CHAPTER 539

An act to add Chapter 2.5 (commencing with Section 110) to Division 1.5 of the Harbors and Navigation Code, relating to water pollution.

[Approved by Governor September 11, 1987 Filed with Secretary of State September 11, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.5 (commencing with Section 110) is added to Division 1.5 of the Harbors and Navigation Code, to read:

CHAPTER 2.5. TBT-BASED ANTIFOULING PAINT

110. As used in this chapter:

(a) "Slow-leaching TBT-based marine antifouling paint" means a TBT-based marine antifouling paint, but not a coating, treatment, or compound, that releases tributyltin (TBT) at a measured rate equal to or less than five micrograms per square centimeter per day at steady state conditions determined under the Environmental Protection Agency testing procedure, as outlined in the agency's call-in notice of July 29, 1986, on tributyltin in antifouling paints under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. Sec. 136 et seq.), except that, for purposes of this definition, the Department of Food and Agriculture may reduce the maximum permitted release rate of slow-leaching TBT-based marine antifouling paint to less than five micrograms per square centimeter per day at steady state conditions upon a finding by the State Water Resources Control Board, after a noticed public hearing, that the lower release rate is required to protect the waters of the state from contamination.

(b) "TBT-based marine antifouling paint or coating" means a paint, coating, treatment, or compound that contains tributyltin, an organotin, or a tri-organotin compound applied as a substitute for tributyltin, and that is intended to control fouling organisms in a freshwater or marine environment.

(c) "Vessel" means any watercraft used or capable of being used as a means of transportation on water.

111. Except as otherwise provided in this chapter, no person shall sell or use a TBT-based marine antifouling paint or coating in this state, and no person shall sell, rent, or lease in the waters of this state a vessel, fishing gear, or other item intended to be partially or completely submerged in water, if the vessel, gear, or other item has been painted or treated with a TBT-based marine antifouling paint or coating.

112. Nothing in this chapter requires the removal of any TBT-based marine antifouling paint or coating from any vessel,

fishing gear, or other item that was so painted or treated before January 1, 1988, but the vessel, gear, or other item shall not be repainted or retreated with any TBT-based marine antifouling paint or coating.

Fish capture nets treated with TBT-based marine antifouling paint or coating before January 1, 1988, shall not be used in state waters on or after January 1, 1993.

Fish culture pens used for rearing fish for human consumption treated with a TBT-based antifouling paint or coating shall not be used in state waters on or after January 1, 1989.

113. Slow-leaching TBT-based marine antifouling paint may be distributed, sold, and used in this state only if it meets one of the following criteria:

(a) It is paint that will be applied only to aluminum vessel hulls or to commercial or recreational vessels 25 meters or more in length.

(b) It is of a type commonly referred to as outboard or lower unit paint and is distributed or sold in a spray can in a quantity of 16 ounces avoirdupois or less.

114. Any violation of Section 111 or 112 is a misdemeanor.

115. This chapter shall become inoperative on the effective date of regulations adopted by the Department of Food and Agriculture which regulate TBT-based marine antifouling paints or coatings.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 540

An act relating to Monarch butterflies, and making an appropriation therefor.

[Approved by Governor September 11, 1987. Filed with Secretary of State September 11, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) The Monarch butterfly of North America (Danaus plexippus) is truly an international phenomenon. Both the eastern and western populations travel through Canada, the United States of America, and Mexico during their annual migration.

(b) Because of its vibrant beauty, large size, and migratory habits, the Monarch butterfly is among the best known insects of North America.

(c) The winter roosting sites for the western population are located almost exclusively in the coastal regions of California. Of the 80 known sites in this state, seven have been destroyed in the past three years.

(d) The government of Mexico, despite its current economic situation, recently took dramatic steps to safeguard the wintering grounds of the Monarch butterflies of eastern North America; therefore, the State of California should take similar action to protect the Monarch butterflies which migrate throughout western North America.

SEC. 2. The Department of Fish and Game shall prepare an inventory of the areas of critical habitat for winter roosting sites for Monarch butterflies on or before July 1, 1988. This inventory shall include, but not be limited to, maps identifying those areas, recommendations for protection of the habitat, and recommendations for potential acquisition of sites by the state.

SEC. 3. The sum of twelve thousand dollars ($12,000) is hereby appropriated from the California Environmental License Plate Fund to the Department of Fish and Game for the purposes of Section 2 of this act.

CHAPTER 542

An act to amend Sections 20019.52 and 20586 of the Government Code, relating to public employees.

[Approved by Governor September 11, 1987. Filed with Secretary of State September 11, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 20019.52 of the Government Code is amended to read:

20019.52. A member who is employed in a position that is reclassified from local miscellaneous to local safety and is made subject to a safety service retirement benefit, other than that provided in Section 21252.01, may make an irrevocable election in writing to remain subject to the miscellaneous service retirement benefit by filing a notice of such election with the board within 90 days after notification by the board.

SEC. 2. Section 20586 of the Government Code is amended to read:

20586. Notwithstanding any other provisions of this part, when any county superintendent of schools determines that because of an impending curtailment of, or change in the manner of performing service, the best interests of the county superintendent of schools would be served, a school member shall be eligible to receive additional service credit if the following conditions exist:

(a) The member is employed in a job classification or an

organizational unit designated by the county superintendent of schools and retires within any period designated in and subsequent to the effective date of the contract amendment provided the period is not less than 90 days nor more than 180 days.

(b) The county superintendent of schools transmits to the retirement fund an amount determined by the board which is equal to the actuarial equivalent of the difference between the allowance the member receives after the receipt of service credit under this section and the amount he or she would have received without such service credit. The transfer to the retirement fund shall be made in a manner and time period acceptable to the employer and the board.

(c) The county superintendent of schools shall certify that he or she is electing to exercise the provisions of this section, because of impending mandatory transfers, demotions, and layoffs that constitute at least 1 percent of the job classification, as designated by the county superintendent of schools, resulting from the curtailment of, or change in the manner of performing, its services.

(d) The county superintendent of schools shall certify that it is his or her intention at the time that this section is made operative that if any early retirements are granted after receipt of service credit pursuant to this section, that any vacancies thus created or at least one vacancy in any position in any organizational unit shall remain permanently unfilled thereby resulting in an overall reduction in the work force of such organizational unit.

The amount of service credit shall not be more than two years regardless of credited service and shall not exceed the number of years intervening between the date of his or her retirement and the date he or she would be required to be retired because of age.

A county superintendent of schools which elects to make the payment prescribed by subdivision (b) shall make such payment with respect to all eligible employees who retire during the specified period.

This section shall not be applicable to any member otherwise eligible if such member receives any unemployment insurance payments during the specified period.

Any member who qualifies under this section, upon subsequent reentry to the system shall forfeit the service credit acquired under this section.

This section shall not apply to any member who is not employed by the county superintendent of schools during the period designated in subdivision (a) and who has less than five years of service credit.

This section shall not apply to any county superintendent of schools unless and until the county superintendent of schools elects to be subject to the provision of this section by amendment to the contract made in the manner prescribed for approval of contracts, except an election among the employees is not required, or, in the case of contracts made after the effective date of this section, by express provision in such contract making the county superintendent

of schools subject to the provisions of this section.

Notwithstanding Section 20740, an election to become subject to this section shall not exclude a county superintendent of schools from the definition of "employer" for purposes of Section 20740.

This section shall remain in effect only until September 29, 1993, and as of that date is repealed, unless a later enacted statute, which is chaptered before that date deletes or extends that date.

SEC. 3. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

[Approved by Governor September 11, 1987 Filed with Secretary of State September 11, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 53100.5 is added to the Government Code, to read:

53100.5. The Legislature hereby finds and declares:

(a) The Communications Division of the Department of General Services is currently in the process of updating its implementation of "911" emergency phone service to all areas of California.

(b) The improvements to the emergency "911" service will enable the law enforcement agency receiving the "911" call to determine the exact location of the caller upon connection of the call.

(c) The communications division provides for the enhancement of emergency telephone systems of cities within the respective counties based on the population density of the counties, with those counties with greater density receiving enhanced "911" emergency service first. Most rural telephone companies serve sparsely populated areas, averaging only 14 telephones per square mile.

(d) Many of the telephone corporations in the rural areas of California are capable of receiving enhanced "911" emergency telephone service, but are not scheduled for improvements within

the next five years because of their population density.

(e) Telephone customers in the rural areas are generally not close to emergency services providers and are dependent on the telephone to contact those providers.

(f) It is in the state's interest expeditiously to provide enhanced "911" emergency telephone service to the rural areas of California upon reaching those counties by the present system, which is based on density.

SEC. 2. Section 53119 is added to the Government Code, to read:

53119. Any telephone corporation serving rural telephone areas which cannot currently provide enhanced "911" emergency telephone service capable of selective routing, automatic number identification, or automatic location identification shall present to the communications division a comprehensive plan detailing a schedule by which those facilities will be converted to be compatible with the enhanced emergency telephone system.

SEC. 3. Section 53120 is added to the Government Code, to read:

53120. The communications division shall not delay implementation of the enhanced "911" emergency telephone system in those portions of cities or counties, or both, served by a local telephone corporation that has equipment compatible with the enhanced "911" emergency telephone system.

SEC. 4. Section 41007 of the Revenue and Taxation Code is amended to read:

41007. (a) "Service supplier" shall mean any person supplying intrastate telephone communication services pursuant to California intrastate tariffs to any service user in this state.

(b) On and after January 1, 1988, "service supplier" also includes any person supplying intrastate telephone communications services for whom the Public Utilities Commission, by rule or order, modifies or eliminates the requirement for that person to prepare and file California intrastate tariffs.

CHAPTER 557

An act to add Section 6032 to the Business and Professions Code, relating to attorneys, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 11, 1987 Filed with Secretary of State September 11, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 6032 is added to the Business and Professions Code, to read:

6032. (a) The board shall conduct a scientifically valid survey of a representative sample of the active membership for the purpose of

compiling data on the subject of legal malpractice insurance.

Members shall fully and truthfully complete the survey or be subject to those discipline measures prescribed by the board. Survey responses shall be confidential.

(b) The board shall submit a final report on the results of the survey to the Legislature on or before December 15, 1987.

(c) For the 1988–89 fiscal year, the board may increase the annual membership fee fixed by subdivision (a) of Section 6140 by an additional amount not to exceed one dollar ($1). This additional amount shall only be applied for costs incurred by the board in complying with the requirements of this section.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Due to a crisis relating to malpractice insurance costs in the legal profession, it is necessary to obtain the data specified in this act as soon as possible.

CHAPTER 558

An act to amend Sections 1339.62 and 1339.63 of the Health and Safety Code, relating to respite care.

[Approved by Governor September 11, 1987 Filed with Secretary of State September 11, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1339.62 of the Health and Safety Code is amended to read:

1339.62. It is the intent of the Legislature to establish a demonstration program to facilitate admissions to licensed general acute care hospitals, skilled nursing facilities, and intermediate care facilities to provide rest and relief for families and others who are caring for a relative or other individual in the community. Temporary admissions through respite provide these applicants and their families with temporary relief from their constant vigil while frail elderly, functionally impaired, developmentally disabled, and mentally disordered persons continue to receive the responsible help and supervision they need. Respite care can reduce the need for institutionalizing persons, since caretakers are able to take a break from their duties when needed.

It is further the intent of the Legislature that licensed general acute care hospitals, skilled nursing facilities, and intermediate care facilities may fill unused capacity to provide respite care for frail elderly, functionally impaired, developmentally disabled, and mentally disordered persons.

The purpose of establishing this program on a demonstration basis is to enable the State Department of Health Services to design model standards that facilitate the admissions process for respite care and ensure the health and safety of clients being cared for on a respite care basis.

The Legislature finds and declares that such respite care programs should be designed to be tailored to and responsive to the specific needs of those individuals requiring these services. The Legislature further recognizes that the needs of the frail elderly, functionally impaired, and developmentally disabled may be very different and diverse from the needs of mentally disordered persons. Therefore, standards and regulations adopted pursuant to this article shall ensure any mixing of patients within the respite care units must address, and be consistent with, and responsive to the special needs of the particular patient populations and age group being served.

SEC. 2. Section 1339.63 of the Health and Safety Code is amended to read:

1339.63. The department shall administer a three-year demonstration program for the purpose of providing respite care services to frail elderly, functionally impaired, developmentally disabled, and mentally disordered persons in at least one of each of the following licensed health facilities, not to exceed nine facilities:

(a) General acute care hospitals.

(b) Skilled nursing facilities.

(c) Intermediate care facilities.

CHAPTER 559

An act to amend Section 69591 of the Government Code, and to repeal Section 2 of Chapter 1587 of the Statutes of 1982, relating to courts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 11, 1987. Filed with Secretary of State September 11, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby declares that the County of Orange has satisfied the conditions contained in Section 2 of Chapter 1587 of the Statutes of 1982 and accordingly no transfer of title to the state has or will occur pursuant thereto. The sublease agreement, HS29B-101, dated November 22, 1985, between the State of California and the Orange County Harbors, Beaches, and Parks District which provides space for the Fourth Appellate District Court of Appeal in the old courthouse is hereby rescinded. Neither party shall be entitled to any compensation or reimbursement thereunder. Neither the County of Orange nor the Orange County

Harbors, Beaches, and Parks District shall be liable to the state for moneys expended to improve the old courthouse nor shall the state be liable for expenditures made by the county or district for tenant improvements therein. There shall be no obligation to provide space in the old courthouse in Santa Ana for use by the court of appeal. Notwithstanding any other provision of law, the old courthouse may be used for any superior court, municipal court, museum, or other county or harbors, beaches, and parks district purpose, provided that no alteration shall be made to the property which unduly reduces the property's historic integrity.

SEC. 2. Section 2 of Chapter 1587 of the Statutes of 1982 is repealed.

SEC. 3. Section 69591 of the Government Code is amended to read:

69591. In the County of Orange there shall be 54 judges of the superior court.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This act is necessitated by the increased space requirements of the Fourth Appellate District Court of Appeal which can no longer be adequately satisfied by space inside the old courthouse. The sublease agreement must be terminated so that the state can seek adequate space in another facility and the county can use the old courthouse for other purposes.

CHAPTER 560

An act to amend Sections 36951, 36952, and 37155 of, and to add Sections 37155.1, 37155.2, and 37155.3 to, the Water Code, relating to water districts, and declaring the urgency thereof, to take effect immediately.

(g) A statement of the name, address, and telephone number of the official who will furnish all information concerning redemption.

(h) A statement that after three years from the date of sale of the delinquent property to the district the right of redemption may be terminated upon execution and delivery to the district of a collector's deed pursuant to Chapter 6 (commencing with Section 37150).

SEC. 2. Section 36952 of the Water Code is amended to read:

36952. The notice required by Section 36951 shall be published in the county in which the property is located in the manner prescribed in Section 6063 of the Government Code, commencing not less than 21 days nor more than 28 days prior to the date required to be stated in the notice by subdivision (e) of Section 36951.

All such payments made by the credit union which are in addition to the normal charges required shall be added to the total amount appropriated by the Budget Act for the administrative expense of the system. However, benefits provided by the amendment may be increased or improved from time to time by further amendment to the contract. From and after the date specified in the amendment to the contract the provisions, as they are in effect at the time of election and as they may be amended in the future, shall apply to the contracting agency and to its employees, and the rights, privileges, duties, liabilities, and responsibilities of the contracting agency and of each of its employees included in this system shall be governed thereby.

Whenever there is a merger of contracts pursuant to this section, whether in whole or in part, the assumed contracts, or portions thereof, of the former agency's contract shall cease to exist and the contract of the succeeding agency shall be deemed a continuation of the prior agency's contract. However, any changes in contract terms in the succeeding agency's contract with respect to employees of the former agency shall be considered as a new contract with respect to those provisions.

Accumulated contributions held for or made by the former agency and its employees, and assets derived from those contributions, shall be merged with analogous contributions under the contract of the succeeding agency. Credit for prior and current service to members under the former agency's contract, which accrued while they were eligible for membership, shall not be reduced by the merger. Employees of a noncontracting public agency included in the succeeding agency contract shall become members in the manner applicable to employees of other contracting agencies and shall receive credit for service accordingly.

The liabililty to the Public Employees' Retirement System with respect to service credited under the former agency's contact shall become a contractual liability of the succeeding agency. The former and succeeding agencies may agree to apportion and adjust between them any payments with respect to service credit liability. However, no agreement shall operate to defeat the liability of the succeeding

agency with respect to that service.

SEC. 5. Section 20567.2 of the Government Code is repealed.

SEC. 6. Section 20567.3 of the Government Code is amended to read:

20567.3. When a school district ceases to exist and is succeeded by, or the territory thereof is attached to, another school district which is a contracting agency, the contract under which the contracting agency participates in the system shall be considered, with respect to the former district and its employees, a continuation of the contract under which the former district participated, with such changes as the succeeding contract contains. 20567.8. Notwithstanding any provision of this article, when all or a portion of one agency's contract is merged into that of another, the retirement allowances may be computed separately for service under the former contract and service under the succeeding contract. In these cases, a transferred member shall be subject to the terms and conditions of the succeeding agency's contract as the member was a new employee of the succeeding agency at the time of transfer.

Furthermore, when all or a portion of one agency's contract is merged into that of another, and when eligibility for membership is different between the two contracts, the differences shall not create prior service liabilities as against either agency, and transferred members shall not be entitled under either contract to credit for service rendered when they were not eligible for membership.

place to which the vehicle has been removed. If the vehicle is stored in a public garage, a copy of the notice shall be given to the proprietor of the garage. The notice provided for in this section shall include the amount of mileage on the vehicle at the time of removal. If the person does not know and is not able to ascertain the name of the owner or for any other reason is unable to give the notice to the owner as provided in this section, the person causing removal of the vehicle shall comply with the requirements of subdivision (c) of Section 22853 relating to notice in the same manner as applicable to an officer removing a vehicle from private property.

(c) This section does not limit or affect any right or remedy which the owner or person in lawful possession of private property may have by virtue of other provisions of law authorizing the removal of a vehicle parked upon private property.

(d) The owner of a vehicle removed from private property pursuant to subdivision (a) may recover for any damage to the vehicle resulting from any intentional or negligent act of any person causing the removal of, or removing, the vehicle.

If a request to release a vehicle is made within eight hours from the time the vehicle is brought into the storage facility, regardless of the calendar date, the storage charge shall be for only one day. 11400. (a) The Legislature finds and declares as follows:

(1) The State of California is leading the nation in the creation and development of the biotechnology industry, which experts predict will be the leading growth industry for the next quarter century.

(2) Recent advances in biotechnology are revolutionizing approaches to fundamental biological problems, opening new scientific vistas, and generating new products and industrial processes in pharmaceuticals, medicine, plant and animal agriculture, specialty chemicals, and environmental protection.

(3) In order to provide the scientific and technical manpower needed to sustain and advance California's lead in biotechnology, and to create an environment conducive to the growth of the industry within the state, it is essential that public high schools introduce pupils to the basic science that underlies molecular biology and the biotechnology industry.

(4) The existing biology curriculum in California's high schools is in great need of modernization and does not adequately emphasize the scientific concepts and techniques that underlie the emerging biology-based industries.

(5) The public high school science curriculum will be reviewed by the State Department of Education during the period from 1987 to 1990, inclusive, and revised science curriculum frameworks will be the product of the review.

(b) It is the intent of the Legislature to foster the development and dissemination of a science curriculum component that will provide high school pupils with awareness and understanding of the scientific concepts and techniques that form the basis of the biotechnology industry. It is also the intent of the Legislature that California's youth become aware of the tremendous potential of this new industry, including the economic and social costs and benefits that accompany new technology. Finally, it is the intent of the Legislature that the State Department of Education and the State Board of Education incorporate the concepts and techniques of

modern biology in the forthcoming science curriculum frameworks.

(c) It is the intent of the Legislature to establish a Blue Ribbon Biotechnology Curriculum Advisory Committee to advise the Superintendent of Public Instruction on the appropriateness of, feasibility of, and procedures and resources necessary to develop a high school biology curriculum component that emphasizes the basic concepts of genetics and biochemistry underlying molecular biology, explores the techniques of biotechnology, and studies the economic and social issues attending the introduction of new technologies.

11402. The Superintendent of Public Instruction shall establish a Blue Ribbon Biotechnology Curriculum Advisory Committee to advise the State Department of Education pursuant to this section.

(a) The Blue Ribbon Biotechnology Curriculum Committee shall be comprised of at least 10 members representing colleges and universities, firms in the biotechnology industry, school districts, county offices of education, biology teachers, and science administrators.

(b) On or before May 1, 1988, the committee shall report to the superintendent its findings and recommendations regarding the following:

(1) Whether the State Department of Education and State Board of Education should incorporate a high school biology curriculum component as described in subdivision (c) of Section 11400 in the forthcoming science curriculum frameworks.

(2) If the recommendation made pursuant to paragraph (1) is positive, the procedures and resources that are necessary to accomplish that purpose, including the following:

(A) A plan for the development of a high school biology curriculum component that emphasizes the basic concepts of genetics and biochemistry underlying molecular biology, explores the techniques of biotechnology, and studies the economic and social issues attending the introduction of new technologies. In developing this plan, the committee shall address the scope of the curriculum and make recommendations concerning appropriate content, instructional methods, materials, and equipment.

(B) A plan to implement the developed curriculum in a demonstration project in a broadly representative sample of high schools reflecting the geographical, ethnic, and economic diversity of the state.

(C) A plan to evaluate the effectiveness of the developed curriculum.

(D) A plan to train teachers to incorporate the developed curriculum effectively into their classroom instruction.

(E) A plan to monitor and update the developed curriculum on a timely and regular basis.

(c) The State Department of Education shall provide staff for the committee.

SEC. 2. Section 2053 is added to the Penal Code, to read:

2053. (a) The Legislature finds and declares that there is a correlation between prisoners who are functionally literate and those who successfully reintegrate into society upon release. It is therefore the intent of the Legislature, in enacting "The Prisoner Literacy Act," to raise the percentage of prisoners who are functionally literate, in order to provide for a corresponding reduction in the recidivism rate.

(b) The Department of Corrections shall determine the reading level of each prisoner upon commitment. The department shall report to the Legislature on or before July 1, 1988, regarding the reading levels of prisoners, the number of prisoners who are enrolled in reading programs, the recidivism rates of prisoners based upon their reading levels, the department's estimate of the amount of time it would take an average inmate to achieve a 9th grade reading level, the costs involved in implementing reading programs on a systemwide basis, the department's estimate on the amount of time necessary to establish a systemwide reading program, and any barriers which currently exist to the implementation of a systemwide reading program.

CHAPTER 591

An act to amend Section 2855 of the Labor Code, relating to employment.

[Approved by Governor September 11, 1987. Filed with Secretary of State September 14, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 2855 of the Labor Code is amended to read:

2855. (a) Except as otherwise provided in subdivision (b), a contract to render personal service, other than a contract of apprenticeship as provided in Chapter 4 (commencing with Section 3070), may not be enforced against the employee beyond seven years from the commencement of service under it. Any contract, otherwise valid, to perform or render service of a special, unique, unusual, extraordinary, or intellectual character, which gives it peculiar value and the loss of which can not be reasonably or adequately compensated in damages in an action at law, may nevertheless be enforced against the person contracting to render the service, for a term not to exceed seven years from the commencement of service under it. If the employee voluntarily continues to serve under it beyond that time, the contract may be referred to as affording a presumptive measure of the compensation.

(b) Notwithstanding subdivision (a):

(1) Any employee who is a party to a contract to render personal service in the production of phonorecords in which sounds are first fixed, as defined in Section 101 of Title 17 of the United States Code, may not invoke the provisions of subdivision (a) without first giving written notice to the employer in accordance with Section 1020 of the Code of Civil Procedure, specifying that the employee from and after a future date certain specified in the notice will no longer render service under the contract by reason of subdivision (a).

(2) Any party to such a contract shall have the right to recover damages for a breach of the contract occurring during its term in an action commmenced during or after its term, but within the applicable period prescribed by law.

(3) In the event a party to such a contract is, or could contractually be, required to render personal service in the production of a specified quantity of the phonorecords and fails to render all of the required service prior to the date specified in the notice provided in paragraph (1), the party damaged by the failure shall have the right to recover damages for each phonorecord as to which that party has failed to render service in an action which, notwithstanding paragraph (2), shall be commenced within 45 days after the date specified in the notice.

SEC. 2. The Legislature does not intend that the provisions of this act support any inference about the meaning of Section 2855 of the Labor Code prior to the operative date of this act or with respect to any industry other than the phonorecord industry.

CHAPTER 592

An act to amend Section 41960.2 of, and to add Section 41960.5 to, the Health and Safety Code, relating to air pollution.

[Approved by Governor September 11, 1987. Filed with Secretary of State September 14, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 41960.2 of the Health and Safety Code is amended to read:

41960.2. (a) All installed systems for the control of gasoline vapors resulting from motor vehicle fueling operations shall be maintained in good working order in accordance with the manufacturer's specifications of the system certified pursuant to Section 41954.

(b) Whenever a gasoline vapor recovery control system is repaired or rebuilt by someone other than the original manufacturer or its authorized representative, the person shall permanently affix a plate to the vapor recovery control system which identifies the

repairer or rebuilder and specifies that only certified equipment was used. In addition, a rebuilder of a vapor control system shall remove any identification of the original manufacturer where the removal does not affect the continued safety or performance of the vapor control system.

(c) The state board shall identify equipment defects in systems for the control of gasoline vapors resulting from motor vehicle fueling operations which substantially impair the effectiveness of the systems in reducing air contaminants.

(d) When a district determines that a component contains a defect specified pursuant to subdivision (c), the district shall mark the component "Out of Order". No person shall use or permit the use of the component until the component has been repaired, replaced, or adjusted, as necessary, and the district has reinspected the component or has authorized use of the component pending reinspection.

(e) Where a district determines that a component is not in good working order but does not contain a defect specified pursuant to subdivision (c), the district shall provide the operator with a notice specifying the basis on which the component is not in good working order. If, within seven days, the operator provides the district with adequate evidence that the component is in good working order, the operator shall not be subject to liability under this division.

SEC. 2. Section 41960.5 is added to the Health and Safety Code, to read:

41960.5. (a) No retailer, as defined in Section 20999 of the Business and Professions Code, shall allow the operation of any gasoline pump from which leaded gasoline is dispensed, or which is labeled as providing leaded gasoline, unless the pump is equipped with a nozzle spout meeting the required specifications for leaded gasoline nozzle spouts set forth in Title 40, Code of Federal Regulations, Section 80.22(f)(1).

(b) For the purpose of this section, "leaded gasoline" means gasoline which is produced with the use of any lead additive or which contains more than 0.05 gram of lead per gallon or more than 0.005 gram of phosphorus per gallon.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 593

An act to amend Section 980 of the Government Code, relating to public works contracts.

[Approved by Governor September 11, 1987. Filed with Secretary of State September 14, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 980 of the Government Code is amended to read:

980. Whenever a request for payment from the state or a local entity pursuant to the terms of a contract for the construction of a public works project as defined in Section 1720 of the Labor Code is properly filed and the validity of the claim is not disputed or has been settled or agreed upon, payment of the claim by the disbursing officer of the state or local public entity shall include interest at the legal rate of 7 percent per annum commencing on the date upon which the claim was submitted if payment has not been made by the 60th day after the proper submission of the claim.

CHAPTER 594

An act relating to education.

[Approved by Governor September 12, 1987. Filed with Secretary of State September 14, 1987]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) That California's non-Asian ethnic minorities will comprise nearly half the state's student population by the year 2000.

(b) That California's non-Asian ethnic minorities drop out of the state's public universities at rates approaching 60 percent.

(c) That California's non-Asian ethnic minorities drop out of the state's public high school at rates approaching 40 percent.

(d) That the Legislature passed Assembly Concurrent Resolution 83, Resolution Chapter 68 of the Statutes of 1984, creating the Intersegmental Policy Task Force on Assembly Concurrent Resolution 83 to make recommendations to improve minority student high school and college graduation rates.

(e) That the Intersegmental Policy Task Force has submitted its recommendations to the Legislature in the report Expanding Educational Equity in California's Schools and Colleges.

(f) That the Legislature, in order to effectively formulate its own

response to the report, requires status reports from each segment of public education on its implementation of its recommendations, including the specification of any impediments to implementation, especially those requiring legislative remedy.

SEC. 2. (a) The State Department of Education, the Board of Governors of the California Community Colleges, and the Trustees of the California State University, are each hereby directed to, and the Regents of the University of California are hereby requested to, report individually by June 30, 1988, on the implementation of the recommendations of the Intersegmental Policy Task Force on Assembly Concurrent Resolution 83.

(b) The reports shall be filed with the President pro Tempore of the Senate, the Speaker of the Assembly, the chairpersons of the Senate and Assembly education committees, the chairpersons of the Senate and Assembly fiscal subcommittees which consider any of the budgets for any segment of public postsecondary education, the author of Assembly Concurrent Resolution 83 (Resolution Chapter 68, Statutes of 1984), and the California Postsecondary Education Commission.

(c) Each report shall specify in detail each of the following:

(1) The extent to which the reporting segment of public education has implemented each of the task force report recommendations appropriate to it. Discussion of recommendations intended to be implemented in the future shall, for each recommendation, include a plan, timeline, and budget for implementation.

(2) Impediments to implementation of any recommendation appropriate to the reporting segment of public education and either a plan, timeline, and budget for overcoming the impediments or a rationale for the lack thereof.

(3) Identification of any recommendation appropriate to the reporting segment of public education which it intends not to implement, irrespective of impediments or absence thereof, and the rationale for the decision.

(4) New legislation which the reporting segment of public education believes necessary to implement any of the recommendations appropriate to it.

SEC. 3. Within 60 days of the receipt the report of each segment of public education, as required by Section 2, the California Postsecondary Education Commission shall evaluate the contents thereof and report its comments to the Legislature.

CHAPTER 595

An act to amend Sections 40402 and 40462 of, and to add Section 40410.5 to, the Health and Safety Code, relating to air pollution.

[Approved by Governor September 12, 1987. Filed with Secretary of State September 14, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 40402 of the Health and Safety Code is amended to read:

40402. The Legislature finds and declares all of the following:

(a) That the South Coast Air Basin is a geographical entity not reflected by political boundaries.

(b) That the basin is acknowledged to have critical air pollution problems caused by the operation of millions of motor vehicles in the basin, stationary sources of pollution, frequent atmospheric inversions that trap aerial contaminants, and the large amount of sunshine that transforms vehicular and nonvehicular emissions into a variety of deleterious chemicals.

(c) That these critical air pollution problems are most acute in the foothill communities of the San Gabriel/Pomona Valleys and the Riverside/San Bernardino areas, where pollutants which originate in other parts of the basin are trapped by geographical and meteorological conditions characteristic of these areas.

(d) That the state and federal governments have promulgated ambient air quality standards for the protection of public health, and it is in the public interest that those standards not be exceeded.

(e) That, in order to achieve and maintain air quality within the ambient air quality standards, a comprehensive basinwide air quality management plan must be developed and implemented to provide for the rapid abatement of existing emission levels to levels which will result in the achievement and maintenance of the state and federal ambient air quality standards and to ensure that new sources of emissions are planned and operated so as to be consistent with the basin's air quality goals.

(f) That, in recognition of the fact that some regions within the basin face more critical air pollution problems than others, it is necessary for the basinwide air quality management plan to consider the specific air pollution problems of regions within the air basin in planning for facilities which create new sources of emissions.

(g) That, in order to successfully develop and implement a meaningful strategy for achieving and maintaining ambient air quality standards, local governments in the South Coast Air Basin must be delegated additional authority from the state in the control of vehicular sources and must retain existing authority to set stringent emission standards for nonvehicular sources.

(h) That, in order to successfully implement a comprehensive

program for the achievement and maintenance of state and federal ambient air quality standards in the South Coast Air Basin, the responsibilities of local and regional authorities with respect to air pollution control and air quality management plan adoption must be fully integrated into an agency with basinwide authority, largely to be governed by representatives of county and city governments.

SEC. 2. Section 40410.5 is added to the Health and Safety Code, to read:

40410.5. (a) There is hereby established within the south coast district a sensitive zone, which shall include the general forecast areas known as the San Gabriel/Pomona Valleys and the Riverside/San Bernardino areas.

(b) In addition to every other requirement for the issuance of a permit, the following requirements shall be applicable to the issuance of a permit by the south coast district for the construction or operation of any stationary source within the sensitive zone:

(1) When emission offsets are required to mitigate the air quality impacts of a stationary source, the offsets shall be secured by the applicant so as to bring about ambient air quality improvements within the sensitive zone. The applicant shall be required to demonstrate, to the satisfaction of the south coast district, that any emissions reductions acquired from stationary sources operating within the South Coast Air Basin will result in a demonstrable net ambient air quality improvement within the sensitive zone.

(2) In considering an application for a permit to construct or operate a stationary source, the south coast district board shall, in addition to making a finding and determination that the impacts of the stationary source will be mitigated so as to result in a net improvement in ambient air quality within the South Coast Air Basin, also make a finding and determination that the impacts of the stationary source can be mitigated so as to result in a net improvement in ambient air quality within the sensitive zone.

(c) The requirements of subdivision (b) shall not apply until the south coast district board has adopted rules and regulations to implement this section.

SEC. 3. Section 40462 of the Health and Safety Code is amended to read:

40462. (a) The plan and subsequent revisions shall contain deadlines for compliance with the federally mandated attainment of primary ambient air quality standards. The plan and subsequent revisions shall contain deadlines and schedules to achieve the state ambient and the federal secondary ambient air quality standards by the earliest date achievable by the application of all reasonably available control measures and technologies.

(b) The plan and subsequent revisions shall ensure that future growth and development within the South Coast Air Basin and in the sensitive zone established pursuant to subdivision (a) of Section 40410.5 are, to the maximum extent feasible, consistent with the goal of achieving and maintaining the air quality standards. The revisions

to the plan shall identify the resources necessary to carry out its provisions, including enforcement costs and the effect of its provisions on energy resources.

SEC. 3.5. Section 40462 of the Health and Safety Code is amended to read:

40462. (a) The plan and subsequent revisions shall contain deadlines for compliance with the federally mandated attainment of primary ambient air quality standards. The plan and subsequent revisions shall contain deadlines and schedules to achieve the state ambient air quality standards by the earliest date achievable by the application of all reasonably available control measures and technologies, including, but not limited to, the best available control technology, indirect source controls, and transportation control measures, and the use of cleaner burning alternative fuels. The plan and subsequent revisions shall contain deadlines and schedules to achieve the federal secondary ambient air quality standards by the earliest date achievable by the application of all reasonably available control measures and technologies.

(b) The plan and subsequent revisions shall ensure that future growth and development in the South Coast Air Basin and within the sensitive zone established pursuant to subdivision (a) of Section 40410.5 are, to the maximum extent feasible, consistent with the goal of achieving and maintaining those air quality standards. The revisions to the plan shall identify the resources necessary to carry out its provisions, including enforcement costs and the effect of its provisions on energy resources.

SEC. 4. Section 3.5 of this bill incorporates amendments to Section 40462 of the Health and Safety Code proposed by both this bill and SB 151. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1988, (2) each bill amends Section 40462 of the Health and Safety Code, and (3) this bill is enacted after SB 151, in which case Section 3 of this bill shall not become operative.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 596

An act to amend Sections 1366 and 1368 of the Civil Code, relating to homeowner's associations.

[Approved by Governor September 12, 1987 Filed with Secretary of State September 14, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 1366 of the Civil Code is amended to read:

1366. (a) Except as provided in this section, the association shall levy regular and special assessments sufficient to perform its obligations under the governing documents and this title.

(b) Notwithstanding more restrictive limitations placed on the board by the governing documents, the board of directors may not impose a regular assessment that is more than 20 percent greater than the regular assessment for the association's preceding fiscal year or impose special assessments which in the aggregate exceed 5 percent of the budgeted gross expenses of the association for that fiscal year without the approval of owners, constituting a quorum, casting a majority of the votes at a meeting or election of the association conducted in accordance with Chapter 5 (commencing with Section 7510) of Part 3 of Division 2 of Title 1 of the Corporations Code and Section 7613 of the Corporations Code. For the purposes of this section, quorum means more than 50 percent of the owners of an association. This section does not limit assessment increases necessary for emergency situations. For purposes of this section, an emergency situation is any one of the following:

(1) An extraordinary expense required by an order of a court.

(2) An extraordinary expense necessary to repair or maintain the common interest development or any part of it for which the association is responsible where a threat to personal safety on the property is discovered.

(3) An extraordinary expense necessary to repair or maintain the common interest development or any part of it for which the association is responsible that could not have been reasonably foreseen by the board in preparing and distributing the proforma operating budget under Section 1365. However, prior to the imposition or collection of an assessment under this subdivision, the board shall pass a resolution containing written findings as to the necessity of the extraordinary expense involved and why the expense was not or could not have been reasonably foreseen in the budgeting process, and the resolution shall be distributed to the members with the notice of assessment.

(c) Regular and special assessments levied pursuant to the governing documents are delinquent 15 days after they become due. If an assessment is delinquent the association may recover all of the following:

(1) Reasonable costs incurred in collecting the delinquent assessment, including reasonable attorney's fees.

(2) A late charge not exceeding 10 percent of the delinquent assessment or ten dollars ($10), whichever is greater, unless the declaration specifies a late charge in a smaller amount, in which case any late charge imposed shall not exceed the amount specified in the declaration.

(3) Interest on all sums imposed in accordance with this section, including the delinquent assessment, reasonable costs of collection, and late charges, at an annual percentage rate not to exceed 12 percent interest, commencing 30 days after the assessment becomes due.

(d) Associations are hereby exempted from interest-rate limitations imposed by Article XV of the California Constitution, subject to the limitations of this section.

SEC. 2. Section 1368 of the Civil Code is amended to read:

1368. (a) The owner of a separate interest, other than an owner subject to the requirements of Section 11018.6 of the Business and Professions Code, shall, as soon as practicable before transfer of title to the separate interest or execution of a real property sales contract therefor, as defined in Section 2985, provide the following to the prospective purchaser:

(1) A copy of the governing documents of the common interest development.

(2) If there is a restriction in the governing documents limiting the occupancy, residency, or use of a separate interest on the basis of age in a manner different from that provided in Section 51.3, a statement that the restriction is only enforceable to the extent permitted by Section 51.3 and a statement specifying the applicable provisions of Section 51.3.

(3) A copy of the most recent financial statement distributed pursuant to Section 1365.

(4) A true statement in writing from an authorized representative of the association as to the amount of any assessments levied upon the owner's interest in the common interest development which are unpaid on the date of the statement. The statement shall also include true information on late charges, interest, and costs of collection which, as of the date of the statement, are or may be made a lien upon the owner's interest in a common interest development pursuant to Section 1367.

(b) Upon written request, an association shall, within 10 days of the mailing or delivery of the request, provide the owner of a separate interest with a copy of the requested items specified in paragraphs (1), (2), (3), and (4) of subdivision (a). The association may charge a fee for this service, which shall not exceed the association's reasonable cost to prepare and reproduce the requested items.

(c) An association shall not impose or collect any assessment, penalty, or fee in connection with a transfer of title or any other

interest except the association's actual costs to change its records and that authorized by subdivision (b).

(d) Any person or entity who willfully violates this section shall be liable to the purchaser of a separate interest which is subject to this section for actual damages occasioned thereby and, in addition, shall pay a civil penalty in an amount not to exceed five hundred dollars ($500). In an action to enforce this liability, the prevailing party shall be awarded reasonable attorneys' fees.

(e) Nothing in this section affects the validity of title to real property transferred in violation of this section.

(f) In addition to the requirements of this section, an owner transferring title to a separate interest shall comply with applicable requirements of Sections 1133 and 1134.

CHAPTER 597

An act to add Section 417.2 to the Penal Code, relating to crime.

[Approved by Governor September 12, 1987. Filed with Secretary of State September 14, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 417.2 is added to the Penal Code, to read:

417.2. (a) Every person who, except in self-defense, draws or exhibits a replica of a firearm in a threatening manner against another in such a way as to cause a reasonable person apprehension or fear of bodily harm is guilty of a misdemeanor.

(b) As used in this section, "a replica of a firearm" means any device with the apparent capability of expelling a projectile by the force of air or an explosion and which is reasonably perceived by the person against whom the device is drawn or exhibited to be an actual firearm, including starter pistols and air guns.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

(1) To pay the principal, sinking fund payments, if any, premiums, if any, and the interest on outstanding bonds of the authority issued in respect of the project when due and payable.

(2) To create and maintain reserves which may, but need not necessarily be required or provided for, in the resolution relating to the revenue bonds of the authority.

(3) To pay its share of the administrative costs and expenses of the authority.

(b) The authority shall pledge the revenues derived and to be derived from a project or from a participating district for the purposes specified in paragraphs (1), (2), and (3) of subdivision (a). Whenever the principal and interest on bonds issued by the authority to finance the cost of a project, or to refinance the outstanding indebtedness of one or more participating districts, including any refunding bonds issued to refund and refinance those bonds, have been fully paid or retired, or whenever adequate provision has been made to fully pay and retire the bonds, and all other conditions of the resolution, lease, trust indenture and any security interest, or any other instrument or instruments authorizing and securing the bonds have been satisfied and the lien of security interest has been released in accordance with those provisions, the authority shall promptly provide for and execute any releases, release deeds, reassignments, deeds, and conveyances as are necessary and required to convey or release its rights, title, and interest in the project financed, to the participating districts.

SEC. 10. Section 17899.1 of the Education Code is amended to read:

17899.1. (a) Any participating district, exclusively for the purpose of securing financing or refinancing of projects or working capital pursuant to this chapter through the issuance of revenue bonds, certificates of participation, or other means, and notwithstanding any other provision of law, may issue bonds to the authority or borrow money or purchase or lease educational facilities from the authority, and in connection therewith, sell or lease property to the authority, at any interest rate or rates, rental provisions, with any maturity date or dates or term, and with any other payment, security, default, remedy, and other terms or provisions as may be specified in the bonds of the participating district or a loan, loan purchase, installment sale, lease, or other agreement between the authority and the participating district, subject to the following conditions:

(1) The sum of the amount borrowed to finance working capital and the interest payable thereon at the initial interest rate if interest is variable, shall not exceed 85 percent of the estimated amount of uncollected taxes, income, revenue, cash receipts, and other district funds which will be available in any fiscal year for the repayment of the loan and the interest thereon. For purposes of this paragraph, "revenue" includes, but is not limited to, federal and state funds received by the district.

(2) In computing the maximum amount which may be borrowed in any fiscal year pursuant to paragraph (1), the district may exclude the amount of any principal or interest which is secured by a pledge of the amount in any inactive or term deposit of the district which has a term scheduled to terminate during that fiscal year.

(3) A participating district that borrows money to finance working capital pursuant to this subdivision shall be required to repay and discharge the loan within 15 months of the loan date.

(4) In enacting this chapter, it is the intent of the Legislature to provide financing of working capital needed to cover temporary or cash-flow deficits and needs for working capital and not long-term budget deficits or shortfalls in funding. The participating school district must demonstrate to the satisfaction of the authority that, during the term of any working capital loan received pursuant to this chapter, the participating district will receive or otherwise have (without additional borrowing) sufficient funds to repay and discharge the loan. The participating district may take into account all district funds and may base future projections upon historical experience or reasonable expectations, or a combination thereof.

(b) Any participating district may enter into any agreement for liquidity or credit enhancement, with any reimbursement, payment, interest, security, default, remedy, and other terms it may deem necessary or appropriate in connection with the issuance of bonds, the borrowing of money or the lease or purchase of educational facilities, whichever is applicable. Any participating district or districts may also do all things and execute all documents as may be necessary or desirable in connection with the issuance of certificates of participation, or other interests, in any bond, loan, installment sale, lease, or other agreement of the district.

(c) A school district may by resolution authorize any county or city board of education or superintendent of schools, and a community college district may by resolution authorize the Board of Governors of the California Community Colleges or the Chancellor of the California Community Colleges, to act as its agent in the performance of any of the matters permitted by this section or any other provision of this chapter. Notwithstanding any other provision of law, the agent shall have the powers granted by the resolution for purposes of this chapter. The resolution shall be deemed to bind the school district or community college district, as the case may be, to any contract, agreement, instrument, or other document executed by the agent on behalf of the school district or community college district, and all duties, obligations, or responsibilities contained therein on the part of the school district or community college district, to the same extent as if duly authorized, executed, and delivered by the school district or community college district.

(d) This section shall be deemed to provide a complete, additional, and alternative method for accomplishing the acts authorized by this section, and the issuance of bonds to, borrowing of money from, or sale or purchase or lease of educational facilities from or to, the authority. Any agreement entered into in connection with the issuance of bonds, the borrowing of money or the sale, purchase, or lease of educational facilities, including, without limitation, any agreement for liquidity or credit enhancement under this section, need not comply with the requirements of any other law

applicable to issuance of bonds, borrowing, selling, purchasing, leasing, pledge, encumbrance, or credit, as the case may be, by a school district or community college district, or by a county or city board of education or superintendent of schools or the Board of Governors of the California Community Colleges or Chancellor of the California Community Colleges.

SECTION 1. Section 22726 of the Education Code is amended to read:

22726. Whenever the governing board of a school district or a community college district or a county superintendent of schools, by formal action, determines pursuant to Section 44929 or 87488 that because of impending curtailment of or changes in the manner of performing services, the best interests of the district or county superintendent of schools would be served by encouraging the retirement of certificated employees and that the retirement will either: (1) result in a net savings to the district or county superintendent of schools, or (2) result in a reduction of the number of certificated employees as a result of declining enrollment, or (3) result in the retention of certificated employees who are credentialed to teach in teacher shortage disciplines, including, but not limited to, mathematics and science, an additional two years of service shall be credited to a member if all of the following conditions exist:

(a) The member is credited with five or more years of service and retires during a period not more than 120 days or less than 60 days, commencing no sooner than the effective date of the formal action of the employer which shall specify the period.

(b) The employer transmits to the retirement fund an amount determined by the Teachers' Retirement Board which equals the actuarial equivalent of the difference between the allowance the member receives after receipt of service credit under this section and the amount the member would have received without the service credit. The transfer to the retirement fund shall be made in a manner and time period acceptable to the Teachers' Retirement Board.

(c) The employer transmits to the retirement fund the administrative costs incurred by the system in implementing this section, as determined by the Teachers' Retirement Board.

The employer shall make the payment with respect to all eligible employees who retired pursuant to this section.

Any member who qualifies under this section and subsequently reenters the system, shall forfeit the service credit acquired under this section.

This section shall not be applicable to any member otherwise eligible if the member receives any unemployment insurance payments arising out of employment with an employer subject to this part during a period extending one year beyond the effective date of the formal action, or if the member is not otherwise eligible to retire for service.

This section shall become inoperative on July 1, 1990, and, as of January 1, 1991, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1991, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 2. Section 44929 of the Education Code is amended to read:

44929. (b) The district or county superintendent of schools transmits to the retirement fund an amount determined by the Teachers' Retirement Board which equals the actuarial equivalent of the difference between the allowance the member receives after the receipt of service credit under this section and Section 22726 and the

amount the member would have received without the service credit. The transfer to the retirement fund shall be made in a manner and time period acceptable to the Teachers' Retirement Board.

The community college district shall make the payment with respect to all eligible employees who retired pursuant to this section and Section 22726.

Any employee who qualifies under this section and Section 22726 and subsequently reenters the State Teachers' Retirement System, shall forfeit the service credit acquired under this section and Section 22726.

This section shall not be applicable to any employee otherwise eligible if the employee receives any unemployment insurance payments arising out of employment with an employer subject to Part 13 (commencing with Section 22000) of Title 1 during a period extending one year beyond the effective date of the formal action, or if the employee is not otherwise eligible to retire for service under the State Teachers' Retirement System.

CHAPTER 602

An act to amend Section 42301.5 of the Health and Safety Code, relating to air pollution.

[Approved by Governor September 12, 1987. Filed with Secretary of State September 14, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 42301.5 of the Health and Safety Code is amended to read:

42301.5. (a) Except as provided in subdivision (b), any district regulation which requires a reduction in emissions from any article, machine, equipment, or contrivance for which an authority to construct was issued between January 1, 1981, and December 31, 1987, inclusive, shall become effective for that article, machine, equipment, or contrivance five years after issuance of the permit to operate if the regulation was adopted after issuance of the authority to construct and construction has commenced within two years of the date of issuance of the authority to construct or the applicant has, in good faith reliance upon the permit issued, performed substantial work or incurred substantial liability.

(b) The district may require compliance with a regulation prior to completion of the five-year period specified in subdivision (a) if the district or a portion of the district is designated by the state board as a nonattainment area for any national ambient air quality standard and the district determines that earlier compliance is necessary to demonstrate reasonable progress toward attainment and that, on a case-by-case basis, compliance with the regulation will not do any of the following:

(1) Require the abandonment or removal from service of any existing manufacturing or energy-producing equipment.

(2) Specify an emission level or operating standard which would cause a substantial increase in the rate of degradation of energy-producing equipment or would cause a violation or voiding of a manufacturer's warranty for that equipment.

(3) Result in an increase in operating costs in excess of 5 percent per year for the article, machine, equipment, or contrivance for which the authority to construct was originally issued.

(4) Require an increase in capital costs in excess of one hundred thousand dollars ($100,000) or 3 percent of the original capital cost of the article, machine, equipment, or contrivance for which the authority to construct was originally issued, whichever is greater.

(c) Any article, machine, equipment, or contrivance which may emit into the ambient air any toxic air contaminant identified pursuant to Section 39662 shall comply with any regulation adopted by the state board or a district requiring a reduction in emissions of that contaminant or chemical from the article, machine, equipment, or contrivance consistent with a reasonable schedule of compliance, as determined by the state board or the district.

(d) (1) Any article, machine, equipment, or contrivance which is located within a district which is designated by the state board as a nonattainment area for any national ambient air quality standard, and for which an authority to construct is issued on or after January 1, 1988, shall comply with any district regulation which is adopted after December 31, 1982, and which requires a reduction in emissions of any air pollutant, including any precursor of an air pollutant, which interferes with the attainment of the standard, from that article, machine, equipment, or contrivance consistent with a reasonable schedule of compliance, as determined by the district.

(2) In determining a schedule of compliance under this subdivision, the district shall consider the extent to which the proposed schedule will adversely affect the ability of the facility owner or operator to amortize the capital costs of pollution control equipment purchased within the preceding five years.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction and because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 603

14035.9. The department shall in conjunction with the Department of Corrections evaluate the addition of stations or stops on existing bus or rail routes, or the addition of new services, which improve transportation access for visitors to prisons. The department shall give reasonable priority to stations, stops, and routes which serve visitors to prisons, particularly when alternative public transportation is minimal or nonexistent.

Whenever possible, the department and the Department of Corrections shall seek to implement these services in conjunction with the opening of new prison facilities.

(3) Exclusive public mass transit guideways and rolling stock.

(4) Grade separations.

(5) Intermodal transfer stations serving various transportation modes.

(b) Funds made available pursuant to Sections 199 and 199.1 of the Streets and Highways Code shall be appropriated to the department for allocation, as directed by the commission, solely to fund exclusive public mass transit guideways.

SEC. 4. Section 99317.9 is added to the Public Utilities Code, to read:

99317.9. The department and the commission shall give reasonable priority to allocations pursuant to paragraph (5) of subdivision (a) of Section 99317 to station projects which improve access for visitors to state prisons.

(a) Upon the approval of a proposition by the voters of an area pursuant to Section 4 of Article XIX of the California Constitution, the entity, including, but not limited to, a transit district, responsible for construction of an exclusive public mass transit guideway project in that area may submit the project to the department for inclusion in its resource allocation recommendations. If the project is located within an area under the jurisdiction of a statutorily created transportation planning agency, a county transportation commission, or the San Diego Metropolitan Transit Development Board, the project shall be approved by that agency, commission, or board, as the case may be, prior to being submitted to the department.

(b) Projects eligible for funding as exclusive public mass transit guideway projects shall include rail lines on which the department contracts for rail passenger service pursuant to Section 14035 of the Government Code, if the voters have approved a proposition pursuant to Section 4 of Article XIX of the California Constitution for the area in which the project is to be located. The department, or a local entity, including, but not limited to, a transit district, may submit the project to the department for inclusion in its resource allocation recommendations. If the project is located within an area under the jurisdiction of a statutorily created transportation planning agency, a county transportation commission, or the San Diego Metropolitan Transit Development Board, the project shall be approved by that agency, commission, or board, as the case may be, prior to being submitted to the department.

(c) The department shall submit its resource allocation recommendations for that project for the comment and review of the transportation planning agency designated in Section 29532 of the Government Code for the area, except that, in the case of a project located within an area under the jurisdiction of a statutorily created transportation planning agency, a county transportation commission, or the San Diego Metropolitan Transit Development Board the project shall be approved by that agency, commission, or board, as the case may be. Each project shall be submitted by the department to the California Transportation Commission for the allocation of funds to the project from those funds appropriated for guideway purposes from the State Highway Account. Allocations shall be made under terms and conditions that the commission deems appropriate, taking into consideration any recommendation of the department and any agency, commission, or board.

(d) The funds set aside pursuant to this section from the State Highway Account shall be deemed expenditures on the highway

system for purposes of Sections 188 and 188.8 and shall be separately identified in the budget report submitted to the Legislature. However, the commission shall make multiyear commitments for programming guideway projects over the five-year period of the state transportation improvement program if the projects require funding in more than one year.

(e) If the department and the commission determine that funding is not available from the Transportation Planning and Development Account in the State Transportation Fund for all eligible transit capital improvements, projects eligible for funding pursuant to Section 4 of Article XIX of the California Constitution shall be so funded.

[Approved by Governor September 12, 1987 Filed with Secretary of State September 14, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 12940 of the Government Code is amended to read:

12940. It shall be an unlawful employment practice, unless based upon a bona fide occupational qualification, or, except where based

upon applicable security regulations established by the United States or the State of California:

(a) For an employer, because of the race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex of any person, to refuse to hire or employ the person or to refuse to select the person for a training program leading to employment, or to bar or to discharge the person from employment or from a training program leading to employment, or to discriminate against the person in compensation or in terms, conditions or privileges of employment.

(1) Nothing in this part shall prohibit an employer from refusing to hire or discharging a physically handicapped employee, or subject an employer to any legal liability resulting from the refusal to employ or the discharge of a physically handicapped employee, where the employee, because of his or her physical handicap, is unable to perform his or her duties, or cannot perform those duties in a manner which would not endanger his or her health or safety or the health and safety of others.

(2) Nothing in this part shall prohibit an employer from refusing to hire or discharging an employee who, because of the employee's medical condition, is unable to perform his or her duties, or cannot perform those duties in a manner which would not endanger the employee's health or safety or the health or safety of others. Nothing in this part shall subject an employer to any legal liability resulting from the refusal to employ or the discharge of an employee who, because of the employee's medical condition, is unable to perform his or her duties, or cannot perform those duties in a manner which would not endanger the employee's health or safety or the health or safety of others.

(3) Nothing in this part relating to discrimination on account of marital status shall either (i) affect the right of an employer to reasonably regulate, for reasons of supervision, safety, security, or morale, the working of spouses in the same department, division, or facility, consistent with the rules and regulations adopted by the commission, or (ii) prohibit bona fide health plans from providing additional or greater benefits to employees with dependents than to those employees without or with fewer dependents.

(4) Nothing in this part relating to discrimination on account of sex shall affect the right of an employer to use veteran status as a factor in employee selection or to give special consideration to Vietnam era veterans.

(b) For a labor organization, because of the race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex of any person, to exclude, expel or restrict from its membership the person, or to provide only second-class or segregated membership or to discriminate against any person because of the race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex of the person in the election of officers of the labor organization or in the

selection of the labor organization's staff or to discriminate in any way against any of its members or against any employer or against any person employed by an employer.

(c) For any person to discriminate against any person in the selection or training of that person in any apprenticeship training program or any other training program leading to employment because of the race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex of the person discriminated against.

(d) For any employer or employment agency, unless specifically acting in accordance with federal equal employment opportunity guidelines and regulations approved by the commission, to print or circulate or cause to be printed or circulated any publication, or to make any non-job-related inquiry, either verbal or through use of an application form, which expresses, directly or indirectly, any limitation, specification, or discrimination as to race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex, or any intent to make any such limitation, specification or discrimination. Nothing in this subdivision shall prohibit any employer from making, in connection with prospective employment, an inquiry as to, or a request for information regarding, the physical fitness, medical condition, physical condition or medical history of applicants if that inquiry or request for information is directly related and pertinent to the position the applicant is applying for or directly related to a determination of whether the applicant would endanger his or her health or safety or the health or safety of others.

(e) For any employer, labor organization, or employment agency to harass, discharge, expel, or otherwise discriminate against any person because the person has made a report pursuant to Section 11161.8 of the Penal Code.

(f) For any employer, labor organization, employment agency, or person to discharge, expel, or otherwise discriminate against any person because the person has opposed any practices forbidden under this part or because the person has filed a complaint, testified, or assisted in any proceeding under this part.

(g) For any person to aid, abet, incite, compel, or coerce the doing of any of the acts forbidden under this part, or to attempt to do so.

(h) For an employer, labor organization, employment agency, apprenticeship training program or any training program leading to employment, or any other person, because of race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, sex, or age, to harass an employee or applicant. Harassment of an employee or applicant by an employee other than an agent or supervisor shall be unlawful if the entity, or its agents or supervisors, knows or should have known of this conduct and fails to take immediate and appropriate corrective action. An entity shall take all reasonable steps to prevent harassment from occurring. Loss of tangible job benefits shall not be necessary in order to establish

harassment. The provisions of this subdivision are declaratory of existing law, except for the new duties imposed on employers with regard to harassment. For purposes of this subdivision only, "employer" means any person regularly employing one or more persons, or any person acting as an agent of an employer, directly or indirectly, the state, or any political or civil subdivision thereof, and cities. However, "employer" does not include a religious association or corporation not organized for private profit. For other types of discrimination as enumerated in subdivision (a), an employer remains as defined in subdivision (c) of Section 12926. Nothing contained in this subdivision shall be construed to apply the definition of employer found in this subdivision to subdivision (a).

(i) For an employer, labor organization, employment agency, apprenticeship training program, or any training program leading to employment, to fail to take all reasonable steps necessary to prevent discrimination and harassment from occurring.

(j) For an employer or other entity covered by this part to refuse to hire or employ a person or to refuse to select a person for a training program leading to employment or to bar or to discharge a person from employment or from a training program leading to employment, or to discriminate against a person in compensation or in terms, conditions, or privileges of employment because of a conflict between the person's religious belief or observance and any employment requirement, unless the employer or other entity covered by this part demonstrates that it has explored any available reasonable alternative means of accommodating the religious belief or observance, including the possibilities of excusing the person from those duties which conflict with his or her religious belief or observance or permitting those duties to be performed at another time or by another person, but is unable to reasonably accommodate the religious belief or observance without undue hardship on the conduct of the business of the employer or other entity covered by this part. Religious belief or observance, as used in this section, includes, but is not limited to, observance such as a Sabbath or other religious holy day or days, and reasonable time necessary for travel prior and subsequent to a religious observance.

SEC. 3. Section 12946 of the Government Code is amended to read:

12946. It shall be an unlawful practice for employers, labor organizations, and employment agencies subject to the provisions of this part to fail to maintain and preserve any and all applications, personnel, membership, or employment referral records and files for a minimum period of two years after the records and files are initially created or received, or for employers to fail to retain personnel files of applicants or terminated employees for a minimum period of two years after the date of the employment action taken. For the purposes of this section, the State Personnel Board is exempt from the two-year retention requirement and shall instead, maintain the records and files for a period of one year. Upon notice that a verified

complaint against it has been filed under this part, any such employer, labor organization, or employment agency shall maintain and preserve any and all records and files until the complaint is fully and finally disposed of and all appeals or related proceedings terminated. The commission shall adopt suitable rules, regulations, and standards to carry out the purposes of this section. Where necessary, the department, pursuant to its powers under Section 12974, may seek temporary or preliminary judicial relief to enforce this section.

SEC. 5. Section 12956 is added to the Government Code, to read:

12956. Upon notice that a verified complaint against it has been filed under this part, any owner of housing accommodations shall maintain and preserve any and all rental records or any other written materials relevant to the complaint, until the complaint is fully and finally disposed of and all appeals or related proceedings terminated.

SEC. 6. Section 12980 of the Government Code is amended to read:

12980. The provisions of this article govern the procedure for the prevention and elimination of discrimination in housing made unlawful pursuant to Article 2 (commencing with Section 12955) of Chapter 6.

(a) Any person claiming to be aggrieved by an alleged violation of Section 12955 may file with the department a verified complaint in writing which shall state the name and address of the person alleged to have committed the violation complained of, and which shall set forth the particulars thereof and contain any other information required by the department.

The filing of a complaint and pursuit of conciliation or remedy under this part shall not prejudice the complainant's right to pursue effective judicial relief under other applicable laws, but if a civil action has been filed under Section 52 of the Civil Code, the department shall terminate proceedings upon notification of the entry of final judgment unless the judgment is a dismissal entered at the complainant's request.

(b) The Attorney General or the director may, in a like manner, make, sign, and file complaints citing practices which appear to violate the purpose of this part or any specific provisions of this part relating to housing discrimination.

No complaint may be filed after the expiration of 60 days from the date upon which the alleged violation occurred. This period may be extended for not to exceed 60 days following the expiration of the initial 60 days, if a person allegedly aggrieved by the violation first obtained knowledge of the facts of the alleged violation after the expiration of the initial 60 days from date of its occurrence.

(c) The department may thereupon proceed upon the complaint in the same manner and with the same powers as provided in this part in the case of an unlawful practice.

(d) If an accusation is not issued within 150 days after the filing of a complaint, or if the department earlier determines that no

accusation will issue, the department shall promptly notify the person claiming to be aggrieved. This notice shall, in any event, be issued no more than 30 days after the date of the determination or 30 days after the date of the expiration of the 150-day period, whichever date first occurs. The notice shall indicate that the person claiming to be aggrieved may bring a civil action under this part against the person named in the verified complaint within one year from the date this notice is mailed. The superior, municipal, and justice courts of the State of California shall have jurisdiction of these actions, and the aggrieved person may file in any of these courts. The action may be brought in any county in the state in which the violation is alleged to have been committed, or in the county in which the records relevant to the alleged violation are maintained and administered, but if the defendant is not found within that county, the action may be brought within the county of defendant's residence or principal office. A copy of any complaint filed pursuant to this part shall be served on the principal offices of the department and of the commission. The remedy for failure to send a copy of a complaint is an order to do so. In a civil action brought under this section, the court, in its discretion, may award to the prevailing party reasonable attorney fees.

SEC. 7. Section 12982 of the Government Code is repealed.

SEC. 8. Section 12983 of the Government Code is amended to read:

12983. The department, at any time after a complaint is filed with it and it has been determined that probable cause exists for believing that the allegations of the complaint are true and constitute a violation of this part, may bring an action in the superior court to enjoin the owner of the property from taking further action with respect to the rental, lease, or sale of the property, as well as to require compliance with Section 12956, until the department has completed its investigation and made its determination; but a temporary restraining order obtained under this section shall not, in any event, be in effect for more than 20 days. In this action an order or judgment may be entered awarding the temporary restraining order or the preliminary or final injunction in accordance with Section 527 of the Code of Civil Procedure.

SEC. 9. Section 12986 of the Government Code is amended to read:

12986. The department shall within 45 days cause a copy of the verified complaint that has been filed under the provisions of this part to be served upon or mailed to the owner alleged to have committed the violation complained of.

SECTION 1. Section 667.5 of the Penal Code is amended to read:

667.5. Enhancement of prison terms for new offenses because of prior prison terms shall be imposed as follows:

(a) Where one of the new offenses is one of the violent felonies specified in subdivision (c), in addition and consecutive to any other prison terms therefor, the court shall impose a three-year term for each prior separate prison term served by the defendant where the prior was one of the violent felonies specified in subdivision (c); provided that no additional term shall be imposed under this subdivision for any prison term served prior to a period of 10 years in which defendant remained free of both prison custody and the commission of an offense which results in a felony conviction.

(b) Except where subdivision (a) applies, where the new offense is any felony for which a prison sentence is imposed, in addition and consecutive to any other prison terms therefor, the court shall impose a one-year term for each prior separate prison term served for any felony; provided that no additional term shall be imposed under this subdivision for any prison term served prior to a period of five years in which the defendant remained free of both prison custody and the commission of an offense which results in a felony conviction.

(c) For the purpose of this section, "violent felony" shall mean any of the following:

(1) Murder or voluntary manslaughter.

(2) Mayhem.

(3) Rape as defined in subdivision (2) of Section 261.

(4) Sodomy by force, violence, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person.

(5) Oral copulation by force, violence, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person.

(6) Lewd acts on a child under 14 as defined in Section 288.

(7) Any felony punishable by death or imprisonment in the state prison for life.

(8) Any other felony in which the defendant inflicts great bodily injury on any person other than an accomplice which has been charged and proved as provided for in Section 12022.7 on or after July 1, 1977, or as specified prior to July 1, 1977, in Sections 213, 264, and 461, or any felony in which the defendant uses a firearm which use has been charged and proved as provided in Section 12022.5.

(9) Any robbery perpetrated in an inhabited dwelling house or trailer coach, as defined in the Vehicle Code, or in the inhabited portion of any other building, wherein it is charged and proved that the defendant personally used a deadly or dangerous weapon, as provided in subdivision (b) of Section 12022, in the commission of that robbery.

The Legislature finds and declares that these specified crimes merit special consideration when imposing a sentence to display society's condemnation for such extraordinary crimes of violence against the person.

(d) For the purposes of this section the defendant shall be deemed to remain in prison custody for an offense until the official discharge from custody or until release on parole whichever first occurs including any time during which the defendant remains subject to reimprisonment for escape from custody or is reimprisoned on revocation of parole. The additional penalties provided for prior prison terms shall not be imposed unless they are charged and admitted or found true in the action for the new offense.

(e) The additional penalties provided for prior prison terms shall not be imposed for any felony for which the defendant did not serve a prior separate term in state prison.

(f) A prior conviction of a felony shall include a conviction in another jurisdiction for an offense which if committed in California is punishable by imprisonment in state prison if the defendant served one year or more in prison for the offense in the other jurisdiction. A prior conviction of a particular felony shall include a conviction in another jurisdiction for an offense which includes all of the elements of the particular felony as defined under California law if the defendant served one year or more in prison for the offense in the other jurisdiction.

(g) A prior separate prison term for the purposes of this section shall mean a continuous completed period of prison incarceration

imposed for the particular offense alone or in combination with concurrent or consecutive sentences for other crimes, including any reimprisonment on revocation of parole which is not accompanied by a new commitment to prison, and including any reimprisonment after an escape from incarceration.

(h) Serving a prison term includes any confinement time in any state prison or federal penal institution as punishment for commission of an offense, including confinement in a hospital or other institution or facility credited as service of prison time in the jurisdiction of the confinement.

(i) For the purposes of this section, a commitment to the State Department of Health as a mentally disordered sex offender following a conviction of a felony, which commitment exceeds one year in duration, shall be deemed a prior prison term.

(j) For the purposes of this section, when a person subject to the custody, control, and discipline of the Director of Corrections is incarcerated at a facility operated by the Youth Authority, that incarceration shall be deemed to be a term served in state prison.

(k) Notwithstanding subdivisions (d) and (g) or any other provision of law, where one of the new offenses is committed while defendant is temporarily removed from prison pursuant to Section 2690 or while defendant is transferred to a community facility pursuant to Section 3416, 6253, or 6263, or while defendant is on furlough pursuant to Section 6254, the defendant shall be subject to the full enhancements provided for in this section.

This subdivision shall not apply when a full, separate, and consecutive term is imposed pursuant to any other provision of law.

SEC. 2. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667.5, 667.6, or 12022.1. The principal term shall consist of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to Section 12022, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.8, or 12022.9. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined in subdivision (c) of Section 667.5 exceed five years. The subordinate term for each consecutive offense which is a "violent felony" as defined in

subdivision (c) of Section 667.5, including those offenses described in paragraph (8) or (9) of subdivision (c) of Section 667.5, shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall include one-third of any enhancements imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.7, or 12022.9.

(b) When a consecutive term of imprisonment is imposed under Sections 669 and 1170 for two or more convictions for kidnapping, as defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.7, or 12022.9. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while the person is confined in a state prison, or is subject to reimprisonment for escape from such custody and the law either requires the terms to be served consecutively or the court imposes consecutive terms, the term of imprisonment for all the convictions which the person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

(d) When the court imposes a prison sentence for a felony pursuant to Section 1170 the court shall also impose the additional terms provided in Sections 667.5, 12022, 12022.4, 12022.5, 12022.6, 12022.7, and 12022.9, unless the additional punishment therefore is stricken pursuant to subdivision (h). The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the Judicial Council.

(e) When two or more enhancements under Sections 12022, 12022.4, 12022.5, 12022.7, and 12022.9 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of penetration of a genital or anal opening by a foreign object, as defined in Section 289, oral copulation, sodomy, robbery, rape or

burglary, or attempted penetration of a genital or anal opening by a foreign object, oral copulation, sodomy, robbery, rape, murder, or burglary the court may impose both (1) one enhancement for weapons as provided in either Section 12022, 12022.4, or 12022.5 and (2) one enhancement for great bodily injury as provided in either Section 12022.7 or 12022.9.

(f) The enhancements provided in Sections 667.5, 667.6, 12022, 12022.1, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.8, and 12022.9 shall be pleaded and proven as provided by law.

(g) The term of imprisonment shall not exceed twice the number of years imposed by the trial court as the base term pursuant to subdivision (b) of Section 1170 unless the defendant stands convicted of a "violent felony" as defined in subdivision (c) of Section 667.5, or a consecutive sentence is being imposed pursuant to subdivision (c) of this section, or an enhancement is imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.6, 12022.7, or 12022.9 or the defendant stands convicted of felony escape from an institution in which he is lawfully confined.

(h) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in Sections 667.5, 12022, 12022.4, 12022.5, 12022.6, 12022.7, and 12022.9 if it determines that there are circumstances in mitigation of the additional punishment and states on the record its reasons for striking the additional punishment.

(i) For any violation of subdivision (2) or (3) of Section 261, Section 264.1, subdivision (b) of Section 288, subdivision (a) of Section 289, or sodomy or oral copulation by force, violence, duress, menace or fear of immediate and unlawful bodily injury on the victim or another person as provided in Section 286 or 288a, the number of enhancements which may be imposed shall not be limited, regardless of whether such enhancements are pursuant to this or some other section of law. Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

The people of the State of California do enact as follows:

SECTION 1. Section 779.1 of the Public Utilities Code is amended to read:

779.1. (a) Every electrical, gas, heat, or water corporation shall allow every residential customer at least 19 days from the date of mailing its bill for services, postage prepaid, for payment of the charges demanded. No corporation subject to this section may terminate residential service for nonpayment of a delinquent account unless the corporation first gives notice of the delinquency and impending termination, at least 10 days prior to the proposed termination, by means of a notice mailed, postage prepaid, to the customer to whom the service is billed, not earlier than 19 days from the date of mailing the corporation's bill for services, and the 10-day period shall not commence until five days after the mailing of the notice.

(b) Every corporation shall make a reasonable attempt to contact an adult person residing at the premises of the customer by telephone or personal contact at least 24 hours prior to any termination of service, except that, whenever telephone or personal contact cannot be accomplished, the corporation shall give, either by mail or in person, a notice of termination of service at least 48 hours prior to termination.

(c) Every corporation shall make available to its residential customers who are 65 years of age or older, or who are dependent adults as defined in paragraph (1) of subdivision (b) of Section 15610

of the Welfare and Institutions Code, a third-party notification service, whereby the corporation will attempt to notify a person designated by the customer to receive notification when the customer's account is past due and subject to termination. The notification shall include information on what is required to prevent termination of service. The residential customer shall make a request for third-party notification on a form provided by the corporation, and shall include the written consent of the designated third party. The third-party notification does not obligate the third party to pay the overdue charges, nor shall it prevent or delay termination of service.

(d) Every notice of termination of service pursuant to subdivision (a) or (b) shall include all of the following information:

(1) The name and address of the customer whose account is delinquent.

(2) The amount of the delinquency.

(f) If a residential customer fails to comply with an amortization agreement, the corporation shall not terminate service without giving notice to the customer at least 48 hours prior to termination of the conditions the customer is required to meet to avoid termination, but this notice does not entitle the customer to further investigation by the corporation.

(g) No termination of service may be effected without compliance with this section. Any service wrongfully terminated shall be restored without charge for the restoration of service, and a notation thereof shall be mailed to the customer at his or her billing address.

SEC. 2. Section 10010.1 of the Public Utilities Code is amended to read:

SECTION 1. Section 24045.11 is added to the Business and Professions Code, to read:

24045.11. The department may issue a special on-sale wine license to an establishment licensed to do business as a bed and breakfast inn.

"Bed and breakfast inn," as used in this section, means an establishment of 20 guestrooms or less, which provides overnight transient occupancy accommodations, which serves food only to its registered guests, which serves only a breakfast or similar early morning meal, and with respect to which the price of the food is included in the price of the overnight transient occupancy accommodation. For purposes of this section, "bed and breakfast inn" refers to an establishment as to which the predominant relationship between the occupants thereof and the owner or operator of the establishment is that of innkeeper and guest. For purposes of this section, the existence of some other legal relationships as between some occupants and the owner or operator is immaterial.

An establishment holding a license under this section is authorized to serve wine purchased from a licensed winegrower or wine wholesaler only to registered guests of the establishment. Wine shall not be given away to guests but the price of the wine shall be included in the price of the overnight transient occupancy accommodation. Guests shall not be permitted to remove wine served in the establishment from the grounds.

The applicant for a license shall accompany the application with an original fee of fifty dollars ($50) and shall pay an annual renewal fee of five dollars ($5) for each guestroom in the establishment.

CHAPTER 616

An act to amend Section 35701 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 12, 1987 Filed with Secretary of State September 14, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 35701 of the Vehicle Code is amended to read:

35701. (a) Any city, or county for a residence district, may, by ordinance, prohibit the use of a street by any commercial vehicle or by any vehicle exceeding a maximum gross weight limit, except with respect to any vehicle which is subject to Sections 1031 to 1036, inclusive, of the Public Utilities Code, and except with respect to vehicles used for the collection and transportation of garbage, rubbish, or refuse using traditionally used routes in San Diego County when the solid waste management plan prepared under Section 66780.1 of the Government Code is amended to designate each traditionally used route used for the purpose of transporting garbage, rubbish, or refuse which intersects with a local or regional arterial circulation route contained within a city or county's traffic circulation element and which provides access to a solid waste disposal site.

(b) The ordinance shall not be effective until appropriate signs are erected indicating either the streets affected by the ordinance or the streets not affected, as the local authority determines will best serve to give notice of the ordinance.

(c) No ordinance adopted pursuant to this section after November 10, 1969, shall apply to any state highway which is included in the National System of Interstate and Defense Highways, except an ordinance which has been approved by a two-thirds vote of the California Transportation Commission.

(d) The solid waste management plan prepared under Section 66780.1 of the Government Code by San Diego County may designate the traditionally used routes.

(e) "Traditionally used route," for purposes of this section, means any street used for a period of one year or more as access to or from a solid waste disposal site.

SEC. 2. The Legislature hereby finds that due to the geographic siting of solid waste disposal facilities in the County of San Diego in relation to the cities in that county, certain problems relating to transportation of that waste have developed which are unique to that county. The Legislature finds that at this time these problems are not general or statewide. Thus, a general law for purposes of Section 16 of Article IV of the California Constitution cannot be made applicable, and the amendments to Section 35701 of the Vehicle

Code made by Section 1 of this act are only applicable to the County of San Diego.

CHAPTER 617

An act to add Chapter 5 (commencing with Section 4090) to Part 1 of Division 4 of the Welfare and Institutions Code, relating to mental health.

[Approved by Governor September 12, 1987. Filed with Secretary of State September 14, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 4090) is added to Part 1 of Division 4 of the Welfare and Institutions Code, to read:

CHAPTER 5. MENTAL HEALTH DELIVERY SYSTEM DEMONSTRATION PROJECT

4090. The department shall, as a mental health delivery system demonstration project, establish and fund two model programs, administered by two local county mental health systems agreeing to participate under this chapter for a period not to exceed three years. One program shall be developed in a rural area and the other in an urban area. The demonstration projects shall be administered by the department in collaboration with the Department of Aging.

4091. The model programs shall do both of the following:

(a) Demonstrate the efficacy of a comprehensive, integrated, and coordinated mental health delivery system for older persons and functionally impaired adults in reducing inappropriate hospitalizations and in increasing the number of seniors served in the county's mental health program, and the extent of the reductions and increases. As used in this section, "functionally impaired adults" means those adults who are functionally impaired based upon criteria established under Chapter 4.7 (commencing with Section 9390) of Division 8.5, as a result of mental disorder or brain impairment.

(b) Establish a continuum of mental health services by integrating and coordinating with all other community programs for seniors and functionally impaired adults.

4092. In addition to traditional mental health care, which includes inpatient and outpatient services, the continuum of care model projects shall include, but not be limited to, all of the following:

(a) An assessment and treatment team.

(b) A peer counseling program.

(c) Consultation.
(d) Outreach and education.
(e) Case management.

The demonstration projects shall serve as replicable models for implementation throughout the state.

4093. The department shall establish an advisory committee to advise the department on the demonstration project under this chapter. The advisory committee shall include all members of the Mental Health Task Force of the California Commission on Aging.

4094. The department shall seek and accept federal research and development, and any other private funds that may be available for the purposes of this chapter. The implementation and continuation of this program shall be contingent upon the availability of these funds, unless there are counties willing to participate on a demonstration basis without additional funds.

4095. The department shall prepare an evaluation report with the advice and recommendations of the advisory committee, which shall include all of the following:

(a) A description of problems encountered in implementation and coordination.
(b) A plan for establishing new programs.
(c) Cost projects for duplication.

The final report shall be submitted to the Legislature.

For the purposes of this section, "nonprofit sponsors" includes public agencies.

(b) The information required to be reported by subdivision (a) shall be reported at least annually during the time that a percentage of the units are required to be occupied by, or made available to, persons or families within a particular income group.

(c) The failure of any entity to report the information required by subdivision (a) shall not affect the validity of the issuance of any of the bonds issued under the authority of any of the provisions described in subdivision (a).

(d) The report required by subdivision (a) shall only apply to housing units financed with the proceeds of bonds that are authorized to be issued, and which are issued, on and after January 1, 1985, pursuant to any of the provisions described in subdivision (a). For purposes of this section, "bonds" means any bonds, notes, interim certificates, debentures, or other obligations issued under the authority of any of the provisions described in subdivision (a).

The redevelopment agency, housing authority, local agency, or city and county may charge a fee to the recipient of agency financing not to exceed the cost of making the reports required by this section.

SEC. 3. Section 52045 is added to the Health and Safety Code, to read:

SEC. 4. The amendments to Section 8855.5 of the Government Code made by Section 1 of this act do not constitute a change in, but are declaratory of, the existing law.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 619

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 620

The program shall also provide access to social support services, which may help ameliorate the physical, psychological, and economic problems attendant to genetically handicapping conditions, in order that the genetically handicapped person may function at an optimal level commensurate with the degree of impairment.

The medical and social support services may be obtained through physicians and surgeons, genetically handicapped person's program specialized centers, and other providers that qualify pursuant to the regulations of the department to provide the services. "Medical care," as used in this section, is limited to noncustodial medical and

CHAPTER 621

An act to add Section 51263 to the Education Code, to amend Sections 11372.7 and 11802 of the Health and Safety Code, to amend Section 23196 of the Vehicle Code, and to amend Section 2 of Chapter 1118 of the Statutes of 1986, relating to alcohol and drug abuse education.

[Approved by Governor September 12, 1987. Filed with Secretary of State September 14, 1987]

The people of the State of California do enact as follows:

SECTION 1. In order to facilitate a continuing partnership among education and drug agencies, the Legislature finds and declares that it is necessary that the fiscal and management responsibilities of the drug education instruction be shared equitably by education and drug agencies at the county level, and that this cooperation is a major tool in efforts to educate pupils about the effects of the use of tobacco, alcohol, narcotics, dangerous drugs, and dangerous substances and thus, to prevent drug abuse successfully.

It is the intent of the Legislature that drug and alcohol abuse prevention programs emphasize a continuing partnership among education agencies, drug abuse agencies, community service agencies, parents, and other members of the community.

SEC. 2. The Legislature hereby encourages rural counties to engage in consortium arrangements for alcohol and drug abuse prevention education programs. School districts and county offices of education are encouraged to avoid duplication of effort by sharing resources, adapting or adopting model programs, developing joint and collaborative programs, and coordinating efforts with existing state programs, county drug and alcohol programs, county health departments, and other public and private agencies providing health, drug, alcohol, or other related services to youth and their families at the local level.

SEC. 3. Section 51263 is added to the Education Code, to read:

51263. The State Department of Education shall make available information on model drug and alcohol abuse prevention education programs developed and funded pursuant to Article 2 (commencing with Section 32270) of Chapter 2.5 of this code, Article 2 (commencing with Section 11965) of Chapter 2 of Part 3 of Division 10.5 of the Health and Safety Code, Chapter 7 (commencing with Section 13860) of Title 6 of Part 4 of the Penal Code, and other public and private sources.

SEC. 4. Section 11372.7 of the Health and Safety Code is amended to read:

11372.7. (a) Except as otherwise provided in subdivision (b) or (e), each person who is convicted of a violation of this chapter shall pay a drug program fee in an amount not to exceed one hundred dollars ($100) for each separate offense. The court shall increase the total fine, if necessary, to include this increment, which shall be in addition to any other penalty prescribed by law.

(b) The court shall determine whether or not the person who is convicted of a violation of this chapter has the ability to pay a drug program fee. If the court determines that the person has the ability to pay, the court may set the amount to be paid and order the person to pay that sum to the county in a manner that the court believes is reasonable and compatible with the person's financial ability. In its determination of whether a person has the ability to pay, the court shall take into account the amount of any fine imposed upon that person and any amount that person has been ordered to pay in restitution. If the court determines that the person does not have the ability to pay a drug program fee, the person shall not be required to pay a drug program fee.

(c) The county treasurer shall maintain a drug program fund. For every drug program fee assessed and collected pursuant to subdivisions (a) and (b), an amount equal to this assessment shall be deposited into the fund for every conviction pursuant to this chapter, in addition to fines, forfeitures, and other moneys which are transmitted by the courts to the county treasurer pursuant to Sections 11372.5 and 11502. These deposits shall be made prior to any transfer pursuant to Section 11502. Amounts deposited in the drug program fund shall be allocated by the administrator of the county's drug program to drug abuse programs in the schools and the community, subject to the approval of the board of supervisors, as follows:

(1) The moneys in the fund shall be allocated through the planning process established pursuant to Sections 11983, 11983.1, 11983.2, and 11983.3.

(2) A minimum of 33 percent of the fund shall be allocated to primary prevention programs in the schools and the community. Primary prevention programs developed and implemented under this article shall emphasize cooperation in planning and program implementation among schools and community drug abuse agencies,

and shall demonstrate coordination through an interagency agreement among county offices of education, school districts, and the county drug program administrator. These primary prevention programs may include:

(A) School- and classroom-oriented programs, including, but not limited to, programs designed to encourage sound decisionmaking, an awareness of values, an awareness of drugs and their effects, enhanced self-esteem, social and practical skills that will assist students toward maturity, enhanced or improved school climate and relationships among all school personnel and students, and furtherance of cooperative efforts of school- and community-based personnel.

(B) School- or community-based nonclassroom alternative programs, or both, including, but not limited to, positive peer group programs, programs involving youth and adults in constructive activities designed as alternatives to drug use, and programs for special target groups, such as women, ethnic minorities, and other high-risk, high-need populations.

(C) Family-oriented programs, including, but not limited to, programs aimed at improving family relationships and involving parents constructively in the education and nurturing of their children, as well as in specific activities aimed at preventing drug abuse.

(e) Five percent of the money allocated to primary prevention programs in schools and communities within the county pursuant to paragraph (2) of subdivision (c) shall be used for the purpose of conducting an annual evaluation. The annual evaluation shall be conducted by the office of the county superintendent of schools in counties where the program is operating in a single county or in the office of the county superintendent of schools in the county designated as the lead county in counties where the program is operating as a consortium of counties. (3) An end of fiscal year accountability evaluation that will indicate the program's continuing ability to reach appropriate program beneficiaries, deliver the appropriate benefits, and use funds appropriately.

(4) An impact evaluation charged with the task of assessing the effectiveness of the program. Guidelines for the evaluation report format and the timeliness for the submission of the report shall be

developed by the State Department of Education. Each county shall submit an evaluation report annually to the State Department of Education and the State Department of Education shall write and submit a report to the Legislature and Governor.

(f) This section shall not apply to any person convicted of a violation of subdivision (b) of Section 11357 of the Health and Safety Code.

These deposits shall be made prior to any transfer pursuant to Section 11502. Amounts deposited in the drug program fund shall be allocated by the administrator of the county's drug program to drug abuse programs in the schools and the community, subject to the approval of the board of supervisors, as follows:

(1) The moneys in the fund shall be allocated through the planning process established pursuant to Sections 11983, 11983.1, 11983.2, and 11983.3.

(2) A minimum of 33 percent of the fund shall be allocated to primary prevention programs in the schools and the community. the county drug program administrator. These primary prevention programs may include:

(A) School- and classroom-oriented programs, including, but not limited to, programs designed to encourage sound decisionmaking, an awareness of values, an awareness of drugs and their effects, enhanced self-esteem, social and practical skills that will assist students toward maturity, enhanced or improved school climate and relationships among all school personnel and students, and furtherance of cooperative efforts of school- and community-based personnel.

(B) School- or community-based nonclassroom alternative programs, or both, including, but not limited to, positive peer group programs, programs involving youth and adults in constructive activities designed as alternatives to drug use, and programs for special target groups, such as women, ethnic minorities, and other high-risk, high-need populations.

The annual evaluation shall be conducted by the office of the county superintendent of schools in counties where the program is operating in a single county or in the office of the county superintendent of schools in the county designated as the lead county in counties where the program is operating as a consortium of counties. The evaluation shall contain the following:

(1) A needs assessment evaluation which provides specific data regarding the problem to be resolved.

In making a determination of whether a defendant has the ability to pay, the court shall take into account the amount of any fine imposed upon the defendant and any amount the defendant has been ordered to pay in restitution. If the court determines that the defendant does not have the ability to pay a penalty assessment, the defendant shall not be required to pay a penalty assessment.

(d) Five percent of the funds allocated to primary prevention programs to the school and the communities pursuant to subdivision (a) of Section 11802 of the Health and Safety Code shall be used to conduct an annual evaluation. The annual evaluation shall be conducted by the office of the county superintendent of schools in counties where the program is operating in a single county or in the office of the county superintendent of schools in the county designated as the lead county in counties where the program is operating as a consortium of counties. The evaluation shall contain the following:

(1) A needs assessment evaluation which provides specific data regarding the problem to be resolved.

(2) A written report of the planning process outlining the deliberations, considerations, and conclusions following a review of the needs assessment.

(3) An end of fiscal year accountability evaluation that will indicate the program's continuing ability to reach appropriate

program beneficiaries, deliver the appropriate benefits, and use funds appropriately.

(4) An impact evaluation charged with the task of assessing the effectiveness of the program. Guidelines for the evaluation report format and the timeliness for the submission of the report shall be developed by the State Department of Education. Each county shall submit an evaluation report annually to the State Department of Education and the State Department of Education shall write and submit a report to the Legislature and Governor.

SEC. 7. Section 2 of Chapter 1118 of the Statutes of 1986 is amended to read:

Sec. 2. The Legislature makes the following findings and declarations of intent:

(a) A statewide alcohol abuse primary education and prevention program is essential in order to address the continuing problem of alcohol abuse throughout the state, which often exists in combination with other problems such as crime, drunk driving, and juvenile delinquency. The program is labeled as "primary" prevention because it is intended to prevent alcohol abuse before it begins or before it has reached later stages requiring treatment.

(b) The program necessarily emphasizes a continuing partnership between education agencies, alcohol abuse agencies, community service agencies, parents, and other members of the community. In order to facilitate a continuing partnership, it is of vital importance that the fiscal policy and management responsibilities for the program be shared equitably with the education agencies at the county level and that this cooperation be a major tool in efforts to achieve the successful prevention of alcohol abuse.

(c) The programs established pursuant to this act are intended by the Legislature to fund and delegate primary responsibility for program planning to local school and local alcohol abuse authorities and their constituents. These agencies are best suited for dealing with lifetime alcohol using patterns, which are formed during youth and in the family setting.

(d) This act places primary emphasis on youth, families, and communitywide alcohol abuse education and prevention planning. Therefore, programs to acquaint professionals serving youth and families, community representatives, parents, and youth with the skills and strategies needed for program implementation are an important aspect of the total program.

(e) In view of the purposes and intent of this act, the highest priority for program funding under this act shall be designated to programs that emphasize joint school-community program alcohol abuse education and prevention planning and implementation, and that focus on children, youth, and families.

(f) It is the intent of the Legislature that, to the maximum extent possible, funds made available for the purposes of this act be used to support programs that will meet the needs of children and families.

SEC. 7.5. Section 4.5 of this bill incorporates amendments to Section 11372.7 of the Health and Safety Code proposed by both this bill and SB 639. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1988, (2) each bill amends Section 11372.7 of the Health and Safety Code, and (3) this bill is enacted after SB 639, in which case Section 11372.7 of the Health and Safety Code, as amended by SB 639, shall remain operative only until the operative date of this bill, at which time Section 4.5 of this bill shall become operative, and Section 4 of this bill shall not become operative.

SEC. 8. Section 6.5 of this bill incorporates amendments to Section 23196 of the Vehicle Code proposed by both this bill and SB 639. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1988, (2) each bill amends Section 23196 of the Vehicle Code, and (3) this bill is enacted after SB 639, in which case Section 23196 of the Vehicle Code, as amended by SB 639, shall remain operative only until the operative date of this bill, at which time Section 6.5 of this bill shall become operative, and Section 6 of this bill shall not become operative.

SEC. 9. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 622

An act to add Section 33445.6 to the Health and Safety Code, relating to redevelopment.

[Approved by Governor September 12, 1987. Filed with Secretary of State September 14, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 33445.6 is added to the Health and Safety Code, to read:

33445.6. (a) If the governing board of a fire protection district finds that it is suffering a financial burden or detriment as a result of actions taken by the redevelopment agency in implementing the redevelopment plan, the district board may transmit a written copy of those findings, together with supporting information, materials, and documents, to the redevelopment agency. The redevelopment agency shall conduct a public hearing within 45 days after receiving

the findings to receive public testimony identifying the effects of the redevelopment plan on the fire protection district and suggesting revisions to the redevelopment plan as adopted or amended by the legislative body that would alleviate or eliminate the financial burden or detriment in the area or areas caused by the implementation of the redevelopment plan. The redevelopment agency shall send written notice of the public hearing to, and at the hearing receive public testimony from, any affected taxing entity. After receiving that testimony at the hearing, the agency shall consider amendments of the plan necessary to alleviate or eliminate the financial burden or detriment in the area or areas caused by the implementation of the redevelopment plan. The agency may recommend those amendments for adoption by the legislative body.

(b) Section 33353 does not apply to an amendment of the plan proposed pursuant to subdivision (a) when both of the following occur:

(1) The amendment proposes only to add significant additional capital improvement projects to alleviate or eliminate the financial burden or detriment caused by the implementation of the plan.

(2) The amendment will delete capital improvement projects or otherwise modify the plan in a way that the agency finds will result in no additional financial impact on any affected taxing entity.

(c) Any funds received by a fire protection district from a redevelopment agency to alleviate or eliminate the financial burden or detriment caused by implementation of a redevelopment plan as a result of a public hearing conducted pursuant to subdivision (a) may be used for any lawful purpose of the district.

(d) The district board of a fire protection district shall not make the findings permitted by subdivision (a) with respect to any project area more than once.

(e) The agency may recover its actual costs of complying with the procedural requirements of this section from the fire protection district.

(f) This section applies only to redevelopment plans adopted prior to January 1, 1977.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 623

An act to amend Sections 44987 and 87768.5 of, and to add Sections 45210 and 88210 to, the Education Code, and to add Section 20819.5 to the Government Code, relating to education.

[Approved by Governor September 12, 1987 Filed with Secretary of State September 14, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 44987 of the Education Code is amended to read:

44987. (a) The governing board of a school district shall grant to any employee, upon request, a leave of absence without loss of compensation for the purpose of enabling the employee to serve as an elected officer of any local school district public employee organization, or any statewide or national public employee organization with which the local organization is affiliated.

The leave shall include, but is not limited to, absence for purposes of attendance by the employee at periodic, stated, special, or regular meetings of the body of the organization on which the employee serves as an officer. Compensation during the leave shall include retirement fund contributions required of the school district as employer. The required employer contribution rate shall be the contribution rate for additional service credit less the member contribution rate prescribed by Section 22804. The employee shall earn full service credit during the leave of absence and shall pay member contributions as prescribed by Section 22804. The maximum amount of the service credit earned shall not exceed eight calendar years. Any employee who serves as a full-time officer of a public employee organization shall not be eligible for disability benefits under the State Teachers' Retirement System while on the leave of absence.

Following the school district's payment of the employee for the leave of absence, the school district shall be reimbursed by the employee organization of which the employee is an elected officer for all compensation paid the employee on account of the leave. Reimbursement by the employee organization shall be made within 10 days after its receipt of the school district's certification of payment of compensation to the employee.

The leave of absence without loss of compensation provided for by this section is in addition to the released time without loss of compensation granted to representatives of an exclusive representative by subdivision (c) of Section 3543.1 of the Government Code.

For purposes of this section, "school district" also means "county superintendent of schools."

(b) An employee who after August 31, 1978, was absent on

account of elected-officer service, shall receive full service credit in the State Teachers' Retirement System; provided that, not later than April 30, 1981: (1) the employee makes a written request to the employer for a leave of absence for the period of the elected-officer service, and (2) the employee organization of which the employee is an elected officer pays to the employee's school district an amount equal to the required State Teachers' Retirement System member and employer retirement contributions, as prescribed by this section.

The school district, following this written request and payment, shall transmit the amount received to the State Teachers' Retirement System, informing it of the period of the employee's leave of absence. The State Teachers' Retirement System shall credit the employee with all service credit earned for the period of the elected-officer leave of absence.

In the event that the employee has been compensated by the school district for the period of the service, then, as a condition to the employee's entitlement to service credit for this period, the school district shall be reimbursed by the employee organization for the amount of the compensation.

The provisions of this subdivision shall apply retroactively to all service as an elective officer in a public employee organization occurring after August 31, 1978.

The leave shall include, but is not limited to, absence for purposes of attendance by the employee at periodic, stated, special, or regular meetings of the body of the organization on which the employee serves as an officer. Following the school district's payment of the employee for the leave of absence, the school district shall be reimbursed by the employee organization of which the employee is an elected officer for all compensation paid the employee on account of the leave. Reimbursement by the employee organization shall be made within 10 days after its receipt of the school district's certification of payment of compensation to the employee.

The leave of absence without loss of compensation provided for by this section is in addition to the released time without loss of compensation granted to representatives of an exclusive

representative by subdivision (c) of Section 3543.1 of the Government Code.

In the event that the employee has been compensated by the school district for the period of the service, then, as a condition to the employee's entitlement to service credit for this period, the school district shall be reimbursed by the employee organization for the amount of the compensation.

The provisions of this subdivision shall apply retroactively to all service as an elective officer in a public employee organization occurring after August 31, 1987.

SEC. 3. Section 87768.5 of the Education Code is amended to read:

87768.5. (a) The governing board of a community college district shall grant to any employee, upon request, a leave of absence without loss of compensation for the purpose of enabling the employee to serve as an elected officer of any local community college district public employee organization, or of any statewide or national public employee organization with which the local organization is affiliated.

The employee shall earn full service credit during the leave of absence and shall pay member contributions as prescribed by Section 22804. The maximum amount of the service credit earned shall not exceed eight calendar years. Any employee who serves as a full-time officer of a public employee organization

The State Teachers' Retirement System shall credit the employee with all service credit earned for the period of the elected-officer leave of absence.

In the event that the employee has been compensated by the community college district for the period of the service, then, as a condition to the employee's entitlement to service credit for the period, the community college district shall be reimbursed by the employee organization for the amount of the compensation.

The provisions of this subdivision shall apply retroactively to all service as an elected officer in a public employee organization occurring after August 31, 1978.

SEC. 4. Section 88210 is added to the Education Code, to read:

88210. (a) The governing board of a community college district shall grant to any classified employee, upon request, a leave of absence without loss of compensation for the purpose of enabling the employee to serve as an elected officer of any local community college district public employee organization, or of any statewide or national public employee organization with which the local organization is affiliated.

Following the community college district's payment of the employee for the leave of absence, the community college district shall be reimbursed by the employee organization of which the employee is an elected officer for all compensation paid the employee on account of the leave. SECTION 1. Section 83103 of the Government Code is amended to read:

83103. Members and the chairman of the Commission shall serve four-year terms beginning on February 1 and ending on January 31 or as soon thereafter as their successors are qualified, except that the initial appointees under Section 83102 shall serve six-year terms. No member or chairman who has been appointed at the beginning of a term is eligible for reappointment.

SEC. 2. The Legislature finds and declares that the provisions of this act further the purposes of the Political Reform Act of 1974 within the meaning of subdivision (a) of Section 81012 of the Government Code.

CHAPTER 625

An act to add Chapter 3.95 (commencing with Section 1599.60) to Division 2 of the Health and Safety Code, relating to health care.

[Approved by Governor September 12, 1987. Filed with Secretary of State September 14, 1987]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3.95 (commencing with Section 1599.60) is added to Division 2 of the Health and Safety Code, to read:

CHAPTER 3.95. ADMISSION CONTRACTS FOR LONG-TERM HEALTH CARE FACILITIES

1599.60. (a) "Contract of admission," as used in this chapter, includes all documents which a resident or his or her representative must sign at the time of, or as a condition of, admission to a long-term health care facility as defined in Section 1326.

(b) As used in this chapter "department" means the State Department of Health Services or its designee.

1599.61. (a) As directed by the department, all long-term health care facilities shall submit a copy of their current contract of admission to the department as notice of the content of the contract. As amendments occur and when a contract of admission has been given to the department, facilities shall immediately submit all amended versions of their contract to the department. Review by a receipt of a copy of a facility's contract by the department does not constitute approval of the contract by the state nor shall any facility make any representation to that effect to anyone.

(b) The department shall review a copy of the current admissions contract as part of its regular survey of facilities.

1599.62. (a) Contracts of admission shall not include unlawful waivers of facility liability for the health and safety or personal property of residents. No contract of admission shall include any provision which the facility knows or should know to be deceptive or unlawful under state or federal law.

(b) Violation of this chapter shall result in a Class B citation or a deficiency from the department. For purposes of this section, the admission agreement shall be viewed as a whole and shall result in only one citation.

(c) Unless otherwise expressly provided, the remedies or penalties provided by this chapter do not preclude a resident from seeking any other remedy and penalties available under all other laws of this state.

1599.63. (a) Every long-term health care facility shall make complete blank copies of its admission contract immediately available to the public at cost, upon request.

(b) Every long-term health care facility shall post conspicuously in a location accessible to public view within the facility either a complete copy of its admission contract or notice of the availability of it from the facility.

1599.64. (a) All contracts of admission shall be printed in black type of not less than 10-point type size, on plain white paper. The print shall appear on one side of the paper only.

(b) The contract shall be written in clear, coherent, and unambiguous language, using words with common and everyday meanings. It shall be appropriately divided, and each section captioned.

1599.65. (a) Prior to or at the time of admission, the facility shall make reasonable efforts to communicate the content of the contract to, and obtain on the contract the signature of, the person who is to be admitted to the facility. Unless the prospective resident has been declared legally incompetent or is unable to understand and sign the contract because of his or her medical condition, he or she shall sign or cosign the admission agreement. In the event the patient is unable to sign the contract, the reason shall be documented in the resident's medical record by the admitting physician. This provision does not preclude the facility from obtaining the signature of an agent, responsible party, or a legal representative, if applicable.

(b) The contract of admission for facilities certified to be reimbursed by Medi-Cal shall set forth, in bold capital letters of not less than 10-point type, the prohibition in Section 14110.8 of the Welfare and Institutions Code that no facility may require or solicit as a condition of admission that a Medi-Cal beneficiary have a responsible party sign or cosign the contract of admission. If the Medi-Cal beneficiary has an agent, then the signature of the agent may be required on the contract of admission.

1599.66. Every contract of admission shall clearly and explicitly state whether the facility participates in the Medi-Cal program.

1599.67. (a) Every contract of admission shall state clearly what services and supplies are covered by the facility's basic daily rate. In addition, the agreement shall specify in detail which services are optional, and the charges for these services, and indicate that residents will receive monthly statements itemizing all charges incurred by them.

(b) The contract of a facility that is a provider pursuant to Medicare, or Medi-Cal, or both, shall state that optional and covered services may be different for residents in those programs than for private pay residents. When a resident converts from Medicare or private pay to Medi-Cal, the facility shall give the resident a form listing Medi-Cal optional and covered services.

(c) Every contract of admission shall clearly state that the facility is required by law to provide no less than 30 days written notice to the residents of any increase for optional services or in the daily room rate charged by the facility, except as provided in subdivision (b) of Section 1288.

1599.68. Any long-term health care facility that imposes interest charges on delinquent accounts shall clearly state in the contract of admission the rate of interest so charged and the method of computation.

1599.69. (a) The contract of admission for any long-term health care facility that is a Medi-Cal certified facility shall state in bold capital letters of not less than 10-point type that neither the prospective resident, nor his or her representative, may be required to pay privately for any period during which the resident has been approved for payment by Medi-Cal, and that as provided by Section 14019.3 of the Welfare and Institutions Code, upon presentation of the Medi-Cal card or other proof of eligibility, the facility shall submit a Medi-Cal claim for reimbursement, subject to the rules and regulations of the Medi-Cal program, and the facility shall return any and all payments made by the beneficiary, or any person on behalf of the beneficiary, for Medi-Cal program covered services upon receipt of Medi-Cal payment. The contract shall state in bold capital letters of not less than 10-point type that no certified facility may require as a condition of admission, either in its contract of admission or by oral promise prior to signing the contract, that residents remain in private pay status for a specified period of time.

(b) No contract of admission may require notice of a resident's intent to convert to Medi-Cal status prior to the date of the resident's application for Medi-Cal status. This subdivision does not preclude the facility from requesting notice from a resident who has been admitted.

1599.70. (a) No contract of admission may require a security deposit from a Medi-Cal beneficiary who applies for admission to the facility as a Medi-Cal patient.

(b) Any security deposit from a person paying privately upon admission shall be returned within 14 days of the private account being closed, or first Medi-Cal payment, whichever is later, and with no deduction for administration or handling charges.

1599.71. (a) No contract of admission shall require the resident to pay for days beyond the date of his or her death or involuntary discharge from the facility, except that a facility may charge the resident for a maximum of three days at the basic daily rate in the event that the resident is voluntarily discharged from the facility less than three days following his or her admission. This section does not affect the provision for a maximum of seven days' payment under the bedhold regulation as specified in Section 72520 of Title 22 of the California Administrative Code.

(b) No contract of admission shall require advance notice of voluntary discharge from a facility.

1599.72. No contract of admission shall include a clause requiring residents to sign a consent to all treatment ordered by any physician. Contracts of admission may require consent only for routine nursing care or emergency care. The admission contract shall contain a clause which informs the patient of the right to refuse treatments as

set forth in paragraph (4) of subdivision (a) of Section 72527 of Title 22 of the California Administrative Code.

1599.73. (a) Every contract of admission shall state that residents have a right to confidential treatment of medical information.

(b) The contract shall provide a means by which the resident may authorize the disclosure of information to specific persons, by attachment of a separate sheet that conforms to the specifications of Section 56 of the Civil Code. After admission, the facility shall encourage competent residents to execute a durable power of attorney for health care in the event that he or she becomes unable to give consent for disclosure. The facility shall make available upon request to the long-term care ombudsman a list of newly admitted patients.

1599.74. (a) The department shall translate both the statutory Patients' Bill of Rights, as provided in Chapter 3.9 (commencing with Section 1599), the regulatory Patients' Bill of Rights for Skilled Nursing Facilities (commencing with Section 72527 of Title 22 of the California Administrative Code), and, if appropriate, the regulatory Patients' Bill of Rights for Intermediate Care Facilities (commencing with Section 73523 of Title 22 of the California Administrative Code), into Spanish and Chinese, and into other languages as needed for ethnic groups representing 1 percent or more of the nursing home population in the state. The department shall also translate the Patients' Bill of Rights into braille or have it recorded for the use of blind patients, or both. These translations shall be sent to all long-term health care facilities in the state.

(b) Every contract of admission shall contain a complete copy of both the statutory and regulatory Patients' Bill of Rights. The text of the Patients' Bill of Rights shall be in legible print of no less than 10-point type. If a translation has been provided by the department, the text given to non-English-speaking residents shall be in their language.

(c) The contract shall also contain a separate written acknowledgement that the resident has been informed of the Patients' Bill of Rights.

Written acknowledgement by the resident or the resident's representative must be made either on a separate document or in the agreement itself next to the clause informing the resident of these regulatory rights. Written acknowledgement by use of the signature on the agreement as a whole does not meet this requirement.

1599.75. (a) When referring to a resident's obligation to observe facility rules, the contract of admission shall indicate that the rules must be reasonable, and that there is a facility procedure for suggesting changes in the rules.

(b) The contract of admission shall specify that a copy of the facility grievance procedure, for resolution of resident complaints about facility practices, is available.

(c) The agreement shall also inform residents of their right to contact the State Department of Health Services or the long-term

care ombudsman, or both, regarding grievances against the facility.

1599.76. (a) No contract of admission shall list any ground for involuntary transfer or discharge of the resident except those grounds which are specifically enumerated in either federal or state law.

(b) Every contract of admission to a long-term health care facility that participates in the Medi-Cal program shall state that the facility may not transfer or seek to evict any resident solely as a result of the resident changing his or her manner of purchasing the services from private payment or Medicare to Medi-Cal.

1599.77. With respect to transfer or eviction of a resident pursuant to Section 1439.7:

(a) Contracts of admission shall speak only of "material" or "fraudulent" misrepresentation of finances as possible grounds for discharge under that section.

(b) All contracts of admission shall state that the resident may file a complaint with the Office of the State Long-Term Care Ombudsman, or the department, or both, regarding any notice of discharge for material or fraudulent misrepresentation.

1599.78. All contracts of admission shall state that except in an emergency, no resident may be involuntarily transferred within or discharged from a long-term health care facility unless he or she is given reasonable notice in writing and transfer or discharge planning as required by law. The written notice shall state the reason for the transfer or discharge. The facility shall immediately notify the Office of the State Long-Term Care Ombudsman in every case of involuntary discharge as specified in Section 1439.7 of the Welfare and Institutions Code.

1599.79. Every contract of admission shall meet the requirements of Section 72520 of Title 22 of the California Administrative Code, which requires that the facility offer to hold a bed for the resident in the event the resident must be transferred to an acute care hospital for seven days or less. The facility shall also give the resident, or a representative for the resident, notice of the rights to a bedhold at the time of transfer. The resident or representative for the resident has 24 hours from receipt of notice to request the bedhold. The contract of admission shall state that the facility shall offer the next available appropriate bed to the resident in the event the facility fails to follow this required procedure. The facility shall inform the resident that Medi-Cal will pay for up to seven bedhold days.

1599.80. Facilities that wish to photograph a resident for other than staff identification or health care purposes shall obtain permission from the resident whether for one photograph or for multiple photographs for one particular purpose on a document separate from the admission contract as a whole. This document shall describe the specific use to be made of the photograph and indicate that the photograph will be used only for that purpose.

1599.81. (a) All contracts of admission that contain an arbitration

clause shall clearly indicate that agreement to arbitration is not a precondition for medical treatment or for admission to the facility.

(b) All arbitration clauses shall be included on a form separate from the rest of the admission contract. This attachment shall contain space for the signature of any applicant who agrees to arbitration of disputes.

(c) On the attachments, clauses referring to arbitration of medical malpractice claims, as provided for under Section 1295 of the Code of Civil Procedure, shall be clearly separated from other arbitration clauses, and separate signatures shall be required for each clause.

(d) In the event the contract contains an arbitration clause, the contract attachment pertaining to arbitration shall contain notice that under Section 1430, the patient may not waive his or her ability to sue for violation of the Patient's Bill of Rights.

1599.82. No contract of admission shall include a clause that purports to alter the statutory period for filing an action against a facility.

1599.83. If a provision for the payment of attorney's fees is included in the admission contract, it shall state that in disputes arising from the admission contract, the prevailing party shall be entitled to attorney's fees.

1599.84. This article applies to new admissions to skilled nursing and intermediate care facilities on and after January 1, 1988. This article shall not be construed to require the execution of new admission agreements for patients who were residing in those facilities prior to the enactment of this article. However, those patients shall be given notice of changes in admission contracts pursuant to this article.

[Approved by Governor September 12, 1987. Filed with Secretary of State September 14, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 67 of the Fish and Game Code is amended to read:

67. "Person" means any natural person or any partnership, corporation, or other type of association.

SEC. 2. Article 7 (commencing with Section 3460) is added to Chapter 2 of Part 1 of Division 3 of the Fish and Game Code, to read:

Article 7. The California Waterfowl Habitat Program

3460. (a) Subject to appropriation pursuant to Section 3467, the director may enter into contracts with nonpublic entities which are owners of record, or with lessees, who have the owners of record execute the contract, of land determined by the director to be important for the conservation of waterfowl. The contract shall enforceably restrict the use of the land for the conservation of waterfowl and their habitat consistent with Section 8 of Article XIII of the California Constitution.

(b) The director shall give priority to contracts that have the

greatest potential for restoring, enhancing, and protecting high quality waterfowl habitat, especially that which is subject to destruction, drastic modification, or significant curtailment of habitat values.

3461. Each contract shall be for an initial term of 10 years and shall include all of the following:

(a) The designation of the owner of record and any lessee, and the legal description and the assessor's parcel number of the land subject to the contract.

(b) An agreement by the owner and any lessee to restore, enhance, and protect the waterfowl habitat character of the described land and to carry out a waterfowl habitat management plan developed with the department.

(c) Specification of the amount and date in each year that the payment is to be made by the department to the owner or lessee, which shall be calculated at the rate or rates that the director determines to be fair and reasonable in consideration of the obligations undertaken by the owner or lessee.

(d) A requirement that the owner or lessee do either of the following:

(1) Refund to the state all payments received under the contract plus interest at the legal rate, as specified in Section 3289 of the Civil Code, upon the owner's or lessee's violation of the contract, or any extension thereof, if the director determines that the violation warrants termination of the contract and the director terminates the contract.

(2) Make refunds or accept payment adjustments that the director determines are appropriate, not to exceed the total amount paid by the state to the owner or lessee in the preceding calendar year plus interest at the legal rate, as specified in Section 3289 of the Civil Code, if the director determines that the violation by the owner or lessee does not warrant termination of the contract.

(e) A requirement that the department reduce the amount of any payment to the owner or lessee under subdivision (c) by an amount equal to the portion of any payment under the Federal Water Bank Program (16 U.S.C. Sec. 1301 et seq.) which the department determines to be in compensation for the same obligation undertaken by the owner under the water bank program.

(f) A requirement that the department monitor compliance with the management plan or contract with the United States Soil Conservation Service or other appropriate agency, entity, or person to monitor compliance with the management plan, and that the owner or lessee allows access for the monitoring.

(g) Any additional provisions that the director determines are desirable to effectuate the purposes of the program or to facilitate its administration.

3462. (a) Not later than 20 days after the director has entered into a contract pursuant to this division, a copy of the contract particularly describing the subject habitat as required by subdivision

(a) of Section 3461 shall be recorded by the department in the office of the county recorder in each county in which any portion of the areas subject to the contract is located. The contract shall be indexed by the recorder in the grantor-grantee index to the name of the owner of record as grantor and to the department as grantee.

(b) Notwithstanding Section 27383 of the Government Code, the department shall pay the fees for recording and indexing the contract, and the department shall deduct the amount paid from the amounts due to the owner under the contract.

3464. The contract shall be automatically renewed in the same manner as contracts are renewed and extended, or noticed for nonrenewal, under the Williamson Act (Chapter 7 (commencing with Section 51200) of Division 1 of Title 5 of the Government Code). Upon the request of the owner or lessee, the director shall reexamine the payment rate for the contract at five-year intervals, considering the then current management costs and, with the concurrence of the owner or lessee, make any needed adjustments in rates for the remainder of the contract term.

3465. (a) If during the contract period the owner or lessee is divested of the use of the waterfowl habitat subject to the contract, the owner or lessee shall notify the department concurrent with that divestment. Any unearned payment shall immediately be refunded by the owner or lessee to the department.

(b) If the owner or lessee divests himself or herself of the use of the area subject to a contract by sale or otherwise, the person succeeding to that use is subject to all of the terms and conditions of the contract.

3466. The director and the owner or lessee may mutually agree to modify the terms and conditions of a contract under this division as the director may determine to be desirable to carry out the purposes of, or to facilitate administration of, the program.

3467. The California Waterfowl Habitat Preservation Account is hereby created in the Fish and Game Preservation Fund, and the money in the account shall be transferred to the Surplus Money Investment Fund for investment pursuant to Article 4 (commencing with Section 16470) of Chapter 3 of Division 4 of Title 2 of the Government Code. The proceeds of the investment deposited in the account shall be available, upon appropriation by the Legislature, for expenditure pursuant to this article. However, not more than 7 percent of the money appropriated from the account for expenditure in any fiscal year shall be expended in that fiscal year for administrative costs of the department.

SEC. 3. The sum of one hundred thousand dollars ($100,000) is hereby transferred from the California Environmental License Plate Fund to the California Waterfowl Habitat Preservation Account in the Fish and Game Preservation Fund.

The Legislature finds and declares that this section is a one-time transfer of funds to the California Waterfowl Habitat Preservation Account.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 634

An act to amend Section 6254 of the Government Code, relating to records, and declaring the urgency thereof, to take effect immediately.

(c) Personnel, medical, or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy.

(h) The contents of real estate appraisals or engineering or feasibility estimates and evaluations made for or by the state or local agency relative to the acquisition of property, or to prospective public supply and construction contracts, until all of the property has been acquired or all of the contract agreement obtained, provided, however, the law of eminent domain shall not be affected by this provision.

(i) Information required from any taxpayer in connection with the collection of local taxes which is received in confidence and the disclosure of the information to other persons would result in unfair competitive disadvantage to the person supplying the information.

(j) Library circulation records kept for the purpose of identifying the borrower of items available in libraries, and library and museum materials made or acquired and presented solely for reference or exhibition purposes. The exemption in this subdivision shall not apply to records of fines imposed on the borrowers.

(o) Financial data contained in applications for financing under

Division 27 (commencing with Section 44500) of the Health and Safety Code, where an authorized officer of the California Pollution Control Financing Authority determines that disclosure of the financial data would be competitively injurious to the applicant and the data is required in order to obtain guarantees from the United States Small Business Administration. The California Pollution Control Financing Authority shall adopt rules for review of individual requests for confidentiality under this section and for making available to the public those portions of an application which are subject to disclosure under this chapter.

Nothing in this subdivision shall be construed to limit the disclosure duties of a state agency with respect to any other records relating to the activities governed by the employee relations acts referred to in this subdivision.

(q) Records of state agencies related to activities governed by Articles 2.6 (commencing with Section 14081), 2.8 (commencing with Section 14087.5), and 2.91 (commencing with Section 14089) of Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code, which reveal the special negotiator's deliberative processes, discussions, communications, or any other portion of the negotiations with providers of health care services, impressions, opinions, recommendations, meeting minutes, research, work product, theories, or strategy, or which provide instruction, advice, or training to employees.

Except for the portion of a contract containing the rates of payment, contracts for inpatient services entered into pursuant to these articles, on or after April 1, 1984, shall be open to inspection one year after they are fully executed. If the California Medical Assistance Commission enters into contracts with health care providers for other than inpatient hospital services, those contracts shall be open to inspection one year after they are fully executed.

Three years after a contract or amendment is open to inspection under this subdivision, the portion of the contract or amendment containing the rates of payment shall be open to inspection.

Notwithstanding any other provision of law, the entire contract or amendment shall be open to inspection by the Joint Legislative Audit

Committee. The Joint Legislative Audit Committee shall maintain the confidentiality of the contracts and amendments until such time as a contract or amendment is fully open to inspection by the public.

(r) Records of Native American graves, cemeteries, and sacred places maintained by the Native American Heritage Commission.

(s) A final accreditation report of the Joint Commission on Accreditation of Hospitals which has been transmitted to the State Department of Health Services pursuant to subdivision (b) of Section 1282 of the Health and Safety Code.

However, the record shall be open to inspection within one year after the contract is fully executed.

Nothing in this section is to be construed as preventing any agency from opening its records concerning the administration of the agency to public inspection, unless disclosure is otherwise prohibited by law.

Nothing in this section is to be construed as preventing any health facility from disclosing to a certified bargaining agent relevant financing information pursuant to Section 8 of the National Labor Relations Act.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Notwithstanding any other provision of law, the entire contract or amendment shall be open to inspection by the Joint Legislative Audit Committee. The Joint Legislative Audit Committee shall maintain the confidentiality of the contracts and amendments until such time as a contract or amendment is fully open to inspection by the public.

(r) Records of Native American graves, cemeteries, and sacred places maintained by the Native American Heritage Commission.

However, the record shall be open to inspection within one year after the contract is fully executed.

Nothing in this section prevents any agency from opening its records concerning the administration of the agency to public inspection, unless disclosure is otherwise prohibited by law.

Nothing in this section prevents any health facility from disclosing to a certified bargaining agent relevant financing information pursuant to Section 8 of the National Labor Relations Act.

CHAPTER 636

An act to amend Section 25750 of the Business and Professions Code, relating to alcoholic beverages.

[Became law without Governor's signature. Filed with Secretary of State September 14, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 25750 of the Business and Professions Code is amended to read:

25750. (a) The department shall make and prescribe those reasonable rules as may be necessary or proper to carry out the purposes and intent of Section 22 of Article XX of the California Constitution and to enable it to exercise the powers and perform the duties conferred upon it by that section or by this division, not inconsistent with any statute of this state, including particularly this division and Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(b) Any regulation which excludes nude persons from licensed premises shall not apply to a nude person at licensed premises located at a nudist resort or nudist campground which was in existence prior to January 1, 1977, and whose operation is in conformance with local land use regulations.

(c) Subdivision (b) is applicable only in a county where the board of supervisors of the county in which the licensed premises is located adopts an ordinance or resolution making subdivision (b) applicable in that county, and the sheriff of that county certifies that no extraordinary police problem would be created thereby.

CHAPTER 637

An act to add Section 12528 to the Government Code, and to amend Sections 15630, 15631, 15632, 15633, and 15635 of, and to add Section 15610.1 to, the Welfare and Institutions Code, relating to Public Social Services, and making an appropriation therefor.

[Approved by Governor September 12, 1987. Filed with Secretary of State September 14, 1987.]

I am deleting the $115,800 appropriation contained in Section 8 of Senate Bill No. 526

This bill would establish a Medi-Cal patient abuse and neglect program in the Attorney General's Office to supplement enforcement activities by the State Department of Health Services and local law enforcement. It would also appropriate $115,800 from the General Fund for the program.

This is a very complex program proposal that involves the State Departments of Justice and Health Services, the federal government and at the local level, law enforcement agencies, the district attorneys office and the courts in each impacted county. It is important that we develop a carefully coordinated program that is subjected to the normal budget process at each impacted governmental level

With this deletion, I approve Senate Bill No 526.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 12528 is added to the Government Code, to read:

12528. (a) There is in the Office of the Attorney General the Bureau of Medi-Cal Fraud, which shall implement Sections 1903(a)(6), 1903(b)(3), and 1903(g) of the federal Social Security Act, as amended by the federal Medicare-Medicaid Anti-Fraud and Abuse Amendments (Public Law 95-124), and is authorized to conduct a statewide program for investigating and prosecuting, and referring for prosecution, violations of all applicable laws pertaining to fraud in the administration of the Medi-Cal program, the provision of medical assistance or medical supplies, or the activities of providers of medical assistance or medical suppliers under the Medi-Cal plan. The investigation of fraud by beneficiaries of the Medi-Cal program is the responsibility of the Audits and Investigations Branch of the State Department of Health Services.

(b) The bureau shall also review complaints alleging abuse or neglect of patients in health care facilities receiving payments under the Medi-Cal plan and may review complaints of the misappropriation of patient's private funds in such facilities and complaints of discriminatory treatment of Medi-Cal beneficiaries by such facilities.

(1) If the initial review indicates substantial potential for criminal prosecution, the bureau shall investigate the complaint or refer it to an appropriate criminal investigative or prosecutive authority.

(2) If the initial review does not indicate a substantial potential for criminal prosecution, the bureau shall inform the referring agency of its determination and may, if appropriate, refer the complaint to the State Department of Health Services.

(c) Local law enforcement and prosecution agencies shall have concurrent jurisdiction with the bureau to investigate and prosecute violations of law referred to in this section.

(d) If the bureau, in carrying out its duties and responsibilities under subdivisions (a) and (b), discovers that overpayments have been made to a health care facility or other provider of medical assistance or medical supplies under the Medi-Cal plan, the bureau shall either attempt to collect the overpayment or refer the matter to the State Department of Health Services for collection.

(e) Where a prosecuting authority other than the bureau elects to prosecute a case reported to the bureau, the bureau shall, upon request of that prosecuting authority, ensure that those responsible for the prosecutive decision and the preparation of the case for trial have the opportunity to participate in the investigation from its inception and will provide all necessary assistance to the prosecuting authority throughout all resulting prosecutions.

(f) The bureau shall make available to federal investigators or prosecutors all information in its possession concerning fraud in the provision or administration of medical assistance under the Medi-Cal plan and shall cooperate with such officials in coordinating any federal and state investigations or prosecutions involving the same suspects or allegations.

(g) The bureau shall safeguard the privacy rights of all individuals and shall provide safeguards to prevent the misuse of information under its control, and all agencies which are required to report complaints alleging abuse or neglect of patients shall maintain the confidentiality of those reports until such time as the report becomes a matter of public record.

(h) The bureau shall offer training programs to local law enforcement and prosecutorial personnel in investigating and prosecuting crimes against elders and dependent adults, and to the State Department of Health Services, the State Department of Social Services, the county adult protective services agencies and to the Long-Term Care Ombudsman in evaluating and documenting criminal abuse against elders and dependent adults.

(i) The state Long-Term Care Ombudsman, the Licensing and Certification Division in the Department of Health Services, and the Statistical Services Bureau in the State Department of Social Services shall report to the bureau all instances of abuse and neglect of elders and dependent adults, as defined in Section 15610 of the Welfare and Institutions Code, which come to their attention.

(j) The bureau shall annually submit to the Legislature a report on the nature and extent of crimes in this state against patients in health facilities receiving payments from the Medi-Cal program and the response of the criminal justice system to those crimes.

(k) The bureau shall collect information on a statewide basis regarding cases of abuse and neglect of patients in health facilities receiving payments from the Medi-Cal program for the primary purpose of analyzing the information it collects and disseminating its conclusions to local law enforcement agencies and to regulatory and licensing authorities.

(*l*) For purposes of this section, "bureau" means the Bureau of Medi-Cal Fraud in the Office of the Attorney General.

SEC. 2. Section 15610.1 is added to the Welfare and Institutions Code, to read:

15610.1. For purposes of this chapter, "bureau" means the Bureau of Medi-Cal Fraud in the Office of the Attorney General.

SEC. 3. Section 15630 of the Welfare and Institutions Code is amended to read:

15630. (a) Any elder or dependent adult care custodian, health practitioner, or employee of a county adult protective services agency or a local law enforcement agency, who in his or her professional capacity or within the scope of his or her employment, either has observed an incident that reasonably appears to be physical abuse, has observed a physical injury where the nature of

the injury, its location on the body, or the repetition of the injury, clearly indicates that physical abuse has occurred, or is told by an elder or dependent adult that he or she has experienced behavior constituting physical abuse, shall report the known or suspected instance of physical abuse either to the long-term care ombudsman coordinator or to a local law enforcement agency when the physical abuse is alleged to have occurred in a long-term care facility, or to either the county adult protective services agency or to a local law enforcement agency when the physical abuse is alleged to have occurred anywhere else, immediately or as soon as possible by telephone, and shall prepare and send a written report thereof within two working days.

(b) Any care custodian, health practitioner, or employee of an adult protective services agency or local law enforcement agency who has knowledge of or reasonably suspects that other types of elder or dependent adult abuse have been inflicted upon an elder or dependent adult or that his or her emotional well-being is endangered in any other way, may report the known or suspected instance of abuse either to a long-term care ombudsman coordinator when the abuse is alleged to have occurred in a long-term care facility, or to the county adult protective services agency when the abuse is alleged to have occurred anywhere else. If the conduct involves criminal activity not already covered by subdivision (a), it may be immediately reported to the appropriate law enforcement agency.

(c) When two or more persons who are required to report are present and jointly have knowledge of a known or suspected instance of abuse of an elder or a dependent adult, and when there is agreement among them, the telephone report may be made by a member of the team selected by mutual agreement and a single report may be made and signed by the selected member of the reporting team. Any member who has knowledge that the member designated to report has failed to do so shall thereafter make the report.

(d) The reporting duties under this section are individual, and, no supervisor or administrator shall impede or inhibit the reporting duties and no person making such a report shall be subject to any sanction for making the report. However, internal procedures to facilitate reporting, ensure confidentiality, and apprise supervisors and administrators of reports may be established, provided they are not inconsistent with this chapter.

(e) (1) An adult protective services agency shall immediately or as soon as practically possible report by telephone to the law enforcement agency having jurisdiction over the case and to any public agency given responsibility for investigation in that jurisdiction of cases of elder and dependent adult abuse, every known or suspected instance of physical abuse of an elder or dependent adult. A county adult protective services agency shall also send a written report thereof within two working days of receiving

the information concerning the incident to each agency to which it is required to make a telephone report under this subdivision.

Only a written report, sent within two working days, shall be required in the case of types of elder and dependent adult abuse other than physical abuse.

If an adult protective services agency receives a report of abuse alleged to have occurred in a long-term care facility, that adult protective services agency shall immediately inform the person making the report that he or she must make it to the long-term care ombudsman coordinator or to a local law enforcement agency. The adult protective services agency shall not accept the reports.

(2) If an adult protective services agency or local law enforcement agency or ombudsman program receiving a report of known or suspected elder or dependent adult abuse involving physical abuse or neglect determines, pursuant to its investigation, that such abuse is being committed by a health practitioner licensed under Division 2 (commencing with Section 500) of the Business and Professions Code, or any related initiative act, or by a person purporting to be such a licensee, the adult protective services agency or local law enforcement agency or ombudsman program shall immediately report this information to the appropriate licensing agency. The licensing agency shall investigate the report in light of the potential for physical harm. The transmittal of information to the appropriate licensing agency shall not relieve the adult protective services agency or local law enforcement agency or ombudsman program of the responsibility to continue its own investigation as required under applicable provisions of law. The information reported pursuant to this paragraph shall remain confidential and shall not be disclosed.

(f) A law enforcement agency shall immediately or as soon as practically possible report by telephone to the long-term care ombudsman coordinator when the abuse is alleged to have occurred in a long-term care facility or to the county adult protective services agency when it is alleged to have occurred anywhere else, and to the agency given responsibility for the investigation of cases of elder and dependent adult abuse every known or suspected instance of abuse of an elder or a dependent adult. A law enforcement agency shall also send a written report thereof within two working days of receiving the information concerning the incident to any agency to which it is required to make a telephone report under this subdivision.

(g) A long-term care ombudsman coordinator may report the instance of abuse to the county adult protective services agency or to the local law enforcement agency for assistance in the investigation of the abuse if the victim gives his or her consent.

A long-term care ombudsman coordinator and the Licensing and Certification Division of the State Department of Health Services shall immediately report by telephone and in writing within two working days to the bureau any instance of neglect occurring in a health care facility, which has seriously harmed any patient or

reasonably appears to present a serious threat to the health or physical well-being of a patient in that facility. If a victim or potential victim of the neglect withholds consent to being identified in that report, the report shall contain circumstantial information about the neglect but shall not identify that victim or potential victim and the bureau and the reporting agency shall maintain the confidentiality of the report until such time as the report becomes a matter of public record.

(h) When a county adult protective services agency, a long-term care ombudsman coordinator, or a local law enforcement agency receives a report of abuse, neglect, or abandonment of an elder or dependent adult alleged to have occurred in a long-term care facility, that county adult protective services agency, long-term care ombudsman coordinator, or local law enforcement agency shall report the incident to the licensing agency by telephone as soon as possible.

(i) Each long-term care ombudsman coordinator shall report to the county adult protective services agency monthly on the reports it receives pursuant to this chapter. The reports shall be on forms adopted by the department. The information reported shall include, but shall not be limited to, the number of incidents of abuse, the number of persons abused, the type of abuse, and the actions taken on the reports. For purposes of these reports, sexual abuse shall be reported separately from physical abuse.

(j) Each county adult protective services agency shall report to the State Department of Social Services monthly on the reports received pursuant to this chapter. The reports shall be made on forms adopted by the department. The information reported shall include, but shall not be limited to, the number of incidents of abuse, the number of persons abused, the type of abuse sustained, and the actions taken on the reports. For purposes of these reports, sexual abuse shall be reported separately from physical abuse.

The county's report to the department shall include reports it receives from the long-term care ombudsman coordinator pursuant to subdivision (i).

The State Department of Social Services shall refer to the bureau monthly summaries of the reports of elder and dependent adult abuse, neglect, and abandonment which it receives from county adult protective services agencies.

SEC. 4. Section 15631 of the Welfare and Institutions Code is amended to read:

15631. (a) Any other person who knows, or reasonably suspects, that an elder or a dependent adult has been the victim of abuse may report that abuse to a long-term care ombudsman coordinator when the abuse is alleged to have occurred in a long-term care facility, or to the county adult protective services agency when the abuse is alleged to have occurred anywhere else.

(b) For the purposes of this section, "reasonable suspicion" means that it is objectively reasonable for a person to entertain such a

suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate upon his or her training and experience, to suspect abuse.

SEC. 5. Section 15632 of the Welfare and Institutions Code is amended to read:

15632. (a) Any person who enters into employment on or after January 1, 1986, as a care custodian, health practitioner, or with an adult protective services agency or a local law enforcement agency, prior to commencing his or her employment and as a prerequisite to that employment shall sign a statement on a form, which shall be provided by the prospective employer, to the effect that he or she has knowledge of the provisions of Section 15630 and will comply with its provisions. The signed statement shall be retained by the employer.

(b) Agencies or facilities that employ persons required to make reports pursuant to Section 15630, who were employed prior to January 1, 1986, shall inform those persons of their responsibility to make reports by delivering to them a copy of the statement specified in subdivision (c).

(c) The statement shall be in the following form:

California state law REQUIRES care custodians, health practitioners, and employees of adult protective services agencies and local law enforcement agencies to report physical abuse of elders and dependent adults.

Those professionals must report physical abuse under the following circumstances:

(1) When the reporter has observed an incident that reasonably appears to be physical abuse.

(2) When the reporter has observed a physical injury where the nature of the injury, its location on the body, or the repetition of the injury, clearly indicates that physical abuse has occurred.

(3) When the reporter is told by an elder or a dependent adult that he or she has experienced behavior constituting physical abuse.

The report must be made immediately, or as soon as possible, by telephone to either the long-term care ombudsman coordinator or to a local law enforcement agency when the abuse is alleged to have occurred in a long-term care facility, or to either the county adult protective services agency or to a local law enforcement agency when the abuse is alleged to have occurred anywhere else, and must be followed by a written report within two working days. The report must include:

(1) The name of the person making the report.

(2) The name, age, and present location of the elder or dependent adult.

(3) The names and addresses of family members or other persons responsible for the elder or dependent adult's care, if known.

(4) The nature and extent of the person's condition.

(5) Any information that led the reporter to suspect that abuse has occurred.

(6) The date of the incident.

State law also PERMITS the reporting of other types of abuse of elders and dependent adults, such as neglect, intimidation, fiduciary abuse, abandonment, or other treatment that results in physical harm, pain, or mental suffering. These reports may be made when the reporter has actual knowledge or reasonably suspects that abuse has occurred.

The law provides that care custodians, health practitioners, or employees of adult protective services agencies or local law enforcement agencies shall not incur either civil or criminal liability for any report they are required or permitted to make under this law.

However, failure to report physical abuse of an elder or dependent adult is a misdemeanor, punishable by not more than six months in the county jail or by a fine of not more than one thousand dollars ($1,000), or by both fine and imprisonment.

Reports made under this law are confidential and may be disclosed only to the agencies specified. Violation of the confidentiality provisions is also a misdemeanor, punishable by not more than six months in the county jail, by a fine of not more than five hundred dollars ($500), or by both fine and imprisonment.

For purposes of this chapter, "dependent adult" includes any person between the ages of 18 and 64 who is admitted as an inpatient to a 24-hour health facility as defined by Sections 1250, 1250.2, and 1250.3 of the Health and Safety Code.

DEFINITION OF "ABUSE OF AN ELDER OR A DEPENDENT

ADULT":

Welfare and Institutions Code Section 15610 (g): "Abuse of an elder or a dependent adult" means physical abuse, neglect, intimidation, cruel punishment, fiduciary abuse, abandonment, or other treatment with resulting physical harm or pain or mental suffering, or the deprivation by a care custodian of goods and services which are necessary to avoid physical harm or mental suffering.

DEFINITION OF "PHYSICAL ABUSE":

Welfare and Institutions Code Section 15610 (c): "Physical abuse" means all of the following:

(a) Assault, as defined in Section 240 of the Penal Code.

(b) Battery, as defined in Section 242 of the Penal Code.

(c) Assault with a deadly weapon or force likely to produce great bodily injury, as defined by Section 245 of the Penal Code.

(d) Unreasonable physical constraint, or prolonged or continual deprivation of food or water.

(e) Sexual assault, which means any of the following:

(1) Sexual battery, as defined in Section 243.4 of the Penal Code.

(2) Rape, as defined in Section 261 of the Penal Code.

(3) Rape in concert, as described in Section 264.1 of the Penal Code.

(4) Incest, as defined in Section 285 of the Penal Code.

(5) Sodomy, as defined in Section 286 of the Penal Code.

(6) Oral copulation, as defined in Section 288a of the Penal Code.

(7) Penetration of a genital or anal opening by a foreign object, as defined in Section 289 of the Penal Code.

(d) The cost of printing, distribution, and filing of these statements shall be borne by the employer.

(e) On and after January 1, 1987, when a person is issued a state license or certificate to engage in a profession or occupation the members of which are required to make a report pursuant to Section 15630, the state agency issuing the license or certificate shall send a statement substantially similar to the one contained in subdivision (c) to the person at the same time as it transmits the document indicating licensure or certification to the person.

(f) As an alternative to the procedure required by subdivision (e), a state agency may cause the required statement to be printed on all application forms for a license or certificate printed on or after January 1, 1987.

(g) The retention of statements required by subdivision (a), and the delivery of statements required by subdivision (b) shall be the full extent of the employer's duty pursuant to this section. The failure of any employee or other person associated with the employer to report physical abuse of elders or dependent adults or otherwise meet the requirements of this chapter shall be the sole responsibility of that person. The employer or facility shall incur no civil or other

liability for the failure of such persons to comply with the requirements of this chapter.

SEC. 6. Section 15633 of the Welfare and Institutions Code is amended to read:

15633. (a) A telephone report of a known or suspected instance of elder or dependent adult abuse shall include the name of the person making the report, the name and age of the elder or dependent adult, the present location of the elder or dependent adult, the names and addresses of family members or any other person responsible for the elder or dependent adult's care, if known, the nature and extent of the elder or dependent adult's condition, the date of the incident, and any other information, including information that led that person to suspect elder or dependent adult abuse requested by the adult protective services agency.

(b) The written reports required for the reporting procedures, as defined in this chapter, shall be submitted on forms adopted by the department after consultation with representatives of the various law enforcement agencies, professional medical and nursing agencies, hospital associations, the Department of Aging, the State Department of Developmental Services, the State Department of Education, the Bureau of Medi-Cal Fraud, and the county probation or welfare departments. These forms shall be distributed by the county adult protective services agencies and the long-term care ombudsman coordinators.

(c) Information relevant to the incident of elder or dependent adult abuse may also be given to an investigator from an adult protective services agency, a local law enforcement agency, or the Bureau of Medi-Cal Fraud who is investigating the known or suspected case of elder or dependent adult abuse.

(d) The identity of all persons who report under this chapter shall be confidential and disclosed only between adult protective services agencies, long-term care ombudsman coordinators, licensing agencies, local law enforcement agencies, or the Bureau of Medi-Cal Fraud or to counsel representing an adult protective services agency, long-term care ombudsman coordinator, licensing agency, or a local law enforcement agency, or the Bureau of Medi-Cal Fraud to the district attorney in a criminal prosecution, or when persons reporting waive confidentiality, or by court order.

(e) Notwithstanding subdivision (a), persons who may report pursuant to Section 15631 are not required to include their names.

SEC. 7. Section 15635 of the Welfare and Institutions Code is amended to read:

15635. (a) Investigation of reports of known or suspected instances of abuse is the responsibility of the county adult protective services agency and the local law enforcement agency having jurisdiction over the case unless another public agency is given responsibility for investigation in that jurisdiction, except that the investigation of reports of abuse alleged to have occurred in a long-term care facility is the responsibility of the long-term care

ombudsman coordinator and, for instances of physical and fiduciary abuse, the local law enforcement agency; but for instances of potential criminal neglect in a long-term health care facility, the long-term care ombudsman coordinator and the Bureau of Medi-Cal Fraud. The investigative responsibilities set forth in this section are in addition to, not in derogation of or in substitution for, the investigative and regulatory responsibilities of licensing agencies, such as the State Department of Social Services Community Care Licensing Division and the State Department of Health Services Licensing and Certification Division, and their authorized representatives.

(b) Each county adult protective services agency shall maintain an inventory of all public and private service agencies available to assist victims of abuse, as defined by Section 15610. This inventory shall be used to refer victims in the event that the county adult protective services agency cannot resolve the immediate needs of the victim, and to serve the victim on a long-term, followup basis. The intent of this section is to acknowledge that limited funds are available to resolve all suspected cases of abuse reported to a county adult protective services agency.

SEC. 8. The sum of one hundred fifteen thousand eight hundred dollars ($115,800) is hereby appropriated from the General Fund to the Controller for allocation to the Bureau of Medi-Cal Fraud in the Attorney General's Office. Allocation of these funds to the Bureau of Medi-Cal Fraud shall be subject to federal financial participation and shall be allocated on a matching fund basis.

SEC. 9. The Attorney General's Office is responsible for carrying out the provisions of this act only to the extent that funds are appropriated or federal financial participation is available, or any combination thereof.

(4) The aggregate purchase price of the parcels of real property acquired for the project.

(5) A description of the current uses of the property, if any, specifying the number of agricultural, commercial, residential, industrial, other rental accounts, and any projected future uses, if available.

(b) For lands and buildings held by the Department of Transportation, including office buildings, maintenance stations, equipment yards, and parking facilities, the Department of Transportation shall also provide a concise description of each major structure on the property.

(c) For marketable airspace and excess lands held by the Department of Transportation, the Department of Transportation shall provide a separate inventory for each category no later than July 1, 1989, which shall be updated annually thereafter. The inventory shall be in the format provided by the Department of Transportation.

For lands declared to be surplus by the Department of Transportation, the Department of Transportation shall provide all the data presently contained in the surplus land inventory and shall also include the estimated value of real property when available. Where an actual appraisal is available, it may be used, but is not required.

The marketable airspace inventory shall include, at a minimum, all of the following:

(1) A description of the major structures, if any, on the property.

(2) Rental revenues derived from the property.

(3) A description of current uses of the property.

(4) Projected future uses of the property, if available.

CHAPTER 639

An act to repeal Chapter 7.5 (commencing with Section 4040) of Part 1 of Division 5 of, and to add Article 6.5 (commencing with Section 26591) to Chapter 5 of Division 21 of, the Health and Safety Code, relating to health.

[Approved by Governor September 14, 1987 Filed with Secretary of State September 15, 1987]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7.5 (commencing with Section 4040) of Part 1 of Division 5 of the Health and Safety Code is repealed.

SEC. 2. Article 6.5 (commencing with Section 26591) is added to Chapter 5 of Division 21 of the Health and Safety Code, to read:

Article 6.5. Bottled, Vended, Hauled, and Processed Water

26591. (a) "Bottled water," means any drinking water or other water defined in Section 26594, which is placed in bottles or other containers for drinking, culinary, or other purposes involving a likelihood of the water being ingested by humans.

(b)"Water-bottling plant" means any facility in which bottled water is produced.

(c) "Water-vending machine" means any self-service device which, upon insertion of a coin, coins, or token, or upon receipt of payment by other means, dispenses servings of water in bulk, without the necessity of refilling the machine between each operation.

(d) "Water hauler" means any of the following:

(1) Any person who hauls water in bulk by truck, rail, ship, barge, or other vehicle for drinking, culinary, or other purposes involving a likelihood of the water being ingested by humans.

(2) Any person who hauls water in bulk by truck, rail, ship, barge, or other vehicle to any water-vending machine.

(3) Any person who hauls water in bulk by truck, rail, ship, barge, or other vehicle to or from any water-bottling plant or any retail water treatment plant.

"In bulk," as used in this subdivision, means containers having capacities of 25 gallons or greater.

(e) "Retail water treatment plant" means any place, other than a water-bottling plant, water-vending machine, or public water system, where water is processed or treated in any manner and is sold or given away at the treatment plant in customer's containers for drinking, culinary, or other purposes involving a likelihood of the water being ingested by humans.

(f) "Private water source" means a nonmunicipal, noncommunity-owned, privately owned source of water which

meets the requirements of an approved source for bottled water as defined in Section 129.3 of Title 21 of the Code of Federal Regulations.

(g) "Private water source operator" means any person who sells, delivers, or gives away water from a private water source to a water-bottling plant, water-vending machine, water hauler, retail water treatment plant, or to any person.

26592. (a) The department shall adopt and enforce the regulations it determines are reasonably necessary to ensure that all bottled water, vended water, water from water haulers, water from retail water treatment plants, and water from private water sources which is sold or otherwise distributed in this state is pure, wholesome, potable, and contains no inorganic chemicals or organic chemicals, including pesticides and plasticizers in concentrations which may have an adverse effect on public health and safety. The regulations shall include, but not be limited to, all of the following:

(1) Minimum standards for the sanitary production and distribution of bottled, vended, and hauled water, and water from retail water treatment plants and private water sources within this state. The standards shall include, but not be limited to, all of the following:

(A) Standards for the sanitary production, packaging, and distribution of bottled water shall not be less stringent than those standards prescribed by Part 110 and Part 129 of Title 21 of the Code of Federal Regulations.

(B) Standards to ensure that, prior to bottling, bottled water shall be subject to effective germicidal treatment by ozone, ultraviolet, or an equivalent disinfection process approved by the state department. The standards developed pursuant to this category for bottled water which contains carbon dioxide shall prescribe that sufficient compliance includes meeting the microbiological requirements described in Section 103.35 of Title 21 of the Code of Federal Regulations.

(C) Standards to ensure that dispensers for bottled water, which are furnished by the water bottler or distributor shall be delivered to the consumer's premises in a clean, sanitary condition, protected from dust or other contamination.

(D) Standards to ensure that ollas or other water-holding dispensers, both refrigerated and nonrefrigerated, shall be examined for cleanliness each time the dispenser is serviced by the representative of the distributor or bottler. When necessary, these dispensers shall be sanitized in place or returned to the bottler or distributor for cleaning or sanitizing before reuse according to the methods described in Part 129 of Title 21 of the Code of Federal Regulations.

(E) Standards for sanitary transfer of water from any source to storage or vehicle tanks, and from storage or vehicle tanks to customer owned or used storage tanks, vehicles, or other containers, or to water-vending machines, retail water treatment plants, or to

water bottling plants.

(F) Standards for water quality and for sanitation of vehicle tanks, storage tanks, and distribution systems used by water haulers.

(G) Standards for sanitation and processing of water by retail water treatment plants.

(H) Standards for protection and sanitation of private water sources.

(2) Quality standards for bottled water, mineral water, vended water, water distributed by water haulers, water from retail water treatment plants, and water from private water sources. The quality standards of bottled water, including mineral water, vended water, water distributed directly to consumers by water haulers, water from retail water treatment plants, and water distributed directly to consumers from private water sources shall not be less stringent than those standards prescribed by Section 103.35 of Title 21 of the Code of Federal Regulations, except that mineral waters shall exceed 500 milligrams per liter of total dissolved solids. The quality standards shall include all drinking water maximum contaminant levels and may include any additional standards that the department determines are reasonably necessary to protect public health and safety. In addition, bottled water shall not exceed 10 parts per billion of total trihalomethanes or five parts per billion of lead unless the department establishes a lower level by regulation. Notwithstanding any other provision of law, the quality standards shall ensure that bottled water, vended water, water from retail water treatment plants, water distributed by water haulers, and water from private water sources contain no inorganic or organic chemicals, including pesticides and plasticizers, in concentrations which may have an adverse effect on public health and safety.

Mineral water producers which bottle 5,000 gallons, or less, per week shall have until January 1, 1989, to comply with the quality standards for bottled water pursuant to this paragraph. Mineral water producers may present to the State Department of Health Services data on consumption of mineral water and the health effects of inorganic elements which may be present as listed in the bottled water quality standards of Part 103.35 of Title 21 of the Code of Federal Regulations.

(3) Polycarbonate resins manufactured after January 1, 1988, and intended for use in fabricating containers for water products defined in this article shall not contain in excess of three parts per million residual methylene chloride or in excess of 200 parts per million residual monochlorobenzene unless the department establishes a lower level by regulation. For the purpose of monitoring compliance with this section, the concentration of methylene choride and monochlorobenzene shall not exceed one part per billion in water. "Polycarbonate resins" mean the substances defined by Section 177.1580 of Title 21 of the Code of Federal Regulations except as modified by this section.

(4) Minimum standards of design, construction, and sanitation for

any water-vending machine. Those water-vending machines, other than coin-operated self-service devices, from which any operator or customer dispenses unit servings in bulk may be exempted by the department from the requirements of subparagraphs (G), (M), and (O). The minimum standard shall include, but not be limited to, all of the following:

(A) Provide that water-vending machines shall be in compliance with the construction and performance standards established by the department or by an independent authority approved by the department.

(B) Provide that all water-vending machines shall be designed and constructed to permit easy cleaning and maintenance of all exterior and interior surfaces.

(C) Provide that water-vending machines shall have all parts and surfaces which come into contact with the water constructed of approved, corrosive-resistant and nonabsorbent material capable of withstanding repeated cleaning and sanitizing treatment.

(D) Provide that water-vending machines shall have a recessed or guarded corrosion-resistant dispensing spout.

(E) Provide that water-vending machines be designed so all treatment of the vended water by distillation, ion exchange, filtration, ultraviolet light, reverse osmosis, mineral addition, or any other acceptable process is done in an effective manner.

(F) Provide that water-vending machines shall have an effective system of handling drip, spillage, and overflow of water.

(G) Provide that water-vending machines shall have a backflow prevention device approved by the department for all connections with the water supply.

(H) Provide for disinfecting vended water by ultraviolet light or other method approved by the department prior to delivery into the customer's container.

(I) Provide that water-vending machines shall be equipped with monitoring devices designed to shut down operation of the machine when the disinfection unit fails to function.

(J) Provide that water-vending machines shall be equipped with a self-closing, tight-fitting door on the vending compartment.

(K) Provide that water-vending machines shall comply with the American Water Works Association (AWWA) specifications for granular activated carbon if used in the treatment of potable water (AWWA B604-74).

(L) Provide that water-vending machines shall be maintained in a clean and sanitary condition, free from dirt and vermin.

(M) Provide that water-vending machines shall be connected to a state approved and regulated public water supply.

(N) Provide that water-vending machines shall be located in an area that can be maintained in a clean condition and in a manner that avoids insect and rodent harborage.

(O) Provide that the water-vending machine shall be equipped with monitoring devices designed to shut down the labeled purified

water delivery system if treatment of water by the machine does not result in a total dissolved solids content of less than 10 milligrams per liter in the purified water.

(5) Standards for labeling and advertising of bottled water, vended water, water distributed by a water hauler, water from a retail water treatment plant, and water from private water sources.

(6) Standards for processing bottled water through a line or lines used for any other food product.

(b) The department, upon the request of a local health officer, may authorize the local health officer to implement and enforce those provisons of this chapter which relate to water-vending machines, and retail water treatment plants under the terms and conditions specified by the department.

26592.1. Each bottler, distributor, or vendor of bottled water, each owner or operator of a water-vending machine, each water hauler, each operator of a retail water treatment plant, and each private water source operator shall obtain a bacterial analysis by an approved laboratory of water so bottled, distributed, or sold at such times as may be required by regulations of the department. The analysis shall be submitted to the department indicating whether the water is pure and wholesome. Analyses of vended water or water from retail water treatment plants shall be submitted to the local health officers if the local health officers are authorized by the department pursuant to subdivision (b) of Section 26592.

26592.2. No water shall be sold or otherwise distributed which has been produced in any water-bottling plant, vended by any water-vending machine, hauled by any water hauler, processed by any retail water treatment plant or distributed by any private water source operator which does not at least satisfy the minimum standards adopted by the department for the production and quality of the water.

26592.3. No water-vending machine shall be used in this state which does not at least satisfy the minimum standards adopted by the department.

26592.4. The department shall require that each water-vending machine, retail water treatment plant, water hauler vehicle and facility, and private water source be maintained in a clean and sanitary condition at all times.

26593. (a) No person shall operate a water-bottling plant, operate a private water source, or be a water hauler in this state except pursuant to a license issued by the department. If a person has a valid water-bottling plant license issued by the department, additional licenses for a private water source operator or for a water hauler based and operating at the same address, or for an out-of-state bottled water distributor shall not be required.

(b) No person shall own or operate a water vending machine or a retail water treatment plant except pursuant to a license issued by the department or to a permit issued by a local health department.

26593.1. No bottled water produced in an out-of-state bottling

department may require any bottler, distributor, or vendor of bottled water, any owner or operator of a water-vending machine, any water hauler, any retail water treatment plant operator, any private water source operator, or any applicant for a license to test and submit results to the department for any substance, including organic chemical contaminants, at any time which the department believes the substance may be present in the water source and threaten the public health and safety.

26593.8. (a) Upon a determination by the department that a particular water source is subject to potential contamination, the department shall notify the bottler, distributor, or vendor of bottled water, the owner and operator of any water-vending machine, any water hauler, any retail water treatment plant operator, or any private water source operator of the specific contaminants or class of contaminants which pose a potential health risk.

(b) Within 90 days after notification by the department, the bottler, distributor, vendor of bottled water, the owner and operator of any water-vending machine, any water hauler, any retail water treatment plant operator, or any private water source operator shall conduct an analysis of the water source and submit the results of the analysis to the department.

(c) If evidence of contamination is found, the department may, by order, require the bottler, distributor, vendor of bottled water, or the owner and operator of any water-vending machine, any water hauler, any retail water treatment plant operator, or any private water source operator to conduct a source and product water analysis for the contaminants of concern in accordance with conditions specified by the department. The water analysis shall be conducted and reported on an annual basis, unless the department finds that reasonable action requires either more frequent or less frequent analysis.

(d) The department may, by order, require the bottler, distributor, vendor of bottled water, the owner and operator of any water-vending machine, any water hauler, any retail water treatment plant operator, or any private water source operator to reduce or eliminate the concentration of any chemical which the department determines may have an adverse effect on public health and safety. Until an enforceable standard has been established for a chemical which may have an adverse effect on human health, the department may require treatment techniques to reduce the concentration of the contaminants which require treatment necessary, in the department's judgment, to prevent known or anticipated adverse effects on the health of persons. The treatment system shall be designed to meet criteria designated by the department or by an independent authority approved by the department.

(e) The department may grant variances from the requirements of subdivision (d), if the bottler, distributor, vendor of bottled water, the owner and operator of any water-vending machine, any water

hauler, any retail water treatment plant operator, or any private water source operator demonstrates either of the following:

(1) That the prescribed treatment technique is not necessary to protect the health of consumers because its raw water source is not subject to, nor is it likely to be subject to, significant chemical contamination.

(2) An alternative treatment technique is at least as efficient in lowering the level of contaminants to be controlled.

26593.9. All testing of bottled water, bottled water sources, water distributed by water haulers, water from retail water treatment plants, and water from vending machines shall be done by laboratories approved by the department, laboratories certified by the United States Environmental Protection Agency, laboratories certified by the primary enforcement authority in states which have been granted primacy by the United States Environmental Protection Agency, or laboratories certified (accredited) by a third-party organization acceptable to a primacy state.

26594. (a) Each container of bottled water sold in this state, each water-vending machine, and each retail water treatment plant located in this state shall be clearly labeled in an easily readable format. Bottled water may be labeled "drinking water," notwithstanding the source or characteristics of the water, only if it is processed pursuant to the Food and Drug Administration Good Manufacturing Practices contained in Section 103.35 and Parts 110 and 129 of Title 21 of the Code of Federal Regulations, Sections 12235 to 12285, inclusive, of Title 17 of the California Administrative Code, and any other requirements established by the department pursuant to Sections 26593.5, 26593.6, and 26593.7. Any vended water and any water from retail water treatment plants may be labeled "drinking water," notwithstanding the source or characteristics of the water, only if it is processed pursuant to Article 10 (commencing with Section 27650) of Chapter 4 of Division 22 and any other requirements established by the department pursuant to Sections 26593.5, 26593.6, and 26593.7.

(b) In addition to the requirements of subdivision (a), if a bottler, distributor, water hauler, retail water treatment plant operator, private water source operator, or vending machine operator provides information in the labeling or advertising of bottled water or vended water, stating or implying it is the product of a specific source of water or treated in a specific manner, the source or treatment shall be clearly labeled in an easily readable format. In order to be so labeled, the source or treatment shall conform to the following criteria:

(1) "Artesian well water" means water from a well tapping an aquifer in which the water level will stand above the bottom of the confining bed of the aquifer, and in which the hydraulic pressure of the water in the aquifer is greater than the force of gravity. Artesian well water shall not be altered by the addition or deletion of minerals or by blending it with water from a nonartesian well water source,

except that artesian well water may be filtered and shall be treated with ozone or an equivalent disinfection process. Any water which satisfied the designation of this paragraph may be labeled "artesian well water."

(2) "Fluoridated water" means water containing naturally occurring or added fluoride. The label shall specify whether it is naturally occurring or added fluoride. Any water which meets the designation of this paragraph shall contain not less than 1.0 milligrams per liter fluoridization and otherwise comply with the Food and Drug Administration quality standards set forth in Section 103.35(d)(2) of Title 21 of the Code of Federal Regulations.

(3) "Mineral water" means bottled water or vended water containing more than 500 milligrams per liter of total dissolved solids and originating entirely from an underground source, which may be a well, artesian well, or spring. Bottled or vended mineral water may be derived from a natural orifice or from a bore hole adjacent to the natural orifice. If it is derived from a natural orifice or from a bore hole adjacent to the natural orifice, the water shall be from the same underground stratum and be of the same quality and composition as the water derived from the natural orifice without external force. Mineral water may not be altered by the addition or deletion of minerals or by blending it with water from another source, except that mineral water may be filtered and shall be treated with ozone or an equivalent disinfection process approved by the department and shall be treated to reduce the concentrations of any naturally occurring substance which exceeds the bottled water safety standards established by the department. Mineral water may be collected and transported by pipes, tunnels, trucks, or similar devices. Any water which meets the criteria of this paragraph may also be labeled "natural mineral water."

(A) Mineral water which contains carbon dioxide as it emerges from the source and is bottled directly with its entrapped gas, or, the gas is mechanically separated from the water and later reintroduced into the water at the time of bottling shall be labeled "naturally carbonated" or "naturally sparkling."

(B) Mineral water which contains carbon dioxide, other than that naturally occurring in the source product, shall be labeled with the words "carbonation added" or "carbon dioxide added" when the carbonation is obtained from a natural or manufactured source.

(4) "Mineralized water" means bottled or vended water which meets the requirements of "mineral water" except that the water contains added minerals.

(5) "Natural water" means bottled or vended spring, artesian well, or well water which is unmodified by mineral addition or deletion, except "natural water" may be filtered and shall be sanitized with ozone or an equivalent disinfection process and treated to reduce the concentration of any substance which exceeds safety standards established by the state department.

(6) "Naturally sparkling water" means bottled water or vended

water with a carbon dioxide content from the same source as the water. "Sparkling," "carbonated," or "carbonation added" means bottled water or vended water which contains carbon dioxide.

(7) "Purified water" means water produced by distillation, deionization, reverse osmosis, or other method meeting the definition of purified water in the 21st edition of the United States Pharmacopeia. Water which meets the designation of this paragraph, and is vaporized, then condensed, may be labeled "distilled water."

(8) "Spring water" means water which issues by natural forces out of the earth at a particular place. Bottled or vended spring water may be derived from the natural orifice or from a bore hole adjacent to the natural orifice. If it is derived from the natural orifice by external force or from a bore hole adjacent to the natural orifice, the water shall be from the same underground stratum and be of the same quality and composition as the water derived from the natural orifice without external force. Spring water may not be altered by the addition or deletion of minerals or by blending it with water from a nonspring water source, except that spring water may be filtered and shall be treated with ozone or an equivalent disinfection process. Spring water may be collected and transported by pipes, tunnels, trucks, or similar devices.

(9) "Well water" means water from a hole bored into the ground which taps the water of an aquifer, except that well water may be filtered and shall be treated with ozone or an equivalent disinfection process. Well water may not be altered by the addition or deletion of minerals or by blending it with water from a nonwell water source.

(10) Notwithstanding any other provision of this section, water from a public water system which is unprocessed by the bottler or vendor shall be labeled as "unprocessed public drinking waters."

26594.2. Except as provided in paragragh (3) of subdivision (b) of Section 26594, any bottled water or vended water, the quality of which is below the quality required by this article, shall be labeled with a statement of substandard quality, as prescribed by Section 103.35 of Title 21 of the Code of Federal Regulations.

26594.3. Any bottler, distributor, vendor of bottled water, or owner or operator of any water-vending machine, whose corporate name or trademark contains the words "spring" or "springs," or any derivative of either of these words, or "well," "artesion well," or "natural" shall label each bottle or vending machine with the source of the water in typeface at least equal to the size of the typeface of the corporate name or trademark, if the source of the bottled or vended water is different from the source stated in the corporate name or trademark.

26594.4. (a) A bottled water, as defined in Section 26594, with natural or added carbonation, may be prepared with added flavors, extracts, essences, or fruit juice concentrates derived from a spice or fruit and comprising less than 1 percent by weight of the final product. The final product shall contain no sweeteners, or additives other than the flavors, extracts, essences, or fruit juice concentrates

and carbon dioxide and shall be designated on labels and in advertising as follows:

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 640

An act to add Section 11174.3 to the Penal Code, relating to child abuse.

[Approved by Governor September 14, 1987 Filed with Secretary of State September 15, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that a number of victims of child abuse must be interviewed by representatives of child protective agencies during school hours, on school premises, regarding suspected child abuse. It is essential to minimize the trauma to the child attendant with such an interview and to thereby increase the likelihood of ascertaining the true facts in the case. Accordingly, it is desirable that the child should have the opportunity to have present at the interview an adult who is a member of the staff of the school with whom the child has a comfortable relationship.

SEC. 2. Section 11174.3 is added to the Penal Code, to read:

11174.3. (a) Whenever a representative of a child protective agency deems it necessary, a suspected victim of child abuse may be interviewed during school hours, on school premises, concerning a report of suspected child abuse that occurred within the child's

home. The child shall be afforded the option of being interviewed in private or selecting any adult who is a member of the staff of the school, including any certificated or classified employee or volunteer aide, to be present at the interview. A representative of the child protective agency shall inform the child of that right prior to the interview. The purpose of the staff person's presence at the interview is to lend support to the child and enable him or her to be as comfortable as possible; however, the member of the staff so elected shall not participate in the interview. The member of the staff so present shall not discuss the facts or circumstances of the case with the child. The member of the staff so present, including, but not limited to, a volunteer aide, is subject to the confidentiality requirements of this article, a violation of which is punishable as specified in Section 11167.5. A representative of the school shall inform a member of the staff so selected by a child of the requirements of this section prior to the interview. A staff member selected by a child may decline the request to be present at the interview. If the staff person selected agrees to be present, the interview shall be held at a time during school hours when it does not involve an expense to the school. Failure to comply with the requirements of this section does not affect the admissibility of evidence in a criminal or civil proceeding.

(b) The Superintendent of Public Instruction shall notify each school district, and each child protective agency shall notify each of its employees who participate in the investigation of reports of child abuse, of the requirements of this section.

SEC. 3. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

(2) Violated the written underwriting rules or regulations of the insurer, a copy of which has been provided to the agent, which misleads the insurer concerning the nature or extent of a risk.

(3) Failed to comply with the fiduciary requirements set forth in Section 1733, 1734, 1734.5, or 1735.

The agent's authority during the period following notice of termination of his or her agency contract shall be governed by the written agency contract between the agent and the insurer, except that, after the receipt of the notice of termination, the agent shall not bind new risks on behalf of the insurer, renew policies except as permitted by this section, or otherwise increase the obligation of the insurer, without the express approval of the insurer or in accordance with the terms of an existing policy.

(3) The agent has failed, either within 10 days after written demand upon failure to remit funds within the time limits set forth in the agency contract or within 30 days after written demand where the agency contract does not set forth such time limits, to remit funds due and owing to the insurer.

(4) The agent has failed to follow the written instructions of the insurer, a copy of which has been provided to the agent, generally applicable to the renewal of policies.

(5) The commissioner has determined that the renewal of the

(7) The insurer has withdrawn from the State of California in accordance with Sections 1070 to 1076, inclusive.

(b) If a defendant has appeared before a judge of the court on the charge contained in the complaint, indictment, or information the bail shall be in the amount fixed by the judge at the time of such appearance; if no appearance has been made, the bail shall be in the amount fixed in the warrant of arrest or, if no warrant of arrest has been issued, the amount of bail shall be pursuant to the uniform countywide schedule of bail for the county in which the defendant must appear, previously fixed and approved as provided in subdivisions (c) and (d).

A copy of the countywide bail schedule shall be sent to the officer in charge of the county jail, to the officer in charge of each city jail within the county, to each superior, municipal and justice court judge and commissioner in the county, and to the Judicial Council.

All money and surety bonds so deposited with an officer authorized to receive bail shall be transmitted immediately to the judge or clerk of the court by which the order was made or warrant issued or bail schedule fixed. If, in the case of felonies, an indictment is filed, the judge or clerk of the court shall transmit all such money and surety bonds to the county clerk.

The public safety shall be the primary consideration. No bail bond shall be accepted unless the judge or magistrate be convinced that no portion of the consideration, pledge, security, deposit, or indemnification paid, given, made, or promised for its execution was feloniously obtained by the defendant.

In considering the seriousness of the offense charged, the judge or magistrate shall include consideration of the alleged injury to the victim, and alleged threats to the victim or a witness to the crime charged, the alleged use of a firearm or other deadly weapon in the commission of the crime charged, and the alleged use or possession of controlled substances by the defendant.

In considering offenses wherein a violation of Chapter 6 (commencing with Section 11350) of Division 10 of the Health and Safety Code is alleged, the judge or magistrate shall consider the alleged amounts of controlled substances involved in the commission of the offense.

(a) For the part of the construction cost of the proposed project properly allocated to the enhancement of fish and wildlife, except, that a grant for that part shall not exceed 50 percent of the construction cost. In allocating the costs of repair, alteration, or replacement of a dam to fish and wildlife enhancement, the department may consider existing fish and wildlife resources to the extent that they would be reduced or eliminated by a storage restriction for dam safety purposes pursuant to Part 1 (commencing with Section 6000) of Division 3.

(b) For the part of the construction cost of any dam and reservoir of the proposed project properly allocated to recreational functions of statewide interest, except that a grant for that part shall not exceed 50 percent of the construction cost, and provided further, that the total grant under subdivisions (a) and (b) for any one project shall

Those construction costs may include expenditures for lands located above the high waterline of reservoirs which are necessary or desirable for public recreation in connection with the reservoir.

(c) For the construction of initial water supply and sanitary facilities which are needed for public recreational use of each proposed dam and reservoir of the proposed project which will develop a new water supply. A grant for the purpose specified in this subdivision shall not be subject to the limitation contained in Section 12884 on grants for the purposes specified in subdivisions (a) and (b) and shall not be included in computing the total amount which may be granted to a public agency in connection with a project for those purposes. A grant for the purpose specified in this subdivision shall not exceed one-fourth of the total amount granted to a public agency in connection with a project for the purposes specified in subdivision (a) or (b), or both.

SEC. 3. (a) The Legislature hereby finds and declares that providing state assistance to aid the Big Bear Municipal Water District in maintaining the Bear Valley Dam, and to aid the Littlerock Creek Irrigation District and the Palmdale Water District in repairing, altering, or replacing Littlerock Dam, in compliance with state earthquake standards will provide broad regional and state benefits.

(b) The Legislature further finds and declares that, subject to the approval of the California Water Commission, as required by the Davis-Grunsky Act (Chapter 5 (commencing with Section 12880) of Part 6 of Division 6 of the Water Code), providing loans and grants to other dam and reservoir projects to bring them into compliance with seismic safety standards will provide broad regional and statewide benefits by assuring that existing water supply, fish and wildlife enhancement, and recreational purposes are not impaired or eliminated by storage restrictions.

SEC. 4. The Department of Water Resources is hereby authorized to make a grant to the Big Bear Municipal Water District pursuant to the Davis-Grunsky Act (Chapter 5 (commencing with Section 12880) of Part 6 of Division 6 of the Water Code) for the costs of repairing or altering Bear Valley Dam that the department finds to be properly allocated to fish and wildlife enhancement or to recreational functions of statewide interest, upon approval of an application therefor pursuant to that act. The department may also make a loan for the reconstruction of Bear Valley Dam for water supply purposes pursuant to the Davis-Grunsky Act, but the total combined amount of the loan and grant shall not exceed the amount of five million dollars ($5,000,000). In addition, the total amount of

Davis-Grunsky Act funds disbursed shall not exceed 50 percent of the total project costs.

SEC. 5. (a) The Department of Water Resources is hereby authorized to make a grant to the Littlerock Creek Irrigation District and the Palmdale Water District pursuant to the Davis-Grunsky Act (Chapter 5 (commencing with Section 12880) of Part 6 of Division 6 of the Water Code) for the costs of repairing or altering Littlerock Dam that the department finds to be properly allocated to fish and wildlife enhancement or to recreational functions of statewide interest, upon approval of an application therefore pursuant to that act. The department may also make a loan for the reconstruction of Littlerock Dam for water supply purposes pursuant to the Davis-Grunsky Act, but the total combined amount of the loan and grant may not exceed three million dollars ($3,000,000).

(b) In the event that the Littlerock Creek Irrigation District and the Palmdale Water District determine to remove, or partially remove, Littlerock Dam from service in lieu of repairing or altering the dam, the department is hereby authorized to make a loan to those districts pursuant to the Davis-Grunsky Act for the cost of constructing replacement works to enable the districts to utilize Littlerock Creek for water supply purposes in an amount determined by the department upon approval of an application therefor, but not to exceed three million dollars ($3,000,000). A portion of that amount may be granted to the districts for the portion of the cost of replacement works properly allocated to fish and wildlife enhancement or recreation, as specified in subdivision (a).

The people of the State of California do enact as follows:

SECTION 1. Section 1428 of the Health and Safety Code is amended to read:

1428. (a) If a licensee desires to contest a class "AA" or a class "A" citation, or a citation alleging a class "B" violation and either a class "AA" or class "A" violation or the proposed assessment of a civil penalty therefor, the licensee shall within five business days after service of the citation notify the director in writing of his or her request for a citation review conference with the designee of the director for the county in which the cited long-term health care facility is located. The director's designee shall hold, within five business days from the receipt of the request, a citation review conference, at the conclusion of which he or she may affirm, modify, or dismiss the citation or proposed assessment of a civil penalty. If the

director's designee affirms, modifies, or dismisses the citation or proposed assessment of a civil penalty, he or she shall state with particularity in writing his or her reasons for that action, and shall immediately transmit a copy thereof to each party to the original complaint. If the licensee desires to contest a decision made after the citation review conference, the licensee shall inform the director in writing within five business days after he or she receives the decision by the director's designee. If the licensee fails to notify the director in writing that he or she intends to contest the citation or the proposed assessment of a civil penalty therefor or the decision made by a director's designee after a citation review conference within the time specified in this subdivision, the citation or the proposed assessment of a civil penalty or the decision by a director's designee after a citation review conference shall be deemed a final order of the state department and shall not be subject to further administrative review.

(b) If a licensee notifies the director that he or she intends to contest a class "AA" or a class "A" citation, or a citation alleging a class "B" violation and either a class "AA" or class "A" violation, the director shall immediately notify the Attorney General. Upon notification, the Attorney General shall promptly take all appropriate action to enforce the citation and recover the civil penalty prescribed thereon, and shall take such other action as the Attorney General shall deem appropriate, in the court of competent jurisdiction for the county in which the long-term health care facility is located.

(c) If a licensee desires to contest a class "B" citation or the proposed assessment of a civil penalty therefor, the licensee shall within five business days after service of the citation (1) notify the director in writing of his or her request for a citation review conference with the designee of the director for the county in which the cited long-term health care facility is located; or (2) notify the director in writing of the licensee's intent to adjudicate the validity of the citation in the municipal court in the county in which the long-term health care facility is located. If requested by the licensee, the director's designee shall hold, within five business days from the receipt of the request, a citation review conference, at the conclusion of which he or she may affirm, modify, or dismiss the citation or the proposed assessment of a civil penalty. If the director's designee affirms, modifies, or dismisses the citation or proposed assessment of a civil penalty, he or she shall state with particularity in writing his or her reasons for that action and shall immediately transmit a copy thereof to each party to the original complaint. If the licensee desires to contest a decision made after the citation review conference, the licensee shall inform the director in writing within five business days after he or she receives the decision by the director's designee. In order to perfect a judicial appeal of a contested citation, a licensee shall file a civil action in the municipal court in the county in which the long-term health care facility is located. The action shall be filed

no later than 60 calendar days after a licensee notifies the director that he or she intends to contest a citation, or, in the event a citation review conference is held, no later than 60 calendar days after a licensee notifies the director of his or her intent to contest the decision of the director's designee. If a judicial appeal is prosecuted under the provisions of this subdivision, the state department shall have the burden of establishing by a preponderance of the evidence that (1) the alleged violation did occur, (2) the alleged violation met the criteria for the class of citation alleged, and (3) the assessed penalty was appropriate. The state department shall also have the burden of establishing by a preponderance of the evidence that the assessment of a civil penalty should be upheld. If a licensee fails to notify the director in writing that he or she intends to contest the citation or the decision made by the director's designee within the time specified in this subdivision, or fails to file a civil action within the time specified in this subdivision, the citation or the decision by the director's designee after a citation review conference shall be deemed a final order of the state department and shall not be subject to further administrative review. If a licensee prosecutes a judicial appeal of a contested citation or the assessment of a civil penalty, no civil penalty shall be due and payable unless and until the appeal is terminated in favor of the state department.

(d) The director or the director's designee shall establish an independent unit of trained citation review conference hearing officers within the state department to conduct citation review conferences. Citation review conference hearing officers shall be directly responsible to the deputy director for licensing and certification, and shall not be concurrently employed as supervisors, district administrators, or regional administrators with the licensing and certification division. Specific training shall be provided to members of this unit on conducting an informal conference, with emphasis on the regulatory and legal aspects of long-term health care.

Where the state department issues a citation as a result of a complaint or regular inspection visit, and a resident or residents are specifically identified in a citation by name as being specifically affected by the violation, then the following persons may attend the citation review conference.

(1) The complainant and his or her designated representative.

(2) A personal health care provider, designated by the resident.

(3) A personal attorney, only if the long-term health care facility has an attorney present.

(4) Any person representing the Office of the State Long-Term Care Ombudsman, as defined in subdivision (c) of Section 9701 of the Welfare and Institutions Code.

Where the state department determines that residents in the facility were threatened by the cited violation but does not name specific residents, any person representing the Office of the State Long-Term Care Ombudsman, as defined in subdivision (c) of

Section 9701 of the Welfare and Institutions Code, and a representative of the residents or family council at the facility may participate to represent all residents. In this case, these representatives shall be the sole participants for the residents in the conference. The residents' council shall designate which representative will participate.

The complainant, affected resident, or their designated representatives shall be notified by the state department of the conference and their right to participate. The director's designee shall notify the complainant or his or her designated representative and the affected resident or his or her designated representative, of his or her determination based on the citation review conference.

(e) In assessing the civil penalty for a violation, all relevant facts shall be considered, including, but not limited to, all of the following:

(1) The probability and severity of the risk which the violation presents to the patient's mental and physical condition.

(2) The patient's medical condition.

(3) The patient's mental condition and his or her history of mental disability.

(4) The good-faith efforts exercised by the facility to prevent the violation from occurring.

(5) The licensee's history of compliance with regulations.

(f) Except as otherwise provided in this subdivision, an assessment of civil penalties for a class "A" or class "B" violation shall be trebled and collected for a second or subsequent violation occurring within any 12-month period, if a citation was issued and a civil penalty assessed for the previous violation occurring within the period, without regard to whether the action to enforce the previous citation has become final. However, the increment to the civil penalty required by this subdivision shall not be due and payable unless and until the previous action has terminated in favor of the state department.

If the class "B" violation is a patient's rights violation, as defined in subdivision (d) of Section 1424, it shall not be trebled unless the state department determines the violation has a direct or immediate relationship to the health, safety, security, or welfare of long-term health care facility residents.

(g) The director shall prescribe procedures for the issuance of a notice of violation with respect to violations having only a minimal relationship to safety or health.

(h) Actions brought under this chapter shall be set for trial at the earliest possible date and shall take precedence on the court calendar over all other cases except matters to which equal or superior precedence is specifically granted by law. Times for responsive pleading and for hearing any such proceeding shall be set by the judge of the court with the object of securing a decision as to subject matters at the earliest possible time.

(i) If the citation is dismissed or reduced, the state department shall take action immediately to ensure that the public records

reflect in a prominent manner that the citation was dismissed or reduced.

(j) Upon a licensee notifying the director of its intent to contest one or more citations or decisions made following a citation review conference where the total penalties do not exceed fifteen thousand dollars ($15,000), either the state or the licensee may elect to submit the matter to binding arbitration. The parties shall agree upon an arbitrator designated from the American Arbitration Association in accordance with the association's established rules and procedures. The arbitration hearing shall be set within 45 days of the petitioner's election, but in no event less than 28 days from the date of selection of an arbitrator. The arbitration hearing may be continued up to 15 additional days if necessary at the arbitrator's discretion. The arbitrator's decision shall specify, in writing, the areas of disagreement between the parties, the evidence upon which the decision is based, and the reasons for the decision. The decision of the arbitrator shall be based upon substantive law and shall be binding on all parties, subject to judicial review. This review shall be limited to whether there was substantial evidence to support the decision of the arbitrator.

The arbitrator shall determine which of the parties are financially liable for arbitration costs based upon the position each took at the commencement of the arbitration proceedings compared to the decision of the arbitrator.

The retention of, renewal of, or application for, a license to operate a skilled nursing facility or intermediate care facility shall, for purposes of the administration of this chapter, be deemed a written agreement to arbitrate contested citations within the meaning of Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure. Without extending the time for commencement of these hearings, Section 1283.05 of the Code of Civil Procedure shall be applicable to all proceedings to arbitrate citations issued pursuant to this chapter, except that depositions may be noticed and taken without prior approval of the arbitrator.

Penalties paid on violations under this chapter shall be applied against the state department's accounts to offset any costs incurred by the state pursuant to this subdivision. Any costs or penalties assessed pursuant to this chapter shall be paid within 30 days of the date the decision becomes final. If a facility does not comply with this provision, the state department shall withhold any payment under the Medi-Cal program until the debt is satisfied. No payment shall be withheld if the state department determines that it would cause undue hardship to the facility or to patients of the facility.

CHAPTER 654

An act to amend Sections 76005 and 76006 of the Government Code, and to amend Section 42008 of the Vehicle Code, relating to courthouse construction funds.

[Approved by Governor September 14, 1987 Filed with Secretary of State September 15, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 76005 of the Government Code is amended to read:

76005. (a) Notwithstanding any other provision of law, to assist a county other than Contra Costa, Los Angeles, Santa Clara, San Diego, or the City and County of San Francisco in the acquisition, rehabilitation, construction, and financing of courtrooms or of a courtroom building or buildings containing facilities necessary to the operation of the courts, and, in Monterey County, the improvement of criminal justice automated information systems, and, in San Bernardino County, the maintenance, operation, construction, reconstruction, or expansion of county juvenile justice rehabilitation facilities, the board of supervisors of a county other than Contra Costa, Los Angeles, Santa Clara, San Diego, or the City and County of San Francisco, operative upon the adoption of a resolution stating that the provisions of this section and the assessments provided for in paragraph (2) of subdivision (a) of Section 76000 are necessary to the establishment of adequate courtroom facilities in the county, may establish in the county treasury a Courthouse Temporary Construction Fund.

The county treasurer shall place all assessment amounts collected on nonparking offenses pursuant to paragraph (2) of subdivision (a) of Section 76000 in the fund.

(b) The fund moneys together with any interest earned thereon shall be held by the treasurer separate from any funds subject to transfer or division pursuant to Section 1463 of the Penal Code. The moneys of the Courthouse Temporary Construction Fund together with any interest earned thereon shall be payable only for courtroom construction as authorized in subdivision (a); provided, that in Monterey County, for a five-year period, up to 50 percent of the moneys deposited each year in the Courthouse Temporary Construction Fund, but in no case exceeding a total of five hundred thousand dollars ($500,000) for the five-year period, may be payable for the improvement of criminal justice automated information systems upon the adoption of a resolution by the board of supervisors stating that such moneys used for automated information system improvement purposes are not required for the construction of courthouse buildings during the five-year period; and provided, that in San Bernardino County moneys deposited each year in the

Courthouse Temporary Construction Fund may also be used for the maintenance, operation, construction, reconstruction, or expansion of county juvenile justice rehabilitation facilities.

(c) Deposits to the fund in accordance with subdivision (a) shall continue through and including either (1) the 20th year after the initial calendar year in which the surcharge is collected or (2) whatever period of time is necessary to repay any borrowings made by the county to finance construction provided for in this section, whichever time shall be longer.

SEC. 2. Section 76006 of the Government Code is amended to read:

76006. (a) Notwithstanding any other provision of law, to assist the Counties of Contra Costa, Santa Clara, and San Diego in the acquisition, rehabilitation, construction, and financing of courtrooms or of a courtroom building or buildings containing facilities necessary to the operation of the courts, the board of supervisors of the County of Contra Costa, Santa Clara, or San Diego, respectively, operative upon the adoption of a resolution stating that the provisions of this section and the assessments provided for in Section 76000 are necessary to the establishment of adequate courtroom facilities in the county, may establish in the county treasury a Courthouse Temporary Construction Fund.

The county treasurer shall place all assessment amounts collected pursuant to Section 76000 in the fund.

(b) In addition to observing the increased bail amounts as established by the court pursuant to paragraph (1) of subdivision (a) of Section 76000, each city, district, or other issuing agency which elects to receive, deposit, accept forfeitures, and otherwise process the posting of bail for parking violations pursuant to subdivision (3) of Section 1463 of the Penal Code, shall pay one dollar and fifty cents ($1.50) for each bail deposit collected on each bail violation which is not filed in court to the county treasurer. These payments to the county treasurer shall be made monthly, and the treasurer shall deposit all those payments in the fund.

(c) The fund moneys together with any interest earned thereon shall be held by the treasurer separate from any funds subject to transfer or division pursuant to Section 1463 of the Penal Code. The moneys of the Courthouse Temporary Construction Fund together with any interest earned thereon shall be payable only for courtroom construction as authorized in subdivision (a).

(d) Deposits to the fund in accordance with subdivisions (a) and (b) shall continue through and including either (1) the 20th year after the initial calendar year in which the surcharge is collected or (2) whatever period of time is necessary to repay any borrowings or public agency funding mechanism, including, but not limited to, retirement of bonded indebtedness, loan repayments, and monthly payments involving lease-purchase programs made by the county to finance construction provided for in this section, whichever time shall be longer.

SEC. 3. Section 42008 of the Vehicle Code is amended to read:

42008. In addition to the fees authorized or required by other provisions of law, and upon order of the court in a county in which a fund is established pursuant to Section 76001, 76002, 76004, or 76006 of the Government Code, the clerk of the court shall collect one dollar ($1) for each fund so established for the county from every person ordered, in lieu of a fine, to attend a school pursuant to Section 42005 of this code or any court-supervised program of driving instruction.

The amounts collected shall be deposited with the county treasurer and placed in the fund established pursuant to Section 76001, 76002, 76004, or 76006 of the Government Code.

SEC. 4. Section 3 of this act shall not become operative if Senate Bill 213 is enacted, repeals Section 42008 of the Vehicle Code, and becomes operative on or before January 1, 1988.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.

CHAPTER 655

An act to amend Section 39298 of, and to add Section 39360.3 to, the Education Code, relating to child care.

[Approved by Governor September 14, 1987 Filed with Secretary of State September 15, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) Due to economic and social changes in California, child care has become a necessity for working families, including families headed by a single woman or man and dual wage-earning families. This growing need has fostered an availability crisis for quality child care.

(b) Studies have shown that the shortage of child care spaces ranges as high as 40 percent in Sacramento County and San Francisco, and that some two million children may be without adequate day care throughout the state. This problem is particularly acute for "latchkey" children—those left on their own before and after school while their parents are at work.

(c) The child care shortage stems, at least in part, from the failure of the private sector to meet the demand for child care facilities. One contributing factor, particularly in dense urban areas, is the high cost of land and constructing facilities.

(d) The state can stimulate private sector child care providers to

increase spaces by encouraging the use of surplus or unused facilities for child care use. Particularly appropriate for that use are underutilized school facilities, because they are designed for use by children and are conveniently located for before-school and after-school child care programs.

SEC. 2. Section 39298 of the Education Code is amended to read:

39298. The school district advisory committee shall do all of the following:

(a) Review the projected school enrollment and other data as provided by the district to determine the amount of surplus space and real property.

(b) Establish a priority list of use of surplus space and real property that will be acceptable to the community.

(c) Cause to have circulated throughout the attendance area a priority list of surplus space and real property and provide for hearings of community input to the committee on acceptable uses of space and real property, including the sale or lease of surplus real property for child care development purposes pursuant to Section 39360.3.

(d) Make a final determination of limits of tolerance of use of space and real property.

(e) Forward to the district governing board a report recommending uses of surplus space and real property.

SEC. 3. Section 39360.3 is added to the Education Code, to read:

39360.3. (a) Notwithstanding Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code, the governing board of any school district complying with Section 101338.2 of Title 22 of the California Administrative Code and seeking to sell or lease any real property it deems to be surplus property may first offer that property for sale or lease to any contracting agency, as defined in Section 8208 of the Education Code, pursuant to the following conditions:

(1) The real property sold or leased shall be used by the contracting agency, or by any successor in interest to the contracting agency, exclusively for the delivery of child care and development services, as defined in Section 8208 of the Education Code, for a period of not less than five years from the date upon which the real property is made available to that agency, or successor in interest, pursuant to the sale, or, in the event of a lease, until the real property is returned to the possession of the school district, whichever occurs earlier.

(2) In the event that the contracting agency, or any successor in interest, fails to comply with the condition set forth in paragraph (1), that agency, or successor in interest, that purchased the real property, is required immediately to offer that real property for sale pursuant to this article and Article 5 (commencing with Section 39390) and to sell the property pursuant to those provisions. The agency, or its successor in interest, shall comply, in that regard, with all requirements under those provisions that would otherwise apply

to a school district, except that a sale price computed under subdivision (a) of Section 39396 shall be based upon the cost of acquisition incurred by the school district that sold the property pursuant to this subdivision, rather than that incurred by the contracting agency or its successor in interest. In the event, alternatively, of a lease of real property pursuant to this subdivision, the failure by the contracting agency, or any successor in interest, to comply with paragraph (1) shall constitute a breach of the lease, entitling the school district to immediate possession of the real property, in addition to any damages to which the district may be entitled under the lease agreement.

(3) The school district, and each of the entities authorized to receive offers of sale pursuant to this article or Article 5 (commencing with Section 39390), has standing to enforce the conditions set forth in this subdivision, and shall be entitled to the payment of reasonable attorneys' fees incurred as a prevailing party in any action or proceeding brought to enforce any of those conditions.

(b) No sale or lease of the real property of any school district, as authorized under subdivision (a), may occur until the school district advisory committee has held hearings pursuant to subdivision (c) of Section 39298.

(c) This section is in addition to, and shall not limit the requirements of, Article 5 (commencing with Section 39390), but this section may be utilized with regard to property which the governing board of a school district may retain under Section 39395.

CHAPTER 656

An act to amend Section 11372 of the Health and Safety Code, relating to controlled substances.

[Approved by Governor September 14, 1987. Filed with Secretary of State September 15, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 11372 of the Health and Safety Code is amended to read:

11372. (a) In addition to the term of imprisonment provided by law for persons convicted of violating Section 11350, 11351, 11351.5, 11352, 11353, 11355, 11359, 11360, or 11361, the trial court may impose a fine not exceeding twenty thousand dollars ($20,000) for each such offense. In no event shall such fine be levied in lieu of or in substitution for the term of imprisonment provided by law for any of such offenses.

(b) Any person receiving an additional term pursuant to paragraph (1) of subdivision (a) of Section 11370.4, may, in addition,

be fined an amount not exceeding one million dollars ($1,000,000) for each such offense.

(c) Any person receiving an additional term pursuant to paragraph (2) of subdivision (a) of Section 11370.4, may, in addition, be fined an amount not to exceed four million dollars ($4,000,000) for each such offense.

(d) Any person receiving an additional term pursuant to paragraph (3) of subdivision (a) of Section 11370.4, may, in addition, be fined by amount not to exceed eight million dollars ($8,000,000) for each such offense.

(e) The court shall make a finding, prior to the imposition of the fines authorized by subdivision (b) to (e), inclusive, that there is a reasonable expectation that the fine, or a substantial portion thereof, could be collected within a reasonable period of time, taking into consideration the defendant's income, earning capacity, and financial resources.

CHAPTER 657

An act to amend Sections 4065.2 and 4416 of the Business and Professions Code, relating to pharmacy, and making an appropriation therefor.

[Approved by Governor September 14, 1987 Filed with Secretary of State September 15, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 4065.2 of the Business and Professions Code is amended to read:

Upon the filing of the application and the payment of the fee prescribed in subdivision (s) of Section 4416, the board shall make a thorough investigation to determine whether the applicant and the premises for which application for a permit is made qualify for a permit. The board shall also determine whether this article has been complied with, and shall investigate all matters directly related to the issuance of the permit. The board shall not, however, investigate any matters connected with the operation of a premises, including operating hours, parking availability, or operating noise, except those matters relating to the furnishing, sale, or dispensing of drugs or devices. The

board shall deny an application for a permit if either the applicant or the premises for which application for a permit is made do not qualify for a permit under this article.

(b) If the board determines that the applicant and the premises for which application for a permit is made qualify for a permit under this article, the executive officer of the board shall issue a permit authorizing the clinic to which it is issued to purchase drugs at wholesale pursuant to Section 4065. The permit shall be renewed annually upon payment of the renewal fee prescribed in subdivision (s) of Section 4416 and shall not be transferable.

SEC. 2. Section 4416 of the Business and Professions Code is amended to read:

4416. The amount of fees and penalties prescribed by this chapter, except as otherwise provided, is that fixed by the board according to the following schedule:

(a) The fee for a nongovernmental pharmacy license shall be three hundred forty dollars ($340) and may be increased to four hundred dollars ($400).

SEC. 3. Chapter 3.6 (commencing with Section 50199.7) is added to Part 1 of Division 31 of the Health and Safety Code, to read:

CHAPTER 3.6. LOW-INCOME HOUSING CREDIT

50199.7. The Legislature hereby finds and declares that the federal Tax Reform Act of 1986 (Public Law 99-514) establishes a low-income housing tax credit to stimulate the production and rehabilitation of shelter for lower income individuals and families.

The Legislature further finds that the federal law allows credit of up to 9 percent each year over a 10-year period for expenses for new construction and rehabilitation of each qualifying low-income unit.

A credit up to 4 percent each year over a 10-year period is provided for the expenses of acquisition or rehabilitation of an existing building, generally not placed in service within the last 10 years, and construction and rehabilitation of each qualifying low-income unit financed with tax-exempt bonds or similar federal subsidies.

The Legislature further finds that the federal law limits the low-income housing tax credits that can be annually issued by each state to an amount equal to one dollar and twenty-five cents ($1.25) multiplied by the state population. This credit authorization is to be allocated by the state housing credit agency. Not less than 10 percent of that amount is required to be set aside for projects involving nonprofit organizations.

The Legislature further finds that it is the intent of Congress that the credit agency reduce the credit percentage when financing and rental assistance for a project from all sources are sufficient to provide the continuing operation of the qualifying low-income building without the maximum credit.

The Legislature further finds and declares that it is necessary to designate the state housing credit agency and to establish an allocation system for the low-income housing credit.

50199.8. This chapter is enacted to implement the low-income housing tax credit established by the federal Tax Reform Act of 1986 (Public Law 99-514) in Section 42 of the Internal Revenue Code (26 U.S.C. Sec. 42).

To the extent that any provision of this chapter is held to be inconsistent with, or repugnant to, federal law, the provision shall be given effect in accordance with its terms to the greatest extent possible and consistent with the federal law and inconsistency shall have no effect on the remaining provisions of this chapter.

50199.9. As used in this chapter:

(a) "Committee" means the Mortgage Bond and Tax Credit Allocation Committee.

(b) "Housing credit" means the tax credit for low-income rental housing provided under Section 42 of the federal Internal Revenue Code (26 U.S.C. Sec. 42).

(c) "Housing credit applicant" means any owner or prospective owner of a qualifying low-income building or project who applies through the agency, the department, or a local agency for either of the following:

(1) An allocation of a portion of the current state housing credit ceiling.

(2) A reservation of a portion of the anticipated state housing credit ceiling of a subsequent year.

(d) "Housing credit ceiling" means the amount specified in Section 42(h)(3)(C) of the federal Internal Revenue Code. (26 U.S.C. Sec. 42(h)(3)(C)).

(e) "Local agency" means a city, county, or city and county.

(f) "Qualified low-income building" or "project" has the meaning specified in Section 42(c)(2) of the federal Internal Revenue Code

(26 U.S.C. Sec. 42(c)(2)).

50199.10. (a) For purposes of allocating low-income housing credits, the committee is hereby designated as this state's housing credit agency for purposes of Section 42(h) of the federal Internal Revenue Code (26 U.S.C. Sec. 42(h)). The committee shall annually determine and shall allocate the state ceiling in accordance with this chapter and in conformity with federal law. The committee shall determine the housing credit ceiling as soon as possible following the effective date of this chapter and thereafter following the commencement of each calendar year.

(b) The committee shall develop and provide application forms for use by housing credit applicants. The committee shall adopt uniform procedures for submission and review of applications of housing credit applicants, including fees to defray the committee's costs in administering this chapter. In the committee's discretion, the fees shall either be charged to a housing credit applicant as a condition of submitting an application or as a condition of receiving an allocation or reservation of the state's current or anticipated housing credit ceiling.

(c) In addition to allocating the current housing credit ceiling, the committee may reserve a portion of the state's anticipated housing credit ceiling for a subsequent year for a housing credit applicant.

(d) As a condition to making an allocation of the housing credit ceiling or a reservation of the anticipated housing credit ceiling for a subsequent year, the committee may require the housing credit applicant receiving the allocation or reservation to deposit with the committee an amount of money as a good-faith undertaking. The committee shall adopt policies for determining when deposits will be required, prescribing procedures for return of deposits, and specifying the circumstances under which the deposits will be forfeited in whole or in part for failure to timely utilize the allocation or reservation provided to the housing credit applicant.

(e) The committee may make any allocation or reservation of the state's housing credit ceiling to a housing credit applicant subject to terms and conditions in furtherance of the purposes of this part. The committee may condition an allocation or reservation on the execution of a contract between the housing credit applicant and the committee or the state or local agency through which the application was submitted, or both the committee and the state or local agency, requiring the housing credit applicant to comply with all the terms of Section 42 of the federal Internal Revenue Code, any applicable state laws, and any additional requirements which the committee deems necessary or appropriate to serve the purposes of this chapter, and providing for legal action to obtain specific performance or monetary damages for breach of contract.

50199.11. The committee shall adopt procedures for review, processing, and forwarding of applications specified in Section 50199.10 by the department, agency, and local agencies. The department, agency, and local agencies may adopt guidelines for

acceptance, review, and action on applications of housing credit applicants under this chapter and may establish and collect fees from housing credit applicants to defray administrative costs in processing the applications.

50199.12. The committee shall adopt and supply forms for eliciting information for purposes of this chapter from housing credit applicants, the department, agency, and local agencies. The department, agency, local agencies, and housing credit applicants shall provide the committee with any information requested by the committee in performing its duties and responsibilities under this chapter.

50199.13. No allocation or reservation of the housing credit ceiling under this chapter may be transferred by the housing credit applicant, unless the specific, written approval of the committee is obtained prior to the proposed transfer. Any tranfer of an allocation or reservation shall be in writing and shall be subject to terms and conditions established by the committee.

50199.14. The committee, at any time, may announce priorities or set aside a portion of the current or anticipated housing credit ceiling. In order to promote the provision of affordable low-income housing within and throughout the state, the committee shall consider the following priority usages in allocating the housing credit ceiling:

(a) Projects which have been government-assisted affordable housing projects and which are eligible to convert to market-rate rental units.

(b) Projects which enhance the benefit of state or local financial and nonfinancial resources.

(c) Projects targeted to those special needs groups identified in the California Statewide Housing Plan.

(d) Projects which commit to providing a greater percentage of low-income units or for a longer period of time than is required in Section 42 of the federal Internal Revenue Code (26 U.S.C. Sec. 42).

(e) Projects which maximize the utilization of credits available to the state.

(f) Projects which meet the special housing needs of rural areas, as defined by Section 50101.

50199.15. The committee shall annually submit to the Legislature by January 1 of each year a report specifying, with respect to its activities under this chapter during the previous calendar year, (1) the total amount of low-income housing credits allocated by the committee, (2) the total number of units in buildings assisted by the credit that are occupied by very low income households and lower income households whose income is 60 percent or less of area medium gross income, (3) the amount of the credit allocated to each building, the other financing available to the building, and the number of units therein occupied by very low income households and lower income households whose income is 60 percent or less of area medium gross income, and (4) sufficient information to identify

the building and the taxpayer receiving the low-income housing credit therefor.

50199.16. All acts and proceedings taken by the committee prior to the effective date of this chapter to allocate the housing credit ceiling for 1987 under the Governor's proclamation dated February 27, 1987, are hereby confirmed, validated, and declared legally effective.

50199.17. The committee may adopt, amend, or repeal rules and regulations for allocation of housing credits for the 1987 calendar year without complying with the procedural requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. These rules and regulations shall be effective upon adoption by the committee. However, Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to the adoption, amendment, or repeal of rules and regulations for allocation of housing credits for years subsequent to 1987.

50199.18. This chapter shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1991, deletes or extends that date. However, repeal of this chapter shall not invalidate or in any way affect the duration of any previously allocated low-income tax credits.

SEC. 4. The sum of one hundred thousand dollars ($100,000) is hereby appropriated from the Mortgage Bond and the Tax Credit Allocation Fee Account in the General Fund for support of the Mortgage Bond and Tax Credit Allocation Committee for the 1987–88 fiscal year.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Under federal law a low-income housing tax credit is available for residential rental property placed in service between January 1, 1987, and December 31, 1989, and in certain cases as late as December 31, 1990. Therefore, to ensure that the 1987 allocation can be used in a timely fashion it is necessary that this act go into effect immediately.

In determining the amount assessed, the commissioner shall consider all appropriations from the General Fund for the support of this chapter and all reimbursements provided for in this chapter. For the purpose of this section, a family unit is a household composed of one or more individuals.

(b) A person may apply to a regional board authorized pursuant to subdivision (a) for an exemption from Section 25208.4 or 25208.5, or from both sections, for a surface impoundment, into which mining wastes are discharged by filing an application with the regional board. (2) The surface impoundment does not pollute or threaten to pollute the waters of the state.

(c) If the regional board grants an exemption pursuant to subdivision (b), the regional board shall revise the waste discharge requirements prescribed pursuant to Section 13263 of the Water Code for that surface impoundment based upon a review of the report and shall include conditions in the waste discharge requirement to ensure that the waters of the state will not be polluted or threatened with pollution. If the regional board does not grant the exemption within two years of the date of application, the applicant shall comply with the requirements specified in either Section 25208.4 or 25208.5, or with both sections, whichever is applicable, within three years from the initial date of application.

(d) An exemption granted pursuant to subdivision (b) shall not be effective for more than five years. A regional board shall not renew the exemption unless the regional board makes the findings specified in subdivision (b).

(e) Applications for an exemption or renewal of an exemption shall be accompanied by the fee specified in the fee schedule adopted by the state board pursuant to Section 25208.3.

(f) If a regional board determines that a surface impoundment granted an exemption pursuant to subdivision (b) is polluting the waters of the state, the regional board shall take all of the actions specified in Section 25208.6.

[Approved by Governor September 14, 1987. Filed with Secretary of State September 15, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 55435.5 of the Food and Agricultural Code is amended to read:

55435.5. (a) Except with the approval of the director, no person licensed under this chapter shall employ any person as an agent who is, or has been, responsibly connected with any licensee or business requiring a license:

(1) Whose license has been revoked or is currently suspended by the director.

(2) Who has been found, after notice and an opportunity for hearing, to have committed any flagrant or repeated violation of this chapter or Chapter 7 (commencing with Section 56101). This paragraph does not apply to any case in which the license of the person found to have committed the violation was suspended and the suspension period has expired or is not in effect.

(3) Who failed to pay producer claims for which they were liable that arose out of the conduct of a business licensed or required to be licensed under this chapter or Chapter 7 (commencing with Section 56101).

(b) The director may approve the employment of any person covered under subdivision (a), if the licensee furnishes and maintains a surety bond in the form and amount satisfactory to the director, but which shall not be less than ten thousand dollars ($10,000), as assurance that the licensee's business will be conducted in accordance with this chapter and that the licensee will pay all amounts due California producers. The director may approve employment without a surety bond after the expiration of four years from the effective date of the applicable disciplinary order. The director, based on changes in the nature and volume of business conducted by the licensee, may require an increase or authorize a reduction in the amount of the bond, but in no case shall the bond be reduced below ten thousand dollars ($10,000). A licensee who is notified by the director to provide a bond in an increased amount shall do so within a reasonable time to be specified by the director, and if the licensee fails to do so, the approval of employment shall automatically terminate. The director may, after 30 days' notice and an opportunity for a hearing, suspend or revoke the license of any

licensee who, after the date given in the notice, continues to employ any person in violation of this section.

(c) As determined by the director, no person, other than a corporate officer, licensed and employed as an agent shall control the business of the licensee. For purposes of this subdivision, "control" includes, but is not limited to, possession, either direct or indirect, of the power to direct, or cause the direction of, the management and policies of the licensee. Violation of this subdivision, after notice and an opportunity for a hearing, constitutes grounds for revocation by the director of the license of the licensee or agent, or both.

SEC. 2. Section 55523 of the Food and Agricultural Code is amended to read:

55523. Each application shall state all of the following:

(a) The full name of the applicant.

(b) If the applicant is a firm, exchange, association, or corporation, the full name of each member of the firm or the names of the officers of the exchange, association, or corporation.

(c) The principal business address of the applicant in this state.

(d) The name of every person who is authorized to receive and accept service of summons for the applicant.

SEC. 3. Section 55523.1 is added to the Food and Agricultural Code, to read:

55523.1. In addition to the other requirements of this chapter, each application for a license, except for the renewal of a license or an application for a cash buying processor license, shall include a balance sheet or statement of financial position, which presents fairly the financial condition as of the applicant's most recent year end. The financial statement, if not prepared by a public accountant or certified public accountant, shall be on a form prescribed by the director and shall be submitted under penalty of perjury. Any balance sheet submitted which does not provide the information required by the director may be rejected until the information is provided.

SEC. 4. Section 55523.2 is added to the Food and Agricultural Code, to read:

55523.2. Any balance sheet or financial statement submitted as required by this chapter that shows the applicant to be in an unsound financial condition which impairs the ability to pay farm products creditors in full for farm products received or handled is sufficient grounds to deny the application for license or the renewal of a license. The denial of the application for a license or renewal of a license relating to an unsound financial condition shall include a notice and an opportunity for a hearing.

SEC. 5. Section 55523.3 is added to the Food and Agricultural Code, to read:

55523.3. (a) If the director is not satisfied that an applicant or licensee is financially responsible, the director may, in lieu of denying, suspending, or revoking the license, accept an irrevocable guarantee of the obligations of the licensee to all California farm

product creditors. The guarantee shall be for any periods and in any amounts that the director may, from time to time, require. The director may, as a condition of accepting and maintaining the guarantee, require the guarantor to supply financial information to the director at times and to the extent the director deems advisable.

(b) A guarantee placed with the director pursuant to subdivision (a) shall support an action in a court of competent jurisdiction by a farm products creditor for obligations of the licensee to the creditor and by a state officer for the obligations of the licensee to the state related to transactions subject to the guarantee.

SEC. 6. Section 55523.4 is added to the Food and Agricultural Code, to read:

55523.4. If at any time the director has cause or reason to believe that any licensee is in an unsound financial condition so as to impair his or her ability to pay farm products creditors in full for farm products received or handled, or for any reason the director deems advisable, the director may require the licensee to file with him or her a balance sheet or statement of financial position which presents fairly the financial condition of the licensee. The financial statement, if not prepared by a public accountant or certified public accountant, shall be on a form prescribed by the director and shall be submitted under penalty of perjury. Any balance sheet submitted which does not provide the information required by the director may be rejected until the information is provided.

SEC. 7. Section 55523.5 is added to the Food and Agricultural Code, to read:

55523.5. Failure to file a financial statement as required by this chapter is a violation of this chapter.

SEC. 8. Section 55523.6 is added to the Food and Agricultural Code, to read:

55523.6. Any financial statement submitted to the director in support of a license application made pursuant to this chapter is confidential and shall not be divulged except at a hearing before the director or under subpoena, if necessary, for the proper determination of any court proceedings.

SEC. 9. Section 55527.5 of the Food and Agricultural Code is amended to read:

55527.5. Any person who is adjudicated liable for payment of a claim for farm products which arose out of the conduct of a business licensed or required to be licensed under this chapter or Chapter 7 (commencing with Section 56101), and who has not made full settlement with all producer-creditors, shall not be licensed by the director as a principal for four years from the date of the adjudication.

SEC. 10. Section 55527.6 is added to the Food and Agricultural Code, to read:

55527.6. (a) Licensees or applicants for a license shall be required to furnish and maintain a surety bond in a form and amount satisfactory to the director, if within the preceding four years the

director determines that they have done any of the following:

(1) Engaged in conduct which demonstrates a lack of financial responsibility including, but not limited to, delinquent accounts payable, judgments of liability, insolvency, or bankruptcy.

(2) Failed to assure future financial responsibility unless a surety bond is posted.

(3) Otherwise violated this chapter which resulted in license revocation.

(b) The bond shall not be less than ten thousand dollars ($10,000) or 20 percent of the annual dollar volume of business based on farm product value returned to the grower, whichever is greater, as assurance that the licensee's or applicant's business will be conducted in accordance with this chapter and that the licensee or applicant will pay all amounts due farm products creditors.

(c) The director, based on changes in the nature and volume of business conducted by the licensee, may require an increase or authorize a reduction in the amount of the bond, but in no case shall the bond be reduced below ten thousand dollars ($10,000). A licensee who is notified by the director to provide a bond in an increased amount shall do so within a reasonable time as specified by the director. If the licensee fails to do so, the director may, after a notice and opportunity for a hearing, suspend or revoke the license of the licensee.

SEC. 11. Section 55862.7 of the Food and Agricultural Code is amended to read:

55862.7. (a) If any person is found to be operating a business without the license required by Section 55521, or failed to pay a fee in accordance with the schedule in subdivision (b) of Section 55861, that person shall pay to the director double the amount of the license fee due pursuant to this chapter.

(b) In addition to subdivision (a), if any person is found to be operating a business within the past five years without a license required by Section 55521, or failed to pay the fees in accordance with the schedule in subdivision (b) of Section 55861, that person shall pay to the director an amount equal to that portion of the fees which were not paid for the last five years the business has operated.

SEC. 12. Section 56133.5 of the Food and Agricultural Code is amended to read:

56133.5. (a) Except with the approval of the director, no person licensed under this chapter shall employ any person as an agent, who is or has been responsibly connected with any licensee or business requiring a license:

(1) Whose license has been revoked or is currently suspended by the director.

(2) Who has been found after notice and opportunity for hearing to have committed any flagrant or repeated violation of this chapter or Chapter 6 (commencing with Section 55401). This provision will not apply to any case in which the license of the person found to have committed the violation was suspended and the suspension period

has expired or is not in effect.

(3) Who failed to pay producer claims for which they were liable that arose out of the conduct of a business licensed or required to be licensed under this chapter or Chapter 6 (commencing with Section 55401).

(b) The director may approve employment of any person covered by subdivision (a) if the licensee furnishes and maintains a surety bond in form and amount satisfactory to the director, but which shall not be less than ten thousand dollars ($10,000), as assurance that the licensee's business will be conducted in accordance with this chapter and that the licensee will pay all amounts due farm products creditors. The director may approve employment without a surety bond after the expiration of four years from the effective date of the applicable disciplinary order. The director, based on changes in the nature and volume of business conducted by the licensee, may require an increase or authorize a reduction in the amount of the bond, but in no case shall the bond be reduced below ten thousand dollars ($10,000). A licensee who is notified by the director to provide a bond in an increased amount shall do so within a reasonable time to be specified by the director. If the licensee fails to do so, the approval of employment shall automatically terminate. The director may, after 30 days' notice and an opportunity for a hearing, suspend or revoke the license of any licensee who, after the date given in the notice, continues to employ any person in violation of this section.

(c) As determined by the director, no person, other than a corporate officer, licensed and employed as an agent, shall control the business of the licensee. For purposes of this subdivision, "control" includes, but is not limited to, possession, either direct or indirect, of the power to direct, or cause the direction of, the management and policies of the licensee. Violation of this subdivision, after notice and an opportunity for a hearing, constitutes grounds for revocation by the director of the license of the licensee or agent, or both.

SEC. 13. Section 56136 is added to the Food and Agricultural Code, to read:

56136. (a) No person, other than a corporate officer, licensed and employed as an agent, shall control the business of the licensee, as determined by the director.

(b) For purposes of this section, "control" includes, but is not limited to, possession, either direct or indirect, of the power to direct or cause the direction of the management and policies of the licensee.

(c) Violation of this section shall, after notice and opportunity for hearing, constitute grounds for license revocation of either, or both, the licensee or agent by the director.

SEC. 14. Section 56189 of the Food and Agricultural Code is amended to read:

56189. Any person who is adjudicated liable for payment of a claim for farm products that arose out of the conduct of a business

licensed or requiring a license under this chapter or Chapter 6 (commencing with Section 55401), and who has not made full settlement with all producer-creditors, shall not be licensed by the director as a principal for four years from the date of the adjudication.

SEC. 15. Section 56189.5 is added to the Food and Agricultural Code, to read:

56189.5. (a) Licensees or applicants for a license shall be required to furnish and maintain a surety bond in a form and amount satisfactory to the director, if within the preceding four years the director determines that they have done any of the following:

(1) Engaged in conduct which demonstrates a lack of financial responsibility including, but not limited to, delinquent accounts payable, judgments of liability, insolvency, or bankruptcy.

(2) Failed to assure future financial responsibility unless a surety bond is posted.

(3) Otherwise violated this chapter which resulted in license revocation.

(b) The bond shall not be less than ten thousand dollars ($10,000) or 20 percent of the annual dollar volume of business based on farm product value returned to the grower, whichever is greater, as assurance that the licensee's or applicant's business will be conducted in accordance with this chapter and that the licensee or applicant will pay all amounts due farm products creditors.

(c) The director, based on changes in the nature and volume of business conducted by the licensee, may require an increase or authorize a reduction in the amount of the bond, but in no case shall the bond be reduced below ten thousand dollars ($10,000). A licensee who is notified by the director to provide a bond in an increased amount shall do so within a reasonable time as specified by the director. If the licensee fails to do so, the director may, after notice and opportunity for hearing, suspend or revoke the license of any licensee.

SEC. 16. Section 56252.1 is added to the Food and Agricultural Code, to read:

56252.1. Any balance sheet or financial statement submitted as required by this chapter that shows the applicant to be in an unsound financial condition so as to impair the ability to pay farm products creditors in full for farm products received or handled is sufficient grounds to deny the application for a license or the renewal of a license. The denial of the application for a license or renewal of a license relating to an unsound financial condition shall include a notice and an opportunity for a hearing.

SEC. 17. Section 56252.2 is added to the Food and Agricultural Code, to read:

56252.2. (a) If the director is not satisfied that an applicant or licensee is financially responsible, the director may, in lieu of denying, suspending, or revoking the license, accept an irrevocable guarantee of the obligations of the licensee to all California farm

products creditors. The guarantee shall be for any periods and in any amounts that the director may from time to time require. The director may, as a condition of accepting and maintaining the guarantee, require the guarantor to supply financial information to the director at times and to the extent the director deems advisable.

(b) A guarantee placed with the director pursuant to subdivision (a) shall support an action in a court of competent jurisdiction by a farm products creditor for obligations of the licensee to the creditor and by a state officer for the obligations of the licensee to the state related to transactions subject to the guarantee.

SEC. 18. Section 56573.5 of the Food and Agricultural Code is amended to read:

56573.5. (a) If any person is found to be operating a business without the license required by Section 56181 or failed to pay the fee in accordance with the schedule in subdivision (b) of Section 56571, that person shall pay to the director double the amount of the license fee due pursuant to this chapter.

(b) In addition to subdivision (a), if any person is found to be operating a business within the past five years without a license required by Section 56181, or failed to pay the fees in accordance with the schedule in subdivision (b) of Section 56571, that person shall pay to the director an amount equal to that portion of the fees which were not paid for the last five years the business has operated.

SEC. 19. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 663

An act to add Section 199.27 to the Health and Safety Code, relating to health.

[Approved by Governor September 14, 1987 Filed with Secretary of State September 15, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 199.27 is added to the Health and Safety Code, to read:

199.27. (a) Any person receiving a test for the presence of antibodies to human immunodeficiency virus (HIV) may disclose the identity of any sexual partners or any person with whom he or she has shared the use of hypodermic needles, to the county health officer, after the person has signed a consent form, provided by the person's physician or designee who has administered the test, which

acknowledges that the person is making this disclosure voluntarily.

(b) If a signed consent form has been provided by the person designated by the physician to administer the test, the signed consent form shall be forwarded by the physician's designee to the physician. The physician shall forward any consent forms signed pursuant to subdivision (a) to the county health officer.

(c) The county health officer may alert the sexual partners or the partners of shared needles about their exposure, without disclosing any identifying information about the individual making the disclosure, and shall refer any person to whom a disclosure is made pursuant to this subdivision to alternative test sites where they may wish to obtain testing.

(d) The county health officer shall keep confidential the seropositivity status of the individual making the contact disclosure and the identities of the persons contacted.

(e) Except as provided in Section 1603.1 or 1603.3, no person shall be compelled in any state, county, city, or local civil, criminal, administrative, legislative, or other proceedings to identify or provide identifying characteristics which would identify any individual making a contact disclosure or named as a contact pursuant to this section.

CHAPTER 664

An act to amend Sections 12740, 12740.1, and 12753 of the Insurance Code, relating to home protection contracts.

[Approved by Governor September 14, 1987. Filed with Secretary of State September 15, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 12740 of the Insurance Code is amended to read:

12740. The definitions used in this section govern the construction and terms used in this part but shall not affect any other provisions of this code:

(a) "Home protection contract" means a contract or agreement whereby a person, other than a builder, seller, or lessor of the home which is the subject of the contract, undertakes for a specified period of time, for a predetermined fee, to repair or replace all or any part of any component, system or appliance of a home necessitated by wear and tear, deterioration or inherent defect arising during the effective period of the contract, and, in the event of an inspection conducted pursuant to subdivision (b) of Section 12761, or by the failure of that inspection to detect the likelihood of any such loss.

The contract shall provide for a system of service for effectuating such repair or replacement and shall not include protection against

consequential damage from the failure of any component, system or appliance.

(b) "Home protection company" means any person licensed pursuant to this part which issues home protection contracts.

(c) (1) "Protection contract fee" means the consideration received, or to be received, by a home protection company for the issuance of any home protection contract.

A home protection contract fee shall be the fee established by a home protection company for coverage extending one year from the effective date of the contract. Where initial coverage is provided for a period in excess of one year, the home protection contract fee shall be the annual fee, plus a separately stated pro rata portion of the annual fee for the period of coverage which exceeds one year.

(2) Subject to the provisions of paragraph (3) of subdivision (a) of Section 12764, in the event coverage is provided prior to the time that an interest in the residential property to which it attaches is sold, the fee shall consist of a pro rata portion of the annual contract fee in effect on the date of commencement of coverage, prorated for the period beginning with the date of commencement of coverage and ending on the date of transfer of title to the residential property to which the contract attaches, and the annual contract fee for coverage commencing with the transfer of title to the affected residential property.

(d) "Home" or "residential property" as used in this part means any single or multiple unit or units, including mobilehomes, (as defined in Health and Safety Code Section 18211) used primarily for residential purposes.

(e) This section shall remain in effect only until January 1, 1990, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1990, deletes or extends that date. If that date is not deleted or extended, then, on and after January 1, 1990, pursuant to Section 9611 of the Government Code, Section 12740 of the Insurance Code, as amended by Section 2 of Chapter 820 of the Statutes of 1981, shall have the same force and effect as if this temporary provision had not been enacted.

SEC. 2. Section 12740.1 of the Insurance Code is amended to read:

12740.1. Paragraph (2) of subdivision (c) of Section 12740 does not apply to those home protection contracts issued by a franchisor, or its parent, subsidiary, or affiliate to which the provisions of Section 12765 have been applied during the period from January 1, 1983, through December 31, 1985, subject to all of the following conditions:

(a) The franchisor, its parent, subsidiary, or affiliate provides as a precondition to the issuance of its home protection contract that the seller enter into an exclusive right-to-sell agreement with the franchisee for a minimum period of 90 days.

(b) This precondition was a standard policy and procedure in use by the franchisor, its parent, subsidiary, affiliate, or franchisee as of July 1, 1981.

(c) The inapplicability of paragraph (2) of subdivision (c) of Section 12740 is limited exclusively to home protection contracts issued by the franchisor, its parent, subsidiary, or affiliate upon the application of a franchisee in any real property transaction whereby the exclusive right-to-sell agreement referred to in subdivision (a) is entered into by the seller. A listing agreement of the franchisee which does not contain this exclusive right-to-sell provision shall not entitle the home protection contract to the exemption from the applicability of paragraph (2) of subdivision (c) of Section 12740 specified in this section.

(d) This section shall remain in effect only until January 1, 1990, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1990, deletes or extends that date.

SEC. 3. Section 12753 of the Insurance Code is amended to read:

12753. (a) A home protection company shall maintain a reserve for unearned premiums in an amount not less than 40 percent of the aggregate premiums charged on its contracts currently in force.

Amounts to be reserved shall be on a 12-month basis. Where the contract is for a period of more than 12 months, the reserve for unearned premiums for the period beyond 12 months shall be 100 percent of the pro rata portion of the contract fee attributable to the period of coverage in excess of 12 months. The unearned premium reserve for contracts exceeding 12 months shall be reduced to not less than 40 percent of the pro rata portion of the contract fee applicable to the next succeeding 12-month period, as of the first day of the succeeding 12-month period, and each succeeding 12-month period thereafter during which the contract is in effect.

Where the home protection contract provides coverage during the selling or listing period of the real property to which the contract applies, the home protection contract fee applicable to this period of coverage shall be deemed fully earned upon the close of escrow, and receipt of payment of the applicable contract fee.

(b) For purposes of this section, the reserve shall not include protection contract fees on home protection contracts to the extent provision is made for reinsurance of the outstanding risk on those contracts.

(c) The commissioner may, by regulation, prescribe the format by which the reserve shall be reported.

SEC. 4. It is the intent of the Legislature in enacting and providing for the subsequent repeal of this act to allow sufficient time to permit analysis and review of the existing delivery system for home protection contracts by the Blue Ribbon Task Force on Financial Services to be created by Senate Bill 1465 of the 1987–88 Regular Session, and, based upon recommendations, to make appropriate changes in the law governing home protection companies.

SEC. 5. Section 12740 of the Insurance Code, as amended by Section 2 of Chapter 820 of the Statutes of 1981, is amended to read:

12740. The definitions used in this section govern the

construction and terms used in this part but shall not affect any other provisions of this code:

(a) "Home protection contract" means a contract or agreement whereby a person, other than a builder, seller, or lessor of the home which is the subject of the contract, undertakes for a specified period of time, for a predetermined fee, to repair or replace all or any part of any component, system or appliance of a home necessitated by wear and tear, deterioration or inherent defect, arising during the effective period of the contract, and, in the event of an inspection conducted pursuant to subdivision (b) of Section 12761, by the failure of that inspection to detect the likelihood of any such loss.

Such contract shall provide for a system of service for effectuating such repair or replacement and shall not include protection against consequential damage from the failure of any component, system or appliance.

(b) "Home protection company" means any person licensed pursuant to this part which issues home protection contracts.

(c) "Protection contract fee" means the consideration received, or to be received, by a home protection company for the issuance of any home protection contract.

A home protection contract fee shall be the fee established by a home protection company for coverage extending one year from the effective date of the contract. Where initial coverage is provided for a period in excess of one year, the home protection contract fee shall be the annual fee, plus a separately stated pro rata portion of the annual fee for the period of coverage which exceeds one year.

(d) "Home" or "residential property" as used in this part means any single or multiple unit or units, including mobilehomes, (as defined in Health and Safety Code Section 18211) used primarily for residential purposes.

SEC. 6. Section 12753 of the Insurance Code is amended to read:

12753. (a) A home protection company shall maintain a reserve for unearned premiums in an amount not less than 40 percent of the aggregate premiums charged on its contracts currently in force.

Amounts to be reserved shall be on a 12-month basis. Where the contract is for a period of more than 12 months, the reserve for unearned premiums for the period beyond 12 months shall be 100 percent of the pro rata portion of the contract fee attributable to the period of coverage in excess of 12 months. The unearned premium reserve for contracts exceeding 12 months shall be reduced to not less than 40 percent of the pro rata portion of the contract fee applicable to the next succeeding 12-month period, as of the first day of the succeeding 12-month period, and each succeeding 12-month period thereafter during which the contract is in effect.

Where the home protection contract provides coverage during the selling or listing period of the real property to which the contract applies, the home protection contract fee applicable to this period of coverage shall be deemed fully earned upon the close of escrow, and receipt of payment of the applicable contract fee.

(b) For purposes of this section, such reserve shall not include protection contract fees on home protection contracts to the extent provision is made for reinsurance of the outstanding risk on such contracts.

(c) The commissioner may, by regulation, prescribe the format by which the reserve shall be reported.

SEC. 7. If Senate Bill 1465 of the 1987–88 Regular Session is enacted either before or after this act, and this act is enacted, then Sections 1, 2, 3, and 4 of this act shall become operative and Sections 5 and 6 shall not become operative. However, if Senate Bill 1465 is not enacted, and this act is enacted, then Sections 1, 2, 3, and 4 of this act shall not become operative and Sections 5 and 6 of this act shall become operative.

CHAPTER 665

An act to amend Sections 33334.2 and 33641 of the Health and Safety Code, and to add Section 7280.5 to the Revenue and Taxation Code, relating to local public entities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 14, 1987. Filed with Secretary of State September 15, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 33334.2 of the Health and Safety Code is amended to read:

33334.2. (a) Not less than 20 percent of all taxes which are allocated to the agency pursuant to Section 33670 shall be used by the agency for the purposes of increasing and improving the community's supply of low- and moderate-income housing available at affordable housing cost, as defined by Section 50052.5, to persons and families of low or moderate income, as defined in Section 50093, and very low income households, as defined in Section 50105, unless one of the following findings is made:

(1) That no need exists in the community to improve or increase the supply of low- and moderate-income housing in a manner which would benefit the project area.

(2) That some stated percentage less than 20 percent of the taxes which are allocated to the agency pursuant to Section 33670 is sufficient to meet the housing need.

(3) That a substantial effort to meet low- and moderate-income housing needs in the community is being made, and that this effort, including the obligation of funds currently available for the benefit of the community from state, local, and federal sources for low- and moderate-income housing alone or in combination with the taxes allocated under this section, is equivalent in impact to the funds

otherwise required to be set aside pursuant to this section. The legislative body shall consider the need which can be reasonably foreseen because of displacement of persons and families of low or moderate income or very low income households from within, or adjacent to, the project area, because of increased employment opportunities, or because of any other direct or indirect result of implementation of the redevelopment plan.

(b) Within 10 days following the making of a finding under subdivision (a), the agency shall send the Department of Housing and Community Development a copy of the finding, including the factual information supporting the finding.

(c) In any litigation to challenge or attack a finding made under subdivision (a), (b), or (c), the burden shall be upon the agency to establish that the finding is supported by substantial evidence in light of the entire record before the agency.

(d) Nothing in this section shall be construed as relieving any other public entity or entity with the power of eminent domain of any legal obligations for replacement or relocation housing arising out of its activities.

(e) In carrying out the purpose of this section, the agency may exercise any or all of its powers, including the following:

(1) Acquire land or building sites.

(2) Improve land or building sites with onsite or offsite improvements.

(3) Donate land to private or public persons or entities.

(4) Construct buildings or structures.

(5) Acquire buildings or structures.

(6) Rehabilitate buildings or structures.

(7) Provide subsidies to, or for the benefit of, very low income households, as defined by Section 50105, lower income households, as defined by Section 50079.5, or persons and families of low or moderate income, as defined by Section 50093.

(8) Develop plans, pay principal and interest on bonds, loans, advances, or other indebtedness, or pay financing or carrying charges.

(9) Maintain the community's supply of mobilehomes.

(f) The agency may use these funds to meet, in whole or in part, the replacement housing provisions in Section 33413. However, nothing in this section shall be construed as limiting in any way the requirements of that section.

(g) The agency may use these funds inside or outside the project area. The agency may only use these funds outside the project area upon a resolution of the agency and the legislative body that such use will be of benefit to the project. The determination by the agency and the legislative body shall be final and conclusive as to the issue of benefit to the project area. The Legislature finds and declares that the provision of replacement housing pursuant to Section 33413 is always of benefit to a project. Unless the legislative body finds before the redevelopment plan is adopted, that the provision of low- and

moderate-income housing outside the project area will be of benefit to the project, the project area shall include property suitable for low- and moderate-income housing.

(h) The Legislature finds and declares that expenditures or obligations incurred by the agency pursuant to this section shall constitute an indebtedness of the project.

(i) The requirements of this section shall only apply to taxes allocated to a redevelopment agency for which a final redevelopment plan is adopted on or after the effective date of this section, or for any area which is added to a project by an amendment to a redevelopment plan, which amendment is adopted on or after the effective date of this section. An agency may, by resolution, elect to make all or part of the requirements of this section applicable to any redevelopment project for which a redevelopment plan was adopted prior to January 1, 1977, subject to any indebtedness incurred prior to the election.

(j) (1) Notwithstanding Sections 50079.5, 50093, and 50105, for purposes of providing assistance to mortgagors participating in a homeownership residential mortgage revenue bond program pursuant to Section 33750, or a home financing program pursuant to Section 52020, or a California Housing Finance Agency home financing program, "area median income" means the highest of the following:

(A) Statewide median household income.

(B) Countywide median household income.

(C) Median family income for the area, as determined by the United States Department of Housing and Urban Development with respect to either a standard metropolitan statistical area or an area outside of a standard metropolitan statistical area.

Nothing in Section 50093 shall prevent the agency from adopting separate family size adjustment factors or programmatic definitions of income to qualify households, persons, and families for the programs of the agency.

(2) To the extent that any portion of the Low and Moderate Income Housing Fund is expended to provide assistance to mortgagors participating in programs whose income exceeds that of persons and families of low or moderate income, as defined in Section 50093, the agency shall, within two years, expend or enter into a legally enforceable agreement to expend twice that sum exclusively to increase and improve the community's supply of housing available at affordable housing cost, as defined in Section 50052.5, to lower income households, as defined in Section 50079.5, of which at least 50 percent shall be very low income households, as defined in Section 50105.

(3) In addition to the requirements of subdivision (c) of Section 33413, the agency shall require that the lower and very low income dwelling units developed pursuant to this subdivision remain available at affordable housing cost to lower and very low income households for at least 30 years, except as to dwelling units developed

with the assistance of federal or state subsidy programs which terminate in a shorter period and cannot be extended or renewed.

(4) The agency shall include within the report required by Section 33080 information with respect to compliance by the agency with the requirements of this subdivision.

SEC. 2. Section 33641 of the Health and Safety Code is amended to read:

33641. An agency may issue any types of bonds which it may determine, including bonds on which the principal and interest are payable:

(a) Exclusively from the income and revenues of the redevelopment projects financed with the proceeds of the bonds, or with the proceeds together with financial assistance from the state or federal government in aid of the projects.

(b) Exclusively from the income and revenues of certain designated redevelopment projects whether or not they were financed in whole or in part with the proceeds of the bonds.

(c) In whole or in part from taxes allocated to, and paid into a special fund of, the agency pursuant to the provisions of Article 6 (commencing with Section 33670).

(d) In whole or in part from taxes imposed pursuant to Section 7202.6 of the Revenue and Taxation Code which are pledged therefor.

(e) In whole or in part from taxes imposed pursuant to Section 7280.5 of the Revenue and Taxation Code which are pledged therefor.

(f) From its revenues generally.

(g) From any contributions or other financial assistance from the state or federal government.

(h) By any combination of these methods.

SEC. 3. Section 7280.5 is added to the Revenue and Taxation Code, to read:

7280.5. (a) The redevelopment agency of any city which has levied a transient occupancy tax pursuant to Section 7280 or 7281 may also, by ordinance, levy a transient occupancy tax in accordance with this part, if the city's ordinance entitles any person subject to a transient occupancy tax under the city's ordinance to credit the amount of transient occupancy taxes due to the redevelopment agency of that city pursuant to this section against the payment of taxes due under the city's ordinance.

(b) An ordinance of a redevelopment agency imposing a transient occupancy tax pursuant to this section shall contain an enacting clause which states as follows:

"The redevelopment agency of the City of _____ does ordain as follows:"

The ordinance shall be signed by the chairperson of the agency and attested by the clerk or secretary of the agency, and shall take effect immediately upon its final passage, but shall become operative on the first day of the first calendar quarter commencing more than

CHAPTER 666

An act to amend Sections 1327, 1329, 1331, and 1332 of, and to add Section 1327.5 to, the Health and Safety Code, relating to health.

[Approved by Governor September 14, 1987. Filed with Secretary of State September 15, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 1327 of the Health and Safety Code is amended to read:

1327. (a) Whenever circumstances exist indicating that continued management of a long-term health care facility by the current licensee would present a substantial probability or imminent danger of serious physical harm or death to the patients, or there exists in the facility a condition in substantial violation of this chapter or the rules and regulations adopted pursuant to this chapter, or the facility exhibits a pattern or practice of habitual violation of this chapter or the rules and regulations adopted pursuant thereto, or the facility is closing or intends to terminate operation as a licensed long-term health care facility and adequate arrangements for

relocation of residents have not been made at least 30 days prior to the closing or termination, the director may petition the superior court for the county in which the long-term health care facility is located for an order appointing a receiver to temporarily operate the long-term health care facility in accordance with this article.

The petition shall allege the facts upon which the action is based and shall be supported by an affidavit of the director. A copy of the petition and affidavits, together with an order to appear and show cause why temporary authority to operate the long-term health care facility should not be vested in a receiver pursuant to this article, shall be delivered to the licensee, administrator, or a responsible person at the facility to the attention of the licensee and administrator. The order shall specify a hearing date, which shall be not less than five, nor more than 10, days following delivery of the petition and order upon the licensee, except that the court may shorten or lengthen the time upon a showing of just cause.

(b) If the director files a petition pursuant to subdivision (a) for appointment of a receiver to operate a long-term health care facility, in accordance with Section 564 of the Code of Civil Procedure, the director may also petition the court, in accordance with Section 527 of the Code of Civil Procedure, for an order appointing a temporary receiver. A temporary receiver appointed by the court pursuant to this subdivision shall serve until the court has made a final determination on the petition for appointment of a receiver filed pursuant to subdivision (a). A receiver appointed pursuant to this subdivision shall have the same powers and duties as a receiver would have if appointed pursuant to subdivision (a).

At the time of the hearing, the state department shall advise the licensee of the name of the proposed receiver. The receiver shall be a licensed nursing home administrator or other responsible person or entity, as determined by the court, from a list of qualified receivers established by the state department, with input from providers of long-term care and consumer representatives. The department shall consult with the Board of Examiners of Nursing Home Administrators, in order to screen potential receivers who are licensed by the board, and to determine if they are administrators in good standing. Persons appearing on the list shall have experience in the delivery of health care services, and, if feasible, shall have experience with the operation of a long-term health care facility. The receivers shall have sufficient background and experience in management and finances to ensure compliance with orders issued by the court. The owner, licensee, or administrator shall not be appointed as the receiver unless authorized by the court.

If at the conclusion of the hearing, which may include oral testimony and cross-examination at the option of any party, the court determines that adequate grounds exist for the appointment of a receiver and that there is no other reasonably available remedy to protect the patients, the court may issue an order appointing a receiver to temporarily operate the long-term health care facility

and enjoining the licensee from interfering with the receiver in the conduct of his or her duties. The court shall in any such proceedings make written findings of fact and conclusions of law, and shall require an appropriate bond to be filed by the receiver and paid for by the licensee. The bond shall be in an amount necessary to protect the licensee in the event of any failure on the part of the receiver to act in a reasonable manner. The bond requirement may be waived by the licensee.

The court may permit the licensee to participate in the continued operation of the facility during the pendency of any receivership ordered pursuant to this section and shall issue an order detailing the nature and scope of participation.

Failure of the licensee to appear at the hearing on the petition shall constitute an admission of all factual allegations contained in the petition for purposes of these proceedings only.

The licensee shall receive notice and a copy of the application each time the receiver applies to the court or the state department for instructions regarding his or her duties under the provisions of this article, when an accounting pursuant to Section 1330 is submitted, and when a report pursuant to Section 1332 or other report is submitted. The licensee shall have an opportunity to present objections or otherwise participate in any such proceeding.

SEC. 1.5. Section 1327.5 is added to the Health and Safety Code, to read:

1327.5. No person shall impede the operation of a receivership created under Section 1327. There shall be an automatic stay for a 60-day period subsequent to the appointment of a receiver, of any action that would interfere with the functioning of the facility, including, but not limited to, cancellation of insurance policies executed by the licensees, termination of utility services, attachments or set-offs of resident trust funds and working capital accounts and repossession of equipment in the facility.

SEC. 2. Section 1329 of the Health and Safety Code is amended to read:

1329. (a) When a receiver is appointed, the licensee may, at the discretion of the court, be divested of possession and control of the facility in favor of the receiver. The receiver appointed pursuant to this article:

(1) May exercise those powers and shall perform those duties ordered by the court, in addition to other duties provided by statute.

(2) Shall operate the facility in such a manner as to assure safety and adequate health care for the residents.

(3) Shall have the same rights to possession of the building in which the facility is located, and of all goods and fixtures in the building at the time the petition for receivership is filed, as the licensee and administrator would have had if the receiver had not been appointed.

(4) May use the funds, building, fixtures, furnishings, and any accompanying consumable goods in the provision of care and

services to residents and to any other persons receiving services from the facility at the time the petition for receivership was filed.

(5) Shall take title to all revenue coming to the facility in the name of the receiver who shall use it for the following purposes in descending order of priority:

(A) To pay wages to staff. The receiver shall have full power to hire, direct, manage, and discharge employees of the facility, subject to any contractual rights they may have. The receiver shall pay employees at the same rate of compensation, including benefits, that the employees would have received from the licensee.

(B) To preserve patient funds. The receiver shall be entitled to, and shall take, possession of all property or assets of residents which are in the possession of the licensee or operator of the facility. The receiver shall preserve all property, assets, and records of residents of which the receiver takes possession.

(C) To contract for such outside services as may be needed for the operation of the long-term health care facility. Any contract for outside services in excess of three thousand dollars ($3,000) shall be approved by the court.

(D) To pay commercial creditors of the long-term health care facility. Except as provided in Section 1329.5, the receiver shall honor all leases, mortgages, and secured transactions affecting the building in which the facility is located and all goods and fixtures in the building of which the receiver has taken possession, but only to the extent of payments which, in the case of a rental agreement, are for the use of the property during the period of receivership, or which, in the case of a purchase agreement, come due during the period of receivership.

(E) To receive a salary, as approved by the court.

(F) To do all things necessary and proper to maintain and operate the facility in accordance with sound fiscal policies. The receiver shall take such action as is reasonably necessary to protect or conserve the assets or property of which the receiver takes possession and may use such assets or property only in the performance of the powers and duties set out in this section and by order of the court.

(G) To ask the court for direction in the treatment of debts incurred prior to the appointment, where the licensee's debts appear extraordinary, of questionable validity, or unrelated to the normal and expected maintenance and operation of the facility, or where payment of such debts will interfere with the purposes of receivership.

(b) A person who is served with notice of an order of the court appointing a receiver and of the receiver's name and address shall be liable to pay the receiver, rather than the licensee, for any goods or services provided by the long-term health care facility after the date of the order. The receiver shall give a receipt for each such payment and shall keep a copy of each receipt on file. The receiver shall deposit amounts received in a special account and shall use this

account for all disbursements. Payment to the receiver pursuant to this subdivision shall discharge the obligation to the extent of the payment and shall not thereafter be the basis of a claim by the licensee or any other person. A resident may not be discharged nor may any contract or rights be forfeited or impaired, nor may any forfeiture be effected or liability increased, by reason of an omission to pay the licensee, operator, or other person a sum paid to the receiver pursuant to this subdivision.

(c) Nothing contained in this section shall be construed to suspend, during the temporary management by the receiver, any obligation of the licensee for payment of local, state, or federal taxes. No licensee may be held liable for acts or omissions of the receiver during the term of the temporary management.

(d) Upon petition of the receiver, the court may order immediate payment to the receiver for past services which have been rendered and billed, and the court may also order a sum not to exceed one month's advance payment to the receiver of any sums that will become payable under the Medi-Cal program.

SEC. 3. Section 1331 of the Health and Safety Code is amended to read:

1331. (a) The receiver shall be appointed for an initial period of not more than six months. The initial six-month period may be extended for additional periods not exceeding six months, as determined by the court pursuant to this section. At the end of four months, the receiver shall report to the court on its assessment of the probability that the long-term health care facility will meet state standards for operation by the end of the initial six-month period and will continue to maintain compliance with those standards after termination of the receiver's management. If it appears that the facility cannot be brought into compliance with state standards within the initial six-month period, the court shall take appropriate action as follows:

(1) Extend the receiver's management for an additional six months if there is a substantial likelihood that the facility will meet state standards within that period and will maintain compliance with the standards after termination of the receiver's management. The receiver shall report to the court in writing upon the facility's progress at the end of six weeks of any extension ordered pursuant to this paragraph.

(2) Order the director to revoke or temporarily suspend, or both, the license pursuant to Section 1296 and extend the receiver's management for the period necessary to transfer patients in accordance with the transfer plan, but for not more than six months from the date of initial appointment of a receiver, or 14 days, whichever is greater. An extension of an additional six months may be granted if deemed necessary by the court.

(b) If it appears at the end of six weeks of an extension ordered pursuant to paragraph (1) of subdivision (a) that the facility cannot be brought into compliance with state standards for operation or that

it will not maintain compliance with those standards after the receiver's management is terminated, the court shall take appropriate action as specified in paragraph (2) of subdivision (a).

(c) In evaluating the probability that a long-term health care facility will maintain compliance with state standards of operation after the termination of receiver management ordered by the court, the court shall consider at least the following factors:

(1) The duration, frequency, and severity of past violations.

(2) Past and current violations in other long-term health care facilities operated by the licensee.

(3) Efforts by the licensee to prevent and correct past violations.

(4) The financial ability of the licensee to operate in compliance with state standards.

(5) The licensee's willingness and ability to comply with the rehabilitation plan established pursuant to subdivision (d).

(6) The recommendations and reports of the receiver.

(d) Management of a long-term health care facility operated by a receiver pursuant to this article shall not be returned to the licensee or to any agent or employee of the licensee unless a written rehabilitation plan is approved by the court and the plan specifies actions to be taken by the licensee to improve the management of, and the patient care provided by, the facility and to secure and maintain compliance with state standards for operation. The state department shall monitor the facility's conformity with the rehabilitation plan. Failure to follow the plan shall be grounds for license revocation or suspension pursuant to Article 5 (commencing with Section 1294).

(e) The owner of the facility may at any time sell, lease, or close the facility, subject to the following provisions:

(1) If the owner closes the facility, or the sale or lease results in the closure of the facility, the court shall determine if a transfer plan is necessary. If the court so determines, the court shall adopt and implement a transfer plan of not more than 30 days.

(2) If the licensee proposes to sell or lease the facility and the facility will continue to operate as a long-term health care facility, the court and the state department shall reevaluate any proposed transfer plan. If the court and the state department determine that the sale or lease of the facility will result in compliance with licensing standards, the transfer plan and the receivership shall, subject to such conditions that the court may impose and enforce, be terminated upon the effective date of the sale or lease.

SEC. 4. Section 1332 of the Health and Safety Code is amended to read:

1332. The salary of the receiver shall be set by the court commensurate with long-term health care facility industry standards, giving due consideration to the difficulty of the duties undertaken, and shall be paid from the revenue coming to the facility. If the revenue is insufficient to pay the salary in addition to other expenses of the operating facility, the receiver's salary shall be paid from the General Fund.

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature under this act to permit, and to provide incentives for, school districts to enter into joint ventures with public agencies, private entities, or both, in order to generate additional funds to meet their school facility and maintenance needs.

SEC. 2. Section 17732 of the Education Code is amended to read:

17732. The board shall fix rents for all projects acquired and may change the rents from time to time as may be needed provided the rents shall not in any year exceed the sum of the following:

(a) One dollar ($1).

(b) Any interest earned on funds in the county school lease-purchase fund for the district.

(c) Any unencumbered bond funds of the district.

(d) The net proceeds from the sale or lease of any school buildings or land no longer needed for school purposes, exclusive of proceeds that are used for capital outlay expenditures for school construction that conforms to building area standards established under this chapter, for revenue purposes under a joint venture as authorized by Section 17732.3, or for the district funding requirement under subdivision (b) of Section 17705.5.

17732.3. (a) Any school district for which one or more projects has been funded under this chapter may, pursuant to written agreement with any other public or private person or entity, utilize any school buildings, land, or other real property interest that the governing board determines is not needed for school purposes, and will not be needed for school purposes within the next 30 years, in a joint venture with that person or entity to generate revenues for school facilities purposes, pursuant to the following conditions:

(1) The district has developed a school district asset utilization plan, setting forth the information required under subdivision (b), which plan has been the subject of a public hearing, and the governing board of the district has made the finding that the implementation of the plan will benefit the district.

(2) Prior to the execution by the school district governing board

of any agreement regarding the utilization of the school buildings or land, or both, under a joint venture pursuant to this section, the school district asset utilization plan has been submitted for, and has received, the review and approval of the State Allocation Board. No later than 90 days after the receipt of the plan, the board shall determine whether to approve the plan, which approval shall be granted if the board finds the plan to comply with this section.

(3) Once every three years after the approval of any plan pursuant to paragraph (2), the school district shall update the plan with information regarding the disposition of the revenues received by the district from the utilization of the school buildings or land, or both, under the joint venture, including the effect of those revenues upon the school facility needs for which the district may otherwise be eligible under this chapter or under any other school facilities program administered by the board, together with such other information as the board may require, and shall resubmit the plan to the board for its review and approval. In the event that the board refuses to approve the plan on the basis that the district is no longer in substantial compliance with this section, the surplus school buildings or land, or both, utilized under the joint venture shall no longer be exempt from the rental requirements of Section 17732.

(4) Pursuant to a school district asset utilization plan approved under this section, the school district may utilize school buildings or land, or both, in a joint venture, the revenues from which shall be placed by the district in a separate fund. The principal and interest from that separate fund may be expended by the district only for the following school facilities purposes, as authorized under the approved plan, in accordance with the pupil loading and cost standards established pursuant to this chapter: the acquisition of land, new construction, reconstruction, modernization, rehabilitation, and deferred maintenance.

(b) For purposes of this section, a school district asset utilization plan shall include, but not necessarily be limited to, all of the following:

(1) A specific description of the surplus school buildings or land, or both, to be utilized under the joint venture.

(2) The identification of the current educational uses of the surplus school buildings or land, or both, and of the educational uses proposed under the joint venture.

(3) The identification of the current noneducational uses of the surplus school buildings or land, or both, and of the noneducational uses proposed under the joint venture, and a specific assessment of the compatability of those uses with any applicable general or specific governmental land use plans and with applicable zoning restrictions.

(4) A description of the prospective economic benefits to be derived by the district from the joint venture.

(5) A description of the prospective educational benefits to be derived by the district from the joint venture.

(6) A comprehensive description of the joint venture, including, but not limited to, a description of the intended means of financing the joint venture.

(7) A plan for the disposition of the revenues received by the district from the joint venture.

13. To make contracts and to employ labor and to do all acts necessary for the full exercise of all powers vested in the district, or any of the officers thereof by this act.

SEC. 2. Section 14 of the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945) is amended to read:

Sec. 14. (a) The board of supervisors of the district shall have power in any year to do both of the following:

(1) Levy an ad valorem tax or assessment upon all taxable property in the district to pay the costs and expenses of the district and to carry out any of the objects or purposes of this act of common benefit to the district as a whole. However, the ad valorem tax or assessment shall not exceed two and one-half cents ($0.025) on each one hundred dollars ($100) of assessed valuation. It is declared that for purposes of such a tax or assessment all property within the district is equally benefited.

(2) Levy an ad valorem tax or assessment upon all taxable

property in each or any of the zones, according to the benefits derived or to be derived by the respective zones to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to the respective zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works or improvements within the respective zones. Except as provided in subdivisions (b) and (c), in the case of any assessment under this act, the benefit may be determined on the basis of the proportionate storm water runoff from each parcel. It is declared that all property within a given zone that is located within a watershed or watersheds which are tributary to an existing or proposed flood control improvement is equally benefited.

(b) Whenever a railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way is included within an area proposed to be assessed, the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way shall be subject to the assessment only if, and to the extent that, it is found that it will benefit from the service, and the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way shall be subject to the same penalties, and the same procedure and sale, in the event of delinquencies, as other parcels in the assessment area. In determining whether or not the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way benefits from the services provided, its use as a right-of-way for a railroad, gas, water, telephone, cable television, electric, or other utility shall be presumed to be permanent.

(c) Proportionate storm water runoff may be used as a measure of benefit on an undeveloped parcel of land pursuant to this section only if, and to the extent that, it is found that it will benefit from the service.

For the purposes of this section, "undeveloped parcel of land" means a parcel of rural land in its undeveloped natural state, although the land may be grazed, if otherwise undisturbed, in a manner consistent with the normally accepted grazing land management practices for that geographic area. "Undeveloped parcel of land" also includes wetlands and marshlands if undisturbed and subject to periodic inundation. For purposes of this section, "rural land" is land which is outside of an urbanized area as designated by the most recent federal decennial census of the United States Bureau of the Census.

(d) The taxes or assessments shall be levied and collected together with, and not separately from, taxes for county purposes, and the revenues derived from the taxes or assessments shall be paid into the county treasury to the credit of the district and the board of supervisors of the district shall have the power to control and order the expenditure thereof for those purposes. However, no revenues, or portions thereof, derived in any of the several zones from the taxes

or assessments levied under the provisions of paragraph (2) of subdivision (a) shall be expended for constructing, maintaining, operating, extending, repairing, or otherwise improving any works or improvements located in any other zone except joint projects or joint works of improvement in two or more zones or works of improvement which are for the common benefit of two or more zones. The aggregate taxes or assessments levied under this act for any one fiscal year shall not exceed forty cents ($0.40) on each one hundred dollars ($100) of assessed valuation of the taxable property in the zones exclusive of any tax levied to meet the bonded indebtedness of any of the zones and the interest thereon.

(e) Assessments levied pursuant to this section to pay the cost of constructing, maintaining, operating, extending, repairing, or otherwise improving works or improvements shall be based upon the benefit that each parcel of real property to be assessed will derive from the works and improvements to be constructed, maintained, operated, extended, or repaired. For purposes of levying any assessment, the board of supervisors may establish one or more zones of benefit, including parcels of real property which benefit similarly from those works and improvements, and may levy different assessments within those zones. The zones of benefit shall be identified and described in a resolution adopted by the board of supervisors. In levying assessments pursuant to this section, the board of supervisors may employ any of the procedures provided for in Sections 26.1 to 26.9, inclusive, which it deems appropriate. Proceedings for levying assessments pursuant to this section may be combined with proceedings for levying assessments pursuant to Sections 26.1 to 26.9, inclusive, and the procedures prescribed by those sections shall be modified as the board deems necessary to accommodate the combination of the proceedings. Assessments levied pursuant to this subdivision may, but need not be, ad valorem assessments.

SEC. 2.2. Section 20.1 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 20.1. In providing for the issuance of bonds of the district, a zone or zones, or an improvement district, the board of supervisors may provide in the resolution adopted pursuant to Section 20 for the inclusion in the aggregate principal amount of the bonds to be issued of a reserve fund for the payment of the principal of and interest on the bonds in an amount not to exceed 10 percent of the principal amount of the bonds.

SEC. 2.4. Section 25.1 of the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945) is amended to read:

Sec. 25.1. The board of supervisors may, upon complying with the requirements of Chapter 6.4 (commencing with Section 54703) of Part 1 of Division 2 of Title 5 of the Government Code, including obtaining the approval of the voters as required by Section 54717 of

the Government Code, levy a benefit assessment within any zone or an improvement district of the district to pay principal and interest on bonds of the district, the zone or zones, or improvement district which are issued to finance the cost of any work of improvement, as authorized in this act, in the zone or zones or improvement district or the improvement of any existing facility therein, if the issuance of the bonds has also been approved by the voters at the same election at which the levying of the benefit assessment was approved. The bonds shall be authorized and issued as provided in Sections 19, 20, 21, and 22, and in the case of bonds for an improvement district, Section 23.1, of this act, except that, notwithstanding Section 19, if at the election a majority of the votes cast are in favor of incurring the bonded indebtedness, the bonds may be issued for the amount stated in the proposition voted upon. The proposition regarding the issuance and sale of the bonds may be combined with the proposition regarding the benefit assessment into a single proposition on the ballot. An improvement district of the district is an "area of benefit" for purposes of Section 54715 of the Government Code.

SEC. 2.6. Section 25.2 of the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945) is amended to read:

Sec. 25.2. In the case of a benefit assessment for the payment of principal and interest on the bonds of the district, a zone or zones, or an improvement district, the annual aggregate amount of the assessment shall, notwithstanding paragraph (2) of subdivision (a) of Section 54711 of the Government Code, not exceed the amount necessary to pay the interest on the bonds and the portion of the principal thereof that will be due during the year and prior to the collection of the assessments for the next succeeding year and to pay the district's administrative expenses in connection with the levying and collection of assessments and paying the interest on, and the principal of, the bonds, including, but not limited to, fees and charges of fiscal agents and paying agents, and the amount necessary to replenish the reserve fund for the bonds to the amount required by the resolution authorizing the issuance of the bonds in the event that the reserve fund is utilized to pay principal of and interest on the bonds as a result of delinquencies in the payment of assessments.

After issuing any such bonds, the board of supervisors shall levy a benefit assessment pursuant to Chapter 6.4 (commencing with Section 54703) of Part 1 of Division 2 of Title 5 of the Government Code each year upon all taxable property in the zone or zones or improvement district of issuance sufficient to pay the interest on, and principal of, the bonds and the district's administrative expenses, and, if necessary, to replenish the reserve fund for the bonds, all as provided in this section.

SEC. 3. Section 25.4 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 25.4. If, as provided in Section 54717 of the Government

Code, less than 12 registered voters reside within an improvement district of the district for the 90 days preceding the close of the hearing required by Section 54716 of the Government Code, the proceedings for approval of the proposed assessment and the issuance of bonds shall, notwithstanding Section 23.1, be conducted in accordance with, and subject to, all provisions of Section 54717 of the Government Code.

SEC. 4. Section 25.5 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 25.5. (a) As an alternative remedy, if any benefit assessments levied by the board of supervisors for the payment of principal and interest on the bonds of the district, or a zone or zones, or an improvement district, together with any penalties and other charges accruing under the resolution or ordinance levying those benefit assessments, are not paid when due, the board of supervisors may at any time after those benefit assessments become delinquent, but not later than four years after the due date of the last installment of principal on the bonds, order those benefit assessments, penalties, and other charges to be collected by an action brought in superior court to foreclose the lien thereof.

(b) The board of supervisors may, by resolution adopted prior to the issuance of bonds to be secured and paid by benefit assessments, covenant for the benefit of the owners of the bonds to commence and diligently pursue to completion any foreclosure action regarding any delinquent benefit assessments. The resolution may specify a time limit for commencement of the foreclosure action and any other terms and conditions which the board of supervisors may determine to be reasonable regarding the foreclosure action.

SEC. 4.2. Section 25.6 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 25.6. The board of supervisors may, by resolution adopted prior to the issuance of bonds to be secured and paid by benefit assessments, specify conditions under which the obligation to pay the benefit assessments may be prepaid and permanently satisfied, and those conditions may include the payment of a redemption premium.

SEC. 5. Section 26.1 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.1. The board of supervisors may determine that it is necessary to sell bonds of the district or any zone or zones thereof to finance needed flood control improvements for the protection and benefit of portions of the district which the board determines cannot be financed from annual revenues from taxes or assessments, or both, over a period of years without selling bonds. The board of supervisors may also determine that it is necessary to sell bonds of the district or any zone or zones thereof to finance the local share of the cost of any

flood control improvements or projects undertaken by the federal government or the state, or both. The board of supervisors shall make these determinations by adopting a resolution indicating its intention to finance the improvements through the issuance of bonds, generally describing the improvements to be financed with the proceeds of the bonds and referring the improvements to an engineer selected by the board and therein named for the preparation and filing with the board of a report with regard to the proposed improvements. The portions of the district or any zone or zones thereof which will benefit from the sale of the bonds and the flood control improvements to be financed shall be designated in the resolution of the board making those determinations as the area of benefit for the specified project, or by some similar designation.

The report shall contain, among other things, all of the following:

(a) A general description of the improvements.

(b) Estimates of the cost of the improvements, the cost of land, rights-of-way, and easements, incidental expenses in connection with the improvements, and expenses in connection with the issuance of the bonds, and if part of the cost of the improvements will be paid from contributions from the federal government or the state, or both, an estimate of the expected total amount of those contributions.

(c) A map which shows the location of the proposed improvements and lands, rights-of-way, easements, and property to be taken, acquired or injured in carrying out the construction of the improvements, and any other information in regard to those matters as may be deemed useful. However, improvements, lands, rights-of-way, easements, and property which will be located outside the district or outside the area of benefit need not be shown on the map.

(d) A map or maps showing the location of the lots and parcels of property in the area of benefit which will derive special benefit from the proposed improvements and which are proposed to be assessed for the cost thereof.

(e) A listing by county assessor's parcel numbers of the lots and parcels of property within the area of benefit which will derive special benefit from the improvements and which are proposed to be assessed and pay annual assessments for the payment of principal and interest on the bonds, and estimated maximum amount of the annual assessment to be levied on each lot or parcel.

(f) A general analysis of the engineer's determination as to how the lots and parcels proposed to be assessed in the area of benefit and each proposed zone of benefit therein will derive special benefit from the proposed improvements.

The engineer may propose in the report that parcels of property in the area of benefit which benefit from the improvements similarly, but differently from other parcels, be included in different zones of benefit which shall be identified by boundary lines on the map or maps specified in subdivision (d). If the engineer proposes

in the report the establishment of different zones of benefit, the listing referred to in subdivision (e) shall also identify the zone of benefit in which each lot or parcel is proposed to be included.

SEC. 6. Section 26.2 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.2. If the improvements are proposed to provide protection against flooding in a floodway or flood plain designated on the general plan of the County of Riverside or any city therein or a flood plain area or a flood-risk zone established by the federal Secretary of Housing and Urban Development pursuant to 42 U.S.C. Sec. 4101, et seq., the fact that a lot or parcel of property is located within that floodway or flood plain or flood-risk area shall be conclusive evidence that it will derive special benefit from the improvements. Except as provided in subdivisions (b) and (c) of Section 14, assessments based on special benefit may be levied on lots and parcels of property included in an area of benefit or in zones of benefit therein on the basis of proportionate stormwater runoff. An area of benefit may include all land located within a watershed or watersheds which are tributary to proposed improvements.

SEC. 7. Section 26.3 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.3. (a) When the report of the engineer is filed with the board of supervisors, the board may at a regular or special meeting approve the report and schedule a hearing thereon. The hearing shall be scheduled not earlier than 30 days and not later than 90 days following approval of the report. Notice of the hearing shall be published pursuant to Section 6066 of the Government Code, and the first publication shall occur not later than 20 days before the date of the hearing. The notice to be published shall be entitled "Notice of Flood Control Improvements," and shall include all of the following:

(1) The time and place of the hearing on the proposed improvements and on the proposed bonds and annual assessments.

(2) A general description of the proposed improvements and the proposed area of benefit and reference to the report of the engineer for further particulars.

(3) A statement that the board of supervisors is considering issuing bonds to finance the cost of the proposed improvements, or the local share thereof, and the amount of bonds which would be issued.

(4) A statement that the board of supervisors is considering levying annual assessments on lots and parcels of property within the area of benefit to pay principal and interest on the bonds.

(5) The name and telephone number of an officer or employee of the district to answer inquiries regarding the protest proceedings.

(b) A notice of the time and place of the hearing shall also be mailed, postage prepaid, to all persons owning real property proposed to be assessed as their names and addresses appear on the

last equalized assessment roll for county taxes. The notices shall be mailed not later than 20 days before the date of the hearing. The notices to be mailed shall be entitled "Notice of Flood Control Improvements" and shall contain all of the following:

(1) A statement of the time, place, and purpose of the hearing on the improvements and the proposed annual assessments.

(2) A statement of the total estimated cost of the proposed improvements.

(3) A statement that the board of supervisors proposes to issue and sell bonds to finance the cost of the proposed improvements, or the local share thereof, and to levy annual assessments on lots and parcels of property within the area of benefit which will derive special benefit therefrom to pay the principal of and interest on the bonds.

(4) The estimated maximum amount of the annual assessment to be levied on the particular parcel of property to which the notice relates, and a statement that the annual assessment to be levied on the parcel may not exceed 110 percent of that estimated maximum amount.

(5) A statement that any owner of a lot or parcel of property proposed to be assessed for the cost of the improvements or the payment of the principal of and interest on the bonds may file a written protest with the clerk.

(6) The name and telephone number of an officer or employee of the district designated by the board of supervisors to answer inquiries regarding the protest proceedings.

(c) If the engineer's report proposes the designation of two or more zones of benefit within the area of benefit wherein parcels will be assessed different amounts of annual assessments, the notice shall also advise each owner of this and of the zone in which his or her lot or parcel will be located.

SEC. 8. Section 26.4 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.4. Any owner of a lot or parcel of property proposed to be assessed annual assessments for the payment of the principal of and interest on the bonds may protest the proposed improvements, the extent of the area of benefit or any proposed zone of benefit, or the estimated amount of annual assessment against his or her lot or parcel by filing a written protest with the clerk at or before the time set for the hearing. Each protest shall contain a description of the lot or parcel in which each signer thereof has an ownership interest sufficient to identify that ownership interest and, if the signers are not shown on the last equalized assessment roll as the owners of the lot or parcel, the protest shall contain or be accompanied by written evidence that the signers are the owners of the property. The clerk shall endorse on each protest the date of its receipt, and at the time appointed for the hearing shall present to the board of supervisors all protests filed with the clerk.

SEC. 9. Section 26.5 is added to the Riverside County Flood

Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.5. At the time of the hearing, the engineer's report shall be summarized and the board of supervisors shall afford all persons who are present an opportunity to comment upon, object to, or present evidence with regard to, the proposed improvements, the proposed area of benefit and zones of benefit, the issuance and sale of the bonds, the estimated maximum amount of annual assessment against any lot or parcel of property, or any other matter relating thereto. At the conclusion of the hearing, the board of supervisors may confirm the report of the engineer or direct its modification in any respect and thereafter confirm the report as modified. The board may change the boundaries of the area of benefit or any zone of benefit identified in the report to exclude lots and parcels of property which it determines will not derive special benefit from the proposed improvements, but may not change the boundaries of the area of benefit or any zone of benefit therein to include lots and parcels which are not listed in the report. The hearing may be continued from time to time not exceeding a total of 180 days.

SEC. 10. Section 26.6 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.6. (a) If the board of supervisors finds that written protests filed at or before the time of the hearing are signed by the owners of more than 25 percent of the area of land in the area of benefit or in any proposed zone of benefit therein, and protests are not withdrawn at the time of the hearing so as to reduce the percentage of protests for all proposed zones of benefits below that percentage, the board shall either abandon the proceedings or by duly adopted resolution submit the propositions of the issuance of the bonds and the levy of the assessment to the voters within each zone of benefit from which the protest was received and not so reduced, and shall not proceed further with the proceedings as to any zone of benefit unless a majority of the combined votes cast at the election in all zones of benefit wherein it is held are in favor of the issuance of bonds and the levy of assessments. The board of supervisors may elect to submit the question of the issuance of the bonds and the levy of assessments to the voters in all zones of benefit.

(b) The election may be called on any of the election dates prescribed by Section 2500 of the Elections Code, and the propositions regarding the issuance of the bonds and the levy of annual assessments for the payment of the principal of, and interest on, the bonds shall be combined in a single ballot measure. The election shall be conducted as nearly as practicable in conformity with the general election law of the state. The election may be consolidated with any other elections which will be conducted on the same date within the zone or zones of benefit where the election will be held. The board of supervisors may form election precincts by adopting the precincts established for general elections or by

consolidating precincts within the zone or zones of benefit where the election is to be held, and shall appoint only one inspector, two judges, and one clerk for each precinct. The district shall pay the county for costs incurred by the county in conducting the election.

SEC. 11. Section 26.7 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.7. If the board of supervisors abandons the proceedings rather than call an election, or if an election is held and the required approving vote is not received, it shall not initiate similar proceedings within a period of 180 days from the date of adoption of the resolution ordering abandonment of the proceedings or the date of the election.

SEC. 12. Section 26.8 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.8. If, at the conclusion of the hearing, the board of supervisors determines that protests received for the area of benefit and for each of the proposed zones of benefit therein are below the percentage set forth in Section 26.6, or if the propositions regarding issuance of the bonds and the levy of annual assessments are submitted to election in any zone of benefit, and the combined votes cast in all zones of benefit wherein the election is held are in favor of the propositions, the board may adopt a resolution confirming the engineer's report, and ordering the improvements, or payment of the local share of the cost thereof, if the improvements are to be undertaken by the federal government or the state, or both, and the issuance of the bonds. The board shall by this resolution also establish the boundaries of the area of benefit and all zones of benefit therein by reference to the map or maps contained in the confirmed engineer's report.

SEC. 12.5. Section 26.9 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.9. The board of supervisors may authorize the issuance of bonds on the basis of competitive bids or negotiated sale. If the bonds are to be sold on the basis of a negotiated sale, the board of supervisors shall establish a process of selecting underwriters including at least five proposing underwriter firms, unless the board finds, four-fifths of its members concurring, that fewer than five underwriting firms are willing to submit proposals. If competitive bids are to be received, notice of the time and place of the receipt of bids shall be published in a financial journal of general circulation in the state as provided in Section 6066 of the Government Code. The bonds shall be issued and sold as provided in and be subject to the applicable provisions of Sections 20 and 21.

SEC. 13. Section 26.10 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945) to read:

Sec. 26.10. After the authorization and sale of bonds pursuant to Sections 26.1 to 26.9, inclusive, the board of supervisors shall levy assessments each year upon the lots and parcels of property identified and listed in the engineer's report based upon the special benefit to be derived thereby from the improvements as specified therein in a total amount sufficient to pay interest on the bonds for that year and that portion of the principal thereof as is to become due during the time before the next general tax levy. The board may also include in the total amount of the assessment levied in any year the estimated amount of the district's cost of levying and collecting the assessments, the cost of registration, transfer and payment of the bonds, the expected amount of delinquency in payment of assessments, and the amount, if any, needed to replenish the reserve fund for the bonds as a result of past delinquencies in payment of assessments. However, the amount of the annual assessment on any lot or parcel in any year shall not exceed 110 percent of the estimated amount of the maximum annual assessment set forth in the engineer's report for the lot or parcel. The annual assessments shall be levied, collected, and become delinquent at the same time and in the same manner and have the same lien priority and bear the same penalites and interest after delinquency as the general tax levy for county purposes. When collected, the assessments shall be paid into the county treasury of the County of Riverside to the credit of the district, and be used for the payment of the principal of and interest on the bonds, the replenishment of the reserve fund for the bonds, the district's expenses incurred in levying and collecting the assessments, and the cost of registration, transfer, and payment of the bonds, and for no other purpose. The principal of and interest on the bonds shall be paid by the county treasurer of the county in the manner provided by law for the payment of the principal of and interest on bonds of the county, except that the board of supervisors may determine in the resolution authorizing the issuance of the bonds that the principal and interest shall be paid by a paying agent, other than the county treasurer, named therein.

SEC. 14. Section 26.11 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.11. The board of supervisors may include in the aggregate principal amount of the bonds an amount for a reserve fund for the payment of the principal of and interest on the bonds in the event that as a result of delinquencies in the payment of annual assessments levied on benefiting lots and parcels there is a deficiency in the amount needed for the payment of principal and interest. The amount to be included for the reserve fund shall not exceed 10 percent of the total principal amount of the bonds. The reserve fund and all interest earned thereon shall be used solely for the payment of the principal of and interest on the bonds, if there is a deficiency, and then only to the extent of the deficiency. Notwithstanding any other provision of this section, for the purpose of assuring that the

bonds will not become arbitrage bonds as defined in the Internal Revenue Code of 1986 (26 U.S.C. Sec. 62 et seq.) and regulations promulgated thereunder by the United States Department of the Treasury, and providing for a reduction of the amount of money in the reserve fund during the term of the bonds, the board of supervisors may, by resolution adopted prior to the issuance of the bonds, provide that money in the reserve fund, including investment income, shall be transferred to the redemption fund for the bonds for advance retirement of the bonds. The balance remaining in the reserve fund at the time of the levy of the annual assessments for the payment of the principal of and interest on the last series of the bonds shall be transferred to the redemption fund and taken into consideration by the board of supervisors in determining the aggregate amount of the annual assessments to be levied for the payment of the principal and interest. In lieu of establishing a reserve fund or in addition thereto, the board of supervisors may, in determining the amount of the assessments to be levied on lots and parcels benefiting from the improvements in any year, include in the assessments a proportionate share of any expected amount of delinquency in payment of assessments, or a proportionate share of the amount needed to replenish the reserve fund as a result of past delinquencies in the payment of assessments.

Notwithstanding the preceding provisions of this section, if any amendment to the Internal Revenue Code of 1986, (26 U.S.C. Sec. 62 et seq.) or the regulations of the United States Department of the Treasury thereunder require a different allocation or utilization of the amount of the reserve fund or the earnings thereon than is herein provided, the board of supervisors shall order that action with regard to the reserve fund or the earnings thereon as is required to avoid the interest on the bonds becoming taxable.

SEC. 14.5. Section 26.12 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.12. The validity of any proceedings for the issuance of bonds conducted pursuant to Sections 26.1 to 26.11, inclusive, shall not be contested in any action or proceeding unless the action or proceeding is commenced within 30 days after the adoption by the board of supervisors of a resolution or resolutions confirming, or modifying and confirming as modified, the engineer's report and authorizing the issuance of bonds. An appeal from a final judgment in such an action or proceeding shall be perfected within 30 days after the entry of judgment. Bonds issued pursuant to Sections 26.1 to 26.11, inclusive, shall be conclusive evidence of the regularity of all proceedings leading up to the issuance of the bonds.

SEC. 15. Section 26.13 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.13. An action to determine the validity of the bonds issued pursuant to Sections 26.1 to 26.11, inclusive, and of the annual

assessments to be levied on lots and parcels which will derive special benefit from the improvements to be financed therewith to pay the principal of and interest on the bonds, or to determine the validity of assessments levied pursuant to Section 14, shall be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure.

SEC. 16. Section 26.14 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.14. The board of supervisors shall, upon confirming the engineer's report and establishing the boundaries of the area of benefit pursuant to Section 14 or Section 26.8, record with the County Recorder of the County of Riverside a notice of the establishment of the area of benefit. The notice shall be captioned "Notice of Establishment of Area of Benefit for the _____ Project of the Riverside County Flood Control and Water Conservation District," and shall provide notice of the boundaries of the territory included in the area of benefit by reference to sections, townships and ranges of the United States Government Survey of public lands, or a map or maps showing the boundaries which may be recorded with the notice. The notice shall further provide notice that all lots and parcels of land in the area of benefit are subject to the annual levy of assessments for the payment of the cost of the construction, maintenance, operation, extension, and repair of any works or improvements or the payment of principal and interest on bonds of the district sold to finance the improvements, or the local share of the cost thereof, and that the amount of annual assessment for any lot or parcel therein may be obtained from the chief engineer of the district. If the board determines to provide notice of the boundaries of the territory included in the area of benefit by reference to the sections, townships, and ranges of the United States Government Survey, it need not specifically identify the boundaries, but shall by that reference generally identify the territory included therein. The notice shall be signed on behalf of the district by the chairman of the board or the chief engineer. The recording of the notice shall impart constructive notice of its contents to purchasers and mortgagees of property in the area of benefit.

SEC. 17. Section 26.15 is added to the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), to read:

Sec. 26.16. The procedures set forth in Sections 26.1 to 26.11,

inclusive, for the levy of assessments and the issuance of bonds are alternative to other bonding and assessment procedures contained in this act.

SEC. 19. Section 27 of the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945) is amended to read:

Sec. 27. The bonds of the district issued for any zone or improvement district thereof pursuant to this act, shall be legal investments for all trust funds, and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the state school funds, and whenever any money or funds may by law be invested in bonds of cities, cities and counties, counties, school districts or other municipal or public corporations, the money or funds may be invested in the bonds of the district issued in accordance with this act, and whenever bonds of cities, cities and counties, counties, school districts or other municipal or public corporations, may by law be used as security for the performance of any act, the bonds of the district may be so used.

The transportation planning agency may, at its discretion, delegate its responsibilities for appointment pursuant to this subdivision to the board of supervisors.

(c) The social services transportation advisory council shall have the following responsibilities:

(1) Annually participate in the identification of transit needs in the jurisdiction, including unmet transit needs that may exist within the jurisdiction of the council and that may be reasonable to meet by establishing or contracting for new public transportation or specialized transportation services or by expanding existing services.

(2) Annually review and recommend action by the transportation planning agency for the area within the jurisdiction of the council which finds, by resolution, that (A) there are no unmet transit needs, (B) there are no unmet transit needs that are reasonable to meet, or (C) there are unmet transit needs, including needs that are reasonable to meet.

(3) Advise the transportation planning agency on any other major transit issues, including the coordination and consolidation of specialized transportation services.

(d) It is the intent of the Legislature that duplicative advisory councils shall not be established where transit advisory councils currently exist and that those existing advisory councils shall, instead, become part of the social services transportation advisory council and shall assume any new responsibilities pursuant to this section.

SEC. 2. Section 99238.5 is added to the Public Utilities Code, to

read:

99238.5. The transportation planning agency shall ensure the establishment and implementation of a citizen participation process appropriate for each county, or counties if operating under a joint powers agreement, utilizing the social services transportation advisory council as a mechanism to solicit the input of transit dependent and transit disadvantaged persons, including the elderly, handicapped, and persons of limited means. The process shall include provisions for at least one public hearing in the jurisdiction represented by the social services transportation advisory council. Notice of the hearing, including the date, place, and specific purpose of the hearing shall be given at least 30 days in advance through publication in a newspaper of general circulation. The transportation planning agency shall also send written notification to those persons and organizations which have indicated, through its citizen participation or any other source of information, an interest in the subject of the hearing.

SEC. 3. Section 99401.5 is added to the Public Utilities Code, to read:

99401.5. Prior to making any allocation not directly related to public transportation services, specialized transportation services, or facilities provided for the exclusive use of pedestrians and bicycles, the transportation planning agency shall annually do all of the following:

(a) Establish a social services transportation advisory council pursuant to Section 99238.

(b) Identify the transit needs of the jurisdiction which have been considered as part of the transportation planning process, including the following:

(1) An annual assessment of the size and location of identifiable groups likely to be transit dependent or transit disadvantaged, including, but not limited to, the elderly, the handicapped, and persons of limited means.

(2) An analysis of the adequacy of existing public transportation services and specialized transportation services, including privately and publicly provided services, in meeting the transit demand identified pursuant to paragraph (1).

(3) An analysis of the potential alternative public transportation and specialized transportation services and service improvements that would meet all or part of the transit demand.

(c) Identify the unmet transit needs of the jurisdiction and those needs that are reasonable to meet. The transportation planning agency shall hold at least one public hearing pursuant to Section 99238.5 for the purpose of soliciting comments on the unmet transit needs that may exist within the jurisdiction and that might be reasonable to meet by establishing or contracting for new public transportation or specialized transportation services or by expanding existing services. The definition adopted by the transportation planning agency for the terms "unmet transit needs" and

"reasonable to meet" shall be documented by resolution or in the minutes of the agency. The fact that an identified transit need cannot fully be met based on available resources shall not be the sole reason for finding that a transit need is not reasonable to meet. An agency's determination of needs that are reasonable to meet shall not be made by comparing unmet transit needs with the need for streets and roads.

(d) Adopt by resolution a finding for the jurisdiction, after consideration of all available information compiled pursuant to subdivisions (a), (b), and (c). The finding shall be that (1) there are no unmet transit needs, (2) there are no unmet transit needs that are reasonable to meet, or (3) there are unmet transit needs, including needs that are reasonable to meet. The resolution shall include information developed pursuant to subdivisions (a), (b), and (c) which provides the basis for the finding.

(e) If the transportation planning agency adopts a finding that there are unmet transit needs, including needs that are reasonable to meet, then the unmet transit needs shall be funded before any allocation is made for streets and roads within the jurisdiction. If the finding is inconsistent with the regional transportation plan, then the transportation planning agency shall resolve the inconsistency by timely amendment or supplement to the plan.

SEC. 4. Section 99401.6 is added to the Public Utilities Code, to read:

99401.6. Upon adoption of a finding, pursuant to subdivision (d) of Section 99401.5 that there are no unmet transit needs or that there are no unmet transit needs that are reasonable to meet, the transportation planning agency may allocate funds for local streets and roads. The allocation shall not become effective until 20 days after acknowledgment of receipt by the Department of Transportation of documents of the agency's finding. The transportation planning agency shall, in any case, submit the documentation before August 15 of the fiscal year of the allocation or within 10 days after the adoption of the finding, whichever is later. The documentation shall include all of the following:

(a) A copy of the notice of hearing and proof of publication and a description of the actions taken to solicit citizen participation pursuant to Section 99238.5.

(b) A copy of the resolution or minutes documenting the transportation planning agency's definitions of "unmet transit needs" and "reasonable to meet," as determined pursuant to subdivision (c) of Section 99401.5.

(c) A copy of the resolution adopting the unmet needs finding described in subdivision (d) of Section 99401.5.

SEC. 5. Section 99406 of the Public Utilities Code is amended to read:

99406. Expenditures of moneys received for streets and highways purposes under this article shall be reported to the Controller by way of inclusion of information regarding those expenditures in the

report prepared pursuant to Chapter 4 (commencing with Section 2150) of Division 3 of the Streets and Highways Code.

The Controller shall submit the report annually to the Legislature commencing January 1, 1989.

SEC. 4. Section 99408 of the Public Utilities Code is amended to read:

99408. Any action to review, set aside, void, or annul the decision of a transportation planning agency made pursuant to Section 99401.5 shall be filed within 30 days after the agency makes its decision, or after the secretary has reviewed the decision pursuant to Section 99242, whichever is later. However, the action need not be filed until September 15 if the action is with respect to a decision made prior to August 15 for the fiscal year which commenced on the July 1 immediately preceding such August 15.

SEC. 7. Section 10789 is added to the Revenue and Taxation Code, to read:

10789. The license fee imposed by this part does not apply to any vehicle purchased with federal funds under the authority of paragraph (2) of subsection (b) of Section 1612 of Title 49 of the United States Code or Chapter 35 (commencing with Section 3000) of Title 42 of the United States Code for the purpose of providing specialized transportation services to senior citizens and handicapped persons by public and private nonprofit operators of specialized transportation services, including a consolidated transportation service agency designated pursuant to Section 15975 of the Government Code.

SEC. 8. Section 9107 of the Vehicle Code is amended to read:

(A) In urban or suburban areas or between cities in close proximity.

(B) Between nonadjacent urban or suburban areas or cities, the area between which is substantially residential, commercial, or industrial as distinguished from rural.

(2) When the principal business of the passenger stage corporation is the operation of vehicles on a route or routes as defined in paragraph (1) of this subdivision.

(b) Any vehicle operated exclusively on any line or lines within the limits of a single city by a person engaged as a common carrier of passengers between fixed termini or over a regular route, 98 percent of whose operations, as measured by total route mileage operated, are exclusively within the limits of a single city, and who by reason thereof is not a passenger state corporation subject to the jurisdiction of the Public Utilities Commission.

(c) Vanpool vehicles.

(d) Any vehicle purchased with federal funds under the authority of paragraph (2) of subsection (b) of Section 1612 of Title 49 of the United States Code or Chapter 35 (commencing with Section 3001) of Title 42 of the United States Code for the purpose of providing specialized transportation services to senior citizens and handicapped persons by public and private nonprofit operators of specialized transportation service agencies.

CHAPTER 674

An act to amend Section 10263 of the Public Contract Code, relating to public contracts.

[Approved by Governor September 16, 1987 Filed with Secretary of State September 16, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 10263 of the Public Contract Code is amended to read:

10263. (a) Provisions shall be included in any invitation for bid and in any contract documents to permit the substitution of securities for any moneys withheld by a public agency to ensure performance under a contract. At the request and expense of the contractor, securities equivalent to the amount withheld shall be deposited with the State Treasurer or a state or federally chartered bank in California as the escrow agent, who shall then pay the moneys to the contractor. Upon satisfactory completion of the contract, the securities shall be returned to the contractor.

(b) Alternatively, the contractor may request and the owner shall

make payment of retentions earned directly to the escrow agent. The contractor may direct the investment of the payments into securities and the contractor shall receive the interest earned on the investments upon the same terms provided for in this section for securities deposited by the contractor. Upon satisfactory completion of the contract, the contractor shall receive from the escrow agent all securities, interest, and payments received by the escrow agent from the owner, pursuant to the terms of this section.

(c) Securities eligible for investment under this section shall include those listed in Section 16430 of the Government Code, bank or savings and loan certificates of deposit, interest-bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed to by the contractor and the public agency.

The contractor shall be beneficial owner of any securities substituted for moneys withheld and shall receive any interest thereon.

Failure to include the provisions prescribed by this section in bid and contract documents shall void any provisions for performance retentions in a public agency contract.

(d) The Legislature hereby finds and declares that the provisions of this section are of statewide concern and are necessary to encourage full participation by contractors in public contract procedures.

(e) The escrow agreement used pursuant to this section shall be null, void, and unenforceable unless it is substantially similar to the following form:

ESCROW AGREEMENT FOR
SECURITY DEPOSITS IN LIEU OF RETENTION

This Escrow Agreement is made and entered into by and between _____
_____
_____ whose address is _____
_____ hereinafter called "owner,"
_____ whose address is_____
_____ hereinafter called "contractor,"
and
_____ whose address is_____
_____ hereinafter called "escrow agent."

For the consideration hereinafter set forth, the owner, contractor, and escrow agent agree as follows:

(1) Pursuant to Section 10263 of the Public Contract Code of the State of California, the contractor has the option to deposit securities with the escrow agent as a substitute for retention earnings required to be withheld by the owner pursuant to the construction contract entered into between the owner and contractor for _____ in the amount of _____ dated _____ (hereafter referred

to as the "contract"). Alternatively, on written request of the contractor, the owner shall make payments of the retention earnings directly to the escrow agent. When the contractor deposits the securities as a substitute for the contract earnings, the escrow agent shall notify the owner within ten days of the deposit. The market value of the securities at the time of the substitution shall be at least equal to the cash amount then required to be withheld as retention under the terms of the contract between the owner and contractor. Securities shall be held in the name of the _____, and shall designate the contractor as the beneficial owner.

(2) The owner shall make progress payments to the contractor for those funds which otherwise would be withheld from progress payments pursuant to the contract provision, provided that the escrow agent holds securities in the form and amount specified above.

(3) When the owner makes payment of retentions earned directly to the escrow agent, the escrow agent shall hold them for the benefit of the contractor until such time as the escrow created under this contract is terminated. The contractor may direct the investment of the payments into securities. All terms and conditions of this agreement and the rights and responsibilities of the parties shall be equally applicable and binding when the owner pays the escrow agent directly.

(4) The contractor shall be responsible for paying all fees for the expenses incurred by the escrow agent in administering the escrow account. These expenses and payment terms shall be determined by the contractor and escrow agent.

(5) The interest earned on the securities or the money market accounts held in escrow and all interest earned on the interest shall be for the sole account of contractor and shall be subject to withdrawal by contractor at any time and from time to time without notice to the owner.

(6) The contractor shall have the right to withdraw all or any part of the principal in the escrow account only by written notice to the escrow agent accompanied by written authorization from the owner to the escrow agent that the owner consents to the withdrawal of the amount sought to be withdrawn by contractor.

(7) The owner shall have a right to draw upon the securities in the event of default by the contractor. Upon seven days' written notice to the escrow agent from the owner of the default, the escrow agent shall immediately convert the securities to cash and shall distribute the cash as instructed by the owner.

(8) Upon receipt of written notification from the owner certifying that the contract is final and complete, and that the contractor has complied with all requirements and procedures applicable to the contract, the escrow agent shall release to the contractor all securities and interest on deposit less escrow fees and charges of the escrow account. The escrow shall be closed immediately upon disbursement of all moneys and securities on deposit and payments

of fees and charges.

(9) The escrow agent shall rely on the written notifications from the owner and the contractor pursuant to Sections (1) to (8), inclusive, of this agreement and the owner and contractor shall hold the escrow agent harmless from the escrow agent's release, conversion, and disbursement of the securities and interest as set forth above.

CHAPTER 677

An act to amend Sections 1432 and 1543 of the Civil Code, and to amend Sections 877 and 877.6 of the Code of Civil Procedure, relating to settlements.

[Approved by Governor September 16, 1987. Filed with Secretary of State September 16, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1432 of the Civil Code is amended to read:

1432. Except as provided in Section 877 of the Code of Civil Procedure, a party to a joint, or joint and several obligation, who satisfies more than his share of the claim against all, may require a proportionate contribution from all the parties joined with him.

SEC. 1.5. Section 1543 of the Civil Code is amended to read:

1543. A release of one of two or more joint debtors does not extinguish the obligations of any of the others, unless they are mere guarantors; nor does it affect their right to contribution from him or her, except as provided in Section 877 of the Code of Civil Procedure.

SEC. 2. Section 877 of the Code of Civil Procedure is amended to read:

877. Where a release, dismissal with or without prejudice, or a convenant not to sue or not to enforce judgment is given in good faith before verdict or judgment to one or more of a number of tortfeasors claimed to be liable for the same tort, or to one or more other co-obligors mutually subject to contribution rights, it shall have the following effect:

(a) It shall not discharge any other such party from liability unless its terms so provide, but it shall reduce the claims against the others in the amount stipulated by the release, the dismissal or the covenant, or in the amount of the consideration paid for it whichever is the greater.

(b) It shall discharge the party to whom it is given from all liability for any contribution to any other parties.

(c) This section shall not apply to co-obligors who have expressly agreed in writing to an apportionment of liability for losses or claims among themselves.

(d) This section shall not apply to a release, dismissal with or without prejudice, or a covenant not to sue or not to enforce judgment given to a co-obligor on an alleged contract debt where the contract was made prior to January 1, 1988.

SEC. 3. Section 877.6 of the Code of Civil Procedure is amended to read:

877.6. (a) Any party to an action wherein it is alleged that two or more parties are joint tortfeasors or co-obligors on a contract debt shall be entitled to a hearing on the issue of the good faith of a settlement entered into by the plaintiff or other claimant and one or

more alleged tortfeasors or co-obligors, upon giving notice thereof in the manner provided in Sections 1010 and 1011 at least 20 days before the hearing. In addition, the notice may be served by mail pursuant to Section 1012, but in those cases the period of notice shall be at least 25 days if the place of address is within the State of California, at least 30 days if the place of address is outside the State of California but within the United States, and at least 40 days if the place of address is outside the United States. Upon a showing of good cause, the court may shorten the time for giving the required notice to permit the determination of the issue to be made before the commencement of the trial of the action, or before the verdict or judgment if settlement is made after the trial has commenced.

(b) The issue of the good faith of a settlement may be determined by the court on the basis of affidavits served with the notice of hearing, and any counteraffidavits filed in response thereto, or the court may, in its discretion, receive other evidence at the hearing.

(c) A determination by the court that the settlement was made in good faith shall bar any other joint tortfeasor or co-obligor from any further claims against the settling tortfeasor or co-obligor for equitable comparative contribution, or partial or comparative indemnity, based on comparative negligence or comparative fault.

(d) The party asserting the lack of good faith shall have the burden of proof on that issue.

(e) When a determination of the good faith or lack of good faith of a settlement is made, any party aggrieved by the determination may petition the proper court to review the determination by writ of mandate. The petition for writ of mandate shall be filed within 20 days after service of written notice of the determination, or within such additional time not exceeding 20 days as the trial court may allow.

(1) The court shall, within 30 days of the receipt of all materials to be filed by the parties, determine whether or not the court will hear the writ and notify the parties of its determination.

(2) If the court grants a hearing on the writ, the hearing shall be given special precedence over all other civil matters on the calendar of the court except those matters to which equal or greater precedence on the calendar is granted by law.

The running of any period of time after which an action would be subject to dismissal pursuant to Section 583 shall be tolled during the period of review of a determination pursuant to this subdivision.

CHAPTER 678

An act to amend Sections 69810, 69811, and 69812 of the Education Code, relating to student financial aid.

[Approved by Governor September 16, 1987. Filed with Secretary of State September 16, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 69810 of the Education Code is amended to read:

69810. In accepting a scholarship, loan, fellowship, grant-in-aid, or any other financial aid given or guaranteed by the state for assistance, every recipient thereof who is a student at a public or private university, college, or other institution of higher education, shall be deemed to have agreed to observe the rules and regulations promulgated by the governing authority of the university, college, or other institution of higher education, for the government thereof.

Any recipient of this state financial aid who, on the campus of the university, college, or other institution of higher education, willfully and knowingly commits any act likely to disrupt the peaceful conduct of the activities of the campus, and is arrested and convicted of a public offense arising from the act, may be determined to be ineligible for any state financial aid for a period not to exceed the ensuing two academic years.

Any recipient of this state financial aid who, after a hearing, is found to have willfully and knowingly disrupted the orderly operation of the campus, but has not been arrested and convicted, may be determined to be ineligible for any state financial aid for the period as the hearing board may determine, not to exceed the ensuing two academic years.

Any recipient who is suspended from an institution of higher education for these acts shall be ineligible for state financial aid for a period not less than the time of the suspension.

The governing authority of the university, college, or other institution of higher education shall, for purposes of this section, cause to be reviewed the record of each recipient and shall, as soon as practicable, notify a hearing board established by it of the name of any recipient who committed any act likely to disrupt the peaceful conduct of the activities of the campus and was arrested and convicted of any public offense arising from that act, or is found to have willfully and knowingly disrupted the orderly operation of the campus, or has been suspended from an institution of higher education for these acts.

SEC. 2. Section 69811 of the Education Code is amended to read:

69811. Upon receipt of notice, as provided in Section 69810 that any recipient has committed any act likely to disrupt the peaceful conduct of the activities of the campus and was convicted of a public

offense in connection therewith, or is found to have willfully and knowingly disrupted the orderly operation of the campus, or has been suspended from an institution of higher education for these acts, the hearing board shall immediately give the recipient written notice of the report. The notice shall inform the recipient of the pendency of the proceedings for the suspension of assistance. It shall inform the recipient that he may present evidence of mitigating circumstances to the hearing board within 14 calendar days of the date of the mailing of the notice, and shall specify the procedures and means by which such evidence is to be presented, including the date at which any hearing to be afforded him is to be held. The hearing board may prescribe any procedures and means for these purposes which it may deem appropriate, provided that any hearing which may be afforded the recipient shall not be held sooner than seven days after the date of the mailing of the notice.

If no response to the hearing board's notice is made within the period specified in this section, the hearing board may suspend further assistance to the recipient and the suspension shall remain in effect not to exceed the ensuing two academic years.

After the conclusion of proceedings provided for in this section, the hearing board shall, by majority vote, determine whether further assistance to the recipient shall be suspended. If the recipient was arrested and convicted of a public offense arising from campus disruption, the suspension may remain in effect for a period not to exceed the ensuing two academic years. If the recipient is found by the hearing board to have willfully and knowingly disrupted the orderly operation of the campus, but has not been arrested and convicted, the hearing board may suspend further assistance to the recipient for the period as the hearing board may determine not to exceed the ensuing two academic years. If the recipient was suspended from an institution of higher education for these acts, the hearing board shall suspend further assistance to the recipient for a period not less than the time of the suspension. The findings of the hearing board shall be in writing.

The hearing board shall notify the appropriate state agencies of any suspension of state financial aid pursuant to this section, and no state financial aid shall be extended to the recipient during this period.

Any notice required to be made by this section shall be sufficient when it is deposited in the United States registered or certified mail, postage paid, addressed to the last known address of the addressee.

SEC. 3. Section 69812 of the Education Code is amended to read:

69812. Nothing in this chapter shall be construed to prohibit any public or private university, college, or other institution of higher education from suspending or refusing to grant scholarships, loans, fellowships, grants-in-aid, or any other financial aid given or guaranteed by the state for academic assistance to any individual because of any other misconduct which in its judgment bears adversely on his or her fitness for assistance.

SEC. 4. Effective January 1, 1988, Sections 69810, 69811, and 69812 of the Education Code shall become inoperative and have no force or effect until January 1, 1993. On January 1, 1993, Sections 69810, 69811, and 69812 of the Education Code shall become operative as amended by Sections 1, 2, and 3 of this act.

CHAPTER 679

An act to add Chapter 11 (commencing with Section 57401) to Division 20 of the Food and Agricultural Code, relating to dairy cattle.

[Approved by Governor September 16, 1987. Filed with Secretary of State September 16, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 11 (commencing with Section 57401) is added to Division 20 of the Food and Agricultural Code, to read:

CHAPTER 11. DAIRY CATTLE SUPPLY LIEN

57401. (a) The definitions in this section govern the construction of this chapter.

(b) "Feed or materials" means commercial feed, grain, forage, feed ingredients, mineral feed, drugs, animal health products, customer-formula feed, any mixture or preparation for feeding animals, any of the constituent nutrients of an animal ration, or any other food which is used for the feeding of dairy cattle.

(2) Funds due or owing milk processing cooperative associations organized and operating pursuant to Chapter 1 (commencing with Section 54001).

(3) Funds retained by the cooperative association.

(4) Deductions made pursuant to a court order.

(5) Deductions due or owing the buyer of the milk for hauling services provided by the buyer pursuant to subdivision (e) of Section 62096 and deductions due or owing the buyer for the testing of milk for purposes of payment pursuant to Section 34231.

(d) "Raising or maintaining of dairy cattle" means feeding, pasturing, caring for, and managing dairy cattle kept or raised for use or profit.

(e) "Reasonable or agreed charges" means the agreed price, if any, for the feed and materials sold to the lien debtor, at the lien debtor's request. If there is no agreed price or a method for

determining price which is agreed upon, "reasonable or agreed charges" means the reasonable value of the feed or materials as of the date of delivery.

57402. A person who provides feed or materials to aid the raising or maintaining of dairy cattle has a lien upon the proceeds of the milk or milk products produced from the dairy cattle, for the reasonable or agreed charges for the feed or materials provided and for the costs of enforcing the lien. However, the amount of charges secured by the lien cannot exceed an amount equal to the reasonable or agreed charges for feed or material provided within a 45-day period, and only two providers of feed or materials shall have an enforceable lien at any time according to the priority set forth in Section 57406.

57403. (a) The lien created pursuant to this chapter attaches to proceeds.

(b) Except as otherwise provided in this chapter, the notice of claim of lien shall remain in effect, and no new notice of claim of lien shall be required in order to maintain the lien, as long as the person who provides feed or materials either (1) remains unpaid for amounts secured by the lien, or (2) continues to provide feed or materials on a regular basis to the lien debtor. For purposes of this section, providing feed or materials shall not be deemed to be made on a regular basis if a period of more than 30 days elapses between deliveries.

57405. The lien created by this chapter shall be perfected and shall be effective upon the filing of a notice of claim of lien with the Secretary of State pursuant to all the provisions of this section.

(a) The person who provides feed or materials may, at any time, file in the manner and at the place set forth in this section, the notice of claim of lien.

(b) The notice of claim of lien shall, at a minimum, set forth all of the following information:

(1) The name and address of the lien claimant.

(2) The name and address of the lien debtor.

(3) The location of the dairy to which the feed and materials were provided.

(4) That the lien claimant has a dairy cattle supply lien pursuant to Section 57402.

(c) The notice of claim of lien shall be signed by the lien claimant or by a person authorized to sign documents of a similar kind on behalf of the claimant.

(d) The notice of claim of lien shall be filed on a form which is the standard form of original financing statement prescribed by the Secretary of State pursuant to Section 9403 of the Commercial Code. The standard form shall be completed with the following changes:

(1) The lien claimant may be identified either as lien claimant or as secured party.

(2) The form shall be signed by the lien claimant and need not be signed by the debtor.

(3) In the space for the description of the collateral there shall

instead be entered the statement substantially as set forth in paragraphs (3) and (4) of subdivision (b).

(e) The notice of claim of lien shall be filed, indexed, and marked in the office of the Secretary of State in the same manner as a financing statement is filed, indexed, and marked pursuant to Section 9403 of the Commercial Code.

(f) The lien claimant shall provide written notice of the claim of lien to the lien debtor within 10 days of the date of the filing with the office of the Secretary of State.

(g) For the purpose of the Secretary of State's index pursuant to Section 9403 of the Commercial Code and for the purpose of the issuance of a certificate pursuant to Section 9407 or 9409 of the Commercial Code, the Secretary of State shall identify a notice pursuant to this section as a financing statement.

57406. (a) The lien created by this chapter shall have priority in accordance with the time the notice of claim of lien is filed.

(b) The lien created by this chapter shall have the same priority as a security interest perfected by the filing of a financing statement as of the date the notice of claim of lien was filed.

57407. Except to the extent specifically set forth in this chapter, the lien created by this chapter shall be subject to Division 9 (commencing with Section 9101) of the Commercial Code.

57408. A member of the public may obtain a certificate identifying whether there is a lien on file and any notice of claim of lien naming a particular debtor, and if so, giving the date and time of filing of each notice, and the names and addresses of each lienholder therein. The fee for the certificate is the same as the fee for a certificate issued pursuant to Section 9407 of the Commercial Code.

57409. A member of the public may obtain a copy of any notice of claim of lien filed pursuant to this chapter, including notices affecting the notices. The fee for these copies shall be the same as that prescribed in Section 9407 of the Commercial Code.

57410. The Secretary of State may adopt any regulations necessary to carry out his or her duties pursuant to this chapter, including prescribing necessary forms.

57411. A lien created pursuant to this chapter is assignable or transferable by the holder of the lien, with full rights of enforcement. A lienholder's statement of assignment or transfer shall be filed with the Secretary of State in the same manner as a secured party's statement of assignment or transfer as prescribed in Section 9406 of the Commercial Code.

57412. The lien claimant shall provide written notice to secured creditors at least 30 days prior to enforcing a claim of lien. For the purposes of this section, "secured creditors" means those creditors having a perfected security interest in dairy cattle, milk, milk products, or the proceeds thereof, as of the date the notice of claim of lien is filed with the Secretary of State.

57413. The lien claimant shall foreclose on a lien created by this

chapter only in an action to recover the reasonable or agreed charges for feed and materials delivered. The final judgment shall be enforced pursuant to Title 9 (commencing with Section 680.010) of the Code of Civil Procedure.

57414. (a) When a lien claimant receives payment for amounts secured by the lien and the lien claimant has not been providing feed or materials for a period of 30 consecutive days, the lien claimant shall, on written demand by the debtor, send the debtor a statement that he or she no longer claims a security interest under the statement, which shall be identified by date, names of parties thereto, and file number. If the affected lienholder of record fails to send such a termination statement within 10 days after proper demand therefor, he or she shall be liable to the debtor for all actual damages suffered by the debtor by reason of this failure, and, if the failure is in bad faith, for a penalty of one hundred dollars ($100).

(b) The filing officer shall mark each termination statement with the date and time of filing and shall index the statement under the name of the debtor and under the file number of the original lien. If the filing officer has a microfilm or other photographic record of the lien and related filings, he or she may remove the originals from the files at any time after receipt of the termination statement and destroy them, or if he or she does not have the record, he or she may remove them from those files at any time after one year after receipt of the termination statement and destroy them.

CHAPTER 680

An act to add Part 4 (commencing with Section 3001) to Division 1 of the Public Utilities Code, relating to gas.

[Approved by Governor September 16, 1987 Filed with Secretary of State September 16, 1987]

The people of the State of California do enact as follows:

SECTION 1. Part 4 (commencing with Section 3001) is added to Division 1 of the Public Utilities Code, to read:

PART 4. PRODUCTION AND TRANSMISSION OF PUBLIC UTILITY COMMODITIES AND SERVICES

CHAPTER 1. GAS PRODUCERS' COOPERATIVE ASSOCIATIONS

Article 1. Definitions

3001. Unless the context otherwise requires, the definitions in this article govern the construction of this chapter.

3002. "Association" means any corporation which is organized

pursuant to this chapter. An association is incorporated or organized pursuant to this chapter and is a producer of gas within the meaning of this chapter if it is functioning under, or is subject to, this chapter, regardless of whether it was originally incorporated pursuant to this chapter or was incorporated under other provisions of law.

3003. "Member" includes members of associations without capital stock and holders of common stock in associations which are organized with shares of stock.

3004. "Gas" means all gas produced in this state, natural or manufactured, except propane, for light, heat, or power.

Article 2. General Provisions

3021. The purpose of this chapter is to do all of the following:

(a) Promote, foster, and encourage the intelligent and orderly marketing of gas through cooperation.

(b) Make the delivery of gas from producer to distributor as direct as can be efficiently done.

(c) Free producers from unreasonable constraints imposed by limited access to market.

3022. In enacting this chapter, the Legislature finds and declares as follows:

(a) California gas production is an important part of the state's gas supply.

(b) The actual delivered cost of California produced gas is presently lower than the cost of alternative out-of-state and Canadian gas supplies.

(c) California gas is produced and made available by California businesses and California taxpayers employing California workers.

(d) California gas consumers are entitled to a "least cost supply mix" in the gas supplies made available to them for purchase.

(e) California consumers and California producers of gas are entitled to be free of artificial constraints and unreasonable burdens on the marketing of California gas at a fair price.

3023. Associations are "nonprofit," since they are not organized to make profit for themselves, as such, or for their members, as such, but only for their members as producers.

3024. Any provision of law which is in conflict with this chapter does not apply to any association.

3025. Any exemption under any existing law which applies to gas in the possession, or under the control, of the individual producer, applies equally to gas in the possession, or under the control, of an association.

3026. No person, corporation, or association, that is hereafter organized or doing business in this state, may use the word "cooperative" as part of its corporate name or other business name or title for gas producers' cooperative marketing activities, unless it has complied with this chapter.

3027. Any person, corporation, or association which is organized

pursuant to any previously existing statute for the purpose of cooperatively selling gas is deemed to be organized and existing pursuant to this chapter, and this chapter applies to that person, corporation, or association.

3028. An association is not any of the following:

(a) A conspiracy, a combination in restraint of trade, or an illegal monopoly.

(b) An attempt to lessen competition, to fix prices arbitrarily, or to create a combination or pool in violation of any law of this state.

(c) A public utility for any purpose under Part 1 (commencing with Section 201).

3029. The marketing contracts and agreements between an association and its members, and any agreements authorized in this chapter, are not illegal, in restraint of trade, or contrary to any statute which is enacted against pooling or combinations.

3030. The General Corporation Law (Division 1 (commencing with Section 100) of Title 1 of the Corporations Code) applies to each association which is organized pursuant to this chapter, except where this chapter provides otherwise. For the purpose of associations organized without shares of stock, the members are deemed to be "shareholders" as the term is used in the General Corporation Law.

3031. It is an unfair trade practice, and unlawful, for any gas corporation to do any of the following:

(a) Interfere with, restrain, coerce, or boycott any person engaged in the production of gas within the state in the exercise of any right described in this chapter.

(b) Discriminate against any person engaged in the production of gas within the state with respect to price, delivery, or other terms of purchase of gas by reason of membership in or contract with any association formed pursuant to this chapter.

(c) Pay or loan money or give any thing of value as an inducement or reward for refusing or ceasing to belong to, or for breaching one's membership agreement in, an association.

(d) Maliciously or knowingly give false reports about the finances, management, or activities of any person subject to this chapter.

(e) Refuse to negotiate or bargain at reasonable times and for reasonable periods of time with a genuine desire to reach agreement and a serious attempt to resolve differences with an association for price, terms of sale, terms of transportation, compensation for gas produced under contract, or any other contract provision relative to gas production represented by an association, except that nothing in this subdivision requires a gas corporation to reach agreement on price, delivery terms, transportation terms, compensation, or any other contract term.

Article 3. Purposes

3051. Three or more natural persons, all of whom are residents of this state, who are engaged in the production of gas within this state,

may form an association pursuant to this chapter for the purpose of engaging in any activity in connection with any of the following:

(a) The selling of gas produced by its members.

(b) The storing, handling, transportation, or utilization of gas or the manufacturing or making of byproducts of gas.

(c) The manufacturing, selling, or supplying to its members of machinery, equipment, or supplies.

(d) The financing of any activity specified in this section.

(e) The representation of its members in bargaining and negotiations concerning any sale of gas to a third party, either pursuant to an existing contract or a new contract.

Article 4. Articles of Incorporation

3061. The articles of incorporation of the association shall show that the signers of the articles of incorporation are engaged in the production of gas, state that they propose to incorporate an association pursuant to this chapter, and shall state all of the following:

(a) The name of the association.

(b) The purposes for which it is formed.

(c) The county where the principal office for the transaction of business of the association is to be located.

(d) The number of directors of the association, which shall be not less than three, and the names and addresses of the persons who are to serve as the first directors. If it is desired that the first directors serve for terms of different length, the term for which each person so named shall serve shall also be stated.

(e) If organized without shares of stock, whether the voting power and the property rights and interest of each member are equal or unequal. If voting power and property rights and interest of each member are unequal, the general rule or rules which are applicable to all members by which the voting power and the property rights and interests, respectively, of each member may be determined and fixed shall also be stated.

(f) If organized with shares of stock, the number of shares which may be issued and, if the shares are to have a par value, the par value of each share, and the aggregate par value of all shares. If the shares are to be without par value, it shall be so stated.

If the shares of stock are to be classified, a description of the classes of shares and a statement of the number of shares of each kind or class and the nature and extent of the preferences, rights, privileges, and restrictions which are granted to, or imposed upon, the holders of the respective classes of stock.

Except as to the matters and things so stated, no distinction shall exist between the classes of stock or the holders of them. One class of stock shall always be known as common stock, and the voting power may be restricted to holders of common stock.

3062. Articles of incorporation shall be signed, acknowledged,

and filed in the manner which is prescribed by the general laws of this state for domestic corporations.

3063. The articles of incorporation of any association may be amended in the manner and for the purposes which are authorized by the General Corporation Law (Division 1 (commencing with Section 100) of Title 1 of the Corporations Code).

Article 5. Bylaws

3081. Each association shall, within 30 days after its incorporation, adopt for its government and management a code of bylaws that is not inconsistent with this chapter. The vote or written assent of the members that hold at least a majority of the voting power is necessary to adopt the bylaws and is effective to repeal or amend the bylaws or to adopt additional bylaws.

The power to repeal and amend the bylaws, and to adopt new bylaws, may, by a similar vote or similar written assent, be delegated to the board of directors, which authority may, by a similar vote or similar written assent, be revoked.

3082. The bylaws may prescribe the time, place, and manner of calling and conducting meetings. Meetings of members shall be held at the place specified in the bylaws or, if no such provision is made, the meetings shall be held in the city where the principal place of business is located at a place designated by the board of directors. Meetings of the board of directors may be held at any place within or outside the state which is fixed by a majority of the board of directors, unless otherwise provided in the articles of incorporation or bylaws.

3083. The bylaws may prescribe the number of stockholders or members which constitutes a quorum.

3084. The bylaws may prescribe the right of members to vote by proxy or by mail, or both; the conditions, manner, form, and effects of their votes; the right of members to cumulate their votes; and the prohibition, if desired, of cumulative voting.

3085. The bylaws may prescribe the number of directors which constitutes a quorum.

3086. (a) The bylaws may prescribe the qualifications, compensation, duties, and term of office of the directors and officers and the time of their election.

(b) The number of directors set forth in the articles of incorporation shall be either a fixed number or a variable number. If a fixed number, it shall not be less than three. If a variable number, the stated minimum shall not be less than three and the stated maximum shall not be more than two times the stated minimum minus one.

(c) The number of directors may also be set forth in the bylaws either as a fixed number or as a variable number subject to the same limitations as in subdivision (b). After members have been admitted, any adoption or amendment of the bylaw provision shall be subject

to approval pursuant to Section 152 of the Corporations Code.

(d) In the event of an inconsistency between an article provision referred to in subdivision (b) and a bylaw provision referred to in subdivision (c), the provision more recently adopted or amended shall prevail.

(e) If a variable number of directors is set forth in the articles of incorporation or the bylaws, the exact number of directors shall be fixed, within the limits specified, by approval of the board of directors or by the members pursuant to Section 153 of the Corporations Code in the manner designated in the bylaws.

3087. The bylaws may prescribe penalties for violations of the bylaws.

3088. The bylaws may prescribe the amount of entrance, organization, and membership fees, if any; the manner and method of collection of these fees; and the purposes for which they may be used.

3089. The bylaws may prescribe the amount which each member shall be required to pay annually, or from time to time if at all, to carry on the business of the association; the charge, if any, to be paid by each member or for services rendered by the association and the time of payment and the manner of collection; and the marketing contract between the association and its members which every member may be required to sign.

3090. The bylaws may prescribe the amount of any dividends which may be declared on the stock or membership capital, which shall not exceed 8 percent per annum, shall be in the nature of interest, and shall not affect the nonprofit character of any association.

3091. The bylaws may prescribe the number and qualification of members of the association and the conditions precedent to membership; the method, time, and manner of permitting members to withdraw or to transfer their stock; the manner of assignment and transfer of the interest of members; the conditions upon which, and time when, membership of any member shall cease; the automatic supsension of the rights of a member who ceases to be eligible for membership in the association; and the mode, manner, and effect of the expulsion of a member.

3092. The bylaws may prescribe the manner of determining the value of a member's interest and provision for its purchase by the association upon the death or withdrawal of a member or upon the expulsion of a member or forfeiture of membership or, at the option of the association, the purchase at a price fixed by conclusive appraisal by the board of directors. In case of the expulsion of a member, and where the bylaws do not provide any procedure or penalty, the board of directors shall equitably and conclusively appraise the member's property interest in the association and shall fix the amount of that property interest in money, which shall be paid to the member within one year after expulsion.

Article 6. Directors and Management

3101. The affairs of the association shall be managed by a board of not less than three directors who are elected by the members.

3102. The bylaws may provide that the territory in which the association has members shall be divided into districts and that directors shall be elected from the several districts. In that case, the bylaws shall specify the number of directors to be elected by each district, and the manner and method of reapportioning the directors and of redistricting the territory of the association.

3103. The bylaws may provide that primary elections shall be held to nominate directors. If the bylaws provide that the territory in which the association has members shall be divided into districts, the bylaws may also provide that the results of the primary elections in the various districts shall be final and shall be ratified at the annual meeting of the association.

3104. The bylaws may provide that the territory in which the association has members shall be divided into districts and that the directors shall be elected by representatives or advisers, who themselves have been elected by the members from the districts. In that case, the bylaws shall specify the number of representatives or advisers to be elected by each district, and the manner and method of reapportioning the representatives or advisers and of redistricting the territory of the association.

3105. The bylaws may provide that one or more directors may be appointed by any public official or commission or by the other directors selected by the members. These directors so appointed shall represent primarily the interest of the general public. These directors shall have the same powers and rights as the other directors. The directors so chosen shall not number more than one-fifth of the entire number of directors.

3106. The bylaws may provide for an executive committee and may delegate to the committee all the functions and powers of the board of directors, subject to the general direction and control of the board.

3107. The association may provide a fair remuneration for the time which is actually spent by its officers and directors in its service and for the service of the members of its executive committee.

3108. If a vacancy on the board of directors occurs except by expiration of a term, the remaining members of the board, by a majority vote, shall fill the vacancy unless the bylaws provide for an election of directors by districts. If the bylaws provide for an election of directors by districts, the vacancy shall be filled by the election of a director from the district in which the vacancy occurs or the board may call a special meeting of the members in that district to fill the vacancy.

3109. The directors shall elect a president, one or more vice presidents, a secretary, a treasurer, and any other officers that may be prescribed by the bylaws. Any two or more offices, except those

of president and secretary, may be held by the same person.

The treasurer may be a bank or any depository and, as such, shall not be considered an officer, but a function of the board of directors. In that case, the secretary shall perform the usual accounting duties of the treasurer, except that the funds shall be deposited only, as, and where authorized by the board.

3110. Any member may bring charges against an officer or director by filing them, in writing, with the secretary of the association, together with a petition which is signed by 5 percent of the members, which requests the removal of the officer or director in question. The removal shall be voted upon at the next regular or special meeting of the association and, by a vote of a majority of the members, the association may remove the officer or director and fill the vacancy. The director or officer against whom charges have been brought shall be informed, in writing, of the charges prior to the meeting and shall have an opportunity at the meeting to be heard in person or by counsel and to present witnesses. The person bringing the charges against the director or officer shall have the same opportunity.

If the bylaws provide for election of directors by districts with primary elections in each district, the petition for removal of a director shall be signed by 20 percent of the members that reside in the district from which the director was elected. The board of directors shall call a special meeting of the members that reside in that district to consider the removal of the director and, by a vote of the majority of the members of that district, the director in question shall be removed from office.

Article 7. Powers

3121. An association may engage in any activity in connection with the selling, transporting, or storing of gas which is produced and delivered to it by its members; in any activity in connection with the purchase, hiring, or use by its members of supplies, machinery, or equipment, or in the financing of any of these activities; or in any one or more of the activities which are specified in this section.

3122. An association may borrow without limitation as to amount of corporate indebtedness or liability and may make advances to members.

3123. An association may act as the agent or representative of any member in any of the activites specified in Section 3171 or 3172.

3124. An association may purchase or otherwise acquire, hold, own, and exercise all rights of ownership in, sell, transfer, pledge, or guarantee the payment of dividends or interest on, or the retirement or redemption of, shares of the capital stock or bonds of any corporation or association which is engaged in the production of gas or any related activity.

3125. An association may establish reserves and invest the funds of the reserves in bonds or in any other property as may be provided

in the bylaws.

3126. An association may buy, hold, and exercise all privileges of ownership of real or personal property as may be necessary or convenient for the conduct and operation of, or incidental to, any business of the association.

3127. An association may levy assessments in the manner and in the amount as may be provided in its bylaws.

3128. An association may do all of the following:

(a) Do each and every thing which is necessary, suitable, or proper for the accomplishment of any of the purposes, or the attainment of any of the objects, specified in this chapter, or conducive to or expedient for the interest or benefit of the association, and contract accordingly.

(b) Exercise and possess all powers, rights, and privileges which are necessary or incidental to the purposes for which the association is organized or to the activities in which it is engaged.

(c) Have any other rights, powers, and privileges which are granted by the laws of this state to other corporations, except those which are inconsistent with this chapter.

3129. An association may use or employ any of its facilities for any purpose if the proceeds which arise from that use or employment go to reduce the cost of operation for its members. Any products which are handled for, or the services, machinery, equipment, or supplies or facilities which are furnished to, nonmembers shall not, however, exceed in value the products which are handled for, or the services, merchandise, or facilities which are supplied to, members during the same period.

3130. An association may organize, form, operate, own, control, and have an interest in, own stock of, or be a member of any other corporation, with or without capital stock, which is engaged in producing, transporting, or selling of gas.

3131. An association may, upon resolution adopted by its board of directors, enter into all necessary and proper contracts and agreements and make all necessary and proper stipulations, agreements, contracts, and arrangements with any other cooperative or other corporation or association, which is formed in this or in any other state, for the cooperative and more economical carrying on of its business or any part of its business.

Any two or more associations may, by agreement between them, unite in employing and using, or may separately employ and use, the same personnel, methods, means, and agencies for carrying on and conducting their respective business.

Article 8. Financial Provisions

3151. (a) Any share or membership issued by an association is exempt from Part 1 (commencing with Section 25100) of Division 1 of Title 4 of the Corporations Code if the aggregate investment of a shareholder or member in shares or memberships sold by an

association does not exceed one thousand dollars ($1,000).

(b) This exemption does not apply to the shares or memberships in an association if any promoter of those shares or memberships expects or intends to make a profit directly or indirectly from any business or activity associated with the association or from the operation of the association or to receive a salary or other remuneration from the association. Furthermore, this exemption does not apply to nonvoting shares or memberships in an association issued to any person who does not possess, and who will not acquire in connection with the issuance of nonvoting memberships, voting power in the association.

3152. If an association issues nonpar value stock, the issuance of that stock shall be governed by the terms of all general laws which cover the issuance of nonpar value stock in domestic corporations.

3153. If an association with preferred shares of stock purchases the stock or any property, or any interest in any property, of any person, it may discharge the obligations which are so incurred, in whole or in part, by exchanging for the acquired interest, shares of its preferred stock to an amount which at par value would equal the fair market value of the stock or interest so purchased, as determined by the board of directors. In that case, the transfer to the association of the stock or interest which is purchased is equivalent to payment in cash for the shares of stock which are issued.

3154. The board of directors of an association shall cause to be sent to the members of the association, not later than 120 days after the close of the fiscal or calendar year, an annual report of the operations of the association, unless that report is expressly dispensed with in the bylaws.

If required by the bylaws, interim reports of the operations of the association for the three month, six month, or nine month periods of the current fiscal year of the association shall be furnished to the members of the association.

The annual report and any interim reports shall include a balance sheet as of the closing date. The financial statement shall be prepared from, and be in accordance with, the books. It shall be prepared in a form consistent with generally accepted accounting principles or in consultation with a certified public accountant or a public accountant.

Article 9. Members

3171. Under the terms and conditions which are prescribed in the bylaws adopted by it, an association may admit as members or issue common stock to only those persons engaged in the production of gas which is to be handled by or through the association, or that use or employ any service or facility offered by the association on, or in connection with, land which is used for the production of gas, including the lessees and tenants of land which is used for the production of gas and any lessors and landlords that receive as rent

all or part of the gas which is produced on the leased premises.

3172. If a member of a nonstock association is other than a natural person, that member may be represented by any individual, associate, officer, manager, or member of it who is authorized in writing to do so.

3173. Any association may become a member or stockholder of any other association.

3174. If a member of an association which is established without shares of stock has paid the prescribed membership fee in full, the member shall receive a certificate of membership.

3175. An association shall not issue a certificate for stock to a member until it has been fully paid for. The promissory notes of the members may be accepted by the association as full or partial payment. The association shall hold the stock as security for the payment of the note, but that retention as security does not affect the member's right to vote.

3176. An association, in its bylaws, may limit the amount of common stock which any member may own.

3177. The bylaws shall prohibit the transfer of the common stock or membership certificates of the associations to any person that is not qualified to be a shareholder or member, as specified in this chapter. These restrictions shall be printed upon every certificate of stock or membership which is subject to them.

3178. The association may, at any time, as specified in the bylaws, except when the debts of the association exceed 50 percent of its assets, buy in or purchase its common stock at the book value of the common stock, as conclusively determined by the board of directors, and pay for it in cash within one year thereafter.

3179. A member is not liable for the debts of the association in an amount which exceeds the sum which remains unpaid on the member's or stockholder's membership fee or subscription to the capital stock, including any unpaid balance on any promissory note which is given in payment of the membership fee or the subscription to the capital stock.

3180. No public utility, corporation holding a controlling interest in a public utility, or subsidiary or affiliate of a public utility may be a member of an association organized pursuant to this chapter.

3181. No producer of gas owning or controlling petroleum refining capacity of 100,000 or more barrels per day in California, or a producer of gas owned or controlled by a producer of gas owning or controlling petroleum refining capacity of 100,000 or more barrels per day in California, may be a member of an association organized pursuant to this chapter.

Article 10. Marketing Contracts

3201. The association and its members may make and execute marketing contracts which require the members to sell, for any period of time not to exceed the productive life of the gas facilities

or supplies, all or any specified part of any gas produced by the members exclusively to or through the association or any facilities of the association. If the members contract a sale to the association, title to the gas passes absolutely and unreservedly, except for recorded liens, to the association upon delivery or at any other specified time which is expressly and definitely agreed in the contract.

3202. The contract may provide that the association may sell or resell any gas which is delivered by its members, with or without taking title to the gas, and pay over to its members the resale price, after deducting all of the following:

(a) Necessary selling, overhead, and other costs and expenses, including interest on preferred stock, not exceeding 8 percent per annum, and reserves for retiring the stock, if any.

(b) Other proper reserves.

(c) Interest not exceeding 8 percent per annum upon common stock.

3203. Notwithstanding any provision of the Civil Code, a contract which is entered into by a member of an association which provides for the delivery to the association of any gas produced by the member may be specifically enforced by the association to secure the delivery to it of that gas.

3204. The bylaws or the marketing contract may fix, as liquidated damages, specific sums to be paid by the member to the association for the breach of any provision of the marketing contract regarding the sale or delivery or withholding of gas and may provide that the member will pay all costs, premiums for bonds, expenses, and fees, if any action is brought upon the contract by the association. These provisions are valid and enforceable in the courts of this state. Provisions for liquidated damages are enforceable as such and shall not be regarded as penalties.

3205. If there is a breach or threatened breach of a marketing contract by a member, the association may file an action for an injunction to prevent the further breach of the contract and for a decree of specific performance of the contract. Pending the adjudication of that action and upon filing a verified complaint which shows the breach or threatened breach, and upon filing a sufficient bond, the association shall be issued a temporary restraining order and preliminary injunction against the member.

3206. In any action upon a marketing agreement, it is conclusively presumed that a landowner, landlord, or lessor is able to control the delivery of any gas which is produced on his or her land by the tenants or others, whose tenancy or possession on the land, or the terms of whose tenancy or possession on the land were created or changed after execution by the landowner, landlord, or lessor of the marketing agreement. In that action, the remedies for nondelivery or breach which are provided by this article are enforceable against the landowner, landlord, or lessor.

Article 11. Reorganization of Corporations Organized Pursuant to Other Laws

3221. Any corporation which is organized or existing pursuant to any other law may be brought under this chapter by amending its articles of incorporation, in the manner which is prescribed by the general corporation laws, to conform to this chapter. If any corporation amends its articles of incorporation to conform to this chapter, it is deemed to be organized and existing pursuant to, entitled to the benefit of, and subject to, this chapter for all purposes and as fully as though it had been originally organized pursuant to this chapter.

3222. Articles of incorporation are deemed to conform to this chapter within the meaning of Section 3291 in both of the following cases:

(a) It is provided or declared in the articles of incorporation, in substance, regardless of form, that the corporation is organized and exists as a nonprofit cooperative corporation for the purposes which are provided for in, or permitted by, this chapter, or one or more of those purposes.

(b) It clearly appears from the articles of incorporation that the corporation desires to be subject to, and to be organized, exist, and function pursuant to, this chapter.

(c) Each amount determined pursuant to subdivision (b) shall be divided by the total of all such amounts computed. The quotient determined shall be used to apportion actual property tax collections and shall be known as the "property tax apportionment factors."

(d) For 1980–81 and each year thereafter, the property tax apportionment factors for the current year shall be used to apportion the total amount paid to a county annually for reimbursement of tax loss from business inventory exemptions pursuant to Chapter 1150 of the Statutes of 1979.

(e) For 1980–81 and each year thereafter, prior years' property tax revenues shall be apportioned using the factors determined pursuant to subdivision (c) for the immediately preceding fiscal year.

(f) For 1979–80, prior years' property tax revenues shall be apportioned using the tax allocation factors computed pursuant to Section 26912 of the Government Code.

(g) Notwithstanding the provisions of this section property tax revenues may be apportioned by tax rate area.

(h) Supplemental property tax revenues for 1985–86 and each year thereafter, generated by Sections 75 to 75.80, inclusive, shall be apportioned using the property tax apportionment factors for the current year.

(b) For the 1988–89 fiscal year and each fiscal year thereafter, the auditor shall increase the total amount of property tax revenue apportioned to the City of Suisun pursuant to Section 97.5 by the same percentage by which the total amount of property tax revenue to be apportioned to the city pursuant to Section 97.5 in the 1987–88 fiscal year was increased by the application of subdivision (a).

(c) For the 1988–89 fiscal year and each fiscal year thereafter, the auditor shall reduce the total amount of property tax revenue apportioned to each jurisdiction and fund specified in paragraphs (2) and (3) of subdivision (a) as follows:

(2) The auditor shall reduce the total amount of the property tax revenue apportioned to each jurisdiction and fund for the applicable fiscal year by the amount determined by multiplying the percentage computed for the jurisdiction or fund in paragraph (1) by the total amount of the increase computed in subdivision (b).

SEC. 3. Section 4703 of the Revenue and Taxation Code is amended to read:

[Approved by Governor September 16, 1987 Filed with Secretary of State September 17, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 3755 of the Financial Code is amended to read:

3755. Section 3754 shall not be interpreted to prohibit, to the extent otherwise authorized by the laws of this state and of the United States, the acquisition of, merger or consolidation with, or the acquisition of the assets of, a California bank or a California bank holding company by a bank or a bank holding company that has, or is controlled by a company that has, its head office located, or its

(a) It controls no bank or branch within the United States.

(b) It controls within the United States only banks or branches within California.

(c) It has established its home state, in accordance with Section 5(c) of the International Banking Act of 1978 (12 U.S.C. Sec. 3103 (c)), in California or a state that has substantial reciprocity with California, as determined by the superintendent pursuant to Section 3756.

(d) It acquires the California bank by merger, consolidation, or acquisition of assets, through its California bank subsidiary, and that subsidiary was established and operated as authorized in Section 5(b) of the International Banking Act of 1978 (12 U.S.C. Sec. 3103 (b)).

Since the enactment of Chapter 1250, questions have arisen about the effect of Section 3775 of the Financial Code on activities of foreign (other nation) banks and bank holding companies which were permitted to them under prior law. In order to clarify, as soon as possible, that Chapter 21.6 (commencing with Section 3770) of Division 1 of the Financial Code was not intended to prohibit activities permitted under prior law to foreign (other nation) banks and bank holding companies, it is necessary that this act go into immediate effect.

A person "cannot be kept in remission without treatment" if during the year prior to the question being before the Board of Prison Terms or a trial court, he or she has been in remission and he or she has been physically violent, except in self-defense, or he or she has made a serious threat of substantial physical harm upon the person of another so as to cause the target of the threat to reasonably fear for his or her safety or the safety of his or her immediate family, or he or she has intentionally caused property damage, or he or she has not voluntarily followed the treatment plan. In determining if a person has voluntarily followed the treatment plan, the standard shall be whether the person has acted as a reasonable person would in following the treatment plan.

(b) The severe mental disorder was one of the causes of or was an aggravating factor in the commission of a crime for which the prisoner was sentenced to prison.

(c) The prisoner has been in treatment for the severe mental disorder for 90 days or more within the year prior to the prisoner's parole or release.

(d) Prior to release on parole the person in charge of treating the prisoner and a practicing psychiatrist or psychologist from the State Department of Mental Health have evaluated the prisoner at a facility of the Department of Corrections, and a chief psychiatrist of the Department of Corrections has certified to the Board of Prison

Terms that the prisoner has a severe mental disorder, that the disorder is not in remission, or cannot be kept in remission without treatment, that the severe mental disorder was one of the causes or was an aggravating factor in the prisoner's criminal behavior, that the prisoner has been in treatment for the severe mental disorder for 90 days or more within the year prior to his or her parole release day, and that the prisoner used force or violence or caused serious bodily injury in committing the crime referred to in subdivision (b). For prisoners being treated by the State Department of Mental Health pursuant to Section 2684, the certification shall be by a chief psychiatrist of the Department of Corrections, and the evaluation shall be done at a state hospital by the person at the state hospital in charge of treating the prisoner and a practicing psychiatrist or psychologist from the Department of Corrections.

If the professionals doing the evaluation do not concur that (1) the prisoner has a severe mental disorder, or (2) that the disorder is not in remission or cannot be kept in remission without treatment, or (3) that the severe mental disorder was a cause of, or aggravated the prisoner's criminal behavior, and a chief psychiatrist has certified the prisoner to the Board of Prison Terms pursuant to this paragraph, then the Board of Prison Terms shall order a further examination by two independent professionals, as provided for in Section 2978. Only if both independent professionals concur with the chief psychiatrist's certification, shall the provisions of this subdivision be applicable to the prisoner. The professionals appointed pursuant to Section 2978 shall inform the prisoner that the purpose of their examination is not treatment but to determine if the prisoner meets the criteria to be involuntarily treated as a mentally disordered offender. It is not required that the prisoner appreciate or understand such information.

(e) The crime referred to in subdivision (b) was a crime in which the prisoner used force or violence, or caused serious bodily injury as defined in paragraph (5) of subdivision (e) of Section 243.

SEC. 8. Section 2966 of the Penal Code is amended to read:

2966. (a) A prisoner may request a hearing before the Board of Prison Terms, and the board shall conduct a hearing if so requested, for the purpose of proving that the prisoner meets the criteria in Section 2962. At the hearing the burden of proof shall be on the person or agency who certified the prisoner under subdivision (d) of Section 2962. If the prisoner or any person appearing on his or her behalf at the hearing requests it, the board shall appoint two independent professionals as provided for in Section 2978. The prisoner shall be informed at the hearing of his or her right to request a trial pursuant to subdivision (b). The Board of Prison Terms shall provide a prisoner who requests a trial, a petition form and instructions for filing the petition.

(b) A prisoner who disagrees with the determination of the Board of Prison Terms that he or she meets the criteria of Section 2962, may file in the superior court of the county in which he or she is

incarcerated or is being treated a petition for a hearing on whether he or she, as of the date of the Board of Prison Terms hearing, met the criteria of Section 2962. The court shall conduct a hearing on the petition within 60 calendar days after the petition is filed, unless either time is waived by the petitioner or his or her counsel, or good cause is shown. The order of the Board of Prison Terms shall be in effect until the completion of the court proceedings. The court shall advise the petitioner of his or her right to be represented by an attorney and of the right to a jury trial. The attorney for the petitioner shall be given a copy of the petition, and any supporting documents. The hearing shall be a civil hearing; however, in order to reduce costs, the rules of criminal discovery, as well as civil discovery, shall be applicable. The standard of proof shall be beyond a reasonable doubt, and if the trial is by jury, the jury shall be unanimous in its verdict. The trial shall be by jury unless waived by both the person and the district attorney.

(c) If the Board of Prison Terms continues a parolee's mental health treatment under Section 2962 when they continue the parolee's parole under Section 3001, this section shall be applicable for the purpose of determining whether the parolee meets the criteria of Section 2962.

SEC. 9. Section 2972 of the Penal Code is amended to read:

2972. (a) The court shall conduct a hearing on the petition under Section 2970 for continued treatment. The court shall advise the person of his or her right to be represented by an attorney and of the right to a jury trial. The attorney for the person shall be given a copy of the petition, and any supporting documents. The hearing shall be a civil hearing, however, in order to reduce costs the rules of criminal discovery, as well as civil discovery, shall be applicable. The need for continued treatment shall be proven beyond a reasonable doubt, and if the trial is by jury, the jury shall be unanimous in its verdict. The trial shall be by jury unless waived by both the person and the district attorney. The trial shall commence no later than 30 calendar days prior to the time the person would otherwise have been released, unless the time is waived by the person or unless good cause is shown.

(b) The people shall be represented by the district attorney. If the person is indigent, the county public defender shall be appointed.

(c) If the court or jury finds that the patient's severe mental disorder is not in remission or cannot be kept in remission without treatment, the court shall order the patient recommitted to the facility in which the patient was confined at the time the petition was filed, or recommitted to the outpatient program in which he or she was being treated at the time the petition was filed, or committed to the State Department of Mental Health if the person was in prison. The commitment shall be for a period of one year from the date of termination of parole or a previous commitment or the scheduled date of release from prison as specified in Section 2970.

(d) A person shall be released on outpatient status if the committing court finds that there is reasonable cause to believe that

the committed person can be safely and effectively treated on an outpatient basis. Except as provided in this subdivision, the provisions of Title 15 (commencing with Section 1600) of Part 2, shall apply to persons placed on outpatient status pursuant to this paragraph. The standard for revocation under Section 1609 shall be that the person cannot be safely and effectively treated on an outpatient basis.

(e) Prior to the termination of a commitment under this section, a petition for recommitment may be filed to determine whether the patient's severe mental disorder is not in remission or cannot be kept in remission without treatment. The recommitment proceeding shall be conducted in accordance with the provisions of this section.

(f) Any commitment under this article places an affirmative obligation on the treatment facility to provide treatment for the underlying causes of the person's mental disorder.

(g) Except as provided in this subdivision, the person committed shall be considered to be an involuntary mental health patient and he or she shall be entitled to those rights set forth in Article 7 (commencing with Section 5325) of Chapter 2 of Part 1 of Division 5 of the Welfare and Institutions Code. Commencing January 1, 1986, the State Department of Mental Health may adopt regulations to modify those rights as is necessary in order to provide for the reasonable security of the inpatient facility in which the patient is being held. This subdivision and the regulations adopted pursuant thereto shall become operative on January 1, 1987, except that regulations may be adopted prior to that date.

SEC. 10. Section 2978 of the Penal Code is amended to read:

2978. (a) Any independent professionals appointed by the Board of Prison Terms for purposes of this article shall not be state government employees; shall have at least five years of experience in the diagnosis and treatment of mental disorders; and shall include psychiatrists, and licensed psychologists who have a doctoral degree in psychology.

(b) On July 1 of each year the Department of Corrections and the State Department of Mental Health shall submit to the Board of Prison Terms a list of 20 or more independent professionals on which both departments concur. The professionals shall not be state government employees and shall have at least five years of experience in the diagnosis and treatment of mental disorders and shall include psychiatrists and licensed psychologists who have a doctoral degree in psychology. For purposes of this article, when the Board of Prison Terms receives the list, they shall only appoint independent professionals from the list. The list shall not be binding on the Board of Prison Terms until they have received it, and shall not be binding after June 30 following receipt of the list.

SEC. 11. Section 2981 is added to the Penal Code, to read:

2981. For the purpose of proving the fact that a prisoner has received 90 days or more of treatment within the year prior to the prisoner's parole or release, the records or copies of records of any

state penitentiary, county jail, federal penitentiary, or state hospital in which that person has been confined, when the records or copies thereof have been certified by the official custodian of those records, may be admitted as evidence.

[Approved by Governor September 16, 1987 Filed with Secretary of State September 17, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that unrestricted vehicular traffic on urban streets of extremely steep grades and access streets on approaches to those steep streets creates hazards which are detrimental to the health, safety, and welfare of residents, pedestrians, and persons driving in the area.

SEC. 2. Section 21101.6 of the Vehicle Code is amended to read:

21101.6. Notwithstanding Section 21101, local authorities may not place gates or other selective devices on any street which deny or restrict the access of certain members of the public to the street, while permitting others unrestricted access to the street.

However, a city and county may, after a public hearing, limit vehicular access to any street, or portion thereof, to residents of abutting properties, persons having business on that street or portion thereof, and emergency vehicles if the physical configuration of the street, or portion thereof, is found to be unsafe for the unrestricted flow of traffic and the affected portion of the street has a grade averaging not less than 20 percent over a distance of not less than two blocks.

This section shall remain in effect only until January 1, 1990, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1990, deletes or extends that date.

This section shall become operative on January 1, 1990.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

[Approved by Governor September 16, 1987 Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 7850 of the Fish and Game Code is amended to read:

7850. (a) Excepting persons expressly exempted under this code, no person shall use or operate, or assist in using or operating, any boat, net, trap, line, or other appliance to take fish or amphibia for commercial purposes, and no person shall be on board a vessel on which fish or amphibia are taken for commercial purposes while those fish are being taken or transported or bring ashore, or to cause to be brought ashore, any fish or amphibia at any point in the state

for the purpose of selling them in a fresh state, unless the person holds a commercial fishing license issued by the department.

(b) As used in this section, "person" does not include persons who are less than 14 years of age a partnership, corporation, or association. Any person, partnership, corporation, or association may pay the fees for a license issued to any person.

(c) This article does not apply to the taking, transporting, or selling of live fresh-water fish for bait by the holder of a live fresh-water bait fish license issued pursuant to Section 8460.

SEC. 2. Section 7852 of the Fish and Game Code is amended to read:

7852. (a) A commercial fishing license is valid from April 1st to March 31st of the year following, or, if issued after the beginning of that term, for the remainder thereof.

(b) Except as provided in subdivision (a) of Section 7852.3, the department shall issue a commercial fishing license for a fee of fifty dollars ($50).

(c) The commercial fishing license shall be in the licensee's possession, or immediately available to the licensee, at all times when engaged in any activity described in Section 7850 or Article 7 (commencing with Section 8030) of Chapter 1 of Part 3 of Division 6 for which a commercial fishing license is required.

SEC. 3. Section 7852.3 of the Fish and Game Code is amended to read:

7852.3. (a) The department shall issue a commercial fishing license to a person who is 14 years of age or more but less than 18 years of age who is actively assisting in fishing activities for a fee of one-half of the fee prescribed in subdivision (b) of Section 7852.

(b) The department shall issue a commercial fishing salmon stamp to a person who is 14 years of age or more but less than 18 years of age for one-half of the fee prescribed in subdivision (c) of Section 7860.

(c) Nothing in this section affects other provisions of law relating to employment of minors.

SEC. 4. Section 7860 of the Fish and Game Code is amended to read:

7860. (a) Except as provided in subdivision (f), no person who is 14 years of age or more and less than 70 years of age, on or before April 1 of the current license year, shall take salmon for commercial purposes or be on board a vessel on which salmon are taken for commercial purposes while salmon are being taken or transported unless that person has a commercial fishing salmon stamp issued pursuant to this section affixed to his or her commercial fishing license.

(b) Except as provided in subdivision (f), the operator of a vessel on which salmon are taken for commercial purposes shall not permit a person on board that vessel while salmon are being taken or transported unless that person was less than 14 years of age or 70 years of age on April 1 of the current license year or that person has

a commercial fishing salmon stamp affixed to the person's commercial fishing license.

(c) Except as provided in subdivision (b) of Section 7852.3 and this subdivision, the department shall issue a commercial fishing salmon stamp upon application therefor and payment of the fee of eighty-five dollars ($85). For any commercial salmon season preceded by a commercial salmon season in which the commercial troll salmon landings in this state equal or exceed 3,000,000 pounds dressed weight, as determined by the department, the fee shall be increased by twelve dollars and fifty cents ($12.50) for every 250,000 pounds over 3,000,000 pounds of dressed weight landings, except that the total fees as adjusted shall not exceed two hundred sixty dollars ($260).

(d) A commercial fishing salmon stamp is valid during the commercial salmon season of the year in which it was issued.

(e) Notwithstanding Section 1053, upon application and payment of an additional fee equal to that prescribed in subdivision (c), the department may issue an additional commercial fishing salmon stamp for a crewmember to the owner or operator of a vessel who holds a commercial fishing salmon stamp.

(f) Notwithstanding subdivision (a), one crewmember of a vessel for which a commercial fishing salmon stamp is issued pursuant to subdivision (e) may be aboard that vessel and take salmon for commercial purposes as a crewmember on that vessel without obtaining a commercial fishing salmon stamp under the following conditions:

(1) The crewmember is designated by name and commercial fishing license number on a form furnished by the department before salmon are taken on the vessel when that crewmember is aboard.

(2) The crewmember has a valid commercial fishing license issued under Section 7850.

(3) The commercial fishing salmon stamp for the crewmember is affixed to the form prescribed in paragraph (1) on which the vessel registration number of the vessel is entered and on which the crewmember who is exempted by this subdivision is designated by the last entered name and commercial fishing license number.

SEC. 5. Section 7861 of the Fish and Game Code is amended to read:

7861. (a) After deducting the administrative costs for issuing the commercial fishing salmon stamps, the department shall deposit the fees received pursuant to subdivision (b) of Section 7852.3 and Section 7860 in the Commercial Salmon Stamp Account in the Fish and Game Preservation Fund. Notwithstanding Section 13340 of the Government Code, the money in the account is continuously appropriated to the department for new or expanded salmon restoration and enhancement programs in the state that will serve to increase ocean salmon landings. No money in this account shall be used in lieu of other funds appropriated for salmon restoration and

enhancement programs authorized by law on or before January 1, 1988.

(b) Thirty dollars ($30) of the fees collected for each commercial fishing salmon stamp issued shall be allocated by the department to be used for raising chinook salmon to a yearling size, at which size they shall be released into state waters. The amount of salmon stamp revenues expended for this purpose in any fiscal year shall not exceed the amount expended by the department for the same purpose during the same period from other funds. The calculation of the amount expended by the department for this purpose shall not include expenditures made by the department for which reimbursements are received from state or federal agencies, public utilities, or private entities for raising chinook salmon to yearling size as part of a fish mitigation program instituted to compensate for the adverse effect of a dam on natural salmon production. If the department expends no funds other than moneys collected from the sale of commercial fishing salmon stamps or moneys for which reimbursements are received as part of an anadromous fish mitigation program for the raising of chinook salmon to yearling size within the period of a fiscal year, the fees prescribed in Section 7860 shall be reduced by an amount equivalent to that portion of the commercial fishing salmon stamp program, as specified in this subdivision.

If the salmon stamps issued pursuant to Section 7860 raise more money for the purpose of this subdivision than is necessary to match the funds expended by the department during any fiscal year from other funds, then the excess salmon stamp revenue allocated pursuant to this subdivision shall be carried over into the following fiscal year.

SEC. 6. Section 7861.6 of the Fish and Game Code is repealed.

SEC. 7. Section 7862 of the Fish and Game Code is amended to read:

7862. A Commercial Salmon Trollers Advisory Committee shall be established consisting of six members selected by the director. One member shall be chosen from the personnel of the department. Four persons shall be selected, with alternates, from a list submitted by a fishermen's organization deemed to represent the commercial salmon fishermen of California. One member shall be selected, with an alternate, from lists submitted by individual commercial passenger fishing boat operators or by organizations deemed to represent the commercial passenger fishing boat operators of California. The term of appointment to the committee shall be for two years. Necessary and proper expenses, if any, and per diem shall be paid committee members from the special account created pursuant to subdivision (a) of Section 7861. The rate of per diem shall be the same as the rate established pursuant to Section 8902 of the Government Code.

The committee shall recommend programs and a budget from the special account to the department. The department shall review the

programs and the budget and shall include its recommendations regarding these items in the Governor's Budget and submit to the Legislature an annual report on the sale of commercial fishing salmon stamps, the expenditure of funds, and a status report of the programs funded pursuant to Section 7861. The department shall not recommend funding for any program not contained in the committee's recommendations.

SEC. 8. Section 7925 of the Fish and Game Code is amended to read:

7925. (a) If a vessel is licensed under this article and is used to take salmon or has salmon aboard in ocean waters north of Point Arguello, there shall be on board that vessel, a total number of commercial fishing salmon stamps sufficient to have at least one for the operator and one for each crewmember required by United States Coast Guard regulations, excepting an operator or a crewmember who is exempt from the requirement under subdivision (b) of Section 7860. The commercial fishing salmon stamps shall be affixed to either the commercial fishing licenses of the operator and the crewmembers or, pursuant to subdivision (b), to the commercial passenger fishing license. No person shall operate, or cause to be operated, any vessel licensed under this article in violation of this subdivision.

(b) Notwithstanding Section 1053, the department may issue to the owner or operator of a vessel licensed pursuant to this article, upon application and payment of the fees prescribed in subdivision (c) of Section 7860, one commercial fishing salmon stamp for the operator and not more than one additional commercial salmon stamp for each crewmember required by the United States Coast Guard regulations. The commercial fishing salmon stamps issued under this subdivision shall be affixed to the vessel's commercial passenger fishing boat license issued pursuant to this article.

This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1989, deletes or extends that date.

SEC. 9. Section 8233.5 of the Fish and Game Code is amended to read:

8233.5. The department shall not issue or renew a commercial salmon vessel permit unless the owner or operator who applies for the commercial salmon vessel permit has a commercial fishing salmon stamp which was issued prior to, or is issued simultaneously with, the application for issuance or renewal of the commercial salmon vessel permit or unless the owner or operator is 70 years of age on or before April 1 of the current license year.

The first commercial fishing salmon stamp issued to an owner or operator of a commercial salmon vessel shall be affixed to the commercial fishing license of that owner or operator. Any additional commercial fishing salmon stamp issued to that person pursuant to this section for additional commercial salmon fishing vessels owned or operated by that person shall be affixed to the vessel registrations

of those additional vessels for which commercial salmon vessel permits are issued or renewed.

SEC. 10. Section 8664.2 is added to the Fish and Game Code, to read:

8664.2. (a) Notwithstanding Sections 8693 and 8724, gill nets and trammel nets shall not be used offshore of San Nicolas Island in Ventura County in waters 20 fathoms or less in depth at mean lower low water.

(b) No person, except state, local, or federal employees in the performance of their official duties, shall discharge any firearm within the sea otter translocation zone surrounding San Nicolas Island.

(c) For purposes of this section, "sea otter translocation zone" includes San Nicolas Island, the nearby islet of Begg Rock, and surrounding waters within the following coordinates:

(North Latitude/West Longitude)

33°27.8'/119°34.3'	33°20.5'/119°15.5'
33°13.5'/119°11.8'	33°06.5'/119°15.3'
33°02.8'/119°26.8'	33°08.8'/119°46.3'
33°17.2'/119°56.9'	33°30.9'/119°54.2'

(d) The taking of a sea otter that is incidental to, and not for the purpose of, the carrying out of an otherwise lawful activity within the sea otter management zone described in subdivision (e), is not a violation of the California Endangered Species Act, Chapter 1.5 (commencing with Section 2050) of Division 3, or Section 4700.

(e) For purposes of this section, "sea otter management zone" includes all waters, islands, islets, and land areas seaward of mean high tide subject to the jurisdiction of the United States, including state tidelands, located south of Point Conception (34°26.9' N. Latitude), excepting therefrom any area within the sea otter translocation zone described in subdivision (c).

(f) This section shall become operative only upon the relocation and release of sea otters to San Nicolas Island. This section shall become inoperative if the sea otter translocation experiment is declared a failure pursuant to the provisions of Public Law 99-625.

SEC. 11. (a) The Legislature finds and declares as follows:

(1) It was the intent of the Legislature in passing Senate Bill 2517 of the 1985–86 Regular Session (Ch. 862, Stats. 1986) to only require commercial passenger fishing boats taking salmon for sport purposes north of Point Arguello to obtain a commercial fishing salmon stamp for the owner or operator and an additional stamp for each crewmember required by the Coast Guard.

(2) Chapter 862 of the Statutes of 1986, however, required, beginning with the 1987 salmon fishing season, the owner or operator of each commercial passenger fishing boat operating north of Point Arguello to obtain commercial fishing salmon stamps whether or not their boat was actually taking salmon for sport purposes.

(3) The collection of salmon stamp fees from some commercial

passenger fishing boat owners or operators, who are operating north of Point Arguello and who are not landing salmon taken under sportfishing licenses, imposes an extreme economic hardship upon these vessel owners or operators.

(b) Notwithstanding any other provision of law, the department shall refund any commercial salmon stamp fees paid during the 1987 license year by commercial passenger fishing boat owners or operators who are operating north of Point Arguello and who are not landing salmon taken under sportfishing licenses upon receipt of a claim submitted to the department as it directs.

SEC. 12. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 13. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to clarify the intent of the Legislature to exempt persons 70 years of age or older from fees for stamps for commercial fishing in time for this year's season, it is necessary that this act take effect immediately.

CHAPTER 703

An act to amend Sections 251 and 442 of the Revenue and Taxation Code, relating to property taxation.

[Approved by Governor September 17, 1987 Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 251 of the Revenue and Taxation Code is amended to read:

251. (a) The board shall prescribe all procedures and forms required to carry into effect the veterans', veterans' organization, church, cemetery, college, exhibition, religious, welfare, free public libraries, free museums, public schools, homeowners', and transshipment property tax exemption.

(b) (1) The procedures prescribed pursuant to subdivision (a) shall be deemed satisfied by a qualified lessor by submission to the assessor within 120 days of the commencement date of the lease, or 120 days after the effective date of the act adding this subdivision to this section with respect to any existing lease, whichever is later, information which may be requested by the board with respect to

the lease.

(2) For purposes of this subdivision, "a qualified lessor" is a lessor under a contract designated as a lease between that lessor and an entity using property which qualifies for the property tax exemption provided for by subdivision (d) or (e) of Section 3 of Article XIII of the California Constitution under which the lessee has the option at the end of the lease term of acquiring the property described in the lease for one dollar ($1), or any other nominal sum.

(3) No filing or application for exemption shall thereafter be required by a qualified lessor with respect to that lease unless the option terms of the lease change.

SEC. 2. Section 442 of the Revenue and Taxation Code is amended to read:

442. The property statement shall show all taxable property owned, claimed, possessed, controlled, or managed by the person filing it and required to be reported thereon.

Every person owning, claiming, possessing, controlling or managing property shall furnish any required information or records to the assessor for examination at any time.

The requirements of this article shall be satisfied with respect to property belonging to others for which the declarer has contractual property tax obligations if the declarer includes that property in the property statement, submits the statement timely, and includes in the statement all information required in the statement pertaining to property belonging to others.

Property which is now or hereafter the subject of a contract designated as a lease wherein the property being leased qualifies for the property tax exemption provided for by subdivision (d) or (e) of Section 3 of Article XIII of the California Constitution, and the lessee has the option of acquiring the property leased at the end of the lease term for one dollar ($1), or any other nominal consideration, shall be regarded as owned by the lessee and shall not be required to be shown on any property statement of the lessor.

CHAPTER 704

An act to amend Section 868.5 of the Penal Code, and to amend Section 676 of the Welfare and Institutions Code, relating to minors.

[Approved by Governor September 17, 1987 Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 868.5 of the Penal Code is amended to read:

868.5. (a) Notwithstanding any other provision of law, a prosecuting witness 16 years of age or under in a case involving a violation of Section 243.4, 261, 273a, 273d, 285, 286, 288, 288a, 289, or

647a, or a violation of subdivision (1) of Section 314, shall be entitled for support to the attendance of up to two family members of his or her own choosing, one of whom may be a witness, at the preliminary hearing and at the trial, or at a juvenile court proceeding, during the testimony of the prosecuting witness. Only one of those support persons may accompany the witness to the witness stand, although the other may remain in the courtroom during the witness' testimony. The person or persons so chosen shall not be a person described in Section 1070 of the Evidence Code unless the person or persons are related to the prosecuting witness as a parent, guardian, or sibling and do not make notes during the hearing or proceeding.

(b) If the person or persons so chosen are also prosecuting witnesses, the prosecution shall present evidence that the person's attendance is both desired by the prosecuting witness for support and will be helpful to the prosecuting witness. Upon that showing, the court shall grant the request unless information presented by the defendant or noticed by the court establishes that the support person's attendance during the testimony of the prosecuting witness would pose a substantial risk of influencing or affecting the content of that testimony. In the case of a juvenile court proceeding, the judge shall inform the support person or persons that juvenile court proceedings are confidential and may not be discussed with anyone not in attendance at the proceedings. In all cases, the judge shall admonish the support person or persons to not prompt, sway, or influence the minor witness in any way.

(c) The testimony of the person or persons so chosen who are also prosecuting witnesses shall be presented before the testimony of the prosecuting witness. The prosecuting witness shall be excluded from the courtroom during that testimony. Whenever the evidence given by that person or those persons would be subject to exclusion because given before the corpus delicti has been established, the evidence shall be admitted subject to the court's or the defendant's motion to strike that evidence from the record if the corpus delicti is not later established by the testimony of the prosecuting witness.

SEC. 1.5. Section 868.5 of the Penal Code is amended to read:

868.5. (a) Notwithstanding any other provision of law, a prosecuting witness 16 years of age or under in a case involving a violation of Section 243.4, 261, 273a, 273d, 285, 286, 288, 288a, 289, 647.6, or former Section 647a, or a violation of subdivision (1) of Section 314, shall be entitled for support to the attendance of up to two family members of his or her own choosing, one of whom may be a witness, at the preliminary hearing and at the trial, or at a juvenile court proceeding, during the testimony of the prosecuting witness. Only one of those support persons may accompany the witness to the witness stand, although the other may remain in the courtroom during the witness' testimony. The person or persons so chosen shall not be a person described in Section 1070 of the Evidence Code unless the person or persons are related to the prosecuting witness as a parent, guardian, or sibling and do not make

notes during the hearing or proceeding.

(b) If the person or persons so chosen are also prosecuting witnesses, the prosecution shall present evidence that the person's attendance is both desired by the prosecuting witness for support and will be helpful to the prosecuting witness. Upon that showing, the court shall grant the request unless information presented by the defendant or noticed by the court establishes that the support person's attendance during the testimony of the prosecuting witness would pose a substantial risk of influencing or affecting the content of that testimony. In the case of a juvenile court proceeding, the judge shall inform the support person or persons that juvenile court proceedings are confidential and may not be discussed with anyone not in attendance at the proceedings. In all cases, the judge shall admonish the support person or persons to not prompt, sway, or influence the minor witness in any way.

(c) The testimony of the person or persons so chosen who are also prosecuting witnesses shall be presented before the testimony of the prosecuting witness. The prosecuting witness shall be excluded from the courtroom during that testimony. Whenever the evidence given by that person or those persons would be subject to exclusion because given before the corpus delicti has been established, the evidence shall be admitted subject to the court's or the defendant's motion to strike that evidence from the record if the corpus delicti is not later established by the testimony of the prosecuting witness.

SEC. 2. Section 676 of the Welfare and Institutions Code is amended to read:

676. (a) Unless requested by the minor concerning whom the petition has been filed and any parent or guardian present, the public shall not be admitted to a juvenile court hearing. Nothing in this section shall preclude the attendance of up to two family members of a prosecuting witness for the support of that witness, as authorized by Section 868.5 of the Penal Code. The judge or referee may nevertheless admit those persons he or she deems to have a direct and legitimate interest in the particular case or the work of the court. However, except as provided in subdivision (b), members of the public shall be admitted, on the same basis as they may be admitted to trials in a court of criminal jurisdiction, to hearings concerning petitions filed pursuant to Section 602 alleging that a minor is a person described in Section 602 by reason of the violation of any one of the following offenses:

(16) Any offense described in Section 12022.5 of the Penal Code committed by a minor 16 years of age or older.

(17) Any felony offense in which a minor 16 years of age or older personally used a weapon listed in subdivision (a) of Section 12020 of the Penal Code.

(18) Burglary of an inhabited dwelling house or trailer coach, as defined in Section 635 of the Vehicle Code, or the inhabited portion of any other building, if the minor previously has been adjudged a ward of the court by reason of the commission of any offense listed in this section, including an offense listed in this paragraph.

(b) Where the petition filed alleges that the minor is a person described in Section 602 by reason of the commission of rape with force or violence or great bodily harm; sodomy by force, violence, duress, menace, or threat of great bodily harm; oral copulation by force, violence, duress, menace, or threat of great bodily harm; or any offense specified in Section 289 of the Penal Code, members of the public shall not be admitted to the hearing in either of the following instances:

(1) Upon a motion for a closed hearing by the district attorney, who shall make the motion if so requested by the victim.

(2) During the victim's testimony, if, at the time of the offense the victim was under 16 years of age.

(c) The name of a minor found to have committed one of the offenses listed in subdivision (a) shall not be confidential, unless the court, for good cause, so orders.

SEC. 3. Section 1.5 of this bill incorporates amendments to Section 868.5 of the Penal Code proposed by both this bill and AB 1359. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1988, (2) each bill amends Section 868.5 of the Penal Code, and (3) this bill is enacted after AB 1359, in which case Section 1 of this bill shall not become operative.

CHAPTER 705

An act to amend Section 11114 of, and to add Sections 11114.3 and 13519.1 to, the Penal Code, relating to law enforcement, and making an appropriation therefor.

[Approved by Governor September 17, 1987. Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 11114 of the Penal Code is amended to read:

11114. (a) All local police and sheriffs' departments shall accept any report, including any telephonic report, of a missing person, including runaways, without delay and shall give priority to the handling of these reports over the handling of reports relating to crimes involving property. In cases where the person making a report of a missing person or runaway, contacts, including by telephone, the California Highway Patrol, the California Highway Patrol may take the report, and shall immediately advise the person making the report of the name and telephone number of the police or sheriff's department having jurisdiction of the residence address of the missing person or runaway and of the name and telephone number of the police or sheriff's department having jurisdiction of the place where the person was last seen. In cases where the report is taken by a department other than that of the city or county of residence of the missing person or runaway, the department taking the report shall, without delay, notify, and forward a copy of the report when completed to, the police or sheriff's department or departments having jurisdiction of the residence address of the missing person or runaway and of the place where the person was last seen. The report shall be transmitted by the department, or division of the California Highway Patrol, which took the report to the State Department of Justice, in a format and according to procedures established by the State Department of Justice, which shall transmit the report to the National Crime Information Center Missing Person System, or, at the option of the local police or sheriff's department or the California Highway Patrol, the local police or sheriff's department or the California Highway Patrol may transmit the report directly to federal agencies. If the person reported missing is under 12 years of age, the local police or sheriff's department or the California Highway Patrol shall transmit the report to the National Crime Information Center Missing Person System within four hours after accepting the report. The police or sheriff's department or California Highway Patrol division having jurisdiction of the place in which the person reported missing was last seen may initiate the investigation of the location of the missing person, irrespective of the area of jurisdiction of the department taking the report.

(b) When any person makes a report of a missing person to a police department, sheriff's department, district attorney's office, or other law enforcement authority, the person making the report shall give it in person or by mail on a form supplied by the Department of Justice authorizing the release of the dental records of the person reported missing and authorizing the release of a recent photograph of a person reported missing who is under 18 years of age. Included with the form shall be instructions which state that if the person reported missing is still missing 30 days after the report is made, the release form signed by a member of the family or next of kin of the missing person should be taken to the dentist or dentists of the missing person to obtain the release of the dental records and that dental records should be submitted within 10 days by the person to whom released to the police or sheriff's department or other law enforcement authority to which the missing person report was made. When the person reported missing has not been found within 30 days and no family or next of kin exists or can be located, the law enforcement authority may execute a written declaration, stating that an active investigation seeking the location of the missing person is being conducted, and that the dental records are necessary for the exclusive purpose of furthering the investigation. The written declaration, signed by a peace officer, is sufficient authority for the dentist or dentists to release the missing person's dental records.

(c) When a person reported missing has not been found within 45 days, the sheriff, chief of police, or other law enforcement authority initiating and conducting the investigation for the missing person shall confer with the coroner or medical examiner prior to the preparation of a missing person report. After conferring with the coroner or medical examiner, the sheriff, chief of police, or other law enforcement authority initiating and conducting the investigation for the missing person shall submit a missing person report and the dental records and photograph received pursuant to subdivision (b) to the Department of Justice on forms supplied by the department for that purpose.

(d) Notwithstanding subdivisions (b) and (c), the form provided under subdivision (b) shall state that if the person reported missing is under 18 years of age, the form should be taken to the dentist or dentists immediately when the law enforcement authority determines that the disappearance was under suspicious circumstances or when the law enforcement authority determines that the person missing is under 13 years of age and has been missing at least 14 days, and that dental records and a recent photograph of the missing juvenile should be submitted immediately thereafter to the law enforcement authority. Where authorized to execute a written declaration to obtain the release of dental records, the law enforcement authority may do so immediately when a person reported missing who is under 18 years of age is determined by the authority to have disappeared under suspicious circumstances. In each case, the law enforcement authority should confer immediately

with the coroner or medical examiners and should submit its report including the dental records within 24 hours thereafter to the Department of Justice.

(e) When a person reported missing has been found, the sheriff, chief of police, coroner or medical examiner, or other law enforcement authority shall report that information to the Department of Justice. After receiving that report, the department shall erase all records with respect to that person which are maintained pursuant to subdivision (f).

(f) The Department of Justice shall maintain a file of information concerning persons reported to it as missing and who have not been reported as found. The file shall contain the information referred to in subdivision (c) and any other information that the Department of Justice finds to be relevant to assisting in the location of a missing person.

The Department of Justice files shall be made available to law enforcement agencies attempting to locate missing persons. The department shall develop a system of cataloging missing person reports according to a variety of characteristics to facilitate locating particular categories of reports as needed.

The Department of Justice shall compile a missing children registry consisting of reports of missing juveniles as specified in subdivisions (a), (b), (c), and (d), and shall distribute a missing children bulletin on a quarterly basis to local law enforcement agencies and public schools throughout this state. The Department of Justice shall also make this information accessible to other parties involved in efforts to locate missing children as prescribed and to other parties as the department deems appropriate.

CHAPTER 706

An act to amend Sections 669, 1170.1, and 1238 of, and to add Section 12022.75 to, the Penal Code, relating to sentences.

[Approved by Governor September 17, 1987 Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 669 of the Penal Code is amended to read:

669. When any person is convicted of two or more crimes, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same judge or by different judges, the second or other subsequent judgment upon which sentence is ordered to be executed shall direct whether the terms of imprisonment or any of them to which he is sentenced shall run concurrently or consecutively; life sentences, whether with or without the possibility of parole, may be imposed to run consecutively with one another or with any other term of imprisonment for a felony conviction. Whenever a person is committed to prison on a life sentence which is ordered to run consecutive to any determinate term of imprisonment imposed pursuant to Sections 1170, 1170.1, 667.5, 12022, 12022.4, 12022.5,

12022.6, 12022.7, and 12022.75, the determinate term of imprisonment shall be served first and no part thereof shall be credited toward the person's eligibility for parole as calculated pursuant to Section 3046.

In the event that the court at the time of pronouncing the second or other judgment upon such person had no knowledge of a prior existing judgment or judgments, or having knowledge, fails to determine how the terms of imprisonment shall run in relation to each other, then, upon such failure so to determine, or upon such prior judgment or judgments being brought to the attention of the court at any time prior to the expiration of 60 days from and after the actual commencement of imprisonment upon the second or other subsequent judgments, the court shall, in the absence of the defendant and within 60 days of such notice, determine how the term of imprisonment upon said second or other subsequent judgment shall run with reference to the prior incompleted term or terms of imprisonment. Upon the failure of the court so to determine how the terms of imprisonment on the second or subsequent judgment shall run, the term of imprisonment on the second or subsequent judgment shall run concurrently.

The Department of Corrections shall advise the court pronouncing the second or other subsequent judgment of the existence of all prior judgments against the defendant, the terms of imprisonment upon which have not been completely served.

SEC. 2. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667.5, 667.6, or 12022.1. The principal term shall consist of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to Section 12022, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, 12022.8, or 12022.9. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined in subdivision (c) of Section 667.5 exceed five years. The subordinate term for each consecutive offense which is a "violent felony" as defined in subdivision (c) of Section 667.5, including those offenses described in paragraph (8) of subdivision (c) of Section 667.5, shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term

of imprisonment is imposed, and shall include one-third of any enhancements imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.7, 12022.75, or 12022.9.

(b) When a consecutive term of imprisonment is imposed under Sections 669 and 1170 for two or more convictions for kidnapping, as defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.7, 12022.75, or 12022.9. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while the person is confined in a state prison, or is subject to reimprisonment for escape from such custody and the law either requires the terms to be served consecutively or the court imposes consecutive terms, the term of imprisonment for all the convictions which the person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

(d) When the court imposes a prison sentence for a felony pursuant to Section 1170 the court shall also impose the additional terms provided in Sections 667.5, 12022, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, and 12022.9, unless the additional punishment therefore is stricken pursuant to subdivision (h). The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the Judicial Council.

(e) When two or more enhancements under Sections 12022, 12022.4, 12022.5, 12022.7, and 12022.9 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of penetration of a genital or anal opening by a foreign object, as defined in Section 289, oral copulation, sodomy, robbery, rape or burglary, or attempted penetration of a genital or anal opening by a foreign object, oral copulation, sodomy, robbery, rape, murder, or burglary the court may impose both (1) one enhancement for

weapons as provided in either Section 12022, 12022.4, or 12022.5 and (2) one enhancement for great bodily injury as provided in either Section 12022.7 or 12022.9.

(f) The enhancements provided in Sections 667.5, 667.6, 12022, 12022.1, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, 12022.8, and 12022.9 shall be pleaded and proven as provided by law.

(g) The term of imprisonment shall not exceed twice the number of years imposed by the trial court as the base term pursuant to subdivision (b) of Section 1170 unless the defendant stands convicted of a "violent felony" as defined in subdivision (c) of Section 667.5, or a consecutive sentence is being imposed pursuant to subdivision (c) of this section, or an enhancement is imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, or 12022.9 or the defendant stands convicted of felony escape from an institution in which he or she is lawfully confined.

(h) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in Sections 667.5, 12022, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, and 12022.9 if it determines that there are circumstances in mitigation of the additional punishment and states on the record its reasons for striking the additional punishment.

(i) For any violation of subdivision (2) or (3) of Section 261, Section 264.1, subdivision (b) of Section 288, subdivision (a) of Section 289, or sodomy or oral copulation by force, violence, duress, menace or fear of immediate and unlawful bodily injury on the victim or another person as provided in Section 286 or 288a, the number of enhancements which may be imposed shall not be limited, regardless of whether such enhancements are pursuant to this or some other section of law. Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

SEC. 3. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667.5, 667.6, or 12022.1. The principal term shall consist of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to Section 12022, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.8, or 12022.9. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In

no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined in subdivision (c) of Section 667.5 exceed five years. The subordinate term for each consecutive offense which is a "violent felony" as defined in subdivision (c) of Section 667.5, including those offenses described in paragraph (8) or (9) of subdivision (c) of Section 667.5, shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall include one-third of any enhancements imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.7, 12022.75, or 12022.9.

(b) When a consecutive term of imprisonment is imposed under Sections 669 and 1170 for two or more convictions for kidnapping, as defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.7, 12022.75, or 12022.9. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while the person is confined in a state prison, or is subject to reimprisonment for escape from such custody and the law either requires the terms to be served consecutively or the court imposes consecutive terms, the term of imprisonment for all the convictions which the person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

(d) When the court imposes a prison sentence for a felony pursuant to Section 1170 the court shall also impose the additional terms provided in Sections 667.5, 12022, 12022.4, 12022.5, 12022.6, 12022.7, and 12022.9, unless the additional punishment therefore is stricken pursuant to subdivision (h). The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the Judicial Council.

(e) When two or more enhancements under Sections 12022,

12022.4, 12022.5, 12022.7, and 12022.9 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of penetration of a genital or anal opening by a foreign object, as defined in Section 289, oral copulation, sodomy, robbery, rape or burglary, or attempted penetration of a genital or anal opening by a foreign object, oral copulation, sodomy, robbery, rape, murder, or burglary the court may impose both (1) one enhancement for weapons as provided in either Section 12022, 12022.4, or 12022.5 and (2) one enhancement for great bodily injury as provided in either Section 12022.7 or 12022.9.

(f) The enhancements provided in Sections 667.5, 667.6, 12022, 12022.1, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, 12022.8, and 12022.9 shall be pleaded and proven as provided by law.

(g) The term of imprisonment shall not exceed twice the number of years imposed by the trial court as the base term pursuant to subdivision (b) of Section 1170 unless the defendant stands convicted of a "violent felony" as defined in subdivision (c) of Section 667.5, or a consecutive sentence is being imposed pursuant to subdivision (c) of this section, or an enhancement is imposed pursuant to Section 12022, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, or 12022.9 or the defendant stands convicted of felony escape from an institution in which he or she is lawfully confined.

(h) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in Sections 667.5, 12022, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, and 12022.9 if it determines that there are circumstances in mitigation of the additional punishment and states on the record its reasons for striking the additional punishment.

(i) For any violation of subdivision (2) or (3) of Section 261, Section 264.1, subdivision (b) of Section 288, subdivision (a) of Section 289, or sodomy or oral copulation by force, violence, duress, menace or fear of immediate and unlawful bodily injury on the victim or another person as provided in Section 286 or 288a, the number of enhancements which may be imposed shall not be limited, regardless of whether such enhancements are pursuant to this or some other section of law. Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

SEC. 4. Section 1238 of the Penal Code is amended to read:

1238. (a) An appeal may be taken by the people from any of the following:

(1) An order setting aside the indictment, information, or complaint.

(2) A judgment for the defendant on a demurrer to the indictment, accusation, or information.

(3) An order granting a new trial.

(4) An order arresting judgment.

(5) An order made after judgment, affecting the substantial rights of the people.

(6) An order modifying the verdict or finding by reducing the degree of the offense or the punishment imposed or modifying the offense to a lesser offense.

(7) An order dismissing a case prior to trial made upon motion of the court pursuant to Section 1385 whenever such order is based upon an order granting defendant's motion to return or suppress property or evidence made at a special hearing as provided in this code.

(8) An order or judgment dismissing or otherwise terminating the action before the defendant has been placed in jeopardy or where the defendant has waived jeopardy.

(9) An order denying the motion of the people to reinstate the complaint or a portion thereof pursuant to Section 871.5.

(10) The imposition of an unlawful sentence, whether or not the court suspends the execution of the sentence, except that portion of a sentence imposing a prison term which is based upon a court's choice that a term of imprisonment (A) be the upper, middle, or lower term, unless the term selected is not set forth in an applicable statute, or (B) be consecutive or concurrent to another term of imprisonment, unless an applicable statute requires that the term be consecutive. As used in this paragraph, "unlawful sentence" means the imposition of a sentence not authorized by law or the imposition of a sentence based upon an unlawful order of the court which strikes or otherwise modifies the effect of an enhancement or prior conviction.

(b) If, pursuant to paragraph (8) of subdivision (a), the people prosecute an appeal to decision, or any review of such decision, it shall be binding upon them and they shall be prohibited from refiling the case which was appealed.

(c) When an appeal is taken pursuant to paragraph (7) of subdivision (a), the court may review the order granting defendant's motion to return or suppress property or evidence made at a special hearing as provided in this code.

(d) Nothing contained in this section shall be construed to authorize an appeal from an order granting probation. Instead, the people may seek appellate review of any grant of probation, whether or not the court imposes sentence, by means of a petition for a writ of mandate or prohibition which is filed within 60 days after probation is granted. The review of any grant of probation shall include review of any order underlying the grant of probation.

(e) This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1989, deletes or extends that date. If that date is not deleted or extended, then, on and after January 1, 1989, pursuant to Section 9611 of the Government Code, Section 1238 of the Penal Code, as amended by Section 5 of Chapter 938 the Statutes of 1980, shall have the same force and effect as if this temporary provision had not been enacted.

SEC. 5. Section 12022.75 is added to the Penal Code, to read:

12022.75. Any person who, for the purpose of committing a felony, administers by injection, inhalation, ingestion, or any other means, any controlled substance listed in Section 11054, 11055, 11056, 11057, or 11058 of the Health and Safety Code, against the victim's will by means of force, violence, or fear of immediate and unlawful bodily injury to the victim or another person, shall, in addition and consecutive to the penalty provided for the felony or attempted felony of which he or she has been convicted, be punished by an additional term of three years.

SEC. 6. Section 3 of this bill incorporates amendments to Section 1170.1 of the Penal Code proposed by both this bill and AB 1559. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1988, (2) each bill amends Section 1170.1 of the Penal Code, and (3) this bill is enacted after AB 1559, in which case Section 2 of this bill shall not become operative.

For the purposes of enforcement of this part and the related regulations, persons duly designated by the director of the department, upon presenting appropriate credentials to the owner, operator, or agent in charge, may:

(1) Enter, at any reasonable times and without advance notice, any factory, warehouse, saleslot, or establishment in which manufactured homes, mobilehomes, recreational vehicles, commercial coaches, or special purpose commercial coaches are manufactured, stored, held for sale, sold, or offered for sale, rent, or lease.

18064.2. (a) If the director determines through an investigation

that a person has engaged or is engaging in an activity which is a violation of this part, or which is a violation of a regulation of the department adopted for the purpose of implementing this part, and if the director finds that the action is required in the public interest, he or she may direct the person to desist and refrain from that activity by issuance of an order specifying the nature of the activity and the factual and legal basis for his or her determination. The respondent to whom the order is directed shall immediately, upon receipt of the order, cease the activity described in the order.

CHAPTER 708

An act to amend Sections 17511.1, 17511.3, and 17511.4 of the Business and Professions Code, relating to sales.

[Approved by Governor September 17, 1987 Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 17511.1 of the Business and Professions Code is amended to read:

17511.1. As used in this article, "telephonic seller" or "seller" means a person who, on his or her own behalf or through salespersons or through the use of an automatic dialing-announcing device, as defined in Section 2871 of the Public Utilities Code, causes a

telephone solicitation or attempted telephone solicitation to occur which meets the criteria specified in subdivision (a) or (b) and who is not exempted by subdivision (c), as follows:

(a) A telephone solicitation or attempted telephone solicitation wherein the telephonic seller initiates telephonic contact with a prospective purchaser and represents or implies one or more of the following:

(1) That a prospective purchaser who buys one or more items will also receive additional or other items, whether or not of the same type as purchased, without further cost. For purposes of this subdivision, "further cost" does not include actual postage or common carrier delivery charges, if any.

(2) That a prospective purchaser will receive a prize or gift, if the person also encourages the prospective purchaser to do either of the following:

(A) Purchase or rent any goods or services.

(B) Pay any money, including, but not limited to, a delivery or handling charge.

(3) That a prospective purchaser who buys office equipment or supplies will, because of some unusual event or imminent price increase, be able to buy these items at prices which are below those that are usually charged or will be charged for the items.

(4) That the seller is a person other than the person he or she is.

(5) That the items for sale are manufactured or supplied by a person other than the actual manufacturer or supplier.

(6) That the seller is offering to sell the prospective purchaser any gold, silver, or other metals, including coins, diamonds, rubies, sapphires, or other stones, coal or other minerals, or any interest in oil, gas, or mineral fields, wells, or exploration sites, or any other investment opportunity of any type whatsoever.

(b) A solicitation or attempted solicitation which is made by telephone in response to inquiries generated by advertisements on behalf of the telephonic seller wherein it is represented or implied that the seller is offering to sell to the prospective purchaser any gold, silver, or other metals, including coins, diamonds, rubies, sapphires, or other stones, coal or other minerals, or any interest in oil, gas, or mineral fields, wells, or exploration sites, or any other investment opportunity of any type whatsoever.

(c) For purposes of this article, "telephonic seller" or "seller" does not include any of the following:

(1) A person offering or selling a security qualified under Sections 25110, 25120, or 25130 of the Corporations Code or exempt from qualification under Chapter 1 (commencing with Section 25100) of Part 2 of Division 1 of Title 4 of the Corporations Code. The fact that a notice claiming an exemption under the Corporate Securities Law of 1968 is filed with the Department of Corporations does not create an exemption under this paragraph.

(2) A person licensed pursuant to Part 1 (commencing with Section 10000) of Division 4, when the solicited transaction is

governed by that law.

(3) A person licensed pursuant to Chapter 9 (commencing with Section 7000) of Division 3, when the solicited transaction is governed by that law.

(4) A person licensed or certificated pursuant to Part 2 (commencing with Section 680) of Division 1 of the Insurance Code, including a person licensed pursuant to Chapter 5 (commencing with Section 1621) thereof, when the solicited transaction is governed by that law.

(5) A person offering or selling a franchise registered pursuant to Section 31110 of the Corporations Code or exempt from registration under Chapter 1 (commencing with Section 31100) of Part 2 of Division 5 of Title 4 of the Corporations Code. The fact that a notice claiming an exemption under the Franchise Investment Law is filed with the Department of Corporations does not create an exemption under this paragraph.

(6) A person soliciting the sale of a seller assisted marketing plan, as defined in Title 2.7 (commencing with Section 1812.200) of Part 4 of Division 3 of the Civil Code, who has filed with the Secretary of State the documents required by Section 1812.203 of the Civil Code.

(7) A person primarily soliciting the sale of a newspaper of general circulation, as defined in Article 1 (commencing with Section 6000) of Chapter 1 of Division 7 of Title 1 of the Government Code, a magazine, or membership in a book or record club whose program operates in conformity with the requirements of Section 1584.5 of the Civil Code.

(8) A person soliciting business from prospective purchasers who have previously purchased from the person making the solicitation or the business enterprise for which the person is calling.

(9) A person soliciting without the intent to complete and who does not complete the sales presentation during the telephone solicitation but completes the sales presentation at a later face-to-face meeting between the solicitor and the prospective purchaser. However, if a seller, directly following a telephone solicitation, causes an individual whose primary purpose it is to go to the prospective purchaser to collect the payment or deliver any item purchased, this exemption does not apply.

(10) Any supervised financial institution or parent, subsidiary, or affiliate thereof. As used in this paragraph, "supervised financial institution" means any commercial bank, trust company, savings and loan association, credit union, industrial loan company, personal property broker, consumer finance lender, commercial finance lender, or insurer, provided that the institution is subject to supervision by an official or agency of this state or of the United States.

(11) A person soliciting the sale of a preneed funeral arrangement regulated by Article 9 (commencing with Section 7735) of Chapter 12 of Division 3.

(12) A person licensed pursuant to Chapter 19 (commencing with

Section 9600) of Division 3 when acting pursuant to that licensure.

(13) A person soliciting the sale of services provided by a cable television system licensed or franchised pursuant to Section 53066 of the Government Code or any other authority.

(14) A person or an affiliate of a person whose business is regulated by the Public Utilities Commission.

(15) A person soliciting the sale of a commodity pursuant to Part 2 (commencing with Section 58601) of Division 21 of the Food and Agricultural Code, if the solicitation neither intends to, nor actually results in, a sale which costs the purchaser in excess of one hundred dollars ($100).

(16) An issuer or subsidiary of an issuer that has a class of securities which is subject to Section 12 of the Securities Exchange Act of 1934 (15 U.S.C. Sec. 78*l*) and which is either registered or exempt from registration under paragraph (A), (B), (C), (E), (F), (G), or (H) of subsection (g) (2) of that section.

(17) A person soliciting exclusively the sale of telephone answering services to be provided by that person or that person's employer.

(18) A person soliciting a transaction regulated by the Commodity Futures Trading Commission if the person is registered or temporarily licensed for this activity with the Commodity Futures Trading Commission under the Commodity Exchange Act, (7 U.S.C. Sec. 1 et seq.) and the registration or license has not expired or been suspended or revoked.

(19) A person who sells coins or bullion at a price which is not more than 25 percent more than the price at which the seller is concurrently buying the same coins or bullion, if: (A) the seller has had a retail location in California from which he or she has been selling coins or bullion to the public in person for at least three years; (B) the telephonic solicitations are not the person's primary business and sales made telephonically make up less than 20 percent of the person's total retail sales; and (C) the person claiming an exemption pursuant to this subdivision complies with Section 17511.3, as applicable, and subdivision (p) of Section 17511.4.

(20) A person licensed pursuant to Chapter 14 (commencing with Section 1800) of Division 1 of the Financial Code to receive money for transmittal to foreign countries if the license has not expired or been suspended or revoked.

(d) In any civil proceeding alleging a violation of this article, the burden of proving an exemption or an exception from a definition is upon the person claiming it, and in any criminal proceeding alleging a violation of this article, the burden of producing evidence to support a defense based upon an exemption or an exception from a definition is upon the person claiming it.

SEC. 2. Section 17511.3 of the Business and Professions Code is amended to read:

17511.3. (a) Not less than 10 days prior to doing business in this state, a telephonic seller shall register with the department by filing

with the Consumer Law Section of the department the information required by Section 17511.4 and a filing fee of fifty dollars ($50). A seller shall be deemed to do business in this state if the seller solicits prospective purchasers from locations in this state or solicits prospective purchasers who are located in this state.

A person claiming an exemption pursuant to paragraph (19) of subdivision (c) of Section 17511.1, shall file with the Consumer Law Section of the department, in lieu of the information required by subdivisions (a) to (o), inclusive, of Section 17511.4, the information required by subdivision (p) of Section 17511.4 and a filing fee of fifty dollars ($50).

The information required by Section 17511.4 shall be submitted on a form provided by the Attorney General and shall be verified by a declaration signed by each principal of the telephonic seller under penalty of perjury. The declaration shall specify the date and location of signing. Information submitted pursuant to subdivision (j) or (k) of Section 17511.4 shall be clearly identified and appended to the filing. The information submitted pursuant to Section 17511.4 shall become part of the investigatory records and intelligence information compiled by the department for law enforcement purposes.

(b) Registration of a telephonic seller shall be valid for one year from the effective date thereof and may be annually renewed by making the filing required by Section 17511.4 and paying a filing fee of fifty dollars ($50).

(c) Whenever, prior to expiration of a seller's annual registration, there is a material change in the information required by Section 17511.4, the seller shall, within 10 days, file an addendum updating the information with the Consumer Law Section of the department. However, changes in salespersons soliciting on behalf of a seller shall be updated by addendums filed, if necessary, in quarterly intervals computed from the effective date of registration. The addendum shall provide the required information for all salespersons who are currently soliciting or have solicited on behalf of the seller at any time during the period between the filing of the registration, or the last addendum, and the current addendum, and shall include salespersons no longer soliciting for the seller as of the date of the filing of the current addendum.

(d) Upon receipt of a filing and filing fee pursuant to subdivision (a) or (b), the department shall send the telephonic seller a written confirmation of receipt of the filing. If the seller has more than one business location, the written confirmation shall be sent to the principal business location identified in the seller's filing in sufficient number so that the seller has one for each business location. The seller shall post the confirmation of receipt of filing, within 10 days of receipt thereof, in a conspicuous place at each of the seller's business locations and shall have available for inspection by any governmental agency at each location a copy of the entire registration statement which has been filed with the department.

Until confirmation of receipt of filing is received and posted, the seller shall post in a conspicuous place at each of the seller's business locations within this state a copy of the first page of the registration form sent to the department. The seller shall also post in close proximity to either the confirmation of receipt of filing, or until the confirmation is received, the first page of the submitted registration form, the name of the individual or individuals in charge of each location from which the seller does business in this state, as defined in subdivision (a).

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

It shall only become operative if (1) both bills are enacted and become effective on January 1, 1988, (2) each bill amends Section 221 of the Vehicle Code, and (3) this bill is enacted after SB 1132, in which case Section 1 of this bill shall not become operative.

SEC. 5. CHAPTER 710

An act relating to parks and recreation.

[Approved by Governor September 17, 1987 Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature that neither this act nor the study required by this act be considered an express indication of an intent to acquire an interest in the property known as the Tehachapi Archaeological Site.

However, the Legislature finds and declares that the Tehachapi Archaeological Site is considered to have high cultural values which should be protected and interpreted for public benefit and should be considered for inclusion in the National Register of Historic Places at the state level and the national level of significance. The site contains numerous archaeological features in an environmental setting which offers excellent interpretative potential on Native American life.

The Department of Parks and Recreation shall study the archaeological significance of the Tehachapi Archaeological Site to determine the level of protection which should be provided for the site and the means of carrying out that protection. In preparing this study, the department shall consult educational institutions, organizations, and individuals.

The department shall report the results of this study to the Legislature by February 1, 1988.

This shall include referral to appropriate agencies, inquiries by persons in industry, business, commerce, governmental units, news agencies, academic institutions, or the public concerning biotechnology information.

The county shall develop, maintain, operate, and preserve the land as a botanical garden for public park and recreation use. Natural, historic, and cultural resources existing on the site shall continue to be maintained, preserved, interpreted, and protected for public enjoyment. No change in use of the property from public park and recreation purposes without specific approval of the Director of Parks and Recreation shall be allowed. CHAPTER 713

An act to amend Section 1203.1 of, and to add Section 1203.1i to, the Penal Code, relating to probation.

[Approved by Governor September 17, 1987 Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1203.1 of the Penal Code as amended by Section 2 of Chapter 15034 of the Statutes of 1985 is amended to read:

1203.1. The court or judge thereof, in the order granting probation, may suspend the imposing, or the execution, of the sentence and may direct that the suspension may continue for a period of time not exceeding the maximum possible term of the sentence, except as hereinafter set forth, and upon those terms and conditions as it shall determine. The court, or judge thereof, in the order granting probation and as a condition thereof may imprison the defendant in the county jail for a period not exceeding the maximum time fixed by law in the case; however, where the maximum possible term of the sentence is five years or less, then the period of suspension of imposition or execution of sentence may, in the discretion of the court, continue for not over five years; may fine the defendant in a sum not to exceed the maximum fine provided by law in the case; or may in connection with granting probation, impose either imprisonment in county jail, or fine, or both, or neither; shall provide for restitution in proper cases; and may require bonds for the faithful observance and performance of any or all of the conditions of probation.

The court shall consider whether the defendant as a condition of probation shall make restitution to the victim or the Restitution Fund. Any restitution payment received by a probation department in the form of cash or money order shall be forwarded to the victim within 30 days from the date the payment is received by the department. Any restitution payment received by a probation department in the form of a check or draft shall be forwarded to the victim within 45 days from the date the payment is received by the department, provided, that payment need not be forwarded to a victim until 180 days from the date the first such payment is received, if the restitution payments for that victim received by the probation department total less than fifty dollars ($50). In cases where the

court has ordered the defendant to pay restitution to multiple victims and where the administrative cost of disbursing restitution payments to multiple victims involves a significant cost, any restitution payment received by a probation department shall be forwarded to multiple victims when it is cost effective to do so, but in no event shall restitution disbursements be delayed beyond 180 days from the date the payment is received by the probation department. In counties or cities and counties where road camps, farms, or other public work is available the court may place the probationer in such a road camp, farm, or other public work instead of in jail; Section 25359 of the Government Code shall apply to probation and the court shall have the same power to require adult probationers to work, as prisoners confined in the county jail are required to work, at public work. Each county board of supervisors may fix the scale of compensation of the adult probationers in that county. In all cases of probation the court may require as a condition of probation that the probationer go to work and earn money for the support of his or her dependents or to pay any fine imposed or reparation condition, to keep an account of his or her earnings, to report them to the probation officer and apply those earnings as directed by the court.

The court shall also consider whether the defendant as a condition of probation shall make restitution to a public agency for the costs of an emergency response pursuant to Article 8 (commencing with Section 53150) of Chapter 1 of Part 1 of Division 2 of the Government Code. Any such order made by the court shall be made in accordance with the provisions of Section 1203.1i.

In all such cases if as a condition of probation a judge of the superior court sitting by authority of law elsewhere than at the county seat requires a convicted person to serve his or her sentence at intermittent periods the sentence may be served on the order of the judge at the city jail nearest to the place at which the court is sitting, and the cost of his or her maintenance shall be a county charge.

Upon conviction of any offense involving child abuse or neglect, the court may require, in addition to any or all of the above-mentioned terms of imprisonment, fine, and other reasonable conditions, that the defendant shall participate in counseling or education programs, or both, including, but not limited to, parent education or parenting programs operated by community colleges, school districts, other public agencies, or private agencies.

The court may impose and require any or all of the above-mentioned terms of imprisonment, fine, and conditions, and other reasonable conditions, as it may determine are fitting and proper to the end that justice may be done, that amends may be made to society for the breach of the law, for any injury done to any person resulting from that breach, and generally and specifically for the reformation and rehabilitation of the probationer, and that should the probationer violate any of the terms or conditions

imposed by the court in the matter, it shall have authority to modify and change any and all such terms and conditions and to reimprison the probationer in the county jail within the limitations of the penalty of the public offense involved. Upon the defendant being released from the county jail under the terms of probation as originally granted or any modification subsequently made, and in all cases where confinement in a county jail has not been a condition of the grant of probation, the court shall place the defendant or probationer in and under the charge of the probation officer of the court, for the period or term fixed for probation. However, upon the payment of any fine imposed and the fulfillment of all conditions of probation, probation shall cease at the end of the term of probation, or sooner, in the event of modification. In counties and cities and counties in which there are facilities for taking fingerprints, those of each probationer shall be taken and a record of them kept and preserved.

Notwithstanding any other provisions of law to the contrary, except as provided in Sections 13967 and 13967.5 of the Government Code and Sections 1202.4, 1203.04, 1463.16, paragraph (1) of subdivision (a) of Section 1463.18, and Section 1464, all fines collected by a county probation officer in any of the courts of this state, as a condition of the granting of probation or as a part of the terms of probation, shall be paid into the county treasury and placed in the general fund for the use and benefit of the county.

If the court orders restitution to be made to the victim, the board of supervisors may add a fee to cover the actual administrative cost of collecting restitution but not to exceed 10 percent of the total amount ordered to be paid. The fees shall be paid into the general fund of the county treasury for the use and benefit of the county.

This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute which is chaptered before January 1, 1989, deletes or extends that date.

SEC. 2. Section 1203.1 of the Penal Code, as amended by Section 5 of Chapter 980 of the Statutes of 1984, is amended to read:

1203.1. The court or judge thereof, in the order granting probation, may suspend the imposing, or the execution of the sentence and may direct that the suspension may continue for a period of time not exceeding the maximum possible term of the sentence, except as hereinafter set forth, and upon those terms and conditions as it shall determine. The court, or judge thereof, in the order granting probation and as a condition thereof may imprison the defendant in the county jail for a period not exceeding the maximum time fixed by law in the case; however, where the maximum possible term of the sentence is five years or less, then the period of suspension of imposition or execution of sentence may, in the discretion of the court, continue for not over five years; may fine the defendant in a sum not to exceed the maximum fine provided by law in the case; or may in connection with granting probation, impose either imprisonment in county jail, or fine, or both, or

neither; shall provide for restitution in proper cases; and may require bonds for the faithful observance and performance of any or all of the conditions of probation.

The court shall consider whether the defendant as a condition of probation shall make restitution to the victim or the Restitution Fund. In counties or cities and counties where road camps, farms, or other public work is available, the court may place the probationer in such a road camp, farm, or other public work instead of in jail. Section 25359 of the Government Code shall apply to probation and the court shall have the same power to require adult probationers to work, as prisoners confined in the county jail are required to work, at public work. Each county board of supervisors may provide public work and fix the scale of compensation of the adult probationers in that county. In all cases of probation the court is authorized to require as a condition of probation that the probationer go to work and earn money for the support of his or her dependents or to pay any fine imposed or reparation condition, to keep an account of his or her earnings, to report them to the probation officer and apply those earnings as directed by the court.

The court shall also consider whether the defendant as a condition of probation shall make restitution to a public agency for the costs of an emergency response pursuant to Article 8 (commencing with Section 53150) of Chapter 1 of Part 1 of Division 2 of the Government Code. Any such order shall be made in accordance with the provisions of Section 1203.1i.

In all such cases if as a condition of probation a judge of the superior court sitting by authority of law elsewhere than at the county seat requires a convicted person to serve his or her sentence at intermittent periods the sentence may be served on the order of the judge at the city jail nearest to the place at which the court is sitting, and the cost of his or her maintenance shall be a county charge.

Upon conviction of any offense involving child abuse or neglect, the court may require, in addition to any or all of the above-mentioned terms of imprisonment, fine, and other reasonable conditions, that the defendant shall participate in counseling or education programs, or both, including, but not limited to, parent education or parenting programs operated by community colleges, school districts, other public agencies, or private agencies.

The court may impose and require any or all of the above-mentioned terms of imprisonment, fine, and conditions, and other reasonable conditions, as it may determine are fitting and proper to the end that justice may be done, that amends may be made to society for the breach of the law, for any injury done to any person resulting from that breach and generally and specifically for the reformation and rehabilitation of the probationer, and that should the probationer violate any of the terms or conditions imposed by the court in the matter, it shall have authority to modify and change any and all such terms and conditions and to reimprison

the probationer in the county jail within the limitations of the penalty of the public offense involved. Upon the defendant being released from the county jail under the terms of probation as originally granted or any modification subsequently made, and in all cases where confinement in a county jail has not been a condition of the grant of probation, the court shall place the defendant or probationer in and under the charge of the probation officer of the court, for the period or term fixed for probation. However, upon the payment of any fine imposed and the fulfillment of all conditions of probation, probation shall cease at the end of the term of probation, or sooner, in the event of modification. In counties and cities and counties in which there are facilities for taking fingerprints, those of each probationer shall be taken and a record of them kept and preserved.

Notwithstanding any other provision of law, except as provided in Sections 13967 and 13967.5 of the Government Code and Sections 1202.4, 1203.04, 1463.16, paragraph (1) of subdivision (a) of Section 1463.18, and Section 1464, all fines collected by a county probation officer in any of the courts of this state, as a condition of the granting of probation or as a part of the terms of probation, shall be paid into the county treasury and placed in the general fund for the use and benefit of the county.

If the court orders restitution to be made to the victim, the board of supervisors may add a fee to cover the actual administrative cost of collecting restitution but not to exceed 2 percent of the total amount ordered to be paid. The fees shall be paid into the general fund of the county treasury for the use and benefit of the county.

This section shall become operative on January 1, 1989.

SEC. 3. Section 1203.1i is added to the Penal Code, to read:

1203.1i. In any case in which, pursuant to Section 1203.1, the court orders the defendant, as a condition of probation, to make restitution to a public agency for the costs of an emergency response, all of the following shall apply:

(a) The probation department shall obtain the actual costs for an emergency response from a public agency, and shall include the public agency's documents supporting the actual costs for the emergency response in the probation department's sentencing report to the court.

(b) At the sentencing hearing, the defendant has the right to confront witnesses and present evidence in opposition to the amount claimed to be due to the public agency for its actual costs for the emergency response.

(c) The collection of the emergency response costs is the responsibility of the public agency seeking the reimbursement. If a defendant fails to make restitution payment when a payment is due, the public agency shall by verified declaration notify the probation department of the delinquency. The probation department shall make an investigation of the delinquency and shall make a report to the court of the delinquency. The report shall contain any

recommendation that the probation officer finds to be relevant regarding the delinquency and future payments. The court, after a hearing on the delinquency, may make modifications to the existing order in the furtherance of justice.

(d) The defendant has the right to petition the court for a modification of the emergency response reimbursement order whenever he or she has sustained a substantial change in economic circumstances. The defendant has a right to a hearing on the proposed modification, and the court may make any modification to the existing order in the furtherance of justice.

CHAPTER 714

An act to amend Section 643 of, and to add Section 1913.5 to, the Financial Code, relating to financial institutions.

[Approved by Governor September 17, 1987. Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 643 of the Financial Code is amended to read:

643. Notwithstanding the provisions of Section 642, a bank or a majority-owned subsidiary of a bank may, with the prior approval of the superintendent, make a distribution to the shareholders of such bank in an amount not exceeding the greatest of:

(a) The retained earnings of the bank;

(b) The net income of the bank for its last fiscal year; or

(c) The net income of the bank for its current fiscal year.

SEC. 2. Section 1913.5 is added to the Financial Code, to read:

1913.5. (a) For the purposes of this section, the following definitions are applicable:

(1) "Account holder" includes, in the case of a deposit account, the depositor; in the case of a trust account, each trustor and beneficiary of the trust account; and, in the case of any other fiduciary account, each person who occupies, with respect to the account, a position which is similar to the position that a trustor or beneficiary occupies with respect to a trust account.

(2) "Bank" means the following:

(A) Any commercial bank or trust company incorporated under the laws of this state.

(B) Any foreign banking corporation which is licensed by the superintendent under Chapter 13.5 (commencing with Section 1700) to maintain an office in this state, with respect to any such office.

(C) Any corporation incorporated under the laws of this state which is incorporated for the purpose of engaging in, or which is

authorized by the superintendent to engage in, business under Article 1 (commencing with Section 3500) of Chapter 19.

(D) Any foreign corporation which is licensed by the superintendent under Article 1 (commencing with Section 3500) of Chapter 19 to maintain an office in this state and to transact at that office business under Article 1 (commencing with Section 3500) of Chapter 19 with respect to that office.

(3) "Order" means any approval, consent, authorization, permit, exemption, denial, prohibition, or requirement applicable to a specific case issued by the superintendent, including, without limitation, any condition thereof. "Order" does not include any certificate of authority or license issued by the superintendent but does include any condition of a license and any written agreement made by any person with the superintendent under this division.

(4) "Subject person of a bank" means any director, officer, or employee of the bank, or any person who participates in the conduct of the business of the bank. However, "subject person of a bank" does not include a controlling person of the bank which is registered as a bank holding company with the Board of Governors of the Federal Reserve System pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. Sections 1841, et seq.). "Subject person of a bank" does not include an individual who is a director, officer, or employee of a controlling person of the bank unless the individual is a director, officer, or employee of the bank or participates in the conduct of the business of the bank. For purposes of this paragraph, "controlling person" has the meaning set forth in Section 700.

(5) "Violation" includes, without limitation, any act done, alone or with one or more persons, for or toward causing, bringing about, participating in, counseling, aiding, or abetting a violation.

(b) If, after notice and a hearing, the superintendent finds the following, the superintendent may issue an order suspending or removing a subject person of a bank from his or her office with the bank and prohibiting the subject person from further participating in any manner in the conduct of the business of the bank, except with the prior consent of the superintendent:

(1) (A) That the subject person has violated any provision of this division or of any regulation or order issued under this division, or any provision of any other applicable law relating to the business of the bank; or

(B) That the subject person has engaged or participated in any unsafe or unsound act with respect to the business of the bank; or

(C) That the subject person has committed or engaged in any act which constitutes a breach of his or her fiduciary duty as a subject person; and

(2) (A) That the bank has suffered or will probably suffer substantial financial loss or other damage by reason of that violation, act, or breach of fiduciary duty; or

(B) That the interests of the bank's account holders have been or are likely to be seriously prejudiced by reason of the violation, act,

or breach of fiduciary duty; or

(C) That the subject person has received financial gain by reason of such violation, act, or breach of fiduciary duty; and

(3) That the violation, act, or breach of fiduciary duty is one involving personal dishonesty on the part of the subject person, or one which demonstrates a willful or continuing disregard for the safety or soundness of the bank.

(c) If, after notice and a hearing, the superintendent finds the following, the superintendent may issue an order suspending or removing a subject person of a bank from his or her office with the bank and prohibiting the subject person from further participating in any manner in the conduct of the business of the bank, except with the prior consent of the superintendent:

(1) That the subject person's conduct or practice with respect to another bank or business institution has resulted in substantial financial loss or other damage; and

(2) That the conduct or practice has evidenced personal dishonesty or willful or continuing disregard for the safety and soundness of the other bank or business institution; and

(3) That the conduct or practice is relevant in that it demonstrates unfitness to continue as a subject person of the bank.

(d) If the superintendent finds the following, the superintendent may immediately issue an order suspending or removing a subject person of a bank from his or her office with the bank and prohibiting the subject person from further participating in any manner in the conduct of the business of the bank, except with the prior consent of the superintendent:

(1) That it is necessary for the protection of the bank or the interests of the bank's account holders that the superintendent issue the order immediately; and

(2) (A) That any of the factors set forth in paragraph (1) of subdivision (b), any of the factors set forth in paragraph (2) of subdivision (b), and any of the factors set forth in paragraph (3) of subdivision (b) are true with respect to the subject person; or

(B) That any of the factors set forth in paragraph (1) of subdivision (c), any of the factors set forth in paragraph (2) of subdivision (c), and the factor set forth in paragraph (3) of subdivision (c) are true with respect to the subject person.

(e) (1) If the superintendent finds the following, the superintendent may immediately issue an order suspending or removing a subject person of a bank from his or her office with the bank and prohibiting the subject person from further participating in any manner in the conduct of the business of the bank, except with the prior consent of the superintendent:

(A) That the subject person has been charged in an indictment issued by a grand jury or in an information, complaint, or similar pleading issued by a United States attorney, district attorney, or other governmental official or agency authorized to prosecute crimes, with a crime which is punishable by imprisonment for a term

exceeding one year and which involves dishonesty or breach of trust; and

(B) That the person's continuing to serve as a subject person of the bank may pose a material threat to the interests of the bank's account holders or may threaten to materially impair public confidence in the bank. In case the criminal proceedings are terminated other than by a judgment of conviction, the order shall be deemed rescinded.

(2) If the superintendent finds the following, the superintendent may immediately issue an order suspending or removing a subject person of a bank, or a former subject person of a bank, from his or her office, if any, with the bank and prohibiting the person from further participating in any manner in the conduct of the business of the bank, except with the prior consent of the superintendent:

(A) That the person has been finally convicted of a crime which is punishable by imprisonment for a term exceeding one year and which involves dishonesty or breach of trust; and

(B) That the person's continuing to serve or resumption of service as a subject person of the bank may pose a material threat to the interests of the bank's account holders or may threaten to materially impair public confidence in the bank.

(3) The fact that any subject person of a bank charged with a crime involving dishonesty or breach of trust is not finally convicted of that crime shall not preclude the superintendent from issuing an order regarding the subject person pursuant to other provisions of this division.

(f) (1) Within 30 days after an order is issued pursuant to subdivision (d) or (e), the person to whom the order is issued may file with the superintendent an application for a hearing on the order. The superintendent shall, upon the written request of the person, extend the 30-day period by an additional 30 days provided the request is filed with the superintendent within 30 days after the order is issued. If the superintendent fails to commence the hearing within 15 business days after the application is filed, or within a longer period to which the person consents, the order shall be deemed rescinded. Within 30 days after the hearing, the superintendent shall affirm, modify, or rescind the order; otherwise, the order shall be deemed rescinded.

(2) The right of any person to whom an order is issued under subdivision (d) or (e) to petition for judicial review of the order shall not be affected by the failure of that person to apply to the superintendent for a hearing on the order pursuant to this subdivision.

(g) (1) Any person to whom an order is issued under subdivision (b), (c), (d), or (e) may apply to the superintendent to modify or rescind that order. The superintendent shall not grant that application unless the superintendent finds that it is in the public interest to do so and that it is reasonable to believe that the person will, if and when he or she becomes a subject person of a bank,

comply with all applicable provisions of this division and of any regulation or order issued thereunder.

(2) The right of any person to whom an order is issued under subdivision (b), (c), (d), or (e) to petition for judicial review of that order shall not be affected by the failure of the person to apply to the superintendent pursuant to paragraph (1) to modify or rescind the order.

(h) (1) A notice issued under this section shall state the facts constituting the grounds for removal, suspension, or prohibition.

(A) To serve or act as a director, officer, employee, or agent of any bank.

(B) To vote any shares or other securities of a bank having voting rights, for the election of any person as a director of the bank.

In determining the amount of a civil penalty to be paid to the superintendent under this paragraph, the superintendent shall consider the financial resources and good faith of the person charged, the gravity of the violation, the history of previous violations by the person, and such other factors as in the opinion of the superintendent may be relevant

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district

CHAPTER 716

An act to amend Section 3097 of the Civil Code, and to add Section 27361.9 to the Government Code, relating to mechanics' liens.

[Approved by Governor September 17, 1987. Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 3097 of the Civil Code is amended to read:

3097. "Preliminary 20-day notice (private work)" means a written notice from a claimant that is given prior to the recording of a mechanic's lien and prior to the filing of a stop notice, and is required to be given under the following circumstances:

(a) Except one under direct contract with the owner or one performing actual labor for wages, or an express trust fund described in Section 3111, every person who furnishes labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, shall, as a necessary prerequisite to the validity

of any claim of lien, and of a notice to withhold, cause to be given to the owner or reputed owner, to the original contractor, or reputed contractor, and to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(b) Except the contractor, or one performing actual labor for wages, or an express trust fund described in Section 3111, all persons who have a direct contract with the owner and who furnish labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, shall, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(c) The preliminary notice referred to in subdivisions (a) and (b) shall be given not later than 20 days after the claimant has first furnished labor, service, equipment, or materials to the jobsite, and shall contain the following information:

(1) A general description of the labor, service, equipment, or materials furnished, or to be furnished, and if there is a construction lender, he or she shall be furnished with an estimate of the total price thereof in addition to the foregoing.

(2) The name and address of the person furnishing that labor, service, equipment, or materials.

(3) The name of the person who contracted for purchase of that labor, service, equipment, or materials.

(4) A description of the jobsite sufficient for identification.

(5) The following statement in boldface type:

NOTICE TO PROPERTY OWNER

If bills are not paid in full for the labor, services, equipment, or materials furnished or to be furnished, a mechanic's lien leading to the loss, through court foreclosure proceedings, of all or part of your property being so improved may be placed against the property even though you have paid your contractor in full. You may wish to protect yourself against this consequence by (1) requiring your contractor to furnish a signed release by the person or firm giving you this notice before making payment to your contractor or (2) any other method or device which is appropriate under the circumstances.

(6) If the notice is given by a subcontractor who is required pursuant to a collective bargaining agreement to pay supplemental fringe benefits into an express trust fund described in Section 3111, the notice shall also contain the identity and address of the trust fund or funds.

If an invoice for materials contains the information required by this section, a copy of the invoice, transmitted in the manner

prescribed by this section shall be sufficient notice.

A certificated architect, registered engineer, or licensed land surveyor who has furnished services for the design of the work of improvement and who gives a preliminary notice as provided in this section not later than 20 days after the work of improvement has commenced shall be deemed to have complied with subdivisions (a) and (b) with respect to architectural, engineering, or surveying services furnished, or to be furnished.

(d) If labor, service, equipment, or materials have been furnished to a jobsite by a person who elected not to give a preliminary notice as provided in subdivision (a) or (b), that person shall not be precluded from giving a preliminary notice not later than 20 days after furnishing other labor, service, equipment, or materials to the same jobsite. The person shall, however, be entitled to claim a lien and a notice to withhold only for labor, service, equipment, or material furnished within 20 days prior to the service of the notice, and at any time thereafter.

(e) Any agreement made or entered into by an owner, whereby the owner agrees to waive the rights or privileges conferred upon the owner by this section shall be void and of no effect.

(f) The notice required under this section may be served as follows:

(1) If the person to be notified resides in this state, by delivering the notice personally, or by leaving it at his or her address of residence or place of business with some person in charge, or by first-class registered or certified mail, postage prepaid, addressed to the person to whom notice is to be given at his or her residence or place of business address or at the address shown by the building permit on file with the authority issuing a building permit for the work, or at an address recorded pursuant to subdivision (j).

(2) If the person to be notified does not reside in this state, by any method enumerated in paragraph (1) of this subdivision. If the person cannot be served by any of these methods, then notice may be given by first-class certified or registered mail, addressed to the construction lender or to the original contractor.

(3) When service is made by first-class certified or registered mail, service is complete at the time of the deposit of that registered or certified mail.

(g) A person required by this section to give notice to the owner and to an original contractor, and to a person to whom a notice to withhold may be given, need give only one notice to the owner, and to the original contractor and to the person to whom a notice to withhold may be given with respect to all materials, service, labor, or equipment he or she furnishes for a work of improvement, which means the entire structure or scheme of improvements as a whole, unless the same is furnished under contracts with more than one subcontractor, in which event, the notice requirements shall be met with respect to materials, services, labor, or equipment furnished to each contractor.

If a notice contains a general description required by subdivision (a) or (b) of the materials, services, labor, or equipment furnished to the date of notice, it is not defective because, after that date, the person giving notice furnishes materials, services, labor, or equipment not within the scope of this general description.

(h) Where the contract price to be paid to any subcontractor on a particular work of improvement exceeds four hundred dollars ($400), the failure of that contractor, licensed under Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, to give the notice provided for in this section, constitutes grounds for disciplinary action by the Registrar of Contractors.

Where the notice is required to contain the information set forth in paragraph (6) of subdivision (c), a failure to give the notice, including that information, that results in the filing of a lien or the delivery of a stop notice by the express trust fund to which the obligation is owing constitutes grounds for disciplinary action by the Registrar of Contractors against the subcontractor if the amount due the trust fund is not paid.

(i) Every city, county, city and county, or other governmental authority issuing building permits shall, in its application form for a building permit, provide space and a designation for the applicant to enter the name, branch, designation, if any, and address of the construction lender and shall keep the information on file open for public inspection during the regular business hours of the authority.

If there is no known construction lender, that fact shall be noted in the designated space. Any failure to indicate the name and address of the construction lender on the application, however, shall not relieve any person from the obligation to give to the construction lender the notice required by this section.

(j) A mortgage, deed of trust, or other instrument securing a loan, any of the proceeds of which may be used for the purpose of constructing improvements on real property, shall bear the designation "Construction Trust Deed" prominently on its face and shall state all of the following: (1) the name and address of the lender, and the name and address of the owner of the real property described in the instrument, and (2) a legal description of the real property which secures the loan and, if known, the street address of the property. The failure to be so designated or to state any of the information required by this subdivision shall not affect the validity of such a mortgage, deed of trust, or other instrument.

Failure to provide this information on this instrument when recorded shall not relieve persons required to give preliminary notice under this section from that duty.

The county recorder of the county in which such an instrument is recorded shall indicate in the general index of the official records of the county that the instrument secures a construction loan.

(k) Every contractor and subcontractor who is required pursuant to a collective bargaining agreement to pay supplementary fringe

benefits into an express trust fund described in Section 3111, and who has failed to do so shall cause to be given to the trust fund and to the construction lender, if any, or to the reputed construction lender, if any, not later than the date the payment due to the trust fund became delinquent, a written notice containing all of the following:

(1) The name of the owner and the contractor.

(2) A description of the jobsite sufficient for identification.

(3) The identity and address of the express trust fund.

(4) The total number of straight time and overtime hours on each job, payment for which the contractor or subcontractor is delinquent to the express trust.

(5) The amount then past due and owing.

Failure to give this notice shall constitute grounds for disciplinary action by the Registrar of Contractors.

(*l*) Every written contract entered into between a property owner and an original contractor shall provide space for the owner to enter his or her name and address of residence; and place of business if any. The original contractor shall make available the name and address of residence of the owner to any person seeking to serve the notice specified in subdivision (c).

(m) Every written contract entered into between a property owner and an original contractor, except home improvement contracts and swimming pool contracts subject to Article 10 (commencing with Section 7150) of Chapter 9 of Division 3 of the Business and Professions Code, shall provide space for the owner to enter the name and address of the construction lender or lenders. The original contractor shall make available the name and address of the construction lender or lenders to any person seeking to serve the notice specified in subdivision (c).

(n) Where one or more construction loans are obtained after commencement of construction, the property owner shall provide the name and address of the construction lender or lenders to each person who has given the property owner the notice specified in subdivision (c).

(o) (1) Each person who has served a preliminary 20-day notice pursuant to subdivision (f) may file the preliminary 20-day notice with the county recorder in the county in which any portion of the property is located. A preliminary 20-day notice filed pursuant to this section shall contain all of the following:

(A) The name and address of the person furnishing the labor, service, equipment, or materials.

(B) The name of the person who contracted for purchase of the labor, service, equipment, or materials.

(C) The common street address of the jobsite.

(2) Upon the acceptance for recording of a Notice of Completion or Notice of Cessation the County Recorder shall mail to those persons who have filed a preliminary 20-day notice, notification that a Notice of Completion or Notice of Cessation has been recorded on the property, and shall affix the date that the Notice of Completion

or Notice of Cessation was recorded with the county recorder.

(3) The failure of the county recorder to mail the notification to the person who filed a preliminary 20-day notice, or the failure of those persons to receive the notification or to receive complete notification, shall not affect the period within which a claim of lien is required to be recorded. However, the county recorder shall make a good faith effort to mail notification to those persons who have filed the preliminary 20-day notice under this section and to do so within five days after the recording of a notice of completion or notice of cessation.

(4) This new function of the county recorder shall not become operative until July 1, 1988. The county recorder may cause to be destroyed all documents filed pursuant to this section, two years after the date of filing.

(5) The preliminary 20-day notice which a person may file pursuant to this subdivision is for the limited purpose of facilitating the mailing of notice by the county recorder of recorded notices of completion and notices of cessation. The notice which is filed is not a recordable document and shall not be entered into those official records of the county which by law impart constructive notice. Notwithstanding any other provision of law, the index maintained by the recorder of filed preliminary 20-day notices shall be separate and distinct from those indexes maintained by the county recorder of those official records of the county which by law impart constructive notice. The filing of a preliminary 20-day notice with the county recorder does not give rise to any actual or constructive notice with respect to any party of the existence or contents of a filed preliminary 20-day notice nor to any duty of inquiry on the part of any party as to the existence or contents of that notice.

SEC. 2. Section 27361.9 is added to the Government Code, to read:

27361.9. The board of supervisors of any county may provide for an additional fee for filing every preliminary 20-day notice pursuant to paragraph (1) of subdivision (o) of Section 3097 of the Civil Code for the exclusive purpose of defraying the cost of implementing and maintaining a system to facilitate compliance with paragraph (2) of subdivision (o) of Section 3097 of the Civil Code.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

(b) The court issuing the writ of possession of real property shall set a date or dates when the court will hold a hearing to determine the validity of objections to enforcement of the judgment specified in subdivision (a). An occupant of the real property for which the writ is issued may make an objection to eviction either at the office of the levying officer or at the premises at the time of the eviction.

After a claim of right to possession is completed and presented, the sheriff, marshal, or other levying officer shall forthwith (1) stop the eviction of occupants at the premises, and (2) provide a receipt to the claimant indicating the date and time the completed form was received, and (3) return a copy of the completed claim of right to possession to the court issuing the writ of possession of real property.

(c) The filing of the claim of right to possession is effected by presenting to the sheriff, marshal, or other levying officer a completed form, as prescribed in this section, and transmitting or mailing directly to the court by first-class mail, with proper postage prepaid, and postmarked within 48 hours after its presentation, the appropriate fee or forms for proceeding in forma pauperis. Upon receipt of a claim of right to possession, the sheriff, marshal, or other levying officer shall indicate thereon the date and time of its receipt and forthwith deliver it to the issuing court and notify the plaintiff of that fact. The court shall lodge the claim of right to possession for a period not to exceed seven days after the time of receipt noted by the sheriff, marshal, or other levying officer, at which time the claim shall be denied unless the appropriate fee or the forms for proceeding in forma pauperis have been paid or presented.

Immediately upon receipt of the appropriate fee or forms for proceeding in forma pauperis, the court shall file the claim of right to possession and serve an endorsed copy thereof on the plaintiff and the claimant by first-class mail, postage prepaid.

(d) Upon filing of the claim of right to possession, the court issuing the writ of possession shall set and hold a hearing on the claim not less than five nor more than 15 days after the filing of the claim. At the hearing, the court shall only determine whether there is a valid claim of possession by the claimant who filed the claim, and the court shall consider all evidence produced at the hearing, including, but not limited to, the information set forth in the claim. The court may determine the claim to be valid or invalid based upon the evidence presented at the hearing. The court shall determine the claim to be invalid if the court determines that the claimant is an invitee, licensee, guest, or trespasser.

(e) If, upon hearing, the court determines that the claim is valid, then the court shall order further proceedings as follows:

(1) If the unlawful detainer is based upon a curable breach, and the claimant was not previously served with a proper notice, if any notice is required, then the required notice may at the plaintiff's discretion be served on the claimant at the hearing or thereafter. If the claimant does not cure the breach within the required time, then a supplemental complaint may be filed and served on the claimant as defendant if the plaintiff proceeds against the claimant in the same action. For the purposes of this section only, service of the required notice, if any notice is required, and of the supplemental complaint may be made by first-class mail addressed to the claimant at the subject premises or upon his or her attorney of record and, in either case, Section 1013 shall otherwise apply. Further proceedings on the merits of the claimant's continued right to possession after service of the Summons and Supplemental Complaint as prescribed by this subdivision shall be conducted pursuant to this chapter.

(2) In all other cases, the court shall deem the unlawful detainer Summons and Complaint to be amended on their faces to include the claimant as defendant, service of the Summons and Complaint, as thus amended, may at the plaintiff's discretion be made at the hearing or thereafter, and the claimant thus named and served as a defendant in the action shall answer or otherwise respond within five days thereafter.

(f) If the claim of right to possession is denied pursuant to subdivision (c) or, upon hearing, if the court determines that there are no valid claims or if the claimant does not prevail at a hearing on the merits of the unlawful detainer action, the court shall order the levying officer to proceed with enforcement of the original writ of possession of real property as deemed amended to include the claimant, which shall be effected within a reasonable time not to exceed five days. Upon receipt of the court's order, the levying officer may enforce the writ of possession of real property as against any occupant or occupants.

(g) The claim of right to possession shall be made on the following form:

Each such central file shall be so created and maintained as to provide an individual historical record for each such person with respect to (1) any conviction of a crime in this or any other state which constitutes unprofessional conduct pursuant to the reporting requirements of Section 803; (2) any judgment or settlement requiring him or his insurer to pay any amount of damages in excess of three thousand dollars ($3,000) with respect to any claim that injury or death was proximately caused by such person's negligence, error or omission in practice or rendering of unauthorized professional services, pursuant to the reporting requirements of Section 801 or 802; (3) any public complaints for which provision is hereinafter made, pursuant to subdivision (b) of this section; (4) disciplinary information reported pursuant to Section 805.

If a board, or division thereof, a committee, or a panel has failed to act upon a complaint or report within five years, or has found that the complaint or report is without merit, the central file shall be purged of information relating to the complaint or report.

(c) The contents of any central file which are not public records under any other provision of law shall be confidential except that it may be reviewed (1) by the licensee involved or his or her counsel or representative who may, but is not required to submit any additional exculpatory or explanatory statements or other information, which statements or other information must be included in the file, (2) by any district attorney or representative or

CHAPTER 722

An act to amend Section 5458 of, and to add Section 5467 to, the Welfare and Institutions Code, relating to mental health.

[Approved by Governor September 17, 1987 Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 5458 of the Welfare and Institutions Code is amended to read:

5458. The following shall be the programs in the community residential treatment system. These programs shall be designed to provide, at every level, alternatives to institutional settings. Counties in applying for these funds shall show how each of these programs works with the current programs and in-place programs. Counties may apply for funds in the following programs:

(a) A program for a short-term crisis residential alternative to hospitalization for individuals experiencing an acute episode or crisis requiring temporary removal from their home environment. The program shall be available for admissions 24 hours a day, seven days a week. The primary focus of this program shall be on reduction of the crisis, on stabilization, and on a diagnostic assessment of the person's existing support system, including recommendations for referrals upon discharge.

The services in the program shall include, but not be limited to, provision for direct family work, connections to prevocational and vocational programs, and development of a support system, including income and treatment referrals. This program shall be designed for persons who would otherwise be referred to an inpatient unit, either locally or in the state hospital. This program shall place an emphasis on stabilization and appropriate referral for further treatment or support services, or both.

(b) A long-term residential treatment program, with a full day treatment component as a part of the program, for persons who may require intensive support for as long as two or three years. This program shall be designed to provide a rehabilitation program for the so-called "chronic" patient who needs long-term support in order to develop independent living skills. The clients in this program are to be those who would otherwise be living marginally in the community with little or no service support, and who would return many times to the hospital for treatment. It also is to serve those who are referred to, and maintained in, state hospitals or nursing homes because they require long-term, intensive support. This program is to go beyond maintenance to provide an active rehabilitation focus for these individuals.

The services in this program shall include, but not be limited to, intensive diagnostic work, including learning disability assessment,

full day treatment program with an active prevocational and vocational component, special education services, outreach to develop linkages with the general social service system, and counseling to aid clients in developing the skills to move toward a less structured setting.

(c) A transitional residential program designed for persons who are able to take part in programs in the general community, but who, without the support of counseling, as well as the therapeutic community, would be at risk of returning to the hospital. This program may employ a variety of staffing patterns and is for persons who may be expected to move toward a more independent living setting within approximately three months to one year. The clients shall be expected to play a major role in the functioning of the household, and shall be encouraged to accept increasing levels of responsibility, both in the residential community, and in the community as a whole. Residents are required to be involved in daytime activities outside of the house which are relevant to their personal goals and conducive to their achieving more self-sufficiency.

The services in this program include, but are not limited to, counseling and ongoing assessment, development of support systems in the community, a day program which encourages interaction between clients and the community-at-large, and an activity program that encourages socialization and utilization of general community resources.

(d) A program for semisupervised, independent, but structured living arrangement for persons who do not need the intensive support of the other system programs, but who, without some support and structure, are at risk to return to a condition requiring hospitalization. The individual apartments or houses are to be shared by three to five persons. These small cooperative housing units shall function as independent households with direct linkages to staff support in case of emergencies, as well as for regular assessment and evaluation meetings. Individuals may use satellite housing as a transition to independent living, or may remain in this setting indefinitely in order to avoid the need for more intensive settings.

This program is for persons who only need minimum support in order to live in the community. These individuals may require rent subsidy, as well as the backup of another system, in order to remain in this setting. The satellite units are to be as normative as the general living arrangements in the communities in which they are developed.

(e) A program to provide emergency housing or respite care services, or both. These services are designed for persons with a mental disability in need of temporary housing, but who do not require hospitalization or the more intensive support and treatment of the crisis residential program. Services provided shall include, but not be limited to, advocacy, counseling, and linkages to community mental health and other human services, including referrals to

vocational and housing opportunities.

(f) In areas applying for a system where there is no day treatment program, or where the day treatment program is housed totally in a hospital, the county shall be encouraged to develop such a program, consistent with the principles and practices outlined above, in a noninstitutional setting and employing a rehabilitation focus. Where there are already existing services, efforts should be made to assure the capability of such day treatment services with the goals of the system programs. This may require the relocation of such services or the addition of staff.

(g) The program for socialization centers shall be designed to serve a broad range of clients, including those in the system programs, when appropriate, as well as persons living in the community in general. This program is designed to provide regular daytime, evening, and weekend activities for persons who require long-term, structured support, but who do not receive such services in their living setting. Although the socialization center is meant to provide a maintenance support program for those individuals who only wish or require regular socialization opportunities, the programs should also provide the opportunity to develop the skills to move toward more independent functioning.

The services in this program shall include, but not be limited to, outings, recreational activities, cultural events, linkages to community resources, as well as prevocational counseling, life skills training, and other rehabilitation efforts. This program is for persons who would lose contact with a social or treatment system, or both, if left to their isolated living situation, or their ability to participate in activities for the "general public." With this level of support, persons would be able to lead full and active lives, with the opportunity to develop the skills to move toward independent living. Also included in the program are adult education support programs which utilize community college and other adult education agencies. These services would provide opportunities to individuals throughout the community residential treatment system and in other living settings, including independent living, to develop skills necessary for independent living through the utilization of resources available to the general population.

(h) An in-home treatment program designed as an alternative to out-of-home placement for individuals who are otherwise not appropriate for, or do not choose to participate in, other elements of the community residential treatment system. This program is designed for those individuals who would benefit most from a treatment intervention in their home environment. It is a basic premise of this element that treatment focus on the development of family and other personal and community supports, rather than exclusively on the individual. The goal of the program is to reintegrate the individual with the family unit, when appropriate, and with the greater community without removing the person from his or her home environment.

The service may be designed as a crisis intervention for persons experiencing an acute episode or an ongoing independent living service, or both, for persons wishing to obtain or maintain housing and services in the community. Services provided shall include, but not be limited to, crisis intervention, family work, when appropriate, development of a specific treatment plan, development of an ongoing rehabilitation plan utilizing available resources in the community, and coordination with such services as case management, vocational rehabilitation, schools and other education services, and various special programs which would act as a support system for the individual.

(i) A volunteer-based companion program designed to encourage the development of personal relationships with residents of community care facilities with the goal of motivating and assisting residents to make a successful transition to independent living, or to programs of the community residential treatment system.

The service shall be provided primarily by volunteers, including students as a part of a college or university curriculum, who are supervised and coordinated by trained and experienced personnel. Services provided shall include, but not be limited to, recreation, one-to-one companionship, advocacy, and assistance in developing the knowledge and use of community resources, including housing and vocational services, and followup for persons who make the transition to independent living.

(j) A self-help independent living program that utilizes mentally disabled persons living independently in the community to work with clients of the mental health system. Staff for this program shall consist of unpaid volunteers who are or have been clients of the mental health system. Paid staff shall be limited to coordinators of volunteer activities. The duties of the volunteers shall include, but not be limited to, training in independent living skills, housing advocacy and referral, financial benefits counseling, and peer counseling.

(k) A continuum of vocational services which provide at least the three following distinct levels:

(1) Work preparation.

(2) Work experience.

(3) Work placement.

Vocational services shall be designed in the context of a business which provides goods or services to the community. These vocational services shall be transitional in nature and shall include, but not be limited to, counseling and ongoing assessment of the client's vocational performance and goals. The staffing patterns shall include individuals with experience in the type of business or service being provided and persons who have been consumers of mental health services.

This section shall not be construed to limit the services of the Department of Rehabilitation to the mentally disabled.

SEC. 2. Section 5467 is added to the Welfare and Institutions

Code, to read:

5467. (a) The State Department of Mental Health shall develop a long-range plan to implement the program changes necessary to address the service needs of clients aged 21 to 64, inclusive, who are currently served in skilled nursing facilities with state-certified Special Treatment Programs. On or before September 1, 1988, the department shall distribute this plan to all interested parties, including, but not limited to, the Legislature, mental health providers, consumers, and family organizations, as well as entities of county government. In developing the plan, the department shall ensure that the maximum feasible opportunity for public participation.

(b) Except as provided in subdivision (c), before any sale of property can be made under the power of sale contained in any deed of trust or mortgage, or any resale resulting from a rescission for a failure of consideration pursuant to subdivision (c) of Section 2924h, notice of the sale thereof shall be given by posting a written notice of the time of sale and of the street address and the specific place at the street address where the sale will be held, and describing the property to be sold, at least 20 days before the date of sale in one public place in the city where the property is to be sold, if the property is to be sold in a city, or, if not, then in one public place in the judicial district in which the property is to be sold, and publishing a copy thereof once a week for the same period, in a newspaper of general circulation published in the city in which the property or

some part thereof is situated, if any part thereof is situated in a city, if not, then in a newspaper of general circulation published in the judicial district in which the property or some part thereof is situated, or in case no newspaper of general circulation is published in the city or judicial district, as the case may be, in a newspaper of general circulation published in the county in which the property or some part thereof is situated, or in case no newspaper of general circulation is published in the city or judicial district or county, as the case may be, in a newspaper of general circulation published in the county in this state that (1) is contiguous to the county in which the property or some part thereof is situated and (2) has, by comparison with all similarly contiguous counties, the highest population based upon total county population as determined by the most recent federal decennial census published by the Bureau of the Census. A copy of the notice of sale shall also be posted in a conspicuous place on the property to be sold at least 20 days before the date of sale, where possible and where not restricted for any reason. If the property is a single-family residence the posting shall be on a door of the residence, but, if not possible or restricted, then the notice shall be posted in a conspicuous place on the property; however, if access is denied because a common entrance to the property is restricted by a guard gate or similar impediment, the property may be posted at that guard gate or similar impediment to any development community. Additionally, the notice of sale shall be recorded with the county recorder of the county in which the property or some part thereof is situated at least 14 days prior to the date of sale. The notice of sale shall contain the name, street address, and telephone number of the trustee or other person conducting the sale, and the name of the original trustor, and also shall contain the statement required by paragraph (3) of subdivision (c). In addition to any other description of the property, the notice shall describe the property by giving its street address, if any, or other common designation, if any; but if the property has no street address or other common designation, the notice shall contain the name and address of the beneficiary at whose request the sale is to be conducted and a statement that directions may be obtained pursuant to a written request submitted to the beneficiary within 10 days from the first publication of the notice. Directions shall be deemed reasonably sufficient to locate the property if information as to the location of the property is given by reference to the direction and approximate distance from the nearest crossroads, frontage road, or access road. If a legal description of the property is given, the validity of the notice and the validity of the sale shall not be affected by the fact that the street address, other common designation, name and address of the beneficiary, or the directions obtained therefrom are erroneous or that the street address, other common designation, name and address of the beneficiary or directions obtained therefrom are omitted. The term newspaper of general circulation as used in this section has the same meaning as defined in Article 1 (commencing

with Section 6000) of Chapter 1 of Division 7 of Title 1 of the Government Code.

The notice of sale shall contain a statement of the total amount of the unpaid balance of the obligation secured by the property to be sold and reasonably estimated costs, expenses, advances at the time of the initial publication of the notice of sale, and, if republished pursuant to a cancellation of a cash equivalent pursuant to subdivision (d) of Section 2924h, a reference of that fact; provided, that the trustee shall incur no liability for any good faith error in stating the proper amount. An inaccurate statement of this amount shall not affect the validity of any sale to a bona fide purchaser for value, nor shall the failure to post the notice of sale on a door as provided by this subdivision affect the validity of any sale to a bona fide purchaser for value.

(c) (1) This subdivision applies only to deeds of trust or mortgages which contain a power of sale and which are secured by real property containing a single-family, owner-occupied residence, where the obligation secured by the deed of trust or mortgage is contained in a contract for goods or services subject to the provisions of the Unruh Act (Chapter 1 (commencing with Section 1801) of Title 2 of Part 4 of Division 3).

(2) Except as otherwise expressly set forth in this subdivision, all other provisions of law relating to the exercise of a power of sale shall govern the exercise of a power of sale contained in a deed of trust or mortgage described in paragraph (1).

(3) If any default of the obligation secured by a deed of trust or mortgage described in paragraph (1) has not been cured within 30 days after the recordation of the notice of default, the trustee or mortgagee shall mail to the trustor or mortgagor, at his or her last known address, a copy of the following statement:

YOU ARE IN DEFAULT UNDER A

_____ ,

(Deed of trust or mortgage)

DATED _____. UNLESS YOU TAKE ACTION TO PROTECT YOUR PROPERTY, IT MAY BE SOLD AT A PUBLIC SALE. IF YOU NEED AN EXPLANATION OF THE NATURE OF THE PROCEEDING AGAINST YOU, YOU SHOULD CONTACT A LAWYER.

(4) All sales of real property pursuant to a power of sale contained in any deed of trust or mortgage described in paragraph (1) shall be held in the county where the residence is located and shall be made to the person making the highest offer. The trustee may receive offers during the 10-day period immediately prior to the date of sale and if any offer is accepted in writing by both the trustor or mortgagor and the beneficiary or mortgagee prior to the time set for sale, the sale shall be postponed to a date certain and, prior to which the property may be conveyed by the trustor to the person making

the offer according to its terms. The offer is revocable until accepted. The performance of the offer following acceptance, according to its terms by a conveyance of the property to the offeror shall operate to terminate any further proceeding under the notice of sale and it shall be deemed revoked.

(5) In addition to the trustee fee pursuant to Section 2924c, the trustee or mortgagee pursuant to a deed of trust or mortgage subject to this subdivision shall be entitled to charge an additional fee of fifty dollars ($50).

(6) This subdivision applies only to property on which notices of default were filed on or after the effective date of this subdivision.

SEC. 2. Section 2924h of the Civil Code is amended to read:

2924h. (a) Each and every bid made by a bidder at a trustee's sale under a power of sale contained in a deed of trust or mortgage shall be deemed to be an irrevocable offer by that bidder to purchase the property being sold by the trustee under the power of sale for the amount of the bid. Any second or subsequent bid by the same bidder or any other bidder for a higher amount shall be a cancellation of the prior bid.

(b) At the trustee's sale the trustee shall have the right (1) to require every bidder to show evidence of the bidder's ability to deposit with the trustee the full amount of his or her final bid in cash, a cashier's check drawn on a state or national bank, a check drawn by a state or federal credit union, or a check drawn by a state or federal savings and loan association, savings association, or savings bank specified in Section 5102 of the Financial Code and authorized to do business in this state, or a cash equivalent which has been designated in the notice of sale as acceptable to the trustee prior to and as a condition to the recognizing of the bid, and to conditionally accept and hold these amounts for the duration of the sale, and (2) to require the last and highest bidder to deposit, if not deposited previously, the full amount of the bidder's final bid in cash, a cashier's check drawn on a state or national bank, a check drawn by a state or federal credit union, or a check drawn by a state or federal savings and loan association, savings association, or savings bank specified in Section 5102 of the Financial Code and authorized to do business in this state, or a cash equivalent which has been designated in the notice of sale as acceptable to the trustee, immediately prior to the completion of the sale, the completion of the sale being so announced by the fall of the hammer or in other customary manner. The present beneficiary of the deed of trust under foreclosure shall have the right to offset his or her bid(s) only to the extent of the total amount due the beneficiary including the trustee's fees and expenses.

(c) In the event the trustee accepts a check drawn by a credit union or a savings and loan association pursuant to this subdivision or a cash equivalent designated in the notice of sale, the trustee may withhold the issuance of the trustee's deed to the successful bidder submitting the check drawn by a state or federal credit union or savings and loan association or the cash equivalent until funds

become available to the payee or endorsee as a matter of right.

For the purposes of this subdivision, the trustee's sale shall be deemed final upon the acceptance of the last and highest bid. However, the sale is subject to an automatic rescission for a failure of consideration in the event the funds are not available to the payee or endorsee as a matter of right as defined in subdivision (d) of Section 12413 of the Insurance Code. The trustee shall send a notice of rescission for a failure of consideration to the last and highest bidder submitting the check or alternative instrument, if the address of the last and highest bidder is known to the trustee.

If a sale results in an automatic right of rescission for failure of consideration pursuant to this subdivision, the interest of any lienholder shall be reinstated in the same priority as if the previous sale had not occurred.

(d) If the trustee has not required the last and highest bidder to deposit the cash, a cashier's check drawn on a state or national bank, a check drawn by a state or federal credit union, or a check drawn by a state or federal savings and loan association, savings association, or savings bank specified in Section 5102 of the Financial Code and authorized to do business in this state, or a cash equivalent which has been designated in the notice of sale as acceptable to the trustee in the manner set forth in paragraph (2) of subdivision (b), the trustee shall complete the sale. If the last and highest bidder then fails to deliver to the trustee, when demanded, the amount of his or her final bid in cash, a cashier's check drawn on a state or national bank, a check drawn by a state or federal credit union, or a check drawn by a state or federal savings and loan association, savings association, or savings bank specified in Section 5102 of the Financial Code and authorized to do business in this state, or a cash equivalent which has been designated in the notice of sale as acceptable to the trustee, that bidder shall be liable to the trustee for all damages which the trustee may sustain by the refusal to deliver to the trustee the amount of the final bid, including any court costs and reasonable attorneys' fees.

If the last and highest bidder willfully fails to deliver to the trustee the amount of his or her final bid in cash, a cashier's check drawn on a state or national bank, a check drawn by a state or federal credit union, or a check drawn by a state or federal savings and loan association, savings association, or savings bank specified in Section 5102 of the Financial Code and authorized to do business in this state, or a cash equivalent which has been designated in the notice of sale as acceptable to the trustee, or if the last and highest bidder cancels an instrument submitted to the trustee as a cash equivalent, that bidder shall be guilty of a misdemeanor punishable by a fine of not more than two thousand five hundred dollars ($2,500).

In the event the last and highest bidder cancels an instrument submitted to the trustee as a cash equivalent, the trustee shall provide a new notice of sale in the manner set forth in Section 2924f and shall be entitled to recover the costs of the new notice of sale as provided in Section 2924c.

(e) Any postponement or discontinuance of the sale proceedings shall be a cancellation of the last bid.

(f) In the event that this section conflicts with any other statute, then this section shall prevail.

(g) It shall be unlawful for any person, acting alone or in concert with others, (1) to offer to or accept from another any consideration of any type not to bid, or (2) to fix or restrain bidding in any manner, at a sale of property conducted pursuant to a power of sale in a deed of trust or mortgage. In addition to any other remedies, any person committing any act declared unlawful by this subdivision or any act which would operate as a fraud or deceit upon any beneficiary, trustor, or junior lienor shall, upon conviction, be fined not more than ten thousand dollars ($10,000) or imprisoned in the county jail for not more than one year, or be punished by both that fine and imprisonment.

SEC. 3. The changes relating to notice of sale contained in subdivision (b) of Section 2924f of the Civil Code made by this act shall apply only to notices of sale issued on and after July 1, 1988.

CHAPTER 726

An act to add Section 99251 to the Public Utilities Code, and to amend Sections 612, 1808.1, 1812, 12812, 12813, 23168, 34501, 40000.6, and 40508 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 18, 1987. Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 99251 is added to the Public Utilities Code, to read:

99251. No claim submitted by an operator pursuant to this chapter shall be approved unless it is accompanied by a certification completed within the last 13 months from the Department of the California Highway Patrol indicating that the operator is in compliance with Section 1808.1 of the Vehicle Code. The certification may be issued following a terminal inspection, or a terminal reinspection conducted within 60 days thereafter, by the Department of the California Highway Patrol.

SEC. 2. Section 612 of the Vehicle Code is amended to read:

612. "Tour bus" means a bus designed for carrying more than 10 passengers and the driver which is operated by or for a charter-party carrier of passengers, as defined in Section 5360 of the Public Utilities Code.

SEC. 3. Section 1808.1 of the Vehicle Code is amended to read:

1808.1. (a) The prospective employer of a driver who drives a vehicle requiring a certificate issued pursuant to Section 2512, 12517,

12519, 12519.5, 12521, 12523, 12524, 12804.1, or 12804.3 shall obtain a report showing the driver's current public record as recorded by the department.

(b) (1) The employer of a driver who drives a vehicle requiring a certificate issued pursuant to Section 2512, 12517, 12519, 12519.5, 12521, 12523, 12524, 12804.1, or 12804.3 shall make a request to the department to participate in a pull notice system, which is a process for the purpose of providing the employer with a report showing the driver's current public record as recorded by the department, and any subsequent convictions, failures to appear, accidents, driver's license suspensions, driver's license revocations, or any other actions taken against the driving privilege or certificate, added to the driver's record while the employer's notification request remains valid and uncanceled.

(2) Each transit operator, as defined in Section 99210 of the Public Utilities Code, which employs any person as a driver of a bus, shall make a request to the department to participate in a pull notice system, which is a process for the purpose of providing the employer with a report showing the driver's current public record as recorded by the department, and any subsequent convictions, failures to appear, accidents, driver's license suspensions, driver's license revocations, or any other actions taken against the driving privilege or certificate, added to the driver's record while the employer's notification request remains valid and uncanceled.

(c) The employer of a driver of a tour bus requiring a certificate issued pursuant to Section 12519.5 and each transit operator employing bus drivers shall, additionally, obtain a periodic report from the department at least every six months, except that an employer who employs more than 500 drivers shall obtain a report no less than annually. The employer shall verify that each employee's driver's license has not been suspended or revoked, the employee's traffic violation point count, and whether the employee has been charged with a violation of Section 23152 or 23153. The report shall be signed and dated by the employer and maintained at the employer's principal place of business. The reports shall be presented upon demand to any authorized representative of the Department of the California Highway Patrol during regular business hours.

(d) Upon the termination of a driver's employment, the employer shall notify the department to cancel any reports required by this section.

(e) An employer who, after receiving any driving record pursuant to this section, employs or continues to employ as a driver any person against whom a disqualifying action has been taken regarding his or her driving privilege or required driver's certificate, is guilty of a public offense, and upon conviction thereof, shall be punished by imprisonment in the county jail for not more than six months, by a fine of not more than one thousand dollars ($1,000), or by both that fine and imprisonment.

(f) As part of its inspection of bus maintenance facilities and terminals required at least once every 13 months pursuant to subdivision (c) of Section 34501, the Department of the California Highway Patrol shall determine whether each transit operator is then in compliance with this section, and shall certify each operator found to be in compliance. No funds shall be allocated under Chapter 4 (commencing with Section 99200) of Part 11 of Division 10 of the Public Utilities Code to a transit operator which the Department of the California Highway Patrol has not certified under this section.

(g) A request to participate in the pull notice system established by this section shall be accompanied by a fee determined by the department to be sufficient to defray the entire actual cost to the department for the notification service. For the receipt of subsequent reports, the employer shall also be charged a fee established by the department pursuant to Section 1811. Any employer who qualifies under Section 1812 shall be exempt from any fee required under this section.

SEC. 4. Section 1812 of the Vehicle Code is amended to read:

1812. The department shall not charge for copies of records or for information from its records given to any county, city, any transit operator as defined in Section 99210 of the Public Utilities Code, state department, or the United States government.

SEC. 5. Section 12812 of the Vehicle Code is amended to read:

12812. If a driver with a class 3 or 4 license, who is not required to have a certificate under any provision of this code, is presumed to be a negligent operator pursuant to Section 12810.5, the department may, as a condition of probation, issue a restricted driver's license to permit driving of a vehicle while in the course of the driver's employment during specified hours of employment or any other restrictions as determined by the department. The restrictions shall be noted on the driver's license.

SEC. 6. Section 12813 of the Vehicle Code is amended to read:

12813. (a) The department may, upon issuing a driver's license or after issuance whenever good cause appears, impose restrictions suitable to the licensee's driving ability with respect to the type of, or special mechanical control devices required on, a motor vehicle which the licensee may operate or impose other restrictions applicable to the licensee that the department may determine to be appropriate to assure the safe operation of a motor vehicle by the licensee.

(b) The department may issue either a special restricted license or may set forth the restrictions upon the usual license form.

(c) The authority of the department to issue restricted licenses under this section is subject to Sections 12812 and 13352.5.

SEC. 7. Section 23168 of the Vehicle Code is amended to read:

23168. (a) Any person, except as provided in subdivision (b), who has been granted probation under the conditions of subdivision (b) of Section 23166, may, after six months have elapsed since the commencement of participation in the treatment program, petition

the court to have the restriction on that person's privilege to operate a motor vehicle removed, and the court may, for good cause shown, order the Department of Motor Vehicles to remove the restrictions upon a showing that the person has successfully participated in the treatment program and complied with the terms and conditions of probation and has given proof of ability to respond in damages as defined in Section 16430.

(b) Regardless of the type of vehicle used in committing the offense, this section shall not apply to persons holding a class 1 or 2 license or to a person holding a class 3 license who is required to have a certificate under any provision of this code.

SEC. 8. Section 34501 of the Vehicle Code, as added by Section 3 of Chapter 969 of the Statutes of 1986, is amended to read:

34501. (a) (1) The department shall adopt reasonable rules and regulations which, in the judgment of the department, are designed to promote the safe operation of vehicles described in Section 34500, regarding, but not limited to, hours of service of drivers, equipment, fuel containers, fueling operations, inspection, maintenance, recordkeeping, accident reports, and drawbridges. The rules and regulations shall not, however, be applicable to schoolbuses, which shall be subject to rules and regulations adopted pursuant to Section 34501.5.

(2) The commissioner shall appoint a committee of 15 members, consisting of representatives of industry subject to the regulations to be adopted pursuant to this section, to act in an advisory capacity to the department, and the department shall cooperate and confer with the advisory committee so appointed. The commissioner shall appoint a separate committee to advise the department on rules and regulations concerning wheelchair lifts for installation and use on buses, consisting of persons who use the wheelchair lifts, representatives of transit districts, representatives of designers or manufacturers of wheelchairs and wheelchair lifts, and representatives of the Department of Transportation.

(3) The department may inspect any vehicles in maintenance facilities or terminals, as well as any records relating to the dispatch of vehicles or drivers, and the pay of drivers, to assure compliance with this code and regulations adopted pursuant to this section.

(b) The department, using the definitions adopted pursuant to Section 2402.7, shall adopt regulations for the transportation of hazardous materials in this state, except the transportation of materials which are subject to other provisions of this code, that the department determines are reasonably necessary to ensure the safety of persons and property using the highways. The regulations may include provisions governing the filling, marking, packing, labeling, and assembly of, and containers that may be used for, hazardous materials shipments, and the manner by which the shipper attests that the shipments are correctly identified and in proper conditions for transport.

(c) At least once every 13 months, the department shall inspect

every maintenance facility or terminal of any person who at any time operates any bus. If the bus operation includes more than 100 buses, the inspection shall be without prior notice.

(d) The commissioner shall adopt and enforce regulations which will make the public or private users of any bus aware of the operator's last safety rating.

(e) It is unlawful and constitutes a misdemeanor for any person to operate any bus without the inspection specified in subdivision (c) having been conducted.

(f) The department may adopt regulations restricting or prohibiting the movement of any vehicle from a maintenance facility or terminal if the vehicle is found in violation of this code or regulations adopted pursuant to this section.

SEC. 9. Section 40000.6 of the Vehicle Code is amended to read:

40000.6. A violation of subdivision (c) of Section 1808.1, relating to drivers required to be certificated pursuant to Section 12519.5, is a misdemeanor and not an infraction.

SEC. 10. Section 40508 of the Vehicle Code is amended to read:

40508. (a) Any person willfully violating his or her written promise to appear or a lawfully granted continuance of his or her promise to appear in court or before a person authorized to receive a deposit of bail is guilty of a misdemeanor regardless of the disposition of the charge upon which he or she was originally arrested.

(b) Any person willfully failing to pay a lawfully imposed fine for a violation of any provision of this code or a local ordinance adopted pursuant to this code within the time authorized by the court and without lawful excuse having been presented to the court on or before the date the fine is due is guilty of a misdemeanor regardless of the full payment of the fine after such time.

(c) If a person convicted of an infraction fails to pay a fine or any installment thereof within the time authorized by the court, the court may, except as otherwise provided in this subdivision, impound the person's driver's license and order the person not to drive for a period not to exceed 30 days. Before returning the license to the person, the court shall endorse on the reverse side of the license that the person was ordered not to drive, the period for which that order was made, and the name of the court making the order. If a defendant with a class 3 or 4 driver's license satisfies the court that impounding his or her driver's license and ordering the defendant not to drive will affect his or her livelihood, the court shall order that the person limit his or her driving for a period not to exceed 30 days to driving that is essential in the court's determination to the person's employment, including the person's driving to and from his or her place of employment if other means of transportation are not reasonably available. The court shall provide for the endorsement of the limitation on the person's license. The impounding of the license and ordering the person not to drive or the order limiting the person's driving does not constitute a suspension of the license, but

a violation of the order constitutes contempt of court.

SEC. 11. This act shall become operative on July 1, 1988.

SEC. 12. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 727

An act to add and repeal Section 6155 of the Business and Professions Code and to amend, add, and repeal Section 43.95 of the Civil Code, relating to civil law.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares that many of the citizens of the state who are potential consumers of legal services often find it difficult to locate attorneys willing to consult with them for a nominal fee. The Legislature further finds and declares that lawyer referral services are of great value, but that because a potential for abuse exists, referral services should be regulated in order to ensure that those services exist for the true benefit of the public.

SEC. 2. Section 6155 is added to the Business and Professions Code, to read:

6155. (a) An individual, partnership, corporation, association, or any other entity shall not use the term "referral service" or similar terms, if the purpose of the individual, partnership, corporation, association, or entity is to refer potential clients to attorneys, unless all of the following requirements are met:

(1) The service is registered with the State Bar of California and (a) on July 1, 1988, is operated in conformity with minimum standards for a lawyer referral service established by the State Bar, or (b) upon approval by the Supreme Court of minimum standards for a lawyer referral service, is operated in conformity with those standards.

(2) The combined charges to the potential client by the referral service and the attorney to whom the potential client is referred do not exceed the total cost that the client would normally pay if no referral service were involved.

(b) A referral service shall not be owned or operated, in whole or in part, directly or indirectly, by those lawyers to whom, individually or collectively, more than 20 percent of referrals are made. For

purposes of this subdivision, a referral service that is owned or operated by a bar association, as defined in the minimum standards, shall be deemed to be owned or operated by its governing committee so long as the governing committee is constituted and functions in the manner prescribed by the minimum standards.

(c) Neither of the following is a lawyer referral service:

(1) A plan of legal insurance as defined in Section 119.6 of the Insurance Code.

(2) A group or prepaid legal plan, whether operated by a union, trust, mutual benefit or aid association, public or private corporation, or other entity or person, which meets both of the following conditions:

(A) It recommends, furnishes, or pays for legal services to its members or beneficiaries.

(B) It provides telephone advice or personal consultation.

(d) The following are in the public interest and do not constitute an unlawful restraint of trade or commerce:

(1) An agreement between a referral service and a participating attorney to eliminate or restrict the attorney's fee for an initial office consultation for each potential client or to provide free or reduced fee services.

(2) Requirements by a referral service that attorneys meet reasonable participation requirements, including experience, education, and training requirements.

(3) Provisions of the minimum standards as approved by the Supreme Court.

(e) A violation or threatened violation of this section may be enjoined by any person.

(f) With the approval of the Supreme Court, the State Bar shall formulate and enforce rules and regulations for carrying out this section, including rules and regulations which do the following:

(1) Establish minimum standards for lawyer referral services. The minimum standards shall include provisions ensuring that panel membership shall be open to all attorneys practicing in the geographical area served who are qualified by virtue of suitable experience, and limiting attorney registration and membership fees to reasonable sums which do not discourage widespread attorney membership.

(2) Require that an entity seeking to qualify as a lawyer referral service register with the State Bar and obtain from the State Bar a certificate of compliance with the minimum standards for lawyer referral services. A lawyer referral service that, on July 1, 1988, has been authorized by the State Bar shall have a reasonable period, not to exceed six months, after approval of the minimum standards by the Supreme Court to obtain a certificate of compliance.

(3) Require that the certificate may be obtained, maintained, suspended, or revoked pursuant to procedures set forth in the rules and regulations.

(4) Require the lawyer referral service to pay an application and

renewal fee for the certificate in such reasonable amounts as may be determined by the State Bar. The State Bar shall adopt rules authorizing the waiver or reduction of the fees upon a demonstration of financial necessity.

(5) Require each lawyer who is a member of a certified lawyer referral service to possess a policy of errors and omissions insurance in an amount not less than one hundred thousand dollars ($100,000) for each occurrence and three hundred thousand dollars ($300,000) aggregate, per year. By rule, the State Bar may provide for alternative proof of financial responsibility to meet this requirement.

(g) The State Bar of California shall submit the proposed rules and regulations adopted pursuant to this section to the Supreme Court for approval no later than July 1, 1988.

(h) This section shall not be construed to prohibit attorneys from jointly advertising their services.

(i) This section shall become inoperative on July 1, 1993, and, as of January 1, 1994, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1994, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 3. Section 43.95 of the Civil Code is amended to read:

43.95. (a) There shall be no monetary liability on the part of, and no cause of action for damages shall arise against, any professional society or any nonprofit corporation authorized by the society to operate a referral service, or a nonprofit lawyer referral service registered with the State Bar of California and which conforms to the minimum standards for a lawyer referral service approved by the Supreme Court, or their agents, employees, or members, for referring any member of the public to any professional member of the society or service, or for acts of negligence or conduct constituting unprofessional conduct committed by a professional to whom a member of the public was referred, so long as any of the foregoing persons or entities has acted without malice, and the referral was made at no cost added to the initial referral fee as part of a public service referral system organized under the auspices of the professional society or nonprofit lawyer referral service. Further, there shall be no monetary liability on the part of, and no cause of action for damages shall arise against, any professional society for providing a telephone information library available for use by the general public without charge, nor against any nonprofit corporation authorized by the society for providing a telephone information library available for use by the general public without charge. "Professional society" includes psychological, architectural, medical, dental, dietetic, accounting, optometric, podiatric, pharmaceutic, chiropractic, veterinary, licensed marriage, family, and child counseling, licensed clinical social work, and engineering organizations having as members at least a majority of the eligible persons or licentiates in the area served by the particular society, or organizations with nonprofit lawyer referral services which are registered with the State Bar of California and conform to the

minimum standards for a lawyer referral service approved by the Supreme Court, and organizations which have been established to provide free assistance or representation to needy patients or clients.

(b) This section shall not apply whenever the professional society, while making a referral to a professional member of the society, or a lawyer referral service registered with the State Bar of California while making a referral to an attorney, fails to disclose the nature of any disciplinary action of which it has actual knowledge taken by a state licensing agency against that professional. However, there shall be no duty to disclose a disciplinary action in either of the following cases:

(1) Where a disciplinary proceeding results in no disciplinary action being taken against the professional to whom a member of the public was referred.

(2) Where a period of three years has elapsed since the professional to whom a member of the public was referred has satisfied any terms, conditions, or sanctions imposed upon such professional as disciplinary action; except that if the professional is an attorney, there shall be no time limit on the duty to disclose.

(c) A nonprofit referral service that, on July 1, 1988, has been authorized by the State Bar of California and determined to be operating in accordance with its minimum standards for a lawyer referral service, shall be afforded the protection conferred by this section against monetary liability for a reasonable period, not to exceed six months, after approval of the minimum standards by the Supreme Court to permit that referral service to apply for reregistration with the State Bar under the approved standards.

(d) This section shall become inoperative on July 1, 1993, and, as of January 1, 1994, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1994, deletes or extends the dates on which it becomes inoperative and is repealed.

43.95. (a) There shall be no monetary liability on the part of, and no cause of action for damages shall arise against, any professional society or any nonprofit corporation authorized by such society to operate a referral service, or their agents, employees, or members, for referring any member of the public to any professional member of such society or service, or for acts of negligence or conduct constituting unprofessional conduct committed by a professional to whom a member of the public was referred, so long as any of the foregoing persons or entities has acted without malice, and the referral was made at no cost added to the initial referral fee as part of a public service referral system organized under the auspices of the professional society. Further, there shall be no monetary liability on the part of, and no cause of action for damages shall arise against, any professional society for providing a telephone information library available for use by the general public without charge, nor against any nonprofit corporation authorized by such society for providing a telephone information library available for use by the

(b) This section shall not apply whenever the professional society, while making a referral to a professional member of such society, fails to disclose the nature of any disciplinary action of which it has actual knowledge taken by a state licensing agency against that professional member. However, there shall be no duty to disclose a disciplinary action in either of the following cases:

(1) Where a disciplinary proceeding results in no disciplinary action being taken against the professional to whom a member of the public was referred.

(2) Where a period of three years has elapsed since the professional to whom a member of the public was referred has satisfied any terms, conditions, or sanctions imposed upon such professional as disciplinary action; except that if the professional is an attorney, there shall be no time limit on the duty to disclose.

(c) This section shall become operative on July 1, 1993.

SEC. 5. The State Bar shall submit a report to the Legislature on the implementation of the requirements of this act not later than two years after the Supreme Court approves minimum standards for the approval of a lawyer referral service.

SEC. 2. Section 5503 of the Financial Code is amended to read:

5503. (a) The commissioner shall, within a reasonable time after the petition is filed, or within a reasonable time after the hearing, if one is held, either approve or deny the petition for a certificate of authority.

(b) If approved, the commissioner shall issue a certificate of approval of the articles of incorporation of the association and shall issue a notice of conditional approval of the petition for a certificate of authority. Upon satisfaction of all of the conditions in the notice, the commissioner shall execute and issue to the association a certificate of authority.

(c) If denied, upon written request of any petitioner, the commissioner shall provide the statutory reason for denial. Denial of the petition is a final decision and the petitioner shall not be entitled to any further administrative remedy. The petitioner shall discontinue the use of the reserved name and provide evidence to the commissioner that the Secretary of State has been notified to release the name reservation.

SEC. 3. Section 5613 of the Financial Code is amended to read:

5613. (a) No association shall sell, except upon a sale for a delinquent assessment made in accordance with the provisions of the General Corporation Law, or offer for sale, or take subscriptions for, or issue any of its stock (except stock dividends), until the association has applied for and obtained from the commissioner a permit authorizing it to sell capital stock.

5750. (a) Pursuant to a plan or agreement (referred to as "agreement" in this article) adopted by the board of directors and approved by the commissioner as fair, just and equitable, and as adequately protecting the interests of the association, its members, or stockholders, its savings account holders and the public, an association shall have the power to reorganize or to merge or consolidate with or transfer all or substantially all its assets to another association or federal association, or any other corporation, provided that the principal terms of the plan of the reorganization, merger, consolidation, or transfer shall, in the case of a stock association, be approved at an annual meeting or at any special meeting, or by the written consent of the stockholders voting on the action, by not less than a majority of the total number of votes eligible to be cast. In the case of a mutual association, if required by the commissioner, the principal terms of such a plan shall be approved by members representing not less than a majority of the voting power.

(b) In all cases the survivor association shall succeed to all the rights, obligations, and relations of the constituent associations.

As used in this section, "interim corporation" means a corporation formed to facilitate the acquisition of 100 percent of the voting stock of an existing association or other insured stock institution by or for a newly formed company or an existing savings and loan holding company or to facilitate any other transaction the commissioner may approve.

SEC. 6. Section 5800 of the Financial Code is amended to read:

5800. For the purposes of this article the following words and phrases shall have the following meanings:

(a) "Savings and loan holding company" means any person that either, directly or indirectly, or acting in concert with one or more other persons:

(1) Owns, controls, or holds with power to vote, or holds proxies to vote:

(A) Where the association or savings and loan holding company has fewer than 500 stockholders or members, 25 percent or more of the outstanding voting capital stock of any capital stock association or savings and loan holding company or 25 percent or more of the total number of votes or proxies of votes eligible to be cast by the members of any mutual association located in this state.

(B) Where the association or savings and loan holding company has at least 500 stockholders or members, 10 percent or more of the outstanding voting capital stock of any capital stock association or savings and loan holding company or 10 percent or more of the total

number of votes or proxies of votes eligible to be cast by the members of any mutual association located in this state.

(2) Controls in any manner, whether by the holding of proxies or otherwise, the election of a majority of the directors of any association or savings and loan holding company located in this state.

(b) Notwithstanding subdivision (a), an individual or group of individuals shall not be deemed to be a "savings and loan holding company" solely because an individual or group of individuals solicits, holds, or votes proxies in an association if, at the time of receiving the proxies, the individual or group of individuals serve as directors of the association and solicited or received the proxies pursuant to authorization by the board of directors of the association.

(c) "Subsidiary" of a person means any person, except an individual that is directly or indirectly owned, controlled, or otherwise held by that person to the extent or in the manner described in the preceding subdivision.

(d) "Completed application" means an application for acquisition of control of an association, as filed with the commissioner, together with any amendments by the applicant, additional information requested in writing by the commissioner, and accompanied by the applicable filing fee pursuant to Section 9001. If the additional required information is not received within 30 days of the date of the request, the commissioner may consider the application complete upon written notice to the applicant.

SEC. 7. Section 5801 of the Financial Code is amended to read:

5801. (a) Except as provided in subdivision (b), no person may become a savings and loan holding company, or thereafter register under Section 5804, unless the commissioner approves a completed application. The application shall be in a form prescribed by the commissioner, contain the following information and any additional information that the commissioner may determine by regulation or by written instructions to be necessary or appropriate to preserve the public interest, the integrity of the state's savings association system, and to protect the interests of savings account holders, borrowers, and stockholders resident in this state:

(1) The identity, experience, and financial and managerial resources of each acquiring person by whom or on whose behalf the application is made.

(2) The terms, conditions, and method of any proposed acquisition, including copies of all tender offers used or to be used in connection with any proposed acquisition of capital stock.

(3) The source, kind, and amount of the consideration used or to be used in making the acquisition, and, if any part of the consideration has been or is to be borrowed or otherwise obtained for the purpose of making the acquisition, a description of the transaction and the names of all participating persons.

(4) Any plans or proposals that any acquiring person may have to liquidate or convert the association or savings and loan holding company, to sell its assets or merge it with any company, to change

the number of its employees in this state or the terms and conditions of their employment, or to make any other substantial change in its business, corporate structure, management or employees upon becoming a holding company.

(5) The names of those officers and directors that the acquiring person proposes to install in any change of managements, and for each of those officers and directors a financial statement, a description of experience in savings association related matters, and a statement as to whether the officer or director ever has been found guilty of misrepresentation, fraud, or financial misdealings.

(6) If any tender offer, request or invitation for tenders or other agreement to acquire control is proposed to be made by means of a registration statement under the federal Securities Act of 1933, as amended, or in circumstances requiring the disclosure of similar information under the federal Securities Exchange Act of 1934, as amended, or in an application filed with the Federal Home Loan Bank Board requiring similar disclosure, that registration statement or application may be filed with the commissioner in lieu of the requirements of this section.

(b) The commissioner may exempt any transaction from the operation of this section if the commissioner determines that regulation of the transaction is not necessary or appropriate.

SEC. 8. Section 5802 of the Financial Code is amended to read:

5802. The commissioner shall within 60 days after the date of filing of a completed application, unless good cause is shown why a decision to approve or deny could not be made within 60 days, approve the application with any conditions reasonably necessary or advisable in the public interest, or deny the application. The commissioner shall determine whether the following criteria are met, and if the criteria are not met, the application shall be denied:

(a) The acquisition, under any federal or state law, will not substantially lessen competition and will not in any manner be in restraint of trade or result in a monopoly, or be in furtherance of any combination or conspiracy to monopolize or attempt to monopolize the savings association business in any part of the state unless the commissioner finds that the anticompetitive effects of the proposed acquisition are clearly outweighed in the public interest in meeting the convenience and needs of the community that the association serves.

(b) The financial condition of any acquiring person will not jeopardize the financial stability of the association or the savings and loan holding company sought to be acquired and will not prejudice the interest of the savings account holders, borrowers, or stockholders of the association and is in the public interest.

(c) The plan or proposal under which the acquiring person intends to liquidate the savings association or the savings and loan holding company, to sell its assets or to merge it with any person or association, or to make any other major change in its business or corporate structure or management, is fair and reasonable to the

association, its savings account holders, borrowers, and resident stockholders, and will not tend to impair the integrity of the state's savings association system, and is in the public interest.

(d) The competence, experience, integrity, and resources of any acquiring person indicate that approval would be in the interest of the association, its savings account holders, borrowers, and resident stockholders and of the community that the association serves.

(e) The requirements of this article have been met.

(f) The acquisition would not violate state or federal law and the commissioner determines that approval is in the public interest.

(g) The applicant has provided all information requested by the commissioner.

SEC. 9. Section 5803 of the Financial Code is amended to read:

5803. (a) After the decision under this article by the commissioner either approving or denying the application, upon the filing with the commissioner within 30 days after the date of the decision of a written request for a hearing by any person aggrieved by the decision, the commissioner shall hold a public hearing on the merits of the request, after which the decision shall be affirmed, modified, or reversed.

(b) The commissioner shall have authority to amend, suspend, or revoke an approval of the application for acquisition of control upon failure of the applicant to meet the conditions of the approval, or upon a finding that the approval was based on false statements, misrepresentations, or omission of material facts.

SEC. 10. Section 5804 of the Financial Code is amended to read:

5804. (a) Within 60 days following approval, or a later date if extended by the commissioner, each savings and loan holding company shall register with the commissioner in a prescribed form which shall require information with respect to the financial condition, ownership, operations, management, and intercompany relationships of the savings and loan holding company and its subsidiaries, and related matters as the commissioner may deem necessary or appropriate.

(b) The registration shall automatically expire if the approval of the application for acquisition of control is revoked or suspended or the person ceases to be a savings and loan holding company.

(c) The commissioner shall be notified in writing by a registered savings and loan holding company upon any change in its beneficial or legal ownership of stock of an association.

SEC. 11. Section 5808 of the Financial Code is amended to read:

5808. No association that is a subsidiary in this state of any savings and loan holding company that does not have in effect a certificate of registration for that association as required by this article or whose holding company has failed to comply with (1) an order of a court made in respect to the provisions of this division or (2) an order of the commissioner under Section 8200, shall knowingly, without consent of the commissioner, do any of the following:

(a) Transfer or register stock or other securities on its books for

or issue certificates to its holding company.

(b) Pay dividends on stock of which its holding company is the record or beneficial owner.

(c) Permit the voting of stock owned or controlled by its holding company.

(d) Make any other payments of any nature to its holding company.

(e) Enter into any agreement, contract, or transaction with its holding company.

SEC. 12. Section 6475 of the Financial Code is amended to read:

6475. (a) Each association shall maintain an adequate statutory net worth appropriate for the conduct of its business and the protection of its savings account holders.

(b) The commissioner shall fix a minimum statutory net worth requirement applicable to all associations, which shall not be less than 3 percent of an association's total assets. In defining total assets, the commissioner may issue regulations to exclude from the total asset figure any asset items deemed appropriate by the commissioner. For the purpose of computing total assets as of any given date, an association at its option may use the average of total assets as of the end of the preceding calendar year and the total assets of the association at the end of any one or more, up to four, of the immediately preceding calendar years providing all the dates are consecutive.

(c) If the statutory net worth falls below the level specified by the commissioner, the commissioner may require the association to increase its statutory net worth within the time and in a manner designated by the commissioner, so as to bring the amount to the level determined adequate under this section, and may, in addition, require the association to do any one or more of the following:

(1) Increase its liquid assets and maintain that increased liquidity at the level specified by the commissioner.

(2) Cease to:

(A) Accept savings accounts of all classes or categories, except in exchange for accounts already outstanding.

(B) Accept savings accounts of any particular class, category, or amount.

(C) Receive additional funds upon savings accounts already outstanding other than installment accounts.

The provisions of paragraph (2) of subdivision (c) shall not prevent an association from crediting to savings accounts the interest earned on the accounts.

(3) Cease all lending, lending in a particular area, or making a particular type or category of loans.

(4) Cease purchase of loans or other investments.

(5) Cease or limit promotional expenditures.

(6) Convene a meeting or meetings of its board of directors with the commissioner in attendance to accomplish the objectives of this section.

(7) Take any other steps that the commissioner deems necessary to safeguard the interests of the association and the public.

SEC. 13. Section 6556 of the Financial Code is amended to read:

6556. (a) Upon review of the application for a branch office or agency and after a hearing on the branch application, if one is deemed necessary, the commissioner shall determine whether all of the following criteria are met:

(1) The applicant's policies, financial condition, and operations afford no basis for supervisory objection.

(2) The proposed branch office or agency will be opened within a reasonable time after approval, as determined by the commissioner.

(b) If the commissioner determines that the criteria set forth in subdivision (a) are met the application shall be approved.

(c) If the commissioner determines that the criteria set forth in subdivision (a) are not met the application shall be denied.

SEC. 14. Section 7453 of the Financial Code is amended to read:

7453. (a) An association may make, invest in, sell, purchase, participate in, or otherwise deal in secured or unsecured loans for agricultural, business, commercial, or corporate purposes, provided that the total investment in such loans does not exceed 10 percent of the assets of the association.

(b) An association may invest in, sell, purchase, participate in, or otherwise deal in loans specified in subdivision (a) which are originated by any savings association, federal association, holding company of a federally insured savings association, commercial bank, bank holding company, subsidiary of a bank holding company, or insurance company, provided that the total investment in such loans shall not exceed 10 percent of the association's assets.

(c) For the purposes of this section, the term "loan" includes, but is not limited to, any "corporate debt security" as defined under Section 5105.8.

(d) No association shall make, invest in, purchase, or participate in a loan for agricultural, business, commercial, or corporate purposes to one borrower, except as the commissioner may approve in writing, if the sum of the amount of the association's interest in the loan and the total balance of the association's interest in all outstanding loans for those purposes owed to the association by that borrower exceed the greater of (1) the amount a national bank having an identical total capital and surplus could lend to one borrower, or (2) the amount a commercial bank, as defined in Section 105, having an identical total shareholders' equity, capital notes, and debentures, could lend to one borrower. This subdivision shall not apply to loans (1) secured by real property, (2) sold without recourse, (3) on the security of the association's deposit accounts, or (4) of unsecured day funds, including federal funds or similar unsecured loans.

(e) As used in this section the term "one borrower" means:

(1) Any person that is, or upon the making of a loan will become,

an obligor on the loans. However, a guarantor shall not be included within the meaning of "obligor" if, in connection with a loan the association has determined, in good faith, that the primary obligor has qualified for the loan irrespective of the existence of the guarantor. In the case of a loan that has been assumed by a third party with the consent of the association, the former debtor and any guarantor shall not be deemed to be an "obligor."

(2) Nominees of the obligor.

(3) All persons, trusts, syndicates, partnerships and corporations of which the obligor is a nominee, a beneficiary, a member, a general partner, a limited partner owning an interest of 10 percent or more based on the value of his or her capital contribution, or a record or beneficial stockholder owning 10 percent or more of the capital stock.

(4) If the obligor is a trust, syndicate, partnership or corporation, all trusts, syndicates, partnerships and corporations of which any beneficiary, member, general partner, limited partner owning an interest of 10 percent or more based on the value of his or her capital contribution, or record or beneficial stockholder owning 10 percent or more of the capital stock, is also a beneficiary, member, general partner, limited partner owning an interest of 10 percent or more based on the value of his or her capital contribution, or record or beneficial stockholder owning 10 percent or more of the capital stock of the obligor.

(f) This section does not apply to loans to an association's service corporation or to a wholly owned subsidiary.

SEC. 15. Section 7505 of the Financial Code is amended to read:

7505. (a) Notwithstanding any other provision of law, an association may originate, invest in, sell, purchase, service, participate, or otherwise deal in loans (including construction loans) on the security of real property for primarily residential (other than a one- to four-unit dwelling) or nonresidential use, subject to the limitations of this article.

(b) An association's aggregate investment in real property loans for primarily nonresidential use under this section shall not exceed 40 percent of assets.

SEC. 16. Section 7700 of the Financial Code, as added by Section 8 of Chapter 225 of the Statutes of 1984, is repealed.

The district, in exercising that power, shall, in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal, reconstruction, or relocation of any structure, railways, mains, pipes, conduits, wires, cables, or poles of any public utility which is required to be removed to a new location.

SEC. 11. Whenever a part only of a parcel of land is required by the district, and the taking thereof, and the construction of the proposed public improvement thereon, will interfere with reasonable access to the remainder of a portion thereof, or will otherwise cause substantial damage to the remainder, the district

may condemn, purchase, or otherwise acquire the whole parcel of land or that portion of the remainder to which access is impaired and may sell the remainder or exchange the same for other property required for district purposes. Or, in lieu of that acquisition of the remainder, the district may condemn, purchase, or otherwise acquire an easement for ingress to and egress from the remainder for use by the public, including the owner of the land.

SEC. 12. The powers of the district enumerated in this act shall, except as otherwise provided in this act, be exercised by the board.

SEC. 13. The board of directors shall consist of five elected members. The term of office of directors shall be four years. The directors shall hold office until their successors shall be elected or appointed and qualified.

The successors of three of the directors, chosen by lot, shall be elected at the 1988 general election and the successors of the other two directors shall be elected at the 1990 general election, as provided in Section 15.

SEC. 15. The term of office shall begin at noon on the first Monday in January following the general district election. In order to be eligible for election or appointment, each director shall have been a qualified voter and a holder of title to land within the district or the legal representative of that holder of title to land. SEC. 18. Whenever a vacancy occurs in the office of an elected director, the vacancy shall be filled by appointment by the board of directors of a qualified voter. If the appointment is not made within 90 days from the occurrence of the vacancy, the Board of Supervisors

of Madera County shall make the appointment. An appointee shall hold office until the election and qualification of his or her successor. (b) The president or three members of the board have called the meeting by giving each director five days' written notice of the meeting.

(c) The directors have authorized the meeting by a resolution adopted at a former meeting and have caused five days' written notice of the meeting to be given by the secretary to each director not joining in the resolution.

SEC. 22. A majority of the membership of the board shall constitute a quorum of the board for the transaction of business. The vote of a majority of the directors present at any meeting attended by a quorum shall be necessary to determine any proposition or resolution presented.

SEC. 23. The secretary shall keep a record of all the proceedings conducted at meetings of the board. All documents pertaining to district affairs shall be filed in the office of the district with the secretary and shall be open to inspection at all times by any interested person.

SEC. 24. Each voter shall have one vote for each acre of land to which he or she holds title. The last equalized assessment book of the district is conclusive evidence of ownership and of the acreage of the land so owned, except that in the event that an assessment for the district shall not have been made and levied for the year in which the election is held, the last equalized assessment roll of Madera County shall be used in lieu of the assessment book of the district.

SEC. 25. Every voter, or his or her legal representative, may vote at any district election either in person or by a person duly appointed as his or her proxy.

SEC. 26. No appointment of a proxy shall be valid, accepted, or vote allowed thereon at any district election unless it meets all of the following requirements:

(a) It is in writing.

(b) It is executed by the person or legal representative of the person who, in accordance with Section 24, is entitled to the votes for which the proxy is given.

(c) It is acknowledged or certified in accordance with Section 2015.5 of the Code of Civil Procedure.

(d) It specifies the election at which time it is to be used. An appointment of a proxy shall be used only at the election specified.

(e) It shall be on a form as specified by the county clerk meeting the above requirements.

Every appointment of a proxy is revocable at the pleasure of the person executing it at any time before the person appointed as proxy shall have cast a ballot representing the votes for which the appointment was given.

SEC. 27. Before a legal representative votes at a district election, he or she shall present to the precinct board a certified copy of his or her authority which shall be kept and filed with the returns of the election.

SEC. 28. The district may adopt and enforce all rules, regulations, and ordinances which may be necessary and proper for the following:

(a) The administration and government of the district.

(b) The acquisition, purchase, or construction and use and operation of the water distribution system, property, and other facilities of the district.

(c) All other purposes of the district not in conflict with laws of this state.

SEC. 29. Any violation of a regulation or ordinance of the district is a misdemeanor punishable by fine not to exceed five hundred dollars ($500), or imprisonment not to exceed six months, or both.

SEC. 30. The board may institute projects for single zones and joint projects for two or more zones, for the financing, constructing, maintaining, operating, extending, repairing, or otherwise improving any work or improvement of common benefit to the zone or participating zones. For the purpose of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to undertake the project, together with the engineering estimates of the cost of the project to be borne by the particular zones or participating zones and fixing a time and place for a public hearing on the resolution and which shall refer to a map or maps showing the general location and general construction of the project. Notice of the hearing shall be given by publication once a week for two consecutive weeks prior to the hearing, the last publication of which shall be at least seven days before the hearing, in a newspaper of general circulation designated by the board, circulated in the zone or each of the participating zones. The notice shall designate a public place where a copy or copies of the map or maps of the joint project may be seen by any interested person. The map shall be posted in each of those public places so designated in the notice at least two weeks prior to the hearing.

At the time and place fixed for the hearing, or at any time to which the hearing may be continued, the board shall consider all written and oral objections to the proposed project. Upon the conclusion of

the hearing, the board may abandon the proposed project or proceed with the project, and its decision thereon shall be final and conclusive.

SEC. 31. The board shall, in any year, have the following powers:

(a) To levy ad valorem taxes or assessments in the district, to pay the general administrative costs and expenses, including maintenance and operation of established works, of the district and to carry out any of the objects or purposes of this act of common benefit to the district.

(b) To levy taxes or assessments in each or any of the zones and participating zones, to pay the costs of carrying out any of the objects or purposes of this act performed or to be performed on behalf of those respective zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works or improvements established or to be established within or on behalf of the respective zones, according to the benefits derived or to be derived by the respective zones, by any of the following methods:

(1) By a levy or assessment upon all property within a zone or participating zone, including land, improvements thereon, and personal property.

(2) By a levy or assessment upon all real property within a zone or participating zones, including both land and improvements thereon.

(3) By a levy or assessment upon land only within a zone or participating zones.

It is declared that for the purposes of any tax or assessment levied under this subdivision, the property so taxed or assessed within a given zone is equally benefited.

(c) To levy assessments upon any property in each or any of the zones, according to the provisions and procedures of the Improvement Act of 1911 (Division 7 (commencing with Section 5000) of the Streets and Highways Code), the Improvement Bond Act of 1915 (Division 10 (commencing with Section 8500) of the Streets and Highways Code), the Municipal Improvement Act of 1913 (Division 12 (commencing with Section 10000) of the Streets and Highways Code), or the Refunding Assessment Bond Act of 1935 (Chapter 732 of the Statutes of 1935).

In the event of project cooperation with any public agency as authorized in subdivision (*l*) of Section 8 and the making of a contract with any such public agency for the purposes set forth in that subdivision, by the terms of which work is agreed to be performed by any such public agency in any specified zone or participating zones, for the particular benefit thereof, and by that contract, it is agreed that the district is to pay to the public agency, a sum of money in consideration or subvention for the performance of the work by that public agency, the board may levy and collect a special tax or assessment upon the property in the zone or participating zones, to raise funds to enable the district to make that

payment, in addition to other taxes or assessments otherwise provided for in this act.

The taxes or assessments shall be levied and collected together with, and not separately from taxes for general district purposes, and the revenues derived from the special district taxes or assessments shall be paid into the district treasury to the credit of the respective zones thereof, and the board shall have the power to control and order the expenditure thereof for those purposes. No revenues, or portions thereof, derived in any of the several zones from the taxes or assessments levied under the provisions of subdivision (b) shall be expended for constructing, maintaining, operating, extending, repairing, or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside that zone, or zones, but for the benefit thereof. In cases or projects joint to two or more zones, the zones shall constitute and be referred to as participating zones.

SEC. 32. The board may fix and collect rates or charges for the use and supply of water and other services furnished by the district and for the purchase of water and water rights, and may apply the receipts from the rates or charges to the expenses of the administration and government of the district and the use, operation, and extension of its facilities.

SEC. 32.1. The charges to pay revenue bonds and interest thereon may include a standby or carrying charge notwithstanding that the water is not actually used, under such rules and regulations as the board may prescribe. In no event shall the standby charge exceed twenty dollars ($20) per acre per year.

SEC. 33. Whenever the board shall, by resolution so direct, the receipts from rates or charges may also be used to reduce the principal or interest of any bonded indebtedness that the district may have.

SEC. 34. (a) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any project in the district, the board may by resolution, determine and declare the respective amounts of bonds to be issued to raise the amount of money necessary for each project and the denomination and the maximum rate of interest of the bonds. In determining each amount of bonds andthe amount of money necessary for each project, the board may include therein the portion, if any, of the cost of that project heretofore advanced by the district for which the district proposes to reimburse itself from the proceeds of sale of any bonds to be issued to pay for the project and the cost of lands, right-of-way, easements, and property proposed to be taken, acquired, or injured in carrying out the project and also of all incidental expenses likely to be incurred in connection therewith, including legal, clerical, engineering, superintendence, inspection, printing, and advertising, and, if deemed advisable, a sum sufficient to pay interest on any bonds proposed to be issued during all or any part of the period of construction of the project and for not to exceed 12 months

thereafter. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the Office of the Recorder of Madera County within five days after its issuance. From and after the filing of that copy of the resolution, the board shall be authorized to proceed with the bond election.

(b) After the filing for record of the resolution specified in subdivision (a), the board may call a special bond election in the district at which shall be submitted to all of the owners of the real property of the district the question whether or not bonds shall be issued in the amount or amounts determined in the resolution and for the purpose or purposes therein stated. The bonds and the interest thereon shall be paid from revenue derived from annual taxes or assessments levied as provided in this act.

(c) If the board decides to call a special bond election, it shall submit by resolution to the owners of the real property of the district, the proposition of incurring a bonded debt in the district in the amount and for the purposes stated in the resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred. It shall be sufficient to give a brief, general description of those objects and purposes, and refer to the recorded copy of the resolution adopted by the board, and on file for particulars. The resolution shall also state the estimated cost of the proposed project, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on the indebtedness, and shall fix the date on which the special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on the indebtedness shall not exceed 12 percent per year, unless some higher rate is permitted by law. For the purposes of the election, the board shall, in the resolution, designate a polling place.

(d) In all particulars not recited in the resolution, the special bond election shall be held as nearly as practicable in conformity with the general election laws of the state.

(e) The board shall cause a map or maps to be prepared covering a general description of the project, which shall show the location of the proposed projects, and shall cause the map to be posted in a prominent place in the county courthouse for public inspection for at least 30 days before the date fixed for the election.

(f) The resolution calling for the special bond election shall, prior to the date set for the election, be published pursuant to Section 6062 of the Government Code in a newspaper of general circulation in the immediate vicinity of the district. The last publication of the resolution shall be at least 14 days before the election. Holders of title, based on the last equalized assessment book of the district, shall be notified by registered mail of special bond election at least 30 days prior to the election. No other notice of the election need be given, nor need polling place cards be issued.

(g) Any defect or irregularity in the proceedings prior to the calling of the special bond election shall not affect the validity of the

bonds authorized by the election. If at the election two-thirds of the votes cast, based on the acreage of land, are in favor of incurring the bonded indebtedness, then bonds for such zone or participating zones for the amount stated in those proceedings shall be issued and sold as provided in this act.

SEC. 35. (a) The board shall, subject to the provisions of this act, prescribe, by resolution, the form of the bonds, which shall include a designation of the zone or participating zones affected, and of the interest coupons attached thereto. The bonds shall be payable annually or semiannually at the discretion of the board each and every year on a day and date, and at a place to be fixed by the board, and designated in the bonds, together with interest, not to exceed 12 percent per year, unless some higher rate is permitted by law, on all sums unpaid on that date until the whole of the indebtedness shall have been paid.

(b) The board may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may fix a date, not more than two years from the date of issuance, for the earliest maturity of each issue or series of bonds. The final maturity date shall not exceed 40 years from the time of incurring the indebtedness evidenced by each issue or series. The board may provide for call and redemption of all or any part of any issue or series of bonds before maturity at prices determined by the board. No bond shall be subject to call or redemption prior to maturity unless it contains a recital to that effect.

(c) The bonds shall be issued in such denominations as the board may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000), and shall be payable on the days and at the place fixed in the bonds, and with interest at the rate specified in such bonds, which rate shall not exceed 12 percent per year, unless some higher rate is permitted by law, and shall be made payable annually or semiannually, and the bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the auditor of the district, and the seal of the district shall be affixed thereto. Either or both those signatures may be printed, engraved, or lithographed. The interest coupons of the bonds shall be numbered consecutively and signed by the auditor by his or her printed, engraved, or lithographed signature. In case any such officer whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of the bonds to the purchaser, the bonds and coupons and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if the officer had remained in office until the delivery of the bonds.

SEC. 36. The board may issue and sell the bonds of the district or zones authorized as provided in this act at not less than par value, and

the proceeds of the sale of the bonds shall be placed in the treasury of the district to the credit of the district or the respective participating zones thereof, for the uses and purposes of the district, zone, or zones voting the bonds. The proper record of these transactions shall be placed upon the books of the district treasurer, and the respective district or zone funds shall be applied exclusively to the purposes and objects mentioned in the resolution calling the special bond election, subject to the provisions of this act. Payments from the zone funds shall be made upon demands prepared, presented, allowed, and audited in the same manner as demands upon the funds of the district.

SEC. 37. Any bonds issued under this act and the interest thereon shall be paid by revenue derived from an annual tax or assessment, levied as provided in subdivision (b) of Section 31. No zone, nor the property therein, shall be liable for the share of bonded indebtedness of any other zone, nor shall any moneys derived from taxation or assessment in any of the several zones be used in payment of principal or interest or otherwise of the share of bonded indebtedness chargeable to any other zone, except in the case of joint projects by participating zones.

SEC. 38. The board shall levy a tax or assessment each year sufficient to pay the interest and such portion of the principal of the bonds as is due or to become due before the time for making the next general tax levy. The taxes or assessments shall be levied and collected in the respective zones of issuance together with and not separately from taxes for general district purposes, and when collected shall be paid into the district treasury to the credit of the zone of payment, and be used for the payment of the principal and interest on the bonds, and for no other purpose. The principal and interest of the bonds shall be paid by the district treasurer in the manner provided by law for the payment of principal and interest on bonds of the district.

SEC. 39. Whenever bonds have been authorized by any zone or participating zones of the district and the proceeds of the sale thereof have been expended as authorized in this act, and the board shall, by resolution, determine that additional bonds should be issued for carrying out the purposes of water supply, or for any of the purposes of this act, the board may again proceed as provided in this act, and submit to the qualified voters of the zone or participating zones, the question of issuing additional bonds in the same manner and with like procedure as provided in this act, and all provisions of this act for the issuing and sale of the bonds, and for the expenditure of the proceeds thereof, shall be deemed to apply to that issue of additional bonds.

SEC. 40. Should a proposition for issuing bonds for any zone or participating zones submitted at any election under this act fail to receive the requisite number of votes of the qualified electors voting at the election to incur the indebtedness for the purpose specified, the board shall not for six months after the election call or order

another election in the zone or participating zones for incurring indebtedness and issuing bonds under the terms of this act for the same objects and purposes.

SEC. 41. The provisions of law of this state, prescribing the time and manner of levying, assessing, equalizing, and collecting property taxes, including the sale of property for delinquency, and the redemption from that sale, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted.

SEC. 42. The bonds of the district issued for any zone or zones thereof pursuant to this act, shall be legal investments for all trust funds and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the state school funds, and whenever any money or funds may, by law, be invested in bonds of cities, cities and counties, counties, school districts, or districts in this state, that money or funds may be invested in the bonds of the district issued in accordance with this act, and whenever bonds of cities, cities and counties, counties, school districts, or districts may, by any law, be used as security for the performance of any act, the bonds of the district may be so used.

This section is intended to be and shall be considered the latest enactment with respect to the matters contained in this section.

SEC. 43. All bonds issued by the district under this act shall be free and exempt from all taxation within the State of California. It is hereby declared that the district is a local government within the meaning of Section 26 of Article XIII of the California Constitution.

SEC. 44. All contracts in excess of five thousand dollars ($5,000) shall be let to the lowest responsible bidder, except that district may contract with Madera County for furnishing labor, materials, or supplies required for any improvement mentioned in this act upon such terms and conditions as the board may elect. The district shall advertise in the county pursuant to Section 6061 of the Government Code, inviting sealed proposals for furnishing labor, materials, and supplies for the proposed improvement before any contract shall be made. The district shall have the right to require such bonds as it may deem best from the successful bidder, to insure the faithful performance of the contract, and shall also have the right to reject any and all bids.

SEC. 45. The district may, in case of emergency, proceed at once, by a vote of not less than three members of the board, to make such repairs or do such other work as may be necessary to prevent a threatened interruption of water supply or to restore the water distribution system to working condition without advertising for bids. The board shall cause a statement of the facts constituting the emergency to be entered in their minutes.

SEC. 46. When the board determines that any work of repairing, improving, renewing, or extending district facilities can be done more economically and satisfactorily by day labor without letting contracts to the lowest bidder as provided in Section 44, the board may cause the work to be done by day labor.

SEC. 47. Any improvement for which bonds are voted under this act shall be made in conformity with the report, plans, specifications, and map theretofore adopted, unless the doing of any such work described in the report shall be prohibited by law or be rendered contrary to the best interests of the district by some change of conditions in relation thereto, in which event the board may order necessary changes made in the proposed work or improvements and may cause any plans and specifications to be made and adopted therefor.

SEC. 48. The district may bring an action in the court having jurisdiction against any water user within the district for the collection of any delinquent assessment or water charge. The court, having jurisdiction of the action, may, in addition to allowing recovery of costs to the district as allowed by law, fix and allow as part of the judgment interest and penalties. Should the district, as a provisional remedy in bringing the action, seek an attachment against the property of any named defendant therein, the district shall not be required to provide a bond or undertaking as is otherwise provided for in Title 6.5 (commencing with Section 481.010) of Part 2 of the Code of Civil Procedure.

SEC. 49. The district may refuse to furnish water to any land to which it holds title by virtue of collector's deeds to the district or to any or all land on which the district has an outstanding unredeemed certificate of sale for nonpayment of a district assessment or on which the landowner refuses to pay delinquent assessments after proper notice thereof.

SEC. 50. The repeal or amendment of this act or the change in boundaries of any zone of the district shall not in any way affect or release any of the property in the district or any zone thereof from the obligations of any outstanding bonds or indebtedness until all those bonds and outstanding indebtedness have been fully paid and discharged.

SEC. 51. All claims for money or damages against the district are governed by Parts 3 (commencing with Section 900) and 4 (commencing with Section 940) of Division 3.6 of Title 1 of the Government Code, except as otherwise provided.

SEC. 52. The legal title to all property acquired under this act shall immediately and by operation of law vest in the district and shall be held by the district in trust for, and is hereby dedicated and set apart to, the uses and purposes set forth in this act. The board may hold, use, acquire, manage, occupy, and possess that property, as provided in this act. The board may determine, by resolution duly entered in their minutes, that any property, real or personal, or interest therein, held by the district is no longer necessary to be retained for the uses and purposes thereof, and may thereafter sell, lease, or otherwise dispose of that property. If the board determines the value of the property to be five thousand dollars ($5,000) or less, or the property is being leased for one year or less, it may be sold or leased without notice. If the board determines the property to have

a value of more than five thousand dollars ($5,000) or the property is being leased for more than one year, a notice of time and place of sale or leasing shall be given by posting three notices in three public places within the district five days before the date of sale or leasing. At the time fixed for the sale or leasing, bids shall be received and the board may sell or lease to the highest bidder or may reject any or all bids.

SEC. 53. Any improvement provided for in this act may be located, constructed, and maintained in, along, or across any public road or highway, or publicly owned right-of-way in the county, in such manner as to afford security for life and property, but the board shall restore, or cause to be restored, the road or highway, or publicly owned right-of-way to its former state, as near as may be, or in a sufficient manner not to have impaired unnecessary its usefulness.

SEC. 54. The district, in order to determine the legality of its existence, or any contract entered into by the district, may institute a proceeding therefor in the superior court of this state, in and for the County of Madera, by filing with the clerk of the county a complaint setting forth the name of the district, its exterior boundaries, the date of its organization and a prayer that it be adjudged a legal water district formed under this act, or setting forth the name of the district, the parties to and nature of the contract, a copy of the contract, and a prayer that it be adjudged a legal contract. The summons in the proceeding shall be served by publishing a copy thereof once a week for four weeks in a newspaper of general circulation published in the county. The State of California shall be a defendant in the action, and consent therefor is given. Service of summons therein shall be made on the Attorney General. The Attorney General shall appear in the action on behalf of the state in the same manner as with appearances in civil actions. Within 30 days after proof of publication of the summons shall have been filed in the proceeding, the state, any property owner or resident in the district, or any person interested may appear as a defendant in the action by serving and filing an answer to the complaint. The answer shall set forth the fact relied upon to show the invalidity of the district, or the contract, and shall be served upon the attorney for the district before being filed in the proceeding. The proceeding is hereby declared to be a proceeding in rem and the final judgment rendered therein shall be conclusive against all persons whomsoever, including the district and the State of California.

SEC. 55. (a) Each person elected or appointed to the office of director shall, within 10 days after receiving his or her certificate of election, or notice of appointment, qualify as such by taking and subscribing to an official oath and executing and filing an official bond in the sum of one thousand dollars ($1,000) which shall be approved by the judge of the Superior Court of Madera County and shall be recorded in the offices of the county recorder of that county. The director shall file that official bond, together with his or her official oath, with the clerk of the board. The premium for the bond

shall be paid by the district.

(b) The bylaws shall fix the compensation to be paid to all officers. Until their compensation is fixed by the adoption of bylaws, the secretary, treasurer, and general manager shall receive such sums as shall be fixed by the board.

(c) Each director or alternate director shall receive compensation in an amount not to exceed one hundred dollars ($100) per day for each day's attendance at meetings of the board or for each day's service rendered as a director by request of the board, not exceeding a total of six days in any calendar month. Directors shall not be granted any compensation for their expenses at regular board meetings.

(d) Employees appointed by the board under this act, when required by the board of the district, shall execute bonds conditioned, executed, approved, filed, and recorded in the general manner and form provided by law for officers of the county, before entering upon the duties of their respective employments.

SEC. 56. This act, and every part thereof, shall be liberally construed to promote the objects thereof, and to carry out its intents and purposes.

SEC. 57. The provisions and procedures of law available under this act are not subject to the Special Assessment Investigation, Limitation and Majority Protest Act of 1931.

SEC. 58. If any provision of this act, or the application thereof to any person or circumstance, is held invalid, the remainder of the act, or the application of that provision to other persons or circumstances, shall not be affected thereby.

SEC. 59. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act and because other costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 60. Section 28.5 is added to the Kings River Conservation District Act (Chapter 931 of the Statutes of 1951), to read:

Sec. 28.5. Improvement districts may be formed in the district for any authorized purpose of the district in the same manner as improvement districts are formed in irrigation districts. When formed, the improvement districts shall be governed under Part 7 (commencing with Section 23600) of Division 11 of the Water Code in the same manner as improvement districts in irrigation districts. The board shall have the same rights, powers, duties, and responsibilities with respect to the formation and government of improvement districts in the district as the board of directors of an irrigation district has with respect to improvement districts in irrigation districts. Assessments in an improvement district in the

district shall be levied, collected, and enforced at the same time and as nearly in the same manner as practicable as annual taxes of the county, except that the assessment shall be made in the same manner as provided with respect to improvement districts in irrigation districts.

CHAPTER 736

An act to amend Section 409.5 of the Penal Code, relating to emergency rescue personnel.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 409.5 of the Penal Code is amended to read:

409.5. (o) Paying, accepting, or soliciting any consideration, compensation, or remuneration, whether monetary or otherwise, for the referral of professional clients. All consideration, compensation, or remuneration shall be in relation to professional counseling services actually provided by the licensee. Nothing in this subdivision shall prevent collaboration among two or more licensees in a case or cases. However, no fee shall be charged for that collaboration, except when disclosure of the fee has been made in compliance with subdivision (n).

(p) Advertising in a manner which is false, misleading, or deceptive.

A certified copy of the decision or judgment of the other state shall be conclusive evidence of that action.

(b) The revocation, suspension, or other disciplinary action by the State Psychology Examining Committee, or equivalent action in another state, of a license or certificate to practice psychology issued by this state or another state to a licensee or registrant, shall constitute grounds for disciplinary action for unprofessional conduct against the licensee or registrant under this chapter.

(c) The revocation, suspension, or other discipline by the board of a license or certificate to practice as a clinical social worker or educational psychologist to a licensee shall also constitute grounds for disciplinary action for unprofessional conduct against such licensee or registrant under this chapter.

(b) A driver of a vehicle which is making a turn at an intersection who is facing a steady circular yellow or yellow arrow signal shall not enter the intersection or marked crosswalk unless there is sufficient space on the other side of the intersection or marked crosswalk to accommodate the vehicle driven without obstructing the through passage of vehicles from either side.

(c) A local authority may post appropriate signs at the entrance to intersections indicating the prohibition in subdivisions (a) and (b).

(d) A violation of this section is a parking violation and is not a violation of a law relating to the safe operation of vehicles.

CHAPTER 740

An act to amend Sections 4823, 4824, 4825, 4841, 4850, and 4870 of, and to add Sections 4842.5 and 4856 to, the Public Utilities Code, relating to motor transportation brokers, and making an appropriation therefor.

(c) The commission shall require that every motor transportation broker file with the commission a bond, policy of insurance, or other security in an amount and form approved by the commission guaranteeing that all money received for the payment of transportation charges is paid to the motor carrier providing the transportation. Any motor transportation broker which the

commission finds and determines does not issue invoices or otherwise handle money on behalf of a motor carrier is exempt from this requirement. In addition to any other penalty, the commission shall suspend or revoke the license of any motor transportation broker violating this section.

SEC. 3. Section 4825 of the Public Utilities Code is amended to read:

SEC. 5. Section 4842.5 is added to the Public Utilities Code, to read:

4842.5. No person holding both a motor carrier permit or certificate and a motor transportation broker's license shall charge a lower rate for brokered service than the rate filed by that person as a motor carrier if there is a likelihood of confusion between the person's business identity as a broker and as a carrier.

SEC. 6. Section 4850 of the Public Utilities Code is amended to read:

(3) The licensee has sold, offered for sale, or negotiated for sale, transportation by any carrier, that, under the laws of this state, is conducted in an unauthorized manner or in a manner contrary to the public interest, or that sale, offer, negotiation, or transportation is in violation of this chapter or the general orders or rules of the commission issued pursuant to this chapter.

(4) The licensee has offered for sale, or negotiated for sale, transportation by any motor carrier at a rate less than the motor carrier's rate as filed with the commission.

(b) As an alternative to the cancellation, revocation, or suspension of a license, the commission may impose upon the holder of the license a civil penalty of not more than five thousand dollars ($5,000) for a first offense and not more than ten thousand dollars ($10,000) for any second or succeeding offense. All penalties collected shall be deposited at least once each month in the State Treasury to the credit of the Transportation Rate Fund.

SEC. 9. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

The identifying symbols displayed by highway carriers subject to the Interstate Commerce Commission Order Ex Parte No. MC-41, Identification of Motor Carrier Vehicles, November 17, 1954, effective January 3, 1955, shall serve in lieu of the display requirements of this section, if the identifying symbols have been recorded by the highway carrier with the commission.

The identifying symbol shall be displayed on both the left and right doors of the cab of the vehicle.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 742

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

1569.18. (a) A fee adjusted by facility and capacity shall be charged by the department for the issuance or renewal of a license to operate a residential care facility for the elderly or for processing any application therefor. The amount of the fee is for the purpose of financing a portion of the application and renewal processing costs and the activities specified in subdivision (b). The fee shall be assessed as follows:

Capacity	Original Application	Renewal Application
1– 6	$100	$100
7–15	$150	$150
16–49	$200	$200
50+	$250	$250

No local jurisdiction shall impose any business license, fee, or tax for the privilege of operating a facility licensed under this chapter which serves six or fewer persons.

(b) The revenues collected from licensing fees pursuant to this section when appropriated, shall be utilized by the department to finance postlicensure inspections pursuant to Section 1569.24, to allow increased monitoring of facilities with a history of noncompliance with licensing laws and regulations pursuant to this chapter, and other administrative activities in support of the licensing program. The revenues collected shall be used in addition to any other funds appropriated in support of the licensing program.

The department shall not utilize any portion of these revenues sooner than 30 days after notification in writing of the purpose and use, as approved by the Department of Finance, the Joint Legislative Budget Committee and the chairpersons of the committee in each house that considers appropriations for each fiscal year. For fiscal year 1986–87 and thereafter, the department shall submit a budget change proposal to justify any positions or any other related support costs on an ongoing basis.

(c) These fees applicable to residential care facilities for the elderly shall not be effective unless licensing fees are established for all adult residential facilities licensed by the State Department of Social Services.

(d) A residential care facility for the elderly may use a bona fide business check to pay the license fee required under this section.

(e) Failure to pay required license fees, including the finding of insufficient funds to cover bona fide business checks submitted for this purpose, may constitute grounds for denial of a license or special permit or refusal to renew a license or special permit.

(d) This section does not apply to reports made by persons who are required by statute to report known or suspected instances of child abuse, dependent adult abuse, or elder abuse.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 745

An act to amend Sections 62.8, 308, 502, 503, 522, 651, 651.5, 655, 658, 663, and 677 of, and to repeal Section 63 of, the Harbors and Navigation Code, relating to boating and waterways.

The publications may be distributed free of charge to public libraries and to other state departments and state officers. The department may exchange copies with contemporary publications.

All money received by the department from the sale of publications, exclusive of money received by any separate division of the department from the sale of publications, shall be paid into the State Treasury to the credit of the Harbors and Watercraft Revolving Fund.

SEC. 2. Section 63 of the Harbors and Navigation Code is repealed.

SEC. 3. Section 308 of the Harbors and Navigation Code is amended to read:

308. SEC. 4. Section 502 of the Harbors and Navigation Code is amended to read:

502. (a) Except as provided in Article 1.5 (commencing with Section 410) of Chapter 1 of Division 3, every person has a lien dependent upon possession of the vessel for the compensation to which he or she is legally entitled for services rendered to or storage of any vessel subject to registration with the Department of Motor Vehicles. The lien shall arise at the time a written statement of lien is sent to the registered owner of the vessel which specifies the charges for services or storage rendered and states that the vessel is subject to sale pursuant to the California Boater's Lien Law.

(b) Notwithstanding subdivision (a), no lien provided by this section for storage or service provided upon the request of any person other than the legal owner as shown on the registration certificate of the vessel shall be valid against the interest of the legal owner to the extent that the lien exceeds one thousand five hundred dollars ($1,500) unless the person performing the storage or service obtains the consent of the legal owner to the amount of the excess. The legal owner may limit his or her consent to a specified dollar amount or period of time. The lien claimant shall give actual notice in writing, prior to exceeding that amount, either by personal service or by registered mail to the legal and registered owner or owners as named and at the addresses as shown on the registration certificate, on a standard form provided by the department, containing a description of the storage or services, or both, a description and registration number of the vessel, the name of the registered owner or owners, the dollar amount or rate of the charges for the storage or services, and a statement in boldface type that, with respect to storage charges, consent of the legal owner shall be presumed unless the legal owner notifies the lien claimant within 15 days of receipt of the request for consent that he or she declines to consent to the storage. The lien claimant shall notify the legal owner as shown on the registration certificate of the vessel, by certified mail, that the vessel is subject to sale pursuant to the California Boater's Lien Law and that the lien claimed exceeds one thousand five hundred dollars ($1,500).

(c) Notwithstanding subdivision (b), any claim for the cost of services may exceed the estimate given therefor by an amount not in excess of 10 percent thereof and the lien of the lien claimant shall be valid against the legal owner to the full amount of such excess to the same extent as would be a lien for the original estimate.

(d) With respect to claims for storage charges, a legal owner shall be presumed to consent to storage charges if he or she fails to respond to the request for consent set forth in subdivision (b) within 15 days after receipt thereof, such response to be addressed to the lien claimant at the address stated in the request for consent. In addition, consent in all cases is presumed for the 30-day period immediately following the giving of the request for consent notice.

(e) The legal owner may, upon declining consent, remove the vessel from the lien claimant only upon satisfying the lien of the lien claimant.

(f) Any lien arising under this section shall be extinguished, and no lien sale shall be conducted unless, 60 days after the lien arises, the lienholder does either of the following:

(1) Applies to the department for an authorization to conduct a lien sale.

(2) Files an action on the claim in court.

(g) Nothing in this section shall impair any rights or remedies which are otherwise available to the lien claimant against the registered owner under any other provisions of law.

SEC. 5. Section 503 of the Harbors and Navigation Code is amended to read:

503. (a) A lienholder shall apply to the department for the issuance of an authorization to conduct a lien sale pursuant to the provisions of this section for any vessel with a value determined to be over one thousand five hundred dollars ($1,500). A fee shall be charged by the department and may be recovered by the lienholder if a lien sale is conducted or if the vessel is redeemed. The application shall be executed under penalty of perjury and shall include all of the following information:

(1) A description of the vessel, including make, hull identification number, and state of registration, to the extent available.

(2) The names and addresses of the registered and legal owners of the vessel, if ascertainable from the registration certificate within the vessel, and the name and address of any person whom the lienholder knows or reasonably should know claims a proprietary interest in the vessel.

(3) A statement of the amount of the lien and the facts which give rise to the lien. The statement shall include, as a separate item, an estimate of any additional storage costs accruing pending the lien sale.

(b) Upon receipt of an application made pursuant to subdivision (a), the department shall within 15 days thereafter do the following:

(1) Notify the vessel registry agency of a foreign state of the pending lien sale, if the vessel bears indicia of registration in that state.

(2) By mail, send a notice, a copy of the application, and a return envelope preaddressed to the department to the registered and legal owners at their addresses of record with the department, and to any other person whose name and address is listed in the application.

(3) A vessel registration stop order or title transfer stop order shall be applied by the department at the time the lien claimant requests authorization to conduct the sale.

(c) The notice required pursuant to subdivision (b) shall include all of the following statements:

(1) An application has been made with the department for authorization to conduct a lien sale.

(2) Each person to whom notice is sent pursuant to subdivision (b) is entitled to a hearing in court if that person so desires.

(3) If a hearing in court is desired, a declaration of opposition,

signed under penalty of perjury, is required to be signed and returned to the department within 15 days of the date that the notice required pursuant to subdivision (b) was mailed.

(4) If the declaration of opposition is signed and returned to the department, the lienholder will be allowed to sell the vessel only if he or she obtains a court judgment or a subsequent release from the declarant.

(5) If a court action is filed, the declarant will be served by mail with legal process in the court proceedings at the address shown on the declaration of opposition and may appear to contest the claim.

(6) The person may be liable for court costs if a judgment is entered in favor of the lienholder.

(d) If the department receives the declaration of opposition in the time provided, the department shall notify the lienholder within 16 days of the receipt of the declaration of opposition that a lien sale shall not be conducted unless the lienholder files an action in court within 60 days of the notice. A lien sale of the vessel shall not be conducted unless judgment is subsequently entered in favor of the lienholder or the declarant subsequently releases his or her interest in the vessel.

(e) Service of legal process on the declarant, with return receipt requested signed by the declarant or an authorized agent of the declarant at the address shown on the declaration of opposition, shall be effective. Return of a declaration of opposition shall constitute consent by the declarant to service of legal process for the desired court hearing upon him or her in the foregoing manner. Notwithstanding subdivision (d) of Section 415.3 of the Code of Civil Procedure, if the lienholder has attempted service upon declarant by that method at the address shown on the declaration of opposition and the mail has been returned unclaimed, the department shall promptly authorize the sale.

(f) Upon receipt of authorization to conduct the lien sale, the lienholder shall do all of the following:

(1) At least 10 days, but not more than 30 days, prior to the lien sale, not counting the day of the sale, give notice of the sale by advertising once in a newspaper of general circulation published in the county in which the vessel is located. If there is no newspaper published in the county, notice shall be given by posting a notice of sale form in three of the most public places in the area in which the vessel is located and at the place where the vessel is to be sold for 10 consecutive days prior to and including the day of the sale.

(2) Send a notice of pending lien sale 20 days prior to the sale, but not counting the day of sale, by mail with return receipt requested, to each of the following:

(A) The registered and legal owners of the vessel, if registered in this state.

(B) All persons known to have an interest in the vessel.

(C) The department.

(g) Upon receipt of the notice, the department shall mark its

records and thereafter notify any person having a proprietary interest in the vessel that there is a pending lien sale and that title will not be transferred until the lien is satisfied or released.

(h) All notices required by this section, including the notice forms prescribed by the department, shall specify the make, hull identification number, and state of registration, if available, and the specific date, exact time, and place of sale.

SEC. 6. Section 522 of the Harbors and Navigation Code is amended to read:

522. (a) Any hulk, derelict, wreck, or parts of any ship, vessel, or other watercraft sunk, beached, or allowed to remain in an unseaworthy or dilapidated condition upon publicly owned submerged lands, salt marsh, or tidelands within the corporate limits of any municipal corporation or other public corporation or entity having jurisdiction or control over those lands, without its consent expressed by resolution of its legislative body, for a period longer than 100 days without a watchman or other person being maintained upon or near and in charge of the property, is abandoned property.

Thereafter, that municipal corporation or other public corporation or entity may cause the property to be sold, destroyed, or otherwise disposed of in such manner as it may determine is expedient or convenient. Any such sale shall vest complete title in the purchaser who shall forthwith take steps to remove the property. Any proceeds derived from the sale shall be the property of the municipal corporation or other public corporation or entity.

(b) However, if the owner of the property securely affixes to the property a notice in plain view setting forth the owner's name and address and claim of ownership, together with the name and address of an agent or representative whom the owner may designate to act within the State of California if the owner does not reside in the state, and files a copy of the notice with the secretary of the municipal corporation or other public corporation or entity having jurisdiction or control over the lands at least five days prior to the removal, the municipal corporation or other public corporation or entity may not sell, destroy, or otherwise dispose of the property until the corporation or entity has first given the owner or the owner's agent, at the address specified in the claim of ownership, 30 days' notice to remove or cause the property to be removed, and then only if the property is not removed by the owner or the owner's agent within that time or such reasonable extensions of time as the corporation or entity may grant by resolution. If a registration number appears on the watercraft, the municipal corporation or other public corporation or entity shall send the notice to the last registered owner and the disposition shall be handled as a lien sale under Section 504.

(m) "Use" means operate, navigate, or employ.

(n) "State" means a state of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the District of Columbia.

(o) "State of principal use" means the state on which waters a vessel is used or intended to be used most during a calendar year.

(p) "Passenger" means every person carried on board a vessel other than any of the following:

(1) The owner or his representative.

(2) The operator.

(3) Bona fide members of the crew engaged in the business of the vessel who have contributed no consideration for their carriage and who are paid for their services.

(4) Any guest on board a vessel which is being used exclusively for pleasure purposes who has not contributed any consideration, directly or indirectly, for his carriage.

(q) "Associated equipment" means any of the following, excluding radio equipment:

(1) Any system, part, or component of a boat as originally manufactured or any similar part or component manufactured or sold for replacement, repair, or improvement of the system, part, or component.

(2) Any accessory or equipment for, or appurtenance to, a boat.

(3) Any marine safety article, accessory, or equipment intended for use by a person on board a boat.

(r) "Manufacturer" means any person engaged in any of the following:

(3) The importation into this state for sale of boats, associated equipment, or components thereof.

(s) "Drug" means any substance or combination of substances other than alcohol which could so affect the nervous system, brain, or muscles of a person as to impair to an appreciable degree his ability to operate a vessel in the manner that an ordinarily prudent man, in full possession of his faculties, using reasonable care, would operate a similar vessel under like conditions.

(t) "Water skis, an aquaplane, or a similar device" includes all forms of water skiing, barefoot skiing, skiing on skim boards, knee

boards, or other contrivances, parasailing, ski kiting, or any activity where a person is towed behind or alongside a boat.

SEC. 8. Section 651.5 of the Harbors and Navigation Code is amended to read:

651.5. The Department of Motor Vehicles shall provide every person who originally registers, or who acquires the ownership certificate of, a vessel less than 65 feet in length with a copy of guidelines for safe vessel operation.

SEC. 9. Section 655 of the Harbors and Navigation Code is amended to read:

655. (a) No person shall use any vessel or manipulate water skis, an aquaplane, or a similar device in a reckless or negligent manner so as to endanger the life, limb, or property of any person. The department shall adopt regulations for the use of vessels, water skis, aquaplanes, or similar devices in a manner which will minimize the danger to life, limb, or property consistent with reasonable use of the equipment for the purpose for which it was designed.

(b) No person shall operate any vessel or manipulate water skis, an aquaplane, or a similar device while under the influence of intoxicating liquor, any drug, or the combined influence of intoxicating liquor and any drug.

(c) No person shall operate any vessel or manipulate any water skis, aquaplane, or similar device who has 0.10 percent or more, by weight, of alcohol in his or her blood.

(d) No person shall operate any vessel, or manipulate water skis, an aquaplane, or a similar device who is addicted to the use of any drug. This subdivision does not apply to a person who is participating in a methadone maintenance treatment program approved pursuant to Article 3 (commencing with Section 4350) of Chapter 1 of Part 1 of Division 4 of the Welfare and Institutions Code.

(e) No person shall operate any vessel or manipulate water skis, an aquaplane, or a similar device while under the influence of intoxicating liquor, any drug, or under the combined influence of intoxicating liquor and any drug, and while so operating, do any act forbidden by law, or neglect any duty imposed by law in the use of the vessel, water skis, aquaplane, or similar device, which act or neglect proximately causes bodily injury to any person other than himself or herself.

(f) For purposes of this section, percent, by weight, of alcohol shall be based upon grams of alcohol per 100 milliliters of blood.

In any prosecution under subdivision (c), it is a rebuttable presumption that the person had 0.10 percent or more, by weight, of alcohol in his or her blood at the time of operation of a vessel if the person had 0.10 percent or more, by weight, of alcohol in his or her blood at the time of the performance of a chemical test within three hours after the operation.

(g) Upon the trial of any criminal action, or preliminary proceeding in a criminal action, arising out of acts alleged to have been committed by any person while operating a vessel or

manipulating water skis, an aquaplane, or a similar device under the influence of an alcoholic beverage in violation of subdivision (b) or (e), the amount of alcohol in the person's blood at the time of the test, as shown by chemical analysis of that person's blood, breath, or urine, shall give rise to the following presumptions affecting the burden of proof:

(1) If there was at that time less than 0.05 percent, by weight, of alcohol in the person's blood, it shall be presumed that the person was not under the influence of an alcoholic beverage at the time of the alleged offense.

(2) If there was at that time 0.05 percent or more, but less than 0.10 percent, by weight, of alcohol in the person's blood, that fact shall not give rise to any presumption that the person was or was not under the influence of an alcoholic beverage, but the fact may be considered with other competent evidence in determining whether the person was under the influence of an alcoholic beverage at the time of the alleged offense.

(3) If there was at that time 0.10 percent or more, by weight, of alcohol in the person's blood, it shall be presumed that the person was under the influence of an alcoholic beverage at the time of the alleged offense.

(h) This section does not limit the introduction of any other competent evidence bearing upon the question whether the person ingested any alcoholic beverage or was under the influence of an alcoholic beverage at the time of the alleged offense.

(i) This section applies to foreign vessels using waters subject to state jurisdiction.

SEC. 10. Section 658 of the Harbors and Navigation Code is amended to read:

658. (a) No person shall operate a vessel on any waters for towing a person or persons on water skis, an aquaplane, or a similar device unless there is in the vessel a person at least 12 years of age, in addition to the operator, in a position to observe the progress of the persons being towed.

This subdivision does not apply to motorboats less than 16 feet in length actually operated by the person or persons being towed and so constructed as to be incapable of carrying the operator in or on the motorboat. The department may establish rules and regulations governing the operation of those watercraft, which rules and regulations shall provide the greatest possible safety of persons and vessels.

(b) No person shall operate a vessel on any waters of this state towing a person or persons on water skis, an aquaplane, or a similar device nor shall any person engage in water skiing, aquaplaning, or other similar activity at any time between the hours from sunset to sunrise, except that those hours do not apply to those waters of this state as to which prohibited hours for those activities are fixed by local ordinances, laws, or regulations enacted pursuant to this chapter.

(c) Subdivisions (a) and (b) of this section do not apply to a performer engaged in a professional exhibition or a person or persons engaged in a regatta, vessel or water ski race, or other marine event authorized pursuant to Section 268.

(d) No person shall operate or manipulate any vessel, towrope, or other device by which the direction or location of water skis, an aquaplane, or a similar device may be affected or controlled so as to cause the water skis, aquaplane, or similar device, or any person thereon, to collide with, or strike against, any object or person. This subdivision does not apply to collisions of two or more persons on water skis, aquaplanes, or similar devices being towed by the same vessel.

(e) No person shall operate water skis, an aquaplane, or a similar device so as to endanger the life, limb, or property of any person.

SEC. 11. Section 663 of the Harbors and Navigation Code is amended to read:

663. Every peace officer of this state or of any city, county, city and county, or other political subdivision of the state shall enforce this chapter and any regulations adopted by the department pursuant to this chapter and in the exercise of that duty shall have the authority to stop and board any vessel subject to this chapter, where the peace officer has probable cause to believe that a violation of state law or regulations or local ordinance exists.

SEC. 12. Section 677 of the Harbors and Navigation Code is amended to read:

677. (a) Except for urgent and immediate concern for the safety of those aboard a vessel, no person shall abandon a vessel upon a public waterway or public or private property without the express or implied consent of the owner or person in lawful possession or control of the property.

(b) The abandonment of any vessel in a manner as provided in subdivision (a) shall constitute prima facie evidence that the last registered owner of record, not having notified the appropriate registration or documenting agency of any relinquishment of title or interest therein, is responsible for the abandonment and is thereby liable for the cost of removal and disposition of the vessel.

(c) Violation of this section is an infraction and shall be punished by a fine of not less than fifty dollars ($50).

SEC. 13. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 748

An act to amend Sections 25208.7, 25208.8, and 25208.17 of the Health and Safety Code, relating to hazardous waste.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 25208.7 of the Health and Safety Code is amended to read:

25208.7. (a) The regional board shall make at least one inspection per year of all facilities with surface impoundments, and shall regularly review monitoring data, as necessary, to ensure that all surface impoundments comply with this article and that any equipment or programs required pursuant to this article are operating properly.

(b) Except as provided in subdivisions (c) and (d), each regional board shall establish a schedule and a notification system requiring the submission of reports to the regional board on or before January 1, 1988, by every person discharging liquid hazardous wastes or hazardous wastes containing free liquids into a surface impoundment located within the jurisdiction of the regional board. Any person discharging liquid hazardous wastes or hazardous wastes containing free liquids into a surface impoundment who receives this notice from the regional board shall submit a report to the regional board within the time specified in the notice, except that if the person has filed a report with an application for exemption, pursuant to subdivision (c) of Section 25208.5, the regional board shall not require the person to file a report.

(c) The regional board may require that the report specified in Section 25208.8 be filed by a person who has conducted a site

assessment pursuant to subdivision (a) of Section 25208.17 only after the regional board makes the determination specified in subdivision (g) of Section 25208.17.

(d) The regional board may exempt a person from submitting a report specified in Section 25208.8 if the person has ceased discharging into the surface impoundment, the person closed the surface impoundment on or before December 31, 1985, with the approval of the regional board and the department, and the board makes both of the following findings:

(1) The report is not required to determine the extent to which the hazardous waste constituents have migrated from the surface impoundment.

(2) No hazardous waste constituents are present in the vadose zone or the waters of the state beneath the surface impoundment in concentrations which pollute the vadose zone or threaten to pollute or pollute the waters of the state.

SEC. 2. Section 25208.8 of the Health and Safety Code is amended to read:

25208.8. A person who receives a notice from a regional board, pursuant to Section 25208.7, or who files an application for an exemption pursuant to Section 25208.5 or 25208.13, shall submit a hydrogeological assessment report to the regional board. A qualified person shall be responsible for the preparation of the report and shall certify its completeness and accuracy. The report shall contain, for each surface impoundment, any information required by the state board or the regional board, and all of the following information:

(a) A description of the surface impoundment, including its physical characteristics, its age, the presence or absence of a liner, a description of the liner, the liner's compatibility with the hazardous wastes discharged to the impoundment, and the design specifications of the impoundment.

(b) A description of the volume and concentration of hazardous waste constituents placed in the surface impoundment, based on a representative chemical analysis of the specific hazardous waste type and accounting for variance in hazardous waste constituents over time.

(c) A map showing the distances, within the facility, to the nearest surface water bodies and springs, and the distances, within one mile from the facility's perimeter, to the nearest surface water bodies and springs.

(d) Tabular data for each surface water body and spring shown on the map specified in subdivision (c) which indicate its flow and a representative water analysis. The report shall include an evaluation and characterization of seasonal changes and, if substantive changes result from season to season, the tabular data shall reflect these seasonal changes.

(e) A map showing the location of all wells within the facility and the locations of all wells within one mile of the facility's perimeter. The report shall include, for each well, a description of the present

use of the well, a representative water analysis from the well, and, when possible, the water well driller's report or well log.

(f) An analysis of the vertical and lateral extent of the perched water and water-bearing strata which could be affected by leachate from the surface impoundment, and the confining beds under and adjacent to the surface impoundment. This analysis shall include all of the following:

(1) Maps showing contours of equal elevation of the water surface for perched water, unconfined water, and confined groundwater required to be analyzed by this subdivision.

(2) An estimate of the groundwater flow, direction of the perched water, and all water-bearing strata on both the maps and the subsurface geologic cross sections.

(3) An estimate of the transmissivity, permeability, and storage coefficient for each perched zone of water and water-bearing strata identified on the maps specified in paragraph (1).

(4) A determination of the rate of groundwater flow.

(5) A determination of the water quality of each zone of the water-bearing strata and perched water which is identified on the maps specified in paragraph (1) and which is under, or adjacent to, the facility. This determination shall be conducted by taking samples either from upgradient of the surface impoundment or from another location which has not been affected by leakage from the surface impoundment.

(g) An indication as to whether the groundwater is contiguous with regional bodies of groundwater and the depth measured to the groundwater, including the depth measured to perched water and water-bearing strata identified on the maps specified in paragraph (1).

(h) The following climatological information:

(1) A map showing the contours for the mean annual long-term precipitation for the surrounding region within 10 miles of the surface impoundment.

(2) Calculations estimating the maximum 24-hour precipitation and maximum and minimum annual precipitation at the facility based upon direct measurement at the facility or upon measured values of precipitation from a nearby climatologically similar station.

(3) The projected volume and pattern of runoff for any streams which, in a 100-year interval, could effect the facility, including peak stream discharges associated with storm conditions.

(i) A description of the composition of the vadose zone beneath the surface impoundment. This description shall include a chemical and hydrogeological characterization of both the consolidated and unconsolidated rock material underlying the surface impoundment, and an analysis for pollutants, including those constituents discharged into the surface impoundment. This description shall also include soil moisture readings from a representative number of points around the surface impoundment's perimeter and at the maximum depth of the surface impoundment. If the regional board

determines that the use of suction type soil sampling devices are infeasible due to climate, soil hydraulics, or soil texture, the regional board may authorize the use of alternative devices. The report shall arrange all monitoring data in a tabular form so that the data, the constituents, and the concentrations are readily discernible.

(j) A measurement of the chemical characteristics of the soil made by collecting a soil sample upgradient from the impoundment or from an area which has not been affected by seepage from the surface impoundment and which is in a hydrogeologic environment similar to the surface impoundment. The measurement shall be analyzed for the same pollutants analyzed pursuant to subdivision (i).

(k) A description of the existing monitoring being conducted to detect leachate, including vadose zone monitoring, the number and positioning of the monitoring wells, the monitoring wells' distances from the surface impoundment, the monitoring wells' design data, the monitoring wells' installation, the monitoring development procedures, the sampling methodology, the sampling frequency, the chemical constituents analyzed, and the analytical methodology. The design data of the monitoring wells shall include the monitoring wells' depth, the monitoring wells' diameters, the monitoring wells' casing materials, the perforated intervals within the well, the size of the perforations, the gradation of the filter pack, and the extent of the wells' annular seals.

(*l*) Documentation demonstrating that the monitoring system and methods used at the facility can detect any seepage before the hazardous waste constituents enter the waters of the state. This documentation shall include, but is not limited to, substantiation of each of the following:

(1) The monitor wells are located close enough to the surface impoundment to identify lateral and vertical migration of any constituents discharged to the impoundment.

(2) The monitoring wells are not located within the influence of any adjacent pumping wells which might impair their effectiveness.

(3) The monitor wells are only screened in the aquifer to be monitored.

(4) The chosen casing material does not interfere with, or react to, the potential contaminants of major concern at the facility.

(5) The casing diameter allows an adequate amount of water to be removed during sampling and allows full development of the monitor well.

(6) The annular seal prevents pollutants from migrating down the monitor well.

(7) The methods of water sample collection require that the sample is collected after at least five well volumes have been removed from the well and that the samples are transported and handled in accordance with the United States Geological Survey's "National Handbook of Recommended Methods for Water-Data Acquisition," which provides guidelines for collection and analysis of

groundwater samples for selected unstable constituents. If the wells are low-yield wells, in that the wells are incapable of yielding three well volumes during a 24-hour period, the methods of water sample collection shall insure that a representative sample is obtained from the well.

(8) The hazardous waste constituents selected for analysis are specific to the facility, taking into account the chemical composition of hazardous wastes previously placed in the surface impoundment. The monitoring data shall be arranged in tabular form so that the date, the constituents, and the concentrations are readily discernible.

(9) The frequency of monitoring is sufficient to give timely warning of leachate so that remedial action can be taken prior to any adverse changes in the quality of the groundwater.

(10) A written statement from the qualified person preparing the report indicating whether any constituents have migrated into the vadose zone, surface water bodies, perched water, or water-bearing strata.

(11) A written statement from the qualified person preparing the report indicating whether any migration of leachate into the vadose zone, surface water bodies, perched water, or water-bearing strata is likely or not likely to occur within five years, and any evidence supporting that statement.

SEC. 3. Section 25208.17 of the Health and Safety Code is amended to read:

25208.17. (a) Except as provided in subdivision (g), a person specified in subdivision (h) is exempt from filing the report required by Section 25208.7 if the surface impoundment has been closed, or will be closed before January 1, 1988, in accordance with Subchapter 15 (commencing with Section 2510) of Chapter 3 of Title 23 of the California Administrative Code, and it has only been used for the discharge of economic poisons, as defined in Section 12753 of the Food and Agricultural Code, and if the person submits an application for exemption to the regional board on or before February 1, 1987, pursuant to subdivision (b) and an initial hydrogeological site assessment report to the regional board on or before July 1, 1987. A qualified person shall be responsible for the preparation of the hydrogeological site assessment report and shall certify its completeness and accuracy.

(b) A person seeking exemption from Section 25208.7 shall file an application for exemption with the regional board on or before February 1, 1987, together with an initial filing fee of three thousand dollars ($3,000). The application shall include the names of persons who own or operate each surface impoundment for which the exemption is sought and the location of each surface impoundment for which an exemption is sought.

(c) Notwithstanding Section 25208.3, each person filing an application for exemption pursuant to subdivision (b) shall pay only the application fee provided in subdivision (b) and any additional fees assessed by the state board to recover the actual costs incurred

by the state board and regional boards to administer this section. The person is not liable for fees assessed pursuant to Section 25208.3, except that, if the person is required to comply with Section 25208.7 or 25208.6, the fees assessed under this section shall include the costs of the regional board and state board to administer those sections.

(d) If a person fails to pay the initial filing fee by February 1, 1987, or fails to pay any subsequent additional assessment pursuant to subdivision (c), the person shall be liable for a penalty of not more than 100 percent of the fees due and unpaid, but in an amount sufficient to defer future noncompliance, as based upon that person's past history of noncompliance and ability to pay, and upon additional expenses incurred by the regional board and state board as a result of this noncompliance.

(e) Notwithstanding Section 25208.3, after the regional board has made a determination pursuant to subdivision (g), a final payment or refund of fees specified in subdivision (c) shall be made so that the total fees paid by the person shall be sufficient to cover the actual costs of the state board and the regional board in administering this section.

(f) The hydrogeological site assessment report shall contain for each surface impoundment, all of the following information:

(1) A description of the surface impoundment, including its physical characteristics, its age, the presence or absence of a liner, a description of the liner, the liner's compatibility with the hazardous wastes discharged to the impoundment, and the design specifications of the impoundment.

(2) A description of the volume and concentration of hazardous waste constituents placed in the surface impoundment, based on a representative chemical analysis of the specific hazardous waste type and accounting for variance in hazardous waste constituents over time.

(3) An analysis of surface and groundwater on, under, and within one mile of the surface impoundment to provide a reliable indication of whether or not hazardous constituents or leachate is leaking or has been released from the surface impoundment.

(4) A chemical characterization of soil-pore liquid in areas which are likely to be affected by hazardous constituents or leachate released from the surface impoundment, as compared to geologically similar areas near the surface impoundment which have not been affected by releases from the surface impoundment. This characterization shall include:

(A) A description of the composition of the vadose zone beneath the surface impoundment. This description shall include a chemical and hydrogeological characterization of both the consolidated and unconsolidated geologic materials underlying the surface impoundment, and an analysis for pollutants, including those constituents discharged into the surface impoundment. This description shall also include soil moisture readings from a representative number of points around the surface impoundment's

perimeter and at the maximum depth of the surface impoundment. If the regional board determines that the use of suction type soil sampling devices are infeasible due to climate, soil hydraulics, or soil texture, the regional board may authorize the use of alternative devices. The initial report shall contain all data in tabular form so that data, constituents, and concentrations are readily discernible.

(B) A determination of the chemical characteristics of the soil made by collecting a soil sample upgradient from the impoundment or from an area which has not been affected by seepage from the surface impoundment and which is in a hydrogeologic environment similar to the surface impoundment. The determinations shall be analyzed for the same pollutants analyzed pursuant to subparagraph (A).

(5) A description of current groundwater and vadose zone monitoring being conducted at the surface impoundment for leak detection, including detailed plans and equipment specifications and a technical report which provides the rationale for the spatial distribution of groundwater and vadose zone monitoring points for the design of monitoring facilities, and for the selection of monitoring equipment. This description shall include:

(A) A map showing the location of monitoring facilities with respect to each surface impoundment.

(B) Drawings and design data showing construction details of groundwater monitoring facilities, including all of the following:

(i) Casing and hole diameter.

(ii) Casing materials.

(iii) Depth of each monitoring well.

(iv) Size and position of perforations.

(v) Method for joining sections of casing.

(vi) Nature and gradation of filter material.

(vii) Depth and composition of annular seals.

(viii) Method and length of time of development.

(ix) Method of drilling.

(C) Specifications, drawings, and data for the location and installation of vadose zone monitoring equipment.

(D) Discussion of sampling frequency and methods and analytical protocols used.

(E) Justification of indicator parameters used.

(6) Documentation demonstrating that the monitoring system and methods used at the facility can detect any seepage before the hazardous waste constituents enter the waters of the state. This documentation shall include, but is not limited to, substantiation of each of the following:

(A) The monitoring facilities are located close enough to the surface impoundment to identify lateral and vertical migration of any constituents discharged to the impoundment.

(B) The groundwater monitoring wells are not located within the influence of any adjacent pumping water wells which might impair their effectiveness.

(C) The groundwater monitoring wells are screened only in the zone of groundwater to be monitored.

(D) The casing material in the groundwater monitoring wells does not interfere with, or react to, the potential contaminants of major concern at the impoundment.

(E) The casing diameter allows an adequate amount of water to be removed during sampling and allows full development of each well.

(F) The annular seal of each groundwater monitoring well prevents pollutants from migrating down the well.

(G) The water samples are collected after at least five well volumes have been removed from the well and that the samples are collected, preserved, transported, handled, analyzed, and reported in accordance with guidelines for collection and analysis of groundwater samples which provide for preservation of unstable indicator parameters and prevent physical or chemical changes which could interfere with detection of indicator parameters. If the wells are low-yield wells, in that the wells are incapable of yielding three well volumes during a 24-hour period, the methods of water sample collection shall insure that a representative sample is obtained from the well.

(H) The hazardous waste constituents selected for analysis are specific to the facility, taking into account the chemical composition of hazardous wastes previously placed in the surface impoundment.

(I) The frequency of monitoring is sufficient to give timely warning of any leakage or release of hazardous constituents or leachate so that remedial action can be taken prior to any adverse changes in the quality of the groundwater.

(7) A written statement from the qualified person preparing the report indicating whether any hazardous constituents or leachate has migrated into the vadose zone, water-bearing strata, or waters of the state in concentrations which pollute or threaten to pollute the waters of the state.

(8) A written statement from the qualified person preparing the report indicating whether any migration of hazardous constituents or leachate into the vadose zone, water-bearing strata, or waters of the state is likely or not likely to occur within five years, and any evidence supporting that statement.

(g) The regional board shall complete a thorough analysis of each hydrogeological site assessment report submitted pursuant to subdivision (b) within one year after submittal. If the regional board, determines that a hazardous waste constituent from the surface impoundment is polluting or threatening to pollute, as defined in subdivision (*l*) of Section 13050 of the Water Code, both of the following shall occur:

(1) The regional board shall issue a cease and desist order or a cleanup and abatement order which prohibits any discharge into the surface impoundment and which requires compliance with Section 25208.6.

(2) The person shall file a report pursuant to Section 25208.7 within nine months after the regional board makes the determination pursuant to subdivision (g). In making any determination under this subdivision, the regional board shall state the factual basis for the determinations.

(h) For purposes of this section, person means only the following:

(1) Pest control operators and businesses licensed pursuant to Section 11701 of the Food and Agricultural Code.

(2) Local governmental vector control agencies who have entered into a cooperative agreement with the department pursuant to Section 2426.

(c) If the superintendent determines that no child development agency within the service delivery area meets the criteria of Section 8425, then other agencies operating within the service delivery area may apply.

(d) If the superintendent determines that more than one child development agency within the service delivery area meet the criteria of Section 8425, the superintendent in consultation with the private industry council and local elected officials may identify a consortium of these agencies to administer the child care and development fund.

SEC. 4. Section 8426 is added to the Education Code, to read:

8426. The State Department of Education shall reimburse the

contracting child care and employment fund agencies 50 percent of their net allowable costs for programs which provide child care services under this article.

The Superintendent of Public Instruction and other public officers shall, for such purposes, have authority to take all necessary steps to effectuate the retroactive application of this act, including the authority to adjust allowance computations, appointments, and disbursements for the fiscal year commencing July 1, 1987.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 754

An act to amend Sections 66780.5 and 66796.41 of, and to repeal and add Section 66780.2 of, the Government Code, relating to solid waste.

[Approved by Governor September 18, 1987. Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 66780.2 of the Government Code is repealed.

SEC. 2. Section 66780.2 is added to the Government Code, to read:

66780.2. (a) With each revision of a county solid waste management plan occurring on or after January 1, 1988, the plan shall indicate the remaining combined capacity of existing solid waste facilities, in cubic yards and years, to accept solid waste generated in the county. If the county determines that the remaining combined capacity of an existing solid waste facility will be exhausted within eight years, then, except as provided in paragraphs (1) and (2) and notwithstanding any other provision of law, the revision of the plan shall reserve an area or areas for the location of a new solid waste facility or the expansion of an existing solid waste facility.

(1) If the county determines that there is no area available for the location of a new solid waste facility or the expansion of an existing facility which is consistent with the applicable city or county general plan pursuant to subdivision (b), the county is not required to reserve that area in the revision of the plan, but the revision of the plan shall instead include a specific program for the handling and disposal of solid waste generated in the county in excess of its remaining solid waste facility capacity, subject to approval by the board.

(2) If a county reserved a site expansion or a potential site for a solid waste facility in its solid waste management plan prior to January 1, 1988, that site reservation may be deemed an area reservation for the purposes of compliance with this subdivision and subdivision (b).

(b) A county shall reserve an area or areas for the location of a new solid waste facility or the expansion of an existing facility in its solid waste management plan which is consistent with the applicable city or county general plan. An area is consistent with the general plan if all of the following requirements are met:

(1) The city or county has adopted a general plan which complies with the requirements of Article 5 (commencing with Section 65300) of Chapter 3 of Division 1 of Title 7.

(2) The area reserved for a new solid waste facility or the expansion of an existing solid waste facility is located in or coextensive with a land use area designated or authorized for solid

waste facilities in the applicable city or county general plan.

(3) The land uses authorized in the applicable city or county general plan adjacent to or near the area reserved for the establishment or expansion are compatible with the establishment or expansion of a solid waste facility.

(c) A county may tentatively reserve an area or areas for the location of a new solid waste facility or the expansion of an existing facility in its solid waste management plan even though that reservation of an area or areas is not consistent with the applicable city or county general plan. A reserved area in a solid waste management plan is tentative until it is made consistent with the applicable city or county general plan. If a county has tentatively identified a site expansion or a potential site for a solid waste facility in its solid waste management plan, that tentative site identification may be deemed a tentative area reservation for the purposes of subdivisions (d) and (e).

(d) An area tentatively reserved for the establishment or expansion of a solid waste facility shall be removed from the county solid waste management plan for either of the following reasons:

(1) A city or county fails or has failed to make the finding that the area is consistent with the general plan or has made a finding that the area should not be used for the location of a solid waste facility.

(2) The board refuses to concur in the issuance of a solid waste facility permit for the site because of the city's or county's failure to make the finding that the area in which the site is located is consistent with the general plan.

(e) The removal of a tentatively reserved area from the county solid waste management plan, pursuant to subdivision (d), shall be accomplished by either of the following methods:

(1) The county shall remove the area at the time of the next revision of the plan.

(2) The local agency having jurisdiction over the area shall request the county to remove the designation at the time of the next revision of the plan.

(f) For purposes of this section and Sections 66796.32, 66796.34, 66796.41, and 66796.42, the term "city" or "county" means the city or county in which the solid waste facility, or the area reserved for a new solid waste facility or the expansion of an existing facility, is located.

(g) Notwithstanding Section 66720.1, for purposes of this section, "solid waste facility" does not include facilities for the conversion of waste to energy, except that a county solid waste management plan may identify areas for these facilities.

SEC. 3. Section 66780.5 of the Government Code is amended to read:

66780.5. In addition to the other requirements of this title, the county solid waste management plan prepared pursuant to Section 66780 shall:

(a) Include in the first revision as required in Section 66780.7 an

amendment delineating an enforcement program in accordance with Chapter 3 (commencing with Section 66795), which has been reviewed by the board and the State Department of Health Services.

(b) Identify a program for the safe management of hazardous wastes, as defined in Section 25117 of the Health and Safety Code, which are generated by households and which should be separated from the solid waste stream, to the extent that the county determines a need for this program.

(c) Be reviewed, and revised, if appropriate, at least every three years and revised where necessary to be consistent with state policy. A report of the results of the plan review shall be submitted to the board and to the department beginning on the third anniversary of the date of board approval of the plan submitted pursuant to Section 66780 with subsequent reviews and reports at least every three years thereafter.

(d) Any amendment to the plan shall be approved by a majority of the cities within the county which contain a majority of the population of the incorporated area of the county. Each proposed amendment shall be submitted to each city within the county. Each city shall act upon the proposed amendment within 90 days after the city has received the amendment. If a city fails to act upon the proposed amendment within 90 days after receiving the amendment, the city shall be deemed to have approved the amendment as submitted. Each amendment shall be submitted to the board for approval as to its compliance with state policy.

(e) At the next revision of the plan occurring on or after January 1, 1987, the plan shall be revised to indicate the amount of asbestos waste generated in the county from asbestos removal projects and the sites or potential sites which have been designated to accept that waste. If it is concluded that the quantities of asbestos waste are not significant or that there are no sites located within the area covered by the county solid waste management plan where the asbestos waste could feasibly be disposed of, then the plan need not designate sites or potential sites for accepting such waste. If the plan does not designate sites or potential sites for accepting asbestos waste, then it shall identify measures which the county intends to take to secure the availability of sites for that purpose.

(f) In addition to the requirements of Section 66780.2, at the next revision of a solid waste management plan occurring on or after January 1, 1988, the plan shall be revised to include a plan by the county which establishes a goal of recycling 20 percent of the solid waste generated in the county, and actions the county will take to achieve this goal.

SEC. 4. Section 66796.41 of the Government Code is amended to read:

66796.41. (a) Except as provided in Section 66796.42, the board shall not concur in the issuance of a permit, as provided in subdivision (d) of Section 66796.32, for the establishment or expansion of a site for any solid waste facility unless the city or county

in which the site is located makes a finding that the establishment or expansion of the site is consistent with the city's or county's applicable general plan. This finding shall not be made unless the city or county has adopted a general plan which complies with the provisions of Article 5 (commencing with Section 65300) of Chapter 3 of Division 1 of Title 7.

(b) A site for any new or expanded solid waste facility shall be found to be consistent with the general plan if both of the following requirements are met:

(1) The site is located in a land use area designated or authorized for solid waste facilities in the applicable city or county general plan. If an area is zoned for the siting of a solid waste facility which is designed to produce an alternative source of energy through the conversion of solid waste material into energy, synthetic fuels, or reusable materials, the city or county shall deem this area to be in compliance with this requirement for the purposes of siting this type of solid waste facility.

(2) The land uses authorized adjacent to and near the site are compatible with the establishment or expansion of the site.

(c) A city or county shall not authorize land uses adjacent to or near a site located in an area designated or authorized for solid waste facilities in the applicable city or county general plan if the land uses would restrict or preclude the establishment of a solid waste facility or expansion of the facility or site.

(d) Notwithstanding any other provision of law, a land use permit authorizing the establishment or expansion of a site for any solid waste facility shall not be issued unless the city or county in which the site is located has held a public hearing on this matter pursuant to Section 65355.

(e) Nothing in this section limits the authority of a city or county to amend its general plan.

(f) For purposes of this chapter, a new solid waste facility is one which has never had, or does not currently have, a solid waste facilities permit.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 755

An act to add Section 739.3 to the Public Utilities Code, relating to public utilities.

[Approved by Governor September 18, 1987. Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares as follows:

(a) Many rural communities and small metropolitan areas of the state are served by small independent telephone companies.

(b) The spiraling costs of telephone service furnished by these small independent telephone companies may put telephone service beyond the budgets of many rural subscribers.

(c) Although the Public Utilities Commission has been shifting the costs of local telephone service from the long-distance telephone companies to the local companies, effective long-distance competition has not yet been fully realized by telephone subscribers in rural communities.

(d) It is, therefore, the intent of the Legislature, in enacting Section 739.3 of the Public Utilities Code, to require the commission to establish a rate structure for small independent telephone companies serving rural and small metropolitan areas which does not impose rates greater than 50 percent more than the average rates paid by residential subscribers in urban areas, as determined by the commission.

SEC. 2. Section 739.3 is added to the Public Utilities Code, to read:

739.3. (a) The commission shall develop and implement a suitable program to establish a fair and equitable local rate structure aided by transfer payments to small independent telephone corporations serving rural and small metropolitan areas. The purpose of the program shall be to promote the goals of universal telephone service and to reduce any disparity in the rates charged by those companies.

(b) For purposes of this section, small independent telephone corporations means those independent telephone corporations serving rural areas, as determined by the commission.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 756

An act to amend Section 1052 of, and to add Sections 1055, 1055.1, 1055.2, and 1055.3 to, the Water Code, relating to water.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 1052 of the Water Code is amended to read:

1052. (a) The diversion or use of water subject to this division other than as authorized in this division is a trespass.

(b) Civil liability may be administratively imposed by the board pursuant to Section 1055 for a trespass as defined in this section in an amount not to exceed five hundred dollars ($500) for each day in which the trespass occurs. Administrative civil liability may be imposed only during years declared to be critical by the Department of Water Resources.

(c) The Attorney General, upon request of the board, shall institute in the superior court in and for any county wherein the diversion or use is threatened, is occurring, or has occurred appropriate action for the issuance of injunctive relief as may be warranted by way of temporary restraining order, preliminary injunction, or permanent injunction.

(d) Any person or entity committing a trespass as defined in this section may be liable for a sum not to exceed five hundred dollars ($500) for each day in which the trespass occurs. The Attorney General, upon request of the board, shall petition the superior court to impose, assess, and recover any sums pursuant to this subdivision. In determining the appropriate amount, the court shall take into consideration all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the nature and persistence of the violation, the length of time over which the violation occurs, and the corrective action, if any, taken by the violator.

(e) All funds recovered pursuant to this section shall be transferred to the General Fund of the state.

(f) The remedies prescribed in this section are cumulative and not alternative.

SEC. 2. Section 1055 is added to the Water Code, to read:

1055. (a) The executive director of the board may issue a complaint to any person on whom administrative civil liability may be imposed pursuant to subdivision (a) of Section 1052. The complaint shall allege the act or failure to act that constitutes a trespass, the provision of law authorizing civil liability to be imposed, and the proposed civil liability.

(b) The complaint shall be served by personal notice or certified mail, and shall inform the party so served that a hearing shall be

conducted within 60 days after the party has been served. The hearing shall be before a member of the board as it may specify. The person who has been issued a complaint may waive the right to a hearing, in which case the board shall not conduct a hearing.

(c) After any hearing, the member shall report a proposed decision and order to the board and shall supply a copy to the party served with the complaint, the board's executive director, and any other person requesting a copy. The member of the board acting as hearing officer may sit as a member of the board in deciding the matter. The board, after making an independent review of the record and taking such additional evidence as may be necessary and could not reasonably have been offered before the hearing officer, may adopt, with or without revision, the proposed decision and order.

(d) Orders setting administrative civil liability shall become effective and final upon issuance thereof and payment shall be made.

SEC. 3. Section 1055.1 is added to the Water Code, to read:

1055.1. Any party aggrieved by a final order issued by the board under Section 1055 may obtain review of the order of the board in the superior court by filing in the court a petition for writ of mandate within 30 days following the issuance of the order by the board. If no aggrieved party petitions for writ of mandate within the time provided by this section, the order of the board shall not be subject to review by any court.

SEC. 4. Section 1055.2 is added to the Water Code, to read:

1055.2. No person shall be subject to both civil liability imposed under Section 1055 and civil liability imposed by the superior court under subdivision (d) of Section 1052 for the same act or failure to act.

SEC. 5. Section 1055.3 is added to the Water Code, to read:

1055.3. In determining the amount of civil liability, the board shall take into consideration all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the nature and persistence of the violation, the length of time over which the violation occurs, and the corrective action, if any, taken by the violator.

CHAPTER 757

An act to add Chapter 13.5 (commencing with Section 25988) to Division 20 of the Health and Safety Code, relating to equine animals.

[Approved by Governor September 18, 1987. Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 13.5 (commencing with Section 25988) is added to Division 20 of the Health and Safety Code, to read:

CHAPTER 13.5. HORSES AND OTHER EQUINE ANIMALS

25988. A peace officer, officer of a humane society as qualified under Section 607f or 607g of the Civil Code, or officer of an animal control or animal regulation department of a public agency, as qualified under Section 830.9 of the Penal Code, may issue a citation as prescribed in Section 25988.5, to any person or entity keeping horses or other equine animals for hire, if the person or entity fails to meet any of the following standards of humane treatment regarding the keeping of horses or other equine animals:

(a) Any enclosure where an equine is primarily kept shall be of sufficient size to enable the equine to comfortably stand up, turn around, and lie down, and shall be kept free of excessive urine and waste matter.

(b) Paddocks and corrals shall be of adequate size for the equine to move about freely.

(c) Buildings, premises, and conveyances used in conjunction with equines shall be kept free of sharp objects, protrusions, or other materials that are likely to cause injury.

(d) Equines shall be supplied with nutritionally adequate feed and clean water, in accordance with standards published by the Cooperative Extension of the Division of Agricultural Sciences of the University of California.

(e) Tack and equipment shall be appropriate and fit properly.

(f) After use the equine shall be cooled out to a normal condition at rest.

(g) When not being ridden, a saddled equine shall have available adequate shelter from the elements, and have loosened saddle straps and girths.

(h) An equine shall not be available for hire or use if the equine has any conditions that violate subdivision (b) of Section 597 or Section 597f of the Penal Code or any of the following conditions:

(1) Sores or abrasions caused or likely to be irritated by the surfaces of saddles, girths, harnesses, or bridles.

(2) Blindness in both eyes.

(3) Improperly or inadequately trimmed and shod feet contrary

to the standards published by the Cooperative Extension of the Division of Agricultural Sciences of the University of California.

(i) Each equine shall be individually identified, using humane methods, such as a detailed description, including, but not limited to, name, breed, color, markings, size, age, sex, and photograph.

(j) Farrier and veterinary receipts shall be kept and shall identify each equine treated.

(k) Veterinary, farrier, and feed records shall be made available during normal business hours to the law enforcement officer. Upon failure to provide these records, the equine or equines in question may not be used for hire until such time as the records are produced or an equine veterinarian shall certify that the equine or equines are fit for labor.

25988.5. Citations issued pursuant to Section 25988 shall require the person cited to pay a civil penalty in the amount of one hundred dollars ($100) for each violation, and one hundred dollars ($100) for each day the violation continues. Funds collected from the payment of penalties pursuant to this chapter shall be deposited with the entity under which jurisdiction the officers who issue the citations operate, and these funds may be expended by the entity only for administrative and enforcement costs incurred pursuant to this chapter.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act does not mandate a new program or higher level of service on local government. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 4 (commencing with Section 17550) of Part 7 of Division 2 of Title 2 of the Government Code.

CHAPTER 758

An act to amend Section 546 of the Code of Civil Procedure, relating to court orders.

[Approved by Governor September 18, 1987. Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 546 of the Code of Civil Procedure is amended to read:

546. (a) The court may issue ex parte any of the orders set forth in subdivision (a) of Section 4359 of the Civil Code, or in the case of a nonmarital relationship between the plaintiff and the defendant any of the orders set forth in paragraphs (2), (3), and (6) of subdivision (a) of Section 4359 of the Civil Code and where there is a minor child of the plaintiff and the defendant an order determining

the temporary custody of the child. In the case in which a temporary restraining order is granted without notice, the matter shall be made returnable on an order requiring cause to be shown why the order should not be dissolved, on the earliest day that the business of the court will permit, but not later than 20 days or, if good cause appears to the court, 25 days from the date the temporary restraining order is granted. The court may on motion of the plaintiff or on its own motion shorten the time for service on the defendant of the order to show cause.

The court may issue an ex parte order pursuant to this subdivision, excluding one party from a residence or dwelling only when the affidavit in support of an application for the order affirmatively shows facts sufficient for the court to ascertain that the plaintiff has a right under color of law to possession of the premises.

(b) The presiding judge of the superior court in each county shall designate not less than one judge, commissioner, or referee to be reasonably available to orally issue, by telephone or otherwise, emergency protective orders at all times when the superior court is not in session. A judge, commissioner, or referee so designated may issue an ex parte emergency protective order when a police or sheriff's officer asserts reasonable grounds to believe that a person is in immediate and present danger of domestic violence by a family or household member, based upon the person's allegation of a recent incident of abuse or threat of abuse by that family or household member. The order may consist of any of the orders set forth in paragraphs (2), (3), and (6) of subdivision (a) of Section 4359 of the Civil Code, as well as an order determining the temporary care and control of any minor children of the endangered person and the person against whom the order is sought. The order shall be issued without prejudice to any party.

A judge, commissioner, or referee may issue an emergency protective order pursuant to this subdivision only upon a finding that reasonable grounds have been asserted to believe that an immediate and present danger of domestic violence exists and that an emergency protective order is necessary to prevent the occurrence or recurrence of domestic violence. The police or sheriff's officer requesting the order shall reduce it to writing, and shall sign the order. The order shall include all of the following:

(1) A statement of the grounds asserted for the order.

(2) The date and time the order expires.

(3) The address of the superior court for the district or county in which the endangered person resides.

(4) The following statement: "To the Protected Party: This order will last only until the date and time noted above. If you wish to seek continuing protection, you will have to apply for an order from the court, at the address noted above, when it opens. You may seek the advice of an attorney as to any matter connected with your application for any future court orders. The attorney should be consulted promptly so that he or she may assist you in making your

application. To the Restrained Party: This order will last until the date noted above. The protected party may, however, obtain a more permanent restraining order when the court opens. You may seek the advice of an attorney as to any matter connected with the application. The attorney should be consulted promptly so that he or she may assist you in responding to the application."

The Judicial Council shall prescribe the form of the order and any other documents required by this subdivision. The statement required in paragraph (4) shall be printed in English and Spanish.

The officer who requested the emergency protective order, while on duty, shall carry copies of the order.

The emergency protective order shall be served upon the restrained party by the officer, if the restrained party can reasonably be located, and a copy shall be given to the protected party. A copy also shall be filed with the court as soon as practicable after issuance.

An emergency protective order shall expire not later than the close of judicial business on the next day of judicial business following the day of it's issue.

The availability of an emergency protective order shall not be affected by the fact that the endangered person has vacated the household to avoid abuse.

A police or sheriff's officer shall use every reasonable means to enforce an emergency protective order issued pursuant to this subdivision. A police or sheriff's officer acting pursuant to this subdivision shall not be held civilly or criminally liable if he or she has acted in good faith with regard thereto.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 3. This act shall become operative on July 1, 1988.

CHAPTER 759

An act to amend Sections 26003 and 26013 of the Public Resources Code, and to amend Section 2821 of the Public Utilities Code, relating to electricity.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that observance of contract terms relating to the control, appropriation, use, and distribution of water is a matter of overriding state and local interest and concern, particularly because of the need to use water for irrigation and municipal purposes. The Legislature further finds and declares that continued adherence to the federal policies contained in Section 210 of the Public Utility Regulatory Policies Act of 1978 (Public Law 95-617; 92 Stat. 3117, 3144), relating to cogeneration and small power production, is in the public interest.

It is therefore the intent of the Legislature, in enacting the amendments to Section 2821 of the Public Utilities Code contained in this act, to further those federal policies.

SEC. 2. Section 26003 of the Public Resources Code is amended to read:

26003. As used in this division, unless the context otherwise requires:

(a) "Authority" means the California Alternative Energy Source Financing Authority established pursuant to Section 26004 and any board, commission, department, or officer succeeding to the functions thereof, or to whom the powers conferred upon the authority by this division shall be given.

(b) "Cost" as applied to a project or portion thereof financed under this division means all or any part of the cost of construction and acquisition of all lands, structures, real or personal property or an interest therein, rights, rights-of-way, franchises, easements, and interests acquired or used for a project; the cost of demolishing or removing any buildings or structures on land so acquired, including the cost of acquiring any lands to which those buildings or structures may be moved; the cost of all machinery, equipment, and furnishings, financing charges, interest prior to, during, and for a period after, completion of construction as determined by the authority; provisions for working capital; reserves for principal and interest and for extensions, enlargements, additions, replacements, renovations, and improvements; the cost of architectural, engineering, financial, accounting, auditing and legal services, plans, specifications, estimates, administrative expenses, and other expenses necessary or incident to determining the feasibility of constructing any project or incident to the construction, acquisition,

or financing of any project.

(c) "Participating party" means any person, company, corporation, partnership, firm, or other entity or group of entities engaged in operations within this state which requires financing pursuant to the terms of this division to aid and assist in the promotion of alternative energy sources in the state.

(d) "Alternative sources" means the application of cogeneration technology, as defined in Section 25134; the conservation of energy; or the use of solar, biomass, wind, geothermal, hydroelectricity under 30 megawatts, or any other source of energy, the efficient use of which will reduce the use of fossil and nuclear fuels. "Alternative sources" does not include any hydroelectric facility that does not meet state laws pertaining to the control, appropriation, use, and distribution of water, including, but not limited to, the obtaining of applicable licenses and permits.

(e) "Project" means any land, building, improvement thereto, rehabilitation, work, property, or structure, real or personal, including, but not limited to, machinery and equipment, whether or not in existence or under construction, utilizing or designed to utilize an alternative source.

(f) "Revenue" means all rents, receipts, purchase payments, loan repayments, and all other income or receipts derived by the authority from the sale, lease, or other disposition of alternative source facilities, or the making of loans to finance alternative source facilities, and any income or revenue derived from the investment of any money in any fund or account of the authority.

(g) "Public agency" means any federal or state agency, board, or commission, or any county, city and county, city, regional agency, public district, or other political subdivision.

SEC. 3. Section 26013 of the Public Resources Code is amended to read:

26013. (a) All projects shall be constructed or completed subject to the rules and regulations of the authority.

(b) In addition to the requirements of subdivision (a), all projects involving construction or completion of hydroelectric facilities shall comply with all state laws pertaining to the control, appropriation, use, and distribution of water, including, but not limited to, the obtaining of applicable licenses and permits, as a condition of receiving any financing under this division. For these purposes, no financial assistance shall be provided by the authority for construction or completion of hydroelectric facilities unless the participating party provides proof of either of the following:

(1) Certification from the State Water Resources Control Board that a water right permit has been issued for the operation of the hydroelectric facility. No certification shall be issued unless, in applying for the certification, the applicant agrees in writing to comply with all terms and conditions of the permit.

(2) Certification from the State Water Resources Control Board that, in the opinion of the board, the private energy producer

possesses riparian rights or other water rights which authorize the operation of the hydroelectric facility.

(c) The authority may acquire, by deed, purchase, lease, contract, gift, devise, or otherwise, any real or personal property, structures, rights, rights-of-way, franchises, easements, and other interests in lands located within this state necessary or convenient for the construction or operation of a project, upon terms and conditions it deems advisable, and to lease, sell, or dispose of any property or interest in any manner necessary or desirable to carry out this division. The authority may not exercise the power of eminent domain under this division or any other provision of law.

SEC. 4. Section 2821 of the Public Utilities Code is amended to read:

2821. (a) The commission shall approve and establish equitable charges to be paid by an electrical corporation which purchases electricity or electrical generating capacity, or both, from any private energy producer employing other than a conventional power source for the generation of electricity.

(b) The commission, on its own motion or on application of an electrical corporation or a private energy producer, may also specify the prices, terms, and conditions for the purchase or sale of electricity or electrical generating capacity, or both, between an electrical corporation and a private energy producer, and these prices, terms, and conditions, so specified, shall be considered reasonable and prudent for all purposes. The commission may act to specify these prices, terms, and conditions on its own motion or on application of an electrical corporation or a private energy producer.

(c) Every contract, whether executed on or after January 1, 1988, or prior to that date, for the purchase of electricity or electrical generating capacity, or both, by an electrical corporation from a private energy producer employing hydroelectric facilities shall require proof of compliance by the private energy producer with all state laws relating to the control, appropriation, use, and distribution of water, including, but not limited to, the obtaining of applicable licenses and permits. For these purposes, the electrical corporation shall require the private energy producer to provide proof of either of the following:

(1) Certification from the State Water Resources Control Board that a water right permit has been issued for the operation of the hydroelectric facility. No certification shall be issued unless, in applying for the certification, the applicant agrees in writing to comply with all terms and conditions of the permit.

(2) Certification from the State Water Resources Control Board that, in the opinion of the board, the private energy producer possesses riparian rights or other water rights which authorize the operation of the hydroelectric facility.

The requirements of this subdivision shall apply only to contracts involving hydroelectric projects which have not commenced commercial operation prior to May 18, 1987.

(d) For purposes of meeting the requirements of subdivision (c) or providing certification required under Section 26013 of the Public Resources Code, the private energy producer shall furnish information as is reasonably required by the State Water Resources Control Board to document a claim of right. Every private energy producer requesting certification from the board pursuant to subdivision (c) or Section 26013 of the Public Resources Code shall pay to the board at the time of filing a certification fee of two hundred fifty dollars ($250) to cover the reasonable cost of the board in evaluating and processing the certification request.

(e) Every contract in violation of subdivision (c) is void and unenforceable on and after whichever of the following dates applies:

(1) February 29, 1988, for contracts involving hydroelectric projects which commence commercial operation on or after May 18, 1987, and prior to January 1, 1988.

(2) The 60th day after commencement of commercial operation for contracts involving hydroelectric projects which commence commercial operation on or after January 1, 1988.

The commission shall disallow, for purposes of establishing rates for an electrical corporation, all amounts expended for the purchase of electricity pursuant to a contract which is void and unenforceable under this subdivision.

CHAPTER 760

An act to amend Section 1845 of the Water Code, relating to water.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1845 of the Water Code is amended to read:

1845. (a) Upon failure of any person to comply with any valid, final cease and desist order issued by the board pursuant to this chapter, the Attorney General, upon the request of the board, shall petition the superior court for the issuance of such prohibitory or mandatory injunctive relief as may be warranted by way of temporary restraining order, preliminary injunction, or permanent injunction.

(b) Any person or entity who violates a valid, final cease and desist order issued pursuant to this chapter may be liable for a sum not to exceed one thousand dollars ($1,000) for each day in which such violation occurs.

(c) The Attorney General, upon request of the board, shall petition the superior court to impose, assess, and recover such sums. In determining the appropriate amount, the court shall take into consideration all relevant circumstances, including but not limited

to, the extent of harm caused by the violation, the nature and persistence of the violation, the length of time over which the violation occurs, and the corrective action, if any, taken by the violator.

(d) The evidence before the court shall consist of the record before the board and any evidence of a cease and desist order violation. The court may permit the introduction of additional evidence upon a showing of good cause. The court shall determine good cause by considering whether the evidence could have been produced, with reasonable diligence, at the prior administrative hearing or whether the evidence was improperly excluded. In every case, the court shall exercise its independent judgment on the evidence.

(e) All funds recovered pursuant to this section shall be transferred to the General Fund of the state.

CHAPTER 761

An act to amend Section 12028 of the Penal Code, and add Section 5008.6 to the Public Resources Code, relating to dangerous devices and apparatus.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 12028 of the Penal Code is amended to read:

12028. (a) The unlawful concealed carrying upon the person or within the vehicle of the carrier of any of the weapons mentioned in Section 653k, 12020, or 12025 is a nuisance.

(b) A firearm of any nature used in the commission of any misdemeanor as provided in this code or any felony, or an attempt to commit any misdemeanor as provided in this code or any felony, is, upon a conviction of the defendant, or upon a juvenile court finding that an offense which would be a misdemeanor or felony if committed by an adult was committed or attempted by the juvenile with the use of a firearm, a nuisance. A finding that the defendant was guilty of the offense but was insane at the time the offense was committed is a conviction for the purposes of this section.

(c) Any weapon described in subdivision (a), or, upon conviction of the defendant or a juvenile court finding that an offense which would be a misdemeanor or felony if committed by an adult was committed or attempted by the juvenile with the use of a firearm, any weapon described in subdivision (b), shall be surrendered to the sheriff of a county or the chief of police or other head of a municipal police department of any city or city and county. The officers to whom the weapons are surrendered, except upon the certificate of

a judge of a court of record, or of the district attorney of the county, that the retention thereof is necessary or proper to the ends of justice, may annually, between the 1st and 10th days of July, in each year, offer the weapons, which the officers in charge of them consider to have value with respect to sporting, recreational, or collection purposes, for sale at public auction to persons licensed under federal law to engage in businesses involving any weapon purchased. If any weapon has been stolen and is thereafter recovered from the thief or his or her transferee, or is used in such a manner as to constitute a nuisance pursuant to subdivision (a) or (b) without the prior knowledge of its lawful owner that it would be so used, it shall not be so offered for sale but shall be restored to the lawful owner, as soon as its use as evidence has been served, upon his or her identification of the weapon and proof of ownership.

(d) If, under this section, a weapon is not of the type that can be sold to the public, generally, or is not sold pursuant to subdivision (c) the weapon shall in the month of July, next succeeding, or sooner, if necessary to conserve local resources including space and utilization of personnel who maintain files and security of those weapons, be destroyed so that it can no longer be used as such weapon except upon the certificate of a judge of a court of record, or of the district attorney of the county, that the retention of it is necessary or proper to the ends of justice.

(e) This section does not apply to any firearm in the possession of the Department of Fish and Game or which was used in the violation of any provision of the Fish and Game Code, or any regulation adopted pursuant thereto, or which is forfeited pursuant to Section 5008.6 of the Public Resources Code.

amount owing.

(b) Notwithstanding any other provision of law, the lien provided for in subdivision (a) shall include all fees and penalties due and unpaid beginning with the fees for original registration that became delinquent for 120 days or more and continue to accrue to include all fees and penalties that subsequently become due and remain unpaid.

(c) Until the amount of a lien provided for in subdivision (a) or (b) is paid to the department, the department shall not do either of the following:

(1) Amend the permanent title record of the manufactured home or mobilehome which is the subject of the lien for the purpose of transferring any ownership interest or transferring or creating any security interest in the manufactured home or mobilehome.

(2) Issue any duplicate, substitute, or new certificate of title, registration card, or copy of a registration card with respect to the manufactured home or mobilehome which is the subject of the lien.

SEC. 5. Section 18116.2 is added to the Health and Safety Code, to read:

18116.2. (a) If the lien in favor of the State of California in the amount owing as provided by Section 18116.1 is against a commercial coach, and that lien has not been satisfied for a period of one year from the date the commercial coach became subject to the lien, the department may collect the amount of the lien on the commercial coach plus costs not to exceed four hundred fifty dollars ($450) by appropriate civil action or by seizure and sale of the commercial coach and its contents on which the lien has been placed or by seizure and sale of any other commercial coach owned by the owner of the commercial coach on which the lien has been placed.

(b) At least 10 days before the seizure, notice of the lien and of the intent to seize and sell the commercial coach and its contents shall be given by the department to the registered owner and legal owners, and any other persons known to be claiming an interest in the commercial coach or its contents, by registered mail addressed to those persons at the last known address appearing on the department's records.

(c) Any person receiving the notice of the lien and the intent to seize and sell the commercial coach and its contents may request a hearing to contest the existence or the amount of the lien. If no hearing is requested, the commercial coach and its contents shall be seized and sold.

(d) If a hearing is requested, a 10-day notice shall be given of the time and place of the hearing, which shall be held within the county of residence of the person requesting the hearing or of the registered owner. The hearing shall be conducted by a referee, who shall submit findings and recommendations to the director of the department or the director's authorized representative, who shall decide the matter. The decision shall be effective on notice thereof to the interested parties.

(e) At any time before seizure or sale, any registered owner, legal owner or person claiming an interest in the commercial coach or its contents may pay the department the amount of the lien, plus costs. In that event, the seizure and sale shall not be held and the commercial coach and its contents, if seized, shall be returned by the department to the person entitled to its possession. This payment shall not constitute a waiver of the right to a hearing.

(f) When the department or an authorized agent has reasonable cause to believe that the lien may be jeopardized within the 10-day notice of intent period, the commercial coach and its contents may be seized without prior notice to the registered owner or legal owner, upon obtaining authorization for the seizure from the director of the department or the director's authorized representative. (j) After deducting from the proceeds of sale, any amount due to satisfy the lien in favor of the state and the cost of the seizure and sale, any excess proceeds of sale shall be deposited in a special account. The registered owner, legal owner, or anyone claiming an interest in the mobilehome or its contents may file a claim to share in the excess proceeds of sale within one year from the date of sale. If any excess proceeds of sale remain in this special account after one year from the date of sale that money shall be transferred to the Mobilehome-Manufactured Home Revolving Fund.

SEC. 6. Section 18118 of the Health and Safety Code is amended to read:

18118. [Approved by Governor September 18, 1987. Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 3513 of the Government Code is amended to read:

(d) "Mediation" means effort by an impartial third party to assist in reconciling a dispute regarding wages, hours and other terms and conditions of employment between representatives of the public agency and the recognized employee organization or recognized employee organizations through interpretation, suggestion and advice.

(e) "Managerial employee" means any employee having significant responsibilities for formulating or administering agency or departmental policies and programs or administering an agency or department.

(f) "Confidential employee" means any employee who is required to develop or present management positions with respect to employer-employee relations or whose duties normally require access to confidential information contributing significantly to the development of management positions.

(g) "Board" means the Public Employment Relations Board. The Educational Employment Relations Board established pursuant to Section 3541 shall be renamed the Public Employment Relations Board as provided in Section 3540. The powers and duties of the board described in Section 3541.3 shall also apply, as appropriate, to this chapter.

(h) "Maintenance of membership" means that all employees who voluntarily are, or who voluntarily become, members of a recognized employee organization shall remain members of such employee organization in good standing for a period as agreed to by the parties pursuant to a memorandum of understanding, commencing with the effective date of the memorandum of understanding. A maintenance of membership provision shall not apply to any employee who within 30 days prior to the expiration of the memorandum of understanding withdraws from the employee organization by sending a signed withdrawal letter to the employee organization and a copy to the State Controller's office.

(i) "State employer," or "employer," for the purposes of bargaining or meeting and conferring in good faith, means the Governor or his or her designated representatives.

(j) "Fair share fee" means the fee deducted by the state employer from the salary or wages of a state employee in an appropriate unit who does not become a member of and financially support the recognized employee organization. SEC. 2. Section 20205.7 is added to the Government Code, to read:

20205.7. Notwithstanding any other provision of law, the board shall give first priority to investing not less than 25 percent of all funds which become available in a fiscal year for new investments, in the following:

(a) Obligations secured by a lien or charge solely on residential realty, including rental housing, located in the state and on the security of which, commercial banks are permitted to make loans pursuant to Article 2 (commencing with Section 1220) of Chapter 10 of Division 1 of the Financial Code.

(b) Securities representing a beneficial interest in a pool of obligations secured by a lien or charge solely on residential realty located in the state.

(c) Certificates of deposit issued by savings and loan associations,

if the savings and loan associations agree to make loans, or to fund tax-exempt notes or bonds issued by housing authorities, cities, or counties, on residential realty located in the state, including rental housing, in an amount equal to the amount of the deposit.

Funds subject to investment pursuant to this section include all moneys received as employer and member contributions, investment income, and the proceeds of redemption of debt securities and instruments with a maturity in excess of one year, reduced by the amount of benefit payments and withdrawals occurring during the fiscal year. In computing the amount of investment pursuant to this section, a dollar for dollar credit shall be given for residential realty investments described in this section which are contractually agreed to be made by a financial institution from which the board (in consideration thereof) purchases other such investments. In computing the amount of investment pursuant to this section, the board may elect to include the dollar amount of commitments to purchase mortgages from public revenue bond programs in the year the commitment is given. However that election may not exceed one-fifth of the total guideline amount.

Nothing in this section shall be construed to require the acquisition of any instrument or security at less than the market rate.

If the board determines during any fiscal year that compliance with this section will result in lower overall earnings for the fund than obtainable from alternative investment opportunities that would provide equal or superior security, including guarantee of yield, the board may substitute those higher yielding investments, to the extent actually available for acquisition, for the investments otherwise specified by this section. Additionally, if (and to the extent that) adherence to the diversification guideline specified in this section would conflict with its fiduciary obligations in violation of Section 9 of Article I of the California Constitution or Section 10 of Article I of the United States Constitution, or would conflict with the standard for prudent investment of the fund set forth in Section 17 of Article XVI of the California Constitution, the board may substitute alternative investments. In that case, the board shall submit its resolution of findings and determinations, together with a description of the type, quantity, and yield of the investments substituted, to the Governor and to the Joint Legislative Audit Committee within 10 days following the conclusion of the fiscal year. Within 30 days thereafter, the Joint Legislative Audit Committee shall transmit the Auditor General's report to the Speaker of the Assembly and to the Senate Rules Committee for transmittal to affected policy committees.

This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1993, deletes or extends that date.

SEC. 3. Section 20930.33 is added to the Government Code, to read:

20930.33. "Public service" with respect to a local member who

retired pursuant to this part before the effective date of the election of his or her employer to be subject to Section 20930.3 also means active service with the armed forces or the merchant marine of the United States, including time during any period of rehabilitation afforded by the United States government other than a period of rehabilitation for purely educational purposes, and for six months thereafter prior to the person's first employment by the employer under this section in which he or she was a member. Any retired person electing to receive credit for that public service shall, in addition to contributions otherwise required by this article, contribute an amount equal to the contributions for current and prior service that the employee and his or her employer would have made with respect to him or her had he or she been in membership for a period equal to the military service and assuming that the employer's rate in effect at the time of election and his or her compensation at the beginning of his or her first period of service in membership with the employer under this section had been in effect for that period.

The public service shall not include military service (a) in any period for which credit is otherwise given under this article or Article 4 (commencing with Section 20890), or (b) which is not continuous, or (c) to the extent that total credit under this section would exceed four years.

Notwithstanding Section 20933, a retired person may select which of two or more periods of continuous service entitles him or her to receive public service under this section.

This section shall apply to a retired person only if he or she retired immediately following service as a local member, pursuant to this part, and before the effective date of the election by his or her employer to be subject to Section 20930.3.

The retirement allowance of a retired person who elects to receive service credit pursuant to this section shall be increased only with respect to the allowance payable on and after the effective date of the election.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency has elected to be subject to Section 20930.3 and elects to be subject to this section by amendment to its contract made in the manner prescribed for approval of contracts or, in the case of contracts made after this section takes effect, by express provision in the contract making the contracting agency subject to both Section 20930.3 and this section.

(f) At the current fee structure rate, the strong-motion instrumentation program will not accomplish its mission until the year 2060 and increased funding is therefore needed.

SEC. 2. Section 2703 of the Public Resources Code is amended to read:

2703. The division shall maintain and service the strong-motion instruments installed, shall collect and interpret all records from the instruments, and shall make the records, record interpretations, and technical assistance available to the construction industry.

SEC. 3. Section 2705 of the Public Resources Code is amended to read:

2705. (a) All counties and cities shall collect a fee from each applicant for a building permit. Each such fee shall be equal to a specific amount of the proposed building construction for which the building permit is issued as determined by the local building officials. The fee amount shall be assessed in the following way:

(1) Group R occupancies, as defined in the 1985 Uniform Building Code and adopted in Part 2 (commencing with Section 2-101) of Title 24 of the California Administrative Code, one to three stories in height, except hotels and motels, shall be assessed at the rate of seven dollars ($7) per one hundred thousand dollars ($100,000), with appropriate fractions thereof.

(2) All other buildings shall be assessed at the rate of fifteen dollars ($15) per one hundred thousand dollars ($100,000), with appropriate fractions thereof.

(3) The fee shall be the amount assessed under paragraph (1) or (2), depending on building type, or fifty cents ($0.50), whichever is the higher.

(b) In lieu of the requirements of subdivision (a), a county or city may elect to include a rate of seven dollars ($7) per one hundred thousand dollars ($100,000), with appropriate fractions thereof, in its basic building permit fee for any Group R occupancy defined in paragraph (1) of subdivision (a), and a rate of fifteen dollars ($15) per one hundred thousand dollars ($100,000), with appropriate fractions thereof, for all other building types. If collection of the fee is made pursuant to this subdivision, the amount of the fees required to be deposited in the Strong-Motion Instrumentation Special Fund pursuant to Section 2706 shall be equal to the sum of 0.007 percent of the total valuation of any Group R occupancy defined in paragraph (1) of subdivision (a), plus 0.015 percent of the total valuation of all other building types, for which building permits were issued during the accounting period. A county or city electing to collect the fee pursuant to this subdivision need not segregate the fees in a fund separate from any fund into which basic building permit fees are deposited.

"Building," for the purpose of this chapter, is any structure built for the support, shelter, or enclosure of persons, animals, chattels, or property of any kind.

(c) A city or county may retain up to 5 percent of the total amount it collects under subdivision (a) or (b) for data utilization and seismic education incorporating data interpretations from data of the strong-motion instrumentation program.

SEC. 4. Section 2709.1 is added to the Public Resources Code, to read:

2709.1. (a) After January 1, 1988, no strong-motion instrumentation shall be installed pursuant to this chapter in the structural types identified in subdivision (b) unless funds proportionate to the construction value as called for under Section 2705 are received from organizations or entities representing these structural types, or the instrumentation is specifically called for by the Seismic Safety Commission in urgency situations.

(b) The structural types subject to this section include all of the following:

(1) Hospitals.

(2) Dams.

(3) Bridges.

(4) Schools.

(5) Powerplants.

(c) The Strong-Motion Instrumentation Special Fund may accept funds from sources other than the permit fees identified in this chapter. The priority of installations performed under this chapter shall be determined by the Seismic Safety Commission.

SEC. 5. On or before January 1, 1996, the Seismic Safety Commission shall review and assess the effectiveness and completeness of the strong-motion instrumentation program, including the fee structure under which the program is being carried out, to determine if changes are warranted in the method or mode of fee collection.

CHAPTER 784

An act to amend Section 11005 of the Government Code, and to amend Section 5005 of the Public Resources Code, relating to gifts to the state.

[Approved by Governor September 18, 1987. Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 11005 of the Government Code is amended to read:

11005. Unless the Legislature specifically provides that approval

is not required, every gift or dedication to the state of personal property, or every gift to the state of real property in fee or in any lesser estate or interest, shall be approved by the Director of Finance, and every contract for the acquisition or hiring of real property in fee or in any lesser estate or interest, entered into by or on behalf of the state, shall be approved by the Director of General Services. Any contract entered into in violation of this section is void. This section applies to any state agency which, by general or specific statute, is expressly or impliedly authorized to enter into transactions referred to in this section. This section does not apply (1) to unconditional gifts of money, (2) to the acquisition or hiring by the Department of Transportation of real property in fee or in any lesser estate or interest for highway purposes, but does apply to the hiring by that department of office space in any office building, (3) to contracts entered into under the authority of Chapter 4 (commencing with Section 11770) of Part 3 of Division 2 of the Insurance Code, (4) to the receipt of donated, unencumbered personal property from private sources received in conjunction with the administration of the Federal Surplus Personal Property Program by the Department of General Services, or (5) to the receipt of gifts of personal property in the form of interpretive or historical objects, each valued at fifteen thousand dollars ($15,000) or less, by the Department of Parks and Recreation.

SEC. 2. Section 5005 of the Public Resources Code is amended to read:

5005. (a) The department may receive and accept in the name of the people of the state any gift, dedication, devise, grant, or other conveyance of title to or any interest in real property, including water rights, roads, trails, and rights-of-way, to be added to or used in connection with the park system. It may receive and accept gifts, donations, contributions, or bequests of money to be used in acquiring title to or any interest in real property, or in improving it as a part of or in connection with the State Park System, or to be used for any of the purposes for which the department is created. It may also receive and accept personal property for any purpose connected with the park system.

(b) Subdivision (a) is subject to the requirements and exceptions set forth in Section 11005 of the Government Code.

CHAPTER 785

An act to add Section 205 to the Penal Code, relating to crime.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 205 is added to the Penal Code, to read:

205. A person is guilty of aggravated mayhem when he or she unlawfully, under circumstances manifesting extreme indifference to the physical or psychological well-being of another person, intentionally causes permanent disability or disfigurement of another human being or deprives a human being of a limb, organ, or member of his or her body. For purposes of this section, it is not necessary to prove an intent to kill. Aggravated mayhem is a felony punishable by imprisonment in the state prison for life with the possibility of parole.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 786

An act to add Division 19 (commencing with Section 180000) to the Public Utilities Code, and to add Sections 7251.1, 7252.16, and 7273.2 to the Revenue and Taxation Code, relating to local transportation authorities.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Division 19 (commencing with Section 180000) is added to the Public Utilities Code, to read:

DIVISION 19. LOCAL TRANSPORTATION AUTHORITIES

CHAPTER 1. GENERAL PROVISIONS

180000. This division shall be known and may be cited as the Local Transportation Authority and Improvement Act.

180001. The Legislature hereby finds and declares all of the

following:

(a) Local highway and transportation improvements and services are an immediate high priority needed to resolve local and regional transportation problems that threaten the economic viability and development potential of counties and cities and adversely impact the quality of life therein. Furthermore, regional transportation is a matter of statewide concern.

(b) Comprehensive studies and reports have been completed by the Department of Transportation, the Assembly Office of Research, the Governor's Task Force on Infrastructure, and the California Business Roundtable which conclude that there exists a local city street and county road maintenance backlog and shortfall of between five hundred million dollars ($500,000,000) and eight hundred forty million dollars ($840,000,000) annually.

(c) In order to deal in an expeditious manner with current and future local transportation maintenance and improvement needs, local agencies need to develop and implement local funding programs that go significantly beyond current federal and state funding which is inadequate to resolve these problems.

(d) It is in the public interest to allow the voters of each county to establish local transportation authorities and raise additional local revenues to provide highway capital improvements and maintenance and to meet local transportation needs in a timely manner.

(e) It is the intent of the Legislature that funds generated pursuant to this division be used to supplement and not replace existing local revenues used for transportation purposes.

180002. "Authority" means a local transportation authority created or designated pursuant to this division.

180003. This division shall be liberally construed in order to effectuate its purposes. No inadvertent error, irregularity, informality, or the inadvertent neglect or omission of any officer, in any procedure taken under this division, other than fraud, shall void or invalidate that proceeding or any levy imposed to finance highway improvements or local transportation needs.

CHAPTER 2. CREATION OF LOCAL TRANSPORTATION AUTHORITY

180050. A county board of supervisors may create an authority to operate within the county to carry out this division, or may designate a transportation planning agency designated pursuant to Section 29532 of the Government Code or a county transportation commission created pursuant to the County Transportation Act (Division 12 (commencing with Section 130000)) in existence in the county on January 1, 1988, to serve as an authority.

180051. A board of supervisors choosing to create an entirely new entity as an authority, shall determine the membership of the authority with the concurrence of a majority of the cities having a majority of the population in the incorporated area of the county.

Each member of the authority shall be an elected official of a local governmental entity within or partly within the county. Members of the board of supervisors serving on an authority shall comprise less than a majority thereof.

180052. (a) Except as provided in subdivision (b), members of an authority which is an entirely new entity shall serve for a term of not more than four years.

(b) At the first meeting of an authority which is an entirely new entity convened pursuant to Section 180112 the members shall be selected by lot to serve staggered terms.

CHAPTER 3. ADMINISTRATION

180100. The authority at its first meeting, and thereafter annually at the first meeting in January, shall elect a chairperson who shall preside at all meetings, and a vice chairperson who shall preside in the absence of the chairperson. In the event of their absence or inability to act, the members present, by an order entered in the minutes, shall select one of their members to act as chairperson pro tempore, who, while so acting, shall have all the authority of the chairperson.

180101. The authority shall adopt rules for its proceedings consistent with the laws of the state.

180102. A majority of the members of the authority constitutes a quorum for the transaction of business, and all official acts of the authority requires the affirmative vote of a majority of the members of the authority.

180103. The acts of the authority shall be expressed by motion, resolution, or ordinance.

180104. All meetings of the authority shall be conducted pursuant to Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code.

180105. The authority shall do all the following:

(a) Adopt an annual budget.

(b) Adopt an administrative code, by ordinance, which prescribes the powers and duties of the authority officers, the method of appointment of the authority employees, and methods, procedures, and systems of operation and management of the authority.

(c) Cause a postaudit of the financial transactions and records of the authority to be made at least annually by a certified public accountant.

(d) Do any and all things necessary to carry out the purposes of this division.

The authority may appoint a policy advisory committee.

180106. The authority may hire an independent staff of its own or contract with any department or agency of the United States or with any public agency to implement this division.

180107. The authority shall fix the compensation of its officers and employees.

180108. (a) Notice of the time and place of a public hearing on the adoption of the annual budget shall be published pursuant to Section 6061 of the Government Code not later than the 15th day prior to the day of the hearing.

(b) The proposed annual budget shall be available for public inspection at least 15 days prior to the hearing.

180109. (a) The authority shall rely, to the extent possible, on existing state, regional, and local transportation planning and programming data and expertise, rather than on a large duplicative staff and set of plans.

(b) The authority shall not expend more than 1 percent of the funds generated pursuant to this division in any year for salary and benefits of its staff.

180110. The authority shall consult with, and coordinate its actions to secure funding for the completion and improvement of the priority regional highways, with the cities in the county, the board of supervisors, and the Department of Transportation, for the purpose of integrating its planned highway improvements with the highway and other transportation improvement plans and operations of other transportation agencies impacting the county.

180111. The authority shall prepare and adopt an annual report each year on progress made to achieve the objective of improving transportation conditions related to priority highway operations and local transportation needs.

180112. The initial meeting of the authority shall convene within 90 days of the approval of the transactions and use tax at the election conducted pursuant to Chapter 5 (commencing with Section 180200). The Secretary of the Business, Transportation and Housing Agency shall convene the initial meeting.

CHAPTER 4. POWERS AND FUNCTIONS

180150. The authority may sue and be sued, except as otherwise provided by law, in all actions and proceedings, in all courts and tribunals of competent jurisdiction.

180151. All claims for money or damages against the authority are governed by Division 3.6 (commencing with Section 810) of Title 1 of the Government Code, except as provided therein, or by other statutes or regulations expressly applicable thereto.

180152. The authority may make contracts and enter into stipulations of any nature whatsoever, either in connection with eminent domain proceedings or otherwise, including, but not limited to, contracts and stipulations to indemnify and hold harmless, to employ labor, and to do all acts necessary and convenient for the full exercise of the powers granted in this division.

180153. The authority may contract with any department or agency of the United States, with any public agency, including, but not limited to, the Department of Transportation, any county, city, or district, or with any person upon any terms and conditions that the

authority finds in its best interest.

180154. (a) Contracts for the purchase of services, supplies, equipment, and materials in excess of ten thousand dollars ($10,000) shall be awarded to the lowest responsible bidder after competitive bidding, except in an emergency declared by the authority or by an executive committee to which the authority has delegated responsibility to make that declaration.

(b) If, after rejecting bids received under subdivision (a), the authority determines and declares that, in its opinion, the services, supplies, equipment, or materials may be purchased at a lower price on the open market, the authority may proceed to purchase these services, supplies, equipment, or materials in the open market without further observance of the provisions regarding contracts, bids, or advertisements.

CHAPTER 5. TRANSACTIONS AND USE TAXES

180200. The Legislature, by the enactment of this division, intends that the additional funds provided governmental agencies by this chapter shall supplement existing local revenues being used for public transportation purposes and that local governments maintain their existing commitment of local funds for transportation purposes.

The Legislature further intends that transportation authorities utilize "pay-as-you-go" financing as the preferred method of funding transportation improvements and operations authorized by Section 180205, and that bond financing be utilized as an alternative method of funding, where the scope of the planned expenditures makes "pay-as-you-go" financing unfeasible.

180201. A retail transactions and use tax ordinance applicable in the incorporated and unincorporated territory of a county may be imposed by the authority in accordance with this chapter and Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code, if the ordinance is adopted by a two-thirds vote of the authority and is subsequently approved by a majority of the electors voting on the measure at a special election called for that purpose by the board of supervisors, at the request of the authority, and a county transportation expenditure plan is adopted pursuant to Section 180206.

A retail transactions and use tax approved by the electors shall remain in effect for not longer than 20 years, or any lesser period of time specified in the ordinance. The tax may be continued in effect, or reimposed, by an ordinance adopted by a two-thirds vote of the authority and approved by a majority of the electors.

180202. The authority, in the ordinance, shall state the nature of the tax to be imposed, shall provide the tax rate or the maximum tax rate, shall specify the period during which the tax will be imposed, and shall specify the purposes for which the revenue derived from the tax will be used. The tax rate or the maximum tax rate shall be either ½ percent or 1 percent.

The proposition shall include an appropriations limit for that entity pursuant to Section 4 of Article XIII B of the California Constitution.

180203. (a) The county shall conduct the special election called by the board of supervisors pursuant to Section 180201. If the measure is approved, the authority shall reimburse the county for its cost in conducting the special election.

(b) The special election shall be called and conducted in the same manner as provided by law for the conduct of special elections by a county.

(c) The sample ballot to be mailed to the voters, pursuant to Section 10010 of the Elections Code, shall be the full proposition, as set forth in the ordinance calling the election, and the voter information handbook shall include the entire adopted county transportation expenditure plan.

180204. (a) Any transactions and use tax ordinance adopted pursuant to this chapter shall be operative on the first day of the first calendar quarter commencing more than 120 days after adoption of the ordinance.

(b) Prior to the operative date of the ordinance, the authority shall contract with the State Board of Equalization to perform all functions incidental to the administration and operation of the ordinance.

180205. The revenues from the taxes imposed pursuant to this chapter may be allocated by the authority for the construction and improvement of state highways, the construction, maintenance, improvement, and operation of local streets, roads, and highways, and the construction, improvement, and operation of public transit systems.

180206. (a) A county transportation expenditure plan shall be prepared for the expenditure of the revenues expected to be derived from the tax imposed pursuant to this chapter, together with other federal, state, and local funds expected to be available for transportation improvements, for the period during which the tax is to be imposed.

(b) A county transportation expenditure plan shall not be adopted until it has received the approval of the board of supervisors and of the city councils representing both a majority of the cities in the county and a majority of the population residing in the incorporated areas of the county.

(c) The plan shall be adopted prior to the call of the election provided for in Section 180201.

180207. (a) The authority may annually review and propose amendments to the county transportation expenditure plan adopted pursuant to Section 180206 to provide for the use of additional federal, state, and local funds, to account for unexpected revenues, or to take into consideration unforeseen circumstances.

(b) The authority shall notify the board of supervisors and the city council of each city in the county and provide them with a copy of the proposed amendments.

(c) The proposed amendments shall become effective 45 days after notice is given.

CHAPTER 6. BONDS

180250. (a) As part of the ballot proposition to approve the imposition of a retail transactions and use tax, authorization may be sought to issue bonds to finance capital outlay expenditures as may be provided for in the adopted county transportation expenditure plan, payable from the proceeds of the tax.

(b) The maximum bonded indebtedness which may be outstanding at any one time shall be an amount equal to the sum of the principal of, and interest on, the bonds, but not to exceed the estimated proceeds of the tax, as determined by the plan. The amount of bonds outstanding at any one time does not include the amount of bonds, refunding bonds, or bond anticipation notes for which funds necessary for the payment thereof have been set aside for that purpose in a trust or escrow account.

180251. (a) The bonds authorized by the voters concurrently with the approval of the retail transactions and use tax may be issued at any time by the authority and shall be payable from the proceeds of the tax. The bonds shall be referred to as "limited tax bonds." The bonds may be secured by a pledge of revenues from the proceeds of the tax.

(b) The pledge of the tax to the limited tax bonds authorized under this chapter shall have priority over the use of any of the tax for "pay-as-you-go" financing, except to the extent that that priority is expressly restricted in the resolution authorizing the issuance of the bonds.

180252. Limited tax bonds shall be issued pursuant to a resolution adopted at any time by a two-thirds vote of the authority. Each resolution shall provide for the issuance of bonds in the amounts as may be necessary, until the full amount of bonds authorized have been issued. The full amount of bonds may be divided into two or more series and different dates of payment fixed for the bonds of each series. A bond need not mature on its anniversary date.

180253. (a) A resolution authorizing the issuance of bonds shall state all of the following:

(1) The purposes for which the proposed debt is to be incurred, which may include all costs and estimated costs incidental to, or connected with, the accomplishment of those purposes, including, without limitation, engineering, inspection, legal, fiscal agents, financial consultant and other fees, bond and other reserve funds, working capital, bond interest estimated to accrue during the construction period and for a period not to exceed three years thereafter, and expenses of all proceedings for the authorization, issuance, and sale of the bonds.

(2) The estimated cost of accomplishing those purposes.

(3) The amount of the principal of the indebtedness.

(4) The maximum term the bonds proposed to be issued shall run before maturity, which shall not be beyond the date of termination of the imposition of the retail transactions and use tax.

(5) The maximum rate of interest to be paid, which shall not exceed the maximum allowable by law.

(6) The denomination or denominations of the bonds, which shall not be less than five thousand dollars ($5,000).

(7) The form of the bonds, including, without limitation, registered bonds and coupon bonds, to the extent permitted by federal law, and the form of any coupons to be attached thereto, the registration, conversion, and exchange privileges, if any, pertaining thereto, and the time when all of, or any part of, the principal becomes due and payable.

(b) The resolution may also contain any other matters authorized by this chapter or any other law.

180254. The bonds shall bear interest at a rate or rates not exceeding the maximum allowable by law, payable at intervals determined by the commission.

180255. In the resolution authorizing the issuance of the bonds, the authority may also provide for the call and redemption of the bonds prior to maturity at the times and prices and upon other terms as specified. However, no bond is subject to call or redemption prior to maturity, unless it contains a recital to that effect or unless a statement to that effect is printed.

180256. The principal of, and interest on, the bonds shall be payable in lawful money of the United States at the office of the treasurer of the authority, or at other places as may be designated, or at both the office and other places at the option of the holders of the bonds.

180257. The bonds, or each series thereof, shall be dated and numbered consecutively and shall be signed by the chairperson or vice chairperson of the authority and the auditor-controller of the authority, and the official seal, if any, of the authority shall be attached.

The interest coupons of the bonds shall be signed by the auditor-controller of the authority. All of the signatures and seal may be printed, lithographed, or mechanically reproduced.

If any officer whose signature appears on the bonds or coupons ceases to be that officer before the delivery of the bonds, the officer's signature is as effective as if the officer had remained in office.

180258. The bonds may be sold as the authority determines by resolution, and the bonds may be sold at a price below par, whether by negotiated or public sale.

180259. Delivery of any bonds may be made at any place either inside or outside the state, and the purchase price may be received in cash or bank credits.

180260. All accrued interest and premiums received on the sale of the bonds shall be placed in the fund to be used for the payment of the principal of, and interest on, the bonds, and the remainder of

the proceeds of the bonds shall be placed in the treasury of the authority and applied to secure the bonds or for the purposes for which the debt was incurred. However, when the purposes have been accomplished, any money remaining shall be either (a) transferred to the fund to be used for the payment of principal of, and interest on, the bonds or (b) placed in a fund to be used for the purchase of the outstanding bonds in the open market at prices and in the manner, either at public or private sale or otherwise, as determined by the authority. Bonds so purchased shall be canceled immediately.

180261. (a) The authority may provide for the issuance, sale, or exchange of refunding bonds to redeem or retire any bonds issued by the authority upon the terms, at the times and in the manner which it determines.

(b) Refunding bonds may be issued in a principal amount sufficient to pay all, or any part of, the principal of the outstanding bonds, the premiums, if any, due upon call and redemption thereof prior to maturity, all expenses of the refunding, and either of the following:

(1) The interest upon the refunding bonds from the date of sale thereof to the date of payment of the bonds to be refunded out of the proceeds of the sale of the refunding bonds or to the date upon which the bonds to be refunded will be paid pursuant to call or agreement with the holders of the bonds.

(2) The interest upon the bonds to be refunded from the date of sale of the refunding bonds to the date of payment of the bonds to be refunded or to the date upon which the bonds to be refunded will be paid pursuant to call or agreement with the holder of the bonds.

(c) The provisions of this chapter for the issuance and sale of bonds apply to the issuance and sale of refunding bonds.

180262. (a) The authority may borrow money in anticipation of the sale of bonds which have been authorized pursuant to this chapter, but which have not been sold or delivered, and may issue negotiable bond anticipation notes therefor and may renew the bond anticipation notes from time to time. However, the maximum maturity of any bond anticipation notes, including the renewals thereof, shall not exceed five years from the date of delivery of the original bond anticipation notes.

(b) The bond anticipation notes, and the interest thereon, may be paid from any money of the authority available therefor, including the revenues from the tax. If not previously otherwise paid, the bond anticipation notes, or any portion thereof, or the interest thereon, shall be paid from the proceeds of the next sale of the bonds of the agency in anticipation of which the notes were issued.

(c) The bond anticipation notes shall not be issued in any amount in excess of the aggregate amount of the bonds which the authority has been authorized to issue, less the amount of any bonds of the authorized issue previously sold, and also less the amount of other bond anticipation notes therefor issued and then outstanding. The

bond anticipation notes shall be issued and sold in the same manner as the bonds.

(d) The bond anticipation notes and the resolutions authorizing them may contain any provisions, conditions, or limitations which a resolution of the authority may contain.

180263. Any bonds issued under this chapter are legal investment for all trust funds; for the funds of insurance companies, commercial and savings banks, and trust companies; and for state school funds; and whenever any money or funds may, by any law now or hereafter enacted, be invested in bonds of cities, counties, school districts, or other districts within the state, that money or funds may be invested in the bonds issued under this chapter, and whenever bonds of cities, counties, school districts, or other districts within the state may, by any law now or hereafter enacted, be used as security for the performance of any act or the deposit of any public money, the bonds issued under this chapter may be so used. The provisions of this chapter are in addition to all other laws relating to legal investments and shall be controlling as the latest expression of the Legislature with respect thereto.

180264. Any action or proceedings wherein the validity of the adoption of the retail transactions and use tax ordinance provided for in this chapter or the issuance of any bonds thereunder or any of the proceedings in relation thereto is contested, questioned, or denied, shall be commenced within six months from the date of the election at which the ordinance is approved; otherwise, the bonds and all proceedings in relation thereto, including the adoption and approval of the ordinance, shall be held to be valid and in every respect legal and incontestable.

SEC. 2. Section 7251.1 is added to the Revenue and Taxation Code, to read:

7251.1. The combined rate of all taxes imposed pursuant to this part in any county shall not exceed 1 percent. No tax shall be considered in accordance with this part if, upon its adoption, the combined rate will exceed 1 percent.

SEC. 3. Section 7252.16 is added to the Revenue and Taxation Code, to read:

7252.16. "Districts," as used in this part, also means a local transportation authority created, or designated to serve as a local transportation authority, pursuant to Division 19 (commencing with Section 180000) of the Public Utilities Code.

SEC. 4. Section 7273.2 is added to the Revenue and Taxation Code, to read:

7273.2. The board shall annually prepare a report showing the amount of both reimbursed and unreimbursed costs incurred by it in administering transactions and use taxes imposed by districts pursuant to this part.

SEC. 2. Section 18147 of the Financial Code is amended to read:

18147. The commissioner shall not approve an application for a branch office until the commissioner has ascertained to the commissioner's satisfaction that the facts set forth in the application are true and:

(a) That the public convenience and advantage will be promoted by the establishment of the proposed branch office.

(b) That the industrial loan company has the capital required by this division.

(c) That the industrial loan company has established branch operational controls.

(d) That the financial condition of the industrial loan company justifies the establishment of the proposed branch office.

(e) (1) As to an industrial loan company transacting business before October 1, 1985, that the industrial loan company is a member of the Federal Deposit Insurance Corporation, or (2) as to an industrial loan company commencing business on or after October 1, 1985, that the industrial loan company is a member of the Federal Deposit Insurance Corporation.

SEC. 3. Section 18320 of the Financial Code is amended to read:

18320. Notwithstanding Section 18319, an industrial loan company shall in no event:

(b) On and after July 1, 1990, each industrial loan company, other than a premium finance agency, which has issued and has outstanding thrift obligations, shall, as a condition of its authority to continue to conduct business under this division, participate as a member of the Federal Deposit Insurance Corporation.

to discharge its function so long as the insurance remains in effect.

(f) Within one year of the effective date of the act which adds this section, and annually thereafter until July 1, 1990, the commissioner shall report to the Legislature on the following:

[Approved by Governor September 18, 1987. Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Article 1.3 (commencing with Section 1205) is added to Chapter 1 of Part 2 of Division 2 of the Water Code, to read:

Article 1.3. Declaration of Fully Appropriated Stream System

1205. (a) Following notice and hearing, the board may adopt a declaration that a stream system is fully appropriated. As used in this article, "stream system" includes stream, lake, or other body of water, and tributaries and contributory sources, but does not include an underground water supply other than a subterranean stream following through known and definite channels.

(b) A declaration that a stream system is fully appropriated shall contain a finding that the supply of water in the stream system is being fully applied to beneficial uses where the board finds that

previous water rights decisions have determined that no water remains available for appropriation.

(c) Upon its own motion or upon petition of any interested person, and following notice and hearing, the board may revoke or revise a declaration that a stream system is fully appropriated.

1206. (a) From and after the date of adoption of a declaration that a stream system is fully appropriated, and subject to subdivision (b), the board shall not accept for filing any application for a permit to appropriate water from the stream system described in that declaration, and the board may cancel any application pending on that date.

(b) Notwithstanding subdivision (a), the board may provide, in any declaration that a stream system is fully appropriated, for acceptance for filing of applications to appropriate water under specified conditions. Any provision to that effect shall specify the conditions and may contain application limitations, including, but not limited to, limitations on the purpose of use, on the instantaneous rate of diversion, on the season of diversion, and on the amount of water which may be diverted annually. The board may make those limitations applicable to individual applications to appropriate water, or to the aggregate of the applications, or to both.

(c) Subdivision (a) shall not apply to applications for temporary permits made pursuant to Chapter 6.5 (commencing with Section 1425) or to any provision of this code respecting change in point of diversion, place of use, or purpose of use.

1207. Notice of hearing pursuant to this article shall be given as follows:

(a) The notice shall be published at least once a week for four consecutive weeks in one or more newspapers of general circulation published in each county in which any part of the stream system is situated, and publication shall be complete at least 60 days prior to the date of hearing.

(b) At least 60 days prior to the date of the hearing, the notice shall be mailed to all persons known to the board who own land that appears to be riparian to the stream system, who divert water from the stream system, or who have made written request to the board for special notice of hearing pursuant to this article.

CHAPTER 789

An act to amend Sections 17310, 17320, 17321, 17323, and 17336 of, and repeal Section 17320.1 of, the Financial Code, relating to escrow agents.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 17310 of the Financial Code is amended to read:

17310. (a) It shall be the purpose of Fidelity Corporation to indemnify a member against loss of trust obligations as a result of fraud or dishonesty by an officer, director, trustee, stockholder, manager, or employee of a member, subject to the limitations set forth in this chapter.

(b) Fidelity Corporation shall not be liable for any consequential damages sustained by a member, or by any other person, nor for any punitive damages whatsoever.

(c) The indemnification shall be provided by either:

(1) A fidelity fund established by Fidelity Corporation.

(2) A bond to be approved by the commissioner.

(3) A combination of the fidelity fund and the bond.

SEC. 2. Section 17320 of the Financial Code is amended to read:

17320. Fidelity Corporation shall establish and maintain a fidelity fund as follows:

(a) Upon organization and establishment of the Fidelity Corporation, each member shall pay to Fidelity Corporation a membership fee of two thousand two hundred fifty dollars ($2,250) for each member's licensed location. The membership fee shall be paid in three annual installments of seven hundred fifty dollars ($750) each on or before April 15 of each year.

(b) Each person licensed pursuant to this division who becomes a member subsequent to the organization and establishment of Fidelity Corporation shall pay to Fidelity Corporation a membership fee of two thousand two hundred fifty dollars ($2,250) for each member's licensed location. The first installment of the membership fee of seven hundred fifty dollars ($750) shall also be paid to Fidelity Corporation prior to the time the license is issued by the commissioner for each location. The second and third installments of the membership fee of seven hundred fifty dollars ($750) each shall be paid on or before May 15 of the first and second year, respectively, subsequent to the year in which the license is issued. Fidelity Corporation shall not deny membership to any escrow agent holding a valid unrevoked license under the Escrow Law. Each person licensed pursuant to this division who becomes a member on or after January 1, 1986, shall pay the membership fee in one installment at

the time of applying for membership.

(c) A member who is granted authority by the commissioner to establish additional licensed locations shall pay to Fidelity Corporation, at the same time the authority is granted by the commissioner, the first installment of the membership fee for each licensed location. The second and third installments of the membership fee of seven hundred fifty dollars ($750) shall be paid on or before May 15 of the first and second years, respectively, subsequent to the year in which the authority is granted by the commissioner. Each person who is granted authority by the commissioner to establish additional licensed locations on or after January 1, 1986, shall pay the membership fee in one installment at the time the authority is granted.

(d) For the purpose of the annual assessment of each member to maintain the fidelity fund, Fidelity Corporation shall establish a fidelity fund account for each member, which shall require a cash payment from each member equal to the greater of the membership fee for each licensed location or 1 percent of the member's monthly average trust obligations as reported to the commissioner pursuant to Section 17348.

For those licensed persons who became members before January 1, 1986, if, on May 15 of the fourth year of membership and thereafter, the member's fidelity fund account does not equal the greater of the membership fee for each licensed location or 1 percent of the member's monthly average trust obligations, then Fidelity Corporation shall assess the member as follows:

(1) First, the remaining annual installments on the membership fee as set forth above.

(2) Then, after the membership fee is paid in full, an amount based on the member's average monthly trust obligations as follows:

(A) One-half of 1 percent of the average monthly trust obligations up to five hundred thousand dollars ($500,000) plus

(B) One-fourth of 1 percent of the average monthly trust obligations from five hundred thousand one dollars ($500,001) to one million dollars ($1,000,000) plus

(C) One-eighth of 1 percent of the average monthly trust obligations in excess of one million dollars ($1,000,000).

For those licensed persons who become members on or after January 1, 1986, if the member's fidelity fund account does not equal the greater of the membership fee for each licensed location or 1 percent of the member's monthly average trust obligations on May 15 of the first year subsequent to the year in which the license is issued, and thereafter, Fidelity Corporation shall assess the member as set forth in paragraph (2) of subdivision (d).

Provided, however, in no event will a member be required to pay an annual assessment greater than one thousand dollars ($1,000) per licensed location.

(e) Each member that fails to file a schedule of its escrow liability pursuant to Section 17348 when due shall pay an annual assessment

of one thousand dollars ($1,000) per licensed location unless an extension of time is granted in writing by the commissioner. Failure to file the schedule of escrow liability on or before the date granted by the extension of time shall result in an annual assessment of one thousand dollars ($1,000) per licensed location.

(f) Whenever Fidelity Corporation is requested by a member to pay that member for loss of trust obligations as a result of fraud or dishonesty, Fidelity Corporation shall pay its liability from the fidelity fund under Section 17314 by first charging the requesting member's fidelity fund account and then, to the extent that the member's fidelity fund account is insufficient to satisfy the claim, Fidelity Corporation shall charge the fidelity fund accounts of all members by an amount determined by the following formula: an amount resulting from multiplying the balance of the claim by a number, the numerator of which is a member's fidelity fund account and the denominator of which is the total of all members' fidelity fund accounts. Thereafter, Fidelity Corporation shall immediately assess the member filing the claim the amount charged to that member's fidelity fund account and immediately assess all members the amount charged to their fidelity fund accounts, if any, as provided for in Section 17321.

(g) In the event the amount in the fidelity fund equals 2 percent or more of the total average trust obligations for all members as reflected in the most recent report required by Section 17348, Fidelity Corporation may credit to each member an amount in the fidelity fund in excess of 1½ percent of the total trust obligations of all members. The amount which may be credited to each member shall be an amount equal to the ratio of the member's fidelity fund account to the total amount of all members' fidelity fund accounts. If a member has not paid any assessment or has not paid the full amount of any assessment or a membership fee, the amount to be credited shall first be applied to pay the member's unpaid assessment or membership fee liability.

(h) The membership fee may be considered a tangible asset of the member in all financial statements.

(i) Whenever any member has surrendered its license to engage in business as an escrow agent (and the commissioner has accepted the surrender of the license), and the member has disbursed its trust obligations in accordance with the requirements of the Escrow Law and escrow instructions, a member may request Fidelity Corporation to refund to the member the balance of its fidelity fund account. The member's fidelity fund account shall be refunded in accordance with Fidelity Corporation's bylaws. However, no refund shall be made to any member sooner than 24 months and one day from the date of acceptance of surrender of the license y the commissioner.

SEC. 3. Section 17320.1 of the Financial Code is repealed.

SEC. 4. Section 17321 of the Financial Code is amended to read:

17321. Fidelity Corporation shall send a written notice of assessment to each member assessed within 30 days after the levy of

any assessment. Amounts assessed shall be paid to Fidelity Corporation by each member assessed not later than 60 days following written notice of assessment.

In the event that Fidelity Corporation has extraordinary expenses or claims paid from the fidelity fund during any fiscal year which reduces the fidelity fund by 25 percent or more and the reduction would result in the fidelity fund being less than 1 percent of the total trust obligations of all members, Fidelity Corporation shall immediately levy an assessment on each member to replenish the fidelity fund by an amount charged to each member's account pursuant to the method set forth in Section 17339; provided, the assessment limitation of one thousand dollars ($1,000) per year per location shall not apply.

SEC. 5. Section 17323 of the Financial Code is amended to read:

17323. (a) In the event any member fails to pay an assessment when due, Fidelity Corporation shall by written demand addressed to the member request the payment of the assessment within 30 days of the demand letter. If the member fails to pay an assessment, the commissioner may issue an order pursuant to subdivision (b).

(b) If a member fails to pay the assessment, the commissioner may by order summarily suspend the certificate issued to the company. If after the order is made, a request for a hearing is filed in writing and a hearing is not held within 60 days thereafter, the order is deemed rescinded as of its effective date. During any period when its certificate is suspended, a company shall not conduct business pursuant to this division, except as may be permitted by order of the commissioner. However, the suspension of a certificate shall not affect the powers of the commissioner as provided in this division.

SEC. 6. Section 17336 of the Financial Code is amended to read:

17336. (a) Fidelity Corporation shall have independent authority to investigate claims filed by members pursuant to Section 17330.

(b) Fidelity Corporation, with the written consent of the commissioner, may conduct an examination or investigation of the business practices of a member's handling and processing of trust obligations. The result of any investigation shall be reported to the commissioner together with the recommendations of the Board of Directors of Fidelity Corporation.

(c) Fidelity Corporation may submit reports and make recommendations to a member on its findings as a result of an examination or investigation conducted pursuant to this section. These reports and recommendations shall not be public documents. A copy of all reports and recommendations shall be furnished to the commissioner by Fidelity Corporation. There shall be no liability on the part of, and no cause of action of any nature shall arise against, Fidelity Corporation or its members, directors, officers, employees, stockholders, or agents or the commissioner or commissioner's authorized representatives for any statements made by them in any reports or recommendations made hereunder.

(d) Fidelity Corporation, upon the request of the commissioner, may participate in an examination or investigation of the books and records of a member. There shall be no liability on the part of, and no cause of action of any nature shall arise against, the State of California, the commissioner, or members of the commissioner's staff or the commissioner's authorized representative for the release of any information furnished to Fidelity Corporation pursuant to this subdivision.

(e) With the written consent of a majority of its directors and the commissioner, Fidelity Corporation, in order to fulfill its obligations under this section, may appoint an independent certified public accountant or public accountant or hire or appoint a specialized committee or employees to conduct an examination or investigation authorized by this section. Any reports as a result thereof shall be furnished to the commissioner pursuant to the provisions of subdivision (c).

(f) For the purposes of conducting an examination or investigation, Fidelity Corporation or its appointee shall have free access to the offices and places of business, books, accounts, papers, records, files, safes and vaults of the member.

(g) Costs and expenses for the examination or investigation shall be paid by Fidelity Corporation.

(h) Fidelity Corporation, any member of Fidelity Corporation, an agent of Fidelity Corporation or of its members, or any person who uses any information obtained under this section for any purpose not authorized herein is guilty of a misdemeanor.

SEC. 3. The Legislature finds and declares that the consolidation of fire protection districts in San Diego County and in Santa Cruz County presents circumstances not common to all fire protection districts, and therefore, a general law cannot be made applicable within the meaning of Section 16 of Article IV of the Constitution, and that enactment of this act as a special law is necessary.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to preserve the continuity of fire protection services in view of pending consolidations of fire protection districts in San Diego County and in Santa Cruz County it is necessary that this act take effect immediately.

However, in order to alleviate the financial hardships imposed upon students by withholding the delivery of state financial aid funds to an educational institution, the director of the commission may, at any time after the initial withholding, release state financial aid funds to these students, giving first priority to the release of funds for subsistence payments.

(b) The director shall give notice to the institution and affected students of any action taken pursuant to subdivision (a).

(c) The director, upon the termination of any action taken pursuant to subdivision (a), shall order the disposition of the withheld funds in a manner consistent with the outcome of the cause of action and in the best interest of the affected students. The purpose of the investigation shall be to determine whether the educational institution is complying with the applicable provisions of the chapter, the rules and regulations promulgated pursuant to this chapter, and the standards established by the accrediting board or agency. The receipt of the notice described in Section 69509.5 shall be deemed to be substantial evidence of violation of the standards established by the responsible agency for the purposes of subdivision (*l*) of Section 94312.

times the required or prohibited payment, as the case may be, if the commission finds that the payment, in whole or part, was made or received by the corporation for the purpose of benefiting its subsidiary, affiliate, or holding corporation. This penalty is in addition to any criminal penalties which may apply.

(b) In determining whether to impose a civil penalty under this section, the commission may take into consideration multistate public utility diversification activities involving cross-subsidization which are permissible in other states or under federal jurisdiction although in violation of the commission's rules and orders.

CHAPTER 799

66499.30. (a) No person shall sell, lease, or finance any parcel or parcels of real property or commence construction of any building for sale, lease or financing thereon, except for model homes, or allow occupancy thereof, for which a final map is required by this division or local ordinance, until the final map thereof in full compliance with this division and any local ordinance has been filed for record by the recorder of the county in which any portion of the subdivision is located.

(b) No person shall sell, lease or finance any parcel or parcels of real property or commence construction of any building for sale, lease or financing thereon, except for model homes, or allow occupancy thereof, for which a parcel map is required by this division or local ordinance, until the parcel map thereof in full compliance with this division and any local ordinance has been filed for record by the recorder of the county in which any portion of the subdivision is located.

(c) Conveyances of any part of a division of real property for which a final or parcel map is required by this division or local ordinance shall not be made by parcel or block number, initial or other designation, unless and until the final or parcel map has been filed for record by the recorder of the county in which any portion of the subdivision is located.

(d) Subdivisions (a), (b), and (c) do not apply to any parcel or parcels of a subdivision offered for sale or lease, contracted for sale or lease, or sold or leased in compliance with or exempt from any law

(including a local ordinance), regulating the design and improvement of subdivisions in effect at the time the subdivision was established.

(e) Nothing contained in subdivisions (a) and (b) shall be deemed to prohibit an offer or contract to sell, lease, or finance real property or to construct improvements thereon where the sale, lease, or financing, or the commencement of construction, is expressly conditioned upon the approval and filing of a final subdivision map or parcel map, as required under this division.

(g) For purposes of this section, the limitation period for commencing an action, either civil or criminal, against the subdivider or an owner of record at the time of a violation of this division or of a local ordinance enacted pursuant to this division, shall be tolled for any time period during which there is no constructive notice of the transaction constituting the violation, because the owner of record, at the time of the violation or at any time thereafter, failed to record a deed, lease, or financing document with the county recorder.

Every other violation of this division is a misdemeanor.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

(8) Any motor vehicle or class of motor vehicles, as described or designated in the policy, with respect to which coverage is explicitly excluded, in whole or in part.

The term "the insured" as used in paragraphs (1), (2), (3), and (4) shall mean only that insured under the policy against whom the particular claim is made or suit brought. The term "an insured" as used in paragraphs (5) and (6) shall mean any insured under the policy including those persons who would have otherwise been included within the policy's definition of an insured but, by agreement, are subject to the limitations of paragraph (1) of subdivision (d).

(d) Notwithstanding the provisions of paragraph (4) of subdivision (b), or the provisions of Article 2 (commencing with Section 16450) of Chapter 3 of Division 7, or Article 2 (commencing with Section 17150) of Chapter 1 of Division 9, of the Vehicle Code, the insurer and any named insured may, by the terms of any policy of automobile liability insurance to which subdivision (a) applies, or by a separate writing relating thereto, agree as to either or both of the following limitations, such agreement to be binding upon every insured to whom such policy applies and upon every third party claimant:

(1) That coverage and the insurer's obligation to defend under such policy shall not apply nor accrue to the benefit of any insured or any third party claimant while any motor vehicle is being used or operated by a natural person or persons designated by name. These limitations shall apply to any use or operation of a motor vehicle including the negligent or alleged negligent entrustment of a motor vehicle to such designated person or persons. The insurer shall have an obligation to defend the named insured when all of the following apply to such designated natural person:

1. He or she is a resident of the same household as the named insured.

2. As a result of operating the insured motor vehicle of the named insured, he or she is jointly sued with the named insured.

3. He or she is an insured under a separate automobile liability insurance policy issued to him or her as a named insured, which policy does not provide a defense to the named insured.

An agreement made by the insurer and any named insured more than 60 days following the inception of the policy excluding a designated person by name shall be effective from the date of the agreement and shall, with the signature of a named insured, be conclusive evidence of the validity of the agreement.

Such agreement shall remain in force as long as the policy remains in force, and shall apply to any continuation, renewal, or replacement of such policy by the named insured, or reinstatement of such policy within 30 days of any lapse thereof.

(2) That with regard to any such policy issued to a named insured engaged in the business of leasing vehicles for those vehicles which are leased for a term in excess of six months, or selling, repairing, servicing, delivering, testing, road-testing, parking, or storing automobiles, coverage shall not apply to any person other than the named insured or his or her agent or employee, except to the extent that the limits of liability of any other valid and collectible insurance available to such person are not equal to the limits of liability specified in subdivision (a) of Section 16056 of the Vehicle Code. If the policy is issued to a named insured engaged in the business of leasing vehicles, which business includes the lease of vehicles for a term in excess of six months, and the lessor includes in the lease automobile liability insurance, the terms and limits of which are not otherwise specified in the lease, the named insured shall incorporate a provision in each vehicle lease contract advising the lessee of the provisions of this subdivision and the fact that this limitation is applicable except as otherwise provided for by statute or federal law.

(e) Nothing in this section or in Section 16054 or 16450 of the Vehicle Code shall be construed to constitute a homeowner's policy, personal and residence liability policy, personal and farm liability policy, general liability policy, comprehensive personal liability policy, manufacturers' and contractors' policy, premises liability policy, special multiperil policy, or any policy or endorsement where automobile liability coverage is offered as incidental to some other basic coverage as an "automobile liability policy" within the meaning of Section 16054 of the Vehicle Code, or as a "motor vehicle liability policy" within the meaning of Section 16450 of the Vehicle Code, nor shall any provision of this section apply to a policy which provides insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle in the Republic of Mexico issued or delivered in this state by a nonadmitted Mexican insurer, notwithstanding that any such policy may provide automobile or motor vehicle liability coverage on insured premises or the ways immediately adjoining.

(f) On and after January 1, 1976, no policy of automobile liability insurance described in subdivision (a) shall be issued, amended, or renewed in this state if it contains any provision which expressly or impliedly excludes from coverage under such policy the operation or use of an insured motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing social service transportation. This subdivision shall not apply in any case in which the named insured receives any remuneration of any kind other than reimbursement for actual mileage driven in the performance of such services at a rate not to exceed the following:

(1) For the 1980–81 fiscal year, the maximum rate authorized by the State Board of Control, which shall also be known as the "base rate."

(2) For each fiscal year thereafter, the greater of either (A) the maximum rate authorized by the State Board of Control or (B) the base rate as adjusted by the California Consumer Price Index.

No policy of insurance issued under this section may be canceled by an insurer solely for the reason that the named insured is performing volunteer services for a nonprofit charitable organization or governmental agency consisting of providing social service transportation.

For the purposes of this section, "social service transportation" means transportation services provided by private nonprofit organizations or individuals to either individuals who are senior citizens or individuals or groups of individuals who have special transportation needs because of physical or mental conditions and supported in whole or in part by funding from private or public agencies.

(g) Notwithstanding the provisions of paragraph (4) of subdivision (b) of this section, or the provisions of Article 2 (commencing with Section 16450) of Chapter 3 of Division 7 of, or Article 2 (commencing with Section 17150) of Chapter 1 of Division 9 of, the Vehicle Code, a Mexican nonadmitted insurer and any named insured may, by the terms of any policy of automobile insurance for use solely in the Republic of Mexico to which subdivision (a) applies, or by a separate writing relating thereto, agree to the limitation that coverage under such policy shall not apply to any person riding in or occupying a vehicle owned by the insured or driven by another person with the permission of the insured. Such agreement shall be binding upon every insured to whom any such policy applies and upon any third party claimant.

(h) No policy of automobile insurance which provides insurance covering liability arising out of the ownership, maintenance or use of any motor vehicle solely in the Republic of Mexico issued by a nonadmitted Mexican insurance company, shall be subject to, or provide coverage for, those coverages provided in Section 11580.2.

SEC. 4. Section 11580.2 of the Insurance Code is amended to read:

11580.2. (a) (1) No policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle, except for policies which provide insurance in the Republic of Mexico issued or delivered in this state by nonadmitted Mexican insurers, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor vehicle then principally used or principally garaged in this state, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the limits specified in subdivision (m) and in no case less than the financial responsibility

requirements specified in Section 16056 of the Vehicle Code insuring the insured, the insured's heirs or legal representative for all sums within such limits which he, she, or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured, prior to or subsequent to the issuance or renewal of a policy, may, by agreement in writing, in the form specified in paragraph (2), delete the provision covering damage caused by an uninsured motor vehicle (1) completely, or (2) delete such coverage when a motor vehicle is operated by a natural person or persons designated by name, or agree to provide such coverage in an amount less than that required by subdivision (m) but not less than the financial responsibility requirements specified in Section 16056 of the Vehicle Code. Any such agreements by any named insured or agreement for the amount of coverage shall be binding upon every insured to whom the policy or endorsement provisions apply while the policy is in force, and shall continue to be so binding with respect to any continuation or renewal of the policy or with respect to any other policy which extends, changes, supersedes, or replaces the policy issued to the named insured by the same insurer, or with respect to reinstatement of the policy within 30 days of any lapse thereof. A policy shall be excluded from the application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles or if the automobile liability coverage is provided only on an excess or umbrella basis. Nothing in this section shall be construed to require that uninsured motorist coverage shall be offered or provided in any homeowner policy, personal and residents' liability policy, comprehensive personal liability policy, manufacturers' and contractors' policy, premises liability policy, special multiperil policy, or any other policy or endorsement where automobile liability coverage is offered as incidental to some other basic coverage, notwithstanding that the policy may provide automobile or motor vehicle liability coverage on insured premises or the ways immediately adjoining.

(2) The agreement specified in paragraph (1) shall be in the following form:

"The California Insurance Code requires an insurer to provide uninsured motorists coverage in each bodily injury liability insurance policy it issues covering liability arising out of the ownership, maintenance, or use of a motor vehicle. Such section also permits the insurer and the applicant to delete such coverage completely or to delete such coverage when a motor vehicle is operated by a natural person or persons designated by name, or agree to provide such coverage in an amount less than that required by subdivision (m) of Section 11580.2 of the Insurance Code, but not less than the financial responsibility requirements. Uninsured motorists coverage insures the insured, his or her heirs, or legal representatives for all sums within the limits established by law, which such person or persons are

legally entitled to recover as damages for bodily injury, including any resulting sickness, disease, or death, to him or her from the owner or operator of an uninsured motor vehicle not owned or operated by the insured or a resident of the same household. An uninsured motor vehicle includes an underinsured motor vehicle as defined in subdivision (p) of Section 11580.2 of the Insurance Code."

The agreement may contain additional statements not in derogation of or in conflict with the foregoing. The execution of the agreement shall relieve the insurer of liability under this section while the agreement remains in effect.

(b) As used in (a) above, "bodily injury" includes sickness or disease, including death, resulting therefrom; the term "named insured" means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in (a) above; as used in (a) above if the named insured is an individual the term "insured" means the named insured and the spouse of the named insured and, while residents of the same household, relatives of either while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he or she is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; as used in (a) above, if the named insured is an entity other than an individual, the term "insured" means any person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he or she is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply. As used in this subdivision, the word "individual" shall not include persons doing business as corporations, partnerships, or associations. The term "insured motor vehicle" means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute automobile for which liability coverage is provided in the policy or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the named insured or with his or her permission or consent, express or implied, and any other automobile not owned by or furnished for the regular use of the named insured or any resident of the same household, or by a natural person or persons for whom coverage has been deleted in accordance with subdivision (a) while being operated by the named insured or his or her spouse if a resident of the same household, but the term "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. As used in this section, the term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to

admit coverage thereunder except conditionally or with reservation, or an "underinsured motor vehicle" as defined in subdivision (p), or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of the automobile with the insured or with an automobile which the insured is occupying.

(2) The insured or someone on his or her behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol, and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his or her legal representative has or the insured's heirs have a cause of action arising out of the accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. As used in this section, the term "uninsured motor vehicle" shall not include a motor vehicle owned or operated by the named insured or any resident of the same household or self-insured within the meaning of the Financial Responsibility Law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer while located for use as a residence or premises and not as a vehicle, or any equipment or vehicle designed or modified for use primarily off public roads, except while actually upon public roads.

As used in this section, the term "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle coverage is in effect where the liability insurer of the tortfeasor becomes insolvent within one year of the accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making the payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of the person against the insolvent insurer.

Nothing in this section is intended to exclude from the definition of an uninsured motor vehicle any motorcycle or private passenger type four wheel drive motor vehicle if that vehicle was subject to and

failed to comply with the Financial Responsibility Law of this state.

(c) The insurance coverage provided for in this section does not apply either as primary or as excess coverage to:

(1) To property damage sustained by the insured.

(2) To bodily injury of the insured while in or upon or while entering into or alighting from a motor vehicle other than the described motor vehicle if the owner thereof has insurance similar to that provided in this section.

(3) To bodily injury of the insured with respect to which the insured or his or her representative shall, without the written consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.

(4) In any instance where it would inure directly or indirectly to the benefit of any workers' compensation carrier or to any person qualified as a self-insurer under any workers' compensation law, or directly to the benefit of the United States, or any state or any political subdivision thereof.

(5) To establish proof of financial responsibility as provided in subdivisions (a), (b), and (c) of Section 16054 of the Vehicle Code.

(6) To bodily injury of the insured while occupying a motor vehicle owned by an insured or leased to an insured under a written contract for a period of six months or longer, unless the occupied vehicle is an insured motor vehicle. "Motor vehicle" as used in this paragraph means any self-propelled vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(d) Subject to paragraph (2) of subdivision (c), the policy or endorsement may provide that if the insured has insurance available to the insured under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bear to the total of such limits.

(e) The policy or endorsement added thereto may provide that if the insured has valid and collectible automobile medical payment insurance available to him or her, the damages which the insured shall be entitled to recover from the owner or operator of an uninsured motor vehicle shall be reduced for purposes of uninsured motorist coverage by the amounts paid or due to be paid under the automobile medical payment insurance. This subdivision shall become operative on January 1, 1971.

(f) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the event of disagreement, by arbitration. The arbitration shall be conducted by a single neutral arbitrator. An award or a judgment confirming an award shall not be conclusive on any party in any

action or proceeding between (i) the insured, his or her insurer, his or her legal representative, or his or her heirs and (ii) the uninsured motorist to recover damages arising out of the accident upon which the award is based. If the insured has or may have rights to benefits, other than nonoccupational disability benefits, under any workers' compensation law, the arbitrator shall not proceed with the arbitration until the insured's physical condition is stationary and ratable. In those cases in which the insured claims a permanent disability, the claims shall, unless good cause be shown, be adjudicated by award or settled by compromise and release before the arbitration may proceed. Any demand or petition for arbitration shall contain a declaration, under penalty of perjury, stating whether (i) the insured has a workers' compensation claim; (ii) the claim has proceeded to findings and award or settlement on all issues reasonably contemplated to be determined in that claim; and (iii) if not, what reasons amounting to good cause are grounds for the arbitration to proceed immediately. The arbitration shall be deemed to be a proceeding and the hearing before the arbitrator shall be deemed to be the trial of an issue therein for purposes of issuance of a subpoena by an attorney of a party to the arbitration under Section 1985 of the Code of Civil Procedure. The provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to these determinations, and all rights, remedies, obligations, liabilities and procedures set forth in Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the superior court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under Article 3 with respect to the same accident, subject, however, to the right of the court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition

is served by either party within 20 days after the accident.

(4) The provisions of paragraph (4) of subdivision (a) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in paragraph (2) of subdivision (b) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the Code of Civil Procedure and requests for admission under Section 2033 of the Code of Civil Procedure may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section shall be construed to limit the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(g) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person legally liable for such injury or death to the extent that payment was made. Such action may be brought within three years from the date that payment was made hereunder.

(h) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver of rights to which he or she may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him or her, his or her executor, administrator, heirs, or legal representative under any workers' compensation law, exclusive of nonoccupational disability benefits.

(2) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part, including any amounts tendered to the insured as advance payment on behalf of such other person by the insurer providing the underlying liability insurance.

(i) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction and notice of such suit has been given the insurer, or

(2) Agreement as to the amount due under the policy has been concluded, or

(3) The insured has formally instituted arbitration proceedings.

(j) Notwithstanding the provisions of subdivisions (b) and (i), in the event the accident occurs in any other state or foreign jurisdiction to which coverage is extended under the policy and the insurer of the tortfeasor becomes insolvent, any action authorized pursuant to the provisions of this section may be maintained within three months of the insolvency of the tortfeasor's insurer, but in no event later than the pertinent period of limitation of the jurisdiction in which the accident occurred.

(k) Notwithstanding the provisions of subdivision (i), any insurer whose insured has made a claim under his or her uninsured motorist coverage, and such claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to the injury or death. Failure of the insurer to provide the written notice shall operate to toll any applicable statute of limitation or other time limitation for a period of 30 days from the date the written notice is actually given. The notice shall not be required if the insurer has received notice that the insured is represented by an attorney.

(*l*) As used in subdivision (b), "public or livery conveyance," or terms of similar import, shall not include the operation or use of a motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing social service transportation as defined in subdivision (f) of Section 11580.1. This subdivision shall apply only to policies of insurance issued, amended, or renewed on or after January 1, 1976.

(m) Coverage provided under an uninsured motorist endorsement or coverage shall be offered with coverage limits equal to the limits of liability for bodily injury in the underlying policy of insurance, but shall not be required to be offered with limits in excess of the following amounts:

(1) A limit of thirty thousand dollars ($30,000) because of bodily injury to or death of one person in any one accident.

(2) Subject to the limit for one person set forth in paragraph (1), a limit of sixty thousand dollars ($60,000) because of bodily injury to or death of two or more persons in any one accident.

(n) Underinsured motorist coverage shall be offered with limits equal to the limits of liability for the insured's uninsured motorist limits in the underlying policy, and may be offered with limits in excess of such uninsured motorist coverage. For the purposes of this section, uninsured and underinsured motorist coverage shall be offered as a single coverage. However, an insurer may offer coverage for damages for bodily injury or wrongful death from the owner or operator of an underinsured motor vehicle at greater limits than an uninsured motor vehicle.

(o) If an insured has failed to provide an insurer with wage loss

information or medical treatment record releases within 15 days of the insurer's request or has failed to submit to a medical examination arranged by the insurer within 20 days of the insurer's request, the insurer may, at any time prior to 30 days before the actual arbitration proceedings commence, request, and the insured shall furnish, wage loss information or medical treatment record releases, and the insurer may require the insured, except during periods of hospitalization, to make himself or herself available for a medical examination. The wage loss information or medical treatment record releases shall be submitted by the insured within 10 days of request and the medical examination shall be arranged by the insurer no sooner than 10 days after request, unless the insured agrees to an earlier examination date, and not later than 20 days after the request. If the insured fails to comply with the requirements of this subdivision, the actual arbitration proceedings shall be stayed for at least 30 days following compliance by the insured. The proceedings shall be scheduled as soon as practicable following expiration of the 30-day period.

(p) This subdivision applies only when bodily injury, as defined in subdivision (b), is caused by an underinsured motor vehicle. If the provisions of this subdivision conflict with subdivisions (a) through (o), the provisions of this subdivision shall prevail.

(1) As used in this subdivision, "an insured motor vehicle" is one that is insured under a motor vehicle liability policy, or automobile liability insurance policy, self-insured, or for which a cash deposit or bond has been posted to satisfy a financial responsibility law.

(2) "Underinsured motor vehicle" means a motor vehicle that is an insured motor vehicle but insured for an amount that is less than the uninsured motorist limits carried on the motor vehicle of the injured person.

(3) This coverage does not apply to any bodily injury until the limits of bodily injury liability policies applicable to all insured motor vehicles causing the injury have been exhausted by payment of judgments or settlements, and proof of such is submitted to the insurer providing the underinsured motorist coverage.

(4) When bodily injury is caused by one or more motor vehicles, whether insured, underinsured, or uninsured, the maximum liability of the insurer providing the underinsured motorist coverage shall not exceed the insured's underinsured motorist coverage limits, less the amount paid to the insured by or for any person or organization that may be held legally liable for the injury.

(5) The insurer paying a claim under this subdivision shall, to the extent of such payment, be entitled to reimbursement or credit in the amount received by the insured from the owner or operator of the underinsured motor vehicle or the insurer of such owner or operator.

(6) If the insured brings an action against the owner or operator of an underinsured motor vehicle, he or she shall forthwith give to the insurer providing the underinsured motorist coverage a copy of

the complaint by personal service or certified mail. All pleadings and depositions shall be made available for copying or copies furnished the insurer, at the insurer's expense, within a reasonable time.

(7) Underinsured motorist coverage shall be included in all policies of bodily injury liability insurance providing uninsured motorist coverage issued or renewed on or after July 1, 1985. Notwithstanding this section, an agreement to delete uninsured motorist coverage completely, or with respect to a person or persons designated by name, executed prior to July 1, 1985, shall remain in full force and effect.

(q) Regardless of the number of vehicles involved whether insured or not, persons covered, claims made, premiums paid or the number of premiums shown on the policy, in no event shall the limit of liability for two or more motor vehicles or two or more policies be added together, combined, or stacked to determine the limit of insurance coverage available to injured persons.

publishes, or puts into circulation any fare media with intent to defraud is punishable by imprisonment in the county jail not exceeding one year or by a fine not exceeding one thousand dollars ($1,000), or by both.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 802

An act to amend Section 65942 of the Government Code, relating to development projects.

[Approved by Governor September 18, 1987 Filed with Secretary of State September 18, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 65942 of the Government Code is amended to read:

65942. The information and the criteria specified in Sections 65940, 65941, and 65941.5 shall be revised as needed so that they shall be current and accurate at all times. Any revisions shall apply prospectively only and shall not be a basis for determining that an application is not complete pursuant to Section 65943 if the application was received before the revision is effective, except for revisions resulting from the following conditions which were not known and could not have been known at the time the application was received:

(a) To provide sufficient information to permit the agency to make the determination required by Section 21080.1 of the Public Resources Code, as provided by Section 65941.

(b) To comply with the enactment of new or revised federal, state, or local requirements, except for new or revised requirements of a local agency which is also the lead agency.

CHAPTER 803

An act to amend Sections 65942 and 66475.4 of the Government Code, relating to development projects.

[Approved by Governor September 18, 1987. Filed with Secretary of State September 18, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 65942 of the Government Code is amended to read:

65942. The information and the criteria specified in Sections 65940, 65941, 65941.5 shall be revised as needed so that they shall be current and accurate at all times. Any revisions shall apply prospectively only and shall not be a basis for determining that an application is not complete pursuant to Section 65943 if the application was received before the revision is effective except for revisions for the following reasons resulting from the conditions which were not known and could not have been known by the public agency at the time the application was received:

(a) To provide sufficient information to permit the public agency to make the determination required by Section 21080.1 of the Public Resources Code, as provided by Section 65941.

(b) To comply with the enactment of new or revised federal, state, or local requirements, except for new or revised requirements of a local agency which is also the lead agency.

SEC. 2. Section 66475.4 of the Government Code is amended to read:

66475.4. (a) As used in this section, "dedication" means a transfer by a subdivider to a city, county, or city and county of title to real property or any interest therein, or of an easement or right in real property, the transfer of facilities, or the installation of improvements as defined in Section 66419, or any combination thereof.

(b) A dedication requirement imposed as a condition of approval of a tentative map is invalid to the extent to which it is determined by a court to be excessive. A dedication requirement is excessive to the extent it is not reasonably necessary to meet public needs arising as a result of the subdivision. If, at the time of imposition of the dedication requirement, a city, county, or city and county provides a mechanism for determining the amount of compensation for that portion of the dedication requirement which is excessive, and the manner of payment thereof, this section shall not apply.

(c) A dedication requirement claimed to be excessive in whole or in part, which is imposed as a condition of approval of a tentative map, may be reviewed by a writ of administrative mandate pursuant to Section 1094.5 of the Code of Civil Procedure. In such a proceeding, the petitioner must have protested in the administrative

record the imposition of the dedication, or portion of the dedication, claimed to be excessive. The petition for the writ shall be filed within the time prescribed by Section 66499.37.

(d) If the dedication requirement is determined to be excessive, in whole or in part, the court shall order the city, county, or city and county which imposed the requirement to elect, within 45 days of the date of its order, to take one of the following actions:

(1) To require amendment of the tentative subdivision map or redesign of the subdivision, taking into account the court's decision and the requirements of Sections 66473.1, 66473.5, 66474, and 66474.6.

(2) To pay just compensation for that portion of the dedication determined to be excessive.

(3) To require amendment of the tentative subdivision map by deletion or modification of the dedication found to be excessive.

(e) If the city, county, or city and county elects to pay compensation, the amount of compensation shall be determined as provided by Chapters 8 (commencing with Section 1260.010) and 9 (commencing with Section 1263.010) of Title 7 of Part 3 of the Code of Civil Procedure.

(f) If the city, county, or city and county elects to require redesign of the map or to delete or modify the excessive dedication requirement, the court shall order the action to be taken within 120 days or such longer period of time as determined by the court upon application of either party. The court shall retain jurisdiction to ensure compliance with its order.

(g) If, within 45 days after the date of the court's order, the city, county, or city and county does not elect to take one of the actions specified in paragraph (1) or (3) of subdivision (d), it shall be conclusively presumed to have elected to pay just compensation.

(h) The provisions of this section do not apply to any mitigation measures imposed by local agencies pursuant to the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) to mitigate adverse environmental impacts identified in an environmental document prepared for the project under that act.

(i) This section shall remain in effect only until January 1, 1996, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1996, deletes or extends that date.

SEC. 2. Pursuant to Section 17579 of the Government Code, the Legislature finds that there is no mandate contained in this act which will result in costs incurred by a local agency or school district for a new program or higher level of service which require reimbursement pursuant to Section 6 of Article XIII B of the California Constitution and Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

The registered civil engineer shall use together with his or her signature or seal, the title "civil engineer" or, if he or she has the authority, the title "structural engineer" or, if he or she has the authority, the title "soil engineer." If the final civil engineering plans, specifications, or reports have multiple pages or sheets, the signature, seal or stamp, and expiration date of the certificate or authority need only appear on the originals of the plans and on the original title sheet of the specifications and reports.

SEC. 3. Section 8761 of the Business and Professions Code is amended to read:

Every map, plat, report, description, or other document issued by a licensed land surveyor or registered civil engineer shall comply with the provisions set forth in Section 8764, whenever the map, plat, report, description, or other document is filed as a public record.

It is unlawful for any person to sign, stamp, or seal any map, plat, report, description, or other document unless the person is authorized to practice land surveying.

SEC. 3.5. Section 8761 of the Business and Professions Code is amended to read:

8761. Any licensed land surveyor or registered civil engineer may practice land surveying and prepare maps, plats, reports, descriptions, or other documentary evidence in connection therewith. All maps, plats, reports, descriptions, or other documents issued by the licensed land surveyor or registered civil engineer shall be signed by the surveyor or engineer to indicate the surveyor's or engineer's responsibility for them. In addition to the signature, the map, plat, report, description, or other document shall bear the seal or stamp of the licensee or registrant and the expiration date of the license or registration. If the map, plat, report, description, or other document has multiple pages or sheets, the signature, seal or stamp, and expiration date of the license or registration need only appear on the originals of the map or plat and on the title sheet of the report, description, or other document.

Every map, plat, report, description, or other document issued by a licensed land surveyor or registered civil engineer shall comply with the provisions set forth in Section 8764, whenever the map, plat, report, description, or other document is filed as a public record.

It is unlawful for any person to sign, stamp, seal, or approve any map, plat, report, description, or other document unless the person is authorized to practice land surveying.

SEC. 4. Nothing contained in this measure is intended to restrict the ability of a local agency to use nonregistered persons to perform administrative or business activities related to the design or

construction of works of improvement.

SEC. 5. The amendment in Section 1 of this act is declaratory of existing law and is not intended to restrict the scope of practice of other registered professional engineers or licensed land surveyors within their respective scopes of practice.

SEC. 6. Section 3.5 of this bill incorporates amendments to Section 8761 of the Business and Professions Code proposed by both this bill and SB 1123. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1988, (2) each bill amends Section 8761 of the Business and Professions Code, and (3) this bill is enacted after SB 1123, in which case Section 3 of this bill shall not become operative.

SEC. 7. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 9. Moreover, no reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for other costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law for those other costs.

CHAPTER 806

An act to amend Section 21263.6 of the Government Code, relating to the Public Employees' Retirement System, and making an appropriation therefor.

[Approved by Governor September 18, 1987. Filed with Secretary of State September 18, 1987]

While I am supportive of the concept of providing survivors' continuance benefits in conformity with relevant case law, I find use of the Public Employees' Retirement Fund's Reserve Against Deficiencies for ongoing costs related to a select group of annuitants to be unacceptable. Use of the Reserve Against Deficiencies indirectly would affect all employers' contributions to PERS, and those employers should not have to pay -- directly or indirectly -- for the ongoing costs of a single group that is associated with specific employers. I therefore delete the appropriation made in Section 1 of SB 706 (proposed as subdivision (f) of Section 21263 6 of the Government Code)·

"(f) The cost of the additional benefits provided pursuant to the trial court decision in California State Employees Association, et al. v. Board of Administration of the Public Employees' Retirement System et al. (Sacramento County Superior Court, Case No 332315) shall be paid out of the reserve against deficiencies established by Section 20203."

With this deletion, I approve Senate Bill No 706 and note that any benefit payments necessary under this measure still can be made from funds available to the PERS Board of Administration

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 21263.6 of the Government Code is amended to read:

21263.6. (a) The monthly allowance provided by Sections 21263.4 and 21263.5 shall be paid on account of retired school members who did not at retirement elect optional settlement 2 or 3 or an optional settlement involving life contingency under optional settlement 4.

(b) Upon receipt of a written application for benefits at the office of the board, the benefits provided by this section shall be payable to eligible survivors of retired school members who are not receiving a monthly allowance on account of miscellaneous service as a state member.

(c) When there are no records in the board's possession that contain necessary data for determining the retirement benefit claimed, the applicant or applicants for the benefit shall be required to establish entitlement to the benefit upon evidence satisfactory to the board. That data, at a minimum, shall be sufficient to establish the date of the retired member's death and the amount of the retired member's monthly allowance payable at the time of his or her death. The net benefit payable to the retired school member at the date of death may be determined by the board on the basis of the evidence submitted or upon other evidence if that evidence allows the board to determine the unmodified allowance payable on the date of death. The board shall use available evidence, whether from information provided by the applicant, partial records in possession of the board, or from other sources, as the basis for assumptions that are necessary in order to calculate the allowance payable to the eligible survivor or survivors.

(d) The benefits provided by this section shall be subject to the same eligibility and termination provisions which apply to members at their retirement and shall be paid commencing on the first day of the month succeeding the month in which the application for the benefits of this section is received by the board.

(e) The board has no duty to identify, locate, or notify any survivor of a retired school member who may potentially be eligible for the benefits of this section. The board has no duty to provide the name or address of any potential survivor to any person, agency, or entity for the purpose of notifying survivors who may potentially be eligible for the benefits of this section.

(f) The cost of the additional benefits provided pursuant to the trial court decision in California State Employees Association, et al. v. Board of Administration of the Public Employees' Retirement System et al. (Sacramento County Superior Court, Case No. 332315) shall be paid out of the reserve against deficiencies established by Section 20203.

SEC. 2. It is the intent of this act to implement the intent of the Legislature in enacting Section 21263.6 of the Government Code in

Chapter 330 of the Statutes of 1982, as determined by the Superior Court of Sacramento County, in Case No. 332315, California School Employees' Association, et al. v. Board of Administration of the Public Employees' Retirement System, et al.

CHAPTER 807

An act to amend Section 21252.02 of, and to add Section 20017.985 to, the Government Code, relating to state employees.

[Approved by Governor September 18, 1987. Filed with Secretary of State September 19, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 20017.985 is added to the Government Code, to read:

20017.985. (a) "State peace officer/firefighter member" also includes employees of the California State University who are campus fire apparatus engineers and who are members represented by Technical and Support Services Unit No. 9.

(b) This section shall be operative with respect to the employees described in subdivision (a) only if authorized by, and in accordance with, a memorandum of understanding reached between the Trustees of the California State University and the recognized employee organization pursuant to the Higher Education Employer-Employee Relations Act (Chapter 12 (commencing with Section 3560) of Division 4 of Title 1.

(c) Any person who becomes eligible for the benefit provided by Section 21252.02 as provided for in this section, may elect, within 90 days of notification by the board, to remain subject to the service retirement benefit and normal rate of contribution applicable prior to the operative date of this section, by filing an irrevocable notice of election with the board.

SEC. 2. Section 21252.02 of the Government Code is amended to read:

21252.02. The combined current and prior service pensions for state peace officer/firefighter members subject to this section with respect to state peace officer/firefighter service which is subject to this section is a pension derived from the contributions of the employer sufficient when added to the service retirement annuity which is derived from the accumulated normal contributions of the state peace officer/firefighter member at the date of his or her retirement to equal the fraction of one-fiftieth of his or her final compensation set forth opposite his or her age at retirement taken to the preceding completed quarter-year, in the following table, multiplied by the number of years of state peace officer/firefighter service subject to this section with which he or she is credited at

retirement.

Age at Retirement	Fraction
50	1.0000
50¼	1.0125
50½	1.0250
50¾	1.0375

54	1.2000
54¼	1.2125
54½	1.2250
54¾	1.2375
55 and over	1.2500

In no event shall the current service pension and the combined current and prior service pensions under this section for all service to all employers exceed an amount which, when added to the service retirement annuity related to such service, equals 75 percent of final compensation. If the pension relates to service to more than one employer, or this section and Section 21252.6, and would otherwise exceed such maximum, the pension payable with respect to each section or employer shall be reduced in the same proportion as the allowance bears to the total allowance computed as though there were no limit, so that the total of such pensions shall equal the maximum.

The Legislature reserves, with respect to any member subject to this section, the right to provide for such adjustment of industrial disability retirement allowances because of earnings of a retired person and modification of the conditions and qualifications required for retirement for disability as it may find appropriate because of the earlier age of service retirement made possible by the benefits under this section.

This section may be applied to related supervisory classes or confidential positions for the respective bargaining units specified in this section.

This section shall be operative with respect to state peace officer/firefighter members in Corrections Bargaining Unit No. 6,

Protective Services and Public Safety Bargaining Unit No. 7, or Firefighters Bargaining Unit No. 8, in accordance with a memorandum of understanding is reached between the state and the exclusive bargaining agent in the respective unit pursuant to the State Employer-Employee Relations Act (Chapter 10.3 (commencing with Section 3512) of Division 4 of Title 1). This section also shall be operative with respect to the state peace officer/firefighter members employed by a California State University police department who are in Public Safety Unit No. 8 in accordance with a memorandum of understanding reached between the Board of Trustees of the California State University and the recognized employee organization pursuant to the Higher Education Employer-Employee Relations Act (Chapter 12 (commencing with Section 3560) of Division 4 of Title 1).

CHAPTER 808

An act to add Chapter 5.3 (commencing with Section 510) to Part 1 of Division 1 of the Insurance Code, relating to insurance.

[Approved by Governor September 18, 1987. Filed with Secretary of State September 19, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5.3 (commencing with Section 510) is added to Part 1 of Division 1 of the Insurance Code, to read:

CHAPTER 5.3. CONSUMER COMPLAINTS

The disclosure shall be printed in large, boldface type.

CHAPTER 809

An act to add Chapter 10 (commencing with Section 9760) of Part 1 of Division 8.5 of the Welfare and Institutions Code, relating to senior health care, and making an appropriation therefor.

[Approved by Governor September 19, 1987. Filed with Secretary of State September 19, 1987]

I am deleting the appropriation contained in Section 2 of this bill

This bill would appropriate $225,000 out of the General Fund for the Office of Statewide Health Planning and Development to conduct a needs assessment study of the availability of dental, vision, and hearing care services to low-income seniors

The demands placed on budget resources require all of us to set priorities. The budget enacted in July 1987 appropriated nearly $41 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by state government It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

Therefore, I am asking the Office of Statewide Health Planning and Development to commence the needs assessment study this fiscal year utilizing resources from the California Health Data and Planning Fund and to request funding for the 1988–89 fiscal year from the same fund through the normal budget process

With this deletion, I approve Assembly Bill No. 519.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Chapter 10 (commencing with Section 9760) is added to Part 1 of Division 8.5 of the Welfare and Institutions Code, to read:

It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

CHAPTER 815

An act to amend Section 11628 of, and to add Section 11585 to, the Insurance Code, relating to insurance.

[Approved by Governor September 19, 1987. Filed with Secretary of State September 21, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 11585 is added to the Insurance Code, to read:

11585. (a) No policy of insurance for residential property located within California shall be issued or delivered, and no existing policy of insurance for residential property located within California shall be renewed, unless the policy complies with the requirements of subdivision (b).

(b) If the policy includes any liability insurance, or if a liability insurance policy is issued in connection with the policy, the policy shall cover liability incurred by the insured in connection with the use of the residential property for a polling place for any state or local election, under the same terms and conditions as for other liability covered by the policy.

SEC. 2. Section 11628 of the Insurance Code is amended to read:

11628. (a) No admitted insurer, licensed to issue and issuing motor vehicle liability policies as defined in Section 16450 of the Vehicle Code, shall fail or refuse to accept an application for such insurance, to issue such insurance to an applicant therefor, or issue or cancel such insurance under conditions less favorable to the insured than in other comparable cases, except for reasons applicable alike to persons of every race, language, color, religion, national origin, ancestry, or the same geographic area; nor shall race, language, color, religion, national origin, ancestry, or location within a geographic area of itself constitute a condition or risk for which a higher rate, premium, or charge may be required of the insured for such insurance.

As used in this section "geographic area" means a portion of this state of not less than 20 square miles defined by description in the rating manual of an insurer or in the rating manual of a rating bureau of which the insurer is a member or subscriber. In order that geographic areas used for rating purposes may reflect homogeneity of loss experience, a record of loss experience for such geographic area shall include the breakdown of actual loss experience statistics by zip code area (as designated by the United States Postal Service) within each geographic area for family owned private passenger motor vehicles and lightweight commercial motor vehicles, under 1½-ton load capacity, used for local service or retail delivery, normally within a 50-mile radius of garaging, and which are not part of a fleet of five or more motor vehicles under one ownership. A

record of loss experience for such geographic area, including such statistical data by zip code area, shall be submitted annually to the commissioner for examination by each insurer licensed to issue and issuing motor vehicle liability policies, motor vehicle physical damage policies, or both. Loss experience shall include separate loss data for each type of coverage, including liability or physical damage coverage, underwritten. An insurer may satisfy its obligation to report statistical data under this subdivision by providing its loss experience data to a rating or advisory organization for submission to the commissioner. This data shall be made available to the public by the commissioner annually after examination; however, it shall be released in aggregate form by zip code in order that no individual insurer's loss experience for any specific geographic area be revealed. Differentiation in rates between geographical areas shall not constitute unfair discrimination.

All information reported to the department pursuant to this subdivision shall be confidential.

As used in this section, "language" means the inability to speak, read, write, or comprehend the English language.

(b) No admitted insurer, licensed to issue and issuing motor vehicle liability insurance policies as defined in Section 16450 of the Vehicle Code, shall fail or refuse to accept an application for such insurance, refuse to issue such insurance to an applicant therefor, or cancel such insurance solely for the reason that the applicant for such insurance or any insured is employed in a specific occupation.

Nothing in this section shall prohibit an insurer from:

(1) Considering the occupation of the applicant or insured as a condition or risk for which a higher rate or discounted rate may be required or offered for coverage in the course and scope of his or her occupation.

(2) Charging a deviated rate to any classification of risks involving a specific occupation, or grouping thereof, if the rate meets the requirements of Chapter 9 (commencing with Section 1850) of Part 2 of Division 1 and is based upon actuarial data which demonstrates a significant actual historical differential between past losses or expenses attributable to the specific occupation, or grouping thereof, and the past losses or expenses attributable to other classification of risks. For purposes of compiling such actuarial data for a specific occupation or grouping thereof, a person shall be deemed employed in the occupation in which that data is compiled if: (A) the majority of his or her employment during the previous year was in the occupation, or (B) the majority of his or her aggregate earnings for the immediate preceding three-year period were derived from the occupation, or (C) the person is a member in good standing of a union which is an authorized collective bargaining agent for persons engaged in the occupation.

Nothing in this section shall be construed to include in the definition of "occupation" active duty service in the Armed Forces of the United States, any status or activity which does not result in

remuneration for work done or services performed, or self-employment in a business operated out of an applicant's or insured's place of residence or persons engaged in the renting, leasing, selling, repossessing, rebuilding, wrecking, or salvaging of motor vehicles.

(c) Nothing in this section shall limit or restrict the ability of an insurer to refuse to accept an application for or refuse to issue or cancel such insurance for the reason that it is a commercial vehicle or based upon the consideration of a vehicle's size, weight, design, or intended use.

(d) It is the intent of the Legislature that actuarial data by occupation may be examined for credibility by the commissioner on the same basis as any other automobile insurance data which he or she is empowered to examine.

(e) The provisions of this section shall be known and may be cited as the "Rosenthal-Robbins Auto Insurance Nondiscrimination Law."

SEC. 3. The amendments to Section 11628 of the Insurance Code made by Section 2 of this act shall become effective on July 1, 1988.

CHAPTER 816

An act to amend Sections 3924 and 3930 of, and to add Sections 3924.5, 3927, 3927.5, 3928, 3928.5, 3929, and 3930.1 to, the Business and Professions Code, and to add Section 1429.5 to the Health and Safety Code, relating to nursing homes.

[Approved by Governor September 19, 1987 Filed with Secretary of State September 21, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that there is an identifiable group of long-term health care facilities which receive the majority of citations for poor conditions endangering resident health and safety.

The Legislature also finds that there is currently no formalized system to identify the licensed administrators who operate these facilities and determine whether there is a similar group of identifiable individuals whose performance of their duties endanger resident health and safety.

The Legislature finds that without such a system and with the anticipated growth of nursing facilities in California, it will become increasingly difficult to identify problem administrators who may move from facility to facility.

It is therefore the intent of the Legislature to provide the Board of Examiners of Nursing Home Administrators with regular information regarding actions taken against facilities to assist the board in performing its licensing function and to develop a system

that will permit the board to identify and take action against administrators where the record developed over time establishes a pattern of poor performance.

The Legislature intends that the board utilize remedial and disciplinary actions, both formal and informal, to assure the qualifications and competency of persons licensed by the board and in the most serious cases to suspend or revoke a license.

SEC. 1.5. Section 3924 of the Business and Professions Code is amended to read:

3924. (a) Every holder of a nursing home administrator's license shall reregister biennially, on dates specified by the board, by making application for reregistration. In the event that the license of an individual is not reregistered within three years from the date of expiration, it shall lapse and that individual shall again apply for licensing and meet all requirements of this chapter as for a new applicant.

(b) A condition of reregistration shall be the presentation of proof by the licensee that he or she has attended the number of classroom hours of approved continuing educational programs, classes, seminars, or proceedings required by the regulations promulgated by the board, at least 25 percent of which shall be in the area of aging and patient care. The board, at its discretion, may except from continuing education requirements, the licensees who for reasons of health, military service, or other good cause cannot meet those requirements. Each such waiver granted shall be for the current reregistration period only.

(c) A licensee may reregister pursuant to this chapter, although he or she may not currently be actively engaged in nursing home administration.

SEC. 2. Section 3924.5 is added to the Business and Professions Code, to read:

3924.5. The board shall conduct a study of the current approval process for continuing education courses and the administrator training programs.

The board shall report to the Legislature on or before December 1, 1988, on the progress of the study.

SEC. 3. Section 3927 is added to the Business and Professions Code, to read:

3927. Each licensee shall, within 30 days, notify the board each time that he or she becomes the designated administrator of a long-term health care facility and each time that the appointment terminates. Each notification shall include the name and address of the facility or facilities involved.

The board shall regularly provide this information to the Licensing Division of the State Department of Health Services.

SEC. 4. Section 3927.5 is added to the Business and Professions Code, to read:

3927.5. The board shall maintain a current listing of administrators who have been placed on probation or had their

licenses suspended or revoked within the last three years. The board shall provide the list to licensed long-term health care facilities and the State Department of Health Services every six months and provide updates of the list to facilities, consumers, and family members upon request.

SEC. 5. Section 3928 is added to the Business and Professions Code, to read:

3928. (a) The board shall maintain a record of enforcement actions reported to the board by the State Department of Health Services pursuant to Section 1429.5 of the Health and Safety Code.

Following receipt of reports on temporary suspension orders, service of an accusation for facility license revocations, and final decertification of a facility from participation in the Medi-Cal or Medicare program due to failure to meet certification standards, the board shall make a determination as to whether the facts of the case warrant remedial or disciplinary action against the administrator or constitute grounds for suspension or revocation pursuant to Section 3930.

If the board determines that action against the administrator is not warranted, the board shall make a notation in the file of the specific circumstances which make remedial or disciplinary action unwarranted.

Whenever possible, actions initiated by the board shall coincide with actions of the State Department of Health Services against facilities.

Any accusation to suspend or revoke an administrator's license under this section shall be served on the administrator no later than 12 calendar months after the issuance of the temporary suspension order, service of an accusation to revoke a facility's license, or final decertification from the Medi-Cal or Medicare program.

(b) The board shall continuously review the files of administrators where citation reports have been received to determine if remedial or disciplinary action is warranted. The board shall initiate disciplinary action against an administrator if the record establishes evidence of a pattern of poor performance.

The board shall consider all of the following in making any determination to initiate disciplinary action:

(1) Any information provided to the board by the administrator pursuant to subdivision (c).

(2) The facts or reports received occurred during the time the administrator was serving in the capacity of administrator in the facility which received the citation.

(3) Whether the administrator could have or should have prevented the circumstances which resulted in citations.

(c) The board shall develop and make available a form which may be utilized at the administrator's option to provide the board with relevant information and background on any actions reported to the board pursuant to Section 1429.5 of the Health and Safety Code.

(d) Reports received pursuant to Section 1429.5 of the Health and

Safety Code shall remain in the administrator's file for five years, unless the board is notified that the action has been overturned. Any modification of an action through appeals shall be noted.

(e) Prior to making a final determination to initiate action against an administrator, the board shall notify the administrator that the board is considering action and provide the administrator with an opportunity to show just cause why remedial or disciplinary action should not be initiated.

SEC. 5.5. Section 3928.5 is added to the Business and Professions Code, to read:

3928.5. On or before July 1, 1988, the board shall develop internal policies and procedures with input from long-term care facility provider associations, the Department of Health Services Licensing Division, the Office of the State Attorney General, administrators who are not facility owners, and consumer representatives, regarding factors to be considered in the determination of whether or not remedial or disciplinary actions are warranted.

SEC. 6. Section 3929 is added to the Business and Professions Code, to read:

3929. If the board determines that reports received by the State Department of Health Services establish evidence of a pattern of poor performance of the duties for which a license is issued by the board or if the reports received constitute grounds for suspension or revocation of a license under Section 3930, the board shall initiate either or both of the following actions, as warranted:

(a) Remedial action, including, but not limited to, a conference with the administrator, or a letter of warning.

(b) Disciplinary action, including, but not limited to, citations or fines, or both, pursuant to Section 125.9, probation, or suspension or revocation of the administrator's license.

SEC. 7. Section 3930 of the Business and Professions Code is amended to read:

3930. The board may deny, or may suspend or revoke, a license upon any of the following grounds:

(a) Gross negligence.

(b) Incompetence.

(c) The conviction of any crime involving dishonesty, or which is substantially related to the qualifications, functions, or duties of a nursing home administrator. A conviction following a plea of nolo contendere is deemed to be a conviction within the meaning of this section.

(d) Using fraud or deception in applying for a license or in taking the examination provided for in this chapter.

(e) Treating or attempting to treat any physical or mental condition without being currently licensed to do so.

(f) Violating Section 650 of the Business and Professions Code, any provision of this chapter or any rule or regulation of the board adopted pursuant to this chapter.

(g) Lack of any qualification requirement for the license.

(h) Failure to report under Section 3927 to the board, without just cause.

SEC. 8. Section 3930.1 is added to the Business and Professions Code, to read:

3930.1. The board shall report to the Legislature by March 1, 1989, on all of the following:

(a) The number of reports received from the State Department of Health Services pursuant to Section 1429.5 of the Health and Safety Code.

(b) The number of reports which warranted remedial or disciplinary action and actions initiated by the board.

(c) The policies and procedures developed by the board pursuant to Section 3928.

(d) The impact of the new responsibilities under the provisions of this chapter on the board's workload and resources.

(e) Any recommendations and justification for additional revenues to the board based on the responsibilities of the board under this chapter.

SEC. 9. Section 1429.5 is added to the Health and Safety Code, to read:

1429.5. (a) The state department shall report enforcement actions taken against a facility, and the name of the licensed administrator of the facility, to the State Board of Examiners of Nursing Home Administrators.

(b) The following actions shall be reported to the State Board of Examiners of Nursing Home Administrators:

(1) Temporary suspension orders.

(2) Final decertification from the Medi-Cal or Medicare programs based on failure to meet certification requirements.

(3) Service of an accusation to revoke a facility's license.

(4) Any class "AA" citations and three class "A" citations within the same facility with the same administrator within a one calendar year period. The State Department of Health Services shall notify the board in the event that citations are overturned or modified in citation review conference, through binding arbitration, or on appeal.

SEC. 10. Sections 1 to 5, inclusive, and Sections 6 to 9, inclusive, of this act shall become operative on July 1, 1988.

CHAPTER 817

An act to repeal Section 110 of the Water Code, relating to water rights.

[Approved by Governor September 19, 1987. Filed with Secretary of State September 21, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 110 of the Water Code is repealed.

CHAPTER 818

An act to amend Section 309 of the Health and Safety Code, relating to health, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 19, 1987. Filed with Secretary of State September 21, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 309 of the Health and Safety Code is amended to read:

309. (a) It is the policy of the State of California to make every effort to detect, as early as possible, phenylketonuria and other preventable heritable or congenital disorders leading to mental retardation or physical defects.

The State Department of Health Services shall establish a genetic disease unit, which shall coordinate all programs of the state department in the area of genetic disease. The unit shall promote a statewide program of testing information and counseling services and shall have the responsibility of designating tests and regulations to be used in executing this program. The tests shall be in accordance with accepted medical practices and shall be administered to each child born in California at such time as the state department has established appropriate regulations and testing methods. The state department may provide laboratory testing facilities or contract with any laboratory which it deems qualified to conduct tests required under this section. However, notwithstanding Section 309.5, provision of laboratory testing facilities by the state department shall be contingent upon the provision of funding therefor by specific appropriation to the Genetic Disease Testing Fund enacted by the Legislature. If moneys appropriated for purposes of this section are not authorized for expenditure to provide laboratory facilities, the state department may nevertheless contract to provide laboratory testing services pursuant to this section and shall perform laboratory

services, including, but not limited to, quality control, confirmatory, and emergency testing, necessary to ensure the objectives of this program.

(b) The state department shall charge a fee for any tests performed pursuant to this section. The amount of the fee shall be established and periodically adjusted by the State Director of Health Services in order to meet the costs of this section.

(c) The state department shall inform all hospitals or physicians, or both, of required regulations and tests and may alter or withdraw any of these requirements whenever sound medical practice so indicates.

(d) This section shall not apply if a parent or guardian of the newborn child objects to a test on the ground that the test conflicts with his or her religious beliefs or practices.

(e) The genetic disease unit is authorized to make grants or contracts for demonstration projects to determine the desirability and feasibility of additional tests or new genetic services or to initiate the development of genetic services in areas of need or to purchase or provide the services from any sums as are appropriated for this purpose.

The genetic disease unit shall evaluate and prepare recommendations on the implementation of tests for the detection of hereditary and congenital diseases, biotinidase deficiency, and hereditary hemoglobinopathies. The State Department of Health Services shall implement a program for the detection of phenylketonuria, galactosemia, hypothyroidism, and sickle cell anemia commencing on or before July 1, 1988. The genetic disease unit shall prepare and submit a report outlining their findings and recommendations with an implementation schedule to the Legislature on or before January 30, 1988. Followup reports on the recommendations shall be included in the annual report prepared by the State Director of Health Services pursuant to Section 153.

(f) Health care providers which contract with a prepaid group practice health care service plan that annually has at least 20,000 births among its membership, may provide, without contracting with the state department, any or all of the testing and counseling services required to be provided under this section or the regulations adopted pursuant thereto, if the services meet the quality standards and adhere to the regulations established by the state department and the plan pays that portion of a fee established under this section which is directly attributable to the state department's cost of administering the testing or counseling service and to any required testing or counseling services provided by the state for plan members. The payment by the plan, as provided in this subdivision, shall be deemed to fulfill any obligation the provider or the provider's patient may have to the state department to pay a fee in connection with the testing or counseling service.

(g) The adoption of regulations pursuant to this section shall be deemed to be an emergency, and necessary for the immediate

preservation of the public peace, health, safety, and general welfare. Notwithstanding subdivision (h) of Section 11346.1 and Section 11349.6 of the Government Code, the director shall transmit regulations adopted pursuant to this section directly to the Secretary of State for filing. The regulations shall be filed by the Secretary of State as emergency regulations and shall become effective immediately.

(h) Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, any emergency regulations adopted by the state department pursuant to this section shall not be repealed by the Office of Administrative Law and shall remain in effect until revised or repealed by the state department.

SEC. 2. There is hereby appropriated from the unexpended balance of the Genetic Disease Testing Fund to the State Department of Health Services the sum of one hundred fifty thousand dollars ($150,000), for the 1987–88 fiscal year, in order to provide permanent staff to implement subdivision (e) of Section 309 of the Health and Safety Code, as amended by Section 1 of this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the Legislature will receive recommendations concerning testing for congenital disorders, at the earliest possible time, it is necessary that this act go into immediate effect.

CHAPTER 819

An act to amend Section 9321 of the Business and Professions Code, relating to polygraph examiners.

[Approved by Governor September 19, 1987. Filed with Secretary of State September 21, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 9321 of the Business and Professions Code is amended to read:

9321. (a) The amount of fees relating to licensure pursuant to this chapter shall be as follows:

(1) The application fee is seventy-five dollars ($75).

(2) The fee for taking the qualifying examination is fifty dollars ($50). Persons failing to appear for the examination, once having been scheduled, shall forfeit any examination fee paid.

(3) The initial license fee is two hundred twenty-five dollars ($225).

(4) The reexamination fee is fifty dollars ($50).

(5) The renewal fee is two hundred twenty-five dollars ($225).

(6) The duplicate license fee is ten dollars ($10).

(7) Notwithstanding Section 163.5, the late renewal fee is fifty dollars ($50).

(8) The provider fee for continuing education course approval requests shall be set by the board at an amount not to exceed fifty dollars ($50).

(b) The sum of fifty thousand dollars ($50,000) is hereby appropriated from the General Fund to the Polygraph Examiners Fund, which sum shall be a loan to be repaid to the General Fund with interest at the rate earned by moneys invested in the Pooled Money Investment Account and which shall be repaid in the following manner:

(1) Ten thousand dollars ($10,000) shall be repaid during the 1986–87 fiscal year.

(2) The balance shall be repaid in increments of not less than ten thousand dollars ($10,000) each fiscal year, with the entire sum plus interest paid by January 1, 1990.

All moneys repaid shall be from funds collected pursuant to the Polygraph Examiners Act.

(c) The amendments to this section made by the act adding this subdivision shall become operative only if SB 1062 of the 1987–88 Regular Session is enacted and amends or repeals Section 14.5 of Chapter 1210 of the Statutes of 1984.

CHAPTER 820

An act relating to San Diego Bay.

[Approved by Governor September 19, 1987. Filed with Secretary of State September 21, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares all of the following:

(a) San Diego Bay represents a unique and vital resource to the residents of southern California. It is one of the few natural harbors on the west coast and one of the largest and finest deep water harbors in the world. It is also the home of a variety of shellfish and offers scenic and recreational values that are important to the economic and aesthetic quality of the City of San Diego.

(b) Mankind's activities in the marine environment can have a profound short-term and long-term impact on that environment and greatly affect ocean and coastal resources therein.

(c) Both short-term and long-term threats to public health, living marine organisms, and water quality are posed by the disposal of toxic chemicals in the ocean.

(d) Low rainfall in the San Diego region, combined with the poor flushing characteristics of San Diego Bay, means that pollutants discharged into the bay have a marked and long-term effect on water quality.

(e) Recent study has shown that San Diego Bay now contains concentrations of toxic metals and carcinogenic chemicals sufficiently high to raise concerns that long-term effects on fish and other marine life may result.

(f) A recent report by the San Diego Regional Water Quality Control Board found polychlorinated biphenyls (PCB's) in Convair Lagoon at concentrations in excess of levels constituting a hazardous waste, leading to enforcement action against one party, but further investigation is needed to determine the extent of other sources of PCB's in the bay sediments.

(g) The need for further study of existing and potential water quality problems in the bay led the State Water Resources Control Board, in December 1986, to provide funding for a proposed program of research and monitoring. The study is to be a cooperative one, involving numerous governmental agencies which have an interest in pollution problems in San Diego Bay.

(h) The early identification of potential toxic pollution problems and the enforcement of water quality laws in San Diego Bay could be enhanced through increased participation by and cooperation among governmental entities and agencies. It is therefore in the best interests of all users of San Diego Bay's resources that the talents of the community be brought to bear on the problem of ensuring the future health of the bay.

(i) The San Diego Interagency Water Quality Panel, created in Section 2 of this act, shall act in an advisory capacity to assist the San Diego Regional Water Quality Control Board in its study of pollution problems in San Diego Bay. It is the intent of the Legislature that the activities of the panel be carried out in a manner which will not result in substantial costs to the regional board.

SEC. 2. (a) The San Diego Interagency Water Quality Panel is hereby created and shall consist of representatives of governmental agencies having jurisdiction over various activities involving San Diego Bay and other interested parties. The panel shall provide technical and advisory input into the activities of the San Diego Regional Water Quality Control Board in its study of water quality problems in the bay. The panel shall assist the regional board in the identification of all sources of water quality information on the bay, and assist in the development of a framework for greater coordination of these sources for rapid identification of potential water quality problems. The panel may also make recommendations for changes to state laws that are necessary to improve the quality of the waters of the bay. Members of the panel shall include, to the extent that they are available to serve on the panel, representatives of the following:

(1) The San Diego Unified Port District.

(2) The San Diego Regional Water Quality Control Board.
(3) The State Department of Health Services.
(4) The Department of Food and Agriculture.
(5) The Department of Fish and Game.
(6) The San Diego County Department of Health Services.
(7) The United States Environmental Protection Agency.
(8) The United States Fish and Wildlife Service.
(9) The National Marine Fisheries Service.
(10) The Army Corps of Engineers.
(11) The Department of the Navy.
(12) The Scripps Institution of Oceanography.
(13) Commercial users of the bay.
(14) Recreational users of the bay.
(15) Industrial users of the bay.
(16) Environmental groups with an interest in the bay.
(17) The Cities of San Diego, National City, Chula Vista, and Coronado.
(18) The California Coastal Commission.
(19) The State Lands Commission.

(b) (1) The regional board representative shall chair the panel and shall convene the panel at least twice each calendar year, including at least one meeting to review and approve the annual report required by subdivision (c). The regional board shall provide clerical and administrative support for the panel. Costs incurred by each organization represented on the panel shall be limited to the cost of its own participation at the meetings called by the chair.

(2) The governing body or the director of each agency, whichever applies, shall appoint the agency's representative to the panel. Members of the panel shall be qualified scientists with experience relevant to the marine environment or public health.

(3) The panel shall have an executive committee, consisting of the representatives of the agencies named in paragraphs (1) to (6), inclusive, of subdivision (a). The representative of the regional board shall serve as the chairperson of the executive committee. The executive committee shall meet at least once every two months to discuss the status of the regional board's study of the bay, and to review any relevant information regarding the bay brought to the panel.

(4) The executive committee shall request each agency, organization, or citizens group listed in subdivision (a) to submit its nominee to serve on the panel. A majority vote of the executive committee is required for the nominee to be approved for membership on the panel.

(c) The panel shall publish annually a report on the status of water quality in San Diego Bay, including specific findings and recommendations made during the year, and shall transmit a copy of that report to the State Water Resources Control Board.

(d) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

CHAPTER 821

An act to add and repeal Chapter 5 (commencing with Section 11890) of Part 3 of Division 2 of, and to repeal Section 674.7 of, the Insurance Code, relating to insurance.

[Approved by Governor September 19, 1987. Filed with Secretary of State September 21, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 674.7 of the Insurance Code is repealed.

SEC. 2. Chapter 5 (commencing with Section 11890) is added to Part 3 of Division 2 of the Insurance Code, to read:

CHAPTER 5. JOINT UNDERWRITING ASSOCIATION FOR LIABILITY INSURANCE

11890. (a) If the commissioner finds after a public hearing that liability insurance for a designated class of risk is not readily available in the voluntary insurance market, and that the public interest requires this availability, the commissioner may authorize the formation of a market assistance program to assist in securing that insurance for those risks in the designated class. The commissioner may require insurers, agents, and brokers to attend public hearings and meetings concerning either the need for a market assistance program or the organization and formation of a program. The commissioner also may assist in securing insurance for risks in the designated class for which commercial liability insurance is not readily available in forming a risk pooling arrangement as permitted by the Federal Liability Risk Retention Act of 1986.

(b) The commissioner shall formulate a market assistance program giving consideration to the need for adequate and readily accessible coverage, to the needs of insureds, insurers, agents, and brokers, to the need for reasonable underwriting standards and required loss prevention measures, and to the need for minimum interference with the operation of the voluntary market. The commissioner may require insurers, agents, and brokers to assist in the formation and implementation of the market assistance program.

(c) A market assistance program shall be comprised of insurers, agents, and brokers and their participation shall be voluntary. The commissioner shall not permit an insurer to condition its participation in such a way as to be inequitable to the other insurer participants.

(d) Market assistance programs shall not be established for the following types of insurance: professional liability insurance as

defined in subdivision (b) of Section 11589, pollution liability, workers' compensation and employers' liability, product liability, ocean marine, reinsurance, any insurance defined in Section 660 or 675 unless coverage is provided by a separate rider or endorsement for an activity for which the insured receives compensation, a stipend, or remuneration of any kind for the activity and then only to the extent of the coverage, insurance available through an involuntary market mechanism, including, but not limited to, the California Automobile Assigned Risk Plan and the California Fair Plan Association, or that form of risk covered under the provisions of Public Law 97-45 (15 U.S.C. Sec. 3901 et seq.) as enacted September 25, 1981.

(e) Any plan formulated pursuant to this section shall give consideration to the need for adequate and readily accessible coverage, to alternative methods for improving the market affected, to the inherent limitations of the insurance mechanism, to the need for reasonable underwriting standards, and to the requirement of reasonable loss prevention measures.

(f) Any plan formulated pursuant to this section shall establish procedures that will create minimum interference with the voluntary market.

(g) Voluntary plans shall be submitted to the commissioner and, if approved, may be put into operation.

For the purpose of this section, liability insurance for a designated class of risk is not readily available in the voluntary insurance market, when either there is a significant decrease in the number of insurers writing that class of risk, or there is a total withdrawal by insurers from writing that class of risk.

11891. (a) If, after a public hearing, the commissioner determines that a market assistance program has failed to provide adequate liability insurance coverage, the commissioner may order the creation of an unincorporated, not-for-profit, temporary joint underwriting association for liability insurance, constituting a legal entity separate and distinct from all its members. Every insurer authorized to write and engaged in writing within this state, on a direct basis, liability insurance, including the liability portion of multiperil policies, but not including (1) ocean marine insurance (2) professional liability insurance as defined in subdivision (b) of Section 11589 or, (3) any insurance defined in Section 660 or 675 except to the extent that commercial liability coverage is provided by a separate rider or endorsement to the policy and a separate premium is charged for the coverage, shall be a member of the association and shall remain a member as a condition of its authority to continue to transact insurance in this state. The association shall not issue policies covering professional liability insurance as defined in subdivision (b) of Section 11589, workers' compensation and employers' liability, pollution liability, product liability, ocean marine, reinsurance, any insurance defined in Section 660 or 675 unless coverage is provided by a separate rider or endorsement for

an activity for which the insured receives compensation, a stipend, or remuneration of any kind for the activity and then only to the extent of the coverage, or liability coverages available through the California Automobile Assigned Risk Plan or the California Fair Plan Association.

(b) The purpose of the association is to provide a market for liability insurance on a self-supporting basis, without subsidy from association members. If the commissioner determines after public hearing that liability insurance for a designated type of risk is readily available through the voluntary market, the association shall cease its underwriting operations. In no event shall the association continue past one year from the date of its creation unless the commissioner has determined, after public hearing, the necessity for its continued existence. If the association continues in existence past one year, the commissioner shall conduct those hearings at least annually.

(c) The commissioner may hold a public hearing to determine the effectiveness of any market assistance program already in existence on January 1, 1988, in order to determine if the market assistance program has provided adequate liability insurance coverage. Based upon that determination, the commissioner may order the creation of a Joint Underwriting Association pursuant to subdivision (a) without requiring further participation in a market assistance program.

11892. The association on behalf of its members, may exercise directly, or perform by contractual delegation, all of the following:

(a) Issue or cause to be issued policies of liability insurance to applicants, including incidental coverage, subject to limits as specified in the plan.

(b) Underwrite the insurance or appoint service companies to perform those functions.

(c) Obtain reinsurance.

(d) Cede insurance.

(e) Provide for reinsurance of risks incurred by the plan, and enter in reinsurance agreements with insurers to establish a reinsurance plan for risks of coverage described in the plan.

(f) Receive, invest, and disburse funds.

(g) Open bank accounts and delegate authority for deposit, withdrawal, and disbursement of funds.

(h) Borrow funds for the association's necessary administrative expenses.

(i) Provide for fidelity and surety bonds as may be deemed necessary to transact the business of the association.

(j) Review, consider, and act on any matters it deems necessary and proper for the administration of the association.

(k) Develop, promulgate, and effectuate loss prevention programs.

(*l*) Sue and be sued; provided, however, that no judgment against the association shall create any liability in the individual member companies, and that the association may provide for the

indemnification of its member companies, members of the board of directors and officers and employees and other persons acting on behalf of the association.

11893. The administrative powers of the association shall be vested in a board of directors, appointed by the commissioner, consisting of eight members and shall include six members who have experience in the insurance field and two public members who shall serve terms as established by the plan.

11894. The association may assess each member an initial fee sufficient to insure the issuance of liability policies. The initial fee shall be reimbursed to each member at such time as is deemed prudent by the association.

11895. (a) Within 45 days following creation of the association as provided in Section 11891, the directors of the association shall submit to the commissioner for review a proposed plan of operation. The plan of operation shall provide for economic, fair, and nondiscriminatory administration and for the availability of liability insurance for designated types of risk. The plan shall contain provisions including, but not limited to, establishment of necessary facilities, management of the association, commission arrangements, reasonable and objective underwriting standards, cession of reinsurance, appointment of servicing carriers or other servicing arrangements, and procedures for determining amounts of insurance to be provided by the association.

(b) For any class of liability insurance designated to participate in the Joint Underwriting Association, the commissioner shall appoint an advisory committee composed of representatives from the designated class, which shall, within 10 days from receipt of the plan, review the proposed plan of operation and communicate in writing to the commissioner, for his or her consideration, any omissions or deficiencies in the plan.

(c) The plan of operation shall be subject to approval of the commissioner after consultation with members of the association and other affected individuals and organizations. If the commissioner disapproves all or any part of the proposed plan of operation, the directors of the association, within 15-working days, shall submit for review an appropriate revised plan of operation or part thereof. If the directors fail to do so, the commissioner shall promulgate a plan of operation or part thereof, whichever is appropriate. The plan of operation approved or promulgated by the commissioner shall become effective and operational on order of the commissioner.

(d) Amendments to the plan of operation may be made by the directors of the association, subject to the prior written approval of the commissioner.

11896. (a) All policies issued by the association shall be on a claims-made basis.

(b) All policies issued by the association shall contain a provision which guarantees the insured that the association shall issue, on the written demand of any insured to whom it has issued a claims-made

policy, a rider or endorsement to the policy providing coverage for a period not less than the term of the underlying association claims-made policy, for any acts or omissions by the insured which occurred during the same period covered by the association's claims-made policy, but excluding liability for any claim for injury or loss made to the association for which an adequate premium is charged pursuant to subdivision (d). The association shall discharge its obligation under this subdivision by offering to issue a rider or endorsement for a single term beyond the policy period of the underlying association claims-made policy.

(c) Cancellation of the association's policies shall be governed by the applicable provisions of this code for the particular type of liability coverage.

(d) All rates, rating plans, rating rules, rating classification and territories applicable to the liability insurance written by the association and statistics relating thereto shall be subject to the provisions of Chapter 9 (commencing with Section 1850) of Part 2 of Division 1. Due consideration shall be given to past and prospective loss and expense experience for the liability insurance provided, trends in the frequency and severity of losses, the investment income of the association, and any other information as the commissioner may require. All rates shall be on an actuarially sound basis and shall be calculated to be self-supporting.

11897. (a) Upon a determination that within the next 180 days thereafter, the association will be unable to pay its outstanding lawful obligations as they mature in the regular course of business, as shown by an excess of lawful obligations over admitted assets, the association shall certify to the commissioner the existence of that condition.

(b) At the time of certification, the association shall first submit a schedule of policyholder surcharges which shall be sufficient to assure the continued sound financial operation of the association. The schedule of policyholder surcharges shall become final within 30 days after certification unless the commissioner finds that the amounts of the surcharges are unreasonable. The policyholder surcharge shall not exceed 25 percent of the total premium paid for a policy or policies obtained through the association. Upon determination by the association that the policyholder surcharge is insufficient to assure the association's continued sound financial operation, the association shall submit a schedule of insurer-member assessments. Insurer-member assessments shall become final within 30 days unless the commissioner finds that the amounts of the assessments are unreasonable. The insurer-member assessments shall not exceed 1 percent of each insurer-member's direct written premium in this state attributable to that insurance, the writing of which requires it to be a member of the association as set forth in subdivision (a) of Section 11891.

(c) (1) Upon termination of underwriting activities of the association, any person who obtained insurance through the association and who was subject to payment of a surcharge, shall

recoup a proportional share of that surcharge from the excess of assets over liabilities, which shall include all necessary administrative expenses, losses, and loss adjustment expenses and reserves, and reserves for losses incurred but not reported together with loss adjustment expenses attributable to them.

(2) If, upon termination of the underwriting activities of the association, the board of directors of the association certifies to the commissioner a deficit of assets over liabilities as defined in paragraph (1), the commissioner shall, within 60 days of that certification, authorize the association to begin recoupment of the deficit by applying a surcharge determined by the association at a rate not to exceed 2 percent of the annual premiums on future policies of that insurance, the writing of which requires the insurer to be a member of the association as set forth in subdivision (a) of Section 11891.

(d) Each insurer-member shall recoup over a reasonable length of time a sum reasonably calculated to recoup the assessments paid by the insurer-member by way of a surcharge on premimums under subdivision (c). Amounts recouped shall not be considered premiums for any other purpose, including the computation of gross premium tax or agent's commission. The amount of the surcharge shall be separately stated on either a billing or policy declaration sent to the insured. An insurer-member may omit collection of recoupment amounts from the insured when the expense of collection would exceed the amount collected. However, nothing shall relieve the insurer-member of its obligation to recoup amounts otherwise collectible.

11898. If the association determines that an appliciant meets the underwriting standards of the association as prescribed in the plan, the association, upon receipt of the premium or the portion of the premium as prescribed in the plan, shall cause a policy of liability insurance to be issued.

11899. An applicant to the association, any person insured pursuant to this chapter, or their representatives, or any affected insurer, may appeal to the commissioner within 30 days after any ruling, action, or decision by, or on behalf of the association, with respect to those items the plan of operation define as matters which may be appealed.

11900. All orders of the commissioner made pursuant to this chapter shall be subject to judicial review. However, notwithstanding any other provision of law, proceedings for review shall not act as a stay of the enforcement of any order or decision of the commissioner disapproving or ordering the withdrawal, adjustment, or termination of the effectiveness of any rate filing made by or on behalf of the association on the ground that the rates or premiums for the business of the association are unreasonable or excessive.

11901. Annually, on or before March 1, the association shall file in the office of the commissioner a statement which contains

information with respect to its transactions, condition, operations, and affairs during the preceding calendar year. The statement shall contain those matters and information as are prescribed and shall be in a form approved by the commissioner. The additional information with respect to its transactions, condition, or any matter connected with its transactions and condition considered to be material and of assistance in evaluating the scope, operation, and experience of the association.

11902. The commissioner shall make an examination of the affairs of the association at least annually and at any other time the commissioner deems advisable. The examination shall be conducted and the report thereon filed in the manner prescribed in Article 4 (commencing with Section 730) of Chapter 1 of Part 2 of Division 1. The expenses of the examination shall be borne and paid by the association.

11903. There is no liability on the part of and no cause of action of any nature shall arise against, the association or its members, the commissioner or his or her authorized representatives or any other person or organization, for any statements, acts, or omissions made in good faith by them during any proceedings or concerning any matters within the scope of this chapter.

11904. Dissolution of the association, including its assets and liabilities, shall be accomplished under the supervision of the commissioner.

11905. The association shall not be a member of the California Insurance Guarantee Association, nor shall that association be otherwise responsible for losses sustained by the association.

11906. This chapter shall remain in effect only until December 31, 1994, and as of that date is repealed, unless a later enacted statute, which is enacted before December 31, 1994 deletes or extends that date.

[Approved by Governor September 19, 1987. Filed with Secretary of State September 21, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 25178 of the Health and Safety Code is amended to read:

25178. On or before January 1st of each odd-numbered year, the department shall prepare and submit to the Legislature a report containing, but not limited to, the following:

For purposes of this subdivision, "hazardous waste facility" means a facility which uses a land disposal method, as defined in subdivision (h) of Section 25179.3, and which disposes of wastes regulated as hazardous waste pursuant to the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. Sec. 6901 et seq.).

(c) The status of the hazardous waste facilities siting program.

(d) The status of the hazardous waste abandoned sites program.

(e) A summary of enforcement actions taken pursuant to this chapter and any other actions relating to hazardous waste management.

(f) Summary data on annual quantities and types of hazardous waste generated, transported, treated, stored, and disposed.

(g) Summary data regarding onsite and offsite disposition of hazardous waste.

(h) Research activity initiated by the department.

(i) Regulatory action by other agencies relating to hazardous waste management.

(j) Any other data considered pertinent by the department to hazardous waste management.

SEC. 2. Section 25200.5 of the Health and Safety Code is amended to read:

25200.5. (a) Except as provided in Section 25200.7, any person who desires to continue use or operation of a hazardous waste facility pending the review and decision of the department on the permit application, may be granted interim status by the department if the person has made application for a permit pursuant to Section 25200.

(b) The person operating under an interim status pursuant to this section shall not do any of the following acts:

(1) Treat, store, or dispose of hazardous wastes which are not specified in Part A of the permit application.

(2) Employ processes not described in Part A of the permit application.

(3) Exceed the design capacities specified in Part A of the permit application.

(c) A facility operating under interim status is not subject to civil or criminal penalties for operating without a permit, but is otherwise subject to this chapter and the rules, regulations, standards, and

requirements issued or adopted pursuant to this chapter. Interim status may be granted subject to any conditions which the department deems necessary to protect public health or the environment. Interim status shall not be valid beyond the date of the decision of the department on the permit application.

(d) The department shall not grant interim status to any person to operate a hazardous waste facility if the department has previously taken any of the following actions:

(1) Denied a hazardous waste facilities permit for the facility.

(2) Suspended or revoked the hazardous waste facilities permit for the facility.

(3) Terminated a grant of interim status for the facility.

(e) For purposes of this section, "Part A of the permit application" has the same meaning as defined in Section 66151 of Title 22 of the California Administrative Code.

SEC. 3. Section 25200.7 is added to the Health and Safety Code, to read:

25200.7. (a) On or before November 8, 1988, the department shall take final action on each application for a hazardous waste facilities permit submitted to the department before January 1, 1988, by either issuing a final permit pursuant to the application or a final denial of the application.

(b) Subdivision (a) applies only to hazardous waste facilities which are operating under a grant of interim status on January 1, 1988, which use a land disposal method, as defined in subdivision (h) of Section 25179.3, and which dispose of wastes regulated as hazardous waste pursuant to the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. Sec. 6901 et seq.).

SEC. 4. Section 25200.8 is added to the Health and Safety Code, to read:

25200.8. Any applicant for a final hazardous waste facilities permit pursuant to Section 25200 who receives a notice of deficiency from the department concerning the permit application shall submit the information specified in the notice of deficiency, to the extent that the information is required by statute or regulation, by a reasonable date specified in the notice or by a later alternative date approved by the department. The department may initiate an enforcement action pursuant to Section 25187 or 25189.3 against any hazardous waste facilities permit applicant who does not provide the information specified in the notice of deficiency, to the extent that the information is required by statute or regulation, by a reasonable date specified in the notice of deficiency or a later alternative date approved by the department. If an applicant does not respond to three or more of these notices of deficiency regarding the same or different deficiencies or responds with substantially incomplete or substantially unsatisfactory information on three or more occasions, and the applicant has failed to provide the information which is required by statute or regulation and is reasonably requested by the department, the department shall, pursuant to Sections 25186 and

25186.1, initiate proceedings to deny the permit application. This section does not limit the department's authority, under any other provision of law, to take action concerning delinquent, incomplete, or unsatisfactory responses to notices of deficiency.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 823

An act to amend Section 87613 of the Education Code, relating to education.

[Approved by Governor September 19, 1987 Filed with Secretary of State September 21, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 87613 of the Education Code is amended to read:

87613. (a) In any community college district, the percentage of weekly faculty contact hours taught by part-time instructors shall not exceed the three-year district average of weekly faculty contact hours taught by part-time instructors during the 1980–81, 1981–82, and 1982–83 academic years.

(b) If in any academic year a district exceeds by more than 1 percent the percentage of weekly faculty contact hours taught by part-time instructors specified in subdivision (a), the district shall, by February 1 of that academic year, submit a plan for compliance for the next academic year to the Board of Governors of the California Community Colleges. The plan shall be developed with the involvement of the appropriate faculty representative. The board of governors may approve the plan for compliance only after reviewing the feasibility of the plan at a regular meeting. The district shall comply with the requirements of subdivision (a) in the next academic year.

(c) For purposes of this section, "part-time instructor" means an instructor who is employed to teach adult or community college classes for not more than 60 percent of the hours per week considered a full-time assignment.

(d) The provisions of this section shall not apply to any community college district in which the weekly faculty contact hours taught by part-time instructors do not exceed 30 percent.

(e) This section shall become inoperative on July 1, 1989, and, as of January 1, 1990, is repealed, unless a later enacted statute, which

becomes effective on or before January 1, 1990, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 2. Notwithstanding Sections 84043 to 84046, inclusive, of the Education Code, any emergency apportionments authorized by the Legislature for community college districts prior to July 1, 1987, shall be governed by Article 2 (commencing with Section 84309) of Chapter 3 of Part 50 of the Education Code as they existed on December 31, 1986.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 824

An act to add Chapter 2.6 (commencing with Section 1954.25) to Title 5 of Part 4 of Division 3 of the Civil Code, relating to real property.

[Approved by Governor September 19, 1987. Filed with Secretary of State September 21, 1987]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Costa-Keene-Seymour Commercial Property Investment Act of 1987.

SEC. 2. Chapter 2.6 (commencing with Section 1954.25) is added to Title 5 of Part 4 of Division 3 of the Civil Code, to read:

CHAPTER 2.6. COMMERCIAL RENTAL CONTROL

1954.25. The Legislature finds that the price charged for commercial real property is a matter of statewide concern. Price controls on commercial rents discourage expansion of commercial development and entrepreneurial enterprise. These controls also discourage competition in the open market by giving artificial price benefits to one enterprise to the disadvantage of another. Because the impact of these controls goes beyond the local boundaries within which the controls are imposed, the adverse economic consquences become statewide.

In order to prevent this statewide economic drain from occurring, the Legislature hereby enacts a uniform system with respect to

commercial rents, which shall apply to every local jurisdiction in the state. This legislative action is needed to prevent the imposition of artificial barriers on commercial rents, as well as to define those areas not included within the definition of commercial real property.

In making these findings and in enacting this chapter, the Legislature expressly declares its intent that this chapter shall not apply or be interpreted to apply to local rental controls on residential real property.

1954.26. As used in this chapter, the following terms have the following meanings:

(a) "Owner" includes any person, acting as principal or through an agent, having the right to offer commercial real property for rent, and includes any predecessor in interest to the owner.

(b) "Price" includes any charge or fee, however denominated, for the hiring of commercial real property and includes any security or deposit subject to Section 1950.7.

(c) "Public entity" has the same meaning as defined in Section 811.2 of the Government Code.

(d) "Commercial real property" includes any part, portion, or unit thereof, and any related facilities, space, or services, except the following:

(1) Any dwelling or dwelling unit subject to the provisions of Section 1940.

(2) Any accommodation in any residential hotel, as defined in Section 50519 of the Health and Safety Code, or comparable accommodations which are specifically regulated by a public entity in structures where 20 percent or more of the accommodations are occupied by persons as their primary residence.

(3) Any hotel unit not otherwise specified in paragraph (1) or (2) that is located in a structure with 20 or more units or in which 20 percent or more of the accommodations were occupied as of August 5, 1987, by persons as their primary residence, if, in either circumstance, the unit was subject to rental controls on August 5, 1987, provided that any control exercised thereafter is in accordance with the system of controls in effect on August 5, 1987.

(4) Any space or dwelling unit in any mobilehome park, as defined in Section 18214 of the Health and Safety Code.

(e) "Rent" means to hire real property and includes a lease or sublease.

(f) "Commercial rental control" includes any action of a public entity taken by statute, charter, ordinance, resolution, administrative regulation, or any other governmental enactment to establish, continue, implement, or enforce any control or system of controls, on the price at which, or the term for which, commercial real property may be offered for rent, or control or system of controls which would select, mandate, dictate, or otherwise designate a specific tenant or specific person or entity with whom the owner must negotiate on the formation, extension, or renewal of a tenancy; or any other enactment which has such a purpose.

(g) "Tenant" includes a lessee, subtenant, and sublessee.

(h) "Term" means the period of time for which real property is rented or offered for rent, and includes any provision for a termination or extension of such a period or renewal thereof, except that nothing in this chapter supersedes the specific provisions of this code or of the Code of Civil Procedure which of themselves establish, prescribe, limit, or define the term for which real property may be rented.

(i) "Impasse notice" means a written notice which states either of the following:

(1) That the owner has not received from the tenant an offer of any terms for an extension or renewal of the lease which are acceptable to the owner, or an acceptance by the tenant of any offer of terms by the owner, and that an impasse with respect to any agreement on a lease extension or renewal has been reached.

(2) That the owner is not willing to extend or renew the lease.

(j) "Negotiation notice" means a written notice by a tenant in privity of estate, and in privity of contract with the owner, stating either of the following:

(1) That the tenant offers to extend or renew the lease on terms set forth in the notice.

(2) That the tenant solicits an offer for the extension or renewal of the lease from the owner.

(k) "Deliver" means to deliver by personal service or by placing a copy of the notice in the mail, postage prepaid, by certified mail, return receipt requested, addressed to the party at the address for the receipt of notices under the lease.

(*l*) "Developer" means any person who enters into an agreement with a redevelopment agency for the purpose of developing specific commercial real property within a redevelopment project area with the intention of acquiring ownership of that property, even if that person does not own that property when the agreement is executed.

1954.27. (a) No public entity shall enact any measure constituting commercial rental control, nor shall any public entity enforce any commercial rental control, whether enacted prior to or on or after January 1, 1988.

(b) However, nothing in this chapter shall be construed to do any of the following:

(1) Relieve any party to a commercial lease or rental agreement of the duty to perform any obligation thereunder.

(2) Preclude express establishment in a commercial lease or rental agreement of the price at which real property may be offered to a subtenant or sublessee.

(3) Impair any obligation of any contract entered into prior to January 1, 1988.

(4) Affect any provision of, or requirement for mitigation of damages under, Sections 1951 to 1952.6, inclusive.

(5) Limit any adjustment of price required or permitted by law due to constructive eviction.

(6) Enlarge or diminish in any way any power which a public entity may have with respect to regulation of rental rates or the ownership, conveyance, or use of any property specified in paragraph (1), (2), or (3) of subdivision (d) of Section 1954.26.

(7) Relieve any party of any requirement or mandate to arbitrate, or deprive any party of any right to arbitrate or compel arbitration, which mandate or right exists pursuant to Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure, titled "Arbitration," Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, titled "Judicial Arbitration," Title 1 (commencing with Section 1823) of Part 3 of the Code of Civil Procedure, titled "Pilot Projects," or any other provision of state law.

(8) Affect in any way, or preclude the inclusion of, any provision in a lease creating any lawful option, right of first refusal, or any covenant to renew or extend the lease or sell the real property or any interest therein.

(9) Relieve any person of any duty or deprive any person of any right or cause of action which may exist pursuant to Section 51, 53, or 782.

1954.28. Nothing in this chapter limits or affects public entities with respect to any of the following:

(a) The Eminent Domain Law, Title 7 (commencing with Section 1230.10) of Part 3 of the Code of Civil Procedure.

(b) Abatement of nuisances. However, except as to conditions expressly defined as nuisances by statute, authority to abate or bring actions to abate nuisances shall not be used to circumvent the limitations of this chapter with respect to conditions not manifesting the quantum and character of unreasonableness and injuriousness to constitute a nuisance under law.

(c) The Airport Approaches Zoning Law, Article 6.5 (commencing with Section 50485) of Chapter 2 of Part 1 of Division 1 of Title 5 of the Government Code.

(d) Any contract or agreement by which an owner agrees with a public entity to offer any real property for rent at a stipulated or maximum price or under a specified formula for ascertaining a stipulated or maximum price, in consideration for a direct financial contribution; any written contract between a redevelopment agency and an owner or developer of commercial real property within a redevelopment project area; or any written development agreement entered into pursuant to Article 2.5 (commencing with Section 65864) of Chapter 4 of Division 1 of Title 7 of the Government Code. Any contract or agreement specified in this subdivision is not enforceable against an owner who became an owner (1) without actual knowledge of the contract or agreement, and (2) more than 30 days prior to the recording with the county recorder of a written memorandum of the contract or agreement specifically describing its terms and identifying the real property and the owner. The county recorder shall index these memorandums in the

grantor-grantee index.

(e) Article 2 (commencing with Section 5020) of Chapter 1 of Division 5 of the Public Resources Code, relating to historical resources.

(f) The Subdivision Map Act, Division 2 (commencing with Section 66410) of Title 7 of the Government Code.

(g) Any contract or agreement entered into by a public entity relating to the transfer, lease, or license of commercial real property owned or leased by that public entity, except any requirement enacted pursuant to Section 1954.31.

1954.29. Nothing in this chapter shall, with respect to a public entity:

(a) Grant, enlarge, or diminish any power (1) which it may possess under the provisions of, and for the purposes of, Division 1 (commencing with Section 65000) of Title 7 of the Government Code, (2) with respect to charter cities, planning, or zoning powers granted under Section 5 of Article XI of the California Constitution, or (3) any power which it may possess to mitigate the impact caused by the construction, reconstruction, demolition, or alteration of the size of any commercial real property. However, this subdivision does not apply to any actions taken for the clear or systematic purpose of circumventing this chapter.

(b) Grant, repeal, enlarge, or diminish any authority to require a business license, whether for regulation or revenue.

1954.30. Nothing in this chapter grants or augments any authority of a public entity which it does not possess independent of this chapter, nor diminish any power of a public entity except as expressly provided in this chapter.

1954.31. A public entity may by enactment of a statute, charter or charter amendment, or ordinance, establish a requirement for notice relating to the termination of a lease of commercial real property due to the expiration of its term.

(a) The enactment shall contain provisions dealing with any or all of the following:

(1) The delivery of a negotiation notice by a tenant.

(2) A requirement for an owner to deliver an impasse notice at any time after delivery of the negotiation notice, except that:

(A) The requirement shall be inapplicable unless the tenant has been required to deliver a negotiation notice not less than 270 days before the expiration of the lease, and has done so.

(B) The mandate for delivery of an impasse notice shall not occur earlier than 180 days before expiration of the lease.

(C) No impasse notice shall be required if the parties have executed a renewal or extension of the lease.

(D) Provision shall be made that the notice will include, in a form of type which will distinguish it from the body of the text of the balance of the notice, a disclosure reading, either:

(i) The giving of this notice does not necessarily preclude further dialogue or negotiation on an extension or renewal of the lease if the

parties choose to negotiate, but the delivery of this notice discharges all obligations of _____ (the owner) under provisions of _____ (the enactment) and Section 1954.31 of the Civil Code; or

(ii) By giving this notice _____ (the owner) declares that he or she does not intend to negotiate further on any extension or renewal of the lease.

(3) Establish that a bad faith failure to comply with the enactment is subject to a remedy for actual damages.

(4) Any remedy under the enactment or Section 1954.31 shall be available only by an action brought by the owner or the tenant.

(b) The enactment shall contain (or shall be deemed to contain), a provision that:

(1) A tenant may not exercise any right pursuant to the enactment or this chapter, unless the tenant has performed the terms of the lease in such manner as would entitle the tenant to exercise any option he or she might possess under the lease.

(2) No right or cause of action accruing to a tenant pursuant to the enactment or this chapter, may be assigned other than to a person who is a lawful assignee of the lease, is in lawful possession of the premises under the lease, and is in compliance with paragraph (1).

(3) Nothing in the enactment or this chapter creates or imposes, nor shall be construed to create or impose, a duty to extend or renew, or to negotiate on an extension or renewal, of any lease; nor shall the delivery or receipt of any notice provided for by the enactment or by this chapter, constitute a waiver of any rights to continued performance under the covenants under the lease or to actions for possession.

(4) The delivery of any notice pursuant to the enactment or this chapter shall create a rebuttable presumption affecting the burden of proof, that the notice has been properly given.

(c) No enactment shall provide, or be deemed to provide:

(1) For any extension of the term of any lease without the mutual, written consent of the owner and the tenant.

(2) For any requirement on either party to offer to extend or renew or to negotiate an extension or renewal of the lease.

(3) Bar any action brought to recover possession whether by ejectment, unlawful detainer, or other lawful means.

(4) Any remedy under the enactment or this chapter, other than that which may be provided pursuant to paragraph (3) of subdivision (a).

(d) The provisions of any enactment adopted pursuant to this section shall not apply to:

(1) Any lease or rental agreement which is not in writing, which constitutes a tenancy at will, which is for a term of less than one year or for an unspecified term, which is a month-to-month tenancy or a tenancy at sufferance.

(2) Any lease, the term of which expires within 270 days after the effective date of the enactment.
