracts proposed by departments, during the calendar year prior to the January 10th Governor's Budget, which are considered innovative and are for a new service not previously considered in the Legislature's review of the previous Governor's Budgets.

(b) The reports set forth in subdivision (a) shall be submitted to the Joint Legislative Budget Committee and the legislative fiscal committees on or before January 10th of each year and shall include: (1) personal services contracts determined by the Department of Finance to be new or innovative; (2) the amount of the proposed contract; (3) the basis for the contract pursuant to Section 19130 of

the Government Code; (4) the number of personnel-years to be eliminated or avoided if a contract is implemented; and (5) identification of the various contracts by agency and department.

SEC. 30.00. Section 13340 of the Government Code is amended to read:

13340. On and after July 1, 1988, no moneys in any fund which, by any statute other than a Budget Act, is continuously appropriated without regard to fiscal years, may be encumbered unless the Legislature, by statute, specifies that the moneys in the fund are appropriated for encumbrance.

SEC. 31.00. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code and Article 2.5 (commencing with Section 13332) of Chapter 3 of Part 3 of Division 3 of Title 2 of the Government Code requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

The fiscal year budget shall authorize in such manner as the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new position shall be established unless authorized by the Department of Finance on the basis of work program and organization.

The Director of Finance, or his or her authorized designee, shall notify the Chairperson of the Joint Legislative Budget Committee within 30 days of authorizing any position not authorized for that fiscal year by the Legislature or any reclassification to a position with a minimum step of $2,641 per month. He or she shall also report all transfers to blanket authorizations and the establishment of any permanent positions out of a blanket authorization.

All positions administratively established pursuant to this section during the 1987–88 fiscal year shall terminate on June 30, 1988, except that those positions which have been (a) included in the 1988–89 Governor's Budget as proposed new positions, or (b) approved by the Department of Finance and reported to the Legislature after the 1988–89 Governor's Budget submission to the Legislature, may be reestablished by the Department of Finance during the 1988–89 fiscal year, provided these positions are shown in the 1989–90 proposed Governor's Budget submitted to the Legislature, or in subsequent Department of Finance letters to the Legislature, and provided that these positions do not result in establishment of positions deleted by the Legislature through the 1988–89 budget process.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. A copy of this document shall be submitted to the Department of Finance upon request. The unencumbered balance remaining in each budget allotment for salaries and wages

shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to the allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. This transfer shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any 1987–88 fiscal year appropriation not appropriated for that purpose may be expended for increases in salary ranges or any other employee compensation action(s) unless the Department of Finance certifies to the salary and other compensation-setting authority prior to the adoption of these action(s) that funds are available to pay the increased salary or employee compensation resulting therefrom, but this provision shall not apply to the California State University. Prior to certification, the Department of Finance shall determine whether this increase in salary range or employee compensation action will require supplemental funding in the 1988–89 fiscal year. If the Department of Finance determines that supplemental funding will be required, no certification shall be issued unless notification in writing is given by the Department of Finance, at least 30 days before certification is made, to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or such lesser time as the chairperson of the joint committee, or his or her designee, determines.

A certification on a payroll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the State Controller that these expenditures comply with the provisions of this section.

Each agency, department, board, commission, and institution, for whose benefit and support appropriations are made in this act, shall certify to the Director of Finance that its expenditures have been made for the purposes stated in the budget, as implemented by the Budget Act, except as the purposes stated have been revised, in accordance with law, by the Department of Finance subsequent to the enactment of the Budget Act.

SEC. 32.00. The officers of the various departments, boards, commissions and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of such appropriations, except the consent of the Department of Finance be first obtained, and a certificate, in writing, duly signed by the director of said department, of the unavoidable necessity of such expenditure; and any indebtedness attempted to be created against the state in violation of the provisions of this section shall be absolutely null and void; and shall not be

allowed by the State Controller nor paid out of any state appropriation. Any member of any such department, board, commission or institution, who shall vote for any expenditure, or create any indebtedness against the state in excess of the respective appropriations made by this act, except by the consent of the Department of Finance and the certificate in this section provided to be first obtained, shall be liable both personally and on his or her official bond for the amount of such indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm or corporation to whom such indebtedness is owing.

The Department of Finance shall submit copies of certificates approved by it under this section to the Chairperson of the Joint Legislative Budget Committee, and the chairperson of the committee in each house which considers appropriations, quarterly, and shall indicate in the case of each certificate the code section or section of this act under which the department gave its consent to exceed the particular appropriation.

SEC. 32.50. There is hereby appropriated from the General Fund the amount of eighty-eight million eight hundred seventy thousand dollars ($88,870,000) for payment to local jurisdictions. Except as provided pursuant to subdivision (c), these funds shall be distributed as follows:

(a) Local jurisdictions, other than counties, or cities and counties, that received funds from the programs listed in subdivision (b) in the 1986–87 fiscal year, shall receive an amount of funds equal to 5.97 percent of the amount the local jurisdiction received in the 1986–87 fiscal year. The Director of Finance shall certify to the State Controller the amount of discretionary block grant funds to be distributed to each local jurisdiction under this provision.

(b) The remaining amount shall be distributed to counties and cities and counties as discretionary block grants. The Director of Finance shall certify to the State Controller the amount of discretionary block grant funds to be distributed in lieu of a 5.97 percent cost-of-living adjustment for each of the following programs:

(1) Alcohol and drug programs.

(2) Medically indigent services programs.

(3) Local mental health programs, including special education pupils.

(4) Aid to Families with Dependent Children-Foster Care programs.

(5) Social services-county services block grant programs.

(6) Social services-employment programs.

(7) Social services-adoptions programs.

(8) Social services-community care licensing programs.

These funds shall be distributed as follows:

(A) 66.66 percent shall be allocated in the same proportions as each county's maximum allocation under Section 16702 of the Welfare and Institutions Code in the 1987–88 fiscal year.

(B) 16.67 percent shall be distributed in the same proportion as 1986–87 program allocations under the cited programs. The Director of Finance shall determine this proportion by dividing (a) the sum of the amounts each county was allocated in the 1986–87 fiscal year for each separate program by (b) the total allocations for all programs.

(C) 16.67 percent shall be distributed in the same proportion as the population of each county as estimated by the Department of Finance on July 1, 1987.

(D) The Controller shall subvene these funds on or before January 1, 1988.

(c) The Department of Social Services shall establish a procedure which allows counties to verify that they have voluntarily provided a cost-of-living adjustment for foster care from funds provided pursuant to this section and to claim federal foster care cost-of-living adjustment funds available in Item 5180-181-890. The department shall also establish a procedure for auditing claims made by counties pursuant to this subdivision.

(d) (1) When the Director of Finance determines that an allocation of money pursuant to subdivisions (a) and (b) would result in a jurisdiction having proceeds of taxes in excess of its appropriations limit pursuant to Article XIII B of the Constitution, the Director of Finance shall reduce the amounts computed pursuant to subdivisions (a) and (b) accordingly.

(2) In the case of a reduction pursuant to this subdivision, and if the electors of the local jurisdiction subsequently raise the 1987–88 fiscal year appropriations limit of the jurisdiction, the department shall certify a supplemental amount to the Controller by May 1, 1988. The Controller shall issue a warrant in that amount to the jurisdiction no later than June 30, 1988. In the case of a reduction pursuant to this subdivision where there is no certification of a supplemental amount to the Controller on or before May 1, 1988, the Controller shall distribute the amount of the reduction to all other counties and cities and counties pursuant to the formula specified in subdivision (b).

(e) It is the intent of the Legislature that the funding formula established in this section shall be effective for one year only. It is the intent of the Legislature that, subject to the passage of a concurrent resolution, the Legislative Analyst shall prepare a report that reviews the various formulas which can be used to allocate discretionary COLA's for health, mental health, social services, and alcohol and drug programs. It is the intent of the Legislature that the concurrent resolution shall identify and specify the criteria which the Legislative Analyst shall use in reviewing the formulas.

SEC. 33.00. If any item of appropriation in this act is vetoed, eliminated, or reduced by the Governor under Section 10 of Article IV of the Constitution, while approving portions of this act, such veto, elimination, or reduction shall not affect the other portions of this act, and these other portions of this act, so approved, shall have the

same effect in law as if any vetoed or eliminated items of appropriation had not been present in this act, and as if any reduced item of appropriation had not been reduced.

SEC. 34.00. If any portion of this act is held unconstitutional, such decision shall not affect the validity of any other portion of this act. The Legislature hereby declares that it would have passed this act, and each portion thereof, irrespective of the fact that any other portion be declared unconstitutional.

SEC. 35.00. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under the provisions of Section 8 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 36.00 This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning the Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This act makes appropriations and contains related provisions for support of state and local government for the 1987–88 fiscal year and provides for capital outlay appropriations, in continuation of existing programs and to promote and sustain the economy of the state. It is imperative that these appropriations be available for expenditure commencing not later than July 1, 1987. It is therefore necessary that the act go into immediate effect.

CHAPTER 136

An act to amend Section 84713 of the Education Code, relating to education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 1987. Filed with Secretary of State July 8, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds that the role, mission, governance, finance, and personnel policies of the California Community Colleges has been the subject of a study by the Commission for the Review of the Master Plan for Higher Education and the Joint Committee for the Review of the Master Plan for Higher Education.

The Legislature reiterates its declaration of intent, as expressed in Chapter 1465 of the Statutes of 1986, to establish, by July 1, 1988, through statutory provisions and administrative rules and regulations, a new funding mechanism for determining the allocation of state general apportionments for community colleges which assures access to all Californians, promotes educational excellence, and is more reflective of a postsecondary educational system.

The Legislature further finds that, through Chapter 1465 of the Statutes of 1986, it charged the Chancellor of the Community Colleges with convening a special task force on community college financing reform to develop and make recommendations on a new financing system no later than May 1, 1987.

The Legislature further finds that, in order to ensure a smooth transition from the current community college funding mechanism to a new cost differential mechanism, the statutory authorization for the current methodology needs to be extended for two years.

SEC. 2. Section 84713 of the Education Code is amended to read:

84713. This article shall become inoperative on July 1, 1989, and, as of January 1, 1990, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1990, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 3. Notwithstanding subdivision (b) of Section 84701 of the Education Code, for 1987–88 only, the equalization funding allocation made pursuant to Provision 17 of Item 6870-101-001 of Section 2.00 of the Budget Act of 1986 shall be used in lieu of the allocation prescribed in paragraph (2) of Section 84705 of the Education Code for determining 1987–88 base revenues.

SEC. 4. Notwithstanding paragraph (2) of Section 84705 of the Education Code, for 1987–88 only, equalization funding shall be allocated based on Provision 17 of Item 6870-101-001 of Section 2.00 of the Budget Act of 1987.

SEC. 5. Notwithstanding subdivision (b) of Section 84701 of the Education Code, for 1988–89 only, the Chancellor of the California Community Colleges shall use the 1987–88 computational revenues derived pursuant to subdivision (a) of Section 84700 of the Education Code for district base revenues for 1988–89.

SEC. 6. Notwithstanding Section 84706 of the Education Code, for 1986-87 only, the Chancellor of the California Community Colleges may allocate up to four million six hundred thousand dollars ($4,600,000) for additional average daily attendance growth over and beyond the allowable growth provided through paragraph (2) of subdivision (b) of Section 84706 of the Education Code.

SEC. 7. It is the intent of the Legislature to reaffirm the need for an accountability system for the community colleges as expressed in Assembly Bill 3409 of the 1985–86 Regular Session, enacted as Chapter 1465 of the Statutes of 1986. The Chancellor of the California Community Colleges shall develop a plan for an accountability reporting system for the community colleges in accordance with, but not limited to, the system described in the report prepared pursuant to Chapter 1465 of the Statutes of 1986 and entitled "A.B. 3409 Community College Accountability Report," and shall provide a written description of the system, as so developed, to the Legislature.

The plan shall explain how the accountability reporting system would be related to, and would build upon, the chancellor's proposed management information system, which is beginning pilot testing in the 1987–88 fiscal year.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the Task Force on Community College Finance Reform, established pursuant to Chapter 1465 of the Statutes of 1986, to develop and make specific recommendations on a differential funding model for allocating state funds to community colleges, and in order for the Legislature to adequately consider and act upon those recommendations, it is necessary that this act take effect immediately.

Further, in order for community college districts to adopt budgets for the 1987–88 fiscal year without fear of a disruption in state funding, it is necessary that this act take effect immediately.

CHAPTER 137

An act to amend Section 21155.1 of the Government Code, relating to the Public Employees' Retirement System, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 1987 Filed with Secretary of State July 8, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 21155.1 of the Government Code is amended to read:

21155.1. A retired person may serve without reinstatement from retirement or loss or interruption of benefits provided by this system as a member of the academic staff of a California state university, if that service does not exceed, in any fiscal year, a total of 90 days for all employers or 50 percent of the hours the member was employed during the last fiscal year of service prior to retirement.

SEC. 2. This act shall become operative on July 1, 1987, or the date on which it takes effect, whichever is the later.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the provisions of the memorandum of understanding between the Trustees of the California State University and the California Faculty Association, Unit No. 3, may be effective on or near the commencement of the 1987–88 fiscal year, it is necessary for this act to take effect immediately.

CHAPTER 138

An act to add Article 4 (commencing with Section 19998.3) to Chapter 7 of Part 2.6 of Division 5 of Title 2 of, and to repeal Section 19143 of, the Government Code, relating to state employees.

[Approved by Governor July 8, 1987 Filed with Secretary of State July 8, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 19143 of the Government Code is repealed.

SEC. 2. Article 4 (commencing with Section 19998.3) is added to Chapter 7 of Part 2.6 of Division 5 of Title 2 of the Government Code, to read:

Article 4. Reentry to State Service

19998.3. Notwithstanding any other provision of law to the contrary, an employee whose continuity of employment in the state service as either an exempt or civil service employee is broken for six months or longer by a permanent separation such as resignation, dismissal, or rejection during a probationary period, and who is subsequently reemployed after December 31, 1949, shall not be credited for service prior to that separation for purposes of sick leave, nor shall the employee be credited with any sick leave which the employee had accumulated prior to his or her separation and he or she shall again serve the months required to qualify for vacation credit. The department shall adopt rules governing the crediting of service before and after a break in service for purposes of vacation as specified in Section 19858.1 and the keeping of service records related thereto.

When an employee has a break in the continuity of his or her state employment because of a temporary separation such as layoff, suspension, leave of absence, military leave, disability retirement, or medical termination, his or her prior service shall be counted upon his or her return to state service for purposes of layoff, sick leave, and vacation.

If an employee had a break in the continuity of his or her state employment because of absence occasioned by his or her evacuation and relocation pursuant to orders issued by the commanding officer of the Western Defense Command in March 1942, for the evacuation of persons of Japanese descent from the area, where that employee was in state service on March 5, 1942, and returned to state service on or before December 31, 1949, the time of absence during which those orders were in effect shall be counted for purposes of layoff.

19998.4. (a) An employee who entered county employment pursuant to a resolution or agreement effecting the transfer of that employee by the State Department of Mental Health to a local mental health services program in accordance with Chapter 1330 of the Statutes of 1984, shall, upon reentry into state service, be credited with vacation and sick leave owed to that employee by the county, except as provided by subdivisions (b) and (c).

(b) Any hours of vacation and sick leave for which the employee receives monetary compensation upon separation from the county, shall be deducted from the total hours of vacation and sick leave to which the employee is entitled. The credit for accumulated vacation and sick leave shall not exceed that to which each employee would be entitled if he or she had been continuously employed by the State of California in the classification in which he or she held permanent status at the time of separation from state service.

(c) The separation from state service shall be considered permanent for purposes of subdivision (a) and no vacation or sick leave credit for time employed by the county shall be granted by the state if either of the following has occurred:

(1) The employee permanently separated from county service for six months or longer.

(2) More than five years elapsed since the employee was transferred by the department to the county.

The location of the certification review hearing shall be compatible with, and least disruptive of, the treatment being provided to the person certified. In addition, hearings conducted by certification review officers shall be conducted at an appropriate place at the facility where the person certified is receiving treatment.

CHAPTER 140

An act to amend Section 5544.2 of the Public Resources Code, relating to regional park, park and open-space, or open-space districts.

5544.2. (a) A district may acquire all necessary and proper lands and facilities, or any portion thereof, by means of a plan to borrow money or by purchase on contract.

(b) The amount of indebtedness to be incurred shall not exceed an amount equal to the anticipated property tax revenue allocations for the next five-year period derived pursuant to Chapter 6 (commencing with Section 95) of Part 0.5 of Division 1 of the Revenue and Taxation Code or the anticipated tax income for the next 20-year period derived pursuant to Section 50077 of the Government Code, or both. All indebtedness which is incurred on or after July 1, 1982, pursuant to this section shall be repaid during a period not to exceed 20 years from the date on which it is incurred and shall bear interest at a rate not exceeding 10 percent per annum, or the rate allowed pursuant to Section 53531 of the Government Code, if higher, payable annually or semiannually or in part annually and in part semiannually. Notwithstanding any other provision of this section, with respect to the East Bay Regional Park District only, all indebtedness incurred pursuant to this section for acquisition of lands and facilities designated in the district's master plan, including the Chabot Ridgelands, shall be repaid during a period not to exceed 30 years and at a rate not exceeding the rate allowed in this section for other districts. All other acquisitions of land and facilities by the East Bay Regional Park District not designated in the master plan are subject to the 20-year repayment period limitation of this section. Each indebtedness shall be authorized by a resolution adopted by the affirmative votes of at least two-thirds of the members of the district board, shall be evidenced by a promissory note or contract signed by the president of the board and attested by the secretary or treasurer, and shall be sold at not less than 95 percent of the principal amount in the manner determined by the board at a discount which equals the underwriter's spread. The board shall determine that the discount reflects an underwriter's spread which is both reasonable and customary under the prevailing market conditions. One of the two signatures may be by facsimile reproduction. At the time of making the general tax levy after incurring each indebtedness and annually thereafter until the indebtedness is paid or until there is a

sum in the treasury set apart for that purpose sufficient to meet all payments of principal and interest on the indebtedness as they become due, a portion of the taxes levied and collected pursuant to Section 50077 of the Government Code, if any, shall be levied and collected and set aside sufficient to pay the interest on the indebtedness and the part of the principal that will become due before the proceeds of a tax levied at the next general tax levy will be available.

(c) The indebtedness authorized to be incurred by this section shall be in addition to, and the provisions of this section shall not apply to, any bonded indebtedness authorized by vote of the electors.

[Approved by Governor July 8, 1987 Filed with Secretary of State July 8, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 120107 of the Public Utilities Code is amended to read:

120107. (a) Each member of the board, including alternate members appointed pursuant to Section 120051.6 when serving in the absence of a regular member, shall be compensated for each day the member attends meetings of the board and committees of the board, not to exceed six committee meetings in any one quarter, and for his or her necessary and reasonable expenses in performing his or her duties as a board member.

(b) In addition, the board may, by resolution, authorize and designate members and alternates to be compensated for representing the board by attendance at specified meetings of other governmental entities and public agencies.

The services shall be separate from, and shall not include the performance of, any of the general manager's duties in administering and managing the board and its programs.

CHAPTER 143

An act to amend Section 50517.7 of the Health and Safety Code, relating to housing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 1987 Filed with Secretary of State July 8, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 50517.7 of the Health and Safety Code is amended to read:

50517.7. In counties in which a disaster has been declared by the Governor pursuant to Chapter 7 (commencing with Section 8550) of Division 1 of Title 2 of the Government Code and for a period of 12 months after the declaration, the department may provide grants from the fund established by subdivision (b) of Section 50517.5, subject to the following terms and conditions, which are applicable only to this section:

(a) Grants may be made to local public entities, nonprofit corporations, and housing owners comprised of either homeowners who are agricultural employees or owners of rental property used primarily by agricultural households.

(b) The department may enter into master agreements with nonprofit corporations or local public entities or it may enter into contracts directly with housing owners to carry out the activities authorized by this section.

(c) The department may make grants directly to housing owners or through master agreements for the cost of preparation of applications for funds, and supervision of expenditures from the fund, including, but not limited to estimates, work writeups, bidding supervision, and inspections. Funds granted pursuant to this subdivision shall not be secured by, and subject to, the liens required by Section 50517.5.

(d) The department, either directly or through master agreements, may provide grants to housing owners which shall be used for housing construction or rehabilitation, and related costs, other than those costs accruing pursuant to subdivision (c). Only those funds from the fund which are actually utilized pursuant to this subdivision shall be secured by, and subject to, the liens required by Section 50517.5.

(e) The 12-month period specified in this section shall be extended for an additional nine months for the disaster declared due

to the floods in northern California in February of 1986.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Due to delays in receipt of federal disaster assistance funding to match funding available under Section 50517.7 of the Health and Safety Code, it is necessary to extend eligibility for funding thereunder in order to provide appropriate relief for areas damaged by the floods of February 1986.

CHAPTER 144

An act to amend Section 423 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor July 8, 1987. Filed with Secretary of State July 9, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 423 of the Revenue and Taxation Code is amended to read:

423. Except as provided in Section 423.7, when valuing enforceably restricted open-space land, other than land used for the production of timber for commercial purposes, the county assessor shall not consider sales data on lands, whether or not enforceably restricted, but shall value these lands by the capitalization of income method in the following manner:

(a) The annual income to be capitalized shall be determined as follows:

(1) Where sufficient rental information is available the income shall be the fair rent which can be imputed to the land being valued based upon rent actually received for the land by the owner and upon typical rentals received in the area for similar land in similar use, where the owner pays the property tax. Any cash rent or its equivalent considered in determining the fair rent of the land shall be the amount for which comparable lands have been rented, determined by average rents paid to owners as evidenced by typical land leases in the area, giving recognition to the terms and conditions of the leases and the uses permitted within the leases and within the enforceable restrictions imposed.

(2) Where sufficient rental information is not available, the income shall be that which the land being valued reasonably can be expected to yield under prudent management and subject to applicable provisions under which the land is enforceably restricted. There shall be a rebuttable presumption that "prudent management" does not include use of the land for a recreational use,

as defined in subdivision (n) of Section 51201 of the Government Code, unless the land is actually devoted to that use.

(3) Notwithstanding any other provision herein, if the parties to an instrument which enforceably restricts the land stipulate therein an amount which constitutes the minimum annual income per acre to be capitalized, then the income to be capitalized shall not be less than the amount so stipulated.

For the purposes of this section, income shall be determined in accordance with rules and regulations issued by the board and with this section and shall be the difference between revenue and expenditures. Revenue shall be the amount of money or money's worth, including any cash rent or its equivalent, which the land can be expected to yield to an owner-operator annually on the average from any use of the land permitted under the terms by which the land is enforceably restricted, including, but not limited to, that from the production of salt and from typical crops grown in the area during a typical rotation period, as evidenced by historic cropping patterns and agricultural commodities grown. When the land is planted to fruit-bearing or nut-bearing trees, vines, bushes, or perennial plants, the revenue shall not be less than the land would be expected to yield to an owner-operator from other typical crops grown in the area during a typical rotation period, as evidenced by historic cropping patterns and agricultural commodities grown. Proceeds from the sale of the land being valued shall not be included in the revenue from the land.

Expenditures shall be any outlay or average annual allocation of money or money's worth that has been charged against the revenue received during the period used in computing that revenue. Those expenditures to be charged against revenue shall be only those which are ordinary and necessary in the production and maintenance of the revenue for that period. Expenditures shall not include depletion charges, debt retirement, interest on funds invested in the land, interest on funds invested in trees and vines valued as land as provided by Section 429, property taxes, corporation income taxes, or corporation franchise taxes based on income. When the income used is from operating the land being valued or from operating comparable land, amounts shall be excluded from the income to provide a fair return on capital investment in operating assets other than the land, to amortize depreciable property, and to fairly compensate the owner-operator for his operating and managing services.

(b) The capitalization rate to be used in valuing land pursuant to this article shall not be derived from sales data and shall be the sum of the following components:

(1) An interest component to be determined by the board and announced no later than September 1 of the year preceding the assessment year and which was the yield rate for long-term United States government bonds, as most recently published by the Federal Reserve Board, rounded to the nearest ¼ percent.

(2) A risk component which shall be a percentage determined on the basis of the location and characteristics of the land, the crops to be grown thereon and the provisions of any lease or rental agreement to which the land is subject.

(3) A component for property taxes which shall be a percentage equal to the estimated total tax rate applicable to the land for the assessment year times the assessment ratio. The estimated total tax rate shall be the cumulative rates used to compute the state's reimbursement of local governments for revenues lost on account of homeowners' property tax exemptions in the tax rate area in which the enforceably restricted land is situated.

(4) A component for amortization of any investment in perennials over their estimated economic life when the total income from land and perennials other than timber exceeds the yield from other typical crops grown in the area.

(c) The value of the land shall be the quotient for the income determined as provided in subdivision (a) divided by the capitalization rate determined as provided in subdivision (b).

(d) Unless a party to an instrument which creates an enforceable restriction expressly prohibits such a valuation, the valuation resulting from the capitalization of income method described in this section shall not exceed the lesser of either the valuation that would have resulted by calculation under Section 110, or the valuation that would have resulted by calculation under Section 110.1, as though the property was not subject to an enforceable restriction in the base year.

In determining the 1975 base year value under Article XIII A of the California Constitution for any parcel for comparison, the county may charge a contractholder a fee limited to the reasonable costs of such determination not to exceed twenty dollars ($20) per parcel.

(e) If the parties to an instrument which creates an enforceable restriction expressly so provide therein, the assessor shall assess those improvements which contribute to the income of land in the manner provided herein. As used in this subdivision "improvements which contribute to the income of the land" shall include, but are not limited to, wells, pumps, pipelines, fences, and structures which are necessary or convenient to the use of the land within the enforceable restrictions imposed.

CHAPTER 145

An act relating to prisons, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 1987. Filed with Secretary of State July 9, 1987]

The people of the State of California do enact as follows:

SECTION 1. The Department of Corrections shall perform a preliminary evaluation of sites for the purpose of potentially constructing a prison in or near Coalinga.

SEC. 2. The sum of fifty thousand dollars ($50,000) is appropriated from the 1986 Prison Construction Fund to the Department of Corrections for the purpose of this act.

Funds appropriated under this section shall be available for preliminary site evaluation and shall also be available for purposes of site acquisition, suitability studies, environmental studies, master planning, architectural programming, schematics, preliminary plans, working drawings, construction, long lead and equipment items.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Because of the severe overcrowding of California prisons it is necessary that prison site evaluation be conducted in the most expeditious manner.

CHAPTER 146

An act to amend Section 35401.5 of the Vehicle Code, relating to vehicles, and declaring the urgency thereof to take effect immediately.

[Approved by Governor July 8, 1987 Filed with Secretary of State July 9, 1987]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares that the federal Surface Transportation Assistance Act of 1982 precludes any state from prohibiting the use of trailers or semitrailers of dimensions that were in actual and lawful use in the state on December 1, 1982, and further requires that those vehicles can operate in unlimited combination lengths on those highways specified in subdivision (a) of Section 35401.5 of the Vehicle Code. The Legislature further finds that on that date 53-foot semitrailers with a kingpin-to-rear-axle

distance of 38 feet or less were in actual and legal operation in this state.

The provisions of this act authorizing the use of 53-foot semitrailers with specified kingpin distances are intended to conform with both the express requirements of subsection (b) of Section 2311 of Title 49 of the United States Code as provided by the Surface Transportation Assistance Act and also the kingpin-to-rear-axle specifications enacted in Chapter 1378 of the Statutes of 1986. These provisions also are intended to ensure public safety and preservation of the state's highways by conditioning the 53-foot semitrailers' use on those highways specified in subdivision (a) of Section 35401.5 of the Vehicle Code with the kingpin-to-rearmost-axle limitations of paragraph (4) of subdivision (b) of Section 35400 of the Vehicle Code.

SEC. 2. Section 35401.5 of the Vehicle Code is amended to read:

35401.5. (a) A combination of vehicles consisting of a truck tractor and semitrailer, or of a truck tractor, semitrailer, and trailer, is not subject to the limitations of Sections 35400 and 35401, when operating on the National System of Interstate and Defense Highways or when using those portions of federal-aid primary highways or federal-aid urban system highways that have been qualified by the United States Secretary of Transportation for that use, or when using routes appropriately identified by the Department of Transportation or local authorities as provided in subdivision (c) or (d), if all of the following conditions are met:

(1) The length of the semitrailer in exclusive combination with a truck tractor does not exceed 48 feet. A semitrailer not more than 53 feet in length shall satisfy this requirement when configured with two or more rear axles, the rearmost of which is located 40 feet or less from the kingpin or when configured with a single axle which is located 38 feet or less from the kingpin. For purposes of this paragraph, a motor truck used in combination with a semitrailer, when that combination of vehicles is engaged solely in the transportation of motor vehicles, is considered to be a truck tractor.

(2) Neither the length of the semitrailer nor the length of the trailer when simultaneously in combination with a truck tractor exceeds 28 feet 6 inches.

(b) Subdivisions (b), (c), (d), and (e) of Section 35402 do not apply to combinations of vehicles operated subject to the exemptions provided by this section.

(c) Combinations of vehicles operated pursuant to subdivision (a) may also use highways not specified in subdivision (a) which provide reasonable access to facilities for purposes limited to fuel, food, lodging, and repair when that access is consistent with the safe operation of the combinations of vehicles and when the facility is within one-half road mile of identified points of ingress and egress to or from highways specified in subdivision (a) for use by those combinations of vehicles.

(d) The Department of Transportation or local authorities may, in

consideration of public safety and preservation of the highway, issue special permits for combinations of vehicles operated pursuant to subdivision (a) for terminal access pursuant to Sections 35780 and 35795. In lieu of issuing a permit, the Department of Transportation or local authorities with respect to highways under their jurisdiction may provide signing as necessary to indicate the use of specific routes as terminal access routes. For purposes of this subdivision, "terminal" means a facility at which freight is consolidated to be shipped or where full load consignments may be offloaded or at which the vehicle combinations are regularly maintained, stored, or manufactured. This subdivision does not provide for the issuance of permits to operate combinations of vehicles on highways, or portions of highway, subject to the limitations of subdivision (d) of Section 35401.

(e) Nothing in subdivision (c) or (d) authorizes state or local agencies to require permits of terminal operators or to charge terminal operators fees for the purpose of attaining access for vehicles described in this section.

(f) Notwithstanding subdivision (d), the limitations of access specified in that subdivision do not apply to licensed carriers of household goods when directly enroute to or from a point of loading or unloading of household goods, if travel on highways other than those specified in subdivision (a) is necessary and incidental to the shipment of the household goods.

(g) The Legislature finds and declares that, in authorizing the use of 53-foot semitrailers, it is its intent to conform with subsection (b) of Section 2311 of Title 49 of the United States Code by permitting the continued use of semitrailers of the dimensions as those that were in actual and legal use on December 1, 1982, and does not intend this action to be a precedent for future increases in any of those vehicles parameters that adversely affect the turning maneuverability of vehicle combinations.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to conform the provisions of law of this state regarding the operation and use of certain semitrailers with the federal Surface Transportation Assistance Act of 1982 as soon as possible, it is necessary that this act take effect immediately.

CHAPTER 147

No witness shall be required to produce personal records after receipt of notice that such a motion has been brought, except upon order of the court in which the action is pending or by agreement of the parties, witnesses, and consumers affected.

(h) Upon good cause shown and provided that the rights of witnesses and consumers are preserved, a subpoenaing party shall be entitled to obtain an order shortening the time for service of a subpoena duces tecum or waiving the requirements of subdivision (b) where due diligence by the subpoenaing party has been shown.

(i) Nothing contained in this section shall be construed to apply to any subpoena duces tecum which does not request the records of any particular consumer or consumers and which requires a

custodian of records to delete all information which would in any way identify any consumer whose records are to be produced.

(j) The provisions of this section shall not apply to proceedings conducted under Division 1 (commencing with Section 50), Division 4 (commencing with Section 3200), Division 4.5 (commencing with Section 6100), or Division 4.7 (commencing with Section 6200) of the Labor Code.

The failure of a manufacturing milk handler to have filed a new bond within 10 days after notice from the director constitutes grounds for the revocation or suspension of the manufacturing milk handler's license of the manufacturing milk handler.

(d) The charges for transportation, if hauled by the handler, which shall be the lower of either of the following:

(1) A rate not in excess of the rate charged for actual or reasonably similar services by highway carriers, as the term "highway carrier" is defined in Section 3511 of the Public Utilities Code.

director. The 45-day period shall commence on the day after the payment was due.

(b) The handler has failed on three separate occasions within a 12-month period to pay the producer, under the terms specified in subdivision (c) of Section 61411, the full price specified in the contract. The 45-day period shall commence on the day after the third occurrence.

61415.3. If a handler fails to pay for manufacturing milk delivered to him or her at the time and in the manner specified in this chapter, the director may assess a penalty for each payment date that the producers were not fully paid. Any penalty assessed shall be a minimum of one hundred dollars ($100) for each payment date. If the amount not properly paid for is more than forty thousand dollars ($40,000), the penalty assessed shall be five thousand dollars ($5,000) or one-fourth of 1 percent of the amount not properly paid, whichever is less.

If one of the chapters or any article, section, subdivision, sentence, clause, or phrase of any one of the chapters is for any reason held void, invalid, or unconstitutional, the decision shall not affect the validity of the other chapter or any of its articles, sections, subdivisions, sentences, clauses, or phrases.

CHAPTER 2.5. MILK PRODUCERS SECURITY TRUST FUND

Article 1. Legislative Declaration

62500. The production and distribution of milk, and the components thereof, is hereby declared to be a business affected with a public interest. This chapter is enacted in the exercise of the police powers of this state for the purpose of protecting the health and welfare of the people of this state.

62501. It is hereby declared that the dairy industry is a paramount agricultural industry of the state, and the normal processes of producing and marketing milk are enterprises of vast economic importance to the state and of vital importance to the consuming public which should be safeguarded and protected in the public interest. The Legislature finds that the marketing of milk requires dairy farmers to receive prompt payment. It is the policy of this state to protect producers against loss of payment for bulk milk. The public interest requires the establishment of a system to provide payment security for producers.

62502. It is recognized by the Legislature that the powers conferred upon the director by Chapter 1 (commencing with Section 61301), Chapter 2 (commencing with Section 61801), and Chapter 3 (commencing with Section 62700) are inadequate to enable the dairy industry to maintain satisfactory producer payment protection. Therefore, those powers must be supplemented by the powers conferred by this chapter upon the director to establish and administer a milk producers security trust fund.

62503. This chapter shall be liberally construed. If any article, section, subdivision, sentence, clause, or phrase of this chapter is for any reason held to be unconstitutional or invalid as applied to any person or as applied under certain circumstances, that decision shall not affect the validity of the remaining provisions of this chapter or the application of this chapter to any other person or under any other circumstances.

The Legislature hereby declares that it would have enacted each article, section, subdivision, sentence, clause, or phrase of this chapter regardless of the fact that one or more other articles, sections, subdivisions, sentences, clauses, or phrases are declared unconstitutional or invalid.

62504. Chapter 1 (commencing with Section 61301), Chapter 2 (commencing with Section 61801), and Chapter 3 (commencing with Section 62700) shall be liberally construed as being

complementary of, and supplemental to, this chapter. This chapter, Chapter 1 (commencing with Section 61301), Chapter 2 (commencing with Section 61801), and Chapter 3 (commencing with Section 62700) shall be liberally construed as constituting a single comprehensive scheme for the regulation of the production and handling of milk. However, each of the chapters, and each article, section, subdivision, sentence, clause, and phrase of each chapter is severable.

If one of the chapters or any article, section, subdivision, sentence, clause, or phrase of any one of the chapters is for any reason held void, invalid, or unconstitutional, the decision shall not affect the validity of any other chapter or any of its articles, sections, subdivisions, sentences, clauses, or phrases.

62505. This chapter does not preclude any producer from bringing any action against any handler in any court of competent jurisdiction.

62506. In order to effectuate the purposes of this chapter, the Milk Producers Security Trust Fund is hereby created.

62507. It is hereby declared, as a matter of legislative determination, that producers and handlers appointed to the Milk Producers Security Trust Fund Board are intended to represent and further the interest of a particular agricultural industry concerned, and that this representation and furtherance is intended to serve the public interest. Accordingly, the Legislature finds that, with respect to persons who are appointed to the board, the particular agricultural industry concerned is tantamount to, and constitutes, the public generally within the meaning of Section 87103 of the Government Code.

Article 2. Definitions

62520. Unless otherwise defined in this chapter, or the context otherwise requires, the definitions contained in Chapter 1 (commencing with Section 61301), Chapter 2 (commencing with Section 61801), or Chapter 3 (commencing with Section 62700) govern the construction of this chapter.

62521. For purposes of this chapter, the following definitions apply:

(a) "Board" means the Milk Producers Security Trust Fund Board.

(b) "Fund" means the Milk Producers Security Trust Fund created pursuant to Section 62506.

(c) "Handler" means any person who as owner, agent, broker, or intermediary, either directly or indirectly, receives, purchases, or otherwise acquires ownership, possession, or control of milk in unprocessed or bulk form from a producer or a producer-handler for the purpose of manufacturing, processing, selling, or other handling. It includes cooperative associations that, either directly or indirectly, receive, purchase, or otherwise acquire ownership, possession, or

control of milk from other handlers or producers who are nonmembers of the cooperative.

(d) "Milk" means bulk whole milk, bulk lowfat milk, bulk skim milk, bulk condensed skim, and bulk cream, and any other combination of these products which have not had nondairy ingredients added. It does not include milk which has been packaged in bottles, cartons, dispenser cans, or other consumer packages.

(e) "Producer" means any person that produces milk from five or more cows whose bulk milk is received, acquired, or handled by a handler. It includes the nonprofit cooperative associations described in Article 3 (commencing with Section 61871) of Chapter 2 in the sale of milk of its member producers to other handlers.

Article 3. Milk Producers Security Trust Fund Board

62540. The director shall appoint a Milk Producers Security Trust Fund Board consisting of seven members.

The director shall appoint two members of the first board for a term of one year, two members for a term of two years, and three members for a term of three years. Thereafter, all appointments shall be for a term of three years, and no member shall be appointed to more than three consecutive three-year terms.

Members of the board shall include three milk producers, two representatives of handlers licensed under Chapter 2 (commencing with Section 61801), and two nonproducer members representing cooperative associations of milk producers.

62541. Each member of the board shall be paid one hundred dollars ($100) per day plus travel expenses, including expenses for lodging and meals, which are incurred in the attendance at board meetings or in conducting the business of the board. All per diem and expense claims are subject to approval by the director.

62542. The board shall advise the director on the administration of the fund, including, but not limited to, the amount of the fund defaults under this chapter and the implementation of the security charge necessary to accomplish its functions.

Article 4. Financing Plan

62560. Within 90 days after the effective date of this chapter, the director shall implement the collection of the security charges provided for in Section 62561 for a minimum 30-month period. Subsequent collection periods shall be implemented by the director following consultation with the board.

It shall be the objective of the director and the board to maintain a fund which, in their estimation, is large enough to cover approximately 110 percent of one month's milk purchases by the handler who has the largest monthly payment obligation to milk producers.

62561. (a) The following security charges shall be in effect for

any period for which the director has implemented collections under this chapter:

(1) (A) Class 1 fat, five and seven-tenths mills per pound ($0.0057).

(B) Class 1 solids-not-fat, two and three-tenths mills per pound ($0.0023).

(C) Class 1 fluid, one-tenth mill per pound ($0.0001).

(2) (A) Classes 2 and 3 fat, seven and one-tenth mills per pound ($0.0071).

(B) Classes 2 and 3 solids-not-fat, two and nine-tenths mills per pound ($0.0029).

(b) The director shall add the security charges to the prices established for class 1, class 2, and class 3 milk established pursuant to Chapter 2 (commencing with Section 61801).

62562. Any increase in classified prices due to Section 62561 shall be considered as part of the minimum prices required to be paid to producers under other provisions of this code. No other provisions of this chapter modify the minimum payment requirements contained in Chapter 1 (commencing with Section 61301) and Chapter 2 (commencing with Section 61801).

62563. Any handler subject to any pooling plan in effect under Chapter 3 (commencing with Section 62700) shall continue to be obligated for the minimum prices provided for in the stabilization and marketing plans on the pooled usage of the handler. However, any part of the minimum prices which are attributable to the security charges established pursuant to Section 62561 shall be deducted before producer prices are determined under the pooling plan.

Any handler subject to the pooling plan that also receives milk which is not included in the calculation of producer prices determined under the pooling plan shall also be obligated to pay the security charges established pursuant to Section 62561 for any portion of that milk which is assigned to class 1, class 2, and class 3 usage.

The amount of any handler's obligation attributable to the security charges established pursuant to Section 62561 shall be remitted by the director to the fund by the end of the month following the month the pool calculations were completed.

62564. Any handler receiving milk not subject to any pooling plan in effect pursuant to Chapter 3 (commencing with Section 62700) shall be obligated to remit directly to the director any security charges in effect pursuant to Section 62561 for class 1, class 2, and class 3 products produced from the milk and may deduct the security charges from the minimum prices required to be paid to producers.

62564.5. Any producer-handler who has milk production that is exempt pursuant to Section 62708, 62708.1, or 62708.5 from the pooling plan in effect pursuant to Chapter 3 (commencing with Section 62700) shall be exempt from any security charges established pursuant to this article for that exempt production.

62565. Security charges may be collected by the director through

direct payment or through pool accounting procedures established by the director pursuant to Chapter 3 (commencing with Section 62700).

62566. The director may add a penalty of 10 percent to amounts which are not paid when due.

62567. If any handler or producer-handler does not provide the information necessary to determine the amount due, when required, the director shall estimate the amount due from the records of the department or from any other source of information which is available.

62568. The director may take all appropriate action against any person to recover any unpaid amounts. In any action, a certificate of the director which shows the amount, including penalty, determined by the director to be required to be paid is prima facie evidence of the delinquency. The presumption established by this section is a presumption affecting the burden of proof.

62569. Any money which is collected by the director pursuant to this chapter shall be deposited in a bank or other depository which is approved by the director. Funds which are so collected are exempt from Sections 11270 and 11272 of the Government Code and shall be deposited and disbursed only to pay for milk produced and delivered within this state, which has not been otherwise paid for, including pool equalization fund obligations; attorney's fees and other costs incurred in litigation involving the fund; expenses generated by the auditing requirement imposed by Section 62570; and for the costs set forth in Section 62573. The expenditure of those funds shall be exempt from Section 925.6 of the Government Code.

62570. All fund activities shall be subject to an audit at least once every two years by an auditing firm recommended by the board and selected by the director. A copy of the audit shall be delivered within 30 days after completion to the director.

62571. In addition to the security charges imposed pursuant to Section 62561, the director may impose an additional security charge in the amount necessary to cover the department's costs in administering this chapter.

62572. Any money which is deposited pursuant to Section 62569, which the director determines is available for investment, may be invested or reinvested by the Treasurer in any of the securities described in Article 1 (commencing with Section 16430) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code, or placed in a depository as provided in Chapter 4 (commencing with Section 16500) of that part, and handled in the same manner as money in the State Treasury. For these purposes, the money may also be combined with funds determined by the director to be available for investment pursuant to Section 58939.

62573. Any increment which is received from investment, reinvestment, or deposit of money pursuant to Section 62572 shall be deposited to the credit of the fund. The Treasurer may deduct from this remittance an amount equal to the reasonable costs incurred in

carrying out Section 62572 and this section or may bill the director for the costs, and the director shall pay the costs from money collected pursuant to this chapter.

Article 5. Milk Producers Security Trust Fund Coverage

62580. In order for milk shipped by a producer to a handler to be considered for coverage pursuant to this chapter, the following criteria shall be met:

(a) Milk shipment was made after December 31, 1986.

(b) A valid contract between the producer and handler pursuant to Chapter 1 (commencing with Section 61310) or Chapter 2 (commencing with Section 61801) has been filed with the director prior to the date the milk was shipped, unless the shipment was made in the first five days after the contract was executed. This requirement shall be waived for all shipments made prior to the effective date of this chapter.

(c) The handler was licensed and bonded as required by Chapter 1 (commencing with Section 61301) or Chapter 2 (commencing with Section 61801) when the contract was filed with the director.

(d) The milk was produced within the state and delivered to a plant within the state.

(e) The director has not issued a prior notice that the shipments would not be covered by the fund.

(f) The shipment was not made under a custom processing arrangement with the producer retaining title.

(g) The producer or cooperative shipping the milk had a direct contract with the handler. In the case of a cooperative, only the milk of its members shipped under the contract is covered. Milk shipped to a handler under a contract held by intermediaries, brokers, or agents is not covered.

(h) The producer does not have a beneficial ownership interest in the handler to whom shipments were made.

(i) The producer is in compliance with this chapter, Chapter 1 (commencing with Section 61301), Chapter 2 (commencing with Section 61801), and Chapter 3 (commencing with Section 62700).

62581. Only produced shipments which occur during the first 30 days from the date of the earliest shipment for which a producer has not been paid are eligible.

62582. If the director determines that future shipments to a handler will not be eligible for coverage under this chapter, the director shall notify all producers who have a contract on file with the director, all cooperative associations, and other interested parties. The director may determine that future shipments will not be eligible when any of the following events occur:

(a) The handler fails to maintain a valid license or bond as required under Chapter 1 (commencing with Section 61301) or Chapter 2 (commencing with Section 61801).

(b) The handler has failed to pay producers as required under

Chapter 1 (commencing with Section 61301) or Chapter 2 (commencing with Section 61801).

(c) The handler has failed to pay the amount due the pool equalization fund provided for in Chapter 3 (commencing with Section 62700).

62583. If, on the date of the notice issued pursuant to Section 62582, a producer has a contract with the handler which is on file with the director, shipments by that producer after 45 days from the date of the notice will not be considered in determining any claim the producer may make against the fund, unless the director reestablishes eligiblity for future shipments to be covered by the fund.

62584. If, on the date of the notice issued pursuant to Section 62582, a producer does not have a contract with the handler which is on file with the director, shipments by the producer after five days from the date of the notice will not be considered in determining any claim the producer may make against the fund, unless the director reestablishes eligibility for future shipments to be covered by the fund.

62585. If the director issues a notice pursuant to Section 62582, the director may again qualify shipments to the handler if any of the following occur:

(a) The handler has corrected the deficiency upon which the notice was originally issued and has done all of the following:

(1) Paid all amounts owed to producers, including interest, provided for in Chapter 1 (commencing with Section 61301) or Chapter 2 (commencing with Section 61801). Producers are not entitled to receive interest on amounts for which they have been paid by the fund after the date of payment by the fund.

(2) Reimbursed the fund for any payments made by the fund due to a default by the handler plus interest at the rate of 12 percent per annum from the date of payment by the fund.

(3) Paid any amount owed to the pool equalization fund.

(4) Paid any assessments, penalties, or other amounts owed under federal, state, or local laws.

(b) Four years have elapsed since the date of the default in payment.

(c) The director, with the advice of the board, finds that reinstatement is fair and equitable.

62586. The director shall periodically publish a list of all handlers to whom shipments are not eligible for coverage under the fund.

62587. The director may waive any of the provisions of this article if, after consultation with the board, the director finds that a hardship would be imposed on persons subject to this chapter which is not consistent with the intent of this chapter.

Article 6. Discovery and Notification of Default in Payments

62600. Any producer who does not receive payment for milk sold or delivered to a handler in the manner required by Chapter 1 (commencing with Section 61301) or Chapter 2 (commencing with Section 61801) shall promptly notify the director.

62601. The director shall, upon his or her own motion or upon information from a producer, producer representative, or any other person, promptly take whatever action is necessary to determine whether a payment default has occurred.

62602. The director may, but is not required to, investigate a payment default which occurred more than one year prior to the date the director received the information.

62603. If the director determines that reasonable grounds exist to believe that a payment default has occurred, the director shall notify the handler that it has one business day from receipt of the notification to correct the payment deficiency. If there is not sufficient reason, the director shall so notify the handler and complaining party.

62604. When a payment default has occurred, which was not corrected within one business day after notification, the director shall issue a notice pursuant to Section 62582 which identifies the defaulting handler and informs producers of the provisions of Sections 62841 and 62843. The notice shall also inform producers of their rights to file claims pursuant to Article 7 (commencing with Section 62620).

Article 7. Producer Claims

62620. If the director determines that the fund is liable for any nonpayments to producers, the director shall provide to the producers, who have a contract with the defaulting handler on file with the director, a claim form. The claim form, which shall be verified, shall be returned to the director within 60 days from the date the claim forms are mailed by the director. The producer need only verify that a nonpayment has occurred. The amount of the nonpayment shall be determined by the director.

62621. If a verified claim form is not filed as required by Section 62620, the director and the fund are relieved of any further duty or liability pursuant to this chapter.

62622. Upon receipt of all verified claim forms from producers or the expiration of the time allowed to file claims, whichever occurs first, the director shall calculate the amount due each producer and shall notify each producer of their calculated amount and the relationship that amount bears to the total of all claims. Any producer not satisfied with the determination of the director may, within 30 days of receiving the notice pursuant to this section, request the director to review his or her calculated amount.

62623. For purposes of this chapter, the amounts owed to the

producers shall be calculated as follows:

(a) Only producers' shipments which occur during the first 30 days from the date of the earliest shipment for which a producer has not been paid shall be used.

(b) The minimum prices established in the stabilization and marketing plans applied to the usage assigned under the pooling plan shall be used for cooperative marketing associations.

(c) The price specified in the contract with the handler shall be used for manufacturing milk produers unless a low price is contained in stabilization and marketing plans, in which case the lower price shall be used.

(d) The minimum prices established in the stabilization and marketing plans shall be used for direct market milk producers who are not shipping their milk under the pooling plan.

(e) The quota, base, and overbase prices, as provided for in the pooling plan, shall be used for producers, other than cooperative marketing associations, who ship their milk directly to a handler.

(f) Deductions shall be made for those items which the handler customarily deducts from the payments, unless the deductions are in violation of Chapter 1 (commencing with Section 61301), Chapter 2 (commencing with Section 61801), or Chapter 3 (commencing with Section 62700), or the deductions are for voluntary assignments made by the producer.

(g) The producer's share of any bond recovery under Chapter 1 (commencing with Section 61301) or Chapter 2 (commencing with 61801) shall be deducted.

62624. Two hundred thousand dollars ($200,000) shall be deducted from the total of the amount owed to all producers, as calculated in Section 62623, and the balance shall be paid from the fund on a pro rata basis. The amount calculated pursuant to Section 62623 shall be the basis for prorating.

62625. A prorated payment shall be made to all affected producers based on the amount payable pursuant to Section 62624 when there is not sufficient money in the fund. Additional payments shall be made on a quarterly basis until the total amount due is paid. Each payment shall take into consideration all claims that have been partially satisfied and new claims approved since the previous payment.

Article 9. Trust Fund Coverage of the Pool Equalization Fund

62640. If a handler defaults in payments to the pool equalization fund provided for in Chapter 3 (commencing with Section 62700) and the director determines that additional efforts will not result in collection of the amount due, the director, after consultation with the board, may transfer funds from the fund to cover the amount of the default.

Article 10. Administration

62660. The director may use money in the Department of Food and Agriculture Fund derived from assessments and fees collected pursuant to Chapter 1 (commencing with Section 61301), Chapter 2 (commencing with Section 61801), and Chapter 3 (commencing with Section 62700) to the extent necessary to defray the costs of administering this chapter, except costs for which the fund is liable, as provided for in Section 62569.

62661. The director is the instrumentality of this state for the purpose of administering and enforcing this chapter and to execute the legislative intent expressed in this chapter, and is hereby vested with the administrative authority specified in this chapter.

62662. The director may exercise any or all of powers conferred by the Government Code upon the head of a department with respect to hearings and investigations under this chapter.

62663. For purposes of enforcing this chapter, the director may investigate any and all transactions between producers and handlers, between nonprofit cooperative associations and producers, and among handlers. For that purpose, the director shall have access to, and may enter at all reasonable hours, any place where milk is being stored, bottled, or manufactured and where milk is being bought, sold, or handled, or where the books, papers, records, or documents which relate to those transactions are kept. The director may inspect and copy those books, papers, records, or documents at any place within the state.

62664. The director may consult with the board regarding defaults and claims. The director may request that all parties involved in any dispute appear before the board to present information which will assist the board in advising the director.

62665. Any order of the director made pursuant to this chapter which substantially affects the rights of any interested party shall be subject to judicial review upon petition to the appropriate court. The petition shall be filed within 30 days after the effective date of the order.

62666. Any producer who recovers from the fund shall subrogate to the director all rights of recovery against any person or organization, and the producer shall execute and deliver to the director instruments and papers, and perform any other acts necessary to carry out this section.

62667. Any payments made to producers from the fund due to a handler's default is a judgment against the defaulting handler. The judgment shall be considered a lien on all real and personal property of the defaulting handler. The director may file the lien for record with any county recorder where a defaulting handler's property is located and shall specify the amount owed, the name of the handler, the federal social security number or the federal employer tax number if known, and the last known address of the handler. The lien shall remain in full force and effect until the handler has repaid to

the fund an amount equal to the default.

SEC. 56. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 57. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the Milk Producers Security Trust Fund be created and protection to dairy producers be enacted to protect the dairy industry and the public from the catastrophic effects resulting from the closure of milk processing plants, including the nonpayment of producers for their milk production and the interruption of adequate supplies of milk and milk products to the consuming public, as soon as possible, it is necessary that this act take effect immediately.

CHAPTER 157

An act to amend Sections 832, 15000, 15002, and 15004 of the Penal Code, relating to peace officers, and making an appropriation therefor.

[Approved by Governor July 10, 1987. Filed with Secretary of State July 10, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 832 of the Penal Code is amended to read:

Training in the carrying and use of firearms shall not be required of any peace officer whose employing agency prohibits the use of firearms.

(b) (1) Every such peace officer described in this chapter, within 90 days following the date that he or she was first employed by any employing agency, shall, prior to the exercise of the powers of a peace officer, have satisfactorily completed the course of training as described in subdivision (a).

(2) Every peace officer described in Section 13510 or in subdivision (a) of Section 830.2 may satisfactorily complete the training required by this section as part of the training prescribed pursuant to Section 13510.

(c) Persons described in this chapter as peace officers who have not satisfactorily completed the course described in subdivision (a) as specified in subdivision (b), shall not have the powers of a peace officer until they satisfactorily complete the course.

(d) Any peace officer who on March 4, 1972, possesses or is qualified to possess the basic certificate as awarded by the Commission on Peace Officer Standards and Training shall be exempted from this section.

SEC. 2. Section 15000 of the Penal Code is amended to read:

15000. There is in state government the Peace Officers' Memorial Commission, hereinafter referred to as the commission, composed of nine members. Five of the members shall be appointed by the Governor, two shall be appointed by the Speaker of the Assembly, and two shall be appointed by the Senate Committee on Rules. The members of the commission shall elect a chairperson.

Members of the commission shall receive no compensation, but shall receive per diem and expenses while engaged in commission activities.

This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1989, deletes or extends that date.

SEC. 3. Section 15002 of the Penal Code is amended to read:

15002. With respect to the design and construction of the memorial, the commission may do all of the following:

(a) Establish a schedule for the design, construction, and dedication of the memorial.

(b) Implement procedures to solicit designs for the memorial and devise a selection process for the choice of the final design.

(c) Select individuals or organizations to provide fundraising services and to construct the memorial.

(e) Report to the Legislature through the Senate Judiciary Committee biannually on the progress of the memorial.

This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1989, deletes or extends that date.

SEC. 4. Section 15004 of the Penal Code is amended to read:

15004. (a) The sum of twenty-five thousand dollars ($25,000) is hereby appropriated from the General Fund to the commission as a loan for purposes of this part. The commission shall reimburse the amount of the appropriation, plus interest at the same rate of interest as that earned by moneys in the Pooled Money Investment Account during the term of the loan, from the first contributions received by the commission under this part.

(b) The Peace Officers' Memorial Account in the General Fund, hereinafter referred to as the account, is hereby established. All funds received by the commission under Sections 15001 and 15002,

and subdivision (a) of this section shall be deposited in the account. Notwithstanding Section 13340 of the Government Code, the moneys in the account are hereby appropriated to the commission for purposes of this part without regard to fiscal years.

This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1989, deletes or extends that date.

CHAPTER 158

An act to add Section 3410 to the Public Contract Code, relating to public contracts.

[Approved by Governor July 13, 1987. Filed with Secretary of State July 13, 1987]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) California-produced and processed foods are the safest in the world as a result of the state's comprehensive health and safety requirements, monitoring, and enforcement. Especially important are those procedures relating to pesticide use, chemical residues, and sanitation.

(b) The state's agricultural economy is suffering from an increase in imported food that is produced at a lower cost and often with subsidies. These lower costs of production and processing are often a result of foreign producers and processors not having to comply with the strict health and safety requirements that California producers must comply with.

(c) The value of the state's exports has substantially decreased this decade due to many factors, including, but not limited to, a high valued dollar and competition from foreign producers.

(d) When a government entity purchases imported foods the result is support of foreign producers and processors with California taxpayer dollars. That support instead should go into the United State's economy.

(e) When a government entity purchases food, preference should be given to United States-grown and United States-processed commodities.

SEC. 2. Section 3410 is added to the Public Contract Code, to read:

3410. Any public entity, as defined in Section 1100, including any school district or community college district, when purchasing food, shall give preference to United States-grown produce and United States-processed foods when there is a choice and it is economically feasible to do so. For purposes of this section, the determination of "economically feasible" shall be made by the purchasing public

entity, considering the total cost, quantity, and quality of the food and the budget and policies of the entity.

SEC. 3. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

CHAPTER 159

An act to amend Sections 51, 51.5, 51.8, 52, and 53 of the Civil Code, relating to civil rights.

[Approved by Governor July 14, 1987. Filed with Secretary of State July 14, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 51 of the Civil Code is amended to read:

51. This section shall be known, and may be cited, as the Unruh Civil Rights Act.

All persons within the jurisdiction of this state are free and equal, and no matter what their sex, race, color, religion, ancestry, national origin, or blindness or other physical disability are entitled to the full and equal accommodations, advantages, facilities, privileges, or services in all business establishments of every kind whatsoever.

This section shall not be construed to confer any right or privilege on a person which is conditioned or limited by law or which is applicable alike to persons of every sex, color, race, religion, ancestry, national origin, or blindness or other physical disability.

Nothing in this section shall be construed to require any construction, alteration, repair, structural or otherwise, or modification of any sort whatsoever to any new or existing establishment, facility, building, improvement, or any other structure, or to augment, restrict, or alter in any way the authority of the State Architect to require construction, alteration, repair, or modifications that the State Architect otherwise possesses pursuant to other provisions of the law.

Nothing in this section shall require any person renting, leasing, or otherwise providing real property for compensation to modify his or her property in any way, or to provide a higher degree of care for a blind or other physically disabled person than for a person who is not physically disabled.

SEC. 2. Section 51.5 of the Civil Code is amended to read:

51.5. No business establishment of any kind whatsoever shall discriminate against, boycott or blacklist, refuse to buy from, sell to,

CHAPTER 160

An act to add and repeal Chapter 7 (commencing with Section 5575) of Part 1 of Division 5 of the Welfare and Institutions Code, relating to mental health, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 15, 1987 Filed with Secretary of State July 15, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 5575) is added to Part 1 of Division 5 of the Welfare and Institutions Code, to read:

CHAPTER 7. MENTAL HEALTH SERVICES FOR CHILDREN

5575. The Legislature finds that there is no comprehensive system for the delivery of mental health services to children and youth, including families or foster families. It further finds that services to children and youth are provided by various departments and agencies at both the state and county level, often without appropriate collaboration. The Legislature finds that mental health services to children in the County of Ventura are comparatively more comprehensive, involve more interagency collaboration, and provide a potential model program. Therefore, it is the intent of the Legislature to extend for a third year the demonstration project in Ventura County established under former Chapter 7 (commencing with Section 5575) by Chapter 1474 of the Statutes of 1984, to accomplish the following goals:

(a) Design and implement a comprehensive coordinated children's mental health service system as described in the 1983 State Department of Mental Health planning model.

(b) Build on existing service capabilities within the various agencies currently serving children's needs.

(c) Provide for a joint evaluation or interagency consultation by all publicly funded agencies for minors experiencing emotional disturbances.

(d) Identify statutory and regulatory changes that would facilitate interagency cooperation.

(e) Develop appropriate interagency protocols and agreements.

(f) Develop appropriate services for difficult-to-place children.

(g) Provide services in a manner that gives priority to permitting the minor to reside in his or her usual family setting.

(h) Where a joint evaluation indicates that out-of-home care and treatment is required, ensure that these services are provided in the least restrictive setting consistent with effective services, and in as close proximity as possible to the minor's usual residence.

(i) Conduct research into children's mental health service system in order that the system may be evaluated for effectiveness of treatment and cost benefit on an ongoing basis.

(j) Provide for other counties or regions a replicable model for a comprehensive, coordinated children's mental health service system.

5576. The State Department of Mental Health shall extend for a third year the demonstration project in Ventura County for identifying and evaluating the county's interagency mechanism whereby local agencies serving emotionally disturbed minors with public funds are effectively collaborating with each other on behalf of these minors.

5577. (a) The State Department of Mental Health shall contract with the County of Ventura, according to the terms set forth in Section 5705.2, for the purpose of extending for a third year the demonstration project for developing and implementing a model children's comprehensive mental health service system. The program, as developed, shall meet the goals stated in Section 5575. The project shall include the various elements described in the proposed planning model for continuum of care for emotionally disturbed children and youth, published by the State Department of Mental Health in October 1983.

(b) The system developed pursuant to subdivision (a) shall include joint evaluation of the child and shall give priority to all of the following:

(1) Enabling the minor to remain at home whenever possible.

(2) Providing placement in the least restrictive and least costly setting consistent with the minor's needs.

(3) Enabling the minor to receive out-of-home services in as close proximity as possible to the minor's usual residence.

(c) The contract pursuant to subdivision (a) shall include research into the county's mental health service system for children and youth in order that the system may be evaluated for effectiveness of treatment and cost benefit on an ongoing basis, and identification of a model for a comprehensive coordinated children's mental health service system that can be replicated in other counties.

(d) The Director of Mental Health shall maintain an advisory group comprised of, but not limited to, the following: representatives from the appropriate state departments, children services coordinators designated by the Conference of Local Mental Health Directors, the California Council on Mental Health and the local mental health advisory boards. The function of the advisory group shall be to advise and assist Ventura County in the development of replicable model programs and other duties as determined by the Director of Mental Health.

(e) This extension of the demonstration project shall be deemed operative July 1, 1987, as though it were enacted and became operative on July 1, 1987, and shall continue through June 30, 1988. During this period, the County of Ventura shall file a progress report

on February 15, 1988, and a final report on August 15, 1988. The final report shall be submitted to the State Department of Mental Health and to the Chairpersons of the Assembly Committee on Health, the Senate Committee on Health and Human Services, the Assembly Committee on Ways and Means, and the Senate Committee on Finance.

5578. (a) The extension of the demonstration project under Section 5577 shall be funded during the 1987–88 fiscal year in accordance with the provisions of this section.

(b) Funding shall be obtained first from any unexpended funds and savings identified by the department in the 1986–87 fiscal year Budget Act appropriation for the demonstration project under this chapter. Ventura County shall cooperate with the department in identifying the unexpended funds and savings.

(c) Any additional funds which are required shall be obtained from unexpended funds and savings identified by the department in the 1985–86 fiscal year Budget Act appropriation for local assistance under the Short-Doyle Act, excluding any funds appropriated for a particular purpose.

(d) The unexpended funds and savings identified by the department pursuant to this section are hereby reappropriated for the support of the demonstration project during the 1987–88 fiscal year.

5579. This chapter shall remain in effect only until August 16, 1988, and as of that date is repealed, unless a later enacted statute, which is chaptered before August 16, 1988, deletes or extends that date.

SEC. 2. All acts and proceedings taken on and after June 30, 1987, to and including the effective date of this act purporting to carry out the provisions of Chapter 7 (commencing with Section 5575) of Part 1 of Division 5 of the Welfare and Institutions Code, as added by Section 1 of the act, are hereby authorized, confirmed, validated, and declared legally effective to the extent the same can be effectuated under the federal and state constitutions.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the demonstration project, which is extended for a year under this act, may be maintained without interruption, it is necessary that this act take effect immediately.

[Approved by Governor July 15, 1987. Filed with Secretary of State July 16, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 739.2 of the Public Utilities Code is repealed.

SEC. 2. Article 8 (commencing with Section 871) is added to Chapter 4 of Part 1 of Division 1 of the Public Utilities Code, to read:

Article 8. Universal Telephone Service

871. This article shall be known and may be cited as the Moore Universal Telephone Service Act.

872. As used in this article, "residential" means residential use and excludes industrial, commercial, and every other category of end use.

873. The commission shall annually designate a class of universal telephone service necessary to meet minimum residential

communications needs, including access to telephone service for emergency communications with public agencies and private medical services and for additionally maintaining necessary social contacts by the elderly, the handicapped, and the infirm. The commission shall take into account differentials in communication needs among subscribers, costs of acquiring service caused by geographical differences in the locales of residences, personal income of subscribers, and other factors appropriate in designating the characteristics of a class of universal telephone service. The commission shall annually issue its decision designating the characteristics of a class of universal telephone service, the rates and charges for that service or those services, and eligibility criteria for that service.

874. The universal telephone service rates shall be as follows:

(a) In a residential subscriber's service area where measured service is not available, the universal telephone service rates shall not be more than 50 percent of the rates for basic flat rate service, exclusive of federally mandated end user access charges, available to the residential subscriber.

(b) In a residential subscriber's service area where measured service is available, the subscriber may elect either of the following:

(1) A universal telephone service measured rate of not more than 50 percent of the basic rate for measured service, exclusive of federally mandated end user access charges, available to the residential subscriber.

(2) A universal flat rate discounted by not less than the rate reduction in dollars received by universal telephone service subscribers choosing the service in paragraph (1) and by not more than 50 percent of the rates for basic flat rate service, exclusive of federally mandated end user access charges, available to the residential subscriber.

875. (a) In addition to Section 874, every universal telephone service subscriber shall be given an allowance, reduced by the amount of any credit or allowance authorized by the Federal Communications Commission, equal to the then current or announced federally mandated residential end user access charges.

(b) The commission may, in a separate proceeding, establish procedures necessary to ensure that the universal telephone service program qualifies for any federal funds available for the support of those programs.

876. The commission shall require every telephone corporation providing telephone service within a service area to file a schedule of rates and charges providing a class of universal telephone service. Every telephone corporation providing service within a service area shall inform all eligible subscribers of the availability of universal telephone service, and how they may qualify for and obtain service, and shall accept applications for universal telephone service according to procedures specified by the commission.

877. Nothing in this article precludes the commission from

changing any rate established pursuant to Section 873, either specifically or pursuant to any general restructuring of all telephone rates, charges, and classifications.

878. A universal telephone service subscriber shall be provided with one single party line at his or her principal place of residence, and no other member of that subscriber's family or household who maintains residence at that place is eligible for universal telephone service.

An applicant for universal telephone service may report only one address in this state as the principal place of residence.

879. (a) The commission shall, at least annually, initiate a proceeding to set rates for universal telephone service. All telephone corporations providing universal telephone service shall annually file, on a date set by the commission, proposed universal telephone service rates and a statement of projected revenue needs to meet the funding requirements to provide universal telephone service to qualified subscribers, together with proposed funding methods to provide the necessary funding. These funding methods shall include identification of those services whose rates shall be adjusted to provide the necessary funding.

(b) The commission shall commence a proceeding within 30 days after the date set for the filings required in subdivision (a), giving interested parties an opportunity to comment on the proposed rates and funding requirements and the proposed funding methods. The commission may change the rates, funding requirements, and funding methods proposed by the telephone corporations in any manner necessary, including reasonably spreading the funding among the services offered by the telephone corporations, to meet the public interest. Within 60 days of the annual filing, the commission shall issue an order setting universal telephone service rates and funding methods for each telephone corporation making a filing as required in subdivision (a). The commission may establish a universal service pool for the purpose of funding universal telephone service.

(c) Any order issued by the commission pursuant to this section shall require telephone corporations providing universal telephone service to apply the funding requirement in the form of a surcharge to service rates which may be separately identified on the bills of customers using those services. The commission shall not allow any surcharge under this section on the rates charged by those telephone corporations for universal telephone service.

(d) The commission shall permit telephone corporations operating between service areas to adjust the rates of any service which may be affected by any surcharge imposed by this section.

879.5. Notwithstanding Section 879, the commission shall issue its initial order adopting required rates and funding requirements not later than October 31, 1987, and prior to the issuance of that order, may fund universal telephone service through the use of an interim surcharge on service rates for telephone service provided by

telephone corporations operating between service areas. The interim surcharge shall not exceed 4 percent of the service rates.

880. The commission may determine any question of fact in its administration of this article.

SEC. 3. Part 22 (commencing with Section 44000) of Division 2 of the Revenue and Taxation Code is repealed.

SEC. 4. (a) All amounts required to be paid to the state under Part 22 (commencing with Section 44000) of Division 2 of the Revenue and Taxation Code, as it read prior to its repeal by this act, shall be paid to the board in the form of remittances payable to the State Board of Equalization of the State of California. The board shall transmit the payments to the Treasurer to be deposited in the State Treasury to the credit of the Universal Telephone Service Fund, which is hereby continued in existence.

(b) Funds in the Universal Telephone Service Fund are hereby continuously appropriated solely for the following purposes, to be paid by the Controller:

(1) To pay refunds as was authorized by that former Part 22.

(2) To pay the board for the cost of the administration of this section.

(3) To pay the commission for its costs of carrying out its duties and responsibilities under this section.

(4) To pay the Controller for the Controller's cost in the administration of this section.

(5) To pay amounts submitted by telephone corporations pursuant to commission rules and to the procedures specified by the Controller pursuant to that former Part 22. The commission shall certify to the Controller those amounts to be paid from the fund to telephone corporations for the provision of universal telephone service pursuant to that former Part 22.

(c) The commission shall pay the bills provided in paragraph (5) of subdivision (b) only under the following conditions:

(1) The Universal Telephone Service Fund contains an amount sufficient to pay the bills.

(2) The amounts to be paid shall not exceed the amount authorized by the commission for the costs of universal telephone service.

(3) Each telephone corporation providing universal telephone service pursuant to that former Part 22 shall file an annual public report with the commission, the board, and the Controller detailing its expenses incurred in providing universal telephone service pursuant to that former Part 22, including an accounting of the amounts requested from the Controller pursuant to paragraph (5) of subdivision (b), and any other items requested by the commission. An independent certified public accountant shall examine this report and shall give notice of examination with the report. The commission and the board may audit the report.

(d) Utilizing funds from the Universal Telephone Service Fund, the Controller shall continue paying pursuant to subdivisions (b) and

(c), on a quarterly basis, any bills which are submitted by telephone corporations providing universal telephone services pursuant to that former Part 22.

(e) Notwithstanding any other provision of this section, if there is not an amount sufficient to pay bills submitted to the Controller by telephone corporations for the provision of universal telephone service, the commission shall immediately notify the Legislature and propose to the Legislature a remedy for the insufficiency.

(f) This section shall become inoperative on July 1, 1988, and, as of January 1, 1989, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1989, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 5. CHAPTER 165

An act to amend Section 1 of Chapter 1549 of the Statutes of 1982, relating to prisons, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 17, 1987. Filed with Secretary of State July 20, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1 of Chapter 1549 of the Statutes of 1982 is amended to read:

Section 1. (a) The Legislature hereby designates and approves the sites described in paragraphs (1) and (2), and authorizes the Department of Corrections to do the following:

(1) Construct and establish one 1,250-bed reception center, with an additional 200-bed service facility, in Los Angeles County.

(2) Construct and establish one 2,000-bed prison, with an additional 200-bed service facility, in Los Angeles County.

(3) If the Department of Corrections proposes to carry out the project, the department shall prepare an environmental impact report for the reception center described in paragraph (1), at the site designated by the boundaries of Santa Fe Avenue, the Los Angeles River, Olympic Boulevard, and Washington Boulevard. If the department determines not to carry out the project at the site described by those boundaries, the department shall, within six months of that determination, report to the Legislature, and shall include in the report the reason for that determination and the designation of an alternative site for legislative consideration. If the alternative site is not approved by a statute enacted within six

months of submittal, the department shall submit an alternative site within six months and shall continue to do so until a site receives legislative approval. The use of the designated site for a prison shall require approval by statute. Any site referred to by this paragraph shall be within the urban area of Los Angeles County as defined by the 1980 United States Census, and located outside that portion of the Santa Monica Mountains Conservancy as defined by Sections 33105 and 33105.5 of the Public Resources Code.

(4) The prison described in paragraph (2) shall be built on a site designated by the boundaries of 40th Street West, I Avenue, 60th Street West and J Avenue, west of the City of Lancaster and described as the Mira Loma site.

If after study and within six months of the effective date of this bill, the department proposes to carry out the project on this site, then the department shall prepare an environmental impact report for the project at that site. If the department determines not to carry out the project at the site described by those boundaries, the department shall, within six months of that determination, report to the Legislature the reasons for that determination and the designation of an alternative site for legislative consideration. If the alternative site is not approved by a statute enacted within six months of submittal, the department shall submit an alternative site within six months and shall continue to do so until a site receives legislative approval. The use of the designated site for a prison shall require approval by statute. Any site referred to by this paragraph shall be within the rural area of Los Angeles County as designated by the 1980 United States Census but within the area bounded by the Kern County line of the north, 70th Street West on the west, the California Aqueduct along the eastern fork of the aqueduct on the south, and 50th Street East on the east.

The department shall have an environmental impact report prepared on any alternative site after it is approved by the Legislature in accordance with the provisions of this act.

(5) The Department of Corrections shall present reports to the Joint Legislative Committee on Prison Construction and Operations explaining the process and criteria used to evaluate the proposed site described in paragraph (3) and any alternate site brought before the Legislature for approval, and for any proposed site brought before the Legislature for approval in accordance with paragraph (4). Each report shall include a list of all criteria used to evaluate prison sites in Los Angeles County from January 1, 1980, to December 31, 1986, inclusive, and shall include an explanation of the consistency of those criteria as applied to the selection of the proposed site. One report shall be prepared for the sites described in paragraph (3) and one report for the sites described in paragraph (4) unless the department determines not to carry out a project at the site described in paragraph (3) or at a site described in paragraph (4), and shall be presented to the committee prior to certification of the required environmental impact report.

(6) To the extent feasible, significant adverse effects on the environment identified in the environmental impact reports for the facilities described in paragraphs (3) and (4) shall be mitigated in accordance with the requirements of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) in order to minimize the impacts of those effects.

(7) For any prison or reception center constructed in Los Angeles County, the Department of Corrections shall do all of the following:

(A) Consult with community leaders in order to maximize the aesthetics of the facility and minimize the visual impact upon the community.

(B) Develop a greenbelt adjacent to the facility and an offsite greenbelt suitable for community use.

(C) Mitigate significant effects on the environment relating to traffic conditions in accordance with the requirements of the California Environmental Quality Act and improve the surface streets adjacent to the facility.

(D) Establish an outreach program to maximize the participation of business and professionals from within a 15-mile radius of the facility in the design, construction, and maintenance of the facility.

(E) Not construct any building in excess of 70 feet in height.

(8) For any reception center constructed within the boundaries of Santa Fe Avenue, the Los Angeles River, Olympic Boulevard, and Washington Boulevard in Los Angeles County, the Department of Corrections shall do all of the following:

(A) Establish a target of employing at least 60 percent of the employees at the facility from residents within a 15-mile radius of the facility, of which half of those employees shall be Hispanic.

(B) Prepare a report to the Joint Legislative Committee on Prison Construction and Operations, following a public hearing, on the safety measures that will be used at the site to abate or mitigate public safety hazards.

(9) Notwithstanding any other provision of law, funds for the occupancy of the reception center described in paragraph (1) shall not be allocated until construction has begun on the prison described in paragraph (2). Funds for the occupancy of the prison described in paragraph (2) shall not be allocated until construction has begun on the reception center described in paragraph (1).

(10) The facilities described in paragraphs (1) and (2) shall not be located in the same senatorial or Assembly district.

(11) If the department determines not to carry out either of the projects described in paragraph (3) or (4), the Department of General Services shall consider and report on alternative state uses for any real property that has been acquired for those purposes.

(b) In addition to the prisons authorized in subdivision (a), the Department of Corrections is authorized to construct and establish one medium security prison for women on the grounds of the Northern California Youth Center in San Joaquin County. The prison

for women shall have a capacity not in excess of 400 inmates and shall not be used to house male inmates. Excess land at the site of the Northern California Youth Center shall be sold as surplus property as provided by law. Notwithstanding any other provision of law, funds for the occupancy of the prison for women shall not be allocated until a site has been designated pursuant to paragraph (1) of subdivision (a).

(c) The prison inmate design capacity for the Deuel Vocational Institution shall be limited to 2,500 inmates.

(d) The name of any prison or service facility authorized in this section shall not include the name of the city where the prison or service facility is located. The board of supervisors of the county in which the prison or service facility is located, if it chooses, may select the name of the prison or service facility. If the board of supervisors does not select a name, the Department of Corrections shall select a name.

SEC. 1.5. Notwithstanding any other provision of law, upon the operative date of this act, a site shall be deemed to have been designated pursuant to paragraph (1) of subdivision (a) of Chapter 1549 of the Statutes of 1982, as amended by this act, for the purpose of subdivision (b) of Section 1 of Chapter 1549 of the Statutes of 1982, as amended by this act, and a site shall be deemed to have been designated and approved pursuant to Section 1 of Chapter 1549 of the Statutes of 1982 for the purpose of Section 8 of Chapter 958 of the Statutes of 1983.

SEC. 2. For the purpose of conducting the environmental impact reports required for the facilities authorized in Los Angeles County by paragraphs (1) and (2) of subdivision (a) of Section 1549 of the Statutes of 1982, as amended by this act, the following provisions shall apply:

(a) The Legislature finds and declares that due to the lack of capacity for new inmates in the state prison system, the construction of new prison facilities is of utmost importance to the public safety and well-being. The Legislature also finds and declares that it is necessary for the Department of Corrections to secure the properties for the projects as expeditiously as possible in order to ensure their availability. The Legislature further finds and declares that it is in the public's interest to ensure that prisons are planned, designed, and constructed in a manner which is consistent with the California Environmental Quality Act and which minimizes environmental and other impacts upon the communities in which they are located. It is the intent of the Legislature that expeditious acquisition of lands, planning, construction, and operation of new prisons shall be achieved by so-called "fast-tracking" of the environmental review process and by acceleration of any actions or proceedings brought pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code, as provided in this section.

(b) Notwithstanding the guidelines adopted by the Secretary of the Resources Agency pursuant to Section 21083 of, and

notwithstanding Section 21092 of, the Public Resources Code, there shall be no review period for a notice of preparation or response time for responsible agencies with respect to the project to which this section applies. In lieu of those review and response periods, the Department of Corrections shall consult with responsible agencies during the preparation of a draft environmental impact report.

(c) Notwithstanding the guidelines adopted by the Secretary of the Resources Agency pursuant to Section 21083 of, and notwithstanding Section 21092 of, the Public Resources Code, the review period for the draft environmental impact report shall not exceed 30 days unless a shorter review period is authorized by the Office of Planning and Research with respect to the project.

(d) No action may be brought pursuant to Section 21167 of the Public Resources Code unless the alleged grounds for noncompliance with the provisions of Division 13 (commencing with Section 21000) of the Public Resources Code were presented to the public agency orally or in writing by any person.

(e) No person shall maintain an action or proceeding unless that person objected to the project orally or in writing.

(f) Subdivisions (d) and (e) do not apply where there was no public hearing or other opportunity for the members of the public to raise objections prior to the approval of the project or when the public agency failed to give the notice required by law.

(g) In any action or proceeding involving the project alleging inadequacy of the environmental impact report as required by Section 21100 of the Public Resources Code, the petitioner shall request a hearing within 45 days of filing the petition or otherwise be subject to dismissal on the court's own motion or on the motion of any party interested therein.

(h) In any action brought pursuant to Section 21167 of the Public Resources Code involving the project, including the hearing of the action on appeal from the decision of a lower court, all courts where the actions are or may hereafter be pending shall give the actions preference over all other civil actions, in the matter of setting the same for hearing or trial and in hearing the same, to the end that all the actions shall be quickly heard and determined.

(i) If an action brought pursuant to Section 21167 of the Public Resources Code involving the project is appealed, at the completion of the filing of briefs, the appellant shall notify the court of completion of the filing of briefs, whereupon the clerk of the reviewing court shall set the appeal for hearing on the first available calendar date.

(j) Notwithstanding any other provision of law, the filing of an action pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code involving the project shall not stop the acquisition of a site for the facility described in paragraph (1) or (3) of subdivision (a) of Section 1 of Chapter 1549 of the Statutes of 1982, as amended. No temporary restraining order, preliminary injunction, permanent injunction, or any other court order shall bar

the acquisition of a site for the facility.

(k) The filing of an action pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code involving the project shall not stop the planning and construction of the facility, provided that no temporary restraining order, preliminary injunction, permanent injunction, or any other court order mandating cessation of the activity exists.

(*l*) The Legislature finds and declares that the enactment of this section is intended for the express purpose of expediting new prison construction, and that the procedures provided for in this section shall be utilized for this purpose.

(m) The provisions of Division 13 (commencing with Section 21000) of the Public Resources Code which require consideration of alternative sites for the proposed projects shall not apply to the projects authorized in Los Angeles County by this act. The environmental impact report for those projects shall, however, comply with any requirements of Division 13 (commencing with Section 21000) of the Public Resources Code that require consideration of alternative uses for a site.

(n) The Department of Corrections and the Department of General Services shall expedite the selection of one or more environmental consultants to assist in the preparation of documents required by Division 13 (commencing with Section 21000) of the Public Resources Code.

(o) Notwithstanding any other provision of law, the certification of the adequacy of the environmental impact report pursuant to Section 21100 of the Public Resources Code for the project authorized by paragraph (1) of subdivision (a) of Section 1 of Chapter 1549 of the Statutes of 1982, as amended by this act, shall not be by the Department of Corrections. Instead, that certification shall be by a panel consisting of three members. All members shall be persons knowledgeable in environmental impact report certification. One shall be appointed by the Joint Rules Committee of the Legislature. One shall be appointed by the Governor and one shall be selected by the previously mentioned two members of the panel. Certification by the panel shall require the approval of at least two members. The panel shall review and approve the work program for the preparation of the environmental impact report as required by this section. The panel shall meet and the meeting or meetings shall comply with the Bagley-Keene Open Meeting Act (Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code). The panel shall certify or refuse to certify the report within 30 days after submittal to it by the Department of Corrections.

(p) For purposes of the construction of the prisons authorized in subdivision (a) of Section 1 of Chapter 1549 of the Statutes of 1982, as amended by this act, the Department of Corrections shall prepare a schedule of the dates for the completion of the environmental impact report, the dates for completion of the preliminary plans and

working drawings, the dates for the commencement and completion of the prisons, and the dates for the occupancy of the prisons. This schedule and monthly progress reports regarding compliance with the schedule shall be submitted to the Joint Legislative Budget Committee, Joint Legislative Committee on Prison Construction and Operations, Senate Budget and Fiscal Review Committee, and Assembly Ways and Means Committee.

SEC. 3. (a) Notwithstanding the provisions of Section 21102 of the Public Resources Code or any other provision of law, with the consent of the Department of Corrections, funds appropriated by this act may be used for acquisition of, and the State Public Works Board is authorized to acquire a site for the facility described in paragraph (1) of subdivision (a) of Chapter 1549 of the Statutes of 1982, as amended by this act, within the area described in paragraph (3) of subdivision (a) of Section 1 of Chapter 1549 of the Statutes of 1982, as amended by this act, and do so by means of option to purchase or by exercise of the power of eminent domain, or both, in accordance with the provisions of the Property Acquisition Law. The Legislature finds and declares that the acquisition is and will be for public purposes, to wit, for the location, development, and operation of a correctional facility thereon, and to preserve the availability of the site for that public use. Should the site ultimately prove to be infeasible for location of a correctional facility, the property comprising the site shall be transferred to the Department of General Services which shall then make it available for public use by other state agencies or dispose of it as provided by law, subject to reimbursement to the Department of Corrections of the funds appropriated to the Department of Corrections used to acquire the site.

(b) When real property is acquired pursuant to subdivision (a), it shall be immediately transferred to and remain under the control and jurisdiction of the State Lands Commission until the Department of Corrections has completed an environmental impact report as required by this act and by the California Environmental Quality Act, the time for commencement of an action challenging the report has expired, and any suit challenging the report has been resolved by a judgment which is final, and the Department of Corrections requests transfer by the State Lands Commission to the Department of Corrections of the property. Pending the transfer from the commission and with consent of the Department of Corrections, the State Lands Commission, as trustee on behalf of the Department of Corrections, may lease all or any portion of the property which is not presently needed on terms and conditions as the commission may fix and may maintain, improve, and care for the property in order to secure rent therefrom. The commission may remove or demolish buildings or other structures on the property when in its judgment it is desirable to do so. It may sell or dispose of the improvements or any materials available upon the demolishing of any building or structure on the property. The net

proceeds of that action shall be annually transferred to the Department of Corrections for deposit in and use as a part of the 1986 Prison Construction Fund.

SEC. 4. The sum of one hundred fourteen million six hundred thousand dollars ($114,600,000), which was appropriated to the Department of Corrections by subdivision (f) of Section 10 of Chapter 532 of the Statutes of 1986, is reappropriated to the Department of Corrections from the 1986 Prison Construction Fund for the construction of a reception center in Los Angeles County as authorized by paragraph (1) of subdivision (a) of Section 1 of Chapter 1549 of the Statutes of 1982, as amended by this act.

Funds appropriated by this section shall be available for the purposes, as necessary, of environmental studies, master planning, architectural programming, schematics, preliminary plans, working drawings, construction, and long lead and equipment items.

(b) The funds appropriated by this section shall be used to construct a 2,000-bed prison, with an additional 200-bed service facility, in Los Angeles County as authorized by paragraph (2) of subdivision (a) of Section 1 of Chapter 1549 of the Statutes of 1982, as amended.

(c) Funds appropriated for the purposes set forth in subdivision (b) shall be available for purposes, as necessary, of site acquisition, site studies and suitability reports, environmental impact reports, master planning, architectural programming, schematics, preliminary plans, working drawings, construction, and long lead and equipment items.

SEC. 7. (a) The sum of one hundred forty-seven million dollars ($147,000,000) is hereby appropriated from the 1988 Prison

Construction Bond Fund to the Department of Corrections.

(b) The funds appropriated by this section shall be used to construct a 2,000-bed prison, with an additional 200-bed service facility, in Los Angeles County as authorized by paragraph (2) of subdivision (a) of Section 1 of Chapter 1549 of the Statutes of 1982, as amended by this act.

(c) Funds appropriated for the purposes set forth in subdivision (b) shall be available for purposes, as necessary, of site acquisition, site studies and suitability reports, environmental impact reports, master planning, architectural programming, schematics, preliminary plans, working drawings, construction, long lead and equipment items.

This section shall become operative upon the adoption by the voters in 1988 of a prison construction bond act.

SEC. 8. If any provision of this act or the application thereof to any person or circumstances is held invalid, this invalidity shall not affect any other provisions or application of the act which can be given effect without the invalid provisions or applications and, to this end, the provisions of this act are severable.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Presently, the state prisons are operating at over 175 percent of capacity and the prison population is still increasing. It is essential to the public safety that construction of new prisons proceeds as expeditiously as possible to relieve prison overcrowding and to maintain public safety and security.

CHAPTER 166

An act to add Article 1.7 (commencing with Section 23145) to Chapter 12 of Division 11 of the Vehicle Code, relating to driving offenses.

[Approved by Governor July 22, 1987 Filed with Secretary of State July 23, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Article 1.7 (commencing with Section 23145) is added to Chapter 12 of Division 11 of the Vehicle Code, to read:

Article 1.7. Youthful Drunk Driver Visitation Program

23145. This article shall be known and may be cited as the "Youthful Drunk Driver Visitation Program Act."

23145.2. The Legislature finds and declares all of the following:

(a) Young drivers often do not realize the consequences of drinking alcohol or ingesting any other drugs, whether legal or not, and driving a motor vehicle while their physical capabilities to drive safely are impaired by those substances.

(b) Young drivers who use alcohol or other drugs are likely to become dependent on those substances and prompt intervention is needed to protect other persons, as well as the young driver, from death or serious injury.

(c) The conviction of a young driver for driving under the influence of an alcoholic beverage, a drug, or both, identifies that person as a risk to the health and safety of others, as well as that young driver, because of the young driver's inability to control his or her conduct.

(d) It has been demonstrated that close observation of the effects on others of alcohol and other drugs, both chronic and acute, by a young driver convicted of driving under the influence has a marked effect on recidivism and should therefore be encouraged by the courts, prehospital emergency medical care personnel, and other officials charged with cleaning up the carnage and wreckage caused by drunk drivers.

(e) The program prescribed in this article provides guidelines for the operation of an intensive program to discourage recidivism by convicted young drunk drivers.

23145.3. For the purposes of this article, "program" means the Youthful Drunk Driver Visitation Program prescribed in this article.

23145.5. (a) If a person is convicted of a violation of Section 23152 punishable under Section 23160 and is granted probation, the court may order, with the consent of the defendant, as a term and condition of probation in addition to any other term and condition required or authorized by law, that the defendant participate in the program.

(b) The court shall give preference for participation in the program to defendants who were at least 18 years of age but less than 21 years of age at the time of the offense if the facilities of the program in the jurisdiction are limited to fewer than the number of defendants eligible and consenting to participate.

(c) The court shall require that the defendant not drink any alcoholic beverage at all before reaching the age of 21 years.

23145.6. The court shall investigate and consult with the defendant, defendant's counsel, if any, and any proposed supervisor of a visitation under the program, and the court may consult with any other person whom the court finds may be of value, including, but not limited to, the defendant's parents or other family members, in order to ascertain that the defendant is suitable for the program, that the visitation will be educational and meaningful to the defendant, and that there are no physical, emotional, or mental reasons to believe the program would not be appropriate or would cause any injury to the defendant.

23145.8. (a) To the extent that personnel and facilities are made

available to the court, the court may include a requirement for supervised visitation by the defendant to all, or any, of the following:

(1) A trauma facility, as defined in Section 1798.160 of the Health and Safety Code, a base hospital designated pursuant to Section 1798.100 or 1798.101 of the Health and Safety Code, or a general acute care hospital having a basic emergency medical services special permit issued pursuant to subdivision (c) of Section 1277 of the Health and Safety Code which regularly receives victims of vehicle accidents, between the hours of 10 p.m. and 2 a.m. on a Friday or Saturday night to observe appropriate victims of vehicle accidents involving drinking drivers, under the supervision of any of the following:

(A) A registered nurse trained in providing emergency trauma care or prehospital advanced life support.

(B) An emergency room physician.

(C) An emergency medical technician-paramedic or an emergency medical technician II.

(2) A facility which cares for advanced alcoholics, such as a chemical dependency recovery hospital, as defined in Section 1250.3 of the Health and Safety Code, to observe persons in the terminal stages of alcoholism or drug abuse, under the supervision of appropriately licensed medical personnel.

(3) If approved by the county coroner, the county coroner's office or the county morgue to observe appropriate victims of vehicle accidents involving drinking drivers, under the supervision of the coroner or a deputy coroner.

(b) As used in this section, "appropriate victims" means victims whose condition is determined by the visit supervisor to demonstrate the results of accidents involving drinking drivers without being excessively gruesome or traumatic to the probationer.

(c) If persons trained in counseling or substance abuse are made available to the court, the court may coordinate the visitation program or the visitations at any facility designated in subdivision (a) through those persons.

(d) Any visitation shall include, before any observation of victims or disabled persons by the probationer, a comprehensive counseling session with the visitation supervisor at which the supervisor shall explain and discuss the experiences which may be encountered during the visitation in order to ascertain whether the visitation is appropriate for the probationer.

(e) If at any time, whether before or during a visitation, the supervisor of the probationer determines that the visitation may be or is traumatic or otherwise inappropriate for the probationer, or is uncertain whether the visitation may be traumatic or inappropriate, the visitation shall be terminated without prejudice to the probationer.

23146. (a) The program may include a personal conference after the visitations described in Section 23145.8 between the sentencing judge or the judge responsible for coordinating the program for the

judicial district and the probationer, his or her counsel, and, if available, the probationer's parents to discuss the experiences of the visitation and how those experiences may impact the probationer's future conduct.

(b) If a personal conference described in subdivision (a) is not practicable, because of the probationer's absence from the jurisdiction, conflicting time schedules, or other reasons, the program should provide for a written report or letter by the probationer to the court discussing the experiences and their impact on the probationer.

23147. The county, a court, any facility visited pursuant to the program, the agents, employees, or independent contractors of the court, county, or facility visited pursuant to the program, and any person supervising a probationer during the visitation, is not liable for any civil damages resulting from injury to the probationer, or civil damages caused by the probationer, during, or from any activities relating to, the visitation, except for willful or grossly negligent acts intended to, or reasonably expected to result in, that injury or damage and except for workers' compensation for the probationer as prescribed by law if the probationer performs community service at the facility as an additional term or condition of probation.

CHAPTER 167

An act to amend Section 11167.5 of the Penal Code, relating to child abuse.

[Approved by Governor July 22, 1987 Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 11167.5 of the Penal Code is amended to read:

11167.5. (a) The reports required by Sections 11166 and 11166.2 shall be confidential and may be disclosed only as provided in subdivision (b). (b) Reports of suspected child abuse and information contained therein may be disclosed only to the following:

(4) Multidisciplinary personnel teams as defined in subdivision (d) of Section 18951 of the Welfare and Institutions Code.

(5) Persons or agencies responsible for the licensing of facilities which care for children, as specified in subdivision (h) of Section 11166.

(6) The State Department of Social Services, as specified in paragraph (3) of subdivision (b) of Section 11170, when an individual has applied for a community care license or child day care license, or for employment in an out-of-home care facility, or when a complaint alleges child abuse by an operator or employee of an out-of-home care facility.

(7) Hospital scan teams. As used in this paragraph "hospital scan team" means a team of three or more persons established by a hospital, or two or more hospitals in the same county, consisting of health care professionals and representatives of law enforcement and child protective services, the members of which are engaged in the identification of child abuse. (b) The minimum deposit shall be 125 percent of the private self-insurer's estimated future liability for compensation to secure payment of compensation plus 10 percent of the private self-insurer's estimated future liability for compensation to secure payment of all administrative and legal costs relating to or arising from the employer's self-insuring. (2) The return of cash or securities by the director.

(b) If, because of the failure of any court to promptly perform the duties enjoined upon it pursuant to this section, summary judgment is not entered within 90 days after the date upon which it may first be entered, the right to do so expires and the bail is exonerated.

(c) A dismissal of the complaint, indictment or information after the default of the defendant shall not release or affect the obligation of the bail bond or undertaking.

(d) The district attorney or civil legal adviser of the board of supervisors shall:

(1) Demand immediate payment of the judgment within five days after the summary judgment becomes final.

Where a single county is eligible to receive funding, that county's RAN board shall be the local RAN board. Where a group of counties is eligible for funding, the local RAN board shall consist of a regional board. The RAN board shall determine the placement of RAN equipment within the county or counties, and coordinate acceptance, delivery, and installation of RAN equipment. The board shall also develop any procedures necessary to regulate the ongoing use and maintenance of that equipment, adhering to the policy guidelines and procedures adopted by the department. The local board shall consider placement of equipment on the basis of the following criteria:

(1) The crime rate of the jurisdiction or jurisdictions served by the agency.

(2) The number of criminal offenses reported by the agency or agencies to the department.

(3) The potential number of fingerprint cards and latent

fingerprints processed.

(4) The number of sworn personnel of the agency or agencies.

(b) Except as provided in subdivision (c), each RAN board shall be composed of seven members, as follows: a member of the board of supervisors, the sheriff, the district attorney, the chief of police of the department having the largest number of sworn personnel within the county, a second chief selected by all other police chiefs within the county, a mayor elected by the city selection committee established pursuant to Section 50270 of the Government Code, and a member-at-large chosen by the other members. In any county lacking two chiefs of police, a substitute member shall be selected by the other members on the board. Groups of counties forming a region shall establish a seven-member board with each county having equal representation on the board and at least one member-at-large. If the number of participating counties precludes equal representation on a seven-member board, the size of the board shall be expanded so that each county has at least two representatives and there is a single member-at-large.

(c) In any county with a population of 5,000,000 or more, each local board shall be composed of seven members, as follows: a member of the board of supervisors, the sheriff, the district attorney, the chief of police of the department having the largest number of sworn personnel within the county, a second chief selected by all other police chiefs within the county, the mayor of the city with the greatest population within the county, and a member-at-large chosen by the other members. In any county lacking two chiefs of police, a substitute member shall be selected by the other members of the board.

The purpose of the local RAN advisory board shall be to provide advice and recommendations to the county's representatives on the regional RAN board. The local RAN advisory board may appoint alternate members to the regional RAN board from the local RAN advisory board to serve and work in the place of a regional RAN board member who is absent or who disqualifies himself or herself from participation in a meeting of the regional RAN board.

If a vacancy occurs in the office of a regional RAN board in a county which has established a local RAN advisory board, an alternate member selected by the local RAN advisory board may serve and vote in place of the former regional RAN board member until the appointment of a regional RAN board member is made to fill the vacancy.

6103.2. (a) Section 6103 does not apply to any fee or charge or expense for official services rendered by a sheriff, marshal, or constable in connection with the levy of writs of attachment, execution, possession, or sale. The fee, charge, or expense may be advanced to the sheriff, marshal, or constable, as otherwise required by law.

(b) (1) Notwithstanding Section 6103, the sheriff, marshal, or constable, in connection with the service of process or notices, may require that all fees which a public agency, or any person or entity, is required to pay under provisions of law other that this section, be prepaid by a public agency named in Section 6103, or by any person or entity, prior to the performance of any official act. This authority to require prepayment shall include fees governed by Section 6103.5.

(2) This subdivision shall not apply to the service of process or notices in any action by the district attorney's office for the establishment or enforcement of a child support obligation.

(3) This subdivision shall not apply to a particular jurisdiction unless the sheriff, marshal, or constable, as the case may be, imposes the requirement of prepayment upon public agencies and upon all persons or entities within the private sector.

CHAPTER 176

An act to add Section 23790.5 to the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 23790.5 is added to the Business and Professions Code, to read:

23790.5. (a) It is the intent of the Legislature in enacting this section to ensure that local government shall not be preempted in the valid exercise of its land use authority pursuant to Section 23790,

including, but not limited to, enacting an ordinance requiring a conditional use permit. It is also the intent of the Legislature to prevent the legislated prohibition of the concurrent retailing of beer and wine for off-premises consumption and motor vehicle fuel where the retailing of each is otherwise allowable.

(b) (1) No city, county, or city and county shall, by ordinance or resolution adopted on or after January 1, 1988, legislatively prohibit the concurrent retailing of motor vehicle fuel and beer and wine for off-sale consumption in zoning districts where the zoning ordinance allows motor vehicle fuel and off-sale beer and wine to be retailed on separate sites.

(2) On and after January 1, 1989, no city, county, or city and county ordinance or resolution adopted prior to May 5, 1987, shall have legal effect if it legislatively prohibits the concurrent retailing of motor vehicle fuel with beer and wine for off-sale consumption in zoning districts where the zoning ordinance allows beer and wine and motor vehicle fuel to be retailed on separate sites.

(3) On and after July 1, 1988, no city, county, or city and county ordinance or resolution adopted on or after May 5, 1987, shall have legal effect if it legislatively prohibits the concurrent retailing of motor vehicle fuel with beer and wine for off-sale consumption in zoning districts where the zoning ordinance allows beer and wine and motor vehicle fuel to be retailed on separate sites.

(4) This section shall not apply to a prohibition by a city, county, or city and county of the sale of beer and wine in conjunction with the sale of motor vehicle fuel if that prohibition occurs as a result of the prohibition of the combining of the sale of motor vehicle fuel with a broader class of products or uses which includes alcoholic beverages or beer and wine as a named or unnamed part of that larger class, if that prohibition was enacted before August 1, 1985.

(c) Subject to the restrictions and limitations of subdivision (b), this section shall not prevent a city, county, or city and county from denying permission, or granting conditional permission, to an individual applicant to engage in the concurrent retailing of motor vehicle fuel with beer and wine for off-premises consumption pursuant to a valid conditional use permit ordinance based on appropriate health, safety, or general welfare standards contained in the ordinance if that conditional use permit ordinance contains all of the following:

(1) A requirement for written findings.

(2) A provision for an administrative appeal if the governing body has delegated its power to issue or deny a conditional use permit.

(3) Procedures for notice of a hearing, conduct of a hearing, and an opportunity for all parties to present testimony.

(4) A requirement that the findings be based on substantial evidence in view of the whole record to justify the ultimate decision.

(d) Notwithstanding any other provision of law, establishments engaged in the concurrent sale of motor vehicle fuel with beer and wine for off-premises consumption shall, until January 1, 1990, abide

by the following conditions:

(1) No beer or wine shall be displayed within five feet of the cash register or the front door unless it is in a permanently affixed cooler as of January 1, 1988.

(2) No advertisement of alcoholic beverages shall be displayed at motor fuel islands.

(3) No sale of alcoholic beverages shall be made from a drive-in window.

(4) No display or sale of beer or wine shall be made from an ice tub.

(5) No beer or wine advertising shall be located on motor fuel islands and no self-illuminated advertising for beer or wine shall be located on buildings or windows.

(6) Employees on duty between the hours of 10 p.m. and 2 a.m. shall be at least 21 years of age to sell beer and wine.

The standards contained in this subdivision are minimum state standards which do not limit local regulation otherwise permitted under this section.

(e) Until January 1, 1990, if there is a finding that a licensee or his or her employee has sold any alcoholic beverages to a minor at an establishment engaged in the concurrent sale of motor vehicle fuel with beer and wine for off-premises consumption, the alcoholic beverage license at the establishment shall be suspended for a minimum period of 72 hours. For purposes of Section 23790, the effect of such a license suspension shall not constitute a break in the continuous operation of the establishment nor a substantial change in the mode or character of operation.

(f) The provisions of this section apply to charter cities.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 177

(1) A written motion shall be made by the defendant to the court and prosecutor stating that the defense has an offer of proof of the relevancy of evidence of the sexual conduct of the complaining witness proposed to be presented and its relevancy in attacking the credibility of the complaining witness.

(2) The written motion shall be accompanied by an affidavit in which the offer of proof shall be stated.

(3) If the court finds that the offer of proof is sufficient, the court shall order a hearing out of the presence of the jury, if any, and at such hearing allow the questioning of the complaining witness regarding the offer of proof made by the defendant.

(4) At the conclusion of the hearing, if the court finds that evidence proposed to be offered by the defendant regarding the sexual conduct of the complaining witness is relevant pursuant to Section 780, and is not inadmissible pursuant to Section 352 of this code, the court may make an order stating what evidence may be introduced by the defendant, and the nature of the questions to be permitted. The defendant may then offer evidence pursuant to the order of the court.

(b) As used in this section, "complaining witness" means the alleged victim of the crime charged, the prosecution of which is subject to this section.

CHAPTER 180

An act to amend Section 726 of the Code of Civil Procedure, relating to mortgages.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 726 of the Code of Civil Procedure is amended to read:

726. (a) There can be but one form of action for the recovery of any debt or the enforcement of any right secured by mortgage upon real property, which action must be in accordance with the provisions of this chapter. In the action the court may, by its judgment, direct the sale of the encumbered property (or so much of the property as may be necessary), and the application of the proceeds of the sale to the payment of the costs of court, the expenses of levy and sale, and the amount due plaintiff, including, where the mortgage provides for the payment of attorney's fees, such sum for attorney's fees as the court shall find reasonable, not exceeding the amount named in the mortgage.

(b) The decree for the foreclosure of a mortgage or deed of trust secured by real property or any interest therein shall declare the amount of the indebtedness or right so secured and, unless judgment for any deficiency there may be between the sale price and the amount due with costs is waived by the judgment creditor or a deficiency judgment is prohibited by Section 580b, shall determine the personal liability of any defendant for the payment of the debt secured by the mortgage or deed of trust and shall name the defendants against whom a deficiency judgment may be ordered following the proceedings prescribed in this section. In the event of waiver, or if the prohibition of Section 580b is applicable, the decree shall so declare and there shall be no judgment for a deficiency. In the event that a deficiency is not waived or prohibited and it is decreed that any defendant is personally liable for the debt, then upon application of the plaintiff filed at any time within three months of the date of the foreclosure sale and after a hearing thereon at which the court shall take evidence and at which hearing either party may present evidence as to the fair value of the property or the interest therein sold as of the date of sale, the court shall render a money judgment against the defendant or defendants for the amount by which the amount of the indebtedness with interest and costs of levy and sale and of action exceeds the fair value of the property or interest therein sold as of the date of sale. In no event shall the amount of the judgment, exclusive of interest from the date of sale and of costs exceed the difference between the amount for which the property was sold and the entire amount of the

indebtedness secured by the mortgage or deed of trust. Notice of the hearing shall be served upon all defendants who have appeared in the action and against whom a deficiency judgment is sought, or upon their attorneys of record, at least 15 days before the date set for the hearing. Upon application of any party made at least 10 days before the date set for the hearing the court shall, and upon its own motion the court at any time may, appoint one of the probate referees provided for by law to appraise the property or the interest therein sold as of the time of sale. The probate referee shall file the appraisal with the clerk and the appraisal is admissible in evidence. The probate referee shall take and subscribe an oath to be attached to the appraisal that the referee has truly, honestly and impartially appraised the property to the best of the referee's knowledge and ability. Any probate referee so appointed may be called and examined as a witness by any party or by the court itself. The court must fix the compensation, in an amount as determined by the court to be reasonable, but the fees shall not exceed similar fees for similar services in the community where the services are rendered, which may be taxed and allowed in like manner as other costs.

(c) No person holding a conveyance from or under the mortgagor of the property mortgaged, or having a lien thereon, which conveyance or lien does not appear of record in the proper office at the time of the commencement of the action need be made a party to the action, and the judgment therein rendered, and the proceedings therein had, are as conclusive against the person holding the unrecorded conveyance or lien as if the person had been a party to the action. Notwithstanding Section 701.630, the sale of the encumbered property does not affect the interest of a person who holds a conveyance from or under the mortgagor of the property mortgaged, or has a lien thereon, if the conveyance or lien appears of record in the proper office at the time of the commencement of the action and the person holding the recorded conveyance or lien is not made a party to the action.

(d) If the land mortgaged consists of a single parcel, or two or more contiguous parcels, situated in two or more counties, the court may, in its judgment, direct the whole thereof to be sold in one of the counties, and upon such proceedings, and with like effect, as if the whole of the property were situated in that county.

(e) If a deficiency judgment is waived or prohibited, the property shall be sold as provided in Section 716.020. If a deficiency judgment is not waived or prohibited, the property shall be sold subject to the right of redemption as provided in Sections 729.010 to 729.090, inclusive.

(f) Notwithstanding this section or any other provision of law to the contrary, any person authorized by this state to make or arrange loans secured by real property or any successor in interest thereto, that originates, acquires, or purchases, in whole or in part, any loan secured directly or collaterally, in whole or in part, by a mortgage or deed of trust on real property, or any interest therein, may bring an

action for recovery of damages, including exemplary damages not to exceed 50 percent of the actual damages, against a borrower where the action is based on fraud under Section 1572 of the Civil Code and the fraudulent conduct by the borrower induced the original lender to make that loan.

(g) The provisions of subdivision (f) shall not apply to loans secured by single-family, owner-occupied residential real property, when the property is actually occupied by the borrower as represented to the lender in order to obtain the loan and the loan is for an amount of one hundred fifty thousand dollars ($150,000) or less, as adjusted annually, commencing on January 1, 1987, to the Consumer Price Index as published by the United States Department of Labor.

(h) Any action maintained pursuant to subdivision (f) for damages shall not constitute a money judgment for deficiency, or a deficiency judgment within the meaning of Section 580a, 580b, or 580d of the Code of Civil Procedure.

CHAPTER 186

An act to amend Section 480 of, and to add Section 69.5 to, the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1987 Filed with Secretary of State July 23, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 69.5 is added to the Revenue and Taxation Code, to read:

69.5. (a) Notwithstanding any other provision of law, pursuant to subdivision (a) of Section 2 of Article XIII A of the California Constitution, any person over the age of 55 years who resides in property which is eligible for the homeowner's exemption under subdivision (k) of Section 3 of Article XIII of the California Constitution and Section 218 may transfer, subject to the conditions and limitations provided in this section, the base year value of that property to any replacement dwelling of equal or lesser value which is located within the same county and is purchased or newly constructed by that person as his or her principal residence within two years of the sale by that person of the original property, provided that the base year value of the original property shall not be transferred to the replacement dwelling until the original property is sold.

(b) In addition to meeting the requirements of subdivision (a), any person claiming the property tax relief provided by this section shall be eligible for that relief only if the following conditions are met:

(1) At the time of the sale of the original property, the claimant is an owner and a resident of that property.

(2) At the time of the sale of the original property, the property is eligible for the homeowner's exemption as the result of the claimant's ownership and occupation of the property as his or her principal residence.

(3) At the time of the sale of the original property, the claimant or the claimant's spouse who resides with the claimant is at least 55 years of age.

(4) At the time of claiming the property tax relief provided by subdivision (a), the claimant is an owner of a replacement dwelling and occupies it as his or her principal place of residence and, as a result thereof, the property is currently eligible for the homeowner's exemption or would be eligible for the exemption except that the property is already receiving the exemption because of an exemption claim filed by the previous owner.

(5) The original property of the claimant is sold by him or her within two years of the purchase or new construction of the replacement dwelling. For purposes of this paragraph, the purchase or new construction of the replacement dwelling includes the purchase of that portion of land on which the replacement building, structure, or other shelter constituting a place of abode of the claimant will be situated and which, pursuant to paragraph (3) of subdivision (g), constitutes a part of the replacement dwelling.

(6) The replacement dwelling, including that portion of land on which it is situated which is specified in paragraph (5), is located entirely within the same county as the claimant's original property.

(7) The claimant has not previously been granted the property tax relief provided by this section. In order to prevent duplication of claims under this section within this state, county assessors shall supply that information from claims filed in accordance with

subdivision (f) and from county records as is specified by the written request of the board necessary to identify fully all claims under this section allowed by assessors. The board may specify that the information include all or a part of the names and social security numbers of claimants and their spouses and the identity and location of the replacement dwelling to which the claim applies. The information may be required in the form of data processing media or other media and in a format which is compatible with the recordkeeping processes of the counties and the auditing procedures of the state.

(c) The property tax relief provided by this section shall be available if the original property or the replacement dwelling, or both, of the claimant, includes, but is not limited to, either of the following:

(1) A unit or lot within a cooperative housing corporation, a community apartment project, a condominium project, or a planned unit development. If the unit or lot constitutes the original property of the claimant, the assessor shall transfer to the claimant's replacement dwelling only the base year value of the claimant's unit or lot and his or her share in any common area reserved as an appurtenance of that unit or lot. If the unit or lot constitutes the replacement dwelling of the claimant, the assessor shall transfer the base year value of the claimant's original property only to the unit or lot of the claimant and any share of the claimant in any common area reserved as an appurtenance of that unit or lot.

(2) A mobilehome or a mobilehome and any land owned by the claimant on which the mobilehome is situated. If the mobilehome or the mobilehome and the land on which it is situated constitutes the claimant's original property, the assessor shall transfer to the claimant's replacement dwelling either the base year value of the mobilehome or the base year value of the mobilehome and the land on which it is situated, as appropriate. No transfer of base year value shall be made by the assessor of that portion of land which does not constitute a part of the original property, as provided in paragraph (4) of subdivision (g). If the mobilehome or the mobilehome and the land on which it is situated constitutes the claimant's replacement dwelling, the assessor shall transfer the base year value of the claimant's original property either to the mobilehome or the mobilehome and the land on which it is situated, as appropriate. No transfer of base year value shall be made by the assessor to that portion of land which does not constitute a part of the replacement dwelling, as provided in paragraph (3) of subdivision (g).

This subdivision shall be subject to the limitations specified in subdivision (d).

(d) The property tax relief provided by this section shall be available to a claimant who is the coowner of original property, as a joint tenant, a tenant in common, or a community property owner, subject to the following limitations:

(1) If a single replacement dwelling is purchased or newly

constructed by all of the coowners and each coowner retains the same proportional interest in the replacement property as he or she held in the original property, the claimant shall be eligible under this section whether or not any or all of the remaining coowners would otherwise be eligible claimants.

(2) If two or more replacement dwellings are separately purchased or newly constructed by two or more coowners and more than one coowner would otherwise be an eligible claimant, only one coowner shall be eligible under this section. These coowners shall determine by mutual agreement which one of them shall be deemed eligible.

(3) If two or more replacement dwellings are separately purchased or newly constructed by two coowners who held the original property as community property, only the coowner who has attained the age of 55 years shall be eligible under this section. If both spouses are over 55 years of age, they shall determine by mutual agreement which one of them shall be deemed eligible.

(e) Upon the sale of original property, the assessor shall determine a new base year value for that property in accordance with subdivision (a) of Section 2 of Article XIII A of the California Constitution and Section 110.1, whether or not a replacement dwelling is subsequently purchased or newly constructed by the former owner or owners of the original property.

This section shall not apply in any case in which the transfer of the original property is not a change in ownership which subjects that property to reappraisal at its current fair market value in accordance with Section 110.1 or 5803.

(f) A claimant shall not be eligible for the property tax relief provided by this section unless the claimant provides to the assessor, on a form which the assessor shall make available upon request, the following information:

(1) The name and social security number of the claimant and of any spouse of the claimant who was a record owner of the original property at the time of its sale or is a record owner of the replacement dwelling.

(2) Proof that the claimant or the claimant's spouse who resided on the original property with the claimant was, at the time of its sale, at least 55 years of age. In the absence of available proof, the claimant shall certify under penalty of perjury that the age requirement is met.

(3) The address and, if known, the assessor's parcel number of the original property.

(4) The date of the claimant's sale of the original property and the date of the claimant's purchase or new construction of a replacement dwelling.

(5) A statement by the claimant that he or she will occupy the replacement dwelling as his or her principal place of residence within one year of the date of the filing of his or her claim.

The State Board of Equalization shall design the form for claiming

eligibility.

Any claim under this section shall be filed within three years of the date the replacement dwelling was purchased or the new construction of the replacement dwelling was completed.

(g) For purposes of this section:

(1) "Person over the age of 55 years" means any person or the spouse of any person who has attained the age of 55 years or older at the time of the sale of original property.

(2) "Base year value of the original property" means its base year value, as determined in accordance with Section 110.1, with the adjustments permitted by subdivision (b) of Section 2 of Article XIII A of the California Constitution and subdivision (f) of Section 110.1, determined as of the date immediately prior to the date that the original property is sold by the claimant.

(3) "Replacement dwelling" means a building, structure, or other shelter constituting a place of abode, whether real property or personal property, which is owned and occupied by a claimant as his or her principal place of residence, and any land owned by the claimant on which the building, structure, or other shelter is situated. For purposes of this paragraph, land constituting a part of a replacement dwelling includes only that area of reasonable size which is used as a site for a residence.

(4) "Original property" means a building, structure, or other shelter constituting a place of abode, whether real property or personal property, which is owned and occupied by a claimant as his or her principal place of residence, and any land owned by the claimant on which the building, structure, or other shelter is situated. For purposes of this paragraph, land constituting a part of original property includes only that area of reasonable size which is used as a site for a residence.

(5) "Equal or lesser value" means that the amount of the full cash value of a replacement dwelling does not exceed one of the following:

(A) One hundred percent of the amount of the full cash value of the original property if the replacement dwelling is purchased or newly constructed prior to the date of the date of the sale of the original property.

(B) One hundred and five percent of the amount of the full cash value of the original property if the replacement dwelling is purchased or newly constructed within the first year following the date of the sale of the original property.

(C) One hundred and ten percent of the amount of the full cash value of the original property if the replacement dwelling is purchased or newly constructed within the second year following the date of the sale of the original property.

(6) "Full cash value of the replacement dwelling" means its full cash value, determined in accordance with Section 110.1, as of the date on which it was purchased or new construction was completed, and after the purchase or the completion of new construction.

(7) "Full cash value of the original property" means its new base year value, determined in accordance with subdivision (e), without the application of subdivision (h) of Section 2 of Article XIII A of the California Constitution, plus the adjustments permitted by subdivision (b) of Section 2 of Article XIII A and subdivision (f) of Section 110.1 for the period from the date of its sale by the claimant to the date on which the replacement property was purchased or new construction was completed.

(8) "Sale" means any change in ownership of the original property for consideration.

(9) "Claimant" means any person claiming the property tax relief provided by this section. If a spouse of that person is a record owner of the original property or the replacement dwelling, whether or not that spouse joined in the claim, the spouse shall also be deemed a claimant for purposes of determining whether in any future claim filed by the spouse under this section the condition of eligibility specified in paragraph (7) of subdivision (b) has or has not been met by the spouse.

(10) "Property which is eligible for the homeowner's exemption" includes property which is the principal place of residence of its owner and is entitled to exemption pursuant to Section 205.5.

(h) Upon the timely filing of a claim, the assessor shall adjust the new base year value of the replacement dwelling in conformity with this section. This adjustment shall be made as of the latest of the following dates:

(1) The date the original property is sold.

(2) The date the replacement dwelling is purchased.

(3) The date the new construction of the replacement dwelling is completed.

Any taxes which were levied on the replacement dwelling prior to the filing of the claim on the basis of the replacement dwelling's new base year value, and any allowable annual adjustments thereto, shall be canceled or refunded to the claimant to the extent that the taxes exceed the amount which would be due when determined on the basis of the adjusted new base year value.

(i) This section shall apply to any replacement dwelling which is purchased or newly constructed on or after November 6, 1986.

SEC. 2. Section 480 of the Revenue and Taxation Code is amended to read:

480. (a) Whenever any change in ownership of real property or of a mobilehome subject to local property taxation, and which is assessed by the county assessor, occurs, the transferee shall file a signed change in ownership statement in the county where the real property or mobilehome is located, as provided for in subdivision (c). In the case of a change in ownership where the transferee is not locally assessed, no change in ownership statement is required.

(b) The administrator or executor shall file a change in ownership statement with the county recorder or assessor in each county where the decedent owned real property at the time of death. The

statement shall be filed at the time the inventory and appraisement is filed with the court.

(c) Except as provided in subdivision (d), the change in ownership statement as required pursuant to subdivision (a) shall be declared to be true under penalty of perjury and shall give such information relative to the real property or mobilehome acquisition transaction as the board shall prescribe after consultation with the California Assessors' Association. The information shall include, but not be limited to, a description of the property, the parties to the transaction, the date of acquisition, the amount, if any, of the consideration paid for the property, whether paid in money or otherwise, and the terms of the transaction. The change in ownership statement shall not include any question which is not germane to the assessment function. The statement shall contain a notice informing the transferee of the property tax relief available under Section 69.5. The statement shall contain a notice that is printed, with the title in at least 12-point boldface type and the body in at least 8-point boldface type, in the following form:

"Important Notice"

"The law requires any transferee acquiring an interest in real property or mobilehome subject to local property taxation, and which is assessed by the county assessor, to file a change in ownership statement with the county recorder or assessor. The change in ownership statement must be filed at the time of recording or, if the transfer is not recorded, within 45 days of the date of the change in ownership. The failure to file a change in ownership statement within 45 days from the date of a written request by the assessor results in a penalty of either: (1) one hundred dollars ($100), or (2) 10 percent of the taxes applicable to the new base year value reflecting the change in ownership of the real property or mobilehome, whichever is greater, but not to exceed two thousand five hundred dollars ($2,500) if such failure to file was not willful. This penalty will be added to the assessment roll and shall be collected like any other delinquent property taxes, and be subject to the same penalties for nonpayment."

(d) The change in ownership statement may be attached to or accompany the deed or other document evidencing a change in ownership filed for recording, in which case such notice, declaration under penalty of perjury, and any information contained in the deed or other transfer document otherwise required by subdivision (c) may be omitted.

(e) If the document evidencing a change in ownership is recorded in the county recorder's office, then the statement shall be filed with the recorder at the time of recordation. However, the recordation of the deed or other document evidencing a change in ownership shall not be denied or delayed because of the failure to file a change of ownership statement, or filing of an incomplete

statement, in accordance with this subdivision. If the document evidencing a change in ownership is not recorded or is recorded without the concurrent filing of a change in ownership statement, then the statement shall be filed with the assessor no later than 45 days from the date the change in ownership occurs.

(f) Whenever a change in ownership statement is filed with the county recorder's office, the recorder shall transmit, as soon as possible, the original statement or a true copy thereof to the assessor along with a copy of every recorded document as required by Section 255.7.

(g) The change in ownership statement may be filed with the assessor through the United States mail, properly addressed with the postage prepaid.

(h) In the case of a corporation, the change in ownership statement shall be signed either by an officer of the corporation or an employee or agent who has been designated in writing by the board of directors to sign such statements on behalf of the corporation. In the case of a partnership or other legal entity, the statement shall be signed by an officer, partner, or an employee or agent who has been designated in writing by the partnership or legal entity.

(i) No person or entity acting for or on behalf of the parties to a transfer of real property shall incur liability for the consequences of assistance rendered to the transferee in preparation of any change in ownership statement, and no action may be brought or maintained against any such person or entity as a result of such assistance.

Nothing in this section shall create a duty, either directly or by implication, that such assistance be rendered by any person or entity acting for or on behalf of parties to a transfer of real property.

SEC. 3. The Legislature finds and declares that valuations of replacement dwellings by assessors for purposes of Section 69.5 of the Revenue and Taxation Code necessarily involve the exercise of judgment, and that to the extent that intangible factors may be involved in those judgments, differences may occur in the valuation of comparable replacement dwellings which result in the qualification of some replacement dwellings and the disqualification of other replacement dwellings within a particular county or between counties. The Legislature further finds and declares that a replacement dwelling which may be of equal or lesser value than the original property at the time of the sale of the original property may no longer meet that eligibility criterion when the replacement dwelling is purchased or newly constructed one or two years after the sale of the original property. In order to provide the maximum property tax relief contemplated by Section 69.5 of the Revenue and Taxation Code, consistent with the terms of subdivision (a) of Section 2 of Article XIII A of the California Constitution, the Legislature concludes that the 5 percent annual adjustment in the valuation of a replacement dwelling provided for in paragraph (5) of subdivision (g) of Section 69.5 properly ameliorates the potential

hardships to property owners referred to in this section and is a valid implementation of the authority conferred upon the Legislature by subdivision (a) of Section 2 of Article XIII A of the California Constitution.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the duties, obligations, or responsibilities imposed on local government by this act are necessary to implement a ballot measure approved by the voters in a statewide election.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the property tax relief authorized by Proposition 60, which was approved by the voters at the November 4, 1986, general election, may be implemented as soon as possible, it is necessary that this act go into immediate effect.

CHAPTER 187

The people of the State of California do enact as follows:

SECTION 1. Section 2932.6 is added to the Civil Code, to read:

SECTION 1. Section 31522.2 is added to the Government Code, to read:

31522.2. In a county in which the board of retirement or both the board of retirement and the board of investment have appointed personnel pursuant to Section 31522.1, the respective board or boards may elect to appoint an administrator as provided for in this section. The position of the administrator shall not be subject to county civil service or merit system rules. The person so appointed shall be a county employee and the position of administrator shall be included in the salary ordinance or salary resolution adopted by the board of supervisors for the compensation of county officers and employees. The administrator so appointed shall be directed by, shall serve at the pleasure of, and may be dismissed at the will of, the appointing board or boards. Specific charges, a statement of reasons, or good cause shall not be required as a basis for dismissal of the administrator by the appointing board or boards.

This section shall not be operative in any county unless the board of supervisors, by resolution adopted by majority vote, makes this section applicable in the county.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This act enables a board of retirement and both a board of retirement and a board of investment which already has appointed personnel pursuant to Section 31522.1 of the Government Code to provide as soon as possible for the effective supervision of those personnel by an administrator appointed pursuant to this act. In appointing administrators as provided by this act, a board of retirement or both a board of retirement and a board of investment affected by this act shall be able to employ administrators in accordance with personnel practices that are recognized as vital for the effective administration of retirement systems.

An act to add Section 5153.5 to, and to repeal and add Section 5153 of, the Elections Code, relating to elections.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 5153 of the Elections Code is repealed.

SEC. 2. Section 5153 is added to the Elections Code, to read:

5153. Except as provided in Section 5153.5, within 30 days from the date of filing of the petition, the clerk of the district shall examine the petition, and from the records of registration ascertain whether or not the petition is signed by the requisite number of voters. A certificate showing the results of this examination shall be attached to the petition.

In determining the number of valid signatures, the clerk of the district may use the duplicate file of affidavits maintained, or may check the signatures against facsimiles of voters' signatures, provided that the method of preparing and displaying the facsimiles complies with law.

The clerk of the district shall notify the proponents of the petition as to the sufficiency or insufficiency of the petition.

If the petition is found insufficient, no further action shall be taken. However, the failure to secure sufficient signatures, shall not preclude the filing of a new petition on the same subject, at a later date.

If the petition is found sufficient, the clerk of the district shall certify the results of the examination to the governing board of the district at the next regular meeting of the board.

The clerk of the district shall preserve the petition in accordance with Section 3756.

SEC. 3. Section 5153.5 is added to the Elections Code, to read:

5153.5. (a) Within 30 days from the date of filing of the petition, if, from the examination of petitions pursuant to Section 5153, more than 1,000 signatures have been signed on the petition, the clerk of the district may use a random sampling technique for verification of signatures. The random sample of signatures to be verified shall be drawn in such a manner that every signature filed with the clerk of the district shall be given an equal opportunity to be included in the sample. Such a random sampling shall include an examination of at least 1,000 or 5 percent of the signatures, whichever is greater.

(b) If the statistical sampling shows that the number of valid signatures is within 90 to 110 percent of the number of signatures of qualified voters needed to declare the petition sufficient, the clerk of the district shall examine and verify each signature filed.

(c) In determining from the records of registration, what number

of valid signatures are signed on the petition, the clerk of the district may use the duplicate file of affidavits maintained, or may check the signatures against facsimiles of voters' signatures, provided that the method of preparing and displaying the facsimiles complies with law.

(d) The clerk of the district shall attach to the petition, a certificate showing the result of this examination, and shall notify the proponents of either the sufficiency or insufficiency of the petition.

(e) If the petition is found insufficient, no action shall be taken on the petition. However, the failure to secure sufficient signatures shall not preclude the filing later of an entirely new petition to the same effect.

(f) If the petition is found to be sufficient, the clerk of the district shall certify the results of the examination to the governing board of the district at the next regular meeting of the board.

(g) The clerk of the district shall preserve the petition in accordance with Section 3756.

CHAPTER 190

An act to amend Section 40600 of the Vehicle Code, relating to vehicles.

[Approved by Governor July 22, 1987 Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 40600 of the Vehicle Code is amended to read:

40600. (a) Notwithstanding any other provision of law, a peace officer who has successfully completed a course or courses of instruction, approved by the Commission on Peace Officer Standards and Training, in the investigation of traffic accidents may prepare in triplicate, on a form approved by the Judicial Council, a written notice of violation when the peace officer has reasonable cause to believe that any person involved in a traffic accident has violated a provision of this code not declared to be a felony or a violation of a

local ordinance and the violation was a factor in the occurrence of the traffic accident.

(b) A notice of violation shall contain the name and address of the person, the license number of the person's vehicle, if any, the name and address, when available, of the registered owner or lessee of the vehicle, the offense charged, and the time and place when and where the person may appear in court or before a person authorized to receive a deposit of bail. The time specified shall be at least 10 days after the notice of violation is delivered.

(c) The preparation and delivery of a notice of violation is not an arrest.

(d) For purposes of this article, a peace officer will be deemed to have reasonable cause to issue a written notice of violation if, as a result of the officer's investigation, the officer has evidence, either testimonial or real, or a combination of testimonial and real, that would be sufficient to issue a written notice to appear if the officer had personally witnessed the events investigated.

(e) As used in this section, "peace officer" means any person specified under Section 830.1 or 830.2 of the Penal Code, with the exception of members of the California National Guard.

(f) This article has no application to the procedures specified in Article 2 (commencing with Section 40500).

(g) This section applies to the procedures specified in Chapter 2.5 (commencing with Section 40650), except that the notice of violation shall be as set forth and approved by the Traffic Adjudication Board.

CHAPTER 192

An act to amend Section 7004 of the Civil Code, relating to family law.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 7004 of the Civil Code is amended to read:

7004. (a) A man is presumed to be the natural father of a child if he meets the conditions as set forth in Section 621 of the Evidence Code or in any of the following paragraphs:

(1) He and the child's natural mother are or have been married to each other and the child is born during the marriage, or within 300 days after the marriage is terminated by death, annulment, declaration of invalidity, or divorce, or after a decree of separation is entered by a court.

(2) Before the child's birth, he and the child's natural mother have attempted to marry each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is

or could be declared invalid, and,

(i) If the attempted marriage could be declared invalid only by a court, the child is born during the attempted marriage, or within 300 days after its termination by death, annulment, declaration of invalidity, or divorce; or

(ii) If the attempted marriage is invalid without a court order, the child is born within 300 days after the termination of cohabitation.

(3) After the child's birth, he and the child's natural mother have married, or attempted to marry, each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid, and

(i) With his consent, he is named as the child's father on the child's birth certificate, or

(ii) He is obligated to support the child under a written voluntary promise or by court order.

(4) He receives the child into his home and openly holds out the child as his natural child.

(5) If the child was born and resides in a nation with which the United States engages in an Orderly Departure Program or successor program, he acknowledges that he is the child's father in a declaration under penalty of perjury, as specified in Section 2015.5 of the Code of Civil Procedure.

This paragraph shall remain in effect only until January 1, 1997, and on that date shall become inoperative.

(b) Except as provided in Section 621 of the Evidence Code, a presumption under this section is a rebuttable presumption affecting the burden of proof and may be rebutted in an appropriate action only by clear and convincing evidence. If two or more presumptions arise under this section which conflict with each other, the presumption which on the facts is founded on the weightier considerations of policy and logic controls. The presumption is rebutted by a court decree establishing paternity of the child by another man.

CHAPTER 193

An act to amend Section 65961 of the Government Code, relating to subdivisions.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 65961 of the Government Code is amended to read:

65961. Notwithstanding any other provision of law, upon approval or conditional approval of a tentative map for a subdivision

of single- or multiple-family residential units, or upon recordation of a parcel map for such a subdivision for which no tentative map was required, during the five year period following recordation of the final map or parcel map for the subdivision, a city, county, or city and county shall not require as a condition to the issuance of any building permit or equivalent permit for such single- or multiple-family residential units, conformance with or the performance of any conditions that the city or county could have lawfully imposed as a condition to the previously approved tentative or parcel map. Nor shall a city, county, or city and county withhold or refuse to issue a building permit or equivalent permit for failure to conform with or perform any conditions that the city, county, or city and county could have lawfully imposed as a condition to the previously approved tentative or parcel map. However, the provisions of this section shall not prohibit a city, county, or city and county from doing any of the following:

(a) Imposing conditions or requirements upon the issuance of a building permit or equivalent permit which could have been lawfully imposed as a condition to the approval of a tentative or parcel map if the local agency finds it necessary to impose the condition or requirement for any of the following reasons:

(1) A failure to do so would place the residents of the subdivision or of the immediate community, or both, in a condition perilous to their health or safety, or both.

(2) The condition is required in order to comply with state or federal law.

(b) Withholding or refusing to issue a building permit or equivalent permit if the local agency finds it is required to do so in order to comply with state or federal law.

(c) Assuring compliance with the applicable zoning ordinance.

(d) This section shall also apply to a city or city and county which incorporates on or after January 1, 1985, and which includes within its boundaries any areas included in the tentative or parcel map described in this section.

When the incorporation includes areas included in the tentative or parcel map described in this section, "a condition that the city could have lawfully imposed as a condition to the previously approved tentative or parcel map," as used in this section, refers to conditions the county could have imposed had there been no incorporation.

CHAPTER 194

An act to amend Sections 4114, 4133, 4141, and 4144 of the Public Resources Code, relating to the Department of Forestry and Fire Protection, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 4114 of the Public Resources Code is amended to read:

4114. (a) The department, in accordance with a plan approved by the board, shall do all of the following:

(1) Provide fire prevention and firefighting implements and apparatus.

(2) Organize fire crews and patrols.

(3) Establish observation stations and other necessary structures.

(4) Employ people to effect the plan.

(5) Construct and maintain telephone lines and provide other means of communication as necessary to prevent and extinguish forest fires.

(b) The department may provide, when available and to the extent that it does not require additional funds, rescue, first aid, and other emergency services to the public in state responsibility areas. Any emergency medical services shall be in accordance with Division 2.5 (commencing with Section 1797) of the Health and Safety Code and any rules and regulations adopted pursuant to that division.

SEC. 2. Section 4133 of the Public Resources Code is amended to read:

4133. The department shall, with the approval of the Department of General Services, for periods not to exceed three years, enter into a contract with any county which enacts an ordinance as provided in Section 4129. The budgeted sums in Section 4132 are subject to annual review in the budget process.

SEC. 3. Section 4141 of the Public Resources Code is amended to read:

4141. The department may, for the prevention and suppression of forest fires, enter into cooperative agreements with any person, firm, association, or corporation that owns or controls any forest, brush, grass, or grain lands, under such terms as the department deems advisable, and may renew, revise, or terminate these agreements.

The department also may, for the purpose of maintaining a fire patrol system for the prevention and suppression of forest fires in any timber, brush, grass, or other flammable vegetation or material,

enter into cooperative agreements with the federal government, under such terms as it deems advisable, and may renew, revise, or terminate these agreements.

The expenses incurred under these agreements shall be paid from appropriations or funds available for forest fire protection.

SEC. 4. Section 4144 of the Public Resources Code is amended to read:

4144. (a) Notwithstanding Section 4142, the director may, with the approval of the Department of General Services, enter into a cooperative agreement with a county or a special district for the purpose of preventing and suppressing forest fires or other fires within any county or special district that so requests under those terms and conditions which the director deems wise.

(b) The director shall not enter into or renew a cooperative agreement pursuant to this section under any of the following circumstances:

(1) With any county which has assumed responsibility pursuant to Section 4129.

(2) With any county or special district which does not have lands classified by the board pursuant to Section 4125 as a state responsibility area.

(3) If the director determines that one effect of the agreement would be the replacement or curtailment of locally provided fire prevention and suppression services.

(4) If the director determines, pursuant to the policy and standards adopted by the board under Section 4143, that the agreement would replicate services provided under an agreement made pursuant to Section 4142.

(5) When the director determines that the number and value of building permits, population density, available financial resources, or any other factor within the service area of a particular station under the agreement make it feasible for the communities to permanently or continuously support their own fire prevention and suppression services.

(c) The director shall not enter into or renew a cooperative agreement pursuant to this section where equipment, personnel, or buildings are requested for protection of a community in addition to the equipment, personnel, and buildings used during the fire season to protect state responsibility areas.

(d) The cooperative agreement shall provide both of the following:

(1) In a reasonable manner, for the efficient utilization of necessary fire prevention and suppression related equipment, personnel, and buildings under the jurisdiction of the director and located in or immediately adjacent to the state responsibility area during that period of the year commonly designated as the "nonfire season." The equipment and buildings utilized shall be limited to those owned or leased by the state, or their replacements, and to the equipment, personnel, and buildings used during the fire season to

protect state responsibility areas. Whenever the cooperative agreement provides for the employment of personnel during the "nonfire season" who would be in addition to the personnel required for the necessary operation and maintenance, during the "nonfire season," of equipment and buildings under the jurisdiction of the director, the full salaries and all benefits of the additional personnel shall be apportioned as costs to the county or special district.

(2) A cost apportionment between the county or special district and the state that reasonably reflects cost apportionments made pursuant to Section 4142, except that the county or special district shall be apportioned the additional cost for extended staff availability for 24-hour emergency response, not to exceed 15 percent of the base salary cost, for state personnel assigned to staff fire engines at a rate determined annually by the director, plus staff benefit costs attributable to the apportionment, and total overtime pay.

(e) This section is necessary because sparsely populated rural communities lack the tax base sufficient to provide the necessary financial resources for year-round fire prevention and suppression, and it is the intent of the Legislature that, pursuant to this section, fire prevention and suppression may be provided during the "nonfire season" to those communities until those communities have adequate revenues to permanently or continuously support their own fire prevention and suppression.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the Department of Forestry and Fire Protection may continue to provide needed rescue, first aid, and other emergency medical services to protect citizens in the areas of the state affected by this act, it is necessary that the act take effect immediately.

CHAPTER 195

An act to amend Section 72.7 of the Harbors and Navigation Code, relating to harbors and watercraft.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 72.7 of the Harbors and Navigation Code is amended to read:

(b) The department may prepare plans and arrange for the

procurement of floating restrooms and ancillary items for later transfer to other public agencies. (c) The department shall establish general policies for determining appropriate bodies of water and locations thereon for placing floating restrooms. The department may adopt such rules and regulations as may be necessary to carry out the provisions of this section.

(d) It is the intent of the Legislature that the purpose of this section is to furnish restroom facilities on bodies of water where conventional restrooms cannot meet the needs of boaters and where the presence of floating restrooms may lessen environmental degradation of those bodies of water.

CHAPTER 196

An act to amend Section 823 of the Unemployment Insurance Code, relating to unemployment insurance.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 823 of the Unemployment Insurance Code is amended to read:

823. (a) For the purpose of payment by each school employer of all or part of the charges for unemployment compensation benefits, fees, assessments, interest, penalties, billings, notices, and other expenses of unemployment insurance for school employees pursuant to this part, moneys budgeted pursuant to subdivisions (b) and (c) of this section shall be remitted by the school employer or on the school employer's behalf by the county auditor to the Treasurer pursuant to this article, and shall be deposited in the School Employees Fund.

(b) (1) For each fiscal year, except as provided in subdivisions (c) and (d), each school employer shall budget and remit on or before the last day of the calendar month following the close of each calendar quarter to the Treasurer for deposit in the School Employees Fund in the State Treasury an amount determined by multiplying the contribution rate for the fiscal year by the total wages, including taxable wages as well as wages which would be taxable except for the limitation on taxable wages provided under Section 930, but excluding, to the extent permitted by federal law,

wages paid to any individual to the extent that federal law provides for reimbursement to the State of California for all benefits paid from the Unemployment Fund to the individual based on the wages.

The administrator shall, not later than March 31 each year, notify all school employers participating in the School Employees Fund of the contribution rate for the succeeding fiscal year.

(2) The contribution rate for the fiscal year beginning July 1, 1988, and for each subsequent fiscal year shall be two times the amount disbursed for claims management fees, unemployment insurance benefit charges, and School Employees Fund administrative expenditures from the School Employees Fund during the 12-month period ending December 31 and immediately preceding the fiscal year for which the rate is to be effective, less the amount in the School Employees Fund on that December 31, with the resulting figure divided by total wages as described in paragraph (1) for the 12-month period ending June 30 and immediately preceding that December 31, and then rounded to the nearest one-hundredth of 1 percent. In no event shall the contribution rate be less than five one-hundredths of 1 percent.

(c) If the administrator finds that the ability of the School Employees Fund to meet its estimated obligations promptly when due will become endangered, he or she shall increase the contribution rate otherwise provided by this section to a level estimated to be needed to protect the solvency of the fund, except that the rate shall not be increased to more than three-tenths of 1 percent. If the administrator finds that the School Employees Fund balance is in excess of an adequate reserve to meet its estimated obligations promptly when due, he or she shall, after consultation with the fund's School Advisory Committee, decrease the contribution rate otherwise provided by this section, except that the rate shall not be decreased to less than one-tenth of 1 percent. The administrator shall notify all school employers participating in the fund of any increased or decreased contribution rate under this authority.

CHAPTER 197

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 9331 of the Elections Code is amended to read:

9331. Any member, other than an ex officio member, of a

All moneys in those bank accounts shall be paid into the county treasury within the time periods specified pursuant to Section 41001. Cashiers' checks, certified checks, and money placed in the custody of the school district or county office of education as security that a bidder will execute or faithfully perform a contract, if awarded to him or her, may be deposited in those bank accounts but shall not be paid into the county treasury to the credit of the school district or county office of education unless forfeited or unless unclaimed by the bidder for a period of 12 months.

(b) Any insured or claimant who has received payment, which includes charges for medical transportation services, from an insurer for a loss relating to a vehicle is liable for those charges to the person performing those services.

CHAPTER 202

An act to amend Sections 3715, 3717, and 5106 of the Labor Code, relating to workers' compensation, and making an appropriation therefor.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 3715 of the Labor Code is amended to read:

3715. (a) Any employee, except an employee as defined in subdivision (d) of Section 3351, whose employer has failed to secure the payment of compensation as required by this division, or his or her dependents in case death has ensued, may, in addition to proceeding against his or her employer by civil action in the courts as provided in Section 3706, file his or her application with the appeals board for compensation and the appeals board shall hear and determine the application for compensation in like manner as in other claims and shall make the award to the claimant as he or she would be entitled to receive if the employer had secured the payment of compensation as required, and the employer shall pay the award in the manner and amount fixed thereby or shall furnish to the appeals board a bond, in such an amount and with such sureties as the appeals board requires, to pay the employee the award in the manner and amount fixed thereby.

(b) Notwithstanding this section or any other provision of this chapter except Section 3708, any person described in subdivision (d) of Section 3351 who is (1) engaged in household domestic service who is employed by one employer for over 52 hours per week, (2) engaged as a part-time gardener in connection with a private dwelling, if the number of hours devoted to the gardening work for any individual regularly exceeds 44 hours per month, or (3) engaged in casual employment where the work contemplated is to be completed in not less than 10 working days, without regard to the number of persons employed, and where the total labor cost of the work is not less than one hundred dollars ($100) (which amount shall not include charges other than for personal services), shall be entitled, in addition to proceeding against his or her employer by civil action in the courts as provided in Section 3706, to file his or her application with the appeals board for compensation. The appeals board shall hear and determine the application for compensation in like manner as in other claims, and shall make the award to the claimant as he or she would be entitled to receive if the person's employer had secured the payment of compensation as required, and the employer shall pay the award in the manner and amount fixed thereby, or shall furnish to the appeals board a bond, in such an amount and with such sureties as the appeals board requires, to

pay the employee the award in the manner and amount fixed thereby.

It is the intent of the Legislature that the amendments to this section by Chapter 17 of the Statutes of 1977, make no change in the law as it applied to those types of employees covered by this subdivision prior to the effective date of Chapter 1263 of the 1975 Regular Session.

(c) In any claim in which it is alleged that the employer has failed to secure the payment of compensation, the director, only for purposes of this section and Section 3720, shall determine, on the basis of the evidence available to him or her, whether the employer was prima facie illegally uninsured. A finding that the employer was prima facie illegally uninsured shall be made when the director determines that there is sufficient evidence to constitute a prima facie case that the employer employed an employee on the date of the alleged injury and had failed to secure the payment of compensation, and that the employee was injured arising out of, and occurring in the course of, the employment.

Failure of the employer to furnish within 10 days the written statement in response to a written demand for a written statement prescribed in Section 3711, addressed to the employer at its address as shown on the official address record of the appeals board, shall constitute in itself sufficient evidence for a prima facie case that the employer failed to secure the payment of compensation.

A written denial by the insurer named in the statement furnished by the employer as prescribed in Section 3711, that the employer was so insured as claimed, or the nonexistence of a valid certificate of consent to self-insure for the time of the claimed injury, if the statement furnished by the employer claims the employer was self-insured, shall constitute in itself sufficient evidence for a prima facie case that the employer had failed to secure the payment of compensation.

The nonexistence of a record of the employer's insurance with the Workers' Compensation Insurance Rating Bureau shall constitute in itself sufficient evidence for a prima facie case that the employer failed to secure the payment of compensation.

The unrebutted written declaration under penalty of perjury by the injured employee, or applicant other than the employee, that the employee was employed by the employer at the time of the injury, and that he or she was injured in the course of his or her employment, shall constitute, in itself, sufficient evidence for a prima facie case that the employer employed the employee at the time of the injury, and that the employee was injured arising out of, and occurring in the course of, the employment.

(d) When the director determines that an employer was prima facie illegally uninsured, the director shall mail a written notice of the determination to the employer at his or her address as shown on the official address record of the appeals board, and to any other more recent address the director may possess. The notice shall advise

the employer of its right to appeal the finding, and that a lien may be placed against the employer's and any parent corporation's property, or the property of substantial shareholders of a corporate employer as defined by Section 3717.

Any employer aggrieved by a finding of the director that it was prima facie illegally uninsured may appeal the finding by filing a petition before the appeals board. The petition shall be filed within 20 days after the finding is issued. The appeals board shall hold a hearing on the petition within 20 days after the petition is filed with the appeals board. The appeals board shall have exclusive jurisdiction to determine appeals of the findings by the director, and no court of this state has jurisdiction to review, annul, or suspend the findings or the liens created thereunder, except as provided by Article 2 (commencing with Section 5950) of Chapter 7 of Part 4 of Division 4.

(e) Any claim brought against an employer under this section may be resolved by the director by compromise and release or stipulated findings and award as long as the appeals board has acquired jurisdiction over the employer and the employer has been given notice and an opportunity to object. Notice may be given by service on the employer of an appeals board notice of intention to approve the compromise and release or stipulated findings and award. The employer shall have 20 days after service of the notice of intention to file an objection with the appeals board. If the employer objects, the director may proceed with the compromise and release or stipulated findings and award if doing so best serves the interest of the Uninsured Employers Fund, but shall have no cause of action against the employer under Section 3717 unless the appeals board case is tried to its conclusion and the employer is found liable.

The director may adopt regulations to implement and interpret the procedures provided for in this section.

SEC. 2. Section 3717 of the Labor Code is amended to read:

3717. (a) A findings and award which is the subject of a demand on the Uninsured Employers Fund or an approved compromise and release or stipulated findings and award entered into by the director pursuant to subdivision (e) of Section 3715, shall constitute a liquidated claim for damages against an employer in the amount so ascertained and fixed by the appeals board, and the appeals board shall certify the same to the director who may institute a civil action against the employer in the name of the director, as administrator of the Uninsured Employers Fund, for the collection of such award, or may obtain a judgment against the employer pursuant to Section 5806. In the event that the appeals board finds that a corporation is the employer of an injured employee, and that the corporation has not secured the payment of compensation as required by this chapter, the following persons shall be jointly and severally liable with the corporation to the director in the action:

(1) All persons who are a parent, as defined in Section 175 of the

Corporations Code, of the corporation.

(2) All persons who are substantial shareholders, as defined in subdivision (b), of the corporation or its parent. In the action it shall be sufficient for plaintiff to set forth a copy of the findings and award of the appeals board relative to the claims as certified by the appeals board to the director and to state that there is due to plaintiff on account of the finding and award of the appeals board a specified sum which plaintiff claims with interest. The director shall be further entitled to costs and reasonable attorney fees, and to his or her investigation and litigation expenses for the appeals board proceedings, and a reasonable attorney fee for litigating the appeals board proceedings. A certified copy of the findings and award in the claim shall be attached to the complaint. The contents of the findings and award shall be deemed proved. The answer or demurrer to the complaint shall be filed within 10 days, the reply or demurrer to the answer within 20 days, and the demurrer to the reply within 30 days after the return day of the summons or service by publication. All motions and demurrer shall be submitted to the court within 10 days after the same are filed. As soon as the issues are made up in any such case, it shall be placed at the head of the trial docket and shall be first in order for trial.

Nothing in this chapter shall be construed to preclude informal adjustment by the director of a claim for compensation benefits before the issuance of findings and award wherever it appears to the director that the employer is uninsured and that informal adjustment will facilitate the expeditious delivery of compensation benefits to the injured employee.

(b) As used in this section, "substantial shareholder" means a shareholder who owns at least 15 percent of the total value of all classes of stock, or, if no stock has been issued, who owns at least 15 percent of the beneficial interests in the corporation.

(c) For purposes of this section, in determining the ownership of stock or beneficial interest in the corporation, in the determination of whether a person is a substantial shareholder of the corporation, the rules of attribution of ownership of Section 17384 of the Revenue and Taxation Code shall be applied.

(d) For purposes of this section, "corporation" shall not include:

(1) Any corporation which is the issuer of any security which is exempted by Section 25101 of the Corporations Code from Section 25130 of the Corporations Code.

(2) Any corporation which is the issuer of any security exempted by subdivision (c), (d), or (i) of Section 25100 of the Corporations Code from Sections 25110, 25120, and 25130 of the Corporations Code.

(3) Any corporation which is the issuer of any security which has qualified either by coordination, as provided by Section 25111 of the Corporations Code, or by notification, as provided by Section 25112 of the Corporations Code.

SEC. 3. Section 5106 of the Labor Code is amended to read:

5106. The appeals board shall, upon the request of the Director of Industrial Relations, where the employer is uninsured and the installments of compensation awarded are to be paid in the future, determine the present worth of the future payments, discounted at the rate of 3 percent per annum, and order the present worth paid into the Uninsured Employers Fund, which fund shall thereafter pay to the beneficiaries of the award the future payments as they become due.

6480. (a) For purposes of this article, the terms "distributor," "broker," "distribution," "motor vehicle fuel," "person," and "in this state" are defined pursuant to Part 2 (commencing with Section 7301), except as provided in subdivision (b).

(b) For purposes of this article, "motor vehicle fuel" does not include aviation gasoline for use in propelling aircraft. For purposes of this subdivision, "aviation gasoline" means gasoline, natural gasoline, and any inflammable liquid intended for use in propelling aircraft operated by the explosion-type engine.

(c) This article does not apply to motor vehicle fuel exempt from license taxes pursuant to paragraph (3) of subdivision (a) of Section 7401.

SEC. 2. Section 6480.1 of the Revenue and Taxation Code is amended to read:

6480.1. (a) After service of written notification by the board, on the first distribution in this state of motor vehicle fuel subject to the motor vehicle fuel license tax, the distributor shall collect prepayment of retail sales tax from the person to whom the motor vehicle fuel is distributed. The prepayment required to be collected by the distributor constitutes a debt owed by the distributor to this state until paid to the board, until satisfactory proof has been submitted to prove that the retailer of the fuel has paid the retail sales tax to the board, or until a distributor or broker who has

consumed the fuel has paid the use tax to the board. Each distributor shall report and pay the prepayment amounts to the board on a form prescribed by the board. On each subsequent distribution of that motor vehicle fuel, each seller, other than the retailer, shall collect from his or her purchaser an amount equal to the amount of the prepayment paid by the seller to the person from whom he or she acquired the fuel. Each distributor shall provide his or her purchaser with a receipt or invoice for the collection of the prepayment amounts which shall be separately stated thereon.

(b) After service of written notification by the board, the broker shall collect prepayment of the retail sales tax from the person to whom the motor vehicle fuel is transferred. The prepayment required to be collected by the broker constitutes a debt owed by the broker to the state until paid to the board, or until satisfactory proof has been submitted to prove that the retailer of the fuel has paid the tax to the board. Each broker shall provide his or her purchaser with a receipt or invoice for the collection of the prepayment amounts which shall be separately stated thereon.

Each broker shall report and pay the prepayment amounts to the board on a form prescribed by the board. The amount of prepayment paid by the broker to his or her vendor shall constitute a credit against the amount of prepayment required to be collected and remitted by the broker to the board.

(c) A distributor or broker who pays the prepayment and issues a resale certificate to the seller, but subsequently consumes the fuel, shall be entitled to a credit against his or her sales and use taxes due and payable for the period in which the prepayment was made, provided that he or she reports and pays the use tax to the board on the consumption of that fuel.

(d) The amount of a prepayment paid by the retailer or a distributor or broker who has consumed the fuel to the seller from whom he or she acquired the fuel shall constitute a credit against his or her sales and use taxes due and payable for the period in which the prepayment was made. Failure of the distributor or broker to report prepayments or the distributor's or broker's failure to comply with any other duty under this article shall not constitute grounds for denial of the credit to the retailer or broker, either on a temporary or permanent basis or otherwise. The retailer or broker shall be entitled to the credit to the extent of the amount prepaid to his or her supplier as evidenced by purchase documents, invoices, or receipts stating separately the amount of tax prepayment.

(e) The rate of the prepayment required to be collected during the period from July 1, 1986, through March 31, 1987, shall be four cents ($0.04) per gallon of motor vehicle fuel distributed or transferred.

(f) On April 1 of each succeeding year, the rate per gallon, rounded to the nearest one-half of one cent, of the required prepayment shall be established by the board based upon 80 percent of the combined state and local sales tax rate established by Sections

6051 and 7202 on the arithmetic average selling price (excluding sales tax) as determined by the State Energy Resources Conservation and Development Commission, in its latest publication of the "Quarterly Oil Report," of all grades of gasoline sold through a self-service gasoline station. The board shall make its determination of the rate no later than November 1 of the year prior to the effective date of the new rate. Immediately upon making its determination and setting of the rate, the board shall each year, no later than January 1, notify by mail every distributor, broker, and retailer of motor vehicle fuel. In the event the price of fuel decreases or increases, and the established rate results in prepayments which consistently exceed or are significantly lower than the retailers' sales tax liability, the board may readjust the rate.

SEC. 3. Section 6480.6 of the Revenue and Taxation Code is amended to read:

6480.6. (a) The following persons who have paid prepayment amounts either directly to the board or to the person from whom it was purchased, on the distribution of motor vehicle fuel which was subject to the motor vehicle fuel license tax, shall be refunded those amounts:

(1) Any person who exports the motor vehicle fuel for subsequent sale outside this state.

(2) Any person who sells the motor vehicle fuel which is exempt from the sales or use tax pursuant to Sections 6352, 6357, 6381, and 6396.

(3) Any person who has lost the motor vehicle fuel through fire, flood, theft, leakage, evaporation, shrinkage, spillage, or accident, prior to any retail sale.

(4) Any person who is unable to collect the prepayment from the purchaser insofar as the sales of the fuel are represented by accounts which have been found to be worthless and charged off for income tax purposes. If partial payments have been made, the payments shall be prorated between amounts due for fuel and amounts due for the related prepayment. If any of those accounts are thereafter in whole or in part collected by the seller, the gallons of fuel represented by the amounts collected shall be included in the first return filed after that collection and the amount of the prepayment thereon paid with the return. As a condition for eligibility for refund, the board may require the seller to submit periodical reports listing accounts delinquent for a 90-day period or over.

(b) In lieu of a refund, the board may authorize a credit to be taken by the person to whom the refund is due upon his or her prepayment form or sales and use tax return.

SEC. 4. Section 6901 of the Revenue and Taxation Code is amended to read:

6901. If the board determines that any amount, penalty, or interest has been paid more than once or has been erroneously or illegally collected or computed, the board shall set forth that fact in the records of the board and shall certify to the State Board of

Control the amount collected in excess of the amount legally due and the person from whom it was collected or by whom paid. If approved by the State Board of Control the excess amount collected or paid shall be credited by the board on any amounts then due and payable from the person from whom the excess amount was collected or by whom it was paid under this part, and the balance shall be refunded to the person, or his or her successors, administrators, or executors.

The board, however, without obtaining approval of the State Board of Control may credit the amount on any amounts then due and payable under this part from the person by whom the amount was paid and may refund the balance to the person or his or her successors, administrators, or executors, if a determination by the board is made in either of the following cases:

(a) An amount of tax, interest, or penalty not exceeding fifteen thousand dollars ($15,000) was not required to be paid.

(b) Any amount of prepayment of sales tax, interest, or penalty paid pursuant to Article 1.5 (commencing with Section 6480) of Chapter 5 was not required to be paid.

Any overpayment of the use tax by a purchaser to a retailer who is required to collect the tax and who gives the purchaser a receipt therefor pursuant to Article 1 (commencing with Section 6201) of Chapter 3 shall be credited or refunded by the state to the purchaser.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure the timely remittance of sales tax revenues from the sale of motor vehicle fuel and in order to make necessary technical changes to newly enacted laws governing the prepayment of those taxes at the earliest possible time, it is necessary that this act take immediate effect.

CHAPTER 211

An act to amend Section 39011 of the Health and Safety Code, relating to agricultural burning.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 39011 of the Health and Safety Code is amended to read:

39011. (a) "Agricultural burning" means open outdoor fires used in agricultural operations in the growing of crops or raising of fowl or animals, or open outdoor fires used in forest management, range improvement, or the improvement of land for wildlife and game

habitat, or disease or pest prevention.

(b) "Agricultural burning" also means open outdoor fires used in the operation or maintenance of a system for the delivery of water for the purposes specified in subdivision (a).

(c) "Agricultural burning" also means open outdoor fires used in wildland vegetation management burning. Wildland vegetation management burning is the use of prescribed burning conducted by a public agency, or through a cooperative agreement or contract involving a public agency, to burn land predominantly covered with chaparral, trees, grass, or standing brush. Prescribed burning is the planned application of fire to vegetation to achieve any specific objective on lands selected in advance of that application. The planned application of fire may also include natural or accidental ignition.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 212

An act to amend Section 6553 of the Government Code, and to amend Section 33645 of the Health and Safety Code, relating to local agencies, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1987. Filed with Secretary of State July 23, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 6553 of the Government Code is amended to read:

6553. The indenture authorizing the issuance of the bonds shall recite the objects and purposes for which the bonds are to be issued, which may include any or all of the purposes stated in this article and which shall comprise the project, the principal amount of the bonds, the maximum rate of interest to be payable thereon which shall not exceed the maximum rate permitted by Section 53531, payable at the intervals which the governing body determines, and which may be fixed or variable and simple or compound, the date or dates of issue of the bonds, the maturity date or dates thereof, and the fund or funds from which the bonds and the interest thereon and premiums upon the redemption of any thereof are to be payable, and any other provisions authorized by this article as the governing body of the entity deems necessary or desirable. However, in the case of a project for the generation or transmission of electric energy, the maximum

rate of interest shall not be applicable to bonds issued to continue or complete financing of a project for which bonds shall have theretofore been issued. The bonds shall be issued in negotiable form and shall be negotiable. The recitals or regularity of proceedings in any revenue bond issued and sold under this article shall be conclusive evidence of compliance with this article and of the validity of the bond. The bonds may be issued and sold to the United States of America, or the State of California, or to any appropriate department or agency thereof, to provide a source for the payment of principal and interest on any loan made by the United States of America, or the State of California, or agency thereof, to any agency created by an agreement entered into pursuant to this chapter.

SEC. 2. Section 33645 of the Health and Safety Code is amended to read:

33645. The agency may authorize bonds by resolution. The resolution, trust indenture, or mortgage may provide for:

(a) The issuance of the bonds in one or more series.

(b) The date the bonds shall bear.

(c) The maturity dates of the bonds.

(d) The rate or maximum rate of interest on the indebtedness, which shall not exceed the maximum rate permitted by Section 53531 of the Government Code, and need not be recited if the rate does not exceed 4½ percent. The interest may be fixed or variable and may be simple or compound. The interest shall be payable at the time or times determined by the agency.

(e) The denomination of the bonds.

(f) Their form, either coupon or registered.

(g) The conversion or registration privileges carried by the bonds.

(h) The rank or priority of the bonds.

(i) The manner of their execution.

(j) The medium of payment.

(k) The place of payment.

(*l*) The terms of redemption with or without premium to which the bonds are subject.

(m) The maximum amount of bonded indebtedness in compliance with, and not to exceed, the limit specified in the redevelopment plan as required in Section 33334.1.

The resolution, trust indenture, or mortgage shall provide that tax-increment funds allocated to an agency pursuant to Section 33670 shall not be payable to a trustee on account of any issued bonds when sufficient funds have been placed with the trustee to redeem all outstanding bonds of the issue.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the California Constitution and shall go into immediate effect. The facts constituting the necessity are:

Under current law, community redevelopment agencies and joint powers entities, cannot issue bonds with interest adjustable and payable on a more frequent basis than semiannually. Under current

market conditions, it is less expensive to these agencies and the communities they serve to issue variable rate bonds. In order for joint powers entities and community redevelopment agencies to reduce without delay the public costs of long-term indebtedness by issuing variable rate bonds, it is necessary that this act go into immediate effect.

CHAPTER 213

An act to amend Section 6103.5 of the Business and Professions Code, relating to attorneys.

[Approved by Governor July 22, 1987 Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 6103.5 of the Business and Professions Code is amended to read:

6103.5. (a) A member of the State Bar shall promptly communicate to the member's client all amounts, terms, and conditions of any written offer of settlement made by or on behalf of an opposing party. As used in this section, "client" includes any person employing the member of the State Bar who posseses the authority to accept an offer of settlement, or in a class action, who is a representative of the class.

(b) Any written offer of settlement or any required communication of a settlement offer, as described in subdivision (a), shall be discoverable by either party in any action in which the existence or communication of the offer of settlement is an issue before the trier of fact.

CHAPTER 214

An act to repeal Section 11837.3 of the Health and Safety Code, and to amend Sections 13352.5, 23166, and 23186 of the Vehicle Code, relating to driving offenses.

[Approved by Governor July 22, 1987 Filed with Secretary of State July 23, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 11837.3 of the Health and Safety Code is repealed.

SEC. 2. Section 13352.5 of the Vehicle Code is amended to read:

13352.5. (a) Unless ordered to do so by the court upon a finding

that the terms and conditions of probation were violated, the department shall not suspend, pursuant to paragraph (3) of subdivision (a) of Section 13352, but shall restrict the privilege of any person to operate a motor vehicle upon a conviction or finding that the person violated Section 23152, but only if the court has certified to the department that the court has granted probation to the person on conditions which include the conditions specified in subdivision (b) of Section 23166 and the court has restricted the privilege to operate a motor vehicle as provided in that subdivision.

(b) Unless ordered to do so by the court upon a finding that the terms and conditions of probation were violated, the department shall not revoke, pursuant to paragraph (4) of subdivision (a) of Section 13352, but shall suspend for one year and, thereafter, restrict for two additional years, the privilege of any person to operate a motor vehicle upon a conviction or finding that the person violated Section 23153, but only if the court has certified to the department that the court has granted probation to the person on conditions which include the conditions specified in subdivision (b) of Section 23186, and the court has ordered the department to suspend the privilege to operate a motor vehicle as provided in that subdivision.

(c) Subdivisions (a) and (b) do not apply to a person who has been referred or rereferred into a program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code within four years after the person ceases his or her prior participation in such a program. The four-year period shall commence either on the date the person successfully completes the program or on the date on which the person's driving privilege was suspended or revoked by the department for failure to comply with the program's rules and regulations, whichever is later. With respect to any person convicted of a violation of Section 23152 or 23153 subsequent to the commencement of a four-year period, that person's eligibility to participate in the program again for purposes of this section shall be determined on the basis of the date on which the person is alleged to have committed that offense.

(d) The restriction of the driving privilege under subdivision (a) shall become effective 30 days from the date on which the person consented to participate in the program specified in subdivision (a), excluding any time of imprisonment ordered by the court, but only if the person presents evidence satisfactory to the department that he or she is participating in the program specified in subdivision (b) of Section 23166, gives proof of ability to respond in damages as defined in Section 16430, and pays fees to the department of fifteen dollars ($15) upon application for the restricted license and twenty dollars ($20) upon completion of the treatment program or upon application for an unrestricted license, whichever is sooner. If the person fails to apply for a restricted license, fails to give proof of ability to respond in damages as defined in Section 16430, or if the person fails to show evidence of participation within 30 days, excluding the time of imprisonment ordered by the court, the

department shall suspend the driving privilege of the person for the time prescribed in paragraph (3) of subdivision (a) of Section 13352.

(e) The restriction of the driving privilege under subdivision (b) shall become effective 30 days from the end of the period of suspension, but only if the person presents evidence satisfactory to the department that he or she is participating in the program specified in subdivision (b) of Section 23186, gives proof of ability to respond in damages as defined in Section 16430, and pays fees to the department of fifteen dollars ($15) upon application for the restricted license and twenty dollars ($20) upon completion of the treatment program or upon application for an unrestricted license, whichever is sooner. If the person fails to apply for a restricted license, fails to give proof of ability to responds in damages as defined in Section 16430, or if the person fails to show evidence of participation within 30 days from the end of the period of suspension, excluding any time of imprisonment ordered by the court to be served after the end of the period of suspension, the department shall revoke the driving privilege of the person for the time prescribed in paragraph (4) of subdivision (a) of Section 13352.

(f) The driving privilege restricted under subdivision (a) or (b) shall be limited to the hours for driving to and from the place of employment and during the course of employment and driving to and from activities required in an alcohol treatment program specified in subdivision (b) of Section 23166 or subdivision (b) of Section 23186. The department may set forth the times and days of restricted operation established by the court either on a special restricted license or upon the usual license form. Whenever the driving privilege is restricted under subdivision (a) or (b), proof of ability to respond in damages as defined in Section 16430 shall be maintained for three years. If the person maintains proof of ability to respond in damages as defined in Section 16430, the restriction shall continue in full force and effect until the person presents evidence satisfactory to the department that the person has completed the alcohol treatment program. Except as provided in Section 23168, in no event shall the length of the restriction for a person subject to subdivision (a) be less than the total time of restriction specified in subdivision (b) of Section 23166. In no event shall the total time of suspension and restriction for a person subject to subdivision (b) be less than the applicable period of revocation under paragraph (4) of subdivision (a) of Section 13352.

(g) Except as provided in this subdivision, the department shall suspend or revoke the driving privilege for the time prescribed in paragraph (3) or (4) of subdivision (a) of Section 13352, 60 days from the date that the department notifies the person and the court of the intended action pursuant to subdivision (a) of Section 11837.1 of the Health and Safety Code, or the date ending the additional time ordered by the court under this subdivision, whichever is later. If the person presents evidence satisfactory to the department that the court of jurisdiction has consented to the person's reinstatement in

the program and gives proof of ability to respond in damages as defined in Section 16430, the department shall continue in effect the restriction granted under subdivision (c), unless the person has previously been reinstated in the program on two or more occasions, in which case the department shall suspend or revoke the driving privilege for the time prescribed in paragraph (3) or (4) of subdivision (a) of Section 13352. The evidence shall be presented within 45 days of the notice from the department of the intended action or such additional time, not to exceed an additional 45 days, for the determination as is required, ordered, and transmitted to the department by the court, which additional time is not caused by any action or failure to act by the person.

(h) All abstracts of record showing a conviction that are forwarded to the department pursuant to Section 1803 shall state whether the court has granted probation to the person on conditions which include the conditions specified in subdivision (b) of Section 23166 or subdivision (b) of Section 23186 and state the date on which the person consented to participate in the program.

(i) The department, in cooperation with the State Department of Alcohol and Drug Programs, shall adopt such regulations as it deems necessary to implement this section.

(j) This section does not apply to persons whose offense occurred in a vehicle requiring a driver with a class 1 or class 2 driver's license or with a certificate specified in Section 12804.1.

SEC. 3. Section 23166 of the Vehicle Code is amended to read:

23166. If the court grants probation to any person punished under Section 23165, in addition to the provisions of Section 23206 and any other terms and conditions imposed by the court, the court shall impose as conditions of probation that the person be subject to all of the provisions of either subdivision (a) or (b), as follows:

(a) Be confined in the county jail for at least 10 days but not more than one year and pay a fine of at least three hundred ninety dollars ($390) but not more than one thousand dollars ($1,000). (b) All of the following:

(1) Be confined in the county jail for at least 48 hours but not more than one year.

(2) Pay a fine of at least three hundred ninety dollars ($390) but not more than one thousand dollars ($1,000).

(3) If the person gives proof of ability to respond in damages as defined in Section 16430 to the Department of Motor Vehicles, have the privilege to operate a motor vehicle be restricted by the Department of Motor Vehicles pursuant to Section 13352.5 for one year to necessary travel to and from that person's place of employment and to and from the treatment program described in paragraph (4) and, if driving a motor vehicle is necessary to perform the duties of the person's employment, restricted to driving in that

person's scope of employment. The Department of Motor Vehicles shall not suspend the person's privilege to operate a motor vehicle under Section 13352, as provided in Section 13352.5, unless the offense occurred in a vehicle requiring a driver with a class 1 or class 2 driver's license or with a certificate specified in Section 12804.1.

(4) Participate, for at least one year and in a manner satisfactory to the court, in a program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code, as designated by the court. The program shall provide for persons who cannot afford the program fee pursuant to paragraph (2) of subdivision (a) of Section 11837.4 of the Health and Safety Code in order to enable those persons to participate.

SEC. 4. Section 23186 of the Vehicle Code is amended to read:

23186. If the court grants probation to any person punished under Section 23185, in addition to the provisions of Section 23206 and any other terms and conditions imposed by the court, the court shall impose as conditions of probation that the person be subject to all of the provisions of either subdivision (a) or (b), as follows:

(a) Be confined in the county jail for at least 120 days and pay a fine of at least three hundred ninety dollars ($390) but not more than five thousand dollars ($5,000). The person's privilege to operate a motor vehicle shall be revoked by the Department of Motor Vehicles pursuant to paragraph (4) of subdivision (a) of Section 13352.

(b) All of the following:

(3) Pursuant to Section 13352.5, have the privilege to operate a motor vehicle be suspended for one year by the Department of Motor Vehicles and, after that one-year period, if the person gives proof of ability to respond in damages as defined in Section 16430 to the Department of Motor Vehicles have the privilege restricted by the Department of Motor Vehicles for two additional years to necessary travel to and from that person's place of employment, and to and from the treatment program described in paragraph (4) and, if driving a motor vehicle is necessary to perform the duties of the person's employment, restricted to driving in that person's scope of employment. The Department of Motor Vehicles shall not revoke the person's privilege to operate a motor vehicle under Section 13352, as provided in Section 13352.5, unless the offense occurred in a vehicle requiring a driver with a class 1 or class 2 driver's license or with a certificate specified in Section 12804.1.

(4) Participate, for at least one year and in a manner satisfactory to the court, in a program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code, as designated by the court.

Except when approved by the legislative body, by ordinance or resolution, property being used as a facility for the parking or storing of motor vehicles shall not be acquired by an authority, unless the project to be furnished or constructed which necessitates the acquisition of the existing facility when completed will provide a parking capacity at least three times the parking capacity provided by the existing facility.

If this section is held invalid, no existing parking facility may be acquired by an authority.

CHAPTER 217

An act to amend Section 45253 of the Education Code, relating to education.

[Approved by Governor July 22, 1987 Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 45253 of the Education Code is amended to read:

The budget shall be prepared for a public hearing by the commission to be held not later than May 30 of each year, or at a date agreed upon between the governing board and the personnel commission to coincide with the process of adoption of the school district budget. The commission shall forward a copy of its proposed budget to the governing board indicating the time, date and place for the public hearing of the budget and shall invite board and district administration representatives to attend and present their views. He or she may after the public hearing either reject, or, with the concurrence of the commission, amend the proposed budget. In the absence of agreement between the personnel commission and the county superintendent the budget of the preceding year shall determine the amount of the new budget, and the items of expenditure shall be determined by the commission.

CHAPTER 218

An act to amend Section 65009 of the Government Code, relating to local government.

[Approved by Governor July 22, 1987 Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 65009 of the Government Code is amended to read:

65009. (a) (1) The Legislature finds and declares that there currently is a housing crisis in California and it is essential to reduce delays and restraints upon expeditiously completing housing projects.

(2) The Legislature further finds and declares that a legal action challenging a decision of a city, county, or city and county has a chilling effect on the confidence with which property owners and local governments can proceed with projects. Legal actions filed to attack, review, set aside, void, or annul a decision of a city, county, or city and county pursuant to this division can prevent the completion of needed developments even though the projects have received required governmental approvals.

(3) The purpose of this section is to provide certainty for property owners and local governments regarding decisions made pursuant to this division.

(b) (1) In an action or proceeding to attack, review, set aside, void, or annul a finding, determination, or decision of a public agency made pursuant to this title at a properly noticed public hearing, the issues raised shall be limited to those raised in the public hearing or in written correspondence delivered to the public agency prior to, or at, the public hearing, except where the court finds either of the following:

(A) The issue could not have been raised at the public hearing by persons exercising reasonable diligence.

(B) The body conducting the public hearing prevented the issue from being raised at the public hearing.

(2) If a public agency desires the provisions of this subdivision to apply to a matter, it shall include in any public notice issued pursuant to this title a notice substantially stating all of the following: "If you challenge the (nature of the proposed action) in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the (public entity conducting the hearing) at, or prior to, the public hearing."

(3) The application of this subdivision to causes of action brought pursuant to subdivision (d) applies only to the final action taken in response to the notice to the city or county clerk. If no final action

is taken, then the issue raised in the cause of action brought pursuant to subdivision (d) shall be limited to those matters presented at a properly noticed public hearing or to those matters specified in the notice given to the city or county clerk pursuant to subdivision (d), or both.

(c) Except as provided in subdivision (d), no action or proceeding shall be maintained in any of the following cases by any person unless the action or proceeding is commenced and service is made on the legislative body within 120 days after the legislative body's decision:

(1) To attack, review, set aside, void, or annul the decision of a legislative body to adopt or amend a general or specific plan. This paragraph does not apply where an action is brought based upon the complete absence of a general plan or a mandatory element thereof, but does apply to an action attacking a general plan or mandatory element thereof on the basis that it is inadequate.

(2) To attack, review, set aside, void, or annul the decision of a legislative body to adopt or amend a zoning ordinance.

(3) To determine the reasonableness, legality, or validity of any decision to adopt or amend any regulation attached to a specific plan.

(4) Concerning any of the proceedings, acts, or determinations taken, done, or made prior to any of the decisions listed in paragraphs (1), (2), and (3).

(d) An action or proceeding shall be commenced and the legislative body served within two years after the accrual of the cause of action as provided in this subdivision, if the action or proceeding meets both of the following requirements:

(1) It is brought in support of the development of housing projects which meet the requirements for housing for persons and families with low or moderate incomes set forth in Section 65915.

(2) It is brought with respect to actions taken pursuant to Article 10.6 (commencing with Section 65580) of Chapter 3 of this division, pursuant to Section 65589.5, 65863.6, 65915, or 66474.2 or pursuant to Chapter 4.2 (commencing with Section 65913).

A cause of action brought pursuant to this subdivision shall not be maintained until 60 days have expired following notice to the city or county clerk by the party bringing the cause of action, or his or her representative, specifying the deficiencies of the general plan, specific plan, or zoning ordinance. A cause of action brought pursuant to this subdivision shall accrue 60 days after notice is filed or the legislative body takes a final action in response to the notice, whichever occurs first. A notice or cause of action brought by one party pursuant to this subdivision shall not bar filing of a notice and initiation of a cause of action by any other party.

(e) Upon the expiration of the time limits provided for in this section, all persons are barred from any further action or proceeding.

(f) Notwithstanding Section 65700, this section shall apply to charter cities.

(g) Except as provided in subdivision (d), this section shall not affect any law prescribing or authorizing a shorter period of

CHAPTER 219

An act to amend Section 69 of the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1987 Filed with Secretary of State July 23, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 69 of the Revenue and Taxation Code is amended to read:

69. (a) Notwithstanding any other provision of law, pursuant to Section 2 of Article XIII A of the Constitution, the base-year value of property which is substantially damaged or destroyed by a disaster, as declared by the Governor, may be transferred to comparable property within the same county which is acquired or newly constructed within two years after the disaster as a replacement for the substantially damaged or destroyed property. At the time the base-year value of the substantially damaged or destroyed property is transferred to the replacement property, the substantially damaged or destroyed property shall be reassessed at its full cash value; however, the substantially damaged or destroyed property shall retain its base-year value notwithstanding the transfer authorized by this section. If the owner or owners of substantially damaged or destroyed property receive property tax relief under this section, that property shall not be eligible for property tax relief under subdivision (c) of Section 70 in the event of its reconstruction.

(b) The replacement base-year value of the replacement property acquired shall be determined in accordance with this section.

The following procedure shall be used by the assessor in determining the appropriate replacement base-year value of comparable replacement property:

(1) If the full cash value of the comparable replacement property does not exceed 120 percent of the full cash value of the property substantially damaged or destroyed, then the adjusted base-year value of the property substantially damaged or destroyed shall be transferred to the comparable replacement property as its replacement base-year value.

(2) If the full cash value of the replacement property exceeds 120 percent of the full cash value of the property substantially damaged

or destroyed, then the amount of the full cash value over 120 percent of the full cash value of the property substantially damaged or destroyed shall be added to the adjusted base-year value of the property substantially damaged or destroyed. The sum of these amounts shall become the replacement property's replacement base-year value.

(3) If the full cash value of the comparable replacement property is less than the adjusted base-year value of the property substantially damaged or destroyed, then that lower value shall become the replacement property's base-year value.

(4) The full cash value of the property substantially damaged or destroyed shall be the amount of its full cash value immediately prior to its substantial damage or destruction, as determined by the county assessor of the county in which the property is located.

(c) For purposes of this section:

(1) Property is substantially damaged or destroyed if it sustains physical damage amounting to more than 50 percent of its full cash value immediately prior to the disaster. Damage includes a diminution in the value of property as a result of restricted access to the property where the restricted access was caused by the disaster and is permanent in nature.

(2) Replacement property is comparable to the property substantially damaged or destroyed if it is similar in size, utility, and function to the property which it replaces.

(A) Property is similar in function if the replacement property is subject to similar governmental restrictions, such as zoning.

(B) Both the size and utility of property are interrelated and associated with value. Property is similar in size and utility only to the extent that the replacement property is, or is intended to be, used in the same manner as the property substantially damaged or destroyed and its full cash value does not exceed 120 percent of the full cash value of the property substantially damaged or destroyed.

(i) A replacement property or any portion thereof used or intended to be used for a purpose substantially different than the use made of the property substantially damaged or destroyed shall to the extent of the dissimilar use be considered not similar in utility.

(ii) A replacement property or portion thereof which satisfies the use requirement but has a full cash value which exceeds 120 percent of the full cash value of the property substantially damaged or destroyed shall be considered, to the extent of the excess, not similar in utility and size.

(C) To the extent that replacement property, or any portion thereof, is not similar in function, size, and utility, the property, or portion thereof, shall be considered to have undergone a change in ownership when the replacement property is acquired or newly constructed.

(3) "Disaster" means a major misfortune or calamity in an area subsequently proclaimed by the Governor to be in a state of disaster as a result of the misfortune or calamity.

(d) This section shall apply to any comparable replacement property acquired or newly constructed on or after July 1, 1985.

(e) Only the owner or owners of the property substantially damaged or destroyed, whether one or more individuals, partnerships, corporations, other legal entities, or a combination thereof, shall receive property tax relief under this section. Relief under this section shall be granted to an owner or owners of substantially damaged or destroyed property obtaining title to replacement property. The acquisition of an ownership interest in a legal entity which, directly or indirectly, owns real property is not an acquisition of comparable property.

SEC. 2. The amendment to Section 69 of the Revenue and Taxation Code made by this act shall apply to substantially damaged or destroyed property for which comparable replacement property was acquired or newly constructed on or after July 1, 1985.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Section 69 of the Revenue and Taxation Code permitted the transfer of the base-year value of substantially damaged or destroyed property to comparable replacement property acquired or newly constructed on or after July 1, 1985, and provided for the reassessment of the substantially damaged or destroyed property at the time of the transfer. However, that section inadvertently made no provision for the disposition of the base-year value of the substantially damaged or destroyed property as the result of the authorized transfer. In order that this omission may be corrected at the earliest possible time so as to provide assessors with appropriate guidance in administering Section 69, it is necessary that this act go into immediate effect.

(c) Before beginning the study of law, have done either of the following:

The determination by the examining committee may be made after a

personal interview with the person or the examining committee may require him or her to pass a written examination. The examination may be given by the examining committee, or, if the examining committee so elects, the examination may be given under its supervision by such members of the faculty of a college as the examining committee may select or by the State Department of Education. However, any person who receives an adverse determination by the committee without an examination or fails an examination given directly by the committee shall, upon demand made within 30 days after receiving notice thereof, have the right to be reexamined either by such faculty members or department as the committee may decide. In the event that the examination is given by the State Department of Education, a fee for the examination, not to exceed fifteen dollars ($15), shall be charged by the department.

An applicant who is required to take the first-year examination shall not receive credit for his or her first year of law study until he or she has passed that examination; nor shall he or she receive credit for any law study subsequent to the first year, and before he or she shall have passed the examination, unless for good cause in a particular case the committee decides that credit should be given for the subsequent study or for some part thereof.

all of the directors and officers of the corporation in their capacity as individuals shall be included, and any liability for failure to collect or make payment of assessments of which a corporate handler may be subject pursuant to this chapter shall include identical liability upon each individual director or officer of the corporation. However, "handler" does not include a retailer, except a retailer who purchases or acquires from, or handles on behalf of, any producer eggs or egg products which were not previously subject to assessment by the commission.

[Approved by Governor July 24, 1987 Filed with Secretary of State July 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 386 is added to the Penal Code, to read:

386. (a) Any person who willfully or maliciously constructs or maintains a fire-protection system in any structure with the intent to install a fire protection system which is known to be inoperable or to impair the effective operation of a system, so as to threaten the safety of any occupant or user of the structure in the event of a fire,

shall be subject to imprisonment in the state prison for two, three, or four years.

(b) A violation of subdivision (a) which proximately results in great bodily injury or death is a felony punishable by imprisonment in the state prison for five, six, or seven years.

(c) As used in this section, "fire-protection system" includes, but is not limited to, an automatic fire sprinkler system, standpipe system, automatic fixed fire extinguishing system, and fire alarm system.

(d) For purposes of this section, the following definitions shall control:

(1) "Automatic fire sprinkler system" means an integrated system of underground and overhead piping designed in accordance with fire protection engineering standards. The portion of the sprinkler system above ground is a network of specially sized or hydraulically designed piping installed in a building, structure, or area, generally overhead, and to which sprinklers are attached in a systematic pattern. The valve controlling each system riser is located in the system riser or its supply piping. Each sprinkler system riser includes a device for activating an alarm when the system is in operation. The system is normally activated by heat from a fire, and it discharges water over the fire area.

(2) "Standpipe system" means an arrangement of piping, valves, and hose connectors and allied equipment installed in a building or structure with the hose connectors located in a manner that water can be discharged in streams or spray patterns through attached hose and nozzles. The purpose of the system is to extinguish a fire, thereby protecting a building or structure and its contents and occupants. This system relies upon connections to water supply systems or pumps, tanks, and other equipment necessary to provide an adequate supply of water to the hose connectors.

(3) "Automatic fixed fire extinguishing system" means either of the following:

(A) An engineered fixed extinguishing system which is custom designed for a particular hazard, using components which are approved or listed only for their broad performance characteristics. Components may be arranged into a variety of configurations. These systems shall include, but not be limited to, dry chemical systems, carbon dioxide systems, halogenated agent systems, steam systems, high expansion foam systems, foam extinguishing systems, and liquid agent systems.

(B) A pre-engineered fixed extinguishing system is a system where the number of components and their configurations are included in the description of the system's approval and listing. These systems include, but are not limited to, dry chemical systems, carbon dioxide systems, halogenated agent systems, and liquid agent systems.

(4) "Fire alarm system" means a control unit and a combination of electrical interconnected devices designed and intended to cause

an alarm or warning of fire in a building or structure by either manual or automatic activation, or by both, and includes the systems installed throughout any building or portion thereof.

(5) "Structure" means any building, whether private, commercial, or public, or any bridge, tunnel, or powerplant.

(c) A limitation of time prescribed in this chapter does not commence to run until discovery of an offense described in this subdivision. This subdivision applies to an offense punishable by imprisonment in the state prison, a material element of which is fraud or breach of a fiduciary obligation or the basis of which is misconduct in office by a public officer, employee, or appointee, including, but not limited to, the following offenses:

(5) Felony welfare fraud or Medi-Cal fraud in violation of Section 11483 or 14107 of the Welfare and Institutions Code.

(d) If the defendant is out of the state when or after the offense is committed, the prosecution may be commenced as provided in Section 804 within the limitations of time prescribed by this chapter, and no time up to a maximum of three years during which the defendant is not within the state shall be a part of those limitations.

(e) A limitation of time prescribed in this chapter does not commence to run until the offense has been discovered, or could have reasonably been discovered, with regard to offenses under Division 7 (commencing with Section 13000) of the Water Code or Chapter 6.5 (commencing with Section 25100) of Division 20 or Part 4 (commencing with Section 41500) of Division 26 of the Health and Safety Code, or Section 386.

SEC. 3. Section 803 of the Penal Code is amended to read:

SEC. 4. Section 3 of this bill incorporates amendments to Section 803 of the Penal Code proposed by both this bill and AB 1956. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1988, (2) each bill amends Section 803 of the Penal Code, and (3) this bill is enacted after AB 1956, in which case Section 803 of the Penal Code, as amended by AB 1956, shall remain operative only until the operative date of this bill, at which time Section 3 of this bill shall become operative, and Section 2 of this bill shall not become operative.

If the court determines that the person does not have the ability to pay a drug program fee, the person shall not be required to pay a drug program fee.

(c) The county treasurer shall maintain a drug program fund. For every drug program fee assessed and collected pursuant to subdivisions (a) and (b), an amount equal to this assessment shall be deposited into the fund for every conviction pursuant to this chapter, in addition to fines, forfeitures, and other moneys which are transmitted by the courts to the county treasurer pursuant to Sections 11372.5 and 11502. CHAPTER 248

An act to amend Sections 44000, 44031, 44031.5, 44035, 44050, 44051, 44053, 44055, and 44060 of, and to add Section 44030.5 to, the Health and Safety Code, relating to air pollution.

[Approved by Governor July 24, 1987 Filed with Secretary of State July 27, 1987]

SECTION 1. Section 44000 of the Health and Safety Code is amended to read:

44000. It is the intent of the Legislature, in enacting this chapter, to commit the State of California to the steps necessary to commence a biennial motor vehicle inspection and maintenance program in the urban nonattainment areas of the state and, upon the request of a district, in other nonattainment areas.

SEC. 2. Section 44030.5 is added to the Health and Safety Code, to read:

The standards shall include criteria for applications, manuals, textbooks, laboratory equipment, laboratory exercises, hands-on work, examinations, and other matters the department determines necessary for a certified course of instruction.

The standards shall also specify the conditions under which an institution or instructor may be decertified, and under which a decertified institution or instructor may regain certification.

of licenses and qualifications and the conduct of the hearings.

SEC. 6. Section 44050 of the Health and Safety Code is amended to read:

44050. A request for a hearing shall be submitted in writing within 30 days of service of the citation, and shall be delivered to the office of the Bureau of Automotive Repair of the department in Sacramento. Hearings and related procedures under this section shall be conducted in the same manner as proceedings for adjudication of an accusation under that Chapter 5, except as otherwise specified in this article.

(b) If, within 30 days from service of the citation, the licensee or qualified mechanic fails to request a hearing, the citation shall be deemed the final order of the department.

SEC. 9. Section 44055 of the Health and Safety Code is amended to read:

44055. (a) Any failure to comply with the final order of the department for payment of a civil penalty, or to pay the amount specified in any settlement executed by the licensee and the Director of Consumer Affairs, shall result in denial of any application for the renewal of the license. If the surplus exceeds reasonable costs of administration of the program, the department shall, by regulation, prescribe a lower fee for the certificate of compliance or noncompliance.

(b) The sale or transfer of any certificate of compliance or noncompliance by a licensed test station or licensed repair station to any other licensed test station or repair station or any other person, and the purchase or acquisition of any certificate of compliance or noncompliance by any person, other than from the department, the department's designee, or pursuant to a vehicle inspection or repair conducted pursuant to this chapter, is prohibited.

The director may, pending a hearing, suspend or condition the certificate of any pest control aircraft pilot when, upon an investigation that the director determines to be necessary and upon the receipt of affidavits by the enforcement personnel provided in Section 11501.5 or injured parties, the director finds that continuance of the certificate endangers public welfare or safety. The director may terminate the suspension or condition upon the taking of corrective action that the director determines to be satisfactory to assure qualification or compliance with the law or regulations. In that event, the matter may proceed to hearing as though that action had not been taken.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

In addition, a service authority which has entered into one or more leases or lease-purchase agreements for facilities of an emergency motorist aid system may also pledge, as security for the payment of amounts due under such lease or agreements, revenues to be received from those fees. Bond proceeds shall not be used for operation of an emergency motorist aid system for emergency call boxes.

[Approved by Governor July 24, 1987 Filed with Secretary of State July 27, 1987]

The people of the State of California do enact as follows.

SECTION 1. Section 19417.6 is added to the Business and Professions Code, to read:

19417.6. "Appaloosa invitational meeting" means a meeting conducted by an association in which Appaloosa horses would be featured and in which any other breeds invited to participate by the association may race.

19534. (a) Notwithstanding Section 19531 or 19532, the board may allocate up to 100 days of racing to an association licensed to conduct racing for the purpose of conducting an Appaloosa invitational meeting. An Appaloosa invitational meeting may only be held at a racing facility leased from the California Exposition and State Fair, a district agricultural association, or a county fair.

(b) Notwithstanding Section 19414.5, a racing meeting conducted pursuant to this section shall consist of racing weeks of not less than four days.

19596.5. (a) Notwithstanding any other provision of law, the board may authorize an association licensed to conduct a racing meeting in the northern zone to operate a satellite wagering facility at its racetrack inclosure, except during the part of the day the association is conducting racing at its racetrack, if all of the following conditions are met:

(1) The association operating the satellite wagering facility has executed an agreement approved by the board with the association conducting a racing meeting in the northern zone that authorizes parimutuel wagering at the satellite wagering facility. The agreement shall provide that the wagers made at the satellite wagering facility will be included in the appropriate conventional or exotic pool at the racetrack where the racing meeting is conducted. Notwithstanding any other provision of law or any agreement under this subdivision, for purposes of determining license fees and breakage at the racetrack where the racing meeting is conducted, wagers at a satellite facility shall not be included in the conventional

or exotic pools of the association conducting the racing meeting.

(2) The horsemen's organization which represents the horsemen at the association which conducts the racing meeting on which wagers are accepted consents to the acceptance of wagers at the satellite wagering facility.

(3) The accommodations and equipment used in conducting wagering at the satellite wagering facility and their location have been approved by the board.

(4) The method used by the satellite wagering facility to transmit wagers, odds, results, and other data related to wagering has been approved by the board.

(e) Up to 10 percent of all revenues payable to the state from satellite wagering facilities located at fairs shall be deposited in a special account in the General Fund and shall be available, when appropriated by the Legislature, for supplementing purses at fair meetings to achieve the purposes of subdivision (f). The department shall annually determine the percentage of revenues payable to the special account under this subdivision based on the amount necessary to achieve the purposes of subdivision (f).

(f) It is the intent of the Legislature that funds allocated pursuant to subdivision (e) be used primarily at fair racing meetings in the northern zone with a daily average handle of more than three hundred thousand dollars ($300,000). The Legislature further finds that its intent is that these allocations be used to bring the purses at these fairs, exclusive of purses for stakes races and special events, to a level of at least 80 percent of purses for similar classes of horses at private racing associations in the northern zone.

(d) In the event that any association qualified to operate its meeting pursuant to the provisions of this section conducts two separate programs of racing on any day, each such program shall be considered a separate racing day for purposes of determining the daily handle and computing the distribution of license fees, commissions, and purses thereon. For the purposes of this subdivision, a program shall consist of at least nine races.

(e) In addition to any deductions pursuant to this section, every association conducting a racing meeting pursuant to Section 19549.1 shall also deduct an additional 1 percent of its parimutuel pools to be distributed as commissions.

(b) The program is certified by the department pursuant to Section 14541.5.

(c) The program accepts empty beverage containers from consumers with the intent to recycle them, but may pay the redemption value or redemption bonus or both the redemption

If the program pays the redemption value or redemption bonus, or both the redemption value and redemption bonus, the program shall pay the redemption value or redemption bonus, or both the redemption value and redemption bonus, for all types of redeemable beverage containers, regardless of the beverage container's material.

(3) Permit the certificate holder to continue operation as a certified processor or recycling center until a specific date, at which time the revocation or suspension shall become effective.

(4) Permit the certificate holder to continue operation as a certified processor or recycling center on condition of complying with any conditions which the department determines would further the goals of this division.

(5) Impose a civil penalty of not more than one hundred dollars ($100) per violation. Each day that a violation occurs shall be considered a separate violation. The department shall deposit all revenues from civil penalties in the California Beverage Container Recycling Fund.

(c) The department may examine the accounts and records of distributors and beverage manufacturers and assess a penalty of 10

percent per year and interest for underpayments of the redemption value for containers to the California Beverage Container Recycling Fund. The department may also impose a penalty of 15 percent of the amount due for payments up to a month late and a 5 percent additional penalty for each month the payments continue to be unremitted.

(d) The department may examine the accounts and records of any beverage manufacturer which pays a processing fee pursuant to Section 14575. The department may assess a penalty of 10 percent per year and interest for underpayments of the applicable processing fee to the California Beverage Container Recycling Fund. The department may also impose a penalty of 15 percent of the amount due for payments up to a month late and a 5 percent additional penalty for each month the payments continue to be unremitted.

If the department determines that an audit of a beverage manufacturer shows that there has been an underpayment of a processing fee, the department may examine the records of any container manufacturer who supplied the beverage containers to the beverage manufacturer.

SEC. 5. Section 14554 is added to the Public Resources Code, to read:

14554. The department shall establish procedures to protect any proprietary information concerning sales, purchases, and operations obtained while collecting information for carrying out the requirements of this division.

(b) Except as provided in subdivisions (c), (d), and (e), on and after December 31, 1989, a beverage container shall have a redemption value of not less than two cents ($0.02) if both of the following conditions are met for that specific type of beverage container:

(1) For the reporting period beginning January 1, 1989, and ending June 30, 1989, the redemption rate determined pursuant to Section 14551 for that type of beverage container is less than 65 percent.

(2) The average redemption rate for the highest two of any three reporting periods, the third period of which is the period ending June 30, 1989, is less than 65 percent.

(c) Except as provided in subdivisions (b), (d), (e), and (g), if for any two of any three consecutive reporting periods subsequent to December 31, 1987, the redemption rate determined pursuant to Section 14551 for that type of beverage container is less than 65

percent, every beverage container of that type shall have a redemption value of not less than two cents ($0.02) beginning six months after the end of the third reporting period.

(d) Except as provided in subdivisions (e) and (g), on and after December 31, 1992, a beverage container shall have a redemption value of not less than three cents ($0.03) if both of the following conditions are met for that specific type of beverage container:

(1) For the reporting period beginning January 1, 1992, and ending June 30, 1992, that type of beverage container has a redemption value of not less than two cents ($0.02) and the redemption rate determined pursuant to Section 14551 for that type of beverage container is less than 65 percent.

(2) The average redemption rate for the highest two of any four reporting periods, the fourth period of which is the period ending June 30, 1992, is less than 65 percent.

(e) Except as provided in subdivisions (d) and (g), if for any two of any four consecutive reporting periods subsequent to June 30, 1990, the redemption rate of any type of beverage container with a current redemption value of not less than two cents ($0.02) is less than 65 percent, the redemption value of every beverage container of that type shall be increased to not less than three cents ($0.03) beginning six months following the end of the fourth reporting period.

(f) Except as provided in subdivision (g), once any redemption value is established pursuant to subdivision (b), (c), (d), or (e) for any type of beverage container, the redemption value shall not be decreased based upon the redemption rate.

(g) The redemption value of a specific type of beverage container which has had its redemption value established pursuant to subdivision (d) or (e) shall be decreased to not less than two cents ($0.02) if the redemption rate for that type of beverage container is 80 percent or more during all of four consecutive reporting periods. The decrease shall occur six months following the end of the fourth reporting period. If the redemption rate for that type of beverage container thereafter falls below 65 percent for any two of any four consecutive reporting periods, the redemption value for that type of beverage container shall be increased to three cents ($0.03) until a redemption rate of 80 percent or more, during all of four consecutive reporting periods, is established for that type of beverage container.

(h) This section does not apply to any refillable beverage container.

SEC. 7. Section 14561 of the Public Resources Code is amended to read:

14561. (a) On and after September 1, 1987, a manufacturer shall clearly indicate on every beverage container sold or offered for sale by the beverage manufacturer in this state the message "CA Redemption Value" or "California Redemption Value," by either printing or embossing the beverage container or by securely affixing a clear and prominent stamp, label, or other device to the beverage

container. Any refillable beverage container sold or offered for sale is exempt from this subdivision. However, any beverage manufacturer or container manufacturer may place upon, or affix to, a refillable beverage container, any message which they deem appropriate relating to the refund value of the container.

On and after October 1, 1987, no person shall offer to sell, or sell, to a consumer a beverage container which has not been labeled pursuant to this subdivision unless the beverage container is a refillable beverage container which is exempt from this subdivision.

(b) The department may require that any beverage container intended for sale in this state be printed, embossed, stamped, labeled, or otherwise marked with a universal product code or similar machine-readable indicia.

(c) A beverage manufacturer may print, emboss, or label a beverage container in the manner specified in subdivision (a) before September 1, 1987, and a distributor may distribute the beverage container to dealers and consumers before September 1, 1987. Notwithstanding any other provision of law, the department shall require a beverage manufacturer and distributor to pay the department the redemption values and processing fees required by Section 14574 and 14575 for any of these beverage containers sold or transferred to a dealer or consumer before September 1, 1987.

(d) Any container labeled with the "CA Redemption Value" or "California Redemption Value" message shall have the minimum redemption value established pursuant to Section 14560, which shall be paid by the distributor to the department pursuant to Section 14574.

SEC. 8. Section 14561 of the Public Resources Code is amended to read:

14561. (a) On and after August 1, 1987, a manufacturer of beer and other malt beverages shall clearly indicate on every beverage container sold or offered for sale by that beverage manufacturer in this state the message "CA Redemption Value" or "California Redemption Value," by either printing or embossing the beverage container or by securely affixing a clear and prominent stamp, label, or other device to the beverage container.

(b) On and after September 1, 1987, a manufacturer of carbonated mineral and soda waters, and similar carbonated soft drinks in liquid form shall clearly indicate on every beverage container sold or offered for sale by that beverage manufacturer in this state the message " CA Redemption Value" or "California Redemption Value" in the manner prescribed in subdivision (a).

(c) Any refillable beverage container sold or offered for sale is exempt from subdivisions (a) and (b). However, any beverage manufacturer or container manufacturer may place upon, or affix to, a refillable beverage container, any message which they deem appropriate relating to the refund value of the container.

(d) On and after October 1, 1987, no person shall offer to sell, or sell to a consumer a beverage container which has not been labeled

pursuant to this section, except for a refillable beverage container which is exempt from labeling.

(e) The department may require that any beverage container intended for sale in this state be printed, embossed, stamped, labeled, or otherwise marked with a universal product code or similar machine-readable indicia.

(f) A beverage manufacturer of beer and other malt beverages may print, emboss, or label a beverage container in the manner specified in subdivision (a) before August 1, 1987, and a distributor may distribute the beverage container to dealers and consumers before August 1, 1987. Notwithstanding any other provision of law, the department shall require the beverage manufacturer and distributor to pay the department the redemption values and processing fees required by Sections 14574 and 14575 for any of these beverage containers sold or transferred to a dealer or consumer before September 1, 1987.

Notwithstanding any other provision of law, the department shall require the beverage manufacturer and distributor to pay the department the redemption values and processing fees required by Section 14574 and 14575 for any of these beverage containers sold or transferred to a dealer or consumer before September 1, 1987.

(h) Any container labeled with the "CA Redemption Value" or "California Redemption Value" message shall have the minimum redemption value established pursuant to Section 14560, which shall be paid by the distributor to the department pursuant to Section 14574.

SEC. 9. Section 14571.6 of the Public Resources Code is amended to read:

14571.6. On or after January 1, 1988, in any convenience zone where no recycling location has been established which satisfies the requirements of Section 14571, all dealers within that zone shall, until a recycling location has been established in that zone, do one of the following:

(a) Offer to redeem all types of beverage containers.

(b) Pay to the department for deposit in the California Beverage Container Recycling Fund the sum of one hundred dollars ($100) per day until a recycling location is established.

SEC. 10. Section 14571.7 of the Public Resources Code is amended to read:

14571.7. After January 1, 1988, in any convenience zone where a recycling location or locations were initially established, but where the location or locations cease to operate in accordance with Section 14571, the department shall notify all dealers within that

convenience zone that a recycling location is required to be established within 90 days. The department shall offer a convenience incentive payment and the retention of the redemption bonus to one recycling location only. If, within 45 days of the notification, no recycling location has been established which satisfies the requirements of Section 14571, the department shall notify all dealers within that zone, and one or more dealers within that zone shall establish, or cause to be established, a recycling location. If, within 90 days of the initial notification, no recycling location has been established, all dealers within that zone shall, until a recycling location has been established, do one of the following:

(a) Offer to redeem all types of beverage containers.

(b) Pay to the California Beverage Container Recycling Fund the sum of one hundred dollars ($100) per day until a recycling location is established.

SEC. 11. Section 14571.8 of the Public Resources Code is amended to read:

14571.8. (a) If the department determines that Section 14571 cannot be fulfilled in a particular convenience zone due to local zoning or dealer's leasehold restrictions for leases in effect on January 1, 1987, and that these factors are beyond the control of the department and the dealer, the department may establish an alternative minimum convenience requirement for that convenience zone which shall not conflict with the purposes of this division. No lease entered into by a dealer after January 1, 1987, may contain a leasehold restriction that prohibits or results in the prohibition of the establishment of a recycling location.

(b) The director may grant an exemption to the requirements of Section 14571 if all of the following conditions exist:

(1) The director may grant an exemption only for individual convenience zones. The director shall not grant a blanket exemption to areas larger than a single convenience zone.

(2) Exemptions may be granted only to further the purposes of this division.

(3) Exemptions may only be granted after a public hearing by the department.

(4) An exemption may only be granted to prevent the creation of excessive recycling locations resulting in severe adverse local market conditions for recycled materials or if, after a public hearing, a city, county, or city and county requests an exemption for an existing nonprofit recycling center for its location or locations.

(5) The total number of exemptions shall not be more than 10 percent of all the recycling locations which would otherwise be created under this division, as calculated by the department pursuant to Section 14571.

(6) The director shall not grant an exemption which would significantly decrease the ability of consumers to conveniently return beverage containers for the redemption value.

(7) In areas with curbside programs which collect and recycle

beverage containers, the director shall not grant an exemption for the benefit of the curbside program unless the local agency administering the program requests the department to grant an exemption and the program collects and recycles all types of beverage containers from households at least weekly.

SEC. 12. Section 14572 of the Public Resources Code is amended to read:

14572. (a) Except as provided in subdivisions (b) and (c), a certified recycling center shall accept from any consumer or dropoff or collection program any empty beverage container, and shall pay to the consumer or dropoff or collection program the redemption value and any applicable redemption bonus of the beverage container. The center may pay the redemption value and any applicable redemption bonus based on the weight of returned containers.

(b) A recycling center or recycling location may refuse to pay any redemption bonus for a beverage container to a consumer under either of the following circumstances:

(1) If the beverage container is returned to any mechanical device which accepts empty beverage containers and issues a cash refund or redeemable credit slip of not less than the redemption value of the container. The exemption provided by this paragraph shall apply only to beverage containers returned on or before April 1, 1989.

(2) If the recycling center or location was established or caused to be established solely pursuant to Section 14571.3, 14571.4, 14571.5, or 14571.7 and the department authorizes retention of the redemption bonus pursuant to Section 14571.3, 14571.4, 14571.5, or 14571.7.

(c) Any recycling center or processor which was in existence on January 1, 1986, and which refused, as of January 1, 1986, to accept at a particular location a certain type of empty beverage container may continue to refuse to accept at the location the type or types of empty beverage containers that the recycling center or processor refused to accept as of January 1, 1986. Any recycling center which refuses, pursuant to this subdivision, to accept a certain type or types of empty beverage containers shall pay to the consumer the full redemption bonus for containers accepted and is not eligible to receive convenience incentive payments unless the center agrees to accept all types of empty beverage containers. This subdivision does not preclude the recycling center from retaining the redemption bonus or receiving a convenience incentive payment for beverage containers redeemed at locations which do accept all types of containers.

(d) The department shall terminate the authorization for retention of the redemption bonus pursuant to Section 14571.5 or 14571.7 if another recycling location is willing to redeem containers to satisfy the requirements of Section 14571 within the convenience zone without retaining the redemption bonus.

SEC. 13. Section 14573.5 of the Public Resources Code is

amended to read:

14573.5. Except as provided in Section 14573.6, a processor shall pay to a recycling center, dropoff or collection program, curbside program, or nonprofit dropoff program, for all types of empty beverage containers, by type of beverage container, received by the processor from recycling center, curbside program, dropoff or collection program, or nonprofit dropoff program, the sum of all of the following amounts:

(a) The redemption value.

(b) The applicable redemption bonus.

(c) One percent of the redemption value for administrative costs.

(d) The portion of the processing fee established pursuant to Section 14575 representing the actual cost and financial return incurred by the recycling center, as determined by the department.

The processor shall make this payment within two working days of the date the processor receives these empty beverage containers, or within the time which the department determines to be necessary and adequate. A processor may authorize a redemption center to crush and compact beverage containers before the processor receives the containers.

SEC. 14. Section 14575 of the Public Resources Code is amended to read:

14575. (a) If any type of empty beverage container with a redemption value established pursuant to Section 14560 has a scrap value less than the sum of paragraphs (1) and (2), the department shall establish a processing fee for the container, by the type of the material of the container, at least equal to the difference between the scrap value offered by a statistically significant sample of container manufacturers, beverage manufacturers, or willing purchasers, for each container sold by the beverage manufacturer, and the sum of both of the following:

(1) The actual cost of receiving, handling, processing, storing, transporting, and maintaining equipment for each container sold for recycling or, only if the container is not recyclable, for disposal, calculated pursuant to subdivision (b).

(2) A reasonable financial return for recycling centers and processors, calculated pursuant to subdivision (b).

(b) The department shall calculate a statewide average value for the amounts specified in paragraphs (1) and (2) of subdivision (a) for each type of material of the container sold and the processing fee specified in subdivision (a) at least annually and whenever the statewide average scrap value changes by more than 15 percent, or more frequently if necessary, based on audited surveys of the costs specified in subdivision (a) at existing certified recycling centers, reverse vending machines, and processors, with standardized modifications for transportation distances and factors specific to a particular region, as determined by the department, and only if the container is not recyclable, local disposal fees. The processing fee shall be calculated in a manner which furthers the purposes of this

division and the fee shall be sufficient to establish sufficient recycling locations and processors to achieve the goals established pursuant to subdivision (c) of Section 14501 and Section 14571.

(c) Every beverage manufacturer shall pay to the department the applicable processing fee for each container sold or transferred to a distributor or dealer within 40 days of the sale in the form and in the manner which the department may prescribe. The department shall pay the processing fees collected on redeemed containers to processors, in the same manner as it pays redemption values pursuant to Sections 14573 and 14573.5. The department shall pay the processing fees collected on unredeemed containers into the Redemption Bonus Account created pursuant to Section 14580. The department shall not use processing fees collected on unredeemed beverage containers to pay all or a portion of the processing costs determined pursuant to subdivision (a). The processor shall pay the recycling center that portion of the processing fee representing the actual cost and financial return incurred by the recycling center, as specified in subdivision (a).

(d) When assessing processing fees pursuant to subdivision (b), the department shall assess the processing fee on each container sold, by the type of material of the container, assuming that every container sold will be redeemed for recycling, whether or not the container is actually recycled. When calculating and assessing processing fees the department also shall not assume that redemption bonuses will be kept by recycling centers or locations.

(e) If there are no recycling locations within a convenience zone meeting the requirements of Section 14571, the department shall examine the level of the scrap values and determine whether the department is in compliance with this section. If the department is not in compliance with this section, the department shall recalculate the processing fee pursuant to this section.

(f) The container manufacturer, or a designated agent, shall pay to, or credit, the account of the beverage manufacturer in an amount equal to the processing fee. The payment or credit shall be made no later than the date upon which the container manufacturer, or a designated agent, submits the invoice to the beverage manufacturer.

SEC. 15. Section 14581 of the Public Resources Code is amended to read:

14581. (a) The department shall calculate the redemption bonus amount, pursuant to subdivision (b), by deducting the following amounts from the Redemption Bonus Account, for which purpose the department may expend money from the Redemption Bonus Account:

(1) The department shall expend 10 percent of the amount deposited in the Redemption Bonus Account during the previous three months for urban, rural, and recreational litter abatement and recycling activities. These funds shall be expended by contract with local conservation organizations. Three-quarters of this 10 percent shall be expended in the form of grants, as specified by the

department, to certified community conservation corps, either existing or those established in the future, designated by a city or a city and county to perform litter abatement, recycling, and related activities, if the city or the city and county has a population, as determined by the last federal census, of more than 250,000 persons. (3) From the remaining balance in the Redemption Bonus Account, the department shall determine the redemption bonus by dividing the balance in the Redemption Bonus Account by the number of containers redeemed during the previous quarter or other period determined pursuant to paragraph (1). The department shall calculate the redemption bonus so that all funds shall be passed entirely to processors in a prompt and efficient manner and that the redemption bonus amount will further the purposes of this division.

(4) For the first two quarters, beginning October 1, 1987, and ending March 31, 1988, the redemption bonus shall be determined by the department after consultation with the committee.

(5) The department may round any redemption bonus to the nearest one-tenth or one-quarter of a cent.

(6) The department may make convenience incentive payments to the operators of recycling locations through processors or directly, at the department's discretion, in the same manner as the department pays redemption values, redemption bonuses, and processing fees to recycling locations.

(b) For each payment established pursuant to subdivision (a), the department shall determine whether the convenience incentive payment may be retained by the reycling center or is to be paid to consumers who redeem beverage containers in the convenience zone covered by the payment.

[Approved by Governor July 24, 1987 Filed with Secretary of State July 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1373 of the Health and Safety Code is amended to read:

1373. (a) A plan contract may not provide an exception for other coverage where the other coverage is entitlement to Medi-Cal benefits under Chapter 7 (commencing with Section 14000) or Chapter 8 (commencing with Section 14200) of Part 3 of Division 9 of the Welfare and Institutions Code.

Each plan contract shall be interpreted not to provide an exception for the Medi-Cal benefits.

A plan contract may not provide that the benefits payable thereunder are subject to reduction if the individual insured has entitlement to the Medi-Cal benefits.

(b) A plan contract which provides coverage, whether by specific benefit or by the effect of general wording, for sterilization operations or procedures shall not impose any disclaimer, restriction on, or limitation of, coverage relative to the covered individual's reason for sterilization.

As used in this section, "sterilization operations or procedures" shall have the same meaning as that specified in Section 10120 of the Insurance Code.

(c) Every plan contract which provides coverage to family members or dependents of the subscriber or enrollee shall grant immediate accident and sickness coverage, from and after the moment of birth, to each newborn infant of any subscriber or enrollee covered and to each minor child placed for adoption from and after the moment the child is placed in the physical custody of the covered subscriber or enrollee for adoption. No such plan may be entered into or amended if it contains any disclaimer, waiver, or other limitation of coverage relative to the coverage or insurability of newborn infants of, or children placed for adoption with, a subscriber or enrollee covered as required by this subdivision.

(d) Every plan contract which provides that coverage of a dependent child of a subscriber shall terminate upon attainment of the limiting age for dependent children specified in the plan, shall also provide in substance that attainment of the limiting age shall not operate to terminate the coverage of the child while the child is and continues to be both (1) incapable of self-sustaining employment by reason of mental retardation or physical handicap and (2) chiefly

dependent upon the subscriber for support and maintenance, provided proof of the incapacity and dependency is furnished to the plan by the member within 31 days of the request for such information by the plan or group plan contract holder and subsequently as may be required by the plan or group plan contract holder, but not more frequently than annually after the two-year period following the child's attainment of the limiting age.

(e) A plan contract which provides coverage, whether by specific benefit or by the effect of general wording, for both an employee and one or more covered persons dependent upon the employee and provides for an extension of the coverage for any period following a termination of employment of the employee shall also provide that this extension of coverage shall apply to dependents upon the same terms and conditions precedent as applied to the covered employee, for the same period of time, subject to payment of premiums, if any, as required by the terms of the policy and subject to any applicable collective bargaining agreement.

(f) A group contract shall not discriminate against handicapped persons or against groups containing handicapped persons. Nothing in this subdivision shall preclude reasonable provisions in a plan contract against liability for services or reimbursement of the handicap condition or conditions relating thereto, as may be allowed by rules of the commissioner.

(g) Every group contract shall set forth the terms and conditions under which subscribers and enrollees may remain in the plan in the event the group ceases to exist, the group contract is terminated or an individual subscriber leaves the group, or the enrollees' eligibility status changes.

(h) (1) A health care service plan or specialized health care service plan may provide for coverage of, or for payment for, professional mental health services, or vision care services, or for the exclusion of such services. If the terms and conditions include coverage for services provided in a general acute care hospital or an acute psychiatric hospital as defined in Section 1250 and do not restrict or modify the choice of providers, the coverage shall extend to care provided by a psychiatric health facility as defined in Section 1250.2 operating pursuant to licensure by the State Department of Health Services or pursuant to a waiver of licensure by the State Department of Mental Health. A health care service plan that offers outpatient mental health services but does not cover such services in all of its group contracts shall communicate to prospective group contract holders as to the availability of outpatient coverage for the treatment of mental or nervous disorders.

(2) No plan shall prohibit the member from selecting any psychologist who is licensed pursuant to the Psychology Licensing Law or, any optometrist who is the holder of a certificate issued pursuant to Chapter 7 (commencing with Section 3000) of Division 2 of the Business and Professions Code or, upon referral by a physician and surgeon licensed pursuant to the Medical Practice Act,

(3) Nothing in this section shall be construed to allow any certificate holder or licensee enumerated in this section to perform professional mental health services beyond his or her field or fields of competence as established by his or her education, training and experience.

(4) For the purposes of this section, "marriage, family and child counselor" means a licensed marriage, family and child counselor who has received specific instruction in assessment, diagnosis, prognosis, and counseling, and psychotherapeutic treatment of premarital, marriage, family and child relationship dysfunctions which is equivalent to the instruction required for licensure on January 1, 1981.

(5) Nothing in this section shall be construed to allow a member to select and obtain mental health or psychological or vision care services from a certificate or license holder who is not directly affiliated with or under contract to the health care service plan or specialized health care service plan to which the member belongs. All health care service plans and individual practice associations which offer mental health benefits shall make reasonable efforts to make available to their members the services of licensed psychologists. However, a failure of a plan or association to comply with the requirements of the preceding sentence shall not constitute a misdemeanor.

(6) As used in this subdivision, "individual practice association" means an entity as defined in subsection (5) of Section 1307 of the federal Public Health Service Act (subs. (5), Sec. 300e-1, 42 U.S.C.).

(7) Health care service plan coverage for professional mental health services may include community residential treatment services which are alternatives to inpatient care and which are directly affiliated with the plan or to which enrollees are referred by providers affiliated with the plan.

(i) If the plan utilizes arbitration to settle disputes, the plan contracts shall set forth the type of disputes subject to arbitration, the process to be utilized, and how it is to be initiated.

(j) A plan contract which provides benefits that accrue after a certain time of confinement in a health care facility shall specify what constitutes a day of confinement or the number of consecutive hours of confinement which are requisite to the commencement of benefits.

SEC. 2. Section 10119 of the Insurance Code is amended to read:

10119. On and after the operative date of this section:

(a) No policy of disability insurance which, in addition to covering the insured, also covers members of the insured's immediate family, may be issued or amended in this state if it contains any disclaimer, waiver, or other limitation of coverage relative to the accident and sickness coverage or insurability of newborn infants of an insured from and after the moment of birth or of any minor child placed with an insured for adoption from and after the moment the child is placed in the physical custody of the insured for adoption.

(b) Each such policy of disability insurance shall contain a provision granting immediate accident and sickness coverage to each newborn infant of, and each minor child placed for adoption with, any insured as required by subdivision (a).

SEC. 3. Section 10121 of the Insurance Code is amended to read:

10121. (a) No self-insured employee welfare benefit plan, issued or renewed on or after the effective date of this section, which contains coverage for sterilization operations or procedures, shall impose any disclaimer, restriction on, or limitation of, coverage relative to the covered individual's reason for sterilization. All such plans entered into or renewed on or after the effective date of this section shall be construed to be in compliance with this section, and any provision in any such plan which is in conflict with this section shall be of no force or effect.

(b) Every self-insured employee welfare benefit plan issued or amended on or after the operative date of the amendments to this section enacted at the 1971 Regular Session of the Legislature which provides benefits to the employee's dependents, shall contain a provision granting immediate accident and sickness coverage, from and after the moment of birth, to each newborn infant of any family covered and to each minor child placed for adoption from and after the moment the child is placed in the physical custody of the covered family for adoption. No such plan may be issued or amended if it contains any disclaimer, waiver, or other limitation of coverage relative to the coverage or insurability of newborn infants of or minor children placed for adoption with a family covered as required by this section. Coverage of minor children placed for adoption with a covered family shall be required only after the effective date of the amendment requiring that coverage.

(c) No self-insured employee welfare benefit plan which provides maternity benefits for a person covered continuously from conception shall be issued, amended, delivered, or renewed in this state on or after July 1, 1976, if it contains any exclusion, reduction, or other limitations as to coverage, deductibles, or coinsurance

provisions as to involuntary complications of pregnancy, unless such provisions apply generally to all benefits paid under the plan. If a fixed amount is specified in such plan for surgery, the fixed amounts for surgical procedures involving involuntary complications of pregnancy shall be commensurate with other fixed amounts payable for procedures of comparable difficulty and severity. In a case where a fixed amount is payable for maternity benefits, involuntary complications of pregnancy shall be deemed an illness and entitled to benefits otherwise provided by the plan. Where the plan contains a maternity deductible, the maternity deductible shall apply only to expenses resulting from normal delivery and cesarean section delivery; however, expenses for cesarean section delivery in excess of the deductible shall be treated as expenses for any other illness under the plan. This subdivision shall apply to all self-insured employee welfare benefit plans except any such plan made subject to an applicable collective bargaining agreement in effect before July 1, 1976.

For purposes of this subdivision, involuntary complications of pregnancy shall include, but not be limited to, puerperal infection, eclampsia, cesarean section delivery, ectopic pregnancy, and toxemia.

All plans subject to this subdivision and issued, amended, delivered, or renewed in this state on or after July 1, 1976, shall be construed to be in compliance with this section, and any provision in any such plan which is in conflict with this section shall be of no force or effect.

(d) Every self-insured employee welfare benefit plan issued or amended on or after January 1, 1987, which provides benefits to the employee's dependents, shall offer a choice to all employees of coverage for comprehensive preventive health care for children.

(e) For purposes of this section, benefits for the comprehensive preventive care of children shall be consistent with the Guidelines for Health Supervision of Children and Youth, as adopted by the American Academy of Pediatrics in May 1982, and provide for the following:

11512.1. (a) Family hospital service contracts may be issued to a family consisting of an individual and one or more persons

dependent upon him or her and may include his or her spouse whether or not dependent upon him or her. Such contracts shall contain a provision to the effect that to the family originally covered may be added from time to time all new members of the family group eligible for coverage and that the head of the family shall give the corporation notice of the addition to the family of any person eligible for coverage under the contracts.

(b) No such contract which contains coverage for sterilization operations or procedures may be entered into or renewed on or after the effective date of the amendments to this section enacted at the 1970 Regular Session if it imposes any disclaimer, restriction on, or limitation of coverage relative to the insured's reason for sterilization. (c) No such contract which contains coverage for both an employee and one or more covered persons dependent upon such employee and provides for an extension of coverage for any period following a termination of employment of the employee may be entered into or renewed on or after the operative date of the amendments to this section enacted at the 1971 Regular Session of the Legislature if it does not also provide that such extension of coverage shall apply to dependents upon the same terms and conditions precedent as applied to the covered employee, for the same period of time, subject to payment of premiums, if any, as required by the terms of the policy and subject to any limitations or conditions set forth in any applicable collective bargaining agreement. All such contracts entered into or renewed on or after the operative date of such amendments shall be construed to be in compliance with this section, and any provision in any such contract which is in conflict with this section shall be of no force or effect.

(d) Every such contract entered into or amended in this state on or after the operative date of the amendments to this section enacted at the 1971 Regular Session of the Legislature shall contain a provision granting immediate accident and sickness coverage, from and after the moment of birth, to each newborn infant of any family covered and to each minor child placed for adoption from and after the moment the child is placed in the physical custody of the covered family for adoption. (b) Whenever the board of directors determines that a zone of benefit should be formed for the purposes set forth in this act, the board shall adopt a resolution of intention which shall state the following:

(1) The intention of the board to form the proposed zone of benefit.

(2) The purpose for which the proposed zone of benefit is to be formed.

(3) The estimated expense of carrying out the purpose, if known.

(4) That assessments for carrying out the purpose shall be levied exclusively upon the lands in the proposed zone of benefit.

(7) That at the time and place specified any interested person, including all persons owning land in the district or in the proposed zone of benefit, may appear and be heard.

(c) Notice of the hearing shall be given by publishing a copy of the resolution of intention in a newspaper of general circulation published in the agency, pursuant to Section 6066 of the Government Code, the first publication to be at least 14 days prior to the time fixed for the hearing.

(d) At the time and place so fixed, or at any time or place to which the hearing is continued, the board of directors shall hold the hearing provided for by the resolution of intention, at which time any interested person may appear and be heard concerning any matter set forth in the resolution of intention or any matters material thereto. Upon the conclusion of the hearing, the board may abandon the proposal, modify it, or proceed with the proposal unless prior to the conclusion of the hearing, or any continued hearing, written protests against the proposal signed by a majority in number of the eligible voters within the proposed zone of benefit shall be filed with the board, in which event further proceedings relating to the proposal shall be suspended for not less than six months following the date of the conclusion of the hearing.

(e) At the conclusion of the hearing, the board of directors may, by resolution, order the zone of benefit formed for the purpose and with the exterior boundaries described therein. The resolution ordering formation shall state the estimated expense of carrying out the purpose described therein, if known. The resolution shall also number and designate the zone of benefit substantially as "Zone of Benefit Number _____ of the Mendocino County Water Agency."

SEC. 6. Section 8.6 is added to the Mendocino County Flood Control and Water Conservation District Act (Chapter 995 of the Statutes of 1949), to read:

Sec. 8.6. After a zone has been formed, the board of directors may, by resolution, order the creation of a zone council within the zone. The resolution shall set forth the number of members of the

council and their term of office. The zone council for a zone which consists entirely of the territory of an incorporated city may be comprised of the city council of the incorporated city. The members of all other zone councils shall be eligible voters of the zone in which the council is established and shall be elected to the council by the eligible voters of the zone. The resolution establishing the zone council shall set forth the procedure for conducting the election.

(b) Members of the zone council shall take office immediately upon certification of their election, filing of the official oath, and execution of a bond, if any, in an amount set by the board of directors. At its first meeting, the zone council shall elect from its members a chairperson and a vice chairperson and shall fix their terms of office. A majority of the zone council shall constitute a quorum for the transaction of business. The vote of a majority of the zone council members present at any meeting attended by a quorum shall be necessary to take action, unless otherwise specified in this act. Meetings of the zone council shall be conducted in accordance with the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code). The zone council shall, by resolution, set the time and place for holding regular meetings. Zone councils shall receive compensation, if any, in an amount set by the board of directors.

(c) The purpose of a zone council is to assist the board of directors in the planning, acquisition, construction, operation, maintenance, and administration of projects within the zone in which it is established, and to coordinate the activity of the agency within the zone with the activities of other public entities within the zone. The board of directors shall determine the specific responsibilities and powers of a zone council and may delegate to the zone council any of the authority of the board with respect to the planning, acquisition, construction, operation, maintenance, or administration of a project within the zone.

(d) In the case of projects for the benefit of two or more zones, the board of directors may establish a participating zone council for the project, selected by either (1) the appointment by each zone council of an equal number of representatives selected from its membership, with one additional member of the participating zone council to be appointed by the board of directors or mutually selected by the two affected zone councils, or (2) any other method mutually agreed upon by the two affected zone councils.

(e) A zone council or a participating zone council shall be dissolved upon four-fifths of all members of the board of directors or upon a majority vote of all of the members of the board of directors and a majority vote of all of the members of the zone council.

SEC. 7. Section 8.7 is added to the Mendocino County Flood Control and Water Conservation District Act (Chapter 995 of the Statutes of 1949), to read:

Sec. 8.7. (a) The board of directors shall determine which projects shall be carried out and shall determine, as to each project,

that it is either: (1) for the common benefit of the agency as a whole, or (2) for the benefit of a single zone, whether in existence or not, or (3) for the common benefit of participating zones, whether in existence or not.

(b) The agency may institute countywide projects, projects for single zones, and joint projects for participating zones for studying, planning, financing, constructing, acquiring, maintaining, operating, extending, or repairing any work of common benefit to the district as a whole, to the zone, or to the participating zones, as the case may be. All powers of the agency may be exercised or performed on behalf of and within a zone. Before proceeding with any project, the board of directors shall adopt a resolution of intention setting forth the proposed boundaries designating the benefited area and stating its intention to undertake the project, together with an estimate of the cost of the project to be borne by the agency as a whole, or a particular zone, or participating zones, as the case may be, and fixing a time and place for public hearing on the resolution. The resolution shall refer to a map or maps showing the general location of the project and shall generally describe the project. Notice of the hearing shall be given in the same manner as for a resolution of intention to form a zone of benefit. The proceedings on the resolution proposing the project may be consolidated with the proceedings on a resolution proposing formation of a zone of benefit.

(c) The hearing may be consolidated with a hearing on the formation of a zone, the issuance of special benefit bonds, or the levy of benefit assessments affecting the same area. At the time and place so fixed, or at any time or place to which the hearing is continued, the board of directors shall hold the hearing provided for by the resolution, at which time any interested person may appear and be heard concerning any matter set forth in the resolution or any matters material thereto. Upon the conclusion of the hearing, the board may abandon the proposal, modify it, order an election on the proposal within the area affected, or proceed with the proposal, unless prior to the conclusion of the hearing, or any continued hearing, written protests against the proposal signed by a majority in number of the eligible voters within the affected area shall be filed with the board, in which event further proceedings relating to the proposal shall be suspended for not less than six months following the date of the conclusion of the hearing. The board of directors shall not proceed with the proposal without an election unless a majority in number of the eligible voters within the affected area have filed with the board written consent to the proposal. If the election is held, a majority of the votes cast at the election shall be required to approve the proposal.

SEC. 8. Section 12.5 is added to the Mendocino County Flood Control and Water Conservation District Act (Chapter 995 of the Statutes of 1949), to read:

Sec. 12.5. (a) The agency shall be authorized to levy benefit assessments on an agencywide basis or within any zone or

participating zone. The benefit assessment may be levied in any manner which reasonably reflects the benefit that will accrue to the area being assessed for the purpose of the assessment, including, but not limited to: (1) per acre or fraction thereof basis, or (2) for benefit assessments related to drain, storm, or flood control purposes, the proportionate water runoff from each parcel assessed.

(b) Benefit assessments may be levied for expenditures made, or expenditures estimated to be required during the next calendar or fiscal year, for any lawful purpose of the agency, including, but not limited to, the following purposes:

(2) The formation and administrative expenses of any zone.

(3) Engineering and other expenses in connection with the investigation and preparation of a resource management plan or plan for a work or project.

(4) Acquisition or construction of any work or project.

(5) Operation and maintenance of any work or project.

The revenues derived from the benefit assessment shall be used for no purpose other than the purpose specified at the time of levy of the assessment.

(c) The board of directors may adopt a resolution of intention to levy a special benefit assessment on land only. The resolution shall set forth the proposed amount, manner of levy, and purpose of the proposed benefit assessment and designate by a map or otherwise the boundaries of the area proposed for assessment, and shall designate a time and place of hearing on the resolution.

(d) Notice of the hearing shall be given by publishing a copy of the resolution of intention in a newspaper of general circulation published in the agency pursuant to Section 6066 of the Government Code, the first publication to be at least 14 days prior to the time fixed for the hearing.

(e) At the time and place so fixed, or at any time or place to which the hearing is continued, the board of directors shall hold the hearing provided for by the resolution, at which time any interested person may appear and be heard concerning any matter set forth in the resolution or any matters material thereto. Upon the conclusion of the hearing, the board may terminate further proceedings on the proposed assessment, modify the proposed assessment, order an election on the assessment within the area to be assessed, or levy the assessment, unless prior to the conclusion of the hearing, or any continued hearing, written protests against the proposed assessment signed by a majority in number of the eligible voters within the area to be assessed shall be filed with the board, in which event further proceedings relating to the proposed assessment shall be suspended for not less than six months following the date of the conclusion of the hearing. The board of directors shall not levy the assessment without an election unless a majority in number of the eligible voters within the affected area have filed with the board written consent to levy the assessment. If an election is held, a majority of the votes

cast in the area to be assessed shall be required to approve the assessment.

(f) After its approval, the benefit assessment shall be levied, collected, and enforced at the same time and in the same manner as county taxes.

SEC. 9. Section 34 of the Mendocino County Flood Control and Water Conservation District Act (Chapter 995 of the Statutes of 1949) is amended to read:

Sec. 34. This act shall be known and may be cited as the "Mendocino County Water Agency Act."

CHAPTER 267

An act to add Section 220.5 to the Revenue and Taxation Code, relating to taxation.

[Approved by Governor July 24, 1987 Filed with Secretary of State July 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 220.5 is added to the Revenue and Taxation Code, to read:

220.5. (a) Aircraft of historical significance shall be exempt from taxation.

(b) The exemption provided in subdivision (a) shall only apply if all of the following conditions are satisfied:

(1) The assessee is an individual owner who does not hold the aircraft primarily for purposes of sale.

(2) The assessee does not use the aircraft for commercial purposes or general transportation.

(3) The aircraft is available for display to the public at least 12 days during the 12-month period immediately preceding the lien date for the year for which the exemption is claimed. If the aircraft was first made available for public display less than 12 days prior to the lien date, the exemption may be granted if the claimant certifies in writing that the aircraft will be made available for public display at least 12 days during the 12-month period commencing with the first day the property was made available for public display.

(c) When claiming an exemption pursuant to this section, the claimant shall provide all information required and answer all questions contained in an affidavit furnished by the assessor. The claimant shall sign and swear to the accuracy of the contents of the affidavit before either a notary public or the assessor or his or her designee, at the claimant's option. The assessor may require additional proof of the information or answers provided in the affidavit before allowing the exemption.

(d) For purposes of this section, "aircraft of historical

significance" means any aircraft which is an original, restored, or replica of a heavier than air powered aircraft which is 35 years or older or any aircraft of a type or model of which there are fewer than five in number known to exist worldwide.

(e) A fee of thirty-five dollars ($35) shall be charged and collected by the assessor upon the initial application for an exemption pursuant to this section.

SEC. 2. Section 1 of this act applies to the 1987–88 fiscal year and fiscal years thereafter.

SEC. 3. Notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made by this act, and the state shall not reimburse any local agency for any property tax revenues lost by it under this act.

CHAPTER 268

An act to amend Section 39311.5 of the Education Code, relating to education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 24, 1987. Filed with Secretary of State July 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) The public schools of Fresno County face the incalculable loss of public television station KMTF, Channel 18, a valuable educational resource in the area for several years, unless the affected educational agencies of the county are authorized to transfer the property and license of the station to a nonprofit corporation willing to continue its operation.

(b) Due to legal complications and fiscal problems, the Fresno County Board of Education and the County Superintendent of Schools can no longer continue the operation of Channel 18.

(c) Teachers in Fresno public schools have consistently utilized the programming of Channel 18, to enhance their respective school instructional programs, and to provide home and classroom assignments, and continuance of Channel 18 will confer a substantial benefit upon the Fresno public schools.

(d) A transfer as provided in this act will also enable the Fresno public schools to eliminate a program which has constituted an economic drain upon their fiscal affairs, while facilitating the continuance of that program at no ongoing cost to the public schools.

SEC. 2. The Fresno County Board of Education, the County Superintendent of Schools, and any other affected public agency may, after holding at least one open and public hearing regarding the

matter, transfer, for the consideration of one dollar ($1) or more, any or all of the property and licenses connected with KMTF, Channel 18, in Fresno County, to a nonprofit corporation.

SEC. 3. No public agency shall be held liable, and no officer or employee of a public agency shall be held personally liable, for any damage or injury resulting from the transfer of property authorized by this act. No action concerning that transfer may be filed in any court of this state more than 45 days after the date of the transfer.

SEC. 4. Due to the unique circumstances surrounding the present status of television station KMTF, Channel 18, in Fresno County, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 5. Section 39311.5 of the Education Code is amended to read:

39311.5. If, at an election held pursuant to Section 39308 or 39311 on November 8, 1977, a majority of the electors voting on the proposition voted "Yes," the governing board may call an election pursuant to this section.

Within 10 days after the governing board has adopted a resolution pursuant to Section 39315, it shall call an election pursuant to this section. The governing board of the district shall call, hold, and conduct an election in the manner provided in Section 42202, as it existed on November 8, 1977, except that the ballot used in the election shall contain substantially the words: "Shall the governing board of the district lease [a site (sites) and] a building [buildings] to be constructed for use by the school district [designating the location of the site or sites on which the building or buildings will be constructed and generally describing the building or buildings and the cost thereof] and for those purposes, shall the tax rate increase authorized on November 8, 1977, be used solely and exclusively for those purposes in addition to those approved by the majority of electors on the election held pursuant to Section 39308 or 39311 on November 8, 1977?"

If, at an election held pursuant to this section, the proposition is approved, the district may enter into one or more leases or agreements pursuant to this section and this article, pursuant to which the tax rate increase authorized on November 8, 1977, may be used solely and exclusively for the purposes approved at that election in addition to those approved at the election held on November 8, 1977. Those additional purposes shall include the acquisition of a site or sites and the preparation of plans and specifications for the building or buildings designated in the ballot proposition.

It is the intent of the Legislature in enacting this section to provide that the authorization for the levy of the tax shall be the original authorization approved on November 8, 1977, modified to the extent approved by the voters at the election held pursuant to this section.

It is the further intention of the Legislature in enacting this section to supply the legislative authorization necessary to validate any acts

and proceedings heretofore taken in connection with an election held pursuant to, or under color of, this section that could have been supplied through the enactment of this section.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The transfer of property authorized by this act must be made at the earliest possible time in order to continue the operation of KMTF, Channel 18, in Fresno County. Further, in order to enable school districts to proceed pursuant to Section 39311.5 of the Education Code to meet the public building needs of their pupils rather than awaiting future remedial action, it is necessary for this act to take effect immediately.

CHAPTER 269

This subdivision does not prevent the cooperative effort of two or more vessel operators or their crews working together with one net if each operator has complied with the notification requirement in subdivision (b).

(b) An observer who is an employee of the department shall inspect any bait operation and may halt that operation if the operation cannot be conducted without adversely affecting the game species of the bay. 190000. The division shall be known and may be cited as the San Bernardino County Transportation Sales Tax Act.

190001. The Legislature hereby finds and declares all of the following:

(a) Recognizing the scarcity of resources available for all transportation development, alternative methods of financing provided in this division are needed to finance the cost of constructing, developing, acquiring, and maintaining and providing highways, streets, roads, and public transportation services in the

(b) It is the intent of the Legislature, in enacting this division, that the County of San Bernardino continue to receive its equitable share of funds under the state transportation improvement program and that incentives be provided to reward rather than to penalize counties that adopt local sales tax measures.

(c) It is in the public interest to allow the voters of San Bernardino County to adopt a specific revenue source and to authorize new duties for the San Bernardino County Transportation Commission so that local decisions can be implemented in a timely manner to provide improvements to the transportation system.

These purposes include expenditures for the planning, environmental reviews, engineering and design costs, and related right-of-way acquisition.

(c) The ordinance shall contain an expenditure plan which shall include the allocation of revenues for the purposes authorized by this section and shall include, at a minimum, the following provisions:

(1) The proportional distribution of the revenues among various purposes.

(2) The specific projects to be funded under the state highway and freeway portion. Following adoption of the ordinance by the voters, the plan may only be amended, if required, by the following process:

190307.5. Any increase or reduction in the tax rate adopted pursuant to Section 190306 or 190307 shall become effective on the first day of the calendar quarter which commences at least 120 days following the date of the commission's vote approving the increased or reduced rate.

amount of bonds outstanding at any one time does not include the amount of bonds, refunding bonds, or bond anticipation notes for which funds necessary for the payments thereof have been set aside for that purpose in a trust or escrow account.

(c) The proposition shall set forth the actual percent of the tax.

(d) The proposition shall set forth the duration of the tax if the plan specifies a time limit.

(e) The proposition shall set forth the amount of bonds, if any, payable from the proceeds of the tax.

(f) The proposition shall set forth the commission as the agency imposing the tax.

(g) The proposition shall set forth the appropriations limit of the commission pursuant to Section 4 of Article XIII B of the California Constitution.

190309. (a) The bonds authorized by the voters concurrently with the approval of the retail transactions and use tax may be issued at any time by the commission and shall be payable from the proceeds of the tax. The bonds shall be referred to as "limited tax bonds."

The bonds may be secured by a pledge of revenues from the proceeds of the tax.

(b) The pledge of the tax to the limited tax bonds authorized under this chapter shall have priority over the use of any of the tax for "pay-as-you-go" financing, except to the extent that that priority is expressly restricted in the resolution authorizing the issuance of the bonds.

190310. Limited tax bonds shall be issued pursuant to a resolution adopted at any time by a two-thirds vote of the commission. Each resolution shall provide for the issuance of bonds in the amounts as may be necessary, until the full amount of bonds authorized have been issued. The full amount of bonds may be divided into two or more series and different dates of payment fixed for the bonds of each series. A bond need not mature on its anniversary date.

(b) The resolution may also contain any other matters authorized by this chapter or any other law.

190312. The bonds shall bear interest at a rate or rates not exceeding the maximum allowable by law, payable at intervals determined by the commission, except that the first interest payable on the bonds, or any series thereof, may be for any period not exceeding one year, as determined by the commission.

In the resolution authorizing the issuance of the bonds, the commission may also provide for the call and redemption of the bonds prior to maturity at the times and prices and upon other terms as specified. However, no bond is subject to call or redemption prior to maturity, unless it contains a recital to that effect or unless a statement to that effect is printed.

190314. The principal of, and interest on, the bonds shall be payable in lawful money of the United States at the office of the treasurer of the commission, or at other places as may be designated, or at both the office and other places at the option of the holders of the bonds.

190318. All accrued interest and premiums received on the sale of the bonds shall be placed in the fund to be used for the payment of the principal of, and interest on, the bonds, and the remainder of the proceeds of the bonds shall be placed in the treasury of the commission and applied to secure the bonds or for the purposes for which the debt was incurred. However, when the purposes have been accomplished, any money remaining shall be either (a) transferred to the fund to be used for the payment of principal of, and interest on, the bonds or (b) placed in a fund to be used for the purchase of the outstanding bonds in the open market at prices and in the manner, either at public or private sale or otherwise, as determined by the commission. Bonds so purchased shall be canceled immediately.

190319. (a) The commission may provide for the issuance, sale, or exchange of refunding bonds to redeem or retire any bonds issued by the commission upon the terms, at the times and in the manner which it determines.

(b) Refunding bonds may be issued in a principal amount sufficient to pay all, or any part of, the principal of the outstanding bonds, the premiums, if any, due upon call and redemption thereof prior to maturity, all expenses of the refunding, and either of the following:

(1) The interest upon the refunding bonds from the date of sale thereof to the date of payment of the bonds to be refunded out of the proceeds of the sale of the refunding bonds or to the date upon which the bonds to be refunded will be paid pursuant to call or agreement with the holders of the bonds.

The bond anticipation notes shall be issued and sold in the same manner as the bonds.

(d) The bond anticipation notes and the resolutions authorizing them may contain any provisions, conditions, or limitations which a resolution of the commission may contain.

190321. Any bonds issued under this chapter are legal investment for all trust funds; for the funds of insurance companies, commercial and savings banks, and trust companies; and for state school funds; and whenever any money or funds may, by any law now or hereafter enacted, be invested in bonds of cities, counties, school districts, or other districts within the state, that money or those funds may be invested in the bonds issued under this chapter, and whenever bonds of cities, counties, school districts, or other districts within the state may, by any law now or hereafter enacted, be used as security for the performance of any act or the deposit of any public money, the bonds issued under this chapter may be so used. The bonds may be secured by a pledge of revenues from the proceeds of the tax.

(b) The pledge of the tax to the limited tax bonds authorized under this chapter shall have priority over the use of any of the tax for "pay-as-you-go" financing, except to the extent that that priority is expressly restricted in the resolution authorizing the issuance of the bonds.

240310. Limited tax bonds shall be issued pursuant to a resolution adopted at any time by a two-thirds vote of the commission. Each resolution shall provide for the issuance of bonds in the amounts as may be necessary, until the full amount of bonds authorized have been issued. (b) The resolution may also contain any other matters authorized by this chapter or any other law.

240312. 240313. In the resolution authorizing the issuance of the bonds, the commission may also provide for the call and redemption of the

bonds prior to maturity at the times and prices and upon other terms as specified. However, no bond is subject to call or redemption prior to maturity, unless it contains a recital to that effect or unless a statement to that effect is printed.

240314. The principal of, and interest on, the bonds shall be payable in lawful money of the United States at the office of the treasurer of the commission, or at other places as may be designated, or at both the office and other places at the option of the holders of the bonds.

However, when the purposes have been accomplished, any money remaining shall be either (a) transferred to the fund to be used for the payment of principal of, and interest on, the bonds or (b) placed in a fund to be used for the purchase of the outstanding bonds in the open market at prices and in the manner, either at public or private sale or otherwise, as determined by the commission. Bonds so purchased shall be canceled immediately.

thereof to the date of payment of the bonds to be refunded out of the proceeds of the sale of the refunding bonds or to the date upon which the bonds to be refunded will be paid pursuant to call or agreement with the holders of the bonds.

(2) The interest upon the bonds to be refunded from the date of sale of the refunding bonds to the date of payment of the bonds to be refunded or to the date upon which the bonds to be refunded will be paid pursuant to call or agreement with the holder of the bonds.

(c) The provisions of this chapter for the issuance and sale of bonds apply to the issuance and sale of refunding bonds.

240320. (a) The commission may borrow money in anticipation of the sale of bonds which have been authorized pursuant to this chapter, but which have not been sold or delivered, and may issue negotiable bond anticipation notes therefor and may renew the bond anticipation notes from time to time. However, the maximum maturity of any bond anticipation notes, including the renewals thereof, shall not exceed five years from the date of delivery of the original bond anticipation notes.

(b) The bond anticipation notes, and the interest thereon, may be paid from any money of the commission available therefor, including the revenues from the tax. If not previously otherwise paid, the bond anticipation notes, or any portion thereof, or the interest thereon, shall be paid from the proceeds of the next sale of the bonds of the commission in anticipation of which the notes were issued.

(c) The bond anticipation notes shall not be issued in any amount in excess of the aggregate amount of the bonds which the commission has been authorized to issue, less the amount of any bonds of the authorized issue previously sold, and also less the amount of other bond anticipation notes therefor issued and then outstanding. The bond anticipation notes shall be issued and sold in the same manner as the bonds.

(d) The bond anticipation notes and the resolutions authorizing them may contain any provisions, conditions, or limitations which a resolution of the commission may contain.

240321. Any bonds issued under this chapter are legal investment for all trust funds; for the funds of insurance companies, commercial and savings banks, and trust companies; and for state school funds; and whenever any money or funds may, by any law now or hereafter enacted, be invested in bonds of cities, counties, school districts, or other districts within the state, that money or those funds may be invested in the bonds issued under this chapter, and whenever bonds of cities, counties, school districts, or other districts within the state may, by any law now or hereafter enacted, be used as security for the performance of any act or the deposit of any public money, the bonds issued under this chapter may be so used. The provisions of this chapter are in addition to all other laws relating to legal investments and shall be controlling as the latest expression of the Legislature with respect thereto.

240322. Any action or proceeding wherein the validity of the

adoption of the retail transactions and use tax ordinance provided for in this chapter or the issuance of any bonds thereunder or any of the proceedings in relation thereto is contested, questioned, or denied, shall be commenced within six months from the date of the election at which the ordinance is approved; otherwise, the bonds and all proceedings in relation thereto, including the adoption and approval of the ordinance, shall be held to be valid and in every respect legal and incontestable.

240323. The commission has no power to impose any tax other than the transactions and use tax imposed upon approval of the voters in accordance with this division.

CHAPTER 272

An act to amend Section 6 of the County Water Authority Act (Chapter 545 of the Statutes of 1943), relating to special districts.

[Approved by Governor July 29, 1987. Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 6 of the County Water Authority Act (Chapter 545 of the Statutes of 1943) is amended to read:

Sec. 6. (a) All powers, privileges, and duties vested in or imposed upon any authority incorporated under this act shall be exercised and performed by and through a board of directors. The exercise of any and all executive, administrative, and ministerial powers may be delegated by the board of directors to any of the offices created by this act or by the board of directors acting under this act.

(b) The board of directors shall consist of at least one representative from each public agency, the area of which is within the authority. The representatives shall be designated and appointed by the chief executive officers of those public agencies, respectively, with the consent and approval of the legislative bodies of the public agencies, respectively. Any member of the governing body of a member agency which is a water district may be appointed by that member agency to the board of the authority to serve as the agency's representative, except that, in the case of agencies with several representatives, a majority of the members of the governing body of the agency may not be so appointed by the agency to serve as representatives on the board of the authority. No member of a

governing body shall appoint himself or herself or vote for his or her own appointment. Any director holding dual offices shall not vote upon any contract between a county water authority and the member public agency he or she represents on the authority's board. The term "water district," as used in this subdivision, has the same meaning as in subdivision (a) of Section 10.

(c) Members of the board of directors shall hold office for a term of six years, and until their successors are appointed and qualified. However, the terms of the members of the first board shall be determined by lot so that the terms of not less than one-half of the members shall be for three years and the terms of the remainder shall be six years. Every member shall be subject to recall by the voters of the public agency from which that member is appointed, in accordance with the recall provisions of the freeholders' charter or other law applicable to the public agency, and any member may be recalled by the majority vote of the governing body of the public agency from which the member is appointed.

(d) As a member of the board of directors, each representative is entitled to vote on all questions, orders, resolutions, and ordinances coming before the board, and is entitled to cast one vote for each five million dollars ($5,000,000), or major fractional part thereof, of assessed valuation of property taxable for authority purposes in the public agency represented by him or her as shown by the last equalized assessment roll of the county and evidenced by the certificate of the county auditor; provided, that each representative shall have at least one vote and no public agency shall have votes exceeding in number of the total number of votes of all the other public agencies whose corporate areas are included in the authority. In addition to one representative, any public agency may, at its option, designate and appoint one additional representative for each full 5 percent of the assessed value of property taxable for authority purposes which is within the public agency. However, the term of office of any representative shall not be changed or terminated by reason of any future change in the assessed values of property within any member agency. The representatives of each public agency shall cast the vote to which that public agency would otherwise be entitled as a unit and as a majority of the representatives present shall determine. The affirmative votes of members representing more than 50 percent of the total number of votes of all the members shall be necessary, and, except as otherwise herein provided, shall be sufficient to carry any order, resolution, or ordinance coming before the board of directors. However, any meeting may be adjourned or recessed from day to day or from time to time, by vote of the director or directors present, irrespective of the number of directors present or the number of votes represented at the meeting. For the purposes of this section, the term "major fractional part" means a fractional part larger than one-half.

(e) Members of the first board of directors so constituted shall convene at the call of the clerk of the board of supervisors in the

meeting room of the board of supervisors at the county seat of the county, and immediately upon convening, the board of directors shall elect from its membership a chairperson, a vice chairperson, and a secretary, who shall serve for a period of two years, or until their respective successors are elected and qualified.

(f) A quorum necessary for the transaction of business at any meeting of the board of directors exists whenever there are present at the meeting a majority of the membership of the board of directors which includes at least one-half of the number of representatives of each public agency member having more than six representatives serving on the board of directors. However, any regular or special meeting of the board of directors at which a quorum is not present may be continued from time to time until a quorum is present to transact the business of the board of directors.

1241. In addition to the permission granted by Section 1240, an insurer, whether or not it is authorized to do business in, or has outstanding insurance contracts on lives or risks in any foreign country, may invest in or otherwise acquire or loan upon securities and investments in that foreign country which are substantially of the same kinds, classes and investment grades as those eligible for investment under this code, subject to the following conditions:

CHAPTER 277

An act to amend Section 39005 of the Education Code, relating to school sites.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 39005 of the Education Code is amended to read:

39005. Before acquiring title to property for a new school site or for an addition to a present site; the governing board of each school district, including districts governed by a city board of education, in order to promote the safety of pupils, comprehensive community planning, and greater educational usefulness of school sites, shall give the State Department of Education notice in writing of the proposed acquisition and shall submit any information required by the State Department of Education, if the proposed site is within two miles, measured by air line, of that point on an airport boundary which is nearest the site and excluding them if the property is not so located.

Immediately after receiving notice of the proposed acquisition of property which is within two miles, measured by air line, of that point on an airport boundary which is nearest the site, the State Department of Education shall notify the State Department of Transportation, in writing, of the proposed acquisition. The State Department of Transportation shall conduct an investigation and prepare and submit a report concerning the proposed acquisition to the State Department of Education within 30 working days after receipt of the notice. If the State Department of Transportation is no longer in operation, the State Department of Education shall, in lieu of notifying the State Department of Transportation, notify the United States Department of Transportation or any other appropriate agency, in writing, of the proposed acquisition for the purpose of obtaining from the department or other agency any information or assistance that it may desire to provide.

The State Department of Education shall investigate the proposed site and, within 35 working days after receipt of the notice, shall submit to the governing board a written report, including its recommendations, concerning acquisition of the site. The governing board shall not acquire title to the property until the report of the State Department of Education has been received. If this report does not recommend the acquisition of the property for a school site or an addition to a present school site, the governing board shall not acquire title to the property until at least 30 days after the department's report is received and until the department's report has been read at a public hearing duly called after 10 days' notice published once in a newspaper of general circulation within the

school district or, if there is no such newspaper, in a newspaper of general circulation within the county in which the property is located.

CHAPTER 278

An act to amend Section 6363.6 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 6363.6 of the Revenue and Taxation Code is amended to read:

6363.6. There are exempted from the taxes imposed by this part the gross receipts from the sale of, and the storage, use or other consumption in this state of, meals and food products for human consumption furnished or served to and consumed by residents or patients of:

(a) A health facility as defined in Section 1250 of the Health and Safety Code, which holds the license required pursuant to Section 1253, or is exempt from the license requirement pursuant to subdivision (a) of Section 1270, or is operated by the United States.

(b) A community care facility as defined in Section 1502 of the Health and Safety Code, which holds the license required by Section 1508, or is a residential facility selected by a licensee pursuant to Section 1506 and exclusively used for the reception and care of persons placed by such licensee, or is exempt from the license requirement pursuant to subdivision (f) of Section 1505, or is operated by the United States.

(c) Any house or institution supplying board and room for a flat monthly rate and serving as a principal residence exclusively for persons 62 years of age or older.

(d) An alcoholism recovery facility, as defined in Section 11834.11 of the Health and Safety Code, which holds the license required by Section 11834.12 of the Health and Safety Code. This subdivision shall apply to meals served by such a facility on or after January 1, 1985.

SEC. 2. The Legislature finds and declares that the retroactive operation of the amendment to Section 6363.6 of the Revenue and Taxation Code made by this act serves a public purpose inasmuch as the affected sales and transactions were exempt from the Sales and Use Tax Law prior to January 1, 1985, and after that date the continued applicability of the exemption to an alcoholism recovery facility became unclear only because of changes in the law relating to the licensing authority of those facilities which are referenced to in the sales and use tax laws, and not as a result of intended changes

to the continued application of that sales and use tax exemption to those facilities.

SEC. 3. Notwithstanding Section 2230 of the Revenue and Taxation Code, no appropriation is made by this act and the state shall not reimburse any local agency for any sales and use tax revenues lost by it under this act.

SEC. 4. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 279

An act to add Section 22651.7 to the Vehicle Code, relating to vehicles.

SECTION 1. Section 22651.7 is added to the Vehicle Code, to read:

22651.7. Any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, pursuing a fleeing or evading person in a motor vehicle may remove and store, or cause to be removed and stored, any vehicle used in violation of Section 2800.1 or 2800.2 from property other than that of the registered owner of the vehicle for the purposes of investigation, identification, or apprehension of the driver if the driver of the vehicle abandons the vehicle and leaves it unattended. All towing and storage fees for a vehicle removed under this section shall be paid by the owner, unless the vehicle was stolen or taken without permission.

No vehicle shall be impounded under this section if the driver is arrested before arrival of the towing equipment or if the registered owner is in the vehicle.

As used in this section, "remove and store a vehicle" means that the peace officer may cause the removal of a vehicle to, and storage of a vehicle in, a private lot where the vehicle may be secured by the owner of the facility or by the owner's representative.

Nothing in this section is intended to change current statute and case law governing searches and seizures.

CHAPTER 280

An act to amend Section 5004.1 of the Vehicle Code, relating to vehicles.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 5004.1 of the Vehicle Code is amended to read:

5004.1. The department may consult with an organization of old car hobbyists in determining whether the date of year of the license plate to be used corresponds to the model year date when the vehicle was manufactured.

Vehicles subject to this section shall display evidence of current registration.

(b) A fee of thirty-five dollars ($35) shall be charged for the application for use of the special plates.

(c) In addition to the regular renewal fee for the vehicle for which the plates are authorized, the applicant for a renewal of the plates shall be charged an additional fee of ten dollars ($10).

(d) Whenever any person who has been authorized to utilize the special license plates applies to the department for transfer of the plates to another vehicle, a transfer fee of twelve dollars ($12) shall be charged in addition to all other appropriate fees.

The county shall involve the public with the preparation of the draft plan, to the fullest extent possible, by public hearings, informational meetings, and other appropriate forums that offer the public the opportunity to respond to clearly defined alternative objectives, policies, and actions.

(c) On or before March 31, 1988, or, if the department has given the county a time extension pursuant to subdivision (b), on or before June 30, 1988, the county shall conduct hearings on the draft county hazardous waste management plan, in the number determined appropriate by the county. The county shall provide affected local jurisdictions, the public, industry, business organizations, and the hazardous waste management industry with the full opportunity to comment orally and in writing on the draft county hazardous waste management plan.

(d) On or before March 31, 1988, or, if the department has given the county a time extension pursuant to subdivision (b), on or before June 30, 1988, the department shall review the draft plan, and provide each county with comments which specify the changes or additions which are required to be made to the draft plan to result in a final plan which can be approved by the department pursuant to Section 25135.7.

(e) After conducting the review and comment period required by subdivision (c), each county shall revise, as appropriate, the draft county hazardous waste management plan.

(f) The revised county hazardous waste management plan shall be approved by a majority of the cities within the county which contain a majority of the population of the incorporated area of the county. The state hazardous waste management plan shall serve as a comprehensive planning document for the state and shall be prepared as a useful informational source for the public, local government, and regional councils of government. The state

hazardous waste management plan shall be prepared in conjunction with, and shall take into account, hazardous waste management plans and the hazardous waste portions of county solid waste management plans adopted by counties and regional councils of governments.

(b) The state hazardous waste management plan shall be prepared and adopted by the department on or before November 1, 1989, shall be reviewed annually, and shall be revised to reflect new information at least once every three years.

(c) In preparing and adopting the state hazardous waste management plan, and in revising the plan thereafter, the department shall do all of the following:

(1) Publish the draft plan or the revised plan and make it available to the public for review and comment at least three months before final adoption.

(2) Conduct workshops and at least two public hearings on the plan or the draft revised plan, one in the southern part of the state and one in the northern part of the state, to solicit the views of the public, local government, regional councils of governments, and interested parties.

(3) Include in the final state hazardous waste management plan and in revisions of the plan, a summary of the comments received and the department's responses to those comments.

(d) The state hazardous waste management plan, and each revision of the plan, shall include, but need not be limited to, all of the following elements:

(1) An analysis of the hazardous waste streams produced in the state, an accounting of the volumes of hazardous waste produced in each county and region of the state, by type of waste, and estimates of the expected rates of hazardous waste production, by type of waste, during the next five years.

(2) An inventory of existing and planned hazardous waste facilities which handle, treat, recycle, dispose, or otherwise manage hazardous wastes produced in the state. The inventory shall include a description of the facilities, a determination of the capacity of each existing or planned facility to handle, treat, recycle, dispose, or otherwise manage the waste streams it is authorized to handle, treat, recycle, dispose, or otherwise manage, and a description of the current progress and status of each planned facility in achieving operational status, including a timetable for becoming operational.

[Approved by Governor July 29, 1987. Filed with Secretary of State July 30, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 5204 of the Vehicle Code is amended to read:

5204. [Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

SECTION 1. Section 3003 of the Penal Code is amended to read:

3003. (a) An inmate who is released on parole shall be returned to the county from which he or she was committed.

For purposes of this subdivision, "county from which he or she was committed" means the county where the crime for which the inmate was committed occurred.

(b) Notwithstanding subdivision (a), an inmate may be returned to another county in a case where that would be in the best interests of the public and of the parolee. If the authority setting the conditions of parole decides on a return to another county, it shall place its reasons in writing in the parolee's permanent record. In making its decision, the authority may consider, among others, the following factors:

(1) The need to protect the life or safety of a victim, the parolee, a witness or any other person.

(2) Public concern that would reduce the chance that the inmate's parole would be successfully completed.

(3) The verified existence of a work offer, or an educational or vocational training program.

(4) The last legal residence of the inmate having been in another county.

(5) The existence of family in another county with whom the inmate has maintained strong ties and whose support would increase the chance that the inmate's parole would be successfully completed.

(6) The lack of necessary outpatient treatment programs for parolees receiving treatment pursuant to Section 2960.

(c) An inmate may be paroled to another state pursuant to any other provision of law.

CHAPTER 284

(b) A driver, having so yielded, if required pursuant to subdivision (a), may proceed to enter or cross the highway and the drivers of all other vehicles approaching on the highway shall then yield the right-of-way to that driver.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

(D) The hypnosis was performed by a licensed medical doctor, psychologist, or licensed clinical social worker experienced in the use of hypnosis or a licensed marriage, family and child counselor certified in hypnosis by the Board of Behavioral Science Examiners and independent of and not in the presence of law enforcement, the prosecution, or the defense.

(4) Prior to admission of the testimony, the court holds a hearing pursuant to Section 402 of the Evidence Code at which the proponent of the evidence proves by clear and convincing evidence that the hypnosis did not so affect the witness as to render the witness' prehypnosis recollection unreliable or to substantially impair the ability to cross-examine the witness concerning the witness' prehypnosis recollection. At the hearing, each side shall have the right to present expert testimony and to cross-examine witnesses.

(b) Nothing in this section shall be construed to limit the ability of a party to attack the credibility of a witness who has undergone hypnosis, or to limit other legal grounds to admit or exclude the testimony of that witness.

(b) Whenever the department consults with a state lead agency pursuant to Section 21080.3, 21080.4, 21080.5, or 21104.2 of the Public Resources Code, the department shall issue a written finding based on its determination of whether a proposed project would jeopardize the continued existence of any endangered species or threatened species or result in the destruction or adverse modification of habitat essential to the continued existence of the species. The written finding shall also include the department's determination of whether a proposed project would result in any taking of an endangered species or a threatened species incidental to the proposed project. The department shall base its determination on the best available scientific information.

SEC. 3. Section 2097 of the Fish and Game Code is amended to read:

This section does not apply during emergency treatment, or where the patient's addiction is complicated by the presence of incurable disease, serious accident, or injury, or the infirmities of old age.

Neither this section nor any other provision of this division shall be construed to prohibit the maintenance of a place in which persons seeking to recover from addiction to a controlled substance reside and endeavor to aid one another and receive aid from others in recovering from such addiction, nor does this section or such division prohibit such aid, provided that no person is treated for addiction in such place by means of administering, furnishing, or prescribing of controlled substances. The preceding sentence is declaratory of preexisting law.

Neither this section or any other provision of this division shall be construed to prohibit short-term methadone detoxification treatment in a controlled setting approved by the director and pursuant to rules and regulations of the director. Facilities and treatment approved by the director under this paragraph shall not be subject to approval or inspection by the Board of Medical Quality Assurance, nor shall persons in such facilities be required to register with, or report the termination of residence with, the police department or sheriff's office.

(b) It is the policy of this state that qualified disabled persons shall be employed in the state service, the service of the political subdivisions of the state, in public schools, and in all other employment supported in whole or in part by public funds on the same terms and conditions as the nondisabled, unless it is shown that the particular disability is job related.

(c) It is the policy of this state that a department, agency, or commission shall make reasonable accommodation to the known physical or mental limitations of an otherwise qualified disabled applicant or employee, unless the hiring authority can demonstrate that the accommodation would impose an undue hardship on the operation of its program. A department shall not deny any employment opportunity to a qualified disabled applicant or employee if the basis for the denial is the need to make reasonable accommodation to the physical or mental limitations of the applicant or employee.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 295

An act to amend Section 1799.91 of the Civil Code, relating to consumer credit, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1799.91 of the Civil Code is amended to read:

1799.91. (a) Unless the persons are married to each other, each creditor who obtains the signature of more than one person on a consumer credit contract shall deliver to each person who does not in fact receive any of the money, property, or services which are the subject matter of the consumer credit contract, prior to that person's becoming obligated on the consumer credit contract, a notice in English and Spanish in at least 10-point type as follows:

NOTICE TO COSIGNER (Traducción en Inglés Se Requiere Por La Ley)

You are being asked to guarantee this debt. Think carefully before you do. If the borrower doesn't pay the debt, you will have to. Be sure you can afford to pay if you have to, and that you want to accept this responsibility.

You may have to pay up to the full amount of the debt if the borrower does not pay. You may also have to pay late fees or collection costs, which increase this amount.

The creditor can collect this debt from you without first trying to collect from the borrower. The creditor can use the same collection methods against you that can be used against the borrower, such as suing you, garnishing your wages, etc. If this debt is ever in default, that fact may become a part of *your* credit record.

This notice is not the contract that makes you liable for the debt.

AVISO PARA EL FIADOR (Spanish Translation Required By Law)

Se le está pidiendo que garantice esta deuda. Piénselo con cuidado antes de ponerse de acuerdo. Si la persona que ha pedido este préstamo no paga la deuda, usted tendrá que pagarla. Esté seguro de que usted podrá pagar si sea obligado a pagarla y de que usted desea aceptar la responsabilidad.

Si la persona que ha pedido el préstamo no paga la deuda, es posible que usted tenga que pagar la suma total de la deuda, mas los cargos por tardarse en el pago o el costo de cobranza, lo cual aumenta el total de esta suma.

El acreedor (financiero) puede cobrarle a usted sin, primeramente, tratar de cobrarle al deudor. Los mismos metodos de cobranza que pueden usarse contra el deudor, podran usarse contra usted, tales como presentar una demanda en corte, quitar parte de su sueldo, etc. Si alguna vez no se cumpla con la obligación de pagar esta deuda, se puede incluir esa información en la historia de credito de usted.

Este aviso no es el contrato mismo en que se le echa a usted la responsabilidad de la deuda.

(b) Whenever notice is required to be given under subdivision (a) and the consumer credit contract is written in a language other than English or Spanish, the creditor shall deliver the notice as required in subdivision (a) in English and, in addition to or in lieu of Spanish, in the language in which the consumer contract is written.

(c) The requirements of subdivisions (a) and (b) do not apply to a creditor offering or extending open-end credit, as defined in Regulation Z, to joint applicants if all of the following conditions are satisfied:

(1) The application or agreement signed by each applicant clearly and conspicuously discloses that after credit approval each applicant shall have the right to use the open-end credit plan to the extent of any limit set by the creditor and may be liable for all amounts extended under the plan to any joint applicant.

(2) After credit approval, the creditor issues for the use of each applicant any credit device such as a credit card which may be used to obtain credit under the open-end credit plan and sends the credit device to the address specified in the application or otherwise delivers the credit device in a manner specified in the application or agreement signed by each applicant.

This paragraph does not apply to a creditor who does not issue a credit card or other credit device in order to obtain credit under the creditor's open-end credit plan.

(d) "Regulation Z" has the meaning set forth in Section 1802.18.

(e) The word "your" in the last sentence of the third paragraph of the notice in English set forth in subdivision (a) shall be italicized.

SEC. 2. In the printed statute, the word "your" shall be printed in italics in the last sentence of the third paragraph of the notice in English set forth in subdivision (a) of Section 1799.91 of the Civil Code as amended by this act.

SEC. 3. From January 1, 1987, until January 1, 1989, a creditor will be deemed in compliance with Section 1799.91 of the Civil Code if the word "your" in the last sentence of the third paragraph of the notice in English required by Section 1799.91 of the Civil Code is printed in italic type as provided in this act or in upper case roman type as provided in Chapter 280 of the Statutes of 1986.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to correct a printer's error in Chapter 280 of the Statutes of 1986, to conform state law to regulations promulgated by the Federal Trade Commission as intended by the 1986 Regular Session, and to avoid confusion and hardships to creditors, it is necessary that this act take effect immediately.

This information shall be confidential, and the records shall not be public records, except when used for the purpose of prosecuting any person or persons for a violation of any fish and game law or regulation.

SECTION 1. Section 9845 is added to the Vehicle Code, to read:

9845. The director, deputy director, registrar, deputy registrar, investigators of the department, and peace officers, as defined in Chapter 4.5 (commencing with Section 830) of the Penal Code, may inspect the hull identification number, certificate of number, and certificate of ownership of any vessel, as defined in Section 9840, when transported on a highway, or in any public garage, repair shop, public or private marina, dry storage facility, new or used vessel sales lot or boat yard, or other similar establishment for the purpose of investigating the ownership and registration of vessels, locating stolen vessels, and for inspection of wrecked, dismantled, or abandoned vessels. The authority to inspect pursuant to this section does not extend to any enclosed living area aboard a vessel.

SEC. 2. Section 9850 of the Vehicle Code is amended to read:

9850. Every undocumented vessel using the waters or on the

waters of this state shall be currently numbered. No person shall operate nor shall any county, city, or political subdivision give permission for the operation of any undocumented vessel on those waters unless the undocumented vessel is numbered in accordance with this chapter, or in accordance with applicable federal law, or in accordance with a federally approved numbering system of another state, and unless (1) the certificate of number issued to such undocumented vessel is in full force and effect, and (2) the identifying number set forth in the certificate of number is displayed on each side of the bow of the undocumented vessel for which the identifying number was issued.

SEC. 3. Section 9853.4 of the Vehicle Code is amended to read:

9853.4. (a) The department may issue one or more stickers, tabs, or other suitable devices to identify vessels as being currently registered. The size, shape, and color of the sticker, tab, or other device and the positioning of the sticker, tab, or other device on the vessel shall be as determined by the department after consultation with the Department of Boating and Waterways, such consultation to consider the responsibilities and duties of the Department of Boating and Waterways as prescribed in the Harbors and Navigation Code.

(b) Whenever the department issues a sticker, tab, or other device pursuant to subdivision (a), the sticker, tab, or device shall only be displayed on the vessel for which it was issued.

SEC. 4. Section 9864 of the Vehicle Code is amended to read:

The wrecking, dismantling, destruction or abandonment shall terminate the certificate of ownership and certificate of number of such undocumented vessel which if in existence shall be surrendered to the department.

The department, upon receiving notice of the abandonment of an undocumented vessel, or upon an official determination that an undocumented vessel has been abandoned, may order the destruction of such vessel at the expiration of 30 days if an investigation by the department has disclosed that no owner, legal owner, or lienholder claims an interest in the vessel, or if those persons have waived their interest. Nothing in this section shall be construed to deny the legal rights, otherwise provided for by law, of any person claiming an interest in an abandoned vessel if that person notifies the department within the time specified therefor.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

In those cities, districts, or other issuing agencies which elect to receive, deposit, accept forfeitures, and otherwise process the posting of bail for parking violations pursuant to subdivision (3) of Section 1463 of the Penal Code, that city, district, or issuing agency shall observe the increased bail amounts as established by the court reflecting the surcharge provided for by this paragraph.

(2) With respect to each fund established, there shall be levied an additional amount of one dollar ($1) for every ten dollars ($10) or fraction thereof which shall be collected together with and in the same manner as the assessment established by Section 1464 of the Penal Code, upon every fine, penalty, or forfeiture imposed and

collected by the courts for criminal offenses, including all offenses involving a violation of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code, except offenses relating to parking or registration or offenses by pedestrians or bicyclists, or where an order is made to pay a sum to the general fund of the county pursuant to paragraph (iii) of subdivision (3) of Section 258 of the Welfare and Institutions Code. This amount shall be deposited with the county treasurer and placed in the fund established pursuant to Section 76001, 76002, 76004, 76005, 76006, or 76008.

(b) The surcharge and assessment increase imposed pursuant to this section shall continue so long as deposits to the funds are required pursuant to Section 76001, 76002, 76004, 76005, 76006, or 76008.

(c) No county, city and county, city, district or other issuing agency shall be required to contribute revenues to any fund in excess of those revenues generated from the surcharges and assessments established in the resolution adopted pursuant to this section.

SEC. 2. Section 76008 is added to the Government Code, to read:

76008. (a) Notwithstanding any other provision of law, to assist Solano County and Orange County in the funding of county criminal justice facility transition planning, the Board of Supervisors of Solano County or the Board of Supervisors of Orange County, or both, operative upon the adoption of a resolution stating that the provisions of this section and Section 76000 are necessary to county criminal justice facility transition planning, may establish in the respective county treasury a Solano County Transition Planning Trust Fund and an Orange County Transition Planning Trust Fund.

The county treasurer shall place all additional assessment amounts collected on nonparking offenses, pursuant to Section 76000, in the fund.

(b) The fund moneys, together with any interest earned thereon, shall be held by the treasurer separate from any funds subject to transfer or division pursuant to Section 1463 of the Penal Code. The moneys in the fund, together with any interest earned thereon, shall be payable only for county criminal justice facility transition planning. The money in the fund may be used through any public agency funding mechanism, including, but not limited to, retirement of bonded indebtedness, loan repayments, and monthly payments involving lease-purchase programs, which reduce an obligation incurred in reliance upon the authority granted by this section.

(c) For purposes of this section, "county criminal justice facilities" includes, but is not limited to, jails, women's centers, detention facilities, juvenile halls, and courtrooms.

(d) Deposits to the fund shall continue through and include the second year after the initial calendar year in which the assessment is collected.

(e) This section shall remain in effect only until July 1, 1990, and shall be repealed on that date, unless a later enacted statute which is chaptered before July 1, 1990, deletes or extends that date.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide needed funding for criminal justice facility transition planning in Solano County and Orange County, it is necessary that this act take effect immediately.

CHAPTER 301

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 11928 is added to the Revenue and Taxation Code, to read:

11928. Any tax imposed pursuant to this part shall not apply with respect to any deed, instrument, or other writing by which realty is conveyed by the State of California, any political subdivision thereof, or agency or instrumentality of either thereof, pursuant to an agreement whereby the purchaser agrees to immediately reconvey the realty to the exempt agency.

SEC. 2. Section 11929 is added to the Revenue and Taxation Code, to read:

11929. Any tax imposed pursuant to this part shall not apply with respect to any deed, instrument, or other writing by which the State of California, any political subdivision thereof, or agency or instrumentality of either thereof, conveys to a nonprofit corporation realty the acquisition, construction, or improvement of which was financed or refinanced by obligations issued by the nonprofit corporation on behalf of a governmental unit, within the meaning of Section 1.103-1 (b) of Title 26 of the Code of Federal Regulations.

CHAPTER 302

An act to add Section 9872.1 to the Vehicle Code, relating to vessels.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 9872.1 is added to the Vehicle Code, to read:

9872.1. (a) No person shall knowingly buy, sell, offer for sale, receive, or have in his or her possession any vessel, or component part thereof, from which the hull identification number has been removed, defaced, altered, or destroyed, unless the vessel or component part has attached thereto a hull identification number assigned or approved by the department in lieu of the manufacturer's number.

(b) Whenever a vessel, or component part thereof, from which the hull identification number has been removed, defaced, altered, or destroyed, and which does not have attached thereto an assigned or approved number as described in subdivision (a), comes into the custody of a peace officer, the seized vessel or component part is subject, in accordance with the procedures specified in this section, to impoundment and to such disposition as may be provided by order of a court having jurisdiction. This subdivision does not apply with respect to a seized vessel or component part used as evidence in any criminal action or proceeding.

(c) Whenever a vessel or component part described in subdivision (a) comes into the custody of a peace officer, any person from whom the property was seized, and all claimants to the property whose interest or title is on registration records in the department, shall be notified within five days, excluding Saturdays, Sundays, and holidays, after the seizure, of the date, time, and place of the hearing required in subdivision (e). The notice shall contain the information specified in subdivision (d).

(d) Whenever a peace officer seizes a vessel or component part as provided in subdivision (b), any person from whom the property was seized shall be provided a notice of impoundment of the vessel or component part which shall serve as a receipt and contain the following information:

(1) Name and address of person from whom the property was seized.

(2) A statement that the vessel or component part seized has been impounded for investigation of a violation of this section and that the property will be released upon a determination that the hull identification number has not been removed, defaced, altered, or destroyed, or upon the presentation of satisfactory evidence of ownership of the vessel or component part, provided that no other

person claims an interest in the property; otherwise, a hearing regarding the disposition of the vessel or component part shall take place in the proper court.

(3) A statement that any person from whom the property was seized, and all claimants to the property whose interest or title is on registration records in the department, will receive written notification of the date, time, and place of the hearing within five days, excluding Saturdays, Sundays, and holidays, after the seizure.

(4) Name and address of the law enforcement agency where evidence of ownership of the vessel or component part may be presented.

(5) A statement of the contents of this section.

(e) A hearing on the disposition of the property shall be held by the municipal or justice court within 60 days after the seizure. The hearing shall be before the court without a jury.

(1) If the evidence reveals either that the hull identification number has not been removed, altered, or destroyed or that the hull identification number has been removed, altered, or destroyed but satisfactory evidence of ownership has been presented to the seizing agency or court, the property shall be released to the person entitled thereto.

(2) If the evidence reveals that the hull identification number has been removed, altered, or destroyed, and satisfactory evidence of ownership has not been presented, the property shall be destroyed, sold, or otherwise disposed of as provided by court order.

(3) At the hearing, the seizing agency shall have the burden of establishing that the hull identification number has been removed, defaced, altered, or destroyed and that no satisfactory evidence of ownership has been presented.

(f) Nothing in this section precludes the return of a seized vessel or component part to the owner by the seizing agency following presentation of satisfactory evidence of ownership and, if determined necessary, upon the assignment of an identification number to the vessel or component part by the department.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 303

An act to amend Section 25354 of the Health and Safety Code, relating to hazardous substances.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 25354 of the Health and Safety Code is amended to read:

25354. (a) There is hereby continuously appropriated from the state account to the department the sum of one million dollars ($1,000,000) for each fiscal year as a reserve account for emergencies, notwithstanding Section 13340 of the Government Code. The department shall expend moneys available in the reserve account only for the purpose of taking immediate corrective action necessary to remedy or prevent an emergency resulting from a fire or an explosion of, or human exposure to, hazardous substances caused by the release or threatened release of a hazardous substance.

(b) Notwithstanding any other provision of law, the department may enter into written contracts for corrective action taken or to be taken pursuant to subdivision (a), and may enter into oral contracts, not to exceed five thousand dollars ($5,000) in obligation, when, in the judgment of the department, immediate corrective action is necessary to remedy or prevent an emergency specified in subdivision (a). The contracts, whether written or oral, may include provisions for the rental of tools or equipment, either with or without operators furnished, and for the furnishing of labor and materials necessary to accomplish the work. If the department finds that the corrective action includes the relocation of individuals, the department may contract with those individuals for out-of-pocket expenses incurred in moving for an amount of not more than one thousand dollars ($1,000).

(c) Any disbursement made pursuant to subdivision (a) shall be reported to the Director of Finance within 72 hours of commencement of the corrective action taken.

(d) Once the appropriation made pursuant to subdivision (a) is fully expended, the director shall file a report with the Legislature if it is in session or, if it is not in session, with the Committee on Rules of the Assembly and the Senate as to the moneys expended pursuant to this section. The Legislature may appropriate moneys from the state account, in addition to those moneys appropriated pursuant to subdivision (a), to the department for the purpose of taking corrective action pursuant to subdivision (a).

(e) Except as provided in subdivision (d), the amount deposited in the reserve account and appropriated pursuant to this section shall not exceed one million dollars ($1,000,000) in any fiscal year. On June

30 of each year, the unencumbered balance of the reserve account shall revert to and be deposited in the state account.

CHAPTER 304

An act to add Section 20930.32 to the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor July 29, 1987. Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 20930.32 is added to the Government Code, to read:

20930.32. "Public service" with respect to a local member also means service rendered to any California nonprofit corporation whose function is to serve firefighters employed by state and local agencies.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by contract or by amendment to its contract made in the manner prescribed for approval of contracts.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 305

An act to amend Section 11521 of the Government Code, and to amend Section 14172 of the Welfare and Institutions Code, relating to administrative procedure.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 11521 of the Government Code is amended to read:

11521. (a) The agency itself may order a reconsideration of all or part of the case on its own motion or on petition of any party. The power to order a reconsideration shall expire 30 days after the delivery or mailing of a decision to respondent, or on the date set by the agency itself as the effective date of the decision if that date occurs prior to the expiration of the 30-day period or at the termination of a stay of not to exceed 30 days which the agency may grant for the purpose of filing an application for reconsideration. If additional time is needed to evaluate a petition for reconsideration filed prior to the expiration of any of the applicable periods, an agency may grant a stay of that expiration for no more than 10 days, solely for the purpose of considering the petition. If no action is taken on a petition within the time allowed for ordering reconsideration, the petition shall be deemed denied.

(b) The case may be reconsidered by the agency itself on all the pertinent parts of the record and such additional evidence and argument as may be permitted, or may be assigned to an administrative law judge. A reconsideration assigned to an administrative law judge shall be subject to the procedure provided in Section 11517. If oral evidence is introduced before the agency itself, no agency member may vote unless he or she heard the evidence.

SEC. 2. Section 14172 of the Welfare and Institutions Code is amended to read:

14172. (a) Except as provided in subdivision (b), if any amount is due and payable and unpaid as the result of an overpayment to a provider for health care services identified through an audit or examination conducted by or on behalf of the director, and the findings of the audit or examination are completed and no appeal is taken or the director has issued a final decision on the appeal pursuant to Section 14171, and 90 days has elapsed from the completion of that audit or examination or issuance of that final decision on appeal, the director may, not later than three years after the payment became due and owing, file in the office of the County Clerk of Sacramento County, and with the county clerk of the county in which the provider has his principal place of business, a certificate containing the following:

(1) The amount due and owing and unpaid plus interest at the rate equal to the rate received on investments in the Pooled Money Investment Fund commencing on the date that an audit or examination finding made pursuant to Sections 10722 and 14170 is mailed.

(2) A statement that the director has complied with this article prior to the filing of the certificate.

(3) A request that judgment be entered against the provider in the amount set forth in the certificate.

The county clerk immediately upon the filing of the certificate shall enter a judgment for the State of California against the provider in the amount set forth in the certificate. The judgment may be filed

by the county clerk in a looseleaf book entitled "Health Care Overpayment Recovery Judgments."

(b) If the provider seeks judicial review of the final decision of the director pursuant to subdivision (j) of Section 14171 and notice of that action is properly served on the director within 90 days of the issuance of the final decision of the director, the director shall not file any certificate as provided in subdivision (a).

If the provider does not seek judicial review of the final decision of the director pursuant to subdivision (j) of Section 14171 and does not properly serve notice within 90 days from the date of the final decision of the director, the director may file the certificate provided in subdivision (a). If the provider seeks judicial review of the final decision of the director more than 90 days from the date of the decision in accordance with subdivision (j) of Section 14171, the director shall within 10 days after receiving notice of that action release any lien imposed pursuant to this article and any judgment entered is for all purposes null and void.

CHAPTER 306

An act to amend Sections 13880 and 13881 of the Penal Code, relating to crimes.

[Approved by Governor July 29, 1987. Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 13880 of the Penal Code is amended to read:

13880. (a) The Legislature finds and declares that the production and sale of narcotics is an ever increasing problem because of the substantial illicit profits derived therefrom. The Legislature further finds and declares that a substantial and disproportionate amount of serious crime is associated with the cultivation, processing, manufacturing, and sale of narcotics.

(b) The Legislature finds and declares that the level of production, distribution, and sale of narcotics in small counties in this state threatens the well-being not only of citizens of those counties, but of the rest of the state as well. Since many of these counties have experienced less growth in their general purpose revenues than the rest of the state, and yet are required to bear the burden of funding disproportionate criminal justice costs associated with the production, distribution, and sale of narcotics, the Legislature recognizes the need to provide financial assistance for these counties.

(c) The Legislature intends to support intensified efforts by district attorneys' offices to prosecute drug producers and sellers through organizational and operational techniques that have been proven effective in selected jurisdictions in this and other states.

SEC. 2. Section 13881 of the Penal Code is amended to read:

13881. (a) There is hereby established in the Office of Criminal Justice Planning a program of financial and technical assistance for district attorneys' offices, designated the California Major Narcotic Vendors Prosecution Law. All funds appropriated to the Office of Criminal Justice Planning for the purposes of this chapter shall be administered and disbursed by the executive director of the office in consultation with the California Council on Criminal Justice, and shall to the greatest extent feasible be coordinated or consolidated with federal funds that may be made available for these purposes.

(b) The executive director is authorized to allocate and award funds to counties in which the California Major Narcotic Vendors Prosecution Law is implemented in substantial compliance with the policies and criteria set forth in this chapter.

(c) The allocation and award of funds shall be made upon application executed by the county's district attorney and approved by its board of supervisors. Funds disbursed under this chapter shall not supplant local funds that would, in the absence of the California Major Narcotic Vendors Prosecution Law, be made available to support the prosecution of felony drug cases. Funds available under this program shall not be subject to review, as specified in Section 14780 of the Government Code.

(d) The executive director shall prepare and issue written program and administrative guidelines and procedures for the California Major Narcotic Vendors Prosecution Program consistent with this chapter, which shall be submitted to the Chairpersons of the Assembly Public Safety Committee and the Senate Judiciary Committee. These guidelines shall permit the selection of a county for the allocation and award of funds only on a finding by the Office of Criminal Justice Planning that the county is experiencing a proportionately significant increase in major narcotic cases. Further, the guidelines shall provide for the allocation and award of funds to small county applicants, as designated by the executive director. The guidelines shall also provide that any funds received by a county under this chapter shall be used only for the prosecution of cases involving major narcotic dealers. For purposes of this subdivision, "small county" means a county having a population of 200,000 or less.

(e) Annually, commencing January 1, 1986, the executive director shall, in cooperation with public defender representatives, prepare a report to the Legislature describing the operation and results of the statewide program and assessing any and all fiscal and workload burdens imposed by the statewide program upon local public defender offices and assigned counsel, with recommendations where appropriate. The report shall include the impact of additional federal funds in this area.

CHAPTER 307

An act to amend Section 1185 of the Civil Code, relating to documents.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1185 of the Civil Code is amended to read:

1185. (a) The acknowledgment of an instrument must not be taken unless the officer taking it personally knows, or has satisfactory evidence that the person making the acknowledgment is, the individual who is described in and who executed the instrument.

(b) For purposes of this article, "personally knows" means having an acquaintance, derived from association with the individual in relation to other people and based upon a chain of circumstances surrounding the individual, which establishes the individual's identity with at least reasonable certainty.

(c) For the purposes of this section "satisfactory evidence" means the absence of any information, evidence, or other circumstances which would lead a reasonable person to believe that the person making the acknowledgment is not the individual he or she claims to be and any one of the following:

(2) Reasonable reliance on the presentation to the officer of any one of the following, if the document is current or has been issued within five years:

(A) An identification card or driver's license issued by the California Department of Motor Vehicles.

(B) A passport issued by the Department of State of the United States.

(3) Reasonable reliance on the presentation of any one of the following, provided that a document specified in subparagraphs (A) to (E), inclusive, shall either be current or have been issued within five years and shall contain a photograph and description of the person named on it, shall be signed by the person, shall bear a serial or other identifying number, and, in the event that the document is a passport, shall have been stamped by the United States Immigration and Naturalization Service:

(C) An identification card issued by a state other than California.

(D) An identification card issued by any branch of the armed

forces of the United States.

(E) An inmate identification card issued on or after January 1, 1988, by the Department of Corrections, if the inmate is in custody.

(F) An inmate identification card issued prior to January 1, 1988, by the Department of Corrections, if the inmate is in custody.

(d) An officer who has taken an acknowledgment pursuant to this section shall be presumed to have operated in accordance with the provisions of law.

(e) Any party who files an action for damages based on the failure of the officer to establish the proper identity of the person making the acknowledgment shall have the burden of proof in establishing the negligence or misconduct of the officer.

CHAPTER 308

An act to amend Section 7262 of, and to add Section 7274 to, the Revenue and Taxation Code, relating to taxation.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 7262 of the Revenue and Taxation Code, as added by Section 4 of Chapter 216 of the Statutes of 1986, is amended to read:

7262. (a) The use tax portion of any transactions and use tax ordinance adopted under this part shall impose a complementary tax upon the storage, use, or other consumption in the district of tangible personal property purchased from any retailer for storage, use, or other consumption in the district. The tax shall be at a rate of one-half of 1 percent of the sales price of the property whose storage, use, or other consumption is subject to the tax, and the ordinance shall include provisions in substance as follows:

(1) Provisions identical to those contained in Part 1 (commencing with Section 6001), insofar as they relate to use taxes and are not inconsistent with this part, except that the name of the district as the taxing agency shall be substituted for that of the state. The name of the district shall be substituted for the word "state" in the phrase "retailer engaged in business in this state" in Section 6203 and in the definition of that phrase.

The following additional provisions shall be included:

(A) Except as provided in subparagraph (B), a retailer engaged in business in the district shall not be required to collect use tax from the purchaser of tangible personal property, unless the retailer ships or delivers the property into the district or participates within the district in making the sale of the property, including, but not limited to, soliciting or receiving the order, either directly or indirectly, at

a place of business of the retailer in the district or through any representative, agent, canvasser, solicitor, subsidiary, or person in the district under the authority of the retailer.

(B) "A retailer engaged in business in the district" shall also include any retailer of any of the following: vehicles subject to registration pursuant to Chapter 1 (commencing with Section 4000) of Division 3 of the Vehicle Code, aircraft licensed in compliance with Section 21411 of the Public Utilities Code, or undocumented vessels registered under Article 2 (commencing with Section 680) of Chapter 5 of Division 3 of the Harbors and Navigation Code. That retailer shall be required to collect use tax from any purchaser who registers or licenses the vehicle, vessel, or aircraft at an address in the district.

(2) A provision that all amendments to the provisions of Part 1 (commencing with Section 6001) relating to the use tax and not inconsistent with this part shall automatically become a part of the ordinance. However, no amendment shall operate so as to affect the rate of tax imposed by the district's board.

(3) A provision that the amount subject to tax shall not include the amount of any sales tax or use tax imposed by the State of California or by any city, city and county, or county pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law (Part 1.5 (commencing with Section 7200)) or the amount of any state-administered transactions or use tax.

(4) A provision that any person subject to a use tax under an ordinance adopted pursuant to this part shall be entitled to credit against that tax or any transactions tax, or to reimbursement for a transactions tax, paid to a district or retailer in a district imposing a transactions and use tax pursuant to this part.

(5) A provision that, in addition to the exemptions provided in Sections 6366 and 6366.1, the storage, use, or other consumption of tangible personal property purchased by operators of aircraft, and used or consumed by the operators directly and exclusively in the use of the aircraft as common carriers of persons or property for hire or compensation under a certificate of public convenience and necessity issued pursuant to the laws of this state, the United States, or any foreign government, is exempt from the use tax.

(6) A provision that the storage, use, or other consumption in the district of tangible personal property is exempt from the tax if the purchaser is obligated to purchase the property for a fixed price pursuant to a contract entered into prior to the operative date of the ordinance. The possession of, or the exercise of any right or power over, tangible personal property under a lease which is a continuing purchase of the property is exempt from tax for any period of time for which the lessee is obligated to lease the property for an amount fixed by a lease entered into prior to the operative date of the ordinance. For purposes of this subdivision, the storage, use, or other consumption of, or possession of, or exercise of any right or power over, tangible personal property shall be deemed not to be obligated

pursuant to a contract or lease for any period of time for which any party to the contract or lease has the unconditional right to terminate the contract or lease upon notice, whether or not the right is exercised.

(b) This section shall become operative on January 1, 1988.

SEC. 2. Section 7274 is added to the Revenue and Taxation Code, to read:

7274. The board shall make available to all licensed vehicle, vessel, and aircraft dealers who hold seller's permits in this state information concerning the cities and counties located within districts which impose transactions and use tax ordinances and the applicable tax rates in those cities and counties.

CHAPTER 309

An act to amend Sections 13350.5 and 23156 of the Vehicle Code, relating to driving offenses.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 13350.5 of the Vehicle Code is amended to read:

13350.5. Notwithstanding Section 13350, for the purposes of this article, conviction of a violation of Section 191.5 or paragraph (3) of subdivision (c) of Section 192 of the Penal Code is a conviction of a violation of Section 23153.

SEC. 2. Section 23156 of the Vehicle Code is amended to read:

23156. For the purposes of this article, a separate offense which resulted in a conviction of a violation of Section 191.5 or paragraph (3) of subdivision (c) of Section 192 of the Penal Code is a separate offense of a violation of Section 23153.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 310

An act relating to lands granted in trust to the City and County of San Francisco, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares as follows:

(a) Pursuant to the Burton Act (Chapter 1333 of the Statutes of 1968) the state conveyed by transfer agreement certain tide and submerged lands to the City and County of San Francisco, in trust for purposes of commerce, navigation, and fisheries, and subject to the terms and conditions specified in that act.

(b) Certain portions of the tide and submerged lands, being Seawall Lots 331, 332, and 333, including Fremont Street between the southeasterly line of Brannan Street and the westerly line of the Embarcadero, as shown on the map of the lands transferred in trust to the City and County of San Francisco, which was recorded May 14, 1976, in Book W of official records at pages 66 to 72, inclusive, in the Office of the Recorder of the City and County of San Francisco, have been filled and reclaimed as a result of a plan of improvement for harbor development. The lots are irregular in shape, are cut off from access to waters of San Francisco Bay, constitute a relatively small portion of the granted tide and submerged lands, and, except for the production of revenue to support the statutory trust purposes in furtherance of which the tide and submerged lands are held by the city and county, are no longer needed or required for the promotion of the public trust for commerce, navigation, and fisheries or the statutory trusts.

(c) The city and county has approved the Rincon Point-South Beach Redevelopment Project, which is to be undertaken by the San Francisco Redevelopment Agency. Certain of the lands included within the project area are tide and submerged lands, both filled and unfilled, held by the city and county under its grant from the state. These granted lands will be leased to the redevelopment agency for purposes of undertaking and completing the project. Upon completion of the Rincon Point-South Beach Redevelopment Project improvements, it is contemplated that the leasehold interest of the redevelopment agency will be terminated, and that the San Francisco Port Commission, which administers the granted lands on behalf of the city and county, will either reassume the direct administration of the granted lands, or succeed to the sublessor status of the redevelopment agency with regard to certain subleases executed in furtherance of the project. Among the project

improvements to the granted lands are a 683-berth marina and harbor complex, two major shoreline parks, and transportation improvements to the Embarcadero and other streets serving the granted lands. In addition, housing and commercial development is to take place within the project area as a whole, and portions of this development will be constructed on Seawall Lots 331, 332, and 333, including Fremont Street between the southeasterly line of Brannan Street and the westerly line of the Embarcadero. By reason of its superior financing methods, the redevelopment agency can immediately undertake and complete the marina and harbor complex, the shoreline parks, and the transportation improvements on the granted lands. It is unlikely that the port itself would be able to construct the improvements within a similar time period, given certain financial constraints and competing priorities regarding development of maritime port facilities. Upon completion of the project, the purposes of the Burton Act and the public trust will have been furthered to an extent beyond what could have been achieved absent implementation of the redevelopment project.

(d) Seawall Lots 331, 332, and 333, including Fremont Street between the southeasterly line of Brannan Street and the westerly line of the Embarcadero, should be freed of the public trust for commerce, navigation, and fisheries, but should continue to be held by the City and County of San Francisco in trust subject to the terms and conditions specified in the Burton Act, as amended, and subject to the terms and conditions of the transfer agreement executed pursuant to that act, except that there should be no restrictions on use, other than the use restrictions of the Rincon Point-South Beach Redevelopment Plan as long as applicable, and the requirement that the revenue derived from the leasing or administration of those seawall lots, including Fremont Street between the southeasterly line of Brannan Street and the westerly line of the Embarcadero, be deposited in a trust fund or funds created pursuant to Section 4 of the Burton Act, to be used solely for the furtherance of the purposes specifically authorized in that act.

(e) The release of the seawall lots, including Fremont Street between the southeasterly line of Brannan Street and the westerly line of the Embarcadero, from the public trust for commerce, navigation, and fisheries to the extent set forth in subdivision (d) is in the best interests of the people of this state.

SEC. 2. Seawall Lots 331, 332, and 333, including Fremont Street between the southeasterly line of Brannan Street and the westerly line of the Embarcadero, as shown on the map of the lands transferred in trust to the City and County of San Francisco, which was recorded May 14, 1976, in Book W of official records at pages 66 to 72, inclusive, in the Office of the Recorder of the City and County of San Francisco, being a portion of land conveyed in trust to the City and County of San Francisco pursuant to the Burton Act (Chapter 1333 of the Statutes of 1968), are hereby declared to be free from the public trust for commerce, navigation, and fisheries, but shall

continue to be held in trust by the city and county subject to the terms and conditions specified in the Burton Act, as amended, and subject to the terms and conditions of the transfer agreement executed pursuant to that act, except that there shall be no restrictions on use, other than the use restrictions of the Rincon Point-South Beach Redevelopment Plan as long as applicable, and other than the following:

(a) The revenues derived from leasing or administration of the described property shall be deposited in a trust fund or funds created pursuant to Section 4 of the Burton Act, and shall be used solely for the furtherance of the purposes specifically authorized in that act.

(b) Leases of the described property shall terminate not later than September 26, 2050, in accordance with the limitations of the Burton Act. The San Francisco Port Commission may release the property for additional periods, but is not required to do so.

(c) All leases, contracts, or other instruments entered into after May 1, 1987, between the San Francisco Port Commission and the redevelopment agency, the redevelopment agency and any other person or entity, or the San Francisco Port Commission and any other person or entity, conferring the right to use all or some portion of the described property shall be subject to the approval of the State Lands Commission in order to assure that the consideration received is consistent with prudent land management practices. For as long as the Rincon Point-South Beach Redevelopment Plan is applicable, this review shall take into consideration the use restrictions of the redevelopment plan. In reviewing those instruments, the State Lands Commission shall not substitute its judgment for that of the redevelopment agency, but shall approve the instrument unless it determines within 45 days after receipt of the instrument, that the instrument does not fall within the range of reasonable business judgments that conform to the standard set forth in this subdivision.

SEC. 3. Not later than the date of completion of the last of the improvements that are proposed by the Rincon Point-South Beach Redevelopment Project, the San Francisco Redevelopment Agency shall offer to terminate its master lease with the San Francisco Port Commission. The San Francisco Port Commission shall accept that offer to terminate the master lease unless to do so would not be in the best interests of the trust in furtherance of which the lands were granted to the city and county. If it desires to reject the offer to terminate, the San Francisco Port Commission shall first obtain the concurrence of the State Lands Commission that the acceptance would not be in the best interest of the trust. Nothing in this section shall prohibit the earlier termination of the master lease as to all or some portion of the property that is subject to the master lease, except that the San Francisco Port Commission shall not agree to an earlier termination of the master lease without first obtaining the concurrence of the State Lands Commission that the termination is in the best interest of the trust in furtherance of which the lands were granted to the city and county.

SEC. 4. Notwithstanding Sections 6701 and 6702 of the Public Resources Code, no amendment, modification, or revocation, in whole or in part, of the grant made to the City and County of San Francisco pursuant to the Burton Act shall impair or affect the rights or obligations of third parties, including lessees and lenders for value, under leases, contracts, or other instruments previously approved by the State Lands Commission pursuant to subdivision (c) of Section 2.

SEC. 5. (a) Subject to the requirements for state approval specified in subdivision (b), whenever it is determined by the City and County of San Francisco that there are other portions of the granted lands that have been filled and reclaimed, that are cut off from access to the waters of San Francisco Bay, that constitute a relatively small portion of the granted tide and submerged lands, and that are no longer needed or required for the promotion of the public trust for commerce, navigation, and fisheries or the statutory trust, and when it is further determined that no substantial interference with the trust uses and purposes will ensue, the city and county may exchange those lands with any state agency, political subdivision, person, entity, or corporation, or the United States, or any agency thereof, for lands of equal or greater value that are useful for the particular trust purposes specifically authorized in the Burton Act.

(b) No such exchange shall be effective unless and until the State Lands Commission does both of the following:

(1) Finds that the lands to be acquired by the City and County of San Francisco have a value equal to or greater than the value of the lands for which they are to be exchanged.

(2) Adopts a resolution of approval which finds and declares that the granted lands have been filled and reclaimed, are cut off from access to the waters of San Francisco Bay, constitute a relatively small portion of the lands granted to the city and county, and are no longer needed or required for the promotion of the public trust for commerce, navigation, and fisheries or the statutory trust, and further, that no substantial interference with the trust uses and purposes will ensue by virtue of the exchange. Upon adoption of the resolution, the granted land shall thereupon be free from the public trust for commerce, navigation, and fisheries, and the lands received in exchange shall be held subject to the public trust and to the terms of the Burton Act.

(c) Exchanges made pursuant to this section are hereby found to be of statewide significance and importance, and, therefore, any ordinance, charter provision, or other provision of local law inconsistent with this section shall not be applicable to the exchange.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Certain of the lands granted by the state pursuant to the Burton Act are proposed to be more fully used by the City and County of

San Francisco as part of a redevelopment project that will maximize benefit to the trust purposes in furtherance of which the granted lands are held. The project will substantially and immediately further those trust purposes to an extent that would not be possible in the absence of the project. Procedures leading to the execution of the leases are rapidly approaching completion, thus necessitating an immediate clarification of the uses to be made of the land under the Burton Act in order to avoid prolonged delays in realizing the fullest use of those lands for the maximum benefit of the statutory trust purposes. It is necessary, therefore, that this act take effect immediately.

CHAPTER 311

An act to amend Section 56221 of, to amend, add, and repeal Sections 56001 and 56026 of, and to add and repeal Chapter 4.45 (commencing with Section 56440) to Part 30 of, the Education Code, relating to education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares all of the following:

(a) That approximately 18,000 handicapped children in California between the ages of three and five years, inclusive, would benefit from special education and services under Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413, and 1419) over the next four years.

(b) That preschool services for individuals with exceptional needs help enhance intelligence in children; produce substantial gains in physical development, cognitive development, language and speech development, psychosocial development, and self-help skills development; help prevent the development of secondary handicapping conditions; reduce family stress; reduce societal dependency and institutionalization; reduce the need for special class placement in special education programs once the children reach school age; and save substantial costs to society and our schools.

(c) That California will lose substantial federal funding if the state does not participate in Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413, and 1419), and stands to gain a minimum of twenty-two million dollars ($22,000,000) in the 1987–88 school year in new federal funds if California participates in the new handicapped preschool grant program.

(d) That by serving an additional 18,000 handicapped preschoolers over the next four years, the early intervention investment would result in a significant cost avoidance for the state over the educational years of these children.

SEC. 2. Section 56001 of the Education Code is amended to read:

56001. It is the intent of the Legislature that special education programs provide all of the following:

(a) Each individual with exceptional needs is assured an education appropriate to his or her needs in publicly supported programs through completion of his or her prescribed course of study or until the time that he or she has met proficiency standards prescribed pursuant to Sections 51215 and 51216.

(b) By June 30, 1991, early educational opportunities shall be available to all children between the ages of three and five years, inclusive, who require special education and services.

(c) Early educational opportunities may be made available to children younger than three years of age who require intensive special education and services and their parents.

(d) Any child younger than five years, potentially eligible for special education shall be afforded the protections provided by this part and by federal law commencing with his or her referral for special education instruction and services.

(e) Each individual with exceptional needs shall have his or her educational goals, objectives, and special education and related services specified in a written individualized education program.

(f) Education programs are provided under an approved local plan for special education that sets forth the elements of the programs in accordance with this part. This plan for special education shall be developed cooperatively with input from the community advisory committee and appropriate representation from special and regular teachers and administrators selected by the groups they represent to ensure effective participation and communications.

(g) Individuals with exceptional needs are offered special assistance programs that promote maximum interaction with the general school population in a manner that is appropriate to the needs of both.

(h) Pupils be transferred out of special education programs when special education services are no longer needed.

(i) The unnecessary use of labels is avoided in providing special education and related services for individuals with exceptional needs.

(j) Procedures and materials for assessment and placement of individuals with exceptional needs shall be selected and administered so as not to be racially, culturally, or sexually discriminatory. No single assessment instrument shall be the sole criterion for determining placement of a pupil. The procedures and materials for assessment and placement shall be in the individual's mode of communication. Procedures and materials for use with

pupils of limited English proficiency as defined in subdivision (m) of Section 52163, shall be in the individual's primary language. All assessment materials and procedures shall be selected and administered pursuant to Section 56320.

(k) Educational programs are coordinated with other public and private agencies, including preschools, child development programs, nonpublic, nonsectarian schools, regional occupational centers and programs and postsecondary and adult programs for individuals with exceptional needs.

(*l*) Psychological and health services for individuals with exceptional needs shall be available to each school site.

(m) Continuous evaluation of the effectiveness of these special education programs by the school district, special education local plan area, or county office shall be made to ensure the highest quality educational offerings.

(n) Appropriate qualified staff are employed, consistent with credentialing requirements, to fulfill the responsibilities of the local plan and that positive efforts to employ qualified handicapped individuals are made.

(o) Regular and special education personnel are adequately prepared to provide educational instruction and services to individuals with exceptional needs.

(p) This section shall remain in effect only until California terminates its participation in special education programs for individuals with exceptional needs between the ages of three and five years, pursuant to Section 56448, and as of that date is repealed.

SEC. 3. Section 56001 is added to the Education Code, to read:

56001. It is the intent of the Legislature that special education programs provide all of the following:

(a) Each individual with exceptional needs is assured an education appropriate to his or her needs in publicly supported programs through completion of his or her prescribed course of study or until the time that he or she has met proficiency standards prescribed pursuant to Sections 51215 and 51216.

(h) Pupils be transferred out of special education programs when special education services are no longer needed.

(i) The unnecessary use of labels is avoided in providing special education and related services for individuals with exceptional needs.

(j) Procedures and materials for assessment and placement of individuals with exceptional needs shall be selected and administered so as not to be racially, culturally, or sexually discriminatory. (2) Review, at a regular education or special education teacher's request, of the assignment of an individual with exceptional needs to his or her class and a mandatory meeting of the individualized education program team if the review indicates a change in the pupil's placement, instruction, related services, or any combination

CHAPTER 4.45. SPECIAL EDUCATION PROGRAMS FOR INDIVIDUALS WITH EXCEPTIONAL NEEDS BETWEEN THE AGES OF THREE AND FIVE YEARS, INCLUSIVE

56440. (a) Each special education local plan area shall submit a plan to the superintendent by September 1, 1987, for providing special education and services to individuals with exceptional needs, as defined by the State Board of Education, who are between the ages of three and five years, inclusive, who do not require intensive special education and services but who would be eligible for special education and services under Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413, and 1419).

(b) The superintendent shall provide for a four-year phase-in of the individuals with exceptional needs qualifying for special education and services under Public Law 99-457, who do not require intensive special education and services, through an application process to be developed by the superintendent.

(c) All individuals with exceptional needs between the ages of three and five years, inclusive, identified in subdivision (a) shall be served by the districts and county offices within each special education local plan area by June 30, 1991, to the extent required under federal law and pursuant to the local plan and application approved by the superintendent.

(d) Individuals with exceptional needs between the ages of three

and five years, inclusive, who are identified by the district, special education local plan area, or county office as requiring intensive special education and services, as defined by the State Board of Education, shall be eligible for special education and services pursuant to this part and shall not be subject to any phase-in plan.

(e) In special education local plan areas where individuals with exceptional needs between the ages of three and five, inclusive, who do not require intensive special education and services, are expected to have an increased demand on school facilities as a result of projected growth, pursuant to this chapter, the special education local plan area director shall submit a written report on the impacted local educational agencies to the State Allocation Board by December 1, 1987. The State Allocation Board shall assess the situation and explore ways of resolving the school facilities impaction situation.

(f) The superintendent shall provide technical assistance to local educational agencies in order to help identify suitable alternative instructional settings to alleviate the school facilities impact situation. Alternative instructional settings may include, but are not limited to, state preschool programs, or the child's home. Nothing in this chapter shall cause the displacement of children currently enrolled in these settings.

56441. The Legislature hereby finds and declares that early education programs for individuals with exceptional needs between the ages of three and five years, inclusive, which provide special education and related services within the typical environment appropriate for young children, and include active parent involvement, may:

(a) Significantly reduce the potential impact of any handicapping conditions.

(b) Produce substantial gains in physical development, cognitive development, language and speech development, psychosocial development, and self-help skills development.

(c) Help prevent the development of secondary handicapping conditions.

(d) Reduce family stresses.

(e) Reduce societal dependency and institutionalization.

(f) Reduce the need for special class placement in special education programs once the children reach school age.

(g) Save substantial costs to society and our schools.

56441.1. (a) Services rendered by state and local agencies serving preschool children with exceptional needs and their families shall be provided in coordination with other state and local agencies. Educational agencies offering similar educational services shall coordinate and not duplicate these services. The Superintendent of Public Instruction shall identify similar services by other state and local agencies. Any child identified as currently being served and qualified as an individual with exceptional needs as defined in Section 56026, and who meets the eligibility criteria of Section

56441.11 shall be counted as an individual under the funding cap prescribed by Section 56447.

(b) As the preschool child approaches the age to enter an elementary school environment, the child's preparation shall be geared toward a readiness for kindergarten and later school success.

56441.2. An early education program for individuals with exceptional needs between the ages of three and five, inclusive, shall include specially designed services to meet the unique needs of preschool children and their families. To meet this purpose, the program focus is on the young child and his or her family and shall include both individual and small group services which shall be available in a variety of typical age-appropriate environments for young children, including the home, and shall include opportunities for active parent involvement.

56441.3. (a) Early education services for preschool children may be provided to individuals or small groups and shall include:

(1) Observing and monitoring the child's behavior and development in his or her environment.

(2) Presenting activities that are developmentally appropriate for the preschool child and are specially designed, based on the child's exceptional needs, to enhance the child's development. Those activities shall be developed to conform with the child's individualized education program and shall be developed so that they do not conflict with his or her medical needs.

(3) Interacting and consulting with the family members, regular preschool teachers, and other service providers, as needed, to demonstrate developmentally appropriate activities necessary to implement the child's individualized education program in the appropriate setting pursuant to Section 56441.4 and necessary to reinforce the expansion of his or her skills in order to promote the child's educational development. These interactions and consultations may include family involvement activities.

(4) Assisting parents to seek and coordinate other services in their community that may be provided to their child by various agencies.

(5) Providing opportunities for young children to participate in play and exploration activities, to develop self-esteem, and to develop preacademic skills.

(6) Providing access to various developmentally appropriate equipment and specialized materials.

(7) Providing related services as defined in Section 300.13 of Title 34 of the Code of Federal Regulations, that include parent counseling and training to help parents understand the special needs of their children and their children's development, as that section read on May 1, 1987.

(b) The duration of group services shall not exceed four hours per day unless determined otherwise by the individualized education program team.

56441.4. Appropriate settings for these services include:

(a) The regular public or private nonsectarian preschool

program.

(b) The child development center or family day care home.

(c) The child's regular environment, which may include the home.

(d) A special site where preschool programs for both handicapped and nonhandicapped children are located close to each other and have an opportunity to share resources and programming.

(e) A special education preschool program with nonhandicapped children attending and participating for all or part of the program.

(f) A public school setting which provides an age-appropriate environment, materials, and services, as defined by the superintendent.

56441.5. Appropriate instructional adult-to-child ratios for group services shall be dependent on the needs of the child, however, because of the unique needs of individuals with exceptional needs between the ages of three and five years, inclusive, who require special education and related services, the number of children per instructional adult shall be less than ratios set forth in subdivision (b) of Section 18204 of Title 5 of the California Administrative Code as it read on May 1, 1987, for young children in a regular preschool program. Group services provided to individuals with exceptional needs between the ages of three and five years, inclusive, identified as severely handicapped pursuant to Section 56030.5 shall not exceed an instructional adult-to-child ratio of one to five.

56441.6. Early education services for preschool children shall be provided through a transdisciplinary team approach of professionals as described in Section 56426.6. Responsibilities of early education program staff shall include consultation with regular preschool program providers, consultation with other specialists, assessment services, and direct services.

56441.7. (a) The maximum caseload for a speech and language specialist providing services exclusively to individuals with exceptional needs, between the ages of three and five years, inclusive, as defined in Section 56441.11 or 56026, shall not exceed a count of 40.

(b) The superintendent shall issue caseload guidelines or proposed regulations to local educational agencies for individuals with exceptional needs between the ages of three and five years, inclusive, by January 1, 1988.

56441.8. Early education services for preschoolers may be provided by any of the following methods:

(a) Directly by a local educational agency.

(b) Through an interagency agreement between a local educational agency and another public agency.

(c) Through a contract with another public agency pursuant to Section 56369.

(d) Through a contract with a certified nonpublic, nonsectarian school; or nonpublic, nonprofit agency pursuant to Section 56366.

(e) Through a contract with a nonsectarian hospital in accordance

with Section 56361.5.

56441.9. Contracts or agreements with agencies identified in Section 56441.8 are strongly encouraged when these services are currently provided by another agency, and when found to be a cost-effective means of providing the services. The placement of an individual preschool child under any of these contracts shall not require specific approval by the governing board of the school district or the county superintendent of schools.

56441.10. Early education services for preschoolers provided under this chapter shall not be funded pursuant to any of Sections 56740 to 56743, inclusive, unless a waiver of this section is approved by the superintendent.

56441.11. Individuals with exceptional needs between the ages of three and five years, inclusive, shall meet the requirements of Section 56026 or shall satisfy all of the following:

(a) They shall be identified by an individualized education program team as a handicapped child as that term was defined in subsection (1) of Section 1401 of Title 20 of the United States Code as it read July 1, 1980.

(b) Their impairment, as described by subdivision (a), requires instruction or services, or both, which cannot be provided with modification of a regular preschool program or of a child's home environment, or both.

(c) They shall fall within one of the following:

(1) They meet eligibility criteria set forth in subdivisions (a) and (b), paragraphs (2) and (3) of subdivision (c), and subdivisions (d) to (i), inclusive, of Section 3030 of Title 5 of the California Administrative Code as it read on May 1, 1987.

(2) They have a disorder in one or more basic psychological processes involved in understanding or using language as defined in paragraph (1) of subdivision (j) of Section 3030 of Title 5 of the California Administrative Code as it read on May 1, 1987, which may manifest itself in an impaired ability to listen, think, speak, or develop preacademic skills. They have a discrepancy of at least 25 percent between their cognitive development and their development in one or more of the following areas: gross or fine motor, receptive language, expressive language, and school readiness. School readiness includes those skills that lead to the ability to read, write, spell, do mathematical calculations, and understand or use spoken language. The decision as to whether or not a discrepancy exists shall be made by the individualized education program team.

(3) They have an articulation disorder displaying reduced intelligibility or an inability to use the speech mechanism that significantly interferes with communication and attracts adverse attention. Significant interference occurs when the child's developmental scale of articulation competency is six months or more below that expected for his or her chronological age or developmental level.

(4) They have a language disorder that results in a significant delay in their language development. A significant delay occurs when one area of the child's language development is at least 25 percent below his or her chronological age or developmental level. Areas of language development include receptive and expressive language in the areas of phonology, morphology, syntax, semantics, and pragmatics.

(d) Unless handicapped within the meaning of subdivisions (a) to (c), inclusive, children whose educational needs are due primarily to unfamiliarity with the English language; temporary physical disabilities; social maladjustment; or maturational, environmental, cultural, or economic factors are not individuals with exceptional needs.

(e) When standardized tests are considered invalid for children ages three and five years, inclusive, alternative means, such as scales, instruments, observations, and interviews shall be used as specified in the assessment plan.

56441.12. By June 30, 1989, the superintendent shall evaluate the effectiveness of Section 56441.11 for identification of preschool children with exceptional needs and recommend legislative changes as needed.

56441.13. The superintendent shall provide training and technical assistance for the implementation of early education programs for preschool children with exceptional needs, and shall develop:

(a) Methods and models for modifications to the regular program prior to referral.

(b) Guidelines for program providers.

(c) Curriculum and content for programs.

(d) Personnel standards for program providers.

(e) A plan to meet the unique needs of preschool children who require special education services and who are limited-English proficient and of diverse cultural backgrounds.

56441.14. Criteria and options for meeting the special education transportation needs of individuals with exceptional needs between the ages of three and five, inclusive, shall be included in the local transportation policy required pursuant to paragraph (5) of subdivision (b) of Section 56221.

56442. The superintendent shall ensure that state preschool programs and programs for individuals with exceptional needs between the ages of three and five years, inclusive, provided pursuant to this part, are coordinated at the state and local levels.

56443. (a) The State Department of Education shall amend its interagency agreement with the Administration for Children, Youth, and Families, Region IX, Head Start, United States Department of Health and Human Services, to permit a district, special education local plan area, or county office to contract with a Head Start program for special education and services for individuals with exceptional needs between the ages of three and five years pursuant

to this part.

(b) Apportionments allocated to Head Start programs for special education and services to individuals with exceptional needs between the ages of three and five years shall supplement and not supplant funds for which the Head Start programs are eligible, or are already receiving, from other funding sources.

56444. As part of the annual evaluation of special education programs pursuant to Section 56602, the superintendent shall conduct an evaluation of the effectiveness of the expanded preschool programs for individuals with exceptional needs between the ages of three and five years, inclusive, who do not require intensive special education and services. The evaluation shall be conducted over a five-year period, from the 1987–88 school year through the 1991–92 school year. The evaluation shall contain, but not be limited to, data on numbers and types of pupils who do not enter special education programs at kindergarten, or first grade as the case may be, but who received special education and services pursuant to this part, in a preschool program.

56445. (a) Prior to transitioning an individual with exceptional needs from a preschool program to kindergarten, or first grade as the case may be, an appropriate reassessment of the individual shall be conducted pursuant to Article 2 (commencing with Section 56320) of Chapter 4 to determine if the individual is still in need of special education and services.

(b) It is the intent of the Legislature that gains made in the special education program for individuals who received special education and services, in accordance with this chapter, are not lost by too rapid a removal of individualized programs and supports for these individuals.

(c) As part of the transitioning process, a means of monitoring continued success of the child shall be identified by the individualized education program team for those children of kindergarten or first grade equivalency who are determined to be eligible for less intensive special education programs.

(d) As part of the exit process from special education, the present performance levels and learning style shall be noted by the individualized education program team. This information shall be made available to the assigned regular education teacher upon the child's enrollment in kindergarten or first grade as the case may be.

56446. (a) The superintendent shall develop a funding formula for the distribution of federal funds under Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413, and 1419) to local providers. The funding formula shall be developed in consultation with the Legislative Analyst and the Director of Finance. The funding formula shall include a provision to address planning and development, program startup costs, including asessments and equipment, staff development, rental or leasing of facilities, and transportation. The funding formula shall also allow federal incentive

funds generated under Title II of Public Law 99-457 to be carried over by the local educational agencies from year to year during the phase-in fiscal years of 1987–88 to 1990–91, inclusive. Any carry over funds shall be reported to the superintendent. The federal incentive funds for this program received for individuals with exceptional needs between the ages of three and five years, inclusive, who are not identified as having intensive needs, shall not be included for purposes of subdivision (a) of Section 56712, including additional funds received for these children under Public Law 94-142 (20 U.S.C. Secs. 1232, 1401, 1405, 1406, 1411–1420, incl., and 1453). These individuals shall not be included in the enrollment counts or computations prescribed by Section 56728.6.

(b) The superintendent shall report to the Joint Legislative Budget Committee and the Department of Finance annually on or before October 15 on the implementation of Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413 and 1419). The report shall include, but not be limited to, the status of the phase-in plan, number of children being served, projected number of children to be served in the next school year, and anticipated federal funding for the next school year. This subdivision shall remain operative only until January 1, 1992, unless a later enacted statute, which is chaptered on or before January 1, 1992, deletes or extends that date.

(c) Public special education funding shall not be used to purchase regular preschool services or to purchase any instructional service other than special education and services permitted by this chapter.

56447. (a) The superintendent shall adopt rules and regulations to ensure that apportionments, inclusive of federal funds, for all individuals with exceptional needs between the ages of three and five years, inclusive, shall be paid to the extent permitted by federal law for no more than 3 percent of the statewide population of all children between the ages of three and five years, inclusive, as determined in the demographics prepared by the Department of Finance in the 1990–91 fiscal year.

(b) Individuals with exceptional needs served under this chapter shall not be subject to subdivision (a) of Section 56760. However, individuals with intensive needs and appropriate instructional personnel service units required to provide educational services to individuals with exceptional needs shall be included in the computations prescribed in Section 56728.6.

56447.1. (a) Nothing in this chapter shall be construed to limit the responsibility of noneducational public agencies in the State of California from providing or paying for some or all of the costs of a free appropriate public education for individuals with exceptional needs between the ages of three and five years, inclusive.

(b) Nothing in this chapter shall be construed to permit a noneducational public agency to reduce medical and other assistance available or to alter eligibility under Titles V and XIX of the Social Security Act (Subchapter V (commencing with Section 701) and

Subchapter XIX (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code) with respect to the provision of a free appropriate public education for individuals with exceptional needs between the ages of three and five years, inclusive, within the State of California.

56448. If the federal government fails to fund the authorized level of Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413, and 1419) during the federal fiscal year of 1988, or any fiscal year thereafter, California shall terminate its participation in this program.

56449. This chapter shall remain in effect only until California terminates its participation in special education programs for individuals with exceptional needs between the ages of three and five years, pursuant to Section 56448, and as of that date is repealed.

SEC. 7. Within 30 days of the termination of California's participation in special education programs for individuals with exceptional needs between the ages of three and five years, pursuant to Section 56448 of the Education Code, the Superintendent of Public Instruction shall transmit a written notice certifying this fact to the Legislature and to the Secretary of State.

SEC. 8. For the 1987–88 fiscal year, funds shall be allocated from the money received under Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. For the 1988–89 fiscal year and each fiscal year thereafter, funding shall be determined annually in the Budget Act.

SEC. 9. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 10. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to permit California to receive federal funding in July 1987 under the new handicapped preschool grants program for the 1987–88 school year authorized under Title II of the Education of the Handicapped Act Amendments of 1986, Public Law 99-457 (20 U.S.C. Secs. 1411, 1412, 1413, and 1419), it is necessary for this act to take effect immediately.

(b) Reinstatement shall be undertaken subject to board rule.

(c) Reinstatement shall be undertaken within three years if the employee, at the time of separation, was a member of the California Highway Patrol.

An appointing power may transfer any employee under his or her jurisdiction: (a) to another position in the same class; or (b) from one location to another whether in the same position, or in a different position as specified above in (a) or in Section 19050.5. When a transfer under this section or Section 19050.5 reasonably requires an employee to change his or her place of residence, the appointing power shall give the employee, unless the employee waives this right, a written notice of transfer 60 days in advance of the effective date of the transfer. Unless the employee waives this right, the appointing power shall provide to the employee 60 days prior to the effective date of the transfer a written notice setting forth in clear and concise language the reasons why the employee is being transferred.

If this section is in conflict with a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the memorandum of understanding requires the expenditure of funds, it shall not become effective unless approved by the Legislature in the annual Budget Act.

SEC. 6. Section 19994.5 of the Government Code is amended and renumbered to read:

19050.3. Transfer of an employee from a position under one appointing power to a position under another appointing power may be made, subject to board rule.

19050.4. With the approval of the board, an employee may be transferred from a position in one class to a position in another class involving substantially the same level of duties, responsibility and salary but requiring additional or different special requirements. The board may require the employee to demonstrate in an examination conducted by the board that he or she possesses the additional or different requirements.

SEC. 8. Section 19994.7 of the Government Code is amended and renumbered to read:

19050.6. Any transfer of an employee from a position in a lower class to a position in a higher class is a promotion and any transfer of an employee from a position in a higher class to a position in a lower class is a demotion and may be accomplished only in the manner provided for making promotional or demotional appointments.

SEC. 9. Section 19994.8 of the Government Code is amended and renumbered to read:

19050.7. Whenever any position is changed by the adoption of new, different or additional machines or processes while the purpose or product is the same or similar in nature, any civil service employee affected shall be given reasonable opportunity without change in

class, status, or salary to learn to do the work with the new machine or process and to qualify for status in the different class of position required for the work; provided, that an employee shall not be promoted to a higher class under this section. An employee who qualifies for appointment in the different class shall be deemed to possess the specific education, experience, or other requirements for that class and shall be appointed thereto with the same status and seniority which he or she last had in his or her previous class.

An employee shall be deemed to be affected under this section if the adoption of the new, different or additional machines or processes results in his or her being laid off and if laid off that employee shall have the same opportunity to qualify for appointment to any vacancy in the same class or any new class created because of the adoption of the new, different or additional machines or processes as any other employee affected by this section who was not laid off.

The board may prescribe rules and procedures and make determinations for carrying out this section including provisions for such examinations and tests of fitness as are deemed appropriate.

SEC. 10. Section 19994.9 of the Government Code is amended and renumbered to read:

(a) To provide training to employees.

(b) To enable an agency to obtain expertise needed to meet a compelling program or management need.

(c) To facilitate the return of injured employees to work.

These temporary assignments or loans shall be deemed to be in accord with this part limiting employees to duties consistent with their class and may be used to meet minimum requirements for promotional as well as open examinations. An employee participating in that arrangement shall have the absolute right to return to his or her former position. Any temporary assignment or loan of an employee made for the purpose specified in subdivision (b) shall be made only with the voluntary consent of the employee.

In addition, out-of-class experience obtained in a manner not described in this section may be used to meet minimum requirements for promotional as well as open examinations, only if it was obtained by the employee in good faith and was properly verified under standards prescribed by board rule.

CHAPTER 317

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 14051 of the Government Code is amended to read:

14051. (a) At the commencement of each regular session of the Legislature, the department shall submit to the Legislature a report summarizing information required under, and programs authorized by, Sections 118.6, 216, and 820 of, and Article 3.5 (commencing with Section 156) of Chapter 1 of Division 1 of, the Streets and Highways Code.

(b) Information on other program activities may be included in the biennial report at the discretion of the department.

(c) The report required by this section shall also include all of the following:

(1) An evaluation of significant air transportation issues anticipated to be of public concern during the five-year period commencing January 1 of the year preceding the date for submission of the report and beyond.

(2) Recommended modifications to state and federal law, where appropriate.

(3) An overview of necessary future investments in the development and maintenance of the state's air transportation system.

(4) An analysis of the department's organizational and staff needs relative to its air transportation responsibilities.

(5) A review of state aeronautics policy.

In preparing the portion of the report required by this subdivision, the department shall fully consider and incorporate air transportation needs as identified by local government and the private sector, as well as the need to fully integrate air transportation

issues and concerns into the mission of the department.

(d) The report required by this section shall also include all of the following:

(1) The status of alternative technologies in transportation, including, but not limited to, the efforts made in research development. The alternative technologies reported on shall seek to improve public safety, energy efficiency, and air quality.

(2) Alternatives to fossil fuels to power transportation devices, including alternative methods of propulsion of motor vehicles.

SEC. 2. Section 300 of the Streets and Highways Code is repealed.

SEC. 3. Section 300 is added to the Streets and Highways Code, to read:

300. The state highway system shall consist of the routes described in this article.

It is the intent of the Legislature, in enacting this article, that the routes of the state highway system serve the state's heavily traveled rural and urban corridors, that they connect the communities and regions of the state, and that they serve the state's economy by connecting centers of commerce, industry, agriculture, mineral wealth, and recreation.

SEC. 4. Section 640 of the Streets and Highways Code is repealed.

SEC. 5. Section 2544 of the Streets and Highways Code is amended to read:

2544. The department shall prepare and submit to the Legislature not later than July 1, 1976, a priority list of abandoned railroad lines having rights-of-way that may be developed for public transportation uses.

In preparing the list, the department shall consider the State Rail Plan prepared pursuant to Section 7701 of the Public Utilities Code and shall also consult with any city, county, transit district, or regional transportation planning entity within whose boundaries those abandoned railroad lines are located.

The department may consider contributions by local agencies toward the purchase of those rights-of-way as a factor in ranking the rights-of-way on the priority list.

CHAPTER 318

An act to amend Section 52612 of, and to add Section 52613 to, the Education Code, relating to adult education.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature to provide the maximum number of English language classes to the state's linguistic

minorities so that they may acquire the essential English and basic literacy skills, and orientation to civic responsibility.

The Legislature finds that, presently, foreign students enter the United States under an F-1 Visa in order to attend schools, colleges, and universities with the intention and stated purpose of returning to their country of origin upon completion of their studies.

The Legislature further finds that in order to acquire an F-1 Visa, students must first guarantee sufficient financial support and income to pay for their education and must vow not to become a burden to the state or federal government. Accordingly, it is clearly the policy of the federal government that these foreign students accept full financial responsibility for their education while in the United States.

The Legislature further finds that many students who lack adequate language skills are taking advantage of English as a second language classes offered by public adult schools at the taxpayers' expense.

The Legislature further finds that private language schools and English language classes offered through extension programs by the University of California for the California community colleges are available on a fee basis to foreign students wishing to increase their English language proficiency.

The Legislature also finds that the number of available spaces in public adult education English language and literacy skills classes is severely insufficient to meet the needs of California's growing linguistic minorities and immigrant populations. F-1 Visa students are presently occupying valuable classroom space, thereby preventing California citizens and potential citizens from receiving these services.

It is the intent of the Legislature that public adult education schools operated by high school districts or funded through the adult education budget be prohibited from providing English as a second language, basic language or literacy skills training, or fundamental citizenship classes to F-1 Visa students, unless these students are charged and pay a fee to cover the full cost of the instruction.

SEC. 2. Section 52612 of the Education Code is amended to read:

52612. Except as specified in this section, an adult enrolled in a class for adults may be required by the governing board of the district maintaining the class to pay a fee for the class. Except as specified in Section 52613, no charge of any kind shall be made for a class in English and citizenship for foreigners or a class in an elementary subject. No fee charge shall be made for a class designated by the governing board as a class for which high school credit is granted when the class is taken by a person who does not hold a high school diploma. The total of the fees required and revenues derived from average daily attendance shall not exceed the estimated cost of all such classes maintained, including the reserves authorized by Section 52501.5.

All textbooks and classroom materials furnished without charge under this section may also be offered for sale at the school bookstore.

SEC. 3. Section 52613 is added to the Education Code, to read:

52613. (a) Notwithstanding any section to the contrary, each governing board of a school district maintaining classes for adults that issues a Certificate of Eligibility for Nonimmigrant (F-1) Student Status - For Academic and Language Students, Form I-20AB, or completes Form I-20AB for a nonimmigrant alien, as defined in subparagraph (F) (i) of paragraph (15) of subsection (a) of Section 1101 of Title 8 of the United States Code, for the purposes of enrolling the nonimmigrant alien in a class in English and citizenship for foreigners or a class in an elementary subject, shall charge the nonimmigrant alien a fee to cover the full costs of instruction, but in no case shall the fee exceed the actual cost of the instruction. The fee shall be adopted at a regular meeting of the governing board of each of these school districts maintaining classes for adults at least 90 days prior to the commencement of the classes for which the fee is charged.

(b) No district maintaining classes for adults shall include the attendance of F-1 visa students enrolled in a class in English and citizenship for foreigners or in a class in elementary subjects for apportionment purposes.

SEC. 4. Sections 1 to 3, inclusive, of this act shall become operative July 1, 1988.

CHAPTER 319

An act to amend Sections 21100.2 and 21151.5 of the Public Resources Code, relating to environmental quality.

[Approved by Governor July 29, 1987. Filed with Secretary of State July 30, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 21100.2 of the Public Resources Code is amended to read:

21100.2. Each state agency shall establish, by resolution or order, time limits, not to exceed one year for completing and certifying environmental impact reports, and 105 days for negative declarations, for projects described in subdivision (c) of Section 21065. The time limits shall apply only to those circumstances in which the state agency is the lead agency for a project. These resolutions or orders may establish different time limits for different types or classes of projects, but all limits shall be measured from the date on which an application requesting approval of the project is received and accepted as complete by the state agency. No application for a project may be deemed incomplete for lack of a waiver of time period prescribed in state regulations. The resolutions or orders required by this section may provide for a reasonable

extension of the time period in the event that compelling circumstances justify additional time and the project applicant consents thereto.

SEC. 2. Section 21151.5 of the Public Resources Code is amended to read:

21151.5. Each local agency shall establish, by ordinance or resolution, time limits, not to exceed one year for completing and certifying environmental impact reports, and 105 days for completing negative declarations, for projects described in subdivision (c) of Section 21065. These time limits shall apply only to those circumstances in which the local agency is the lead agency for a project. These ordinances or resolutions may establish different time limits for different types or classes of projects, but all limits shall be measured from the date on which an application requesting approval of the project is received and accepted as complete by the local agency. No application for a project may be deemed incomplete for lack of a waiver of time periods prescribed by local ordinance or resolution.

The ordinances or resolutions required by this section may provide for a reasonable extension of the time period in the event that compelling circumstances justify additional time and the project applicant consents thereto.

CHAPTER 320

An act to amend Section 10406 of, to add Sections 10406.5 and 10496 to, and to repeal Section 10491 of, the Food and Agricultural Code, relating to agriculture, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 29, 1987 Filed with Secretary of State July 30, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that brucellosis is a severe and debilitating disease in human beings and is a serious disease of cattle, swine, sheep, and goats. Elimination of brucellosis in California is of public benefit since human beings contract the disease directly from animals or their products, and it is necessary to provide protection to both the livestock industry and the public health.

The Legislature further finds that the existing brucellosis program, which has successfully controlled the disease to a very low prevalence rate, has not resulted in the complete eradication of the disease in California and that more aggressive measures are necessary to achieve that desired goal.

The Legislature, therefore, declares that livestock infected with or

exposed to brucellosis are a public nuisance as a threat to other livestock and to human health, and that the eradication of brucellosis must be expedited.

It is, therefore, the intent of the Legislature that the owner of an infected herd of cattle who does not diligently pursue the eradication of brucellosis from his or her herd in cooperation with his or her veterinarian, other cattle ranchers and dairy farmers, and the Department of Food and Agriculture, shall be responsible for paying the full costs for all brucellosis eradication efforts in the herd in accordance with Chapter 3 (commencing with Section 10301) of Part 2 of Division 5 of the Food and Agricultural Code. Payment of those costs does not excuse compliance with any provision of law and regulations and orders of the Director of Food and Agriculture and is not a defense in criminal or civil actions.

SEC. 2. Section 10406 of the Food and Agricultural Code is amended to read:

10406. Indemnity shall not be paid to any person in any of the following cases:

(a) For any steer or grade bull which is determined to be a reactor.

(b) For any bovine animal which is brought into a brucellosis control area, that reacts to a brucellosis test which is applied within 90 days after the arrival of the animal in the area as provided for in this chapter.

(c) For any bovine animal which is brought into a brucellosis control area, in violation of any law, any regulation of the department, or any rule or regulation of the United States Department of Agriculture.

(d) For any reacting bovine animal, until the premises, where the animal had been kept, have been cleaned and disinfected by the owner in a manner which is approved by an agent of the department or of the United States Department of Agriculture.

(e) For any reacting bovine animal which is not slaughtered within 30 days after the animal was appraised.

(f) For any animal which is owned by the United States, this state, or any county or city in the state.

(g) For any bovine animal which was vaccinated for brucellosis after reaching 12 months of age. However, indemnity shall be provided for any bovine animal that was vaccinated after reaching 12 months of age and that was part of an official whole herd adult vaccination plan approved by the director. "Official whole herd adult vaccination plan" means a plan, approved by the director, whereby all female cattle exceeding 12 months of age are vaccinated against brucellosis using a reduced dose of strain 19 vaccine and are identified with the appropriate tattoo symbols in the right ear.

(h) For any bovine animal in a herd which has been under an order to hold, issued pursuant to Section 9565, for more than 18 consecutive months, except as provided by subdivision (i).

(i) For any officially adult vaccinated bovine animal in a herd

which has been under an order to hold, issued pursuant to Section 9565, for more than 22 consecutive months.

(j) Notwithstanding subdivisions (h) and (i), the owner of a herd which, on the effective date of the act amending this section during the 1987–88 Regular Session, is under an order to hold, issued by the director prior to that effective date, shall be subject to this section 18 months from that effective date or 22 months from that effective date for officially adult vaccinated bovine animals.

(k) If the person has violated any provision of this chapter which relates to a brucellosis control area, or any regulation which is adopted by the department that relates to such an area.

SEC. 3. Section 10406.5 is added to the Food and Agricultural Code, to read:

10406.5. (a) The owner of a herd that is subject to subdivision (h) or (i) of Section 10406 may appeal to the director in writing, on a form as prescribed by the director, for continuation of indemnity payments.

(b) The director, upon receipt of an appeal made pursuant to subdivision (a), shall present the appeal to a review committee established as provided by Section 465 for the purpose of advising the director on issues related to animal health.

(c) The committee shall receive and evaluate information presented to them by industry members, state veterinarians, and other interested persons regarding the herd owner's compliance with the laws and regulations relating to brucellosis control and eradication, and shall submit a written recommendation to the director.

(d) Upon a determination that the herd owner was in full compliance with the laws and regulations, the director, notwithstanding Section 10406, may grant a continuation of indemnity payments to the herd owner for a period of time deemed appropriate by the director.

SEC. 4. Section 10491 of the Food and Agricultural Code is repealed.

SEC. 5. Section 10496 is added to the Food and Agricultural Code, to read:

10496. (a) An owner who fails to achieve eradication of brucellosis in his or her herd is responsible for the costs of maintaining the required testing schedule after 24 months from the date of an order to hold issued by the director pursuant to Section 9565. Evidence of eradication shall consist of a release from a hold issued by the director pursuant to Section 9567.

(b) If the director requires an infected herd to be officially adult vaccinated to control the spread of the disease, the time interval provided in subdivision (a) shall be extended from 24 to 28 months.

(c) Notwithstanding subdivisions (a) and (b), the owner of a herd which, on the effective date of this section, is under an order to hold, issued by the director prior to that effective date, shall be subject to this section 24 months from that effective date or 28 months from

that effective date for officially adult vaccinated herds.

(d) This section shall not apply to the owner of a herd that has been granted a continuation of indemnity payments as provided by Section 10406.5.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Brucellosis is a serious disease of cattle, swine, sheep, and goats, and human beings contract this debilitating disease directly from animals or their products. Brucellosis threatens the livestock industry and the public health. In order to implement an effective eradication program and to prevent economic loss to the general economy and to protect the public health of the State of California, it is necessary that this act take effect immediately.

CHAPTER 321

An act to amend Section 410 of the Health and Safety Code, to amend Sections 12506, 13208, and 14601 of, and to repeal and add Sections 12805 and 12806 of, the Vehicle Code, relating to vehicles.

[Approved by Governor July 29, 1987. Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 410 of the Health and Safety Code is amended to read:

410. (a) All physicians shall report immediately to the local health officer in writing, the name, date of birth, and address of every person diagnosed as a case of a disorder characterized by lapses of consciousness.

(b) The local health officer shall report in writing to the state department the name, age, and address, of every person reported to it as a case of a disorder characterized by lapses of consciousness.

(c) The state department shall report to the Department of Motor Vehicles the names, dates of birth, and addresses, of all persons reported as a case of a disorder characterized by lapses of consciousness by the physicians and local health officers.

(d) These reports shall be for the information of the State Department of Health Services and the Department of Motor Vehicles in enforcing the provisions of the Vehicle Code, and shall be kept confidential and used solely for the purpose of determining the eligibility of any person to operate a motor vehicle on the highways of this state.

(e) The state department shall define disorders characterized by lapses of consciousness for purposes of this section and shall include

Alzheimer's disease and related disorders in the definition.

SEC. 2. Section 12506 of the Vehicle Code is amended to read:

12506. The department may issue a temporary driver's license to any person applying for a driver's license, to any person applying for renewal of a driver's license, or to any licensee whose license is required to be changed, added to, or modified. Notwithstanding subdivision (b) of Section 12805, the department may issue a temporary driver's license to an applicant who has previously been licensed in this state or in any other state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Dominion of Canada, notwithstanding that the applicant has failed the written examination on the person's first attempt.

A temporary license permits the operation of a motor vehicle upon the highways for a period of 60 days, if the licensee has the temporary license in his or her immediate possession, and while the department is completing its investigation and determination of all facts relative to the applicant's right to receive a license. The temporary license is invalid when the applicant's license has been issued or refused.

SEC. 3. Section 12805 of the Vehicle Code is repealed.

SEC. 4. Section 12805 is added to the Vehicle Code, to read:

(e) Who holds a valid driver's license issued by a foreign jurisdiction unless the license has been surrendered to the department, or is lost or destroyed.

(f) Who has ever held, or is the holder of, a license to drive issued by another state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico, and that license has been suspended by reason, in whole or in part, of a conviction of a traffic violation until the suspension period has terminated, except that the department may issue a license to the applicant if, in the opinion of the department, it will be safe to issue a license to a person whose license to drive was suspended by a state which is not a party to the Driver License Compact provided for in Chapter 6 (commencing with Section 15000) of Division 6.

(g) Who has ever held, or is the holder of, a license to drive issued

by another state, territory, or possession of the United States, the District of Columbia or the Commonwealth of Puerto Rico, and that license has been revoked by reason, in whole or in part, of a conviction of a traffic violation, until the revocation has been terminated or after the expiration of one year from the date the license was revoked, whichever occurs first, except that the department may issue a license to the applicant if, in the opinion of the department, it will be safe to issue a license to a person whose license to drive was revoked by a state which is not a party to the Driver License Compact provided for in Chapter 6 (commencing with Section 15000) of Division 6.

SEC. 5. Section 12806 of the Vehicle Code is repealed.

SEC. 6. Section 12806 is added to the Vehicle Code, to read:

12806. The department may refuse to issue to, or renew a driver's license of, any person:

(a) Who is rendered incapable of safely operating a motor vehicle because of alcoholism, excessive and chronic use of alcoholic beverages, or addiction to, or habitual use of, any drug.

(b) Who is addicted to the use of narcotic drugs unless the person is participating in a methadone maintenance program approved pursuant to Article 3 (commencing with Section 4350) of Chapter 3 of Part 1 of Division 4 of the Welfare and Institutions Code, in which case the person may be issued a probationary license, subject to reasonable terms and conditions, if that drug usage does not affect the person's ability to exercise reasonable and ordinary control in operating a motor vehicle on the highway.

(c) Who has a disorder characterized by lapses of consciousness or who has experienced, within the last three years, either a lapse of consciousness or an episode of marked confusion caused by any condition which may bring about recurrent lapses, or who has any physical or mental disability, disease, or disorder which could affect the safe operation of a motor vehicle unless the department has medical information which indicates the person may safely operate a motor vehicle.

SEC. 7. Section 13208 of the Vehicle Code is amended to read:

13208. In any criminal proceeding, without regard to its disposition, wherein the defendant is charged with a violation of Division 11 (commencing with Section 21000), the court may, if it has reason to believe that any of the conditions specified in Section 12805 or 12806 exist, recommend to the department that an investigation be conducted to determine whether the driving privilege of that person should be suspended or revoked. In making the recommendation, the court shall state the basis for the belief that the condition exists and whether the defendant relied upon the condition as a part of his or her defense. The department may provide a form for the court's convenience.

Knowledge shall be presumed if notice has been given by the department to the person. The presumption established by this subdivision is a presumption affecting the burden of proof.

(b) Any person convicted under this section shall be punished as follows:

(1) Upon a first conviction, by imprisonment in the county jail for not less than five days or more than six months and by fine of not less than three hundred dollars ($300) or more than one thousand dollars ($1,000).

(2) If the offense occurred within five years of a prior offense which resulted in a conviction of a violation of this section or Section 14601.1 or 14601.2, by imprisonment in the county jail for not less than 10 days or more than one year and by fine of not less than five hundred dollars ($500) or more than two thousand dollars ($2,000).

(c) If the offense occurred within five years of a prior offense which resulted in a conviction of a violation of this section or Section 14601.1 or 14601.2 and is granted probation, the court shall impose as a condition of probation that the person be confined in the county jail for at least 10 days.

1334.2. If a judge of a court of record in any state, which by its laws has made provision for commanding persons within that state to attend and testify in this state, issues a certificate under the seal of the court that there is a criminal prosecution pending in the court, or that there is a grand jury investigation, that a person within this state is a material witness in that prosecution or grand jury investigation, and that his or her presence will be required for a specified number of days, then, upon presentation of the certificate to a judge of a court of record in the county in which the person is, a time and place for a hearing shall be fixed by the judge and he or she shall make an order directing the witness to appear at the hearing.

If at the hearing, the judge determines that the witness is material and necessary, that it will not cause undue hardship to the witness to be compelled to attend and testify in the prosecution or grand jury investigation in the other state, and that the laws of the state, in which the prosecution is pending or in which there is a grand jury investigation, will give to the witness protection from arrest and service of civil and criminal process and will furnish in advance to the witness the sum of ten cents ($0.10) for each mile necessarily traveled if the witness elects surface travel or the minimum round trip schedule airlines fare plus twenty cents ($0.20) a mile for necessary surface travel at either end of the flight if the witness elects air travel, and, except as provided in subdivision (b) of Section 1334.3, a per diem of twenty dollars ($20) for each day that he or she is required to travel and attend as a witness and that the judge of the court in which the witness is ordered to appear will order the payment of witness fees authorized by law for each day the witness is required to attend the court plus reimbursement for any additional expenses of the witness which the judge of the court in which the witness is ordered to appear shall find reasonable and necessary, he or she shall issue a subpoena, with a copy of the certificate attached, directing the witness to attend and testify in the court where the prosecution is pending, or where the grand jury investigation is, at a time and place specified in the subpoena. In any such hearing the certificate shall be prima facie evidence of all the facts stated therein.

If the certificate recommends that the witness be taken into immediate custody and delivered to an officer of the requesting state to assure his attendance therein, the judge may, in lieu of notification of the hearing, direct that the witness be forthwith brought before him or her for the hearing.

If the judge at the hearing, is satisfied of the desirability of the

custody and delivery, for which determination the certificate shall be prima facie proof of this desirability, he or she may, in lieu of issuing subpoena, order that the witness be forthwith taken into custody and delivered to an officer of the requesting state.

If the witness, who is subpoenaed as herein provided, after being paid or tendered by some properly authorized person the sum or fare, and per diem set forth in this section, fails without good cause to attend and testify as directed in the subpoena, he or she shall be punished in the manner provided for the punishment of any witness who disobeys a subpoena issued from a court of record in this state.

SEC. 3. Section 1334.3 of the Penal Code is amended to read:

1334.3. (a) If a person in any state, which by its laws has made provision for commanding persons within its borders to attend and testify in criminal prosecutions or grand jury investigations in this state, is a material witness in a prosecution pending in a court of record in this state, or in a grand jury investigation, a judge of such court may issue a certificate under the seal of the court stating these facts and specifying the number of days the witness will be required. This certificate shall be presented to a judge of a court of record in the county of such other state in which the witness is found.

If the certificate recommends that the witness be taken into immediate custody and delivered to an officer of this state to assure his or her attendance in this state, the judge may direct that the witness be forthwith brought before him or her. If the judge is satisfied of the desirability of the custody and delivery, for which determination the certificate shall be prima facie proof, he or she may order that the witness be forthwith taken into custody and delivered to an officer of this state. This order shall be sufficient authority to the officer to take the witness into custody and hold him or her unless and until he or she may be released by bail, recognizance, or order of the judge issuing the certificate.

If the witness is subpoenaed to attend and testify in this state, he or she shall be tendered the sum of ten cents ($0.10) for each mile necessarily traveled if the witness elects surface travel or the minimum round trip scheduled airlines fare plus twenty cents ($0.20) a mile for necessary surface travel at either end of the flight if the witness elects air travel, and except as provided in subdivision (b), a per diem of twenty dollars ($20) for each day that he or she is required to travel and attend as a witness. The judge of the court in which the witness is ordered to appear shall order the payment of witness fees authorized by law for each day the witness is required to attend the court plus reimbursement for any additional expenses of the witness which the judge of the court shall find reasonable and necessary. A witness who has appeared in accordance with the provisions of the subpoena shall not be required to remain within this state a longer period of time than the period mentioned in the certificate, unless otherwise ordered by the court. If the witness fails without good cause to attend and testify as directed in the subpoena, he or she shall be punished in the manner provided for the

punishment of any witness who disobeys a subpoena issued from a court of record in this state.

(b) If the witness subpoenaed to attend and testify in this state is at the time he or she is required to appear and testify an inmate of a state prison, county jail, or other penal facility, the witness shall, while attending in this state as a witness, be furnished food and lodging in the jail or other appropriate penal facility in the county in which the witness is attending court, and food and lodging of that penal facility shall be rendered in lieu of the per diem specified in subdivision (a).

SEC. 4. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

computed on the member's or disabilitant's projected final compensation and projected service to normal retirement age. The allowance payable under this subdivision shall be increased by application of the benefit improvement factor for time which elapses between the date the member or disabilitant would have attained normal retirement age and the date the family allowance under this subdivision begins to accrue.

(d) If there is no surviving spouse or children upon the member's or disabilitant's death, to the dependent parent age 60 or over, an amount equal to option three as provided under this part computed on the member's or disabilitant's projected final compensation and projected service to normal retirement age. If there are two dependent parents, a single-family allowance shall be computed on the assumption that the younger parent is the beneficiary and the allowance shall be divided equally for as long as there are two dependent parents. Thereafter, the allowance shall be payable to the surviving dependent parent.

(e) If there are no children who qualify under Section 22112, a spouse or the dependent parent or parents may elect, prior to the receipt of the first payment under subdivision (c) or (d), to receive the accumulated contributions in a lump sum subject to a reduction for any payments made from the account for any prior qualified persons.

SEC. 10. Section 23902 of the Education Code is amended to read:

23902. A member may apply for a disability allowance if the member has five or more years of credited service and if all of the following requirements are met:

(a) At least four years were credited for actual service performed in a position requiring membership in the system. Credit received because of workers' compensation payments shall be counted toward the four-year requirement.

(b) The last five years of credited service have been served in this state.

(c) At least one year was credited for service performed subsequent to the date on which the member was reinstated to membership under Section 23913.

(d) At least one year was credited for service performed subsequent to the most recent refund of accumulated retirement contributions.

(e) The member has not attained normal retirement age, or has unused sick leave with sufficient days to have the member receive salary on account of sick leave to normal retirement age.

Nothing in this section shall affect the right of a member to a disability allowance if the reason that the member has less than four years of actual service is due to an on-the-job injury or disease in a position requiring membership in the system.

(f) The member is not applying for a disability allowance because of a physical or mental condition known to exist at the time the most recent membership in this system commenced and remains

substantially unchanged at the time of the application.

SEC. 11. Section 23903 of the Education Code is amended to read:

23903. The board may authorize payment of a disability allowance to any member who is qualified upon application by the member, the guardian or conservator, or the employer, if the application is made during any one of the following periods:

(a) While the member is on a compensated leave of absence.

(b) While the member is physically or mentally incapacitated for performance of his or her duty and the incapacity has been continuous from the last day for which compensation was paid to the member.

(c) While the member is on a leave of absence without compensation, granted for reason other than mental or physical incapacity for performance of his or her duty, and within four months after the last day of employment for which compensation was paid to the member, or within 12 months while on an official district leave to study at an approved college or university.

(d) Within four months after the termination of the member's employment in a position requiring membership in the system, if the application was not made under subdivision (b) and was not made more than four months after the last day for which compensation was paid to the member.

(e) A member with children who becomes disabled prior to normal retirement age, and whose sick leave will extend beyond normal retirement age, may be awarded a disability allowance with an effective date after normal retirement age, if application is filed prior to attaining normal retirement age.

(f) The member is not applying for a disability allowance because of a physical or mental condition which existed at the time the most recent membership in this system commenced and which remains substantially unchanged at the time of application.

On receipt of an application for disability allowance, the system may order a medical examination of a member to determine whether the member is incapacitated for further service. The medical examination shall be conducted by a physician selected by the board and the board shall pay all reasonable costs associated with the examination. If the applicant for disability allowance refuses to submit to the required medical examination, the application for disability allowance shall be canceled. The applicant shall either remain in this state, or return to this state at the applicant's own expense, to undergo the initial evaluations or examinations or the application shall be disallowed, unless this requirement is waived by the board.

SEC. 12. Section 23911 of the Education Code is amended to read:

23911. When a member who has been granted a disability allowance after June 30, 1972, attains normal retirement age, or at a later date when there are no children, the disability allowance shall be terminated and the member is eligible for service retirement. The retirement allowance shall be calculated on the projected final

compensation and projected service to normal retirement age. The allowance payable under this section, excluding annuities payable from accumulated annuity deposit contributions, shall not be greater than the terminated disability allowance.

Upon retirement, the member may elect to modify the service retirement allowance payable in accordance with any option provided under this part.

SEC. 13. Section 24000 of the Education Code is amended to read:

24000. Upon retirement for service which became effective after June 30, 1972, a member shall receive a retirement allowance which shall consist of both of the following:

(a) An annual allowance payable in monthly installments, upon retirement at normal retirement age or over, equal to 2 percent of the final compensation for each year of credited service. If the retirement of a member is effective at less than normal retirement age and between early retirement age and normal retirement age this allowance shall be reduced by one-half of 1 percent for each full month, or fraction of a month which will elapse until the member will attain normal retirement age.

(b) An annuity which shall be the actuarial equivalent of the accumulated annuity deposit contributions standing to the credit of his or her account at the time of his or her retirement.

A school district or other employing agency may elect to permit all members with 30 years of credited service to retire at age 50 or older and receive an annual allowance equal to 2 percent of final compensation for each year of credited service. If the member has attained age 50, but has not attained early retirement age, the allowance shall be reduced by one-quarter of 1 percent for each full month or fraction of a month which will elapse until the member will attain early retirement age and one-half of 1 percent for each full month, or fraction between early retirement age and normal retirement age.

In computing the above amounts, the age of the member at the last day of the month in which the retirement allowance begins to accrue or such later date as provided in Section 23900 shall be used.

SEC. 14. Section 24007 of the Education Code is amended to read:

24007. Upon retirement for service after the operative date of this section, any member who is an employee of a community college with 25 years of credited service may retire at age 50 or older and receive an annual allowance equal to 2 percent of final compensation for each year of credited service with the allowance reduced by one-quarter of 1 percent for each full month or fraction of a month which will elapse until the member will attain early retirement age and one-half of 1 percent for each full month or fraction thereof between early retirement age and normal retirement age.

This section shall not be applicable to any community college district or other employing agency until the district or agency notifies the board, in writing, of its election to be subject thereto.

This section shall become operative on January 1, 1983, and shall

remain in effect only until January 1, 1989, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1989, deletes or extends such date.

SEC. 15. Section 24100.5 of the Education Code is amended to read:

24100.5. A member who qualifies for a disability allowance under Section 23902 and who has attained age 45, but who has not attained normal retirement age, shall have his or her own allowance also calculated upon service with each year of credited California service providing 5 percent of final compensation. The disabilitant shall receive the lesser of this benefit or that provided by Section 24100 for the disabilitant's own allowance. The benefits for dependent children shall be as in Section 24100.

SEC. 16. Section 24210 of the Education Code is amended to read:

24210. The board shall, in consultation with members, develop, adopt, and implement an additional optional retirement plan which will allow an employee to receive a minimum retirement allowance prior to normal retirement age if the employee has at least attained early retirement age. Under the plan, the member shall continue to receive the minimum retirement allowance past normal retirement age until the amounts paid prior to normal retirement age equal the difference between the minimum retirement allowance and the benefits which would have been provided to the member under regular service retirement at normal retirement age, and thereafter shall be paid the regular service retirement allowance for normal retirement age. The board shall determine the age past normal retirement age at which the increase will be made by determining how long the minimum retirement allowance would have to be paid beyond age 60 in order for the amount paid prior to age 60 to equal the difference between the retirement allowance and the amount that would have been provided to the member under regular service retirement at normal retirement age. The board shall integrate the optional plan adopted under this section with the other retirement options that a member may elect under this part.

For the purposes of this section, all contributions, liabilities, actuarial interest rates, and other valuation factors shall be determined on the basis of actuarial assumptions and methods which, in the aggregate, are reasonable and which, in combination, offer the actuary's best estimate of anticipated experience under the system.

The additional employer contributions required, if any, under this section shall be computed as a level percentage of member compensation. The additional contribution rate required, if any, shall not be less than the sum of (1) the actuarial normal cost, plus (2) the additional contribution required to amortize the increase in accrued liability attributable to benefits elected under this section over a period of not more than 30 years from the date this section becomes effective.

SEC. 17. Section 24213 of the Education Code is amended to read:

24213. The board shall develop, adopt, and implement an

additional alternative retirement plan which will allow a school district or other employing agency to permit those members with 30 years of credited service that the school district or agency deems appropriate to retire at early retirement age or older and receive an annual allowance equal to 2 percent of final compensation for each year of credited service with the allowance reduced by one-quarter of 1 percent for each full month or fraction of a month which will elapse until the member will attain normal retirement age if the member retires on and after June 1, 1979.

The employing school district or other employing agency shall pay the amount which is determined by the board to be the present value of the benefits provided under this section. The board shall permit these payments to be made over a three-year period in equal amounts. Interest shall be charged on the unpaid balance at a rate approximating the average yield on moneys invested by the board during the previous year from the effective date of the member's retirement.

This section shall become operative on July 1, 1985, and shall remain in effect only until July 1, 1988, and as of January 1, 1989, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1989, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 18. Section 24303 of the Education Code is amended to read:

24303. If less than three years of credited service are performed after termination of the disability allowance, the member shall receive a retirement allowance which is the lesser of the service retirement allowance, computed on projected service and projected final compensation to the earlier of termination date of the disability allowance or normal retirement age, or the disability allowance the member was receiving immediately prior to termination of that allowance, exclusive of increments added for children. The member may not elect to pay for, or receive credit for, service which was not credited on the date the disability allowance began to accrue.

If three or more years of credited service are performed after termination of the disability allowance, the member shall receive a retirement allowance computed on final compensation and projected service to the termination date of the disability allowance and on a new final compensation. The member may pay for, and receive credit for, service which was not credited to the member on the date the disability allowance began to accrue.

SEC. 19. Section 24612.2 of the Education Code is amended to read:

24612.2. The death benefit provided by Section 23800 shall be paid to the beneficiary or estate within 45 days of receipt by the system of all the necessary information.

All other lump-sum payments provided for by Sections 23800, 23804, and 23807 will be paid to the beneficiary within 45 days of receipt by the system of all the necessary information.

Monthly family allowance checks provided by Section 23804 shall

commence within 45 days of receipt by the system of all the necessary information.

SEC. 20. Section 24616 of the Education Code is amended to read:

24616. To recover an amount overpaid, the corrected monthly allowance may be reduced by no more than 5 percent if the overpayment was due to error by system staff, the county superintendent of schools, a school district, or a community college district, and by no more than 15 percent if the error was due to inaccurate information or nonsubmission of information by the recipient of the allowance.

This section shall not apply to the collection of overpayments due to fraud or intentional misrepresentation of facts by the recipient of the allowance.

SEC. 21. Section 44922 of the Education Code is amended to read:

44922. Notwithstanding any other provision, the governing board of a school district or a county superintendent of schools may establish regulations which allow their certificated employees to reduce their workload from full-time to part-time duties.

The regulations shall include, but shall not be limited to, the following, if the employees wish to reduce their workload and maintain retirement benefits pursuant to Section 22724 of this code or Section 20815 of the Government Code:

(a) The employee shall have reached the age of 55 prior to reduction in workload.

(b) The employee shall have been employed full time in a position requiring certification for at least 10 years of which the immediately preceding five years were full-time employment.

(c) During the period immediately preceding a request for a reduction in workload, the employee shall have been employed full time in a position requiring certification for a total of at least five years without a break in service. For purposes of this subdivision, sabbaticals and other approved leaves of absence shall not constitute a break in service. Time spent on a sabbatical or other approved leave of absence shall not be used in computing the five-year full-time service requirement prescribed by this subdivision.

(d) The option of part-time employment shall be exercised at the request of the employee and can be revoked only with the mutual consent of the employer and the employee.

(e) The employee shall be paid a salary which is the pro rata share of the salary he or she would be earning had he or she not elected to exercise the option of part-time employment but shall retain all other rights and benefits for which he or she makes the payments that would be required if he or she remained in full-time employment.

The employee shall receive health benefits as provided in Section 53201 of the Government Code in the same manner as a full-time employee.

(f) The minimum part-time employment shall be the equivalent of one-half of the number of days of service required by the

employee's contract of employment during his or her final year of service in a full-time position.

(g) This option is limited in prekindergarten through grade 12 to certificated employees who do not hold positions with salaries above that of a school principal.

(h) The period of this part-time employment shall not exceed five years for employees subject to Section 20815 of the Government Code or 10 years for employees subject to Section 22724 of this code.

(i) The period of part-time employment of employees subject to Section 20815 of the Government Code shall not extend beyond the end of the school year during which the employee reaches his or her 70th birthday. This subdivision shall not apply to any employee subject to Section 22724 of this code.

SEC. 22. Section 87483 of the Education Code is amended to read:

Such regulations shall include, but shall not be limited to, the following if such employees wish to reduce their workload and maintain retirement benefits pursuant to Section 22724 of this code or Section 20815 of the Government Code:

(a) The employee shall have reached the age of 55 prior to reduction in workload.

(b) The employee shall have been employed full time in a position requiring certification for at least 10 years of which the immediately preceding five years were full-time employment.

(c) During the period immediately preceding a request for a reduction in workload, the employee shall have been employed full time in a position requiring certification for a total of at least five years without a break in service. For purposes of this subdivision, sabbaticals and other approved leaves of absence shall not constitute a break in service. Time spent on a sabbatical or other approved leave of absence shall not be used in computing the five-year full-time service requirement prescribed by this subdivision.

(d) The option of part-time employment shall be exercised at the request of the employee and can be revoked only with the mutual consent of the employer and the employee.

(e) The employee shall be paid a salary which is the pro rata share of the salary he or she would be earning had he or she not elected to exercise the option of part-time employment but shall retain all other rights and benefits for which he or she makes the payments that would be required if he or she remained in full-time employment.

The employee shall receive health benefits as provided in Section 53201 of the Government Code in the same manner as a full-time employee.

(f) The minimum part-time employment shall be the equivalent of one-half of the number of days of service required by the

employee's contract of employment during his or her final year of service in a full-time position.

(g) The period of this part-time employment shall not exceed five years for employees subject to Section 20815 of the Government Code or 10 years for employees subject to Section 22724 of this code.

(h) The period of part-time employment of employees subject to Section 20815 of the Government Code shall not extend beyond the end of the school year during which the employee reaches his or her 70th birthday. This subdivision shall not apply to any employee subject to Section 22724 of this code.

CHAPTER 331

An act to amend Section 48931 of the Education Code, relating to education, and making an appropriation therefor.

[Approved by Governor July 30, 1987. Filed with Secretary of State July 30, 1987]

I am deleting Section 2 from Assembly Bill No 2232.

Section 2 contains an unspecified appropriation from the General Fund to the State Mandates Claims Fund to reimburse local agencies and school districts This appropriation is inappropriate because the authorization to permit food sales is permissive and does not impose a local mandate

With this deletion, I approve Assembly Bill No 2232

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 48931 of the Education Code is amended to read:

48931. The governing board of any school district or any county office of education may authorize any pupil or adult entity or organization to sell food on school premises, subject to policy and regulations of the State Board of Education. The State Board of Education shall develop policy and regulations for the sale of food by any pupil or adult entity or organization, or any combination thereof, which shall ensure optimum participation in the school district's or the county office of education's nonprofit food service programs and shall be in consideration of all programs approved by the governing board of any school district or any county office of education. The policy and regulations shall be effective the first of the month following adoption by the State Board of Education.

Nothing in this section shall be construed as exempting from the California Uniform Retail Food Facilities Law (Chapter 4 (commencing with Section 27500) of Division 22 of the Health and Safety Code), food sales which are authorized pursuant to this section and which would otherwise be subject to the California Uniform Retail Food Facilities Law.

SEC. 2. The sum of _____ dollars ($_____) is hereby

appropriated from the General Fund to the State Mandates Claims Fund to reimburse local agencies and school districts pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state and incurred by them pursuant to this act.

CHAPTER 332

An act to add Section 32001 to the Food and Agricultural Code, relating to animal shelters.

[Approved by Governor July 30, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 32001 is added to the Food and Agricultural Code, to read:

32001. All public pounds, society for the prevention of cruelty to animals shelters, and humane shelters, that contract with animal control agencies, shall provide the owners of lost animals and those who find lost animals with all of the following:

(a) Ability to list the animals they have lost or found on "Lost and Found" lists maintained by the pound or shelter.

(b) Referrals to animals listed that may be the animals the owners or finders have lost or found.

(c) The telephone numbers and addresses of other pounds and shelters in the same vicinity.

(d) Advice as to means of publishing and disseminating information regarding lost animals.

(e) The telephone numbers and addresses of volunteer groups which may be of assistance in locating lost animals.

Notwithstanding Section 9, a violation of this section is not a misdemeanor. Furthermore, the duty imposed by this section is not a mandatory duty for purposes of Division 3.6 (commencing with Section 810) of Title 1 of the Government Code, and no cause of action for damages is created by this section against a public entity or employee or against any other person.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

CHAPTER 333

If the owners and operators specified in this subdivision do not voluntarily contribute the matching funds to pay for the cost of the report, the Chairperson of

the State Interagency Oil Spill Committee shall impose a fee related to the quantity of these commodities transported in state waters on these owners and operators and any other equitable factor determined by the state agencies which form the State Interagency Oil Spill Committee. This fee shall be imposed solely for the purpose of funding the report specified in subdivision (a) and shall be discontinued upon satisfaction of the contribution limit.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide sufficient time to properly complete the report required by Section 8574.6 of the Government Code, this bill must become effective before the report becomes due. It is, therefore, necessary that this act take effect immediately.

If the commission determines that the application is complete, the application shall be deemed filed for purposes of this section on the date that this determination is made. If the commission determines that the application is incomplete, the commission shall specify in writing those parts of the application which are incomplete and shall indicate the manner in which it can be made complete. If the applicant submits additional data to complete the application, the commission shall determine, within 30 days after receipt of that data, whether the data is sufficient to make the application complete. The application shall be deemed filed on the date when the commission determines the application is complete if the commission has adopted regulations specifying the informational requirements for a complete application, but if the commission has not adopted regulations, the application shall be deemed filed on the last date the commission receives any additional data that completes the application.

SEC. 3. Section 25540.1 of the Public Resources Code is amended to read:

25540.1. The commission shall determine, within 30 days after the receipt of a notice or application for a geothermal powerplant, whether the notice or application is complete. If the notice or application is determined not to be complete, the commission's determination shall specify, in writing, those parts of the notice or application which are incomplete and shall indicate the manner in which it can be made complete. Within 30 days after receipt of the applicant's filing with the commission the additional information requested by the commission to make the notice or application complete, the commission shall determine whether the subsequent

filing is sufficient to complete the notice or application. A notice or application shall be deemed filed for purposes of Section 25540 on the date the commission determines the notice or application is completed if the commission has adopted regulations specifying the informational requirements for a complete notice or application, but if the commission has not adopted regulations, the notice or application shall be deemed filed on the last date the commission receives any additional data that completes the notice or application.

CHAPTER 336

An act to amend Section 10270.99 of the Insurance Code, relating to insurance.

[Approved by Governor July 30, 1987 Filed with Secretary of State July 30, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 10270.99 of the Insurance Code is amended to read:

10270.99. The term "individual policies or contracts," as used in the first paragraph of Section 10270.98, does not include selected group disability policies or contracts, unless those policies or contracts are noncancelable or guaranteed renewable and solely provide hospital confinement indemnity or specified disease coverage.

CHAPTER 337

An act to amend Section 25210.77b of, and to add Section 61765.12 to, the Government Code, relating to water and sewer charges.

[Approved by Governor July 30, 1987 Filed with Secretary of State July 30, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 25210.77b of the Government Code is amended to read:

25210.77b. (a) A county may fix, on or before the first day of July in each calendar year, a water or sewer standby or immediate availability charge on all land within a county service area to which water or sewers are made available for any purpose by the county whether the water or sewers are actually used or not, except that the charge shall not apply to lands permanently dedicated exclusively to the public transportation of persons or property. The board of

supervisors of the county which fixes the water standby charge may establish schedules varying the charges in different months and in different localities within a county service area depending upon factors such as the uses to which the land is put, the cost of transporting the water to the land, the degree of availability or quantity of use of the water to the affected lands. The board may not, however, fix a charge in excess of thirty dollars ($30) for each acre of land, or thirty dollars ($30) for each parcel of land of less than one acre, for either water or sewer standby charges.

If a person for more than one year obtains substantially all of his or her water requirements for the contiguous parcels of land which he or she occupies from rainfall, springs, streams, lakes, rivers, or wells, and if the person's primary economic activity on the land is the commercial extraction or processing of minerals, the land shall be exempt from any water standby or availability charges.

(b) Notwithstanding any other provision of this article, San Luis Obispo County may fix, on or before the first day of July in each calendar year, a sewer standby or immediate availability charge not to exceed sixty dollars ($60) for each acre of land or for each parcel of land of less than one acre, on all land within a county service area to which sewers are made available for any purpose by the county whether the sewers are actually used or not, except that the charge shall not apply to lands permanently dedicated exclusively to the public transportation of persons or property. The Board of Supervisors of San Luis Obispo County in so fixing the sewer standby charge may establish schedules varying the charges in different months and in different localities within the county service area depending upon factors such as the uses to which the land is put, the cost of transporting the sewage from the land, and the degree of the availability of sewage collection and treatment to the affected lands.

SEC. 2. Section 61765.12 is added to the Government Code, to read:

61765.12. Notwithstanding Section 61765, in the Cambria Community Services District, the water standby or availability charge shall not exceed forty-five dollars ($45) per year for each acre of land on which the charge is levied or forty-five dollars ($45) per year for each parcel of land less than one acre, and the wastewater standby or availability charge shall not exceed thirty dollars ($30) per year for each acre of land on which the charge is levied or thirty dollars ($30) per year for each parcel of land less than one acre.

In fixing and collecting water or wastewater standby or availability charges, the district shall follow the procedures for fixing and collecting water standby or availability charges set forth in this chapter.

This section, applicable only to the Cambria Community Services District, is necessary because of the unique and special water and wastewater management and financing problems in the area included in the district.

SEC. 3. The Legislature finds and declares that Sections 1 and 2

of this act are necessary as a special law and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution because of unique circumstances present in San Luis Obispo County and because of the unique and special water and wastewater management and financing problems within the Cambria Community Services District which are not common to other districts organized pursuant to the Community Services District Law. Enabling the district to levy increased water and wastewater standby or availability charges will allow the district to more fairly allocate the cost of needed water and wastewater system improvements to both improved and unimproved parcels of real property which benefit therefrom. If these increased charges are not authorized, the owners of improved property would be required to pay a disproportionately large share of the cost through increased water and wastewater rates, and the owners of unimproved benefited parcels would pay little or nothing toward that cost.

CHAPTER 338

An act relating to fire protection, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 30, 1987. Filed with Secretary of State July 31, 1987.]

I am reducing the appropriation contained in Section 1 (b) of Assembly Bill No 1636 from $3,700,000 to $1,747,000.

The reduced appropriation will provide adequate funding for additional fire protection staff for the remainder of the fire season

With this reduction, I approve Assembly Bill No 1636

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. In addition to any other appropriation, the sum of four million five hundred forty-three thousand dollars ($4,543,000) is hereby appropriated from the Disaster Response-Emergency Operations Account in the Special Fund for Economic Uncertainties to the Department of Forestry and Fire Protection, as follows:

(a) Eight hundred forty-three thousand dollars ($843,000) for expenditure during the 1987–88 fiscal year for support of ongoing fire prevention and fire suppression services provided to state responsibility area wildlands.

(b) Three million seven hundred thousand dollars ($3,700,000) for expenditures as a severe fire hazard augmentation to support contract services and the hiring of additional temporary personnel necessary to enhance the department's capacity for detecting wildland fires and responding on an initial attack basis during the 1987 fire season.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent unnecessary and inadvertent reductions in the Department of Forestry and Fire Protection's 1987–88 budget from adversely affecting fire protection services to state responsibility wildlands and to provide additional firefighting resources necessitated by the anticipated intensity and length of the 1987 fire season and to facilitate the shortest possible response times for essential wildland fire suppression operations throughout California, it is necessary that this act take effect immediately.

CHAPTER 339

An act to add Chapter 10.5 (commencing with Section 17940) to Part 10 of, and Chapter 14.5 (commencing with Section 24870) to Part 11 of, Division 2 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor July 31, 1987 Filed with Secretary of State July 31, 1987]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10.5 (commencing with Section 17940) is added to Part 10 of Division 2 of the Revenue and Taxation Code, to read:

CHAPTER 10.5. REAL ESTATE MORTGAGE INVESTMENT CONDUITS

17940. The taxation of a real estate mortgage investment conduit (REMIC) and the holders of regular or residual interests in that entity shall be determined in accordance with Chapter 14.5 (commencing with Section 24870) of Part 11.

SEC. 2. Chapter 14.5 (commencing with Section 24870) is added to Part 11 of Division 2 of the Revenue and Taxation Code, to read:

CHAPTER 14.5. REAL ESTATE MORTGAGE INVESTMENT CONDUITS

24870. The taxation of a real estate mortgage investment conduit (REMIC) and the holders of regular or residual interests in that entity shall be determined in accordance with Part IV of Subchapter M of Chapter 1 of Subtitle A of the Internal Revenue Code (as added by Public Law 99-514), except as otherwise provided.

24871. Section 860F (a) of the Internal Revenue Code (as added

by Public Law 99-514), relating to the 100 percent tax on prohibited transactions, shall not be applicable.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the provisions of this act shall be applied in the computation of taxes for taxable or income years beginning on or after the first day of the calendar year in which this act becomes effective provided the effective date is more than 90 days prior to the last day of the calendar year. If the effective date is 90 days or less prior to the last day of the calendar year, the provisions of this act shall apply in the computation of taxes for taxable or income years beginning on or after the first day of the calendar year following the effective date.

CHAPTER 340

An act to add Section 4129.1 to the Public Resources Code, relating to fire protection.

[Approved by Governor August 25, 1987 Filed with Secretary of State August 25, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 4129.1 is added to the Public Resources Code, to read:

4129.1. When the incorporation of a city removes land from a state responsibility area and the county continues to provide residential fire service for the newly incorporated city and remains under contract to provide fire service for the state responsibility area, the county shall, during the three years subsequent to incorporation, contract with the city to continue to provide fire service to the area removed from the state responsibility area under the same terms and conditions as under the state contract. The county may bill the newly incorporated city for actual revenue lost under the state contract because of removal of land from the state responsibility area during that period, but may not, during the three-year period, require the city to pay an amount greater than that apportioned for the affected area under the state contract.

If the budget of the department is revised to reflect the removal of the affected lands from a state responsibility area and payments to the county are accordingly reduced, the county may bill the newly incorporated city for the allocable decrease, or if the amount cannot be readily ascertained, the county may, after the effective date of the new budget, charge the city an amount equal to the total payment to the county divided by the total acres of the state responsibility area times the removed acres which are annexed to the city.

This section does not change any power, duty, or responsibility of

the department. This section does not require the department to base its budget on per acre costs and does not impose any requirement that the department implement or design any formula or budget.

This section applies only in counties with a population greater than 8,000,000.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 341

An act to amend Section 25402.1 of the Public Resources Code, relating to energy resources, and making an appropriation therefor.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 25402.1 of the Public Resources Code is amended to read:

25402.1. In order to implement the requirements of subdivisions (a) and (b) of Section 25402, the commission shall do all of the following:

(a) Develop a public domain computer program which will enable contractors, builders, architects, engineers, and government officials to estimate the energy consumed by residential and nonresidential buildings. The commission may charge a fee for the use of the program, which fee shall be based upon the actual cost of the program, including any computer costs.

(b) Establish a formal process for certification of compliance options for new products, materials, and calculation methods which provides for adequate technical and public review to ensure accurate, equitable, and timely evaluation of certification applications. Proponents filing applications for new products, materials, and calculation methods shall provide all information needed to evaluate the application that is required by the commission. The commission shall publish annually the results of its certification decisions and instructions to users and local building officials concerning requirements for showing compliance with the building standards for new products, materials, or calculation methods. The commission may charge and collect a reasonable fee from applicants to cover the costs under this subdivision. Any funds received by the commission for purposes of this subdivision shall be deposited in the Energy Resources Programs Account and,

notwithstanding Section 13340 of the Government Code, are continuously appropriated to the commission for the purposes of this subdivision. Any unencumbered portion of funds collected as a fee for an application remaining in the Energy Resources Programs Account after completion of the certification process for that application shall be returned to the applicant within a reasonable period of time.

(c) Include a prescriptive method of complying with the standards, including design aids such as a manual, sample calculations, and model structural designs.

(d) Conduct a pilot project of field testing of actual residential buildings to calibrate and identify potential needed changes in the modeling assumptions to increase the accuracy of the public domain computer program specified in subdivision (a) and to evaluate the impacts of the standards, including, but not limited to, the energy savings, cost effectiveness, and the effects on indoor air quality. The pilot project shall be conducted pursuant to a contract entered into by the commission. The commission shall consult with the participants designated pursuant to Section 9202 of the Public Utilities Code to seek funding and support for field monitoring in each public utility service territory, with the University of California to take advantage of its extensive building monitoring expertise, and with the California Building Industry Association to coordinate the involvement of builders and developers throughout the state. The pilot project shall include periodic public workshops to develop plans and review progress. The commission shall prepare and submit a report to the Legislature on progress and initial findings not later than December 31, 1988, and a final report on the results of the pilot project on residential buildings not later than June 30, 1990. The report shall include recommendations regarding the need and feasibility of conducting further monitoring of actual residential and nonresidential buildings. The report shall also identify any revisions to the public domain computer program and energy conservation standards if the pilot project determines that revisions are appropriate.

(e) Certify, not later than 180 days after approval of the standards by the State Building Standards Commission, an energy conservation manual for use by designers, builders, and contractors of residential and nonresidential buildings. The manual shall be furnished upon request at a price sufficient to cover the costs of production and shall be distributed at no cost to all affected local agencies. The manual shall contain, but not be limited to, the following:

(1) The standards for energy conservation established by the commission.

(2) Forms, charts, tables, and other data to assist designers and builders in meeting the standards.

(3) Design suggestions for meeting or exceeding the standards.

(4) Any other information which the commission finds will assist persons in conforming to the standards.

(5) Instructions for use of the computer program for calculating energy consumption in residential and nonresidential buildings.

(6) The prescriptive method for use as an alternative to the computer program.

(f) The commission shall establish a continuing program of technical assistance to local building departments in the enforcement of subdivisions (a) and (b) of Section 25402 and this section. The program shall include the training of local officials in building technology and enforcement procedures related to energy conservation, and the development of complementary training programs conducted by local governments, educational institutions, and other public or private entities. The technical assistance program shall include the preparation and publication of forms and procedures for local building departments in performing the review of building plans and specifications. The commission shall provide, on a contract basis, a review of building plans and specifications submitted by a local building department, and shall adopt a schedule of fees sufficient to repay the cost of those services.

(g) Subdivisions (a) and (b) of Section 25402 and this section, and the rules and regulations of the commission adopted pursuant thereto, shall be enforced by the building department of every city, county, or city and county.

(1) No building permit for any residential or nonresidential building shall be issued by a local building department, unless a review by the building department of the plans for the proposed residential or nonresidential building contains detailed energy system specifications and confirms that the building satisfies the minimum standards established pursuant to subdivision (a) or (b) of Section 25402 and this section applicable to the building.

(2) Where there is no local building department, the commission shall enforce subdivisions (a) and (b) of Section 25402 and this section.

(3) If a local building department fails to enforce subdivisions (a) and (b) of Section 25402 and this section or any other provision of this chapter or standard adopted pursuant thereto, the commission may provide enforcement after furnishing 10 days' written notice to the local building department.

(4) A city, county, or city and county may, by ordinance or resolution, prescribe a schedule of fees sufficient to pay the costs incurred in the enforcement of subdivisions (a) and (b) of Section 25402 and this section. The commission may establish a schedule of fees sufficient to pay the costs incurred by that enforcement.

(h) Subdivisions (a) and (b) of Section 25402 and this section shall apply only to new residential and nonresidential buildings on which actual site preparation and construction have not commenced prior to the effective date of rules and regulations adopted pursuant to those sections that are applicable to those buildings. Nothing in those sections shall prohibit either of the following:

(1) The enforcement of state or local energy conservation or

energy insulation standards, adopted prior to the effective date of rules and regulations adopted pursuant to subdivisions (a) and (b) of Section 25402 and this section with regard to residential and nonresidential buildings on which actual site preparation and construction have commenced prior to that date.

(2) The enforcement of city or county energy conservation or energy insulation standards, whenever adopted, with regard to residential and nonresidential buildings on which actual site preparation and construction have not commenced prior to the effective date of rules and regulations adopted pursuant to subdivisions (a) and (b) of Section 25402 and this section, if the city or county files the basis of its determination that the standards are cost effective with the commission and the commission finds that the standards will require the diminution of energy consumption levels permitted by the rules and regulations adopted pursuant to those sections. If, after two or more years after the filing with the commission of the determination that those standards are cost effective, there has been a substantial change in the factual circumstances affecting the determination, upon application by any interested party, the city or county shall update and file a new basis of its determination that the standards are cost effective. The determination that the standards are cost effective shall be adopted by the governing body of the city or county at a public meeting. If, at the meeting on the matter, the governing body determines that the standards are no longer cost effective, the standards shall, as of that date, be unenforceable and no building permit or other entitlement shall be denied based on the noncompliance with the standards.

(i) The commission may exempt from the requirements of this section and of any regulations adopted pursuant thereto any proposed building for which compliance would be impossible without substantial delays and increases in cost of construction, if the commission finds that substantial funds have been expended in good faith on planning, designing, architecture or engineering prior to the date of adoption of the regulations.

(j) If a dispute arises between an applicant for a building permit and the building department regarding interpretation of Section 25402 or the regulations adopted pursuant thereto, either party may submit the dispute to the commission for resolution. The commission's determination of the matter shall be binding on the parties.

(k) Nothing in Section 25130, 25131, or 25402, or in this section prevents enforcement of any regulation adopted pursuant to this chapter, or Chapter 11.5 (commencing with Section 19878) of Part 3 of Division 13 of the Health and Safety Code as they existed prior to September 16, 1977.

SEC. 2. The sum of two hundred fifty thousand dollars ($250,000) is hereby appropriated from the Energy Resources Programs Account in the General Fund to the State Energy Resources

Conservation and Development Commission for purposes of subdivision (d) of Section 25402.1 of the Public Resources Code.

CHAPTER 342

An act to add Section 23358.5 to the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor August 28, 1987 Filed with Secretary of State August 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 23358.5 is added to the Business and Professions Code, to read:

23358.5. (a) Notwithstanding any other provision of this division, a licensed winegrower who produces 20,000 gallons or less of wine per year may also sell wine for consumption on the premises of a bona fide eating place licensed to sell and serve wine, and which eating place is located in a county of the second class, is located off the premises of the winegrower, and is owned by, and operated by or for, the licensee.

(b) Notwithstanding any other provision of this division, a licensed winegrower who produces 20,000 gallons or less of wine per year in a county of the 10th class may also serve as a member of a pension plan of a corporation if the pension plan holds no more than a 10 percent interest in a licensed on-sale general bona fide public eating place in a county of the fifth class.

CHAPTER 343

An act to add Section 48325 to the Education Code, relating to education.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 48325 is added to the Education Code, to read:

48325. (a) The Legislature finds and declares that statewide policy coordination and personnel training with respect to county attendance review boards will greatly facilitate the achievement of the goals expressed in Section 48320. It is therefore the intent of the Legislature in enacting this section to do the following:

(1) Encourage the cooperation, coordination, and development

of strategies to support county school attendance review boards in carrying out their responsibilities to establish local school attendance review boards as necessary. These strategies may include, but need not be limited to, plans for the training of school attendance review board personnel.

(2) Divert pupils with serious attendance and behavioral problems from the juvenile justice system to agencies more directly related to the state public school system by developing a system for gathering and dispensing information on successful community-based and school-based programs.

(3) Reduce duplication of the services of state and county agencies in serving high-risk youth, including youth with school attendance or behavioral problems.

(4) Reduce the number of dropouts in the state public education system by promoting interagency cooperation among those agencies which have as their goals preventing students from dropping out, and increasing the holding power of the public schools.

(b) The Superintendent of Public Instruction shall coordinate and administer a state school attendance review board, as follows:

(1) On or before January 31 of each year, the superintendent shall extend invitations of participation to representatives of appropriate groups throughout the state, including, but not limited to, representatives of school districts, parent groups, county probation departments, county welfare departments, county superintendents of schools, law enforcement agencies, community-based youth service centers, school guidance personnel, child welfare and attendance personnel, and state associations having an interest in youth with school attendance or behavioral problems. The superintendent shall also request the participation of representatives from interested state agencies or departments, including, but not limited to, the Department of the California Youth Authority, the Department of Justice, the State Department of Social Services, and the Office of Criminal Justice Planning. To the extent feasible, members of the board shall include persons who are currently members of county or local school attendance review boards. For every year after the first year that the board is convened, the purpose of the invitations of participation shall be to inform appropriate groups, state agencies, and departments of the purposes of the board, to fill vacancies, and to supplement the membership of the board as necessary.

(2) The superintendent shall prescribe an appropriate deadline for acceptance of invitations of participation as a member of the state school attendance review board for that particular year, and the invitations accepted on or before the deadline shall constitute the board for that year, except that the board shall also include a representative of the State Department of Education designated by the director of that department. The representative of the State Department of Education shall be the chairperson of the board.

(3) The superintendent shall convene the board at least four times

during the year. At its first meeting, the board shall elect any officers, other than its chairperson, as it deems necessary. Members of the board shall serve without compensation and without reimbursement of travel and living expenses.

(4) The State Department of Education shall provide assistance as requested by the Superintendent of Public Instruction in order to implement the provisions of this section.

(c) The state school attendance review board shall make recommendations annually to the Superintendent of Public Instruction, and to state agencies as deemed appropriate, regarding the needs and services provided to high-risk youth, including youth with school attendance or behavioral problems, in the state public schools, and shall propose uniform guidelines or other means to attain the goals stated in subdivision (a).

CHAPTER 344

An act to amend Section 459 of the Penal Code, relating to burglary.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 459 of the Penal Code is amended to read:

459. Every person who enters any house, room, apartment, tenement, shop, warehouse, store, mill, barn, stable, outhouse or other building, tent, vessel, as defined in Section 21 of the Harbors and Navigation Code, railroad car, locked or sealed cargo container, whether or not mounted on a vehicle, trailer coach, as defined in Section 635 of the Vehicle Code, any house car, as defined in Section 362 of the Vehicle Code, inhabited camper, as defined in Section 243 of the Vehicle Code, vehicle as defined by the Vehicle Code when the doors are locked, aircraft as defined by Section 21012 of the Public Utilities Code, or mine or any underground portion thereof, with intent to commit grand or petit larceny or any felony is guilty of burglary. As used in this chapter, "inhabited" means currently being used for dwelling purposes, whether occupied or not. A house, trailer, or portion of a building is currently being used for dwelling purposes if, at the time of the burglary, it was not occupied solely because a natural or other disaster caused the occupants to leave the premises.

SEC. 2. The amendment of this section made at the 1987 portion of the 1987–88 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the existing law.

CHAPTER 345

An act to amend Section 13110.5 of the Health and Safety Code, relating to public safety, and making an appropriation therefor.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 13110.5 of the Health and Safety Code is amended to read:

13110.5. The State Fire Marshal shall gather statistical information on all fires, medical aid incidents, and hazardous materials incidents occurring within this state. The chief fire official of each fire department operated by the state, a city, city and county, fire protection district, organized fire company, or other public or private entity which provides fire protection, shall furnish information and data to the State Fire Marshal relating to each fire which occurs within his or her area of jurisdiction. The chief fire official of each fire department operated by the state shall, and the chief fire official of fire departments operated by a city, city and county, fire protection district, organized fire company, or other public or private entity which provides fire protection may, also furnish information and data to the State Fire Marshal relating to medical aid incidents and hazardous materials incidents which occur within their area of jurisdiction. The State Fire Marshal shall adopt regulations prescribing the scope of the information to be reported, the manner of reporting the information, the forms to be used, the time the information shall be reported, and other requirements and regulations as the State Fire Marshal determines necessary.

The State Fire Marshal shall annually analyze the information and data reported, compile a report, and disseminate a copy of the report, together with his or her analysis, to each chief fire official in the state. The State Fire Marshal shall also furnish a copy of his or her report and analysis to the State Emergency Medical Services Authority and any other interested person upon request.

SEC. 2. The sum of one hundred thousand dollars ($100,000) is hereby appropriated from the General Fund to the State Fire Marshal for purposes of Section 13110.5 of the Health and Safety Code.

CHAPTER 346

An act to amend Sections 21339 and 21340 of the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 21339 of the Government Code is amended to read:

21339. Notwithstanding any other provision of this part, a member who elected to receive optional settlement 2, 3, or 4, involving a life contingency of the beneficiary, may, if the beneficiary predeceases the member or if the member marries and the spouse is named as beneficiary, or, if a spouse was named, in the event of a dissolution or annulment of the marriage or a legal separation in which the judgment dividing the community property awards the total interest in the retirement system to the retired member, elect to have the actuarial equivalent reflecting any selection against the fund resulting from the election as of the date of election of the allowance payable for the remainder of the member's lifetime under the optional settlement previously chosen applied to a lesser allowance during the member's remaining lifetime under one of the optional settlements specified in this article and name a different beneficiary. The election shall be made within 12 months following the death of the beneficiary who predeceased the member or within 12 months of the date of entry of the judgment dividing the community property of the parties, or within 12 months following marriage if the spouse is named as beneficiary, or, in the case of a member who experienced one of these qualifying events prior to January 1, 1988, the election shall be made by January 1, 1989. The election shall become effective on the date specified on the election, provided that this date is not earlier than the day following receipt of the election in the system pursuant to this section.

A member who has a qualifying event prior to January 1, 1988, and who fails to elect by January 1, 1989, or a member who has a qualifying event on or after January 1, 1988, and who fails to elect within 12 months, shall retain the right to make an election under this section. However, this election shall become effective no earlier than 12 months after the date it is filed with the board, provided that neither the member nor the designated beneficiary die prior to the effective date of the election.

This section shall not be construed to mean that designation of a new beneficiary causes the selection of an optional settlement. An optional settlement shall be selected by a member in a writing filed by the member with the board.

SEC. 2. Section 21340 of the Government Code is amended to

read:

21340. Notwithstanding any provision of this part, a retired member who chose no optional settlement or optional settlement one at retirement may elect to have the actuarial equivalent, as of the date of the election, of the allowance payable for the remainder of his or her lifetime applied to a lesser allowance during his or her remaining lifetime under one of the optional settlements specified in this article and name his or her spouse as beneficiary.

The election provided by this section is irrevocable and shall be made within 12 months following a member's marriage if the spouse is named as beneficiary, or, in the case of a member who married prior to January 1, 1988, the election shall be made by January 1, 1989. The election shall become effective on the date specified on the election, provided that this date is not earlier than the day following receipt of the election in the system pursuant to this section.

A member who married prior to January 1, 1988, shall have the right to elect by January 1, 1989. A member who married on or after January 1, 1988, and who fails to elect within 12 months, shall retain the right to make an election under this section; however, the election shall become effective no earlier than 12 months after the date it is filed with the board, provided that neither the member nor the designated beneficiary die prior to the effective date of the election.

This section shall not be construed to mean that designation of a new beneficiary causes the selection of an optional settlement. An optional settlement shall be selected by a member in a writing filed by the member with the board.

CHAPTER 347

An act relating to wildlife, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature hereby finds and declares all of the following:

(1) During 1986, a small migratory songbird called the Least Bell's Vireo (Vireo bellii pusillus) was listed as an endangered species by the Secretary of the Department of the Interior. The bird has been determined by the state to be endangered.

(2) The total population of the birds in the United States, about 300 pairs, is in southern California and predominantly in San Diego County, although significant populations also inhabit Santa Barbara and Riverside Counties. The reasons for the bird's precipitous

decline in numbers are primarily the destruction of their required habitat by urban development and agriculture, and parasitism by the Brown Headed Cowbird (molothrus ater), a nonendangered species.

(3) The habitat of the Least Bell's Vireo lies partially in areas of southern California which are scheduled for critical transportation, flood control, and water quality improvements and comprehensive rangewide resolution of these conflicts is necessary for the survival of the species.

(4) It is desirable also that these projects proceed on or near their original schedules while satisfying the requirements of the Endangered Species Act, and that the Least Bell's Vireo be saved from extinction and encouraged to expand its numbers and range.

(5) Funds in the amount of one hundred fifty thousand dollars ($150,000) were previously appropriated by Chapter 1434 of the Statutes of 1985 to carry out a program which consists of an overall plan and strategy for recovery of the Least Bell's Vireo, individual habitat conservation plans, and a management project in the species' habitat area.

(6) As a result of the development of the recovery plan by the San Diego Association of Governments, the task force established pursuant to Section 2 of Chapter 1434 of the Statutes of 1985 and other interested public and private sector participants have identified the need for additional elements of the plan, which include preparation of an environmental impact statement to satisfy federal requirements, development of a habitat conservation plan for the Santa Ana River in the Counties of Orange and Riverside to help resolve conflicts between the species and the Prado Dam and other flood control projects, and supplemental funds to enable completion of the habitat conservation plans on the Sweetwater, San Diego, and San Luis Rey Rivers.

(7) The program funding provided for during the 1985–86 legislative session is inadequate to complete certain necessary and critical elements of the comprehensive species management planning process.

(b) Any funds appropriated in the Budget Act of 1987 from the State Highway Account in the State Transportation Fund for the general purpose of habitat protection for the Least Bell's Vireo shall be allocated to the San Diego Association of Governments to develop, through a cooperative effort, the comprehensive species management plan, the environmental impact statement, the Santa Ana River habitat conservation plan, and completion of the habitat conservation plans on the Sweetwater, San Diego, and San Luis Rey Rivers, as specified in this section. All habitat conservation plans shall include a highway element. The comprehensive species management plan shall not impact adversely any vested agricultural, municipal, or industrial water right. Nothing in the plan shall restrict irrigated agriculture or animal husbandry, including dairy and equine operations, except as a voluntary mitigating action.

SEC. 2. This act is an urgency statute necessary for the

immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The precipitous decline of the population of the Least Bell's Vireo could result in jeopardy findings by the Fish and Wildlife Service on behalf of the species in some project areas. Since speedy completion of the comprehensive species management plan and habitat conservation plans will substantially help in the early and positive resolution of these conflicts, and in order that funds appropriated and allocated by the Budget Act of 1987 will be available for expenditure as early as possible in this fiscal year, it is necessary that this act take effect immediately.

CHAPTER 348

An act to amend Section 10217.7 of the Elections Code, relating to elections.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 10217.7 of the Elections Code is amended to read:

10217.7. At any regular meeting of a city council held prior to the date on which the Secretary of State conducts the randomized alphabet drawing applicable to the regular municipal election under the provisions of Section 10217, or, under the provisions of Section 10217.5, applicable to a special election called to fill a vacancy on the city council, the city council may, by resolution, provide for the rotation on the ballot of the names of candidates for any elective city office.

The resolution shall specify which regular statewide election precincts or, if precincts have been consolidated for purposes of the city election, which consolidated precincts shall constitute each cluster of precincts for purposes of the rotation of candidates' names on the ballot.

As used in this section, a "cluster" shall consist of one or more precincts which need not be contiguous. The clusters of precincts shall be numbered in consecutive order for purposes of ballot rotation of candidates' names and the resolution shall list the clusters by number and identify which precincts are in each cluster.

No cluster of precincts shall contain a number of registered voters which is more than 10 percent greater or lesser than the average number of registered voters for a cluster as of the most recent estimate by the county clerk of the number of registered voters in each regular precinct in the city prior to the adoption of the

resolution. The resolution shall set forth the total number of registered voters in each cluster.

The resolution shall specify that in the cluster designated as cluster number one, the names shall appear on the ballot in the order determined by the Secretary of State's randomized alphabet drawing. For each successive cluster the resolution shall specify the manner of determining the order of the candidates' names by applying the following:

(a) If the number of candidates for an office is equal to or less than the number of clusters, in cluster number two and each successive cluster the name appearing first in the last preceding cluster shall be placed last, the order of the other names remaining unchanged.

(b) If the number of candidates for an office is greater than the number of clusters, the former shall be divided by the latter. If the resulting quotient is a mixed number and the fractional part of the mixed number is less than one-half, the fraction shall be discarded. If the fractional part of the mixed number is one-half or greater, the quotient shall be raised to the next largest whole number. The whole number which results from this process shall be the number of candidates which, in cluster number two and each successive cluster, shall be taken from the beginning of the list and placed at the end of the list, the order of the other names remaining unchanged.

No city may provide for rotation of candidates' names on the ballot for a particular election unless the resolution authorizing it, in accordance with the provisions of this section, is adopted by the city council at a regular meeting, at which the city clerk has provided cost estimates of such rotation, prior to the date of the randomized alphabet drawing applicable to the election.

A city council resolution which provides for rotation of candidates' names pursuant to this section for any election which is consolidated with any county or state election shall also provide for the payment of computer programming, formatting, preparation, and all similar related administrative costs associated with development of the ballot on which those names appear.

CHAPTER 349

An act to amend Section 22507.5 of the Vehicle Code, relating to vehicle parking.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 22507.5 of the Vehicle Code is amended to read:

22507.5. (a) Notwithstanding Section 22507, local authorities

may, by ordinance or resolution, prohibit or restrict the parking or standing of vehicles on certain streets or highways, or portions thereof, between the hours of 2 a.m. and 6 a.m., and may, by ordinance or resolution, prohibit or restrict the parking or standing, on any street, or portion thereof, in a residential district, of commercial vehicles having a manufacturer's gross vehicle weight rating of 10,000 pounds or more. The ordinance or resolution relating to parking between the hours of 2 a.m. and 6 a.m. may provide for a system of permits for the purpose of exempting from the prohibition or restriction of the ordinance or resolution handicapped persons and residents of high-density, multiple-family dwelling areas or similar areas lacking adequate offstreet parking facilities. The ordinance or resolution relating to the parking or standing of commercial vehicles in a residential district, however, shall not be effective with respect to any commercial vehicle making pickups or deliveries of goods, wares, and merchandise from or to any building or structure located on the restricted streets or highways or for the purpose of delivering materials to be used in the actual and bona fide repair, alteration, remodeling, or construction of any building or structure upon the restricted streets or highways for which a building permit has previously been obtained.

(b) For the purpose of implementing this section, each local authority may, by ordinance, define the term "residential district" in accordance with its zoning ordinance. The ordinance shall not be effective unless the legislative body of the local authority holds a public hearing on the proposed ordinance prior to its adoption, with notice of the public hearing given in accordance with Section 65090 of the Government Code.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 350

An act to add Section 935.7 to the Government Code, relating to the Department of Transportation.

The rules and regulations shall provide for reasonable reimbursement to an officer, employee, expert, or agent of the state for expenses incurred by him or her to repair a privately owned vehicle which was damaged through no fault of the officer, employee, expert, or agent, if the damage occurred while the vehicle was used on official state business with the permission or authorization of an employing agency.

(b) Governing such matters as are specifically committed to the jurisdiction of the department.

(c) Governing the computation of pay in the case of any employee on a monthly basis salary who is entitled to less than a full

month's pay.

If this section is in conflict with a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if any conflicting provision of a memorandum of understanding requires the expenditure of funds, that provision shall not become effective unless approved by the Legislature in the annual Budget Act.

If a board of supervisors of a county has submitted a resolution determining that the department's proposed recommendations on the taking of antlerless deer should be modified for that county, the department shall either so modify its recommendations and the commission shall so modify its orders or the department shall not recommend, and the commission shall not authorize, the taking of antlerless deer in that county.

SEC. 4. Section 460 of the Fish and Game Code is amended to read:

460. Prior to the February meeting of the commission as required in Section 207, the department shall recommend to the commission those deer herd units to be placed under a general deer hunting season. At the same time, the department shall recommend to the commission, subject to the provisions of Sections 458 and 459, whether any antlerless deer should be taken and in what deer herd units antlerless deer are to be taken. If in the judgment of the department there are deer herd units in which hunting pressure would adversely affect the deer herd, impair the hunting experience, or endanger the public safety, the department shall also recommend to the commission those deer herd units where hunter numbers should be restricted and which should be removed from the general deer hunting season designation. The department shall inform the commission of the condition of each deer herd unit. Upon receipt of the recommendations and information required in this section, the commission shall make that material known to the public and its determinations regarding proposed regulations. (4) In a stock cooperative, "separate interest" means the exclusive right to occupy a portion of the real property, as specified in subdivision (m).

Unless the declaration or condominium plan, if any exists, otherwise provides, if walls, floors, or ceilings are designated as boundaries of a separate interest, the interior surfaces of the perimeter walls, floors, ceilings, windows, doors, and outlets located within the separate interest are part of the separate interest and any other portions of the walls, floors, or ceilings are part of the common areas.

(m) "Stock cooperative" means a common interest development in which a corporation is formed or availed of primarily for the purpose of holding title to, either in fee simple or for a term of years, improved real property, and all or substantially all of the shareholders of the corporation receive a right of exclusive occupancy in a portion of the real property, title to which is held by the corporation. The owners' interest in the corporation, whether evidenced by a share of stock, a certificate of membership, or otherwise, shall be deemed to be an interest in a common interest development and a real estate development for purposes of subdivision (f), Section 25100 of the Corporations Code.

A "stock cooperative" includes a limited equity housing cooperative which is a stock cooperative that meets the criteria of Section 33007.5 of the Health and Safety Code.

SEC. 2. Section 1364 of the Civil Code is amended to read:

1364. (a) Unless otherwise provided in the declaration, the association is responsible for maintaining the common areas, other than exclusive use common areas, and the owner of each separate interest is responsible for maintaining that separate interest and any exclusive use common areas appurtenant to that separate interest.

(b) Notwithstanding the provisions of the declaration, the owner of a separate interest shall be entitled to reasonable access to the common areas for the purpose of maintaining the internal and external telephone wiring made part of the exclusive use common areas of a separate interest pursuant to paragraph (2) of subdivision (i) of Section 1351. The access shall be subject to the consent of the association, whose approval shall not be unreasonably withheld, and which may include the association's approval of telephone wiring upon the exterior of the common areas, and other conditions as the association determines reasonable.

CHAPTER 360

An act to amend Section 224n of the Civil Code, and to amend Sections 16120 and 16121 of the Welfare and Institutions Code, relating to adoption.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 224n of the Civil Code is amended to read:

224n. The department or licensed adoption agency to which a child has been freed for adoption by either relinquishment or termination of parental rights shall be responsible for the care of the child, and shall be entitled to the exclusive custody and control of the child until a final decree of adoption has been granted. Any placement for temporary care, or for adoption made by the department or a licensed adoption agency, may be terminated at its discretion at any time prior to the granting of a final decree of adoption. In the event of termination of any placement for temporary care or for adoption, the child shall be returned promptly to the physical custody of the agency.

No petition may be filed to adopt a child relinquished to the department or a licensed adoption agency or a child declared free from the custody and control of either or both of his or her parents and referred to the department or a licensed adoption agency for adoptive placement, except by the prospective adoptive parents with whom the child has been placed for adoption by the department or licensed adoption agency. After the petition for adoption has been filed, the department or licensed adoption agency may remove the child from the prospective adoptive parents only with the approval of the court, upon motion by the department or a licensed adoption agency after notice to the prospective adoptive parents, supported by an affidavit or affidavits stating the grounds on which removal is sought. If the department or a licensed adoption agency refuses to consent to the adoption of a child by the person or persons with whom the department or licensed adoption agency placed the child for adoption, the superior court may nevertheless decree the adoption if it finds that the refusal to consent is not in the best interest of the child.

For purposes of this section, the "department" means the State Department of Social Services.

SEC. 2. Section 16120 of the Welfare and Institutions Code is amended to read:

16120. Adoption Assistance Program benefits shall be provided only on behalf of special needs children for whom all of the following conditions are met:

(a) The department or licensed adoption agency and the

prospective adoptive parent have signed an adoption assistance agreement which stipulates the need for and the amount of Adoption Assistance Program benefits. The adoption assistance agreement shall, at a minimum, specify the duration of assistance, the responsibility of the adopting family for reporting changes in circumstances, and the periodic recertification required for reevaluating the continuing needs of the family.

(b) The child is under 18 years of age, or under 21 years of age and has a mental or physical handicap which warrants the continuation of assistance.

(c) The adoptive family is responsible for the child pursuant to the terms of an adoptive placement agreement or a final decree of adoption and have signed an adoption assistance agreement.

(d) The adoptive family is legally responsible for the support of the child and the child is receiving support from the adoptive parent.

(e) The child has been either relinquished for adoption to a California agency or freed for adoption through termination of parental rights by a California court, or committed to the department pursuant to subdivision (c) of Section 226 of the Civil Code.

SEC. 3. Section 16121 of the Welfare and Institutions Code is amended to read:

16121. (a) In accordance with the adoption assistance agreement, the adoptive family shall be paid an amount of aid based on the child's needs and the circumstance of the adopting parents but which shall not exceed the amount that would be paid for foster care for the child if the placement for adoption had not taken place. Any substantial change in the family's financial circumstance or need shall be reported by the parents to the adoption agency.

(b) Payment shall begin on or after the effective date of an adoption assistance agreement or a final decree of adoption.

(c) Children on whose behalf an aid for adoption of children agreement had been executed prior to October 1, 1982, shall continue to receive aid for adoption of children benefits in accordance with the terms of that agreement.

This aid for adoption of children agreement may be renewed, provided total benefits do not exceed five years. Prior to the end of the five-year period, if there is a continuing need, related to a chronic health condition of the child which necessitated the initial financial assistance, a parent may petition the department or the designated licensed. adoption agency to continue financial assistance. The amount of financial asistance and the time period for which it may be given, shall be determined by the department or the agency but shall not exceed the age of majority of the child. Prior to the expiration of the extension period, if there is a continuing need, a parent may petition the department or the designated licensed adoption agency for a new period of termination. The department or the agency shall make its determination regarding the financial ability of the parents to meet the continuing medical needs of the

child's health condition at the time of adoption, taking into consideration community resources.

It is a misdemeanor for the Auditor General or any employee or former employee of the office to divulge or make known in any manner not expressly permitted by law to any person not employed by the Office of the Auditor General, any particulars of any record, document, or information the disclosure of which is restricted by law from release to the public. This prohibition is also applicable to any person or business entity which is contracting with or has contracted with the Auditor General and to the employees and former employees of that person or business entity or the employees of any state agency or public entity which has assisted the Auditor General in the course of any audit or investigative audit or which has been furnished a draft copy of any report for comment or review.

SEC. 10. Section 10527 of the Government Code is amended to read:

10527. (a) Notwithstanding any other provision of law, the Auditor General during regular business hours shall have access to, and authority to examine and reproduce, any and all books, accounts, reports, vouchers, correspondence files, and other records, bank accounts, and money or other property, of any agency of the state, whether created by the Constitution or otherwise, and any public entity, including any city, county, and special district which receives state funds, and it shall be the duty of any officer or employee of any agency or entity, having those records or property in his or her possession or under his or her control, to permit access to, and examination and reproduction thereof, upon the request of the Auditor General or his or her authorized representative.

(b) For the purposes of access to and examination and reproduction of the records and property described in subdivision (a), an authorized representative of the Auditor General is an employee or officer of the agency or public entity involved and is subject to any limitations on release of the information as may apply to an employee or officer of the agency or public entity. For the purpose of conducting any audit or investigation, the Auditor General or his or her authorized representative shall have access to the records and property of any public or private entity or person subject to review or regulation by the agency or public entity being

audited or investigated to the same extent that employees or officers of that agency or public entity have access. No provision of law providing for confidentiality of any records or property shall prevent disclosure pursuant to subdivision (a), unless the provision specifically refers to and precludes access and examination and reproduction pursuant to subdivision (a). This subdivision does not apply to records compiled pursuant to Chapter 1 (commencing with Section 10200).

(c) Any officer or person who fails or refuses to permit access and examination and reproduction, as required by this section, is guilty of a misdemeanor.

SEC. 11. Section 10527.1 of the Government Code is amended to read:

10527.1. Where any specific statute bars the access of the Auditor General or the Joint Legislative Audit Committee to any record, the Joint Legislative Audit Committee, by approval of a majority of the members of the committee, may authorize that the Auditor General and the Joint Legislative Audit Committee be granted access, with the right to examine and reproduce, to the records if that access is for the purpose of an audit authorized by the committee to the extent permitted by federal law. That authorization shall include safeguards to prohibit disclosure of any information which identifies by name or address any public social service recipient, or any other record which is protected by law.

SEC. 12. Section 10528 of the Government Code is amended to read:

10528. The Auditor General, with the approval of the Joint Legislative Audit Committee, shall examine and report annually upon the financial statements prepared by the executive branch of the state to the end that the Legislature will be informed as to the adequacy of those financial statements in compliance with generally accepted accounting principles applied on a basis consistent with that of the preceding fiscal year. In making that examination, he or she is authorized to make the audit examination of accounts and records, accounting procedures and internal auditing performance as the Joint Legislative Audit Committee may determine and specifically designate to be necessary to disclose all material facts necessary to proper reporting to the Legislature in accordance with the statement of purposes set forth in Section 10500. He or she shall make special audits and investigations, including performance audits, of any state agency whether created by the Constitution or otherwise, and any public entity, including any city, county, and special district which receives state funds, as requested by the Legislature or any committee of the Legislature.

SEC. 13. Section 10532 of the Government Code is amended to read:

10532. Notwithstanding any other provision of law, every contract involving the expenditure of public funds in excess of ten thousand dollars ($10,000) entered into by any state agency, board,

commission, or department or by any other public entity, including a city, county, city and county, or district, shall be subject to the examination and audit of the Auditor General for a period of three years after final payment under the contract. Every contract shall contain a provision stating that the contracting parties shall be subject to that examination and audit. The failure of a contract to contain this provision shall not preclude the Auditor General from conducting an examination and audit of the contract. It is the intent of the Legislature that the Regents of the University of California include in contracts involving the expenditure of state funds in excess of ten thousand dollars ($10,000) a provision stating that the contracting parties shall be subject to the examination and audit of the Auditor General for a period of three years after final payment under the contract. The examination and audit shall be confined to those matters connected with the performance of the contract, including, but not limited to, the costs of administering the contract.

SEC. 15. Section 10532 of the Government Code, as amended by Section 13 of this act, shall apply to contracts in existence on and after the effective date of this act.

SEC. 16. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 17. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to clarify, at the earliest possible time, the authority of the Auditor General to conduct an examination and audit of public contracts by entities of local government, it is necessary that this act take effect immediately.

A resolution of the legislative body approving repurchase of agency bonds under this subdivision shall be operative only for the period specified in the resolution of the legislative body, not to exceed five years. However, the authorization may be renewed by an appropriate resolution of the legislative body and the expiration of the legislative body's resolution shall in no way impair the obligation of bonds previously issued by the agency to refund bonds purchased under this subdivision.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 52020 of the Health and Safety Code is amended to read:

52020. (a) For purposes of a home financing program authorized by this part, a city or county has the following powers and duties:

(1) To acquire, contract, and enter into advance commitments to acquire, home mortgages made or owned by lending institutions at the purchase prices and upon the other terms and conditions as shall be determined by the city or county or other person as it may designate as its agent, to make and execute contracts with lending institutions for the origination and servicing of home mortgages and to pay the reasonable value of services rendered under those

contracts. Prior to executing any contract with a lending institution, a city or county shall adopt regulations establishing criteria for qualification of lending institutions eligible to originate and service home mortgages under home financing programs authorized by this part and shall, with respect to each home financing program, permit each qualified lending institution which transacts business in the city or county the opportunity to participate in the program on an equitable basis with other participating lending institutions. Two or more cities in the same county, or a county and one or more cities within the county, or two or more adjacent counties and any number of cities within those counties may enter into an agreement to join or cooperate with one another in the exercise jointly, or otherwise, of any or all of their powers for the purpose of financing home mortgages pursuant to this part with respect to property within the boundaries of any one or more of the entities.

(2) To make loans to lending institutions under terms and conditions which, in addition to other provisions as determined by the city or county, require the lending institutions to use all of the net proceeds thereof, directly or indirectly, for the making of home mortgages in an aggregate principal amount equal to the amount of the net proceeds.

(3) To establish, by rules or regulations, in resolutions relating to any issuance of bonds or in any documents relating to the issuance, standards and requirements applicable to the purchase of home mortgages or the making of loans to lending institutions as the city or county deems necessary or desirable to effectuate the purposes of this part, which may include without limitation any of the following:

(A) The time within which lending institutions are required to make commitments and disbursements for home mortgages.

(B) The location and other characteristics of homes to be financed by home mortgages.

(C) The terms and conditions of home mortgages to be acquired.

(D) The amounts and types of any insurance coverage required on homes, home mortgages and bonds.

(E) The representations and warranties of lending institutions confirming compliance with the standards and requirements.

(F) Restrictions as to interest rate and other terms of home mortgages or the return realized therefrom by lending institutions.

(G) The type and amount of collateral security to be provided to assure repayment of any loans from the city or county and to assure repayment of bonds.

(H) Any other matters related to the purchase of home mortgages or the making of loans to lending institutions as deemed relevant by the city or county.

(4) To require from each lending institution from which home mortgages are purchased or to which loans are made the submission of evidence satisfactory to the city or county of the ability and intention of the lending institution to make home mortgages, and the submission, within the time specified by the city or county for

making disbursements for home mortgages, of evidence satisfactory to the city or county of the making of home mortgages and of compliance with any standards and requirements established by it.

(b) Each city or county which finances housing pursuant to this part shall designate a person or entity to administer the program.

(c) Each city or county which finances housing pursuant to this part shall adopt regulations establishing criteria for qualification of persons and families, which may differ among different cities or counties to reflect varying economic and housing conditions. In developing this criteria, factors similar to the following shall be taken into consideration:

(1) The amount of the income of the person or family that is available for housing needs.

(2) The size of the household.

(3) The costs and condition of available housing.

(4) The eligibility of the persons or families for federal housing assistance of any type.

(d) Criteria for qualification of persons and families pursuant to this section shall include a maximum household income, which maximum shall not exceed the following:

(1) One hundred twenty percent of the median household income for mortgages made for improving a home or for homes where the purchaser will be the first occupant. Upon the resale of a home for which financing was originally provided under this paragraph, the maximum income of persons and families shall also be 120 percent of the median household income.

(2) The median household income where the purchaser will not be the first occupant. However, the city or county shall ensure that no less than 50 percent of the funds allocated for home mortgages where the purchaser will not be the first occupant shall be for households whose income does not exceed 80 percent of that median household income. However, the legislative body of the city or county may, by resolution, increase this income limitation to 90 percent of median household income if the legislative body finds that there are insufficient numbers of creditworthy persons whose income does not exceed 80 percent of median household income. The resolution is final and conclusive as to the findings required by this paragraph.

(3) One hundred fifty percent of the median household income for mortgages made for improving a home or for homes where the purchaser will be the first occupant in any city, the entire area of which, or in any county in which a portion of the county, is designated by the United States Department of Commerce, Economic Development Administration as a special impact area within a Title IV redevelopment area, pursuant to Section 401 of the federal Public Works and Economic Development Act of 1965, as amended, and which is eligible for Urban Development Action Grant funds under the current distress standards established for cities and counties by the Secretary of the United States Department

of Housing and Urban Development pursuant to Section 119 of the Housing and Community Development Act of 1974, if the homes purchased or improved are situated within the boundaries of a special impact area as defined by the Economic Development Administration, and that designation is in effect on the date of sale of revenue bonds issued under this part.

As used in this subdivision, "median household income" means the highest of (A) statewide median household income, (B) countywide median household income, or (C) median family income for area as determined by the United States Department of Housing and Urban Development, with respect to either a standard metropolitan statistical area or an area outside of a standard metropolitan statistical area.

(e) Subdivision (d) shall not apply with respect to home finance programs funded with amounts made available by the issuance of revenue bonds that (1) for federal tax law purposes are bonds refunding qualified mortgage bonds issued before January 1, 1987, and (2) satisfy the requirements of subdivision (a) of Section 1313 of the federal Tax Reform Act of 1986. With respect to these programs, the maximum household income for qualification of persons and families pursuant to this section shall be the following:

(1) One hundred fifty percent of the median household income for mortgages made for improving a home or for homes where the purchaser will be the first occupant. Upon the resale of a home for which financing was originally provided under this paragraph, the maximum income of persons and families shall also be 150 percent of the median household income. For purposes of this paragraph, a mortgage made for improving a home includes a home improvement loan as defined in Section 143 of Title 26 of the United States Code.

(2) One hundred twenty percent of the median household income where the purchaser will not be the first occupant. However, the city or county shall ensure that no less than 20 percent of the funds allocated for home mortgages where the purchaser will not be the first occupant shall be for households whose income does not exceed 110 percent of that median household income. However, the legislative body of the city or county may, by resolution, increase this income limitation to 120 percent of the median household income if the legislative body finds that there are insufficient numbers of creditworthy persons whose income does not exceed 110 percent of the median household income. The resolution is final and conclusive as to the findings required by this paragraph. However, the finding shall not be made by the legislative body before six months from the date mortgages were first made under the program and only if participating lenders have entered into an agreement with the city, county, or city and county that lenders will advertise at least monthly the availability of funds and will forfeit one-quarter of their origination fees if they are unable to use 20 percent of the funds to make mortgages to households whose income does not exceed 110

percent of the median income.

(3) One hundred fifty percent of the median household income for mortgages made for improving a home or for homes where the purchaser will be the first occupant in any city, the entire area of which, or in any county in which a portion of the county, is designated by the United States Department of Commerce, Economic Development Administration as a special impact area within a Title IV redevelopment area, pursuant to Section 401 of the federal Public Works and Economic Development Act of 1965, as amended, and which is eligible for Urban Development Action Grant funds under the current distress standards established for cities and counties by the Secretary of the United States Department of Housing and Urban Development pursuant to Section 119 of the Housing and Community Development Act of 1974, if the homes purchased or improved are situated within the boundaries of a special impact area as defined by the Economic Development Administration, and that designation is in effect on the date of sale of revenue bonds issued under this part.

As used in this subdivision, "median household income" means the highest of (1) statewide median household income, (2) countywide median household income, or (3) median family income for area as determined by the United States Department of Housing and Urban Development, with respect to either a standard metropolitan statistical area or an area outside of a standard metropolitan statistical area.

(f) (1) Except as otherwise provided in paragraph (2), each city or county which finances housing pursuant to this part shall allocate no less than 60 percent of the dollar amount of its financing from bond proceeds to fund loans for the purchase of homes where the purchaser will be the first occupant, or for substantial rehabilitation. As used in this chapter, "substantial rehabilitation" means rehabilitation in which the costs of rehabilitation equal or exceed 20 percent of the value of the structure after rehabilitation.

(2) Paragraph (1) does not apply to an issue of bonds for which all of the proceeds of the bond issuance are allocated to fund loans for home improvement or substantial rehabilitation.

(g) Each city or county which finances housing pursuant to this part shall require each mortgagor under the program to certify his or her intention to occupy the home for a minimum of two years after receiving a home mortgage, with appropriate exceptions in hardship cases determined by the city or county.

(h) Each city and county may do any and all things necessary to carry out the purposes and exercise the powers expressly granted by this part.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that this act may take effect prior to the redemption date

of certain local mortgage revenue bonds, so as to permit refunding thereof under provisions of federal tax laws that are less restrictive than for new bonds, and to thereby make additional moneys available for mortgage financing, it is necessary for this act to take effect immediately.

For the purpose of rendering such statement, the district shall designate a certified public accountant who shall make an independent audit of the accounts and other evidences of financial transactions of the district during the preceding year. Such certified public accountant shall have no personal interest directly or indirectly in the financial affairs of the district.

More than one proposition of incurring bonded debt may be submitted at the same election. Any proposition may include one or more of the authorized purposes. The resolution shall recite:

(a) The objects and purposes of incurring the indebtedness.

(b) The amount of the principal of the indebtedness.

(c) The rate of maximum rate of interest on the indebtedness which shall not exceed the maximum interest rate provided for in Section 53531 of the Government Code. The interest shall be payable semiannually except that the first interest payable on the bonds or any series thereof may be for any period not exceeding one year, as determined by the board of directors at the time of sale.

(d) The date of the election.

(e) The manner of holding the election and the procedure for voting for or against the proposition.

Sec. 21.15. The bonds shall be signed by the president and the secretary, or the general manager, of the district. The bond coupons shall be numbered consecutively and signed by the secretary or the general manager of the district. All signatures may be printed, lithographed, or engraved except that one of the signatures on the bond shall be manually affixed. If any officer whose signature appears on bonds or coupons ceases to be such officer before delivery of the bonds, his or her signature is as effective as if he or she had remained in office.

SEC. 10. Section 37 of the Orange County Water District Act (Chapter 924 of the Statutes of 1933) is amended to read:

Sec. 37. No claim shall be paid by the treasurer until allowed by the board, and only upon a warrant or check signed by the president and countersigned by the secretary or signed and countersigned by such persons as the board may approve. amount or amounts paid out of the district funds since the last preceding report. The report shall be verified and filed with the secretary of the board.

SEC. 11. Section 38.1 of the Orange County Water District Act (Chapter 924 of the Statutes of 1933) is amended to read:

Sec. 38.1. Any water-producing facility which is producing water within the exterior boundaries of the district may be exempted by order of the board of directors from the payment of the replenishment assessments and from the levy of the basin equity assessment and the production requirements and limitations provided for in this act upon the filing of a verified petition by the owner of the water-producing facility.

The petition shall be filed with the board of directors of the district and shall include a description of the land upon which the water-producing facility is located, a description of the water-producing facility, a statement of water quality analysis of the water produced by the water-producing facility, the names and addresses of the owners of the water-producing facility, and shall set forth the purpose or purposes for which any water produced from the water-producing facility will be used. The petition may include one or more water-producing facilities located in the same general area, provided each of such facilities are owned by the same owner. The petitioner shall pay to the district the expenses of advertising and costs incident to the proceedings.

Upon the filing of the petition, the secretary of the district shall cause an investigation to be made by the district geologist or an engineer or engineers for the purpose of determining whether the water produced by the water-producing facility is suitable or unsuitable for domestic or agricultural purposes. Upon completion of the investigation, a report of the results thereof shall be filed with the board of directors and a copy shall be mailed to the petitioner. Upon filing of the report, the board of directors shall fix a time for a hearing upon said petition and report, which time shall be not less than 10 days and not more than 75 days after the filing of the report, and shall cause a notice of the filing thereof and time and place fixed for the holding of the hearing to be published one time, at least 10 days before the date fixed for such hearing, in a newspaper of general circulation printed and published within the district. A copy of the notice shall be mailed to the petitioner by first-class mail with postage prepaid not less than seven days prior to the date of the hearing.

At the time of the hearing, the board of directors shall determine whether the water produced from the water-producing facility or facilities is suitable or unsuitable for domestic or agricultural purposes. If the board of directors finds and determines the water produced from such facility or facilities or any of them is unsuitable for domestic or agricultural purposes, and further finds and determines that the production of such unsuitable water will have no adverse effects on the groundwater supplies of the district, the board

of directors may make an order that water produced from the water-producing facility or facilities shall be exempted from the payment of the replenishment assessments and from the levy of the basin equity assessment and the production requirements and limitations as provided in this act.

Nothing contained in this section shall exclude the operator of any water-producing facility exempted from the payments of replenishment assessments from affixing a water measuring device to the facility as provided in Section 35 or from filing the water production statements provided for in Section 29.

The board of directors of the district may from time to time require that the owner of any water-producing facility or facilities, which are exempted from the payment of replenishment assessments and basin equity assessments, provide additional water quality analyses of water being produced from any water-producing facility which has been exempted from the payment of replenishment assessments and from the levy of the basin equity assessment and the production requirements and limitations as provided in this act.

The district shall at all times have the right to enter upon the premises where such exempted water-producing facility or facilities are located for the purpose of obtaining samples of the water being produced.

If at any time it appears that the quality of water being produced from a water-producing facility which has been exempted from payment of replenishment assessments and from the levy of the basin equity assessment and the production requirements and limitations has become suitable for domestic or irrigation purposes, the secretary of the district shall fix a time for a hearing to determine whether the water produced from the water-producing facility has become suitable for domestic or agricultural purposes. The secretary of the district shall cause a notice of the hearing to be published one time, at least 10 days before the date fixed for such hearing, in a newspaper of general circulation printed and published within the district. A copy of such notice shall be mailed to the owner of the water-producing facility by first-class mail with postage prepaid not less than seven days prior to the date of the hearing.

If upon the hearing, the board of directors finds and determines that the quality of the water being produced from the water-producing facility has become suitable for domestic or irrigation purposes or that the production of water therefrom will have an adverse effect on the groundwater supplies of the district, the board of directors shall make an order that the exemption of payment of replenishment assessments and from the levy of the basin equity assessment and the production requirements and limitations on water being produced from the water-producing facility shall be canceled. Notice of the cancellation of exemption shall be sent to the owner of the specified water-producing facility by first-class mail with postage prepaid. The effective date of the

cancellation of exemption from the payment of replenishment assessments and from the levy of the basin equity assessment and the production requirements and limitations shall be 10 days after the date of mailing of the notice of cancellation.

SEC. 12. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.

CHAPTER 380

The people of the State of California do enact as follows:

SECTION 1. Section 18671.1 of the Government Code is amended to read:

18671.1. Whenever a hearing or investigation is conducted by the board or its authorized representative in regard to an appeal by an employee, the hearing or investigation shall be commenced within a reasonable time after the filing of the petition and the board shall render its decision within a reasonable time after the conclusion of the hearing or investigation, except that the period from the filing of the petition to the decision of the board shall not exceed six months or 90 days from the time of the submission, whichever time period is less, and except that the board may extend the six-month period up to 45 additional days. In the event of an extension, the board shall publish substantial reasons for the need for the extension in its calendar prior to the conclusion of the six-month period. Submission occurs on the last day of the hearing, if no other documents are to be filed, or on the last day designated for the filing of briefs or other evidence necessary to complete the record. The provisions relating to the six-month or the 90-day periods for a decision may be waived by the employee but if not so waived, a failure to render a timely decision is an exhaustion of all available administrative remedies. In cases involving complaints of discrimination, harassment, or retaliation, where the executive officer renders a decision, the decision shall be rendered within four months of the filing of the appeal.

CHAPTER 381

An act to amend Section 5003.2 of the Public Utilities Code, relating to the Public Utilities Commission, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 28, 1987. Filed with Secretary of State August 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 5003.2 of the Public Utilities Code is amended to read:

5003.2. (a) Notwithstanding Section 5003.1, the commission shall require every highway carrier otherwise subject to Section 5003.1 for whom the commission does not establish minimum rates, or require rates to be on file with the commission, to pay a fee equal to 1/10 of 1 percent of the amount of gross operating revenue. This reduced fee shall remain in effect until July 1, 1988.

(b) Until July 1, 1988, the commission may raise the fee imposed by Section 5003.1 upon those persons and corporations subject to that section for whom the commission establishes minimum rates or requires rates to be on file, up to a maximum of one-half of 1 percent of gross operating revenue, if the commission decides this increase is necessary to maintain adequate financing during this period.

(c) From July 1, 1986, to June 30, 1987, the commission shall conduct a study to determine the actual costs to the commission for the services it is required to provide, or does provide, to highway carriers subject to Section 5003.1 for whom the commission does not establish minimum rates or require rates to be on file with the commission. After this study is complete, the commission, the Department of Finance, and representatives of the carrier industry shall assess the results of the study, to advise whether a permanent reduced fee for highway carriers should be established.

SEC. 2. The Public Utilities Commission shall, on or before January 1, 1988, prepare and submit to the Legislature a report on its study regarding a permanent reduced fee for highway carriers conducted pursuant to subdivision (c) of Section 5003.2 of the Public Utilities Code, together with its recommendations in this regard.

SEC. 3. The sum of ninety thousand dollars ($90,000) is hereby appropriated from the Transportation Rate Fund to the Public Utilities Commission for the continued implementation of Section 5003.2 of the Public Utilities Code during the 1987–88 fiscal year.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to allow enough time for the Public Utilities Commission,

the Department of Finance, and representatives of the motor carrier industry to complete and assess the results of the study prescribed by Section 5003.2 of the Public Utilities Code, it is necessary to extend the program until July 1, 1988, so that recommendations can be made to and considered by the Legislature as to whether a permanent reduced fee for highway carriers shall remain in effect. Thus, it is necessary that this act take effect immediately.

SECTION 1. Section 6369 of the Revenue and Taxation Code is amended to read:

6369. (a) There are exempted from the taxes imposed by this part the gross receipts from the sale, and the storage, use, or other consumption, in this state of medicines:

(1) Prescribed for the treatment of a human being by a person authorized to prescribe the medicines, and dispensed on prescription filled by a registered pharmacist in accordance with law.

(2) Furnished by a licensed physician and surgeon, dentist, or podiatrist to his or her own patient for treatment of the patient.

(3) Furnished by a health facility for treatment of any person pursuant to the order of a licensed physician and surgeon, dentist, or podiatrist.

(5) Sold to this state or any political subdivision or municipal corporation thereof, for use in the treatment of a human being; or furnished for the treatment of a human being by a medical facility or clinic maintained by this state or any political subdivision or municipal corporation thereof.

(b) "Medicines" as used in this section, means and includes any substance or preparation intended for use by external or internal application to the human body in the diagnosis, cure, mitigation, treatment or prevention of disease and which is commonly recognized as a substance or preparation intended for that use. However, "medicines" does not include any of the following:

(c) Notwithstanding subdivision (b), "medicines" as used in this section means and includes any of the following:

(1) Sutures, whether or not permanently implanted.

However, orthopedic shoes and supportive devices for the foot are not exempt unless they are custom-made biomechanical foot orthoses or are an integral part of a leg brace or artificial leg. For purposes of this paragraph, "custom-made biomechanical foot orthoses" means an individually prescribed foot orthosis which is custom fabricated over a neutral or near neutral subtalar joint with a pronated midtarsal joint position positive plaster model of the patient's foot, which model, when the cast is modified to support the osseous position of the forefoot in relationship to the rearfoot, embodies the angular osseous relationships of the anterior and posterior portions of the foot.

(g) Mammary prostheses, and any appliances and related supplies necessary as the result of any surgical procedure by which an artificial opening is created in the human body for the elimination of natural waste, shall be deemed to be dispensed on prescription within the meaning of this section.

SEC. 2. Notwithstanding Section 2230 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to the section nor shall there be any appropriation made by this act because revenue losses to local agencies due to this act are minor in nature

and will not cause any financial burden to local government.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 385

An act to amend Section 611.1 of the Elections Code, and to amend Section 5532 of the Public Resources Code, relating to elections.

The clerk may require the payment of a fee not to exceed the cost of duplicating the information or providing the tape as a condition to furnishing the information contained in this section.

If the county clerk uses data-processing equipment, he or she shall make the index available on a data-processing tape file on request. The county clerk shall be required to retain this file until the next November general election in an even-numbered year has been conducted.

SEC. 2. Section 5532 of the Public Resources Code is amended to read:

5532. (a) Except as otherwise provided in this section and Section 5531, Chapter 5 (commencing with Section 6400) of Division 6 of the Elections Code shall substantially govern as to the manner of appointment of circulators, the form of nomination documents and the securing of signatures to the nomination documents, the filing of the candidate's nomination documents, the payment of filing fees, and all other things necessary to get the name of the candidate upon the ballot.

(b) Circulators may obtain signatures to the nomination paper of any candidate at any time not more than 113 days nor less than 88

days prior to the election, and all nomination documents shall be filed with the secretary of the district not more than 113 days nor less than 88 days before the day of election and shall be examined by him or her.

(c) The election shall be consolidated with the general election as to territory which is the same, and the secretary of the district shall certify the names of all candidates to be placed upon the ballot to the county clerk or county clerks within the territory affected by the consolidation at least 67 days prior to the date of the election.

The board of directors shall make the appointments. If no person has been nominated for any office, the board of directors shall appoint any person to the office who is qualified at the first regular or special meeting after the date upon which the election would have been held. The board of directors may permit the candidates running unopposed to have their names appear on the ballot, at the board's option. The person appointed shall qualify and take office and serve exactly as if elected for the office.

(f) The secretary of the district shall issue certificates of election, signed by him or her and duly authenticated, immediately following the determination of the result of the election or the appointment by the directors of the district.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local

agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

The people of the State of California do enact as follows:

SECTION 1. Section 15 of the Desert Water Agency Law (Chapter 1069 of the Statutes of 1961) is amended to read:

Sec. 15. The Desert Water Agency incorporated as herein

provided, shall have the power:

2. To sue and be sued, except as otherwise provided herein or by law, in all actions and proceedings in all courts and tribunals of competent jurisdiction.

3. To adopt a seal and alter it at pleasure.

4. To take by grant, purchase, gift, devise, or lease, hold, use, enjoy, and to lease or dispose of real and personal property of every kind, within or without the Desert Water Agency.

5. To acquire, or contract to acquire, waterworks or a waterworks system, waters, water rights, lands, rights, and privileges, and construct, maintain, and operate conduits, pipelines, reservoirs, works, machinery, and other property useful or necessary to store, convey, supply, or otherwise make use of water for a waterworks plant or system for the benefit of the agency, and to complete, extend, add to, repair, or otherwise improve any waterworks or waterworks system acquired by it as herein authorized.

6. To construct, maintain, improve, and operate public recreational facilities appurtenant to any water reservoir operated or contracted to be operated by the Desert Water Agency, and to provide by ordinance regulations binding upon all persons to govern the use of such facilities including regulations imposing reasonable charges for the use thereof. Violation of any such regulation shall be a misdemeanor.

7. To lease of and from any person, firm or public or private corporation, or public agency, with the privilege of purchasing or otherwise, all or any part of water storage, transportation or distribution facilities, existing waterworks or a waterworks system, and to carry on and conduct waterworks or a waterworks system; also to sell water under the control of the agency to cities, and to other public corporations and public agencies within the agency, and to the inhabitants of such cities and of other territory within the agency, and to persons, corporations, and other private agencies within the agency for use within the agency without any preference; also to sell water outside the boundaries of the agency to the extent that the lands and inhabitants so served are southerly and westerly of the White Water River and northerly of the township line between Township 4 South and Township 5 South, S.B.B. & M., and exclusive of that certain subdivision known as Palm Springs Outposts Estates situated in Section 21, Township 4 South, Range 5 East, S.B.B. & M. and it may, whenever the board shall find that there is a surplus of water above that which may be required by such consumers within the agency, sell or otherwise dispose of such surplus water to any persons, firms, public or private corporations, or public agencies or other consumers.

8. The agency may supply and deliver water to property not subject to agency taxes at special rates, terms, and conditions as are determined by the board for such service.

9. To have and exercise the power of eminent domain, and in the

manner provided by law for the condemnation of private property for public use, to take any property necessary to the exercise of the powers granted in this act. The agency in exercising such power, shall in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal, reconstruction, or relocation of any structure, railways, mains, pipes, conduits, wires, cables, or poles of any public utility which is required to be removed to a new location. The agency shall not exercise the power of eminent domain with respect to property situated outside the boundaries of the agency unless it first obtains the consent of the board of supervisors of the county in which such property is located; provided, however, that the agency may exercise the right of eminent domain for the condemnation of property outside the boundaries of the agency for the acquisition of rights-of-way in any county in which territory of the agency is located or in any county adjacent to such county without obtaining the consent thereto of the board of supervisors thereof. When the agency proposes to exercise the power of eminent domain, under this section, for the condemnation of property outside the boundaries of the agency for the acquisition of rights-of-way in any county in which territory of the agency is located or in any county adjacent to such county, it shall give written notice, at least two weeks prior to condemning the property, to the board of supervisors of the county in which the property is located. 11. To issue negotiable promissory notes bearing interest at a rate not exceeding 7 percent per annum; provided, however, that the notes shall be payable from revenues and taxes legally derived pursuant to any maximum property tax rate procedure; and provided further that the maturity shall not be later than five years from the date thereof and that the total aggregate amount of such notes outstanding at any one time may be at least equal to seventy-five thousand dollars ($75,000) in the Desert Water Agency but shall not otherwise exceed the lesser of either one million five hundred thousand dollars ($1,500,000) or 3 percent of the assessed valuation of the taxable property in the Desert Water Agency, or, if the assessed valuation is not obtainable, 3 percent of the county

12. To cause taxes to be levied, in the manner hereinafter provided, for the purpose of paying any obligation of the agency, including its formation expenses and any warrants issued therefor.

13. To restrict the use of agency water during any emergency caused by drought, or other threatened or existing water shortage, and to prohibit the wastage of agency water or the use of agency water during such periods, for any purpose other than household uses or such other restricted uses as may be determined to be necessary by the agency; to prohibit the use of such water during such periods for specific uses which the agency may from time to time find to be nonessential.

Every ordinance relating to the matters referred to in this subdivision shall be in full force and effect forthwith upon adoption, but shall be published pursuant to Section 6061 of the Government Code in full in a newspaper of general circulation, printed, published and circulated in the agency within 10 days after adoption, or if there be no such newspaper it shall be posted within that time in three public places within the agency.

15. To make contracts, to employ labor, and do all acts necessary for the full exercise of the foregoing powers.

16. To provide by ordinance of its board of directors for the pensioning of officers or employees and the creation of a special fund for the purpose of paying such pensions, and the accumulation of contributions to that fund from the revenues of the agency, the wages of officers or employees, voluntary contributions, gifts, donations, or any source of revenue not inconsistent with the general powers of the board, and to contract with any insurance corporation or any other insurance carrier for the maintenance of a service covering the pension of such officers or employees, and to provide in such ordinance for the terms and conditions under which such pensions shall be awarded, and for the time and extent of service of officers or employees before such pensions shall be available to them.

17. To acquire, control, distribute, store, spread, sink, treat, purify, reclaim, recapture, and salvage any water, including sewage and storm waters, and to acquire, construct, maintain, and operate sanitary sewers and sewerage systems, for the beneficial use or uses and protection of the agency or its inhabitants or the owners of rights to water therein; provided, however, that all waters of the Whitewater River system are excluded from the provisions hereof, except such waters of that system as may be lawfully acquired by the Desert Water Agency; provided further that rights to any water made available by the Desert Water Agency are owned and

controlled exclusively by the agency, and no person within or outside of the boundaries of the Desert Water Agency shall acquire any property or other right in such water, except as provided by contract with the agency, or pursuant to such rules and regulations as the agency may from time to time establish and enforce.

18. Subject to the limitations in subdivision 9 of this section, to join with one or more public agencies, private corporations or other persons for the purpose of carrying out any of the powers of the agency, and for that purpose to contract with such other public agencies or private corporations or persons for the purpose of financing such acquisitions, constructions, and operations. Such contracts may provide for contributions to be made by each party thereto and for the division and apportionment of the expenses of such acquisitions and operations, and the division and apportionment of the benefits, the services and products therefrom, and may provide for any agency to effect such acquisitions and to carry on such operations, and shall provide in the powers and methods of procedure for such agency the method by which such agency may contract. Such contracts with other public agencies or private corporations or persons may contain such other and further covenants and agreements as may be necessary or convenient to accomplish the purposes thereof. The term "public agency," as used in this subdivision, shall be deemed to mean and include the United States of America or any department or agency thereof, the State of California or any department or agency thereof, a county, city, public corporation, the Metropolitan Water District of Southern California, or other public district of this state. The term "private corporation," as used in this subdivision, shall be deemed to mean and include any private corporation organized under the laws of the United States of America or of this or any other state thereof. Contracts mentioned herein include those made with the United States under the Federal Reclamation Act of June 17, 1902, and all acts amendatory thereof or supplementary thereto or any other Act of Congress heretofore or hereafter enacted permitting cooperation. Any such contract with the United States of America or any department or agency thereof, or with any private corporation organized under the laws of the United States of America, by which the Desert Water Agency, or an improvement district thereof, incurs an indebtedness or liability exceeding in any year the income and revenue for such year shall not be executed without the assent of two-thirds of the qualified electors of the agency, or an improvement district thereof, voting at a special election to be held for that purpose, such election to be called and held, so far as practicable, in the same manner as bond elections for the agency. The exact form of such contract need not be available at the time of the special election, but the (1) purpose of the contract; (2) maximum amount of the indebtedness created thereby; (3) maximum term of repayment, and (4) maximum interest rate on such indebtedness shall be known and included in the proposition or measure submitted

to the qualified electors of the agency, or an improvement district thereof, at such special election.

19. To commence, maintain, intervene in, defend, and compromise, in the name of the agency, or as a class representative of the inhabitants, property owners, taxpayers, or water producers or water users within the agency, or otherwise, and to assume the costs and expenses of any and all actions and proceedings, now or hereafter begun, involving or affecting the ownership or use of water or water rights, used or useful for any purpose of the agency, or a common benefit to the lands within the agency or its inhabitants.

20. To commence, maintain, intervene in, defend, and compromise, in the name of the agency, or as a class representative of the inhabitants, property owners, taxpayers, water producers or water users within the agency or otherwise, and to assume the costs and expenses of any and all actions or proceedings, now or hereafter begun, to prevent, control, or abate the pollution of water used or useful for any purpose of the agency, or a common benefit to lands within the agency, or to the inhabitants of the agency, or any watershed or basin overlain in whole or in part by the agency or which contributes to the water supply of the agency.

21. Distribute water to persons in exchange for ceasing or reducing groundwater extractions and to fix the terms and conditions of any contract under which producers may agree voluntarily to use replenishment water from a nontributary source in lieu of groundwater, and to such end an agency may become a party to such contract and pay from the agency funds such portion of the cost of such replenishment waters as will encourage the purchase and use of such water in lieu of pumping so long as the persons or property within the agency are directly or indirectly benefited by the resulting replenishment.

22. To issue bonds under Section 28 of this act for the purpose of providing money required to be paid by this agency as all or part of the terms and conditions under which the corporate area of the Desert Water Agency may be annexed to and become a part of any metropolitan water district organized under the Metropolitan Water District Act. The amount of the bonds may include expenses of all proceedings for the authorization, issuance and sale of the bonds.

23. To issue revenue bonds for any purpose for which general obligation bonds may be issued, and for any purpose for which the bonds could be issued under the provisions of the Revenue Bond Law of 1941 or any other law which by its terms is applicable to this agency.

24. [Approved by Governor September 2, 1987 Filed with Secretary of State September 3, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 22840 of the Water Code is amended to read:

CHAPTER 393

An act to amend Sections 56167, 56425.5, 56475, and 56728.8 of the Education Code, relating to education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 2, 1987 Filed with Secretary of State September 3, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 56167 of the Education Code is amended to read:

56167. (a) Individuals with exceptional needs who are placed in a public hospital, state licensed children's hospital, psychiatric hospital, proprietary hospital, or a health facility for medical purposes are the educational responsibility of the district, special education local plan area, or county office in which the hospital or facility is located, as determined in local written agreements pursuant to subdivision (e) of Section 56220.

(b) For the purposes of this part, "health facility" shall have the definition set forth in Sections 1250, 1250.2, and 1250.3 of the Health and Safety Code.

SEC. 2. Section 56425.5 of the Education Code is amended to read:

56425.5. The Legislature hereby finds and declares that early education programs for infants identified as individuals with exceptional needs, which provide educational services with active parent involvement, can significantly reduce the potential impact of many handicapping conditions, and positively influence later development when the child reaches school age.

Early education programs funded pursuant to Sections 56427, 56428, and 56728.8 shall provide a continuum of program options provided by a transdisciplinary team to meet the multiple and varied needs of infants and their families. Recognizing the parent as the infant's primary teacher, it is the Legislature's intent that early education programs shall include opportunities for the family to receive home visits and to participate in family involvement activities pursuant to Sections 56426.1 and 56426.4. It is the intent of the Legislature that, as an infant grows older, program emphasis would shift from home-based services to a combination of home-based and group services.

It is further the intent of the Legislature that services rendered by state and local agencies serving infants with exceptional needs and their families be coordinated and maximized.

SEC. 3. Section 56475 of the Education Code is amended to read:

56475. (a) The superintendent and the directors of the State Department of Health Services, the State Department of Mental Health, the State Department of Developmental Services, the State Department of Social Services, the Department of Rehabilitation, the Department of the Youth Authority, and the Employment Development Department shall develop written interagency agreements that include fiscal responsibilities for the provision of special education and related services to individuals with exceptional needs in the State of California.

(b) The superintendent shall develop interagency agreements with other state and local public agencies, as deemed necessary by the superintendent, to carry out the provisions of state and federal law.

(c) (1) Each interagency agreement shall be submitted by the superintendent to each legislative fiscal committee, education committee, and policy committee, responsible for legislation relating to those individuals with exceptional needs that will be affected by the agreement if it is effective.

(2) An interagency agreement shall not be effective sooner than 30 days after it has been submitted to each of the legislative committees specified in paragraph (1).

SEC. 4. Section 56728.8 of the Education Code is amended to read:

56728.8. (a) Notwithstanding subdivision (d) of Section 56760, for the 1985–86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of those instructional personnel service units operated and fundable for services to individuals with exceptional needs younger than three years of age at the second principal apportionment of the prior fiscal year, so long as the pupil count of these pupils divided by the number of instructional personnel service units is not less than the following:

(1) For special classes and centers—12, based on the unduplicated pupil count.

(2) For resource specialist programs—24, based on the unduplicated pupil count.

(3) For designated instruction and services—12, based on the unduplicated pupil count, or 39, based on the duplicated pupil count.

(b) Notwithstanding subdivision (d) of Section 56760, in the 1985–86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of instructional personnel service units for services to individuals with exceptional needs younger than three years of age in excess of the number of instructional personnel service units operated and fundable at the second principal apportionment of the prior fiscal year only with the authorization of the Superintendent of Public Instruction.

(c) The Superintendent of Public Instruction shall base the authorization of funding for special education local plan areas pursuant to this section, including the reallocation of instructional personnel service units, upon criteria that shall include, but not be limited to, the following:

(1) Changes in the total number of pupils younger than three years of age enrolled in special education programs.

(2) High- and low-average caseloads per instructional personnel service unit for each instructional setting.

(d) Notwithstanding subdivision (e) of Section 56760, infant programs in special classes and centers funded pursuant to this item shall be supported by two aides, unless otherwise required by the Superintendent of Public Instruction.

(e) Infant services in resource specialist programs funded pursuant to this item shall be supported by one aide.

(f) In determining the number of instructional personnel service units for which a special education local plan area may qualify, a minimum of six infants shall constitute eligibility for the initial unit. However, programs operating pursuant to Section 56425 shall be allowed a minimum of one initial unit for the 1985–86 fiscal year. When units are allocated pursuant to this subdivision, the Superintendent of Public Instruction shall allocate only the least expensive unit appropriate.

(g) Beginning with the 1986–87 fiscal year, those programs operating pursuant to Section 56425 with fewer than six infants shall receive a partial unit, as determined by the Superintendent of Public Instruction.

(h) A special education local plan area may apply for, and the superintendent may grant, a waiver of any of the standards and criteria specified in this section if compliance would prevent the provision of a free, appropriate public education or would create undue hardship. In granting the waivers, the superintendent shall give priority to the following factors:

(1) Pupil density of 25 or fewer units of average daily attendance per square mile in local plan areas of 30,000 or fewer average daily attendance, or pupil density of 20 or fewer units of average daily attendance per square mile in local plan areas with an average daily attendance of more than 30,000.

(2) The location of licensed children's institutions, foster family homes, residential medical facilities, or similar facilities within the boundaries of a local plan if 3 percent or more of the local plan's unduplicated pupil count resides in those facilities.

(i) By authorizing units pursuant to this section, the superintendent shall not increase the statewide total number of instructional personnel service units for purposes of state apportionments unless an appropriation specifically for growth in the number of instructional personnel service units is made in the annual Budget Act or other legislation. If such an appropriation is made, units authorized by the superintendent pursuant to this section are subject to the following restrictions:

(1) The units shall be funded only by such an appropriation and no other funds may be apportioned for the units.

(2) All units shall be fully funded pursuant to Chapter 7 (commencing with Section 56700) of Part 30.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to conform standards for recapture of underused instructional personnel service units for ages birth through age two with standards for ages three through 22 and to correct erroneous cross-references in provisions relating to the education of individuals with exceptional needs, it is necessary that this act take effect immediately.

CHAPTER 394

However, the conveyance to the Contra Costa Water District shall be subject to all of the following conditions:

(a) That the Pleasant Hill Recreation and Park District reserves the right to use the surface of the land conveyed for park purposes in a manner that does not endanger or impair the operation of any structure of the Contra Costa Water District thereon.

(b) That the Contra Costa Water District uses the land conveyed solely as a site for a reservoir and appurtenances.

(c) That simultaneously with the conveyance of the described property, the Contra Costa Water District conveys to the Pleasant Hill Recreation and Park District a parcel of land adjacent to Paso Nogal Park containing approximately 0.8 acres.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The land to be conveyed to the Contra Costa Water District pursuant to this act is urgently needed for the operation and maintenance of a water storage reservoir to provide an adequate public water supply for domestic and municipal uses and for firefighting.

CHAPTER 397

An act to add Sections 1227.2, 1227.3, 7461, and 7462 to the Financial Code, relating to financial institutions.

[Approved by Governor September 2, 1987 Filed with Secretary of State September 3, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 1227.2 is added to the Financial Code, to read:

1227.2. (a) The provisions of any deed of trust or mortgage on real property which authorize any state or nationally chartered bank to accelerate the maturity date of the principal and interest on any loan secured thereby or to exercise any power of sale or other remedy contained in the deed of trust or mortgage, upon the failure of the trustor or mortgagor to pay, at the times provided under the terms of the deed of trust or mortgage, any taxes, rents, assessments, or insurance premiums with respect to the real property securing the loan, or upon the failure to pay any advances made with respect to the deed of trust or mortgage by the state or nationally chartered bank, shall be enforceable whether or not an impairment of the security interest in the real property has resulted from the failure of the trustor or mortgagor to pay the taxes, rents, assessments, insurance premiums, or advances.

(b) "State or nationally chartered bank," as used in this section and Section 1227.3, includes any person authorized by this state to make or arrange loans secured by real property, or a holding company of a state or nationally chartered bank or any successor in interest.

SEC. 2. Section 1227.3 is added to the Financial Code, to read:

1227.3. The provisions of any deed of trust or mortgage on real property which authorize any state or nationally chartered bank to

receive and control the disbursement of the proceeds of any policy of fire, flood, or other hazard insurance respecting the real property shall be enforceable whether or not an impairment of the security interest in the property has resulted from the event that caused the proceeds of the insurance policy to become payable.

SEC. 3. Section 7461 is added to the Financial Code, to read:

7461. The provisions of any deed of trust or mortgage on real property which authorize an association, federal association, affiliate or service corporation of an association or federal association, or any successor in interest thereto, to accelerate the maturity date of the principal and interest on any loan secured thereby or to exercise any power of sale or other remedy contained therein upon the failure of the trustor or mortgagor to pay, at the times provided for under the terms of the deed of trust or mortgage, any taxes, rents, assessments, or insurance premiums with respect to the property or the loan, or any advances made by the association, federal association, affiliate or service corporation of an association or federal association, or any successor in interest thereto, shall be enforceable whether or not impairment of the security interest in the property has resulted from the failure of the trustor or mortgagor to so pay the taxes, rents, assessments, insurance premiums, or advances.

SEC. 4. Section 7462 is added to the Financial Code, to read:

7462. The provisions of any deed of trust or mortgage on real property which authorize an association, federal association, affiliate or service corporation of an association or federal association, or any successor in interest thereto, to receive and control the disbursement of the proceeds of any policy of fire, flood, or other hazard insurance respecting the property shall be enforceable whether or not impairment of the security interest in the property has resulted from the event that caused the proceeds of the insurance policy to become payable.

SEC. 5. The Legislature hereby declares that this act is not intended to abrogate the holding in the case of Schoolcraft v. Ross (81 Cal. App. 3d 75) insofar as it provides that a lender may not prohibit the use of insurance proceeds for the restoration of the security property absent a showing that the lender's security interest in the property has been impaired. It is the intent of the Legislature to abrogate the holdings in cases such as Kreshek v. Sperling (157 Cal. App. 3d 279) and Freeman v. Lind (181 Cal. App. 3d 791) to the extent that those holdings in any way restrict the right of a beneficiary or mortgagee under a deed of trust or mortgage on real property to enforce the express provisions of the deed of trust or mortgage.

CHAPTER 398

An act to amend Section 25180 of the Health and Safety Code, relating to waste.

[Approved by Governor September 2, 1987. Filed with Secretary of State September 3, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 25180 of the Health and Safety Code is amended to read:

25180. (a) The standards and regulations adopted by the department pursuant to Section 25150 shall be enforced by the department or any local health officer or any local public officer as designated by the director.

(b) In addition to the persons specified in subdivision (a), any traffic officer, as defined by Section 625 of the Vehicle Code and, any peace officer specified in Section 830.1 of the Penal Code may enforce Section 25160, subdivisions (a) and (e) of Section 25163, subdivision (b) of Section 25169.1, and Sections 25250.8, 25250.18, 25250.19, and 25250.23. Traffic officers and peace officers are authorized representatives of the department for purposes of enforcing the provisions set forth in this subdivision.

(c) Local health officers, or their representatives, or both, shall enforce the regulations adopted by the department pursuant to Section 25157.3.

CHAPTER 399

An act to amend Sections 50787 and 50788 of the Health and Safety Code, and to add Section 23701v to the Revenue and Taxation Code, relating to housing, and making an appropriation therefor.

[Approved by Governor September 2, 1987. Filed with Secretary of State September 3, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 50787 of the Health and Safety Code is amended to read:

50787. Commencing January 1, 1988, the department shall undertake a report on the Mobilehome Park Purchase Fund, to be submitted to the Legislature no later than January 1, 1989. The report shall include, as a minimum, an examination of the financial, governmental, and institutional constraints to the conversion of mobilehome parks; a comparison of the different resident ownership structures financed pursuant to this chapter; the number, types, and

amounts of loans made; the number and characteristics of projects financed; the amount and types of assistance provided by local government; characteristics of financing provided by private lenders; data, if any, on loan delinquencies and defaults; the costs for residents in acquiring and converting mobilehome parks to resident ownership; the monthly costs of remaining in the parks; and the impact of the conversion upon lower income residents.

SEC. 2. Section 50788 of the Health and Safety Code is amended to read:

50788. This chapter shall remain in effect only until January 1, 1990, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1990, deletes or extends that date.

SEC. 3. Section 23701v is added to the Revenue and Taxation Code, to read:

23701v. An organization of owners of manufactured homes or mobilehomes, who are tenants in a mobilehome park, formed for the purpose of purchasing the mobilehome park pursuant to Section 50561 of the Health and Safety Code.

CHAPTER 400

An act to add Section 461.2 to the Public Utilities Code, relating to public utilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 2, 1987 Filed with Secretary of State September 3, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 461.2 is added to the Public Utilities Code, to read:

461.2. For purposes of establishing rates for a telephone or telegraph corporation, the commission shall include all revenues and expenses of the corporation from the installation and maintenance of that simple inside wiring which is subject to the order of the Federal Communications Commission deregulating that wiring (CC Docket No. 79-105, FCC 86-63; 51 F.R. 8498, March 12, 1986).

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

A recent order of the Federal Communications Commission deregulated the installation of simple inside telephone wiring and the maintenance of both simple and complex inside wiring, effective January 1, 1987. In order to authorize the Public Utilities Commission to continue to consider these revenues in establishing telephone rates, it is necessary that this act take effect immediately.

CHAPTER 401

An act to amend Section 13143 of, and to add Section 17920.8 to, the Health and Safety Code, relating to fire and panic safety.

[Approved by Governor September 2, 1987. Filed with Secretary of State September 3, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 13143 of the Health and Safety Code is amended to read:

13143. (a) Except as provided in Section 18930, the State Fire Marshal, with the advice of the State Board of Fire Services, shall prepare, adopt, and submit building standards for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13 and shall prepare and adopt other regulations establishing minimum requirements for the prevention of fire and for the protection of life and property against fire and panic in any building or structure used or intended for use as an asylum, jail, mental hospital, hospital, sanitarium, home for the aged, children's nursery, children's home or institution not otherwise excluded from the coverage of this subdivision, school, or any similar occupancy of any capacity, and in any theater, dancehall, skating rink, auditorium, assembly hall, meeting hall, nightclub, fair building, or similar place of assemblage where 50 or more persons may gather together in a building, room, or structure for the purpose of amusement, entertainment, instruction, deliberation, worship, drinking or dining, awaiting transportation, or education, and in any building or structure which is open to the public and is used or intended to be used for the showing of motion pictures when an admission fee is charged and when the building or structure has a capacity of 10 or more persons. The State Fire Marshal shall adopt and submit building standards for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13 for the purposes described in this section. Regulations adopted pursuant to this subdivision and building standards relating to fire and panic safety published in the State Building Standards Code shall establish minimum requirements relating to the means of egress and the adequacy of exits from, the installation and maintenance of fire extinguishing and fire alarm systems in, the storage and handling of

combustible or explosive materials or substances, and the installation and maintenance of appliances, equipment, decorations, and furnishings that present a fire, explosion or panic hazard, and the minimum requirements shall be predicated on the height and fire-resistive qualities of the building or structure and the type of occupancy for which it is to be used. The building standards and other regulations shall apply to auxiliary or accessory buildings used or intended for use with any of the occupancies mentioned in this subdivision. Violation of any building standard or other regulation shall be a violation of the provisions of this chapter.

In preparing and adopting building standards for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13, and in preparing and adopting other regulations affecting public schools, the State Fire Marshal shall also secure the advice of the State Department of Education. No regulation adopted by the State Fire Marshal shall conflict with any rule, regulation, or building standard lawfully adopted or enforced by the Department of General Services pursuant to Article 3 (commencing with Section 39140) of Chapter 2 of Part 23 or Article 7 (commencing with Section 81130) of Chapter 1 of Part 49 of the Education Code.

In addition to any other requirements for location of exit signs or devices, the State Fire Marshal shall adopt building standards pursuant to this section establishing minimum requirements for the placement of distinctive devices, signs, or other means that identify exits and can be felt or seen near the floor. These building standards shall apply to all newly constructed buildings or structures subject to this subdivision for which a building permit is issued, (or construction commenced, where no building permit is issued) on or after January 1, 1989.

(b) Notwithstanding the provisions of subdivision (a) and Section 13143.6, facilities licensed pursuant to Chapter 3 (commencing with Section 1500) of Division 2 which provide nonmedical board, room, and care for six or fewer ambulatory children placed with the licensee for care or foster family homes and family day care homes for children, licensed pursuant to Chapter 3.6 (commencing with Section 1597.50) of Division 2, with a capacity of six or fewer and providing care and supervision for ambulatory children or children two years of age or younger, or both, shall not be subject to the provisions of Article 1 (commencing with Section 13100) or Article 2 (commencing with Section 13140) of this chapter or regulations adopted pursuant thereto. No city, county, or public district shall adopt or enforce any requirement for the prevention of fire or for the protection of life and property against fire and panic with respect to structures used as facilities specified in this subdivision, unless the requirement would be applicable to a structure regardless of the special occupancy. Nothing in this subdivision shall restrict the application of state or local housing standards to those facilities, if the standards are applicable to residential occupancies and are not based upon the use of the structure as a facility specified in this subdivision.

"Ambulatory children," as used in this subdivision, does not include nonambulatory persons, as defined in Section 13131, and relatives of the licensee or the licensee's spouse.

SEC. 2. Section 17920.8 is added to the Health and Safety Code, to read:

17920.8. In addition to any other requirements for location of exit signs or devices in hotels, motels, or apartment houses, the State Fire Marshal shall adopt building standards establishing minimum requirements for the placement of distinctive devices, signs, or other means that identify exits and can be felt or seen near the floor. These building standards shall apply to all newly constructed occupancies subject to this section for which a building permit is issued, (or construction commenced, where no building permit is issued) on or after January 1, 1989.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because self-financing authority is provided in Section 19852 of the Health and Safety Code to cover any costs that may be incurred in carrying on any program or performing any service required to be carried on or performed by this act.

CHAPTER 402

An act to amend Sections 481.5 and 678.1 of the Insurance Code, relating to insurance.

[Approved by Governor September 2, 1987 Filed with Secretary of State September 3, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 481.5 of the Insurance Code is amended to read:

481.5. (a) Whenever an insurer endorses, rejects, declines, cancels, or surrenders a policy of insurance as defined in subdivision (a) of Section 660 or Section 675, or a policy of insurance as defined in subdivision (a) of Section 660 or Section 675 is canceled pursuant to Section 673, the unearned premium shall be tendered to the insured or to the person entitled thereto or to the insurance agent of record as the insurer's agent for transmittal within 30 days after the cessation or amendment of coverage due to endorsement, cancellation, rejection, surrender, or rescission. Any unearned premium not tendered within the time specified above shall bear interest at the rate of 10 percent per annum from and after such 30 days. Such interest imposition shall not apply to any insurer in conservatorship or liquidation and shall constitute the sole penalty paid to the insured for a failure to refund an unearned premium.

(b) Whenever a policy is canceled pursuant to Section 673, other

than a policy as defined in subdivision (a) of Section 660 or Section 675, the unearned premium shall be tendered to the person entitled thereto or to the insurance agent of record as the insurer's agent for transmittal within 120 days after the cessation of coverage due to cancellation. Any unearned premium not tendered within the time specified above shall bear interest at the rate of 10 percent per annum from and after such 120 days. Such interest imposition shall not apply to any insurer in conservatorship or liquidation and shall constitute the sole penalty paid to the insured for a failure to refund an unearned premium.

(c) For purposes of subdivisions (a) and (b), where the unearned premium is not assigned as security to a premium finance agency pursuant to a premium finance agreement and where the amount of unearned premium is less than twenty-five dollars ($25), tender of unearned premium shall include applying the amount of unearned premium either to the renewal premium at the next renewal date or to other premiums due, provided written notice of either application is given to the insured within 30 days after the endorsement, rejection, declination, cancellation, or surrender of a policy of insurance. At the time of endorsement or surrender of a policy of insurance or, within 15 days after the mailing of the written notice required by this subdivision, the insured may request in writing that the unearned premium be tendered as provided in subdivisions (a) and (b). Whenever the amount of unearned premium is less than five dollars ($5), tender shall be effective and the written notice required by this subdivision shall not be required provided the unearned premium is applied either to the renewal premium at the next renewal date or to other premiums due.

SEC. 2. Section 678.1 of the Insurance Code is amended to read:

678.1. (a) This section applies only to policies of insurance of commercial insurance which are subject to Section 675.5.

(b) A notice of nonrenewal shall be in writing and shall be delivered or mailed to the producer of record and to the named insured at the mailing address shown on the policy. Subdivision (a) of Section 1013 of the Code of Civil Procedure shall be applicable if the notice is mailed.

(c) An insurer, at least 45 days, but not more than 120 days, in advance of the end of the policy period, shall give notice of nonrenewal, and the reasons for the nonrenewal, if the insurer intends not to renew the policy, or to condition renewal upon reduction of limits, elimination of coverages, increase in deductibles, or increase of more than 25 percent in the rate upon which the premium is based. Excepting that an insurer for policyholders whose aggregate premium is ten thousand dollars ($10,000) or less shall, at least 60 days but not more than 120 days in advance of the policy period, give notice of nonrenewal, and the reasons for the nonrenewal if the insurer intends to not renew the policy, or, to condition renewal upon reduction of limits, elimination of coverages, increase in deductibles, or increase of more than 25 percent in the

rate upon which the premium is based.

(d) If an insurer fails to give timely notice required by subdivision (c), the policy of insurance shall be continued, with no change in its terms or conditions, for a period of 60 days after the insurer gives the notice.

(e) A notice of nonrenewal shall not be required in any of the following situations:

(1) The transfer of, or renewal of, a policy without a change in its terms or conditions or the rate on which the premium is based between insurers which are members of the same insurance group.

(2) The policy has been extended for 90 days or less, if the notice required in subdivision (c) has been given prior to the extension.

(3) The named insured has obtained replacement coverage or has agreed, in writing, within 60 days of the termination of the policy, to obtain that coverage.

(4) The policy is for a period of no more than 60 days and the insured is notified at the time of issuance that it may not be renewed.

(5) The named insured requests a change in the terms or conditions or risks covered by the policy within 60 days prior to the end of the policy period.

(6) The insurer has made a written offer to the insured, within the time period specified in subdivision (c), to renew the policy under changed terms or conditions or at a changed premium rate. As used herein, "terms or conditions" includes, but is not limited to, a reduction in limits, elimination of coverages, or an increase in deductibles.

CHAPTER 403

An act to amend Section 33320.1 of the Health and Safety Code, relating to redevelopment.

[Approved by Governor September 2, 1987. Filed with Secretary of State September 3, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 33320.1 of the Health and Safety Code is amended to read:

33320.1. (a) "Project area" means, except as provided in Section 33320.2, 33320.3, or 33320.4, a predominantly urbanized area of a community which is a blighted area, the redevelopment of which is necessary to effectuate the public purposes declared in this part, and which is selected by the planning commission pursuant to Section 33322.

(b) As used in this section, "predominantly urbanized" means that not less than 80 percent of the privately owned property in the project area:

(1) Has been or is developed for urban uses; or

(2) Is characterized by the conditions described in subdivision (a), (b), or (e) of Section 33032; or

(3) Is an integral part of an area developed for urban uses.

(c) For the purposes of this section, a parcel of property as shown on the official maps of the county assessor is developed if that parcel is developed in a manner which is either consistent with zoning or is otherwise permitted under law. For the purposes of this section, if property is acquired by the community less than 180 days prior to the date of adoption of the survey area resolution and is not dedicated or devoted to a public use on the date the survey area resolution is adopted, that property shall be deemed privately owned property.

(d) The requirement that a project be predominantly urbanized shall apply only to a project area for which a final redevelopment plan is adopted on or after January 1, 1984, or to an area which is added to a project area by an amendment to a redevelopment plan, which amendment is adopted on or after January 1, 1984.

SEC. 2. The amendments to Section 33320.1 of the Health and Safety Code made by Section 1 of this act do not constitute a change in, but are declaratory of, the existing law.

CHAPTER 404

An act to amend Section 7050.5 of the Health and Safety Code, and to amend Section 5097.99 of the Public Resources Code, relating to Native Americans.

[Approved by Governor September 2, 1987 Filed with Secretary of State September 3, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 7050.5 of the Health and Safety Code is amended to read:

7050.5. (a) Every person who knowingly mutilates or disinters, wantonly disturbs, or willfully removes any human remains in or from any location other than a dedicated cemetery without authority of law is guilty of a misdemeanor, except as provided in Section 5097.99 of the Public Resources Code. The provisions of this subdivision shall not apply to any person carrying out an agreement developed pursuant to subdivision (*l*) of Section 5097.94 of the Public Resources Code or to any person authorized to implement Section 5097.98 of the Public Resources Code.

(b) In the event of discovery or recognition of any human remains in any location other than a dedicated cemetery, there shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent remains until the coroner

of the county in which the human remains are discovered has determined, in accordance with Chapter 10 (commencing with Section 27460) of Part 3 of Division 2 of Title 3 of the Government Code, that the remains are not subject to the provisions of Section 27491 of the Government Code or any other related provisions of law concerning investigation of the circumstances, manner and cause of any death, and the recommendations concerning the treatment and disposition of the human remains have been made to the person responsible for the excavation, or to his or her authorized representative, in the manner provided in Section 5097.98 of the Public Resources Code. The coroner shall make his or her determination within two working days from the time the person responsible for the excavation, or his or her authorized representative, notifies the coroner of the discovery or recognition of the human remains.

(c) If the coroner determines that the remains are not subject to his or her authority and if the coroner recognizes the human remains to be those of a Native American, or has reason to believe that they are those of a Native American, he or she shall contact, by telephone within 24 hours, the Native American Heritage Commission.

SEC. 2. Section 5097.99 of the Public Resources Code is amended to read:

(b) Any person who knowingly or willfully obtains or possesses any Native American artifacts or human remains which are taken from a Native American grave or cairn after January 1, 1988, except as otherwise provided by law or in accordance with an agreement reached pursuant to subdivision (*l*) of Section 5097.94 or pursuant to Section 5097.98, is guilty of a felony which is punishable by imprisonment in the state prison.

(c) Any person who removes, without authority of law, any Native American artifacts or human remains from a Native American grave or cairn with an intent to sell or dissect or with malice or wantonness is guilty of a felony which is punishable by imprisonment in the state prison.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 405

An act to amend Sections 32130.1 and 32130.2 of the Health and Safety Code, relating to hospital districts.

[Approved by Governor September 2, 1987. Filed with Secretary of State September 3, 1987.]

All certificates of indebtedness or other evidence of indebtedness shall be issued after the adoption by a three-fifths vote of the board of directors of the district of a resolution setting forth the necessity for the borrowing and the amount of the assessed valuation of the district and the amount of funds to be borrowed thereon. All certificates of indebtedness or other evidence of indebtedness shall be offered at public sale by the board of directors of the district after not less than 10 days advertising in a newspaper of general circulation within the district and if no newspaper of general circulation is printed within the district, then in a newspaper of general circulation within the county in which the district is located. Each sale shall be made to the bidder offering the lowest rate of interest or whose bid represents the lowest net cost to the district. However, the rate of interest shall not exceed the rate prescribed in Section 53531 of the Government Code.

The certificates of indebtedness or other evidences of indebtedness shall be signed on behalf of the district by the presiding officer and attested by the secretary of the board of directors of the district. The board of supervisors of the county in which the district lies shall, at the time of fixing the general tax levy, sometimes called the annual assessment or regular annual assessment for the district, and in the manner for the general tax levy provided, levy and collect annually each year until the certificates of indebtedness or other evidences of indebtedness are paid or until there is a sum in the treasury set apart for that purpose sufficient to meet all sums coming due for principal and interest on the certificates of indebtedness or other evidences of indebtedness, tax sufficient to pay the interest on the certificates of indebtedness as the same become due and also, to constitute a sinking fund for the payment of the principal thereof at

maturity. The tax shall be in addition to all of the taxes levied for district purposes and shall be placed in a certificate of indebtedness, interest and sinking fund of the district and, until all of the principal of the interest and certificates of indebtedness is paid, the money in the fund shall be used for no other purpose than the payment of the certificates of indebtedness and accruing interest thereon.

SEC. 2. Section 32130.2 of the Health and Safety Code is amended to read:

32130.2. (a) A district may, by resolution adopted by a majority of the district board, issue negotiable promissory notes to acquire funds for any district purposes subject to the restrictions and requirements imposed by this section. The maturity of the promissory notes shall not be later than 10 years from the date thereof. The total aggregate amount of the notes outstanding at any one time shall not exceed 85 percent of all estimated income and revenue for the current fiscal year, including, but not limited to, tax revenues, operating income, and any other miscellaneous income of the district. Indebtedness incurred pursuant to any other provision of law shall be disregarded in computing the aggregate amount of notes that may be issued pursuant to this section.

(b) Negotiable promissory notes may be issued pursuant to this section for any capital outlay facility, equipment, or item which has a useful life equal to, or longer than, the term of the notes, as determined by the board of directors.

(c) The maximum annual interest rate which may be paid on negotiable promissory notes shall at no time exceed the amount authorized under Section 53531 of the Government Code.

CHAPTER 416

An act to amend Section 22226 of, and to add and repeal Section 22223 of, the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor September 3, 1987. Filed with Secretary of State September 3, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 22223 is added to the Education Code, to read:

22223. Notwithstanding any other provision of law, the board shall give first priority to investing not less than 25 percent of all funds which become available in a fiscal year for new investments, in the following:

(a) Obligations secured by a lien or charge solely on residential realty, including rental housing, located in the state and on the security of which, commercial banks are permitted to make loans

pursuant to Article 2 (commencing with Section 1220) of Chapter 10 of Division 1 of the Financial Code.

(b) Securities representing a beneficial interest in a pool of obligations secured by a lien or charge solely on residential realty located in the state.

(c) Certificates of deposit issued by savings and loan associations, if the savings and loan associations agree to make loans, or to fund tax-exempt notes or bonds issued by housing authorities, cities, or counties, on residential realty located in the state, including rental housing, in an amount equal to the amount of the deposit.

Funds subject to investment pursuant to this section include all moneys received as employer and member contributions, investment income, and the proceeds of redemption of debt securities and instruments with a maturity in excess of one year, reduced by the amount of benefit payments and withdrawals occurring during the fiscal year. In computing the amount of investment pursuant to this section, a dollar for dollar credit shall be given for residential realty investments described in this section which are contractually agreed to be made by a financial institution from which the board (in consideration thereof) purchases other such investments. In computing the amount of investment pursuant to this section, the board may elect to include the dollar amount of commitments to purchase mortgages from public revenue bond programs in the year the commitment is given. However, that election may not exceed one-fifth of the total guideline amount.

Nothing in this section shall be construed to require the acquisition of any instrument or security at less than the market rate.

If the board determines during any fiscal year that compliance with this section will result in lower overall earnings for the fund than obtainable from alternative investment opportunities that would provide equal or superior security, including guarantee of yield, the board may substitute those higher yielding investments, to the extent actually available for acquisition, for the investments otherwise specified by this section. Additionally, if (and to the extent that) adherence to the diversification guideline specified in this section would conflict with its fiduciary obligations in violation of Section 9 of Article I of the California Constitution or Section 10 of Article I of the United States Constitution, or would conflict with the standard for prudent investment of the fund as set forth in Section 17 of Article XVI of the California Constitution, the board may substitute alternative investments. In that case, the board shall submit its resolution of findings and determinations, together with a description of the type, quantity, and yield of the investments substituted, to the Governor and to the Joint Legislative Audit Committee within 10 days following the conclusion of the fiscal year. Within 30 days thereafter, the Joint Legislative Audit Committee shall transmit the Auditor General's report to the Speaker of the Assembly and to the Senate Rules Committee for transmittal to affected policy committees.

This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1993, deletes or extends that date.

SEC. 2. Section 22226 of the Education Code is amended to read:

22226. The board shall keep in convenient form such data as is necessary for the actuarial valuation of the system.

In not to exceed six-year periods, the board shall make an actuarial investigation into the mortality, service, and other experience of members and beneficiaries and shall make an actuarial valuation of the assets and liabilities of the system. The actuary shall perform the actuarial valuation using actuarial assumptions adopted by the board and which are, in the aggregate, reasonably related to the past experience of the system and the best estimate by the actuary of the future experience of the system. The report of the actuary of the results of the actuarial valuation shall identify and include the components of normal cost and adequate information to determine the effects of changes in actuarial assumptions. Copies of the report on the actuarial valuation shall be transmitted to the Governor and the Legislature. Upon the basis of any or all of that actuarial investigation and valuation, the board shall adopt for the system such rates of return on investments, rates of contribution to the Teachers' Retirement Fund, mortality, service, and other tables as are deemed necessary.

However, this section does not preclude procurements which integrate functions such as game design, supply, advertising, and public relations. In all procurement decisions, the Commission and Director shall take into account the particularly sensitive nature of the California State Lottery and shall act to promote and ensure integrity, security, honesty, and fairness in the operation and administration of the Lottery and the objective of raising net revenues for the benefit of the public purpose described in this chapter.

The Director shall determine whether the goods or services subject to this paragraph are available through existing contracts or price schedules of the Department of General Services.

By July 1, 1986, the Commission shall adopt proposal evaluation procedures, criteria, and contract terms which are consistent with the advancement of business opportunities for small business concerns in the private business activities created by the California State Lottery and which will achieve the most feasible and practicable level of participation by socially and economically disadvantaged small business concerns in its procurement programs. The proposal evaluation procedures, criteria, and contract terms adopted shall be reported in writing to both houses of the Legislature on or before July 1, 1986.

CHAPTER 427

An act to add Section 3930.5 to the Business and Professions Code, and to amend Section 1422 of the Health and Safety Code, relating to long-term care.

[Approved by Governor September 3, 1987. Filed with Secretary of State September 3, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 3930.5 is added to the Business and Professions Code, to read:

3930.5. Any nursing home administrator whose license has been suspended shall not be employed as an administrator of a long-term health care facility, or engage in the activities for which a license is issued by the board, during the period of suspension.

SEC. 2. Section 1422 of the Health and Safety Code is amended to read:

1422. (a) The Legislature finds and declares that it is the public policy of this state to assure that long-term health care facilities provide the highest level of care possible. The Legislature further finds that inspections are the most effective means of furthering this policy. It is not the intent of the Legislature by the amendment of subdivision (b) enacted by Chapter 1595 of the Statutes of 1982 to reduce in any way the resources available to the state department for inspections, but rather to provide the state department with the greatest flexibility to concentrate its resources where they can be most effective.

(b) Without providing notice of these inspections, the state department shall, in addition to any inspections conducted pursuant to complaints filed pursuant to Section 1419, conduct inspections annually, except with regard to those facilities which have no class "AA", class "A", or class "B" violations in the past twelve months. The state department shall also conduct inspections as may be necessary to assure the health, safety, and security of patients in long-term health care facilities. Every facility shall be inspected at least once every two years.

The state department shall submit to the federal Department of Health and Human Services on or before July 1, 1985, for review and approval, a request to implement a three-year pilot program designed to lessen the predictability of the long-term health care facility inspection process. Two components of the pilot program shall be (1) the elimination of the present practice of entering into a one-year certification agreement, and (2) the conduct of segmented inspections of a sample of facilities with poor inspection records, as defined by the state department. At the conclusion of the pilot project, an analysis of both components shall be conducted by the state department to determine effectiveness in reducing

inspection predictability and the respective cost benefits. Implementation of this pilot project is contingent upon federal approval. The state department shall report annually to the Legislature on progress of the pilot project with a final report at the end of the third year.

(c) Except as otherwise provided in subdivision (b), the state department shall conduct unannounced direct patient care inspections at least annually to inspect physician and surgeon services, nursing services, pharmacy services, dietary services, and activity programs of all the long-term health care facilities. Facilities evidencing repeated serious problems in complying with this chapter or a history of poor performance, or both, shall be subject to periodic unannounced direct patient care inspections during the inspection year. The direct patient care inspections shall assist the state department in the prioritization of its efforts to correct facility deficiencies.

(d) All long-term health care facilities shall report to the state department any changes in the nursing home administrator or the director of nursing services within 10 calendar days of the changes.

(e) Within 90 days after the receipt of notice of a change in the nursing home administrator or the director of nursing services, the state department may conduct an abbreviated inspection of the long-term health care facilities.

(f) If a change in a nursing home administrator occurs and the Board of Examiners of Nursing Home Administrators notifies the state department that the new administrator is on probation or has had his or her license suspended within the previous three years, the state department shall conduct an abbreviated survey of the long-term health care facility employing that administrator within 90 days of notification.

CHAPTER 428

An act to amend Sections 73362.1 and 74949.1 of the Government Code, relating to courts.

[Approved by Governor September 3, 1987. Filed with Secretary of State September 3, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 73362.1 of the Government Code is amended to read:

73362.1. (a) Upon the adoption of a resolution by the board of supervisors finding that there are sufficient funds available in the budget for a particular municipal court district and acknowledging that the judges of that district have determined the business of the court requires such occasional service, there shall be one position of

temporary court commissioner to serve that municipal court district.

(b) A temporary court commissioner shall be appointed by the presiding judge of the court from a list of temporary court commissioners established and approved by a majority of the judges of that court. The number of temporary commissioners shall be such that each temporary commissioner serves on the bench an average of at least three days in each month, and the presiding judge shall assure that all temporary commissioners maintain current knowledge of the court's personnel and procedures. The court shall periodically review the performance of each temporary commissioner and shall maintain an ongoing training program to maintain their skills. Each temporary commissioner shall possess the same qualifications the law requires of a municipal court judge, and shall have completed an orientation program satisfactory to the presiding judge, including a review of the procedures and practices of the court, together with observation of each particular calendar to which the commissioner may be assigned, and shall not engage in the private practice of law before any court of the municipal court district to which he or she is appointed, and is subject to disqualification as provided for judges.

(c) A temporary court commissioner shall receive, as sole compensation for such service, an hourly fee for each hour or fraction of an hour of service which is equivalent of the hourly wage of the first step in the salary range for full-time official municipal court commissioners in Contra Costa County, without any other benefit included in the compensation of any other municipal court officer or employee in Contra Costa County.

(d) A temporary court commissioner shall perform those functions conferred by law and assigned by the presiding judge. Before any action or proceeding is tried or heard by a temporary court commissioner, any party to, or any attorney appearing in, the action or proceeding shall, however, be entitled to require, by oral or written motion without notice, that the action or proceeding be reassigned or transferred, whereupon the action or proceeding shall be reassigned or transferred as promptly as possible to a judge, court commissioner, or referee of the court. The court shall, prior to the commencement of any such trial or hearing, provide notice to each party or attorney of record in the action or proceeding of this entitlement to require reassignment or transfer.

SEC. 2. Section 74949.1 of the Government Code is amended to read:

74949.1. (a) The judges of the Napa Municipal Court may appoint one full-time or part-time commissioner who shall hold office at the pleasure of the judges making the appointment, and shall possess the same qualifications as are required of the judge of a municipal court. Within the jurisdiction of the court, and to the extent the judges so direct, the commissioner shall exercise the same powers and duties as a judge of the municipal court with respect to any infraction or small claims action, and shall exercise all other

powers and perform all other duties of a municipal court commissioner that may be prescribed by law. In addition, and notwithstanding the provisions of Section 72400, the commissioner shall act as a traffic referee and shall have the powers and duties specified in Article 9 (commencing with Section 72400) of Chapter 8.

(b) The commissioner shall receive a monthly salary at a rate equal to 65 percent of the salary of a municipal court judge. In addition to the monthly salary, the commissioner shall be entitled to and shall receive fringe benefits on the same basis as any employee of the municipal court, other than the clerk of the municipal court, who works an equivalent number of hours. The commissioner shall observe the same holidays as other court employees. If the appointment of the commissioner is on a part-time basis, any salary and fringe benefits to which the commissioner may be entitled shall be prorated on the basis of a 40-hour workweek.

A full-time commissioner shall not engage in the private practice of the law. Notwithstanding any other provisions of law, a part-time commissioner shall be entitled to engage in the private practice of the law so long as the commissioner does not practice law before any court of the municipal court district to which he or she is appointed.

(c) The court shall periodically review the performance of any part-time commissioner and shall maintain an ongoing training program to maintain his or her skills. The part-time commissioner shall have completed, prior to his or her appointment, an orientation program satisfactory to the presiding judge, including a review of the procedures and practices of the court, together with observation of each calendar to which the commissioner may be assigned. Each part-time commissioner shall serve on the bench an average of at least three days in each month, and the presiding judge shall ensure that the part-time commissioner maintains current knowledge of the court's personnel and procedures.

(d) If the part-time commissioner regularly serves on the bench less than three days each week, before any action or proceeding is tried or heard by a part-time court commissioner, any party to, or any attorney appearing in, the action or proceeding shall, be entitled to require, by oral or written motion without notice, that the action or proceeding be reassigned or transferred, whereupon the action or proceeding shall be reassigned or transferred as promptly as possible to a judge, court commissioner, or referee of the court. The court shall, prior to the commencement of any such trial or hearing provide notice to each party or attorney of record in the action or proceeding of this entitlement to require reassignment or transfer.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.

SEC. 7. Section 8790.9 is added to the Government Code, to read:

8790.9. (a) The siting of the Superconducting Super Collider shall not alter the existing land use zoning which protects prime agricultural land and preserves the agricultural economy of the area, except for the areas transferred to the federal government for the so-called "campus" areas of the Superconducting Super Collider site. Local governments shall not change the zoning of the agricultural lands, unless they make a special finding that doing so will not adversely affect agriculture and the change is not the result of

locating the Superconducting Super Collider in the area.

(b) Property owners whose land is purchased by the state under this chapter shall be exempt from the penalties of the Williamson Act for that land.

(c) Property owners whose lands are purchased under this chapter shall be allowed to reinvest the proceeds of the sale in comparable agricultural land within two years without being subject to state income taxes.

(d) During the construction of the Superconducting Super Collider, state assistance shall be provided to local governments affected by the project as follows:

(1) To property-based special districts to offset revenue loss determined by the Board of Equalization to be the result of removal of property from the tax rolls by the acquisition of the property by the federal government for the Superconducting Super Collider project. Following completion of the Superconducting Super Collider construction, continuing state assistance shall be contingent upon a finding by the Board of Equalization that the revenue loss is not exceeded by increased property tax revenue resulting from the siting of the Superconducting Super Collider.

(2) To local governments as determined by the Department of General Services for additional safety services identified in the Environmental Impact Report due to the siting of the Superconducting Super Collider. Following completion of the construction of the Superconducting Super Collider, that assistance shall be provided to the extent that additional costs are not offset by increased revenue from fees or taxes resulting from the siting of the Superconducting Super Collider.

(3) To local governments to the extent identified by the Environmental Impact Report and determined by the Department of General Services, for mitigation of the impact on the environment, local roads, and public facilities which are damaged due to the construction of the Superconducting Super Collider, and for enhancement of highways, roads and public facilities to accommodate increased capacity required by siting of the Superconducting Super Collider.

(e) The amounts determined in subdivision (d) shall be included in the annual Governor's Budget as submitted on or before January 10 of each year.

(f) Notwithstanding Sections 188 and 188.8 of the Streets and Highways Code, a project shall not count against these constraints if the project needed is primarily a result of the siting of the Superconducting Super Collider, as determined by the California Transportation Commission.

(g) It is the intent of the Legislature that any land acquired for the Superconducting Super Collider the use of which is not immediately required shall be made available for agricultural use and the current farmers shall have the first opportunity to lease the land.

SEC. 8. Section 8790.10 is added to the Government Code, to

read:

8790.10. The Employment Development Department, the Employment Training Panel, and the local Job Training Partnership Act service delivery area, and the local community colleges shall, to the extent funds are available, cooperate to develop and provide appropriate training programs for local workers for the construction and operation of the Superconducting Super Collider project. Preference shall be given to the hiring of qualified local workers. Workers who are displaced due to the project shall, if eligible, be targeted for training through the Employment Training Panel or the Job Training Partnership Act. These programs shall be funded in the annual Budget Act.

SEC. 9. Section 8790.11 is added to the Government Code, to read:

8790.11. (a) It is the intent of the Legislature that preference shall be provided in the distribution of emergency school facilities, as necessary, to school districts which have been impacted by increases in enrollment due to the construction and operation of the Superconducting Super Collider.

(b) The community colleges, local school districts, the California State University, and the University of California are encouraged to develop educational programs which utilize resources made available by the staff of the Superconducting Super Collider to enrich the students in the districts adjacent to the Superconducting Super Collider.

8790.28. In addition to any other powers granted by law, the board may, for the purposes of this chapter, do any or all of the following:

SEC. 11. Article 3 (commencing with Section 8790.40) is added to Chapter 9.7 of Division 1 of Title 2 of the Government Code, to read:

Article 3. Land Acquisition

8790.40. (a) The State Public Works Board shall select and acquire, in the name of and on behalf of the state, pursuant to Part 11 (commencing with Section 15850) of Division 3, the fee or any lesser right or interest, including options, in real property recommended by the commission as a site for construction of the Superconducting Super Collider project.

The board may commence the acquisition of a right or an interest in property prior to final site designation by the federal Department of Energy.

(b) Property acquired pursuant to this section for the proposal to construct the Superconducting Super Collider is acquired for a public purpose for which the state's powers of eminent domain may, when appropriate, be exercised.

For purposes of this section, necessity is established if one or both of California's designated sites for the Superconducting Super Collider project are included on the Best Qualified List compiled by the federal Department of Energy.

8790.41. (a) Any land acquired by the State Public Works Board pursuant to Section 8790.40 shall be transferred to the Department of General Services.

8790.42. Section 10295, Article 4 (commencing with Section 10335) of Chapter 2 of Division 2, and Section 10382 of, the Public Contract Code, do not apply to agreements entered into pursuant to this article.

8790.43. If, for any reason, the Superconducting Super Collider project is canceled, withdrawn, terminated, or the land is otherwise not needed, the Department of General Services shall thereupon offer the property to the grantor of the property acquired pursuant to this article who shall have the right of first refusal to repurchase the property.

8790.44. In determining the price to be paid for agricultural land, the department shall consider the price which the owner originally paid for the land, any special assessments paid by the landowner, mortgage liens against the property due to agricultural activity prior to July 1, 1987, and any other factors the department determines should be considered to ensure that the landowner receives a fair and reasonable price for the land.

8790.45. This article applies only to land acquired for purposes of the Superconducting Super Collider project.

SEC. 12. Article 4 (commencing with Section 8790.50) is added to Chapter 9.7 of Division 1 of Title 2 of the Government Code, to read:

Bonds in the total amount of five hundred sixty million dollars ($560,000,000), or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this article and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

8790.54. The bonds authorized by this article shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with

For purposes of this chapter, the Super Collider Finance Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Treasurer, the Director of Finance, the Controller, and the Secretary of Business, Transportation and Housing Agency, or their designated representatives. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the Public Works Board is designated the "board."

8790.56. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 8790.52, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

8790.57. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

8790.58. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 8790.57, appropriated without regard to fiscal years.

8790.59. For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund from money received from the sale of bonds for the purpose of carrying out this chapter.

8790.60. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the

fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

8790.61. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

8790.62. Proceeds of bonds issued pursuant to this article shall be used to retire any outstanding revenue bonds, notes, or bond anticipation notes issued pursuant to Article 2 (commencing with Section 8790.20).

SEC. 14. Section 12 of this act shall take effect upon the adoption by the voters of the Super Collider Bond Act, as set forth in Section 12 of this act.

SEC. 15. Section 12 of this act shall be submitted to the voters at the election to be held in June 1988 in accordance with provisions of the Government Code and the Elections Code governing submission of statewide measures to the voters.

SEC. 16. Notwithstanding any other provision of law, all ballots of the election pursuant to Section 15 shall have printed thereon and in a square thereof, the words: "Super Collider Bond Act," and in the same square under those words, the following in 8-point type: "This act provides for a bond issue of five hundred sixty million dollars ($560,000,000) to provide funds for a Superconducting Super Collider program." Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 17. If Section 12 of this act is adopted by the voters at the election to be held in June 1988, the authority to issue revenue bonds pursuant to Section 10 of this act shall be terminated within a reasonable time.

SEC. 18. No proceeds of any bonds issued and sold pursuant to Article 2 (commencing with Section 8790.20) of, or Article 4 (commencing with Section 8790.50) of, Chapter 9.7 of Division 1 of Title 2 of the Government Code, shall be used for the payment of electrical utility service to the Superconducting Super Collider.

SEC. 19. Any incremental increases in the University of California Regents Opportunity Fund which are the result of federal grants received for the siting of the Superconducting Super Collider and used for overhead expenses of the University of California, shall be deposited in the SSC Development Fund established pursuant to Section 8790.31 of the Government Code or the Super Collider Fund, established pursuant to Section 8790.52 of the Government Code, whichever fund is appropriate, for the purpose of paying the debt on

bonds issued under this act.

SEC. 20. There is hereby appropriated three million four hundred forty thousand dollars ($3,440,000) from the General Fund to the University of California for allocation by the Director of Finance, subject to the reporting requirements of Section 28 of the Budget Act of 1987, for purposes of Sections 5 and 11 of this act.

Appropriations authorized by this section shall be made by January 30, 1988.

SEC. 21. If any provision of this act or the application thereof to any person circumstances is held invalid, that invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 22. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the proposal to locate the Superconducting Super Collider in California can be made in time to meet the submission deadline of the federal Department of Energy, it is necessary that this act take effect immediately.

[Approved by Governor September 3, 1987. Filed with Secretary of State September 3, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 8 of the County Water Authority Act (Chapter 545 of the Statutes of 1943) is amended to read:

Sec. 8. (a) An authority may incur indebtedness by contract other than by voting bonds or expenditure of bond proceeds up to a total amount equal to one-tenth of 1 percent of the assessed valuation, as defined in Section 135 of the Revenue and Taxation Code, or as otherwise hereafter defined by an act of the Legislature, of property taxable for authority purposes by a vote of three-fourths or more of the aggregate number of votes of all members of the board of directors. Any proposal to incur an indebtedness in excess of an amount equal to one-tenth of 1 percent of the assessed valuation, as defined in Section 135 of the Revenue and Taxation

Code, or as otherwise hereafter defined by an act of the Legislature, of property taxable for authority purposes by contract other than by voting bonds or expenditure of bond proceeds, and any proposal to purchase, lease, or otherwise acquire rights, privileges, or services by contract, the compensation for which shall be payable over a period of time exceeding 20 years, shall be submitted to the qualified electors of the authority for their approval and shall be voted upon at an election where the proceedings are held, insofar as applicable, in the manner provided in this act for the authorization and issuance of the bonds of the authority, except that the vote of a majority of the electors voting upon the proposition shall be sufficient to authorize the incurring of the indebtedness. Notice of the election shall contain, in addition to the information required in the case of bond elections, a statement of the maximum amount of money to be paid under the contract, exclusive of penalties and interest, for what purposes the money is to be expended, and the property, improvements, works, rights, privileges, or services to be acquired thereby. The ballots at the election shall contain a brief statement of the general purposes of the contract and the amount of the obligation to be assumed, with the words "Contract—Yes" and "Contract—No." The board of directors may submit the contract or proposed contract to the superior court of the county where the authority is located to determine the validity thereof and the legal authority of the board to enter into the contract, with the same proceedings to be held as provided in this act in the case of the judicial determination of the validity of bonds issued pursuant to this act and with like effect.

(b) If a proposition to consider the issuance of revenue bonds under the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) of Part 1 of Division 2 of Title 6 of the Government Code) has been submitted to the qualified voters of an authority at an election held for that purpose and received the affirmative vote of a majority of the electors voting upon the proposition and, therefore, constitutes authority to issue revenue bonds under the Revenue Bond Law of 1941, the authority may, in lieu of issuing those revenue bonds, incur an indebtedness by contract, in addition to the indebtedness authorized by subdivision (a), in an amount, excluding penalties and interest, up to the amount authorized by and for the purpose authorized by the revenue bond proposition. The indebtedness shall be payable over a period of not to exceed 30 years, as provided in the resolution of the board of directors.

(c) If a contract of indebtedness incurred pursuant to subdivision (b) is repaid in full because construction of the project approved by the electorate was not commenced due to administrative, court, or other delays, resulting in failure to obtain necessary governmental permits, an authority may incur a second contract of indebtedness pursuant to subdivision (b) to fund construction of the project. The second indebtedness shall not exceed the amount authorized by the proposition approved by the electorate as provided in subdivision

(b).

In order to permit county water authorities to finance urgently needed water facilities at the earliest possible time, it is necessary that this act take effect immediately.

An act to amend Sections 7.1, 18, 19, and 37 of, to add Sections 12.3, 20.1, 20.3, 20.5, 20.6, 20.7, 20.8, 20.9, 20.10, 20.11, 20.12, 37.1, and 37.2 to, and to repeal and add Sections 16, 17, 20.2, and 20.4 of, the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), relating to the Ventura County Flood Control District.

[Became law without Governor's signature Filed with Secretary of State September 8, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 7.1 of the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session) is amended to read:

Sec. 7.1. (a) In addition to the powers described in Section 7, the district shall have the power by ordinance or resolution to prescribe, revise, and collect fees and charges in any zone and in any special zone as a condition of development of land. Land to be developed within a special zone shall be subject both to the fees and charges of the zone in which it is located and the fees and charges of the special zone in which it is located. Development of land for the purposes of this section shall include, but not be limited to, subdivision development as governed by the Subdivision Map Act; construction of new buildings, structures, and improvements for residential, commercial, or industrial purposes; and any development of land requiring either zone variance or special use permit.

(b) (1) The amount of fees and charges levied for each zone and for each special zone shall be determined separately and shall be based upon the need created by development of land for flood control facilities within the zone or special zone.

(2) The amount of fees and charges levied for any zone, other than a special zone, shall not exceed two thousand four hundred dollars ($2,400) for each acre or portion thereof of land to be developed. The district, by ordinance or resolution, may annually adjust the maximum amount of the fees and charges for each acre or portion thereof of land to be developed in a zone based upon a recognized cost index. An ordinance or resolution adjusting the maximum amount of the fees and charges in a zone shall become operative upon approval of two-thirds of the electors voting on the proposition in the zone.

(3) Fees and charges prescribed as a condition of development of land pursuant to this section shall be in addition to any other conditions imposed on the development by any other agency having power to prescribe such other conditions.

(c) Except as hereinafter provided, revenues derived from fees and charges prescribed for any zone may be used only for the

acquisition, engineering, design, construction, reconstruction, maintenance, or operation of flood control or storm drainage facilities within that zone, or within any special zone located in that zone, or used to pay the interest on or reduce the principal of any bonded indebtedness of that zone. At the discretion of the board of supervisors, all or part of the fees and charges prescribed for any zone which are collected as a condition of development of land located within a special zone may be used to pay the interest on or reduce the principal of any bonded indebtedness of that special zone.

(d) Except as hereinafter provided, revenues derived from fees and charges prescribed for any special zone shall be used only for the acquisition, engineering, design, construction, reconstruction, maintenance, or operation of flood control or storm drainage facilities within that special zone or used to pay the interest on or reduce the principal of any bonded indebtedness of that special zone.

(e) Whenever the development of land within any zone or within any special zone is made subject to fees or charges by the board of supervisors pursuant to this section, the board of supervisors may allow a credit against those fees for the acquisition, engineering, design, construction, reconstruction, maintenance, or operation costs of any flood control or storm drainage facility within the zone or special zone which has been constructed or paid for in connection with the development of land within that zone or special zone.

(f) The board of supervisors may also reduce fees or charges prescribed for any part of the land to be developed within the zone or special zone if it finds that because of special circumstances the payment thereof would be inequitable or would cause undue hardship and the reduction of the fees would be in the public interest.

(g) The consent and approval of the legislative body of a city shall be necessary before any fees or charges may be levied on the development of land located within the corporate boundaries of a city which are higher than any fees or charges levied on the development of land located outside the corporate boundaries of that city.

SEC. 2. Section 12.3 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 12.3. (a) The Legislature hereby finds and declares that a county may face substantial expense in maintaining a roll or system which reflects both current values of property for purposes of ad valorem assessments, as well as the property values for general taxation mandated by Article XIII A of the California Constitution. The Legislature further finds and declares that a fair and proper assessment for flood control purposes may be levied according to the benefits derived or to be derived by the real property within a zone, which benefit may be determined on the basis of proportionate storm water runoff from each parcel of real property in a zone.

(b) In addition to and not in derogation of existing authority to

levy assessments pursuant to Section 12 and other provisions of this act, the board of supervisors may, in any year, levy an assessment on taxable real property in the district based upon the benefit which each parcel of real property to be assessed will derive from the works and improvements to be constructed, maintained, operated, extended, or repaired. The assessments may be imposed and used to finance the maintenance and operation costs of flood control services and the cost of installation and improvement of flood control facilities. The assessments may also be used to pay for the costs of maintaining a roll or system which reflects current values of property for the purposes of ad valorem assessments. For purposes of levying any assessment, the board of supervisors may establish one or more areas of benefit, including parcels of real property which benefit similarly from those works and improvements, and may levy different assessments within those areas of benefit. The areas of benefit shall be identified and described in a resolution adopted by the board of supervisors. In the case of any assessment levied pursuant to this act, the benefit may be determined on the basis of proportionate storm water runoff from each parcel of real property. In levying assessments pursuant to this act, the board of supervisors shall be subject to the substantive requirements of Section 54711 of the Government Code and shall employ the procedures provided for in Sections 54710 to 54716, inclusive, of the Government Code. Whenever a railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way is included within an area proposed to be assessed, the railroad, gas, water telephone, cable television, electric line right-of-way, or other utility right-of-way, shall be subject to assessment only if, and to the extent that, it is found that it will benefit from the service. Proceedings for levying assessments pursuant to this act may be combined with proceedings for issuance of bonds prescribed in Sections 20.2 to 20.12, inclusive, and the proceedings prescribed by those sections may be modified as the board of supervisors deems necessary to accommodate the combination of proceedings.

SEC. 3. Section 16 of the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session) is repealed.

SEC. 4. Section 16 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 16. The board of supervisors shall, subject to this act, prescribe by ordinance or resolution the form for all bonds authorized to be issued or sold under this act. Bonds shall be issued in registered form. Bonds shall be payable substantially in accordance with this section. The board of supervisors may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other

series, except that the earliest maturity of each issue or series, as the case may be, shall not be more than two years from the date of the bonds of that issue or series. The final maturity date of any bond shall not exceed 40 years from the date of the bond. The board of supervisors may determine in the resolution authorizing the issuance of the bonds that the principal amount of the bonds maturing each year shall be other than an amount equal to an equal annual proportion of the aggregate principal of the bonds, and it may determine that the amount of principal maturing in each year plus the amount of interest payable in that year shall as nearly as possible be an aggregate amount that is equal each year, except for the principal and interest due on the first series of the bonds which shall be adjusted to reflect the amount of interest earned from the date when the bonds bear interest to the date when the first interest is payable on the bonds, or it may make such other determination as to the amount of the aggregate principal of the bonds which shall mature in each year as it shall choose.

The bonds shall be issued in such denominations as the board of supervisors may determine, and shall be payable on the date and at the place fixed in the bonds, and with interest payable semiannually at the rate specified in the bonds, which rate shall not be in excess of the rate permitted under Article 7 (commencing with Section 53530) of Chapter 3 of Part 1 of Division 2 of Title 5 of the Government Code. The bonds shall be signed by the chairperson of the board of supervisors, and countersigned by the auditor of the County of Ventura, and the seal of the district shall be affixed thereto. The bonds may be authenticated by a paying agent selected by the board of supervisors, and the signatures of the chairperson and auditor thereon may be facsimile signatures. In case any officer whose signatures or countersignatures appear on the bonds shall cease to be such an officer before the delivery of the bonds to the purchaser, the signature or countersignature shall nevertheless be valid and sufficient for all purposes the same as if the officer had remained in office until the delivery of the bonds.

SEC. 5. Section 17 of the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session) is repealed.

SEC. 6. Section 17 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 17. The board of supervisors may issue and sell the bonds of the district authorized as provided in this act at not less than 95 percent of par value. The proceeds of the sale of the bonds shall be placed in the Treasury of the County of Ventura to the credit of the district and the zone or special zone for which the bonds were issued, and the proper record of the transactions shall be placed upon the books of the county treasury. The district fund shall be applied exclusively to the purposes and objects mentioned in the ordinance or resolution calling the bond election or, if pursuant to Sections 20.2

to 20.12, inclusive, no election is required, in the resolution confirming the engineer's report. Payments from the district fund shall be made upon demands prepared, presented, allowed, and audited in the same manner as demands upon the funds of the County of Ventura.

SEC. 7. Section 18 of the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session) is amended to read:

Sec. 18. Any bonds issued under the provisions of Section 15 shall be a lien upon all but only the taxable property of the zone of issuance, and the lien for the bonds of any issue shall be a preferred lien to that of any subsequent issue. The bonds and the interest thereon shall be paid by revenue derived from an annual tax upon all the taxable property within the zone or out of any other funds of the zone and all the taxable property in the zone shall be and remain liable to be taxed for those payments as hereinafter provided. No zone of the Ventura County Flood Control District, nor the property therein, shall be liable for the bonded indebtedness of any other zone, nor shall any moneys derived from taxation in any of the several zones be used in payment of principal or interest or otherwise of the bonded indebtedness of any other zone.

SEC. 8. Section 19 of the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session) is amended to read:

Sec. 19. The board of supervisors shall levy a tax or assessment each year upon all the taxable or real property in the zone of issuance sufficient to pay so much of the interest as is due upon the bonds for that year and that portion of the principal thereof as is to become due before the time for making the next general tax levy which will not otherwise be paid out of other funds. The tax or assessment shall be levied and collected in the zone of issuance together with and not separately from taxes for county purposes, and when collected shall be paid into the county treasury of Ventura County to the credit of the zone of issuance, and be used for the payment of the principal and interest on the bonds, and for no other purpose. The principal and interest on the bonds shall be paid by the county treasurer of Ventura County in the manner provided by law for the payment of principal and interest on bonds of the county.

SEC. 9. Section 20.1 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.1. The provisions of Sections 20.2 to 20.12, inclusive, establish a separate and alternative authorization and procedure for making improvements, or paying the local share of the cost thereof, and issuing bonds of the district.

SEC. 10. Section 20.2 of the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session) is repealed.

SEC. 11. Section 20.2 is added to the Ventura County Flood

Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.2. The board of supervisors may determine that it may be necessary to sell bonds of the district to finance needed flood control improvements for the protection and benefit of a zone or special zone of the district which the board determines cannot be financed from annual revenues from taxes or assessments, or both, over a period of years without selling bonds. The board of supervisors may also determine that it may be necessary to sell bonds of the district to finance the local share of the cost of any flood control improvements or projects undertaken by the federal government or the state, or both. The board of supervisors shall make these determinations by adopting a resolution indicating its intention to finance the improvements through the issuance of bonds, generally describing the improvements to be financed with the proceeds of the bonds, and referring the improvements to an engineer selected by the board and therein named for the preparation and filing with the board of a report with regard to the proposed improvements. The zone or special zone of the district which will benefit from the sale of the bonds and the flood control improvements to be financed shall be designated in the resolution of the board making those determinations.

The report shall contain, among other things, all of the following:

(a) A general description of the improvements.

(b) Estimates of the cost of the improvements, the cost of land, rights-of-way, and easements, incidental expenses in connection with the improvements, and expenses in connection with the issuance of the bonds, and if part of the cost of the improvements will be paid from contributions from the federal government or the state, or both, an estimate of the expected total amount of those contributions.

(c) A map which shows the location of the proposed improvements and lands, rights-of-way, easements, and property to be taken, acquired, or injured in carrying out the construction of the improvements, and any other information in regard to those matters as may be deemed useful. However, improvements, lands, rights-of-way, easements, and property which will be located outside the district or outside the zone or special zone need not be shown on the map.

(d) A general analysis by the engineer as to how the real property to be assessed in the zone or special zone and each proposed area of benefit therein will derive benefit from the proposed improvements.

The engineer may propose in the report that parcels of real property in the zone or special zone which benefit similarly but differently from other parcels from the improvements be included in different areas of benefit which shall be identified by boundary lines on a map or maps of the zone or special zone. The engineer may also propose assessments based on special benefit determined in accordance with Section 20.3.

SEC. 12. Section 20.3 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.3. If the improvements proposed provide protection against flooding in a floodway or floodplain designated in the general plan of the County of Ventura or any city therein or a floodplain area or flood-risk zone established by the Secretary of Housing and Urban Development of the United States pursuant to Section 4101, et seq. of Title 42 of the United States Code, the fact that a lot or parcel of property is located within the floodway or plain or flood-risk area shall be conclusive evidence that it will derive special benefit from the improvements. Assessments based on special benefit may be levied on lots and parcels of property in addition to assessments determined on the basis of proportionate stormwater runoff.

SEC. 13. Section 20.4 of the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session) is repealed.

SEC. 14. Section 20.4 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.4. (a) When the report of the engineer is filed with the board of supervisors, the board may at a regular or special meeting approve the report and schedule a hearing thereon. The hearing shall be scheduled not earlier than 30 days and not later than 90 days following approval of the report. Notice of the hearing shall be published pursuant to Section 6066 of the Government Code in a newspaper of general circulation in the zone or special zone, and the first publication shall occur not later than 20 days before the date of the hearing. The notice to be published shall be entitled "Notice of Flood Control Improvements," shall include the time and place of the hearing on the proposed improvements and on the proposed bonds and annual assessments, shall generally describe the proposed improvements and refer to the report of the engineer for further particulars, shall state that the board of supervisors is considering issuing bonds to finance the cost of the proposed improvements, or the local share thereof, and the amount of the bonds which would be issued, shall also state that the board of supervisors is considering levying annual assessments on lots and parcels of real property in the zone or special zone to pay principal and interest on the bonds, and shall contain the name and telephone number of an officer or employee of the district to answer inquiries regarding the protest proceedings.

(b) A notice of the time and place of the hearing shall also be mailed, postage prepaid, to all persons owning real property in the zone or special zone as their names and addresses appear on the last equalized assessment roll for county taxes. The notices shall be mailed not later than 20 days before the date of the hearing. The notice to be mailed shall be entitled "Notice of Flood Control Improvements" and shall contain all of the following:

(1) A statement of the time, place, and purpose of the hearing on improvements and the proposed annual assessments.

(2) A statement of the total estimated cost of the proposed improvements.

(3) A statement that the board of supervisors proposes to issue and sell bonds to finance the cost of the proposed improvements, or the local share thereof, and to levy annual assessments on lots and parcels of real property within the zone or special zone to pay the principal of, and interest on, the bonds.

(4) The estimated amount of the typical annual assessments to be levied on the real property in the zone or special zone.

(5) A statement that any owner of a lot or parcel of real property in the zone or special zone may file a written protest with the clerk.

(6) The name and telephone number of an officer or employee of the district designated by the board of supervisors to answer inquiries regarding the protest proceedings.

(c) If the engineer's report proposes any assessments based on special benefit, separate notice shall be given to the owners of all real property on which assessments based on special benefit are proposed.

SEC. 15. Section 20.5 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.5. Any owner of real property in the zone or special zone may file a written protest with the clerk at or before the time set for the hearing. Each protest shall contain a description of the lot or parcel in which each signer thereof has an ownership interest sufficient to identify the same and, if the signers are not shown on the last equalized assessment roll as the owners of the lot or parcel, the protest shall contain or be accompanied by written evidence that the signers are the owners of the property. The clerk shall endorse on each protest the date of its receipt, and at the time appointed for the hearing shall represent to the board of supervisors all protests filed with the clerk.

SEC. 16. Section 20.6 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.6. At the time of the hearing, the engineer's report shall be summarized and the board of supervisors shall afford all persons who are present an opportunity to comment upon, object to, or present evidence with regard to, the proposed improvements, the issuance and sale of the bonds, the proposed estimated annual assessment against any lot or parcel of property, or any other matter relating thereto. At the conclusion of the hearing, the board of supervisors may confirm the report of the engineer or direct its modification in any respect, and thereafter confirm the report as modified. The hearing may be continued from time to time not exceeding a total of 180 days.

SEC. 17. Section 20.7 is added to the Ventura County Flood

Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.7. If the board of supervisors finds that written protests filed at or before the time of the hearing are signed by the owners of more than 25 percent of the area of land in the zone or special zone, and protests are not withdrawn at the time of the hearing or continued hearing so as to reduce the protest in the zone or special zone below that percentage, the board of supervisors shall either abandon the proceedings or by duly adopted resolution submit the propositions of the issuance of the bonds and the levy of the assessments to the qualified electors within the zone or special zone from which the protest was received and not so reduced, and shall not proceed further with the proceedings as to a zone or special zone unless a majority of the votes cast at the election in the zone or special zone wherein it is held are in favor of the issuance of bonds and the levy of assessments. The election shall be held in conformity with the general election laws of the state.

Notwithstanding any other provision of the law, bonds shall not be issued pursuant to Sections 20.2 to 20.12, inclusive, in amounts greater than that required to finance flood control projects or improvements identified pursuant to Sections 20.2 and 20.4, unless the issuance of the bonds is first approved by a majority of the voters within the district voting on the proposition of the issuance of the bonds.

SEC. 18. Section 20.8 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.8. If the board of supervisors abandons the proceedings rather than call an election, or if an election is held and a majority vote in favor of the propositions is not received, the board shall not initiate similar proceedings within a period of 180 days from the date of adoption of the resolution ordering abandonment of the proceedings or the date of the election.

SEC. 19. Section 20.9 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.9. If, at the conclusion of the hearing, the board of supervisors determines that protests received from the zone or special zone are below the percentage set forth in Section 20.7 or if the propositions regarding issuance of the bonds and the levy of annual assessments are submitted to election in the zone or special zone and the votes cast are in favor of the propositions, the board may adopt a resolution confirming the engineer's report, and ordering the improvements, or payment of the local share of the cost thereof, if the improvements are to be undertaken by the federal government or the state, or both, and the issuance of the bonds.

SEC. 20. Section 20.10 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.10. The board of supervisors may authorize the issuance

of bonds on the basis of competitive bids or negotiated sale. The board of supervisors shall establish a process for selecting bond counsel and, if the bonds are to be sold on the basis of a negotiated sale, the process of selecting underwriters. If competitive bids are to be received, notice of the time and place of the receipt of bids shall be published in a financial journal of general circulation in the state as provided in Section 6066 of the Government Code. The bonds shall be issued and sold as provided in and be subject to Sections 16 and 17.

SEC. 21. Section 20.11 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.11. After the authorization and sale of bonds pursuant to Sections 20.2 to 20.10, inclusive, the board of supervisors shall levy an assessment each year upon the real property in the zone or special zone in the manner prescribed herein in a total amount sufficient to pay interest on the bonds for that year and that portion of the principal thereof as is to become due before the time for making the next general tax levy. The board may also include in the total amount of the assessment levied in any year the estimated amount of the district's cost of levying and collecting the assessments, the cost of registration, transfer, and payment of the bonds, the expected amount of delinquency in payment of assessments, and the amount, if any, needed to replenish the reserve fund for the bonds as a result of past delinquencies in payment of assessments. The annual assessments shall be levied, collected, and become delinquent at the same time and in the same manner and have the same lien priority and bear the same penalties and interest after delinquency as the general tax levy for county purposes. When collected, the assessments collected shall be paid into the county treasury of the County of Ventura to the credit of the district, and be used for the purposes for which it was levied, and for no other purpose. The principal of, and interest on, the bonds shall be paid by the county treasurer of the county in the manner provided by law for the payment of principal of, and interest on, bonds of the county, except that the board of supervisors may determine in the resolution authorizing the issuance of the bonds that the principal and interest shall be paid by a paying agent, other than the county treasurer, named therein.

SEC. 22. Section 20.12 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 20.12. The board of supervisors may include in the aggregate principal amount of the bonds an amount for a reserve fund for the payment of the principal of, and interest on, the bonds in the event that as a result of delinquencies in the payment of annual assessments levied in the zone or special zone there is a deficiency in the amount needed for the payment of principal and interest. The amount to be included for the reserve fund shall not exceed 15 percent of the total

principal amount of the bonds. The reserve fund and all interest earned thereon shall be used for the payment of the principal of, and interest on, the bonds, if there is a deficiency, and then only to the extent of the deficiency, or such funds may be transferred to the redemption fund for the bonds for advance or final retirement of the bonds.

Notwithstanding any provision of this section, the amount and disposition of the reserve fund shall conform to the provisions of the Internal Revenue Code (Title 26 of the United States Code) or the regulations of the Department of the Treasury thereunder.

SEC. 23. Section 37 of the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session) is amended to read:

Sec. 37. An action to determine the validity of bonds, levy of any assessment, or a contract may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure. In any such action, all findings of fact or conclusions of the board of supervisors upon all matters shall be conclusive unless the action was instituted within six months after the finding or conclusion was made.

SEC. 24. Section 37.1 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 37.1. The validity of any proceedings conducted pursuant to Sections 20.2 to 20.12, inclusive, shall not be contested in any action or proceeding unless the action or proceeding is commenced within 30 days after the adoption by the board of supervisors of a resolution or resolutions confirming, or modifying and confirming as modified, the engineer's report and authorizing the issuance of bonds. An appeal from a final judgment in such an action or proceeding shall be perfected within 30 days after the entry of judgment. Bonds issued pursuant to Sections 20.2 to 20.12, inclusive, shall be conclusive evidence of the regularity of all proceedings leading up to the issuance of the bonds.

SEC. 25. Section 37.2 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 37.2. The Special Assessment Investigation, Limitation and Majority Protest Act of 1931 (Division 4 (commencing with Section 2800) of the Streets and Highways Code) does not apply to assessments levied pursuant to this act.

35. Commencing with its January 1, 1985, population base and continuing until the date of certification of the 1990 Federal Census, the population to be used by the Controller and by all other state and county agencies for all purposes of allocation and distribution of grant funds and subventions, including, without limitation, the annual allocation from the Public Library Fund and from the Motor Vehicle License Fee Account in the Transportation Tax Fund, for any general law city located in a county of the 11th class, which city's population as of January 1, 1985, was 38,925 based upon an estimate validated by the Department of Finance, shall be 38,925, adjusted annually, commencing January 1, 1986, by the percentage of population growth of the State of California as a whole.

SEC. 1.5. Section 17061.5 of the Revenue and Taxation Code is repealed.

SEC. 2. Section 17063.2 of the Revenue and Taxation Code is amended to read:

17063.2. (a) For purposes of subdivision (a) of Section 17063, the amount of the excess itemized deductions for any taxable year is the amount by which the sum of the itemized deductions for the taxable year other than—

(1) The deduction for state and local taxes provided by Section 164(a) of the Internal Revenue Code,

(2) The deduction for medical, dental, etc., expenses provided by Section 213 of the Internal Revenue Code,

(3) The deduction for casualty losses described in Section 165(c)(3) of the Internal Revenue Code, exceeds 60 percent of the taxpayer's adjusted gross income reduced by the items in paragraphs (1) through (3) for the taxable year.

(2) Under Section 642(e), 642(f), 651, 661, or 691 of the Internal Revenue Code; or

23333. (a) A taxpayer subject to Section 23186 shall, if it dissolves or withdraws prior to the date the rate is determined under Section 23186, pay a tax under Section 23332 at the maximum rate prescribed by Section 23186. If the rate is subsequently determined to be less than the maximum prescribed by Section 23186, a refund shall, within 30 days of that determination, be made as prescribed by Article 1 (commencing with Section 26071) of Chapter 22.

If the employees of more than 100 such employers are covered under such policy, it shall state as a separate part of the premium to be charged for the policy the

amount to be charged by the insurer for such collection.

(2) If the policy covers a group of governmental employees and the governmental unit paying such employees will not transmit their premium contribution after payroll deduction, the insurer may collect from the individual employees. If more than 100 such employees are covered under such policy, it shall state as a separate part of the premium to be charged for the policy the amount to be charged by the insurer for such collection.

(3) If individual members of the group make payment of their share of the premium contribution to the insurer with or without billing or solicitation by the insurer during a period of temporary absence from active work of not exceeding 90 days, such payment may be received without the necessity of any separately stated charge by the insurer.

CHAPTER 445

An act to amend Section 27282 of, and to add Sections 12527, 12528, and 27331 to, the Government Code, relating to the Attorney General.

[Approved by Governor September 4, 1987. Filed with Secretary of State September 8, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 12527 is added to the Government Code, to read:

12527. (a) This section applies to every action brought in the name of the people of the State of California by the Attorney General.

(b) The court may appoint a receiver, in actions in which the appointment of a receiver is authorized by law, upon the application of the Attorney General if the court determines both of the following:

(1) The Attorney General has a reasonable probability of prevailing on the merits at trial in establishing that the defendant obtained real or personal property by any unlawful means.

(2) The appointment of a receiver would facilitate the maintenance, preservation, operation, or recovery of that property for any restitutionary purpose.

(c) The receiver may do any of the following subject to the direction of the court:

(1) Sue for, collect, receive, and take into possession all the real and personal property derived by any unlawful means, including property with which that property or the proceeds thereof has been commingled if that property or the proceeds thereof cannot be identified in kind because of the commingling.

(2) Take possession of all books, records, and documents relating to any unlawfully obtained property and the proceeds thereof. In addition, the receiver shall have the same right as a defendant to request, obtain, inspect, copy, and obtain copies of books, records, and documents maintained by third parties that relate to unlawfully obtained property and the proceeds thereof.

(3) Transfer, encumber, manage, control, and hold all property subject to the receivership, including the proceeds thereof, in the manner directed or ratified by the court.

(4) Avoid a transfer of any interest in any unlawfully obtained property including the proceeds thereof to any person who committed, aided or abetted, or participated in the commission of unlawful acts or who had knowledge that the property had been unlawfully obtained.

(5) Avoid a transfer of any interest in any unlawfully obtained property including the proceeds thereof made with the intent to

hinder or delay the recovery of that property or any interest in it by the receiver or any person from whom the property was unlawfully obtained.

(6) Avoid a transfer of any interest in any unlawfully obtained property including the proceeds thereof that was made within one year before the date of the entry of the receivership order if less than a reasonably equivalent value was given in exchange for the transfer, except that a bona fide transferee for value and without notice that the property had been unlawfully obtained may retain the interest transferred until the value given in exchange for the transfer is returned to the transferee.

(7) Avoid a transfer of any interest in any unlawfully obtained property including the proceeds thereof made within 90 days before the date of the entry of the receivership order to a transferee from whom the defendant unlawfully obtained some property if (A) the receiver establishes that the avoidance of the transfer will promote a fair pro rata distribution of restitution among all people from whom defendants unlawfully obtained property and (B) the transferee cannot establish that the specific property transferred was the same property which had been unlawfully obtained from the transferee.

(8) Exercise any power authorized by statute or ordered by the court.

(d) (1) All property in the possession, management, or control of the receiver is in the custody of the court. The court may order that the expenses of the receivership, including receiver's fees, be paid from the property held by the receiver, but neither the state, the Attorney General, nor any state department, agency, or bureau shall be liable for any receivership expense, including receiver's fees, unless otherwise expressly provided by written contract.

(2) No person with actual or constructive notice of the receivership shall interfere with the discharge of the receiver's duties.

(3) No person may file any action or enforce or create any lien, or cause to be issued, served, or levied any summons, subpoena, attachment, or writ of execution against the receiver or any property subject to the receivership without first obtaining prior court approval upon motion with notice to the receiver and the Attorney General. Any legal procedure described herein commenced without prior court approval is void except as to a bona fide purchaser or encumbrancer for value and without notice of the receivership. No person without notice of the receivership shall incur any liability for commencing or maintaining any legal procedure described by this paragraph.

(e) The court may appoint the Attorney General, with the Attorney General's consent, to serve as receiver or as attorney for the receiver.

(f) The court has jurisdiction of all questions arising in the receivership proceedings and may make any orders and judgments as may be required, including orders after noticed motion by the

receiver to avoid transfers as provided in paragraphs (4), (5), (6), and (7) of subdivision (c).

(g) If the court determines that the Attorney General has a reasonable probability of prevailing on the merits at trial in establishing that the defendant obtained real or personal property by unlawful means but that the appointment of a receiver is not requested or that the conditions for the appointment of a receiver described in subdivision (b) have not been shown, the court shall issue any necessary orders to assure that the defendant does not transfer or encumber any property which may be used to satisfy a judgment in the action.

(h) This section is cumulative to all other provisions of law.

(i) If any provision of this section or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of this section which can be given effect without the invalid provision or application, and to this end the provisions of this section are severable.

(j) This section does not provide for the appointment of a receiver in actions in which the appointment of a receiver is not otherwise authorized by law.

(k) The recordation of a copy of the receivership order imparts constructive notice of the receivership in connection with any matter involving real property located in the county in which the receivership order is recorded.

SEC. 2. Section 12528 is added to the Government Code, to read:

12528. For purposes of this article, any property which is obtained in connection with any deceptive or misleading statements or conduct shall be deemed obtained through constructive fraud.

SEC. 3. Section 27282 of the Government Code is amended to read:

(b) Any document described in this section, from the time it is filed with the recorder for record, is constructive notice of the contents thereof to subsequent purchasers and mortgagees.

[Approved by Governor September 4, 1987 Filed with Secretary of State September 8, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 53601 of the Government Code, as amended by Section 2.5 of Chapter 853 of the Statutes of 1986, is amended to read:

53601. The legislative body of a local agency having money in a sinking fund of, or surplus money in, its treasury not required for the immediate necessities of the local agency may invest any portion of the money which it deems wise or expedient in:

(a) Bonds issued by the local agency, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the local agency or by a department, board, agency, or authority of the local agency.

(b) United States Treasury notes, bonds, bills, or certificates of indebtedness, or those for which the faith and credit of the United States are pledged for the payment of principal and interest.

(c) Registered state warrants or treasury notes or bonds of this state, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the state or by a department, board, agency, or authority of the state.

(d) Bonds, notes, warrants, or other evidences of indebtedness of any local agency within this state, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the local agency, or by a department, board, agency, or authority of the local agency.

(e) Obligations issued by banks for cooperatives, federal land banks, federal intermediate credit banks, federal home loan banks, the Federal Home Loan Bank Board, the Tennessee Valley Authority, or in obligations, participations, or other instruments of, or issued by, or fully guaranteed as to principal and interest by, the Federal National Mortgage Association; or in guaranteed portions of Small Business Administration notes; or in obligations, participations, or other instruments of, or issued by, a federal agency or a United States government-sponsored enterprise.

(f) Bills of exchange or time drafts drawn on and accepted by a commercial bank, otherwise known as bankers acceptances, which are eligible for purchase by the Federal Reserve System. Purchases of bankers acceptances may not exceed 270 days maturity or 40 percent of the agency's surplus money which may be invested pursuant to this section. However, no more than 30 percent of the agency's surplus funds may be invested in the bankers acceptances of any one commercial bank pursuant to this section.

This subdivision does not preclude a municipal utility district from investing any surplus money in its treasury in any manner authorized by the Municipal Utility District Act, Division 6 (commencing with Section 11501) of the Public Utilities Code.

(g) Commercial paper of "prime" quality of the highest ranking or of the highest letter and numerical rating as provided for by Moody's Investors Service, Inc., or Standard and Poor's Corporation. Eligible paper is further limited to issuing corporations that are organized and operating within the United States and having total assets in excess of five hundred million dollars ($500,000,000) and having an "A" or higher rating for the issuer's debt, other than commercial paper, if any, as provided for by Moody's Investors Service, Inc., or Standard and Poor's Corporation. Purchases of eligible commercial paper may not exceed 180 days maturity nor represent more than 10 percent of the outstanding paper of an issuing corporation. Purchases of commercial paper may not exceed 15 percent of the agency's surplus money which may be invested pursuant to this section. An additional 15 percent, or a total of 30 percent of the agency's surplus money, may be invested pursuant to this subdivision. The additional 15 percent may be so invested only if the dollar-weighted average maturity of the entire amount does not exceed 31 days. "Dollar-weighted average maturity" means the sum of the amount of each outstanding commercial paper

investment multiplied by the number of days to maturity, divided by the total amount of outstanding commercial paper.

(h) Negotiable certificates of deposits issued by a nationally or state-chartered bank or a state or federal association (as defined by Section 5102 of the Financial Code) or by a state-licensed branch of a foreign bank. (i) Investments in repurchase agreements or reverse repurchase agreements of any securities authorized by this section, so long as the proceeds of the reverse repurchase agreement are invested solely to supplement the income normally received from these securities. Investment in a reverse repurchase agreement shall be made only upon prior approval of the legislative body of the local agency. For purposes of this section, the term "repurchase agreement" means a purchase of securities by the local agency pursuant to an agreement by which the seller will repurchase the securities on or before a specified date and for a specified amount and will deliver the underlying securities to the local agency by book entry, physical delivery, or by third-party custodial agreement. The transfer of underlying securities to the counterparty bank's customer book-entry account may be used for book-entry delivery. The term "counterparty" for the purposes of this subdivision, means the other party to the transaction. A counterparty bank's trust department or safekeeping department may be used for physical delivery of the underlying security. The term of repurchase agreements shall be for one year or less. The term "securities," for purpose of repurchase under this subdivision, means securities of the same issuer, description, issue date, and maturity.

The term "reverse repurchase agreement" means a sale of securities by the local agency pursuant to an agreement by which the local agency will repurchase such securities on or before a specified date and for a specified amount.

(j) Medium-term notes of a maximum of five years maturity issued by corporations organized and operating within the United States or by depository institutions licensed by the United States or any state and operating within the United States. Notes eligible for investment under this subdivision shall be rated in a rating category of "A" or its equivalent or better by a nationally recognized rating service. Purchases of medium-term notes may not exceed 30 percent of the agency's surplus money which may be invested pursuant to this section.

(k) Shares of beneficial interest issued by diversified management companies, as defined in Section 23701m of the Revenue and Taxation Code, investing in the securities and obligations as

authorized by subdivisions (a) to (*l*), inclusive, of this section and which comply with the investment and deposit restrictions of this article and Article 2 (commencing with Section 53630). (*l*) Notwithstanding anything to the contrary contained in this section, Section 53635 or any other provision of law, moneys held by a trustee or fiscal agent and pledged to the payment or security of bonds or other indebtedness, or obligations under a lease, installment sale, or other agreement of a local agency, or certificates of participation in those bonds, indebtedness, or lease installment sale, or other agreements, may be invested in accordance with the statutory provisions governing the issuance of those bonds, indebtedness, or lease installment sale, or other agreement, or to the extent not inconsistent therewith or if there are no specific statutory provisions, in accordance with the ordinance, resolution, indenture, or agreement of the local agency providing for the issuance.

(m) Notes, bonds, or other obligations which are at all times secured by a valid first priority security interest in securities of the types listed by Section 53651 as eligible securities for the purpose of securing local agency deposits having a market value at least equal to that required by Section 53652 for the purpose of securing local agency deposits. The securities serving as collateral shall be placed by delivery or book entry into the custody of a trust company or the trust department of a bank which is not affiliated with the issuer of the secured obligation, and the security interest shall be perfected in accordance with the requirements of the Uniform Commercial Code or federal regulations applicable to the types of securities in which the security interest is granted.

SEC. 2. Section 53635 of the Government Code as amended by Section 4.5 of Chapter 853 of the Statutes of 1986, is amended to read:

(c) Registered state warrants or treasury notes or bonds of this state, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the state or by a department, board, agency, or authority of the state.

(d) Bonds, notes, warrants, or other evidences of indebtedness of any local agency within this state, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the local agency, or by a department, board, agency, or authority of the local agency.

(e) Obligations issued by banks for cooperatives, federal land banks, federal intermediate credit banks, federal home loan banks, the federal home loan bank, the Tennessee Valley Authority, or in obligations, participations, or other instruments of, or issued by, or fully guaranteed as to principal and interest by, the Federal National Mortgage Association; or in guaranteed portions of Small Business Administration notes; or in obligations, participations, or other instruments of, or issued by, federal agency or a United States government-sponsored enterprise.

(f) Bills of exchange or time drafts drawn on and accepted by a commercial bank, otherwise known as bankers acceptances, which are eligible for purchase by the Federal Reserve System. Purchases of bankers acceptances may not exceed 270 days maturity or 40 percent of the agency's surplus funds which may be invested pursuant to this section. However, no more than 30 percent of the agency's surplus funds may be invested in the bankers acceptances of any one commercial bank pursuant to this section.

This subdivision does not preclude a municipal utility district from investing any surplus money in its treasury in any manner authorized by the Municipal Utility District Act, Division 6 (commencing with Section 11501) of the Public Utilities Code.

(g) Commercial paper of "prime" quality of the highest ranking or of the highest letter and numerical rating as provided for by Moody's Investors Service, Inc., or Standard and Poor's Corporation. Eligible paper is further limited to issuing corporations that are organized and operating within the United States and having total assets in excess of five hundred million dollars ($500,000,000) and having an "A" or higher rating for the issuer's debt, other than commercial paper, if any, as provided for by Moody's Investors Service, Inc., or Standard and Poor's Corporation. Purchases of eligible commercial paper may not exceed 180 days maturity nor represent more than 10 percent of the outstanding paper of an

issuing corporation. Purchases of commercial paper may not exceed 15 percent of the agency's surplus money which may be invested pursuant to this section. An additional 15 percent, or a total of 30 percent of the agency's money or money in its custody, may be invested pursuant to this subdivision. The additional 15 percent may be so invested only if the dollar-weighted average maturity of the entire amount does not exceed 31 days. "Dollar-weighted average maturity" means the sum of the amount of each outstanding commercial paper investment multiplied by the number of days to maturity, divided by the total amount of outstanding commercial paper.

(h) Negotiable certificates of deposit issued by a nationally or state-chartered bank or a savings association or federal association or a state or federal credit union or by a state-licensed branch of a foreign bank. Purchases of negotiable certificates of deposit may not exceed 30 percent of the agency's surplus money which may be invested pursuant to this section. For purposes of this section, negotiable certificates of deposit do not come within Article 2 (commencing with Section 53630) of Chapter 4 of Part 1 of Division 2 of Title 5, except that the amount so invested shall be subject to the limitations of Section 53638. For purposes of this section, the legislative body of a local agency and the treasurer or other official of the local agency having legal custody of the money are prohibited from depositing or investing local agency funds, or funds in the custody of the local agency, in negotiable certificates of deposit issued by a state or federal credit union if a member of the legislative body of the local agency, or an employee of the administrative officer, manager's office, budget office, auditor-controller's office, or treasurer's office of the local agency also serves on the board of directors, or any committee appointed by the board of directors, or the credit committee or supervisory committee of the state or federal credit union issuing the negotiable certificates of deposit.

(i) Investments in repurchase agreements or reverse repurchase agreements of any securities authorized by this section, so long as the proceeds of the reverse repurchase agreement are invested solely to supplement the income normally received from these securities. Investment in a reverse repurchase agreement shall be made only upon prior approval of the legislative body of the local agency. For purposes of this section, the term "repurchase agreement" means a purchase of securities by the local agency pursuant to an agreement by which the seller will repurchase the securities on or before a specified date and for a specified amount and will deliver the underlying securities to the local agency by book entry, physical delivery, or by third-party custodial agreement. The transfer of underlying securities to the counterparty bank's customer book-entry account may be used for book-entry delivery. The term "counterparty" for the purposes of this subdivision, means the other party to the transaction. A counterparty bank's trust department or safekeeping department may be used for physical delivery of the

underlying security. The term of repurchase agreements shall be for one year or less. The term "securities," for purpose of repurchase under this subdivision, shall mean securities of the same issuer, description, issue date, and maturity.

The term "reverse repurchase agreement" means a sale of securities by the local agency pursuant to an agreement by which the local agency will repurchase such securities on or before a specified date and for a specified amount.

(j) Medium-term notes of a maximum of five years maturity issued by corporations organized and operating within the United States or by depository institutions licensed by the United States or any state and operating within the United States. Notes eligible for investment under this subdivision shall be rated in a rating category of "A" or its equivalent or better by a nationally recognized rating service. Purchases of medium-term notes may not exceed 30 percent of the agency's surplus money which may be invested pursuant to this section.

(k) Shares of beneficial interest issued by diversified management companies, as defined in Section 23701m of the Revenue and Taxation Code, investing in the securities and obligations as authorized by subdivisions (a) to (k), inclusive, of this section and which comply with the investment and deposit restrictions of this article and Article 2 (commencing with Section 53630). To be eligible for investment pursuant to this subdivision, these companies shall either: (1) attain the highest ranking or the highest letter and numerical rating provided by not less than two of the three largest nationally recognized rating services, or (2) have an investment advisor registered with the Securities and Exchange Commission with not less than five years experience investing in the securities and obligations as authorized by subdivisions (a) to (m), inclusive, of this section and with assets under management in excess of five hundred million dollars ($500,000,000). The purchase price of shares of beneficial interest purchased pursuant to this subdivision shall not include any commission that these companies may charge and shall not exceed 15 percent of the agency's surplus money which may be invested pursuant to this section.

(*l*) Notes, bonds, or other obligations which are at all times secured by a valid first priority security interest in securities of the types listed by Section 53651 as eligible securities for the purpose of securing local agency deposits having a market value at least equal to that required by Section 53652 for the purpose of securing local agency deposits. The securities serving as collateral shall be placed by delivery or book entry into the custody of a trust company or the trust department of a bank which is not affiliated with the issuer of the secured obligation, and the security interest shall be perfected in accordance with the requirements of the Uniform Commercial Code or federal regulations applicable to the types of securities in which the security interest is granted.

CHAPTER 448

An act to amend Sections 2982, 2982.3, 2982.8, 2983.2, and 2983.3 of the Civil Code, relating to contracts.

[Approved by Governor September 4, 1987 Filed with Secretary of State September 8, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 2982 of the Civil Code is amended to read:

2982. Every conditional sale contract subject to this chapter shall contain the disclosures required by Regulation Z whether or not

Regulation Z applies to the transaction. In addition, to the extent applicable, the contract shall contain the other disclosures and notices required by, and shall satisfy the requirements and limitations of, this section. The disclosures required by subdivision (a) may be itemized or subtotaled to a greater extent than as required by that subdivision and shall be made together and in the sequence set forth in that subdivision. All other disclosures and notices may appear in the contract in any location or sequence and may be combined or interspersed with other provisions of the contract.

(a) The contract shall contain the following disclosures, as applicable, which shall be labeled "itemization of the amount financed":

(1) (A) The cash price, exclusive of document preparation fees, taxes imposed on the sale, pollution control certification fees, and the amount charged for a service contract.

(B) The fee to be retained by the seller for document preparation.

(C) The fee charged by the seller for certifying that the motor vehicle complies with applicable pollution control requirements.

(D) Taxes imposed on the sale.

(E) The amount charged for a service contract.

(F) The total cash price, which is the sum of subparagraphs (A) to (E), inclusive.

(2) An itemization of the amounts to be paid to any public officer for license, certificate of title, and registration.

(3) The aggregate amount of premiums agreed, upon execution of the contract, to be paid for policies of insurance included in the contract, excluding the amount of any insurance premium included in the finance charge.

(4) The amount of the state fee for issuance of a certificate of compliance, noncompliance, or waiver pursuant to any applicable pollution control statute.

(5) A subtotal representing the sum of the foregoing items.

(6) The amount of the buyer's downpayment itemized to show the following:

(A) The net agreed value of the property being traded in.

(B) The amount of any portion of the downpayment to be deferred until not later than the due date of the second regularly scheduled installment under the contract and which is not subject to a finance charge.

(C) The amount of any manufacturer's rebate applied or to be applied to the downpayment.

(D) The remaining amount paid or to be paid by the buyer as a downpayment.

(7) The amount of any administrative finance charge, labeled "prepaid finance charge."

(8) The difference between item (5) and the sum of items (6) and (7), labeled "amount financed."

(b) No particular terminology is required to disclose the items set

forth in subdivision (a) except as therein expressly provided.

(c) If payment of all or a portion of the downpayment is to be deferred, the deferred payment shall be reflected in the payment schedule disclosed pursuant to Regulation Z.

(d) If the downpayment includes property being traded in, the contract shall contain a brief description of that property.

(e) The contract shall contain the names and addresses of all persons to whom the notice required under Section 2983.2 and permitted under Sections 2983.5 and 2984 is to be sent.

(f) (1) Where the contract includes a finance charge determined on the precomputed basis, the contract shall identify the method of computing the unearned portion of the finance charge in the event of prepayment in full of the buyer's obligation and contain a statement of the amount or method of computation of any charge that may be deducted from the amount of any such unearned finance charge in computing the amount that will be credited to the obligation or refunded to the buyer. The method of computing the unearned portion of the finance charge shall be sufficiently identified with a reference to the actuarial method if the computation will be under that method. The method of computing the unearned portion of the finance charge shall be sufficiently identified with a reference to the Rule of 78's, the sum of the digits, or the sum of the periodic time balances method in all other cases, and those references shall be deemed to be equivalent for disclosure purposes.

(2) Where the contract includes a finance charge which is determined on the simple-interest basis but provides for a minimum finance charge in the event of prepayment in full, the contract shall contain a statement of that fact and the amount of the minimum finance charge or its method of calculation.

(g) (1) Where the contract includes a finance charge which is determined on the precomputed basis and provides that the unearned portion of the finance charge to be refunded upon full prepayment of the contract is to be determined by a method other than actuarial, the contract shall contain a notice, in at least 10-point bold type if the contract is printed, reading as follows: "Notice to buyer: (1) Do not sign this agreement before you read it or if it contains any blank spaces to be filled in. (2) You are entitled to a completely filled-in copy of this agreement. (3) You can prepay the full amount due under this agreement at any time and obtain a partial refund of the finance charge if it is $1 or more. Because of the way the amount of this refund will be figured, the time when you prepay could increase the ultimate cost of credit under this agreement. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement."

(2) Where the contract includes a finance charge which is determined on the precomputed basis and provides for the actuarial

method for computing the unearned portion of the finance charge upon prepayment in full, the contract shall contain a notice, in at least 10-point bold type if the contract is printed, reading as follows: "Notice to buyer: (1) Do not sign this agreement before you read it or if it contains any blank spaces to be filled in. (2) You are entitled to a completely filled-in copy of this agreement. (3) You can prepay the full amount due under this agreement at any time and obtain a partial refund of the finance charge if it is $1 or more. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement."

(3) Where the contract includes a finance charge which is determined on the simple-interest basis, the contract shall contain a notice, in at least 10-point bold type if the contract is printed, reading as follows: "Notice to buyer: (1) Do not sign this agreement before you read it or if it contains any blank spaces to be filled in. (2) You are entitled to a completely filled-in copy of this agreement. (3) You can prepay the full amount due under this agreement at any time. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement."

(h) The contract shall contain a notice, in at least 8-point bold type if the contract is printed, that complaints concerning unfair or deceptive practices or methods by the seller shall be referred to the seller and, if the complaint is not resolved, may be referred to the Department of Motor Vehicles, Division of Compliance, 2570 24th Street, Sacramento, 95818.

(i) (1) The contract shall contain an itemization of any insurance included as part of the amount financed disclosed pursuant to paragraph (3) of subdivision (a) and of any insurance included as part of the finance charge. The itemization shall identify the type of insurance coverage and the premium charged therefor, and, if the insurance expires before the date of the last scheduled installment included in the repayment schedule, the term of the insurance shall be stated.

(2) If any charge for insurance (other than for credit life or disability) is included in the contract balance and disbursement of any part thereof is to be made more than one year after the date of the conditional sale contract, any finance charge on the amount to be disbursed after one year shall be computed from the month the disbursement is to be made to the due date of the last installment under the conditional sale contract.

(j) (1) The dollar amount of the disclosed finance charge shall not exceed the greater of:

(A) (i) One and one-half percent on so much of the unpaid balance as does not exceed two hundred twenty-five dollars ($225), 1 ⅙ percent on so much of the unpaid balance in excess of two hundred twenty-five dollars ($225) as does not exceed nine hundred

dollars ($900), 5/6 of 1 percent on so much of the unpaid balance in excess of nine hundred dollars ($900) as does not exceed one thousand six hundred fifty dollars ($1,650), and 13/24 of 1 percent on that portion of the unpaid balance which exceeds one thousand six hundred fifty dollars ($1,650), or

(ii) One percent of the entire unpaid balance; multiplied in either case by the number of months (computed on the basis of a full month for any fractional month period in excess of 15 days) elapsing between the date of the contract and the due date of the last installment; or

(B) If the finance charge is determined by the precomputed basis, twenty-five dollars ($25); or

(C) If the finance charge or a portion thereof is determined by the simple-interest basis:

(i) Twenty-five dollars ($25) if the unpaid balance does not exceed one thousand dollars ($1,000), (ii) fifty dollars ($50) if the unpaid balance exceeds one thousand dollars ($1,000) but does not exceed two thousand dollars ($2,000), or (iii) seventy-five dollars ($75) if the unpaid balance exceeds two thousand dollars ($2,000).

(2) The holder of the contract shall not charge, collect, or receive a finance charge which exceeds the disclosed finance charge, except to the extent (A) caused by the holder's receipt of one or more payments under a contract which provides for determination of the finance charge or a portion thereof on the 365-day basis at a time or times other than as originally scheduled whether or not the parties enter into an agreement pursuant to Section 2982.3, (B) permitted by paragraph (2), (3), or (4) of subdivision (c) of Section 226.17 of Regulation Z, or (C) permitted by subdivisions (a) and (c) of Section 2982.8.

(3) If the finance charge or a portion thereof is determined by the simple-interest basis and the amount of the unpaid balance exceeds five thousand dollars ($5,000), the holder of the contract may, in lieu of its right to a minimum finance charge under subparagraph (C) of paragraph (1), charge, receive, or collect on the date of the contract an administrative finance charge not to exceed seventy-five dollars ($75), provided that the sum of any such administrative finance charge and the portion of the finance charge determined by the simple-interest basis shall not exceed the maximum total finance charge permitted by subparagraph (A) of paragraph (1). Any administrative finance charge which is charged, received, or collected by a holder shall be deemed a finance charge earned on the date of the contract.

(4) When a contract provides for unequal or irregular payments, or payments on other than a monthly basis, the maximum finance charge shall be at the effective rate provided for in paragraph (1), having due regard for the schedule of installments.

(k) The contract may provide that for each installment in default for a period of not less than 10 days the buyer shall pay a delinquency charge in an amount not to exceed in the aggregate 5 percent of the

delinquent installment, which amount may be collected only once on any installment regardless of the period during which it remains in default. Payments timely received by the seller under an extension or deferral agreement shall not be subject to a delinquency charge unless the charge is permitted by Section 2982.3. The contract may provide for reasonable collection costs and fees in the event of delinquency.

(*l*) Notwithstanding any provision of a contract to the contrary, the buyer may pay at any time before maturity the entire indebtedness evidenced by the contract without penalty. In the event of prepayment in full:

(1) If the finance charge was determined on the precomputed basis, the amount required to prepay the contract shall be the outstanding contract balance as of that date, provided, however, that the buyer shall be entitled to a refund credit in the amount of the unearned portion of the finance charge, except as provided in paragraphs (3) and (4). The amount of the unearned portion of the finance charge shall be at least as great a proportion of the finance charge, including any additional finance charge imposed pursuant to Section 2982.8 or other additional charge imposed because the contract has been extended, deferred, or refinanced, as the sum of the periodic monthly time balances payable more than 15 days after the date of prepayment bears to the sum of all the periodic monthly time balances under the schedule of installments in the contract or, if the contract has been extended, deferred, or refinanced, as so extended, deferred, or refinanced. Where the amount of the refund credit is less than one dollar ($1), no refund credit need be made by the holder. Any refund credit may be made in cash or credited to the outstanding obligations of the buyer under the contract.

(2) If the finance charge or a portion thereof was determined on the simple-interest basis, the amount required to prepay the contract shall be the outstanding contract balance as of that date, including any earned finance charges which are unpaid as of that date and, if applicable, the amount provided in paragraph (3), and provided further that in cases where a finance charge is determined on the 360-day basis, the payments theretofore received will be assumed to have been received on their respective due dates regardless of the actual dates on which such payments were received.

(3) Where the minimum finance charge provided by subparagraph (B) or subparagraph (C) of paragraph (1) of subdivision (j), if either is applicable, is greater than the earned finance charge as of the date of prepayment, the holder shall be additionally entitled to the difference.

(4) The provisions of this subdivision shall not impair the right of the seller or the seller's assignee to receive delinquency charges on delinquent installments and reasonable costs and fees as provided in subdivision (k) of this section or extension or deferral agreement charges as provided in Section 2982.3.

(5) Notwithstanding any provision of a contract to the contrary,

whenever the indebtedness created by any contract is satisfied prior to its maturity through surrender of the motor vehicle, repossession of the motor vehicle, redemption of the motor vehicle after repossession, or any judgment, the outstanding obligation of the buyer shall be determined as provided in paragraph (1) or (2); provided further that the buyer's outstanding obligation shall be computed by the holder as of the date the holder recovers the value of the motor vehicle through disposition thereof or judgment is entered or, if the holder elects to keep the motor vehicle in satisfaction of the buyer's indebtedness, as of the date the holder takes possession of the motor vehicle.

(m) Notwithstanding any other provision of this chapter to the contrary, any information required to be disclosed in a conditional sale contract under this chapter may be disclosed in any manner, method, or terminology required or permitted under Regulation Z, as in effect at the time such disclosure is made, except that permitted by paragraph (2) of subdivision (c) of Section 226.18 of Regulation Z, provided that all of the requirements and limitations set forth in subdivision (a) of this section are satisfied. Nothing contained in this chapter shall be deemed to prohibit the disclosure in such contract of additional information required or permitted under Regulation Z, as in effect at the time such disclosure is made.

(n) If the seller imposes a fee for document preparation, the contract shall contain a disclosure that such fee is not a governmental fee.

(o) No seller may impose an application fee for a transaction governed by this chapter.

(p) The contract may provide that the seller or holder may charge and collect a five-dollar ($5) fee for the return by depository institution of a dishonored check, negotiated order of withdrawal, or share draft issued in connection with the contract.

SEC. 2. Section 2982.3 of the Civil Code is amended to read:

2982.3. (a) The holder of a conditional sale contract may, upon agreement with the buyer, extend the scheduled due date or defer the scheduled payment of all or of any part of any installment or installments payable thereunder. No charge shall be made for any such extension or deferment unless the agreement for such extension or deferment is in writing and signed by the parties thereto. However, the seller or holder may, as an adjunct to or to assist in efforts to collect one or more delinquent installments on the contract, advise one or more obligors on the contract, either in writing or orally, that the due date for one or more installments under the contract shall be extended, with no charge being made for such extension other than any applicable late charge provided for in the contract.

(b) Where the contract includes a finance charge determined on the precomputed basis, the holder may charge and contract for the payment of an extension or deferral agreement charge by the buyer and collect and receive the same, but such charge may not exceed

an amount equal to 1 percent per month simple interest on the amount of the installment or installments, or part thereof, extended or deferred for the period of extension or deferral. Such period shall not exceed the period from the date when such extended or deferred installment or installments, or part thereof, would have been payable in the absence of such extension or deferral to the date when such installment or installments, or part thereof, are made payable under the agreement of extension or deferment; except that a minimum charge of one dollar ($1) for the period of extension or deferral may be made in any case where the extension or deferral agreement charge, when computed at such rate, amounts to less than one dollar ($1).

(c) Where the contract includes a finance charge determined on the simple-interest basis, the holder may charge and contract for the payment of an extension or deferral agreement charge by the buyer and collect and receive the same, but the charge for the extension or deferral agreement may not exceed the lesser of twenty-five dollars ($25) or 10 percent of the then outstanding principal balance of the contract. Such charge shall be in addition to any finance charges which accrue because such extended or deferred payments are received at a time other than as originally scheduled.

SEC. 3. Section 2982.8 of the Civil Code is amended to read:

2982.8. (a) If a buyer is obligated under the terms of the conditional sale contract to maintain insurance on the vehicle and subsequent to the execution of the contract the buyer either fails to maintain or requests the holder to procure the insurance, any amounts advanced by the holder to procure the insurance may be the subject of finance charges from the date of advance as provided in subdivision (e).

(b) These amounts shall be secured as provided in the contract and permitted by Section 2984.2 if the holder notifies the buyer in writing of his or her option to repay those amounts in any one of the following ways:

(1) Full payment within 10 days from the date of giving or mailing the notice.

(2) Full amortization during the term of the insurance.

(3) If offered by the holder, full amortization after the term of the conditional sale contract, to be payable in installments which do not exceed the average payment allocable to a monthly period under the contract.

(4) If offered by the holder, any other amortization plan.

If the buyer neither pays in full the amounts advanced nor notifies the holder in writing of his or her choice regarding amortization options before the expiration of 10 days from the date of giving or mailing the notice by the holder, the holder may amortize the amounts advanced on a secured basis pursuant to paragraph (2) or, if offered by the holder as an option to the buyer, paragraph (3).

(c) The written notification described in subdivision (b) shall also set forth the amounts advanced by the holder and, with respect to

each amortization plan the amount of the additional finance charge, the sum of the amounts advanced and the additional finance charge, the number of installments required, the amount of each installment and the date for payment of the installments.

In addition, the notice shall contain a statement in contrasting red print in at least 8-point bold type, which reads as follows:

"WARNING—IT IS YOUR RESPONSIBILITY UNDER CALIFORNIA LAW TO OBTAIN LIABILITY INSURANCE OR BE SUBJECT TO PENALTIES FOR VIOLATING SECTION 16020 OF THE VEHICLE CODE, WHICH MAY INCLUDE LOSS OF LICENSE OR A FINE. THE INSURANCE ACQUIRED BY THE LIENHOLDER DOES NOT PROVIDE LIABILITY COVERAGE AND DOES NOT SATISFY YOUR RESPONSIBILITY UNDER CALIFORNIA LAW."

(d) If subsequent to the execution of the contract the holder advances amounts for repairs to or preservation of the motor vehicle or preservation of the holder's security interest therein and such advances are occasioned by the buyer's default under the contract, such advances may be the subject of finance charges from the date of advance as provided in subdivision (e) and shall be secured as provided in the contract and permitted by Section 2984.2.

(e) The maximum rate of finance charge which may be imposed on amounts advanced by the holder subsequent to the execution of the contract for insurance, repairs to or preservation of the motor vehicle, or preservation of the holder's security interest therein, shall not exceed the annual percentage rate disclosed pursuant to Section 2982.

SEC. 4. Section 2983.2 of the Civil Code is amended to read:

2983.2. (a) Except where the motor vehicle has been seized as described in paragraph (6) of subdivision (b) of Section 2983.3, any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, at least 15 days' written notice of intent to dispose of a repossessed or surrendered motor vehicle must be given to all persons liable on the contract. The notice shall be personally served or shall be sent by certified mail, return receipt requested, or first-class mail, postage prepaid, directed to the last known address of the persons liable on the contract. Except as otherwise provided in Section 2983.8, those persons shall be liable for any deficiency after disposition of the repossessed or surrendered motor vehicle only if the notice prescribed by this section is given within 60 days of repossession or surrender and does all of the following:

(1) Sets forth that those persons shall have a right to redeem the motor vehicle by paying in full the indebtedness evidenced by the contract until the expiration of 15 days from the date of giving or mailing the notice and provides an itemization of the contract balance and of any deliquency, collection or repossession costs and

fees and sets forth the computation or estimate of the amount of any credit for unearned finance charges or canceled insurance as of the date of the notice.

(2) States either that there is a conditional right to reinstate the contract until the expiration of 15 days from the date of giving or mailing the notice and all the conditions precedent thereto or that there is no right of reinstatement and provides a statement of reasons therefor.

(3) States that, upon written request, the seller or holder shall extend for an additional 10 days the redemption period or, if entitled to the conditional right of reinstatement, both the redemption and reinstatement periods. The seller or holder shall provide the proper form for applying for the extensions with the substance of the form being limited to the extension request, spaces for the requesting party to sign and date the form, and instructions that it must be personally served or sent by certified or registered mail, return receipt requested, to a person or office and address designated by the seller or holder and received before the expiration of the initial redemption and reinstatement periods.

(4) Discloses the place at which the motor vehicle will be returned to those persons upon redemption or reinstatement.

(5) Designates the name and address of the person or office to whom payment shall be made.

(6) States the seller's or holder's intent to dispose of the motor vehicle upon the expiration of 15 days from the date of giving or mailing the notice, or if by mail and either the place of deposit in the mail or the place of address is outside of this state, the period shall be 20 days instead of 15 days, and further, that upon written request to extend the redemption period and any applicable reinstatement period for 10 days, the seller or holder shall without further notice extend the period accordingly.

(7) Informs such persons that upon written request, the seller or holder shall furnish a written accounting regarding the disposition of the motor vehicle as provided for in subdivision (b). The seller or holder shall advise them that such request must be personally served or sent first-class mail, postage prepaid, or certified mail, return receipt requested, to a person or office and address designated by the seller or holder.

(8) Includes notice, in at least 10-point bold type if the notice is printed, reading as follows: "NOTICE. YOU MAY BE SUBJECT TO SUIT AND LIABILITY IF THE AMOUNT OBTAINED UPON DISPOSITION OF THE VEHICLE IS INSUFFICIENT TO PAY THE CONTRACT BALANCE AND ANY OTHER AMOUNTS DUE."

(b) Unless automatically provided to the buyer within 45 days after the disposition of the motor vehicle, the seller or holder shall provide to any person liable on the contract within 45 days after their written request, if the request is made within one year after the disposition, a written accounting regarding the disposition. The

accounting shall itemize:

(1) The gross proceeds of the disposition.

(2) The reasonable and necessary expenses incurred for retaking, holding, preparing for and conducting the sale and to the extent provided for in the agreement and not prohibited by law, reasonable attorney fees and legal expenses incurred by the seller or holder in retaking the vehicle from any person not a party to the contract.

(3) The satisfaction of indebtedness secured by any subordinate lien or encumbrance on the motor vehicle if written notification of demand therefor is received before distribution of the proceeds is completed. If requested by the seller or holder, the holder of a subordinate lien or encumbrance must seasonably furnish reasonable proof of its interest, and unless it does so, the seller or holder need not comply with its demand.

(c) In all sales which result in a surplus, the seller or holder shall furnish an accounting as provided in subdivision (b) whether or not requested by the buyer. Any surplus shall be returned to the buyer within 45 days after the sale is conducted.

(d) This section shall not apply to a loan made by a lender licensed under Division 9 (commencing with Section 22000) or Division 10 (commencing with Section 24000) of the Financial Code.

SEC. 5. Section 2983.3 of the Civil Code is amended to read:

2983.3. (a) In the absence of default in the performance of any of the buyer's obligations under the contract, the seller or holder may not accelerate the maturity of any part or all of the amount due thereunder or repossess the motor vehicle.

(b) If after default by the buyer, the seller or holder repossesses or voluntarily accepts surrender of the motor vehicle, any person liable on the contract shall have a right to reinstate the contract and the seller or holder shall not accelerate the maturity of any part or all of the contract prior to expiration of the right to reinstate, unless the seller or holder reasonably and in good faith determines that any of the following has occurred:

(1) The buyer or any other person liable on the contract by omission or commission intentionally provided false or misleading information of material importance on his or her credit application.

(2) The buyer, any other person liable on the contract, or any permissive user in possession of the motor vehicle, in order to avoid repossession has concealed the motor vehicle or removed it from the state.

(3) The buyer, any other person liable on the contract, or any permissive user in possession of the motor vehicle, has committed or threatens to commit acts of destruction, or has failed to take care of the motor vehicle in a reasonable manner, so that the motor vehicle has become substantially impaired in value, or the buyer, any other person liable on the contract, or any nonoccasional permissive user in possession of the motor vehicle has failed to take care of the motor vehicle in a reasonable manner, so that the motor vehicle may become substantially impaired in value.

(4) The buyer or any other person liable on the contract has committed, attempted to commit, or threatened to commit criminal acts of violence or bodily harm against an agent, employee, or officer of the seller or holder in connection with the seller's or holder's repossession of or attempt to repossess the motor vehicle.

(5) The buyer has knowingly used the motor vehicle, or has knowingly permitted it to be used, in connection with the commission of a criminal offense, other than an infraction, as a consequence of which the motor vehicle has been seized by a federal, state, or local agency or authority pursuant to federal, state, or local law.

(6) The motor vehicle has been seized by a federal, state, or local public agency or authority pursuant to (A) Section 1324 of Title 8 of the United States Code or Part 274 of Title 8 of the Code of Federal Regulations, (B) Section 881 of Title 21 of the United States Code or Part 9 of Title 28 of the Code of Federal Regulations, or (C) other federal, state, or local law, including regulations, and, pursuant to that other law, the seizing authority, as a precondition to the return of the motor vehicle to the seller or holder, prohibits the return of the motor vehicle to the buyer or other person liable on the contract or any third person claiming the motor vehicle by or through them or otherwise effects or requires the termination of the property rights in the motor vehicle of the buyer or other person liable on the contract or claimants by or through them.

(c) Exercise of the right to reinstate the contract shall be limited to once in any 12-month period and twice during the term of the contract.

(d) The provisions of this subdivision cover the method by which a contract shall be reinstated with respect to curing events of default which were a ground for repossession or occurred subsequent to repossession:

(1) Where the default is the result of the buyer's failure to make any payment due under the contract, the buyer or any other person liable on the contract shall make the defaulted payments and pay any applicable delinquency charges.

(2) Where the default is the result of the buyer's failure to keep and maintain the motor vehicle free from all encumbrances and liens of every kind, the buyer or any other person liable on the contract shall either satisfy all encumbrances and liens or, in the event the seller or holder satisfies the encumbrances and liens, the buyer or any other person liable on the contract shall reimburse the seller or holder for all reasonable costs and expenses incurred therefor.

(3) Where the default is the result of the buyer's failure to keep and maintain insurance on the motor vehicle, the buyer or any other person liable on the contract shall either obtain the insurance or, in the event the seller or holder has obtained the insurance, the buyer or any other person liable on the contract shall reimburse the seller or holder for premiums paid and all reasonable costs and expenses, including, but not limited to, any finance charge in connection with

the premiums permitted by Section 2982.8, incurred therefor.

(4) Where the default is the result of the buyer's failure to perform any other obligation under the contract, unless the seller or holder has made a good faith determination that the default is so substantial as to be incurable, the buyer or any other person liable on the contract shall either cure the default or, if the seller or holder has performed the obligation, reimburse the seller or holder for all reasonable costs and expenses incurred in connection therewith.

(5) Additionally, the buyer or any other person liable on the contract shall, in all cases, reimburse the seller or holder for all reasonable and necessary collection and repossession costs and fees incurred, including attorney's fees and legal expenses expended in retaking and holding the vehicle.

(e) If the seller or holder denies the right to reinstatement under subdivision (b) or paragraph (4) of subdivision (d), the seller or holder shall have the burden of proof that the denial was justified in that it was reasonable and made in good faith. If the seller or holder fails to sustain the burden of proof, the seller or holder shall not be entitled to a deficiency, but it shall not be presumed that the buyer is entitled to damages by reason of the failure of the seller or holder to sustain the burden of proof.

(f) This section shall not apply to a loan made by a lender licensed under Division 9 (commencing with Section 22000) or Division 10 (commencing with Section 24000) of the Financial Code.

CHAPTER 450

An act to amend Section 8610.5 of the Government Code, relating to emergencies, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 4, 1987. Filed with Secretary of State September 8, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 8610.5 of the Government Code is amended to read:

8610.5. The Office of Emergency Services, in consultation with the State Department of Health Services and affected counties, shall investigate the consequences of a serious nuclear powerplant accident for each of the four nuclear powerplants in California with a generating capacity of 50 megawatts or more. This study, to be completed within six months of the effective date of this section, shall include the preparation of specific site maps showing the areas likely to be affected by such an accident. These maps shall delineate Emergency Planning Zones, which shall reflect inhalation, ingestion, and other radiation pathways.

A similar study shall be made by the office for any subsequent nuclear powerplant with a generating capacity of 50 megawatts or more proposed for certification in California.

The Office of Emergency Services shall revise its Nuclear Power

Plant Emergency Response Plan to reflect the information provided in the study. The Office of Emergency Services shall assist local authorities in preparing or upgrading their emergency response plans to reflect its new planning guidelines. The state plan shall be updated within six months after the study has been made. Local plans shall be updated and approved by the Office of Emergency Services in accordance with the following: (1) an initial draft plan shall be submitted to the office within six months after the study has been made, and (2) a final plan shall be completed, reviewed, and approved within 18 months after the effective date of this section. Neither the state plan nor any local plan shall become effective or be implemented until approved by the Office of Emergency Services of this state or the Federal Emergency Management Agency.

The current State Nuclear Power Plant Emergency Response Plan shall continue in full force and effect unless and until revised pursuant to this section. Local plans shall remain in full force and effect unless and until revised pursuant to this section.

It is the intent of the Legislature that state and local costs related to carrying out the provisions of this section which are not reimbursed by federal funds shall be borne by the utility with existing nuclear powerplants having a generating capacity of 50 megawatts or more, and that local agencies shall be reimbursed for their costs incurred in preparing or updating their plans for the affected area surrounding these powerplants by the utility operating each powerplant. The Public Utilities Commission shall develop and transmit to the Office of Emergency Services an equitable method of assessing the utilities operating the powerplants for their reasonable pro rata share of state agency costs. Each local agency involved shall submit a statement of its costs in such manner as the Office of Emergency Services shall require. Upon each utility's notification by the Office of Emergency Services, from time to time, of the amount of its share of the actual or anticipated state and local agency costs, the utility shall pay such amount to the Controller for deposit in the Nuclear Planning Assessment Special Account, which is hereby created in the General Fund for use by the Controller, upon appropriation by the Legislature, to carry out this section. The Controller shall pay from this account the state and local costs relative to carrying out the provisions of this section upon certification thereof by the Office of Emergency Services. Each utility operating a nuclear powerplant shall, within one month of the effective date of this section, pay to the Controller for deposit into the Nuclear Planning Assessment Special Account the sum of twenty-five thousand dollars ($25,000) for each nuclear powerplant for the purpose of funding initial planning costs. Upon repeal of this section, any amounts remaining in the special account shall be refunded pro rata to the utilities contributing thereto. Commencing on the effective date of the amendment of this section during the 1987 portion of the 1987–88 Regular Session of the Legislature, the

total annual reimbursement of state and local costs from the utilities operating the nuclear powerplants within the state pursuant to this section shall not exceed the lesser of the actual costs or five hundred thousand dollars ($500,000) annually for state costs to be shared equally among the utilities and the lesser of the actual costs or one hundred thousand dollars ($100,000) per reactor unit annually for local costs. Of the five hundred thousand dollars ($500,000) for state costs, up to two hundred thousand dollars ($200,000) are in support of an annual interagency agreement between the Office of Emergency Services and the State Department of Health Services for activities of the department pursuant to this section. The amounts paid by privately owned utilities under this section shall be allowed for ratemaking purposes by the Public Utilities Commission. Publicly owned public utilities may include amounts paid under this section in their rates.

This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute which is chaptered on or before January 1, 1993, deletes or extends that date.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to fund emergency actions under the State Nuclear Power Plant Emergency Response Plan at the earliest possible time, it is necessary that this act take effect immediately.

driver of the vehicle on his immediate right.

(d) This section shall not apply at an intersection controlled by an official traffic control signal or yield right-of-way sign or controlled by stop signs but not from all directions, or to vehicles approaching each other from opposite directions when the driver of one of the vehicles is intending to or is making a left turn.

(e) The driver of a vehicle approaching an intersection that has official traffic control signals that are inoperative, shall stop and may proceed with caution when it is safe. When two vehicles enter an intersection that has official traffic control signals that are inoperative from different highways at the same time, the driver of the vehicle on the left shall yield the right-of-way to the driver of a vehicle on his or her right except that the driver of a vehicle on a terminating highway shall yield the right-of-way to the driver of any vehicle on the intersecting continuing cross highway.

SEC. 2. Section 22505 of the Vehicle Code is amended to read:

22505. (a) The Department of Transportation with respect to highways under its jurisdiction may place signs or markings prohibiting or restricting the stopping, standing, or parking of vehicles, including, but not limited to, vehicles which are six feet or more in height (including any load thereon), in any of the following areas and under the following conditions:

(1) In areas where, in its opinion, stopping, standing, or parking is dangerous to those using the highway or where the stopping, standing, or parking of vehicles would unduly interfere with the free movement of traffic thereon.

(2) In areas within one-half mile of the boundary of any unit of the state park system which the Director of Conservation has determined are unusually high fire hazard areas, upon notification of the Department of Transportation of such determination by the Director of Conservation.

(3) In areas within one-half mile of the boundary of any unit of the state park system which the county health officer has determined are areas where a substantial public health hazard would result if camping were allowed, upon notification of the Department of Transportation of such determination by the county health officer.

(b) No person shall stop, park, or leave standing any vehicle in violation of the restrictions stated on the signs or markings.

(c) This section does not apply to any of the following:

(1) Public utility vehicles while performing a work operation.

(2) The driver of any vehicle which is disabled in such a manner and to such an extent that it is impossible to avoid stopping, parking, or leaving the disabled vehicle standing on the roadway.

22506. Local authorities may by ordinance or resolution prohibit or restrict the stopping, standing, or parking of vehicles on a state highway, in their respective jurisdictions, if the ordinance or resolution is first submitted to and approved in writing by the Department of Transportation, except that where maintenance of

any state highway is delegated by the Department of Transportation to a city, the department may also delegate to the city the powers conferred on the department.

SEC. 4. Section 22507 of the Vehicle Code is amended to read:

22507. Local authorities may, by ordinance or resolution, prohibit or restrict the stopping, parking, or standing of vehicles, including, but not limited to, vehicles which are six feet or more in height (including any load thereon) within 100 feet of any intersection, on certain streets or highways, or portions thereof, during all or certain hours of the day. The ordinance or resolution may include a designation of certain streets upon which preferential parking privileges are given to residents and merchants adjacent to the streets for their use and the use of their guests, under which the residents and merchants may be issued a permit or permits which exempt them from the prohibition or restriction of the ordinance or resolution. With the exception of alleys, no such ordinance or resolution shall apply until signs or markings giving adequate notice thereof have been placed. A local ordinance or resolution adopted pursuant to this section may contain provisions which are reasonable and necessary to ensure the effectiveness of a preferential parking program.

CHAPTER 456

An act to amend Section 1204.1 of the Health and Safety Code, relating to clinics.

[Approved by Governor September 8, 1987. Filed with Secretary of State September 9, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 1204.1 of the Health and Safety Code is amended to read:

1204.1. In addition to the primary care clinics and specialty clinics specified in Section 1204, clinics eligible for licensure pursuant to this chapter include psychology clinics. A "psychology clinic" is a clinic which provides psychological advice, services, or treatment to patients, under the direction of a clinical psychologist as defined in Section 1316.5, and is operated by a tax-exempt nonprofit corporation which is supported and maintained in whole or in part by donations, bequests, gifts, grants, government funds, or contributions which may be in the form of money, goods, or services. In a psychology clinic, any charges to the patient shall be based on the patient's ability to pay, utilizing a sliding fee scale. No corporation other than a nonprofit corporation, exempt from federal taxation under paragraph (3), subsection (c) of Section 501 of the Internal Revenue Code of 1954, as amended, or a statutory successor thereof, shall

operate a psychology clinic.

Each psychology clinic licensed pursuant to this section shall comply with the provisions of Part 2 (commencing with Section 13100) of Division 12.

Only a psychology clinic may be licensed under this chapter to exclusively provide psychological advice, services, or treatment. However, nothing in this subdivision precludes clinics specified in Section 1204 from providing psychological advice, services, or treatment as included within, or adjunctive to, medical advice, services, or treatment provided by such clinics. Failure to comply with the requirements of this section may be grounds for denial, revocation, or suspension of the license.

CHAPTER 457

An act to amend Sections 931.5 and 1026 of, to amend and repeal Sections 13053 and 13054 of, and to repeal and add Section 805 of, the Unemployment Insurance Code, relating to unemployment insurance, and declaring the urgency thereof, to take effect immediately.

If the third-party payer provides the plan with the notification required by subdivision (a) within the time required, the plan, not the third-party payer, shall be treated as the

employer under subdivision (a). If within six business days after receipt of the notification the plan similarly notifies the last employer for whom the services are performed, and who is a plan member, that employer, not the plan, shall be required to report and pay the contributions due with respect to the wages.

(c) The employer, as determined by subdivision (a) or (b), shall pay contributions, required by this part, except as provided in Sections 984 and 986, and shall comply with the requirements of subdivision (a) of Section 1088.

SEC. 2. Section 1026 of the Unemployment Insurance Code is amended to read:

1026. (a) The director shall maintain a separate account for each employer, and shall credit each account with all the contributions paid on his or her behalf.

(b) Unemployment compensation benefits paid to an unemployed individual during any benefit year shall be charged against the account of his or her employer during his or her base period, but if the individual performed services in employment for more than one employer during his or her base period, unemployment compensation benefits paid to him or her shall be charged against the respective accounts of the employers in the proportion that the total wages paid to the individual in employment for each employer bears to the total wages paid to the individual in employment for all employers during the base period.

(c) The director shall credit the interest earned by the Unemployment Fund to each positive reserve employer account in proportion to the amount the account bears to the total of all positive reserve accounts.

(d) Except as provided by Sections 803, 804, 821, and 1032.7, and Chapter 5.8 (commencing with Section 1480), in proportion to the amount each employer's taxable wages bears to the total of all employers' taxable wages, the director shall credit to each employer account all of the following:

(1) Benefit overpayments collected in the four quarters prior to the computation date.

(2) Positive balances in reserve accounts canceled pursuant to

Section 1029.

(3) Other nontax income.

(e) Except as provided by Sections 803, 804, 821, and 1032.7, and Chapter 5.8 (commencing with Section 1480), in the same proportion as provided in subdivision (d), the director shall charge to each employer account all of the following:

(3) Benefits not charged to employer reserve accounts pursuant to Section 1032, 1032.5, 1034, 1035, 1036, 1335, 1338, or 1380.

(4) Other items of expense and benefit charges not included in active employer reserve accounts.

SEC. 3. Section 13053 of the Unemployment Insurance Code, as amended by Chapter 1475 of the Statutes of 1984, is amended to read:

13053. Every employer shall file an annual return with the department, on forms prescribed by the department, reporting the total tax withheld for the year pursuant to Section 13020 at the time prescribed by the director. The employer shall include with the return, in a manner prescribed by the director, duplicates of the statements required pursuant to Section 13050.

SEC. 4. Section 13053 of the Unemployment Insurance Code, as added by Chapter 1007 of the Statutes of 1980, is repealed.

SEC. 5. Section 13054 of the Unemployment Insurance Code, as amended by Chapter 1475 of the Statutes of 1984, is amended to read:

13054. If an employer fails to file the annual report of compensation paid and taxes withheld, required under Section 13053, on or before 30 days after notice has been given to the employer of his or her failure to file, unless the failure is due to reasonable cause, the employer, in addition to any other penalties imposed by this division and Part 10 (commencing with Section 17001) of Division 2 of the Revenue and Taxation Code, shall pay a penalty of two hundred fifty dollars ($250) or 100 percent of the tax amount required to be reported by Section 13053, whichever is less. The penalty shall be assessed and collected in the same manner as the tax.

SEC. 6. Section 13054 of the Unemployment Insurance Code, as added by Chapter 1007 of the Statutes of 1980, is repealed.

SEC. 7. Section 805 of the Unemployment Insurance Code is repealed.

SEC. 8. Section 805 is added to the Unemployment Insurance Code, to read:

805. An unregistered organization described in Section 608, and which has been determined by the Internal Revenue Service to be exempt under Section 501(a) as an organization described in Section 501(c)(3) of the Internal Revenue Code, may elect reimbursement financing under Section 801 when the director finds that it has good cause for failing to register as an employer under this division. The

election under Section 801 shall be from the time the organization became an employer. The organization shall, upon election, be liable for reimbursement of the cost of benefits chargeable to the organization from the time it became an employer. Payment of the cost of benefits shall be as provided in Section 803 except that benefits paid more than 30 days prior to the date of election under Section 801 shall accrue interest as provided in Section 1113. The election under Section 801 shall be subject to all provisions of Section 803.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to alleviate the financial hardship on nonprofit organization employers which have not participated in the payment of unemployment insurance under current law, it is necessary for this act to take effect immediately.

CHAPTER 460

An act to amend Section 1182.7 of the Labor Code, relating to wages, hours, and working conditions.

[Approved by Governor September 8, 1987 Filed with Secretary of State September 9, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1182.7 of the Labor Code is amended to read:

1182.7. (a) The Legislature finds that the time permitted the Industrial Welfare Commission to consider petitions, including, but not limited to, daily overtime compensation petitions that are to be given priority attention by the commission pursuant to Section 20 of Chapter 1083 of the Statutes of 1980, has created unanticipated and unwarranted delays in the review and possible modification of applicable commission orders. The Legislature finds further that legislation is necessary to provide redress of hardships resulting from these delays by the enactment of special commission review

procedures that augment, and do not limit in any way, the rights and privileges of parties before the Industrial Welfare Commission under this chapter.

(b) Notwithstanding any other provisions of this chapter to the contrary, if a labor organization or a trade association recognized in the health care industry files or has filed a petition with the commission that requests an amendment to an order of the commission that would directly regulate only the health care industry, the petitioner may request that the ordinary procedure established by this chapter for the review of petitions of this nature not be used and that the procedure specified in subdivisions (c) and (d) be followed instead. If the request is made by the petitioner, the commission shall be required to follow the procedure specified in subdivisions (c) and (d).

(c) Upon the filing of a request under subdivision (b), the procedure to revise an order of the commission provided in Sections 1178 to 1182, inclusive, shall be waived. In lieu of that procedure, the commission shall propose the adoption of or may reject the petition, in whole or in part, without appointing a wage board. The commission shall act on the petition within 45 days of the date the petition is originally filed. If the commission rejects the petition, it shall state its reasons for rejection.

The commission shall thereafter conduct hearings on any proposal to adopt the petition in whole or in part in the manner specified in subdivision (c) of Section 1178.5 and publish the proposed action in the manner provided in Section 1181. However, the hearings shall be conducted within 90 days of the date the petition is originally filed.

(d) Not more than 30 days following the hearings specified in subdivision (c), the commission shall take final action with respect to its proposal. No later than 15 days following final action, notice of the action taken shall be given in the manner provided for in Sections 1182.1 and 1183. Any action adopting, amending, or repealing an order of the commission pursuant to this section shall take effect 60 days following the date of this notice.

(e) Notwithstanding any other provisions of this chapter, the commission shall not adopt, amend, or repeal a proposal which has been changed from that which has originally been made available to the public, unless the change is nonsubstantive in nature and the commission complies with the procedure specified in this subdivision.

If a substantive change is made to the original proposal after the close of the public hearing, the full text of the resulting change shall be noticed within five days and made available to the public for comments for at least 10 days before the commission adopts, amends, or repeals the regulation. No later than 10 days following the close of the public comment period, the commission shall take final action with respect to its modified proposal, and give notice of that action within 10 days in the manner provided in Sections 1182.1 and 1183. In no case shall any action adopting, amending, or repealing an order

take effect more than 60 days following the close of the public comment period.

CHAPTER 461

An act to amend Sections 859b and 1050 of, and to add Section 1048.1 to, the Penal Code, relating to criminal procedure, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 9, 1987 Filed with Secretary of State September 9, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 859b of the Penal Code is amended to read:

859b. At the time the defendant appears before the magistrate for arraignment, if the public offense is a felony to which the defendant has not pleaded guilty in accordance with Section 859a, the magistrate, immediately upon the appearance of counsel, or if none appears, after waiting a reasonable time therefor as provided in Section 859, shall set a time for the examination of the case and shall allow not less than two days, excluding Sundays and holidays, for the district attorney and the defendant to prepare for the examination. The magistrate shall also issue subpoenas, duly subscribed, for witnesses within the state, required either by the prosecution or the defense.

Both the defendant and the people have the right to a preliminary examination at the earliest possible time, and unless both waive that right or good cause for a continuance is found as provided for in Section 1050, the preliminary examination shall be held within 10 court days of the date the defendant is arraigned or pleads, whichever occurs later.

Whenever the defendant is in custody, the magistrate shall dismiss the complaint if the preliminary examination is set or continued beyond 10 court days from the time of the arraignment or plea and the defendant has remained in custody for 10 or more court days solely on that complaint, unless either of the following occur:

(a) The defendant personally waives his or her right to preliminary examination within the 10 court days.

(b) The prosecution establishes good cause for a continuance beyond the 10-court-day period.

For purposes of this subdivision, "good cause" includes, but is not limited to, those cases involving allegations that a violation of one or more of the sections specified in paragraph (1) of subdivision (b) of Section 11165 or in subdivision (g) of Section 11165 has occurred and the prosecuting attorney assigned to the case has another trial, preliminary hearing, or motion to suppress in progress in that court or another court. Any continuance under this paragraph shall be

limited to a maximum of three additional court days.

If the preliminary examination is set or continued beyond the 10-court-day period, the defendant shall be released pursuant to Section 1318 unless:

(1) The defendant requests the setting of continuance of the preliminary examination beyond the 10-court-day period.

(2) The defendant is charged with a capital offense in a cause where the proof is evident and the presumption great.

(3) A witness necessary for the preliminary examination is unavailable due to the actions of the defendant.

(4) The illness of counsel.

(5) The unexpected engagement of counsel in a jury trial.

(6) Unforeseen conflicts of interest which require appointment of new counsel.

The magistrate shall dismiss the complaint if the preliminary examination is set or continued more than 60 days from the date of the arraignment or plea, unless the defendant personally waives his or her right to a preliminary examination within the 60 days.

SEC. 2. Section 1048.1 is added to the Penal Code, to read:

1048.1. In scheduling a trial date at an arraignment in superior court involving an alleged sexual assault offense, as described in paragraph (1) of subdivision (b) of Section 11165, or an alleged child abuse offense, as described in subdivision (g) of Section 11165, reasonable efforts shall be made to avoid setting that trial, as assigned to a particular prosecuting attorney, on the same day that another trial is set involving the same prosecuting attorney.

SEC. 3. Section 1050 of the Penal Code is amended to read:

1050. (a) The welfare of the people of the State of California requires that all proceedings in criminal cases shall be set for trial and heard and determined at the earliest possible time. To this end the Legislature finds that the criminal courts are becoming increasingly congested with resulting adverse consequences to the welfare of the people and the defendant. Excessive continuances contribute substantially to this congestion and cause substantial hardship to victims and other witnesses. Continuances also lead to longer periods of presentence confinement for those defendants in custody and the concomitant overcrowding and increased expenses of local jails. It is therefore recognized that the people, the defendant, and the victims and other witnesses have the right to an expeditious disposition, and to that end it shall be the duty of all courts and judicial officers and of all counsel, both for the prosecution and the defense, to expedite these proceedings to the greatest degree that is consistent with the ends of justice. In accordance with this policy, criminal cases shall be given precedence over, and set for trial and heard without regard to the pendency of, any civil matters or proceedings.

(b) To continue any hearing in a criminal proceeding, including the trial, (1) a written notice shall be filed and served on all parties to the proceeding at least two court days before the hearing sought to be continued, together with affidavits or declarations detailing

specific facts showing that a continuance is necessary; and (2), within two court days of learning that he or she has a conflict in the scheduling of any court hearing, including a trial, an attorney shall notify the calendar clerk of each court involved, in writing, indicating which hearing was set first. A party shall not be deemed to have been served within the meaning of this section until that party actually has received a copy of the documents to be served, unless the party, after receiving actual notice of the request for continuance, waives the right to have the documents served in a timely manner. Regardless of the proponent of the motion, the prosecuting attorney shall notify people's witnesses and the defense attorney shall notify defense's witnesses of the notice of motion, the date of the hearing, and the witnesses' right to be heard by the court. The superior and municipal courts of a county may adopt rules, which shall be consistent, regarding the method of giving the notice or waiver of service required by this subdivision, where a continuance is sought because of a conflict between scheduled appearances in the courts of that county.

(c) Notwithstanding subdivision (b), a party may make a motion for a continuance without complying with the requirements of that subdivision. However, unless the moving party shows good cause for the failure to comply with those requirements, the court may impose sanctions as provided in Section 1050.5.

(d) When a party makes a motion for a continuance without complying with the requirements of subdivision (b), the court shall hold a hearing on whether there is good cause for the failure to comply with those requirements. At the conclusion of the hearing the court shall make a finding whether good cause has been shown and, if it finds that there is good cause, shall state on the record the facts proved that justify its finding. A statement of the finding and a statement of facts proved shall be entered in the minutes. If the moving party is unable to show good cause for the failure to give notice, the motion for continuance shall not be granted.

(e) Continuances shall be granted only upon a showing of good cause. Neither the convenience of the parties nor a stipulation of the parties is in and of itself good cause.

(f) At the conclusion of the motion for continuance, the court shall make a finding whether good cause has been shown and, if it finds that there is good cause, shall state on the record the facts proved that justify its finding. A statement of facts proved shall be entered in the minutes.

(g) When deciding whether or not good cause for a continuance has been shown, the court shall consider the general convenience and prior commitments of all witnesses, including peace officers. Both the general convenience and prior commitments of each witness also shall be considered in selecting a continuance date if the motion is granted. The facts as to inconvenience or prior commitments may be offered by the witness or by a party to the case.

For purposes of this section, "good cause" includes, but is not

limited to, those cases involving allegations that a violation of one or more of the sections specified in paragraph (1) of subdivision (b) of Section 11165 or in subdivision (g) of Section 11165 has occurred and the prosecuting attorney assigned to the case has another trial, preliminary hearing, or motion to suppress in progress in that court or another court. A continuance under this paragraph shall be limited to a maximum of 10 additional court days.

(h) Upon a showing that the attorney of record at the time of the defendant's first appearance in the superior court is a Member of the Legislature of this state and that the Legislature is in session or that a legislative interim committee of which the attorney is a duly appointed member is meeting or is to meet within the next seven days, the defendant shall be entitled to a reasonable continuance not to exceed 30 days.

(i) A continuance shall be granted only for that period of time shown to be necessary by the evidence considered at the hearing on the motion. Whenever any continuance is granted, the court shall state on the record the facts proved that justify the length of the continuance, and those facts shall be entered in the minutes.

(j) Whenever it shall appear that any court may be required, because of the condition of its calendar, to dismiss an action pursuant to Section 1382, the court must immediately notify the Chairman of the Judicial Council.

(k) This section shall not apply when the preliminary examination is set on a date less than 10 court days from the date of the defendant's arraignment on the complaint, and the prosecution or the defendant moves to continue the preliminary examination to a date not more than 10 court days from the date of the defendant's arraignment on the complaint.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This bill, which provides for proper scheduling of certain felony criminal trials, and which provides for continuances for good cause, is necessary in order to provide a less threatening judicial environment for minors who are alleged victims in sexual assault or child abuse crimes by minimizing the number of prosecuting attorneys that the minors will face, thereby enabling them to speak freely and accurately of the experiences to which they were subjected. In order to achieve its intended results, it is necessary that this act take effect immediately.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act implements a federal law or regulation and involves only "costs mandated by the federal government," as defined by Section 17513 of the Government Code.

Failure to comply with the requirements of this section relating to the assignment of court reporters who use computer-aided transcription equipment shall not be a ground for reversal.

CHAPTER 469

An act to add Sections 66780.9 and 66780.10 to the Government Code, relating to solid waste.

[Approved by Governor September 9, 1987 Filed with Secretary of State September 9, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 66780.9 is added to the Government Code, to read:

66780.9. In addition to the other requirements of this title, a solid waste management plan prepared pursuant to Section 66780 for the County of Los Angeles shall, at the next revision of the plan occurring

on or after January 1, 1988, and at any subsequent revisions, be amended to identify a program and schedule for ensuring, to the extent feasible and appropriate for the county, the equitable regional distribution of solid waste management sites which are identified and reserved in the county solid waste management plan. Determination of equitable regional distribution shall be based upon, but not limited to, the findings of the study required by subdivision (d) of Section 66780.10 concerning the quantities of solid waste generated and disposed of within each major region of the county.

SEC. 2. Section 66780.10 is added to the Government Code, to read:

66780.10. (a) The Legislature finds that Los Angeles County has located, or is proposing to locate, an inordinate number of solid waste management facilities within a few regions of the county, and that, given the difficulty of acquiring new facilities, these regions may ultimately contain a disproportionate share of these facilities.

(b) The Legislature also finds that the inequitable regional distribution of solid waste management facilities within the county can cause detrimental environmental and societal impacts upon the region where numerous solid waste management facilities are located.

(c) The Legislature further finds that it is in the public interest to promote an equitable fair share approach to solid waste management, in which no one region becomes the waste repository for numerous other regions of the County of Los Angeles. As the most populous county in the state, the County of Los Angeles is especially suitable to serve as the subject of the study required by subdivision (d).

(d) On or before July 1, 1988, the board and the County Sanitation Districts of the County of Los Angeles shall jointly conduct a study of specified aspects of solid waste management in the County of Los Angeles and shall submit a report to the Legislature concerning the findings and recommendations resulting from the study. The study shall include all of the following:

(1) An assessment of the quantities of solid waste generated in each of the major regions of the county, as specified in subdivisions (f) and (g).

(2) An assessment of the quantities of solid waste disposed of in each of the major regions of the county.

(3) Where a region in the county is found to provide disposal for a significantly greater or lesser amount of solid waste than that generated in the region, recommended measures to provide a more equitable distribution of sites. For purposes of this subdivision, a "significantly greater" amount of solid waste means the disposal of solid waste in excess of 125 percent of the amount of waste generated in the region, and a "significantly lesser" amount of solid waste means the disposal of less than 75 percent of the solid waste generated in the region.

(4) Where a region is found to provide disposal for a significantly

greater or lesser amount of solid waste than that generated in the region, a discussion of the impacts of that disposal upon the region.

(5) An assessment of the feasibility of diversifying solid waste management methods to minimize air quality impacts and negative environmental impacts upon regions of the county which dispose of significantly greater amounts of solid waste than are generated within the region.

(e) In conducting the study required by this section, the County Sanitation Districts of the County of Los Angeles shall use existing geologic data and surveys to assess the suitability of possible new solid waste disposal sites, and shall utilize, to the extent feasible, existing information on solid waste disposal within the county which is available as part of the ongoing solid waste management planning activities of the County of Los Angeles.

(f) For the purposes of this section and Section 66780.9, the major regions of the County of Los Angeles are the following:

(1) The San Gabriel Valley.

(2) The San Fernando Valley.

(3) North Los Angeles County.

(4) Central and West Los Angeles County.

(5) Southeastern Los Angeles County.

(6) Bay Cities/Los Angeles Harbor area.

(g) For the purposes of analyzing waste generation and disposal patterns as required by this section, the County Sanitation Districts of the County of Los Angeles may determine and specify the boundaries of the major regions specified in subdivision (f). For purposes of analyzing data on existing solid waste disposal patterns, data shall be developed according to region, waste shed, or other appropriate boundaries.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund, except that no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs for which the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 470

An act to amend Section 1194.6 of, and to add Section 1211.5 to, the Insurance Code, relating to insurance, and making an appropriation therefor.

The people of the State of California do enact as follows:

SECTION 1. Section 1194.6 of the Insurance Code is amended to read:

(2) Payment in full of any bond, note, or other evidence of indebtedness is guaranteed by the domestic corporation.

(3) Any bond, note, or other evidence of indebtedness is evaluated by the National Association of Insurance Commissioners as a bond which may be carried at amortized cost.

(4) The life insurer shall, prior to or within five business days after purchase, enter into a contract with a qualified bank pursuant to which the bank agrees to exchange the payments made on the nondollar denominated investment for the term of the investment for United States currency at a rate approximating the prevailing exchange rate at the time of the purchase. For purposes of this subdivision, a qualified bank means a bank the accounts of which are insured by an agency or instrumentality of the federal government or which is a member of the Federal Reserve System and a bank that has a net worth equal to or in excess of two hundred fifty million dollars ($250,000,000) as shown on its most recently published financial statements.

(c) "Domestic," as used in this section, means organized under the laws of any state, or of the United States or of the District of Columbia.

SEC. 2. Section 1211.5 is added to the Insurance Code, to read:

1211.5. Any domestic incorporated life insurer having admitted assets as of the preceding December 31, of at least one billion dollars ($1,000,000,000), after investing an amount equal to its required minimum paid-in capital in securities specified in Article 3 (commencing with Section 1170), may invest in, for purposes of bona fide hedging transactions, the purchase and sale of exchange traded options on stock indices, stock index futures contracts, or options on stock index futures contracts, pursuant to this section.

(b) With respect to anticipated common stock positions, the life insurer may, for purposes of hedging, buy call options on the Standard and Poors 500 Index, the Standard and Poors 100 Index, or any other index approved by the commissioner; and buy stock index futures contracts on the Standard and Poors 500 Index. Except with the prior approval of the commissioner, an investment shall not be made under the authority of this subdivision if, at the time of its making, the investment would result in the life insurer hedging anticipated common stock positions in an amount exceeding 5 percent of admitted assets. The life insurer may sell call options on those indices or sell stock index futures contracts pursuant to this subdivision and only for the purpose of a closing transaction. All transactions authorized herein shall be made through an exchange.

(c) The investments in bona fide hedging transactions set forth in subdivisions (a) and (b) shall not be made, unless upon execution, the option or contract is specifically identified with existing common stocks as authorized in subdivision (a) or anticipated common stock positions as authorized in subdivision (b), and the option or contract has a positive correlation (prices tend to move in the same direction with a reasonably similar magnitude) with the identified common stocks or anticipated common stock positions.

(d) A life insurer shall not engage in bona fide hedging transactions and positions in options on stock indices, stock index futures contracts, or options on stock index futures contracts except pursuant to this section.

The commissioner shall require the payment of a one thousand dollar ($1,000) fee for the determination of whether to approve or disapprove the request to exceed the limitation.

(f) Investments made pursuant to this section shall be subject to the provisions of Sections 1153.5, 1154, 1200, 1201, and 1202 as if they were excess fund investments.

[Approved by Governor September 9, 1987. Filed with Secretary of State September 9, 1987]

The people of the State of California do enact as follows:

SECTION 1. Part 2.7 (commencing with Section 10700) is added to Division 6 of the Water Code, to read:

PART 2.7. GROUNDWATER RESOURCES

10700. This part applies only to the area within the existing boundaries of the Mendocino City Community Services District.

10701. (a) As used in this part, "local agency" means any city, county, district, agency, or other political subdivision of the state for the local performance of governmental or proprietary functions within limited boundaries.

(b) As used in this part, "groundwater" and "groundwater resources" do not include those subsurface waters incidentally produced in connection with or as a result of natural resource extraction activities when the disposal of those subsurface waters is regulated by state or federal law.

10702. Any local agency which is authorized by law to provide water services may, by ordinance, or by resolution if the local agency is not authorized to act by ordinance, establish programs for the management of groundwater resources.

10703. Prior to the adoption of a groundwater management program, the governing board of the local agency shall hold a public hearing, after publication of notice pursuant to Section 6066 of the Government Code, on the proposed groundwater management program. At the hearing, the board may alter the program or require further study on the program and continue the hearing. At the conclusion of the hearing, the board may adopt a resolution of intention to adopt and implement the program.

10704. After the conclusion of the hearing, and if the governing

board adopts a resolution of intention, copies of the groundwater management program shall be published in a newspaper of general circulation. Upon written request, any interested person shall be provided with a copy of the program.

10705. After the adoption of a resolution of intention, the governing board shall hold a second hearing and consider protests to the implementation of the program. Any interested person may appear to be heard concerning any matter set forth in the resolution or matters material thereto. Any time prior to the conclusion of the hearing, any eligible registered voter of the local agency may file a written protest or withdraw a protest previously filed.

10706. A majority protest shall be determined to exist if the governing board finds that the protests filed and not withdrawn prior to the conclusion of the second hearing represent more than 50 percent of the eligible registered voters residing within the boundaries of the local agency.

If the governing board finds that a majority protest exists, the groundwater management program shall be abandoned and no new program shall be considered by the board for a period of one year following the date of the second hearing. If a majority protest has not been filed, the board, within 35 days after the conclusion of the second hearing, may adopt an ordinance or resolution to implement the program.

10707. A local agency authorized to establish programs for the management of groundwater resources pursuant to this part may for that purpose enter into a joint powers agreement pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code.

10708. A local agency which establishes a program for the management of groundwater resources pursuant to this part may fix and collect rates for the extraction of groundwater to pay expenses incurred by the local agency for purposes of groundwater management.

10709. For purposes of groundwater management, a local agency authorized to establish programs for the management of groundwater resources pursuant to this part may, in addition to the powers set forth in this act, exercise any of the powers of a water replenishment district under Part 4 (commencing with Section 60220) of Division 18 and may levy a water replenishment assessment in accordance with Part 6 (commencing with Section 60300) of Division 18.

10710. Before a local agency may levy a water replenishment assessment as authorized in Section 10709 or may otherwise fix and collect rates for the extraction of groundwater pursuant to this part, the local agency shall hold an election on the proposition of whether or not the local agency shall be authorized to levy a water replenishment assessment or to fix and collect rates for the extraction of groundwater, and a majority of the votes cast at the election shall be in favor of the proposition. The election shall be conducted in the

manner prescribed by the principal act of the local agency.

10711. No local agency shall exercise the powers authorized by this part within the boundaries of another local agency authorized by law to provide water service to any or all of the lands within its boundaries, without the prior agreement of the governing body of that other local agency.

10712. No local agency shall exercise the powers authorized by this part within the boundaries of another local agency providing water service to any or all of the lands within its boundaries, without the prior agreement of the governing body of that other local agency.

10713. If a local agency annexes land subject to a groundwater management program of another local agency, the local agency annexing the land shall continue to comply with the groundwater management program for the annexed property.

10714. This part neither preempts, negates, affects, nor infers the existence of any powers of a local agency in other groundwater basins of the state to establish programs for the management of groundwater resources.

10715. This part is in addition to, and not a limitation on, any powers of a local agency otherwise granted by law.

10716. This part does not exempt any local agency formed under any act requiring the approval of its leases, contracts, or issuance of securities by the Treasurer from obtaining the report, investigation, and approval of the Treasurer as required by that act or by the District Securities Investigation Law of 1965.

10717. A local agency shall no longer be authorized to exercise the powers conferred by this part upon the completion and implementation of a municipal central water system supplying water to the inhabitants within the boundaries of the local agency.

The authority may also issue bonds for the purpose of making loans to local agencies, to the extent those local agencies are authorized by law to borrow moneys, and the loan proceeds shall be used by the local agencies to pay for public capital

improvements, working capital, or insurance programs.

In the case of any authority in existence on January 1, 1988, no loans shall be made to local agencies for working capital or insurance, unless that purpose is first approved by resolution of the governing body of the authority by unanimous vote of all members of the governing body.

SEC. 6. Section 6591 of the Government Code is amended to read:

These revenues or moneys may include the proceeds of additional bonds, subject only to any agreements with the holders of particular bonds pledging any particular revenues or moneys. Pending preparation of the definitive bonds, the authority may issue interim receipts, certificates, or temporary bonds which shall be exchanged for definitive bonds.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

(2) A representative of the area agency on aging designated pursuant to Public Law 94-135 or, if none, a county agency responsible for services to senior citizens.

CHAPTER 483

An act to add Section 9309.1 to the Welfare and Institutions Code, relating to seniors.

[Approved by Governor September 9, 1987 Filed with Secretary of State September 9, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature recognizes the public benefit of the congregate and home-delivered meals programs for elderly persons, by improving the general health of participants and reducing their respective health care costs. Currently, service providers have an

ongoing responsibility to operate efficiently and improve their productivity. Many nutrition sites have developed cost-efficient reservation systems to minimize the number of leftover congregate meals and programs to deliver unserved meals to homebound seniors. The Legislature also recognizes the need for ensuring food safety and sanitation of food served to older persons to reduce the risk of food-borne illness from food contamination and spoilage. The Legislature finds and declares that the development of policies and guidelines for maximizing food safety and minimizing food waste shall increase consistency among nutrition programs statewide.

SEC. 2. Section 9309.1 is added to the Welfare and Institutions Code, to read:

9309.1. The department shall, in consultation with nutrition site directors and area agencies on aging, develop policies and guidelines for senior nutrition sites that ensure food safety and that maximize the use of leftover meals and food products. The guidelines shall include, but not be limited to, senior education programs on good nutrition and handling, storage of leftover foods, and reviewing current nutrition site reservation procedures.

[Approved by Governor September 9, 1987. Filed with Secretary of State September 9, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 22441 of the Business and Professions Code is amended to read:

(c) "Compensation" means money, property, or anything else of value.

(d) Every person engaged in the business or acting in the capacity of an immigration consultant shall only offer nonlegal assistance or advice in an immigration matter as defined in subdivision (a). Any act in violation of subdivision (a) is a violation of this chapter.

SEC. 2. Section 22442 of the Business and Professions Code is amended to read:

22442. (a) Every person engaged in the business or acting in the capacity of an immigration consultant who enters into a contract or agreement with a client to provide services shall, prior to providing any services, provide the client with a written contract, the contents of which shall be prescribed by the Department of Consumer Affairs in regulations adopted by it.

(d) The provisions of the written contract shall be stated both in English and in the language of the client.

(f) A violation of this section is a misdemeanor.

(g) This section does not apply to employees of nonprofit, tax-exempt corporations who help clients, free of charge or for a fee, including reasonable costs, consistent with that authorized by the United States Immigration and Naturalization Service for qualified designated entities, complete application forms in an immigration matter.

(c) Actions brought under this chapter shall be set for trial at the earliest possible date, and shall take precedence over all other cases, except older matters of the same character and matters to which special preference may be given by law.

SEC. 4. If any provision of this act or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to effectuate the purposes of this act prior to final implementation of the recently enacted Immigration Reform and Control Act, it is necessary that this act take effect immediately.

CHAPTER 485

An act to amend Section 7059 of the Business and Professions Code, relating to contractors.

[Approved by Governor September 9, 1987 Filed with Secretary of State September 9, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 7059 of the Business and Professions Code is amended to read:

7059. (a) The board may adopt reasonably necessary rules and regulations to effect the classification of contractors in a manner consistent with established usage and procedure as found in the construction business, and may limit the field and scope of the operations of a licensed contractor to those in which he or she is classified and qualified to engage, as defined by Sections 7055, 7056, 7057, and 7058. A licensee may make application for classification and

be classified in more than one classification if the licensee meets the qualifications prescribed by the board for such additional classification or classifications. The application shall be in a form as prescribed by the registrar and shall be accompanied by the application fee fixed by this chapter. No license fee shall be charged for an additional classification or classifications.

Nothing contained in this section shall prohibit a specialty contractor from taking and executing a contract involving the use of two or more crafts or trades, if the performance of the work in the crafts or trades, other than in which he or she is licensed, is incidental and supplemental to the performance of the work in the craft for which the specialty contractor is licensed.

(b) In public works contracts, as defined in Section 1101 of the Public Contract Code, the awarding authority shall determine the license classification necessary to bid and perform the project. In no case shall the awarding authority award a prime contract to a specialty contractor whose classification constitutes less than a majority of the project. When a specialty contractor is authorized to bid a project, all work to be performed outside of his or her license specialty, except work authorized by subdivision (a), shall be performed by a licensed subcontractor in compliance with the Subletting and Subcontracting Fair Practices Act (Chapter 4 (commencing with Section 4100) of Part 1 of Division 2 of the Public Contract Code).

CHAPTER 486

An act relating to the State Coastal Conservancy.

[Approved by Governor September 9, 1987 Filed with Secretary of State September 10, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares all of the following:

(a) That the State Coastal Conservancy has been given a mandate by the Legislature for restoration of the state's urban waterfronts on those projects provided pursuant to the Urban Waterfront Restoration Act of 1981 (Chapter 7 (commencing with Section 31300) of Division 21 of the Public Resources Code), including those projects which help to alleviate some of the problems that are contributing to the decline of the commercial fishing industry.

(b) That the State Coastal Conservancy was designated by the Legislature in 1981 as the lead agency to carry out the goals of the Urban Waterfront Restoration Act of 1981 to revitalize coastal areas and coastal dependent industries such as the commercial fishing industry.

(c) That the State Coastal Conservancy has already demonstrated experience in studying actions necessary for the economic viability of the commercial fishing industry as evidenced by their completion of the 1984 study of commercial fishing facilities which was previously mandated by the Legislature in Chapters 1336 and 1617 of the Statutes of 1982.

(d) That the State Coastal Conservancy already has existing legislative authority to coordinate the activities of all other state agencies and all federal agencies that have programs affecting California's urban waterfronts in order to increase efficiency and minimize duplication of programs under Chapter 7 (commencing with Section 31300) of Division 21 of the Public Resources Code.

(e) That the San Francisco Bay and the Sacramento-San Joaquin Delta provide an important nursery and habitat for anadromous fisheries, such as salmon, steelhead, striped bass, and other commercial and recreational fisheries.

SEC. 2. The Legislature further finds and declares all of the following:

(a) The fishing industry has been an essential part of California's economy and the state should act to reverse the trend towards industry obsolence.

(b) California's fishing industry is at a considerable disadvantage in competing with other fishing nations because harvesting, handling, and processing facilities are largely outmoded and inefficient. California's fishermen have to travel to foreign countries to learn about gear development methods and new harvesting and handling techniques.

(c) New markets have to be developed for underutilized species such as Pacific whiting and mackerel, to meet the growing demand for low priced seafood products.

(d) No quality control standards exist to ensure consumer health and safety and maximize full use of the catch. The consumer lacks educational information on the availability and proper storage and preparation of fish products.

(e) The state's interest in protecting the quality of marine ecology is equally important in light of the increased use of California waters for waste and toxic disposal, oil exploration, undersea mining, shipping, and recreational activities.

(f) There is no centralized location for the compilation and management of research data from regulatory agencies and marine biologists.

(g) A research and training center in this state would help modernize the fishing industry, promote safety for fishermen, preserve an adequate supply of fish for commercial and sports fishing, as well as other marine species, and develop marine-related industries through applied and academic research to be conducted at the center's laboratories and conference facilities and showrooms would be available for training and dissemination of information on fisheries and marine ecology of the delta and San Francisco Bay.

SEC. 3. Notwithstanding any other law, the State Coastal Conservancy may carry out a feasibility study for a commercial fishing and marine environmental research and center for the study of San Francisco Bay and the delta, and may consider allocating a sum of up to two hundred thousand dollars ($200,000) to fund the feasibility study from money available to it during the 1986–87 or 1987–88 fiscal year for urban waterfront restoration.

SEC. 4. The study shall evaluate the feasibility of locating the Fisheries and Environmental Research Center at Pier 45, Port of San Francisco, on property already available to the State of California for its use under the terms of The Burton Act (Chapter 1333, Statutes of 1968) which provides that San Francisco waterfront properties shall be held by the City and County of San Francisco for purposes of commerce, navigation, and fishing.

SEC. 5. The study shall also evaluate the need for satellite center facilities in Eureka and other potential north coast sites and in southern California in either San Pedro or San Diego.

SEC. 6. The feasibility study shall identify possible uses and activities for a research facility specializing in applied research for commercial fishing industry.

SEC. 7. In carrying out the feasibility study, the conservancy shall consult and coordinate with the California Sea Grant College Program, the University of California, and other research facilities to avoid duplication and to maximize the state's funding of research in fisheries and in the ecology of the delta and San Francisco Bay.

SEC. 8. The study shall identify user groups and organizations, physical space required, organization and management options, preliminary cost estimates, possible funding options from both private and public sources, and regulatory requirements. The conservancy may contract for those portions of the study requiring technical expertise not available within its staff.

If the feasibility study is authorized by the State Coastal Conservancy, it shall report the results to the Legislature within one year from the date of enactment of this act.

CHAPTER 487

An act to amend Section 25173.5 of the Health and Safety Code, relating to hazardous waste.

[Approved by Governor September 9, 1987. Filed with Secretary of State September 10, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 25173.5 of the Health and Safety Code is amended to read:

25173.5. (a) Except as provided in subdivision (b), the legislative

body of a city or county may impose and enforce a tax, for general purposes, or may impose a user fee on the operation of an offsite, multiuser hazardous waste facility located within the jurisdiction of the city or county. The tax or the user fee imposed shall not exceed 10 percent of the facility's annual gross receipts for the treatment, storage, or disposal of hazardous waste at the facility.

If a city or county imposes a tax pursuant to this section, the city or county may use the revenues collected from the tax to fund those activities reasonably necessary for the city or county to carry out its duties related to the operation of the hazardous waste facility upon which the tax is imposed and for support of the city's or county's fire and emergency response capabilities and emergency medical services, to the extent the city or county determines that this funding should be given priority.

(b) A city or county shall not impose a tax or a user fee adopted pursuant to subdivision (a) upon any of the following:

(1) An existing hazardous waste facility for which a tax is authorized pursuant to Section 25149.5.

(2) That portion of the gross receipts of the hazardous waste facility that derives from the recycling of hazardous wastes or the treatment of infectious wastes.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 488

An act to amend Section 22514 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 9, 1987 Filed with Secretary of State September 10, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 22514 of the Vehicle Code is amended to read:

22514. No person shall stop, park, or leave standing any vehicle within 15 feet of a fire hydrant except as follows:

(a) If the vehicle is attended by a licensed driver who is seated in the front seat and who can immediately move such vehicle in case of necessity.

(b) If the local authority adopts an ordinance or resolution reducing that distance. If the distance is less than 10 feet total length when measured along the curb or edge of the street, the distance

shall be indicated by signs or markings.

(c) If the vehicle is owned or operated by a fire department and is clearly marked as a fire department vehicle.

CHAPTER 489

An act to amend Sections 1596.881, and 1596.882 of the Health and Safety Code, relating to employment.

The people of the State of California do enact as follows:

SECTION 1. Section 1596.881 of the Health and Safety Code is amended to read:

1596.881. No employer shall discharge, demote, or suspend, or threaten to discharge, demote, or suspend, or in any manner discriminate against any employee who takes any of the following actions:

(a) Makes any good faith oral or written complaint of the violation of any licensing or other laws by the employer to the State Department of Social Services or other agency having statutory responsibility for enforcement of the law or to the employer or representative of the employer.

(b) Institutes, or causes to be instituted, any proceeding against the employer in relation to the violation of any licensing or other laws.

(c) Is, or will be, a witness or testify in a proceeding in relation to the violation of any licensing or other laws.

(d) Refuses to perform work in violation of a licensing law or regulation after notifying the employer of the violation.

Employees shall be notified in writing at the time of employment of their rights under this chapter, as evidenced by their signature on a notification form outlining actions protected by this section. Forms to be utilized for this purpose shall be kept on file at the facility. The department shall provide each facility with the notification forms, which shall include information regarding enforcement pursuant to relevant Labor Code sections.

"Other laws" for the purposes of this section, includes, but is not limited to, laws relating to staff-child ratios, transportation of children, or child abuse.

SEC. 2. Section 1596.882 of the Health and Safety Code is amended to read:

1596.882. (a) A claim by the employee alleging the violation by the employer of Section 1596.881 shall be presented to the employer within 45 days after the action as to which complaint is made and presented to the Division of Labor Standards Enforcement not later

than 90 days after the action as to which complaint is made.

(b) Upon receipt of the complaint, the Division of Labor Standards Enforcement shall cause whatever investigation to be made as it deems appropriate.

(c) If upon investigation the Division of Labor Standards Enforcement determines that the employer has violated Section 1596.881, it shall bring an action in any appropriate court against the employer.

(d) In any such action, the court shall have jurisdiction, for cause shown, to issue restraining orders and order all appropriate relief, including rehiring and reinstatement of the employee of his or her former position with backpay and benefits.

(e) Within 30 days of the receipt of a complaint pursuant to this section, the Division of Labor Standards Enforcement shall review the facts of the employee's complaint and either set a hearing date or notify the employee and the employer of its decision. Where necessary, the Division of Labor Standards Enforcement shall begin the appropriate court action to enforce the decision.

(f) Except for any grievance procedure or arbitration or hearing that is available to the employee pursuant to a collective bargaining agreement, this section is the exclusive means for presenting claims under this article.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 490

An act to add Section 5651.5 to the Welfare and Institutions Code, relating to mental health.

[Approved by Governor September 9, 1987. Filed with Secretary of State September 10, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 5651.5 is added to the Welfare and Institutions Code, to read:

5651.5. Every county shall, in its annual mental health planning process, consider senior peer counseling in developing its mental health program. This consideration shall include the pros and cons of such a program for the county and the current or future plans of instituting such a program within the county.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act

contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 491

An act to add Section 40709.5 to the Health and Safety Code, relating to air pollution.

[Approved by Governor September 9, 1987. Filed with Secretary of State September 10, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 40709.5 is added to the Health and Safety Code, to read:

40709.5. (a) Any district which has established a system pursuant to Section 40709 by which reductions in emissions may be banked or otherwise credited to offset future increases in the emissions of air contaminants, or which utilize a calculation method which enables internal emission reductions to be credited against increases in emissions, and as of January 1, 1988, is within a federally designated nonattainment area for one or more air pollutants, shall develop and implement a program which, at a minimum, provides for all of the following:

(1) Identification and tracking of sources possessing emission credit balances accruing from the elimination or replacement of older, higher emitting equipment.

(2) Periodic analysis of the increases or decreases in emissions which occur when credits are used to bring new or modified emission sources into operation.

SEC. 9. Section 830 of the Revenue and Taxation Code is amended to read:

830. (a) The property statement shall be filed with the board annually by March 1, and shall be in such detail as the board may prescribe.

Except as hereinafter provided, if any person fails to file the property statement, in whole or in part, by March 1, or by that later date to which the filing period is extended pursuant to Section 830.1, a penalty shall be added to the full value of the assessment of so much of the property as is not timely reported as follows:

(1) For any part of the property statement relating to the development of the unit value of operating property, the penalty shall be 10 percent of the unit value.

(2) For any part of the property statement that lists or describes specific operating property, the penalty shall be 10 percent of the allocated value of the property, which penalty shall be added to the unit value.

(3) For any part of the property statement that lists or describes specific nonunitary property, the penalty shall be 10 percent of the value of the property.

(4) If the failure to timely file a property statement is due to a fraudulent or willful attempt to evade the tax, a penalty of 25 percent of the assessed value of the estimated assessment shall be added to the assessment. A willful failure to file a property statement as required by Article 5 (commencing with Section 826) shall be deemed to be a willful attempt to evade the tax.

(5) No penalty added pursuant to paragraph (1), (2), (3), or (4) shall exceed twenty million dollars ($20,000,000) of full value. In addition, if a penalty has been added pursuant to paragraph (1), (2), or (3), a claim for refund seeking the recovery of that penalty has been filed by the state assessee contesting the penalty within three months of the due date of the second installment, and the state assessee initiates an action in the superior court within one year of the filing of the claim for refund, the state assessee shall not be subject to any further penalties on subsequent assessments for failure

to comply with any subsequent request seeking information or data with respect to the same issue as set forth in the claim for refund filed within the time limits set forth above, until the assessment year after a final decision of the court, and then only with respect to a failure to comply with a request for information with respect to assessments after a final decision of the court. For purposes of this paragraph, "same issue" means the type of information which is the subject of the disputed request for information.

(b) Any person who subscribes to the board's tax rate area change service and receives a change mailed between April 1 and May 1, shall file a corrected statement no later than May 30 with respect to those parts of the property statement which are affected by the change.

If such person receives a change mailed after May 1, a corrected statement shall be filed no later than the 60th day following the mailing of such change.

(c) Penalties incurred for filings received after June 30 may be included with the assessments for the succeeding fiscal year.

(d) If the assessee establishes to the satisfaction of the board that the failure to file the property statement or any of its parts within the time required by this section was due to reasonable cause and occurred notwithstanding the exercise of ordinary care and the absence of willful neglect, the board shall order the penalty abated, provided the assessee has filed with the board written application for abatement of the penalty within the time prescribed by law for the filing of applications for assessment reductions.

SEC. 10. Section 1603 of the Revenue and Taxation Code is amended to read:

1603. (a) A reduction in an assessment on the local roll shall not be made unless the party affected or his or her agent makes and files with the county board a verified, written application showing the facts claimed to require the reduction and the applicant's opinion of the full value of the property. The form for the application shall be prescribed by the State Board of Equalization.

(b) The application shall be filed within the time period beginning July 2 and continuing through and including September 15. An application that is mailed and postmarked September 15 or earlier within that period shall be deemed to have been filed within the time period beginning July 2 and continuing through and including September 15. For the 1979–80 fiscal year only, the September 15 deadline shall be extended to October 1.

(c) However, the application may be filed within 12 months following the month in which the assessee is notified of the assessment, if the party affected or his or her agent and the assessor stipulate that there is an error in the assessment as the result of the exercise of the assessor's judgment in determining the full cash value of the property and a written stipulation as to the full cash value and assessed value is filed in accordance with Section 1607.

(d) In the form provided for making application pursuant to this

section, there shall be a notice that written findings of facts of the local equalization hearing will be available upon written request at the requester's expense and, if not so requested, the right to such written findings is waived. The form shall provide appropriate space for the applicant to request written findings of facts as provided by Section 1611.5.

SEC. 11. Section 1603.1 of the Revenue and Taxation Code is repealed.

SEC. 12. Section 2611.5 of the Revenue and Taxation Code is amended to read:

(4) The amount of any special taxes and special assessments levied.

(5) The amount of any tax rate reduction pursuant to Section 100 of this code, with the notation: "Tax reduction by (name of jurisdiction)."

(8) Instructions on tendering payment, including the name and mailing address of the tax collector.

SEC. 13. Section 11451 of the Revenue and Taxation Code is repealed.

SEC. 14. Section 11451 is added to the Revenue and Taxation Code, to read:

11451. (a) If any person is delinquent in the payment of the amount required to be paid by him or her or in the event a determination has been made against him or her which remains unpaid, the board may, not later than four years after the payment became delinquent, or within 10 years after the last recording of an abstract under Section 11495 or the last recording or filing of a notice of state tax lien under Section 7171 of the Government Code, give notice thereof personally or by first-class mail to all persons, including any officer or department of the state or any political subdivision or agency of the state, having in its possession or under its control any credits or other personal property belonging to the delinquent, or person against whom a determination has been made which remains unpaid, or owing any debts to the delinquent or that

person. In the case of any state officer, department, or agency, the notice shall be given to the officer, department, or agency prior to the time it presents the claim of the delinquent taxpayer to the Controller. After receiving the notice, the persons so notified shall neither transfer nor make any other disposition of the credits, other personal property, or debts in their possession or under their control at the time they receive the notice until the board consents to a transfer or disposition or until 60 days elapse after the receipt of the notice, whichever period expires earlier. All persons so notified shall forthwith, after receipt of the notice, advise the board of all the credits, other personal property, or debts in their possession, under their control, or owing by them.

(b) If the notice seeks to prevent the transfer or other disposition of a deposit in a bank or a state or federal savings and loan association or other credits or personal property in the possession or under the control of a bank or a state or federal savings and loan association, the notice to be mailed shall state the amount, interest, and penalty due from the person and shall be delivered or mailed to the branch or office of the bank or the state or federal savings and loan association at which the deposit is carried or at which the credits or personal property is held. A bank, a state or federal savings and loan association, or a state or federal credit union withholding any deposit or other credits or personal property required to be withheld in which the delinquent taxpayer and another person or persons have an interest, or held in the name of a third party or parties in which the delinquent taxpayer is ultimately determined to have no interest, is not liable therefor to any of the persons who have an interest in the deposit or other credits or personal property unless the deposit or other credits or personal property is released or transferred to the delinquent taxpayer.

(c) In the case of a deposit or other credits or personal property for which the transfer or other disposition is prevented, the depository institution required to prevent transfer or other disposition shall send a notice by first-class mail to each person named on a deposit, other credits, or personal property included in the notice from the board, provided a current address for each person is available to the depository institution. This notice shall inform each person as to the reason for preventing transfer or disposition of the deposit or other credits or personal property, the amount thereof which is prevented from transfer or other disposition, and the date by which that amount is to be remitted to the board. An institution may assess the deposit or other credits or personal property of each person receiving this notice a reasonable service charge not to exceed three dollars ($3).

(d) Notwithstanding any other provision, with respect to a deposit in a bank or a state or federal savings and loan association or other credits or personal property in the possession or under the control of a bank or a state or federal savings and loan association, the aggregate amount of deposits, credits, or personal property to be

withheld shall be an amount equal to two times the amount of the tax, interest, or penalty due from the person. If, during the effective period of the notice to withhold, any person so notified makes any transfer or disposition of the property or debts required to be withheld, to the extent of the value of the property or the amount of the debts thus transferred or paid, he or she shall be liable to the state for any indebtedness due under this part from the person with respect to whose obligation the notice was given if solely by reason of that transfer or disposition the state is unable to recover the indebtedness of the person with respect to whose obligation the notice was given.

SEC. 15. Section 11452 of the Revenue and Taxation Code is repealed.

SEC. 16. Section 11452 is added to the Revenue and Taxation Code, to read:

11452. (a) Subject to the limitations in subdivisions (b) and (c), the board may, by notice of levy, served personally or by first-class mail, require all persons having in their possession, or under their control, any credits or other personal property belonging to a person as defined in this part who is liable for any amount under this part to withhold from those credits or other personal property the amount of any tax, interest, or penalties due from that person, or the amount of any liability incurred by him or her under this part, and to transmit the amount withheld to the board at those times as it may designate.

(b) The person served shall continue to withhold pursuant to the notice of levy until the amount specified in the notice, including accrued interest, has been paid in full, until the notice is withdrawn, or until one year from the date the notice is received, whichever occurs first.

(c) The amount required to be withheld is the lesser of the following:

(1) The amount due stated on the notice.

(2) The amount of each payment due or becoming due to the person liable during the period of the levy.

(d) For the purposes of this section, "payments" does not include earnings, as defined in subdivision (a) of Section 706.001 of the Code of Civil Procedure, or funds in a deposit account, as defined in Section 9105 of the Commercial Code. "Payments" does include all of the following:

(1) Payments due for services for independent contractors, dividends, rents, royalties, residuals, patent rights, and mineral or other natural rights.

(2) Payments or credits due or becoming due periodically as a result of an enforceable obligation to the person liable for the tax.

(3) Any other payments or credits due or becoming due the person liable as the result of written or oral contracts for services or sales whether denominated as wages, salary, commission, bonus, or otherwise.

(e) In the case of a financial institution, to be effective, the notice shall state the amount due from the taxpayer and shall be delivered or mailed to the branch or office of the financial institution where the credits or other property is held, unless another branch or office is designated by the financial institution to receive the notice.

SEC. 17. Section 11453 of the Revenue and Taxation Code is repealed.

SEC. 18. Article 4 (commencing with Section 11501) is added to Chapter 4 of Part 6 of Division 2 of the Revenue and Taxation Code, to read:

Article 4. Warrant for Collection of Tax

11501. At any time within four years after any person is delinquent in the payment of any amount herein required to be paid, or within 10 years after the last recording of an abstract under Section 11495 or the last recording or filing of a notice of state tax lien under Section 7171 of the Government Code, the board or its authorized representative may issue a warrant for the enforcement of any liens and for the collection of any amount required to be paid to the state under this part. The warrant shall be directed to any sheriff, marshal, or constable and shall have the same effect as a writ of execution. The warrant shall be levied and sale made pursuant to it in the same manner and with the same effect as a levy of and a sale pursuant to a writ of execution.

11502. The board may pay or advance to the sheriff, marshal, or constable, the same fees, commissions, and expenses for his or her services as are provided by law for similar services pursuant to a writ of execution. The board, and not the court, shall approve the fees for publication in a newspaper.

11503. The fees, commissions, and expenses are the obligation of the person required to pay any amount under this part and may be collected from him or her by virtue of the warrant or in any other manner provided in this part for the collection of the tax.

SEC. 19. Article 5 (commencing with Section 11511) is added to Chapter 4 of Part 6 of Division 2 of the Revenue and Taxation Code, to read:

Article 5. Seizure and Sale

11511. At any time within four years after any person is delinquent in the payment of any amount, the board may forthwith collect the amount by its seizure of any property, real or personal, of the person and its sale of that property, or a sufficient part of it, at public auction to pay the amount due together with any interest or penalties imposed for the delinquency and any costs incurred on account of the seizure and sale.

11512. Notice of the sale and the time and place thereof shall be given to the delinquent person in writing at least 10 days before the

date set for the sale in the following manner: The notice shall be enclosed in an envelope addressed to the person at his or her last known address or place of business in this state. It shall be deposited in the United States mail, postage prepaid. The notice shall also be published for at least 10 days before the date set for the sale in a newspaper of general circulation published in the county in which the property seized is to be sold.

If there is no newspaper of general circulation in the county, notice shall be posted in three public places in the county 10 days prior to the date set for the sale. The notice shall contain a description of the property to be sold, a statement of the amount due, including interest, penalties, and costs, the name of the delinquent, and the further statement that unless the amount due, interest, penalties, and costs are paid on or before the time fixed in the notice for the sale, the property, or so much of it as may be necessary, will be sold in accordance with law and the notice.

11513. At the sale the board shall sell the property in accordance with law and the notice, and shall deliver to the purchaser a bill of sale for the personal property and a deed for any real property sold. The bill of sale or deed vests the interest or title of the person liable for the amount in the purchaser. The unsold portion of any property seized may be left at the place of sale at the risk of the person liable for the amount.

11514. If upon the sale the moneys received exceed the total of all amounts, including interest, penalties, and costs due the state, the board shall return the excess to the person liable for the amounts and obtain that person's receipt. If any person having an interest in or lien upon the property files with the board prior to the sale notice of his or her interest or lien, the board shall withhold any excess pending a determination of the rights of the respective parties thereto by a court of competent jurisdiction. If for any reason the receipt of the person liable for the amount is not available, the board shall deposit the excess moneys with the Treasurer, as trustee for the owner, subject to the order of the person liable for the amount, or that person's heirs, successors, or assigns.

SEC. 20. Article 6 (commencing with Section 11521) is added to Chapter 4 of Part 6 of Division 2 of the Revenue and Taxation Code, to read:

Article 6. Payment on Termination of Business and Successor's Liability

11521. If any person liable for any amount under this part sells his or her business or quits the business, the person's successors or assigns shall withhold a sufficient amount of the purchase price to cover the amount due until the former owner produces a receipt from the board showing that it has been paid or a certificate stating that no amount is due.

11522. If the purchaser of a business fails to withhold a sufficient

amount of the purchase price as required, the purchaser becomes personally liable for the payment of the amount required to be withheld by him or her to the extent of the purchase price, valued in money. Within 60 days after receiving a written request from the purchaser for a certificate, or within 60 days from the date the former owner's records are made available for audit, whichever period expires later, but in any event not later than 90 days after receiving the request, or 90 days from the date of the sale of the business, whichever period expires later, the board shall either issue the certificate or mail notice to the purchaser, at his or her address as it appears on the records of the board, of the amount that must be paid as a condition of issuing the certificate. Failure of the board to mail the notice will release the purchaser from any further obligation to withhold purchase price as provided in this article. The time within which the obligation of the successor may be enforced shall start to run at the time the person sells out his or her business or at the time that the determination against the person becomes final, whichever event occurs later.

11523. The certificate may be issued after the payment of all amounts due under this part, according to the records of the board as of the date of the certificate, or after the payment of the amounts is secured to the satisfaction of the board.

11524. The obligation of the successor shall be enforced by serving a notice of successor liability on the person. The notice shall be served in the manner prescribed for service of a notice of assessment. The successor may petition for reconsideration in the manner provided in Article 5 (commencing with Section 11336) of Chapter 2. The notice shall become final and the amount due and payable in the manner provided in that article except that no additional penalty shall apply if not paid when due and payable. The provisions of this chapter with respect to the collection of any amount required to be paid under this part shall apply when the notice becomes final.

SEC. 21. Article 7 (commencing with Section 11531) is added to Chapter 4 of Part 6 of Division 2 of the Revenue and Taxation Code, to read:

Article 7. Miscellaneous Provisions

11531. The remedies of the state provided for in this chapter are cumulative, and no action taken by the board or Attorney General constitutes an election by the state to pursue any remedy to the exclusion of any other remedy for which provision is made in this part.

11532. In all proceedings under this chapter the board may act on behalf of the people of the State of California.

11533. (a) Upon termination, dissolution, or abandonment of a corporate business, any officer or other person who has control or supervision of or is charged with the responsibility for the filing of

returns or the payment of tax, or who is under a duty to act for the corporation in complying with any requirement of this part, shall be personally liable for any unpaid taxes and interest and penalties on those taxes, if that officer or other person willfully fails to pay or to cause to be paid any taxes due from the corporation pursuant to this part.

(b) The officer or other person shall be liable only for taxes which became due during the period he or she had the control, supervision, responsibility, or duty to act for the corporation described in subdivision (a), plus interest and penalties on those taxes.

(c) For purposes of this section, "willfully fails to pay or cause to be paid" means that the failure was the result of an intentional, conscious, and voluntary course of action.

(d) The sum due for the liability under this section may be collected by determination and collection in the manner provided in Chapter 2 (commencing with Section 11251) and Chapter 3 (commencing with Section 11401).

SEC. 22. Section 11551 of the Revenue and Taxation Code is amended to read:

11551. If the board determines that any amount, penalty, or interest has been paid more than once or has been erroneously or illegally collected or computed, the board shall set forth that fact in the records of the board and shall certify to the State Board of Control the amount collected in excess of the amount legally due and the person from whom it was collected or by whom paid. If approved by the State Board of Control, the excess amount collected or paid shall be credited by the board on any amounts then due and payable from the person from whom the excess amount was collected or by whom it was paid under this part, and the balance shall be refunded to the person, or his or her successors, administrators, or executors.

In the case, however, of a determination by the board that an amount not exceeding fifteen thousand dollars ($15,000) was not required to be paid under this part, the board without obtaining approval of the State Board of Control may credit the amount on any amounts then due and payable under this part from the person by whom the amount was paid and may refund the balance to the person or his or her successors, administrators, or executors.

SEC. 23. Section 11596 of the Revenue and Taxation Code is repealed.

SEC. 24. Section 11596 is added to the Revenue and Taxation Code, to read:

11596. If any amount for taxes, penalty and interest in excess of fifteen thousand dollars ($15,000) has been illegally determined either by the person filing the return or by the board, the board shall set forth that fact in its records and shall certify to the State Board of Control the amount determined to be in excess of the amount legally due and the person against whom the determination was made. If the State Board of Control approves, it shall authorize the cancellation of the amount upon the records of the board. If an

amount not exceeding fifteen thousand dollars ($15,000) has been illegally determined either by the person filing a return or by the board, the board without certifying this fact to the State Board of Control shall authorize the cancellation of the amount upon the records of the board.

SEC. 25. Section 38416 of the Revenue and Taxation Code is repealed.

SEC. 26. Section 38416 is added to the Revenue and Taxation Code, to read:

38416. The board shall give to the person written notice of its determination. The notice shall be placed in a sealed envelope, with postage paid, addressed to the person at his or her address as it appears in the records of the board. The giving of notice shall be deemed complete at the time of the deposit of the notice in the United States Post Office, or a mailbox, subpost office, substation, or mail chute or other facility regularly maintained or provided by the United States Postal Service, without extension of time for any reason. In lieu of mailing, a notice may be served personally by delivering it to the person to be served and service is complete at the time of delivery. Personal service to a corporation may be made by delivery of a notice to any person designated in the Code of Civil Procedure to be served for the corporation with summons and complaint in a civil action.

SEC. 27. Section 38432 of the Revenue and Taxation Code is amended to read:

38432. If the amount specified in the determination is not paid within 10 days after service of notice thereof upon the person against whom the determination is made, the amount becomes final at the expiration of the 10 days, and the delinquency penalty and the interest provided in Section 38451 shall attach to the amount of the tax or the amount of the tax required to be collected, unless a petition for redetermination is filed within the 10 days.

SEC. 28. Section 38435 is added to the Revenue and Taxation Code, to read:

38435. In accordance with those rules and regulations as the board may prescribe, the person against whom a jeopardy determination is made may apply for an administrative hearing for one or more of the following purposes:

(a) To establish that the determination is excessive.

(b) To establish that the sale of property that may be seized after issuance of the jeopardy determination or any part thereof shall be delayed pending the administrative hearing because the sale would result in irreparable injury to the person.

(c) To request the release of all or a part of the property to the person.

(d) To request a stay of collection activities.

The application shall be filed within 30 days after service of the notice of jeopardy determination and shall be in writing and state the specific factual and legal grounds upon which it is founded. No

security need be posted to file the application and to obtain this hearing. However, if the person does not deposit within the 10-day period prescribed in Section 38433, such security as the board may deem necessary to ensure compliance with this part, the filing of the application shall not operate as a stay of collection activities, except the sale of property seized after issuance of the jeopardy determination. Upon a showing of good cause for failure to file a timely application for an administrative hearing, the board may allow a filing of this application and grant the person an administrative hearing. The filing of an application pursuant to this section shall not affect provisions of Section 38432 relating to the finality date of the determination or to penalty or interest.

SEC. 29. Section 38502 of the Revenue and Taxation Code is repealed.

SEC. 30. Section 38502 is added to the Revenue and Taxation Code, to read:

38502. (a) If any person is delinquent in the payment of the amount required to be paid by him or her or in the event a determination has been made against him or her which remains unpaid, the board may, not later than three years after the payment became delinquent or within 10 years after the last recording of an abstract under Section 38523 or the last recording or filing of a notice of state tax lien under Section 7171 of the Government Code, give notice thereof personally or by first-class mail to all persons, including any officer or department of the state or any political subdivision or agency of the state, having in its possession or under its control any credits or other personal property belonging to the delinquent, or person against whom a determination has been made which remains unpaid, or owing any debts to the delinquent or that person. In the case of any state officer, department, or agency, the notice shall be given to the officer, department, or agency prior to the time it presents the claim of the delinquent taxpayer to the Controller. After receiving the notice, the persons so notified shall neither transfer nor make any other disposition of the credits, other personal property, or debts in their possession or under their control at the time they receive the notice until the board consents to a transfer or disposition or until 60 days elapse after the receipt of the notice, whichever period expires earlier. All persons so notified shall forthwith, after receipt of the notice, advise the board of all those credits, other personal property, or debts in their possession, under their control, or owing by them.

(b) If the notice seeks to prevent the transfer or other disposition of a deposit in a bank or a state or federal savings and loan association or other credits or personal property in the possession or under the control of a bank or a state or federal savings and loan association, the notice to be mailed shall state the amount, interest, and penalty due from the person, and shall be delivered or mailed to the branch or office of the bank or the state or federal savings and loan association at which the deposit is carried or at which the credits or personal

property is held. A bank, a state or federal savings and loan association, or a state or federal credit union withholding any deposit or other credits or personal property required to be withheld in which the delinquent taxpayer and another person or persons have an interest, or held in the name of a third party or parties in which the delinquent taxpayer is ultimately determined to have no interest, is not liable therefor to any of the persons who have an interest in the deposit or other credits or personal property unless the deposit or other credits or personal property is released or transferred to the delinquent taxpayer.

(c) In the case of a deposit or other credits or personal property for which the transfer or other disposition is prevented, the depository institution required to prevent transfer or other disposition shall send a notice by first-class mail to each person named on a deposit, other credits, or personal property included in the notice from the board, provided a current address for each person is available to the depository institution. This notice shall inform each person as to the reason for preventing transfer or disposition of the deposit or other credits or personal property, the amount thereof which is prevented from transfer or other disposition, and the date by which that amount is to be remitted to the board. An institution may assess the deposit or other credits or personal property of each person receiving this notice a reasonable service charge not to exceed three dollars ($3).

(d) Notwithstanding any other provision, with respect to a deposit in a bank or other credits or personal property in the possession or under the control of a bank or a state or federal savings and loan association, the aggregate amount of deposits, credits, or personal property to be withheld shall be an amount equal to two times the amount of the tax, interest, or penalty due from the person. The area shall meet the following criteria:

No person shall be displaced under this section unless relocation assistance is provided pursuant to Section 33415 of the Health and Safety Code.

An agricultural area shall not be designated as a neighborhood economic development area.

(p) "Targeted economic development area" means an area which meets all of the following criteria:

(1) Its boundary shall be continuous.

The commission may also adopt after public hearing such additional regulations as it deems reasonable and necessary to enable it to carry out its functions efficiently and equitably, including regulations classifying the particular water-oriented uses referred to in Section 66602 and 66605.

(g) If the commission denies the permit, the applicant may submit another application for the permit directly to the commission after 90 days from the date of the denial.

(h) Any project authorized pursuant to this section shall be commenced, performed and completed in compliance with the provisions of all permits granted or issued by the commission and by any city or county.

(i) Any action, or proceeding to contest or question the commission's denial of a permit application, or conditions attached to approval of a permit application, must be commenced in the appropriate court within 90 days following the date of that action by the commission.

(j) Any person who places fill, extracts materials, or makes any substantial change in the use of any water, land, or structure within the area of the commission's jurisdiction without securing a permit from the commission as required by this title is guilty of a misdemeanor.

SEC. 5. Section 66633.1 of the Government Code is amended to read:

66633.1. The Legislature finds and declares that because the San Francisco Bay Conservation and Development Commission must rely on the expertise provided by volunteer members of advisory boards to make decisions which relate to the public safety, members of the advisory boards should be entitled to the same immunity from liability provided commission members and other public employees.

Members of the advisory bodies appointed pursuant to Sections 66633 and 66636 while performing duties required by this title or by the commission shall be entitled to the same rights and immunities granted public employees by Article 3 (commencing with Section 820) of Chapter 1 of Part 2 of Division 3.6 of Title 1. Those rights and immunities are deemed to have attached and shall attach as of the date of appointment of a member to the advisory body. This provision shall apply to members appointed to the Engineering Criteria Review Board (14 Cal. Adm. Code 10298), the Design Review Board (14 Cal. Adm. Code 10295), and any other advisory

(a) When the executive director determines that any person or governmental agency has undertaken, or is threatening to undertake, any activity that (1) may require a permit from the commission without securing a permit; or (2) may be inconsistent with any permit previously issued by the commission, the executive director may issue an order directing that person or governmental agency to cease and desist.

(b) Any cease and desist order issued by the executive director may be subject to such terms and conditions as the executive director may determine are necessary to ensure compliance with the provisions of this title, including the immediate removal of any fill or other material where that removal is necessary to avoid irreparable injury to any area within the jurisdiction of the commission pending action by the commission under Section 66638.

(c) Any cease and desist order issued by the executive director shall become null and void 90 days after issuance.

(d) A cease and desist order issued by the executive director shall be effective upon the issuance thereof, and copies shall be served forthwith by certified mail upon the person or governmental agency being charged with the actual or threatened violation of this title.

SEC. 7. Section 66641.5 is added to the Government Code, to read:

66641.5. (a) In addition to any other penalties, any person or entity who violates this title is subject to a civil penalty of not to exceed five thousand dollars ($5,000).

(b) In addition to any other penalties, any person or entity who intentionally and knowingly undertakes any activity requiring a permit pursuant to subdivision (a) of Section 66632 without that permit, or who intentionally and knowingly violates any term or condition of any permit issued by or on behalf of the commission, is subject to a civil penalty of not less than fifty dollars ($50), nor more than five thousand dollars ($5,000), per day for each day in which that violation occurs or persists.

(c) Except as provided in Section 818, whenever a person or entity has intentionally and knowingly violated this title or any term or condition of a permit issued by or on behalf of the commission, the commission may maintain an action, in addition to the actions authorized pursuant to subdivisions (a) and (b), for the recovery of exemplary damages. In determining the amount to be awarded, the court shall consider the amount of damages necessary to deter further violations.

(d) Civil liability may be administratively imposed by the commission in accordance with Section 66641.6 on any person or entity for any violation of this title or any term or condition of a permit issued by or on behalf of the commission in an amount which shall be not less than ten dollars ($10), nor more than one thousand

dollars ($1,000), for each day in which that violation occurs or persists, but the commission shall not administratively impose a fine of more than twenty thousand dollars ($20,000) for a single violation.

(e) Any moneys recovered by the commission pursuant to this section shall be deposited in the fund established and administered pursuant to Section 66647.

SEC. 8. Section 66641.6 is added to the Government Code, to read:

66641.6. (a) The executive director of the commission may issue a complaint to any person or entity on whom administrative civil liability may be imposed pursuant to this article. The complaint shall allege the act or failure to act that constitutes a violation of law, the provision of law authorizing civil liability to be imposed pursuant to this title, and the proposed civil liability.

(b) The complaint shall be served by personal notice or certified mail, and shall inform the party so served that a hearing shall be conducted within 60 days after the party has been served. The hearing shall be before the commission. The complainant may waive the right to a hearing, in which case the commission shall not conduct a hearing.

(c) After any hearing, the commission may adopt, with or without revision, the proposed decision and order of the executive director.

(d) Orders setting administrative civil liability shall become effective and final upon issuance thereof, and any payment shall be made within 30 days. Copies of these orders shall be served by personal service or by registered mail upon the party served with the complaint and upon other persons who appeared at the hearing and requested a copy.

SEC. 9. Section 66641.7 is added to the Government Code, to read:

66641.7. (a) Within 30 days after service of an order issued under Section 66641.6, any aggrieved party may file with the superior court a petition for writ of mandate for review thereof pursuant to Section 1094.5 of the Code of Civil Procedure. If no aggrieved party petitions for a writ of mandate within the time provided by this section, an order of the commission shall not be subject to review by any court or agency, except that the commission may grant review on its own motion of an order issued under Section 66641.6 after the expiration of the time limits set by this section.

(b) Upon request of the commission, the Attorney General shall institute an action in the appropriate superior court to collect and recover any administrative civil penalties imposed pursuant to Section 66641.6. The court shall accord priority on its calendar to any such action.

SEC. 10. Section 66641.8 is added to the Government Code, to read:

66641.8. No person shall be subject to both civil liability imposed under Section 66641.6 and civil liability imposed by the superior court under Section 66641.5 for the same act or failure to act.

SEC. 11. Section 66641.9 is added to the Government Code, to read:

66641.9. (a) In determining the amount of administrative civil liability, the commission shall take into consideration the nature, circumstance, extent, and gravity of the violation or violations, whether the violation is susceptible to removal or resolution, the cost to the state in pursuing the enforcement action, and with respect to the violator, the ability to pay, the effect on ability to continue in business, any voluntary removal or resolution efforts undertaken, any prior history of violations, the degree of culpability, economic savings, if any, resulting from the violation, and such other matters as justice may require.

(b) Any moneys recovered by the commission pursuant to Section 66641.6 shall be deposited in the fund established and administered pursuant to Section 66647.

CHAPTER 520

An act to add Section 136.7 to the Penal Code, relating to crimes.

[Approved by Governor September 10, 1987. Filed with Secretary of State September 10, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 136.7 is added to the Penal Code, to read:

136.7. Every person imprisoned in a county jail or the state prison who has been convicted of a sexual offense, including, but not limited to, a violation of Section 243.4, 261, 261.5, 262, 264.1, 266, 266a, 266b, 266c, 266f, 285, 286, 288, 288a, or 289, who knowingly reveals the name and address of any witness or victim to that offense to any other prisoner with the intent that the other prisoner will intimidate or harass the witness or victim through the initiation of unauthorized correspondence with the witness or victim, is guilty of a public offense, punishable by imprisonment in the county jail not to exceed one year, or by imprisonment in the state prison.

Nothing in this section shall prevent the interviewing of witnesses.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 521

An act to amend Section 22651 of the Vehicle Code, relating to vehicles, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 10, 1987 Filed with Secretary of State September 11, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 22651 of the Vehicle Code is amended to read:

22651. Any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code; or any regularly employed and salaried employee, who is engaged in directing traffic or enforcing parking laws and regulations, of a city or a county in which a vehicle is located may remove a vehicle from a highway located within the territorial limits in which the officer or employee may act under any of the following circumstances:

(a) When any vehicle is left unattended upon any bridge, viaduct, or causeway or in any tube or tunnel where the vehicle constitutes an obstruction to traffic.

(b) When any vehicle is parked or left standing upon a highway in a position so as to obstruct the normal movement of traffic or in a condition so as to create a hazard to other traffic upon the highway.

(c) When any vehicle is found upon a highway or any public lands and a report has previously been made that the vehicle has been stolen or a complaint has been filed and a warrant thereon issued charging that the vehicle has been embezzled.

(d) When any vehicle is illegally parked so as to block the entrance to a private driveway and it is impractical to move the vehicle from in front of the driveway to another point on the highway.

(e) When any vehicle is illegally parked so as to prevent access by firefighting equipment to a fire hydrant and it is impracticable to move the vehicle from in front of the fire hydrant to another point on the highway.

(f) When any vehicle, except any highway maintenance or construction equipment, is stopped, parked, or left standing for more than four hours upon the right-of-way of any freeway which has full control of access and no crossings at grade and the driver, if present, cannot move the vehicle under its own power.

(g) When the person or persons in charge of a vehicle upon a highway or any public lands are, by reason of physical injuries or illness, incapacitated to an extent so as to be unable to provide for its custody or removal.

(h) When an officer arrests any person driving or in control of a vehicle for an alleged offense and the officer is, by this code or other

law, required or permitted to take, and does take, the person arrested before a magistrate without unnecessary delay.

(i) When any vehicle, other than a rented vehicle, is found upon a highway or any public lands and it is known to have been issued five or more notices of parking violation over a period of five or more days, to which the owner or person in control of the vehicle has not responded to the agency responsible for processing notices of parking violations, the vehicle may be impounded until that person furnishes to the impounding law enforcement agency evidence of his or her identity and an address within this state at which he or she can be located and satisfactory evidence that bail has been deposited for all notices of parking violation issued for the vehicle. A notice of parking violation issued for an unlawfully parked vehicle shall be accompanied by a warning that repeated violations may result in the impounding of the vehicle. In lieu of requiring satisfactory evidence that the bail has been deposited, the impounding law enforcement agency may, in its discretion, issue a notice to appear for the offenses charged, as provided in Article 2 (commencing with Section 40500) of Chapter 2 of Division 17. In lieu of either furnishing satisfactory evidence that the bail has been deposited or accepting the notice to appear, that person may demand to be taken without unnecessary delay before a magistrate within the county in which the offenses charged are alleged to have been committed and who has jurisdiction of the offenses and is nearest or most accessible with reference to the place where the vehicle is impounded. Evidence of current registration shall be produced after a vehicle has been impounded or a notice to appear for violation of subdivision (a) of Section 4000 shall be issued to that person.

A vehicle shall be released to the legal owner, as defined in Section 370, if the legal owner does all of the following:

(1) Pays the cost of towing and storing the vehicle.

(2) Submits evidence of payment of fees as provided in Section 9561.

(3) Completes an affidavit in a form acceptable to the impounding law enforcement agency stating that the vehicle was not in possession of the legal owner at the time of occurrence of the offenses relating to standing or parking. A vehicle released to a legal owner under this subdivision is a repossessed vehicle for purposes of disposition or sale. The impounding agency shall have a lien on any surplus that remains upon sale of the vehicle to which the registered owner is or may be entitled, as security for the deposit of bail for all notices of parking violations issued for the vehicle. The legal owner shall promptly remit to, and deposit with, the agency responsible for processing notices of parking violations from that surplus, on receipt thereof, bail for all notices of parking violations issued for the vehicle.

(j) When any vehicle is found illegally parked and there are no license plates or other evidence of registration displayed, the vehicle may be impounded until the owner or person in control of the vehicle furnishes the impounding law enforcement agency evidence

of his or her identity and an address within this state at which he or she can be located.

(k) When any vehicle is parked or left standing upon a highway for 72 or more consecutive hours in violation of a local ordinance authorizing removal.

(*l*) When any vehicle is illegally parked on a highway in violation of any local ordinance forbidding standing or parking and the use of a highway, or a portion thereof, is necessary for the cleaning, repair, or construction of the highway, or for the installation of underground utilities, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by local authorities pursuant to the ordinance.

(m) Wherever the use of the highway, or any portion thereof, is authorized by local authorities for a purpose other than the normal flow of traffic or for the movement of equipment, articles, or structures of unusual size, and the parking of any vehicle would prohibit or interfere with that use or movement, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by local authorities pursuant to the ordinance.

(n) Whenever any vehicle is parked or left standing where local authorities, by resolution or ordinance, have prohibited parking and have authorized the removal of vehicles. No vehicle may be removed unless signs are posted giving notice of the removal.

(o) When any vehicle is found upon a highway or any public lands with a registration expiration date in excess of one year before the date it is found on the highway. However, if the vehicle is occupied, only a peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may remove the vehicle. For purposes of this subdivision, the vehicle shall be released to the owner or person in control of the vehicle only after the owner or person furnishes the storing law enforcement agency with proof of current registration. In lieu of obtaining proof of current registration, the storing agency may, in its discretion, issue a notice to appear for the registration violation.

(p) When the peace officer issues the driver of a vehicle a notice to appear for a violation of Section 12500, 14601, 14601.1, or 14601.2 and there is no passenger in the vehicle who has a valid driver's license and authorization to operate the vehicle. Any vehicle so removed from the highway or any public lands shall not be released to the registered owner or his or her agent except upon presentation of the registered owner's or his or her agent's currently valid driver's license to operate the vehicle or upon order of a court.

(q) Whenever any vehicle is parked for more than 24 hours on a portion of highway which is located within the boundaries of a common interest development, as defined in subdivision (c) of Section 1351 of the Civil Code, and signs, as required by Section 22658.2, have been posted on that portion of highway providing notice to drivers that vehicles parked thereon for more than 24 hours

will be removed at the owner's expense, pursuant to a resolution or ordinance adopted by the local authority.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide administrative consistency in collecting bail with respect to unpaid parking violations and to prevent duplication of administrative functions, it is necessary that this act take effect immediately.

SECTION 1. Section 10054 of the Business and Professions Code is amended to read:

10054. The commissioner shall appoint a Real Estate Advisory Commission comprising 10 members, six of whom shall be real estate brokers licensed under this part and four of whom shall be public members. The commissioner shall preside at commission meetings.

The members shall receive a per diem salary as provided in Section 11564.5 of the Government Code, and in addition thereto each shall be allowed his or her actual and necessary expenses in the discharge of his or her duties.

29723. Every person who offers or gives money or other valuable consideration to another in exchange for his or her signature on a state, county, municipal, or district initiative petition is guilty of a misdemeanor.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 524

An act to repeal Sections 39149 and 81139 of the Education Code, relating to schools.

[Approved by Governor September 10, 1987. Filed with Secretary of State September 11, 1987.]

[Approved by Governor September 10, 1987. Filed with Secretary of State September 11, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 2559.2 of the Business and Professions Code is amended to read:

2559.2. (a) An individual shall apply for registration as a registered spectacle lens dispenser on forms prescribed by the division. The division shall register an individual as a registered spectacle lens dispenser upon satisfactory proof that the individual has passed the registry examination of the American Board of Opticianry or any successor agency to that board. In the event the division should determine, after hearing, that the registry examination is not appropriate to determine entry level competence as a spectacle lens dispenser or is not designed to measure specific job performance requirements, the division may thereafter prescribe or administer a written examination that meets those specifications. Any examination prescribed or administered by the division shall be given at least twice each year on dates publicly announced at least 90 days before the examination dates. The division is authorized to contract for administration of an examination.

(b) The division may deny registration where there are grounds for denial under the provisions of Division 1.5 (commencing with Section 475).

(c) The division shall issue a certificate to each qualified individual stating that the individual is a registered spectacle lens dispenser.

(d) Any individual who had been approved as a manager of dispensing operations of a registered dispensing optician under the provisions of Section 2552 as it existed before January 1, 1988, and who had not been subject to any disciplinary action under the provisions of Section 2555.2 shall be exempt from the examination requirement set forth in this section and shall be issued a certificate as a registered spectacle lens dispenser, provided an application for that certificate is filed with the division on or before December 31, 1989.

(e) A registered spectacle lens dispenser is authorized to fit and adjust spectacle lenses at any place of business holding a certificate of registration under Section 2553 provided that the certificate of the registered spectacle lens dispenser is displayed in a conspicuous place at the place of business where he or she is fitting and adjusting.

SEC. 3. Section 2566.1 of the Business and Professions Code is amended to read:

2566.1. The amount of fees prescribed in connection with

certificates for spectacle lens dispensers shall be as set forth in this section unless a lower fee is fixed by the division:

(a) The application fee is fifty dollars ($50).

(b) The initial registration fee is fifty dollars ($50), except that if the registration will expire less than one year after its issuance, the initial registration fee is an amount equal to 50 percent of the initial fee then in effect.

(c) The renewal fee shall be one hundred dollars ($100).

(d) The delinquency fee is twenty-five dollars ($25).

(e) The fee for replacement of a lost, stolen or destroyed certificate is twenty-five dollars ($25).

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

To make it clear that the Division of Allied Health Professions of the Board of Medical Quality Assurance may collect fees from applicants for certificates for spectacle lens dispensers and perform other functions prior to January 1, 1988, in order to implement a new law which prohibits, on and after January 1, 1988, the filling and adjusting of spectacle lenses unless the person has a certificate issued by the division, it is necessary that this act go into immediate effect.

CHAPTER 526

An act to amend Sections 21407.6 and 21408 of, to amend and renumber Section 21407.5 of, and to add Section 21407.2 to, the Public Utilities Code, relating to aeronautics.

[Approved by Governor September 10, 1987. Filed with Secretary of State September 11, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 21407.5 of the Public Utilities Code is amended and renumbered to read:

21407.1. (a) It is unlawful for any person, who is under the influence of an alcoholic beverage or any drug, or the combined influence of an alcoholic beverage and any drug, to operate an aircraft in the air, or on the ground or water, or to engage in parachuting for sport.

(b) No person shall operate an aircraft in the air or on the ground or water who has 0.04 percent or more, by weight, of alcohol in his or her blood.

SEC. 2. Section 21407.2 is added to the Public Utilities Code, to read:

21407.2. (a) (1) Any person who operates an aircraft in the air or on the ground or water is deemed to have given his or her consent

to chemical testing of his or her blood, breath, or urine for the purpose of determining the alcoholic content of his or her blood, and to have given his or her consent to chemical testing of his or her blood or urine for the purpose of determining the drug content of his or her blood, if lawfully arrested for any offense allegedly committed in violation of Section 21407.1 or if the officer requests chemical testing as part of an investigation of a suspected violation of state or local law.

The testing shall be administered at the direction of a peace officer having reasonable cause to believe the person was operating an aircraft in violation of Section 21407.1 under either of the following conditions:

(A) The person is lawfully arrested.

(B) The officer requests the person to submit to chemical testing as part of an investigation of a suspected violation of state or local law.

The person shall be told that his or her failure to submit to, or the failure to complete, the required chemical testing may result in prohibition from operating an aircraft for not more than one year and, if the person is convicted of a violation of Section 21407.1, a fine, imprisonment, prohibition from operating an aircraft for not more than one year, or any combination thereof.

(2) (A) If the person is lawfully arrested for operating an aircraft under the influence of an alcoholic beverage, the person has the choice of whether the test shall be of his or her blood, breath, or urine, and the officer shall advise the person that he or she has that choice. If the person arrested either is incapable, or states that he or she is incapable, of completing any chosen test, the person shall submit to the person's choice of the remaining tests or test, and the officer shall advise the person that the person has that choice.

(B) If the person is lawfully arrested for operating an aircraft under the influence of any drug or the combined influence of an alcoholic beverage and any drug, the person has the choice of whether the test shall be of his or her blood, breath, or urine, and the officer shall advise the person that he or she has that choice.

(C) A person who chooses to submit to a breath test may also be requested to submit to a blood or urine test if the officer has reasonable cause to believe that the person was operating an aircraft under the influence of any drug or the combined influence of an alcoholic beverage and any drug and if the officer has a clear indication that a blood or urine test will reveal evidence of the person being under the influence. The officer shall state in his or her report the facts upon which that belief and that clear indication are based. The person has the choice of submitting to and completing a blood or urine test, and the officer shall advise the person that he or she is required to submit to an additional test and that he or she may choose a test of either blood or urine. If the person arrested either is incapable, or states that he or she is incapable, of completing either chosen test, the person shall submit to and complete the other remaining test.

(3) If the person is lawfully arrested for an offense allegedly committed in violation of Section 21407.1 and, because of the need for medical treatment, the person is first transported to a medical facility where it is not feasible to administer a particular test of, or to obtain a particular sample of, the person's blood, breath, or urine, the person has the choice of those tests which are available at the facility to which that person has been transported. In that event, the officer shall advise the person of those tests which are available at the medical facility and that the person's choice is limited to those tests which are available.

(4) The officer shall also advise the person that he or she does not have the right to have an attorney present before stating whether he or she will submit to a test or tests, before deciding which test or tests to take, or during administration of the test or tests chosen, and that, in the event of refusal to submit to a test or tests, the refusal may be used against him or her in a court of law.

(5) Any person who is unconscious or otherwise in a condition rendering him or her incapable of refusal is deemed not to have withdrawn his or her consent and a test or tests may be administered whether or not the person is told that his or her failure to submit to, or the noncompletion of, the test or tests may result in a fine, imprisonment, and prohibition from operating an aircraft for not more than one year. Any person who is dead is deemed not to have withdrawn his or her consent and a test or tests may be administered at the direction of a peace officer.

(b) Any person who is afflicted with hemophilia is exempt from the blood test required by this section.

(c) Any person who is afflicted with a heart condition and is using an anticoagulant under the direction of a licensed physician and surgeon is exempt from the blood test required by this section.

(d) A person lawfully arrested for any offense allegedly committed while the person was operating an aircraft in violation of Section 21407.1 may request the arresting officer to have a chemical test made of the arrested person's blood, breath, or urine for the purpose of determining the alcoholic content of that person's blood, and, if so requested, the arresting officer shall have the test performed.

SEC. 3. Section 21407.6 of the Public Utilities Code is amended to read:

21407.6. (a) Any person convicted under Section 21407.1 shall be punished upon a first conviction by imprisonment in the county jail for not less than 30 days nor more than six months or by a fine of not less than two hundred fifty dollars ($250) nor more than one thousand dollars ($1,000) or by both such fine and imprisonment.

Any person convicted under Section 21407.1 shall be punished upon a second or any subsequent conviction by imprisonment in the county jail for not less than five days nor more than one year and by a fine of not less than two hundred fifty dollars ($250) nor more than one thousand dollars ($1,000), without being granted probation by

the court and without having the court suspend the execution of the sentence.

(b) Any person convicted under Section 21407.1 and who, when so operating an aircraft, has done any act forbidden by law or neglects any duty imposed by law in the operation of the aircraft, which act or neglect proximately causes bodily injury to any person other than the operator shall be punished by imprisonment in the state prison, or in the county jail for not less than 90 days nor more than one year and by fine of not less than two hundred fifty dollars ($250) nor more than ten thousand dollars ($10,000).

SEC. 4. Section 21408 of the Public Utilities Code is amended to read:

21408. For any violation of Section 21407 or 21407.1, in addition to the penalties provided by Section 21019 or 21407.6, the court may prohibit the violator from operating an aircraft within the state for a period not exceeding one year. Violation of the prohibition of the court may be treated as a separate offense under this section or as a contempt of court. Upon a plea of guilty or conviction under Section 21407 or 21407.1, the department shall cause a record of the plea or conviction and of the sentence imposed to be maintained. This section does not authorize the court or any other agency or person to take away, impound, hold, or mark any federal certificate, permit, rating, or license. SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 529

An act to amend Sections 45192 and 45195 of the Education Code, relating to education.

[Approved by Governor September 10, 1987. Filed with Secretary of State September 11, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 45192 of the Education Code is amended to read:

45192. Governing boards of school districts shall provide by rules and regulations for industrial accident or illness leaves of absence for employees who are a part of the classified service. The governing board of any district which is created or whose boundaries or status is changed by an action to organize or reorganize districts completed after the effective date of this section shall provide by rules and regulations for these leaves of absence on or before the date on which the organization or reorganization of the district becomes effective for all purposes as provided in Section 4064.

The rules and regulations shall include the following provisions:

(a) Allowable leave shall not be for less than 60 working days in any one fiscal year for the same accident.

(b) Allowable leave shall not be accumulative from year to year.

(c) Industrial accident or illness leave will commence on the first day of absence.

(d) Payment for wages lost on any day shall not, when added to an award granted the employee under the workers' compensation laws of this state, exceed the normal wage for the day.

(e) Industrial accident leave will be reduced by one day for each day of authorized absence regardless of a compensation award made under workers' compensation.

(f) When an industrial accident or illness occurs at a time when the full 60 days will overlap into the next fiscal year, the employee

shall be entitled to only that amount remaining at the end of the fiscal year in which the injury or illness occurred, for the same illness or injury.

The industrial accident or illness leave of absence is to be used in lieu of entitlement acquired under Section 45191. When entitlement to industrial accident or illness leave has been exhausted, entitlement or other sick leave will then be used; but if an employee is receiving workers' compensation the person shall be entitled to use only so much of the person's accumulated or available sick leave, accumulated compensating time, vacation or other available leave which, when added to the workers' compensation award, provide for a full day's wage or salary.

The governing board may, by rule or regulation, provide for as much additional leave of absence, paid or unpaid, as it deems appropriate and during this leave the employee may return to the person's position without suffering any loss of status or benefits. The employee shall be notified, in writing, that available paid leave has been exhausted, and shall be offered an opportunity to request additional leave.

Periods of leave of absence, paid or unpaid, shall not be considered to be a break in service of the employee.

During all paid leaves of absence, whether industrial accident leave as provided in this section, sick leave, vacation, compensated time off or other available leave provided by law or the action of a governing board, the employee shall endorse to the district wage loss benefit checks received under the workers' compensation laws of this state. The district, in turn, shall issue the employee appropriate warrants for payment of wages or salary and shall deduct normal retirement and other authorized contributions. Reduction of entitlement to leave shall be made only in accordance with this section.

When all available leaves of absence, paid or unpaid, have been exhausted and if the employee is not medically able to assume the duties of the person's position, the person shall, if not placed in another position, be placed on a reemployment list for a period of 39 months. When available, during the 39-month period, the person shall be employed in a vacant position in the class of the person's previous assignment over all other available candidates except for a reemployment list established because of lack of work or lack of funds, in which case the person shall be listed in accordance with appropriate seniority regulations.

The governing board may require that an employee serve or have served continuously a specified period of time with the district before the benefits provided by this section are made available to the person provided that this period shall not exceed three years and that all service of an employee prior to the effective date of this section shall be credited in determining compliance with the requirement.

Any employee receiving benefits as a result of this section shall, during periods of injury or illness, remain within the State of

California unless the governing board authorizes travel outside the state.

In the absence of rules and regulations adopted by the governing board, pursuant to this section, an employee shall be entitled to industrial and accident or illness leave as provided in this section but without limitation as to the number of days of this leave and without any requirement of a specified period of service.

An employee who has been placed on a reemployment list, as provided herein, who has been medically released for return to duty and who fails to accept an appropriate assignment shall be dismissed.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

SEC. 2. Section 45195 of the Education Code is amended to read:

45195. A permanent employee of the classified service who has exhausted all entitlement to sick leave, vacation, compensatory overtime, or other available paid leave and who is absent because of nonindustrial accident or illness may be granted additional leave, paid or unpaid, not to exceed six months. The employee shall be notified, in writing, that available paid leave has been exhausted, and shall be offered an opportunity to request additional leave. The board may renew the leave of absence, paid or unpaid, for two additional six-month periods or lesser leave periods that it may provide but not to exceed a total of 18 months.

An employee, upon ability to resume the duties of a position within the class to which he or she was assigned, may do so at any time during the leaves of absence granted under this section and time lost shall not be considered a break in service. The employee shall be restored to a position within the class to which the employee was assigned and, if at all possible, to his or her position with all the rights, benefits and burdens of a permanent employee.

If at the conclusion of all leaves of absence, paid or unpaid, the employee is still unable to assume the duties of his or her position, the employee shall be placed on a reemployment list for a period of 39 months.

At any time, during the prescribed 39 months, the employee is able to assume the duties of his or her position the employee shall be reemployed in the first vacancy in the classification of his or her previous assignment. The employee's reemployment will take preference over all other applicants except for those laid off for lack of work or funds under Section 45298 in which case the employee shall be ranked according to his or her proper seniority. Upon resumption of his or her duties, the break in service will be disregarded and the employee shall be fully restored as a permanent employee.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

SEC. 3. Notwithstanding Section 17610 of the Government Code,

if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

Whenever a peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, or any other employee of a public agency authorized pursuant to Section 22669, removes, or causes the removal of, a vehicle pursuant to Section 22669 and the public agency or, at the request of the public

(b) Immediately after removal of the vehicle, the public agency which removed, or caused the removal of, the vehicle shall notify the Stolen Vehicle System of the Department of Justice in Sacramento of the removal.

(c) The public agency which removed, or caused the removal of, the vehicle or, at the request of the public agency, the lienholder shall obtain a copy of the names and addresses of all persons having an interest in the vehicle, if any, from the Department of Motor Vehicles either directly or by use of the California Law Enforcement Telecommunications System. This subdivision does not require the public agency or lienholder to obtain a copy of the actual record on file at the Department of Motor Vehicles.

(d) Within 48 hours of the removal, excluding weekends and holidays, the public agency which removed, or caused the removal of, the vehicle or, at the request of the public agency, the lienholder shall send a notice to the registered and legal owners at their addresses of record with the Department of Motor Vehicles, and to any other person known to have an interest in the vehicle. (2) Failure of either the registered or legal owner or interested person, or his or her agent, to request or to attend a scheduled hearing shall satisfy the poststorage validity hearing requirement of this section.

(f) The public agency employing the person, or utilizing the services of a contractor or franchiser pursuant to subdivision (b) of Section 22669, which removed, or caused the removal of, the vehicle and which directed any towing or storage, shall be responsible for the costs incurred for towing and storage if it is determined in the hearing that reasonable grounds to believe that the vehicle was abandoned are not established.

(g) No authorization for disposal may be issued by the public agency which removed, or caused the removal of, the vehicle to a lienholder who is storing the vehicle prior to the conclusion of a requested poststorage hearing or any judicial review of that hearing.

(h) If, after 15 days from the notification date, the vehicle remains unclaimed and the towing and storage fees have not been paid, and if no request for a poststorage hearing was requested or a poststorage hearing was not attended, the public agency which removed, or caused the removal of, the vehicle shall provide to the lienholder who is storing the vehicle, on a form approved by the Department of Motor Vehicles, authorization to dispose of the vehicle. (j) Disposal of the vehicle by the lienholder who is storing the vehicle may only be to a licensed dismantler or scrap iron processor. A copy of the public agency's authorization for disposal shall be forwarded to the licensed dismantler within five days of disposal to a licensed dismantler. A copy of the public agency's authorization for disposal shall be retained by the lienholder who stored the vehicle for a period of 90 days if the vehicle is disposed of to a scrap iron processor.

(k) If the names and addresses of the registered and legal owners of the vehicle are not available from the records of the Department of Motor Vehicles, either directly or by use of the California Law Enforcement Telecommunications System, the public agency may issue to the lienholder who stored the vehicle an authorization for disposal at any time after the removal.

The lienholder may request the public agency to issue an authorization for disposal after the lienholder ascertains that the

The public agency may authorize its own officer or employee to conduct the hearing if the hearing officer is not the same person who directed the storage of the vehicle.

(c) Failure of either the registered or legal owner, or his or her agent, to request or to attend a scheduled hearing shall satisfy the poststorage validity hearing requirement of this section.

The agency employing the person who directed the storage shall be responsible for the costs incurred for towing and storage if it is determined in the hearing that reasonable grounds for the storage are not established.

(1) The department has substantial evidence that a local agency is not the only responsible party for the site.

(2) The department has issued a cleanup order to, or entered into an enforceable agreement with, the local agency pursuant to Section 25355.5 and has made a final determination that the local agency is not in compliance with the order or enforceable agreement.

(c) The department shall recover any funds expended pursuant to subdivision (a) or (b) to the maximum possible extent pursuant to Section 25360.

(d) If a local agency is identified as a potentially responsible party in a remedial action plan prepared pursuant to Section 25356.1, and the department expends funds pursuant to this chapter to pay for the local agency's share of the removal and remedial action, the expenditure of these funds shall be deemed to be a loan from the state to the local agency. If the department determines that the local agency is not making adequate progress toward repaying the loan made pursuant to this section, the State Board of Equalization shall, upon notice by the department, withhold the unpaid amount of the loan, in increments from the sales and use tax transmittals made pursuant to Section 7204 of the Revenue and Taxation Code, to the city or county in which the local agency is located. The State Board

of Equalization shall structure the amounts to be withheld so that complete repayment of the loan, together with interest and administrative charges, occurs within five years after a local agency has been notified by the department of the amount which it owes. The State Board of Equalization shall deposit any funds withheld pursuant to this section in the Hazardous Substance Clearing Account for the purposes specified in Section 25334, if the department expended the funds from the Hazardous Substance Cleanup Fund, or into the state account, if the department expended the funds from the state account.

(e) The department may not expend funds from the state account or the Hazardous Substance Cleanup Fund for the purposes specified in Section 25352 where the injury, degradation, destruction, or loss to natural resources, or the release of a hazardous substance from which the damages to natural resources resulted, has occurred prior to September 25, 1981.

(f) The department may not expend funds from the state account or the Hazardous Substance Cleanup Fund for a removal or remedial action at any waste management unit owned or operated by a local agency if it meets both of the following conditions:

(1) It is classified as a class III waste management unit pursuant to Subchapter 15 (commencing with Section 2510) of Chapter 3 of Title 23 of the California Administrative Code.

(2) It was in operation on or after January 1, 1988.

SEC. 2. Section 25353 of the Health and Safety Code is amended to read:

25353. (a) Except as provided in subdivision (b), the department may not expend funds from the state account or the Hazardous Substance Cleanup Fund for a removal or remedial action with respect to a hazardous substance release site owned or operated by the federal government or state or local agency at the time of disposal to the extent that the federal government or the state or local agency would otherwise be liable for the costs of that action, except that the department may expend those funds, upon appropriation by the Legislature, to oversee the carrying out of a removal or remedial action at the site by another party.

(b) The department may expend funds from the state account or the Hazardous Substance Cleanup Fund, upon appropriation by the Legislature, to take a removal or remedial action at a hazardous substance release site which was owned or operated by a local agency at the time of release, if all of the following requirements are met:

(1) The department has substantial evidence that a local agency is not the only responsible party for the site.

(2) The department has issued a cleanup order to, or entered into an enforceable agreement with, the local agency pursuant to Section 25355.5 and has made a final determination that the local agency is not in compliance with the order or enforceable agreement.

(c) The department shall recover any funds expended pursuant to subdivision (a) or (b) to the maximum possible extent pursuant

to Section 25360.

(d) If a local agency is identified as a potentially responsible party in a remedial action plan prepared pursuant to Section 25356.1, and the department expends funds pursuant to this chapter to pay for the local agency's share of the removal and remedial action, the expenditure of these funds shall be deemed to be a loan from the state to the local agency. If the department determines that the local agency is not making adequate progress toward repaying the loan made pursuant to this section, the State Board of Equalization shall, upon notice by the department, withhold the unpaid amount of the loan, in increments from the sales and use tax transmittals made pursuant to Section 7204 of the Revenue and Taxation Code to the city or county in which the local agency is located. The State Board of Equalization shall structure the amounts to be withheld so that complete repayment of the loan, together with interest and administrative charges, occurs within five years after a local agency has been notified by the department of the amount which it owes. The State Board of Equalization shall deposit any funds withheld pursuant to this section in the Hazardous Substance Clearing Account for the purposes specified in Section 25334, if the department expended the funds from the Hazardous Substance Cleanup Fund, or into the state account, if the department expended the funds from the state account.

(e) The department may not expend funds from the state account or the Hazardous Substance Cleanup Fund for the purposes specified in Section 25352 where the injury, degradation, destruction, or loss to natural resources, or the release of a hazardous substance from which the damages to natural resources resulted, has occurred prior to September 25, 1981.

SEC. 3. Section 1 of this bill shall only become operative if this bill and Assembly Bill 2448 are both enacted and become effective on January 1, 1988, in which case Section 2 of this bill shall not become operative.

CHAPTER 535

An act to amend Sections 10450.6 and 10471 of the Business and Professions Code, relating to real estate, and making an appropriation therefor.

[Approved by Governor September 10, 1987 Filed with Secretary of State September 11, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares all of the following:

(a) The Real Estate Recovery Program administered by the Department of Real Estate, and funded by licensee contributions, has, for many years, provided a valuable public and consumer service by assisting in compensating individuals who have suffered economic losses by the actions of real estate licensees who are unable to respond to judgments, thereby providing greater confidence for the public in dealing with real estate brokers and salespersons licensed by the State of California.

(b) The economic vitality of the Real Estate Recovery Program must be protected in order for the program to continue to perform valuable consumer protection functions.

(c) An independent study completed for the Department of Real Estate has determined that, based upon anticipated future program revenues and claims, the Real Estate Recovery Program is now insolvent.

(d) In recent years the Real Estate Recovery Program has been subject to claims which have exceeded the intended purpose of the program, in certain cases brought by claimants who have employed judicial procedures designed solely to assure access to the Recovery Account.

(e) Legislative action is necessary to provide sufficient funding for the Real Estate Recovery Program so that future claims within the intended scope of the program and diligently pursued by

aggrieved parties may be paid in a prompt and timely fashion.

SEC. 2. Section 10450.6 of the Business and Professions Code is amended to read:

10450.6. There shall be separate accounts in the Real Estate Fund for purposes of real estate education and research and for purposes of recovery which shall be known respectively as the Education and Research Account and the Recovery Account. Eight percent of the amount of any license fee collected under this part shall be credited to the Education and Research Account and 12 percent of the amount of any license fee collected shall be credited to the Recovery Account. Funds in the Education and Research Account shall be used by the commissioner in accordance with Section 10451.5. The Recovery Account is a continuing appropriation for carrying out Chapter 6.5 (commencing with Section 10470).

SEC. 3. Section 10471 of the Business and Professions Code is amended to read:

10471. (a) When an aggrieved person obtains a final judgment in a court of competent jurisdiction or an arbitration award which includes findings of fact and conclusions of law rendered in accordance with the rules established by the American Arbitration Association or another recognized arbitration body, and in accordance with Sections 1281 to 1294.2, inclusive, of the Code of Civil Procedure where applicable, and where the arbitration award has been confirmed and reduced to judgment pursuant to Section 1287.4 of the Code of Civil Procedure, against a defendant based upon the defendant's fraud, misrepresentation, or deceit, made with intent to defraud, or conversion of trust funds arising directly out of any transaction not in violation of Section 10137 or 10138 in which the defendant, while licensed under this part, performed acts for which that license was required, the aggrieved person may, upon the judgment becoming final, file an application with the Department of Real Estate for payment from the Recovery Account, within the limitations specified in Section 10474, of the amount unpaid on the judgment which represents an actual and direct loss to the claimant in the transaction.

(b) The application shall be delivered in person or by certified mail to an office of the department and a copy served on the judgment debtor in accordance with Section 10471.1 not later than one year after the judgment has become final.

(c) The application shall be made on a form prescribed by the department, verified by the claimant, and shall include the following:

(1) The name and address of the claimant.

(2) If the claimant is represented by an attorney, the name, business address, and telephone number of the attorney.

(3) The identification of the judgment, the amount of the claim and an explanation of its computation.

(4) A detailed narrative statement of the facts in explanation of the allegations of the complaint upon which the underlying

judgment is based.

(5) A statement by the claimant, signed under penalty of perjury, that the complaint upon which the underlying judgment is based was prosecuted conscientiously and in good faith. As used in this section, "conscientiously and in good faith" means that no party potentially liable to the claimant in the underlying transaction was intentionally and without good cause omitted from the complaint, that no party named in the complaint who otherwise reasonably appeared capable of responding in damages was dismissed from the complaint intentionally and without good cause, and that the claimant employed no other procedural tactics contrary to the diligent prosecution of the complaint in order to provide access to the Recovery Account.

(6) The name and address of the judgment debtor or, if not known, the names and addresses of persons who may know the judgment debtor's present whereabouts.

(7) The following representations and information from the claimant:

(A) That he or she is not a spouse of the judgment debtor nor a personal representative of the spouse.

(B) That he or she has complied with all of the requirements of this chapter.

(C) That the judgment underlying the claim meets the requirements of subdivision (a).

(D) A description of searches and inquiries conducted by or on behalf of the claimant with respect to the judgment debtor's assets liable to be sold or applied to satisfaction of the judgment, an itemized valuation of the assets discovered, and the results of actions by the claimant to have the assets applied to satisfaction of the judgment.

(E) That he or she has diligently pursued collection efforts against other judgment debtors and all other persons liable to the claimant in the transaction that is the basis for the underlying judgment.

(F) That the underlying judgment and debt have not been discharged in bankruptcy, or, in the case of a bankruptcy proceeding that is open at the time of the filing of the application, that the judgment and debt have been declared to be nondischargeable.

(G) That the application was mailed or delivered to the department no later than one year after the underlying judgment became final.

(d) The application form shall include detailed instructions with respect to documentary evidence, pleadings, court rulings, the products of discovery in the underlying litigation, and a notice to the applicant of his or her obligation to protect the underlying judgment from discharge in bankruptcy, to be appended to the application.

CHAPTER 536

An act to amend Section 432 of the Public Utilities Code, relating to the Public Utilities Commission.

[Approved by Governor September 10, 1987. Filed with Secretary of State September 11, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 432 of the Public Utilities Code is amended to read:

432. The commission shall establish the fee pursuant to Section 431 with the approval of the Department of Finance and in accordance with all of the following:

(a) In its annual budget request, the commission shall specify both of the following:

(1) The amount of its budget to be financed by the fee.

(2) The dollar allocation of the amount of its budget to be financed by the fee by each class of public utility subject to the fee. The fee allocation among classes of public utilities shall bear the same ratio that the commission's workload for each class of public utility subject to the fee bears to the commission's total workload for all public utilities subject to the fee.

(b) The commission may establish different and distinct methods of assessing fees for each class of public utility, if the revenues collected are consistent with paragraph (2) of subdivision (a).

(c) Within each class of public utility subject to the fee, the commission shall allocate among the members of the class the amount of its budget to be financed by the fee using the following methods:

(1) For electrical corporations, the ratio that each corporation's sales in kilowatt hours bears to the total sales in kilowattt hours for the class.

(2) For gas corporations, the ratio that each corporation's sales in therms bears to the total sales in therms for the class.

(3) For telephone and telegraph corporations, the ratio that each corporation's gross intrastate revenues bears to the total gross intrastate revenues for the class. If the commission determines that there is a need for consultants or advisory services to assist in determining the reasonableness of capital expenditures for a telephone corporation, the commission may adjust the fees within the class so that the expenses for the consultants and advisory services are fully allocated to that telephone corporation.

(4) For water and sewer system corporations, the ratio that each corporation's gross intrastate revenues bears to the total gross intrastate revenues for the class.

(5) For all other public utilities, an appropriate measurement methodology determined by the commission.

(d) Every public utility belonging to more than one class shall be subject to the fee for each class of which it is a member.

(e) For every public utility with annual gross intrastate revenues of seven hundred fifty thousand dollars ($750,000) or less, the commission shall annually establish uniform fees to be paid by each such public utility, if the revenues collected thereby are consistent with paragraph (2) of subdivision (a) and subdivision (c).

CHAPTER 537

An act to amend Sections 80, 531.2, and 532 of, and to add Section 51.5 to, the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 11, 1987. Filed with Secretary of State September 11, 1987.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares that fairness and equity require that county assessors have express authority to make corrections to property tax base-year values whenever it is discovered that a base-year value does not reflect applicable constitutional or statutory valuation standards or the base-year value was omitted. Any limitations imposed upon the assessor's authority to correct these errors would result in a system of taxation which, on the one hand, denies the benefits of Article XIII A of the California Constitution to some taxpayers where the barred error or correction would reduce the base-year value and, on the other hand, encourages even the most honest person to engage in deception and concealment in order to delay discovery of changes in ownership or new construction beyond the point where a correction of the base-year value can be made. Further, the failure to place any value on the assessment roll for property which completely escapes taxation because of limitations on the authority to correct errors would violate the constitutional requirement that all property in the state shall be subject to taxation. Nothing in this act violates either the spirit or the letter of Article XIII A of the California Constitution since all corrections permitted by it must be consistent with applicable constitutional and statutory valuation standards.

(b) The Legislature further finds and declares that the provisions of law relating to escape assessments are in no way inconsistent with Article XIII A of the California Constitution. An escape assessment merely reflects the amount by which the property has been underassessed and is a mechanism which permits the correction of the effects of that underassessment. The amount of the underassessment must be determined, however, in accordance with the applicable statutory valuation standards. Thus, an escape assessment is merely a mechanism for implementing existing

property tax law and cannot be in conflict with it. Accordingly, the amendments to Sections 531.2 and 532 of the Revenue and Taxation Code made by this act are necessary to make clear that an escape assessment resulting from the correction of an error in a base-year value may be made within four, six, or eight years, as applicable, after the first day of July of the assessment year, as defined in Section 118 of the Revenue and Taxation Code, in which the property either wholly escaped taxation or was underassessed, as determined by applying the applicable Article XIII A valuation standards.

SEC. 2. Section 51.5 is added to the Revenue and Taxation Code, to read:

51.5. (a) Notwithstanding any other provision of the law, any error or omission in the determination of a base-year value pursuant to paragraph (2) of subdivision (a) of Section 110.1, including the failure to establish that base-year value, which does not involve the exercise of an assessor's judgment as to value, shall be corrected in any assessment year in which the error or omission is discovered.

(b) An error or an omission described in subdivision (a) which involves the exercise of an assessor's judgment as to value may be corrected only if it is placed on the current roll or roll being prepared within four years after July 1 of the assessment year for which the base-year value was first established.

(c) An error or an omission involving the exercise of an assessor's judgment as to value shall not include errors or omissions resulting from the taxpayer's fraud, concealment, misrepresentation, or failure to comply with any provision of law for furnishing information required by Sections 441, 470, 480, 480.1, and 480.2, or from clerical errors.

(d) If a correction authorized by subdivision (a) or (b) reduces the base-year value, appropriate cancellations or refunds of tax shall be granted in accordance with this division. If the correction increases the base-year value, appropriate escape assessments shall be imposed in accordance with this division.

(e) The existence of a clerical error shall be proved by a preponderance of the evidence, except that if the correction is made more than four years after July 1 of the assessment year for which the base-year value was first established the clerical error shall be proved by clear and convincing evidence, including the papers in the assessor's office. Nothing in this subdivision shall be construed to change the standard of proof applicable to a determination of the value of property.

(f) For purposes of this section:

(1) "Assessment year" means an assessment year as defined in Section 118.

(2) "Clerical errors" means only those defects of a mechanical, mathematical, or clerical nature, not involving judgment as to value, where it can be shown from papers in the assessor's office or other evidence that the defect resulted in a base-year value that was not intended by the assessor at the time it was determined.

SEC. 3. Section 80 of the Revenue and Taxation Code is amended to read:

80. (a) An application for reduction in the base-year value of an assessment on the current local roll may be filed during the regular filing period for that year as set forth in Section 1603 or Section 1840, subject to the following limitations:

(1) The base-year value determined by a local board of equalization or by the State Board of Equalization, originally or on remand by a court, or by a court shall be conclusively presumed to be the base-year value for any 1975 assessment which was appealed.

(2) The base-year value determined pursuant to paragraph (1) of subdivision (a) of Section 110.1 shall be conclusively presumed to be the base-year value unless an equalization application is filed no later than the regular filing period following the 1980 lien date. Once an application is filed, the base-year value determined pursuant to that application shall be conclusively presumed to be the base-year value for that assessment.

(3) The base-year value determined pursuant to paragraph (2) of subdivision (a) of Section 110.1 shall be conclusively presumed to be the base-year value, unless an application for equalization is filed during the regular equalization period for the year in which the assessment is placed on the assessment roll or in any of the three succeeding years. Once an application is filed, the base-year value determined pursuant to that application shall be conclusively presumed to be the base-year value for that assessment.

(4) The base-year value determined pursuant to Section 51.5 shall be conclusively presumed to be the base-year value unless an application for equalization is filed during the appropriate equalization period for the year in which the error is corrected or in any of the three succeeding years. Once an application is filed, the base-year value determined pursuant to that application shall be conclusively presumed to be the base-year value for that assessment.

(5) Any reduction in assessment made as the result of an appeal under this section shall apply for the assessment year in which the appeal is taken and prospectively thereafter.

(b) This section does not prohibit the filing of an application for appeal where a new value was placed on the roll pursuant to Section 51.

(c) An application for equalization made pursuant to Section 620 or Section 1605 when determined, shall be conclusively presumed to be the base-year value in the same manner as provided herein.

SEC. 4. Section 531.2 of the Revenue and Taxation Code is amended to read:

531.2. When the property is real property which subsequent to July 1 of the year of escape for purposes of this article, or subsequent to July 1 of the year in which the property should have been lawfully assessed, for purposes of Article 3 (commencing with Section 501), but prior to the date of that assessment and the showing thereof on the secured roll, with the date of entry specified thereon, has

(1) been transferred or conveyed to a bona fide purchaser for value, or (2) become subject to a lien of a bona fide encumbrance for value, the escape assessment pursuant to either of these articles shall not create or impose a lien or charge on that real property, but shall be entered on the unsecured roll in the name of the person who would have been the assessee in the year in which it escaped assessment and shall thereafter be treated and collected like other taxes on that roll. The tax rate applicable shall be the secured tax rate of the year in which the property escaped assessment.

If the real property escaped assessment as a result of an unrecorded change in ownership or change in control for which a change in ownership statement required by Section 480, 480.1, or 480.2 is not filed, the assessor shall appraise the property as of the date of transfer and enroll the difference in taxable value for each of the subsequent years on the secured roll, with the date of entry specified thereon, provided, however, that if prior to the date of the assessment the property has (1) been transferred or conveyed to a bona fide purchaser for value, or (2) become subject to a lien of a bona fide encumbrance for value, the escape assessment pursuant to this paragraph shall not create or impose a lien or charge on such real property but shall be entered on the unsecured roll in the name of the person who would have been the assessee in the year in which it escaped assessment and shall thereafter be treated and collected like other taxes on that roll. The tax rate applicable shall be the secured rate of the year in which the property escaped assessment. Notwithstanding the provisions of Section 532, escaped assessments resulting from these unrecorded changes in ownership or changes in control shall be made within eight years after July 1 of the assessment year in which the real property escaped taxation or was underassessed. "Assessment year" means the period defined in Section 118.

SEC. 5. Section 532 of the Revenue and Taxation Code is amended to read:

532. Any assessment to which the penalty provided for in Section 504 must be added shall be made within six years after July 1 of the assessment year in which the property escaped taxation or was underassessed. Any other assessment made pursuant to Article 3 (commencing with Section 501), or pursuant to this article shall be made within four years after July 1 of the assessment year in which the property escaped taxation or was underassessed. "Assessment year" means the period defined in Section 118.

CHAPTER 538

An act to add Section 21655.3 to the Vehicle Code, relating to highways.

[Approved by Governor September 11, 1987. Filed with Secretary of State September 11, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 21655.3 is added to the Vehicle Code, to read:

21655.3. (a) A high-occupancy vehicle lane on a state highway which has been given permanent operational status as a high-occupancy lane by the department on or after January 1, 1987, but before December 31, 1987, in conjunction with a transportation planning agency, and which is operated as a high-occupancy vehicle lane on a 24-hour basis after that date, shall be separated from adjacent mixed-flow lanes by a buffer area of at least four feet in width.

(b) The transportation planning agency having within its area of jurisdiction a high-occupancy vehicle lane meeting the operational requirements of subdivision (a) and having no buffer or a buffer less than four feet in width shall, by July 1, 1988, do one of the following:

(1) Enter into an agreement with the department to provide a four-foot buffer between the high-occupancy vehicle lane and the adjacent lanes and agree to pay any costs for the buffer not programmed by the department.

(2) Submit to the department a written request that the high-occupany vehicle lane be changed to a mixed-flow lane.

(c) Upon receipt of notification by the transportation planning agency of its request that the high-occupancy vehicle lane become a mixed-flow lane, the department shall proceed with the work necessary to change the high-occupancy lane to a mixed-flow lane.

(d) The width of a buffer between a high-occupancy vehicle lane and adjacent lanes may be less than four feet at locations where a four-foot buffer would require the removal, relocation, or reconstruction of any existing bridge support structures or where part of the buffer space is required for enforcement refuge areas.

SEC. 2. Section 1 of this act shall become operative only if, and at the same time as, Senate Bill 622 becomes operative.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.
