It shall be within the jurisdiction of the Labor Commissioner to accept and determine claims from holders of payroll checks or payroll drafts returned unpaid because of insufficient funds, if, after a diligent search, the holder is unable to return the dishonored check or draft to the payee and recover the sums paid out. Within 30 days of filing of the complaint, the Labor Commissioner shall notify the parties as to whether a hearing will be held, or whether action will be taken in accordance with Section 98.3, or whether no further action will be taken on the complaint. 6303.1. (a) Participation in the delegate selection process in primaries and caucuses shall be restricted to Democratic voters only who publicly declare their party preference as Democratic supporters and whose affidavits of registration declare the Democratic Party as their party affiliation. At no stage of the delegate selection process shall any person be required, directly or indirectly, to pay a cost or fee as a condition for participating in the delegate selection process.

(b) No person shall participate or vote in the nominating process for the Democratic presidential candidate who also participates in the nominating processes of any other party in the same presidential election year.

(c) No person shall participate in more than one congressional district delegate caucus.

SEC. 2. Section 6303.2 of the Elections Code is amended to read:

6303.2. All official Democratic Party meetings and events related to the national convention delegate selection process, including caucuses, conventions, committee meetings, filing dates, and party enrollment periods shall be scheduled for dates, times, and public places which are consistent with this chapter and which would be

most likely to encourage the participation of all Democrats.

SEC. 3. Section 6303.3 of the Elections Code is amended to read:

6303.3. (a) In the selection of the state's national convention delegation as a whole, consideration shall be given to achieving the goals of the State Democratic Party's affirmative action plan.

(b) There shall be approximately equal division between delegate men and delegate women and alternate men and alternate women in the national convention delegation.

SEC. 4. Section 6305 of the Elections Code is amended to read:

6305. The number of delegates which may be selected from each congressional district shall be based on a formula which apportions 75 percent of the state's base delegation allocated by the Democratic National Committee, among the congressional districts in a manner which gives equal weight to the vote for the Democratic candidates in the most recent presidential and gubernatorial elections.

The number of delegates allocated to each congressional district shall be rounded off to the nearest whole integer. The remaining delegates and alternates shall be selected pursuant to Article 10 (commencing with Section 6365).

(a) All persons wishing to be elected to a district-level or at-large delegate or alternate position shall file a statement of candidacy designating the presidential or uncommitted preference of the delegate candidate, and a signed pledge of support for the presidential candidate the person favors, if any, with the state party chair by a time specified by the party chair.

SEC. 26. Section 6365 of the Elections Code is repealed.

SEC. 27. Section 6365 is added to the Elections Code, to read:

6365. (a) On or before the Monday preceding the third Saturday following the primary election, the Secretary of State, in consultation with the chairperson of the Democratic State Central Committee, shall announce the number of delegates and alternate delegates to which each candidate or uncommitted delegation is entitled and shall announce the names of the congressional district delegates and alternate delegates.

(b) The congressional district delegates and alternates shall be chosen in the order in which they were ranked from the delegate and alternate delegate caucus statements filed by the steering committee pursuant to Section 6329.

(c) The congressional district delegates shall be chosen to reflect the strength of support a candidate or uncommitted delegation has received in each congressional district. Congressional district delegates shall be allocated in the following manner:

(1) The percentage of the vote each presidential and uncommitted delegation received in each congressional district shall be calculated to three decimals.

(2) A "base vote" shall be determined for each congressional district. The base vote shall be the sum of the total votes received by each presidential and uncommitted delegation which received 15 percent or more of the vote in the congressional district as determined in paragraph (1).

(3) The percentage of the vote received by each presidential and uncommitted delegation shall be recalculated to three decimals, by dividing the total votes received by each presidential and uncommitted delegation which received 15 percent or more of the vote by the base vote.

(4) The percentage for each candidate or uncommitted delegation, as determined in paragraph (3), shall be multiplied by

the total number of delegates to be selected in the congressional district.

(5) Each presidential and uncommitted delegation shall be entitled to that number of delegates which is equal to the whole number, if any, in the product determined in paragraph (4).

(6) Remaining delegates, if any, shall be awarded in the order of the highest fractional remainders determined in paragraph (4).

In case of a tie, the delegates shall be awarded to the candidate or uncommitted delegation with the highest congressional district vote total, or if the vote is a tie, shall be awarded to the candidate or uncommitted delegation with the highest statewide vote total. Alternate delegates shall be allocated in the same manner as delegates.

A presidential or uncommitted preference receiving less than 15 percent of the total vote in a congressional district shall be awarded no delegates or alternate delegates in that district. If no candidates, or uncommitted delegations, in a particular congressional district received a percentage of the vote which equaled or exceeded the 15 percent threshold for that district, the delegates shall be allocated by using a recalculated threshold, which shall be the percentage of the vote received by the front runner minus 10 percent.

(d) Pledged party and elected official delegates, at-large delegates, and at-large alternate delegates shall be apportioned among the presidential candidates and uncommitted delegations in the following manner:

(1) The percentage of the statewide vote each presidential and uncommitted delegation received shall be calculated to three decimals.

(2) A "statewide base vote" shall be determined. The statewide base vote shall be the sum of the combined statewide vote for all candidates and uncommitted delegations which received at least 15 percent of the statewide vote.

(3) The percentage of the vote received by each presidential and uncommitted delegation shall be recalculated to three decimals, by dividing the total statewide vote received by each presidential and uncommitted delegation which received 15 percent or more of the vote by the statewide base vote.

(4) The percentage for each candidate or uncommitted delegation, as determined in paragraph (3), shall be multiplied by the total number of delegates to be selected.

(5) Each presidential and uncommitted delegation shall be entitled to that number of delegates which is equal to the whole number, if any, in the product determined in paragraph (4).

(6) Remaining delegates, if any, shall be awarded in the order of the highest fractional remainders determined in paragraph (4).

No delegates or alternate delegates shall be awarded to any candidate or uncommitted delegation which received less than 15 percent of the statewide vote. If no candidate or uncommitted delegation received at least 15 percent of the statewide vote, the

delegates shall be allocated by using a recalculated threshold, which shall be the percentage of the vote received by the front runner minus 10 percent.

If a presidential candidate is no longer a candidate at the time of the convention held pursuant to Section 6365.1, then those delegate positions which would have been allocated to the candidate will be proportionally divided among the remaining candidates and uncommitted delegations based on the recalculated percentage determined by the vote each remaining candidate or uncommitted delegation received divided by the combined vote for all remaining candidates and uncommitted delegations which received at least 15 percent of the statewide vote.

If a presidential candidate or uncommitted delegation is entitled to one or more delegates but would not otherwise be entitled to an alternate delegate position, that candidate or uncommitted delegation shall be given one at-large delegate.

SEC. 28. Section 6365.1 of the Elections Code is repealed.

SEC. 29. Section 6365.1 is added to the Elections Code, to read:

6365.1. On the second Saturday following the primary election, the Democratic State Central Committee shall transmit to the steering committee of each presidential candidate or uncommitted delegation a list of the persons who have filed for pledged party and elected official delegate, at-large delegate and at-large alternate delegate positions pledged to that presidential candidate or uncommitted delegation. All such delegate candidates and alternate candidates shall be considered bona fide supporters, unless rejected in accordance with the provisions set forth in Section 6328.5. On the third Saturday following the presidential primary election, the congressional district elected delegates shall meet in convention at the time and place specified by the chairperson of the Democratic State Central Committee in consultation with the chairperson of each steering committee to elect the pledged party and elected official delegates, at-large delegates and at-large alternate delegates. The chairperson of the Democratic State Central Committee shall serve as chairperson of the convention until the selection process is completed.

The first delegates to be elected shall be the pledged party and elected official delegates. Those delegates shall be selected in the following priority order of consideration: large city mayors, state constitutional officers, state legislative leaders, state legislators, members of Congress not previously selected, and other state and locally elected official and party officials.

After the selection of pledged party and elected official delegates, the convention shall elect the at-large delegates and at-large alternate delegates. Pledged party and elected official delegates, at-large delegates and at-large alternate delegates shall be apportioned among the presidential candidates and uncommitted delegations in accordance with Section 6365.

If a presidential candidate or uncommitted delegation is entitled

to one or more delegates but would not otherwise be entitled to an alternate delegate position that candidate or uncommitted delegation shall be given one at-large alternate delegate.

All individuals who intend to seek election by the convention as a delegate or alternate delegate shall file a Declaration of Candidate for Delegate pursuant to Section 6328.

The election of at-large delegates and at-large alternates shall be used if necessary, to achieve equal division of the delegates between men and women and may be used to achieve the representational goals established by the Democratic State Central Committee. Delegates and alternate delegates are to be considered separate groups for this purpose.

CHAPTER 9

An act to add Section 14533.6 to, to add and repeal Article 2.5 (commencing with Section 14130) of Chapter 2 of Part 5 of Division 3 of Title 2 of, and to add and repeal Sections 14524.1 and 14524.2 of, the Government Code, and to amend Section 114 of, and to amend, repeal, and add Section 167 of, the Streets and Highways Code, relating to transportation.

[Approved by Governor February 10, 1988. Filed with Secretary of State February 10, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Article 2.5 (commencing with Section 14130) is added to Chapter 2 of Part 5 of Division 3 of Title 2 of the Government Code, to read:

Article 2.5. Contracts for Professional and Technical Services

14130. (a) The Legislature hereby finds and declares all of the following:

(1) There is a compelling public interest in ensuring that all federal, state, local, and private funds available for the state highway program are captured and used in a timely manner.

(2) In order to maximize the use of federal, state, local, and private funds and to maintain a competitive posture in seeking supplemental federal funds, it is necessary for California to be plan-ready.

(3) Changes in federal, state, and local revenues and the growing private participation in state highway construction can result in significant fluctuations in project development workload. To maintain a more stable workforce in the department and avoid the costly process of short-time hiring and layoff while still responding in a timely manner to funding opportunities and uncertainties, additional flexibility through outside contracting and cooperative agreements with local public agencies is needed to supplement the department's program staff.

(b) Therefore, it is the intent of the Legislature that the department contract for the services of engineers, architects, surveyors, planners, environmental specialists, and materials testing specialists, in order to provide professional and technical project development services to the department whenever the department is inadequately staffed to satisfactorily carry out its project development program in a timely and effective manner. It is the

further intent of the Legislature to permit, through cooperative agreements with the department, local public agencies to undertake state highway project development activities for which they are a funding source.

14131. The department may contract for the services of engineers, architects, surveyors, planners, environmental specialists, and materials testing specialists to provide professional and technical project development services to the department whenever the director determines that the guidelines adopted pursuant to Section 14134 are applicable. Services contracted for shall not cause the displacement of any permanent, temporary, or part-time employee of the department.

For purposes of this section, "displacement" means layoff, demotion, involuntary transfer to a new class, or involuntary transfer to a new work location requiring the employee to change his or her place of residence in order to be able to continue in his or her job classification.

14132. Regulations adopted by the department pursuant to Section 4526 shall conform to the requirements of Chapter 10 (commencing with Section 4525) of Division 5 of Title 1 and shall conform to all of the following requirements:

(a) The department shall request proposals from interested firms. Each request for proposal shall include a description of the work to be performed and shall require each interested firm to submit a proposal that includes, at a minimum, a statement of the firm's qualifications and a description of the manner in which it proposes to furnish the required services.

(b) The department shall establish statewide participation goals of not less than 15 percent for minority business enterprises and not less than 5 percent for women business enterprises. These goals shall apply to the overall dollar amount expended each year by the department pursuant to this article.

(c) The department shall develop a list of qualified minority and women business enterprises utilizing existing resources such as the Office of Small and Minority Business, the Minority Business Development Agency, and the Small Business Administration. Notice of the development of the list and request for qualifications shall be published in professional publications at least 60 days prior to the deadline for submittal of qualifications. The qualifications required for minority business enterprises and women business enterprises shall be the same as those required for any other firm or individual contracting with the department for the purposes of this article.

(d) Any minority business enterprise or women business enterprise not initially included on the list of qualified firms may request evaluation of qualifications at any time, and the department shall evaluate the qualifications and notify the minority or women business enterprise of their determination within 60 days of the request. Any minority business enterprise or women business

enterprise meeting the standard qualifications will be added to the list of qualified firms immediately.

(e) The department shall request proposals pursuant to this section from all qualified minority and women business enterprises.

(f) The department shall evaluate all proposals and shall conduct discussions with at least three firms, or a lesser number if fewer than three firms have responded, regarding anticipated concepts and the relative utility of alternative methods of approach for furnishing the required services. The department shall select from among all proposers, in order of preference based upon criteria established and published by the department, not less than three firms deemed to be the most qualified to provide the services required if three or more qualified firms have responded to the request for proposal.

(g) From among the three firms so selected, the department shall negotiate a contract for the services with the best qualified firm, at a price which the department determines is fair and reasonable to the department.

(h) If the department is unable to negotiate a satisfactory contract with the best qualified firm, negotiations with that firm shall be terminated and negotiations undertaken with the second best qualified firm. If a satisfactory contract cannot be negotiated with the second best qualified firm, negotiations shall be terminated and the negotiation process continued with the remaining qualified proposers in order of their qualifications until a satisfactory contract is negotiated.

14133. (a) Contracts made pursuant to this article are not subject to Article 4 (commencing with Section 19130) of Chapter 6 of Part 2 of Division 5.

(b) Contracts for engineering or architectural services made pursuant to this article are subject to Chapter 10 (commencing with Section 4525) of Division 5 of Title 1. Notwithstanding Section 10295 of the Public Contract Code, the determination as to whether the guidelines for contracting adopted pursuant to Section 14134 have been met shall be the sole responsibility of the Director of Transportation. The Department of General Services shall have 30 working days upon receipt of a contract under this article in which to act on the contract, except in cases where further clarification is required by the department to execute the contract.

14134. (a) The department, after consultation with the commission and local transportation agencies, shall adopt guidelines for determining the appropriateness of contracting with private firms or on projects developed cooperatively with local jurisdictions. The guidelines shall include, but not be limited to, consideration of the following:

(1) Ensuring that all available federal, state, and local funds, including supplemental federal funds, are captured and used in a timely manner.

(2) Reducing short-term fluctuations in the department's project development workload while still enabling the department to be

plan-ready.

(3) Facilitating the expeditious use of locally raised funds for state highway projects, recognizing that, in this instance, local governments are partners in state highway construction and that locally financed projects should not be unnecessarily delayed.

(4) Ensuring that the cost effectiveness of contracting is considered equally with other factors when a determination of the appropriateness of contracting is made.

(5) Ensuring that contract selection is performed in accordance with applicable state laws regarding the selection of professional architectural, engineering, or land surveying services, and to ensure the selection process avoids or prohibits unlawful or unfair procedures or activities.

(b) These guidelines shall serve as general criteria for the determination of the appropriateness of contracting for project development services and shall not be deemed to require the department to contract for specific projects solely because they may meet these criteria.

(c) The department may contract with local jurisdictions, rather than with private firms, for professional and technical project development services. In such a case, the services shall be only for a project located within the area of the local jurisdiction.

14135. Each contract for engineering or architectural services entered into pursuant to this article and any construction contract resulting therefrom is subject to all of the following conditions:

(a) The engineering or architectural firm providing design services for a project is not eligible to bid on or to be awarded the construction contract for that project.

(b) The department shall provide a regular civil service employee as the resident engineer on any construction contract that results from project design services performed by engineers or architects selected pursuant to this article.

(c) All contract plans and changes to plans prepared by an engineer or architect selected pursuant to this article shall be subject to review and approval by a licensed engineer or architect of the department.

14136. This article shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted on or before January 1, 1993, deletes or extends that date.

SEC. 2. Section 14524.1 is added to the Government Code, to read:

14524.1. (a) Not later than November 15 of each year, the department shall prepare and submit to the appropriate fiscal and policy committees of the Legislature, and to the Joint Legislative Budget Committee, a project delivery plan based on the state transportation improvement program adopted by the commission pursuant to Section 14529 on or before the preceding July 1. The plan shall consist of all of the following:

(1) The capital outlay project development staffing needs of the

department in the next fiscal year necessary to deliver the adopted state transportation improvement program and any new funding capacity as indicated in the adopted funding estimate for the subsequent state transportation improvement program period, including projects to be advanced.

(2) A determination of that portion of the project development workload developed pursuant to subdivision (a) that is proposed to be accomplished by the department's project development staff and that portion that is proposed by the department to be accomplished by contract for professional and technical services.

(3) An assessment of the progress the department has made in the prior year toward delivering the projects as scheduled in the adopted state transportation improvement program, including what was promised, what was delivered, what projects were delayed, and the reasons for the delays.

(b) The Legislative Analyst shall include its assessment of the department's project delivery plan in its annual analysis of the Governor's proposed budget. This assessment should include each of the following:

(1) An analysis of the progress the department has made in the prior year toward delivering projects as scheduled in the adopted state transportation improvement program.

(2) An overall assessment of the plan's adequacy in ensuring that all federal, state, local, and private funds are used in a timely and efficient manner with a minimum of project delays.

(3) The Legislative Analyst's recommendations, if any, for improving the plan's project delivery performance.

(4) The extent to which the department continues to meet its affirmative action goals for project development staff, including those personnel year equivalents contracted out pursuant to this article.

(5) The extent to which the department has met the minority and women business enterprise goals established pursuant to this article.

(c) Beginning on January 1, 1989, and on January 1 of each year thereafter, the department shall report to the Governor and the Legislature on the level of participation by minority and women business enterprises in contracting pursuant to this article. If the established goals are not met, the department shall report the reasons for its inability to achieve the standards and identify remedial steps it shall take.

(d) Not later than March 1 of each year, the department shall submit to the appropriate fiscal and policy committees of the Legislature, and to the Joint Legislative Budget Committee, a revised project delivery plan, which shall be the project delivery plan submitted pursuant to subdivision (a) updated to reflect the fund estimate provided the commission pursuant to Section 14524.

(e) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted on or before January 1, 1993, deletes or extends that date.

SEC. 2.5. Section 14524.2 is added to the Government Code, to read:

14524.2. (a) If the department's total project delivery plan for any year pursuant to subdivision (a) of Section 14524.1 requires a permanent and temporary capital outlay support staffing level which equals the 1986–87 budgeted permanent and temporary capital outlay support staffing level, the department's budget request for that year shall contain a permanent and temporary capital outlay support staffing level equal to its 1986–87 authorized permanent and temporary capital outlay support staffing level.

(b) If the department's total project delivery plan for any year pursuant to subdivision (a) of Section 14524.1 requires a permanent and temporary capital outlay support staffing level and personnel year equivalents for cash overtime and contract services which exceeds the 1986–87 authorized permanent and temporary capital outlay support staffing level and personnel year equivalents for cash overtime and contract services, the department's budget request for that year shall contain a permanent and temporary capital outlay support staffing level and personnel year equivalents for cash overtime equal to the 1986–87 authorized permanent and temporary capital outlay support staffing level and personnel year equivalents for cash overtime plus one-half of the excess over the 1986–87 authorized permanent and temporary capital outlay support staffing level and personnel year equivalents for cash overtime and contract services. The department may contract out, pursuant to Section 14131, an equal number of personnel year equivalents for each authorized permanent and temporary capital outlay support staffing level and personnel year equivalents for cash overtime which exceeds the 1986–87 authorized permanent and temporary capital outlay support staffing level and personnel year equivalents for cash overtime.

(c) For purposes of this section, "permanent and temporary capital outlay support staffing level" means the department's permanent and temporary capital outlay support staffing level funded by state and federal funds through the State Highway Account.

This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted on or before January 1, 1993, deletes or extends that date.

SEC. 3. Section 14533.6 is added to the Government Code, to read:

(b) The department shall enter into a cooperative agreement with the city or county or county transportation commission to perform professional and technical project development services when the department would otherwise contract for those services and where local public agency resources currently available are qualified to perform the services.

An act to amend Sections 447 and 1021.1 of, to add Section 631.2 to, and to repeal and add Section 631 of, the Code of Civil Procedure, relating to civil actions, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 17, 1988. Filed with Secretary of State February 17, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 447 of the Code of Civil Procedure is amended to read:

447. (a) The signature of an attorney or party constitutes a certificate by him or her that he or she has read the pleading, motion, or other paper; that to the best of his or her knowledge, information, and belief formed after reasonable inquiry, it is well grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law; and that it is not interposed for any improper purpose, such as to harass or cause unnecessary delay or needless increase in the cost of litigation. If a pleading, motion, or other paper is not signed, it shall be stricken unless it is signed promptly after the omission is called to the attention of the pleader or movant. If a pleading, motion, or other paper is signed in violation of this section, the court, upon motion or upon its own initiative, shall impose upon the person who signed it, a represented party, or both, an appropriate sanction, which may

include an order to pay the other party or parties the amount of the reasonable expenses incurred because of the filing of the pleading, motion, or other paper, including a reasonable attorney's fee. Sanctions may be imposed only after notice and opportunity to be heard. An order imposing sanctions shall be in writing, and shall recite in detail the circumstances justifying sanctions.

(b) This section shall apply only in Riverside County and San Bernardino County. The Legislature finds and declares that, in order to assess the impact of this section on a limited basis before making it applicable on a statewide basis, it is necessary for this section to be applicable for a limited period of time in those counties.

(c) This section shall only be in effect from July 1, 1988, until January 1, 1991, and on that date is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1991, deletes or extends that date.

SEC. 2. Section 631 of the Code of Civil Procedure is repealed.

SEC. 3. Section 631 is added to the Code of Civil Procedure, to read:

631. (a) Trial by jury may be waived by the several parties to an issue of fact in any of the following ways:

(1) By failing to appear at the trial.

(2) By written consent filed with the clerk or judge.

(3) By oral consent, in open court, entered in the minutes or docket.

(4) By failing to announce that a jury is required, at the time the cause is first set for trial, if it is set upon notice or stipulation, or within five days after notice of setting if it is set without notice or stipulation.

(5) By failing to deposit with the clerk, or judge, advance jury fees 25 days prior to the date set for trial, or as provided by subdivision (b). The advanced jury fee shall not exceed the amount necessary to pay the average mileage and fees of 20 trial jurors in the court to which the jurors are summoned.

(6) By failing to deposit with the clerk, or judge, at the beginning of the second and each succeeding day's session a sum equal to one day's fees of the jury, and the mileage or transportation, if there are any.

(b) In a superior court action if a jury is demanded by either party in the memorandum to set the cause for trial and the party, prior to trial, by announcement or by operation of law waives a trial by jury, then all adverse parties shall have five days following the receipt of notice of the waiver to file and serve a demand for a trial by jury and to deposit any advance jury fees which are then due.

(c) When the party who has demanded trial by jury either waives such trial upon or after the assignment for trial to a specific department of the court, or upon or after the commencement of the trial, or fails to deposit the fees as provided in paragraph 6 of subdivision (a), trial by jury shall be waived by the other party either failing promptly to demand trial by jury before the judge in whose department the waiver, other than for the failure to deposit such

fees, was made, or by that party's failing promptly to deposit the fees provided in paragraph 6 of subdivision (a).

(d) The court may, in its discretion upon just terms, allow a trial by jury although there may have been a waiver of a trial by jury.

SEC. 4. Section 631.2 is added to the Code of Civil Procedure, to read:

631.2. (a) Notwithstanding any other provision of law, the county may pay jury fees in civil cases from general funds of the county available therefor. Nothing in this section shall be construed to change the requirements for the deposit of jury fees in any civil case by the appropriate party to the litigation at the time and in the manner otherwise provided by law. Nothing in this section shall preclude the right of the county to be reimbursed by the party to the litigation liable therefor for any payment of jury fees pursuant to this section.

(b) The party who has demanded trial by jury shall reimburse the county for the fees and mileage of all jurors appearing for voir dire examination, except those jurors who are excused and subsequently on the same day are called for voir dire examination in another case.

SEC. 5. Section 1021.1 of the Code of Civil Procedure is amended to read:

1021.1. (a) Reasonable attorney's fees, may be awarded in an amount to be determined in the court's discretion, to a party to any civil action as provided by this section, and that award shall be made upon notice and motion by a party and shall be an element of the costs of suit.

(b) A party may be entitled, in the discretion of the court, to an award of attorney's fees under this section if all of the following conditions are met:

(1) The party has made an offer for judgment under Section 998.

(2) That offer was not accepted within the time provided in Section 998.

(3) The party to whom the offer was made thereafter failed to obtain a more favorable judgment.

The party making the offer shall be entitled to attorney's fees only for legal services rendered after the date of the offer.

(c) In exercising its discretion to award attorney's fees the court shall consider the following factors:

(1) The reasonableness or lack thereof, of a party's failure to accept an offer for judgment under Section 998 in light of the facts known to the party at the time, of which, in light of all of the circumstances, should have been known to the party. Reasonableness shall be determined by a consideration of at least the following matters:

(A) The then apparent merit or lack of merit in the claim that was the subject of the action.

(B) The closeness of the questions of fact and law at issue.

(C) Whether the offeror has unreasonably refused to furnish information necessary to evaluate the reasonableness of the offer.

(D) Whether the action was in the nature of a "test case," presenting questions of far-reaching importance affecting nonparties.

(E) The relief that might reasonably have been expected if the claimant should prevail.

(F) The amount of the additional delay, cost, and expense that the offeror reasonably would be expected to incur if the litigation should be prolonged.

(G) Those other matters that the court may deem relevant in the interest of justice.

(7) Those other factors that the court may deem relevant in the interest of justice, including any of the factors described in subdivision (c).

(b) In the case of a husband and wife who file a joint federal income tax return, if one spouse was a resident of this state for all of the taxable year and the other spouse was a nonresident for all or any portion of the taxable year, a joint nonresident income tax return is

required to be filed.

(c) This section shall not apply to either of the following:

(1) A married couple, when either spouse was an active member of the armed forces or any auxiliary branch thereof during the taxable year.

(2) A married couple, when either spouse was a nonresident of this state for the entire taxable year and had no income from a California source during the taxable year.

(d) In the case of a married couple described in subdivision (c), that couple may either file separate returns or a single joint return on such forms and in such manner as the Franchise Tax Board may prescribe.

SEC. 4. Section 17052.4 of the Revenue and Taxation Code is amended to read:

17052.4. (a) Notwithstanding any other provision of this part, for taxable years beginning on or after January 1, 1987, there shall be allowed as a credit against the taxes imposed by this part an amount equal to 12 percent of the cost of a solar energy system installed on premises, used for commercial purposes, which are located in California and which are owned by the taxpayer during the taxable year. For purposes of taxpayers who lease a solar energy system pursuant to subdivision (m), the tax credit shall apply only to the principal recovery portion of lease payments for the term of the lease not to exceed 10 years, as defined in subdivision (o), which are made during the taxable year, and to the amounts which are expended on the purchased portion of the solar energy system, including installation charges, during the taxable year. For taxable years beginning on or after January 1, 1988, and before January 1, 1989, the credit percentage allowed by this section shall be 10 percent.

(b) The solar energy tax credit shall be claimed on the state income tax return for the taxable year in which the solar energy system was installed.

(c) A taxpayer who claimed the solar energy tax credit in the state income tax return for the taxable year in which the solar energy system was installed may claim the credit in subsequent years for additions to the system or additional systems by the amount prescribed in subdivision (a).

(d) For purposes of computing the credit provided by this section, the cost of any solar energy system eligible for the credit shall be reduced by any grant provided by a public entity for that system.

(e) The basis of any system for which a credit is allowed shall be reduced by the amount of the credit and the amount of any grant provided by a utility or public agency for the solar energy system. The basis adjustment shall be made for the taxable year for which the credit is allowed.

(f) With the exception of a husband and wife, if there is more than one owner of a premises on which a solar energy system is installed, each owner shall be eligible to receive the solar energy tax credit in proportion to his or her ownership interests in the premises. In the

case of a husband or wife who files a separate return, the credit may be taken by either or equally divided between them.

(g) In the case of a partnership, the solar energy tax credit may be divided between the partners pursuant to a written partnership agreement.

(h) (1) In the case where the credit allowed under this section exceeds the taxes imposed by this part for the taxable year, that portion of the credit which exceeds the taxes imposed by this part may be carried over to the taxes imposed by this part in succeeding taxable years, until the credit is used. The credit shall be applied first to the earliest years possible.

(2) Paragraph (1) shall also apply to carryforwards of the credit allowed under former Section 17052.5 within the limitations of subdivision (e) of that section (except that the "net tax" shall include the tax imposed under Section 17062).

(i) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the current or any prior taxable year as energy conservation measures under this part.

(j) Energy conservation measures applied in conjunction with solar energy systems to reduce the total cost or backup energy requirements of those systems shall be considered part of the systems, and shall be eligible for the tax credit. Qualified energy conservation measures installed within six months of the date of installation of the solar energy system are considered to be installed "in conjunction with" the solar energy system, even if the period spans two taxable years. In cases involving more than six months between the dates of installation of the energy conservation measures and the solar energy system, the taxpayer must be able to provide persuasive evidence that the energy conservation measures were in fact installed in conjunction with a solar energy system. Eligible conservation measures applied in conjunction with solar space heating include, but are not limited to, ceiling, wall, and floor insulation above that required by law at the time of original construction. Eligible conservation measures applied in conjunction with solar water heating include, but are not limited to, water heater insulation jackets, and shower and faucet flow reducing devices. Energy conservation measures which shall be eligible for the tax credit when applied in conjunction with solar energy systems shall be defined by the Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(k) Taxpayers who lease a solar energy system installed on premises in California shall receive a tax credit as provided in subdivision (a), if the lessee can confirm, if necessary, by a written document signed by the lessor that (1) the lessor irrevocably elects not to claim a state tax credit for the solar energy system, and (2) if the system is installed in a locality served by a municipal solar utility, that the lessor holds a valid permit from the municipal solar utility. Leasing requirements may be established by the State Energy

Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(*l*) The State Energy Resources Conservation and Development Commission shall, after one or more public hearings, establish guidelines and criteria for solar energy systems which shall be eligible for the credit provided by this section. These guidelines and criteria may include, but are not limited to, minimum requirements for safety, reliability, and durability of solar energy systems. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section.

(m) For purposes of this section, the following definitions shall apply:

(1) "Installed" means placed in a functionally operative state.

(2) "Cost" includes equipment, installation charges, and compensation paid to the owner of burdened property in connection with the acquisition of a solar easement, as defined in Section 801.5 of the Civil Code, and the fees for the recording of the easement. In the case of a system which is leased, "cost" means the principal recovery portion of lease payments, which is the cost incurred by the taxpayer in acquiring the solar energy system, excluding interest charges and maintenance expenses.

"Cost" does not include interest charges and costs associated with the acquisition of an easement other than a solar easement.

(3) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease or easement granting use of the premises, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(4) "Premises" means the principal stationary location in California where the system is installed for direct use or for purposes of sale of energy, and includes land, easements, and buildings or portions thereof.

(5) "Commercial purposes" means the installation of solar energy systems on premises other than single-family dwellings.

(6) "Single-family dwelling" means single-family residences, mobilehomes, and the individual units of condominiums.

"Single-family dwelling" does not include cooperatives, apartment buildings, or other similar multiple dwellings, including buildings and any other common areas of a condominium maintained by a homeowners association.

(7) (A) "Solar energy system" means the use of solar devices for the individual function of:

(i) Domestic or service water heating.

(ii) Space conditioning.

(iii) Production of electricity.

(iv) Process heat.

(v) Solar mechanical energy.

"Solar energy system" includes, but is not limited to, passive thermal systems, semipassive thermal systems, active thermal systems, and photovoltaic systems.

For purposes of this section, "solar energy system" does not include solar devices for the individual function of wind energy for the production of electricity or mechanical work.

(B) Eligible solar energy systems shall have a useful life of not less than three years.

(8) "Solar device" means the equipment associated with the collection, conversion, transfer, distribution, storage, or control of solar energy. In the case of a solar device associated with two or more solar energy systems, the credit allowed for the solar device may be taken for any one of the systems, or divided equally between them.

(9) "Passive thermal system" means a system which utilizes the structural elements of the building, and is not augmented by mechanical components, to provide for collection, storage, or distribution of solar energy for heating or cooling.

(10) "Active thermal system" means a system which utilizes solar devices thermally isolated from the commercial space to provide for collection, storage, or distribution of solar energy for heating or cooling.

(11) "Semipassive thermal system" means a system which utilizes the structural elements of a building and is augmented by mechanical components to provide for collection, storage, or distribution of solar energy for heating or cooling.

(12) "Municipal solar utility" means a city, county, or municipal utility district, or agency thereof, which sells or leases solar or other energy generating equipment or energy saving devices for residential, commercial, agricultural, or industrial uses or which issues permits to companies engaged in the leasing of this equipment.

(n) Except for purposes of subdivision (h) of Section 17052.4, the provisions of this section shall not apply to any solar energy system which continues to qualify for the tax credit authorized by former Section 17052.5 (as amended by Chapter 1200 of the Statutes of 1986) by meeting the eligibility requirements of subdivision (*l*) of that section.

(o) This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1989, deletes or extends the date. However, any unused credit may be used beyond that date in accordance with this section.

SEC. 5. Section 17052.12 of the Revenue and Taxation Code is amended to read:

17052.12. There shall be allowed as a credit against the "net tax" (as defined by Section 17039) for the taxable year an amount determined in accordance with Section 41 of the Internal Revenue Code, except as follows:

(a) The applicable percentage shall be 8 percent of the excess of the qualified research expenses for the taxable year over the base period research expenses.

(b) "Qualified research" shall include only research conducted in California.

(c) With the exception of a husband and wife, if two or more taxpayers share in the expenses eligible for the credit provided by this section, each taxpayer shall be eligible to receive the tax credit in proportion to his or her respective share of the expenses paid or incurred. In the case of a partnership, the tax credit may be divided between the partners pursuant to a written partnership agreement in accordance with Chapter 10 (commencing with Section 17851), which includes Section 704 of the Internal Revenue Code concerning substantial economic effect, relating to partner's distributive share. In the case of a husband or wife who files a separate return, the credit may be taken by either or equally divided between them.

(d) In the case where the credit allowed under this section exceeds the net tax for the taxable year, that portion of the credit which exceeds the net tax may be carried over to the net tax in succeeding taxable years. The credit shall be applied first to the earliest taxable years possible.

(e) (1) This section shall apply only to amounts incurred on or after January 1, 1988, and paid or incurred before January 1, 1993.

(2) In the case of any taxable year which begins before January 1, 1988, and ends after December 31, 1987, any amount for any base period with respect to that taxable year shall be the amount which bears the same ratio to that amount for that base period as the number of days in that taxable year after December 31, 1987, bears to the total number of days in that taxable year.

(3) In the case of any taxable year which begins before January 1, 1993, and ends after December 31, 1992, any amount for any base period with respect to that taxable year shall be the amount which bears the same ratio to that amount for that base period as the number of days in that taxable year before January 1, 1993, bears to the total number of days in that taxable year.

(f) This section shall remain in effect only until January 1, 1994, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1994, deletes or extends that date.

SEC. 6. Section 17054 of the Revenue and Taxation Code is amended to read:

(d) Except as provided in paragraph (2) or (3), a credit of fifty-one dollars ($51) for taxable years beginning on or after January 1, 1987, and before January 1, 1988, and fifty-two dollars ($52) for taxable years beginning on or after January 1, 1988, for each dependent (as defined in Section 17056)—

(1) For whom an exemption is allowable under Section 151 (c) of the Internal Revenue Code (relating to additional exemption for dependents).

(2) If the taxpayer would not occupy the status of head of a household except by reason of there being one or more dependents for whom he or she would be entitled to claim a credit under this subdivision, the credit shall be disallowed with respect to one of the dependents.

(3) No credit for a dependent shall be allowed to a noncustodial parent if both of the following apply:

(A) A credit for the dependent would not be allowed except for the provisions of Section 152(e)(2) or 152(e)(4) of the Internal Revenue Code, relating to exemptions claimed by noncustodial parents.

(B) An amount computed at the rate of 0.5 percent per month of the "remaining tax" (as defined in subdivision (d)) for each additional month or fraction thereof (not to exceed 40 months)

(d) For purposes of this section, "remaining tax" means total tax unpaid reduced by the amount (if any) of any payment of the tax.

(f) No interest shall accrue on the portion of the penalty described in subparagraph (B) of paragraph (2) of subdivision (a).

(b) The carryover of the credit, excess contribution, or loss shall be allowed to be carried forward under the act adding this section to the code for the same period of time as the taxpayer would have been entitled to carry that item forward under prior law.

(d) For income years beginning on or after January 1, 1987, and before January 1, 1988, references in this part to "alternative minimum tax" shall be deemed to be references to the "tax on preference income."

SEC. 43. Section 23181 of the Revenue and Taxation Code, as amended by Chapter 1442 of the Statutes of 1987, is amended to read:

23181. (a) Except as otherwise provided herein, an annual tax is hereby imposed upon every bank doing business within the limits of this state according to or measured by its net income, upon the basis of its net income for the next preceding income year at the rate provided under Section 23186.

(b) If a bank commences to do business and ceases doing business in the same taxable year, the tax for such taxable year shall be according to or measured by its net income for such year, at the rate provided under Section 23186.

(c) With respect to a bank, other than a bank described in subdivision (b), which ceases doing business after December 31, 1972, the tax for the taxable year of cessation shall be:

(1) According to or measured by its net income for the next preceding income year, to be computed at the rate prescribed in Section 23186, plus

(2) According to or measured by its net income for the income year during which the bank ceased doing business, to be computed at the rate prescribed in Section 23186.

(d) In the case of a bank which ceased doing business before January 1, 1973, but dissolves or withdraws on such date or thereafter, the tax for the taxable year of dissolution or withdrawal shall be

according to or measured by its net income for the income year during which the bank ceased doing business, unless such income has previously been included in the measure of tax for any taxable year, to be computed at the rate prescribed under Section 23186 for the taxable year of dissolution or withdrawal.

(e) Commencing with income years ending in 1980, every bank shall pay to the state a minimum tax of two hundred dollars ($200) or the measured tax imposed on its income, whichever is greater.

(f) For income years beginning after December 31, 1986, every bank shall pay to the state a minimum tax of three hundred dollars ($300) or the measured tax imposed on its income, whichever is greater.

SEC. 43.5. Section 23186 of the Revenue and Taxation Code is amended to read:

23186. (a) Except as otherwise provided in this section, the rate of tax on banks and financial corporations shall be a percentage equal to the percentage of the total amount of net income, allocable to this state, of every corporation taxable under Section 23151 or subdivision (c) of Section 23151.1 or paragraph (1) of subdivision (d) of Section 23151.1, as the case may be, other than public utilities as defined in the Public Utilities Act, for the next preceding calendar year or fiscal years ended during such calendar year, required to be paid to this state as franchise taxes according to or measured by such net income, and required to be paid to this state or its political subdivisions by such corporations as personal property taxes during the preceding calendar year or fiscal years ended in such calendar year; provided, however, that said rate of tax shall not exceed 13 percent. The percentage of the net income of every corporation taxable under Section 23151, or subdivision (c) of Section 23151.1, or paragraph (1) of subdivision (d) of Section 23151.1, as the case may be, other than public utilities as defined in the Public Utilities Act, required to be paid to this state or its political subdivisions in personal property taxes shall be determined by ascertaining the ratio which the total amount of such personal property taxes, less 9 percent thereof, bears to the total amount of net income of such corporations allocable to California, increased by the amount of such personal property taxes; provided, however, that if any such corporation sustains a net loss allocable to California the personal property taxes required to be paid by such corporation to this state or its political subdivisions during the preceding calendar year or fiscal year ended during such calendar year shall be considered for the purpose of determining

such ratio only to the extent which such personal property taxes exceed such net loss allocable to California.

(b) The rate of tax on banks and financial corporations for income years ending in 1980, 1981, 1982, 1983, and 1984 shall be as follows:

(1)	1980	11.6 percent
(2)	1981	11.6 percent
(3)	1982	10.907 percent
(4)	1983	10.907 percent
(5)	1984	10.930 percent

(c) For income years ending in 1987 and thereafter, the rate of tax on banks and financial corporations shall be a percentage equal to the percentage of the total amount of net income, allocable to this state, of every corporation taxable under Article 2 (commencing with Section 23151) of this chapter, other than public utilities as defined in the Public Utilities Act, for the next preceding calendar year or fiscal years ended during such calendar year, required to be paid to this state as franchise taxes according to or measured by such net income, and required to be paid to this state or its political subdivisions by such corporations as personal property taxes and business license taxes during the preceding calendar year or fiscal years ended in such calendar year; provided, however, that said rate of tax shall not exceed 11.7 percent. The percentage of the net income of every corporation taxable under Article 2 (commencing with Section 23151) of this chapter, other than public utilities as defined in the Public Utilities Act, required to be paid to this state or its political subdivisions in personal property taxes and business license taxes shall be determined by ascertaining the ratio which the total amount of such personal property taxes and business license taxes, less the rate prescribed in Section 23151, bears to the total amount of net income of such corporations allocable to California, increased by the amount of such personal property taxes and business license taxes; provided, however, that if any such corporation sustains a net loss allocable to California the personal property taxes and business license taxes required to be paid by such corporation to this state or its political subdivisions during the preceding calendar year or fiscal years ended during such calendar year shall be considered for the purpose of determining such ratio only to the extent which such personal property taxes and business license taxes exceed such net loss allocable to California. Total amounts of net income shall be determined without regard to deductions attributable to carryover or carryback of net operating losses (if any).

(d) For income years ending in 1982 and thereafter, for the purposes of subdivision (c), the total amount of personal property taxes and business license taxes required to be paid during the income year shall be based on a statistical sample by the Franchise Tax Board, consisting of all of the following:

(1) Every corporation with a net income determined without regard to deductions attributable to carryover or carryback of net operating losses (if any) of more than five million dollars ($5,000,000) for the income year.

(2) Every corporation required to pay one hundred thousand dollars ($100,000) or more of personal property tax or business license tax, or a combination thereof, during the income year.

(3) Two percent or more of all other corporations on a random basis.

For the purposes of this subdivision, "corporation" means a corporation taxable under Article 2 (commencing with Section 23151), other than public utilities as defined in the Public Utilities Act.

(e) For the purpose of verifying local business license taxes reported by corporations taxable under Article 2 (commencing with Section 23151), other than public utilities as defined in the Public Utilities Act, the Franchise Tax Board is authorized to receive source information listings directly from the cities as to the amount of business license taxes paid and the date of payment for each taxpayer subject to the business license tax, notwithstanding any city ordinance prohibiting that disclosure.

(f) If, after notice and demand by the Franchise Tax Board, a taxpayer declines or refuses to furnish the Franchise Tax Board with information regarding personal property taxes, business license taxes, or net income required to determine the rate of tax on banks and financial corporations as provided by this section, then in that event, unless the failure is due to reasonable cause, the Franchise Tax Board shall disallow any deductions claimed by a taxpayer for the applicable period for personal property taxes and business license taxes and a penalty of five thousand dollars ($5,000) shall be assessed.

(g) The Franchise Tax Board shall redetermine the rate of tax for banks and corporations determined in 1979 (and 1980 if applicable), taking into account additional local tax billings prior to January 1, 1982, resulting from the final court decision not to uphold the application of the tax rate provided by Article XIII A of the Constitution to the 1978–79 unsecured roll. Any additional taxes resulting from the redetermined rate will be due and payable within 30 days of mailing of a notice and demand by the Franchise Tax Board. In making the redetermination, the Franchise Tax Board shall utilize the statistical sampling method provided in subdivision (e), except that business license taxes shall not be taken into account.

SEC. 52. Section 23601.4 of the Revenue and Taxation Code is amended to read:

23601.4. (a) Notwithstanding any other provision of this part, for income years beginning on or after January 1, 1987, there shall be allowed as a credit against the taxes imposed by this part (except the minimum franchise tax) an amount equal to 12 percent of the cost of a solar energy system installed on premises, used for commercial purposes, which are located in California and which are owned by the taxpayer during the income year. For purposes of taxpayers who lease a solar energy system pursuant to subdivision (*l*), the tax credit shall apply only to the principal recovery portion of lease payments for the term of the lease not to exceed 10 years, as defined in subdivision (n), which are made during the income year, and to the amounts expended on the purchased portion of the solar energy system, including installation charges, during the income year. For income years beginning on or after January 1, 1988, and before January 1, 1989, the credit percentage allowed by this section shall be reduced to 10 percent.

(b) The solar energy tax credit shall be claimed on the state income tax return for the income year in which the solar energy system was installed.

(c) A taxpayer who claimed the solar energy tax credit in the state income tax return for the income year in which the solar energy system was installed may claim the credit in subsequent years for additions to the system or additional systems by the amount prescribed in subdivision (a).

(d) For purposes of computing the credit provided by this section, the cost of any solar energy system eligible for the credit provided

by this section shall be reduced by any grant provided by a public entity for that system.

(e) The basis of any system for which a credit is allowed shall be reduced by the amount of the credit and the amount of any grant provided by a utility or public agency for the solar energy system. The basis adjustment shall be made for the income year for which the credit is allowed.

(f) In the case of a partnership, the solar energy tax credit may be divided between the partners pursuant to a written partnership agreement.

(g) (1) In the case where the credit allowed under this section exceeds the taxes imposed by this part (except the minimum franchise tax) for the income year, that portion of the credit which exceeds those taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax) in succeeding income years until the credit is used. The credit shall be applied first to the earliest years possible.

(2) Paragraph (1) shall also apply to carryforwards of the credit allowed under former Section 23601 within the limitations of subdivision (c) of that section (except that the "taxes imposed by this part" shall include the tax imposed under Section 23400).

(h) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the current or any prior income year as energy conservation measures under this part.

(i) Energy conservation measures applied in conjunction with solar energy systems to reduce the total cost or backup energy requirement of those systems shall be considered part of the systems, and shall be eligible for the tax credit. Qualified energy conservation measures installed within six months of the date of installation of the solar energy system are considered to be installed "in conjunction with" the solar energy system, even if the period spans two income years. In cases involving more than six months between the dates of installation of the energy conservation measures and the solar energy system, the taxpayer must be able to provide persuasive evidence that the energy conservation measures were in fact installed in conjunction with a solar energy system. Eligible conservation measures applied in conjunction with solar space heating include, but are not limited to, ceiling, wall, and floor insulating above that required by law at the time of original construction. Eligible conservation measures applied in conjunction with solar water heating include, but are not limited to, water heater insulation jackets, and shower and faucet flow reducing devices. Energy conservation measures which shall be eligible for the tax credit when applied in conjunction with solar energy systems shall be defined by the Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(j) Taxpayers who lease a solar energy system installed on premises in California shall receive a tax credit as provided in

subdivision (a), if the lessee can confirm, if necessary, by a written document signed by the lessor that (1) the lessor irrevocably elects not to claim a state tax credit for the solar energy system, and (2) if the system is installed in a locality served by a municipal solar utility, that the lessor holds a valid permit from the municipal solar utility. Leasing requirements may be established by the State Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(k) The State Energy Resources Conservation and Development Commission shall, after one or more public hearings, establish guidelines and criteria for solar energy systems which shall be eligible for the credit provided by this section. These guidelines and criteria may include, but are not limited to, minimum requirements for safety, reliability, and durability of solar energy systems. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section.

(*l*) For purposes of this section, the following definitions shall apply:

(1) "Installed" means placed in a functionally operative state.

(2) "Cost" includes equipment, installation charges, and compensation paid to the owner of burdened property in connection with the acquisition of a solar easement, as defined in Section 801.5 of the Civil Code, and the fees for the recording of the easement. In the case of a system which is leased, "cost" means the principal recovery portion of lease payments, which is the cost incurred by the taxpayer in acquiring the solar energy system, excluding interest charges and maintenance expenses.

"Cost" does not include interest charges and costs associated with the acquisition of an easement other than a solar easement.

(3) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease or easement granting use of the premises, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a duly recorded holder of legal title, or a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(4) "Premises" means the principal stationary location in California where the system is installed for direct use or for purposes of sale of energy, and includes land, easements, and buildings or portions thereof.

(5) "Commercial purposes" means the installation of solar energy systems on premises other than single-family dwellings.

(6) "Single-family dwelling" means single-family residences, mobilehomes, and the individual units of condominiums.

"Single-family dwelling" does not include cooperatives, apartment buildings, or other similar multiple dwellings, including buildings

and any other common areas of a condominium maintained by a homeowners association.

(7) (A) "Solar energy system" means the use of solar devices for the individual function of:

(i) Domestic or service water heating.

(ii) Space conditioning.

(iii) Production of electricity.

(iv) Process heat.

(v) Solar mechanical energy.

"Solar energy system" includes, but is not limited to, passive thermal systems, semipassive thermal systems, active thermal systems, and photovoltaic systems.

For purposes of this section, "solar energy system" does not include solar devices for the individual function of wind energy for the production of electricity or mechanical work.

(B) Eligible solar energy systems shall have a useful life of not less than three years.

(8) "Solar device" means the equipment associated with the collection, conversion, transfer, distribution, storage, or control of solar energy. In the case of a solar device associated with two or more solar energy systems, the credit allowed for the solar device may be taken for any one of the systems, or divided equally between them.

(9) "Passive thermal system" means a system which utilizes the structural elements of the building, and is not augmented by mechanical components, to provide for collection, storage, or distribution of solar energy for heating or cooling.

(10) "Active thermal system" means a system which utilizes solar devices thermally isolated from the commercial space to provide for collection, storage, or distribution of solar energy for heating or cooling.

(11) "Semipassive thermal system" means a system which utilizes the structural elements of a building and is augmented by mechanical components to provide for collection, storage, or distribution of solar energy for heating or cooling.

(12) "Municipal solar utility" means a city, county, or municipal utility district, or agency thereof, which sells or leases solar or other energy generating equipment or energy saving devices for residential, commercial, agricultural, or industrial uses or which issues permits to companies engaged in the leasing of this equipment.

Failure of the owner to provide written notice when required by this subdivision to each buyer shall subject the owner to actual damages and any other remedies provided by law. In addition, where the owner has actual knowledge of the presence of any hazardous substance and knowingly and willfully fails to provide written notice to the buyer, the owner is liable for a civil penalty not to exceed five thousand dollars ($5,000) for each separate violation.

SECTION 1. Section 19596.5 of the Business and Professions Code is amended to read:

19596.5. (a) Notwithstanding any other provision of law, the board may authorize an association licensed to conduct a racing meeting in the northern zone to operate a satellite wagering facility for wagering on races conducted in the northern zone at its racetrack inclosure, except during the part of the day racing is being conducted at its racetrack, and may, with the approval of the Department of Food and Agriculture, authorize any county fair, district agricultural association fair, or citrus fruit fair in the northern zone eligible for an allocation of racing days pursuant to Section 19549, but which is not licensed to conduct a racing meeting or authorized pursuant to Section 19596.7, to locate a satellite wagering facility at its fairgrounds for wagering on races conducted in the northern zone, if all of the following conditions are met:

(1) An organization described in subdivision (c) of Section 19596.4 has executed agreements, which are approved by the board, with the association conducting a racing meeting in the northern zone and the satellite wagering facility. The agreement shall provide, among other things, the conditions for transmission of the signal and that the wagers made at the satellite wagering facility will be included in the appropriate conventional or exotic pool at the racetrack where the racing meeting is conducted. Notwithstanding any other provision of law or any agreement under this subdivision, for purposes of determining license fees and breakage at the racetrack where the racing meeting is conducted, wagers at a satellite facility shall not be included in the conventional or exotic pools of the association conducting the racing meeting.

(2) The horsemen's organization which represents the horsemen at the association which conducts the racing meeting on which wagers are accepted consents to the acceptance of wagers at the satellite wagering facility, except that the association or fair operating the satellite wagering facility may appeal the withholding of consent to the board which may determine that consent is not required.

(3) The accommodations and equipment used in conducting wagering at the satellite wagering facility and their location have been approved by the board.

(4) The method used by the satellite wagering facility to transmit wagers, odds, results, and other data related to wagering has been approved by the board.

(5) Except as provided in Section 19596.9, any association or fair which conducts satellite wagering shall conduct wagering on all racing offered to the satellite wagering facility, as long as the satellite wagering facility is not sustaining a loss on either a day meeting or night meeting, as determined by the board, and, if sustaining a loss on either a day meeting or night meeting, as long as that loss is reimbursed by either an organization described in subdivision (c) of Section 19596.4 or an association.

In calculating the loss, if any, for operating a satellite wagering facility for a night meeting, only the expenses incurred by the satellite wagering facility because of acceptance of night wagers shall be considered, and no overhead expenses or expenses which would be incurred regardless of the acceptance of night wagers shall be considered.

(b) Notwithstanding subdivision (a), during periods of the day when there is no night racing in the northern zone, the live audiovisual signal of night harness or quarter horse races in the central or southern zone may be offered to satellite wagering facilities in the northern zone, provided, however, (1) that racing associations may accept that audiovisual signal, but are not required to do so and (2) that satellite wagering facilities located at fairs are not required to accept more than five night racing programs per week.

(c) The total percentage deducted from wagers at satellite wagering facilities shall be the same as the deductions for wagers at the racetrack where the racing meeting is being conducted and shall be distributed as set forth in this section. Amounts deducted under this section shall be distributed as follows:

(1) On thoroughbred meetings only, 2.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 4.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 2.5 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and 0.4 of 1 percent shall be distributed to the breeders in the form of breeders' awards, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(2) On harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 3.0 percent on exotic

wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 6 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and, in the case of quarter horses and Appaloosas, 0.4 of 1 percent shall be distributed as breeders awards to breeders of quarter horses and Appaloosas and, in the case of standardbreds, 0.4 of 1 percent shall be distributed for the California Standardbred Sires Stakes Program pursuant to Section 19619, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(3) In addition to the distributions in paragraph (1) or (2), on thoroughbred meetings and harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1 percent of the total amount handled by the satellite wagering facility shall be distributed to an organization described in subdivision (c) of Section 19596.4 for promotion of the program at satellite wagering facilities and 0.33 of 1 percent of the total amount handled by the satellite wagering facility shall be paid to the city or county in which the satellite wagering facility is located pursuant to Section 19610.3 or 19610.4.

(d) On thoroughbred meetings only, the funds remaining after distribution of the amounts set forth in subdivision (c) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent as purses to the horsemen participating in the racing meeting, except that owners' premiums shall be paid from the amount distributed for purses in the same relative percentage as owners' premiums are paid at the racing meeting. Of the amount deducted for purses at the association conducting the racing meeting, 10 percent shall be distributed in the form of purses to horsemen who participate in racing fairs that operate satellite wagering facilities. The 10 percent of the purses for horsemen who participate in racing fairs shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings to achieve the purposes of subdivision (i).

(e) On harness, quarter horse, Appaloosa, mixed breed, and fair meetings, the funds remaining after distribution of the amounts set forth in subdivision (c) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent to the horsemen in the form of purses at the association conducting the racing meeting.

(f) Except as provided in subdivisions (g) and (h), all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in a separate account in the fund

and, notwithstanding Section 13340 of the Government Code, are hereby continuously appropriated from that account to the Department of Food and Agriculture, for allocation by the Director of Food and Agriculture in his or her discretion, for the following purposes:

(1) For repayment of the principal of, and interest on, bonds issued by a joint powers agency, or of other debt service or expense incurred, for the purpose of constructing improvements only at a fair's racetrack inclosure, for the purpose of construction of satellite wagering facilities at fairs, and for health and safety repair projects and handicapped access compliance at fairs. Notwithstanding any other law, the department may also commit any funds available for allocation under Article 10 (commencing with Section 19620) to complete projects funded under this paragraph in the priority described in this paragraph.

(2) For repayment of expenses incurred by fairs in establishing and operating satellite wagering facilities.

(3) For health and safety repair projects at fairs.

(4) For support purposes of fairs generally.

(g) Seven and one-half percent of all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in the General Fund.

(h) Up to 10 percent of all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in a special account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings to achieve the purposes of subdivision (i). The department shall annually determine the percentage of revenues payable to the special account under this subdivision based on the amount necessary to achieve the purposes of subdivision (i).

(i) It is the intent of the Legislature that funds allocated pursuant to subdivision (h) be used primarily at fair racing meetings in the northern zone with a daily average handle of more than three hundred thousand dollars ($300,000). The Legislature further finds that its intent is that these allocations be used to bring the purses at these fairs, exclusive of purses for stakes races and special events, to a level of at least 80 percent of purses for similar classes of horses at private racing associations in the northern zone. The funds shall be used among all breeds. For fair racing meetings in the northern zone with a daily average handle of three hundred thousand dollars ($300,000) or less, it is the intent of the Legislature to bring the purses to a level of at least 25 percent of purses for similar classes of horses at private racing associations in the northern zone.

SEC. 2. Section 19596.6 of the Business and Professions Code is amended to read:

19596.6. (a) Notwithstanding any other provision of law, subject to the conditions and limitations set forth in this section and Section

19596.7, the following entities in the central or southern zone are eligible to be licensed to operate a satellite wagering facility for wagering on races conducted in the central or southern zone:

(1) Any county fair, district agricultural association fair, or citrus fruit fair which conducted general fair activities in 1986 within the central or southern zone, and which is eligible for an allocation of racing days pursuant to Section 19549, but which is not licensed to conduct a racing meeting, may locate a satellite wagering facility at its fairgrounds.

(2) Any association licensed to conduct a racing meeting in the central or southern zone.

(b) The board may authorize an eligible association or, with the approval of the Department of Food and Agriculture, an eligible fair, to operate a satellite wagering facility under all of the following conditions:

(1) A racing association licensed to conduct a racing meeting shall conduct satellite wagering only within its racing inclosure.

(2) An organization described in subdivision (c) of Section 19596.4 has executed an agreement approved by the board with the association conducting a racing meeting and the satellite wagering facility. The agreement shall provide, among other things, the conditions for transmission of the signal and that the wagers made at the satellite wagering facility are included in the appropriate conventional or exotic pool at the racetrack where the racing meeting is conducted.

(3) The accommodations and equipment used in conducting wagering at the satellite wagering facility and their location have been approved by the board.

(4) The method used by the satellite wagering facility to transmit wagers, odds, results, and other data related to wagering have been approved by the board.

(5) Any association or fair that operates a satellite wagering facility shall conduct wagering on all racing conducted in the central or southern zone that is offered to that satellite wagering facility, as long as the satellite wagering facility is not sustaining a loss on either a day meeting or a night meeting, as determined by the board, and, if sustaining a loss on either a day meeting or a night meeting, as long as that loss is not reimbursed by either an organization described in subdivision (c) of Section 19596.4 or an association.

In calculating the loss, if any, for operating a satellite wagering facility for a night meeting, only the expenses incurred by the satellite wagering facility because of acceptance of night wagers shall be considered, and no overhead expenses or expenses of the satellite wagering facility which would be incurred regardless of the acceptance of night wagers shall be considered.

(c) Notwithstanding subdivision (a), a satellite wagering facility may not be located within the County of Los Angeles or within the County of Orange, except as follows:

(1) If all other conditions in subdivision (b) are met, the Fiftieth

District Agricultural Association may be authorized to operate a satellite wagering facility upon its fairgrounds in the City of Lancaster and to accept wagers on races conducted in the southern and central zones.

(2) If all other conditions are met, any fair or association licensed to conduct racing meetings in the County of Los Angeles and any racing association other than a fair which is licensed to conduct racing in the County of Orange may be authorized to operate a satellite wagering facility for the limited purpose of conducting satellite wagering on races conducted at the Twenty-Second District Agricultural Association fairgrounds at Del Mar in the County of San Diego, except that, when a fair in Orange County is licensed for a racing meeting, a satellite wagering facility located within the racing inclosure where the racing meeting is conducted may not operate on the days that racing is conducted.

(d) The total percentage deducted from wagers at satellite wagering facilities shall be the same as the percentage deducted from wagers at the racetrack where the racing meeting is being conducted and shall be distributed as set forth in this section. Amounts deducted by a satellite wagering facility under this section shall be distributed as follows:

(1) On thoroughbred meetings only, 2.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 4.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 2.5 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and 0.40 of 1 percent shall be distributed to the breeders in the form of breeders' awards, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(2) On harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 3.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, and 6 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and, in the case of quarter horses and Appaloosas, 0.4 of 1 percent shall be distributed as breeders awards to breeders of quarter horses and Appaloosas and, in the case of standardbreds, 0.4 of 1 percent shall be distributed for the California Standardbred Sires Stakes Program pursuant to Section 19619, and one-tenth of 1 percent of the amount wagered at

the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(3) In addition, on thoroughbred meetings and harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1 percent shall be distributed to an organization described in subdivision (c) of Section 19596.4 for promotion of the program at satellite wagering facilities and 0.33 of 1 percent of the total amount handled by the satellite wagering facility shall be paid to the city or county in which the satellite wagering facility is located pursuant to Section 19610.3 or 19610.4.

(e) On thoroughbred meetings only, the funds remaining after distribution of the amounts in subdivision (d) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent as purses to the horsemen participating in the racing meeting, except that owners' premiums shall be paid from the amount distributed for purses in the same relative percentage as owners' premiums are paid at the racing meeting. All of the funds distributed for purses from satellite wagering facilities shall go to the purse program of the association conducting the racing meeting except that all sums for distribution as purses at satellite wagering facilities which are racing fairs in the County of Los Angeles shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings in Los Angeles and Orange Counties. The department shall distribute these funds on an equal basis to each racing fair in these counties for distribution in all nonstakes races and among all breeds.

(f) On harness, quarter horse, Appaloosa, mixed breed, and fair meetings, the funds remaining after distribution of the amounts set forth in subdivision (d) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent to the horsemen in the form of purses participating in the racing meeting.

(g) Notwithstanding subdivision (e), when satellite wagering is conducted on thoroughbred meetings, an amount, not to exceed 1.25 percent of the total amount handled by all satellite wagering facilities, shall be deducted from the funds otherwise allocated for distribution as commissions, purses, and owners' premiums and instead distributed to an organization formed and operated by thoroughbred racing associations, fairs conducting thoroughbred racing, and the organization representing thoroughbred horsemen, with each party having meaningful representation on the board of the organization, to administer, pursuant to supervision of the board, a fund to provide reimbursement for offsite stabling at board-approved auxiliary training facilities of licensed racing

associations for additional stalls beyond the number of usable stalls the association is required to make available and maintain pursuant to Section 19535, and for the vanning of starters from these additional stalls on race days for thoroughbred horses.

(h) The funds distributed to the organization formed pursuant to subdivision (g) shall be used to reimburse racing associations who are operating offsite stabling providing additional stalls for the incremental increase in operating costs directly resulting from providing the stabling. Neither the organization administering the offsite stabling and vanning program nor any of the entities forming and operating the organization, except the entity operating the offsite stabling facility where the injury occurred, shall be liable for any injury to any jockey, exercise person, owner, trainer, or any employee or agent thereof, or any horse occurring at any offsite stabling facility.

The funds shall also reimburse horsemen for the cost of vanning starting horses from a board-approved auxiliary training facility operated by a licensed racing association to the track conducting the racing meeting. Horsemen may use carriers of their own choice, except that the amount of reimbursement to horsemen is limited to the amount that the organization determines is generally charged by carriers for vanning from the auxiliary training facility to the track conducting the racing meeting. Neither the organization administering the offsite stabling and vanning program nor any of the entities forming and operating the organization, except the entity actually engaged in vanning horses, shall be liable for any injury occurring to any individual or horse during vanning from an offsite stabling facility.

The training facilities and amenities provided for offsite stabling and training purposes shall be equivalent in character to those provided during racing meetings of the association.

Upon the request of any party within the organization, the board shall adjudicate any dispute regarding costs, or other matters relating to the furnishing of offsite stabling or vanning. The board may, if necessary, appoint an independent auditor to assist in the resolution of disputes. The auditor shall be reimbursed from the funds of the organization.

The organization may maintain a reserve fund of up to 10 percent of the total estimated annual vanning and stabling cost. In addition to the reserve fund, if the funds generated for offsite stabling and vanning are insufficient to fully reimburse racing associations for expenses incurred during the offsite vanning and stabling program, the organization is entitled to accumulate sufficient funds to fully reimburse these expenses.

The amount initially deducted and distributed to the organization shall be 1.25 percent of the total amount handled by satellite wagering facilities authorized under this section on thoroughbred racing, but that allocation may be adjusted by the board, in its discretion, but the adjusted amount may not exceed 1.25 of the total

amount handled by satellite wagering facilities, to pay expenses and maintain the reserve fund for the continuing support of the program.

(i) Forty-two percent of the revenue payable to the state from license fees from satellite wagering facilities located at fairs under the authority of this section shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated from that account to the Department of Food and Agriculture, for allocation by the Director of Food and Agriculture, in his or her discretion, for the following purposes:

(1) For repayment of the principal of, and interest on, bonds issued by a joint powers agency, or of other debt service or expense incurred for the purpose of constructing improvements only at a fair's racetrack inclosure, or for the purpose of construction of satellite wagering facilities at fairs, and for health and safety repair projects and handicapped access compliance at fairs. Notwithstanding any other law, the department may also commit any funds available for allocation under Article 10 (commencing with Section 19620) to complete projects funded under this paragraph in the priority described in this paragraph.

(2) For repayment of expenses incurred by fairs in establishing and operating satellite wagering facilities.

(3) For health and safety repair projects at the fair.

(4) For support purposes of the fair generally.

(j) The remaining 58 percent of the revenues payable to the state from satellite wagering facilities at fairs and all revenues payable to the state from satellite wagering facilities located under the authority of this section at sites other than fairs shall be deposited in the General Fund.

(k) Notwithstanding subdivision (b) of Section 19641, the state shall receive as additional license fees 50 percent of any redistributable money in a parimutuel pool arising from wagers at a satellite wagering facility, subject to payment to a claimant pursuant to Section 19598, but not successfully claimed within that period, and the funds shall be deposited in the General Fund. The remaining 50 percent of redistributable money in a parimutuel pool arising from wagers at a satellite wagering facility shall be paid to a welfare fund established by the horsemen's organization contracting with the association conducting the racing meeting for the benefit of horsemen, and that organization shall make an accounting to the board within one calendar year of the receipt of the payment.

(*l*) Of the total breakage arising in a parimutuel pool which includes wagers at satellite wagering facilities, that percentage of breakage equal to the percentage that wagers placed at satellite wagering facilities constitute of the total parimutuel pool shall be distributed equally among the state as an additional license fee deposited in the General Fund, the track conducting the racing meeting as a commission, and the horsemen participating in the racing meeting in the form of purses. The remainder of the breakage

shall be distributed in the same manner as breakage arising from wagers at the track conducting the racing meeting.

(m) Notwithstanding subdivision (c) of Section 19596.5 and subdivision (d) of this section, if the total revenues from horseracing for deposit in the General Fund for the 1988–89 fiscal year, as determined by the board, do not equal or exceed one hundred fifteen million dollars ($115,000,000), the license fees distributed to the state for all wagers under subdivision (c) of Section 19596.5 and subdivision (d) of this section shall be increased by one-half of 1 percent for meetings commencing after July 1, 1989. The board shall determine if the total revenues from horseracing for deposit in the General Fund during the 1989–90 fiscal year and subsequent fiscal years equal or exceed one hundred fifteen million dollars ($115,000,000), and in fiscal years when that amount is not equaled or exceeded, the license fees distributed to the state for all wagers under subdivision (c) of Section 19596.5 and subdivision (d) of this section shall be increased by one-half of 1 percent for meetings commencing after July 1 of the following fiscal year.

The people of the State of California do enact as follows:

SECTION 1. Title 9.3 (commencing with Section 1297.11) is added to Part 3 of the Code of Civil Procedure, to read:

TITLE 9.3. ARBITRATION AND CONCILIATION OF INTERNATIONAL COMMERCIAL DISPUTES

CHAPTER 1. APPLICATION AND INTERPRETATION

Article 1. Scope of Application

1297.11. This title applies to international commercial arbitration and conciliation, subject to any agreement which is in force between the United States and any other state or states.

1297.12. This title, except Article 2 (commencing with Section 1297.81) of Chapter 2 and Article 3 (commencing with Section 1297.91) of Chapter 2, applies only if the place of arbitration or conciliation is in the State of California.

1297.13. An arbitration or conciliation agreement is international if any of the following applies:

(a) The parties to an arbitration or conciliation agreement have, at the time of the conclusion of that agreement, their places of business in different states.

(b) One of the following places is situated outside the state in which the parties have their places of business:

(iii) The place with which the subject matter of the dispute is most closely connected.

(c) The parties have expressly agreed that the subject matter of the arbitration or conciliation agreement relates to commercial interests in more than one state.

(d) The subject matter of the arbitration or conciliation agreement is otherwise related to commercial interests in more than one state.

1297.14. For the purposes of Section 1297.13, if a party has more than one place of business, the place of business is that which has the closest relationship to the arbitration agreement, and if a party does not have a place of business, reference is to be made to his habitual residence.

1297.15. For the purposes of Section 1297.13, the states of the United States, including the District of Columbia, shall be considered one state.

1297.16. An arbitration or conciliation agreement is commercial if it arises out of a relationship of a commercial nature including, but not limited to, any of the following:

(a) A transaction for the supply or exchange of goods or services.

(b) A distribution agreement.

(c) A commercial representation or agency.

1297.17. This title shall not affect any other law in force in California by virtue of which certain disputes may not be submitted to arbitration or may be submitted to arbitration only in accordance with provisions other than those of this title. Notwithstanding the foregoing, this title supersedes Sections 1280 to 1284.2, inclusive, with respect to international commercial arbitration and conciliation.

Article 2. Interpretation

1297.21. For the purposes of this title:

(a) "Arbitral award" means any decision of the arbitral tribunal on the substance of the dispute submitted to it and includes an interim, interlocutory, or partial arbitral award.

1297.22. Where a provision of this title, except Article 1 (commencing with Section 1297.281) of Chapter 6, leaves the parties free to determine a certain issue, such freedom includes the right of the parties to authorize a third party, including an institution, to make that determination.

1297.23. Where a provision of this title refers to the fact that the

parties have agreed or that they may agree, or in any other way refers to an agreement of the parties, such agreement shall be deemed to include any arbitration or conciliation rules referred to in that agreement.

1297.24. Where this title, other than Article 8 (commencing with Section 1297.251) of Chapter 5, Article 5 (commencing with Section 1297.321) of Chapter 6, or subdivision (a) of Section 1297.322, refers to a claim, it also applies to a counterclaim, and where it refers to a defense, it also applies to a defense to that counterclaim.

Article 3. Receipt of Written Communications

1297.31. Unless otherwise agreed by the parties, any written communication is deemed to have been received if it is delivered to the addressee personally or if it is delivered at his place of business, habitual residence, or mailing address, and the communication is deemed to have been received on the day it is so delivered.

1297.32. If none of the places referred to in Section 1297.31 can be found after making a reasonable inquiry, a written communication is deemed to have been received if it is sent to the addressee's last known place of business, habitual residence, or mailing address by registered mail or by any other means which provides a record of the attempt to deliver it.

1297.33. This article does not apply to written communications in respect of court proceedings.

Article 4. Waiver of Right to Object

1297.41. A party who knows that any provision of this title, or any requirement under the arbitration agreement, has not been complied with and yet proceeds with the arbitration without stating his or her objection to noncompliance without undue delay or, if a time limit is provided for stating that objection, within that period of time, shall be deemed to have waived his right to object.

1297.42. For purposes of Section 1297.41, "any provision of this title" means any provision of this title in respect of which the parties may otherwise agree.

Article 5. Extent of Judicial Intervention

1297.51. In matters governed by this title, no court shall intervene except where so provided in this title, or applicable federal law.

Article 6. Functions

1297.61. The functions referred to in Sections 1297.114, 1297.115, 1297.116, 1297.134, 1297.135, 1297.136, 1297.165, 1297.166, and 1297.167 shall be performed by the superior court of the county in which the place of arbitration is located. The functions referred to in Section

1297.81 shall be performed by the superior court selected pursuant to Article 2 (commencing with Section 1292) of Chapter 5 of Title 9.

CHAPTER 2. ARBITRATION AGREEMENTS AND JUDICIAL MEASURES IN AID OF ARBITRATION

Article 1. Definition and Form of Arbitration Agreements

1297.71. An "arbitration agreement" is an agreement by the parties to submit to arbitration all or certain disputes which have arisen or which may arise between them in respect of a defined legal relationship, whether contractual or not. An arbitration agreement may be in the form of an arbitration clause in a contract or in the form of a separate agreement.

1297.72. An arbitration agreement shall be in writing. An agreement is in writing if it is contained in a document signed by the parties or in an exchange of letters, telex, telegrams, or other means of telecommunication which provide a record of this agreement, or in an exchange of statements of claim and defense in which the existence of an agreement is alleged by one party and not denied by another. The reference in a contract to a document containing an arbitration clause constitutes an arbitration agreement provided that the contract is in writing and the reference is such as to make that clause part of the contract.

Article 2. Stay of Proceedings

1297.81. When a party to an international commercial arbitration agreement as defined in this title commences judicial proceedings seeking relief with respect to a matter covered by the agreement to arbitrate, any other party to the agreement may apply to the superior court for an order to stay the proceedings and to compel arbitration.

1297.82. A timely request for a stay of judicial proceedings made under Section 1297.81 shall be granted.

Article 3. Interim Measures

1297.91. It is not incompatible with an arbitration agreement for a party to request from a superior court, before or during arbitral proceedings, an interim measure of protection, or for the court to grant such a measure.

1297.92. Any party to an arbitration governed by this title may request from the superior court enforcement of an award of an arbitral tribunal to take any interim measure of protection of an arbitral tribunal pursuant to Article 2 (commencing with Section 1297.171) of Chapter 4. Enforcement shall be granted pursuant to the law applicable to the granting of the type of interim relief requested.

1297.93. Measures which the court may grant in connection with a pending arbitration include, but are not limited to:

(a) An order of attachment issued to assure that the award to which applicant may be entitled is not rendered ineffectual by the dissipation of party assets.

(b) A preliminary injunction granted in order to protect trade secrets or to conserve goods which are the subject matter of the arbitral dispute.

1297.94. In considering a request for interim relief, the court shall give preclusive effect to any and all findings of fact of the arbitral tribunal including the probable validity of the claim which is the subject of the award for interim relief and which the arbitral tribunal has previously granted in the proceeding in question, provided that such interim award is consistent with public policy.

1297.95. Where the arbitral tribunal has not ruled on an objection to its jurisdiction, the court shall not grant preclusive effect to the tribunal's findings until the court has made an independent finding as to the jurisdiction of the arbitral tribunal. If the court rules that the arbitral tribunal did not have jurisdiction, the application for interim measures of relief shall be denied. Such a ruling by the court that the arbitral tribunal lacks jurisdiction is not binding on the arbitral tribunal or subsequent judicial proceeding.

CHAPTER 3. COMPOSITION OF ARBITRAL TRIBUNALS

Article 1. Number of Arbitrators

1297.101. The parties may agree on the number of arbitrators. Otherwise, there shall be one arbitrator.

Article 2. Appointment of Arbitrators

1297.111. A person of any nationality may be an arbitrator.

1297.112. Subject to Sections 1297.115 and 1297.116, the parties may agree on a procedure for appointing the arbitral tribunal.

1297.113. Failing such agreement referred to in Section 1297.112, in an arbitration with three arbitrators and two parties, each party shall appoint one arbitrator, and the two appointed arbitrators shall appoint the third arbitrator.

1297.114. If the appointment procedure in Section 1297.113 applies and either a party fails to appoint an arbitrator within 30 days after receipt of a request to do so from the other party, or the two appointed arbitrators fail to agree on the third arbitrator within 30 days after their appointment, the appointment shall be made, upon request of a party, by the superior court.

1297.115. Failing any agreement referred to in Section 1297.112, in an arbitration with a sole arbitrator, if the parties fail to agree on the arbitrator, the appointment shall be made, upon request of a party, by the superior court.

1297.116. The superior court, upon the request of a party, may take the necessary measures, unless the agreement on the appointment procedure provides other means for securing the appointment, where, under an appointment procedure agreed upon by the parties, any of the following occurs:

(a) A party fails to act as required under that procedure.

(b) The parties, or two appointed arbitrators, fail to reach an agreement expected of them under that procedure.

(c) A third party, including an institution, fails to perform any function entrusted to it under that procedure.

1297.117. A decision on a matter entrusted to the superior court pursuant to Sections 1297.114, 127.115, and 1297.116 is final and is not subject to appeal.

1297.118. The superior court, in appointing an arbitrator, shall have due regard to all of the following:

(a) Any qualifications required of the arbitrator by the agreement of the parties.

(b) Other considerations as are likely to secure the appointment of an independent and impartial arbitrator.

(c) In the case of a sole or third arbitrator, the advisability of appointing an arbitrator of a nationality other than those of the parties.

Article 3. Grounds for Challenge

1297.121. Except as otherwise provided in this title, all persons whose names have been submitted for consideration for appointment or designation as arbitrators or conciliators, or who have been appointed or designated as such, shall, within 15 days, make a disclosure to the parties of any information which might cause their impartiality to be questioned including, but not limited to, any of the following instances:

(a) The person has a personal bias or prejudice concerning a party, or personal knowledge of disputed evidentiary facts concerning the proceeding.

(b) The person served as a lawyer in the matter in controversy, or the person is or has been associated with another who has participated in the matter during such association, or he or she has been a material witness concerning it.

(c) The person served as an arbitrator or conciliator in another proceeding involving one or more of the parties to the proceeding.

(d) The person, individually or a fiduciary, or such person's spouse or minor child residing in such person's household, has a financial interest in the subject matter in controversy or in a party to the proceeding, or any other interest that could be substantially affected by the outcome of the proceeding.

(e) The person, his or her spouse, or a person within the third degree of relationship to either of them, or the spouse of such a person meets any of the following conditions:

(i) The person is or has been a party to the proceeding, or an officer, director, or trustee of a party.

(ii) The person is acting or has *acted* as a lawyer in the proceeding.

(iii) The person is known to have an interest that could be substantially affected by the outcome of the proceeding.

(iv) The person is likely to be a material witness in the proceeding.

(f) The person has a close personal or professional relationship with a person who meets any of the following conditions:

(i) The person is or has been a party to the proceeding, or an officer, director, or trustee of a party.

(ii) The person is acting or has acted as a lawyer or representative in the proceeding.

(iii) The person is or expects to be nominated as an arbitrator or conciliator in the proceedings.

(iv) The person is known to have an interest that could be substantially affected by the outcome of the proceeding.

(v) The person is likely to be a material witness in the proceeding.

1297.122. The obligation to disclose information set forth in Section 1297.121 is mandatory and cannot be waived as to the parties with respect to persons serving either as the sole arbitrator or sole conciliator or as the chief or prevailing arbitrator or conciliator. The parties may otherwise agree to waive such disclosure.

1297.123. From the time of appointment and throughout the arbitral proceedings, an arbitrator, shall, without delay, disclose to the parties any circumstances referred to in Section 1297.121 which were not previously disclosed.

1297.124. Unless otherwise agreed by the parties or the rules governing the arbitration, an arbitrator may be challenged only if circumstances exist that give rise to justifiable doubts as to his or her independence or impartiality, or as to his or her possession of the qualifications upon which the parties have agreed.

1297.125. A party may challenge an arbitrator appointed by it, or in whose appointment it has participated, only for reasons of which it becomes aware after the appointment has been made.

Article 4. Challenge Procedure

1297.131. The parties may agree on a procedure for challenging an arbitrator and the decision reached pursuant to that procedure shall be final.

1297.132. Failing any agreement referred to in Section 1297.131, a party which intends to challenge an arbitrator shall, within 15 days after becoming aware of the constitution of the arbitral tribunal or after becoming aware of any circumstances referred to in Sections 1297.124 and 1297.125, whichever shall be later, send a written statement of the reasons for the challenge to the arbitral tribunal.

1297.133. Unless the arbitrator challenged under Section 1297.132

withdraws from his or her office or the other party agrees to the challenge, the arbitral tribunal shall decide on the challenge.

1297.134. If a challenge following the procedure under Section 1297.133 is not successful, the challenging party may request the superior court, within 30 days after having received notice of the decision rejecting the challenge, to decide on the challenge. If a challenge is based upon the grounds set forth in Section 1297.121, and the superior court determines that the facts support a finding that such ground or grounds fairly exist, then the challenge should be sustained.

1297.135. The decision of the superior court under Section 1297.134 is final and is not subject to appeal.

1297.136. While a request under Section 1297.134 is pending, the arbitral tribunal, including the challenged arbitrator, may continue with the arbitral proceedings and make an arbitral award.

Article 5. Failure or Impossibility to Act

1297.141. The mandate of an arbitrator terminates if he becomes de jure or de facto unable to perform his or her functions or for other reasons fails to act without undue delay, and he withdraws from his or her office or the parties agree to the termination of his or her mandate.

1297.142. If a controversy remains concerning any of the grounds referred to in Section 1297.141, a party may request the superior court to decide on the termination of the mandate.

1297.143. A decision of the superior court under Section 1297.142 is not subject to appeal.

1297.144. If, under this section or Section 1297.132, an arbitrator withdraws from office or a party agrees to the termination of the mandate of an arbitrator, this does not imply acceptance of the validity of any ground referred to in Section 1297.132.

Article 6. Termination of Mandate and Substitution of Arbitrators

1297.151. In addition to the circumstances referred to under Article 4 (commencing with Section 1297.131) and Article 5 (commencing with Section 1297.141) of this chapter, the mandate of an arbitrator terminates upon his or her withdrawal from office for any reason, or by or pursuant to agreement of the parties.

1297.152. Where the mandate of an arbitrator terminates, a substitute arbitrator shall be appointed according to the rules that were applicable to the appointment of the arbitrator being replaced.

1297.153. Unless otherwise agreed by the parties:

(a) Where the sole or presiding arbitrator is replaced, any hearings previously held shall be repeated.

(b) Where an arbitrator other than the sole or presiding arbitrator is replaced, any hearings previously held may be repeated at the

discretion of the arbitral tribunal.

1297.154. Unless otherwise agreed by the parties, an order or ruling of the arbitral tribunal made prior to the replacement of an arbitrator under this section is not invalid because there has been a change in the composition of the tribunal.

CHAPTER 4. JURISDICTION OF ARBITRAL TRIBUNALS

Article 1. Competence of an Arbitral Tribunal to Rule on its Jurisdiction

1297.161. The arbitral tribunal may rule on its own jurisdiction, including ruling on any objections with respect to the existence or validity of the arbitration agreement, and for that purpose, an arbitration clause which forms part of a contract shall be treated as an agreement independent of the other terms of the contract, and a decision by the arbitral tribunal that the contract is null and void shall not entail ipso jure the invalidity of the arbitration clause.

1297.162. A plea that the arbitral tribunal does not have jurisdiction shall be raised not later than the submission of the statement of defense. However, a party is not precluded from raising such a plea by the fact that he or she has appointed, or participated in the appointment of, an arbitrator.

1297.163. A plea that the arbitral tribunal is exceeding the scope of its authority shall be raised as soon as the matter alleged to be beyond the scope of its authority is raised during the arbitral proceedings.

1297.164. The arbitral tribunal may, in either of the cases referred to in Sections 1297.162 and 1297.163, admit a later plea if it considers the delay justified.

1297.165. The arbitral tribunal may rule on a plea referred to in Sections 1297.162 and 1297.163 either as a preliminary question or in an award on the merits.

1297.166. If the arbitral tribunal rules as a preliminary question that it has jurisdiction, any party shall request the superior court, within 30 days after having received notice of that ruling, to decide the matter or shall be deemed to have waived objection to such finding.

1297.167. While a request under Section 1297.166 is pending, the arbitral tribunal may continue with the arbitral proceedings and make an arbitral award.

Article 2. Interim Measures Ordered by Arbitral Tribunals

1297.171. Unless otherwise agreed by the parties, the arbitral tribunal may, at the request of a party, order a party to take any interim measure of protection as the arbitral tribunal may consider necessary in respect of the subject matter of the dispute.

1297.172. The arbitral tribunal may require a party to provide

appropriate security in connection with a measure ordered under Section 1297.171.

CHAPTER 5. MANNER AND CONDUCT OF ARBITRATION

Article 1. Equal Treatment of Parties

1297.181. The parties shall be treated with equality and each party shall be given a full opportunity to present his or her case.

Article 2. Determination of Rules of Procedure

1297.191. Subject to this title, the parties may agree on the procedure to be followed by the arbitral tribunal in conducting the proceedings.

1297.192. Failing any agreement referred to in Section 1297.191, the arbitral tribunal may, subject to this title, conduct the arbitration in the manner it considers appropriate.

1297.193. The power of the arbitral tribunal under Section 1297.192 includes the power to determine the admissibility, relevance, materiality, and weight of any evidence.

Article 3. Place of Arbitration

1297.201. The parties may agree on the place of arbitration.

1297.202. Failing any agreement referred to in Section 1297.201, the place of arbitration shall be determined by the arbitral tribunal having regard to the circumstances of the case, including the convenience of the parties.

1297.203. Notwithstanding Section 1297.201, the arbitral tribunal may, unless otherwise agreed by the parties, meet at any place it considers appropriate for consultation among its members, for hearing witnesses, experts, or the parties, or for inspection of documents, goods, or other property.

Article 4. Commencement of Arbitral Proceedings

1297.211. Unless otherwise agreed by the parties, the arbitral proceedings in respect of a particular dispute commence on the date on which a request for that dispute to be referred to arbitration is received by the respondent.

Article 5. Language

1297.221. The parties may agree upon the language or languages to be used in the arbitral proceedings.

1297.222. Failing any agreement referred to in Section 1297.221, the arbitral tribunal shall determine the language or languages to be used in the arbitral proceedings.

1297.223. The agreement or determination, unless otherwise specified, shall apply to any written statement by a party, any hearing, and any arbitral award, decision, or other communication by the arbitral tribunal.

1297.224. The arbitral tribunal may order that any documentary evidence shall be accompanied by a translation into the language or languages agreed upon by the parties or determined by the arbitral tribunal.

Article 6. Statements of Claim and Defense

1297.231. Within the period of time agreed upon by the parties or determined by the arbitral tribunal, the claimant shall state the facts supporting his or her claim, the points at issue, and the relief or remedy sought, and the respondent shall state his or her defense in respect of these particulars, unless the parties have otherwise agreed as to the required elements of those statements.

1297.232. The parties may submit with their statements all documents they consider to be relevant or may add a reference to the documents or other evidence they will submit.

1297.233. Unless otherwise agreed by the parties, either party may amend or supplement his or her claim or defense during the course of the arbitral proceedings, unless the arbitral tribunal considers it inappropriate to allow the amendment or supplement having regard to the delay in making it.

Article 7. Hearings and Written Proceedings

1297.241. Unless otherwise agreed by the parties, the arbitral tribunal shall decide whether to hold oral hearings for the presentation of evidence or for oral argument, or whether the proceedings shall be conducted on the basis of documents and other materials.

1297.242. Unless the parties have agreed that no oral hearings shall be held, the arbitral tribunal shall hold oral hearings at an appropriate state of the proceedings, if so requested by a party.

1297.243. The parties shall be given sufficient advance notice of any hearing and of any meeting of the arbitral tribunal for the purpose of inspection of documents, goods, or other property.

1297.244. All statements, documents, or other information supplied to, or applications made to, the arbitral tribunal by one party shall be communicated to the other party, and any expert report or evidentiary document on which the arbitral tribunal may rely in making its decision shall be communicated to the parties.

1297.245. Unless otherwise agreed by the parties, all oral hearings and meetings in arbitral proceedings shall be held in camera.

Article 8. Default of a Party

1297.251. Unless otherwise agreed by the parties, where, without showing sufficient cause, the claimant fails to communicate his or her statement of claim in accordance with Sections 1297.231 and 1297.232, the arbitral tribunal shall terminate the proceedings.

1297.252. Unless otherwise agreed by the parties, where, without showing sufficient cause, the respondent fails to communicate his or her statement of defense in accordance with Sections 1297.231 and 1297.232, the arbitral tribunal shall continue the proceedings without treating that failure in itself as an admission of the claimant's allegations.

1297.253. Unless otherwise agreed by the parties, where, without showing sufficient cause, a party fails to appear at an oral hearing or to produce documentary evidence, the arbitral tribunal may continue with the proceedings and make the arbitral award on the evidence before it.

Article 9. Expert Appointed by Arbitral Tribunal

1297.261. Unless otherwise agreed by the parties, the arbitral tribunal may appoint one or more experts to report to it on specific issues to be determined by the arbitral tribunal, and require a party to give the expert any relevant information or to produce, or to provide access to, any relevant documents, goods, or other property for his or her inspection.

1297.262. Unless otherwise agreed by the parties, if a party so requests or if the arbitral tribunal considers it necessary, the expert shall, after delivery of his or her written or oral report, participate in an oral hearing where the parties have the opportunity to question the expert and to present expert witnesses on the points at issue.

Article 10. Court Assistance in Taking Evidence and Consolidating Arbitrations

1297.271. The arbitral tribunal, or a party with the approval of the arbitral tribunal, may request from the superior court assistance in taking evidence and the court may execute the request within its competence and according to its rules on taking evidence. In addition, a subpoena may issue as provided in Section 1282.6, in which case the witness compensation provisions of Section 1283.2 shall apply.

1297.272. Where the parties to two or more arbitration agreements have agreed, in their respective arbitration agreements or otherwise, to consolidate the arbitrations arising out of those arbitration agreements, the superior court may, on application by one party with the consent of all the other parties to those arbitration agreements, do one or more of the following:

(a) Order the arbitrations to be consolidated on terms the court

considers just and necessary.

(b) Where all the parties cannot agree on an arbitral tribunal for the consolidated arbitration, appoint an arbitral tribunal in accordance with Section 1297.118.

(c) Where all the parties cannot agree on any other matter necessary to conduct the consolidated arbitration, make any other order it considers necessary.

1297.273. Nothing in this article shall be construed to prevent the parties to two or more arbitrations from agreeing to consolidate those arbitrations and taking any steps that are necessary to effect that consolidation.

CHAPTER 6. MAKING OF ARBITRAL AWARD AND TERMINATION OF PROCEEDINGS

Article 1. Rules Applicable to Substance of Dispute

1297.281. The arbitral tribunal shall decide the dispute in accordance with the rules of law designated by the parties as applicable to the substance of the dispute.

1297.282. Any designation by the parties of the law or legal system of a given state shall be construed, unless otherwise expressed, as directly referring to the substantive law of that state and not to its conflict of laws rules.

1297.283. Failing any designation of the law under Section 1297.282 by the parties, the arbitral tribunal shall apply the rules of law it considers to be appropriate given all the circumstances surrounding the dispute.

1297.284. The arbitral tribunal shall decide ex aequo et bono or as amiable compositeur, if the parties have expressly authorized it to do so.

1297.285. In all cases, the arbitral tribunal shall decide in accordance with the terms of the contract and shall take into account the usages of the trade applicable to the transaction.

Article 2. Decisionmaking by Panel of Arbitrators

1297.291. Unless otherwise agreed by the parties, in arbitral proceedings with more than one arbitrator, any decision of the arbitral tribunal shall be made by a majority of all of its members.

Notwithstanding this section, if authorized by the parties or all the members of the arbitral tribunal, questions of procedure may be decided by a presiding arbitrator.

Article 3. Settlement

1297.301. It is not incompatible with an arbitration agreement for an arbitral tribunal to encourage settlement of the dispute and, with the agreement of the parties, the arbitral tribunal may use

mediation, conciliation, or other procedures at any time during the arbitral proceedings to encourage settlement.

1297.302. If, during arbitral proceedings, the parties settle the dispute, the arbitral tribunal shall terminate the proceedings and, if requested by the parties and not objected to by the arbitral tribunal, record the settlement in the form of an arbitral award on agreed terms.

1297.303. An arbitral award on agreed terms shall be made in accordance with Article 4 (commencing with Section 1297.311) of this chapter and shall state that it is an arbitral award.

1297.304. An arbitral award on agreed terms has the same status and effect as any other arbitral award on the substance of the dispute.

Article 4. Form and Content of Arbitral Award

1297.311. An arbitral award shall be made in writing and shall be signed by the members of the arbitral tribunal.

1297.312. For the purposes of Section 1297.311, in arbitral proceedings with more than one arbitrator, the signatures of the majority of all the members of the arbitral tribunal shall be sufficient so long as the reason for any omitted signature is stated.

1297.313. The arbitral award shall state the reasons upon which it is based, unless the parties have agreed that no reasons are to be given, or the award is an arbitral award on agreed terms under Article 3 (commencing with Section 1297.301) of this chapter.

1297.314. The arbitral award shall state its date and the place of arbitration as determined in accordance with Article 3 (commencing with Section 1297.201) of Chapter 5 and the award shall be deemed to have been made at that place.

1297.315. After the arbitral award is made, a signed copy shall be delivered to each party.

1297.316. The arbitral tribunal may, at any time during the arbitral proceedings, make an interim arbitral award on any matter with respect to which it may make a final arbitral award. The interim award may be enforced in the same manner as a final arbitral award.

1297.317. Unless otherwise agreed by the parties, the arbitral tribunal may award interest.

1297.318. (a) Unless otherwise agreed by the parties, the costs of an arbitration shall be at the discretion of the arbitral tribunal.

(b) In making an order for costs, the arbitral tribunal may include as costs any of the following:

(1) The fees and expenses of the arbitrators and expert witnesses.

(2) Legal fees and expenses.

(3) Any administration fees of the institution supervising the arbitration, if any.

(1) The party entitled to costs.
(2) The party who shall pay the costs.
(3) The amount of costs or method of determining that amount.
(4) The manner in which the costs shall be paid.

Article 5. Termination of Proceedings

1297.321. The arbitral proceedings are terminated by the final arbitral award or by an order of the arbitral tribunal under Section 1297.322. The award shall be final upon the expiration of the applicable periods in Article 6 (commencing with Section 1297.331) of this chapter.

1297.322. The arbitral tribunal shall issue an order for the termination of the arbitral proceedings where any of the following occurs:

(a) The claimant withdraws his or her claim, unless the respondent objects to the order and the arbitral tribunal recognizes a legitimate interest on the respondent's part in obtaining a final settlement of the dispute.

(b) The parties agree on the termination of the proceedings.

(c) The arbitral tribunal finds that the continuation of the proceedings has for any other reason become unnecessary or impossible.

1297.323. Subject to Article 6 (commencing with Section 1297.331) of this chapter, the mandate of the arbitral tribunal terminates with the termination of the arbitral proceedings.

Article 6. Correction and Interpretation of Awards and Additional Awards

1297.331. Within 30 days after receipt of the arbitral award, unless another period of time has been agreed upon by the parties:

(a) A party may request the arbitral tribunal to correct in the arbitral award any computation errors, any clerical or typographical errors, or any other errors of a similar nature.

(b) A party may, if agreed by the parties, request the arbitral tribunal to give an interpretation of a specific point or part of the arbitral award.

1297.332. If the arbitral tribunal considers any request made under Section 1297.331 to be justified, it shall make the correction or give the interpretation within 30 days after receipt of the request and the interpretation shall form part of the arbitral award.

1297.333. The arbitral tribunal may correct any error of the type referred to in subdivision (a) of Section 1297.331, on its own initiative, within 30 days after the date of the arbitral award.

1297.334. Unless otherwise agreed by the parties, a party may request, within 30 days after receipt of the arbitral award, the arbitral tribunal to make an additional arbitral award as to the claims presented in the arbitral proceedings but omitted from the arbitral

award.

1297.335. If the arbitral tribunal considers any request made under Section 1297.334 to be justified, it shall make the additional arbitral award within 60 days after receipt of the request.

1297.336. The arbitral tribunal may extend, if necessary, the period of time within which it shall make a correction, give an interpretation, or make an additional arbitral award under Section 1297.331 or 1297.334.

1297.337. Article 4 (commencing with Section 1297.311) of this chapter applies to a correction or interpretation of the arbitral award or to an additional arbitral award made under this section.

CHAPTER 7. CONCILIATION

Article 1. Appointment of Conciliators

1297.341. It is the policy of the State of California to encourage parties to an international commercial agreement or transaction which qualifies for arbitration or conciliation pursuant to Section 1297.13, to resolve disputes arising from such agreements or transactions through conciliation. The parties may select or permit an arbitral tribunal or other third party to select one or more persons to serve as the conciliator or conciliators who shall assist the parties in an independent and impartial manner in their attempt to reach an amicable settlement of their dispute.

1297.342. The conciliator or conciliators shall be guided by principles of objectivity, fairness, and justice, giving consideration to, among other things, the rights and obligations of the parties, the usages of the trade concerned and the circumstances surrounding the dispute, including any previous practices between the parties.

1297.343. The conciliator or conciliators may conduct the conciliation proceedings in such a manner as they consider appropriate, taking into account the circumstances of the case, the wishes of the parties, and the desirability of a speedy settlement of the dispute. Except as otherwise provided in this title, other provisions of this code, the Evidence Code, or the California Rules of Court, shall not apply to conciliation proceedings brought under this title.

Article 2. Representation and Assistance

1297.351. The parties may appear in person or be represented or assisted by any person of their choice. A person assisting or representing a party need not be a member of the legal profession or licensed to practice law in California.

Article 3. Report of Conciliators

1297.361. At any time during the proceedings, the conciliator or conciliators may prepare a draft conciliation settlement which may include the assessment and apportionment of costs between the parties, and send copies to the parties, specifying the time within which they must signify their approval.

1297.362. No party may be required to accept any settlement proposed by the conciliator or conciliators.

Article 4. Confidentiality

1297.371. When persons agree to participate in conciliation under this title:

(a) Evidence of anything said or of any admission made in the course of the conciliation is not admissible in evidence, and disclosure of any such evidence shall not be compelled, in any civil action in which, pursuant to law, testimony may be compelled to be given. However, this subdivision does not limit the admissibility of evidence if all parties participating in conciliation consent to its disclosure.

(b) In the event that any such evidence is offered in contravention of this section, the arbitration tribunal or the court shall make any order which it considers to be appropriate to deal with the matter, including, without limitation, orders restricting the introduction of evidence, or dismissing the case without prejudice.

(c) Unless the document otherwise provides, no document prepared for the purpose of, or in the course of, or pursuant to, the conciliation, or any copy thereof, is admissible in evidence, and disclosure of any such document shall not be compelled, in any arbitration or civil action in which, pursuant to law, testimony may be compelled to be given.

Article 5. Stay of Arbitration and Resort to Other Proceedings

1297.381. The agreement of the parties to submit a dispute to conciliation shall be deemed an agreement between or among those parties to stay all judicial or arbitral proceedings from the commencement of conciliation until the termination of conciliation proceedings.

1297.382. All applicable limitation periods including periods of prescription shall be tolled or extended upon the commencement of conciliation proceedings to conciliate a dispute under this title and all limitation periods shall remain tolled and periods of prescription extended as to all parties to the conciliation proceedings until the 10th day following the termination of conciliation proceedings. For purposes of this article, conciliation proceedings are deemed to have commenced as soon as (a) a party has requested conciliation of a particular dispute or disputes, and (b) the other party or parties

agree to participate in the conciliation proceeding.

Article 6. Termination

1297.391. The conciliation proceedings may be terminated as to all parties by any of the following:

(a) A written declaration of the conciliator or conciliators, after consultation with the parties, to the effect that further efforts at conciliation are no longer justified, on the date of the declaration.

(b) A written declaration of the parties addressed to the conciliator or conciliators to the effect that the conciliation proceedings are terminated, on the date of the declaration.

(c) The signing of a settlement agreement by all of the parties, on the date of the agreement.

1297.392. The conciliation proceedings may be terminated as to particular parties by either of the following:

(a) A written declaration of a party to the other party and the conciliator or conciliators, if appointed, to the effect that the conciliation proceedings shall be terminated as to that particular party, on the date of the declaration.

(b) The signing of a settlement agreement by some of the parties, on the date of the agreement.

1297.393. No person who has served as conciliator may be appointed as an arbitrator for, or take part in any arbitral or judicial proceedings in, the same dispute unless all parties manifest their consent to such participation or the rules adopted for conciliation or arbitration otherwise provide.

1297.394. By submitting to conciliation, no party shall be deemed to have waived any rights or remedies which that party would have had if conciliation had not been initiated, other than those set forth in any settlement agreement which results from the conciliation.

Article 7. Enforceability of Decree

1297.401. If the conciliation succeeds in settling the dispute, and the result of the conciliation is reduced to writing and signed by the conciliator or conciliators and the parties or their representatives, the written agreement shall be treated as an arbitral award rendered by an arbitral tribunal duly constituted in and pursuant to the laws of this state, and shall have the same force and effect as a final award in arbitration.

Article 8. Costs

1297.411. Upon termination of the conciliation proceedings, the conciliator shall fix the costs of the conciliation and give written notice thereof to the parties. As used in this article, "costs" includes only the following:

(a) A reasonable fee to be paid to the conciliator or conciliators.

(b) The travel and other reasonable expenses of the conciliator or conciliators.

(c) The travel and other reasonable expenses of witnesses requested by the conciliator or conciliators with the consent of the parties.

(d) The cost of any expert advice requested by the conciliator or conciliators with the consent of the parties.

(e) The cost of any court.

1297.412. These costs shall be borne equally by the parties unless the settlement agreement provides for a different apportionment. All other expenses incurred by a party shall be borne by that party.

Article 9. Effect on Jurisdiction

1297.421. Neither the request for conciliation, the consent to participate in the conciliation proceedings, the participation in such proceedings, nor the entering into a conciliation agreement or settlement shall be deemed as consent to the jurisdiction of any court in this state in the event conciliation fails.

Article 10. Immunity of Conciliators and Parties

1297.431. Neither the conciliator or conciliators, the parties, nor their representatives shall be subject to service of process on any civil matter while they are present in this state for the purpose of arranging for or participating in conciliation pursuant to this title.

1297.432. No person who serves as a conciliator shall be held liable in an action for damages resulting from any act or omission in the performance of his or her role as a conciliator in any proceeding subject to this title.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to reduce the unnecessary burden on the courts, and the resulting delay in the resolution of international commercial disputes, it is necessary that this act take effect immediately.

CHAPTER 24

An act to amend Sections 14524, 14525, and 14529 of, to add Sections 14524.15, 14525.5, 14529.2, and 14533.1 to, to repeal and add Section 14529.6 of, and to repeal Section 14524.1 of, the Government Code, and to add Sections 170.5 and 182.5 to, and to add Article 4.3 (commencing with Section 163) to Chapter 1 of Division 1 of, and Chapter 16 (commencing with Section 2600) and Chapter 17 (commencing with Section 2700) to Division 3 of, the Streets and Highways Code, relating to transportation, providing the funds necessary therefor through the issuance and sale of bonds of the State of California and providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 11, 1988 Filed with Secretary of State March 14, 1988]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Deddeh Transportation Improvement and Reform Act.

SEC. 2. (a) The Legislature makes the following findings and declarations:

(1) An efficient transportation infrastructure is vital to the economic well-being of the state and is essential for the daily activities of all the people.

(2) Current resources are not adequate to meet the growing needs for the maintenance, operation, and improvement of the state's transportation infrastructure.

(3) Transportation infrastructure is within the state budget's highest priority category and should maintain its pro rata share of the appropriations limit under Article XIII B of the California Constitution.

(4) Responsibility for providing a better transportation system is a joint venture of federal, state, and local governments and the private sector.

(5) Transportation projects require years of advance planning before being implemented, and the long-range project development work cannot proceed without a long-range financial commitment.

(6) An increasing number of transportation projects call for joint financing by state and local governments as well as by the private sector.

(7) The state's role in financing transportation projects needs to be defined so that local governments can better plan and manage their growth patterns and better assess their financial needs.

(8) User fee revenues have not kept up with inflation; the average annual gas tax revenue generated by a car in 1973 was $53.42, compared to the average annual gas tax revenue generated by a car in 1984 of only $21.37 in 1973 dollars.

(9) With the state's population projected to grow by about six million by the year 2000, preparing the transportation infrastructure for the year 2000 will require major resource commitments by the people of the state.

(10) Financing transportation programs through user fees is an equitable and efficient method of financing and should be the primary source of funding for transportation.

(11) Due to the enormous costs and the long-range benefits of many transportation projects, bonds should be used to augment and stabilize the transportation program.

(b) Therefore, it is the intention of the Legislature, through the enactment of this act:

(1) To develop a long-range financial commitment for transportation.

(2) To reform transportation planning and programming procedures and to delineate state and local transportation responsibilities and to provide additional financial resources.

(c) It is the further intent of the Legislature that any debt incurred as a result of the adoption by the voters of the Deddeh Transportation Bond Act (Chapter 17 (commencing with Section 2700) of Division 3 of the Streets and Highways Code) be retired as soon as feasible so as to minimize the interest cost of the debt to the citizens of the State of California.

SEC. 3. Section 14524 of the Government Code is amended to read:

14524. Not later than October 15 of each year, the department shall submit to the commission a recommended annual and five-year estimate of all federal and state funds available for transportation purposes in order that the commission may provide estimates pursuant to Section 14525.

The estimate shall be on the basis of state transportation districts, and the boundaries of the transportation planning agencies and county transportation commissions in urbanized areas over 50,000 in population. The method by which the estimate is arrived at, including the way in which state discretionary funds are to be estimated, shall be determined by the commission in consultation with the department, the transportation planning agencies, and the county transportation commissions. The estimate shall not include federal discretionary grants or funds.

The estimate shall be consistent with the financial plan specified in Section 164 of the Streets and Highways Code, and the estimated total of all state and federal funds available for each program category for each fiscal year shall not exceed the amounts specified in Section 164 of the Streets and Highways Code.

SEC. 4. Section 14524.1 of the Government Code, as added by Chapter 9 of the Statutes of 1988, is repealed.

SEC. 5. Section 14524.15 is added to the Government Code, to read:

14524.15. (a) Not later than November 15 of each year, the

department shall submit to the appropriate fiscal and policy committees of the Legislature, and to the Joint Legislative Budget Committee, a project delivery plan based on the state transportation improvement program adopted by the commission pursuant to Section 14529 on or before the preceding July 1. The plan shall consist of all of the following:

(1) The capital outlay project development staffing needs of the department in the next fiscal year necessary to deliver the adopted state transportation improvement program and any new funding capacity as indicated in the adopted funding estimate for the subsequent state transportation improvement program period, including projects to be advanced.

(2) Beginning with the plan due on November 15, 1990, the department shall reconcile the capital outlay project development staffing estimates made in previous plans with staffing actually available and the staffing actually required to perform the identified work for the state transportation improvement program.

(3) A determination of that portion of the project development workload developed pursuant to subdivision (a) that is proposed to be accomplished by the department's project development staff and that portion that is proposed by the department to be accomplished by contract for professional and technical services.

(b) The Legislative Analyst shall include its assessment of the department's project delivery plan in its annual analysis of the Governor's proposed budget. This assessment shall include each of the following:

(1) An analysis of the progress the department has made in the prior year toward delivering projects as scheduled in the adopted state transportation improvement program.

(2) An overall assessment of the plan's adequacy in ensuring that all federal, state, local, and private funds are used in a timely and efficient manner with a minimum of project delays.

(3) The Legislative Analyst's recommendations, if any, for improving the project delivery performance.

(4) The extent to which the department continues to meet its affirmative action goals for project development staff, including those personnel year equivalents contracted out pursuant to Article 2.5 (commencing with Section 14130) of Chapter 2 of Part 5.

(5) The extent to which the department has met the minority and women business enterprise goals established pursuant to that article.

(c) Beginning on January 1, 1989, and on January 1 of each year thereafter, the department shall report to the Governor and the Legislature on the level of participation by minority and women business enterprises in contracting pursuant to this article. If the established goals are not met, the department shall report the reasons for its inability to achieve the standards and identify remedial steps it shall take.

(d) Not later than March 1 of each year, the department shall submit to the appropriate fiscal and policy committees of the

Legislature, and to the Joint Legislative Budget Committee, a revised project delivery plan which shall be the project delivery plan submitted pursuant to subdivision (a) updated to reflect the fund estimate provided the commission pursuant to Section 14524.

SEC. 6. Section 14525 of the Government Code is amended to read:

14525. Not later than November 15 of each year, the commission shall adopt and provide, to the transportation planning agencies and county transportation commissions, an annual and five-year estimate of all state and federal funds reasonably expected to be available to each region for transportation purposes.

The commission may amend the estimate following consultation with the department, transportation planning agencies, and county transportation commissions to account for unexpected revenues or other unforeseen circumstances.

The estimate shall be consistent with the financial plan specified in Section 164 of the Streets and Highways Code, and the estimated total of all state and federal funds available for each program category for each fiscal year shall not exceed the amounts specified in Section 164 of the Streets and Highways Code.

SEC. 7. Section 14525.5 is added to the Government Code, to read:

14525.5. (a) The department shall submit a project delivery report to the Governor and the Legislature not later than November 15, 1988, and not later than November 15 of each year thereafter. The report shall include all state highway projects that are included in the adopted state transportation improvement program costing one million dollars ($1,000,000) or more and for which the department is the responsible agency for project development work.

(b) For each of these projects, the report shall identify the following milestone dates by month and year:

(1) Commencement of the environmental process.

(2) Commencement of the circulation of the draft environmental documents.

(3) Final approval of the environmental documents.

(4) Commencement of work on the plans, specifications, and estimates.

(5) Approval of the plans, specifications, and estimates by the department headquarters.

(6) Project delivery, as defined in subdivision (b) of Section 14529.

(c) For the federal fiscal year ending September 30, 1988, and each year thereafter, the report shall identify the number of these projects which were to have passed one or more of these six milestone dates where the department was able to meet these milestones. The report shall also identify each project where the department failed to meet one or more milestones. For each of those projects, the report shall identify the specific circumstances resulting in the delay, and present a plan to resolve any problems and a new schedule for delivery.

SEC. 8. Section 14529 of the Government Code is amended to read:

14529. (a) After taking into consideration the existing adopted state transportation improvement program, the proposed state transportation improvement program submitted by the department pursuant to Section 14526, the regional transportation improvement programs submitted pursuant to Section 14527, and comments submitted pursuant to Section 14528, through the use of public hearings, the commission shall adopt and submit to the Legislature and Governor by July 1 of each year, a five-year state transportation improvement program including all funds to be allocated by the commission consisting of:

(1) The estimate of available funds from state and federal sources and associated constraints for transportation improvement in the state.

(2) All major projects, as determined by the commission, to be funded from state transportation funds allocated by the commission during the succeeding five fiscal years. For any highway project that will not be completed within the five-year period, the commission shall estimate the amount, and identify the source, of funds required to complete the project and the expected completion date.

(3) A summary of expenditures for minor projects, as determined by the commission, to be funded from state transportation funds allocated by the commission during the succeeding five fiscal years.

(4) The projects included in the adopted state transportation improvement program shall be limited to those projects that are included in the immediately prior state transportation improvement program, projects submitted pursuant to Sections 14526 and 14527, and projects recommended by the department.

(5) Any additional action and information determined by the commission to be relevant to the successful implementation of the adopted state transportation improvement program.

(b) The state transportation improvement program shall be considered a schedule for project delivery, and shall identify the year each project in the program is to be delivered. The state transportation improvement program shall not identify any milestone dates other than project delivery. As used in this subdivision, "project delivery" means the date on which funds for the project are to be obligated by the department, if the project is to be funded in part with federal funds or the date on which funds for the project are to be obligated by the commission, if the project is funded solely with state funds.

(c) Total expenditures for each program category for each fiscal year shall not exceed the amount specified in Section 164 of the Streets and Highways Code.

(d) The commission may adjust the project scope and cost for any project that was included in a previous state transportation improvement program with the concurrence of the department. The commission shall consult with the appropriate transportation

planning agency prior to making the adjustment.

SEC. 9. Section 14529.2 is added to the Government Code, to read:

14529.2. Prior to the adoption of the state transportation improvement program, the commission shall review the department's project delivery performance. The commission shall publish its findings and hold at least one public hearing.

Based on its findings and the information obtained during the public hearing, the commission may make a determination that the department has not made reasonable progress with project delivery and that it is unlikely that the department can accelerate its project delivery schedule to reasonably accommodate the adopted state transportation improvement program. Upon making this determination, the commission may allocate State Highway Account funds for expenditure by counties for development, right-of-way acquisition, and construction of state highway projects included in the state transportation improvement program.

The commission, in making an allocation under this section, shall seek the recommendation of the transportation planning agency or county transportation commission within whose jurisdiction the county is located. The commission shall specify the amount and the purpose of the allocation. The commission may request, and the county shall accept, an audit of funds allocated to the county under this section.

SEC. 10. Section 14529.6 of the Government Code is repealed.

SEC. 11. Section 14529.6 is added to the Government Code, to read:

14529.6. (a) Funds in the State Highway Account in the State Transportation Fund shall be programmed, budgeted, and expended to maximize the use of federal funds and shall be based on the following sequence of priorities:

(1) Operation, maintenance, and rehabilitation of the state highway system.

(2) Safety improvements where physical changes, other than adding additional lanes, would reduce fatalities and the number and severity of injuries.

(3) Operational improvements such as auxiliary lanes, ramp metering, and other physical changes where the system capacity can be enhanced without adding additional lanes.

(4) New facilities.

(5) Compatibility improvements, including landscaping and noise attenuation barriers.

(b) For the state transportation improvement program, the department shall recommend, and the commission shall include, to the extent feasible, projects in all categories listed in subdivision (a).

(c) Subject to Sections 188 and 188.8 of the Streets and Highways Code, projects included in the state transportation improvement program shall be based on objective criteria that are relevant to the project. The objective criteria used shall be stated for each project.

(d) The primary objective of the State Highway System is to facilitate interregional travel and commerce. New facilities shall be programmed consistent with this objective, and the department and the commission shall assign the highest priority to those projects that facilitate interregional travel.

SEC. 12. Section 14533.1 is added to the Government Code, to read:

14533.1. The department and the commission shall prepare their fund estimates and the state transportation improvement programs based on funding levels specified in Section 164 of the Streets and Highways Code.

The commission shall not include any project in the state transportation improvement program or make any commitment whatsoever that exceeds funding levels specified in Section 164 of the Streets and Highways Code. The department and the commission shall use an inflation rate that has been established by the Department of Finance. The Department of Finance shall consult with the Legislative Analyst and the Department of Transportation when calculating inflation rates for this purpose.

SEC. 13. Article 4.3 (commencing with Section 163) is added to Chapter 1 of Division 1 of the Streets and Highways Code, to read:

Article 4.3. Transportation Funding Plan

163. (a) Commencing with the 1989–90 fiscal year and biennially thereafter, the Governor shall, at the time of submission of the budget, submit to the Legislature a six-year transportation funding plan. The plan shall be a statement of the Governor's policy and intent relative to the funding of transportation programs for the six years following the budget year.

(b) The plan submitted by the Governor shall, at a minimum, do all of the following:

(3) Specify all relevant criteria used in preparing the plan, including, but not limited to, the estimated available federal funds, the state's economic conditions, the population growth rate, and the inflation rate.

(4) Specify the sources and amount of state funds needed and, if current revenue sources are not adequate to fully fund the plan, identify new revenue sources, including proceeds from the sale of bonds, and the amount available therefrom.

(5) Specify the amount and dates for the sale of any bonds if

necessary.

(6) Specify all changes in state and local policies and procedures that need modification in order to implement the plan.

(c) The plan shall not include specific individual projects and the Legislature shall not enact legislation containing specific individual transportation projects.

164. (a) For administration, maintenance, operation, and rehabilitation and safety improvements of state highways, the necessary amount consistent with need.

(b) For capacity enhancement to the state highway system, one billion dollars ($1,000,000,000) annually.

(c) For exclusive public mass transit guideways, seventy-five million dollars ($75,000,000) annually.

(d) For noise attenuation barriers pursuant to Section 215.5, fifteen million dollars ($15,000,000) annually.

The funding levels specified in this section are based on the best estimate of federal funds that will become available to the state as well as the best estimate of economic activities and needs for the future. It is intended that these funding levels be adhered to and that adjustments be made in state resources to the extent necessary to meet these levels.

SEC. 14. Section 170.5 is added to the Streets and Highways Code, to read:

170.5. Notwithstanding Section 13302 of the Government Code, the department may, with respect to any project which will not be completed within a fiscal year, finance the project on a cash basis if the department has sufficient unused bonding authority not earmarked for any other project.

SEC. 15. Section 182.5 is added to the Streets and Highways Code, to read:

182.5. It is the intent of the Legislature that the proceeds of any voter-approved bonds or any other new revenues made available in 1988 be used to bring the state transportation improvement program into compliance with the requirement of Section 188.8 and to initiate a state-local transportation demonstration program. New capacity expanding projects which are added to the state transportation improvement program in existence at the time new state revenues are made available, shall be directed at meeting the requirements of Sections 188 and 188.8. To the extent that county minimums specified in Section 188.8 cannot be achieved for the period which includes the 1988–89 and 1989–90 fiscal years, any individual county shortfall for that period shall be carried forward and added as an increase to the following five-year period county minimum required under Section 188.8.

The proceeds of any voter-approved state bonds or any new state transportaton funds shall be used to comply with the financial plan in Section 164. The department and the commission shall inform the Legislature whenever the revenues available are not adequate to comply with Section 164.

SEC. 16. Chapter 16 (commencing with Section 2600) is added to Division 3 of the Streets and Highways Code, to read:

CHAPTER 16. STATE-LOCAL TRANSPORTATION DEMONSTRATION PROGRAM

2600. (a) It is the intent of the Legislature to initiate a new state-local partnership for financing transportation improvement projects. Locally funded and constructed highway and exclusive public mass transit guideway projects will provide economic and transportation benefits for the state and, therefore, it is appropriate to provide state matching funds for these projects.

(b) The state-local transportation demonstration program is hereby created to carry out the intent in subdivision (a). The Legislature intends to appropriate a total of three hundred million dollars ($300,000,000) for the 1990–91 fiscal year to implement this program. It is also the intent of the Legislature to use this demonstration program as a basis for an ongoing program beyond the 1990–91 fiscal year.

2601. For purposes of this chapter:

(a) "Applicant" means a city, a county, or any local entity that is authorized to impose taxes or fees and that has responsibility for constructing highways or exclusive public mass transit guideways.

(b) "Eligible project" means a local road, a state highway, or an exclusive public mass transit guideway improvement project that meets all of the following conditions:

(1) Upon completion of the project, it would constitute a usable segment that would increase the capacity of the highway or guideway or would extend service to new areas, or, in the case of a local road rehabilitation project, it would extend the useful life of the roadway.

(2) The applicant has committed, or is capable of committing, to pay the local share to complete the project.

(3) The project is not receiving any other state funds.

(4) The applicant has completed, or is capable of completing, all project development work so that the contracts for the project can be awarded no later than June 31, 1991.

(5) Improvements to state highways are consistent with state and federal standards, are designed to minimize long-term maintenance costs, and are approved by the department.

(c) "Local fund" means revenues from any locally imposed tax or fee.

(d) "Local share" means the total cost of completing the project less any state matching funds applied for through this demonstration

program and any federal funds.

(e) "State share" means the amount of state funds applied for and in no case shall it exceed local share. The state share is not subject to the requirements of Sections 188 and 188.8.

2602. The state-local transportation demonstration program shall be implemented by the department and the applicants under the following procedures:

(a) Applicants shall submit eligible projects to the department not later than June 30, 1989.

(b) The department shall review the applications for consistency with the requirements of this chapter and shall compile a list of all eligible projects not later than December 31, 1989. If the total state share for eligible projects exceeds three hundred million dollars ($300,000,000), the department shall compute the pro rata share of state funds to be available so that each eligible project would receive the same ratio of state share to local share.

(c) Not later than April 1, 1990, each applicant shall inform the department whether or not it can proceed with the project with the lower state share. The department shall compile a new list of eligible projects consisting of those projects that (1) were included in the original list, and (2) that the applicant has indicated it can proceed with the lower state share.

(d) Using the new rate established pursuant to subdivision (b) and the new list established pursuant to subdivision (c), the department shall compute the matching funds necessary and shall so inform the Legislature not later than May 1, 1990.

(e) The Legislature intends to appropriate a maximum of three hundred million dollars ($300,000,000) by June 30, 1990, for this program.

(f) The applicant shall let construction contracts not later than June 30, 1991.

(g) The funds appropriated shall be spent not later than June 30, 1993.

SEC. 17. Chapter 17 (commencing with Section 2700) is added to Division 3 of the Streets and Highways Code, to read:

CHAPTER 17. DEDDEH TRANSPORTATION BOND ACT

Article 1. General Provisions

2700. This chapter shall be known and may be cited as the Deddeh Transportation Bond Act.

2701. As used in this chapter, the following terms have the following meanings:

(a) "Committee" means the Transportation Improvement Finance Committee created pursuant to Section 2712.

(b) "Department" means the Department of Transportation.

(c) "Fund" means the Transportation Improvement Bond Fund created pursuant to Section 2705.

Article 2. Transportation Improvement Program

2705. The proceeds of notes and bonds issued and sold pursuant to this chapter shall be deposited in the Transportation Improvement Bond Fund, which is hereby created.

2706. The money in the fund, upon appropriation by the Legislature, shall be available for expenditure without regard to fiscal years for state highway and exclusive public mass transit guideway capital improvements in accordance with Chapter 2 (commencing with Section 14520) of Part 5.3 of Division 3 of Title 2 of the Government Code and for local community transportation capital improvements on local streets and roads, state highways, and those guideway projects.

Article 3. Fiscal Provisions

2710. Notes and bonds in the total amount of one billion dollars ($1,000,000,000), exclusive of refunding bonds, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter, and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The notes and bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the notes and bonds as the principal and interest become due and payable.

2711. (a) Except as provided in subdivision (b), the notes and bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the notes and bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

(b) Notwithstanding any other provision of this chapter or the State General Obligation Bond Law, the following applies:

(1) Each issue of bonds authorized by the committee shall have a final maturity of 20 years and shall be structured to provide, as nearly as possible, level principal payments over the life of the bonds.

(2) Any bonds may be called and redeemed prior to their stated maturity only from the proceeds of refunding bonds or from funds appropriated by the Legislature which are proceeds of taxes of the state anticipated to exceed the state's appropriations limit for any fiscal year, if the amount used to redeem the bonds does not exceed the amount which is certified by the Controller to be the excess of proceeds of taxes for that fiscal year, as those terms are defined in Article XIII B of the California Constitution. For purposes of this paragraph, the use of proceeds of taxes to redeem bonds prior to

their stated maturity shall be deemed to be the payment of debt service on the bonds within the meaning of Article XIII B. The dedication of the proceeds of taxes to an escrow fund to redeem the bonds on the first date on which they may be redeemed shall also be deemed as payment of debt service on the bonds within the meaning of Article XIII B.

2712. (a) The Transportation Improvement Finance Committee is hereby created. For purposes of this chapter, the Transportation Improvement Finance Committee is "the committee" as that term is used in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code). The committee consists of the Treasurer, the Director of Finance, the Controller, the Director of Transportation, and the Lieutenant Governor, or their designated representative. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the Department of Transportation is designated the "board."

2713. The committee shall determine whether it is necessary or desirable to issue notes and bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 2706, and if so, the amount of notes and bonds to be issued and sold. Successive issues of notes and bonds may be issued and sold to carry out those actions progressively, and it is not necessary that all of the notes and bonds so authorized be issued and sold at any one time. The committee shall consider program funding needs, revenue projections, financial market conditions, and other necessary factors in determining the shortest feasible term for the notes and bonds issued.

2714. There shall be collected annually, in the same manner and at the same time as other state revenue is collected, the sum, in addition to the ordinary revenues of the state, required to pay the principal of, and interest on, the notes and bonds due and payable each year and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect the additional sum.

2715. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, without regard to fiscal years, for the purpose of this chapter, an amount equal to that sum annually necessary to pay the principal of, and the interest on, the notes and bonds issued and sold pursuant to this chapter as the principal and interest become due and payable.

2716. Money may be transferred from the fund to the State Transportation Fund to reimburse the State Highway Account for expenditures made subsequent to the adoption of this chapter by the voters for the purposes of state highway and exclusive public mass transit guideway capital improvements in accordance with Chapter

2 (commencing with Section 14520) of Part 5.5 of Division 3 of Title 2 of the Government Code as specified in Section 2706.

The aggregate amounts that may be transferred under this section shall not be in excess of amounts appropriated by the Legislature from the fund for that purpose.

2717. The board may request a loan from the General Fund or the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out this chapter.

The amount of the request shall not exceed the amount of the unsold notes and bonds which the committee has, by resolution, authorized to be sold for the purposes of carrying out this chapter. Money received from the sale of bonds shall be used to repay the loan.

Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

2718. All money deposited in the fund which is derived from premium and accrued interest on notes and bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

2719. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of the State General Obligation Bond Law. Approval by the electors of the state for the issuance of bonds shall include approval of the issuance of any bonds issued to refund any bonds originally issued or any previously issued refunding bonds.

2720. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of notes and bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

2721. The Department of Transportation shall be responsible for the administration of all money in the fund. In consultation with the Treasurer and the Director of Finance, the department shall establish the procedures necessary to ensure compliance with all state and federal laws pertaining to the sale and use of general obligation bonds.

SEC. 18. Section 4 of this act shall become operative on January 1, 1989.

SEC. 19. Section 17 of this act shall take effect upon the adoption by the voters of the Deddeh Transportation Bond Act, as set forth in that section.

SEC. 20. (a) Notwithstanding Sections 3525 and 10218 of the Elections Code, Section 17 of this act shall be submitted to the voters at the June 7, 1988, direct primary election.

(b) The Secretary of State shall ensure the placement of Section 17 of this act on the June 7, 1988, statewide ballot, in substantial compliance with any statutory time requirements applicable to the

submission of statewide measures to the voters at a statewide election.

(c) Notwithstanding Section 3531 of the Elections Code, the Attorney General shall prepare and return to the Secretary of State a ballot title for the bond act contained in Section 17 of this act as expeditiously as possible, but not later than two days after the effective date of this act.

(d) Notwithstanding Section 3572 of the Elections Code, the Legislative Analyst shall prepare an impartial analysis of the bond act contained in Section 17 of this act as expeditiously as possible, but not later than five days after the effective date of this act, and the analysis shall not be submitted to a review committee.

(e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act contained in Section 17 of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot pamphlet shall, notwithstanding Section 3578 of that code, be mailed at least 14 days before the election.

SEC. 20.5. Notwithstanding any other provision of law, all ballots of the election shall have printed thereon and in a square thereof, the words: " Deddeh Transportation Bond Act," and in the same square under those words, the following in 8-point type: "This act provides for a bond issue of one billion dollars ($1,000,000,000) to provide funds for capital improvements for local streets and roads, state highways, and exclusive public mass transit guideways." Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 21. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the Deddeh Transportation Bond Act proposed by Section 17 of this act be included in the June 7, 1988, statewide ballot, and that transportation funding be revised to meet critical transportation needs as soon as possible, it is necessary that this act take effect immediately.

[Approved by Governor March 11, 1988. Filed with Secretary of State March 14, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 21.8 (commencing with Section 17697) is added to Part 10 of the Education Code, to read:

CHAPTER 21.8. SCHOOL FACILITIES BOND ACT of 1988

17697. This chapter may be cited as the School Facilities Bond Act of 1988.

17697.10. The State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and that law.

17697.15. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means the State School Building Finance Committee created by Section 15909.

(b) "Board" means the State Allocation Board.

(c) "Fund" means the State School Building Lease-Purchase Fund.

17697.20. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 22 (commencing with Section 17700)), the purposes authorized under Section 17697.75, and of all acts amendatory thereof and supplementary thereto, and to provide funds to repay any money advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act, and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code, the committee shall be and is hereby authorized and empowered to create a debt or debts,

liability or liabilities, of the State of California, in the aggregate amount of eight hundred million dollars ($800,000,000), exclusive of refunding bonds issued pursuant to Section 17697.85, in the manner provided herein, but not in excess thereof.

17697.25. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on the bonds as herein provided, and all officers required by law to perform any duty in regard to the collection of state revenues shall collect that additional sum.

On the several dates of maturity of the principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund exclusive of funds transferred pursuant to subdivision (f) of Section 6217 of the Public Resources Code, not in excess of the principal of and interest on the bonds then due and payable, except as herein provided for the prior redemption of the bonds, and, in the event the money so returned on the dates of maturity is less than the principal and interest then due and payable, then the balance remaining unpaid shall be returned to the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

17697.30. All money deposited in the fund under Section 17732 and pursuant to Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code shall be available only for transfer to the General Fund, as provided in Section 17697.25. When transferred to the General Fund, the money shall be applied as a reimbursement of the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by the transfer of funds.

17697.35. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, an amount that will equal the following:

(a) The sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as the principal and interest become due and payable.

(b) The sum as is necessary to carry out Section 17697.40, which sum is appropriated without regard to fiscal years.

17697.40. For the purposes of carrying out the provisions of this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out

this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from money received from the sale of bonds sold for the purpose of carrying out this chapter.

17697.45. Upon request of the board from time to time, supported by a statement of the apportionments made and to be made under Chapter 22 (commencing with Section 17700), the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to fund the apportionments, and, if so, the amount of bonds to be issued and sold. The Treasurer shall sell the bonds so determined at such different times as necessary to service expenditures required by the apportionments.

17697.50. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, the computation to be made on a 360-day-year basis.

17697.55. The committee may authorize the Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the Treasurer.

17697.60. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 17697.25 to pay principal and interest on bonds.

17697.65. With respect to the proceeds of bonds authorized by this chapter, all provisions of Chapter 22 (commencing with Section 17700) shall apply.

17697.70. Out of the first money realized from the sale of bonds under this chapter, there shall be repaid any moneys advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act.

17697.75. (a) Of the proceeds from the sale of bonds pursuant to this chapter:

(1) Not more than one hundred twenty million dollars ($120,000,000) may be used for the reconstruction or modernization of facilities within the meaning of Chapter 22 (commencing with Section 17700).

(2) Not more than forty million dollars ($40,000,000) may be used for the purchase and installation of air-conditioning equipment and insulation materials pursuant to Section 42250.1.

(3) Not more than fifty million dollars ($50,000,000) may be used for the acquisition of portable classrooms for use in accordance with

Chapter 25 (commencing with Section 17785).

(b) Notwithstanding subdivision (a), in the event the board determines at any time that the maximum amount made available pursuant to any of the paragraphs in that subdivision exceeds the amount necessary to fund the qualified recipients of the apportionment authorized under that paragraph, the board may expend any portion of that excess for the construction of new school facilities pursuant to Chapter 22 (commencing with Section 17700) or for any one or more of the purposes described in subdivision (a).

17697.80. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

17697.85. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of these bonds shall include the approval of any bonds issued to refund any bonds originally issued or previously issued refunding bonds.

17697.90. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out the provisions of this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

SEC. 2. Section 1 of this act shall take effect upon the adoption by the people of the School Facilities Bond Act of 1988, as set forth in Section 1 of this act. Sections 3 to 5, inclusive, of this act contain provisions relating to and necessary for the submission of the School Facilities Bond Act of 1988 to the people, and for returning, canvassing, and proclaiming the votes thereon, and shall take effect immediately.

SEC. 3. (b) The Secretary of State shall ensure the placement of Section 1 of this act on the June 7, 1988, statewide ballot, in substantial compliance with any statutory time requirements applicable to the submission of statewide measures to the voters at a statewide election.

(c) Notwithstanding Section 3531 of the Elections Code, the Attorney General shall prepare and return to the Secretary of State a ballot title for the bond act contained in Section 1 of this act as expeditiously as possible, but no later than two days after the effective date of this act.

(d) Notwithstanding Section 3572 of the Elections Code, the Legislative Analyst shall prepare an impartial analysis of the bond act contained in Section 1 of this act as expeditiously as possible, but no later than five days after the effective date of this act, and the analysis shall not be submitted to a review committee.

(e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act contained in Section 1 of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot pamphlet shall, notwithstanding Section 3578 of the Elections Code, be mailed at least 14 days before the election.

SEC. 4. All ballots at the election shall have printed thereon and in a square thereof, the words: "School Facilities Bond Act of 1988," and in the same square under the words the following in 8-point type: "This act provides for a bond issue of eight hundred million dollars ($800,000,000) to provide capital outlay for construction or improvement of public schools. However, where the voting of the election is done by means of voting machines used pursuant to law in such manner as to carry out the intent of this section, the use of the voting machines, and the expression of the voters' choice by means thereof, shall be deemed to comply with the provisions of this section.

SEC. 5. The votes cast for or against the School Facilities Bond Act of 1988 shall be counted, returned, and canvassed and declared in the same manner and subject to the same rules as votes cast for state officers; and if it appears that the act shall have received a majority of all the votes cast for and against it at the election, then the act shall take effect as provided by this section, and shall not be repealed until the principal and interest of the liabilities created pursuant to this act shall be paid and discharged; but if a majority of the votes cast at the election are against this act, then the act shall not take effect.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to permit the bond measure proposed by this act to be submitted for voter ratification at the primary election to be held

(d) Notwithstanding Section 3572 of the Elections Code, the Legislative Analyst shall prepare an impartial analysis of the bond act contained in Section 2 of this act as expeditiously as possible, but not later than five days after the effective date of this act, and the analysis shall not be submitted to a review committee.

(e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act contained in Section 2 of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot pamphlet shall, notwithstanding Section 3578 of that code, be mailed

at least 14 days before the election.

CHAPTER 27

An act to add Chapter 12.45 (commencing with Section 8878.15) to Division 1 of Title 2 of the Government Code, relating to financing a housing rehabilitation program by providing the funds necessary therefor through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 11, 1988 Filed with Secretary of State March 14, 1988]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares the following:

(a) California is likely to experience damaging to severe earthquakes in the foreseeable future, and increased efforts to reduce earthquake hazards should be encouraged and supported.

(b) Unreinforced masonry structures have been found to be the most vulnerable to life-threatening earthquake damage. Thousands of multifamily residential structures are constructed of unreinforced masonry and continue to be a serious danger to their residents and the general public.

(c) The recent earthquakes in Los Angeles has revealed that of the some 700 apartment buildings damaged in the quake, 80 percent

are unreinforced masonry, and therefore require structural repairs for their safe occupation.

(d) Approximately 875,000 California housing units are substandard and need to be rehabilitated and over 385,000 units need to be replaced.

(e) Long-term general obligation bonds are a suitable means for financing the work needed to increase the ability of these residential structures to withstand earthquakes, and these bonds must be approved by the voters in a timely manner to most effectively provide for and promote the health and safety of the public.

SEC. 2. Chapter 12.45 (commencing with Section 8878.15) is added to Division 1 of Title 2 of the Government Code, to read:

CHAPTER 12.45. CALIFORNIA EARTHQUAKE SAFETY AND HOUSING REHABILITATION BOND ACT OF 1988

Article 1. General Provisions

8878.15. This chapter shall be known and may be cited as the California Earthquake Safety and Housing Rehabilitation Bond Act of 1988.

8878.16. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words have the following meanings:

(a) "Committee" means the California Earthquake Safety and Housing Rehabilitation Finance Committee.

(b) "Department" means Department of Housing and Community Development.

(c) "Fund" means the Housing Rehabilitation Loan Fund establish by Section 50661 of the Health and Safety Code.

(d) "Local agency" means any city, city and county, or county.

Article 2. California Earthquake Safety and Housing Rehabilitation Program

8878.20. (a) Of the proceeds of bonds issued and sold pursuant to this chapter, eighty million dollars ($80,000,000) shall be deposited in a special account in the Housing Rehabilitation Loan Fund and shall be used by the department, in accordance with the criteria and priorities now or hereafter established by statute, to make deferred payment loans to increase the ability of unreinforced masonry multifamily residential structures to withstand earthquakes. To be eligible for a loan funded pursuant to this section, not less than 70 percent of the tenants shall be households specified in Section 50079.5 of the Health and Safety Code.

(b) Prior to making commitments under this program for loans in a particular local agency's jurisdiction, the department shall determine that the local agency has completed an inventory of the unreinforced masonry structures within its jurisdiction and has

adopted a mitigation ordinance pursuant to Section 8875.2 or Section 19163 of the Health and Safety Code. The local agency shall establish criteria, terms, and conditions to identify eligible rental housing developments. Only structures identified as potentially hazardous buildings by a local agency, in accordance with criteria of Section 8875, shall be eligible for the loans.

(c) All seismic safety rehabilitation improvements made with loans funded pursuant to this section shall be in accordance with a plan developed for the structure by a civil engineer or architect.

(d) Loans made pursuant to this section shall constitute liens in favor of the department. Payments of the principal of, and interest on, the loans shall be deposited in the Housing Rehabilitation Loan Fund.

8878.21. Of the proceeds of bonds issued and sold pursuant to this chapter, seventy million dollars ($70,000,000) shall be deposited in a special account in the Housing Rehabilitation Loan Fund and shall be used by the department, in accordance with the criteria and priorities now or hereafter established by statute, for the housing rehabilitation loan programs authorized by Chapter 6.5 (commencing with Section 50660) of Part 2 of Division 31 of the Health and Safety Code, including the Special User Housing Rehabilitation Program authorized by Section 50670 of the Health and Safety Code, but not including the special program authorized by Section 50662.5. However, none of the moneys allocated pursuant to this section shall be used to make deferred payment loans to acquire residential hotels.

8878.22. Notwithstanding the allocation of bond proceeds specified in Sections 8878.20 and 8878.21, the director of the department every two years, commencing June 30, 1990, may reallocate the bond proceeds pursuant to this section between the accounts established in the Housing Rehabilitation Loan Fund by Sections 8878.20 and 8878.21. The director of the department may reallocate these moneys as necessary to satisfy program needs if demand for loans from one of the accounts substantially exceeds the level of funding therein and there is an unencumbered balance in the other account which exceeds the amount of loans for which there are then pending applications. The amount of any transfer from an account in the Housing Rehabilitation Loan Fund pursuant to this section may not include moneys for which loan applications from potentially eligible applicants are then pending.

Article 3. Fiscal Provisions

8878.25. Bonds in the total amount of one hundred fifty million dollars ($150,000,000), exclusive of refunding bonds issued pursuant to Section 8878.34, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section

16724.5 of the Government Code. All bonds herein authorized which have been duly sold and delivered as provided herein shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

8878.26. The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

8878.27. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this chapter, the California Earthquake Safety and Housing Rehabilitation Finance Committee is hereby created. For purposes of this chapter, the California Earthquake Safety and Housing Rehabilitation Finance Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Treasurer, the Controller, the Director of Finance, or their designated representatives, a person appointed by the Senate Rules Committee, a person appointed by the Speaker of the Assembly, and the Executive Director of the Seismic Safety Commission. The Treasurer shall serve as the chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the Department of Housing and Community Development is designated the "board."

(c) The board may adopt rules and regulations establishing requirements for local administration of the financing program to the extent necessary to protect the validity of, and tax exemption for, interest on the bonds.

8878.28. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Sections 8878.20 and 8878.21, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

8878.29. There shall be collected annually in the same manner and at the same time as other state revenue is collected, a sum of money in addition to the ordinary revenues of the state, sufficient to pay the principal of, and interest on, these bonds as provided herein, and all officers required by law to perform any duty in regard to the collection of state revenues shall collect that additional sum.

8878.30. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will

equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 8878.31, appropriated without regard to fiscal years.

8878.31. For the purposes of carrying out this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any money made available under this section to the board shall be returned by the board to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from money received from the sale of bonds for the purpose of carrying out this chapter.

8878.32. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

8878.33. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

8878.34. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of these bonds shall include the approval of any bonds issued to refund any bonds originally issued or previously issued refunding bonds.

8878.35. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out the provisions of this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. The board shall execute such documents as are required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

SEC. 3. Section 2 of this act shall take effect upon the adoption by the voters of the California Earthquake Safety and Housing Rehabilitation Bond Act of 1988, as set forth in Section 2 of this act.

SEC. 4. (a) Notwithstanding Sections 3525 and 10218 of the

Elections Code, Section 2 of this act shall be submitted to the voters at the June 7, 1988, direct primary election.

(b) The Secretary of State shall ensure the placement of Section 2 of this act on the June 7, 1988, statewide ballot, in substantial compliance with any statutory time requirements applicable to the submission of statewide measures to the voters at a statewide election.

(c) Notwithstanding Section 3531 of the Elections Code, the Attorney General shall prepare and return to the Secretary of State a ballot title for the bond act contained in Section 2 of this act as expeditiously as possible, but no later than two days after the effective date of this act.

(d) Notwithstanding Section 3572 of the Elections Code, the Legislative Analyst shall prepare an impartial analysis of the bond act contained in Section 2 of this act as expeditiously as possible, but no later than five days after the effective date of this act, and the analysis shall not be submitted to a review committee.

(e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act contained in Section 2 of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot pamphlet shall, notwithstanding Section 3578 of the code, be mailed at least 14 days before the election.

SEC. 5. Notwithstanding any other provision of law, all ballots of the election shall have printed thereon and in a square thereof, the words: "California Earthquake Safety and Housing Rehabilitation Bond Act of 1988," and in the same square under those words, the following in 8-point type: "This act provides for a bond issue of one hundred fifty million dollars ($150,000,000) to provide funds for a California Earthquake Safety and Housing Rehabilitation program." Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the California Earthquake Safety and Housing Rehabilitation Bond Act of 1988 contained in Section 2 of this act be included on the June 7, 1988, statewide ballot, it is necessary that this

act take effect immediately.

CHAPTER 28

An act to amend Section 12987 of, to amend, repeal, and add Section 12986 of, to add Sections 12912.5, 12992, and 12993 to, to add Part 4.8 (commencing with Section 12300) to Division 6 of, and to add and repeal Section 12987.5 of, the Water Code, relating to flood control, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 11, 1988 Filed with Secretary of State March 14, 1988]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Delta Flood Protection Act of 1988.

SEC. 2. The Legislature hereby finds and declares as follows:

(a) The value and public benefit of preserving the Sacramento-San Joaquin Delta, as declared in Section 12981 of the Water Code, is reaffirmed, as is the recognition that not all islands, because of the physical condition of their soils and foundations, can economically justify protection or increased development.

(b) In recent years, federal, state, and local expenditures for disaster assistance have been very high, and hazard mitigation efforts to avoid disasters are needed.

(c) Other lands have been benefited by flood control levees at the expense of the delta through loss of overbank storage which causes more flood water to reach the delta.

(d) Long-term solutions for the delta will be facilitated by short-term efforts to stabilize the existing situation.

SEC. 3. Part 4.8 (commencing with Section 12300) is added to Division 6 of the Water Code, to read:

PART 4.8. DELTA FLOOD PROTECTION

CHAPTER 1. DELTA FLOOD PROTECTION FUND

12300. (a) The Delta Flood Protection Fund is hereby created in the State Treasury. There shall be deposited in the fund all moneys appropriated to the fund and all income derived from the investment of moneys that are in the fund.

(b) It is the intent of the Legislature to appropriate, in accordance with Section 12938, twelve millon dollars ($12,000,000) each year through fiscal year 1998–99 to the Delta Flood Protection Fund from moneys deposited in the California Water Fund pursuant to subdivision (b) of Section 6217 of the Public Resources Code. It is

further the intent of the Legislature to appropriate annually moneys in the Delta Flood Protection Fund to the department for expenditure and allocation, without regard to fiscal years, in the following amounts and for the following purposes:

(1) Six million dollars ($6,000,000) annually for local assistance under the delta levee maintenance subventions program pursuant to Part 9 (commencing with Section 12980), and for the administration thereof.

(2) Six million dollars ($6,000,000) annually for special delta flood protection projects under Chapter 2 (commencing with Section 12310) and for subsidence studies and monitoring. These funds shall only be allocated for projects on Bethel, Bradford, Holland, Hotchkiss, Jersey, Sherman, Twitchell, and Webb Islands in the delta and for the Towns of Thornton and Walnut Grove.

(c) Any moneys unexpended at the end of a fiscal year shall revert to the Delta Flood Protection Fund and shall be available for appropriation by the Legislature for the purposes specified in subdivision (b).

12301. The Delta Flood Protection Fund is hereby abolished on January 1, 1999, and all unencumbered moneys in the fund are transferred to the General Fund.

CHAPTER 2. SPECIAL FLOOD CONTROL PROJECTS

12310. As used in this chapter, the following terms have the following meanings:

(a) "Local public agency" means a reclamation district or levee district or other public agency responsible for the maintenance of a nonproject levee as defined in subdivision (d) of Section 12980.

(b) "Project" means the flood control improvement constructed or interests in land acquired pursuant to this chapter.

(c) "Department" means the Department of Water Resources.

(d) "Delta" means the Sacramento-San Joaquin Delta as described in Section 12220.

12311. (a) The department shall develop and implement a program of flood control projects on Bethel, Bradford, Holland, Hotchkiss, Jersey, Sherman, Twitchell, and Webb Islands in the delta and for the Towns of Thornton and Walnut Grove. This program shall have, as its primary purpose, the protection of discrete and identifiable public benefits, including the protection of public highways and roads, utility lines and conduits, and other public facilities, and the protection of urbanized areas, water quality, recreation, and other public benefits.

(b) Notwithstanding subdivision (a), the department shall develop and recommend a plan of action, including alternatives, for flood control for the Towns of Thornton and Walnut Grove and shall submit the plan to the Legislature by January 1, 1989. The department shall not allocate any funds for implementation of the plan of action for flood control for the Towns of Thornton and

Walnut Grove until a plan is approved by the Legislature.

12312. The department may expend any moneys available to it pursuant to paragraph (2) of subdivision (b) of Section 12300 for the purposes of this chapter. In addition, the department shall seek a sharing of costs with the beneficiaries or owners or operators of the public facilities benefited by the flood protection projects. The department shall also seek cost sharing with, or financial assistance from, federal agencies which have programs applicable to, or which have an interest in, the flood protection projects.

12313. (a) The department shall develop a list of areas where flood control work is needed to protect public facilities or provide public benefits. In developing the list, the department shall consult with all appropriate federal, state, and local agencies. The list shall establish a priority for the areas based upon both of the following:

(1) The importance or degree of public benefit needing protection.

(2) The need for flood protective work.

(b) The list shall be submitted to the California Water Commission for approval, and shall be updated by the department, with the approval of the California Water Commission, as the department may deem appropriate.

12314. Guided by the approved priority list developed pursuant to Section 12313, the department shall develop project plans to accomplish the needed flood protection work, in cooperation with the local public agency, the public beneficiary, and the Department of Fish and Game.

The plans shall be subject to the approval of the appropriate local public agency or agencies and subject to any cost-sharing agreement the department may have entered into under Section 12312. Project plans may include, or be a combination of, the improvement, rehabilitation, or modification of existing levees and the conveyance of interests in land to limit or to modify land management practices which have a negative impact on flood control facilities.

Project plans shall include provision for the protection of fish and wildlife habitat determined to be necessary by the Department of Fish and Game and not injurious to the integrity of flood control works. The Department of Fish and Game shall consider the value of the riparian and fisheries habitat and the need to provide greater flood protection in preparing its requirements, and shall not approve any plan which calls for the use of channel islands or berms with significant riparian communities as borrow sites for levee repair materials, unless fully mitigated, or any plans which will result in a net long-term loss of riparian, fisheries, or wildlife habitat.

12315. Projects shall be undertaken and completed in accordance with the approved project plans. Project works may be undertaken by the department or, at the department's option, by the local public agency pursuant to an agreement with the department.

12316. In addition to any obligations assumed under an agreement with the department and to the extent consistent with

that agreement, the local public agency shall do all of the following:

(a) Provide construction access to lands or rights-of-way which it owns or maintains for flood control purposes or for purposes with which the project's required uses are compatible and necessary to complete the project.

(b) Maintain the completed project.

(c) Apply for federal disaster assistance, whenever eligible, under Public Law 93-288.

(d) Hold and save the department, any other agency or department of the state, and their employees free from any and all liability for damages, except that caused by gross negligence, that may arise out of the construction, operation, or maintenance of the project.

(e) Acquire easements up to 400 feet in width from the crown along levees in areas where the department determines that such an easement is desirable to maintain structural stability of the levee. The easement shall (1) restrict the use of the land to open-space uses with minimum tillage of the soil, including, without limitation, nontillable crops such as pasture, the propagation of wildlife habitat, and other compatible uses, (2) provide full access to the local agency for levee maintenance and improvement purposes, and (3) allow the owner to retain reasonable rights of ingress and egress as well as reasonable rights of access to the waterways for water supply and drainage. The local public agency costs of acquisition of the easements shall be reimbursable by the department from moneys appropriated pursuant to paragraph (2) of subdivision (b) of Section 12300.

(f) Comply with all mitigation requirements required pursuant to this chapter.

SEC. 4. Section 12912.5 is added to the Water Code, to read:

12912.5. Of the amounts deposited in the California Water Fund pursuant to subdivision (b) of Section 6217 of the Public Resources Code, five million dollars ($5,000,000) shall be deposited annually in a special account in the California Water Fund for appropriation by the Legislature to the Department of Water Resources for purposes of mitigation of adverse effects to water quality, fisheries, or wildlife in (1) the Sacramento-San Joaquin Delta, Suisun Marsh, and San Francisco Bay caused by historic upstream depletions and diversions, as nonreimbursable costs under Section 11912 and for other nonreimbursable costs, and (2) the Salton Sea and its tributaries.

SEC. 5. Section 12986 of the Water Code is amended to read:

12986. (a) It is the intention of the Legislature to reimburse an eligible local agency pursuant to this part for costs incurred in any year for the maintenance or improvement of nonproject levees as follows:

(1) No costs incurred shall be reimbursed if the entire cost incurred per mile of nonproject levee is one thousand dollars ($1,000) or less.

(2) Seventy-five percent of any costs incurred in excess of one

thousand dollars ($1,000) per mile of nonproject levee shall be reimbursed.

(b) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 6. Section 12986 is added to the Water Code, to read:

12986. (a) It is the intention of the Legislature to reimburse from the General Fund an eligible local agency pursuant to this part for costs incurred in any year for the maintenance or improvement of nonproject levees as follows:

(1) No costs incurred shall be reimbursed if the entire cost incurred per mile of levee is one thousand dollars ($1,000) or less.

(2) Fifty percent of any costs incurred in excess of one thousand dollars ($1,000) per mile of levee shall be reimbursed.

(3) The maximum total reimbursement from the General Fund shall not exceed two million dollars ($2,000,000) annually.

(b) This section shall become operative on January 1, 1999.

SEC. 7. Section 12987 of the Water Code is amended to read:

12987. Local agencies maintaining nonproject levees shall be eligible for reimbursement pursuant to this part upon submission to and approval by the board of plans for the maintenance and improvement of the nonproject levees, including plans for the annual routine maintenance of the levees, in accordance with the criteria adopted by the board.

The plans shall also be compatible with the plan for improvement of the delta levees as set forth in Bulletin No. 192-82 of the department, dated December 1982, and as approved in Section 12225, and shall include provisions to acquire easements up to 400 feet in width from the crown along levees in areas where the department determines that such an easement is desirable to maintain structural stability of the levee. The easement shall (1) restrict the use of the land to open-space uses with minimum tillage of the soil, including, without limitation, nontillable crops such as pasture, the propagation of wildlife habitat, and other compatible uses, (2) provide full access to the local agency for levee maintenance and improvement purposes, and (3) allow the owner to retain reasonable rights of ingress and egress as well as reasonable rights of access to the waterways for water supply and drainage. The local agency cost of acquisition of the easements shall be reimbursable by the department from moneys appropriated pursuant to paragraph (1) of subdivision (b) of Section 12300. The plans shall also include provision for protection of the fish and wildlife habitat determined to be necessary by the Department of Fish and Game and not injurious to the integrity of the levee. The Department of Fish and Game shall consider the value of the riparian and fisheries habitat and the need to provide safe levees in preparing its requirements. The Department of Fish and Game shall not approve any plan which calls for the use of channel islands or berms with significant riparian communities as borrow sites for levee

repair material, unless fully mitigated, or any plans which will result in a net long-term loss of riparian, fisheries, or wildlife habitat.

The plans shall also take into account the most recently updated Delta Master Recreation Plan prepared by the Resources Agency.

Upon approval of the plans by the board, the local agencies shall enter into an agreement with the board to perform the maintenance and improvement work, including the annual routine maintenance work, specified in the plans. If applications for state funding in any year exceed the state funds available, the board shall apportion the funds among those levees or levee segments that are identified by the department as most critical and beneficial, considering the needs of flood control, water quality, recreation, and wildlife.

SEC. 8. Section 12987.5 is added to the Water Code, to read:

12987.5. (a) In an agreement entered into under Section 12987, the board may provide for an advance to the applicant in an amount not to exceed 75 percent of the estimated state share. The agreement shall provide that no advance shall be made until the applicant has incurred costs averaging one thousand dollars ($1,000) per mile of levee.

(b) Advances made under subdivision (a) shall be subtracted from amounts to be reimbursed after the work has been performed. If the department finds that work has not been satisfactorily performed or where advances made actually exceed reimbursable costs, the local agency shall promptly remit to the state all amounts advanced in excess of reimbursable costs. If advances are sought, the board may require a bond to be posted to ensure the faithful performance of the work set forth in the agreement.

(c) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 9. Section 12992 is added to the Water Code, to read:

12992. Before any plan is approved, agreement entered into, or moneys advanced or reimbursed under this part, the local agency shall first enter into an agreement with the board indemnifying and holding and saving the State of California, the board, the department, any other agency or department of the state, and their employees free from any and all liability for damages, except that caused by gross negligence, that may arise out of the approvals, agreements, inspections, or work performed under this part.

Any funds appropriated for any of the purposes of this part may be used to satisfy any judgment against the state covered by this section, pending indemnification by the local agency.

SEC. 10. Section 12993 is added to the Water Code, to read:

12993. Applicants shall apply for federal disaster assistance, whenever eligible, under Public Law 93-288. If, and to the extent that, it is determined that the work performed does not qualify for federal disaster assistance, the applicant may apply for reimbursement under Section 12986, and the costs shall be deemed incurred by the applicant in the year in which the latter application

is filed.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide urgently needed flood protection at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 29

An act to amend Section 17718.5 of the Education Code, and to amend Sections 53080 and 65995 of, to add Section 65995.1 to, and to repeal and add Section 65997 of, the Government Code, relating to school facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 14, 1988 Filed with Secretary of State March 14, 1988]

The people of the State of California do enact as follows:

SECTION 1. Section 17718.5 of the Education Code is amended to read:

17718.5. (a) The Legislature intends for the board to encourage school districts to utilize alternative methods to fund school facilities.

(b) The board shall approve applications pursuant to the requirements of this section that request the board to share a portion of the cost of projects constructed pursuant to the Mello-Roos Community Facilities Act of 1982, as set forth by Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code. The board shall disregard the fact that structures have been constructed in accordance with that act, and neither consider nor approve any application for cost sharing until the time that the applicant school district would have become eligible for approval of its application during the normal process established for considering and approving applications.

(c) The board shall approve applications for cost sharing based on both of the following factors:

(1) Estimates of average daily attendance at the time the application is considered.

(2) The amount of cost sharing requested.

(d) The costs shared by the board shall be an amount equal to the cost that would have been allowed for the project had it been originally approved pursuant to this chapter less 5 percent per year depreciation, exclusive of land, for each year that the project was constructed in advance of the application approval, but no more than the lesser of an amount equal to 75 percent of the allowable cost of

the project or the principal amount of any outstanding callable bonds and other debts incurred to finance the project under the Mello-Roos Community Facilities Act of 1982.

(e) If the board utilizes a point system to prioritize applications for funding, the computation of priorities for an application pursuant to this section shall be increased by 4 percent for each year from the date of construction of the project to the date of approval of the cost sharing application.

SEC. 2. Section 53080 of the Government Code, as amended by Chapter 888 of the Statutes of 1986, is amended to read:

53080. (a) The governing board of any school district is authorized to levy a fee, charge, dedication, or other form of requirement against any development project, as defined in Section 65928, within the boundaries of the district, for the purpose of funding the construction or reconstruction of school facilities, subject to any limitations set forth in Chapter 4.9 (commencing with Section 65995) of Division 1 of Title 7. This fee, charge, dedication, or other form of requirement may be applied only to new commercial and industrial construction, to new residential construction, and, to the extent of the resulting increase in habitable space, as defined in Section 65995, to other residential construction as to any development project having a value in excess of twenty thousand dollars ($20,000).

(b) No city or county, whether general law or chartered, may issue a building permit for any development absent certification by the appropriate school district of compliance by that development project with any fee, charge, dedication, or other form of requirement levied by the governing board of that school district pursuant to subdivision (a).

(c) In the case of the sale of a manufactured home or mobilehome, the payment of fees to either the school district or other entity shall occur at the time of occupancy pursuant to the sale or lease of the manufactured home or mobilehome pursuant to Section 18080.5 of the Health and Safety Code.

SEC. 3. Section 65995 of the Government Code is amended to read:

65995. (a) Except for a dedication or fee, or both, required under Section 53080, or pursuant to Chapter 4.7 (commencing with Section 65970), no fee, charge, dedication, or other form of requirement shall be levied by the legislative body of a local agency against a development project, as defined by Section 65928, for the construction or reconstruction of school facilities.

(b) In no event shall the amount of any fee, charge, dedication, or other form of requirement, as described in subdivision (a), including the amount of fees to be paid or the value of land to be dedicated, or both, under Chapter 4.7 (commencing with Section 65970), exceed the following:

(1) One dollar and fifty cents ($1.50) per square foot of habitable space, in the case of any residential development. "Habitable space,"

for this purpose, means the space determined by the building department of the city or county issuing the building permit, in accordance with the building standards of that city or county, to be within the perimeter of a residential structure, not including any carport, walkway, garage, overhang, patio, detached accessory structure, or similar area.

(2) Twenty-five cents ($0.25) per square foot of covered or enclosed space, in the case of any commercial or industrial development. No fee, charge, dedication, or other form of the requirement may be levied by any school district governing board upon any commercial or industrial development unless and until the governing board has first made the finding that the location and amount of land to be dedicated or the amount of fees to be paid, or both, shall bear a reasonable relationship and be limited to the needs of the community for elementary or high school facilities and shall be reasonably related and limited to the need for schools caused by the development.

(3) The amount of the limits set forth in paragraphs (1) and (2) shall be annually increased according to the adjustment for inflation set forth in the statewide cost index for class B construction, as determined by the State Allocation Board at its January meeting.

(c) Subdivision (a) does not apply during the term of any contract entered into between a subdivider or builder and a school district, city, county, or city and county, whether general law or chartered, on or before the effective date of this chapter that requires the payment of a fee, charge, or dedication for the construction of school facilities as a condition to the approval of residential development. In addition, any development project for which a final map was approved and construction had commenced on or before September 1, 1986, is subject to only the fee, charge, dedication, or other form of requirement prescribed in any local ordinance in existence on that date and applicable to the project.

(d) The Legislature finds and declares that the subject of the financing of school facilities with development fees is a matter of statewide concern. For this reason the Legislature hereby occupies the subject matter of mandatory development fees and other development requirements for school facilities finance to the exclusion of all local measures on the subject.

(e) Nothing in this section shall be interpreted to limit or prohibit the use of Chapter 2.5 (commencing with Section 53311) of Division 2 of Title 5 to finance the construction or reconstruction of school facilities.

SEC. 4. Section 65995.1 is added to the Government Code, to read:

65995.1. (a) Notwithstanding any other provision of law, as to any development project used exclusively for the housing of senior citizens, as described in Section 51.3 of the Civil Code, any fee, charge, dedication, or other form of requirement that is levied under Section 53080 may be applied only to new construction, and is subject

to the limits and conditions applicable under subdivision (b) of Section 65995 in the case of commercial or industrial development.

(b) Any development project against which school facilities fees or other requirements have been levied in accordance with the limit set forth in subdivision (a) may be converted to any use other than the housing of senior citizens only with the approval of the city or county that issued the building permit for the project. That approval shall not be granted absent certification by the appropriate school district that payment has been made on the part of the development project at the rate of the school facilities fee, charge, dedication, or other form of requirement applied by the district under Section 53080 to residential development as of the date of conversion, less the amount of any school facilities fees or other requirements paid on the part of the project in accordance with the limits set forth in subdivision (a).

SEC. 5. Section 65997 of the Government Code is repealed.

SEC. 6. Section 65997 is added to the Government Code, to read:

65997. (a) This chapter shall remain in effect only until such date as any state general obligation bond measure submitted to the voters of this state for their ratification, which measure includes within its purposes the funding of school facilities construction, fails to receive that ratification, and as of that date is repealed.

(b) This section shall become operative December 31, 1990.

SEC. 7. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make certain changes in existing law that will be affected by the decision of the voters on a state general obligation bond measure to be voted on at the election of June 7, 1988, it is necessary that this act take effect immediately.

CHAPTER 30

An act to add Sections 50010, 50668.5, and 50808 to, to add Article 6 (commencing with Section 50771.1) to Chapter 9 of Part 2 of Division 31 of, to add Chapter 15 (commencing with Section 50880) to Part 2 of Division 31 of, to add Part 8 (commencing with Section 53130) to Division 31 of, and to add Chapter 6.8 (commencing with Section 51341) to Part 3 of Division 31 of, the Health and Safety Code, relating to housing, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 14, 1988 Filed with Secretary of State March 14, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 50010 is added to the Health and Safety Code, to read:

50010. (a) The Legislature finds and declares the following:

(1) The high cost of housing in this state makes it impossible for most households to become homeowners and impedes the ability of California employers to compete in the national marketplace for employees.

(2) Approximately 1,100,000 lower income renters pay more than 35 percent of their income for housing and over 1,600,000 lower income renters pay more than 25 percent of their income for housing.

(3) Approximately 875,000 housing units need to be rehabilitated and over 385,000 units need to be replaced in the state.

(4) Sufficient safe, sanitary, and affordable housing is not available for households with special needs, particularly elderly and disabled households.

(5) The Department of Housing and Community Development estimates that there are between 50,000 and 75,000 homeless individuals in California and other data discloses that the fastest growing segment of the homeless population are families with children.

(6) There are nearly 2,000 rental projects built in this state prior to 1980 under the Section 236, Section 221 (d) (3) B.M.I.R., and Section 8 programs of the United States Department of Housing and Urban Development and the Section 515 Program of the federal Farmers Home Administration, containing approximately 123,000 units subject to potential conversion to higher rent housing or condominium units.

(7) The federal budget for assisted housing has declined sharply leaving state and local government the burden of developing affordable housing.

(8) The annual budget of the Department of Housing and Community Development, which includes forty-five million dollars

($45,000,000) in General Fund and special fund revenues, comprises less than two-tenths of 1 percent of the proposed 1988–89 state budget of forty-two billion three hundred million dollars ($42,300,000,000).

(9) The basic housing goal for state government pursuant to subdivision (b) of Section 50003 of the Health and Safety Code is to provide a decent home and suitable living environment for every California family.

(b) The Legislature further finds and declares the following:

(1) There is an urgent and continuing need to provide affordable housing to meet the increasingly unfulfilled housing needs of this state.

(2) There is an immediate need to reaffirm commitment to the official housing policy of the state and provide sufficient financial resources to meet this commitment over a reasonable period of time.

(3) There is a need to maximize the amount of federal, state, local, and private resources available for affordable housing and to minimize the administrative costs and simplify the financing systems for producing affordable housing.

(4) There is a critical need to provide financial assistance to (A) purchase, construct, and rehabilitate emergency shelters and transitional housing for homeless families and individuals, (B) construct rental housing for families and individuals, including the special housing needs of the elderly, disabled, and farmworkers, (C) preserve and rehabilitate homes and rental housing, and (D) provide home purchase assistance for first-time homebuyers.

SEC. 2. Section 50668.5 is added to the Health and Safety Code, to read:

50668.5. For the purpose of providing financial assistance pursuant to this chapter utilizing bond proceeds transferred to the Housing Rehabilitation Loan Fund pursuant to paragraph (2) of subdivision (a) of Section 53130 and paragraph (2) of subdivision (b) of Section 53130 and Sections 8878.20 and 8878.21 of the Government Code, deferred payment loans made with these funds shall be subject to all of the following special provisions, which shall prevail over conflicting provisions of this chapter:

(a) (1) Applications for fund commitments shall be accepted by the department at any time. Fund commitments shall be based on a ranking of applications, which shall occur at least once every three months until there are insufficient funds available to commit according to this ranking. In making this ranking, priority shall be given to those projects which: (A) serve the greater number of eligible households as defined in Section 50105 with the lowest incomes; (B) provide the greater number of units with three or more bedrooms; (C) are located in areas where the housing need is great as determined by the department, taking into consideration, among other factors, low vacancy rates, high market rents, long waiting lists for subsidized housing, the stock of substandard housing, and the potential loss of subsidized rental housing to market-rate housing

through demolition, foreclosure, or subsidy termination; (D) complement the implementation of an existing housing program; (E) maximize private local and other funding sources; and (F) maximize long-term benefits for eligible households, as defined in Sections 50079.5 and 50105. Subparagraph (B) above shall not apply to applications for fund commitments submitted pursuant to Section 50670 or to any application for a residential hotel project submitted pursuant to paragraph (1) of subdivision (a) of Section 50661. The department shall evaluate the capability of the sponsor to rehabilitate, own, and manage the rental housing development.

(2) Loans for rental housing developments may be reviewed, approved, and funded by the department directly to the sponsor. In these cases, the department shall ensure that the sponsor notifies the local legislative body of the sponsor's loan application prior to a funding award. Loans to owner-occupants may be made by local public entities or nonprofit corporations which have received fund commitments from the department, and have been certified by the department as capable of making these loans. When a certification has been granted, the department shall delegate the sole responsibility for reviewing and approving these loans to the local public entity or nonprofit corporation.

(3) A sponsor may apply for loans for one or more rental housing developments.

(b) (1) A housing development may utilize any combination of federal, state, local, and private financial resources necessary to make the development affordable, for the term of the state's regulatory agreement, to the eligible households.

(2) In the case of nonprofit sponsors, loans for rental housing developments, when combined with other indebtedness against the property shall not exceed 100 percent of the after-rehabilitation value of the property, as determined by an appraisal of the property conducted pursuant to guidelines established in regulations of the department.

(3) The maximum loan amounts per unit established in regulations pursuant to Section 50607 shall also apply to rental housing developments rehabilitated or acquired and rehabilitated pursuant to paragraph (1) of subdivision (a) of Section 50661, except that there shall not be a maximum loan amount established per project. These dollar limitations may be increased by the department, as necessary, in high-cost areas of the state or where the correction of severe health and safety defects or the provisions of handicapped accessibility standards necessitate greater assistance.

(4) (A) Loans made to sponsors of rental housing developments for acquisition and rehabilitation shall be for terms of not less than 30 years. Loans made to sponsors of rental housing developments for rehabilitation only shall be for terms of not less than 20 years. However, the term shall not exceed the useful life of the rental housing development for which the loan is made. The sponsor may elect to begin to repay the loan at any time in accordance with the

prepayment plan established in accordance with paragraph (6), if it is determined by the department, that the sponsors can continue to maintain the rents at levels affordable to eligible households.

(B) The term of the loan and the time for repayment may be extended by the department for additional 10-year terms as long as the rental housing development is operated in a manner consistent with the regulatory agreement and the sponsor requires an extension in order to continue to operate in a manner consistent with this chapter.

(5) In the case of loans made for rental housing developments, rehabilitation costs shall include those costs relating to (A) real property acquisition; (B) rehabilitation or reconstruction, including the conversion of nonresidential structures to residential use; (C) general property improvements which are necessary to correct unsafe, unhealthy, or unsanitary conditions, including renovations and remodeling, including, but not limited to, remodeling of kitchens and bathrooms, installation of new appliances, landscaping, and purchase or installation of central air conditioning; (D) necessary and related onsite improvements; (E) reasonable administrative expenses in connection with the planning and execution of the project, as determined by the department; (F) reasonable consulting costs; (G) rent-up costs; (H) seismic rehabilitation improvements; and (I) any other costs of rehabilitation authorized by the department. "Rent-up costs," as used in this section, means costs incurred while a unit is on the housing market but not rented to its first tenant. "Seismic rehabilitation improvements," as used in this section, means improvements which are designed to increase seismic structural safety in accordance with a plan developed by a civil engineer, a structural engineer, or an architect for a particular building that has been identified as hazardous by the city or county in which the building is located in accordance with the criteria established by the Seismic Safety Commission pursuant to Section 8875.1 of the Government Code or in accordance with a previously adopted city or county seismic safety ordinance adopted pursuant to Section 19163.

(6) Upon request of the sponsor, the department may permit repayment of a sponsor's loan on the basis of net cash flow. The department shall develop a prepayment plan in conjunction with the sponsor which will ensure the maintenance of affordable rents and the fiscal integrity of the rental housing development. As an incentive to encourage the prepayment of loans, the department may permit the sponsor to retain one-half of the net cash flow. The department shall determine the method for calculating net cash flow, which may include a factor for excess debt service coverage or a return on cash investment to the sponsor.

(7) If a loan is made pursuant to this chapter for both seismic rehabilitation improvements and other eligible rehabilitation costs, only those costs related to the seismic rehabilitation improvements

shall be counted and included for purposes of the fund reservation made by Section 8878.20 of the Government Code.

(c) Principle and accumulated interest is due and payable upon completion of the term of the loan.

(1) "Maintain affordable rent levels," as used in this section, means rents may be automatically increased by the sponsor on an annual basis pursuant to an inflation index to be determined by the department. The inflation index shall reflect anticipated annual changes in rental housing development operating costs from a base year when the rents are initially established. Any sponsor may appeal to the department for a greater adjustment in rents necessary to ensure the fiscal integrity of the rental housing development. If the department does not respond within 60 days, the request shall be deemed approved. A 30-day written notice shall be given to each eligible household prior to an adjustment in the amount of rent.

(2) If a tenant's income exceeds the standard pursuant to which he or she was accepted for tenancy, that fact alone shall neither constitute cause for the tenant's eviction, nor be a violation of the sponsor's loan agreement. If a tenant's income exceeds the income limit for a household specified in Section 50079.5, the tenant shall be required to vacate the assisted unit within six months from the date of income recertification or notice to the sponsor of an increase in income over the permissible income level. That period may be extended by the sponsor for an additional six-month period in high cost rental areas with low vacancy rates, as determined by the department. Any vacant units shall be rented to eligible households until the required residency by eligible households is attained.

(d) Prior to disbursement of any funds for loans to rental housing developments made pursuant to this section, the department shall enter into a regulatory agreement with the sponsor in accordance with subdivision (d) of Section 50670, except that (1) the term of the regulatory agreement shall be for the original term of the loan and the agreement shall be binding upon the sponsor and successors in interest upon sale or transfer of the rental housing development or prepayment of the loan and (2) a nonprofit sponsor, other than a governmental agency, may maintain a debt service coverage ratio of 115 percent and distribute earnings in an amount no greater than 8 percent of the nonprofit sponsor's actual investment. The regulatory agreement also shall contain provisions requiring annual inspections and review of year-end fiscal audits and related reports by the department and provisions to maintain affordable rent levels to serve eligible households.

(e) Where loans will be used in conjunction with federal or other housing assistance or tax credits and a conflict exists between the other state or federal program requirements and those of this chapter with respect to the calculation of rents, the requirements of the Deferred Payment Rehabilitation Loan Program and the Special User Housing Rehabilitation Program may be waived only to the extent necessary to permit federal or other state financial

participation or eligibility for tax credits.

(f) "Sponsor," for purposes of this section, shall have the same meaning as the definition in subdivision (c) of Section 50669.

SEC. 3. Section 50808 is added to the Health and Safety Code, to read:

50808. For the purpose of providing grants to recipients for the development of emergency shelters for the homeless utilizing funds transferred to the Emergency Housing and Assistance Fund pursuant to subdivision (d) of Section 53130, the department shall not award more than five hundred thousand dollars ($500,000) to any eligible recipient under each application.

SEC. 4. Article 6 (commencing with Section 50771.1) is added to Chapter 9 of Part 2 of Division 31 of the Health and Safety Code, to read:

Article 6. Program Requirements

50771.1. For the purpose of providing deferred payment loans pursuant to this chapter for the development costs of rental housing developments utilizing moneys transferred to the Rental Housing Construction Fund pursuant to paragraph (1) of subdivision (a) of Section 53130 and paragraph (1) of subdivision (b) of Section 53130, the following special provisions shall prevail over conflicting provisions of this chapter:

(a) (1) Sponsor applications shall be accepted by the department at any time. Awards of funds shall be based on a quarterly ranking of sponsor applications. In making this ranking, notwithstanding Sections 50737 and 50737.5, priority shall be given to projects which (A) serve the greater number of eligible households, as defined in Section 50105 with the lowest incomes, (B) provide the greater number of units with three or more bedrooms, (C) are located in areas where the housing need is great, as determined by the department, taking into consideration, among other factors, variations in local development costs, low vacancy rates, high market rents, and long waiting lists for subsidized housing, (D) complement the implementation of an existing housing program, (E) maximize private, local, and other funding sources, and (F) are economically feasible given local market conditions. Subparagraph (B) above does not apply to applications for a residential hotel project.

(2) All loans shall be made directly from the department to the housing sponsor which applies to the department and will own, operate, and develop the housing development. The sponsor shall notify the local legislative body of its loan application prior to the funding award.

(3) A sponsor may apply for awards for one or more rental housing developments.

(4) The department shall evaluate the capability of the sponsor to own, construct, and manage the rental housing development.

(b) (1) A rental housing development may utilize any

combination of federal, state, local, and private financial resources necessary to make the development affordable, for the term of the state's regulatory agreement, to eligible households.

(2) (A) Loans to sponsors of housing developments shall be for a term not less than 40 years. After 30 years from the time the loan is made, the sponsor shall begin to repay the loan in accordance with a payment plan, as determined by the department, that will maintain the rents affordable to eligible households.

(B) The term of the loan and the time for repayment may be extended by the department for additional 10-year terms as long as the rental housing development is operated in a manner consistent with the regulatory agreement and the sponsor requires an extension in order to continue to operate in a manner consistent with this chapter.

(3) (A) Development costs shall include reasonable consulting fees, and other reasonable administrative expenses in connection with the planning and execution of the rental housing development, as determined by the department.

(B) A rental housing development shall include residential hotels, as defined in subdivision (b) of Section 50669.

(4) The sponsor shall maintain an emergency reserve to defray unanticipated cost increases or revenue shortfalls to maintain the fiscal integrity of the rental housing development and maintain affordable rents for eligible households.

(c) (1) "Maintain affordable rents," as used in this section for initial occupancy by eligible households, means: (A) the monthly rent including a reasonable utility allowance for eligible households whose income does not exceed 80 percent of area median income shall be the product of multiplying 30 percent times 60 percent of the area median income, adjusted for family size, divided by 12, and (B) the monthly rent including a reasonable utility allowance for eligible households whose incomes do not exceed 50 percent of area median income shall be the product of multiplying 30 percent times 35 percent of the area median income, adjusted for family size, divided by 12.

(2) The department shall develop an inflation index reflecting the annual anticipated changes in rental housing development operating costs from a base year. The inflation index shall be used by the sponsor to adjust the initial rent of each unit occupied by an eligible household to determine the annual rent. Any sponsor may appeal to the department for a greater adjustment in rents necessary to ensure the fiscal integrity of the housing development. If the department does not respond within 60 days, the request shall be deemed approved. A 30-day written notice shall be given to each eligible household prior to an adjustment in the amount of rent.

(3) The monthly rent including a reasonable utility allowance may be reduced by the sponsor, to make the units affordable to the lowest income household possible as long as the project remains economically feasible.

(4) (A) If a household's income exceeds the standard pursuant to which it was accepted for tenancy, that fact alone shall neither constitute cause for the household's immediate eviction nor be a violation of the owner's or sponsor's loan agreement.

(B) If, after annual income certification, an assisted unit becomes occupied by a household which does not meet the income limits specified in Section 50105, that household shall be permitted to continue to occupy that assisted unit. When there is a vacancy in an assisted unit formerly occupied by a household which meets the income limits specified in Section 50079.5, that unit shall be rented to a household which meets the income limits specified in Section 50105.

(C) If, after annual income certification, an assisted unit becomes occupied by a household which does not meet the income limits specified in Section 50079.5, that household shall be provided a six-month notice of termination. That period may be extended for an additional six-month period in high cost rental areas with low vacancy rates, as determined by the department. That household shall have first right of refusal to occupy any nonassisted unit which becomes available during both periods.

(d) (1) All state contracts and regulatory or development agreements subject to this article shall contain provisions requiring covenants of the housing sponsor to be secured by enforceable deed restrictions, which shall run with the land, notwithstanding any other provision of law, and requiring the sponsor's repayment obligation to be evidenced by a promissory note with a term of 40 years. The term of the contract and regulatory or development agreement shall be for the original term of the loan and shall be binding upon the sponsor or successors in interest in case of sale or transfer of the housing development or prepayment of the loan.

(2) All state contracts and regulatory or development agreements subject to this article shall contain provisions requiring that assisted units remain affordable to eligible households for 40 years plus any permitted extension.

(3) A nonprofit sponsor, other than a governmental agency, may maintain a debt service coverage ratio of 115 percent and distribute earnings in an amount no greater than 8 percent of the nonprofit sponsor's actual investment in the project.

(e) Where loans will be used in conjunction with federal and other state housing assistance or tax credit and a conflict exists between the other state and federal program requirements and this chapter regarding the test for determining a qualified low-income housing project, the requirements of the Rental Housing Construction Program may be waived only to the extent necessary to permit the federal or other state financial participation or eligibility for tax credits.

(f) (1) No energy standards shall be required of any housing development in excess of the energy standards required for housing developments financed by conventional funding sources.

(2) The department shall employ a licensed architect or an experienced building inspector, or both, to review plans, inspect, and monitor construction of, rental housing developments.

(g) A sponsor of a housing development may receive payments from the annuity fund pursuant to Section 50738.8 to the extent that there are unobligated moneys available in the fund.

(h) The department shall establish an emergency reserve account in the Rental Housing Construction Fund established pursuant to Section 50740 equal to 3 percent of the moneys transferred to subdivision (a) of Section 54015.

The department may expend moneys in the account to defray unanticipated cost increases or revenue shortfalls not covered by a rental housing development emergency reserve to the extent necessary to maintain the fiscal integrity of a rental housing development and maintain affordable rents for eligible households.

50771.2. (a) As an alternative to the loan provisions of paragraph (2) of subdivision (b) of Section 50771.1 and the regulatory agreement provisions of subdivision (d) of Section 50771.1, the department may permit the prepayment of a sponsor's loan anytime on the basis of net cash flow.

(b) The department shall develop a prepayment plan in conjunction with the sponsor which will ensure the maintenance of affordable rents and the fiscal integrity of the rental housing development. As an incentive to encourage the prepayment of loans, the department may permit the sponsor to retain one-half of the net cash flow. The department shall determine the method for calculating net cash flow, which may include a factor for excess debt service coverage or a return on cash investment to the sponsor.

SEC. 5. Chapter 15 (commencing with Section 50880) is added to Part 2 of Division 31 of the Health and Safety Code, to read:

CHAPTER 15. FAMILY HOUSING DEMONSTRATION PROGRAM

Article 1. Findings, Definitions, and General Provisions

50880. (a) The Legislature finds and declares that the traditional family structure has been altered significantly during the past four decades, resulting in a dramatic rise in single-parent households and in both parents working outside the home. The 1980 United States Census reveals that the percentage of married women with children working outside the home had risen from 30 percent in 1970 to 48 percent in 1981. The Legislature finds that the number of single-parent households has risen from 8 percent in 1960 to 19 percent in 1980. Most of these single-parent households will be poor unless environments are created to support the economic and social viability of one-parent families.

(b) The Legislature finds and declares that the lack of suitable housing, convenient and quality child care, and employment training programs, contributes to shockingly high rates of poverty

among single-parent households and very often, homelessness. One of every five children in America lives in poverty. Further, 64 percent of California families headed by women depend on Aid to Families with Dependent Children to survive.

(c) The Legislature finds and declares:

(1) Currently there are an estimated 10,000 to 30,000 homeless children in California, and additional children are in imminent danger of becoming homeless because of excessive rents, loss of family income, or deteriorating conditions in their current dwelling unit.

(2) Lack of adequate housing for homeless children exacerbates all the problems they face. A significant proportion of an entire generation will grow up without adequate health care, education, and socialization, and will be more prone to unemployment, hospitalization, and incarceration.

(d) The Legislature finds that in response to the direct link between poverty and lack of employment opportunities, it has passed legislation to establish a range of job creation, counseling, and training programs directed towards assisting persons in poverty. However, these programs often do not reach those persons most in need of them because the hardship of assembling a manageable package of work, child care, and affordable, safe housing, adds to the already burdened lives of working parents, often resulting in failure in one or more aspects of this often precarious arrangement.

(e) The Legislature finds and declares that the legislative findings and declarations set forth in Sections 1 to 5, inclusive, of both Chapters 1042 and 1043 of the Statutes of 1979, remain valid and are applicable to the program enacted by this chapter. The Legislature finds and declares that there is an urgent need to establish a demonstration program to design new living environments, part of which will include social and economic programs, so that working parents, job-seeking parents, and homeless parents can build productive lives for themselves and their children.

50881. This chapter shall be known and may be cited as the Family Housing Demonstration Program. The Family Housing Demonstration Program shall be operated as a component of the Rental Housing Construction Program of the department.

50881.5. The definitions of this section apply to all activities conducted pursuant to this chapter. Except as otherwise provided in this chapter, or unless the context requires otherwise, the definitions contained in Chapter 2 (commencing with Section 50050) of Part 1 shall also apply to this chapter.

(a) "Account" means the Family Housing Demonstration Account established by Section 50882.

(b) "Assisted unit" means a unit in a community housing development which is affordable to an eligible household as a result of a payment made by the department pursuant to this chapter. The department shall adopt regulations which establish a method for computing rents for eligible households in accordance with Section

50771.1.

(c) "Community housing development" means a development of 20 or more rental or cooperative units on one or more sites, which includes the social and economic features described in this chapter.

(d) "Congregate housing" or "congregate housing development," means a new or rehabilitated large multibedroom structure in which 2 to 10 households, inclusive, share common living areas and child care, cleaning, cooking, and other household responsibilities.

(e) "Development" means both new construction or rehabilitation.

(f) "Development or rehabilitation costs" has the same meaning as "development costs" as defined by subdivision (c) of Section 50735, paragraph (5) of subdivision (b) of Section 50668.5, and paragraph (3) of subdivision (b) of Section 50771.1, respectively.

(g) "Eligible household" means households as defined in Section 50079.5 or 50105, respectively.

(h) "Sponsor" means any nonprofit corporation, cooperative, or local public agency, or any combination thereof, including limited partnerships in which the managing general partner is an eligible nonprofit corporation.

50882. (a) The Family Housing Demonstration Account is hereby established in the Rental Housing Construction Fund. The account shall be organized into subaccounts as provided in this chapter. All of the following money shall be paid into the account:

(1) Any moneys appropriated and made available by the Legislature for the purposes of the account.

(2) Any moneys which the department receives in repayment or return of loans made from the account, including any interest on those loans.

(3) Any other moneys which may be made available to the department for the purposes of this chapter from any other source or sources.

(b) Notwithstanding Section 13340 of the Government Code, all money in the account is hereby continuously appropriated to the department and shall be utilized for the purposes of Article 1 (commencing with Section 50880) to Article 4 (commencing with Section 50893), inclusive, including administrative expenses of the department for the implementation and operation of the programs created by this chapter. All interest or other increment resulting from investment or deposit of moneys in the account shall be deposited in the account, notwithstanding Section 16305.7 of the Government Code. Moneys in the account are not subject to transfer to any other fund, except as set forth in this chapter, pursuant to any provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, except the Surplus Money Investment Fund.

(c) With the exception of those moneys transferred to the account pursuant to Section 50645, additional moneys transferred or

deposited in the account shall be utilized and apportioned in accordance with the following percentages unless the terms of the transfers or deposit provide otherwise:

(1) Not less than 25 percent, nor more than 35 percent, shall be utilized for congregate housing developments pursuant to this chapter.

(2) The balance shall be utilized for community housing developments pursuant to this chapter.

50883.5. (a) The department may deposit an amount not to exceed 10 percent of the moneys appropriated to the account in a feasibility subaccount in the account. The moneys in that account may be utilized to provide funds, as determined necessary by the department, to ensure the economic feasibility of, and to enable the development of, community housing developments or congregate housing developments assisted under this chapter.

(b) The department may deposit an amount not to exceed 3 percent of the funds appropriated to the account in an emergency reserve subaccount established in the account. The department may expend moneys in this account to defray unanticipated cost increases or revenue shortfalls, as determined by the department, to the extent necessary to maintain the fiscal integrity of the development and maintain affordable rents for eligible households.

(c) The subaccounts established by this section shall be governed by, and be subject to, all of the provisions governing the account.

50884. The department shall implement the program enacted by this chapter after adopting rules and regulations in a manner which will ensure that the initial requests for proposals for assistance to community housing developments and congregate housing developments can be released within nine months from the effective date of this chapter.

50884.5. The department shall submit a report on or before January 1, 1990, and on or before each January 1, thereafter, to the Legislature and the Governor on the administration and implementation of the programs and account which shall include, but not be limited to, all of the following information:

(a) The number of assisted and nonassisted units in community housing developments and the number of congregate housing developments occupied by, or available to, each income group and the number of elderly and nonelderly households assisted.

(b) The average and median cost of a congregate housing development and of a unit in each community housing development, and the cost of the child care center in each community housing development.

(c) The department's administrative costs and budget for implementation and management.

(d) Details of the implementation and success of the various components of the community housing development or congregate housing development, if applicable.

(e) The department's recommendations, as needed, to improve

the operation of the program and the account.

Article 2. Community Housing Developments

50887. The department shall make awards from the fund for the purposes of assisting the development of community housing developments. To the extent feasible, the department shall award approximately one-half of the available funds to community housing developments in the southern portion of the state and the balance to community housing developments in the northern portion of the state. To the extent feasible, at least 20 percent of these developments shall be in a rural area.

50887.5. The department is encouraged as appropriate to enter into interagency agreements with the Department of Commerce or any other state department or agency to ensure close coordination and cooperation in using the funds of the other departments or agencies for the jobs component, child care component, or other components of the housing developments.

50888. Each community housing development shall consist of three components: a housing component, a supportive services component, and a jobs and economic development component.

50888.3. The housing component of a community housing development shall include the following features and criteria:

(a) At least 30 percent of the units shall be assisted units, and those assisted units shall be available on a priority basis to, or occupied by, eligible households at affordable rent.

(b) Not less than one-half of all assisted units shall, to the extent feasible, be available on a priority basis to, or occupied by, households as defined in Section 50105.

(c) Not less than 20 percent nor more than 30 percent of all assisted units shall be occupied by elderly persons or households and the balance shall be available on a priority basis to, or occupied by, families with one or more children, depending on the size of the dwelling unit.

(d) Each community housing development shall include a range of unit sizes based on the number of bedrooms, including provision of three bedroom or larger units. The assisted units shall consist of substantially the same range of unit sizes as are available in nonassisted units, as determined by the department.

(e) Each community housing development shall include specialized design criteria which implement the purposes of this chapter, including designs and appliances to facilitate child care, designs and devices to facilitate security, and design criteria to meet the needs of elderly or handicapped persons.

50888.5. The jobs and economic development component of a community housing development shall include the following features and criteria:

(a) The sponsor shall propose and implement resident selection criteria and occupancy policies which consider existing employment

at nearby facilities, the potential of employment at nearby facilities through publicly assisted or other job-training or entry-level employment programs, and employment in the management and operation of the community housing development and its child care center.

(b) The sponsor shall propose and implement a program of job placement and training for residents, which shall be implemented within three years of initial occupancy.

(c) The sponsor shall propose and implement a program of employment and job training with respect to the community housing development.

50888.7. (a) The supportive services of the community housing development shall include all of the following features and criteria:

(1) A child care center and play area adequate in size for the children of the residents which may also serve children of nonresidents.

(2) A community room, which may also be the child care center.

(3) Adequate laundry facilities.

(b) The supportive services of the community housing development may include other features as appropriate.

50889. The community housing development shall include financial and nonfinancial public assistance and, to the extent feasible, private assistance in its development costs as well as its operating costs, as determined by the department. The department shall adopt regulations governing the minimum requirements for compliance with this section. The categories of assistance shall include, but not be limited to, all of the following:

(a) Direct financial grants from public and private sources including, but not limited to, Community Development Block Grants, Urban Development Assistance Grants, redevelopment agency grants, or foundation grants.

(b) Direct loans for construction, mortgages, or operational costs from state or local issuances of revenue bonds or redevelopment bonds, or other public or private loans which result in below market rate financing.

(c) Direct nonfinancial considerations, including those required pursuant to Chapter 4.3 (commencing with Section 65915) of Division 1 of Title 7 of the Government Code.

(d) Indirect financial considerations such as the waiver of local fees, the reduction or elimination of land dedications and impact fees, and the provision of infrastructure costs.

(e) Direct financial assistance from private industry councils and service delivery areas under Division 8 (commencing with Section 15000) of the Unemployment Insurance Code, or Article 3.1 (commencing with Section 11315) of Chapter 2 of Part 3 of Division 9 of the Welfare and Institutions Code or private sector investment in support of job training, job placement, or self-employment or residents or potential residents.

50889.5. The department shall accept sponsor applications at any

time. The department shall base awards of funds on a quarterly ranking of sponsor applications.

(a) In making this ranking, the department shall give priority to projects which do all of the following:

(1) Serve the greater number of eligible households with the lowest income, as defined in Section 50105, for the greatest period of time above the minimum number of years.

(2) Are located in areas where the housing need is great, as determined by the department, taking into consideration, among other factors, variations in local development costs, low vacancy rates, high market rents, and long waiting lists for subsidized housing.

(3) Complement the implementation of an existing housing program.

(4) Maximize private, local, and other funding sources.

(5) Are economically feasible given local market conditions.

(b) In making funding awards, the department also shall evaluate the capability of the sponsor to own, construct or rehabilitate, and manage the housing development.

Article 3. Congregate Housing

50890. The Legislature finds and declares that, in addition to the need for housing which is described in this chapter as community housing developments, there is an additional critical need for smaller scale congregate housing suitable to single-parent intergenerational households in which three to six families share large, multibedroom houses with common living areas and who share child care, cleaning, cooking, and other household responsibilities.

The Legislature further finds and declares that congregate housing can be constructed or converted at little more cost than conventional housing, and at less cost than conventional apartment houses. The purposes of this housing can be achieved through a combination of innovative and traditional designs, including, but not limited to, the construction of "flexibility" houses where only the exterior walls and those around the kitchen and bathroom are permanent, or the use of large rooms with interior sliding doors or screens to provide for personal or social spaces.

The Legislature further finds and declares that this type of housing can reduce reliance on public assistance; increase self-reliance and joint problem solving; assist single parents to obtain and keep employment; provide fulfilling activity for elderly or handicapped persons; provide for more economical use of housing stock; and ensure the use of scarce family resources in a manner which maximizes the health, safety, and development of children and younger single parents. Notwithstanding all of these benefits, there are no public programs which assist in the provision or financing of this housing, and private financing or provision of this housing is almost nonexistent.

50891. In implementing this article, the department shall comply

with all of the following requirements:

(a) The department shall apply the requirements and priorities of Sections 50887, 50893, and 50889.5 in the selection of congregate housing developments for funding.

(b) The procedural and substantive requirements of Article 4 (commencing with Section 50893) shall apply to congregate housing, to the maximum extent feasible, as determined by the department, given the nature of congregate housing.

50891.5. Each congregate housing development shall, to the maximum extent feasible, as determined by the department, incorporate the design, social, and economic development components of Sections 50888.5 to 50889, inclusive, considering the size, design, and purpose of these units. These selection and occupancy criteria shall, in addition, include an agreement by the residents to undertake joint responsibility for maintenance and the social and economic components of the housing. The department may require professional management and maintenance of each project to supplement that provided by the residents of the housing development.

Article 4. Program Operations

50893. The department shall make, or undertake commitments to make, construction or rehabilitation loans, including land acquisition costs, and mortgage loans of at least 20 years and no more than 30 years duration to sponsors to finance the development of community housing developments. The development cost payments may be provided as loans to be repaid at 3 percent interest and payments of principal or interest, or both, may be deferred or made payable over a period of time. For these purposes, the department shall enter into regulatory agreements and other agreements, and security documents, with the sponsors receiving funds from the fund. Upon the recordation, the regulatory agreement and all other agreements or documents included or incorporated by reference within the regulatory agreement shall constitute enforceable restrictions upon the property for the original term of the loan.

50893.3. (a) The cost of development of any common portions of the development shall be allocated to the fund in the same ratio as the ratio between assisted and nonassisted units in the community housing development.

(b) Not more than 50 percent of the cost of the child care center and related play area shall be paid for from the account, notwithstanding the ratio between assisted and nonassisted units.

(c) The department shall develop an inflation index reflecting the annual anticipated changes in rental housing development operating costs from a base year. The inflation index shall be used by the sponsor to adjust the initial rent of each unit occupied by an eligible household to determine the annual rent. Any sponsor may appeal to the department for a greater adjustment in rents necessary to ensure

the fiscal integrity of the rental housing development. If the department does not respond within 60 days, the request shall be deemed approved. A 30-day written notice shall be given to each eligible household prior to an adjustment in the amount of rent.

(d) The department annually may approve a reduction in the number of assisted units to less than the number agreed upon, or less than 30 percent, only if the department determines that it is necessary to maintain the fiscal integrity of the development. If the number of units occupied by eligible households in the community housing development ever falls below the number agreed to by the department and sponsor, then the next units which become available for occupancy shall be made available on a priority basis to eligible households, as required, until the number of units so occupied equals at least the number specified in the agreement.

50893.5. The department shall monitor the construction and operation of the community housing developments developed pursuant to this chapter in order to ensure compliance with loan conditions, contract obligations, and this chapter and any regulations adopted pursuant to this chapter.

50893.7. The regulatory agreement shall contain at least the following provisions, and any others determined necessary by the department, each of which is a binding requirement:

(a) Substantially the same provisions as are required by Sections 50766 and 50767, except that they shall be applicable to sponsors and developments assisted pursuant to this chapter and the requirements of this chapter.

(b) A description of, and requirements governing, all social and economic components of the community housing development and the sponsor's affirmative responsibilities with respect to the components.

(c) A provision making the convenants and conditions of the agreement binding upon successors in interest of the sponsor.

(d) For sponsors other than a governmental agency, a provision limiting the distribution of the sponsor's earnings to an annual amount no greater than 8 percent of the sponsor's actual investment, excluding unaccrued liabilities of the sponsor, in the assisted units of the community housing development. The sponsor, if other than a governmental agency, may elect to maintain a debt service coverage ratio of 115 percent.

(e) Provisions setting forth the terms of, and the implementation of, occupancy agreements, including provisions for eviction for "good cause." "Good cause" as used in this subdivision, means the allegation of facts necessary to prove major, or repeated minor, violations of material provisions of the occupancy agreement which detrimentally affect the health and safety of other persons or the structure, the fiscal integrity of the development, or the purposes or special programs of the development.

(f) Provisions for grievance hearings and other resident protections which ensure reasonable security of continued

occupancy.

(g) Provisions to ensure that if an eligible household's income exceeds the standard pursuant to which it was accepted for tenancy, that fact alone shall neither constitute cause for the eviction nor be a violation of the sponsor's loan agreement.

(1) If, after annual income certification, an assisted unit becomes occupied by a household which does not meet the income limits specified in Section 50105, that household shall be permitted to continue to occupy that assisted unit. When there is a vacancy in an assisted unit formerly occupied by a household which meets the income limits specified in Section 50079.5, that unit shall be rented to a household which meets the income limits specified in Section 50105.

(2) If, after annual income certification, an assisted unit becomes occupied by a household which does not meet the income limits specified in Section 50079.5, that household shall be provided a six-month notice of termination. The period may be extended for an additional six-month period in high cost rental areas with low vacancy rates as determined by the department. That household shall have first right of refusal to occupy any nonassisted unit which becomes available during both periods.

50893.9. The regulations adopted by the department pursuant to this chapter for community housing developments shall do all of the following:

(a) Ensure that services, including child care, have costs which are based on household income and ability to pay.

(b) Ensure that there is an adequate management plan which includes an affirmative marketing plan.

(c) Ensure that all of the following apply to cooperatives and limited equity cooperatives:

(1) The down payment for an assisted unit shall not exceed 2.5 percent or the prorated development cost of the unit.

(2) Any payment prior to occupancy shall not exceed 10 percent of the income of the household for the prior calendar year.

(3) There is a limitation on the rate of appreciation on any assisted unit.

50894. Where loans will be used in conjunction with federal and other state housing assistance or tax credits, and a conflict exists between the other state and federal program requirements and this chapter, the requirements of this chapter may be waived only to the extent necessary to permit the federal or other state financial participation or eligibility for tax credits.

SEC. 6. Chapter 6.8 (commencing with Section 51341) is added to Part 3 of Division 31 of the Health and Safety Code, to read:

CHAPTER 6.8. HOME PURCHASE ASSISTANCE PROGRAM

51341. The Legislature finds and declares that:

(a) There is a continuing and urgent need to provide affordable

mortgage financing to meet the increasingly unfulfilled housing needs of citizens of this state, (b) there is a need to develop financial mechanisms to make homes affordable to first-time homebuyers, (c) the high cost of housing impedes the ability of California employers to compete in the national marketplace for employees, and (d), therefore, this chapter is enacted to make existing tax-exempt and taxable bond financing for residential mortgages more affordable to California's first-time homebuyers.

51342. This chapter shall be known and may be cited as the Roberti-Greene Home Purchase Assistance Program.

51344. There is hereby created in the State Treasury a Home Purchase Assistance Fund. "Fund," as used in this chapter, means the Home Purchase Assistance Fund. Notwithstanding the provisions of Section 13340 of the Government Code, all moneys in the fund are continuously appropriated to the agency, without regard to fiscal years, for expenditure pursuant to this chapter and defraying actual administrative costs of the agency. Notwithstanding the provisions of Section 16305.7 of the Government Code, any interest earned or other increment derived from investments made from moneys in the fund shall be deposited in the fund.

51345. (a) The agency shall administer a home purchase assistance program in accordance with this chapter. The purpose of the home purchase assistance program is to assist first-time homebuyers to utilize existing mortgage financing available pursuant to this part or Division 4 (commencing with Section 800) of the Military and Veterans Code with the additional financial resources made available pursuant to Part 8 (commencing with Section 53130).

(b) Home purchase assistance under this chapter shall include, but not be limited to: (1) an interest rate subsidy to reduce the interest rate , (2) a deferred-payment, low-interest, second-mortgage loan to reduce the principal and interest payments, and (3) downpayment assistance to make financing affordable to first-time homebuyers.

(c) The amount of home purchase assistance shall not exceed the amount necessary to make the total debt financing affordable to eligible households, but in no case shall the interest rate subsidy reduce the effective interest rate to the borrower below 3 percent per annum, nor shall the deferred-payment, low-interest, second-mortgage loan exceed 49 percent of the total debt financing necessary to purchase the home. The agency shall require periodic recertification of the household's income to determine whether home purchase assistance can be reduced or terminated.

(d) The amount of home purchase assistance shall be a second-mortgage loan secured by a deed of trust of second priority to the primary financing provided by the agency or the Department of Veterans Affairs. The term of the home purchase assistance shall not exceed the term of the primary loan.

(e) The amount of home purchase assistance shall be due and

payable at end of term or upon sale of the home or refinancing. If there are insufficient proceeds from the sale or refinancing to reimburse the borrower for the amount of the borrower's share of the original downpayment plus the cost to the borrower of any substantial improvements, the principal and interest due on the home purchase assistance shall be reduced by that amount. In no case shall the amount of principal and interest due and payable by the borrower on the primary financing be reduced for this purpose. All repayments shall be deposited in the fund.

51346. The agency may execute a contract with the Department of Veterans Affairs to provide home purchase assistance to first-time veteran homebuyers.

51347. The agency may provide mortgage insurance for the home purchase assistance provided pursuant to this chapter and may use not more than 15 percent of the moneys provided for purposes of this chapter for mortgage insurance.

51348. No more than 50 percent of the home purchase assistance provided under this chapter shall be for the purchase of homes that have not been previously occupied

51349. (a) The agency shall have all the powers conferred upon it by this part and Part 4 (commencing with Section 51600) in administering this chapter.

(b) The authority provided by this section shall be conferred upon the Department of Veterans Affairs by any contract executed pursuant to Section 51346, with respect to the assistance being provided pursuant to the contract.

SEC. 7. Part 8 (commencing with Section 53130) is added to Division 31 of the Health and Safety Code, to read:

PART 8. ALLOCATION OF HOUSING BOND REVENUES

53130. (a) Moneys deposited in the Home Building and Rehabilitation Fund from the sale of bonds pursuant to Part 9 (commencing with Section 53150), shall be allocated for expenditure in accordance with the following schedule:

(1) Two hundred million dollars ($200,000,000) shall be transferred to the Rental Housing Construction Fund to be expended for the programs authorized by Chapter 9 (commencing with Section 50735) of Part 2, except Sections 50738.5 and 50745.1.

(2) Twenty-five million dollars ($25,000,000) shall be transferred to the Housing Rehabilitation Loan Fund to be expended for the purpose of making deferred-payment loans to acquire and rehabilitate residential hotels, as authorized by Section 50670.

(3) Twenty-five million dollars ($25,000,000) shall be transferred to the Emergency Housing and Assistance Fund to be expended for the programs authorized by Chapter 11 (commencing with Section 50800) of Part 2.

CHAPTER 40

An act to repeal Article 3 (commencing with Section 12570) of Chapter 6 of Title 2 of Part 4 of the Penal Code, relating to firearms.

[Approved by Governor March 18, 1988 Filed with Secretary of State March 18, 1988]

[Approved by Governor March 18, 1988. Filed with Secretary of State March 18, 1988]

The people of the State of California do enact as follows:

SECTION 1. Section 22356 of the Vehicle Code is amended to read:

22356. Whenever the Department of Transportation, after consultation with the Department of the California Highway Patrol, determines upon the basis of an engineering and traffic survey on

existing freeway segments, or upon the basis of appropriate design standards and projected traffic volumes in the case of newly constructed freeway segments, that a speed greater than 55 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any state highway, or portion thereof, which is a freeway with full control of access and without crossings at grade otherwise subject to a maximum speed limit of 55 miles per hour, the Department of Transportation, with the approval of the Department of the California Highway Patrol, may declare a higher maximum speed of 60 or 65 miles per hour, and shall cause appropriate signs to be erected giving notice thereof. The Department of Transportation shall only make a determination under this section that is fully consistent with, and in full compliance with, federal law.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The implementation of higher speed limits on noninterstate freeways as proposed by this bill will allow the Department of the California Highway Patrol to make more efficient use of its limited resources for purposes other than speed limit enforcement, and it is therefore necessary that this act take effect immediately.

CHAPTER 42

An act to add Chapter 21.9 (commencing with Section 17698) to Part 10 of the Education Code, relating to providing for the preparation, issuance, and sale of bonds of the State of California to fund school construction, and providing for the submission of the measure to a vote of the people, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Chapter 21.9 (commencing with Section 17698) is added to Part 10 of the Education Code, to read:

CHAPTER 21.9. 1988 SCHOOL FACILITIES BOND ACT

17698.10. The State General Obligation Bond Law (Chapter 4

(commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and that law.

17698.15. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means the State School Building Finance Committee created by Section 15909.

(b) "Board" means the State Allocation Board.

(c) "Fund" means the State School Building Lease-Purchase Fund.

17698.20. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 22 (commencing with Section 17700)), the purposes authorized under Section 17698.96, and of all acts amendatory thereof and supplementary thereto, and to provide funds to repay any money advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act, and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of eight hundred million dollars ($800,000,000), not including the amount of any refunding bonds issued in accordance with Section 17698.93, in the manner provided herein, but not in excess thereof.

17698.25. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on the bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of the revenue, to do and perform each and every act which shall be necessary to collect the additional sum.

On the several dates of maturity of the principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund exclusive of funds transferred pursuant to subdivision (f) of Section 6217 of the Public Resources Code, not in excess of the principal of and interest on the

bonds then due and payable, except as herein provided for the prior redemption of the bonds, and, in the event the money so returned on the dates of maturity is less than the principal and interest then due and payable, then the balance remaining unpaid shall be returned to the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

17698.30. All money deposited in the fund under Section 17732 and pursuant to Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code shall be available only for transfer to the General Fund, as provided in Section 17698.25. When transferred to the General Fund, the money shall be applied as a reimbursement of the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by the transfer of funds.

17698.35. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, an amount that will equal the following:

(a) The sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as the principal and interest become due and payable.

(b) The sum as is necessary to carry out Section 17698.40, which sum is appropriated without regard to fiscal years.

17698.40. For the purposes of carrying out the provisions of this chapter, the Director of Finance may, by written order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund, together with interest at the rate paid on moneys in the Pooled Money Investment Account, for moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

17698.50. Upon request of the board from time to time, supported by a statement of the apportionments made and to be made under Chapter 22 (commencing with Section 17700), the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to fund the apportionments, and, if so, the amount of bonds to be issued and sold. The entire amount authorized by this chapter shall become available for apportionment on December 1, 1988. The Treasurer shall sell the bonds so determined at such different times as necessary to service expenditures required by the apportionments.

17698.55. The board may request the Pooled Money Investment Board for a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, and may

execute those documents required by the Pooled Money Investment Board to obtain and repay the loan. The loan shall be deposited in the fund for the purpose of carrying out the provisions of this chapter. The amount of the loan shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purposes of this chapter.

17698.60. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, the computation to be made on a 360-day-year basis.

17698.70. The committee may authorize the Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the Treasurer.

17698.80. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 17698.25 to pay principal and interest on bonds.

17698.90. With respect to the proceeds of bonds authorized by this chapter, all provisions of Chapter 22 (commencing with Section 17700) shall apply.

17698.93. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance and sale or exchange of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code. The approval by the electors of this state of the issuance and sale of bonds under this chapter includes approval of the issuance and sale or exchange of any bonds issued to refund either those bonds or any previously issued refunding bonds.

17698.95. Out of the first money realized from the sale of bonds under this chapter, there shall be repaid any moneys advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act.

17698.96. (a) Of the proceeds from the sale of bonds pursuant to this chapter:

(1) Not more than one hundred million dollars ($100,000,000) may be used for the reconstruction or modernization of facilities within the meaning of Chapter 22 (commencing with Section 17700).

(2) Not more than twenty million dollars ($20,000,000) may be used for the purchase and installation of air-conditioning equipment and insulation materials pursuant to Section 42250.1.

(3) Not more than one hundred million dollars ($100,000,000) may be used for the identification, assessment, and abatement of hazardous asbestos in school facilities.

(b) Notwithstanding subdivision (a), in the event the board determines at any time that the maximum amount made available

pursuant to any of the paragraphs in that subdivision exceeds the amount necessary to fund the qualified recipients of the apportionment authorized under that paragraph, the board may expend any portion of that excess for the construction of new school facilities pursuant to Chapter 22 (commencing with Section 17700) or for any one or more of the purposes described in subdivision (a).

SEC. 2. Section 1 of this act shall become operative upon the adoption by the people of the 1988 School Facilities Bond Act, as set forth in Section 1 of this act. (e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act contained in Section 1 of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot pamphlet shall, notwithstanding Section 3578 of the Elections Code, be mailed at least 14 days before the election.

SEC. 4. All ballots at the election shall have printed thereon and in a square thereof, the words: "1988 School Facilities Bond Act," and in the same square under the words the following in 8-point type: "This act provides for a bond issue of eight hundred million dollars ($800,000,000) to provide capital outlay for construction or

Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act. However, where the voting of the election is done by means of voting machines used pursuant to law in such manner as to carry out the intent of this section, the use of the voting machines, and the expression of the voters' choice by means thereof, shall be deemed to comply with the provisions of this section.

The money in the fund may be expended only as herein provided.

7413. Money in the fund may only be expended pursuant to appropriations by the Legislature.

7414. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

An act to add Chapter 14.3 (commencing with Section 67330) to Part 40 of the Education Code, relating to financing higher education costs by providing the funds necessary therefor through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 18, 1988. Filed with Secretary of State March 18, 1988]

The people of the State of California do enact as follows:

SECTION 1. Chapter 14.3 (commencing with Section 67330) is added to Part 40 of the Education Code, to read:

CHAPTER 14.3. HIGHER EDUCATION FACILITIES BOND ACT OF 1988

Article 1. General Provisions

67330. This chapter shall be known and may be cited as the Higher Education Facilities Bond Act of 1988.

67331. The Legislature finds and declares all of the following:

(a) California's economic and social prosperity relies on a higher education system that keeps pace with California's growth. In the coming decades, the state's economic prosperity will depend on increasing the productivity of the work force and on the ability to compete successfully in the world marketplace.

(b) The system of public higher education in this state includes the University of California, the California State University, the California community colleges, and the California Maritime Academy. Each of these institutions plays a vital role in maintaining California's dominance in higher education in the United States.

(c) Over the last several years, studies have been completed by the University of California, the California State University, and the California community colleges to assess their long-term and short-term capital needs, which studies demonstrate that these needs total, in the aggregate, several billion dollars.

(d) The purpose of the Higher Education Facilities Bond Act of 1988 is to assist in meeting the capital outlay financing needs of California's public higher education system.

67332. As used in this chapter, the following terms have the following meanings:

(a) "Committee" means the Higher Education Facilities Finance Committee created pursuant to Section 67353.

(b) "Fund" means the 1988 Higher Education Capital Outlay Bond Fund created pursuant to Section 67333.

Article 2. Higher Education Facilities Bond Act Program

67333. The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the 1988 Higher Education Capital Outlay Bond Fund, which is hereby created.

67334. (a) The committee shall be and is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of funding aid to the University of California, the California State University, the California community colleges, and the California Maritime Academy for the construction, including the construction of buildings and the acquisition of related fixtures, renovation, and reconstruction of facilities, for the acquisition of sites upon which these facilities are to be constructed, for the equipping of new, renovated, or reconstructed facilities, and to provide funds for payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings.

(b) Moneys made available under Section 67340 or 67342 may be used to provide short-term loans to community colleges for the purchase of instructional equipment. Those loans shall be repaid from the first moneys available in the Capital Outlay Fund for Public Higher Education beginning in the 1989–90 fiscal year, or from proceeds of the bonds.

Article 3. Fiscal Provisions

67335. (a) Bonds in the total amount of six hundred million dollars ($600,000,000), not including the amount of any refunding bonds issued in accordance with Section 67343, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the committee at such different times as necessary to service expenditures required by the apportionments.

67336. The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter. For purposes of the State General Obligation Bond Law, the State Public Works Board is designated

the "board."

67337. The committee shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 67334 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

67338. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

67339. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 67340, appropriated without regard to fiscal years.

67340. For the purposes of carrying out this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, together with interest at the rate paid on moneys in the Pooled Money Investment Account, from money received from the sale of bonds for the purpose of carrying out this chapter.

67341. All money deposited in the fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

67342. The board may request the Pooled Money Investment Board for a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, and may execute those documents required by the Pooled Money Investment Board to obtain and repay the loan. The loan shall be deposited in the fund for the purpose of carrying out the provisions of this chapter. The amount of the loan shall not exceed the amount of the

unsold bonds that the committee, by resolution, has authorized to be sold for the purposes of this chapter.

67343. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance and sale or exchange of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code. The approval by the electors of this state of the issuance and sale of bonds under this chapter includes approval of the issuance and sale or exchange of any bonds issued to refund either those bonds or any previously issued refunding bonds.

SEC. 2. Section 1 of this act shall take effect upon the adoption by the voters of the Higher Education Facilities Bond Act of 1988, as set forth in Section 1 of this act.

SEC. 3. Section 1 of this act shall be submitted to the voters at the next statewide general election, to be held November 8, 1988, in accordance with provisions of the Government Code and the Elections Code governing submission of statewide measures to the voters, and shall appear as the first proposition on the ballot.

SEC. 4. Notwithstanding any other provision of law, all ballots of the election shall have printed thereon and in a square thereof, the words: "Higher Education Facilities Bond Act of 1988," and in the same square under those words, the following in eight-point type: "This act provides for a bond issue of six hundred million dollars ($600,000,000) to provide funds for the construction or improvement of facilities of California's public higher education institutions, including the University of California's nine campuses, the California State University's 19 campuses, the 70 districts of the California community colleges, and the California Maritime Academy. The use of funds authorized under this act includes, but is not necessarily limited to, the construction or improvement of classrooms, laboratories, and libraries, and the implementation of earthquake and other health or safety improvements." Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the measure proposed by this act may be considered and become operative at an appropriate time, it is necessary that this act take effect immediately.

CHAPTER 45

An act to add Chapter 16 (commencing with Section 14000) to Division 7 of the Water Code, relating to financing a program of aid in the planning, design, and construction of facilities for the protection of domestic water supplies by providing the funds necessary therefor through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 18, 1988 Filed with Secretary of State March 18, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 16 (commencing with Section 14000) is added to Division 7 of the Water Code, to read:

CHAPTER 16. CALIFORNIA SAFE DRINKING WATER BOND LAW OF 1988

Article 1. General Provisions

14000. This chapter shall be known and may be cited as the California Safe Drinking Water Bond Law of 1988.

14001. The Legislature hereby finds and declares all of the following:

(a) The State Department of Health Services has discovered toxic chemicals in 126 of California's large public drinking water systems.

(b) Many of the chemical contaminants in California's drinking water supplies are known or suspected of causing cancer, birth defects, and other serious illnesses.

(c) New monitoring programs for small public water systems are expected to identify many new toxic contamination problems. It is unlikely that these problems can be solved without financial assistance from the State of California.

14002. The Legislature further finds and declares that the protection of the health, safety, and welfare of the people of California requires that water supplied for domestic purposes be at all times pure, wholesome, and potable, and that it is in the interest of the people that the State of California provide technical and financial assistance to the end that the people of California are assured a safe, dependable, and potable supply of water for domestic purposes and that water is available in adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes.

14003. The Legislature further finds and declares that it is the intent of the Legislature to provide for the upgrading of domestic water supply systems to assure that all domestic water supplies at

least meet minimum domestic water supply standards established under Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

14004. As used in this chapter, the following terms shall have the following meanings:

(a) "Committee" means the Safe Drinking Water Finance Committee created by Section 14032.

(b) "Cost-per-connection" means the total amount of funds in grants or loans, or combination thereof, to be provided by the department to a supplier for any project, divided by the number of service connections in the water system.

(c) "Department" means the Department of Water Resources.

(d) "Domestic water system" means a system for the provision to the public of piped water for human consumption, if the system has at least five service connections or regularly supplies water to at least 25 individuals. The term includes any water supply, treatment, storage, and distribution facilities under the control of the operator of the system.

(e) "Fund" means the California Safe Drinking Water Fund created pursuant to Section 14010.

(f) "Supplier" or "supplier of water" means any person, partnership, corporation, association, or other entity or political subdivision of the state which owns or operates a domestic water system.

(g) "Federal assistance" means funds available, or which may become available, to a supplier either directly or through allocation by the state from the federal government as grants or loans for the improvement of domestic water systems.

(h) "Treatment works" means any devices or systems used in the treatment of water supplies, including necessary lands, which render water supplies pure, wholesome, and potable for domestic purposes.

(i) "Project" means proposed facilities for the construction, improvement, or rehabilitation of the domestic water system, and may include water supply, treatment works, and all or part of a water distribution system, if necessary to carry out the purpose of this chapter.

(j) "Public agency" means any city, county, city and county, district, joint powers authority, or other political subdivision of the state which owns or operates a domestic water system. For purposes of this chapter, Chapter 10.2 (commencing with Section 13810), Chapter 10.5 (commencing with Section 13850), Chapter 10.6 (commencing with Section 13880), and Chapter 10.7 (commencing with Section 13895) a political subdivision of the state may be any public agency.

Article 2. California Safe Drinking Water Program

14010. The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the California Safe Drinking Water

Fund, which is hereby created.

14011. (a) Notwithstanding Section 13340 of the Government Code, an aggregate amount of seventy-five million dollars ($75,000,000) of the moneys in the fund are hereby continuously appropriated and shall be used for the purposes set forth in this section and Section 14029.

(b) The department may enter into contracts with suppliers having authority to construct, operate, and maintain domestic water systems, for loans to suppliers to aid in the construction of projects which will enable the supplier to meet, at a minimum, safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

(c) Any contract entered into pursuant to this section may include provisions as agreed by the parties thereto, and the contract shall include, in substance, all of the following provisions:

(1) An estimate of the reasonable cost of the project.

(2) An agreement by the department to loan to the supplier, during the progress of construction or following completion of construction as agreed by the parties, an amount which equals the portion of construction costs found by the department to be eligible for a state loan.

(3) An agreement by the supplier to repay the state over a period not to exceed 50 years, (A) the amount of the loan, (B) the administrative fee as described in Section 14022, and (C) interest on the principal, which is the amount of the loan plus the administrative fee.

(4) An agreement by the supplier, (A) to proceed expeditiously with, and complete, the project, (B) to commence operation of the project upon completion thereof, and to properly operate and maintain the project in accordance with the applicable provisions of law, (C) to apply for, and make reasonable efforts to secure, federal assistance for the project, (D) to secure approval of the department and of the State Department of Health Services before applying for federal assistance in order to maximize and best utilize the amounts of that assistance available, and (E) to provide for payment of the supplier's share of the cost of the project, if any.

(d) Bond proceeds may be used for a grant program in accordance with this chapter, with grants provided to suppliers that are political subdivisions of the state that are otherwise unable to meet minimum safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code. The total amount of grants made pursuant to this chapter shall not exceed twenty-five million dollars ($25,000,000).

(e) Notwithstanding any other provision, the proceeds of any bonds authorized to be issued under the California Safe Drinking Water Bond Law of 1976 (Chapter 10.5 (commencing with Section 13850)), the California Safe Drinking Water Bond Law of 1984

(Chapter 10.2 (commencing with Section 13810)), and the California Safe Drinking Water Bond Law of 1986 (Chapter 10.7 (commencing with Section 13895)) which are unissued and uncommitted on the effective date of this chapter, shall be used for loans and grants to suppliers in accordance with the terms, conditions, and purposes of this chapter.

(f) The Treasurer shall determine the interest rate to be paid on loans issued under the Safe Drinking Water Bond Law of 1976 (Chapter 10.5 (commencing with Section 13850)), as required under Section 13867, equal to the average interest rate, computed by the true interest cost method, paid by the state on general obligation bonds sold pursuant to that chapter up to the effective date of this chapter.

14012. (a) The department may make state grants to suppliers that are political subdivisions of the state, from moneys in the fund available for that purpose pursuant to subdivision (d) of Section 14011, to aid in the construction of projects which will enable the public agency to meet, at a minimum, safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code. A grant may be made by the department only upon the specific approval of the Legislature.

(b) Any contract for a grant entered into pursuant to this chapter may include provisions as agreed by the parties thereto, and the contract shall include, in substance, all of the following provisions:

(1) An estimate of the reasonable cost of the project.

(2) An agreement by the department to grant to the public agency, during the progress of construction or following completion of construction as agreed by the parties, an amount which equals the portion of construction costs found by the department to be eligible for a state grant.

(3) An agreement by the public agency, (A) to proceed expeditiously with, and complete, the project, (B) to commence operation of the project upon completion thereof, and to properly operate and maintain the project in accordance with the applicable provisions of law, (C) to apply for, and make reasonable efforts to secure, federal assistance for the project, (D) to secure approval of the department and of the State Department of Health Services before applying for federal assistance in order to maximize and best utilize the amounts of that assistance available, and (E) to provide for payment of the public agency's share of the cost of the project, if any.

14013. Applications for loans and grants under this chapter shall be made to the department in the form and with the supporting material as prescribed by the department.

14014. The department shall prepare an annual report on all grant commitments made, or grant contracts entered into, pursuant to this chapter. The report shall be filed with the Legislature, if it is in session or, if it is not in session, with the Joint Rules Committee.

The report shall be filed on or before January 31 of each year for grant commitments made, or grant contracts entered into, by the department during the previous calendar year.

14015. (a) Loans and grants may be made only for projects for domestic water systems. The State Department of Health Services may make reasonable allowance for future water supply needs and may provide for additional capacity when excessive costs would be incurred by later enlargement. The loans and grants may be made for all, or any part, of the cost of constructing, improving, or rehabilitating any system when, in the judgment of the State Department of Health Services, improvement or rehabilitation is necessary to provide pure, wholesome, and potable water in adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes. The State Department of Health Services shall determine and notify applicants of eligibility of components requested to be included in the proposed project. The department shall use this determination as a basis for disbursing funds. No single public agency shall receive grants pursuant to this chapter totaling more than four hundred thousand dollars ($400,000). Loans may be made to provide for the purchase of a water system or the purchase of watershed lands. No loan to an individual supplier shall exceed the sum of five million dollars ($5,000,000), unless the Legislature by an act raises the limit specified in this section.

(b) Upon receipt of an application for a grant or loan pursuant to this chapter, the department shall propose to the applicant improvements to the applicant's water development, distribution, and utilization system which will conserve water in a cost-effective manner. These improvements may include, but need not be limited to, leak detection and repair programs, valve repair and replacement, meter calibration and replacement, physical improvements to achieve corrosion control, distribution and installation of water conservation devices and fixtures, and other capital improvements which can be demonstrated to conserve water in a cost-effective manner. The department and applicant may agree to include these capital improvements in the grant or loan. Failure by the applicant to include water conservation capital improvements in the grant or loan application shall not be sufficient cause for the department to refuse to make the grant or loan.

14016. An application for a grant pursuant to this chapter shall not be approved by the department, unless the State Department of Health Services determines that the public agency is otherwise unable to meet minimum safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

No grant shall be made by the department except upon approval by the State Department of Health Services of project plans submitted by the applicant and upon written approval by the State Department of Health Services that the proposed project is consistent with Chapter 7 (commencing with Section 4010) of Part

1 of Division 5 of the Health and Safety Code.

14017. First priority for grants shall be granted to public agencies having immediate health related problems, as certified by the State Department of Health Services. Additional high priority shall be granted to projects to correct immediate problems, as opposed to grants for construction of projects to meet future growth needs.

14018. First priority for loans shall be given to suppliers with the most critical public health problems. Priority for loans shall also be given to suppliers which have a lesser capability to reasonably finance system improvements.

14019. Preliminary design work, including a cost estimate for the project, shall be completed before a loan or grant is awarded. Operation and maintenance costs shall be the responsibility of the supplier and may not be considered as part of the project cost. Costs for planning and preliminary engineering studies may be reimbursed following the receipt of a loan or grant, subject to approval by the department and the State Department of Health Services.

14020. No application for a grant may be made pursuant to this chapter unless the public agency has also applied for a loan pursuant to this chapter. A public agency shall be eligible for a grant only to the extent that the department finds that the agency is found unable to repay the full costs of a loan.

If the department has determined that the applicant is unable to repay the full costs of a loan, the applicant may also file for a grant. Upon receipt of a grant application, the department shall determine that portion of the full costs that the applicant is capable of repaying. Grant funds shall only be provided for that portion that the applicant is not capable of repaying.

14021. Grant funds shall be expended by the public agency within three years of the making of the grant. No grant funds may be expended by the public agency unless the public agency is able to demonstrate to the department, within one year of the making of the grant, supported by an acceptable bid, that the amount to be expended for the project will be within 20 percent of the public agency's cost estimate for the project.

14022. For the purpose of administering this chapter, the total expenditures of the department and the State Department of Health Services may not exceed 5 percent of the total amount of the bonds authorized to be issued under this chapter. The department shall establish a reasonable schedule of administrative fees for loans, which fees shall be paid by the supplier pursuant to Section 14011, to reimburse the state for the costs of state administration of this chapter.

Charges incurred by the Attorney General in protecting the state's interests in the use and repayment of grant and loan funds under this chapter shall be paid from the proceeds of bond sales under this chapter. These charges shall not be paid from funds allocated for administrative purposes, but shall be treated as a program expense

not to exceed 1.5 percent of the total amount of the bonds authorized to be sold under this chapter.

14023. Repayment of all or part of the principal, which is the loan plus the administrative fee, may be deferred during a development period not exceeding 10 years within the maximum 50-year repayment period, when, in the department's judgment, the development period is justified under the circumstances. Interest on the principal shall not be deferred. Repayment of principal which is deferred during a development period may, at the option of the supplier, be paid in annual installments during the remainder of the loan repayment period.

14024. The department shall establish the interest rate for loans made pursuant to this chapter at 50 percent of the true interest cost to the state of general obligation bonds issued most recently prior to the loan being executed. All loans made pursuant to this chapter shall carry the established interest rate for the calendar year in which the funds are committed to the loan, as of the date of the letter of commitment from the department, and shall remain at that interest rate for the duration of the loan.

14025. (a) The department, after public notice and hearing and with the concurrence of the State Department of Health Services, shall adopt rules and regulations necessary to carry out the purposes of this chapter. The regulations shall include, but not be limited to, criteria and procedures for establishing the eligibility of a supplier.

(b) The department shall adopt rules and regulations that, in its judgment, will most effectively carry out this chapter in the public interest, to the end that the people of California are most efficiently and most economically provided supplies of pure, wholesome, and potable domestic water. The rules and regulations may provide for the denial of funds when the purposes of this chapter may most economically and efficiently be attained by means other than the construction of the proposed project.

(c) Notwithstanding subdivision (a) or any other provision of law, existing rules and regulations adopted by the department pursuant to the California Safe Drinking Water Bond Law of 1984 (Chapter 10.2 (commencing with Section 13810)) which are in effect on the effective date of this chapter, may, at the option of the department, be utilized upon voter approval of this chapter for purposes of implementing this chapter. The department, with the concurrence of the State Department of Health Services, may subsequently revise those rules and regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code as necessary to implement provisions of this chapter which differ from Chapter 10.2 (commencing with Section 13810) or Chapter 10.7 (commencing with Section 13895) or for any other reason to carry out the purposes of this chapter.

14026. The State Department of Health Services shall notify suppliers that may be eligible for loans pursuant to this chapter of (a) the purposes of this chapter and (b) the rules and regulations

adopted by the department.

14027. (a) The State Department of Health Services, after public notice and hearing and with the advice of the department, shall, from time to time, establish a priority list of projects to be considered for financing.

(b) Notwithstanding subdivision (a) or any other provision of law, the priority list established by the State Department of Health Services pursuant to the California Safe Drinking Water Bond Law of 1986 (Chapter 10.7 (commencing with Section 13895)) in effect on the effective date of this chapter may, at the option of the State Department of Health Services, be utilized upon voter approval of this chapter until the State Department of Health Services adopts a new priority list.

14028. Not more than twenty-five million dollars ($25,000,000) of state loans for projects shall be authorized by the department in a single calendar quarter. No contract shall be approved by the department, unless the department finds that the supplier has the capacity to repay the loan amounts specified in the contract.

At the request of the department, the Public Utilities Commission shall furnish comments concerning the ability of suppliers subject to its jurisdiction to finance the project from other sources and the ability to repay the loan.

14029. (a) As approved annually by the Legislature in the Budget Act, the department may expend money repaid to the state pursuant to any contract executed under Section 14011 as necessary for the administration of contracts entered into by the department under this chapter, but those expenditures may not in any year exceed 1.5 percent of the amount repaid to the state in that year. Charges incurred by the Attorney General in protecting the state's interest in the use and repayment of grant and loan funds under this chapter may be paid by the department from these funds, but those charges may not exceed one-half of 1 percent of the amount repaid to the state in that year. Any of the above sums approved by the Legislature but unexpended by the department at the end of any year shall automatically revert to the General Fund.

(b) Except as provided in subdivision (a), all money repaid to the state pursuant to any contract executed under Section 14011 shall be deposited in the General Fund and, when so deposited, shall be applied as a reimbursement to the General Fund on account of principal and interest on bonds issued pursuant to this chapter which has been paid from the General Fund.

(c) The department may enter into contracts with suppliers of water for grants or short-term loans for the purpose of investigating and identifying alternatives for system improvements. Any loans or grants pursuant to this section shall be made from the fund. No supplier may receive for a single investigation more than twenty-five thousand dollars ($25,000) in the form of a loan or grant pursuant to this section. The State Department of Health Services shall review all proposed investigations and shall determine if they are necessary

and appropriate.

(d) Any contract entered into pursuant to this section shall include terms and conditions consistent with this chapter, and any loan contract shall provide for a repayment period not to exceed 24 months.

(e) Not more than six million dollars ($6,000,000) may be expended for the purposes of this section, of which not more than two million dollars ($2,000,000) may be used for grants to public agencies. A loan or grant made for the purposes of this section shall not decrease the maximum amount of any other loan or grant which may be made under this chapter, Chapter 10.2 (commencing with Section 13810), Chapter 10.5 (commencing with Section 13850), Chapter 10.6 (commencing with Section 13880), or Chapter 10.7 (commencing with Section 13895).

Article 3. Fiscal Provisions

14030. Bonds in the total amount of seventy-five million dollars ($75,000,000), exclusive of refunding bonds issued pursuant to Section 14039, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California are hereby pledged for the punctual payment of both principal and interest thereof.

14031. The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

14032. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this chapter, the California Safe Drinking Water Finance Committee is hereby created. For purposes of this chapter, the California Safe Drinking Water Finance Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Governor, the Treasurer, the Director of Finance, the Director of Water Resources, and the State Director of Health Services, or their designated representatives. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the Department of Water Resources is designated the "board."

14033. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 14011, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any time.

14034. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds maturing each year, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of the revenue, to do and perform each and every act which shall be necessary to collect the additional sum.

14035. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 14036, appropriated without regard to fiscal years.

14036. For the purposes of carrying out this chapter, the Director of Finance may, by written order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any money made available under this section shall be returned by the board to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account from money received from the sale of bonds for the purpose of carrying out this chapter.

14037. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

14038. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution disbursement of these proceeds is not subject to the limitations imposed by that article.

14039. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. Approval by the

electors of the state for the issuance of these bonds shall include the approval of any bonds issued to refund any bonds originally issued or previously issued refunding bonds.

14040. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out the provisions of this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. The board shall execute such documents as are required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

SEC. 2. Section 1 of this act shall take effect upon the adoption by the voters of the California Safe Drinking Water Bond Law of 1988, as set forth in Section 1 of this act.

SEC. 3. Section 1 of this act shall be submitted to the voters at the statewide election held on November 8, 1988, in accordance with provisions of the Government Code and the Elections Code governing the submission of statewide measures to the voters.

SEC. 4. Notwithstanding any other provision of law, all ballots of the election shall have printed thereon and in a square thereof, the words: "California Safe Drinking Water Bond Law of 1988," and in the same square under those words, the following in 8-point type: "This act provides for a bond issue of seventy-five million dollars ($75,000,000) to provide funds for improvement of domestic water systems to meet minimum drinking water standards." Opposite the square there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in a manner to carry out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure that this act is submitted to the voters in a timely manner and ensure that water supplied for domestic purposes is pure, wholesome, and potable at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 46

An act to amend Sections 13459, 13999.3, 13999.5, and 13999.10 of, to add Section 13999.17 to, and to add Chapter 4.7 (commencing with Section 12879) to Part 6 of Division 6 of, the Water Code, relating to financing a water conservation program by providing the funds necessary therefor through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 18, 1988. Filed with Secretary of State March 18, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4.7 (commencing with Section 12879) is added to Part 6 of Division 6 of the Water Code, to read:

CHAPTER 4.7. WATER CONSERVATION BOND LAW OF 1988

Article 1. General Provisions

12879. This chapter shall be known and may be cited as the Water Conservation Bond Law of 1988.

12879.1. The Legislature finds and declares as follows:

(a) There is a lack of local water projects in certain areas of the state where the demands of a growing population could exceed water supplies which could threaten the public health and impede economic and social growth.

(b) It is in the interest of the state to provide financial assistance to local agencies for the development of local water resources necessary to meet requirements for domestic, agricultural, and other uses.

(c) The participation of the state and the State Water Resources Development System in the construction and operation of local water projects in those areas is desirable to further the development, control, and conservation of the water resources of the state.

(d) Voluntary, cost-effective capital outlay water conservation programs can help meet growing demand for clean and abundant water supplies.

(e) Recharging groundwater basins is an effective way to maximize the availability of scarce water supplies throughout the state through the efficient management of recharge and extraction activities in groundwater basins, and by reversing the effects of historical overdraft.

12879.2. As used in this chapter, the following terms have the following meanings:

(a) "Committee" means the Water Conservation Finance

Committee created pursuant to 12879.9.

(b) "Department" means the Department of Water Resources.

(c) "Fund" means the 1988 Water Conservation Fund created pursuant to 12879.3.

(d) "Local agency" means any city, county, city and county, district, joint powers authority, or other political subdivision of the state involved in water management.

(e) "Eligible project" means any dam, reservoir, or other construction or improvement by a local agency for the diversion, storage, or primary distribution of water, or facilities for groundwater extraction, primarily for domestic, municipal, agricultural, industrial, recreation, fish and wildlife enhancement, flood control, or power production purposes. An eligible project also means any reservoir, pipeline, or other construction or improvement by a local agency for the storage or distribution of reclaimed water for reuse.

(f) "Groundwater recharge facilities" means land and facilities for artificial groundwater recharge through methods which include, but are not limited to, either percolation using basins, pits, ditches, and furrows, modified streambed, flooding, and well injection, or in-lieu recharge. "Groundwater recharge facilities" also means capital outlay expenditures to expand, renovate, or restructure land and facilities already in use for the purpose of groundwater recharge.

Groundwater recharge facilities may include any of the following:

(1) Instream facilities for regulation of water levels, but not regulation of streamflow by storage to accomplish diversion from the waterway.

(2) Conveyance facilities to the recharge site, including devices for flow regulation and measurement of recharge waters.

(3) Water reclamation facilities.

Any part or all of the project facilities, including land under the facilities, may consist of separable features, or an appropriate share of multipurpose features of a larger system, or both.

(g) "In-lieu recharge" means accomplishing increased storage of groundwater by providing surface water to a user who relies on groundwater as a primary supply, in order to accomplish groundwater storage through the direct use of that surface water in lieu of pumping groundwater. In-lieu recharge shall be used rather than continuing pumping while artificially recharging with surface waters. However, bond proceeds shall not be used to puchase surface waters for use in lieu of pumping groundwater.

(h) "Voluntary cost-effective capital outlay water conservation programs" means those feasible capital outlay measures to improve the efficiency of water use through benefits which exceed their costs. The programs include, but are not limited to, lining or piping of ditches; improvements in water distribution system controls such as automated canal control, construction of small reservoirs within distribution systems which conserve water that already has been captured for reuse, and related physical improvements; tailwater

pumpback recovery systems to reduce leakage; facilities to reclaim water for reuse; and capital changes in onfarm irrigation systems which improve irrigation efficiency, such as sprinkler or subsurface drip systems. In each case, the department shall determine that there is a net savings of water as a result of each proposed project and that the project is cost effective.

Article 2. Water Conservation Program

12879.3. (a) The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the 1988 Water Conservation Fund, which is hereby created. A Local Water Projects Assistance Account shall be established in the fund for the purpose of implementing Section 12879.5, and a Water Conservation and Groundwater Recharge Account shall be established in the fund for the purposes of implementing Section 12879.6.

(b) From time to time, the department may modify existing accounts in the fund, or may establish other accounts in the fund, and in all other bond funds administered by the department, which the department determines are appropriate or necessary for proper administration.

12879.4. (a) The department may make loans to local agencies, upon approval of the Legislature by statute, to aid in the construction of eligible projects and to aid in the funding of voluntary, cost-effective capital outlay water conservation programs and groundwater recharge facilities, and may adopt rules and regulations necessary to carry out this chapter.

Notwithstanding any provision of law, existing rules and regulations adopted by the department pursuant to Chapter 5 (commencing with Section 12880) and Chapter 6.1 (commencing with Section 13450) that are in effect on the effective date of this chapter may be utilized to carry out this chapter. The department may subsequently revise those rules and regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code as necessary to carry out this chapter.

(b) For the purpose of administering this chapter, the total expenditures of the department through the making of any loans may not exceed 5 percent of the total amount of the bonds authorized to be issued under this chapter. The department shall establish a reasonable schedule of administrative fees for loans, which fees shall be paid by the local agency pursuant to subdivision (c) of Section 12879.4 to reimburse the state for the costs of state administration of this chapter.

Charges incurred by the Attorney General in protecting the interests of the state in the use and repayment of funds under this chapter shall be paid from the proceeds of bonds authorized to be issued under this chapter. These charges shall not be paid from funds allocated for administrative purposes, but shall be treated as a

program expense, not to exceed 1.5 percent of the total amount of the bonds authorized to be issued under this chapter.

(c) Any contract entered into pursuant to this section may include such provisions as may be determined by the department, provided that any contract concerning an eligible project shall include, in substance, all of the following provisions:

(1) A finding by the department that the local agency has the ability to repay the loan, that the eligible project is economically justified, and that the eligible project is feasible from an engineering and geologic standpoint.

(2) An estimate of the reasonable cost and benefit of the eligible project, program, or facility.

(3) An agreement by the local agency to proceed expeditiously with, and complete, the eligible project.

(4) A provision that there shall be no moratorium or deferment on payments of principal or interest.

(5) Local agencies seeking a loan shall demonstrate, to the satisfaction of the department, that an adequate opportunity for public participation regarding the loan has been provided.

(6) Any election held with respect to the loan shall include the entire local agency except where the agency proposes to accept the loan on behalf of a specified portion, or portions, of the agency, in which case the election shall be held in that portion or portions of the agency only.

(7) Annual principal and interest payments shall commence not later than one year after completion of any project and all loans shall be fully amortized not later than 50 years after project completion.

(8) The recipient of a loan shall establish a dedicated source of revenue for repayment of the loan.

(9) Any loans made pursuant to this chapter may be for a period of up to 20 years. The interest rate for the loans shall be set at a rate equal to the interest rate paid by the state on the most recent sale of state general obligation bonds, with that rate to be computed according to the true interest cost method. When the interest rate so determined is not a multiple of one-tenth of 1 percent, the interest rate shall be set at the next higher multiple of one-tenth of 1 percent. The interest rate set for each contract shall be applied throughout the repayment period of the contract. There shall be a level annual repayment of principal and interest on the loans. The amount of the principal shall include the administrative fee described in subdivision (b).

(d) The department may make loans to local agencies, at the interest rates authorized under this section and under any terms and conditions as may be determined necessary by the department, for the purposes of financing feasibility studies of projects potentially eligible for funding under this section. No single potential project shall be eligible to receive more than one hundred thousand dollars ($100,000), and not more than 3 percent of the total amount of the moneys in the fund in any one year may be expended for this

purpose.

(e) All loans made pursuant to this chapter shall be subject to the approval of the Legislature by statute and the California Water Commission.

(f) Applications for loans or financial participation by the state under this chapter shall be made to the department in the form and with the supporting material as may be prescribed by the department.

(g) All money repaid to the state pursuant to any contract executed under this chapter, or under Section 13999.11, shall be deposited in the General Fund as reimbursement for payment of principal and interest on bonds authorized to be issued under this chapter or Chapter 15 (commencing with Section 13999) that have been paid from the General Fund.

12879.5. (a) The sum of twenty million dollars ($20,000,000) of the money in the fund shall be deposited in the Local Water Projects Assistance Account and shall be available for loans to local agencies to aid in the construction of eligible projects.

(b) No eligible project may receive more than five million dollars ($5,000,000) in loans from the department.

(c) In the administration of this chapter, the department and the California Water Commission shall give preference to projects involving the development of new basic water supplies which may include the enlargement of existing dams and reservoirs, and for projects that will remedy existing water supply problems. The department and the California Water Commission shall set priority for loans under this chapter on the basis of the cost effectiveness of the proposed project, with the most cost-effective projects receiving highest priority.

(d) If the water supply function of a dam and reservoir facility is operationally limited or eliminated for dam safety purposes, pursuant to Part 1 (commencing with Section 6000) of Division 3, the department and the California Water Commission may give consideration to projects which would rehabilitate the dam and reservoir for water supply purposes. The rehabilitation of facilities may include comparable replacement facilities.

(e) A copy of each application for a loan under this chapter shall be transmitted by the department to the Department of Fish and Game, the Department of Parks and Recreation, and the State Water Resources Control Board. A report on each application shall be prepared by the department and submitted to the Legislature, together with the comments of those agencies to which the application was transmitted. In the report, the department shall make findings as to the nature and extent of the statewide interest in the project, the urgency of the need, and the engineering feasibility, economic justification, and financial feasibility of the project.

(f) Not later than January 31, 1990, and each year thereafter, the department shall submit to the Legislature an annual report on all

loans made pursuant to this chapter. The report shall cover loans made by the department during the previous calendar year.

(g) The department shall not make loans pursuant to this chapter for otherwise eligible projects whose benefits are more than 50 percent derived from hydroelectric generation, as determined by the department.

12879.6. (a) The sum of forty million dollars ($40,000,000) of the money in the fund shall be deposited in the Water Conservation and Groundwater Recharge Account and shall be available for appropriation by the Legislature for loans to local agencies to aid in the acquisition and construction of voluntary, cost-effective capital outlay water conservation programs and groundwater recharge facilities.

(b) No eligible project may receive more than five million dollars ($5,000,000) in loans from the department.

(c) The department shall set priority for loans under this section for voluntary, cost-effective capital outlay water conservation programs on the basis of the cost effectiveness of the proposed project, with the most cost-effective projects receiving the highest priority.

(d) The department shall set priority for loans under this section for groundwater recharge facilities for projects in overdrafted groundwater basins and those projects in critical need, for projects whose feasibility studies show the greatest economic justification and the greatest engineering and hydrogeologic feasibility, as determined by the department, and for projects located in areas which have existing water management programs.

Article 3. Fiscal Provisions

12879.7. Bonds in the total amount of sixty million dollars ($60,000,000), exclusive of refunding bonds issued pursuant to Section 12879.15, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. All bonds herein authorized, which have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

12879.8. The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

12879.9. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this chapter, the Water Conservation Finance Committee is hereby created. For purposes of this chapter, the Water Conservation Finance Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Governor, the Controller, the Treasurer, the Director of Finance, the Director of Water Resources, and the Chairperson of the California Water Commission, or their designated representatives. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the Department of Water Resources is designated the "board."

12879.10. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Sections 12879.5 and 12879.6, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

12879.11. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds maturing each year, and all officers required by law to perform any duty in regard to the collection of state revenues shall collect that additional sum.

12879.12. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 12879.13, appropriated without regard to fiscal years.

12879.13. For the purposes of carrying out this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any money made available under this section to the board from money received from the sale of bonds for the purpose of carrying out this chapter shall be returned to the General Fund plus the interest that the amount would have earned in the Pooled Money Investment Account.

12879.14. All money deposited in the fund which is derived from

premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

12879.15. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of these bonds shall include the approval of any bonds issued to refund any bonds originally issued or previously issued refunding bonds.

12879.16. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. The board shall execute such documents as are required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

12879.17. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

SEC. 2. Section 13459 of the Water Code is amended to read:

The interest rate set for each contract shall be applied throughout the contract's repayment period. There shall be a level annual repayment of principal and interest on loans.

(5) The board in considering eligible projects shall give preference to technologies which treat drainage water where the board finds that the technology is readily available and economically feasible for the agency.

(6) No single project may receive more than twenty million dollars ($20,000,000) in loan proceeds from the board.

(d) The board may make loans to local agencies, at the interest rates authorized under this section and under any terms and conditions as may be determined necessary by the board, for purposes of financing feasibility studies of projects potentially eligible for funding under this section. The state board may provide that the application may be combined with applications for any other source of funds administered by the state board.

13426. The state board, subject to approval by the Director of Finance, may agree to provide a guarantee pursuant to this article for all or a specified part of the proposed local agency bond issue upon making, after consultation with the State Department of Health Services, all of the following determinations:

setting priorities among applicants for those guarantees.

13427. No guarantee shall be extended to any applicant unless it executes an agreement with the state board under which the applicant agrees to the following provisions:

(a) To proceed expeditiously with, and complete, the proposed project.

(b) To commence operation of the project on completion, and to properly operate and maintain the work in accordance with applicable provisions of law.

(c) To issue bonds and to levy fines, charges, assessments, or taxes to pay the principal of, and interest on, the bonds as described in the application.

(b) To require, by court action if necessary, a local agency to raise sewer service charges, levy additional assessments, collect charges or assessments, or foreclose or otherwise sell property as needed to prevent a reduction in the local agency's bond reserve fund, or to prevent default, or to collect funds to repay to the fund any payments made pursuant to subdivision (a).

SEC. 2. Chapter 17 (commencing with Section 14050) is added to Division 7 of the Water Code, to read:

CHAPTER 17. CLEAN WATER AND WATER RECLAMATION BOND LAW OF 1988

Article 1. General Provisions

14050. This chapter shall be known and may be cited as the Clean Water and Water Reclamation Bond Law of 1988.

14051. The Legislature finds and declares as follows:

(a) Clean water is essential to the public health, safety, and welfare.

(b) Clean water fosters the beauty of California's environment, the expansion of industry and agriculture, maintains fish and wildlife, and supports recreation.

(c) California's abundant lakes and ponds, streams and rivers, coastline, and groundwater are threatened with pollution, which could threaten public health and impede economic and social growth if left unchecked.

(d) The state's growing population has increasing needs for clean water supplies and adequate treatment facilities.

(e) It is of paramount importance that the limited water resources of the state be protected from pollution, conserved, and reclaimed whenever possible to ensure continued economic, community, and social growth.

(f) The chief cause of water pollution is the discharge of inadequately treated waste into the waters of the state.

(g) Local agencies have the primary responsibility for construction, operation, and maintenance of facilities to cleanse our waters.

(h) Rising costs of construction and technological changes have pushed the cost of constructing treatment facilities beyond the reach of many small communities.

(i) Because water knows no political boundaries, it is desirable for the state to contribute to construction of needed facilities in order to meet its obligations to protect and promote the health, safety, and welfare of its people and environment.

(j) The people of California have a primary interest in the development of facilities to reclaim waste water to supplement

existing water supplies and to assist in meeting the future water needs of the state.

(k) A significant portion of the future water needs of California may be met by the use of reclaimed water.

(*l*) Local public agencies have the primary responsibility for the construction, operation, and maintenance of water reclamation facilities.

(m) Local public agencies need financial assistance to make cost-effective reclamation projects financially feasible.

(n) (1) It is also the intent of this chapter to provide special assistance to small communities to construct facilities necessary to eliminate water pollution and public health hazards.

(2) It is also the intent of this chapter to provide funds for the design and construction of eligible water reclamation projects and for the development and implementation of programs and activities that lead to increased use of reclaimed water in California.

14052. As used in this chapter, the following words have the following meanings:

(a) "Board" means the State Water Resources Control Board.

(b) "Committee" means the Clean Water and Water Reclamation Finance Committee created by Section 14067.

(c) "Construction" has the same meaning as in the Federal Clean Water Act.

(d) "Eligible project" means a project for a small community for the construction of treatment works which is all of the following:

(1) Necessary to prevent pollution.

(2) Eligible for federal assistance pursuant to Title VI of the Federal Clean Water Act.

(3) Certified by the board as entitled to priority over other treatment works, and complies with applicable water quality standards, policies, and plans.

(e) "Eligible reclamation project" means a water reclamation project which is cost-effective when compared with the cost of alternative new freshwater supplies, and for which no federal assistance is currently available. These projects shall comply with applicable water quality standards, policies, and plans.

(f) "Federal assistance" means funds available to a local agency pursuant to the Federal Clean Water Act.

(g) "Federal Clean Water Act" or "federal act" means the Federal Water Pollution Control Act (33 U.S.C. Sec. 1251 et seq.) and any acts amendatory thereof or supplementary thereto.

(h) "Fund" means the 1988 Clean Water and Water Reclamation Fund created pursuant to Section 14055.

(i) "Local public agency" means any city, county, district, joint powers authority, or any other local public body or political subdivision of the state created by or pursuant to state law and involved with water or waste water management.

(j) "Municipality" has the same meaning as in the Federal Clean Water Act and also includes the state or any agency, department, or

political subdivision thereof.

(k) "Small community" means a municipality with a population of 3,500 persons or less, or a reasonably isolated and divisible segment of a larger municipality encompassing 3,500 persons or less, with a financial hardship as defined by the board.

(*l*) "State grant" means a grant given to a qualifying small community eligible for federal assistance under Title VI of the Federal Clean Water Act.

(m) "State Water Pollution Control Revolving Fund" means a revolving fund created under state law for the purpose of issuing loans for the construction of eligible treatment works in accordance with the federal act.

(n) "Treatment works" has the same meaning as in the Federal Clean Water Act.

Article 2. Clean Water and Water Reclamation Bond Program

14055. (a) The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the State Treasury to the credit of the 1988 Clean Water and Water Reclamation Fund, which is hereby created. There shall be established in the fund a Small Communities Grant Account for the purpose of implementing Section 14056 and a Water Reclamation Account for the purpose of implementing Section 14058.

(b) From time to time, the board may modify existing accounts in the fund, or may establish other accounts in the fund, and in all other bond funds administered by the board, which the board determines are appropriate or necessary for proper administration.

14056. (a) The sum of twenty-five million dollars ($25,000,000) of the money in the fund shall be deposited in the Small Communities Grant Account and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated for state grants to small communities for construction of treatment works eligible for assistance under Title VI of the federal act.

(b) The board may enter into grant contracts in accordance with this section with qualifying small communities having authority to construct, operate, and maintain treatment works to aid in the construction of eligible projects.

(c) The board may make grants to small communities in an amount on a sliding scale, based on a community's ability to pay, not to exceed 97½ percent of the total estimated cost of pollution studies, planning, design, and construction determined in accordance with applicable state laws and regulations. Total state assistance under this section shall not exceed two million dollars ($2,000,000) for any single eligible project.

(d) Any contract entered into pursuant to this section may include such provisions as may be determined by the board, provided that any contract shall include the following provisions:

(1) An estimate of the reasonable cost of the eligible project.

(2) An agreement by the small community to proceed expeditiously with, and complete, the proposed eligible project, commence operation of the treatment works upon completion, and to properly operate and maintain the works in accordance with applicable provisions of law.

(e) Small communities eligible for a state grant may also apply for a loan from the State Water Pollution Control Revolving Fund for costs not covered by the grant.

14057. The sum of ten million dollars ($10,000,000) of the money in the fund shall be available for transfer by the board to the Clean Water Bond Guarantee Fund and shall be available to the board to guarantee local agency bond issues pursuant to Article 2.5 (commencing with Section 13425) of Chapter 6. After January 1, 1990, the board may transfer any funds in the Clean Water Bond Guarantee Fund which have not been committed to guaranteeing local agency bond issues to the 1988 Clean Water and Water Reclamation Fund.

14058. (a) The sum of thirty million dollars ($30,000,000) of the money in the fund shall be deposited in the Water Reclamation Account and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the board for the purposes of this section.

(b) The board may enter into contracts with local public agencies having authority to construct, operate, and maintain water reclamation projects, for loans to aid in the design and construction of eligible water reclamation projects. The board may loan up to 100 percent of the total eligible cost of design and construction of an eligible reclamation project.

(c) Any contract for an eligible water reclamation project entered into pursuant to this section may include such provisions as determined by the board and shall include both of the following provisions:

(1) An estimate of the reasonable cost of the eligible water reclamation project.

(2) An agreement by the local public agency to proceed expeditiously with, and complete, the eligible water reclamation project; commence operation of the project in accordance with applicable provisions of law, and provide for the payment of the local public agency's share of the cost of the project, including principal and interest on any state loan made pursuant to this section.

(d) Loan contracts may not provide for a moratorium on payments of principal or interest.

(e) Any loans made from the fund may be for a period of up to 20 years. The interest rate for the loans shall be set at a rate equal to 50 percent of the interest rate paid by the state on the most recent sale of state general obligation bonds, with that rate to be computed according to the true interest cost method. When the interest rate so determined, is not a multiple of one-tenth of 1 percent, the interest rate shall be set at the next higher multiple of one-tenth of

1 percent.

(f) All money repaid to the state pursuant to any contract executed under this chapter shall be deposited in the General Fund as reimbursement for the payment of principal and interest on bonds authorized to be issued under this chapter.

14059. As approved by the Legislature annually in the Budget Act, the board may expend for the administration of this chapter not more than 5 percent of the amount of the bonds authorized to be issued under this chapter.

14060. As approved by the Legislature annually in the Budget Act, the board may, by contract or otherwise, undertake plans, surveys, research, development, and studies necessary, convenient, or desirable to carry out the purposes of this division, and may prepare recommendations with regard thereto, including the preparation of comprehensive statewide or areawide studies and reports on water reclamation and the collection, treatment, and disposal of waste under a comprehensive cooperative plan.

14061. The board may adopt rules, regulations, and guidelines necessary or appropriate to carry out this chapter.

Article 3. Fiscal Provisions

14065. Bonds in the total amount of sixty-five million dollars ($65,000,000), exclusive of refunding bonds, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

14066. The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

14067. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this chapter, the Clean Water and Water Reclamation Finance Committee is hereby created. For purposes of this chapter, the Clean Water and Water Reclamation Finance Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Governor, the Controller, the Treasurer, the Director of Finance, and the Executive Director of the State Water Resources Control

Board, or their designated representatives. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the State Water Resources Control Board is designated the "board."

14068. Consistent with Section 602 of the federal act, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Sections 14056, 14057, 14058, 14059, and 14060, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

14069. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

14070. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 14071, appropriated without regard to fiscal years.

14071. For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized by the committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund plus the interest that the amounts would have earned in the Pooled Money Investment Account from money received from the sale of bonds for the purpose of carrying out this chapter.

14071.5. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of carrying this chapter. The board shall execute those documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

14072. All money deposited in the fund which is derived from

premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

14073. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of the State General Obligation Bond Law.

14074. (a) Notwithstanding any other provision of this chapter and to the extent permitted by federal and state law, the money in the fund may be used to rebate to the federal government all arbitrage profits required by the Federal Tax Reform Act of 1986 or any amendment thereof or supplement thereto. To the extent that the money in the fund may not be used for that purpose due to restraints of federal or state law, any rebates required shall be paid from the General Fund or other sources as the Legislature may require.

(b) Notwithstanding any other provision of law, or rule or regulation, the board may enter into contracts, or procure those services and equipment, which may be necessary to ensure prompt and complete compliance with any provisions relating to the fund imposed by either the Federal Tax Reform Act of 1986 or the federal act.

14075. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

SEC. 3. Section 13459 of the Water Code is amended to read:

The interest rate set for each contract shall be applied throughout the contract's repayment period. There shall be a level annual repayment of principal and interest on loans.

(6) No single project may receive more than twenty million dollars ($20,000,000) in loan proceeds from the board.

(d) The board may make loans to local agencies, at the interest rates authorized under this section and under any terms and conditions as may be determined necessary by the board, for purposes of financing feasibility studies of projects potentially eligible for funding under this section. The people of the State of California do enact as follows:

SECTION 1. Part 9 (commencing with Section 53150) is added to Division 31 of the Health and Safety Code, to read:

PART 9. HOUSING AND HOMELESS BOND ACT OF 1988

CHAPTER 1. GENERAL PROVISIONS

(a) "Committee" means the Housing Committee created pursuant to Section 53172.

(b) "Fund" means the Home Building and Rehabilitation Fund created pursuant to Section 53160.

CHAPTER 2. HOME BUILDING AND REHABILITATION FUND

53160. The proceeds of bonds issued and sold pursuant to this part shall be deposited in the Home Building and Rehabilitation Fund, which is hereby created. Moneys in the fund shall be allocated and utilized in accordance with Part 8 (commencing with Section 53130), as added by Senate Bill No. 1692 of the 1987–88 Regular Session.

CHAPTER 3. FISCAL PROVISIONS

53170. Bonds in the total amount of three hundred million dollars ($300,000,000), exclusive of refunding bonds issued pursuant to Section 53170.5, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this part and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

53170.5. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of these bonds shall include the approval of any bonds issued to refund any bonds originally issued or previously issued refunding bonds.

53171. The bonds authorized by this part shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this part and are hereby incorporated in this part as though set forth in full in this part.

53172. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this part, the Housing Committee is hereby created. For purposes of this part, the Housing Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Controller, the Treasurer, the Director of Finance, the Director of the Department of Housing and Community Development, and the Executive Director of the California Housing Finance Agency, or their designated representatives. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the Department of Housing and Community Development is designated as the "board" for programs administered by the department and the California Housing Finance Agency is designated as the "board" for programs administered by the agency.

53173. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this part in order to carry out the actions specified in Part 8 (commencing with Section 53130) as added by Senate Bill No. 1692 of the 1987–88 Regular Session, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out

those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

53174. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds maturing each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

53175. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this part, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this part, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 53176, appropriated without regard to fiscal years.

53176. For the purposes of carrying out this part, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized to be sold for the purpose of carrying out this part. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus interest that the amounts would have earned in the Pooled Money Investment Account, from money received from the sale of bonds for the purpose of carrying out this part.

53176.5. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for purposes of carrying out the provisions of this chapter. The amount of the request shall not exceed the amount of unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents which are required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated to the board in accordance with this chapter.

53177. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

53178. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this part are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

SEC. 2. Part 10 (commencing with Section 53180) is added to Division 31 of the Health and Safety Code, to read:

PART 10. HOUSING AND HOMELESS BOND ACT OF 1990

Moneys in the fund shall be allocated and utilized in accordance with Part 8 (commencing with Section 53130), as added by Senate Bill 1692 of the 1987–88 Regular Session.

CHAPTER 3. FISCAL PROVISIONS

53200. Bonds in the total amount of one hundred fifty million dollars ($150,000,000), exclusive of refunding bonds issued pursuant to Section 53201, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this part and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

53201. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of these bonds shall include the approval of the issuance of any bonds issued to refund any bonds originally issued or any previously issued refunding bonds.

53202. The bonds authorized by this part shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this part and are hereby incorporated in this part as though set forth in full in this part.

53203. (a) Solely for the purpose of authorizing the issuance and

sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this part, the Housing Committee is hereby created. For purposes of this part, the Housing Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Controller, the Treasurer, the Director of Finance, the Director of the Department of Housing and Community Development, and the Executive Director of the California Housing Finance Agency, or their designated representatives. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the Department of Housing and Community Development is designated as the "board" for programs administered by the department and the California Housing Finance Agency is designated as the "board" for programs administered by the agency.

53204. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this part in order to carry out the actions specified in Part 8 (commencing with Section 53130) as added by Senate Bill 1692 of the 1987–88 Regular Session, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

53205. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds maturing each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

53206. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this part, an amount that will equal the total of the following:

53207. For the purposes of carrying out this part, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized to be sold for the purpose of carrying out this part. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus interest that the amounts would have earned in the Pooled Money Investment Account, from money received from the sale of bonds for the purpose of carrying out this part.

53208. The board may request the Pooled Money Investment

Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out the provisions of this chapter. The amount of the request shall not exceed the amount of unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. The board shall execute such documents as are required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

53209. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this part are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This bill would provide the people of California with an opportunity to provide funding in 1988 to address a serious housing crisis within the state, and at that time to address this ongoing crisis with the knowledge that additional funding will be on the ballot for their consideration in 1990. In order to provide the opportunity for this funding at the earliest possible time, it is necessary that this act take immediate effect.

CHAPTER 49

An act to add Chapter 11 (commencing with Section 19950) to Part 11 of the Education Code, relating to financing a library construction and renovation program by providing the funds necessary therefor through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 18, 1988. Filed with Secretary of State March 18, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 11 (commencing with Section 19950) is added to Part 11 of the Education Code, to read:

CHAPTER 11. CALIFORNIA LIBRARY CONSTRUCTION AND RENOVATION BOND ACT OF 1988

Article 1. General Provisions

19950. This chapter shall be known and may be cited as the California Library Construction and Renovation Bond Act of 1988.

19951. The Legislature finds and declares all of the following:

(a) The public library is a supplement to the formal system of free public education, a source of information and inspiration to persons of all ages, cultural backgrounds, and economic statuses, and a resource for continuing education and reeducation beyond the years of formal education, and therefore deserves adequate financial support from government at all levels.

(b) It is in the interest of the people and of the state that there be a general diffusion of information and knowledge through the continued operation of free public libraries. This diffusion is a matter of general concern inasmuch as it is the duty of the state to provide encouragement to the voluntary lifelong learning of the people of the state.

(c) Many existing public library facilities are not safe, efficient, or accessible for use, adequate for the size of the communities they serve, or otherwise capable of providing the public library services needed by the communities they serve.

(d) Many communities that are populous enough to require a public library facility do not have one.

(e) Local public library authorities do not have sufficient funds to construct or rehabilitate necessary public library facilities.

(f) Funding to meet the need for public library facilities, which is beyond the ability of local government to supply, is most appropriately met by a partnership of state and local governments.

19952. As used in this chapter, the following terms have the following meanings:

(a) "Committee" means the California Library Construction and Renovation Finance Committee created pursuant to Section 19972.

(b) "Fund" means the California Library Construction and Restoration Fund created pursuant to Section 19955.

(c) "Board" means the California Library Construction and Renovation Board. The board includes the State Librarian, the Treasurer, the Director of Finance, the Assembly Member appointed by the Speaker of the Assembly, and the Senator

appointed by the Senate Rules Committee.

Legislative members of the board shall meet with, and participate in, the work of the board to the extent that their participation is not incompatible with their duties as Members of the Legislature. For the purposes of this chapter, Members of the Legislature who are members of the board shall constitute a joint legislative committee on the subject matter of this chapter.

Article 2. California Library Construction and Renovation Program

19955. The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the California Library Construction and Renovation Fund, which is hereby created. Notwithstanding Section 13340 of the Government Code, the fund shall be continuously appropriated without regard to fiscal year.

19956. All moneys deposited in the fund shall be available for grants to any city, county, city and county, or district that is empowered at the time of the project application to own and maintain a facility for the acquisition, construction, remodeling, or rehabilitation of facilities for public library services.

19957. The grant funds authorized pursuant to Section 19956 and the matching funds provided pursuant to Section 19962 shall be used by the recipient for any of the following purposes:

(a) Acquisition or construction of new facilities or additions to existing facilities.

(b) Acquisition of land necessary for purposes of subdivision (a).

(c) Remodeling of existing facilities for energy conservation purposes.

(d) Remodeling of existing facilities to provide access for the disabled.

(e) Rehabilitation of existing facilities to bring them into compliance with current health and safety requirements for public facilities.

(f) Procurement and installation of shelving fastened to the structure, and built-in equipment required to make a facility fully operable.

(g) Payment of fees charged by architects, engineers, and other design professionals whose services are required to plan and execute a project authorized pursuant to this chapter.

19958. No grant funds authorized pursuant to Section 19956 or matching funds provided pursuant to Section 19962 shall be used by a recipient for any of the following purposes:

(a) Books and other library materials.

(b) Administration costs of the project, including, but not limited to, the costs of all of the following:

(1) Preparation of the grant application.

(2) Procurement of matching funds.

(3) Conducting an election for obtaining voter approval of the

project.

(4) Plan checking and code compliance inspections.

(c) Interest or other carrying charges for financing the project, including, but not limited to, costs of loans or lease-purchase agreements in excess of the direct costs of any of the authorized purposes specified in Section 19957.

(d) Any ongoing operating expenses for the facility, its personnel, supplies, or any other library operations.

19959. All construction contracts for projects funded in part through grants awarded pursuant to this chapter shall be awarded through competitive bidding pursuant to Part 3 (commencing with Section 20100) of the Public Contract Code.

19960. This chapter shall be administered by the State Librarian, who shall adopt rules, regulations, and policies for the implementation of this chapter.

19961. A city, county, city and county, or district may apply to the State Librarian for a grant pursuant to this chapter, as follows:

(a) Each application shall be for a project for a purpose authorized by Section 19957.

(b) The applicant shall request not less than thirty-five thousand dollars ($35,000) per project.

(c) No application shall be submitted for a project for which construction bids already have been advertised.

19962. (a) Each grant recipient shall provide matching funds from any available source in an amount equal to 35 percent of the costs of the project. The remaining 65 percent of the costs of the project shall be provided through allocations from the fund.

(b) Qualifying matching funds shall be cash expenditures in the categories specified in Section 19957 which are made no earlier than three years prior to the submission of the application to the State Librarian. Except as otherwise provided in subdivision (c), in-kind expenditures shall not qualify as matching funds.

(c) Land donated or otherwise acquired for use as a site for the facility, including, but not limited to, land purchased more than three years prior to the submission of the application to the State Librarian, may be credited towards the 35 percent matching funds requirement at its appraised value as of the date of the application.

(d) Cash expenditures not to exceed 10 percent for furnishings required to make the facility fully operable may be credited towards the 35 percent matching funds requirement. The recipient shall certify to the board that these furnishings have an estimated useful life of not less than 10 years.

(e) Architect fees for plans and drawings for library renovation and new construction, including plans and drawings purchased more than three years prior to the submission of the application to the State Librarian, may be credited towards the 35 percent matching funds requirement.

19963. An amount not to exceed 1 percent of the cost of construction of the project may be used for appropriate works of art

to enhance the facility.

19964. (a) The estimated costs of a project for which an application is submitted shall be consistent with normal public construction costs in the applicant's area.

(b) An applicant wishing to construct a project with costs which exceed normal public construction costs in the applicant's area may apply for a grant in an amount not to exceed 65 percent of the normal costs if the applicant certifies that it is capable of financing the remainder of the project costs from other sources.

19965. Once an application has been approved by the board and included in the State Librarian's request to the committee, the amount of funding to be provided to the applicant shall not be increased. Any actual changes in project costs shall be the full responsibility of the applicant. In the event that the amount of funding which is provided is greater than the cost of the project, the applicant shall return that portion of the funding which exceeds the cost of the project to the State Librarian.

19966. In reviewing applications, the board shall consider all of the following factors:

(a) Needs of urban and rural areas.

(b) Projected population growth.

(c) Changing concepts of public library service.

(d) Distance of the proposed project from other existing and proposed facilities.

(e) Age and condition of the facility.

19967. (a) A facility, or the part thereof, acquired, constructed, remodeled, or rehabilitated with grants received pursuant to this chapter shall be dedicated to public library direct service use for a period of not less than 20 years following completion of the project, or the useful life of the building, whichever is longer.

(b) If the facility, or part thereof, acquired, constructed, remodeled, or rehabilitated with grants received pursuant to this chapter ceases to be used for public library direct service prior to the expiration of the period specified in subdivision (a), the board shall be entitled to recover from the grant recipient or the recipient's successor in the maintenance of the facility, an amount which bears the same ratio to the value of the facility, or the appropriate part thereof, at the time it ceased to be used from public library direct service as the amount of the grant bore to the cost of the facility or appropriate part thereof. For purposes of this subdivision, the value of the facility, or the appropriate part thereof, shall be determined by the mutual agreement of the parties, or through an action brought for that purpose in the superior court.

(c) The board may release the grant recipient or the recipient's successor in the maintenance of the facility from its obligation under subdivision (a), and waive the requirements of subdivision (b), if the board determines that so doing would not diminish the quality of public library service in the community served by the facility.

(d) Notwithstanding subdivision (f) of Section 16724 of the

Government Code, moneys recovered pursuant to subdivision (b) shall be deposited in the fund, and shall be available for the purpose of awarding grants for other projects.

Article 3. Fiscal Provisions

19970. Bonds in the total amount of seventy-five million dollars ($75,000,000) (exclusive of refunding bonds), or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

19971. The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

19972. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this chapter, the California Library Construction and Renovation Finance Committee is hereby created. For purposes of this chapter, the California Library Construction and Renovation Finance Committee is the "committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Treasurer, the State Librarian, the Director of Finance, or their designated representatives. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the California Library Construction and Renovation Board is designated the "board."

19973. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Article 2 (commencing with Section 19955), and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

19974. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year, and it

is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

19975. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 19976, appropriated without regard to fiscal years.

19976. For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, with interest at the rate earned by the money in the Pooled Money Investment Account during the time the money was withdrawn from the General Fund pursuant to this section from money received from the sale of bonds for the purpose of carrying out this chapter.

19977. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

19978. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of bonds shall include the approval of the issuance of any bonds issued to refund any bonds originally issued or any previously issued refunding bonds.

19979. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

19980. The Legislature hereby finds and declares that, inasmuch as the procee ds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

19981. An amount not to exceed 1 percent of the fund may be used by the State Librarian for costs of administering this chapter.

Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

[Approved by Governor March 24, 1988 Filed with Secretary of State March 24, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 13.7 (commencing with Section 54999) is added to Part 1 of Division 2 of Title 5 of the Government Code, to read:

CHAPTER 13.7. LIABILITY OF PUBLIC ENTITIES FOR PUBLIC UTILITY CAPITAL FACILITIES FEES

54999. (a) The Legislature finds and declares that many public entities that provide public utility service have imposed capital facilities fees applicable to users of public utility facilities in order to equitably apportion the cost of capital facilities construction or expansion required by all public and private users of the facilities. In the recent decision in San Marcos Water Dist. v. San Marcos Unified School Dist., 42 Cal. 3d 154, the California Supreme Court held that public entities cannot be made subject to these fees without statutory authorization. As a result, the fiscal stability and service capabilities of the affected public utility service agencies which have in good faith collected and spent these fees for capital improvements are seriously impaired as is the ability to finance essential future facilities.

(b) The Legislature further finds that the holding in the San Marcos Water Dist. v. San Marcos Unified School Dist., 42 Cal. 3d 154, should be revised to authorize payment and collection of capital facilities fees subject to the limitations set forth in this chapter, and in furtherance of this finding the Legislature hereby enacts the following provisions.

54999.1. For purposes of this chapter:

(a) "Actual construction costs" includes the cost of all activities necessary or incidental to the construction of a public utility facility, such as financing, planning, designing, acquisition of property or interests in property, construction, reconstruction, and rehabilitation.

(b) "Capital facilities fee" or "capacity charge" means any nondiscriminatory charge to pay the capital cost of a public utility facility.

(c) "Public agency" means the United States or any of its agencies, the state or any of its agencies, the Regents of the University of California, a county, a city, a district, a public authority, or any other political subdivision or public corporation of this state.

(d) "Public utility facility" means a facility for the provision of water, light, heat, communications, power, or garbage service, for flood control, drainage or sanitary purposes, or for sewage collection, treatment, or disposal.

(e) "Public utility service" means service provided from a public utilities facility.

(f) "Nondiscriminatory" means that the capital facilities fee does not exceed an amount determined on the basis of the same objective criteria and methodology applicable to comparable nonpublic users, and is not in excess of the proportionate share of the cost of the public utility facilities of benefit to the person or property being charged, based upon the proportionate share of use of those facilities.

(g) A capital facilities fee is imposed on the date on which the statement of charges for a public utility service is mailed or otherwise transmitted to the public agency that is receiving or will receive the public utility's service.

54999.2. Any public agency providing public utility service on or after July 21, 1986, may continue to charge, or may increase, an existing capital facilities fee, or may impose a new capital facilities fee after that date, and any public agency receiving a public utility's service shall pay those fees so imposed, except as provided in Section 54999.3.

54999.3. However, the imposition of a capital facilities fee on any school district, county office of education, community college district, the California State University, the University of California, or state agency shall be subject to the following:

(a) Where necessary to defray the actual construction costs of that portion of a public utility facility actually serving a public agency, any public agency providing public utility service on or after July 21, 1986, may continue to charge any capital facilities fee which was imposed prior to that date on the public agency using the public utility service and was not protested or challenged pursuant to law prior to January 1, 1987, or increase that capital facility fee in an amount not to exceed the percentage increase in the Implicit Price Deflator for State and Local Government Purchases, as determined by the Department of Finance and any public agency shall pay any capital facilities fees authorized by this subdivision.

(b) On and after July 21, 1986, any public agency proposing to initially impose a capital facilities fee or to increase an existing capital facilities fee in excess of the amount set forth in subdivision (a), may do so after agreement has been reached between the two agencies through negotiations entered into by both parties.

(c) Upon request of the affected public agency or upon increase pursuant to subdivision (a), the public agency imposing or increasing the fee shall identify the amount of the capital facilities fee. The public agency imposing or increasing the capital facilities fee has the burden of producing evidence to establish that the capital facilities fee is nondiscriminatory and that the amount of the capital facilities fee does not exceed the amount necessary to provide capital facilities for which the fee is charged.

54999.4. Any capital facilities fees paid prior to the effective date of this chapter and not protested or challenged pursuant to law on or before January 1, 1987, shall not be subject to refund, except for capital facilities fees paid after July 21, 1986, by a public agency subject to Section 54999.3 which are in excess of the maximum

amount authorized by Section 54999.3. Agreements entered into prior to or after the effective date of this chapter for the payment of capital facilities fees or capacity charges shall be effective.

54999.5. Capital facilities fees paid by school districts for public utility facilities to serve school facilities for which an application for funding is filed on or after the effective date of this chapter may, for purposes of Chapter 22 (commencing with Section 17700) of Part 10 of Division 1 of Title 1 of the Education Code, be included by the State Allocation Board as a "cost of project" within the meaning of subdivision (b) of Section 17702 of the Education Code.

54999.6. Should any provision or clause of this chapter or application thereof to any person or circumstance be held invalid or unconstitutional, that invalidity or unconstitutionality shall not affect other provisions or applications thereof which can be given effect without the invalid provision or application and, to this end, the provisions of this chapter are declared severable. By adopting this chapter, the Legislature hereby declares that it would have adopted this chapter without that provision or provisions.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to assure adequate revenue resources for publicly provided utility services and to provide the means for appropriate apportionment of capital facilities fees therefor, it is necessary that this act go into effect immediately.

CHAPTER 54

An act to amend Section 1710.20 of the Code of Civil Procedure, relating to courts.

[Approved by Governor March 24, 1988. Filed with Secretary of State March 25, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 1710.20 of the Code of Civil Procedure is amended to read:

1710.20. (a) The application shall be filed in a municipal or justice court in all cases in which the sister state judgment amounts to twenty-five thousand dollars ($25,000) or less and in a superior court in all other cases.

(b) Subject to the power of the court to transfer proceedings under this chapter pursuant to Title 4 (commencing with Section 392) of Part 2, the proper county for the filing of an application is any of the following:

(1) The county in which any judgment debtor resides; or

(2) If no judgment debtor is a resident, any county in this state.

CHAPTER 55

An act to add Section 54957.8 to the Government Code, relating to meetings.

[Approved by Governor March 24, 1988. Filed with Secretary of State March 25, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 54957.8 is added to the Government Code, to read:

54957.8. Nothing contained in this chapter shall be construed to prevent the legislative body of a multijurisdictional drug law enforcement agency, or an advisory body of a multijurisdictional drug law enforcement agency, from holding closed sessions to discuss the case records of any ongoing criminal investigation of the multijurisdictional drug law enforcement agency or of any party to the joint powers agreement, to hear testimony from persons involved in the investigation, and to discuss courses of action in particular cases.

"Multijurisdictional drug law enforcement agency," for purposes of this section, means a joint powers entity formed pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1, which provides drug law enforcement services for the parties to the joint powers agreement.

The Legislature finds and declares that this section is within the public interest, in that its provisions are necessary to prevent the impairment of ongoing law enforcement investigations, to protect witnesses and informants, and to permit the discussion of effective courses of action in particular cases.

CHAPTER 56

An act making an appropriation for the payment of claims against the State of California, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 28, 1988. Filed with Secretary of State March 28, 1988.]

I am reducing the General Fund appropriation contained in Section 1 (c) of Assembly Bill No. 436 from $7,255,381.89 to $7,217,155.89 by removing the funding for Claim No. G101064 relating to watermelon crop losses incurred during the summer of 1985.

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of 0.05 percent of full valuation for the current fiscal year within the district.

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade

level prior to the making of the first apportionment for the grade level to the unified school district under this chapter computed as provided in Section 16072 plus the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of this part.

If the unified school district's first apportionment under this chapter was for a grade level consisting of kindergarten, if any, and grades 1 to 6, inclusive, grades 1 to 8, inclusive, grades 7 to 12, inclusive, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, "eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the indebtedness that was incurred for elementary and high school purposes prior to the making of such first apportionment under this chapter computed as provided in Section 16072 together with the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of this part.

SEC. 2. The Legislature finds and declares as follows:

(a) The Simi Valley School District is a recipient of state school construction funding under the State School Building Aid Law of 1952. The Simi Valley School District is required, accordingly, under statute, to make specified repayments to the state on the basis of a designated property tax rate to be applied to property within the district.

(b) The school facilities funding program currently employed by this state is the Leroy F. Greene State School Building Lease-Purchase Law of 1976, under which sufficient funding is not available to meet the school facilities needs of school districts throughout the state.

(c) The application of local funding sources to district school facilities needs is encouraged, therefore, in order to alleviate the statewide demand on the state program of school facilities funding. Pursuant to that purpose, the statutory repayment schedule applicable under the State School Building Aid Law of 1952 should be revised so as to reduce the property tax rate that would otherwise be applicable in the Simi Valley School District, thus facilitating the approval of a general obligation bond measure within that district that is to be voted on by the electors of that district at an election to be held April 12, 1988.

SEC. 3. (a) Notwithstanding Section 16071 or any other provision of Chapter 8 (commencing with Section 16000) of Part 10 of the Education Code, the tax amounts utilized in the calculation under Section 16075 of the Education Code of the annual repayment obligation of the Simi Valley School District shall not exceed the tax amounts specified in Section 16070 of the Education Code.

(b) This section shall become operative only if a local general obligation bond measure, which measure includes within its purposes the funding of the rehabilitation of school facilities, is approved by the voters of the Simi Valley School District on April 12, 1988, in which event this section shall become operative April 13,

1988.

SEC. 4. Due to the unique circumstances specified in Section 2 of this act concerning the Simi Valley School District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to restore certain state school construction funding repayment requirements to a level that will provide critical funding to the State School Deferred Maintenance Fund, and to set forth an exemption to that requirement that will facilitate the approval of a local general obligation bond measure to be voted on at an election to be held on April 12, 1988, it is necessary that this act take effect immediately.

CHAPTER 65

An act to amend Section 48980 of, and to add Chapter 2.3 (commencing with Section 32255) to Part 19 of, the Education Code, relating to education.

[Approved by Governor March 29, 1988. Filed with Secretary of State March 30, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 48980 of the Education Code is amended to read:

48980. (a) At the beginning of the first semester or quarter of the regular school term, the governing board of each school district shall notify the parent or guardian of its minor pupils regarding the right or responsibility of the parent or guardian under Sections 35291, 46014, 48205, 48207, 48208, 49403, 49423, 49451, 49472, 51240, and 51550, Article 3 (commencing with Section 56030) of Chapter 1 of Part 30, and Chapter 2.3 (commencing with Section 32255) of Part 19.

(b) The notification shall also advise the parent or guardian of the availability of individualized instruction as prescribed by Section 48206.3, and of the program prescribed by Article 9 (commencing with Section 49510) of Chapter 9.

(c) School districts which elect to provide a fingerprinting program pursuant to Article 10 (commencing with Section 32390) shall inform parents or guardians of the program as specified in Section 32390.

SEC. 2. Chapter 2.3 (commencing with Section 32255) is added

to Part 19 of the Education Code, to read:

CHAPTER 2.3. PUPILS' RIGHTS TO REFRAIN FROM THE HARMFUL OR DESTRUCTIVE USE OF ANIMALS

32255. As use in this chapter:

(a) "Animal" means any living organism of the kingdom animalia, beings which typically differ from plants in capacity for spontaneous movement and rapid motor response to stimulation, by a usually greater mobility with some degree of voluntary locomotor ability, by greater irritability commonly mediated through a more or less centralized nervous system, beings which are characterized by a requirement for complex organic nutrients including proteins or their constituents which are usually digested in an internal cavity before assimilation into the body proper, which are distinguished from typical plants by lack of chlorophyll, by an inability to perform photosynthesis, by cells that lack cellulose walls, and by the frequent presence of discrete complex sense organs.

(b) "Alternative education project" includes, but is not limited to, the use of video tapes, models, films, books, and computers, which would provide an alternate avenue for obtaining the knowledge, information, or experience required by the course of study in question. "Alternative education project" also includes "alternative test."

(c) "Pupil" means a person under 18 years of age who is matriculated in a course of instruction in an educational institution within the scope of Section 32255.5. For the purpose of asserting the pupil's rights and receiving any notice or response pursuant to this chapter, "pupil" also includes the parents of the matriculated minor.

32255.1. (a) Except as otherwise provided in Section 32255.6, any pupil with a moral objection to dissecting or otherwise harming or destroying animals, or any parts thereof, shall notify his or her teacher regarding this objection, upon notification by the school of his or her rights pursuant to Section 32255.4.

(b) If the pupil chooses to refrain from participation in an education project involving the harmful or destructive use of animals, and if the teacher believes that an adequate alternative education project is possible, then the teacher may work with the pupil to develop and agree upon an alternate education project for the purpose of providing the pupil an alternate avenue for obtaining the knowledge, information, or experience required by the course of study in question.

(c) The alternative education project shall require a comparable time and effort investment by the pupil. It shall not, as a means of penalizing the pupil be more arduous than the original education project.

(d) The pupil shall not be discriminated against based upon his or her decision to exercise his or her rights pursuant to this chapter.

(e) Pupils choosing an alternative educational project shall pass all

examinations of the respective course of study in order to receive credit for that course of study. However, if tests require the harmful or destructive use of animals, a pupil may, similarily, seek alternative tests pursuant to this chapter.

(f) A pupil's objection to participating in an educational project pursuant to this section shall be substantiated by a note from his or her parent or guardian.

32255.3. (a) A teacher's decision in determining if a pupil may pursue an alternative educational project or be excused from the project shall not be arbitrary or capricious.

(b) Nothing in this chapter shall prevent any pupil from pursuing the grievance procedures in existing law.

32255.4. Each teacher teaching a course that utilizes live or dead animals or animal parts shall also inform the pupils of their rights pursuant to this chapter.

32255.5. Notwithstanding any provision of law to the contrary, this chapter applies to all levels of instruction in all public schools operating programs from kindergarten through grades 1 to 12, inclusive.

32255.6. Classes and activities, conducted as part of a program in agricultural education that provide instruction on the care, management, and evaluation of domestic animals are exempt from the provisions of this chapter.

SEC. 3. If any provision of this act or the application thereof to any person or set of circumstances is held invalid, the invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 4. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 66

An act to amend Section 11493.3 of, and to add Section 11506 to, the Insurance Code, relating to health insurance plans, and making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 31, 1988. Filed with Secretary of State March 31, 1988]

The people of the State of California do enact as follows:

SECTION 1. Section 11493.3 of the Insurance Code is amended to read:

11493.3. A corporation which is eligible to, and establishes a comprehensive health care program or programs pursuant to subdivision (e) of Section 11493 may, subject to the approval of the commissioner and for the specific purposes of this section only:

(a) Expend sums, including loans to a corporation or other legally recognized entity, to amortize capital costs of the purchase or construction of health care facilities to be operated by that corporation or entity as a part of that program.

(b) Enter into agreements with individual physicians or groups thereof for the rendering of services to subscribers or beneficiaries of that program on a fee-for-service or prepaid capitation basis; and with other licensed practitioners of the healing arts or groups thereof on a fee-for-service, prepaid capitation, salary, or any other basis compatible with the best interests of those subscribers and beneficiaries.

(c) Enter into such other agreements as may be necessary or convenient for the establishment and operation of those programs.

(d) Engage in experimental projects and programs to explore more efficient and economical methods of implementing those programs and the purposes of this section.

(e) Notwithstanding any other provisions of this chapter, a corporation which is eligible to, and establishes a comprehensive health care program, may take such actions as are necessary to guarantee hospital services to subscribers and beneficiaries.

(f) On or after January 1, 1989, no new license shall be granted under this chapter to any corporation seeking to establish a comprehensive health care program.

SEC. 2. Section 11506 is added to the Insurance Code, to read:

11506. (a) Notwithstanding Section 11491, a nonprofit hospital service plan first licensed under this chapter on January 19, 1978, may convert from a nonprofit public benefit corporation into a business corporation as provided in this section and Section 5813.5 of the Corporations Code. Upon conversion, the ownership of the business corporation shall be vested in a nonprofit hospital service plan licensed under this chapter. The commissioner may not revoke,

suspend, or otherwise limit the certificate of authority of a corporation subject to this chapter holding that certificate on January 1, 1988, solely for the reason that the corporation has changed its status from a nonprofit public benefit corporation to a business corporation, pursuant to Section 5813.5 of the Corporations Code, if that change of status occurred on or before June 30, 1988, and the corporation made application for a license to engage in the business of a health care service plan pursuant to Section 1351 of the Health and Safety Code on or before June 30, 1988. That corporation may renew contracts with existing groups but may not solicit or contract to cover new groups in Los Angeles, Orange, Riverside, San Bernardino, Ventura, Imperial, San Diego, or Santa Barbara County, until it is authorized to do business in those counties pursuant to Section 1353 of the Health and Safety Code. Until such authorization occurs, that corporation shall not solicit or contract to cover any individual member of an existing group if: (1) the individual resides in one of those counties and (2) the group in which that individual is a member has not contracted with the corporation for coverage for such individuals as of the effective date of this section. That corporation shall file a disclosure statement with the Department of Corporations describing the number and identity of groups which are existing in those counties as of the effective date of this section. The statement shall be kept confidential by the Department of Corporations until the corporation is authorized to do business pursuant to Section 1353 of the Health and Safety Code.

That conversion shall require the prior approval of the commissioner. Application for approval of this conversion and any related transactions shall be made to the commissioner, together with a filing fee of ten thousand dollars ($10,000), in a form to be prescribed by the commissioner. The application shall contain the information required by subdivision (a) of Section 1215.2, and such other information as the commissioner may deem necessary and proper. The commissioner may disapprove that application if any of the facts set forth in subdivision (d) of Section 1215.2, are found to exist, or if the transactions described in the application do not comply with the requirements of this section. The commissioner may impose reasonable conditions of approval, including the filing of a report setting forth the transactions completed under the commissioner's approval. The offer and sale of securities issued pursuant to the plan of conversion and approved in accordance with this section shall be exempt from Article 8 (commencing with Section 820) of Chapter 1 of Part 2 of Division 1. No sale of less than all of the outstanding securities shall be permitted.

(b) The proceeds from any sale or merger of that converted business corporation shall be deemed to be fair and reasonable if, after making reasonable efforts to disseminate the offer for sale or merger, the consideration received is the highest bid available.

(c) Sections 11493.5 and 11498 shall not apply to the corporation described in subdivision (a) of this section.

(d) No part of the proceeds from any conversion, sale, or merger shall inure to the benefit of any private person, nor shall any officer, director, or person with authority over the corporation's funds have any financial interest in the transaction or receive any commission, consideration, or other remuneration from it except their regular salary, if any.

(e) Any conversion, sale, or merger made in conformity with this section shall be deemed to comply fully with all requirements of law relating to charitable trusts. Within 60 days of the approval of the sale or merger, the commissioner shall file a written report of the transaction and its financial impact on the hospital service plan which received the proceeds of the sale with both houses of the Legislature.

(f) Upon the issuance of a license pursuant to Section 1353 of the Health and Safety Code, the corporation shall no longer be subject to this article, and its certificate of authority under this part shall expire notwithstanding Article 15 (commencing with Section 1070) of Chapter 1 of Part 2 of Division 1.

SEC. 3. It is the intent of the Legislature that hearings be conducted to examine each of the following:

(a) Any conversion of a nonprofit hospital service plan initially licensed on January 19, 1978, pursuant to Chapter 11a (commencing with 11491) of Part 2 of Division 2 of the Insurance Code to a business corporation operating for profit to determine whether actions taken or planned in the process of the conversion will adversely impact patient care.

(b) The financial condition of third-party payors as it affects the health care delivery system in this state.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to permit and facilitate the orderly conversion of nonprofit hospital service plans organized as nonprofit public benefit corporations to business corporations operating on a profit basis and to insure the continued availability of health insurance at a reasonable cost, it is necessary that this act take effect immediately as an urgency statute.

CHAPTER 67

An act to amend Section 439 of, and to add and repeal Part 1.75 (commencing with Section 442) to Division 1 of, the Health and Safety Code, and to amend Section 5565.32 of the Welfare and Institutions Code, relating to health, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 5, 1988. Filed with Secretary of State April 5, 1988]

The people of the State of California do enact as follows:

SECTION 1. Section 439 of the Health and Safety Code is amended to read:

439. (a) Every health facility licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2, except a health facility owned and operated by the state, shall be charged a fee of not more than 0.035 percent of the health facility's gross operating cost for the provision of health care services for its last fiscal year ending prior to the effective date of this section. Thereafter the office shall set for, charge to, and collect from all health facilities, except health facilities owned and operated by the state, a special fee, which shall be due on July 1, and delinquent on July 31 of each year beginning with the year 1977, of not more than 0.035 percent of the health facility's gross operating cost for provision of health care services for its last fiscal year which ended on or before June 30 of the preceding calendar year. Each year the office shall establish the fee to produce revenues equal to the appropriation to pay for the functions required to be performed pursuant to this part, Part 1.75 (commencing with Section 442), or Part 1.8 (commencing with Section 443) by the office, the area and local health planning agencies, and the Advisory Health Council.

Health facilities which pay fees shall not be required to pay, directly or indirectly, the share of the costs of those health facilities for which fees are waived.

(b) There is hereby established the California Health Data and Planning Fund within the Office of Statewide Health Planning and Development for the purpose of receiving and expending fee revenues collected pursuant to this chapter.

(c) Any amounts raised by the collection of the special fees provided for by subdivision (a) of this section which are not required to meet appropriations in the Budget Act for the current fiscal year shall remain in the California Health Data and Planning Fund and shall be available to the office and the council in succeeding years when appropriated by the Legislature, for expenditure under the provisions of this part, Part 1.75 (commencing with Section 442), and Part 1.8 (commencing with Section 443) and shall reduce the amount of the special fees which the office is authorized to establish and

charge.

(d) No health facility liable for the payment of fees required by this section shall be issued a license or have an existing license renewed unless the fees are paid. New, previously unlicensed health facilities shall be charged a pro rata fee to be established by the office during the first year of operation.

The license of any health facility, against which the fees required by this section are charged, shall be revoked, after notice and hearing, if it is determined by the office that the fees required were not paid within the time prescribed by subdivision (a).

SEC. 2. Part 1.75 (commencing with Section 442) is added to Division 1 of the Health and Safety Code, to read:

PART 1.75. SMALL AND RURAL HOSPITALS

442. The Legislature finds and declares all of the following:

(a) Small and rural hospitals serve as the hub of health care in the communities which they serve, and through that role attract and retain in their communities physicians, nurses, and other primary care providers.

(b) Because of economies of scale compounded by changes in payment for services, many rural hospitals may close. The smallest and most remote facilities are at highest risk of closure.

(c) Closure of small and rural hospitals will result in the departure of primary care providers and the loss of emergency medical services both to residents and persons traveling through the area.

(d) Licensure standards which may be appropriate for larger and urban hospitals are often unduly burdensome for small and rural hospitals.

(e) While the department, upon application of a hospital, is empowered to waive regulatory requirements when appropriate, neither a comprehensive assessment of regulatory requirements applicable to small and rural hospitals nor implementation of safe and efficacious alternatives to existing regulations is required by statute.

(f) The intent of this part is to establish a mechanism for a comprehensive assessment of regulatory requirements applicable to small and rural hospitals, to provide for the temporary implementation and evaluation of alternative standards, and to assure the adoption of those standards by the department where they are determined to be safe and efficacious.

442.1. It is the intent of the Legislature that while this part is in effect, any request for program flexibility by small and rural hospitals which would have otherwise been requested from the department shall be, instead, requested from the office under the authority granted to the office in this part.

442.2. As used in this part:

(a) "Department" means the State Department of Health Services.

(b) "Office" means the Office of Statewide Health Planning and Development.

(c) "Small and rural hospital" means an acute care hospital which meets either of the following conditions: (1) the hospital meets the criteria for designation within peer group six or eight, as defined in the report entitled Hospital Peer Grouping for Efficiency comparison, dated December 20, 1982, or (2) the hospital meets the criteria for designation within peer group five or seven and has no more than 76 acute care beds and is located in a census dwelling place of 15,000 or less population according to the 1980 federal census.

442.3. (a) Between the effective date of this part and January 1, 1990, the office shall undertake a comprehensive review and assessment of the regulatory requirements currently imposed upon small and rural hospitals pursuant to Chapter 2 (commencing with Section 1250) of Division 2 and Chapter 1 (commencing with Section 15000) of Division 12.5.

(b) By March 1, 1990, the office shall adopt emergency regulations waiving or modifying those existing regulations found in Division 5 (commencing with Section 70000) of Title 22, and those building standards found in Parts 2 (commencing with Section 2-101), 3 (commencing with Section 3-089-1), 4 (commencing with Section 4-403), and 5 (commencing with Section P-100), of Title 24, of the California Code of Regulations determined by the office to be inapplicable, unreasonably burdensome to, or unnecessary for the safe and efficient operation of small and rural hospitals. These waivers and modifications of otherwise existing regulations shall remain in full force and effect for all small and rural hospitals until this part is repealed. Before waiving or modifying regulations adopted by the department, the director of the office shall first consult with the Director of Health Services.

(c) Prior to adopting the emergency modifications and waivers, the office shall consult with the department and with appropriate professional associations to ensure that patient safety and quality of care are not compromised.

(d) Licensing and certification functions now performed by the department shall continue to be performed by the department, subject to the emergency waivers and modifications, any approved pilot project, or program flexibility granted by the office for small and rural hospitals.

(e) The office may also authorize the department to consolidate on the license of a hospital multiple levels of health care services.

442.4. (a) In addition to the waivers and modifications provided for in Section 442.3 that apply to all small and rural hospitals, the office may also conduct pilot projects in any specific small or rural hospital or group of small or rural hospitals permitting the use of alternate concepts, methods, procedures, techniques, equipment, personnel, personnel qualifications, or physical plant standards. These pilot projects may also include the development of alternative

rural hospital models. These pilot projects may be coordinated or intergrated with health manpower pilot projects approved by the office pursuant to Article 18 (commencing with Section 429.70) of Chapter 2 of Part 1.

(b) No project shall continue more than 24 months from the start of implementation, unless the office determines that the project is likely to contribute substantially to the availability of high-quality health services in the state or region thereof.

(c) The office shall seek the advice of appropriate professional societies and appropriate healing arts licensing boards when approving pilot projects under this section.

(d) The office shall only approve those pilot projects that assure that patient safety and quality of care will be maintained.

(e) The office shall only approve projects which permit wages, hours, and working conditions that are permissible under the laws and rules of the Industrial Welfare Commission.

(f) Nothing in this part shall be construed as creating an exemption from the healing arts practices acts in Division 2 (commencing with Section 500) of the Business and Professions Code, unless it is a part of a health manpower pilot project approved by the office pursuant to Article 18 (commencing with Section 429.70) of Chapter 2 of Part 1.

442.5. (a) The Director of the Office of Statewide Health Planning and Development may appoint a technical advisory committee of up to seven members to provide advice on the implementation and administration of this part. Members appointed to the committee shall have knowledge and expertise in health care and health care management. At least one member shall be a representative of the department.

(b) If a technical advisory committee is established by the Director of the Office of Statewide Health Planning and Development, members of the committee shall be reimbursed for any actual and necessary expenses incurred in connection with their duties as members of the committee.

442.6. (a) As a condition of participation in any pilot program approved under Section 442.4, any hospital or group of hospitals shall agree to provide statistical data and patient information that the office deems necessary for effective evaluation and monitoring. It is the intent of the Legislature that the office shall develop procedures to assure the confidentiality of patient information, including name identification, as is necessary pursuant to this part or any other law.

(b) Any authorized officer, employee, or agent of the office or the department may, upon presentation of proper identification, enter and inspect any building or premises and any records, including patient records, of a pilot project participant at any reasonable time to review compliance with, or to prevent any violation of, this section, this part, or the regulations and standards adopted thereunder.

(c) The office may suspend or withdraw approval of any or all

pilot projects with notice, but without hearing if it determines that patient safety is being jeopardized.

(d) The office may contract with a medical consultant or other advisers as necessary, as determined by the office. Due to the necessity to expedite the provision of regulatory relief to small and rural hospitals, the contracts shall be exempt from Section 10373 of the Public Contract Code, and shall be considered sole-source contracts.

(e) The office may adopt emergency regulations to implement this part in accordance with Section 11346.1 of the Government Code, except that the regulations shall be exempt from the requirements of subdivisions (e), (f), and (g) of that section. The regulations shall be deemed an emergency for the purpose of Section 11346.1. Any amendments to the regulations shall also be adopted as an emergency as provided for in this subdivision, and the same exemptions from Section 11346.1 shall apply.

442.7. The office and the department shall cooperate and jointly pursue any waivers or state plan amendments that are necessary to permit hospitals that are participating in the regulatory relief program outlined in this part to continue to participate in, and receive full reimbursement under, the federal Medicare and Medicaid programs.

442.8. The office shall submit a report to the Legislature and to the department on or before April 1, 1993, which shall include an evaluation of the impact on small and rural hospitals of the program authorized by this part. The report shall address whether or not those regulations modified or waived by the office should be permanently modified or waived by the department for small and rural hospitals, and what further regulatory changes should be made based on the results of any pilot project approved pursuant to Section 442.4, or any program flexibility granted. When making its report, the office shall consider health care costs, availability, safety, and quality of care.

442.9. This part and the regulations adopted hereunder shall remain in effect only until January 1, 1994, and as of that date are repealed, unless a later enacted statute which is chaptered prior to January 1, 1994, deletes or extends that date.

SEC. 3. Section 5565.32 of the Welfare and Institutions Code is amended to read:

5565.32. (a) No later than July 1, 1988, or, April 1 of each year thereafter, each county that wishes to participate in the program under this chapter shall have a program proposal for the development of a coordinated system of services to address the needs of children with serious emotional disturbance.

(b) Each county program proposal shall include protocols developed in the county for case assessment designed to do all of the following:

(1) Determine the least restrictive appropriate mental health treatment setting for each child.

(2) Plan and facilitate the provision of needed services for the

child and family when necessary and monitor those services.

(3) Provide methods for client and family advocacy to occur within the system.

(c) Each county that wishes to participate in the program under this chapter shall initiate discussions with other public agencies serving children with serious emotional disturbance, including, but not limited to, special education, foster care, and child protective and juvenile justice services to identify common needs and joint planning opportunities.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Small and rural hospitals are in crisis. Some are in danger of closing, even though they are sole-source health care providers in their communities. Since small and rural hospitals need timely regulatory relief, it is necessary that this act take effect immediately.

Furthermore, in order to permit counties to implement comprehensive children's mental health services programs at the earliest possible time, it is necessary that this act go into immediate effect.

CHAPTER 68

An act to add Section 25503.22 to the Business and Professions Code, relating to alcoholic beverages, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 5, 1988. Filed with Secretary of State April 5, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 25503.22 is added to the Business and Professions Code, to read:

25503.22. (a) Nothing in this division shall prohibit the issuance or transfer of any retail on-sale beer and wine license to any person with respect to premises which are an integral part of a restaurant owned by, or operated by or on behalf of, the licensee, notwithstanding that a wholesaler licensed to sell alcoholic beverages in states other than California has an interest, directly or indirectly, in the premises, in the retail license or in the retail licensee, provided that each of the following conditions are met:

(1) The retail licensee shall purchase no beer or wine for sale in this state other than from a California wholesale licensee, and the retail licensee shall purchase no beer or wine from any manufacturer or wholesale licensee holding the ownership of any interest, directly or indirectly, in the premises, in the retail license or in the retail

licensee.

(2) Not more than 30 percent of the gross annual revenues of the restaurant are derived from the sale of alcoholic beverages.

(b) The Legislature finds that it is necessary and proper to require a separation between manufacturing interests, wholesale interests, and retail interests in the production and distribution of alcoholic beverages in order to prevent suppliers from dominating local markets through vertical integration and to prevent excessive sales of alcholic beverages produced by overly aggressive marketing techniques. The Legislature further finds that the exception established by this section to the general prohibition against tied interests must be limited to its expressed terms so as not to undermine the general prohibition, and intends that this section be construed accordingly.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent irrevocable economic disruption, it is necessary that this act take effect immediately.

CHAPTER 69

An act to amend Section 25503.15 of the Business and Professions Code, relating to alcoholic beverages, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 5, 1988. Filed with Secretary of State April 5, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 25503.15 of the Business and Professions Code is amended to read:

25503.15. Notwithstanding any other provision of this division, a winegrower who manufactures, produces, bottles, processes, imports, or sells wine only, or any officer, director, or agent of any such person, may hold the ownership of any interest in any retail license, or the business conducted under any such license, provided that the person or the officer, director, or agent of that person, shall have entered into an undertaking approved by the department stating that neither that person nor any officer, director, or agent of that person shall sell or furnish to the holder of the license any wine, or permit the sale pursuant to that license of any wine, manufactured, produced, bottled, processed, imported, or sold by that person or that person's principal so long as that ownership continues, nor that neither that person nor any officer, director, or agent of that person shall enter into any collusive scheme whereby

he or she unfairly sells or promotes, in his or her onsale or offsale businesses, the wine of another winegrower who manufactures, produces, bottles, processes, imports or sells wine only, in return for his or her wine being unfairly sold or promoted in the retail businesses of that winegrower.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Assembly Bill 1712 (Chapter 68 of the Statutes of 1987) inadvertently removed long-standing statutory authority for wine growers to hold an interest in off-sale retail package beer and wine licenses. Removal of this authority will cause severe financial hardship for those affected who will depend on off-premises consumer sales for a substantial portion of their business. Therefore, it is necessary that this act go into immediate effect.

CHAPTER 70

[Approved by Governor April 6, 1988. Filed with Secretary of State April 6, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 667.5 of the Penal Code is amended to read:

667.5. Enhancement of prison terms for new offenses because of prior prison terms shall be imposed as follows:

(a) Where one of the new offenses is one of the violent felonies specified in subdivision (c), in addition and consecutive to any other prison terms therefor, the court shall impose a three-year term for each prior separate prison term served by the defendant where the prior was one of the violent felonies specified in subdivision (c); provided that no additional term shall be imposed under this subdivision for any prison term served prior to a period of 10 years in which defendant remained free of both prison custody and the commission of an offense which results in a felony conviction.

(b) Except where subdivision (a) applies, where the new offense is any felony for which a prison sentence is imposed, in addition and consecutive to any other prison terms therefor, the court shall impose a one-year term for each prior separate prison term served for any felony; provided that no additional term shall be imposed under this subdivision for any prison term served prior to a period of five years in which the defendant remained free of both prison custody and the commission of an offense which results in a felony conviction.

(9) Any robbery perpetrated in an inhabited dwelling house or trailer coach, as defined in the Vehicle Code, or in the inhabited portion of any other building, wherein it is charged and proved that the defendant personally used a deadly or dangerous weapon, as provided in subdivision (b) of Section 12022, in the commission of that robbery.

(10) Arson, in violation of subdivision (a) of Section 451.

The Legislature finds and declares that these specified crimes merit special consideration when imposing a sentence to display society's condemnation for such extraordinary crimes of violence against the person.

(d) For the purposes of this section the defendant shall be deemed to remain in prison custody for an offense until the official discharge from custody or until release on parole whichever first occurs including any time during which the defendant remains subject to reimprisonment for escape from custody or is reimprisoned on revocation of parole. The additional penalties provided for prior prison terms shall not be imposed unless they are charged and admitted or found true in the action for the new offense.

(e) The additional penalties provided for prior prison terms shall not be imposed for any felony for which the defendant did not serve a prior separate term in state prison.

(f) A prior conviction of a felony shall include a conviction in another jurisdiction for an offense which if committed in California is punishable by imprisonment in state prison if the defendant served one year or more in prison for the offense in the other jurisdiction. A prior conviction of a particular felony shall include a conviction in another jurisdiction for an offense which includes all of the elements of the particular felony as defined under California law if the defendant served one year or more in prison for the offense in the

other jurisdiction.

(g) A prior separate prison term for the purposes of this section shall mean a continuous completed period of prison incarceration imposed for the particular offense alone or in combination with concurrent or consecutive sentences for other crimes, including any reimprisonment on revocation of parole which is not accompanied by a new commitment to prison, and including any reimprisonment after an escape from incarceration.

(i) For the purposes of this section, a commitment to the State Department of Health as a mentally disordered sex offender following a conviction of a felony, which commitment exceeds one year in duration, shall be deemed a prior prison term.

(j) For the purposes of this section, when a person subject to the custody, control, and discipline of the Director of Corrections is incarcerated at a facility operated by the Youth Authority, that incarceration shall be deemed to be a term served in state prison.

(k) Notwithstanding subdivisions (d) and (g) or any other provision of law, where one of the new offenses is committed while defendant is temporarily removed from prison pursuant to Section 2690 or while defendant is transferred to a community facility pursuant to Section 3416, 6253, or 6263, or while defendant is on furlough pursuant to Section 6254, the defendant shall be subject to the full enhancements provided for in this section.

This subdivision shall not apply when a full, separate, and consecutive term is imposed pursuant to any other provision of law.

CHAPTER 71

SECTION 1. Section 1313 of the Military and Veterans Code is amended to read:

1313. (a) The construction of a memorial to all of California's veterans on the grounds of the State Capitol is hereby authorized. For purposes of this chapter, the grounds of the State Capitol are that property in the City of Sacramento bounded by Ninth, 15th, "L", and "N" Streets. (c) The payments made pursuant to this section and Section 31739.5 shall not be considered as a part of the monthly retirement allowance, optional death allowance, or annual death allowance, nor shall any such payments be construed as guaranteeing any similar payments in any subsequent year.

(f) This section shall not be operative in any county in any year, unless it is adopted or readopted in any year by the board of supervisors. Any such adoption or readoption in any particular year shall not be construed to require any adoption or readoption in any subsequent year.

Before adoption by the board of supervisors in any year, the cost of the payments authorized by this section and Section 31739.5 shall be determined by a qualified actuary and the board of supervisors shall, with advice of the actuary, provide for the payment of such cost in such manner as to fully fund the benefits on a sound actuarial basis, including use of available funds in the reserves provided in Section 31592.2 with the approval of the retirement board, or an increase in the employer rates of contributions, or a combination of these sources of payments. This actuarial determination shall be made only upon authorization by the board of supervisors.

Upon adoption by any county providing benefits pursuant to this section, of Article 5.5 (commencing with Section 31510) of this chapter, the board of retirement shall, instead, pay those benefits from the Supplemental Retiree Benefits Reserve established pursuant to Section 31510.8.

For this purpose, the city or county shall enter into regulatory contracts and other agreements with housing sponsors receiving loans under this chapter

to assure all requirements of this chapter are satisfied.

Subject to the limitations prescribed in this chapter, a city or county may purchase, or undertake, directly or indirectly through lending institutions, commitments to purchase, construction loans and mortgage loans originated in accordance with a financing agreement with the city or county to finance the development of multifamily rental housing and may make loans to lending institutions under terms and conditions which, in addition to other provisions determined by the city or county, shall require the lending institutions to use the net proceeds of the loans for the making, directly or indirectly, of construction loans or mortgage loans to finance the development of multifamily rental housing.

52078. For the purposes of this chapter, a city or county shall have the power to issue its bonds to defray, in whole or in part, the costs of studies and surveys, insurance premiums, underwriting fees, legal, accounting and marketing services incurred in connection with the issuance and sale of bonds, including bond and mortgage reserve accounts; trustee, custodian, and rating agency fees, and any other costs which are reasonably related to the foregoing.

52079. A city or county may, in conjunction with the financing of multifamily rental housing pursuant to this chapter, finance the development of commercial property for lease, subject to all of the following conditions:

(a) No more than 10 percent of the proceeds of any revenue bonds issued pursuant to this chapter may be used to develop the commercial property for lease.

(b) The commercial property developed will be located on the same parcel or on a parcel adjacent to a multifamily rental housing development.

(c) As a condition of the financing, any lease payments collected in excess of payments necessary for debt service, operating expenses and any required reserves related to such property, shall be used to reduce rents on units reserved for occupancy by lower income households and very low income households in a multifamily rental housing development.

52080. (a) (1) Not less than 20 percent of the total number of units in a multifamily rental housing development financed, or for which financing has been extended or committed, pursuant to this chapter from the proceeds of sale of each bond issuance of the city or county shall be for occupancy on a priority basis by lower income households, as defined by Section 50079.5. If a multifamily rental housing development is located within a targeted area project, as defined by Section 103(b)(12)(A) of Title 26 of the United States Code, not less than 15 percent of the total number of units financed, or for which financing has been extended or committed pursuant to this chapter, shall be for occupancy on a priority basis by lower income households. Not less than one-half of the units required for occupancy on a priority basis by lower income households shall be for occupancy on a priority basis for very low income households, as

defined by Section 50105.

The rental payments on the units required for occupancy by very low income households paid by the persons occupying the units (excluding any supplemental rental assistance from the state, the federal government, or any other public agency to those persons or on behalf of those units) shall not exceed 30 percent of 50 percent of area median income. If the sponsor elects to establish a base rent for all or part of the units for lower income households and very low income households, the base rents shall be adjusted for household size. In adjusting rents for household size, the agency shall assume that one person will occupy a studio unit, two persons will occupy a one-bedroom unit, three persons will occupy a two-bedroom unit, four persons will occupy a three-bedroom unit, and five persons will occupy a four-bedroom unit.

(2) The governing body shall ensure that the local agency issuing permits for the development of the multifamily rental housing development shall consider opportunities to contribute to the economic feasibility of the units and to the provision of units for very low income households through concessions and inducements including, but not limited to, the following:

(A) Reductions in construction and design requirements.

(B) Reductions in setback and square footage requirements and the ratio of vehicular parking spaces that would otherwise be required.

(C) Granting density bonuses.

(D) Providing expedited processing of permits.

(E) Modifying zoning code requirements to allow mixed use zoning.

(F) Reducing or eliminating fees and charges for filing and processing applications, petitions, permits, planning services, water and sewer connections, and other fees and charges.

(G) Reducing or eliminating requirements relating to monetary exactions, dedications, reservations of land, or construction of public facilities.

(H) Other financial incentives or concessions for the multifamily rental housing development which result in identifiable cost reductions, as determined by the governing body. The governing body shall ensure that the local agency issuing permits for the development considers its responsibilities under this section and makes a good faith effort to enhance the feasibility of the project and to provide housing for lower income households and very low income households.

(3) The governing body shall not permit a selection criteria to be applied to certificate holders under Section 8 of the United States Housing Act of 1937 (42 U.S.C. Sec. 1437f) that is more burdensome than the criteria applied to all other prospective tenants.

(4) It is the intent of the Legislature that the governing body finance projects that assist in meeting the urgent need for providing shelter for lower income households, very low income households,

and persons and families of low or moderate income. To that end, the quality of materials and the amenities provided should not be excessive so as to hinder the prospect of achieving the stated goal. The Legislature finds and declares that the design standards utilized in the past, including, but not limited to, the design requirements adopted to govern the new construction program under Section 8 of the United States Housing Act of 1937 (42 U.S.C. Sec. 1437f), are substantially in excess of those required for a decent, healthy, and safe residential unit and intends, by the amendment adding this paragraph to this section by the Statutes of 1985, that cities and counties finance multifamily rental developments with substantially less costly design requirements than those required by the governing body prior to January 1, 1986.

(5) It is the intent of the Legislature that the governing body finance projects that assist in meeting the urgent need for providing shelter for families. To that end, developments with three- and four-bedroom units affordable to larger families shall have priority over competing developments.

(b) As a condition of financing pursuant to this chapter, the housing sponsor shall enter into a regulatory agreement with the city or county providing that units reserved for occupancy by lower income households remain available on a priority basis for occupancy until the bonds are retired. The regulatory agreement shall contain a provision making the covenants and conditions of the agreement binding upon successors in interest of the housing sponsor. The regulatory agreement shall be recorded in the office of the county recorder of the county in which the multifamily rental housing development is located. The regulatory agreement shall be recorded in the grantor-grantee index to the name of the property owner as grantor and to the name of the city or county as grantee.

(c) The governing body shall ensure that units occupied by lower income households are of comparable quality and offer a range of sizes and number of bedrooms comparable to those units which are available to other tenants.

(d) (1) The city or county shall give priority to processing construction loans and mortgage loans or may take other steps such as reducing loan fees or other local fees for multifamily rental developments which incorporate innovative and energy-efficient techniques which reduce development or operating costs and which have the lowest feasible per unit cost, as determined by the city or county, based on efficiency of design or the elimination of improvements that are not required by applicable building standards.

(2) The city or county shall give equal priority to processing construction loans and mortgage loans or may take other steps such as reducing loan fees or other local fees on multifamily rental housing developments which do any of the following:

(A) Utilize federal housing or development assistance.

(B) Utilize redevelopment funds or other local financial

assistance, including, but not limited to, contributions of land.

(C) Are sponsored by a nonprofit housing organization.

(D) Provide a significant number of housing units, as determined by the city or county, as part of a coordinated jobs and housing plan adopted by the city or county.

(E) Exceed a ratio whereby 20 percent of the units are reserved for occupancy by lower income households, or whereby 10 percent of the units are reserved for occupancy by very low income households, or which provide units for lower income households or very low income households for the longest period of time beyond the minimum number of years.

(e) (1) New and existing rental housing developments may be syndicated after prior written approval of the governing body. The governing body shall grant that approval only after the city or county determines that the terms and conditions of the syndication comply with this section.

(2) The terms and conditions of the syndication shall not reduce or limit any of the requirements of this chapter or regulations adopted or documents executed pursuant to this chapter. No requirements of the city or county shall be subordinated to the syndication agreement. A syndication shall not result in the provision of fewer assisted units, or the reduction of any benefits or services, than were in existence prior to the syndication agreement.

(f) At the option of the city or county, the amendments to this subdivision made by Chapter 907 of the Statutes of 1983 may be made applicable to any multifamily rental housing development financed by the issuance, on or after September 3, 1982, of bonds authorized by this chapter.

52081. For purposes of this article, "housing sponsor" means a person as defined in Section 52016.

52085. The primary purpose of this chapter is to meet the multifamily rental housing needs of persons and families of low or moderate income. The exercise of the powers granted by this division shall be in all respects for the benefit of the people of this state and for their health and welfare. Therefore, any bonds issued by a city, county, or city and county pursuant to this chapter, their transfer, and the income therefrom shall at all times be free from taxation by the state or any political subdivision or other instrumentality of the state, excepting inheritance and gift taxes.

52086. Two or more cities in the same county, or a county and one or more cities within such county, or two or more counties, may enter into an agreement to join or cooperate with one another in the exercise jointly, or otherwise, of any or all of their powers for the purpose of financing multifamily rental housing development pursuant to this chapter.

Article 3. State Assistance

52090. This article constitutes an alternative method for cities and counties to issue bonds for making construction loans and mortgage loans for multifamily rental housing developments pursuant to the provisions of this chapter.

52090.5. The agency and any city or county may enter into an agreement which provides that the agency may sell bonds authorized pursuant to Chapter 4 (commencing with Section 52030) for the city or county and operate a program with the proceeds of the sale for the purpose of providing funds for construction loans and mortgage loans for multifamily rental housing developments within the city or county and for the provision of capital improvements in connection with and determined necessary to the multifamily rental housing.

52091. Any agreement made pursuant to Section 52090.5 shall contain all of the following provisions:

(a) Limitations on the maximum amount of bonds to be issued by a city or county.

(b) A requirement that all bonds and any prospectus in connection with such bonds contain a legend condition to the following effect: "Neither the faith and credit of the State of California or the agency nor the taxing power of the state is pledged to the payment of principal or interest on this bond."

(c) A requirement that the agency approve the bond counsel selected by the city or county.

(d) The designation of criteria for multifamily rental housing developments eligible for financing; the number of units which shall be available for occupancy by persons of low income, which shall not be less than 20 percent of the total units; the amount to be allocated to a bond reserve fund; and, any other matters which the agency finds necessary or desirable.

(e) That the agency shall make construction loans and mortgage loans for multifamily rental housing developed within the city or county.

(f) That the agency shall supervise all construction and management of multifamily rental housing developments financed pursuant to this chapter on behalf of the city or county, and with the same powers and duties under this chapter, to assure that all requirements of this part are met.

52091.5. Bonds issued pursuant to this article shall not be deemed bonds of the agency for the purposes of any limitations contained in Section 51350.

52092. The agency shall adopt uniform regulations for administration of local programs under this article. Local programs conducted by the agency under this article shall be administered in a manner consistent with this chapter.

Article 4. Miscellaneous

52095. Whenever a complaint is received concerning a violation of the restrictions imposed pursuant to Section 52080, the city or county shall investigate promptly and make a report to the complaining party on whether the violation existed and whether it persists, and if it persists, what action the city or county will take to remedy the violation. When the city or county determines that a violation exists, whether determined upon an investigation of a complaint or on its own motion, the city or county shall take all appropriate action, including necessary legal action, to promptly eliminate the violation.

Notwithstanding any provision of this section, any person aggrieved by a violation may seek a judicial remedy without regard to whether a complaint has been made to the city or county or whether the city or county is then taking any action to remedy the violation.

Article 5. Application to Chartered Cities

52097. Except as otherwise provided in this article, this chapter shall not be construed to limit or otherwise restrict the authority of chartered cities to issue bonds for the purpose of financing the construction or development of multifamily rental housing or for the provision of capital improvements in connection with and determined necessary to that multifamily rental housing. For purposes of this article, certificates of participation in any form of obligation of a city, county, or city and county shall be considered to be bonds.

52097.5. (a) At least 30 days prior to issuing bonds pursuant to this chapter, a charter provision, or an ordinance for the purposes specified in Section 52097, an issuer shall notify the Mortgage Bond and Tax Credit Allocation Committee in writing that the issuer intends to issue bonds pursuant to this chapter or such other authority. The notification shall specify the amount of bonds expected to be issued, the development or developments to be financed, and the development or developments, if any, that are subject to the restriction on occupancy described in subdivision (d). The Mortgage Bond and Tax Credit Allocation Committee shall advise the issuer of the aggregate amount of bonds previously issued in the calendar year pursuant to this chapter, charter provisions, or ordinances.

(b) An issuer shall certify to the Mortgage Bond and Tax Credit Allocation Committee, at the time of filing the notification of intent to issue, that it has in an escrow specifically established for the purpose, an amount equal to 1 percent of the amount of bonds expected to be issued for developments other than developments to be owned by nonprofit or public entities. To the extent that bonds are not issued for the development or developments before the later

of the end of the calendar year in which the notification of intent was filed or the passage of nine months during which amounts were available for the issuance under subdivision (d), a pro rata proportion of the amount in the escrow shall be forwarded to the Mortgage Bond and Tax Credit Allocation Committee for immediate deposit in the Rental Housing Construction Fund established pursuant to Section 50740. To the extent that bonds are issued for the development or developments, or notwithstanding the preceding sentence, are not issued during the periods specified in the preceding sentence for reasons beyond the control of the issuer or the developer, as determined by the issuer, the amount in escrow may be released by the issuer to the appropriate person or entity and not forwarded to the committee for deposit in that fund.

(c) Within five days, exclusive of weekends and holidays, of the issuance of bonds pursuant to this chapter, a charter provision, or an ordinance for the purposes specified in Section 52097, the city, county, or city and county shall notify the Mortgage Bond and Tax Credit Allocation Committee of the amount of the bonds issued.

(d) The maximum aggregate amount of bonds which may be issued pursuant to this chapter, charter provisions, or ordinances for the purposes specified in Section 52097, shall not exceed one billion five hundred million dollars ($1,500,000,000) in any calendar year. Not less than 10 percent of the total number of units in any development which is financed with any bonds issued on or after January 1, 1986, shall be reserved for occupancy by individuals or families whose adjusted gross income does not exceed 50 percent of the median adjusted gross income for the area, adjusted for family size, as determined pursuant to Section 8 of the United States Housing Act of 1937 (42 U.S.C. Sec. 1437f), or its successor, and the rents for those units shall not exceed the amount derived by multiplying 30 percent times 50 percent of the median adjusted gross income for the area, adjusted for family size, as determined pursuant to Section 8 of the United States Housing Act of 1937, (42 U.S.C. Sec. 1437f), or its successor, for a family of one person in the case of a studio unit, two persons in the case of a one-bedroom unit, three persons in the case of a two-bedroom unit, four persons in the case of a three-bedroom unit, and five persons in the case of a four-bedroom unit.

(e) No city, county, or city and county may issue any bonds until any information required to be filed pursuant to Section 8855.5 of the Government Code has been filed with the California Debt Advisory Commission and the Treasurer certifies to the Legislature that the city, county, or city and county has filed that information. Section 52098 shall not apply to bonds issued on or after January 1, 1986.

52098. Each city, county, and city and county which has issued bonds pursuant to this chapter or a charter provision or ordinance for the purposes specified in Section 52097, shall file a report annually, on or before March 1st, with the Governor, the Legislature, and the Department of Housing and Community Development, which

report shall include all of the following information:

(a) The total amount of bonds issued by the city, county, or city and county pursuant to this chapter or such other authority.

(b) The total number of units in multifamily rental housing developments financed pursuant to this chapter or such other authority.

(c) The total number of units in multifamily rental housing developments reserved for occupancy on a priority basis for lower income households.

(d) The total number of units, if any, in a multifamily rental housing development reserved for occupancy on a priority basis for very low income households.

52099. This chapter shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

SEC. 5. Section 214 of the Revenue and Taxation Code is amended to read:

214. (a) Property used exclusively for religious, hospital, scientific, or charitable purposes owned and operated by community chests, funds, foundations or corporations organized and operated for religious, hospital, scientific, or charitable purposes is exempt from taxation if:

(1) The owner is not organized or operated for profit; provided, that in the case of hospitals, the organization shall not be deemed to be organized or operated for profit, if during the immediate preceding fiscal year the excess of operating revenues, exclusive of gifts, endowments and grants-in-aid, over operating expenses has not exceeded a sum equivalent to 10 percent of those operating expenses. As used herein, operating expenses shall include depreciation based on cost of replacement and amortization of, and interest on, indebtedness.

(2) No part of the net earnings of the owner inures to the benefit of any private shareholder or individual.

(3) The property is used for the actual operation of the exempt activity, and does not exceed an amount of property reasonably necessary to the accomplishment of the exempt purpose.

(4) The property is not used or operated by the owner or by any other person so as to benefit any officer, trustee, director, shareholder, member, employee, contributor, or bondholder of the owner or operator, or any other person, through the distribution of profits, payment of excessive charges or compensations or the more advantageous pursuit of their business or profession.

(5) The property is not used by the owner or members thereof for fraternal or lodge purposes, or for social club purposes except where such use is clearly incidental to a primary religious, hospital, scientific, or charitable purpose.

(6) The property is irrevocably dedicated to religious, charitable, scientific, or hospital purposes and upon the liquidation, dissolution or abandonment of the owner will not inure to the benefit of any

private person except a fund, foundation or corporation organized and operated for religious, hospital, scientific, or charitable purposes.

(7) The property, if used exclusively for scientific purposes, is used by a foundation or institution which, in addition to complying with the foregoing requirements for the exemption of charitable organization in general, has been chartered by the Congress of the United States (except that this requirement shall not apply when the scientific purposes are medical research), and whose objects are the encouragement or conduct of scientific investigation, research and discovery for the benefit of the community at large.

The exemption provided for herein shall be known as the "welfare exemption." This exemption shall be in addition to any other exemption now provided by law and the existence of the exemption provision in paragraph (2) of subdivision (a) of Section 202 shall not preclude the exemption under this section for museum or library property. Except as provided in subdivision (e), this section shall not be construed to enlarge the college exemption.

(b) Property used exclusively for school purposes of less than collegiate grade and owned and operated by religious, hospital, or charitable funds, foundations, or corporations, which property and funds, foundations, or corporations meet all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section.

(c) Property used exclusively for nursery school purposes and owned and operated by religious, hospital, or charitable funds, foundations, or corporations, which property and funds, foundations, or corporations meet all the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section.

(d) Property used exclusively for a noncommercial educational FM broadcast station or an educational television station and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations meeting all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section.

(e) Property used exclusively for religious, charitable, scientific, or hospital purposes and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations or educational institutions of collegiate grade, as defined in Section 203, which property and funds, foundations, corporations, or educational institutions meet all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section. As to educational institutions of collegiate grade, as defined in Section 203, the requirements of paragraph (6) of subdivision (a) shall be deemed to be met if both

of the following are met:

(1) The property of the educational institution is irrevocably dedicated in its articles of incorporation to charitable and educational purposes, to religious and educational purposes, or to educational purposes.

(2) The articles of incorporation of the educational institution provide for distribution of its property upon its liquidation, dissolution, or abandonment to a fund, foundation, or corporation organized and operated for religious, hospital, scientific, charitable, or educational purposes meeting the requirements for exemption provided by Section 203 or this section.

(f) Property used exclusively for housing and related facilities for elderly or handicapped families and financed by, including, but not limited to, the federal government pursuant to Section 202 of Public Law 86-372 (12 U.S.C. Sec. 1701q), as amended, Section 231 of Public Law 73-479 (12 U.S.C. Sec. 1715v), or Section 236 of Public Law 90-448 (12 U.S.C. Sec. 1715z), and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section. The amendment of this paragraph made at the 1983–84 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the existing law. However, no refund of property taxes shall be required as a result of this amendment for any fiscal year prior to the fiscal year in which the amendment takes effect.

Property used exclusively for housing and related facilities for elderly or handicapped families at which supplemental care or services designed to meet the special needs of elderly or handicapped residents are not provided, or which is not financed by the federal government pursuant to Section 202 of Public Law 86-372 (12 U.S.C. Sec. 1701q), as amended, Section 231 of Public Law 73-479 (12 U.S.C. Sec. 1715v), or Section 236 of Public Law 90-448 (12 U.S.C. Sec. 1715), shall not be entitled to exemption pursuant to this subdivision unless the property is used for housing and related facilities for low- and moderate-income elderly or handicapped families. Property which would otherwise be exempt pursuant to this subdivision, except that it includes some housing and related facilities for other than low- or moderate-income elderly or handicapped families, shall be entitled to a partial exemption. The partial exemption shall be equal to that percentage of the value of the property which is equal to the percentage which the number of low- and moderate-income elderly and handicapped families occupying the property is of the total number of families occupying the property.

As used in this subdivision, "low and moderate income" has the same meaning as the term "persons and families of low or moderate income" as defined by Section 50093 of the Health and Safety Code.

(g) Property used exclusively for rental housing and related facilities and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations, including limited partnerships in which the managing general partner is an eligible nonprofit corporation, meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section and shall be entitled to a partial exemption equal to that percentage of the value of the property which the portion of the property serving lower income households is of the total property in any year in which any of the following criteria are applicable:

(1) Twenty percent or more of the occupants of the property are lower income households whose rent does not exceed that prescribed by Section 50053 of the Health and Safety Code.

(2) The acquisition, rehabilitation, development, or operation of the property, or any combination of these factors, is financed with tax-exempt mortgage revenue bonds or general obligation bonds, or is financed by local, state, or federal loans or grants and the rents of the occupants who are lower income households do not exceed those prescribed by deed restrictions or regulatory agreements pursuant to the terms of the financing or financial assistance.

(3) The owner of the property is eligible for and receives low-income housing tax credits pursuant to Section 42 of the Internal Revenue Code of 1986, as added by Public Law 99-514.

In order to be eligible for the exemption provided by this subdivision, the owner of the property shall do both of the following:

(A) Certify and ensure that there is a deed restriction, agreement, or other legal document which restricts the project's usage and which provides that the units designated for use by lower income households are continuously available to or occupied by lower income households at rents that do not exceed those prescribed by Section 50053 of the Health and Safety Code, or, to the extent that the terms of federal, state, or local financing or financial assistance conflicts with Section 50053, rents do not exceed those prescribed by the terms of the financing or financial assistance.

(B) Certify that the funds which would have been necessary to pay property taxes are used to maintain the affordability of, or reduce rents otherwise necessary for, the units occupied by lower income households.

As used in this subdivision, "lower income households" has the same meaning as the term "lower income households" as defined by Section 50079.5 of the Health and Safety Code.

(h) Property used exclusively for an emergency or temporary shelter and related facilities for homeless persons and families and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the

California Constitution and this section. Property which would otherwise be exempt pursuant to this subdivision, except that it includes housing and related facilities for other than an emergency or temporary shelter, shall be entitled to a partial exemption.

As used in this subdivision, "emergency or temporary shelter" means a facility which would be eligible for funding pursuant to Chapter 11 (commencing with Section 50800) of Part 2 of Division 31 of the Health and Safety Code.

SEC. 6. This act makes a classification or exemption of property for purposes of ad valorem taxation within the meaning of Section 2229 of the Revenue and Taxation Code.

SEC. 7. The amendments to Section 214 of the Revenue and Taxation Code made by this act shall be operative for the 1988–89 fiscal year and fiscal years thereafter.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This bill makes critically needed statutory revisions in the laws relating to private activity bonds, the state's housing laws relating to the provision of shelter to homeless persons and families, the authority of cities and counties to issue revenue bonds for multifamily housing, and the procedure for allocating state and federal low-income housing tax credits. In order to accomplish these revisions at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 78

An act to add Section 14044 to the Education Code, and to amend Section 628.2 of the Penal Code, relating to crimes.

[Approved by Governor April 14, 1988 Filed with Secretary of State April 15, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 14044 is added to the Education Code, to read:

14044. (a) Upon determining that any semiannual report to the State Department of Education, as required under Section 628.2 of the Penal Code, has not been submitted, or that a submitted report contains intentionally misleading data, the Superintendent of Public Instruction may withhold an amount from the next state funding apportionment to which the school district or, as appropriate, the county office of education, would otherwise be entitled. The amount so withheld shall not exceed one-half of the annual salary of the superintendent of that district or of that county superintendent of

schools, respectively.

(b) Any funds withheld pursuant to subdivision (a) shall be held in trust by the Superintendent of Public Instruction until he or she determines that the data required under Section 628.2 of the Penal Code has been submitted, in complete and accurate form, by the appropriate school district or county office of education whereupon those funds shall be released to the appropriate county treasury to the credit of that district or county office of education.

SEC. 2. Section 628.2 of the Penal Code is amended to read:

628.2. On forms prepared and supplied by the State Department of Education, each principal of a school in a school district and each principal or director of a school, program, or camp under the jurisdiction of the county superintendent of schools shall forward a completed report of crimes committed on school or camp grounds at the end of each reporting period to, respectively, the district superintendent or county superintendent of schools.

The district superintendent or, as appropriate, the county superintendent of schools, shall compile the school data and submit the aggregated data to the State Department of Education not later than February 1 for the reporting period of July 1 through December 31, and not later than August 1 for the reporting period January 1 through June 30.

The superintendent of any school district that maintains a police department pursuant to Section 39670 may direct the chief of police or other administrator of that department to prepare the completed report of crimes for one or more schools in the district, to compile the school data for the district, and to submit the aggregated data to the State Department of Education in accordance with this section.

The State Department of Education shall distribute, upon request, to each office of the county superintendent of schools and each county probation department, a summary of that county's district reports, county reports, and the summary of statewide aggregated data. This information shall be supplied not later than January 1 of each year for the previous school year. The department shall also submit to the Legislature a summary of the statewide aggregated data not later than March 1 of each year for the previous school year. In addition, commencing with the second annual report, the department shall also evaluate school district and county school crime prevention programs by comparing the numbers and rates of crimes and the resulting economic losses for each year against those of previous years.

All school district, county, and statewide reports prepared under this chapter shall be deemed public documents and shall be made available to the public at a price not to exceed the actual cost of duplication.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant

to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 79

An act to amend Section 13199.5 of the Health and Safety Code, relating to automatic fire extinguishing systems.

[Approved by Governor April 15, 1988. Filed with Secretary of State April 15, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 13199.5 of the Health and Safety Code is amended to read:

13199.5. This chapter shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1991, deletes or extends that date.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

(b) It is licensed by a comparable agency in another state.

(c) It is exempt from licensure.

(d) It is operated by the Regents of the University of California.

The department shall certify facilities licensed pursuant to subdivision (e) of Section 1250 of the Health and Safety Code for participation in the program within 30 calendar days of receipt of a complete application or date of licensure, whichever is greater, if the facility meets all the requirements for certification. The department for claims purposes only, shall issue a provider number to facilities which meet all certification requirements within 30 calendar days of the date of certification or 60 calendar days of licensure, whichever is greater.

CHAPTER 81

An act to amend Section 31480 of, and to add Section 31646.1 to, the Government Code, relating to the County Employees Retirement Law of 1937.

[Approved by Governor April 21, 1988. Filed with Secretary of State April 21, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 31480 of the Government Code is amended to read:

31480. The provisions of this chapter, as they apply to retirement for service or disability, deferred retirement, and the death benefit, shall not be applicable to any member claiming public service pursuant to Section 31478 or to any member claiming service credit for uncompensated illness leave of absence in excess of 12 consecutive months pursuant to Section 31646.1, unless such member has rendered service, other than the public service or the uncompensated illness leave of absence for which the member has elected to receive credit, sufficient to meet the minimum requirements of this chapter covering each of the benefits enumerated in this section.

SEC. 2. Section 31646.1 is added to the Government Code, to read:

31646.1. A member who returns to active service following an uncompensated leave of absence on account of illness or injury

arising out of and in the course of employment which exceeds 12 consecutive months and for which the member receives temporary disability benefits pursuant to the Labor Code during the absence may receive service credit for the full period in excess of 12 consecutive months during which the member received temporary disability benefits pursuant to the Labor Code upon the payment of the contributions which the member would have paid during that period, together with the interest which the contributions would have earned had they been on deposit, if the member was not absent, provided, that the member has rendered sufficient service, other than the service for which credit in excess of 12 consecutive months is to be purchased pursuant to this section, to meet the minimum service credit requirements for benefits. The contributions may be paid in a lump sum or may be paid on a monthly basis for a period of not more than the length of the period for which service credit is claimed.

This section shall not be operative in any county until such time as the board of supervisors shall, by resolution adopted by a majority vote, make this section applicable in the county.

SEC. 3. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

CHAPTER 82

An act to amend Section 104.12 of the Streets and Highways Code, relating to highways.

[Approved by Governor April 21, 1988. Filed with Secretary of State April 21, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 104.12 of the Streets and Highways Code is amended to read:

104.12. (a) The department may lease to public agencies or private entities for any term not to exceed 99 years the use of areas above or below state highways, subject to any reservations, restrictions, and conditions that it deems necessary to ensure adequate protection to the safety and the adequacy of highway facilities and to abutting or adjacent land uses. Authorized emergency vehicles, as defined in Section 165 of the Vehicle Code, which are on active duty and are not merely being stored shall be given preference in the use of these areas, and no payment of

consideration shall be required for this use of the areas by these vehicles. Prior to entering into any lease, the department shall determine that the proposed use is not in conflict with the zoning regulations of the local government concerned. The leases shall be made in accordance with procedures to be prescribed by the commission, except that, in the case of leases with private entities, the leases shall only be made after competitive bidding unless the commission finds, by unanimous vote, that in certain cases competitive bidding would not be in the best interests of the state. The possibilities of entering into the leases, and the consequent benefits to be derived therefrom, may be considered by the department in designing and constructing the highways.

Revenues from the leases shall be deposited in the State Highway Account.

(b) The department shall consider future lease potential of areas above or below state highway projects when planning new state highway projects. This consideration shall be accomplished by intradepartment consultation between offices concerned with project development and airspace lease development.

(c) The department shall submit to the Legislature an annual report on the income and the inventory status of airspace leased above and below state highways.

CHAPTER 83

An act to amend Section 61932 of the Food and Agricultural Code, relating to dairy products, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 21, 1988. Filed with Secretary of State April 21, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 61932 of the Food and Agricultural Code is amended to read:

61932. Class 1 comprises:

(a) Any market milk, market skim milk, half-and-half, or concentrated milk that is supplied to consumers in the fluid state, with the exception of the following:

(1) (A) Any UHT market milk product, as defined in Chapter 9 (commencing with Section 39701) of Part 3 of Division 15, which is sold for use outside the state.

(B) Any market milk products which are ultrapasteurized and sold for use outside the 48 contiguous states in the United States.

(2) Any market half-and-half which is ultrapasteurized and packaged in hermetically sealed containers.

(3) Any market half-and-half which is packaged in presterilized

containers under aseptic conditions to meet the marketing requirements for these products in states other than this state. However, this paragraph does not authorize the sale within this state of any milk product as a UHT product unless the product meets the standards and requirements for UHT products specified in Chapter 9 (commencing with Section 39701) of Part 3 of Division 15.

(4) Any market milk, market skim milk, or market cream which is used in the manufacture of yogurt or soft fresh cheese (fromage frais) which is directly sold for use in states other than this state.

(b) Any market milk, market skim milk, or market cream which is used in any other milk product, or products resembling milk products, in which the use of market milk, or any components or derivatives of market milk, is required by, or pursuant to, this code, except any product defined in Section 61933 as class 2.

(c) Any market milk, market skim milk, market cream, market milk fat, or market milk solids-not-fat which is used in the standardizing or fortifying of any milk product which is defined in this section as class 1.

(d) Any market milk, market skim milk, or market cream which is used in any product not otherwise classified, which is required by any regulations adopted by the director pursuant to Article 2 (commencing with Section 36631) of Chapter 1 of Part 3 of Division 15 to be made from market milk or any components or derivatives of market milk.

(e) Any market milk, market skim milk, market cream, market milk fat, or market milk solids-not-fat used in any filled product or imitation milk product, when the product imitated or resembled, is defined in this section as class 1.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The pricing classification for soft fresh cheese (fromage frais) should be identical to yogurt when these products are sold out-of-state. In order to clarify this classification, it is necessary that this act take effect immediately.

CHAPTER 84

An act to amend Sections 1428 and 1428.1 of the Health and Safety Code, relating to health, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 21, 1988. Filed with Secretary of State April 21, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 1428 of the Health and Safety Code is amended to read:

1428. (a) If a licensee desires to contest a class "AA" or a class "A" citation, or a citation alleging a class "B" violation and either a class "AA" or class "A" violation or the proposed assessment of a civil penalty therefor, the licensee shall within 15 business days after service of the citation notify the director in writing of his or her request for a citation review conference with the designee of the director for the county in which the cited long-term health care facility is located. The director's designee shall hold, within 15 business days from the receipt of the request, a citation review conference, at the conclusion of which he or she may affirm, modify, or dismiss the citation or proposed assessment of a civil penalty. If the director's designee affirms, modifies, or dismisses the citation or proposed assessment of a civil penalty, he or she shall state with particularity in writing his or her reasons for that action, and shall immediately transmit a copy thereof to each party to the original complaint. If the licensee desires to contest a decision made after the citation review conference, the licensee shall inform the director in writing within 15 business days after he or she receives the decision by the director's designee. If the licensee fails to notify the director in writing that he or she intends to contest the citation or the proposed assessment of a civil penalty therefor or the decision made by a director's designee after a citation review conference within the time specified in this subdivision, the citation or the proposed assessment of a civil penalty or the decision by a director's designee after a citation review conference shall be deemed a final order of the state department and shall not be subject to further administrative review, except that the licensee may seek judicial relief from the time limits specified in this subdivision.

(b) If a licensee notifies the director that he or she intends to contest a class "AA" or a class "A" citation, or a citation alleging a class "B" violation and either a class "AA" or class "A" violation, the director shall immediately notify the Attorney General. Upon notification, the Attorney General shall promptly take all appropriate action to enforce the citation and recover the civil penalty prescribed thereon, and shall take such other action as the Attorney General shall deem appropriate, in the court of competent

jurisdiction for the county in which the long-term health care facility is located.

(c) If a licensee desires to contest a class "B" citation or the proposed assessment of a civil penalty therefor, the licensee shall within 15 business days after service of the citation (1) notify the director in writing of his or her request for a citation review conference with the designee of the director for the county in which the cited long-term health care facility is located; or (2) notify the director in writing of the licensee's intent to adjudicate the validity of the citation in the municipal court in the county in which the long-term health care facility is located. If requested by the licensee, the director's designee shall hold, within 15 business days from the receipt of the request, a citation review conference, at the conclusion of which he or she may affirm, modify, or dismiss the citation or the proposed assessment of a civil penalty. If the director's designee affirms, modifies, or dismisses the citation or proposed assessment of a civil penalty, he or she shall state with particularity in writing his or her reasons for that action and shall immediately transmit a copy thereof to each party to the original complaint. If the licensee desires to contest a decision made after the citation review conference, the licensee shall inform the director in writing within 15 business days after he or she receives the decision by the director's designee. In order to perfect a judicial appeal of a contested citation, a licensee shall file a civil action in the municipal court in the county in which the long-term health care facility is located. The action shall be filed no later than 60 calendar days after a licensee notifies the director that he or she intends to contest a citation, and served no later than 60 days after filing. In the event a citation review conference is held, the action shall be filed no later than 60 calendar days after a licensee notifies the director of his or her intent to contest the decision of the director's designee and served no later than 60 days after filing. If a judicial appeal is prosecuted under the provisions of this subdivision, the state department shall have the burden of establishing by a preponderance of the evidence that (1) the alleged violation did occur, (2) the alleged violation met the criteria for the class of citation alleged, and (3) the assessed penalty was appropriate. The state department shall also have the burden of establishing by a preponderance of the evidence that the assessment of a civil penalty should be upheld. If a licensee fails to notify the director in writing that he or she intends to contest the citation or the decision made by the director's designee within the time specified in this subdivision, or fails to file a civil action within the time specified in this subdivision, the citation or the decision by the director's designee after a citation review conference shall be deemed a final order of the state department and shall not be subject to further administrative review, except that the licensee may seek judicial relief from the time limits specified in this subdivision. If a licensee prosecutes a judicial appeal of a contested citation or the assessment of a civil penalty, no civil penalty shall be due and payable unless and

until the appeal is terminated in favor of the state department. Notwithstanding any other provision of law, for those citations issued after January 1, 1988, a licensee prosecuting a judicial appeal shall file and serve an at issue memorandum pursuant to Rule 209 of the California Rules of Court by July 1, 1988, or within six months after the state department files its answer in the appeal, whichever is later. The court shall dismiss the appeal upon motion of the state department if the at issue memorandum is not filed by the facility within the period specified.

(d) The director or the director's designee shall establish an independent unit of trained citation review conference hearing officers within the state department to conduct citation review conferences. Citation review conference hearing officers shall be directly responsible to the deputy director for licensing and certification, and shall not be concurrently employed as supervisors, district administrators, or regional administrators with the licensing and certification division. Specific training shall be provided to members of this unit on conducting an informal conference, with emphasis on the regulatory and legal aspects of long-term health care.

Where the state department issues a citation as a result of a complaint or regular inspection visit, and a resident or residents are specifically identified in a citation by name as being specifically affected by the violation, then the following persons may attend the citation review conference:

(1) The complainant and his or her designated representative.

(2) A personal health care provider, designated by the resident.

(3) A personal attorney, only if the long-term health care facility has an attorney present.

(4) Any person representing the Office of the State Long-Term Care Ombudsman, as defined in subdivision (c) of Section 9701 of the Welfare and Institutions Code.

Where the state department determines that residents in the facility were threatened by the cited violation but does not name specific residents, any person representing the Office of the State Long-Term Care Ombudsman, as defined in subdivision (c) of Section 9701 of the Welfare and Institutions Code, and a representative of the residents or family council at the facility may participate to represent all residents. In this case, these representatives shall be the sole participants for the residents in the conference. The residents' council shall designate which representative will participate.

The complainant, affected resident, or their designated representatives shall be notified by the state department of the conference and their right to participate. The director's designee shall notify the complainant or his or her designated representative and the affected resident or his or her designated representative, of his or her determination based on the citation review conference.

(e) In assessing the civil penalty for a violation, all relevant facts

shall be considered, including, but not limited to, all of the following:

(1) The probability and severity of the risk which the violation presents to the patient's mental and physical condition.

(2) The patient's medical condition.

(3) The patient's mental condition and his or her history of mental disability.

(4) The good-faith efforts exercised by the facility to prevent the violation from occurring.

(5) The licensee's history of compliance with regulations.

(f) Except as otherwise provided in this subdivision, an assessment of civil penalties for a class "A" or class "B" violation shall be trebled and collected for a second or subsequent violation occurring within any 12-month period, if a citation was issued and a civil penalty assessed for the previous violation occurring within the period, without regard to whether the action to enforce the previous citation has become final. However, the increment to the civil penalty required by this subdivision shall not be due and payable unless and until the previous action has terminated in favor of the state department.

If the class "B" violation is a patient's rights violation, as defined in subdivision (d) of Section 1424, it shall not be trebled unless the state department determines the violation has a direct or immediate relationship to the health, safety, security, or welfare of long-term health care facility residents.

(g) The director shall prescribe procedures for the issuance of a notice of violation with respect to violations having only a minimal relationship to safety or health.

(h) Actions brought under this chapter shall be set for trial at the earliest possible date and shall take precedence on the court calendar over all other cases except matters to which equal or superior precedence is specifically granted by law. Times for responsive pleading and for hearing any such proceeding shall be set by the judge of the court with the object of securing a decision as to subject matters at the earliest possible time.

(i) If the citation is dismissed or reduced, the state department shall take action immediately to ensure that the public records reflect in a prominent manner that the citation was dismissed or reduced.

(j) Upon a licensee notifying the director of its intent to contest one or more citations or decisions made following a citation review conference where the total penalties do not exceed fifteen thousand dollars ($15,000), either the state or the licensee may elect to submit the matter to binding arbitration. The parties shall agree upon an arbitrator designated from the American Arbitration Association in accordance with the association's established rules and procedures. The arbitration hearing shall be set within 45 days of the petitioner's election, but in no event less than 28 days from the date of selection of an arbitrator. The arbitration hearing may be continued up to 15 additional days if necessary at the arbitrator's discretion. The

arbitrator's decision shall specify, in writing, the areas of disagreement between the parties, the evidence upon which the decision is based, and the reasons for the decision. The decision of the arbitrator shall be based upon substantive law and shall be binding on all parties, subject to judicial review. This review shall be limited to whether there was substantial evidence to support the decision of the arbitrator.

The arbitrator shall determine which of the parties are financially liable for arbitration costs based upon the position each took at the commencement of the arbitration proceedings compared to the decision of the arbitrator.

The retention of, renewal of, or application for, a license to operate a skilled nursing facility or intermediate care facility shall, for purposes of the administration of this chapter, be deemed a written agreement to arbitrate contested citations within the meaning of Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure. Without extending the time for commencement of these hearings, the provisions of Section 1283.05 of the Code of Civil Procedure shall be applicable to all proceedings to arbitrate citations issued pursuant to this chapter, except that depositions may be noticed and taken without prior approval of the arbitrator.

Penalties paid on violations under this chapter shall be applied against the state department's accounts to offset any costs incurred by the state pursuant to this subdivision. Any costs or penalties assessed pursuant to this chapter shall be paid within 30 days of the date the decision becomes final. If a facility does not comply with this provision, the state department shall withhold any payment under the Medi-Cal program until the debt is satisfied. No payment shall be withheld if the state department determines that it would cause undue hardship to the facility or to patients of the facility.

(k) The amendments made to subdivisions (a) and (c) of this section by the Statutes of 1988, to extend the number of days allowed for the provision of notification to the Director of Health Services, do not affect the right, which is also contained in those amendments, to request judicial relief from these time limits.

SEC. 2. Section 1428.1 of the Health and Safety Code is amended to read:

1428.1. (a) A licensee may, in lieu of contesting a citation pursuant to Section 1428, transmit to the state department the minimum amount specified by law, or 50 percent of the amount specified in the citation, whichever is greater, for each violation within 15 business days after the issuance of the citation.

(b) If a licensee requests a citation review conference, and if following the citation review conference the citation is sustained for the same class of violation for which it was issued but the penalty assessed is reduced to at least 30 percent less than the amount originally assessed, the licensee may pay the minimum amount specified by law, or 50 percent of the amount determined by the citation review conference, whichever is greater, for each violation

within 15 business days after notice of the citation review conference determination.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to correct drafting errors to this section of law which inadvertently created two different time requirements for filing and serving appeals, and to clarify that the provisions of law changing these time frames are effective for citations issued after January 1, 1988, it is necessary that this act go into immediate effect.

CHAPTER 85

An act to amend and repeal Section 4681 of, and to add Section 4681.1 to, the Welfare and Institutions Code, relating to developmental disabilities, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 22, 1988. Filed with Secretary of State April 22, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 4681 of the Welfare and Institutions Code is amended to read:

4681. By July 1, 1977, and each year thereafter, the department shall establish rates, which shall be reviewed by the state council. Such rates shall annually be proposed to the Legislature by March 1 and shall be operative on July 1 of each year, subject to the appropriation of sufficient funds for such purpose in the Budget Act. In reviewing the sufficiency of these rates that is required by March 1, 1985, the department shall take into account the findings and recommendations of the study conducted by the State Council on Developmental Disabilities pursuant to Section 4541.

In establishing rates to be paid for out-of-home care, the department shall include each of the cost elements in this section as follows:

(a) Rates established for all facilities shall include an adequate amount to care for "basic living needs" of a person with developmental disabilities. "Basic living needs" are defined to include housing (shelter, utilities, and furnishings), food, and personal care. The amount required for basic living needs shall be calculated each year as the average cost of an additional normal child, of the ages of 12 to 17, inclusive, living at home. The amount for basic living needs shall be adjusted depending on the size of the out-of-home facility. These amounts shall be adjusted annually to reflect cost-of-living changes. A redetermination of basic living costs

shall be undertaken every three years by the State Department of Developmental Services, using the best available estimating methods.

(b) Rates established for all facilities that provide direct supervision for persons with developmental disabilities shall include an amount for "direct supervision." The cost of "direct supervision" shall reflect the ability of the persons in the facility to function with minimal, moderate, or intensive supervision. Minimal supervision means that a developmentally disabled person needs the assistance of other persons with certain daily activities. Moderate supervision means that a developmentally disabled person needs the assistance of other persons with daily activities most of the time. Intensive supervision means that all the personal and physical needs of a developmentally disabled person are provided by other persons. The individual program plan developed pursuant to Section 4646 shall determine the amount of "direct supervision" required for each individual. The cost of "direct supervision" is calculated as the wage costs of care-giving staff depending on the needs of the person with developmental disabilities. These rates shall be adjusted annually to reflect wage changes and shall comply with all federal regulations for hospitals and residential-care establishments under provisions of the federal Fair Labor Standards Act.

(c) Rates established for all facilities that provide "special services" for persons with developmental disabilities shall include an amount to pay for these "special services" for each person receiving special services. "Special services" include medical and dental care and therapeutic, educational, training, or other services required in the individual program plan of each person. Facilities shall be paid for providing special services for each individual to the extent that such services are specified in the person's individual program plan and the facility is designated provider of such special services. Rates of payment for special services shall be the same as prevailing rates paid for similar services in the area.

(d) To the extent applicable, rates established for facilities shall include a reasonable amount for "unallocated services." Such costs shall be determined using generally accepted accounting principles. "Unallocated services" means the indirect costs of managing a facility and includes costs of managerial personnel, facility operation, maintenance and repair, employee benefits, taxes, interest, insurance, depreciation, and general and administrative support. If a facility serves other persons in addition to developmentally disabled persons, unallocated services expenses shall be reimbursed under the provision of this section, only for the proportion of the costs associated with the care of developmentally disabled persons.

(e) Rates established for facilities shall include an amount to reimburse facilities for the depreciation of "mandated capital improvements and equipment" as established in the state's uniform accounting manual. For purposes of this section, "mandated capital improvements and equipment" are only those remodeling and

equipment costs incurred by a facility because an agency of government has required such remodeling or equipment as a condition for the use of the facility as a provider of out-of-home care to persons with developmental disabilities.

(f) When applicable, rates established for proprietary facilities shall include a reasonable "proprietary fee."

(g) Rates established for all facilities shall include as a "factor" an amount to reflect differences in the cost of living for different geographic areas in the state.

(h) Rates established for developmentally disabled persons who are also mentally disordered may be fixed at a higher rate. The State Department of Mental Health shall establish criteria upon which higher rates may be fixed pursuant to this subdivision. The higher rate for developmentally disabled persons who are also mentally disordered may be paid when requested by the director of the regional center and approved by the Director of Developmental Services.

This section shall apply to rates for facilities not participating in the alternative residential care rate model originally authorized in Item 4300-101-001 of the Budget Act of 1985, and as identified in the department's report of April 1987 entitled Alternative Residential Model (ARM).

(i) Except as provided in subdivision (j), this section shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1991, deletes or extends that date.

(j) This section shall not be repealed until the State Department of Developmental Services achieves statewide implementation of the Alternative Residential Model.

SEC. 2. Section 4681.1 is added to the Welfare and Institutions Code, to read:

4681.1. (a) By July 1, 1989, and each year thereafter, the department shall establish rates, which shall be reviewed by the state council. The rates shall annually be proposed to the Legislature by March 1 and shall be operative on July 1 of each year, subject to the appropriation of sufficient funds for such purpose in the Budget Act. In reviewing the sufficiency of these rates that is required by March 1, 1989, the department shall take into account the findings and recommendations of the study conducted by the State Council on Developmental Disabilities pursuant to Section 4541.

(b) In establishing rates to be paid for out-of-home care, the department shall include each of the cost elements in this section as follows:

(1) Rates established for all facilities shall include an adequate amount to care for "basic living needs" of a person with developmental disabilities. "Basic living needs" shall include housing, shelter, utilities, furnishings, food, incidental transportation, housekeeping, and personal care items. The amount required for basic living needs shall be calculated each year as the average cost

of these items in community care facilities. The department shall annually publish a listing of the allowable cost components of these cost items and the methodology used to determine the amounts of each item. The amount for basic living needs shall be adjusted depending on the extent to which there is a demonstrated variation based on the size of the out-of-home facility. These amounts shall be adjusted annually to reflect cost-of-living changes. A redetermination of basic living costs shall be undertaken every three years by the State Department of Developmental Services, using the best available estimating methods.

(2) Rates established for all facilities that provide direct supervision for persons with developmental disabilities shall include an amount for "direct supervision." The cost of "direct supervision" shall vary with the person's functioning in the areas of self-care and daily living skills, physical coordination and mobility, and behavioral self-control and shall reflect one of the following:

(A) Basic self-help and daily living skills, no significant limitations in physical coordination and mobility, and behavioral self-control.

(B) Poor self-help and daily living skills, some limitations in physical coordination and mobility, or some disruptive or self-injurious behavior.

(C) Severe deficits in self-care and daily living skills, severe impairments in physical coordination and mobility, or severely disruptive or self-injurious behavior.

The individual program plan developed pursuant to Section 4646 shall determine the amount of direct supervision required for each individual. The cost of direct supervision shall be calculated as the wage and benefit costs of caregiving staff depending on the level of service being provided to meet the functional needs of the person with developmental disabilities. These rates shall be adjusted annually to reflect wage changes and shall comply with all federal regulations for hospitals and residential care establishments under the federal Fair Labor Standards Act.

(3) Rates established for all facilities that provide "special services" for persons with developmental disabilities shall include an amount to pay for such "special services" for each person receiving special services. "Special services" include specialized training, treatment, supervision, or other services which the individual program plan of each person requires to be provided by the residential facility in addition to the direct supervision provided pursuant to the person's individual program plan in subdivision (b). Facilities shall be paid for providing special services for each individual to the extent that such services are specified in the person's individual program plan and the facility is designated provider of such special services. Rates of payment for special services shall be the same as prevailing rates paid for similar services in the area.

(4) To the extent applicable, rates established for facilities shall include a reasonable amount for "unallocated services." These costs

shall be determined using generally accepted accounting principles. "Unallocated services" means the indirect costs of managing a facility and includes costs of managerial personnel, facility operation, maintenance and repair, employee benefits, taxes, interest, insurance, depreciation, and general and administrative support. If a facility serves other persons in addition to developmentally disabled persons, unallocated services expenses shall be reimbursed under this section, only for the proportion of the costs associated with the care of developmentally disabled persons. The amount for unallocated services shall be adjusted depending on the extent to which there is a demonstrated variation due to such factors as facility size or administrative structure.

(5) Rates established for facilities shall include an amount to reimburse facilities for the depreciation of "mandated capital improvements and equipment" as established in the state's uniform accounting manual. For purposes of this section, "mandated capital improvements and equipment" are only those remodeling and equipment costs incurred by a facility because an agency of government has required such remodeling or equipment as a condition for the use of the facility as a provider of out-of-home care to persons with developmental disabilities.

(6) When applicable, rates established for proprietary facilities shall include a reasonable "proprietary fee."

(7) Rates established for all facilities shall include as a "factor" an amount to reflect differences in the cost of living for different geographic areas in the state.

(8) Rates established for developmentally disabled persons who are also mentally disordered may be fixed at a higher rate. The State Department of Mental Health shall establish criteria upon which higher rates may be fixed pursuant to this subdivision. The higher rate for developmentally disabled persons who are also mentally disordered may be paid when requested by the director of the regional center and approved by the Director of Developmental Services.

(c) This section shall apply to facility rates paid under the alternative residential model originally authorized in Item 4300-101-001 of the Budget Act of 1985 and as identified in the department's report of April 1987 entitled Alternative Residential Model (ARM).

The department shall approve additional facilities to receive rates pursuant to this section upon the appropriation of funds for that purpose.

It is the intent of the Legislature that the department phase in implementation of the alternative residential model during the fiscal years 1987–88, 1988–89, 1989–90, and 1990–91. The department shall include all facilities providing services pursuant to this article in the alternative residential model by January 1, 1991.

By April 1, 1989, the State Department of Developmental Services shall prepare draft regulations establishing quality service standards

for facilities and procedures for administering the alternative residential model. The department shall confer with interested parties concerning the draft regulations by July 1, 1989. By July 1, 1990, the department shall submit to the Office of Administrative Law regulations establishing quality service standards for facilities, procedures for administering the Alternative Residential Model, and ratesetting methodology. Full statewide implementation of the Alternative Residential Model shall not occur until the department has submitted these regulations.

SEC. 3. The sum of eleven million seven hundred thousand dollars ($11,700,000) is hereby appropriated from the General Fund to the State Department of Developmental Services, to be used for all of the following purposes:

(a) Rate adjustments for facilities participating in the State Department of Developmental Services' alternative residential model pursuant to Section 4681.1 of the Welfare and Institutions Code. It is the intent of the Legislature that the department select additional facilities to bring into the alternative residential model on a voluntary basis during the 1987–88 fiscal year in regional centers which opt to participate. Rates paid pursuant to Section 4681.1 of the Welfare and Institutions Code shall not be less than the 1987–88 levels proposed in the department's April 1987 report entitled Alternative Residential Model (ARM).

(b) Rate adjustments for residential care facilities not participating in the State Department of Developmental Services' alternative residential model and receiving rates pursuant to Section 4681 of the Welfare and Institutions Code. These rate adjustments shall be in the following amounts:

(1) A 10 percent increase shall be provided in the rate of reimbursement currently paid under the department's 1987 schedule of maximum allowances for facilities providing minimal, moderate, and intensive supervision. This increase shall not apply to funds provided for special services.

(2) A 5 percent increase shall be provided to that portion of the rate of reimbursement currently paid to designate facilities for special services provided under subdivision (c) of Section 4681.

(c) A study of one or more regional centers and a sample of providers within the regional center's catchment area that compares the cost effectiveness of utilizing a nationally recognized accreditation process to the quality assurance process identified in the April 1987 report to the Legislature entitled Alternative Residential Model (ARM). This study shall include an evaluation of the effects of each process on the delivery of quality services to clients. The report developed from this study shall be submitted to the Legislature by July 1, 1991.

(d) Development and implementation of agreed-to regional center quality assurance plans based on standards developed by the department.

SEC. 4. Rate adjustments made pursuant to Section 3 of this act

shall be paid for the period commencing on the first day of the month in which this act is signed by the Governor.

It is the intent of the Legislature that the funds provided in this act shall establish a new base of expenditures for residential care for the developmentally disabled.

It is also the intent of the Legislature that the rate adjustments provided in subdivisions (a) and (b) of Section 3 of this act be effective concurrently.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 87

An act to amend Section 6103.9 of the Government Code, relating to courts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 22, 1988. Filed with Secretary of State April 25, 1988.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares that as a result of the enactment of Chapter 1211 of the Statutes of 1987, which made the Trial Court Funding Act of 1985 operative, some confusion has arisen over the propriety of plans of cooperation entered into by county clerks and district attorneys for the reimbursement to the county for the costs of certain services related to the establishment or enforcement of a child support obligation.

The Legislature also finds and declares that any funds collected pursuant to these plans of cooperation are not intended to be considered a filing fee as exempted by Section 6103.9 of the Government Code and as defined in subdivision (d) of Section 77001 of the Government Code.

The Legislature further finds and declares that the provisions of this act which specifically provide that these funds are not filing fees are declarative of existing law.

SEC. 2. Section 6103.9 of the Government Code is amended to read:

6103.9. (a) Notwithstanding any other provision of law, the district attorney shall be exempt from the payment of any fees or costs, including fees for service of process and filing fees, in any action or proceeding brought for the establishment of a child support obligation or the enforcement of a child or spousal support obligation. The district attorney may, however, reimburse a county for those costs related to the establishment of a child support obligation or the enforcement of a child or spousal support obligation which have been agreed to pursuant to a plan of cooperation. Reimbursement pursuant to a plan of cooperation shall not be construed as payment of a filing fee as defined in subdivision (d) of Section 77001.

(b) For purposes of this section, a "plan of cooperation" means an agreement entered into by the district attorney and the county clerk of his or her county which is approved by the State Department of Social Services and which provides that the district attorney will reimburse the county for the cost of providing clerical and administrative support furnished by the county clerk in excess of the amount which is normally offset by a filing fee.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act

contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for counties to continue to obtain funds from the federal government for the reimbursement of certain administrative costs of county offices that are associated with the establishment and enforcement of child support, which is the best interest of counties and the state, it is necessary for this act to take effect immediately.

CHAPTER 88

3852. The department shall provide funds to the Zoological Society of San Diego and to the Los Angeles Zoo for a condor breeding program on the grounds of each zoo.

3853. In addition to the programs in Section 3852, a condor release program administered by the department and the United States Fish and Wildlife Service may be contracted to the Zoological Society of San Diego and the Los Angeles Zoo.

3855. Both the breeding program and the release program, if authorized by the department, shall meet criteria established by the department and shall be monitored by the department. The zoos shall submit biannual reports to the department which describe progress made in the breeding program and the release program.

SEC. 2. Notwithstanding Section 21191 of the Public Resources Code, the sum of five hundred thousand dollars ($500,000) is hereby appropriated from the California Environmental License Plate Fund to the department for expenditure in the 1987–88 and 1988–89 fiscal years to carry out Chapter 4 (commencing with Section 3850) of Part 2 of Division 4 of the Fish and Game Code, as follows:

In order to protect the health and safety of the California condor, it is necessary that this act take effect immediately.

SEC. 3. Section 98.2 of the Labor Code is amended to read:

98.2. (a) Within 10 days after service of notice of an order, decision, or award the parties may seek review by filing an appeal to the justice, municipal, or superior court, in accordance with the appropriate rules of jurisdiction, where the same shall be heard de novo. A copy of the appeal request shall be served upon the Labor Commissioner by the appellant. For purposes of computing the

10-day period after service, Section 1013 of the Code of Civil Procedure shall be applicable.

(b) If the party seeking review by filing an appeal to the justice, municipal, or superior court is unsuccessful in the appeal, the court shall determine the costs and reasonable attorneys' fees incurred by the other parties to the appeal, and assess that amount as a cost upon the party filing the appeal.

(c) If no notice of appeal of the order, decision, or award is filed within the period set forth in subdivision (a), the order, decision, or award shall, in the absence of fraud, be deemed the final order.

(d) The Labor Commissioner shall file, within 10 days of the order becoming final pursuant to subdivision (c), a certified copy of the final order with the clerk of the justice, municipal, or superior court, in accordance with the appropriate rules of jurisdiction, of the appropriate county unless a settlement has been reached by the parties and approved by the Labor Commissioner. Judgment shall be entered immediately by the court clerk in conformity therewith. The judgment so entered shall have the same force and effect as, and shall be subject to all of the provisions of law relating to, a judgment in a civil action, and may be enforced in the same manner as any other judgment of the court in which it is entered. Enforcement of the judgment shall receive court priority.

(e) Notwithstanding subdivision (d), the Labor Commissioner may stay execution of any judgment entered upon an order, decision, or award which has become final upon good cause appearing therefore and may impose the terms and conditions of the stay of execution. A certified copy of the stay of execution shall be filed with the clerk entering the judgment.

(f) When a judgment is satisfied in fact, otherwise than by execution, the Labor Commissioner may, upon the motion of either party or on its own motion, order entry of satisfaction of judgment. The clerk of the court shall enter a satisfaction of judgment upon the filing of a certified copy of the order.

(g) The Labor Commissioner shall make every reasonable effort to ensure that judgments are satisfied, including taking all appropriate legal action and requiring the employer to deposit a bond as provided in Section 240.

The clerk, immediately upon the filing, shall enter judgment for the state against the person assessed in the amount shown on the citation or proposed assessment of a civil penalty.

The clerk, immediately upon the filing, shall enter judgment for the state against the person assessed in the amount shown on the certified order.

(e) A judgment entered pursuant to this section shall bear the same rate of interest and shall have the same effect as other judgments and be given the same preference allowed by the law on other judgments rendered for claims for taxes. The clerk shall make no charge for the service provided by this section to be performed by him or her.

CHAPTER 97

An act to add Section 17922.9 to the Health and Safety Code, relating to housing.

[Approved by Governor April 28, 1988. Filed with Secretary of State May 3, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 17922.9 is added to the Health and Safety Code, to read:

17922.9. (a) The Legislature hereby finds and declares that the provision of an adequate level of affordable housing, in and of itself, is a fundamental responsibility of the state and that a generally inadequate supply of decent, safe, and sanitary housing affordable to persons of low and moderate income threatens orderly community and regional development, including job creation, attracting new private investment, and creating the physical, economic, social, and environmental conditions to support continued growth and security of all areas of the state.

The Legislature further finds and declares that many rural communities depend on mortgage financing available through the Farmers Home Administration and that the continued construction of affordable housing is a priority for the state. However, the Legislature, in requiring waiver of certain local requirements respecting adequacy of garages and carports, does not endorse the restrictive Farmers Home Administration regulations that preclude financing of two-car garages.

The Legislature further finds and declares that inadequate housing supplies have a negative impact on regional development and are,

therefore, a matter of statewide interest and concern.

(b) Notwithstanding any local ordinance, charter provision, or regulation to the contrary, if the applicant for a building permit for construction of a qualifying residential structure submits with the application a conditional loan commitment letter or letter of intent to finance issued by the Farmers Home Administration of the United States Department of Agriculture for the structure, the city, county, or city and county issuing the building permit shall not impose any requirement on the permit respecting the size or capacity of any appurtenant garage or carport which exceeds the size or capacity that the Farmers Home Administration will finance under its then applicable regulations and policies. "Qualifying residential structure," as used in this section, means any single-family or multifamily residential structure financed by the Farmers Home Administration and which is restricted pursuant to federal law to ownership or occupancy by households with incomes not exceeding the income criteria for persons and families of low and moderate income, as defined by Section 50093, or more restrictive income criteria.

(c) This section does not preclude a city, county, or city and county from requiring the provision of one uncovered, paved parking space located outside the required setback and outside the driveway approach to the garage or covered parking space plus a garage or covered parking space that does not exceed the size and capacity allowed for Farmers Home Adminstration financing. However, this setback requirement may not exceed the setbacks applicable to single-family dwelling units in the same zoning district that have two-car garages.

CHAPTER 98

An act to add and repeal Section 39141.8 of the Education Code, relating to pupils, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 3, 1988 Filed with Secretary of State May 4, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 39141.8 is added to the Education Code, to read:

39141.8. (a) Notwithstanding Section 39141.4, any high school pupil who attends a class or classes on a campus of the University of California or the California State University in order to receive specialized educational services and opportunities authorized by Chapter 6 (commencing with Section 58800) of Part 31, is considered a pupil of that campus for the purposes of Article 3 (commencing

with Section 39140) of Chapter 2 of Part 23. Any building or structure or portion of building or structure that pupils occupy pursuant to this section shall not be considered "school buildings" within the meaning of Section 39141.

(b) The governing board of each school district, each county board of education, or each county superintendent of schools, as appropriate, shall notify, in writing, the parent or guardian of each high school pupil who attends a class or classes authorized by Chapter 6 (commencing with Section 58800) of Part 31, prior to the pupil's attendance at the class on a university campus that, although University of California and California State University buildings are required to conform to the rigorous standards of the Uniform Building Code (UBC), the buildings on the university campuses may not meet the requirements of Article 3 (commencing with Section 39140) of Chapter 2 of Part 23. This notice shall accompany, to the greatest extent possible, any existing notification to parents or guardians regarding specialized educational services and opportunities.

(c) This section shall remain in effect only until January 1, 1992, and as of that date is repealed unless a later enacted statute which is chaptered before January 1, 1992, deletes or extends that date.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that buildings on the campus of the University of California or the California State University may continue to be used by high school pupils, it is necessary that this act take effect immediately.

CHAPTER 99

An act to amend Sections 727 and 730.5 of the Welfare and Institutions Code, relating to juvenile court law.

[Approved by Governor May 3, 1988. Filed with Secretary of State May 4, 1988]

The people of the State of California do enact as follows:

SECTION 1. Section 727 of the Welfare and Institutions Code is amended to read:

727. (a) When a minor is adjudged a ward of the court on the ground that he or she is a person described by Section 601 or Section 602 the court may make any and all reasonable orders for the care, supervision, custody, conduct, maintenance, and support of such a minor, including medical treatment, subject to further order of the court.

In the discretion of the court, a ward may be ordered to be on probation without supervision of the probation officer. The court, in so ordering, may impose on the ward any and all reasonable conditions of behavior as may be appropriate under this disposition. A minor who has been adjudged a ward of the court on the basis of the commission of any of the offenses described in subdivision (b) of Section 707, Section 459 of the Penal Code, or subdivision (a) of Section 11350 of the Health and Safety Code, shall not be eligible for probation without supervision of the probation officer.

In all other cases, the court shall order the care, custody, and control of the minor to be under the supervision of the probation officer who may place the minor in any of the following:

(1) The home of a relative.

(2) A suitable licensed community care facility.

(3) With a foster family agency to be placed in a suitable licensed foster family home or certified family home which has been certified by the agency as meeting licensing standards.

(b) Where the court has ordered a specific minor placed under the supervision of the probation officer and the probation officer has found that the needs of the child cannot be met in any available licensed or exempt facility, including emergency shelter, the minor may be placed in a suitable family home that has filed a license application with the State Department of Social Services, provided that all the following certification conditions are met:

(1) A preplacement home visit is made by the probation officer to determine the suitability of the family home.

(2) The probation officer verifies to the licensing agency in writing that the home lacks any deficiencies which would threaten the physical health, mental health, safety, or welfare of the minor.

(3) The probation officer notifies the licensing agency of the proposed placement and determines that the foster family home applicant has filed specific license application documents prior to and after the placement of the minor. If the license is subsequently denied, the minor shall be removed from the home immediately. The denial of the license constitutes a withdrawal of the certification.

When a minor has been adjudged a ward of the court on the ground that he or she is a person described in Section 601 or 602 and the court finds that notice has been given in accordance with Section 661, and when the court orders that a parent or guardian shall retain custody of that minor either subject to or without the supervision of the probation officer, the parent or guardian may be required to participate with that minor in a counseling or education program including, but not limited to, parent education and parenting programs operated by community colleges, school districts or other appropriate agencies designated by the court.

(c) The juvenile court may direct any and all reasonable orders to the parents and guardians of the minor who is the subject of any proceedings under this chapter as the court deems necessary and proper to carry out the provisions of subdivisions (a) and (b),

including orders to appear before a county financial evaluation officer.

When counseling or other treatment services are ordered for the minor, the parent, guardian, or foster parent shall be ordered to participate in those services, unless participation by the parent, guardian, or foster parent is deemed by the court to be inappropriate or potentially detrimental to the child.

SEC. 2. Section 730.5 of the Welfare and Institutions Code is amended to read:

730.5. When a minor is adjudged a ward of the court on the ground that he or she is a person described in Section 602, in addition to any of the orders authorized by Section 726, 727, 730, or 731, the court may levy a fine against the minor up to the amount that could be imposed on an adult for the same offense, if the court finds that the minor has the financial ability to pay the fine. Section 1464 of the Penal Code applies to fines levied pursuant to this section.

CHAPTER 100

An act to amend Sections 66436, 66442, 66450, and 66499.52 of, and to add Section 66416.5 to, the Government Code, relating to subdivisions.

[Approved by Governor May 10, 1988 Filed with Secretary of State May 11, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 66416.5 is added to the Government Code, to read:

66416.5. "City engineer" means the person authorized to perform the functions of a city engineer. The land surveying functions of a city engineer may be performed by a city surveyor, if that position has been created by the local agency.

SEC. 2. Section 66436 of the Government Code is amended to read:

66436. (a) A statement, signed and acknowledged by all parties having any record title interest in the subdivided real property, consenting to the preparation and recordation of the final map is required, except in the following circumstances:

(1) A lien for state, county, municipal, or local taxes or special assessments, a trust interest under bond indentures, or mechanics' liens do not constitute a record title interest in land for the purpose of this chapter or any local ordinance.

(2) The signature of either the holder of beneficial interests under trust deeds or the trustee under the trust deeds, but not both, may be omitted. The signature of either shall constitute a full and complete subordination of the lien of the deed of trust to the map

and any interest created by the map.

(3) Signatures of parties owning the following types of interests may be omitted if their names and the nature of their respective interests are stated on the final map:

(A) (i) Rights-of-way, easements or other interests which cannot ripen into a fee, except those owned by a public entity, public utility, or subsidiary of a public utility for conveyance to the public utility for rights-of-way. If, however, the legislative body or advisory agency determines that division and development of the property in the manner set forth on the approved or conditionally approved tentative map will not unreasonably interfere with the free and complete exercise of the public entity or public utility right-of-way or easement, the signature of the public entity or public utility may be omitted. Where that determination is made, the subdivider shall send, by certified mail, a sketch of the proposed final map, together with a copy of this section, to any public entity or public utility which has previously acquired a right-of-way or easement.

(ii) If the public entity or utility objects to either recording the final map without its signature or the determination of the legislative body or advisory agency that the division and development of the property will not unreasonably interfere with the full and complete exercise of its right-of-way or easement, it shall so notify the subdivider and the legislative body or advisory agency within 30 days after receipt of the materials from the subdivider.

(iii) If the public entity or utility objects to recording the final map without its signature, the public entity or utility so objecting may affix its signature to the final map within 30 days of filing its objection with the legislative body or advisory agency.

(iv) If the public entity or utility either does not file an objection with the legislative body or advisory agency or fails to affix its signature within 30 days of filing its objection to recording the map without its signature, the local agency may record the final map without the signature.

(v) If the public entity or utility files an objection to the determination of the legislative body or advisory agency that the division and development of the property will not unreasonably interfere with the exercise of its right-of-way or easement, the legislative body or advisory agency shall set the matter for public hearing to be held not less than 10 nor more than 30 days of receipt of the objection. At the hearing, the public entity or public utility shall present evidence in support of its position that the division and development of the property will unreasonably interfere with the free and complete exercise of the objector's right-of-way or easement.

(vi) If the legislative body or advisory agency finds, following the hearing, that the development and division will in fact unreasonably interfere with the free and complete exercise of the objector's right-of-way or easement, it shall set forth those conditions whereby the unreasonable interference will be eliminated and upon

compliance with those conditions by the subdivider, the final map may be recorded with or without the signature of the objector. If the legislative body or advisory agency finds that the development and division will in fact not unreasonably interfere with the free and complete exercise of the objector's right-of-way or easement, the final map may be recorded without the signature of the objector, notwithstanding the objections.

(vii) Failure of the public entity or public utility to file an objection pursuant to this section shall in no way affect its rights under a right-of-way or easement.

(B) Rights-of-way, easements, or reversions, which by reason of changed conditions, long disuse, or laches appear to be no longer of practical use or value and signatures are impossible or impractical to obtain. A statement of the circumstances preventing the procurement of the signatures shall also be stated on the map.

(C) Interests in, or rights to, minerals, including but not limited to, oil, gas, or other hydrocarbon substances.

(4) Real property originally patented by the United States or by the State of California, which original patent reserved interest to either or both of those entities, may be included in the final map without the consent of the United States or the State of California to the map or to dedications made by it.

(b) No monetary liability shall be incurred by, and no cause of action shall arise against, a local agency, a party, the subdivider, the subdivider's agent, or the engineer or land surveyor who prepared the map, on account of the omission of any signature, which omission is authorized by this section.

(c) A notary acknowledgment shall be deemed complete for recording without the official seal of the notary, so long as the name of the notary, the county of the notary's principal place of business, and the notary's commission expiration date are typed or printed below or immediately adjacent to the notary's signature in the acknowledgment.

SEC. 3. Section 66442 of the Government Code is amended to read:

66442. (a) If a subdivision for which a final map is required lies within an unincorporated area, a certificate or statement by the county surveyor is required. If a subdivision lies within a city, a certificate or statement by the city engineer is required. The appropriate official shall sign, and, below or immediately adjacent to the signature, indicate his or her registration or license number with expiration date and state that:

(1) He or she has examined the map.

(2) The subdivision as shown is substantially the same as it appeared on the tentative map, and any approved alterations thereof.

(3) All provisions of this chapter and of any local ordinances applicable at the time of approval of the tentative map have been complied with.

(4) He or she is satisfied that the map is technically correct.

An act to add Section 16500.5 to the Welfare and Institutions Code, relating to public social services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 11, 1988. Filed with Secretary of State May 11, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 16500.5 is added to the Welfare and Institutions Code, to read:

16500.5. (a) (1) The Legislature hereby finds and declares its intent to encourage the continuity of the family unit by:

(A) Providing services to avoid or limit out-of-home placement for children who are dependent children not taken from the physical custody of their parents and guardian pursuant to Section 364, or who are dependent children removed from physical custody of their parents or guardian pursuant to Section 361.

(B) Providing transitional supportive services for those children within the meaning of Sections 361 and 364 when they are returned to the family unit.

(C) Providing counseling and support designed to eradicate the situation that necessitated intervention.

(2) The Legislature finds that maintaining abused and neglected children in foster care grows increasingly costly each year, and that

adequate funding for family services which might enable these children to remain in their homes is not as readily available as funding for foster care placement.

(3) The Legislature further finds that other state bodies have addressed this problem through various systems of flexible reimbursement in child welfare programs that provide for more intensive and appropriate services to prevent foster care placement or significantly reduce the length of stay in foster care.

(4) Accordingly, it is the intent of the Legislature in enacting this section to test a system of flexible reimbursement in order to evaluate its potential as an efficient, economical, and effective alternative to out-of-home placement of children.

(b) (1) No more than three participating counties selected by the State Department of Social Services, one of which shall be Solano County, on a two-year pilot program basis, may claim, on an annual basis, a portion of the state's share of that county's AFDC-FC expenditures pursuant to subdivision (d) of Section 11450 in advance, provided the county shows that it will conduct a program of family reunification and family maintenance services for families receiving these services pursuant to Sections 300, 361, and 364. For each fiscal year of the two-year pilot program, a participating county may claim in advance an amount equal to 10 percent of the projected state's share of AFDC-FC funds to be expended by that county pursuant to subdivision (d) of Section 11450. The specific amount of funds to be advanced each year shall be determined by projecting the state share of AFDC-FC General Fund expenditures for abused or neglected children supervised and placed by the county welfare department for each of the pilot program years based upon state expenditures for AFDC-FC for the previous five years.

Except as provided in paragraph (2), in the event that in any pilot program year the sum of a participating county's total AFDC-FC General Fund expenditures for their children, added to the amount advanced to the county, exceeds its total projected AFDC-FC General Fund expenditures for their children for that fiscal year, by 5 percent or less, the county shall share in the funding of that overage on a 25 percent county, 75 percent state/federal cost ratio basis. If the county's total AFDC-FC General Fund expenditures, added to the amount advanced to the county exceeds, by more than 5 percent, the total projected AFDC-FC General Fund expenditures for that fiscal year, the county shall fund that portion of the overage in excess of 5 percent on a 100 percent basis. If the sum of a participating county's total AFDC-FC General Fund expenditures for their children, added to the amount advanced to the county, is less than the total projected AFDC-FC General Fund expenditures for their children for that fiscal year, the county shall receive 25 percent of the amount of the savings.

(2) A participating county's share of expenditures in excess of the projected total may be reduced upon approval of the State Department of Social Services and the Department of Finance based

on consideration of any unanticipated factors which result in higher than projected AFDC-FC expenditures.

(3) The State Department of Social Services shall select no more than three representative counties, one of which shall be Solano County, to participate in the pilot program.

(3) Services which may be provided under this program may include counseling, parenting, respite, and homemaking. Additional services may include those enumerated in Section 16506.1 and 16507.1. The services to be provided pursuant to this section may be determined by each participating county.

(c) These pilot projects shall provide specific programs of direct services based on individual family needs as reflected in the service plans to families of children who are dependent children not taken from physical custody of their parents or guardians pursuant to Section 364, or who are dependent children removed from the physical custody of their parents or guardian pursuant to Section 361. The county welfare department social worker may return a dependent minor removed from the home pursuant to Section 361, with appropriate pilot project services, pursuant to an appropriate court order.

These services shall only be provided to families whose children are certified by a juvenile court judge to be children who will be placed in out-of-home care without the provision of project services or to be children who can be returned to their families with the provision of project services. Each county shall be permitted to contract with individuals and organizations to provide services pursuant to this section.

(d) The services selected by any participating county shall be reasonable and meritorious and shall demonstrate cost effectiveness and success at avoiding out-of-home placement, or reducing the length of stay in out-of-home placement. A county shall not expend more funds for supportive services under this section than that amount which would be expended for placement in out-of-home care.

(e) The pilot program in each demonstration county shall be deemed successful if at least 75 percent of the children receiving demonstration project services remain in their own home for six months after termination of project services, and if 60 percent remain at home one year after project services are terminated. With respect to children selected to receive project services who have already been removed from their home and placed in out-of-home care, the project shall be deemed successful if the average length of stay in out-of-home care is 50 percent less than the average length of stay in out-of-home care for families who do not receive demonstration project services.

(f) Funds used for project services shall supplement, not supplant, child welfare services funds available for services pursuant to Sections 16506.1 and 16507.1.

(g) The State Department of Social Services shall submit a report

to the Legislature that includes data from each participating pilot county demonstrating to what extent each has met the criteria specified in this section. An interim report shall be submitted by the department no later than six months after the conclusion of the pilot projects with a final report to be submitted after project completion.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide the widest range of emergency services to distressed children and families as soon as possible, and to rapidly initiate services to prevent the disruption or destruction of the family unit, it is necessary for this act to take effect immediately.

An act to amend Section 454 of, and to add Section 454.3 to, the Public Utilities Code, relating to the Public Utilities Commission.

[Approved by Governor May 17, 1988 Filed with Secretary of State May 17, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 454 of the Public Utilities Code is amended to read:

454. (a) Except as provided in Sections 454.1 and 455, no public utility shall change any rate or so alter any classification, contract, practice, or rule as to result in any new rate, except upon a showing before the commission and a finding by the commission that the new rate is justified. Whenever any electrical, gas, heat, telephone, water, or sewer system corporation files an application to change any rate,

other than a change reflecting and passing through to customers only new costs to the corporation which do not result in changes in revenue allocation, for the services or commodities furnished by it, the corporation shall furnish to its customers affected by the proposed rate change notice of its application to the commission for approval of the new rate. This notice requirement does not apply to any rate change proposed by a corporation pursuant to an advice letter submitted to the commission in accordance with commission procedures for this means of submission. The procedures for advice letters may include provision for notice to customers or subscribers on a case-by-case basis, as determined by the commission. The corporation may include the notice with the regular bill for charges transmitted to the customers within 45 days if the corporation operates on a 30-day billing cycle, or within 75 days if the corporation operates on a 60-day billing cycle. If more than one application to change any rate is filed within a single billing cycle, the corporation may combine the notices into a single notice if the applications are separately identified. The notice shall state the amount of the proposed rate change expressed in both dollar and percentage terms for the entire rate change as well as for each customer classification, a brief statement of the reasons the change is required or sought, and the mailing address of the commission to which any customer inquiries may be directed regarding how to participate in, or receive further notices regarding the date, time, or place of, any hearing on the application, and the mailing address of the corporation to which any customer inquiries relative to the proposed rate change may be directed.

(b) The commission may adopt rules it considers reasonable and proper for each class of public utility providing for the nature of the showing required to be made in support of proposed rate changes, the form and manner of the presentation of the showing, with or without a hearing, and the procedure to be followed in the consideration thereof. Rules applicable to common carriers may provide for the publication and filing of any proposed rate change together with a written showing in support thereof, giving notice of the filing and showing in support thereof to the public, granting an opportunity for protests thereto, and to the consideration of, and action on, the showing and any protests filed thereto by the commission, with or without hearing. However, the proposed rate change does not become effective until it has been approved by the commission.

(c) The commission shall permit individual public utility customers and subscribers affected by a proposed rate change, and organizations formed to represent their interests, to testify at any hearing on the proposed rate change, except that the presiding officer need not allow repetitive or irrevelant testimony and may conduct the hearing in an efficient manner.

SEC. 2. Section 454.3 is added to the Public Utilities Code, to read:

454.3. The commission may, after a hearing, approve an increase of from one-half of 1 percent to 1 percent in the rate of return otherwise allowed an electrical corporation on its electric plant for investment by the corporation in facilities meeting one of the following requirements:

(a) The facility is designed to generate electricity from a renewable resource, including, but not limited to, solar energy, geothermal steam, wind, and hydroelectric power at new or existing dams; the facility is subject to Resources Agency review of its environmental impacts and determination that the facility is environmentally acceptable; its capital costs, when added to its costs of operation and maintenance, result in a cost of electricity generated over the useful life of the facility less than that of electricity generated by existing facilities utilizing nuclear power or fossil fuel; and the facility is used and useful.

(b) The facility is capable of meeting the then applicable environmental pollution standards; its capital costs, when added to its costs of operation and maintenance, result in a cost of electricity generated over the useful life of the facility less than that of electricity generated by existing facilities utilizing nuclear power or fossil fuel; and the facility is used and useful.

(c) The facility is experimental and is, in the determination of the commission, reasonably designed to improve or perfect technology for the generation of electricity from renewable resources or to more efficiently utilize other resources in a manner which will decrease environmental pollution from and lower the costs of the electricity generated.

An act to amend Section 22200 of the Business and Professions Code, and to amend Section 2.5 of Chapter 1033 of the Statutes of 1987, relating to plastic bags, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 17, 1988. Filed with Secretary of State May 17, 1988.]

The Legislature, therefore, finds that the members of the plastic bag industry, in order to fully comply with the provisions of Section 22200 of the Business and Professions Code, must be granted a 12-month grace period in order to adequately dispose of all plastic bags that were not required to have warning labels affixed to them prior to January 1, 1988.

THE THIN FILM MAY CLING TO NOSE AND MOUTH AND PREVENT BREATHING," or a similar warning that the bag is dangerous to small children. This section shall not apply to those plastic bags which are used exclusively for industrial purposes.

SEC. 3. Section 2.5 of Chapter 1033 of the Statutes of 1987 is amended to read:

Sec. 2.5. There shall be no cause of action nor criminal prosecution for any act committed prior to January 1, 1989, based on the amendments to Section 22200 of the Business and Professions Code made by Section 2 of this act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide for the orderly and effective enforcement of laws regulating plastic bags large enough to fit over a child's head, it is necessary that this act take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. (a) The sum of four million one hundred thousand dollars ($4,100,000) is hereby appropriated from the General Fund to the Uninsured Employers Fund for the purpose of overcoming estimated deficiencies in the payment of workers' compensation benefits to injured workers for the 1987–88 fiscal year.

(d) Normal investigative procedures have been tried and have failed or reasonably appear either to be unlikely to succeed if tried or to be too dangerous.

629.04. Each order authorizing the interception of any wire communication shall specify:

(a) The identity, if known, of the person whose communications are to be intercepted, or if the identity is not known, then that information relating to the person's identity known to the applicant.

(c) A particular description of the type of communication sought to be intercepted, and a statement of the illegal activities to which it relates.

(d) The identity of the agency authorized to intercept the communications and of the person making the application.

(e) The period of time during which the interception is authorized including a statement as to whether or not the interception shall automatically terminate when the described communication has been first obtained.

629.06. (a) Upon informal application by the Attorney General, the Chief Assistant Attorney General, Criminal Law Division, or a district attorney, the presiding judge of the superior court or one other judge designated by the presiding judge may grant oral approval for an interception, without an order, if he or she determines all of the following:

(1) There are grounds upon which an order could be issued under

this chapter.

(2) There is probable cause to believe that an emergency situation exists with respect to the investigation of an offense enumerated in this chapter.

(3) There is probable cause to believe that a substantial danger to life or limb exists justifying the authorization for immediate interception of a private wire communication before an application for an order could with due diligence be submitted and acted upon.

(b) Approval for an interception under this section shall be conditioned upon filing with the judge, within 48 hours of the oral approval, a written application for an order which, if granted consistent with this chapter, shall also recite the oral approval under this subdivision and be retroactive to the time of the oral approval.

629.08. No order entered under this chapter shall authorize the interception of any wire communication for any period longer than is necessary to achieve the objective of the authorization, nor in any event longer than 30 days. Extensions of an order may be granted, but only upon application for an extension made in accordance with Section 629 and upon the court making findings required by Section 629.02. The period of extension shall be no longer than the authorizing judge deems necessary to achieve the purposes for which it was granted and in no event any longer than 30 days. Every order and extension thereof shall contain a provision that the authorization to intercept shall be executed as soon as practicable, shall be conducted in such a way as to minimize the interception of communications not otherwise subject to interception under this chapter, and shall terminate upon attainment of the authorized objective, or in any event at the time expiration of the term designated in the order or any extensions.

629.10. Whenever an order authorizing an interception is entered, the order shall require reports in writing or otherwise to be made to the judge who issued the order showing what progress has been made toward achievement of the authorized objective, or a satisfactory explanation for its lack, and the need for continued interception. If the judge finds that such progress has not been made, that the explanation for its lack is not satisfactory, or that no need exists for continued interception, he or she shall order that the interception immediately terminate. The reports shall be made at the intervals that the judge may require, but not less than one for each period of 72 hours.

629.12. (a) The Attorney General shall prepare and submit an annual report to the Legislature, the Judicial Council, and the Director of the Administrative Office of the United States Court on interceptions conducted under the authority of this chapter during the preceding year. Information for this report shall be provided to the Attorney General by any prosecutorial agency seeking an order pursuant to this chapter.

(b) The report shall include all of the following data:

(1) The number of orders or extensions applied for.

(2) The kinds of orders or extensions applied for.

(3) The fact that the order or extension was granted as applied for, was modified, or was denied.

(4) The period of interceptions authorized by the order, and the number and duration of any extensions of the order.

(5) The offense specified in the order or application, or extension of an order.

(6) The identity of the applying law enforcement officer and agency making the application and the person authorizing the application.

(7) The nature of the facilities from which or the place where communications were to be intercepted.

(8) A general description of the interceptions made under the order or extension, including (A) the approximate nature and frequency of incriminating communications intercepted, (B) the approximate nature and frequency of other communications intercepted, (C) the approximate number of persons whose communications were intercepted, and (D) the approximate nature, amount, and cost of the manpower and other resources used in the interceptions.

(9) The number of arrests resulting from interceptions made under the order or extension, and the offenses for which arrests were made.

(10) The number of trials resulting from the interceptions.

(11) The number of motions to suppress made with respect to the interceptions, and the number granted or denied.

(12) The number of convictions resulting from the interceptions and the offenses for which the convictions were obtained and a general assessment of the importance of the interceptions.

(13) Except with regard to the initial report required by this section, the information required by paragraphs (8) to (12), inclusive, with respect to orders or extensions obtained in a preceding calendar year.

(14) Other data that the Legislature, the Judicial Council or the Director of the Administrative Office shall require.

(c) The annual report shall be filed no later than April of each year, and shall also include a summary analysis of the data reported pursuant to subdivision (b). The Attorney General may issue regulations prescribing the content and form of the reports required to be filed pursuant to this section by any prosecutorial agency seeking an order to intercept wire communications.

629.14. The contents of any wire communication intercepted by any means authorized by this chapter shall, if possible, be recorded on tape or other comparable device. The recording of the contents of any wire communication pursuant to this chapter shall be done in a way that will protect the recording from editing or other alterations and ensure that the audio tape recording can be immediately verified as to its authenticity and originality and that any alterations can be immediately detected. In addition, the monitoring or

recording device shall be of a type and shall be installed to preclude any interruption or monitoring of the interception by any unauthorized means. Immediately upon the expiration of the period of the order, or extensions thereof, the recordings shall be made available to the judge issuing the order and sealed under his or her directions. Custody of the recordings shall be where the judge orders. They shall not be destroyed except upon an order of the issuing or denying judge and in any event shall be kept for 10 years. Duplicate recordings may be made for use or disclosure pursuant to the provisions of Sections 629.24 and 629.26 for investigations. The presence of the seal provided for by this section, or a satisfactory explanation for the absence thereof, shall be a prerequisite for the use or disclosure of the contents of any wire communication or evidence derived therefrom under Section 629.28.

629.16. Applications made and orders granted pursuant to this chapter shall be sealed by the judge. Custody of the applications and orders shall be where the judge orders. The applications and orders shall be disclosed only upon a showing of good cause before a judge and shall not be destroyed except on order of the issuing or denying judge, and in any event shall be kept for 10 years.

629.18. Within a reasonable time, but no later than 90 days, after the termination of the period of an order or extensions thereof, or after the filing of an application for an order of approval under Section 629.06 which has been denied, the issuing judge shall cause to be served upon persons named in the order or the application, and other known parties to intercepted communications, an inventory which shall include notice of all of the following:

(a) The fact of the entry of the order.

(b) The date of the entry and the period of authorized interception.

(c) The fact that during the period wire communications were or were not intercepted.

The judge, upon filing of a motion, may, in his or her discretion, make available to the person or his or her counsel for inspection the portions of the intercepted communications, applications, and orders that the judge determines to be in the interest of justice. On an ex parte showing of good cause to a judge, the serving of the inventory required by this section may be postponed. The period of postponement shall be no longer than the authorizing judge deems necessary to achieve the purposes for which it was granted.

629.20. The contents of any intercepted wire communication or evidence derived from it shall not be received in evidence or otherwise disclosed in any trial, hearing, or other proceeding, except a grand jury proceeding, unless each party, not less than 10 days before the trial, hearing, or proceeding, has been furnished with a transcript of the contents of the interception and with a copy of the court order and accompanying application under which the interception was authorized. This 10-day period may be waived by the judge if he or she finds that it was not possible to furnish the party

with the above information 10 days before the trial, hearing, or proceeding, and that the party will not be prejudiced by the delay in receiving that information.

629.22. Any person in any trial, hearing, or proceeding, may move to suppress some or all of the contents of any intercepted wire communications, or evidence derived therefrom, only on the basis that the contents or evidence were obtained in violation of the Fourth Amendment of the United States Constitution or of this chapter. The motion shall be made, determined, and be subject to review in accordance with the procedures set forth in Section 1538.5.

629.24. The Attorney General, any Deputy Attorney General, district attorney, or deputy district attorney, or any peace officer who, by any means authorized by this chapter, has obtained knowledge of the contents of any wire communication, or evidence derived therefrom, may disclose the contents to one of the individuals referred to in this section and to any investigative or law enforcement officer as defined in subdivision (7) of Section 2510 of Title 18 of the United States Code to the extent that the disclosure is permitted pursuant to Section 629.32 and is appropriate to the proper performance of the official duties of the individual making or receiving the disclosure. No other disclosure, except to a grand jury, of intercepted information is permitted prior to a public court hearing by any person regardless of how the person may have come into possession thereof.

629.26. The Attorney General, any Deputy Attorney General, district attorney, or deputy district attorney, or any peace officer who, by any means authorized by this chapter, has obtained knowledge of the contents of any wire communication or evidence derived therefrom may use the contents or evidence to the extent the use is appropriate to the proper performance or his or her official duties and is permitted pursuant to Section 629.32.

629.28. Any person who has received, by any means authorized by this chapter, any information concerning a wire communication, or evidence derived therefrom, intercepted in accordance with the provisions of this chapter, may, pursuant to Section 629.32, disclose the contents of that communication or derivative evidence while giving testimony under oath or affirmation in any criminal court proceeding or in any grand jury proceeding.

629.30. No otherwise privileged wire communication intercepted in accordance with, or in violation of, the provisions of this chapter shall lose its privileged character. When a peace officer, while engaged in intercepting wire communications in the manner authorized by this chapter, intercepts wire communications that are of a privileged nature he or she shall immediately cease the interception for at least two minutes. After a period of at least two minutes, interception may be resumed for up to 30 seconds during which time the officer shall determine if the nature of the communications is still privileged. If still of a privileged nature, the officer shall again cease interception for at least two minutes, after

which the officer may again resume interception for up to 30 seconds to redetermine the nature of the communication. The officer shall continue to go on-line and off-line in this manner until such time as the communication is no longer privileged or the communication ends. The recording device shall be metered in such a way as to authenticate upon review that interruptions occurred as set forth in this chapter.

629.32. (a) If a peace officer, while engaged in intercepting wire communications in the manner authorized by this chapter, intercepts wire communications relating to crimes other than those specified in the order of authorization, but which are enumerated in subdivision (a) of Section 629.02, (1) the contents thereof, and evidence derived therefrom, may be disclosed or used as provided in Sections 629.24 and 629.26 and (2) the contents and any evidence derived therefrom may be used under Section 629.28 when authorized by a judge if the judge finds upon subsequent application, that the contents were otherwise intercepted in accordance with the provisions of this chapter. The application shall be made as soon as practicable.

(b) If a peace officer, while engaged in intercepting wire communications in the manner authorized by this chapter, intercepts wire communications relating to crimes other than those specified in the order of authorization or enumerated in subdivision (a) of Section 629.02, the contents thereof, and evidence derived therefrom, may not be disclosed or used as provided in Sections 629.24 and 629.26, except to prevent the commission of a public offense. The contents and any evidence derived therefrom may not be used under Section 629.28, except where the evidence was obtained through an independent source or inevitably would have been discovered, and the use is authorized by a judge who finds that the contents were intercepted in accordance with this chapter.

(c) The use of the contents of an intercepted wire communication relating to crimes other than that specified in the order of authorization may be used to obtain a search or arrest warrant and entitles the person named in the warrant to notice of the intercepted wire communication and a copy of the contents thereof which were used to obtain the warrant as provided in Sections 629.18 and 629.20.

629.34. Any violation of this chapter is punishable by a fine not exceeding two thousand five hundred dollars ($2,500), or by imprisonment in the county jail not exceeding one year, or by imprisonment in the state prison, or by both such fine and imprisonment in the county jail or in the state prison.

629.36. Any person whose wire communication is intercepted, disclosed, or used in violation of this chapter shall have the following remedies:

(a) Have a civil cause of action against any person who intercepts, discloses, or uses, or procures any other person to intercept, disclose, or use the communications.

(b) Be entitled to recover, in that action, all of the following:

(1) Actual damages but not less than liquidated damages computed at the rate of one hundred dollars ($100) a day for each day of violation or one thousand dollars ($1,000), whichever is greater.

(2) Punitive damages.

(3) Reasonable attorney's fee and other litigation costs reasonably incurred.

A good faith reliance on a court order is a complete defense to any civil or criminal action brought under this chapter, or under Chapter 1.5 (commencing with Section 630) or any other law.

629.38. Nothing in Section 631 shall be construed as prohibiting any peace officer from intercepting any wire communication pursuant to an order issued in accordance with the provisions of this chapter. Nothing in Section 631 shall be construed as rendering inadmissible in any criminal proceeding in any court or before any grand jury any evidence obtained by means of an order issued in accordance with the provisions of this chapter. Nothing in Section 637 shall be construed as prohibiting the disclosure of the contents of any wire communication obtained by any means authorized by this chapter, if the disclosure is authorized by this chapter. Nothing in this chapter shall apply to any conduct authorized by Section 633.

629.39. No order issued pursuant to this chapter shall either directly or indirectly authorize covert entry into or upon the premises of a residential dwelling, hotel room, or motel room for installation or removal of any interception device or for any other purpose. Notwithstanding that such entry is otherwise prohibited by any other section or code, this chapter expressly prohibits covert entry of a residential dwelling, hotel room, or motel room to facilitate an order to intercept wire communications.

629.40. An order authorizing the interception of a wire communication shall direct, upon request of the applicant, that a public utility engaged in the business of providing communications services and facilities, a landlord, custodian, or any other person furnish the applicant forthwith all information, facilities, and technical assistance necessary to accomplish the interception unobtrusively and with a minimum of interference with the services which the public utility, landlord, custodian, or other person is providing the person whose communications are to be intercepted. Any such public utility, landlord, custodian, or other person furnishing facilities or technical assistance shall be fully compensated by the applicant for the reasonable costs of furnishing the facilities and technical assistance.

629.41. A good faith reliance on a court order issued in accordance with this chapter by any public utility, landlord, custodian, or any other person furnishing information, facilities, and technical assistance as directed by the order is a complete defense to any civil or criminal action brought under this chapter, Chapter 1.5 (commencing with Section 630), or any other law.

629.42. Notwithstanding any other provision of law, any court to

which an application is made in accordance with this chapter may take any evidence, make any finding, or issue any order required to conform the proceedings or the issuance of any order of authorization or approval to the provisions of the Constitution of the United States, any law of the United States, or this chapter.

629.44. (a) The Commission on Peace Officer Standards and Training, in consultation with the Attorney General, shall establish a course of training in the legal, practical, and technical aspects of the interception of private wire communications and related investigative techniques.

(b) The Attorney General shall set minimum standards for certification and periodic recertification of investigative or law enforcement officers as eligible to apply for orders authorizing the interception of private wire communications, to conduct the interceptions, and to use the communications or evidence derived from them in official proceedings.

(c) The Commission on Peace Officer Standards and Training may charge a reasonable enrollment fee for those students who are employed by an agency not eligible for reimbursement by the commission to offset the costs of the training. The Attorney General may charge a reasonable fee to offset the cost of certification.

629.46. If any provision of this chapter, or the application thereof to any person or circumstances, is held invalid, the remainder of the chapter, and the application of its provisions to other persons or circumstances, shall not be affected thereby.

629.48. This chapter shall remain in effect only until January 1, 1995, and as of that date is repealed.

SEC. 3. Section 631 of the Penal Code is amended to read:

(b) This section shall not apply (1) to any public utility engaged in the business of providing communications services and facilities, or to the officers, employees or agents thereof, where the acts otherwise prohibited herein are for the purpose of construction, maintenance, conduct or operation of the services and facilities of the public utility, or where the public utility is acting in good faith reliance on a court order issued under Chapter 1.3 (commencing with Section 629), or (2) to the use of any instrument, equipment, facility, or service furnished and used pursuant to the tariffs of such a public utility, or (3) to any telephonic communication system used for communication exclusively within a state, county, city and county, or city correctional facility.

(4) The rights of the deceased personality's children and grandchildren are in all cases divided among them and exercisable in the manner provided in Section 240 of the Probate Code according to the number of the deceased personality's children represented; the share of the children of a dead child of a deceased personality can be exercised only by the action of a majority of them.

(e) If any deceased personality does not transfer his or her rights under this section by contract, or by means of a trust or testamentary document, and there are no surviving persons as described in subdivision (d), then the rights set forth in subdivision (a) shall terminate.

(f) (1) A successor-in-interest to the rights of a deceased personality under this section or a licensee thereof may not recover damages for a use prohibited by this section that occurs before the successor-in-interest or licensee registers a claim of the rights under paragraph (2).

(2) Any person claiming to be a successor-in-interest to the rights of a deceased personality under this section or a licensee thereof may register that claim with the Secretary of State on a form prescribed by the Secretary of State and upon payment of a fee of ten dollars ($10). The form shall be verified and shall include the name and date of death of the deceased personality, the name and address of the claimant, the basis of the claim, and the rights claimed.

(3) Upon receipt and after filing of any document under this section, the Secretary of State may microfilm or reproduce by other techniques any of the filings or documents and destroy the original

filing or document. The microfilm or other reproduction of any document under the provision of this section shall be admissible in any court of law. The microfilm or other reproduction of any document may be destroyed by the Secretary of State 50 years after the death of the personality named therein.

(4) Claims registered under this subdivision shall be public records.

(g) No action shall be brought under this section by reason of any use of a deceased personality's name, voice, signature, photograph, or likeness occurring after the expiration of 50 years from the death of the deceased personality.

(h) As used in this section, "deceased personality" means any natural person whose name, voice, signature, photograph, or likeness has commercial value at the time of his or her death, whether or not during the lifetime of that natural person the person used his or her name, voice, signature, photograph, or likeness on or in products, merchandise or goods, or for purposes of advertising or selling, or solicitation of purchase of, products, merchandise, goods or service. A "deceased personality" shall include, without limitation, any such natural person who has died within 50 years prior to January 1, 1985.

(i) As used in this section, "photograph" means any photograph or photographic reproduction, still or moving, or any video tape or live television transmission, of any person, such that the deceased personality is readily identifiable. A deceased personality shall be deemed to be readily identifiable from a photograph when one who views the photograph with the naked eye can reasonably determine who the person depicted in the photograph is.

(j) For purposes of this section, a use of a name, voice, signature, photograph, or likeness in connection with any news, public affairs, or sports broadcast or account, or any political campaign, shall not constitute a use for which consent is required under subdivision (a).

(k) The use of a name, voice, signature, photograph, or likeness in a commercial medium shall not constitute a use for which consent is required under subdivision (a) solely because the material containing the use is commercially sponsored or contains paid advertising. Rather it shall be a question of fact whether or not the use of the deceased personality's name, voice, signature, photograph, or likeness was so directly connected with the commercial sponsorship or with the paid advertising as to constitute a use for which consent is required under subdivision (a).

(*l*) Nothing in this section shall apply to the owners or employees of any medium used for advertising, including, but not limited to, newspapers, magazines, radio and television networks and stations, cable television systems, billboards, and transit ads, by whom any advertisement or solicitation is violation of this section is published or disseminated, unless it is established that the owners or employees had knowledge of the unauthorized use of the deceased personality's name, voice, signature, photograph, or likeness as prohibited by this section.

(n) This section shall not apply to the use of a deceased personality's name, voice, signature, photograph, or likeness, in any of the following instances:

(e) A "listing" is a written contract between an owner of property and an agent by which the agent has been authorized to sell the property or to find or obtain a buyer.

A listing may be any of the following:

(1) An "exclusive right to sell listing" is a listing whereby the owner grants to an agent, for a specified period of time, the exclusive right to sell or to find or obtain a buyer for the property, and the agent is entitled to the agreed compensation if during that period of time the property is sold, no matter who effected the sale, or the listing agent receives and presents to the owner any enforceable offer from a ready, able, and willing buyer on terms authorized by the listing or accepted by the owner. The exclusive right to sell listing may provide for compensation of the listing agent if the property is sold within a specified period after termination of the listing to anyone with whom the agent has had negotiations before that termination.

(2) An "exclusive agency listing" is the same as an "exclusive right to sell listing," except that the owner reserves the right to sell directly but not through any other agent and, in that event, without obligation to pay compensation to the agent.

(3) An "open listing" is a listing which grants no exclusive rights or priorities to the listing agent, and a commission is payable to the agent only if the agent procures and presents to the owner an enforceable offer from a ready, able, and willing buyer on the terms

authorized by the listing or accepted by the owner, before the property is otherwise sold either through another agent or by the owner directly and before the listing expires by its terms or is revoked.

(f) A "listing agent" is one who has obtained a listing of property of the kind in respect of which he or she is authorized by law to act as an agent for compensation.

(g) A "selling agent" is an agent participant in a multiple listing service who acts in cooperation with a listing agent and who sells, or finds and obtains a buyer for, the property.

2467. (a) In a statutory short form power of attorney, the language conferring general authority with respect to "estate transactions" shall be construed to mean that the principal authorizes the agent to do all of the following:

(1) To the extent that an agent is permitted by law thus to act for a principal, apply for and procure, in the name of the principal, letters of administration, letters testamentary, letters of trusteeship, or any other type of authority, either judicial or administrative, and act as a fiduciary of any sort.

(2) To the extent that an agent is permitted by law thus to act for a principal, represent and act for the principal in all ways and in all matters affecting any estate of a decedent, absentee, minor, or incompetent, or any trust or other fund, out of which the principal is entitled, or claims to be entitled, to some share or payment or with respect to which the principal is a fiduciary.

(3) Accept, reject, receive, receipt for, sell, assign, release, disclaim, renounce, pledge, exchange, or consent to a reduction in or modification of, any share in or payment from any estate, trust, or other fund, with or without consideration.

(4) Demand and obtain by action, proceeding, or otherwise, any money or other thing of value to which the principal is, may become,

or may claim to be entitled by reason of the death testate or intestate of any person or of any testamentary disposition or of any trust or by reason of the administration of the estate of a decedent or absentee or of the guardianship of a minor or the conservatorship of an incompetent or the administration of any trust or other fund; initiate, participate in, or oppose any proceeding, judicial or otherwise, for the ascertainment of the meaning, validity, or effect of any deed, will, declaration of trust, or other transaction affecting in any way the interest of the principal; initiate, participate in, or oppose any proceeding, judicial or otherwise, for the removal, substitution, or surcharge of a fiduciary; and conserve, invest, disburse, or utilize anything so received for purposes enumerated in this section and to reimburse the agent for any expenditures properly made in the execution of the powers conferred on the agent by the statutory short form power of attorney.

(5) Establish any trust with the assets of the principal for the benefit of the principal and the spouse and descendants of the principal, or any one or more of them, upon such terms as the agent determines are necessary or proper; transfer any asset in which the principal has an interest to any such trust or to any trust that the principal has created; and exercise in whole or in part, release, or let lapse any power the principal may have under any trust whether or not created by the principal, including any power of appointment, revocation, or withdrawal, but a trust created by the principal may only be modified or revoked by the agent as provided in the trust instrument.

(6) Purchase for the principal United States treasury bonds redeemable at par value in payment of federal estate taxes; borrow money from any source for that purpose; make, execute, endorse, and deliver promissory notes, bills of exchange, drafts, agreements, or other obligations for those bonds, and as security for them pledge, mortgage, and assign any stock, bonds, securities, insurance values, or other properties, real or personal, in which the principal may have an interest; and arrange for the safekeeping and custody of any of those treasury bonds.

(7) Prepare, sign, file, and deliver all reports, compilations of information, returns, or papers with respect to any interest had or claimed by or on behalf of the principal in any estate, trust, or other fund; and pay, compromise, or contest, and apply for refunds in connection with any tax or assessment with respect to (A) any interest had or claimed by or on behalf of the principal in any estate, trust, or other fund or by reason of the death of any person or (B) any property in which that interest is had or claimed.

(8) Agree and contract, in any manner, with any person, and on any terms, which the agent may select, for the accomplishment of the purposes enumerated in this section; and perform, rescind, reform, release, or modify any such agreement or contract or any other similar agreement or contract made by or on behalf of the principal.

(9) Execute, acknowledge, verify, seal, file, and deliver any consent, designation, pleading, notice, demand, election, conveyance, release, disclaimer, assignment, check, pledge, waiver, admission of service, notice of appearance, or other instrument the agent believes useful for the accomplishment of any of the purposes enumerated in this section.

(10) Submit to arbitration, settle, and propose or accept a compromise with respect to, any controversy or claim which affects the estate of a decedent, absentee, minor, or incompetent, or the administration of a trust or other fund, in which the principal has or claims to have an interest; and do any act which the agent believes desirable or necessary in effectuating the compromise.

(11) Hire, discharge, and compensate any attorney, accountant, expert witness, or other assistant, when the agent believes it necessary or desirable for the proper execution of any of the powers described in this section or for the keeping of needed records.

(b) All powers described in this section are exercisable equally with respect to any estate of a decedent, absentee, minor, or incompetent, or the administration of any trust or other fund, in which the principal is interested at the time of the giving of the power of attorney or may thereafter become interested, whether located in this state or elsewhere.

SEC. 6.5. Section 2502 of the Civil Code is amended to read:

2502. (a) Notwithstanding paragraph (3) of subdivision (a) of Section 2432, a statutory form durable power of attorney for health care is valid, and the designated attorney in fact may make health care decisions pursuant to such authority, only if it (1) contains the date of its execution, (2) is signed by the principal, and (3) is signed by two qualified witnesses, each of whom executes, under penalty of perjury, the declaration set out in the first paragraph of the "Statement of Witnesses" in the form set out in Section 2500, and one of whom also executes the declaration under penalty of perjury set out in the second paragraph of the "Statement of Witnesses" in the form set out in Section 2500.

(b) Nothing in this section excuses compliance with the special requirements imposed by subdivisions (c) and (f) of Section 2432.

SEC. 7. Section 62708.5 of the Food and Agricultural Code is amended to read:

62708.5. (a) A producer-handler, for purposes of this chapter, shall also include, as a separate and distinct category of producer-handlers, any producer and any handler who purchases or handles fluid milk or fluid cream produced by this producer if all of the ownership of the handler and all of the ownership of the

producer is owned by the same person or persons and their ownership in the producer or handler is at least 95 percent identical for each person with their ownership in the handler or producer. This ownership shall not exceed 10 individual persons or owners of equitable interest in a partnership, corporation, or other legally constituted business association.

(b) The ownership required by this section may be through a partnership, corporation, or other legally constituted business association so long as the entities are owned by the same person or persons, and there is at least 95 percent identity of ownership for each person with their ownership in the handler or producer. For purposes of this section a "person" or "persons" includes the spouse, or other persons of lineal consanguinity of the first or second degree or collateral consanguinity to the fourth degree, and their spouses, and includes an adopted child the same as a natural child and kindred of the half blood equally with those of the whole blood of the owner and ownerships by persons so related shall be considered single ownership by one person. For purposes of this section, property pledged or hypothecated in any manner to others shall be considered "owned" so long as equitable ownership with management and control remain with the producer-handler.

(c) Ownership as provided in this section shall have existed at the time of the base period selected by the producer under Section 62707 and at all other times thereafter.

(d) Any such producer-distributor may, until August 6, 1969, do either of the following:

(1) Join and operate wholly within the pool.

(2) Have its entire original production base and pool quota determined during the base period it selected as a producer pursuant to Section 62707, established as a part of the pooling plan, and, nevertheless elect to operate entirely outside of the pool to the extent authorized by this section.

(e) Any producer-handler who qualifies under this section and elects to operate outside the pool, to the extent of the authority granted, shall have the right to make deductions as follows from its own class 1 sales, excluding sales to a handler, whether in bulk or packaged, before being required to account to the pool:

(1) If it has not sold production base and pool quota subsequent to February 9, 1977, it may deduct its original quota, and quota purchased prior to January 1, 1978, plus a daily deduction of 150 pounds milk fat and 375 pounds solids not fat.

(2) If it has sold production base and pool quota subsequent to February 9, 1977, it may only deduct its original pool quota, and quota purchased prior to January 1, 1978.

(f) The deductions from class 1 sales authorized pursuant to this section may be made irrespective of the fact that the average class 1 usage in the pool for that month may be less than 100 percent of the pool quota in that pool.

(g) Any production subject to this section from the

producer-handler selecting this option shall not have the right to participate in the quota pool, irrespective of the fact that the producer-handler did not sell all of the quota as class 1, and will participate in either the base pool or the overbase pool depending upon whether the total production base of the producer is sufficient to cover the milk delivered in excess of the class 1 usage exempted hereunder, otherwise the production in excess of the exempt producer-handler's own class 1 sales, as defined in this section, shall be accounted for as overbase milk.

(h) The fact that a producer-handler qualifies as to one of its milk production operations under this section does not prevent it from operating on an entirely separate nonqualifying basis (and therefore subject to pooling) at other milk production facilities, and with other nonqualifying persons at these other milk production facilities. A producer-handler can neither buy nor sell pool quota and transfer therewith the option granted under this division but this shall not prevent him or her from purchasing or selling pool quota or production base as otherwise provided in this chapter.

(i) If at any time ownership, as defined in this section, ceases, the producer-handler shall no longer be eligible for the options in this section, shall account to the pool as a separate handler, and shall be entitled to reentry into producer participation in the pool on the same basis as a producer-handler may under the last paragraph of Section 62708.

The money received from such a sale or

collection shall be used to pay the statutorily permitted expenses of, and commissions to, the public administrator and to the attorney, if any, and to defray the expenses of the disposition of the decedent's remains and the expenses of the decedent's last illness. The balance, if any, shall be used to pay other claims presented to the public administrator within four months of the above order pursuant to Section 11420 and there shall be no administration upon the estate unless additional property is discovered. No notice of the application need be given. The application may be filed whether or not there is a will of the decedent in existence, if the executor named therein refuses to act, or if the will does not appoint an executor.

(b) When a public administrator takes possession of the estate of a decedent as provided in this chapter, and it appears that the total value of the estate of the decedent does not exceed ten thousand dollars ($10,000), the public administrator may, instead of applying to the superior court or judge thereof for an order as provided in subdivision (a), collect all assets belonging to the decedent on the public administrator's statement, apply the money or the proceeds from the sale of any personal or real property towards the expense of the disposition of the decedent's remains, pay other proper claims presented within four months after the public administrator takes possession of the estate pursuant to Section 11420, and pay over the remaining funds to the heirs or legatees, or if none, deposit the balance with the county treasurer for use in the general fund after one year of deposit. CHAPTER 115

An act to amend Sections 22511.5 and 22511.9 of the Vehicle Code, relating to vehicles.

[Approved by Governor May 24, 1988 Filed with Secretary of State May 25, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 22511.5 of the Vehicle Code is amended to read:

22511.5. (a) A disabled person is any of the following:

(1) Any person who has lost, or has lost the use of, one or more lower extremities or both hands, or who has significant limitation in the use of lower extremities, or who has a diagnosed disease or disorder which substantially impairs or interferes with mobility, or who is so severely disabled as to be unable to move without the aid of an assistant device.

(2) Any person who is blind to the extent that the person's central visual acuity does not exceed 20/200 in the better eye, with corrective lenses, as measured by the Snellen test, or visual acuity that is greater than 20/200, but with a limitation in the field of vision such that the widest diameter of the visual field subtends an angle not greater than 20 degrees.

(3) Any person who suffers from lung disease to the extent that the person's forced (respiratory) expiratory volume for one second when measured by spirometry is less than one liter or the person's arterial oxygen tension (pO_2) is less than 60 mm/Hg on room air at rest.

(4) Any person who is impaired by cardiovascular disease to the extent that the person's functional limitations are classified in severity as class III or class IV according to standards accepted by the American Heart Association.

(b) A disabled person shall be allowed to park for unlimited periods in a restricted zone described in subdivision (e) of Section 21458 or on streets upon which preferential parking privileges have been given pursuant to Section 22507. A disabled person shall be allowed to park for unlimited periods in parking zones restricted as to the length of time parking is permitted as indicated by a sign erected pursuant to a local ordinance. A disabled person shall be allowed to park in any metered parking space without being required to pay any parking meter fees. This section does not apply to those zones in which the stopping, parking, or standing of all vehicles is prohibited absolutely by state law or local ordinance or which are reserved for special types of vehicles.

(c) As a condition to this privilege, the vehicle shall display a distinguishing license plate which shall be issued for a vehicle registered to the disabled person, or a vehicle which is not registered

to the disabled person, but which is used primarily to transport a disabled person and which would otherwise qualify for a distinguishing license plate if the vehicle were registered to the disabled person. The distinguishing license plate shall be issued without additional fees by the Department of Motor Vehicles pursuant to procedures adopted by the department.

(d) Any disabled person may also apply to the Department of Motor Vehicles for the issuance of a distinguishing placard. The placard may be used in lieu of the distinguishing license plate for parking purposes described in subdivision (b) when displayed on the dashboard of a vehicle. It is the intent of the Legislature to hereby encourage the use of these distinguishing placards which provide law enforcement officers with a more readily recognizable symbol for distinguishing vehicles qualified for the parking privilege. The placard shall be the size and color determined by the Department of Motor Vehicles.

The Department of Motor Vehicles may establish procedures for the issuance and renewal of the placards. The placards shall have a fixed expiration date of June 30 every two years. Whenever any application for a placard is submitted to the Department of Motor Vehicles on or after January 1 of the year of expiration, the fee shall be for the current and subsequent renewal period. The first renewal of placards issued between July 1, 1985, and December 31, 1986, shall be on or before June 30, 1987.

The fee for an original application or renewal application shall be six dollars ($6).

As used in this section, "year" means the period between the inclusive dates of July 1 through June 30.

No disabled person is eligible for more than one placard at any time. Organizations and agencies involved in the transportation of disabled persons may apply for a placard for each vehicle used for the purpose of transporting disabled persons.

(e) The Department of Motor Vehicles shall issue new placards to replace placards issued prior to July 1, 1985. The new placards shall be issued as soon as possible on or after July 1, 1985. All placards issued prior to July 1, 1985, shall expire on October 1, 1985. The Department of Motor Vehicles may charge a fee sufficient to cover its actual costs for issuance of substitute placards.

(f) Prior to issuing a disabled person a distinguishing license plate or placard, the Department of Motor Vehicles may require an applicant to submit a certificate signed by a physician or surgeon substantiating the disability. However, the disability of a person who has lost, or has lost the use of, one or more lower extremities or both hands, or who has significant limitation in the use of lower extremities, may also be certified by a licensed chiropractor. The blindness of any person applying shall be certified by a licensed physician or surgeon who specializes in diseases of the eye or a licensed optometrist.

(g) A person who is temporarily disabled for a period of less than

one year may apply for a placard as prescribed in subdivision (d).

(h) A disabled person shall be allowed to park a vehicle displaying a distinguishing disabled person license plate or placard issued by a foreign jurisdiction with the same parking privileges authorized in this code as a vehicle issued a distinguishing disabled person license plate or displaying a placard issued pursuant to subdivision (d) by the Department of Motor Vehicles.

SEC. 2. Section 22511.9 of the Vehicle Code is amended to read:

22511.9. (a) A disabled veteran is a veteran who, as a result of injury or disease suffered while on active service with the armed forces of the United States:

(1) Has a disability which has been rated, by the United States Veterans' Administration or the military service from which the veteran was discharged, at 100 percent due to a diagnosed disease or disorder which substantially impairs or interferes with mobility.

(2) Is so severely disabled as to be unable to move without the aid of an assistant device.

(3) Has lost, or has lost use of, one or more limbs or has suffered permanent blindness as defined in Section 19153 of the Welfare and Institutions Code.

(b) A disabled veteran shall be allowed to park for unlimited periods in a restricted zone described in subdivision (e) of Section 21458 or on streets upon which preferential parking privileges have been given pursuant to Section 22507. A disabled veteran shall be allowed to park for unlimited periods in parking zones restricted as to the length of time parking is permitted as indicated by a sign erected pursuant to a local ordinance. A disabled veteran shall be allowed to park in any metered parking space without being required to pay any parking meter fees. This section does not apply to those zones in which the stopping, parking, or standing of all vehicles is prohibited absolutely by state law or local ordinance or which are reserved for special types of vehicles.

(c) As a condition to this privilege, the vehicle shall display a distinguishing license plate which shall be issued for a vehicle registered to the disabled veteran. The distinguishing license plate shall be issued without additional fees by the Department of Motor Vehicles pursuant to procedures adopted by the department.

(d) Any disabled veteran may also apply to the Department of Motor Vehicles for the issuance of a distinguishing placard issued pursuant to Section 22511.5. The placard may be used in lieu of the distinguishing license plate for parking purposes described in subdivision (b) when displayed on the dashboard of a vehicle. It is the intent of the Legislature to hereby encourage the use of these distinguishing placards which provide law enforcement officers with a more readily recognizable symbol for distinguishing vehicles qualified for the parking privilege.

(e) Prior to issuing a disabled veteran a distinguishing license plate or placard, the Department of Motor Vehicles may require an applicant to submit a certificate signed by a physician or surgeon

substantiating the disability.

(f) No disabled veteran is eligible for more than one placard at any time.

(g) A disabled veteran shall be allowed to park a vehicle displaying a distinguishing disabled veteran license plate or placard issued by a foreign jurisdiction with the same parking privileges authorized in this code as a vehicle issued a distinguishing disabled veteran license plate or displaying a placard issued pursuant to subdivision (d) by the Department of Motor Vehicles.

CHAPTER 116

An act to amend Sections 23357 and 23362 of, and to add Sections 23378.2 and 25503.21 to, the Business and Professions Code, relating to alcoholic beverages, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 24, 1988. Filed with Secretary of State May 25, 1988]

The people of the State of California do enact as follows:

SECTION 1. Section 23357 of the Business and Professions Code is amended to read:

23357. Licensed beer manufacturers may also sell beer to any person holding a license authorizing the sale of beer and may sell beer to consumers for consumption on the manufacturer's licensed premises or on premises owned by the manufacturer which are contiguous to the licensed premises and which are operated by and for the manufacturer. Licensed beer manufacturers may also sell beer and wine, regardless of source, to consumers for consumption at a bona fide public eating place on the manufacturer's licensed premises or at a bona fide public eating place on premises owned by the manufacturer which are contiguous to the licensed premises and which are operated by and for the manufacturer. Notwithstanding any other provision of this division, licensed beer manufacturers and holders of out-of-state beer manufacturer's certificates may be issued and may hold retail package off-sale beer and wine licenses. Alcoholic beverage products sold at or from the off-sale premises which are not produced and bottled by, or produced and packaged for, the beer manufacturer shall be purchased by the beer manufacturer only from a licensed wholesaler.

SEC. 2. Section 23362 of the Business and Professions Code is amended to read:

23362. Notwithstanding any other provisions of this division, a licensed winegrower or brandy manufacturer may be issued and may hold an off-sale general license or a retail package off-sale beer and wine license. The issuance of these off-sale general licenses shall

be subject to the pertinent provisions of Article 2 (commencing with Section 23815) of Chapter 5 of this division. Nothing in this division shall be construed to be retroactive or to affect the right of a licensed winegrower or brandy manufacturer to hold, renew or transfer any off-sale general license held by such licensed winegrower or brandy manufacturer on the 30th day of September, 1959.

SEC. 3. Section 23378.2 is added to the Business and Professions Code, to read:

23378.2. Notwithstanding any other provision of this division, a licensed wholesaler or importer may be issued and may hold retail package off-sale beer and wine licenses if the wholesaler or importer sells only wine at or from the retail premises.

SEC. 4. Section 25503.21 is added to the Business and Professions Code, to read:

25503.21. Notwithstanding any other provision of this division, a licensed manufacturer, winegrower, manufacturer's agent, California winegrower's agent, rectifier, distiller, bottler, importer, or wholesaler, or any officer, director, or agent of any such person, who prior to July 1, 1987, has entered into an active lease of premises to any holder of an off-sale license, may continue to lease premises or renew or otherwise modify such lease with any holder of an off-sale license so long as the lessor holds no financial interest other than such lease in the business of the lessee.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Assembly Bill 1712 (Chapter 68 of the Statutes of 1987) inadvertently removed long-standing statutory authority for beer manufacturers, winegrowers and brandy manufacturers to hold off-sale retail package beer and wine licenses, and for wholesalers and importers of beer and wine to sell wine at retail off-sale premises. Removal of this authority will cause severe financial hardship for small manufacturers and wholesalers who depend on off-premises consumer sales for a substantial portion of their revenues. In addition, many small brewers, winegrowers, and wholesalers would be forced to divest themselves of essential elements of their current business operations. Therefore, it is necessary that this act go into immediate effect.

CHAPTER 117

An act to amend Section 30648 of the Public Utilities Code, relating to transit.

[Approved by Governor May 24, 1988. Filed with Secretary of State May 25, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 30648 of the Public Utilities Code is amended to read:

30648. (a) The Legislature recognizes that the district made specified representations regarding construction plans at the time it received authorization to proceed with the planning and construction of an exclusive public mass transit guideway system.

(b) The Legislature further recognizes that it is traditionally less expensive to construct exclusive public mass transit guideway systems using two construction crews working from each terminus to the middle.

(c) Within three years after the start of construction of any portion of the exclusive public mass transit guideway system-San Fernando Valley-Downtown Los Angeles Metro Rail project, the district shall start station construction on the segment of the system in the San Fernando Valley, as defined in Section 11093 of the Government Code. In the aggregate, within one year after the start of construction of any portion of the project, the funding in each year for below-ground construction on the North Hollywood terminus station, as defined on pages 2-7 and 2-57 of the final Environmental Impact Statement/Environmental Impact Report for the project, dated December 1983, and for tunneling and subway construction within this segment shall not be less than 15 percent of the amount of nonfederal funds allocated and spent in the previous year to construct the metro rail project. Any funds which would have been required to be spent on Valley Metro Rail construction pursuant to the requirements of Chapter 617 of the Statutes of 1984, shall be deposited in a trust fund which shall be spent on qualified Valley Metro Rail construction pursuant to this subdivision, except that any interest earned thereon may be used to subsidize commuter rail transportation serving the San Fernando Valley Statistical Area, as described in subdivision (d) of Section 76001 of the Government Code.

(d) If the entire public mass transit guideway system-San Fernando Valley-Downtown Los Angeles Metro Rail project is converted to an at-grade light rail system, then the construction to be done with the portion of the funds designated in subdivision (c) for tunneling and subway construction may be modified to conform to the mode of construction to be used on the entire route of the San Fernando Valley-Downtown Los Angeles Metro Rail project.

(e) Funding for this construction may include, but is not limited to, any of the following sources:

(1) Funds derived from Los Angeles County Transportation Commission revenue bonds.

(2) Funds derived from the Los Angeles County Transportation Commission one-half of 1 percent transactions and use tax.

(3) Funds allocated by the California Transportation Commission for exclusive public mass transit guideway construction pursuant to Article XIX of the California Constitution and funds for that construction allocated by the California Transportation Commission from the Transportation Planning and Development Account in the State Transportation Fund. However, the funds allocated by the California Transportation Commission shall not be available for deposit in the trust fund specified in subdivision (c).

SEC. 2. Notwithstanding Section 6 of Article XIII B of the California Constitution and Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act for the purpose of making reimbursement pursuant to these sections.

Reimbursement to the Southern California Rapid Transit District for any state-mandated local program costs incurred in compliance with this act shall come from the funds allocated to the district by the California Transportation Commission for the planning or construction of the exclusive public mass transit guideway system-San Fernando Valley-Downtown Los Angeles Metro Rail project.

CHAPTER 118

An act to repeal and add Section 72020 of the Education Code, relating to community colleges, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 25, 1988. Filed with Secretary of State May 25, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 72020 of the Education Code is repealed.

SEC. 2. Section 72020 is added to the Education Code, to read:

72020. Upon the formation of any new community college district that is coterminous with a unified school district, the governing board of the unified school district shall constitute the governing board of the community college district and, after organizing as a community college district governing board, shall have the management and control of the community college district, until a governing board for the community college district is elected. An election to elect a board of five members to govern the community college district shall be called and conducted by the county

superintendent of schools at the next regular election scheduled in that district, in the manner provided by law for the election of the first governing board of a newly formed community college district.

SEC. 3. The Legislature hereby finds and declares that the portion of the Peralta Community College District containing the Feather River Community College, being noncontiguous with other territory contained within the boundaries of that district and coterminous with the Plumas Unified School District, should be formed into a new community college district, and that this formation should be expedited.

SEC. 4. (a) Notwithstanding Section 74230 of the Education Code, the action to form a new community college district from that portion of the Peralta Community College District that contains the Feather River Community College, and is not contiguous with other territory contained within the boundaries of the Peralta Community College District, shall be deemed to be approved as provided by law, for purposes of Section 74250 of the Education Code, without election, when approval of that action is given by the Board of Governors of the California Community Colleges pursuant to Section 74205 of the Education Code.

(b) The action to form a new community college district, as described in subdivision (a), shall be submitted for voter approval at an election that shall be called by the county superintendent of schools upon the enactment of this act. The election shall be called in the manner prescribed in Part 4 (commencing with Section 5000) of the Education Code, and shall be conducted at the next available regular election scheduled in the territory of districts defined in the approved proposal according to the procedures prescribed by Sections 35757 to 35764, inclusive. In the event that, pursuant to that election, the voters fail to approve that action, the new community college district formed pursuant to subdivision (a) shall be deemed to be thereupon annexed by the Peralta Community College District.

(c) Notwithstanding Section 72020 of the Education Code, the election of the first governing board of the community college district formed pursuant to subdivision (a) shall be called and conducted together with the election provided for under subdivision (b).

(d) Notwithstanding any other provision of law, the condition set forth in paragraph (1) of subdivision (b) of Section 74157 of the Education Code does not apply to the action to form a new community college district described in subdivision (a). It is the intent of the Legislature that the formation of that district not adversely affect the state funding of community college districts in subsequent fiscal years.

SEC. 5. Due to unique circumstances concerning the Peralta Community College District and the operation of the Feather River Community College within that district, as set forth in Section 3 of this act, the Legislature finds and declares that a general statute

cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 6. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 7. The sum of fifty thousand dollars ($50,000) is hereby appropriated to the Board of Governors of the California Community Colleges for the 1988–89 fiscal year to supplement the appropriation set forth in subdivision (a) of Item 6870-101-001 of the Budget Act of 1988, in order to account for any increase in the total statutory entitlement to state funding of community college districts that results from the community college district formation described in Sections 3 and 4 of this act.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to complete, prior to July 1, 1988, the formation of a new community college district containing the Feather River Community College, it is necessary that this act take effect immediately.

CHAPTER 119

An act to amend Section 43103 of the Health and Safety Code, relating to air pollution, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 27, 1988. Filed with Secretary of State May 27, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 43103 of the Health and Safety Code is amended to read:

43103. (a) Except as provided in subdivision (b), the state board may adopt a schedule of nonconformance fees applicable to manufacturers of heavy-duty vehicles and heavy-duty vehicle engines which are unable to comply with emissions standards adopted pursuant to Section 43101 for those vehicles and engines. Upon adoption and implementation of the schedule by the state board, a manufacturer of a heavy-duty vehicle or heavy-duty vehicle

engine to which a standard adopted pursuant to Section 43101 applies may, notwithstanding subdivision (a) of Section 43102, elect to pay to the state board the fee applicable to any vehicle or engine failing to meet the standard.

(b) The state board shall establish nonconformance fees only for those heavy-duty vehicles or engines for which it has adopted emission standards and test procedures which are identical to the corresponding federal emission standards and test procedures.

(c) Any regulations adopted by the state board under this section shall be identical to the nonconformance requirements, procedures, and fees established by the federal Environmental Protection Agency, pursuant to Section 206(g) of the federal Clean Air Act (42 U.S.C. Sec. 7525(g)) and Subparts A, K, and L of Part 86 of Title 40 of the Code of Federal Regulations, for the same heavy-duty vehicles or engines. Under the federal nonconformance fee program, the schedule of fees may be different in amount for each air pollutant tested, may be different for vehicles or engines of different classes or categories, and shall do all of the following:

(1) Take into account the extent to which actual emissions exceed the applicable standard.

(2) Provide for annual increases to achieve compliance with the applicable standard as quickly as is technologically feasible.

(3) Ensure that the manufacturers which are in compliance with the applicable standard suffer no competitive disadvantage from that compliance.

(d) Any warranty required under Section 43106 or 43204, and any action required by the state board under Section 43105, are applicable only to the emissions levels for which certification is granted under this section.

(e) All fees collected under this section shall be deposited in the Air Pollution Control Fund.

(f) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Under existing law, the State Air Resources Board is currently prohibited from implementing the nonconformance penalty provisions pursuant to subdivision (a) of Section 43103 of the Health and Safety Code because of a delay by the federal government in accepting the applicable provisions of California law. If implementation of those penalty provisions is delayed any longer, certain manufacturers who would be able to do business in California under those provisions would otherwise be required to cease selling their products in California, and California's economy would suffer as a result. In order to prevent this from occurring, it is necessary that this act take effect immediately.

CHAPTER 120

An act to amend Section 8103 of the Fish and Game Code, relating to commercial fishing.

[Approved by Governor May 27, 1988. Filed with Secretary of State May 27, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 8103 of the Fish and Game Code is amended to read:

8103. (a) The Legislature finds and declares as follows:

(1) The accidental death of a limited entry permittee results in great hardships on the permittee's family.

(2) Under the law as it existed immediately prior to January 1, 1987, if a member of the permittee's family has not been actively working in the fishery, the limited entry permit could not be transferred to a member of the family, an action which deprives the family of the opportunity to continue to derive a livelihood from the fishery and which imposes greater hardships.

(3) When there is an accidental death of a limited entry permittee, a transition period is necessary to allow a family member to join the fishery and to become acclimated, knowledgeable, and experienced in the fishery.

(b) Notwithstanding Section 8102, the department shall transfer a permit for a limited entry fishery, upon application, to a parent, spouse, child, or sibling of a permittee whose death was the result of an accident which occurred after January 1, 1986.

(c) Application for the transfer of a permit pursuant to subdivision (b) shall be made on or before January 1, 1987, or not more than one year after the death of the permittee, whichever is later.

(d) The director may authorize another person, when requested by the new permittee, to serve in the place of the new permittee and to engage in fishing activities under the authority of the limited entry permit for not more than two years from the date of the permit transfer.

(e) "Accidental death" means death resulting directly and solely from any of the following:

(1) An accidental injury visible on the surface of the body or disclosed by an autopsy, sustained solely by external, violent, and accidental means.

(2) A disease or infection resulting directly from an accidental injury and beginning within 30 days after the date of the injury.

(3) An accidental drowning.

CHAPTER 121

An act to amend Section 2933 of the Penal Code, relating to sentencing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 31, 1988 Filed with Secretary of State May 31, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 2933 of the Penal Code is amended to read:

2933. (a) It is the intent of the Legislature that persons convicted of a crime and sentenced to state prison, under Section 1170, serve the entire sentence imposed by the court, except for a reduction in the time served in the custody of the Director of Corrections for performance in work, training or education programs established by the Director of Corrections. Worktime credits shall apply for performance in work assignments and performance in elementary, high school, or vocational education programs. Enrollment in a two- or four-year college program leading to a degree shall result in the application of time credits equal to that provided in Section 2931. For every six months of full-time performance in a credit qualifying program, as designated by the director, a prisoner shall be awarded worktime credit reductions from his or her term of confinement of six months. A lesser amount of credit based on this ratio shall be awarded for any lesser period of continuous performance. Less than maximum credit should be awarded pursuant to regulations adopted by the director for prisoners not assigned to a full-time credit qualifying program. Every prisoner who refuses to accept a full-time credit qualifying assignment or who is denied the opportunity to earn worktime credits pursuant to subdivision (a) of Section 2932 shall be awarded no worktime credit reduction. Every prisoner who voluntarily accepts a half-time credit qualifying assignment in lieu of a full-time assignment shall be awarded worktime credit reductions from his or her term of confinement of three months for each six-month period of continued performance. Except as provided in subdivision (a) of Section 2932, every prisoner willing to participate in a full-time credit qualifying assignment but who is either not assigned to a full-time assignment or is assigned to a program for less than full time, shall receive no less credit than is provided under Section 2931. Under no circumstances shall any prisoner receive more than six months' credit reduction for any six-month period under this section.

(b) Worktime credit is a privilege, not a right. Worktime credit must be earned and may be forfeited pursuant to the provisions of Section 2932. Except as provided in subdivision (a) of Section 2932, every prisoner shall have a reasonable opportunity to participate in a full-time credit qualifying assignment in a manner consistent with

institutional security and available resources.

(c) Under regulations adopted by the Department of Corrections, which shall require a period of not more than one year free of disciplinary infractions, worktime credit which has been previously forfeited may be restored by the director. The regulations shall provide for separate classifications of serious disciplinary infractions as they relate to restoration of credits; the time period required before forfeited credits or a portion thereof may be restored; and the percentage of forfeited credits that may be restored for such time periods. For credits forfeited for commission of a felony specified in paragraph (1) of subdivision (a) of Section 2932, the Department of Corrections may provide that up to 180 days of lost credit shall not be restored and up to 90 days of credit shall not be restored for a forfeiture resulting from conspiracy or attempts to commit one of those acts; provided that no credits may be restored if they were forfeited for a serious disciplinary infraction in which the victim died or was permanently disabled. Upon application of the prisoner and following completion of the required time period free of disciplinary offenses, forfeited credits eligible for restoration under the regulations shall be restored unless, at a hearing, it is found that the prisoner refused to accept or failed to perform in a credit qualifying assignment or extraordinary circumstances are present that require that credits not be restored. "Extraordinary circumstances" shall be defined in the regulations adopted by the director.

The prisoner may appeal the finding through the Department of Corrections review procedure, which shall include a review by an individual independent of the institution who has supervisorial authority over the institution.

(d) The provisions of subdivision (c) shall also apply in cases of credit forfeited under Section 2931 for offenses and serious disciplinary infractions occurring on or after January 1, 1983.

(e) Any person sentenced to a term in the state prison under subdivision (a) of Section 190 shall be eligible only for credit pursuant to subdivisions (a), (b), and (c) of Section 2931.

SEC. 2. So as not to prejudice pending litigation, the Legislature hereby declares that it is expressing no opinion as to whether the amendment to Section 2933 of the Penal Code made by Section 1 alters existing law.

SEC. 3. Section 1 of this act, amending Section 2933 of the Penal Code, shall only become operative if the amendments to Section 190 of the Penal Code, as proposed by Chapter 1006 of the Statutes of 1987, are adopted by the voters at the June 7, 1988, direct primary election.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the provisions of this act may be effective at the time of the June 7, 1988, direct primary election, thereby clarifying the

inapplicability of worktime credits to persons who are convicted and sentenced under Section 190 of the Penal Code at the time of that election, it is essential that this act take effect immediately.

CHAPTER 122

An act to amend Sections 226 and 5353 of the Public Utilities Code, relating to transportation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 31, 1988. Filed with Secretary of State May 31, 1988]

The people of the State of California do enact as follows:

SECTION 1. Section 226 of the Public Utilities Code is amended to read:

226. (a) "Passenger stage corporation" includes every corporation or person engaged as a common carrier, for compensation, in the ownership, control, operation, or management of any passenger stage over any public highway in this state between fixed termini or over a regular route except those, 98 percent or more of whose operations as measured by total route mileage operated, which are exclusively within the limits of a single city or city and county, or whose operations consist solely in the transportation of bona fide pupils attending an institution of learning between their homes and that institution.

For purposes of this section, the percentage of the route mileage within the limits of any city shall be determined by the Public Utilities Commission on the first day of January of each year, and the percentage so determined shall be presumed to continue for the year.

(b) "Passenger stage corporation" does not include that part of the operations of any corporation or person engaged in the ownership, control, operation, or management of any passenger stage over any public highway in this state, whether between fixed termini or over a regular route or otherwise, engaged in the transportation of any pupils or students to and from a public or private school, college, or university, or to and from activities of a public or private school, college, or university, where the rate, charge, or fare for that transportation is not computed, collected, or demanded on an individual fare basis.

(c) "Passenger stage corporation" does not include the transportation of persons between home and work locations or of persons having a common work-related trip purpose in a vehicle having a seating capacity of 15 passengers or less, including the driver, which is used for the purpose of ridesharing, as defined in Section 522 of the Vehicle Code, when the ridesharing is incidental

to another purpose of the driver. This exemption also applies to a vehicle having a seating capacity of more than 15 passengers if the driver files with the commission evidence of liability insurance protection in the same amount and in the same manner as required for a passenger stage corporation, and the vehicle undergoes and passes an annual safety inspection by the Department of the California Highway Patrol. The insurance filing shall be accompanied by a one-time filing fee of seventy-five dollars ($75). This exemption does not apply if the primary purpose for the transportation of those persons is to make a profit. "Profit," as used in this subdivision, does not include the recovery of the actual costs incurred in owning and operating a vanpool vehicle, as defined in Section 668 of the Vehicle Code.

(d) "Passenger stage corporation" does not include that part of the operations of any corporation or person engaged in the ownership, control, operation, or management of any medical transportation vehicles, including vehicles employed to transport developmentally disabled persons for regional centers established pursuant to Chapter 5 (commencing with Section 4620) of Division 4.5 of the Welfare and Institutions Code.

(e) "Passenger stage corporation" does not include the transportation of persons which is ancillary to commercial river rafting and is for the sole purpose of returning passengers to the point of origin of their rafting trip.

(f) "Passenger stage corporation" does not include social service transportation delivered by a nonprofit social service transportation provider or a locally licensed or franchised for-profit transportation provider which operates, in dedicated vehicles, social service transportation pursuant to contract with a nonprofit social service transportation provider organization as long as the provider does not use a vehicle designed for carrying more than 16 persons, including the driver, or does not operate vehicles which offer transportation services over regularly scheduled or fixed routes.

(g) "Passenger stage corporation" does not include intrastate passenger transportation service conducted pursuant to federal operating authority to the extent that regulation of these intrastate operations by the commission is preempted by the federal Bus Regulatory Reform Act of 1982 (P.L. 97-261), as amended.

SEC. 2. Section 5353 of the Public Utilities Code is amended to read:

5353. This chapter does not apply to any of the following:

(a) Transportation service rendered wholly within the corporate limits of a single city or city and county and licensed or regulated by ordinance.

(b) Transportation of school pupils conducted by or under contract with the governing board of any school district entered into pursuant to the Education Code.

(c) Common carrier transportation services between fixed termini or over a regular route which are subject to authorization

pursuant to Article 2 (commencing with Section 1031) of Chapter 5 of Part 1 of Division 1.

(d) Transportation services occasionally afforded for farm employees moving to and from farms on which employed when the transportation is performed by the employer in an owned or leased vehicle, or by a nonprofit agricultural cooperative association organized and acting within the scope of its powers under Chapter 1 (commencing with Section 54001) of Division 20 of the Food and Agricultural Code, and without any requirement for the payment of compensation therefor by the employees.

(e) Transportation service rendered by a publicly owned transit system.

(f) Passenger vehicles carrying passengers on a noncommercial enterprise basis.

(g) Taxicab transportation service licensed and regulated by a city or county, by ordinance or resolution, rendered in vehicles designed for carrying not more than eight persons excluding the driver.

(h) Transportation of persons between home and work locations or of persons having a common work-related trip purpose in a vehicle having a seating capacity of 15 passengers or less, including the driver, which are used for the purpose of ridesharing, as defined in Section 522 of the Vehicle Code, when the ridesharing is incidental to another purpose of the driver. This exemption also applies to a vehicle having a seating capacity of more than 15 passengers if the driver files with the commission evidence of liability insurance protection in the same amount and in the same manner as required for a passenger stage corporation, and the vehicle undergoes and passes an annual safety inspection by the Department of the California Highway Patrol. The insurance filing shall be accompanied by a one-time filing fee of seventy-five dollars ($75). This exemption does not apply if the primary purpose for the transportation of those persons is to make a profit. "Profit," as used in this subdivision, does not include the recovery of the actual costs incurred in owning and operating a vanpool vehicle, as defined in Section 668 of the Vehicle Code.

(i) Medical transportation vehicles, including vehicles employed to transport developmentally disabled persons for regional centers established pursuant to Chapter 5 (commencing with Section 4620) of Division 4.5 of the Welfare and Institutions Code.

(j) Transportation services rendered solely within the Lake Tahoe Basin, comprising that area included within the Tahoe Regional Planning Compact as set forth in Section 66801 of the Government Code, when the operator of the services has obtained any permit required from the Tahoe Basin Transportation Authority or the City of South Lake Tahoe, or both.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into

immediate effect. The facts constituting the necessity are:

In order to quickly respond to the need for larger capacity ridesharing vehicles and protect the public by imposing insurance and safety requirements on these vehicles, it is necessary that this act take effect immediately.

CHAPTER 123

An act to amend Section 1363 of, and to add Section 1373 to, the Civil Code, relating to common interest developments.

[Approved by Governor June 1, 1988. Filed with Secretary of State June 1, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 1363 of the Civil Code is amended to read:

1363. (a) A common interest development shall be managed by an association which may be incorporated or unincorporated. Unless the governing documents provide otherwise, and regardless of whether the association is incorporated or unincorporated, the association may exercise the powers granted to a nonprofit mutual benefit corporation, as enumerated in Section 7140 of the Corporations Code, except that an unincorporated association may not adopt or use a corporate seal or issue membership certificates in accordance with Section 7313 of the Corporations Code. An association, whether incorporated or unincorporated, may exercise the powers granted to an association by Section 374 of the Code of Civil Procedure and the powers granted to the association in this title.

(b) An association, whether incorporated or unincorporated, shall prepare a budget pursuant to Section 1365 and disclose information, if requested, in accordance with Section 1368.

SEC. 2. Section 1373 is added to the Civil Code, to read:

1373. Sections 1356, 1365, 1365.5, 1366.1, and 1368, and subdivision (b) of Section 1363, and subdivision (b) of Section 1366 are not applicable to common interest developments that are expressly zoned as industrial developments and limited in use to industrial purposes or expressly zoned as commercial developments and limited in use to commercial purposes.

The Legislature finds that those aforementioned provisions may be appropriate to protect purchasers in residential common interest developments, however, the provisions are not necessary to protect purchasers in commercial or industrial developments since the application of those provisions results in unnecessary burdens and costs for these types of developments.

CHAPTER 124

An act to amend Sections 4502, 12220, 12500, and 12520 of the Penal Code, relating to firearms.

[Approved by Governor June 1, 1988. Filed with Secretary of State June 1, 1988.]

In addition, the notice may be served by mail pursuant to Section 1012, but in those cases the period of notice shall be at least 25 days if the place of address is within the State of California, at least 30 days if the place of address is outside the State of California but within the United States, and at least 40 days if the place of address is outside the United States. The provisions of Section 1005 and the provisions of subdivision (a) of Section 1013, extending the time within which a right may be exercised or an act may be done, do not apply to this section. Upon a showing of good cause, the court may shorten the time for giving the required notice to permit the determination of the issue to be made before the commencement of the trial of the action, or before the verdict or judgment if settlement is made after the trial has commenced.

(b) The issue of the good faith of a settlement may be determined by the court on the basis of affidavits served with the notice of hearing, and any counteraffidavits filed in response thereto, or the court may, in its discretion, receive other evidence at the hearing.

(c) A determination by the court that the settlement was made in good faith shall bar any other joint tortfeasor or co-obligor from any further claims against the settling tortfeasor or co-obligor for equitable comparative contribution, or partial or comparative indemnity, based on comparative negligence or comparative fault.

(d) The party asserting the lack of good faith shall have the burden of proof on that issue.

(e) When a determination of the good faith or lack of good faith of a settlement is made, any party aggrieved by the determination may petition the proper court to review the determination by writ of mandate. The petition for writ of mandate shall be filed within 20 days after service of written notice of the determination, or within such additional time not exceeding 20 days as the trial court may allow.

(1) The court shall, within 30 days of the receipt of all materials to be filed by the parties, determine whether or not the court will hear the writ and notify the parties of its determination.

(2) If the court grants a hearing on the writ, the hearing shall be given special precedence over all other civil matters on the calendar of the court except those matters to which equal or greater precedence on the calendar is granted by law.

(3) The running of any period of time after which an action would be subject to dismissal pursuant to Section 583 shall be tolled during the period of review of a determination pursuant to this subdivision.

SECTION 1. Section 846 of the Civil Code is amended to read:

846. An owner of any estate or any other interest in real property, whether possessory or nonpossessory, owes no duty of care to keep the premises safe for entry or use by others for any recreational purpose or to give any warning of hazardous conditions, uses of, structures, or activities on such premises to persons entering for such purpose, except as provided in this section.

A "recreational purpose," as used in this section, includes such activities as fishing, hunting, camping, water sports, hiking, spelunking, sport parachuting, riding, including animal riding, snowmobiling, and all other types of vehicular riding, rock collecting, sightseeing, picnicking, nature study, nature contacting, recreational gardening, gleaning, hang gliding, winter sports, and viewing or enjoying historical, archaeological, scenic, natural, or scientific sites.

This section does not limit the liability which otherwise exists (a) for willful or malicious failure to guard or warn against a dangerous condition, use, structure or activity; or (b) for injury suffered in any

case where permission to enter for the above purpose was granted for a consideration other than the consideration, if any, paid to said landowner by the state, or where consideration has been received from others for the same purpose; or (c) to any persons who are expressly invited rather than merely permitted to come upon the premises by the landowner.

Nothing in this section creates a duty of care or ground of liability for injury to person or property.

The boundary of the district is delineated on United States Geological Survey Quadrangles on file with the Northern District office of the Department of Water Resources in Red Bluff. The boundary of the district is described generally as commencing at the State Highway Route 113 bridge across the Knights Landing Ridge Cut, thence along the Knights Landing Ridge Cut between the Colusa Basin and the Cache Creek watersheds southerly and westerly through the town of Yolo to the intersection of the westerly boundary of the United States Bureau of Reclamation (USBR) Tehama-Colusa Canal Service Area (as shown on the USBR map of the Sacramento River Division, Sacramento Canals Unit, California, Tehama-Colusa Canal Service Area, including Sacramento River Water Districts [dated September 11, 1969, Rev. 9-82, drawing #602-208-1766]), thence northerly and westerly along that boundary until it intersects the ridge separating the Stony Creek and Colusa Basin watersheds approximately four miles east of Orland, except that where Colusa Basin water, irrigation, reclamation, or drainage district boundaries or the Tehama-Colusa Canal are west of the USBR Service Area boundary, that the westernmost boundary of either will prevail, thence along the ridge separating lands that are tributary to the Colusa Basin from those tributary to Stony Creek or the Sacramento River to where the ridge intersects the northernmost end of the westerly or right bank levee of the Sacramento River near the town of Ordbend, thence southerly along the westerly or right bank levee of the Sacramento River to the Knights Landing outfall gates, thence along the southerly bank of the Colusa Basin Drain to the northerly end of the Knights Landing Ridge Cut, thence along the easterly bank of the Knights Landing

The assessors of Glenn, Colusa, and Yolo Counties shall conform the boundary of the district to the boundaries nearest the exterior watershed boundary, as described above, of the assessment parcels lying totally within the watershed and situated nearest to that exterior boundary, except as to the easterly boundary which shall be the westerly or right bank levee of the Sacramento River. Each county assessor shall, within a reasonable time after January 1, 1988, hold a hearing within the respective county for the purpose of conforming the district boundary to the assessment parcel boundaries as provided herein. Notice shall be published once a week for two successive weeks in a newspaper of general circulation within the county stating that a hearing will be held for the purpose of conforming the district boundary to the boundaries of the nearest assessment parcels. Notice shall also be given by mail at least two weeks prior to the hearing to the owners of those assessment parcels within the respective county directly affected by this conformance, mailed to the address shown on the records of the assessor. At the hearing, the assessor shall present a map showing the proposed boundary as conformed to the boundaries of the nearest assessment parcels, and shall hear any objections which may be made to that boundary. Following the hearing the assessor shall describe the precise boundary of the district as conformed to the nearest assessment parcels, and shall record in the records of that particular county the description of the boundary of the district within that county, including the westerly or right bank levee of the Sacramento River as the most easterly boundary. (a) Whenever any person confined to state prison is serving a term for the conviction of a violent felony listed in subdivision (c) of Section 667.5, the Board of Prison Terms, with respect to inmates sentenced pursuant to subdivision (b) of Section 1168 or the Department of Corrections, with respect to inmates sentenced pursuant to Section 1170, shall notify the sheriff or chief of police, or both, and the district attorney, having jurisdiction over the community in which the person is scheduled to be released on parole or rereleased following a period of confinement pursuant to a parole revocation without a new commitment. Except as provided in subdivision (b), the notification shall be made at least 15 days prior

to the scheduled release date and, in all cases, shall include the name of the person who is scheduled to be released, whether or not the parolee is required to register with law enforcement, and the community in which the person will reside.

(b) When an inmate serving a term for the conviction of a violent felony listed in subdivision (c) of Section 667.5 is scheduled to be released pursuant to subdivision (b) of Section 3003 to a county other than the county from which he or she was committed, the board or department shall provide written notice of that release to the sheriff or police chief, or both, and to the district attorney, having jurisdiction over the community in which the inmate is scheduled to be released. The notification shall be made at least 45 days prior to the scheduled release date and, in all cases, shall include the name of the person who is scheduled to be released, whether or not the person is required to register with local law enforcement, and the community in which the person will reside.

Those agencies receiving the notice referred to in this subdivision shall have 15 days from receipt of the notice to provide written comment to the board or department regarding the impending release. Those comments shall be considered by the board or department which may, based on those comments, modify its decision regarding the community in which the person is scheduled to be released.

(c) In the event that the court orders the immediate release of an inmate, the department shall notify the sheriff or chief of police, or both, and the district attorney, having jurisdiction over the community in which the person is scheduled to be released on parole at the time of release.

(d) The notification required by this section shall be made whether or not a request has been made under Section 3058.5.

(e) The time limits imposed by this section are not applicable where the release date of an inmate has been advanced by restoration of behavior credits, presentence credits, or other process or procedure that could not have reasonably been anticipated by the Department of Corrections and where, as the result of the time adjustments, there is less than 30 days remaining on the sentence before the inmate's release on parole, but notice shall be given as soon as practicable. In no case shall notice required by this section to the appropriate agency be later than the day of release on parole. If, after the 45-day notice is given to law enforcement and to the district attorney relating to an out-of-county placement, there is change of county placement, notice to the ultimate county of placement shall be made upon the determination of the county of placement.

SEC. 4. Section 3058.8 is added to the Penal Code, to read:

3058.8. At the time a notification is sent pursuant to subdivision (a) of Section 3058.6, the Board of Prison Terms or the Department of Corrections, as the case may be, shall also send a notice to persons described in Section 679.03 who have requested a notice informing

those persons of the fact that the person who committed the violent offense is scheduled to be released and specifying the proposed date of release. Notice of the community in which the person is scheduled to reside shall also be given only if it is (1) in the county of residence of a witness, victim, or family member of a victim who has requested notification; or (2) within 25 miles of the actual residence of a witness, victim, or family member of a victim who has requested notification. If, after providing the witness, victim, or next of kin with the notice, there is any change in the release date or the community in which the person is to reside, the board or the department shall provide the witness, victim, or next of kin with the revised information.

In order to be entitled to receive the notice set forth in this section, the requesting party shall keep the department or board informed of his or her current mailing address.

SEC. 5. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

CHAPTER 138

An act to amend Sections 19596.5, 19596.6, 19598, and 19641 of, and to add Section 19619.8 to, the Business and Professions Code, relating to horseracing, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 8, 1988. Filed with Secretary of State June 8, 1988]

The people of the State of California do enact as follows:

SECTION 1. Section 19596.5 of the Business and Professions Code, as amended by Chapter 19 of the Statutes of 1988, is amended to read:

19596.5. (a) Notwithstanding any other provision of law, the board may authorize an association licensed to conduct a racing meeting in the northern zone to operate a satellite wagering facility for wagering on races conducted in the northern zone at its racetrack inclosure, except during the part of the day racing is being conducted at its racetrack, and may, with the approval of the Department of Food and Agriculture, authorize any county fair, district agricultural association fair, or citrus fruit fair in the northern zone eligible for

an allocation of racing days pursuant to Section 19549, but which is not licensed to conduct a racing meeting or authorized pursuant to Section 19596.7, to locate a satellite wagering facility at its fairgrounds for wagering on races conducted in the northern zone, if all of the following conditions are met:

(1) An organization described in subdivision (c) of Section 19596.4 has executed agreements, which are approved by the board, with the association conducting a racing meeting in the northern zone and the satellite wagering facility. The agreement shall provide, among other things, the conditions for transmission of the signal and that the wagers made at the satellite wagering facility will be included in the appropriate conventional or exotic pool at the racetrack where the racing meeting is conducted. Notwithstanding any other provision of law or any agreement under this subdivision, for purposes of determining license fees and breakage at the racetrack where the racing meeting is conducted, wagers at a satellite wagering facility shall not be included in the conventional or exotic pools of the association conducting the racing meeting.

(2) The horsemen's organization which represents the horsemen at the association which conducts the racing meeting on which wagers are accepted consents to the acceptance of wagers at the satellite wagering facility, except that the association or fair operating the satellite wagering facility may appeal the withholding of consent to the board which may determine that consent is not required.

(3) The accommodations and equipment used in conducting wagering at the satellite wagering facility and their location have been approved by the board.

(4) The method used by the satellite wagering facility to transmit wagers, odds, results, and other data related to wagering has been approved by the board.

(5) Except as provided in Section 19596.9, any association or fair which conducts satellite wagering shall conduct wagering on all racing offered to the satellite wagering facility, as long as the satellite wagering facility is not sustaining a loss on either a day meeting or night meeting, as determined by the board, and, if sustaining a loss on either a day meeting or night meeting, as long as that loss is reimbursed by either an organization described in subdivision (c) of Section 19596.4 or an association.

In calculating the loss, if any, for operating a satellite wagering facility for a night meeting, only the expenses incurred by the satellite wagering facility because of acceptance of night wagers shall be considered, and no overhead expenses or expenses which would be incurred regardless of the acceptance of night wagers shall be considered.

(b) Notwithstanding subdivision (a), during periods of the day when there is no night racing in the northern zone, the live audiovisual signal of night harness or quarter horse races in the central or southern zone may be offered to satellite wagering

facilities in the northern zone, provided, however, (1) that racing associations may accept that audiovisual signal, but are not required to do so and (2) that satellite wagering facilities located at fairs are not required to accept more than five night racing programs per week.

(c) The total percentage deducted from wagers at satellite wagering facilities shall be the same as the deductions for wagers at the racetrack where the racing meeting is being conducted and shall be distributed as set forth in this section. Amounts deducted under this section shall be distributed as follows:

(1) On thoroughbred meetings only, 2.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 4.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 2.5 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and 0.4 of 1 percent shall be distributed to the breeders in the form of breeders' awards, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(2) On harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 3.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 6 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and, in the case of quarter horses and Appaloosas, 0.4 of 1 percent shall be distributed as breeders' awards to breeders of quarter horses and Appaloosas and, in the case of standardbreds, 0.4 of 1 percent shall be distributed for the California Standardbred Sires Stakes Program pursuant to Section 19619, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(3) In addition to the distributions in paragraph (1) or (2), on thoroughbred meetings and harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1 percent of the total amount handled by the satellite wagering facility shall be distributed to an organization described in subdivision (c) of Section 19596.4 for promotion of the program at satellite wagering facilities. Any of the

promotion funds that are not distributed in the year in which they are collected may be distributed in the following year, and if promotion funds distributed in any year exceed the amount collected for that year, the funds distributed in the following year shall be reduced by the excess amount. Additionally, 0.33 of 1 percent of the total amount handled by the satellite wagering facility shall be paid to the city or county in which the satellite wagering facility is located pursuant to Section 19610.3 or 19610.4.

(d) On thoroughbred meetings only, the funds remaining after distribution of the amounts set forth in subdivision (c) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent as purses to the horsemen participating in the racing meeting, except that owners' premiums shall be paid from the amount distributed for purses in the same relative percentage as owners' premiums are paid at the racing meeting.

(e) On harness, quarter horse, Appaloosa, mixed breed, and fair meetings, the funds remaining after distribution of the amounts set forth in subdivision (c) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent to the horsemen in the form of purses at the association conducting the racing meeting.

(f) Except as provided in subdivisions (g) and (h), all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, are hereby continuously appropriated from that account to the Department of Food and Agriculture, for allocation by the Director of Food and Agriculture, in his or her discretion, for the following purposes, except that the concurrence of the Director of Finance shall be obtained for allocations for the purposes of paragraph (1) and (2):

(1) For repayment of the principal of, and interest on, bonds issued by a joint powers agency, or of other debt service or expense incurred, for the purpose of constructing improvements only at a fair's racetrack inclosure, for the purpose of construction of satellite wagering facilities at fairs, and for health and safety repair projects and handicapped access compliance at fairs. Notwithstanding any other law, the department may also commit any funds available for allocation under Article 10 (commencing with Section 19620) to complete projects funded under this paragraph in the priority described in this paragraph.

(2) For repayment of expenses incurred by fairs in establishing and operating satellite wagering facilities.

(3) For health and safety repair projects at fairs.

(4) For support purposes of fairs generally.

(g) Seven and one-half percent of all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in the General Fund.

(h) Up to 10 percent of all revenues payable to the state as license fees from satellite wagering facilities located at fairs shall be deposited in a special account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings to achieve the purposes of subdivision (i). The department shall annually determine the percentage of revenues payable to the special account under this subdivision based on the amount necessary to achieve the purposes of subdivision (i).

(i) It is the intent of the Legislature that funds allocated pursuant to subdivision (h) be used primarily at fair racing meetings in the northern zone with a daily average handle of more than three hundred thousand dollars ($300,000). The Legislature further finds that its intent is that these allocations be used to bring the purses at these fairs, exclusive of purses for stakes races and special events, to a level of at least 80 percent of purses for similar classes of horses at private racing associations in the northern zone. The funds shall be used among all breeds. For fair racing meetings in the northern zone with a daily average handle of three hundred thousand dollars ($300,000) or less, it is the intent of the Legislature to bring the purses to a level of at least 25 percent of purses for similar classes of horses at private racing associations in the northern zone.

SEC. 2. Section 19596.6 of the Business and Professions Code, as amended by Chapter 19 of the Statutes of 1988, is amended to read:

19596.6. (a) Notwithstanding any other provision of law, subject to the conditions and limitations set forth in this section and Section 19596.7, the following entities in the central or southern zone are eligible to be licensed to operate a satellite wagering facility for wagering on races conducted in the central or southern zone:

(1) Any county fair, district agricultural association fair, or citrus fruit fair which conducted general fair activities in 1986 within the central or southern zone, and which is eligible for an allocation of racing days pursuant to Section 19549, but which is not licensed to conduct a racing meeting, may locate a satellite wagering facility at its fairgrounds.

(2) Any association licensed to conduct a racing meeting in the central or southern zone.

(b) The board may authorize an eligible association or, with the approval of the Department of Food and Agriculture, an eligible fair, to operate a satellite wagering facility under all of the following conditions:

(1) A racing association licensed to conduct a racing meeting shall conduct satellite wagering only within its racing inclosure.

(2) An organization described in subdivision (c) of Section 19596.4 has executed an agreement approved by the board with the association conducting a racing meeting and the satellite wagering facility. The agreement shall provide, among other things, the conditions for transmission of the signal and that the wagers made at

the satellite wagering facility are included in the appropriate conventional or exotic pool at the racetrack where the racing meeting is conducted.

(3) The accommodations and equipment used in conducting wagering at the satellite wagering facility and their location have been approved by the board.

(4) The method used by the satellite wagering facility to transmit wagers, odds, results, and other data related to wagering have been approved by the board.

(5) Any association or fair that operates a satellite wagering facility shall conduct wagering on all racing conducted in the central or southern zone that is offered to that satellite wagering facility, as long as the satellite wagering facility is not sustaining a loss on either a day meeting or a night meeting, as determined by the board, and, if sustaining a loss on either a day meeting or a night meeting, as long as that loss is not reimbursed by either an organization described in subdivision (c) of Section 19596.4 or an association.

In calculating the loss, if any, for operating a satellite wagering facility for a night meeting, only the expenses incurred by the satellite wagering facility because of acceptance of night wagers shall be considered, and no overhead expenses or expenses of the satellite wagering facility which would be incurred regardless of the acceptance of night wagers shall be considered.

(c) Notwithstanding subdivision (a), a satellite wagering facility may not be located within the County of Los Angeles or within the County of Orange, except as follows:

(1) If all other conditions in subdivision (b) are met, the Fiftieth District Agricultural Association may be authorized to operate a satellite wagering facility upon its fairgrounds in the City of Lancaster and to accept wagers on races conducted in the southern and central zones.

(2) If all other conditions are met, any fair or association licensed to conduct racing meetings in the County of Los Angeles and any racing association other than a fair which is licensed to conduct racing in the County of Orange may be authorized to operate a satellite wagering facility for the limited purpose of conducting satellite wagering on races conducted at the Twenty-Second District Agricultural Association fairgrounds at Del Mar in the County of San Diego, except that, when a fair in Orange County is licensed for a racing meeting, a satellite wagering facility located within the racing inclosure where the racing meeting is conducted may not operate on the days that racing is conducted.

(d) The total percentage deducted from wagers at satellite wagering facilities shall be the same as the percentage deducted from wagers at the racetrack where the racing meeting is being conducted and shall be distributed as set forth in this section. Amounts deducted by a satellite wagering facility under this section shall be distributed as follows:

(1) On thoroughbred meetings only, 2.5 percent of the amount

handled by the satellite wagering facility on conventional wagers and 4.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 2.5 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and 0.40 of 1 percent shall be distributed to the breeders in the form of breeders' awards, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(2) On harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 3.0 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, and 6 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and, in the case of quarter horses and Appaloosas, 0.4 of 1 percent shall be distributed as breeders awards to breeders of quarter horses and Appaloosas and, in the case of standardbreds, 0.4 of 1 percent shall be distributed for the California Standardbred Sires Stakes Program pursuant to Section 19619, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(3) In addition, on thoroughbred meetings and harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1 percent shall be distributed to an organization described in subdivision (c) of Section 19596.4 for promotion of the program at satellite wagering facilities. Any of the promotion funds that are not distributed in the year in which they are collected may be distributed in the following year, and if promotion funds distributed in any year exceed the amount collected for that year, the funds distributed in the following year shall be reduced by the excess amount. Additionally, 0.33 of 1 percent of the total amount handled by the satellite wagering facility shall be paid to the city or county in which the satellite wagering facility is located pursuant to Section 19610.3 or 19610.4.

(e) On thoroughbred meetings only, the funds remaining after distribution of the amounts in subdivision (d) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent as purses to the horsemen participating in the racing meeting, except that owners' premiums

shall be paid from the amount distributed for purses in the same relative percentage as owners' premiums are paid at the racing meeting. All of the funds distributed for purses from satellite wagering facilities shall go to the purse program of the association conducting the racing meeting except that all sums for distribution as purses at satellite wagering facilities which are racing fairs in the County of Los Angeles shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings in Los Angeles and Orange Counties. The department shall distribute these funds on an equal basis to each racing fair in these counties for distribution in all nonstakes races and among all breeds.

(f) On harness, quarter horse, Appaloosa, mixed breed, and fair meetings, the funds remaining after distribution of the amounts set forth in subdivision (d) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent to the horsemen in the form of purses participating in the racing meeting.

(g) Notwithstanding subdivision (e), when satellite wagering is conducted on thoroughbred meetings, an amount, not to exceed 1.25 percent of the total amount handled by all satellite wagering facilities, shall be deducted from the funds otherwise allocated for distribution as commissions, purses, and owners' premiums and instead distributed to an organization formed and operated by thoroughbred racing associations, fairs conducting thoroughbred racing, and the organization representing thoroughbred horsemen, with each party having meaningful representation on the board of the organization, to administer, pursuant to supervision of the board, a fund to provide reimbursement for offsite stabling at board-approved auxiliary training facilities of licensed racing associations for additional stalls beyond the number of usable stalls the association is required to make available and maintain pursuant to Section 19535, and for the vanning of starters from these additional stalls on race days for thoroughbred horses.

(h) The funds distributed to the organization formed pursuant to subdivision (g) shall be used to reimburse racing associations who are operating offsite stabling providing additional stalls for the incremental increase in operating costs directly resulting from providing the stabling. Neither the organization administering the offsite stabling and vanning program nor any of the entities forming and operating the organization, except the entity operating the offsite stabling facility where the injury occurred, shall be liable for any injury to any jockey, exercise person, owner, trainer, or any employee or agent thereof, or any horse occurring at any offsite stabling facility.

The funds shall also reimburse horsemen for the cost of vanning starting horses from a board-approved auxiliary training facility operated by a licensed racing association to the track conducting the

racing meeting. Horsemen may use carriers of their own choice, except that the amount of reimbursement to horsemen is limited to the amount that the organization determines is generally charged by carriers for vanning from the auxiliary training facility to the track conducting the racing meeting. Neither the organization administering the offsite stabling and vanning program nor any of the entities forming and operating the organization, except the entity actually engaged in vanning horses, shall be liable for any injury occurring to any individual or horse during vanning from an offsite stabling facility.

The training facilities and amenities provided for offsite stabling and training purposes shall be equivalent in character to those provided during racing meetings of the association.

Upon the request of any party within the organization, the board shall adjudicate any dispute regarding costs, or other matters relating to the furnishing of offsite stabling or vanning. The board may, if necessary, appoint an independent auditor to assist in the resolution of disputes. The auditor shall be reimbursed from the funds of the organization.

The organization may maintain a reserve fund of up to 10 percent of the total estimated annual vanning and stabling costs. In addition to the reserve fund, if the funds generated for offsite stabling and vanning are insufficient to fully reimburse racing associations for expenses incurred during the offsite vanning and stabling program, the organization is entitled to accumulate sufficient funds to fully reimburse these expenses.

The amount initially deducted and distributed to the organization shall be 1.25 percent of the total amount handled by satellite wagering facilities authorized under this section on thoroughbred racing, but that allocation may be adjusted by the board, in its discretion, but the adjusted amount may not exceed 1.25 percent of the total amount handled by satellite wagering facilities, to pay expenses and maintain the reserve fund for the continuing support of the program.

(i) Forty-two percent of the revenue payable to the state from license fees from satellite wagering facilities located at fairs under the authority of this section shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated from that account to the Department of Food and Agriculture, for allocation by the Director of Food and Agriculture, in his or her discretion, for the following purposes, except that the concurrence of the Director of Finance shall be obtained for allocations for the purposes of paragraphs (1) and (2):

(1) For repayment of the principal of, and interest on, bonds issued by a joint powers agency, or of other debt service or expense incurred for the purpose of constructing improvements only at a fair's racetrack inclosure, or for the purpose of construction of satellite wagering facilities at fairs, and for health and safety repair

projects and handicapped access compliance at fairs. Notwithstanding any other law, the department may also commit any funds available for allocation under Article 10 (commencing with Section 19620) to complete projects funded under this paragraph in the priority described in this paragraph.

(2) For repayment of expenses incurred by fairs in establishing and operating satellite wagering facilities.

(3) For health and safety repair projects at the fair.

(4) For support purposes of the fair generally.

(j) The remaining 58 percent of the revenues payable to the state from satellite wagering facilities at fairs and all revenues payable to the state from satellite wagering facilities located under the authority of this section at sites other than fairs shall be deposited in the General Fund.

(k) Notwithstanding subdivision (b) of Section 19641, the state shall receive as additional license fees 50 percent of any redistributable money in a parimutuel pool arising from wagers at a satellite wagering facility, subject to payment to a claimant pursuant to Section 19598, but not successfully claimed within that period, and the funds shall be deposited in the General Fund. The remaining 50 percent of redistributable money in a parimutuel pool arising from wagers at a satellite wagering facility shall be paid to a welfare fund established by the horsemen's organization contracting with the association conducting the racing meeting for the benefit of horsemen, and that organization shall make an accounting to the board within one calendar year of the receipt of the payment.

(*l*) Of the total breakage arising in a parimutuel pool which includes wagers at satellite wagering facilities, that percentage of breakage equal to the percentage that wagers placed at satellite wagering facilities constitute of the total parimutuel pool shall be distributed equally among the state as an additional license fee deposited in the General Fund, the track conducting the racing meeting as a commission, and the horsemen participating in the racing meeting in the form of purses. The remainder of the breakage shall be distributed in the same manner as breakage arising from wagers at the track conducting the racing meeting.

(m) Notwithstanding subdivision (c) of Section 19596.5 and subdivision (d) of this section, if the total revenues from horseracing for deposit in the General Fund for the 1988–89 fiscal year, as determined by the board, do not equal or exceed one hundred fifteen million dollars ($115,000,000), the license fees distributed to the state for all wagers under subdivision (c) of Section 19596.5 and subdivision (d) of this section shall be increased by one-half of 1 percent for meetings commencing after July 1, 1989. The board shall determine if the total revenues from horseracing for deposit in the General Fund during the 1989–90 fiscal year and subsequent fiscal years equal or exceed one hundred fifteen million dollars ($115,000,000), and in fiscal years when that amount is not equaled or exceeded, the license fees distributed to the state for all wagers

under subdivision (c) of Section 19596.5 and subdivision (d) of this section shall be increased by one-half of 1 percent for meetings commencing after July 1 of the following fiscal year.

SEC. 3. Section 19598 of the Business and Professions Code is amended to read:

19598. Any person claiming to be entitled to any part of a redistribution from a parimutuel pool operated by a licensee under this chapter, who fails to claim the money due the person prior to the completion of the horse racing meeting at which the pool was formed, may, within 120 days after the close of that meeting, file a claim with the association issuing the person's ticket.

SEC. 4. Section 19619.8 is added to the Business and Professions Code, to read:

19619.8. Notwithstanding any other provision of this chapter, this section applies to all racing fairs in the northern zone with an average daily handle of more than three hundred thousand dollars ($300,000).

(a) All purse money generated from both live racing and satellite wagering handles in 1987 for any racing fair in the northern zone with an average daily handle of more than three hundred thousand dollars ($300,000) and not distributed in 1987, shall be retroactively distributed not later than June 14, 1988, by each racing fair pro rata to owners of horses earning purses in 1987.

(b) Prior to June 1, 1988, the racing fairs in the northern zone and the organizations representing horsemen racing at these fairs shall enter into agreements establishing a minimum purse schedule for each racing breed, subject to the approval of the board. These schedules shall provide purses for thoroughbred horses at a level of at least 80 percent of purses for similar classes of horses at private racing associations in the northern zone, and shall include purses for all classes and all breeds racing at fairs in the northern zone.

(c) Fair purse schedules established pursuant to subdivision (b) shall be adjusted annually by the board to maintain the 80 percent level for thoroughbred horses of similar classes at private racing associations in the northern zone. All changes in purse schedules for thoroughbred horses shall be applied in equal percentage changes for all classes of all breeds of horses racing at fairs in the northern zone. The board shall determine the levels of purses at private associations to be used in making this adjustment which shall be made not later than the first day in April in each year.

(d) Any purse money required by law to be paid by any fair in the northern zone with an average daily handle of more than three hundred thousand dollars ($300,000) which has been accumulated from racing meetings prior to 1987, shall be added by that fair, in equal amounts, to purses to be distributed at its next four racing meetings.

(e) In 1988 and subsequent years, a fair in the northern zone with an average daily handle of more than three hundred thousand dollars ($300,000) shall annually distribute purses equivalent to all purse

money generated at their meetings from live racing and satellite wagering during that year, and from other sources as provided in this section. All these fairs shall distribute purses at the levels provided by schedules established pursuant to subdivision (b) or subdivision (c), or both subdivisions, or at higher levels when additional purse funds are available.

(f) All remaining funds in the special account in the fund generated pursuant to subdivision (d) of Section 19596.5 that were designated for the purpose of supplementing purses at fairs, are hereby appropriated to the Department of Food and Agriculture for distribution for thoroughbred purses at fairs in the northern zone with an average daily handle of more than three hundred thousand dollars ($300,000) as provided in this section, for purses at fairs with daily average handles of three hundred thousand dollars ($300,000) or less as provided in subdivision (i) of Section 19596.5, and for purposes of subdivision (g).

(g) Any fair in the northern zone with an average daily handle of more than three hundred thousand dollars ($300,000) which, at the start of its 1988 meeting, has a cumulative overpayment of thoroughbred purses that is required by law to be reimbursed to that fair, shall be repaid from the purse funds appropriated by subdivision (f). Any fair which, at the start of its 1988 meeting, has a cumulative overpayment of purses for other breeds that is required by law to be reimbursed to that fair, shall deduct that overpayment from the purses required to be paid at its 1988 meeting.

(h) In 1988, purse funds needed to meet the schedules established pursuant to subdivision (b) shall, after using funds provided pursuant to subdivisions (d), (e), and (g), be provided from the funds continuously appropriated to the Department of Food and Agriculture pursuant to subdivision (h) of Section 19596.5. After using all available funds from the above sources identified in this subdivision, any additional purse funds required in 1988 to meet the schedules established by subdivision (b) shall be provided from purse funds appropriated by subdivision (f).

(i) In 1989, one-third of the remaining purse funds appropriated pursuant to subdivision (f) shall be distributed in equal amounts to each fair in the northern zone with a daily average of three hundred thousand dollars ($300,000) or more for purses for thoroughbred horses at these fairs. In 1990, one-half of the remaining purse funds appropriated pursuant to subdivision (f) shall be distributed in equal amounts to each fair in the northern zone with a daily average handle of three hundred thousand dollars ($300,000) or more for purses for thoroughbred horses racing at these fairs. In 1991, the remaining balance of purse funds appropriated pursuant to subdivision (f) shall be distributed in equal amounts to each fair in the northern zone with a daily average handle of three hundred thousand dollars ($300,000) or more for purses for thoroughbred horses at these fairs.

(j) In 1989 and subsequent years, purse funds needed to meet the

schedules established pursuant to subdivision (c) shall, after using funds provided pursuant to subdivisions (d), (e), and (i), be provided from funds continuously appropriated to the Department of Food and Agriculture pursuant to subdivision (h) of Section 19596.5.

(k) In any year in which purse funds from all sources provided in subdivisions (d) to (j), inclusive, are insufficient to meet the schedules established pursuant to subdivisions (b) and (c), 50 percent of any deficiency shall be provided by increasing, as determined by the Department of Food and Agriculture, the percentage established for deposit in the special account in the fund of state license fees from satellite wagering facilities at fairs pursuant to sudivision (h) of Section 19596.5, and the other 50 percent of the deficiency shall be provided from money generated from satellite wagering facilities at private associations in the northern zone.

(*l*) In 1988 and subsequent years, a fair in the northern zone may advertise estimated purses at specified levels, but shall make retroactive payments of purses in order to distribute all available purse funds during each year of racing. Any retroactive distribution required to be made by this subdivision shall be made not later than 14 days after the close of that fair meeting.

SEC. 5. Section 19641 of the Business and Professions Code is amended to read:

19641. (a) Except as provided in subdivision (b), 120 days after the close of any horseracing meeting, any redistributable money in a parimutuel pool subject to payment to a claimant pursuant to Section 19598, but not successfully claimed within that period, shall be paid to the board.

The money received by the board under this subdivision resulting from thoroughbred, harness, or quarter horse meetings, but excluding the meetings of the California Exposition and State Fair or of a county, district agricultural association, or citrus fruit fair, shall be used by the board to support research on matters pertaining to horseracing and racetrack security, but this money is subject to annual budgetary review by the Legislature. All the redistributable money received by the board from other meetings shall be paid immediately into the State Treasury to the credit of the General Fund.

(b) One hundred twenty days after the close of any horseracing meeting, one-half of the redistributable money resulting from the thoroughbred, harness, or quarter horse meetings, but excluding the meetings of the California Exposition and State Fair or county, district agricultural association, or citrus fruit fair meetings, shall be distributed to a welfare fund established by the horsemen's organization contracting with the association with respect to the conduct of racing meetings for the benefit of horsemen, and that organization shall make an accounting to the board within one calendar year of the receipt of the payment.

CHAPTER 139

An act to amend Sections 11810.6, 11811, 11811.1, 11818, 11841, 11862, and 11878, to add Section 11977 to, and to repeal Sections 11879, 11977, and 11978 of, the Health and Safety Code, relating to drug abuse.

[Approved by Governor June 9, 1988. Filed with Secretary of State June 9, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 11810.6 of the Health and Safety Code is amended to read:

11810.6. The county alcohol program administrator, in accordance with the planning process approved by the board of supervisors, shall develop the county alcohol program plan. The county alcohol program plan shall contain all of the following:

(a) A description of the proposed uses of alcohol funds which addresses all of the following:

(1) A statement of the goals and objectives of the county alcohol program.

(2) A description of the alcohol programs, activities and services supported by this plan, and characteristics of the individuals to be served.

(3) Criteria and methods for the distribution of funds, including a description of the alcohol service needs of women, adolescents, ethnic minorities, the elderly, the disabled, and any other specific populations, a plan for how these needs will be met, both if new funds are available and if no new funds are available, and the time span within which the needs will be met.

(4) Criteria to evaluate the effective performance of programs and services supported by this program plan.

(5) Beginning in fiscal year 1985–86, a description of how the county has met the goals, objectives, and needs in the use of funds for the previous year as identified in that year's program plan.

(6) That the federally required percentage of the federal portion of grant funds shall be for prevention and early intervention services.

(b) Certification of compliance with all of the following requirements:

(1) The county shall conduct a public hearing on the proposed use

and distribution of funds and any changes shall be made public within the county on a timely basis and in a manner which facilitates comments from interested persons.

(2) The county shall administer the county alcohol program in accordance with this division, and all other applicable state and federal requirements, including civil rights.

(3) The review of the planning process of the program plan by the county alcohol advisory board and approval by the board of supervisors.

(4) Agreement to permit, and cooperate with, specified state reviews and audits.

(5) Monitoring of all services programs receiving state or federal funds or funds available pursuant to Section 1463.16 of the Penal Code.

(6) Agreement to any additional assurances which may become necessary as a result of changes in laws, regulations, or procedures.

(c) Budget information on the programs, activities, and services supported by this program plan and assurance that its submission satisfies the program plan requirements.

SEC. 2. Section 11811 of the Health and Safety Code is amended to read:

11811. Counties shall have broad discretion in the choice of services they utilize to alleviate the alcohol problems of specific population groups and the community identified pursuant to the planning process described in Section 11810.5. Those services shall include, but need not be limited to services to problem drinkers and their families, and activities frequently referred to as prevention and early intervention.

"Prevention" means activities and processes designed to reduce or minimize the incidence of new alcohol problems and negative consequences of drinking. "Early intervention" means activities designed to provide only identification and appropriate service for alcohol problems prior to the appearance of major problems.

SEC. 3. Section 11811.1 of the Health and Safety Code is amended to read:

11811.1. The major purpose of prevention and early intervention activities includes, but is not limited to, all of the following:

(a) To facilitate positive change in community and individual understanding, values, attitudes, environmental factors, and behavior concerning alcohol and its inappropriate use.

(b) To reduce the likelihood of the inappropriate use of alcohol by developing and implementing public policies designed to reduce or limit alcohol consumption.

(c) To lessen the stigmatization of persons who seek help for problems related to inappropriate alcohol use.

(d) To provide information so that the public may make informed personal and public policy decisions regarding the inappropriate use and nonuse of alcoholic beverages.

(e) To enlighten the "helping professions" to recognize persons

with alcohol problems and to offer them appropriate services.

(f) To encourage persons to seek early help for their alcohol problems.

The Legislature recognizes that the effective provision of these activities will result in an increased demand upon, and utilization of, existing services to problem drinkers and their families. However, the Legislature believes that provision of effective prevention and early intervention activities over the next decade will result in saving taxpayers funds which might otherwise have to be expended for higher health and safety costs.

SEC. 4. Section 11818 of the Health and Safety Code is amended to read:

11818. (a) Expenditures made by counties and contract providers which may be reimbursed from funds under this part shall include expenditures for personnel, facilities, supplies, maintenance, utilities, and management services which are necessary to the provision of services and activities specified in this article. The expenditures for facilities shall be determined through rent or depreciation as established in the state's uniform accounting manual, disregarding depreciation on such a facility to the extent it was financed by state funds under this part, and any other expenditures which may be approved by the director. Reimbursement shall not be made for expenditures for the purchase or construction of buildings, except for such equipment items and remodeling expenses as may be provided for in regulations, or for expenditures for purposes for which state reimbursement is claimed under any other provision of law.

(b) The cost of services specified in the county alcohol program plan shall be actual costs as determined with standard accounting practices or a negotiated rate. Negotiated rate is a specific and fixed dollar rate for a specified unit of service provided. Negotiated rates may be used as the cost of services only between the county and private providers. The negotiated rate shall be approved by the county prior to commencing services for reimbursement and the rate shall be based upon the projected cost of providing the services and projected revenues realized as a result of providing the services. The provider shall make available to the county information on prior years' actual cost of providing the services and actual revenues where the information is available.

SEC. 5. Section 11841 of the Health and Safety Code is amended to read:

11841. (a) It is the intent of the Legislature that all programs funded under this part shall be partially self-supporting by raising revenues in addition to the funds allocated by the department. These revenues may include, but are not limited to, fees for services, private contributions, grants, or other governmental funds. These revenues shall be used in support of additional alcohol services or facilities.

(b) (1) Each program funded under this part which provides

alcohol services to individuals and their families shall assess fees to participants in the programs. The fee requirement shall not apply to prevention and early intervention activities.

(2) County-operated and contract providers of services shall set fees and follow fee assessment and collection practices that promote recovery from problem drinking. Counties and contract providers of services may utilize a variety of methods to set and collect fees, provided, that the methods do not result in the withholding of alcohol services because of the participant's present inability to pay for the services.

(3) The county alcohol program administrator shall approve the criteria of each provider for fee collection, which shall describe how the provider charges and collects fees. In collecting fees, providers shall take into account a client's income and expenses. The written criteria shall be a public record and shall be made available to the department or any individual upon request.

(c) Each county shall identify in its annual report of expenditures the types and amounts of revenues raised by all the providers of services funded under this part.

SEC. 6. Section 11862 of the Health and Safety Code is amended to read:

11862. (a) There is in state government a State Advisory Board on Drug Programs which shall consist of 15 members, of which five members shall be appointed by the Governor, five members by the Senate Rules Committee, and five members by the Speaker of the Assembly.

(b) Initial appointments to the advisory board shall be made as follows:

(1) The Governor shall appoint two members for one-year terms, two members for two-year terms, and one member for a three-year term.

(2) The speaker shall appoint two members for one-year terms, one member for a two-year term, and two members for three-year terms.

(3) The Senate Rules Committee shall appoint one member for a one-year term, two members for two-year terms, and two members for three-year terms.

(4) Subsequent appointments shall be made as prescribed in subdivision (a) for a term of three years. A member of the board may be replaced by the appointing power, upon recommendation of the board, for failure to attend board meetings.

(c) Members shall have a professional or personal interest in, and commitment to, alleviating drug problems, and shall include representatives of law enforcement agencies, public drug programs, private drug programs, education, and the general public. It is the intent of the Legislature that the appointing powers make appointments that include representatives of nongovernmental organizations or groups and of public agencies concerned with the prevention and treatment of drug abuse and drug dependence, from

various economic, social, and occupational groups, and allow for the geographic distribution of members throughout the state. Representatives from public and private drug prevention or treatment programs shall not comprise more than 33⅓ percent of the total membership. These members shall comply with existing conflict of interest laws when participating in the tasks and functions of the board.

(d) The board shall constitute the drug abuse prevention advisory council as described in federal Public Laws 92-255 and 94-237, as amended. In the interest of continuity relating to the functions of the board pursuant to subdivision (j), those members of the former Technical Advisory Committee/Drug Abuse Prevention Advisory Council reconstituted by this part, and who have remaining terms of one or two years, shall be considered in the appointments under this section.

(e) The board shall meet at least once every three months and may meet as often as required, as a full board or in committees, to implement the provisions of this section. All meetings of the board, and any committees thereof, shall be open to the public and adequate notice shall be provided in advance to interested persons.

(f) The members shall select the chair of the board annually and adopt bylaws as appropriate to carry out their duties.

(g) Members of the board shall serve without compensation, but shall receive reimbursement for travel and other necessary expenses actually incurred in the performance of their official duties.

(h) The board shall have the powers and authority necessary to carry out the duties imposed upon it by this chapter, including, but not limited to, the following:

(1) Advise the director on the major policy issues relating to the implementation by the department of the provisions of this part and on any other related matters that the director refers to it, or that the board may raise, encourage public understanding of the nature of drug problems, and encourage support throughout the state for the development and implementation of effective drug programs. Upon request of the chair of the board, the department shall respond in writing to the board regarding each of its recommendations.

(2) Periodically review drug abuse services in California.

(3) Recommend to the director rules, regulations, and standards for the administration of this division.

(4) Review the annual state and federal drug abuse plans and budgets, and all amendments thereto, and advise the director on the development of the state drug abuse plan and the system of priorities contained in that plan.

(5) Submit an annual report to the department and the Legislature in November of each year which describes its accomplishments and includes its recommendations regarding the department's role in alleviating drug problems.

(i) The department shall provide administrative, technical, and other personnel as may be necessary for the board's performance of

its powers and duties.

(j) The department shall provide appropriate training to the board members relating to their charge so as to assure their understanding of the state drug program. It is the intent of the Legislature that each member of the board learn about the elements of the drug program and the nature of drug problems in his or her county of residence, to assist him or her in understanding the major policies to be examined by the board.

(k) This section shall remain in effect until December 31, 1991, and as of that date is repealed, unless a later enacted statute, which is chaptered on or before September 30, 1991, deletes or extends that date.

SEC. 7. Section 11878 of the Health and Safety Code is amended to read:

11878. The department shall not license the establishment of a methadone program without a written application by the treatment facility which meets evaluative criteria required by the department.

The department shall not require disclosure of the identity of patients or former patients or of any records containing identifying information except as provided in Section 11977.

SEC. 8. Section 11879 of the Health and Safety Code is repealed.

SEC. 9. Section 11977 of the Health and Safety Code is repealed.

SEC. 10. Section 11977 is added to the Health and Safety Code, to read:

11977. (a) The identity and records of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any drug abuse treatment or prevention effort or function conducted, regulated, or directly or indirectly assisted by the department shall, except as provided in subdivision (c), be confidential and be disclosed only for the purposes and under the circumstances expressly authorized under subdivision (b).

(b) The content of any records referred to in subdivision (a) may be disclosed in accordance with the prior written consent of the client with respect to whom the record is maintained, but only to the extent, and under the circumstances, and for the purposes as clearly stated in the release of information signed by the client.

(c) Whether or not the client, with respect to whom any given record referred to in subdivision (a) is maintained gives his or her written consent, the content of the record may be disclosed as follows:

(1) In communications between qualified professional persons employed by the treatment or prevention program in the provision of service.

(2) To qualified medical persons not employed by the treatment program to the extent necessary to meet a bona fide medical emergency.

(3) To qualified personnel for the purpose of conducting scientific research, management audits, financial and compliance audits, or

program evaluation, but the personnel may not identify, directly or indirectly, any individual client in any report of the research, audit, or evaluation, or otherwise disclose patient identities in any manner. For purposes of this paragraph, the term "qualified personnel" means persons whose training and experience are appropriate to the nature and level of work in which they are engaged, and who, when working as part of an organization, are performing that work with adequate administrative safeguards against unauthorized disclosures.

(4) If the recipient of services is a minor, ward, or conservatee, and his or her parent, guardian, or conservator designates, in writing, persons to whom his or her identity in records or information may be disclosed, except that nothing in this section shall be construed to compel a physician and surgeon, psychologist, social worker, nurse, attorney, or other professional person to reveal information which has been given to him or her in confidence by members of the client's family.

(5) If authorized by a court of competent jurisdiction granted after application showing probable cause therefor, as provided in subdivision (c) of Section 1524 of the Penal Code.

(d) Except as authorized by a court order granted under paragraph (5) of subdivision (c), no record referred to in subdivision (a) may be used to initiate or substantiate any criminal charges against a client or to conduct any investigation of a client.

(e) The prohibitions of this section shall continue to apply to records concerning any individual who has been a client, irrespective of whether he or she ceases to be a client.

SEC. 11. Section 11978 of the Health and Safety Code is repealed.

CHAPTER 140

An act to amend Section 2017 of the Fish and Game Code, and to amend Section 602 of the Penal Code, relating to trespassing.

[Approved by Governor June 9, 1988. Filed with Secretary of State June 9, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 2017 of the Fish and Game Code is amended to read:

However, a single request for a peace officer's assistance may be made to cover a limited period of time not to exceed 30 days and identified by specific dates, during which there is a fire hazard or the owner, owner's agent, or person in lawful possession is absent from the premises or property. In

addition, a single request for a peace officer's assistance may be made for a period not to exceed six months when the premises or property is closed to the public and posted as being closed. This subdivision shall apply only to a person who has been convicted of a violent felony, as specified in subdivision (c) of Section 667.5, committed upon the particular private property. CHAPTER 141

An act to amend Section 2823 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor June 9, 1988. Filed with Secretary of State June 9, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 2823 of the Revenue and Taxation Code is amended to read:

2823. The county assessor shall determine a separate valuation on the parcel, and shall determine the valuation of the remaining parcel. The sum of the valuations of the parcels shall equal their total valuation before separation.

A separate valuation shall not be made of any parcel covered by a subdivision map filed for record after the next preceding lien date. In connection with the recording of a final subdivision map a segregation may nevertheless be made so as to include all of the land within the subdivision in a single parcel.

A separate valuation shall not be made dividing any piece of property separately assessed in the original assessment into more than four parcels. However, this prohibition shall not apply in any county in which the board of supervisors so provides in an ordinance adopted by a majority vote of the board.

With respect to nonresidential subdivisions, without regard to the number of parcels involved, which are covered by special assessment liens the bonds for which are owned by a county, the board of supervisors of that county may authorize the county assessor, auditor, and tax collector to prorate the amounts for past due property taxes and assessment liens, plus any interest and penalties that may have accrued thereon, among the various parcels in the subdivision. Notwithstanding any other provision of law, the tax collector may then enter into an installment payment agreement with respect to the pending subdivision map and thereupon the agreement shall be deemed the equivalent of a certificate pursuant to Section 66492 of the Government Code for purposes of permitting the filing of the final map and shall be recorded together with the final map, provided that the past due property taxes, assessment liens, and the special assessment lien shall not be discharged of record by the agreement, but shall be prorated among the parcels created by the final map.

If the application requested that the tax created by the assessment of personal property, or leasehold improvements, or possessory

interests be allowed to remain as a lien on the parcel sought to be separately valued, and the assessor determines that the value of the parcel is sufficient to secure the payment of the tax, the assessor shall set forth the value of such personal property, or leasehold improvements, or possessory interests opposite the assessor's determination of the value of the parcel.

SEC. 2. This act shall apply to property valuations for the 1989–90 fiscal year and fiscal years thereafter.

CHAPTER 142

An act to add Section 24807.5 to the Education Code, relating to teachers' retirement.

[Approved by Governor June 9, 1988. Filed with Secretary of State June 9, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 24807.5 is added to the Education Code, to read:

24807.5. Notwithstanding the provisions of Section 24807, the annuity reserve fund board may adopt rules allowing participants who have reached 70 years of age to withdraw their benefits.

CHAPTER 143

An act to amend Section 9 of Chapter 129 of the Statutes of 1867-1868, as added by Chapter 598 of the Statutes of 1963, relating to Tehama County.

[Approved by Governor June 9, 1988. Filed with Secretary of State June 9, 1988]

The people of the State of California do enact as follows:

procuring letters of administration, collect any money due the decedent, receive the property of the decedent, and have any evidences of interest, indebtedness, or right transferred to it upon furnishing the person, representative, corporation, official, or body owning the money, having custody of the property, or acting as registrar or transfer agent of the evidence of that interest, indebtedness, or right, with an affidavit showing the right of the home to receive the money or property or to have the evidences transferred. The receipt of the home shall constitute sufficient acquittance for any payment of money or delivery of property made pursuant to this section and shall fully discharge that person, representative, corporation, officer, or body from any further liability with reference thereto, without the necessity of inquiring into the truth of any of the facts stated in the affidavit. However, that payment or transfer does not preclude administration when necessary to enforce payment of the decedent's debts, and the administrator may, upon proof determined to be sufficient, pay the debts directly and without administration.

The receipt of the home shall constitute sufficient acquittance for any payment of money or delivery of property made pursuant to this section and shall fully discharge the person, representative, corporation, officer, or body from any further liability with reference thereto, without the necessity of inquiring into the truth of any of the facts stated in the affidavit. However, that payment or transfer does not preclude administration when necessary to enforce payment of the decedent's debts, and the administrator may, upon proof determined to be sufficient, pay the debts directly and without administration.

This subdivision applies only to veterans who have become members of the home prior to January 1, 1984.

[Approved by Governor June 10, 1988. Filed with Secretary of State June 10, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 4606 of the Civil Code is amended to read:

4606. In any initial or subsequent proceeding under this part where there is in issue the custody of or visitation with a minor child, the court may, if it determines it would be in the best interests of the minor child, appoint private counsel to represent the interests of the minor child. When the court appoints counsel to represent the minor, counsel shall receive a reasonable sum for compensation and expenses, the amount of which shall be determined by the court. The amount shall be paid by the parties in the proportions as the court deems just.

SEC. 2. Section 4704.5 is added to the Civil Code, to read:

4704.5. The duty imposed by Section 196 shall continue to exist as

to any unmarried child who has attained the age of 18, is a full-time high school student, and resides with a parent, until such time as he or she completes the 12th grade or attains the age of 19, whichever first occurs. This obligation may be enforced in the manner described in Section 196a or by any manner described in this part.

This section does not apply to support agreements made or judgments entered before March 4, 1972. Nothing in this section shall be interpreted so as to limit a parent's ability to agree to provide additional support or to limit the court's power to inquire whether such an agreement has been made.

SEC. 3. Section 4721 of the Civil Code is amended to read:

4721. In determining the ability of parents to pay the mandatory minimum child support award and to calculate the actual monthly payments to be made by each parent, all of the following provisions apply:

(a) The annual gross income of each parent shall be determined and then adjusted to obtain the annual net disposable income. To determine and apportion the mandatory minimum child support award, as defined in Section 4722, the court shall also consider, to the extent consistent with the best interests of the child or children, the earning capacity of either or both parents. The annual gross income means income from whatever source derived, except as specified in subdivision (b), and includes, but is not limited to, all of the following:

(1) Income such as commissions, salaries, royalties, wages, bonuses, rents, dividends, pensions, interest, trust income, annuities, workers' compensation benefits, unemployment insurance benefits, disability insurance benefits, and spousal support actually received from a person not a party to the order.

(2) Income from the proprietorship of a business, such as gross receipts from the business reduced by expenditures required for the operation of the business.

(3) To the extent that income derived from paragraphs (1) and (2) is insufficient to produce a mandatory minimum child support award at the AFDC standard for the same number of children, upon the request of either party, the court may consider investment assets of either or both parties which could be liquidated. To determine and apportion the mandatory minimum child support award at the AFDC level, the court shall also consider, to the extent consistent with the best interests of all of the children, the earning capacity of either or both parents.

(b) Annual gross income shall not include any income derived from child support payments actually received and income derived from any public assistance program, eligibility for which is based on a determination of need.

(c) The annual net disposable income of each parent shall be computed by deducting from his or her annual gross income the actual amounts attributable only to the following items, after which the remainder shall be adjusted to reflect the monthly net disposable

income of each parent:

(1) The state and federal income taxes attributed to the parent. Federal and state income tax deductions shall bear an accurate relationship to the tax status of the parties (that is, single, married, married filing separately, or head of household) and number of dependents.

(2) Deductions attributed to the employee's contribution or the self-employed worker's contribution pursuant to the Federal Insurance Contributions Act (FICA), or an amount not to exceed that allowed under FICA for persons not subject to FICA, provided that the deducted amount is used to secure retirement or disability benefits for the parent.

(3) Deductions for mandatory union dues and retirement benefits, provided that they are required as a condition of employment.

(4) Deductions for health insurance premiums and state disability insurance premiums.

(5) Any child or spousal support actually being paid by the parent pursuant to a court order, to or for the benefit of any person who is not a subject of the award to be established by the court. In the absence of a court order, any child support actually being paid, not to exceed the amount established by the county support guidelines applicable in the county of the child's residence, for a natural or adopted child or children of the parent not residing in that parent's home, who is not the subject of the award to be established by the court, and for whom the parent has a duty of support.

(d) For the purposes of verifying total gross income and amounts allowed for deductions, copies of the parents' federal and state income tax returns for the previous two years, copies of present wage stubs, and any other relevant documents shall be subject to discovery by the parties. Further, the court may require copies of the parents' federal and state tax returns for the previous two years, copies of present wage stubs, and such other documentation as it may deem necessary, including a current income and expense declaration in the form prescribed by the Judicial Council for family law matters.

(e) For the purpose of determining the parent's annual gross income, in calculating the mandatory minimum child support award, the court shall not include any portion of the earned income and income derived from the separate property of the current spouse or the nonmarital partner of either parent. This requirement does not apply to a child support obligation arising from the marriage between the obligated parents.

(f) The court shall inquire of each party as to the total number of minor children he or she is legally obligated to support.

SEC. 4. Section 4800.9 of the Civil Code is amended to read:

4800.9. (a) Notwithstanding Section 4800, in any case in which the parties do not agree in writing to a voluntary division of the community property and quasi-community property of the parties, the issue of the character, the value, and the division of the property

may be submitted by the court to arbitration for resolution pursuant to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, if the total value of the community property in the opinion of the court does not exceed fifty thousand dollars ($50,000). The decision of the court as to the value of the community property for purposes of this section shall not be appealable.

(b) The court may submit the matter to arbitration at anytime it believes the parties are unable to agree upon a division of the property.

SEC. 5. Section 4801.6 of the Civil Code is amended to read:

4801.6. (a) In any proceeding where the court has ordered a party to pay any amount of spousal support to the other party, the court, upon a showing of good cause, may order the party required to make a payment of spousal support to assign to either the person to whom support has been ordered to have been paid or the county officer designated by the court to receive the payment, that portion of salary or wages of the party due or to be due in the future as will be sufficient to pay the amount ordered by the court for spousal support. The order shall operate as an assignment and shall be binding upon any existing or future employer of the party required to make the payment of spousal support upon whom a copy of the order is served. Any such order may be modified or revoked at any time by the court.

(b) (1) Notwithstanding the provisions of subdivision (a), in any proceeding where the court has ordered a party to pay spousal support to the other party, upon a petition signed under penalty of perjury by the person to whom support has been ordered to have been paid alleging that the party ordered to pay spousal support is in arrears in payment in a sum equal to the amount of one month of the payment within the 24-month period immediately preceding filing of the petition, the court, without notice to the defaulting party, shall order the defaulting party to assign either to the person to whom support has been ordered to have been paid or to a county officer designated by the court to receive the payment, that portion of the salary or wages of the party required to make the payment of spousal support as will be sufficient to pay the amount ordered by the court for spousal support.

Such an order shall operate as an assignment and shall be binding upon any existing or future employer of the party required to make a payment of spousal support upon whom a copy of the order is served.

The petition shall state the number of previous times a petition for assignment has been filed pursuant to this subdivision and the county in which any such petition was filed.

(2) No petition shall be accepted for filing pursuant to this subdivision unless it contains a declaration stating that the person to whom support has been ordered to be paid has given the person ordered to pay support a written notice of his or her intent to seek

a wage assignment in the event of a default in support payments and that the notice was transmitted by certified mail or personally served at least 15 days prior to the date of the filing of the petition. A written notice of intent to seek a wage assignment may be given at the time of the filing of the petition for disolution or at any time subsequent thereto. In addition to any other penalty provided by law, the filing of a petition with knowledge of the falsity of the declaration of notice is punishable as a contempt pursuant to Section 1209 of the Code of Civil Procedure. The person ordered to pay support may at any time waive the written notice required by this subdivision.

(3) The party to whom support has been ordered to be paid shall notify the court and the employer of the party ordered to pay spousal support, by any form of mail requiring a return receipt, of any change of address within a reasonable period of time after any such change. In instances in which payments have been ordered to be made to a county officer designated by the court, the party to whom spousal support has been ordered to be paid shall notify the court and the county officer, by any form of mail requiring a return receipt, of any address change within a reasonable period of time after any changes. If the employer or county officer is unable to deliver payments under the assignment for a period of three months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address, the employer or county officer shall not make any further payments under the assignment and shall return all undeliverable payments to the employee.

(4) An assignment order made pursuant to this subdivision shall not become effective until 10 days after service of the order on an employer.

(5) Within 10 days of service of an assignment order issued pursuant to this subdivision on an employer, the employer shall deliver a copy of the assignment order to the person ordered to pay support.

(6) A person alleged to be in default may move to quash an assignment order issued under this subdivision within 10 days after service on the person of notice of the assignment order by his or her employer if the person states under oath that a default in the amount alleged in the petition has not occurred within the 24-month period referred to in the petition or that the amount is not owed. The motion and notice of motion to quash the assignment order shall be filed with the court issuing the assignment order within 10 days after service on the person of notice of the order by the employer. The clerk of the court shall set the motion to quash for hearing within not less than 15 days, nor more than 20 days, after receipt of the notice of motion and shall mail to the petitioner at the return address contained in the petition a copy of the notice of motion by first-class mail within five days after receipt of the notice of motion.

(7) The employer shall continue to withhold and forward support as ordered by the court until served with notice that the motion to

quash under this subdivision has been granted.

(8) The due date of support payments under this subdivision shall be the date specifically stated in the order of support or if no date is stated in the support order, then it shall be the last day of the month in which the support payment is to be paid.

(9) For purposes of this subdivision, arrearages of payment shall be computed on the basis of the payments owed and unpaid on the date that the person ordered to pay support has been given notice of the order of assignment, and the fact that the person ordered to pay support may have subsequently paid the arrearages shall not relieve the court of its duty under this subdivision to order the assignment.

(10) Upon petition by the person ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision upon proof of full payment pursuant to the wage assignment for the appropriate period of time, as follows:

(A) An assignment pursuant to this subdivision pursuant to an initial petition shall continue until support payments are current.

(B) An assignment under this subdivision pursuant to a second petition filed within 24 months shall continue for 24 months.

(C) An assignment under this subdivision pursuant to a third or subsequent petition filed within 48 months shall not be terminated unless upon a petition by the person ordered to pay support the court determines that there is good cause to terminate the assignment.

Upon petition by the person ordered to pay support, the court shall terminate an order of assignment entered pursuant to this subdivision if the employer or county officer has been unable to deliver payments under the assignment for a period of three months due to the failure of the person to whom support has been ordered to be paid to notify the employer or county officer of a change of address.

(c) The Judicial Council shall prescribe forms for the orders for wage assignment required or authorized by this section. The employer may deduct from the salary or wages of the employee the sum of one dollar ($1) for each payment made pursuant to the order. Any such assignment made pursuant to court order shall have priority as against any attachment, execution, or other assignment, unless otherwise ordered by the court, with the exception of assignments made pursuant to Section 4701.

(d) The employer shall cooperate with, and provide relevant employment information to, the district attorney for the purpose of enforcing the spousal support obligation.

(e) No employer shall use any assignment authorized by this section as grounds for the dismissal of an employee.

(f) Orders for wage assignment required or authorized by the section shall include a requirement that the person ordered to pay support to the other party or other person designated to receive payment of any change of employment.

(g) As used in this section "employer" includes the United States

government and any public entity as defined in Section 811.2 of the Government Code.

(h) On declaration or affidavit of the party to whom spousal support has been ordered to be paid to the court that: (1) the party ordered to make a spousal support payment is in default in that payment in the amount specified in subdivision (b), and (2) the whereabouts of the defaulting party or the identity of his or her employer are unknown to the party to whom spousal support has been ordered to be paid, the district attorney shall contact the central registry maintained by the Department of Justice in the manner prescribed in Section 11478.5 of the Welfare and Institutions Code, and upon receiving the requested information, notify the court of the last known address of the absent party and the name and address of the absent party's last known employer. The court shall then order the party obligated to make spousal support payments to show cause why an order for assignment pursuant to subdivision (b) should not issue. The county may charge a reasonable fee not to exceed two dollars and fifty cents ($2.50) for the services of the district attorney under this subdivision.

(i) Nothing in this section shall limit or expand the authority of the district attorney to utilize any and all civil and criminal remedies to enforce spousal support obligations regardless of whether or not the party to be supported receives welfare moneys.

(j) This section applies to the money and benefits described in Sections 704.110 and 704.113 of the Code of Civil Procedure to the extent that those moneys and benefits are subject to a wage assignment for support under Chapter 4 (commencing with Section 703.010) of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(k) Notwithstanding any other provision of law, when a certified copy of any order of assignment is served on any public entity described in Section 704.110 of the Code of Civil Procedure other than the United States government, that entity shall comply with any request for a return of employee contributions by an employee named in the order by delivering the contributions to the clerk of the court from which the order issued, unless the entity has received a certified copy of an order terminating the order of assignment. Upon receipt of moneys pursuant to this section, the clerk of the court, within 10 days, shall send written notice of that fact to the parties, and any agency through whom payments have been ordered under Section 4801.7. The moneys shall be subject to any procedure available to enforce an order for spousal support, but if no enforcement procedure is commenced after 30 days have elapsed from the date the notice is sent, the clerk shall, upon request, return the moneys to the public entity that delivered the moneys to the court unless the public entity has informed the court in writing that the moneys shall be released to the defaulting party. A court shall not directly or indirectly condition the issuance, modification or termination of, or condition the terms or conditions of, any order for

spousal support upon the issuance of such a request by such an employee.

(*l*) The procedures specified in this section are applicable to any proceeding where the court has ordered a party to pay any amount for family support.

(m) This section shall become operative on January 1, 1987.

SEC. 6. Section 674 of the Code of Civil Procedure is amended to read:

674. (a) Except as otherwise provided in subdivision (b), an abstract of a judgment or decree requiring the payment of money shall be certified by the clerk of the court where the judgment or decree was entered and shall contain all of the following:

[Approved by Governor June 10, 1988. Filed with Secretary of State June 10, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 11005 of the Revenue and Taxation Code is amended to read:

11005. (a) After payment of refunds therefrom and after making the deductions authorized by Section 11003 and reserving the amount determined necessary by the Pooled Money Investment Board to meet the transfers ordered or proposed to be ordered pursuant to Section 16310 of the Government Code, 81.25 percent of the balance of all motor vehicle license fees and any other money appropriated by law for expenditure pursuant to this section and deposited to the credit of the Motor Vehicle License Fee Account in the Transportation Tax Fund and remaining unexpended therein at the close of business on the last day of the calendar month shall be allocated by the Controller by the 10th day of the following month in the manner provided by subdivisions (c) and (d).

(b) Eighteen and three-quarters percent of the balance shall be allocated each month to counties and cities and counties, as follows: an amount for each county and city and county equal to the revenue received in the 1982–83 fiscal year pursuant to former Section 16111, subdivision (c) of former Section 16113, and former Section 16113.7 of the Government Code. These amounts shall be determined by the Controller with the concurrence of the Director of Finance. The Controller shall allocate any remaining amount determined pursuant to this subdivision to counties and cities and counties in the

proportion that the population of each county or city and county bears to the total population of all the counties and cities and counties of the state, as determined pursuant to subdivision (d).

(c) Fifty percent of the payments required by subdivision (a) shall be paid to the cities and cities and counties of this state in the proportion that the population of each city or city and county bears to the total population of all cities and cities and counties in this state, as determined by the population research unit of the Department of Finance. For the purpose of this subdivision, the population of each city or city and county is that determined by the last federal decennial or special census, or a subsequent census validated by the population research unit or subsequent estimate prepared pursuant to Section 2107.2 of the Streets and Highways Code. In the case of a city incorporated subsequent to the last federal census, or a subsequent census validated by the population research unit, the population research unit shall determine the population of the city. In the case of unincorporated territory being annexed to a city subsequent to the last federal census, or a subsequent census validated by the population research unit, the population research unit shall determine the population of the annexed territory by the use of any federal decennial or special census, or estimate prepared pursuant to Section 2107.2 of the Streets and Highways Code. In the case of the consolidation of one city with another subsequent to the last federal census, or a subsequent census validated by the population research unit, the population of the consolidated city, for the purpose of this subdivision, is the aggregate population of the respective cities as determined by the last federal census, or a subsequent census or estimate validated by the population research unit.

(d) Fifty percent of the payments required by subdivision (a) shall be paid to the counties and cities and counties of the state in the proportion that the population of each county or city and county bears to the total population of all the counties and cities and counties of the state, as determined by the population research unit. For the purpose of this subdivision, the population of each county or city and county is that determined by the last federal census, or subsequent census validated by the population research unit, or as determined by Section 11005.6.

(e) Money disbursed by the Controller to cities and counties pursuant to this section may be used for county or city purposes and may, but need not necessarily, be used for purposes of general interest and benefit to the state.

(f) Population changes based on a federal or state special census validated by the Department of Finance shall be accepted by the Controller only if certified to him or her at the request of the Department of Finance. The request shall be made only if the census is greater than the current certified population and shall become effective on the first day of the month following receipt of the certification.

SEC. 2. Section 11005.6 of the Revenue and Taxation Code is amended to read:

11005.6. Any city, county, or city and county may apply to the population research unit of the Department of Finance to estimate its population. The department may make the estimate if in the opinion of the department there is available adequate information upon which to base the estimate. Not less than 25 days nor more than 30 days after the completion of the estimate, the Department of Finance shall file a certified copy thereof with the Controller if the estimate is greater than the current certified population. Such a certification may be made once each fiscal year.

All payments under Section 11005 for any allocation subsequent to the filing of the estimate shall be based upon the population so estimated until a subsequent certification is made by the Department of Finance or a subsequent federal decennial census is made.

Population changes based on a federal or state special census or estimate validated by the Department of Finance shall be accepted by the Controller only if certified to him or her at the request of the Department of Finance. The request shall be made only if the census or estimate is greater than the current certified population and shall become effective on the first day of the month following receipt of the certification.

The Department of Finance may assess a reasonable charge, not to exceed the actual cost thereof, for the preparation of population estimates pursuant to this section, which is a proper charge against the city, county, or city and county applying therefor. The amount received shall be deposited in the State Treasury as a reimbursement to be credited to the appropriation from which the expenditure is made.

As of May 1, 1988, any population estimate prepared by the Department of Finance pursuant to Section 2227 may be used for all purposes of this section unless a written request not to certify is received by the department from the city, city and county, or county within 25 days of completion of the estimate.

SEC. 3. Section 30462.1 of the Revenue and Taxation Code is amended to read:

30462.1. Any city may apply to the population research unit of the Department of Finance to estimate its population. Not less than 25 days nor more than 30 days after the completion of the estimate, the Department of Finance shall file a certified copy thereof with the Controller if the estimate is greater than the current certified population. This certification may be made once each fiscal year.

As of May 1, 1988, any population estimate prepared by the Department of Finance pursuant to Section 2227 may be used for all purposes of this section unless a written request not to certify is received by the department from the city within 25 days of completion of the estimate.

SEC. 4. Section 2107.2 of the Streets and Highways Code is amended to read:

2107.2. Any city or city and county may apply to the population research unit of the Department of Finance to estimate its population or the population of any inhabited territory annexed to the city subsequent to the last federal or state census validated by the population research unit of the Department of Finance. The department may make the estimate if in the opinion of the department there is available adequate information upon which to base the estimate. The department may develop or contract for the development of additional information if, in the opinion of the department, additional information may make an estimate feasible. Not less than 25 days nor more than 30 days after the completion of the estimate, the Department of Finance shall file a certified copy thereof with the Controller if the estimate is greater than the current certified population.

All apportionments under Section 2107 and all payments under Section 11005 of the Revenue and Taxation Code for any apportionment made beginning with the month following the filing of the estimate shall be based upon the population so estimated until a subsequent estimate is made by the department and a certified copy is filed with the Controller or a subsequent determination is made by the United States Bureau of the Census and a certified copy is filed by the city or city and county with the Controller as provided in Section 2107.1.

The Department of Finance may assess a reasonable charge, not to exceed the actual cost thereof, for the preparation of population estimates pursuant to this section, which is a proper charge against the city or city and county applying therefor. The amount received

shall be deposited in the State Treasury as a reimbursement to be credited to the appropriation from which the expenditure is made.

No more than one estimate of its total population shall be filed each fiscal year for each city or city and county.

As of May 1, 1988, any population estimate prepared by the Department of Finance pursuant to Section 2227 of the Revenue and Taxation Code may be used for all purposes of this section unless a written request not to certify is received by the department from the city or city and county within 25 days of completion of the estimate.

All payments under Section 38240 for any allocation subsequent to the filing of the estimate shall be based upon the population so estimated until a subsequent certification is made by the Department of Finance or a subsequent federal decennial census is made.

Population changes based on a federal or state special census or estimate validated by the Department of Finance shall be accepted by the Controller only if certified to him or her at the request of the Department of Finance. The request shall be made only if the census or estimate is greater than the current certified population and shall become effective on the first day of the month following receipt of the certification.

The Department of Finance may assess a reasonable charge, not to exceed the actual cost thereof, for the preparation of population estimates pursuant to this section, which is a proper charge against the city, county or city and county applying therefor. The amount received shall be deposited in the State Treasury as a reimbursement to be credited to the appropriation from which the expenditure is made.

As of May 1, 1988, any population estimate prepared by the Department of Finance pursuant to Section 2227 of the Revenue and Taxation Code may be used for all purposes of this section unless a written request not to certify is received by the department from the city, city and county, or county within 25 days of completion of the estimate.

SEC. 6. Notwithstanding any other provision of law, during the 1987–88 fiscal year the Department of Finance may certify to the Controller, and the Controller shall accept, any updated population estimate or census for any city or county for which a previous certification was made during that fiscal year based on a request

made by the city or county during the period from July 1, 1987, to December 31, 1987, pursuant to existing law.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 158

An act to amend Section 11580.2 of the Insurance Code, relating to insurance.

[Approved by Governor June 10, 1988. Filed with Secretary of State June 10, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 11580.2 of the Insurance Code is amended to read:

11580.2. (a) (1) No policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle, except for policies which provide insurance in the Republic of Mexico issued or delivered in this state by nonadmitted Mexican insurers, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor

vehicle then principally used or principally garaged in this state, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the limits specified in subdivision (m) and in no case less than the financial responsibility requirements specified in Section 16056 of the Vehicle Code insuring the insured, the insured's heirs or legal representative for all sums within such limits which he, she, or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured, prior to or subsequent to the issuance or renewal of a policy, may, by agreement in writing, in the form specified in paragraph (2), delete the provision covering damage caused by an uninsured motor vehicle (1) completely, or (2) delete such coverage when a motor vehicle is operated by a natural person or persons designated by name, or agree to provide such coverage in an amount less than that required by subdivision (m) but not less than the financial responsibility requirements specified in Section 16056 of the Vehicle Code. Any such agreements by any named insured or agreement for the amount of coverage shall be binding upon every insured to whom the policy or endorsement provisions apply while the policy is in force, and shall continue to be so binding with respect to any continuation or renewal of the policy or with respect to any other policy which extends, changes, supersedes, or replaces the policy issued to the named insured by the same insurer, or with respect to reinstatement of the policy within 30 days of any lapse thereof. A policy shall be excluded from the application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles or if the automobile liability coverage is provided only on an excess or umbrella basis. Nothing in this section shall be construed to require that uninsured motorist coverage shall be offered or provided in any homeowner policy, personal and residents' liability policy, comprehensive personal liability policy, manufacturers' and contractors' policy, premises liability policy, special multiperil policy, or any other policy or endorsement where automobile liability coverage is offered as incidental to some other basic coverage, notwithstanding that the policy may provide automobile or motor vehicle liability coverage on insured premises or the ways immediately adjoining.

(2) The agreement specified in paragraph (1) shall be in the following form:

"The California Insurance Code requires an insurer to provide uninsured motorists coverage in each bodily injury liability insurance policy it issues covering liability arising out of the ownership, maintenance, or use of a motor vehicle. Such section also permits the insurer and the applicant to delete such coverage completely or to delete such coverage when a motor vehicle is operated by a natural person or persons designated by name, or agree to provide such coverage in an amount less than that required by subdivision (m) of

Section 11580.2 of the Insurance Code, but not less than the financial responsibility requirements. Uninsured motorists coverage insures the insured, his or her heirs, or legal representatives for all sums within the limits established by law, which such person or persons are legally entitled to recover as damages for bodily injury, including any resulting sickness, disease, or death, to him or her from the owner or operator of an uninsured motor vehicle not owned or operated by the insured or a resident of the same household. An uninsured motor vehicle includes an underinsured motor vehicle as defined in subdivision (p) of Section 11580.2 of the Insurance Code."

The agreement may contain additional statements not in derogation of or in conflict with the foregoing. The execution of the agreement shall relieve the insurer of liability under this section while the agreement remains in effect.

(b) As used in (a) above, "bodily injury" includes sickness or disease, including death, resulting therefrom; the term "named insured" means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in (a) above; as used in (a) above if the named insured is an individual the term "insured" means the named insured and the spouse of the named insured and, while residents of the same household, relatives of either while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he or she is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; as used in (a) above, if the named insured is an entity other than an individual, the term "insured" means any person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he or she is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply. As used in this subdivision, the word "individual" shall not include persons doing business as corporations, partnerships, or associations. The term "insured motor vehicle" means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute automobile for which liability coverage is provided in the policy or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the named insured or with his or her permission or consent, express or implied, and any other automobile not owned by or furnished for the regular use of the named insured or any resident of the same household, or by a natural person or persons for whom coverage has been deleted in accordance with subdivision (a) while being operated by the named insured or his or her spouse if a resident of the same household, but the term "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. As used in this section, the term "uninsured motor vehicle" means a motor vehicle with

respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or an "underinsured motor vehicle" as defined in subdivision (p), or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of the automobile with the insured or with an automobile which the insured is occupying.

(2) The insured or someone on his or her behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol, and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his or her legal representative has or the insured's heirs have a cause of action arising out of the accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. As used in this section, the term "uninsured motor vehicle" shall not include a motor vehicle owned or operated by the named insured or any resident of the same household or self-insured within the meaning of the Financial Responsibility Law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer while located for use as a residence or premises and not as a vehicle, or any equipment or vehicle designed or modified for use primarily off public roads, except while actually upon public roads.

As used in this section, the term "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle coverage is in effect where the liability insurer of the tortfeasor becomes insolvent within one year of the accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making the payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of the person against the

insolvent insurer.

Nothing in this section is intended to exclude from the definition of an uninsured motor vehicle any motorcycle or private passenger type four wheel drive motor vehicle if that vehicle was subject to and failed to comply with the Financial Responsibility Law of this state.

(c) The insurance coverage provided for in this section does not apply either as primary or as excess coverage to:

(1) To property damage sustained by the insured.

(2) To bodily injury of the insured while in or upon or while entering into or alighting from a motor vehicle other than the described motor vehicle if the owner thereof has insurance similar to that provided in this section.

(3) To bodily injury of the insured with respect to which the insured or his or her representative shall, without the written consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.

(4) In any instance where it would inure directly or indirectly to the benefit of any workers' compensation carrier or to any person qualified as a self-insurer under any workers' compensation law, or directly to the benefit of the United States, or any state or any political subdivision thereof.

(5) To establish proof of financial responsibility as provided in subdivisions (a), (b), and (c) of Section 16054 of the Vehicle Code.

(6) To bodily injury of the insured while occupying a motor vehicle owned by an insured or leased to an insured under a written contract for a period of six months or longer, unless the occupied vehicle is an insured motor vehicle. "Motor vehicle" as used in this paragraph means any self-propelled vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(8) To bodily injury of the insured while occupying a motor vehicle rented or leased to the insured for public or livery purposes.

(d) Subject to paragraph (2) of subdivision (c), the policy or endorsement may provide that if the insured has insurance available to the insured under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bear to the total of such limits.

(e) The policy or endorsement added thereto may provide that if the insured has valid and collectible automobile medical payment insurance available to him or her, the damages which the insured shall be entitled to recover from the owner or operator of an uninsured motor vehicle shall be reduced for purposes of uninsured motorist coverage by the amounts paid or due to be paid under the automobile medical payment insurance. This subdivision shall become operative on January 1, 1971.

(f) The policy or an endorsement added thereto shall provide that

the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the event of disagreement, by arbitration. The arbitration shall be conducted by a single neutral arbitrator. An award or a judgment confirming an award shall not be conclusive on any party in any action or proceeding between (i) the insured, his or her insurer, his or her legal representative, or his or her heirs and (ii) the uninsured motorist to recover damages arising out of the accident upon which the award is based. If the insured has or may have rights to benefits, other than nonoccupational disability benefits, under any workers' compensation law, the arbitrator shall not proceed with the arbitration until the insured's physical condition is stationary and ratable. In those cases in which the insured claims a permanent disability, the claims shall, unless good cause be shown, be adjudicated by award or settled by compromise and release before the arbitration may proceed. Any demand or petition for arbitration shall contain a declaration, under penalty of perjury, stating whether (i) the insured has a workers' compensation claim; (ii) the claim has proceeded to findings and award or settlement on all issues reasonably contemplated to be determined in that claim; and (iii) if not, what reasons amounting to good cause are grounds for the arbitration to proceed immediately. The arbitration shall be deemed to be a proceeding and the hearing before the arbitrator shall be deemed to be the trial of an issue therein for purposes of issuance of a subpoena by an attorney of a party to the arbitration under Section 1985 of the Code of Civil Procedure. The provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to these determinations, and all rights, remedies, obligations, liabilities and procedures set forth in Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the superior court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under Article 3 with respect to the same accident, subject, however, to the right of the court to grant a change of venue after a hearing upon

notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition is served by either party within 20 days after the accident.

(4) The provisions of paragraph (4) of subdivision (a) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in paragraph (2) of subdivision (b) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the Code of Civil Procedure and requests for admission under Section 2033 of the Code of Civil Procedure may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section shall be construed to limit the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(g) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person legally liable for such injury or death to the extent that payment was made. Such action may be brought within three years from the date that payment was made hereunder.

(h) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver of rights to which he or she may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him or her, his or her executor, administrator, heirs, or legal representative under any workers' compensation law, exclusive of nonoccupational disability benefits.

(2) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part, including any amounts tendered to the insured as advance payment on behalf of such other person by the insurer providing the underlying liability insurance.

(i) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction and notice of such suit has been given the insurer, or

(2) Agreement as to the amount due under the policy has been concluded, or

(3) The insured has formally instituted arbitration proceedings.

(j) Notwithstanding the provisions of subdivisions (b) and (i), in the event the accident occurs in any other state or foreign jurisdiction to which coverage is extended under the policy and the insurer of the tortfeasor becomes insolvent, any action authorized pursuant to the provisions of this section may be maintained within three months of the insolvency of the tortfeasor's insurer, but in no event later than the pertinent period of limitation of the jurisdiction in which the accident occurred.

(k) Notwithstanding the provisions of subdivision (i), any insurer whose insured has made a claim under his or her uninsured motorist coverage, and such claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to the injury or death. Failure of the insurer to provide the written notice shall operate to toll any applicable statute of limitation or other time limitation for a period of 30 days from the date the written notice is actually given. The notice shall not be required if the insurer has received notice that the insured is represented by an attorney.

(*l*) As used in subdivision (b), "public or livery conveyance," or terms of similar import, shall not include the operation or use of a motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing social service transportation as defined in subdivision (f) of Section 11580.1. This subdivision shall apply only to policies of insurance issued, amended, or renewed on or after January 1, 1976.

(m) Coverage provided under an uninsured motorist endorsement or coverage shall be offered with coverage limits equal to the limits of liability for bodily injury in the underlying policy of insurance, but shall not be required to be offered with limits in excess of the following amounts:

(1) A limit of thirty thousand dollars ($30,000) because of bodily injury to or death of one person in any one accident.

(2) Subject to the limit for one person set forth in paragraph (1), a limit of sixty thousand dollars ($60,000) because of bodily injury to or death of two or more persons in any one accident.

(n) Underinsured motorist coverage shall be offered with limits equal to the limits of liability for the insured's uninsured motorist limits in the underlying policy, and may be offered with limits in excess of such uninsured motorist coverage. For the purposes of this

section, uninsured and underinsured motorist coverage shall be offered as a single coverage. However, an insurer may offer coverage for damages for bodily injury or wrongful death from the owner or operator of an underinsured motor vehicle at greater limits than an uninsured motor vehicle.

(o) If an insured has failed to provide an insurer with wage loss information or medical treatment record releases within 15 days of the insurer's request or has failed to submit to a medical examination arranged by the insurer within 20 days of the insurer's request, the insurer may, at any time prior to 30 days before the actual arbitration proceedings commence, request, and the insured shall furnish, wage loss information or medical treatment record releases, and the insurer may require the insured, except during periods of hospitalization, to make himself or herself available for a medical examination. The wage loss information or medical treatment record releases shall be submitted by the insured within 10 days of request and the medical examination shall be arranged by the insurer no sooner than 10 days after request, unless the insured agrees to an earlier examination date, and not later than 20 days after the request. If the insured fails to comply with the requirements of this subdivision, the actual arbitration proceedings shall be stayed for at least 30 days following compliance by the insured. The proceedings shall be scheduled as soon as practicable following expiration of the 30-day period.

(p) This subdivision applies only when bodily injury, as defined in subdivision (b), is caused by an underinsured motor vehicle. If the provisions of this subdivision conflict with subdivisions (a) through (o), the provisions of this subdivision shall prevail.

(1) As used in this subdivision, "an insured motor vehicle" is one that is insured under a motor vehicle liability policy, or automobile liability insurance policy, self-insured, or for which a cash deposit or bond has been posted to satisfy a financial responsibility law.

(2) "Underinsured motor vehicle" means a motor vehicle that is an insured motor vehicle but insured for an amount that is less than the uninsured motorist limits carried on the motor vehicle of the injured person.

(3) This coverage does not apply to any bodily injury until the limits of bodily injury liability policies applicable to all insured motor vehicles causing the injury have been exhausted by payment of judgments or settlements, and proof of such is submitted to the insurer providing the underinsured motorist coverage.

(4) When bodily injury is caused by one or more motor vehicles, whether insured, underinsured, or uninsured, the maximum liability of the insurer providing the underinsured motorist coverage shall not exceed the insured's underinsured motorist coverage limits, less the amount paid to the insured by or for any person or organization that may be held legally liable for the injury.

(5) The insurer paying a claim under this subdivision shall, to the extent of such payment, be entitled to reimbursement or credit in

the amount received by the insured from the owner or operator of the underinsured motor vehicle or the insurer of such owner or operator.

(6) If the insured brings an action against the owner or operator of an underinsured motor vehicle, he or she shall forthwith give to the insurer providing the underinsured motorist coverage a copy of the complaint by personal service or certified mail. All pleadings and depositions shall be made available for copying or copies furnished the insurer, at the insurer's expense, within a reasonable time.

(7) Underinsured motorist coverage shall be included in all policies of bodily injury liability insurance providing uninsured motorist coverage issued or renewed on or after July 1, 1985. Notwithstanding this section, an agreement to delete uninsured motorist coverage completely, or with respect to a person or persons designated by name, executed prior to July 1, 1985, shall remain in full force and effect.

(q) Regardless of the number of vehicles involved whether insured or not, persons covered, claims made, premiums paid or the number of premiums shown on the policy, in no event shall the limit of liability for two or more motor vehicles or two or more policies be added together, combined, or stacked to determine the limit of insurance coverage available to injured persons.

[Approved by Governor June 10, 1988. Filed with Secretary of State June 10, 1988.]

The people of the State of California do enact as follows:

SECTION 1. Section 6032 of the Business and Professions Code, as added by Chapter 557 of the Statutes of 1987, is amended and renumbered to read:

6033. (a) The board shall conduct a scientifically valid survey of a representative sample of the active membership for the purpose of compiling data on the subject of legal malpractice insurance.

Members shall fully and truthfully complete the survey or be subject to those discipline measures prescribed by the board. Survey responses shall be confidential.

(b) The board shall submit a final report on the results of the survey to the Legislature on or before December 15, 1987.

(c) For the 1988–89 fiscal year, the board may increase the annual membership fee fixed by subdivision (a) of Section 6140 by an additional amount not to exceed one dollar ($1). This additional amount shall only be applied for costs incurred by the board in complying with the requirements of this section.

SEC. 2. Section 6736.1 of the Business and Professions Code is amended to read:

6736.1. (a) On or after July 1, 1984, no person shall use the title, "soil engineer," unless he or she is a registered civil engineer in this state and he or she has been found qualified as a soil engineer according to the rules and regulations established for soil engineers by the board. Any registered civil engineer using the title "soil engineer" on or before July 1, 1984, may, for a period of two years, continue to use the title "soil engineer." On and after July 1, 1986, no person may use the title "soil engineer," "soils engineer," or "geotechnical engineer," unless he or she files an application to use the appropriate title with the board and the board determines the applicant is qualified to use the requested title.

The Technical Advisory Committee shall be comprised of soil engineers, soils engineers, and geotechnical engineers, and at least one registered civil engineer who does not hold a soils authority.

(d) For purposes of this section, "qualifying experience" means proof of responsible charge of soil engineering projects in at least 50

percent of the major areas of soil engineering, as determined by the board.

(e) Nothing contained in this chapter requires existing references to "soil engineering," "soils engineering," "geotechnical engineering," "soil engineer," "soils engineer," or "geotechnical engineer," in local agency ordinances, building codes, regulations, or policies, to mean that those activities or persons must be registered or authorized to use the relevant title or authority.

SEC. 3. Section 7085.5 of the Business and Professions Code is amended to read:

7085.5. Arbitrations of disputes arising out of cases filed with or by the board shall be conducted in accordance with the following rules:

(a) All "agreements to arbitrate" shall include the names, addresses, and telephone numbers of the parties to the dispute, the issue in dispute, and the amount in dollars or any other remedy sought. The appropriate fee shall be paid by the board from the Contractors' License Fund.

(b) The board or appointed arbitration association shall appoint an arbitrator in the following manner: immediately after the filing of the agreement to arbitrate, the board or appointed arbitration association shall submit simultaneously to each party to the dispute, an identical list of names of persons chosen from the panel. Each party to the dispute shall have seven days from the mailing date in which to cross off any names to which it objects, number the remaining names to indicate the order of preference, and return the list to the board or appointed arbitration association. If a party does not return the list within the time specified, all persons named in the list are acceptable. From among the persons who have been approved on both lists, and in accordance with the designated order of mutual preference, the board or appointed arbitration association shall appoint an arbitrator to serve. If the parties fail to agree on any of the parties named, if acceptable arbitrators are unable to act, or if, for any other reason, the appointment cannot be made from the submitted lists, the board or appointed arbitration association shall have the power to make the appointment from among other members of the panel without the submission of any additional lists. Each dispute shall be heard and determined by one arbitrator unless the board or appointed arbitration association, in its discretion, directs that a greater number of arbitrators be appointed.

(c) No person shall serve as an arbitrator in any arbitration in which that person has any financial or personal interest in the result of the arbitration. Prior to accepting an appointment, the prospective arbitrator shall disclose any circumstances likely to prevent a prompt hearing or to create a presumption of bias. Upon receipt of that information, the board or appointed arbitration association shall immediately replace the arbitrator or communicate the information to the parties for their comments. Thereafter, the board or appointed arbitration association shall determine whether

the arbitrator should be disqualified and shall inform the parties of its decision, which shall be conclusive.

(d) The board or appointed arbitration association may appoint another arbitrator if a vacancy occurs, or if an appointed arbitrator is unable to serve in a timely manner.

(e) The board or appointed arbitration association shall provide the parties with a list of the times and dates, and locations of the hearing to be held. The parties shall notify the arbitrator, within seven calendar days of the mailing of the list, of the times and dates convenient to each party. If the parties fail to respond to the arbitrator within the seven-day period, the arbitrator shall fix the time, place, and location of the hearing. An arbitrator may, at the arbitrator's sole discretion, make an inspection of the construction site which is the subject of the arbitration. The arbitrator shall notify the parties of the time and date set for the inspection. Any party who so desires may be present at the inspection.

(f) Any person having a direct interest in the arbitration is entitled to attend the hearing. The arbitrator shall otherwise have the power to require the exclusion of any witness, other than a party or other essential person, during the testimony of any other witness. It shall be discretionary with the arbitrator to determine the propriety of the attendance of any other person.

(g) Hearings shall be adjourned by the arbitrator only for good cause.

(h) A record is not required to be taken of the proceedings. However, any party to the proceeding may have a record made at its own expense. The parties may make appropriate notes of the proceedings.

(i) The hearing shall be conducted by the arbitrator in any manner which will permit full and expeditious presentation of the case by both parties. Consistent with the expedited nature of arbitration, the arbitrator shall establish the extent of, and schedule for, the protection of relevant documents and other information, the identification of any witnesses to be called, and a schedule for any hearings to elicit facts solely within the knowledge of one party. The complaining party shall present its claims, proofs, and witnesses, who shall submit to questions or other examination. The defending party shall then present its defenses, proofs, and witnesses, who shall submit to questions or other examination. The arbitrator has discretion to vary this procedure but shall afford full and equal opportunity to the parties for the presentation of any material or relevant proofs.

(j) The arbitration may proceed in the absence of any party who, after due notice, fails to be present. The arbitrator shall require the attending party to submit supporting evidence in order to make an award. An award shall not be made solely on the default of a party.

(k) The arbitrator shall be the sole judge of the relevancy and materiality of the evidence offered and conformity to legal rules of evidence shall not be required.

(*l*) The arbitrator may receive and consider documentary evidence. Documents to be considered by the arbitrator may be submitted prior to the hearing. However, a copy shall be simultaneously transmitted to all other parties and to the board or appointed arbitration association for transmittal to the arbitrator or board appointed arbitrator.

(m) The arbitrator shall specifically inquire of the parties whether they have any further proofs to offer or witnesses to be heard. Upon receiving negative replies, the arbitrator shall declare the hearing closed and minutes thereof shall be recorded. If briefs are to be filed, the hearing shall be declared closed as of the final date set by the arbitrator for the receipt of briefs. If documents are to be filed as requested by the arbitrator and the date set for their receipt is later than that set for the receipt of briefs, the later date shall be the date of closing the hearings. The time limit within which the arbitrator is required to make the award shall commence to run, in the absence of other agreements by the parties, upon the closing of the hearings.

(n) The hearing may be reopened on the arbitrator's own motion. The arbitrator shall have 30 calendar days from the closing of the reopened hearing within which to make an award.

(o) Any party who proceeds with the arbitration after knowledge that any provision or requirement of these rules has not been complied with, and who fails to state his or her objections to the arbitrator in writing, within 10 calendar days of close of hearing, shall be deemed to have waived his or her right to object.

(p) Any papers or process necessary or proper for the initiation or continuation of an arbitration under these rules and for any court action in connection therewith, or for the entry of judgment on an award made thereunder, may be served upon any party (1) by regular mail addressed to that party or his or her attorney at the parties' last known addresses, or (2) by personal service.

(q) The award shall be made promptly by the arbitrator, and unless otherwise agreed by the parties, no later than 30 calendar days from the date of closing the hearing, or if oral hearing has been waived, from the date of transmitting the final statements and proofs to the arbitrator.

The arbitrator may for good cause extend any period of time established by these rules, except the time for making the award. The arbitrator shall notify the parties of any extension and the reason therefor.

(r) The arbitrator may grant any remedy or relief which the arbitrator deems just and equitable and within the scope of the board's referral and the requirements of the board including, but not limited to, specific performance of a contract. The arbitrator, in his or her sole discretion, may award costs or expenses.

(s) The award shall become final 30 calendar days from the date the arbitration award is issued. The arbitrator, upon written application of a party to the arbitration, may correct the award upon the following grounds:

(1) There was an evident miscalculation of figures or an evident mistake in the description of any person, things, or property referred to in the award.

(2) There is any other clerical error in the award, not affecting the merits of the controversy.

An application for correction of the award shall be made within 10 calendar days of the date of service of the award by serving a copy of the application on the arbitrator, and all other parties to the arbitration. Any party to the arbitration may make a written objection to the application for correction by serving a copy of the written objection on the arbitrator, the board, and all other parties to the arbitration, within 10 calendar days of the date of service of the application for correction.

The arbitrator shall either deny the application or correct the award within 30 calendar days of the date of service of the original award by mailing a copy of the denial or correction to all parties to the arbitration. Any appeal from the denial or correction shall be filed with a court of competent jurisdiction and a true copy thereof shall be filed with the arbitrator or appointed arbitration association within 30 calendar days of the issuance of the award, before the award becomes final. The award shall be in writing, and shall be signed by the arbitrator or a majority of them. If no appeal is filed within the 30 calendar day period, it shall become a final order of the registrar.

(t) Service of the award by certified mail shall be effective if a certified letter containing the award, or a true copy thereof, is mailed by the arbitrator or arbitration association to each party or to a party's attorney of record at their last known address, address of record, or by personally serving any party. Service may be proved in the manner authorized in civil actions.

(u) The expenses of witnesses, expert witnesses, or reports for either side shall be paid by the party producing the witnesses or reports. The registrar shall advise the parties that names of industry experts may be obtained by requesting this information from the registrar.

(v) The arbitrator shall interpret and apply these rules insofar as they relate to his or her powers and duties.

(w) The following shall apply as to court procedure and exclusion of liability:

(1) The board, the appointed arbitration association, or any arbitrator in a proceeding under these rules is not a necessary party in judicial proceedings relating to the arbitration.

(2) Parties to these rules shall be deemed to have consented that judgment upon the arbitration award may be entered in any federal or state court having jurisdiction thereof.

(3) The board, the appointed arbitration association, or any arbitrator is not liable to any party for any act or omission in connection with any arbitration conducted under these rules.

SEC. 4. Section 10177 of the Business and Professions Code is

(2) A certificate setting forth the exact title of the document

SEC. 19. Section 2017 of the Code of Civil Procedure is amended to read:

2017. (a) Unless otherwise limited by order of the court in accordance with this article, any party may obtain discovery regarding any matter, not privileged, that is relevant to the subject matter involved in the pending action or to the determination of any motion made in that action, if the matter either is itself admissible in evidence or appears reasonably calculated to lead to the discovery of admissible evidence. Discovery may relate to the claim or defense of the party seeking discovery or of any other party to the action. Discovery may be obtained of the identity and location of persons having knowledge of any discoverable matter, as well as of the existence, description, nature, custody, condition, and location of any document, tangible thing, or land or other property.

(b) A party may obtain discovery of the existence and contents of

any agreement under which any insurance carrier may be liable to satisfy in whole or in part a judgment that may be entered in the action or to indemnify or reimburse for payments made to satisfy the judgment. This discovery may include the identity of the carrier and the nature and limits of the coverage. A party may also obtain discovery as to whether that insurance carrier is disputing the agreement's coverage of the claim involved in the action, but not as to the nature and substance of that dispute. Information concerning the insurance agreement is not by reason of disclosure admissible in evidence at trial.

(c) The court shall limit the scope of discovery if it determines that the burden, expense, or intrusiveness of that discovery clearly outweighs the likelihood that the information sought will lead to the discovery of admissible evidence. The court may make this determination pursuant to a motion for protective order by a party or other affected person. This motion shall be accompanied by a declaration stating facts showing a good faith attempt at an informal resolution of each issue presented by the motion.

The court shall impose a monetary sanction under Section 2023 against any party, person, or attorney who unsuccessfully makes or opposes a motion for a protective order, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

(d) In any civil action alleging conduct that constitutes sexual harassment, sexual assault, or sexual battery, any party seeking discovery concerning the plaintiff's sexual conduct with individuals other than the alleged perpetrator is required to establish specific facts showing good cause for that discovery, and that the matter sought to be discovered is relevant to the subject matter of the action and reasonably calculated to lead to the discovery of admissible evidence. This showing shall be made by noticed motion and shall not be made or considered by the court at an ex parte hearing. This motion shall be accompanied by a declaration stating facts showing a good faith attempt at an informal resolution of each issue presented by the motion.

The court shall impose a monetary sanction under Section 2023 against any party, person, or attorney who unsuccessfully makes or opposes a motion for discovery, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

SEC. 20. Section 2025 of the Code of Civil Procedure is amended to read:

2025. (a) Any party may obtain discovery within the scope delimited by Section 2017, and subject to the restrictions set forth in Section 2019, by taking in California the oral deposition of any person, including any party to the action. The person deposed may be a natural person, an organization such as a public or private corporation, a partnership, an association, or a governmental agency.

(b) Subject to the provisions of subdivisions (f) and (t), an oral deposition may be taken as follows:

(1) The defendant may serve a deposition notice without leave of court at any time after that defendant has been served or has appeared in the action, whichever occurs first.

(2) The plaintiff may serve a deposition notice without leave of court on any date that is 20 days after the service of the summons on, or appearance by, any defendant. However, on motion with or without notice, the court, for good cause shown, may grant to a plaintiff leave to serve a deposition notice on an earlier date.

(c) A party desiring to take the oral deposition of any person shall give notice in writing in the manner set forth in subdivision (d). However, where under subdivision (d) of Section 2020 only the production by a nonparty of business records for copying is desired, a copy of the deposition subpoena shall serve as the notice of deposition. The notice of deposition shall be given to every other party who has appeared in the action. The deposition notice, or the accompanying proof of service, shall list all the parties or attorneys for parties on whom it is served.

Where, as defined in subdivision (a) of Section 1985.3, the party giving notice of the deposition is a subpoenaing party, and the deponent is a witness commanded by a deposition subpoena to produce personal records of a consumer, the subpoenaing party shall serve on that consumer (1) a notice of the deposition, (2) the notice of privacy rights specified in subdivision (e) of Section 1985.3, and (3) a copy of the deposition subpoena.

(d) The deposition notice shall state all of the following:

(1) The address where the deposition will be taken.

(2) The date of the deposition, selected under subdivision (f), and the time it will commence.

(3) The name of each deponent, and the address and telephone number, if known, of any deponent who is not a party to the action. If the name of the deponent is not known, the deposition notice shall set forth instead a general description sufficient to identify the person or particular class to which the person belongs.

(4) The specification with reasonable particularity of any materials or category of materials to be produced by the deponent.

(5) Any intention to record the testimony by audio tape or video tape, in addition to recording the testimony by the stenographic method as required by paragraph (1) of subdivision (*l*).

(6) Any intention to reserve the right to use at trial a video tape deposition of a treating or consulting physician or of any expert witness under paragraph (4) of subdivision (u). In this event, the operator of the video tape camera shall be a person who is authorized to administer an oath, and shall not be financially interested in the action or be a relative or employee of any attorney of any of the parties.

If the deponent named is not a natural person, the deposition notice shall describe with reasonable particularity the matters on

which examination is requested. In that event, the deponent shall designate and produce at the deposition those of its officers, directors, managing agents, employees, or agents who are most qualified to testify on its behalf as to those matters to the extent of any information known or reasonably available to the deponent. A deposition subpoena shall advise a nonparty deponent of its duty to make this designation, and shall describe with reasonable particularity the matters on which examination is requested.

If the attendance of the deponent is to be compelled by service of a deposition subpoena under Section 2020, an identical copy of that subpoena shall be served with the deposition notice.

(e) (1) The deposition of a natural person, whether or not a party to the action, shall be taken at a place that is, at the option of the party giving notice of the deposition, either within 75 miles of the deponent's residence, or within the county where the action is pending and within 150 miles of the deponent's residence, unless the court orders otherwise under paragraph (3).

(2) The deposition of an organization that is a party to the action shall be taken at a place that is, at the option of the party giving notice of the deposition, either within 75 miles of the organization's principal executive or business office in California, or within the county where the action is pending and within 150 miles of that office. The deposition of any other organization shall be taken within 75 miles of the organization's principal executive or business office in California, unless the organization consents to a more distant place. If the organization has not designated a principal executive or business office, the deposition shall be taken at a place that is, at the option of the party giving notice of the deposition, either within the county where the action is pending, or within 75 miles of any executive or business office of the organization in California.

(3) A party desiring to take the deposition of a natural person who is a party to the action or an officer, director, managing agent, or employee of a party may make a motion for an order that the deponent attend for deposition at a place that is more distant than that permitted under paragraph (1). This motion shall be accompanied by a declaration stating facts showing a reasonable and good faith attempt at an informal resolution of any issue presented by the motion.

In exercising its discretion to grant or deny this motion, the court shall take into consideration any factor tending to show whether the interests of justice will be served by requiring the deponent's attendance at that more distant place, including, but not limited to, the following:

(A) Whether the moving party selected the forum.

(B) Whether the deponent will be present to testify at the trial of the action.

(C) The convenience of the deponent.

(D) The feasibility of conducting the deposition by written questions under Section 2028, or of using a discovery method other

than a deposition.

(E) The number of depositions sought to be taken at a place more distant than that permitted under paragraph (1).

(F) The expense to the parties of requiring the deposition to be taken within the distance permitted under paragraph (1).

(G) The whereabouts of the deponent at the time for which the deposition is scheduled.

The order may be conditioned on the advancement by the moving party of the reasonable expenses and costs to the deponent for travel to the place of deposition.

The court shall impose a monetary sanction under Section 2023 against any party, person, or attorney who unsuccessfully makes or opposes a motion to increase travel limits for the party-deponent, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

(f) An oral deposition shall be scheduled for a date at least 10 days after service of the deposition notice. If, as defined in subdivision (a) of Section 1985.3, the party giving notice of the deposition is a subpoenaing party, and the deponent is a witness commanded by a deposition subpoena to produce personal records of a consumer, the deposition shall be scheduled for a date at least 20 days after issuance of that subpoena.

On motion of any party or deponent, for good cause shown, the court may shorten or extend the time for scheduling a deposition, or may stay its taking until the determination of a motion for a protective order under subdivision (i).

(g) Any party served with a deposition notice that does not comply with subdivisions (b) to (f), inclusive, waives any error or irregularity unless that party promptly, and in no event less than three calendar days before the date for which the deposition is scheduled, serves a written objection specifying that error or irregularity on the party seeking to take the deposition and any other attorney or party on whom the deposition notice was served. If an objection is made three calendar days before the deposition date, the objecting party shall make personal service of that objection pursuant to Section 1011 on the party who gave notice of the deposition. Any deposition taken after the service of a written objection shall not be used against the objecting party under subdivision (u) if the party did not attend the deposition and if the court determines that the objection was a valid one.

In addition to serving this written objection, a party may also move for an order staying the taking of the deposition and quashing the deposition notice. This motion shall be accompanied by a declaration stating facts showing a reasonable and good faith attempt at an informal resolution of any issue presented by the motion. The taking of the deposition is stayed pending the determination of this motion.

The court shall impose a monetary sanction under Section 2023 against any party, person, or attorney who unsuccessfully makes or

opposes a motion to quash a deposition notice, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

(h) (1) The service of a deposition notice under subdivision (c) is effective to require any deponent who is a party to the action or an officer, director, managing agent, or employee of a party to attend and to testify, as well as to produce any document or tangible thing for inspection and copying.

(2) The attendance and testimony of any other deponent, as well as the production by the deponent of any document or tangible thing for inspection and copying, requires the service on the deponent of a deposition subpoena under Section 2020.

(i) Before, during, or after a deposition, any party, any deponent, or any other affected natural person or organization may promptly move for a protective order. The motion shall be accompanied by a declaration stating facts showing a reasonable and good faith attempt at an informal resolution of each issue presented by the motion.

The court, for good cause shown, may make any order that justice requires to protect any party, deponent, or other natural person or organization from unwarranted annoyance, embarrassment, or oppression, or undue burden and expense. This protective order may include, but is not limited to, one or more of the following directions:

(1) That the deposition not be taken at all.

(2) That the deposition be taken at a different time.

(3) That a video tape deposition of a treating or consulting physician or of any expert witness, intended for possible use at trial under paragraph (4) of subdivision (u), be postponed until the moving party has had an adequate opportunity to prepare, by discovery deposition of the deponent, or other means, for cross-examination.

(4) That the deposition be taken at a place other than that specified in the deposition notice, if it is within a distance permitted by subdivision (e).

(5) That the deposition be taken only on certain specified terms and conditions.

(6) That the deponent's testimony be taken by written, instead of oral, examination.

(7) That the method of discovery be interrogatories to a party instead of an oral deposition.

(8) That the testimony be recorded in a manner different from that specified in the deposition notice.

(9) That certain matters not be inquired into.

(10) That the scope of the examination be limited to certain matters.

(11) That all or certain of the writings or tangible things designated in the deposition notice not be produced, inspected, or copied.

(12) That designated persons, other than the parties to the action and their officers and counsel, be excluded from attending the

deposition.

(13) That a trade secret or other confidential research, development, or commercial information not be disclosed or be disclosed only to specified persons or only in a specified way.

(14) That the parties simultaneously file specified documents enclosed in sealed envelopes to be opened as directed by the court.

(15) That the deposition be sealed and thereafter opened only on order of the court.

If the motion for a protective order is denied in whole or in part, the court may order that the deponent provide or permit the discovery against which protection was sought on those terms and conditions that are just.

The court shall impose a monetary sanction under Section 2023 against any party, person, or attorney who unsuccessfully makes or opposes a motion for a protective order, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

(j) (1) If the party giving notice of a deposition fails to attend or proceed with it, the court shall impose a monetary sanction under Section 2023 against that party, or the attorney for that party, or both, and in favor of any party attending in person or by attorney, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

(2) If a deponent does not appear for a deposition because the party giving notice of the deposition failed to serve a required deposition subpoena, the court shall impose a monetary sanction under Section 2023 against that party, or the attorney for that party, or both, in favor of any other party who, in person or by attorney, attended at the time and place specified in the deposition notice in the expectation that the deponent's testimony would be taken, unless the court finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

If a deponent on whom a deposition subpoena has been served fails to attend a deposition or refuses to be sworn as a witness, the court may impose on the deponent the sanctions described in subdivision (h) of Section 2020.

(3) If, after service of a deposition notice, a party to the action or an officer, director, managing agent, or employee of a party, or a person designated by an organization that is a party under subdivision (d), without having served a valid objection under subdivision (g), fails to appear for examination, or to proceed with it, or to produce for inspection any document or tangible thing described in the deposition notice, the party giving the notice may move for an order compelling the deponent's attendance and testimony, and the production for inspection of any document or tangible thing described in the deposition notice. This motion (A) shall set forth specific facts showing good cause justifying the

production for inspection of any document or tangible thing described in the deposition notice, and (B) shall be accompanied by a declaration stating facts showing a reasonable and good faith attempt at an informal resolution of each issue presented by it. If this motion is granted, the court shall also impose a monetary sanction under Section 2023 against the deponent or the party with whom the deponent is affiliated, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust. On motion of any other party who, in person or by attorney, attended at the time and place specified in the deposition notice in the expectation that the deponent's testimony would be taken, the court shall also impose a monetary sanction under Section 2023, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

If that party or party-affiliated deponent then fails to obey an order compelling attendance, testimony, and production, the court may make those orders that are just, including the imposition of an issue sanction, an evidence sanction, or a terminating sanction under Section 2023 against that party deponent or against the party with whom the deponent is affiliated. In lieu of or in addition to this sanction, the court may impose a monetary sanction under Section 2023 against that deponent or against the party with whom that party deponent is affiliated, and in favor of any party who, in person or by attorney, attended in the expectation that the deponent's testimony would be taken pursuant to that order.

(k) Except as provided in paragraph (3) of subdivision (d) of Section 2020, the deposition shall be conducted under the supervision of an officer who is authorized to administer an oath. This officer shall not be financially interested in the action and shall not be a relative or employee of any attorney of any of the parties. Any objection to the qualifications of the deposition officer is waived unless made before the deposition begins or as soon thereafter as the ground for that objection becomes known or could be discovered by reasonable diligence.

(*l*) (1) The deposition officer shall put the deponent under oath. Unless the parties agree or the court orders otherwise, the testimony, as well as any stated objections, shall be taken stenographically. The party noticing the deposition may also record the testimony by audio tape or video tape if the notice of deposition stated an intention also to record the testimony by either of those methods, or if all the parties agree that the testimony may also be recorded by either of those methods. Any other party, at that party's expense, may make a simultaneous audio tape or video tape record of the deposition, provided that other party promptly, and in no event less than three calendar days before the date for which the deposition is scheduled, serves a written notice of this intention to audio tape or video tape the deposition testimony on the party or attorney who noticed the deposition, on all other parties or attorneys on whom the deposition

notice was served under subdivision (c), and on any deponent whose attendance is being compelled by a deposition subpoena under Section 2020. If this notice is given three calendar days before the deposition date, it shall be made by personal service under Section 1011. Examination and cross-examination of the deponent shall proceed as permitted at trial under the provisions of the Evidence Code.

(2) If the deposition is being recorded by means of audio tape or video tape, the following procedure shall be observed:

(A) The area used for recording the deponent's oral testimony shall be suitably large, adequately lighted, and reasonably quiet.

(B) The operator of the recording equipment shall be competent to set up, operate, and monitor the equipment in the manner prescribed in this subdivision. The operator may be an employee of the attorney taking the deposition unless the operator is also the deposition officer. However, if a video tape of deposition testimony is to be used under paragraph (4) of subdivision (u), the operator of the recording equipment shall be a person who is authorized to administer an oath, and shall not be financially interested in the action or be a relative or employee of any attorney of any of the parties, unless all parties attending the deposition agree on the record to waive these qualifications and restrictions.

(C) The operator shall not distort the appearance or the demeanor of participants in the deposition by the use of camera or sound recording techniques.

(D) The deposition shall begin with an oral or written statement on camera or on the audio tape that includes the operator's name and business address, the name and business address of the operator's employer, the date, time, and place of the deposition, the caption of the case, the name of the deponent, a specification of the party on whose behalf the deposition is being taken, and any stipulations by the parties.

(E) Counsel for the parties shall identify themselves on camera or on the audio tape.

(F) The oath shall be administered to the deponent on camera or on the audio tape.

(G) If the length of a deposition requires the use of more than one unit of tape, the end of each unit and the beginning of each succeeding unit shall be announced on camera or on the audio tape.

(H) At the conclusion of a deposition, a statement shall be made on camera or on the audio tape that the deposition is ended and shall set forth any stipulations made by counsel concerning the custody of the audio tape or video tape recording and the exhibits, or concerning other pertinent matters.

(I) A party intending to offer an audio taped or video taped recording of a deposition in evidence under subdivision (u) shall notify the court and all parties in writing of that intent and of the parts of the deposition to be offered within sufficient time for objections to be made and ruled on by the judge to whom the case

is assigned for trial or hearing, and for any editing of the tape. Objections to all or part of the deposition shall be made in writing. The court may permit further designations of testimony and objections as justice may require. With respect to those portions of an audio taped or video taped deposition that are not designated by any party or that are ruled to be objectionable, the court may order that the party offering the recording of the deposition at the trial or hearing suppress those portions, or that an edited version of the deposition tape be prepared for use at the trial or hearing. The original audio tape or video tape of the deposition shall be preserved unaltered. If no stenographic record of the deposition testimony has previously been made, the party offering a video tape or an audio tape recording of that testimony under subdivision (u) shall accompany that offer with a stenographic transcript prepared from that recording.

(3) In lieu of participating in the oral examination, parties may transmit written questions in a sealed envelope to the party taking the deposition for delivery to the deposition officer, who shall unseal the envelope and propound them to the deponent after the oral examination has been completed.

(m) (1) The protection of information from discovery on the ground that it is privileged or that it is protected work product under Section 2018 is waived unless a specific objection to its disclosure is timely made during the deposition.

(2) Errors and irregularities of any kind occurring at the oral examination that might be cured if promptly presented are waived unless a specific objection to them is timely made during the deposition. These errors and irregularities include, but are not limited to, those relating to the manner of taking the deposition, to the oath or affirmation administered, to the conduct of a party, attorney, deponent, or deposition officer, or to the form of any question or answer. Unless the objecting party demands that the taking of the deposition be suspended to permit a motion for a protective order under subdivision (n), the deposition shall proceed subject to the objection.

(3) Objections to the competency of the deponent, or to the relevancy, materiality, or admissibility at trial of the testimony or of the materials produced are unnecessary and are not waived by failure to make them before or during the deposition.

(4) If a deponent fails to answer any question or to produce any document or tangible thing under the deponent's control that is specified in the deposition notice or a deposition subpoena, the party seeking that answer or production may adjourn the deposition or complete the examination on other matters without waiving the right at a later time to move for an order compelling that answer or production under subdivision (o).

(n) On demand of any party or the deponent, the deposition officer shall suspend the taking of testimony to enable that party or deponent to move for a protective order on the ground that the

examination is being conducted in bad faith or in a manner that unreasonably annoys, embarrasses, or oppresses that deponent or party. This motion shall be accompanied by a declaration stating facts showing a reasonable and good faith attempt at an informal resolution of each issue presented by the motion. The court, for good cause shown, may terminate the examination or may limit the scope and manner of taking the deposition as provided in subdivision (i). If the order terminates the examination, the deposition shall not thereafter be resumed, except on order of the court.

The court shall impose a monetary sanction under Section 2023 against any party, person, or attorney who unsuccessfully makes or opposes a motion for this protective order, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

(o) If a deponent fails to answer any question or to produce any document or tangible thing under the deponent's control that is specified in the deposition notice or a deposition subpoena, the party seeking discovery may move the court for an order compelling that answer or production. This motion shall be made no later than 60 days after the completion of the record of the deposition, and shall be accompanied by a declaration stating facts showing a reasonable and good faith attempt at an informal resolution of each issue presented by the motion. Notice of this motion shall be given to all parties, and to the deponent either orally at the examination, or by subsequent service in writing. If the notice of the motion is given orally, the deposition officer shall direct the deponent to attend a session of the court at the time specified in the notice. Not less than five days prior to the hearing on this motion, the moving party shall lodge with the court a certified copy of any parts of the stenographic transcript of the deposition that are relevant to the motion. If a deposition is recorded by audio tape or video tape, the moving party is required to lodge a certified copy of a transcript of any parts of the deposition that are relevant to the motion. If the court determines that the answer or production sought is subject to discovery, it shall order that the answer be given or the production be made on the resumption of the deposition.

The court shall impose a monetary sanction under Section 2023 against any party, person, or attorney who unsuccessfully makes or opposes a motion to compel answer or production, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

If a deponent fails to obey an order entered under this subdivision, the failure may be considered a contempt of court. In addition, if the disobedient deponent is a party to the action or an officer, director, managing agent, or employee of a party, the court may make those orders that are just against the disobedient party, or against the party with whom the disobedient deponent is affiliated, including the imposition of an issue sanction, an evidence sanction, or a terminating sanction under Section 2023. In lieu of or in addition to

this sanction, the court may impose a monetary sanction under Section 2023 against that party deponent or against any party with whom the deponent is affiliated.

(p) Unless the parties agree otherwise, the testimony at any deposition recorded by stenographic means shall be transcribed. The party noticing the deposition shall bear the cost of that transcription, unless the court, on motion and for good cause shown, orders that the cost be borne or shared by another party. Any other party, at that party's expense, may obtain a copy of the transcript. At the request of any other party to the action, including a party who did not attend the taking of the deposition testimony, any party who records or causes the recording of that testimony by means of audio tape or video tape shall promptly (1) permit that other party to hear the audio tape or to view the video tape, and (2) furnish a copy of the audio tape or video tape to that other party on receipt of payment of the reasonable cost of making that copy of the tape.

If the testimony at the deposition is recorded both stenographically, and by audio tape or video tape, the stenographic transcript is the official record of that testimony for the purpose of the trial and any subsequent hearing or appeal.

(q) (1) If the deposition testimony is stenographically recorded, the deposition officer shall send written notice to the deponent and to all parties attending the deposition that the original transcript of the testimony is available for reading and signing, unless the deponent and all these parties agree on the record to waive the reading and signing of the transcript of the testimony. For 30 days following this notice the deponent, either in person or by a signed letter to the deposition officer, may change the form or the substance of the answer to any question, and may either approve the transcript of the deposition by signing it, or refuse to approve the transcript by not signing it. For good cause shown the court may shorten this time.

The deposition officer shall indicate on the original any action taken by the deponent, or the failure of the deponent to contact the officer within the allotted period. When a deponent fails to contact the officer within the allotted period, or expressly disapproves the accuracy of the transcript by refusing to sign it, the deposition shall be given the same effect as though signed. However, on a seasonable motion to suppress the deposition, accompanied by a declaration stating facts showing a reasonable and good faith attempt at an informal resolution of each issue presented by the motion, the court may determine that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

The court shall impose a monetary sanction under Section 2023 against any party, person, or attorney who unsuccessfully makes or opposes a motion to suppress a deposition, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

(2) If there is no stenographic transcription of the deposition, the deposition officer shall send written notice to the deponent and to

all parties attending the deposition that the recording is available for review, unless the deponent and all these parties agree on the record to waive the hearing or viewing of an audio tape or video tape recording of the testimony. For 30 days following this notice the deponent, either in person or by signed letter to the deposition officer, may change the substance of the answer to any question.

The deposition officer shall set forth in a writing to accompany the recording any changes made by the deponent, as well as either the deponent's signature identifying the deposition as his or her own, or a statement of the deponent's failure to supply the signature, or to contact the officer within the allotted period. When a deponent fails to contact the officer within the allotted period, or expressly refuses by a signature to identify the deposition as his or her own, the deposition shall be given the same effect as though signed. However, on a seasonable motion to suppress the deposition, accompanied by a declaration stating facts showing a reasonable and good faith attempt at an informal resolution of each issue presented by the motion, the court may determine that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

The court shall impose a monetary sanction under Section 2023 against any party, person, or attorney who unsuccessfully makes or opposes a motion to suppress a deposition, unless it finds that the one subject to the sanction acted with substantial justification or that other circumstances make the imposition of the sanction unjust.

(r) The deposition officer shall certify on the transcript of the deposition, or in the writing accompanying an audio taped or video taped deposition as described in paragraph (2) of subdivision (q), that the deponent was duly sworn and that the transcript or recording is a true record of the testimony given and of any changes made by the deponent.

(s) (1) The certified transcript of a deposition shall not be filed with the court. Instead, the deposition officer shall securely seal that transcript in an envelope or package endorsed with the title of the action and marked: "Deposition of (here insert name of deponent)", and shall promptly transmit it to the attorney for the party who noticed the deposition. This attorney shall store it under conditions that will protect it against loss, destruction, or tampering.

The attorney to whom the transcript of a deposition is transmitted shall retain custody of it until six months after final disposition of the action. At that time, the transcript may be destroyed, unless the court, on motion of any party and for good cause shown, orders that the transcript be preserved for a longer period.

(2) An audio tape or video tape record of deposition testimony, including a certified tape made by an operator qualified under subparagraph (B) of paragraph (2) of subdivision (*l*), shall not be filed with the court. Instead, the operator shall retain custody of that record and shall store it under conditions that will protect it against loss, destruction, or tampering, and preserve as far as practicable the quality of the tape and the integrity of the testimony and images it

contains.

At the request of any party to the action, including a party who did not attend the taking of the deposition testimony, or at the request of the deponent, that operator shall promptly (A) permit the one making the request to hear or to view the tape on receipt of payment of a reasonable charge for providing the facilities for hearing or viewing the tape, and (B) furnish a copy of the audio tape or the video tape recording to the one making the request on receipt of payment of the reasonable cost of making that copy of the tape.

The attorney or operator who has custody of an audio tape or video tape record of deposition testimony shall retain custody of it until six months after final disposition of the action. At that time, the audio tape or video tape may be destroyed or erased, unless the court, on motion of any party and for good cause shown, orders that the tape be preserved for a longer period.

(t) Once any party has taken the deposition of any natural person, including that of a party to the action, neither the party who gave, nor any other party who received, notice of the deposition may take a subsequent deposition of that deponent. However, for good cause shown, the court may grant leave to take a subsequent deposition, and the parties, with the consent of any deponent who is not a party, may stipulate that a subsequent deposition be taken. This subdivision does not preclude taking one subsequent deposition of a natural person who has previously been examined as a result of that person's designation to testify on behalf of an organization under subdivision (d).

(u) At the trial or any other hearing in the action, any part or all of a deposition may be used against any party who was present or represented at the taking of the deposition, or who had due notice of the deposition and did not serve a valid objection under subdivision (g), so far as admissible under the rules of evidence applied as though the deponent were then present and testifying as a witness, in accordance with the following provisions:

(1) Any party may use a deposition for the purpose of contradicting or impeaching the testimony of the deponent as a witness, or for any other purpose permitted by the Evidence Code.

(2) An adverse party may use for any purpose, a deposition of a party to the action, or of anyone who at the time of taking the deposition was an officer, director, managing agent, employee, agent, or designee under subdivision (d) of a party. It is not ground for objection to the use of a deposition of a party under this paragraph by an adverse party that the deponent is available to testify, has testified, or will testify at the trial or other hearing.

(3) Any party may use for any purpose the deposition of any person or organization, including that of any party to the action, if the court finds any of the following:

(A) The deponent resides more than 150 miles from the place of the trial or other hearing.

(B) The deponent, without the procurement or wrongdoing of

the proponent of the deposition for the purpose of preventing testimony in open court, is any of the following:

(i) Exempted or precluded on the ground of privilege from testifying concerning the matter to which the deponent's testimony is relevant.

(ii) Disqualified from testifying.

(iii) Dead or unable to attend or testify because of existing physical or mental illness or infirmity.

(iv) Absent from the trial or other hearing and the court is unable to compel the deponent's attendance by its process.

(v) Absent from the trial or other hearing and the proponent of the deposition has exercised reasonable diligence but has been unable to procure the deponent's attendance by the court's process.

(C) Exceptional circumstances exist that make it desirable to allow the use of any deposition in the interests of justice and with due regard to the importance of presenting the testimony of witnesses orally in open court.

(4) Any party may use a video tape deposition of a treating or consulting physician or of any expert witness even though the deponent is available to testify if the deposition notice under subdivision (d) reserved the right to use the deposition at trial, and if that party has complied with subparagraph (I) of paragraph (2) of subdivision (*l*).

(5) Subject to the requirements of this section, a party may offer in evidence all or any part of a deposition, and if the party introduces only part of the deposition, any party may introduce any other parts.

(6) Substitution of parties does not affect the right to use depositions previously taken.

(7) When an action has been brought in any court of the United States or of any state, and another action involving the same subject matter is subsequently brought between the same parties or their representatives or successors in interest, all depositions lawfully taken and duly filed in the initial action may be used in the subsequent action as if originally taken in that subsequent action. A deposition previously taken may also be used as permitted by the Evidence Code.

SEC. 21. Article 4 (commencing with Section 39170) of Chapter 2 of Part 23 of the Education Code is repealed.

SEC. 22. Article 4 (commencing with Section 39180) is added to Chapter 2 of Part 23 of the Education Code, to read:

Article 4. Building Schoolhouses

39180. The governing board of any school district may, and when directed by a vote of the district shall, build and maintain a schoolhouse.

39181. In bidding on contracts to be made pursuant to Section 39246, bidders may include in their bids abstractions of their quotations indicating the pricing structure used to compute the

annual lease or rental payments for the sole purpose of identifying that portion of each annual lease or rental payment which may represent tax exemption reimbursement to the vendor, lessor or to their assignees.

39182. The governing board of any school district, whenever in its judgment it is desirable to do so, may establish additional schools in the district.

39183. The governing board of any school district may purchase property and construct and equip buildings in an area after the legal action has been taken that will result in annexation of the area to the school district, but before the annexation has become effective.

SEC. 23. Section 42923 of the Education Code is amended to read:

42923. (a) Each school district providing foster children services pursuant to this chapter shall, by January 1 of each even-numbered year, report to the Superintendent of Public Instruction any information as may be required by the Superintendent of Public Instruction for the purpose of subdivision (b).

(b) The Superintendent of Public Instruction shall, by February 15 of each even-numbered year, report to the Legislature and the Governor on the foster children services provided by school districts. The report shall be prepared with the advice and assistance of providers of foster children services and shall include, but not be limited to, the following:

(1) Recommendations regarding the continuation of services.

(2) Recommendations regarding the effectiveness of the services, unless program effectiveness is assessed in any other report covering the same time period.

(3) Recommendations regarding the broadening of the application of those services.

(4) Information which shall be sufficient to determine, at a minimum, whether these services have resulted in a major quantitative improvement or deterioration in any of the following indicators:

(A) Pupil academic achievement.

(B) The incidence of pupil discipline problems or juvenile delinquency.

(C) Pupil dropout rates or truancy rates.

(5) A discussion of the meaning and implications of the indicators contained in paragraph (4).

SEC. 24. Section 51770 of the Education Code, as enacted by Chapter 1010 of the Statutes of 1976, is amended and renumbered to read:

The state department may adopt these regulations on an emergency basis pursuant to Article 5 (commencing with Section 11346) of Chapter 3.5 of Part 1 of Division 3 of Title 2 of the Government Code, based on the finding by the state department that these regulations are necessary to assure that counties receive funding for health services on a timely basis in order to promote andprotect the health and safety of the people of this state.

SEC. 81. Section 1171 of the Health and Safety Code, as added by Chapter 1080 of the Statutes of 1985, is amended and renumbered to read:

1169.13. This article shall remain in effect only until June 30, 1990, and as of that date is repealed, unless a later enacted statute, which is chaptered before that date, deletes or extends that date.

SEC. 84. Section 1268.5 of the Health and Safety Code is amended to read:

1268.5. Notwithstanding the provisions of Section 1268 requiring full compliance with this chapter and the rules and regulations of the state department as a condition to the issuance of a license or special permit, the state department may issue a provisional license to a health facility except for a health facility defined in subdivisions (a) and (b) of Section 1250, if:

(a) The facility and the applicant for licensure substantially meet the standards specified by this chapter and regulations adopted pursuant to this chapter.

(b) No violation of this chapter or regulations adopted pursuant to this chapter exists in the facility which jeopardizes the health or safety of patients.

(c) The applicant has adopted a plan for correction of any existing violations which is satisfactory to the state department.

A provisional license issued under this section shall expire not later than six months after the date of issuance, or at an earlier time as determined by the state department at the time of issuance, and may not be renewed.

The department shall not apply less stringent criteria when granting a provisional license pursuant to this section than it applies

when granting a permanent license.

It is the intent of the Legislature in enacting this section to additionally provide for continuity of reimbursement under the Medi-Cal Act, Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code, whenever ownership of a skilled nursing facility or intermediate care facility is transferred.

SEC. 85. Section 1336.2 of the Health and Safety Code is amended to read:

1336.2. (a) When patients are transferred due to any change in the status of the license or operation of a facility, including voluntary or involuntary termination of a facility's Medi-Cal or Medicare certification, the facility shall take reasonable steps to transfer affected patients safely and minimize possible transfer trauma by, at a minimum, doing all of the following:

(1) Medically assess, prior to transfer, the patient's condition and susceptibility to adverse health consequences, including psychosocial effects, in the event of transfer. The patient's physician and surgeon, if available, shall undertake this assessment. The assessment shall provide recommendations, including counseling and followup visits, for preventing or ameliorating potential adverse health consequences in the event of transfer.

(2) Provide, in accordance with these assessments, counseling, and other recommended services, prior to transfer, to any affected patient who may suffer adverse health consequences due to transfer.

(3) Evaluate, prior to transfer, the relocation needs of the patient and the patient's family and determine the most appropriate and available type of future care and services for the patient. The health facility shall discuss the evaluation and medical assessment with the patient or the patient's guardian, agent, or responsible party and make the evaluation and assessment part of the medical records for transfer.

(4) Inform, at least 30 days in advance of the transfer, the patient or patient's guardian, agent, or responsible party of alternative facilities that are available and adequate to meet patient and family needs.

(5) Arrange for appropriate, future medical care and services, unless the patient or patient's guardian has otherwise made these arrangements. This requirement does not obligate a facility to pay for future care and services.

(b) The facility shall provide an appropriate team of professional staff to perform the services required in subdivision (a).

(c) The facility shall also give written notice to affected patients or their guardians, agents, or responsible parties advising them of the requirements in subdivision (a) at least 30 days in advance of transfer. If a facility is required to give written notice pursuant to Section 1336, then the notice shall advise the affected patient or the patient's guardian, agent, or responsible party of the requirements in subdivision (a). If the transfer is made pursuant to subdivision (f),

the notice shall include notification to the patient that the transfer plan is available to the patient or patient's representative free of charge upon request.

(d) In the event of a temporary suspension of a facility's license pursuant to Section 1296, the 30-day notice requirement in subdivision (c) shall not apply, but the facility shall provide the relocation services required in subdivision (a) unless the state department provides the services pursuant to subdivision (e).

(e) The state department may provide, or arrange for the provision of, necessary relocation services at a facility, including medical assessments, counseling, and placement of patients, if the state department determines that these services are needed promptly to prevent adverse health consequences to patients, and the facility refuses, or does not have adequate staffing, to provide the services. In these cases, the facility shall reimburse the state department for the cost of providing the relocation services. If a facility's refusal to provide the relocation services required in subdivision (a) endangers the health and safety of patients to be transferred, then the state department may also request that the Attorney General's office or the local district attorney's office seek injunctive relief and damages in the same manner as provided for in Chapter 5 (commencing with Section 17200) of Part 2 of Division 7 of the Business and Professions Code.

(f) If 10 or more patients are likely to be transferred due to any voluntary change in the status of the license or operation of a facility, including voluntary termination of a facility's Medi-Cal or Medicare certification, the facility shall submit a proposed relocation plan for the affected patients to the state department for comment, if any, at least 45 days prior to the transfer of any patient. The plan shall provide for implementation of the relocation services in subdivision (a) and shall describe the availability of beds in the area for patients to be transferred, the proposed discharge process, and the staffing available to assist in the transfers. The facility shall submit its final relocation plan to the local ombudsperson, and if different from the proposed plan, to the state department, at least 30 days prior to the transfer of any patient.

SEC. 86. Section 1343 of the Health and Safety Code is amended to read:

1343. (a) This chapter shall apply to health care service plans and specialized health care service plan contracts as defined in subdivisions (f) and (n) of Section 1345.

(b) The commissioner may by the adoption of rules deemed necessary and appropriate, either unconditionally or upon specified terms and conditions or for specified periods, exempt from the provisions of this chapter any class of persons or plan contracts if the commissioner finds the action to be in the public interest and not detrimental to the protection of subscribers, enrollees, or persons regulated under this chapter, and that the regulation of the persons or plan contracts is not essential to the purposes of this chapter.

(c) The commissioner, upon request of the Director of Health Services, shall exempt from this chapter any county-operated pilot program contracting with the State Department of Health Services pursuant to Article 7 (commencing with Section 14490) of Chapter 8 of Part 3 of Division 9 of the Welfare and Institutions Code. The commissioner may exempt non-county-operated pilot programs upon request of the Director of Health Services. Those exemptions may be subject to conditions the Director of Health Services deems appropriate.

(d) This chapter shall not apply to:

(1) A person organized and operating pursuant to a certificate issued by the Insurance Commissioner unless the entity is directly providing the health care service through those entity-owned or contracting health facilities and providers, in which case this chapter shall apply to the insurer's plan and to the insurer.

(2) A plan directly operated by a bona fide public or private institution of higher learning which directly provides health care services only to its students, faculty, staff, administration, and their respective dependents.

(3) A nonprofit corporation formed under Chapter 11a (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code.

Every health care service plan, except a specialized health care service plan, that covers hospital, medical, or surgical expenses on a group basis shall offer coverage for orthotic and prosthetic devices and services under the terms and conditions that may be agreed upon between the group subscriber and the plan. Every plan shall communicate the availability of that coverage to all group contract holders and to all prospective group contract holders with whom they are negotiating.

SEC. 88. Section 1437 of the Health and Safety Code is amended to read:

1437. If a health facility, or an applicant for a license has not been previously licensed pursuant to Chapter 2 (commencing with Section 1250), the state department may only provisionally license the facility as provided in this section. A provisional license to operate a health facility shall terminate six months from the date of

issuance. Within 30 days of the termination of a provisional license, the state department shall give the facility a full and complete inspection, and, if the facility meets all applicable requirements for licensure, a regular license shall be issued. If the health facility does not meet the requirements for licensure but has made substantial progress towards meeting the requirements, as determined by the state department, the initial provisional license shall be renewed for six months. If the state department determines that there has not been substantial progress towards meeting licensure requirements at the time of the first full inspection provided by this section, or, if the state department determines upon its inspection made within 30 days of the termination of a renewed provisional license that there is lack of full compliance with the requirements, no further license shall be issued.

If an applicant for a provisional license to operate a health facility has been denied provisional licensing by the state department, he or she may contest the denial by filing a statement of issues, as provided in Section 11504 of the Government Code, and the proceedings to review the denial shall be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

The department shall not apply less stringent criteria when granting a provisional license pursuant to this section than it applies when granting a permanent license.

SEC. 101. Division 2.3 (commencing with Section 1795) is added to the Health and Safety Code, to read:

DIVISION 2.3. PATIENT ACCESS TO HEALTH RECORDS

1795. The Legislature finds and declares that every person having ultimate responsibility for decisions respecting his or her own health care also possesses a concomitant right of access to complete information respecting his or her condition and care provided. Similarly, persons having responsibility for decisions respecting the health care of others should, in general, have access to information on the patient's condition and care. It is, therefore, the intent of the Legislature in enacting this division to establish procedures for providing access to health care records or summaries of those records by patients and by those persons having responsibility for decisions respecting the health care of others.

1795.10. As used in this division:

(a) "Health care provider" means any of the following:

(1) A health facility licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2.

(3) A home health agency licensed pursuant to Chapter 8 (commencing with Section 1725) of Division 2.

(4) A physician and surgeon licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code or pursuant to the Osteopathic Act.

(10) A clinical social worker licensed pursuant to Chapter 14 (commencing with Section 4990) of Division 2 of the Business and Professions Code.

(b) "Mental health records" means patient records, or discrete portions thereof, specifically relating to evaluation or treatment of a mental disorder. "Mental health records" includes, but is not limited to, all alcohol and drug abuse records.

(c) "Patient" means a patient or former patient of a health care provider.

(d) "Patient records" means records in any form or medium maintained by, or in the custody or control of, a health care provider relating to the health history, diagnosis, or condition of a patient, or relating to treatment provided or proposed to be provided to the patient. "Patient records" includes only records pertaining to the patient requesting the records or whose representative requests the records. "Patient records" does not include information given in confidence to a health care provider by a person other than another health care provider or the patient, and that material may be removed from any records prior to inspection or copying under Section 1795.12 or 1795.14. "Patient records" does not include information contained in aggregate form, such as indices, registers, or logs.

(e) "Patient's representative" or "representative" means a parent or the guardian of a minor who is a patient, or the guardian or conservator of the person of an adult patient.

(f) "Alcohol and drug abuse records" means patient records, or discrete portions thereof, specifically relating to evaluation and treatment of alcoholism or drug abuse.

1795.12. (a) Notwithstanding Section 5328 of the Welfare and Institutions Code, and except as provided in Sections 1795.14 and 1795.16, any adult patient of a health care provider, any minor patient authorized by law to consent to medical treatment, and any

patient representative shall be entitled to inspect patient records upon presenting to the health care provider a written request for those records and upon payment of reasonable clerical costs incurred in locating and making the records available. However, a patient who is a minor shall be entitled to inspect patient records pertaining only to health care of a type for which the minor is lawfully authorized to consent. A health care provider shall permit this inspection during business hours within five working days after receipt of the written request. The inspection shall be conducted by the patient or patient's representative requesting the inspection, who may be accompanied by one other person of his or her choosing.

(b) Additionally, any patient or patient's representative shall be entitled to copies of all or any portion of the patient records which he or she has a right to inspect, upon presenting a written request to the health care provider specifying the records to be copied, together with a fee to defray the cost of copying, which shall not exceed twenty-five cents ($0.25) per page or fifty cents ($0.50) per page for records that are copied from microfilm and any additional reasonable clerical costs incurred in making the records available. The health care provider shall ensure that the copies are transmitted within 15 days after receiving the written request.

(c) Copies of X-rays or tracings derived from electrocardiography, electroencephalography, or electromyography need not be provided to the patient or patient's representative under this section, if the original X-rays or tracings are transmitted to another health care provider upon written request of the patient or patient's representative and within 15 days after receipt of the request. The request shall specify the name and address of the health care provider to whom the records are to be delivered. All reasonable costs, not exceeding actual costs, incurred by a health care provider in providing copies pursuant to this subdivision may be charged to the patient or representative requesting the copies.

(d) This section shall not be construed to preclude a health care provider from requiring reasonable verification of identity prior to permitting inspection or copying of patient records, provided this requirement is not used oppressively or discriminatorily to frustrate or delay compliance with this section. Nothing in this division shall be deemed to supersede any rights which a patient or representative might otherwise have or exercise under Section 1158 of the Evidence Code or any other provision of law. Nothing in this division shall require a health care provider to retain records longer than required by applicable statutes or administrative regulations.

(e) This division shall not be construed to render a health care provider liable for the quality of his or her records or the copies provided in excess of existing law and regulations with respect to the quality of medical records. A health care provider shall not be liable to the patient or any other person for any consequences which result from disclosure of patient records as required by this division. A health care provider shall not discriminate against classes or

categories of providers in the transmittal of X-rays or other patient records, or copies of these X-rays or records, to other providers as authorized by this section.

Every health care provider shall adopt policies and establish procedures for the uniform transmittal of X-rays and other patient records that effectively prevent the discrimination described in this subdivision. A health care provider may establish reasonable conditions, including a reasonable deposit fee, to ensure the return of original X-rays transmitted to another health care provider, provided the conditions do not discriminate on the basis of, or in a manner related to, the license of the provider to which the X-rays are transmitted.

(f) Any health care provider described in paragraphs (4) to (10), inclusive, of subdivision (a) of Section 1795.10 who willfully violates this division is guilty of unprofessional conduct. Any health care provider described in paragraphs (1) to (3), inclusive, of subdivision (a) of Section 1795.10 that willfully violates this division is guilty of an infraction punishable by a fine of not more than one hundred dollars ($100). The state agency, board or commission which issued the health care provider's professional or institutional license shall consider a violation as grounds for disciplinary action with respect to the licensure, including suspension or revocation of the license or certificate.

1795.14. (a) The representative of a minor shall not be entitled to inspect or obtain copies of the minor's patient records in either of the following circumstances:

(1) With respect to which the minor has a right of inspection under Section 1795.12.

(2) Where the health care provider determines that access to the patient records requested by the representative would have a detrimental effect on the provider's professional relationship with the minor patient or the minor's physical safety or psychological well being. The decision of the health care provider as to whether or not a minor's records are available for inspection under this section shall not attach any liability to the provider, unless the decision is found to be in bad faith.

(b) When a health care provider determines there is a substantial risk of significant adverse or detrimental consequences to a patient in seeing or receiving a copy of mental health records requested by the patient, the provider may decline to permit inspection or provide copies of the records to the patient, subject to the following conditions:

(1) The health care provider shall make a written record, to be included with the mental health records requested, noting the date of the request and explaining the health care provider's reason for refusing to permit inspection or provide copies of the records, including a description of the specific adverse or detrimental consequences to the patient which the provider anticipates would occur if inspection or copying were permitted.

(2) The health care provider shall permit inspection by, or provide copies of, the mental health records to a licensed physician and surgeon or licensed psychologist designated by request of the patient.

(3) The health care provider shall inform the patient of the provider's refusal to permit him or her to inspect or obtain copies of the requested records, and inform the patient of the right to require the provider to permit inspection by, or provide copies to, a licensed physician and surgeon, licensed psychologist, or licensed clinical social worker designated by written authorization of the patient.

(4) The health care provider shall indicate in the mental health records of the patient whether the request was made under paragraph (2).

1795.16. Any patient or representative aggrieved by a violation of Section 1795.12 may, in addition to any other remedy provided by law, bring an action against the health care provider to enforce the obligations prescribed by Section 1795.12. Any judgment rendered in the action may, in the discretion of the court, include an award of costs and reasonable attorney fees to the prevailing party.

1795.18. (a) This division shall not require a health care provider to permit inspection or provide copies of alcohol and drug abuse records where, or in a manner, prohibited by Section 408 of the federal Drug Abuse Office and Treatment Act of 1972 (Public Law 92-255) or Section 333 of the federal Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970 (Public Law 91-616), or by regulations adopted pursuant to these federal laws. Alcohol and drug abuse records subject to these federal laws shall also be subject to this division, to the extent that these federal laws do not prohibit disclosure of the records. All other alcohol and drug abuse records shall be fully subject to this division.

(b) This division shall not require a health care provider to permit inspection or provide copies of records or portions of records where or in a manner prohibited by existing law respecting the confidentiality of information regarding communicable disease carriers.

1795.20. (a) A health care provider may prepare a summary of the record, according to the requirements of this section, for inspection and copying by a patient. If the health care provider chooses to prepare a summary of the record rather than allowing access to the entire record, he or she shall make the summary of the record available to the patient within 10 working days from the date of the patient's request. However, if more time is needed because the record is of extraordinary length or because the patient was discharged from a licensed health facility within the last 10 days, the health care provider shall notify the patient of this fact and the date that the summary will be completed, but in no case shall more than 30 days elapse between the request by the patient and the delivery of the summary. In preparing the summary of the record the health care provider shall not be obligated to include information which is

not contained in the original record.

(b) A health care provider may confer with the patient in an attempt to clarify the patient's purpose and goal in obtaining his or her record. If as a consequence the patient requests information about only certain injuries, illnesses, or episodes, this subdivision shall not require the provider to prepare the summary required by this subdivision for other than the injuries, illnesses, or episodes so requested by the patient. The summary shall contain for each injury, illness, or episode any information included in the record relative to the following:

(1) Chief complaint or complaints including pertinent history.

(2) Findings from consultations and referrals to other health care providers.

(3) Diagnosis, where determined.

(4) Treatment plan and regimen including medications prescribed.

(5) Progress of the treatment.

(6) Prognosis including significant continuing problems or conditions.

(7) Pertinent reports of diagnostic procedures and tests and all discharge summaries.

(8) Objective findings from the most recent physical examination, such as blood pressure, weight, and actual values from routine laboratory tests.

(c) This section shall not be construed to require any medical records to be written or maintained in any manner not otherwise required by law.

(d) The summary shall contain a list of all current medications prescribed, including dosage, and any sensitivities or allergies to medications recorded by the provider.

(e) Subdivision (c) of Section 1795.12 shall be applicable whether or not the health care provider elects to prepare a summary of the record.

(f) The health care provider may charge no more than a reasonable fee based on actual time and cost for the preparation of the summary. The cost shall be based on a computation of the actual time spent preparing the summary for availability to the patient or the patient's representative. It is the intent of the Legislature that summaries of the records be made available at the lowest possible cost to the patient.

1795.22. Except as otherwise provided by law, nothing in this division shall be construed to grant greater access to individual patient records by any person, firm, association, organization, partnership, business trust, company, corporation, or municipal or other public corporation, or government officer or agency. Therefore, this division does not do any of the following:

(a) Relieve employers of the requirements of the Confidentiality of Medical Information Act (Part 2.6 (commencing with Section 56) of Division 1 of the Civil Code).

(b) Relieve any person subject to the Insurance Information and Privacy Protection Act (Article 6.6 (commencing with Section 791) of Chapter 1 of Part 2 of Division 1 of the Insurance Code) from the requirements of that act.

(c) Relieve government agencies of the requirements of the Information Practices Act of 1977 (Title 1.8 (commencing with Section 1798) of Part 4 of Division 3 of the Civil Code).

1795.24. The Information Practices Act of 1977 (Title 1.8 (commencing with Section 1798) of Part 4 of Division 3 of the Civil Code) shall prevail over this division with respect to records maintained by a state agency.

1795.26. (a) Providers of health services which are licensed pursuant to Sections 1205, 1253, 1575 and 1726 have an obligation, if the licensee ceases operation, to preserve records for a minimum of seven years following discharge of the patient, except that the records of unemancipated minors shall be kept at least one year after the minor has reached the age of 18 years, and in any case, not less than seven years.

(b) The department or any person injured as a result of the licensee's abandonment of health records may bring an action in a proper court for the amount of damage suffered as a result thereof. In the event that the licensee is a corporation or partnership which is dissolved, the person injured may take action against that corporation's or partnership's principle officers of record at the time of dissolution.

(c) Abandoned means violating subdivision (a) and leaving patients treated by the licensee without access to medical information to which they are entitled pursuant to Section 1795.12.

SEC. 102. A heading is added immediately preceding Section 4636 as Article 3.5 (commencing with Section 4636) of Chapter 1 of Part 3 of Division 5 of the Health and Safety Code, to read:

Article 3.5. Performance of Work

SEC. 103. Section 11811.5 of the Health and Safety Code, as added by Chapter 1261 of the Statutes of 1987, is amended and renumbered to read:

11812.6. In addition to any other services authorized under this chapter, the department shall urge the county, in the county alcohol program plan, to develop within existing resources specific policies and procedures, no later than January 1, 1988, to address the unique treatment problems presented by persons who are both mentally disordered and chemically dependent. If contained in the county alcohol program plan, priority shall be given to developing policies and procedures that relate to the diagnosis and treatment of homeless persons who are mentally disordered and chemically dependent.

The director shall consult with the Director of Mental Health in developing guidelines for county mental health and alcohol and drug

treatment programs in order to comply with this section.

SEC. 104. A heading is added immediately preceding Section 11960 as Article 1 (commencing with Section 11960) of Chapter 2 of Part 3 of Division 10.5 of the Health and Safety Code, to read:

Article 1. Coordination of Services

SEC. 105. Section 25122.55 of the Health and Safety Code is amended and renumbered to read:

25120.55. (a) Used or spent etchants, stripping solutions, and plating solutions are spent, contaminated, or used material for purposes of this chapter.

(b) Used or spent etchants, stripping solutions, and plating solutions which meet a characteristic established by or are listed by the Environmental Protection Agency or the department as a hazardous waste and are transported from the site where they are produced, and transferred to an unrelated or unaffiliated person for any purpose, are subject to the requirements of this chapter which apply to hazardous waste unless the department waives any specific provision of this chapter pursuant to Section 25143. Nothing in this section exempts any used or spent etchant, stripping solution, or plating solution from any other requirement of this chapter.

SEC. 106. Section 25158 of the Health and Safety Code is amended to read:

25158. (a) Except as provided in subdivision (f), any person generating hazardous waste, or owning or operating a facility for the treatment, storage, or disposal of hazardous waste, shall file with the director, or the director's designee, on a form provided by the director, or the director's designee, a hazardous waste notification statement on or before January 1, 1988. An amended statement shall be filed with the department whenever there has been a substantial change in the information provided on the previously filed notification statement. A person shall not generate, treat, store, or dispose of hazardous waste after January 1, 1988, unless the person files a notification statement with the director pursuant to this section, unless exempted pursuant to subdivision (f).

(b) A hazardous waste notification statement shall include all of the following information:

(1) The name and address of the person owning the facility or conducting the activity specified in subdivision (a).

(2) The address and location of the activity or facility, including the city and county.

(3) The name and 24-hour phone number of the contact person in the event of an emergency involving the facility or activity.

(4) The quantities of hazardous waste annually handled pursuant to the activity or at the facility.

(5) A description of the hazardous waste activity being conducted, such as generation, treatment, storage, or disposal.

(6) A general description of the hazardous waste being handled.

(c) The department shall prepare and distribute the hazardous waste notification statement forms on or before July 1, 1987. The form shall include a statement which clearly states who is required to file the form. The form shall also include a statement that the form is not a substitute for the federal notification required by the Environmental Protection Agency pursuant to subsection (a) of Section 6930 of Title 42 of the United States Code.

(d) Any person who is required to submit a hazardous waste notification statement and fee to the director pursuant to subdivision (a) and who fails to do so is subject to a civil penalty of not less than fifty dollars ($50) and not more than five hundred dollars ($500) for each day after January 1, 1988, for which the department does not receive a statement. Any person who knowingly submits false information to the department is subject to a civil penalty of not less than two thousand dollars ($2,000) and not more than twenty thousand dollars ($20,000) for each day the false information goes uncorrected.

(e) The director shall compile and organize the statements by the city and county within which each activity and facility are located, and shall transmit the compiled statements to the appropriate regional offices, the California regional water quality control boards, and county health officers on or before July 1, 1988.

(f) Subdivision (a) does not apply to any of the following:

(1) A person who has filed notification with the Administrator of the Environmental Protection Agency pursuant to subsection (a) of Section 6930 of Title 42 of the United States Code.

(2) A person who only produces household waste.

(3) Any person who owns property on which is taking place a cleanup of, or other removal of or remedial action to, a hazardous waste site or who is engaged in any of these activities on a hazardous waste site.

SEC. 107. Article 13 (commencing with Section 25249.100) is added to Chapter 6.5 of Division 20 of the Health and Safety Code, to read:

Article 13. Management of Used Oil

25249.100. (a) The Legislature finds that almost 100 million gallons of used oil is generated each year in the state; that this oil is a valuable petroleum resource which can be recycled; and that, in spite of this potential for recycling, significant quantities of used oil are wastefully disposed of or improperly used by means which pollute the water, land, and air, and endanger the public health, safety, and welfare.

(b) The Legislature also finds that readily available technologies exist to recycle used oil into useful products and that used oil should be collected and recycled, to the maximum extent possible, by means which are economically feasible and environmentally sound, in order to conserve irreplaceable petroleum resources, to protect the

environment, and to protect public health, safety, and welfare.

25249.110. As used in this article, the following terms have the following meanings:

(a) "Used oil" means any of the following:

(1) Any oil that has been refined from crude oil, and has been used, and, as a result of use, has been contaminated with physical or chemical impurities.

(2) Any oil that has been refined from crude oil and, as a consequence of extended storage, spillage, or contamination with nonhazardous impurities such as dirt and water, is no longer useful to the original purchaser.

(3) Spent lubricating fluids which have been removed from an engine crankcase, transmission, gearbox, or differential of an automobile, bus, truck, vessel, plane, heavy equipment, or machinery powered by an internal combustion engine.

(4) Spent industrial oils, including compressor, turbine, and bearing oil, hydraulic oil, metal-working oil, refrigeration oil, and railroad drainings.

(5) Contaminated fuel oil with a flash point greater than 100°F.

"Used oil" does not include oil which has a flash point below 100°F or which has been intentionally mixed with hazardous waste, other than minimal amounts of vehicle fuel. "Used oil" also does not include oil which contains polychlorinated biphenyls (PCBs) at a concentration of 5 ppm or greater.

(b) "Board" means the California Waste Management Board.

(c) "Recycled oil" means any oil, produced from used oil, which has been prepared for reuse and which achieves minimum standards of purity, in liquid form, as established by the department. The following standards of purity are in effect unless the department, by regulation, establishes more stringent standards:

(1) Flash point: minimum standards set by the American Society for Testing and Materials for the recycled products.

(2) Lead: 100 ppm or less prior to January 1, 1988; 50 ppm or less on and after January 1, 1988.

(3) Arsenic: 5 ppm or less.

(4) Chromium: 10 ppm or less.

(5) Cadmium: 2 ppm or less.

(6) Chlorides: 3,000 ppm or less.

(7) Polychlorinated byphenyls (PCBs): 5 ppm or less.

Compliance with these standards shall be determined in accordance with the procedures in Article 11 (commencing with Section 66693) of Chapter 30 of Division 4 of Title 22 of the California Administrative Code.

(d) The standards set in subdivision (c) include the only concentrations allowed above the criteria adopted pursuant to Section 25141.

(e) Used oil which meets the standards set in subdivision (c) and the criteria adopted pursuant to Section 25141 for constituents other than those listed in subdivision (c) is not regulated by the

department. Any person who generates used oil and who claims that the oil meets those standards and criteria, shall notify the department of its claim and shall comply with the testing and recordkeeping requirements of Section 25249.290 prior to its reuse. In any action to enforce this article, the burden is on the generator and user of the used oil to prove that the oil met those standards and criteria.

25249.130. Any virgin oil product or partially refined product, which has not been previously used, which has become contaminated with nonhazardous impurities such as dirt or water, and which has been returned to bulk storage by the product's manufacturer, transporter, or wholesaler for gravity separation of contaminants, is exempt from this article. Any petroleum product which becomes contaminated with any other petroleum product during refining, transportation by pipeline, or storage and which remains usable as a refinery feed stock or as a refinery fuel is exempt from this article.

25249.140. Used oil regulated by the department shall be managed as a hazardous waste in accordance with the requirements of this chapter until it has been recycled. Used oil which is not recycled shall be disposed of, or transported out of the state, as a hazardous waste in accordance with this chapter.

25249.150. (a) Disposal of used oil by discharge to sewers, drainage systems, surface or groundwaters, watercourses, or marine waters; by incineration or burning as fuel; or by deposit on land, is prohibited, unless authorized under other provisions of law.

(b) The use of used oil as a dust suppressant or weed control agent is prohibited.

25249.170. No person who generates, receives, stores, transfers, transports, treats, or recycles used oil shall intentionally contaminate used oil or knowingly accept used oil which has been contaminated with other hazardous waste, other than minimal amounts of vehicle fuel.

25249.180. Used oil shall be manifested under either one of the following procedures:

(a) The procedures prescribed by Sections 25160 and 25161.

(b) The following modified manifesting procedure, which may be used only by a registered hazardous waste hauler and shall be used only with the consent of the generator:

(1) A separate manifest shall be completed by each vehicle driver, with respect to each transport vehicle operated by that driver for each date.

(2) An Environmental Protection Agency identification number is not required for an individual generator.

(3) The hauler shall complete both the generator's and the hauler's sections of the manifest using the hauler's name. The hauler's section shall be completed prior to commencing each day's used oil collections. The driver shall sign and date the generator's and hauler's sections of the manifest.

(4) The hauler's name, Environmental Protection Agency identification number, and terminal address shall be entered in the generator's name, address, and Environmental Protection Agency identification number spaces of the manifest.

(5) The hauler shall attach to the front of the manifest legible receipts for each quantity of used oil that is received from a generator. The receipts shall be used to determine the total volume of used oil in the vehicle. After the used oil is delivered, the receipts shall be affixed to the hauler's copy of the manifest. The hauler shall leave a copy of the receipt with the generator of the used oil. The generator shall retain each receipt for at least three years.

(6) All copies of each receipt shall contain all of the following information:

(A) The name, address, and telephone number of the generator, and the signature of the generator or the generator's representative.

(B) The date of the shipment.

(C) The state manifest number.

(D) The volume of the used oil received and its proper shipping description, including the hazardous class and identification number, if applicable.

(E) The address of the permitted facility to which the used oil will be transported.

(F) The hauler's name, address, and Environmental Protection Agency identification number.

(G) The driver's signature.

(7) The hauler shall enter the total volume of used oil transported on the manifest at the change of each date, change of driver, change of transport vehicle, or upon the last delivery of used oil to the designated facility. The total volume shall be the cumulative amount of used oil collected from the generators listed on the individual receipts.

(8) The hauler shall submit the generator copy of the manifest to the department within 30 days of each shipment.

(9) The hauler shall retain a copy of the manifest and all receipts for each manifest for three years.

(10) The hauler shall submit all copies of the manifest to the designated facility. A representative of the designated facility which receives the used oil shall sign and date the manifest, return two copies to the hauler, retain one copy, and send the original to the department within 30 days.

(11) All other manifesting requirements of Sections 25160 and 25161 shall be complied with unless specifically exempted under this subdivision.

25249.200. Every registered hazardous waste hauler who transports used oil shall report to the department the following information as part of the hauler's annual application for renewal of registration:

(a) The shipping descriptions of used oil transported during the preceding year.

(b) The volume of each type of used oil transported, identified by shipping description.

(c) The facilities to which the used oil was transported, identified by name, address, telephone number, and Environmental Protection Agency identification number.

25249.210. (a) Any person who receives used oil from consumers or other used oil generators, is exempt from hazardous waste facility permit requirements imposed pursuant to Article 9 (commencing with Section 25200) with respect to any location at which used oil is received if all of the following conditions are met:

(1) Each shipment of used oil received does not exceed 20 gallons, and the contents of any single container does not exceed five gallons.

(2) No other hazardous wastes are received at the location.

(3) The used oil is transported by the generator of the used oil.

(b) Any person who transports used oil to a location that is exempt from Article 9 (commencing with Section 25200) pursuant to subdivision (a) is exempt from the requirements of subdivisions (a) and (e) of Section 25163 and from the requirements of Section 25160 concerning the possession of a manifest while transporting used oil if all of the following conditions are met:

(1) The contents of any single container do not exceed five gallons.

(2) Each shipment of used oil does not exceed 20 gallons.

(3) The person transporting the used oil had used the oil.

25249.250. Any person operating a refuse removal vehicle or a curbside collection vehicle used to collect or transport used oil which has been generated as a household waste or as part of a curbside recycling program, as defined by the board, is exempt from the requirements of Section 25160 and subdivisions (a) and (e) of Section 25163 of this code and Chapter 2.5 (commencing with Section 2500) of Division 2, Division 14.1 (commencing with Section 32000), and subdivision (g) of Section 34500 of the Vehicle Code.

25249.260. No person may recycle used oil without obtaining a permit from the department.

25249.270. Each used oil recycler who has been issued a permit by the department shall submit a report, on or before March 1 of each year, to the department containing all of the following information:

(a) The total volume of used oil possessed at the beginning and end of the preceding calendar year.

(b) The total volume of used oil received during the preceding calendar year.

(c) The total volume of used oil recycled during the preceding calendar year, itemized as follows:

(1) Prepared for reuse as a petroleum product.

(2) Consumed in the process of preparing for reuse, including wastes generated.

(3) Prepared for reuse other than as a petroleum product, specifying each type of other use.

(4) Not recycled but transported offsite.

(d) Any other information which the department may require.

25249.280. Any person who transports recycled oil shall maintain with each shipment of recycled oil the shipment's destination and a signed and dated form from the recycling facility certifying that the oil being transported has been tested and is in compliance with the standards specified in subdivision (c) of Section 25249.110.

25249.290. A registered used oil recycler shall ensure that all recycled oil transported from the recycling facility has been tested and certified as being in compliance with the standards specified by subdivision (c) of Section 25249.110. Records of tests performed and a copy of each form completed pursuant to Section 25249.280 shall be maintained for three years and are subject to audit and verification by the department or the board.

25249.300. Any person whose permit or registration has been revoked may not apply for a new or renewed permit or registration for a period of one year after the revocation of the permit or registration.

25249.310. Any person whose permit or registration has been revoked may not serve in the employ of a hazardous waste hauler or used oil recycler during the period of revocation of the permit or registration.

25249.320. All rules and regulations of the department shall be adopted, amended, and repealed in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

25249.330. Any person who transports used oil shall register as a hazardous waste hauler and, unless specifically exempted or unless the used oil is not regulated by the department pursuant to subdivision (e) of Section 25249.110, shall comply with all provisions of this chapter.

25249.340. Any person who generates, receives, stores, transfers, transports, treats, or recycles used oil, unless specifically exempted or unless the used oil is not regulated by the department pursuant to subdivision (e) of Section 25249.110, shall comply with all provisions of this chapter.

SEC. 108. Article 13 (commencing with Section 25250) of Chapter 6.5 of Division 20 of the Health and Safety Code is repealed.

SEC. 109. Chapter 6.7 (commencing with Section 25250) of Division 20 of the Health and Safety Code is repealed.

SEC. 110. Section 25534 of the Health and Safety Code is amended to read:

25534. (a) After receiving an acutely hazardous material registration form filed pursuant to Section 25533, the administering agency may require the submission of an RMPP if the administering agency determines that the handler's operation may present an acutely hazardous materials accident risk. The handler shall prepare the RMPP in accordance with subdivision (c). The RMPP shall be prepared within 12 months following the request made by the administering agency pursuant to this section.

(b) In addition to any requirements imposed pursuant to subdivision (a), an owner or operator of a new or modified facility which will be used for the handling of acutely hazardous materials and which will commence operations on or after January 1, 1988, in the case of a new facility, or commence the operations which will be modified on or after January 1, 1988, in the case of an existing facility, shall prepare an RMPP.

(c) The RMPP shall include all of the following elements:

(1) A description of each accident involving acutely hazardous materials which has occurred at the business or facility within three years from the date of the request made pursuant to subdivision (a), together with a description of the underlying causes of the accident and the measures taken, if any, to avoid a recurrence of a similar accident.

(2) A report specifying the nature, age, and condition of the equipment used to handle acutely hazardous materials at the business or facility and any schedules for testing and maintenance.

(3) Design, operating, and maintenance controls which minimize the risk of an accident involving acutely hazardous materials.

(4) Detection, monitoring, or automatic control systems to minimize potential acutely hazardous materials accident risks.

(5) A schedule for implementing additional steps to be taken by the business, in response to the findings of the assessment performed pursuant to subdivision (d), to reduce the risk of an accident involving acutely hazardous materials. These actions may include any of the following:

(A) Installation of alarm, detection, monitoring, or automatic control devices.

(B) Equipment modifications, repairs, or additions.

(C) Changes in the operations, procedures, maintenance schedules, or facility design.

(6) Auditing and inspection programs designed to allow the handler to confirm that the RMPP is effectively carried out.

(7) Recordkeeping procedures for the RMPP.

(d) The RMPP shall be based upon an assessment of the processes, operations, and procedures of the business, and shall consider all of the following:

(1) The results of a hazard and operability study which identifies the hazards associated with the handling of an acutely hazardous material due to operating error, equipment failure, and external events, which may present an acutely hazardous materials accident risk.

(2) For the hazards identified in the hazard and operability studies, an offsite consequence analysis which, for the most likely hazards, assumes pessimistic air dispersion and other adverse environmental conditions.

(e) The business shall submit to the administering agency any additional supporting technical information deemed necessary by the administering agency to clarify information submitted pursuant

to subdivision (c).

(f) A handler shall maintain all records concerning an RMPP for a period of at least five years.

(g) The RMPP shall identify, by title, all personnel at the business who are responsible for carrying out the specific elements of the RMPP, and their respective responsibilities, and the RMPP shall include a detailed training program to ensure that those persons are able to implement the RMPP.

(h) The handler shall review the RMPP, and shall make necessary revisions to the RMPP at least every three years, but, in any event, within 60 days following a modification which would materially affect the handling of an acutely hazardous material.

(i) Any person who handles acutely hazardous materials and who owns or operates two or more business facilities which are substantially identical may prepare a single generic RMPP applicable to all those facilities if the handling of the acutely hazardous materials is substantially similar at all of those facilities.

(j) The RMPP, and any revisions required by subdivision (h), shall be certified as complete by a qualified person and the facility operator.

(k) Except as specified in subdivision (d) of Section 25535, the handler shall implement all activities and programs specified in the RMPP within one year following the certification made pursuant to subdivision (j). Implementation of the RMPP shall include carrying out all operating, maintenance, monitoring, inventory control, equipment inspection, auditing, recordkeeping, and training programs as required by the RMPP. The administering agency may grant an extension of this deadline upon a showing of good cause.

(*l*) The Office of Emergency Services shall adopt, and publish for distribution, guidelines for the preparation and submission of an RMPP. In preparing the guidelines for hazard and operability studies, the office shall, at a minimum, base its procedural recommendations on those set forth in the 1985 Guidelines for Chemical Hazard Evaluation Procedures, prepared by the Center for Chemical Process Safety of the American Institute of Chemical Engineers.

SEC. 111. Section 26594.3 of the Health and Safety Code is amended to read:

26594.3. Any bottler, distributor, vendor of bottled water, or owner or operator of any water-vending machine, whose corporate name or trademark contains the words "spring" or "springs," or any derivative of either of these words, or "well," "artesian well," or "natural" shall label each bottle or vending machine with the source of the water in typeface at least equal to the size of the typeface of the corporate name or trademark, if the source of the bottled or vended water is different from the source stated in the corporate name or trademark.

(a) Except as provided in subdivision (d), every district board which has adopted an emergency episode plan for ozone or oxidant may conduct hearings on the adoption and implementation of intermittent transportation controls which shall be applicable, upon order of the district board, during periods in the months of June to October, inclusive, when an air pollution emergency, as defined in the Air Pollution Emergency Plan of the state board, has been called.

(b) The district board, in cooperation with representatives of industry, transportation, and local governments in the district, shall conduct the hearings pursuant to subdivision (a) to define and designate the necessary transportation controls. 10121. (a) No self-insured employee welfare benefit plan, issued or renewed on or after November 23, 1970, which contains coverage for sterilization operations or procedures, shall impose any disclaimer, restriction on, or limitation of, coverage relative to the covered individual's reason for sterilization. All those plans entered into or renewed on or after November 23, 1970, shall be construed to be in compliance with this section, and any provision in any plan

which is in conflict with this section shall be of no force or effect.

(b) Every self-insured employee welfare benefit plan issued or amended on or after July 1, 1972, which provides benefits to the employee's dependents, shall contain a provision granting immediate accident and sickness coverage, from and after the moment of birth, to each newborn infant of any family covered and to each minor child placed for adoption from and after the moment the child is placed in the physical custody of the covered family for adoption. If a fixed amount is specified in the plan for surgery, the fixed amounts for surgical procedures involving involuntary complications of pregnancy shall be commensurate with other fixed amounts payable for procedures of comparable difficulty and severity. In a case where a fixed amount is payable for maternity benefits, involuntary complications of pregnancy shall be deemed an illness and entitled to benefits otherwise provided by the plan. Where the plan contains a maternity deductible, the maternity deductible shall apply only to expenses resulting from normal delivery and cesarean section delivery. However, expenses for cesarean section delivery in excess of the deductible shall be treated as expenses for any other illness under the plan. For purposes of this subdivision, involuntary complications of pregnancy shall include, but not be limited to, puerperal infection, eclampsia, cesarean section delivery, ectopic pregnancy, and toxemia.

SEC. 119. Section 10369.5 of the Insurance Code is amended to read:

10369.5. A disability policy may contain a provision in the form set forth in this section. If the provision also contains the provision set forth in Section 10369.6, there shall be added to its caption the phrase, "* * * expense incurred benefits." The insurer may, at its option, include in this provision a definition of "other valid coverage," approved as to form by the commissioner. The definition shall be limited in subject matter to coverage provided by organizations subject to regulation by insurance law or by insurance authorities of this or any other state of the United States or any province of Canada, or by hospital or medical service organizations, and to any other coverage, the inclusion of which may be approved by the commissioner. In the absence of that definition, the terms shall not include group insurance, automobile medical payments insurance, or coverage provided by hospital or medical service organizations or by union welfare plans or employer or employee benefit organizations. For the purpose of applying this policy provision with respect to any insured, any amount of benefit provided for the insured pursuant to any compulsory benefit statute, including any workers' compensation or employers' liability statute, whether provided by a governmental agency or otherwise, shall in all cases be deemed to be "other valid coverage" of which the insurer has had notice. In applying this provision, no third party liability coverage shall be included as "other valid coverage."

Insurance With Other Insurers: If there is other valid coverage, not with this insurer, providing benefits for the same loss on a provision of service basis or on an expense incurred basis and of which this insurer has not been given written notice prior to the occurrence or commencement of loss, the only liability under any expense incurred coverage of this policy shall be for the proportion of the loss as the amount which would otherwise have been payable under this policy plus the total of the like amounts under all the other valid coverages for the same loss of which this insurer had notice bears to the total

like amounts under all valid coverages for the loss, and for the return of the portion of the premiums paid as shall exceed the pro-rata portion for the amount so determined. For the purpose of applying this provision when other coverage is on a provision of service basis, the "like amount" of the other coverage shall be taken as the amount which the services rendered would have cost in the absence of the coverage.

SEC. 120. Section 10369.6 of the Insurance Code is amended to read:

10369.6. A disability policy may contain a provision in the form set forth in this section. If the provision is included in a policy which also contains the provision set forth in Section 10369.5, there shall be added to its caption the phrase, "* * * other benefits." The insurer may, at its option, include in this provision a definition of "other valid coverage," approved as to form by the commissioner. The definition shall be limited in subject matter to coverage provided by organizations subject to regulation by insurance law or by insurance authorities of this or any other state of the United States or any province of Canada, and to any other coverage the inclusion of which may be approved by the commissioner. In the absence of that definition the terms shall not include group insurance, or benefits provided by union welfare plans or by employer or employee benefit organizations. For the purpose of applying this policy provision with respect to any insured, any amount of benefit provided for the insured pursuant to any compulsory benefit statute, including any workers' compensation or employers' liability statute, whether provided by a governmental agency or otherwise, shall in all cases be deemed to be "other valid coverage" of which the insurer has had notice. In applying this provision, no third party liability coverage shall be included as "other valid coverage."

Insurance With Other Insurers: If there is other valid coverage, not with this insurer, providing benefits for the same loss on other than an expense incurred basis and of which this insurer has not been given written notice prior to the occurrence or commencement of loss, the only liability for the benefits under this policy shall be for the proportion of the indemnities otherwise provided under this policy for the loss as the like indemnities of which the insurer had notice, including the indemnities under this policy, bear to the total amount of all like indemnities for the loss, and for the return of the portion of the premium paid as shall exceed the pro rata portion for the indemnities thus determined.

No other issues shall be presented to the court

in the case and the burden shall be on the plaintiff to establish his or her right to the penalties or forfeitures withheld. In case the action is not commenced and actual notice thereof received by the awarding body within the 90-day period, the action shall be dismissed on motion of the awarding body.

The Division of Labor Standards Enforcement may, upon written request of any awarding body, assist in the defense of the action.

If, after making the certificate, the applicant for the permit should become subject to the workers' compensation provisions of this code, he or she shall forthwith comply with the provisions of Section 3700 or his or her permit is revoked.

SEC. 125. Section 1191 of the Military and Veterans Code is amended to read:

1191. (a) Every district may do all of the following:

(1) Provide and maintain memorial halls, assembly halls,

buildings, or meetingplaces, together with suitable indoor and outdoor park and recreation facilities, including swimming pools, picnic areas, and playgrounds, for the use of persons or organizations other than veterans, pursuant to paragraphs (8) and (9), and veteran soldiers, sailors, and marines who have honorably served the United States in any wars or campaigns recognized by law for the purposes of Section 3 of Article XIII of the California Constitution, or for the use of patriotic, fraternal, or benevolent associations of those persons. However, no district shall provide and maintain indoor and outdoor park and recreation facilities, including swimming pools, picnic areas, and playgrounds, unless these projects have been approved by a majority of the voters at either the general district election or at a special election called for that purpose. The question of whether the district shall provide and maintain indoor and outdoor park and recreation facilities may be submitted to the electors of the district by the board on its own motion and shall be submitted by the board upon petition signed by 8 percent of the registered electors of the district, at either the general district election or at a special election called for that purpose. If submitted at a special election, the election shall be called, conducted, governed, and regulated in the same manner as the general district election.

All plans for indoor and outdoor park and recreation facilities, including swimming pools, picnic areas, and playgrounds, shall be approved initially by the board of supervisors.

(2) Purchase, receive by donation, condemn, lease, or acquire real or personal property necessary or convenient for the construction or maintenance of halls, buildings, meetingplaces, and facilities, and improve, preserve, manage, and control these facilities.

(3) Purchase, construct, lease, build, furnish, or repair halls, buildings, meetingplaces, and facilities upon sites owned or leased by the district or made available to the district, and provide custodians, employees, attendants, and supplies for the proper maintenance, care, and management of those halls, buildings, meetingplaces, and facilities.

(4) Furnish sites for halls, buildings, meetingplaces, or facilities, to be built either by the district or by or for patriotic, fraternal, or benevolent associations of veterans, if the funds for these sites are supplied by the district or from other sources.

(5) Enter into agreements with county, municipal, school, park, or other public authorities or agencies conveying, leasing, or making available to the district, either gratuitously or for compensation, sites upon public land for the construction, maintenance, and management by the district of assembly or memorial halls, buildings, meetingplaces, or facilities, and construct and maintain on those sites halls, buildings, meetingplaces, or facilities.

(6) Sell or lease any district property to the highest responsible bidder, as determined by the board, except as provided by Section 1191.3. The board shall, prior to any sale, make a call for bids and advertise that call pursuant to Section 6062 of the Government Code

in a newspaper of general circulation in the district, inviting sealed bids for the sale or lease of the property. The board may either accept the highest responsible bid or reject all bids. The board may require the successful bidder to file with the board good and sufficient undertaking to be approved by the board to insure faithful performance of the contract of sale or lease. No sale or lease shall be transacted, however, if a petition has been filed with the board requesting it not to enter into the sale or lease of the property.

The petition shall have affixed to it, as petitioners, the signatures, indicating place of residence and place of signing, of the electors of the district in a number equal to at least 10 percent of the votes cast in the district at the last preceding general election held in the state.

If the petition meets these requirements, as determined by the records of the county clerk or registrar of voters for the county or counties in which the district is situated, the board either shall not convey the property or shall submit the matter to the electors of the district to be voted upon at the next primary or general election, or at a special election called for the purpose of ratifying or rejecting the action of the district to sell or lease the property.

(7) Sell or lease any district property to any political subdivision, or portion thereof, in which the district is situated for purposes of roads, streets, or highways, or for the improvement of roads, streets, or highways, without regard to the highest responsible bidder but otherwise meeting the petition requirements of paragraph (6).

(8) Adopt, from time to time, reasonable rules and regulations for the use of halls, buildings, meetingplaces, and facilities by veterans or by organizations of veterans, and to allow the halls, buildings, meetingplaces, and facilities to be used for lawful purposes consistent with the objects of this section by persons or organizations other than veterans either free of charge or for stated compensation to aid in defraying the cost of maintenance of the facilities, if that use will not unduly interfere with the reasonable use of the facilities by veterans' associations.

(9) Enter into a joint powers agreement for recreational or senior citizens' services within the district.

(b) In conformance with this section, a district may provide recreational facilities or services at any location within the district regardless of the location of district-owned facilities. A district may not increase its tax levy for the purpose of providing recreational services for persons other than veterans unless that increase is first approved by a majority of the electors of the district who vote upon the proposal.

SEC. 128. Section 723 of the Penal Code is amended to read:

think proper to assist in overcoming the resistance and, if necessary, in seizing, arresting, and confining the persons resisting, and their aiders and abettors.

SEC. 129. Section 853.6 of the Penal Code is amended to read:

853.6. (a) In any case in which a person is arrested for an offense declared to be a misdemeanor, including violation of any city or county ordinance, and does not demand to be taken before a magistrate, that person shall, instead of being taken before a magistrate, be released according to the procedures set forth by this chapter. If the person is released, the officer or superior shall prepare in duplicate a written notice to appear in court, containing the name and address of the person, the offense charged, and the time when, and place where, the person shall appear in court. If, pursuant to subdivision (i), the person is not released prior to being booked and the officer in charge of the booking or his or her superior determines that the person should be released, the officer or superior shall prepare a written notice to appear in a court.

(b) Unless waived by the person, the time specified in the notice to appear shall be at least 10 days after arrest if the duplicate notice is to be filed by the officer with the magistrate.

(c) The place specified in the notice shall be the court of the magistrate before whom the person would be taken if the requirement of taking an arrested person before a magistrate were complied with, or shall be an officer authorized by that court to receive a deposit of bail.

(d) The officer shall deliver one copy of the notice to appear to the arrested person, and the arrested person, in order to secure release, shall give his or her written promise to appear in court as specified in the notice by signing the duplicate notice which shall be retained by the officer. Upon the signing of the duplicate notice, the arresting officer shall immediately release the person arrested from custody.

(e) The officer shall, as soon as practicable, file the duplicate notice, as follows:

(1) It shall be filed with the magistrate if the offense charged is an infraction.

(2) It shall be filed with the magistrate if the prosecuting attorney has previously directed the officer to do so.

(3) The duplicate notice and underlying police reports in support of the charge or charges shall be filed with the prosecuting attorney in cases other than those specified in paragraphs (1) and (2).

If the duplicate notice is filed with the prosecuting attorney, he or she, within his or her discretion, may initiate prosecution by filing the notice or a formal complaint with the magistrate specified in the duplicate notice within 25 days from the time of arrest. If the prosecution is not to be initiated, the prosecutor shall send notice to the person arrested at the address on the notice to appear. The failure by the prosecutor to file the notice or formal complaint within 25 days of the time of the arrest shall not bar further prosecution of

the misdemeanor charged in the notice to appear. However, any further prosecution shall be preceded by a new and separate citation or an arrest warrant.

Upon the filing of the notice with the magistrate by the officer, or the filing of the notice or formal complaint by the prosecutor, the magistrate may fix the amount of bail which in his or her judgment, in accordance with Section 1275, is reasonable and sufficient for the appearance of the defendant and shall indorse upon the notice a statement signed by him or her in the form set forth in Section 815a. The defendant may, prior to the date upon which he or she promised to appear in court, deposit with the magistrate the amount of bail set by the magistrate. At the time the case is called for arraignment before the magistrate, if the defendant does not appear, either in person or by counsel, the magistrate may declare the bail forfeited, and may, in his or her discretion, order that no further proceedings shall be had in the case, unless the defendant has been charged with violation of Section 374.3 or 374.7 of this code or of Section 11357, 11360, or 13002 of the Health and Safety Code, or a violation punishable under Section 5008.7 of the Public Resources Code, and he or she has previously been convicted of a violation of that section or a violation which is punishable under that section, except in cases where the magistrate finds that undue hardship will be imposed upon the defendant by requiring him or her to appear, the magistrate may declare the bail forfeited and order that no further proceedings be had in the case.

Upon the making of the order that no further proceedings be had, all sums deposited as bail shall immediately be paid into the county treasury for distribution pursuant to Section 1463.

(f) No warrant shall be issued for the arrest of a person who has given a written promise to appear in court, unless and until he or she has violated that promise or has failed to deposit bail, to appear for arraignment, trial, or judgment or to comply with the terms and provisions of the judgment, as required by law.

(g) The officer may either book the arrested person prior to release or indicate on the citation that the arrested person shall be booked. If it is indicated on the citation that the arrested person is to be booked, the magistrate shall, before the proceedings are finally concluded, order the defendant to be booked by the arresting agency.

(h) A peace officer shall use the written notice to appear procedure set forth in this section for any misdemeanor offense in which the officer has arrested a person without a warrant pursuant to Section 836 or in which he or she has taken custody of a person pursuant to Section 847.

(i) Whenever any person is arrested by a peace officer for a misdemeanor, that person shall be released according to the procedures set forth by this chapter unless one of the following is a reason for nonrelease, in which case the arresting officer may release the person, or the arresting officer shall indicate, on a form to be

established by his or her employing law enforcement agency, which of the following was a reason for the nonrelease:

(1) The person arrested was so intoxicated that he or she could have been a danger to himself or herself or to others.

(2) The person arrested required medical examination or medical care or was otherwise unable to care for his or her own safety.

(3) The person was arrested under one or more of the circumstances listed in Sections 40302 and 40303 of the Vehicle Code.

(4) There were one or more outstanding arrest warrants for the person.

(5) The person could not provide satisfactory evidence of personal identification.

(6) The prosecution of the offense or offenses for which the person was arrested, or the prosecution of any other offense or offenses, would be jeopardized by immediate release of the person arrested.

(7) There was a reasonable likelihood that the offense or offenses would continue or resume, or that the safety of persons or property would be imminently endangered by release of the person arrested.

(8) The person arrested demanded to be taken before a magistrate or refused to sign the notice to appear.

(9) There is reason to believe that the person would not appear at the time and place specified in the notice. The basis for this determination shall be specifically stated.

The form shall be filed with the arresting agency as soon as practicable and shall be made available to any party having custody of the arrested person, subsequent to the arresting officer, and to any person authorized by law to release him or her for custody before trial.

(j) Once the arresting officer has prepared the written notice to appear and has delivered a copy to the person arrested, the officer shall deliver the remaining original and all copies as provided by subdivision (e).

Any person, including the arresting officer and any member of the officer's department or agency, or any peace officer, who alters, conceals, modifies, nullifies, or destroys, or causes to be altered, concealed, modified, nullified, or destroyed, the face side of the remaining original or any copy of a citation that was retained by the officer, for any reason, before it is filed with the magistrate or with a person authorized by the magistrate to receive deposit of bail, is guilty of a misdemeanor.

If, after an arrested person has signed and received a copy of a notice to appear, the arresting officer determines that, in the interest of justice, the citation or notice should be dismissed, the arresting agency may recommend, in writing, to the magistrate that the charges be dismissed. The recommendation shall cite the reasons for the recommendation and shall be filed with the court.

If the magistrate makes a finding that there are grounds for dismissal, the finding shall be entered in the record and the charges

dismissed.

Under no circumstances shall a personal relationship with any officer, public official, or law enforcement agency be grounds for dismissal.

SEC. 130. Section 1001.16 of the Penal Code is amended to read:

1001.16. (a) In addition to the fees authorized or required by other provisions of law, a judge may require the payment of an administrative fee, as part of an enrollment fee in a diversion program, by a defendant accused of a misdemeanor to cover the cost of any criminalistics laboratory analysis in a case involving a violation of the California Uniform Controlled Substances Act under Division 10 (commencing with Section 11000) of the Health and Safety Code and the cost of processing a request or application for diversion, not to exceed one hundred dollars ($100). The fee shall be payable at the time of enrollment in the diversion program. The court shall take into consideration the defendant's ability to pay, and no defendant shall be denied diversion because of his or her inability to pay.

One-half of the fee collected shall be deposited in the criminalistic laboratories fund in the county treasury, and one-half of the fee collected shall be used to cover the administrative cost of processing the request or application. The portion deposited in the criminalistic laboratories fund shall be expended as provided in Section 11372.5 of the Health and Safety Code.

(b) As used in this section, "criminalistics laboratory" means a laboratory operated by, or under contract with, a city, county, or other public agency, including a criminalistics laboratory of the Department of Justice, which has not less than one regularly employed forensic scientist engaged in the analysis of solid dose material and body fluids for controlled substances and which is registered as an analytical laboratory with the Drug Enforcement Administration of the United States Department of Justice for the processing of all scheduled controlled substances.

If probation is granted, it shall be a condition of probation that the person shall be confined in the county jail for some period of time. If the time spent in jail prior to arraignment is less than 24 hours, it shall not be considered to satisfy the requirement that some period of confinement be imposed.

(d) (1) The existence of any fact which would make a person ineligible for probation under subdivisions (a) and (c) shall be alleged in the accusatory pleading, and either admitted by the defendant in open court, or found to be true by the jury trying the issue of guilt or by the court where guilt is established by a plea of guilty or nolo contendere or by a trial by the court sitting without a jury.

A finding bringing the defendant within this section shall not be stricken pursuant to Section 1385 or any provision of law.

(2) This subdivision does not prohibit the adjournment of criminal proceedings pursuant to Division 3 (commencing with Section 3000) or Division 6 (commencing with Section 6000) of the Welfare and Institutions Code.

(e) The court shall require, as a condition of probation for any person convicted of committing a crime which took place on a public transit vehicle, except in any case in which the court makes a finding and states on the record its reasons that the condition would be inappropriate, that the person make restitution to the victim. If restitution is found to be inappropriate, the court shall require as a condition of probation, except in any case in which the court makes a finding and states on the record its reasons that the condition would

be inappropriate, that the defendant perform specified community service. Nothing in this subdivision shall be construed to limit the authority of a court to provide additional conditions of probation.

(f) In any case in which a person is convicted of committing a crime which took place on a public transit vehicle, the probation officer shall immediately investigate and report to the court at a specified time whether, as a result of the crime, property damage or loss or personal injury was caused by the defendant, the amount of the damage, loss, or injury, and the feasibility of requiring restitution to be made by the defendant. When a probation report is required pursuant to Section 1203 the information required by this subdivision shall be added to that probation report.

SEC. 132. Section 1208 of the Penal Code is amended to read:

1208. (a) The provisions of this section, insofar as they relate to employment, shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of employment conditions, the state of the county jail facilities, and other pertinent circumstances, that the operation of this section, insofar as it relates to employment, in that county is feasible. The provisions of this section, insofar as they relate to education, shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of education conditions, the state of the county jail facilities, and other pertinent circumstances, that the operation of this section, insofar as it relates to education, in that county is feasible. In any ordinance the board shall prescribe whether the sheriff, the probation officer, the director of the county department of corrections, or the superintendent of a county industrial farm or industrial road camp in the county shall perform the functions of the work furlough administrator. The board may, in that ordinance, provide for the performance of any or all functions of the work furlough administrator by any one or more of those persons, acting separately or jointly as to any of the functions; and may, by a subsequent ordinance, revise the provisions within the authorization of this section. The board of supervisors may also terminate the operation of this section, either with respect to employment or education in the county if it finds by ordinance that because of changed circumstances, the operation of this section, either with respect to employment or education in that county is no longer feasible.

Notwithstanding any other provision of law, the board of supervisors may by ordinance designate a facility for confinement of prisoners classified for the work furlough program and designate the work furlough administrator as the custodian of the facility. The work furlough administrator may, with the approval of the board of supervisors, enter into contracts with appropriate public or nonprofit private agencies or private entities to provide a facility and services for the housing, sustenance, counseling, supervision, and related services for inmates eligible for work furlough. No agency or private entity entering into a contract may itself employ any person who is

in the work furlough program. The sheriff or director of the county department of corrections, as the case may be, is authorized to transfer custody of prisoners to the work furlough administrator to be confined in a facility for the period during which they are in the work furlough program.

All privately operated work furlough facilities and programs used for the detention of persons sentenced into the custody of the sheriff, the director of a county department of corrections, or the chief probation officer, shall be under the jurisdiction of, and subject to the terms of a contract entered into with, the work furlough administrator. Each contract shall include, but not be limited to, a provision whereby the private agency or entity agrees to operate in compliance with all appropriate state and local building, zoning, health, safety, and fire statutes, ordinances, and regulations and the minimum jail standards for Type IV facilities as established by regulations adopted by the Board of Corrections. The private agency or entity shall select and train its personnel in accordance with selection and training requirements adopted by the Board of Corrections as set forth in Subchapter 1 (commencing with Section 100) of Chapter 1 of Division 1 of Title 15 of the California Administrative Code. Failure to comply with the appropriate health, safety, and fire laws or minimum jail standards adopted by the board may be cause for termination of the contract. Upon discovery of a failure to comply with these requirements, the work furlough administrator shall notify the privately operated program director that the contract may be canceled if the specified deficiencies are not corrected within 60 days.

All private work furlough facilities and programs shall be inspected biennially by the Board of Corrections unless the work furlough administrator requests an earlier inspection pursuant to Section 6031.1. Each private agency or entity shall pay a fee to the Board of Corrections commensurate with the cost of those inspections and a fee commensurate with the cost of the initial review of the facility.

(b) When a person is convicted of a misdemeanor and sentenced to the county jail, or is imprisoned in the county jail for nonpayment of a fine, for contempt, or as a condition of probation for any criminal offense, the work furlough administrator may, if he or she concludes that the person is a fit subject to continue in his or her regular employment, direct that the person be permitted to continue in that employment, if that is compatible with the requirements of subdivision (d), or may authorize the person to secure employment for himself or herself, unless the court at the time of sentencing or committing has ordered that the person not be granted work furloughs. The work furlough administrator may, if he or she concludes that the person is a fit subject to continue in his or her regular educational program, direct that the person be permitted to continue in that educational program, if that is compatible with the requirements of subdivision (d), or may authorize the person to secure education for himself or herself, unless the court at the time

of sentencing has ordered that person not be granted work furloughs.

(c) If the work furlough administrator so directs that the prisoner be permitted to continue in his or her regular employment or educational program, the administrator shall arrange for a continuation of that employment or education, so far as possible without interruption. If the prisoner does not have regular employment or a regular educational program, and the administrator has authorized the prisoner to secure employment or education for himself or herself, the prisoner may do so, and the administrator may assist the prisoner in doing so. Any employment or education so secured shall be suitable for the prisoner. The employment or educational program, if the educational program includes earnings by the prisoner, shall be at a wage at least as high as the prevailing wage for similar work in the area where the work is performed and in accordance with the prevailing working conditions in that area. In no event may any employment or educational program involving earnings by the prisoner be permitted where there is a labor dispute in the establishment in which the prisoner is, or is to be, employed or educated.

(d) Whenever the prisoner is not employed or being educated and between the hours or periods of employment or education, the prisoner shall be confined in the facility designated by the board of supervisors for work furlough confinement unless the work furlough administrator directs otherwise. If the prisoner is injured during a period of employment or education, the work furlough administrator shall have the authority to release him or her from the facility for continued medical treatment by private physicians or at medical facilities at the expense of the employer, workers' compensation insurer, or the prisoner. The release shall not be construed as assumption of liability by the county or work furlough administrator for medical treatment obtained.

The work furlough administrator may release any prisoner classified for the work furlough program for a period not to exceed 72 hours for medical, dental, or psychiatric care, or for family emergencies or pressing business which would result in severe hardship if the release were not granted, or to attend those activities as the administrator deems may effectively promote the prisoner's successful return to the community, including, but not limited to, an attempt to secure housing, employment, entry into educational programs, or participation in community programs.

(e) The earnings of the prisoner may be collected by the work furlough administrator, and it shall be the duty of the prisoner's employer to transmit the wages to the administrator at the latter's request. Earnings levied upon pursuant to writ of execution or in other lawful manner shall not be transmitted to the administrator. If the administrator has requested transmittal of earnings prior to levy, that request shall have priority. In a case in which the functions of the administrator are performed by a sheriff, and the sheriff receives a writ of execution for the earnings of a prisoner subject to this

section but has not yet requested transmittal of the prisoner's earnings pursuant to this section, the sheriff shall first levy on the earnings pursuant to the writ. When an employer or educator transmits earnings to the administrator pursuant to this subdivision, the sheriff shall have no liability to the prisoner for those earnings. From the earnings the administrator shall pay the prisoner's board and personal expenses, both inside and outside the jail, and shall deduct so much of the costs of administration of this section as is allocable to the prisoner or if the prisoner is unable to pay that sum, such lesser sum as is reasonable, and, in an amount determined by the administrator, shall pay the support of the prisoner's dependents, if any. If sufficient funds are available after making the foregoing payments, the administrator may, with the consent of the prisoner, pay, in whole or in part, the preexisting debts of the prisoner. Any balance shall be retained until the prisoner's discharge. Upon discharge the balance shall be paid to the prisoner.

(f) The prisoner shall be eligible for time credits pursuant to Sections 4018 and 4019.

(g) In the event the prisoner violates the conditions laid down for his or her conduct, custody, education, or employment, the work furlough administrator may order the balance of the prisoner's sentence to be spent in actual confinement.

(h) Willful failure of the prisoner to return to the place of confinement not later than the expiration of any period during which he or she is authorized to be away from the place of confinement pursuant to this section is punishable as provided in Section 4532.

(i) As used in this section, the following definitions apply:

(1) "Education" includes vocational and educational training and counseling, and psychological, drug abuse, alcoholic, and other rehabilitative counseling.

(2) "Educator" includes a person or institution providing that training or counseling.

(3) "Employment" includes care of children, including the daytime care of children of the prisoner.

(j) This section shall be known and may be cited as the "Cobey Work Furlough Law."

SEC. 133. Section 1334.2 of the Penal Code is amended to read:

1334.2. If a judge of a court of record in any state, which by its laws provides for commanding persons within that state to attend and testify in this state, issues a certificate under the seal of the court that there is a criminal prosecution pending in the court, or that there is a grand jury investigation, that a person within this state is a material witness in that prosecution or grand jury investigation, and that his or her presence will be required for a specified number of days, then, upon presentation of the certificate to a judge of a court of record in the county in which the person is, a time and place for a hearing shall be fixed by the judge and he or she shall make an order directing the witness to appear at the hearing.

If, at the hearing, the judge determines that the witness is material

and necessary, that it will not cause undue hardship to the witness to be compelled to attend and testify in the prosecution or grand jury investigation in the other state, and that the laws of the state in which the prosecution is pending or in which there is a grand jury investigation will give to the witness protection from arrest and service of civil and criminal process and will furnish in advance to the witness the sum of ten cents ($0.10) for each mile necessarily traveled if the witness elects surface travel or the minimum round trip scheduled airline fare plus twenty cents ($0.20) a mile for necessary surface travel at either end of the flight if the witness elects air travel, and, except as provided in subdivision (b) of Section 1334.3, a per diem of twenty dollars ($20) for each day that he or she is required to travel and attend as a witness and that the judge of the court in which the witness is ordered to appear will order the payment of witness fees authorized by law for each day the witness is required to attend the court plus reimbursement for any additional expenses of the witness which the judge of the court in which the witness is ordered to appear shall find reasonable and necessary, he or she shall issue a subpoena, with a copy of the certificate attached, directing the witness to attend and testify in the court where the prosecution is pending, or where the grand jury investigation is, at a time and place specified in the subpoena. In any of these hearings the certificate shall be prima facie evidence of all the facts stated therein.

If the certificate recommends that the witness be taken into immediate custody and delivered to an officer of the requesting state to assure his or her attendance therein, the judge may, in lieu of notification of the hearing, direct that the witness be forthwith brought before him or her for the hearing.

If the judge at the hearing is satisfied of the desirability of the custody and delivery, for which determination the certificate shall be prima facie proof of this desirability, he or she may, in lieu of issuing a subpoena, order that the witness be forthwith taken into custody and delivered to an officer of the requesting state.

If the witness, who is subpoenaed as provided in this section, after being paid or tendered by some properly authorized person the sum or fare, and per diem set forth in this section, fails without good cause to attend and testify as directed in the subpoena, he or she shall be punished in the manner provided for the punishment of any witness who disobeys a subpoena issued from a court of record in this state.

SEC. 134. Section 1463.9 of the Penal Code is amended to read:

These fines and forfeitures shall, as soon as practicable after their receipt, be deposited with the county treasurer of the county in which the court

is situated and shall be distributed as prescribed in Section 1463, except that the money distributed to any county or city shall be expended only for litter cleanup activities within that city or county.

2046.6. The provisions of this part shall apply to the prison and to the persons confined therein insofar as those provisions may be applicable.

2680. (a) If it is determined by the attending physician that a confined person should be administered organic therapy, the person shall be advised and informed of his or her rights under this article, and he or she shall be provided a copy of this article.

(b) This article shall apply to prisoners confined under this part in public or private hospitals, sanitariums, and similar facilities, and to the personnel of the facilities.

(c) A person shall be entitled to communicate in writing and by visiting with his or her parents, guardian, or conservator regarding any proposed administration of any organic therapy. The communication shall not be censored. The person shall be entitled to communicate in writing with his or her attorney pursuant to Section 2600.

(d) This article shall not prohibit the attending physician from terminating organic therapy prior to the period authorized for that therapy by the court, pursuant to Section 2679.

SEC. 137. Section 3704.5 of the Penal Code is amended to read:

3704.5. Any defendant who, on March 4, 1972, is in a state hospital under court order pursuant to Section 3703, as that section read on March 3, 1972, shall be transferred to a medical facility of the Department of Corrections, designated by the Director of Corrections, and there kept in safe confinement until his or her reason is restored. Section 3704 shall apply when the defendant recovers his or her sanity.

SEC. 138. Section 4011.6 of the Penal Code is amended to read:

4011.6. In any case in which it appears to the person in charge of a county jail, city jail, or juvenile detention facility, or to any judge of a court in the county in which the jail or juvenile detention facility is located, that a person in custody in that jail or juvenile detention facility may be mentally disordered, he or she may cause the prisoner to be taken to a facility for 72-hour treatment and evaluation pursuant to Section 5150 of the Welfare and Institutions Code and he or she shall inform the facility in writing, which shall be confidential, of the reasons that the person is being taken to the facility. The local mental health director or his or her designee may examine the prisoner prior to transfer to a facility for treatment and evaluation. Upon transfer to a facility, Article 1 (commencing with Section 5150), Article 4 (commencing with Section 5250), Article 4.5 (commencing with Section 5260), Article 5 (commencing with Section 5275), Article 6 (commencing with Section 5300), and Article 7 (commencing with Section 5325) of Chapter 2 and Chapter 3

(commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code shall apply to the prisoner.

Where the court causes the prisoner to be transferred to a 72-hour facility, the court shall forthwith notify the local mental health director or his or her designee, the prosecuting attorney, and counsel for the prisoner in the criminal or juvenile proceedings about that transfer. Where the person in charge of the jail or juvenile detention facility causes the transfer of the prisoner to a 72-hour facility the person shall immediately notify the local mental health director or his or her designee and each court within the county where the prisoner has a pending proceeding about the transfer. Upon notification by the person in charge of the jail or juvenile detention facility the court shall forthwith notify counsel for the prisoner and the prosecuting attorney in the criminal or juvenile proceedings about that transfer.

If a prisoner is detained in, or remanded to, a facility pursuant to those articles of the Welfare and Institutions Code, the facility shall transmit a report, which shall be confidential, to the person in charge of the jail or juvenile detention facility or judge of the court who caused the prisoner to be taken to the facility and to the local mental health director or his or her designee, concerning the condition of the prisoner. A new report shall be transmitted at the end of each period of confinement provided for in those articles, upon conversion to voluntary status, and upon filing of temporary letters of conservatorship.

A prisoner who has been transferred to an inpatient facility pursuant to this section may convert to voluntary inpatient status without obtaining the consent of the court, the person in charge of the jail or juvenile detention facilty, or the local mental health director. At the beginning of that conversion to voluntary status, the person in charge of the facility shall transmit a report to the person in charge of the jail or juvenile detention facility or judge of the court who caused the prisoner to be taken to the facility, counsel for the prisoner, prosecuting attorney, and local mental health director or his or her designee.

If the prisoner is detained in, or remanded to, a facility pursuant to those articles of the Welfare and Institutions Code, the time passed in the facility shall count as part of the prisoner's sentence. When the prisoner is detained in, or remanded to, the facility, the person in charge of the jail or juvenile detention facility shall advise the professional person in charge of the facility of the expiration date of the prisoner's sentence. If the prisoner is to be released from the facility before the expiration date, the professional person in charge shall notify the local mental health director or his or her designee, counsel for the prisoner, the prosecuting attorney, and the person in charge of the jail or juvenile detention facility, who shall send for, take, and receive the prisoner back into the jail or juvenile detention facility.

A defendant, either charged with or convicted of a criminal

offense, or a minor alleged to be within the jurisdiction of the juvenile court, may be concurrently subject to the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code).

If a prisoner is detained in a facility pursuant to those articles of the Welfare and Institutions Code and if the person in charge of the facility determines that arraignment or trial would be detrimental to the well-being of the prisoner, the time spent in the facility shall not be computed in any statutory time requirements for arraignment or trial in any pending criminal or juvenile proceedings. Otherwise, this section shall not affect any statutory time requirements for arraignment or trial in any pending criminal or juvenile proceedings.

For purposes of this section, the term "juvenile detention facility" includes any state, county, or private home or institution in which wards or dependent children of the juvenile court or persons awaiting a hearing before the juvenile court are detained.

For purposes of this chapter, the period of rehabilitation shall constitute three years' residence in this state, plus a period of time determined by the following rules:

(1) To the three years there shall be added four years in the case of any person convicted of violating Section 187, 209, 219, 4500 or 12310 of this code, or subdivision (a) of Section 1672 of the Military and Veterans Code, or of committing any other offense which carries a life sentence.

(2) To the three years there shall be added two years in the case of any person convicted of committing any offense which is not listed in paragraph (1) and which does not carry a life sentence.

(3) The trial court hearing the application for the certificate of rehabilitation may, if the defendant was ordered to serve consecutive sentences, order that his or her statutory period of rehabilitation be extended for an additional period of time which when combined with the time already served will not exceed the period prescribed by statute for the sum of the maximum penalties for all the crimes.

(4) Any person who was discharged after completion of his or her term or was released on parole before May 13, 1943, is not subject to the periods of rehabilitation set forth in these rules.

(b) Unless and until the period of rehabilitation, as stipulated in this section, has passed, the petitioner shall be ineligible to file his or her petition for a certificate of rehabilitation with the court. Any certificate of rehabilitation which is issued and under which the petitioner has not fulfilled the requirements of this chapter shall be void.

(c) A change of residence within this state does not interrupt the

period of rehabilitation prescribed by this section.

(3) If any personal property of the decedent is not salable at public auction, or upon a sealed-bid basis, or if it has no intrinsic value, or if its value is not sufficient to justify the deposit of the property in the State Treasury, the director may order it destroyed.

(4) All other unclaimed personal property of the decedent not disposed of as provided in paragraph (1), (2), or (3), shall be delivered by the director to the Controller for deposit in the State Treasury under Article 1 (commencing with Section 1440) of Chapter 6 of Title 10 of Part 3 of the Code of Civil Procedure.

(a) The decisions of the commission on any application of any electric utility for certification of a site and related facility are subject to judicial review in the same manner as the decisions of the Public Utilities Commission on the application for a Certificate of Public Convenience and Necessity for the same site and related facility.

(b) No new or additional evidence may be introduced upon review and the cause shall be heard on the record of the commission as certified to by it. The review shall not be extended further than to determine whether the commission has regularly pursued its authority, including a determination of whether the order or decision under review violates any right of the petitioner under the United States Constitution or the California Constitution. The findings and conclusions of the commission on questions of fact are final and are not subject to review, except as provided in this article. These questions of fact shall include ultimate facts and the findings and conclusions of the commission. A report prepared by, or an approval of, the commission pursuant to Section 25510, 25514, 25516, or 25516.5, or subdivision (b) of Section 25520.5, shall not constitute a decision of the commission subject to judicial review.

(c) Subject to the right of judicial review of decisions of the commission, no court in this state has jurisdiction to hear or determine any case or controversy concerning any matter which was, or could have been, determined in a proceeding before the commission, or to stop or delay the construction or operation of any thermal powerplant except to enforce compliance with the provisions of a decision of the commission.

Eligible liquid fuels include, but are not limited to, ethanol, methanol, and vegetable oils. Eligible biomass resources include, but are not limited to, agricultural products and byproducts, forestry products and byproducts, and industrial wastes. The commission shall adopt rules and regulations necessary to implement the program. Prior to determining an applicant eligible for participation in the production incentive program, the commission shall find, among other things, that the production techniques employed will lead to a net increase in the amount of energy available for consumption.

25679. Applicants for a grant under this chapter shall submit an application on a form prescribed by the commission which is responsible for administration of the program.

SEC. 156. Section 26022 of the Public Resources Code is amended

to read:

26022. (a) The authority is authorized from time to time to issue its negotiable bonds, notes, debentures, or other securities (hereinafter collectively called "bonds") for any of its purposes. The bonds may be authorized, without limiting the generality of the foregoing, to finance a single project for a single participating party, a series of projects for a single participating party, a single project for several participating parties, or several projects for several participating parties. In anticipation of the sale of bonds as authorized by Section 26020, or as may be authorized pursuant to Section 26021, the authority may issue negotiable bond anticipation notes and may renew the notes from time to time. The bond anticipation notes may be paid from the proceeds of sale of the bonds of the authority in anticipation of which they were issued. Notes and agreements relating to the notes and bond anticipation notes, hereinafter collectively called notes, and the resolution or resolutions authorizing the notes may contain any provisions, conditions or limitations which a bond, agreement relating to the bond, and bond resolution of the authority may contain. However, a note or renewal of the note shall mature at a time not exceeding two years from the date of issue of the original note.

(b) Except as may otherwise be expressly provided by the authority, every issue of its bonds, notes, or other obligations shall be general obligations of the authority payable from any revenues or moneys of the authority available for these purposes and not otherwise pledged, subject only to any agreements with the holders of particular bonds, notes, or other obligations pledging any particular revenues or moneys and subject to any agreements with any participating party. Notwithstanding that the bonds, notes, or other obligations may be payable from a special fund, they are for all purposes negotiable instruments, subject only to the provisions of the bonds, notes, or other obligations for registration.

(c) Subject to the limitations in Sections 26020 and 26021, the bonds may be issued as serial bonds or as term bonds, or the authority, in its discretion, may issue bonds of both types. The bonds shall be authorized by resolution of the authority and shall bear the date or dates, mature at the time or times, not exceeding 50 years from their respective dates, bear interest at the rate or rates, be payable at the time or times, be in the denominations, be in the form, either coupon or registered, carry the registration privileges, be executed in a manner, be payable in lawful money of the United States of America at a place or places, and be subject to terms of redemption, as the resolution or resolutions may provide. The bonds or notes shall be sold by the Treasurer within 60 days of receipt of a certified copy of the authority's resolution authorizing the sale of the bonds. However, the authority, at its discretion, may adopt a resolution extending the 60-day period. The sales may be a public or private sale, and for the price or prices and on the terms and conditions, as the authority shall determine after giving due

consideration to the recommendations of any participating party to be assisted from the proceeds of the bonds or notes. Pending preparation of the definitive bonds, the Treasurer may issue interim receipts, certificates, or temporary bonds which shall be exchanged for the definitive bonds. The Treasurer may sell any bonds, notes, or other evidence of indebtedness at a price below their par value. However, the discount on any security so sold shall not exceed 6 percent of the par value.

(d) Any resolution or resolutions authorizing any bonds or any issue of bonds may contain provisions, which shall be a part of the contract with the holders of the bonds to be authorized, as to all of the following:

(1) Pledging the full faith and credit of the authority or pledging all or any part of the revenues of any project or any revenue-producing contract or contracts made by the authority with any individual, partnership, corporation, or association or other body, public or private, or other moneys of the authority, to secure the payment of the bonds or of any particular issue of bonds, subject to the agreements with bondholders as may then exist.

(2) The rentals, fees, purchase payments, loan repayments, and other charges to be charged, and the amounts to be raised in each year by the charges, and the use and disposition of the revenues.

(3) The setting aside of reserves or sinking funds, and the regulation and disposition of the reserves or sinking funds.

(4) Limitations on the right of the authority or its agent to restrict and regulate the use of the project or projects to be financed out of the proceeds of the bonds or any particular issue of bonds.

(5) Limitations on the purpose to which the proceeds of sale of any issue of bonds then or thereafter to be issued may be applied and pledging those proceeds to secure the payment of the bonds or any issue of the bonds.

(6) Limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding bonds.

(7) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which that consent may be given.

(8) Limitations on expenditures for operating, administrative, or other expenses of the authority.

(9) Defining the acts or omissions to act which constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of the holders in the event of a default.

(10) The mortgaging of any project and the site of the project for the purpose of securing the bondholders.

(11) The mortgaging of land, improvements, or other assets owned by a participating party for the purpose of securing the bondholders.

(12) Procedures for the selection of projects to be financed with the proceeds of the bonds authorized by the resolution, if the bonds are to be sold in advance of the designation of the projects and participating parties to receive the financing.

(e) Neither the members of the authority nor any person executing the bonds or notes shall be liable personally on the bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

(f) The authority shall have power out of any funds available for these purposes to purchase its bonds or notes. The authority may hold, pledge, cancel, or resell those bonds, subject to and in accordance with agreements with bondholders.

SEC. 160. Section 310 of the Public Utilities Code is amended to read:

310. No vacancy in the commission impairs the right of the remaining commissioners to exercise all the powers of the commission. A majority of the commissioners constitutes a quorum for the transaction of any business, for the performance of any duty, or for the exercise of any power of the commission. Any investigation, inquiry, or hearing which the commission may undertake or hold may be undertaken or held by or before any commissioner or commissioners designated for the purpose by the commission. The evidence in any investigation, inquiry, or hearing may be taken by the commissioner or commissioners to whom the investigation, inquiry, or hearing has been assigned or, in his, her, or their behalf, by an administrative law judge designated for that purpose. Every finding, opinion, and order made by the commissioner or commissioners so designated, pursuant to the investigation, inquiry, or hearing, when approved or confirmed by the commission and ordered filed in its office, is the finding, opinion, and order of the commission.

SEC. 161. Section 311 of the Public Utilities Code is amended to read:

311. (a) The commission, each commissioner, the executive director, and the assistant executive directors may administer oaths,

certify to all official acts, and issue subpoenas for the attendance of witnesses and the production of papers, waybills, books, accounts, documents, and testimony in any inquiry, investigation, hearing, or proceeding in any part of the state.

(b) The administrative law judges may administer oaths, examine witnesses, issue subpoenas, and receive evidence, under rules that the commission adopts. The commission, upon scheduling hearings and specifying the scope of issues to be heard in any proceeding involving an electrical, gas, telephone, railroad, or water corporation, or a highway carrier, shall assign an administrative law judge to preside over the hearings, either sitting alone or assisting the commissioner or commissioners who will hear the case.

(c) The evidence in any hearing shall be taken by the administrative law judge designated for that purpose. The administrative law judge may receive and exclude evidence offered in the hearing in accordance with the rules of practice and procedure of the commission.

(d) The administrative law judge shall prepare and file an opinion setting forth recommendations, findings, and conclusions. The opinion of the administrative law judge is the proposed decision and a part of the public record in the proceeding. The proposed decision of the administrative law judge shall be filed with the commission and served upon all parties to the action or proceeding without undue delay, not later than 90 days after the matter has been submitted for decision. The commission shall issue its decision not sooner than 30 days following filing and service of the proposed decision by the administrative law judge, except that the 30-day period may be reduced or waived by the commission in an unforeseen emergency situation or upon the stipulation of all parties to the proceeding. The commission may, in issuing its decision, adopt, modify, or set aside the proposed decision or any part of the decision. Every finding, opinion, and order made in the proposed decision and approved or confirmed by the commission shall, upon that approval or confirmation, be the finding, opinion, and order of the commission.

(e) The commission may specify that the administrative law judge assigned to a proceeding involving an electrical, gas, telephone, railroad, or water corporation, or a highway carrier, initiated by customer or subscriber complaint need not prepare, file, and serve an opinion, unless the commission finds that to do so is required in the public interest in a particular case.

DIVISION 15.5. TUOLUMNE COUNTY TRAFFIC AUTHORITY

SEC. 164. Section 65 of the Revenue and Taxation Code is amended to read:

65. (a) The creation, transfer, or termination of any joint tenancy is a change in ownership except as provided in this section and Sections 62 and 63. Upon a change in ownership of a joint tenancy interest only the interest or portion which is thereby transferred from one owner to another owner shall be reappraised.

(b) There shall be no change in ownership upon the creation or transfer of a joint tenancy interest if the transferor or transferors, after the creation or transfer, are among the joint tenants. Upon the creation of a joint tenancy interest described in this subdivision, the transferor or transferors shall be the "original transferor or transferors" for purposes of determining the property to be reappraised on subsequent transfers. The spouses of original transferors shall also be considered original transferors within the meaning of this section.

(c) Upon the termination of an interest in any joint tenancy described in subdivision (b), the entire portion of the property held by the original transferor or transferors prior to the creation of the joint tenancy shall be reappraised unless it vests, in whole or in part, in any remaining original transferor, in which case there shall be no reappraisal. Upon the termination of the interest of the last surviving original transferor, there shall be a reappraisal of the interest then transferred and all other interests in the properties held by all original transferors which were previously excluded from reappraisal pursuant to this section.

(d) Upon the termination of an interest held by other than the original transferor in any joint tenancy described in subdivision (b), there shall be no reappraisal if the entire interest is transferred either to an original transferor or to all remaining joint tenants.

(e) For purposes of this section, for joint tenancies created on or before March 1, 1975, it shall be rebuttably presumed that each joint tenant holding an interest in property as of March 1, 1975, shall be an "original transferor." This presumption is not applicable to joint tenancies created after March 1, 1975.

SEC. 165. Section 69.5 of the Revenue and Taxation Code is amended to read:

69.5. (a) Notwithstanding any other provision of law, pursuant to subdivision (a) of Section 2 of Article XIII A of the California Constitution, any person over the age of 55 years who resides in property which is eligible for the homeowner's exemption under subdivision (k) of Section 3 of Article XIII of the California Constitution and Section 218 may transfer, subject to the conditions and limitations provided in this section, the base year value of that

property to any replacement dwelling of equal or lesser value which is located within the same county and is purchased or newly constructed by that person as his or her principal residence within two years of the sale by that person of the original property, provided that the base year value of the original property shall not be transferred to the replacement dwelling until the original property is sold.

(b) In addition to meeting the requirements of subdivision (a), any person claiming the property tax relief provided by this section shall be eligible for that relief only if the following conditions are met:

(1) At the time of the sale of the original property, the claimant is an owner and a resident of that property.

(2) At the time of the sale of the original property, the property is eligible for the homeowner's exemption as the result of the claimant's ownership and occupation of the property as his or her principal residence.

(3) At the time of the sale of the original property, the claimant or the claimant's spouse who resides with the claimant is at least 55 years of age.

(4) At the time of claiming the property tax relief provided by subdivision (a), the claimant is an owner of a replacement dwelling and occupies it as his or her principal place of residence and, as a result thereof, the property is currently eligible for the homeowner's exemption or would be eligible for the exemption except that the property is already receiving the exemption because of an exemption claim filed by the previous owner.

(5) The original property of the claimant is sold by him or her within two years of the purchase or new construction of the replacement dwelling. For purposes of this paragraph, the purchase or new construction of the replacement dwelling includes the purchase of that portion of land on which the replacement building, structure, or other shelter constituting a place of abode of the claimant will be situated and which, pursuant to paragraph (3) of subdivision (g), constitutes a part of the replacement dwelling.

(6) The replacement dwelling, including that portion of land on which it is situated which is specified in paragraph (5), is located entirely within the same county as the claimant's original property.

(7) The claimant has not previously been granted the property tax relief provided by this section. In order to prevent duplication of claims under this section within this state, county assessors shall supply that information from claims filed in accordance with subdivision (f) and from county records as is specified by the written request of the board necessary to identify fully all claims under this section allowed by assessors. The board may specify that the information include all or a part of the names and social security numbers of claimants and their spouses and the identity and location of the replacement dwelling to which the claim applies. The information may be required in the form of data processing media

or other media and in a format which is compatible with the recordkeeping processes of the counties and the auditing procedures of the state.

(c) The property tax relief provided by this section shall be available if the original property or the replacement dwelling, or both, of the claimant, includes, but is not limited to, either of the following:

(1) A unit or lot within a cooperative housing corporation, a community apartment project, a condominium project, or a planned unit development. If the unit or lot constitutes the original property of the claimant, the assessor shall transfer to the claimant's replacement dwelling only the base year value of the claimant's unit or lot and his or her share in any common area reserved as an appurtenance of that unit or lot. If the unit or lot constitutes the replacement dwelling of the claimant, the assessor shall transfer the base year value of the claimant's original property only to the unit or lot of the claimant and any share of the claimant in any common area reserved as an appurtenance of that unit or lot.

(2) A mobilehome or a mobilehome and any land owned by the claimant on which the mobilehome is situated. If the mobilehome or the mobilehome and the land on which it is situated constitutes the claimant's original property, the assessor shall transfer to the claimant's replacement dwelling either the base year value of the mobilehome or the base year value of the mobilehome and the land on which it is situated, as appropriate. No transfer of base year value shall be made by the assessor of that portion of land which does not constitute a part of the original property, as provided in paragraph (4) of subdivision (g). If the mobilehome or the mobilehome and the land on which it is situated constitutes the claimant's replacement dwelling, the assessor shall transfer the base year value of the claimant's original property either to the mobilehome or the mobilehome and the land on which it is situated, as appropriate. No transfer of base year value shall be made by the assessor to that portion of land which does not constitute a part of the replacement dwelling, as provided in paragraph (3) of subdivision (g).

This subdivision shall be subject to the limitations specified in subdivision (d).

(d) The property tax relief provided by this section shall be available to a claimant who is the coowner of original property, as a joint tenant, a tenant in common, or a community property owner, subject to the following limitations:

(1) If a single replacement dwelling is purchased or newly constructed by all of the coowners and each coowner retains the same proportional interest in the replacement property as he or she held in the original property, the claimant shall be eligible under this section whether or not any or all of the remaining coowners would otherwise be eligible claimants.

(2) If two or more replacement dwellings are separately purchased or newly constructed by two or more coowners and more

than one coowner would otherwise be an eligible claimant, only one coowner shall be eligible under this section. These coowners shall determine by mutual agreement which one of them is eligible.

(3) If two or more replacement dwellings are separately purchased or newly constructed by two coowners who held the original property as community property, only the coowner who has attained the age of 55 years shall be eligible under this section. If both spouses are over 55 years of age, they shall determine by mutual agreement which one of them is eligible.

(e) Upon the sale of original property, the assessor shall determine a new base year value for that property in accordance with subdivision (a) of Section 2 of Article XIII A of the California Constitution and Section 110.1, whether or not a replacement dwelling is subsequently purchased or newly constructed by the former owner or owners of the original property.

This section shall not apply in any case in which the transfer of the original property is not a change in ownership which subjects that property to reappraisal at its current fair market value in accordance with Section 110.1 or 5803.

(f) A claimant shall not be eligible for the property tax relief provided by this section unless the claimant provides to the assessor, on a form which the assessor shall make available upon request, the following information:

(1) The name and social security number of the claimant and of any spouse of the claimant who was a record owner of the original property at the time of its sale or is a record owner of the replacement dwelling.

(2) Proof that the claimant or the claimant's spouse who resided on the original property with the claimant was, at the time of its sale, at least 55 years of age. In the absence of available proof, the claimant shall certify under penalty of perjury that the age requirement is met.

(3) The address and, if known, the assessor's parcel number of the original property.

(4) The date of the claimant's sale of the original property and the date of the claimant's purchase or new construction of a replacement dwelling.

(5) A statement by the claimant that he or she will occupy the replacement dwelling as his or her principal place of residence within one year of the date of the filing of his or her claim.

The State Board of Equalization shall design the form for claiming eligibility.

Any claim under this section shall be filed within three years of the date the replacement dwelling was purchased or the new construction of the replacement dwelling was completed.

(g) For purposes of this section:

(1) "Person over the age of 55 years" means any person or the spouse of any person who has attained the age of 55 years or older at the time of the sale of original property.

(2) "Base year value of the original property" means its base year value, as determined in accordance with Section 110.1, with the adjustments permitted by subdivision (b) of Section 2 of Article XIII A of the California Constitution and subdivision (f) of Section 110.1, determined as of the date immediately prior to the date that the original property is sold by the claimant.

(3) "Replacement dwelling" means a building, structure, or other shelter constituting a place of abode, whether real property or personal property, which is owned and occupied by a claimant as his or her principal place of residence, and any land owned by the claimant on which the building, structure, or other shelter is situated. For purposes of this paragraph, land constituting a part of a replacement dwelling includes only that area of reasonable size which is used as a site for a residence.

(4) "Original property" means a building, structure, or other shelter constituting a place of abode, whether real property or personal property, which is owned and occupied by a claimant as his or her principal place of residence, and any land owned by the claimant on which the building, structure, or other shelter is situated. For purposes of this paragraph, land constituting a part of original property includes only that area of reasonable size which is used as a site for a residence.

(5) "Equal or lesser value" means that the amount of the full cash value of a replacement dwelling does not exceed one of the following:

(A) One hundred percent of the amount of the full cash value of the original property if the replacement dwelling is purchased or newly constructed prior to the date of the sale of the original property.

(B) One hundred and five percent of the amount of the full cash value of the original property if the replacement dwelling is purchased or newly constructed within the first year following the date of the sale of the original property.

(C) One hundred and ten percent of the amount of the full cash value of the original property if the replacement dwelling is purchased or newly constructed within the second year following the date of the sale of the original property.

(6) "Full cash value of the replacement dwelling" means its full cash value, determined in accordance with Section 110.1, as of the date on which it was purchased or new construction was completed, and after the purchase or the completion of new construction.

(7) "Full cash value of the original property" means its new base year value, determined in accordance with subdivision (e), without the application of subdivision (h) of Section 2 of Article XIII A of the California Constitution, plus the adjustments permitted by subdivision (b) of Section 2 of Article XIII A and subdivision (f) of Section 110.1 for the period from the date of its sale by the claimant to the date on which the replacement property was purchased or new construction was completed.

(8) "Sale" means any change in ownership of the original property for consideration.

(9) "Claimant" means any person claiming the property tax relief provided by this section. If a spouse of that person is a record owner of the original property or the replacement dwelling, whether or not that spouse joined in the claim, the spouse is also a claimant for purposes of determining whether in any future claim filed by the spouse under this section the condition of eligibility specified in paragraph (7) of subdivision (b) has or has not been met by the spouse.

(10) "Property which is eligible for the homeowner's exemption" includes property which is the principal place of residence of its owner and is entitled to exemption pursuant to Section 205.5.

(h) Upon the timely filing of a claim, the assessor shall adjust the new base year value of the replacement dwelling in conformity with this section. This adjustment shall be made as of the latest of the following dates:

(1) The date the original property is sold.

(2) The date the replacement dwelling is purchased.

(3) The date the new construction of the replacement dwelling is completed.

Any taxes which were levied on the replacement dwelling prior to the filing of the claim on the basis of the replacement dwelling's new base year value, and any allowable annual adjustments thereto, shall be canceled or refunded to the claimant to the extent that the taxes exceed the amount which would be due when determined on the basis of the adjusted new base year value.

(i) This section shall apply to any replacement dwelling which is purchased or newly constructed on or after November 6, 1986.

SEC. 166. Section 99 of the Revenue and Taxation Code is amended to read:

99. (a) For the purposes of the computations required by this chapter:

(1) In the case of a jurisdictional change, other than a city incorporation or a formation of a district as defined in Section 2215 , the auditor shall adjust the allocation of property tax revenue determined pursuant to Section 96 or 97, or the annual tax increment determined pursuant to Section 98, for local agencies whose service area or service responsibility would be altered by the jurisdictional change, as determined pursuant to subdivision (b) or (c).

(2) In the case of a city incorporation or a formation of a district as defined in Section 2215, the auditor shall assign the allocation of property tax revenues determined pursuant to Section 56842 of the Government Code to the newly formed city or district and shall make the adjustment as determined by Section 56842 in the allocation of property tax revenue determined pursuant to Section 96 or 97 for each local agency whose service area or service responsibilities would be altered by the incorporation or formation.

the Cortese-Knox Local Government Reorganization Act of 1985 (Division 3 (commencing with Section 56000) of Title 5 of the Government Code), but prior to the issuance of a certificate of filing, the executive officer shall give notice of the filing to the assessor and auditor of each county within which the territory subject to the jurisdictional change is located. The notice shall specify each local agency whose service area or responsibility will be altered by the jurisdictional change.

(B) The auditor shall estimate the amount of property tax revenue generated within the territory which is the subject of the jurisdictional change during the current fiscal year.

(2) The auditor shall estimate what proportion of the property tax revenue determined pursuant to paragraph (1) is attributable to each local agency pursuant to Section 96 or 97, and Section 98, notwithstanding the provisions of Section 98.6.

(3) Within 45 days of notice of the filing of an application or resolution, the auditor shall notify the governing body of each local agency whose service area or service responsibility will be altered by the amount of, and allocation factors with respect to, property tax revenue estimated pursuant to paragraph (2) which is subject to a negotiated exchange.

(4) Upon receipt of the estimates pursuant to paragraph (3) the local agencies shall commence negotiations to determine the amount of property tax revenues to be exchanged between and among the local agencies. The negotiation period shall not exceed 30 days.

The exchange may be limited to an exchange of property tax revenues from the annual tax increment generated in the area subject to the jurisdictional change and attributable to the local agencies whose service area or service responsibilities will be altered by the proposed jurisdictional change. The final exchange resolution shall specify how the annual tax increment shall be allocated in future years.

(5) In the event that a jurisdictional change would affect the service area or service responsibility of one or more special districts, the board of supervisors of the county or counties in which the districts are located shall, on behalf of the district or districts, negotiate any exchange of property tax revenues.

(6) Notwithstanding any other provision of law, the executive officer shall not issue a certificate of filing pursuant to Section 56828 of the Government Code until the local agencies included in the property tax revenue exchange negotiation, within the 30-day negotiation period, present resolutions adopted by each county and city whereby each county and city agrees to accept the exchange of property tax revenues.

(7) In the event that the commission modifies the proposal or its

resolution of determination, any local agency whose service area or service responsibility would be altered by the proposed jurisdictional change may request, and the executive officer shall grant, 15 days for the affected agencies, pursuant to paragraph (4), to renegotiate an exchange of property tax revenues. Notwithstanding the time period specified in paragraph (4), if the resolutions required pursuant to paragraph (6) are not presented to the executive officer within the 15-day period, all proceedings of the jurisdictional change shall automatically be terminated.

(8) No later than the date on which the certificate of completion of the jurisdictional change is recorded with the county recorder, the executive officer shall notify the auditor or auditors of the exchange of property tax revenues and the auditor or auditors shall make the appropriate adjustments as provided in subdivision (a).

(c) Whenever a jurisdictional change is not required to be reviewed and approved by a local agency formation commission, the local agencies whose service area or service responsibilities would be altered by the proposed change, shall give notice to the State Board of Equalization and the assessor and auditor of each county within which the territory subject to the jurisdictional change is located. The notice shall specify each local agency whose service area or responsibility will be altered by the jurisdictional change and request the auditor and assessor to make the determinations required pursuant to paragraphs (1) and (2) of subdivision (b). Upon notification by the auditor of the amount of, and allocation factors with respect to, property tax subject to exchange, the local agencies, pursuant to the provisions of paragraphs (4), (5), and (6) of subdivision (b), shall determine the amount of property tax revenues to be exchanged between and among the local agencies. Notwithstanding any other provision of law, no jurisdictional change shall become effective until each county and city included in the negotiations agrees, by resolution, to accept the negotiated exchange of property tax revenues. The exchange may be limited to an exchange of property tax revenue from the annual tax increment generated in the area subject to the jurisdictional change and attributable to the local agencies whose service area or service responsibilities will be altered by the proposed jurisdictional change. The final exchange resolution shall specify how the annual tax increment shall be allocated in future years. Upon the adoption of the resolutions required pursuant to this section, the adopting agencies shall notify the auditor who shall make the appropriate adjustments as provided in subdivision (a).

(d) With respect to adjustments in the allocation of property taxes pursuant to this section, a county and any local agency or agencies within the county may develop and adopt a master property tax transfer agreement. The agreement may be revised from time to time by the parties subject to the agreement.

(e) Except as otherwise provided in subdivision (f), for the purpose of determining the amount of property tax to be allocated

in the 1979–80 fiscal year and thereafter for those local agencies which were affected by a jurisdictional change which was filed with the State Board of Equalization after January 1, 1978 but on or before January 1, 1979. The local agencies shall determine by resolution the amount of property tax revenues to be exchanged between and among the affected agencies and notify the auditor of the determination.

(f) For the purpose of determining the amount of property tax to be allocated in the 1979–80 fiscal year and thereafter, for a city incorporation which was filed pursuant to Sections 54900 to 54904, inclusive, of the Government Code after January 1, 1978, but on or before January 1, 1979, the amount of property tax revenue considered to have been received by the jurisdiction for the 1978–79 fiscal year shall be equal to two-thirds of the amount of property tax revenue projected in the final local agency formation commission staff report pertaining to the incorporation multiplied by the proportion that the total amount of property tax revenue received by all jurisdictions within the county for the 1978–79 fiscal year bears to the total amount of property tax revenue received by all jurisdictions within the county for the 1977–78 fiscal year. However, in the event that the final commission report did not specify the amount of property tax revenue projected for the incorporation, the commission shall by October 10, determine pursuant to Section 56842 of the Government Code the amount of property tax to be transferred to the city.

This subdivision shall also apply to the allocation of property taxes for the 1980–81 fiscal year and thereafter for incorporations approved by the voters in June 1979.

(g) For the purpose of the computations made pursuant to this section, in the case of a district formation which was filed pursuant to Sections 54900 to 54904, inclusive, of the Government Code after January 1978, but before January 1, 1979, the amount of property tax to be allocated to the district for the 1979–80 fiscal year and each fiscal year thereafter shall be determined pursuant to Section 56842 of the Government Code.

(h) For the purposes of the computations required by this chapter, in the case of a jurisdictional change, other than a change requiring an adjustment by the auditor pursuant to subdivision (a), the auditor shall adjust the allocation of property tax revenue determined pursuant to Section 96 or 97, or the annual tax increment determined pursuant to Section 98, for each local school district, community college district, or county superintendent of schools whose service area or service responsibility would be altered by the jurisdictional change, as determined as follows:

(1) The governing body of each district, county superintendent of schools, or county whose service areas or service responsibilities would be altered by the change shall determine the amount of property tax revenues to be exchanged between and among the affected jurisdictions. The determination shall be adopted by each

affected jurisdiction by resolution. For the purpose of negotiation, the county auditor shall furnish the parties and the county board of education with an estimate of the property tax revenue subject to negotiation.

(2) In the event that the affected jurisdictions are unable to agree, within 60 days after the effective date of the jurisdictional change, and if all the jurisdictions are wholly within one county, the county board of education shall, by resolution, determine the amount of property tax revenue to be exchanged. If the jurisdictions are in more than one county, the State Board of Education shall, by resolution, within 60 days after the effective date of the jurisdictional change, determine the amount of property tax to be exchanged.

(3) Upon adoption of any resolution pursuant to this subdivision, the adopting jurisdictions or State Board of Education shall notify the county auditor who shall make the appropriate adjustments as provided in subdivision (a).

(i) For purposes of subdivision (h), the annexation by a community college district of territory within a county not previously served by a community college district is an alteration of service area. The community college district and the county shall negotiate the amount, if any, of property tax revenues to be exchanged. In the negotiations, there shall be taken into consideration the amount of revenue received from the timber yield tax and forest reserve receipts by the community college district in the area not previously served. In no event shall the property tax revenue to be exchanged exceed the amount of property tax revenue collected prior to the annexation for the purposes of paying tuition expenses of residents enrolled in the community college district, adjusted each year by the percentage change in population and the percentage change in cost of living, or per capita personal income, whichever is lower, less the amount of revenue received by the community college district in the annexed area from the timber yield tax and forest reserve receipts.

(j) At any time after a jurisdictional change is effective, any of the local agencies party to the agreement to exchange property tax revenue may renegotiate the agreement with respect to the current fiscal year or subsequent fiscal years, subject to approval by all local agencies affected by the renegotiation.

CHAPTER 11.8. CARRYOVERS

SEC. 173. Section 25110 of the Revenue and Taxation Code is amended to read:

25110. (a) Notwithstanding Section 25101, a qualified taxpayer, as defined in paragraph (2) of subdivision (b) which is subject to the tax imposed under this part, may elect to determine its income derived from or attributable to sources within this state pursuant to a water's-edge election in accordance with the provisions of this part, as modified by this article. A taxpayer which makes a water's-edge election shall take into account the income and apportionment factors of the following affiliated entities only:

(1) Affiliated banks or corporations which are eligible to be included in a federal consolidated return as described in Sections 1501 to 1505, inclusive, of the Internal Revenue Code.

(2) Domestic international sales corporations, as described in Sections 991 to 994, inclusive, of the Internal Revenue Code, and foreign sales corporations as described in Sections 921 to 927, inclusive, of the Internal Revenue Code.

(3) Any corporation, regardless of the place where it is incorporated, if the average of its property, payroll, and sales factors within the United States is 20 percent or more.

(4) Banks and corporations which are incorporated in the United States, excluding corporations described in Sections 931 to 936, inclusive, of the Internal Revenue Code, of which more than 50 percent of their stock is controlled directly or indirectly by the same interests, which are not included in paragraph (1).

(5) A bank or corporation which is not described in paragraphs (1) to (4), inclusive, or paragraph (6), but only to the extent of its income derived from or attributable to sources within the United States and its factors assignable to a location within the United States in accordance with paragraph (3). Income of such a bank or corporation derived from or attributable to sources within the United States shall be limited to and determined from the books of account maintained by the bank or corporation with respect to its activities conducted within the United States as determined by federal income tax law.

(6) Export trade corporations, as described in Sections 970 to 972, inclusive, of the Internal Revenue Code.

(7) (A) The income and factors of the above-enumerated banks and corporations shall be taken into account only if the income and factors would have been taken into account under Section 25101 if this section had not been enacted.

(B) The income and factors of a bank which is not described in paragraphs (1) to (4), inclusive, and paragraph (6) and which is an electing taxpayer under this subdivision shall be taken into account in determining its income only to the extent set forth in paragraph (5).

(8) Any affiliated bank or corporation which is a "controlled foreign corporation," as defined in Section 957 of the Internal Revenue Code, if all or part of the income of that affiliate is defined in Section 952 of Subpart F of the Internal Revenue Code ("Subpart F income"). The income and apportionment factors of any affiliate to be included under this paragraph shall be determined by multiplying the income and apportionment factors of that affiliate without application of this paragraph by a fraction, not to exceed one, the numerator of which is the "Subpart F income" of that bank or corporation and the denominator of which is the "earnings and profits" of that bank or corporation, as defined in Section 964 of the Internal Revenue Code.

(b) For purposes of this section:

(1) An "affiliated bank or corporation," for purposes of this article, means a bank or corporation which is part of one or more chains of banks or corporations connected through stock ownership with a common parent if both of the following exist:

(A) Over 50 percent of the voting stock of the bank or corporation is directly or indirectly owned or controlled by one or more of the other banks or corporations.

(B) The common parent owns directly or indirectly over 50 percent of the voting stock of at least one of the other banks or corporations.

(2) A "qualified taxpayer" means a bank or corporation which does both of the following:

(A) Files with the state tax return on which the water's-edge election is made a consent to the taking of depositions from key domestic corporate individuals and to the acceptance of subpoenas duces tecum requiring reasonable production of documents to the Franchise Tax Board as provided in Section 26423 or by the State Board of Equalization or by the courts of this state. The consent shall remain in effect so long as the water's-edge election is in effect and shall be limited to providing that information necessary to review or to adjust income or deductions in a manner authorized under Sections 482, 861, Subpart F of Part III of Subchapter N, or similar provisions of the Internal Revenue Code, together with the regulations adopted pursuant to those provisions, and for the conduct of an investigation with respect to any unitary business in which the

taxpayer may be involved.

(B) Agrees that for purposes of this article, dividends received by any bank or corporation whose income and apportionment factors are taken into account pursuant to subdivision (a) from either of the following are functionally related dividends subject to Section 24111 and shall be presumed to be business income:

(i) A bank or corporation of which more than 50 percent of the voting stock is owned, directly or indirectly, by members of the unitary group and which is engaged in the same general line of business.

(ii) Any bank or corporation which is either a significant source of supply for the unitary business or a significant purchaser of the output of the unitary business, or which sells a significant part of its output or obtains a significant part of its raw materials or input from the unitary business. "Significant," as used in this subparagraph, means an amount of 15 percent or more of either input or output.

All other dividends shall be classified as business or nonbusiness income without regard to this subparagraph.

(3) The definitions and locations of property, payroll, and sales shall be determined under the laws and regulations which set forth the apportionment formulas used by the individual states to assign net income subject to taxes on or measured by net income in that state. If a state does not impose a tax on or measured by net income or does not have laws or regulations with respect to the assignment of property, payroll, and sales, the laws and regulations provided in Article 2 (commencing with Section 25120) shall apply.

Sales shall be considered to be made to a state only if the bank or corporation making the sale may otherwise be subject to a tax on or measured by net income under the Constitution or laws of the United States, and shall not include sales made to a bank or corporation whose income and apportionment factors are taken into account pursuant to this subdivision.

(4) The Franchise Tax Board, for purposes of administering the provisions of Sections 25110 and 25115, shall examine the returns filed by taxpayers subject to these provisions. Where this examination reveals potential noncompliance, a detailed examination shall be made notwithstanding the potential net revenue benefit to the state unless the taxpayer is being examined by the Internal Revenue Service for the same year or years on the same issues.

In any case of two or more organizations, trades, or businesses, whether or not organized in the United States and whether or not affiliated, which are owned or controlled directly or indirectly by the same interests, the Franchise Tax Board may distribute, apportion, or allocate gross income, deductions, credits, or allowances between or among these organizations, trades, or businesses, if the board determines that the distribution, apportionment, or allocation is necessary in order to prevent evasion of taxes or clearly to reflect the income of any of these organizations, trades, or businesses.

In making distributions, apportionments, and allocations under

this section, the Franchise Tax Board shall generally follow the rules, regulations, and procedures of the Internal Revenue Service in making audits under Section 482 of the Internal Revenue Code. Any of these rules, regulations, and procedures adopted by the Franchise Tax Board shall not be subject to review by the Office of Administrative Law.

If the Internal Revenue Service has conducted a detailed audit under Section 482 of the Internal Revenue Code and has made adjustments pursuant to that section, it shall be presumed that no further adjustments are necessary for this state's purposes. If the Internal Revenue Service has conducted a detailed audit under this section and has made or proposed no adjustments to the transaction examined, it shall be presumed that no adjustment is necessary for this state's purposes. These presumptions shall be overcome if the Franchise Tax Board or the taxpayer demonstrates that an adjustment or a failure to make an adjustment was erroneous, if it demonstrates that the results of such an adjustment would produce a minimal tax change for federal purposes because of correlative or offsetting adjustments or for other reasons, or if substantially the same federal tax result was obtained under other sections of the Internal Revenue Code. No inference shall be drawn from an Internal Revenue Service failure to audit international transactions under Section 482 of the Internal Revenue Code and it shall not be presumed that these transactions were correctly reported.

(5) "The United States" means the 50 states of the United States and the District of Columbia.

(c) All references in this part to income determined pursuant to Section 25101 shall also mean income determined pursuant to this section.

(d) A water's-edge election may be disregarded by the Franchise Tax Board only if any of the following occurs:

(1) A bank or corporation fails to comply substantially with Section 25114 or any federal law requiring the filing of domestic spreadsheets.

(2) After a reasonable adjustment of transfer prices, royalty rates, the allocation of common expenses, and similar adjustments, the return filed pursuant to this section fails to prevent the evasion of taxes.

(3) An otherwise qualified taxpayer fails to do any of the following:

(A) Retain and make available upon request the documents and information, including any questionnaires completed and submitted to the Internal Revenue Service or qualified states, which are necessary to audit issues involving attribution of income to the United States or foreign jurisdictions under Sections 482, 861, 863, 902, and 904, and Subpart F of Part III of Subchapter N, or similar sections of the Internal Revenue Code.

(B) Identify, upon request, principal officers or employees who have substantial knowledge of and access to documents and records

which discuss pricing policies, profit centers, cost centers, and the methods of allocating income and expense among these centers. The information shall include the employees' titles and addresses.

(C) Retain and make available upon request all documents and correspondence ordinarily available to a bank or corporation included in the water's-edge election which are submitted to or obtained from the Internal Revenue Service, foreign countries or their territories or possessions, and competent authority pertaining to ruling requests, rulings, settlement resolutions, and competing claims involving jurisdictional assignment and sourcing of income that affect the assignment of income to the United States. The documents shall include all ruling requests and rulings on reorganizations involving foreign incorporation of branches, all ruling requests and rulings on changing a bank or corporation's jurisdictional incorporation, and all documents which are ordinarily available to a bank or corporation included in the water's-edge election which pertain to the determination of foreign tax liability, including examination reports issued by foreign taxing administrations. If the documents have been translated, the translations shall be furnished.

(D) Prepare and make available upon request for each bank or corporation included in the disclosure spreadsheet referred to in Section 25114 in which the taxpayer is included, a list of each state of the United States, including the District of Columbia, territories or possessions, and each foreign country in which it has payroll, property, or sales. The sales shall be determined by destination whether or not the taxpayer is taxable in the destination jurisdiction.

(E) Retain and make available upon request forms filed with the Internal Revenue Service to comply with Sections 6038, 6038A, and 6041 of the Internal Revenue Code.

(F) Prepare and make available upon request, for each bank or corporation organized or created under the laws of the United States or a political subdivision thereof, of which 50 percent or more of its voting stock is directly or indirectly owned or controlled, the information which would be included in the forms described in subparagraph (E) if those forms were required for United States corporations.

(G) Retain and make available upon request all state tax returns filed by each bank or corporation included under subdivision (a) in each state, including the District of Columbia.

(H) Comply with reasonable requests for discovery directed at obtaining information necessary to determine or verify its net income, apportionment factors, or the geographic source of that income pursuant to the Internal Revenue Code.

(I) For purposes of this subdivision, information for any year shall be retained for that period of time in which the taxpayer's income or franchise tax liability to this state may be subject to adjustment, including all periods in which additional income or franchise taxes may be assessed or during which an appeal is pending before the

State Board of Equalization or a lawsuit is pending in the courts of this state or the United States with respect to California franchise or income tax.

(4) A failure to satisfy any of the requirements of paragraph (3) shall mean a willful failure to retain and make available documents that are material to a determination by the Franchise Tax Board of a qualified taxpayer's tax under this part.

of the following:

(1) A transfer of items of income or deductions or both to or from another year for the same taxpayer.

SEC. 181. Section 22651.7 of the Vehicle Code, as added by Chapter 279 of the Statutes of 1987, is amended and renumbered to read:

22655.3. Any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, pursuing a fleeing or evading person in a motor vehicle may remove and store, or cause to be removed and stored, any vehicle used in violation of Section 2800.1 or 2800.2 from property other than that of the registered owner of the vehicle for the purposes of investigation, identification, or apprehension of the driver if the driver of the vehicle abandons the vehicle and leaves it unattended. All towing and storage fees for a vehicle removed under this section shall be paid by the owner, unless the vehicle was stolen or taken without permission.

No vehicle shall be impounded under this section if the driver is arrested before arrival of the towing equipment or if the registered owner is in the vehicle.

As used in this section, "remove and store a vehicle" means that the peace officer may cause the removal of a vehicle to, and storage of a vehicle in, a private lot where the vehicle may be secured by the owner of the facility or by the owner's representative.

This section is not intended to change current statute and case law governing searches and seizures.

SEC. 182. Article 4 (commencing with Section 23240) of Chapter 12 of Division 11 of the Vehicle Code, as added by Chapter 985 of the Statutes of 1986, is repealed.

SEC. 183. Article 5 (commencing with Section 23249.50) is added to Chapter 12 of Division 11 of the Vehicle Code, to read:

Article 5. Alcohol and Drug Problem Assessment Program

23249.50. (a) The Legislature finds and declares all of the following:

(1) Driving under the influence of an alcoholic beverage or a drug is a serious problem, constituting the largest group of misdemeanor violations in many counties.

(2) Studies of first offenders have found that more than half of first offenders are alcoholics or problem drinkers. There are higher percentages of problem drinkers among second offenders than among first offenders.

(3) As the link between the health and legal aspects of the problem has become recognized, the courts have sought more information on a presentence basis in determining the appropriate sentence.

(4) Laws relating to driving under the influence of an alcoholic beverage or a drug allow the courts to order a presentence investigation to determine whether a person can benefit from an education, training, or treatment program. The Legislature thus finds that, to adequately assess whether an individual arrested for driving under the influence of an alcoholic beverage or a drug is chemically dependent, it is important to develop and implement screening programs in order to continue to address the problem of driving under the influence of alcoholic beverages or drugs in the state.

(b) It is therefore the intent of the Legislature to establish an additional procedure to assist the courts in the use of presentence investigations of individuals convicted of driving under the influence of an alcoholic beverage or a drug and to enable the courts to make appropriate dispositions in these cases. As part of this process, the courts should obtain and consider a presentence investigation report detailing the defendant's driving and criminal record, and, where possible, an alcohol or drug problem assessment report. In all cases, an alcohol or drug problem assessment report should be completed by qualified personnel prior to the determination of an education or treatment plan and subsequent sentencing by the courts.

23249.51. Notwithstanding any other requirements for the court to impose a minimum fine contained in Article 2 (commencing with Section 23152) and in order to implement this article, a court in a county selected pursuant to Section 23249 may impose as a condition of probation for any person whose driving privilege is restricted pursuant to Section 23240 that the person pay a fine of not more than one thousand dollars ($1,000), unless the person is convicted of a

violation of Section 23153, punishable under Section 23185 or 23190, in which case the court may impose as a condition of probation that the person pay a fine of not more than five thousand dollars ($5,000), which fine is in lieu of the fine prescribed in Article 2 (commencing with Section 23152). The court may consider in determining the amount of the fine to be imposed the cost to the person of installing the ignition interlock device.

This section does not affect any other terms or conditions of probation required by Article 2 (commencing with Section 23152) other than those provisions prescribing minimum fines to be imposed as terms and conditions of probation.

23249.52. A county may develop, implement, operate, and administer an alcohol and drug problem assessment program pursuant to this article by resolution of the board of supervisors. Any judicial district within the county may elect not to participate in the county alcohol and drug problem assessment program. The alcohol and drug problem assessment program may include a referral and client tracking component.

23249.53. Any person convicted of a violation of Section 23152 or 23153 in a judicial district that participates in a county alcohol and drug problem assessment program pursuant to this article shall participate in the program.

23249.54. An alcohol and drug problem assessment report shall be made on each person who participates in the program. The report may be used to determine the appropriate sentence for persons convicted of a violation of Section 23152 or 23153.

23249.55. (a) Notwithstanding any other provision of law, in addition to any other fine or penalty assessment, there shall be levied an assessment of not more than fifty dollars ($50) upon every fine, penalty, or forfeiture imposed and collected by the courts for a violation of Section 23152 or 23153 in any judicial district that participates in a county alcohol and drug problem assessment program pursuant to this article.

(b) The court may determine if the defendant has the ability to pay the assessment. If the court determines that the defendant has the ability to pay the assessment then the court may set the amount to be reimbursed and order the defendant to pay that sum to the county in the manner which the court determines is reasonable and compatible with the defendant's financial ability. In making a determination of whether a defendant has the ability to pay, the court shall take into account the amount of any fine imposed upon the defendant and any amount the defendant has been ordered to pay in restitution.

(c) Notwithstanding Section 1463 or 1464 of the Penal Code or any other provision of law, all moneys collected pursuant to this section shall be deposited in a special account in the county treasury and shall be used exclusively to pay for the costs of developing, implementing, operating, maintaining, and evaluating alcohol and drug problem assessment programs.

(d) On January 15 of each year, the treasurer of each county that administers an alcohol and drug problem assessment program shall determine those moneys in the special account which were not expended during the preceding fiscal year, and shall transfer those moneys to the general fund of the county.

(e) Any moneys remaining in the special account, if and when the alcohol and drug problem assessment program is terminated, shall be transferred to the general fund of the county.

(f) The county treasurer shall annually transfer an amount of money equal to the county's administrative cost incurred pursuant to this section, as he or she shall determine, from the special account to the general fund of the county.

23249.56. The Office of Traffic Safety shall adopt rules and guidelines to implement this article.

23249.57. Any alcohol and drug problem assessment program established pursuant to this article may be terminated by the county on or before December 31, 1989.

23249.58. This article shall remain in effect only until January 1, 1990, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1990, deletes or extends that date.

(*l*) The street address of the property, if available.
