For purposes of taxpayers who lease a solar energy system pursuant to subdivision (m), the tax credit shall apply only to the principal recovery portion

of lease payments for the term of the lease not to exceed 10 years, as defined in subdivision (o), which are made during the taxable year, and to the amounts which are expended on the purchased portion of the solar energy system, including installation charges, during the taxable year. For taxable years beginning on or after January 1, 1988, and before January 1, 1989, the credit percentage allowed by this section shall be 10 percent.

(b) The solar energy tax credit shall be claimed on the state income tax return for the taxable year in which the solar energy system was installed.

(c) A taxpayer who claimed the solar energy tax credit in the state income tax return for the taxable year in which the solar energy system was installed may claim the credit in subsequent years for additions to the system or additional systems by the amount prescribed in subdivision (a).

(d) For purposes of computing the credit provided by this section, the cost of any solar energy system eligible for the credit shall be reduced by any grant provided by a public entity for that system.

(e) The basis of any system for which a credit is allowed shall be reduced by the amount of the credit and the amount of any grant provided by a utility or public agency for the solar energy system. The basis adjustment shall be made for the taxable year for which the credit is allowed.

(f) With the exception of a husband and wife, if there is more than one owner of a premises on which a solar energy system is installed, each owner shall be eligible to receive the solar energy tax credit in proportion to his or her ownership interests in the premises. In the case of a husband or wife who files a separate return, the credit may be taken by either or equally divided between them.

(g) In the case of a partnership, the solar energy tax credit may be divided between the partners pursuant to a written partnership agreement.

(h) In the case where the credit allowed under this section exceeds the "net tax" for the taxable year, that portion of the credit which exceeds the "net tax" may be carried over to the "net tax" in succeeding taxable years, until the credit is used. The credit shall be applied first to the earliest years possible.

(i) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the current or any prior taxable year as energy conservation measures under this part.

(j) Energy conservation measures applied in conjunction with solar energy systems to reduce the total cost or backup energy requirements of those systems shall be considered part of the systems, and shall be eligible for the tax credit. Qualified energy conservation measures installed within six months of the date of installation of the solar energy system are considered to be installed "in conjunction with" the solar energy system, even if the period spans two taxable years. In cases involving more than six months

between the dates of installation of the energy conservation measures and the solar energy system, the taxpayer must be able to provide persuasive evidence that the energy conservation measures were in fact installed in conjunction with a solar energy system. Eligible conservation measures applied in conjunction with solar space heating include, but are not limited to, ceiling, wall, and floor insulation above that required by law at the time of original construction. Eligible conservation measures applied in conjunction with solar water heating include, but are not limited to, water heater insulation jackets, and shower and faucet flow reducing devices. Energy conservation measures which shall be eligible for the tax credit when applied in conjunction with solar energy systems shall be defined by the Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(k) Taxpayers who lease a solar energy system installed on premises in California shall receive a tax credit as provided in subdivision (a), if the lessee can confirm, if necessary, by a written document signed by the lessor that (1) the lessor irrevocably elects not to claim a state tax credit for the solar energy system, and (2) if the system is installed in a locality served by a municipal solar utility, that the lessor holds a valid permit from the municipal solar utility. Leasing requirements may be established by the State Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(*l*) The State Energy Resources Conservation and Development Commission shall, after one or more public hearings, establish guidelines and criteria for solar energy systems which shall be eligible for the credit provided by this section. These guidelines and criteria may include, but are not limited to, minimum requirements for safety, reliability, and durability of solar energy systems. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section.

(m) For purposes of this section, the following definitions shall apply:

(1) "Installed" means placed in a functionally operative state.

(2) "Cost" includes equipment, installation charges, and compensation paid to the owner of burdened property in connection with the acquisition of a solar easement, as defined in Section 801.5 of the Civil Code, and the fees for the recording of the easement. In the case of a system which is leased, "cost" means the principal recovery portion of lease payments, which is the cost incurred by the taxpayer in acquiring the solar energy system, excluding interest charges and maintenance expenses.

"Cost" does not include interest charges and costs associated with the acquisition of an easement other than a solar easement.

(3) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease or easement granting use of the premises, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative

housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(4) "Premises" means the principal stationary location in California where the system is installed for direct use or for purposes of sale of energy, and includes land, easements, and buildings or portions thereof.

(5) "Commercial purposes" means the installation of solar energy systems on premises other than single-family dwellings.

(6) "Single-family dwelling" means single-family residences, mobilehomes, and the individual units of condominiums.

"Single-family dwelling" does not include cooperatives, apartment buildings, or other similar multiple dwellings, including buildings and any other common areas of a condominium maintained by a homeowners association.

(7) (A) "Solar energy system" means the use of solar devices for the individual function of:

(i) Domestic or service water heating.

(ii) Space conditioning.

(iii) Production of electricity.

(iv) Process heat.

(v) Solar mechanical energy.

"Solar energy system" includes, but is not limited to, passive thermal systems, semipassive thermal systems, active thermal systems, and photovoltaic systems.

For purposes of this section, "solar energy system" does not include solar devices for the individual function of wind energy for the production of electricity or mechanical work.

(B) Eligible solar energy systems shall have a useful life of not less than three years.

(8) "Solar device" means the equipment associated with the collection, conversion, transfer, distribution, storage, or control of solar energy. In the case of a solar device associated with two or more solar energy systems, the credit allowed for the solar device may be taken for any one of the systems, or divided equally between them.

(9) "Passive thermal system" means a system which utilizes the structural elements of the building, and is not augmented by mechanical components, to provide for collection, storage, or distribution of solar energy for heating or cooling.

The credit shall be applied first to the earliest years possible.

(m) The aggregate amount of tax credits granted pursuant to this section and Section 23610.5 shall not exceed thirty-five million dollars ($35,000,000) per year. (b) For purposes of this section:

(1) "Qualified housing project" means a project providing rental or cooperative housing for lower income families subject to any of the following with respect to which the owner is, under those sections or regulations issued thereunder limited as to the rate of return on his or her investment in the project, and limited as to rentals or occupancy charges for units in the project:

(A) A mortgage insured by the United States Department of Housing and Urban Development under either Section 202, 213, 221(d)(3), 231, 236, or 608 of the National Housing Act.

(3) "Qualified entities" include any of the following:

(A) A nonprofit corporation that has obtained tax-exempt status under either Section 501(c)(3) or 501(c)(4) of the Internal Revenue Code.

(B) A public agency or unit of state or local government.

(C) A limited equity cooperative formed pursuant to Section 33007.5 of the Health and Safety Code.

(D) A limited partnership, of which a general partner is one of the above qualified entities, or an affiliate thereof, where a majority of the board of directors of the affiliate is appointed or removable by the qualified entity or where the qualified entity owns a majority of the voting shares of the affiliate, so long as the partnership

agreement limits the annual rate of return to investors to 8 percent of their capital contributions.

(4) A qualified entity acquiring a qualified housing project shall agree for the useful life of the project to all of the following conditions and restrictions:

(A) To assume the obligations imposed by any loan agreement, mortgage, subsidy contract, or regulatory agreement on the project.

(B) To restrict occupancy in accordance with the threshold requirements of Section 42(g) of the Internal Revenue Code where less than all of the units in the projects are occupied by tenants whose incomes make the project eligible for the tax credit under Section 42 of the Internal Revenue Code.

(C) To accept all available rent subsidies on behalf of tenants in the project.

(D) Not to evict tenants without a showing of good cause.

(E) Not to arbitrarily discriminate against applicants for admission on the basis of family income or any other basis prohibited by law.

(F) To establish rents for the project not exceeding those required by the terms of any subsidy program utilized at the project or the rent restrictions required by Section 42 of the Internal Revenue Code, whichever is less.

(G) To be subject to continued regulation by federal or state housing agencies or the Department of Housing and Community Development to ensure compliance with these regulatory requirements.

(H) To restrict occupancy in accordance with this paragraph by a deed restriction running with the land and enforceable by the Department of Housing and Community Development. Any regulatory agreement establishing these occupancy restrictions shall be deemed a contract and shall be enforceable by affected tenants as third-party beneficiaries thereto.

(c) (1) Where all units in the project are used in accordance with the standards specified in paragraph (4) of subdivision (b), and all of the units are occupied by tenants whose incomes make the project eligible for the tax credit under Section 42 of the Internal Revenue Code, then 50 percent of the gain, which would otherwise be recognized, shall not be recognizable to any extent.

(2) So long as the threshold requirements of Section 42(g) of the Internal Revenue Code are met, where less than all of the units in the project are occupied by tenants whose incomes make the project eligible for the tax credit under Section 42 of the Internal Revenue Code, then the gain shall not be recognized in accordance with the formulas for allocating the low-income housing tax credit, as provided in Section 42 of the Internal Revenue Code.

(d) Upon the receipt of information that a qualified entity is failing to use the project in accordance with the requirements of paragraph (4) of subdivision (b), then the Department of Housing and Community Development shall conduct an investigation of the

allegations. If the department determines that the qualified entity is utilizing good faith efforts to use the units in the project to the maximum extent possible in accordance with the restrictions specified in paragraph (4) of subdivision (b), and it is not economically feasible to utilize all units in that fashion, then the department shall not seek to remedy the alleged violation. If the department determines that there exists an unjustified violation of the restrictions specified in paragraph (4) of subdivision (b), then the department shall pursue whatever remedies are specified by law for that violation, including the imposition of a receivership to operate the project in accordance with the requirements of this section and recovery of a penalty from the qualified entity in the amount of the capital gains tax that was not recognized and penalties and interest for delinquent taxes as otherwise provided by law.

(e) No project on which 50 percent of the capital gains has been nonrecognized pursuant to subdivision (c) shall be sold or otherwise disposed of without the prior written approval of the Department of Housing and Community Development. In giving that approval, the department shall ensure that the project shall continue to be subject to the requirements of paragraph (2) of subdivision (b) or that any net proceeds of the sale are utilized for charitable low-income housing purposes. In determining what constitutes the net proceeds of the sale, where the seller is a qualified limited partnership entity under subparagraph (D) of paragraph (3) of subdivision (b), the Department of Housing and Community Development shall consider the terms of the partnership agreement.

(f) This section shall remain in effect only until January 1, 1990, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1990, deletes or extends that date.

(2) If the Franchise Tax Board establishes that any portion of an underpayment is attributable to fraud, the entire underpayment shall be treated as attributable to fraud, except with respect to any portion of the underpayment which the taxpayer established is not

(b) The penalty prescribed by subdivision (a) shall not be assessed if, for the same taxable year, the sum of any penalties imposed under Section 18681 (relating to failure to file return) and Section 18683 (relating to failure to file return after demand) is equal to or greater than the subdivision (a) penalty. In the event the penalty imposed under subdivision (a) is greater than the sum of any penalties imposed under Sections 18681 and 18683, only the subdivision (a) penalty will be assessed.

(c) For purposes of this section, total tax unpaid means the amount of tax shown on the return reduced by both of the following:

Article 4. Tax Forms

19310. In enacting this article, the Legislature finds and declares that for most taxpayers in most ordinary circumstances, the burden of preparing tax returns could be greatly reduced by the availability of state tax forms which would allow taxpayers to copy numbers from the federal return, make simple adjustments, look up the tax in published tax tables, subtract state tax credits, and either pay the amount due or file for a refund.

19311. For taxable years beginning on or after January 1, 1987, the Franchise Tax Board shall make available to taxpayers tax forms which are as simple as possible for taxpayers to prepare. These forms shall be designed to provide for taxpayers to copy figures from, or attach a copy of, their federal return or portions thereof, or both, and to make any necessary adjustments.

The Franchise Tax Board shall, in preparing tax forms, make every effort to ease taxpayers' compliance burden, including, but not limited to, (a) designing forms so that, to the maximum extent possible, items already entered on the federal return may be copied to the state form, (b) reducing the number of state schedules by attaching copies of comparable federal schedules to the state return, where appropriate, and (c) choosing a weight and quality of paper, color of ink, and general form design which will facilitate the preparation of returns.

Any penalty so imposed shall be paid upon notice and demand from the Franchise Tax Board and shall be collected as a tax.

(iii) Reasonable fees paid or incurred for the services of attorneys in connection with the civil proceeding, except that those fees shall not be in excess of seventy-five dollars ($75) per hour unless the court determines that an increase in the cost of living or a special factor, such as the limited availability of qualified attorneys for the proceeding, justifies a higher rate.

(2) (A) The term "prevailing party" means any party to any proceeding described in subdivision (a) (other than the State of California or any creditor of the taxpayer involved) which—

(i) Establishes that the position of the State of California in the civil proceeding was not substantially justified, and

SEC. 25. Section 23601.4 is added to the Revenue and Taxation Code, to read:

23601.4. (a) For income years beginning on or after January 1, 1987, there shall be allowed as a credit against the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) an amount equal to 12 percent of the cost of a solar energy system installed on premises, used for commercial purposes, which are located in California and which are owned by the taxpayer during the income year. For purposes of taxpayers who lease a solar energy system pursuant to subdivision (*l*), the tax credit shall apply only to the principal recovery portion of lease payments for the term of the lease not to exceed 10 years, as defined in subdivision (n), which are made during the income year, and to the amounts expended on the purchased portion of the solar energy system, including installation charges, during the income year. For income years beginning on or after January 1, 1988, and before January 1, 1989, the credit percentage allowed by this section shall be reduced to 10 percent.

(b) The solar energy tax credit shall be claimed on the state income tax return for the income year in which the solar energy system was installed.

(c) A taxpayer who claimed the solar energy tax credit in the state income tax return for the income year in which the solar energy system was installed may claim the credit in subsequent years for additions to the system or additional systems by the amount prescribed in subdivision (a).

(d) For purposes of computing the credit provided by this section, the cost of any solar energy system eligible for the credit provided by this section shall be reduced by any grant provided by a public entity for that system.

(e) The basis of any system for which a credit is allowed shall be reduced by the amount of the credit and the amount of any grant provided by a utility or public agency for the solar energy system. The basis adjustment shall be made for the income year for which the

credit is allowed.

(f) In the case of a partnership, the solar energy tax credit may be divided between the partners pursuant to a written partnership agreement.

(g) In the case where the credit allowed under this section exceeds the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) for the income year, that portion of the credit which exceeds those taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) in succeeding income years until the credit is used. The credit shall be applied first to the earliest years possible.

(h) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the current or any prior income year as energy conservation measures under this part.

(i) Energy conservation measures applied in conjunction with solar energy systems to reduce the total cost or backup energy requirement of those systems shall be considered part of the systems, and shall be eligible for the tax credit. Qualified energy conservation measures installed within six months of the date of installation of the solar energy system are considered to be installed "in conjunction with" the solar energy system, even if the period spans two income years. In cases involving more than six months between the dates of installation of the energy conservation measures and the solar energy system, the taxpayer must be able to provide persuasive evidence that the energy conservation measures were in fact installed in conjunction with a solar energy system. Eligible conservation measures applied in conjunction with solar space heating include, but are not limited to, ceiling, wall, and floor insulating above that required by law at the time of original construction. Eligible conservation measures applied in conjunction with solar water heating include, but are not limited to, water heater insulation jackets, and shower and faucet flow reducing devices. Energy conservation measures which shall be eligible for the tax credit when applied in conjunction with solar energy systems shall be defined by the Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(j) Taxpayers who lease a solar energy system installed on premises in California shall receive a tax credit as provided in subdivision (a), if the lessee can confirm, if necessary, by a written document signed by the lessor that (1) the lessor irrevocably elects not to claim a state tax credit for the solar energy system, and (2) if the system is installed in a locality served by a municipal solar utility, that the lessor holds a valid permit from the municipal solar utility. Leasing requirements may be established by the State Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(k) The State Energy Resources Conservation and Development

Commission shall, after one or more public hearings, establish guidelines and criteria for solar energy systems which shall be eligible for the credit provided by this section. These guidelines and criteria may include, but are not limited to, minimum requirements for safety, reliability, and durability of solar energy systems. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section.

(*l*) For purposes of this section, the following definitions shall apply:

(1) "Installed" means placed in a functionally operative state.

(2) "Cost" includes equipment, installation charges, and compensation paid to the owner of burdened property in connection with the acquisition of a solar easement, as defined in Section 801.5 of the Civil Code, and the fees for the recording of the easement. In the case of a system which is leased, "cost" means the principal recovery portion of lease payments, which is the cost incurred by the taxpayer in acquiring the solar energy system, excluding interest charges and maintenance expenses.

"Cost" does not include interest charges and costs associated with the acquisition of an easement other than a solar easement.

(3) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease or easement granting use of the premises, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a duly recorded holder of legal title, or a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(4) "Premises" means the principal stationary location in California where the system is installed for direct use or for purposes of sale of energy, and includes land, easements, and buildings or portions thereof.

(5) "Commercial purposes" means the installation of solar energy systems on premises other than single-family dwellings.

(6) "Single-family dwelling" means single-family residences, mobilehomes, and the individual units of condominiums.

"Single-family dwelling" does not include cooperatives, apartment buildings, or other similar multiple dwellings, including buildings and any other common areas of a condominium maintained by a homeowners association.

(7) (A) "Solar energy system" means the use of solar devices for the individual function of:

(i) Domestic or service water heating.

(ii) Space conditioning.

(iii) Production of electricity.

(iv) Process heat.

(v) Solar mechanical energy.

"Solar energy system" includes, but is not limited to, passive thermal systems, semipassive thermal systems, active thermal systems, and photovoltaic systems.

For purposes of this section, "solar energy system" does not include solar devices for the individual function of wind energy for the production of electricity or mechanical work.

(B) Eligible solar energy systems shall have a useful life of not less than three years.

(8) "Solar device" means the equipment associated with the collection, conversion, transfer, distribution, storage, or control of solar energy. In the case of a solar device associated with two or more solar energy systems, the credit allowed for the solar device may be taken for any one of the systems, or divided equally between them.

(9) "Passive thermal system" means a system which utilizes the structural elements of the building, and is not augmented by mechanical components, to provide for collection, storage, or distribution of solar energy for heating or cooling.

(10) "Active thermal system" means a system which utilizes solar devices thermally isolated from the commercial space to provide for collection, storage, or distribution of solar energy for heating or cooling.

(11) "Semipassive thermal system" means a system which utilizes the structural elements of a building and is augmented by mechanical components to provide for collection, storage, or distribution of solar energy for heating or cooling.

(12) "Municipal solar utility" means a city, county, or municipal utility district, or agency thereof, which sells or leases solar or other energy generating equipment or energy saving devices for residential, commercial, agricultural, or industrial uses or which issues permits to companies engaged in the leasing of this equipment.

(m) The provisions of this section shall not apply to any solar energy system which continues to qualify for the tax credit authorized by former Section 23601 (as amended by Chapter 1200 of the Statutes of 1986) by meeting the eligibility requirements of subdivision (j) of that section.

(n) This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1989, deletes or extends the date. However, any unused credit may be used beyond that date in accordance with subdivision (g).

23603. (a) There shall be allowed as a credit against the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) an amount equal to 55 percent of the cost (including installation charges but excluding interest charges), of a device designed and installed to convert a car or truck, which is registered in this state, to the use of an alcohol fuel consisting of at

least 85 percent methanol or ethanol. The credit allowed by this section shall be claimed in the income year the device is installed and shall not exceed one thousand dollars ($1,000) per vehicle.

(b) For purposes of this section, "device" is any apparatus for installation on a used motor vehicle or truck that requires modification of the engine or pollution control device, or both, so that methanol or ethanol may be used as fuel for the motor vehicle or truck.

(c) The Department of Motor Vehicles shall, upon request, cooperate with the Franchise Tax Board in determining vehicle eligibility under this section.

(d) If a federal income tax credit is enacted for costs incurred by a taxpayer for the purchase and installation of a device described in this section, then to the extent such credit is allowed or allowable, the state credit provided in subdivision (a) shall be reduced by the amount of the federal credit.

(e) That portion of credit under this section which exceeds the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) for the income year may not be carried over and applied to those taxes in succeeding income years.

(H) A requirement that the taxpayer, as security for the performance of taxpayer's obligations under the regulatory agreement, assign the taxpayer's interest in rents which it receives from the project, provided that until there is a default under the regulatory agreement, the taxpayer is entitled to collect and retain the rents.

(I) The remedies available in the event of a default under the regulatory agreement that is not cured within a reasonable cure period, include, but are not limited to, allowing any of the parties designated to enforce the regulatory agreement to collect all rents with respect to the project; taking possession of the project and operate the project in accordance with the regulatory agreement until the enforcer determines the taxpayer is in a position to operate the project in accordance with the regulatory agreement; applying to any court for specific performance, securing the appointment of a receiver to operate the project, or any other relief as may be appropriate.

(j) In allocating the housing credit, the Mortgage Bond Allocation Committee shall give priority to qualified low-income housing projects that satisfy the following criteria, which are weighted according to the numerical order of the paragraphs listed below:

The term "Secretary" shall be replaced by the term "Mortgage Bond Allocation Committee."

(*l*) In the case where the state credit allowed under this section exceeds the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) for the income year, that portion of the credit which exceeds those taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) in succeeding income years, with respect to which this section shall remain in effect for purposes of carrying over excess credit, until the credit is used. The credit shall be applied first to the earliest income years possible.

(m) The aggregate amount of tax credits granted pursuant to this section and Section 17058 shall not exceed thirty-five million dollars ($35,000,000) per year. The Mortgage Bond Allocation Committee shall not authorize any credit if the total amount of credits authorized in any year under the Personal Income Tax Law and the Bank and Corporation Tax Law exceeds thirty-five million dollars ($35,000,000).

(n) This section shall remain in effect only until January 1, 1990, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1990, deletes or extends the date. SEC. 34. Section 23612 of the Revenue and Taxation Code is amended to read:

23612. (a) There shall be allowed as a credit against the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) for the year an amount equal to the sales or use tax paid or incurred by the taxpayer in connection with the purchase of qualified property.

used for fabricating, processing, assembling, and manufacturing and machinery and machinery parts used for the production of renewable energy resources or air or water pollution control mechanisms, up to a value of twenty million dollars ($20,000,000), which, in the case of a taxpayer described in subparagraph (A) of paragraph (1), is used exclusively in a program area, and, in the case of a taxpayer described in subparagraph (B) of paragraph (1), is used exclusively in an enterprise zone.

(c) If the taxpayer has purchased property upon which a use tax has been paid or incurred, the credit provided under subdivision (a) shall be allowed only if qualified property of a comparable quality and price is not timely available for purchase in this state.

(d) In the case where the credit allowed under this section exceeds the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) for the year, that portion of the credit which exceeds those taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) in succeeding years, until the credit is used. The credit shall be applied first to the earliest years possible.

(e) Any taxpayer who elects to be subject to this section shall not be entitled to increase the basis of the property as otherwise required by Section 164(a) of the Internal Revenue Code with respect to sales or use tax paid or incurred in connection with the purchase of qualified property.

(f) In the case of a taxpayer described in subparagraph (A) of paragraph (1) of subdivision (b), the amount of the credit provided by this section shall not in any year exceed the amount of tax which would be imposed on the income attributed to business activities of the taxpayer within the program area (as defined in Section 7082 of the Government Code). The amount of that attributed income shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

The amount of that attributed income shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(h) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

23701m. Section 851 to 855, inclusive, of the Internal Revenue Code, relating to regulated investment companies, shall be applicable for purposes of this chapter, except Section 852(b)(1) of the Internal Revenue Code shall not apply.

SEC. 37. Section 23701n of the Revenue and Taxation Code is amended to read:

23701n. (a) A trust or trusts forming part of a plan providing for the payment of supplemental unemployment compensation benefits, if—

(1) Under the plan, it is impossible, at any time prior to the satisfaction of all liabilities with respect to employees under the plan, for any part of the corpus or income to be (within the income year or thereafter) used for, or diverted to, any purpose other than the providing of supplemental unemployment compensation benefits,

(2) Such benefits are payable to employees under a classification which is set forth in the plan and which is found by the Franchise Tax Board not to be discriminatory in favor of employees who are highly compensated employees within the meaning of Section 414(q) of the Internal Revenue Code, and

(3) Such benefits do not discriminate in favor of employees who are highly compensated employees within the meaning of Section 414(q) of the Internal Revenue Code. A plan shall not be considered discriminatory within the meaning of this clause merely because the benefits received under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of the employees covered by the plan.

(b) In determining whether a plan meets the requirements of subdivision (a), any benefits provided under any other plan shall not be taken into consideration, except that a plan shall not be considered discriminatory—

(1) Merely because the benefits under the plan which are first determined in a nondiscriminatory manner within the meaning of subdivision (a) are then reduced by any sick, accident, or unemployment compensation benefits received under state or federal law (or reduced by a portion of such benefits if determined in a nondiscriminatory manner), or

(2) Merely because the plan provides only for employees who are not eligible to receive sick, accident, or unemployment compensation benefits under state or federal law the same benefits (or a portion of such benefits if determined in a nondiscriminatory manner) which such employees would receive under such laws if such employees were eligible for such benefits, or

(3) Merely because the plan provides only for employees who are not eligible under another plan (which meets the requirements of subdivision (a)) of supplemental unemployment compensation benefits provided wholly by the employer the same benefits (or a portion of such benefits if determined in a nondiscriminatory manner) which such employees would receive under such other plan if such employees were eligible under such other plan, but only

if the employees were eligible under both plans would make a classification which would be nondiscriminatory within the meaning of subdivision (a).

(c) A plan shall be considered to meet the requirements of subdivision (a) during the whole of any year of the plan if on one day in each quarter it satisfies such requirements.

(d) The term "supplemental unemployment compensation benefits" means only—

(1) Benefits which are paid to an employee because of his or her involuntary separation from the employment of the employer (whether or not such separation is temporary) resulting directly from a reduction in force, the discontinuance of a plant or operation, or other similar conditions, and

(2) Sick and accident benefits subordinate to the benefits described in paragraph (1).

(e) Exemption shall not be denied under this article to any organization entitled to such exemption as an association described in Section 23701i merely because such organization provides for the payment of supplemental unemployment benefits (as defined in paragraph (1) of subdivision (d)).

SEC. 38. Section 23701r of the Revenue and Taxation Code is amended to read:

23701r. (a) A political organization. However, a political organization shall be subject to tax under this part with respect to its "political organization taxable income" and such income shall be subject to tax as provided by Chapter 3 (commencing with Section 23501).

(b) For purposes of this section, the political organization taxable income of any organization for any taxable year is an amount equal to the excess over one hundred dollars ($100) (if any) of—

(1) The gross income for the taxable year (excluding any exempt function income), over

(2) The deductions allowed by this part which are directly connected with the production of the gross income (excluding exempt function income).

(c) For purposes of this section, the term "exempt function income" means any amount received as—

(1) A contribution of money or other property,

(2) Membership dues, a membership fee or assessment from a member of the political organization, or

(3) Proceeds from a political fundraising or entertainment event, or proceeds from the sale of political campaign materials, which are not received in the ordinary course of any trade or business,

to the extent such amount is segregated for use only for the exempt function of the political organization.

(d) For purposes of this part, if any political organization—

(1) Contributes any amount to or for the use of any political organization which is treated as exempt from tax under

subdivision (a) of this section,

(2) Contributes any amount to or for the use of any organization described in paragraph (1) or (2) of Section 509(a) of the Internal Revenue Code of 1954, which is exempt from tax under Section 23701, or

(3) Deposits any amount in the General Fund or the Treasury of the United States or in the General Fund of any state or local government,

such amount shall be treated as an amount not diverted for the personal use of the candidate or any other person. No deduction shall be allowed under this part for the contribution or deposit of any amount described in the preceding sentence.

(e) For purposes of this section—

(1) The term "political organization" means a party, committee, association, fund, (including the trust of an individual candidate) or other organization (whether or not incorporated) organized and operated primarily for the purpose of directly or indirectly accepting contributions or making expenditures, or both, for an exempt function.

(2) The term "exempt function" means the function of influencing or attempting to influence the selection, nomination, election, or appointment of any individual to any federal, state, or local public office or office in a political organization, or the election of Presidential or Vice Presidential electors, whether or not such individual or electors are selected, nominated, elected, or appointed.

(3) The term "contributions" has the meaning given to such term by paragraph (2) of subdivision (b) of Section 24434.

(4) The term "expenditures" has the meaning given to such term by paragraph (3) of subdivision (b) of Section 24434.

(f) For purposes of paragraph (1) of subdivision (e), a separate segregated fund (within the meaning of Section 610 of Title 18 of the United States Code or of any similar state statute, or within the meaning of any state statute which permits the segregation of dues money for exempt functions, within the meaning of paragraph (2) of subdivision (e)) which is maintained by an organization described in Sections 23701a through 23701p or Section 23701s which is exempt from tax under Section 23701 shall be treated as a separate organization.

(g) (1) For purposes of this section, a fund established and maintained by an individual who holds, has been elected to, or is a candidate (within the meaning of paragraph (3)) for nomination or election to, any federal, state, or local elective public office for use by such individual exclusively for the preparation and circulation of such individual's newsletter shall, except as provided in paragraph (2), be treated as if such fund constituted a political organization.

(2) In the case of any fund described in paragraph (1) the exempt function shall be only the preparation and circulation of the newsletter.

(3) For purposes of paragraph (1), "candidate" means with

respect to any federal, state, or local elective public office, an individual who does both of the following:

(A) Publicly announces that he or she is a candidate for nomination or election to that office.

(B) Meets the qualifications prescribed by law to hold that office.

(h) The requirements set forth in subdivisions (a), (b) and (c) of Section 23701 shall not apply to a political organization or newsletter fund described in this section. However, in the case of a corporation incorporated or organized in this state or qualified to do business in this state, such corporation shall either pay the minimum tax provided in Section 23153 or obtain a certificate of exemption from the Franchise Tax Board before the corporation files with the Secretary of State its articles of incorporation or a duly certified copy thereof.

(i) The requirements set forth in Section 23772 or Section 23774 shall not apply to a political organization or newsletter fund. Further, the requirements set forth in Sections 18405, 18405.1 and 25401 shall not apply to a political organization or newsletter fund described in this section, except that if it has political organization taxable income for any taxable year, the political organization shall be required to file income tax returns or statements as determined by the Franchise Tax Board under Chapter 3 (commencing with Section 23501).

(1) Under the plan, it is impossible, at any time prior to the satisfaction of all liabilities with respect to employees under the plan, for any part of the corpus or income to be (within the taxable year or thereafter) used for, or diverted to, any purpose other than the providing of benefits under the plan,

(2) Those benefits are payable to employees under a classification which is set forth in the plan and which is found by the Franchise Tax Board not to be discriminatory in favor of employees who are highly compensated employees within the meaning of Section 414(q) of the Internal Revenue Code, and

(3) Those benefits do not discriminate in favor of employees who are highly compensated employees within the meaning of Section 414(q) of the Internal Revenue Code. A plan shall not be considered discriminatory within the meaning of this paragraph merely because the benefits received under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of the employees covered by the plan, and

(4) In the case of a plan under which an employee may designate certain contributions as deductible-

(A) Those contributions do not exceed the amount with respect to which a deduction is allowable under Section 219(b)(3) of the Internal Revenue Code,

(ii) Any voluntary or mandatory registrant under the Greater Avenues for Independence Act of 1985 provided for pursuant to

Article 3.2 (commencing with Section 11320) of Chapter 2 of Part 3 of Division 9 of the Welfare and Institutions Code.

(iii) Any voluntary or mandatory registrant for the Work Incentive Demonstration Program provided for pursuant to Section 11347 of the Welfare and Institutions Code.

(iv) Any voluntary or mandatory registrant for the Employment Preparation Program provided for pursuant to Article 3.5 (commencing with Section 11325) of Chapter 2 of Part 3 of Division 9 of the Welfare and Institutions Code.

(d) For purposes of this section, "qualified employee" means an individual—

(1) At least 90 percent of whose services for the taxpayer during the income year are directly related to the conduct of the taxpayer's trade or business located in an enterprise zone.

(2) Who performs at least 50 percent of his or her services for the taxpayer during the income year in an enterprise zone.

(e) (1) For purposes of this section, all employees of all corporations which are members of the same controlled group of corporations shall be treated as employed by a single employer. In any such case, the credit (if any) allowable by this section to each member shall be determined by reference to its proportionate share of the qualified wages giving rise to the credit. For purposes of this subdivision, "controlled group of corporations" has the meaning given to that term by Section 1563(a) of the Internal Revenue Code, except that—

(A) "More than 50 percent" shall be substituted for "at least 80 percent" each place it appears in Section 1563(a)(1) of the Internal Revenue Code.

(B) The determination shall be made without regard to subsections (a)(4) and (e)(3)(C) of Section 1563 of the Internal Revenue Code.

(2) If an employer acquires the major portion of a trade or business of another employer (hereinafter in this paragraph referred to as the "predecessor") or the major portion of a separate unit of a trade or business of a predecessor, then, for purposes of applying this section (other than subdivision (f)) for any calendar year ending after that acquisition, the employment relationship between an employee and an employer shall not be treated as terminated if the employee continues to be employed in that trade or business.

(f) (1) If the employment of any employee with respect to whom qualified wages are taken into account under subdivision (a) is terminated by the taxpayer at any time during the first 270 days of that employment (whether or not consecutive) or before the close of the 270th calendar day after the day in which that employee completes 90 days of employment with the taxpayer, the tax imposed by this part for the income year in which that employment is terminated shall be increased by an amount equal to the credit allowed under subdivision (a) for that income year and all prior income years attributable to qualified wages paid or incurred with

respect to that employee.

(2) (A) Paragraph (1) shall not apply to any of the following:

(i) A termination of employment of an employee who voluntarily leaves the employment of the taxpayer.

(ii) A termination of employment of an individual who, before the close of the period referred to in paragraph (1), becomes disabled to perform the services of that employment, unless that disability is removed before the close of that period and the taxpayer fails to offer reemployment to that individual.

(iii) A termination of employment of an individual, if it is determined under the applicable unemployment compensation provisions that the termination was due to the misconduct of that individual.

(iv) A termination of employment of an individual due to a substantial reduction in the trade or business operations of the taxpayer.

(v) A termination of employment of an individual, if that individual is replaced by other qualified employees so as to create a net increase in both the number of employees and the hours of employment.

(B) For purposes of paragraph (1), the employment relationship between the taxpayer and an employee shall not be treated as terminated—

(i) By a transaction to which Section 381(a) of the Internal Revenue Code applies, if the employee continues to be employed by the acquiring corporation, or

(ii) By reason of a mere change in the form of conducting the trade or business of the taxpayer, if the employee continues to be employed in that trade or business and the taxpayer retains a substantial interest in that trade or business.

(3) Any increase in tax under paragraph (1) shall not be treated as tax imposed by this part for purposes of determining the amount of any credit allowable under this part.

(g) In the case of—

(1) An organization to which Section 593 of the Internal Revenue Code applies, and

(2) A regulated investment company or a real estate investment trust subject to taxation under this part rules similar to the rules provided in subsections (e) and (h) of Section 46 of the Internal Revenue Code shall apply.

(h) For purposes of this section, "enterprise zone" means an area for which designation as an enterprise zone is in effect under Section 7073 of the Government Code.

(i) The credit shall be reduced by the credit allowed under Section 24330. The credit shall also be reduced by the credit allowed under Section 51 of the Internal Revenue Code.

In addition, no deduction shall be allowed under Section 24343 for that portion of the wages or salaries paid or incurred for the income year upon which the credit allowable under this section is based.

(j) In the case where the credit allowed under this section exceeds the taxes imposed by this part for the year (except the minimum franchise tax and the alternative minimum tax) that portion of the credit which exceeds those taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) in succeeding years for the number of years in which the designation of an enterprise zone under Section 7073 of the Government Code is operative, or 15 income years, if longer, until the credit is used. The credit shall be applied first to the earliest years possible.

(k) The amount of the credit provided by this section shall not in any year exceed the amount of tax which would be imposed on the income attributed to business activities of the taxpayer within the enterprise zone (as defined in Section 7073 of the Government Code). The amount of that attributed income shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(*l*) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

SEC. 66. Section 24333 of the Revenue and Taxation Code is amended to read:

24333. (a) There shall be allowed as a credit against the tax imposed by this part for the year (except the minimum franchise tax and the alternative minimum tax) for the year the amount determined in subdivisions (c) and (d) for a qualified business which hires a qualified employee.

(b) For purposes of this section:

(1) "Qualified business" means a qualified business, as defined in Section 7082 of the Government Code, except that the percentage requirements with respect to employment of residents of a high-density unemployment area shall be applicable only to those employees hired within the 12 months immediately preceding the date that the business seeks certification from the Department of Commerce and not to the entire workforce of the business. A business shall be a qualified business only for the purposes of this section, provided that the Department of Commerce certifies that the business meets the standards set forth in this paragraph.

(2) "Qualified employee" means an employee who has been an unemployed resident of a high density unemployment area (as defined in Section 7082 of the Government Code) prior to being employed by the qualified business. For the purposes of this section, participation by a prospective employee in a state or federally funded job training or work demonstration program shall not constitute employment, or effect the eligibility of an otherwise qualified employee. Qualified employee includes an otherwise qualified employee who is employed by a qualified business in the 90 days prior to its certification by the Department of Commerce as a qualified business for the purpose of becoming eligible for that

certification.

(c) The credit provided for each qualified employee who has been unemployed for at least six months prior to being employed pursuant to subdivision (a) shall be as follows:

(1) Twelve percent of qualified wages for the first six months of employment.

(2) Twelve percent of qualified wages for the second six months of employment.

(3) Seven percent of qualified wages for the second year of employment.

(d) The credit provided for each qualified employee who has been unemployed for at least three months but less than six months prior to being employed shall be 5 percent of qualified wages for the first year of employment; however, the credit for the second year of employment shall be that provided in paragraph (3) of subdivision (c).

(e) For purposes of this section, "qualified wages" means that portion of wages not in excess of 150 percent of the minimum hourly wage paid or incurred by the qualified business during the income year to the qualified employee.

(f) (1) If the employment of any employee with respect to whom qualified wages are taken into account under subdivision (c) is terminated by the taxpayer at any time during the first 270 days of that employment (whether or not consecutive) or before the close of the 270th calendar day after the day in which that employee completes 90 days of employment with the taxpayer, the tax imposed by this part for the income year in which that employment is terminated shall be increased by an amount equal to the credit allowed under subdivision (a) for that income year and all prior income years attributable to qualified wages paid or incurred with respect to that employee.

(2) Paragraph (1) shall not apply to any of the following:

(A) A termination of employment of an employee who voluntarily leaves the employment of the taxpayer.

(B) A termination of employment of an individual who, before the close of the period referred to in paragraph (1), becomes disabled to perform the services of that employment, unless that disability is removed before the close of that period and the taxpayer fails to offer reemployment to that individual.

(C) A termination of employment of an individual, if it is determined under the applicable unemployment compensation provisions that the termination was due to the misconduct of that individual.

(D) A termination of employment of an individual due to a substantial reduction in the trade or business operations of the taxpayer.

(E) A termination of employment of an individual, if that individual is replaced by other qualified employees so as to create a net increase in both number of employees and hours of employment.

(g) In the case where the credit allowed under this section exceeds the taxes imposed by this part for the year (except the minimum franchise tax and the alternative minimum tax) that portion of the credit which exceeds those taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) in succeeding years until the credit is used. The credit shall be applied first to the earliest years possible.

(h) The amount of the credit allowed by this section for any year shall not exceed the amount of tax which would be imposed on the income attributed to business activities of the taxpayer within the program area (as defined in Section 7082 of the Government Code) as if that attributed income represented all of the net income of the taxpayer subject to tax under this part. The amount of that attributed income shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(i) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

24343. A deduction shall be allowed for trade or business expenses and the amount shall be determined in accordance with Section 162 of the Internal Revenue Code, except that Section 162(g) of the Internal Revenue Code, relating to treble damage payments under the antitrust laws, shall not apply with respect to any conviction or plea before January 1, 1971, or to any conviction or plea on or after that date in a new trial following an appeal of a conviction before that date.

24343.2. (a) No deduction shall be allowed under Section 24343 for expenses incurred by a taxpayer with respect to expenditures made at, or payments made to, a club which restricts membership or the use of its services or facilities on the basis of age, sex, race, religion, color, ancestry, or national origin.

(b) A club described in subdivision (a) holding an alcoholic beverage license pursuant to Division 9 (commencing with Section 23000) of the Business and Professions Code, except a club holding an alcoholic beverage license pursuant to Section 23425 thereof, shall

provide on each receipt furnished to a taxpayer a printed statement as follows:

"The expenditures covered by this receipt are nondeductible for state income tax purposes or franchise tax purposes."

(c) For purposes of this section:

(1) "Expenses" means those expenses otherwise deductible under Section 24343, except for subdivision (a), and includes, but is not limited to, club membership dues and assessments, food and beverage expenses, expenses for services furnished by the club, and reimbursements or salary adjustments to officers or employees for any of the preceding expenses.

(2) "Club" means a club as defined in Division 9 (commencing with Section 23000) of the Business and Professions Code, except a club as defined in Section 23425 thereof.

24344. (a) Except as otherwise provided, a deduction for interest paid or accrued and the amount allowed shall be determined in accordance with Section 163 of the Internal Revenue Code.

(b) If income of the taxpayer which is derived from or attributable to sources within this state is determined pursuant to Section 25101 or 25110, the interest deductible shall be an amount equal to interest income subject to apportionment by formula, plus the amount, if any, by which the balance of interest expense exceeds interest and dividend income (except dividends deductible under the provisions of Section 24402 and dividends subject to the deductions provided for in Section 24411 to the extent of those deductions) not subject to apportionment by formula. Interest expense not included in the preceding sentence shall be directly offset against interest and dividend income (except dividends deductible under the provisions of Section 24402 and dividends subject to the deductions provided for in Section 24411 to the extent of those deductions) not subject to apportionment by formula.

(c) Notwithstanding subdivision (b), interest expense incurred for purposes of foreign investments may be offset against dividends deductible under Section 24411.

24344.5. (a) A deduction, determined in accordance with Section 163(e) of the Internal Revenue Code, shall be allowed to the issuer of an original issue discount bond.

(b) For income years beginning on or after January 1, 1987, and before the income year in which the debt obligation matures or is sold, exchanged, or otherwise disposed, the amount deductible under this part shall be the same as the amount deductible on the federal tax return.

(c) The difference between the amount deductible on the federal

tax return and the amount allowable under this part, with respect to obligations issued after December 31, 1984, for income years beginning before January 1, 1987, shall be allowed as a deduction in the income year in which the debt obligation matures or is sold, exchanged, or otherwise disposed.

SEC. 75. Section 24345 of the Revenue and Taxation Code is amended to read:

24345. A deduction shall be allowed for taxes or licenses paid or accrued during the income year, except:

(1) The Government of the United States or any foreign country.

(2) Any state, territory, county, school district, municipality, or other taxing subdivision of any state or territory.

(c) Taxes assessed against local benefits of a kind tending to increase the value of the property assessed, but this does not exclude the allowance as a deduction of so much of the taxes assessed against local benefits as is properly allocable to maintenance or interest charges. Nor does this exclude the allowance of any irrigation or other water district taxes or assessments which are levied for the payment of the principal of any improvement or other bonds for which a general assessment on all lands within the district is levied as distinguished from a special assessment levied on part of the area within the district.

(d) Federal stamp taxes (not described in subdivision (b) or (c)); but this subdivision shall not prevent such taxes from being deducted under Section 24343 (relating to trade or business expenses).

(e) State and local general sales or use taxes. However, there shall be allowed as a deduction, state and local sales or use taxes which are paid or accrued within the income year in carrying on a trade or business or an activity described in Section 212 of the Internal Revenue Code (relating to expenses for production of income). Notwithstanding the preceding sentence, any sales or use tax (except where a tax credit is claimed under Section 23612) which is paid or accrued by the taxpayer in connection with an acquisition or disposition of property shall be treated as part of the cost of the acquired property or, in the case of a disposition, as a reduction in the amount realized on the disposition.

SEC. 76. Section 24349 of the Revenue and Taxation Code is amended to read:

24349. (a) There shall be allowed as a depreciation deduction a reasonable allowance for the exhaustion, wear, and tear (including a reasonable allowance for obsolescence)—

(1) Of property used in the trade or business; or

(2) Of property held for the production of income.

(b) For income years ending after December 31, 1958, the term "reasonable allowance" as used in subdivision (a) shall include (but

shall not be limited to) an allowance computed in accordance with regulations prescribed by the Franchise Tax Board, under any of the following methods:

(1) The straight line method.

(2) The declining balance method, using a rate not exceeding twice the rate which would have been used had the annual allowance been computed under the method described in paragraph (1).

(3) The sum of the years-digits method.

(4) Any other consistent method productive of an annual allowance which, when added to all allowances for the period commencing with the taxpayer's use of the property and including the income year, does not, during the first two-thirds of the useful life of the property, exceed the total of such allowances which would have been used had such allowances been computed under the method described in paragraph (2).

Nothing in this subsection shall be construed to limit or reduce an allowance otherwise allowable under subdivision (a).

(c) For purposes of this part, the deduction for property leased to governments and other tax-exempt entities shall be limited to the amount determined under Section 168(h) of the Internal Revenue Code.

SEC. 77. Section 24357 of the Revenue and Taxation Code is amended to read:

24357. (a) There shall be allowed as a deduction any charitable contribution (as defined in Section 24359) payment of which is made within the income year. A charitable contribution shall be allowable as a deduction only if verified under regulations prescribed by the Franchise Tax Board.

(b) In the case of a bank or corporation reporting its income on the accrual basis, if—

(1) The board of directors authorizes a charitable contribution during any income year; and

(2) Payment of such contribution is made after the close of such income year and on or before the 15th day of the third month following the close of such income year,

then the bank or corporation may elect to treat such contribution as paid during such income year. The election may be made only at the time of the filing of the return for such income year, and shall be signified in such manner as the Franchise Tax Board shall by regulations prescribe.

(c) For purposes of this section, payment of a charitable contribution which consists of a future interest in tangible personal property shall be treated as made only when all intervening interests in, and rights to the actual possession or enjoyment of, the property have expired or are held by persons other than the taxpayer or those standing in a relationship to the taxpayer described in Section 24428. For purposes of the preceding sentence, a fixture which is intended to be severed from the real property shall be treated as tangible personal property.

(d) No deduction shall be allowed under this section for traveling expenses (including amounts expended for meals and lodging) while away from home, whether paid directly or by reimbursement, unless there is no significant element of personal pleasure, recreation, or vacation in that travel.

The deduction shall be allowed for the income year of that corporation or bank in which or with which ends the taxable year in which that amount is included in the gross income of the person who performed those services. (c) For any income year in which the taxpayer has in effect a water's edge election under Section 25110, the deduction of a net operating loss carryover shall be denied to the extent that such net operating loss carryover was determined by taking into account the income and factors of an affiliated bank or corporation in a combined report whose income and apportionment factors would not have been taken into account if a water's edge election under Section 25110 had been in effect for the income year in which the loss was incurred.

(d) Net operating loss carrybacks shall not be allowed.

(2) Any amount paid or accrued on indebtedness incurred on continued to purchase or carry a single premium life insurance, endowment, or annuity contract. This paragraph shall apply in respect of annuity contracts only as to contracts purchased after December 31, 1954.

This paragraph shall apply only in respect of contracts purchased after August 6, 1963.

(4) Any interest paid or accrued on any indebtedness with respect to one or more insurance policies owned by the taxpayer covering the life of any individual who—

(2) If the total of the amounts paid or accrued by such person during such income year for which (without regard to this paragraph) no deduction would be allowable by reason of subsection (a) (3) does not exceed one hundred dollars ($100).

(3) If such amount was paid or accrued on indebtedness incurred because of an unforeseen substantial loss of income or unforeseen substantial increase in its financial obligations, or

(4) If such indebtedness was incurred in connection with its trade or business.

The preceding sentence shall not apply to the extent

that the corporation can demonstrate to the satisfaction of the Franchise Tax Board that such excess is attributable to the cost of borrowing and is not attributable to the conversion feature.

(b) For purposes of this section:

(1) "Qualified housing project" means a project providing rental or cooperative housing for lower income families subject to any of the following with respect to which the owner is, under those sections or regulations issued thereunder limited as to the rate of return on his or her investment in the project, and limited as to rentals or occupancy charges for units in the project:

(A) A mortgage insured by the United States Department of Housing and Urban Development under either Section 202, 213, 221(d)(3), 231, 236, or 608 of the National Housing Act.

(B) A public agency or unit of state or local government.

(C) A limited-equity cooperative formed pursuant to Section 33007.5 of the Health and Safety Code.

(D) A limited partnership, of which a general partner is one of the above qualified entities, or an affiliate thereof, where a majority of the board of directors of the affiliate is appointed or removable by the qualified entity or where the qualified entity owns a majority of the voting shares of the affiliate, so long as the partnership agreement limits the annual rate of return to investors to 8 percent of their capital contributions.

(4) A qualified entity acquiring a qualified housing project shall agree, for the useful life of the project, to all of the following conditions and restrictions:

(A) To assume the obligations imposed by any loan agreement, mortgage, subsidy contract, or regulatory agreement on the project.

(D) Not to evict tenants without a showing of good cause.

(E) Not to arbitrarily discriminate against applicants for admission on the basis of family income or any other basis prohibited by law.

(F) To establish rents for the project not exceeding those required by the terms of any subsidy program utilized at the project or the rent restrictions required by Section 42 of the Internal Revenue Code, whichever is less.

(G) To be subject to continued regulation by federal or state housing agencies or the Department of Housing and Community Development to ensure compliance with these regulatory requirements.

(2) So long as the threshold requirements of Section 42(g) of the Internal Revenue Code are met, where less than all of the units in the project are occupied by tenants whose incomes make the project eligible for the tax credit under Section 42 of the Internal Revenue Code, then the gain shall not be recognized in accordance with the formulas for allocating the low-income housing tax credit, as provided in Section 42 of the Internal Revenue Code.

(d) Upon the receipt of information that a qualified entity is failing to use the project in accordance with the requirements of paragraph (4) of subdivision (b), then the Department of Housing and Community Development shall conduct an investigation of the allegations. If the department determines that the qualified entity is utilizing good faith efforts to use the units in the project to the

maximum extent possible in accordance with the restrictions specified in paragraph (4) of subdivision (b), and it is not economically feasible to utilize all units in that fashion, then the department shall not seek to remedy the alleged violation. If the department determines that there exists an unjustified violation of the restrictions specified in paragraph (4) of subdivision (b), then the department shall pursue whatever remedies are specified by law for that violation, including the imposition of a receivership to operate the project in accordance with the requirements of this section and recovery of a penalty from the qualified entity in the amount of the capital gains tax that was not recognized and penalties and interest for delinquent taxes as otherwise provided by law.

(e) No project on which 50 percent of the capital gains tax has been nonrecognized pursuant to subdivision (c) shall be sold or otherwise disposed of without the prior written approval of the Department of Housing and Community Development. In giving that approval, the department shall ensure that the project shall continue to be subject to the requirements of paragraph (2) of subdivision (b) or that any net proceeds of the sale are utilized for charitable low-income housing purposes. In determining what constitutes the net proceeds of the sale, where the seller is a qualified limited-partnership entity under subparagraph (D) of paragraph (3) of subdivision (b), the Department of Housing and Community Development shall consider the terms of the partnership agreement.

(ii) Who is the spouse of the taxpayer, or who bears a relationship to the taxpayer specified in paragraphs (1) to (9), inclusive, of Section 152(a) of the Internal Revenue Code (relating to definition of dependents), and

(iii) Who is not a minor child of the taxpayer with respect to whom amounts are exempt from levy under paragraph (8) of subdivision (a) for the payroll period.

For purposes of clause (ii) of subparagraph (B) of the preceding sentence, "payroll period" shall be substituted for "taxable year" each place it appears in paragraph (9) of Section 152(a) of the Internal Revenue Code.

(2) In the case of any individual not described in paragraph (1), the amount of the wages, salary, and other income payable to or received by him or her during any applicable pay period or other fiscal period (as determined under regulations prescribed by the Franchise Tax Board) which is exempt from levy under paragraph (9) of subdivision (a) shall be an amount (determined under those regulations) which as nearly as possible will result in the same total exemption from levy for that individual over a period of time as he or she would have under paragraph (1) if during that period of time he or she were paid or received those wages, salary, and other income on a regular weekly basis.

SEC. 230. Section 26491 of the Revenue and Taxation Code is amended to read:

26491. (a) In the case of any civil proceeding which is—

(1) Brought by or against the State of California in connection with the determination, collection, or refund of any tax, interest, or penalty under this part, and

(2) Brought in a court of record of this state, the prevailing party may be awarded a judgment for reasonable litigation costs incurred in that proceeding.

(b) (1) A judgment for reasonable litigation costs shall not be awarded under subdivision (a) unless the court determines that the prevailing party has exhausted the administrative remedies available to that party under this part.

(2) An award under subdivision (a) shall be made only for

reasonable litigation costs which are allocable to the State of California and not to any other party to the action or proceeding.

(3) (A) No award for reasonable litigation costs may be made under subdivision (a) with respect to any declaratory judgment proceeding.

(B) Subparagraph (A) shall not apply to any proceeding which involves the revocation of a determination that the organization is described in Section 23701d.

(4) No award for reasonable litigation costs may be made under subdivision (a) with respect to any portion of the civil proceeding during which the prevailing party has unreasonably protracted that proceeding.

(c) For purposes of this section—

(1) The term "reasonable litigation costs" includes any of the following:

(A) Reasonable court costs.

(B) Based upon prevailing market rates for the kind or quality of services furnished any of the following:

(i) The reasonable expenses of expert witnesses in connection with the civil proceeding, except that no expert witness shall be compensated at a rate in excess of the highest rate of compensation for expert witnesses paid by the State of California.

(ii) The reasonable cost of any study, analysis, engineering report, test, or project which is found by the court to be necessary for the preparation of the party's case.

(iii) Reasonable fees paid or incurred for the services of attorneys in connection with the civil proceeding, except that those fees shall not be in excess of seventy-five dollars ($75) per hour unless the court determines that an increase in the cost of living or a special factor, such as the limited availability of qualified attorneys for the proceeding, justifies a higher rate.

(2) (A) The term "prevailing party" means any party to any proceeding described in subdivision (a) (other than the State of California or any creditor of the taxpayer involved) which—

(i) Establishes that the position of the State of California in the civil proceeding was not substantially justified, and

(ii) (I) Has substantially prevailed with respect to the amount in controversy, or

(II) Has substantially prevailed with respect to the most significant issue or set of issues presented.

(B) Any determination under subparagraph (A) as to whether a party is a prevailing party shall be made—

(i) By the court, or

(ii) By agreement of the parties.

(3) The term "civil proceeding" includes a civil action.

(d) For purposes of this section, in the case of—

(1) Multiple actions which could have been joined or consolidated, or

(2) A case or cases involving a return or returns of the same

taxpayer which could have been joined in a single proceeding in the same court, those actions or cases shall be treated as one civil proceeding regardless of whether such joinder or consolidation actually occurs, unless the court in which such action is brought determines, in its discretion, that it would be inappropriate to treat such actions or cases as joined or consolidated for purposes of this section.

(e) An order granting or denying an award for reasonable litigation costs under subdivision (a), in whole or in part, shall be incorporated as a part of the decision or judgment in the case and shall be subject to appeal in the same manner as the decision or judgment.

(f) For purposes of this section, "position of the State of California" includes either of the following:

(1) The position taken by the State of California in the civil proceeding.

(2) Any administrative action or inaction by the Franchise Tax Board (and all subsequent administrative action or inaction) upon which the proceeding is based.

SEC. 231. Sections 1800 to 1899A, inclusive, of the federal Tax Reform Act of 1986 (Public Law 99-514) enacted numerous technical corrections to provisions of the Internal Revenue Code which are incorporated into Parts 10 (commencing with Section 17001) and 11 (commencing with Section 23001) of Division 2 of the Revenue and Taxation Code by specific reference to portions of the Internal Revenue Code. Unless specifically provided otherwise, those technical corrections made by Public Law 99-514 to the provisions which are incorporated by reference are declaratory of existing law and shall be applied in the same manner as specified in Public Law 99-514.

SEC. 232. (a) The addition of Section 23438 to the Business and Professions Code and Sections 17269 and 24343.2 to the Revenue and Taxation Code by this act is not intended to affect the tax exempt status of any church or other organization which is exempt from taxation under Section 23701d of the Revenue and Taxation Code.

(b) It is not intended that any inference be drawn as the result of the addition of Section 23438 to the Business and Professions Code and Sections 17269 and 24343.2 to the Revenue and Taxation Code that the Legislature intended to preclude administrative regulations by the Franchise Tax Board which disallow business deductions on public policy grounds with respect to expenses incurred before the operative date of those sections. However, as of the operative date of those sections, any administrative regulations adopted by the Franchise Tax Board which are inconsistent with or contrary to those sections shall be of no further force or effect.

(c) The addition of the sections specified in subdivision (b) shall be applied in the computation of taxes for taxable or income years commencing on or after January 1, 1990.

SEC. 233. The Franchise Tax Board shall conduct a study of state

The study shall include options for state conformity to federal law under the Bank and Corporation Tax Law, options for continuing state conformity under the Personal Income Tax Law, tax policy issues, technical issues, and potential impacts upon state revenues. No later than October 1, 1989, the Franchise Tax Board shall submit a report to the Legislature of the results of the study conducted pursuant to this section.

SEC. 237. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 238. The repeal and addition of Chapter 2.5 (commencing with Section 23400) of Part 11 of Division 2 of the Revenue and Taxation Code by Sections 23 and 24 of this act shall become operative on, and be applied only to income years beginning on or after, January 1, 1988.

CHAPTER 1140

An act to amend Section 39005 of the Education Code, relating to school sites.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 25, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 39005 of the Education Code is amended to read:

39005. Before acquiring title to property for a new school site or for an addition to a present site, the governing board of each school district, including districts governed by a city board of education, in order to promote the safety of pupils, comprehensive community planning, and greater educational usefulness of school sites, shall give the State Department of Education written notice of the proposed acquisition and shall submit any information required by the State Department of Education, if the proposed site is within two miles, measured by air line, of that point on an airport runway or a potential runway included in an airport master plan which is nearest the site. If the property is not so located, the State Department of Education shall notify the State Department of Transportation, but the State Department of Transportation is not required to investigate or to respond after receiving notice from the State Department of Education.

Immediately after receiving notice of the proposed acquisition of property which is within two miles, measured by air line, of that point on an airport runway or a potential runway included in an airport master plan which is nearest the site, the State Department of Education shall notify the State Department of Transportation, in writing, of the proposed acquisition. The State Department of Transportation shall make an investigation and report to the State Department of Education within 30 working days after receipt of the notice. If the State Department of Transportation is no longer in operation, the State Department of Education shall, in lieu of notifying the State Department of Transportation, notify the United States Department of Transportation or any other appropriate agency, in writing, of the proposed acquisition for the purpose of obtaining from the department or other agency any information or assistance that it may desire to give.

The State Department of Education shall investigate the proposed site and, within 35 working days after receipt of the notice, shall

submit to the governing board a written report and its recommendations concerning acquisition of the site. The governing board shall not acquire title to the property until the report of the State Department of Education has been received. If the report does not favor the acquisition of the property for a school site or an addition to a present school site, the governing board shall not acquire title to the property until 30 days after the department's report is received and until the department's report has been read at a public hearing duly called after 10 days' notice published once in a newspaper of general circulation within the school district or, if there is no such newspaper, in a newspaper of general circulation within the county in which the property is located.

CHAPTER 1141

An act to amend, repeal, and add Section 1424 of the Health and Safety Code, and to add Section 14022.4 to, the Welfare and Institutions Code, relating to health care facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 25, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1424 of the Health and Safety Code is amended to read:

1424. Citations issued pursuant to this chapter shall be classified according to the nature of the violation and shall indicate the classification on the face thereof.

(a) In determining the amount of the civil penalty, all relevant facts shall be considered, including, but not limited to, the following:

(1) The probability and severity of the risk which the violation presents to the patient's mental and physical condition.

(2) The patient's medical condition.

(3) The patient's mental condition and his or her history of mental disability or disorder.

(4) The good faith efforts exercised by the facility to prevent the violation from occurring.

(5) The licensee's history of compliance with regulations.

(b) Class "AA" violations are violations which meet the criteria for a class "A" violation and which the state department determines to have been a direct proximate cause of death of a patient of a long-term health care facility. A class "AA" violation is subject to a civil penalty in the amount of not less than five thousand dollars ($5,000) and not exceeding twenty-five thousand dollars ($25,000) for each violation. In any action to enforce a citation issued under this subdivision, the state department shall prove all of the following:

(1) The violation was a direct proximate cause of death of a patient.

(2) The death resulted from an occurrence of a nature which the regulation was designed to prevent.

(3) The patient suffering the death was among the class of persons for whose protection the regulation was adopted.

If the state department meets this burden of proof, the licensee shall have the burden of proving that the licensee violating the regulation did what might reasonably be expected of a long-term health care facility licensee, acting under similar circumstances, to comply with the regulation. If the licensee sustains this burden, then the citation may be reduced or dismissed.

For each class "AA" violation within a 12-month period which has become final, the state department shall consider the suspension or revocation of the facility's license in accordance with Section 1294. For a third or subsequent class "AA" violation in a facility within that 12-month period which has been sustained following a citation review conference, the state department shall commence action to suspend or revoke the facility's license in accordance with Section 1294.

(c) Class "A" violations are violations which the state department determines present either (1) imminent danger that death or serious harm to the patients of the long-term health care facility would result therefrom, or (2) substantial probability that death or serious physical harm to patients of the long-term health care facility would result therefrom. A physical condition or one or more practices, means, methods, or operations in use in a long-term health care facility may constitute a class "A" violation. The condition or practice constituting a class "A" violation shall be abated or eliminated immediately, unless a fixed period of time, as determined by the state department, is required for correction. A class "A" violation is subject to a civil penalty in an amount not less than one thousand dollars ($1,000) and not exceeding ten thousand dollars ($10,000) for each and every violation.

If the state department establishes that a violation occurred, the licensee shall have the burden of proving that the licensee violating the regulation did what might reasonably be expected of a long-term health care facility licensee, acting under similar circumstances, to comply with the regulation. If the licensee sustains this burden, then the citation may be reduced or dismissed.

(d) Class "B" violations are violations which the state department determines have a direct or immediate relationship to the health, safety, or security of long-term health care facility patients, other than class "AA" or "A" violations. Unless otherwise determined by the state department to be a class "A" violation pursuant to this chapter and rules and regulations adopted pursuant thereto, any violation of a patient's rights as set forth in Sections 72527 and 73523 of Title 22 of the California Administrative Code, which is determined by the state department to cause or under circumstances

likely to cause significant humiliation, indignity, anxiety, or other emotional trauma to a patient is a class "B" violation. A class "B" violation is subject to a civil penalty in an amount not less than one hundred dollars ($100) and not exceeding one thousand dollars ($1,000) for each and every violation. A citation for a class "B" violation shall specify the time within which the violation is required to be corrected. If the state department establishes that a violation occurred, the licensee shall have the burden of proving that the licensee violating the regulation did what might reasonably be expected of a long-term health care facility licensee, acting under similar circumstances, to comply with the regulation. If the licensee sustains this burden, then the citation may be reduced or dismissed.

If a class "B" violation is corrected within the time specified, no civil penalties shall be imposed, unless it is a second or subsequent violation of the same regulation occurring within the period since and including the previous full annual licensing survey inspection or 12 months, whichever is greater. In no case, shall the period extend beyond 13 months. At the citation review conference, the director's designee may, utilizing the criteria set forth in subdivision (a), waive or reduce the penalty as specified in subdivision (a) of Section 1428, taking into consideration the seriousness of the previous and present violations, the similarity between the two violations, the extent to which there is a direct relationship to the health and safety or security of patients, and the good faith exercised by the licensee in correcting the problem. The decision to waive or not to waive these penalties shall not be reviewable. In the event of any violation under this paragraph, if the state department establishes that a violation occurred, the licensee shall have the burden of proving that the licensee violating the regulation did what might reasonably be expected of a long-term health care facility licensee, acting under similar circumstances, to comply with the regulation. If the licensee sustains this burden, then the citation may be reduced or dismissed.

(e) Any willful material falsification or willful material omission in the health record for a patient of a long-term health care facility is a violation. "Willful material falsification," as used in this section, means any entry in the patient health care record pertaining to the administration of medication, or treatments ordered for the patient, or pertaining to services for the prevention or treatment of decubitus ulcers or contractures, or pertaining to tests and measurements of vital signs, or notations of input and output of fluids, which was made with the knowledge that the records falsely reflect the condition of the resident or the care or services provided.

"Willful material omission," as used in this section, means the willful failure to record any untoward event which has affected the health, safety, or security of the specific patient, and which was omitted with the knowledge that the records falsely reflect the condition of the resident or the care or services provided. A violation of this subdivision may result in a civil penalty not to exceed ten thousand dollars ($10,000), as specified in paragraphs (1) to (3),

inclusive. However, in no case shall the civil penalty be trebled.

(1) The willful material falsification or willful material omission is subject to a civil penalty of not less than two thousand five hundred dollars ($2,500) or more than ten thousand dollars ($10,000) in instances where the health care record is relied upon by a health care professional to the detriment of a patient by affecting the administration of medications or treatments, the issuance of orders, or the development of plans of care. In all other cases, violations of this subdivision are subject to a civil penalty not exceeding two thousand five hundred dollars ($2,500).

(2) Where the penalty assessed is one thousand dollars ($1,000) or less, the violation shall be issued and enforced, except as provided in this subdivision, in the same manner as a class "B" violation, and shall include the right of appeal as specified in Section 1428 and the payment of the minimum fine as specified in subdivision (d) and in Section 1428.1. Where the assessed penalty is in excess of one thousand dollars ($1,000), the violation shall be issued and enforced, except as provided in this subdivision, in the same manner as a class "A" violation, and shall include the right of appeal as specified in Section 1428 and the payment of the minumum fine as specified in Section 1428.1.

Nothing in this section shall be construed as a change in previous law enacted by Chapter 11 of the Statutes of 1985 relative to this paragraph, but merely as a clarification of existing law.

(3) Nothing in this subdivision shall preclude the state department from issuing a class "A" or class "B" citation for any violation which meets the requirements for that citation, regardless of whether the violation also constitutes a violation of this subdivision. However, no single act, omission, or occurrence may be cited both as a class "A" or class "B" violation and as a violation of this subdivision.

(f) The director shall prescribe procedures for the issuance of a notice of violation with respect to violations having only a minimal relationship to patient safety or health.

(g) This section shall become inoperative December 1, 1990, and as of January 1, 1991, is repealed, unless a later enacted statute which becomes operative on or before December 1, 1990, changes or repeals those dates.

SEC. 2. Section 1424 is added to the Health and Safety Code, to read:

1424. Citations issued pursuant to this chapter shall be classified according to the nature of the violation and shall indicate the classification on the face thereof.

(a) In determining the amount of the civil penalty, all relevant facts shall be considered, including, but not limited to, the following:

(1) The probability and severity of the risk which the violation presents to the patient's mental and physical condition.

(2) The patient's medical condition.

(3) The patient's mental condition and his or her history of mental

disability or disorder.

(4) The good faith efforts exercised by the facility to prevent the violation from occurring.

(5) The licensee's history of compliance with regulations.

(b) Class "AA" violations are violations which meet the criteria for a class "A" violation and which the state department determines to have been a direct proximate cause of death of a patient of a long-term health care facility. A class "AA" violation is subject to a civil penalty in the amount of not less than five thousand dollars ($5,000) and not exceeding twenty-five thousand dollars ($25,000) for each violation. In any action to enforce a citation issued under this subdivision, the state department shall prove all of the following:

(1) The violation was a direct proximate cause of death of a patient.

(2) The death resulted from an occurrence of a nature which the regulation was designed to prevent.

(3) The patient suffering the death was among the class of persons for whose protection the regulation was adopted.

If the state department meets this burden of proof, the licensee shall have the burden of proving that the licensee violating the regulation did what might reasonably be expected of a long-term health care facility licensee, acting under similar circumstances, to comply with the regulation. If the licensee sustains this burden, then the citation may be reduced.

For each class "AA" violation within a 12-month period which has become final, the state department shall consider the suspension or revocation of the facility's license in accordance with Section 1294. For a third or subsequent class "AA" violation in a facility within that 12-month period which has been sustained following a citation review conference, the state department shall commence action to suspend or revoke the facility's license in accordance with Section 1294.

(c) Class "A" violations are violations which the state department determines present either (1) imminent danger that death or serious harm to the patients of the long-term health care facility would result therefrom, or (2) substantial probability that death or serious physical harm to patients of the long-term health care facility would result therefrom. A physical condition or one or more practices, means, methods, or operations in use in a long-term health care facility may constitute a class "A" violation. The condition or practice constituting a class "A" violation shall be abated or eliminated immediately, unless a fixed period of time, as determined by the state department, is required for correction. A class "A" violation is subject to a civil penalty in an amount not less than one thousand dollars ($1,000) and not exceeding ten thousand dollars ($10,000) for each and every violation.

(d) Class "B" violations are violations which the state department determines have a direct or immediate relationship to the health, safety, or security of long-term health care facility patients, other

than class "AA" or "A" violations. Unless otherwise determined by the state department to be a class "A" violation pursuant to this chapter and rules and regulations adopted pursuant thereto, any violation of a patient's rights as set forth in Sections 72527 and 73523 of Title 22 of the California Administrative Code, which is determined by the state department to cause or under circumstances likely to cause significant humiliation, indignity, anxiety, or other emotional trauma to a patient is a class "B" violation. A class "B" violation is subject to a civil penalty in an amount not less than one hundred dollars ($100) and not exceeding one thousand dollars ($1,000) for each and every violation. A citation for a class "B" violation shall specify the time within which the violation is required to be corrected.

If a class "B" violation is corrected within the time specified, no civil penalties shall be imposed, unless it is a second or subsequent violation of the same regulation occurring within the period since and including the previous full annual licensing survey inspection or 12 months, whichever is greater. In no case, shall the period extend beyond 13 months. At the citation review conference, the director's designee may, utilizing the criteria set forth in subdivision (a), waive or reduce the penalty as specified in subdivision (a) of Section 1428, taking into consideration the seriousness of the previous and present violations, the similarity between the two violations, the extent to which there is a direct relationship to the health and safety or security of patients, and the good faith exercised by the licensee in correcting the problem. The decision to waive or not to waive these penalties shall not be reviewable.

(e) Any willful material falsification or willful material omission in the health record for a patient of a long-term health care facility is a violation. "Willful material falsification," as used in this section, means any entry in the patient health care record pertaining to the administration of medication, or treatments ordered for the patient, or pertaining to services for the prevention or treatment of decubitus ulcers or contractures, or pertaining to tests and measurements of vital signs, or notations of input and output of fluids, which was made with the knowledge that the records falsely reflect the condition of the resident or the care or services provided.

"Willful material omission," as used in this section, means the willful failure to record any untoward event which has affected the health, safety, or security of the specific patient, and which was omitted with the knowledge that the records falsely reflect the condition of the resident or the care or services provided. A violation of this subdivision may result in a civil penalty not to exceed ten thousand dollars ($10,000), as specified in paragraphs (1) to (3), inclusive. However, in no case shall the civil penalty be trebled.

(1) The willful material falsification or willful material omission is subject to a civil penalty of not less than two thousand five hundred dollars ($2,500) or more than ten thousand dollars ($10,000) in instances where the health care record is relied upon by a health care

professional to the detriment of a patient by affecting the administration of medications or treatments, the issuance of orders, or the development of plans of care. In all other cases, violations of this subdivision are subject to a civil penalty not exceeding two thousand five hundred dollars ($2,500).

(2) Where the penalty assessed is one thousand dollars ($1,000) or less, the violation shall be issued and enforced, except as provided in this subdivision, in the same manner as a class "B" violation, and shall include the right of appeal as specified in Section 1428 and the payment of the minimum fine as specified in subdivision (d) and in Section 1428.1. Where the assessed penalty is in excess of one thousand dollars ($1,000), the violation shall be issued and enforced, except as provided in this subdivision, in the same manner as a class "A" violation, and shall include the right of appeal as specified in Section 1428 and the payment of the minimum fine as specified in Section 1428.1.

Nothing in this section shall be construed as a change in previous law enacted by Chapter 11 of the Statutes of 1985 relative to this paragraph, but merely as a clarification of existing law.

(3) Nothing in this subdivision shall preclude the state department from issuing a class "A" or class "B" citation for any violation which meets the requirements for that citation, regardless of whether the violation also constitutes a violation of this subdivision. However, no single act, omission, or occurrence may be cited both as a class "A" or class "B" violation and as a violation of this subdivision.

(f) The director shall prescribe procedures for the issuance of a notice of violation with respect to violations having only a minimal relationship to patient safety or health.

(g) This section shall become operative December 1, 1990.

SEC. 3. Section 14022.4 is added to the Welfare and Institutions Code, to read:

14022.4. (a) Any skilled nursing or intermediate care facility currently certified to participate in the Medi-Cal program may not voluntarily withdraw from the program unless all of the following conditions are met:

(1) The facility shall file with the department a notice of intent to withdraw from the Medi-Cal program.

(2) Except for patients to be transferred or discharged only for medical reasons, or for patients' welfare or that of other patients, or for nonpayment for his or her stay, the facility shall not subsequently evict any Medi-Cal recipient or private pay patient residing in the facility at the time the notice of intent to withdraw from the Medi-Cal program is filed.

(3) Patients admitted to the facility on or after the date of the notice of intent to withdraw from the Medi-Cal program shall be advised orally and in writing of both the following:

(A) That the facility intends to withdraw from the Medi-Cal program.

(B) That notwithstanding Section 14124.7, the facility is not required to keep a new resident who converts from private pay to Medi-Cal.

(b) Subdivision (a) shall not apply to facilities that have filed, prior to May 1, 1987, a notice of intent to withdraw from the Medi-Cal program.

(c) The department shall notify the appropriate substate ombudsmen monthly as to which facilities have filed a notice of intent to withdraw from the Medi-Cal program. This information shall also be made available to the public and noted in facility files available in each district office.

(d) The facility may formally withdraw from the Medi-Cal program when all patients residing in the facility at the time the facility filed the notice of intent to withdraw from the Medi-Cal program no longer reside in the facility.

(e) If a skilled nursing or intermediate care facility that has withdrawn as a Medi-Cal provider pursuant to this section subsequently reapplies to the department to become a Medi-Cal provider, the department shall require as a condition of becoming a Medi-Cal provider that the facility enter into a five-year Medi-Cal provider contract with the department.

(f) (1) This section shall be inoperative in the event federal law or federal or state appellate judicial decisions prohibit implementation or invalidate any part of this section.

(2) In the event of any occurrence which renders this section inoperative pursuant to paragraph (1), the department shall within 30 days, report that information to the Legislature.

(g) (1) This section does not apply to any skilled nursing facility or intermediate care facility which ceases operations entirely.

(2) For purposes of this subdivision, "ceases operations entirely" means not being in operation for a period of not less than 12 months.

SEC. 4. (a) The Director of Health Services shall report to the Legislature by January 1, 1990, on the impact of the amendment of subdivisions (b), (c), and (d) of Section 1424 of the Health and Safety Code by Section 1 of this act on the ability of the State Department of Health Services to carry out its mandated responsibilities relating to long-term health care facility regulation.

(b) The purpose of the report required by this section is to ensure that the amendment of subdivisions (b), (c), and (d) of Section 1424 of the Health and Safety Code by this act shall only be allowed to continue if these changes do not result in the public's interest being harmed. In evaluating the public's interest, consideration shall be given to the imposition of an undue burden on the regulatory enforcement process, such as creating inordinate delays in processing enforcement actions, requiring the use of excessive departmental staff time or resources for contesting appeals and civil actions, and the reasonableness and fairness of the regulatory enforcement process.

(c) The report shall include specific data on all of the following:

(1) The number of appeals to citation review conferences filed by long-term health care facilities and the outcome of the appeals for:

(A) Twelve months preceding enactment of this section.

(B) Twenty-four months subsequent to enactment of this section, broken down into the number of appeals filed under subdivisions (b), (c), and (d) of the Health and Safety Code, as amended by Section 1 of this act.

(2) The number of civil actions filed in municipal court by long-term health care facilities and the outcome of the cases for:

(A) Twelve months preceding enactment of this section.

(B) Twenty-four months subsequent to enactment of this section, broken down into the number of appeals filed under subdivisions (b), (c), and (d) of the Health and Safety Code, as amended by Section 1 of this act.

(3) Increase in staff time and resources associated with appeals and civil actions filed under subdivisions (b), (c), and (d) of the Health and Safety Code, as amended by Section 1 of this act.

(4) Impact of appeals and civil actions filed under subdivisions (b), (c), and (d) of the Health and Safety Code, as amended by Section 1 of this act, on the length of time to resolve an appeal.

(5) Impact that appeals and civil actions filed under subdivisions (b), (c), and (d) of the Health and Safety Code, as amended by Section 1 of this act, have on the department's ability to assess fines and enforce long-term health care facility regulations.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the fundamental statutory revisions affecting the quality of care rendered in California long-term health care facilities take effect at the earliest possible time, it is necessary that this act go into immediate effect.

CHAPTER 1142

An act to add Section 1254.5 to the Health and Safety Code, relating to health.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 25, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1254.5 is added to the Health and Safety Code, to read:

1254.5. (a) The Legislature finds and declares that the disease of eating disorders is not simply medical or psychiatric, but involves biological, sociological, psychological, family, medical, and spiritual

components. In addition, the Legislature finds and declares that the treatment of eating disorders is multifaceted, and like the treatment of chemical dependency, does not fall neatly into either the traditional medical or psychiatric milieu.

(b) The inpatient treatment of eating disorders shall be provided only in state licensed hospitals, which may be general acute care hospitals as defined in subdivision (a) of Section 1250, acute psychiatric hospitals as defined in subdivision (b) of Section 1250, or any other licensed health facility designated by the State Department of Health Services.

(c) "Eating disorders," for the purposes of this section, means anorexia nervosa and bulimia as defined by the 1980 Diagnostic and Statistical Manual of Mental Disorders (DSM-III) published by the American Psychiatric Association.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1143

An act to add Section 49427 to the Education Code, relating to school health services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 49427 is added to the Education Code, to read:

49427. (a) It is the intent of the Legislature that the governing board of each school district and each county superintendent of schools maintain fundamental school health services at a level that is adequate to accomplish all of the following:

(1) Preserve pupils' ability to learn.

(2) Fulfill existing state requirements and policies regarding pupils' health.

(3) Contain health care costs through preventive programs and education.

(b) The Legislature finds and declares that the provision of these services may be in jeopardy due to the current caseloads in the public schools, and that failure to maintain adequate health services and standards will result in pupils' poorer health and ability to learn.

(c) The State Department of Health Services shall conduct a

study to:

(1) Ascertain the level of compliance by school districts and county offices of education with existing mandated school health services including, but not limited to, vision and hearing screenings, immunizations, scoliosis screenings, child health programs, disability prevention programs, and special education health assessments.

(2) Evaluate the extent to which other medically prudent services are being provided which enable a pupil to learn or preserve a pupil's ability to learn including, but not limited to, health and developmental assessments, specialized physical health care services, health maintenance planning, substance abuse intervention and referral procedures, and health care and nutrition instruction.

(d) The State Department of Health Services shall analyze existing records submitted to state agencies by school districts and shall additionally assess the health services in a representative sampling of school districts and county offices of education to include, but not be limited to, those considered urban, rural, high wealth, low wealth, increasing enrollment, decreasing enrollment, and districts with no health services available as of December 31, 1986, and districts utilizing federal funds and community resources for the provision of these services.

(e) The State Department of Health Services shall evaluate services in kindergarten and grades 1 to 12, inclusive.

(f) In conducting the study, the State Department of Health Services shall consult with professionals and organizations closely associated with children's school health programs to include, but not be limited to, health supervisors, the California School Nurses Organization, the American Academy of Pediatricians, the California Conference of Local Health Officers, the California School Boards Association, and the State Department of Education.

(g) The report shall be made available to the Governor, the Legislature, the Superintendent of Public Instruction, and the public no later than July 30, 1988.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to maintain a cost-effective and preventive health program for California's pupils and in order to assess school children's health services as soon as possible, it is necessary that this act take effect immediately.

CHAPTER 1144

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that California retailers are subject to unfair competition and are at a competitive disadvantage because interstate mail order retailers are not presently required to collect use tax from their California customers. The Legislature further finds and declares that fair and equitable administration of the Sales and Use Tax Law and effective collection of existing tax liability requires that retailers located out of this state who engage in mail order sales or utilize electronic media collect tax from California consumers.

SEC. 2. The Legislature also finds and declares that the prepayment threshold for the collection of tax under the Sales and Use Tax Law has not been increased since 1966, thereby causing a hardship to California's small businesses, and that the threshold for this tax prepayment should be adjusted to reflect the increase in the Consumer Price Index since 1966.

SEC. 3. Section 6203 of the Revenue and Taxation Code is amended to read:

6203. Except as provided by Sections 6292 and 6293, every retailer engaged in business in this state and making sales of tangible personal property for storage, use, or other consumption in this state, not exempted under Chapter 3.5 (commencing with Section 6271) or Chapter 4 (commencing with Section 6351), shall, at the time of making the sales or, if the storage, use, or other consumption of the tangible personal property is not then taxable hereunder, at the time the storage, use, or other consumption becomes taxable, collect the tax from the purchaser and give to the purchaser a receipt therefor in the manner and form prescribed by the board.

As respects leases constituting sales of tangible personal property, the tax shall be collected from the lessee at the time amounts are paid by the lessee under the lease.

"Retailer engaged in business in this state" as used in this and the preceding section means and includes any of the following:

(f) Any retailer owned or controlled by the same interests which own or control any retailer engaged in business in the same or a similar line of business in this state.

(g) Any retailer having a franchisee or licensee operating under its trade name if the franchisee or licensee is required to collect the tax under this section.

(h) Any retailer who, pursuant to a contract with a cable television operator located in this state, solicits orders for tangible personal property by means of advertising which is transmitted or distributed over a cable television system in this state.

SEC. 4. Section 6471 of the Revenue and Taxation Code is amended to read:

6471. (a) Upon written notification by the board, any person whose estimated measure of tax liability under this part averages fifty thousand dollars ($50,000) or more per month, as determined by the board, shall, without regard to the measure of tax in any one month make prepayments as prescribed in this section.

(B) Ninety-five percent of the amount of state and local tax liability for the second monthly period of the quarterly period, plus 50 percent of 95 percent of the amount of the liability for the second monthly period of the quarterly period.

(b) Persons engaged in their present business during all of the

corresponding quarterly period of the preceding year, or persons who are successors to a business which was in operation during all of that quarterly period, may satisfy the above monthly prepayment requirements for the first, third, and fourth calendar quarters by payment of an amount equal to one-third of the measure of tax liability reported on the return or returns filed for that quarterly period of the preceding year multiplied by the state and local tax rate in effect during the month for which the prepayment is made.

These persons may satisfy their prepayment requirements for the second calendar quarter by making a first prepayment of an amount equal to one-third of the measure of tax liability reported, and a second prepayment of an amount equal to one-half of the measure of tax liability reported, on the return or returns filed for that quarterly period of the preceding year multiplied by the state and local tax rate in effect during the month for which the prepayment is made.

(a) In the first, third, and fourth calendar quarters, on or before the 24th day next following the end of each of the first two monthly periods of each quarterly period.

(b) In the second calendar quarter as follows:

(1) The first prepayment on or before the 24th day next following the end of the first monthly period of each quarterly period.

(2) The second prepayment on or before the 23rd day of the third monthly period of each quarterly period for the second monthly period and the first 15 days of the third monthly period of each quarterly period.

SEC. 6. Section 6474 of the Revenue and Taxation Code is amended to read:

6474. In determining whether a person's estimated measure of tax liability averages fifty thousand dollars ($50,000) or more per month for purposes of Section 6471, the board may consider tax returns filed pursuant to this part as well as any information in the board's possession or which may come into its possession.

SEC. 7. Section 6477 of the Revenue and Taxation Code is amended to read:

6477. Any person required to make a prepayment pursuant to Section 6471 who fails to make a prepayment before the last day of the monthly period following the quarterly period in which the prepayment became due and who files a timely return and payment for the quarterly period in which the prepayment became due shall also pay a penalty of 6 percent of the amount equal to 90 percent or

95 percent of the tax liability, as prescribed by that section, for each of the periods during that quarterly period for which a required prepayment was not made.

SEC. 8. Sections 4 to 7, inclusive, of this act shall become operative only if the Attorney General certifies to the Legislature and to the Executive Secretary of the State Board of Equalization that subdivisions (d), (e), (f), and (g) of Section 6203 of the Revenue and Taxation Code, as added by this act, are legally enforceable under the United States Constitution, as determined by a final adjudication in the courts, and the Department of Finance certifies to the Legislature that revenues attributable to those subdivisions are being remitted to the State Board of Equalization, in which case those sections of this act shall become operative on the first day of the second calendar quarter commencing after the date of that certification.

CHAPTER 1146

An act to amend Sections 17701 and 39250 of, and to add Section 39141.4 to, the Education Code, relating to school buildings.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Hughes Earthquake Safety Act of 1987.

The purpose of this act is to ensure that no public school pupils are housed in unsafe school buildings after September 1, 1990.

SEC. 2. Section 17701 of the Education Code is amended to read:

17701. (a) The Legislature hereby declares that it is in the interest of the state and the people thereof for the state to reconstruct, remodel, or replace existing school buildings that are

educationally inadequate or that do not meet present-day structural safety requirements, and to acquire new schoolsites and buildings for the purpose of making them available to local school districts for the pupils of the public school system, that system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

(b) In order to expedite the elimination of the use of nonconforming school buildings that are used or designed to be used for instructional purposes or intended to be entered by pupils, the State Allocation Board may establish criteria that considers special circumstances under which funds may be allocated for the reconstruction of nonconforming buildings. The funds allocated in accordance with this section shall not exceed 75 percent of the cost of facility replacement.

SEC. 3. Section 39141.4 is added to the Education Code, to read:

39141.4. Notwithstanding any provision of law except Section 39250, a leased building that does not meet the requirements of Section 39140 may not be used as a school building, as defined in Section 39141, after September 1, 1990.

SEC. 4. Section 39250 of the Education Code is amended to read:

39250. The governing board of a school district may:

(a) Lease buildings and other facilities such as administrative offices, warehouses, athletic facilities, outdoor assembly facilities, auditoriums, quarters for adult education, transportation facilities, and communication facilities, for a period of not to exceed 16 years.

(b) Lease property from the federal government, the state, or any county, city and county, city, or district for the purpose of constructing school buildings and facilities thereon.

Any building leased or lease-purchased, shall be deemed the construction or alteration of a school building, as those terms are used in Article 3 (commencing with Section 39140). The governing board of a school district may request and obtain from the State Allocation Board authority for use of any such building not meeting the structural standards prescribed by Article 3 (commencing with Section 39140) for a maximum of three years upon presentation of satisfactory evidence to the State Allocation Board that the district is proceeding in a timely manner with a construction program that will eliminate the need for the leased facilities within that time period. A building or facility used by a school district under a lease or lease-purchase agreement into which neither pupils nor teachers are required to enter or that would be excluded from the meaning of "school building," as defined in Section 39214, shall not be considered to be a "school building" within the meaning of Section 39141.

CHAPTER 1147

An act to amend Section 12034 of, and to add Sections 246.1 and 12022.55 to, the Penal Code, relating to crime, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 246.1 is added to the Penal Code, to read:

246.1. (a) Except as provided in subdivision (f), upon the conviction of any person found guilty of murder in the first or second degree, manslaughter, attempted murder, assault with a deadly weapon, or the unlawful discharge or brandishing of a firearm from or at an occupied vehicle where the victim was killed, attacked, or assaulted from or in a motor vehicle by the use of a firearm on a public street or highway, the court shall order a vehicle used in the commission of that offense sold.

Any vehicle ordered to be sold pursuant to this subdivision shall be surrendered to the sheriff of the county or the chief of police of the city in which the violation occurred. The officer to whom the vehicle is surrendered shall promptly ascertain from the Department of Motor Vehicles the names and addresses of all legal and registered owners of the vehicle and within five days of receiving that information, shall send by certified mail a notice to all legal and registered owners of the vehicle other than the defendant, at the addresses obtained from the department, informing them that the vehicle has been declared a nuisance and will be sold or otherwise disposed of pursuant to this section, and of the approximate date and location of the sale or other disposition. The notice shall also inform any legal owner of its right to conduct the sale pursuant to subdivision (b).

(b) Any legal owner which in the regular course of its business conducts sales of repossessed or surrendered motor vehicles may take possession and conduct the sale of the vehicle if it notifies the officer to whom the vehicle is surrendered of its intent to conduct the sale within 15 days of the mailing of the notice pursuant to subdivision (a). Sale of the vehicle pursuant to this subdivision may be conducted at the time, in the manner, and on the notice usually given by the legal owner for the sale of repossessed or surrendered vehicles. The proceeds of any sale conducted by the legal owner shall be disposed of as provided in subdivision (d).

(c) If the legal owner does not notify the officer to whom the vehicle is surrendered of its intent to conduct the sale as provided in subdivision (b), the officer shall offer the vehicle for sale at public auction within 60 days of receiving the vehicle. At least 10 days but not more than 20 days prior to the sale, not counting the day of sale,

the officer shall give notice of the sale by advertising once in a newspaper of general circulation published in the city or county, as the case may be, in which the vehicle is located, which notice shall contain a description of the make, year, model, identification number, and license number of the vehicle, and the date, time, and location of the sale. For motorcycles, the engine number shall also be included. If there is no newspaper of general circulation published in the county, notice shall be given by posting a notice of sale containing the information required by this subdivision in three of the most public places in the city or county in which the vehicle is located and at the place where the vehicle is to be sold for 10 consecutive days prior to and including the day of the sale.

(d) The proceeds of a sale conducted pursuant to this section shall be disposed of in the following priority:

(1) To satisfy the costs of the sale, including costs incurred with respect to the taking and keeping of the vehicle pending sale.

(2) To the legal owner in an amount to satisfy the indebtedness owed to the legal owner remaining as of the date of sale, including accrued interest or finance charges and delinquency charges.

(3) To the holder of any subordinate lien or encumbrance on the vehicle to satisfy any indebtedness so secured if written notification of demand is received before distribution of the proceeds is completed. The holder of a subordinate lien or encumbrance, if requested, shall reasonably furnish reasonable proof of its interest, and unless it does so on request is not entitled to distribution pursuant to this paragraph.

(4) To any other person who can establish an interest in the vehicle, including a community property interest, to the extent of his or her provable interest.

(5) The balance, if any, to the city or county in which the violation occurred, to be deposited in a special account in its general fund to be used exclusively to pay the costs or a part of the costs of providing services or education to prevent juvenile violence.

The person conducting the sale shall disburse the proceeds of the sale as provided in this subdivision, and provide a written accounting regarding the disposition to all persons entitled to or claiming a share of the proceeds, within 15 days after the sale is conducted.

(e) If the vehicle to be sold under this section is not of the type that can readily be sold to the public generally, the vehicle shall be destroyed or donated to an eleemosynary institution.

(f) No vehicle may be sold pursuant to this section in either of the following circumstances:

(1) The vehicle is stolen, unless the identity of the legal and registered owners of the vehicle cannot be reasonably ascertained.

(2) The vehicle is owned by another, or there is a community property interest in the vehicle owned by a person other than the defendant and the vehicle is the only vehicle available to the defendant's immediate family which may be operated on the highway with a class 3 or class 4 driver's license.

(g) A vehicle is used in the commission of a violation of the offenses enumerated in subdivision (a) if a firearm is discharged either from the vehicle at another person or by an occupant of a vehicle other than the vehicle in which the victim is an occupant.

SEC. 2. Section 12022.55 is added to the Penal Code, to read:

12022.55. Notwithstanding Section 12022.5, any person who, with the intent to inflict great bodily injury or death, inflicts great bodily injury, as defined in Section 12022.7, or causes the death of a person, other than an occupant of a motor vehicle, as a result of discharging a firearm from a motor vehicle in the commission of a felony or attempted felony, shall, upon conviction of the felony or attempted felony, in addition and consecutive to the punishment prescribed for the felony or attempted felony of which he or she has been convicted, be punished by an additional term of imprisonment in the state prison for five years.

SEC. 3. Section 12034 of the Penal Code is amended to read:

12034. (a) It is a misdemeanor for a driver of any motor vehicle or the owner of any motor vehicle, whether or not the owner of the vehicle is occupying the vehicle, knowingly to permit any other person to carry into or bring into the vehicle a firearm in violation of Section 12031 of this code or Section 2006 of the Fish and Game Code.

(b) Any driver or owner of any vehicle, whether or not the owner of the vehicle is occupying the vehicle, who knowingly permits any other person to discharge any firearm from the vehicle is punishable by imprisonment in the county jail for not more than one year or in state prison for 16 months or two or three years.

(c) Any person who willfully and maliciously discharges a firearm from a motor vehicle at another person other than an occupant of a motor vehicle is guilty of a felony punishable by imprisonment in state prison for three, five, or seven years.

(d) Except as provided in Section 3002 of the Fish and Game Code, any person who willfully and maliciously discharges a firearm from a motor vehicle is guilty of a public offense punishable by imprisonment in the county jail for not more than one year or in the state prison.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

Additionally, no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make the shooting of motorists on this state's public streets and highways a serious felony offense, and in order to deter persons from violent actions upon our public streets and highways, it is essential that this act take effect immediately.

CHAPTER 1148

institution shall be available on the second business day after the business day on which those funds are deposited in the case of a cashier's check, certified check, teller's check, or depository check subject to the following:

(1) The check is endorsed only by the person to whom it was issued.

(2) The check is deposited in a receiving depository institution which is staffed by individuals employed by that institution.

(3) The check is deposited with a special deposit slip which indicates it is a cashier's check, certified check, teller's check, or depository check, as the case may be.

(4) The check is deposited into an account in the name of a customer which has maintained any account with the receiving depository institution for a period of 60 days or more.

(5) The face amount of the check is for five thousand dollars ($5,000) or less.

In the case of funds deposited on any business day in an account at a depository institution by depository checks, the aggregate amount of which exceeds five thousand dollars ($5,000), this subdivision shall apply only with respect to the first five thousand dollars ($5,000) of the aggregate amount.

(b) Subdivision (a) does not apply to a depository check if the receiving depository institution reasonably believes that the check is uncollectible from the originating depository institution. For purposes of this subdivision, "reasonable cause to believe" requires the existence of facts which would cause a well-grounded belief in the mind of a reasonable person. These reasons shall include, but not be limited to, a belief that (1) the drawer or drawee of the depository check has been, or will imminently be, adjudicated a bankrupt or placed in receivership or (2) the depository check may be involved in a fraud or in a scheme commonly known as "kiting." In these situations, the depository institution electing to proceed under this subdivision shall so notify the drawer and drawee no later than the close of the next business day following deposit of the depository check.

(c) For purposes of this section the following terms have the following meaning:

(A) The check is drawn on a depository institution.

(B) The check is signed by an officer or employee of the depository institution.

(C) The check is a direct obligation of the depository institution.

(A) That the signature on the check is genuine.

(B) The depository institution has set aside funds which are equal to the amount of the check and will be used only to pay that check.

(5) "Depository check" means any cashier's check, certified check, teller's check, and any other functionally equivalent instrument, as determined by the Board of Governor's of the Federal Reserve System or the Superintendent of Banks.

(6) "Depository institution" has the meaning given in clauses (i) through (vi) of Section 19(b)(1)(A) of the Federal Reserve Act.

(7) "Teller's check" means any check issued by a depository institution and drawn on another depository institution.

(d) Except for the specific circumstances and checks described in this section, this section is not intended to restrict or preempt the regulatory authority of the Superintendent of Banks, Savings and Loan Commissioner, or Commissioner of Corporations.

(e) In the event of a suspension or modification of any similar provisions in the federal Expedited Funds Availability Act, the effect of this section shall be similarly suspended or modified.

SEC. 2. It is the intent of the Legislature that the term "account," as defined in paragraph (1) of subdivision (c) of Section 867 of the Financial Code, is not intended to, nor does it apply to, investment thrift certificate accounts of industrial loan companies.

maintenance of that separate interest as may be occasioned by the presence of wood-destroying pests or organisms. Upon approval of the majority of all members of the association, the responsibility for such repair and maintenance may be delegated to the association, which shall be entitled to recover the cost thereof as a special assessment.

(c) The costs of temporary relocation during the repair and maintenance of the areas within the responsibility of the association shall be borne by the owner of the separate interest affected.

(d) (1) The association may cause the temporary, summary removal of any occupant of a common interest development for such periods and at such times as may be necessary for prompt, effective treatment of wood-destroying pests or organisms.

(f) Notwithstanding the provisions of the declaration, the owner of a separate interest is entitled to reasonable access to the common areas for the purpose of maintaining the internal and external telephone wiring made part of the exclusive use common areas of a separate interest pursuant to paragraph (2) of subdivision (i) of Section 1351. The access shall be subject to the consent of the association, whose approval shall not be unreasonably withheld, and which may include the association's approval of telephone wiring upon the exterior of the common areas, and other conditions as the association determines reasonable.

CHAPTER 1154

An act to add Sections 17740.6, 17740.7, 17740.8, 17740.9, and 17741.8 to the Education Code, relating to school construction, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) Many areas of the state now face a desperate need for new neighborhood school facilities to relieve the severe overcrowding resulting from tremendous pupil population growth. Since the most crowded schools are often located in densely populated areas with little or no vacant or underdeveloped land available for new schools or additions to existing schools, locating new school projects often results in the dislocation and disruption of the very communities the new facilities are designed to serve.

(b) The purpose of this act is to encourage school districts to balance the need for new school facilities with the difficulties caused by taking large sites in highly populated areas by offering incentives to school districts to acquire sites that are substantially smaller than those currently provided for under existing state guidelines. These incentives would do all of the following:

(1) Provide sufficient resources to allow multistory or other designs for facilities that would reduce the size of a site and thereby reduce the number of local residents displaced, while ensuring that the new school facilities constructed thereon will be equivalent to those constructed other than pursuant to this act.

(2) Allow school districts reasonable regulatory and fiscal flexibility so they can take advantage of the provisions of this act without delaying the construction of new facilities.

(3) Ensure that the long-term costs of this act do not impose any additional fiscal burden on the state by funding the payments provided for in this act from the savings generated by reducing the size of the sites that would need to be purchased with state funds.

(4) Ensure that the State Allocation Board exercises reasonable regulatory discretion in the interpretation and application of the projects built under the provisions of this act.

SEC. 2. Section 17740.6 is added to the Education Code, to read:

17740.6. (a) For any school of two or more stories, the project funding provided under this chapter shall include, at the request of the applicant district, the costs of any or all of the following:

(1) Compliance with applicable requirements of law for fire

safety, and for handicapped access, as a result of the multistory design.

(2) Playground apparatus.

(3) Duct shafts, utility tunnels, and pipe conduit chases.

(4) Security items required as a result of the multistory design.

(b) In calculating the maximum project funding that may be allocated for parking, landscaping, and other general school site improvements, which calculation is determined in proportion to the total building cost or area approved for funding under the project, the total building cost or area approved for funding under the project shall be computed by the board to include any increase in project building area, as authorized under Section 17741.8. The applicant district shall provide the board information on how the supplemental project funding will be allocated to relieve the effects resulting from less than the specified land area for the school site.

(c) This section shall apply to any application for project funding under this chapter for which the final apportionment for construction of the project had not been made on or prior to December 1, 1987.

(d) For any project approved under this chapter, the amount of project funding granted by the board shall include the actual and reasonable costs incurred by any applicant district for the revision of its project application for the purpose of qualifying for supplemental project funding as authorized by this section.

SEC. 3. Section 17740.7 is added to the Education Code, to read:

17740.7. Notwithstanding any other provision of this article, the board shall provide that building area for enclosed hallways in the second or higher story of any building shall be counted as two-thirds of the actual area. For purposes of this section "enclosed hallways" includes, but is not limited to, all of the following:

(a) Covered passages, arcades, shelters, porches, and planting areas.

(b) Enclosed covered areas that provide shelter between buildings that are 20 feet or more apart.

(c) Sun control devices designed and located to function in lieu of covered walks or other shelters.

(d) Mezzanines used for storage purposes.

SEC. 4. Section 17740.8 is added to the Education Code, to read:

17740.8. Where an applicant district that is eligible under this chapter for project funding of new construction of school facilities on an existing school site, which site has less than 50 percent of the land recommended under State Department of Education guidelines, as published in the School Site Analysis and Development Handbook in effect on January 1, 1987, the area of allowable new building construction for that project shall be increased by the square footage of any existing one-story school facility or facilities to be replaced under the project by one or more multistory school facilities.

SEC. 5. Section 17740.9 is added to the Education Code, to read:

17740.9. (a) (1) The board shall allocate the amount calculated

under subdivision (b), in addition to any other project funding authorized under this chapter, to each project funded under this chapter for which the resulting pupil density will exceed the following:

(A) For a project for kindergarten or any of the grades 1 to 6, inclusive, 90 pupils per acre.

(B) For a project for a junior high school project, 80 pupils per acre.

(C) For a project for a senior high school project, 70 pupils per acre.

(2) For any new construction project, pupil density shall be computed, for purposes of paragraph (1), by dividing the number of units of estimated average daily attendance for the project, including those to be served by relocatable structures, by the acreage of the project site.

(3) For any project for the construction of additional facility space on an existing school site or on land acquired that is adjacent to an existing school site, pupil density shall be computed, for purposes of paragraph (1), by adding the number of units of estimated average daily attendance for the project to the number of units of average daily attendance for the existing school facilities, and dividing that sum by the total site acreage for the project and the existing school facilities.

(b) The supplemental project funding authorized under this section shall be calculated by dividing the actual pupil density for the project, as calculated under subdivision (a), by the threshold pupil density for the project as set forth in that subdivision, and multiplying the resulting fraction by an amount equal to the average cost per acre of the land approved for acquisition by the board under this chapter for the project, or that would have been approved for acquisition if the applicant school district had not had an existing school site available for the project.

SEC. 6. Section 17741.8 is added to the Education Code, to read:

17741.8. (a) Notwithstanding any other provision of law, any applicant school district that receives supplemental project funding under Sections 17740.6, 17740.7, 17740.8, and 17741.8 shall apply that funding to the purposes of the project funded, in compliance with any requirements set forth in those sections, but need not comply in that regard with the allowable building area of that project as otherwise calculated under this chapter. The expenditure of the supplemental project funds authorized under those sections is exempt from the total building cost standards applicable to the project. In addition, the increase in building area authorized under this subdivision is exempt, for purposes of any subsequent application for project funding under this chapter, from the calculation of existing adequate school construction of the district.

(b) Notwithstanding any other provision of law, the total amount of supplemental project funding that an applicant district is entitled to receive under Sections 17740.6, 17740.7, 17740.8, and 17740.9 may

not exceed the lesser of the following:

(1) An amount equal to that calculated under subdivision (b) of Section 17740.9.

(2) An amount equal to the sum of four thousand dollars ($4,000) for each of the first 500 units of estimated average daily attendance for the project, and two thousand dollars ($2,000) for each additional unit of estimated average daily attendance. The monetary rates set forth in this paragraph shall be increased annually for inflation for the prior calendar year on the basis of the cost index for class B construction as determined in the January meeting of the board.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to assist school districts to meet the need for additional school facilities as soon as possible, it is necessary that this act go into immediate effect.

CHAPTER 1155

An act to amend Section 1203 of the Penal Code, relating to crimes, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) That it is the right of every person to be secure and protected from the terrorizing activities of violent individuals.

(b) That the freedom of law-abiding persons to travel upon California's public highways and freeways without fear of intimidation, unreasonable restriction, and endangerment of their own personal safety from violent acts is a basic human right that must be upheld and protected.

(c) That a safe and secure highway and freeway system is a vital component in the continuance of California's strong economic life and provides the primary means on which millions of Californians depend to travel to and from their workplaces and on which millions of visitors to California depend to travel to those places of interest which have drawn them to our state.

(d) That, in the summer of 1987, the frequency of violent assaults upon law-abiding motorists on California's public highways and freeways has increased significantly so that, in a two-month period between mid-June and mid-August of 1987, there were close to 60 incidents of violence on our highways and freeways, in which four

people were killed, 19 people injured, and hundreds more were placed in mortal danger.

(e) That these violent incidents of terror, in many cases, are designed to intimidate, not just specific motorists who somehow gain the ire of these assailants, but the general driving public as well.

(f) That these acts of terror can and do disrupt the safe operation of the public highway and freeway system and endanger not only the lives of intended victims but the lives of other innocent motorists and bystanders when panic strikes the immediate area.

(g) That the potential for great bodily injury and death goes far beyond the immediate action, since the behavior of the assailant and the reactions of terrorized motorists can lead to mass confusion and traffic calamities.

(h) That these freeway terrorists must be adequately punished for the crime they commit against not only innocent individuals but the safety and well-being of the entire motoring public; and that California's highways and freeways must be ridded of this violent element.

SEC. 2. Section 1203 of the Penal Code, as amended by Chapter 134 of the Statutes of 1987, is amended to read:

1203. (a) As used in this code, "probation" shall mean the suspension of the imposition or execution of a sentence and the order of conditional and revocable release in the community under the supervision of the probation officer. As used in this code, "conditional sentence" shall mean the suspension of the imposition or execution of a sentence and the order of revocable release in the community subject to the conditions established by the court without the supervision of the probation officer. It is the intent of the Legislature that both conditional sentence and probation are authorized whenever probation is authorized in any code as a sentencing option for infractions or misdemeanors.

(b) Except as provided in subdivision (j), in every case in which a person is convicted of a felony and is eligible for probation, before judgment is pronounced, the court shall immediately refer the matter to the probation officer to investigate and report to the court, at a specified time, upon the circumstances surrounding the crime and the prior history and record of the person, which may be considered either in aggravation or mitigation of the punishment. The probation officer shall immediately investigate and make a written report to the court of his or her findings and recommendations, including his or her recommendations as to the granting or denying of probation and the conditions of probation, if granted. Pursuant to Section 828 of the Welfare and Institutions Code, the probation officer shall include in his or her report any information gathered by a law enforcement agency relating to the taking of the defendant into custody as a minor, which shall be considered for purposes of determining whether adjudications of commissions of crimes as a juvenile warrant a finding that there are circumstances in aggravation pursuant to Section 1170 or to deny

probation. The probation officer shall also include in the report his or her recommendation of the amount the defendant should be required to pay as a restitution fine pursuant to Section 13967 of the Government Code. The probation officer shall also include in his or her report a recommendation as to whether the court shall require, as a condition of probation, restitution to the victim or to the Restitution Fund. The report shall be made available to the court and the prosecuting and defense attorney at least nine days prior to the time fixed by the court for the hearing and determination of the report, and shall be filed with the clerk of the court as a record in the case at the time of the hearing. The time within which the report shall be made available and filed may be waived by written stipulation of the prosecuting and defense attorneys which is filed with the court or an oral stipulation in open court which is made and entered upon the minutes of the court. At a time fixed by the court, the court shall hear and determine the application, if one has been made, or, in any case, the suitability of probation in the particular case. At the hearing, the court shall consider any report of the probation officer and shall make a statement that it has considered such report which shall be filed with the clerk of the court as a record in the case. If the court determines that there are circumstances in mitigation of the punishment prescribed by law or that the ends of justice would be served by granting probation to the person, it may place the person on probation. If probation is denied, the clerk of the court shall immediately send a copy of the report to the Department of Corrections at the prison or other institution to which the person is delivered.

(c) If a defendant is not represented by an attorney, the court shall order the probation officer who makes the probation report to discuss its contents with the defendant.

(d) In every case in which a person is convicted of a misdemeanor, the court may either refer the matter to the probation officer for an investigation and a report or summarily pronounce a conditional sentence. If such a case is not referred to the probation officer, in sentencing the person, the court may consider any information concerning the person which could have been included in a probation report. The court shall inform the person of the information to be considered and permit him or her to answer or controvert such information. For this purpose, upon the request of the person, the court shall grant a continuance before the judgment is pronounced.

(e) Except in unusual cases where the interests of justice would best be served if the person is granted probation, probation shall not be granted to any of the following persons:

(1) Unless the person had a lawful right to carry a deadly weapon, other than a firearm, at the time of the perpetration of the crime or his or her arrest, any person who has been convicted of arson, robbery, burglary, burglary with explosives, rape with force or violence, murder, assault with intent to commit murder, attempt to

commit murder, trainwrecking, kidnapping, escape from the state prison, or a conspiracy to commit one or more of such crimes and was armed with such weapon at either of such times.

(2) Any person who used or attempted to use a deadly weapon upon a human being in connection with the perpetration of the crime of which he or she has been convicted.

(3) Any person who willfully inflicted great bodily injury or torture in the perpetration of the crime of which he or she has been convicted.

(4) Any person who has been previously convicted twice in this state of a felony or in any other place of a public offense which, if committed in this state, would have been punishable as a felony.

(5) Unless the person has never been previously convicted once in this state of a felony or in any other place of a public offense which, if committed in this state, would have been punishable as a felony, any person who has been convicted of burglary with explosives, rape with force or violence, murder, attempt to commit murder, assault with intent to commit murder, trainwrecking, extortion, kidnapping, escape from the state prison, a violation of Section 286, 288, or 288a, or a conspiracy to commit one or more of such crimes.

(6) Any person who has been previously convicted once in this state of a felony or in any other place of a public offense which, if committed in this state, would have been punishable as a felony, if he or she committed any of the following acts:

(A) Unless the person had a lawful right to carry a deadly weapon at the time of the perpetration of such previous crime or his or her arrest for such previous crime, he or she was armed with such weapon at either of such times.

(B) The person used or attempted to use a deadly weapon upon a human being in connection with the perpetration of such previous crime.

(C) The person willfully inflicted great bodily injury or torture in the perpetration of such previous crime.

(7) Any public official or peace officer of this state or any city, county, or other political subdivision who, in the discharge of the duties of his or her public office or employment, accepted or gave or offered to accept or give any bribe, embezzled public money, or was guilty of extortion.

(8) Any person who knowingly furnishes or gives away phencyclidine.

(9) Any person who intentionally inflicted great bodily injury in the commission of arson under subdivision (a) of Section 451 or who intentionally set fire to, burned, or caused the burning of, an inhabited structure or inhabited property in violation of subdivision (b) of Section 451.

(10) Any person who, in the commission of a felony, inflicts great bodily injury or causes the death of a human being by the discharge of a firearm from or at an occupied motor vehicle proceeding on a public street or highway.

(f) When probation is granted in a case which comes within the provisions of subdivision (e), the court shall specify on the record and shall enter on the minutes the circumstances indicating that the interests of justice would best be served by such a disposition.

(g) If a person is not eligible for probation, the judge shall refer the matter to the probation officer for an investigation of the facts relevant to determination of the amount of a restitution fine pursuant to Section 13967 of the Government Code in all cases where such determination is applicable. The judge, in his or her discretion, may direct the probation officer to investigate all facts relevant to the sentencing of the person. Upon such referral, the probation officer shall immediately investigate the circumstances surrounding the crime and the prior record and history of the person and make a written report to the court of his or her findings. The findings shall include a recommendation of the amount of the restitution fine as provided in Section 13967 of the Government Code.

(h) In any case in which a defendant is convicted of a felony and a probation report is prepared pursuant to subdivision (b) or (g), the probation officer shall obtain and include in such report a statement of the comments of the victim concerning the offense. The court may direct the probation officer not to obtain such a statement in any case where the victim has in fact testified at any of the court proceedings concerning the offense.

(i) No probationer shall be released to enter another state unless his or her case has been referred to the Administrator, Interstate Probation and Parole Compacts, pursuant to the Uniform Act for Out-of-State Probationer or Parolee Supervision (Article 3 (commencing with Section 11175) of Chapter 2 of Title 1 of Part 4).

(j) In any court where a county financial evaluation officer is available, in addition to referring the matter to the probation officer, the court may order the defendant to appear before such county financial evaluation officer for a financial evaluation of the defendant's ability to pay restitution, in which case the county financial evaluation officer shall report his or her findings regarding restitution and other court-related costs to the probation officer on the question of the defendant's ability to pay such costs.

Any order made pursuant to this subdivision may be enforced as a violation of the terms and conditions of probation upon willful failure to pay and at the discretion of the court and as stated in the order, may be enforced in the same manner as a judgment in a civil action, if any balance remains unpaid at the end of the defendant's probationary period.

SEC. 3. Section 1203 of the Penal Code, as amended by Chapter 134 of the Statutes of 1987, is amended to read:

1203. (a) As used in this code, "probation" shall mean the suspension of the imposition or execution of a sentence and the order of conditional and revocable release in the community under the supervision of the probation officer. As used in this code, "conditional sentence" shall mean the suspension of the imposition or execution

of a sentence and the order of revocable release in the community subject to the conditions established by the court without the supervision of the probation officer. It is the intent of the Legislature that both conditional sentence and probation are authorized whenever probation is authorized in any code as a sentencing option for infractions or misdemeanors.

(b) Except as provided in subdivision (j), in every case in which a person is convicted of a felony and is eligible for probation, before judgment is pronounced, the court shall immediately refer the matter to the probation officer to investigate and report to the court, at a specified time, upon the circumstances surrounding the crime and the prior history and record of the person, which may be considered either in aggravation or mitigation of the punishment. The probation officer shall immediately investigate and make a written report to the court of his or her findings and recommendations, including his or her recommendations as to the granting or denying of probation and the conditions of probation, if granted. Pursuant to Section 828 of the Welfare and Institutions Code, the probation officer shall include in his or her report any information gathered by a law enforcement agency relating to the taking of the defendant into custody as a minor, which shall be considered for purposes of determining whether adjudications of commissions of crimes as a juvenile warrant a finding that there are circumstances in aggravation pursuant to Section 1170 or to deny probation. The probation officer shall also include in the report his or her recommendation of the amount the defendant should be required to pay as a restitution fine pursuant to Section 13967 of the Government Code. The probation officer shall also include in his or her report a recommendation as to whether the court shall require, as a condition of probation, restitution to the victim or to the Restitution Fund. The report shall be made available to the court and the prosecuting and defense attorneys at least five days, or upon request of the defendant or prosecuting attorney, nine days prior to the time fixed by the court for the hearing and determination of the report, and shall be filed with the clerk of the court as a record in the case at the time of the hearing. The time within which the report shall be made available and filed may be waived by written stipulation of the prosecuting and defense attorneys which is filed with the court or an oral stipulation in open court which is made and entered upon the minutes of the court. At a time fixed by the court, the court shall hear and determine the application, if one has been made, or, in any case, the suitability of probation in the particular case. At the hearing, the court shall consider any report of the probation officer and shall make a statement that it has considered such report which shall be filed with the clerk of the court as a record in the case. If the court determines that there are circumstances in mitigation of the punishment prescribed by law or that the ends of justice would be served by granting probation to the person, it may place the person on probation. If probation is denied, the clerk of the

court shall immediately send a copy of the report to the Department of Corrections at the prison or other institution to which the person is delivered.

(c) If a defendant is not represented by an attorney, the court shall order the probation officer who makes the probation report to discuss its contents with the defendant.

(d) In every case in which a person is convicted of a misdemeanor, the court may either refer the matter to the probation officer for an investigation and a report or summarily pronounce a conditional sentence. If such a case is not referred to the probation officer, in sentencing the person, the court may consider any information concerning the person which could have been included in a probation report. The court shall inform the person of the information to be considered and permit him or her to answer or controvert such information. For this purpose, upon the request of the person, the court shall grant a continuance before the judgment is pronounced.

(e) Except in unusual cases where the interests of justice would best be served if the person is granted probation, probation shall not be granted to any of the following persons:

(1) Unless the person had a lawful right to carry a deadly weapon, other than a firearm, at the time of the perpetration of the crime or his or her arrest, any person who has been convicted of arson, robbery, burglary, burglary with explosives, rape with force or violence, murder, attempt to commit murder, trainwrecking, kidnapping, escape from the state prison, or a conspiracy to commit one or more of such crimes and was armed with such weapon at either of such times.

(6) Any person who has been previously convicted once in this state of a felony or in any other place of a public offense which, if committed in this state, would have been punishable as a felony, if he or she committed any of the following acts:

(9) Any person who intentionally inflicted great bodily injury in the commission of arson under subdivision (a) of Section 451 or who intentionally set fire to, burned, or caused the burning of, an inhabited structure or inhabited property in violation of subdivision (b) of Section 451.

(10) Any person who, in the commission of a felony, inflicts great bodily injury or causes the death of a human being by the discharge of a firearm from or at an occupied motor vehicle proceeding on a public street or highway.

(f) When probation is granted in a case which comes within the provisions of subdivision (e), the court shall specify on the record and shall enter on the minutes the circumstances indicating that the interests of justice would best be served by such a disposition.

The judge, in his or her discretion, may direct the probation officer to investigate all facts relevant to the sentencing of the person. Upon such referral, the probation officer shall immediately investigate the circumstances surrounding the crime and the prior record and history of the person and make a written report to the court of his or her findings. The findings shall include a recommendation of the amount of the restitution fine as provided in Section 13967 of the Government Code.

(h) In any case in which a defendant is convicted of a felony and a probation report is prepared pursuant to subdivision (b) or (g), the probation officer shall obtain and include in such report a statement of the comments of the victim concerning the offense. The court may direct the probation officer not to obtain such a statement in any case where the victim has in fact testified at any of the court proceedings concerning the offense.

Any order made pursuant to this subdivision may be enforced as a violation of the terms and conditions of probation upon willful failure to pay and at the discretion of the court and as stated in the order, may be enforced in the same manner as a judgment in a civil action, if any balance remains unpaid at the end of the defendant's probationary period.

SEC. 4. Section 3 of this bill incorporates amendments to Section 1203 of the Penal Code proposed by both this bill and SB 582. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1988, but this bill becomes operative first, (2) each bill amends Section 1203 of the Penal Code, and (3) this bill is enacted after SB 582, in which case Section 1203 of the Penal Code, as amended by Section 2 of this bill, shall remain operative only until the operative date of SB 582, at which time Section 3 of this bill shall become operative.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make the terrorizing of motorists or other persons on this state's public streets and highways a felony offense and in order to deter persons from violent actions upon our public streets and highways, it is necessary that this act take effect immediately.

CHAPTER 1156

An act to add Article 6.3 (commencing with Section 25368) to Chapter 6.8 of Division 20 of the Health and Safety Code, relating to hazardous substances.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) There are technologies in existence today which can provide permanent remedies to our hazardous substance cleanup problems. However, for most of these technologies, cost and performance information is incomplete, thus hindering their routine use at remedial action sites.

(b) It is therefore, the intent of the Legislature in enacting this act, to establish a full-scale demonstration and evaluation of alternative technologies, with the primary objective of establishing reliable cost and performance data for site cleanup, thereby enhancing the commercial utilization of these technologies at hazardous substance release sites as alternatives to the containment systems presently in use.

(c) The Legislature further declares that it is the policy of this state to select likely cost-effective, permanent remedies to hazardous substance release sites to the maximum extent possible in an effort to achieve more permanent protection of human health and the environment.

SEC. 2. Article 6.3 (commencing with Section 25368) is added to Chapter 6.8 of Division 20 of the Health and Safety Code, to read:

Article 6.3. Technology Demonstration Program

25368. Notwithstanding Section 25355.5, the department shall carry out a program of full-scale demonstrations to evaluate treatment technologies that can be safely utilized for removal and remedial actions to hazardous substance releases.

25368.1. For the purposes of this article, the following definitions apply:

(a) "Treatment technologies" means methods, techniques, or processes, including proprietary or patented methods, which permanently alter the composition of hazardous substances at hazardous substance release sites through chemical, biological, or physical means so as to make the substances nonhazardous or to significantly reduce the toxicity, mobility, or volume, or any combination thereof, of the hazardous substances or contaminated materials being treated.

(b) "Full-scale demonstration" means a demonstration of a technology which is of a size or capacity which permits valid comparison of the technology to the technical performance and cost of conventional technologies, which is likely to be cost-effective, and which will result in a substantial or complete remedial or removal action to a hazardous substance release site.

25368.2. The department shall select technology demonstration projects to be evaluated pursuant to this article using criteria which include, at a minimum, all of the following requirements:

(a) The project proposal includes complete and adequate documentation of technical feasibility.

(b) The project proposal includes evidence that a technology has been sufficiently developed for full-scale demonstration and can likely operate on a cost-effective basis.

(c) The department has determined that a site is available and suitable for demonstrating the technology or technologies, taking into account the physical, biological, chemical, and geological characteristics of the site, the extent and type of contamination found at the site, and the capability to conduct demonstration projects in a manner to ensure the protection of human health and the environment.

(d) The technology to be demonstrated preferably has widespread applicability in removal and remedial actions at other sites in the state.

(e) The project will be developed to the extent that a successful demonstration on a hazardous substance release site may lead to commercial utilization by responsible parties at other sites in the state.

(f) The department has determined that adequate funding is available from one or more of the following sources:

(1) Responsible parties.

(2) The Environmental Protection Agency.

(3) The Hazardous Substance Cleanup Fund.

(4) The state account.

25368.3. On or before July 1, 1988, the department shall identify hazardous substance release sites, listed pursuant to paragraph (2) or (3) of subdivision (b) of Section 25356, that are particularly well-suited for technology demonstration projects. In identifying hazardous substance release sites, the department shall consider, at a minimum, all of the following:

(a) The state's priority ranking for removal and remedial actions to hazardous substance release sites adopted pursuant to Section 25356.

(b) The volume and variability of the hazardous substance release at the site.

(c) The availability of data characterizing the hazardous substance release.

(d) The accessibility of the hazardous substance release.

(e) Availability of required utilities.

(f) Support of federal and local governments.

(g) Potential for adverse effects to public health and the environment.

25368.4. (a) On or before July 1, 1988, and at least once every 12 months thereafter, the department shall publish a solicitation for proposals to conduct treatment demonstration projects which utilize technologies which are at a stage of development suitable for full-scale demonstrations at hazardous substance release sites. The solicitation notice shall prescribe information to be included in the

proposal, including technical and economic data derived from the applicant's own research and development efforts, and any other information which may be prescribed by the department to assess the technology's potential and safety and the types of removal or remedial action to which it may be applicable.

(b) Any person and private or public entity may submit an application to the department in response to the solicitation. The application shall contain a proposed treatment demonstration plan setting forth how the treatment demonstration project is to be carried out and any other information which the department may require.

25368.5. (a) On or before January 1, 1989, after reviewing all proposals submitted pursuant to Section 25368.4, the department shall select three treatment demonstration projects, to be commenced during 1989, using, at a minimum, the criteria specified in Section 25368.2. Each year thereafter the department shall commence a minimum of two projects.

(b) If the department determines that the required number of demonstrations required by subdivision (a) cannot be initiated consistent with the criteria specified in Section 25368.2 in any fiscal year, the department shall inform the appropriate committees of the Legislature of the reasons for its inability to conduct these demonstration projects.

(c) Each treatment demonstration project selected pursuant to this section shall be performed by the applicant, or by a person approved by the applicant and the department.

25368.6. Notwithstanding Section 25360, if the department determines that using an alternative treatment technology to conduct a removal or remedial action would be more costly than another available and feasible removal or remedial action method that would also achieve satisfactory results, the department may determine not to attempt to recover from the liable person the incremental costs of the removal or remedial action attributable to the alternative treatment technology.

25368.7. The department shall conduct a technology transfer program which shall include the development, collection, evaluation, coordination, and dissemination of information relating to the utilization of alternative or innovative hazardous waste treatment technologies demonstrated pursuant to this article. The information shall include an evaluation of each treatment demonstration project's efficacy relating to performance and cost in achieving permanent and significant reduction in risks from hazardous substance releases. The information shall also include documentation of the testing procedures utilized in the project, the data collected, and the quality assurance and quality control which was conducted. The information shall also include the technology's applicability, pretreatment and posttreatment measurements, and the technology's advantages or disadvantages compared to other available technologies.

25368.8. Notwithstanding paragraph (5) of subdivision (c) of Section 25356.1, when preparing or approving a remedial action plan for a treatment demonstration project selected pursuant to this article, the department shall consider the cost effectiveness of the project but is not required to choose the most cost-effective measure.

CHAPTER 1157

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

The commissioner shall immediately hire 150 traffic officers and 30 support personnel for the purpose of addressing the recent incidents of freeway violence.

(b) The Board of Supervisors of Contra Costa County may, by resolution, authorize the imposition of a fifty dollar ($50) assessment by the court upon each defendant convicted of a violation of Section 23152 or 23153 of the Vehicle Code for deposit in the account from which the fifty dollar ($50) distribution specified in subdivision (a) is deducted.

Programs shall be certified by the Department of Alcohol and Drug Programs or have made application for certification to be eligible for funding under this section. The county shall implement the intent and procedures of subdivision (b) of Section 11812 of the Health and Safety Code while distributing funds under this section.

(b) In a county of the first, second, third, or fifteenth class, notwithstanding Section 1463, of the moneys deposited with the county treasurer pursuant to Section 1463, fifty dollars ($50) for each conviction of a violation of Section 23103, 23104, 23152, or 23153 of the Vehicle Code shall be deposited in a special account for exclusive allocation by the administrator of the county's alcoholism program, with approval of the board of supervisors, for alcohol programs and services for the general population. These funds shall be allocated through the local planning process pursuant to a specific provision in the county plan which is submitted to the State Department of Alcohol and Drug Programs. For those services for which standards have been developed and certification is available, programs shall be certified by the State Department of Alcohol and Drug Programs or shall apply for certification to be eligible for funding under this section. The county alcohol administrator shall implement the intent and procedures of subdivision (b) of Section 11812 of the Health and Safety Code while distributing funds under this section.

(c) The Board of Supervisors of Contra Costa County may, by resolution, authorize the imposition of a fifty dollar ($50) assessment by the court upon each defendant convicted of a violation of Section 23152 or 23153 of the Vehicle Code for deposit in the account from which the fifty dollar ($50) distribution specified in subdivision (a) is deducted.

(d) It is the specific intent of the Legislature that funds expended under this part shall be used for ongoing alcoholism program services as well as for contracts with private nonprofit organizations to upgrade facilities to meet state certification and state licensing standards and federal nondiscrimination regulations relating to accessibility for handicapped persons.

(e) Counties may retain up to 5 percent of the funds collected to offset administrative costs of collection and disbursement.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 12022.5 of the Penal Code is amended to read:

12022.5. (a) Any person who personally uses a firearm in the commission or attempted commission of a felony shall, upon conviction of such felony or attempted felony, in addition and consecutive to the punishment prescribed for the felony or attempted felony of which he or she has been convicted, be punished by an additional term of imprisonment in the state prison for two years, unless use of a firearm is an element of the offense of which he or she was convicted.

(b) Notwithstanding subdivision (a), any person who is convicted of a felony or an attempt to commit a felony, including murder or attempted murder, in which that person discharged a firearm at an occupied motor vehicle which caused great bodily injury or death to the person of another, shall, upon conviction of that felony or attempted felony, in addition and consecutive to the sentence prescribed for the felony or attempted felony, be punished by an additional term of imprisonment in the state prison for five years.

(c) The additional term provided by this section may be imposed in cases of assault with a firearm under paragraph (2) of subdivision (a) of Section 245, or assault with a deadly weapon which is a firearm under Section 245.

(d) When a person is found to have personally used a firearm in the commission or attempted commission of a felony as provided in this section and the firearm is owned by that person, the court shall order that the firearm be deemed a nuisance and disposed of in the manner provided in Section 12028.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make the shooting at motorists on this state's public streets and highways a severely punishable offense and in order to deter persons from violent actions upon our public streets and highways, it is necessary that this act take effect immediately.

CHAPTER 1160

An act to amend Section 926.17 of the Government Code, relating to state agencies, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 926.17 of the Government Code is amended to read:

926.17. (a) (1) A state agency which acquires property or services pursuant to a contract, including any approved change order, with a business shall pay for each complete delivered item of property or service on the date required by contract between the business and agency or be subject to an interest penalty fee. If no date for payment is specified by contract, the state agency shall pay the contractor directly, if authorized to do so, within 50 calendar days after the postmark date of the invoice . If the state agency is not authorized to pay the contractor directly, the state agency shall forward the invoice for payment to the Controller within 35 calendar days after the postmark date of the invoice. The Controller shall pay the contractor within 15 calendar days of receipt of the invoice from the state agency.

(2) If, due to insufficient funds, a state agency is unable to meet the payment deadlines provided for in paragraph (1) under a contract for goods or services needed due to a natural disaster, including, but not limited to, fires, floods, or earthquakes, payment under the contract shall not be due until 30 calendar days after the agency has received sufficient funds to pay the contractor.

(3) If, by applying paragraphs (1) and (2), a payment under a contract with the Department of Forestry would become due during the annually declared fire season, as declared by the Director of Forestry, the payment shall not be due until 30 calendar days after the date upon which it would otherwise have been due.

(4) The acquisition of property includes the rental of real or personal property.

(b) (1) An interest penalty fee shall accrue and be charged on payments overdue under subdivision (a) at a rate of 1 percent above the rate accrued on June 30th of the prior year by the Pooled Money Investment Account, but not to exceed 15 percent.

The interest penalty fee shall begin on the day after payment is due if the payment due date is specified by contract. If no payment date is specified by contract and the state agency is authorized to pay the contractor directly, the interest penalty fee shall begin to accrue on the 51st calendar day after the postmark date of the invoice and shall be paid for out of the contracting state agency's funds.

If no payment date is specified by contract and the state agency is not authorized to pay the contractor directly and the state agency has not forwarded the invoice to the Controller's office for payment by the 35th calendar day after the postmark date of the invoice, an interest penalty fee shall begin to accrue on the 36th calendar day after the postmark date of the invoice and shall be paid for out of the contracting state agency's funds. The state agency's liability ends on the date a properly submitted invoice is received by the Controller.

After the invoice is forwarded to the Controller's office from the contracting state agency, an interest penalty fee shall begin to accrue on the 16th calendar day after receipt of a properly submitted invoice by the Controller's office and shall be paid for out of the Controller's funds. The interest penalty fee ceases to accrue on the date full payment is made.

(2) A state agency shall not seek additional appropriations to pay interest which accrues as a result of an agency's failure to make payments as required by subdivision (a).

(3) When a state agency is required by this section to pay a penalty, it shall be presumed that the fault is that of the head of the state agency and, in such cases, the head of the state agency shall submit to the Legislature a written report on the actions taken to correct the problem.

(c) A court shall award court costs and reasonable attorney fees to the plaintiff in an action brought pursuant to this section where it is found that the state agency has violated this section. The costs and fees shall be paid by the state agency at fault and shall not become a personal economic liability of any public officer or employee thereof.

(d) If the state agency's failure to make payment as required by subdivision (a) is the result of a dispute between the agency and the business over the amount due or over compliance with the contract, the 35 and 50 calendar days specified in subdivision (a) shall begin on the date the dispute is settled either by mutual agreement between the contracting parties or by receipt of a corrected invoice. A state agency may dispute an invoice if the state agency so notifies the contractor within 15 calendar days of receipt of the invoice.

(e) For the purposes of this section, "invoice" means a document seeking payment on a contract and which contains a detailed list of goods shipped or services rendered, with an accounting of all costs.

(f) This section shall not apply to claims for reimbursement for health care services provided under the Medi-Cal program, as established pursuant to Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code.

(g) Section 926.10 shall not apply to any contract covered by this section.

(h) This section shall not apply to any contract covered by Section 926.15.

(i) A state agency shall not make interest penalty fee payments of less than five dollars ($5).

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The welfare of the people of the State of California depends, in part, on the ability of state agencies to contract for the purchase of goods and services. Section 926.17, previously added to the Government Code, would help maintain the integrity of the state's promises and thus its ability to attract and maintain contractual relationships. In order to correct inconsistencies which hinder the proper implementation of Section 926.17 and to prevent the assessment of unfair penalties against state agencies, it is necessary for this act to take effect immediately.

CHAPTER 1161

An act to amend Sections 1420 and 1428 of the Health and Safety Code, and to amend Section 14018.4 of the Welfare and Institutions Code, relating to health facilities.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 1420 of the Health and Safety Code is amended to read:

1420. (a) Upon receipt of a complaint, the state department shall assign an inspector to make a preliminary review of the complaint and shall notify the complainant of the name of the inspector. Unless the state department determines that the complaint is willfully intended to harass a licensee or is without any reasonable basis, it shall make an onsite inspection or investigation within 10 working days of the receipt of the complaint. In either event, the complainant shall be promptly informed of the state department's proposed course of action. Upon the request of either the complainant or the state department, the complainant or his or her representative, or both, may be allowed to accompany the inspector to the site of the alleged violations during his or her tour of the facility, unless the inspector determines that the privacy of any patient would be violated thereby.

When conducting an onsite inspection or investigation pursuant to this section, the state department shall collect and evaluate all available evidence and may issue a citation based upon, but not limited to, all of the following:

(1) Observed conditions.

(2) Statements of witnesses.

(3) Facility records.

(b) Upon being notified of the state department's determination as a result of the inspection or investigation, a complainant who is dissatisfied with the state department's determination, regarding a matter which would pose a threat to the health, safety, security, welfare, or rights of a resident, shall be notified by the state department of the right to an informal conference, as set forth in this section. The complainant may, within five business days after receipt of the notice, notify the director in writing of his or her request for an informal conference. The informal conference shall be held with the designee of the director for the county in which the long-term health care facility which is the subject of the complaint is located. The long-term health care facility may participate as a party in this informal conference. The director's designee shall notify the complainant and licensee of his or her determination within 10 working days after the informal conference and shall apprise the complainant and licensee in writing of the appeal rights provided in subdivision (c).

(c) If the complainant is dissatisfied with the determination of the director's designee in the county in which the facility is located, the complainant may, within 15 days after receipt of this determination, notify in writing the Deputy Director of the Licensing and Certification Division of the state department, who shall assign the request to a representative of the Complainant Appeals Unit for review of the facts that led to both determinations. As a part of the Complainant Appeals Unit's independent investigation, and at the request of the complainant, the representative shall interview the complainant in the district office where the complaint was initially referred. Based upon this review, the Deputy Director of the Licensing and Certification Division of the state department shall make his or her own determination and notify the complainant and the facility within 30 days.

(d) Any citation issued as a result of a conference or review provided for in subdivision (b) or (c) shall be issued and served upon the facility within three days of the final determination, excluding Saturday, Sunday, and holidays, unless the licensee agrees in writing to an extension of this time. Service shall be effected either personally or by registered or certified mail. A copy of the citation shall also be sent to each complainant.

SEC. 2. Section 1428 of the Health and Safety Code is amended to read:

1428. (a) If a licensee desires to contest a class "AA" or a class "A" citation, or a citation alleging a class "B" violation and either a class "AA" or class "A" violation or the proposed assessment of a civil penalty therefor, the licensee shall within five business days after service of the citation notify the director in writing of his or her request for a citation review conference with the designee of the director for the county in which the cited long-term health care facility is located. The director's designee shall hold, within five business days from the receipt of the request, a citation review

conference, at the conclusion of which he or she may affirm, modify, or dismiss the citation or proposed assessment of a civil penalty. If the director's designee affirms, modifies, or dismisses the citation or proposed assessment of a civil penalty, he or she shall state with particularity in writing his or her reasons for that action, and shall immediately transmit a copy thereof to each party to the original complaint. If the licensee desires to contest a decision made after the citation review conference, the licensee shall inform the director in writing within five business days after he or she receives the decision by the director's designee. If the licensee fails to notify the director in writing that he or she intends to contest the citation or the proposed assessment of a civil penalty therefor or the decision made by a director's designee after a citation review conference within the time specified in this subdivision, the citation or the proposed assessment of a civil penalty or the decision by a director's designee after a citation review conference shall be deemed a final order of the state department and shall not be subject to further administrative review.

(b) If a licensee notifies the director that he or she intends to contest a class "AA" or a class "A" citation, or a citation alleging a class "B" violation and either a class "AA" or class "A" violation, the director shall immediately notify the Attorney General. Upon notification, the Attorney General shall promptly take all appropriate action to enforce the citation and recover the civil penalty prescribed thereon, and shall take such other action as the Attorney General shall deem appropriate, in the court of competent jurisdiction for the county in which the long-term health care facility is located.

(c) If a licensee desires to contest a class "B" citation or the proposed assessment of a civil penalty therefor, the licensee shall within five business days after service of the citation (1) notify the director in writing of his or her request for a citation review conference with the designee of the director for the county in which the cited long-term health care facility is located; or (2) notify the director in writing of the licensee's intent to adjudicate the validity of the citation in the municipal court in the county in which the long-term health care facility is located. If requested by the licensee, the director's designee shall hold, within five business days from the receipt of the request, a citation review conference, at the conclusion of which he or she may affirm, modify, or dismiss the citation or the proposed assessment of a civil penalty. If the director's designee affirms, modifies, or dismisses the citation or proposed assessment of a civil penalty, he or she shall state with particularity in writing his or her reasons for that action and shall immediately transmit a copy thereof to each party to the original complaint. If the licensee desires to contest a decision made after the citation review conference, the licensee shall inform the director in writing within five business days after he or she receives the decision by the director's designee. In order to perfect a judicial appeal of a contested citation, a licensee

shall file a civil action in the municipal court in the county in which the long-term health care facility is located. The action shall be filed no later than 60 calendar days after a licensee notifies the director that he or she intends to contest a citation, or, in the event a citation review conference is held, no later than 60 calendar days after a licensee notifies the director of his or her intent to contest the decision of the director's designee. If a judicial appeal is prosecuted under the provisions of this subdivision, the state department shall have the burden of establishing by a preponderance of the evidence that (1) the alleged violation did occur, (2) the alleged violation met the criteria for the class of citation alleged, and (3) the assessed penalty was appropriate. The state department shall also have the burden of establishing by a preponderance of the evidence that the assessment of a civil penalty should be upheld. If a licensee fails to notify the director in writing that he or she intends to contest the citation or the decision made by the director's designee within the time specified in this subdivision, or fails to file a civil action within the time specified in this subdivision, the citation or the decision by the director's designee after a citation review conference shall be deemed a final order of the state department and shall not be subject to further administrative review. If a licensee prosecutes a judicial appeal of a contested citation or the assessment of a civil penalty, no civil penalty shall be due and payable unless and until the appeal is terminated in favor of the state department.

(d) The director or the director's designee shall establish an independent unit of trained citation review conference hearing officers within the state department to conduct citation review conferences. Citation review conference hearing officers shall be directly responsible to the deputy director for licensing and certification, and shall not be concurrently employed as supervisors, district administrators, or regional administrators with the licensing and certification division. Specific training shall be provided to members of this unit on conducting an informal conference, with emphasis on the regulatory and legal aspects of long-term health care.

Where the state department issues a citation as a result of a complaint or regular inspection visit, and a resident or residents are specifically identified in a citation by name as being specifically affected by the violation, then the following persons may attend the citation review conference:

(1) The complainant and his or her designated representative.

(2) A personal health care provider, designated by the resident.

(3) A personal attorney, only if the long-term health care facility has an attorney present.

(4) Any person representing the Office of the State Long-Term Care Ombudsman, as defined in subdivision (c) of Section 9701 of the Welfare and Institutions Code.

Where the state department determines that residents in the facility were threatened by the cited violation but does not name

specific residents, any person representing the Office of the State Long-Term Care Ombudsman, as defined in subdivision (c) of Section 9701 of the Welfare and Institutions Code, and a representative of the residents or family council at the facility may participate to represent all residents. In this case, these representatives shall be the sole participants for the residents in the conference. The residents' council shall designate which representative will participate.

The complainant, affected resident, or their designated representatives shall be notified by the state department of the conference and their right to participate. The director's designee shall notify the complainant or his or her designated representative and the affected resident or his or her designated representative, of his or her determination based on the citation review conference.

(e) In assessing the civil penalty for a violation, all relevant facts shall be considered, including, but not limited to, all of the following:

(1) The probability and severity of the risk which the violation presents to the patient's mental and physical condition.

(2) The patient's medical condition.

(3) The patient's mental condition and his or her history of mental disability.

(4) The good-faith efforts exercised by the facility to prevent the violation from occurring.

(5) The licensee's history of compliance with regulations.

(f) Except as otherwise provided in this subdivision, an assessment of civil penalties for a class "A" or class "B" violation shall be trebled and collected for a second or subsequent violation occurring within any 12-month period, if a citation was issued and a civil penalty assessed for the previous violation occurring within the period, without regard to whether the action to enforce the previous citation has become final. However, the increment to the civil penalty required by this subdivision shall not be due and payable unless and until the previous action has terminated in favor of the state department.

If the class "B" violation is a patient's rights violation, as defined in subdivision (d) of Section 1424, it shall not be trebled unless the state department determines the violation has a direct or immediate relationship to the health, safety, security, or welfare of long-term health care facility residents.

(g) The director shall prescribe procedures for the issuance of a notice of violation with respect to violations having only a minimal relationship to safety or health.

(h) Actions brought under the provisions of this chapter shall be set for trial at the earliest possible date and shall take precedence on the court calendar over all other cases except matters to which equal or superior precedence is specifically granted by law. Times for responsive pleading and for hearing any such proceeding shall be set by the judge of the court with the object of securing a decision as to subject matters at the earliest possible time.

(i) If the citation is dismissed or reduced, the state department shall take action immediately to ensure that the public records reflect in a prominent manner that the citation was dismissed or reduced.

(j) Upon a licensee notifying the director of its intent to contest one or more citations or decisions made following a citation review conference where the total penalties do not exceed fifteen thousand dollars ($15,000), either the state or the licensee may elect to submit the matter to binding arbitration. The parties shall agree upon an arbitrator designated from the American Arbitration Association in accordance with the association's established rules and procedures. The arbitration hearing shall be set within 45 days of the petitioner's election, but in no event less than 28 days from the date of selection of an arbitrator. The arbitration hearing may be continued up to 15 additional days if necessary at the arbitrator's discretion. The arbitrator's decision shall specify, in writing, the areas of disagreement between the parties, the evidence upon which the decision is based, and the reasons for the decision. The decision of the arbitrator shall be based upon substantive law and shall be binding on all parties, subject to judicial review. This review shall be limited to whether there was substantial evidence to support the decision of the arbitrator.

The arbitrator shall determine which of the parties are financially liable for arbitration costs based upon the position each took at the commencement of the arbitration proceedings compared to the decision of the arbitrator.

The retention of, renewal of, or application for, a license to operate a skilled nursing facility or intermediate care facility shall, for purposes of the administration of this chapter, be deemed a written agreement to arbitrate contested citations within the meaning of Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure. Without extending the time for commencement of these hearings, the provisions of Section 1283.05 of the Code of Civil Procedure shall be applicable to all proceedings to arbitrate citations issued pursuant to this chapter, except that depositions may be noticed and taken without prior approval of the arbitrator.

Penalties paid on violations under this chapter shall be applied against the state department's accounts to offset any costs incurred by the state pursuant to this subdivision. Any costs or penalties assessed pursuant to this chapter shall be paid within 30 days of the date the decision becomes final. If a facility does not comply with this provision, the state department shall withhold any payment under the Medi-Cal program until the debt is satisfied. No payment shall be withheld if the state department determines that it would cause undue hardship to the facility or to patients of the facility.

SEC. 2.5. Section 1428 of the Health and Safety Code is amended to read:

1428. (a) If a licensee desires to contest a class "AA" or a class "A" citation, or a citation alleging a class "B" violation and either a

class "AA" or class "A" violation or the proposed assessment of a civil penalty therefor, the licensee shall within five business days after service of the citation notify the director in writing of his or her request for a citation review conference with the designee of the director for the county in which the cited long-term health care facility is located. The director's designee shall hold, within five business days from the receipt of the request, a citation review conference, at the conclusion of which he or she may affirm, modify, or dismiss the citation or proposed assessment of a civil penalty. If the director's designee affirms, modifies, or dismisses the citation or proposed assessment of a civil penalty, he or she shall state with particularity in writing his or her reasons for that action, and shall immediately transmit a copy thereof to each party to the original complaint. If the licensee desires to contest a decision made after the citation review conference, the licensee shall inform the director in writing within five business days after he or she receives the decision by the director's designee. If the licensee fails to notify the director in writing that he or she intends to contest the citation or the proposed assessment of a civil penalty therefor or the decision made by a director's designee after a citation review conference within the time specified in this subdivision, the citation or the proposed assessment of a civil penalty or the decision by a director's designee after a citation review conference shall be deemed a final order of the state department and shall not be subject to further administrative review.

(b) If a licensee notifies the director that he or she intends to contest a class "AA" or a class "A" citation, or a citation alleging a class "B" violation and either a class "AA" or class "A" violation, the director shall immediately notify the Attorney General. Upon notification, the Attorney General shall promptly take all appropriate action to enforce the citation and recover the civil penalty prescribed thereon, and shall take such other action as the Attorney General shall deem appropriate, in the court of competent jurisdiction for the county in which the long-term health care facility is located.

(c) If a licensee desires to contest a class "B" citation or the proposed assessment of a civil penalty therefor, the licensee shall within five business days after service of the citation (1) notify the director in writing of his or her request for a citation review conference with the designee of the director for the county in which the cited long-term health care facility is located; or (2) notify the director in writing of the licensee's intent to adjudicate the validity of the citation in the municipal court in the county in which the long-term health care facility is located. If requested by the licensee, the director's designee shall hold, within five business days from the receipt of the request, a citation review conference, at the conclusion of which he or she may affirm, modify, or dismiss the citation or the proposed assessment of a civil penalty. If the director's designee affirms, modifies, or dismisses the citation or proposed assessment of

a civil penalty, he or she shall state with particularity in writing his or her reasons for that action and shall immediately transmit a copy thereof to each party to the original complaint. If the licensee desires to contest a decision made after the citation review conference, the licensee shall inform the director in writing within five business days after he or she receives the decision by the director's designee. In order to perfect a judicial appeal of a contested citation, a licensee shall file a civil action in the municipal court in the county in which the long-term health care facility is located. The action shall be filed no later than 60 calendar days after a licensee notifies the director that he or she intends to contest a citation, and served no later than 60 days thereafter, or, in the event a citation review conference is held, no later than 60 calendar days after a licensee notifies the director of his or her intent to contest the decision of the director's designee. If a judicial appeal is prosecuted under the provisions of this subdivision, the state department shall have the burden of establishing by a preponderance of the evidence that (1) the alleged violation did occur, (2) the alleged violation met the criteria for the class of citation alleged, and (3) the assessed penalty was appropriate. The state department shall also have the burden of establishing by a preponderance of the evidence that the assessment of a civil penalty should be upheld. If a licensee fails to notify the director in writing that he or she intends to contest the citation or the decision made by the director's designee within the time specified in this subdivision, or fails to file a civil action within the time specified in this subdivision, the citation or the decision by the director's designee after a citation review conference shall be deemed a final order of the state department and shall not be subject to further administrative review. If a licensee prosecutes a judicial appeal of a contested citation or the assessment of a civil penalty, no civil penalty shall be due and payable unless and until the appeal is terminated in favor of the state department. Notwithstanding any other provision of law, a licensee prosecuting a judicial appeal, after January 1, 1988, shall file and serve an at issue memorandum pursuant to Rule 209 of the California Rules of Court by July 1, 1988, or within six months after the state department files its answer in the appeal, whichever is later. The court shall dismiss the appeal upon motion of the state department if the at issue memorandum is not filed by the facility within the period specified.

(d) The director or the director's designee shall establish an independent unit of trained citation review conference hearing officers within the state department to conduct citation review conferences. Citation review conference hearing officers shall be directly responsible to the deputy director for licensing and certification, and shall not be concurrently employed as supervisors, district administrators, or regional administrators with the licensing and certification division. Specific training shall be provided to members of this unit on conducting an informal conference, with emphasis on the regulatory and legal aspects of long-term health

care.

Where the state department issues a citation as a result of a complaint or regular inspection visit, and a resident or residents are specifically identified in a citation by name as being specifically affected by the violation, then the following persons may attend the citation review conference:

(1) The complainant and his or her designated representative.

(2) A personal health care provider, designated by the resident.

(3) A personal attorney, only if the long-term health care facility has an attorney present.

(4) Any person representing the Office of the State Long-Term Care Ombudsman, as defined in subdivision (c) of Section 9701 of the Welfare and Institutions Code.

Where the state department determines that residents in the facility were threatened by the cited violation but does not name specific residents, any person representing the Office of the State Long-Term Care Ombudsman, as defined in subdivision (c) of Section 9701 of the Welfare and Institutions Code, and a representative of the residents or family council at the facility may participate to represent all residents. In this case, these representatives shall be the sole participants for the residents in the conference. The residents' council shall designate which representative will participate.

The complainant, affected resident, or their designated representatives shall be notified by the state department of the conference and their right to participate. The director's designee shall notify the complainant or his or her designated representative and the affected resident or his or her designated representative, of his or her determination based on the citation review conference.

(e) In assessing the civil penalty for a violation, all relevant facts shall be considered, including, but not limited to, all of the following:

(1) The probability and severity of the risk which the violation presents to the patient's mental and physical condition.

(2) The patient's medical condition.

(3) The patient's mental condition and his or her history of mental disability.

(4) The good-faith efforts exercised by the facility to prevent the violation from occurring.

(5) The licensee's history of compliance with regulations.

(f) Except as otherwise provided in this subdivision, an assessment of civil penalties for a class "A" or class "B" violation shall be trebled and collected for a second or subsequent violation occurring within any 12-month period, if a citation was issued and a civil penalty assessed for the previous violation occurring within the period, without regard to whether the action to enforce the previous citation has become final. However, the increment to the civil penalty required by this subdivision shall not be due and payable unless and until the previous action has terminated in favor of the state department.

If the class "B" violation is a patient's rights violation, as defined in subdivision (d) of Section 1424, it shall not be trebled unless the state department determines the violation has a direct or immediate relationship to the health, safety, security, or welfare of long-term health care facility residents.

(g) The director shall prescribe procedures for the issuance of a notice of violation with respect to violations having only a minimal relationship to safety or health.

(h) Actions brought under this chapter shall be set for trial at the earliest possible date and shall take precedence on the court calendar over all other cases except matters to which equal or superior precedence is specifically granted by law. Times for responsive pleading and for hearing any such proceeding shall be set by the judge of the court with the object of securing a decision as to subject matters at the earliest possible time.

(i) If the citation is dismissed or reduced, the state department shall take action immediately to ensure that the public records reflect in a prominent manner that the citation was dismissed or reduced.

(j) Upon a licensee notifying the director of its intent to contest one or more citations or decisions made following a citation review conference where the total penalties do not exceed fifteen thousand dollars ($15,000), either the state or the licensee may elect to submit the matter to binding arbitration. The parties shall agree upon an arbitrator designated from the American Arbitration Association in accordance with the association's established rules and procedures. The arbitration hearing shall be set within 45 days of the petitioner's election, but in no event less than 28 days from the date of selection of an arbitrator. The arbitration hearing may be continued up to 15 additional days if necessary at the arbitrator's discretion. The arbitrator's decision shall specify, in writing, the areas of disagreement between the parties, the evidence upon which the decision is based, and the reasons for the decision. The decision of the arbitrator shall be based upon substantive law and shall be binding on all parties, subject to judicial review. Penalties paid on violations under this chapter shall be applied against the state department's accounts to offset any costs incurred by the state pursuant to this subdivision. Any costs or penalties assessed pursuant to this chapter shall be paid within 30 days of the date the decision becomes final. If a facility does not comply with this provision, the state department shall withhold any payment under the Medi-Cal program until the debt is satisfied. (d) This section shall remain in effect only until both the Secretary of the Senate and the Chief Clerk of the Assembly have received certification by registered mail from the Director of Health Services, that the automated eligibility verification system required by Section 14042 is operative for all counties and has been demonstrated to be accurate for each county at the 97-percent level as required by Section 14042 and as of that date is repealed.

SEC. 4. Section 2.5 of this bill incorporates amendments to Section 1428 of the Health and Safety Code proposed by both this bill

and SB 73. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1988, (2) each bill amends Section 1428 of the Health and Safety Code, and (3) this bill is enacted after SB 73, in which case Section 2 of this bill shall not become operative.

(c) No foreign holding company may control a California savings association.

(d) The commissioner shall obtain an injunction or take any other action necessary to prevent any person from unlawfully doing any business of an association in this state.

SEC. 29. Section 10012 of the Financial Code is amended and renumbered to read:

10013. No foreign savings association may conduct the business of an association in California, and no foreign savings association or foreign holding company may acquire control of a California savings association, without the written approval of the commissioner. A foreign savings association or foreign holding company shall submit to the commissioner a written application for approval in the form and shall pay such fees as the commissioner prescribes. The foreign savings association or foreign holding company shall submit with the application such information, data, and records as the commissioner may require in order to make his or her determination. The commissioner may issue such regulations as he or she deems to be appropriate to preserve the public interest and integrity of the state's savings association system and to protect the interests of savings account holders, borrowers, and stockholders resident in this state. The commissioner may make arrangements with the supervisory officials of other states for reciprocal examination of California savings associations, foreign savings associations and foreign holding companies, and the imposition of fees therefor and may condition his or her approval pursuant to this chapter upon the existence of those arrangements.

SEC. 30. Section 10013 of the Financial Code is amended and renumbered to read:

10050. This chapter shall remain in effect until January 1, 1991, and as of that date is repealed.

SEC. 31. Section 10014 is added to the Financial Code, to read:

10014. Except as expressly provided for in this chapter, any person who, as principal, agent, salesman, solicitor, or in any other capacity, solicits or conducts in this state the business of selling, disposing of, taking, or soliciting savings accounts of any foreign savings association that has not complied with all the requirements of this chapter, is guilty of a public offense punishable by imprisonment in the state prison, or in a county jail not exceeding one year, or by a fine not exceeding ten thousand dollars ($10,000), or by both a fine and imprisonment.

SEC. 32. Section 10015 is added to the Financial Code, to read:

10015. For the purposes of this article and any other law of this state prohibiting, limiting, or regulating the doing of business in this state by foreign savings associations or foreign corporations, any foreign savings association subject to state or federal supervision, which by law is subject to periodic examination by that supervisory authority and to a requirement of periodic audit, shall not be considered to be doing business in this state by reason of engaging in the following:

(a) Any of the activities specified in subdivision (d) of Section 191 of the Corporations Code.

(b) The advertising or solicitation of savings accounts in this state through the media of the mail, radio, television, magazines, newspapers, or any other media that are published or circulated within this state; provided, however, that the advertising or solicitation as a whole is accurate and does not create a misleading impression even though statements considered separately are literally accurate.

SEC. 33. Section 10016 is added to the Financial Code, to read:

10016. Except as provided by regulation, this division applies to a foreign savings association or its holding company as if business conducted in this state were that of a California savings association.

SEC. 33.5. Section 10017 is added to the Financial Code, to read:

10017. If a foreign savings association is controlled by a foreign holding company, the requirements under this chapter applicable to both a foreign savings association and a foreign holding company shall be met.

SEC. 34. Section 408 of the Revenue and Taxation Code is amended to read:

408. (a) Except as otherwise provided in subdivisions (b) and (c), any information and records in the assessor's office which are not required by law to be kept or prepared by the assessor, and homeowners' exemption claims, are not public documents and shall not be open to public inspection. Property receiving the homeowners' exemption shall be clearly identified on the assessment roll. The assessor shall maintain records which shall be open to public inspection to identify those claimants who have been granted the homeowners' exemption.

(b) The assessor may provide any appraisal data in his or her possession to the assessor of any county and shall provide any market data in his or her possession to an assessee of property or his or her designated representative upon request. The assessor shall permit an assessee of property or his or her designated representative to inspect at the assessor's office any information and records, whether or not required to be kept or prepared by the assessor, relating to the appraisal and the assessment of his or her property. Except as provided in Section 408.1, an assessee or his or her designated representative, however, shall not be provided or permitted to inspect information and records, other than market data, which also relate to the property or business affairs of another person, unless

that disclosure is ordered by a competent court in a proceeding initiated by a taxpayer seeking to challenge the legality of his or her assessment.

(c) The assessor shall disclose information, furnish abstracts, or permit access to all records in his or her office to law enforcement agencies, the county grand jury, the board of supervisors or their duly authorized agents, employees or representatives when conducting an investigation of the assessor's office pursuant to Section 25303 of the Government Code, the Controller, employees of the Controller for property tax postponement purposes, probate referees, employees of the Franchise Tax Board for tax administration purposes only, staff appraisers of the Department of Savings and Loan, the Department of Transportation, and the Department of General Services, the State Board of Equalization, and other duly authorized legislative or administrative bodies of the state pursuant to their authorization to examine the records. Whenever the assessor discloses information, furnishes abstracts, or permits access to records in his or her office to staff appraisers of the Department of Savings and Loan, the Department of Transportation, or the Department of General Services pursuant to this section, the department shall reimburse the assessor for any costs incurred as a result thereof.

(d) For purposes of this section, "market data" means any information in the assessor's possession, whether or not required to be prepared or kept by him or her, relating to the sale of any property comparable to the property of the assessee, if the assessor bases his or her assessment of the assessee's property, in whole or in part, on that comparable sale or sales. The assessor shall provide the names of the seller and buyer of each property on which the comparison is based, the location of that property, the date of the sale, and the consideration paid for the property, whether paid in money or otherwise, but for purposes of providing market data, the assessor shall not display any document relating to the business affairs or property of another.

SEC. 35. (a) No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

(b) No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because self-financing authority is provided in subdivision (c) of Section 408 of the Revenue and Taxation Code to cover any costs to county assessors that may be incurred in carrying on any program or performing any service required to be carried on or performed by this act.

SEC. 36. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The Savings and Loan Commissioner has determined that certain unlawful practices by a small element within the savings association industry continue to occur. This measure attempts to strengthen the commissioner's ability to treat those problems when they arise. Additionally, Chapter 1250 of the Statutes of 1986, to be operative on July 1, 1987, directly conflicts with parts of Division 2 (commencing with Section 5000) of the Financial Code. In order to provide more specific guidelines without delay for association officers, directors, and employees in conducting the business of an association under the laws of this state, as well as prevent confusing conflict of authority in the area of interstate banking, it is necessary that this act take effect immediately.

CHAPTER 1163

An act to add Section 1374.5 to the Health and Safety Code, and to amend Sections 10176, 10177, 11512.5, and 11512.8 of the Insurance Code, relating to insurance.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 1374.5 is added to the Health and Safety Code, to read:

1374.5. A health care service plan, which is issued, renewed, or amended on or after January 1, 1988, which includes mental health services coverage in nongroup contracts may not include a lifetime waiver for that coverage with respect to any applicant. The lifetime waiver of coverage provision shall be deemed unenforceable.

SEC. 2. Section 10176 of the Insurance Code is amended to read:

10176. In disability insurance, the policy may provide for payment of medical, surgical, chiropractic, physical therapy, speech pathology, audiology, acupuncture, professional mental health, dental, hospital, or optometric expenses upon a reimbursement basis, or for the exclusion of any such services, and provision may be made therein for payment of all or a portion of the amount of charge for these services without requiring that the insured first pay the expenses. No such policy shall prohibit the insured from selecting any psychologist or other person who is the holder of a certificate or license under Section 1000, 1634, 2135, 2553, 2630, 2948, 3055, or 4938 of the Business and Professions Code, to perform the particular services covered under the terms of the policy, the certificate holder or licensee being expressly authorized by law to perform such services.

If the insured selects any person who is a holder of a certificate under Section 4938 of the Business and Professions Code, a disability insurer or nonprofit hospital service plan shall pay the bona fide claim of an acupuncturist holding a certificate pursuant to Section 4938 of the Business and Professions Code for the treatment of an insured person only if the insured's policy or contract expressly includes acupuncture as a benefit and includes coverage for the injury or illness treated. Unless the policy or contract expressly includes acupuncture as a benefit, no person who is the holder of any license or certificate set forth in this section shall be paid or reimbursed under such policy for acupuncture.

Nor shall any such policy prohibit the insured, upon referral by a physician and surgeon licensed under Section 2135 of the Business and Professions Code, from selecting any licensed clinical social worker who is the holder of a license issued under Section 9040 of the Business and Professions Code or any occupational therapist as specified in Section 2570 of the Business and Professions Code, or any marriage, family and child counselor who is the holder of a license under Section 4980.50 of the Business and Professions Code, to perform the particular services covered under the terms of the policy, or from selecting any speech pathologist or audiologist licensed under Section 2530 of the Business and Professions Code or any registered nurse licensed pursuant to Chapter 6 (commencing with Section 2700) of Division 2 of the Business and Professions Code who possesses a master's degree in psychiatric-mental health nursing and two years of supervised experience in psychiatric-mental health nursing, at such time as the State Board of Registered Nurses produces and maintains a list of those psychiatric-mental health nurses who possess a master's degree in psychiatric-mental health nursing and two years of supervised experience in psychiatric-mental health nursing, to perform services deemed necessary by the referring physician, such certificate holder, licensee or otherwise regulated person, being expressly authorized by law to perform the services.

Nothing in this section shall be construed to allow any certificate holder or licensee enumerated in this section to perform professional mental health services beyond his or her field or fields of competence as established by his or her education, training, and experience. For the purposes of this section, "marriage, family and child counselor" means a licensed marriage, family and child counselor who has received specific instruction in assessment, diagnosis, prognosis, and counseling, and psychotherapeutic treatment of premarital, marriage, family, and child relationship dysfunctions which is equivalent to the instruction required for licensure on January 1, 1981.

An individual disability insurance policy, which is issued, renewed, or amended on or after January 1, 1988, which includes mental health services coverage may not include a lifetime waiver for that coverage with respect to any applicant. The lifetime waiver of

coverage provision shall be deemed unenforceable.

SEC. 3. Section 10177 of the Insurance Code is amended to read:

10177. A self-insured employee welfare benefit plan may provide for payment of professional mental health expenses upon a reimbursement basis, or for the exclusion of such services, and provision may be made therein for payment of all or a portion of the amount of charge for such services without requiring that the employee first pay such expenses. No such plan shall prohibit the employee from selecting any psychologist who is the holder of a certificate issued under Section 2948 of the Business and Professions Code or, upon referral by a physician and surgeon licensed under Section 2135 of the Business and Professions Code, any licensed clinical social worker who is the holder of a license issued under Section 9040 of the Business and Professions Code or any marriage, family, and child counselor who is the holder of a certificate or license under Section 4980.50 of the Business and Professions Code, or any registered nurse licensed pursuant to Chapter 6 (commencing with Section 2700) of Division 2 of the Business and Professions Code who possesses a master's degree in psychiatric-mental health nursing and two years of supervised experience in psychiatric-mental health nursing, at such time as the State Board of Registered Nurses produces and maintains a list of those psychiatric-mental health nurses who possess a master's degree in psychiatric-mental health nursing and two years of supervised experience in psychiatric-mental health nursing, to perform the particular services covered under the terms of the plan, such certificate or license holder being expressly authorized by law to perform such services.

Nothing in this section shall be construed to allow any certificate holder or licensee enumerated in this section to perform professional services beyond his or her field or fields of competence as established by his or her education, training, and experience. For the purposes of this section, "marriage, family and child counselor" shall mean a licensed marriage, family and child counselor who has received specific instruction in assessment, diagnosis, prognosis, and counseling, and psychotherapeutic treatment of premarital, marriage, family and child relationship dysfunctions which is equivalent to the instruction required for licensure on January 1, 1981.

A self-insured employee welfare benefit plan, which is issued, renewed, or amended on or after January 1, 1988, which includes mental health services coverage in nongroup contracts may not include a lifetime waiver for that coverage with respect to any employee. The lifetime waiver of coverage provision shall be deemed unenforceable.

SEC. 4. Section 11512.5 of the Insurance Code is amended to read:

11512.5. (a) On and after the effective date of this section, every nonprofit hospital service plan, including those plans issuing group hospital service contracts, which does not provide or arrange direct

health care services for its members, shall offer coverage for expenses incurred as a result of mental or nervous disorders, under such terms and conditions as may be agreed upon between the plan and the group contract holder. If the terms and conditions include coverage for inpatient care for nervous or mental disorders, the coverage shall extend to treatment provided at all of the following facilities:

(1) A general acute care hospital as defined in subdivision (a) of Section 1250 of the Health and Safety Code.

(2) An acute psychiatric hospital as defined in subdivision (b) of Section 1250 of the Health and Safety Code.

(3) A psychiatric health facility as defined by Section 1250.2 of the Health and Safety Code operating pursuant to licensure by the State Department of Health Services or pursuant to a waiver of licensure by the State Department of Mental Health.

Nothing in this subdivision prohibits the plan which negotiates and enters into a contract with a professional or institutional provider for alternative rates of payment pursuant to Sections 10133 and 11512 from restricting or modifying the choice of providers.

(b) Every nonprofit hospital service plan, including those issuing group hospital service contracts, shall communicate the availability of that coverage to all group contract holders, and to all prospective group contract holders with whom they are negotiating. Every plan shall communicate to prospective group contract holders as to the availability of outpatient coverage for the treatment of mental or nervous disorders. This coverage may include community residential treatment services, as described in Section 5458 of the Welfare and Institutions Code, which are alternatives to institutional care.

SEC. 5. Section 11512.8 of the Insurance Code is amended to read:

11512.8. A hospital service contract may provide for payment of professional mental health expenses upon a reimbursement basis, or for the exclusion of such services, and provision may be made therein for payment of all or a portion of the amount of charge for such services without requiring that the employee first pay such expenses. No such contract shall prohibit the subscriber from selecting any psychologist who is the holder of a certificate issued under Section 2948 of the Business and Professions Code or, upon referral by a physician and surgeon licensed under Section 2135 of the Business and Professions Code, any licensed clinical social worker who is the holder of a license issued under Section 9040 of the Business and Professions Code or any marriage, family and child counselor who is the holder of a license under Section 4980.50 of the Business and Professions Code, or any registered nurse licensed pursuant to Chapter 6 (commencing with Section 2700) of Division 2 of the Business and Professions Code who possesses a master's degree in psychiatric-mental health nursing and two years of supervised experience in psychiatric-mental health nursing, at such time as the State Board of Registered Nurses produces and maintains a list of

those psychiatric-mental health nurses who possess a master's degree in psychiatric-mental health nursing and two years of supervised experience in psychiatric-mental health nursing, to perform the particular services covered under the terms of the contract, such certificate or license holder being expressly authorized by law to perform such services.

Nothing in this section shall be construed to allow any certificate holder or licensee enumerated in this section to perform professional mental health services beyond his or her field or fields of competence as established by his or her education, training and experience. For the purposes of this section, "marriage, family and child counselor" shall mean a licensed marriage, family and child counselor who has received specific instruction in assessment, diagnosis, prognosis, and counseling, and psychotherapeutic treatment of premarital, marriage, family and child relationship dysfunctions which is equivalent to the instruction required for licensure on January 1, 1981.

A hospital service contract, which is issued, renewed, or amended on or after January 1, 1988, which includes mental health services coverage in nongroup contracts may not contain a lifetime waiver for that coverage with respect to any applicant. The lifetime waiver of coverage provision shall be deemed unenforceable.

CHAPTER 1164

An act to amend Sections 20013.7, 20013.8, 20360.5, 20390, 20450, 20652.1, 20803, 20932, and 21211 of, to add Section 20022.4 to, and to repeal and add Section 20894.5 of, the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 20013.7 of the Government Code is amended to read:

This section shall not apply to state miscellaneous members employed by the California State University or the University of California. The board shall provide the affected members a one-month election period commencing on August 1, 1986.

(c) Members eligible to participate in the alternative level of benefits (hereinafter in this part referred to as the Second Tier) may make an irrevocable election to: (1) become subject to the Second Tier benefits provided for in Section 21251.146 for all past state miscellaneous and state industrial service and all future state miscellaneous and state industrial service not excluded by this section; or (2) become subject to the Second Tier benefits provided for in Section 21251.147 for state miscellaneous and state industrial service rendered on and after the effective date of the election to be subject to the Second Tier. On an annual basis, the board shall provide a 30-day period for eligible members to make an irrevocable election to be subject to the Second Tier level of benefits provided for in Section 21251.146 or Section 21251.147. The appointing authority shall provide the member with the election form and the member shall exercise the election within 120 days of becoming a

member. The effective date of the election shall be the date on which the member became a state miscellaneous or state industrial member.

(e) A state miscellaneous or state industrial member who, on or after the effective date of an election to be subject to Section 21251.146 or Section 21251.147, ceases to be a member pursuant to Section 20390 or Section 20390.1 shall, upon again becoming a state miscellaneous or state industrial member, be subject to Section 21251.146 or Section 21251.147 in accordance with his or her previous irrevocable election. This subdivision does not apply to persons who return to membership as employees of the California State University.

Except as otherwise provided in this part, a state miscellaneous or state industrial member subject to Section 21251.146 or Section 21251.147 is subject to all other provisions applicable to state miscellaneous members except those provisions that provide for the payment of an annuity based on contributions. The board has no duty to locate or notify any permanently separated member or to provide the name or address of any permanently separated member to any person, agency, or entity for the purpose of notifying those members.

This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1989, deletes or extends that date.

(b) If he or she is paid his or her normal contributions, unless payment of contributions is the result of an election pursuant to paragraph (1) of subdivision (b) of Section 20013.7, or pursuant to Section 20013.8, or unless, after reducing the member's credited service by the service applicable to the contributions being withdrawn, the member meets the requirements of Section 20390.1 or if he or she is paid a portion of his or her normal contributions where more than one payment is made, or these contributions are held pursuant to Section 20208. For the purposes of this subdivision, (1) deposit in the United States mail of a warrant drawn in favor of a member, addressed to the latest address of the member on file in the office of this system, constitutes payment to the member of the amount for which the warrant is drawn or (2) electronic fund transfer to the person's bank, savings and loan association or credit union account, constitutes payment to the person of the amount of the warrant of funds electronically transferred.

In the case where a member has been separated from state service

for six or more months and has requested a refund of his or her accumulated contributions, but reenters employment covered by this system prior to receipt of the refund of his or her accumulated contributions, he or she shall nevertheless be paid his or her accumulated contributions.

SEC. 8. Section 20803 of the Government Code is amended to read:

SEC. 10. Section 20894.5 is added to the Government Code, to read:

20894.5. Notwithstanding any other provision of this part, for each member absent without compensation due to military service pursuant to Section 20890, the employer shall contribute an amount equal to the contributions which would have been made by the employer and the employee during the absence. The employer's contribution pursuant to this section shall be based upon the member's compensation earnable and the contribution rates in effect at the commencement of the absence, provided that: (1) the member returns to state service within six months after receiving a discharge from military service other than dishonorable; or (2) the member returns to state service within six months after completion of any period of rehabilitation offered by the United States government, except that for purposes of this section, rehabilitation solely for education purposes shall not be considered; or (3) the member is granted a leave of absence from the state employer as of the same date the member was reinstated to that employment from military service, provided that the member returns to state service at the conclusion of the leave; or (4) the member is placed on a state civil service reemployment list within six months after receiving a discharge from military service other than dishonorable and returns to state service upon receipt of an offer of reemployment; or (5) the member retires from this system for service or disability during the course of an absence from state service for military service; or (6) the member dies during the course of an absence from state service for military service.

Any member on leave from state service for military service who elects to continue contributing to this system shall be entitled to a refund of those contributions upon request.

Any member who withdrew contributions during or in contemplation of his or her military service is entitled to the benefits of this section irrespective of whether the contributions are redeposited. The rate for future contributions for the member shall be based upon the member's age at the time the member commenced a leave of absence from state service for service in the

military.

The employer's contribution pursuant to this section may be made either in lump sum, or it may be included in its monthly contribution as adjusted by inclusion of the amount due in the employer rate at the valuation most near in time to the event causing the employer's liability for such contributions. The employer's contributions pursuant to this section shall be used solely for the purpose of paying retirement and death benefits and shall not be paid to the member whose contributions are refunded to him or her pursuant to Section 20652.

This section shall not apply to persons who are granted a leave of absence from state service for purposes of service with the Merchant Marines of the United States, or for purposes of serving on ships operated by or for the United States government other than ships operated by any branch of the armed forces of the United States, or for purposes of service with the Federal Bureau of Investigation, notwithstanding Section 20890.

Whenever a provider has submitted a claim to a liable third party, the provider shall have one year after the month in which the service is rendered for submission of the bill. Whenever a legal proceeding has been commenced with either an administrative or judicial tribunal concerning a bill for which the provider is attempting to obtain payment from a liable third party, the provider shall have one year in which to submit the bill after the month in which the services have been rendered. A copy of the pleadings shall be conclusively presumed to be sufficient evidence of

commencement of a legal proceeding.

(b) Further, the director may, where he finds that delay in the submission of bills was caused by circumstances beyond the control of the provider, extend the period for submission of bills for a period not to exceed one year.

(c) For the purposes of this section, identification of a patient as a Medi-Cal beneficiary shall mean presentation to the provider of the patient's Medi-Cal card.

CHAPTER 1167

An act to amend Sections 25135.1 and 25135.7 of the Health and Safety Code, relating to hazardous waste.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 25135.1 of the Health and Safety Code is amended to read:

25135.1. (a) For purposes of this article, and unless the context indicates otherwise, "county" means a county that notifies the department that it will prepare a county hazardous waste management plan in accordance with this article and receives a grant pursuant to Section 25135.8. "County" also means any city, or two or more cities within a county acting jointly, which notifies the

department that it will prepare a county hazardous waste management plan in accordance with subdivision (c).

(b) A county may, at its discretion, and after notification to the department, prepare a county hazardous waste management plan for the management of all hazardous waste produced in the county. A county hazardous waste management plan prepared pursuant to this article shall serve in lieu of the hazardous waste portion of the county solid waste plan provided for in Article 2 (commencing with Section 66780) of Chapter 2 of Title 7.3 of the Government Code. The county hazardous waste management plan shall be prepared in cooperation with the affected cities in the county and the advisory committee appointed pursuant to Section 25135.2, in accordance with the guidelines adopted by the department pursuant to Section 25135.5, and in accordance with the schedule specified in Section 25135.6.

(c) On or before March 31, 1987, every county shall notify the department and the cities within the county whether the county has elected to prepare a county hazardous waste management plan pursuant to this article. A city, or two or more cities acting jointly, located within a county which elects not to prepare a county hazardous waste management plan or which fails to make an election, on or before March 31, 1987, to prepare a plan, may, at the city's or cities' discretion, elect to undertake the preparation of the plan. The city or cities shall be deemed to be acting in place of the county for purposes of this article and may apply for funding to pay the cost of preparing the plan pursuant to subdivision (c) of Section 25135.8. However, the city or cities may not receive funding pursuant to subdivision (c) of Section 25135.8, unless the proposal to prepare a county hazardous waste management plan by the city or cities is approved by a majority of the cities within the county which contain a majority of the population of the incorporated area of the county and the proposal is received by the department on or before June 30, 1987.

(d) The county hazardous waste management plan authorized by subdivision (b) or (c) shall serve as the primary planning document for hazardous waste management in the county and shall be prepared as a useful informational source for local government and the public. The plan shall include, but is not limited to, all of the following elements:

(1) An analysis of the hazardous waste stream generated in the county, including an accounting of the volumes of hazardous wastes produced in the county, by type of waste, and estimates of the expected rates of hazardous waste production until 1994, by type of waste.

(2) A description of the existing hazardous waste facilities which treat, handle, recycle, and dispose of the hazardous wastes produced in the county, including a determination of the existing capacity of each facility.

(3) An analysis of the potential in the county for recycling

hazardous waste and for reducing the volume and hazard of hazardous waste at the source of generation.

(4) A consideration of the need to manage the small volumes of hazardous waste produced by businesses and households.

(5) A determination of the need for additional hazardous waste facilities to properly manage the volumes of hazardous wastes currently produced or that are expected to be produced during the planning period.

(6) An identification of those hazardous waste facilities that can be expanded to accommodate projected needs and an identification of general areas for new hazardous waste facilities determined to be needed. In lieu of this facility and area identification, the plan may instead include siting criteria to be utilized in selecting sites for new hazardous waste facilities. If siting criteria are included in the county hazardous waste management plan, the plan shall also designate general areas where the criteria might be applicable.

(7) A statement of goals, objectives, and policies for the siting of hazardous waste facilities and the general management of hazardous wastes through the year 2000.

(8) A schedule which describes county and city actions necessary to implement the hazardous waste management plan through the year 2000, including the assigning of dates for carrying out the actions.

(e) In addition to the elements of the plan required by subdivision (d), a county may include a description of any additional local programs which the county determines to be necessary to provide for the proper management of hazardous wastes produced in the county. These programs may include, but are not limited to, public education, enforcement, surveillance, transportation, and administration.

(f) The inclusion of an element in a county hazardous waste management plan pursuant to subdivision (d) or (e) does not authorize the county to adopt a program which the county is not otherwise authorized to adopt under any other provision of law.

SEC. 2. Section 25135.7 of the Health and Safety Code is amended to read:

25135.7. (a) A county shall submit the final county hazardous waste management plan adopted by the county to the department for review and approval on or before October 1, 1988. If a county shows the department that the county has made substantial progress towards completing the county hazardous waste management plan and needs more time to complete the plan, the department may extend this date to February 1, 1989. The department shall, on or before December 31, 1988, or on or before April 30, 1989, if the county is given a time extension, review and either approve or disapprove the county hazardous waste management plan. The department shall approve the county hazardous waste management plan if the department makes all of the following determinations:

(1) The plan substantially complies with the guidelines for the

preparation of hazardous waste management plans adopted by the department.

(2) The plan applies the methods, techniques, and policies established by the department to analyze the waste stream and to determine whether there is a need for additional or expanded hazardous waste facilities to safely manage and properly dispose of the hazardous waste generated within the county.

(3) If the plan contains a determination pursuant to paragraph (5) of subdivision (d) of Section 25135.1 that there is a need for additional or expanded hazardous waste facilities, the plan proposes general areas, or, as determined appropriate by the county, proposes specific sites which may be suitable locations for a facility. However, if the plan instead contains siting criteria for selecting sites for new hazardous waste facilities, the plan shall propose general areas where the criteria might be applicable.

(4) If the county preparing the plan has entered into a formal agreement with other counties to manage hazardous waste, the agreement is documented.

(b) Within 180 days after the department approves a county hazardous waste management plan, the county shall either incorporate the applicable portions of the plan, by reference, into the county's general plan, or enact an ordinance which requires that all applicable zoning, subdivision, conditional use permit, and variance decisions are consistent with the portions of the county hazardous waste management plan which identify specific sites or siting criteria for hazardous waste facilities.

(c) Within 180 days after receiving written notification from the department that it has approved the county hazardous waste management plan, each city within that county shall do one of the following:

(1) Adopt a city hazardous waste management plan containing all of the elements required by subdivision (d) of Section 25135.1 which shall be consistent with the approved county hazardous waste management plan.

(2) Incorporate the applicable portions of the approved county plan, by reference, into the city's general plan.

(3) Enact an ordinance which requires that all applicable zoning, subdivision, conditional use permit, and variance decisions are consistent with the portions of the approved county plan which identify general areas or siting criteria for hazardous waste facilities.

(d) This section does not limit the authority of any city to attach appropriate conditions to the issuance of any land use approval for a hazardous waste facility in order to protect the public health, safety, or welfare, and does not limit the authority of a city to establish more stringent planning requirements or siting criteria than those specified in the county hazardous waste management plan.

(e) Any amendment to an adopted county hazardous waste management plan requires the approval of the department, the

county, and a majority of the cities within the county which contain a majority of the population of the incorporated area of the county.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

(e) This section shall not be construed to confer immunity from liability on any quality assurance committee established in compliance with Sections 4070 and 5624 of the Welfare and

Institutions Code or hospital. In any case in which, but for the enactment of the preceding provisions of this section, a cause of action would arise against a quality assurance committee established in compliance with Sections 4070 and 5624 of the Welfare and Institutions Code or hospital, the cause of action shall exist as if the preceding provisions of this section had not been enacted.

CHAPTER 1171

An act to amend Section 1275 of, and to add Section 1275.6 to, the Health and Safety Code, relating to health.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1275 of the Health and Safety Code is amended to read:

1275. (a) The state department shall adopt, amend, or repeal, in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code and Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13 of this code, such reasonable rules and regulations as may be necessary or proper to carry out the purposes and intent of this chapter and to enable the state department to exercise the powers and perform the duties conferred upon it by this chapter, not inconsistent with any statute of this state including, but not limited to, the State Building Standards Law, Part 2.5 (commencing with Section 18901) of Division 13.

All regulations in effect on December 31, 1973, which were adopted by the State Board of Public Health, the State Department of Public Health, the State Department of Mental Hygiene, or the State Department of Health relating to licensed health facilities shall remain in full force and effect until altered, amended, or repealed by the director or pursuant to Section 25 or other provisions of law.

(b) Notwithstanding this section or any other provision of law, the Office of Statewide Health Planning and Development shall adopt and enforce regulations prescribing building standards for the adequacy and safety of health facility physical plants.

(c) The building standards adopted by the Office of Statewide Health Planning and Development pursuant to subdivision (b) for the adequacy and safety of freestanding physical plants housing outpatient services of a health facility licensed under subdivision (a) or (b) of Section 1250 shall not be more restrictive or comprehensive

than the comparable building standards established, or otherwise made applicable, by the Office of Statewide Health Planning and Development to clinics and other facilities licensed pursuant to Chapter 1 (commencing with Section 1200).

(d) Except as provided in subdivision (f), the licensing standards adopted by the state department under subdivision (a) for outpatient services located in a freestanding physical plant of a health facility licensed under subdivision (a) or (b) of Section 1250 shall not be more restrictive or comprehensive than the comparable licensing standards applied by the state department to clinics and other facilities licensed under Chapter 1 (commencing with Section 1200).

(e) Except as provided in subdivision (f), the state department shall not enforce any standard applicable to outpatient services located in a freestanding physical plant of a health facility licensed pursuant to subdivision (a) or (b) of Section 1250, to the extent that the standard is more restrictive or comprehensive than the comparable licensing standards applied to clinics and other facilities licensed under Chapter 1 (commencing with Section 1200).

(f) All health care professionals providing services in settings authorized by this section shall be members of the organized medical staff of the health facility to the extent medical staff membership would be required for the provision of the services within the health facility. All services shall be provided under the respective responsibilities of the governing body and medical staff of the health facility.

(g) For purposes of this section, "freestanding physical plant" means any building which is not physically attached to a building in which inpatient services are provided.

SEC. 2. Section 1275.6 is added to the Health and Safety Code, to read:

1275.6. (a) A health facility licensed pursuant to subdivision (a) or (b) of Section 1250 may provide in any alternative setting health care services and programs which may be provided by any other provider of health care outside of a hospital building or which are not otherwise specifically prohibited by this chapter. In addition, the state department and the Office of Statewide Health Planning and Development shall adopt and enforce standards which permit the ability of a health facility licensed pursuant to subdivision (a) or (b) of Section 1250 to use its space for alternative purposes.

(b) In adopting regulations implementing this section, and in reviewing an application or other request by a health facility licensed pursuant to subdivision (a) or (b) of Section 1250, pursuant to Section 1265, and subdivision (b) of Section 1276, relating to services provided in alternative settings, the state department may adopt or impose reasonable standards and conditions which promote and protect patient health, safety, security, and quality of health care.

(c) Pending the adoption of regulations referred to in subdivision (b), the state department may condition approval of the alternative

service or alternative setting on reasonable standards consistent with this section and subdivisions (d) and (e) of Section 1275. The state department and the Office of Statewide Health Planning and Development may adopt these standards by mutual agreement with a health facility proposing a service and may, after consultation with appropriate professional and trade associations, establish guidelines for hospitals wishing to institute an alternative service or to provide a service in an alternative setting. Services provided outside of a hospital building under this section shall be subject to the licensing standards, if any, that are applicable to the same or similar service provided by nonhospital providers outside of a hospital building. The intent of this subdivision is to assure timely introduction of safe and efficacious innovations in health care services by providing a mechanism for the temporary implementation and evaluation of standards for alternative services and settings and to facilitate the adoption of appropriate regulations by the state department.

(d) All health care professionals providing services in settings authorized by this section shall be members of the organized medical staff of the health facility to the extent medical staff membership would be required for the provision of the services within the health facility. All services shall be provided under the respective responsibilities of the governing body and medical staff of the health facility. Nothing in this section shall be construed to repeal or otherwise affect Section 2400 of the Business and Professions Code, or to exempt services provided under this section from licensing standards, if any, established by or otherwise applicable to, the same or similar service provided by nonhospital providers outside of a hospital building.

(e) For purposes of this section, "hospital building" shall have the same meaning as that term is defined in Section 15026.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1172

An act to amend Section 786 of, and to add Section 728.3 to, the Public Utilities Code, relating to telephone service.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares as follows:

(1) Since the federal American Telephone and Telegraph Company divestiture decree, there has been general public confusion over the changing competitive nature of telephone service in California, and this has included confusion over policies relating to public telephones.

(2) A more competitive public telephone market has given rise to pay telephones owned and operated by other than telephone corporations, long distance credit-only telephones, and greater emphasis on revenue-generating considerations in the location and placement of telephones available for public use.

(b) It is, therefore, the intent of the Legislature, in amending Section 786 of the Public Utilities Code, to encourage continued consideration of public safety and need in the location and placement of public telephones and to inform telephone subscribers and the public of the availability of public telephone service and the best manner in which the public may contribute input concerning placement and removal of public telephones based on public safety and need.

SEC. 2. Section 728.3 is added to the Public Utilities Code, to read:

728.3. (a) No telephone corporation operating within a service area shall remove any public telephone unless it has posted on the public telephone for not less than 30 days a notice, in a manner and form approved by the commission, indicating that the public telephone is to be removed and containing the appropriate telephone number of the commission which a customer may call for further information.

(b) This section shall not apply when a public telephone is removed for public safety or public nuisance purposes or at the request of the owner or lessee of the property on which the public telephone is located.

SEC. 3. Section 786 of the Public Utilities Code is amended to read:

786. (a) On or before March 1, 1984, and annually thereafter, every telephone corporation operating within a service area shall issue to each of its residential subscribers, in a manner and form approved by the commission, a listing of the residential telephone services it provides, the rates or charges for those services, and the

state or federal regulatory agency or agencies responsible for regulation of those services.

(b) On or before March 1, 1988, and annually thereafter, every telephone corporation operating within a service area providing public telephone service shall provide to each of its residential subscribers, in a manner and form approved by the commission, a description of that public telephone service and the telephone corporation's policies for providing that service, which shall include policies of public need and safety. The description shall also specify how a customer or subscriber can contact the telephone corporation by telephone or mail, or both, for additional information concerning these public telephone policies or for assistance regarding a specific public telephone. The commission shall require that this information be published separately from, but transmitted to subscribers together with, the information specified in subdivision (a).

This subdivision does not apply to any corporation or person which owns or operates coin-activated telephone equipment available for public use but which is not a telephone corporation.

(c) Every charge imposed on business or residential telephone subscribers in response to rules or regulations of the Federal Communications Commission shall be shown separately from other charges on a subscriber's billing statement. Every telephone corporation operating within a service area shall do either of the following:

(1) Identify these charges, by asterisk or other means, with the following phrase:

THIS CHARGE IS (or THESE CHARGES ARE) IMPOSED BY ACTION OF THE FEDERAL COMMUNICATIONS COMMISSION.

(2) Include in the subscriber's billing statement a listing of the total charges imposed pursuant to tariff of the Federal Communications Commission identified with the following phrase:

TOTAL CHARGES IMPOSED BY ACTION OF THE FEDERAL COMMUNICATIONS COMMISSION.

The billing statement shall also provide the address and telephone number of the Federal Communications Commission to which inquiries may be directed.

(d) The commission shall, by rule or order, specify methods for compliance with this section, which shall include all of the following:

(1) An explanation of the configuration of telecommunications services in California following implementation of the final decision of the United States district court for the District of Columbia circuit in the case of United States v American Telephone and Telegraph Company (552 F. Supp. 131) decided on August 19, 1982, and the names, addresses, and telephone numbers of the regulatory agencies responsible for the regulation of intrastate and interstate telephone service.

(2) A general description of the services provided by the telephone corporation or telecommunications provider issuing the

explanation, how those services may be obtained, and a notice that other providers are available.

(3) A description of billing charges which may appear on the telephone corporation's or the telecommunications provider's billing statements.

(4) Procedures the subscribers, including subscribers equipped with telephone devices for the handicapped, may follow to protest items billed to the subscriber, and how to contact the telephone corporation or the telecommunications provider concerning those charges.

(e) This section shall remain in effect only until January 1, 1992, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1992, deletes or extends that date.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1173

An act to amend Sections 2075, 4938, 4940, 4941, 4945, 4967, and 4970 of the Business and Professions Code, relating to acupuncture, and making an appropriation therefor.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 2075 of the Business and Professions Code is amended to read:

2075. The performance of acupuncture by a certified acupuncturist or other licentiate legally authorized to practice acupuncture within his or her scope of practice or a person licensed or certified in another state to perform acupuncture or other forms of traditional oriental medicine, alone or in conjunction with other forms of traditional oriental medicine, when carried on in a program affiliated with and under the jurisdiction of an approved medical school or approved acupuncture school, for the primary purpose of scientific investigation of acupuncture, shall not be in violation of this chapter, but those procedures shall be carried on only under the supervision of a licensed physician and surgeon.

Any medical school or approved acupuncture school conducting research into acupuncture under this section shall report to the Legislature annually on the fifth legislative day of the regular session of the Legislature concerning the results of that research, the

suitability of acupuncture as a therapeutic technique, and performance standards for persons who perform acupuncture.

SEC. 2. Section 4938 of the Business and Professions Code is amended to read:

4938. The committee shall issue a license to practice acupuncture to any person who makes an application and meets the following requirements:

(a) Is at least 18 years of age.

(b) Furnishes satisfactory evidence of completion of (1) an educational and training program or (2) a tutorial program in the practice of an acupuncturist which is approved by the committee or (3) in the case of an applicant who has completed education and training outside the United States or Canada, documented educational training and clinical experience which meets the standards established pursuant to Sections 4939 and 4941.

(c) Passes an examination administered by the committee which tests the applicant's ability, competency, and knowledge in the practice of an acupuncturist. The examination shall include a practical examination of the skills required to competently engage in such practice. Such examination shall be prepared and administered in accordance with regulations adopted by the committee.

The clinical internship training program shall not exceed nine months in duration and shall be located in a clinic in this state, which is approved by the committee pursuant to Section 4939. The length of the clinical internship shall depend upon the grades received in the examination and the clinical training already satisfactorily completed by the individual prior to taking the examination. On and after January 1, 1987, individuals with 800 or more hours of documented clinical training shall be deemed to have met this requirement. The purpose of the clinical internship training program shall be to assure a minimum level of clinical competence.

Each applicant who qualifies for a license shall pay, as a condition precedent to its issuance and in addition to other fees required, the initial licensure fee.

SEC. 3. Section 4940 of the Business and Professions Code is amended to read

4940. (a) In approving tutorial programs under Section 4939, the committee may approve programs served under an approved supervising acupuncturist.

(b) An acupuncturist shall be approved to supervise a trainee, provided the supervisor meets the following conditions:

(1) Is certified to practice acupuncture in this state and that certification is current, valid, and has not been suspended or revoked or otherwise subject to disciplinary action.

(2) Has filed an application with the committee.

The amendments made to this section at the 1987 portion of the 1987–88 Regular Session of the Legislature shall not affect the approval of any supervising acupuncturist which has been issued prior to the effective date of those amendments.

SEC. 4. Section 4941 of the Business and Professions Code is amended to read:

4941. In reviewing applications for certification based upon the completion of a tutorial program in acupuncture, the committee may provide that credit is granted for relevant prior training and experience when that training or experience otherwise meets the standards set by the committee.

SEC. 5. Section 4945 of the Business and Professions Code is amended to read:

4945. (a) The committee shall establish standards for continuing education for acupuncturists.

(b) The committee shall require each acupuncturist to complete 30 hours of continuing education every two years as a condition for renewal of his or her certificate. A provider of continuing education shall apply to the committee for approval to offer continuing education courses for credit toward this requirement on a form developed by the committee, shall pay a fee covering the cost of approval and for the monitoring of the provider by the committee and shall set forth the following information on the application:

(1) Course content.

(2) Test criteria.

(3) Hours of continuing education credit requested for the course.

(4) Experience and training of instructors.

SEC. 6. Section 4967 of the Business and Professions Code is amended to read:

4967. A person who fails to renew his or her certificate within five years after its expiration may not renew it, and it may not be

restored, reissued, or reinstated thereafter, but that person may apply for and obtain a new certificate if he or she meets all of the following requirements:

(a) Has not committed any acts or crimes constituting grounds for denial of certification under Division 1.5 (commencing with Section 475).

(b) Takes and passes the examination, if any, which would be required of him or her if an initial application for certification was being made, or otherwise establishes to the satisfaction of the committee that, with due regard for the public interest, he or she is qualified to practice as an acupuncturist.

(c) Pays all of the fees that would be required if an initial application for certification was being made. The committee may provide for the waiver or refund of all or any part of an examination fee in those cases in which a certificate is issued without an examination pursuant to this section.

SEC. 7. Section 4970 of the Business and Professions Code is amended to read:

4970. The amount of fees prescribed for certified acupuncturists shall be those set forth in this section unless a lower fee is fixed by the committee in accordance with Section 4972:

CHAPTER 1175

An act to amend Section 66484.3 of the Government Code, relating to subdivisions, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 66484.3 of the Government Code is amended to read:

66484.3. (a) Notwithstanding Section 53077.5, the Board of Supervisors of the County of Orange and the city council of any city in that county may, by ordinance, require the payment of a fee as a condition of approval of a final map or as a condition of issuing a building permit for purposes of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares.

(b) The local ordinance may require payment of fees pursuant to this section if:

(1) The ordinance refers to the circulation element of the general plan and, in the case of bridges, to the transportation provisions or flood control provisions of the general plan which identify railways, freeways, streams, or canyons for which bridge crossings are required on the general plan or local roads and in the case of major thoroughfares, to the provisions of the circulation element which identify those major thoroughfares whose primary purpose is to carry through traffic and provide a network connecting to or which is part of the state highway system, and the circulation element, transportation provisions, or flood control provisions have been adopted by the local agency 30 days prior to the filing of a map or application for a building permit. Bridges which are part of a major thoroughfare need not be separately identified in the transportation or flood control provisions of the general plan.

(2) The ordinance provides that there will be a public hearing held by the governing body for each area benefited. Notice shall be given pursuant to Section 65905. In addition to the requirements of Section 65905, the notice shall contain preliminary information related to the boundaries of the area of benefit, estimated cost, and the method of fee apportionment. The area of benefit may include land or improvements in addition to the land or improvements which are the subject of any map or building permit application considered at the proceedings.

(3) The ordinance provides that at the public hearing, the boundaries of the area of benefit, the costs, whether actual or estimated, and a fair method of allocation of costs to the area of benefit and fee apportionment are established. The method of fee apportionment, in the case of major thoroughfares, shall not provide for higher fees on land which abuts the proposed improvement except where the abutting property is provided direct usable access to the major thoroughfare. A description of the boundaries of the area of benefit, the costs, whether actual or estimated, and the method of fee apportionment established at the hearing shall be incorporated in a resolution of the governing body, a certified copy of which shall be recorded by the governing body conducting the hearing with the recorder of the county in which the area of benefit is located. The resolution may subsequently be modified in any respect by the governing body. Modifications shall be adopted in the same manner as the original resolution. Any modification shall be subject to the protest procedures prescribed by paragraph (6). The

resolution may provide for automatic periodic adjustment of fees based upon the California Construction Cost Index prepared and published by the Department of Transportation, without further action of the governing body, including, but not limited to, public notice or hearing. The apportioned fees shall be applicable to all property within the area of benefit and shall be payable as a condition of approval of a final map or as a condition of issuing a building permit for any of the property or portions of the property. Where the area of benefit includes lands not subject to the payment of fees pursuant to this section, the governing body shall make provision for payment of the share of improvement costs apportioned to those lands from other sources, but those sources need not be identified at the time of the adoption of the resolution.

(4) The ordinance provides that payment of fees shall not be required unless the major thoroughfares are in addition to, or a reconstruction or widening of, any existing major thoroughfares serving the area at the time of the adoption of the boundaries of the area of benefit.

(5) The ordinance provides that payment of fees shall not be required unless the planned bridge facility is an original bridge serving the area or an addition to any existing bridge facility serving the area at the time of the adoption of the boundaries of the area of benefit. Fees imposed pursuant to this section shall not be expended to reimburse the cost of existing bridge facility construction, unless these costs are incurred in connection with the construction of an addition to an existing bridge for which fees may be required.

(6) The ordinance provides that if, within the time when protests may be filed under its provisions, there is a written protest, filed with the clerk of the legislative body, by the owners of more than one-half of the area of the property to be benefited by the improvement, and sufficient protests are not withdrawn so as to reduce the area represented to less than one-half of that to be benefited, then the proposed proceedings shall be abandoned, and the legislative body shall not, for one year from the filing of that written protest, commence or carry on any proceedings for the same improvement or acquisition under the provisions of this section, unless the protests are overruled by an affirmative vote of four-fifths of the legislative body.

Nothing in this section shall preclude the processing and recordation of maps in accordance with other provisions of this division if proceedings are abandoned.

Any protests may be withdrawn in writing by the owner who filed the protest, at any time prior to the conclusion of a public hearing held pursuant to the ordinance.

If any majority protest is directed against only a portion of the improvement then all further proceedings under the provisions of this section to construct that portion of the improvement so protested against shall be barred for a period of one year, but the legislative body shall not be barred from commencing new

proceedings not including any part of the improvement or acquisition so protested against. Nothing in this section shall prohibit the legislative body, within the one-year period, from commencing and carrying on new proceedings for the construction of a portion of the improvement so protested against if it finds, by the affirmative vote of four-fifths of its members, that the owners of more than one-half of the area of the property to be benefited are in favor of going forward with that portion of the improvement or acquisition.

(c) Fees paid pursuant to an ordinance adopted pursuant to this section shall be deposited in a planned bridge facility or major thoroughfare fund. A fund shall be established for each planned bridge facility project or each planned major thoroughfare project. If the benefit area is one in which more than one bridge or major thoroughfare is required to be constructed, a fund may be so established covering all of the bridge or major thoroughfare projects in the benefit area. Moneys in the fund shall be expended solely for the construction or reimbursement for construction of the improvement serving the area to be benefited and from which the fees comprising the fund were collected, or to reimburse the county or a city for the cost of constructing the improvement.

(d) An ordinance adopted pursuant to this section may provide for the acceptance of considerations in lieu of the payment of fees.

(e) The county or a city imposing fees pursuant to this section may advance money from its general fund or road fund to pay the cost of constructing the improvements and may reimburse the general fund or road fund from planned bridge facility or major thoroughfares funds established to finance the construction of the improvements.

(f) The county or a city imposing fees pursuant to this section may incur an interest-bearing indebtedness for the construction of bridge facilities or major thoroughfares, and may enter into joint exercise of powers agreements with other local agencies imposing fees pursuant to this section for the purpose of, among others, jointly exercising the duly authorized original power established by this section, in addition to those powers authorized through a joint exercise of powers agreement. The sole security for repayment of the indebtedness shall be moneys in planned bridge facility or major thoroughfares funds.

(g) The term "construction," as used in this section, includes design, acquisition of rights-of-way, and actual construction, including, but not limited to, all direct and indirect environmental, engineering, accounting, legal, administration of construction contracts, and other services necessary therefor. The term "construction" also includes reasonable general agency administrative expenses, not exceeding three hundred thousand dollars ($300,000) in any calendar year after January 1, 1986, as adjusted annually for any increase or decrease in the Consumer Price Index of the Bureau of Labor Statistics of the United States Department of Labor for all Urban Consumers, Los Angeles-Long

Beach-Anaheim, California (1967=100), as published by the United States Department of Commerce, by each agency created pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 for the purpose of constructing bridges and major thoroughfares. "General agency administrative expenses" means those office, personnel, and other customary and normal expenses associated with the direct management and administration of the agency, but not including costs of construction.

(h) Nothing in this section shall be construed to preclude the County of Orange or any city within that county from providing funds for the construction of bridge facilities or major thoroughfares to defray costs not allocated to the area of benefit.

(i) Any city within the County of Orange may require the payment of fees in accordance with this section as to any property in an area of benefit within the city's boundaries, for facilities shown on its general plan or the county's general plan, whether the facilities are situated within or outside the boundaries of the city, and the county may expend fees for facilities or portions thereof located within cities in the county.

(j) The validity of any fee required pursuant to this section shall not be contested in any action or proceeding unless commenced within 60 days after recordation of the resolution described in paragraph (3) of subdivision (b). The provisions of Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure shall be applicable to any such action or proceeding. This subdivision shall also apply to modifications of fee programs.

SEC. 2. Section 66484.3 of the Government Code, as amended by Section 1 of this act, is amended to read:

66484.3. (a) Notwithstanding Section 53077.5, the Board of Supervisors of the County of Orange and the city council of any city in that county may, by ordinance, require the payment of a fee as a condition of approval of a final map or as a condition of issuing a building permit for purposes of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares.

(b) The local ordinance may require payment of fees pursuant to this section if:

(1) The ordinance refers to the circulation element of the general plan and, in the case of bridges, to the transportation provisions or flood control provisions of the general plan which identify railways, freeways, streams, or canyons for which bridge crossings are required on the general plan or local roads, and in the case of major thoroughfares, to the provisions of the circulation element which identify those major thoroughfares whose primary purpose is to carry through traffic and provide a network connecting to or which is part of the state highway system, and the circulation element, transportation provisions, or flood control provisions have been adopted by the local agency 30 days prior to the filing of a map or application for a building permit. Bridges which are part of a major

thoroughfare need not be separately identified in the transportation or flood control provisions of the general plan.

(2) The ordinance provides that there will be a public hearing held by the governing body for each area benefited. Notice shall be given pursuant to Section 65905. In addition to the requirements of Section 65905, the notice shall contain preliminary information related to the boundaries of the area of benefit, estimated cost, and the method of fee apportionment. The area of benefit may include land or improvements in addition to the land or improvements which are the subject of any map or building permit application considered at the proceedings.

(3) The ordinance provides that at the public hearing, the boundaries of the area of benefit, the costs, whether actual or estimated, and a fair method of allocation of costs to the area of benefit and fee apportionment are established. The method of fee apportionment, in the case of major thoroughfares, shall not provide for higher fees on land which abuts the proposed improvement except where the abutting property is provided direct usable access to the major thoroughfare. A description of the boundaries of the area of benefit, the costs, whether actual or estimated, and the method of fee apportionment established at the hearing shall be incorporated in a resolution of the governing body, a certified copy of which shall be recorded by the governing body conducting the hearing with the recorder of the County of Orange. The resolution may subsequently be modified in any respect by the governing body. Modifications shall be adopted in the same manner as the original resolution. Any modification shall be subject to the protest procedures prescribed by paragraph (6). The resolution may provide for automatic periodic adjustment of fees based upon the California Construction Cost Index prepared and published by the Department of Transportation, without further action of the governing body, including, but not limited to, public notice or hearing. The apportioned fees shall be applicable to all property within the area of benefit and shall be payable as a condition of approval of a final map or as a condition of issuing a building permit for any of the property or portions of the property. Where the area of benefit includes lands not subject to the payment of fees pursuant to this section, the governing body shall make provision for payment of the share of improvement costs apportioned to those lands from other sources, but those sources need not be identified at the time of the adoption of the resolution.

(4) The ordinance provides that payment of fees shall not be required unless the major thoroughfares are in addition to, or a reconstruction or widening of, any existing major thoroughfares serving the area at the time of the adoption of the boundaries of the area of benefit.

(5) The ordinance provides that payment of fees shall not be required unless the planned bridge facility is an original bridge serving the area or an addition to any existing bridge facility serving

the area at the time of the adoption of the boundaries of the area of benefit. Fees imposed pursuant to this section shall not be expended to reimburse the cost of existing bridge facility construction, unless these costs are incurred in connection with the construction of an addition to an existing bridge for which fees may be required.

(6) The ordinance provides that if, within the time when protests may be filed under its provisions, there is a written protest, filed with the clerk of the legislative body, by the owners of more than one-half of the area of the property to be benefited by the improvement, and sufficient protests are not withdrawn so as to reduce the area represented to less than one-half of that to be benefited, then the proposed proceedings shall be abandoned, and the legislative body shall not, for one year from the filing of that written protest, commence or carry on any proceedings for the same improvement or acquisition under the provisions of this section, unless the protests are overruled by an affirmative vote of four-fifths of the legislative body.

Nothing in this section shall preclude the processing and recordation of maps in accordance with other provisions of this division if proceedings are abandoned.

Any protests may be withdrawn in writing by the owner who filed the protest, at any time prior to the conclusion of a public hearing held pursuant to the ordinance.

If any majority protest is directed against only a portion of the improvement then all further proceedings under the provisions of this section to construct that portion of the improvement so protested against shall be barred for a period of one year, but the legislative body shall not be barred from commencing new proceedings not including any part of the improvement or acquisition so protested against. Nothing in this section shall prohibit the legislative body, within the one-year period, from commencing and carrying on new proceedings for the construction of a portion of the improvement so protested against if it finds, by the affirmative vote of four-fifths of its members, that the owners of more than one-half of the area of the property to be benefited are in favor of going forward with that portion of the improvement or acquisition.

(c) Fees paid pursuant to an ordinance adopted pursuant to this section shall be deposited in a planned bridge facility or major thoroughfare fund. A fund shall be established for each planned bridge facility project or each planned major thoroughfare project. If the benefit area is one in which more than one bridge or major thoroughfare is required to be constructed, a fund may be so established covering all of the bridge or major thoroughfare projects in the benefit area. Moneys in the fund shall be expended solely for the construction or reimbursement for construction of the improvement serving the area to be benefited and from which the fees comprising the fund were collected, or to reimburse the county or a city for the cost of constructing the improvement.

(d) An ordinance adopted pursuant to this section may provide

for the acceptance of considerations in lieu of the payment of fees.

(e) The county or a city imposing fees pursuant to this section may advance money from its general fund or road fund to pay the cost of constructing the improvements and may reimburse the general fund or road fund from planned bridge facilities or major thoroughfares funds established to finance the construction of the improvements.

(f) The county or a city imposing fees pursuant to this section may incur an interest-bearing indebtedness for the construction of bridge facilities or major thoroughfares, and may enter into joint exercise of powers agreements with other local agencies imposing fees pursuant to this section for the purpose of, among others, jointly exercising the duly authorized original power established by this section, in addition to those powers authorized through a joint exercise of powers agreement. The sole security for repayment of the indebtedness shall be moneys in planned bridge facilities or major thoroughfares funds.

(g) The term "construction," as used in this section, includes design, acquisition of rights-of-way, and actual construction, including, but not limited to, all direct and indirect environmental, engineering, accounting, legal, administration of construction contracts, and other services necessary therefor. The term "construction" also includes reasonable general agency administrative expenses, not exceeding three hundred thousand dollars ($300,000) in any calendar year after January 1, 1986, as adjusted annually for any increase or decrease in the Consumer Price Index of the Bureau of Labor Statistics of the United States Department of Labor for all Urban Consumers, Los Angeles-Long Beach-Anaheim, California (1967=100), as published by the United States Department of Commerce, by each agency created pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 for the purpose of constructing bridges and major thoroughfares. "General agency administrative expenses" means those office, personnel, and other customary and normal expenses associated with the direct management and administration of the agency, but not including costs of construction.

(h) Nothing in this section shall be construed to preclude the County of Orange or any city within that county from providing funds for the construction of bridge facilities or major thoroughfares to defray costs not allocated to the area of benefit.

(i) Any city within the County of Orange may require the payment of fees in accordance with this section as to any property in an area of benefit within the city's boundaries, for facilities shown on its general plan or the county's general plan, whether the facilities are situated within or outside the boundaries of the city, and the county may expend fees for facilities or portions thereof located within cities in the county.

(j) The validity of any fee required pursuant to this section shall not be contested in any action or proceeding unless commenced

within 60 days after recordation of the resolution described in paragraph (3) of subdivision (b). The provisions of Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure shall be applicable to any such action or proceeding. This subdivision shall also apply to modifications of fee programs.

(k) If the County of Orange and any city within that county have entered into a joint powers agreement for the purpose of constructing the bridges and major thoroughfares referred to in Sections 50029 and 66484.3, and if a proposed change of organization or reorganization includes any territory of an area of benefit established pursuant to Sections 50029 and 66484.3, within a successor local agency, the local agency shall not take any action that would impair, delay, frustrate, obstruct, or otherwise impede the construction of the bridges and major thoroughfares referred to in this section.

SEC. 3. Section 66484.3 of the Government Code, as amended by Section 1 of this act, is amended to read:

66484.3. (a) Notwithstanding Section 53077.5, the Board of Supervisors of the County of Orange and the city council or councils of any city or cities in that county may, by ordinance, require the payment of a fee as a condition of approval of a final map or as a condition of issuing a building permit for purposes of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares.

(b) The local ordinance may require payment of fees pursuant to this section if:

(1) The ordinance refers to the circulation element of the general plan and, in the case of bridges, to the transportation provisions or flood control provisions of the general plan which identify railways, freeways, streams, or canyons for which bridge crossings are required on the general plan or local roads, and in the case of major thoroughfares, to the provisions of the circulation element which identify those major thoroughfares whose primary purpose is to carry through traffic and provide a network connecting to or which is part of the state highway system, and the circulation element, transportation provisions, or flood control provisions have been adopted by the local agency 30 days prior to the filing of a map or application for a building permit. Bridges which are part of a major thoroughfare need not be separately identified in the transportation or flood control provisions of the general plan.

(2) The ordinance provides that there will be a public hearing held by the governing body for each area benefited. Notice shall be given pursuant to Section 65905. In addition to the requirements of Section 65905, the notice shall contain preliminary information related to the boundaries of the area of benefit, estimated cost, and the method of fee apportionment. The area of benefit may include land or improvements in addition to the land or improvements which are the subject of any map or building permit application

considered at the proceedings.

(3) The ordinance provides that at the public hearing, the boundaries of the area of benefit, the costs, whether actual or estimated, and a fair method of allocation of costs to the area of benefit and fee apportionment are established. The method of fee apportionment, in the case of major thoroughfares, shall not provide for higher fees on land which abuts the proposed improvement except where the abutting property is provided direct usable access to the major thoroughfare. A description of the boundaries of the area of benefit, the costs, whether actual or estimated, and the method of fee apportionment established at the hearing shall be incorporated in a resolution of the governing body, a certified copy of which shall be recorded by the governing body conducting the hearing with the recorder of the county in which the area of benefit is located. The resolution may subsequently be modified in any respect by the governing body. Modifications shall be adopted in the same manner as the original resolution. Any modification shall be subject to the protest procedures prescribed by paragraph (6). The resolution may provide for automatic periodic adjustment of fees based upon the California Construction Cost Index prepared and published by the Department of Transportation, without further action of the governing body, including, but not limited to, public notice or hearing. The apportioned fees shall be applicable to all property within the area of benefit and shall be payable as a condition of approval of a final map or as a condition of issuing a building permit for any of the property or portions of the property. Where the area of benefit includes lands not subject to the payment of fees pursuant to this section, the governing body shall make provision for payment of the share of improvement costs apportioned to those lands from other sources, but those sources need not be identified at the time of the adoption of the resolution.

(4) The ordinance provides that payment of fees shall not be required unless the major thoroughfares are in addition to, or a reconstruction or widening of, any existing major thoroughfares serving the area at the time of the adoption of the boundaries of the area of benefit.

(5) The ordinance provides that payment of fees shall not be required unless the planned bridge facility is an original bridge serving the area or an addition to any existing bridge facility serving the area at the time of the adoption of the boundaries of the area of benefit. Fees imposed pursuant to this section shall not be expended to reimburse the cost of existing bridge facility construction, unless these costs are incurred in connection with the construction of an addition to an existing bridge for which fees may be required.

(6) The ordinance provides that if, within the time when protests may be filed under its provisions, there is a written protest, filed with the clerk of the legislative body, by the owners of more than one-half of the area of the property to be benefited by the improvement, and sufficient protests are not withdrawn so as to reduce the area

represented to less than one-half of that to be benefited, then the proposed proceedings shall be abandoned, and the legislative body shall not, for one year from the filing of that written protest, commence or carry on any proceedings for the same improvement or acquisition under this section, unless the protests are overruled by an affirmative vote of four-fifths of the legislative body.

Nothing in this section shall preclude the processing and recordation of maps in accordance with other provisions of this division if proceedings are abandoned.

Any protests may be withdrawn in writing by the owner who filed the protest, at any time prior to the conclusion of a public hearing held pursuant to the ordinance.

If any majority protest is directed against only a portion of the improvement then all further proceedings under the provisions of this section to construct that portion of the improvement so protested against shall be barred for a period of one year, but the legislative body shall not be barred from commencing new proceedings not including any part of the improvement or acquisition so protested against. Nothing in this section shall prohibit the legislative body, within the one-year period, from commencing and carrying on new proceedings for the construction of a portion of the improvement so protested against if it finds, by the affirmative vote of four-fifths of its members, that the owners of more than one-half of the area of the property to be benefited are in favor of going forward with that portion of the improvement or acquisition.

(c) Fees paid pursuant to an ordinance adopted pursuant to this section shall be deposited in a planned bridge facility or major thoroughfare fund. A fund shall be established for each planned bridge facility project or each planned major thoroughfare project. If the benefit area is one in which more than one bridge or major thoroughfare is required to be constructed, a fund may be so established covering all of the bridge or major thoroughfare projects in the benefit area. Moneys in the fund shall be expended solely for the construction or reimbursement for construction of the improvement serving the area to be benefited and from which the fees comprising the fund were collected, or to reimburse the county or a city for the cost of constructing the improvement.

(d) An ordinance adopted pursuant to this section may provide for the acceptance of considerations in lieu of the payment of fees.

(e) The county or a city imposing fees pursuant to this section may advance money from its general fund or road fund to pay the cost of constructing the improvements and may reimburse the general fund or road fund from planned bridge facilities or major thoroughfares funds established to finance the construction of the improvements.

(f) The county or a city imposing fees pursuant to this section may incur an interest-bearing indebtedness for the construction of bridge facilities or major thoroughfares, and may enter into joint exercise of powers agreements with other local agencies imposing fees pursuant

to this section, for the purpose of, among others, jointly exercising as a duly authorized original power established by this section, in addition to those through a joint exercise of powers agreement, those powers authorized in Chapter 5 (commencing with Section 31100) of Division 17 of the Streets and Highways Code for the purpose of constructing bridge facilities and major thoroughfares in lieu of a tunnel and appurtenant facilities, and, notwithstanding Section 31200 of the Streets and Highways Code, may acquire by dedication, gift, purchase, or eminent domain, any franchise, rights, privileges, easements, or other interest in property, either real or personal, necessary therefor on segments of the state highway system, including, but not limited to, those segments of the state highway system eligible for federal participation pursuant to Title 23 of the United States Code.

An entity constructing bridge facilities and major thoroughfares pursuant to this section shall design and construct the bridge facilities and major thoroughfares to the standards and specifications of the Department of Transportation then in effect, and may, at any time, transfer all or a portion of the bridge facilities and major thoroughfares to the state subject to the terms and conditions as shall be satisfactory to the Director of the Department of Transportation. Any of these bridge facilities and major thoroughfares shall be designated as a portion of the state highway system prior to its transfer. The sole security for repayment of the indebtedness shall be moneys in planned bridge facilities or major thoroughfares funds. The participants in a joint exercise of powers agreement may also exercise as a duly authorized original power established by this section the power to establish and collect toll charges only for paying for the costs of construction of the major thoroughfare for which the toll is charged and for the costs of collecting the tolls. Major thoroughfares from which tolls are charged shall utilize the toll collection equipment most capable of moving vehicles expeditiously and efficiently, best suited for that purpose as determined by the participants in the joint exercise of powers agreement. However, in no event shall the powers authorized in Chapter 5 (commencing with Section 31100) of Division 17 of the Streets and Highways Code be exercised unless a resolution is first adopted by the legislative body of the agency finding that adequate funding for the portion of the cost of constructing those bridge facilities and major thoroughfares not funded by the development fees collected by the agency is not available from any federal, state, or other source. Any major thoroughfare constructed and operated as a toll road pursuant to this section shall only be constructed parallel to other public thoroughfares and highways.

(g) The term "construction," as used in this section, includes design, acquisition of rights-of-way, and actual construction, including, but not limited to, all direct and indirect environmental, engineering, accounting, legal, administration of construction contracts, and other services necessary therefor. The term

"construction" also includes reasonable general agency administrative expenses, not exceeding three hundred thousand dollars ($300,000) in any calendar year after January 1, 1986, as adjusted annually for any increase or decrease in the Consumer Price Index of the Bureau of Labor Statistics of the United States Department of Labor for all Urban Consumers, Los Angeles-Long Beach-Anaheim, California (1967=100), as published by the United States Department of Commerce, by each agency created pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 for the purpose of constructing bridges and major thoroughfares. "General agency administrative expenses" means those office, personnel, and other customary and normal expenses associated with the direct management and administration of the agency, but not including costs of construction.

(h) Nothing in this section shall be construed to preclude the County of Orange or any city within that county from providing funds for the construction of bridge facilities or major thoroughfares to defray costs not allocated to the area of benefit.

(i) Any city within the County of Orange may require the payment of fees in accordance with this section as to any property in an area of benefit within the city's boundaries, for facilities shown on its general plan or the county's general plan, whether the facilities are situated within or outside the boundaries of the city, and the county may expend fees for facilities or portions thereof located within cities in the county.

(j) The validity of any fee required pursuant to this section shall not be contested in any action or proceeding unless commenced within 60 days after recordation of the resolution described in paragraph (3) of subdivision (b). The provisions of Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure shall be applicable to any such action or proceeding. This subdivision shall also apply to modifications of fee programs.

SEC. 4. Section 66484.3 of the Government Code, as amended by Section 1 of this act, is amended to read:

66484.3. (a) Notwithstanding Section 53077.5, the Board of Supervisors of the County of Orange and the city council or councils of any city or cities in that county may, by ordinance, require the payment of a fee as a condition of approval of a final map or as a condition of issuing a building permit for purposes of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares.

(b) The local ordinance may require payment of fees pursuant to this section if:

(1) The ordinance refers to the circulation element of the general plan and, in the case of bridges, to the transportation provisions or flood control provisions of the general plan which identify railways, freeways, streams, or canyons for which bridge crossings are required on the general plan or local roads, and in the case of major

thoroughfares, to the provisions of the circulation element which identify those major thoroughfares whose primary purpose is to carry through traffic and provide a network connecting to or which is part of the state highway system, and the circulation element, transportation provisions, or flood control provisions have been adopted by the local agency 30 days prior to the filing of a map or application for a building permit. Bridges which are part of a major thoroughfare need not be separately identified in the transportation or flood control provisions of the general plan.

(2) The ordinance provides that there will be a public hearing held by the governing body for each area benefited. Notice shall be given pursuant to Section 65905. In addition to the requirements of Section 65905, the notice shall contain preliminary information related to the boundaries of the area of benefit, estimated cost, and the method of fee apportionment. The area of benefit may include land or improvements in addition to the land or improvements which are the subject of any map or building permit application considered at the proceedings.

(3) The ordinance provides that at the public hearing, the boundaries of the area of benefit, the costs, whether actual or estimated, and a fair method of allocation of costs to the area of benefit and fee apportionment are established. The method of fee apportionment, in the case of major thoroughfares, shall not provide for higher fees on land which abuts the proposed improvement except where the abutting property is provided direct usable access to the major thoroughfare. A description of the boundaries of the area of benefit, the costs, whether actual or estimated, and the method of fee apportionment established at the hearing shall be incorporated in a resolution of the governing body, a certified copy of which shall be recorded by the governing body conducting the hearing with the recorder of the County of Orange. The resolution may subsequently be modified in any respect by the governing body. Modifications shall be adopted in the same manner as the original resolution. Any modification shall be subject to the protest procedures prescribed by paragraph (6). The resolution may provide for automatic periodic adjustment of fees based upon the California Construction Cost Index prepared and published by the Department of Transportation, without further action of the governing body, including, but not limited to, public notice or hearing. The apportioned fees shall be applicable to all property within the area of benefit and shall be payable as a condition of approval of a final map or as a condition of issuing a building permit for any of the property or portions of the property. Where the area of benefit includes lands not subject to the payment of fees pursuant to this section, the governing body shall make provision for payment of the share of improvement costs apportioned to those lands from other sources, but those sources need not be identified at the time of the adoption of the resolution.

(4) The ordinance provides that payment of fees shall not be

required unless the major thoroughfares are in addition to, or a reconstruction or widening of, any existing major thoroughfares serving the area at the time of the adoption of the boundaries of the area of benefit.

(5) The ordinance provides that payment of fees shall not be required unless the planned bridge facility is an original bridge serving the area or an addition to any existing bridge facility serving the area at the time of the adoption of the boundaries of the area of benefit. Fees imposed pursuant to this section shall not be expended to reimburse the cost of existing bridge facility construction, unless these costs are incurred in connection with the construction of an addition to an existing bridge for which fees may be required.

(6) The ordinance provides that if, within the time when protests may be filed under its provisions, there is a written protest, filed with the clerk of the legislative body, by the owners of more than one-half of the area of the property to be benefited by the improvement, and sufficient protests are not withdrawn so as to reduce the area represented to less than one-half of that to be benefited, then the proposed proceedings shall be abandoned, and the legislative body shall not, for one year from the filing of that written protest, commence or carry on any proceedings for the same improvement or acquisition under this section, unless the protests are overruled by an affirmative vote of four-fifths of the legislative body.

Nothing in this section shall preclude the processing and recordation of maps in accordance with other provisions of this division if proceedings are abandoned.

Any protests may be withdrawn in writing by the owner who filed the protest, at any time prior to the conclusion of a public hearing held pursuant to the ordinance.

If any majority protest is directed against only a portion of the improvement then all further proceedings under the provisions of this section to construct that portion of the improvement so protested against shall be barred for a period of one year, but the legislative body shall not be barred from commencing new proceedings not including any part of the improvement or acquisition so protested against. Nothing in this section shall prohibit the legislative body, within the one-year period, from commencing and carrying on new proceedings for the construction of a portion of the improvement so protested against if it finds, by the affirmative vote of four-fifths of its members, that the owners of more than one-half of the area of the property to be benefited are in favor of going forward with that portion of the improvement or acquisition.

(c) Fees paid pursuant to an ordinance adopted pursuant to this section shall be deposited in a planned bridge facility or major thoroughfare fund. A fund shall be established for each planned bridge facility project or each planned major thoroughfare project. If the benefit area is one in which more than one bridge or major thoroughfare is required to be constructed, a fund may be so established covering all of the bridge or major thoroughfare projects

in the benefit area. Moneys in the fund shall be expended solely for the construction or reimbursement for construction of the improvement serving the area to be benefited and from which the fees comprising the fund were collected, or to reimburse the county or a city for the cost of constructing the improvement.

(d) An ordinance adopted pursuant to this section may provide for the acceptance of considerations in lieu of the payment of fees.

(e) The county or a city imposing fees pursuant to this section may advance money from its general fund or road fund to pay the cost of constructing the improvements and may reimburse the general fund or road fund from planned bridge facilities or major thoroughfares funds established to finance the construction of the improvements.

(f) The county or a city imposing fees pursuant to this section may incur an interest-bearing indebtedness for the construction of bridge facilities or major thoroughfares, and may enter into joint exercise of powers agreements with other local agencies imposing fees pursuant to this section for the purpose of, among others, jointly exercising the duly authorized original power established by this section, in addition to those powers authorized through a joint exercise of powers agreement, those powers authorized in Chapter 5 (commencing with Section 31100) of Division 17 of the Streets and Highways Code for the purpose of constructing bridge facilities and major thoroughfares in lieu of a tunnel and appurtenant facilities, and, notwithstanding Section 31200 of the Streets and Highways Code, may acquire by dedication, gift, purchase, or eminent domain, any franchise, rights, privileges, easements, or other interest in property, either real or personal, necessary therefor on segments of the state highway system, including, but not limited to, those segments of the state highway system eligible for federal participation pursuant to Title 23 of the United States Code.

An entity constructing bridge facilities and major thoroughfares pursuant to this section shall design and construct the bridge facilities and major thoroughfares to the standards and specifications of the Department of Transportation then in effect, and may, at any time, transfer all or a portion of the bridge facilities and major thoroughfares to the state subject to the terms and conditions as shall be satisfactory to the Director of the Department of Transportation. Any of these bridge facilities and major thoroughfares shall be designated as a portion of the state highway system prior to its transfer. The sole security for repayment of the indebtedness shall be moneys in planned bridge facilities or major thoroughfares funds. The participants in a joint exercise of powers agreement may also exercise as a duly authorized original power established by this section the power to establish and collect toll charges only for paying for the costs of construction of the major thoroughfare for which the toll is charged and for the costs of collecting the tolls. Major thoroughfares from which tolls are charged shall utilize the toll collection equipment most capable of moving vehicles expeditiously

and efficiently, best suited for that purpose as determined by the participants in the joint exercise of powers agreement. However, in no event shall the powers authorized in Chapter 5 (commencing with Section 31100) of Division 17 of the Streets and Highways Code be exercised unless a resolution is first adopted by the legislative body of the agency finding that adequate funding for the portion of the cost of constructing those bridge facilities and major thoroughfares not funded by the development fees collected by the agency is not available from any federal, state, or other source. Any major thoroughfare constructed and operated as a toll road pursuant to this section shall only be constructed parallel to other public thoroughfares and highways.

(g) The term "construction," as used in this section, includes design, acquisition of rights-of-way, and actual construction, including, but not limited to, all direct and indirect environmental, engineering, accounting, legal, administration of construction contracts, and other services necessary therefor. The term "construction" also includes reasonable general agency administrative expenses, not exceeding three hundred thousand dollars ($300,000) in any calendar year after January 1, 1986, as adjusted annually for any increase or decrease in the Consumer Price Index of the Bureau of Labor Statistics of the United States Department of Labor for all Urban Consumers, Los Angeles-Long Beach-Anaheim, California (1967=100), as published by the United States Department of Commerce, by each agency created pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 for the purpose of constructing bridges and major thoroughfares. "General agency administrative expenses" means those office, personnel, and other customary and normal expenses associated with the direct management and administration of the agency, but not including costs of construction.

(h) Nothing in this section shall be construed to preclude the County of Orange or any city within that county from providing funds for the construction of bridge facilities or major thoroughfares to defray costs not allocated to the area of benefit.

(i) Any city within the County of Orange may require the payment of fees in accordance with this section as to any property in an area of benefit within the city's boundaries, for facilities shown on its general plan or the county's general plan, whether the facilities are situated within or outside the boundaries of the city, and the county may expend fees for facilities or portions thereof located within cities in the county.

(j) The validity of any fee required pursuant to this section shall not be contested in any action or proceeding unless commenced within 60 days after recordation of the resolution described in paragraph (3) of subdivision (b). The provisions of Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure shall be applicable to any such action or proceeding. This subdivision shall also apply to modifications of fee programs.

(k) If the County of Orange and any city within that county have entered into a joint powers agreement for the purpose of constructing the bridges and major thoroughfares referred to in Sections 50029 and 66484.3, and if a proposed change of organization or reorganization includes any territory of an area of benefit established pursuant to Sections 50029 and 66484.3, within a successor local agency, the local agency shall not take any action that would impair, delay, frustrate, obstruct, or otherwise impede the construction of the bridges and major thoroughfares referred to in this section.

It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1988, (2) each bill amends Section 66484.3 of the Government Code, (3) SB 1413 is not enacted or as enacted does not amend that section, and (4) this bill is enacted after SB 1073 in which case Section 66484.3 of the Government Code, as amended by Section 1 of this bill shall remain operative only until the operative date of SB 1073 at which time Section 2 of this bill shall become operative, and Sections 3 and 4 of this bill shall not become operative.

SEC. 6. The Legislature finds and declares that the financing of regional transportation systems in Orange County is a matter of statewide concern.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This crisis is affecting the people of the state within Orange County and elsewhere. This act will alleviate that crisis by clarifying the authority of the Board of Supervisors of the County of Orange and city councils within that county to require the payment of fees for purposes of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares, and to make appropriate administrative expenditures for these purposes. It is therefore necessary that this act go into immediate effect.

SEC. 7. Section 1337.6 is added to the Health and Safety Code, to read:

1337.6. (a) Certificates issued under this article shall be renewed every two years and renewal shall be conditional upon the certificateholder submitting documentation of completion of 24 hours of in-service training per year obtained through an approved training program or as approved by the state department.

(b) Certificates issued under this article shall expire on the certificateholder's birthday. If the certificate is renewed more than 30 days after its expiration, the certificateholder, as a condition precedent to renewal, shall also pay the delinquency fee prescribed by this article.

(c) To renew an unexpired certificate, the certificateholder shall, on or before the certificate expiration date, apply for renewal on a form provided by the state department, pay the renewal fee prescribed by this article, and submit documentation of the required in-service training.

(d) The state department shall give written notice to a certificateholder 90 days in advance of the renewal date and, 90 days in advance of the expiration of the fourth year that a renewal fee has not been paid, and shall give written notice informing the certificateholder, in general terms, of the provisions of this article.

(e) Except as otherwise provided in this article, an expired certificate may be renewed at any time within four years after its expiration on the filing of an application for renewal on a form prescribed by the state department, and payment of the renewal fee in effect on the date the application is filed, and documentation of the required in-service education.

Renewal under this article shall be effective on the date on which the application is filed, on the date on which the renewal fee is paid, or on the date on which the delinquency fee is paid, whichever occurs last. If so renewed, the certificate shall continue in effect until the date provided for in this article, when it shall expire if it is not again renewed.

(f) A suspended certificate is subject to expiration and shall be renewed as provided in this article, but this renewal does not entitle the certificateholder, while the certificate remains suspended, and, until it is reinstated, to engage in the certified activity, or in any other activity or conduct in violation of the order or judgment by which the certificate was suspended.

(g) A revoked certificate is subject to expiration as provided in

this article, but it cannot be renewed. If reinstatement of the certificate is approved by the state department, the certificateholder, as a condition precedent to reinstatement, shall pay a reinstatement fee in an amount equal to the renewal fee in effect on the date the application for reinstatement is filed, plus the delinquency fee, if any, accrued at the time of its revocation.

(h) A certificate which is not renewed within four years after its expiration cannot be renewed, restored, reissued, or reinstated except upon completion of a certification program unless deemed otherwise by the state department if all of the following conditions are met:

(1) No fact, circumstance, or condition exists which, if the certificate were issued, would justify its revocation or suspension.

(2) The person pays the application fee provided for by this article.

(3) The person takes and passes any examination that may be required of an applicant for a new certificate at that time, which shall be given by an approved provider of a certification training program.

(2) The renewal fee at not more than twenty dollars ($20).

(3) The delinquency fee at not more than 50 percent of the renewal fee.

(c) The penalty for submitting insufficient funds or any fictitious check, draft, or order on any bank or depository for payment of any fee to the state department shall be ten dollars ($10).

SEC. 10. Section 1337.8 is added to the Health and Safety Code, to read:

1337.8. (a) Every certified nurse assistant may be disciplined as provided in this article.

(2) Placing the holder's certificate on probation.

(3) Suspending the right to practice as a certified nurse assistant for a period not exceeding one year.

(4) Revoking the certificate.

(c) If a certificate is suspended, the holder shall not be entitled to practice during the term of suspension, and shall return his or her certificate to the state department.

Upon the expiration of the term of suspension, he or she shall be reinstated by the state department and shall be entitled to resume practice unless it is established to the satisfaction of the state department that the person has practiced as a certified nurse assistant in California during the term of suspension. In this event, the state department shall revoke the person's certificate.

(d) The state department may suspend or revoke a certificate issued under this article for any of the following:

(5) Conviction of a crime substantially related to the qualifications, functions, and duties of a certified nurse assistant, in which event the record of the conviction shall be conclusive evidence thereof.

(6) Impersonating any applicant, or acting as proxy for an applicant, in any examination required under this article for the issuance of a certificate.

(7) Impersonating another certified nurse assistant, a licensed vocational nurse, or a registered nurse, or permitting or allowing another person to use a certificate for the purpose of nursing the sick or afflicted.

(8) Aiding or assisting, or agreeing to aid or assist, any person or persons, whether a licensed physician or not, in the performance of, or arranging for, a violation of Article 12 (commencing with Section 2220) of Chapter 5.

(1) Conviction for, or use of, any narcotic drug, as defined in Division 10 (commencing with Section 11000), or any dangerous drug, as defined in Article 7 (commencing with Section 4211) of Chapter 9, or alcoholic beverages, to an extent or in a manner dangerous or injurous to the certified nurse assistant, or any other person, or the public, to the extent that this use impairs the ability to conduct, with safety to the public, the practice authorized by a certificate.

(2) Abuse, whether verbal, physical, or mental, of a patient in a

health care facility.

(f) A plea or verdict of guilty, or a conviction following a plea of nolo contendere, made to a charge substantially related to the qualifications, functions, and duties of a certified nurse assistant shall be deemed a conviction within the meaning of this article. The state department may order the certificate suspended or revoked or may decline to issue a certificate when the time for appeal has elapsed, or the judgment or conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under Section 1203.4 of the Penal Code allowing the person to withdraw a plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment.

(g) The state department shall notify the certificateholder of his or her right to an appeal of the suspension or revocation of the certificate pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 11. Section 1337.9 of the Health and Safety Code is amended and renumbered to read:

Code to implement this article. The adoption of the regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health, or safety. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, emergency regulations adopted by the State Department of Health Services in order to implement this article shall not be subject to the review and approval of the Office of Administrative Law. These regulations shall become effective immediately upon filing with the Secretary of State.

SEC. 14. The sum of one hundred seventy-eight thousand dollars ($178,000) is appropriated from the General Fund to the State Department of Health Services for the purposes of this act.

SEC. 15. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1178

An act to add Section 25210.4f to the Government Code, relating to districts.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 25210.4f is added to the Government Code, to read:

25210.4f. In Orange County, a county service area, in addition to other services which it is empowered to provide, may exercise the powers of a harbor improvement district pursuant to Part 2 (commencing with Section 5800) of Division 8 of the Harbors and Navigation Code and the Orange County Flood Control District pursuant to Chapter 723 of the Statutes of 1927 and as subsequently amended. Notwithstanding Sections 25210.10 and 25210.10a, the county service area may include all the territory, both incorporated and unincorporated, within the County of Orange without the adoption of resolutions of consent adopted by the legislative bodies of the cities. These services and facilities shall be deemed "miscellaneous extended services."

SEC. 2. Notwithstanding the provisions of Sections 54902 and 54903 of the Government Code, the formation of a county service area in the County of Orange pursuant to Section 25210.4f of the Government Code shall be effective for the purposes of the allocation of property tax revenues pursuant to Sections 96 through

99 of the Revenue and Taxation Code for the 1988–89 fiscal year if the statement and map or plat required by Section 54900 of the Government Code are filed on or before March 1, 1988.

SEC. 3. The Legislature finds and declares that a special law is necessary and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution because of the unique circumstances involving the County of Orange and two of the special districts which it governs: the Orange County Harbor, Beaches, and Parks District and the Orange County Flood Control District. The Legislature finds, therefore, that this special act which applies only to the County of Orange and the special districts which it governs is necessary.

CHAPTER 1179

An act to add Section 701.5 to the Public Utilities Code, relating to the Public Utilities Commission.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares as follows:

(a) A number of electrical, gas, and telephone corporations are using shareholder earnings that have not been reinvested in the public utility corporation to diversify into economically competitive ventures.

(b) While the use of shareholder earnings for this purpose is appropriate, some electrical, gas, and telephone corporations may also be incurring public utility debt or pledging public utility assets and credit in support of competitive diversification ventures which results in high risks for the customers and subscribers of these corporations.

(c) Except in limited circumstances approved by the Public Utilities Commission, electrical, gas, and telephone corporations should be prohibited from incurring public utility debt or pledging public utility assets and credit in support of competitive diversification ventures.

SEC. 2. Section 701.5 is added to the Public Utilities Code, to read:

701.5. With respect to financing arrangements which are established after January 1, 1988, no electrical, gas, or telephone corporation, whose rates are set by the commission on a cost-of-service basis, shall issue any bond, note, lien, guarantee, or indebtedness of any kind pledging the utility assets or credit for or on behalf of any subsidiary or affiliate of, or corporation holding a

controlling interest in, the electrical, gas, or telephone corporation. The commission may, however, authorize an electrical, gas, or telephone corporation to issue any bond, note, lien, guarantee, or indebtedness pledging the utility assets or credits as follows:

(a) For or on behalf of a subsidiary if its revenues and expenses are included by the commission in establishing rates for the electrical, gas, or telephone corporation.

(b) For or on behalf of a subsidiary if it is engaged in a regulated public utility business in this state or in any other state.

(c) For or on behalf of a subsidiary or affiliate if it engages in activities which support the electric, gas, or telephone corporation in its operations or service, these activities are, or will be, regulated either by the commission or a comparable federal agency, and the issuance of the bond, note, lien, guarantee, or indebtedness is specifically approved in advance by the commission.

The commission shall not approve the bond, note, lien, guarantee, or indebtedness unless the commission finds and determines that the proposed financing will benefit the interests of the utility and its ratepayers.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1180

10652. In the Mt. Tamalpais Game Refuge, no threatened, endangered, or fully-protected birds or mammals may be taken under any permit issued by the department.

Except for wild pigs, it is unlawful to take any bird or mammal under a permit issued by the department unless the person possessing the permit is accompanied by a member of the commission, a deputy of the department, or a sheriff or deputy sheriff of Marin County.

53077.5. (a) Except as otherwise provided in subdivision (b), any local agency which imposes any fees or charges on a residential development for the construction of public improvements or facilities shall not require the payment of those fees or charges, notwithstanding any other provision of law, until the date of the final inspection, or the date the certificate of occupancy is issued, whichever occurs first, provided, that utility service fees may be collected at the time an application for utility service is received. If the residential development contains more than one dwelling, the local agency may determine whether the fees or charges shall be paid on a pro rata basis for each dwelling when it receives its final inspection or certificate of occupancy, whichever occurs first; on a pro rata basis when a certain percentage of the dwellings have received their final inspection or certificate of occupancy, whichever occurs first; or on a lump-sum basis when the first dwelling in the development receives its final inspection or certificate of occupancy, whichever occurs first.

(b) Notwithstanding subdivision (a), the local agency may require the payment of those fees or charges at an earlier time if (1) the local agency determines that the fees or charges will be collected for public improvements or facilities for which an account has been established and funds appropriated and for which the local agency has adopted a proposed construction schedule or plan prior to final inspection or issuance of the certificate of occupancy or (2) the fees or charges are to reimburse the local agency for expenditures previously made. "Appropriated," as used in this subdivision, means authorization by the governing body of the local agency for which the fee is collected to make expenditures and incur obligations for specific purposes.

(c) "Local agency," as used in this section, means a county, city, or city and county, whether general law or chartered, or district. "District" means an agency of the state, formed pursuant to general law or special act, for the local performance of governmental or proprietary functions within limited boundaries.

(d) This section applies only to fees collected by a local agency to fund the construction of public improvements or facilities. It does not apply to fees collected to cover the cost of code enforcement or inspection services, or to other fees collected to pay for the cost of enforcement of local ordinances or state law.

(e) "Final inspection" or "certificate of occupancy," as used in this section, have the same meaning as described in Sections 305 and 307 of the Uniform Building Code, International Conference of Building Officials, 1985 Edition.

Those services shall be furnished for the remainder of the fiscal year during which the incorporation became effective or until the city council requests discontinuance of the services, whichever occurs first.

(b) This subdivision applies only to incorporations for which the petition or resolution of application for incorporation is filed with the commission on or after January 1, 1987. Prior to the commission adopting a resolution making determinations, the board of supervisors may request that the city reimburse the county for the net cost of services provided pursuant to subdivision (a). The commission shall impose this requirement as a term and condition of its resolution. The city shall be obligated to reimburse the county within five years of the effective date of the incorporation or for a period in excess of five years, if the board of supervisors agrees to a longer period. As used in this subdivision, "net cost of services" means the total direct and indirect expense to the county of providing services, as determined pursuant to paragraph (2) of subdivision (c) of Section 56842, adjusted by any subsequent change in the California Consumer Price Index, less any revenues which the county retains that were generated from the formerly unincorporated territory during the period of time the services are furnished pursuant to subdivision (a). This subdivision applies only to those services which are to be assumed by the city.

(c) At the request of the city council, the board of supervisors, by resolution, may determine to furnish, without charge, to the area incorporated all or a portion of services furnished to the area prior to the incorporation for an additional period of time after the end of the fiscal year during which the incorporation became effective. The additional period of time after the end of the fiscal year during which the incorporation became effective for which the board of supervisors determines to provide services, without charge, and the specific services to be provided shall be specifically stated in the resolution adopted by the board of supervisors.

(e) It shall be the duty of the governing body of each city, city and county, or county to maintain or provide for the maintenance of a pound system and a rabies control program for the purpose of carrying out and enforcing the provisions of this section.

(f) It shall be the responsibility of each city, county, or city and county to provide dog vaccination clinics, or to arrange for dog vaccination at clinics operated by veterinary groups or associations, held at strategic locations throughout each city, city and county, or county. The vaccination and licensing procedures may be combined as a single operation in the clinics. No charge in excess of the actual cost shall be made for any one vaccination at a clinic. No owner of a dog shall be required to have his or her dog vaccinated at a public clinic if the owner elects to have the dog vaccinated by a licensed veterinarian of the owner's choice.

All public clinics shall be required to operate under antiseptic immunization conditions comparable to those used in the vaccination of human beings.

(g) In addition to the authority provided in subdivision (a), the ordinance of the responsible city, city and county, or county may provide for the issuance of a license for a period not to exceed three years for dogs that have attained the age of 12 months or older and have been vaccinated against rabies. The person to whom the license is issued pursuant to this subdivision may choose a license period as established by the governing body of up to one, two, or three years. However, when issuing a license pursuant to this subdivision, the license period shall not extend beyond the remaining period of

validity for the current rabies vaccination. A dog owner who complies with this subdivision shall be deemed to have complied with the requirements of subdivision (a).

CHAPTER 1191

An act to add Section 1367.12 to the Health and Safety Code, and to add Section 10195.8 to the Insurance Code, relating to health care.

CHAPTER 1192

An act to amend Sections 11320.2, 13240, and 13250 of, to add Section 13220.5 to, and to add Chapter 5.5 (commencing with Section 13275) to Part 3 of Division 9 of the Welfare and Institutions Code, relating to refugee assistance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds that newly arriving refugees are benefiting from the unique assistance and service delivery model provided in the Refugee Demonstration Project for refugee families. The Legislature further finds that the Refugee Demonstration Project is due to terminate on July 1, 1988, before most refugee-impacted counties will have implemented the Greater Avenues for Independence program, thereby leaving many newly arrived refugees without appropriate employment-directed services. The Legislature therefore declares that it is in the best interest of the people of the State of California to extend the termination date of the Refugee Demonstration Project and permit a transition period to assure there is no service gap and to involve refugee groups, service providers, and voluntary agencies in meaningful planning in order that GAIN services adequately respond to refugee needs.

SEC. 2. Section 11320.2 of the Welfare and Institutions Code is amended to read:

11320.2. (a) County welfare departments shall administer this chapter, in a manner consistent with the provisions of this chapter and regulations adopted by the department in order to implement this chapter.

(b) Each county welfare department, with the cooperation of community college districts, county offices of education, and local private industry councils established under Chapter 4 (commencing with Section 15030) of Division 8 of the Unemployment Insurance Code, shall design a package of services to be provided to participants receiving services under this article, that reflect available resources and local job market needs. A joint plan may be submitted by two or more consenting counties.

Each county plan shall include a participant and labor market needs assessment, to be revised annually, which shall specify all of the following:

(1) The full employment goal of the plan, which shall be the provision of unsubsidized employment for all county registrants subject to this article.

(2) An assessment of the county's current and projected unsubsidized employment needs.

(3) An inventory of services, including those specified in subdivision (c) of Section 11320, available to county residents.

(4) The amount and kind of services required to meet the full employment goal for all registrants.

(5) The amount and kind of services that will be used in the plan year.

(6) An assessment of what services are currently unavailable and needed, including child care services, to meet the full employment goal and a plan for developing the availability of these services within a reasonable period of time, including a proposed program budget.

(c) The county welfare department shall submit to the department a program budget proposal in conjunction with the county plan, as specified in this section. The budget proposal shall specify the costs associated with providing the range of services included in the plan in the most cost-effective manner. The budget proposal shall identify the amount of funds that the county expects to spend for each component and shall provide supporting detail regarding the caseloads anticipated in each component and the amount that will be spent for (1) county employees, by classification, (2) administrative support and overhead, and (3) contracted services and support. Prior to final approval of the county's plan, as specified in subdivision (f), the department shall notify each county of the amount of its allocation of funds to carry out the plan and the assumptions used to develop that allocation. If the allocation is less than the amount of funds that the county proposed in the program budget, the department shall notify the county that the proposed program budget exceeds the funds available. The department shall specify how the costs proposed by the county exceed the costs used to develop the county's allocation. The county may provide any additional documentation to justify the higher funding level. If, after reviewing the additional information, the department finds that the proposed program costs are not reasonable or cost-effective, the county shall submit the necessary revisions to its plan and program budget to keep program expenditures within the amount of its allocation.

In subsequent years, the county welfare department shall submit its program budget proposal for this article at the same time as the county submits its administrative cost control plan for the Aid to Families with Dependent Children, Medi-Cal, and Food Stamp programs. If services are not available in the county, the county plan may include provisions for the purchase of services from other counties.

The plan shall be approved by the board of supervisors of each county, after a public hearing is held in accordance with existing county public hearing procedures that provide adequate notice and an opportunity for affected groups and individuals to present their views and suggestions. In approving the plan, the board shall consider the views presented by affected groups during, and as part of the record of, the public hearing.

Prior to implementation, each plan must receive approval by the department. In determining whether a plan should be approved, the department shall consider the projected long-range cost-effectiveness of the plan, in addition to the appropriateness of the services proposed to be delivered under the plan, given the local labor market, maximum utilization of existing and generic services, and administrative ease.

No plan shall be approved by the department that does not provide an adequate range of services as described in Section 11320.3. With respect to large counties, as defined by the department for cost control purposes, "an adequate range of services" means that the counties shall provide all of the services outlined in Section 11320.3.

If two or more counties submit a joint plan, and the joint plan serves a participant caseload equal to or greater than a large county, the plan shall provide for all of the services outlined in Section 11320.3. If the services listed in Section 11320.3 are not provided for in the county plan, the county shall submit a justification as to why the services are not necessary. No plan shall be approved which requires job search and work experience of participants to the exclusion of a range of services and which does not specify the range of services, both existing and proposed to be offered participants, in accordance with this section.

No funds appropriated for purposes of this article shall be used to fund education or training services in any county plan if these services could reasonably be provided by local educational agencies from Section A or Section B of the State School Fund which are not otherwise committed. No local educational agency shall be authorized to receive funds appropriated for purposes of this article unless it has demonstrated that it has fully committed all the funds from Section A or Section B of the State School Fund available to it, as certified by the district to the Chancellor of California Community Colleges, or the Superintendent of Public Instruction. The Chancellor of the California Community Colleges and the Superintendent of Public Instruction, as appropriate, shall certify this information to the Director of Finance.

(d) In order to measure the effectiveness of county plans under this article, performance standards for this article shall be consistent with those developed for service delivery areas pursuant to Division 8 (commencing with Section 15000) of the Unemployment Insurance Code. The Health and Welfare Agency shall insure that these standards include, but are not limited to all of the following goals:

(1) The training program participants for unsubsidized employment.

(2) Reducing welfare costs by increasing earnings of program participants in unsubsidized employment.

(3) Placement in unsubsidized employment resulting from all program components.

(e) (1) A county plan may also provide that the program

provided for in this article shall apply to recipients of aid under Part 5 (commencing with Section 17000), except that no funds appropriated for purposes of this article shall be utilized for purposes of applying this article to these individuals. A county plan may also provide that the program provided for in this article shall apply to refugees receiving Refugee Cash Assistance or assistance under Article 1 (commencing with Section 13200) of Chapter 5.2. The county shall maintain separate accounting records of expenditures related to applicants for, and recipients of, aid under this chapter, and for the individuals to whom the program applies pursuant to this subdivision. If a county elects to apply the program provided for in this article to refugees receiving Refugee Cash Assistance or assistance under Article 1 (commencing with Section 13200) of Chapter 5.2 or to refugee recipients of aid under Part 5 (commencing with Section 17000), costs of applying the program shall be funded from the county's federal social services and targeted assistance allocation as provided for under Chapter 5.5 (commencing with Section 13275).

(2) If, pursuant to paragraph (1), a county elects to apply the program provided for in this article to refugees or to recipients of aid under Part 5 (commencing with Section 17000), these individuals shall have the same rights, duties, and responsibilities that a participant has who is an applicant for, or a recipient of, aid under this chapter. Any participation by general assistance recipients shall not constitute any actual or implied responsibility for, or assumption of, costs of general assistance by the state.

(f) Each county shall submit its plan to the department within two years from the effective date of this article, as added during the 1985–86 Regular Session. The department shall aprove a county plan within a reasonable period of time after submisison of the county plan. Notwithstanding subdivision (f), a county may phase in the participation in its program for all qualified persons over a period of up to two years from the date upon which the program commences to operate in the county. A county may incorporate into its plan any existing employment or training program for applicants for, or recipients of, aid under this chapter which is operating in the county to the extent that the program is consistent with this article.

(g) This program shall be fully operational on a statewide basis within three years after the effective date of this article, as added during the 1985–86 Regular Session, by which time the department shall approve all county plans.

(h) Counties shall continually monitor their program expenditures throughout the fiscal year. If a county determines that its anticipated expenditures will exceed the amount of that year's allocation as a result of an unexpected event, including caseload increases, court cases, or significant justifiable increases in component costs, the county shall immediately notify the department and submit a reduction plan to the department. The department shall review and respond to a county's proposed

reduction plan within 30 days of reciept of the plan. The department may provide additional funds for the existing appropriation to forestall the need for county program reductions. If the department does not respond within 30 days, the plan shall be deemed to be approved. If the department disapproves the reduction plan the county shall continue to provide services as specified in the approved plan. The department shall submit within 30 days of the disapproval of a reduction plan, a report to the Joint Legislative Budget Committee setting forth the reason for the department's disapproval.

A county's approved reduction plan shall remain in effect for no longer than the duration of the fiscal year in which the plan is approved. At the beginning of the following fiscal year, the county shall provide services pursuant to its approved program plan.

A county's plan shall propose only the following methods of reducing costs and shall use only those methods that are necessary to bring anticipated expenditures within the amounts allocated to the county, and shall use these methods for only a specified period and only in the order in which they appear below:

(1) Temporary exemption of new applicants for aid under the Aid to Families with Dependent Children—Unemployed Parent program.

(2) Temporary exemption of all Aid to Families with Dependent Children Unemployed Parent recipients who have been continuously on aid for less than one year.

(3) Temporary assignment of volunteer registrants to a waiting list, during which time these registrants will receive no services.

(4) Temporary exemption of all new appplicants for aid under the Aid to Families with Dependent Children—Family Group program.

(5) Temporary exemption of all Aid to Families with Dependent Children—Family Group recipients who have been on aid for one year or more.

(6) Temporary exemption of all Aid to Families with Dependent Children—Family Group recipients who have been on aid continuously for less than one year.

(7) Temporary exemption of all Aid to Families with Dependent Children—Family Group recipients who have been continuously on aid for less than two years.

(8) Temporary exemption of all participants, based on the time on aid, with participants who have been on aid the longest being the last to receive exemptions.

Counties that can remain within their allocation shall not implement reductions.

(i) The department shall evaluate the program and shall collect data on program cost, caseload movement, and program outcomes, including data on all of the following:

(1) The numbers of voluntary and mandatory participants in each program component.

(2) The amount of time that each participant remains in each

component and the types of services, including supportive services, each participant receives.

(3) The number of recipients in each component that move to each of the other components.

(4) The number of participants sanctioned as well as the amount and duration of the sanction, the reason for the sanction, and the amount of time the participant was in the program prior to the sanction.

(5) The number of participants who go off aid, and to the extent possible, the reason they have gone off aid.

(6) The number of applicants who reapplied for and received aid after having gone off aid during the time they were participating in the program.

(7) The starting salary of employed participants.

(8) Participants job retention rates.

(9) The appropriateness of the categorization of participants.

(10) The appropriateness of assessments and employment plans.

(11) The appropriateness of preemployment preparation assignments, including a periodic review of the appropriateness of these assignments.

(12) The effectiveness of training components based upon the number of individuals placed in employment.

(13) The timeliness of preemployment prepration assignment reviews.

(14) The appropriateness of sanctions applied under this article.

The department may use standard statistical sampling methods to conduct the evaluation. The department shall maintain this data for the state and for each county. The department may contract with a qualified organization for the evaluation required by this section. The department shall submit a plan for implementing this evaluation to the Joint Legislative Budget Committee. To the extent possible, the data collection system for this evaluation shall be designed to collect data in the least expensive and least time-consuming manner possible.

Utilizing the data compiled pursuant to this subdivision, the department shall, commencing one year after the effective date of this article, as added during the 1985–86 Regular Session, annually report, by January 10, to the Legislature and the Governor on the effectiveness of the program provided for in this article. The Legislative Analyst shall submit a review of this report to the Legislature by April 15 of each year.

SEC. 3. Section 13220.5 is added to the Welfare and Institutions Code, to read:

13220.5. (a) The recipient's participation in refugee employment-related and English language training services shall be guided by an employability plan directed toward the goal of self-sufficiency. The employability plan shall include at least all of the following:

(1) A goal to be attained upon completion of the

employment-related and English language training services.

(2) A description of the job placement, English and occupational training, support service and employment elements with specified objectives and timeframes for completion of each element.

(3) A description of the rights, duties, and responsibilities of the program participants, including the consequences of a refusal to participate in employment-related and English language training services.

(b) The employability plan shall include consideration of the client's employability profile, and shall, to the extent possible, include English language or occupational training where that training will enhance the participant's ability to attain self-sufficiency.

(c) Upon completion of each service component in the employability plan, the client shall be assessed to determine progress towards the goal and, where a client has participated in 90 days of job search and failed to become employed, consideration shall be made for referral to other employment-related and English language training services which could increase his or her employability.

(d) Participant contracts developed for recipients of aid under this chapter in accordance with their participation in the program authorized under Article 3.2 (commencing with Section 11320) of Chapter 2 shall be deemed to meet the requirements of this section.

SEC. 4. Section 13240 of the Welfare and Institutions Code is amended to read:

13240. One year after the commencement of the implementation of this section, and annually thereafter, the department shall submit a report to the Legislature evaluating the effectiveness of the program provided for under this chapter. These reports shall be due to the Legislature 60 days after the periodic reporting period's final date.

The department's reports shall detail any economic and other advantages to the people of California which have resulted from the program, including the decreased use of public cash assistance due to employment and the effect on refugees who, at the point of the termination of eligibility under this chapter, make a transition to the Aid to Families with Dependent Children program.

SEC. 5. Section 13250 of the Welfare and Institutions Code is amended to read:

13250. This chapter shall be operative only if adequate federal funding is made available and necessary waivers are obtained from the federal government necessary to implement this chapter.

The department shall implement this demonstration project on July 1, 1984, or as soon thereafter as is possible. This demonstration project shall be in operation for a period of four years and three months, commencing July 1, 1985, to September 30, 1989, inclusive.

SEC. 6. Chapter 5.5 (commencing with Section 13275) is added to Part 3 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 5.5. COUNTY ADMINISTRATION OF REFUGEE SOCIAL SERVICES FUNDS

13275. The department shall require that a county's costs of administering any employment-related and English training program funded by the Refugee Social Services program funds derived from the federal Refugee Act of 1980, as amended, shall not exceed the percentage for county administrative costs permitted by the department in administering the Refugee Targeted Assistance Program.

13276. (a) After setting aside the necessary state administrative funds, the department shall allocate all social services funds derived from the federal Refugee Act of 1980 (Public Law 96-212), as amended, which are required to be used for employment-related and English language training to each eligible county in the same proportion that refugees on aid in each eligible county bear to the total refugees on aid in all eligible counties.

(b) Commencing October 1, 1987, all federal targeted assistance funds received by the department shall be allocated to eligible counties pursuant to subdivision (a).

(c) For the purposes of this section:

(1) "Aid" means the Aid to Families with Dependent Children program, the Refugee Cash Assistance program, and the Refugee Demonstration Project.

(2) "Eligible county" means a county designated as impacted using a formula to be developed by the department based upon the aided refugee population in the county.

13277. (a) The department shall notify county boards of supervisors of the availability of funds described under subdivision (a) of Section 13276 and shall request that the county inform the department as to whether or not it wishes to administer the refugee services funds in accordance with Section 13275. If the county chooses to administer refugee services funds, it shall designate an agency which shall be responsible for implementing a plan for those services. The plan shall be in accordance with subdivisions (b) and (c) and Sections 13278 and 13279. In the event that the county chooses not to administer the refugee social services funds, the department shall continue to administer the funds on behalf of the county.

(b) Under either alternative specified in subdivision (a), the funds shall be administered based on a plan developed by the county and approved by the department. The plans shall be developed in accordance with guidelines issued by the department and shall, at a minimum, meet all of the following conditions:

(1) Each county board of supervisors shall ensure that the county planning process is designed in such a way as to facilitate refugee participation and public input in that process.

(2) The plan shall include a description of how social services and targeted assistance funds derived from the federal Refugee Act of

1980 (Public Law 96-212), as amended, and allocated to the county by the department will be used to provide services to refugees.

(3) Each plan shall specifically address how services will be delivered to refugees on aid in each county during the period prior to full integration of the county planning and delivery system into the Greater Avenues for Independence system as required in Section 13278.

(4) Each plan shall contain assurances that supportive services, as described in subdivision (e) of Section 11320.3, shall be available to refugees on aid under the Refugee Demonstration Project.

(5) Except in counties using these funds to pay for services for refugees participating in the program authorized under Article 3.2 (commencing with Section 11320) of Chapter 2, the plan shall provide for priority consideration for funding refugee community-based organizations if they demonstrate the capacity to implement the proposed programs. This capacity shall be comparable to that of other competitors who qualify for funding.

(c) In counties electing to utilize these funds to pay for any services provided to, or activity performed on behalf of, any refugee participating in the program authorized under Article 3.2 (commencing with Section 11320) of Chapter 2, the plan approved under Section 11320.2 shall meet the requirements of subdivision (b).

13278. Commencing October 1, 1989, the county shall, to the extent permitted by federal law, utilize funds as described in subdivision (a) of Section 13276 to pay for the costs of any service provided to, or activity performed on behalf of, any refugee participating in the program authorized under Article 3.2 (commencing with Section 11320) of Chapter 2, provided that cost is allowed under a plan approved in accordance with Section 11320.2 and federal requirements for refugee employment-related and English language training funds. The plan shall be developed with significant participation by and input from refugee community organizations, voluntary agencies, and other local public and private entities involved in the refugee resettlement process.

13279. Employment-related and English training shall be available to recipients of Refugee Cash Assistance in those counties which are designated as impacted, pursuant to paragraph (2) of subdivision (c) of Section 13276. If the county does not provide these services under the program authorized under Article 3.2 (commencing with Section 11320), up to 10 percent of the funds allocated to the county in accordance with Section 13276 may be used to establish a separate system to provide the services.

13280. Refugee social services funding which is identified as Refugee Mutual Assistance Incentive funds shall be retained by the department and used to fund mutual assistance associations to provide social adjustment and cultural orientation services.

13281. The requirements established by this chapter shall be applicable only so long as federal funds are available from the federal

Refugee Act of 1980 (Public Law 96-212), as amended.

SEC. 7. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, emergency regulations adopted within 120 days of the enactment of this act in order to implement this act shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health, and safety, or general welfare, and shall not be subject to the review and approval of the Office of Administrative Law. The regulations shall not remain in effect more than 120 days unless the adopting agency complies with all the provisions of Chapter 3.5 as required by subdivision (e) of Section 11346.1 of the Government Code.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure that this program can provide quality needed services to refugees and demonstrate its value for the people of the State of California prior to January 1, 1988, it is necessary that this act go into immediate effect.

CHAPTER 1193

An act to add Article 6.7 (commencing with Section 18513) to Chapter 17 of Part 10 of Division 2 of the Revenue and Taxation Code, relating to taxation, and making an appropriation therefor.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Article 6.7 (commencing with Section 18513) is added to Chapter 17 of Part 10 of Division 2 of the Revenue and Taxation Code, to read:

Article 6.7. Designations for the Vietnam Veterans Memorial Fund

18513. (a) Any taxpayer may designate on the tax return that a contribution in excess of the tax liability, if any, be made to the Vietnam Veterans Memorial Account in the General Fund, as established pursuant to Section 1306 of the Military and Veterans Code.

(b) The contribution shall be in full dollar amounts and may be made individually by each signatory on the joint return.

(c) A designation under subdivision (a) shall be made for any taxable year beginning on or after January 1, 1987, and before

January 1, 1991, on the initial return for that taxable year, and once made shall be irrevocable.

In the event that payments and credits reported on the return, together with any other credits associated with the taxpayer's account do not exceed the tax liability, if any, shown thereupon, the return shall be treated as though no designation had been made.

If the amount designated exceeds the amount actually available for designation, the amount designated shall be adjusted to correspond to the amount actually available for designation.

(d) In the event a taxpayer designates a contribution to more than one account, and the amount available is insufficient to satisfy the total amount designated, the contribution shall be allocated among the designees on a pro rata basis.

(e) The Franchise Tax Board shall revise the forms of the return to include a space labeled the Vietnam Veterans Memorial Fund to allow for the designation permitted under subdivision (a). The forms shall also include in the instructions the information that the contribution may be in the amount of one dollar ($1) or more and that the contribution shall be used to build a memorial to Vietnam veterans and, if contributions exceed the cost of the Vietnam Memorial, excess contributions shall be used to construct a memorial to veterans generally.

(f) A deduction shall be allowed under Article 6 (commencing with Section 17201) of Chapter 3 for any contribution made pursuant to subdivision (a).

18513.1. The Franchise Tax Board shall determine annually the total amount designated pursuant to this article and shall notify the Controller of that amount.

The Controller shall transfer from the Personal Income Tax Fund to the Vietnam Veterans Memorial Account in the General Fund an amount equal to the total amount designated by individuals pursuant to Section 18513 for payment into that account.

18513.2. Notwithstanding Section 13340 of the Government Code, all money transferred to the Vietnam Veterans Memorial Account in the General Fund pursuant to Section 18513.1 is hereby continuously appropriated, without regard to fiscal years, for allocation as follows:

(a) To the Franchise Tax Board for reimbursement of all costs incurred by the Franchise Tax Board in connection with its duties under this article.

(b) To the Vietnam Veterans Memorial Commission for use in the construction of a suitable memorial to Vietnam veterans at the State Capitol.

(c) If moneys in the account exceed the amount required to construct a Vietnam Veterans Memorial, the balance to the Veterans Memorial Commission to be used for a veterans' memorial pursuant to Chapter 5 (commencing with Section 1310) of Division 6 of the *Military and Veterans Code*.

CHAPTER 1194

An act to add Article 6.6 (commencing with Section 69618) to Chapter 2 of Part 42 of the Education Code, relating to student financial aid, and making an appropriation therefor.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987]

I am deleting the appropriation contained in proposed Education Code Section 69618.3 contained in Assembly Bill No. 27.

This bill would appropriate $105,000 to the Student Aid Commission to establish and administer the Engineering and Computer Science Doctoral Assistance Program. The purpose of the program is to award grants and loans to engineering and computer science doctoral students who commit to teach those subjects at a postsecondary institution.

Over the last three years, the state has provided premium salaries for selected faculty, including those in the subject matter fields of engineering and computer science. Also, the state currently provided over $3 million annually for Graduate Fellowships. These awards are based on need and are designed to emphasize fields where there are personnel shortages, including engineering and computer sciences.

Moreover, the demands placed on budget resources require all of us to set priorities. The budget enacted in July, 1987 appropriated nearly $41 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

Thus, after reviewing this legislation, I have concluded that its merits do not sufficiently outweigh the need this year for funding top priority programs and continuing a prudent reserve for economic uncertainties.

I would, however, consider funding the provisions of this bill during the budget process for Fiscal Year 1988–89. It is appropriate to review the relative merits of this program in comparison to all other funding projects. The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit.

With this deletion, I approve Assembly Bill No. 27.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Article 6.6 (commencing with Section 69618) is added to Chapter 2 of Part 42 of the Education Code, to read:

Article 6.6. Engineering and Computer Science Doctoral Assistance Program

69618. (a) The Legislature hereby recognizes that there is a serious and growing shortage of high quality postsecondary faculty in the fields of computer science and engineering, partly due to the shortage of students entering graduate school and the postsecondary teaching profession in these fields.

(b) The Legislature finds that the rising costs of higher education, coupled with a shift in available financial aid from scholarships and grants to loans, make loan repayment options an important consideration in a student's decision to pursue a postsecondary education.

The Legislature also finds that financial aid options are an important consideration in a student's decision to pursue a doctoral

degree in the fields of engineering and computer science rather than seeking employment in business or industry after obtaining a baccalaureate degree.

(c) It is the intent of the Legislature to establish the Engineering and Computer Science Doctoral Assistance Program to provide loans for graduate students who commit to teach in the faculty shortage areas of engineering and computer science in postsecondary educational institutions in this state.

(d) It is the intent of the Legislature that the Engineering and Computer Science Doctoral Assistance Program encourage residents of this state to acquire a doctoral degree in engineering or computer science, and to teach in those fields in the state's four-year public postsecondary educational institutions. It is further the intent of the Legislature that the Engineering and Computer Science Doctoral Assistance Program identify and recruit ethnic minority students with a strong undergraduate academic preparation to enroll in doctoral programs in engineering and computer science. The Legislature finds that this will provide a public benefit by serving to lessen severe faculty shortages in these fields, which impede the economic development of this state, particularly in the area of high technology.

69618.1. (a) The Student Aid Commission, upon certification by an eligible public university of the receipt, from an approved private company or industry group, of a one-to-one matching industry fellowship, shall award annually a state fellowship to the extent state funds are made available for this purpose.

(b) There shall be no more fellowships awarded than are provided for in the Student Aid Commission annual appropriation for this program.

(c) The commission shall select the fellowship recipients according to the provisions of this article. Fellowships shall consist of an annual stipend of ten thousand dollars ($10,000) and, in addition, up to three thousand dollars ($3,000) annually for public university recipients for tuition and fees. The fellowship award shall be in the form of a loan.

(d) Fellowship recipients who upon completion of their doctoral program elect to teach in their field shall have the loan forgiven in equal installments over a period of four years if they teach at a California public college or university. Fellowship recipients who elect not to teach shall repay the loan according to procedures established by the Student Aid Commission pursuant to subdivision (a) of Section 69618.2. Loan repayments shall be used to fund new awards under this article. This subdivision may be utilized by the fellowship recipient to apply to the outstanding balance of the loan, provided at no time the loan was past due.

(e) The Student Aid Commission shall maintain records necessary for meeting the requirements of subdivision (b) of Section 69618.2 regarding fellowships supported by corporate and other nonstate funds as well as fellowships awarded under this article, to the extent

that information is provided by the sponsors of fellowships funded by corporate and other nonstate funds. Other than compiling this information and verifying the existence of matching fellowships, the Student Aid Commission shall not have other responsibilities for the fellowships at other institutions supported by corporate or other nonstate funds unless those funds are given directly to the university for this program.

(f) Fellowships shall be awarded only to students who are enrolled or will be enrolled in a California public university offering doctoral programs approved and designated by the Student Aid Commission as programs in engineering and computer science fields which meet statewide economic needs.

(g) A fellowship shall be awarded for one academic year, but may be renewed, subject to the continued eligibility of the student and the availability of appropriated funds. The fellowship award shall be disbursed in equal amounts each academic term, contingent upon the student continuing in good academic standing on the designated program. In no case shall a student be eligible for a fellowship for more than four years of study.

(h) Affirmative action and equal opportunity goals shall be considered when selecting fellowship recipients. A list of undergraduate program participants who have a strong academic preparation, the potential to succeed in graduate study, and an interest in a career as a college professor shall be prepared by the appropriate unit of the Student Aid Commission. A recipient of a fellowship shall have a teaching assignment equal to a minimum of one-quarter of the time required for a full-time faculty teaching assignment for two years of the maximum four-year fellowship period and shall continue in good standing in full-time attendance in the doctoral program.

69618.2. (a) The Student Aid Commission is requested to convene an advisory committee whose memberships shall include, but not be limited to, academic and financial aid representatives from public universities and representatives from industry. The advisory committee shall formulate eligibility criteria and shall devise the necessary administrative procedures for the implementation of the California Engineering and Computer Science Doctoral Assistance Program. The committee shall also develop procedures to assist graduates in finding teaching assignments in California.

(b) The Student Aid Commission is requested to submit an annual report to the Legislature regarding all of the following, on the basis of sex, age, ethnicity, and state of residency:

(1) The total number of doctoral degrees granted to program recipients in each of the two fields.

(2) The total number of program recipients who become postsecondary faculty in the fields of engineering and computer science and the number of years of teaching service completed by each recipient.

69618.3. The sum of one hundred five thousand dollars ($105,000) is appropriated from the General Fund to the Student Aid Commission for the purposes of funding the California Engineering and Computer Science Doctoral Assistance Program.

CHAPTER 1195

An act relating to the eradication of the white garden snail, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987.]

I am deleting the $225,000 appropriation contained in Section 1 of Assembly Bill No. 186

This bill would appropriate $225,000 from the General Fund to the Department of Food and Agriculture for the purpose of eradicating white garden snail in San Diego County

The demands placed on budget resources require all of us to set priorities The budget enacted in July 1, 1987 appropriated nearly $41 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided

With this deletion, I approve Assembly Bill No. 186.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. The sum of two hundred twenty-five thousand dollars ($225,000) is hereby appropriated from the General Fund to the Department of Food and Agriculture for the purpose of eradicating white garden snails (Theba pisana) from San Diego County.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The white garden snail (Theba pisana) is a serious pest which threatens the agricultural industry and the availability of food for the general public. In order to eradicate white garden snails as soon as possible so as to prevent economic loss to the industry and food loss to the public, it is necessary that this act take effect immediately.

CHAPTER 1196

An act to add and repeal Section 9314.5 of the Welfare and Institutions Code, relating to aging, and making an appropriation therefor.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987]

I am deleting the appropriations contained in Section 2 of Assembly Bill No. 909

This bill would appropriate $50,000 in the 1987–88 Fiscal Year from the General Fund to the Department of Aging Linkages program to establish a new Linkages site in an underserved, rural site.

The 1987 Budget Act provides $3.9 million to support the thirteen site facilities in the Linkages Program While I am supportive of this pilot program which provides case management of elderly persons at risk of placement in a long term care facility, it is due to be evaluated by the Department of Aging by March of 1988 I believe it is premature to pursue additional program sites until we have the benefit of a program evaluation to determine the effectiveness of the Linkages Program as a component of long term care services.

Moreover, the demands placed on budget resources require all of us to set priorities. The budget enacted in July, 1987 appropriated nearly $41 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit

With this deletion, I approve Assembly Bill No. 909

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 9314.5 is added to the Welfare and Institutions Code, to read:

9314.5. (a) The Department of Aging shall, subject to the availability of funds appropriated therefor, as part of the Linkages Program, conduct a grants-in-aid program for the following purposes:

(1) To assist in the establishment of new community-based long-term care programs appropriate to underserved and rural areas.

(2) To assist in the development of case management in areas that currently have no case management services.

(3) To assist in the development of home- and community-based long-term care service systems that accommodate sparse and widely disbursed populations, that are often located in geographic service areas that present topographic and climatic hardships.

(4) To assist in the provision of case management at lower service and cost levels than are required in more population-dense communities and that are designed specifically to respond to and build on the unique characteristics and resources available within

each selected geographic area.

(b) To the extent feasible, within available funding, each local program shall:

(1) Be guided by existing policies of the Department of Aging as now provided for in the Linkages Program with any flexibilities to be negotiated, placed in writing, and agreed upon by both the Department of Aging and the grantee agency.

(2) Include the services of a minimum of one full-time professional and adequate clerical and fiscal support staff.

(c) Each local program funded under this section shall:

(1) Be placed within a host agency that has experience in providing health or social services, or both, to similar adult populations.

(2) Be funded at one hundred thousand dollars ($100,000) each per fiscal year.

(3) Demonstrate, to the satisfaction of the Department of Aging, that the program area has existing services sufficient to permit an effective case management program to operate. This requirement shall be met within Department of Aging guidelines for flexibility in rural and underserved areas.

(d) For purposes of this section, "Linkages Program" means the Institutionalization Prevention Services Program established pursuant to Chapter 4.7 (commencing with Section 9390).

(e) The Department of Aging shall include an evaluation of the program and the implementation of this section in its annual report to the Legislature pursuant to Section 9395.

(f) This section shall remain in effect only until January 1, 1990, and as of that date is repealed, unless a later enacted statute chaptered prior to that date, extends or deletes that date.

SEC. 2. The sum of fifty thousand dollars ($50,000) is hereby appropriated from the General Fund to the Department of Aging, without regard to fiscal years, for the purposes prescribed by Section 9314.5 of the Welfare and Institutions Code, for the period from January 1, 1988, through June 30, 1988. Funding for the duration of the demonstration program shall be appropriated in the annual Budget Act, not to exceed one hundred thousand dollars ($100,000) per program site per fiscal year.

CHAPTER 1197

An act to add Sections 10802.1 and 10802.5 to the Health and Safety Code, relating to health, and making an appropriation therefor.

[Approved by Governor September 25, 1987. Filed with Secretary of State September 26, 1987]

I am deletmg the $635,000 appropriation contained in Section 3 of Assembly Bill No. 1397.

This bill would appropriate $635,000 (General Fund) to the Department of Health Services for an expansion of the Birth Defects Monitoring Program into 20 additional counties. The bill also requires the development of a report on the feasibility of expandmg the program to Los Angeles County

The existing Birth Defects Monitoring Program covers 37 counties and has a current year appropriation of $3,286,000. An evaluation of the existing program has been recently completed There has not been sufficient time, though, to fully review and evaluate the benefits of the program to determine if the proposed expansion is appropriate

The demands placed on budget resources require all of us to set priorities. The budget enacted in July, 1987 appropriated nearly $41 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

Thus, after reviewing this legislation, I have concluded that its merits do not sufficiently outweigh the need this year for funding top priority programs and continuing a prudent reserve for economic uncertainties.

I would, however, consider funding the provisions of this bill during the budget process for Fiscal Year 1988–89 It is appropriate to review the relative merits of this program in comparison to all other funding projects The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit

With this deletion, I approve Assembly Bill No. 1397

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 10802.1 is added to the Health and Safety Code, to read:

During the second half of the 1987–88 fiscal year, the birth defects monitoring program shall be expanded to the Counties of Alpine, Butte, Glenn, Inyo, Lake, Lassen, Mendocino, Modoc, Mono, Plumas, Riverside, San Bernardino, San Luis Obispo, Santa Barbara, Shasta, Sierra, Siskiyou, Tehama, Trinity, and Ventura.

SEC. 2. Section 10802.5 is added to the Health and Safety Code, to read:

10802.5. By January 1, 1989, the department shall submit, to the health policy and fiscal committees of the Legislature, a report on the feasibility of expanding the birth defects monitoring program into the County of Los Angeles. SEC. 3. (a) There is hereby appropriated from the General Fund to the State Department of Health Services, the sum of six hundred thirty-five thousand dollars ($635,000), for expenditure during the last six months of the 1987–88 fiscal year for purposes of implementing Section 10802.1 of the Health and Safety Code, as

contained in Section 1 of this act.

(b) It is the intent of the Legislature that funding for the birth defects monitoring program in future years be through the normal budgetary process.

CHAPTER 1198

An act to add Chapter 9 (commencing with Section 92690) to Part 57 of the Education Code, relating to the University of California, and making an appropriation therefor.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987.]

I am deleting the $240,000 appropriation contained in Section 2 of Assembly Bill No 1597.

This bill would appropriate $240,000 to the University of California Regents, subject to their approval, to establish the California Center for Cooperatives The purpose of the center would be to facilitate and enhance the development of cooperatives, both agricultural and consumer, through various activities

The demands placed on budget resources require all of us to set priorities. The budget enacted in July, 1987 appropriated nearly $41 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Chapter 9 (commencing with Section 92690) is added to Part 57 of the Education Code, to read:

CHAPTER 9. THE CALIFORNIA CENTER FOR COOPERATIVES

92690. The Legislature finds and declares all of the following:

(a) That California consumers enjoy the economic benefits of a substantial cooperative business sector. An estimated one million people participate in a diversity of consumer cooperatives that includes, but is not limited to, housing, child care, food, insurance and health care, student, rural electric, senior citizen, cable, and funeral cooperatives, as well as employee-owned arts and crafts cooperatives and other small business cooperatives. Credit unions, as financial cooperatives, provide services to over 6.2 million members.

In addition, over 40,000 California farmers belong to agricultural cooperatives which produce and market over six billion dollars

($6,000,000,000) of food and fiber products annually.

(b) That land grant universities of this nation, including the University of California, have a long tradition of providing research, educational, and extension programs of direct interest to cooperatives.

(c) That public understanding of the nature and role of cooperatives is minimal. In general, the public does not understand how the cooperative form of business structure is being utilized for their benefit.

(d) That public understanding about the benefits of the cooperative form of business could be greatly improved through a coordinated effort by the University of California and other institutions of higher education to focus on the role of cooperatives in the California economy.

(e) That in the fast changing world economic environment it is important to California that its cooperatives remain a dynamic sector within the state's economy. In order to enhance this sector's development the state is asked to support the establishment of a California Center for Cooperatives.

(f) That the establishment of a California Center for Cooperatives would help to meet the growing need for information, knowledge, and the professional skills necessary to increase the competitiveness of California's cooperatives in the state, national, and world trade and economy.

92691. In order to facilitate the development of cooperatives in the business and education sectors, the University of California is requested to establish a California Center for Cooperatives. The university is further requested to give careful consideration to locating the center at the University of California, Davis, due to the demonstrated leadership role of that campus in providing research, education, and extension services to cooperatives. It is the intent of the Legislature that the center be interdisciplinary in nature and be administered by the university through the appointment of a director.

92692. It is the intent of the Legislature that the center be operated by the University of California to do the following:

(a) Assist cooperatives in the state through the provision of the following:

(1) Board management and staff training.

(2) Technical assistance regarding startups, ongoing operations, membership development, and new initiatives.

(3) Advice regarding capitalization, marketing, merchandising, business, economic development, and financial management strategies.

(b) Serve as a catalyst between the Land Grant University, other higher education programs, and cooperative leaders in the development and support of education, research, and public outreach programs of direct benefit and interest to cooperatives and their members.

(c) Provide access to market development and changes through industry focused knowledge to the boards, officers, committees, management, and staffs of cooperatives.

(d) Strengthen the capacity of California's cooperatives to compete effectively and therefore, create employment opportunities for both the rural and urban population in California.

92693. It is the intent of the Legislature that the center support research, education, and extension activities that advance the body of knowledge concerning cooperatives in general and address the needs of California's agricultural and nonagricultural cooperatives such as:

(a) Support for teaching programs at the graduate and undergraduate levels.

(b) Support for research addressing economic, marketing, social, technology development, and other issues relating to cooperatives.

(c) Dissemination of information on existing programs, services, and publications available to cooperatives through federal, state, university, and public sector sources.

(d) Development and dissemination of education materials relating to cooperatives.

(e) Coordination of meetings, conferences, seminars, and related education programs for cooperative leaders, boards of directors, managers, members of cooperatives, and others.

(f) Encouragement of greater interest in cooperatives by the academic community through student involvement, internships, support of visiting scholars, and other means.

(g) Support strengthening the economic role of cooperatives in state, national, and international trade.

92694. (a) It is the intent of the Legislature that the President of the University of California, or his or her designee, appoint an advisory board to the center.

(b) It is further the intent of the Legislature that:

(1) The advisory board be composed of a majority of individuals who are members of agricultural or nonagricultural cooperatives, with the two sectors being equally represented, as well as, composed of individuals representing institutions of higher education, government, and the general public who are knowledgeable about cooperatives.

(2) The duties of the advisory board include recommending goals, objectives, and priorities for the center and reviewing center activities.

(3) To the extent practicable, the advisory board recommend, and the center strive to undertake, a balanced program of activities that are directly beneficial to agricultural and nonagricultural cooperatives, and representative of the diversity of both cooperative sectors.

(4) The advisory board consider the relative economic impact of cooperatives in California and the service to the public in making its recommendations.

(5) The members of the advisory board serve without compensation, but shall be reimbursed for all necessary expenses incurred in the performance of their duties in accordance with applicable regulations and guidelines of the University of California.

92695. It is the intent of the Legislature, and subject to the availability of funds, that qualified institutions, organizations, and individuals, as determined by the president, or his or her designee, in consultation with the advisory board, be eligible to participate in a competitive grant program to assist in carrying out Sections 92692 and 92693.

92696. It is further the intent of the Legislature that the California Center for Cooperatives be funded by a variety of sources which may include, but not be limited to, the following:

(1) Funds derived from special fund accounts.

(2) Public and private funds secured through cooperative research agreements from entities such as the Agricultural Cooperative Service of the United States Department of Agriculture.

(3) Funds currently available to the university which are directed in the interest of cooperatives.

(4) Legislative appropriations to enhance the awareness and involvement of various minorities in cooperative business enterprises.

(5) Income from courses, seminars, publications, and contractual services.

(6) Contributions from cooperatives and other associated business organizations.

(7) Grants received from private foundations, government agencies, and other public or private sources.

92697. It is the intent of the Legislature that the California Center for Cooperatives be established and in operation on or before July 1, 1989. The University of California is requested to submit to the Legislature by March 15, 1990, a progress report addressing the level of General Fund moneys necessary to operate the center, and describing the steps taken toward establishing and operating the center and, on or before January 1, 1995, a final report evaluating the effectiveness of the center in meeting legislative intent as expressed in this act.

92698. No provision of this chapter shall apply to the University of California unless the Regents of the University of California, by resolution, makes that provision applicable.

SEC. 2. The sum of two hundred forty thousand dollars ($240,000) is hereby appropriated from the General Fund to the University of California for allocation to the California Center for Cooperatives for expenditure to accomplish the purposes of this act.

CHAPTER 1199

An act to add and repeal Chapter 6.5 (commencing with Section 9500) of Part 1 of Division 8.5 of the Welfare and Institutions Code, relating to senior services, and making an appropriation therefor.

[Approved by Governor September 25, 1987 Filed with Secretary of State September 26, 1987.]

I am deleting the appropriations contained in proposed Welfare and Institutions Code Section 9512 (a) and (b) contained in Assembly Bill No 1772.

This bill would require the Department of Aging to establish a three year pilot volunteer service credit program in which individuals may volunteer their services in exchange for service credits which may be exchanged for services when needed. It also appropriates $240,000 General Fund to establish four pilot projects.

The demands placed on budget resources require all of us to set priorities. The budget enacted in July, 1987 appropriated nearly $41 billion in state funds This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

Thus, after reviewing this legislation, I have concluded that its merits do not sufficiently outweigh the need this year for funding top priority programs and continuing a prudent reserve for economic uncertainties

I would, however, consider funding the provisions of this bill during the budget process for Fiscal Year 1988–89. It is appropriate to review the relative merits of this program in comparison to all other funding projects The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit.

With this deletion, I approve Assembly Bill No 1772

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Marks-Mello-Vasconcellos Service Credit Act.

SEC. 1.5. The Legislature finds and declares:

(a) California is a special place, and has long been, in fact and by reputation, a leading state in innovating and developing new ways for addressing our problems and realizing our dreams and our potentials. It is the state watched always and emulated often by the other 49 states, and even by other nations and the entire world.

(b) The California pioneering spirit encourages us to continue in our tradition of being the frontier.

(c) We have enormous and widespread unmet human needs in our state today.

(d) California faces a critical period of limited public resources available for meeting these human needs.

(e) There is an equally enormous untapped wealth in our senior citizens, Californians whose experience, talents, and free time uniquely equip them to provide a valuable, even crucial social infrastructure not otherwise affordable today by our federal, state, and local governments.

(f) Our senior citizens, given their free time, energy, wisdom, experience, and skills are particularly capable of providing volunteer social services to other needing Californians, especially the frail

elderly, children and persons with disabilities, and other Californians at risk of institutionalization.

SEC. 2. The Legislature also finds and declares:

(a) The senior population of California is expanding, and will represent an increasing proportion of the total number of Californians. By the year 2000 more than one in five Californians will be over the age of 55, with 28 percent of this group being more than 75 years old.

(b) In a recent (1984) study by the American Association of Retired Persons, more than 70 percent of the elderly persons polled indicated a preference for staying in their homes as opposed to entering a residential care facility.

(c) More than 1,200,000 elderly Americans who would otherwise be unable to take care of themselves and live independently are today able to live at home because of the assistance of their families and friends.

(d) In light of these demographic trends, increased life expectancy, and severe medical budgetary limitations, the expansion of home and community-based services is one of the most pressing issues facing older Americans today.

SEC. 3. (a) There is a compelling public interest in enlisting all available resources, especially volunteer resources, to assure a satisfactory level of subsistence and services to the frail elderly, children, persons with disabilities, and others at risk of institutionalization.

(b) It is valuable to engender and encourage programs and services and activities which enable Californians to become and remain independent and self-sufficient through providing continuity of community-based in-home and other supportive services enabling seniors to remain in their communities and homes.

(c) It is cost-efficient as well to do so, thereby decreasing the state's financial burden for long-term institutionalization and health.

(d) Persons who are involved in meaningful and satisfying activities remain healthier and live longer, and are less likely to themselves require care.

(e) Our senior citizens deserve encouragement and opportunities to gain a greater sense of their own worth, involvement, meaning, recognition, and contribution to our state and to our fellow Californians.

(f) There is a strong interest in encouraging older Californians, morally and by other direct incentives, to personally assist their fellow Californians.

(g) Voluntary community assistance activities constitute an effective mechanism for providing integrity for the new federalism, whereby individuals in local communities provide the support which enables needy persons to get their needs met, and to become more self-sufficient.

(h) Nonprofit, community and other volunteer operations face obstacles in increasing such services, including decreasing numbers

of available volunteers, liability problems, out-of-pocket costs to volunteers, decreasing charitable contributions due to tax changes, difficulty in recruiting and retaining volunteers, and the lack of an established system to assure earned credits for volunteer efforts.

(i) It is in the state's interest to overcome these obstacles, and to create a climate in which there is greater participation of senior volunteers.

(j) A system whereby our senior citizens could contribute themselves and their talents in helping others and thereby earn credits to assure their own future well-being would improve their own dignity and sense of community and citizenship.

SEC. 4. (a) It is the intent of the Legislature, therefore, to create a statewide program for the utilization of the experience, talent, and time of our senior citizens in building community and meeting unmet human needs, beginning with senior needs, and thereafter to utilize the results of these pilots to investigate the feasibility of expanding the services credit concept to other populations in need.

(b) It is further the intent of the Legislature to assist in the development of local programs that simultaneously promote the following goals:

(1) To encourage our senior citizens who are willing and able to do so to participate in volunteer programs which use their time, talents, skills, experience, wisdom, and caring in providing assistance to eligible persons in need, especially the frail elderly, and other seniors at risk of institutionalization.

(2) To allow these volunteer participants to earn credit for their time so invested in an earned credit system which they may draw upon later in time of their own increasing needs.

(c) It is further the intent of the Legislature to establish a statewide senior partners service credit program by the year 2000 based on the evaluation presented to the Legislature by the Legislative Analyst pursuant to this act.

(d) It is the intent of the Legislature that the senior partners service credit program supplement and not supplant existing public and private services, building upon existing volunteer service agencies and organizations to enhance their effectiveness and individual service goals.

(e) It is the intent of the Legislature that the senior partners service credit program:

(1) Include a system for volunteer recruitment, screening, training, and oversight supervision.

(2) Be designed through a consultative process with seniors and volunteer organizations.

(3) Build upon analagous and existing programs utilizing the concept of earned credits.

(4) Be essentially decentralized and community specific, allowing latitude for experimentation, innovation, pilots, and various models appropriate to diverse communities, demographics, economics, ethnicity, and existing infrastructures in each participating

community.

(5) Utilize extensively the models developed in other states, especially Florida, Missouri, Washington, D.C., and Michigan, calling upon research, accountability, and evaluation studies of each program.

(6) Encourage local participation in matching funds, program design, and goal setting.

(7) Remain free from excessive regulation, criteria, and procedural obstacles except in the assurance of the health and safety of participants and recipients.

(8) Include ongoing program evaluation by the Department of Aging and the Legislative Analyst as to the successful implementation of these goals.

(9) Require liability insurance to protect the volunteer and recipient against injury and property damage; and provisions which would hold the state not liable for damages resulting from such injuries or property loss, nor for earned credits.

(10) Allow for the transference of earned credits to eligible persons.

(11) Permit local area agency on aging service areas the flexibility they need to tailor programs toward the specific needs of their community, including, but not limited to, respite, homemaker, personal care, day care, chore, home health aide, home delivered meals, transportation, and physical, occupational, and speech therapies.

(12) Require every program to survey service recipients on their judgment about the type and quality of care provided to them.

(13) Include a computerized data management system containing volunteer demographic information, services performed, availability of volunteers, and an accounting system to keep track of credits earned, used, and transferred.

(14) Include specific provisions which exempt the state for liability for credits earned.

(15) Require periodic evaluations and program reviews by the Department of Aging and the Legislative Analyst.

(16) Not result in the decrease of any existing public services, nor supplant current levels of public support to public, private, or nonprofit service programs, nor result in the destabilization of existing volunteer programs; and that the senior partners service credit program serve to increase volunteer participation overall, and within existing volunteer programs.

SEC. 5. Chapter 6.5 (commencing with Section 9500) is added to Part 1 of Division 8.5 of the Welfare and Institutions Code, to read:

CHAPTER 6.5. SENIOR PARTNERS SERVICE CREDIT PROGRAM

9500. As used in this chapter:

(a) "Eligible person" means an individual who is 60 years of age or older.

(b) "Service credit" means the unit of exchange upon which the volunteer service credit program operates. There shall be no monetary value attached to the service credit.

(c) "Sponsor" means a nonprofit organization or a consortium of nonprofit organizations that receives and dispenses service credits on behalf of eligible persons and is designated by the department to perform the administrative tasks necessary to implement this chapter.

(d) "Targeted service" means a task for which service credits may be earned when performed by a program volunteer for an eligible person.

(e) "Program volunteer" means an individual 60 years of age or older who earns credits by providing targeted services to an eligible person not related to him or her by blood, marriage, guardianship, or adoption.

(f) "Department" means the Department of Aging.

(g) "Program" means a senior partner service credit program funded entirely or in part by an appropriation under this chapter.

9501. (a) Within eight months after the effective date of this section, the department shall establish a three-year pilot service credit program, in at least four program sites, through which individuals may volunteer targeted services and in return earn service credits that may be subsequently exchanged for targeted services. To implement the program, the department shall develop a process for notifying potential sponsors of the availability of program grants, then awarding grants to those sponsors that best meet the objectives set forth in this chapter. At least one program shall be in a rural area.

(b) (1) The department shall ensure that each sponsor maintains a register containing all of the following:

(A) The names of participating volunteers, services for which they are available, and any other personal information relevant to the program.

(B) An accounting system with the capacity to make available to the department, each volunteer, and to the sponsor a monthly balance of service credits earned and used.

(C) Any other data that may be needed to monitor and administer the program.

(2) Any sponsor that chooses to computerize its register shall first consult with the department to ensure that the intended computer hardware and software are compatible with the department's information needs and with existing or planned computerized registries used by other programs. The sponsor shall also consult with the Legislative Analyst to ensure that the information to be gathered is consistent with the information needed for the evaluation described in Section 9510.

(3) The register required by this subdivision shall be used solely to match volunteers with eligible persons and to accomplish other tasks consistent with the purposes of this chapter.

(c) The department shall require that any grantee of funds awarded pursuant to this chapter shall provide matching funds or in-kind services of equal value, or a combination of both.

9502. Targeted services shall consist of those tasks that the department has determined will foster the independence, self-sufficiency, and noninstitutionalized living of eligible persons by providing services directly to these people or respite care to their caregivers. No program volunteer shall perform services required by law to be performed by a licensed professional, unless that volunteer holds a current, valid license to perform that service. Targeted services shall be defined to fall within the following categories:

(a) Personal care tasks performed in the home of an eligible person, such as personal grooming and meal preparation.

(b) Tasks such as light housekeeping, cleaning, or minor repairs performed in or around the home of an eligible person.

(c) Those tasks, such as transportation and escort services, that enhance the ability of an eligible person to function outside the home.

9503. (a) To initiate the program, the department shall establish a pool of service credits to be distributed to sponsors, who shall in turn be authorized to award them as they determine most appropriate. Each sponsor's awarding of credits to eligible persons shall be commensurate with the availability of volunteers in that particular program.

(b) Volunteers who provide targeted services shall earn one service credit for each hour of targeted services provided.

(c) A volunteer who has service credits may transfer all or part of those credits, either directly or through a sponsor, to an eligible person in the same program. Credits thus transferred may not be retransferred.

(d) A volunteer with accrued service credits may transfer all or part of those credits to the sponsor for the purpose of replenishing the pool of service credits established under subdivision (a).

(e) Except as otherwise provided by Section 9503 or the rules issued by the department under Section 9508, an eligible person may exchange service credits that he or she has earned, received by transfer, or been awarded for an equal number of hours of any targeted service. The sponsor shall determine whether a requested service is a targeted service and whether the requester is an eligible person.

9504. (a) Before entering the program, every program volunteer and every eligible person requesting targeted services from the program, shall read and sign a clearly written information sheet. This sheet shall include a notice that the program is part of a demonstration project that carries no guarantees of credits earned by program volunteers.

(b) To ensure that outstanding service credits can be honored when exchanged for targeted services, each sponsor shall engage in diligent volunteer recruitment.

(c) If the statewide program expires or is terminated, the department shall promptly give written notice to all sponsors and to all persons known to have outstanding credits from the pool of service credits established under subdivision (a) of Section 9503. In the event any sponsor expects its program to end, the sponsor shall promptly give written notice of the program's expiration or termination to all other persons known to have outstanding credits.

9505. (a) Each sponsor shall have an advisory committee that includes all of the following:

(1) Persons skilled in the provision of targeted services.

(2) Persons who represent or advocate the interests of eligible persons.

(3) Persons representing the interests of program volunteers. The advisory committee shall monitor the sponsor's compliance with program requirements, make recommendations to the sponsor on program implementation, and carry out any other program-related tasks that the department deems appropriate.

(b) Members of the advisory committee serve in an informal capacity, and assume no legal responsibility for program actions or decisions.

9506. (a) Volunteers shall not, by virtue of their participation in the program or a demonstration project, be considered for any purpose to be employees or agents of either the department or a sponsor, or be entitled to any monetary compensation for their services. Service credit hours to be claimed are contingent upon the availability of volunteer hours during the course of the pilot program, and in no case shall cause any liability, monetary or otherwise, to accrue to the local program, the department, or the state.

(b) Notwithstanding subdivision (a), sponsors may reimburse volunteers for necessary expenses directly related to their provision of targeted services.

9507. (a) If a volunteer completes a department-approved training program, no cause of action shall arise against a volunteer participating in a program pursuant to this chapter except in instances of gross negligence or intentional conduct.

(b) No cause of action shall arise against the state as a result of any negligent or intentional act or omission of a sponsor or volunteer in the implementation of a program pursuant to this chapter.

9508. The department shall, by September 1, 1988, develop guidelines necessary to carry out the purposes of this chapter. These guidelines shall include, but need not be limited to, standards and procedures with respect to the following:

(a) Volunteer qualifications, screening, preservice and in-service training, monitoring, and termination.

(b) Minimum liability and accident insurance for volunteers.

(c) Sponsor qualifications.

(d) The amount of funds and other resources that a potential program sponsor shall provide as an equal match to state funds. The match requirement may be met by cash or in-kind contributions, or

a combination thereof.

(e) The awarding of service credits.

(f) Weekly and annual limits on the number of service credits a volunteer may earn.

(g) Contingency planning and volunteer reserves.

(h) Program evaluation and the responsibilities of sponsor advisory committees.

9509. The department shall prepare and submit to the Legislature annual reports on the program established by this chapter. These reports shall, at a minimum, include all of the following information on each program:

(a) A description of the participating population, including the number of persons served and the services provided.

(b) The number of service credits outstanding at the conclusion of the reporting period.

(c) Program costs.

9510. (a) The Legislative Analyst shall report to the Legislature on or before January 1, 1990, on the net impact of the Senior Partners Service Credit Program, including, but not limited to, the following evaluative criteria:

(1) The increase in volunteer hours provided as a result of the program.

(2) The increase in the number of individuals served as a result of the program.

(3) The expansion of availability of targeted services by level, type, and recipient as a result of the program.

(4) The total costs of the program, including state grants and sponsor matching contributions.

(5) Estimated direct and indirect cost savings, to the extent information is available, resulting from both of the following:

(A) The provision of services through the program that would otherwise have been provided through the use of other state or local government funds.

(B) The avoidance or postponement of the need for more costly long-term care services for service recipients.

(6) Any other criteria that seem relevant to evaluating the overall impact of the program, including, but not limited to, the impact on volunteer programs in the community, the quality of life of program volunteers and service recipients, benefits to the families and communities of the volunteers and benefits to the families and communities of the service recipients.

(b) The Legislative Analyst shall also investigate the feasibility of expanding the service credit concept to serve other geographical areas or populations in existing service areas, and shall include the results of that investigation in the report required by subdivision (a).

(c) The following outcome measures by the end of the pilot shall constitute criteria for success:

(1) A significant increase in volunteer hours per program on average.

(2) A significant increase in the number of recipients per program on average.

(3) An increase in the type of service provided by the contracting agency.

9511. This chapter shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1991, deletes or extends that date.

9512. (a) There is hereby appropriated the sum of two hundred forty thousand dollars ($240,000) from the General Fund to the Department of Aging for the purpose of implementing this chapter, of which amount the department may use not more than forty thousand dollars ($40,000) for administrative costs. If the department does not award the full appropriation in the first year of the program, the funds available for the second year of this chapter shall be increased by the amount not awarded the previous year.

(b) It is the intent of the Legislature to provide additional funding of this chapter, in a like amount as that appropriated in subdivision (a), for implementation of this chapter, through the Budget Act for the 1988–89 and 1989–90 fiscal years.

CHAPTER 1200

An act to amend Section 338 of, and to add Section 426.80 to, the Code of Civil Procedure, relating to liability.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 338 of the Code of Civil Procedure is amended to read:

338. Within three years:

1. An action upon a liability created by statute, other than a penalty or forfeiture.

2. An action for trespass upon or injury to real property.

3. An action for taking, detaining, or injuring any goods or chattels, including actions for the specific recovery of personal property. The cause of action in the case of theft, as defined in Section 484 of the Penal Code, of any art or artifact is not deemed to have accrued until the discovery of the whereabouts of the art or artifact by the aggrieved party, his or her agent, or the law enforcement agency which originally investigated the theft.

4. An action for relief on the ground of fraud or mistake. The cause of action in that case is not to be deemed to have accrued until the discovery, by the aggrieved party, of the facts constituting the fraud or mistake.

5. An action upon a bond of a public official except any cause of

action based on fraud or embezzlement is not to be deemed to have accrued until the discovery, by the aggrieved party or his or her agent, of the facts constituting the cause of action upon the bond.

6. An action against a notary public on his or her bond or in his or her official capacity except that any cause of action based on malfeasance or misfeasance is not deemed to have accrued until discovery, by the aggrieved party or his or her agent, of the facts constituting the cause of action; provided, that any action based on malfeasance or misfeasance shall be commenced within one year from discovery, by the aggrieved party or his or her agent, of the facts constituting the cause of action or within three years from the performance of the notarial act giving rise to the action, whichever is later; and provided further, that any action against a notary public on his or her bond or in his or her official capacity shall be commenced within six years.

7. An action for slander of title to real property.

8. An action commenced under Section 17536 of the Business and Professions Code. The cause of action in that case shall not be deemed to have accrued until the discovery by the aggrieved party, the Attorney General, the district attorney, the county counsel, the city prosecutor, or the city attorney of the facts constituting grounds for commencing such an action.

9. An action commenced under the Porter-Cologne Water Quality Control Act (Division 7 (commencing with Section 13000) of the Water Code) or the provisions of California law relating to hazardous waste control (Chapter 6.5 (commencing with Section 25100) of Division 20 of the Health and Safety Code). In any inverse condemnation proceeding brought pursuant to Section 19 of Article I of the California Constitution to recover for physical damage to private real property resulting from fire, flood, earth or snow movement, or similar occurrences, the public entity may seek comparative indemnity by way of cross-action against the plaintiff if either of the following is applicable:

(a) The plaintiff engaged in active negligent conduct which was a substantial cause of the property damage.

(b) The plaintiff had actual notice of the risk of property damage and a reasonable opportunity to take action to reduce that risk, but negligently failed to do so, and the plaintiff's negligent failure to act was a substantial cause of the property damage.

In no event shall the amount recovered by the public entity in its

cross-action for comparative indemnity exceed the proportional share of the judgment against the public entity attributable to the plaintiff's degree of fault. In no event shall this section be construed to diminish any existing rights or remedies possessed by the public entity.

SEC. 3. This act applies only to causes of action that arise on or after January 1, 1988.

SEC. 4. This act shall become operative only if Assembly Bills 344, 1530, 1909, 1912, and 2616, and Senate Bills 23, 1526, and 1598 are all enacted and become effective on or before January 1, 1988.

1. An action upon a liability created by statute, other than a penalty or forfeiture.

2. An action for trespass upon or injury to real property.

3. An action for taking, detaining, or injuring any goods or chattels, including actions for the specific recovery of personal property. The cause of action in the case of theft, as defined in Section 484 of the Penal Code, of any art or artifact is not deemed to have accrued until the discovery of the whereabouts of the art or artifact by the aggrieved party, his or her agent, or the law enforcement agency which originally investigated the theft.

4. An action for relief on the ground of fraud or mistake. The cause of action in that case is not to be deemed to have accrued until the discovery, by the aggrieved party, of the facts constituting the fraud or mistake.

5. An action upon a bond of a public official except any cause of

action based on fraud or embezzlement is not to be deemed to have accrued until the discovery, by the aggrieved party or his or her agent, of the facts constituting the cause of action upon the bond.

6. An action against a notary public on his or her bond or in his or her official capacity except that any cause of action based on malfeasance or misfeasance is not deemed to have accrued until discovery, by the aggrieved party or his or her agent, of the facts constituting the cause of action; provided, that any action based on malfeasance or misfeasance shall be commenced within one year from discovery, by the aggrieved party or his or her agent, of the facts constituting the cause of action or within three years from the performance of the notarial act giving rise to the action, whichever is later; and provided further, that any action against a notary public on his or her bond or in his or her official capacity shall be commenced within six years.

7. An action for slander of title to real property.

8. An action commenced under Section 17536 of the Business and Professions Code. The cause of action in that case shall not be deemed to have accrued until the discovery by the aggrieved party, the Attorney General, the district attorney, the county counsel, the city prosecutor, or the city attorney of the facts constituting grounds for commencing such an action.

9. An action commenced under the Porter-Cologne Water Quality Control Act (Division 7 (commencing with Section 13000) of the Water Code) or the provisions of California law relating to hazardous waste control (Chapter 6.5 (commencing with Section 25100) of Division 20 of the Health and Safety Code). The cause of action in that case shall not be deemed to have accrued until the discovery by the State Department of Health Services, the State Water Resources Control Board, or a regional water quality control board of the facts constituting grounds for commencing actions under their jurisdiction.

10. An action to recover for physical damage to private property under Section 19 of Article I of the California Constitution.

SEC. 2. Section 426.80 of the Code of Civil Procedure, as added by Senate Bill 1382 of the 1987–88 Regular Session, is repealed.

SEC. 3. Section 877.5 of the Code of Civil Procedure is amended to read:

877.5. (a) Where an agreement or covenant is made which provides for a sliding scale recovery agreement between one or more, but not all, alleged defendant tortfeasors and the plaintiff or plaintiffs:

(1) The parties entering into any such agreement or covenant shall promptly inform the court in which the action is pending of the existence of the agreement or covenant and its terms and provisions; and

(2) If the action is tried before a jury, and a defendant party to the agreement is called as a witness at trial, the court shall, upon motion of a party, disclose to the jury the existence and content of the

agreement or covenant, unless the court finds that such disclosure will create substantial danger of undue prejudice, of confusing the issues, or of misleading the jury.

The jury disclosure herein required shall be no more than necessary to inform the jury of the possibility that the agreement may bias the testimony of the witness.

(b) As used in this section, a "sliding scale recovery agreement" means an agreement or covenant between a plaintiff or plaintiffs and one or more, but not all, alleged tortfeasor defendants, which limits the liability of the agreeing tortfeasor defendants to an amount which is dependent upon the amount of recovery which the plaintiff is able to recover from the nonagreeing defendant or defendants. This includes, but is not limited to, agreements within the scope of Section 877, and agreements in the form of a loan from the agreeing tortfeasor defendant or defendants to the plaintiff or plaintiffs which is repayable in whole or in part from the recovery against the nonagreeing tortfeasor defendant or defendants.

(c) No sliding scale recovery agreement is effective unless a notice of intent to enter into an agreement has been served on all nonsignatory alleged defendant tortfeasors.

SEC. 4. Section 1141.11 of the Code of Civil Procedure is amended to read:

1141.11. (a) In each superior court with 10 or more judges, all at-issue civil actions pending on or filed after the operative date of this chapter shall be submitted to arbitration, by the presiding judge or the judge designated, under this chapter if the amount in controversy in the opinion of the court will not exceed fifty thousand dollars ($50,000) for each plaintiff, which decision shall not be appealable.

(b) In each superior court with less than 10 judges, the court may provide by local rule, when it determines that it is in the best interests of justice, that all at-issue civil actions pending on or filed after the operative date of this chapter, shall be submitted to arbitration by the presiding judge or the judge designated under this chapter if the amount in controversy in the opinion of the court will not exceed fifty thousand dollars ($50,000) for each plaintiff, which decision shall not be appealable.

(c) In each municipal court district, the municipal court district may provide by local rule, when it is determined to be in the best interests of justice, that all at-issue civil actions pending on or filed after the operative date of this chapter in such judicial district, shall be submitted to arbitration by the presiding judge or the judge designated under this chapter. The provisions of this section shall not apply to any action maintained pursuant to Section 1781 of the Civil Code or Section 116.2 or 1161 of this code.

(d) The provisions of this chapter shall not apply to those actions filed in a superior or municipal court which has been selected pursuant to Section 1823.1 and is participating in a pilot project pursuant to Title 1 (commencing with Section 1823) of Part 3.5;

provided, however, that any superior or municipal court may provide by local rule that the provisions of this chapter shall apply to actions pending on or filed after July 1, 1979. Any action filed in such court after the conclusion of the pilot project shall be subject to the provisions of this chapter.

(e) No local rule of a superior court providing for judicial arbitration may dispense with the conference required pursuant to Section 1141.16.

SEC. 5. Section 204 of the Corporations Code is amended to read:

204. The articles of incorporation may set forth:

(a) Any or all of the following provisions, which shall not be effective unless expressly provided in the articles:

(1) Granting, with or without limitations, the power to levy assessments upon the shares or any class of shares.

(2) Granting to shareholders preemptive rights to subscribe to any or all issues of shares or securities.

(3) Special qualifications of persons who may be shareholders.

(4) A provision limiting the duration of the corporation's existence to a specified date.

(5) A provision requiring, for any or all corporate actions (except as provided in Section 303, subdivision (b) of Section 402.5, subdivision (c) of Section 708 and Section 1900) the vote of a larger proportion or of all of the shares of any class or series, or the vote or quorum for taking action of a larger proportion or of all of the directors, than is otherwise required by this division.

(6) A provision limiting or restricting the business in which the corporation may engage or the powers which the corporation may exercise or both.

(7) A provision conferring upon the holders of any evidences of indebtedness, issued or to be issued by the corporation, the right to vote in the election of directors and on any other matters on which shareholders may vote.

(8) A provision conferring upon shareholders the right to determine the consideration for which shares shall be issued.

(9) A provision requiring the approval of the shareholders (Section 153) or the approval of the outstanding shares (Section 152) for any corporate action, even though not otherwise required by this division.

(10) Provisions eliminating or limiting the personal liability of a director for monetary damages in an action brought by or in the right of the corporation for breach of a director's duties to the corporation and its shareholders, as set forth in Section 309, provided, however, that (A) such a provision may not eliminate or limit the liability of directors (i) for acts or omissions that involve intentional misconduct or a knowing and culpable violation of law, (ii) for acts or omissions that a director believes to be contrary to the best interests of the corporation or its shareholders or that involve the absence of good faith on the part of the director, (iii) for any transaction from which a director derived an improper personal benefit, (iv) for acts or

omissions that show a reckless disregard for the director's duty to the corporation or its shareholders in circumstances in which the director was aware, or should have been aware, in the ordinary course of performing a director's duties, of a risk of serious injury to the corporation or its shareholders, (v) for acts or omissions that constitute an unexcused pattern of inattention that amounts to an abdication of the director's duty to the corporation or its shareholders, (vi) under Section 310, or (vii) under Section 316, (B) no such provision shall eliminate or limit the liability of a director for any act or omission occurring prior to the date when the provision becomes effective, and (C) no such provision shall eliminate or limit the liability of an officer for any act or omission as an officer, notwithstanding that the officer is also a director or that his or her actions, if negligent or improper, have been ratified by the directors.

(11) A provision authorizing, whether by bylaw, agreement, or otherwise, the indemnification of agents (as defined in Section 317) in excess of that expressly permitted by Section 317 for those agents of the corporation for breach of duty to the corporation and its stockholders, provided, however, that the provision may not provide for indemnification of any agent for any acts or omissions or transactions from which a director may not be relieved of liability as set forth in the exception to paragraph (10) or as to circumstances in which indemnity is expressly prohibited by Section 317.

Notwithstanding this subdivision, in the case of a close corporation any of the provisions referred to above may be validly included in a shareholders' agreement. Notwithstanding this subdivision, bylaws may require for all or any actions by the board the affirmative vote of a majority of the authorized number of directors. Nothing contained in this subdivision shall affect the enforceability, as between the parties thereto, of any lawful agreement not otherwise contrary to public policy.

(b) Reasonable restrictions upon the right to transfer or hypothecate shares of any class or classes or series, but no restriction shall be binding with respect to shares issued prior to the adoption of the restriction unless the holders of such shares voted in favor of the restriction.

(c) The names and addresses of the persons appointed to act as initial directors.

(d) Any other provision, not in conflict with law, for the management of the business and for the conduct of the affairs of the corporation, including any provision which is required or permitted by this division to be stated in the bylaws.

SEC. 6. Section 204.5 is added to the Corporations Code, to read:

204.5. (a) If the articles of a corporation include a provision reading substantially as follows: "The liability of the directors of the corporation for monetary damages shall be eliminated to the fullest extent permissible under California law"; the corporation shall be considered to have adopted a provision as authorized by paragraph (10) of subdivision (a) of Section 204 and more specific wording shall

not be required.

(b) This section shall not be construed as setting forth the exclusive method of adopting an article provision as authorized by paragraph (10) of subdivision (a) of Section 204.

(c) This section shall not change the otherwise applicable standards or duties to make full and fair disclosure to shareholders when approval of such a provision is sought.

SEC. 7. Section 309 of the Corporations Code is amended to read:

309. (a) A director shall perform the duties of a director, including duties as a member of any committee of the board upon which the director may serve, in good faith, in a manner such director believes to be in the best interests of the corporation and its shareholders and with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances.

(b) In performing the duties of a director, a director shall be entitled to rely on information, opinions, reports or statements, including financial statements and other financial data, in each case prepared or presented by any of the following:

(1) One or more officers or employees of the corporation whom the director believes to be reliable and competent in the matters presented.

(2) Counsel, independent accountants or other persons as to matters which the director believes to be within such person's professional or expert competence.

(3) A committee of the board upon which the director does not serve, as to matters within its designated authority, which committee the director believes to merit confidence,

so long as, in any such case, the director acts in good faith, after reasonable inquiry when the need therefor is indicated by the circumstances and without knowledge that would cause such reliance to be unwarranted.

(c) A person who performs the duties of a director in accordance with subdivisions (a) and (b) shall have no liability based upon any alleged failure to discharge the person's obligations as a director. In addition, the liability of a director for monetary damages may be eliminated or limited in a corporation's articles to the extent provided in paragraph (10) of subdivision (a) of Section 204.

SEC. 8. Section 317 of the Corporations Code is amended to read:

317. (a) For the purposes of this section, "agent" means any person who is or was a director, officer, employee or other agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another foreign or domestic corporation, partnership, joint venture, trust or other enterprise, or was a director, officer, employee or agent of a foreign or domestic corporation which was a predecessor corporation of the corporation or of another enterprise at the request of such predecessor corporation; "proceeding" means any threatened, pending or completed action or proceeding, whether civil, criminal,

administrative or investigative; and "expenses" includes without limitation attorneys' fees and any expenses of establishing a right to indemnification under subdivision (d) or paragraph (3) of subdivision (e).

(b) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any proceeding (other than an action by or in the right of the corporation to procure a judgment in its favor) by reason of the fact that such person is or was an agent of the corporation, against expenses, judgments, fines, settlements and other amounts actually and reasonably incurred in connection with such proceeding if such person acted in good faith and in a manner such person reasonably believed to be in the best interests of the corporation and, in the case of a criminal proceeding, had no reasonable cause to believe the conduct of such person was unlawful. The termination of any proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in the best interests of the corporation or that the person had reasonable cause to believe that the person's conduct was unlawful.

(c) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person is or was an agent of the corporation, against expenses actually and reasonably incurred by such person in connection with the defense or settlement of such action if such person acted in good faith, in a manner such person believed to be in the best interests of the corporation and its shareholders.

No indemnification shall be made under this subdivision for any of the following:

(1) In respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation in the performance of such person's duty to the corporation and its shareholders, unless and only to the extent that the court in which such proceeding is or was pending shall determine upon application that, in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for expenses and then only to the extent that the court shall determine.

(2) Of amounts paid in settling or otherwise disposing of a pending action without court approval.

(3) Of expenses incurred in defending a pending action which is settled or otherwise disposed of without court approval.

(d) To the extent that an agent of a corporation has been successful on the merits in defense of any proceeding referred to in subdivision (b) or (c) or in defense of any claim, issue or matter therein, the agent shall be indemnified against expenses actually and reasonably incurred by the agent in connection therewith.

(e) Except as provided in subdivision (d), any indemnification under this section shall be made by the corporation only if authorized in the specific case, upon a determination that indemnification of the agent is proper in the circumstances because the agent has met the applicable standard of conduct set forth in subdivision (b) or (c), by any of the following:

(1) A majority vote of a quorum consisting of directors who are not parties to such proceeding.

(2) If such a quorum of directors is not obtainable, by independent legal counsel in a written opinion.

(3) Approval of the shareholders (Section 153), with the shares owned by the person to be indemnified not being entitled to vote thereon.

(4) The court in which such proceeding is or was pending upon application made by the corporation or the agent or the attorney or other person rendering services in connection with the defense, whether or not such application by the agent, attorney or other person is opposed by the corporation.

(f) Expenses incurred in defending any proceeding may be advanced by the corporation prior to the final disposition of such proceeding upon receipt of an undertaking by or on behalf of the agent to repay such amount if it shall be determined ultimately that the agent is not entitled to be indemnified as authorized in this section.

(g) The indemnification provided by this section shall not be deemed exclusive of any other rights to which those seeking indemnification may be entitled under any bylaw, agreement, vote of shareholders, or disinterested directors or otherwise, both as to action in an official capacity and as to action in another capacity while holding such office, to the extent such additional rights to indemnification are authorized in the articles of the corporation. The rights to indemnity hereunder shall continue as to a person who has ceased to be a director, officer, employee, or agent and shall inure to the benefit of the heirs, executors, and administrators of the person. Nothing contained in this section shall affect any right to indemnification to which persons other than such directors and officers may be entitled by contract or otherwise.

(h) No indemnification or advance shall be made under this section, except as provided in subdivision (d) or paragraph (3) of subdivision (e), in any circumstance where it appears:

(1) That it would be inconsistent with a provision of the articles, bylaws, a resolution of the shareholders or an agreement in effect at the time of the accrual of the alleged cause of action asserted in the proceeding in which the expenses were incurred or other amounts were paid, which prohibits or otherwise limits indemnification.

(2) That it would be inconsistent with any condition expressly imposed by a court in approving a settlement.

(i) A corporation shall have power to purchase and maintain insurance on behalf of any agent of the corporation against any

liability asserted against or incurred by the agent in such capacity or arising out of the agent's status as such whether or not the corporation would have the power to indemnify the agent against such liability under the provisions of this section. The fact that a corporation owns all or a portion of the shares of the company issuing a policy of insurance shall not render this subdivision inapplicable if either of the following conditions are satisfied: (1) if authorized in the articles of the corporation, any policy issued is limited to the extent provided by subdivision (d) of Section 204; or (2) (A) the company issuing the insurance policy is organized, licensed, and operated in a manner that complies with the insurance laws and regulations applicable to its jurisdiction of organization, (B) the company issuing the policy provides procedures for processing claims that do not permit that company to be subject to the direct control of the corporation that purchased that policy, and (C) the policy issued provides for some manner of risk sharing between the issuer and purchaser of the policy, on one hand, and some unaffiliated person or persons, on the other, such as by providing for more than one unaffiliated owner of the company issuing the policy or by providing that a portion of the coverage furnished will be obtained from some unaffiliated insurer or reinsurer.

(j) This section does not apply to any proceeding against any trustee, investment manager or other fiduciary of an employee benefit plan in such person's capacity as such, even though such person may also be an agent as defined in subdivision (a) of the employer corporation. A corporation shall have power to indemnify such a trustee, investment manager or other fiduciary to the extent permitted by subdivision (f) of Section 207.

SEC. 9. Section 5239 is added to the Corporations Code, to read:

5239. (a) There shall be no personal liability to a third party for monetary damages on the part of a volunteer director or volunteer executive committee officer of a nonprofit corporation incorporated pursuant to this part, caused by the director's or officer's negligent act or omission in the performance of that person's duties as a director or officer, if all of the following conditions are met:

(1) The act or omission was within the scope of the director's or executive committee officer's duties.

(2) The act or omission was performed in good faith.

(3) The act or omission was not reckless, wanton, intentional, or grossly negligent.

(4) Damages caused by the act or omission are covered pursuant to a liability insurance policy issued to the corporation, either in the form of a general liability policy or a director's and officer's liability policy, or personally to the director or executive committee officer. In the event that the damages are not covered by a liability insurance policy, the volunteer director or volunteer executive committee officer shall not be personally liable for the damages if the board of directors of the corporation and the person had made all reasonable efforts in good faith to obtain available liability insurance.

(b) "Volunteer" means the rendering of services without compensation. "Compensation" means remuneration whether by way of salary, fee, or other consideration for services rendered. However, the payment of per diem, mileage, or other reimbursement expenses to a director or executive committee officer does not affect that person's status as a volunteer within the meaning of this section.

(c) "Executive committee officer" means the president, vice president, secretary, or treasurer of a corporation who assists in establishing the policy of the corporation.

(d) Nothing in this section shall limit the liability of the corporation for any damages caused by acts or omissions of the volunteer director or volunteer executive committee officer.

(e) This section does not eliminate or limit the liability of a director or officer for any of the following:

(1) As provided in Section 5233 or 5237.

(2) In any action or proceeding brought by the Attorney General.

(f) Nothing in this section creates a duty of care or basis of liability for damage or injury caused by the acts or omissions of a director or officer.

(g) This section is only applicable to causes of action based upon acts or omissions occurring on or after January 1, 1988.

SEC. 10. Section 7231.5 is added to the Corporations Code, to read:

7231.5. (a) Except as provided in Section 7233 or 7236, there is no monetary liability on the part of, and no cause of action for damages shall arise against, any volunteer director or volunteer executive committee officer of a nonprofit mutual benefit corporation based upon any alleged failure to discharge the person's duties as a director or officer if the duties are performed in a manner that meets all of the following criteria:

(1) The duties are performed in good faith.

(2) The duties are performed in a manner such director or officer believes to be in the best interests of the corporation.

(3) The duties are performed with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances.

(b) "Volunteer" means the rendering of services without compensation. "Compensation" means remuneration whether by way of salary, fee, or other consideration for services rendered. However, the payment of per diem, mileage, or other reimbursement expenses to a director or executive committee officer does not affect that person's status as a volunteer within the meaning of this section.

(c) "Executive committee officer" means the president, vice president, secretary, or treasurer of a corporation who assists in establishing the policy of the corporation.

(d) This section shall apply only to trade, professional, and labor organizations incorporated pursuant to this part which operate

exclusively for fraternal, educational, and other nonprofit purposes, and under the provisions of Section 501(c) of the United States Internal Revenue Code.

SEC. 11. Section 9247 is added to the Corporations Code, to read:

9247. (a) There shall be no personal liability for monetary damages to a third party on the part of a volunteer director or volunteer executive committee officer of a nonprofit corporation incorporated pursuant to this part, caused by the director's or officer's negligent act or omission in the performance of that person's duties as a director or officer, if all of the following conditions are met:

(1) The act or omission was within the scope of the director's or executive committee officer's duties.

(2) The act or omission was performed in good faith.

(3) The act or omission was not reckless, wanton, intentional, or grossly negligent.

(4) Damages caused by the act or omission are covered pursuant to a liability insurance policy issued to the corporation, either in the form of a general liability policy or a director's or officer's liability policy, or personally to the director or executive committee officer. In the event that the damages are not covered by a liability insurance policy, the volunteer director or volunteer executive committee officer shall not be personally liable for the damages if the board of directors of the corporation and the person had made all reasonable efforts in good faith to obtain available liability insurance.

(b) "Volunteer" means the rendering of services without compensation. "Compensation" means remuneration whether by way of salary, fee, or other consideration for services rendered. However, the payment of per diem, mileage, or other reimbursement expenses to a director or executive committee officer does not affect that person's status as a volunteer within the meaning of this section.

(c) "Executive committee officer" means the president, vice president, secretary, or treasurer of a corporation who assists in establishing the policy of the corporation.

(d) Nothing in this section shall limit the liability of the corporation for any damages caused by acts or omissions of the volunteer director or volunteer executive committee officer.

(e) This section does not eliminate or limit the liability of a director or officer for any of the following:

(1) As provided in Section 9243 or 9245.

(2) In any action or proceeding brought by the Attorney General.

(f) Nothing in this section creates a duty of care or basis of liability for damage or injury caused by the acts or omissions of a director or officer.

(g) This section is only applicable to causes of action based upon acts or omissions occurring on or after January 1, 1988.

SEC. 12. Section 669.1 of the Evidence Code is repealed.

SEC. 13. Section 669.1 is added to the Evidence Code, to read:

669.1. A rule, policy, manual, or guideline of state or local government setting forth standards of conduct or guidelines for its employees in the conduct of their public employment shall not be considered a statute, ordinance, or regulation of that public entity within the meaning of Section 669, unless the rule, manual, policy, or guideline has been formally adopted as a statute, as an ordinance of a local governmental entity in this state empowered to adopt ordinances, or as a regulation by an agency of the state pursuant to the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Division 3 of Title 2 of the Government Code), or by an agency of the United States government pursuant to the federal Administrative Procedure Act (Chapter 5 (commencing with Section 5001) of Title 5 of the United States Code). This section affects only the presumption set forth in Section 669, and is not otherwise intended to affect the admissibility or inadmissibility of the rule, policy, manual, or guideline under other provisions of law. This section applies only to actions arising on or after January 1, 1988.

"Regulation" means a rule, regulation, order or standard, having the force of law, adopted by an employee or agency of the United States pursuant to the federal Administrative Procedure Act (Chapter 5 (commencing with Section 5001) of Title 5 of the United States Code) or as a regulation by an agency of the state pursuant to the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Division 3 of Title 2 of the Government Code).

This section applies only to actions arising on or after January 1, 1988.

SEC. 15. Section 820.9 is added to the Government Code, to read:

820.9. Members of city councils, mayors, members of boards of supervisors, members of school boards, members of governing boards of other local public entities, and members of locally appointed boards and commissions are not vicariously liable for injuries caused by the act or omission of the public entity. Nothing in this section exonerates an official from liability for injury caused by that individual's own wrongful conduct. Nothing in this section affects the immunity of any other public official.

SEC. 16. Section 831.21 is added to the Government Code, to read:

831.21. Public beaches shall be deemed to be in a natural condition and unimproved notwithstanding the provision or absence of public safety services such as lifeguards, police or sheriff patrols, medical services, fire protection services, beach cleanup services, or signs. The provisions of this section shall apply only to natural conditions of public property and shall not limit any liability or immunity that may otherwise exist pursuant to this division.

SEC. 17. Section 910 of the Government Code is amended to read:

910. A claim shall be presented by the claimant or by a person

acting on his or her behalf and shall show all of the following:

(a) The name and post office address of the claimant.

(b) The post office address to which the person presenting the claim desires notices to be sent.

(c) The date, place, and other circumstances of the occurrence or transaction which gave rise to the claim asserted.

(d) A general description of the indebtedness, obligation, injury, damage, or loss incurred so far as it may be known at the time of presentation of the claim.

(e) The name or names of the public employee or employees causing the injury, damage, or loss, if known.

(f) The amount claimed if it totals less than ten thousand dollars ($10,000) as of the date of presentation of the claim, including the estimated amount of any prospective injury, damage, or loss, insofar as it may be known at the time of the presentation of the claim, together with the basis of computation of the amount claimed. If the amount claimed exceeds ten thousand dollars ($10,000), no dollar amount shall be included in the claim. However, it shall indicate whether jurisdiction over the claim would rest in municipal or superior court.

SEC. 18. Section 911.2 of the Government Code is amended to read:

911.2. A claim relating to a cause of action for death or for injury to person or to personal property or growing crops shall be presented as provided in Article 2 (commencing with Section 915) of this chapter not later than six months after the accrual of the cause of action. A claim relating to any other cause of action shall be presented as provided in Article 2 (commencing with Section 915) of this chapter not later than one year after the accrual of the cause of action.

SEC. 19. Section 911.3 of the Government Code is amended to read:

911.3. (a) When a claim that is required by Section 911.2 to be presented not later than six months after accrual of the cause of action is presented after such time without the application provided in Section 911.4, the board or other person designated by it may, at any time within 45 days after the claim is presented, give written notice to the person presenting the claim that the claim was not filed timely and that it is being returned without further action. The notice shall be in substantially the following form:

"The claim you presented to the (insert title of board or officer) on (indicate date) is being returned because it was not presented within six months after the event or occurrence as required by law. See Sections 901 and 911.2 of the Government Code. Because the claim was not presented within the time allowed by law, no action was taken on the claim.

Your only recourse at this time is to apply without delay to (name of public entity) for leave to present a late claim. See Sections 911.4 to 912.2, inclusive, and Section 946.6 of the Government Code. Under

some circumstances, leave to present a late claim will be granted. See Section 911.6 of the Government Code.

You may seek the advice of an attorney of your choice in connection with this matter. If you desire to consult an attorney, you should do so immediately."

(b) Any defense as to the time limit for presenting a claim described in subdivision (a) is waived by failure to give the notice set forth in subdivision (a) within 45 days after the claim is presented, except that no notice need be given and no waiver shall result when the claim as presented fails to state either an address to which the person presenting the claim desires notices to be sent or an address of the claimant.

SEC. 20. Section 911.4 of the Government Code is amended to read:

911.4. (a) When a claim that is required by Section 911.2 to be presented not later than six months after the accrual of the cause of action is not presented within such time, a written application may be made to the public entity for leave to present such claim.

(b) The application shall be presented to the public entity as provided in Article 2 (commencing with Section 915) of this chapter within a reasonable time not to exceed one year after the accrual of the cause of action and shall state the reason for the delay in presenting the claim. The proposed claim shall be attached to the application. In computing the one-year period under this subdivision, time during which the person who sustained the alleged injury, damage, or loss is a minor shall be counted, but the time during which he is mentally incapacitated and does not have a guardian or a conservator of his or her person shall not be counted.

SEC. 21. Section 911.6 of the Government Code is amended to read:

911.6. (a) The board shall grant or deny the application within 45 days after it is presented to the board. The claimant and the board may extend the period within which the board is required to act on the application by written agreement made before the expiration of the period.

(b) The board shall grant the application where one or more of the following is applicable:

(1) The failure to present the claim was through mistake, inadvertence, surprise, or excusable neglect and the public entity was not prejudiced in its defense of the claim by the failure to present the claim within the time specified in Section 911.2.

(2) The person who sustained the alleged injury, damage, or loss was a minor during all of the time specified in Section 911.2 for the presentation of the claim.

(3) The person who sustained the alleged injury, damage, or loss was physically or mentally incapacitated during all of the time specified in Section 911.2 for the presentation of the claim and by reason of such disability failed to present a claim during such time.

(4) The person who sustained the alleged injury, damage or loss

died before the expiration of the time specified in Section 911.2 for the presentation of the claim.

(c) If the board fails or refuses to act on an application within the time prescribed by this section, the application shall be deemed to have been denied on the 45th day or, if the period within which the board is required to act is extended by agreement pursuant to this section, the last day of the period specified in the agreement.

SEC. 22. Section 946.6 of the Government Code is amended to read:

946.6. (a) Where an application for leave to present a claim is denied or deemed to be denied pursuant to Section 911.6, a petition may be made to the court for an order relieving the petitioner from the provisions of Section 945.4. The proper court for filing the petition is a court which would be a competent court for the trial of an action on the cause of action to which the claim relates and which is located in a county or judicial district which would be a proper place for the trial of such action, and if the petition is filed in a court which is not a proper court for the determination of the matter, the court, on motion of any party, shall transfer the proceeding to a proper court.

(b) The petition must show (1) that application was made to the board under Section 911.4 and was denied or deemed denied, (2) the reason for failure to present the claim within the time limit specified in Section 911.2 and (3) the information required by Section 910. The petition shall be filed within six months after the application to the board is denied or deemed to be denied pursuant to Section 911.6.

(c) The court shall relieve the petitioner from the provisions of Section 945.4 if the court finds that the application to the board under Section 911.4 was made within a reasonable time not to exceed that specified in subdivision (b) of Section 911.4 and was denied or deemed denied pursuant to Section 911.6 and that one or more of the following is applicable:

(1) The failure to present the claim was through mistake, inadvertence, surprise, or excusable neglect unless the public entity establishes that it would be prejudiced in the defense of the claim if the court relieves the petitioner from the provisions of Section 945.4.

(2) The person who sustained the alleged injury, damage, or loss was a minor during all of the time specified in Section 911.2 for the presentation of the claim.

(3) The person who sustained the alleged injury, damage, or loss was physically or mentally incapacitated during all of the time specified in Section 911.2 for the presentation of the claim and by reason of such disability failed to present a claim during such time.

(4) The person who sustained the alleged injury, damage, or loss died before the expiration of the time specified in Section 911.2 for the presentation of the claim.

(d) A copy of the petition and a written notice of the time and place of hearing thereof shall be served not less than 10 days before the hearing on (1) the clerk or secretary or board of the local public

entity, if the respondent is a local public entity, or (2) the State Board of Control or its secretary, if the respondent is the state.

(e) The court shall make an independent determination upon the petition. The determination shall be made upon the basis of the petition, any affidavits in support of or in opposition to the petition, and any additional evidence received at the hearing on the petition.

(f) If the court makes an order relieving the petitioner from the provisions of Section 945.4, suit on the cause of action to which the claim relates must be filed in such court within 30 days thereafter.

SEC. 23. Chapter 6 (commencing with Section 962) is added to Part 4 of Division 3.6 of Title 1 of the Government Code, to read:

CHAPTER 6. POSTJUDGMENT SETTLEMENT CONFERENCE

962. Upon entry of a verdict against a public entity in excess of one hundred thousand dollars ($100,000) in an action for personal injury or wrongful death, the public entity may, within the time set in Section 659 of the Code of Civil Procedure, request in writing a mandatory settlement conference for the purpose of discussing available methods by which the judgment shall be satisfied. The court shall then set a date for the conference. The request may be noticed with any motions pursuant to Sections 984 and 985 of the Government Code or Section 659 of the Code of Civil Procedure. At the conference the parties shall negotiate in good faith and shall review and consider structured payment plans presented by either party. The conference shall not occur until after determination of any motion for a new trial, motion for judgment notwithstanding the verdict, motion for remittitur and motion for additur, but shall occur before hearing on any motions pursuant to Sections 984 and 985.

The Judicial Council shall adopt rules providing for a reasonable extension of the time for filing the notice of appeal from a judgment on the verdict to permit a request for the mandatory settlement conference and the mandatory settlement conference itself.

SEC. 24. Chapter 3.7 (commencing with Section 984) is added to Part 5 of Division 3.6 of Title 1 of the Government Code, to read:

CHAPTER 3.7 PROCEDURES APPLICABLE TO STATE AND LOCAL PUBLIC ENTITIES

984. (a) As used in this section, "not insured" includes a public entity that has no liability insurance or is self-insured by itself, or through an insurance pooling arrangement, a joint powers agreement, the Local Agency Self Insurance Authority, or any other similar arrangement.

(b) If a public entity has commercial insurance as to a portion of the judgment, this section shall only apply to that portion of the judgment which is "not insured" as defined in this section.

(c) A judgment against a public entity may be ordered to be paid by periodic payments only if ordered under Section 667.7 of the Code

of Civil Procedure or Section 970.6, or if the public entity has made an election under subdivision (d), or if the parties have agreed to it.

(d) If, after making any deductions pursuant to Section 985 of the Government Code, the judgment on a tort claims action against a public entity that is not insured is greater than five hundred thousand dollars ($500,000), the public entity may elect to pay the judgment in periodic payments as provided in this subdivision.

Effective January 1, 1990, the five hundred thousand dollar ($500,000) threshold amount shall be five hundred fifty thousand dollars ($550,000). Effective January 1, 1992, that amount shall be six hundred thousand dollars ($600,000). Effective January 1, 1994, that amount shall be six hundred fifty thousand dollars ($650,000). Effective January 1, 1996, that amount shall be seven hundred twenty-five thousand dollars ($725,000), and thereafter, the seven hundred twenty-five thousand dollar ($725,000) amount shall be increased 5 percent on January 1 of each year.

After any amounts reimbursed pursuant to Section 985, the judgment-debtor shall pay 50 percent of the remainder immediately, and the other 50 percent of the remainder shall be paid over a period of time to be determined by the court, not to exceed 10 years or the length of the judgment-creditor's remaining life expectancy at the time the judgment is entered, whichever is less.

(e) The following provisions apply to all judgments for periodic payment under this section against a public entity:

(1) Payments shall not terminate upon the death of the judgment-creditor.

(2) Interest at the same rate as one-year United States Treasury Bills as of January 1, each year shall accrue to the unpaid balance of the judgment, and on each January 1 thereafter throughout the duration of the installment payments the interest shall be adjusted until the judgment is fully satisfied.

(3) Throughout the term of the installment payments until the judgment is fully satisfied, the public entity shall remain liable for all payments due on the judgment and the interest.

(4) The court shall retain jurisdiction in order to enforce, amend, modify, or approve settlement of the installment payments as may be just. Upon a motion by the judgment-creditor, the court shall accelerate the installment payments if it finds any unreasonable delay in, or failure to make payments.

(5) The court, upon motion, may modify the installment payments consistent with Sections 1431 to 1431.5, inclusive, of the Civil Code to account for the insolvency or uncollectability of amounts of the judgment owed by joint tortfeasors. The defendant shall bring a motion for that adjustment under Section 1010 of the Code of Civil Procedure.

(f) Nothing in this section shall prevent the parties from agreeing to settle an action on any other terms.

(g) The Judicial Council shall adopt rules providing for a reasonable extension of the time for filing the notice of appeal from

a judgment on the verdict to permit an election pursuant to this section and any hearing pursuant to subdivision (d).

(h) This section does not apply to contribution and indemnity between joint tortfeasors.

SEC. 25. Chapter 4 (commencing with Section 985) is added to Part 5 of Division 3.6 of Title 1 of the Government Code, to read:

CHAPTER 4. PROCEDURES APPLICABLE TO STATE AND LOCAL PUBLIC ENTITIES

985. (a) As used in this section:

(1) "Collateral source payment" includes either of the following:

(A) The direct provision of services prior to the commencement of trial to the plaintiff for the same injury or death by prepaid health maintenance organizations providing services to their members or by nonfederal publicly funded health service providers.

(B) Monetary payments paid or obligated to be paid for services or benefits that were provided prior to the commencement of trial to or on behalf of the plaintiff for the same injury or death from a provider of collateral source payments described in paragraphs (1) and (2) of subdivision (f).

(2) "Plaintiff" includes, but is not limited to, a person or entity who is entitled to make a claim under Part 2 (commencing with Section 6400) of Division 6 of the Probate Code for the collateral source benefits against the tortfeasor or alleged tortfeasor, and in the case of a minor, the minor and the minor's parent, legal guardian or guardian ad litem.

(3) "Commencement of trial" occurs as defined in paragraph (6) of subdivision (a) of Section 581 of the Code of Civil Procedure.

(b) Any collateral source payment paid or owed to or on behalf of a plaintiff shall be inadmissible in any action for personal injuries or wrongful death where a public entity is a defendant. However, after a verdict has been returned against a public entity that includes damages for which payment from a collateral source listed below has already been paid or is obligated to be paid for services or benefits that were provided prior to the commencement of trial, and the total of the collateral source payments is greater than five thousand dollars ($5,000), that amount to be increased 5 percent compounded on January 1, 1989, and each January 1 thereafter, the defendant public entity may, by a motion noticed within the time set in Section 659 of the Code of Civil Procedure, request a posttrial hearing for a reduction of the judgment against the defendant public entity for collateral source payments paid or obligated to be paid for services or benefits that were provided prior to the commencement of trial. The hearing may be noticed with any motions pursuant to Sections 962 and 984 of the Government Code or Section 659 of the Code of Civil Procedure; however, the hearing shall not occur until after the determination of any motions for a new trial, for judgment notwithstanding the verdict, for remittitur, for additur, and after any

mandatory settlement conference pursuant to Section 962 of the Government Code.

(c) A defendant public entity may, by interrogatory or in writing at the trial-setting conference, request from the plaintiff a list of the names and addresses of any provider of a collateral source payment affected by this section that has provided collateral source payments directly to or on behalf of the plaintiff and the amount provided to the plaintiff from each collateral source. The plaintiff shall produce the requested list within 30 days of such request. The plaintiff shall have a continuing duty to disclose to the public entity defendant the name and address of any provider of a collateral source payment affected by this section but not disclosed in plaintiff's response if that provider pays or owes collateral source payments to or on behalf of plaintiff between the time of plaintiff's response and the commencement of trial.

The public entity shall provide written notice to each provider of a collateral source payment listed by the plaintiff or identified by defendant of the date set for any pretrial settlement conference.

The provider of a collateral source shall not be required to attend a settlement conference unless requested to do so by the court. The court may request a provider of a collateral source to attend a settlement conference or to provide written information, to be available by telephone, or to otherwise participate in the conference, and a provider of a collateral source shall waive its rights to reimbursement unless it attends or otherwise complies with the request.

(d) If the plaintiff fails or refuses to supply to the defendant public entity information as to the identity of a provider of a collateral source payment, as required by this section, the defendant public entity may, upon discovery of the identity of the provider of a collateral source payment, within five years of the date of entry of judgment, request a reduction of the judgment for payment made or for services provided prior to the commencement of trial by that source. Failure of plaintiff to provide the names of collateral source providers affected by this section and known to plaintiff, shall subject plaintiff or plaintiff's attorney to sanctions pursuant to Section 128.5 of the Code of Civil Procedure.

(e) The public entity shall also give 20 days' notice to the provider of a collateral source payment of any posttrial settlement conference or hearing regarding collateral source payments under this section.

Proof of service of any notice sent pursuant to this section shall be filed with the court and a copy served on all parties to the action.

(f) At the hearing the trial court shall, in its discretion and on terms as may be just, make a final determination as to any pending lien and subrogation rights, and, subject to paragraphs (1) to (3), inclusive, determine what portion of collateral source payments should be reimbursed from the judgment to the provider of a collateral source payment, deducted from the verdict, or accrue to the benefit of the plaintiff. No provider of collateral source payments

pursuant to this section shall recover any amount against the plaintiff nor shall it be subrogated to the rights of the plaintiff against a public entity defendant other than in the amount so determined by the court. The following provisions shall apply to the court's adjustments:

(1) If the court has determined that the verdict included money damages for which the plaintiff has already received payment from or had his or her expenses paid by the following collateral sources: Medi-Cal, county health care, Aid to Families with Dependent Children, Victims of Crime, or other nonfederal publicly funded sources of benefit with statutory lien rights, the court shall order reimbursement from the judgment of those amounts to the provider of a collateral source payment pursuant to this section and on terms as may be just.

(2) If the court has determined that the verdict includes money damages for which the plaintiff has already received payment from or had his or her expenses paid by the following collateral sources: private medical programs, health maintenance organizations, state disability, unemployment insurance, private disability insurance, or other sources of compensation similar to those listed in this paragraph, the court may, after considering the totality of all circumstances and on terms as may be just, determine what portion of the collateral source benefits will be reimbursed from the judgment to the provider of the collateral source payment, used to reduce the verdict, or accrue to the benefit of the plaintiff. However, nothing in this section shall create subrogation or lien rights that do not already exist.

(3) In determining the amount to be reimbursed from the judgment to a provider of a collateral source payment, or the amount by which the judgment will be reduced to account for collateral source payments, the court shall make the following adjustments:

(A) Where plaintiff has been found partially at fault, the reimbursement or reduction shall be decreased by the same percentage as the entire judgment is reduced to take into account the plaintiff's comparative fault.

(B) The court shall deduct from the reimbursement or reduction the amount of premiums the court determines were paid by or on behalf of the plaintiff to the provider of a collateral source payment.

(C) After making the adjustments described in subparagraphs (A) and (B) above, the court shall reduce that amount by a percentage equal to the percentage of the entire judgment that the plaintiff paid or owes for his or her attorney fees and costs and reasonable expenses incurred.

(g) In no event shall the total dollar amount deducted from the verdict, paid to lienholders or reimbursed to all collateral source providers, exceed one-half of the plaintiff's net recovery for all damages after deducting for attorney's fees, medical services paid by the plaintiff, and litigation costs; however, the court may order no reimbursement or verdict reduction if the reimbursement or reduction would result in undue financial hardship upon the person

who suffered the injury.

(h) Unless otherwise ordered by the court, 50 percent of any amount reimbursed pursuant to this section shall be due immediately. The court may order the remaining 50 percent to be paid in installments over a period of time to be determined by the court pursuant to Section 984, not to exceed 10 years.

(i) In any case involving multiple defendants, a reduction pursuant to this section shall be proportional to the percentage of the judgment actually paid by the public entity and shall satisfy the judgment as to the portion reduced so that no other judgment debtor shall be jointly liable for the portion of the judgment reduced pursuant to this section. If, after a hearing and determination pursuant to this section, the public entity judgment debtor is required to satisfy a portion of a joint and several judgment beyond that public entity judgment debtor's several portion due to the uncollectability of a joint tortfeasor's portion, the public entity may make a motion to reduce the additional portion in an amount proportional to the determination of the court pursuant to this section.

(j) In all actions affected by this section, the court shall instruct the jury with the following language:

"You shall award damages in an amount that fully compensates plaintiff for damages in accordance with instructions from the court. You shall not speculate or consider any other possible sources of benefit the plaintiff may have received. After you have returned your verdict the court will make whatever adjustments are necessary in this regard."

(k) The Judicial Council shall adopt rules providing for a reasonable extension of the time for filing the notice of appeal from a judgment on the verdict to permit a motion for the hearing and the hearing itself.

(*l*) If the defendant public entity or defendant public employee is also a health care provider as defined in Section 3333.1 of the Civil Code, that section controls as to that defendant.

(m) This chapter does not apply to lien or subrogation rights provided in Chapter 5 (commencing with Section 385) of Part 1 of Division 4 of the Labor Code.

SEC. 26. Section 17004.7 is added to the Vehicle Code, to read:

17004.7. (a) The immunity provided by this section is in addition to any other immunity provided by law. The adoption of a policy by a public agency pursuant to this section is discretionary.

(b) A public agency employing peace officers which adopts a written policy on vehicular pursuits complying with subdivision (c) is immune from liability for civil damages for personal injury to or death of any person or damage to property resulting from the collision of a vehicle being operated by an actual or suspected violator of the law who is being, has been, or believes he or she is being or has been, pursued by a peace officer employed by the public entity in a motor vehicle.

(c) If the public entity has adopted a policy for the safe conduct of vehicular pursuits by peace officers, it shall meet all of the following minimum standards:

(1) It provides that, if availabile, there be supervisory control of the pursuit.

(2) It provides procedures for designating the primary pursuit vehicle and for determining the total number of vehicles to be permitted to participate at one time in the pursuit.

(3) It provides procedures for coordinating operations with other jurisdictions.

(4) It provides guidelines for determining when the interests of public safety and effective law enforcement justify a vehicular pursuit and when a vehicular pursuit should not be initiated or should be terminated.

(d) A determination of whether a policy adopted pursuant to subdivision (c) complies with that subdivision is a question of law for the court.

SEC. 27. It is not the intent of the Legislature by Sections 5, 6, 7, and 8, of this act to change case law or statutory law regarding the duty of loyalty of a director.

SEC. 28. In repealing and adding Section 669.1 of the Evidence Code and amending Section 811.6 of the Government Code, by Sections 12, 13, and 14 of this act, the Legislature intends to clarify Instruction No. 3.45 of the Book of Approved California Jury Instructions, 7th Edition.

SEC. 29. Sections 3, 9, 10, and 11 to 25, inclusive, of this act apply to actions based upon acts or omissions occurring on or after January 1, 1988.

SEC. 30. Section 26 of this act applies only to actions based upon acts or omissions occurring on or after January 1, 1988, and the adoption of a policy by the public entity that complies with section 17004.7 of the Vehicle Code.

SEC. 31. Section 1 of this act applies only to actions commenced on or after January 1, 1990.

SEC. 32. It is the intent of the Legislature that Section 820.9 of the Government Code, added by Section 15 of this act, is a codification of, and does not constitute a change in, existing law.

CHAPTER 1202

An act to amend Section 877.5 of the Code of Civil Procedure, relating to liability.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 877.5 of the Code of Civil Procedure is amended to read:

877.5. (a) Where an agreement or convenant is made which provides for a sliding scale recovery agreement between one or more, but not all, alleged defendant tortfeasors and the plaintiff or plaintiffs:

(1) The parties entering into any such agreement or covenant shall promptly inform the court in which the action is pending of the existence of the agreement or convenant and its terms and provisions; and

(2) If the action is tried before a jury, and a defendant party to the agreement is called as a witness at trial, the court shall, upon motion of a party, disclose to the jury the existence and content of the agreement or covenant, unless the court finds that such disclosure will create substantial danger of undue prejudice, of confusing the issues, or of misleading the jury.

The jury disclosure herein required shall be no more than necessary to inform the jury of the possibility that the agreement may bias the testimony of the witness.

(b) As used in this section, a "sliding scale recovery agreement" means an agreement or covenant between a plaintiff or plaintiffs and one or more, but not all, alleged tortfeasor defendants, which limits the liability of the agreeing tortfeasor defendants to an amount which is dependent upon the amount of recovery which the plaintiff is able to recover from the nonagreeing defendant or defendants. This includes, but is not limited to, agreements within the scope of Section 877, and agreements in the form of a loan from the agreeing tortfeasor defendant or defendants to the plaintiff or plaintiffs which is repayable in whole or in part from the recovery against the nonagreeing tortfeasor defendant or defendants.

(c) No sliding scale recovery agreement is effective unless a notice of intent to enter into an agreement has been served on all nonsignatory alleged defendant tortfeasors.

SEC. 2. This act applies only to actions based upon acts or omissions occurring on or after January 1, 1988.

SEC. 3. This act shall become operative only if Assembly Bills 1530, 1909, 1912, and 2616, and Senate Bills 23, 1382, 1526, and 1598 are all enacted and become effective on or before January 1, 1988.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 204 of the Corporations Code is amended to read:

204. The articles of incorporation may set forth:

(2) Granting to shareholders preemptive rights to subscribe to any or all issues of shares or securities.

(3) Special qualifications of persons who may be shareholders.

(6) A provision limiting or restricting the business in which the corporation may engage or the powers which the corporation may exercise or both.

(7) A provision conferring upon the holders of any evidences of indebtedness, issued or to be issued by the corporation, the right to vote in the election of directors and on any other matters on which shareholders may vote.

(8) A provision conferring upon shareholders the right to determine the consideration for which shares shall be issued.

(9) A provision requiring the approval of the shareholders (Section 153) or the approval of the outstanding shares (Section 152) for any corporate action, even though not otherwise required by this division.

(10) Provisions eliminating or limiting the personal liability of a director for monetary damages in an action brought by or in the right of the corporation for breach of a director's duties to the corporation and its shareholders, as set forth in Section 309, provided, however, that (A) such a provision may not eliminate or limit the liability of directors (i) for acts or omissions that involve intentional misconduct or a knowing and culpable violation of law, (ii) for acts or omissions

that a director believes to be contrary to the best interests of the corporation or its shareholders or that involve the absence of good faith on the part of the director, (iii) for any transaction from which a director derived an improper personal benefit, (iv) for acts or omissions that show a reckless disregard for the director's duty to the corporation or its shareholders in circumstances in which the director was aware, or should have been aware, in the ordinary course of performing a director's duties, of a risk of serious injury to the corporation or its shareholders, (v) for acts or omissions that constitute an unexcused pattern of inattention that amounts to an abdication of the director's duty to the corporation or its shareholders, (vi) under Section 310, or (vii) under Section 316, (B) no such provision shall eliminate or limit the liability of a director for any act or omission occurring prior to the date when the provision becomes effective, and (C) no such provision shall eliminate or limit the liability of an officer for any act or omission as an officer, notwithstanding that the officer is also a director or that his or her actions, if negligent or improper, have been ratified by the directors.

(11) A provision authorizing, whether by bylaw, agreement, or otherwise, the indemnification of agents (as defined in Section 317) in excess of that expressly permitted by Section 317 for those agents of the corporation for breach of duty to the corporation and its stockholders, provided, however, that the provision may not provide for indemnification of any agent for any acts or omissions or transactions from which a director may not be relieved of liability as set forth in the exception to paragraph (10) or as to circumstances in which indemnity is expressly prohibited by Section 317.

Notwithstanding this subdivision, in the case of a close corporation any of the provisions referred to above may be validly included in a shareholders' agreement. Notwithstanding this subdivision, bylaws may require for all or any actions by the board the affirmative vote of a majority of the authorized number of directors. Nothing contained in this subdivision shall affect the enforceability, as between the parties thereto, of any lawful agreement not otherwise contrary to public policy.

(b) Reasonable restrictions upon the right to transfer or hypothecate shares of any class or classes or series, but no restriction shall be binding with respect to shares issued prior to the adoption of the restriction unless the holders of such shares voted in favor of the restriction.

(c) The names and addresses of the persons appointed to act as initial directors.

(d) Any other provision, not in conflict with law, for the management of the business and for the conduct of the affairs of the corporation, including any provision which is required or permitted by this division to be stated in the bylaws.

SEC. 1.5. Section 204.5 is added to the Corporations Code, to read:

204.5. (a) If the articles of a corporation include a provision

reading substantially as follows: "The liability of the directors of the corporation for monetary damages shall be eliminated to the fullest extent permissible under California law"; the corporation shall be considered to have adopted a provision as authorized by paragraph (10) of subdivision (a) of Section 204 and more specific wording shall not be required.

(b) This section shall not be construed as setting forth the exclusive method of adopting an article provision as authorized by paragraph (10) of subdivision (a) of Section 204.

(c) This section shall not change the otherwise applicable standards or duties to make full and fair disclosure to shareholders when approval of such a provision is sought.

SEC. 2. Section 309 of the Corporations Code is amended to read:

309. (a) A director shall perform the duties of a director, including duties as a member of any committee of the board upon which the director may serve, in good faith, in a manner such director believes to be in the best interests of the corporation and its shareholders and with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances.

(b) In performing the duties of a director, a director shall be entitled to rely on information, opinions, reports or statements, including financial statements and other financial data, in each case prepared or presented by any of the following:

(1) One or more officers or employees of the corporation whom the director believes to be reliable and competent in the matters presented.

(2) Counsel. independent accountants or other persons as to matters which the director believes to be within such person's professional or expert competence.

(3) A committee of the board upon which the director does not serve, as to matters within its designated authority, which committee the director believes to merit confidence,

so long as, in any such case, the director acts in good faith, after reasonable inquiry when the need therefor is indicated by the circumstances and without knowledge that would cause such reliance to be unwarranted.

(c) A person who performs the duties of a director in accordance with subdivisions (a) and (b) shall have no liability based upon any alleged failure to discharge the person's obligations as a director. In addition, the liability of a director for monetary damages may be eliminated or limited in a corporation's articles to the extent provided in paragraph (10) of subdivision (a) of Section 204.

SEC. 3. Section 317 of the Corporations Code is amended to read:

317. (a) For the purposes of this section, "agent" means any person who is or was a director, officer, employee or other agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another foreign or domestic corporation, partnership, joint venture, trust or other

enterprise, or was a director, officer, employee or agent of a foreign or domestic corporation which was a predecessor corporation of the corporation or of another enterprise at the request of such predecessor corporation; "proceeding" means any threatened, pending or completed action or proceeding, whether civil, criminal, administrative or investigative; and "expenses" includes without limitation attorneys' fees and any expenses of establishing a right to indemnification under subdivision (d) or paragraph (3) of subdivision (e).

(b) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any proceeding (other than an action by or in the right of the corporation to procure a judgment in its favor) by reason of the fact that such person is or was an agent of the corporation, against expenses, judgments, fines, settlements and other amounts actually and reasonably incurred in connection with such proceeding if such person acted in good faith and in a manner such person reasonably believed to be in the best interests of the corporation and, in the case of a criminal proceeding, had no reasonable cause to believe the conduct of such person was unlawful. The termination of any proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in the best interests of the corporation or that the person had reasonable cause to believe that the person's conduct was unlawful.

(c) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person is or was an agent of the corporation, against expenses actually and reasonably incurred by such person in connection with the defense or settlement of such action if such person acted in good faith, in a manner such person believed to be in the best interests of the corporation and its shareholders.

No indemnification shall be made under this subdivision for any of the following:

(1) In respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation in the performance of such person's duty to the corporation and its shareholders, unless and only to the extent that the court in which such proceeding is or was pending shall determine upon application that, in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for expenses and then only to the extent that the court shall determine.

(2) Of amounts paid in settling or otherwise disposing of a pending action without court approval.

(3) Of expenses incurred in defending a pending action which is settled or otherwise disposed of without court approval.

(d) To the extent that an agent of a corporation has been successful on the merits in defense of any proceeding referred to in subdivision (b) or (c) or in defense of any claim, issue or matter therein, the agent shall be indemnified against expenses actually and reasonably incurred by the agent in connection therewith.

(e) Except as provided in subdivision (d), any indemnification under this section shall be made by the corporation only if authorized in the specific case, upon a determination that indemnification of the agent is proper in the circumstances because the agent has met the applicable standard of conduct set forth in subdivision (b) or (c), by any of the following:

(1) A majority vote of a quorum consisting of directors who are not parties to such proceeding.

(2) If such a quorum of directors is not obtainable, by independent legal counsel in a written opinion.

(3) Approval of the shareholders (Section 153), with the shares owned by the person to be indemnified not being entitled to vote thereon.

(4) The court in which such proceeding is or was pending upon application made by the corporation or the agent or the attorney or other person rendering services in connection with the defense, whether or not such application by the agent, attorney or other person is opposed by the corporation.

(f) Expenses incurred in defending any proceeding may be advanced by the corporation prior to the final disposition of such proceeding upon receipt of an undertaking by or on behalf of the agent to repay such amount if it shall be determined ultimately that the agent is not entitled to be indemnified as authorized in this section.

(g) The indemnification provided by this section shall not be deemed exclusive of any other rights to which those seeking indemnification may be entitled under any bylaw, agreement, vote of shareholders or disinterested directors or otherwise, both as to action in an official capacity and as to action in another capacity while holding such office, to the extent such additional rights to indemnification are authorized in the articles of the corporation. The rights to indemnity hereunder shall continue as to a person who has ceased to be a director, officer, employee, or agent and shall inure to the benefit of the heirs, executors, and administrators of the person. Nothing contained in this section shall affect any right to indemnification to which persons other than such directors and officers may be entitled by contract or otherwise.

(h) No indemnification or advance shall be made under this section, except as provided in subdivision (d) or paragraph (3) of subdivision (e), in any circumstance where it appears:

(1) That it would be inconsistent with a provision of the articles, bylaws, a resolution of the shareholders or an agreement in effect at the time of the accrual of the alleged cause of action asserted in the proceeding in which the expenses were incurred or other amounts

were paid, which prohibits or otherwise limits indemnification.

(2) That it would be inconsistent with any condition expressly imposed by a court in approving a settlement.

(i) A corporation shall have power to purchase and maintain insurance on behalf of any agent of the corporation against any liability asserted against or incurred by the agent in such capacity or arising out of the agent's status as such whether or not the corporation would have the power to indemnify the agent against such liability under the provisions of this section. The fact that a corporation owns all or a portion of the shares of the company issuing a policy of insurance shall not render this subdivision inapplicable if either of the following conditions are satisfied: (1) if authorized in the articles of the corporation, any policy issued is limited to the extent provided by subdivision (d) of Section 204; or (2) (A) the company issuing the insurance policy is organized, licensed, and operated in a manner that complies with the insurance laws and regulations applicable to its jurisdiction of organization, (B) the company issuing the policy provides procedures for processing claims that do not permit that company to be subject to the direct control of the corporation that purchased that policy, and (C) the policy issued provides for some manner of risk sharing between the issuer and purchaser of the policy, on one hand, and some unaffiliated person or persons, on the other, such as by providing for more than one unaffiliated owner of the company issuing the policy or by providing that a portion of the coverage furnished will be obtained from some unaffiliated insurer or reinsurer.

(j) This section does not apply to any proceeding against any trustee, investment manager or other fiduciary of an employee benefit plan in such person's capacity as such, even though such person may also be an agent as defined in subdivision (a) of the employer corporation. A corporation shall have power to indemnify such a trustee, investment manager or other fiduciary to the extent permitted by subdivision (f) of Section 207.

SEC. 4. It is not the intent of the Legislature by this act to change case law or statutory law regarding the duty of loyalty of a director.

SEC. 5. This act shall become operative only if Assembly Bills 344, 1909, 1912, and 2616, and Senate Bills 23, 1382, 1526, and 1598 are all enacted and become effective on or before January 1, 1988.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to permit corporations to immediately deal with the crises created by the virtual unavailability of director's and officer's liability insurance it is necessary for this act to take effect immediately.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 1141.11 of the Code of Civil Procedure is amended to read:

1141.11. (a) In each superior court with 10 or more judges, all at-issue civil actions pending on or filed after the operative date of this chapter shall be submitted to arbitration, by the presiding judge or the judge designated, under this chapter if the amount in controversy in the opinion of the court will not exceed fifty thousand dollars ($50,000) for each plaintiff, which decision shall not be appealable.

(b) In each superior court with less than 10 judges, the court may provide by local rule, when it determines that it is in the best interests of justice, that all at-issue civil actions pending on or filed after the operative date of this chapter, shall be submitted to arbitration by the presiding judge or the judge designated under this chapter if the amount in controversy in the opinion of the court will not exceed fifty thousand dollars ($50,000) for each plaintiff, which decision shall not be appealable.

(c) In each municipal court district, the municipal court district may provide by local rule, when it is determined to be in the best interests of justice, that all at-issue civil actions pending on or filed after the operative date of this chapter in such judicial district, shall be submitted to arbitration by the presiding judge or the judge designated under this chapter. The provisions of this section shall not apply to any action maintained pursuant to Section 1781 of the Civil Code or Section 116.2 or 1161 of this code.

(d) The provisions of this chapter shall not apply to those actions filed in a superior or municipal court which has been selected pursuant to Section 1823.1 and is participating in a pilot project pursuant to Title 1 (commencing with Section 1823) of Part 3.5; provided, however, that any superior or municipal court may provide by local rule that the provisions of this chapter shall apply to actions pending on or filed after July 1, 1979. Any action filed in such court after the conclusion of the pilot project shall be subject to the provisions of this chapter.

(e) No local rule of a superior court providing for judicial arbitration may dispense with the conference required pursuant to Section 1141.16.

SEC. 2. Chapter 6 (commencing with Section 962) is added to Part 4 of Division 3.6 of Title 1 of the Government Code, to read:

CHAPTER 6. POSTJUDGMENT SETTLEMENT CONFERENCE

962. Upon entry of a verdict against a public entity in excess of one hundred thousand dollars ($100,000) in an action for personal injury or wrongful death, the public entity may, within the time set in Section 659 of the Code of Civil Procedure, request in writing a mandatory settlement conference for the purpose of discussing available methods by which the judgment shall be satisfied. The court shall then set a date for the conference. The request may be noticed with any motions pursuant to Sections 984 and 985 of the Government Code or Section 659 of the Code of Civil Procedure. At the conference the parties shall negotiate in good faith and shall review and consider structured payment plans presented by either party. The conference shall not occur until after determination of any motion for a new trial, motion for judgment notwithstanding the verdict, motion for remittitur and motion for additur, but shall occur before hearing on any motions pursuant to Sections 984 and 985.

The Judicial Council shall adopt rules providing for a reasonable extension of the time for filing the notice of appeal from a judgment on the verdict to permit a request for the mandatory settlement conference and the mandatory settlement conference itself.

SEC. 3. Chapter 3.7 (commencing with Section 984) is added to Part 5 of Division 3.6 of Title 1 of the Government Code, to read:

CHAPTER 3.7. PROCEDURES APPLICABLE TO STATE AND LOCAL PUBLIC ENTITIES

984. (a) As used in this section, "not insured" includes a public entity that has no liability insurance or is self-insured by itself, or through an insurance pooling arrangement, a joint powers agreement, the Local Agency Self Insurance Authority, or any other similar arrangement.

(b) If a public entity has commercial insurance as to a portion of the judgment, this section shall only apply to that portion of the judgment which is "not insured" as defined in this section.

(c) A judgment against a public entity may be ordered to be paid by periodic payments only if ordered under Section 667.7 of the Code of Civil Procedure or Section 970.6, or if the public entity has made an election under subdivision (d), or if the parties have agreed to it.

(d) If, after making any deductions pursuant to Section 985 of the Government Code, the judgment on a tort claims action against a public entity that is not insured is greater than five hundred thousand dollars ($500,000), the public entity may elect to pay the judgment in periodic payments as provided in this subdivision.

Effective January 1, 1990, the five hundred thousand dollar ($500,000) threshold amount shall be five hundred fifty thousand

dollars ($550,000). Effective January 1, 1992, that amount shall be six hundred thousand dollars ($600,000). Effective January 1, 1994, that amount shall be six hundred fifty thousand dollars ($650,000). Effective January 1, 1996, that amount shall be seven hundred twenty-five thousand dollars ($725,000), and thereafter, the seven hundred twenty-five thousand dollar ($725,000) amount shall be increased 5 percent on January 1 of each year.

After any amounts reimbursed pursuant to Section 985, the judgment-debtor shall pay 50 percent of the remainder immediately, and the other 50 percent of the remainder shall be paid over a period of time to be determined by the court, not to exceed 10 years or the length of the judgment-creditor's remaining life expectancy at the time the judgment is entered, whichever is less.

(e) The following provisions apply to all judgments for periodic payment under this section against a public entity:

(1) Payments shall not terminate upon the death of the judgment-creditor.

(2) Interest at the same rate as one-year United States Treasury bills as of January 1, each year shall accrue to the unpaid balance of the judgment, and on each January 1 thereafter throughout the duration of the installment payments the interest shall be adjusted until the judgment is fully satisfied.

(3) Throughout the term of the installment payments until the judgment is fully satisfied, the public entity shall remain liable for all payments due on the judgment and the interest.

(4) The court shall retain jurisdiction in order to enforce, amend, modify, or approve settlement of the installment payments as may be just. Upon a motion by the judgment-creditor, the court shall accelerate the installment payments if it finds any unreasonable delay in, or failure to make payments.

(5) The court, upon motion, may modify the installment payments consistent with Sections 1431 to 1431.5, inclusive, of the Civil Code to account for the insolvency or uncollectability of amounts of the judgment owed by joint tortfeasors. The defendant shall bring a motion for that adjustment under Section 1010 of the Code of Civil Procedure.

(f) Nothing in this section shall prevent the parties from agreeing to settle an action on any other terms.

(g) The Judicial Council shall adopt rules providing for a reasonable extension of the time for filing the notice of appeal from a judgment on the verdict to permit an election pursuant to this section and any hearing pursuant to subdivision (d).

(h) This section does not apply to contribution and indemnity between joint tortfeasors.

SEC. 4. Sections 2 and 3 apply only to actions based upon acts or omissions occurring on or after January 1, 1988.

SEC. 5. This act shall become operative only if Assembly Bills 344, 1530, 1912, and 2616, and Senate Bills 23, 1382, 1526, and 1598 are all enacted and become effective on or before January 1, 1988.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 17004.7 is added to the Vehicle Code, to read:

17004.7. (a) The immunity provided by this section is in addition to any other immunity provided by law. The adoption of a policy by a public agency pursuant to this section is discretionary.

(b) A public agency employing peace officers which adopts a written policy on vehicular pursuits complying with subdivision (c) is immune from liability for civil damages for personal injury to or death of any person or damage to property resulting from the collision of a vehicle being operated by an actual or suspected violator of the law who is being, has been, or believes he or she is being or has been, pursued by a peace officer employed by the public entity in a motor vehicle.

(c) If the public entity has adopted a policy for the safe conduct of vehicular pursuits by peace officers, it shall meet all of the following minimum standards:

(1) It provides that, if available, there be supervisory control of the pursuit.

(2) It provides procedures for designating the primary pursuit vehicle and for determining the total number of vehicles to be permitted to participate at one time in the pursuit.

(3) It provides procedures for coordinating operations with other jurisdictions.

(4) It provides guidelines for determining when the interests of public safety and effective law enforcement justify a vehicular pursuit and when a vehicular pursuit should not be initiated or should be terminated.

(d) A determination of whether a policy adopted pursuant to subdivision (c) complies with that subdivision is a question of law for the court.

SEC. 2. This act applies only to actions based upon acts or omissions occurring on or after January 1, 1988, and the adoption of a policy by the public entity that complies with Section 17004.7 of the Vehicle Code.

SEC. 3. This act shall become operative only if Assembly Bills 344, 1530, 1909, and 2616, and Senate Bills 23, 1382, 1526, and 1598 are all enacted and become effective on or before January 1, 1988.

In the event that the damages are not covered by a liability insurance policy, the volunteer director or volunteer executive committee officer shall not be personally liable for the damages if the board of directors of the corporation and the person had made all reasonable efforts in good faith to obtain available liability insurance.

(b) "Volunteer" means the rendering of services without compensation. "Compensation" means remuneration whether by way of salary, fee, or other consideration for services rendered. (a) Except as provided in Section 7233 or 7236, there is no monetary liability on the part of, and no cause of action for damages shall arise against, any volunteer director or volunteer executive committee officer of a nonprofit mutual benefit corporation based upon any alleged failure to discharge the person's duties as a director or officer if the duties are performed in a manner that meets all of the following criteria:

(1) The duties are performed in good faith.

(3) The duties are performed with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances.

(b) "Volunteer" means the rendering of services without compensation. "Compensation" means remuneration whether by way of salary, fee, or other consideration for services rendered. However, the payment of per diem, mileage, or other reimbursement expenses to a director or executive committee officer does not affect that person's status as a volunteer within the meaning of this section.

(c) "Executive committee officer" means the president, vice president, secretary, or treasurer of a corporation who assists in establishing the policy of the corporation.

(d) This section shall apply only to trade, professional, and labor organizations incorporated pursuant to this part which operate exclusively for fraternal, educational, and other nonprofit purposes, and under the provisions of Section 501(c) of the United States Internal Revenue Code.

SEC. 3. Section 9247 is added to the Corporations Code, to read:

9247. (a) There shall be no personal liability for monetary damages to a third party on the part of a volunteer director or volunteer executive committee officer of a nonprofit corporation incorporated pursuant to this part, caused by the director's or officer's negligent act or omission in the performance of that person's duties as a director or officer, if all of the following conditions are met:

(2) The act or omission was performed in good faith.

(3) The act or omission was not reckless, wanton, intentional, or grossly negligent.

(4) Damages caused by the act or omission are covered pursuant to a liability insurance policy issued to the corporation, either in the

form of a general liability policy or a director's or officer's liability policy, or personally to the director or executive committee officer. In the event that the damages are not covered by a liability insurance policy, the volunteer director or volunteer executive committee officer shall not be personally liable for the damages if the board of directors of the corporation and the person had made all reasonable efforts in good faith to obtain available liability insurance.

(b) "Volunteer" means the rendering of services without compensation. "Compensation" means remuneration whether by way of salary, fee, or other consideration for services rendered. However, the payment of per diem, mileage, or other reimbursement expenses to a director or executive committee officer does not affect that person's status as a volunteer within the meaning of this section.

(g) This section is only applicable to causes of action based upon acts or omissions occurring on or after January 1, 1988.

SEC. 4. This act shall become operative only if Assembly Bills 344, 1530, 1909, 1912, and 2616, and Senate Bills 23, 1382, and 1598 are all enacted and become effective on or before January 1, 1988.

SEC. 6. This act shall become operative only if Assembly Bills 344, 1530, 1909, 1912, and 2616, and Senate Bills 23, 1382, and 1526 are all enacted and become effective on or before January 1, 1988.

CHAPTER 1208

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 820.9 is added to the Government Code, to read:

820.9. Members of city councils, mayors, members of boards of supervisors, members of school boards, members of governing boards of other local public entities, and members of locally appointed boards and commissions are not vicariously liable for injuries caused by the act or omission of the public entity. Nothing in this section exonerates an official from liability for injury caused by that individual's own wrongful conduct. Nothing in this section affects the immunity of any other public official.

SEC. 2. Section 910 of the Government Code is amended to read:

910. A claim shall be presented by the claimant or by a person acting on his or her behalf and shall show all of the following:

(a) The name and post office address of the claimant.

(b) The post office address to which the person presenting the claim desires notices to be sent.

(c) The date, place and other circumstances of the occurrence or transaction which gave rise to the claim asserted.

(d) A general description of the indebtedness, obligation, injury, damage or loss incurred so far as it may be known at the time of presentation of the claim.

(e) The name or names of the public employee or employees causing the injury, damage, or loss, if known.

(f) The amount claimed if it totals less than ten thousand dollars ($10,000) as of the date of presentation of the claim, including the estimated amount of any prospective injury, damage, or loss, insofar as it may be known at the time of the presentation of the claim, together with the basis of computation of the amount claimed. If the amount claimed exceeds ten thousand dollars ($10,000), no dollar amount shall be included in the claim. However, it shall indicate whether jurisdiction over the claim would rest in municipal or superior court.

SEC. 3. Section 911.2 of the Government Code is amended to read:

911.2. A claim relating to a cause of action for death or for injury to person or to personal property or growing crops shall be presented as provided in Article 2 (commencing with Section 915) of this chapter not later than six months after the accrual of the cause of action. A claim relating to any other cause of action shall be presented as provided in Article 2 (commencing with Section 915) of this chapter not later than one year after the accrual of the cause of action.

SEC. 4. Section 911.3 of the Government Code is amended to read:

911.3. (a) When a claim that is required by Section 911.2 to be presented not later than six months after accrual of the cause of action is presented after such time without the application provided in Section 911.4, the board or other person designated by it may, at any time within 45 days after the claim is presented, give written notice to the person presenting the claim that the claim was not filed timely and that it is being returned without further action. The

notice shall be in substantially the following form:

"The claim you presented to the (insert title of board or officer) on (indicate date) is being returned because it was not presented within six months after the event or occurrence as required by law. See Sections 901 and 911.2 of the Government Code. Because the claim was not presented within the time allowed by law, no action was taken on the claim.

Your only recourse at this time is to apply without delay to (name of public entity) for leave to present a late claim. See Sections 911.4 to 912.2, inclusive, and Section 946.6 of the Government Code. Under some circumstances, leave to present a late claim will be granted. See Section 911.6 of the Government Code.

You may seek the advice of an attorney of your choice in connection with this matter. If you desire to consult an attorney, you should do so immediately."

(b) Any defense as to the time limit for presenting a claim described in subdivision (a) is waived by failure to give the notice set forth in subdivision (a) within 45 days after the claim is presented, except that no notice need be given and no waiver shall result when the claim as presented fails to state either an address to which the person presenting the claim desires notices to be sent or an address of the claimant.

SEC. 5. Section 911.4 of the Government Code is amended to read:

911.4. (a) When a claim that is required by Section 911.2 to be presented not later than six months after the accrual of the cause of action is not presented within such time, a written application may be made to the public entity for leave to present such claim.

(b) The application shall be presented to the public entity as provided in Article 2 (commencing with Section 915) of this chapter within a reasonable time not to exceed one year after the accrual of the cause of action and shall state the reason for the delay in presenting the claim. The proposed claim shall be attached to the application. In computing the one-year period under this subdivision, time during which the person who sustained the alleged injury, damage, or loss is a minor shall be counted, but the time during which he is mentally incapacitated and does not have a guardian or a conservator of his person shall not be counted.

SEC. 6. Section 911.6 of the Government Code is amended to read:

911.6. (a) The board shall grant or deny the application within 45 days after it is presented to the board. The claimant and the board may extend the period within which the board is required to act on the application by written agreement made before the expiration of the period.

(b) The board shall grant the application where one or more of the following is applicable:

(1) The failure to present the claim was through mistake, inadvertence, surprise or excusable neglect and the public entity was

not prejudiced in its defense of the claim by the failure to present the claim within the time specified in Section 911.2.

(2) The person who sustained the alleged injury, damage or loss was a minor during all of the time specified in Section 911.2 for the presentation of the claim.

(3) The person who sustained the alleged injury, damage or loss was physically or mentally incapacitated during all of the time specified in Section 911.2 for the presentation of the claim and by reason of such disability failed to present a claim during such time.

(4) The person who sustained the alleged injury, damage or loss died before the expiration of the time specified in Section 911.2 for the presentation of the claim.

(c) If the board fails or refuses to act on an application within the time prescribed by this section, the application shall be deemed to have been denied on the 45th day or, if the period within which the board is required to act is extended by agreement pursuant to this section, the last day of the period specified in the agreement.

SEC. 7. Section 946.6 of the Government Code is amended to read:

946.6. (a) Where an application for leave to present a claim is denied or deemed to be denied pursuant to Section 911.6, a petition may be made to the court for an order relieving the petitioner from the provisions of Section 945.4. The proper court for filing the petition is a court which would be a competent court for the trial of an action on the cause of action to which the claim relates and which is located in a county or judicial district which would be a proper place for the trial of such action, and if the petition is filed in a court which is not a proper court for the determination of the matter, the court, on motion of any party, shall transfer the proceeding to a proper court.

(b) The petition must show (1) that application was made to the board under Section 911.4 and was denied or deemed denied, (2) the reason for failure to present the claim within the time limit specified in Section 911.2 and (3) the information required by Section 910. The petition shall be filed within six months after the application to the board is denied or deemed to be denied pursuant to Section 911.6.

(c) The court shall relieve the petitioner from the provisions of Section 945.4 if the court finds that the application to the board under Section 911.4 was made within a reasonable time not to exceed that specified in subdivision (b) of Section 911.4 and was denied or deemed denied pursuant to Section 911.6 and that one or more of the following is applicable:

(1) The failure to present the claim was through mistake, inadvertence, surprise or excusable neglect unless the public entity establishes that it would be prejudiced in the defense of the claim if the court relieves the petitioner from the provisions of Section 945.4.

(2) The person who sustained the alleged injury, damage or loss was a minor during all of the time specified in Section 911.2 for the presentation of the claim.

(3) The person who sustained the alleged injury, damage or loss was physically or mentally incapacitated during all of the time specified in Section 911.2 for the presentation of the claim and by reason of such disability failed to present a claim during such time.

(4) The person who sustained the alleged injury, damage or loss died before the expiration of the time specified in Section 911.2 for the presentation of the claim.

(d) A copy of the petition and a written notice of the time and place of hearing thereof shall be served not less than 10 days before the hearing on (1) the clerk or secretary or board of the local public entity, if the respondent is a local public entity, or (2) the State Board of Control or its secretary, if the respondent is the state.

(e) The court shall make an independent determination upon the petition. The determination shall be made upon the basis of the petition, any affidavits in support of or in opposition to the petition, and any additional evidence received at the hearing on the petition.

(f) If the court makes an order relieving the petitioner from the provisions of Section 945.4, suit on the cause of action to which the claim relates must be filed in such court within 30 days thereafter.

SEC. 8. Chapter 4 (commencing with Section 985) is added to Part 5 of Division 3.6 of Title 1 of the Government Code, to read:

CHAPTER 4. PROCEDURES APPLICABLE TO STATE AND LOCAL PUBLIC ENTITIES

985. (a) As used in this section:

(1) "Collateral source payment" includes either of the following:

(A) The direct provision of services prior to the commencement of trial to the plaintiff for the same injury or death by prepaid health maintenance organizations providing services to their members or by nonfederal publicly funded health service providers.

(B) Monetary payments paid or obligated to be paid for services or benefits that were provided prior to the commencement of trial to or on behalf of the plaintiff for the same injury or death from a provider of collateral source payments described in paragraphs (1) and (2) of subdivision (f).

(2) "Plaintiff" includes, but is not limited to, a person or entity who is entitled to make a claim under Part 2 (commencing with Section 6400) of Division 6 of the Probate Code for the collateral source benefits against the tortfeasor or alleged tortfeasor, and in the case of a minor, the minor and the minor's parent, legal guardian or guardian ad litem.

(3) "Commencement of trial" occurs as defined in paragraph (6) of subdivision (a) of Section 581 of the Code of Civil Procedure.

(b) Any collateral source payment paid or owed to or on behalf of a plaintiff shall be inadmissible in any action for personal injuries or wrongful death where a public entity is a defendant. However, after a verdict has been returned against a public entity that includes damages for which payment from a collateral source listed below has

already been paid or is obligated to be paid for services or benefits that were provided prior to the commencement of trial, and the total of the collateral source payments is greater than five thousand dollars ($5,000), that amount to be increased 5 percent compounded on January 1, 1989, and each January 1 thereafter, the defendant public entity may, by a motion noticed within the time set in Section 659 of the Code of Civil Procedure, request a posttrial hearing for a reduction of the judgment against the defendant public entity for collateral source payments paid or obligated to be paid for services or benefits that were provided prior to the commencement of trial. The hearing may be noticed with any motions pursuant to Sections 962 and 984 of the Government Code or Section 659 of the Code of Civil Procedure; however, the hearing shall not occur until after the determination of any motions for a new trial, for judgment notwithstanding the verdict, for remittitur, for additur, and after any mandatory settlement conference pursuant to Section 962 of the Government Code.

(c) A defendant public entity may, by interrogatory or in writing at the trial-setting conference, request from the plaintiff a list of the names and addresses of any provider of a collateral source payment affected by this section that has provided collateral source payments directly to or on behalf of the plaintiff and the amount provided to the plaintiff from each collateral source. The plaintiff shall produce the requested list within 30 days of such request. The plaintiff shall have a continuing duty to disclose to the public entity defendant the name and address of any provider of a collateral source payment affected by this section but not disclosed in plaintiff's response if that provider pays or owes collateral source payments to or on behalf of plaintiff between the time of plaintiff's response and the commencement of trial.

The public entity shall provide written notice to each provider of a collateral source payment listed by the plaintiff or identified by defendant of the date set for any pretrial settlement conference.

The provider of a collateral source shall not be required to attend a settlement conference unless requested to do so by the court. The court may request a provider of a collateral source to attend a settlement conference or to provide written information, to be available by telephone, or to otherwise participate in the conference, and a provider of a collateral source shall waive its rights to reimbursement unless it attends or otherwise complies with the request.

(d) If the plaintiff fails or refuses to supply to the defendant public entity information as to the identity of a provider of a collateral source payment, as required by this section, the defendant public entity may, upon discovery of the identity of the provider of a collateral source payment, within five years of the date of entry of judgment, request a reduction of the judgment for payment made or for services provided prior to the commencement of trial by that source. Failure of plaintiff to provide the names of collateral source

providers affected by this section and known to plaintiff, shall subject plaintiff or plaintiff's attorney to sanctions pursuant to Section 128.5 of the Code of Civil Procedure.

(e) The public entity shall also give 20 days notice to the provider of a collateral source payment of any posttrial settlement conference or hearing regarding collateral source payments under this section.

Proof of service of any notice sent pursuant to this section shall be filed with the court and a copy served on all parties to the action.

(f) At the hearing the trial court shall, in its discretion and on terms as may be just, make a final determination as to any pending lien and subrogation rights, and, subject to subdivisions (1) to (3), inclusive, determine what portion of collateral source payments should be reimbursed from the judgment to the provider of a collateral source payment, deducted from the verdict, or accrue to the benefit of the plaintiff. No provider of collateral source payments pursuant to this section shall recover any amount against the plaintiff nor shall it be subrogated to the rights of the plaintiff against a public entity defendant other than in the amount so determined by the court. The following provisions shall apply to the court's adjustments:

(1) If the court has determined that the verdict included money damages for which the plaintiff has already received payment from or had his or her expenses paid by the following collateral sources: Medi-Cal, county health care, Aid to Families with Dependent Children, Victims of Crime, or other nonfederal publicly funded sources of benefit with statutory lien rights, the court shall order reimbursement from the judgment of those amounts to the provider of a collateral source payment pursuant to this section and on terms as may be just.

(2) If the court has determined that the verdict includes money damages for which the plaintiff has already received payment from or had his or her expenses paid by the following collateral sources: private medical programs, health maintenance organizations, state disability, unemployment insurance, private disability insurance, or other sources of compensation similar to those listed in this paragraph, the court may, after considering the totality of all circumstances and on terms as may be just, determine what portion of the collateral source benefits will be reimbursed from the judgment to the provider of the collateral source payment, used to reduce the verdict, or accrue to the benefit of the plaintiff. However, nothing in this section shall create subrogation or lien rights that do not already exist.

(3) In determining the amount to be reimbursed from the judgment to a provider of a collateral source payment, or the amount by which the judgment will be reduced to account for collateral source payments, the court shall make the following adjustments:

(A) Where plaintiff has been found partially at fault, the reimbursement or reduction shall be decreased by the same percentage as the entire judgment is reduced to take into account the plaintiff's comparative fault.

(B) The court shall deduct from the reimbursement or reduction the amount of premiums the court determines were paid by or on behalf of the plaintiff to the provider of a collateral source payment.

(C) After making the adjustments described in subparagraphs (A) and (B) above, the court shall reduce that amount by a percentage equal to the percentage of the entire judgment that the plaintiff paid or owes for his or her attorney fees and costs and reasonable expenses incurred.

(g) In no event shall the total dollar amount deducted from the verdict, paid to lienholders or reimbursed to all collateral source providers, exceed one-half of the plaintiff's net recovery for all damages after deducting for attorney's fees, medical services paid by the plaintiff, and litigation costs; however, the court may order no reimbursement or verdict reduction if the reimbursement or reduction would result in undue financial hardship upon the person who suffered the injury.

(h) Unless otherwise ordered by the court, 50 percent of any amount reimbursed pursuant to this section shall be due immediately. The court may order the remaining 50 percent to be paid in installments over a period of time to be determined by the court pursuant to Section 984, not to exceed 10 years.

(i) In any case involving multiple defendants, a reduction pursuant to this section shall be proportional to the percentage of the judgment actually paid by the public entity and shall satisfy the judgment as to the portion reduced so that no other judgment debtor shall be jointly liable for the portion of the judgment reduced pursuant to this section. If, after a hearing and determination pursuant to this section, the public entity judgment debtor is required to satisfy a portion of a joint and several judgment beyond that public entity judgment debtor's several portion due to the uncollectability of a joint tortfeasor's portion, the public entity may make a motion to reduce the additional portion in an amount proportional to the determination of the court pursuant to this section.

(j) In all actions affected by this section, the court shall instruct the jury with the following language:

"You shall award damages in an amount that fully compensates plaintiff for damages in accordance with instructions from the court. You shall not speculate or consider any other possible sources of benefit the plaintiff may have received. After you have returned your verdict the court will make whatever adjustments are necessary in this regard."

(k) The Judicial Council shall adopt rules providing for a reasonable extension of the time for filing the notice of appeal from a judgment on the verdict to permit a motion for the hearing and the hearing itself.

(*l*) If the defendant public entity or defendant public employee is also a health care provider as defined in Section 3333.1 of the Civil Code, that section controls as to that defendant.

(m) This chapter does not apply to lien or subrogation rights provided in Chapter 5 (commencing with Section 3850) of Part 1 of Division 4 of the Labor Code.

SEC. 9. Section 3 of Senate Bill 1382 of the 1987–88 Regular Session is amended to read:

(b) Section 10 of this act shall become operative only if this bill and Senate Bill 1598 are enacted and this bill is enacted last.

SEC. 14. This act shall become operative only if Assembly Bills 344, 1530, 1909, and 1912, and Senate Bills 23, 1382, 1526, and 1598 are all enacted and become effective on or before January 1, 1988.

CHAPTER 1209

An act to add Section 831.21 to the Government Code, relating to liability.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 831.21 is added to the Government Code, to read:

831.21. (a) Public beaches shall be deemed to be in a natural condition and unimproved notwithstanding the provision or absence of public safety services such as lifeguards, police or sheriff patrols, medical services, fire protection services, beach cleanup services, or signs. The provisions of this section shall apply only to natural conditions of public property and shall not limit any liability or immunity that may otherwise exist pursuant to this division.

(b) This section shall only be applicable to causes of action based upon acts or omissions occurring on or after January 1, 1988.

SEC. 2. This act shall become operative only if Assembly Bills 344,

1530, 1909, 1912, and 2616, and Senate Bills 1382, 1526, and 1598 are all enacted and become effective on or before January 1, 1988.

CHAPTER 1210

An act to add Section 56842.2 to the Government Code, and to amend Section 11005.2 of the Revenue and Taxation Code, relating to local government.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 56842.2 is added to the Government Code, to read:

56842.2. Any city which was incorporated during the 1977–78 fiscal year may apply to the commission for a determination of the amount of property tax revenue to be exchanged by the affected local agency. The commission shall make the determination within 120 days following the date of the application. The commission shall make this determination in accordance with Section 54790.3 as if that section had not been repealed by Chapter 541 of the Statutes of 1985, provided that the commission shall reduce the amount determined pursuant to that section by the amount of the property tax revenues received by the city as a result of the concurrent or subsequent dissolution of special districts or the conversion of special districts into subsidiary districts. Notwithstanding any other provision of law, the amount determined pursuant to this section shall not reduce the amount of property tax revenue which a city has been receiving.

The amount of property tax revenue to be exchanged as determined pursuant to this section shall be payable to the city commencing with the fiscal year next following the fiscal year in which the determination is made.

For purposes of this section, any reference in Section 56842 to "prior fiscal year" means the 1976–77 fiscal year.

For purposes of this section, in making the calculation required by paragraph (1) of subdivision (c) of Section 56842, the county auditor shall exclude the amount of property tax revenue related to the county's share of Medi-Cal and SSI/SSP costs, the amount of property tax revenue from business inventories which was supplanted by an increased allocation of motor vehicle license fee subventions to counties pursuant to Chapter 448 of the Statutes of 1984, and the amount of property tax revenue which was used to finance health services and was supplanted by the subvention for county health services provided by Part 4.5 (commencing with Section 16700) of Division 9 of the Welfare and Institutions Code. All of the above amounts shall be excluded from both the "amount of property tax

revenue," as used in Section 56842, and the "total amount of revenue from all sources available for general purposes," as defined in Section 56842, except for the amount of property tax revenue from business inventories which shall be excluded only from the "amount of property tax revenue."

The county auditor may assess each city which makes an application for the actual costs of making the determinations required by this section and Section 56842.

SEC. 2. Section 11005.2 of the Revenue and Taxation Code is amended to read:

11005.2. Notwithstanding subdivision (b) of Section 11005, the Controller shall not allocate any revenue pursuant to paragraph (1) of that subdivision to any city which receives revenue pursuant to Section 97.3 or pursuant to Section 56842.2 of the Government Code.

SEC. 3. Section 56482.2 of the Government Code shall not apply to any city otherwise subject to that section which, as a result of any other act or acts enacted in 1987, will receive an amount of property tax revenue equal to or greater than the amount of property tax revenue which the city would receive pursuant to Section 56482.2. If any city subject to Section 56482.2 of the Government Code will receive, as a result of any other act or acts enacted in 1987, an amount of property tax revenue which is less than the amount of property tax revenue which the city would receive pursuant to Section 56482.2, the amount of property tax revenue provided to the city pursuant to that section shall be reduced by the total amount of property tax revenue provided to the city by the other act or acts.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 1211

(d) For purposes of this section, the amount of property tax revenue referred to in subdivision (a) shall not include amounts generated by the increased assessments under Chapter 3.5 (commencing with Section 75).

SEC. 47.7. Section 97.35 is added to the Revenue and Taxation Code, to read:

97.35. (a) In each county having within its boundaries a qualifying city, as defined in subdivision (d), the computations made pursuant to Section 97, for the 1988–89 fiscal year only, shall be modified as follows:

With respect to tax rate areas within the boundaries of a qualifying city, there shall be excluded from the aggregate amount of "property tax revenue allocated pursuant to this chapter to local agencies, other than for a qualifying city, in the prior fiscal year," an amount equal to the sum of the amounts calculated pursuant to the TEA formula, as defined in subdivision (c).

(b) (1) Except as otherwise provided in subdivision (f) and (g), each qualifying city shall for the 1988–89 fiscal year only, be allocated by the auditor an amount determined pursuant to the TEA formula, as defined in subdivision (c).

(2) Except as otherwise provided in subdivisions (f) and (g), for each qualifying city, the auditor shall distribute the amount determined pursuant to the TEA formula to all tax rate areas within that city in proportion to each tax rate area's share of the total 1987–88 assessed value in the city, and the amount so determined shall be subtracted correspondingly from the county's proportionate share of property tax revenue within those tax rate areas.

(3) After making the allocations pursuant to paragraphs (1) and (2), but before making the calculations pursuant to Section 98, the auditor shall, for all tax rate areas in the qualifying city, calculate the proportionate share of property tax revenue allocated pursuant to this section, without regard to subdivision (f), and Section 97 in the 1988–89 fiscal year to each jurisdiction in the tax rate area.

(4) In lieu of making the allocations of annual tax increment pursuant to subdivision (e) of Section 98, the auditor shall for the 1988–89 fiscal year only, allocate the amount of property tax revenue determined pursuant to subdivision (d) of Section 98 to jurisdictions in the tax rate area using the proportionate shares derived pursuant to paragraph (3).

(5) For purposes of the calculations made pursuant to Section 97, in the 1989–90 fiscal year and fiscal years thereafter, the amounts that would have been allocated to qualifying cities pursuant to this subdivision (notwithstanding any deduction made pursuant to subdivision (e)), without the application of subdivision (f), shall be deemed to be the "amount of property tax revenue allocated pursuant to this chapter in the prior fiscal year."

(c) "TEA formula" means the Tax Equity Allocation formula, and shall be calculated by the auditor by applying a tax rate of ten cents ($0.10) per one hundred dollars ($100) of assessed value to the 1987–88 assessed value of the qualifying city. However, when the auditor determines that the amount computed pursuant to this subdivision would result in a qualifying city having proceeds of taxes in excess of its appropriations limit, the auditor shall reduce that amount accordingly.

(d) "Qualifying city" means either of the following:

(1) Any city, except a qualifying city as defined in subdivision (d) of Section 97.3, which incorporated prior to June 5, 1978, but did not levy a property tax in the 1977–78 fiscal year.

(2) Any city which incorporated prior to June 5, 1987, and had an amount of property tax revenue allocated to it pursuant to subdivision (a) of Section 97 in the 1987–88 fiscal year which is less than an amount which would have been received by applying a tax rate of ten cents ($0.10) per one hundred dollars ($100) of assessed value to the 1987–88 assessed value of that city.

(e) The auditor may assess each qualifying city its proportional share of the actual costs of making the calculations required by this section, and may deduct that assessment from the amount allocated pursuant to subdivision (b), as modified by subdivision (f). For purposes of this subdivision, a qualifying city's proportional share of

the auditor's actual costs shall not exceed the proportion it receives of the total amounts excluded in the county pursuant to subdivision (a).

(f) Notwithstanding any other provision of this section, of the actual amount determined pursuant to the TEA formula, as defined in subdivision (c), for each qualifying city, as defined in subdivision (d), the auditor shall distribute only the following percentages of that amount to the tax rate areas in each qualifying city, except as otherwise provided in paragraph (11):

(1) Ten percent of the amount determined pursuant to subdivisions (b) and (c) for the first fiscal year in which the qualifying city receives an allocation pursuant to this section.

(2) Twenty percent of the amount determined pursuant to subdivisions (b) and (c) for the second fiscal year in which the qualifying city receives an allocation pursuant to this section.

(3) Thirty percent of the amount determined pursuant to subdivisions (b) and (c) for the third fiscal year in which the qualifying city receives an allocation pursuant to this section.

(4) Forty percent of the amount determined pursuant to subdivisions (b) and (c) for the forth fiscal year in which the qualifying city receives an allocation pursuant to this section.

(5) Fifty percent of the amount determined pursuant to subdivisions (b) and (c) for the fifth fiscal year in which the qualifying city receives an allocation pursuant to this section.

(6) Sixty percent of the amount determined pursuant to subdivisions (b) and (c) for the sixth fiscal year in which the qualifying city receives an allocation pursuant to this section.

(7) Seventy percent of the amount determined pursuant to subdivisions (b) and (c) for the seventh fiscal year in which the qualifying city receives an allocation pursuant to this section.

(8) Eighty 80 percent of the amount determined pursuant to subdivisions (b) and (c) for the eighty fiscal year in which the qualifying city receives an allocation pursuant to this section.

(9) Ninety percent of the amount determined pursuant to subdivisions (b) and (c) for the ninth fiscal year in which the qualifying city receives an allocation pursuant to this section.

(10) One hundred percent of the amount determined pursuant to subdivision (b) and (c) for the tenth fiscal year and each fiscal year thereafter in which the qualifying city receives an allocation pursuant to this section.

(11) Notwithstanding paragraphs (1) to (10), inclusive, no qualified city, as defined in subdivision (d), shall be allocated an amount pursuant to this subdivision which is less than the amount the qualifying city would have been allocated without the application of the TEA formula.

The amount not distributed as a result of this subdivision to the tax rate areas in each qualifying city, as defined in subdivision (d), shall be allocated by the auditor to the county.

Nothing in this subdivision shall be construed as affecting the

calculations or allocations required by paragraphs (3) to (5), inclusive, of subdivision (b).

(g) A qualifying city, as defined in subdivision (d), shall not receive an allocation pursuant to this section in the 1988–89 fiscal year or in any succeeding fiscal year with respect to which the county in which the qualfying city is located has failed to notify the state pursuant to Sections 77300 and 77301 of the Government Code of the county's intent to opt into the system established by the Trial Court Funding Act of 1985 for that fiscal year.

(h) Each qualifying city shall receive its first fiscal year allocation pursuant to this section in the first fiscal year with respect to which the county in which it is located has notified the state of its intent to opt into the system. The amount of the allocation, determined pursuant to subdivisions (b) and (c), shall be subject to the limitations in paragraphs (1) and (11) of subdivision (f). Thereafter, for each subsequent fiscal year in which a qualifying city received an allocation pursuant to this section, the amount of that allocation, determined pursuant to subdivisions (b) and (c), shall be subject to that limitation contained in paragraph (2), (3), (4), (5), (6), (7), (8), (9), or (10) of subdivision (f) which corresponds to the number of fiscal years the qualifying city has received the allocation and the limitation contained in paragraph (11) of subdivision (f).

SEC. 47.8. Section 98 of the Revenue and Taxation Code is amended to read:

98. The difference between the total amount of property tax revenue computed each year using the equalized assessment roll and the sum of the amounts allocated pursuant to subdivisions (a) and (b) of Section 96 or subdivision (a) of Section 97 shall be known and may be cited as the annual tax increment, and shall be allocated, subject to allocation and payment of funds as provided for in subdivision (b) of Section 33670 of the Health and Safety Code, and modified by any adjustments made pursuant to Section 99 or 99.4, as follows:

(a) For each tax rate area, the auditor shall determine an amount of property tax revenue by multiplying the value of the change in taxable assessed value from the equalized assessment roll for the prior fiscal year to the equalized assessment roll for the current fiscal year by a tax rate of four dollars ($4) per one hundred dollars ($100) of assessed value. When computing the change in taxable assessed value between the 1980–81 fiscal year and the 1981–82 fiscal year, the assessed values for the 1980–81 fiscal year shall be multiplied by four. Starting with the 1981–82 fiscal year, the tax rate used in this calculation shall be one dollar ($1) per one hundred dollars ($100) of full value.

(b) Each amount determined pursuant to subdivision (a) shall be divided by the total of all such amounts computed for all tax rate areas within the county.

(c) The difference between the total amount of property tax revenue for the county and the sum of the amounts allocated

pursuant to subdivisions (a) and (b) of Section 96 or subdivision (a) of Section 97 shall be computed.

(d) The amount determined pursuant to subdivision (c) shall be multiplied by the quotients determined pursuant to subdivision (b) to derive, for each tax rate area, the amount of property tax revenue attributable to changes in assessed valuation.

(e) Except as provided in paragraph (4) of subdivision (b) of Section 97.3 in the 1984–85 fiscal year only, in subdivision (d) of Section 97.32 in the 1985–86 fiscal year only, and in paragraph (4) of subdivision (b) of Section 97.35 in the 1988–89 fiscal year only, the amount of property tax revenue determined pursuant to subdivision (d) shall be allocated to the jurisdictions in the tax rate area in the same proportion that the total property tax revenue determined pursuant to subdivision (d) for the prior year was allocated to all such jurisdictions in the tax rate area except that those proportions within each tax rate area may be adjusted for affected agencies pursuant to the provisions of Section 99 or 99.4.

(f) For the 1979–80 fiscal year only:

(1) The amount of property tax revenue, attributable to the tax rate area, for each jurisdiction for the prior fiscal year shall be considered to be the total property tax revenue for such jurisdiction for fiscal year 1978–79 allocated among tax rate areas in the same proportion which the taxable assessed valuation for fiscal year 1978–79 in each tax rate area bears to the total taxable assessed valuation of all tax rate areas in which the jurisdiction was located in fiscal year 1978–79.

(2) Property tax revenue received by local agencies in the prior fiscal year shall include the amount of state assistance payments allocated to each local agency, allocated among tax rate areas in proportion to the jurisdiction's taxable assessed valuation within each tax rate area for the 1978–79 fiscal year.

(3) Property tax revenue received by school entities in the prior fiscal year shall be reduced by the adjustments required by subdivision (b) of Section 96, allocated among tax rate areas, in proportion to the school entity's taxable assessed valuation within each tax rate area for the 1978–79 fiscal year.

(g) Any agency which has not filed a map of its boundaries by January 1, in compliance with Chapter 8 (commencing with Section 54900) of Part 1 of Division 2 of Title 5 of the Government Code, shall not receive any allocation pursuant to this section for the following fiscal year.

(h) For the purpose of this section, for the 1980–81 fiscal year, the 1979–80 taxable assessed valuation shall be adjusted to delete the amounts reflecting prior years' taxable business inventories.

SEC. 47.9. Section 11005 of the Revenue and Taxation Code is amended to read:

11005. (a) After payment of refunds therefrom and after making the deductions authorized by Section 11003 and reserving the amount determined necessary by the Pooled Money Investment

Board to meet the transfers ordered or proposed to be ordered pursuant to Section 16310 of the Government Code, 81.25 percent of the balance of all motor vehicle license fees and any other money appropriated by law for expenditure pursuant to this section and deposited to the credit of the Motor Vehicle License Fee Account in the Transportation Tax Fund and remaining unexpended therein at the close of business on the last day of the calendar month shall be allocated by the Controller by the 10th day of the following month in the manner provided by subdivisions (c) and (d).

(b) Eighteen and three-quarters percent of the balance shall be allocated each month to counties and cities and counties, as follows: an amount for each county and city and county equal to the revenue received in the 1982–83 fiscal year pursuant to former Section 16111, subdivision (c) of former Section 16113, and former Section 16113.7 of the Government Code. These amounts shall be determined by the Controller with the concurrence of the Director of Finance. The Controller shall allocate any remaining amount determined pursuant to this subdivision to counties and cities and counties in the proportion that the population of each county or city and county bears to the total population of all the counties and cities and counties of the state, as determined pursuant to subdivision (d).

(c) Fifty percent of the payments required by subdivision (a) shall be paid to the cities and cities and counties of this state in the proportion that the population of each city or city and county bears to the total population of all cities and cities and counties in this state, as determined by the population research unit of the Department of Finance. For the purpose of this subdivision, the population of each city or city and county is that determined by the last federal decennial or special census, or a subsequent census validated by the population research unit or subsequent estimate prepared pursuant to Section 2107.2 of the Streets and Highways Code. In the case of a city incorporated subsequent to the last federal census, or a subsequent census validated by the population research unit, the population research unit shall determine the population of the city. In the case of unincorporated territory being annexed to a city subsequent to the last federal census, or a subsequent census validated by the population research unit, the population research unit shall determine the population of the annexed territory by the use of any federal decennial or special census, or estimate prepared pursuant to Section 2107.2 of the Streets and Highways Code. In the case of the consolidation of one city with another subsequent to the last federal census, or a subsequent census validated by the population research unit, the population of the consolidated city, for the purpose of this subdivision, is the aggregate population of the respective cities as determined by the last federal census, or a subsequent census or estimate validated by the population research unit.

(d) Fifty percent of the payments required by subdivision (a) shall be paid to the counties and cities and counties of the state in the

proportion that the population of each county or city and county bears to the total population of all the counties and cities and counties of the state, as determined by the population research unit. For the purpose of this subdivision, the population of each county or city and county is that determined by the last federal census, or subsequent census validated by the population research unit, or as determined by Section 11005.6.

(e) Money disbursed by the Controller to cities and counties pursuant to this section may be used for county or city purposes and may, but need not necessarily, be used for purposes of general interest and benefit to the state.

(f) Population changes based on a federal special census or a subsequent census validated by the Department of Finance shall be accepted by the Controller only if certified to him at the request of the city, city and county, or county for which the census was made and shall become effective on the first day of the month following receipt of the certification.

Sections 5 to 40, inclusive, of this act shall become individually operative only upon (a) the Trial Court Funding Act of 1985 becoming operative, and (b) the notification to the state by the county affected by that particular section of its intent to opt into the system under that act, as specified in Sections 77300 and 77301 of the Government Code, but (c) in the event (a) and (b) both occur prior to July 1, 1988, the section affected shall become operative July 1, 1988.

SEC. 50.1. Sections 41 to 47, inclusive, of this act shall become operative on July 1, 1988.

SEC. 50.5. Section 47.2 of this bill incorporates amendments to Section 1078 of the Penal Code proposed by both this bill and Assembly Bill 631. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1988, (2) each bill amends Section 1078 of the Penal Code, and (3) this bill is enacted after Assembly Bill 631, in which case Section 47.1 of this bill shall not become operative.

SEC. 51. SEC. 53. No reimbursement is required by Sections 47.6 to 47.8, inclusive, of this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature in passing this measure to assure proper expenditure of and accountability for funds appropriated for the care of foster children. The Legislature believes that better compliance with federal and state fiscal standards will result from more rigorous auditing and overpayment recovery efforts, and from a better understanding of the standards and regulations by providers of services to foster children.

It is the intent of the Legislature that the State Department of Social Services ensure that group home providers know the rules and standards for ratesetting, the standards of allowability and reasonableness of expenditure, and auditing standards and protocols. In addition to providing the written standards pursuant to Section 11462.7, the department is encouraged to provide a program of orientation and training for providers.

New standards, if any, created by this act shall not be retroactively applied to previous expenditures of providers or prior actions by the department.

SEC. 2. Section 1526.75 is added to the Health and Safety Code, to read:

1526.75. (a) It is the intent of the Legislature to maintain quality resources for children needing placement away from their families. If, during a periodic inspection or an inspection pursuant to Section 1526.5, a facility is found out of compliance with one or more of the licensing standards of the department, the department shall, unless an ongoing investigation precludes it, advise the provider of the

noncompliance as soon as possible. The provider shall be given the opportunity to correct the deficiency.

(b) The department shall implement a procedure whereby citations for noncompliance may be appealed and reviewed.

(c) Nothing in this section shall preclude the department from taking any action it may deem necessary to ensure the safety of children and adults placed in any facility.

SEC. 3. Section 11460 of the Welfare and Institutions Code is amended to read:

11460. (a) It is the intent of the Legislature that rates paid providers on behalf of children placed in foster care shall be determined in accordance with Section 11462, 11462.1, 11462.2, 11463 or 11464. These rates shall be paid for care and supervision of children receiving assistance under the AFDC-FC program.

(b) The department is designated the single organizational unit whose duty it shall be to administer a state system for establishing rates in the AFDC-FC program. State functions shall be performed by the department or by delegation of the department to county welfare departments. The department may contract with an appropriate public or private audit agency for the performance of audits of payments made to AFDC-FC providers.

SEC. 4. Section 11462 of the Welfare and Institutions Code is amended to read:

11462. (a) For children receiving AFDC-FC under the provisions of this chapter who are placed in group homes, or public child care institutions, as defined in Section 11402.5, there shall be a rate established based on actual allowable costs.

(b) (1) As used in this section, "allowable costs" means: (A) the reasonable cost of, and the cost of providing food, clothing, shelter, daily supervision, school supplies, a child's personal incidentals, liability insurance with respect to a child, and reasonable travel to the child's home for visitation; (B) reasonable cost of administration and operation necessary to provide the items described in paragraph (A); and (C) reasonable activities performed by social workers employed by group home providers which are not otherwise allowable as daily supervision or as the costs of administration.

(2) The director, with the advice and assistance of the counties and representatives of group home providers, shall have the authority to define reasonableness as he or she determines it to be necessary and appropriate, for paragraph (1) of this subdivision.

(c) General unrestricted or undesignated private charitable donations and contributions made to charitable or nonprofit organizations shall not be deducted from the cost of providing services pursuant to this section.

(d) The department shall develop regulations specifying the procedure for the appeal of department decisions about an agency's allowable costs or the setting of an agency's rate.

(e) The department shall implement a plan whereby AFDC-FC payment rates shall be effectively controlled. The department shall,

(g) Medi-Cal eligibility determination activities are undertaken by counties on behalf of the department. Reasonable and necessary costs incurred by counties relating to such eligibility determination activities shall be recognized as costs incurred by the state for purposes of inclusion in the nonfederal share of Medi-Cal eligibility determination expenditures for claiming federal financial participation.

(h) Subdivision (e) shall not apply to agreements between the department and a county executed prior to the effective date of this section.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

To clarify the ambiguities relating to certain county costs incurred in processing Medi-Cal applications for various fiscal years, and to ensure that federal financial participation be pursued and obtained whenever possible, it is necessary that this act take effect immediately.

CHAPTER 1228

An act to amend Sections 214 and 214.9 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

However, in the case of hospitals, the organization shall not be deemed to be organized or operated for profit, if during the immediate preceding fiscal year the excess of operating revenues, exclusive of gifts, endowments and grants-in-aid, over operating expenses has not exceeded a sum equivalent to 10 percent of those operating expenses. As used herein, operating expenses shall include depreciation based on cost of replacement and amortization of, and interest on, indebtedness.

(b) The department shall perform, or have performed, audits of all group homes which receive funds, pursuant to subdivision (a), on behalf of children receiving assistance under the AFDC-FC program no less often than every three years. This requirement shall apply to any group home receiving funds pursuant to subdivision (a) which the department determines has had five or more AFDC-FC children in placement during any one fiscal year.

(c) The placing agency shall determine the group home rate paid to the facility by the state in which the facility is located, and shall notify the department of the rate.

SEC. 6. Section 11462.2 of the Welfare and Institutions Code is amended to read:

11462.2. (a) Notwithstanding Section 11462, when the director determines that a rate established pursuant to that section for a multistate group home facility which operates in more than two states and which provides high impact adventure programs and which first offered these programs in the State of Arizona, is less than the established national rate for the multistate group home facility, and when the director determines that the multistate group home facility is otherwise licensed but would not be available due to the operation of Section 11462, the director may at his or her discretion establish a rate comparable to the rate paid in other states.

(b) When the director establishes a rate pursuant to this section, the facility shall be subject to audits by the department, or other public or private audit agency with which the department contracts, no less often than every three years.

SEC. 7. Section 11462.3 of the Welfare and Institutions Code is repealed.

SEC. 8. Section 11462.6 is added to the Welfare and Institutions Code, to read:

11462.6. (a) The department shall perform or have performed an audit at least once every three years, beginning January 1, 1988, on group homes which received funds on behalf of children receiving assistance under the AFDC-FC program. The department or its agent may audit group homes more frequently if misuse of funds has occurred or is apparent.

(b) The department or other public or private audit agency with which the department contracts shall coordinate with the department's licensing and ratesetting entities so that a consistent set of standards, rules, and auditing protocols are maintained. The department or other public or private audit agency with which the department contracts shall, no later than January 1, 1988, make available to all group home providers, in writing, any standards, rules, and auditing protocols to be used in such audits which exceed those provided by the department pursuant to Section 11462.7.

(c) The department shall develop and maintain a system for the

recovery of overpayments. The department shall seek recovery of unauthorized funds but it shall attempt to do so in a manner which would not jeopardize overall availability of placements for foster children. Nothing in this subdivision shall preclude the department from revoking the license of, or initiating legal procedures against, a provider who violates relevant laws and regulations.

(d) The department shall provide exit interviews with providers wherein deficiencies found are explained and the opportunity exists for providers to respond.

(e) The department shall develop regulations specifying the procedure for the appeal of audit findings.

SEC. 9. Section 11462.7 of the Welfare and Institutions Code is amended to read:

11462.7. (a) The Legislature finds and declares that group home providers are often unclear or uncertain about the standards used by the department to do the following:

(1) Set rates.

(2) Determine the allowability and reasonableness of expenditures.

(3) Audit the expenditures upon which rates are based.

(b) The department shall, no later than July 1, 1988, make available to all group home providers, in writing, its standards which are currently in use to do the following:

(1) Set rates, including, but not limited to, the criteria and factors used to establish peer groups.

(2) Determine which costs are allowable and reasonable.

(3) Audit expenditures pursuant to Section 11462.6.

(c) Effective July 1, 1986, the department shall not apply or enforce standards with regard to the reasonableness of expenditures pursuant to Section 11462 that are not made available to group home providers, in writing, prior to the beginning of the period for which a rate is established.

(d) The department shall consult with representatives of group home providers concerning the development of those standards and the modification of existing standards. Group home providers shall receive written notice of, and have the opportunity to comment upon, new and modified standards proposed by the department.

(e) The department shall make available to group home providers, in writing, any new or modified standards prior to the beginning of the period upon which a rate is calculated, if possible, or as quickly as it is administratively practical to do so. Notwithstanding subdivisions (b), (c), and (d), in the event of an unanticipated circumstance or unusual expenditure, the department may exercise its discretion in interpreting what is an allowable or a reasonable expenditure. However, the department shall make those interpretations available to group home providers, in writing, as quickly as it is practical to do so.

SEC. 10. Section 11463.5 is added to the Welfare and Institutions Code, to read:

SEC. 2. SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the provisions of this act shall become operative on the first day of the first calendar quarter commencing more than 90 days after the effective date of this act.

CHAPTER 1214

An act to amend Section 13962 of, and to add Sections 13965.1 and 13969.2 to, the Government Code, and to amend Section 1464 of the Penal Code, relating to crime, and declaring the urgency thereof, to take effect immediately.

(b) If the application is accepted in accordance with subdivision (a), the board shall process claims within an average of 90 days. The 90-day period shall operate from the date the claim is accepted by the board or local contract agencies, to the date of payment or denial of the claim. Any verification of the claim which is deemed necessary shall be performed during this 90-day period. The verification process shall include sending supplemental forms to all hospitals, physicians, law enforcement officials and other interested parties involved, verifying the treatment of the victim, circumstances of the crime, amounts paid or received by or for the victim and other pertinent information as may be deemed necessary by the board. Verification forms shall be provided by the board and shall be returned to the board within 10 business days. All information shall be provided at no cost to the applicant, the board, or local victim centers. The board shall include on the verification forms reference to this section with respect to the prompt return of the verification forms. The board, thereupon, shall consider the application at a hearing at a time and place of its choosing. The board shall notify all interested persons not less than five days prior to the date of the hearing.

(c) The victim shall cooperate with the staff of the board or the local victim center in the verification of the information contained in the application. Failure to cooperate shall be reported to the board, which, in its discretion, may reject the application on this ground alone.

(d) Hearings shall be held in various locations with the frequency necessary to provide for the speedy adjudication of the applications.

If the applicant's presence is required at the hearing, the board shall consider convenience to the applicant in scheduling the locations. If necessary, the board shall delegate the hearing of applications to hearing examiners.

(e) The board may contract with local victim centers to provide verification of claims processed by the centers pursuant to conditions stated in subdivision (b).

SEC. 2. Section 13965.1 is added to the Government Code, to read:

13965.1. Notwithstanding any conflicting provision of this chapter, the board may make additional payments for purposes described in paragraph (1) of subdivision (a) of Section 13965 to any victim who filed an application with the board on or after December 1, 1982, who was a victim of a crime involving sexual assault, and who is a minor at the time the additional payments pursuant to this section are made. The payments authorized by this section shall not in the aggregate of all payments made by the board to the victim of the crime exceed twenty-three thousand dollars ($23,000), unless federal funds are available, in which case the aggregate maximum award may be increased to forty-six thousand dollars ($46,000).

SEC. 3. Section 13969.2 is added to the Government Code, to read:

13969.2. If the board does not meet the 90-day standard prescribed in subdivision (b) of Section 13962, the board shall, thereafter, report to the Legislature, on a quarterly basis, its progress and its current average time of processing a claim.

SEC. 4. Section 1464 of the Penal Code is amended to read:

1464. (a) Subject to the provisions of Section 76000 of the Government Code, there shall be levied an assessment in an amount equal to seven dollars ($7) for every ten dollars ($10) or fraction thereof, upon every fine, penalty, or forfeiture imposed and collected by the courts for criminal offenses, including all offenses involving a violation of a section of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code, except offenses relating to parking or registration or offenses by pedestrians or bicyclists, or where an order is made to pay a sum to the general fund of the county pursuant to subparagraph (iii) of paragraph (3) of subdivision (a) of Section 258 of the Welfare and Institutions Code. Any bail schedule adopted pursuant to Section 1269b may include the necessary amount to pay the assessments established by this section and Section 76000 of the Government Code for all matters where a personal appearance is not mandatory and the bail is posted primarily to guarantee payment of the fine.

(b) Where multiple offenses are involved, the assessment shall be based upon the total fine or bail for each case. When a fine is suspended, in whole or in part, the assessment shall be reduced in proportion to the suspension.

(c) When any deposited bail is made for an offense to which this section applies, and for which a court appearance is not mandatory,

the person making the deposit shall also deposit a sufficient amount to include the assessment prescribed by this section for forfeited bail. If bail is returned, the assessment made thereon pursuant to this section shall also be returned.

(d) In any case where a person convicted of any offense, to which this section applies, is in prison until the fine is satisfied, the judge may waive all or any part of the assessment, the payment of which would work a hardship on the person convicted or his or her immediate family.

(e) After a determination by the court of the amount due, the clerk of the court shall collect the same and transmit it to the county treasury. The portion thereof attributable to Section 76000 of the Government Code shall be deposited in the appropriate county fund and the balance shall then be transmitted to the State Treasury to be deposited in the Assessment Fund, which is hereby created. The transmission to the State Treasury shall be carried out in the same manner as fines collected for the state by a county.

(f) Of moneys so deposited, two dollars ($2) for every seven dollars ($7) collected shall be transmitted to the State Treasury to be deposited directly into the Restitution Fund. The remainder shall be distributed as follows:

(1) Once a month there shall be transferred into the Fish and Game Preservation Fund an amount equal to 0.38 percent of the funds deposited in the Assessment Fund during the preceding month, but in no event shall the amount be less than the assessment levied on fines or forfeitures for violation of state laws relating to the protection or propagation of fish and game. These moneys are to be used for the education or training of department employees which fulfills a need consistent with the objectives of the Department of Fish and Game.

(2) Once a month there shall be transferred into the Restitution Fund an amount equal to 22.12 percent of the funds deposited in the Assessment Fund during the preceding month. Those funds shall be made available in accordance with subdivision (b) of Section 13967 of the Government Code.

(3) Once a month there shall be transferred into the Peace Officers' Training Fund an amount equal to 27.75 percent of the funds deposited in the Assessment Fund during the preceding month.

(4) Once a month there shall be transferred into the Driver Training Penalty Assessment Fund an amount equal to 29.73 percent of the funds deposited in the Assessment Fund during the preceding month.

(5) Once a month there shall be transferred into the Corrections Training Fund an amount equal to 9.12 percent of the funds deposited in the Assessment Fund during the preceding month. Money in the Corrections Training Fund is not continuously appropriated and shall be appropriated in the Budget Act.

(6) Once a month there shall be transferred into the Local Public

Prosecutors and Public Defenders Training Fund established pursuant to Section 11503 an amount equal to 0.90 percent of the funds deposited in the Assessment Fund during the preceding month. The amount so transferred shall not exceed the sum of eight hundred fifty thousand dollars ($850,000) in any fiscal year. The remainder in excess of eight hundred fifty thousand dollars ($850,000) shall be transferred to the Restitution Fund.

(7) Once a month there shall be transferred into the Victim-Witness Assistance Fund an amount equal to 10.00 percent of the funds deposited in the Assessment Fund during the preceding month.

SEC. 5. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

(2) An analysis of the available options for monitoring and assessing current levels of exposure to identified and all potential toxic air contaminants in urban areas of the state, taking into consideration the technical feasibility and costs of these monitoring options. The report shall evaluate the extent to which the establishment of additional monitoring capacity is appropriate and feasible to facilitate the identification and control of toxic air contaminants.

(3) A list of all substances or classes of substances addressed by the state board pursuant to paragraph (2), including, but not limited to, a discussion of the appropriateness and availability of monitoring for those substances or classes of substances.

(4) An analysis of the feasibility and costs of establishing an indoor toxic air contaminant monitoring program to facilitate the implementation of Section 39660.5.

(b) Based on the findings in the report prepared pursuant to subdivision (a), the state board shall develop, by July 1, 1989, in conjunction with the districts, guidelines for establishing supplemental toxic air contaminant monitoring networks to be implemented by the districts. The board shall develop the guidelines only to the extent that it determines, pursuant to paragraph (2) of subdivision (a), that establishing additional monitoring capacity is appropriate and feasible.

(c) The guidelines established pursuant to subdivision (b) shall include a priority list for establishing and implementing the supplemental toxic air contaminant monitoring networks. The state board shall give priority to that supplemental monitoring capacity it determines to be most needed to identify and control toxic air contaminants. The state board shall allocate to districts, in the priority order included in the guidelines, state funds provided in subdivision (b) of Section 3 of the act adding this section and in subsequent Budget Acts for establishing and implementing the supplemental toxic air contaminant monitoring networks. The state board shall allocate state funds to the districts, upon appropriation by the Legislature, on a 50 percent matching basis, and shall not provide state funds for the supplemental toxic air contaminant monitoring program established by Section 40715 to any district in excess of district funds allocated by the district in establishing and implementing the supplemental monitoring networks created pursuant to Section 40715.

(d) The state board shall request in its annual budget sufficient state funds, in addition to those provided in subdivision (b) of Section 3 of the act adding this section, to match, on a 50 percent basis, those district funds allocated by the districts for establishing and implementing the supplemental monitoring program specified in the guidelines adopted pursuant to subdivision (b).

Funds for the remaining 50 percent of the costs of establishing and implementing the supplemental toxic air contaminant monitoring networks shall be provided by the state board pursuant to subdivision (c) of Section 39668. Districts shall not be required to expend any district funds to establish and implement the supplemental toxic air contaminant monitoring program, as determined by Section 39668, that are in excess of the amount of state funds provided by the state board for that purpose.

(b) It is the intent of the Legislature that this district supplemental toxic air contaminant monitoring program shall supplement existing laws and regulations to protect human health and safety from the adverse effects of toxic air contaminants and shall not limit the existing authority of any state or local agency to identify or control toxic air contaminants.

SEC. 3. The sum of one hundred fifty thousand dollars ($150,000) is hereby appropriated to the State Air Resources Board for purposes of Section 39668 of the Health and Safety Code, as follows:

(b) The number of homeless and hungry individuals in California has reached crisis proportions. It is estimated that between 55,000 and 100,000 persons are homeless in California and the number could be as high as 250,000.

(c) The homeless in California include the elderly, the mentally ill, families with unemployed breadwinners, single women with children, veterans, runaway and "thrown away" youth, and the chemically dependent.

(d) The magnitude of the problem has overwhelmed the resources of local government and the private sector. Charitable and religious groups have provided a large portion of the necessary shelter services, as well as providing food closets, soup kitchens, and overnight lodging vouchers.

(e) Low-cost housing and relief is not available in sufficient quantities in most areas of the state. The demand for relief shelter far exceeds the supply available in California.

(f) Emergency shelters are, and will continue to be, the primary assistance to many homeless persons in California.

SEC. 3. Section 14670.25 is added to the Government Code, to read:

14670.25. (a) Notwithstanding any other provision of law, the director may let the Nurses Cottage at the Agnew's Developmental Center in the City of Santa Clara and units 11 to 15, inclusive, of Building No. 7 at west campus of the center, and Buildings No. 213 and 215 at the Metropolitan State Hospital in the City of Norwalk, with the consent of the affected state agency, pursuant to Section 14670 for emergency shelters or feeding programs for a period of not more than five years to qualified nonprofit organizations.

At the end of the initial five-year period and every five years thereafter, the lease shall be reviewed to assure compliance by the lessee with the original purposes of the agreement and may be renewed if appropriate. Property let for that purpose shall be let for the amount of one dollar ($1) per month. The lease amount may be paid in advance of the term covered in order to reduce the administrative costs associated with the payment of the monthly rental fee.

Any lease executed pursuant to this section shall also provide for the cost of administering the lease. The administrative fee shall not exceed three hundred dollars ($300) per year, unless the director and the affected state agency determine that, because of complications in the lease agreement, a higher administrative fee is required.

(b) The Legislature finds and declares that the lease of real property pursuant to this section serves a public purpose.

(c) For purposes of this section, "qualified nonprofit organizations" include only those organizations which can

demonstrate the ability to pay liability insurance and other costs of maintaining the leased property incurred in providing services for the homeless.

SEC. 4. Section 104.8 is added to the Streets and Highways Code, to read:

104.8. (a) The department may provide information regarding, and may lease, airspace under the interchange of Route 4 and Route 5 in San Joaquin County and between 17th Street and the west side of Route 5 between the southbound on-ramp and the off-ramp near J Street in the City of San Diego and on the northeast corner of Route 101 and De La Vina Street in the County of Santa Barbara, to any qualified nonprofit agency, pursuant to submission of proof of its nonprofit status, for emergency shelter or feeding program purposes. Property may be leased pursuant to this section only if there is no buyer. The lease shall be for one dollar ($1) per month. The lease amount may be paid in advance of the term covered in order to reduce the administrative costs associated with the payment of the monthly rental fee.

Any lease executed pursuant to this section shall also provide for the cost of administering the lease.

The administrative fee shall not exceed five hundred dollars ($500) per year unless the department determines that a higher administrative fee is necessary.

(b) The Legislature finds and declares that the lease of real property pursuant to this section serves a public purpose.

(c) For purposes of this section, "qualified private nonprofit agency" includes only organizations which can demonstrate the ability to pay liability insurance and other costs of maintaining the leased property incurred in providing services for the homeless.

CHAPTER 1223

An act to amend Sections 17721 and 17742.5 of the Education Code, and to amend Section 15490 of the Government Code, relating to school facilities.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 17721 of the Education Code is amended to read:

17721. No project shall be approved for the reconstruction, modernization, or replacement of any school building that was constructed or reconstructed less than 30 years, or, in the case of any portable classroom, as defined in subdivision (e) of Section 17742.5, less than 20 years, prior to the date of approval of the project applied

for under this chapter.

SEC. 2. Section 17742.5 of the Education Code is amended to read:

17742.5. For purposes of determining the area of adequate school construction existing in an applicant school district pursuant to Section 17742, all portable classrooms, whether owned or leased, shall be included, except as otherwise provided in subdivisions (a), (b), (c), and (d).

(a) Leased portable classrooms acquired by a school district shall not be included in the area of existing adequate school construction until January 1, 1991.

(b) Portable classrooms leased pursuant to Chapter 25 (commencing with Section 17785) shall be excluded from the area of adequate school construction.

(c) The total area of portable classrooms that is in excess of 10 percent of the district's total area and that have been leased or owned by the district for 20 years or more shall be excluded from the area of adequate school construction. At the option of the applicant district, the area calculation may refer instead to the total area of portable classrooms in the high school attendance area in which the project is located, as of July 1, 1986, that exceeded, as of that date, 10 percent of the total area of the high school attendance area.

(d) Leased portable classrooms shall not be included in the area of adequate school construction for a period of five years from the date first leased by the district. That exclusion shall be extended by the board for one additional five-year period where the board finds that the continued use of the leased portable classrooms for classroom purposes is justified by additional growth in average daily attendance pursuant to the standards established by this part. If the board finds continued use to be no longer justified, it may extend the exclusion for a period of up to two years as necessary to maintain the eligibility of the applicant district for project funding pursuant to this chapter if the board finds that the district has made a good faith effort to obtain that funding in a timely manner. The additional five-year exclusion shall not apply to any portable classroom for which, under the lease agreement, the district is to take title, or the total consideration paid by the district for the lease and an option to purchase is determined by the board to be substantially equivalent to the cost of acquiring title.

(e) For purposes of this section, "portable classroom" means a classroom building of modular design and construction that meets all of the following criteria:

(1) Is designed and constructed to be relocatable and transportable over public streets.

(2) Is designed and constructed for relocation without the separation of the roof or floor from the building.

(3) When measured at the most exterior walls, has a floor area not in excess of 2,000 square feet.

(f) In the alternative to claiming any or all of the exclusions set

forth in subdivisions (a) to (d), inclusive, an applicant school district may exclude from the determination of the area of existing adequate school construction the total square footage calculated as follows:

(1) Subtract the average daily attendance of the district, by grades, based on a three-year enrollment projection from the average daily attendance of the district, by grade, based on a five-year enrollment projection, which projections shall be made in accordance with methods and standards established by the board pursuant to this chapter. Where the allowable building area of the district is computed, pursuant to this chapter, by high school attendance area, the computation described in this paragraph shall be performed on that basis.

(2) Multiply the results of paragraph (1) by the following:

(A) Forty-five square feet, for kindergarten and grades 1 to 6, inclusive.

(B) Fifty square feet, for grades 7 and 8.

(C) Fifty-five square feet, for grades 9 to 12, inclusive.

(3) Add together the results of subparagraphs (A) to (C), inclusive, of paragraph (2).

SEC. 3. Section 15490 of the Government Code is amended to read:

15490. (a) There is in the state government the State Allocation Board, consisting of the Director of Finance, the Director of General Services, and the Superintendent of Public Instruction. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker, shall meet and, except as otherwise provided by the Constitution, advise with the board to the extent that this advisory participation is not incompatible with their respective positions as Members of the Legislature.

(b) The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties.

(c) The Director of General Services shall provide assistance to the board as the board requires. The board may, by a majority vote of all members, do one or more of the following:

(1) Appoint an employee to report directly to the board as assistant executive officer.

(2) Fix the salary and other compensation of the assistant executive officer.

(3) Employ additional staff members, and secure office space and furnishings, as necessary to support the assistant executive officer in the performance of his or her duties.

CHAPTER 1224

An act to add and repeal Section 7035 of the Business and Professions Code, relating to contractors, and making an appropriation therefor.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 7035 is added to the Business and Professions Code, to read:

7035. (a) There is hereby created a pilot project to be operated in not more than six cities, counties, or cities and counties, as determined by the registrar and as authorized by the individual cities, counties, or cities and counties, under which a local building inspector, or a person designated by the city or county, when checking for building or construction permits or for compliance with local or state building laws, may issue a citation to a person who is engaged in contracting without a license in violation of this chapter.

(b) All citations shall be on a form prescribed by the registrar. One copy of the citation shall be given to the alleged violator and one copy shall be forwarded to the registrar within 10 days of issuance.

(c) The board shall reimburse the local entity the sum of twenty-five dollars ($25) for each citation issued by an inspector of that entity.

(d) This section shall be operative until January 1, 1989, and on that date is repealed, unless a later enacted statute extends or repeals this section.

SEC. 2. The Contractors' State License Board shall report to the Legislature on or before February 1, 1989, as to the effectiveness of the pilot project for citing unlicensed contractors pursuant to Section 7035 of the Business and Professions Code. The report shall include the total number of citations issued in the pilot project area and the outcome of citations.

SEC. 3. The sum of sixty thousand dollars ($60,000) is hereby appropriated from the Contractors' License Fund to the Contractors' State License Board for reimbursement to local agencies for citations issued pursuant to Section 7035 of the Business and Professions Code.

CHAPTER 1225

An act to amend Sections 1317, 1798, 1798.170, 1798.172, 1798.206, and 1798.208 of, and to add Sections 1317.1, 1317.2, 1317.2a, 1317.3, 1317.4, 1317.5, 1317.6, 1317.7, 1317.8, 1317.9, 1317.9a, and 1798.205 to, the Health and Safety Code, relating to hospital emergency medical treatment and patient transfer.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1317 of the Health and Safety Code is amended to read:

1317. (a) Emergency services and care shall be provided to any person requesting services or care, or for whom services or care is requested, for any condition in which the person is in danger of loss of life, or serious injury or illness, at any health facility licensed under this chapter that maintains and operates an emergency department to provide emergency services to the public when the health facility has appropriate facilities and qualified personnel available to provide the services or care.

(b) In no event shall the provision of emergency services and care be based upon, or affected by, the person's race, ethnicity, religion, national origin, citizenship, age, sex, preexisting medical condition, physical or mental handicap, insurance status, economic status, or ability to pay for medical services, except to the extent that a circumstance such as age, sex, preexisting medical condition, or physical or mental handicap is medically significant to the provision of appropriate medical care to that individual.

(c) Neither the health facility, its employees, nor any physician, dentist, or podiatrist shall be held liable in any action arising out of a refusal to render emergency services or care if reasonable care is exercised in determining and treating the condition of the person, or in determining the appropriateness of the facilities, the qualifications and availability of personnel to render the services.

(d) Emergency services and care shall be rendered without first questioning the patient or any other person as to his ability to pay therefor. However, the patient or his legally responsible relative or guardian shall execute an agreement to pay therefor or otherwise supply insurance or credit information promptly after the services are rendered.

(e) If a health facility subject to this chapter does not maintain an emergency department, its employees shall nevertheless exercise reasonable care to determine whether an emergency exists and shall direct the persons seeking emergency care to a nearby facility which can render the needed services, and shall assist the persons seeking emergency care in obtaining the services, including transportation

services, in every way reasonable under the circumstances.

(f) No act or omission of any rescue team established by any health facility licensed under this chapter, or operated by the federal or state government, a county, or by the Regents of the University of California, done or omitted while attempting to resuscitate any person who is in immediate danger of loss of life shall impose any liability upon the health facility, the officers, members of the staff, nurses, or employees of the health facility, including, but not limited to, the members of the rescue team, or upon the federal or state government or a county, if good faith is exercised.

(g) "Rescue team," as used in this section, means a special group of physicians and surgeons, nurses, and employees of a health facility who have been trained in cardiopulmonary resuscitation and have been designated by the health facility to attempt, in cases of emergency, to resuscitate persons who are in immediate danger of loss of life.

(h) This section shall not relieve a health facility of any duty otherwise imposed by law upon the health facility for the designation and training of members of a rescue team or for the provision or maintenance of equipment to be used by a rescue team.

SEC. 2. Section 1317.1 is added to the Health and Safety Code, to read:

1317.1. Unless the context otherwise requires, the following definitions shall control the construction of this article:

(a) "Emergency services and care" means medical screening, examination, and evaluation by a physician, or, to the extent permitted by applicable law, by other appropriate personnel under the supervision of a physician, to determine if an emergency medical condition or active labor exists and, if it does, the care, treatment, and surgery by a physician necessary to relieve or eliminate the emergency medical condition, within the capability of the facility.

(b) "Emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention could reasonably be expected to result in any of the following:

(1) Placing the patient's health in serious jeopardy.

(2) Serious impairment to bodily functions.

(3) Serious dysfunction of any bodily organ or part.

(c) "Active labor" means a labor at a time at which either of the following would occur:

(1) There is inadequate time to effect safe transfer to another hospital prior to delivery.

(2) A transfer may pose a threat to the health and safety of the patient or the unborn child.

(d) "Hospital" means all hospitals with an emergency department licensed by the state department.

(e) "State department" means the State Department of Health Services.

(f) "Medical hazard" means a material deterioration in medical

condition in, or jeopardy to, a patients' medical condition or expected chances for recovery.

(g) "Board" means the Board of Medical Quality Assurance.

(h) "Within the capability of the facility" means those capabilities which the hospital is required to have as a condition of its emergency medical services permit and services specified on Services Inventory Form 7041 filed by the hospital with the Office of Statewide Health Planning and Development.

(i) "Consultation" means the rendering of an opinion, advice, or prescribing treatment by telephone and, when determined to be medically necessary jointly by the emergency and specialty physicians, includes review of the patient's medical record, examination, and treatment of the patient in person by a specialty physician who is qualified to give an opinion or render the necessary treatment in order to stabilize the patient.

SEC. 3. Section 1317.2 is added to the Health and Safety Code, to read:

1317.2. No person needing emergency services and care may be transferred from a hospital to another hospital for any nonmedical reason (such as the person's inability to pay for any emergency service or care) unless each of the following conditions are met:

(a) The person is examined and evaluated by a physician including, if necessary, consultation prior to transfer.

(b) The person has been provided with emergency services and care such that it can be determined, within reasonable medical probability, that the transfer or delay caused by the transfer will not create a medical hazard to the person.

(c) A physician at the transferring hospital has notified and has obtained the consent to the transfer by a physician at the receiving hospital and confirmation by the receiving hospital that the person meets the hospital's admissions criteria relating to appropriate bed, personnel, and equipment necessary to treat the person.

(d) The transferring hospital provides appropriate personnel and equipment which a reasonable and prudent physician in the same or similar locality exercising ordinary care would use to effect the transfer.

(e) All the person's pertinent medical records and copies of all the appropriate diagnostic test results which are reasonably available are transferred with the person.

(f) The records transferred with the person include a "Transfer Summary" signed by the transferring physician which contains relevant transfer information. The form of the "Transfer Summary" shall, at a minimum, contain the person's name, address, sex, race, age, insurance status, and medical condition; the name and address of the transferring doctor or emergency room personnel authorizing the transfer; the time and date the person was first presented at the transferring hospital; the name of the physician at the receiving hospital consenting to the transfer and the time and date of the consent; the time and date of the transfer; the reason for the transfer;

and the declaration of the transferring physician that the transferring physician is assured, within reasonable medical probability, that the transfer creates no medical hazard to the patient. Neither the transferring physician nor transferring hospital shall be required to duplicate, in the "Transfer Summary," information contained in medical records transferred with the person.

(g) The transfer conforms with regulations established by the state department. These regulations may prescribe minimum protocols for patient transfers.

(h) Nothing in this section shall apply to a transfer of a patient for medical reasons.

(i) Nothing in this section shall prohibit the transfer or discharge of a patient when the patient or the patient's representative requests a transfer or discharge and gives informed consent to the transfer or discharge against medical advice.

SEC. 4. Section 1317.2a is added to the Health and Safety Code, to read:

1317.2a. (a) A hospital which has a legal obligation, whether imposed by statute or by contract to the extent of that contractual obligation, to any third-party payer, including, but not limited to, a health maintenance organization, health care service plan, nonprofit hospital service plan, insurer, or preferred provider organization, a county, or an employer to provide care for a patient under the circumstances specified in Section 1317.2 shall receive that patient to the extent required by the applicable statute or by the terms of the contract, or, when the hospital is unable to accept a patient for whom it has a legal obligation to provide care whose transfer will not create a medical hazard as specified in Section 1317.2, it shall make appropriate arrangements for the patient's care.

(b) A county hospital shall accept a patient whose transfer will not create a medical hazard as specified in subdivision (b) of Section 1317.2 and who is determined by the county to be eligible to receive health care services required under Part 5 (commencing with Section 17000) of Division 9 of the Welfare and Institutions Code, unless the hospital does not have appropriate bed capacity, medical personnel, or equipment required to provide care to the patient in accordance with accepted medical practice. When a county hospital is unable for any of these reasons to accept a patient whose transfer will not create a medical hazard as specified in subdivision (b) of Section 1317.2, it shall make appropriate arrangements for the patient's care. The obligation to make appropriate arrangements does not mandate a level of service or payment, does not modify the county's obligations under Part 5 (commencing with Section 17000) of Division 9 of the Welfare and Institutions Code, and does not create a cause of action or limit a county's flexibility to manage county health systems within available resources, but this flexibility shall not diminish a county's responsibilities under Part 5 (commencing with Section 17000) of Division 9 of the Welfare and

Institutions Code or the requirements contained in Chapter 2.5 (commencing with Section 1440).

(c) When a patient is transferred pursuant to subdivision (a), the receiving hospital shall provide personnel and equipment reasonably required in the exercise of good medical practice for the care of the transferred patient.

(d) Any third-party payer, including, but not limited to, a health maintenance organization, health care service plan, nonprofit hospital service plan, insurer, preferred provider organization, or employer which has a statutory or contractual obligation to provide or indemnify emergency medical services on behalf of a patient shall be liable, to the extent of the contractual obligation, for the reasonable charges of the transferring hospital and the treating physicians for the emergency services provided pursuant to this article, except that the patient shall be responsible for any deductible or copayment obligation. Notwithstanding this section, the liability of a third-party payer which has contracted with health care providers for the provision of these emergency services shall be set by the terms of that contract. Notwithstanding this section, the liability of a third-party payer that is licensed by the Insurance Commissioner or the Commissioner of Corporations and has a contractual obligation to provide or indemnify emergency medical services shall be determined in accordance with the terms of that contract and shall remain under the sole jurisdiction of that licensing agency.

(e) A hospital which has a legal obligation to provide care for a patient as specified by subdivision (a) of Section 1317.2a, to the extent of its legal obligation, imposed by statute or by contract to the extent of that contractual obligation and which does not accept transfer of, or make other appropriate arrangements for, medically stable patients in violation of this article or regulations adopted pursuant thereto shall be liable for the reasonable charges of the transferring hospital and treating physician for providing services and care which should have been provided by the receiving hospital.

(f) Subdivisions (d) and (e) do not apply to county obligations under Section 17000 of the Welfare and Institutions Code.

(g) Nothing in this section shall be interpreted to require a hospital to make arrangements for the care of a patient for whom the hospital does not have a legal obligation to provide care.

SEC. 5. Section 1317.3 is added to the Health and Safety Code, to read:

1317.3. (a) As a condition of licensure, each hospital shall adopt, in consultation with the medical staff, policies and transfer protocols consistent with this article and regulations adopted hereunder.

(b) As a condition of licensure, each hospital shall adopt a policy prohibiting discrimination in the provision of emergency services and care based on race, ethnicity, religion, national origin, citizenship, age, sex, preexisting medical condition, physical or mental handicap, insurance status, economic status, or ability to pay

for medical services, except to the extent that a circumstance such as age, sex, preexisting medical condition, or physical or mental handicap is medically significant to the provision of appropriate medical care to that individual.

(c) As a condition of licensure, each hospital shall require that, as a condition of staff privileges, physicians who serve on an "oncall" basis to the hospital's emergency room cannot refuse to respond to a call on the basis of the patient's race, ethnicity, religion, national origin, citizenship, age, sex, preexisting medical condition, physical or mental handicap, insurance status, economic status, or ability to pay for medical services, except to the extent that a circumstance such as age, sex, preexisting medical condition, or physical or mental handicap is medically significant to the provision of appropriate medical care to that individual. If a contract between a physician and hospital for the provision of emergency room coverage presently prevents the hospital from imposing those conditions, the conditions shall be included in the contract as soon as is legally permissible. Nothing in this section shall be construed as requiring that any physician serve on an "oncall" basis.

(d) As a condition of licensure, all hospitals will inform all persons presented to an emergency room or their representatives if any are present and the person is unable to understand verbal or written communication, both orally and in writing, of the reasons for the transfer or refusal to provide emergency services and care and of the person's right to emergency services and care prior to transfer or discharge without regard to ability to pay. Nothing in this subdivision requires notification of the reasons for the transfer in advance of the transfer where a person is unaccompanied and the hospital has made a reasonable effort to locate a representative, and because of the person's physical or mental condition, notification is not possible. All hospitals shall prominently post a sign in their emergency rooms informing the public of their rights. Both the posted sign and written communication concerning the transfer or refusal to provide emergency services and care shall give the address of the state department as the government agency to contact in the event the person wishes to complain about the hospital's conduct.

(e) If a hospital does not timely adopt the policies and protocols required in this article, the hospital, in addition to denial or revocation of any of its licenses, shall be subject to a fine not to exceed one thousand dollars ($1,000) each day after expiration of 60 days' written notice from the state department that the hospital's policies or protocols required by this article are inadequate unless the delay is excused by the state department upon a showing of good and sufficient cause by the hospital. The notice shall include a detailed statement of the state department's reasons for its determination and suggested changes to the hospital's protocols which would be acceptable to the state department.

(f) Each hospital's policies and protocols required in or under this article shall be submitted for approval to the state department within

90 days of the state department's adoption of regulations under this article.

SEC. 6. Section 1317.4 is added to the Health and Safety Code, to read:

1317.4. (a) All hospitals shall maintain records of each transfer made or received, including the "Memorandum of Transfer" described in subdivision (g) of Section 1317.2, for a period of three years.

(b) All hospitals making or receiving transfers shall file with the state department annual reports on forms prescribed by the state department which shall describe the aggregate number of transfers made and received according to the person's insurance status and reasons for transfers.

(c) The receiving hospital, and all physicians, other licensed emergency room health personnel at the receiving hospital, and certified prehospital emergency personnel who know of apparent violations of this article or the regulations adopted hereunder shall, and the corresponding personnel at the transferring hospital and the transferring hospital may, report the apparent violations to the state department on a form prescribed by the state department within one week following its occurrence. The state department shall promptly send a copy of the form to the hospital administrator and appropriate medical staff committee of the transferring hospital and the local emergency medical services agency unless the state department concludes that the complaint does not allege facts requiring further investigation, or is otherwise unmeritorious, or the state department concludes, based upon the circumstance of the case, that its investigation of the allegations would be impeded by disclosure of the form. When two or more persons required to report jointly have knowledge of an apparent violation, a single report may be made by a member of the team selected by mutual agreement in accordance with hospital protocols. Any individual, required to report by this section, who disagrees with the proposed joint report has a right and duty to separately report. A failure to report shall not subject the individual or institution to the penalties set forth in Section 1317.6.

(d) No hospital, government agency, or person shall retaliate against, penalize, institute a civil action against, or recover monetary relief from, or otherwise cause any injury to a physician or other personnel for reporting in good faith an apparent violation of this article or the regulations adopted hereunder to the state department, hospital, medical staff, or any other interested party or government agency.

(e) No hospital, government agency, or person shall retaliate against, penalize, institute a civil action against, or recover monetary relief from, or otherwise cause any injury to a physician who refused to transfer a patient when the physician determines, within reasonable medical probability, that the transfer, or delay caused by the transfer, will create a medical hazard to the person.

(f) Any person who violates subdivision (d) or (e) is subject to a civil money penalty of no more than ten thousand dollars ($10,000). The remedy specified in this section shall be in addition to any other remedy provided by law.

(g) The state department shall on an annual basis publish and provide to the Legislature a statistical summary by county on the extent of economic transfers of emergency patients, the frequency of medically hazardous transfers, the insurance status of the patient populations being transferred and all violations finally determined by the state department describing the nature of the violations, hospitals involved, and the action taken by the state department in response. These summaries shall not reveal the identity of individual persons transferred.

(h) Proceedings by the state department to impose a fine under Section 1317.3 or 1317.6, and proceedings by the board to impose a fine under Section 1317.6, shall be conducted as follows:

(1) If a hospital desires to contest a proposed fine, the hospital shall, within 15 business days after service of the notice of proposed fine, notify the director in writing of its intention to contest the proposed fine. If requested by the hospital, the director or the director's designee, shall hold, within 30 business days, an informal conference, at the conclusion of which he or she may affirm, modify, or dismiss the proposed fine. If the director or the director's designee affirms, modifies, or dismisses the proposed fine, he or she shall state with particularity in writing his or her reasons for that action, and shall immediately transmit a copy thereof to the hospital. If the hospital desires to contest a determination, the hospital shall inform the director in writing within 15 business days after it receives the decision by the director or director's designee. The hospital shall not be required to request an informal conference to contest a proposed fine as provided in this section. If the hospital fails to notify the director in writing that it intends to protest the proposed fine within the times specified in this subdivision, the proposed fine shall be deemed a final order of the state department and shall not be subject to further administrative review.

(2) If a hospital notifies the director that it intends to contest a proposed fine, the director shall immediately notify the Attorney General. Upon notification, the Attorney General shall promptly take all appropriate action to enforce the proposed fine in a court of competent jurisdiction for the county in which the hospital is located.

(3) If a judicial proceeding is prosecuted under the provisions of this section, the state department shall have the burden of establishing by a preponderance of the evidence that the alleged facts supporting the proposed fine occurred, that the alleged facts constituted a violation for which a fine may be assessed under Section 1317.3, 1317.4, or 1317.6, and that the proposed fine is appropriate. The state department shall also have the burden of establishing by a preponderance of the evidence that on appeal the assessment of the proposed fine would be upheld. If a hospital timely notifies the

state department of its decision to contest a proposed fine, the fine shall not be due and payable unless and until the judicial proceeding is terminated in favor of the state department.

(4) Actions brought under the provisions of this section shall be set for trial at the earliest possible date and shall take precedence on the court calendar over all other cases except matters to which equal or superior precedence is specifically granted by law. Times for responsive pleading and for hearing the proceeding shall be set by the judge of the court with the object of securing a decision as to subject matters at the earliest possible time.

(5) If the proposed fine is dismissed or reduced, the state department shall take action immediately to ensure that the public records reflect in a prominent manner that the proposed fine was dismissed or reduced.

(6) In lieu of a judicial proceeding, the state department and the hospital may jointly elect to submit the matter to binding arbitration. The parties shall agree upon an arbitrator designated from the American Arbitration Association in accordance with the association's established rules and procedures. The arbitration hearing shall be set within 45 days of the parties' joint election, but in no event less than 28 days from the date of selection of an arbitrator. The arbitrator hearing may be continued up to 15 days if necessary at the arbitrator's discretion. The decision of the arbitrator shall be based upon substantive law and shall be binding on all parties, subject to judicial review. This review shall be limited to whether there was substantial evidence to support the decision of the arbitrator.

(7) Proceedings by the board to impose a fine under Section 1317.6, shall be conducted in accordance with the provisions of Chapter 5 (commencing with Section 11500) of Part 2 of Division 3 of Title 2 of the Government Code.

SEC. 7. Section 1317.5 is added to the Health and Safety Code, to read:

1317.5. (a) All alleged violations of this article and the regulations adopted hereunder shall be investigated by the state department. The state department, with the agreement of the local EMS agency, may refer violations of this article to the local EMS agency for investigation. The investigation shall be conducted pursuant to procedures established by the state department and shall be completed no later than 60 days after the report of apparent violation is received by the state department.

(b) At the conclusion of its investigation, the state department or the local EMS agency shall refer any alleged violation by a physician to a board of medical quality assurance unless it is determined that the complaint is without a reasonable basis.

SEC. 8. Section 1317.6 is added to the Health and Safety Code, to read:

1317.6. (a) Hospitals found by the state department to have committed, or to be responsible for, a violation of the provisions of

this article or the regulations adopted hereunder may each be fined by the state department in an amount not to exceed twenty-five thousand dollars ($25,000) for each hospital violation. However, with respect to licensed physicians, the board shall have sole authority to impose a fine. Fines imposed under this section shall not be cumulative.

(1) In determining the amount of the fine for a hospital violation, the state department shall take into account all of the following:

(A) Whether the violation was knowing or unintentional.

(B) Whether the violation resulted, or was reasonably likely to result, in a medical hazard to the patient.

(C) The frequency or gravity of the violation.

(D) Other civil fines which have been imposed as a result of the violation under Section 1867 of the federal Social Security Act.

It is the intent of the Legislature that the state department has primary responsibility for regulating the conduct of hospital emergency rooms and that fines imposed under this section should not be duplicated by additional fines imposed by the federal government as a result of the conduct which constituted a violation of this section. To effectuate the Legislature's intent, the Governor shall inform the Secretary of the federal Department of Health and Human Services of the enactment of this section and request the federal department to credit any penalty assessed under this section against any subsequent civil monetary penalty assessed pursuant to Section 1867 of the federal Social Security Act for the same violation.

(2) Physicians found by the board to have committed, or to be responsible for, a violation of this article or the regulations adopted pursuant thereto are subject to any and all penalties which the board may lawfully impose and may be fined by the board in an amount not to exceed five thousand dollars ($5,000) for each violation. The board may impose fines when it finds any of the following:

(A) The violation was knowing or willful.

(B) The violation was reasonably likely to result in a medical hazard.

(C) There are repeated violations.

The board shall take into account all of these factors when determining the amount of the fine. Fines imposed under this paragraph shall not duplicate federal fines, and the board shall credit any federal fine against fines imposed under this paragraph.

(3) There shall be a cumulative maximum limit of thirty thousand dollars ($30,000) in fines assessed against either physicians or hospitals under this article and under Section 1867 of the federal Social Security Act for the same circumstances. To effectuate this cumulative maximum limit, the state department shall do both of the following:

(A) As to state fines assessed prior to the final conclusion, including judicial review, if available, of an action against a hospital by the federal Department of Health and Human Services under Section 1867 of the federal Social Security Act, (for the same

circumstances finally deemed to have been a violation of this article or the regulations adopted hereunder, because of the state department action authorized by this article), remit and return to the hospital within 30 days after conclusion of the federal action, that portion of the state fine necessary to assure that the cumulative maximum limit is not exceeded.

(B) Immediately credit against state fines assessed after the final conclusion, including judicial review, if available, of an action against a hospital by the federal Department of Health and Human Services under Section 1867 of the federal Social Security Act, which results in a fine against a hospital (for the same circumstances finally deemed to have been a violation of this article or the regulations adopted hereunder, because of the state department action authorized by this article), the amount of the federal fine necessary to assure the cumulative maximum limit is not exceeded.

(b) Any hospital found by the state department pursuant to procedures established by the state department to have committed a violation of this article or the regulations adopted hereunder may have its emergency medical service permit revoked or suspended by the state department.

(c) Any administrative or medical personnel who knowingly and intentionally violates any provision of this article, may be charged by the local district attorney with a misdemeanor.

(d) The penalties listed in subdivisions (a), (b), and (c), shall only be applied for violations of Section 1317, 1317.1, or 1317.2.

(e) Notification of each violation found by the state department of the provisions of this article or the regulations adopted hereunder shall be sent by the state department to the Joint Commission for the Accreditation of Hospitals, and state and local emergency medical services agencies.

(f) Any person who suffers personal harm and any medical facility which suffers a financial loss as a result of a violation of this article or the regulations adopted hereunder may recover, in a civil action against the transferring hospital or responsible administrative or medical personnel, damages, reasonable attorneys' fees, and other appropriate relief. Transferring hospitals from which inappropriate transfers of persons are made in violation of this article and the regulations adopted hereunder shall be liable for the normal charges of the receiving hospital for providing the emergency services and care which should have been provided before transfer. Any person potentially harmed by a violation of this article or the regulations adopted hereunder, or the local district attorney or the Attorney General, may bring a civil action against the responsible hospital or administrative or medical personnel, to enjoin the violation, and if the injunction issues, a court shall award reasonable attorney's fees. The provisions of this subdivision are in addition to other civil remedies and do not limit the availability of the other remedies.

(g) Neither the health facility, its employees, nor any physician, dentist, or podiatrist shall be liable in any action arising out of a

refusal to render emergency services or care if the refusal is based on the determination, exercising reasonable care, that the person is not suffering from an emergency medical condition, or that the health facility does not have the appropriate facilities or qualified personnel available to render those services.

SEC. 9. Section 1317.7 is added to the Health and Safety Code, to read:

1317.7. This article shall not preempt any governmental agencies, acting within their authority, from regulating emergency care or patient transfers, including the imposition of more specific duties consistent with the requirements of this article and its implementing regulations. Any inconsistent requirements imposed by the Medi-Cal program shall preempt the provisions of this article with respect to Medi-Cal beneficiaries. To the extent hospitals and physicians enter into contractual relationships with governmental agencies which impose more stringent transfer requirements, those contractual agreements shall control.

SEC. 10. Section 1317.8 is added to the Health and Safety Code, to read:

1317.8. If any provision of this article is declared unlawful or unconstitutional in any judicial action, the remaining provisions of this chapter shall remain in effect.

SEC. 11. Section 1317.9 is added to the Health and Safety Code, to read:

1317.9. The state department shall adopt on an emergency basis regulations to implement the provisions of this article by July 1, 1989.

SEC. 12. Section 1317.9a is added to the Health and Safety Code, to read:

1317.9a. This article shall not be construed as repealing Section 2400 of the Business and Professions Code. Nothing in Sections 1317 to 1317.9a, inclusive, and Section 1798.170 shall prevent a physician from exercising his or her professional judgment in conflict with any state or local regulation promulgated under these sections, so long as the judgment conforms with Sections 1317, 1317.1, and 1317.2, except for subdivision (g) of Section 1317.2, and acting in compliance with the state or local regulations would be contrary to the best interests of the patient.

SEC. 13. Section 1798 of the Health and Safety Code is amended to read:

1798. (a) The medical direction and management of an emergency medical services system shall be under the medical control of the medical director of the local EMS agency. This medical control shall be maintained in the following manner:

(1) Prospectively by written medical policies and procedures to provide standards for patient care.

(2) Immediately by direct voice communication between a certified EMT-P or EMT-II and a base hospital emergency physician or an authorized registered nurse and, in the event of temporary unavailability of voice communications, by utilization by an EMT-P

or EMT-II of authorized, written orders and policies established pursuant to Section 1798.4.

(3) Retrospectively by means of medical audit of field care and continuing education.

(b) Medical control shall be within an EMS system which complies with the minimum standards adopted by the authority, and which is established and implemented by the local EMS agency.

(c) In the event a medical director of a base station questions the medical effect of a policy of a local EMS agency, the medical director of the base station shall submit a written statement to the medical director of the local EMS agency requesting a review by a panel of medical directors of other base stations. Upon receipt of the request, the medical director of a local EMS agency shall promptly convene a panel of medical directors of base stations to evaluate the written statement. The panel shall be composed of all the medical directors of the base stations in the region, except that the local EMS medical director may limit the panel to five members.

This subdivision shall be operative only until the authority adopts more comprehensive regulations that supersede this subdivision.

SEC. 14. Section 1798.170 of the Health and Safety Code is amended to read:

1798.170. A local EMS agency may develop triage and transfer protocols to facilitate prompt delivery of patients to appropriate designated facilities within and without its area of jurisdiction. Considerations in designating a facility shall include, but shall not be limited to, the following:

(a) A general acute care hospital's consistent ability to provide oncall physicians and services for all emergency patients regardless of ability to pay.

(b) The sufficiency of hospital procedures to ensure that all patients who come to the emergency department are examined and evaluated to determine whether or not an emergency condition exists.

(c) The hospital's compliance with local EMS protocols, guidelines, and transfer agreement requirements.

SEC. 15. Section 1798.172 of the Health and Safety Code is amended to read:

1798.172. (a) The local EMS agency shall establish guidelines and standards for completion and operation of formal transfer agreements between hospitals with varying levels of care in the area of jurisdiction of the local EMS agency, consistent with Sections 1317 to 1317.9a, inclusive, and Section 1798. Each local EMS agency shall solicit and consider public comment in drafting guidelines and standards. These guidelines shall include provision for suggested written agreements for the type of patient, necessary initial care treatments, requirements of interhospital care, and associated logistics for transfer, evaluation, and monitoring of the patient.

(b) Notwithstanding the provisions of subdivision (a), and in addition to the provisions of Section 1317, a general acute care

hospital licensed under Chapter 2 (commencing with Section 1250) of Division 2 shall not transfer a person for nonmedical reasons to another health facility unless that other facility receiving the person agrees in advance of the transfer to accept the transfer.

SEC. 16. Section 1798.205 is added to the Health and Safety Code, to read:

1798.205. Any alleged violations of local EMS agency transfer protocols, guidelines, or agreements shall be evaluated by the local EMS agency. If the local EMS agency has concluded that a violation has occurred, it shall take whatever corrective action it deems appropriate within its jurisdiction, including referrals to the district attorney under Sections 1798.206 and 1798.208, and shall notify the State Department of Health Services that a violation of Sections 1317 to 1317.9a, inclusive, has occurred.

SEC. 17. Section 1798.206 of the Health and Safety Code is amended to read:

1798.206. Any person who violates this part, the rules and regulations adopted pursuant thereto, or county ordinances adopted pursuant to this part governing patient transfers, is guilty of a misdemeanor. The Attorney General or the district attorney may prosecute any of these misdemeanors which falls within his or her jurisdiction.

SEC. 18. Section 1798.208 of the Health and Safety Code is amended to read:

1798.208. Whenever any person who has engaged, or is about to engage, in any act or practice which constitutes, or will constitute, a violation of this part, the rules and regulations promulgated pursuant thereto, or local EMS agency protocols, guidelines, or transfer agreements mandated by the state, the superior court in and for the county wherein the acts or practices take place or are about to take place may issue an injunction or other appropriate order restraining that conduct on application of the authority, the Attorney General, or the district attorney of the county. The proceedings under this section shall be governed by Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that no undertaking shall be required.

SEC. 19. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

Moreover, no reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for other costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law for those other costs.

CHAPTER 1226

The people of the State of California do enact as follows:

SECTION 1. Section 1418.7 is added to the Health and Safety Code, to read:

(c) The policies and procedures developed by the facilities pursuant to this section shall be in accordance with Section 1289.4, as added by Assembly Bill 2047 of the 1987–88 Regular Session of the Legislature, if that bill is enacted and becomes effective.

(d) If a facility has shown clear and convincing evidence of its efforts to comply with the requirements of this section, no citation shall be issued as a result of the occasional occurrence of theft and loss in a facility.

CHAPTER 1227

An act to add Sections 14154.2 and 14154.3 to the Welfare and Institutions Code, relating to Medi-Cal, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 14154.2 is added to the Welfare and Institutions Code, to read:

14154.2. (a) The Legislature finds that ambiguities have arisen regarding payment provisions relating to certain costs incurred in processing Medi-Cal eligibility applications for various fiscal years, and believes the ambiguities should be alleviated by means of legislation clarifying the Legislature's intent regarding such provisions.

(b) The Legislature recognizes that federal financial participation in the costs of administering the Medi-Cal program is an important element in funding such costs, and desires that federal financial participation be pursued and obtained whenever possible. With respect to Medi-Cal administration costs, for eligibility determinations, it is not and has not been the Legislature's intent to preclude federal financial participation which would otherwise be available from the Health Care Financing Administration.

SEC. 2. Section 14154.3 is added to the Welfare and Institutions Code, to read:

14154.3. (a) No provision of any Budget Act or other statute shall be interpreted or applied to limit the amount of federal financial participation, otherwise available under federal law, which may be reimbursable to any counties in support of Medi-Cal administration costs for eligibility determinations. No provision of any Budget Act or other statute shall be interpreted or applied to restrict the amount of federal financial participation for Medi-Cal administration costs, for eligibility determinations, otherwise available under federal law, which may be claimed by the department, and, upon receipt from the federal government, transferred by the department to any county.

(b) The Budget Acts referred to in subdivison (a) include, but are not limited to:

(1) Chapter 510 of the Statutes of 1980, including Item 288 thereof.

(2) Chapter 99 of the Statutes of 1981, including Items 426-101-001 and 426-101-890 thereof.

(3) Chapter 326 of the Statutes of 1982, including Items 4260-101-001 and 4260-101-890 thereof.

(4) Chapter 324 of the Statutes of 1983, including Items 4260-101-001 and 4260-101-890 thereof.

(5) Chapter 258 of the Statutes of 1984, including Items 4260-101-001 and 4260-101-890 thereof.

(6) Chapter 111 of the Statutes of 1985, including Items 4260-101-001 and 4260-101-890 thereof.

(7) Chapter 186 of the Statutes of 1986, including Items 4260-101-001 and 4260-101-890 thereof.

Provisions of the Budget Acts listed in paragraphs (1) to (7), inclusive, shall not be interpreted or applied as a prohibition regarding the amount of costs counties may incur for Medi-Cal eligibility administration activities. The provisions of those Budget Acts shall be interpreted and applied as a means of limiting the allocation of state general funds to be paid in support of Medi-Cal eligibility determination activities.

(c) To the extent necessary to effectuate the intent of subdivision (a) and (b), the following Budget Act provisions shall be inoperative:

(1) Provision 17.5 of Item 4260-101-890 of Chapter 99 of the Statutes of 1981.

(2) The incorporation by reference of Provision 16 of Item 4260-101-001 of Chapter 326 of the Statutes of 1982 into Provision 1 of Item 4260-101-890 of that chapter.

(3) The incorporation by reference of Provision 15 of Item 4260-101-001 of Chapter 324 of the Statutes of 1983 into Provision 1 of Item 4260-101-890 of that chapter.

(d) No provision of Section 14154 or 14154.1 shall be interpreted or applied to restrict the amount of federal financial participation, not deferred or disallowed by federal law or regulation which may be reimbursable to any county for Medi-Cal administration costs for eligibility determinations. The County Administrative Cost Control Plan established pursuant to Section 14154 shall not be interpreted or applied as a prohibition regarding the amount of costs counties may incur for Medi-Cal county administration costs. Such plan shall be interpreted and applied only as a means of limiting the allocation of state general funds to be paid in support of such costs.

(e) Should federal financial participation be deferred or disallowed regarding funds transferred by the department to a county for costs incurred for Medi-Cal eligibility determinations, and such federal financial participation was matched by county expenditures, the county which received such federal funds shall repay the funds in question at such time as the federal deferral or disallowance has been issued. If such a federal deferral or disallowance is noticed or issued prior to the transfer of such funds from the department to a county, the department shall not be responsible for transferring the federal funds to the county until the deferral or disallowance issue regarding these funds has been resolved.

(f) The department shall timely appeal from such federal deferrals or disallowances and the affected county may assist the department in preparing and presenting any pending appeal regarding a federal deferral or disallowance.

(g) Medi-Cal eligibility determination activities are undertaken by counties on behalf of the department. Reasonable and necessary costs incurred by counties relating to such eligibility determination activities shall be recognized as costs incurred by the state for purposes of inclusion in the nonfederal share of Medi-Cal eligibility determination expenditures for claiming federal financial participation.

(h) Subdivision (e) shall not apply to agreements between the department and a county executed prior to the effective date of this section.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

To clarify the ambiguities relating to certain county costs incurred in processing Medi-Cal applications for various fiscal years, and to ensure that federal financial participation be pursued and obtained whenever possible, it is necessary that this act take effect immediately.

CHAPTER 1228

An act to amend Sections 214 and 214.9 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 214 of the Revenue and Taxation Code is amended to read:

214. (a) Property used exclusively for religious, hospital, scientific, or charitable purposes owned and operated by community chests, funds, foundations or corporations organized and operated for religious, hospital, scientific, or charitable purposes is exempt from taxation if:

(1) The owner is not organized or operated for profit. However, in the case of hospitals, the organization shall not be deemed to be organized or operated for profit, if during the immediate preceding fiscal year the excess of operating revenues, exclusive of gifts, endowments and grants-in-aid, over operating expenses has not exceeded a sum equivalent to 10 percent of those operating expenses. As used herein, operating expenses shall include depreciation based on cost of replacement and amortization of, and interest on, indebtedness.

(2) No part of the net earnings of the owner inures to the benefit of any private shareholder or individual.

(3) The property is used for the actual operation of the exempt activity, and does not exceed an amount of property reasonably necessary to the accomplishment of the exempt purpose.

(4) The property is not used or operated by the owner or by any other person so as to benefit any officer, trustee, director, shareholder, member, employee, contributor, or bondholder of the owner or operator, or any other person, through the distribution of profits, payment of excessive charges or compensations or the more advantageous pursuit of their business or profession.

(5) The property is not used by the owner or members thereof for fraternal or lodge purposes, or for social club purposes except where such use is clearly incidental to a primary religious, hospital, scientific, or charitable purpose.

(6) The property is irrevocably dedicated to religious, charitable, scientific, or hospital purposes and upon the liquidation, dissolution or abandonment of the owner will not inure to the benefit of any private person except a fund, foundation or corporation organized and operated for religious, hospital, scientific, or charitable purposes.

(7) The property, if used exclusively for scientific purposes, is used by a foundation or institution which, in addition to complying with the foregoing requirements for the exemption of charitable organization in general, has been chartered by the Congress of the United States (except that this requirement shall not apply when the scientific purposes are medical research), and whose objects are the encouragement or conduct of scientific investigation, research and discovery for the benefit of the community at large.

The exemption provided for herein shall be known as the "welfare exemption." This exemption shall be in addition to any other exemption now provided by law and the existence of the exemption provision in paragraph (2) of subdivision (a) of Section 202 shall not preclude the exemption under this section for museum or library property. Except as provided in subdivision (e), this section shall not be construed to enlarge the college exemption.

(b) Property used exclusively for school purposes of less than collegiate grade and owned and operated by religious, hospital, or charitable funds, foundations, or corporations, which property and funds, foundations, or corporations meet all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section.

(c) Property used exclusively for nursery school purposes and owned and operated by religious, hospital, or charitable funds, foundations, or corporations, which property and funds, foundations, or corporations meet all the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section.

(d) Property used exclusively for a noncommercial educational FM broadcast station or an educational television station and owned

and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations meeting all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section.

(e) Property used exclusively for religious, charitable, scientific, or hospital purposes and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations or educational institutions of collegiate grade, as defined in Section 203, which property and funds, foundations, corporations, or educational institutions meet all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section. As to educational institutions of collegiate grade, as defined in Section 203, the requirements of paragraph (6) of subdivision (a) shall be deemed to be met if both of the following are met:

(1) The property of the educational institution is irrevocably dedicated in its articles of incorporation to charitable and educational purposes, to religious and educational purposes, or to educational purposes.

(2) The articles of incorporation of the educational institution provide for distribution of its property upon its liquidation, dissolution, or abandonment to a fund, foundation, or corporation organized and operated for religious, hospital, scientific, charitable, or educational purposes meeting the requirements for exemption provided by Section 203 or this section.

(f) Property used exclusively for housing and related facilities for elderly or handicapped families and financed by, including, but not limited to, the federal government pursuant to Section 202 of Public Law 86-372 (12 U.S.C. Sec. 1701q), as amended, Section 231 of Public Law 73-479 (12 U.S.C. Sec. 1715v), or Section 236 of Public Law 90-448 (12 U.S.C. Sec. 1715z), and owned and operated by religious, hospital, scientific or charitable funds, foundations or corporations meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section. The amendment of this paragraph made at the 1983–84 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the existing law. However, no refund of property taxes shall be required as a result of this amendment for any fiscal year prior to the fiscal year in which the amendment takes effect.

Property used exclusively for housing and related facilities for elderly or handicapped families at which supplemental care or services designed to meet the special needs of elderly or handicapped residents are not provided, or which is not financed by the federal government pursuant to Section 202 of Public Law 86-372 (12 U.S.C. Sec. 1701q), as amended, Section 231 of Public Law 73-479

(12 U.S.C. Sec. 1715v), or Section 236 of Public Law 90-448 (12 U.S.C. Sec. 1715), shall not be entitled to exemption pursuant to this subdivision unless the property is used for housing and related facilities for low- and moderate-income elderly or handicapped families. Property which would otherwise be exempt pursuant to this subdivision, except that it includes some housing and related facilities for other than low- or moderate-income elderly or handicapped families, shall be entitled to a partial exemption. The partial exemption shall be equal to that percentage of the value of the property which is equal to the percentage which the number of low- and moderate-income elderly and handicapped families occupying the property is of the total number of families occupying the property.

As used in this subdivision, "low and moderate income" has the same meaning as the term "persons and families of low or moderate income" as defined by Section 50093 of the Health and Safety Code.

(g) Property used exclusively for an emergency or temporary shelter and related facilities for homeless persons and families and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section. Property which would otherwise be exempt pursuant to this subdivision, except that it includes housing and related facilities for other than an emergency or temporary shelter, shall be entitled to a partial exemption.

As used in this subdivision, "emergency or temporary shelter" means a facility which would be eligible for funding pursuant to Chapter 11 (commencing with Section 50800) of Part 2 of Division 31 of the Health and Safety Code.

SEC. 2. Section 214.9 of the Revenue and Taxation Code is amended to read:

214.9. For the purposes of Section 214, a "hospital" includes an outpatient clinic, whether or not patients are admitted for overnight stay or longer, where the clinic furnishes or provides psychiatric services for emotionally disturbed children, or where the clinic is a nonprofit multispecialty clinic of the type described in subdivision (*l*) of Section 1206 of the Health and Safety Code, so long as the multispecialty clinic does not reduce the level of charitable or subsidized activities it provides as a proportion of its total activities.

For purposes of this section, a "hospital" does not include those portions of an outpatient clinic which may be leased or rented to a physician for an office for the general practice of medicine.

SEC. 3. This act makes a classification or exemption of property for purposes of ad valorem taxation within the meaning of Section 2229 of the Revenue and Taxation Code.

SEC. 4. The amendments to Sections 214 and 214.9 of the Revenue and Taxation Code made by this act shall be operative for the 1988–89 fiscal year and fiscal years thereafter.

CHAPTER 1229

An act to amend Sections 332 and 3951 of the Fish and Game Code, relating to elk, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 332 of the Fish and Game Code is amended to read:

332. (a) The commission may determine and fix the area or areas, the seasons and hours, the bag and possession limit, and the number of elk that may be taken under rules and regulations which the commission may prescribe from time to time. The commission may authorize the taking of tule elk if the average of the department's statewide tule elk population estimates exceeds 2,000 animals, or the Legislature determines, pursuant to the reports required by Section 3951, that suitable areas cannot be found in California to accommodate that population in a healthy condition.

(b) Only a resident of the State of California over the age of 16 years and possessing a valid hunting license may obtain a license for the taking of elk.

(c) The department may issue an elk license upon payment of a fee of one hundred sixty-five dollars ($165), as adjusted under Section 713. The fee may include a nonrefundable application fee in an amount determined to be sufficient to pay the costs of administering the management of tule elk under Section 3951. The fees shall be deposited in the Fish and Game Preservation Fund and shall be expended, in addition to money budgeted for salaries of the department, for the expense of enforcing this section and the processing of the applications.

SEC. 2. Section 3951 of the Fish and Game Code is amended to read:

3951. The commission may authorize the taking of tule elk pursuant to Section 332. The department shall relocate tule elk in areas suitable to them in the State of California and shall cooperate to the maximum extent possible with federal and local agencies and private property owners in relocating tule elk in suitable areas under their jurisdiction or ownership. When economic or environmental damage occurs, emphasis shall be placed on managing each tule elk herd at a biologically sound level through the use of relocation, sporthunting, or other appropriate means as determined by the department after consulting with local landowners.

The number of tule elk in the Owens Valley shall not be permitted to increase beyond 490, or any greater number hereafter determined by the department to be the Owens Valley's holding capacity in

accordance with game management principles. Within 180 days of the enactment of the bill which amended this section at the 1987 portion of the 1987–88 Regular Session of the Legislature, the department shall complete management plans for high priority areas, including, but not limited to, Potter Valley and Mendocino County. The plans shall include, but not be limited to:

(1) Definition of the boundaries of the management area.

(2) Characteristics of the tule elk herds within the management area.

(3) The habitat conditions and trends within the management area.

(4) Major factors affecting the tule elk population within the management area, including, but not limited to, conflicts with other land uses.

(5) Management activities necessary to achieve the goals of the plan.

The Director of Fish and Game shall submit a report describing the status of tule elk, as herein set forth, to the commission and to the Governor for transmittal to the Legislature no later than the fifth legislative day of the 1974 Regular Session of the Legislature and every two years thereafter. The report shall also include, but not be limited to:

(1) The population status of tule elk in California.

(2) Age and sex information.

(3) Condition of their ranges.

(4) Other pertinent information.

SEC. 3. The sum of one hundred fifty thousand dollars ($150,000) is hereby appropriated from the Fish and Game Preservation Fund for the purpose of implementing this act for expenditure in the 1987–88 and 1988–89 fiscal years. Thereafter, appropriations shall be made through the Budget Act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide for the conservation and management of relocated tule elk at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 1230

An act to add Section 5551.1 to the Business and Professions Code, relating to architecture, and declaring the urgency thereof, to take effect immediately.

SECTION 1. Section 5551.1 is added to the Business and Professions Code, to read:

(2) For the purposes of this section, equivalency of an examination shall include a determination, by the licensing authority in the candidate's home jurisdiction and by the board, that the examination passed by the candidate and the California Architects Licensing Examination measure substantially the same skills and are therefore mutually appropriate for the purposes of satisfying the examination requirement for licensure in either jurisdiction.

(b) The principals of all parties to any business association legally formed in this state, and providing, or offering to provide, architectural services in this state, shall be licensed by the board.

(c) As used in this section, "principal" means any person who meets the following requirements:

(2) Is licensed as an architect in a political jurisdiction other than this state, or regularly practices as an architect outside of this state.

(d) Nothing in this section shall be construed to prohibit legal business associations between architects licensed pursuant to this chapter and others who do not meet the definition of "principal" above, provided no architectural services are intended, offered, or performed by any party to the association not licensed pursuant to this chapter.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 3. This act is an urgency statute necessary for the

immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to protect California architects' right to reciprocal licensure as soon as possible, it is necessary for this act to take effect immediately.

2202. The department may seek grants and accept donations from private and public organizations and agencies for the purposes of this article for deposit in the Animal Trust Fund.

2203. (a) The director, with the advice of the committee established pursuant to Section 2150.3, shall adopt regulations to establish and administer a grant program, including eligibility criteria, by which persons or governmental agencies who operate

SECTION 1. Section 13962 of the Government Code is amended to read:

13962. (a) The staff of the board shall appoint a clerk to review all applications for assistance in order to ensure that they are complete. If the application is not complete, it shall be returned to the victim with a brief statement of the additional information required. The victim, within 30 days of receipt thereof, may either supply the additional information or appeal the action to the board which shall review the application to determine whether or not it is complete.

(b) If the application is accepted in accordance with subdivision (a), the board shall process claims within an average of 90 days. The 90-day period shall operate from the date the claim is accepted by the board or local contract agencies, to the date of payment or denial of the claim. Any verification of the claim which is deemed necessary shall be performed during this 90-day period. The verification process shall include sending supplemental forms to all hospitals, physicians, law enforcement officials and other interested parties involved, verifying the treatment of the victim, circumstances of the crime, amounts paid or received by or for the victim and other pertinent information as may be deemed necessary by the board. Verification forms shall be provided by the board and shall be returned to the board within 10 business days. All information shall be provided at no cost to the applicant, the board, or local victim centers. The board shall include on the verification forms reference

to this section with respect to the prompt return of the verification forms. The board, thereupon, shall consider the application at a hearing at a time and place of its choosing. The board shall notify all interested persons not less than five days prior to the date of the hearing.

(c) The victim shall cooperate with the staff of the board or the local victim center in the verification of the information contained in the application. Failure to cooperate shall be reported to the board, which, in its discretion, may reject the application on this ground alone.

(d) Hearings shall be held in various locations with the frequency necessary to provide for the speedy adjudication of the applications. If the applicant's presence is required at the hearing, the board shall consider convenience to the applicant in scheduling the locations. If necessary, the board shall delegate the hearing of applications to hearing examiners.

(e) The board may contract with local victim centers to provide verification of claims processed by the centers pursuant to conditions stated in subdivision (b).

SEC. 2. Section 13965.1 is added to the Government Code, to read:

13965.1. Notwithstanding any conflicting provision of this chapter, the board may make additional payments for purposes described in paragraph (1) of subdivision (a) of Section 13965 to any victim who filed an application with the board on or after December 1, 1982, who was a victim of a crime involving sexual assault, and who is a minor at the time the additional payments pursuant to this section are made. The payments authorized by this section shall not in the aggregate of all payments made by the board to the victim of the crime exceed twenty-three thousand dollars ($23,000), unless federal funds are available, in which case the aggregate maximum award may be increased to forty-six thousand dollars ($46,000).

SEC. 3. Section 13969.2 is added to the Government Code, to read:

13969.2. If the board does not meet the 90-day standard prescribed in subdivision (b) of Section 13962, the board shall, thereafter, report to the Legislature, on a quarterly basis, its progress and its current average time of processing a claim.

SEC. 4. Section 1464 of the Penal Code is amended to read:

1464. (a) Subject to the provisions of Section 76000 of the Government Code, there shall be levied an assessment in an amount equal to seven dollars ($7) for every ten dollars ($10) or fraction thereof, upon every fine, penalty, or forfeiture imposed and collected by the courts for criminal offenses, including all offenses involving a violation of a section of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code, except offenses relating to parking or registration or offenses by pedestrians or bicyclists, or where an order is made to pay a sum to the general fund of the county pursuant to subparagraph (iii) of paragraph (3) of

subdivision (a) of Section 258 of the Welfare and Institutions Code. Any bail schedule adopted pursuant to Section 1269b may include the necessary amount to pay the assessments established by this section and Section 76000 of the Government Code for all matters where a personal appearance is not mandatory and the bail is posted primarily to guarantee payment of the fine.

(b) Where multiple offenses are involved, the assessment shall be based upon the total fine or bail for each case. When a fine is suspended, in whole or in part, the assessment shall be reduced in proportion to the suspension.

(c) When any deposited bail is made for an offense to which this section applies, and for which a court appearance is not mandatory, the person making the deposit shall also deposit a sufficient amount to include the assessment prescribed by this section for forfeited bail. If bail is returned, the assessment made thereon pursuant to this section shall also be returned.

(d) In any case where a person convicted of any offense, to which this section applies, is in prison until the fine is satisfied, the judge may waive all or any part of the assessment, the payment of which would work a hardship on the person convicted or his or her immediate family.

(e) After a determination by the court of the amount due, the clerk of the court shall collect the amount and transmit it to the county treasury. The portion thereof attributable to Section 76000 of the Government Code shall be deposited in the appropriate county fund and the balance shall then be transmitted to the State Treasury to be deposited in the Assessment Fund, which is hereby created. The transmission to the State Treasury shall be carried out in the same manner as fines collected for the state by a county.

(f) Of the moneys so deposited, two dollars ($2) of every seven dollars ($7) collected shall be transmitted to the State Treasury to be deposited directly into the Restitution Fund. The remainder shall be distributed as follows:

(1) Once a month there shall be transferred into the Fish and Game Preservation Fund an amount equal to 0.38 percent of the funds deposited in the Assessment Fund during the preceding month, but in no event shall the amount be less than the assessment levied on fines or forfeitures for violation of state laws relating to the protection or propagation of fish and game. These moneys are to be used for the education or training of department employees which fulfills a need consistent with the objectives of the Department of Fish and Game.

(2) Once a month there shall be transferred into the Restitution Fund an amount equal to 22.12 percent of the funds deposited in the Assessment Fund during the preceding month. Those funds shall be available in accordance with subdivision (b) of Section 13967 of the Government Code.

(3) Once a month there shall be transferred into the Peace Officers' Training Fund an amount equal to 27.75 percent of the

funds deposited in the Assessment Fund during the preceding month.

(4) Once a month there shall be transferred into the Driver Training Penalty Assessment Fund an amount equal to 29.73 percent of the funds deposited in the Assessment Fund during the preceding month.

(5) Once a month there shall be transferred into the Corrections Training Fund an amount equal to 9.12 percent of the funds deposited in the Assessment Fund during the preceding month. Money in the Corrections Training Fund is not continuously appropriated and shall be appropriated in the Budget Act.

(6) Once a month there shall be transferred into the Local Public Prosecutors and Public Defenders Training Fund established pursuant to Section 11503 an amount equal to 0.90 percent of the funds deposited in the Assessment Fund during the preceding month. The amount so transferred shall not exceed the sum of eight hundred fifty thousand dollars ($850,000) in any fiscal year. The remainder in excess of eight hundred fifty thousand dollars ($850,000) shall be transferred to the Restitution Fund.

(7) Once a month there shall be transferred into the Victim-Witness Assistance Fund an amount equal to 10.00 percent of the funds deposited in the Assessment Fund during the preceding month.

SEC. 5. Section 13835.7 of the Penal Code is amended to read:

13835.7. There is in the State Treasury the Victim-Witness Assistance Fund. Funds appropriated thereto shall be dispensed to the Office of Criminal Justice Planning exclusively for the purposes specified in this article and for the support of the centers specified in Section 13837.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide for the establishment of a procedure, where necessary, for the submission of reports to the Legislature regarding the timely processing and verification of applications for indemnification for the victims of crimes, and in order to provide additional assistance to witnesses and victims of crime at the earliest possible time, it is necessary for this act to take effect immediately.

CHAPTER 1233

An act to amend Section 60204 of, and to add Article 3 (commencing with Section 52740) to Chapter 11 of Part 28 of, the Education Code, relating to education, and making an appropriation therefor.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 60204 of the Education Code is amended to read:

60204. The commission shall:

(a) Recommend curriculum frameworks to the state board.

(b) Develop criteria for evaluating instructional materials submitted for adoption so that the materials adopted shall adequately cover the subjects in the indicated grade or grades and which comply with the provisions of Article 3 (commencing with Section 60040) of Chapter 1. The criteria shall be public information and shall be provided in written or printed form to any person requesting such information.

(c) Study and evaluate instructional materials submitted for adoption.

(d) Recommend to the state board instructional materials which it approves for adoption.

(e) Review and have the authority to adopt the educational films or video tapes produced in accordance with Article 3 (commencing with Section 52740) of Chapter 11 of Part 28.

SEC. 2. Article 3 (commencing with Section 52740) is added to Chapter 11 of Part 28 of the Education Code, to read:

Article 3. Educational Films or Video Tapes

52740. It is the intent of the Legislature to provide accurate instructional materials to schools on (a) the internment in the United States of persons of Japanese origin and its impact on Japanese-American citizens and (b) the Armenian genocide.

The Legislature finds and declares that there are few films or video tapes available on the subjects of the internment of persons of Japanese origin and the Armenian genocide for teachers to use when teaching pupils about these two devastating events. The shortage of available films or video tapes on these subjects is especially true for the Armenian genocide.

The Legislature hereby finds and declares that films or video tapes giving a historically accurate depiction of the internment in the United States of persons of Japanese origin during World War II and the Armenian genocide should be made in order that pupils will

recognize these events for the horror they represented. The Legislature hereby encourages teachers to use these films or video tapes as a resource in teaching pupils about these two important historical events that are commonly overlooked in today's school curriculum.

52742. The films or video tapes produced pursuant to this article shall be submitted to the Curriculum Development and Supplemental Materials Commission for its review, and may be made available to schools, as provided by this article, only upon adoption by the Curriculum Development and Supplemental Materials Commission.

52743. The State Department of Education shall make available the films or video tapes produced pursuant to this article to schools.

SEC. 2. From the unallocated portion of the discretionary funds apportioned to the State Department of Education under Chapter II of the federal Education Consolidation and Improvement Act of 1981, the department shall allocate, to the Superintendent of Public Instruction, the sum of one hundred thousand dollars ($100,000) which the superintendent shall utilize to enter into one or more contracts for the production of the two films or video tapes provided for under Article 3 (commencing with Section 52740) of Chapter 11 of Part 28 of the Education Code as follows:

(a) Fifty thousand dollars ($50,000) for the production of the film or video tape relative to the internment in the United States of people of Japanese ancestry during World War II.

(b) Fifty thousand dollars ($50,000) for the production of the film or video tape relative to the Armenian genocide.

CHAPTER 1234

An act relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provision of law, the allocation of property tax revenue in the fiscal years 1979–80 to 1985–86, inclusive, in Yolo County, as distributed as of July 1, 1986, shall be deemed correct, and only the following reductions or increases in apportionments shall be made for the fiscal years from 1979–80 to 1985–86, inclusive. For the purposes of computing the 1986–87 tax year and subsequent tax years, the amounts included in the 1985–86 tax year for the purpose of correcting distributions for 1979 to 1985 shall not be used. The auditor of Yolo County shall adjust the next distribution of property tax revenue in amounts to reflect

the adjustments identified in the Yolo County Auditor's Tax Distribution Report for fiscal years 1979–80 to 1985–86, inclusive, dated October 1, 1986, and on file with the Yolo County Clerk.

SEC. 2. With respect to the provisions of Section 1 of this act, the Legislature finds and declares that a special law is necessary and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution because of unique circumstances applicable only to Yolo County. Unlike other counties, the County of Yolo was unable to comply with the new revenue distribution system because of the lack of a sophisticated computer system necessary as a prerequisite to comply the new method of computation.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for local taxing agencies of Yolo County to be immediately relieved of the possibility of litigation and to assure that the county auditor is free to implement the newly adopted apportionment procedures without duress, it is necessary that this act take effect immediately.

CHAPTER 1235

An act to add Sections 1289.3, 1289.4, and 1289.5 to the Health and Safety Code, relating to health facilities.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) A serious problem of theft and loss of resident's personal belongings exists in nursing facilities throughout California.

(b) There is presently inadequate enforcement or monitoring in facilities to help safeguard resident's valuables.

(c) Therefore, it is the intent of the Legislature, while recognizing that the problem cannot be completely eliminated, to establish requirements that facilities shall follow in an attempt to significantly reduce the incidence of theft and loss.

SEC. 2. Section 1289.3 is added to the Health and Safety Code, to

read:

1289.3. (a) A long-term health care facility, as defined in Section 1418, which fails to make reasonable efforts to safeguard patient property shall reimburse a patient for or replace stolen or lost patient property at its then current value. The facility shall be presumed to have made reasonable efforts to safeguard patient property if the facility has shown clear and convincing evidence of its efforts to meet each of the requirements specified in Section 1289.4. The presumption shall be a rebuttable presumption, and the resident or the resident's representative may pursue this matter in any court of competent jurisdiction.

(b) A citation shall be issued if the long-term health care facility has no program in place or if the facility has not shown clear and convincing evidence of its efforts to meet all of the requirements set forth in Section 1289.4. The department shall issue a deficiency in the event that the manner in which the policies have been implemented is inadequate or the individual facility situation warrants additional theft and loss protections.

(c) The department shall not determine that a long-term health care facility's program is inadequate based solely on the occasional occurrence of theft or loss in a facility.

SEC. 3. Section 1289.4 is added to the Health and Safety Code, to read:

1289.4. A theft and loss program shall be implemented by the long-term health care facilities within 90 days after January 1, 1988. The program shall include all of the following:

(a) Establishment and posting of the facility's policy regarding theft and investigative procedures.

(b) Orientation to the policies and procedures for all employees within 90 days of employment.

(c) Documentation of lost and stolen patient property with a value of twenty-five dollars ($25) or more and, upon request, the documented theft and loss record for the past 12 months shall be made available to the State Department of Health Services, the county health department, or law enforcement agencies and to the office of the State Long-Term Care Ombudsman in response to a specific complaint. The documentation shall include, but not be limited to, the following:

(1) A description of the article.

(2) Its estimated value.

(3) The date and time the theft or loss was discovered.

(4) If determinable, the date and time the loss or theft occurred.

(5) The action taken.

(d) A written patient personal property inventory is established upon admission and retained during the resident's stay in the long-term health care facility. A copy of the written inventory shall be provided to the resident or the person acting on the resident's behalf. Subsequent items brought into or removed from the facility shall be added to or deleted from the personal property inventory by

the facility at the written request of the resident, the resident's family, a responsible party, or a person acting on behalf of a resident. The facility shall not be liable for items which have not been requested to be included in the inventory or for items which have been deleted from the inventory. A copy of a current inventory shall be made available upon request to the resident, responsible party, or other authorized representative. The resident, resident's family, or a responsible party may list those items which are not subject to addition or deletion from the inventory, such as personal clothing or laundry, which are subject to frequent removal from the facility.

(e) Inventory and surrender of the resident's personal effects and valuables upon discharge to the resident or authorized representative in exchange for a signed receipt.

(f) Inventory and surrender of personal effects and valuables following the death of a resident to the authorized representative in exchange for a signed receipt. Immediate written notice to the public administrator of the county upon the death of a resident without a representative or known heirs as specified by Section 1145 of the California Probate Code.

(g) Documentation, at least semiannually, of the facility's efforts to control theft and loss, including the review of theft and loss documentation and investigative procedures and results of the investigation by the administrator and, when feasible, the resident council.

(h) Establishment of a method of marking, to the extent feasible, personal property items for identification purposes upon admission and, as added to the property inventory list, including engraving of dentures and tagging of other prosthetic devices.

(i) Reports to the local law enforcement agency within 36 hours when the administrator of the facility has reason to believe patient property with a then current value of one hundred dollars ($100) or more has been stolen. Copies of those reports for the preceding 12 months shall be made available to the State Department of Health Services and law enforcement agencies.

(j) Maintenance of a secured area for patients' property which is available for safekeeping of patient property upon the request of the patient or the patient's responsible party. Provide a lock for the resident's bedside drawer or cabinet upon request of and at the expense of the resident, the resident's family, or authorized representative. The facility administrator shall have access to the locked areas upon request.

(k) A copy of this section and Sections 1289.3 and 1289.5 is provided by a facility to all of the residents and their responsible parties, and, available upon request, to all of the facility's prospective residents and their responsible parties.

(*l*) Notification to all current residents and all new residents, upon admission, of the facility's policies and procedures relating to the facility's theft and loss prevention program.

SEC. 4. Section 1289.5 is added to the Health and Safety Code, to

read:

1289.5. No provision of a contract of admission, which includes all documents which a resident or his or her representative is required to sign at the time of, or as a condition of, admission to a long-term health care facility, shall require or imply a lesser standard of responsibility for the personal property of residents than is required by law.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1236

An act relating to schools.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. The State Center Community College District desires and needs, due to a shortage of adequate facilities, to use the Old Administration Building Complex located on the campus of the Fresno City College, that does not conform to the so-called "Field Act." The building complex, which was constructed in 1916, is currently listed on both the National Register of Historic Places and the California Historic Register. Efforts are now underway to secure funding for restoration and repair of the building, including work needed to bring compliance with the requirements of the "Field Act."

SEC. 2. Notwithstanding Section 39227 of the Education Code, the governing board of the State Center Community College District may use the Old Administration Building Complex described in Section 1 for purposes of its educational programs from the effective date of this act until January 1, 1993, upon which date this act is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1993, deletes or extends that date. During the period of use authorized by this section, the structure shall not be subject to Article 3 (commencing with Section 39140) or Article 6 (commencing with Section 39210) of Chapter 2 of Part 23 of the Education Code.

SEC. 3. Due to the unique circumstances specified in Section 1 of this act concerning the State Center Community College District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

CHAPTER 1237

An act to amend Section 34.5 of the Civil Code, to add Section 25958 to the Health and Safety Code, and to amend Section 317 of, and to repeal Section 318 of, the Welfare and Institutions Code, relating to minors.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds as follows: (a) the medical, emotional, and psychological consequences of an abortion are serious and can be lasting, particularly when the patient is an immature minor; (b) the capacity to become pregnant and the capacity for exercising mature judgment concerning the wisdom of an abortion are not logically related; (c) minors often lack the ability to make fully informed choices that take account of both immediate and long-range consequences of their actions; (d) parents ordinarily possess information essential to a physician's exercise of his or her best medical judgment concerning a minor child; and (e) parents who are aware that their minor daughter has had an abortion may better ensure that she receives adequate medical attention subsequent to her abortion.

SEC. 2. Section 34.5 of the Civil Code is amended to read:

34.5. Notwithstanding any other provision of law, an unemancipated minor may give consent to the furnishing of hospital, medical and surgical care related to the prevention or treatment of pregnancy, and that consent shall not be subject to disaffirmance because of minority. The consent of the parent or parents of such minor shall not be necessary in order to authorize the hospital, medical, and surgical care.

This section shall not be construed to authorize a minor to be sterilized without the consent of his or her parent or guardian to authorize an unemancipated minor to receive an abortion without the consent of a parent or guardian other than as provided in Section 25958 of the Health and Safety Code.

SEC. 3. Section 25958 is added to the Health and Safety Code, to read:

25958. (a) Except in a medical emergency requiring immediate medical action, no abortion shall be performed upon an unemancipated minor unless she first has given her written consent to the abortion and also has obtained the written consent of one of her parents or legal guardian.

(b) If one or both of an unemancipated, pregnant minor's parents

or her guardian refuse to consent to the performance of an abortion, or if the minor elects not to seek the consent of one or both of her parents or her guardian, an unemancipated pregnant minor may file a petition with the juvenile court. If, pursuant to this subdivision, a minor seeks a petition, the court shall assist the minor or person designated by the minor in preparing the petition and notices required pursuant to this section. The petition shall set forth with specificity the minor's reasons for the request. The court shall ensure that the minor's identity is confidential. The minor may file the petition using only her initials or a pseudonym. An unemancipated pregnant minor may participate in the proceedings in juvenile court on her own behalf, and the court may appoint a guardian ad litem for her. The court shall, however, advise her that she has a right to court-appointed counsel upon request. The hearing shall be set within three days of the filing of the petition. A notice shall be given to the minor of the date, time, and place of the hearing on the petition.

(c) At the hearing on a minor's petition brought pursuant to subdivision (b) for the authorization of an abortion, the court shall consider all evidence duly presented, and order either of the following:

(1) If the court finds that the minor is sufficiently mature and sufficiently informed to make the decision on her own regarding an abortion, and that the minor has, on that basis, consented thereto, the court shall grant the petition.

(2) If the court finds that the minor is not sufficiently mature and sufficiently informed to make the decision on her own regarding an abortion, the court shall then consider whether performance of the abortion would be in the best interest of the minor. In the event that the court finds that the performance of the abortion would be in the minor's best interest, the court shall grant the petition ordering the performance of the abortion without consent of, or notice to, the parents or guardian. In the event that the court finds that the performance of the abortion is not in the best interest of the minor, the court shall deny the petition.

Judgment shall be entered within one court day of submission of the matter.

(d) The minor may appeal the judgment of the juvenile court by filing a written notice of appeal at any time after the entry of the judgment. The Judicial Council shall prescribe, by rule, the practice and procedure on appeal and the time and manner in which any record on appeal shall be prepared and filed. These procedures shall require that the notice of the date, time, and place of hearing, which shall be set within five court days of the filing of notice of appeal, shall be mailed to the parties by the clerk of the court. The appellate court shall ensure that the minor's identity is confidential. The minor may file the petition using only her initials or a pseudonym. Judgment on appeal shall be entered within one court day of submission of the matter.

(e) No fees or costs incurred in connection with the procedures required by this section shall be chargeable to the minor or her parents, or either of them, or to her legal guardian.

(f) It is a misdemeanor, punishable by a fine of not more than one thousand dollars ($1,000), or by imprisonment in the county jail of up to 30 days, or both, for any person to knowingly perform an abortion on an unmarried or unemancipated minor without complying with the requirements of this section.

SEC. 4. Section 317 of the Welfare and Institutions Code is amended to read:

317. (a) When it appears to the court that the minor or his or her parent or guardian desires counsel but is unable to afford and cannot for that reason employ counsel, the court may appoint counsel.

(b) In any case arising under Section 300, the court shall appoint counsel for the minor. In any other case in which it appears to the court that the minor would benefit from the appointment of counsel the court shall appoint counsel for the minor. Counsel for the minor may be a county counsel, district attorney, public defender, or other member of the bar, provided that he or she does not represent another party or county agency whose interest may conflict with the minor's. The court shall determine if representation of both the petitioning agency and the minor constitutes a conflict of interest. If the court finds there is a conflict of interest, separate counsel shall be appointed for the minor. The court may fix the compensation to be paid by the county for the services of appointed counsel, if the counsel is not a county counsel, district attorney, or public defender. Counsel for the minor may be a county counsel, district attorney, public defender, or any other member of the bar, provided that the counsel does not represent another party or county agency whose interest may conflict with the minor's. The court may fix the compensation to be paid by the county for services of appointed counsel who are members of the private bar.

(c) The counsel appointed by the court shall represent the minor at the detention hearing and at all subsequent proceedings before the juvenile court. Counsel shall continue to represent the parent or minor unless relieved by the court upon the substitution of other counsel or for cause. The representation shall include representing the minor in proceedings brought under Sections 232 and 7017 of the Civil Code and in those proceedings relating to the institution or setting aside of legal guardianship.

(d) The counsel for the minor shall be charged in general with the representation of the minor's interests. To that end, counsel, prior to each hearing, shall make such further investigations as counsel deems necessary to ascertain the facts, including the interviewing of witnesses, and counsel shall examine and cross-examine witnesses in both the adjudicatory and dispositional hearings; counsel may also introduce and examine his or her own witnesses, make recommendations to the court concerning the minor's welfare, and participate further in the proceedings to the degree necessary to

adequately represent the minor. For all children five years of age or older, counsel shall interview the minor to determine the minor's wishes and to assess the minor's well-being. In addition, counsel shall investigate the interests of the minor beyond the scope of the juvenile proceeding and report to the court other interests of the minor that may be protected by other administrative or judicial proceedings. The court shall take whatever appropriate action is necessary to fully protect the interests of the minor.

(e) The counsel for the minor shall continue to represent the minor between hearings and shall try to ensure that the minor and his or her parent or parents receive all services ordered by the court.

(f) Notwithstanding any other provision of law, all counsel shall be given access to all records relevant to the case which are maintained by state or local public agencies. Counsel shall be given access to records maintained by hospitals or by other medical or nonmedical practitioners or by child care custodians, in the manner prescribed by Section 1158 of the Evidence Code.

SEC. 5. Section 318 of the Welfare and Institutions Code, as amended by Chapter 302 of the Statutes of 1985, is repealed.

SEC. 6. Sections 4 and 5 of this act shall be operative July 1, 1988, and only if Senate Bill 203 of the 1987–88 Regular Session is enacted and becomes effective before that date, provides funding for trial court operations, and defines "court operations" to include the services of court-appointed counsel.

SEC. 7. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 1238

An act to add Section 76060.5 to, and to repeal and add Sections 76060 and 76062 of, the Education Code, relating to education.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 76060 of the Education Code is repealed.

SEC. 2. Section 76060 is added to the Education Code, to read:

76060. The governing board of a community college district may authorize the students of a college to organize a student body association. The association shall encourage students to participate in the governance of the college and may conduct any activities, including fundraising activities, as may be approved by the appropriate college officials. The association may be granted the use of community college premises and properties without charge, subject to any regulations that may be established by the governing board of the community college district.

The governing board of the community college district may authorize the students of a college to organize more than one student body association when the governing board finds that day students and evening students each need an association or geographic circumstances make the organization of only one student body association impractical or inconvenient.

A community college district may assume responsibility for activities formerly conducted by a student body association if the student body association is dissolved. A student body association employee who was employed to perform the activity assumed by the district pursuant to this section shall become a member of the classified service of the district in accordance with Section 88020.

SEC. 3. Section 76060.5 is added to the Education Code, to read:

76060.5. If a student body association has been established at a community college as authorized by Section 76060, the governing body of the association may order that an election be held for the purpose of establishing a student representation fee of one dollar ($1) per semester. The election shall be held in compliance with regulations of the Board of Governors of the California Community Colleges and shall be open to all regularly enrolled students of the community college. The affirmative vote of two-thirds of the students voting in the election shall be sufficient to establish the fee. However, the election shall not be sufficient to establish the fee unless the number of students who vote in the election equals or exceeds the average of the number of students who voted in the previous three student body association elections.

The student representation fee authorized by this section shall be collected by the officials of the community college, together with all

other fees, at the time of registration or before registration and shall be deposited in a separate fund established for student representation fees. The money collected pursuant to this section shall be expended to provide for the support of governmental affairs representatives who may be stating their positions and viewpoints before city, county, and district governments, and before offices and agencies of the state government. The chief fiscal officer of the community college shall have custody of the money collected pursuant to this section and the money shall be disbursed for the purposes described above upon the order of the governing body of the student body association. The district may retain a portion of the fees collected and deposited pursuant to this section that is equal to the actual cost of administering these fees up to, but not more than, 7 percent.

The student representation fee authorized by this section may be terminated by a majority vote of the students voting in an election held for that purpose. The election shall be called and held in compliance with regulations of the Board of Governors of the California Community Colleges and shall be open to all regularly enrolled students of the community college.

A student may, for religious, political, financial, or moral reasons, refuse to pay the student representation fee established under this section. The refusal shall be submitted in writing to the college officials at the time the student pays other fees collected by the college officials. The refusal shall be submitted on the same form that is used for collection of fees as provided by the college, which, as determined by the college, shall be as nearly as practical in the same form as a model form prescribed by regulations of the Board of Governors of the California Community Colleges.

SEC. 4. Section 76062 of the Education Code is repealed.

SEC. 5. Section 76062 is added to the Education Code, to read:

76062. The governing board of a community college district may authorize any organization composed entirely of students attending the colleges of the district to maintain any activities, including fundraising activities, as may be approved by the governing board.

SEC. 6. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 1239

An act to amend Section 76000 of, and to add Section 76009 to, the Government Code, and to amend Section 1464 of the Penal Code, relating to penalty assessments.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 76000 of the Government Code is amended to read:

76000. (a) In each county, provided that the board of supervisors has adopted a resolution stating that the provisions of this section and Section 76001, 76002, 76004, 76005, 76006, 76008, or 76009 are necessary to the establishment of adequate facilities in the county, the following surcharges and assessments shall be collected, except that a resolution adopted pursuant to Section 76004 may limit the collection to the assessments specified in paragraph (2), a resolution adopted pursuant to Section 76005 or 76008 shall limit the collection to the assessments specified in paragraph (2), and a resolution adopted pursuant to Section 76009 shall limit the collection to the assessments specified in paragraph (3):

(1) Except as limited by resolution pursuant to this subdivision, with respect to each fund established pursuant to Section 76001, 76002, 76004, 76006, or 76008, for every parking offense where a fine or forfeiture is imposed, a surcharge of one dollar and fifty cents ($1.50) shall be included in the fine or forfeiture.

The judges of the county shall increase the bail schedule amounts as appropriate to reflect the surcharge provided for by this subdivision.

In those cities, districts, or other issuing agencies which elect to receive, deposit, accept forfeitures, and otherwise process the posting of bail for parking violations pursuant to subdivision (3) of Section 1463 of the Penal Code, that city, district, or issuing agency shall observe the increased bail amounts as established by the court reflecting the surcharge provided for by this paragraph.

(2) With respect to each fund established pursuant to Section 76001, 76002, 76004, 76006, or 76008, there shall be levied an additional amount of one dollar ($1) for every ten dollars ($10) or fraction thereof which shall be collected together with and in the same manner as the assessment established by Section 1464 of the Penal Code, upon every fine, penalty, or forfeiture imposed and collected by the courts for criminal offenses, including all offenses involving a violation of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code, except offenses relating to parking or registration or offenses by pedestrians or bicyclists, or where an order is made to pay a sum to the general fund of the county pursuant

to paragraph (iii) of subdivision (3) of Section 258 of the Welfare and Institutions Code. This amount shall be deposited with the county treasurer and placed in the fund established pursuant to Section 76001, 76002, 76004, 76005, 76006, or 76008.

(3) With respect to each fund established pursuant to Section 76009, there shall be levied an additional amount of fifty cents ($.50) for every ten dollars ($10) or fraction thereof which shall be collected together with and in the same manner as the assessment established by Section 1464 of the Penal Code, upon every fine, penalty, or forfeiture imposed and collected by the courts for criminal offenses, including all offenses involving a violation of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code, except offenses relating to parking or registration or offenses by pedestrians or bicyclists, or where an order is made to pay a sum to the general fund of the county pursuant to paragraph (iii) of subdivision (3) of Section 258 of the Welfare and Institutions Code. This amount shall be deposited with the county treasurer and placed in the fund established pursuant to Section 76009.

(b) The surcharge and assessment increase imposed pursuant to this section shall continue so long as deposits to the funds are required pursuant to Section 76001, 76002, 76004, 76005, 76006, 76008, or 76009.

(c) No county, city and county, city, district or other issuing agency shall be required to contribute revenues to any fund in excess of those revenues generated from the surcharges and assessments established in the resolution adopted pursuant to this section, except as otherwise agreed upon by the local governmental entities involved.

SEC. 2. Section 76009 is added to the Government Code, to read:

76009. (a) Notwithstanding any other provision of law, to assist a county in the implementation of an automated fingerprint identification system, the board of supervisors, operative upon the adoption of a resolution stating that the provisions of this section and Section 76000 are necessary to provide an adequate fingerprint identification system, may establish in the county treasury a County Automated Fingerprint Identification Fund. Deposits shall be made to this fund as specified in subdivision (b).

(b) The county treasurer shall place in the fund fifty cents ($0.50) for every ten dollars ($10) or fraction thereof for every fine, penalty, or forfeiture imposed and collected by the courts for criminal offenses, including all offenses involving a violation of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code except offenses relating to parking or registration or offenses by pedestrians or bicyclists, or where an order is made to pay a sum to the general fund of the county pursuant to paragraph (iii) of subdivision (3) of Section 258 of the Welfare and Institutions Code.

(c) The fund moneys together with any interest earned thereon shall be held by the county treasurer separate from any funds subject to transfer or division pursuant to Section 1463 of the Penal Code.

The moneys in the Automated Fingerprint Identification Fund with any interest thereon shall be payable only for the purchase, lease, operation, including personnel and related costs, and maintenance of automated fingerprint equipment and the replacement of existing automated fingerprint equipment, or for the reimbursement of local agencies within the county which have previously purchased, leased, operated, or maintained automated fingerprint equipment from other funding sources.

(d) For purposes of this section "automated fingerprint equipment" shall mean that equipment designated for the storage or retrieval of fingerprint data which is compatible with the California Identification System Remote Access Network.

(e) Deposits to the fund shall continue through and including the 20th year after the initial calendar year in which the surcharge is collected, or longer if and as necessary to make payments upon any lease or lease-back arrangement utilized to finance any of the projects specified herein.

SEC. 3. Section 1464 of the Penal Code is amended to read:

1464. (a) Subject to the provisions of Section 76000 of the Government Code, there shall be levied an assessment in an amount equal to seven dollars ($7) for every ten dollars ($10) or fraction thereof, upon every fine, penalty, or forfeiture imposed and collected by the courts for criminal offenses, including all offenses involving a violation of a section of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code, except offenses relating to parking or registration or offenses by pedestrians or bicyclists, or where an order is made to pay a sum to the general fund of the county pursuant to subparagraph (iii) of paragraph (3) of subdivision (a) of Section 258 of the Welfare and Institutions Code. Any bail schedule adopted pursuant to Section 1269b may include the necessary amount to pay the assessments established by this section and Section 76000 of the Government Code for all matters where a personal appearance is not mandatory and the bail is posted primarily to guarantee payment of the fine.

(b) Where multiple offenses are involved, the assessment shall be based upon the total fine or bail for each case. When a fine is suspended, in whole or in part, the assessment shall be reduced in proportion to the suspension.

(c) When any deposited bail is made for an offense to which this section applies, and for which a court appearance is not mandatory, the person making the deposit shall also deposit a sufficient amount to include the assessment prescribed by this section for forfeited bail. If bail is returned, the assessment made thereon pursuant to this section shall also be returned.

(d) In any case where a person convicted of any offense, to which this section applies, is in prison until the fine is satisfied, the judge may waive all or any part of the assessment, the payment of which would work a hardship on the person convicted or his or her immediate family

(e) After a determination by the court of the amount due, the clerk of the court shall collect the same and transmit it to the county treasury. The portion thereof attributable to Section 76000 of the Government Code shall be deposited in the appropriate county fund and the balance shall then be transmitted to the State Treasury to be deposited in the Assessment Fund, which is hereby created. The transmission to the State Treasury shall be carried out in the same manner as fines collected for the state by a county.

(f) Of moneys so deposited, the revenues attributable to the increase in the assessment from five dollars ($5) to seven dollars ($7), as determined by the Department of Finance, shall be transmitted to the State Treasury to be deposited directly into the Restitution Fund. The remainder shall be distributed as follows:

(1) Once a month there shall be transferred into the Fish and Game Preservation Fund an amount equal to 0.38 percent of the funds deposited in the Assessment Fund during the preceding month, but in no event shall the amount be less than the assessment levied on fines or forfeitures for violation of state laws relating to the protection or propagation of fish and game. These moneys are to be used for the education or training of department employees which fulfills a need consistent with the objectives of the Department of Fish and Game.

(2) Once a month there shall be transferred into the Restitution Fund an amount equal to 22.12 percent of the funds deposited in the Assessment Fund during the preceding month. Those funds shall be made available in accordance with subdivision (b) of Section 13967 of the Government Code.

(3) Once a month there shall be transferred into the Peace Officers' Training Fund an amount equal to 27.75 percent of the funds deposited in the Assessment Fund during the preceding month.

(4) Once a month there shall be transferred into the Driver Training Penalty Assessment Fund an amount equal to 29.73 percent of the funds deposited in the Assessment Fund during the preceding month.

(5) Once a month there shall be transferred into the Corrections Training Fund an amount equal to 9.12 percent of the funds deposited in the Assessment Fund during the preceding month. Money in the Corrections Training Fund is not continuously appropriated and shall be appropriated in the Budget Act.

(6) Once a month there shall be transferred into the Local Public Prosecutors and Public Defenders Training Fund established pursuant to Section 11503 an amount equal to 0.90 percent of the funds deposited in the Assessment Fund during the preceding month. The amount so transferred shall not exceed the sum of eight hundred fifty thousand dollars ($850,000) in any fiscal year. The remainder in excess of eight hundred fifty thousand dollars ($850,000) shall be transferred to the Restitution Fund.

(7) Once a month there shall be transferred into the

Victim-Witness Assistance Fund an amount equal to 10.00 percent of the funds deposited in the Assessment Fund during the preceding month.

SEC. 4. Section 3 shall become operative only if SB 738 or AB 1223 or both are enacted and become operative on or before January 1, 1988, and as enacted amend Section 1464 of the Penal Code, and this bill is enacted last.

CHAPTER 1240

An act to amend Sections 1317, 1798, 1798.170, 1798.172, and 1798.208 of, to add Sections 1317.1, 1317.2, 1317.2a, 1317.3, 1317.4, 1317.5, 1317.6, 1317.7, 1317.8, 1317.9, 1317.9a, and 1798.205 to, and to add Chapter 2.5 (commencing with Section 1797.98a) to Part 1 of Division 2.5 of, the Health and Safety Code, and to add Section 1465 to the Penal Code, relating to emergency medical services.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares that the provision of emergency medical care is a vital public service of great benefit to Californians. It is necessary for the protection of the health and safety of Californians that a comprehensive and high quality system of emergency medical services be provided.

(b) The Legislature also finds that the costs of emergency medical services are greater than the costs of delivering other forms of medical services in the state, as emergency services must be readily available on a 24-hour-a-day basis and must be provided to all, regardless of ability to pay, which is required by existing law.

(c) The Legislature recognizes the breadth of the uncompensated and undercompensated care problems facing California providers which serve large numbers of unsponsored persons. The addition of Chapter 2.5 (commencing with Section 1797.98a) to Part 1 of Division 2.5 of the Health and Safety Code is an effort at addressing only one segment of the uncompensated care problem: the area of emergency services. The Legislature further believes that physicians who provide emergency care to anyone in need, regardless of ability to pay, incur losses resulting from care of patients who have no third-party source of payment or for whom available payment is grossly inadequate to cover the costs of providing such care. The Emergency Medical Services Fund created by Section 15 of this act would provide limited funding to partially offset the losses providers incur for treating unsponsored patients who arrive in need of emergency care. This act provides only partial compensation for a small but important aspect of the larger problem regarding provision

of services to the unsponsored.

(d) As a result, the Legislature finds that providers of emergency medical services must bear the higher expenses of providing these services and must suffer from partial or no reimbursement from many of their patients. If allowed to continue, these higher costs and lower reimbursements could force many physicians to reduce the quality and availability of emergency medical services, to the detriment of Californians.

(e) Therefore, by enacting this legislation, the Legislature is providing a means of partial funding for these vital services. Further, it is the intent of the Legislature that the source of funding of emergency medical services be related to the incident of emergencies requiring immediate medical care. Thus, this act will levy an additional penalty assessment on traffic and other fines. In this way, the costs of emergency medical services shall be borne to a degree by those who have a relationship to creating the emergencies.

SEC. 2. Section 1317 of the Health and Safety Code is amended to read:

1317. (a) Emergency services and care shall be provided to any person requesting the services or care, or for whom services or care is requested, for any condition in which the person is in danger of loss of life, or serious injury or illness, at any health facility licensed under this chapter that maintains and operates an emergency department to provide emergency services to the public when the health facility has appropriate facilities and qualified personnel available to provide the services or care.

(b) In no event shall the provision of emergency services and care be based upon, or affected by, the person's race, ethnicity, religion, national origin, citizenship, age, sex, preexisting medical condition, physical or mental handicap, insurance status, economic status, or ability to pay for medical services, except to the extent that a circumstance such as age, sex, preexisting medical condition, or physical or mental handicap is medically significant to the provision of appropriate medical care to the patient.

(c) Neither the health facility, its employees, nor any physician, dentist, or podiatrist shall be liable in any action arising out of a refusal to render emergency services or care if the refusal is based on the determination, exercising reasonable care, that the person is not suffering from an emergency medical condition, or that the health facility does not have the appropriate facilities or qualified personnel available to render those services.

(d) Emergency services and care shall be rendered without first questioning the patient or any other person as to his or her ability to pay therefor. However, the patient or his or her legally responsible relative or guardian shall execute an agreement to pay therefor or otherwise supply insurance or credit information promptly after the services are rendered.

(e) If a health facility subject to the provisions of this chapter does

not maintain an emergency department, its employees shall nevertheless exercise reasonable care to determine whether an emergency exists and shall direct the persons seeking emergency care to a nearby facility which can render the needed services, and shall assist the persons seeking emergency care in obtaining the services, including transportation services, in every way reasonable under the circumstances.

(f) No act or omission of any rescue team established by any health facility licensed under this chapter, or operated by the federal or state government, a county, or by the Regents of the University of California, done or omitted while attempting to resuscitate any person who is in immediate danger of loss of life shall impose any liability upon the health facility, the officers, members of the staff, nurses, or employees of the health facility, including, but not limited to the members of the rescue team, or upon the federal or state government or a county, if good faith is exercised.

(g) "Rescue team," as used in this section, means a special group of physicians and surgeons, nurses, and employees of a health facility who have been trained in cardiopulmonary resuscitation and have been designated by the health facility to attempt, in cases of emergency, to resuscitate persons who are in immediate danger of loss of life.

(h) This section shall not relieve a health facility of any duty otherwise imposed by law upon the health facility for the designation and training of members of a rescue team or for the provision or maintenance of equipment to be used by a rescue team.

SEC. 3. Section 1317.1 is added to the Health and Safety Code, to read:

1317.1. Unless the context otherwise requires, the following definitions shall control the construction of this article:

(a) "Emergency services and care" means medical screening, examination, and evaluation by a physician, or, to the extent permitted by applicable law, by other appropriate personnel under the supervision of a physician, to determine if an emergency medical condition or active labor exists and, if it does, the care, treatment, and surgery by a physician necessary to relieve or eliminate the emergency medical condition, within the capability of the facility.

(b) "Emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention could reasonably be expected to result in any of the following:

(1) Placing the patient's health in serious jeopardy.

(2) Serious impairment to bodily functions.

(3) Serious dysfunction of any bodily organ or part.

(c) "Active labor" means a labor at a time at which either of the following would occur:

(1) There is inadequate time to effect safe transfer to another hospital prior to delivery.

(2) A transfer may pose a threat to the health and safety of the

patient or the unborn child.

(d) "Hospital" means all hospitals with an emergency department licensed by the state department.

(e) "State department" means the State Department of Health Services.

(f) "Medical hazard" means a material deterioration in, or jeopardy to, a patient's medical condition or expected chances for recovery.

(g) "Board" means the Board of Medical Quality Assurance.

(h) "Within the capability of the facility" means those capabilities which the hospital is required to have as a condition of its emergency medical services permit and services specified on Services Inventory Form 7041 filed by the hospital with the Office of Statewide Health Planning and Development.

(i) "Consultation" means the rendering of an opinion, advice, or prescribing treatment by telephone and, when determined to be medically necessary jointly by the emergency and the specialty physicians, includes review of the patient's medical record, examination and treatment of the patient in person by a specialty physician who is qualified to give an opinion or render the necessary treatment in order to stabilize the patient.

SEC. 4. Section 1317.2 is added to the Health and Safety Code, to read:

1317.2. No person needing emergency services and care may be transferred from a hospital to another hospital for any nonmedical reason (such as the person's inability to pay for any emergency service or care) unless each of the following conditions are met:

(a) The person is examined and evaluated by a physician, including, if necessary, consultation, prior to transfer.

(b) The person has been provided with emergency services and care so that it can be determined, within reasonable medical probability, that the transfer or delay caused by the transfer will not create a medical hazard to the person.

(c) A physician at the transferring hospital has notified and has obtained the consent to the transfer by a physician at the receiving hospital and confirmation by the receiving hospital that the person meets the hospital's admissions criteria relating to appropriate bed, personnel, and equipment necessary to treat the person.

(d) The transferring hospital provides for appropriate personnel and equipment which a reasonable and prudent physician in the same or similar locality exercising ordinary care would use to effect the transfer.

(e) All the person's pertinent medical records and copies of all the appropriate diagnostic test results which are reasonably available are transferred with the person.

(f) The records transferred with the person include a "Transfer Summary" signed by the transferring physician which contains relevant transfer information. The form of the "Transfer Summary" shall, at a minimum, contain the person's name, address, sex, race,

age, insurance status, and medical condition; the name and address of the transferring doctor or emergency department personnel authorizing the transfer; the time and date the person was first presented at the transferring hospital; the name of the physician at the receiving hospital consenting to the transfer and the time and date of the consent; the time and date of the transfer; the reason for the transfer; and the declaration of the signor that the signor is assured, within reasonable medical probability, that the transfer creates no medical hazard to the patient. Neither the transferring physician nor transferring hospital shall be required to duplicate, in the "Transfer Summary," information contained in medical records transferred with the person.

(g) The transfer conforms with regulations established by the department.

(h) Nothing in this section shall apply to a transfer of a patient for medical reasons.

(i) Nothing in this section shall prohibit the transfer or discharge of a patient when the patient or the patient's representative requests a transfer or discharge and gives informed consent to the transfer or discharge against medical advice.

SEC. 5. Section 1317.2a is added to the Health and Safety Code, to read:

1317.2a. (a) A hospital which has a legal obligation, whether imposed by statute or by contract, to the extent of that contractual obligation, to any third-party payor, including, but not limited to, a health maintenance organization, health care service plan, nonprofit hospital service plan, insurer, or preferred provider organization, a county, or an employer to provide care for a patient under the circumstances specified in Section 1317.2 shall receive that patient to the extent required by the applicable statute or by the terms of the contract, or, when the hospital is unable to accept a patient for whom it has a legal obligation to provide care whose transfer will not create a medical hazard as specified in Section 1317.2, it shall make appropriate arrangements for the patient's care.

(b) A county hospital shall accept a patient whose transfer will not create a medical hazard as specified in Section 1317.2 and who is determined by the county to be eligible to receive health care services required under Part 5 (commencing with Section 17000) of Division 9 of the Welfare and Institutions Code, unless the hospital does not have appropriate bed capacity, medical personnel, or equipment required to provide care to the patient in accordance with accepted medical practice. When a county hospital is unable to accept a patient whose transfer will not create a medical hazard as specified in Section 1317.2, it shall make appropriate arrangements for the patient's care. The obligation to make appropriate arrangements as set forth in this subdivision does not mandate a level of service or payment, modify the county's obligations under Part 5 (commencing with Section 17000) of Division 9 of the Welfare and Institutions Code, create a cause of action, or limit a county's

flexibility to manage county health systems within available resources. However, the county's flexibility shall not diminish a county's responsibilities under Part 5 (commencing with Section 17000) of Division 9 of the Welfare and Institutions Code or the requirements contained in Chapter 2.5 (commencing with Section 1440).

(c) The receiving hospital shall provide personnel and equipment reasonably required in the exercise of good medical practice for the care of the transferred patient.

(d) Any third-party payor, including, but not limited to, a health maintenance organization, health care service plan, nonprofit hospital service plan, insurer, or preferred provider organization, or employer which has a statutory or contractual obligation to provide or indemnify emergency medical services on behalf of a patient shall be liable, to the extent of the contractual obligation to the patient, for the reasonable charges of the transferring hospital and the treating physicians for the emergency services provided pursuant to this article, except that the patient shall be responsible for uncovered services, or any deductible or copayment obligation. Notwithstanding this section, the liability of a third-party payor which has contracted with health care providers for the provision of these emergency services shall be set by the terms of that contract. Notwithstanding this section, the liability of a third-party payor that is licensed by the Insurance Commissioner or the Commissioner of Corporations and has a contractual obligation to provide or indemnify emergency medical services under a contract which covers a subscriber or an enrollee shall be determined in accordance with the terms of that contract and shall remain under the sole jurisdiction of that licensing agency.

(e) A hospital which has a legal obligation to provide care for a patient as specified by subdivision (a) of Section 1317.2a to the extent of its legal obligation, imposed by statute or by contract to the extent of that contractual obligation, which does not accept transfers of, or make other appropriate arrangements for, medically stable patients in violation of this article or regulations adopted pursuant thereto shall be liable for the reasonable charges of the transferring hospital and treating physicians for providing services and care which should have been provided by the receiving hospital.

(f) Subdivisions (d) and (e) do not apply to county obligations under Section 17000 of the Welfare and Institutions Code.

(g) Nothing in this section shall be interpreted to require a hospital to make arrangements for the care of a patient for whom the hospital does not have a legal obligation to provide care.

SEC. 6. Section 1317.3 is added to the Health and Safety Code, to read:

1317.3. (a) As a condition of licensure, each hospital shall adopt, in consultation with the medical staff, policies and transfer protocols consistent with this article and regulations adopted hereunder.

(b) As a condition of licensure, each hospital shall adopt a policy

prohibiting discrimination in the provision of emergency services and care based on race, ethnicity, religion, national origin, citizenship, age, sex, preexisting medical condition, physical or mental handicap, insurance status, economic status, or ability to pay for medical services, except to the extent that a circumstance such as age, sex, preexisting medical condition, or physical or mental handicap is medically significant to the provision of appropriate medical care to the patient.

(c) As a condition of licensure, each hospital shall require that physicians who serve on an "on-call" basis to the hospital's emergency room cannot refuse to respond to a call on the basis of the patient's race, ethnicity, religion, national origin, citizenship, age, sex, preexisting medical condition, physical or mental handicap, insurance status, economic status, or ability to pay for medical services, except to the extent that a circumstance such as age, sex, preexisting medical condition, or physical or mental handicap is medically significant to the provision of appropriate medical care to the patient. If a contract between a physician and hospital for the provision of emergency room coverage presently prevents the hospital from imposing those conditions, the conditions shall be included in the contract as soon as is legally permissible. Nothing in this section shall be construed as requiring that any physician serve on an "on call" basis.

(d) As a condition of licensure, all hospitals shall inform all persons presented to an emergency room or their representatives if any are present and the person is unable to understand verbal or written communication, both orally and in writing, of the reasons for the transfer or refusal to provide emergency services and care and of the person's right to emergency services and care prior to transfer or discharge without regard to ability to pay. Nothing in this subdivision requires notification of the reasons for the transfer in advance of the transfer where a person is unaccompanied and the hospital has made a reasonable effort to locate a representative, and because of the person's physical or mental condition, notification is not possible. All hospitals shall prominently post a sign in their emergency rooms informing the public of their rights. Both the posted sign and written communication concerning the transfer or refusal to provide emergency services and care shall give the address of the department as the government agency to contact in the event the person wishes to complain about the hospital's conduct.

(e) If a hospital does not timely adopt the policies and protocols required in this article, the hospital, in addition to denial or revocation of any of its licenses, shall be subject to a fine not to exceed one thousand dollars ($1,000) each day after expiration of 60 days' written notice from the state department that the hospital's policies or protocols required by this article are inadequate unless the delay is excused by the state department upon a showing of good and sufficient cause by the hospital. The notice shall include a detailed statement of the state department's reasons for its determination and

suggested changes to the hospital's protocols which would be acceptable to the state department.

(f) Each hospital's policies and protocols required in or under this article shall be submitted for approval to the state department within 90 days of the department's adoption of regulations under this article.

SEC. 7. Section 1317.4 is added to the Health and Safety Code, to read:

1317.4. (a) All hospitals shall maintain records of each transfer made or received, including the "Memorandum of Transfer" described in subdivision (f) of Section 1317.2, for a period of three years.

(b) All hospitals making or receiving transfers shall file with the state department annual reports on forms prescribed by the department which shall describe the aggregate number of transfers made and received according to the person's insurance status and reasons for transfers.

(c) The receiving hospital, and all physicians, other licensed emergency room health personnel, and certified prehospital emergency personnel at the receiving hospital who know of apparent violations of this article or the regulations adopted hereunder shall, and the corresponding personnel at the transferring hospital and the transferring hospital may, report the apparent violations to the state department on a form prescribed by the state department within one week following its occurrence. The state department shall promptly send a copy of the form to the hospital administrator and appropriate medical staff committee of the transferring hospital and the local emergency medical services agency, unless the state department concludes that the complaint does not allege facts requiring further investigation, or is otherwise unmeritorious, or the state department concludes, based upon the circumstances of the case, that its investigation of the allegations would be impeded by disclosure of the form. When two or more persons required to report jointly have knowledge of an apparent violation, a single report may be made by a member of the team selected by mutual agreement in accordance with hospital protocols. Any individual, required to report by this section, who disagrees with the proposed joint report has a right and duty to separately report.

A failure to report under this subdivision shall not constitute a violation within the meaning of Section 1290 or 1317.6.

(d) No hospital, government agency, or person shall retaliate against, penalize, institute a civil action against, or recover monetary relief from, or otherwise cause any injury to a physician or other personnel for reporting in good faith an apparent violation of this article or the regulations adopted hereunder to the state department, hospital, medical staff, or any other interested party or government agency.

(e) No hospital, government agency, or person shall retaliate against, penalize, institute a civil action against, or recover monetary relief from, or otherwise cause any injury to a physician who refused

to transfer a patient when the physician determines, within reasonable medical probability, that the transfer or delay caused by the transfer will create a medical hazard to the person.

(f) Any person who violates subdivision (d) or (e) of Section 1317.4 is subject to a civil money penalty of no more than ten thousand dollars ($10,000) per violation. The remedy specified in this section shall be in addition to any other remedy provided by law.

(g) The state department shall on an annual basis publish and provide to the Legislature a statistical summary by county on the extent of economic transfers of emergency patients, the frequency of medically hazardous transfers, the insurance status of the patient populations being transferred and all violations finally determined by the state department describing the nature of the violations, hospitals involved, and the action taken by the state department in response. These summaries shall not reveal the identity of individual persons transferred.

(h) Proceedings by the state department to impose a fine under Section 1317.3 or 1317.6, and proceedings by the board to impose a fine under Section 1317.6, shall be conducted as follows:

(1) If a hospital desires to contest a proposed fine, the hospital shall within 15 business days after service of the notice of proposed fine notify the director in writing of its intention to contest the proposed fine. If requested by the hospital, the director or the director's designee, shall hold, within 30 business days, an informal conference, at the conclusion of which he or she may affirm, modify, or dismiss the proposed fine. If the director or the director's designee affirms, modifies, or dismisses the proposed fine, he or she shall state with particularity in writing his or her reasons for that action, and shall immediately transmit a copy thereof to the hospital. If the hospital desires to contest a determination made after the informal conference, the hospital shall inform the director in writing within 15 business days after it receives the decision by the director or director's designee. The hospital shall not be required to request an informal conference to contest a proposed fine, as specified in this section. If the hospital fails to notify the director in writing that it intends to protest the proposed fine within the times specified in this subdivision, the proposed fine shall be deemed a final order of the state department and shall not be subject to further administrative review.

(2) If a hospital notifies the director that it intends to contest a proposed fine, the director shall immediately notify the Attorney General. Upon notification, the Attorney General shall promptly take all appropriate action to enforce the proposed fine in a court of competent jurisdiction for the county in which the hospital is located.

(3) A judicial action to enforce a proposed fine shall be filed by the Attorney General after a hospital notifies the director of its intent to contest the proposed fine. If a judicial proceeding is prosecuted under the provisions of this section, the state department shall have the burden of establishing by a preponderance of the evidence that

the alleged facts supporting the proposed fine occurred, that the alleged facts constituted a violation for which a fine may be assessed under Section 1317.3, 1317.4, or 1317.6, and the proposed fine is appropriate. The state department shall also have the burden of establishing by a preponderance of the evidence that the assessment of the proposed fine should be upheld. If a hospital timely notifies the state department of its decision to contest a proposed fine, the fine shall not be due and payable unless and until the judicial proceeding is terminated in favor of the state department.

(4) Action brought under the provisions of this section shall be set for trial at the earliest possible date and shall take precedence on the court calendar over all other cases except matters to which equal or superior precedence is specifically granted by law. Times for responsive pleading and for hearing any such proceeding shall be set by the judge of the court with the object of securing a decision as to subject matters at the earliest possible time.

(5) If the proposed fine is dismissed or reduced, the state department shall take action immediately to ensure that the public records reflect in a prominent manner that the proposed fine was dismissed or reduced.

(6) In lieu of a judicial proceeding, the state department and the hospital may jointly elect to submit the matter to binding arbitration, in which case, the department shall initiate arbitration proceedings. The parties shall agree upon an arbitrator designated by the American Arbitration Association in accordance with the Association's established rules and procedures. The arbitration hearing shall be set within 45 days of the parties' joint election, but in no event less than 28 days from the date of selection of an arbitrator. The arbitration hearing may be continued up to 15 days if necessary at the arbitrator's discretion. The decision of arbitrator shall be based upon substantive law and shall be binding on all parties, subject to judicial review. This review shall be limited to whether there was substantial evidence to support the decision of the arbitrator.

(7) Proceedings by the board to impose a fine under Section 1317.6 shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 8. Section 1317.5 is added to the Health and Safety Code, to read:

1317.5. (a) All alleged violations of this article and the regulations adopted hereunder shall be investigated by the state department. The state department, with the agreement of the local EMS agency, may refer violations of this article to the local EMS agency for investigation. The investigation shall be conducted pursuant to procedures established by the state department and shall be completed no later than 60 days after the report of apparent violation is received by the state department.

(b) At the conclusion of its investigation, the state department or

the local EMS agency shall refer any alleged violation by a physician to the board of medical quality assurance unless it is determined that the complaint is without a reasonable basis.

SEC. 9. Section 1317.6 is added to the Health and Safety Code, to read:

1317.6. (a) Hospitals found by the state department to have committed or to be responsible for a violation of this article or the regulations adopted pursuant thereto shall be subject to a civil penalty by the state department in an amount not to exceed twenty-five thousand dollars ($25,000) for each hospital violation.

(b) Notwithstanding this section, the director shall refer any alleged violation by a hospital owned and operated by a health care service plan involving a plan member or enrollee to the Department of Corporations unless the director determines the complaint is without reasonable basis. The Department of Corporations shall have sole authority and responsibility to enforce this article with respect to violations involving hospitals owned and operated by health care service plans in their treatment of plan members or enrollees.

(c) Physicians found by the board to have committed, or to be responsible for, a violation of this article or the regulations adopted pursuant thereto shall be subject to any and all penalties which the board may lawfully impose and may be subject to a civil penalty by the board in an amount not to exceed five thousand dollars ($5,000) for each violation. A civil penalty imposed under this subdivision shall not duplicate federal fines, and the board shall credit any federal fine against a civil penalty imposed under this subdivision.

(d) The board may impose fines when it finds any of the following:

(1) The violation was knowing or willful.

(2) The violation was reasonably likely to result in a medical hazard.

(3) There are repeated violations.

(e) It is the intent of the Legislature that the state department has primary responsibility for regulating the conduct of hospital emergency departments and that fines imposed under this section should not be duplicated by additional fines imposed by the federal government as a result of the conduct which constituted a violation of this section. To effectuate the Legislature's intent, the Governor shall inform the Secretary of the federal Department of Health and Human Services of the enactment of this section and request the federal department to credit any penalty assessed under this section against any subsequent civil monetary penalty assessed pursuant to Section 1867 of the federal Social Security Act for the same violation.

(f) There shall be a cumulative maximum limit of thirty thousand dollars ($30,000) in fines assessed against hospitals under this article and under Section 1867 of the federal Social Security Act for the same circumstances. To effectuate this cumulative maximum limit, the state department shall do both of the following:

(1) As to state fines assessed prior to the final conclusion, including judicial review, if available, of an action against a hospital

by the federal Department of Health and Human Services under Section 1867 of the federal Social Security Act, (for the same circumstances finally deemed to have been a violation of this article or the regulations adopted hereunder, because of the state department action authorized by this article), remit and return to the hospital within 30 days after conclusion of the federal action, that portion of the state fine necessary to assure that the cumulative maximum limit is not exceeded.

(2) Immediately credit against state fines assessed after the final conclusion, including judicial review, if available, of an action against a hospital by the federal Department of Health and Human Services under Section 1867 of the federal Social Security Act, which results in a fine against a hospital (for the same circumstances finally deemed to have been a violation of this article or the regulations adopted hereunder, because of the state department action authorized by this article), the amount of the federal fine, necessary to assure the cumulative maximum limit is not exceeded.

(g) Any hospital found by the state department pursuant to procedures established by the state department to have committed a violation of this article or the regulations adopted hereunder may have its emergency medical service permit revoked or suspended by the state department.

(h) Any administrative or medical personnel who knowingly and intentionally violates any provision of this article, may be charged by the local district attorney with a misdemeanor.

(i) Notification of each violation found by the state department of the provisions of this article or the regulations adopted hereunder shall be sent by the state department to the Joint Commission for the Accreditation of Hospitals, the state emergency medical services authority, and local emergency medical services agencies.

(j) Any person who suffers personal harm and any medical facility which suffers a financial loss as a result of a violation of this article or the regulations adopted hereunder may recover, in a civil action against the transferring or receiving hospital, damages, reasonable attorney's fees, and other appropriate relief. Transferring and receiving hospitals from which inappropriate transfers of persons are made or refused in violation of this article and the regulations adopted hereunder shall be liable for the reasonable charges of the receiving or transferring hospital for providing the services and care which should have been provided. Any person potentially harmed by a violation of this article or the regulations adopted hereunder, or the local district attorney or the Attorney General, may bring a civil action against the responsible hospital or administrative or medical personnel, to enjoin the violation, and if the injunction issues, the court shall award reasonable attorney's fees. The provisions of this subdivision are in addition to other civil remedies and do not limit the availability of the other remedies.

(k) The civil remedies established by this section do not apply to violations of any requirements established by any county or county

agency.

SEC. 10. Section 1317.7 is added to the Health and Safety Code, to read:

1317.7. This article does not preempt any governmental agencies acting within their authority from regulating emergency care or patient transfers, including the imposition of more specific duties, consistent with the requirements of this article and its implementing regulations. Any inconsistent requirements imposed by the Medi-Cal program shall preempt this article with respect to Medi-Cal beneficiaries. To the extent hospitals and physicians enter into contractual relationships with counties which impose more stringent transfer requirements, those contractual agreements shall control.

SEC. 11. Section 1317.8 is added to the Health and Safety Code, to read:

1317.8. If any provision of this article is declared unlawful or unconstitutional in any judicial action, the remaining provisions of this chapter shall remain in effect.

SEC. 12. Section 1317.9 is added to the Health and Safety Code, to read:

1317.9. The state department shall adopt on an emergency basis regulations to implement the provisions of this article by July 1, 1989.

SEC. 13. Section 1317.9a is added to the Health and Safety Code, to read:

1317.9a. (a) This article shall not be construed as altering or repealing Section 2400 of the Business and Professions Code.

(b) Nothing in Sections 1317 et seq. and 1798.170 et seq. shall prevent a physician from exercising his or her professional judgment in conflict with any state or local regulation adopted pursuant to Section 1317 et seq. or 1798.170 et seq., so long as the judgment conforms with Sections 1317, 1317.1, and, except for subdivision (g), Section 1317.2, and acting in compliance with the state or local regulation would be contrary to the best interests of the patient.

SEC. 14. Chapter 2.5 (commencing with Section 1797.98a) is added to Part 1 of Division 2.5 of the Health and Safety Code, to read:

CHAPTER 2.5. THE EMERGENCY MEDICAL SERVICES FUND

1797.98a. Each county may establish an Emergency Medical Services Fund, upon adoption of a resolution by the board of supervisors. The money in the fund shall be available for the reimbursements required by this chapter. The fund shall be administered by each county, except that a county electing to have the state administer its medically indigent services program may also elect to have its Emergency Medical Services Fund administered by the state. Costs of administering the fund shall be reimbursed by the fund, up to 10 percent of the amount of the fund. The fund shall be utilized to reimburse physicians for patients who do not make payment for emergency medical services and for other emergency medical services purposes as determined by each county. Two-thirds

of the money in the fund shall be distributed to physicians for emergency services provided by all physicians, except those physicians employed by county hospitals or district hospitals, in general acute care hospitals that provide basic or comprehensive emergency services up to the time the patient is stabilized, and one-third of the fund shall be distributed for other emergency medical services purposes as determined by each county. The source of the money in the fund shall be the penalty assessment made for this purpose, as provided in Section 1465 of the Penal Code.

1797.98b. Each county establishing a fund, on January 1, 1989, and on each January 1 thereafter, shall report to the Legislature on the implementation and status of the Emergency Medical Services Fund. The report shall include, but not be limited to, all of the following:

(1) The fund balance and the amount of moneys disbursed under the program to physicians and for other emergency medical services purposes.

(2) The pattern and distribution of claims and the percentage of claims paid to those submitted.

(3) The amount of moneys available to be disbursed to physicians, the dollar amount of the total allowable claims submitted, and the percentage at which such claims were reimbursed.

(4) A statement of the policies, procedures, and regulatory action taken to implement and run the program under this chapter.

1797.98c. (a) Physicians wishing to be reimbursed shall submit their losses incurred due to patients who do not make any payment for services and for whom no responsible third party makes any payment. No physicians shall be reimbursed greater than 40 percent of those losses.

(b) If, after payment from the fund, a physician can reasonably expect payment from the patient or a responsible party, then the physician shall continue to make efforts to receive payment, notwithstanding previous payment from the fund. If, after payment from the fund, a physician is reimbursed by a patient or a responsible payor, the physician shall notify the fund and the physician's future submission of claims to the fund shall be reduced accordingly. In the event there is not a subsequent submission of a claim for reimbursement of services by the fund pursuant to this chapter by the physician within one year, the physician shall reimburse the fund in an amount equal to the amount collected from the patient or other payor, but not more than the amount of reimbursement received from the fund for care of that patient.

(c) For the purposes of this chapter, reimbursement for losses incurred due to patients for whom no payment is received shall be restricted to the following:

(1) Patients for whom the physician has inquired if there is a responsible private or public third-party source of payment.

(2) Patients for whom the physician expects to receive reimbursement for the services provided.

(3) Patients for whom the physician has billed for payment, or has billed a responsible private or public third party.

(4) Patients for whom the physician has made reasonable efforts to collect payment.

(5) Claims which have been rejected for payment by the patient and any responsible third party.

For purposes of this chapter, rejection means either of the following:

(A) Actual notification from the person, responsible third party, or governmental agency that no payment will be made for the services rendered by the provider.

(B) The passage of six months' time from the date the physician has billed the patient and made reasonable efforts to obtain reimbursement from the responsible third parties or governmental agencies, and during which time the physician has not been wholly, or in part, reimbursed for providing the services rendered.

(d) A listing of patient names shall accompany a physician's submission, and those names shall be given full confidentiality protections by the administering agency.

1797.98d. One-third of the Emergency Medical Services Fund shall be disbursed for other emergency medical services purposes as determined by each county.

1797.98e. (a) It is the intent of the Legislature that a simplified, cost-efficient system of administration of this chapter be developed so that the maximum amount of funds may be utilized to reimburse physicians and for other emergency medical services purposes. The administering agency shall establish procedures and time schedules for the submission and processing of proposed reimbursement requests submitted by physicians. The schedule shall provide for disbursement of all available money in the fund at least annually on a pro rata basis to all applicants who have submitted accurate and complete data for payment by a date to be established by the administering agency. It is anticipated that the moneys in the Emergency Medical Services Fund will be sufficient to meet only a fraction of the requests for reimbursement from physicians. In this circumstance, the administering agency shall equitably prorate payments so that the amount of payment from the fund is based upon the magnitude of the physician's losses. The administering agency may, as necessary, request records and documentation to support the amounts of reimbursement requested by physicians and the administering agency may review and audit such records for accuracy. Reimbursements requested and reimbursements made that are not supported by records may be denied to and recouped from physicians. Physicians found to submit requests for reimbursement that are inaccurate or unsupported by records may be excluded from submitting future requests for reimbursement.

(b) Each provider of health services which receives payment under this chapter shall keep and maintain records of the services rendered, the person to whom rendered, the date, and any additional

information the administering agency may, by regulation, require, for a period of three years from the date the service was provided.

(c) During normal working hours, the administering agency may make any inspection and examination of a hospital's or physician's books and records needed to carry out the provisions of this chapter. A provider who has knowingly submitted a false request for reimbursement shall be guilty of civil fraud.

SEC. 15. Section 1798 of the Health and Safety Code is amended to read:

1798. (a) The medical direction and management of an emergency medical services system shall be under the medical control of the medical director of the local EMS agency. This medical control shall be maintained in the following manner:

(1) Prospectively by written medical policies and procedures to provide standards for patient care.

(2) Immediately by direct voice communication between a certified EMT-P or EMT-II and a base hospital emergency physician or an authorized registered nurse and, in the event of temporary unavailability of voice communications, by utilization by an EMT-P or EMT-II of authorized, written orders and policies established pursuant to Section 1798.4.

(3) Retrospectively by means of medical audit of field care and continuing education.

(b) Medical control shall be within an EMS system which complies with the minimum standards adopted by the authority, and which is established and implemented by the local EMS agency.

(c) In the event a medical director of a base station questions the medical effect of a policy of a local EMS agency, the medical director of the base station shall submit a written statement to the medical director of the local EMS agency requesting a review by a panel of medical directors of other base stations. Upon receipt of the request, the medical director of a local EMS agency shall promptly convene a panel of medical directors of base stations to evaluate the written statement. The panel shall be composed of all the medical directors of the base stations in the region, except that the local EMS medical director may limit the panel to five members.

This subdivision shall remain in effect only until the authority adopts more comprehensive regulations that supersede this subdivision.

SEC. 16. Section 1798.170 of the Health and Safety Code is amended to read:

1798.170. A local EMS agency may develop triage and transfer protocols to facilitate prompt delivery of patients to appropriate designated facilities within and without its area of jurisdiction. Considerations in designating a facility shall include, but shall not be limited to, the following:

(a) A general acute care hospital's consistent ability to provide on-call physicians and services for all emergency patients regardless of ability to pay.

(b) The sufficiency of hospital procedures to ensure that all patients who come to the emergency department are examined and evaluated to determine whether or not an emergency condition exists.

(c) The hospital's compliance with local EMS protocols, guidelines, and transfer agreement requirements.

SEC. 17. Section 1798.172 of the Health and Safety Code is amended to read:

1798.172. (a) The local EMS agency shall establish guidelines and standards for completion and operation of formal transfer agreements between hospitals with varying levels of care in the area of jurisdiction of the local EMS agency consistent with the provisions of Sections 1317 to 1317.9a, inclusive, and Chapter 5 (commencing with Section 1798). Each local EMS agency shall solicit and consider public comment in drafting guidelines and standards. These guidelines shall include provision for suggested written agreements for the type of patient, initial patient care treatments, requirements of interhospital care, and associated logistics for transfer, evaluation, and monitoring of the patient.

(b) Notwithstanding the provisions of subdivision (a), and in addition to the provisions of Section 1317, a general acute care hospital licensed under Chapter 2 (commencing with Section 1250) of Division 2 shall not transfer a person for nonmedical reasons to another health facility unless that other facility receiving the person agrees in advance of the transfer to accept the transfer.

SEC. 18. Section 1798.205 is added to the Health and Safety Code, to read:

1798.205. Any alleged violations of local EMS agency transfer protocols, guidelines, or agreements shall be evaluated by the local EMS agency. If the local EMS agency has concluded that a violation has occurred, it shall take whatever corrective action it deems appropriate within its jurisdiction, including referrals to the district attorney under Sections 1798.206 and 1798.208 and shall notify the State Department of Health Services if it concludes that any violation of Sections 1317 to 1317.9a, inclusive, has occurred.

SEC. 19. Section 1798.208 of the Health and Safety Code is amended to read:

1798.208. Whenever any person who has engaged, or is about to engage, in any act or practice which constitutes, or will constitute, a violation of any provision of this division, the rules and regulations promulgated pursuant thereto, or local EMS agency mandated protocols, guidelines, or transfer agreements, the superior court in and for the county wherein the acts or practices take place or are about to take place may issue an injunction or other appropriate order restraining the conduct on application of the authority, the Attorney General, or the district attorney of the county. The proceedings under this section shall be governed by Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that no undertaking shall be required.

SEC. 20. Section 1465 is added to the Penal Code, to read:

1465. In addition to the assessments levied by Section 1464, an additional assessment of one dollar ($1) may be imposed by each county upon the adoption of a resolution by the board of supervisors. An assessment imposed by this section shall be collected and disbursed as provided in Chapter 2.5 (commencing with Section 1797.98a) of Division 2.5 of the Health and Safety Code.

SEC. 21. (a) No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

(b) The Legislature intends Section 5 of this act to be declaratory of existing law which requires certain governmental payors, including counties under Part 5 (commencing with Section 17000) of Division 9 of the Welfare and Institutions Code, to provide medical care, including emergency medical services, to certain patients unable to pay for medical services. Therefore, it is not the intent of the Legislature in enacting Section 5 of this act to mandate either a new program or higher level of service and therefore no reimbursement is required by this act for these provisions pursuant to Section 6 of Article XIII B of the California Constitution.

(c) Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 1241

An act to add Section 8016 to the Welfare and Institutions Code, relating to public guardians, and making an appropriation therefor.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987]

I am deleting the $240,000 appropriation contained in Section 2 (k) of Senate Bill 1042

This bill would appropriate $240,000 from the General Fund for allocation to four designated counties. These counties would establish an eighteen-month pilot program authorizing their office of public guardian to contract and obtain financial management services for seniors

The demands placed on budget resources require all of us to set priorities The budget enacted in July, 1987 appropriated nearly $41 billion in state funds This amount is more than adequate to provide the necessary essential services provided for by State Government It is not necessary to put additional pressure on taxpayer

funds for programs that fall beyond the priorities currently provided.

Thus, after reviewing this legislation, I have concluded that its merits do not sufficiently outweigh the need this year for funding top priority programs and continuing a prudent reserve for economic uncertainties

I would, however, consider funding the provisions of this bill during the budget process for Fiscal Year 1988–89 It is appropriate to review the relative merits of this program in comparison to all other funding projects The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit

With this deletion, I approve Senate Bill No. 1042

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that a major cause of premature institutionalization of the elderly is the inability to manage personal financial affairs, that conservatorship is a highly instrusive action to take to solve a senior's financial problems, that lower level financial services would resolve many of the problems confronted by the elderly, and that the most efficient method of delivering case-management services which addresses this problem confronted by the elderly is through the use of programs which already provide the best integrated case-management services, such as the Linkages Program and the Multipurpose Senior Services Program.

SEC. 2. Section 8016 is added to the Welfare and Institutions Code, to read:

8016. (a) The public guardian shall enter into a contract or written agreement with eligible private or public nonprofit agencies to provide those services in subdivision (c) to seniors.

(b) Eligible agencies shall only include those agencies which provide case management services to seniors. Preference shall be given to proposals from those agencies which are providing case management services to seniors under the Institutionalization Prevention Services Program, also referred to as the Linkages Program, pursuant to Sections 9390, and following, or the Multipurpose Senior Services Program.

(c) Services which may be provided to seniors pursuant to subdivision (a) include all of the following:

(1) Financial counseling for elders in need of assistance in the management of their income or referral to an appropriate agency.

(2) Assistance for elders in payment of bills, mailing checks, organizing a budget, and other fiscal administrative jobs when the elders are able to manage their own finances, but due to a disability, such as vision loss, loss of motor functioning, or mild confusion, need regular assistance.

(3) Provision of representative payee services for elders with a mental or physical disability or a drug or alcohol problem who cannot manage their money and who receive checks from any government agencies. The representative payee services shall be provided by the public guardian, and the contracting agency shall be responsible for budgeting. The public guardian shall be responsible for auditing

expenditures authorized by the contracting agency.

(4) Durable power of attorney for elders who are unable to manage their finances, who are competent when the power of attorney is created, and who agree to financial management assistance.

(5) Conservatorship services for elders who are unable to manage their finances or other aspects of daily living and who are not competent.

(d) This section is not intended to prevent either the public guardian or the contracting service agencies from exercising power of attorney or placing clients on conservatorship as appropriate.

(e) Elders who are competent shall be required to authorize, in writing, the commencement or termination of financial services under this section.

(f) Any agency contracting for the provision of services under this section and the public guardian may charge fees for those services provided by each, at a rate based on the type and amount of services provided and the ability of the elders to pay. Fees charged under this section shall not exceed the usual and customary rates charged by similar providers, and shall be limited to the costs of administering these programs.

(g) Any provider of services under this section shall only be liable for actual damages in the event of malfeasance or self-dealing.

(h) The provision of services under this section shall be an 18-month pilot program, in which any or all of the Counties of Los Angeles, Orange, San Francisco, and Yolo may, upon request for funding, participate.

(1) Counties' public guardians shall notify the Controller of their intention to participate by January 31, 1988.

(2) The Controller shall notify each interested county's public guardian of the amount available for allocation to the county according to the formula in subdivision (k) by March 1, 1988.

(3) Public guardians in participating counties shall issue requests for proposals by April 1, 1988.

(i) Not less than 85 percent of the funds appropriated for the pilot program shall be used for the purposes of the program, and not more than 15 percent of the funds appropriated may be used for administrative costs incurred by the public administrator in the pilot program.

(j) As part of the administrative function, the public guardian in each participating county shall, by May 1, 1989, submit a report to the Legislative Analyst's office, which shall include, but not be limited to, the following data:

(1) The total number of seniors served by the program.

(2) The number of seniors served at each level of service described in subdivision (c).

(3) The number of seniors which reasonably have been diverted from conservatorship or institutionalization due to their participation in the program.

(4) Total amount of money raised for the program through the use of fees charged, and the degree to which use of fees assisted in furtherance of the program.

(k) The sum of two hundred forty thousand dollars ($240,000) is appropriated for the duration of the pilot program, without regard to fiscal years, from the General Fund to the Controller, for allocation to eligible counties requesting funding for commencement of the program established pursuant to this act. The funds shall be allocated in the following manner:

(1) The Controller shall allot to each participating county a base amount of thirty thousand dollars ($30,000).

(2) The Controller shall divide the remainder of the two hundred forty thousand dollars ($240,000) as follows:

(A) The Controller shall add together the total number of persons placed on probate conservatorship in each participating county.

(B) The Controller shall add to each county's base amount an amount equal to the percentage that each county's number of persons on conservatorship is to the total number of conservatorships among the participating counties.

(C) No single county's allotment under the formula for this section shall exceed ninety thousand dollars ($90,000). If any county's total allotment exceeds ninety thousand dollars ($90,000), the amount over ninety thousand dollars ($90,000) shall be apportioned to the remaining participating counties based on the percentage that each of the remaining county's number of persons on conservatorship is to the total number of conservatorships among those remaining counties.

CHAPTER 1242

An act to add Section 42925.1 to the Education Code, relating to foster care children, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987]

I am deleting the $100,000 appropriation contained in Section 3 of Senate Bill 1360

This bill appropriates $100,000 from the Foster Children and Parent Training Fund to the Legislative Analyst to contract for a comparative study to evaluate the effectiveness of foster youth services programs offered in four school districts. If the programs are found to be cost effective, moneys are to be made available from the Foster Children and Parent Training Fund to expand the programs to other districts beginning in the 1989–90 fiscal year.

The demands placed on budget resources require all of us to set priorities The budget enacted in July, 1987 appropriated nearly $41 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

I would, however, consider funding the provisions of this bill during the budget process for Fiscal Year 1988–89. It is appropriate to review the relative merits of this program in comparison to all other funding projects. The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit.

With this deletion, I approve Senate Bill No. 1360

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 42925.1 is added to the Education Code, to read:

42925.1. (a) In order to provide the Legislature and Governor with an independent assessment of the cost effectiveness of foster youth services programs offered in school districts, the Legislative Analyst shall contract for a study to compare and evaluate these programs.

(b) The study shall utilize data regarding foster children, to the extent that it is available, from districts with foster youth programs and comparable districts without foster youth programs. The data shall include, but need not be limited to, information on the following:

(1) Academic achievements.

(2) School attendance.

(3) Length and stability of foster care placements while in the program.

(4) Number of credits earned.

(5) Employment at or subsequent to emancipation.

(c) The study shall focus primarily on students receiving foster youth services for a minimum of three months and shall estimate, to the extent possible, the long-term cost-avoidance to the state that is associated with providing services to these pupils.

The request for proposals to conduct this study shall be developed in consultation with representatives of the foster youth services programs. The State Department of Education, the State Department of Social Services, and the Department of the Youth Authority shall provide the Legislative Analyst or his or her contractor any existing data requested in order to conduct the study.

(d) The study shall also examine the extent to which district attorneys throughout the state secure court orders and resultant collections for child support of foster children.

(e) The Legislative Analyst shall submit a report to the Legislature detailing the results of the study no later than April 15, 1989.

(f) If the report submitted by the Legislative Analyst makes a finding that school district foster children services programs are program effective and provide potential cost savings, the Legislature approves the finding by statute, and the applicable state administrators approve the finding in writing and transmit their approval to the Legislature, in accordance with the legislative finding and declaration of subdivision (b) of Section 42920, the

expansion of the school programs shall be a state priority.

SEC. 2. It is the intent of the Legislature that, in order to minimize duplication, the study shall utilize, to the extent feasible, data collected pursuant to Provision 3 of Item 6100-119-001 of Section 2 of the 1986 Budget Act. The Legislature hereby finds and declares that it did not intend by enacting Provision 3 of Item 6100-119-001 of Section 2 of the 1986 Budget Act to require a comparative study of school districts offering foster youth services.

SEC. 3. The sum of one hundred thousand dollars ($100,000) is hereby appropriated to the Legislative Analyst from the collections deposited in the Foster Children and Parent Training Fund pursuant to subdivision (b) of Section 903.7 of the Welfare and Institutions Code, for the purpose of the study specified in Section 42925.1 of the Education Code. The appropriation shall be made prior to all other allocations authorized by Section 903.7 of the Welfare and Institutions Code and shall not be made from moneys other than those which have been transferred to the Foster Children and Parent Training Fund for foster parent training from collections pursuant to subdivision (b) of Section 903.7 of the Welfare and Institutions Code. If the sum of one hundred thousand dollars ($100,000) or any portion thereof is not available in the Foster Children and Parent Training Fund, that sum, or an amount necessary to bring the total appropriation under this act to one hundred thousand dollars ($100,000), is hereby appropriated from the General Fund.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide the Legislature and the Governor with the cost effectiveness of foster youth services in schools, at the earliest possible time, it is essential that this act take effect immediately.

CHAPTER 1243

An act to amend Sections 2813 and 2814 of the Public Resources Code, relating to seismic safety, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987.]

I am deleting the $200,000 appropriation contained in Section 3 of Senate Bill No 1410

This bill would appropriate $200,000 to the Office of Emergency Services (OES) for furthering comprehensive earthquake preparedness in San Diego and Imperial Counties

The demands placed on budget resources require all of us to set priorities The budget enacted in July, 1987 appropriated nearly $41 billion in state funds This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided

It is appropriate to review the relative merits of this program in comparison to all other funding projects The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit

With this deletion, I approve Senate Bill No. 1410.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 2813 of the Public Resources Code is amended to read:

2813. The Southern California Earthquake Preparedness Project and the Bay Area Regional Earthquake Preparedness Project shall continue to June 30, 1990, in order to further comprehensive earthquake preparedness planning in southern and northern California and to help achieve a significant reduction of earthquake hazards by January 1, 2000. The Southern California Earthquake Preparedness Project area shall include the Counties of San Diego and Imperial.

SEC. 2. Section 2814 of the Public Resources Code is amended to read:

2814. The earthquake preparedness activities established under this chapter shall be carried out by the office. The commission and office shall work together and use appropriate scientific information and recommendations provided by the division. Other arrangements to coordinate the activities established by this chapter shall be made, through mutual agreement, by the commission and the office. A local advisory board shall be established to provide advice and guidance on project activities in the Counties of San Diego and Imperial.

SEC. 3. The sum of two hundred thousand dollars ($200,000) is hereby appropriated from the General Fund for the 1987–1988 fiscal year to the Office of Emergency Services for support and operational expenses to further comprehensive earthquake preparedness in the Counties of San Diego and Imperial.

It is the intent of the Legislature that the office receive an equivalent level of financial support to support earthquake preparedness in the Counties of San Diego and Imperial in the 1988–89 and 1989–90 fiscal years. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that this act may become operative near the beginning of the 1987–88 fiscal year, and so facilitate the orderly administration of the act, it is necessary that this act take effect immediately.

CHAPTER 1244

An act to add and repeal Section 26501.5 of the Health and Safety Code, relating to food, and making an appropriation therefor.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987.]

I am deleting the $150,000 appropriation contained in Section 2 of Assembly Bill 78

This bill would require the Department of Health Services to conduct a survey of imported foods to determine the extent to which they contain contaminants of health concern.

The demands placed on budget resources require all of us to set priorities The budget enacted in July, 1987 appropriated nearly $41 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided

It is appropriate to review the relative merits of this program in comparison to all other funding projects. The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit.

With this deletion, I approve Assembly Bill No 78

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 26501.5 is added to the Health and Safety Code, to read:

26501.5. The director shall conduct a survey of imported foods destined for California consumers to determine the extent that the foods bear or contain contaminants of health concern. In conducting this survey the director shall do all of the following:

(a) Identify imported food commodities which are most likely to bear or contain contaminants of health concern.

(b) Analyze at least 3,000 samples of imported food commodities over a three-year period for the presence of contaminants of health concern including, but not limited to, microbes, heavy metals, pesticides, food additives, color additives, filth, natural toxicants such as aflatoxins, solvents, and industrial chemicals.

(c) Coordinate the survey with the imported food monitoring program of the United States Food and Drug Administration so that the survey compliments and does not duplicate the federal program.

(d) Take appropriate corrective and enforcement actions when violative products are found.

A final report, which shall consist of the results of this survey, together with recommendations concerning the need for this type of monitoring on a continuing basis, shall be submitted to the Legislature by March 1, 1991. Annual reports describing the survey's findings from the previous year shall be submitted to the Legislature on or before March 1, beginning in 1989.

"Imported food," as used in this section, means food that is

processed or manufactured in a foreign country and imported into the United States.

This section shall become inoperative on April 1, 1991, and, as of January 1, 1992, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1992, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 2. The sum of one hundred fifty thousand dollars ($150,000) is hereby appropriated from the General Fund to the State Department of Health Services for the period January 1, 1988, through June 30, 1988, for the purposes of Section 26501.5 of the Health and Safety Code. Any funds required subsequently for the purposes of Section 26501.5 of the Health and Safety Code shall be appropriated in the annual Budget Act.

CHAPTER 1245

An act to add Chapter 2 (commencing with Section 99100) to Part 65 of Title 3 of the Education Code, relating to postsecondary education, and making an appropriation therefor.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

I am deleting the $240,000 appropriation contained in proposed Education Code Section 99106 contained in Assembly Bill No 1820

This bill would create the Human Corps within the University of California and the California State University, and would encourage students to participate in the Human Corps by providing an average of 30 hours of community service in each academic year.

Both the University of California and the California State University have ongoing student volunteer community service activities The administrative structure is in place to accommodate activities proposed by this bill. No additional funds are required.

With this deletion, I approve Assembly Bill No 1820

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Chapter 2 (commencing with Section 99100) is added to Part 65 of Title 3 of the Education Code, to read:

CHAPTER 2. HUMAN CORPS

99100. (a) The Legislature finds and declares all of the following:

(1) California students have a long and rich tradition of participation in community service which should be recognized, commended, and expanded.

(2) There is a growing national consensus that student participation in community services enhances the undergraduate experience.

(3) Student community service is an activity of extreme

importance to the mission of the university and deserves to be conducted both for academic credit and otherwise.

(4) The state's postsecondary educational institutions are charged to maintain a tradition of public service as well as teaching and research.

(5) Access to the privilege of attending the university is made possible for many by our state's tradition of keeping fees and tuition low.

(6) Practical learning experiences in the real world are valuable for the development of a student's sense of self, skills, and education.

(7) Our state faces enormous unmet human needs and social challenges including undereducated children, increasing illiteracy and teenage parenting, environmental contamination, homelessness, school dropouts, and growing needs for elder care.

(8) The state's ability to face these challenges requires policymakers to find creative and cost-effective solutions including increased efforts for community and student public service.

(9) The Legislature and the State of California provide substantial incentives and subsidies for its citizens to attend the state's postsecondary education institutions, public and private, which are among the finest in the world.

(10) Current volunteer efforts conducted by community organizations reach only a fraction of the need. The need for public service is great because private, state, and federal funding are insufficient to pay for all the social services needed.

(11) Existing community service efforts have successfully demonstrated that participation in public service is of mutual benefit to participating students and the recipients of their services.

(b) It is the intent of the Legislature in enacting this article to do all of the following:

(1) Complete the college experience by providing students an opportunity to develop themselves and their skills in real-world learning experiences.

(2) To help nurture a sense of human community and social responsibility in our college students.

(3) Invite the fullest possible cooperation between postsecondary education institutions, schools, public, private, and nonprofit agencies, and philanthropies to plan, fund, and implement expanded opportunities for student participation in community life through public service in organized programs.

(4) To substantially increase college student participation in community services by June 30, 1993, with the ultimate goal of 100 percent participation.

99101. There is hereby created a program known as The Human Corps within the University of California and the California State University. The California Community Colleges, proprietary schools, and member institutions of the Association of Independent California Colleges and Universities are strongly encouraged to implement Human Corps programs. The purpose of the corps is to

provide every student an ongoing opportunity throughout his or her college career to participate in a community service activity. Toward this goal, beginning in the fall term in 1988, full-time students, including both undergraduate and graduate students, entering the University of California, the California State University, or an institution that is a member of the Association of Independent California Colleges and Universities to pursue a degree shall be strongly encouraged and expected, although not required, to participate in the Human Corps by providing an average of 30 hours of community service in each academic year. The segments shall determine how to encourage and monitor student participation. The segments are strongly encouraged to develop flexible programs that permit the widest possible student involvement, including participation by part-time students and others for whom participation may be difficult due to financial, academic, personal, or other considerations.

99102. For the purposes of this article, community service shall be defined as work or service performed by students either voluntarily or for some form of compensation or academic credit through nonprofit, governmental, and community-based organizations, schools, or college campuses. In general, the work or service should be designed to provide direct experience with people or project planning, and should have the goal of improving the quality of life for the community. Eligible activities may include, but are not limited to, tutoring, literacy training, neighborhood improvement, increasing environmental safety, assisting the elderly or disabled, and providing mental health care, particularly for disadvantaged or low-income residents.

In developing community service programs, campuses shall emphasize efforts which can most effectively use the skills of students such as tutoring programs or literacy programs.

99103. There are hereby created Human Corps task forces in each segment, which shall be established on each campus by March 1, 1988. Community colleges and member institutions of the Association of Independent California Colleges and Universities are strongly encouraged to establish task forces for the purposes set forth in this section. Each task force shall be composed of students, faculty, and campus administration. Each task force also shall include community representatives from groups such as schools, local businesses and government, nonprofit associations, social service agencies, and philanthropies. Each task force shall reflect the ethnic and racial diversity of the institution and the surrounding community. The purpose of the task forces is to strengthen and coordinate existing oncampus and external community service opportunities, expand and make new service opportunities available, promote the Human Corps to make students, community groups, faculty, employment recruiters, and administrators aware of the service expectation, and develop rules and guidelines for the program.

In conducting their charges, campus task forces should develop an implementation strategy which includes but is not limited to, the following, by July 1, 1988:

(a) A survey of the existing level of student participation including number of students, amount of time allocated, sources, and amounts of funds for activities and types of agencies participating.

(b) A plan to substantially expand student participation in community service by June 30, 1993.

(c) Criteria for determining what activities reasonably qualify as community service.

(d) Criteria to determine which community agency and campus programs have the training, management, and fiscal resources, and a track record or potential for success in addressing social needs and can reasonably use additional student assistance to administer their programs.

(e) A statement regarding the institution's commitment to community service to be included in application and orientation materials to communicate the expectation for student participation in community service.

(f) A statement that each campus has examined, in close consultation with the faculty, how student community service may be implemented to complement the academic program, including a determination of whether and how Human Corps programs may be offered for academic credit.

(g) A budget which identifies the staff and funding resources needed on each campus to implement this Human Corps.

99104. It is the intent of the Legislature that segments maximize the use of existing resources to implement the Human Corps. This responsibility includes seeking the resources of the private and independent sectors, philanthropies, and the federal government to supplement state support for Human Corps programs. The Legislature intends that the funds appropriated for purposes of this chapter to the Regents of the University of California and the Trustees of the California State University be used to offset some of the costs of developing the Human Corps. The segmental and campus Human Corps Task Forces shall jointly determine how those funds are used. It is the further intent of the Legislature that funds be allocated competitively for programs and not on a pro rata basis for each campus. Preference in funding should be given to strengthen and expand exemplary efforts to implement the Human Corps and to stimulate new efforts on campuses where the establishment of student community service programs has been limited.

Campuses may develop numerous approaches to implement the Human Corps on each campus. Activities eligible for funding may include a wide variety of incentives for student participation such as:

(a) Recognition programs.

(b) Fellowships.

(c) Awareness programs.

(d) Periodic conferences for students and community organizations.

(e) Transportation costs.

(f) Matching grants.

(g) Intersegmental programs.

99105. The California Postsecondary Education Commission annually, by March 31, shall conduct reports on the progress that the University of California and the California State University are making to substantially increase student participation in the Human Corps. By March 31, 1994, the commission shall conduct a comprehensive evaluation which shall include, but not be limited to, the following:

(a) The number of students who completed participation in the Human Corps by academic area (humanities, social services) and academic level (freshman, sophomore, etc.).

(b) The number of students who volunteered, or received pay or academic credit for service.

(c) An inventory of the types of community agencies which participated and the types of opportunities they provided.

(d) An inventory of the types of incentives for student participation offered by campuses including awards, grants, and training.

(e) The number of courses related to Human Corps programs.

(f) The number of staff and sources of funding provided to the Human Corps on each campus.

(g) A survey of participating agencies to determine whether the addition of student resources enhanced their program.

(h) The number of community colleges which participated in the Human Corps.

(i) Recommendations for continuation of the Human Corps including a recommendation whether a mandatory program should be established to the extent that community service programs failed to produce a substantial increase in student participation in the Human Corps. It is the intent of the Legislature to provide funding for the evaluation.

(j) The commission shall convene a meeting of representatives from the University of California and the California State University to determine the appropriate data requirements for the progress reports and the comprehensive evaluation. All progress reports and the comprehensive evaluation shall be submitted to the appropriate fiscal and policy committees of the Legislature.

99106. The sum of seventy thousand dollars ($70,000) is hereby appropriated from the General Fund to the Regents of the University of California and one hundred seventy thousand dollars ($170,000) to the Trustees of the California State University for the purposes of this chapter in the 1987–88 fiscal year. Future funding shall be contingent upon Budget Act appropriations. No provision of this article shall apply to the University of California unless the Regents of the University of California, by resolution, make that provision applicable.

CHAPTER 1246

An act to amend Sections 17717.5 and 42250.1 of, to add Section 17788.3 to, and to add Chapter 2.5 (commencing with Section 37300) to Part 22 of, the Education Code, relating to schools, and making an appropriation therefor.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) A year-round educational program, known as the Orchard Plan, appears to have been successful in expanding school capacity without new construction, while reducing overall costs of teacher benefits without reducing the level of those benefits, raising teacher salaries commensurate with extra days of work, and reducing the number of new teachers required by a participating school.

(b) A year-round educational program either may provide extra days of instruction for pupils with greater educational needs or reduce average class size.

(c) It is in the interests of this state to establish a demonstration project that will determine whether the Orchard Plan is an effective approach for meeting the needs of public schools in this state and, if so, to provide a blueprint for implementation of the program in California.

(d) It is the intent of the Legislature that schools participating in the Orchard Plan shall receive three payments of sixty thousand dollars ($60,000) each, commencing with the approval of their application to meet the expenses for designing and planning the program, and for two years of operation thereafter. It is further the intent of the Legislature that the State Department of Education shall receive funds adequate to monitor and provide technical assistance to schools participating in the Orchard Plan.

SEC. 2. Section 17717.5 of the Education Code is amended to read:

17717.5. (a) The board may approve, in whole or in part, an application submitted by a school district under Section 17717 or 17720 in an amount not exceeding the amount applied for as the board may deem appropriate.

(b) The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make additional approvals not exceeding in the aggregate the total amount determined by the board under subdivision (a) for the portion or portions of the project for which the board determines the district

is ready to proceed.

(c) Whenever a district files an application, the board shall require the district to submit a five-year plan for construction and rehabilitation of school facilities. The plan shall include, but not be limited to, facility need, type, and grade level, and a description of the district's compliance with Section 17722. The plan may be adjusted to reflect adjusted growth targets.

(d) The board shall not approve any application under this chapter after January 1, 1990, unless accompanied by a study examining the feasibility of implementing in the district a year-round multitrack educational program that is designed to increase pupil capacity in the district or in overcrowded high school attendance areas by at least 20 percent.

(e) Commencing July 1, 1989, first priority for the approval of project funding for new construction under this chapter shall be accorded to applicant districts that demonstrate to the board either of the following:

(1) At least 10 percent of district pupils or 20 percent of pupils in the high school attendance area for which the district is applying for new facilities, in kindergarten or any of the grades 1 to 6, inclusive, are enrolled, or will be enrolled no later than July 1, 1990, in year-round multitrack educational programs. However, if 10 percent of the district's population in kindergarten and grades 1 to 6, inclusive, represents less than one school, then at least one school shall be on a year-round multitrack educational program.

(2) At least 30 percent of district pupils in kindergarten or any of the grades 1 to 6, inclusive, or 40 percent of pupils in the high school attendance area for which the school district is applying for new facilities are enrolled, or will be enrolled no later than July 1, 1992, in year-round multitrack educational programs.

(f) The board may waive subdivision (d) or (e), or both, if a school district demonstrates that these requirements will result in a particular educational or financial hardship to the district. Further, the board shall waive subdivision (d), if it finds that there is clear hardship to a district due to declining enrollment or no growth.

SEC. 3. Section 17788.3 is added to the Education Code, to read:

17788.3. (a) No school district shall qualify for the lease under this chapter, after January 1, 1990, of one or more portable classrooms except upon submitting a study examining the feasibility of implementing in the district a year-round multitrack educational program that is designed to increase pupil capacity in the district by at least 20 percent.

(b) Emergency or urgency conditions within a school district shall constitute grounds for approval by the State Allocation Board, pending submission of the report.

(c) Subdivision (a) shall not apply to facilities which are designated as uninhabitable after July 1, 1989, due to fire or other health or safety conditions.

SEC. 4. Chapter 2.5 (commencing with Section 37300) is added

to Part 22 of the Education Code, to read:

CHAPTER 2.5. YEAR-ROUND SCHOOL DEMONSTRATION PROJECT

37300. No later than March 30, 1988, the Superintendent of Public Instruction shall distribute to each elementary and unified school district in this state an application form for participation in the year-round school demonstration project provided for under this chapter, together with relevant information regarding the program.

37301. No later than July 1, 1988, any elementary or unified school district may submit an application to the Superintendent of Public Instruction for participation, on the part of any one elementary school in the district, in the program set forth in this chapter pursuant to the following conditions:

(a) The school district demonstrates that, as of September 1, 1988, its projected pupil enrollment for that school will exceed the pupil capacity of that school, as determined by that district, by at least 10 percent.

(b) The school district demonstrates its ability to comply with the program requirements set forth in this chapter.

(c) The application has been approved by the local collective bargaining units representing certified and classified district employees and by the school site council, if any, established pursuant to Section 52012 or 52852.

37302. Any school district selected for participation in the program set forth in this chapter shall design, implement, and evaluate a program for the participating school in the district, with technical assistance from the State Department of Education if requested by the district, which program shall include, but not necessarily be limited to, all of the following:

(a) An 11-month school calendar for five tracks of pupils, under which the school is closed for one month for purposes of maintenance and staff vacations. Pupils in each track shall attend the school for at least three 12-week academic terms during the school year. Each teacher shall be assigned a single classroom and a single class of pupils. Each class shall be composed of pupils from all five tracks and from all academic ability levels and socioeconomic backgrounds found in the school.

(b) The teaching contract for each permanent full-time teacher at the school shall provide for an 11-month teaching year, the one-month vacation described in subdivision (a), a common winter holiday of approximately two weeks, and a common spring holiday of approximately one week.

(c) One of the following:

(1) In addition to the instruction provided in the school year described in subdivision (a), not less than 50 hours of instruction during the interim sessions occurring between the 12-week academic terms, to be provided to each pupil who is eligible to participate in categorical education programs designed to meet the

special needs of children whose educational needs are not fully met in the regular educational program. This instruction may be funded by categorical education program funds or any other funding available to the district for this purpose. This option shall be available only to those schools in which more than 20 percent of the pupils qualify for funds from any of the following statutory programs: the Miller-Unruh Basic Reading Act of 1965; Economic Impact Aid, other than the bilingual education element; and any other compensatory education program approved for this purpose by the Superintendent of Public Instruction.

(2) Class size reduction, in all classes conducted in the 12-week academic terms, of at least three pupils per class, with a total average class size not to exceed 29 pupils.

(d) The school year-round program, as set forth in this chapter, shall commence operation on or before September 1, 1989, inclusive, and shall be continued by the district for a period of not less than four years from the date operation of the program commenced. The failure by any school district to comply with this subdivision shall result in the termination of funding to that district under this chapter, and the requirement that the district repay to the Superintendent of Public Instruction all moneys allocated to the district under this chapter, which repayment obligation may be enforced by the superintendent by the retention of funds from the annual apportionment to the district calculated under Section 42238, in an amount not to exceed sixty thousand dollars ($60,000) in any fiscal year.

37303. The Superintendent of Public Instruction shall do all of the following:

(a) No later than August 1, 1988, select five elementary schools for participation in the program set forth under this chapter, from five different elementary or unified school districts submitting applications pursuant to Section 37301. At least two of the five participating elementary schools shall operate pursuant to paragraph (1) of subdivision (c) of Section 37302. The superintendent shall consult with individuals familiar with the operation of the plan pursuant to Section 37302 as appropriate in the administration of this chapter.

(b) Upon the selection of any school for participation in the program, allocate the sum of sixty thousand dollars ($60,000) from funds specifically appropriated for this purpose to that school district for the costs of designing and planning the program to be operated by that school under this chapter.

(c) Upon the commencement of program operation by a participating school, allocate the sum of sixty thousand dollars ($60,000) from funds specifically appropriated for this purpose to that school district for the costs of program operation. The superintendent shall allocate an additional sum of sixty thousand dollars ($60,000) to the school district for program operation purposes upon the commencement of the second year of program

operation by that school.

37304. (a) Each school district having a school participating in the program set forth in this chapter shall report to the Superintendent of Public Instruction the following data for that school for the 1987–88 fiscal year and for each fiscal year of program operation thereafter:

(1) The number of pupils served.

(2) Annual teacher salary information.

(3) Annual teacher benefits costs per pupil, compared to districtwide teacher benefits costs per pupil.

(4) Class size, compared to comparable schools in that district operating under a traditional school calendar.

(5) Pupil and teacher absentee rates, compared to comparable schools in that district operating under a traditional school calendar.

(6) Current expenses of education, compared to comparable schools in that district operating under a traditional school calendar.

(7) A description of interim session instruction, where offered, and identification of the source and amount of funding used for that purpose.

(8) Pupil achievement scores for pupils receiving interim session instruction pursuant to this chapter, compared to pupil achievement scores for pupils in comparable schools in that district operating under a traditional school calendar who also qualify for the funding sources described in paragraph (1) of subdivision (c) of Section 37302.

(9) Pupil achievement scores for all pupils, compared to pupil achievement scores for all pupils in comparable schools in that district operating under a traditional school calendar.

(10) Data on parent, teacher, and community satisfaction with the program, including identification of the number of teachers choosing to leave the program.

(b) For any school district in which there is no school operating under a traditional school calendar that is comparable, with regard to pupil demographics, to the school participating under the program, the district shall seek to make the comparisons required under subdivision (a) to comparable schools operating on a traditional school calendar in neighboring school districts.

(c) No later than December 1, 1990, each school district having a school participating in the program shall submit to the Superintendent of Public Instruction a guide for use by other school districts in this state in implementing a year-round school program, based upon the information described in subdivision (a), to the extent available, and on any other information deemed by the district to be useful for this purpose.

37305. Any program operated under this chapter shall be deemed to be successful to the extent that, after two years of operation, the participating school has achieved the following objectives:

(a) Pupil enrollment is increased by at least 18 percent, or, in "low

growth" schools, by at least 10 percent.

(b) Annual teacher salary for those teachers working on an 11-month contract is increased by at least 20 percent over the annual teacher salary for those teachers working the traditional school year.

(c) An annual savings of at least 8 percent in teacher benefits costs.

(d) In "low growth" schools, average class size is reduced by at least three pupils.

(e) Excluding program startup costs and year-round incentive payments, operating costs of the program do not exceed operating costs of the school under a traditional school calendar.

(f) Pupils receiving interim session instruction pursuant to this chapter show greater improvement in academic performance than pupils in comparable schools in that district operating under a traditional school calendar who also qualify for the funding sources described in paragraph (1) of subdivision (c) of Section 37302.

(g) Average pupil achievement scores for all pupils equal or exceed the average pupil achievement scores for all pupils in that school for each of the three school years preceding the operation of the program set forth in this chapter.

(h) At least 60 percent of parents and teachers express support for the program.

(i) Pupil and teacher absentee rates do not exceed those rates for the school as determined for the 1987–88 school year.

(j) At least 70 percent of the eligible pupils, as specified in paragraph (1) of subdivision (c) of Section 37302, attend the interim session classes.

37306. If, according to the evaluation criteria set forth in Section 37305, the program at a participating school is deemed unsuccessful after submission of data for the year 1990, the school district in which the school is located may request termination of project participation, contingent upon the approval of the Superintendent of Public Instruction.

37307. Notwithstanding any provision of Section 42250.3, any school district having a school participating pursuant to paragraph (1) of subdivision (c) of Section 37302 in the program set forth in this chapter shall be entitled to the greater of seventy-five dollars ($75) per pupil or the amount the school district would otherwise qualify for in year-round incentive payments authorized under that section for each pupil in the participating school for each year of program operation under this chapter.

SEC. 5. Section 42250.1 of the Education Code is amended to read:

42250.1. (a) From funds appropriated by the Legislature for this purpose for any fiscal year, the board shall allocate to school districts selected by the board pursuant to this section, funding for the expenses of air-conditioning equipment and insulation materials, and for the costs of installing the equipment and materials, for schools operating on a year-round or continuous basis pursuant to Chapter

3 (commencing with Section 37400), Chapter 4 (commencing with Section 37500), or Chapter 5 (commencing with Section 37600) of Part 22.

(b) The State Allocation Board shall allocate the funds appropriated under subdivision (a) only to those school districts in which a high percentage of the pupils, or a significant number of the pupils, are enrolled in year-round or continuous schools as described in subdivision (a). The board shall grant preference in the allocation of those funds to those year-round or continuous schools that are both situated in climates that require air-conditioning and insulation during June, July, and August, and have a high percentage of overcrowding of pupils. In addition, all schools participating in the demonstration program provided pursuant to Chapter 2.5 (commencing with Section 37300) of Part 22 and satisfying the criteria set forth in this subdivision shall be eligible to receive, and given priority for, the maximum allocation of funds under this section.

SEC. 6. Neither Section 2 nor Section 3 of this act shall be construed to require that any school district adopt, or review for adoption, the Orchard Plan or any other particular year-round educational program.

SEC. 7. The sum of twenty thousand dollars ($20,000) is appropriated from the General Fund to the Superintendent of Public Instruction for administrative costs incurred pursuant to Chapter 2.5 (commencing with Section 37300) of Part 22 of the Education Code, including, but not limited to, costs incurred by the State Department of Education for technical assistance rendered pursuant to Section 37302 of the Education Code.

CHAPTER 1247

An act to add Section 1191.3 to the Penal Code, relating to sentencing.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Davis-Areias Truth in Sentencing Act.

SEC. 2. (a) The Legislature hereby finds and declares that it is essential to the fair and impartial administration of justice to inform the victim or victims of a criminal offense that a defendant sentenced to a period of incarceration in a county jail or in the state prison may be eligible, pursuant to current provisions of law, for presentence custody credits and conduct and worktime credits.

(b) The Legislature further finds that victims of crimes and the

public are unaware that the term of sentence imposed is rarely the term of sentence actually served by the defendant.

SEC. 3. Section 1191.3 is added to the Penal Code, to read:

1191.3. (a) At the time of sentencing or pronouncement of judgment in which sentencing is imposed, the court shall make an oral statement that statutory law permits the award of conduct and worktime credits up to one-third or one-half of the sentence that is imposed by the court, that the award and calculation of credits is determined by the sheriff in cases involving imprisonment in county jails and by the Department of Corrections in cases involving imprisonment in the state prison, and that credit for presentence incarceration served by the defendant is calculated by the probation department under current state law.

As used in this section, "victim" means the victim of the offense, the victim's parent or guardian if the victim is a minor, or the victim's next of kin.

(b) The probation officer shall provide a general estimate of the credits to which the defendant may be entitled for previous time served, and conduct or worktime credits authorized under Sections 2931, 2933, or 4019, and shall inform the victim pursuant to Section 1191.1. The probation officer shall file this estimate with the court and it shall become a part of the court record.

(c) This section applies to all felony convictions.

SEC. 4. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

CHAPTER 1248

An act relating to public social services, and making an appropriation therefor.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature that the State Department of Health Services review costs incurred by providers who had been approved by the California Medical Assistance Commission for participation in the Expanded Choice Pilot Project and provide fair reimbursement for those expenditures which the providers will not be able to offset or amortize with revenue from other operations. The reimbursement provided shall be limited to

the amount appropriated by this act. This provision does not indicate that the Legislature acknowledges any legal obligation to reimburse providers.

SEC. 2. The sum of one million dollars ($1,000,000) is hereby appropriated from the General Fund to the State Department of Health Services to implement this act.

CHAPTER 1249

An act relating to school facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the Central School District in San Bernardino County entered into an agreement on October 10, 1984, with a developer of property within the district, which agreement, as last amended January 15, 1986, contained the following terms and conditions:

(a) The developer is required to make available to the school district certain interim school facilities for kindergarten and grades 1 to 6, inclusive, and to pay to the school district a sum of money for the district's cost of providing interim school facilities for grades 7 and 8.

(b) Title to the interim school facilities made available for kindergarten and grades 1 to 6, inclusive, is retained by the developer, as is title to the land on which those facilities are located. At such time as the school district has available to it for occupancy permanent school facilities funded pursuant to Chapter 22 (commencing with Section 17700) of Part 10 of the Education Code, possession of the interim school facilities is to be returned to the developer, such that the facilities would not be available for continued occupancy, lease, or purchase by the school district.

(c) As a condition to the benefits conferred by the developer, as described in subdivision (a), the school district may not impose upon the developer's project any other fee or requirement.

SEC. 2. Under any application for project funding filed by the Central School District on or after January 1, 1987, pursuant to Chapter 22 (commencing with Section 17700) of Part 10 of the Education Code, the amount of the district's matching share under that chapter, notwithstanding Section 17705.5 of the Education Code, shall be, as to any construction occurring under the development project referenced under the agreement described in Section 1, the amount of the sums of money to which the district is entitled under that agreement, during the period designated by Section 17705.5 of

the Education Code for calculation of the district matching share, for the district's cost of providing interim school facilities for grades 7 and 8.

SEC. 3. All construction under the development project referenced under the agreement described in Section 1 shall be exempt from any fee or other requirement imposed on or after January 1, 1987, for the construction or reconstruction of school facilities pursuant to Section 53080 of the Government Code or Chapter 4.7 (commencing with Section 65970) of Division 1 of Title 7 of the Government Code, or both, other than as required under that agreement, with the exception of the fee or other requirement imposed by the Chaffey Joint Union High School District of San Bernardino County which that district is customarily collecting in connection with any other development projects within the Central School District.

SEC. 4. The area of the interim school facilities made available to the Central School District under the agreement described in Section 1 shall not be included within any calculation of adequate school construction existing in that district for any purpose under Chapter 22 (commencing with Section 17700) of Part 10 of the Education Code.

SEC. 5. Due to the unique circumstances specified in Section 1 of this act concerning the Central School District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the Central School District shall be able to apply and receive funds for needed school buildings, it is necessary that this act take effect immediately.

CHAPTER 1250

An act to add Section 35722 to the Vehicle Code, relating to vehicles.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 35722 is added to the Vehicle Code, to read:

35722. Prior to the execution of freeway agreements for State Highway Route 85 in Santa Clara County, with the concurrence of each city within the highway corridor, the Board of Supervisors of

the County of Santa Clara may, after a public hearing, adopt a proposed ordinance imposing a maximum gross truck weight limit of 9,000 pounds on Route 85 from State Highway Route 280 in Cupertino south and east to State Highway Route 101 in San Jose, and submit the proposed ordinance to the Department of Transportation for approval.

Upon approval of the proposed ordinance by the department, this weight limit shall be stipulated in the applicable freeway agreements with the local entities in the Route 85 corridor.

If the proposed ordinance is approved by the department, the weight limit shall become effective upon opening of any portion of the new Route 85 freeway corridor as defined in this section, and the department shall post appropriate signs, similar to the signs on State Highway Route 580 in Oakland. Except as otherwise provided in this section, this article shall be applicable to an ordinance adopted pursuant to this section.

CHAPTER 1251

An act to add Sections 1336.2, 1336.3, and 1336.4 to the Health and Safety Code, relating to health.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1336.2 is added to the Health and Safety Code, to read:

1336.2. (a) When patients are transferred due to any change in the status of the license or operation of a facility, including voluntary or involuntary termination of a facility's Medi-Cal or Medicare certification, the facility shall take reasonable steps to transfer affected patients safely and minimize possible transfer trauma by, at a minimum, doing all of the following:

(1) Medically assess, prior to transfer, the patient's condition and susceptibility to adverse health consequences, including psychosocial effects, in the event of transfer. The patient's physician and surgeon, if available, shall undertake this assessment. The assessment shall provide recommendations, including counseling and followup visits, for preventing or ameliorating potential adverse health consequences in the event of transfer.

(2) Provide, in accordance with these assessments, counseling, and other recommended services, prior to transfer, to any affected patient who may suffer adverse health consequences due to transfer.

(3) Evaluate, prior to transfer, the relocation needs of the patient and the patient's family and determine the most appropriate and available type of future care and services for the patient. The health

facility shall discuss the evaluation and medical assessment with the patient or the patient's guardian, agent, or responsible party and make the evaluation and assessment part of the medical records for transfer.

(4) Inform, at least 30 days in advance of the transfer, the patient or patient's guardian, agent, or responsible party of alternative facilities that are available and adequate to meet patient and family needs.

(5) Arrange for appropriate, future medical care and services, unless the patient or patient's guardian has otherwise made these arrangements. This requirement does not obligate a facility to pay for future care and services.

(b) The facility shall provide an appropriate team of professional staff to perform the services required in subdivision (a).

(c) The facility shall also give written notice to affected patients or their guardians, agents, or responsible parties advising them of the requirements in subdivision (a) at least 30 days in advance of transfer. If a facility is required to give written notice pursuant to Section 1336, then the notice shall advise the affected patient or the patient's guardian, agent, or responsible party of the requirements in subdivision (a). If the transfer is made pursuant to subdivision (f), the notice shall include notification to the patient that the transfer plan is available to the patient or patient's representative free of charge upon request.

(d) In the event of a temporary suspension of a facility's license pursuant to Section 1296, the 30-day notice requirement in subdivision (c) shall not apply, but the facility shall provide the relocation services required in subdivision (a) unless the state department provides the services pursuant to subdivision (e).

(e) The state department may provide, or arrange for the provision of, necessary relocation services at a facility, including medical assessments, counseling, and placement of patients, if the state department determines that these services are needed promptly to prevent adverse health consequences to patients, and the facility refuses, or does not have adequate staffing, to provide the services. In these cases, the facility shall reimburse the state department for the cost of providing the relocation services. If a facility's refusal to provide the relocation services required in subdivision (a) endangers the health and safety of patients to be transferred, then the state department may also request that the Attorney General's office or the local district attorney's office seek injunctive relief and damages in the same manner as provided for in Chapter 5 (commencing with Section 27200) of Part 2 of Division 7 of the Business and Professions Code.

(f) If 10 or more patients are likely to be transferred due to any voluntary change in the status of the license or operation of a facility, including voluntary termination of a facility's Medi-Cal or Medicare certification, the facility shall submit a proposed relocation plan for the affected patients to the state department for for comment, if any,

at least 45 days prior to the transfer of any patient. The plan shall provide for implementation of the relocation services in subdivision (a) and shall describe the availability of beds in the area for patients to be transferred, the proposed discharge process, and the staffing available to assist in the transfers. The facility shall submit its final relocation plan to the local ombudsperson, and if different from the proposed plan, to the department, at least 30 days prior to the transfer of any patient.

SEC. 2. Section 1336.3 is added to the Health and Safety Code, to read:

1336.3. (a) In the event of an emergency, such as earthquake, fire, or flood which threatens the safety or welfare of patients in a facility, the facility shall do all of the following:

(1) Notify, as soon as possible, family members, patients' guardians, the state department, and the ombudsperson for that facility of the emergency and the steps that the facility plans to take for the patient's welfare.

(2) Provide the services set forth in subdivision (a) of Section 1336.2 if further relocation of the patient is necessary.

(3) Undertake prompt medical assessment of, and provide counseling as needed to, patients whose further relocation is not necessary but who have suffered or may suffer adverse health consequences due to the emergency or sudden transfer.

(b) Each facility shall adopt a written emergency preparedness plan and shall make that plan available to the state department upon request. The plan shall comply with the requirements in this section and the state department's Contingency Plan for Licensed Facilities. The facility, as part of its emergency preparedness planning, shall seek to enter into reciprocal or other agreements with nearby facilities and hospitals to provide temporary care for patients in the event of an emergency. The facility shall report to the state department the name of any facility or hospital which fails or refuses to enter into such agreements and the stated reason for that failure or refusal.

Section 1336.2 shall not apply in the event of transfers made pursuant to an emergency preparedness plan. In any event, however, the facility shall provide the notice and services described in subdivisions (a) to (c), inclusive.

SEC. 3. Section 1336.4 is added to the Health and Safety Code, to read:

1336.4. Failure to comply with the requirements in Sections 1336 to 1336.3, inclusive, shall be subject to issuance of citations and imposition of civil penalties pursuant to Chapter 2.4 (commencing with Section 1417), and Sections 72701 and following of the California Administrative Code.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction,

changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1252

An act to add Part 6 (commencing with Section 44300) to Division 26 of the Health and Safety Code, relating to air pollution.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Part 6 (commencing with Section 44300) is added to Division 26 of the Health and Safety Code, to read:

PART 6. AIR TOXICS "HOT SPOTS" INFORMATION AND ASSESSMENT

CHAPTER 1. LEGISLATIVE FINDINGS AND DEFINITIONS

44300. This part shall be known and may be cited as the Air Toxics "Hot Spots" Information and Assessment Act of 1987.

44301. The Legislature finds and declares all of the following:

(a) In the wake of recent publicity surrounding planned and unplanned releases of toxic chemicals into the atmosphere, the public has become increasingly concerned about toxics in the air.

(b) The Congressional Research Service of the Library of Congress has concluded that 75 percent of the United States population lives in proximity to at least one facility that manufactures chemicals. An incomplete 1985 survey of large chemical companies conducted by the Congressional Research Service documented that nearly every chemical plant studied routinely releases into the surrounding air significant levels of substances proven to be or potentially hazardous to public health.

(c) Generalized emissions inventories compiled by air pollution control districts and air quality management districts in California confirm the findings of the Congressional Research Service survey as well as reveal that many other facilities and businesses which do not actually manufacture chemicals do use hazardous substances in sufficient quantities to expose, or in a manner that exposes, surrounding populations to toxic air releases.

(d) These releases may create localized concentrations or air toxics "hot spots" where emissions from specific sources may expose individuals and population groups to elevated risks of adverse health effects, including, but not limited to, cancer and contribute to the cumulative health risks of emissions from other sources in the area. In some cases where large populations may not be significantly

affected by adverse health risks, individuals may be exposed to significant risks.

(e) Little data is currently available to accurately assess the amounts, types, and health impacts of routine toxic chemical releases into the air. As a result, there exists significant uncertainty about the amounts of potentially hazardous air pollutants which are released, the location of those releases, and the concentrations to which the public is exposed.

(f) The State of California has begun to implement a long-term program to identify, assess, and control ambient levels of hazardous air pollutants, but additional legislation is needed to provide for the collection and evaluation of information concerning the amounts, exposures, and short- and long-term health effects of hazardous substances regularly released to the surrounding atmosphere from specific sources of hazardous releases.

(g) In order to more effectively implement control strategies for those materials posing an unacceptable risk to the public health, additional information on the sources of potentially hazardous air pollutants is necessary.

(h) It is in the public interest to ascertain and measure the amounts and types of hazardous releases and potentially hazardous releases from specific sources that may be exposing people to those releases, and to assess the health risks to those who are exposed.

44302. The definitions set forth in this chapter govern the construction of this part.

44303. "Air release" or "release" means any activity that may cause the issuance of air contaminants, including the actual or potential spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing of a substance into the ambient air and that results from the routine operation of a facility or that is predictable, including, but not limited to, continuous and intermittent releases and predictable process upsets or leaks.

44304. "Facility" means every structure, appurtenance, installation, and improvement on land which is associated with a source of air releases or potential air releases of a hazardous material.

44306. "Health risk assessment" means a detailed comprehensive analysis prepared pursuant to Section 44361 to evaluate and predict the dispersion of hazardous substances in the environment and the potential for exposure of human populations and to assess and quantify both the individual and populationwide health risks associated with those levels of exposure.

44307. "Operator" means the person who owns or operates a facility or part of a facility.

44308. "Plan" means the emissions inventory plan which meets the conditions specified in Section 44342.

44309. "Report" means the emissions inventory report specified in Section 44341.

CHAPTER 2. FACILITIES SUBJECT TO THIS PART

44320. This part applies to the following:

(a) Any facility which manufactures, formulates, uses, or releases any of the substances listed pursuant to Section 44321 or any other substance which reacts to form a substance listed in Section 44321 and which releases or has the potential to release total organic gases, particulates, or oxides of nitrogen or sulfur in the amounts specified in Section 44322.

(b) Except as provided in Section 44323, any facility which is listed in any existing toxics use or toxics air emission survey, inventory, or report released or compiled by a district.

44321. For the purposes of Section 44320, the state board shall compile and maintain a list of substances that contains, but is not limited to, all of the following:

(a) Substances identified by reference in paragraph (1) of subdivision (b) of Section 6382 of the Labor Code and substances placed on the list prepared by the National Toxicology Program issued by the United States Secretary of Health and Human Services pursuant to paragraph (4) of Section 262 of Public Law 95-622 of 1978. For the purposes of this subdivision, the state board may remove from the list any substance which meets both of the following criteria:

(1) No evidence exists that it has been detected in air.

(2) The substance is not manufactured or used in California, or, if manufactured or used in California, because of the physical or chemical characteristics of the substance or the manner in which it is manufactured or used, there is no possibility that it will become airborne.

(b) Carcinogens and reproductive toxins referenced in or compiled pursuant to Section 25249.8, except those which meet both of the criteria identified in subdivision (a).

(c) The candidate list of potential toxic air contaminants and the list of designated toxic air contaminants prepared by the state board pursuant to Article 2 (commencing with Section 39660) of Chapter 3.5 of Part 2, including, but not limited to, all substances currently under review and scheduled or nominated for review and substances identified and listed for which health effects information is limited.

(d) Substances for which an information or hazard alert has been issued by the repository of current data established pursuant to Section 147.2 of the Labor Code.

(e) Substances reviewed, under review, or scheduled for review as air toxics or potential air toxics by the Office of Air Quality Planning and Standards of the Environmental Protection Agency, including substances evaluated in all of the following categories or their equivalent: preliminary health and source screening, detailed assessment, intent to list, decision not to regulate, listed, standard proposed, and standard promulgated.

(f) Any additional substances recognized by the state board as

presenting a chronic or acute threat to public health when present in the ambient air, including, but not limited to, any neurotoxins or chronic respiratory toxins not included within subdivision (a), (b), (c), (d), or (e).

44322. This part applies to facilities specified in Section 44320 in accordance with the following schedule:

(a) For those facilities that release, or have the potential to release, 25 tons per year or greater of total organic gases, particulates, or oxides of nitrogen or sulfur, this part becomes effective on July 1, 1988.

(b) For those facilities that release, or have the potential to release, more than 10 but less than 25 tons per year of total organic gases, particulates, or oxides of nitrogen or sulfur, this part becomes effective July 1, 1989.

(c) For those facilities that release, or have the potential to release, less than 10 tons per year of total organic gases, particulates, or oxides of nitrogen or sulfur, the state board shall, on or before July 1, 1990, prepare and submit a report to the Legislature identifying the classes of those facilities to be included in this part and specifying a timetable for their inclusion.

44323. A district may prepare an industrywide emissions inventory and health risk assessment for facilities specified in subdivisions (a) and (b) of Section 44322, and shall prepare an industrywide emissions inventory for the facilities specified in subdivision (c) of Section 44322, in compliance with this part for any class of facilities that the district finds and determines meets all of the following conditions:

(a) All facilities in the class fall within one four-digit Standard Industrial Classification Code.

(b) Individual compliance with this part would impose severe economic hardships on the majority of the facilities within the class.

(c) The majority of the class is composed of small businesses.

(d) Releases from individual facilities in the class consist primarily of a single hazardous material for which the releases from each facility can easily and generically be characterized and calculated.

44324. This part does not apply to any facility where economic poisons are employed in their pesticidal use, unless that facility was subject to district permit requirements on or before August 1, 1987. As used in this section, "pesticidal use" does not include the manufacture or formulation of pesticides.

44325. Any solid waste disposal facility in compliance with Section 41805.5 is in compliance with the emissions inventory requirements of this part.

CHAPTER 3. AIR TOXICS EMISSION INVENTORIES

44340. (a) The operator of each facility subject to this part shall prepare and submit to the district a proposed comprehensive emissions inventory plan in accordance with the criteria and

guidelines adopted by the state board pursuant to Section 44342.

(b) The proposed plan shall be submitted to the district on or before August 1, 1989, except that, for any facility to which subdivision (b) of Section 44322 applies, the proposed plan shall be submited to the district on or before August 1, 1990. The district shall approve, modify, and approve as modified, or return for revision and resubmission, the plan within 120 days of receipt.

(c) The district shall not approve a plan unless all of the following conditions are met:

(1) The plan meets the requirements established by the state board pursuant to Section 44342.

(2) The plan is designed to produce, from the list compiled and maintained pursuant to Section 44321, a comprehensive characterization of the full range of hazardous materials that are released, or that may be released, to the surrounding air from the facility. Air release data shall be collected at, or calculated for, the primary locations of actual and potential release for each hazardous material. Data shall be collected or calculated for all continuous, intermittent, and predictable air releases.

(3) The measurement technologies and estimation methods proposed provide state-of-the-art effectiveness and are sufficient to produce a true representation of the types and quantities of air releases from the facility.

(4) Source testing or other measurement techniques are employed wherever necessary to verify emission estimates, as determined by the state board and to the extent technologically feasible. All testing devices shall be appropriately located, as determined by the state board.

(5) Data are collected or calculated for the relevant exposure rate or rates of each hazardous material according to its characteristic toxicity and for the emission rate necessary to ensure a characterization of risk associated with exposure to releases of the hazardous material that meets the requirements of Section 44361. The source of all emissions shall be displayed or described.

44341. Within 180 days after approval of a plan by the district, the operator shall implement the plan and prepare and submit a report to the district in accordance with the plan. The district shall transmit all monitoring data contained in the approved report to the state board.

44342. The state board shall, on or before May 1, 1989, in consultation with the districts, develop criteria and guidelines for site-specific air toxics emissions inventory plans which shall be designed to comply with the conditions specified in Section 44340 and which shall include at least all of the following:

(a) For each class of facility, a designation of the hazardous materials for which emissions are to be quantified and an identification of the likely source types within that class of facility. The hazardous materials for quantification shall be chosen from among, and may include all or part of, the list specified in Section

44321.

(b) Requirements for a facility diagram identifying each actual or potential discrete emission point and the general locations where fugitive emissions may occur. The facility diagram shall include any nonpermitted and nonprocess sources of emissions and shall provide the necessary data to identify emission characteristics. An existing facility diagram which meets the requirements of this section may be submitted.

(c) Requirements for source testing and measurement. The guidelines may specify appropriate uses of estimation techniques including, but not limited to, emissions factors, modeling, mass balance analysis, and projections, except that source testing shall be required wherever necessary to verify emission estimates to the extent technologically feasible. The guidelines shall specify conditions and locations where source testing, fence-line monitoring, or other measurement techniques are to be required and the frequency of that testing and measurement.

(d) Appropriate testing methods, equipment, and procedures, including quality assurance criteria.

(e) Specifications for acceptable emissions factors, including, but not limited to, those which are acceptable for substantially similar facilities or equipment, and specification of procedures for other estimation techniques and for the appropriate use of available data.

(f) Specification of the reporting period required for each hazardous material for which emissions will be inventoried.

(g) Specifications for the collection of useful data to identify toxic air contaminants pursuant to Article 2 (commencing with Section 39660) of Chapter 3.5 of Part 2.

(h) Standardized format for preparation of reports and presentation of data.

(i) A program to coordinate and eliminate any possible overlap between the requirements of this chapter and the requirements of Section 313 of the Superfund Amendment and Reauthorization Act of 1986 (Public Law 99-499).

The state board shall design the guidelines and criteria to ensure that, in collecting data to be used for emissions inventories, actual measurement is utilized whenever necessary to verify the accuracy of emission estimates, to the extent technologically feasible.

44343. The district shall review the reports submitted pursuant to Section 44341 and shall, within 90 days, review each report, obtain corrections and clarifications of the data, and notify the State Department of Health Services, the Department of Industrial Relations, and the city or county health department of its findings and determinations as a result of its review of the report.

44344. Emissions inventories developed pursuant to this chapter shall be updated biennially, in accordance with procedures established by the state board. These biennial updates shall take into consideration improvements in measurement techniques and advancing knowledge concerning the types and toxicity of hazardous

materials released or potentially released.

44345. (a) On or before July 1, 1989, the state board shall develop a program to compile and make available to other state and local public agencies and the public all data collected pursuant to this chapter.

(b) In addition, the state board, on or before March 1, 1990, shall compile, by district, emissions inventory data for mobile sources and area sources not subject to district permit requirements, and data on natural source emissions, and shall incorporate these data into data compiled and released pursuant to this chapter.

44346. (a) If an operator believes that any information required in the facility diagram specified pursuant to subdivision (b) of Section 44342 involves the release of a trade secret, the operator shall nevertheless make the disclosure to the district, and shall notify the district in writing of that belief in the report.

(b) Subject to this section, the district shall protect from disclosure any trade secret designated as such by the operator, if that trade secret is not a public record.

(c) Upon receipt of a request for the release of information to the public which includes information which the operator has notified the district is a trade secret and which is not a public record, the following procedure applies:

(1) The district shall notify the operator of the request in writing by certified mail, return receipt requested.

(2) The district shall release the information to the public, but not earlier than 30 days after the date of mailing the notice of the request for information, unless, prior to the expiration of the 30-day period, the operator obtains an action in an appropriate court for a declaratory judgment that the information is subject to protection under this section or for a preliminary injunction prohibiting disclosure of the information to the public and promptly notifies the district of that action.

(d) This section does not permit an operator to refuse to disclose the information required pursuant to this part to the district.

(e) Any information determined by a court to be a trade secret, and not a public record pursuant to this section, shall not be disclosed to anyone except an officer or employee of the district, the state, or the United States, in connection with the official duties of that officer or employee under any law for the protection of health, or to contractors with the district or the state and its employees if, in the opinion of the district or the state, disclosure is necessary and required for the satisfactory performance of a contract, for performance of work, or to protect the health and safety of the employees of the contractor.

(f) Any officer or employee of the district or former officer or employee who, by virtue of that employment or official position, has possession of, or has access to, any trade secret subject to this section, and who, knowing that disclosure of the information to the general public is prohibited by this section, knowingly and willfully discloses

the information in any manner to any person not entitled to receive it is guilty of a misdemeanor. Any contractor of the district and any employee of the contractor, who has been furnished information as authorized by this section, shall be considered an employee of the district for purposes of this section.

(g) Information certified by appropriate officials of the United States as necessary to be kept secret for national defense purposes shall be accorded the full protections against disclosure as specified by those officials or in accordance with the laws of the United States

(h) As used in this section, "trade secret" and "public record" have the meanings and protections given to them by Section 6254.7 of the Government Code and Section 1060 of the Evidence Code. All information collected pursuant to this chapter, except for data used to calculate emissions data required in the facility diagram, shall be considered "air pollution emission data," for the purposes of this section.

CHAPTER 4. RISK ASSESSMENT

44360. (a) Within 90 days of completion of the review of all emissions inventory data for facilities specified in subdivision (a) of Section 44322, but not later than December 1, 1990, the district shall, based on examination of the emissions inventory data and in consultation with the state board and the State Department of Health Services, prioritize and then categorize those facilities for the purposes of health risk assessment. The district shall designate high, intermediate, and low priority categories and shall include each facility within the appropriate category based on its individual priority. In establishing priorities pursuant to this section, the district shall consider the potency, toxicity, quantity, and volume of hazardous materials released from the facility, the proximity of the facility to potential receptors, including, but not limited to, hospitals, schools, daycare centers, worksites, and residences, and any other factors that the district finds and determines may indicate that the facility may pose a significant risk to receptors. The district shall hold a public hearing prior to the final establishment of priorities and categories pursuant to this section.

(b) Within 150 days of the designation of priorities and categories pursuant to subdivision (a), the operator of every facility that has been included within the highest priority category shall prepare and submit to the district a health risk assessment pursuant to Section 44361. The district may, at its discretion, grant a 30-day extension for submittal of the health risk assessment.

(c) Upon submission of emissions inventory data for facilities specified in subdivisions (b) and (c) of Section 44322, the district shall designate facilities for inclusion within the highest priority category, as appropriate, and any facility so designated shall be subject to subdivision (b). In addition, the district may require the operator of any facility to prepare and submit health risk

assessments, in accordance with the priorities developed pursuant to subdivision (a).

(d) The district shall, except where site specific factors may affect the results, allow the use of a single health risk assessment for two or more substantially identical facilities operated by the same person.

44361. (a) Each health risk assessment shall be submitted to the district. The district shall make the health risk assessment available for public review, upon request. After preliminary review of the emissions impact and modeling data, the district shall submit the health risk assessment to the State Department of Health Services for review and, within 180 days of receiving the health risk assessment, the State Department of Health Services shall submit to the district its comments on the data and findings relating to health effects. The district shall consult with the state board as necessary to adequately evaluate the emissions impact and modeling data contained within the risk assessment.

(b) For the purposes of complying with this section, the State Department of Health Services may select a qualified independent contractor to review the data and findings relating to health effects. The State Department of Health Services shall not select an independent contractor to review a specific health risk assessment who may have a conflict of interest with regard to the review of that health risk assessment. Any review by an independent contractor shall comply with the following requirements:

(1) Be performed in a manner consistent with guidelines provided by the State Department of Health Services.

(2) Be reviewed by the State Department of Health Services for accuracy and completeness.

(3) Be submitted by the State Department of Health Services to the district in accordance with this section.

(c) The district shall reimburse the State Department of Health Services or the qualified independent contractor designated by the State Department of Health Services pursuant to subdivision (b), within 45 days of its request, for its actual costs incurred in reviewing a health risk assessment pursuant to this section.

(d) If a district requests the State Department of Health Services to consult with the district concerning any requirement of this part, the district shall reimburse the State Department of Health Services, within 45 days of its request, for the costs incurred in the consultation.

(e) Upon designation of the high priority facilities, as specified in subdivision (a) of Section 44360, the State Department of Health Services shall evaluate the staffing requirements of this section and may submit recommendations to the Legislature, as appropriate, concerning the maximum number of health risk assessments to be reviewed each year pursuant to this section.

44362. (a) Taking the comments of the State Department of Health Services into account, the district shall approve or return for revision and resubmission and then approve, the health risk

assessment within 180 days of receipt. If the health risk assessment has not been revised and resubmitted within 60 days of the district's request of the operator to do so, the district may modify the health risk assessment and approve it as modified.

(b) Upon approval of the health risk assessment, the operator of the facility shall provide notice to all exposed persons regarding the results of the health risk assessment prepared pursuant to Section 44361 if, in the judgment of the district, the health risk assessment indicates there is a significant health risk associated with emissions from the facility. If notice is required under this subdivision, the notice shall include only information concerning significant health risks attributable to the specific facility for which the notice is required. Any notice shall be made in accordance with procedures specified by the district.

44363. (a) Commencing July 1, 1991, each district shall prepare and publish an annual report which does all of the following:

(1) Describes the priorities and categories designated pursuant to Section 44360 and summarizes the results and progress of the health risk assessment program undertaken pursuant to this part.

(2) Ranks and identifies facilities according to the degree of cancer risk posed both to individuals and to the exposed population.

(3) Identifies facilities which expose individuals or populations to any noncancer health risks.

(4) Describes the status of the development of control measures to reduce emissions of toxic air contaminants, if any.

(b) The district shall disseminate the annual report to county boards of supervisors, city councils, and local health officers and the district board shall hold one or more public hearings to present the report and discuss its content and significance.

44364. The state board shall utilize the reports and assessments developed pursuant to this part for the purposes of identifying, establishing priorities for, and controlling toxic air contaminants pursuant to Chapter 3.5 (commencing with Section 39650) of Part 2.

44365. (a) If the state board finds and determines that a district's actions pursuant to this part do not meet the requirements of this part, the state board may exercise the authority of the district pursuant to this part to approve emissions inventory plans and require the preparation of health risk assessments.

(b) This part does not prevent any district from establishing more stringent criteria and requirements than are specified in this part for approval of emissions inventories and requiring the preparation and submission of health risk assessments. Nothing in this part limits the authority of a district under any other provision of law to assess and regulate releases of hazardous substances.

44366. (a) In order to verify the accuracy of any information submitted by facilities pursuant to this part, a district or the state board may proceed in accordance with Section 41510.

CHAPTER 5. FEES AND REGULATIONS

44380. (a) On or before August 1, 1988, the state board shall adopt a fee schedule, as specified in Section 44383, which assesses a fee upon the operator of every facility subject to this part. The fees shall be based on the reasonable anticipated cost which will be incurred by the state board, the districts, and the department to implement and administer this part, taking into account variations in costs incurred by individual district, and shall, in addition, provide for the recovery in the 1987–88 fiscal year of all starting costs incurred under this part.

(b) Commencing February 1, 1988, the state board shall establish, with the participation of the districts on a voluntary basis, a technical review group for the purpose of developing the fee schedule specified in subdivision (a). The fee schedule shall not be adopted or implemented prior to the establishment of the technical review group.

(c) The district shall notify each person subject to the fee specified in subdivision (a). If a person fails to pay the fee within 60 days after receipt of this notice, the district shall require the person to pay an additional administrative civil penalty. The district shall fix the penalty at not more than 100 percent of the assessed fee, but in an amount sufficient in its determination, to pay the district's additional expenses incurred by the person's noncompliance.

(d) Each district shall collect the fees pursuant to the schedule adopted under subdivision (a). After deducting the costs to the district to implement and administer this part, the district shall transmit the remainder to the Controller for deposit in the Air Toxics Inventory and Assessment Account, which is hereby created in the General Fund. The money in the account is available, upon appropriation by the Legislature, to the state board and the department for the purposes of administering this part.

44381. (a) Any person who fails to submit any information, reports, or statements required by this part, or who fails to comply with this part or with any permit, rule, regulation, or requirement issued or adopted pursuant to this part, is subject to a civil penalty of not less than five hundred dollars ($500) or more than ten thousand dollars ($10,000) for each day that the information, report, or statement is not submitted, or that the violation continues.

(b) Any person who knowingly submits any false statement or representation in any application, report, statement, or other document filed, maintained, or used for the purposes of compliance with this part is subject to a civil penalty of not less than one thousand dollars ($1,000) or more than twenty-five thousand dollars ($25,000) per day for each day that the information remains uncorrected.

44382. Every district shall, by regulation, adopt the requirements of this part as a condition of every permit issued pursuant to Chapter 4 (commencing with Section 42300) of Part 4 for all new and modified facilities.

44383. The state board shall adopt rules or regulations to implement Section 44380 as emergency regulations in accordance with Section 11346.1 of the Government Code.

44384. Except for Section 44380 and this section, all provisions of this part shall become operative on July 1, 1988.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 1253

An act relating to education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Stockton Unified School District desires to use portable buildings that may not conform to the so-called Field Act, for classroom purposes. The portable buildings were relocated from one school to another school without the State Architect inspecting whether these buildings satisfied the structural standards of the Field Act. It is necessary that these portable buildings be used without an inspection since the cost to inspect the portable buildings at this time would be prohibitive to the district.

SEC. 2. Notwithstanding Section 39227 of the Education Code, the governing board of the Stockton Unified School District may use the existing portable buildings described in Section 1 for classroom purposes from the effective date of this act until January 1, 1990, upon which date this act is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1990, deletes or extends the date on which the act is repealed. During the period of use authorized by this section, the structure shall not be subject to Article 3 (commencing with Section 39140) or Article 6 (commencing with Section 39210) of Chapter 2 of Part 23 of the Education Code.

SEC. 3. Due to the unique circumstances specified in Section 1 of this act concerning the Stockton Unified School District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to permit the Stockton Unified School District to use portable buildings that may not satisfy Field Act standards, so that its classes may be operated without interruption or delay, it is necessary that this act take effect immediately.

CHAPTER 1254

An act to amend Section 49410.7 of the Education Code, relating to education, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 27, 1987]

I am deletıng the appropriations contained ın Section 3(a) and (b) of Assembly Bill 2509

This bill would appropriate up to $100,000 from the Asbestos Abatement Fund to the Department of Industrial Relations for reinspection of school facilities. It would also make changes in eligibility requirements for schools to qualify for financial aid from the State Asbestos Abatement Fund

Since the Federal Environmental Protection Agency is conductıng the reinspectiohn of schools for presence of asbestos, the appropriation contained ın this bill is not necessary.

With this deletion, I approve Assembly Bill No. 2509.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 49410.7 of the Education Code is amended to read:

49410.7. (a) For purposes of funding pursuant to Section 39619.9, the factors determining the need for abatement of friable asbestos or potentially friable asbestos shall include, but not be limited to, visual inspection and bulk samples and air monitoring showing an airborne concentration of asbestos in the school building in excess of the standard 0.01 fibers/cc by Transmission Electron Microscopy (TEM) monitoring, as specified in subdivision (b), or the concurrently measured concentration of asbestos in the ambient air immediately adjacent to the building, whichever is higher. For purposes of reconstruction and rehabilitation projects approved pursuant to Chapter 22 (commencing with Section 17700) of Part 10 of the Education Code, for which asbestos abatement related work

commenced on or after October 2, 1985, and for purposes of abating asbestos contained in pipe and block insulation, air monitoring shall not be required to determine the need for abatement of friable asbestos or potentially friable asbestos.

(b) For purposes of air monitoring, the operating agency for each public school building in which friable asbestos-containing materials (other than pipe and block insulation or materials to be abated during rehabilitation or reconstruction projects as specified in subdivision (a)) have been identified shall monitor airborne asbestos levels in each sampling area. Each sampling area in which asbestos-containing materials have been identified shall be monitored for at least eight hours during a period of normal building activity. Analysis of samples shall be by Transmission Electron Microscopy (TEM) methods, in accordance with the Environmental Protection Agency provisional method and update, to measure the number of observable asbestos fibers. The results of this monitoring shall be recorded in terms of the number of visible fibers greater than 1 micron in length per cubic centimeter of air (f/cc) in accord with standard definitions for asbestos monitoring established by the Occupational Safety and Health Administration.

"Sampling area," as used in this section, means any area, whether contiguous or not, within a building that contains friable material that is homogenous in texture and appearance.

(c) Any public primary or secondary school building in which asbestos abatement work has been performed shall not be reoccupied until air monitoring has been conducted to show that the airborne concentration of asbestos does not exceed the air monitoring standard of subdivision (a). Not less than one month after the reoccupancy of the school building where asbestos abatement work has occurred, the building shall be remonitored to determine compliance with subdivision (b).

(d) "School building," as used in this section, means any of the following:

(1) Structures used for the instruction of public school children, including classrooms, laboratories, libraries, research facilities, and administrative facilities.

(2) School eating facilities and school kitchens.

(3) Gymnasiums or other facilities used for athletic or recreational activities or for courses in physical education.

(4) Dormitories or other living areas of residential schools.

(5) Maintenance, storage, or utility facilities essential to the operation of the facilities described in paragraphs (1) to (4).

(e) School districts and county offices of education may apply for reimbursement from the Asbestos Abatement Fund for the costs of air monitoring completed pursuant to this section.

SEC. 2. Notwithstanding any other provisions of law to the contrary, the Department of Industrial Relations may enter into sole-source, noncompetitive contracts with individuals or firms that are certified asbestos inspectors for the purpose of reinspecting

schools pursuant to this act.

SEC. 3. (a) The sum of seventy-five thousand dollars ($75,000) is hereby appropriated from the Asbestos Abatement Fund to the Department of Industrial Relations to pay for the reinspection of school districts which were inspected by the State Department of Education in 1986. Furthermore, inspectors from, or under contract with, the California Occupational Safety and Health Division of the Department of Industrial Relations, experienced with the Asbestos-In-Schools Program, shall conduct the inspections and shall consult with officials of the United States Environmental Protection Agency, Region IX, with regard to procedures and the location of schools to be inspected. The inspectors shall only inspect those schools designated by the Environmental Protection Agency which were involved in the 1986 inspection program. If any portion of the appropriated funds remain at the conclusion of the reinspection program, they shall be returned to the Asbestos Abatement Fund.

(b) The sum of twenty-five thousand dollars ($25,000) is hereby appropriated from the Asbestos Abatement Fund to the Department of Industrial Relations to pay for the reinspection of school districts which were inspected by the State Department of Education in 1986. Funds appropriated pursuant to this subdivision shall be available for expenditure only upon the written approval of the Director of Finance based upon a determination that funds appropriated pursuant to subdivision (a) are inadequate for completion of the reinspection pursuant to this act.

(c) Funds appropriated by this section shall not be expended if federal funds for this program are received prior to that expenditure, in which case the federal funds shall be expended in lieu of these funds. If funds appropriated by this section are expended, these funds shall be replaced with federal funds to the extent that federal funds are received for these purposes.

SEC. 4. This act an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The State Department of Education entered into a cooperative agreement with the United States Environmental Protection Agency, Region IX, to inspect California school districts for compliance with the Asbestos-In-Schools Program (Public Law 94–469; see, 40 C.F.R. Pt. 763). The compliance inspections, conducted in 1984 and 1985, revealed that over 70 percent of the school districts had not complied properly with the Environmental Protection Agency regulation. The State Department of Education's 1986 inspection program revealed that only 12 percent of the districts inspected had not complied. Subsequently, the Environmental Protection Agency discovered a pattern of inconsistencies with the state's 1986 inspection, thus subjecting the 1986 findings to doubt. Therefore, an urgency exists to immediately reinspect those school districts which may have been improperly inspected in 1986.

CHAPTER 1255

An act to add and repeal Title 9 (commencing with Section 14090) of Part 4 of the Penal Code, relating to correctional facilities, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1987. Filed with Secretary of State September 27, 1987]

The people of the State of California do enact as follows:

SECTION 1. Title 9 (commencing with Section 14090) is added to Part 4 of the Penal Code, to read:

TITLE 9. BLUE RIBBON COMMISSION ON INMATE POPULATION MANAGEMENT

CHAPTER 1. FINDINGS

14090. The Legislature finds and declares all of the following:

(a) In recent years, the number of convicted criminals serving time in California state prisons has dramatically increased. Since 1982, the state prison population has nearly doubled. This is the direct result of tougher determinant sentencing laws, and it reflects the will of the public that criminals should serve time in prison.

In 1983, the State of California embarked on its first major prison construction and expansion program in nearly 20 years. As a result of these efforts, new prisons have been opened and a variety of temporary overcrowding measures have been taken. Still, the growth in prison population continues to outpace the prison expansion program. This is placing a growing burden on California's prison system and on the financial resources of the state.

Given these factors, it is necessary to reexamine traditional correctional housing approaches and to study other possible methods of housing the state's prison population. Those methods must be consistent with the need to protect the public, control crime, and facilitate the punishment, deterrence, incapacitation, and reintegration of criminals into society.

(b) The California Department of Corrections forecasts that the inmate population in state prisons will increase from its present level of 63,000 to almost 100,000 in the next three to five years. The current prison construction program will increase California's prison population to approximately 55,000 beds, but this will not be sufficient to meet the state's growing prison needs.

(c) In the past 10 years, the Department of Corrections' operating budget has doubled and by 1991, the state will spend about one-tenth of its General Fund budget to maintain its correctional system if current correctional policies continue. Current General Fund

appropriations for operating the state's correctional system, now at one billion dollars, are projected to exceed two billion dollars by 1991.

(d) The problem of correctional facility overcrowding is equally critical in the Department of Youth Authority, where almost 8,500 wards are in a system that is designed for 5,840 wards. The Youth Authority population is projected to increase to 9,500 wards within the next five years. The current eighty-five million dollar Youth Authority building program will increase the system's capacity to 6,950. However, this is not enough to deal with the state's growing institution population of youthful offenders. Projections indicated that another three hundred million dollars is needed to build 2,400 more Youth Authority bed spaces by 1991.

(e) The high cost of building, maintaining, and operating prisons and youth correctional facilities, the high rates of parolees returning to custody, and the increased inmate violence require the examination of new methods, approaches, and considerations commensurate with the public's desire to be safe from criminal activity.

14091. (a) It is necessary to review California's adult and youth correctional facilities systems to examine whether there are viable alternatives and solutions to the problems of overcrowding and rising costs which exist. This title establishes a Commission on Inmate Population Management for the comprehensive review of this state's system for dealing with state prisoner and parolee populations.

(b) It is the intent of the Legislature that public safety shall be the overriding concern in examining methods of improving the prison system, reducing costs, heading off runaway inmate population levels, and exploring punishment options. These options, alternatives, and proposals should be recommended by the commission only if it is convinced that each such proposal will not result in significant lessening of public safety, increase in crime rates, or added violence within the prison system or on the outside.

(c) The people of the State of California have shown by their repeated approval of bond measures to build new jails and prisons, through opinion polls, and other indicators that they wish offenders punished and violent offenders confined in prison for lengthy periods. The commission and its study must take this into account in its deliberations, findings, study, and recommendations.

However, new methods must be explored and new options examined commensurate with this goal if the costs and impacts of California's prison system are to remain under control.

(d) As in other areas of public policy, advancements are being made in corrections systems throughout the country and in other nations, and it is imperative that California examine that achievements and consider implementing them where they seem feasible.

CHAPTER 2. DUTIES AND FUNCTIONS

14100. There is established the Blue Ribbon Commission on Inmate Population Management.

14101. The commission shall have 25 voting members as follows:

(b) Determination of desirable alternatives or punishment options, if any, commensurate with public safety that could improve this system while reducing recidivism and prison violence.

(c) The commission shall study the present utilization of community correctional facilities and, if appropriate, make recommendations regarding utilization of those facilities. The commission shall study options for community-based treatment programs and community correctional facilities, for persons under the jurisdiction of the Department of Youth Authority or the Department of Corrections who violate the terms and conditions of parole. Public safety shall be the primary consideration in all conclusions and recommendations.

(d) The commission shall study relevant methods utilized in other jurisdictions toward reducing the problems which are within its mandate.

(e) The commission shall perform other duties as may be requested by the Governor in accord with the commission's mandates.

14107. (a) The commission shall make an initial written report to the Governor, the Senate Judiciary Committee, the Assembly Committee on Public Safety, the Joint Legislative Committee on Prison Construction and Operation, the Senate Appropriations Committee, the Assembly Ways and Means Committee, and the Legislature of its activities, findings, and recommendations no later than one year after its first meeting. The commission shall make additional presentations or reports that it deems warranted.

(b) The commission shall also prepare a final written report of its findings to the Governor and to the Legislature including recommended legislation or action by the Governor's office which will promote the purpose of the commission.

14107.5. This title shall become inoperative two years after it becomes effective, and as of January 1, 1990, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1990, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 2. The establishment of this commission is not intended to

obviate the need for additional funding for prison or youth correctional facilities construction to alleviate prison overcrowding.

SEC. 3. The sum of fifty thousand ($50,000) is hereby appropriated from the General Fund to the commission for consulting contracts and services in direct support of the commission's research and deliberations.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The current challenge of crowding in corrections facilities requires prompt and effective action to review options for dealing with criminal offenders.

CHAPTER 1256

An act to add an article heading immediately preceding Section 25940 of, and to add Article 2 (commencing with Section 25948) to Chapter 10.8 of Division 20 of, the Health and Safety Code, relating to smoking.

[Approved by Governor September 27, 1987 Filed with Secretary of State September 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. An article heading immediately preceding Section 25940 is added to Chapter 10.8 of Division 20 of the Health and Safety Code, to read:

Article 1. California Indoor Clean Air Act of 1976

SEC. 2. Article 2 (commencing with Section 25948) is added to Chapter 10.8 of Division 20 of the Health and Safety Code, to read:

Article 2. Smoking on Private and Public Transportation

25948. (a) The Legislature hereby finds and declares that the United States Surgeon General's 1986 Report on the Health Consequences of Involuntary Smoking conclude all of the following:

(1) Involuntary smoking is a cause of disease, including lung cancer, in healthy nonsmokers.

(2) The children of parents who smoke compared with the children of nonsmoking parents have an increased frequency of respiratory infections, increased respiratory symptoms, and slightly smaller rates of increase in lung function as the lungs mature.

(3) The simple separation of smokers and nonsmokers within the same air space may reduce, but does not eliminate, the exposure of

nonsmokers to environmental tobacco smoke.

(b) The Legislature further finds and declares the following:

(1) Nonsmokers have no adequate means to protect themselves from the damage inflicted upon them when they involuntarily inhale tobacco smoke.

(2) Regulation of smoking in public places is necessary to protect the health, safety, welfare, comfort, and environment of nonsmokers.

(c) It is, therefore, the intent of the Legislature, in enacting this article, to eliminate smoking on public transportation vehicles.

25949. It is unlawful for any person to smoke tobacco or any other plant product in any vehicle of a passenger stage corporation, the National Railroad Passenger Corporation (Amtrak) except to the extent permitted by federal law, in any aircraft except to the extent permitted by federal law, on a public transportation system, as defined by Section 99211 of the Public Utilities Code, or in any vehicle of an entity receiving any transit assistance from the state.

25949.2. A notice prohibiting smoking, displayed as a symbol and in English, shall be posted in each vehicle or aircraft subject to this article.

25949.4. (a) Every person and public agency providing transportation services for compensation, including, but not limited to, the National Railroad Passenger Corporation (Amtrak) to the extent permitted by federal law, passenger stage corporations, and local agencies which own or operate airports, shall designate and post, by signs of sufficient number and posted in locations which may be readily seen by persons within the area, a contiguous area of not less than 75 percent of any area made available by the person or public agency as a waiting room for these passengers where the smoking of tobacco is prohibited. Not more than 25 percent of any given area may be set aside for smokers.

(b) Every person or public agency subject to subdivision (a) shall also post, by sign of sufficient number and posted in locations as to be readily seen by persons within the area of any building where tickets, tokens, or other evidences that a fare has been paid for transportation services which are provided by the person or public agency, a notice that the smoking of tobacco by persons waiting in line to purchase the tickets, tokens, or other evidences that a fare has been paid is prohibited.

(c) It is unlawful for any person to smoke in an area posted pursuant to this section.

25949.6. This article does not preempt any local ordinance on the same subject where a local ordinance is more restrictive to the benefit of the nonsmoker.

25949.8. Any violation of this article is an infraction punishable by a fine not exceeding one hundred dollars ($100) for a first violation, by a fine not exceeding two hundred dollars ($200) for a second violation within one year, or by a fine not exceeding five hundred dollars ($500) for a third and for each subsequent violation within one year.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

26284. It is the intent of the Legislature in enacting this chapter to ensure that the county is not deprived of state funds which might be made available to finance needed justice system facilities subsequent to the enactment of this chapter, whether those funds be provided by statute or constitutional amendment. To that end, any ballot measure seeking voter approval for a local transactions and use tax to finance justice system facilities pursuant to this chapter shall contain language which will result in a reduction in the amount of revenue generated annually by that tax equivalent to the amount of state funding made available annually to the county pursuant to a subsequently enacted state program to fund the acquisition or development of required justice facilities.

26285. If any provision of this chapter or the application thereof to any person or circumstance is held invalid, that invalidity shall not affect other provisions or applications of the chapter which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable.

SEC. 3. Section 7252.11 is added to the Revenue and Taxation Code, to read:

7252.11. "District," as used in this part, also means the San Diego County Regional Justice Facility Financing Agency, if authorized to impose transactions and use taxes pursuant to this part.

SEC. 4. No appropriation is made by this act pursuant to Section 6 of Article XIII B of the California Constitution because (1) this act is in accordance with the request of a local agency which desired legislative authority to carry out the program specified in this act, and (2) self-financing authority is provided to cover any costs that may be incurred in carrying on any program or performing any service required to be carried on or performed by this act.

The people of the State of California do enact as follows:

SECTION 1. Title 12 (commencing with Section 93000) is added to the Government Code, to read:

The commission shall not include in the study any site for the western terminus unless the board of supervisors of the county of the proposed site after public hearings approves that site selection.

(b) Before the commission or a franchisee begins construction and before receipt of final certificates and permits necessary for construction or use of public right-of-way, the route and terminals selected by the commission, as part of the final study, shall first be submitted to, and ratified by, the California Legislature, by statute, and the Nevada Legislature or Nevada Legislative Commission, as required by Nevada law. ARTICLE V. TERMINATION

93002. This title shall remain in effect only until January 1, 1992, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1992, deletes or extends that date.

CHAPTER 1260

An act to add and repeal Section 1530.6 of the Health and Safety Code, and to add Section 16508.2 to, the Welfare and Institutions Code, relating to child welfare services, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature. Filed with Secretary of State September 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that there has been an increase of children placed in foster care during the past several years and that the average cost for a child placed in foster care has also increased.

The Legislature also finds and declares that California, unlike many other states, has not developed many alternatives to 24-hour foster care placements. This is not only detrimental to children and families, but is expensive for the state.

It is the policy of this state to keep children with their families whenever possible and to shorten stays in foster care whenever possible. Day treatment is an alternative which can be used to prevent more costly 24-hour placements and to shorten stays in foster care by returning children to their families while still maintaining the program of counseling or treatment established in foster care.

The Legislature has created a new community care facility category entitled a "Day Treatment Facility." Accordingly, current law permits courts to place children in day treatment and to order parental participation in the programs.

It is the intent of the Legislature that the State Department of Social Services explore the use of day treatment as an alternative to

traditional foster care placements.

SEC. 2. Section 1530.6 is added to the Health and Safety Code, to read:

1530.6. (a) The department shall, with the advice and assistance of representatives of the counties and day treatment providers, establish regulations, including program standards, for day treatment facilities, licensed pursuant to Section 1502, as soon as possible but no later than January 1, 1989.

(b) This section shall remain in effect only until July 1, 1990, and as of that date is repealed, unless a later enacted statute chaptered prior to that date deletes or extends that date.

SEC. 3. Section 16508.2 is added to the Welfare and Institutions Code, to read:

16508.2. (a) It is the intent of the Legislature to establish additional alternatives to foster care placements. Day treatment is an alternative which has been shown in other states to be effective in reunifying families, and in avoiding or shortening the time the children must stay in foster care, and to be significantly less expensive than foster care.

(b) The State Department of Social Services shall establish an advisory committee consisting of representatives of the Department of Finance, the County Welfare Directors Association, the California Association of Services for Children, the National Association of Social Workers, the California Association of Children's Homes, and the California Children's Lobby. The advisory committee shall assist the department in the development of day treatment standards, as required by Section 1502 of the Health and Safety Code, in order that such programs can be created as an alternative to placement in foster care and as a means of reunifying children with their families from such placements. The department shall submit a report on day treatment to the Legislature no later than April 1, 1988. The report shall include, but not be limited to, all of the following:

(1) The criteria for the types of children who could be served by day treatment programs.

(2) The types of services which could be provided to such children through day treatment.

(3) The potential cost savings which could be realized through the use of day treatment as an alternative to 24-hour, out-of-home placement.

(4) Recommendations for funding day treatment as an alternative to foster care.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide the widest range of protective services to abused and neglected children as early as possible, it is necessary for this act to take effect immediately.

CHAPTER 1261

An act to add Section 11811.5 to the Health and Safety Code, relating to chemical dependency, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 11811.5 is added to the Health and Safety Code, to read:

11811.5. In addition to any other services authorized under this chapter the department shall urge the county, in the county alcohol program plan to, develop within existing resources specific policies and procedures no later than January 1, 1988, to address the unique treatment problems presented by persons who are both mentally disordered and chemically dependent. If contained in the county alcohol program plan, priority shall be given to developing policies and procedures that relate to the diagnosis and treatment of homeless persons who are mentally disordered and chemically dependent.

The director shall consult with the Director of Mental Health in developing guidelines for county mental health and alcohol and drug treatment programs in order to comply with this section.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Thousands of homeless mentally disordered are also chemically dependent and there are few treatment programs specifically designed to address this dual diagnosis. In order to address this problem and to develop appropriate treatment programs it is necessary that this act take immediate effect.

CHAPTER 1262

An act to amend Sections 744, 5141, and 5142 of, to amend and renumber Sections 5146 and 5148 of, to add Section 5148 to, and to repeal Section 5149 of, the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 744 of the Revenue and Taxation Code is amended to read:

744. (a) The board shall notify the petitioner of its decision on a petition for reassessment by mail and shall make written findings and conclusions if requested at or prior to the commencement of the hearing. The board shall send a copy of its decision and any written findings and conclusions thereon to each county in which the affected state-assessed property is situated. The findings shall fairly disclose the board's determination of material factual issues and shall contain a statement of the method or methods of valuation used by the board in valuing the property. Decisions of the board on petitions for reassessment of state-assessed property shall be completed on or before December 31.

(b) When the value of an assessee's state-assessed property is determined, after a hearing on a petition for reassessment, to be different from the value originally adopted by the board, the board shall determine the year in which the corrected value is to be entered on the roll. The correct value may be entered on the roll for the fiscal year in which the determination is made, or the difference between the original and the corrected value may be entered as an increase or decrease in the assessment for the succeeding fiscal year. If the corrected value is entered on the roll for the fiscal year in which it is determined, and the board roll has been transmitted to the county auditors, the board shall make the corresponding changes in allocations and transmit the roll corrections to the county auditor.

(c) If the amount of the correction is to be entered on the roll for the succeeding fiscal year, an amount is to be added in lieu of interest. If the correction results in a reduction in assessed value, there shall be added to the reduction, in lieu of interest, 9 percent of the difference between the original assessed value and the reduced assessed value. If the correction results in an increase in assessed value, there shall be added to the increase, in lieu of interest, 9 percent of the difference between the original assessed value and the increased assessed value.

SEC. 2. Section 5141 of the Revenue and Taxation Code is amended to read:

5141. (a) An action brought under this article, except an action brought under Section 5148, shall be commenced within six months from and after the date that the board of supervisors or city council rejects a claim for refund in whole or in part.

(b) Except as provided in subdivision (c), if the board of supervisors or city council fails to mail notice of its action on a claim for refund within six months after the claim is filed, the claimant may, prior to mailing of notice by the board of supervisors or city council of its action on the claim, consider the claim rejected and bring an action under this article.

(c) If an applicant for the reduction of an assessment states in the

application that the application is intended to constitute a claim for refund pursuant to Section 5097, the claim for refund shall be deemed denied on the date the final installment of the taxes extended on such assessment becomes delinquent or on the date the equalization board makes its final determination on the application, whichever is later.

SEC. 3. Section 5142 of the Revenue and Taxation Code is amended to read:

5142. No action shall be commenced or maintained under this article, except under Section 5148, unless a claim for refund has first been filed pursuant to Article 1 (commencing with Section 5096).

No recovery shall be allowed in any such action upon any ground not specified in the claim.

SEC. 4. Section 5146 of the Revenue and Taxation Code is amended and renumbered to read:

5149. All courts wherein actions brought under this part are or hereafter may be pending shall give those actions precedence over all other civil actions therein, except actions to which special precedence is given by law, in the matter of setting same for hearing or trial, and in hearing the same, to the end that all those actions shall be quickly heard and determined.

SEC. 5. Section 5148 of the Revenue and Taxation Code is amended and renumbered to read:

5146. If all or any portion of the taxes sought to be recovered were collected by officers of the county for a city or cities, an action must be brought against the county for the recovery of those taxes. When an action is filed against a county for taxes collected by the county on behalf of a city or cities, the county shall give notice of that action to the city or cities within 30 days of the county's receipt of the summons and complaint. A fee shall be payable by the assessee in an amount prescribed by the court to cover the reasonable costs incurred by a county or counties in giving the required notice. Any city receiving notice of the action filed against the county may, within 30 days of the receipt of that notice, intervene in that action. Whether or not a city intervenes in the action, any judgment rendered for an assessee shall be entered exclusively against the county; however, the county shall be entitled to recover separately from the city or cities and other tax entities those taxes collected by the county on behalf of the city or cities and other tax entities which are subject to refund to the assessee as a result of the judgment. Payment to the taxpayer upon the judgment and any interest thereon may be deferred by the county until the apportionment of property tax revenue next following the date of the judgment, or as the county and the taxpayer may otherwise agree. Interest shall accrue during any deferral period unless the county and taxpayer otherwise agree. The county may if it chooses to do so offset the amount of the judgment and interest recoverable by it from the city or cities and other tax entities against amounts held in the county treasury therefor or against amounts due and payable thereto,

including, but not limited to, property tax apportionments. The amount of the fee required by this section shall not be recoverable by the assessee in the action and no judgment entered in the action in favor of the assessee shall provide for the recovery of the fee.

As used in this section, "county" includes a city and county.

If all or any portion of the taxes sought to be recovered were levied on state-assessed property, property which the board has found ineligible for the welfare exemption pursuant to Section 254.5, or property as to which the board has reviewed the assessment pursuant to Section 11 of Article XIII of the Constitution, the board shall be joined as a party to the action.

SEC. 6. Section 5148 is added to the Revenue and Taxation Code, to read:

5148. Notwithstanding Section 5140, an action to recover taxes levied on state-assessed property arising out of a dispute as to an assessment made pursuant to Section 721, including a dispute as to valuation, assessment ratio, or allocation of value for assessment purposes, shall be brought under this section. In any action brought under this section, the following requirements shall apply:

(a) The action shall be brought by the state assessee. There shall be a single complaint with all parties joined therein with respect to disputes for any year.

(b) The action shall name the board and the county or counties. When a county is named which collected taxes on behalf of a city or cities, the county shall give notice of that action to the city or cities within 30 days of receipt of advice from the board of the action. A fee shall be payable by the state assessee in an amount prescribed by the court to cover the reasonable costs incurred by a county or counties in giving that notice. Any city receiving notice of the action filed against the board and the county may, within 30 days of the receipt of that notice, intervene in that action. Whether or not a city intervenes in the action, any judgment rendered for an assessee shall be entered exclusively against the county; however, the county shall be entitled to recover separately from the city or cities and other tax entities those taxes collected by the county on behalf of the city or cities and other tax entities which are subject to refund to the assessee as the result of the judgment. Payment to the taxpayer upon the judgment and any interest thereon may be deferred by the county until the apportionment of property tax revenue next following the date of the judgment, or as the county and the taxpayer may otherwise agree. Interest shall accrue during any deferral period unless the county and taxpayer otherwise agree. The county may if it chooses to do so offset the amount of the judgment and interest recoverable by it from the city or cities and other tax entities against amounts held in the county treasury therefor or against amounts due and payable thereto, including, but not limited to, property tax apportionments. The amount of the fee required by this section shall not be recoverable by the assessee in the action and no judgment entered in the action in favor of the assessee shall provide

for the recovery of the fee.

As used in this section, "county" includes a city and county.

(c) Service of the summons and complaint shall be only upon the board. The board shall serve as agent of the defendant county or counties for the purpose of service of process. A fee shall be payable by the state assessee in an amount prescribed by the court to cover all reasonable costs incurred by the board while acting in its capacity as agent for the defendant counties.

(d) Venue of the action shall be in any county in which the Attorney General of California has an office or in which the state assessee has a significant presence.

(e) The action shall be limited in the case of valuation and allocation disputes to the grounds specified in the following:

(1) A petition for reassessment filed under Section 741, or any proceeding thereon.

(2) A petition for correction of allocated assessment filed under Section 747, or any proceeding thereon.

(f) A timely filed petition for reassessment or petition for correction of allocated assessment shall constitute a claim for refund if the petitioner states in the petition it is intended to so serve.

(g) The action shall be commenced only after payment of the taxes in issue and within four years after the latest of the dates that the State Board of Equalization mailed its decision or its written findings and conclusions on the following:

(1) A petition for reassessment filed under Section 741 and intended to constitute a claim for refund.

(2) A petition for correction of allocated assessment filed under Section 747 and intended to constitute a claim for refund.

(h) The action shall not be joined with any action filed under Section 5140.

(i) Any refund of tax overpayments and any interest thereon, determined in any action brought under this section to be due shall be made by the defendant county or counties.

SEC. 7. Section 5149 of the Revenue and Taxation Code is repealed.

CHAPTER 1263

An act to amend Section 11008.14 of the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 28, 1987 Filed with Secretary of State September 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 11008.14 of the Welfare and Institutions Code is amended to read:

11008.14. To the same extent as required by federal law, the income of the natural or adoptive parent, and the spouse of the natural or adoptive parent, and the sibling of an eligible child, living in the same home with an eligible child shall be considered available, in addition to the income of an applicant for or recipient of aid under Chapter 2 (commencing with Section 11200), for purposes of eligibility determination and grant computation. Except as otherwise provided in this section, in the case of a parent or legal guardian of a minor who is also the parent of an eligible child, the income of the parent or guardian shall be considered available to the minor parent and eligible child to the same extent that income to a stepparent is considered available to an assistance unit, consistent with federal law.

This section shall be applied to all applicants for, and recipients of, Aid to Families with Dependent Children provided under Chapter 2 (commencing with Section 11200), except that income of a guardian of an applicant for, or recipient of, foster care benefits provided under Article 5 (commencing with Section 11400) of Chapter 2 shall not be considered available to the ward or to a child of the ward for the purpose of eligibility determination and grant computation under Chapter 2 (commencing with Section 11200). This section shall be applied regardless of whether federal financial participation is available for the family.

SEC. 2. The amendment of Section 11008.14 of the Welfare and Institutions Code does not constitute a change in, but is declaratory of, existing law, as expressed by the court in Hager v. McMahon, Los Angeles Superior Court Number C 608617.

CHAPTER 1264

An act to amend Section 7091 of, and to add Sections 7019, 7020, and 7065.3 to, the Business and Professions Code, relating to contractors, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the "Areias-Stirling Contractors' State License Board Enforcement Act."

SEC. 1.5. (a) The Legislature finds and declares the following:

(1) The Contractors' State License Board has consistently failed to serve the needs of consumers who have attempted to file and resolve complaints against licensees of the board. This failure is underscored by the board's almost total lack of adequate technological means to communicate with consumers and others in a timely manner and to

manage its licensing and enforcement workload effectively.

(2) The failure of the Contractors' State License Board to preserve a measure of consumer protection in the contractor industry is evidenced by the board's tremendous backlog of uninvestigated consumer complaints which is increasing on a daily basis.

(3) The effect of the lack of accessibility, the complaint backlog, and the lack of enforcement action has been an inability of consumers to recover their financial losses and correct damages to their homes or businesses in a timely manner and the perpetuation of a largely risk-free environment for those contractors who violate the law.

(b) It is the intent of this act to enable the Contractors' State License Board to provide consumers with meaningful protection against contractors in violation of the law, to reduce the number of backlogged consumer complaints, and efficiently carry out its regulatory responsibilities.

SEC. 2. Section 7019 is added to the Business and Professions Code, to read:

7019. (a) If funding is made available for that purpose, the board may contract with licensed professionals, as appropriate, for the site investigation of consumer complaints. The registrar shall determine the rate of reimbursement for licensed professionals performing inspections on behalf of the board. All reports shall be completed on a form prescribed by the registrar.

(b) On or before January 1, 1990, the board shall report to the Legislature on the effectiveness of using licensed professionals for the inspection of consumer complaints.

(c) As used in this section, "licensed professionals" means, but is not limited to, engineers, architects, landscape architects, and geologists licensed, certificated, or registered pursuant to this division.

SEC. 3. Section 7020 is added to the Business and Professions Code, to read:

7020. On or before January 1, 1990, the board shall implement a computerized enforcement tracking system for consumer complaints.

SEC. 4. Section 7065.3 is added to the Business and Professions Code, to read:

7065.3. Notwithstanding Section 7065, the registrar may waive the written trade examination for an applicant who applies for licensure in a trade for which the board, by regulation, has waived the written trade examination. In these instances, experience submitted by the applicant shall be subject to review and investigation.

In adopting the regulation by which waiver of a trade examination may be granted, the board shall give due consideration to the health and safety concerns of the trade, the frequency of complaints generated by the license classification for the trade, and the number

of applicants for the trade.

SEC. 5. Section 7091 of the Business and Professions Code is amended to read:

7091. All complaints against licensees alleging commission of any acts or omissions which may be grounds for legal action shall be filed in writing with the registrar within three years after the act or omission alleged as the ground for the disciplinary action. All accusations and citations against licensees shall be filed within three years after the act or omission alleged as the ground for disciplinary action or within 18 months from the date of the filing of the complaint with the registrar, whichever is later, except that with respect to an accusation alleging a violation of Section 7112, the accusation may be filed within two years after the discovery by the registrar or by the board of the alleged facts constituting the fraud or misrepresentation prohibited by the section. Accusations regarding an alleged breach of an express, written warranty for a period in excess of three years issued by the contractor shall be filed within the duration of that warranty. The proceedings under this article shall be conducted in accordance with the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the registrar shall have all the powers granted therein.

Nothing in this section shall be construed to affect the liability of a surety or the period of limitations prescribed by law for the commencement of actions against a surety or cash deposit.

SEC. 6. The sum of three million one hundred ninety-one thousand dollars ($3,191,000) is hereby appropriated from the Contractors' License Fund to the Contractors' State License Board for expenditure according to the following schedule:

(a) For the purchase of an automated telephone answering system for district offices designated by the registrar	$952,000
(b) For completing the board's enforcement and licensing system, developing an application and examination system, and purchasing and installing an in-house computer to serve the board's informational needs in the areas of enforcement, licensing, and examinations	$1,955,000
(c) For providing consulting assistance for the implementation of the board's automated telephone answering system and to support the electronic data processing needs of the board..	$284,000

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Due to the need to address the current backlog facing the

Contractors' State License Board and the need to address consumers complaints in a timely manner, it is necessary that this act take effect immediately as an urgency statute.

CHAPTER 1265

An act to amend Section 8880.60 of the Government Code, relating to the California State Lottery, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 8880.60 of the Government Code is amended to read:

8880.60. Contracts

(a) Subject to the approval of the Commission, the Director may directly solicit proposals or enter into contracts for the purchase or lease of goods or services for effectuating the purpose of this chapter. In awarding contracts in response to solicitations for proposals conducted by the California State Lottery, the Director shall award the contracts to the responsible supplier submitting the lowest and best proposal pursuant to the procedures adopted by the Commission as prescribed in subdivision (b) of Section 8880.56, which maximizes the benefits to the state in relation to cost in the areas of security, competence, experience, timely performance, and maximization of net revenues to benefit the public purpose described in this chapter. All contracts entered into by the Director shall be subject to the approval of the Commission.

(b) No member of the Commission shall, for a two-year period after the end of the member's term, accept any consideration from, whether directly or indirectly, and shall not accept any employment with, whether as an employee, independent contractor, or consultant, any Lottery Contractor successful in a major procurement whose contract award was subject to formal approval by the Commission. No Director shall accept any consideration from, whether directly or indirectly, and shall not accept any employment with, whether as an employee, independent contractor, or consultant, any Lottery Contractor successful in a major procurement for a period of two years commencing on the last day that the Director is employed by the Lottery. No other Lottery employee involved in the evaluation of or recommendation to award a major procurement shall accept any such consideration from, or employment with, any Lottery Contractor successful in that procurement for a period of one year commencing on the last day that the person is employed by the Lottery. In the event that the

Director, any member of the Commission, or other Lottery employee violates this subdivision, the Commission may terminate the contract between the Lottery and the Lottery Contractor for the major procurement. The Attorney General shall investigate the facts surrounding the violation and shall recommend to the Commission any appropriate civil remedies which the Lottery has against the Lottery Contractor, member of the Commission, Director, or other Lottery employee due to the violation, including, but not limited to, action to terminate the Lottery Contractor's contract where appropriate.

For purposes of this subdivision, "major procurement" means any procurement of materials, supplies, services, or equipment other than those common to the ordinary operations of state agencies.

The prohibitions imposed by this subdivision shall not apply to any person who left government service prior to the effective date of this subdivision, except that any such person who returns to government service on or after that date shall thereafter be covered thereby.

SEC. 2. The Legislature finds and declares that this act furthers the purpose of the California State Lottery Act of 1984.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent the California State Lottery from entering into or continuing contracts for major procurements which may compromise the integrity of the Lottery at the earliest possible time, it is necessary for this act to take effect immediately.

CHAPTER 1266

An act to amend Sections 6365 and 6366.3 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

forms as prescribed by the board, sufficient to substantiate its claim. Such records shall include, but not be limited to, the date of purchase, the purchase price, the date the property was first brought into this state, and the dates and locations the work of art was on display at a museum.

SEC. 2. Section 6366.3 of the Revenue and Taxation Code is amended to read:

6366.3. (a) There are exempted from the taxes imposed by this part the gross receipts from the sale of and the storage, use or other consumption in this state of tangible personal property purchased by the state or any local government entity as part of a public art collection which shall be considered a museum pursuant to paragraph (4) of subdivision (d) or a nonprofit museum regularly open to the public which is operated by or for a local or state government entity, or operated by a nonprofit organization which has qualified for exemption pursuant to Section 23701d, provided:

SEC. 4. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the provisions of this act shall become operative on the first day of the first calendar quarter commencing more than 90 days after the effective date of this act.

(r) A fee for approval of continuing education courses of not more than twenty-five dollars ($25).

(s) Any person who pays a fee pursuant to subdivision (q) shall, in addition, pay a fee of two dollars ($2) for each pesticide use stamp purchased from the board. CHAPTER 1268

An act to add Section 1526 to the Civil Code, relating to accord and satisfaction.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 1526 is added to the Civil Code, to read:

1526. (a) Where a claim is disputed or unliquidated and a check or draft is tendered by the debtor in settlement thereof in full discharge of the claim, and the words "payment in full" or other words of similar meaning are notated on the check or draft, the acceptance of the check or draft does not constitute an accord and satisfaction if the creditor protests against accepting the tender in full payment by striking out or otherwise deleting that notation or if the acceptance of the check or draft was inadvertent or without knowledge of the notation.

(b) Notwithstanding subdivision (a), the acceptance of a check or

draft constitutes an accord and satisfaction if a check or draft is tendered pursuant to a composition or extension agreement between a debtor and its creditors, and pursuant to that composition or extension agreement, all creditors of the same class are accorded similar treatment, and the creditor receives the check or draft with knowledge of the restriction.

A creditor shall be conclusively presumed to have knowledge of the restriction if a creditor either:

(1) Has, previous to the receipt of the check or draft, executed a written consent to the composition or extension agreement.

(2) Has been given, not less than 15 days nor more than 90 days prior to receipt of the check or draft, notice, in writing, that a check or draft will be tendered with a restrictive endorsement and that acceptance and cashing of the check or draft will constitute an accord and satisfaction.

(c) Notwithstanding subdivision (a), the acceptance of a check or draft by a creditor constitutes an accord and satisfaction when the check or draft is issued pursuant to or in conjunction with a release of a claim.

(d) For the purposes of paragraph (2) of subdivision (b), mailing the notice by first-class mail, postage prepaid, addressed to the address shown for the creditor on the debtor's books or such other address as the creditor may designate in writing constitutes notice.

CHAPTER 1269

An act relating to the Department of the Youth Authority, and making an appropriation therefor.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987]

I am deleting the $55,000 appropriation contained in Section 2 of Assembly Bill No. 2330.

This bill would appropriate $55,000 to the Department of the Youth Authority to establish a visitor center at the Northern California Youth Center in Stockton.

The demands placed on budget resources require all of us to set priorities. The budget enacted in July, 1987 appropriated nearly $41 billion in state funds This amount is more than adequate to provide the necessary essential services provided for by State Government It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

Thus, after reviewing this legislation, I have concluded that its merits do not sufficiently outweigh the need this year for funding top priority programs and continuing a prudent reserve for economic uncertainties.

I would, however, consider funding the provisions of this bill during the budget process for Fiscal Year 1988–89. It is appropriate to review the relative merits of this program in comparison to all other funding projects. The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit

With this deletion, I approve Assembly Bill No. 2330.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares the following:

(1) Maintaining a ward's family ties has a positive effect on the recidivism rate for youthful offenders.

(2) Enhancing visitor services increases the frequency and quality of visits, thereby discouraging violent ward activity.

(3) Enhancing visitor services provides wards with strong family support, which can have a stabilizing influence on the institution, benefiting the wards, the staff, and the community.

(4) The location of the Northern California Youth Center and lack of services to assist visitors impedes visiting.

(b) A visitor center shall provide, at a minimum, each of the following services to visitors:

(1) Outreach programs to wards' families.

(2) Assistance to visitors with transportation between public transit terminals and the Northern California Youth Center.

(3) Child care for visitor's children.

(4) Family counseling.

(5) Information on visiting regulations and processes.

(6) Referral to other agencies and services.

(7) Parent education.

(8) A sheltered area, which is outside of the security perimeter, for visitors who are waiting before or after visits.

In addition, the center shall maintain working relations with the local community and institution.

(c) The Department of the Youth Authority shall, on or before January 1, 1989, submit to the Legislature a report which includes, but is not limited to, the following information:

(1) A description of the barriers to visiting.

(2) A quantitative and narrative description of the services which it rendered.

(3) A description of the impact of the visitor center on visiting.

(4) A description of the community resources which it utilized.

(d) The goals of the nonprofit agency under contract with the Department of the Youth Authority to operate a visitor center shall be to achieve all of the following:

(1) Doubling the number of wards receiving visits from their families by the end of the final year of the contract, thus establishing positive family relationships.

(2) Improvement of ward institutional performance and behavior, resulting in reduced time spent by wards in institutions and concurrent savings in bed space.

(3) Improvement of ward parole performance, resulting in significant cost savings, as, in view of the current approximate twenty-eight thousand dollars ($28,000) per year costs of institutional maintenance of a ward, a reduction of recidivism of 10 percent a year would produce substantial savings.

(e) For purposes of program evaluation, records shall be maintained of wards receiving visits and families receiving services. The wards shall be traced through their institutional and parole experiences. Their success and failure rate shall be compared to that of wards who did not receive visits or services.

SEC. 2. The sum of fifty-five thousand dollars ($55,000) is hereby appropriated from the General Fund to the Department of the Youth Authority for the purpose of entering into a contract with a private, nonprofit agency, with prior experience in establishing and operating prison visitor centers in this state, in order to provide an onsite visitor center and related facilities and services at the Northern California Youth Center.

SEC. 3. This act shall be operative until January 1, 1989, and on that date is repealed.

CHAPTER 1270

An act making an appropriation for the payment of claims against the State of California, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1987 Filed with Secretary of State September 28, 1987]

I am reducing the appropriation contained in Section 1 (a) of Senate Bill No. 1310 from $49,649,834 to $43,699,834

I am reducing the $1,900,000 appropriation in Schedule (8) to $950,000. This money is for reimbursement to school districts of the costs to inspect school buildings for friable asbestos. The Education Code provides for reimbursement for similar activities on a dollar-for-dollar match basis Had the districts that are provided for in this bill applied under the Education Code for reimbursement, the maximum reimbursement received would have been an amount equal to one-half of the local funds spent for asbestos inspection activities. Therefore, it would seem reasonable and consistent that any amount appropriated for reimbursement to districts, be equivalent to the amount of reimbursement that the districts would otherwise have received under statute

With this reduction, I approve Senate Bill No. 1310

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. The sum of forty-nine million six hundred forty-nine thousand eight hundred thirty-four dollars ($49,649,834) is hereby appropriated, in accordance with the following schedule, to the Controller for the payment of claims for reimbursement of state-mandated costs:

(6) One million twenty-five thousand dollars ($1,025,000) for the payment of claims of counties seeking reimbursable state-mandated costs incurred through the Democratic Party presidential delegate selection process pursuant to Chapter 1603 of the Statutes of 1982 and Chapter 1166 of the Statutes of 1983 for the 1983–84, 1984–85, 1985–86, 1986–87, and 1987–88 fiscal years.

(7) Nineteen thousand dollars ($19,000) for the payment of claims of counties seeking reimbursable state-mandated costs incurred through mobilehome property tax postponement mandated pursuant to Chapter 1051 of the Statutes of 1983 for the 1983–84, 1984–85, 1985–86, 1986–87, and 1987–88 fiscal years.

(A) Two hundred twenty-five thousand dollars ($225,000) for the 1986–87 fiscal year in augmentation of category (w) of Item 8885-101-001 of the Budget Act of 1986.

(B) Five hundred seventy-five thousand dollars ($575,000) for the 1987–88 fiscal year in augmentation of category (27) of Item 8885-101-001 of the Budget Act of 1987.

(b) Six hundred thirty-seven thousand three hundred four dollars ($637,304) from the Restitution Fund to cover deficiencies in prior appropriations for reimbursement of state-mandated costs incurred pursuant to Chapter 1123 of the Statutes of 1977.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 1271

An act to amend Section 5405 of the Welfare and Institutions Code, relating to mental health, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1987 Filed with Secretary of State September 28, 1987]

I am deleting the $55,000 appropriation contained in Welfare and Institutions Code Section 5405 (5) (g) of Senate Bill No. 240.

This appropriation is for the Office of the Attorney General, and is intended to cover their costs in representing the Department of Mental Health in appeal cases

While it is likely that appeal activities will occur, I believe that an appropriation for the Attorney General's Office at this time is premature Funds necessary for appeal activities should be addressed in the Department of Mental Health's budget through the normal budgetary process

With this deletion, I approve Senate Bill No 240.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 5405 of the Welfare and Institutions Code is amended to read:

5405. (a) The State Department of Mental Health shall establish, by regulation, program standards for any facility licensed as a community treatment facility providing mental health treatment services to seriously emotionally disturbed children, as defined in Section 5678.2, pursuant to subdivision (a) of Section 1502 of the

Health and Safety Code. This section shall apply only to community treatment facilities described in this subdivision.

(e) During the initial public comment period for the adoption of the regulations required by this section, the community care facility licensing regulations proposed by the State Department of Social Services and the program standards proposed by the State Department of Mental Health shall be presented simultaneously. The public comment period shall commence no later than July 1, 1988.

(f) The sum of forty-five thousand dollars ($45,000) is hereby appropriated annually from the General Fund to the State Department of Mental Health for one personnel year to carry out the provisions of this section.

(g) The sum of fifty-five thousand dollars ($55,000) is hereby appropriated from the General Fund to the office of the Attorney General for purposes of representing the State Department of

Mental Health when a facility appeals a denial of certification or decertification as provided in this section.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure the safety of children placed in community treatment programs, it is necessary that this act take effect immediately.

19610.5. In addition to the amounts required to be paid as license fees under any other provision of this chapter, every association, except an association conducting a racing meeting pursuant to Section 19612.6 or 19614 or, an association conducting a harness meeting on a track of one mile or longer shall pay 1 percent of its exotic parimutuel pools to the state as an additional license fee.

$550,001 to $750,000	$13,750 plus 5.5 percent of the handle in excess of $550,001
$750,001 and more	$24,750 plus 4.7 percent of the handle in excess of $750,001

In addition, every association subject to this subdivision shall pay an additional license fee at the rate of 0.75 percent of its daily exotic parimutuel handle, except that any harness association or its successor in interest which conducts a harness meeting on a track of one mile or longer shall retain that 0.75 percent as an additional commis-

In addition, every such association shall pay an additional license fee at the rate of 0.75 percent of its daily exotic parimutuel handle, except that any harness association or its successor in interest which conducts a harness meeting on a track of one mile or longer shall retain that 0.75 as an additional commission. Except as provided in Section 19610.5, no such association shall pay a license fee in excess of 3.04 percent of its daily conventional parimutuel handle and 3.79 percent of its daily exotic parimutuel handle.

(d) Every quarter horse association which conducted its racing meeting in the northern zone prior to January 1, 1979, or which conducts its meeting pursuant to Section 19549.3 or 19549.9, shall pay a daily license fee based upon its daily conventional and exotic parimutuel handle in accordance with the following schedule:

Daily Handle	License Fee Rate
$550,000 or less	1.5 percent of handle
$550,001 to $750,000	$8,250 plus 2.75 percent of the handle in excess of $550,001
$750,001 and more	$13,750 plus 4.7 percent of the handle in excess of $750,001

In addition, every such association shall pay an additional license fee at the rate of 0.75 percent of its daily exotic parimutuel handle. Except as provided in Section 19610.5, no such association shall pay a license fee in excess of 3.8 percent of the daily conventional parimutuel handle and 4.55 percent of its daily exotic parimutuel handle.

(e) Every association which conducted a quarter horse racing meeting in the southern zone during the daytime prior to January 1, 1979, and thereafter conducts such a meeting at night, shall be entitled to the following license fee adjustment:

For each 1 percent that the association's average daily handle in the 1981 year, during the period from the commencement of the meeting to December 25, falls below its 1980 average daily handle during the same period, the amount of the applicable license fee as set forth in subdivision (a) shall be reduced by 2 percent.

(f) Any association qualified to operate its meetings pursuant to Section 19612.6 shall be entitled to continue to distribute license fees, commissions, and purses as provided by that section.

(g) Notwithstanding subdivision (b), for every association which conducts a quarter horse meeting in the northern zone pursuant to subdivision (d), the amount remaining after deduction of the state license fee shall be distributed between commissions and purses as agreed to by the association conducting the meeting and the organization representing the horsemen participating at the meeting. Every association conducting a quarter horse meeting pursuant to subdivision (d) may deduct an additional amount up to 1 percent of its conventional and exotic parimutuel pools to be distributed as commissions. The association may also deduct an additional 1 percent from the exotic parimutuel pools to be distributed as commissions and purses as agreed to by the association conducting the meeting and the organization representing the horsemen participating at the meeting.

[Approved by Governor September 28, 1987 Filed with Secretary of State September 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 19442 of the Business and Professions Code is amended to read:

19442. The board shall contract with persons licensed as stewards pursuant to Section 19510 to perform the duties of stewards at horseracing meets and representatives of the affected racing associations shall be entitled to participate in the negotiation of the contracts. Contracts shall be upon such terms as the board and the stewards may mutually agree upon and may contain differing rates of compensation based upon the experience of the steward.

The board shall assess each racing association prior to the start of any race meet for an amount equal to the total compensation to be paid to the stewards assigned by the board to the race meet. The funds shall be paid to the board by the associations in equal installments at the end of each week, or partial week of racing. The board shall maintain these funds in a separate trust account in the State Treasury, and the board may withdraw advances from the trust account which are sufficient to meet the requirements of the stewards' compensation program, including costs incurred for reasonable and necessary administrative operations but in amounts not to exceed 2 percent of the total of funds assessed for the program.

The board shall establish a committee of at least two board members to meet at least quarterly with representatives of the stewards, so that recommendations of the stewards can be discussed as necessary. These meetings may be scheduled the same day as regular board meetings or at the convenience of the board.

This section shall be repealed on July 1, 1988.

SEC. 1.2. Section 19442 is added to the Business and Professions Code, to read:

19442. The board shall contract with persons licensed as stewards pursuant to Section 19510 to perform the duties of stewards at horseracing meets. Contracts shall be upon the terms as the board and the stewards may mutually agree upon and may contain

differing rates of compensation based upon the experience of the steward.

The board shall establish a committee of at least two board members to meet at least quarterly with representatives of the stewards, so that recommendations of the stewards can be discussed as necessary. These meetings may be scheduled the same day as regular board meetings or at the convenience of the board. Representatives of associations may attend and participate in these meetings, or portions thereof, when items directly affecting the associations are discussed.

The board shall provide compensation, including any fringe benefits, to stewards, to the official veterinarian, and for the costs of laboratory testing relating to horseracing.

This section shall become operative on July 1, 1988.

SEC. 1.3. Section 19442.5 is added to the Business and Professions Code, to read:

19442.5. When satellite wagering facilities are receiving a live audiovisual signal of a horseracing meeting, the board shall designate a steward at the track where the meeting is being conducted to be responsible for monitoring the satellite wagering activities at the track and at all satellite wagering facilities receiving the audiovisual signal.

SEC. 1.5. Section 19488 of the Business and Professions Code is amended to read:

19488. Every license issued under this article shall specify the following:

(a) The name of the person to whom it is issued.

(b) The track where the horseracing meeting to which it relates is to be held or conducted.

(c) The days and hours of the day when the meeting will be permitted.

(d) The number and types of races to be run on each day of the meeting.

(e) The number of usable stalls available for the meeting.

The license shall also recite the payment to and receipt by the board of the deposit to secure payment of the license fee required by this article.

SEC. 2. Section 19491 of the Business and Professions Code is amended to read:

19491. (a) Subject to the provisions of Sections 19491.5 and 19491.6, and except as provided in Section 19491.7, every association which conducts a racing meeting shall pay as an additional license fee one-half of the breakage deducted pursuant to Section 19597 on the first twenty-four million dollars ($24,000,000) or less, excluding wagering at a satellite wagering facility, of the total amount handled in the parimutuel pools relating to its meeting and all of the breakage deducted on amounts so handled in excess of twenty-four million dollars ($24,000,000), excluding wagering at a satellite wagering facility.

(b) Every association which conducts a racing meeting shall distribute the remaining one-half of the breakage deducted pursuant to Section 19597 on the first twenty-four million dollars ($24,000,000) or less, excluding wagering at a satellite wagering facility, of the total amount handled in the parimutuel pools relating to the meeting as additional purses and for additional commissions in the same proportion, as between purses and commissions, as provided in Sections 19611, 19612, 19612.5, 19612.6, and 19614.

(c) Notwithstanding the provisions of subdivision (b), one-half of all the breakage deducted pursuant to Section 19597 at fair racing meetings shall be retained and distributed as additional commissions. The amount distributed as purses and commissions shall be based on the respective parimutuel pools during the previous corresponding meeting, if any.

Payment of the fee shall be made weekly on account during each meeting, and the amount attributable to breakage shall be reported as a separate item.

SEC. 3. Section 19498 of the Business and Professions Code is repealed.

SEC. 3.5. Section 19535 is added to the Business and Professions Code, to read:

19535. Notwithstanding any other provision of law, at the time the board allocates racing weeks, it shall determine the number of usable stalls that each association or fair shall make available and maintain in order to conduct the racing meeting. The minimum number of stalls may be at the site of the racing meeting or, with the approval of the board, at an offsite location. All costs associated with the maintenance of the usable stalls for the racing meeting shall be borne by the association or fair conducting the meeting, and, with respect to usable stalls at an offsite location, the association or fair may be required, by order of the board, to bear the costs of vanning from the offsite location to the racing meeting, except that with respect to any racing association in the central or southern zone that conducted a racing meeting in 1986, if the number of usable stalls made available onsite by a racing association during a racing meeting is less than 95 percent of the number of usable stalls made available onsite by that racing association during its 1986 racing meeting, the racing association shall reimburse the facility providing offsite stabling for the difference in cost between the actual number of usable stalls made available and 95 percent of the usable stalls made available in 1986.

A racing association shall, in addition, reimburse the owner for vanning to the onsite location with respect to those horses stabled at an offsite location necessitated by the failure of a racing association to maintain 95 percent of the usable stalls made available by that racing association during its 1986 racing meeting.

SEC. 4. Section 19596.4 is added to the Business and Professions Code, to read:

19596.4. (a) An association other than a fair which conducts a

horseracing meeting with an average daily handle of one million five hundred thousand dollars ($1,500,000) or more shall produce a live audiovisual signal of its racing program and shall make this signal available, in accordance with paragraph (1) of subdivision (a) of Section 19596.5 and paragraph (2) of subdivision (b) of Section 19596.6, to any satellite wagering facility authorized to conduct wagering pursuant to Section 19596.5, 19596.6, or 19596.7.

(b) Unless the board finds it impractical to do so, any fair or any association with an average daily handle of less than one million five hundred thousand dollars ($1,500,000) may produce, at its option, a live audiovisual signal of its racing program. If the fair or association produces a signal of its program, the signal shall be made available, in accordance with paragraph (1) of subdivision (a) of Section 19596.5 and paragraph (2) of subdivision (b) of Section 19596.6, to any satellite wagering facility authorized to conduct wagering pursuant to Section 19596.5, 19596.6, or 19596.7.

(c) In order to permit racing associations providing audiovisual signals the ability to do so without undue burden and expense, in order to avoid unnecessary duplication of facilities, in order to permit the racing associations to protect the security of their signals, and in order to permit the racing associations to protect the integrity of their parimutuel pools and to account for wagering proceeds included in those parimutuel pools, associations and fairs providing audiovisual signals pursuant to subdivision (a) or (b) may form an organization to operate, pursuant to board supervision, the audiovisual signal system. An organization operating under board supervision pursuant to this subdivision may consist of any combination of associations and fairs. Nothing in this subdivision precludes any other person or business entity from participating in, or holding a financial interest in, an organization formed by associations or fairs to operate satellite wagering, except that the person or business entity shall be approved by the board. Any organization formed shall provide horsemen's organizations contracting with associations and fairs for racing meetings and nonracing fairs operating satellite wagering facilities meaningful representation on its governing board, and shall administer the audiovisual signal and parimutuel operations at satellite wagering facilities. An organization shall bear the costs of operating the audiovisual signal system, including the costs of leasing or purchasing and operation of equipment for transmission and decoding of audiovisual signals and wagering data, the costs of totalisator equipment, mutuel department labor and equipment charges, and the costs, including labor, and overhead of the organization administering the satellite wagering program. A satellite wagering facility shall bear the costs of satellite receiving dishes, head-end assemblies, television monitors or screens, facility buildings, labor at the satellite wagering facility other than mutuel department labor, and any and all other costs at the satellite wagering facility not specifically referred to above. The board shall approve all costs and

resolve any differences between an organization and a satellite wagering facility as to which party is required to bear the costs for a disputed item.

SEC. 5. Section 19596.5 of the Business and Professions Code, as amended by Chapter 252 of the Statutes of 1987, is amended to read:

19596.5. (a) Notwithstanding any other provision of law, the board may authorize an association licensed to conduct a racing meeting in the northern zone to operate a satellite wagering facility for wagering on races conducted in the northern zone at its racetrack inclosure, except during the part of the day racing is being conducted at its racetrack, and may, with the approval of the Department of Food and Agriculture, authorize any county fair, district agricultural association fair, or citrus fruit fair in the northern zone eligible for an allocation of racing days pursuant to Section 19549, but which is not licensed to conduct a racing meeting or authorized pursuant to Section 19596.7, to locate a satellite wagering facility at its fairgrounds for wagering on races conducted in the northern zone, if all of the following conditions are met:

(1) An organization described in subdivision (c) of Section 19596.4 has executed agreements, which are approved by the board, with the association conducting a racing meeting in the northern zone and the satellite wagering facility. The agreement shall provide, among other things, the conditions for transmission of the signal and that the wagers made at the satellite wagering facility will be included in the appropriate conventional or exotic pool at the racetrack where the racing meeting is conducted. Notwithstanding any other provision of law or any agreement under this subdivision, for purposes of determining license fees and breakage at the racetrack where the racing meeting is conducted, wagers at a satellite facility shall not be included in the conventional or exotic pools of the association conducting the racing meeting.

(2) The horsemen's organization which represents the horsemen at the association which conducts the racing meeting on which wagers are accepted consents to the acceptance of wagers at the satellite wagering facility, except that the association or fair operating the satellite wagering facility may appeal the withholding of consent to the board which may determine that consent is not required.

(3) The accommodations and equipment used in conducting wagering at the satellite wagering facility and their location have been approved by the board.

(4) The method used by the satellite wagering facility to transmit wagers, odds, results, and other data related to wagering has been approved by the board.

(5) Except as provided in Section 19596.9, any association or fair which conducts satellite wagering shall conduct wagering on all racing offered to the satellite wagering facility, as long as the satellite wagering facility is not sustaining a loss on either a day meeting or night meeting, as determined by the board, and, if sustaining a loss

on either a day meeting or night meeting, as long as that loss is reimbursed by either an organization described in subdivision (c) of Section 19596.4 or an association.

In calculating the loss, if any, for operating a satellite wagering facility for a night meeting, only the expenses incurred by the satellite wagering facility because of acceptance of night wagers shall be considered, and no overhead expenses or expenses which would be incurred regardless of the acceptance of night wagers shall be considered.

(b) Notwithstanding subdivision (a), during periods of the day when there is no night racing in the northern zone, the live audiovisual signal of night harness or quarter horse races in the central or southern zone may be offered to satellite wagering facilities in the northern zone, provided, however, that racing associations may accept that audiovisual signal, but are not required to do so.

(c) The total percentage deducted from wagers at satellite wagering facilities shall be the same as the deductions for wagers at the racetrack where the racing meeting is being conducted and shall be distributed as set forth in this section. Amounts deducted under this section shall be distributed as follows:

(1) On thoroughbred meetings only, 2.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 4.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 2.5 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and 0.4 of 1 percent shall be distributed to the breeders in the form of breeders' awards, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(2) On harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 3.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 6 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and, in the case of quarter horses and Appaloosas, 0.4 of 1 percent shall be distributed as breeders awards to breeders of quarter horses and Appaloosas and, in the case of standardbreds, 0.4 of 1 percent shall be distributed for the California Standardbred Sires Stallion Program pursuant to Section 19619, and one-tenth of 1 percent of the amount wagered at

the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(3) In addition to the distributions in paragraph (1) or (2), on thoroughbred meetings and harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1 percent of the total amount handled by the satellite wagering facility shall be distributed to an organization described in subdivision (c) of Section 19596.4 for promotion of the program and 0.33 of 1 percent of the total amount handled by the satellite wagering facility shall be paid to the city or county in which the satellite wagering facility is located pursuant to Section 19610.3 or 19610.4.

(d) On thoroughbred meetings only, the funds remaining after distribution of the amounts set forth in subdivision (c) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent as purses to the horsemen participating in the racing meeting, except that owners' premiums shall be paid from the amount distributed for purses in the same relative percentage as owners' premiums are paid at the racing meeting. Of the amount deducted for purses at the association conducting the racing meeting, 10 percent shall be distributed in the form of purses to horsemen who participate in racing fairs that operate satellite wagering facilities. The 10 percent of the purses for horsemen who participate in racing fairs shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings to achieve the purposes of subdivision (i).

(e) On harness, quarter horse, Appaloosa, mixed breed, and fair meetings, the funds remaining after distribution of the amounts set forth in subdivision (c) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent to the horsemen in the form of purses at the association conducting the racing meeting.

(f) Except as provided in subdivisions (g) and (h), all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, are hereby continuously appropriated to the Department of Food and Agriculture, for allocation by the Director of Food and Agriculture in his or her discretion, for the following purposes:

(1) For repayment of the principal of, and interest on, bonds issued by a joint powers agency, or of other debt service or expense incurred, for the purpose of constructing improvements only at a fair's racetrack inclosure, for the purpose of construction of satellite wagering facilities at fairs, and for health and safety repair projects and handicapped access compliance at fairs. Notwithstanding any

other law, the department may also commit any funds available for allocation under Article 10 (commencing with Section 19620) to complete projects funded under this paragraph in the priority described in this paragraph.

(2) For repayment of expenses incurred by fairs in establishing and operating satellite wagering facilities.

(3) For health and safety repair projects at fairs.

(4) For support purposes of fairs generally.

(g) Seven and one-half percent of all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in the General Fund.

(h) Up to 10 percent of all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in a special account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings to achieve the purposes of subdivision (i). The department shall annually determine the percentage of revenues payable to the special account under this subdivision based on the amount necessary to achieve the purposes of subdivision (i).

(i) It is the intent of the Legislature that funds allocated pursuant to subdivision (h) be used primarily at fair racing meetings in the northern zone with a daily average handle of more than three hundred thousand dollars ($300,000). The Legislature further finds that its intent is that these allocations be used to bring the purses at these fairs, exclusive of purses for stakes races and special events, to a level of at least 80 percent of purses for similar classes of horses at private racing associations in the northern zone. The funds shall be used among all breeds. For fair racing meetings in the northern zone with a daily average handle of three hundred thousand dollars ($300,000) or less, it is the intent of the Legislature to bring the purses to a level of at least 25 percent of purses for similar classes of horses at private racing associations in the northern zone.

SEC. 6. Section 19596.6 is added to the Business and Professions Code, to read:

19596.6. (a) Notwithstanding any other provision of law, subject to the conditions and limitations set forth in this section and Section 19596.7, the following entities in the central or southern zone are eligible to be licensed to operate a satellite wagering facility for wagering on races conducted in the central or southern zone:

(1) Any county fair, district agricultural association fair, or citrus fruit fair which conducted general fair activities in 1986 within the central or southern zone, and which is eligible for an allocation of racing days pursuant to Section 19549, but which is not licensed to conduct a racing meeting, may locate a satellite wagering facility at its fairgrounds.

(2) Any association licensed to conduct a racing meeting in the central or southern zone.

(b) The board may authorize an eligible association or, with the approval of the Department of Food and Agriculture, an eligible fair, to operate a satellite wagering facility under all of the following conditions:

(1) A racing association licensed to conduct a racing meeting shall conduct satellite wagering only within its racing inclosure.

(2) An organization described in subdivision (c) of Section 19596.4 has executed an agreement approved by the board with the association conducting a racing meeting and the satellite wagering facility. The agreement shall provide, among other things, the conditions for transmission of the signal and that the wagers made at the satellite wagering facility are included in the appropriate conventional or exotic pool at the racetrack where the racing meeting is conducted.

(3) The accommodations and equipment used in conducting wagering at the satellite wagering facility and their location have been approved by the board.

(4) The method used by the satellite wagering facility to transmit wagers, odds, results, and other data related to wagering have been approved by the board.

(5) Any association or fair that operates a satellite wagering facility shall conduct wagering on all racing conducted in the central or southern zone that is offered to that satellite wagering facility, as long as the satellite wagering facility is not sustaining a loss on either a day meeting or a night meeting, as determined by the board, and, if sustaining a loss on either a day meeting or a night meeting, as long as that loss is reimbursed by either an organization described in subdivision (c) of Section 19596.4 or an association.

In calculating the loss, if any, for operating a satellite wagering facility for a night meeting, only the expenses incurred by the satellite wagering facility because of acceptance of night wagers shall be considered, and no overhead expenses or expenses of the satellite wagering facility which would be incurred regardless of the acceptance of night wagers shall be considered.

(c) Notwithstanding subdivision (a), a satellite wagering facility may not be located within the County of Los Angeles or within the County of Orange, except as follows:

(1) If all other conditions in subdivision (b) are met, the Fiftieth District Agricultural Association may be authorized to operate a satellite wagering facility upon its fairgrounds in the City of Lancaster and to accept wagers on races conducted in the southern and central zones.

(2) If all other conditions are met, any fair or association licensed to conduct racing meetings in the County of Los Angeles and any racing association other than a fair which is licensed to conduct racing in the County of Orange may be authorized to operate a satellite wagering facility for the limited purpose of conducting satellite wagering on races conducted at the Twenty-Second District Agricultural Association fairgrounds at Del Mar in the County of San

Diego, except that, when a fair in Orange County is licensed for a racing meeting, a satellite wagering facility located within the racing inclosure where the racing meeting is conducted may not operate on the days that racing is conducted.

(d) The total percentage deducted from wagers at satellite wagering facilities shall be the same as the percentage deducted from wagers at the racetrack where the racing meeting is being conducted and shall be distributed as set forth in this section. Amounts deducted by a satellite wagering facility under this section shall be distributed as follows:

(1) On thoroughbred meetings only, 2.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 4.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 2.5 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and 0.40 of 1 percent shall be distributed to the breeders in the form of breeders' awards, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(2) On harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 3.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, and 6 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(3) In addition, on thoroughbred meetings and harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1 percent shall be distributed to an organization described in subdivision (c) of Section 19596.4 for promotion of the program and 0.33 of 1 percent of the total amount handled by the satellite wagering facility shall be paid to the city or county in which the satellite wagering facility is located pursuant to Section 19610.3 or 19610.4.

(e) On thoroughbred meetings only, the funds remaining after distribution of the amounts in subdivision (d) shall be distributed 50 percent as commissions to the racing association which conducts the

racing meeting and 50 percent as purses to the horsemen participating in the racing meeting, except that owners' premiums shall be paid from the amount distributed for purses in the same relative percentage as owners' premiums are paid at the racing meeting. All of the funds distributed for purses from satellite wagering facilities shall go to the purse program of the association conducting the racing meeting except that all sums for distribution as purses at satellite wagering facilities which are racing fairs in the County of Los Angeles shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings in Los Angeles and Orange Counties. The department shall distribute these funds on an equal basis to each racing fair in these counties for distribution in all nonstakes races and among all breeds.

(f) On harness, quarter horse, Appaloosa, mixed breed, and fair meetings, the funds remaining after distribution of the amounts set forth in subdivision (d) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent to the horsemen in the form of purses participating in the racing meeting.

(g) Notwithstanding subdivision (e), when satellite wagering is conducted on thoroughbred meetings, an amount, not to exceed 1.25 percent of the total amount handled by all satellite wagering facilities, shall be deducted from the funds otherwise allocated for distribution as commissions, purses, and owners' premiums and instead distributed to an organization formed and operated by thoroughbred racing associations, fairs conducting thoroughbred racing, and the organization representing thoroughbred horsemen, with each party having meaningful representation on the board of the organization, to administer, pursuant to supervision of the board, a fund to provide reimbursement for offsite stabling at board-approved auxiliary training facilities of licensed racing associations for additional stalls beyond the number of usable stalls the association is required to make available and maintain pursuant to Section 19535, and for the vanning of starters from these additional stalls on race days for thoroughbred horses.

(h) The funds distributed to the organization formed pursuant to subdivision (g) shall be used to reimburse racing associations who are operating offsite stabling providing additional stalls for the incremental increase in operating costs directly resulting from providing the stabling. Neither the organization administering the offsite stabling and vanning program nor any of the entities forming and operating the organization, except the entity operating the offsite stabling facility where the injury occurred, shall be liable for any injury to any jockey, exercise person, owner, trainer, or any employee or agent thereof, or any horse occurring at any offsite stabling facility.

The funds shall also reimburse horsemen for the cost of vanning

starting horses from the additional stalls of a board-approved auxiliary training facility operated by a licensed racing association to the track conducting the racing meeting. Horsemen may use carriers of their own choice, except that the amount of reimbursement to horsemen is limited to the amount that the organization determines is generally charged by carriers for vanning from the auxiliary training facility to the track conducting the racing meeting. Neither the organization administering the offsite stabling and vanning program nor any of the entities forming and operating the organization, except the entity actually engaged in vanning horses, shall be liable for any injury occurring to any individual or horse during vanning from an offsite stabling facility.

The training facilities and amenities provided for offsite stabling and training purposes shall be equivalent in character to those provided during racing meetings of the association.

Upon the request of any party within the organization, the board shall adjudicate any dispute regarding costs, or other matters relating to the furnishing of offsite stabling or vanning. The board may, if necessary, appoint an independent auditor to assist in the resolution of disputes. The auditor shall be reimbursed from the funds of the organization.

The organization may maintain a reserve fund of up to 10 percent of the total estimated annual vanning and stabling cost. In addition to the reserve fund, if the funds generated for offsite stabling and vanning are insufficient to fully reimburse racing associations for expenses incurred during the offsite vanning and stabling program, the organization is entitled to accumulate sufficient funds to fully reimburse these expenses.

The amount initially deducted and distributed to the organization shall be 1.25 percent of the total amount handled by satellite wagering facilities authorized under this section on thoroughbred racing, but that allocation may be adjusted by the board, in its discretion, but the adjusted amount may not exceed 1.25 percent of the total amount handled by satellite wagering facilities, to pay expenses and maintain the reserve fund for the continuing support of the program.

(i) Forty-two percent of the revenue payable to the state from license fees from satellite wagering facilities located at fairs under the authority of this section shall be deposited in the Fair and Exposition Fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated from the fund to the Department of Food and Agriculture, for allocation by the Director of Food and Agriculture, in his or her discretion, for the following purposes:

(1) For repayment of the principal of, and interest on, bonds issued by a joint powers agency, or of other debt service or expense incurred for the purpose of constructing improvements only at a fair racetrack inclosure, for the purpose of construction of satellite wagering facilities at fairs, and for health and safety repair projects

and handicapped access compliance at fairs. Notwithstanding any other law, the department may also commit any funds available for allocation under Article 10 (commencing with Section 19620) to complete projects funded under this paragraph in the priority described in this paragraph.

(2) For repayment of expenses incurred by fairs in establishing and operating satellite wagering facilities.

(3) For health and safety repair projects at the fair.

(4) For support purposes of the fair generally.

(j) The remaining 58 percent of the revenues payable to the state from satellite wagering facilities at fairs and all revenues payable to the state from satellite wagering facilities located under the authority of this section at sites other than fairs shall be deposited in the General Fund.

(k) Notwithstanding subdivision (b) of Section 19641, the state shall receive as additional license fees 50 percent of any redistributable money in a parimutuel pool arising from wagers at a satellite wagering facility, subject to payment to a claimant pursuant to Section 19598, but not successfully claimed within that period, and the funds shall be deposited in the General Fund. The remaining 50 percent of redistributable money in a parimutuel pool arising from wagers at a satellite wagering facility shall be paid to a welfare fund established by the horsemen's organization contracting with the association conducting the racing meeting for the benefit of horsemen, and that organization shall make an accounting to the board within one calendar year of the receipt of the payment.

(*l*) Of the total breakage arising in a parimutuel pool which includes wagers at satellite wagering facilities, that percentage of breakage equal to the percentage that wagers placed at satellite wagering facilities constitute of the total parimutuel pool shall be distributed equally among the state as an additional license fee deposited in the General Fund, the track conducting the racing meeting as a commission, and the horsemen participating in the racing meeting in the form of purses. The remainder of the breakage shall be distributed in the same manner as breakage arising from wagers at the track conducting the racing meeting.

(m) Notwithstanding subdivision (c) of Section 19596.5 and subdivision (d) of this section, if the total revenues from horseracing for deposit in the General Fund for the 1988–89 fiscal year, as determined by the board, do not equal or exceed one hundred fifteen million dollars ($115,000,000), the license fees distributed to the state for all wagers under subdivision (c) of Section 19596.5 and subdivision (d) of this section shall be increased by one-half of 1 percent for meetings commencing after July 1, 1989. The board shall determine if the total revenues from horseracing for deposit in the General Fund during the 1989–90 fiscal year and subsequent fiscal years equal or exceed one hundred fifteen million dollars ($115,000,000), and in fiscal years when that amount is not equaled or exceeded, the license fees distributed to the state for all wagers

under subdivision (c) of Section 19596.5 and subdivision (d) of this section shall be increased by one-half of 1 percent for meetings commencing after July 1 of the following fiscal year.

SEC. 7. Section 19596.7 of the Business and Professions Code is amended to read:

Except as otherwise provided in this section, all the provisions of Section 19596.5 shall apply to satellite wagering facilities authorized under this section.

This section is repealed on January 1, 1988.

19596.7. (b) This section shall become operative on January 1, 1988.

(c) This section shall remain in effect only until January 1, 1990, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1990, deletes or extends that date.

[Approved by Governor September 28, 1987 Filed with Secretary of State September 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 19549 of the Business and Professions Code is amended to read:

19549. Except as provided in Section 19549.1, the maximum number of racing days which may be allocated to the California State Fair and Exposition or California State Exposition and Fair or a county or district agricultural association fair or citrus fair shall be 14 days per year. Such racing days shall be days on which general fair activities are conducted. However, any fair racing association which conducted racing in the central or southern zone prior to January 1, 1980, shall be entitled to be allocated up to three weeks of racing.

SEC. 2. Section 19596.5 of the Business and Professions Code, as amended by Senate Bill No. 14, is amended to read:

19596.5. (a) Notwithstanding any other provision of law, the board may authorize an association licensed to conduct a racing meeting in the northern zone to operate a satellite wagering facility for wagering on races conducted in the northern zone at its racetrack inclosure, except during the part of the day racing is being conducted at its racetrack, and may, with the approval of the Department of Food and Agriculture, authorize any county fair, district agricultural

association fair, or citrus fruit fair in the northern zone eligible for an allocation of racing days pursuant to Section 19549, but which is not licensed to conduct a racing meeting or authorized pursuant to Section 19596.7, to locate a satellite wagering facility at its fairgrounds for wagering on races conducted in the northern zone, if all of the following conditions are met:

(1) An organization described in subdivision (c) of Section 19596.4 has executed agreements, which are approved by the board, with the association conducting a racing meeting in the northern zone and the satellite wagering facility. The agreement shall provide, among other things, the conditions for transmission of the signal and that the wagers made at the satellite wagering facility will be included in the appropriate conventional or exotic pool at the racetrack where the racing meeting is conducted. Notwithstanding any other provision of law or any agreement under this subdivision, for purposes of determining license fees and breakage at the racetrack where the racing meeting is conducted, wagers at a satellite facility shall not be included in the conventional or exotic pools of the association conducting the racing meeting.

(2) The horsemen's organization which represents the horsemen at the association which conducts the racing meeting on which wagers are accepted consents to the acceptance of wagers at the satellite wagering facility, except that the association or fair operating the satellite wagering facility may appeal the withholding of consent to the board which may determine that consent is not required.

(3) The accommodations and equipment used in conducting wagering at the satellite wagering facility and their location have been approved by the board.

(4) The method used by the satellite wagering facility to transmit wagers, odds, results, and other data related to wagering has been approved by the board.

(5) Except as provided in Section 19596.9, any association or fair which conducts satellite wagering shall conduct wagering on all racing offered to the satellite wagering facility, as long as the satellite wagering facility is not sustaining a loss on either a day meeting or night meeting, as determined by the board, and, if sustaining a loss on either a day meeting or night meeting, as long as that loss is reimbursed by either an organization described in subdivision (c) of Section 19596.4 or an association.

In calculating the loss, if any, for operating a satellite wagering facility for a night meeting, only the expenses incurred by the satellite wagering facility because of acceptance of night wagers shall be considered, and no overhead expenses or expenses which would be incurred regardless of the acceptance of night wagers shall be considered.

(b) Notwithstanding subdivision (a), during periods of the day when there is no night racing in the northern zone, the live audiovisual signal of night harness or quarter horse races in the

central or southern zone may be offered to satellite wagering facilities in the northern zone, provided, however, (1) that racing associations may accept that audiovisual signal, but are not required to do so and (2) that satellite wagering facilities located at fairs are not required to accept more than five night racing programs per week.

(c) The total percentage deducted from wagers at satellite wagering facilities shall be the same as the deductions for wagers at the racetrack where the racing meeting is being conducted and shall be distributed as set forth in this section. Amounts deducted under this section shall be distributed as follows:

(1) On thoroughbred meetings only, 2.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 4.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 2.5 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and 0.4 of 1 percent shall be distributed to the breeders in the form of breeders' awards, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(2) On harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 3.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 6 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and, in the case of quarter horses and Appaloosas, 0.4 of 1 percent shall be distributed as breeders awards to breeders of quarter horses and Appaloosas and, in the case of standardbreds, 0.4 of 1 percent shall be distributed for the California Standardbred Sires Stallion Program pursuant to Section 19619, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(3) In addition to the distributions in paragraph (1) or (2), on thoroughbred meetings and harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1 percent of the total amount handled by the satellite wagering facility shall be distributed to an organization described in subdivision (c) of Section 19596.4 for

promotion of the program at satellite wagering facilities and 0.33 of 1 percent of the total amount handled by the satellite wagering facility shall be paid to the city or county in which the satellite wagering facility is located pursuant to Section 19610.3 or 19610.4.

(d) On thoroughbred meetings only, the funds remaining after distribution of the amounts set forth in subdivision (c) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent as purses to the horsemen participating in the racing meeting, except that owners' premiums shall be paid from the amount distributed for purses in the same relative percentage as owners' premiums are paid at the racing meeting. Of the amount deducted for purses at the association conducting the racing meeting, 10 percent shall be distributed in the form of purses to horsemen who participate in racing fairs that operate satellite wagering facilities. The 10 percent of the purses for horsemen who participate in racing fairs shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings to achieve the purposes of subdivision (i).

(e) On harness, quarter horse, Appaloosa, mixed breed, and fair meetings, the funds remaining after distribution of the amounts set forth in subdivision (c) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent to the horsemen in the form of purses at the association conducting the racing meeting.

(f) Except as provided in subdivisions (g) and (h), all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, are hereby continuously appropriated from that account to the Department of Food and Agriculture, for allocation by the Director of Food and Agriculture in his or her discretion, for the following purposes:

(1) For repayment of the principal of, and interest on, bonds issued by a joint powers agency, or of other debt service or expense incurred, for the purpose of constructing improvements only at a fair's racetrack inclosure, for the purpose of construction of satellite wagering facilities at fairs, and for health and safety repair projects and handicapped access compliance at fairs. Notwithstanding any other law, the department may also commit any funds available for allocation under Article 10 (commencing with Section 19620) to complete projects funded under this paragraph in the priority described in this paragraph.

(2) For repayment of expenses incurred by fairs in establishing and operating satellite wagering facilities.

(3) For health and safety repair projects at fairs.

(4) For support purposes of fairs generally.

(g) Seven and one-half percent of all revenues payable to the state

as license fees from satellite wagering facilities located at fairs shall be deposited in the General Fund.

(h) Up to 10 percent of all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in a special account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings to achieve the purposes of subdivision (i). The department shall annually determine the percentage of revenues payable to the special account under this subdivision based on the amount necessary to achieve the purposes of subdivision (i).

(i) It is the intent of the Legislature that funds allocated pursuant to subdivision (h) be used primarily at fair racing meetings in the northern zone with a daily average handle of more than three hundred thousand dollars ($300,000). The Legislature further finds that its intent is that these allocations be used to bring the purses at these fairs, exclusive of purses for stakes races and special events, to a level of at least 80 percent of purses for similar classes of horses at private racing associations in the northern zone. The funds shall be used among all breeds. For fair racing meetings in the northern zone with a daily average handle of three hundred thousand dollars ($300,000) or less, it is the intent of the Legislature to bring the purses to a level of at least 25 percent of purses for similar classes of horses at private racing associations in the northern zone.

SEC. 3. Section 19596.6 of the Business and Professions Code, as added by Senate Bill No. 14, is amended to read:

19596.6. (a) Notwithstanding any other provision of law, subject to the conditions and limitations set forth in this section and Section 19596.7, the following entities in the central or southern zone are eligible to be licensed to operate a satellite wagering facility for wagering on races conducted in the central or southern zone:

(1) Any county fair, district agricultural association fair, or citrus fruit fair which conducted general fair activities in 1986 within the central or southern zone, and which is eligible for an allocation of racing days pursuant to Section 19549, but which is not licensed to conduct a racing meeting, may locate a satellite wagering facility at its fairgrounds.

(2) Any association licensed to conduct a racing meeting in the central or southern zone.

(b) The board may authorize an eligible association or, with the approval of the Department of Food and Agriculture, an eligible fair, to operate a satellite wagering facility under all of the following conditions:

(1) A racing association licensed to conduct a racing meeting shall conduct satellite wagering only within its racing inclosure.

(2) An organization described in subdivision (c) of Section 19596.4 has executed an agreement approved by the board with the association conducting a racing meeting and the satellite wagering

facility. The agreement shall provide, among other things, the conditions for transmission of the signal and that the wagers made at the satellite wagering facility are included in the appropriate conventional or exotic pool at the racetrack where the racing meeting is conducted.

(3) The accommodations and equipment used in conducting wagering at the satellite wagering facility and their location have been approved by the board.

(4) The method used by the satellite wagering facility to transmit wagers, odds, results, and other data related to wagering have been approved by the board.

(5) Any association or fair that operates a satellite wagering facility shall conduct wagering on all racing conducted in the central or southern zone that is offered to that satellite wagering facility, as long as the satellite wagering facility is not sustaining a loss on either a day meeting or a night meeting, as determined by the board, and, if sustaining a loss on either a day meeting or a night meeting, as long as that loss is not reimbursed by either an organization described in subdivision (c) of Section 19596.4 or an association.

In calculating the loss, if any, for operating a satellite wagering facility for a night meeting, only the expenses incurred by the satellite wagering facility because of acceptance of night wagers shall be considered, and no overhead expenses or expenses of the satellite wagering facility which would be incurred regardless of the acceptance of night wagers shall be considered.

(c) Notwithstanding subdivision (a), a satellite wagering facility may not be located within the County of Los Angeles or within the County of Orange, except as follows:

(1) If all other conditions in subdivision (b) are met, the Fiftieth District Agricultural Association may be authorized to operate a satellite wagering facility upon its fairgrounds in the City of Lancaster and to accept wagers on races conducted in the southern and central zones.

(2) If all other conditions are met, any fair or association licensed to conduct racing meetings in the County of Los Angeles and any racing association other than a fair which is licensed to conduct racing in the County of Orange may be authorized to operate a satellite wagering facility for the limited purpose of conducting satellite wagering on races conducted at the Twenty-Second District Agricultural Association fairgrounds at Del Mar in the County of San Diego, except that, when a fair in Orange County is licensed for a racing meeting, a satellite wagering facility located within the racing inclosure where the racing meeting is conducted may not operate on the days that racing is conducted.

(d) The total percentage deducted from wagers at satellite wagering facilities shall be the same as the percentage deducted from wagers at the racetrack where the racing meeting is being conducted and shall be distributed as set forth in this section. Amounts deducted by a satellite wagering facility under this section

shall be distributed as follows:

(1) On thoroughbred meetings only, 2.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 4.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 2.5 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and 0.40 of 1 percent shall be distributed to the breeders in the form of breeders' awards, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(2) On harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 3.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, and 6 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(3) In addition, on thoroughbred meetings and harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1 percent shall be distributed to an organization described in subdivision (c) of Section 19596.4 for promotion of the program at satellite wagering facilities and 0.33 of 1 percent of the total amount handled by the satellite wagering facility shall be paid to the city or county in which the satellite wagering facility is located pursuant to Section 19610.3 or 19610.4.

(e) On thoroughbred meetings only, the funds remaining after distribution of the amounts in subdivision (d) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent as purses to the horsemen participating in the racing meeting, except that owners' premiums shall be paid from the amount distributed for purses in the same relative percentage as owners' premiums are paid at the racing meeting. All of the funds distributed for purses from satellite wagering facilities shall go to the purse program of the association conducting the racing meeting except that all sums for distribution as purses at satellite wagering facilities which are racing fairs in the

County of Los Angeles shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings in Los Angeles and Orange Counties. The department shall distribute these funds on an equal basis to each racing fair in these counties for distribution in all nonstakes races and among all breeds.

(f) On harness, quarter horse, Appaloosa, mixed breed, and fair meetings, the funds remaining after distribution of the amounts set forth in subdivision (d) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent to the horsemen in the form of purses participating in the racing meeting.

(g) Notwithstanding subdivision (e), when satellite wagering is conducted on thoroughbred meetings, an amount, not to exceed 1.25 percent of the total amount handled by all satellite wagering facilities, shall be deducted from the funds otherwise allocated for distribution as commissions, purses, and owners' premiums and instead distributed to an organization formed and operated by thoroughbred racing associations, fairs conducting thoroughbred racing, and the organization representing thoroughbred horsemen, with each party having meaningful representation on the board of the organization, to administer, pursuant to supervision of the board, a fund to provide reimbursement for offsite stabling at board-approved auxiliary training facilities of licensed racing associations for additional stalls beyond the number of usable stalls the association is required to make available and maintain pursuant to Section 19535, and for the vanning of starters from these additional stalls on race days for thoroughbred horses.

(h) The funds distributed to the organization formed pursuant to subdivision (g) shall be used to reimburse racing associations who are operating offsite stabling providing additional stalls for the incremental increase in operating costs directly resulting from providing the stabling. Neither the organization administering the offsite stabling and vanning program nor any of the entities forming and operating the organization, except the entity operating the offsite stabling facility where the injury occurred, shall be liable for any injury to any jockey, exercise person, owner, trainer, or any employee or agent thereof, or any horse occurring at any offsite stabling facility.

The funds shall also reimburse horsemen for the cost of vanning starting horses from a board-approved auxiliary training facility operated by a licensed racing association to the track conducting the racing meeting. Horsemen may use carriers of their own choice, except that the amount of reimbursement to horsemen is limited to the amount that the organization determines is generally charged by carriers for vanning from the auxiliary training facility to the track conducting the racing meeting. Neither the organization administering the offsite stabling and vanning program nor any of

the entities forming and operating the organization, except the entity actually engaged in vanning horses, shall be liable for any injury occurring to any individual or horse during vanning from an offsite stabling facility.

The training facilities and amenities provided for offsite stabling and training purposes shall be equivalent in character to those provided during racing meetings of the association.

Upon the request of any party within the organization, the board shall adjudicate any dispute regarding costs, or other matters relating to the furnishing of offsite stabling or vanning. The board may, if necessary, appoint an independent auditor to assist in the resolution of disputes. The auditor shall be reimbursed from the funds of the organization.

The organization may maintain a reserve fund of up to 10 percent of the total estimated annual vanning and stabling cost. In addition to the reserve fund, if the funds generated for offsite stabling and vanning are insufficient to fully reimburse racing associations for expenses incurred during the offsite vanning and stabling program, the organization is entitled to accumulate sufficient funds to fully reimburse these expenses.

The amount initially deducted and distributed to the organization shall be 1.25 percent of the total amount handled by satellite wagering facilities authorized under this section on thoroughbred racing, but that allocation may be adjusted by the board, in its discretion, but the adjusted amount may not exceed 1.25 of the total amount handled by satellite wagering facilities, to pay expenses and maintain the reserve fund for the continuing support of the program.

(i) Forty-two percent of the revenue payable to the state from license fees from satellite wagering facilities located at fairs under the authority of this section shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated from that account to the Department of Food and Agriculture, for allocation by the Director of Food and Agriculture, in his or her discretion, for the following purposes:

(1) For repayment of the principal of, and interest on, bonds issued by a joint powers agency, or of other debt service or expense incurred for the purpose of constructing improvements only at a fair's racetrack inclosure, or for the purpose of construction of satellite wagering facilities at fairs, and for health and safety repair projects and handicapped access compliance at fairs. Notwithstanding any other law, the department may also commit any funds available for allocation under Article 10 (commencing with Section 19620) to complete projects funded under this paragraph in the priority described in this paragraph.

(2) For repayment of expenses incurred by fairs in establishing and operating satellite wagering facilities.

(3) For health and safety repair projects at the fair.

(4) For support purposes of the fair generally.

(j) The remaining 58 percent of the revenues payable to the state from satellite wagering facilities at fairs and all revenues payable to the state from satellite wagering facilities located under the authority of this section at sites other than fairs shall be deposited in the General Fund.

(k) Notwithstanding subdivision (b) of Section 19641, the state shall receive as additional license fees 50 percent of any redistributable money in a parimutuel pool arising from wagers at a satellite wagering facility, subject to payment to a claimant pursuant to Section 19598, but not successfully claimed within that period, and the funds shall be deposited in the General Fund. The remaining 50 percent of redistributable money in a parimutuel pool arising from wagers at a satellite wagering facility shall be paid to a welfare fund established by the horsemen's organization contracting with the association conducting the racing meeting for the benefit of horsemen, and that organization shall make an accounting to the board within one calendar year of the receipt of the payment.

(*l*) Of the total breakage arising in a parimutuel pool which includes wagers at satellite wagering facilities, that percentage of breakage equal to the percentage that wagers placed at satellite wagering facilities constitute of the total parimutuel pool shall be distributed equally among the state as an additional license fee deposited in the General Fund, the track conducting the racing meeting as a commission, and the horsemen participating in the racing meeting in the form of purses. The remainder of the breakage shall be distributed in the same manner as breakage arising from wagers at the track conducting the racing meeting.

(m) Notwithstanding subdivision (c) of Section 19596.5 and subdivision (d) of this section, if the total revenues from horseracing for deposit in the General Fund for the 1988–89 fiscal year, as determined by the board, do not equal or exceed one hundred fifteen million dollars ($115,000,000), the license fees distributed to the state for all wagers under subdivision (c) of Section 19596.5 and subdivision (d) of this section shall be increased by one-half of 1 percent for meetings commencing after July 1, 1989. The board shall determine if the total revenues from horseracing for deposit in the General Fund during the 1989–90 fiscal year and subsequent fiscal years equal or exceed one hundred fifteen million dollars ($115,000,000), and in fiscal years when that amount is not equaled or exceeded, the license fees distributed to the state for all wagers under subdivision (c) of Section 19596.5 and subdivision (d) of this section shall be increased by one-half of 1 percent for meetings commencing after July 1 of the following fiscal year.

SEC. 4. Section 19596.15 is added to the Business and Professions Code, to read:

19596.15. (a) All revenues payable to the state and deposited in a separate account in the fund pursuant to subdivision (f) of Section 19596.5 and subdivision (i) of Section 19596.6 that are allocated by the Director of Food and Agriculture for the purposes of paragraph (1)

of subdivision (f) of Section 19596.5 and paragraph (1) of subdivision (i) of Section 19596.6 are hereby pledged for repayment of the principal of, and interest on, bonds issued by a joint powers agency, or of other debt service or expense incurred for the purposes described in paragraph (1) of subdivision (f) of Section 19596.5 and paragraph (1) of subdivision (i) of Section 19596.6.

(b) Any joint powers agency or agencies requesting moneys in connection with the issuance of bonds for the purposes described in paragraph (1) of subdivision (f) of Section 19596.5 and paragraph (1) of subdivision (i) of Section 19596.6 shall file an application with the Director of Food and Agriculture in the form as the director may require. The director shall, upon review of the applications, prepare a statement of allocation of moneys to the joint powers agency or agencies, in the priority the director deems appropriate. The director shall promulgate regulations governing the allocation procedures to be followed in implementing these provisions.

(c) It is the intent of the Legislature in enacting the provisions contained in this section to provide the revenues necessary for the financing by joint powers agencies of the described facilities and projects. Deposits into the account in the fund in accordance with Sections 19596.5 and 19596.6 and this section shall continue through and including either the 20th year after the initial calendar year in which the revenues are collected, or whatever period of time is necessary to repay any borrowings of joint powers funding mechanism, including, but not limited to, retirement of bonded indebtedness, loan repayments, and monthly payments involving lease-purchase programs made by a joint powers agency to finance described facilities and projects, whichever time is longer.

(d) The State of California does hereby pledge to and agree with the holders of any bonds issued, and with those joint powers agencies which may enter into project agreements in reliance on the allocations set forth in subdivision (f) of Section 19596.5 and subdivision (i) of Section 19596.6, that the state will not alter or change the structure, or pledge of funds pursuant to those sections until the bonds are fully paid or discharged and the project is fully performed or discharged, on the part of joint powers agencies; provided, however, that nothing precludes any alteration or change, if, and when, adequate provision has been made by law for the protection from impairment of the contracts represented by the bonds and projects, and the right to so alter or change is hereby reserved. Joint powers agencies are authorized to include this pledge and undertaking of the state in the bonds and project agreements.

SEC. 5. Section 19610.4 of the Business and Professions Code, as amended by Chapter 26 of the Statutes of 1987, is amended to read:

19610.4. Notwithstanding Section 19610.3, any association which conducts a racing meeting pursuant to Section 19549.3 or 19549.9, or any fair which operates a satellite wagering facility, may elect to deduct an additional amount of 0.33 of 1 percent from the total parimutuel wagers placed within its inclosure or at its satellite

wagering facility.

The amounts deducted pursuant to this section shall be distributed to the city or county in which the racing meeting or wagering is conducted, at the option of the association or fair. If a city or county has elected by ordinance to receive a distribution from a racing association or fair under this section, it shall not at any time thereafter assess or collect, with respect to an event conducted by that racing association or fair, any license or excise tax or fee, including, but not limited to, any admission, parking, or business tax, or any tax or fee levied solely upon the racing association or fair conducting a racing meeting or satellite wagering or any patron thereof. Furthermore, a city or county electing to receive a distribution under this section shall provide ordinary and traditional municipal services, such as police services and traffic control, in connection with the racing meetings or satellite wagering. If an eligible city or county does not elect to receive a distribution under this section, the amount deducted shall be paid to the state as an additional license fee.

(d) If an association qualified to operate its meeting pursuant to this section conducts two separate programs of racing on any day, each such program shall be considered a separate racing day for purposes of determining the daily handle and computing the distribution of license fees, commissions, and purses thereon. For the purposes of this subdivision, a program shall consist of at least nine races.

(e) In addition to any deductions pursuant to this section, every association conducting a racing meeting pursuant to Section 19549.1 shall also deduct an additional 1 percent of its parimutuel pools to be distributed as commissions.

(f) In addition to any deductions pursuant to this section, every association conducting a racing meeting pursuant to Section 19549.1 shall also deduct an additional 2 percent of its exotic parimutuel pools to be distributed equally as commissions and purses.

(g) (1) Notwithstanding any other provision of this chapter, any association with an average daily handle of six hundred fifty thousand dollars ($650,000) or less conducting a meeting pursuant to Section 19549.2 shall deduct the amounts specified in Section 19610 to be distributed as license fees, commissions, and purses as provided by this subdivision. The association shall pay a daily license fee based on its conventional and exotic parimutuel handle at the following rates:

Daily handle	License fee rate
$300,000 and under	0.5 percent of the handle
$300,001 to $350,000	$1,500 plus 1.0 percent of the handle in excess of $300,000
$350,001 to $400,000	$2,000 plus 1.5 percent of the handle in excess of $350,000

$550,001 or more	$6,500 plus 3.5 percent of the handle in excess of $550,000

(2) The amount remaining after payment of the state license fee pursuant to this subdivision shall be distributed between commissions and purses as agreed to by the association conducting the meeting and the organization representing the horsemen participating in the meeting.

SEC. 4. Section 3 of this bill incorporates amendments to Section 19612.6 of the Business and Professions Code proposed by both this bill and SB 14. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1988, (2) each bill amends Section 19612.6 of the Business and Professions Code, and (3) this bill is enacted after SB 14, in which case Section 19612.6 of

the Business and Professions Code, as amended by SB 14, shall remain operative only until the operative date of this bill, at which time Section 3 of this bill shall become operative, and Section 2 of this bill shall not become operative.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide increased horseracing at the 22nd District Agricultural Association at the earliest opportunity, it is necessary that this act take effect immediately.

CHAPTER 1276

An act to amend Section 19601 of the Business and Professions Code, relating to horseracing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1987 Filed with Secretary of State September 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 19601 of the Business and Professions Code is amended to read:

19601. (a) Notwithstanding any other provision of law, the board may authorize any licensed association or satellite wagering facility to accept wagers on races conducted in this state comprising the program of racing generally known as the Breeders' Cup and feature races conducted in this state having a gross purse of fifty thousand dollars ($50,000) or more, if all of the following requirements are met:

(1) The association which conducts the racing meeting with the Breeders' Cup program or the feature race having a gross purse of fifty thousand dollars ($50,000) or more and the horsemen's organization which represents the horsemen participating in that racing meeting consent to the acceptance of the wagers.

(2) Wagering is offered only within the association's racing inclosure or within the satellite wagering facility and only within 36 hours of the commencement of the racing program with the Breeders' Cup program or with the feature race having a gross purse of fifty thousand dollars ($50,000) or more.

(3) All wagers made at the association or at the satellite wagering facility which accepts the wagers are included in the appropriate conventional or exotic pool at the racetrack of the association which conducts the racing meeting with the Breeders' Cup program or the feature race having a gross purse of fifty thousand dollars ($50,000) or more, unless the board determines that including the wagers in

pools of the association or the satellite wagering facility which accepts the wagers better serves the purpose of this chapter.

(b) Any association or satellite wagering facility accepting wagers under subdivision (a) shall deduct from the total amount handled in each conventional and exotic parimutuel pool, the same percentages deducted pursuant to Article 9.5 (commencing with Section 19610) by the association which conducts the racing meeting with the Breeders' Cup program or the feature race having a gross purse of fifty thousand dollars ($50,000) or more.

(c) From the total amount deducted pursuant to subdivision (b), a commission of 2 percent of the amount it handles shall be retained by the association or the satellite wagering facility which accepts the wager. The funds remaining after distribution of the 2-percent commission shall be distributed in the same relative percentages (reduced pro rata for the 2-percent commission) as provided in Article 9.5 (commencing with Section 19610), except that the funds available for distribution to the association which conducts the racing meeting with the Breeders' Cup program or the feature race having a gross pool of fifty thousand dollars ($50,000) or more and for distribution to horsemen, in the form of purses, shall be accumulated and shall be distributed equally between (1) the association which conducts the racing meeting with the Breeders' Cup program or the feature race having a gross purse of fifty thousand dollars ($50,000) or more and (2) the horsemen, in the form of purses. One-half of the purse money shall be paid to the horsemen who participate in the racing meeting with the Breeders' Cup program or the feature race having a gross purse of fifty thousand dollars ($50,000) or more, and one-half of the purse money shall be paid in the form of purses to the horsemen who are racing at an association which conducts the same breed of racing as the association which conducts the Breeders' Cup program or a feature race having a gross purse of fifty thousand dollars ($50,000) or more.

(d) All breakage and unclaimed tickets shall be distributed equally among the state, the association which conducts the racing meeting with the Breeders' Cup program or the feature race having a gross purse of fifty thousand dollars ($50,000) or more, and the horsemen, in the form of purses, who participate in the racing meeting with the Breeders' Cup program or the feature race having a gross purse of fifty thousand dollars ($50,000) or more.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to allow this year's Breeders' Cup Race and qualifying feature races to be simultaneously broadcast to northern California satellite wagering facilities and to thereby produce additional state revenue, it is necessary that this act take effect immediately.

CHAPTER 1277

An act to amend Section 51.7 of, and to add Section 52.1 to, the Civil Code, and to amend Section 1170.75 of, and to add Title 11.6 (commencing with Section 422.6) to Part 1 of, the Penal Code, relating to crimes.

[Approved by Governor September 28, 1987 Filed with Secretary of State September 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Tom Bane Civil Rights Act.

SEC. 2. Section 51.7 of the Civil Code is amended to read:

51.7. (a) All persons within the jurisdiction of this state have the right to be free from any violence, or intimidation by threat of violence, committed against their persons or property because of their race, color, religion, ancestry, national origin, political affiliation, sex, sexual orientation, age, disability, or position in a labor dispute. The identification in this subdivision of particular bases of discrimination is illustrative rather than restrictive.

This section does not apply to statements concerning positions in a labor dispute which are made during otherwise lawful labor picketing.

(b) As used in this section, "sexual orientation" means heterosexuality, homosexuality, or bisexuality.

SEC. 3. Section 52.1 is added to the Civil Code, to read:

52.1. (a) Whenever a person or persons, whether or not acting under color of law, interferes by threats, intimidation, or coercion, or attempts to interfere by threats, intimidation, or coercion, with the exercise or enjoyment by any individual or individuals of rights secured by the Constitution or laws of the United States, or of the rights secured by the Constitution or laws of this state, the Attorney General, or any district attorney or city attorney may bring a civil action for injunctive and other appropriate equitable relief in the name of the people of the State of California, in order to protect the peaceable exercise or enjoyment of the right or rights secured.

(b) Any individual whose exercise or enjoyment of rights secured by the Constitution or laws of the United States, or of rights secured by the Constitution or laws of this state, has been interfered with, or attempted to be interfered with, as described in subdivision (a), may institute and prosecute in his or her own name and on his or her own behalf a civil action for injunctive and other appropriate equitable relief to protect the peaceable exercise or enjoyment of the right or rights secured.

(c) An action brought pursuant to subdivision (a) or (b) may be filed either in the superior court for the county in which the conduct complained of occurred or in the superior court for the county in

which a person whose conduct complained of resides or has his or her place of business. An action brought by the Attorney General pursuant to subdivision (a) may also be filed in the superior court for any county wherein the Attorney General has an office, and in any such case, the jurisdiction of the court shall extend throughout the state.

(d) Whenever a court issues a temporary restraining order or a preliminary or permanent injunction in an action brought pursuant to subdivision (a) or (b), ordering a defendant to refrain from conduct or activities, the order issued shall include the following statement: VIOLATION OF THIS ORDER IS A CRIME PUNISHABLE UNDER SECTION 422.9 OF THE PENAL CODE.

(e) The court shall order the plaintiff or the attorney for the plaintiff to deliver, or the county clerk to mail, two copies of any order, extension, modification, or termination thereof granted pursuant to this section, by the close of the business day on which the order, extension, modification, or termination was granted, to each local law enforcement agency having jurisdiction over the residence of the plaintiff and any other locations where the court determines that acts of violence against the plaintiff are likely to occur. Those local law enforcement agencies shall be designated by the plaintiff or the attorney for the plaintiff. Each appropriate law enforcement agency receiving any order, extension, or modification of any order issued pursuant to this section shall forthwith serve one copy thereof upon the defendant. Each appropriate law enforcement agency shall provide to any law enforcement officer responding to the scene of reported violence, information as to the existence of, terms, and current status of, any order issued pursuant to this section.

(f) A court shall not have jurisdiction to issue an order or injunction under this section if that order or injunction would be prohibited under Section 527.3 of the Code of Civil Procedure.

(g) Actions under this section shall be independent of any other remedies or procedures that may be available to an aggrieved person under any other provision of law.

(h) In addition to any injunction or other equitable relief awarded in an action brought pursuant to subdivision (b), the court may award petitioner reasonable attorney's fees.

(i) Violation of an order described in subdivision (d) may be punished either by prosecution under Section 422.7 of the Penal Code, or by a proceeding for contempt brought pursuant to Title 5 (commencing with Section 1209) of Part 3 of the Code of Civil Procedure. However, in any such proceeding pursuant to the Code of Civil Procedure, if it be determined that the person proceeded against is guilty of the contempt charged, in addition to any other relief, a fine may be imposed not exceeding one thousand dollars ($1,000), or the person may be ordered imprisoned in the county jail not exceeding six months, or the court may order both the fine and imprisonment.

(j) Speech alone shall not be sufficient to support an action under

subdivision (a) or (b), except upon a showing that the speech itself threatens violence against a specific person or group of persons; and the person or group of persons against whom the threat is directed reasonably fears that, because of the speech, violence will be committed against them or their property and that the person threatening violence had the apparent ability to carry out the threat.

(k) No order issued in any proceeding under subdivision (a) or (b) shall restrict the content of any person's speech. An order restricting the time, place, or manner of any person's speech shall do so only to the extent reasonably necessary to protect the peaceable exercise or enjoyment of constitutional or statutory rights, consistent with the constitutional rights of the person sought to be enjoined.

SEC. 4. Title 11.6 (commencing with Section 422.6) is added to Part 1 of the Penal Code, to read:

TITLE 11.6. CIVIL RIGHTS

422.6. (a) No person, whether or not acting under color of law, shall by force or threat of force, willfully injure, intimidate or interfere with, oppress, or threaten any other person in the free exercise or enjoyment of any right or privilege secured to him or her by the Constitution or laws of this state or by the Constitution or laws of the United States because of the other person's race, color, religion, ancestry, national origin, or sexual orientation.

(b) No person, whether or not acting under color of law, shall knowingly deface, damage, or destroy the real or personal property of any other person for the purpose of intimidating or interfering with the free exercise or enjoyment of any right or privilege secured to the other person by the Constitution or laws of this state or by the Constitution or laws of the United States, because of the other person's race, color, religion, ancestry, national origin, or sexual orientation.

(c) Any person convicted of violating subdivision (a) or (b) shall be punished by imprisonment in the county jail not to exceed six months, or by a fine not to exceed five thousand dollars ($5,000), or by both the fine and imprisonment; provided, however, that no person shall be convicted of violating subdivision (a) based upon speech alone, except upon a showing that the speech itself threatened violence against a specific person or group of persons and that the defendant had the apparent ability to carry out the threat.

422.7. Except in the case of a violation of subdivision (a) or (b) of Section 422.6, any crime which is not made punishable by imprisonment in state prison shall be punishable by imprisonment in state prison or in county jail not to exceed one year, or by fine not to exceed ten thousand dollars ($10,000), or by both the fine and imprisonment, if the crime is committed against the person or property of another for the purpose of intimidating or interfering with that other person's free exercise or enjoyment of any right secured to him or her by the Constitution or laws of this state or by

the Constitution or laws of the United States, because of the other person's race, color, religion, ancestry, national origin, or sexual orientation, under any of the following circumstances, which shall be charged in the accusatory pleading:

(a) The crime against the person of another either includes the present ability to commit a violent injury or causes actual physical injury.

(b) The crime against property causes damage in excess of one thousand dollars ($1,000).

(c) The person charged with a crime under this section has been previously convicted of a violation of subdivision (a) or (b) of Section 422.6, or has been previously convicted of a conspiracy to commit a crime described in subdivision (a) or (b) of Section 422.6.

422.8. Except as otherwise required by law, nothing in Section 422.6 or 422.7 shall be construed to prevent or limit the prosecution of any person pursuant to any provision of law.

422.9. (a) Any willful and knowing violation of any order issued pursuant to subdivision (a) or (b) of Section 52.1 of the Civil Code shall be a misdemeanor punishable by a fine of not more than one thousand dollars ($1,000), or by imprisonment in the county jail for not more than six months, or by both the fine and imprisonment.

(b) A person who has previously been convicted one or more times of violating an order issued pursuant to subdivision (a) or (b) of Section 52.1 of the Civil Code upon charges separately brought and tried shall be imprisoned in the county jail for not more than one year. Subject to the discretion of the court, the prosecution shall have the opportunity to present witnesses and relevant evidence at the time of the sentencing of a defendant pursuant to this subdivision.

(c) The prosecuting agency of each county shall have the primary responsibility for the enforcement of orders issued pursuant to Section 52.1 of the Civil Code.

SEC. 5. Section 1170.75 of the Penal Code is amended to read:

1170.75. Except in a case in which the person has been convicted of an offense subject to Section 1170.8, the fact that a person committed a felony or attempted to commit a felony because of the victim's race, color, religion, nationality, country of origin, ancestry, or sexual orientation, shall be considered a circumstance in aggravation of the crime in imposing a term under subdivision (b) of Section 1170.

SEC. 6. No reimbursement is required by Sections 4 and 5 of this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

Furthermore, no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution due to the requirement in subdivision (e) of Section 52.1 of the Civil Code, as

added by Section 3 of this act, for law enforcement agencies to serve copies of orders issued pursuant to this act on defendants because self-financing authority is provided in Section 26721 of the Government Code to cover any costs that may be incurred in carrying out any program or performing any service required by that portion of this act.

However, the requirement in subdivision (e) of Section 52.1 of the Civil Code, as added by Section 3 of this act, for county clerks to mail copies of orders issued pursuant to this act to law enforcement agencies mandates a new program or higher level of service on local government. As required by Section 6 of Article XIII B of the California Constitution, reimbursement to local agencies and school districts for costs mandated by the state pursuant to this act shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code and, if the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), it shall be made from the State Mandates Claims Fund.

CHAPTER 1278

An act to amend Section 822 of the Evidence Code, and to add Section 1405.1 to the Public Utilities Code, relating to eminent domain.

[Approved by Governor September 28, 1987 Filed with Secretary of State September 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 822 of the Evidence Code is amended to read:

822. (a) In an eminent domain or inverse condemnation proceeding, notwithstanding the provisions of Sections 814 to 821, inclusive, the following matter is inadmissible as evidence and shall not be taken into account as a basis for an opinion as to the value of property:

(1) The price or other terms and circumstances of an acquisition of property or a property interest if the acquisition was for a public use for which the property could have been taken by eminent domain, except that the price or other terms and circumstances of an acquisition of property appropriated to a public use or a property interest so appropriated shall not be excluded under this section if the acquisition was for the same public use for which the property could have been taken by eminent domain.

(2) The price at which an offer or option to purchase or lease the property or property interest being valued or any other property was made, or the price at which such property or interest was optioned,

offered, or listed for sale or lease, except that an option, offer, or listing may be introduced by a party as an admission of another party to the proceeding; but nothing in this subdivision permits an admission to be used as direct evidence upon any matter that may be shown only by opinion evidence under Section 813.

(3) The value of any property or property interest as assessed for taxation purposes or the amount of taxes which may be due on the property, but nothing in this subdivision prohibits the consideration of actual or estimated taxes for the purpose of determining the reasonable net rental value attributable to the property or property interest being valued.

(4) An opinion as to the value of any property or property interest other than that being valued.

(5) The influence upon the value of the property or property interest being valued of any noncompensable items of value, damage, or injury.

(6) The capitalized value of the income or rental from any property or property interest other than that being valued.

(b) In an action other than an eminent domain or inverse condemnation proceeding, the matters listed in subdivision (a) are not admissible as evidence, and may not be taken into account as a basis for an opinion as to the value of property, except to the extent permitted under the rules of law otherwise applicable.

(c) The amendments made to this section during the 1987 portion of the 1987–88 Regular Session of the Legislature shall not apply to or affect any petition filed pursuant to this section before January 1, 1988.

SEC. 2. Section 1405.1 is added to the Public Utilities Code, to read:

1405.1. With respect to water corporations and water companies, the following procedures shall apply:

(a) Upon the filing of the petition the commission shall make its order to show cause. The order shall specify the nature of the proceeding, contain a general description of the lands, property, and rights which petitioner desires to acquire by condemnation or otherwise, and direct the owners and claimants named in the petition, who shall also be named in the order, to appear before the commission at a time and place specified in the order, to show cause, if any they have, why the commission should not proceed to hear the petition and to fix the just compensation to be paid for the lands, property, and rights.

The order shall direct the executive director of the commission to serve or cause to be served upon each owner and claimant a copy of the order certified under the seal of the commission to which shall be attached a copy of the petition.

(b) In response to the order to show cause, in response to a petition of the first class, as specified in Section 1403, the respondent public utility, or the owners of more than one-half interest in the public utility, may present the commission with a certified copy of

a filed motion to the superior court where the utility property is located to take jurisdiction of the matter. When presented the motion before, or at the time of, the hearing on the order to show cause, the commission shall dismiss the proceeding. The superior court shall then grant the motion to take jurisdiction of the matter. The political subdivision may then file, within 60 days of the court's granting the motion, an action in eminent domain pursuant to the Code of Civil Procedure and any further proceedings shall be conducted pursuant to those provisions.

(c) All proceedings held pursuant to either subdivision (b) or (d) shall be given priority over all civil cases in accordance with Section 1260.010 of the Code of Civil Procedure.

(d) In response to an order to show cause in response to a petition of the second class, as specified in Section 1403, and upon presentation of the motion specified in subdivision (b), the commission shall suspend the proceeding, but shall not dismiss the proceeding. The superior court shall then grant the motion to take limited jurisdiction of the matter solely for the purpose of determining the amount of just compensation. The political subdivision may then file, within 30 days, an action in the nature of eminent domain, solely for the purpose of determining, pursuant to the Evidence Code and the Code of Civil Procedure, the just compensation to be paid for the land, property, and rights. Upon a determination of just compensation, the court shall certify the finding to the commission. The finding shall not be appealable, and the court shall be acting as an agent of the commission in making the finding. The finding shall be binding on the commission as if it had been made by the commission itself pursuant to Section 1411. The commission shall then continue the matter pursuant to this chapter.

(e) If the respondent public utility, or the owners of more than one-half interest in the public utility, in the case of a petition of either the first or second class, files a motion to remove the matter from the commission to superior court pursuant to this section, the commission and the court shall not make an award of any litigation expenses incurred prior to the commission's dismissal or suspension of the matter.

(f) Notwithstanding any other provision of law, the date of valuation for purposes of just compensation shall be fixed by the superior court as of the day on which the court grants the motion filed by the public utility pursuant to subdivision (b) or (c).

(g) A political subdivision is liable only as provided in Sections 1414 and 1415 for payment of the reasonable expenditures of the owner in any proceeding initiated pursuant to subdivision (c). For purposes of this subdivision, the proceeding before the commission, as used in Section 1415, includes any proceedings conducted pursuant to subdivision (c).

(h) The amendments made to this section by Assembly Bill 616 during the 1987 portion of the 1987–88 Regular Session of the Legislature shall not apply to or affect any petition filed pursuant to

this section before January 1, 1988.

SEC. 3. The Legislature hereby finds and declares that the purpose of the act is to permit a public utility or its owners to be assured a court trial in the very limited area of just compensation. Since the superior court already has jurisdiction to fix just compensation, at the discretion of the condemning political subdivision, this act extends this discretion to the condemnee utility and its owners, and amends the current Public Utilities Commission's procedures solely for the purpose of placing each side on an equal footing.

CHAPTER 1279

An act to amend Sections 120051, and 120265 of, and to add Section 120266 to, the Public Utilities Code, relating to transit.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 120051 of the Public Utilities Code is amended to read:

120051. The member of the board of supervisors appointed pursuant to subdivision (a) of Section 120050 shall represent a supervisorial district completely within the area under the jurisdiction of the transit development board as defined in Section 120054.

SEC. 2. Section 120265 of the Public Utilities Code is amended to read:

120265. (a) The board shall provide a system of regional transit services for its area of jurisdiction, to be funded from the regional transit service fund which the board shall create. The board may provide the regional services directly, by contract with the San Diego Transit Corporation, or by contract with any other provider of services as it deems appropriate, and upon terms and conditions that the board finds in its best interests. The board shall complete an economic feasibility study of competitive bidding for regional transit service within 180 days from the date of acquisition of the San Diego Transit Corporation and shall update the study at any time the board deems appropriate to consider changed circumstances. The board shall adopt a policy for contract services to permit prices and other factors to be compared and evaluated prior to negotiating any contract for regional service.

(b) The board shall determine the routes, fares, frequency of service, and hours of operation of regional services. The board shall create a regional transit service advisory committee consisting of a representative from each of the jurisdictions that contributes to the

regional transit service funds from its apportionment as determined pursuant to Section 99231.

Periodic revisions to the regional route system may be made by the board upon review by the regional transit service advisory committee which shall meet on an as-needed basis, but not less than once a year to review the annual budget and assessment for regional transit services.

(c) The formula specified in subdivision (d) for funding regional services shall remain in effect for a minimum of three fiscal years and thereafter may be amended by agreement of all affected jurisdictions and the board. The regional transit service advisory committee shall review the assessment formula and recommend appropriate changes to the board and the jurisdictions.

(d) On an annual basis, at the time that the annual apportionment schedule is developed by the transportation planning agency, each jurisdiction shall be assessed a percentage of its apportionment equal to the percentage of its 1983–84 fiscal year apportionment claimed for support of regional services or 5 percent of its annual apportionment, whichever is greater. The assessment for the County of San Diego shall be applied only to that portion of the county apportionment attributable to the board's area of jurisdiction as defined in Section 120054. Any funds remaining after the annual assessment for regional services shall be made available to the jurisdictions for support of transit purposes.

(e) The board may enter into agreements with any local jurisdiction to provide local transit services by the means and upon terms and conditions as may be mutually agreed upon.

(f) The board shall, upon request of the City of Coronado, Poway, or Santee, or the County of San Diego, establish reserves consisting of that part of the board's allocation pursuant to paragraph (1) of subdivision (b) of Section 99233.5, which otherwise would have been allocated to each requesting city or county for the first two fiscal years after the board's acquisition of the San Diego Transit Corporation. The reserves shall be used by the board for transit purposes within the requesting city or county.

(g) The acquisition of the San Diego Transit Corporation by the board shall not create or impose any financial liability upon the County of San Diego or the cities within the board's area of jurisdiction for any obligations and liabilities of the corporation by virtue of their membership on the board.

SEC. 3. Section 120266 is added to the Public Utilities Code, to read:

120266. (a) The San Diego Metropolitan Transit Development Board may enter into contracts with any city in its area of jurisdiction and with the County of San Diego to license or regulate by ordinance any transportation services rendered wholly within the city's corporate limits or within the unincorporated area.

(b) The board shall levy the fees necessary to recover the full cost of licensing and regulating these services.

CHAPTER 1280

An act to add Chapter 20.5 (commencing with Section 9889.70) to Division 3 of the Business and Professions Code, to amend Sections 1793.2 and 1794 of, and to add Section 1793.25 to, the Civil Code, to amend Section 7102 of the Revenue and Taxation Code, and to amend Section 3050 of the Vehicle Code, relating to warranties, and making an appropriation therefor.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 20.5 (commencing with Section 9889.70) is added to Division 3 of the Business and Professions Code, to read:

CHAPTER 20.5. CERTIFICATION OF THIRD PARTY DISPUTE RESOLUTION PROCESSES

9889.70. Unless the context requires otherwise, the following definitions govern the construction of this chapter:

(a) "Bureau" means the Bureau of Automotive Repair.

(b) "New motor vehicle" means a new motor vehicle as defined in subparagraph (B) of paragraph (4) of subdivision (e) of Section 1793.2 of the Civil Code.

(c) "Manufacturer" means a new motor vehicle manufacturer, manufacturer branch, distributor, or distributor branch required to be licensed pursuant to Article 1 (commencing with Section 11700) of Chapter 4 of Division 5 of the Vehicle Code.

(d) "Qualified third party dispute resolution process" means a third party dispute resolution process which operates in compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter and which has been certified by the bureau pursuant to this chapter.

9889.71. The bureau shall establish a program for certifying each third party dispute resolution process used for the arbitration of disputes pursuant to paragraph (2) of subdivision (e) of Section 1793.2 of the Civil Code. In establishing the program, the bureau shall do all of the following:

(a) Prescribe and provide forms to be used to apply for certification under this chapter.

(b) Establish a set of minimum standards which shall be used to determine whether a third party dispute resolution process is in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter.

(c) Prescribe the information which each manufacturer, or other entity, that uses a third party dispute resolution process, and that applies to have that process certified by the bureau, shall provide the

bureau in the application for certification. In prescribing the information to accompany the application for certification, the bureau shall require the manufacturer, or other entity, to provide only that information which the bureau finds is reasonably necessary to enable the bureau to determine whether the third party dispute resolution process is in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter.

(d) Prescribe the information that each qualified third party dispute resolution process shall provide the bureau, and the time intervals at which the information shall be required, to enable the bureau to determine whether the qualified third party dispute resolution process continues to operate in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter.

9889.72. (a) Each manufacturer may establish, or otherwise make available to buyers or lessees of new motor vehicles, a qualified third party dispute resolution process for the resolution of disputes pursuant to paragraph (2) of subdivision (e) of Section 1793.2 of the Civil Code. The manufacturer, or other entity, which operates the third party dispute resolution process shall apply to the bureau for certification of that process. The application for certification shall be accompanied by the information prescribed by the bureau.

(b) The bureau shall review the application and accompanying information and, after conducting an onsite inspection, shall determine whether the third party dispute resolution process is in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter. If the bureau determines that the process is in substantial compliance, the bureau shall certify the process. If the bureau determines that the process is not in substantial compliance, the bureau shall deny certification and shall state, in writing, the reasons for denial and the modifications in the operation of the process that are required in order for the process to be certified.

(c) The bureau shall make a final determination whether to certify a third party dispute resolution process or to deny certification not later than 90 calendar days following the date the bureau accepts the application for certification as complete.

9889.73. (a) The bureau, in accordance with the time intervals prescribed pursuant to subdivision (d) of Section 9889.71, but at least once annually, shall review the operation and performance of each qualified third party dispute resolution process and determine, using the information provided the bureau as prescribed pursuant to subdivision (d) of Section 9889.71 and the monitoring and inspection information described in subdivision (c) of Section 9889.74, whether the process is operating in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter. If the bureau determines that the process is in substantial compliance, the certification shall remain in effect.

(b) If the bureau determines that the process is not in substantial

compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code or this chapter, the bureau shall issue a notice of decertification to the manufacturer, or other entity, which uses that process. The notice of decertification shall state the reasons for the issuance of the notice and prescribe the modifications in the operation of the process that are required in order for the process to retain its certification.

(c) A notice of decertification shall take effect 180 calendar days following the date the notice is served on the manufacturer, or other entity, which uses the process that the bureau has determined is not in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code or this chapter. The bureau shall withdraw the notice of decertification prior to its effective date if the bureau determines, after a public hearing, that the manufacturer, or other entity, which uses the process has made the modifications in the operation of the process required in the notice of decertification and is in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter.

9889.74. In addition to any other requirements of this chapter, the bureau shall do all of the following:

(a) Establish procedures to assist owners or lessees of new motor vehicles who have complaints regarding the operation of a qualified third-party dispute resolution process.

(b) Establish methods for measuring customer satisfaction and to identify violations of this chapter, which shall include an annual random postcard or telephone survey by the bureau of the customers of each qualified third-party dispute resolution process.

(c) Monitor and inspect, on a regular basis, qualified third-party dispute resolution processes to determine whether they continue to meet the standards for certification. Monitoring and inspection shall include, but not be limited to, all of the following:

(1) Onsite inspections of each certified process not less frequently than twice annually.

(2) Investigation of complaints from consumers regarding the operation of qualified third party dispute resolution processes and analyses of representative samples of complaints against each process.

(3) Analyses of the annual surveys required by subdivision (b).

(d) Notify the Department of Motor Vehicles of the failure of a manufacturer to honor a decision of a qualified third-party dispute resolution process to enable the department to take appropriate enforcement action against the manufacturer pursuant to Section 11705.4 of the Vehicle Code.

(e) Submit a biennial report to the Legislature evaluating the effectiveness of this chapter, make available to the public summaries of the statistics and other information supplied by each qualified third-party resolution process, and publish educational materials regarding the purposes of this chapter.

(f) Adopt regulations as necessary and appropriate to implement

the provisions of this chapter.

9889.75. The New Motor Vehicle Board in the Department of Motor Vehicles shall, in accordance with the procedures prescribed in this section, administer the collection of fees for the purposes of fully funding the administration of this chapter.

(a) There is hereby created in the Automotive Repair Fund a Certification Account. Fees collected pursuant to this section shall be deposited in the Certification Account and shall be available, upon appropriation by the Legislature, exclusively to pay the expenses incurred by the bureau in administering this chapter. If at the conclusion of any fiscal year the amount of fees collected exceeds the amount of expenditures for that purpose during that fiscal year, the surplus in the Certification Account shall be carried over into the succeeding fiscal year.

(b) Beginning July 1, 1988, every applicant for a license as a manufacturer, manufacturer branch, distributor, or distributor branch, and every applicant for the renewal of a license as a manufacturer, manufacturer branch, distributor, or distributor branch, shall accompany the application with a statement of the number of motor vehicles sold, leased, or otherwise distributed by or for the applicant in this state during the preceding calendar year, and shall pay to the Department of Motor Vehicles, for each issuance or renewal of the license, an amount prescribed by the New Motor Vehicle Board, but not to exceed one dollar ($1) for each motor vehicle sold, leased, or distributed by or for the applicant in this state during the preceding calendar year. The total fee paid by each licensee shall be rounded to the nearest dollar in the manner described in Section 9559 of the Vehicle Code. No more than one dollar ($1) shall be charged, collected, or received from any one or more licensees pursuant to this subdivision with respect to the same motor vehicle.

(c) On or before January 1 of each calendar year, the bureau shall determine the dollar amount, not to exceed one dollar ($1) per motor vehicle, which shall be collected and received by the Department of Motor Vehicles beginning July 1 of that year, based upon an estimate of the number of sales, leases, and other dispositions of motor vehicles in this state during the preceding calendar year, in order to fully fund the program established by this chapter during the following fiscal year. The bureau shall notify the New Motor Vehicle Board of the dollar amount per motor vehicle that the New Motor Vehicle Board shall use in calculating the amounts of the fees to be collected from applicants pursuant to this subdivision.

(d) For the purposes of this section, "motor vehicle" means a new passenger or commercial motor vehicle of a kind that is required to be registered under the Vehicle Code, but the term does not include a motorcycle, a motor home, or any vehicle whose gross weight exceeds 10,000 pounds.

(e) The New Motor Vehicle Board may adopt regulations to

implement this section.

9889.76. This chapter shall become operative on July 1, 1988.

SEC. 2. Section 1793.2 of the Civil Code is amended to read:

1793.2. (a) Every manufacturer of consumer goods sold in this state and for which the manufacturer has made an express warranty shall:

(1) Maintain in this state sufficient service and repair facilities reasonably close to all areas where its consumer goods are sold to carry out the terms of such warranties or designate and authorize in this state as service and repair facilities independent repair or service facilities reasonably close to all areas where its consumer goods are sold to carry out the terms of such warranties.

As a means of complying with this paragraph, a manufacturer may enter into warranty service contracts with independent service and repair facilities. The warranty service contracts may provide for a fixed schedule of rates to be charged for warranty service or warranty repair work, however, the rates fixed by such contracts shall be in conformity with the requirements of subdivision (c) of Section 1793.3. The rates established pursuant to subdivision (c) of Section 1793.3, between the manufacturer and the independent service and repair facility, shall not preclude a good faith discount which is reasonably related to reduced credit and general overhead cost factors arising from the manufacturer's payment of warranty charges direct to the independent service and repair facility. The warranty service contracts authorized by this paragraph shall not be executed to cover a period of time in excess of one year, and may be renewed only by a separate, new contract or letter of agreement between the manufacturer and the independent service and repair facility.

(2) In the event of a failure to comply with paragraph (1) of this subdivision, be subject to Section 1793.5.

(3) Make available to authorized service and repair facilities sufficient service literature and replacement parts to effect repairs during the express warranty period.

(b) Where such service and repair facilities are maintained in this state and service or repair of the goods is necessary because they do not conform with the applicable express warranties, service and repair shall be commenced within a reasonable time by the manufacturer or its representative in this state. Unless the buyer agrees in writing to the contrary, the goods shall be serviced or repaired so as to conform to the applicable warranties within 30 days. Delay caused by conditions beyond the control of the manufacturer or his representatives shall serve to extend this 30-day requirement. Where delay arises, conforming goods shall be tendered as soon as possible following termination of the condition giving rise to the delay.

(c) The buyer shall deliver nonconforming goods to the manufacturer's service and repair facility within this state, unless, due to reasons of size and weight, or method of attachment, or

method of installation, or nature of the nonconformity, delivery cannot reasonably be accomplished. If the buyer cannot return the nonconforming goods for any of these reasons, he or she shall notify the manufacturer or its nearest service and repair facility within the state. Written notice of nonconformity to the manufacturer or its service and repair facility shall constitute return of the goods for purposes of this section. Upon receipt of such notice of nonconformity the manufacturer shall, at its option, service or repair the goods at the buyer's residence, or pick up the goods for service and repair, or arrange for transporting the goods to its service and repair facility. All reasonable costs of transporting the goods when a buyer cannot return them for any of the above reasons shall be at the manufacturer's expense. The reasonable costs of transporting nonconforming goods after delivery to the service and repair facility until return of the goods to the buyer shall be at the manufacturer's expense.

(d) (1) Except as provided in paragraph (2), if the manufacturer or its representative in this state does not service or repair the goods to conform to the applicable express warranties after a reasonable number of attempts, the manufacturer shall either replace the goods or reimburse the buyer in an amount equal to the purchase price paid by the buyer, less that amount directly attributable to use by the buyer prior to the discovery of the nonconformity.

(2) If the manufacturer of its representative in this state is unable to service or repair a new motor vehicle, as that term is defined in subparagraph (B) of paragraph (4) of subdivision (e), to conform to the applicable express warranties after a reasonable number of attempts, the manufacturer shall either promptly replace the new motor vehicle in accordance with subparagraph (A) or promptly make restitution to the buyer in accordance with subparagraph (B). However, the buyer shall be free to elect restitution in lieu of replacement, and in no event shall the buyer be required by the manufacturer to accept a replacement vehicle.

(A) In the case of replacement, the manufacturer shall replace the buyer's vehicle with a new motor vehicle substantially identical to the vehicle replaced. The replacement vehicle shall be accompanied by all express and implied warranties that normally accompany new motor vehicles of that specific kind. The manufacturer also shall pay for, or to, the buyer the amount of any sales or use tax, license fees, registration fees, and other official fees which the buyer is obligated to pay in connection with the replacement, plus any incidental damages to which the buyer is entitled under Section 1794, including, but not limited to, reasonable repair, towing, and rental car costs actually incurred by the buyer.

(B) In the case of restitution, the manufacturer shall make restitution in an amount equal to the actual price paid or payable by the buyer, including any charges for transportation and manufacturer-installed options, but excluding nonmanufacturer items installed by a dealer or the buyer, and including any collateral

charges such as sales tax, license fees, registration fees, and other official fees, plus any incidental damages to which the buyer is entitled under Section 1794, including, but not limited to, reasonable repair, towing, and rental car costs actually incurred by the buyer.

(C) When the manufacturer replaces the new motor vehicle pursuant to subparagraph (A), the buyer shall only be liable to pay the manufacturer an amount directly attributable to use by the buyer of the replaced vehicle prior to the time the buyer first delivered the vehicle to the manufacturer or distributor, or its authorized service and repair facility for correction of the problem that gave rise to the nonconformity. When restitution is made pursuant to subparagraph (B), the amount to be paid by the manufacturer to the buyer may be reduced by the manufacturer by that amount directly attributable to use by the buyer prior to the time the buyer first delivered the vehicle to the manufacturer or distributor, or its authorized service and repair facility for correction of the problem that gave rise to the nonconformity. The amount directly attributable to use by the buyer shall be determined by multiplying the actual price of the new motor vehicle paid or payable by the buyer, including any charges for transportation and manufacturer-installed options, by a fraction having as its denominator 120,000 and having as its numerator the number of miles traveled by the new motor vehicle prior to the time the buyer first delivered the vehicle to the manufacturer or distributor, or its authorized service and repair facility for correction of the problem that gave rise to the nonconformity. Nothing in this paragraph shall in any way limit the rights or remedies available to the buyer under any other law.

(e) (1) It shall be presumed that a reasonable number of attempts have been made to conform a new motor vehicle to the applicable express warranties if, within one year from delivery to the buyer or 12,000 miles on the odometer of the vehicle, whichever occurs first, either (A) the same nonconformity has been subject to repair four or more times by the manufacturer or its agents and the buyer has at least once directly notified the manufacturer of the need for the repair of the nonconformity, or (B) the vehicle is out of service by reason of repair of nonconformities by the manufacturer or its agents for a cumulative total of more than 30 calendar days since delivery of the vehicle to the buyer. The 30-day limit shall be extended only if repairs cannot be performed due to conditions beyond the control of the manufacturer or its agents. The buyer shall be required to directly notify the manufacturer pursuant to subparagraph (A) only if the manufacturer has clearly and conspicuously disclosed to the buyer, with the warranty or the owner's manual, the provisions of this subdivision and that of subdivision (d), including the requirement that the buyer must notify the manufacturer directly pursuant to subparagraph (A). This presumption shall be a rebuttable presumption affecting the burden of proof, and it may be asserted by the buyer in any civil action,

including an action in small claims court, or other formal or informal proceeding.

(2) If a qualified third party dispute resolution process exists, and the buyer receives timely notification in writing of the availability of a third party process with a description of its operation and effect, the presumption in paragraph (1) may not be asserted by the buyer until after the buyer has initially resorted to the third party process as required in paragraph (3). Notification of the availability of the third party process is not timely if the buyer suffers any prejudice resulting from any delay in giving the notification. If a qualified third party dispute resolution process does not exist, or if the buyer is dissatisfied with the third party decision, or if the manufacturer or its agent neglects to promptly fulfill the terms of such third party decision after the decision is accepted by the buyer, the buyer may assert the presumption provided in paragraph (1) in an action to enforce the buyer's rights under subdivision (d). The findings and decision of the third party shall be admissible in evidence in the action without further foundation. Any period of limitation of actions under any federal or California laws with respect to any person shall be extended for a period equal to the number of days between the date a complaint is filed with a third party dispute resolution process and the date of its decision or the date before which the manufacturer or its agent is required by the decision to fulfill its terms if the decision is accepted by the buyer, whichever occurs later.

(3) A qualified third party dispute resolution process shall be one that does all of the following:

(A) Complies with the minimum requirements of the Federal Trade Commission for informal dispute settlement procedures as set forth in Part 703 of Title 16 of the Code of Federal Regulations, as those regulations read on January 1, 1987.

(B) Renders decisions which are binding on the manufacturer if the buyer elects to accept the decision.

(C) Prescribes a reasonable time, not to exceed 30 days after the decision is accepted by the buyer, within which the manufacturer or its agent must fulfill the terms of its decisions.

(D) Provides arbitrators who are assigned to decide disputes with copies of, and instruction in, the provisions of the Federal Trade Commission's regulations in Part 703 of Title 16 of the Code of Federal Regulations as those regulations read on January 1, 1987, Division 2 (commencing with Section 2101) of the Commercial Code, and this chapter.

(E) Requires the manufacturer, when the process orders, under the terms of this chapter, either that the nonconforming motor vehicle be replaced if the buyer consents to this remedy or that restitution be made to the buyer, to replace the motor vehicle or make restitution in accordance with paragraph (2) of subdivision (d).

(F) Provides, at the request of the arbitrator or a majority of the

arbitration panel, for an inspection and written report on the condition of a nonconforming motor vehicle, at no cost to the buyer, by an automobile expert who is independent of the manufacturer.

(G) Takes into account, in rendering decisions, all legal and equitable factors, including, but not limited to, the written warranty, the rights and remedies conferred in regulations of the Federal Trade Commission contained in Part 703 of Title 16 of the Code of Federal Regulations as those regulations read on January 1, 1987, Division 2 (commencing with Section 2101) of the Commercial Code, this chapter, and any other equitable considerations appropriate in the circumstances. Nothing in this chapter requires that, to be certified as a qualified third-party dispute resolution process pursuant to this section, decisions of the process must consider or provide remedies in the form of awards of punitive damages or multiple damages, under subdivision (c) of Section 1794, or of attorney's fees under subdivision (d) of Section 1794, or of consequential damages other than as provided in subdivisions (a) and (b) of Section 1794, including, but not limited to, reasonable repair, towing and rental car costs actually incurred by the buyer.

(H) Requires that no arbitrator deciding a dispute may be a party to the dispute and that no other person, including an employee, agent, or dealer for the manufacturer, may be allowed to participate substantively in the merits of any dispute with the arbitrator unless the buyer is allowed to participate also. Nothing in this paragraph prohibits any member of an arbitration board from deciding a dispute.

(I) Obtains and maintains certification by the Bureau of Automotive Repair pursuant to Chapter 20.5 (commencing with Section 9889.70) of Division 3 of the Business and Professions Code.

(4) For the purposes of subdivision (d) and this subdivision the following terms have the following meanings:

(A) "Nonconformity" means a nonconformity which substantially impairs the use, value, or safety of the new motor vehicle to the buyer or lessee.

(B) "New motor vehicle" means a new motor vehicle which is used or bought for use primarily for personal, family, or household purposes. "New motor vehicle" includes a dealer-owned vehicle and a "demonstrator" or other motor vehicle sold with a manufacturer's new car warranty but does not include a motorcycle, a motorhome, or a motor vehicle which is not registered under the Vehicle Code because it is to be operated or used exclusively off the highways. A "demonstrator" is a vehicle assigned by a dealer for the purpose of demonstrating qualities and characteristics common to vehicles of the same or similar model and type.

(5) No person shall sell or lease a motor vehicle transferred by a buyer or lessee to a manufacturer pursuant to paragraph (2) of subdivision (d) unless the nature of the nonconformity experienced by the original buyer or lessee is clearly and conspicuously disclosed, the nonconformity is corrected, and the manufacturer warrants to

the new buyer or lessee in writing for a period of one year that the motor vehicle is free of that nonconformity.

SEC. 3. Section 1793.25 is added to the Civil Code, to read:

1793.25. (a) Notwithstanding Part 1 (commencing with Section 6001) of Division 2 of the Revenue and Taxation Code, the State Board of Equalization shall reimburse the manufacturer of a new motor vehicle for an amount equal to the sales tax which the manufacturer includes in making restitution to the buyer pursuant to subparagraph (B) of paragraph (2) of subdivision (d) of Section 1793.2, when satisfactory proof is provided that the retailer of the motor vehicle for which the manufacturer is making restitution has reported and paid the sales tax on the gross receipts from the sale of that motor vehicle. The State Board of Equalization may adopt rules and regulations to carry out, facilitate compliance with, or prevent circumvention or evasion of, this section.

(b) Nothing in this section shall in any way change the application of the sales and use tax to the gross receipts and the sales price from the sale, and the storage, use, or other consumption, in this state or tangible personal property pursuant to Part 1 (commencing with Section 6001) of Division 2 of the Revenue and Taxation Code.

(c) The manufacturer's claim for reimbursement and the board's approval or denial of the claim shall be subject to the provisions of Article 1 (commencing with Section 6901) of Chapter 7 of Part 1 of Division 2 of the Revenue and Taxation Code, except Sections 6902.1, 6903, 6907, and 6908 thereof, insofar as those provisions are not inconsistent with this section.

SEC. 4. Section 1794 of the Civil Code is amended to read:

1794. (a) Any buyer of consumer goods who is damaged by a failure to comply with any obligation under this chapter or under an implied or express warranty or service contract may bring an action for the recovery of damages and other legal and equitable relief.

(b) The measure of the buyer's damages in an action under this section shall include the rights of replacement or reimbursement as set forth in subdivision (d) of Section 1793.2, and the following:

(1) Where the buyer has rightfully rejected or justifiably revoked acceptance of the goods or has exercised any right to cancel the sale, Sections 2711, 2712, and 2713 of the Commercial Code shall apply.

(2) Where the buyer has accepted the goods, Sections 2714 and 2715 of the Commercial Code shall apply, and the measure of damages shall include the cost of repairs necessary to make the goods conform.

(c) If the buyer establishes that the failure to comply was willful, the judgment may include, in addition to the amounts recovered under subdivision (a), a civil penalty which shall not exceed two times the amount of actual damages. This subdivision shall not apply in any class action under Section 382 of the Code of Civil Procedure or under Section 1781, or with respect to a claim based solely on a breach of an implied warranty.

(d) If the buyer prevails in an action under this section, the buyer

shall be allowed by the court to recover as part of the judgment a sum equal to the aggregate amount of costs and expenses, including attorney's fees based on actual time expended, determined by the court to have been reasonably incurred by the buyer in connection with the commencement and prosecution of such action.

(e) (1) Except as otherwise provided in this subdivision, if the buyer establishes a violation of paragraph (2) of subdivision (d) of Section 1793.2, the buyer shall recover damages and reasonable attorney's fees and costs, and may recover a civil penalty of up to two times the amount of damages.

(2) If the manufacturer maintains a qualified third-party dispute resolution process which substantially complies with subdivision (e) of Section 1793.2, the manufacturer shall not be liable for any civil penalty pursuant to this subdivision.

(3) After the occurrence of the events giving rise to the presumption established in paragraph (1) of subdivision (e) of Section 1793.2, the buyer may serve upon the manufacturer a written notice requesting that the manufacturer comply with paragraph (2) of subdivision (d) of Section 1793.2. If the buyer fails to serve the notice, the manufacturer shall not be liable for a civil penalty pursuant to this subdivision.

(4) If the buyer serves the notice described in paragraph (3) and the manufacturer complies with paragraph (2) of subdivision (d) of Section 1793.2 within 30 days of the service of that notice, the manufacturer shall not be liable for a civil penalty pursuant to this subdivision.

(5) If the buyer recovers a civil penalty under subdivision (c), the buyer may not also recover a civil penalty under this subdivision for the same violation.

SEC. 5. Section 7102 of the Revenue and Taxation Code is amended to read:

7102. The money in the fund shall, upon order of the Controller, be drawn therefrom for refunds under this part, and pursuant to Section 1793.25 of the Civil Code, or be transferred in the following manner:

(a) (1) All revenues, less refunds, derived under this part at the 4¾-percent rate, including the imposition of sales and use taxes with respect to the sale, storage, use, or other consumption of motor vehicle fuel which would not have been received if the sales and use tax rate had been 5 percent and if motor vehicle fuel, as defined for purposes of the Motor Vehicle Fuel License Tax Law (Part 2 (commencing with Section 7301)), had been exempt from sales and use taxes, shall be estimated by the State Board of Equalization, with the concurrence of the Department of Finance shall be transferred during each fiscal year to the Transportation Planning and Development Account in the State Transportation Fund for appropriation pursuant to Section 99312 of the Public Utilities Code.

(2) If the amount transferred pursuant to paragraph (1) is less than one hundred ten million dollars ($110,000,000) in any fiscal year,

an additional amount equal to the difference between one hundred ten million dollars ($110,000,000) and the amount so transferred shall be transferred, to the extent funds are available, as follows:

(A) For the 1986–87 fiscal year, from the General Fund.

(B) For the 1987–88 and each subsequent fiscal year, from the state revenues due to the imposition of sales and use taxes on fuel, as defined for purposes of the Use Fuel Tax Law (Part 3 (commencing with Section 8601)).

(b) The balance shall be transferred to the General Fund.

(c) The estimate required by subdivision (a) shall be based on taxable transactions occurring during a calendar year, and the transfers required by subdivision (a) shall be made during the fiscal year that commences during that same calendar year. Transfers required by paragraphs (1) and (2) of subdivision (a) shall be made quarterly.

SEC. 6. Section 7102 of the Revenue and Taxation Code is amended to read:

7102. The money in the fund shall, upon order of the Controller, be drawn therefrom for refunds under this part, and pursuant to Section 1793.25 of the Civil Code, or be transferred in the following manner:

(a) (1) All revenues, less refunds, derived under this part at the 4¾-percent rate, including the imposition of sales and use taxes with respect to the sale, storage, use, or other consumption of motor vehicle fuel which would not have been received if the sales and use tax rate had been 5 percent and if motor vehicle fuel, as defined for purposes of the Motor Vehicle Fuel License Tax Law (Part 2 (commencing with Section 7301)), had been exempt from sales and use taxes, shall be estimated by the State Board of Equalization, with the concurrence of the Department of Finance shall be transferred during each fiscal year to the Transportation Planning and Development Account in the State Transportation Fund for appropriation pursuant to Section 99312 of the Public Utilities Code.

(2) If the amount transferred pursuant to paragraph (1) is less than one hundred ten million dollars ($110,000,000) in any fiscal year, an additional amount equal to the difference between one hundred ten million dollars ($110,000,000) and the amount so transferred shall be transferred, to the extent funds are available, as follows:

(A) For the 1986–87 fiscal year, from the General Fund.

(B) For the 1987–88 and each subsequent fiscal year, from the state revenues due to the imposition of sales and use taxes on fuel, as defined for purposes of the Use Fuel Tax Law (Part 3 (commencing with Section 8601)).

(b) The following percentage of the amount of all revenues, less refunds, derived under this part attributable to the sale, storage, use or other consumption of aircraft jet fuel used in propelling aircraft the sale or use of which in this state is subject to the tax imposed by Part 2 (commencing with Section 7301) and which are not subject to refund, shall be estimated by the State Board of Equalization, with

the concurrence of the Department of Finance, and shall be transferred to the Aeronautics Account in the State Transportation Fund:

(1) For the 1988–89 fiscal year, 50 percent of the amount.

(2) For the 1989–90 fiscal year and each fiscal year thereafter, 100 percent of the amount.

(c) After application of subdivisions (a) and (b), the balance shall be transferred to the General Fund.

(d) The estimate required by subdivisions (a) and (b) shall be based on taxable transactions occurring during a calendar year, and the transfers required by subdivisions (a) and (b) shall be made during the fiscal year that commences during that same calendar year. Transfers required by paragraphs (1) and (2) of subdivision (a) and subdivision (b) shall be made quarterly.

SEC. 7. Section 3050 of the Vehicle Code is amended to read:

3050. The board shall do all of the following:

(a) Adopt rules and regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code governing such matters as are specifically committed to its jurisdiction.

(b) Hear and consider, within the limitations and in accordance with the procedure provided, an appeal presented by an applicant for, or holder of, a license as a new motor vehicle dealer, manufacturer, manufacturer branch, distributor, distributor branch, or representative when the applicant or licensee submits an appeal provided for in this chapter from a decision arising out of the department.

(c) Consider any matter concerning the activities or practices of any person applying for or holding a license as a new motor vehicle dealer, manufacturer, manufacturer branch, distributor, distributor branch, or representative pursuant to Chapter 4 (commencing with Section 11700) of Division 5 submitted by any person. A member of the board who is a new motor vehicle dealer may not participate in, hear, comment, advise other members upon, or decide any matter considered by the board pursuant to this subdivision that involves a dispute between a franchisee and franchisor. After such consideration, the board may do any one or any combination of the following:

(1) Direct the department to conduct investigation of matters that the board deems reasonable, and make a written report on the results of the investigation to the board within the time specified by the board.

(2) Undertake to mediate, arbitrate, or otherwise resolve any honest difference of opinion or viewpoint existing between any member of the public and any new motor vehicle dealer, manufacturer, manufacturer branch, distributor branch, or representative.

(3) Order the department to exercise any and all authority or power that the department may have with respect to the issuance,

renewal, refusal to renew, suspension, or revocation of the license of any new motor vehicle dealer, manufacturer, manufacturer branch, distributor, distributor branch, or representative as such license is required under Chapter 4 (commencing with Section 11700) of Division 5.

(d) Hear and consider, within the limitations and in accordance with the procedure provided, a protest presented by a franchisee pursuant to Section 3060, 3062, 3064, or 3065. A member of the board who is a new motor vehicle dealer may not participate in, hear, comment, advise other members upon, or decide, any matter involving a protest filed pursuant to Article 4 (commencing with Section 3060).

SEC. 8. The sum of twenty-five thousand three hundred thirty-four dollars ($25,334) is hereby appropriated from the funds deposited, pursuant to Section 3016 of the Vehicle Code, in the Motor Vehicle Account in the State Transportation Fund to the New Motor Vehicle Board for the purpose of reimbursing the Department of Motor Vehicles for its expenses in implementing Section 9889.75 of the Business and Professions Code.

(b) The amount appropriated by subdivision (a) shall be repaid, plus interest, from the Certification Account in the Automotive Repair Fund in the 1988–89 fiscal year, as provided in subdivision (c). The interest shall be charged at the rate earned by the Pooled Money Investment Account in the General Fund during the period from January 1, 1988, until the date the transfer of funds required by subdivision (c) takes place and shall be paid for that same period of time. The Bureau of Automotive Repair shall take into account the requirement to repay the amount appropriated by subdivision (a), plus interest, in determining the dollar amount per vehicle specified in subdivision (c) of Section 9889.75 of the Business and Professions Code.

(c) The sum of twenty-five thousand three hundred thirty-four dollars ($25,334), plus so much more as shall be needed to pay the interest required by subdivision (b), shall be transferred from the Certification Account in the Automotive Repair Fund to the Motor Vehicle Account in the State Transportation Fund during the 1988–89 fiscal year. The transfer shall be in repayment of the amount appropriated pursuant to subdivision (a), plus interest as required by subdivision (b), and shall be deposited in the Motor Vehicle Account to the credit of the funds deposited in that account pursuant to Section 3016 of the Vehicle Code.

If the amount used by the New Motor Vehicle Board to reimburse the Department of Motor Vehicles for its expenses in implementing Section 9889.75 of the Business and Professions Code is less than the amount appropriated by subdivision (a), the unused portion of the appropriation shall revert to the Motor Vehicle Account and the amount transferred by this subdivision shall be reduced to the amount actually used by the New Motor Vehicle Board to reimburse the Department of Motor Vehicles, plus the interest on that amount.

This subdivision shall become operative on July 1, 1988.

SEC. 9. The amendment of subdivision (b) of Section 1794 of the Civil Code made at the 1987–88 Regular Session of the Legislature does not constitute a change in, but is declaratory of, existing law.

SEC. 10. Section 6 of this bill incorporates amendments to Section 7102 of the Revenue and Taxation Code proposed by both this bill and AB 276. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1988, (2) each bill amends Section 7102 of the Revenue and Taxation Code, and (3) this bill is enacted after AB 276, in which case Section 5 of this bill shall not become operative.

CHAPTER 1281

An act to amend Section 5490 of, to add Sections 5491.1, 5491.2, 5498.1, and 5498.2 to, and to add Chapter 2.6 (commencing with Section 5499.1) to Division 3 of, the Business and Professions Code, relating to on-premises advertising.

[Approved by Governor September 28, 1987 Filed with Secretary of State September 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 5490 of the Business and Professions Code is amended to read:

5490. (a) This chapter applies only to lawfully erected on-premises advertising displays.

(b) As used in this chapter, "on-premises advertising displays" means any structure, housing, sign, device, figure, statuary, painting, display, message placard, or other contrivance, or any part thereof, which has been designed, constructed, created, intended, or engineered to have a useful life of 15 years or more, and intended or used to advertise, or to provide data or information in the nature of advertising, for any of the following purposes:

(1) To designate, identify, or indicate the name or business of the owner or occupant of the premises upon which the advertising display is located.

(2) To advertise the business conducted, services available or rendered, or the goods produced, sold, or available for sale, upon the property where the advertising display has been lawfully erected.

(c) As used in this chapter, "introduced or adopted prior to March 12, 1983," means an ordinance or other regulation of a city or county which was officially presented before, formally read and announced by, or adopted by the legislative body prior to March 12, 1983.

(d) This chapter does not apply to advertising displays used exclusively for outdoor advertising pursuant to the Outdoor Advertising Act (Chapter 2 (commencing with Section 5200)).

(e) As used in this chapter, illegal advertising displays do not include legally erected, but nonconforming, displays for which the applicable amortization period has not expired.

(f) As used in this chapter, "abandoned advertising display" means any display remaining in place or not maintained for a period of 90 days which no longer advertises or identifies an ongoing business, product, or service available on the business premise where the display is located.

SEC. 2. Section 5491.1 is added to the Business and Professions Code, to read:

5491.1. Any city or county adopting, modifying, or amending any ordinance or regulation after January 1, 1988, which regulates or prohibits the use of any on-premises advertising display shall include provisions in that ordinance, regulation, or amendment for the inventorying and identification of illegal or abandoned advertising displays within its jurisdiction.

The inventory and identification shall commence within six months from the date of adoption of the ordinance or regulation. Within 60 days after the six-month period, the city or county, as the case may be, shall commence abatement of the identified preexisting illegal and abandoned on-premises advertising displays.

This section does not apply to the adoption or amendment of an ordinance if that new ordinance or amendment is limited in its effect to regulating the construction of new on-premises advertising displays. A new on-premise advertising display means, for purposes of this section, a display whose structure or housing has not been affixed to its intended premises. Construction means, for purposes of this section, the manufacturing or creation of a new on-premises advertising display.

SEC. 3. Section 5491.2 is added to the Business and Professions Code, to read:

5491.2. A city or county may impose reasonable fees upon all owners or lessees of on-premises business advertising displays for the purpose of covering its actual cost of inventorying and identifying illegal or abandoned advertising displays which are within its jurisdiction.

The actual cost may be fixed upon a determination of the total estimated reasonable cost, the amount of which and the fee to be charged is exclusively within the discretion of the city or county.

SEC. 4. Section 5498.1 is added to the Business and Professions Code, to read:

5498.1. A city or county may not deny, refuse to issue, or condition the issuance of a business license or a permit to construct a new legal on-premises advertising display upon the removal, conformance, repair, modification, or abatement of any other on-premises advertising display on the same real property where the business is to be or has been maintained if both of the following apply:

(a) The other display is located within the same commercial

complex which is zoned for commercial occupancy or use, but at a different business location from that for which the permit or license is sought.

(b) The other display is not owned or controlled by the permit applicant, and the permit applicant is not the agent of the person who owns or controls the other display.

SEC. 5. Section 5498.2 is added to the Business and Professions Code, to read:

5498.2. (a) During the amortization period for a nonconforming legally in place on-premises advertising display's continued use, a city or county may not deny, refuse to issue, or condition the issuance of a permit for modification or alteration to the display upon change of ownership of any existing business if the modification or alteration does not include a structural change in the display.

(b) Subdivision (a) of this section does not apply to any ordinance introduced or adopted prior to March 12, 1983, or adopted pursuant to subdivision (j) of Section 5497, if the ordinance contains no specific amortization schedule, but instead requires conformity upon change of ownership.

SEC. 6. Chapter 2.6 (commencing with Section 5499.1) is added to Division 3 of the Business and Professions Code, to read:

CHAPTER 2.6. ORDINANCES GOVERNING ON-PREMISE ADVERTISING DISPLAYS

5499.1. For purposes of this chapter only:

(a) "Illegal on-premises advertising display" means any of the following:

(1) An on-premises advertising display erected without first complying with all ordinances and regulations in effect at the time of its construction and erection or use.

(2) An on-premises advertising display that was legally erected, but whose use has ceased, or the structure upon which the display is placed has been abandoned by its owner, not maintained, or not used to identify or advertise an ongoing business for a period of not less than 90 days.

(3) An on-premises advertising display that was legally erected which later became nonconforming as a result of the adoption of an ordinance, the amortization period for the display provided by the ordinance rendering the display nonconforming has expired, and conformance has not been accomplished.

(4) An on-premises advertising display which is a danger to the public or is unsafe.

(5) An on-premises advertising display which is a traffic hazard not created by relocation of streets or highways or by acts of the city or county.

(b) "On-premises advertising display" means any structure, housing, sign, device, figure, statuary, painting, display, message placard, or other contrivance, or any part thereof, which is designed,

constructed, created, engineered, intended, or used to advertise, or to provide data or information in the nature of advertising, for any of the following purposes:

(1) To designate, identify, or indicate the name of the business of the owner or occupant of the premises upon which the advertising display is located.

(2) To advertise the business conducted, services available or rendered, or the goods produced, sold, or available for sale, upon the property where the advertising display is erected.

(c) "Enforcement officer" means the public employee or officer designated by the legislative body of the city or county to perform the duties imposed by this chapter on the enforcement officer.

5499.2. (a) The legislative body of a city or county may declare, by resolution, as public nuisances and abate all illegal on-premises advertising displays located within its jurisdiction. The resolution shall describe the property upon which or in front of which the nuisance exists by giving its lot and block number according to the county or city assessment map and its street address if known. Any number of parcels of private property may be included in one resolution.

(b) Prior to adoption of the resolution by the legislative body, the clerk of the legislative body shall send not less than a 10 days' written notice to all persons owning property described in the proposed resolution. The notice shall be mailed to each person on whom the described property is assessed on the last equalized assessment roll available on the date the notice is prepared. The notice shall state the date, time, and place of the hearing and generally describe the purpose of the hearing and the nature of the illegality of the display.

5499.3. After adoption of the resolution, the enforcement officer shall cause notices to be conspicuously posted on or in front of the property on or in front of which the display exists.

5499.4. The notice shall be substantially in the following form:

NOTICE TO REMOVE ILLEGAL ADVERTISING DISPLAY

Notice is hereby given that on the _____ day of _____, 19____, the (name of the legislative body) of (city or county) adopted a resolution declaring that an illegal advertising display is located upon or in front of this property which constitutes a public nuisance and must be abated by the removal of the illegal display. Otherwise, it will be removed, and the nuisance abated by the city (or county). The cost of removal will be assessed upon the property from or in front of which the display is removed and will constitute a lien upon the property until paid. Reference is hereby made to the resolution for further particulars. A copy of this resolution is on file in the office of the city (or county) clerk.

All property owners having any objection to the proposed removal of the display are hereby notified to attend a meeting of the (name of the legislative body) of (city or county) to be held (give date,

time, and place), when their objections will be heard and given due consideration.

Dated this _____ day of _____, 19__

_____

(Title)

(City or County of _____)

5499.5. The notices shall be posted at least 10 days prior to the time for hearing objections by the legislative body of the city or county.

5499.6. In addition to posting notice of the resolution and notice of the meeting when objections will be heard, the legislative body of the city or county shall direct its clerk to mail written notice of the proposed abatement to all persons owning property described in the resolution. The clerk shall cause the written notice to be mailed to each person on whom the described property is assessed in the last equalized assessment roll available on the date the resolution was adopted by the legislative body.

In cities where the county assessor performs the functions of the city assessor, the county assessor, at the request of the city clerk, shall, within 10 days thereafter, mail to the city clerk a list of the names and addresses of all of the persons owning property described in the resolution. The address of the owners shown on the assessment roll is conclusively deemed to be the proper address for the purpose of mailing the notice. The city shall reimburse the county for the actual cost of furnishing the list, and the cost shall be a part of the costs of abatement.

The notices mailed by the clerk shall be mailed at least 10 days prior to the time for hearing objections by the legislative body.

The notices mailed by the clerk shall be substantially in the form provided by Section 5499.4.

5499.7. At the time stated in the notices, the legislative body of the city or county shall hear and consider all objections to the proposed removal of the on-premises advertising display. It may continue the hearing from time to time. By motion or resolution at the conclusion of the hearing, the legislative body shall allow or overrule any objections. At that time, the legislative body acquires jurisdiction to proceed and perform the work of removal.

The decision of the legislative body is final. If objections have not been made or after the legislative body has disposed of those made, it shall order the enforcement officer to abate the nuisance by having the display removed. The order shall be made by motion or resolution.

5499.8. The enforcement officer may enter private property to abate the nuisance.

5499.9. Before the enforcement officer arrives, any property owner may remove the illegal on-premises advertising display at the owner's own expense.

Nevertheless, in any case in which an order to abate is issued, the

legislative body of the city or county, by motion or resolution, may further order that a special assessment and lien shall be limited to the costs incurred by the city or county, as the case may be, in enforcing abatement upon the property, including investigation, boundary determination, measurement, clerical, and other related costs.

5499.10. (a) The enforcement officer shall keep an account of the cost of abatement of an illegal on-premises advertising display in front of or on each separate parcel of property where the work is done by him or her. He or she shall submit to the legislative body of the city or county for confirmation an itemized written report showing that cost.

(b) A copy of the report shall be posted for at least three days, prior to its submission to the legislative body, on or near the chamber door of the legislative body, with notice of the time of submission.

(c) At the time fixed for receiving and considering the report, the legislative body shall hear it with any objections of the property owners liable to be assessed for the abatement. It may modify the report if it is deemed necessary. The legislative body shall then confirm the report by motion or resolution.

5499.11. Abatement of the nuisance may, in the discretion of the legislative body of the city or county, be performed by contract awarded by the legislative body on the basis of competitive bids let to the lowest responsible bidder. In that event, the contractor shall keep the account and submit the itemized written report for each separate parcel of property required by Section 5499.10.

5499.12. (a) The cost of abatement in front of or upon each parcel of property, and the cost incurred by the city or county, as the case may be, in enforcing abatement upon the parcels, including investigation, boundary determination, measurement, clerical, and other related costs, are a special assessment against that parcel. After the assessment is made and confirmed, a lien attaches on the parcel upon recordation of the order confirming the assessment in the office of the county recorder of the county in which the property is situated. However, if any real property to which the lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of the assessment would become delinquent, the lien which would otherwise be imposed by this section shall not attach to the real property and the costs of abatement and the costs of enforcing abatement, as confirmed, relating to the property shall be transferred to the unsecured roll for collection.

(b) After confirmation of the report, a copy shall be given to the city or county assessor and the tax collector, who shall add the amount of the assessment to the next regular tax bill levied against the parcel for municipal purposes.

(c) If the county assessor and the tax collector assess property and collect taxes for the city, the city shall file a certified copy of the report with the county auditor on or before August 10. The

description of the parcels reported shall be those used for the same parcels on the county assessor's map books for the current year.

(d) The county auditor shall enter each assessment on the county tax roll opposite the parcel of land.

(e) The amount of the assessment shall be collected at the time and in the manner of ordinary municipal taxes. If delinquent, the amount is subject to the same penalties and procedures of foreclosure and sale provided for ordinary municipal taxes.

The legislative body may determine that, in lieu of collecting the entire assessment at the time and in the manner of ordinary municipal taxes, assessments of fifty dollars ($50) or more may be made in annual installments, not to exceed five, and collected one installment at a time at the time and in the manner of ordinary municipal taxes in successive years. If any installment is delinquent, the amount thereof is subject to the same penalties and procedure for foreclosure and sale provided for ordinary municipal taxes. The payment of assessments so deferred shall bear interest on the unpaid balance at a rate to be determined by the legislative body, but not to exceed 6 percent per annum.

(f) As an alternative method, the county tax collector, at his or her discretion, may collect the assessments without reference to the general taxes by issuing separate bills and receipts for the assessments.

(g) Laws relating to the levy, collection, and enforcement of county taxes apply to these special assessments.

(h) The lien of the assessment has the priority of the taxes with which it is collected.

5499.13. The enforcement officer may receive the amount due on the abatement cost and issue receipts at any time after the confirmation of the report and until 10 days before a copy is given to the assessor and tax collector or, where a certified copy is filed with the county auditor, until August 1 following the confirmation of the report.

5499.14. The legislative body of the city or county may order a refund of all or part of an assessment pursuant to this chapter if it finds that all or part of the assessment has been erroneously levied. An assessment, or part thereof, shall not be refunded unless a claim is filed with the clerk of the legislative body on or before November 1 after the assessment became due and payable. The claim shall be verified by the person who paid the assessment or by the person's guardian, conservator, executor, or administrator.

5499.15. If the legislative body finds that property damage was caused by the negligence of a city or county officer or employee in connection with the abatement of a nuisance pursuant to this chapter, a claim for those damages may be paid from the city or county general fund.

5499.16. The proceedings provided by this chapter are an alternative to any procedure established by ordinance pursuant to any other provision of law.

SEC. 7. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 1282

An act to add Section 2873.7 to the Business and Professions Code, and to amend Sections 1250, 1250.1, 1254, 15026, and 15095 of, and to add and repeal Section 1267.10 of, the Health and Safety Code, relating to health, and making an appropriation therefor.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987]

The people of the State of California do enact as follows:

SECTION 1. Section 2873.7 is added to the Business and Professions Code, to read:

2873.7. The study shall be completed on or before January 1, 1989.

SEC. 2. Section 1250 of the Health and Safety Code is amended to read:

1250. As used in this chapter, "health facility" means any facility, place, or building which is organized, maintained, and operated for the diagnosis, care, prevention, and treatment of human illness, physical or mental, including convalescence and rehabilitation and including care during and after pregnancy, or for any one or more of these purposes, for one or more persons, to which the persons are admitted for a 24-hour stay or longer, and includes the following types:

(a) "General acute care hospital" means a health facility having a duly constituted governing body with overall administrative and professional responsibility and an organized medical staff which provides 24-hour inpatient care, including the following basic services: medical, nursing, surgical, anesthesia, laboratory, radiology, pharmacy, and dietary services. A general acute care hospital may include more than one physical plant maintained and operated on separate premises as provided in Section 1250.8. A general acute care

hospital which exclusively provides acute medical rehabilitation center services, including at least physical therapy, occupational therapy, and speech therapy, may provide for the required surgical and anesthesia services through a contract with another acute care hospital. In addition, a general acute care hospital which, on July 1, 1983, provided required surgical and anesthesia services through a contract or agreement with another acute care hospital may continue to provide these surgical and anesthesia services through a contract or agreement with an acute care hospital.

(b) "Acute psychiatric hospital" means a health facility having a duly constituted governing body with overall administrative and professional responsibility and an organized medical staff which provides 24-hour inpatient care for mentally disordered, incompetent, or other patients referred to in Division 5 (commencing with Section 5000) or Division 6 (commencing with Section 6000) of the Welfare and Institutions Code, including the following basic services: medical, nursing, rehabilitative, pharmacy, and dietary services.

(c) "Skilled nursing facility" means a health facility which provides skilled nursing care and supportive care to patients whose primary need is for availability of skilled nursing care on an extended basis.

(d) "Intermediate care facility" means a health facility which provides inpatient care to ambulatory or nonambulatory patients who have recurring need for skilled nursing supervision and need supportive care, but who do not require availability of continuous skilled nursing care.

(e) "Intermediate care facility/developmentally disabled habilitative" means a facility with a capacity of four to 15 beds which provides 24-hour personal care, habilitation, developmental, and supportive health services to 15 or fewer developmentally disabled persons who have intermittent recurring needs for nursing services, but have been certified by a physician as not requiring availability of continuous skilled nursing care.

(f) "Special hospital" means a health facility having a duly constituted governing body with overall administrative and professional responsibility and an organized medical or dental staff which provides inpatient or outpatient care in dentistry or maternity.

(g) "Intermediate care facility/developmentally disabled" means a facility which provides 24-hour personal care, habilitation, developmental, and supportive health services to developmentally disabled clients whose primary need is for developmental services and who have a recurring but intermittent need for skilled nursing services.

(h) "Intermediate care facility/developmentally disabled—nursing" means a facility with a capacity of four to 15 beds which provides 24-hour personal care, developmental services, and nursing supervision for developmentally disabled persons who have

intermittent recurring needs for skilled nursing care but have been certified by a physician as not requiring continuous skilled nursing care. The facility shall serve medically fragile persons who have developmental disabilities or demonstrate significant developmental delay that may lead to a developmental disability if not treated.

(i) "Congregate living health facility" means a residential home with a capacity of no more than six beds, which provides inpatient care to mentally alert, physically disabled residents, who may be ventilator dependent, and which provides the following basic services: medical supervision, 24-hour skilled nursing and supportive care to residents, including ventilator assisted or dependent residents, all of whom would otherwise require long-term institutional care without this licensure classification and who no longer require care in an acute care facility, as determined by their physicians.

(j) (1) "Correctional treatment center" means a health facility operated by the Department of Corrections, the Department of the Youth Authority, or a county, city, or city and county law enforcement agency which, as determined by the state department, provides outpatient health services, in addition to inpatient health services, to that portion of the inmate population who do not require a general acute care level of basic services. This definition shall not apply to those areas of a city, county, or city and county law enforcement facility which houses inmates or wards that may be receiving outpatient services and are housed separately for reasons of security and protection. The health services provided by a correctional treatment center shall include, but are not limited to, all of the following basic services: physician, psychiatrist, psychologist, nursing, pharmacy, dental, and dietary. A correctional treatment center may provide the following services: laboratory, radiology, perinatal, and any other services approved by the state department.

(2) Outpatient surgical care with anesthesia may be provided, if the correctional treatment center meets the same requirements as a surgical clinic licensed pursuant to Section 1204, with the exception of the requirement that patients remain less than 24 hours.

(3) Correctional treatment centers shall maintain written service agreements with general acute care hospitals to provide for those inmate physical health needs that cannot be met by the correctional treatment center.

Each health care facility in the Department of Corrections and in the Department of the Youth Authority shall have a medical director in charge of the health care services of that facility who shall be a physician and surgeon licensed to practice in California and who shall be appointed by the directors of the departments. The medical director shall direct the medical treatment programs for all health services and services supporting the health services provided in the facility.

No person shall be admitted or accepted for care or discharge by a correctional treatment facility except upon the order of a physician

and surgeon. All persons admitted or accepted for care by the correctional treatment facility shall be under the care of a physician and surgeon.

(4) Physician and surgeon services shall be readily available in a correctional treatment center on a 24-hour basis.

(5) It is not the intent of the Legislature to have a correctional treatment center supplant the facilities at the California Medical Facility, the California Men's Colony, and the California Institution for Men which were in the process of licensure in 1987.

(6) This subdivision shall remain operative only until January 1, 1993.

(f) "Special hospital" means a health facility having a duly constituted governing body with overall administrative and professional responsibility and an organized medical or dental staff which provides inpatient or outpatient care in dentistry or maternity.

(g) "Intermediate care facility/developmentally disabled" means a facility which provides 24-hour personal care, habilitation, developmental, and supportive health services to developmentally disabled clients whose primary need is for developmental services and who have a recurring but intermittent need for skilled nursing services.

(h) "Intermediate care facility/developmentally disabled—nursing" means a facility with a capacity of four to 15 beds which provides 24-hour personal care, developmental services, and nursing supervision for developmentally disabled persons who have intermittent recurring needs for skilled nursing care but have been certified by a physician as not requiring continuous skilled nursing care. The facility shall serve medically fragile persons who have developmental disabilities or demonstrate significant developmental delay that may lead to a developmental disability if not treated.

(i) "Congregate living health facility" means a residential home with a capacity of no more than six beds, which provides inpatient care to mentally alert, physically disabled residents, who may be ventilator dependent, and which provides the following basic services: medical supervision, 24-hour skilled nursing and supportive care to residents, including ventilator assisted or dependent residents, all of whom would otherwise require long-term institutional care without this licensure classification and who no longer require care in an acute care facility, as determined by their physicians.

(j) (1) "Correctional treatment center" means a health facility operated by the Department of Corrections, the Department of the Youth Authority, or a county, city, or city and county law enforcement agency which, as determined by the state department, provides outpatient health services, in addition to inpatient health

services, to that portion of the inmate population who do not require a general acute care level of basic services. This definition shall not apply to those areas of a city, county, or city and county law enforcement facility which houses inmates or wards that may be receiving outpatient services and are housed separately for reasons of security and protection. The health services provided by a correctional treatment center shall include, but are not limited to, all of the following basic services: physician, psychiatrist, psychologist, nursing, pharmacy, dental, and dietary. A correctional treatment center may provide the following services: laboratory, radiology, perinatal, and any other services approved by the state department.

(2) Outpatient surgical care with anesthesia may be provided, if the correctional treatment center meets the same requirements as a surgical clinic licensed pursuant to Section 1204, with the exception of the requirement that patients remain less than 24 hours.

(3) Correctional treatment centers shall maintain written service agreements with general acute care hospitals to provide for those inmate physical health needs that cannot be met by the correctional treatment center.

Each health care facility in the Department of Corrections and in the Department of the Youth Authority shall have a medical director in charge of the health care services of that facility who shall be a physician and surgeon licensed to practice in California and who shall be appointed by the directors of the departments. The medical director shall direct the medical treatment programs for all health services and services supporting the health services provided in the facility.

No person shall be admitted or accepted for care or discharge by a correctional treatment facility except upon the order of a physician and surgeon. All persons admitted or accepted for care by the correctional treatment facility shall be under the care of a physician and surgeon.

(4) Physician and surgeon services shall be readily available in a correctional treatment center on a 24-hour basis.

(5) It is not the intent of the Legislature to have a correctional treatment center supplant the facilities at the California Medical Facility, the California Men's Colony, and the California Institution for Men which were in the process of licensure in 1987.

(6) This subdivision shall remain operative only until January 1, 1993.

(k) "Hospice acute inpatient facility" means a health facility, which is a component part of a hospice as defined in Section 1339.41, which provides general inpatient care, as defined in federal Medicare program regulations adopted pursuant to Section 1861(dd)(2) and Section 1814(a)(8) of the federal Social Security Act, and which has a duly constituted governing body with overall administrative and professional responsibility and an organized medical staff which performs or provides 24-hour inpatient care, whose primary goal is pain control and symptom management for

the terminally ill, including all of the following basic services, as defined in Section 1339.42: medical, nursing, dietary, pharmacy, clinical laboratory, radiology, inhalation therapy, physical therapy, occupational therapy, speech therapy, psychosocial therapy, and spiritual care.

SEC. 3. Section 1250.1 of the Health and Safety Code is amended to read:

(f) Specialized care, with respect to special hospitals only.

(g) Chemical dependency recovery.

(h) Intermediate care facility/developmentally disabled habilitative.

(i) Intermediate care facility/developmentally disabled nursing.

(j) Congregate living health facility.

(k) Correctional treatment center. For correctional treatment centers that provide psychiatric services provided by county mental health agencies in local detention facilities, the State Department of Mental Health shall adopt regulations specifying acute and nonacute levels of 24-hour care. This subdivision shall remain operative only until January 1, 1993.

Except as provided in Section 1253.1, beds classified as intermediate care beds, on September 27, 1978, shall be reclassified by the state department as intermediate care—other. This reclassification shall not constitute a "project" within the meaning of Section 437.10 and shall not be subject to any requirement for a certificate of need under Part 1.5 (commencing with Section 437) of Division 1, and regulations of the state department governing intermediate care prior to such effective date shall continue to be applicable to the intermediate care—other classification unless and until amended or repealed by the state department.

Licensed inpatient beds in a correctional treatment center shall be used only for the purpose of providing health services. This paragraph shall remain operative only until January 1, 1993.

SEC. 4. Section 1254 of the Health and Safety Code is amended to read:

1254. (a) The state department shall inspect and license health facilities. The state department shall license health facilities to provide their respective basic services specified in Section 1250. Except as provided in Section 1253, the state department shall inspect and approve a general acute care hospital to provide special services as specified in Section 1255. The state department shall develop and adopt regulations to implement the provisions contained in this section.

(b) Upon approval, the state department shall issue a separate license for the provision of the basic services enumerated in subdivision (c) or (d) of Section 1250 whenever these basic services are to be provided by an acute care hospital, as defined in subdivision (a), (b), or (f) of that section, where the services enumerated in subdivision (c) or (d) of Section 1250 are to be provided in any separate freestanding facility, whether or not the location of the separate freestanding facility is contiguous to the acute care hospital. The same requirement shall apply to any new freestanding facility constructed for the purpose of providing basic services, as defined in subdivision (c) or (d) of Section 1250, by any acute care hospital on or after January 1, 1984.

(c) (1) Those beds licensed to an acute care hospital which, prior to January 1, 1984, were separate freestanding beds and were not part of the physical structure licensed to provide acute care, and which beds were licensed to provide those services enumerated in subdivision (c) or (d) of Section 1250, are exempt from the requirements of subdivision (b).

(2) All beds licensed to an acute care hospital and located within the physical structure in which acute care is provided are exempt from the requirements of subdivision (b) irrespective of the date of original licensure of the beds, or the licensed category of the beds.

(3) All beds licensed to an acute care hospital owned and operated by the State of California or any other public agency are exempt from the requirements of subdivision (b).

(4) All beds licensed to an acute care hospital in a rural area as defined by Chapter 1010, of the Statutes of 1982, are exempt from the requirements of subdivision (b), except where there is a freestanding skilled nursing facility or intermediate care facility which has experienced an occupancy rate of 95 percent or less during the past 12 months within a 25-mile radius or which may be reached within 30 minutes using a motor vehicle.

(5) All beds licensed to an acute care hospital which meet the criteria for designation within peer group six or eight, as defined in the report entitled Hospital Peer Grouping for Efficiency Comparison, dated December 20, 1982, and published by the California Health Facilities Commission, and all beds in hospitals which have fewer than 76 licensed acute care beds and which are located in a Census Designation Place of 15,000 or less population, are exempt from the requirements of subdivision (b), except where there is a free-standing skilled nursing facility or intermediate care facility which has experienced an occupancy rate of 95 percent or less during the past 12 months within a 25-mile radius or which may be reached within 30 minutes using a motor vehicle.

(6) All beds licensed to an acute care hospital which has had a certificate of need approved by a health systems agency on or before July 1, 1983, are exempt from the requirements of subdivision (b).

(7) All beds licensed to an acute care hospital are exempt from the requirements of subdivision (b), if reimbursement from the

Medi-Cal program for beds licensed for the provision of services enumerated in subdivision (c) or (d) of Section 1250 and not otherwise exempt does not exceed the reimbursement which would be received if the beds were in a separately licensed facility.

(d) Except as provided in Section 1253, the state department shall inspect and approve a general acute care hospital to provide special services as specified in Section 1255. The state department shall develop and adopt regulations to implement the provisions contained in this section.

SEC. 5. Section 1267.10 is added to the Health and Safety Code, to read:

1267.10. (a) The state department, in conjunction with the Office of Statewide Health Planning and Development and in consultation with the Department of Corrections, the Department of the Youth Authority, and the State Department of Mental Health, shall develop and adopt licensure regulations for correctional treatment centers, as defined in subdivision (j) of Section 1250. The regulations shall be submitted for review by the Assembly Health Committee, the Senate Health and Human Services Committee, the Joint Legislative Committee on Prison Construction and Operation and the Joint Legislative Budget Committee 60 days prior to adoption. These regulations shall prescribe standards, based on the need of the inmate population, of adequacy, safety, and sanitation of the physical plant, staffing with duly licensed personnel, and services. The regulations shall prescribe a standard of care commensurate with community standards of practice applicable to the private sector health care delivery system in California. The department shall include with the regulations submitted for review during the public hearing required before adoption of regulations and for review by the legislative committees a list of differences between the requirements for license of a correctional treatment center and the requirements for license as an acute care general hospital, including any special services or supplemental services, as appropriate. The list shall also include a rationale for the differences and the effect on services.

Correctional treatment center regulations shall be developed with assistance from the California Conference of Local Health Officers, the Conference of Local Mental Health Directors, the California Conference of Directors of Environmental Health, the Board of Corrections, and the California State Sheriffs' Association. In developing the regulations, the state department and the State Department of Mental Health shall be guided by the need to provide safe and adequate medical care in a prison health facility where there is also a need to maintain integrity of the security of the correctional institution as determined by the Director of Corrections.

(b) The Maternal and Child Health Branch of the state department shall monitor and evaluate the standards and protocols of perinatal care utilized by the state department for the treatment of pregnant prisoners or inmates.

The state department shall report on these standards and protocols of perinatal care to the Legislature including submission of reports to the Chairpersons of the Senate Health and Human Services and Assembly Health Committees, as well as the Chairperson of the Joint Legislative Committee on Prison Construction and Operation, on or before June 1, 1988, and annually thereafter.

(c) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute which is chaptered prior to January 1, 1993, deletes or extends that date.

SEC. 6. Section 15026 of the Health and Safety Code is amended to read:

15026. (a) (1) "Hospital building" includes any building not specified in subdivision (b) which is used, or designed to be used, for a health facility of a type required to be licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2.

(2) Hospital building includes a correctional treatment center, as defined in subdivision (j) of Section 1250, the construction of which was completed on or after March 7, 1973. This paragraph shall remain operative only until January 1, 1993.

(b) "Hospital building" does not include any of the following:

(1) Any building in which only outpatient clinic services are provided and which is separated from a building in which hospital services are provided.

(2) Any building used, or designed to be used, for a skilled nursing facility or intermediate care facility if the building is of single-story, wood-frame or light steel frame construction.

(3) Any building of single-story, wood-frame or light steel frame construction in which only skilled nursing or intermediate care services are provided if the building is separated from a building housing other patients of the health facility receiving higher levels of care.

(4) Any freestanding structures of a chemical dependency recovery hospital exempted under the provisions of subdivision (c) of Section 1275.2.

(5) Any building licensed to be used as an intermediate care facility/developmentally disabled habilitative with six beds or less and any intermediate care facility/developmentally disabled habilitative of 7 to 15 beds which is a single-story, wood-frame or light steel frame building.

(6) Any building which has been used as a community care facility licensed pursuant to Chapter 3 (commencing with Section 1500) of Division 2 and which was originally licensed to provide that level of care prior to March 7, 1973, if (A) the building complied with applicable building and safety standards at the time of that licensure, (B) the Director of Health Services, upon application, determines that in order to continue to properly serve the facility's existing client population, relicensure as an intermediate care facility/developmentally disabled will be required, and (C) a notice of intent to obtain a certificate of need was filed with the area health

planning agency and the Office of Statewide Health Planning and Development on or before March 1, 1983. The exemption provided in this paragraph extends only to use of the building as an intermediate care facility/developmentally disabled.

(7) Any building which has been used as a community care facility pursuant to paragraph (1) or (2) of subdivision (a) of Section 1502 and which was originally licensed to provide that level of care if all of the following conditions are satisfied:

(A) The building complied with applicable building and safety standards for a community care facility at the time of that licensure.

(B) The facility conforms to the 1973 Edition of the Uniform Building Code of the International Conference of Building Officials as a community care facility.

(C) The facility is other than single story, but no more than two stories, and the upper story is licensed for ambulatory patients only.

(D) A certificate of need was granted prior to July 1, 1983, for conversion of a community care facility to an intermediate care facility.

(E) The facility otherwise meets all nonstructural construction standards for intermediate care facilities in existence on the effective date of this act or obtains waivers from the appropriate agency.

The exemption provided in this paragraph extends only to use of the building as an intermediate care facility as defined in subdivision (d) of Section 1250 and the facility is in Health Facilities Planning Area 1420.

(8) Any building licensed as a correctional treatment center, as defined in subdivision (j) of Section 1250, the construction of which was completed prior to March 7, 1973. This paragraph shall remain operative only until January 1, 1993.

SEC. 7. Section 15095 of the Health and Safety Code is amended to read:

15095. (a) Any person who violates any provision of this chapter is guilty of a misdemeanor.

(b) This section shall not apply to correctional treatment centers. This subdivision shall not affect any civil or administrative liability against correctional treatment centers or persons employed by these centers. This subdivision shall remain operative only until January 1, 1993.

SEC. 8. There is hereby appropriated from the General Fund to the State Department of Health Services the sum of one hundred thirty-six thousand dollars ($136,000) for carrying out its duties under this act.

SEC. 9. Section 2.5 of this bill incorporates amendments to Section 1250 of the Health and Safety Code proposed by both this bill and SB 309. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1988, (2) each bill amends Section 1250 of the Health and Safety Code, and (3) this bill is enacted after SB 309, in which case Section 2 of this bill shall not become operative.

SEC. 10. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 1283

An act relating to education, and making an appropriation therefor.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987]

I am deleting the $500,000 appropriation contained in Section 2 of Assembly Bill No 974.

This bill would appropriate $500,000 from the General Fund to the Regents of The University of California for the purpose of conducting research relating to the effect of lifestyle changes on coronary heart disease.

This bill would make legislative findings and declarations regarding coronary heart disease and a study being conducted at the Preventive Medicine Research Institute of the School of Medicine, University of California, San Francisco, and at Pacific Presbyterian Medical Center, and would find that funds are needed to complete this research

The demands placed on budget resources require all of us to set priorities The budget enacted in July, 1987 appropriated nearly $41 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

Thus, after reviewing this legislation, I have concluded that its merits do not sufficiently outweigh the need this year for funding top priority programs and continuing a prudent reserve for economic uncertainties.

I would, however, consider funding the provisions of this bill during the budget process for Fiscal Year 1988–89. It is appropriate to review the relative merits of this program in comparison to all other funding projects. The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit

With this deletion, I approve Assembly Bill No. 974

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

Coronary heart disease (CHD) is still the leading cause of death

and disability in the United States and in the rest of the industrialized world. More Americans die of heart and blood vessel diseases than all other illnesses combined, despite increasing evidence that coronary heart disease may be completely preventable for most people.

Current methods of treating coronary heart disease, drugs and surgery, may be effective temporarily and even lifesaving in some cases, but they do not address the lifestyle factors which are the underlying causes of the disease.

Coronary artery bypass surgery is one of the fastest-growing surgical procedures. Last year over five billion dollars ($5,000,000,000) were spent on this procedure, and at the current rates of growth (which the economy cannot sustain), it would be a one hundred billion dollars ($100,000,000,000) per year industry within 15 years.

Increasing evidence links lifestyle factors such as diet, smoking, emotional stress, and lack of exercise with coronary heart disease. Changing these factors will reverse coronary heart disease in animals, but this has not yet been shown in humans because the technology has not been precise enough to measure changes in living humans and the lifestyle changes have not been comprehensive enough.

A pioneering study is being conducted at the Preventive Medicine Research Institute of the School of Medicine, University of California, San Francisco, and at Pacific Presbyterian Medical Center. The study is the first randomized, controlled clinical trial to determine if a program of diet, stress management training, smoking cessation, and exercise can reverse coronary heart disease without drugs or surgery.

Technological breakthroughs make it possible to determine if a comprehensive lifestyle change program can reverse coronary heart disease without using drugs or surgery. State-of-the-art cardiology tests such as quantitative coronary angiography and cardiac Position Emission Tomography (PET scans) now make it possible to precisely measure the extent of coronary heart disease and thus the changes that result from changing lifestyle.

The precision of these methods greatly reduces the sample size requirements, the degree of change required to detect significant differences, and the required length of the intervention. Thus, the cost to find out this vital information is greatly reduced.

In order to continue this study and obtain vital information which is so critical to the health of our state, funds are needed to complete this research.

SEC. 2. The sum of five hundred thousand dollars ($500,000) is hereby appropriated from the General Fund to the Regents of the University of California for the purposes of conducting research relating to the effect of lifestyle changes on coronary heart disease.

CHAPTER 1284

An act to amend Section 1085.5 of the Code of Civil Procedure, to amend Sections 5051, 5052, 5054, and 5064 of, to repeal Section 5053 of, and to amend, add, and repeal Sections 14006 of, the Food and Agricultural Code, to amend, add, and repeal Section 21080.5 of the Public Resources Code, and to amend Section 3 of Chapter 1282 of the Statutes of 1985, relating to pest control.

[Approved by Governor September 28, 1987. Filed with Secretary of State September 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 1085.5 of the Code of Civil Procedure is amended to read:

1085.5. Notwithstanding this chapter, in any action or proceeding to attack, review, set aside, void, or annul the activity of the Director of Food and Agriculture under Division 4 (commencing with Section 5001) or Division 5 (commencing with Section 9101) of the Food and Agricultural Code, the procedure for issuance of a writ of mandate shall be in accordance with Chapter 1.5 (commencing with Section 5051) of Part 1 of Division 4 of that code.

SEC. 2. Section 5051 of the Food and Agricultural Code is amended to read:

5051. Whenever the director exercises authority on an eradication project pursuant to this division or Division 5 (commencing with Section 9101), a written decision describing the proposed action shall be adopted and shall contain findings as to the need for the action, the statutory basis for that action, and notification that any action challenging the decision shall be brought within 45 days. The decision shall be a public record, available to the public upon request, shall be published in a newspaper of general circulation in the county, and shall be filed with the governing body of any affected city, county, or city and county in accordance with the procedures set forth in Section 21152 of the Public Resources Code. Any addition to or expansion of a declared treatment area shall also comply with the requirements of this section. The director shall use nonpesticide alternatives in an eradication project to the maximum extent feasible. The decision of the director shall include written findings of fact as to each element of the decision including use or nonuse of the nonpesticide alternatives.

SEC. 3. Section 5052 of the Food and Agricultural Code is amended to read:

5052. Within 45 days after the filing of the written decision with the governing body of the affected city, county, or city and county as described in Section 5051, any person or local governmental agency within a declared treatment area may bring an action by way of mandamus challenging that decision in accordance with this

chapter. Any person or local governmental agency in a new treatment area shall have 45 days to contest that inclusion from the date of inclusion. Lack of actual notice of the decision shall not be a defense or bar to dismissal for an untimely filing if the applicable notice requirements of Section 5051 have been met.

SEC. 4. Section 5053 of the Food and Agricultural Code is repealed.

SEC. 5. Section 5054 of the Food and Agricultural Code is amended to read:

5054. It is not an abuse of discretion for the director, acting pursuant to statutory authority contained in this division or Division 5 (commencing with Section 9101), to use a material registered pursuant to Division 6 (commencing with Section 11401) or Division 7 (commencing with Section 12501), in a manner consistent with the registration, label restrictions, applicable regulations, and applicable provisions of federal law and in full compliance with all limitations, restrictions, or other criteria set forth in Division 5 (commencing with Section 9101), Division 6 (commencing with Section 11401), and Division 7 (commencing with Section 12501), provided that nothing in this section limits review of a decision of the director to proceed with an eradication project.

SEC. 6. Section 5064 of the Food and Agricultural Code is amended to read:

5064. This chapter shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1991, deletes or extends that date.

SEC. 7. Section 14006 of the Food and Agricultural Code, as amended by Section 2 of Chapter 1282 of the Statutes of 1985, is amended to read:

14006. The regulations shall prescribe the time when, and the conditions under which, a restricted material may be used or possessed in different areas of the state, and may prohibit its use or possession in those areas. That usage shall be limited to those situations in which it is reasonably certain that no injury will result, or no nonrestricted material or procedure is equally effective and practical. For purposes of this section, "reasonably certain" does not mean beyond a reasonable doubt. The regulations may provide that a restricted material shall be used only under permit of the commissioner or under the direct supervision of the commissioner, subject to any of the following limitations:

(a) In certain areas.

(b) Under certain conditions relating to safety.

(c) When used in excess of certain quantities or concentrations.

(d) When used in certain mixtures.

(e) In compliance with the industrial safety orders of the Department of Industrial Relations and any order of the director or commissioner.

(f) On agreement by the owner or person in possession of the property to be treated to comply with certain conditions.

(g) Any other limitation the director determines to be necessary to effectuate the purposes of this chapter.

This section shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1991, deletes or extends that date.

SEC. 8. Section 14006 is added to the Food and Agricultural Code, to read:

14006. The regulations shall prescribe the time when, and the conditions under which, a restricted material may be used or possessed in different areas of the state, and may prohibit its use or possession in those areas. This usage shall be limited to those situations in which it is reasonably certain that no injury will result, or no nonrestricted material or procedure is equally effective and practical. They may provide that a restricted material shall be used only under permit of the commissioner or under the direct supervision of the commissioner, subject to any of the following limitations:

(a) In certain areas.

(b) Under certain conditions relating to safety.

(c) When used in excess of certain quantities or concentrations.

(d) When used in certain mixtures.

(e) In compliance with the industrial safety orders of the Department of Industrial Relations and any order of the director or commissioner.

(f) On agreement by the owner or person in possession of the property to be treated to comply with certain conditions.

(g) Any other limitation the director determines to be necessary to effectuate the purposes of this chapter.

This section shall become operative on January 1, 1991.

SEC. 9. Section 14006 of the Food and Agricultural Code, as amended by Section 13.5 of Chapter 1276 of the Statutes of 1971, is repealed.

SEC. 10. Section 21080.5 of the Public Resources Code, as amended by Section 4 of Chapter 20 of the Statutes of 1986, is amended to read:

21080.5. (a) When the regulatory program of a state agency, board, or commission requires a plan or other written documentation, containing environmental information and complying with the requirements of paragraph (3) of subdivision (d), to be submitted in support of any of the activities listed in subdivision (b), the plan or other written documentation may be submitted in lieu of the environmental impact report required by this division; provided, that the Secretary of the Resources Agency has certified the regulatory program pursuant to this section.

(b) This section shall apply only to regulatory programs or portions thereof which involve either of the following:

(1) The issuance to a person of a lease, permit, license, certificate, or other entitlement for use.

(2) The adoption or approval of standards, rules, regulations, or

plans for use in the regulatory program.

(c) A regulatory program certified pursuant to this section is exempt from the provisions of Chapter 3 (commencing with Section 21100) and Chapter 4 (commencing with Section 21150) and Section 21167.

(d) In order to qualify for certification pursuant to this section, a regulatory program shall require utilization of an interdisciplinary approach which will ensure the integrated use of the natural and social sciences in decisionmaking and shall meet all of the following criteria:

(1) The enabling legislation of the regulatory program shall:

(i) Include protection of the environment among its principal purposes.

(ii) Contain authority for the administering agency to promulgate rules and regulations for the protection of the environment, guided by standards set forth in the enabling legislation.

(2) The rules and regulations adopted by the administering agency shall:

(i) Require that an activity will not be approved or adopted as proposed if there are feasible alternatives or feasible mitigation measures available which would substantially lessen any significant adverse impact which the activity may have on the environment.

(ii) Include guidelines for the orderly evaluation of proposed activities and the preparation of the plan or other written documentation in a manner consistent with the environmental protection purposes of the regulatory program.

(iii) Require the administering agency to consult with all public agencies which have jurisdiction, by law, with respect to the proposed activity.

(iv) Require that final action on the proposed activity include the written responses of the issuing authority to significant environmental points raised during the evaluation process.

(v) Require the filing of a notice of the decision by the administering agency on the proposed activity with the Secretary of the Resources Agency. Those notices shall be available for public inspection, and a list of the notices shall be posted on a weekly basis in the office of the Resources Agency. Each list shall remain posted for a period of 30 days.

(vi) Require notice of the filing of the plan or other written documentation to be made to the public and to any person who requests, in writing, notification. The notification shall be made in a manner that will provide the public or any person requesting notification with sufficient time to review and comment on the filing.

(3) The plan or other written documentation required by the regulatory program shall:

(i) Include a description of the proposed activity with alternatives to the activity, and mitigation measures to minimize any significant adverse environmental impact.

(ii) Be available for a reasonable time for review and comment by

other public agencies and the general public.

(e) The Secretary of the Resources Agency shall certify a regulatory program which the secretary determines meets all the qualifications for certification set forth in this section, and withdraw certification on determination that the regulatory program has been altered so that it no longer meets those qualifications. Certification and withdrawal of certification shall occur only after compliance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

In determining whether or not a regulatory program meets the qualifications for certification set forth in this section, the inquiry of the Secretary of the Resources Agency shall extend only to the question of whether the regulatory program meets the generic requirements of subdivision (d). The inquiry shall not extend to individual decisions to be reached under the regulatory program, including the nature of specific alternatives or mitigation measures which might be proposed to lessen any significant adverse environmental effects of the activity.

In the event that the Secretary of the Resources Agency determines that the regulatory program submitted for certification does not meet the qualifications for certification set forth in this section, the secretary shall adopt findings setting forth the reasons for the determination.

(f) After a regulatory program has been certified pursuant to this section, any proposed change in the program which could affect compliance with the qualifications for certification specified in subdivision (d) may be submitted to the Secretary of the Resources Agency for review and comment. The scope of the secretary's review shall extend only to the question of whether the regulatory program meets the generic requirements of subdivision (d). The review shall not extend to individual decisions to be reached under the regulatory program, including specific alternatives or mitigation measures which might be proposed to lessen any significant adverse environmental effects of the activity. The secretary shall have 30 days after receipt of the proposed change to notify the state agency, board, or commission whether the proposed change will alter the regulatory program so that it no longer meets the qualification for certification established in this section and will result in a withdrawal of certification as provided in this section.

(g) Any action or proceeding to attack, review, set aside, void, or annul a determination or decision of a state agency, board, or commission approving or adopting a proposed activity under a regulatory program which has been certified pursuant to this section on the basis that the plan or other written documentation prepared pursuant to paragraph (3) of subdivision (d) does not comply with the provisions of this section shall be commenced no later than 30 days from the date of the filing of notice of the approval or adoption of the activity.

(h) Any action or proceeding to attack, review, set aside, void, or

annul a determination of the Secretary of the Resources Agency to certify a regulatory program pursuant to this section on the basis that the regulatory program does not comply with the provisions of this section shall be commenced within 30 days after certification by the secretary.

In any action brought under this subdivision, the inquiry shall extend only to whether there was a prejudicial abuse of discretion by the Secretary of the Resources Agency. Abuse of discretion is established if the secretary has not proceeded in a manner required by law or if the determination is not supported by substantial evidence.

(i) For purposes of this section, any county agricultural commissioner shall be considered a state agency.

(j) For purposes of this section, any air quality management district or air pollution control district shall be considered a state agency, except that the approval, if any, by such agency of a nonattainment area plan shall be subject to the provisions of this section only if, and to the extent that, such approval adopts or amends rules or regulations.

(k) Any program for the regulation of pesticides certified pursuant to this section and Chapter 308 of the Statutes of 1978 shall apply to the use of pesticides by any state agency acting under authority of Divisions 4 (commencing with Section 5001) and 5 (commencing with Section 9101) of the Food and Agricultural Code in eradicating a plant or animal pest.

(*l*) This section shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1991, deletes or extends that date.

SEC. 11. Section 21080.5 is added to the Public Resources Code, to read:

21080.5. (a) When the regulatory program of a state agency, board, or commission requires a plan or other written documentation, containing environmental information and complying with the requirements of paragraph (3) of subdivision (d), to be submitted in support of any of the activities listed in subdivision (b), the plan or other written documentation may be submitted in lieu of the environmental impact report required by this division; provided, that the Secretary of the Resources Agency has certified the regulatory program pursuant to this section.

(b) This section shall apply only to regulatory programs or portions thereof which involve either of the following:

(1) The issuance to a person of a lease, permit, license, certificate, or other entitlement for use.

(2) The adoption or approval of standards, rules, regulations, or plans for use in the regulatory program.

(c) A regulatory program certified pursuant to this section is exempt from the provisions of Chapter 3 (commencing with Section 21100) and Chapter 4 (commencing with Section 21150) and Section 21167.

(d) In order to qualify for certification pursuant to this section, a regulatory program shall require utilization of an interdisciplinary approach which will ensure the integrated use of the natural and social sciences in decisionmaking and shall meet all of the following criteria:

(1) The enabling legislation of the regulatory program shall:

(i) Include protection of the environment among its principal purposes.

(ii) Contain authority for the administering agency to promulgate rules and regulations for the protection of the environment, guided by standards set forth in the enabling legislation.

(2) The rules and regulations adopted by the administering agency shall:

(i) Require that an activity will not be approved or adopted as proposed if there are feasible alternatives or feasible mitigation measures available which would substantially lessen any significant adverse impact which the activity may have on the environment.

(ii) Include guidelines for the orderly evaluation of proposed activities and the preparation of the plan or other written documentation in a manner consistent with the environmental protection purposes of the regulatory program.

(iii) Require the administering agency to consult with all public agencies which have jurisdiction, by law, with respect to the proposed activity.

(iv) Require that final action on the proposed activity include the written responses of the issuing authority to significant environmental points raised during the evaluation process.

(v) Require the filing of a notice of the decision by the administering agency on the proposed activity with the Secretary of the Resources Agency. Those notices shall be available for public inspection, and a list of the notices shall be posted on a weekly basis in the Office of the Resources Agency. Each list shall remain posted for a period of 30 days.

(vi) Require notice of the filing of the plan or other written documentation to be made to the public and to any person who requests, in writing, notification. The notification shall be made in a manner that will provide the public or any person requesting notification with sufficient time to review and comment on the filing.

(3) The plan or other written documentation required by the regulatory program shall:

(i) Include a description of the proposed activity with alternatives to the activity, and mitigation measures to minimize any significant adverse environmental impact.

(ii) Be available for a reasonable time for review and comment by other public agencies and the general public.

(e) The Secretary of the Resources Agency shall certify a regulatory program which the secretary determines meets all the qualifications for certification set forth in this section, and withdraw certification on determination that the regulatory program has been

altered so that it no longer meets those qualifications. Certification and withdrawal of certification shall occur only after compliance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

In determining whether or not a regulatory program meets the qualifications for certification set forth in this section, the inquiry of the Secretary of the Resources Agency shall extend only to the question of whether the regulatory program meets the generic requirements of subdivision (d). The inquiry shall not extend to individual decisions to be reached under the regulatory program, including the nature of specific alternatives or mitigation measures which might be proposed to lessen any significant adverse environmental effects of the activity.

In the event that the Secretary of the Resources Agency determines that the regulatory program submitted for certification does not meet the qualifications for certification set forth in this section, the secretary shall adopt findings setting forth the reasons for the determination.

(f) After a regulatory program has been certified pursuant to this section, any proposed change in the program which could affect compliance with the qualifications for certification specified in subdivision (d) may be submitted to the Secretary of the Resources Agency for review and comment. The scope of the secretary's review shall extend only to the question of whether the regulatory program meets the generic requirements of subdivision (d). The review shall not extend to individual decisions to be reached under the regulatory program, including specific alternatives or mitigation measures which might be proposed to lessen any significant adverse environmental effects of the activity. The secretary shall have 30 days after receipt of the proposed change to notify the state agency, board, or commission whether the proposed change will alter the regulatory program so that it no longer meets the qualification for certification established in this section and will result in a withdrawal of certification as provided in this section.

(g) Any action or proceeding to attack, review, set aside, void, or annul a determination or decision of a state agency, board, or commission approving or adopting a proposed activity under a regulatory program which has been certified pursuant to this section on the basis that the plan or other written documentation prepared pursuant to paragraph (3) of subdivision (d) does not comply with the provisions of this section shall be commenced no later than 30 days from the date of the filing of notice of the approval or adoption of the activity.

(h) Any action or proceeding to attack, review, set aside, void, or annul a determination of the Secretary of the Resources Agency to certify a regulatory program pursuant to this section on the basis that the regulatory program does not comply with the provisions of this section shall be commenced within 30 days after certification by the secretary.

In any action brought under this subdivision, the inquiry shall extend only to whether there was a prejudicial abuse of discretion by the Secretary of the Resources Agency. Abuse of discretion is established if the secretary has not proceeded in a manner required by law or if the determination is not supported by substantial evidence.

(i) For purposes of this section, any county agricultural commissioner shall be considered a state agency.

(j) For purposes of this section, any air quality management district or air pollution control district shall be considered a state agency, except that the approval, if any, by the agency of a nonattainment area plan shall be subject to this section only if, and to the extent that, the approval adopts or amends rules or regulations.

(k) This section shall become operative on January 1, 1991.

SEC. 12. Section 21080.5 of the Public Resources Code, as amended by Section 1 of Chapter 58 of the Statutes of 1982, is repealed.

SEC. 13. Section 3 of Chapter 1282 of the Statutes of 1985 is amended to read:

Sec. 3. The Legislature hereby finds and declares the following:

(a) Agriculture is a major and essential component of California's economy.

(b) The proper, safe, and efficient use of pesticides is essential for the protection and production of agricultural commodities and for health protection.

(c) The enactment of Chapter 308 of the Statutes of 1978 created a functional equivalency program which provides for reasonable environmental review of that pesticide use.

(d) Exotic plant or animal pests pose a threat to the viability of agriculture and the health and safety of the people of this state.

(e) The Department of Food and Agriculture, along with county commissioners, are charged by law with the control or eradication, where feasible, of the exotic plant and animal pests.

(f) In so discharging their duties, the Director of Food and Agriculture and county commissioners must be free to employ such registered materials under federal or state law, as may be necessary, and preparation of an environmental impact report would be duplicative and unreasonable and a burden on the carrying out of those duties.

(g) The amendment of Section 21080.5 of the Public Resources Code contained in Section 4 of this act is necessary to clarify existing law and does not expand or diminish that law.

This section shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1991, deletes of extends that date.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.

CHAPTER 1286

[Approved by Governor September 28, 1987 Filed with Secretary of State September 28, 1987.]

The people of the State of California do enact as follows:

SECTION 1. Section 15373.2 of the Government Code is amended to read:

15373.2. (a) In order to carry out the provisions of this chapter, there is hereby created in the State Treasury the Rural Economic Development Fund.

(b) The fund shall receive state funds appropriated to it, repayment of loans and interest on those loans pursuant to this chapter, interest which accrues to the moneys in the fund pursuant to subdivision (c), fees or charges pursuant to subdivision (d), and penalties prescribed by the panel.

(c) (1) The Treasurer shall invest moneys contained in the fund not needed to meet current obligations in the same manner as other public funds are invested. The moneys resulting from this investment shall be used to support the three rural small business assistance and development centers previously established through the department and the Employment Development Department. The department shall grant these interest moneys to the centers upon request to provide for the continued operation of the centers.

(2) If sufficient interest moneys are not available at a time when the centers require additional funds, the department shall lend the centers necessary funds from the Rural Economic Development Fund, if the expected interest earnings from the fund will repay the loans. Funds received under this subdivision shall not be considered when the department reviews and approves applications pursuant to Article 4 (commencing with Section 15397.3). Each center shall receive a maximum of one hundred thousand dollars ($100,000) each fiscal year.
