An act to amend Sections 1917.320, 1917.330, 1917.331, and 1917.711 of the Civil Code, relating to shared appreciation loans for seniors.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1917.320 of the Civil Code is amended to read:

1917.320. For the purposes of this chapter:

(a) "Actual contingent interest" means the lender's appreciation share of the net appreciated amount. In no event, however, shall the rate of appreciation upon which actual contingent interest is calculated at the end of the loan term exceed 2½ times the rate at which projected contingent interest had been calculated.

(b) "Actual life expectancy" shall be calculated based upon actuarial tables for women only, regardless of the sex of the borrower, and acceptable to both the state and the insurance industry.

(c) "Annuity base amount" means the projected loan amount less (1) the initial advance and (2) the projected contingent interest based on the reasonable appreciation rate used in calculating the projected loan amount.

(d) "Borrower" means the recipient or recipients of a shared appreciation loan for seniors who is obligated by execution of a promissory note and who is at least 65 years of age.

(e) "Borrower's life expectancy" means the actual life expectancy of the borrower plus no more than five years. In the case of a loan executed by two borrowers, the actual life expectancy shall be based upon the youngest of the two.

(f) "Cessation of occupancy" means the rental to a third party of the right of exclusive occupancy of the subject property, or the abandonment by all coborrowers of the property as his or her residence.

(g) "Lender" means any corporation organized as a public benefit corporation pursuant to the Nonprofit Corporation Law (Part 2 (commencing with Section 5110), Div. 2, Title 1, Corp. C.).

(h) "Lender's appreciation share" means a proportion not to exceed 25 percent of the appreciation of the property securing the loan calculated in accordance with this chapter.

(i) "Shared appreciation loan for seniors" means any loan made pursuant to this chapter upon the security of owner-occupied real property of a type specified in Section 1917.330, and in connection with which the lender has a right to receive a share of the appreciation in the value of the security property. "Shared appreciation loan" includes a deed of trust and any evidence of debt issued in connection with the loan.

(j) "Maturity event" means the earliest of any of the following:

(1) The death of the borrower. In the case of a married couple who are coborrowers, the death of the surviving spouse.

(2) The date of sale.

(3) The date a loan made pursuant to this chapter is refinanced or repaid in full.

(4) Cessation of occupancy.

(k) "Monthly annuity" means an amount paid in equal monthly installments to the borrower which, together with interest calculated at the stated rate, shall exhaust the annuity base amount during the borrower's life expectancy.

In the event that the calculated monthly annuity exceeds the cap or ceiling determined in accordance with this subdivision, the lender may limit the actual monthly annuity payment to an amount not lower than the cap. If the cap is imposed, the lender's appreciation share shall be limited to 25 percent times the ratio between the actual capped monthly payment and the monthly payment calculated in accordance with the first sentence of this subdivision. For example, if the monthly payment calculated in the first sentence is five thousand dollars ($5,000), but the lender applies a two thousand five hundred dollar ($2,500) ceiling, the lender's share of the home's appreciation shall be likewise reduced by 50 percent.

The minimum cap shall be two thousand five hundred dollars ($2,500) for loans made during the calendar year 1989. In subsequent calendar years, the minimum cap shall be two thousand five hundred dollars ($2,500) increased to reflect the proportional increase in the Consumer Price Index for the State of California, as determined by the United States Bureau of Labor Statistics, for the period from January 1, 1989, until the November monthly index figure for the year prior to the year in which the loan agreement is entered into.

(*l*) "Net advance" means any lump-sum advance of funds by the lender to the borrower made at the time of the loan closing. Net advance shall not exceed 15 percent of the projected loan amount.

(m) "Net appreciated value" means the difference between the fair market value of the property securing the loan at the time the loan is made and the fair market value of the property securing the loan at the time of the maturity event, less any credit for approved improvements made during the term of the loan.

(n) "Prevailing rate" means the yield of a 30-year mortgage commitment for delivery within 30 days for a standard conventional fixed rate mortgage of the Federal Home Loan Mortgage Corporation.

(o) "Projected contingent interest" means the lender's appreciation share of the projected appreciation of the property securing the loan from the date of the loan until the end of the borrower's life expectancy, using the same reasonable projection of annual appreciation used in determining the projected loan amount.

(p) "Projected loan amount" means not less than 75 percent of the estimated fair market value of the borrower's home at the end

of the borrower's life expectancy, calculated by applying to the fair market value a reasonable projection of appreciation over the borrower's life expectancy based on a reasonable projected annual appreciation rate of the fair market value of the home.

(q) "Sale" means any transfer of title to the property and includes the execution of an installment sale contract giving the purchaser a right to possess the property before transfer of title, refinancing, judicial sale on execution, or other legal process of foreclosure or trustee's sale, but "sale" does not include a transfer specified in Section 2924.6 if any spouse to whom the property is transferred is also a coborrower.

(r) "Stated interest rate" means a total interest rate of not more than four-fifths of the prevailing rate.

(s) "Total loan obligation" means the net original loan and the sum total of all monthly annuity payments received by the borrower, with interest on all outstanding amounts calculated no more often than monthly at the stated interest rate, and actual contingent interest plus interest at the prevailing rate as disclosed to the borrower at the time the loan was entered into on all of the above amounts from the date of any maturity event until the outstanding loan obligation is repaid in full. In no event shall the total loan obligation exceed the actual fair market value of the home on the date of the maturity event.

SEC. 2. Section 1917.330 of the Civil Code is amended to read:

1917.330. Lenders may make shared appreciation loans for seniors pursuant to this chapter for the refinancing of real property improved with one- to four-dwelling units, including structures ancillary to such dwelling units and including attached single-family dwelling units, single-family mobilehome units, residential condominium units, and dwelling units within a planned unit development. Shared appreciation loans shall be made to refinance only owner-occupied dwelling units, but in the case of two- to four-unit dwellings financed under this chapter, only one of the units need be owner-occupied. A dwelling unit shall be conclusively deemed to be owner-occupied for purposes of this chapter with respect to initial qualification for participation in the loan program if a borrower certifies in writing to the lender at the time the loan is made that he or she will occupy the property.

Nothing contained herein shall be deemed or interpreted to restrict a lender from providing a shared appreciation loan based solely upon the value of the real property upon which the borrower's dwelling is situated, secured only by that real property and not by the improvements thereon. In that case, the lender's actual contingent interest, and any other necessary calculations, shall be based upon the land value alone, not taking into account any improvements thereon. This paragraph is declaratory of existing law.

SEC. 3. Section 1917.331 of the Civil Code is amended to read:

1917.331. (a) A shared appreciation loan for seniors shall include all of the following:

(1) The term of the loan shall be for an open-ended term, terminating upon the occurrence of a maturity event, or the failure of the borrower to meet the terms of a deed of trust granted by the borrower to the lender which are normally and customarily used by mortgage lenders in this state for loans secured by residential real property. However, if the maturity event is either cessation of occupancy of the property by the borrower or death of the borrower, the term shall be extended until the earlier of the sale or refinancing of the property or 12 months after the occurrence of the maturity event.

(2) An initial advance, if desired by the borrower.

(3) Monthly annuity payments which shall continue until the occurrence of a maturity event, or earlier termination in accordance with paragraph (1).

(4) Interest on (2) and (3), calculated no more often than monthly at the stated interest rate.

(5) Actual contingent interest.

(6) Interest on paragraphs (2) to (5), inclusive, compounded no more often than monthly, from the date of a maturity event until the loan is repaid in full.

(b) The loan shall be secured by a deed of trust on the real property financed.

(c) The aggregate amount of any fee charged to the borrower by the lender for processing an application, preparing any necessary documents, obtaining a credit report, or any other costs incurred by the lender in connection with originating a shared appreciation loan for seniors shall not exceed five hundred dollars ($500). No prepaid interest shall be charged to the borrower.

SEC. 4. Section 1917.711 of the Civil Code is amended to read:

1917.711. (a) Each lender offering shared appreciation loans for seniors shall furnish to a prospective borrower, on the earlier of the dates on which the lender first provides written information concerning shared appreciation loans for seniors by the lender or provides a loan application form to the prospective borrower, a written disclosure as provided in this section, in type of not less than 10 point.

(b) The disclosure shall be entitled "INFORMATION ABOUT THE (Name of Lender) SHARED APPRECIATION LOAN FOR SENIORS," and shall describe the operation and effect of the shared appreciation loan for seniors, including a brief summary of its terms and conditions, together with a statement consisting of substantially the following language, to the extent applicable to such loan:

INFORMATION ABOUT THE SHARED APPRECIATION LOANS FOR SENIORS

Your lender is pleased to offer you the opportunity to borrow against the equity in your home through a Shared Appreciation Loan for Seniors.

Because the Shared Appreciation Loan for Seniors differs from the usual mortgage loan, the law requires that you have a detailed explanation of the special features of the loan before you apply. Before you sign your particular Shared Appreciation Loan for Seniors documents, you will receive more information about your particular Shared Appreciation Loan for Seniors, which you should read and understand before you sign the loan documents.

Receipt of shared appreciation loan proceeds could be considered income, thereby reducing payments received under government benefit programs, such as Supplemental Security Income (SSI). If this income is accumulated, the payments will be considered a resource, and could terminate your eligibility for SSI or Medi-Cal. See your legal adviser for more information.

## I
## GENERAL TERMS

A Shared Appreciation Loan for Seniors will provide you with funds to pay off any existing indebtedness on your home and to pay the closing costs for the loan, and will then advance funds to you each month (monthly annuity) (1) for so long as you or your spouse who is a coborrower live; or (2) until you sell the house; or (3) until you decide to refinance the property and pay off your Shared Appreciation Loan for Seniors; or (4) until you cease to occupy the property as your residence, meaning either that the property has been rented out for exclusive use by a nonborrower, or the abandonment by all coborrowers of the property as their residence. Any of these four events are considered "maturity events," and will constitute the end of the obligation to advance funds to you. The maturity events are described more fully in the promissory note. Your monthly annuity is calculated according to the method described in Section II, below. You will also be required to fulfill any customary terms or conditions included in the deed of trust encumbering your property.

Each advance of funds you receive, including both initial advances (net original loan) and each monthly annuity, will be considered outstanding principal on your loan and will bear a stated interest rate which will be not more than 80 percent of the prevailing rate of interest in the locality in which you live. No payments on your total loan obligation need be made by you until the occurrence of one of the four maturity events described above.

In exchange for a stated interest rate which is below the prevailing rate, you will be obligated to pay us additional interest later, in the form of a share of the appreciation of your home between the time you execute the promissory note and the occurrence of a maturity event. This additional interest is called "actual contingent interest" and is described more fully below at Section III. Once a maturity event has occurred, interest at the prevailing rate compounded not more often than monthly shall accrue on the entire outstanding loan

balance, including the actual contingent interest, until repayment in full of the loan.

Balloon Payment of Principal. If you do not sell the property before the occurrence of a maturity event, you or your successors will need to refinance or pay this loan at that time. The term of this loan is until occurrence of a maturity event. However, if the maturity event is cessation of occupancy or death of the borrowers, the term shall be extended until the earlier of the sale or refinancing of the property, or 12 months after occurrence of the maturity event. We will not refinance either the unpaid balance of the loan or the contingent interest at that time; you or your successors alone will be responsible for obtaining refinancing. If you refinance this loan, your monthly payments may increase substantially if the property has appreciated significantly or if the interest rate on the refinancing loan is much higher than today's prevailing rates. In general, the more your property appreciates, the larger will be the amount of the actual contingent interest that you will have an obligation to pay or refinance.

Tax and Estate Consequences. USE OF THE SHARED APPRECIATION LOAN FOR SENIORS WILL HAVE INCOME TAX OR ESTATE PLANNING CONSEQUENCES WHICH WILL DEPEND UPON YOUR OWN FINANCIAL AND TAX SITUATION. FOR FURTHER INFORMATION, YOU ARE URGED TO CONSULT YOUR OWN ACCOUNTANT, ATTORNEY, OR OTHER FINANCIAL ADVISER.

THE QUESTIONS YOU SHOULD DISCUSS INCLUDE THE TAX DEDUCTIBILITY OF THE CONTINGENT INTEREST PAYMENT, YOUR RIGHT TO UTILIZE THAT DEDUCTION IN YEARS OTHER THAN THE YEAR IT IS PAID, AND THE EFFECT OF THE LOSS OF TAX BENEFITS BEFORE THAT TIME. BECAUSE YOU WILL BE BORROWING A SIGNIFICANT AMOUNT OF THE EQUITY IN YOUR HOME, WHEN A MATURITY EVENT OCCURS AND YOUR LOAN IS REPAID, LITTLE OR NO EQUITY MAY REMAIN FOR YOU OR YOUR HEIRS.

Determining Fair Market Value. If you sell your property, the gross sale price will be the fair market value of the property, unless appraisals are requested by us and the appraisals average more than the gross sale price. However, at your request, we also will tell you what we consider to be the fair market value of the property. If you sell for cash for a gross sale price that equals or exceeds that amount, the gross sale price will control and appraisals will not be needed.

Fair market value is determined by appraisals in the event of sales involving a consideration other than cash, prepayment of the loan in full, or any other maturity event.

When appraisals are required, fair market value is determined by averaging two independent appraisals of the property. You may select one of the two appraisers from a list approved by the Federal National Mortgage Association. If appraisals are requested by us, we

will provide you with full information on how to select an appraiser.

In lieu of appraisals, we may establish fair market value at an agreed amount if an agreement can be reached between you and us.

Determining Value of Capital Improvements. Capital improvements with a value exceeding one thousand dollars ($1,000) (but no maintenance or repair costs) may be added to the value of the property for the purpose of determining the net appreciated value, but only if the procedures set forth in the shared appreciation loan documents are followed. It is important to note that capital improvements completed and claimed in any 12-month period must add more than one thousand dollars ($1,000) in value to the property and must generally also cost more than one thousand dollars ($1,000). However, if you have performed at least one-half the value of the labor or other work involved, then the cost of the improvements will not be considered. The appraised value of the improvements will be the increase in the value of the property resulting from the improvements. You will receive no credit for minor or major repairs or for improvements that are not appraised at more than one thousand dollars ($1,000), but the lender will acquire a share of any resulting appreciation in the value of the property.

## II
## CALCULATION OF MONTHLY ANNUITY

Your Shared Appreciation Loan for Seniors consists of two components: first, an initial advance to cover the cost of paying off any existing liens which you wish to pay off, and to cover closing costs; and second, a monthly annuity.

Your Shared Appreciation Loan for Seniors is designed to provide a monthly stream of funds for the remainder of the lives of the borrowers, with no payments on the loan due at any time during the lives of the borrowers unless the property is sold or the loan is refinanced or repaid in full or until you cease to occupy the property. In determining the amount that it is able to lend, the lender estimates what at least 75 percent of the value of the borrower's home is likely to be at the end of the borrower's life expectancy, based on a reasonable projected appreciation rate per year. Borrowers' estimated life spans are predicted on the basis of "actuarial tables" prepared by the government and the insurance industry; and are based only upon estimated female life span, plus up to five years, to avoid any discriminatory effect between the sexes in determining loan amounts and for conservative lending practices. Once the maximum amount which may be loaned has been determined, the amount necessary to pay off existing liens and for closing costs, plus interest at the stated interest rate on that amount for the borrower's life expectancy, is subtracted. The "projected contingent interest" that is predicted to have been earned at the end of the estimated life span is also subtracted. A monthly annuity is then calculated on the remaining amount, based on the stated

interest and the borrower's life expectancy.

This complex calculation is illustrated by the following example:

Mr. and Mrs. Smith, who are 73 and 71 years of age, respectively, live in a home with a current value of one hundred fifty thousand dollars ($150,000), and apply for a Shared Appreciation Loan for Seniors. According to acceptable actuarial tables, Mrs. Smith, the younger of the two, has a remaining actuarial life span of 18 years. At the end of the 18 years, at a 4 percent per year projected appreciation rate, the house would be worth three hundred thousand dollars ($300,000), 80 percent of which equals two hundred forty thousand dollars ($240,000) (the lender could have based the calculation on as little as 75 percent of the three hundred thousand dollar ($300,000) projected value). The house currently has a fifteen thousand dollar ($15,000) first mortgage, and closing costs will be approximately two thousand dollars ($2,000), and the Smiths' wish to receive an initial advance to pay off the mortgage and to cover closing costs.

At the time the Smiths apply, the average of the 30-year fixed interest rate for home mortgages of the Federal Home Loan Mortgage Corporation is 13 percent, which is the "prevailing rate." The "stated interest rate" on the Smiths' loan will be 75 percent of the "prevailing rate," or 9¾ percent (the lender could have charged up to 80 percent of the prevailing rate).

The Smiths' payments will be calculated so that at the end of the projected loan term of 18 years, the total of all payments owed to the lender will be two hundred forty thousand dollars ($240,000), 80 percent of the estimated value of the Smiths' home after 18 years.

Two items must be subtracted from the two hundred forty thousand dollar ($240,000) future value before the Smiths' payment can be calculated:

(a) Since the Smiths' are requesting an advance of seventeen thousand dollars ($17,000) to pay off their existing mortgage and for closing costs, seventeen thousand dollars ($17,000), plus interest on seventeen thousand dollars ($17,000) at 9¾ percent for 18 years, for a total of ninety-six thousand fifty-seven dollars ($96,057), must be subtracted from the two hundred forty thousand dollars ($240,000) available for lending. This leaves one hundred forty-three thousand nine hundred forty-three dollars ($143,943).

(b) The lender's share of appreciation of the value of the home is also subtracted before calculating the monthly payment. Since the home is projected to increase in value by one hundred fifty thousand dollars ($150,000), the lender's share, 25 percent, equals thirty-seven thousand five hundred dollars ($37,500). When subtracted from one hundred forty-three thousand nine hundred forty-three dollars ($143,943), this leaves one hundred six thousand four hundred forty-three dollars ($106,443) for monthly payments.

The monthly payment is calculated on the basis of one hundred six thousand four hundred forty-three dollars ($106,443), over an 18-year term with interest at 9¾ percent. This equals one hundred

eighty-four dollars ($184) per month. The Smiths' will receive one hundred eighty-four dollars ($184) per month until a maturity event occurs.

At the time of occurrence of a maturity event, the Smiths, or their successors, if they are both deceased, will owe the seventeen thousand dollars ($17,000) advanced initially, plus the sum of all the monthly payments of one hundred eighty-four dollars ($184) received by them until the occurrence of the maturity event, plus interest at 9¾ percent on all of the above from the time the funds were advanced until occurrence of the maturity event, plus actual contingent interest calculated as described in Section III below. Interest, compounded no more often than monthly, on all of the above shall accrue at the prevailing rate from the date of any maturity event until the loan is paid in full.

Because interest accumulates rapidly, when a large initial advance is received, or the projected loan term is relatively long, the monthly payment is significantly lower. For instance, if the Smiths' were 80 years old, and received no lump-sum advance, their monthly payment would be seven hundred forty-nine dollars ($749) per month.

The longer the loan has been in effect, of course, the greater the amount that will be owed, as monthly payments and interest accumulate, and as the home appreciates in value. Unless the borrowers choose to sell the home or refinance the loan, monthly payments will continue until both are deceased, no matter how long they live so long as they continue to occupy the property. Thus, the total loan obligation is not limited to the projected life span of the borrowers, nor to any set dollar amount, regardless of the projected maximum. Regardless of how much principal has been advanced by Shared Appreciation Loans for Seniors, and regardless of how much stated interest and actual contingent interest have accumulated or been earned, payments will continue. If the borrower lives substantially longer than the actuarial prediction, it is possible that the total of principal and acquired stated interest plus actual contingent interest, may exceed the value of the home. IN NO EVENT, HOWEVER, WILL A BORROWER OR A BORROWER'S ESTATE BE LIABLE ON THE SHARED APPRECIATION LOAN FOR SENIORS IN AN AMOUNT GREATER THAN THE VALUE OF THE HOME.

The Smith example can be illustrated as follows:

A. $150,000 = Value of home at time of loan.
B. $300,000 = Estimated value of home at end of life expectancy (18 years, 4% annual appreciation).
C. $240,000 = Loan (80% of B).
D. $150,000 = Total appreciation (B less A).
E. $ 37,500 = Lender's share of appreciation (25% × D).
F. $ 96,057 = Payoff of preexisting mortgage, plus interest.

G. $106,443 = Amount from which monthly payment is calculated (C less E less F).

H. $ 184 = Monthly payment (based on G) to the Smiths. At death or other maturity event, the sum of all monthly payments, plus interest, plus the lender's share of appreciation, plus the amount owing from payoff of the old mortgage, must be paid to the lender.

## III
## ACTUAL CONTINGENT INTEREST

This Shared Appreciation Loan for Seniors provides that you, as borrower, must pay to the lender, as actual contingent interest, a share of up to 25 percent of the net appreciated value of the real property which secures the loan. This actual contingent interest is due and payable whenever a maturity event occurs. The dollar amount of actual contingent interest, if any, which you will be required to pay cannot be determined at this time. If the property does not appreciate, you will owe us nothing as actual contingent interest, and will only have to repay principal and stated interest. Actual contingent interest will not become due if title to the property is transferred on your death to a spouse who is a coborrower, or where a transfer results from a decree of dissolution of a marriage and a spouse who is a coborrower becomes the sole owner.

Your obligation to pay actual contingent interest and stated interest will reduce the amount of the appreciation, if any, that you will realize on the property over and above its value today. Appreciation will not produce a real gain in your equity in the property unless the appreciation rate exceeds the general inflation rate, but you will be required to pay a portion of the appreciation as actual contingent interest without regard to whether the appreciation has resulted in a real gain.

When your home is sold or refinanced, you normally will receive enough cash to pay the total loan obligation. However, if you sell and provide financing to the buyer, you may possibly not receive enough cash to pay the actual contingent interest, and, in that event, it will be necessary for you to provide cash from other funds. In no event, however, will your total loan obligation exceed the value of your home at the time of occurrence of a maturity event, unless you have willfully caused damage to the property.

Calculating the actual contingent interest. Actual contingent interest will be calculated as follows:

| | |
|---|---|
| | FAIR MARKET VALUE OF THE PROPERTY ON DATE OF MATURITY EVENT (Sale Price or Appraised Value) |
| – (less) | CURRENT VALUE OF THE PROPERTY |
| – (less) | VALUE OF CAPITAL IMPROVEMENTS MADE BY YOU (Must exceed $1,000 in cost.) |
| × (times) | LENDER'S APPRECIATION SHARE (up to 25%) |
| = (equals) | ACTUAL CONTINGENT INTEREST |

Below are answers to two frequently asked questions about the Shared Appreciation Loans for Seniors program. If you have any further questions, feel free to call the lender at _____, or write to the lender at _____.

Question. What if I marry, or my spouse is not a coborrower?

Answer. Your Shared Appreciation Loan for Seniors will be due upon the death of the last surviving coborrower. Your lender will be happy to include a new or present spouse as a coborrower, provided the new spouse is over age ____ at the time he or she becomes a coborrower. Because the monthly payment annuity is based upon the projected life span of the youngest coborrower, the annuity will be readjusted if a new, younger coborrower is added. The annuity will be adjusted to reflect the annuity that would have existed had the new coborrower been a coborrower from the beginning of the loan period. Since the monthly annuity is based on a fixed "lendable amount" derived from projected appreciation of the home (see Section II, above), a longer projected loan period, because of the younger age of the new coborrower, will result in a decrease in the size of the monthly annuity.

Question. Can I obtain an additional advance for home improvements?

Answer. Yes, provided your lender approves of the improvement. Your lender will act reasonably in reviewing your request. At the time the advance is made, your lender will calculate the amount of interest at the stated interest rate that will accrue through the projected life of the loan, as it was determined at the time the loan was made. This amount will be deducted from the original lendable amount, and a new annuity calculated, based upon the calculations described in Section II. The effect is the same as if the advance had been made at the outset of the loan, except, of course, you will not be responsible for any interest until the funds are actually advanced. Your annuity will, however, be smaller.

# CHAPTER 1407

An act to amend Section 5604 of the Vehicle Code, relating to motor vehicles.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 5604 of the Vehicle Code is amended to read:

5604. Every dealer who, upon transferring by sale, lease, or otherwise, any new or used vehicle of a type subject to registration, requires the transferee to insure the vehicle, and every lending agency which, as the holder of any security interest in the vehicle, requires its obligor to insure the vehicle, shall, if the required insurance policy is obtained by the dealer or lending agency and the policy does not insure the transferee or obligor against damages resulting from ownership or operation of the vehicle arising by reason of personal injury or death of any person, or from injury to property, notify the transferee or obligor of that fact in writing on a document other than the insurance policy. The document shall be in duplicate and signed by the transferee or obligor.

If the required insurance policy is obtained by the dealer or lending agency because of the failure or refusal of the transferee or obligor to furnish or renew insurance in accordance with the terms of the contract of sale or the security agreement, and the policy does not insure the transferee or obligor against damages resulting from ownership or operation of the vehicle arising by reason of personal injury or death of any person, or from injury to property, the dealer or lending agency shall notify the transferee or obligor that the policy obtained does not insure the transferee or obligor for liability from any claims. The notice shall be made in writing on a document other than the insurance policy, or the declaration page attached to the policy, and shall be mailed, with postage paid and properly addressed, to the transferee or obligor within 30 days of obtaining the policy.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

# CHAPTER 1408

An act to amend Sections 65858, 66435, 66435.1, 66443, 66452.5, and 66484 of, and to repeal Section 65858 of, and to repeal Chapter 13 (commencing with Section 4590) and Chapter 14 (commencing with Section 4600) of Division 5 of Title 1 of, the Government Code, and to add Part 4 (commencing with Section 22200) to, and to add and repeal Part 5 (commencing with Section 22300) of, Division 2 of, the Public Contract Code, relating to government.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 13 (commencing with Section 4590) of Division 5 of Title 1 of the Government Code is repealed.

SEC. 2. Chapter 14 (commencing with Section 4600) of Division 5 of Title 1 of the Government Code is repealed.

SEC. 3. Section 65858 of the Government Code as amended by Section 24 of Chapter 1009 of the Statutes of 1984, is amended to read:

65858. (a) Without following the procedures otherwise required prior to the adoption of a zoning ordinance, the legislative body, to protect the public safety, health and welfare, may adopt as an urgency measure an interim ordinance prohibiting any uses which may be in conflict with a contemplated general plan, specific plan, or zoning proposal which the legislative body, planning commission or the planning department is considering or studying or intends to study within a reasonable time. That urgency measure shall require a four-fifths vote of the legislative body for adoption. The interim ordinance shall be of no further force and effect 45 days from its date of adoption. After notice pursuant to Section 65090 and public hearing, the legislative body may extend the interim ordinance for 10 months and 15 days and subsequently extend the interim ordinance for one year. Any extension shall also require a four-fifths vote for adoption. Not more than two extensions may be adopted.

(b) Alternatively, an interim ordinance may be adopted by a four-fifths vote following notice pursuant to Section 65090 and public hearing, in which case it shall be of no further force and effect 45 days from its date of adoption. After notice pursuant to Section 65090 and public hearing, the legislative body may by a four-fifths vote extend the interim ordinance for 22 months and 15 days.

(c) The legislative body shall not adopt or extend any interim ordinance pursuant to this section unless the ordinance contains a finding that there is a current and immediate threat to the public health, safety, or welfare, and that the approval of additional subdivisions, use permits, variances, building permits, or any other applicable entitlement for use which is required in order to comply with a zoning ordinance would result in a threat to public health,

safety, or welfare.

(d) Ten days prior to the expiration of an interim ordinance or any extension, the legislative body shall issue a written report describing the measures taken to alleviate the condition which led to the adoption of the ordinance.

(e) When an interim ordinance has been adopted, every subsequent ordinance adopted pursuant to this section, covering the whole or a part of the same property, shall automatically terminate and be of no further force or effect upon the termination of the first interim ordinance or any extension of the ordinance as provided in this section.

SEC. 4. Section 65858 of the Government Code as amended by Section 25 of Chapter 1009 of the Statutes of 1984 is repealed.

SEC. 5. Section 66435 of the Government Code is amended to read:

66435. Prior to filing, those certificates, statements, and acknowledgments set forth in this article shall appear on the final map and may be combined where appropriate.

SEC. 6. Section 66435.1 of the Government Code is amended to read:

66435.1. Notwithstanding any other provision of this article, local agencies may require that those certificates, statements, and acknowledgments required by Sections 66436 and 66443, be made by separate instrument to be recorded concurrently with the final map being filed for record.

SEC. 7. Section 66443 of the Government Code is amended to read:

66443. In addition to the certificates, statements, and acknowledgments required herein for final maps, the maps shall contain other certificates and acknowledgments as are required by local ordinance.

SEC. 8. Section 66452.5 of the Government Code is amended to read:

66452.5. (a) The subdivider, or any tenant of the subject property, in the case of a proposed conversion of residential real property to a condominium project, community apartment project, or stock cooperative project, may appeal from any action of the advisory agency with respect to a tentative map to the appeal board established by local ordinance or, if none, to the legislative body.

The appeal shall be filed with the clerk of the appeal board, or if there is none, with the clerk of the legislative body within 10 days after the action of the advisory agency from which the appeal is being taken.

Upon the filing of an appeal, the appeal board or legislative body shall set the matter for hearing. The hearing shall be held within 30 days after the date of filing the appeal. Within 10 days following the conclusion of the hearing, the appeal board or legislative body shall render its decision on the appeal.

(b) The subdivider, any tenant of the subject property, in the case

of a conversion of residential real property to a condominium project, community apartment project, or stock cooperative project, or the advisory agency may appeal from the action of the appeal board to the legislative body. The appeal shall be filed in writing with the clerk of the legislative body within 10 days after the action of the appeal board from which the appeal is being taken.

After the filing of an appeal, the legislative body shall set the matter for hearing. The hearing shall be held within 30 days after the date of a request therefor filed by the subdivider or the appellant. Within 10 days following the conclusion of the hearing, the legislative body shall render its decision on the appeal. The decision shall comply with the provisions of Sections 66473, 66473.5, and 66474, and shall include any findings required by those sections.

(c) If there is an appeal board and it fails to act upon an appeal within the time limit specified in this chapter, the decision from which the appeal was taken shall be deemed affirmed and an appeal therefrom may thereupon be taken to the legislative body as provided in subdivision (b) of this section. If no further appeal is taken, the tentative map, insofar as it complies with applicable requirements of this division and local ordinance, shall be deemed approved or conditionally approved as last approved or conditionally approved by the advisory agency, and it shall be the duty of the clerk of the legislative body to certify or state that approval, or if the advisory agency is one which is not authorized by local ordinance to approve, conditionally approve, or disapprove the tentative map, the advisory agency shall submit its report to the legislative body as if no appeal had been taken.

If the legislative body fails to act upon an appeal within the time limit specified in this chapter, the tentative map, insofar as it complies with applicable requirements of this division and local ordinance, shall be deemed to be approved or conditionally approved as last approved or conditionally approved, and it shall be the duty of the clerk of the legislative body to certify or state that approval.

(d) Any interested person adversely affected by a decision of the advisory agency or appeal board may file a complaint with the governing body concerning any decision of the advisory agency or appeal board. The complaint shall be filed with the clerk of the governing body within 10 days after the action of the advisory agency or appeal board which is the subject of the complaint. Upon the filing of the complaint, the governing body shall set the matter for hearing. The hearing shall be held within 30 days after the filing of the complaint. The hearing may be a public hearing for which notice shall be given in the time and manner provided.

Upon conclusion of the hearing, the governing body shall, within seven days, declare its findings based upon the testimony and documents produced before it or before the advisory board or the appeal board. It may sustain, modify, reject, or overrule any recommendations or rulings of the advisory board or the appeal

board and may make any findings which are not inconsistent with the provisions of this chapter or local ordinance adopted pursuant to this chapter.

(e) Notice of each hearing provided for in this section shall be sent by United States mail to each tenant of the subject property, in the case of a conversion of residential real property to a condominium project, community apartment project, or stock cooperative project, at least three days prior to the hearing. The notice requirement of this subdivision shall be deemed satisfied if the notice complies with the legal requirements for service by mail. Pursuant to Section 66451.2, fees may be collected from the subdivider or from persons appealing or filing a complaint for expenses incurred under this section.

SEC. 9. Section 66484 of the Government Code is amended to read:

66484. (a) A local ordinance may require the payment of a fee as a condition of approval of a final map or as a condition of issuing a building permit for purposes of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares. The ordinance may require payment of fees pursuant to this section if all of the following requirements are satisfied:

(1) The ordinance refers to the circulation element of the general plan and, in the case of bridges, to the transportation or flood control provisions thereof which identify railways, freeways, streams, or canyons for which bridge crossings are required on the general plan or local roads and in the case of major thoroughfares, to the provisions of the circulation element which identify those major thoroughfares whose primary purpose is to carry through traffic and provide a network connecting to the state highway system, if the circulation element, transportation or flood control provisions have been adopted by the local agency 30 days prior to the filing of a map or application for a building permit.

(2) The ordinance provides that there will be a public hearing held by the governing body for each area benefited. Notice shall be given pursuant to Section 65091 and shall include preliminary information related to the boundaries of the area of benefit, estimated cost, and the method of fee apportionment. The area of benefit may include land or improvements in addition to the land or improvements which are the subject of any map or building permit application considered at the proceedings.

(3) The ordinance provides that at the public hearing, the boundaries of the area of benefit, the costs, whether actual or estimated, and a fair method of allocation of costs to the area of benefit and fee apportionment are established. The method of fee apportionment, in the case of major thoroughfares, shall not provide for higher fees on land which abuts the proposed improvement except where the abutting property is provided direct usable access to the major thoroughfare. A description of the boundaries of the

area of benefit, the costs, whether actual or estimated, and the method of fee apportionment established at the hearing shall be incorporated in a resolution of the governing body, a certified copy of which shall be recorded by the governing body conducting the hearing with the recorder of the county in which the area of benefit is located. The apportioned fees shall be applicable to all property within the area of benefit and shall be payable as a condition of approval of a final map or as a condition of issuing a building permit for the property or portions of the property. Where the area of benefit includes lands not subject to the payment of fees pursuant to this section, the governing agency shall make provision for payment of the share of improvement costs apportioned to those lands from other sources.

(4) The ordinance provides that payment of fees shall not be required unless the major thoroughfares are in addition to, or a reconstruction of, any existing major thoroughfares serving the area at the time of the adoption of the boundaries of the area of benefit.

(5) The ordinance provides that payment of fees shall not be required unless the planned bridge facility is an original bridge serving the area or an addition to any existing bridge facility serving the area at the time of the adoption of the boundaries of the area of benefit. The fees shall not be expended to reimburse the cost of existing bridge facility construction.

(6) The ordinance provides that if, within the time when protests may be filed under the provisions of the ordinance, there is a written protest, filed with the clerk of the legislative body, by the owners of more than one-half of the area of the property to be benefited by the improvement, and sufficient protests are not withdrawn so as to reduce the area represented to less than one-half of that to be benefited, then the proposed proceedings shall be abandoned, and the legislative body shall not, for one year from the filing of that written protest, commence or carry on any proceedings for the same improvement or acquisition under the provisions of this section.

(b) Any protest may be withdrawn by the owner protesting, in writing, at any time prior to the conclusion of a public hearing held pursuant to the ordinance.

(c) If any majority protest is directed against only a portion of the improvement then all further proceedings under the provisions of this section to construct that portion of the improvement so protested against shall be barred for a period of one year, but the legislative body may commence new proceedings not including any part of the improvement or acquisition so protested against. Nothing in this section prohibits a legislative body, within that one-year period, from commencing and carrying on new proceedings for the construction of a portion of the improvement so protested against if it finds, by the affirmative vote of four-fifths of its members, that the owners of more than one-half of the area of the property to be benefited are in favor of going forward with that portion of the improvement or acquisition.

(d) Nothing in this section precludes the processing and recordation of maps in accordance with other provisions of this division if the proceedings are abandoned.

(e) Fees paid pursuant to an ordinance adopted pursuant to this section shall be deposited in a planned bridge facility or major thoroughfare fund. A fund shall be established for each planned bridge facility project or each planned major thoroughfare project. If the benefit area is one in which more than one bridge is required to be constructed, a fund may be so established covering all of the bridge projects in the benefit area. Money in the fund shall be expended solely for the construction or reimbursement for construction of the improvement serving the area to be benefited and from which the fees comprising the fund were collected, or to reimburse the local agency for the cost of constructing the improvement.

(f) An ordinance adopted pursuant to this section may provide for the acceptance of considerations in lieu of the payment of fees.

(g) A local agency imposing fees pursuant to this section may advance money from its general fund or road fund to pay the cost of constructing the improvements and may reimburse the general fund or road fund for any advances from planned bridge facility or major thoroughfares funds established to finance the construction of those improvements.

(h) A local agency imposing fees pursuant to this section may incur an interest-bearing indebtedness for the construction of bridge facilities or major thoroughfares. However, the sole security for repayment of that indebtedness shall be moneys in planned bridge facility or major thoroughfares funds.

(i) The term "construction" as used in this section includes design, acquisition of right-of-way, administration of construction contracts, and actual construction.

(j) The term "construction," as used in this section, with respect to the unincorporated area of San Diego County only, includes design, acquisition of rights-of-way, and actual construction, including, but not limited to, all direct and indirect environmental, engineering, accounting, legal, administration of construction contracts, and other services necessary therefor. The term "construction," with respect to the unincorporated area of San Diego County only, also includes reasonable administrative expenses, not exceeding three hundred thousand dollars ($300,000) in any calendar year after January 1, 1986, as adjusted annually for any increase or decrease in the Consumer Price Index of the Bureau of Labor Statistics of the United States Department of Labor for all Urban Consumers, San Diego, California (1967 = 100), as published by the United States Department of Commerce for the purpose of constructing bridges and major thoroughfares. "Administrative expenses" means those office, personnel, and other customary and normal expenses associated with the direct management and administration of the agency, but not including costs of construction.

(k) Nothing in this section precludes a county or city from providing funds for the construction of bridge facilities or major thoroughfares to defray costs not allocated to the area of benefit.

SEC. 10. Part 4 (commencing with Section 22200) is added to Division 2 of the Public Contract Code, to read:

## PART 4. ARBITRATION OF PUBLIC WORKS CONTRACT CLAIMS

22200. As used in this part:

(a) "Public works contract" means, except for a contract awarded pursuant to the State Contract Act (Part 2 (commencing with Section 10100)), a contract awarded through competitive bids or otherwise by the state, any of its political subdivisions or public agencies for the erection, construction, alteration, repair, or improvement of any kind upon real property.

(b) "Claim" means a demand for monetary compensation or damages, arising under or relating to the performance of any public works contract.

22201. Unless otherwise prohibited by law, the terms of any public works contract may include at the time of bidding and of award a provision for arbitration of any claim pursuant to Article 7.1 (commencing with Section 10240) of Chapter 1 of Part 2.

SEC. 11. Part 5 (commencing with Section 22300) is added to Division 2 of the Public Contract Code, to read:

## PART 5. WITHHELD CONTRACT FUNDS

22300. Provisions shall be included in any invitation for bid and in any contract documents to permit the substitution of securities for any moneys withheld by a public agency to ensure performance under a contract, provided that substitution of securities provisions shall not be required in contracts in which there will be financing provided by the Farmers Home Administration of the United States Department of Agriculture pursuant to the Consolidated Farm and Rural Development Act (7 U.S.C. Sec. 1921 et seq.), and where federal regulations or policies, or both, do not allow the substitution of securities. At the request and expense of the contractor, securities equivalent to the amount withheld shall be deposited with the public agency, or with a state or federally chartered bank as the escrow agent, who shall then pay such moneys to the contractor. Upon satisfactory completion of the contract, the securities shall be returned to the contractor.

Securities eligible for investment under this section shall include those listed in Section 16430 of the Government Code, bank or savings and loan certificates of deposit, interest bearing demand deposit accounts, standby letters of credit, or any other security mutually agreed to by the contractor and the public agency.

The contractor shall be the beneficial owner of any securities

substituted for moneys withheld and shall receive any interest thereon.

Failure to include these provisions in bid and contract documents shall void any provisions for performance retentions in a public agency contract.

For purposes of this section, the term "public agency" shall include, but shall not be limited to, chartered cities.

The Legislature hereby declares that the provisions of this section are of statewide concern and are necessary to encourage full participation by contractors in public contract procedures.

The escrow agreement used hereunder shall be null, void, and unenforceable unless it is substantially similar to the following form:

ESCROW AGREEMENT FOR
SECURITY DEPOSITS IN LIEU OF RETENTION

This Escrow Agreement is made and entered into by and between _____ whose address is _____ _____ hereinafter called "Owner," _____ whose address is _____ _____ hereinafter called "Contractor" and _____ whose address is _____ _____ hereinafter called "Escrow Agent."

For the consideration hereinafter set forth, the Owner, Contractor, and Escrow Agent agree as follows:

(1) Pursuant to Section 22200 of the Public Contract Code of the State of California, Contractor has the option to deposit securities with Escrow Agent as a substitute for retention earnings required to be withheld by Owner pursuant to the Construction Contract entered into between the Owner and Contractor for _____ in the amount of _____ dated _____ (hereinafter referred to as the "Contract"). When Contractor deposits the securities as a substitute for Contract earnings, the Escrow Agent shall notify the Owner within 10 days of the deposit. The market value of the securities at the time of the substitution shall be at least equal to the cash amount then required to be withheld as retention under the terms of the Contract between the Owner and Contractor. Securities shall be held in the name of _____, and shall designate the Contractor as the beneficial owner.

(2) The Owner shall make progress payments to the Contractor for such funds which otherwise would be withheld from progress payments pursuant to the Contract provisions, provided that the Escrow Agent holds securities in the form and amount specified above.

(3) Alternatively, the Owner may make payments directly to Escrow Agent in the amount of retention for the benefit of the Owner until such time as the escrow created hereunder is

terminated.

(4) Contractor shall be responsible for paying all fees for the expenses incurred by Escrow Agent in administering the escrow account. These expenses and payment terms shall be determined by the Contractor and Escrow Agent.

(5) The interest earned on the securities or the money market accounts held in escrow and all interest earned on that interest shall be for the sole account of Contractor and shall be subject to withdrawal by Contractor at any time and from time to time without notice to the Owner.

(6) Contractor shall have the right to withdraw all or any part of the principal in the Escrow Account only by written notice to Escrow Agent accompanied by written authorization from Owner to the Escrow Agent that Owner consents to the withdrawal of the amount sought to be withdrawn by Contractor.

(7) The Owner shall have a right to draw upon the securities in the event of default by the contractor. Upon seven days' written notice to the escrow agent from the owner of the default, the escrow agent shall immediately convert the securities to cash and shall distribute the cash as instructed by the Owner.

(8) Upon receipt of written notification from the Owner certifying that the Contract is final and complete, and that the Contractor has complied with all requirements and procedures applicable to the Contract, Escrow Agent shall release to Contractor all securities and interest on deposit less escrow fees and charges of the Escrow Account. The escrow shall be closed immediately upon disbursement of all moneys and securities on deposit and payments of fees and charges.

(9) Escrow Agent shall rely on the written notifications from the Owner and the Contractor pursuant to Sections (4) to (6), inclusive, of this agreement and the Owner and Contractor shall hold Escrow Agent harmless from Escrow Agent's release and disbursement of the securities and interest as set forth above.

(10) The names of the persons who are authorized to give written notice or to receive written notice on behalf of the Owner and on behalf of Contractor in connection with the foregoing, and exemplars of their respective signatures are as follows:

This part shall remain in effect only until January 1, 1992, and as of that date is repealed, unless a later enacted statute, which is chaptered on or before January 1, 1992, deletes or extends that date.

SEC. 12. The transfer of provisions of law from the Government Code to the Public Contract Code made by Sections 1, 2, 10, and 11 of this act does not constitute a change in, but is declaratory of, the existing law.

SEC. 13. The Legislature finds and declares that unique circumstances exist in the unincorporated area of San Diego County which require a different definition of "construction" in Section 66484 of the Government Code amended by Section 9 of this act and that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 14. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because self-financing authority is provided in Section 66451.2 of the Government Code and because this act affirms for the state that which has been declared existing law or regulated by action of the courts to cover any costs that may be incurred in carrying on any program or performing any service required to be carried on or performed by this act.

## CHAPTER 1409

An act to amend Sections 1355 and 1365 of the Civil Code, relating to common interest developments.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1355 of the Civil Code is amended to read:

1355. (a) The declaration may be amended pursuant to the governing documents or this title. Except as provided in Section 1356, an amendment is effective after (1) the approval of the percentage of owners required by the governing documents has been given, (2) that fact has been certified in a writing executed and acknowledged by the officer designated in the declaration or by the association for that purpose, or if no one is designated, by the president of the association, and (3) that writing has been recorded in each county in which a portion of the common interest development is located.

(b) Except to the extent that a declaration provides by its express terms that it is not amendable, in whole or in part, a declaration which fails to include provisions permitting its amendment at all times during its existence may be amended at any time. For purposes of this subdivision, an amendment is only effective after (1) the proposed amendment has been distributed to all of the owners of separate interests in the common interest development by first-class mail postage prepaid or personal delivery not less than 15 days and not more than 60 days prior to any approval being solicited; (2) the approval of owners representing more than 50 percent, or any higher percentage required by the declaration for the approval of an amendment to the declaration, of the separate interests in the common interest development has been given, and that fact has been certified in a writing, executed and acknowledged by an officer of the association; and (3) the amendment has been recorded in each county in which a portion of the common interest development is located. A copy of any amendment adopted pursuant to this subdivision shall be distributed by first-class mail postage prepaid or personal delivery to all of the owners of separate interest immediately upon its recordation. The provisions of this subdivision shall be operative until January 1, 1990.

(3) The identification of the estimated remaining life of, and the methods of funding used to defray the future repair, replacement, or additions to, those major components which the association is obligated to maintain.

(4) A general statement addressing the procedures used for the calculation and establishment of those reserves to defray the future repair, replacement, or additions to those major components that the association is obligated to maintain.

(b) A copy of a review of the financial statement of the association shall be prepared in accordance with generally accepted accounting principles by a licensee of the California State Board of Accountancy for any fiscal year in which the gross income to the association exceeds seventy-five thousand dollars ($75,000). The review of the financial statement shall be distributed within 120 days after the close of each fiscal year.

(c) In lieu of the distribution of the financial statement required by subdivision (a), the board of directors may elect to distribute a summary of the statement to all its members with a written notice that the statement is available at the business office of the association or at another suitable location within the boundaries of the development and that copies will be provided upon request and at the expense of the association. If any member requests a copy of the financial statement required by subdivision (a) to be mailed to the member, the association shall provide the copy to the member by first-class United States mail at the expense of the association and delivered within five days. The written notice that is distributed to each of the association members shall be in at least 10-point bold type on the front page of the summary of the statement.

(d) A statement describing the association's policies and practices in enforcing lien rights or other legal remedies for default in payment of its assessments against its members shall be annually delivered to the members during the 60-day period immediately preceding the beginning of the association's fiscal year.

(4) A general statement addressing the procedures used for the

calculation and establishment of those reserves to defray the future repair, replacement, or additions to those major components that the association is obligated to maintain.

(b) A review of the financial statement of the association shall be prepared in accordance with generally accepted accounting principles by a licensee of the California State Board of Accountancy for any fiscal year in which the gross income to the association exceeds seventy-five thousand dollars ($75,000). A copy of the review of the financial statement shall be distributed within 120 days after the close of each fiscal year.

(c) In lieu of the distribution of the financial statement required by subdivision (a), the board of directors may elect to distribute a summary of the statement to all its members with a written notice that the statement is available at the business office of the association or at another suitable location within the boundaries of the development and that copies will be provided upon request and at the expense of the association. If any member requests a copy of the financial statement required by subdivision (a) to be mailed to the member, the association shall provide the copy to the member by first-class United States mail at the expense of the association and delivered within five days. The written notice that is distributed to each of the association members shall be in at least 10-point bold type on the front page of the summary of the statement.

SEC. 4. Section 3 of this bill incorporates amendments to Section 1365 of the Civil Code proposed by both this bill and AB 3081. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1989, (2) each bill amends Section 1365 of the Civil Code, and (3) this bill is enacted after AB 3081, in which case Section 2 of this bill shall not become operative.

## CHAPTER 1410

An act to add Section 425.14 to the Code of Civil Procedure, relating to damages.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 425.14 is added to the Code of Civil Procedure, to read:

425.14. No claim for punitive or exemplary damages against a

religious corporation or religious corporation sole shall be included in a complaint or other pleading unless the court enters an order allowing an amended pleading that includes a claim for punitive or exemplary damages to be filed. The court may allow the filing of an amended pleading claiming punitive or exemplary damages on a motion by the party seeking the amended pleading and upon a finding, on the basis of the supporting and opposing affidavits presented, that the plaintiff has established evidence which substantiates that plaintiff will meet the clear and convincing standard of proof under Section 3294 of the Civil Code.

Nothing in this section is intended to affect the plaintiff's right to discover evidence on the issue of punitive or exemplary damages.

## CHAPTER 1411

An act to amend Section 674 of the Code of Civil Procedure, relating to decrees.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 674 of the Code of Civil Procedure, as amended by Chapter 153 of the Statutes of 1988, is amended to read:

674. (a) Except as otherwise provided in subdivision (b), an abstract of a judgment or decree requiring the payment of money shall be certified by the clerk of the court where the judgment or decree was entered and shall contain all of the following:

(1) The title of the court where the judgment or decree is entered and cause and number of the action.

(2) The date of entry of the judgment or decree and of any renewals of the judgment or decree and where entered in the records of the court.

(3) The name and last known address of the judgment debtor and the address at which the summons was either personally served or mailed to the judgment debtor or the judgment debtor's attorney of record.

(4) The name and address of the judgment creditor.

(5) The amount of the judgment or decree as entered or as last renewed.

(6) The social security number and driver's license number of the judgment debtor if they are known to the judgment creditor; and, if either or both of those numbers are not known to the judgment creditor, that fact shall be indicated on the abstract of judgment.

(7) Whether a stay of enforcement has been ordered by the court and, if so, the date the stay ends.

(8) The date of issuance of the abstract.

(b) An abstract of a judgment or decree ordering a party to pay spousal, child, or family support to the other party shall be certified by the clerk of the court where the judgment or decree was entered and shall contain all of the following:

(1) The title of the court where the judgment or decree is entered and the cause and number of the action.

(2) The date of entry of the judgment or decree and of any renewal of the judgment or decree.

(3) Where the judgment or decree and any renewals are entered in the records of the court.

(4) The name and last known address of the party ordered to pay support.

(5) The name and address of the party to whom support payments are ordered to be paid.

(6) The social security number, birth date, and driver's license number of the party ordered to pay support if they are known to the party to whom support payments are to be paid. If any of those numbers are not known to the party to whom support payments are to be paid, that fact shall be indicated on the abstract of the court order.

(7) Whether a stay of enforcement has been ordered by the court and, if so, the date the stay ends.

(8) The date of issuance of the abstract.

(9) Any other information deemed reasonable and appropriate by the Judicial Council.

(c) The Judicial Council may develop a form for an abstract of a judgment or decree ordering a party to pay spousal, child, or family support to another party which contains the information required by subdivision (b).

(d) An abstract of judgment, recorded after January 1, 1979, that does not list the social security number and driver's license number of the judgment debtor, or either of them, as required above may be amended by the recording of a document entitled "Amendment to Abstract of Judgment." The Amendment to Abstract of Judgment shall contain all of the information required by this section, shall list both the social security number and driver's license number if both of those numbers were known at the date of recordation of the original abstract of judgment, or one of them, if only one was known, and shall set forth the date of recording and the book and page location in the records of the county recorder of the original abstract of judgment.

A recorded Amendment to Abstract of Judgment shall have priority as of the date of recordation of the original abstract of judgment, except as to any purchaser, encumbrancer, or lessee who obtained their interest after the recordation of the original abstract of judgment but prior to the recordation of the Amendment to Abstract of Judgment without actual notice of the original abstract of judgment. The purchaser, encumbrancer, or lessee without actual notice may assert as a defense against enforcement of the abstract of

judgment the failure to comply with this section regarding the contents of the original abstract of judgment notwithstanding the subsequent recordation of an Amendment to Abstract of Judgment. With respect to an abstract of judgment recorded between January 1, 1979, and July 10, 1985, the defense against enforcement for failure to comply with this section may not be asserted by the holder of another abstract of judgment or involuntary lien, recorded without actual notice of the prior abstract, unless refusal to allow the defense would result in prejudice and substantial injury as used in Section 475. The recordation of an Amendment to Abstract of Judgment does not extend or otherwise alter the computation of time as provided in Section 697.310.

SEC. 2. The amendments to Section 674 of the Code of Civil Procedure made by this act are intended to maintain the integrity of the recordation system for interests in real property as discussed in Keele v. Reich, (1985) 169 Cal. App. 3d 1129, to preserve the reasonable expectations of all parties asserting interests in real property, and to provide a means for the amendment of abstracts of judgment recorded after the effective date of Chapter 203 of the Statutes of 1978. ## CHAPTER 1414

An act to amend Section 94312 of the Education Code, relating to education.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 94312 of the Education Code is amended to read:

94312. All institutions authorized, or approved, under this chapter shall be maintained and operated, or in the case of a new institution, shall demonstrate that it will be maintained and operated, in compliance with all of the following minimum standards:

(a) That the institution is financially capable of fulfilling its commitments to its students.

(b) That the institution and its agents do not utilize advertising of any type which is erroneous or misleading, either by actual statement, omission, or intimation.

(c) That the institution designates an agent for service of process within this state.

(d) That the institution has and maintains a fair and equitable policy in reference to refund of the unused portion of tuition fees and other charges in the event the student fails to enter the course, or withdraws therefrom at any time prior to completion of the course. The policy shall be in compliance with the minimum standard of refunds as adopted by the superintendent. The superintendent shall take into consideration the length and character of the educational program in determining standards for refunds.

(e) That any written contract or agreement signed by a prospective student away from the institution premises shall not become operative until the student makes an initial visit to the institution. The provision applies only in those situations when the student begins payment on tuition charges (beyond the registration fee) prior to arriving at the campus. The student is obligated to visit the campus at least six days prior to the start of classes. The school officials are obligated to provide the student with a thorough tour of the campus facilities and to place a written statement, signed by the student, in the student's file to verify that the visitation and campus

tour were provided. Following the visitation to the campus, the student shall have a three-day "cooling off" period to void the contract with no money to be retained by the school as provided in subdivision (d). If the student does not visit the campus after signing the contract, the "cooling off" period shall automatically begin six days prior to the start of classes. The student may waive the right to visit the campus at any time after signing the contract. This provision does not apply to correspondence schools or other mail study institutions. The superintendent shall take into consideration the character of the educational program in determining if other types of institutions should also be excluded from this provision.

(f) That any written contract or agreement for a course of study with an institution shall include on the first page of the agreement or contract, in 12-point boldface print or larger, the following statement:

"Any questions or problems concerning this institution which have not been satisfactorily answered or resolved by the institution should be directed to the Superintendent of Public Instruction, State Department of Education, Sacramento, California 95814."

In addition, the written contracts or agreements shall specify, in underlined capital letters on the same page of the contract or agreement in which the student's signature is required, the total financial obligation that the student will incur upon enrollment in the institution in numbers or letters.

(g) That neither the institution nor its agents engage in sales, collection, credit, or other practices of any type which are false, deceptive, misleading, or unfair.

(h) That the institution makes available to students and other interested persons a catalog or brochure containing information describing the courses offered, program objectives, length of program, faculty and their qualifications, schedule of tuition, fees, and all other charges and expenses necessary for completion of the course of study, cancellation and refund policies, the total cost of tuition over the entire period, and (for vocational training programs for which specific placement claims are made) placement data, as well as other material facts concerning the institution and the program or course of instruction, as are reasonably likely to affect the decision of the student to enroll therein, as specified by the superintendent and defined in the rules and regulations; and that the information is made available to prospective students prior to enrollment.

(i) That upon satisfactory completion of training, the student is given an appropriate degree or diploma by the institution, indicating that the course or courses of instruction or study have been satisfactorily completed by the student.

(j) That adequate and accurate records are maintained by the institution, in accordance with regulations adopted by the superintendent, and that satisfactory standards are enforced relating to attendance, progress, and performance.

(k) That the institution maintains current records for a period of not less than five years at its principal place of business within the State of California, immediately available during normal business hours, for inspection by the superintendent or the Attorney General of California showing all of the following:

(1) The names and addresses, both local and home, including city and street, of each of its students.

(2) The courses of study offered by the institution.

(3) The names and addresses, including city and street, of its faculty, together with a record of the educational qualifications of each.

(4) The degrees or diplomas and honorary degrees and diplomas granted, the date of granting, together with the curricula upon which the diplomas and degrees were based.

(*l*) Accreditation by a national or applicable regional accrediting agency recognized by the United States Department of Education shall be accepted by the superintendent as evidence of compliance with the minimum standards established by the accrediting or licensing agency, and therefore as evidence of compliance with the minimum standards specified in the provisions of this section. If there is substantial evidence of violation by a college or university accredited by a national accrediting agency of the standard established by the responsible national accrediting agency, the superintendent shall require further evidence and make further investigation. Following the superintendent's investigation, the appropriate national accrediting agency shall be notified by the superintendent of his or her findings. If, after four months, the superintendent determines that the national accrediting agency has not taken appropriate action and substantial evidence remains that the institution is not meeting minimum standards, the superintendent may take further action, as may be necessary, including revoking the institution's license to offer education and to award degrees and diplomas.

(m) That the institution provides instruction as part of its educational program. Instruction shall include any specific, formal arrangement by an institution for its enrollees to participate in learning experiences wherein the institution's faculty or contracted instructors present a planned curriculum appropriate to the enrollee's educational program.

(n) Institutions licensed solely under subdivision (b) of Section 94311, with the exception of those offering flight instruction, shall comply with subdivisions (b), (e), (g), (h), (i), and (j). The responsibility for monitoring and enforcing institutional compliance with these minimum standards shall be with the state board or agency responsible for licensing the school.

(o) Institutions certified to offer flight instruction by the Federal Aviation Administration, or its successor agency, shall comply with all of the requirements of this section, but shall not be required to file any materials with the Superintendent of Public Instruction

which are not required by the Federal Aviation Administration, or its successor agency, except those minimally necessary to administer the Student Tuition Recovery Fund, pursuant to Section 94342, as determined by the Superintendent of Public Instruction. The responsibility for monitoring and enforcing institutional compliance for these institutions shall be with the Superintendent of Public Instruction.

Individual flight instructors not requiring any advance payments, who do not negotiate a formal contract of indebtedness, and who do not have an established place of business other than their residences shall be exempt from the requirements of this section.

SEC. 2. The State Board of Cosmetology, in conjunction with the Private Postsecondary Education Division of the State Department of Education and the Student Aid Commission, shall report and make recommendations to the Legislature on or before March 1, 1989, concerning the feasibility of establishing a tuition recovery fund for students attending schools of cosmetology.

The State Board of Cosmetology shall submit a report to the education policy committees of the Legislature not later than March 1, 1989, describing efforts of the board to reduce student default and institutional abuses of student loan programs.

A copy of this affidavit shall be transmitted with the license to the department within the prescribed 10 days.

(c) The department shall not renew the privilege revoked under subdivision (a) until the expiration of one year after the date of revocation and until the person whose privilege was revoked gives proof of ability to respond in damages as defined in Section 16430.

SEC. 2. Section 13352 of the Vehicle Code is amended to read:

13352. (a) The department shall immediately suspend or revoke, or record the court-administered suspension or revocation of, the privilege of any person to operate a motor vehicle upon receipt of a duly certified abstract of the record of any court showing that the person has been convicted of a violation of Section 23152 or 23153 or subdivision (a) of Section 23109, or upon receipt of a report of a judge of the juvenile court, a juvenile traffic hearing officer, or a referee of a juvenile court showing that the person has been found to have committed a violation of Section 23152 or 23153 or subdivision (a) of Section 23109. However, where (A) the driving privilege is required to be suspended by this paragraph due to the violation having occurred in vehicles requiring a class 1 or class 2 driver's license, and (B) the court grants probation and imposes the condition specified in subdivision (b) of Section 23161, the department shall issue the person a class 3 driver's license restricted in the same manner and subject to the same conditions as specified in subdivision (e) of Section 13352.5. (5) Upon a conviction or finding of a violation of Section 23152 punishable under Section 23170, the privilege shall be revoked for a period of three years. (5) Upon a conviction or finding of a violation of Section 23152 punishable under Section 23170, the privilege shall be revoked for a period of three years. ## CHAPTER 1416

An act to amend Section 5714.2 of the Welfare and Institutions Code, relating to mental health.

[Approved by Governor September 26, 1988 Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 5714.2 of the Welfare and Institutions Code is amended to read:

5714.2. (a) Subject to the approval of the department, at the end of the fiscal year, a county may retain unexpended funds allocated to it, exclusive of the amount required to care for patients in state hospitals, for 12 months for expenditure for mental health services in accordance with this part.

However, no funds to which this subdivision applies shall be used for 24-hour hospital services.

(b) Each fiscal year, counties using state hospitals in excess of their annual state hospital day allocations shall receive an assessment against their local assistance allocation for that year. This assessment shall be based on the statewide variable per diem cost of care times the number of days used in excess of the annual allocation. The State Department of Mental Health shall execute the assessments within 180 days after the end of each fiscal year by deducting the assessment amount from the following year's advance monthly payments. Funds accruing from the assessments, less any costs incurred in the year of the assessments by state hospitals which are in excess of the state hospital appropriation, shall be allocated to underusing counties. Counties shall be allowed to expend these funds for mental health services and capital outlay purposes including the acquisition of land. Allocation of funds shall be made to counties who underused their state hospital day allocation in a given year and who have a proposal approved by the State Department of Mental Health. The amount of the allocation shall be the number of underutilized days in a fiscal year times the variable per diem cost as calculated for that year, or pro rata share of available funds, whichever is less. These funds shall be spent in accordance with the approved project plan and shall be subject to audit. All audit disallowance shall be returned to the State Department of Mental Health.

(c) Funds retained by a county pursuant to subdivision (b) may be expended for capital projects for services which have been approved in the county Short-Doyle plan, in order to enable counties

to purchase and renovate facilities to house treatment programs which will act as an alternative to institutional care. The approval of the capital project shall be specifically approved by the department as a part of the annual Short-Doyle plan.

## CHAPTER 1417

An act to add Sections 25115.2 and 25204 to the Health and Safety Code, relating to hazardous waste.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988 ]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) Current state and federal law requires that steps be taken to eliminate the land disposal of untreated hazardous wastes not later than May 1990.

(b) The May 1986 Report of the Governor's Task Force on Toxics recommended that action be taken at the state level toward the establishment of residuals management facilities, the purpose of which would be to provide for the disposal of the residual material remaining after the treatment of hazardous wastes so that the threat to the public health and welfare and the environment is minimized to the greatest extent possible. Included among those recommendations are the following:

(1) Strict residuals content standards should be established to govern the content and form of residuals to be accepted by residuals management facilities.

(2) The appropriate state agencies should develop siting criteria for residuals management facilities and regulations defining the protections that residuals management facilities are required to provide and the performance standards that will be applicable to these facilities.

(c) It is a matter of urgent public necessity that the State Department of Health Services, in consultation with the State Water Resources Control Board, adopt, by regulation, the criteria and standards set forth in subdivision (b) of Section 25204 of the Health and Safety Code so as to coincide, as closely as possible, with the state and federal ban on the land disposal of untreated wastes.

SEC. 2. Section 25115.2 is added to the Health and Safety Code, to read:

25115.2. "Federal act" means the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. Sec. 6901 et seq.).

SEC. 3. Section 25204 is added to the Health and Safety Code, to read:

25204. (a) For purposes of this section, "residuals repository" means a hazardous waste facility, or an operational unit at a hazardous waste facility, which meets all of the following requirements:

(1) It is sited, designed and constructed, operated, and maintained, in accordance with all applicable federal and state regulations, including, but not limited to, the regulations adopted pursuant to subdivision (b).

(2) The operator holds a hazardous waste facilities permit issued by the department under this chapter.

(3) A condition imposed in the hazardous waste facilities permit authorizes the residuals repository to accept for disposal in or on the land only treated hazardous waste, as defined in subdivision (*l*) of Section 25179.3, that has been specified as suitable for disposal in a residuals repository pursuant to paragraph (1) of subdivision (b).

(b) On or before May 1, 1990, the department shall adopt, by regulation, standards for residuals repositories. In developing these standards, the department shall consult with the State Water Resources Control Board, conduct public workshops, and request comments and recommendations from appropriate state and federal agencies and the interested public. The standards shall, at a minimum, be at least as stringent, effective, and comprehensive as the standards applicable to hazardous waste land disposal facilities adopted under the federal act, including the regulations, guidelines, and policies adopted pursuant to the federal act, and shall include, but not be limited to, all of the following:

(1) A specification of which treated hazardous wastes the department determines are suitable for disposal in a residuals repository. The department may specify these treated hazardous wastes by listing types or categories of treated hazardous wastes or by establishing physical or chemical properties that treated hazardous wastes are required to meet.

(2) Design and construction standards for a residuals repository.

(3) Standards governing the operation, monitoring, maintenance, closure, and postclosure maintenance of a residuals repository.

(4) Minimum standards governing the location of a residuals repository and the subsurface geology underlying the site. In establishing these standards, the department shall also specify the specific criteria, if any, under which the department justifies a finding that engineering measures or design factors may be substituted for geological requirements.

(5) Requirements for hazardous waste segregation and recordkeeping.

SEC. 4. Section 2 of this act, which adds Section 25115.2 to the Health and Safety Code to define the term "federal act," shall not become operative if Assembly Bill 3188 is enacted and becomes effective on January 1, 1989, and adds Section 25115.1 to the Health and Safety Code, defining the term "federal act."

SEC. 5. No reimbursement is required by this act pursuant to

Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

## CHAPTER 1418

An act to amend Section 49559 of the Education Code, relating to education.

[Approved by Governor September 26, 1988 Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 49559 of the Education Code is amended to read:

49559. (a) Any school food authority that participates in a federal child nutrition program and is reimbursed pursuant to subdivision (b) of Section 41350 for meals served pursuant to this article may, commencing with the program period of July 1, 1988, to June 30, 1989, be reimbursed at the rate of 29.58 cents ($0.2958) for breakfast or snack and 29.58 cents ($0.2958) for lunch or 59.16 cents ($0.5916) for a morning supplement. If the sum appropriated for purposes of this section is not sufficient to make the allowances specified by this section, the allowances shall be reduced proportionately. This rate shall be in addition to the reimbursement currently provided under Section 49536. The additional funds shall be used exclusively to supplement the meals served pursuant to Section 49550.

(b) Pregnant or lactating students shall qualify for nutrition program supplements under this section upon the submission of medical verification of pregnancy or lactating status. Those students shall qualify for nutrition program supplements under this section through the end of the school year during which they conclude their pregnancy or discontinue lactating. All statements shall be strictly confidential, in accordance with Section 49558.

(c) The State Department of Education shall make allowances to school food authorities from the General Fund on at least a quarterly basis. Program providers shall submit claims to the department within 10 calendar days of the end of each quarter. Within 45 calendar days of submission of a valid claim, the State Department of Education shall tender reimbursement.

(d) The State Department of Education shall, prior to July 1 of each year, prescribe an adjustment in the state meal contribution rates for the next fiscal year. The adjustments shall reflect the changes in the cost of operating a school breakfast, snack, morning supplement, and lunch program and shall be effective July 1 of each

year. The adjustment shall be based on the average of the separate indices of the "Food Away From Home Index" for Los Angeles and San Francisco, as prepared by the United States Bureau of Labor Statistics.

In giving effect to the cost-of-living provisions of this subdivision, the State Department of Education shall prescribe a calendar month for the computation of the percentage change in the cost of living after July 1, 1985. The same month shall be used annually thereafter. The product of any percentage increase or decrease in the average index and the per meal reimbursement disbursement rate shall be adjusted by the amount of any cost-of-living change currently in effect pursuant to this subdivision. For the purposes of this subdivision, state reimbursement shall be made for the breakfast or lunch which qualifies for reimbursement pursuant to the nutritional requirements of Section 49553.

## CHAPTER 1419

An act to amend Section 11837.4 of the Health and Safety Code, and to amend Sections 13352, 23171, 23176, and 23191 of the Vehicle Code, relating to driving offenses.

[Approved by Governor September 26, 1988 Filed with Secretary of State September 27, 1988 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 11837.4 of the Health and Safety Code is amended to read:

11837.4. (a) The department shall have sole authority to license programs pursuant to this chapter. No program, regardless of how it is funded, may be licensed unless, subject to subdivision (c), it meets or exceeds the minimum standards established by the department, which shall include, but are not limited to, all of the following:

(1) For the one-year programs specified in subdivision (a) of Section 11837, each program shall provide for close and regular supervision of the person, including face-to-face interviews at least once every other calendar week, regarding the person's progress in the program. For the 30-month programs specified in subdivision (b) of Section 23171, subdivision (b) of Section 23176, and subdivision (b) of Section 23191 of the Vehicle Code, each program shall provide for close and regular supervision of the person, including regular, scheduled face-to-face interviews over the course of 30 months regarding the person's progress in the program and recovery from problem drinking, alcoholism, chemical dependency, or polydrug abuse, as prescribed by regulations of the department. The interviews in either program shall be conducted individually with each person being supervised and shall occur at times other than

when the person is participating in any group or other activities of the program. No program activity in which the person is participating shall be interrupted in order to conduct the individual interviews.

(2) The department shall approve all fee schedules for the programs and shall require that each program be self-supporting from the participants' fees and that each program provide for the payment of the costs of the program by participants at times and in amounts commensurate with their ability to pay in order to enable these persons to participate. Each program shall make provisions for persons who can successfully document current inability to pay the fees. Only the department may establish the criteria and procedures for determining a participant's ability to pay. The department shall ensure that the fees are set at amounts which will enable programs to provide adequately for the immediate and long-term continuation of services required pursuant to this chapter. The fees shall be used only for the purposes set forth in this chapter, except that any profit or surplus, that does not exceed the maximum level established by the department, may be utilized for any purposes allowable under any other provisions of law. In its standards, the department shall define, for the purposes of this paragraph, taking into account prudent accounting, management, and business practices and procedures, the terms "profits" and "surplus." The department shall fairly construe these provisions so as not to jeopardize fiscal integrity of the programs. The department may not license any program if the department finds that any element of the administration of the program does not assure the fiscal integrity of the program.

(3) Both of the licensed programs described in paragraph (1) shall include a variety of treatment services for problem drinkers, alcoholics, chemical dependents, and polydrug abusers or shall have the capability of referring the persons to, and regularly and closely supervising the persons while in, any appropriate medical, hospital, or licensed residential treatment services or self-help groups for their problem drinking, alcoholism, chemical dependency, or polydrug abuse problem. In addition to the requirements of paragraph (1), the department shall prescribe in its minimum standards what other services the program shall provide, at a minimum, in the treatment of participants, which services may include lectures, classes, group discussions, group counseling, or individual counseling in addition to the interviews required by paragraph (1), or any combination thereof. However, any group discussion or counseling activity, other than classes or lectures, shall be regularly scheduled to consist of not more than 15 persons, except that they may, on an emergency basis, exceed 15, but not more than 17, persons, at any one meeting. For the 30-month programs specified in subdivision (b) of Section 23171, subdivision (b) of Section 23176, and subdivision (b) of Section 23191 of the Vehicle Code, each licensed program shall include a method by which each participant shall maintain a compendium of probative evidence, as prescribed in the regulations of the department, on a

trimonthly basis demonstrating a performance of voluntary community service by the participant, including, but not limited to, the prevention of drinking and driving, the promotion of safe driving, and responsible attitudes toward the use of chemicals of any kind, for not less than 120 hours and not more than 300 hours, as determined by the court, with one-half of that time to be served during the initial 18 months of program participation and one-half of that time to be served during the final 12 months. In determining whether or not the participant has met the objectives of the program, the compendium of evidence shall also include, and the court shall consider, the participant's demonstration of significant improvement in any of the following areas of personal achievement:

(A) Significant improvement in occupational performance, including efforts to obtain gainful employment.

(B) Significant improvement in physical and mental health.

(C) Significant improvement in family relations, including financial obligations.

(D) Significant improvement in financial affairs and economic stability.

The compendium of evidence shall be maintained by the participant for review by the program, court, probation officer, or other appropriate governmental agency. The program officials, unless prohibited by the referring court, shall make provisions for a participant to voluntarily enter, using the participant's own resources, a licensed chemical dependency recovery hospital or residential treatment program which has a valid license issued by the State of California to provide alcohol or drug services, and to receive three weeks of program participation credit for each week of that treatment, not to exceed 12 weeks of program participation credit, but only if the treatment is at least two weeks in duration. The program shall document probative evidence of this hospital or residential care treatment in the participant's program file.

(4) In order to assure program effectiveness, the department shall require, whenever appropriate, that the licensed program provides services to ethnic minorities, women, youth, or any other group that has particular needs relating to the program.

(5) The goal of each program shall be to assist persons participating in the program to recognize their chemical dependency and to assist them in their recovery.

(6) Each program shall establish a method by which the court, the Department of Motor Vehicles, and the person are notified in a timely manner of the person's failure to comply with the program's rules and regulations.

(b) Each program may be an extension of an existing program or a new program. No such program may be licensed, however, unless the county complies with the requirements of subdivision (b) of Section 11812. The provider of a program that offers either or both programs described in this section shall be required to obtain only one license.

(c) The approval for the establishment of the 30-month program is contingent upon approval by the county alcohol program administrator, based upon confirmation that the program applicant is capable of providing the service and that the fiscal integrity of the program applicant will not be jeopardized by the operation of the program.

The court shall refer a person to a 30-month treatment program only if a 30-month program exists or is provided for in the jurisdiction of the court.

(d) A county or program shall not prescribe additional program requirements unless the requirements are specifically approved by the department.

(e) The department may license a program on a provisional basis.

SEC. 2. Section 11837.4 of the Health and Safety Code is amended to read:

11837.4. (a) No program, regardless of how it is funded, may be licensed unless all of the requirements of this chapter and of the regulations adopted pursuant to this chapter have been met.

(b) Each licensed program shall include, but not be limited to, the following:

(1) For the one-year programs specified in subdivision (a) of Section 11837, each program shall provide for close and regular supervision of the person, including face-to-face interviews at least once every other calendar week, regarding the person's progress in the program. For the 30-month programs specified in subdivision (b) of Section 23171, subdivision (b) of Section 23176, and subdivision (b) of Section 23191 of the Vehicle Code, each program shall provide for close and regular supervision of the person, including regular, scheduled face-to-face interviews over the course of 30 months regarding the person's progress in the program and recovery from problem drinking, alcoholism, chemical dependency, or polydrug abuse, as prescribed by regulations of the department. The interviews in either program shall be conducted individually with each person being supervised and shall occur at times other than when the person is participating in any group or other activities of the program. No program activity in which the person is participating shall be interrupted in order to conduct the individual interviews.

(2) The department shall approve all fee schedules for the programs and shall require that each program be self-supporting from the participants' fees and that each program provide for the payment of the costs of the program by participants at times and in amounts commensurate with their ability to pay in order to enable these persons to participate. Each program shall make provisions for persons who can successfully document current inability to pay the fees. Only the department may establish the criteria and procedures for determining a participant's ability to pay. The department shall ensure that the fees are set at amounts which will enable programs to provide adequately for the immediate and long-term continuation

of services required pursuant to this chapter. The fees shall be used only for the purposes set forth in this chapter, except that any profit or surplus, that does not exceed the maximum level established by the department, may be utilized for any purposes allowable under any other provisions of law. In its regulations, the department shall define, for the purposes of this paragraph, taking into account prudent accounting, management, and business practices and procedures, the terms "profits" and "surplus." The department shall fairly construe these provisions so as not to jeopardize fiscal integrity of the programs. The department may not license any program if the department finds that any element of the administration of the program does not assure the fiscal integrity of the program.

(3) Both of the licensed programs described in paragraph (1) shall include a variety of treatment services for problem drinkers, alcoholics, chemical dependents, and polydrug abusers or shall have the capability of referring the persons to, and regularly and closely supervising the persons while in, any appropriate medical, hospital, or licensed residential treatment services or self-help groups for their problem drinking, alcoholism, chemical dependency, or polydrug abuse problem. In addition to the requirements of paragraph (1), the department shall prescribe in its regulations what other services the program shall provide, at a minimum, in the treatment of participants, which services may include lectures, classes, group discussions, group counseling, or individual counseling in addition to the interviews required by paragraph (1), or any combination thereof. However, any group discussion or counseling activity, other than classes or lectures, shall be regularly scheduled to consist of not more than 15 persons, except that they may, on an emergency basis, exceed 15, but not more than 17, persons, at any one meeting. At no time shall there be more than 17 persons in attendance at any one meeting. For the 30-month programs specified in subdivision (b) of Section 23171, subdivision (b) of Section 23176, and subdivision (b) of Section 23191 of the Vehicle Code, each licensed program shall include a method by which each participant shall maintain a compendium of probative evidence, as prescribed in the regulations of the department, on a trimonthly basis demonstrating a performance of voluntary community service by the participant, including, but not limited to, the prevention of drinking and driving, the promotion of safe driving, and responsible attitudes toward the use of chemicals of any kind, for not less than 120 hours and not more than 300 hours, as determined by the court, with one-half of that time to be served during the initial 18 months of program participation and one-half of that time to be served in the final 12 months. In determining whether or not the participant has met the objectives of the program, the compendium of evidence shall also include, and the court shall consider, the participant's demonstration of significant improvement in any of the following areas of personal achievement:

(A) Significant improvement in occupational performance,

including efforts to obtain gainful employment.

(B) Significant improvement in physical and mental health.

(C) Significant improvement in family relations, including financial obligations.

(D) Significant improvement in financial affairs and economic stability.

The compendium of evidence shall be maintained by the participant for review by the program, court, probation officer, or other appropriate governmental agency. The program officials, unless prohibited by the referring court, shall make provisions for a participant to voluntarily enter, using the participant's own resources, a licensed chemical dependency recovery hospital or residential treatment program which has a valid license issued by the State of California to provide alcohol or drug services, and to receive three weeks of program participation credit for each week of that treatment, not to exceed 12 weeks of program participation credit, but only if the treatment is at least two weeks in duration. The program shall document probative evidence of this hospital or residential care treatment in the participant's program file.

(4) In order to assure program effectiveness, the department shall require, whenever appropriate, that the licensed program provides services to ethnic minorities, women, youth, or any other group that has particular needs relating to the program.

(5) The goal of each program shall be to assist persons participating in the program to recognize their chemical dependency and to assist them in their recovery.

(6) Each program shall establish a method by which the court, the Department of Motor Vehicles, and the person are notified in a timely manner of the person's failure to comply with the program's rules and regulations.

(c) No program may be licensed unless the county complies with the requirements of subdivision (b) of Section 11812. The provider of a program that offers either a one-year program or a 30-month program or both programs described in this section shall be required to obtain only one license.

(d) Departmental approval for the establishment of a 30-month program by a licensed one-year program is contingent upon approval by the county alcohol program administrator, based upon confirmation that the program applicant is capable of providing the service and that the fiscal integrity of the program applicant will not be jeopardized by the operation of the program.

The court shall refer a person to a 30-month treatment program only if a 30-month program exists or is provided for in the jurisdiction of the court.

(e) A county or program shall not prescribe additional program requirements unless the requirements are specifically approved by the department.

(f) The department may license a program on a provisional basis.

SEC. 3. Section 13352 of the Vehicle Code is amended to read:

13352. (a) The department shall immediately suspend or revoke the privilege of any person to operate a motor vehicle upon receipt of a duly certified abstract of the record of any court showing that the person has been convicted of a violation of Section 23152 or 23153 or subdivision (a) of Section 23109, or upon receipt of a report of a judge of the juvenile court, a juvenile traffic hearing officer, or a referee of a juvenile court showing that the person has been found to have committed a violation of Section 23152 or 23153 or subdivision (a) of Section 23109. For purposes of this section, suspension or revocation shall be as follows:

(1) Upon a conviction or finding of a violation of Section 23152 punishable under Section 23160, the privilege shall be suspended for a period of six months if the court orders the department to suspend the privilege, or if the court does not grant probation, or if the offense occurred in a vehicle requiring a driver with a class 1 or class 2 driver's license or with a certificate specified in Section 12804.1. However, where (A) the driving privilege is required to be suspended by this paragraph due to the violation having occurred in vehicles requiring a class 1 or class 2 driver's license, and (B) the court grants probation and imposes the condition specified in subdivision (b) of Section 23161, the department shall issue the person a class 3 driver's license restricted in the same manner and subject to the same conditions as specified in subdivision (e) of Section 13352.5. (5) Upon a conviction or finding of a violation of Section 23152 punishable under Section 23170, the privilege shall be revoked for a period of three years. The privilege shall not be reinstated until the person files proof of ability to respond in damages as defined in

The court shall advise the person at the time of sentencing that completion of a one-year program or a 30-month program is required in order to become eligible for a California driver's license. Any individual convicted of a violation of Section 23152 punishable under Section 23170 may also, at any time after sentencing, petition the court for referral to a one-year program or a 30-month program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code. Unless good cause is shown, the court shall order the referral.

(7) Upon a conviction or finding of a violation of Section 23152 punishable under Section 23175, the privilege shall be revoked for a period of four years. (8) Upon a conviction or finding of a violation of subdivision (a) of Section 23109 punishable under subdivision (e) of that section, the privilege shall be suspended for a period of 90 days to six months, if and as ordered by the court.

(9) Upon a conviction or finding of a violation of subdivision (a) of Section 23109 punishable under subdivision (f) of that section, the privilege shall be suspended for a period of six months, if the court orders the department to suspend the privilege. (b) For the purpose of paragraphs (2) to (9), inclusive, of subdivision (a), the finding of the juvenile court judge, the juvenile traffic hearing officer, or the referee of a juvenile court of a commission of a violation of Section 23152 or 23153 or subdivision (a) of Section 23109, as specified in subdivision (a) of this section, is a conviction.

(c) Each judge of a juvenile court, juvenile traffic hearing officer, or referee of a juvenile court shall immediately report the findings specified in subdivision (a) to the department.

If, at any time during that three-year period, a person who is required to maintain that proof fails to maintain that proof, the department shall suspend that person's driving privilege until the proof of ability to respond in damages is again given to the department.

However, where (A) the driving privilege is required to be suspended by this paragraph due to the violation having occurred in vehicles requiring a class 1 or class 2 driver's license, and (B) the court grants probation and imposes the condition specified in subdivision (b) of Section 23161, the department shall issue the person a class 3 driver's license restricted in the same manner and subject to the same conditions as specified in subdivision (e) of Section 13352.5. If the person gives proof of ability to respond in damages as defined in Section 16430, the department shall issue the restricted license upon receipt of an abstract of record from the court pursuant to Section 1803 certifying that the court has granted probation to the person on conditions which include the condition specified in subdivision (b) of Section 23161.

(2) Upon a conviction or finding of a violation of Section 23153 punishable under Section 23180, the privilege shall be suspended for a period of one year. The privilege shall not be reinstated until the person gives proof of ability to respond in damages as defined in

Section 16430.

(3) Except as provided in Section 13352.5, upon a conviction or finding of a violation of Section 23152 punishable under Section 23165, the privilege shall be suspended for 18 months. (5) Upon a conviction or finding of a violation of Section 23152 punishable under Section 23170, the privilege shall be revoked for a period of three years. The court shall advise the person at the time of sentencing that completion of a one-year program or a 30-month program is required in order to become eligible for a California driver's license. Any individual convicted of a violation of Section 23152 punishable under Section 23170 may also, at any time after sentencing, petition the court for referral to a one-year program or a 30-month program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code. Unless good cause is shown, the court shall order the referral.

(6) Upon a conviction or finding of a violation of Section 23153 punishable under Section 23190, the privilege shall be revoked for a period of five years. The privilege shall not be reinstated until evidence satisfactory to the department establishes that no grounds exist which would authorize the refusal to issue a license and until the person gives proof of ability to respond in damages as defined in Section 16430 and gives proof satisfactory to the department of successful completion subsequent to the most recent underlying conviction of a 30-month program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code. The court shall advise the person at the time of sentencing that completion of a 30-month program is required in order to become eligible for a California driver's license. Any individual convicted of a violation of Section 23153 punishable under Section 23190 may also, at any time after sentencing, petition the court for referral to a 30-month program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code. Unless good cause is shown, the

court shall order the referral.

(7) Upon a conviction or finding of a violation of Section 23152 punishable under Section 23175, the privilege shall be revoked for a period of four years. The privilege shall not be reinstated until evidence satisfactory to the department establishes that no grounds exist which would authorize the refusal to issue a license and until the person gives proof of ability to respond in damages as defined in Section 16430 and gives proof satisfactory to the department of successful completion subsequent to the most recent underlying conviction of a one-year program or a 30-month program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code. The court shall advise the person at the time of sentencing that completion of a one-year program or a 30-month program is required in order to become eligible for a California driver's license. Any individual convicted of a violation of Section 23152 punishable under Section 23175 may also, at any time after sentencing, petition the court for referral to a one-year program or a 30-month program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code. Unless good cause is shown, the court shall order the referral.

(8) Upon a conviction or finding of a violation of subdivision (a) of Section 23109 punishable under subdivision (e) of that section, the privilege shall be suspended for a period of 90 days to six months, if and as ordered by the court.

(9) Upon a conviction or finding of a violation of subdivision (a) of Section 23109 punishable under subdivision (f) of that section, the privilege shall be suspended for a period of six months, if the court orders the department to suspend the privilege. The privilege shall not be reinstated until the person gives proof of ability to respond in damages as defined in Section 16430.

(b) For the purpose of paragraphs (2) to (9), inclusive, of subdivision (a), the finding of the juvenile court judge, the juvenile traffic hearing officer, or the referee of a juvenile court of a commission of a violation of Section 23152 or 23153 or subdivision (a) of Section 23109, as specified in subdivision (a) of this section, is a conviction.

(c) Each judge of a juvenile court, juvenile traffic hearing officer, or referee of a juvenile court shall immediately report the findings specified in subdivision (a) to the department.

(d) A conviction of an offense in any state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Dominion of Canada which, if committed in this state, would be a violation of Section 23152, is a conviction of Section 23152 for purposes of this section, and such a conviction of an offense which, if committed in this state, would be a violation of Section 23153, is a conviction of Section 23153 for purposes of this section. The department shall suspend or revoke the privilege to operate a motor vehicle pursuant to this section upon receiving

notice of such a conviction.

(e) Whenever the driving privilege is restricted, suspended, or revoked pursuant to this section, the department shall not issue a restricted driver's license or reinstate the driving privilege unless the person gives proof of ability to respond in damages as defined in Section 16430 and maintains that proof for three years. If, at any time during that three-year period, a person who is required to maintain that proof fails to maintain that proof, the department shall suspend that person's driving privilege until the proof of ability to respond in damages is again given to the department.

## CHAPTER 1420

An act to add Sections 66022 and 94343.6 to the Education Code, relating to student loans.

[Approved by Governor September 26, 1988 Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. (a) The Legislature finds and declares all of the following:

(1) There is an increasing trend toward financing a college education through government-subsidized student loans with more than 50 percent of all undergraduates and nearly 60 percent of all graduate students currently incurring debt.

(2) Students who borrow for only their first year of schooling have a higher probability of defaulting on loans, and most defaulters have borrowed only once, which suggests that many defaulters probably fail to complete their planned educational program.

(3) Student reliance on indebtedness has resulted in an increase in defaults.

(b) It is the intent of the Legislature to do all of the following:

(1) Encourage postsecondary education institutions, both public and private, to assume proper responsibility for assisting in default prevention efforts.

(2) Provide an opportunity for postsecondary education institutions, both public and private, to adopt comprehensive rules

and regulations for preventing and reducing student default.

(3) Provide an avenue for student loan defaulters who reenter the postsecondary education system to repay their debt.

(c) The Legislature does not intend to do any of the following:

(1) Create a barrier for students who are in default as a result of technical or administrative errors or who do not have adequate resources to immediately repay their loans but are attempting to reach accommodations to retire their debt.

(2) Discourage students from attending college by creating the perception that defaulters will be denied services.

(3) Have services withheld from students as a result of procedural entanglements associated with the implementation of this statute.

SEC. 2. Section 66022 is added to the Education Code, to read:

66022. (a) The governing board of every community college district, the Trustees of the California State University, the Regents of the University of California, the Board of Directors of the Hastings College of the Law and the Maritime Academy Board of Governors shall adopt regulations providing for the withholding of institutional services from students or former students who have been notified in writing at the student's or former student's last known address that he or she is in default on a loan or loans under either of the following loan programs:

(1) Guaranteed Student Loan program.

(2) Supplemental Loan for Students program.

"Default," for purposes of this section, means the failure of a borrower to make an installment payment when due, or to meet other terms of the promissory note under circumstances where the guarantee agency finds it reasonable to conclude that the borrower no longer intends to honor the obligation to repay, provided that this failure persists for 180 days for a loan repayable in monthly installments, or 240 days for a loan repayable in less frequent installments.

(b) The regulations adopted pursuant to subdivision (a) shall provide that the services withheld may be provided during a period when the facts are in dispute or when the student or former student demonstrates to either the governing board of the community college district, the Trustees of the California State University, the Regents of the University of California, the Board of Directors of the Hastings College of the Law, or the Maritime Academy Board of Governors, as appropriate, or to the Student Aid Commission, or both the Student Aid Commission and the appropriate entity or its designee, that reasonable progress has been made to repay the loan or that there exists a reasonable justification for the delay as determined by the institution. The regulations shall specify the services to be withheld from the student and may include, but are not limited to, the following:

(1) The provision of grades.

(2) The provision of transcripts.

(3) The provision of diplomas.

The adopted regulations shall not include the withholding of registration privileges.

(c) When it has been determined that an individual is in default on a loan or loans under either of the loan programs specified in subdivision (a), the Student Aid Commission shall give notice of the default to all institutions through which that individual acquired the loan or loans.

(d) This section shall not impose any requirement upon the University of California or the Hastings College of the Law unless the Regents of the University of California or the Board of Directors of the Hastings College of the Law, respectively, by resolution, make this section applicable.

(e) Guarantors, or those who act as their agents or act under their control, who provide information to postsecondary educational institutions pursuant to this section, shall defend, indemnify, and hold harmless the governing board of every community college district, the Trustees of the California State University, the Regents of the University of California, the Board of Directors of the Hastings College of the Law and the Maritime Academy Board of Governors from action resulting from compliance with this section when the action arises as a result of incorrect, misleading, or untimely information provided to the postsecondary educational institution by the guarantors, their agents, or those acting under the control of the guarantors.

SEC. 3. Section 94343.6 is added to the Education Code, to read:

94343.6. (a) The governing board or other governing authority of any California postsecondary educational institution as defined in subdivision (*l*) of Section 94302 shall adopt regulations providing for the withholding of institutional services from students or former students who have been notified in writing at the student's or former student's last known address that he or she is in default on a loan or loans under either of the following loan programs:

(1) Guaranteed Student Loan program.

(2) Supplemental Loan for Students program.

"Default," for purposes of this section, means the failure of a borrower to make an installment payment when due, or to meet other terms of the promissory note under circumstances where the guarantee agency finds it reasonable to conclude that the borrower no longer intends to honor the obligation to repay, provided that this failure persists for 180 days for a loan repayable in monthly installments, or 240 days for a loan repayable in less frequent installments.

(b) The regulations adopted pursuant to subdivision (a) shall provide that the services withheld may be provided during a period when the facts are in dispute and when the student or former student demonstrates to either the governing board or other appropriate governing authority of the California postsecondary educational institution as defined in subdivision (*l*) of Section 94302, or the Student Aid Commission, or both the Student Aid Commission and

the appropriate entity or its designee, that reasonable progress has been made to repay the loan or that there exists a reasonable justification for the delay as determined by the institution. The regulations shall specify the services to be withheld from the student and may include, but are not limited to, the following:

(1) The provision of grades.

(2) The provision of transcripts.

(3) The provision of diplomas.

The adopted regulations shall not include the withholding of registration privileges.

(c) When it has been determined that an individual is in default on a loan or loans under either of the loan programs specified in subdivision (a), the Student Aid Commission shall give notice of the default to all institutions through which that individual acquired the loan or loans.

(d) Guarantors, or those who act as their agents or act under their control, who provide information to postsecondary educational institutions pursuant to this section, shall defend, indemnify, and hold harmless the governing board or other governing authority of the institutions from action resulting from compliance with this section when the action arises as a result of incorrect, misleading, or untimely information provided to the postsecondary educational institution by the guarantors, their agents, or those acting under the control of the guarantors.

## CHAPTER 1421

An act to add and repeal Article 1.5 (commencing with Section 2720) of Chapter 6 of Division 2 of the Business and Professions Code, relating to registered nursing, and making an appropriation therefor.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. (a) The Legislature finds and declares that:

(1) There is a profound shortage of registered nurses in California.

(2) This shortage of nurses will jeopardize the provision of health care for the people of California.

(3) This shortage is likely to continue and worsen for many years because enrollment in schools of nursing in California and across the country is declining because young women and men are not choosing nursing as a career.

(b) The Legislature further finds and declares that:

(1) The reduced duration of the average hospital stay has aggravated this shortage by increasing the demand for registered nurses in hospitals, outpatient care and home care. Because patients

are sicker when they are in the hospital, are sicker when seen in outpatient settings and more frequently in need of nursing at home, the demands for more highly skilled and educated nurses have increased.

(2) Increasingly complex health care technology also demands highly skilled and educated nurses.

(3) Demographic trends such as the spread of acquired immune deficiency syndrome (AIDS) are burdening the health care system and will result in increased need for registered nurses for the forseeable future.

(c) The Legislature finds and declares that:

(1) It is in the interests of the people of California to encourage the development of new educational models which promote optimal use of existing educational resources to increase the supply of nurses in California.

(2) It is in the interests of the people of California to encourage the development of new models for the use of registered nurses in hospitals, outpatient settings, and home care in order to encourage nurses to remain in the profession, and in order to use their skills most effectively.

(d) The Legislature finds and declares that representatives of employers of nurses, educators of nurses, professional associations, and the Board of Registered Nurses have been seeking solutions to these complex problems.

(e) It is the intent of the Legislature that these parties be brought together to develop a coordinated strategy for addressing the shortage of registered nurses.

## CHAPTER 1422

An act to add Section 9725.1 to the Business and Professions Code, relating to cemeteries.

[Approved by Governor September 26, 1988 Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 9725.1 is added to the Business and Professions Code, to read:

9725.1. Unprofessional conduct by any licensee or registrant or by

any agent or employee of a licensee or registrant constitutes grounds for disciplinary action. Unprofessional conduct includes, but is not limited to, the following:

(a) Violating or attempting to violate, directly or indirectly, or assisting in or abetting the violation of this chapter and any regulation adopted thereunder, or of any federal or state law or regulation governing the disposition of human remains, operation of cemeteries or crematories, the sale of cemetery property, or the sale of crematory services or commodities.

(b) Negligence in performing any act related to the operation of a cemetery or crematory.

## CHAPTER 1423

An act relating to urban growth, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 26, 1988 Filed with Secretary of State September 27, 1988.]

I am deleting the $250,000 appropriation contained in Section 4 of Senate Bill No. 2895.

This bill would appropriate $250,000 to the Little Hoover Commission and to the Senate Office of Research for the development of studies on the effects of growth control on housing and on urban development

This legislation is not necessary since both the Little Hoover Commission and the Senate Office of Research currently have the staff and the authority to perform such studies. In fact, the State Senate Urban Growth Policy Project has already been established by Senate Resolution to perform a study of housing and growth management. If the Senate Office of Research needs additional funds to meet the mandate of the Resolution, it is more appropriate to allocate them from the Senate Contingency Fund

Finally, the affects of growth control on the availability and affordability of housing is an area that has been reviewed by the Department of Housing and Community Development (HCD), the Legislature, and housing advocate groups such as the California Association of Realtors. Furthermore, many of the areas mandated to be assessed by this bill have already been examined and findings published in HCD's report entitled *Growth Control: A Part of California's Landscape*, in the Assembly Office of Research's report entitled *California's Intrastructure: Rusty Hinges on the Golden Gate*, and in the Senate Committee on Local Government's report entitled *Closing the Gap. Intrastructure Needs and Our Ability to Pay for Them*.

With this deletion, I approve Senate Bill No. 2895

GEORGE DEUKMEJIAN, Governor

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) The population of the State of California continues to grow at a rate of more than 500,000 people annually. This growth rate requires a broad range of public facilities and services including schools and libraries, streets and highways, police and fire protection, water and sanitation, and parks and recreation.

(b) The number of new households requiring housing far outstrips the new affordable residential units constructed annually in California. Article 10.6 (commencing with Section 65580) of Chapter 3 of Division 1 of Title 7 of the Government Code requires each locality to develop a housing element to plan for the housing needs of all economic sectors of the community.

(c) One of the most important considerations in planning for this growth is the availability of affordable housing within a reasonable commute of employment.

(d) Community growth management becomes a volatile issue with the electorate when services and facilities are insufficient to maintain or attain the quality of life the community is accustomed to or is seeking. If local officials lack the financing authority to provide these services and facilities, community groups have turned to the initiative process to limit community growth.

(e) During the last 15 years, more than 150 growth initiatives have been placed on local ballots to limit community growth. In most cases, these measures use restrictions on the supply of housing to manage or control growth. The use of the initiative and referendum to achieve local growth control is not only increasing in frequency, but the range of land use issues addressed by these measures is expanding significantly.

(f) The effects of growth management measures are interjurisdictional. Housing markets do not follow municipal or county boundaries. Therefore, limitations in one community have a spillover effect on the surrounding communities.

(g) Various groups have urged the Legislature to enact legislation establishing state policy on growth control measures. Opponents and proponents of a state policy make highly contradictory claims about the benefits or negative effects of growth controls on housing, services, and the quality of community life.

(h) There is a need to conduct an independent evaluation of the effects of growth and growth control and management measures on the availability of affordable housing. There is a need to understand the various local conditions which served as the impetus for these measures. There is a need to consider a broad range of potential solutions, including the appropriate use of the state's powers, land use and housing courts, a policy for balancing jobs and housing in the development process, and a method of financing the municipal services and facilities necessary for growth and development in order to ensure an adequate supply of housing.

SEC. 2. No later than December 31, 1988, the Commission on California State Government Organization and Economy shall contract with an institution or organization with demonstrated experience in the analysis of urban growth and community development related issues to analyze and develop recommendations concerning the effects of growth control measures on the availability and affordability of housing. In the selection of the consultant, the commission shall seek the advice of local government

officials, advocates of growth management, the building and development industry, affordable housing advocates, organizations concerned with the broad effects of growth controls, the real estate industry, environmental groups, and the Department of Housing and Community Development. The report shall include, but is not limited to, all of the following:

(a) An inventory and analysis of growth control ordinances, measures, and practices, however adopted or enacted. The report shall contain a definition of the growth control mechanisms to be evaluated. The report shall include a comprehensive review of the underlying causes for growth control measures and the relationship, if any, between the level of community facilities and services, including transportation and health and safety issues, and growth control measures.

(b) The effect of growth control measures on the availability and affordability of housing, including housing for lower income households, exemptions from measures, the effects on the numbers and ratio of homeownership units to rental units, the cost of land, the cost of construction, the cost of infrastructure, and the cost of other mitigation factors. The contractor may elect to measure this effect by a statewide analysis or by studying several selected areas.

(c) Recommendations on the appropriate role of cities, counties, regional agencies, and the state to (1) ensure that there are sufficient services and facilities to support community growth and development, and (2) to resolve the effects, including the interjurisdictional effects, of growth control measures on the supply and affordability of housing.

(d) Legislative recommendations for both short-term solutions and long-range solutions which can be implemented in stages.

(e) Evaluation of the effectiveness of state development appeals bodies and land use and housing courts in other states and their possible usefulness to California.

The report shall be submitted to the Legislature and the Governor no later than December 31, 1989. The consultant shall submit a progress report to the commission no later than June 30, 1989. The commission shall prepare a request for proposals, evaluate the proposals, select a contractor or contractors, administer the contract or contracts, and monitor progress.

SEC. 3. The Senate Office of Research shall seek the advice of local government officials, advocates of growth management, the building and development industry, environmental groups, experts on transportation, experts on air and water quality, affordable housing advocates, organizations concerned with the broad effects of growth, the real estate industry and the relevant state departments in reviewing a request for proposal to implement Senate Resolution 39 of the 1987–88 Regular Session.

SEC. 4. The sum of two hundred fifty thousand dollars ($250,000) is hereby appropriated from the General Fund to be allocated according to the following schedule:

(a) The sum of one hundred fifty thousand ($150,000) is allocated to the Commission on California State Government Organization and Economy for consulting contracts and services authorized by Section 2 of this act.

(b) The sum of one hundred thousand dollars ($100,000) is allocated to the Senate Office of Research for the request for proposal provided for in Senate Resolution 39 of the 1987–88 Regular Session.

This act is an urgency statute necessary for the immediate preservation of public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

As the number of communities which have enacted or are considering enactment of growth control measures grows, so does the demand for a state policy on this issue. There is a need to evaluate this sweeping new movement, its roots and effects, so as to enable the Legislature to determine whether a state policy on this issue is necessary. Furthermore, there is an urgent need for comprehensive planning and funding in order to ameliorate the adverse impacts of growth and to preserve and enhance the quality of life throughout the state.

## CHAPTER 1424

An act to amend Section 4084.6 of, to add Sections 4050.1 and 4383 to, and to add and repeal Section 4350.6 of, the Business and Professions Code, relating to pharmacy, and making an appropriation therefor.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. (a) The Legislature finds and declares that the practice of pharmacy is a dynamic, patient-oriented health service that applies a scientific body of knowledge to improve and promote patient health by means of appropriate drug use and drug related therapy.

(b) The Legislature recognizes that with the proliferation of alternate methods of health delivery, there has arisen among third-party payers and insurance companies the desire to control the cost and utilization of pharmacy services through a variety of mechanisms, including the use of mail order pharmacies located outside the State of California.

(c) As a result, the Legislature finds and declares that to continue to protect the California consumer-patient, all out-of-state pharmacies that provide service to California residents shall be

registered with the board, disclose specific information about their services, and provide pharmacy services at a high level of protection and competence.

SEC. 2. Section 4050.1 is added to the Business and Professions Code, to read:

4050.1. (a) Any pharmacy located outside this state which ships, mails, or delivers, in any manner, controlled substances or dangerous drugs or devices into this state shall be considered a nonresident pharmacy, shall be registered with the board, and shall disclose to the board all of the following:

(1) The location, names and titles of all principal corporate officers and all pharmacists who are dispensing controlled substances or dangerous drugs or devices to residents of this state. A report containing this information shall be made on an annual basis and within 30 days after any change of office, corporate officer, or pharmacist.

(2) That it complies with all lawful directions and requests for information from the regulatory or licensing agency of the state in which it is licensed as well as with all requests for information made by the board pursuant to this section. The nonresident pharmacy shall maintain, at all times, a valid unexpired license, permit, or registration to conduct the pharmacy in compliance with the laws of the state in which it is a resident. As a prerequisite to registering with the board, the nonresident pharmacy shall submit a copy of the most recent inspection report resulting from an inspection conducted by the regulatory or licensing agency of the state in which it is located.

(3) That it maintains its records of controlled substances or dangerous drugs or devices dispensed to patients in this state so that the records are readily retrievable from the records of other drugs dispensed.

(b) Any pharmacy subject to this section shall, during its regular hours of operation, but not less than six days per week, and for a minimum of 40 hours per week, provide a toll-free telephone service to facilitate communication between patients in this state and a pharmacist at the pharmacy who has access to the patient's records. This toll-free number shall be disclosed on a label affixed to each container of drugs dispensed to patients in this state.

(c) The registration fee shall be the fee specified in subdivision (a) of Section 4416.

(d) The registration requirements of this section and Sections 4350.6 and 4383, shall apply only to a nonresident pharmacy which only ships, mails, or delivers controlled substances and dangerous drugs and devices into this state pursuant to a prescription.

SEC. 3. Section 4084.6 of the Business and Professions Code is amended to read:

4084.6. No out-of-state manufacturer, wholesaler, or pharmacy doing business in this state who has not obtained a certificate, license, permit, registration, or exemption from the board and who sells or distributes drugs in this state through any person or media other than

a wholesaler who has obtained a certificate, license, permit, registration, or exemption pursuant to the provisions of this chapter or through a selling or distribution outlet which is licensed as a wholesaler pursuant to the provisions of this chapter, shall conduct the business of selling or distributing drugs in this state without obtaining an out-of-state drug distributor's license from the board or registering as a nonresident pharmacy.

Applications for an out-of-state drug distributor's license or a nonresident pharmacy registration, under this section shall be made on a form furnished by the board. The board may require such information as the board deems is reasonably necessary to carry out the purposes of the section.

The board may deny, revoke, or suspend such out-of-state distributor's license for any violation of this chapter or for any violation of Division 21 (commencing with Section 26001) of the Health and Safety Code. The license or nonresident pharmacy registration shall be renewed annually on or before the first day of January of each year.

The Legislature, by enacting this section, does not intend a license or nonresident pharmacy registration issued to any out-of-state manufacturer, wholesaler, or pharmacy pursuant to this section to change or affect the tax liability imposed by Chapter 3 (commencing with Section 23501) of Part 11 of Division 2 of the Revenue and Taxation Code on any out-of-state manufacturer, wholesaler, or pharmacy.

The Legislature, by enacting this section, does not intend a license or nonresident pharmacy registration, issued to any out-of-state manufacturer, wholesaler, or pharmacy pursuant to this section to serve as any evidence that such out-of-state manufacturer, wholesaler, or pharmacy is doing business within this state.

SEC. 4. Section 4350.6 is added to the Business and Professions Code, to read:

4350.6. (a) The board may deny, revoke, or suspend a nonresident pharmacy registration for failure to comply with any requirement of Section 4050.1 or 4383 or for any failure to comply with Section 11164 of the Health and Safety Code.

(b) The board may deny, revoke, or suspend a nonresident pharmacy registration for conduct which causes serious bodily or serious psychological injury to a resident of this state if the board has referred the matter to the regulatory or licensing agency in the state in which the pharmacy is located and the regulatory or licensing agency fails to initiate an investigation within 45 days of the referral. The board shall obtain and maintain a record of referrals pursuant to this subdivision and any action taken thereon and shall report its findings to the Legislature on or before March 31, 1991.

This section shall be operative until January 1, 1992, and as of that date, is repealed unless a later enacted statute deletes or extends that date.

SEC. 5. Section 4350.6 is added to the Business and Professions

Code, to read:

4350.6. The board may deny, revoke, or suspend a nonresident pharmacy registration for failure to comply with any requirement of Section 4050.1 or 4383 or for any failure to comply with Section 11164 of the Health and Safety Code.

This section shall become operative on January 1, 1992.

SEC. 6. Section 4383 is added to the Business and Professions Code, to read:

4383. It is unlawful for any nonresident pharmacy which is not registered pursuant to Section 4050.1 to advertise its services in this state, or for any person who is a resident of this state to advertise the pharmacy services of a nonresident pharmacy which has not registered with the board, with the knowledge that the advertisement will or is likely to induce members of the public in this state to use the pharmacy to fill prescriptions.

SEC. 7. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

## CHAPTER 1425

An act to amend Section 61601.10 of, and to add Section 61765.76 to, the Government Code, relating to community services districts.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 61601.10 of the Government Code is amended to read:

61601.10. In addition to the powers which may be exercised pursuant to Section 61600, whenever the Board of Directors of the El Dorado Hills Community Services District, the Salton Community Services District, the Big River Community Services District, or the Lake Shastina Community Services District, determines by resolution, entered in the minutes, that it is feasible, economically sound, and in the public interest, and if a majority of the voters voting on the proposition vote in favor of the adoption of the additional purpose pursuant to Section 61601, the district may enforce the covenants, conditions, and restrictions adopted for each tract within the boundaries of the district, and assume the duties of the architectural control committee for each tract within the boundaries of the district and for other tracts as may be annexed from time to time, for the purpose of maintaining uniform standards of

development within the district as adopted in the covenants, conditions, and restrictions. However, the district shall exercise the duties of an architectural control committee for any tract only to the extent authorized by the covenants, conditions, and restrictions applicable to the tract.

The power to carry on that activity may be divested in the same manner as the power was acquired.

For the purposes of this section, "tract" means any parcel of land for which the county has authorized development.

SEC. 1.5. Section 61601.10 of the Government Code is amended to read:

61601.10. In addition to the powers which may be exercised pursuant to Section 61600, whenever the Board of Directors of the El Dorado Hills Community Services District, the Salton Community Services District, the Stallion Springs Community Services District, the Lake Shastina Community Services District, or the Big River Community Services District determines by resolution, entered in the minutes, that it is feasible, economically sound, and in the public interest, and if a majority of the voters voting on the proposition vote in favor of the adoption of the additional purpose pursuant to Section 61601, the district may enforce the covenants, conditions, and restrictions adopted for each tract within the boundaries of the district, and assume the duties of the architectural control committee for each tract within the boundaries of the district and for other tracts as may be annexed from time to time, for the purpose of maintaining uniform standards of development within the district as adopted in the covenants, conditions, and restrictions. However, the district shall exercise the duties of an architectural control committee for any tract only to the extent authorized by the covenants, conditions, and restrictions applicable to the tract.

The power to carry on that activity may be divested in the same manner as the power was acquired.

For the purposes of this section, "tract" means any parcel of land for which the county has authorized development.

SEC. 2. Section 61765.76 is added to the Government Code, to read:

61765.76. Notwithstanding Section 61765, in the Lake Shastina Community Services District, the water standby or availability charge shall not exceed forty dollars ($40) per year for each acre of land on which the charge is levied or forty dollars ($40) per year for a parcel less than one acre.

This section, applicable only to the Lake Shastina Community Services District, is necessary because of the unique and special water management and financing problems in the area included within the district.

In the event the Lake Shastina Community Services District places before the voters, the proposition of whether the district shall adopt the additional purpose of supplying water, it shall also include in the proposition the limitations on the water standby or availability

charges which may be charged to landowners within the district as prescribed in this section.

SEC. 3. The Legislature finds and declares that the Lake Shastina Community Services District has a special need to exercise the powers set forth in this act. The Legislature further finds and declares that this need is not common to all districts formed under the Community Services District Law. It is, therefore, hereby declared that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the Constitution, and that the enactment of this act as a special law, is necessary for the solution of problems existing in the Lake Shastina Community Services District.

SEC. 3.5. Section 1.5 of this bill incorporates amendments to Section 61601.10 of the Government Code proposed by both this bill and AB 4673. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1989, (2) each bill amends Section 61601.10 of the Government Code, and (3) this bill is enacted after AB 4673, in which case Section 1 of this bill shall not become operative.

## CHAPTER 1426

An act to amend Section 3 of Chapter 11 of the Statutes of 1986, and to add Part 10.7 (commencing with Section 17910) to the Education Code, relating to schoolbuses, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988 ]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares that there are many schoolbuses operating in this state which are not fuel efficient and do not meet current federal standards of safety, and that ensuring the safety of schoolbus transportation is a matter of the highest importance. It is, therefore, the intent of the Legislature, in enacting this act, to create a program for the purchase of new schoolbuses which meet federal safety standards and are primarily fueled by methanol or other low-emission, clean-burning fuels in the development of the demonstration program.

SEC. 2. Part 10.7 (commencing with Section 17910) is added to the Education Code, to read:

### PART 10.7. KATZ SAFE SCHOOLBUS CLEAN FUEL EFFICIENCY DEMONSTRATION PROGRAM

#### CHAPTER 1. GENERAL PROVISIONS

17910. This part shall be known and may be cited as the Katz Safe Schoolbus Clean Fuel Efficiency Demonstration Program.

17910.1. As used in this part, the following terms have the following meanings:

(a) "Commission" means the State Energy Resources Conservation and Development Commission.

(b) "Superintendent" means the Superintendent of Public Instruction.

(c) "Fund" means the Katz Schoolbus Fund created pursuant to Section 17911.

(d) "Department" means the Department of the California Highway Patrol.

(e) "Program" means the Katz Safe Schoolbus Clean Fuel Efficiency Demonstration Program.

(f) "Schoolbus" means a schoolbus, as defined in Section 545 of the Vehicle Code, which is Type 1 and publicly owned.

(g) "Local educational agency" means any of the following:

(1) A school district.

(2) A county office of education.

(3) A regional occupational program or center.

(4) A joint powers agency which operates publicly owned schoolbuses.

## CHAPTER 2. FISCAL PROVISIONS AND AUTHORIZED USE OF FUNDS

17911. There is hereby created in the State Treasury the Katz Schoolbus Fund.

17911.2. The commission shall determine the local educational agencies that are to receive replacement schoolbuses for participation in the program.

17911.3. In determining which candidate schoolbuses will be selected for replacement, the commission shall first, in coordination with the department and the superintendent, determine which local educational agencies meet the demonstration project criteria.

17911.4. All candidate schoolbuses selected by the commission for replacement shall be inspected by the department to determine that they meet the following criteria:

(a) The schoolbuses shall have been manufactured prior to April 1, 1977.

(b) The schoolbuses shall be beyond their useful service life, as determined by the department pursuant to Section 17911.5.

(c) The department shall consider all of the findings and criteria in the study prepared pursuant to Section 3 of Chapter 11 of the Statutes of 1986.

17911.5. (a) Schoolbuses shall be purchased by the Department of General Services pursuant to specifications developed by the commission. Title to any schoolbus purchased by the Department of General Services pursuant to this section shall be in the name of the

local educational agency for which the schoolbus was purchased.

(b) Any schoolbus purchased with these funds shall meet all applicable federal motor vehicle safety standards, operate with greater energy efficiency, and produce fewer adverse air emissions than the vehicles being replaced.

(c) No replacement vehicle shall exceed the capacity of the vehicle being replaced, as estimated by the department. A local educational agency may use funds from any available source, other than grants received pursuant to this part, to pay that part of the cost of a schoolbus that exceeds the cost of a replacement vehicle, as estimated by the department.

(d) The department shall estimate the useful service life of schoolbuses.

(e) A replacement vehicle may be of the same design, configuration, and nonpower-train specifications as the retired vehicle.

17911.6. Schoolbuses replaced under this part shall not be used as schoolbuses, youth buses, school pupil activity buses, or farm labor vehicles in this state.

## CHAPTER 3. DEMONSTRATION PROGRAM

17912. The demonstration program established by this chapter shall be designed and administered by the commission, with the advice and consultation of the department and the superintendent. The commission shall insure that fuel economy and exhaust emissions are monitored as a part of the demonstration, and shall ensure that at least 35 percent of the vehicles are powered by methanol or other low-emission, clean-burning fuels, unless the commission determines, within 18 months of the effective date of this act, that the use of these funds for clean burning fuel projects is infeasible. The commission shall, within 30 days of making that determination, submit a report to the Legislature explaining its determination with respect to the feasibility or infeasibility of the project. The field demonstration shall be in accordance with State Energy Conservation Program guidelines.

17912.1. The commission shall transmit a report to the Governor and to the Legislature on the demonstration program required by this chapter on or before June 30, 1989.

17912.2. When a local educational agency accepts a replacement schoolbus, it shall also agree to participate in the demonstration program. That participation shall include maintaining records of mileage and fuel consumption, and reporting that information to the commission in a timely manner. The commission shall, by regulation, establish a procedure and requirement for participation in the demonstration program.

SEC. 3. Section 3 of Chapter 11 of the Statutes of 1986 is amended to read:

Sec. 3. The sum of three hundred thousand dollars ($300,000) is

hereby appropriated from the Driver Training Penalty Assessment Fund to the Department of the California Highway Patrol to fund an engineering study and economic analysis of minimum standards for schoolbus replacement, reconditioning, inspection, and preventive maintenance.

The study shall be administered by the Department of the California Highway Patrol, with the assistance and cooperation of the State Department of Education.

The purpose of the study is to develop information that may be used by the State Department of Education to identify schoolbuses which are suitable for retrofitting to 1977 federal safety standards, to improve the allocation of funds for schoolbus replacement, to improve the effectiveness of bus inspections by the Department of the California Highway Patrol, and to improve schoolbus maintenance programs by school districts. The study shall identify the maintenance problems associated with various types and classes of schoolbuses and shall develop guidelines to assist school districts in making the most cost-effective use of their maintenance resources.

The study shall be contracted through a request for a proposal process.

SEC. 4. (a) Notwithstanding Sections 13340 and 16361 of the Government Code, and to the extent permitted by federal law, the sum of sixty million dollars ($60,000,000) of the money in the Federal Trust Fund, which is created by Section 16360 of the Government Code, received by the state from federal oil overcharge funds in the petroleum violation escrow account, is hereby appropriated for the purpose of providing funds for the implementation of Part 10.7 (commencing with Section 17910) of the Education Code, as follows:

(1) Fifty-nine million five hundred eighty-one thousand dollars ($59,581,000) to the State Energy Resources Conservation and Development Commission for the Katz Schoolbus Fund created by Section 17911 of the Education Code.

(2) For the purposes of Part 10.7 (commencing with Section 17910) of the Education Code:

(A) Two hundred sixty-nine thousand dollars ($269,000) to the State Energy Resources Conservation and Development Commission.

(B) One hundred fifty thousand dollars ($150,000) to the Department of the California Highway Patrol.

(b) The Legislature intends to appropriate for the implementation of Part 10.7 (commencing with Section 17910) of the Education Code one-half of each future disbursement received by the state from federal oil overcharge funds in the petroleum violation escrow account.

(c) All interest derived from the funds appropriated under subdivision (a) shall be used for the implementation of Part 10.7 (commencing with Section 17910) of the Education Code.

(d) Funds appropriated by this act from the petroleum violation escrow account shall be dispersed by the State Controller, subject to

approval by the Director of Finance as to which court judgment or federal agency order is the proper source of those funds.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the State of California to utilize available funds to provide for a safe schoolbus demonstration program, it is necessary for this program to take effect immediately.

## CHAPTER 1427

An act to add Chapter 5.7 (commencing with Section 25470) to Division 15 of the Public Resources Code, relating to transportation, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988 ]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 5.7 (commencing with Section 25470) is added to Division 15 of the Public Resources Code, to read:

### CHAPTER 5.7. SMART CORRIDOR TELECOMMUNICATIONS DEMONSTRATION PROJECT

25470. The Legislature finds and declares all of the following:

(a) By 1995, vehicle miles of travel on state highways will increase by 30 percent to 130 billion miles statewide, thereby placing an enormous demand on the state highway and local road systems.

(b) Congestion caused by growing motorist traffic results in increased energy consumption, substantial environmental costs, a significant cost burden on motor transport carriers and others moving goods, and lost productivity at the workplace.

(c) A number of metropolitan areas in California will not meet federal air quality standards of the Environmental Protection Agency and, as a consequence, will face sanctions which could reduce the amount of federal funding available to the state.

(d) Because of the immense fiscal and environmental impacts associated with new freeway construction, few, if any, new freeways will be built in our urban centers over the next 20 years.

(e) In lieu of additional freeway and road construction, transportation planners have to look to alternative and innovative means to address present and future traffic problems, including the use of telecommunications and computer systems to increase roadway efficiency and reduce commuter demand.

(f) Traffic congestion can be mitigated by providing commuters with up-to-the-minute information regarding traffic conditions and alternatives which will allow them to reach their destination in a timely and safe manner.

(g) Traffic flow can be enhanced through better coordination and management among public agencies of construction and maintenance activities.

(h) The application of telecommunications and computer systems to reduce traffic tieups and improve free-flow conditions on our state highway and local road systems will also produce significant energy savings to consumers, a goal consistent with the Legislature's intent to use petroleum violation escrow funds to provide restitution to energy users who were overcharged by oil companies that violated federal oil price control regulations.

25471. The Smart Corridor Telecommunications Demonstration Project is comprised of the following elements:

(a) A linked traffic monitoring network of traffic monitoring devices placed in freeway lanes, surface street travel lanes, turn lanes, and onramps to continuously monitor traffic speeds and volumes to identify congestion and traffic incidents.

(b) An interactive signal control system to allow central control personnel or systems to override regular signal cycles in order to expedite traffic flow of congested freeways and surface street intersections and to facilitate the diversion of traffic around congested areas.

(c) A traffic information management system providing commuter access to current traffic information through phone links, radio and television, home computers, terminals in office buildings, in-vehicle motorist information systems, and via computer-activated changeable message signs placed on freeways, at onramps, at downtown parking garages, and on major arterials which parallel the freeway system.

(d) An improved emergency response system to accelerate the dispatch of emergency vehicles, traffic control officers, and signal maintenance crews, thus reducing the time needed to clear an incident.

(e) Tow service to reduce congestion caused by delays in removing stalled or damaged cars from the freeway in accordance with plans developed by the Department of the California Highway Patrol in consultation with the Department of Transportation.

(f) A joint-agency data base system to coordinate construction and maintenance which impact traffic flow in the corridor.

25472. (a) In order to take full advantage of computerized traffic control equipment already in place, the Smart Corridor Telecommunications Demonstration Project shall be coordinated by the Los Angeles County Transportation Commission from any funds appropriated by the state for that purpose in the corridor of the Santa Monica Freeway (Interstate 10), bounded on the west by the San Diego Freeway (Interstate 405), on the north by Olympic

Boulevard, on the east by Soto Street, and on the south by Washington Boulevard between the San Diego Freeway and La Cienega Boulevard and Adams Boulevard between La Cienega Boulevard and Soto Street. The commission shall consult with local and state traffic and law enforcement agencies on all aspects of the Smart Corridor Telecommunications Demonstration Project in order to provide necessary and productive coordination of the project with existing plans and programs.

(b) The Los Angeles County Transportation Commission shall make every effort to make preliminary and final results of the demonstration project available to other interested parties and jurisdictions for possible application throughout the state. At the conclusion of the demonstration project, the commission shall provide the Legislature with a final report which shall cover the following areas:

(1) Effect of the demonstration project on average speeds, vehicle delay, and travel times in the corridor, including local arterials.

(2) Effect of the demonstration project on response time to traffic incidents in the corridor.

(3) Effect of the demonstration project on accident rates in the corridor.

(4) Elements of the demonstration project which can be applied in other urban areas.

25473. The Department of Transportation, in coordination with appropriate regional and local agencies, shall study the feasibility of, and provide preliminary costs for, the application of smart corridor technologies, as described in Section 25471, in other corridors in the Los Angeles, San Diego, Sacramento, and San Francisco Bay Area regions and for the conduct of an in-vehicle motorist information and navigation system demonstration. The department shall report to the Legislature on its findings of the feasibility studies and progress on the in-vehicle demonstration by June 30, 1990.

SEC. 2. Notwithstanding Sections 13340 and 16361 of the Government Code and to the extent permitted by federal law, in lieu of any funds appropriated in Item 2660-112-853 of the Budget Act of 1988, the sum of six million five hundred thousand dollars ($6,500,000) of the money in the Federal Trust Fund, created by Section 16360 of the Government Code, received by the state either from federal oil overcharge funds in the Petroleum Violations Escrow Account, as defined by either Section 155 of the Further Continuing Appropriations Act of 1983 (P.L. 97-377) or by any other federal law, or from federal oil overcharge funds available pursuant to court judgments, is hereby appropriated to the Department of Transportation for allocation to the Los Angeles County Transportation Commission for carrying out the Smart Corridor Telecommunications Demonstration Project pursuant to Chapter 5.7 (commencing with Section 25470) of Division 15 of the Public Resources Code.

SEC. 3. Funds appropriated by this act from the Petroleum

Violation Escrow Account shall be dispersed by the State Controller, subject to approval by the Director of Finance as to which court judgment or federal agency order is the proper source of those funds.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the needed demonstration program proposed by this act to test the viability of new electronic technologies to help alleviate the massive overcrowding on our freeways and local streets and roads, and thereby smooth traffic flow and conserve energy be implemented as soon as possible, it is necessary that this act take effect immediately.

*The people of the State of California do enact as follows:*

SECTION 1. (a) Notwithstanding Sections 13340 and 16361 of the Government Code, and to the extent permitted by federal law, the sum of six million three hundred thousand dollars ($6,300,000) of the money in the Federal Trust Fund, which is created by Section 16360 of the Government Code, received by the state from federal oil overcharge funds in the petroleum violation escrow account, as defined by Section 155 of the Further Continuing Appropriations Act of 1983 (P.L. 97-377) or other federal law, and from federal oil overcharge funds available pursuant to court judgments or federal agency orders, is hereby appropriated to the State Energy Resources Conservation and Development Commission for allocation as follows:

(3) Three hundred fifty thousand dollars ($350,000) to the City of San Diego for the Grape and Hawthorne traffic system management

project.

(4) Two hundred fifty thousand dollars ($250,000) to the City of Oxnard for expenditure by the city for a pilot project of the Split Cycle and Offset Optimization Technic (SCOOT) traffic signal synchronization program for the City of Oxnard.

## CHAPTER 1429

An act to add Section 25402.3 to the Public Resources Code, relating to energy resources, and making an appropriation therefor.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares that the state has and will in the future receive funds from the federal petroleum violation escrow account, which the federal courts intend to be used to reduce energy costs of people who overpaid oil companies.

The Legislature further finds and declares that energy conservation rehabilitation of low-income housing is one of the quickest and most long-lasting ways to conserve energy.

The Legislature further finds and declares that low-income households are intended to be a primary beneficiary of petroleum violation escrow account funds, and that energy conservation rehabilitation of emergency shelters for the homeless, residential hotels, farmworker housing, and other housing reserved for low and very low income households is an effective way to reduce energy bills for lower income households.

The Legislature further finds and declares that the problems of low-income households in rural areas of the state are exacerbated by a serious underfunding of Low-Income Home Energy Assistance Program providers in those areas which combine low incomes with the highest energy costs in the state and that an increase in the minimum funding level for those providers is an effective way to reduce energy bills and provide emergency services for these low-income households.

The Legislature further declares that there is an ongoing need for weatherization and it is the intent of the Legislature that four million dollars ($4,000,000) will be allocated from future year Petroleum Violation Escrow Account funds for weatherization purposes.

SEC. 2. Section 25402.3 is added to the Public Resources Code, to read:

25402.3. For purposes of subdivision (e) of Section 25402.1, the commission shall contract with California building officials to establish two regional training centers to provide continuing education for local building officials and enforcement personnel as follows:

(a) One site shall be located in northern California and one site shall be located in southern California to serve the needs of the respective regions.

(b) The centers shall provide training on a monthly basis to ensure a uniform understanding and implementation of the energy efficient building standards. Existing resources shall be used as much as possible by utilizing members of the building official community in training activities.

(c) The centers shall provide similar training sessions, in the form of workshops given in designated rural areas, to ensure that adequate training is available throughout the state.

(1) A minimum of two workshops in northern California and two workshops in southern California shall be offered each year.

(2) The sites shall be selected to ensure the greatest number of participants will be served in areas of greatest need to decrease the financial burden on small rural or isolated local government agencies that would not be able to travel to the regional training centers for instruction.

SEC. 3. Notwithstanding Sections 13340 and 16361 of the Government Code, and to the extent permitted by federal law, the sum of nine million seven hundred thousand dollars ($9,700,000) of the money in the Federal Trust Fund created by Section 16360 of the Government Code and received by the state from federal oil

overcharge funds in the petroleum violation escrow account, as defined by Section 155 of the Further Continuing Appropriations Act of 1983 (Public Law 97-377) or other federal law, and received by the state from federal oil overcharge funds available pursuant to court judgments and federal agency orders, is hereby appropriated as follows:

(a) Two million dollars ($2,000,000) to the Department of Housing and Community Development for energy conservation housing rehabilitation for lower and very low income households, as defined by Sections 50079.5 and 50105, respectively, of the Health and Safety Code, for allocation in accordance with the following schedule:

(1) One million dollars ($1,000,000) for energy conservation rehabilitation of farmworker housing.

(2) One million dollars ($1,000,000) for energy conservation rehabilitation of residential hotels and rental housing for the elderly and handicapped, as defined in Section 50067 of the Health and Safety Code.

(b) Two million three hundred sixty-five thousand dollars ($2,365,000) to the Department of Economic Opportunity to provide a minimum funding level of one hundred sixty thousand dollars ($160,000) for weatherization services to each of the local public or private nonprofit agencies providing weatherization assistance pursuant to the Low-Income Home Energy Assistance Program and Sections 16367.5 to 16367.75, inclusive, and 16367.9 of the Government Code.

(c) Four million dollars ($4,000,000) to the Department of Economic Opportunity to be used for weatherization projects provided under subdivision (c) of Section 16367.5 of the Government Code and subdivision (d) of Section 16367.61 of the Government Code.

(2) The sum of four million dollars ($4,000,000) which was appropriated to the Department of Economic Opportunity for the purposes of paragraph (2) of subdivision (a) of Section 2 of Chapter 1342 of the Statutes of 1986, is hereby reappropriated to the department for carrying out its weatherization program under subdivision (c) of Section 16367.5 of the Government Code.

(d) One million three hundred thirty-five thousand dollars ($1,335,000) to the State Energy Resources Conservation and Development Commission, in consultation with the Energy Extension Service, for the establishment of regional training centers pursuant to Section 25402.3 of the Public Resources Code.

SEC. 4. Funds appropriated by this act from the petroleum violation escrow account shall be dispersed by the State Controller, subject to approval by the Director of Finance as to which court judgment or federal agency order is the proper source of those funds.

## CHAPTER 1430

An act to amend Section 1203.1b of the Penal Code, relating to crime.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1203.1b of the Penal Code, as amended by Chapter 284 of the Statutes of 1981, is amended to read:

1203.1b. (a) In any case in which a defendant is convicted of an offense and granted probation, the court may, after a hearing, make a determination of the ability of the defendant to pay all or a portion of the reasonable cost of probation; and of conducting the presentence investigation and preparing the presentence report made pursuant to Section 1203. The reasonable cost of these services and of probation shall not exceed the amount determined to be the actual average cost thereof. The court may, in its discretion, order the defendant to appear before a county officer designated by the court to make an inquiry into the ability of the defendant to pay all or a portion of such costs. At a hearing, the defendant shall be entitled to have, but shall not be limited to, the opportunity to be heard in person, to present witnesses and other documentary evidence, and to confront and cross-examine adverse witnesses, and to disclosure of the evidence against the defendant, and a written statement of the findings of the court or the county officer. If the court determines that the defendant has the ability to pay all or part of the costs, the court may set the amount to be reimbursed and order the defendant to pay that sum to the county in the manner in which the court believes reasonable and compatible with the defendant's financial ability; or with the consent of the defendant, the court may order the probation officer to set the amount of payment, which shall not exceed the maximum amount set by the court, and the manner in which the payment shall be made to the county. In making a determination of whether a defendant has the ability to pay the court shall take into account the amount of any fine imposed upon the defendant and any amount the defendant has been ordered to pay in restitution. The court may hold additional hearings during the probationary period.

If practicable, the court or the probation officer shall order payments to be made on a monthly basis. Execution may be issued on the order in the same manner as a judgment in a civil action. The order to pay all or part of the costs shall not be enforced by contempt.

A payment schedule for reimbursement of the costs of presentence investigation based on income shall be developed by the probation department of each county and approved by the presiding judges of the municipal and superior courts.

(b) The term "ability to pay" means the overall capability of the defendant to reimburse the costs, or a portion of the costs, of conducting the presentence investigation, preparing the presentence report, and probation, and shall include, but shall not be limited to, the defendant's:

(1) Present financial position.

(2) Reasonably discernible future financial position. In no event shall the court consider a period of more than six months from the date of the hearing for purposes of determining reasonably discernible future financial position.

(3) Likelihood that the defendant shall be able to obtain employment within the six-month period from the date of the hearing.

(4) Any other factor or factors which may bear upon the defendant's financial capability to reimburse the county for the costs.

(c) At any time during the pendency of the judgment rendered according to the terms of this section, a defendant against whom a judgment has been rendered may petition the rendering court to modify or vacate its previous judgment on the grounds of a change of circumstances with regard to the defendant's ability to pay the judgment. The court shall advise the defendant of this right at the time of rendering of the judgment.

(d) All sums paid by a defendant pursuant to this section shall be allocated for the operating expenses of the county probation department.

(e) The provisions of this section shall be operative in a county upon the adoption of an ordinance to that effect by the board of supervisors.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act does not mandate a new program or higher level of service on local government. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 4 (commencing with Section 17550) of Part 7 of Division 2 of Title 2 of the Government Code.

## CHAPTER 1431

An act to amend Section 25297.1 of, and to add Section 25297.2 to, the Health and Safety Code, relating to hazardous substances, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 25297.1 of the Health and Safety Code is amended to read:

25297.1. (a) In addition to the authority granted to the board pursuant to Division 7 (commencing with Section 13000) of the Water Code and to the department pursuant to Chapter 6.8 (commencing with Section 25300), the board, in cooperation with the department, shall develop and implement a pilot program for the abatement of, and oversight of the abatement of, unauthorized releases of hazardous substances from underground storage tanks by local agencies. The board shall select local agencies for participation in the program from among those local agencies which apply to the board, giving first priority to those local agencies which have demonstrated prior experience in cleanup, abatement, or other actions necessary to remedy the effects of unauthorized releases of hazardous substances from underground storage tanks. The board shall select only those local agencies which have implemented this chapter and which have begun to collect and transmit to the board the surcharge or fees pursuant to subdivision (b) of Section 25287. The department shall make available funding to the board for purposes of this section pursuant to the Budget Act of 1988 (Chapter 313 of the Statutes of 1988), as specified in subdivision (g). The department shall develop and make available to the board a standard contract form which conforms to the requirements of Chapter 6.8 (commencing with Section 25300) for use by the board in entering into agreements with, and making disbursements to, local agencies under this section.

(b) In implementing the pilot program described in subdivision (a), the board or a regional board may enter into an agreement with any local agency to perform, or cause to be performed, any cleanup, abatement, or other action necessary to remedy the effects of a release of hazardous substances from an underground storage tank with respect to which the local agency has enforcement authority pursuant to this section. The board shall not enter into an agreement with a local agency for soil contamination cleanup or for groundwater contamination cleanup unless the board determines that the local agency has a demonstrated capability to oversee or perform the cleanup. The implementation of the cleanup, abatement, or other action shall be consistent with procedures adopted by the board pursuant to subdivision (d) and shall be based upon cleanup standards specified by the board or regional board.

(c) The board or regional board shall provide funding to a local agency which enters into an agreement pursuant to subdivision (b) for the reasonable costs incurred by the local agency in overseeing any cleanup, abatement, or other action taken by a responsible party to remedy the effects of unauthorized releases from underground storage tanks.

(d) The board shall adopt administrative and technical

procedures, as part of the state policy for water quality control adopted pursuant to Section 13140 of the Water Code, for cleanup and abatement actions taken pursuant to this section. The procedures shall include, but not be limited to, all of the following:

(1) Guidelines as to which sites may be assigned to the local agency.

(2) The content of the agreements which may be entered into by the state board or the regional board and the local agency.

(3) Procedures by which a responsible party may petition the board for review, pursuant to Article 2 (commencing with Section 13320) of Chapter 5 of Division 7 of the Water Code, actions or decisions of the local agency in implementing the cleanup, abatement, or other action.

(4) Protocols for assessing and recovering money from responsible parties for any reasonable and necessary costs incurred by the board, regional board, or local agency in implementing this section.

(5) Quantifiable measures to evaluate the outcome of a pilot program established pursuant to this section.

(e) Any agreement between the board or regional board and a local agency to carry out a pilot program pursuant to this section shall require both of the following:

(1) The local agency shall establish and maintain accurate accounting records of all costs it incurs pursuant to this section and shall periodically make these records available to the board.

(2) The board and the department shall make reasonable efforts to recover costs incurred pursuant to this section from responsible parties, and may pursue any available legal remedy for this purpose.

(f) The board shall develop a system for maintaining a data base for tracking expenditures of funds pursuant to this section, and shall make this data available to the Legislature upon request.

(g) It is the intent of the Legislature that the cost of implementing the pilot program established by this section, including the board's administrative costs, shall not exceed seven million five hundred thousand dollars ($7,500,000) per year, which shall be appropriated in the annual Budget Act.

(h) (1) Sections 25355.5 and 25356 do not apply to expenditures from the Hazardous Substance Cleanup Fund for oversight of abatement of releases from underground storage tanks as part of the pilot program established pursuant to this section.

(2) A local agency which enters into an agreement pursuant to subdivision (b), shall notify the responsible party, for any site subject to a cleanup, abatement, or other action pursuant to the pilot program established pursuant to this section, that the responsible party is liable for all direct and indirect costs incurred by the local agency or the state.

(i) Any aggrieved person may petition the board for review of the action or failure to act of a local agency, which enters into an agreement pursuant to subdivision (b), at a site subject to cleanup,

abatement, or other action conducted as part of the pilot program established pursuant to this section, in accordance with the procedures adopted by the board pursuant to subdivision (d).

(j) This section shall remain in effect until January 1, 1990, and as of that date is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1990, deletes or extends that date.

SEC. 2. Section 25297.2 is added to the Health and Safety Code, to read:

25297.2. Any local agency which performs, or causes to be performed, any cleanup, abatement, or other action necessary to remedy the effects of a release of hazardous substances from an underground storage tank is immune from liability for this action to the same extent as the board or regional board is immune if the board or regional board had performed the cleanup, abatement, or other action.

SEC. 3. On or before March 1, 1990, the State Water Resources Control Board shall submit a report to the Legislature analyzing the results of the pilot program established pursuant to Section 25297.1 of the Health and Safety Code. The report shall include, but not be limited to, all of the following information:

(a) The number of cleanups, abatements, or other actions taken by local agencies to remedy the effects of a release of hazardous substances from underground storage tanks pursuant to the pilot program.

(b) The average administrative costs for all agencies involved in the pilot program, including the State Department of Health Services, the California regional water quality control boards, and the local agencies, to implement the cleanups, abatements, or other actions specified in subdivision (a) for a site, as compared to the average administrative costs for a remedial and removal action for a site when a California regional water quality control board takes action pursuant to subdivision (b) of Section 25297 of the Health and Safety Code.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to assure the expeditious cleanup of leaking underground storage tanks throughout the state, and thereby protect the public health and safety and the environment, it is necessary for this act to take effect immediately.

# CHAPTER 1432

An act to add Sections 11450.3 and 18919 to the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 26, 1988. Filed with Secretary of State September 27, 1988 ]

*The people of the State of California do enact as follows:*

(b) The director may, by formal order, waive the operation of specific provisions in paragraph (2) of subdivision (f) of Section 11450, as required for participation in the Emergency Housing Apartment Program Demonstration Project. The order establishing the waiver shall limit the operation of the demonstration project to San Francisco or Contra Costa Counties, or both, for no more than five years of operation, and shall not result in the reduction or elimination of any family's eligibility for assistance under paragraph (2) of subdivision (f) of Section 11450. The order establishing the waiver shall not take effect unless and until the following conditions have been met:

(1) The United States Department of Health and Human Services has approved federal financial participation for the demonstration project.

(2) A comprehensive plan, including an analysis of the expected costs and savings, has been published in a newspaper of general circulation in the county or counties conducting the demonstration project and filed with the policy and fiscal committees of each house of the Legislature.

(c) The county or counties participating in the demonstration project authorized by this section shall submit an annual report to the department on the demonstration project. The county or counties shall additionally collect and report any data and findings as required by the department and shall cooperate with the department in evaluating the demonstration project.

(2) Total expenditures, by source of funds, for the demonstration project, as well as estimated savings due to operation of the

demonstration project.

(3) The impact of the demonstration project on availability of affordable permanent housing for low-income families.

(4) The impact of the demonstration project on availability of affordable transitional, short-term housing for low-income homeless families.

(5) The extent to which the demonstration project enables low-income homeless families to make the transition into permanent housing.

(e) It is the intent of the Legislature that funding for the demonstration project authorized by this section be contained in annual Budget Act appropriations.

(2) A comprehensive plan, including an analysis of the expected costs and savings, has been published in a newspaper of general circulation in San Diego County and filed with the policy and fiscal committees of each house of the Legislature.

(c) During the duration of the demonstration project, cashed out food stamp benefits shall not be considered as income in determining eligibility, the amount of aid, or benefit levels in any other public benefit or subsidy program. Applicants and recipients shall be entitled to the same rights to fair hearings and appeals that they would otherwise be entitled to under the Food Stamp Program.

(d) San Diego County shall submit an annual report to the department on the demonstration project authorized by this section. The county shall additionally collect and report any data and findings as required by the department and shall cooperate with the department in evaluating the demonstration project.

The report shall address, but not be limited to, the impact of the demonstration project on all of the following:

(1) Food stamp processing and mailing costs.
(2) Eligibility staff time and other administrative costs.
(3) Losses caused by fraud and theft.
(4) Changes in program benefits received by, and receptivity to cashed out benefits of, food stamp recipients.
(5) Food stamp error rate prior to and during cash out of food stamps.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

## CHAPTER 1441

An act to amend Sections 14083 and 16704 of, to add Section 11104.1 to, and to repeal and add Section 14007.5 of, the Welfare and Institutions Code, relating to Medi-Cal, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 27, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) The State of California has a compelling interest in providing medical care to aliens entitled to new Medicaid (Medi-Cal in California) benefits under recently enacted federal legislation. Both the Immigration Reform and Control Act of 1986 (IRCA) (Public Law 99-603) and the Omnibus Budget Reconciliation Act of 1986 (OBRA) (Public Law 99-509) extend new benefits to aliens.

(b) Current state law prohibits the payment of Medi-Cal benefits to aliens who are not found to be lawful permanent or color-of-law residents by the Immigration and Naturalization Service. This has required county hospitals, trauma centers, emergency clinics, and other medical providers to render emergency medical care to illegal aliens without the benefit of federal or state reimbursement.

(c) OBRA allows Medi-Cal coverage of undocumented aliens who are otherwise eligible for Medi-Cal. It provides federal financial participation in the costs of emergency medical care provided to such aliens. Adoption of enabling state legislation to implement OBRA in California is necessary to maximize the amount of federal financial participation available to the state, and to authorize Medi-Cal reimbursement to county hospitals, emergency clinics, trauma centers, and other providers who currently render unfunded emergency care to undocumented aliens.

(d) IRCA provides for impact assistance grant funds to cover costs attributed to newly legalized amnesty aliens. Adoption of enabling state legislation to implement IRCA in the Medi-Cal program is necessary to provide the care these aliens are entitled to and to maximize the amount of federal financial participation available to the state.

(e) Current state law does not conform to the scope of medical benefits available to certain aliens as mandated by IRCA and OBRA. IRCA provides emergency care and pregnancy-related services to amnesty aliens who are otherwise eligible for Medi-Cal but who are not aged, blind, disabled, or children under 18. Similarly, OBRA provides emergency care to aliens who are otherwise eligible for Medi-Cal but who are not permanent or color-of-law United States residents.

(f) (1) All aliens otherwise eligible for Medi-Cal program services shall be eligible only for the scope of services their specific alien status entitles them to under federal law. In implementing this intent, the State Department of Health Services shall develop policies and procedures and take action to assure that those aliens having medical needs for long-term care services or renal dialysis services shall be considered "permanently residing under color of law" for the purpose of determining their eligibility for Medi-Cal. The department's definition of "permanently residing under color of law" shall conform to federal statute, and shall take into account the policy and practice of the federal Department of Health and Human Services, Health Care Financing Administration, for the purpose of obtaining federal financial participation in the Medi-Cal program and ensuring that every alien entitled to benefits under federal law shall be eligible for Medi-Cal coverage to the fullest extent to which federal financial participation is authorized by federal law.

(2) The State Department of Health Services shall report to the Legislature on an annual basis the number of Medi-Cal beneficiaries currently receiving long-term care or renal dialysis services who are subsequentiy denied continuation of Medi-Cal coverage because

they have not been designated as aliens permanently residing under color of law (PRUCOL) as recognized by the United States Department of Health and Human Services for the purpose of federal financial participation.

(3) If aliens, who are receiving long-term care or renal dialysis services under the Medi-Cal program are subsequently denied full-scope Medi-Cal benefits because they have not qualified as permanently residing under color of law, they shall have the appeal rights and entitlement to continuation of benefits set forth in Chapter 7 (commencing with Section 10950) of Part 2 of Division 9 of the Welfare and Institutions Code. If, after exhausting those appeal rights, continuation of the alien's full-scope Medi-Cal coverage is not granted, the alien shall be eligible only for continuation of long-term care and renal dialysis services. Aliens shall be eligible for that continuation of long-term care or renal dialysis coverage only if otherwise eligible for Medi-Cal aside from alien status.

(g) IRCA provides Medicaid coverage to amnesty aliens for pregnancy-related services, whereas OBRA provides Medicaid coverage for emergency labor and delivery. To the extent these definitions may differ, it is the state's intent to assure access to appropriate pregnancy-related care for all eligible aliens. This care is critical to the health of expectant mothers and their unborn children. Therefore, the State of California shall pay, through the Medi-Cal program, for the same level of pregnancy-related services for aliens covered under OBRA as it does for those amnesty aliens under IRCA. Medi-Cal coverage shall be provided for these pregnancy-related services, including postpartum services, as defined in Section 14005.3 of the Welfare and Institutions Code, as added by Chapter 570 of the Statutes of 1987. Furthermore, the state shall petition Congress to clearly reconcile coverage under IRCA and OBRA to assure full range of pregnancy-related services for all eligible aliens.

(h) The State Department of Health Services shall develop data, using existing sources and timeframes whenever possible, relating to persons who qualify for Medi-Cal services under Section 14007.5 of the Welfare and Institutions Code and are eligible for services under OBRA or IRCA. The data shall summarize, for both OBRA and IRCA aliens, the number of eligible aliens, dollars expended by aid code, and dollars expended by claim type. This data shall be included as part of the normal fiscal planning estimates provided to the legislative fiscal committees pursuant to Section 14100.5 of the Welfare and Institutions Code.

(i) Current state law requires all aliens to certify that they belong to one of four alien statuses. This certification is forwarded to the Immigration and Naturalization Service for verification. Many undocumented aliens who would qualify for Medi-Cal emergency services upon implementation of OBRA would be reluctant to apply for such services for fear that the forwarding of their statutorily

mandated certification to the Immigration and Naturalization Service would result in their deportation. In order to maximize aliens' access to emergency medical care, and the federal financial participation for such care, it is necessary to repeal such law.

(j) To the extent that the Secretary of the Health and Welfare Agency determines that sufficient State Legalization Impact-Assistance Grant funds are available to the state for these purposes, the state shall use part of its State Legalization Impact-Assistance Grant allocation to reimburse counties for the costs of providing medical assistance to indigent eligible legalized aliens.

(k) The Legislature recognizes the breadth of the problem of uncompensated and undercompensated care facing California health care providers. This measure addresses one component of that problem.

SEC. 1.5. Section 11104.1 is added to the Welfare and Institutions Code, to read:

11104.1. The State Department of Social Services and the State Department of Health Services shall not take any compliance, disallowance, penalty, or other regulatory action against a county, as long as the United States Department of Health and Human Services has not taken any compliance, disallowance, penalty, or other action against the state, with respect to any error in the county's determination to make an individual eligible for benefits under the Aid to Families with Dependent Children, Food Stamps, and Medi-Cal programs based on citizenship or immigration status, under any of the following circumstances:

(a) The county has determined the eligibility based on a verification of satisfactory immigration status by the Immigration and Naturalization Service.

(b) The county was required by federal law to provide the applicant or recipient a reasonable opportunity to submit documentation.

(c) The county was required by federal law to wait for the response of the Immigration and Naturalization Service to the county's request for official verification of the immigration status of the individual.

(d) A fair hearing process was required pursuant to federal law.

SEC. 2. Section 14007.5 of the Welfare and Institutions Code is repealed.

SEC. 3. Section 14007.5 is added to the Welfare and Institutions Code, to read:

14007.5. (a) Aliens shall be eligible for Medi-Cal, whether federally funded or state-funded, only to the same extent as permitted under federal law and regulations for receipt of federal financial participation under Title XIX of the Social Security Act, except as otherwise provided in this section.

(b) In accordance with Section 1903(v)(1) of the federal Social Security Act (42 U.S.C. Sec. 1396b(v)(1)), and except as otherwise

provided in this section, an alien shall only be eligible for the full scope of Medi-Cal benefits, including, but not limited to, renal dialysis and long-term care, if the alien has been lawfully admitted for permanent residence, or is otherwise permanently residing in the United States under color of law.

For purposes of this section, aliens "permanently residing in the United States under color of law" shall be interpreted to include all aliens residing in the United States with the knowledge and permission of the Immigration and Naturalization Service and whose departure the Immigration and Naturalization Service does not contemplate enforcing and with respect to whom federal financial participation is available under Title XIX of the Social Security Act.

(c) Any alien whose immigration status has been adjusted either to lawful temporary resident or lawful permanent resident in accordance with the provisions of Section 210, 210A, or 245A of the federal Immigration and Nationality Act, and who meets all other eligibility requirements, shall be eligible only for care and services under Medi-Cal for which the alien is not disqualified pursuant to those sections of the federal act.

(d) Any alien who is otherwise eligible for Medi-Cal services, but who does not meet the requirements under subdivision (b) or (c), shall only be eligible for care and services that are necessary for the treatment of an emergency medical condition of the alien and for medically necessary pregnancy-related services. For purposes of this section, the term "emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity, including severe pain, which in the absence of immediate medical attention could reasonably be expected to result in any of the following:

(1) Placing the patient's health in serious jeopardy.

(2) Serious impairment to bodily functions.

(3) Serious dysfunction to any bodily organ or part. It is the intent of this section to entitle eligible individuals to all inpatient and outpatient services that are necessary for the treatment of an emergency medical condition as certified by the attending physician or other appropriate provider and in the same manner as administered under Section 51056 of Title 22 of the California Code of Regulations. Covered services include continuation of medically necessary inpatient hospital services and followup care, as determined by the department, which is directly related to the emergency.

(e) Each county department shall require, as a condition of eligibility for Medi-Cal benefits, a declaration in writing by the individual (or, in the case of an individual who is a child, by the child's caretaker relative or legal guardian on his or her behalf), under penalty of perjury, stating whether or not the individual is a citizen or national of the United States or an alien. In order to be eligible for benefits under subdivision (b) or (c), an individual who declares that he or she is an alien must present alien registration

documentation or other proof of satisfactory immigration status from the Immigration and Naturalization Service. Aliens who meet all other program requirements but who lack documentation of alien registration or other proof of satisfactory immigration status from the Immigration and Naturalization Service shall be provided a reasonable opportunity to submit such evidence. Such reasonable opportunity shall be 30 calendar days or the time it actually takes the county to process the Medi-Cal application, whichever is longer. While such reasonable opportunity is being provided, the county department shall process the individual's application for medical assistance in a manner conforming to its normal processing procedures and timeframes.

(f) The county department shall grant only the Medi-Cal benefits set forth in subdivision (d) to any individual who, after 30 calendar days or the time it actually takes the county to process the Medi-Cal application, whichever is longer, has failed to submit documents constituting reasonable evidence indicating a satisfactory immigration status for Medi-Cal purposes, or who is reported by the Immigration and Naturalization Service to lack a satisfactory immigration status for Medi-Cal purposes. If an alien has been receiving Medi-Cal benefits based on eligibility established prior to the effective date of this section and such individual, upon redetermination of eligibility for benefits, fails to submit documents constituting reasonable evidence indicating a satisfactory immigration status for Medi-Cal purposes, the county department shall discontinue the Medi-Cal benefits, except for the care and services set forth in subdivision (d). The county department shall provide adequate notice to the individual of any adverse action and shall accord the individual an opportunity for a fair hearing if he or she requests one.

(g) To the extent permitted by federal law and regulations, an alien applying for services under subdivisions (b) and (c) shall be granted eligibility for the scope of services to which he or she would otherwise be entitled if, at the time the county department makes the determination about his or her eligibility, the alien meets either of the following:

(1) Has not had a reasonable opportunity to submit documents constituting reasonable evidence indicating satisfactory immigration status.

(2) Has provided documents constituting reasonable evidence indicating a satisfactory immigration status, but the county department has not received timely verification of the alien's immigration status from the Immigration and Naturalization Service.

The verification process shall protect the privacy of all participants. An alien's immigration status shall be subject to verification by the Immigration and Naturalization Service, to the extent required for receipt of federal financial participation in the Medi-Cal program.

(h) If an alien does not declare status as a lawful permanent resident or alien permanently residing under color of law, or as an alien legalized under Section 210, 210A, or 245A of the federal Immigration and Nationality Act (P.L. 82-414), Medi-Cal coverage under subdivision (d) shall be provided to the individual if he or she is otherwise eligible.

(i) If an alien subject to this section is not fluent in English, the county department shall provide an understandable explanation of the requirements of this section in a language in which the alien is fluent.

SEC. 4. Section 14083 of the Welfare and Institutions Code is amended to read:

14083. The factors to be considered by the negotiator in negotiating contracts under this article, or in drawing specifications for competitive bidding, include, but are not limited to, all of the following:

(a) Beneficiary access.

(b) Utilization controls.

(c) Ability to render quality services efficiently and economically.

(d) Demonstrated ability to provide or arrange needed specialized services.

(e) Protection against fraud and abuse.

(f) Any other factor which would reduce costs, promote access, or enhance the quality of care.

(g) The capacity to provide a given tertiary service, such as specialized children's services, on a regional basis.

(h) Recognition of the variations in severity of illness and complexity of care.

(i) Existing labor-management collective bargaining agreements.

(j) The situation of county hospitals and university medical centers contracting with counties for provision of health care to indigent persons entitled to care under Section 17000, which are burdened to a greater extent than private hospitals with bad debts, indirect costs, medical education programs, and capital needs.

(k) The special circumstances of hospitals serving a disproportionate number of Medi-Cal beneficiaries and patients who are not covered by other third-party payers.

(*l*) The costs of providing complex emergency services, including the costs of meeting and maintaining state and local requirements for trauma center designation.

SEC. 5. Section 16704 of the Welfare and Institutions Code is amended to read:

16704. Funds from the County Health Services Fund shall be allocated to the governing body of each county, the City of Berkeley, the City of Long Beach, the City of Pasadena, and each existing local health district annually in accordance with the following procedures:

(a) The allocation of the amount determined in subdivision (a) of Section 16702 and one-third of the amount in paragraphs (2), (3), and (4) of subdivision (c) of Section 16702 shall be made to each

governing body of each local jurisdiction upon submission of the plan and budget as required by Section 16700. These funds shall be expended for county health services and public health services for cities as defined in paragraph (5) of subdivision (b).

(b) The allocation of the amounts up to the maximum determined in subdivisions (b), (c), and (d) of Section 16702 shall be made upon application by the governing body of each local jurisdiction and upon signing of an agreement between the governing body and the State Director of Health Services. In the agreement, (1) all local jurisdictions shall agree to expend funds in an aggregate amount at least equal to the total amount designated in the plan and budget submitted pursuant to Section 16700; (2) counties shall agree to net county costs for county health services of county funds in the same amount as the funds requested under this subdivision pursuant to subdivision (b) of Section 16702; (3) counties shall agree to expend one dollar ($1) of county funds for every three dollars ($3) of state funds requested pursuant to subdivision (d) of Section 16702; (4) the City of Berkeley shall agree to expend three dollars ($3) of city funds for every one dollar ($1) of state funds requested pursuant to paragraph (2) of subdivision (c) of Section 16702; and (5) all local health districts shall agree to expend two dollars ($2) of district funds for every one dollar ($1) of state funds requested pursuant to paragraph (3) of subdivision (c) of Section 16702. Funds requested pursuant to subdivision (d) and paragraph (3) of subdivision (c) of Section 16702 shall be expended only for public health services. The City of Long Beach and the City of Pasadena shall agree to expend the allocations received pursuant to paragraph (4) of subdivision (c) of Section 16702 only for public health services, exclusive of animal control and paramedic services.

(c) (1) The allocation of funds appropriated pursuant to subdivisions (c) and (d) of Section 16703 shall be made upon application by the county board of supervisors. The application shall be in a form and in accordance with procedures and format established by the department. The board shall assure that it will expend such funds only for the health services specified in Sections 14132 and 14021 provided to persons certified as eligible for such services pursuant to Section 17000. Unless the county has entered into a contract with the department under Section 16709 which is effective either for an entire fiscal year, including the 1983–84 fiscal year, or is effective for the period commencing October 1, 1983, and ending on June 30, 1984, the board shall also assure that it will incur no less in net costs of county funds for county health services in any fiscal year than the amount required to obtain the maximum allocation under Section 16702. These assurances shall be incorporated in the agreement specified in subdivision (b). In no event shall such funds be expended for costs of services specified in county Short-Doyle plans which are in excess of the 125 percent limitation specified in Section 5705.1.

(2) A county may reduce the amount of net costs of county funds

for county health services required pursuant to paragraph (1) of subdivision (c) to the extent such reduction has been permitted pursuant to the provisions of Section 16705 or 16705.5, provided that, for fiscal year 1982–83 only, the provisions of Section 16705 shall not be operative, except for counties which received approval for reductions pursuant to this section in prior fiscal years.

(3) Any person whose income and resources meet the income and resource criteria for certification for services pursuant to Section 14005.7 other than for the aged, blind, or disabled, shall not be excluded from eligibility for services to the extent that state funds are provided. Such persons may be held financially liable for these services based upon the person's ability to pay. A county may not establish a payment requirement which would deny medically necessary services. This section shall not be construed to mandate that a county provide any specific level or type of health care service or to preclude a county from utilizing its own forms for the purpose of identifying persons eligible for county health care services. The Board of Control shall not honor any claims by a local agency for reimbursement of costs under this section. The provisions of this paragraph shall become inoperative if a court ruling is issued which decrees that the provisions of this paragraph mandate that additional state funds be provided and which requires that additional state reimbursement be made to counties for costs incurred under this paragraph. This paragraph shall be operative only until June 30, 1985, unless a later enacted statute extends or deletes that date.

(d) The agreement shall provide for reports of expenditures and information and shall constitute a contractual obligation. The State Director of Health Services shall not have the authority to disapprove the county health services plan or to require the additional expenditure of county, city, or district funds for health services beyond that required by this section and Section 16707.

(e) The local jurisdiction shall act in general accordance with the plan and budget submitted pursuant to Section 16700.

(f) Notwithstanding any other provision of this part, there shall be no increase in the amount of county funds required pursuant to paragraph (2) of subdivision (b) as a result of the implementation of paragraphs (4), (5), and (6) of subdivision (c) of Section 16702.

SEC. 6. Eligibility for the California Children's Services shall not be adversely affected by any provision of this act.

SEC. 7. Sections 2 and 3 of this act shall become operative the first day of the calendar month following the effective date of this act.

SEC. 8. The sum of thirty-seven thousand five hundred dollars ($37,500) is hereby appropriated from the General Fund, and one hundred twelve thousand five hundred dollars ($112,500) in federal matching funds is hereby appropriated from the Federal Trust Fund, to the State Department of Health Services for the 1987–88 fiscal year for purposes of implementing this act.

SEC. 9. The State Director of Health Services shall adopt regulations implementing this act, excluding Section 4, as emergency

regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For the purposes of the Administrative Procedure Act, the adoption of the regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, emergency regulations adopted by the State Department of Health Services in order to implement this act shall not be subject to the review and approval of the Office of Administrative Law. These regulations shall become effective immediately upon filing with the Secretary of State.

SEC. 10. It is the intent of the Legislature to protect counties providing health care services to aliens from incurring net losses of Medi-Cal revenue as a result of the initial implementation of this act relating to aliens' eligibility for Medi-Cal. To carry out this intent, the following shall apply:

(a) A county providing health care services to aliens may file with the State Department of Health Services an application, together with supporting documentation, showing the amount of Medi-Cal revenue the county received for the 1986–87 fiscal year for providing services to aliens who were not lawful permanent residents or otherwise permanently residing in the United States under color of law, ncluding aliens who have been legalized under Section 210, 210A, or 245A of the federal Immigration Reform and Control Act of 1986 (IRCA) (Public Law 99-603). This revenue shall be referred to as the county's proposed base year alien Medi-Cal revenue. The application shall be filed no later than 90 days following the effective date of this act. The State Department of Health Services shall verify the application and documentation submitted by the county and shall establish the county's final base year alien Medi-Cal revenue.

(b) A county whose final base year alien Medi-Cal revenue has been established by the State Department of Health Services may file with the state department a claim for an offset in any shortfall in the county's annual alien Medi-Cal revenue for the 1988–89 and 1989–90 fiscal years, as compared to the county's base year alien Medi-Cal revenue. A county's annual alien Medi-Cal revenue shall be the annual Medi-Cal revenue received by the county for the 1988–89 or 1989–90 fiscal years for providing services to aliens who are not lawful permanent residents or otherwise permanently residing in the United States under color of law, including aliens who have been legalized under Section 210, 210A, or 245A of IRCA. A county's claims for a revenue shortfall offset under this section shall be filed no later than October 31, 1989, for the 1988–89 fiscal year and October 31, 1990, for the 1989–90 fiscal year, and shall include documentation supporting the county's computation of its annual alien Medi-Cal revenue.

(c) The state department shall verify a county's claims under this section and, except as otherwise provided in this section, shall pay

the county an amount equal to the net revenue shortfall between the county's base year alien Medi-Cal revenue and the county's annual alien Medi-Cal revenue. If payments are required by this section, they shall be made from the General Fund and shall be appropriated for this purpose by the Legislature.

(d) The State Department of Health Services may proportionately reduce a county's payments under this section if the department determines that the county's net shortfall in its annual alien Medi-Cal revenue was due, in whole or in part, to a reduction in the level of health care services provided by the county, or due to a reduction in the number of aliens seeking health care through the Medi-Cal program at county facilities who are otherwise eligible for Medi-Cal, including those aliens who do not actually apply for Medi-Cal.

SEC. 11. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 12. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to allow the state to implement fully the federal Immigration Reform and Control Act and the federal Omnibus Reconciliation Act of 1986 to allow the approximately 220,000 persons in this state who are impacted by those laws to obtain their medical care under Medi-Cal, it is necessary that this act take effect immediately.

# CHAPTER 1442

An act to amend Section 4600 of the Civil Code, relating to family law.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 27, 1988 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 4600 of the Civil Code is amended to read:

4600. (a) The Legislature finds and declares that it is the public policy of this state to assure minor children of frequent and continuing contact with both parents after the parents have separated or dissolved their marriage, and to encourage parents to share the rights and responsibilities of child rearing in order to effect this policy.

In any proceeding where there is at issue the custody of a minor child, the court may, during the pendency of the proceeding or at any time thereafter, make such order for the custody of the child during minority as may seem necessary or proper. If a child is of sufficient age and capacity to reason so as to form an intelligent preference as to custody, the court shall consider and give due weight to the wishes of the child in making an award of custody or modification thereof. In determining the person or persons to whom custody should be awarded under paragraph (2) or (3) of subdivision (b), the court shall consider and give due weight to the nomination of a guardian of the person of the child by a parent under Article 1 (commencing with Section 1500) of Chapter 1 of Part 2 of Division 4 of the Probate Code.

(b) Custody should be awarded in the following order of preference according to the best interests of the child pursuant to Section 4608:

(1) To both parents jointly pursuant to Section 4600.5 or to either parent. In making an order for custody to either parent, the court shall consider, among other factors, which parent is more likely to allow the child or children frequent and continuing contact with the noncustodial parent, and shall not prefer a parent as custodian because of that parent's sex.

The court, in its discretion, may require the parents to submit to the court a plan for the implementation of the custody order.

(2) If to neither parent, to the person or persons in whose home the child has been living in a wholesome and stable environment.

(3) To any other person or persons deemed by the court to be suitable and able to provide adequate and proper care and guidance for the child.

(c) Before the court makes any order awarding custody to a person or persons other than a parent, without the consent of the parents, it shall make a finding that an award of custody to a parent

would be detrimental to the child and the award to a nonparent is required to serve the best interests of the child. Allegations that parental custody would be detrimental to the child, other than a statement of that ultimate fact, shall not appear in the pleadings. The court may, in its discretion, exclude the public from the hearing on this issue.

(d) This section establishes neither a preference nor a presumption for or against joint legal custody, joint physical custody, or sole custody, but allows the court and the family the widest discretion to choose a parenting plan which is in the best interests of the child or children.

## CHAPTER 1443

An act to amend Sections 4622 and 4626 of the Welfare and Institutions Code, relating to developmental disabilities.

(g) The governing board shall appoint an advisory committee composed of a wide variety of persons representing the various

categories of providers from which the regional center purchases client services. The advisory committee shall provide advice, guidance, recommendations, and technical assistance to the regional center board in order to assist the regional center in carrying out its mandated functions. The advisory committee shall designate one of its members to serve as a member of the regional center board.

(h) No member of the board or the program policy committee who is an employee or member of the governing board of a provider from which the regional center purchases client services shall do any of the following:

(1) Serve as an officer of the board or program policy committee.

(2) Vote on any fiscal matter affecting the purchase of services from any regional center provider.

(3) Vote on any issue other than as described in paragraph (2), in which the member has a financial interest, as defined in Section 87103 of the Government Code, and determined by the regional center board or program policy committee. The member shall provide a list of his or her financial interests, as defined in Section 87103, to the regional center board or program policy committee.

Nothing in this section shall prevent the appointment to a regional center governing board or the program policy committee of a person who meets the criteria for more than one of the categories listed above.

SEC. 2. Section 4626 of the Welfare and Institutions Code, as amended by Chapter 159 of the Statutes of 1986, is amended to read:

(3) Except as otherwise provided in subdivision (h) of Section 4622, an employee or member of the governing board of any entity from which the regional center purchases client services.

(4) Any person who has a financial interest, as defined in Section 87103 of the Government Code, in regional center operations, except as a consumer of regional center services.

(b) Notwithstanding paragraph (1) of subdivision (a), members serving on the governing board or program policy committee of a regional center on January 1, 1982, may continue to serve on the board or committee until the expiration of their term as defined in subdivision (f) of Section 4622. Notwithstanding any other provision of this section, members serving on the governing board or program policy committee of a regional center on January 1, 1982, may continue to serve on the board or committee until the expiration of

their current term. Changes in the composition of the board or committee required by amendments to this section that are operative on January 1, 1982, shall apply only to subsequent vacancies on the board or committee.

## CHAPTER 1444

An act to amend Section 14120 of the Welfare and Institutions Code, relating to Medi-Cal, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 14120 of the Welfare and Institutions Code is amended to read:

14120. (a) At the beginning of each fiscal year, for the current fiscal year, the director shall establish a monthly schedule of anticipated total payments and anticipated payments for categories of services, according to the categories established in the Governor's Budget. The schedule will be revised quarterly.

(b) The director shall report actual total payments and payments for categories of services, as set forth in subdivision (a), monthly to the Director of Finance and to the Joint Legislative Budget Committee.

(c) At any time during the fiscal year, if the director has reason to believe that the total cost of the program will exceed available funds, the director may first modify the method or amount of payment for services provided that no amount shall be reduced more than 10 percent and no modification will conflict with federal law. If such modification is not sufficient to bring the program within available funds, the director may postpone elective services in the schedule of benefits. Such postponement of elective services shall be accomplished by changing the standards for approval of requests for prior authorizations. Such changes shall be designed to insure that those recipients most in need of elective services receive them first within the funds available, but that no particular service is completely eliminated.

(d) At any time during the fiscal year, if the total amounts paid since the beginning of the fiscal year exceed by 10 percent the amounts scheduled, the director shall immediately institute the action set forth in subdivision (c).

(e) At any time during the fiscal year, if the total amounts paid for any category of service exceeds by 10 percent the amounts scheduled (other than services for which the method or amount of payment is prescribed by the United States Secretary of Health and Human

Services pursuant to Title XIX of the federal Social Security Act), the director shall modify the method or amount of payment for such category of service to assure that the total amount paid for such category of service in the fiscal year shall be less than 10 percent in excess of the total amount scheduled provided the total cost of the program to the State General Fund shall not exceed appropriated state general funds.

(f) Before any of the above actions are taken by the director, he or she shall consult with representatives of concerned provider groups.

(g) Notwithstanding subdivision (c) or (e), the director shall not reduce the amount of payment, under the circumstances described in subdivision (c) or (e), for the ingredient cost component of pharmaceutical services rendered by pharmacist providers in California.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to improve pharmaceutical services to the indigent as soon as possible, it is necessary that this act take effect immediately.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 66781.5 is added to the Government Code, to read:

66781.5. (a) If a revision of the plan prepared pursuant to this article includes a thermal powerplant using solid waste as fuel, that revision shall be submitted to the State Energy Resources Conservation and Development Commission prior to, or concurrently with, its submission to the board. The board shall not approve a revision until the State Energy Resources Conservation and Development Commission reviews and comments upon all of the following:

(1) Likely conformance with state energy policy adopted by the State Energy Resources Conservation and Development Commission pursuant to Section 25309 of the Public Resources Code.

(2) State Energy Resources Conservation and Development Commission jurisdiction over the thermal powerplant pursuant to Chapter 6 (commencing with Section 25500) of Division 15 of the Public Resources Code.

(3) Potential impacts and concerns associated with siting the thermal powerplant.

(b) The requirements of subdivision (a) apply either only to (1)

a thermal powerplant project using solid waste as fuel which is proposed to consist of one or more generating units which together will generate 50 or more megawatts of electricity, or (2) a thermal powerplant project using solid waste as fuel for which the proposed or eventual generating capacity is undefined.

(c) The intent of the review and comment requirements of subdivision (a) is to provide local agencies with advance notification of potential jurisdiction by the State Energy Resources Conservation and Development Commission over planned waste-to-energy facility construction. It is not the intent of subdivision (a) to affect the determination by local agencies and the board of the need for waste management facility capacity.

(d) The State Energy Resources Conservation and Development Commission shall comply with the review and comment requirements of subdivision (a) within 30 days of its receipt of a plan revision from a local agency. If the commission does not provide a local agency with its comments within 30 days, the board may approve the revision without any comment from the commission pursuant to subdivision (a).

SEC. 2. Section 66796.40 of the Government Code is amended to read:

66796.40. (a) An enforcement agency shall not issue, and the board shall not concur in the issuance of, a solid waste facilities permit to any stationary project designed to convert solid waste into energy or synthetic fuels until the enforcement agency makes all the following findings:

(1) The proposed project meets the requirements specified in paragraphs (1) and (2) of subdivision (a) of Section 66796.34.

(2) The proposed project is consistent with state solid waste management policy.

(3) The proposed project has a defined source of waste, including waste available from existing solid waste transfer and processing stations.

(4) The project is guaranteed, by contract or other commitments, more than sufficient quantities of waste to maintain the project's economic feasibility for the life of the bonded indebtedness of the project. In guaranteeing quantities of waste, those materials which are being recycled or which may reasonably be expected to be recycled shall not be included in these quantities.

(5) The project applicant has considered for the inclusion in its project, or for the inclusion in its contracts or commitments for municipal waste, reasonable and feasible methods to remove recyclable materials from the waste stream prior to incineration.

(6) If the proposed project is a thermal powerplant, the thermal powerplant has been specifically included in an adopted and approved revision of the plan prepared pursuant to Article 2 (commencing with Section 66780), and the county in which the project is located has complied with Section 66781.5.

(b) Facilities for the recovery of methane gas from disposal sites

are not subject to this section.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

The state body also may exclude from any public or closed session, during the examination of a witness, any or all other witnesses in the matter being investigated by the state body. receive compensation for their services, other than per diem and ordinary and necessary expenses, shall, when engaged in that capacity, be considered employees.

(c) Nothing in this article shall be construed to prevent an advisory body of a state body which administers the licensing of persons engaged in businesses or professions from conducting a closed session to discuss matters which the advisory body has found would constitute an unwarranted invasion of the privacy of an individual licensee or applicant if discussed in an open meeting, provided the advisory body does not include a quorum of the members of the state body it advises. Those matters may include review of an applicant's qualifications for licensure and an inquiry specifically related to the state body's enforcement program concerning an individual licensee or applicant where the inquiry occurs prior to the filing of a civil, criminal, or administrative disciplinary action against the licensee or applicant by the state body.

(e) Nothing in this article shall be construed to prevent any state body from holding a closed session to consider matters affecting the national security.

(f) Nothing in this article shall be construed to grant a right to enter any correctional institution or the grounds of a correctional institution where that right is not otherwise granted by law, nor shall anything in this article be construed to prevent a state body from holding a closed session when considering and acting upon the determination of a term, parole, or release of any individual or other disposition of an individual case, or if public disclosure of the subjects under discussion or consideration is expressly prohibited by statute.

However, prior to the closed session, the state body shall hold an open and public session in which it identifies the real property or real properties which the negotiations may concern and the person or persons with whom its negotiator may negotiate.

For purposes of this subdivision, the negotiator may be a member of the state body.

For purposes of this subdivision, "lease" includes renewal or renegotiation of a lease.

Nothing in this subdivision shall preclude a state body from holding a closed session for discussions regarding eminent domain proceedings pursuant to subdivision (q).

For purposes of consideration of shareholder voting on corporate stocks held by the state body, closed sessions for the purposes of voting may be held only with respect to election of corporate directors, election of independent auditors, and other financial issues which could have a material effect on the net income of the corporation. For the purpose of real property investment decisions which may be considered in a closed session pursuant to this subdivision, a state body shall also be exempt from the provision of subdivision (i) relating to the identification of real properties prior to the closed session.

(o) Nothing in this article shall be construed to prevent a state body, or such boards, commissions, administrative officers, or other representatives as may properly be designated by law or by a state body, from holding closed sessions with its representatives in discharging its responsibilities under Chapter 10 (commencing with Section 3500) of Division 4 of Title 1 as the sessions relate to salaries, salary schedules, or compensation paid in the form of fringe benefits.

For the purposes enumerated in the preceding sentence, a state body may also meet with a state conciliator who has intervened in the proceedings.

(q) Nothing in this article shall be construed to prevent a state body, based on the advice of its legal counsel, from holding a closed session to confer with, or receive advice from, its legal counsel regarding pending litigation when discussion in open session concerning those matters would prejudice the position of the state body in the litigation.

For purposes of this article, all expressions of the lawyer-client privilege other than those provided in this subdivision are hereby abrogated. This subdivision is the exclusive expression of the lawyer-client privilege for purposes of conducting closed-session meetings pursuant to this article. If the closed session is pursuant to paragraph (2) or (3), the memorandum shall include the existing facts and circumstances on which it is based. The legal counsel shall submit the memorandum to the state body prior to the closed session, if feasible, and in any case no later than one week after the closed session. The memorandum shall be exempt from disclosure pursuant to Section 6254.1.

For purposes of this subdivision, "litigation" includes any adjudicatory proceeding, including eminent domain, before a court, administrative body exercising its adjudicatory authority, hearing

officer, or arbitrator.

Disclosure of a memorandum required under this subdivision shall not be deemed as a waiver of the lawyer-client privilege, as provided for under Article 3 (commencing with Section 950) of Chapter 4 of Division 8 of the Evidence Code.

(r) Nothing in this article shall be construed to prevent the examining committee established by the State Board of Forestry, pursuant to Section 763 of the Public Resources Code, from conducting a closed session to consider disciplinary action against an individual professional forester prior to the filing of an accusation against the forester pursuant to Section 11503.

(s) Nothing in this article shall be construed to prevent an administrative committee established by the State Board of Accountancy pursuant to Section 5020 or 5020.3 of the Business and Professions Code from conducting a closed session to consider disciplinary action against an individual accountant prior to the filing of an accusation against the accountant pursuant to Section 11503. (u) Nothing in this article shall be construed to prevent a state body, as defined in Section 11121.7, from conducting a closed session to consider any matter which properly could be considered in a closed session by the body defined as a state body pursuant to Section 11121, 11121.2, or 11121.5.

(v) Nothing in this article shall be construed to prevent a state body, as defined in Section 11121.8, from conducting a closed session to consider any matter which properly could be considered in a closed session by the state body it advises.

(w) Nothing in this article shall be construed to prevent the State Board of Equalization from holding closed sessions for either of the following:

(1) When considering matters pertaining to the appointment or removal of the executive secretary of the State Board of Equalization.

(2) For the purpose of hearing confidential taxpayer appeals or data, the public disclosure of which is prohibited by law.

(x) Nothing in this article shall be construed to prevent the California Earthquake Prediction Evaluation Council, or other body appointed to advise the Director of the Office of Emergency Services or the Governor pursuant to Section 8590 concerning matters relating to volcanic or earthquake predictions, from holding closed sessions when considering the evaluation of possible predictions.

(y) This article shall not prevent the Teachers' Retirement Board from holding closed sessions when considering matters pertaining to the appointment or removal of the chief executive officer of the State Teachers' Retirement System.

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 21.5 (commencing with Section 9998) is added to Division 3 of the Business and Professions Code, to read:

### CHAPTER 21.5. FOREIGN LABOR CONTRACTORS

9998. This chapter shall apply only to "nonagricultural workers" as defined by Section 1101 (a) (15) (H) (ii) (b) of Title 8 of the federal

Immigration and Nationality Act. It shall not apply to any person duly licensed as a "farm labor contractor" as that term is defined in Section 1682 of the Labor Code nor shall it apply to any person exempt from the licensing requirement in Section 1682.5 of the Labor Code or to any employer employing agricultural workers as defined by Section 1101(a)(15)(H)(ii)(a) of Title 8 of the federal Immigration and Nationality Act.

9998.1. The following definitions are applicable to this chapter:

(a) "Person" includes any natural person, company, firm, partnership, or joint venture, association, corporation, or sole proprietorship.

(b) "Compensation" means all forms of remuneration or consideration for the provision of employment services to foreign workers by a foreign labor contractor.

(c) "Employment services" includes, but is not limited to, procuring employment, marketing labor, or otherwise arranging the employment or transportation, housing, and other living accommodations for foreign workers either on behalf of those workers or on behalf of another party.

(d) "Foreign worker" means any person seeking employment who is not a United States citizen but who is authorized by the federal government to work in the United States, including a person who engages in temporary nonagricultural labor pursuant to Section 1101(a)(15)(H)(ii)(b) of Title 8 of the federal Immigration and Nationality Act.

(e) "Foreign labor contractor" means any person who for compensation agrees to assist in securing or who actually secures for or provides employment services to foreign workers.

9998.2. (a) Every contract for the provision of employment services to foreign workers shall be written in the primary language of the foreign worker and shall include all material terms including, but not limited to, any and all compensation or consideration to be provided to the foreign worker in exchange for that worker's labor or services, any wages, housing, transportation, other living accommodations, and other benefits which are to be provided.

9998.3. No foreign labor contractor shall make, publish, or circulate or cause to be made, published, or circulated, to any person any false, fraudulent, or misleading representation or information concerning the terms or conditions of employment at any place or places of employment.

9998.4. No foreign labor contractor shall recruit for employment or cause any minor who is a foreign worker to be employed.

9998.5. Any foreign labor contractor who recruits or solicits without a bona fide job order and who induces a foreign worker to be transported to a proposed jobsite and who does not then provide employment for the foreign worker shall pay wages to the foreign worker at the agreed rate of pay for the job to which the foreign worker was being transported and for the elapsed time from the point of recruitment to the jobsite to the point the worker returns

to the place of original departure, and for any transportation costs incurred by the foreign worker in connection with the pursuit of the labor contractor's services.

9998.6. No person shall take any action against a foreign worker in retaliation for the foreign worker's exercise of any right under this chapter.

9998.7. No foreign labor contractor shall make promises or otherwise induce a foreign worker to travel or accept promises of employment by promising or providing assurances to the foreign worker that citizenship or permanent residency status in the United States shall be secured or pursued if the worker accepts the offer of services of the foreign labor contractor.

9998.8. (a) Any person who violates this chapter or who causes or induces another to violate this chapter is guilty of a misdemeanor punishable by a fine of not more than one thousand dollars ($1,000), or imprisonment in the county jail for not more than six months, or both.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

If, at any time during that three-year period, a person who is required to maintain that proof fails to maintain that proof, the department shall suspend that person's driving privilege until the proof of ability to respond in damages is again given to the department.

SEC. 2. Section 13352 of the Vehicle Code is amended to read:

13352. (a) The department shall immediately suspend or revoke, or record the court-administered suspension or revocation of, the privilege of any person to operate a motor vehicle upon receipt of a duly certified abstract of the record of any court showing that the person has been convicted of a violation of Section 23152 or 23153 or subdivision (a) of Section 23109, or upon receipt of a report of a judge of the juvenile court, a juvenile traffic hearing officer, or a referee of a juvenile court showing that the person has been found to have committed a violation of Section 23152 or 23153 or subdivision (a) of Section 23109. For purposes of this section, suspension or revocation shall be as follows:

(1) Upon a conviction or finding of a violation of Section 23152 punishable under Section 23160, the privilege shall be suspended for a period of six months if the court orders the department to suspend the privilege, or if the court does not grant probation, or if the offense occurred in a vehicle requiring a driver with a class 1 or class 2 driver's license or with a certificate specified in Section 12804.1. However, where (A) the driving privilege is required to be suspended by this paragraph due to the violation having occurred in vehicles requiring a class 1 or class 2 driver's license, and (B) the court grants probation and imposes the condition specified in subdivision (b) of Section 23161, the department shall issue the person a class 3 driver's license restricted in the same manner and subject to the same conditions as specified in subdivision (e) of Section 13352.5. (2) Upon a conviction or finding of a violation of Section 23153 punishable under Section 23180, the privilege shall be suspended for a period of one year. The privilege shall not be reinstated until the person gives proof of ability to respond in damages as defined in Section 16430.

(4) Except as provided in Section 13352.5, upon a conviction or finding of a violation of Section 23153 punishable under Section 23185, the privilege shall be revoked for a period of three years. The privilege shall not be reinstated until evidence satisfactory to the department establishes that no grounds exist which would authorize the refusal to issue a license and until the person gives proof of ability to respond in damages as defined in Section 16430.

(5) Upon a conviction or finding of a violation of Section 23152 punishable under Section 23170, the privilege shall be revoked for a period of three years. The court shall advise the person at the time of sentencing that completion of a one-year program or a 30-month program is required in order to become eligible for a California driver's license. Any individual convicted of a violation of Section 23152 punishable under Section 23170 may also, at any time after sentencing, petition the court for referral to a one-year program or a 30-month program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code. (6) Upon a conviction or finding of a violation of Section 23153 punishable under Section 23190, the privilege shall be revoked for a period of five years. The privilege shall not be reinstated until evidence satisfactory to the department establishes that no grounds exist which would authorize the refusal to issue a license and until the person gives proof of ability to respond in damages as defined in Section 16430 and gives proof satisfactory to the department of successful completion of a 30-month program approved pursuant to Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code. Chapter 9 (commencing with Section 11837) of Part 2 of Division 10.5 of the Health and Safety Code. Unless good cause is shown, the court shall order the referral.

(7) Upon a conviction or finding of a violation of Section 23152 punishable under Section 23175, the privilege shall be revoked for a period of four years. Unless good cause is shown, the court shall order the referral.

(9) Upon a conviction or finding of a violation of subdivision (a) of Section 23109 punishable under subdivision (f) of that section, the privilege shall be suspended for a period of six months, if the court orders the department to suspend the privilege. The privilege shall not be reinstated until the person gives proof of ability to respond in damages as defined in Section 16430.

(b) For the purpose of paragraphs (2) to (9), inclusive, of subdivision (a), the finding of the juvenile court judge, the juvenile traffic hearing officer, or the referee of a juvenile court of a commission of a violation of Section 23152 or 23153 or subdivision (a) of Section 23109, as specified in subdivision (a) of this section, is a conviction.

(c) Each judge of a juvenile court, juvenile traffic hearing officer, or referee of a juvenile court shall immediately report the findings specified in subdivision (a) to the department.

(d) A conviction of an offense in any state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or the Dominion of Canada which, if committed in this state, would be a violation of Section 23152, is a conviction of Section 23152 for purposes of this section, and such a conviction of an offense which, if committed in this state, would be a violation of Section 23153, is a conviction of Section 23153 for purposes of this section. The department shall suspend or revoke the privilege to

operate a motor vehicle pursuant to this section upon receiving notice of such a conviction.

(e) Whenever the driving privilege is restricted, suspended, or revoked pursuant to this section, the department shall not issue a restricted driver's license or reinstate the driving privilege unless the person gives proof of ability to respond in damages as defined in Section 16430 and maintains that proof for three years. If, at any time during that three-year period, a person who is required to maintain that proof fails to maintain that proof, the department shall suspend that person's driving privilege until the proof of ability to respond in damages is again given to the department.

SEC. 3. Section 13352 of the Vehicle Code is amended to read:

13352. (a) The department shall immediately suspend or revoke the privilege of any person to operate a motor vehicle upon receipt of a duly certified abstract of the record of any court showing that the person has been convicted of a violation of Section 23152 or 23153 or subdivision (a) of Section 23109, or upon receipt of a report of a judge of the juvenile court, a juvenile traffic hearing officer, or a referee of a juvenile court showing that the person has been found to have committed a violation of Section 23152 or 23153 or subdivision (a) of Section 23109. SEC. 5. Section 13352.5 of the Vehicle Code is amended to read:

13352.5. (a) Unless ordered to do so by the court upon a finding that the terms and conditions of probation were violated, the department shall not suspend, pursuant to paragraph (3) of subdivision (a) of Section 13352, but shall restrict the privilege of any person to operate a motor vehicle upon a conviction or finding that the person violated Section 23152, but only if the court has certified to the department that the court has granted probation to the person on conditions which include the conditions specified in subdivision (b) of Section 23166, the court has restricted the privilege to operate a motor vehicle as provided in that subdivision, and the person gives proof of ability to respond in damages as defined in Section 16430 to the department.

(b) Unless ordered to do so by the court upon a finding that the terms and conditions of probation were violated, the department shall not revoke, pursuant to paragraph (4) of subdivision (a) of Section 13352, but shall suspend for one year and, thereafter, restrict for two additional years, the privilege of any person to operate a motor vehicle upon a conviction or finding that the person violated Section 23153, but only if the court has certified to the department that the court has granted probation to the person on conditions which include the conditions specified in subdivision (b) of Section 23186, the court has ordered the department to suspend the privilege to operate a motor vehicle as provided in that subdivision, and the person gives proof of ability to respond in damages as defined in Section 16430 to the department.

The four-year period shall commence either on the date the person successfully completes the program or on the date on which the person's driving privilege was suspended or revoked by the department for failure to comply with the program's rules and regulations, whichever is later. With respect to any person convicted of a violation of Section 23152 or 23153 subsequent to the commencement of a four-year period, that person's eligibility to participate in the program again for purposes of this section shall be determined on the basis of the date on which the person is alleged to have committed that offense.

(d) The restriction of the driving privilege under subdivision (a) shall become effective 30 days from the date on which the person consented to participate in the program specified in subdivision (a), excluding any time of imprisonment ordered by the court, but only if the person presents evidence satisfactory to the department that he or she is participating in the program specified in subdivision (b) of Section 23166, gives proof of ability to respond in damages as

defined in Section 16430, and pays fees to the department of fifteen dollars ($15) upon application for the restricted license and twenty dollars ($20) upon completion of the treatment program or upon application for an unrestricted license, whichever is sooner. If the person fails to apply for a restricted license, fails to give proof of ability to respond in damages as defined in Section 16430, or if the person fails to show evidence of participation within 30 days, excluding the time of imprisonment ordered by the court, the department shall suspend the driving privilege of the person for the time prescribed in paragraph (3) of subdivision (a) of Section 13352.

(e) The restriction of the driving privilege under subdivision (b) shall become effective 30 days from the end of the period of suspension, but only if the person presents evidence satisfactory to the department that he or she is participating in the program specified in subdivision (b) of Section 23186, gives proof of ability to respond in damages as defined in Section 16430, and pays fees to the department of fifteen dollars ($15) upon application for the restricted license and twenty dollars ($20) upon completion of the treatment program or upon application for an unrestricted license, whichever is sooner. If the person fails to apply for a restricted license, fails to give proof of ability to respond in damages as defined in Section 16430, or if the person fails to show evidence of participation within 30 days from the end of the period of suspension, excluding any time of imprisonment ordered by the court to be served after the end of the period of suspension, the department shall revoke the driving privilege of the person for the time prescribed in paragraph (4) of subdivision (a) of Section 13352.

(f) The driving privilege restricted under subdivision (a) or (b) shall be limited to the hours for driving to and from the place of employment and during the course of employment and driving to and from activities required in an alcohol treatment program specified in subdivision (b) of Section 23166 or subdivision (b) of Section 23186. The department may set forth the times and days of restricted operation established by the court either on a special restricted license or upon the usual license form. Whenever the driving privilege is restricted under subdivision (a) or (b), proof of ability to respond in damages as defined in Section 16430 shall be maintained for three years. If the person maintains proof of ability to respond in damages as defined in Section 16430, the restriction shall continue in full force and effect until the person presents evidence satisfactory to the department that the person has completed the alcohol treatment program. Except as provided in Section 23168, in no event shall the length of the restriction for a person subject to subdivision (a) be less than the total time of restriction specified in subdivision (b) of Section 23166. In no event shall the total time of suspension and restriction for a person subject to subdivision (b) be less than the applicable period of revocation under paragraph (4) of subdivision (a) of Section 13352.

(g) Except as provided in this subdivision, the department shall

suspend or revoke the driving privilege for the time prescribed in paragraph (3) or (4) of subdivision (a) of Section 13352, 60 days from the date that the department notifies the person and the court of the intended action pursuant to subdivision (a) of Section 11837.1 of the Health and Safety Code, or the date ending the additional time ordered by the court under this subdivision, whichever is later. If the person presents evidence satisfactory to the department that the court of jurisdiction has consented to the person's reinstatement in the program and gives proof of ability to respond in damages as defined in Section 16430, the department shall continue in effect the restriction granted under subdivision (c), unless the person has previously been reinstated in the program on two or more occasions, in which case the department shall suspend or revoke the driving privilege for the time prescribed in paragraph (3) or (4) of subdivision (a) of Section 13352. The evidence shall be presented within 45 days of the notice from the department of the intended action or such additional time, not to exceed an additional 45 days, for the determination as is required, ordered, and transmitted to the department by the court, which additional time is not caused by any action or failure to act by the person.

(h) All abstracts of record showing a conviction that are forwarded to the department pursuant to Section 1803 shall state whether the court has granted probation to the person on conditions which include the conditions specified in subdivision (b) of Section 23166 or subdivision (b) of Section 23186 and state the date on which the person consented to participate in the program.

## TITLE 12. VIOLENT CRIME INFORMATION CENTER

14200. The Attorney General shall establish and maintain the Violent Crime Information Center to assist in the identification and the apprehension of persons responsible for specific violent crimes and for the disappearance and exploitation of persons, particularly children and dependent adults. The center shall establish and maintain programs which include, but are not limited to, all of the following: developing violent offender profiles; assisting local law enforcement agencies and county district attorneys by providing investigative information on persons responsible for specific violent crimes and missing person cases; providing physical description information and photographs, if available, of missing persons to county district attorneys, nonprofit missing persons organizations, and schools; and providing statistics on missing dependent adults and on missing children, including, as may be applicable, family abductions, nonfamily abductions, voluntary missing, and lost children or lost dependent adults.

This section shall become operative on July 1, 1989.

14201. (a) The Attorney General shall establish within the center and shall maintain an online, automated computer system designed to effect an immediate law enforcement response to reports of missing persons. The Attorney General shall design the computer system, using any existing system, including the California Law Enforcement Telecommunications System, to include an active file of information concerning persons reported to it as missing and who have not been reported as found. The computer system shall also include a confidential historic data base. The Attorney General shall develop a system of cataloging missing person reports according to a variety of characteristics in order to facilitate locating particular categories of reports as needed.

(b) The Attorney General's active files described in subdivision (a) shall be made available to law enforcement agencies. The Attorney General shall provide to these agencies the name and personal description data of the missing person including, but not limited to, the person's date of birth, color of eyes and hair, sex, height, weight, and race, the time and date he or she was reported missing, the reporting agency, and any other data pertinent to the purpose of locating missing persons. However, the Attorney General shall not release the information if the reporting agency requests the Attorney General in writing not to release the information because it would impair a criminal investigation.

(c) The Attorney General shall distribute a missing children and dependent adults bulletin on a quarterly basis to local law enforcement agencies, district attorneys, and public schools. The Attorney General shall also make this information accessible to other parties involved in efforts to locate missing children and dependent adults and to those other persons as the Attorney General deems appropriate.

This section shall become operative on July 1, 1989.

14202. (a) The Attorney General shall establish and maintain within the center an investigative support unit and an automated violent crime method of operation system to facilitate the identification and apprehension of persons responsible for murder, kidnap, including parental abduction, false imprisonment, or sexual assault. This unit shall be responsible for identifying perpetrators of violent felonies collected from the center and analyzing and comparing data on missing persons in order to determine possible leads which could assist local law enforcement agencies. This unit shall only release information about active investigations by police and sheriffs' departments to local law enforcement agencies.

(b) The Attorney General shall make available to the investigative support unit files organized by category of offender or victim and shall seek information from other files as needed by the unit. This set of files may include, among others, the following:

(1) Missing or unidentified, deceased persons dental files filed pursuant to this title or Section 10254 of the Health and Safety Code.

(2) Child abuse reports filed pursuant to Section 11169.

(3) Sex offender registration files maintained pursuant to Section 290.

(4) State summary criminal history information maintained pursuant to Section 11105.

(5) Information obtained pursuant to the parent locator service maintained pursuant to Section 11478.5 of the Welfare and Institutions Code.

(6) Information funished to the Department of Justice pursuant to Section 11107.

(7) Other Attorney General's office files as requested by the investigative support unit.

This section shall become operative on July 1, 1989.

(7) The person's last known location.

(8) The name or assumed name of the abductor, if applicable, other pertinent information relating to the abductor or the assumed abductor, or both.

(9) Any other information, as deemed appropriate by the Attorney General.

(c) The Attorney General, in consultation with local law enforcement agencies and other user groups, shall develop the form in which information shall be entered into the system.

(d) The Attorney General shall establish and maintain within the center a separate, confidential historic data base relating to missing children and dependent adults. The historic data base may be used only by the center for statistical and research purposes. The historic data base shall be set up to categorize cases relating to missing children and dependent adults by type. These types shall include the following: runaways, voluntary missing, lost, abduction involving movement of the victim in the commission of the crime or sexual exploitation of the victim, nonfamily abduction, family abduction, and any other categories as determined by the Attorney General. In addition, the data shall include the number of missing children and missing dependent adults in this state and the category of each case.

(e) The center may supply information about specific cases from the historic data base to a local police department, sheriff's department, or district attorney, only in connection with an investigation by the police department, sheriff's department, or district attorney of a missing person case or a sex crime as defined in subdivision (e) of Section 11105.3.

This section shall become operative on July 1, 1989.

14204. The Attorney General shall provide training on the services provided by the center to line personnel, supervisors, and investigators in the following fields: law enforcement, district attorneys' offices, California Youth Authority, the Department of Corrections, including the Parole and Community Services Unit, probation departments, court mediation services, and the judiciary. The Commission on Peace Officer Standards and Training shall provide for the presentation of training to peace officers which will

enable them to more efficiently handle, on the local level, the tracing of missing persons and victims of violent crimes.

This section shall become operative on July 1, 1989.

14205. (a) All local police and sheriffs' departments shall accept any report, including any telephonic report, of a missing person, including runaways, without delay and shall give priority to the handling of these reports over the handling of reports relating to crimes involving property. In cases where the person making a report of a missing person or runaway, contacts, including by telephone, the California Highway Patrol, the California Highway Patrol may take the report, and shall immediately advise the person making the report of the name and telephone number of the police or sheriff's department having jurisdiction of the residence address of the missing person and of the name and telephone number of the police or sheriff's department having jurisdiction of the place where the person was last seen. In cases of reports involving missing persons, including, but not limited to, runaways, the local police or sheriff's department shall immediately take the report and make an assessment of reasonable steps to be taken to locate the person. If the missing person is under 12 years of age, or there is evidence that the person is at risk, the department shall broadcast a "Be On the Look-Out" bulletin, without delay, within its jurisdiction.

(b) If the person reported missing is under 12 years of age, or if there is evidence that the person is at risk, the local police, sheriff's department, or the California Highway Patrol shall submit the report to the Attorney General's office within four hours after accepting the report. After the California Law Enforcement Telecommunications System online missing person registry becomes operational, the reports shall be submitted, within four hours after accepting the report, to the Attorney General's office through the use of the California Telecommunications System.

(c) In cases where the report is taken by a department, other than that of the city or county of residence of the missing person or runaway, the department, or division of the California Highway Patrol taking the report shall, without delay, and, in the case of children under 12 years of age or where there was evidence that the missing person was at risk, within no more than 24 hours, notify, and forward a copy of the report to the police or sheriff's department or departments having jurisdiction of the residence address of the missing person or runaway and of the place where the person was last seen. The report shall also be submitted by the department or division of the California Highway Patrol which took the report to the center.

14206. (a) (1) When any person makes a report of a missing person to a police department, sheriff's department, district attorney's office, California Highway Patrol, or other law enforcement agency, the report shall be given in person or by mail in a format acceptable to the Attorney General. That form shall include a statement authorizing the release of the dental or skeletal

X-rays, or both, of the person reported missing and authorizing the release of a recent photograph of a person reported missing who is under 18 years of age. Included with the form shall be instructions which state that if the person reported missing is still missing 30 days after the report is made, the release form signed by a member of the family or next of kin of the missing person shall be taken by the family member or next of kin to the dentist, physician and surgeon, or medical facility in order to obtain the release of the dental or skeletal X-rays, or both, of that person or may be taken by a peace officer, if others fail to take action, to secure those X-rays. Notwithstanding any other provision of law, dental or skeletal X-rays, or both, shall be released by the dentist, physician and surgeon, or medical facility to the person presenting the request and shall be submitted within 10 days by that person to the police or sheriff's department or other law enforcement agency having jurisdiction over the investigation. When the person reported missing has not been found within 30 days and no family or next of kin exists or can be located, the law enforcement agency may execute a written declaration, stating that an active investigation seeking the location of the missing person is being conducted, and that the dental or skeletal X-rays, or both, are necessary for the exclusive purpose of furthering the investigation. Notwithstanding any other provision of law, the written declaration, signed by a peace officer, is sufficient authority for the dentist, physician and surgeon, or medical facility to release the missing person's dental or skeletal X-rays, or both.

(2) The form provided under this subdivision shall also state that if the person reported missing is under 18 years of age, the completed form shall be taken to the dentist, physician and surgeon, or medical facility immediately when the law enforcement agency determines that the disappearance involves evidence that the person is at risk or when the law enforcement agency determines that the person missing is under 12 years of age and has been missing at least 14 days. The form shall further provide that the dental or skeletal X-rays, or both, and a recent photograph of the missing child shall be submitted immediately to the law enforcement agency. Whenever authorized under this subdivision to execute a written declaration to obtain the release of dental or skeletal X-rays, or both, is provided, the investigating law enforcement agency may obtain those X-rays when a person reported missing is under 18 years of age and the law enforcement agency determines that the disappearance involves evidence that the person is at risk. In each case, the law enforcement agency shall confer immediately with the coroner or medical examiners and shall submit its report including the dental or skeletal X-rays, or both, within 24 hours thereafter to the Attorney General. The Attorney General's office shall code and enter the dental or skeletal X-rays, or both, into the center.

(b) When a person reported missing has not been found within 45 days, the sheriff, chief of police, or other law enforcement agency conducting the investigation for the missing person shall confer with

the coroner or medical examiner prior to the preparation of a missing person report. The coroner or medical examiner shall cooperate with the law enforcement agency. After conferring with the coroner or medical examiner, the sheriff, chief of police, or other law enforcement agency initiating and conducting the investigation for the missing person shall submit a missing person report and the dental or skeletal X-rays, or both, and photograph received pursuant to subdivision (a) to the Attorney General's office in a format acceptable to the Attorney General.

Nothing in this section prohibits a parent or guardian of a child, reported to a law enforcement agency as missing, from voluntarily submitting fingerprints, and other documents, to the law enforcement agency accepting the report for inclusion in the report which is submitted to the Attorney General.

14207. (a) When a person reported missing has been found, the sheriff, chief of police, coroner or medical examiner, or the law enforcement agency locating the missing person shall immediately report that information to the Attorney General's office.

(b) When a child under 12 years of age or a missing person, where there was evidence that the person was at risk, is found, the report indicating that the person is found shall be made not later than 24 hours after the person is found. A report shall also be made to the law enforcement agency that made the initial missing person report. The Attorney General's office shall then notify the National Crime Information Center that the missing person has been found.

(c) In the event that a missing person is found alive or dead in less than 24 hours and the local police or sheriff's department has reason to believe that the person had been abducted, the department shall submit a report to the center in a format established by the Attorney General. In the event that a missing person has been found before he or she has been reported missing to the center, the information related to the incident shall be submitted to the center.

(c) The department shall include these photographs, as they become available, in the quarterly bulletins pursuant to subdivision (c) of Section 14201.

(d) State and local elected officials, agencies, departments, boards, and commissions may enclose in their mailings information regarding missing children or dependent adults obtainable from the Department of Justice or any organization that is recognized as a nonprofit, tax-exempt organization under state or federal law and that has an ongoing missing children program. Elected officials, agency secretaries, and directors of departments, boards, and commissions are urged to develop policies to enclose missing children or dependent adults information in mailings when it will not increase postage costs, and is otherwise deemed appropriate.

14210. (a) The Legislature finds and declares that it is the duty of all law enforcement agencies to immediately assist any person who is attempting to make a report of a missing person or runaway.

(b) The Department of the California Highway Patrol shall continue to implement the written policy, required to be developed and adopted pursuant to former Section 11114.3, for the coordination of each of its divisions with the police and sheriffs' departments located within each division in taking, transmitting, and investigating reports of missing persons, including runaways.

## CHAPTER 1457

An act relating to energy resources.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. (a) The Legislature hereby finds and declares that establishing a high-voltage electricity transmission system capable of facilitating bulk power transactions for both firm and nonfirm energy demand, accommodating the development of alternative power supplies within the state, ensuring access to regions outside the state having surplus power available, and reliably and efficiently supplying existing and projected load growth, are vital to the future economic and social well-being of California.

(b) The Legislature further finds and declares that the construction of new high-voltage transmission lines within new rights-of-way may impose financial hardships and adverse environmental impacts on the state and its residents, so that it is in the interests of the state, through existing licensing processes, to accomplish all of the following:

(1) Encourage the use of existing rights-of-way by upgrading existing transmission facilities where technically and economically justifiable.

(2) When construction of new transmission lines is required, encourage expansion of existing rights-of-way, when technically and economically feasible.

(3) Provide for the creation of new rights-of-way when justified by environmental, technical, or economic reasons as determined by the appropriate licensing agency.

(4) Where there is a need to construct additional transmission capacity, seek agreement among all interested utilities on the efficient use of that capacity.

SEC. 2. The State Energy Resources Conservation and Development Commission, in consultation with the Public Utilities Commission, shall prepare and submit a report to the Legislature, on or before November 30, 1990, setting forth the locations of existing and projected electrical transmission rights-of-way used and maintained by electric utilities, including, but not limited to, rights-of-way used for interstate transmission and those used for intrastate transmission for the next 5, 12, and 20 years. The report shall be adopted at a public hearing. The purpose of the report is to facilitate effective long-term transmission line corridor planning. The findings and recommendations in the report shall be considered by the State Energy Resources Conservation and Development Commission in the development and adoption of the electricity report prepared pursuant to Section 25308 of the Public Resources Code. The report shall include, but not be limited to, all of the following:

(1) A study of whether the state should create transmission rights-of-way, with particular regard to a trans-Sierra corridor and additional rights-of-way for other new bulk and area transmission lines, excluding any consideration of distribution lines, and whether the state should operate or control these rights-of-way, if established.

(2) An analysis of the costs and the benefits of creating new transmission rights-of-way for electric utilities and for the state and counties. This analysis shall include, but not be limited to, land management issues, environmental impacts, and the projected assessment of the effectiveness and costs of state ownership and operation as compared to private ownership and operation.

(3) Recommendations for those policy options which would create transmission rights-of-way in a cost-effective and efficient manner and which would minimize harmful environmental and operational impacts.

(4) Recommendations for the effective planning and development of rights-of-way for transmission lines, excluding any consideration of distribution lines.

(5) An addendum affording an opportunity for the expression of dissenting views.

(b) The report shall also include, but not be limited to, all of the following:

(1) Base case projections, which shall include an outline of the reporting approach and key assumptions, including demand forecasts, fuel prices, and ratepayer impacts.

(2) Alternative scenarios, which shall include consideration of out-of-region energy assessments, out-of-state energy assessments,

new utility development, construction of additional resources in this state, and a consideration of energy transactions involving new transmission lines proposed for construction.

(3) Strategic engineering issues, including consideration of the need or desirability of sharing of transmission lines and facilities by privately owned and publicly owned electric utilities, flexibility, future transmission capacity, reliability and soundness of design, and routing of a proposed transmission line with respect to current and future land uses.

(4) Electric utility transmission plans, including consideration of any relevant reports prepared by an electric utility pursuant to General Order No. 131 of the Public Utilities Commission projected over a 10-year period, and information submitted by utilities pursuant to Sections 25300 and 25301 of the Public Resources Code.

(5) New technological breakthroughs which may make the transmission of electricity more efficient and reduce the need for new rights-of-way for transmission lines.

(6) An assessment of the extent to which existing transmission capacity will serve as a reliable alternative to new transmission lines without a requirement by the public agency having jurisdiction over the existing lines that access to those existing lines be provided under reasonable terms and conditions to public utilities requiring transmission services.

(c) In preparing the report required by this section, the State Energy Resources Conservation and Development Commission shall consult with, and seek advice from, the following agencies and organizations and from any additional parties which the commission deems necessary:

(1) The California Farm Bureau and other land use organizations.
(2) The County Supervisors Association of California.
(3) The California Municipal Utilities Association.
(4) Public utilities.
(5) The Sierra Club and other environmental groups.
(6) The United States Forest Service.
(7) The United States Bureau of Land Management.
(8) The Department of Fish and Game.
(9) The Department of Forestry and Fire Protection.
(10) Affected counties.
(11) The Western Interstate Energy Board.
(12) The Western Systems Coordinating Council.
(13) The Western Systems Power Pool.

(d) The State Energy Resources Conservation and Development Commission shall furnish a copy of the final draft report to every agency and organization listed in subdivision (c) and to any other interested party for written comment at least 30 days prior to adoption of the final report. The State Energy Resources Conservation and Development Commission shall afford the Public Utilities Commission an opportunity to have its comments published in the final report. The State Energy Resources Conservation and

Development Commission may permit additional comments to be included or summarized. The State Energy Resources Conservation and Development Commission shall hold a public hearing prior to adoption of the final report.

(e) The report required by this section shall exclude any consideration of state acquisition of existing rights-of-way.

| MONTHLY AVERAGE ESCROW LIABILITY PER LOCATION | COVERAGE |

Upon receipt of this report, Fidelity Corporation shall provide immediately, and shall bill and collect immediately pursuant to Section 17231, an amount necessary to provide for the increased monthly average escrow coverage.

(d) Any member with a licensed location or locations with a monthly average escrow liability greater than ten million dollars ($10,000,000) shall obtain a bond from a corporate surety which is an admitted insurer in the State of California insuring the balance of trust funds not covered by Fidelity Corporation, in a ratio of one dollar of coverage for every three dollars of trust obligations not covered by Fidelity Corporation. The Fidelity Corporation shall have the authority to obtain the excess coverage bond. The cost of the bond shall be shared pro rata by those members included in the coverage.

(e) If a member establishes, to the satisfaction of the commissioner, that a bond is not available or is impracticable under subdivision (d), then, at the member's election, either:

(1) The member shall place average trust obligations in excess of ten million dollars ($10,000,000) in a restricted escrow trust account. Each transfer or release of the funds to be made by specific resolution of the member's board of directors and the signature of a neutral third party and written approval of Fidelity Corporation; or

SEC. 8. Section 17314.1 of the Financial Code is amended to read:

17314.1. Notwithstanding any other provision of this article, Fidelity Corporation shall not be obligated to pay any claim made by a member unless the claim would, except for the dollar amount thereof, be a valid claim under the bond as prescribed by Section 17203.1. The protection to members provided by Fidelity Corporation and by the fidelity bond or insurance policy, if any, shall therefore be deemed to be coextensive except as to the dollar amounts as set forth in Section 17314. All defenses available to the insurer under the fidelity bond or insurance policy, if any, on any

claim shall also be a defense to Fidelity Corporation on any claim brought against the corporation. No person other than a member, or the member's successor in interest, who shall be the commissioner, a conservator, receiver, or trustee as designated by a court of competent jurisdiction, is entitled to assert a claim against Fidelity Corporation for losses covered under this article.

17314.3. If a member with more than one licensed location suffers a covered loss at more than one location, the deductible shall apply to each location separately in proportion to the amount of the loss suffered at each such licensed location.

(b) Fidelity Corporation shall pay the full amount of any member's loss to the member or the member's successor in interest. The member shall be obligated to pay to Fidelity Corporation the amount of the member's deductible after payment in full of the loss by Fidelity Corporation.

(c) In the event a license is surrendered, suspended, or revoked prior to payment in full by the member of all or any portion of the deductible, the member shall nevertheless be liable to Fidelity Corporation for the amount of the deductible. If the license of the member is surrendered, suspended, or revoked prior to payment in full of the deductible, Fidelity Corporation shall have priority over all other claimants, except the State of California and any conservator or receiver of the member's estate, against the assets of the licensee, including the bond required under Section 17202.

(d) Nothing in this section shall be construed to give any person or entity not (1) a member of Fidelity Corporation or (2) a successor in interest of a member any right of action or any right to make a claim directly against Fidelity Corporation, its officers, directors, agents, or employees.

(e) If a member fails to pay the deductible within the time set forth in the bylaws of Fidelity Corporation, Fidelity Corporation may bring an action at law or in equity against the member to recover the amount of the deductible.

SEC. 11. Section 17320 of the Financial Code is repealed.

SEC. 12. Section 17320 is added to the Financial Code, to read:

17320. Fidelity Corporation shall establish and maintain the following funds for payment of claims and for payment of costs of administration: the membership fund, the operations fund, and the fidelity fund.

(a) Membership Fund. An applicant or a licensee shall, at the time an application is filed for a license, pay to Fidelity Corporation a membership fee of three thousand dollars ($3,000) for each location

for which a license is applied. If the application is denied, withdrawn, or abandoned, Fidelity Corporation may retain two hundred dollars ($200) from the membership fee to cover costs of administration.

The membership fund shall be reserved for payment of claims which exceed the fidelity fund balance and for payment of extraordinary operational costs.

Any member who, on the effective date of this section, has an account balance which exceeds the three thousand dollars ($3,000) membership fee times the number of its licensed locations shall be credited in a special reserve account for the excess amount. This balance shall be credited against future assessments. Any member whose account balance is less than three thousand dollars ($3,000) times the number of its licensed locations shall, on or before December 1, 1988, pay to Fidelity Corporation an amount sufficient to allow the member's account to be maintained at three thousand dollars ($3,000) times the number of licensed locations. Fidelity Corporation shall provide each member with an accounting of the amounts being reserved for the members' membership account and amounts being held as a special reserve.

The membership fee, less any unpaid assessments and related costs, shall be refunded to the member in accordance with Fidelity Corporation's bylaws not less than 30 months and no more than 36 months after the effective date of surrender of a license.

(b) Operations Fund. Fidelity Corporation shall prepare, prior to its fiscal year end, an estimated annual operational budget projecting the costs of operations and administration for the succeeding fiscal year, excluding the amount paid for claims and premiums paid for excess coverage bonding. The amount of the assessment shall be 150 percent of the budgetary projection. In succeeding years, the assessment shall be adjusted by adding the prior year's deficit or deducting unused surplus from the prior year.

(c) Fidelity Fund. Fidelity Corporation shall establish a fidelity fund for the payment of claims and for the payment of the premium for the fidelity bond or insurance policy, if any. All claims shall be paid from the fidelity fund, provided that, to the extent that the fidelity fund balance is not sufficient to pay claims, the claim shall be paid from the membership fund by charging each member's membership account a pro rata share of the excess.

(d) All interest earned on the membership fund and the operations fund shall be credited to the fidelity fund.

SEC. 13. Section 17321 of the Financial Code is repealed.

SEC. 14. Section 17321 is added to the Financial Code, to read:

17321. Fidelity Corporation shall bill and collect from each member an annual premium which in the aggregate shall consist of assessments for the operations fund and the fidelity fund.

(a) Operations Fund. The annual assessment for the operations fund shall be assessed no later than October 1 of each year for the current fiscal year in accordance with subdivision (b) of Section 17320. The assessment shall include:

(1) All costs and expenses of administration as budgeted by the board of directors for the next fiscal year.

(2) Any expenses actually incurred in the preceding fiscal year which exceeded the budgeted costs of expenses and administration except for expenses recovered pursuant to subdivision (a) of Section 17321.1.

Each member's assessment shall be determined pro rata based upon the ratio of each member's licensed locations to the total licensed locations of all members as of the preceding July 31.

(b) Fidelity Fund. The annual assessment for the fidelity fund shall be assessed no later than May 1. The assessment shall be calculated as follows:

(1) If the membership fund and fidelity fund in the aggregate equal an amount less than five million dollars ($5,000,000), then the assessment shall be the greater of: (A) one million dollars ($1,000,000); or (B) the sum of (i) the greater of an amount necessary to bring the membership fund and fidelity fund in the aggregate up to five million dollars ($5,000,000) or the total of all claims paid during the preceding fiscal year (except to the extent of any special assessment made pursuant to subdivision (b) of Section 17321.1) plus (ii) the greater of four hundred thousand dollars ($400,000) or 0.045 percent of the total average trust obligations of all members as reflected in the most recent report required by Section 17348.

(2) If the membership fund and fidelity fund in the aggregate equal an amount that is at least five million dollars ($5,000,000) but less than 1 percent of the total average trust obligations for all members as reflected in the most recent report required by Section 17348 or the fidelity fund equals an amount less than five million dollars ($5,000,000), then the assessment shall be: (A) an amount equal to the total of all claims paid during the preceding fiscal year (except to the extent of any special assessment made pursuant to subdivision (b) of Section 17321.1); and (B) an amount which is the greater of four hundred thousand dollars ($400,000) or 0.045 percent of the total average trust obligations of all members as reflected in the most recent report required by Section 17348.

(3) If the membership fund and fidelity fund in the aggregate equal 1 percent of the total average trust obligations of all members as reflected in the most recent report required by Section 17348 and the fidelity fund equals at least five million dollars ($5,000,000), then the assessment shall be an amount equal to the actuarial projection of losses for the forthcoming fiscal year.

Each member's fidelity fund assessment for paragraphs (1), (2), and (3) shall be the amount derived by multiplying the amount to be assessed by the ratio that each member's risk factors bear to the total of all members' risk factors.

A member's risk factors shall be computed in accordance with the following formula, except that the total factors of a member shall be reduced by one for each licensed branch location:

| Coverage per Licensed Location | Factors |
|---|---|
| $1,000,000 | 3 |
| $2,000,000 | 5 |
| $3,000,000 | 7 |
| $4,000,000 | 8 |
| $5,000,000 | 9 |

(c) Notwithstanding subdivision (b), the assessment for the fidelity fund for the fiscal year beginning July 1, 1989, shall be made immediately upon 90-day notice of cancellation of the fidelity bond or insurance policy permitted by paragraph (2) of subdivision (c) of Section 17310, but in no event later than 60 days prior to the date of cancellation.

SEC. 15. Section 17321.1 is added to the Financial Code, to read:

17321.1. Fidelity Corporation shall levy a special assessment against its members whenever:

(a) Deemed necessary by the board of directors in the event of any extraordinary expenses which would seriously deplete the resources of the operations fund; or

(b) A proof of loss has been submitted by a member which, if paid during that fiscal year, would reduce the membership fund by 10 percent or more.

SEC. 16. Section 17321.2 is added to the Financial Code, to read:

17321.2. Fidelity Corporation shall be entitled to collect late fees as specified in Fidelity Corporation's bylaws for any late payment of assessments under Section 17320, 17321, or 17321.1.

SEC. 17. Section 17322 of the Financial Code is repealed.

SEC. 18. Section 17322 is added to the Financial Code, to read:

17322. Fidelity Corporation shall report to the commissioner each levy of assessment within 10 business days after the levy.

SEC. 19. Section 17323 of the Financial Code is amended to read:

17323. (a) In the event any member fails to pay an assessment when due, Fidelity Corporation shall by written demand addressed to the member request the payment of the assessment within 30 days of the demand letter. If the member fails to pay an assessment, the commissioner may issue an order pursuant to subdivision (b).

(b) If a member fails to pay the assessment, or any applicable late fee, the commissioner may by order summarily suspend the license issued to the company. If after the order is made, a request for a hearing is filed in writing and a hearing is not held within 60 days thereafter, the order is deemed rescinded as of its effective date. During any period when its license is suspended, a company shall not conduct business pursuant to this division, except as may be permitted by order of the commissioner. However, the suspension of a license shall not affect the powers of the commissioner as provided in this division.

(c) Fidelity Corporation may bring an action at law or in equity against the member to recover any assessment or fees.

(d) Fidelity Corporation may be awarded costs and reasonable attorney's fees if it prevails in any action against a member, or against a third party, except the commissioner, to enforce a claim against the bond or other security posted by the member pursuant to Section 17202.

SEC. 20. Section 17324 is added to the Financial Code, to read:

17324. Any reduction in the membership fund caused by payment of an extraordinary expense pursuant to subdivision (a) of Section 17320 or payment of claims pursuant to subdivision (c) of Section 17320 shall be replenished by the operations fund or the fidelity fund, as appropriate. The next assessment for the operations fund or the fidelity fund, as appropriate, shall include an amount necessary for that replenishment.

SEC. 21. Section 17330 of the Financial Code is amended to read:

17330. Any member or successor in interest who suffers a loss may file a claim with Fidelity Corporation for the amount of the loss.

SEC. 22. Section 17331 of the Financial Code is repealed.

SEC. 23. Section 17332 of the Financial Code is amended to read:

17332. When either Fidelity Corporation or the insurer providing the fidelity bond or insurance policy, if any, under Section 17310, or both, pay an obligation on behalf of a member, Fidelity Corporation and the insurer shall be subrogated to the rights, claims, and remedies of the member up to the amount paid by Fidelity Corporation and the insurer on behalf of the member. In any subrogation action filed by Fidelity Corporation, the provider of the fidelity bond or insurance policy if payment was made thereunder, or both, Fidelity Corporation shall have the first right to the proceeds of any judgment or settlement obtained against the subrogees, up to the amount actually paid on the claim by Fidelity Corporation, plus reasonable costs and attorney's fees if awarded as part of any judgment. Amounts recouped by Fidelity Corporation through subrogation, minus all costs, attorney's fees, and other administrative expenses incurred in obtaining that recovery, shall be credited to the fidelity fund.

SEC. 24. Section 17333 of the Financial Code is amended to read:

17333. The commissioner may forthwith take possession of the property and business of Fidelity Corporation and retain possession until Fidelity Corporation satisfies the commissioner that it will operate in conformity with this chapter whenever it appears to the commissioner that Fidelity Corporation has done any of the following:

(c) At the request of the Superintendent of Public Instruction, the Controller shall transfer to the State Department of Education, from any apportionment to which the district would otherwise have been entitled pursuant to Section 42238, the amount as is necessary to pay the expenses incurred by the trustee, the costs of the trustee's bonding, and any associated costs incurred by the county superintendent of schools.

(d) For the fiscal year in which the apportionments are disbursed and each year thereafter, the Controller, or his or her designee, shall cause an audit to be conducted of the books and accounts of the district, in lieu of the audit required by Section 41020. At the Controller's discretion, the audit may be conducted by the Controller, his or her designee, or an auditor selected by the district and approved by the Controller. The costs of these audits shall be borne by the district. These audits shall be required until the Controller determines, in consultation with the Superintendent of Public Instruction, that the district is financially solvent, but in no event earlier than one year following the implementation of the plan or later than the time the apportionment made is repaid, including interest.

(e) For the purposes of liability insurance for a negligent act or omission when acting within the scope of his or her appointment, the trustee appointed pursuant to this section shall be deemed to be an employee of the local educational agency to which he or she is assigned. Any funds remaining in the restricted home-to-school transportation account at the end of the fiscal year may remain in the restricted home-to-school transportation account for expenditure in subsequent fiscal years or may be transferred to the pupil transportation equipment fund.

(b) Any school district or county superintendent of schools may establish a pupil transportation equipment fund. shall be numbered and shall state: (a) the particular fund or funds of the district against which it is drawn, (b) the amount of the payment to be made from each fund, and (c) the rate of salary and the period of service of any employee of the district for whom an order is issued for payment of salary or wages.

If drawn for any purpose other than the payment of salaries or wages of school district employees, the order shall be accompanied by an itemized bill showing the separate items and the price of each. Notwithstanding that requirement, if the county superintendent of schools determines that including an itemized bill with the order is impractical under the system of payment utilized, the itemized bill showing the separate items and the price of each shall instead be retained by the school district and shall be available for audit as directed by the county auditor.

SEC. 19. Section 44680.08 of the Education Code is amended to read:

44680.08. The State Board of Education, in conjunction with the Superintendent of Public Instruction, may adopt rules and regulations necessary to implement this article.

SEC. 19.5. Section 44951 of the Education Code is amended to read:

44951. Unless a certificated employee holding a position requiring an administrative or supervisory credential is sent written notice deposited in the United States registered mail with postage prepaid and addressed to his or her last known address by March 15 that he or she may be released from his or her position for the following school year or unless the signature of the employee is obtained by March 15 on the written notice that he or she may be released from his or her position for the following year, he or she shall be continued in the position. The provisions of this section do not apply to a certificated employee who holds a written contract with an expiration date beyond the current school year, or to a certificated employee holding a position that is funded for less than a school year, or to a certificated employee assigned to an acting position whose continuing right to hold this position depends on being selected from an eligible list established for the position, or to the termination of employment pursuant to Section 44955. A school principal shall be notified by March 1 if the governing board determines on an individual basis that he or she may be released for the following school year.

SEC. 19.7. Section 45028 of the Education Code is amended to read:

45028. (a) Effective July 1, 1970, each person employed by a district in a position requiring certification qualifications, except a person employed in a position requiring administrative or supervisory credentials, shall be classified on the salary schedule on the basis of uniform allowance for years of training and years of experience. Employees shall not be placed in different classifications on the schedule, nor paid different salaries, solely on the basis of the

respective grade levels in which such employees serve.

In no case shall the governing board of a school district draw orders for the salary of any teacher in violation of this section, nor shall any superintendent draw any requisition for the salary of any teacher in violation thereof.

This section shall not apply to teachers of special day and evening classes in elementary schools, teachers of special classes for elementary pupils, teachers of special day and evening high school classes and substitute teachers.

(b) It is not a violation of the uniformity requirement of this section for a district, with the agreement of the exclusive representative of certificated employees, if any, to grant any employee hired after a locally specified date differential credit for prior years of experience or prior units of credit for purposes of initial placement on the district's salary schedule.

This subdivision is declaratory of existing law.

SEC. 20. Section 52012 of the Education Code is amended to read:

52012. A schoolsite council shall be established at each school that participates in the school improvement program authorized by this chapter. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, *in secondary schools, pupils selected by pupils attending the school.*

At the elementary level the council shall be constituted to ensure parity between (a) the principal, classroom teachers and other school personnel; and (b) parents or other community members selected by parents. In schools with fewer than three teachers, this requirement may be met by establishing a council that is composed of equal numbers of school staff and parents or other community members selected by parents.

At the secondary level the council shall be constituted to ensure parity between (a) the principal, classroom teachers and other school personnel and (b) equal numbers of parents or other community members selected by parents, and pupils.

At both the elementary and secondary levels, classroom teachers shall comprise the majority of persons represented under subdivision (a) of this section.

Existing schoolwide advisory groups or school support groups may be utilized as the schoolsite council if those groups conform to this section.

School districts that maintain kindergarten or any of grades 1 to 8, inclusive, and that maintain schools with fewer than 100 pupils each, and that share a common attendance area may establish a single schoolsite council for the common attendance area.

The term and method of selection and replacement of council members shall be specified in the school improvement plan developed pursuant to Section 52014.

The Superintendent of Public Instruction shall provide several

examples of selection and replacement procedures that may be considered by schoolsite councils.

SEC. 21. Section 52182 of the Education Code is amended to read:

52182. (a) The State Department of Education shall establish minimum standards and criteria for the State Bilingual Teacher Training Assistance Program, and shall conduct appropriate training programs, or provide for training services by allocation to existing state staff development resource centers, county offices of education, public or private four-year institutions of postsecondary education, bilingual programs consortia, or cooperatives formed among two or more of these groups.

(b) Allocations for training programs conducted under this article shall be primarily directed toward school districts with high concentrations of pupils of limited-English-proficiency and teachers on waiver under Section 52178.

(c) In awarding allocations pursuant to subdivision (a), the department shall adopt evaluative criteria demonstrating the agency's ability to provide appropriate training services. The adopted criteria shall include, but need not be limited to, all of the following:

(1) Demonstrated commitment to bilingual education and bilingual teacher training.

(2) Demonstrated capability to fully prepare candidates for bilingual certificates of competence in accordance with the criteria for assessment in language, methodology, and culture.

(3) The availability of bilingual education staff with demonstrated experience and knowledge of bilingual education training programs.

(4) Demonstrated management and supportive services necessary to efficiently and effectively meet the intent of this article.

(5) District matching funds or in-kind matching resources in support of teachers participating in training programs under this article.

(d) Agencies maintaining programs for the training of bilingual teachers on waiver shall have their programs approved for a period not to exceed three consecutive years, contingent upon all of the following:

(1) The availability of funds.

(2) The submission of acceptable plans and modifications thereof.

(3) An annual evaluation that demonstrates that participants have made significant progress toward passing competency requirements leading to bilingual teachers certification. Upon the successful completion of a three-year cycle, centers shall be eligible to reapply for continued funding.

SEC. 22. Section 52185 of the Education Code is amended to read:

52185. Agencies funded under Section 52182 to provide training services shall report annually to the Superintendent of Public Instruction the information required under Section 52184.

SEC. 23. Section 52321 of the Education Code is amended to read:

52321. (a) A regional occupational center or program

established and maintained by school districts or joint powers agencies pursuant to Section 52301 shall receive in annual operating funds from each of the participating school districts an amount per unit of average daily attendance equal to the revenue limit received by those districts for each unit of average daily attendance generated in the regional occupational center or program.

A regional occupational center or program established and maintained by a county superintendent of schools pursuant to Section 52301 shall receive funding pursuant to Section 2550. A county superintendent of schools shall report average daily attendance to the Superintendent of Public Instruction for that funding.

(b) Any regional occupational center or program is authorized to (1) budget and accumulate an amount necessary to meet the cash flow needs of the regional occupational center or program known as a general reserve, and (2) budget and accumulate amounts known as the designated fund balance and as the unappropriated fund balance; or, for regional occupational centers or programs established and maintained by school districts or joint powers agencies, to budget an amount necessary to meet long-term program needs of the regional occupational center or program known as capital outlay expenditures or equipment replacement. At the end of any given school year, subject to the exception provided in paragraph (2) of subdivision (c), the net ending balance may be distributed to any of the reserved accounts, provided that the combined total transferred does not exceed 15 percent of the previous year's expenditures.

(1) The general reserve, the designated fund balance, the unappropriated fund balance, and the capital outlay expenditures or equipment replacement reserved account shall be available for appropriation only after approval by a majority vote of the governing body of the regional occupational center or program.

(2) Funds of regional occupational centers or programs established and maintained by school districts or joint powers agencies shall be distributed to the capital outlay expenditures or equipment replacement reserve account only upon adoption by the governing board of a resolution specifying the general use to which each appropriation from the account would be put.

(c) (1) With the exception of the 1988–89 fiscal year, at the end of any given school year the combined net ending balances of the general reserve, the designated fund balance, and the unappropriated fund balance in excess of 15 percent of the previous fiscal year's expenditures shall be returned to the districts participating in the regional occupational center or program in proportion to the district's contribution to the regional occupational center or program. The county superintendent of schools shall reduce the revenue limit of the districts by an amount equal to the excess reserves which are required to be returned to the districts. Net ending balances in excess of 15 percent, except those funds

specifically set aside by the board and restricted to capital outlay expenditures or equipment replacement, in county-operated regional occupational centers or programs shall reduce the revenue limit of the county superintendent program by an amount equal to the excess reserves in that program. For the 1988–89 fiscal year only, the 1987–88 fiscal year net ending balance for the regional occupational center or program shall be carried forward to the 1988–89 fiscal year with no limit applied if the ending balance in excess of 15 percent of the amount expended in the prior year was the result of accrual policies of the California School Accounting Manual. This exception shall not apply to those districts for which the new financial reporting system became effective prior to the 1988–89 fiscal year.

(2) A regional occupational center or program established and maintained by school districts or joint powers agencies may accumulate over a period of two or more given school years, a net ending balance in the capital outlay expenditures or equipment replacement reserved account of more than 15 percent of the previous fiscal year's expenditures, under provisions of a resolution of the governing board pursuant to paragraph (2) of subdivision (b).

(d) With the exception of ending balances governed by provisions of Section 2558.5, funds placed in either the general reserve, the designated fund balance, the unappropriated fund balance, or the capital outlay or equipment replacement accounts, shall only be expended for regional occupational center or program educational purposes.

SEC. 23.5. Section 52335.25 of the Education Code is amended to read:

52335.25. For the 1988–89 fiscal year only, the Superintendent of Public Instruction shall calculate "annual units of funded average daily attendance for the prior fiscal year" for the purposes of Section 52335.2 for each ROC/P, as follows:

(a) (1) Calculate the actual funded average daily attendance in 1986–87.

(2) Calculate the sum of the base and allowed average daily attendance in 1986–87.

(3) Calculate the allowed growth average daily attendance for the 1987–88 fiscal year only.

(4) Calculate the actual funded average daily attendance in 1987–88.

(b) If the amount calculated for a ROC/P pursuant to paragraph (1) of subdivision (a) is less than or equal to the amount calculated pursuant to paragraph (2) of subdivision (a), subtract the amount in paragraph (1) of subdivision (a) from the amount in paragraph (2) of subdivision (a), multiply that result by the factor 0.5, and add that product to the amount in paragraph (1) of subdivision (a).

(c) If the amount calculated for a ROC/P pursuant to paragraph (1) of subdivision (a) is greater than the amount calculated pursuant to paragraph (2) of subdivision (a), subtract the amount in

paragraph (2) of subdivision (a) from the amount in paragraph (1) of subdivision (a), multiply that result by the factor 0.5, and add that product to the amount in paragraph (2) of subdivision (a).

(d) Add to the amounts computed in subdivisions (b) and (c), as appropriate for each ROC/P, the amount calculated pursuant to paragraph (3) of subdivision (a).

(e) For each ROC/P for which subdivision (b) is applicable, the "annual units of funded average daily attendance for the prior fiscal year" shall be the lesser of paragraph (4) of subdivision (a) or subdivision (d).

(f) For each ROC/P for which subdivision (c) is applicable, the "annual units of funded average daily attendance for the prior fiscal year" shall be subdivision (d).

(g) The Superintendent of Public Instruction shall calculate the number of units of average daily attendance funded in 1987–88 which are in excess of the statewide total number of "annual units of funded average daily attendance for the prior fiscal year" pursuant to subdivisions (e) and (f). These excess units of funded average daily attendance shall be allocated on a pro rata basis to ROC/Ps for which the amount in paragraph (4) of subdivision (a) exceeds the amount in subdivision (d).

These allocations shall increase a ROC/P's "annual units of funded average daily attendance for the prior fiscal year" as calculated pursuant to subdivision (e) or (f).

SEC. 24. Section 52462 of the Education Code is amended to read:

52462. The State Board of Education may, with the advice of the Superintendent of Public Instruction, adopt rules and regulations governing the distribution of funds provided for purposes of this article and shall adopt criteria for assessing whether school districts have met the requirements of Section 52461.

SEC. 25. Section 52501.5 of the Education Code is amended to read:

52501.5. (a) Except as provided in subdivision (b), no revenue derived from the average daily attendance of adult education programs shall be expended for other than adult education purposes, nor shall revenue derived from other average daily attendance be expended for adult education purposes.

(b) When a district's adult revenue limit as allowed by Section 43001 is composed of average daily attendance from both a regional occupational center or program and an adult education program, the adult revenue limit income may be allocated to each program in a proportion other than the amount of adult revenue limit per average daily attendance otherwise allocable thereto.

(c) Beginning with the 1976–77 fiscal year, any high school or unified school district may (1) budget and accumulate an amount necessary to meet the cash flow needs of the adult education program, known as a "general reserve," not to exceed 10 percent of the previous year's expenditures for the operation of the adult education program, and (2) budget and accumulate amounts known

as the designated fund balance and as the unappropriated fund balance. These amounts are intended to provide for unforeseen requirements and shall be available for appropriation only after approval by a two-thirds vote of the governing body, and limited to 5 percent of the previous fiscal year's expenditures for the operation of the adult education program.

With the exception of the 1988–89 fiscal year, net ending balances in excess of 15 percent of the amount expended in the prior year shall be deemed to be excessive regardless of the year accumulated. The county superintendent of schools shall subtract from the district's total revenue limit an amount equal to the excess reserves in the adult education fund. For the 1988–89 fiscal year only, the 1987–88 fiscal year net ending balance for the district adult education fund shall be carried forward to the 1988–89 fiscal year with no limit applied if the ending balance in excess of 15 percent of the amount expended in the prior year was the result of accrual policies of the California School Accounting Manual. The preceding sentence shall not apply to those districts for which the new financial reporting system became effective prior to the 1988–89 fiscal year.

SEC. 26. Section 52852 of the Education Code is amended to read:

52852. A schoolsite council shall be established at each school which participates in school-based program coordination. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.

At the elementary level the council shall be constituted to ensure parity between (a) the principal, classroom teachers and other school personnel; and (b) parents or other community members selected by parents.

At the secondary level the council shall be constituted to ensure parity between (a) the principal, classroom teachers and other school personnel; and (b) equal numbers of parents, or other community members selected by parents, and pupils.

At both the elementary and secondary levels, classroom teachers shall comprise the majority of persons represented under category (a).

Existing schoolwide advisory groups or school support groups may be utilized as the schoolsite council if those groups conform to this section.

The Superintendent of Public Instruction shall provide several examples of selection and replacement procedures that may be considered by schoolsite councils.

An employee of a school who is also a parent or guardian of a pupil who attends a school other than the school of the parent's or guardian's employment, is not disqualified by virtue of this employment from serving as a parent representative on the schoolsite council established for the school that his or her child or

ward attends.

SEC. 27. Section 54724 of the Education Code is amended to read:

54724. A schoolsite council shall be established at each school that participates in motivation and maintenance programs. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by the parents; and, in secondary schools, pupils selected by pupils attending the school. Also, each school is encouraged to include representatives of the business community as members of the schoolsite council.

At the elementary level, the council shall be constituted to ensure parity between (a) the principal, classroom teachers and other school personnel; and (b) parents or other community members selected by parents.

At the secondary level, the council shall be constituted to ensure parity between (a) the principal, classroom teachers and other school personnel; and (b) equal numbers of parents, or other community members selected by parents, and pupils.

At both the elementary and secondary levels, classroom teachers shall comprise the majority of persons represented under category (a).

Existing schoolwide advisory groups or school support groups may be utilized as the schoolsite council if the groups conform to this section.

The Superintendent of Public Instruction shall provide several examples of selection and replacement procedures that may be considered by schoolsite councils.

SEC. 28. The term "revenue limit for the prior year," for the 1988–89 fiscal year only, for the purposes of Section 52335.2 of the Education Code, shall be an amount calculated by the Superintendent of Public Instruction as follows:

(a) Multiply the base average daily attendance in the 1987–88 fiscal year, not to exceed the "annual units of funded average daily attendance for the prior fiscal year" calculated pursuant to Section 52335.25, by the base revenue limit per unit of average daily attendance for the 1987–88 fiscal year.

(b) Multiply the difference between the base average daily attendance in the 1987–88 fiscal year and the "annual units of funded average daily attendance for the prior fiscal year" calculated pursuant to Section 52335.25, by the 1987–88 fiscal year statewide average revenue limit per unit of average daily attendance.

(c) Add the amounts calculated in subdivisions (a) and (b).

SEC. 29. By adding subdivision (f) to Section 33112 of the Education Code in Section 8 of this act, the Legislature does not intend to alter or in any way impact the authority of the State Personnel Board conferred by Article VII of the California Constitution and the State Civil Service Act (Pt. 2 (commencing with Sec. 18500), Div. 5, Title 2, Gov. C.). Specifically, the Legislature

does not intend to alter or in any way impact Section 18525, 19574, or 19583.1 of the Government Code. The Legislature only intends to conform the authority of the Superintendent of Public Instruction to that of the Treasurer found in Section 12302 of the Government Code and that of the Controller found in Section 12402 of the Government Code so that the Superintendent of Public Instruction shall have the authority to deputize in accordance with the definition of the term "deputy" as found in the case of Hubert v. Mendheim, 64 Cal. 213, 220.

SEC. 30. No requirement imposed pursuant to Section 1240, 35015, or 42100 of the Education Code, as those sections are amended by this act, and no requirement imposed, nor authority granted, pursuant to Section 1626, 33052, or 51747 of the Education Code, as those sections are added to the Education Code by this act, shall become effective prior to January 1, 1989. It is the intent of the Legislature that as of that date any requirement imposed, or authority granted, pursuant to this act be applicable for the entire 1988–89 fiscal year, notwithstanding the January 1, 1989, effective date of this act.

SEC. 31. (a) Notwithstanding any provision of law to the contrary, four of the public members appointed for full four-year terms to the Curriculum Development and Supplemental Materials Commission by the State Board of Education in 1988, pursuant to Section 33532 of the Education Code, as determined by the State Board of Education, shall each serve for a term of five years.

(b) This section is necessary in order that the appointment schedule for the 16 public members of the commission, including the appointees of the Governor, the Speaker of the Assembly, and the Senate Committee on Rules, will be aligned so that four terms expire each year commencing in 1990.

(c) In no event shall any of the commission members appointed by the State Board of Education whose terms expire in 1988 be eligible for reappointment. This subdivision is declaratory of existing law.

SEC. 32. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 33. No reimbursement is required by Section 18 of this act pursuant to Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

# CHAPTER 1462

An act to amend Sections 1240, 1621, 1623, 35014, 35035, 41020, 41020.2, 41320.1, 42127, 42129, 42601, and 42637 of, to amend and renumber Section 1241.1 of, to add Sections 1623.2, 1623.3, 1623.4, 1623.6, 33127, 33128, 33129, 33131, 33132, 33337, 41450, 41455, 42127.1, 42127.2, 42127.3, and 42127.4 to, and to add and repeal Chapter 3.8 (commencing with Section 44790) of Part 25 of, the Education Code, relating to education, and making an appropriation therefor.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1240 of the Education Code is amended to read:

1240. The superintendent of schools of each county shall:

(a) Superintend the schools of his or her county.

(b) Visit and examine each school in his or her county at reasonable intervals to observe their operation and to learn of their problems. He or she may annually present a report of the state of the schools in his or her county, and of his or her office, including, but not limited to, his or her observations while visiting the schools, to the board of education and the board of supervisors of his or her county.

(c) Distribute all laws, reports, circulars, instructions, and blanks that he or she may receive for the use of the school officers.

(d) Keep in his or her office the reports of the Superintendent of Public Instruction, and the Board of Governors of the California Community Colleges.

(e) Keep a record of his or her official acts, and of all the proceedings of the county board of education, including a record of the standing, in each study, of all applicants for certificates who have been examined, which shall be open to the inspection of any applicant or his or her authorized agent.

(f) Enforce the course of study.

(g) Enforce the use of state textbooks and of high school textbooks regularly adopted by the proper authority.

(h) Preserve carefully all reports of school officers and teachers.

(i) Deliver to his or her successor, at the close of his or her official term, all records, books, documents, and papers belonging to the office, taking a receipt for them, which shall be filed with the State Department of Education.

(j) Submit two reports during the fiscal year to the county board of education. The first report shall cover the financial and budgetary status of the county office of education for the period ending no earlier than October 31 nor later than December 31. The second report shall cover the period ending March 31. Both reports shall be

reviewed by the county board of education and approved by the county superintendent no later than 45 days after the close of the period being reported. As part of each report, the superintendent shall certify in writing whether or not the county office of education is able to meet its financial obligations for the remainder of the fiscal year. The certifications shall be classified as positive, qualified, or negative, as prescribed by the Superintendent of Public Instruction, for the purposes of determining subsequent state agency actions pursuant to Section 1240.1. Copies of each certification in which the superintendent is unable to certify unqualifiedly that these financial obligations will be met and the report containing that certification shall be sent to the Controller and the Superintendent of Public Instruction at the time it is submitted to the county board of education.

All reports and certifications required under this subdivision shall be in a format or on forms prescribed by the Superintendent of Public Instruction, and shall be based on standards and criteria for fiscal stability developed pursuant to Section 33127.

This subdivision does not preclude the submission of additional budgetary or financial reports by the superintendent to the county board of education or to the Superintendent of Public Instruction.

(k) When so requested, act as agent for the purchase of supplies for the city and high school districts of his or her county.

(*l*) For purposes of Section 44421.5, report to the Commission on Teacher Credentialing the identity of any certificated person who knowingly and willingly reports false fiscal expenditure data relative to the conduct of any educational program. This requirement applies only if, in the course of his or her normal duties, the county superintendent of schools discovers information that gives him or her reasonable cause to believe that false fiscal expenditure data relative to the conduct of any educational program has been reported.

SEC. 1.1. Section 1241.1 of the Education Code is amended and renumbered to read:

1240.1. Whenever a county superintendent of schools transmits to the Controller and the Superintendent of Public Instruction a qualified or negative certification as required by subdivision (j) of Section 1240, the State Department of Education, in cooperation with the Controller's office, shall review the certification and the attached report and any other pertinent information, and take the following actions or other actions as deemed appropriate:

(a) With respect to qualified certifications, direct the county superintendent to prepare alternative plans for resolving the identified fiscal problems.

(b) With respect to negative certifications, conduct an onsite review and direct the county superintendent to prepare alternative plans for resolving the identified fiscal problems.

SEC. 1.2. Section 1621 of the Education Code is amended to read:

1621. (a) On or before July 1 each year, the county board of education shall file with the Superintendent of Public Instruction a

single-fund tentative budget showing all the purposes for which the county school service fund will need money.

The budget may also contain a general reserve in that sum as the county board of education may deem sufficient to meet the cash requirements of the next succeeding fiscal year until adequate proceeds of the taxes levied or apportionment of state funds are available.

The budget may also contain a designated fund balance which may be designated for any specific purpose as determined by the county board of education. Those funds shall be available for appropriation by a majority vote of the members of the county board of education.

The budget may also contain an unappropriated fund balance which shall be available for appropriation by a majority vote of the members of the county board of education to cover expenditures that have not been provided for, that have been insufficiently provided for, or for unforeseen requirements as they may arise.

The single fund tentative budget shall include estimated cash balances, estimated apportionments from the State School Fund, and an estimate of revenues from sources other than taxes on the secured roll of the equalized assessment roll of the county.

(b) The Superintendent of Public Instruction shall review each tentative budget filed pursuant to subdivision (a). If the superintendent determines that the budget does not comply with the standards and criteria adopted pursuant to Section 33127, he or she shall return the budget, together with his or her comments, to the county board of education no later than 30 days after the date the budget was filed.

SEC. 1.3. Section 1623 of the Education Code is amended to read:

1623. (a) The county board of education shall hold a public hearing on the county school service fund budget. The public hearing shall be held any day on or before September 15, but at least three days following the availability of the proposed budget for public inspection. Notification of dates, times, and location, or locations at which the proposed budget may be inspected by the public shall be published at least once in a newspaper of general circulation published within the county. The notification shall be no earlier than August 1, nor later than August 31, but not less than 10 days prior to the date set for the hearing. The cost of publication shall be a proper and legal charge against the county school service fund and shall not exceed the rate fixed by the board of supervisors for official advertising. The published notice shall include the time, place, and purpose of the public hearing, and other information that may be determined by the county board of education, and shall state that any taxpayer directly affected by the county school service fund budget may appear before the county board of education and speak on the proposed budget or any item therein.

Following the public hearing, the final budget shall be adopted by the county board of education and filed with the Superintendent of Public Instruction, the board of supervisors, and the county auditor.

(b) On or before November 1, the Superintendent of Public Instruction shall approve or disapprove the county office budget on the basis of standards and criteria for fiscal stability developed pursuant to Section 33127.

(c) If, after examining the final adopted budget of a county office of education, it is the opinion of the Superintendent of Public Instruction that the budget does not comply with the standards and criteria established pursuant to Section 33127, he or she shall, by November 1, transmit to the county superintendent of schools, in writing, his or her recommendations and the reasons therefor.

(d) The county superintendent of schools and county board of education shall, by November 30, do the following:

(1) Review the recommendations of the Superintendent of Public Instruction at a regularly scheduled meeting of the county board of education.

(2) Respond to the recommendations of the Superintendent of Public Instruction. The response shall include the proposed actions to be taken, if any, as a result of the recommendations of the Superintendent of Public Instruction.

(e) The Superintendent of Public Instruction shall, no later than 10 working days after the receipt of the response required by paragraph (2) of subdivision (d), review the county superintendent's and county board of education's comments and either approve or disapprove the budget. If the Superintendent of Public Instruction disapproves the county office of education's budget, the Superintendent of Public Instruction shall call for the formation of a budget review committee pursuant to Section 1623.2.

SEC. 1.4. Section 1623.2 is added to the Education Code, to read:

1623.2. (a) Pursuant to subdivision (e) of Section 1623, upon the disapproval of a county office of education budget by the Superintendent of Public Instruction, the Superintendent of Public Instruction shall call for the formation of a budget review committee.

(b) The budget review committee shall be composed of three persons and shall be selected by the county superintendent and the county board of education solely from a list of candidates provided by the Superintendent of Public Instruction. The list of candidates shall be composed of persons that have expertise in the management of a school district or county office of education. Their experience shall include, but not be limited to, the fiscal and educational aspects of the management of a local educational agency.

(c) Subject to the approval of the governing board, assign all employees of the district employed in positions requiring certification qualifications, to the positions in which they are to serve. This power to assign includes the power to transfer a teacher from one school to another school at which the teacher is certificated to serve within the district when the superintendent concludes that the transfer is in the best interest of the district.

(d) Upon adoption, by the district board, of a district policy concerning transfers of teachers from one school to another school within the district, have authority to transfer teachers consistent with that policy.

(e) Determine that each employee of the district in a position requiring certification qualifications has a valid certificated document registered as required by law authorizing him or her to serve in the position to which he or she is assigned.

41020. It is the intent of the Legislature to encourage sound fiscal management practices among school districts for the most efficient and effective use of public funds for the education of children in California by strengthening fiscal accountability at the district, county, and state levels.

Not later than the first day of May of each fiscal year each county superintendent of schools shall provide for an audit of all funds under his or her jurisdiction and control and the governing board of each district shall either provide for an audit of the books and accounts of the district, including an audit of school district income and expenditures by source of funds, or make arrangements with the county superintendent of schools having jurisdiction over the district to provide for such auditing. In the event the governing board of a school district has not provided for an audit of the books and accounts of the district by April 1, the county superintendent of schools having jurisdiction over the district shall provide for the audit.

Each audit shall include all funds of the district including the student body and cafeteria funds and accounts and any other funds under the control or jurisdiction of the district; funds of regional occupational centers and programs maintained by the county superintendent of schools, a school district, or pursuant to a joint powers agreement. Each audit shall also include an audit of attendance procedures.

All audit reports for the 1988–89 fiscal year, and for each subsequent fiscal year, shall be developed and reported using a format established by the Controller after consultation with the Superintendent of Public Instruction.

The cost of the audits provided for by the county superintendent of schools shall be paid from the county school service fund and the county superintendent of schools shall transfer the pro rata share of the cost chargeable to each district from district funds.

The cost of the audit provided for by a governing board shall be paid from district funds. The audit of the funds under the jurisdiction and control of the county superintendent of schools shall be paid from the county school service fund.

The audits shall be made by a certified public accountant or a public accountant, licensed by the State Board of Accountancy.

The auditor's report shall include (1) a statement that the audit was conducted pursuant to standards and procedures developed in accordance with Chapter 3 (commencing with Section 14500) of Part 9 of Division 1 of Title 1 and (2) a summary of audit exceptions and management improvement recommendations.

Not later than December 15, a report of each audit for the preceding fiscal year shall be filed with the county superintendent of schools of the county in which the district is located, the Department of Education, and the Controller. The Superintendent of Public Instruction shall make any adjustments necessary in future apportionments of all state funds, to correct any audit exceptions revealed by such audit reports.

Each county superintendent of schools shall be responsible for the correction of any audit exceptions revealed by audit reports issued pursuant to this section that do not affect state funds and are not corrected by the Superintendent of Public Instruction when the audit exceptions affect any revenue and expenditures under his or

her control or the control of any school district within his or her jurisdiction. The county superintendent of schools shall adjust the future local property tax requirements to correct audit exceptions relating to school district tax rates and tax revenues.

If a governing board or county superintendent of schools fails or is unable to make satisfactory arrangements for audit pursuant to this section, the Controller shall make arrangements for the audit and the cost of the audit shall be paid from school district funds or the county school service fund, as the case may be.

Audits of regional occupational centers and programs are subject to the provisions of this section.

Nothing in this section shall be construed to authorize examination into or report on the curriculum used or provided for in any school district.

SEC. 1.134. Section 41020.2 of the Education Code is amended to read:

41020.2. (a) If a school district governing board has entered into a contract for an independent audit of its financial statements in accordance with Section 41020 and the audited financial statements have not been filed with the county superintendent of schools on or before the due date established under Section 41020, the county superintendent of schools may investigate the causes for the delay and initiate one of the following actions that will provide the required audited financial statements in the most effective manner:

(1) The county superintendent of schools may, after consultation with the school district governing board and the auditors under contract to the district, and with the consent of the Controller's office and the Superintendent of Public Instruction, grant an appropriate extension for the completion of the audit and the filing of the audited financial statements. An extension does not waive the legal deadline, but permits the filing of the report after the deadline.

(2) The county superintendent of schools may, after consultation with the school district governing board, the auditors under contract to the district, and the Controller's office, contract with another qualified certified public accountant or public accountant to obtain the required audited financial statements and charge the cost of the audit to the funds of the district. The county superintendent of schools shall, to the extent feasible, assist the district in initiating action to avoid payment to the auditors under contract who did not complete the original audit.

(3) The county superintendent of schools may request the Controller's office to investigate the situation and initiate action as provided in subdivision (b).

(b) If the audited financial statements required by Section 41020 have not been filed by a school district or county superintendent of schools with the Controller's office on or before the due date established under Section 41020, the Controller's office shall determine the most advantageous method of obtaining the required audited financial statements. The Controller's office may do any of

the following:

(1) Accept the action of the county superintendent of schools permitted by subdivision (a).

(2) Conduct the audit and prepare the auditor's report, utilizing the staff available within that office and charge the cost of the audit to the next regular apportionment from the State School Fund to the district or county superintendent of schools.

(3) Contract with any qualified certified public accountant or public accountant, utilizing the appropriate contracting procedures, for the conduct of the audit and preparation of the audited financial statements and charge the cost of the audit to the next regular apportionment from the State School Fund to the district or county superintendent of schools.

(4) Grant a reasonable extension of the time for filing the report if, in the judgment of the Controller's office, this will provide the required audited financial statements within the shortest time period. The extension of the time for filing does not waive the legal deadline, but permits the filing of the report after the deadline.

The Controller's office shall consult with the district governing board, the county superintendent of schools, and the auditors under contract to the district or county superintendent of schools before making the determination of the method to be used in obtaining the audited financial statements. The Controller's office shall, to the extent feasible, assist the district or county superintendent in initiating action to avoid payment to the auditors under contract who did not complete the original audit.

(c) Notwithstanding any extension granted under paragraph (1) of subdivision (a) or paragraph (4) of subdivision (b), the Controller's office may determine at any time after the due date for filing of audit reports established by Section 41020 that the audited financial statements not yet filed with that office are delinquent and that the audit will be performed under paragraph (2) or (3) of subdivision (b).

SEC. 1.14. Section 41320.1 of the Education Code is amended to read:

41320.1. Acceptance by the district of the apportionments made pursuant to Section 41320 shall constitute agreement by the district to all of the following conditions:

(a) The Superintendent of Public Instruction shall appoint a trustee who shall have recognized expertise in management and finance, and who shall be bonded. The expenses incurred by the trustee and the costs of the bonding shall be borne by the district. The superintendent shall establish the terms and conditions of the employment, including the remuneration of the trustee. The trustee shall serve at the pleasure of, and report directly to, the superintendent until the loan called for by this section is repaid.

Notwithstanding any other provision of law, all reports submitted to the trustee shall be public records.

(b) The trustee appointed by the superintendent shall monitor

and review the operation of the district. During the period of his or her service, the trustee may stay or rescind any action of the local district governing board that, in the judgment of the trustee, may affect the financial condition of the district. The trustee shall approve or reject all reports and other materials required from the district as a condition of receiving the apportionment. The superintendent, upon the recommendation of the trustee, may reduce any apportionment to the district in an amount up to two hundred dollars ($200) per day for each late or unacceptable report or other material required under Part 24 (commencing with Section 41000) of the Education Code, and shall report to the Legislature any failure of the district to comply with the requirements of this section.

(c) At the request of the Superintendent of Public Instruction, the Controller shall transfer to the State Department of Education, from any apportionment to which the district would otherwise have been entitled pursuant to Section 42238, the amount necessary to pay the expenses incurred by the trustee, the costs of the trustee's bonding, and any associated costs incurred by the county superintendent of schools.

(d) For the fiscal year in which the apportionments are disbursed and each year thereafter, the Controller, or his or her designee, shall cause an audit to be conducted of the books and accounts of the district, in lieu of the audit required by Section 41020. At the Controller's discretion, the audit may be conducted by the Controller, his or her designee, or an auditor selected by the district and approved by the Controller. The costs of these audits shall be borne by the district. These audits shall be required until the Controller determines, in consultation with the Superintendent of Public Instruction, that the district is financially solvent, but in no event earlier than one year following the implementation of the plan or later than the time the apportionment made is repaid, including interest.

(e) For all purposes of errors and omissions liability insurance, the trustee appointed pursuant to this section shall be deemed to be an employee of the local education agency to which he or she is assigned.

In some cases these school districts or county offices of education request emergency apportionments from the state under the provisions of Article 2 (commencing with Section 41320). In order to reduce the need for these apportionments, it is the intent of the Legislature that the Superintendent of Public Instruction be authorized to provide assistance and guidance to school districts and county offices of education that are experiencing severe financial difficulty. (2) Suggesting, if necessary, any technical corrections needed to bring the budget into compliance with the standards and criteria established pursuant to Section 33127.

(f) If, after examining the adopted final budget of a school district, it is the opinion of the county superintendent that it does not comply with the standards and criteria established pursuant to Section 33127, he or she shall, by November 1, transmit to the governing board, in writing, his or her recommendations and the reasons therefor.

(g) The superintendent and district governing board shall, by November 30, do all of the following:

School districts and county offices of education shall transmit to the State Department of Education, on a timely basis, all budget reports, prior year expenditure reports, qualified and negative financial status reports, program cost accounting reports, certifications, and audit reports as prescribed by subdivision (j) of Section 1240, subdivision (g) of Section 35035, Sections 1621, 1623, 35014, 41020, 42127, and 56730.5, and those reports used to calculate the first, second, and annual principal apportionments and special purpose apportionments for school districts and county offices of education. In the event that the reports are not submitted to the Superintendent of Public Instruction within 14 days after the submission date prescribed in the statute or specified by the Superintendent of Public Instruction, the Superintendent of Public Instruction may direct the county auditor to withhold payment of any stipend, expenses, or salaries to the district superintendent, county superintendent, or members of the governing boards, as appropriate. The withholding shall continue only until the delinquent reports have been submitted to the State Department of Education. If the county superintendent performs the functions of the county auditor, the Superintendent of Public Instruction may direct the county superintendent to withhold the payments specified in this section.

SEC. 2. Section 42601 of the Education Code is amended to read:

42601. At the close of any school year a school district may, with the approval of the governing board, identify and request the county superintendent of schools to make the transfers between the designated fund balance or the unappropriated fund balance and any expenditure classification or classifications, or balance any expenditure classifications of the budget of the district for that school year as necessary to permit the payment of obligations of the district incurred during that school year. For each elementary, high school, and unified school district that, during the preceding school year, had an average daily attendance less than the level, as appropriate, specified in subdivision (a) of Section 41301, the county superintendent of schools, with the consent of the governing board of the school district, may identify and make the transfers, and shall so notify the districts.

SEC. 3. Section 42637 of the Education Code is amended to read:

42637. If at any time during a fiscal year the county superintendent of schools concludes that the budget of any school district within his or her jurisdiction does not comply with the standards and criteria for fiscal stability developed pursuant to Section 33127 for that fiscal year, he or she shall notify the Superintendent of Public Instruction and the district in writing of that conclusion and may conduct a comprehensive review of the financial and budgetary conditions of the district. The superintendent shall report his or her findings and recommendations to the governing board of the district and the Superintendent of Public Instruction and may include recommendations of methods by which the budgeted expenditures for the balance of the fiscal year may be brought into balance with the revenue of the district. That report shall be made to the governing board at a public meeting of the governing board. The governing board shall, no later than 15 days after receipt of the report, notify the county superintendent of schools and the Superintendent of Public Instruction of its proposed actions on their recommendations.

SEC. 4. Chapter 3.8 (commencing with Section 44790) is added to Part 25 of the Education Code, to read:

## CHAPTER 3.8. ETHICS AND CIVIC VALUES IN THE SCHOOLS

44790. (a) The Legislature finds and declares that there is a compelling need to promote the development and implementation of effective educational programs in ethics and civic values in California schools in kindergarten and grades 1 to 12, inclusive. The Legislature further finds and declares that this compelling need is based upon a recognition of each of the following:

(1) According to many public opinion polls, including a 1980 Gallup Poll, more than two-thirds of the American people favor education in ethics, and rank this at or near the top of desirable educational goals.

(2) Young children and adolescents need to develop an

understanding of, and an appreciation for, the need for a sound set of values and principles that are consistent with their own and others' well-being in the school, the community, the state, the nation, and the world.

(3) The current emphasis upon science and technology in the schools often occurs in the face of relative neglect of fundamental ethical and civic values. Those values that are essential to the maintenance of a fair and just democratic society must not become a forgotten part of the education and development of children.

(4) The development of ethics and civic values results from a combination of intellectual formation and emotional development, and is fostered by instruction, experience, and, in particular, role modeling by parents and teachers.

(5) There is mounting evidence that well-considered programs in ethics and civic values from kindergarten and grades 1 to 12, inclusive, can be effective in fostering the development of ethical behavior, civic competence, and responsibility. However, there is a need for further investigation, research, and development to determine the most effective programs for California's schools.

(b) Accordingly, the purpose of this chapter is to provide guidelines that encourage schools and school districts to provide programs in ethics and civic values that will foster the development of those values, traits of character, cognitive skills, and emotional capacities that are essential for ethical conduct and the achievement of the ideals of a democratic society.

(c) "Ethics and civic values in the schools" means instructional programs designed to provide pupils at all grade levels with instruction that, while respecting the dignity and worth of each pupil, teaches an understanding of, and an appreciation for, basic and shared ethical and civic values; fosters the development of those capacities and traits of character consistent with and conducive to basic and shared ethical and civic values; and develops those cognitive and critical thinking skills, insights, and emotional capacities essential for sound judgment in matters of ethical conduct and civic responsibility.

(1) Basic and shared ethical and civic values include, but are not limited to, all of the following:

(A) Human individuality, dignity, and worth.

(B) Fairness and equity.

(C) Honesty, including both truth-telling and keeping commitments.

(D) Courage.

(E) Freedom and autonomy.

(F) Personal and social responsibiltiy.

(G) Community and the common good.

(H) Justice.

(I) Equality of opportunity.

(2) Insights, emotional capacities, and traits of character consistent with and conducive to basic and shared ethical and civic

values include, but are not limited to, all of the following:

(A) Respect for oneself and for the rights of others.

(B) Empathy for, and sensitivity to, the feelings of others.

(C) Cooperativeness.

(D) Responsibility for personal decisions and conduct.

(E) Concern for, and willingness to promote, the well-being of others.

(F) Fair-mindedness and conscientiousness.

(G) Courage to stand by one's reasoned convictions.

(3) Cognitive and critical thinking skills necessary for sound judgment in matters of ethical conduct and civic responsibility include, but are not limited to, all of the following:

(A) The ability to recognize and think clearly about the relevant general principles and relevant factual questions in dealing with ethical questions and controversies.

(B) The ability to determine and engage in the appropriate means of resolving factual disputes.

(C) The ability to imagine realistically and recognize the consequences of one's actions.

(D) The ability to recognize when a claim is reasonable and when it is unreasonable, in view of the relevant evidence and supporting arguments.

(E) The ability to understand and entertain the reasons for points of view other than one's own.

44791. (a) For the purpose of promoting ethics and civic values in the schools, as defined in subdivision (b) of Section 44791, the Superintendent of Public Instruction may administer, with any available resources, grants for the development or implementation of programs of ethics and civic values. Each of the following agencies shall be eligible for grants:

(1) Public elementary, secondary, and unified school districts.

(2) County offices of education.

(3) Public and private institutions of higher education.

(4) Private, nonprofit organizations with demonstrated expertise in developing programs to promote ethics and civic values in schools.

(b) Grants may be of the following types:

(1) Project grants for developing classroom materials and appropriate staff development.

(2) Project grants for making exemplary materials and teacher education available for interested school districts.

(3) Planning grants to provide for the study of ethical, political, educational, and developmental theory, as well as existing programs for teaching ethical reasoning and conduct and civic responsibility, and to plan operational programs as described in paragraph (5).

(4) Research and development projects for developing and utilizing classroom materials and developing appropriate teacher education.

(5) Operational program grants of up to three years to enable a school or several schools within a district to conduct pilot programs

aimed at promoting the development of ethics and civic values as defined in subdivision (b) of Section 44791. Operational grants shall include components for teacher education, materials, evaluation, and, to the maximum extent reasonable, pupil, parental and community involvement. There shall be appropriate involvement and participation of school district teachers in the development of all pilot program proposals, including both the review of teacher education techniques and materials.

(c) Whenever practical or feasible, as determined by the Superintendent of Public Instruction, funds for grants shall be distributed to a variety of types of programs and educational settings.

44792. The Superintendent of Public Instruction shall seek the advice of classroom teachers, school administrators, governing board members, parents, postsecondary educators, representative community groups, and pupils in developing programs that foster an emphasis on ethics and civic values in the schools.

44793. (a) The State Department of Education may provide information and technical assistance to schools and districts interested in developing programs in ethics and civic values. Technical assistance activities may include, but need not be limited to, each of the following kinds of activities:

(1) Development of an annotated listing of existing programs in ethics and civic values, pertinent models developed by the State Board of Education, and pertinent references contained in this code.

(2) Promotion of statewide awareness of existing programs in ethics and civic values through the distribution of annotated listings, presentations at meetings and conferences, and the publication of articles in lay and scholarly media.

(3) Support for research and development in the areas of educational materials, and dissemination of the results of these activities.

(4) Development of a clearinghouse of information for the public and for educators concerning ethics and civic values in the schools.

(b) If the Superintendent of Public Instruction administers the grant program described in this chapter, his or her authority for that purpose shall include all of the following:

(1) Review and evaluation of existing programs in ethics and civic values in the state and dissemination of this information to eligible agencies.

(2) Preparation of guidelines and criteria for evaluating grant proposals, which criteria shall include the requirement that programs demonstrate the involvement of sound scholarship in the relevant disciplines.

(3) Dissemination of announcements of the availability of grants to eligible agencies.

(4) Provision of assistance to agencies interested in developing grant proposals.

(5) Review and evaluation of proposals and the awarding of grants.

(6) Monitoring of any funded programs and reporting to the Legislature no later than two years after the awarding of the grants regarding the results of the grants.

(c) The Superintendent of Public Instruction may prescribe regulations considered necessary to carry out the purposes of this chapter.

44794. The Legislative Analyst shall report on the implementation of any ethics and civic values programs established pursuant to this chapter, in the Analysis of the Budget Bill, no later than two years after the awarding of any grants. The report shall include findings, comments, and recommendations as the Legislative Analyst determines to be appropriate.

44795. This chapter shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which deletes or extends that date, is chaptered on or before that date.

SEC. 5. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 7082 of the Government Code is amended to read:

7082. For purposes of this chapter:

(a) "Block group" means the smallest area for which the United States Department of Commerce, Bureau of the Census, provides data on personal income.

(b) "Cluster of block groups" means one or more contiguous block groups.

(c) "Poverty level" means the poverty level, as defined by the United States Department of Commerce, Bureau of the Census, as periodically updated.

(d) "High density unemployment area" means any of the following:

(1) A metropolitan statistical area or nonmetropolitan statistical area within this state, as identified by the Department of Commerce, which contains at least 4,000 people (in the case of a metropolitan statistical area) or at least 2,500 people (in the case of a nonmetropolitan statistical area) in a cluster of block groups, each of which meets the following criteria according to the most recent available decennial census information:

(A) The average unemployment rate for the block group for the most recent 12-month period for which data are available was at least one and one-half times the average national rate of unemployment for that 12-month period.

(B) The average poverty rate for the block group for the most recent 12-month period was at least one and one-half times the average national poverty rate for that 12-month period.

(C) At least 70 percent of the household earnings for the block group for the most recent 12-month period was a maximum of 80 percent of the average state household earnings for that 12-month period.

(D) Excludes nondistressed areas.

(2) If an area does not meet the criteria of a high density unemployment area specified above, an applicant may petition to the department for the designation based upon compliance with one or more of the following:

(A) A special census is conducted and approved by the population research unit of the Department of Finance which demonstrates compliance with paragraph (1).

(B) The applicant's jurisdiction has experienced a major economic dislocation resulting from plant closure or closure of a federal installation within the last 12 months prior to the application.

(C) The applicant's jurisdiction contains a specifically defined geographic area that meets the eligibility criteria for pockets of

poverty under the United States Department of Housing and Urban Development's Urban Development Action Grant (UDAG) program as described in 24 CFR Part 570, Sections 570.466(a) (2) and (a) (3), and as periodically updated.

(D) A block group meets substantially similar criteria measuring economic distress as that measured in paragraph (1). Each census block shall meet the "substantially similar" criteria.

(E) The area consists of the entire geographic area of a community. Area boundaries shall be synonymous with the boundaries of the community. As used in this subparagraph, "community" means a subdivision of a city or county (not including a city), including a neighborhood or suburb which has distinct boundaries, is recognized as a community by the individuals residing and working within the community, and has existed prior to the program planning process. Documentation demonstrating that the area meets the definition of "community" may include a map prepared for purposes other than the program, which lists both the name and boundaries of the community. The area shall meet the following criteria:

(i) Complies with the above definition of "community."

(ii) A minimum of 51 percent of the geographic area or population of the area meets the criteria of subparagraphs (A), (B), and (C) of paragraph (1), and the remainder of the area has substantially similar economic distress.

(3) A petition for designation of a high density unemployment area received by the department after April 1, 1985, shall be reviewed by the department pursuant to the criteria specified in paragraph (2).

(f) "One-stop service" means an efficient and expeditious method for providing services to qualified businesses.

(g) "Department" means the Department of Commerce.

(h) "Qualified business" means any person, corporation, or other entity certified during the taxable or income year by the department as meeting paragraphs (1) and (2).

(1) During the period of designation, the entity is engaged in the active conduct of a trade or business within the program area.

(2) Meets any of the following requirements:

(A) Has an average of at least 50 percent of its employees who are residents of a high density unemployment area.

(B) Has an average of at least 30 percent of its employees who are residents of a high density unemployment area, and has set up a community service program or programs approved by the local government entity and the community advisory council in which the program area is located.

(C) Is a business at least 30 percent owned and operated by a resident or residents of a high density unemployment area. For purposes of this subparagraph, "owned and operated" means that

the resident or residents of a high density unemployment area who are owners of the business are responsible for at least 30 percent of the work performed by the business and share in at least 30 percent of the ownership, control, management responsibility, risks, and profits of the business.

For purposes of this subdivision, "a high density unemployment area" means the high density unemployment area contained in the applicant's final application to the department if the population of that high density unemployment area is in excess of 150,000.

A business entity shall be certified prior to obtaining any benefits of a qualified business, and shall be recertified no less than every three years, as determined by the department. The department shall periodically audit qualified businesses for compliance with this section, and decertify any business found not in compliance. Priority shall be given to auditing qualified businesses within 18 months of the original certification of a business. A business may appeal to the director of the department a decision to deny certification or recertification or a decision to decertify, within 30 days of the decision.

Financial institutions shall not be qualified businesses. A business shall not be a qualified business if it abandons operations elsewhere in the state or relocates existing operations within the state, unless the business obtains written approval of its relocation from the appropriate office of the city or county it is moving from.

(3) A person, corporation, or other entity shall not be a qualified business if the business uses a residential structure in a high density unemployment area for a nonresidential use, unless the structure has been unoccupied for at least one year prior to designation of the program area.

(i) "Program area" means one targeted economic development area and, where applicable, one neighborhood economic development area in the Employment and Economic Incentive Program. The term applies both to areas contained in an application for designation, and an area awarded designation. In an application containing a high density unemployment area with a population in excess of 75,000, "program area" means the targeted economic development area, the high density unemployment area, and, where applicable, the neighborhood economic development area. The benefits of the Employment and Economic Incentive Program shall only accrue to program areas after designation.

(4) It shall be of sufficient size to sustain a diverse mix of commercial businesses and its size and location shall be appropriate to reducing the economic distress within the high density unemployment area.

(5) At least a part of its area shall be within the territorial jurisdiction of the applicant. If an area for which designation is sought encompasses the territorial jurisdiction of two or more local governmental entities, all of those entities shall be a party to the application for designation, except that any one or more of those entities by resolution or ordinance may specify that it shall not participate in the application as an applicant, but shall agree to complete all actions stated within the application which apply to its jurisdiction, if the area is designated.

No residential structure may be used for nonresidential use unless the structure has been unoccupied for at least one year prior to designation as a program area, or unless comparable replacement housing is provided for all persons displaced in accordance with Section 33413 of the Health and Safety Code. No person shall be displaced under this section unless relocation assistance is provided pursuant to Section 33415 of the Health and Safety Code.

An agricultural area shall not be designated as a neighborhood economic development area.

(p) "Targeted economic development area" means an area which meets all of the following criteria:

(1) Its boundary shall be continuous.

(2) It shall be zoned primarily industrial or other mixed business uses.

(3) It shall be of sufficient size to sustain a diverse mix of businesses and its size and location shall be appropriate to reducing the economic distress within the high density unemployment area.

(4) At least a part of its area shall be within the territorial jurisdiction of the applicant. If an area for which designation is

sought encompasses the territorial jurisdiction of two or more local governmental entities, all of those entities shall be a party to the application for designation, except that any one or more of those entities by resolution or ordinance may specify that it shall not participate in the application as an applicant, but shall agree to complete all actions stated within the application which apply to its jurisdiction, if the area is designated.

The area may be, but is not required to be, within a high density unemployment area. However, if the area is outside a high density unemployment area, it shall be within reasonable commuting distance of the high density unemployment area which is contained in the application for designation. If the area is outside a high density unemployment area, the applicant jurisdiction in which the area is located, in making its application, shall secure the endorsement of its application from at least one city or county which has jurisdiction within the high density unemployment area and is in close geographic proximity to the high density unemployment area.

The area may include vacant or sparsely developed parcels of land or abandoned facilities.

No residential structure may be used for nonresidential use unless the structure has been unoccupied for at least one year prior to designation as a program area, or unless comparable replacement housing is provided for all persons displaced in accordance with Section 33413 of the Health and Safety Code. No person shall be displaced under this section unless relocation assistance is provided pursuant to Section 33415 of the Health and Safety Code.

An agricultural area shall not be designated as a targeted economic development area.

(q) "Application area" means the program area and high density unemployment area contained in an application for designation.

substantial reduction in the trade or business operations of the taxpayer.

(v) A termination of employment of an individual, if that individual is replaced by other qualified employees so as to create a net increase in both the number of employees and the hours of employment.

(B) For purposes of paragraph (1), the employment relationship between the taxpayer and an employee shall not be treated as terminated—

(i) By a transaction to which Section 381(a) of the Internal Revenue Code applies, if the employee continues to be employed by the acquiring corporation, or

(ii) By reason of a mere change in the form of conducting the trade or business of the taxpayer, if the employee continues to be employed in that trade or business and the taxpayer retains a substantial interest in that trade or business.

(3) Any increase in tax under paragraph (1) shall not be treated as tax imposed by this part for purposes of determining the amount of any credit allowable under this part.

(g) In the case of—

(1) An organization to which Section 593 of the Internal Revenue Code applies, and

In addition, no deduction shall be allowed under Section 24343 for that portion of the wages or salaries paid or incurred for the income year upon which the credit allowable under this section is based.

(j) In the case where the credit allowed under this section exceeds the taxes imposed by this part for the year (except the minimum franchise tax and the alternative minimum tax) that portion of the credit which exceeds those taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) in succeeding years for the number of years in which the designation of an enterprise zone under Section 7073 of the Government Code is operative, or 15 income years, if longer, until the credit is used. The credit shall be applied first to the earliest years possible.

(k) The amount of the credit provided by this section shall not in any year exceed the amount of tax which would be imposed on the income attributed to business activities of the taxpayer within the enterprise zone (as defined in Section 7073 of the Government

Code). The amount of that attributed income shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(2) "Qualified years one through five wages" means, with respect to any individual, qualified wages received during the 60-month period beginning with the day the individual commences employment within an enterprise zone or harbor revitalization zone.

(3) "Minimum wage" means the wage established by the Industrial Welfare Commission as provided for in Chapter 1 (commencing with Section 1171) of Part 4 of Division 2 of the Labor Code.

(c) For purposes of this section:

(A) Who is a qualified employee within the meaning of subdivision (d).

(i) An individual who has been determined eligible by the administrative entity of a service delivery area for services under the federal Job Training Partnership Act (29 U.S.C. (e) (1) For purposes of this section, all employees of all corporations which are members of the same controlled group of corporations shall be treated as employed by a single employer. In any such case, the credit (if any) allowable by this section to each member shall be determined by reference to its proportionate share of the qualified wages giving rise to the credit. For purposes of this subdivision, "controlled group of corporations" has the meaning given to that term by Section 1563(a) of the Internal Revenue Code, except that—

(A) "More than 50 percent" shall be substituted for "at least 80 percent" each place it appears in Section 1563(a)(1) of the Internal Revenue Code.

(B) The determination shall be made without regard to subsections (a)(4) and (e)(3)(C) of Section 1563 of the Internal Revenue Code.

(2) If an employer acquires the major portion of a trade or business of another employer (hereinafter in this paragraph referred to as the "predecessor") or the major portion of a separate unit of a trade or business of a predecessor, then, for purposes of applying this section (other than subdivision (f)) for any calendar year ending after that acquisition, the employment relationship between an employee and an employer shall not be treated as terminated if the employee continues to be employed in that trade or business.

(2) (A) Paragraph (1) shall not apply to any of the following:

(iii) A termination of employment of an individual, if it is determined under the applicable unemployment compensation provisions that the termination was due to the misconduct of that individual.

(iv) A termination of employment of an individual due to a substantial reduction in the trade or business operations of the taxpayer.

(v) A termination of employment of an individual, if that individual is replaced by other qualified employees so as to create a net increase in both the number of employees and the hours of employment.

(B) For purposes of paragraph (1), the employment relationship between the taxpayer and an employee shall not be treated as terminated—

(i) By a transaction to which Section 381(a) of the Internal Revenue Code applies, if the employee continues to be employed by the acquiring corporation, or

(i) The credit shall be reduced by the credit allowed under Section 24330. The credit shall also be reduced by the credit allowed under Section 51 of the Internal Revenue Code.

In addition, no deduction shall be allowed under Section 24343 for that portion of the wages or salaries paid or incurred for the income year upon which the credit allowable under this section is based.

(j) In the case where the credit allowed under this section exceeds the taxes imposed by this part for the year (except the minimum franchise tax and the alternative minimum tax) that portion of the credit which exceeds those taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) in succeeding years for the number of years in which the designation of an enterprise zone under Section 7073 of the Government Code or a harbor revitalization zone under Section 7103 of that code is operative, or 15 income years, if longer, until the credit is used. The credit shall be applied first to the earliest years possible.

(k) The amount of the credit provided by this section shall not in any year exceed the amount of tax which would be imposed on the income attributed to business activities of the taxpayer within the enterprise zone (as defined in Section 7073 of the Government Code) or harbor revitalization zone (as defined in Section 7103 of that code). The amount of that attributed income shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

SEC. 14. Section 24333 of the Revenue and Taxation Code is amended to read:

24333. (a) There shall be allowed as a credit against the tax imposed by this part for the year (except the minimum franchise tax and the alternative minimum tax) for the year the amount determined in subdivisions (c) and (d) for a qualified business which hires a qualified employee.

(b) For purposes of this section:

(1) "Qualified business" means either (A) a qualified business, as defined in Section 7082 of the Government Code, or (B) a qualified business, as defined in Section 7082 of the Government Code, except that the percentage requirements with respect to employment of residents of a high-density unemployment area shall be applicable only to those employees hired within the 12 months immediately preceding the date that the business seeks certification from the Department of Commerce and not to the entire work force of the business. A business that qualifies under clause (B) shall be a qualified business only for the purposes of this section, provided that the Department of Commerce certifies that the business meets the standards set forth in this paragraph.

(2) "Qualified employee" means an employee who has been an

unemployed resident of a high density unemployment area (as defined in Section 7082 of the Government Code) prior to being employed by the qualified business. For the purposes of this section, participation by a prospective employee in a state or federally funded job training or work demonstration program shall not constitute employment, or effect the eligibility of an otherwise qualified employee. Qualified employee includes an otherwise qualified employee who is employed by a qualified business in the 90 days prior to its certification by the Department of Commerce as a qualified business for the purpose of becoming eligible for that certification.

(c) The credit provided for each qualified employee who has been unemployed for at least six months prior to being employed pursuant to subdivision (a) shall be an amount equal to the sum of each of the following:

(1) Fifty percent for qualified wages in the first year of employment.

(2) Forty percent for qualified wages in the second year of employment.

(3) Thirty percent for qualified wages in the third year of employment.

(4) Twenty percent for qualified wages in the fourth year of employment.

(5) Ten percent for qualified wages in the fifth year of employment.

(d) The credit provided for each qualified employee who has been unemployed for at least three months but less than six months prior to being employed shall be 25 percent of qualified wages for the first year of employment; however, the credit for the second year of employment shall be that provided in paragraph (2) of subdivision (c), the credit for the third year of employment shall be that provided in paragraph (3) of subdivision (c), the credit for the fourth year of employment shall be that provided in paragraph (4) of subdivision (c), and the credit for the fifth year of employment shall be that provided in paragraph (5) of subdivision (c).

(e) For purposes of this section, "qualified wages" means that portion of wages not in excess of 150 percent of the minimum hourly wage paid or incurred by the qualified business during the income year to the qualified employee.

(f) (1) If the employment of any employee with respect to whom qualified wages are taken into account under subdivision (c) is terminated by the taxpayer at any time during the first 270 days of that employment (whether or not consecutive) or before the close of the 270th calendar day after the day in which that employee completes 90 days of employment with the taxpayer, the tax imposed by this part for the income year in which that employment is terminated shall be increased by an amount equal to the credit allowed under subdivision (a) for that income year and all prior income years attributable to qualified wages paid or incurred with

respect to that employee.

(2) Paragraph (1) shall not apply to any of the following:

(A) A termination of employment of an employee who voluntarily leaves the employment of the taxpayer.

(B) A termination of employment of an individual who, before the close of the period referred to in paragraph (1), becomes disabled to perform the services of that employment, unless that disability is removed before the close of that period and the taxpayer fails to offer reemployment to that individual.

(C) A termination of employment of an individual, if it is determined under the applicable unemployment compensation provisions that the termination was due to the misconduct of that individual.

(D) A termination of employment of an individual due to a substantial reduction in the trade or business operations of the taxpayer other than regularly occurring seasonal reductions.

(E) A termination of employment of an individual, if that individual is replaced by other qualified employees so as to create a net increase in both number of employees and hours of employment.

(g) The credit shall be reduced by the credit allowed under Section 24330. The credit shall also be reduced by the credit allowed under Section 51 of the Internal Revenue Code.

In addition, no deduction shall be allowed under Section 24343 for that portion of the wages or salaries paid or incurred for the income year upon which the credit allowable under this section is based.

(h) In the case where the credit allowed under this section exceeds the taxes imposed by this part for the year (except the minimum franchise tax and the alternative minimum tax) that portion of the credit which exceeds those taxes may be carried over to the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) in succeeding years until the credit is used. The credit shall be applied first to the earliest years possible.

(i) The amount of the credit allowed by this section for any year shall not exceed the amount of tax which would be imposed on the income attributed to business activities of the taxpayer within the program area (as defined in Section 7082 of the Government Code) as if that attributed income represented all of the net income of the taxpayer subject to tax under this part. The amount of that attributed income shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

SEC. 15. Section 24416.2 of the Revenue and Taxation Code, as added by Chapter 32 of the Statutes of 1988, is amended to read:

(A) "Net operating loss" means the loss determined under Section 172 of the Internal Revenue Code, as modified by Section 24416.1, attributable to the business activities of the taxpayer within the program area (as defined in Section 7082 of the Government Code). That attributed loss shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(B) A net operating loss carryover shall be a deduction only with respect to income attributed to the business activities of the taxpayer within the program area (as defined in Section 7082 of the Government Code) determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(3) No net operating loss deduction shall be allowed for any loss which occurs prior to January 1, 1984, or for any loss which occurs in any income year beginning prior to January 1, 1984.

(b) A taxpayer who is engaged in the conduct of a trade or business within an enterprise zone designated pursuant to Section 7073 of the Government Code on or after that designation.

(B) In the case of a financial institution to which Section 585, 586, or 593 of the Internal Revenue Code applies, a net operating loss for any income year beginning on or after January 1, 1984, shall be a net operating loss carryover to each of the five income years following the income year of the loss. The attributed loss shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(B) A net operating loss carryover shall be a deduction only with respect to income attributed to the business activities of the taxpayer

within the enterprise zone (as defined in Section 7073 of the Government Code) determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(3) No net operating loss deduction shall be allowed for any loss which occurs prior to January 1, 1984, or for any loss which occurs in any income year beginning prior to January 1, 1984.

(c) A taxpayer who qualifies as a "qualified taxpayer" shall, for the income year of the net operating loss and any income year to which that net operating loss may be carried, designate on the return filed for each year the subdivision of this section which applies to that taxpayer with respect to that net operating loss. If the taxpayer is eligible to qualify under more than one subdivision of this section, the designation is to be made after taking into account the election required by subdivision (d) and shall be consistent with that election.

(d) If a taxpayer is eligible to qualify under more than one subdivision of this section as a "qualified taxpayer," with respect to a net operating loss in an income year, the taxpayer shall elect which subdivision of this section is to apply to the taxpayer. (g) "Department" means the Department of Commerce.

(h) "Qualified business" means any person, corporation, or other entity certified during the taxable or income year by the department as meeting paragraphs (1) and (2).

(1) During the period of designation, the entity is engaged in the active conduct of a trade or business within the program area.

(2) Meets any of the following requirements:

(A) Has an average of at least 50 percent of its employees who are residents of a high density unemployment area.

(B) Has an average of at least 30 percent of its employees who are residents of a high density unemployment area, and has set up a community service program or a substantial equivalent as defined by regulations, or programs approved by the local government entity and the community advisory council in which the program area is located, or both.

(C) Is a business at least 30 percent owned and operated by a resident or residents of a high density unemployment area. For purposes of this subparagraph, "owned and operated" means that the resident or residents of a high density unemployment area who are owners of the business are responsible for at least 30 percent of the work performed by the business and share in at least 30 percent of the ownership, control, management responsibility, risks, and profits of the business.

For purposes of this subdivision, "a high density unemployment

area" means the high density unemployment area contained in the applicant's final application to the department if the population of that high density unemployment area is in excess of 150,000.

A business entity shall be certified prior to obtaining any benefits of a qualified business, and shall be recertified no less than every three years, as determined by the department. The department shall periodically audit qualified businesses for compliance with this section, and decertify any business found not in compliance. Priority shall be given to auditing qualified businesses within 18 months of the original certification of a business. A business may appeal to the director of the department a decision to deny certification or recertification or a decision to decertify, within 30 days of the decision.

Financial institutions shall not be qualified businesses.

(3) A person, corporation, or other entity shall not be a qualified business if the business uses a residential structure in a high density unemployment area for a nonresidential use, unless the structure has been unoccupied for at least one year prior to designation of the program area.

(i) "Program area" means one targeted economic development area and, where applicable, one neighborhood economic development area in the Employment and Economic Incentive Program. The term applies both to areas contained in an application for designation, and an area awarded designation. In an application containing a high density unemployment area with a population in excess of 75,000, "program area" means the targeted economic development area, the high density unemployment area, and, where applicable, the neighborhood economic development area. The benefits of the Employment and Economic Incentive Program shall only accrue to program areas after designation.

(j) "Agent" means the person or entity designated by an applicant to facilitate the operations of the Employment and Economic Incentive Program as described in subdivisions (a) and (b) of Section 7087.

(1) It shall be located entirely within or contiguous to the high density unemployment area contained in the application for designation.

(2) It shall be zoned primarily commercial.

(3) Its boundary shall be continuous.

(4) It shall be of sufficient size to sustain a diverse mix of commercial businesses and its size and location shall be appropriate to reducing the economic distress within the high density unemployment area.

(5) At least a part of its area shall be within the territorial jurisdiction of the applicant. If an area for which designation is sought encompasses the territorial jurisdiction of two or more local governmental entities, all of those entities shall be a party to the application for designation, except that any one or more of those entities by resolution or ordinance may specify that it shall not participate in the application as an applicant, but shall agree to complete all actions stated within the application which apply to its jurisdiction, if the area is designated.

No residential structure may be used for nonresidential use unless the structure has been unoccupied for at least one year prior to designation as a program area, or unless comparable replacement housing is provided for all persons displaced in accordance with Section 33413 of the Health and Safety Code. No person shall be displaced under this section unless relocation assistance is provided pursuant to Section 33415 of the Health and Safety Code.

An agricultural area shall not be designated as a neighborhood economic development area.

(p) "Targeted economic development area" means an area which meets all of the following criteria:

(1) Its boundary shall be continuous.

(2) It shall be zoned primarily industrial or other mixed business uses.

(3) It shall be of sufficient size to sustain a diverse mix of businesses and its size and location shall be appropriate to reducing the economic distress within the high density unemployment area.

(4) At least a part of its area shall be within the territorial jurisdiction of the applicant. If an area for which designation is sought encompasses the territorial jurisdiction of two or more local governmental entities, all of those entities shall be a party to the application for designation, except that any one or more of those entities by resolution or ordinance may specify that it shall not participate in the application as an applicant, but shall agree to complete all actions stated within the application which apply to its jurisdiction, if the area is designated.

The area may be, but is not required to be, within a high density unemployment area. However, if the area is outside a high density unemployment area, it shall be within reasonable commuting

distance of the high density unemployment area which is contained in the application for designation. If the area is outside a high density unemployment area, the applicant jurisdiction in which the area is located, in making its application, shall secure the endorsement of its application from at least one city or county which has jurisdiction within the high density unemployment area and is in close geographic proximity to the high density unemployment area.

The area may include vacant or sparsely developed parcels of land or abandoned facilities.

No residential structure may be used for nonresidential use unless the structure has been unoccupied for at least one year prior to designation as a program area, or unless comparable replacement housing is provided for all persons displaced in accordance with Section 33413 of the Health and Safety Code. No person shall be displaced under this section unless relocation assistance is provided pursuant to Section 33415 of the Health and Safety Code.

An agricultural area shall not be designated as a targeted economic development area.

(q) "Application area" means the program area and high density unemployment area contained in an application for designation.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 17052.4 of the Revenue and Taxation Code, as amended by Chapter 11 of the Statutes of 1988, is amended to read:

17052.4. (a) For taxable years beginning on or after January 1, 1987, and before January 1, 1989, there shall be allowed as a credit against the "net tax" (as defined by Section 17039) and the tax imposed by Section 17062, relating to the alternative minimum tax, an amount equal to 12 percent of the cost of a solar energy system installed on premises, used for commercial purposes, which are located in California and which are owned by the taxpayer during the taxable year. For purposes of taxpayers who lease a solar energy system pursuant to subdivision (m), the tax credit shall apply only to the principal recovery portion of lease payments for the term of the lease not to exceed 10 years, as defined in subdivision (o), which are made during the taxable year, and to the amounts which are expended on the purchased portion of the solar energy system,

including installation charges, during the taxable year. For taxable years beginning on or after January 1, 1988, and before January 1, 1989, the credit percentage allowed by this section shall be 10 percent.

(b) The solar energy tax credit shall be claimed on the state income tax return for the taxable year in which the solar energy system was installed.

(c) A taxpayer who claimed the solar energy tax credit in the state income tax return for the taxable year in which the solar energy system was installed may claim the credit in subsequent years for additions to the system or additional systems by the amount prescribed in subdivision (a).

(d) For purposes of computing the credit provided by this section, the cost of any solar energy system eligible for the credit shall be reduced by any grant provided by a public entity for that system.

(e) The basis of any system for which a credit is allowed shall be reduced by the amount of the credit and the amount of any grant provided by a utility or public agency for the solar energy system. The basis adjustment shall be made for the taxable year for which the credit is allowed.

(f) With the exception of a husband and wife, if there is more than one owner of a premises on which a solar energy system is installed, each owner shall be eligible to receive the solar energy tax credit in proportion to his or her ownership interests in the premises. In the case of a husband or wife who files a separate return, the credit may be taken by either or equally divided between them.

(g) In the case of a partnership, the solar energy tax credit may be divided between the partners pursuant to a written partnership agreement.

(h) In the case where the credit allowed under this section exceeds the "net tax," and the tax imposed by Section 17062, relating to the alternative minimum tax, the excess may be carried over to reduce the "net tax" and the tax imposed by Section 17062, relating to the alternative minimum tax, in the following year, and succeeding years if necessary, until the credit has been exhausted. This subdivision shall also apply to the credit allowed under former Section 17052.5 within the limitations of subdivision (e) of that section (except that "net tax" shall include the tax imposed under Section 17062).

(i) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the current or any prior taxable year as energy conservation measures under this part.

(j) Energy conservation measures applied in conjunction with solar energy systems to reduce the total cost or backup energy requirements of those systems shall be considered part of the systems, and shall be eligible for the tax credit. Qualified energy conservation measures installed within six months of the date of installation of the solar energy system are considered to be installed

"in conjunction with" the solar energy system, even if the period spans two taxable years. In cases involving more than six months between the dates of installation of the energy conservation measures and the solar energy system, the taxpayer must be able to provide persuasive evidence that the energy conservation measures were in fact installed in conjunction with a solar energy system. Eligible conservation measures applied in conjunction with solar space heating include, but are not limited to, ceiling, wall, and floor insulation above that required by law at the time of original construction. Eligible conservation measures applied in conjunction with solar water heating include, but are not limited to, water heater insulation jackets, and shower and faucet flow reducing devices. Energy conservation measures which shall be eligible for the tax credit when applied in conjunction with solar energy systems shall be defined by the Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(k) Taxpayers who lease a solar energy system installed on premises in California shall receive a tax credit as provided in subdivision (a), if the lessee can confirm, if necessary, by a written document signed by the lessor that (1) the lessor irrevocably elects not to claim a state tax credit for the solar energy system, and (2) if the system is installed in a locality served by a municipal solar utility, that the lessor holds a valid permit from the municipal solar utility. Leasing requirements may be established by the State Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(*l*) The State Energy Resources Conservation and Development Commission shall, after one or more public hearings, establish guidelines and criteria for solar energy systems which shall be eligible for the credit provided by this section. These guidelines and criteria may include, but are not limited to, minimum requirements for safety, reliability, and durability of solar energy systems. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section.

(m) For purposes of this section, the following definitions shall apply:

(1) "Installed" means placed in a functionally operative state.

(2) "Cost" includes equipment, installation charges, and compensation paid to the owner of burdened property in connection with the acquisition of a solar easement, as defined in Section 801.5 of the Civil Code, and the fees for the recording of the easement. In the case of a system which is leased, "cost" means the principal recovery portion of lease payments, which is the cost incurred by the taxpayer in acquiring the solar energy system, excluding interest charges and maintenance expenses.

"Cost" does not include interest charges and costs associated with the acquisition of an easement other than a solar easement.

(3) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease or easement

granting use of the premises, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(4) "Premises" means the principal stationary location in California where the system is installed for direct use or for purposes of sale of energy, and includes land, easements, and buildings or portions thereof.

(5) "Commercial purposes" means the installation of solar energy systems on premises other than single-family dwellings.

(6) "Single-family dwelling" means single-family residences, mobilehomes, and the individual units of condominiums.

"Single-family dwelling" does not include cooperatives, apartment buildings, or other similar multiple dwellings, including buildings and any other common areas of a condominium maintained by a homeowners association.

(7) (A) "Solar energy system" means the use of solar devices for the individual function of:

(i) Domestic or service water heating.

(ii) Space conditioning.

(iii) Production of electricity.

(iv) Process heat.

(v) Solar mechanical energy.

"Solar energy system" includes, but is not limited to, passive thermal systems, semipassive thermal systems, active thermal systems, and photovoltaic systems.

For purposes of this section, "solar energy system" does not include solar devices for the individual function of wind energy for the production of electricity or mechanical work.

(B) Eligible solar energy systems shall have a useful life of not less than three years.

(8) "Solar device" means the equipment associated with the collection, conversion, transfer, distribution, storage, or control of solar energy. In the case of a solar device associated with two or more solar energy systems, the credit allowed for the solar device may be taken for any one of the systems, or divided equally between them.

(9) "Passive thermal system" means a system which utilizes the structural elements of the building, and is not augmented by mechanical components, to provide for collection, storage, or distribution of solar energy for heating or cooling.

(10) "Active thermal system" means a system which utilizes solar devices thermally isolated from the commercial space to provide for collection, storage, or distribution of solar energy for heating or cooling.

(11) "Semipassive thermal system" means a system which utilizes the structural elements of a building and is augmented by mechanical components to provide for collection, storage, or

distribution of solar energy for heating or cooling.

(12) "Municipal solar utility" means a city, county, or municipal utility district, or agency thereof, which sells or leases solar or other energy generating equipment or energy saving devices for residential, commercial, agricultural, or industrial uses or which issues permits to companies engaged in the leasing of this equipment.

(n) Except for purposes of subdivision (h) of Section 17052.4, the provisions of this section shall not apply to any solar energy system which continues to qualify for the tax credit authorized by former Section 17052.5 (as amended by Chapter 1200 of the Statutes of 1986) by meeting the eligibility requirements of subdivision (*l*) of that section.

(o) This section shall remain in effect only until December 1, 1989, and as of that date is repealed. However, any unused credit may continue to be carried forward, as provided in subdivision (h), until the credit has been exhausted.

SEC. 2. Section 17054 of the Revenue and Taxation Code, as amended by Chapter 11 of the Statutes of 1988, is amended to read:

(1) For whom an exemption is allowable under Section 151 (c) of

the Internal Revenue Code (relating to additional exemption for dependents).

(2) If the taxpayer is entitled to the status of head of household, no credit shall be allowed under this subdivision for the person (or one of the persons) for whom the household is maintained, as required by Section 2(b)(1) of the Internal Revenue Code.

(3) No credit for a dependent shall be allowed to a noncustodial parent if both of the following apply:

(g) For the purposes of this section, an individual is blind only if either: his or her central visual acuity does not exceed 20/200 in the better eye with correcting lenses, or his or her visual acuity is greater than 20/200 but is accompanied by a limitation in the fields of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees.

(h) In the case of an individual with respect to whom a credit under this section is allowable to another taxpayer for a taxable year beginning in the calendar year in which the individual's taxable year begins, the credit amount applicable to that individual for that individual's taxable year shall be zero.

(1) The credit shall be allowed only for taxes paid to the other state (not including any preference, alternative, or minimum tax comparable to the tax imposed by Section 17062) on income derived from sources within that state which is taxable under its laws irrespective of the residence or domicile of the recipient.

This paragraph shall not apply to residents to whom subdivision (b) of Section 17014 applies.

(2) The credit shall not be allowed if the other state allows residents of this state a credit against the taxes imposed by that state (not including any preference, alternative, or minimum tax comparable to the tax imposed by Section 17062) for "net tax" (as defined by Section 17039) paid or payable under this part.

(3) The credit shall not exceed such proportion of the "net tax" (as defined by Section 17039) payable under this part as the income subject to tax in the other state (not including any preference, alternative, or minimum tax comparable to the tax imposed by Section 17062) and also taxable under this part bears to the taxpayer's entire income upon which the "net tax" (as defined by Section 17039) is imposed by this part.

(4) No credit shall be allowed under this section for any tax imposed by Section 17062.

(b) For purposes of determining the tentative minimum tax under subparagraph (A) of paragraph (3) of subdivision (b) of Section 17062, the credit shall be computed under subdivision (a) except that the provisions of paragraph (3) of subdivision (a) shall be modified to provide that the credit shall not exceed such proportion of the tentative minimum tax as the income subject to tax in the other state (recomputed in accordance with Section 17062) and also included in alternative minimum taxable income under this part bears to the total alternative minimum taxable income under this part. In any case, the amount determined under this subdivision shall not be less than the amount determined under subdivision (a).

(1) The credit shall be allowed only if the state of residence either does not tax income of residents of this state derived from sources within that state or allows residents of this state a credit against the taxes imposed by that state on such income for "net tax" (as defined by Section 17039) paid or payable thereon under this part.

(2) The credit shall not be allowed for taxes paid to a state which allows its residents a credit against the taxes imposed by that state for "net tax" (as defined by Section 17039) paid or payable under this part irrespective of whether its residents are allowed a credit against the taxes imposed by this part for income taxes paid to that state.

(3) Credit shall be allowed only for such proportion of the taxes paid to the state of residence (not including any preference, alternative, or minimum tax comparable to the tax imposed by Section 17062) as the income taxable under this part and also subject to tax in the state of residence bears to the entire income upon which the taxes paid to the state of residence are imposed.

(4) The credit shall not exceed such proportion of the "net tax" (as defined by Section 17039) payable under this part as the income subject to tax in the state of residence and also taxable under this part bears to the entire income taxable under this part.

(5) No credit shall be allowed under this section for any tax imposed by Section 17062.

(b) For purposes of determining the tentative minimum tax under subparagraph (A) of paragraph (3) of subdivision (b) of Section 17062, the credit shall be computed under subdivision (a) except that the provisions of paragraph (3) of subdivision (a) shall be modified to provide that the credit shall not exceed such proportion of the tentative minimum tax as the income subject to tax in the other state (recomputed in accordance with Section 17062) and also included in alternative minimum taxable income under this part bears to the total alternative minimum taxable income under this part. In any case, the amount determined under this subdivision shall not be less than the amount determined under subdivision (a).

The above exception shall not apply if the surviving spouse remarries before the close of his or her taxable year, nor if the taxable year of either spouse is a fractional part of a year under Section 443(a) of the Internal Revenue Code.

(c) In the case of the death of one spouse or both spouses the joint return with respect to the decedent may be made only by the decedent's executor or administrator; except that in the case of the death of one spouse the joint return may be made by the surviving

(b) For purposes of subdivision (a), the minimum tax credit shall be determined in accordance with Section 53 of the Internal Revenue Code, except as otherwise provided in this part.

(c) For purposes of this chapter, the amount determined under Section 53(c)(1) of the Internal Revenue Code shall be the regular tax as defined by subdivision (c) of Section 23455, reduced by the sum of the credits allowable under this part other than the credits described in paragraph (4) of subdivision (c) of Section 23036.

SEC. 23. Section 23601.4 of the Revenue and Taxation Code, as amended by Chapter 11 of the Statutes of 1988, is amended to read:

23601.4. (a) For income years beginning on or after January 1,

1987, and before January 1, 1989, there shall be allowed as a credit against the "tax" (as defined by Section 23036) and the tax imposed by Section 23400, relating to the alternative minimum tax, an amount equal to 12 percent of the cost of a solar energy system installed on premises, used for commercial purposes, which are located in California and which are owned by the taxpayer during the income year. For purposes of taxpayers who lease a solar energy system pursuant to subdivision (*l*), the tax credit shall apply only to the principal recovery portion of lease payments for the term of the lease not to exceed 10 years, as defined in subdivision (n), which are made during the income year, and to the amounts expended on the purchased portion of the solar energy system, including installation charges, during the income year. For income years beginning on or after January 1, 1988, and before January 1, 1989, the credit percentage allowed by this section shall be reduced to 10 percent.

(b) The solar energy tax credit shall be claimed on the state income tax return for the income year in which the solar energy system was installed.

(c) A taxpayer who claimed the solar energy tax credit on the state income tax return for the income year in which the solar energy system was installed may claim the credit in subsequent years for additions to the system or additional systems by the amount prescribed in subdivision (a).

(d) For purposes of computing the credit provided by this section, the cost of any solar energy system eligible for the credit provided by this section shall be reduced by any grant provided by a public entity for that system.

(e) The basis of any system for which a credit is allowed shall be reduced by the amount of the credit and the amount of any grant provided by a utility or public agency for the solar energy system. The basis adjustment shall be made for the income year for which the credit is allowed.

(f) In the case of a partnership, the solar energy tax credit may be divided between the partners pursuant to a written partnership agreement.

(g) In the case where the credit allowed under this section exceeds the "tax," and the tax imposed by Section 23400, relating to the alternative minimum tax, the excess may be carried over to reduce the "tax" and the tax imposed by Section 23400, relating to the alternative minimum tax, in the following year, and succeeding years if necessary, until the credit is exhausted. This subdivision shall also apply to the credit allowed under former Section 23601 within the limitations of subdivision (c) of that section (except that "net tax" shall include the tax imposed under Section 23400).

(h) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the current or any prior income year as energy conservation measures under this part.

(i) Energy conservation measures applied in conjunction with

solar energy systems to reduce the total cost or backup energy requirement of those systems shall be considered part of the systems, and shall be eligible for the tax credit. Qualified energy conservation measures installed within six months of the date of installation of the solar energy system are considered to be installed "in conjunction with" the solar energy system, even if the period spans two income years. In cases involving more than six months between the dates of installation of the energy conservation measures and the solar energy system, the taxpayer must be able to provide persuasive evidence that the energy conservation measures were in fact installed in conjunction with a solar energy system. Eligible conservation measures applied in conjunction with solar space heating include, but are not limited to, ceiling, wall, and floor insulating above that required by law at the time of original construction. Eligible conservation measures applied in conjunction with solar water heating include, but are not limited to, water heater insulation jackets, and shower and faucet flow reducing devices. Energy conservation measures which shall be eligible for the tax credit when applied in conjunction with solar energy systems shall be defined by the Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(j) Taxpayers who lease a solar energy system installed on premises in California shall receive a tax credit as provided in subdivision (a), if the lessee can confirm, if necessary, by a written document signed by the lessor that (1) the lessor irrevocably elects not to claim a state tax credit for the solar energy system, and (2) if the system is installed in a locality served by a municipal solar utility, that the lessor holds a valid permit from the municipal solar utility. Leasing requirements may be established by the State Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(k) The State Energy Resources Conservation and Development Commission shall, after one or more public hearings, establish guidelines and criteria for solar energy systems which shall be eligible for the credit provided by this section. These guidelines and criteria may include, but are not limited to, minimum requirements for safety, reliability, and durability of solar energy systems. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section.

(*l*) For purposes of this section, the following definitions shall apply:

(1) "Installed" means placed in a functionally operative state.

(2) "Cost" includes equipment, installation charges, and compensation paid to the owner of burdened property in connection with the acquisition of a solar easement, as defined in Section 801.5 of the Civil Code, and the fees for the recording of the easement. In the case of a system which is leased, "cost" means the principal recovery portion of lease payments, which is the cost incurred by the taxpayer in acquiring the solar energy system, excluding interest

charges and maintenance expenses.

"Cost" does not include interest charges and costs associated with the acquisition of an easement other than a solar easement.

(3) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease or easement granting use of the premises, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a duly recorded holder of legal title, or a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(4) "Premises" means the principal stationary location in California where the system is installed for direct use or for purposes of sale of energy, and includes land, easements, and buildings or portions thereof.

(5) "Commercial purposes" means the installation of solar energy systems on premises other than single-family dwellings.

(6) "Single-family dwelling" means single-family residences, mobilehomes, and the individual units of condominiums.

"Single-family dwelling" does not include cooperatives, apartment buildings, or other similar multiple dwellings, including buildings and any other common areas of a condominium maintained by a homeowners association.

(7) (A) "Solar energy system" means the use of solar devices for the individual function of:

(i) Domestic or service water heating.

(ii) Space conditioning.

(iii) Production of electricity.

(iv) Process heat.

(v) Solar mechanical energy.

"Solar energy system" includes, but is not limited to, passive thermal systems, semipassive thermal systems, active thermal systems, and photovoltaic systems.

For purposes of this section, "solar energy system" does not include solar devices for the individual function of wind energy for the production of electricity or mechanical work.

(B) Eligible solar energy systems shall have a useful life of not less than three years.

(8) "Solar device" means the equipment associated with the collection, conversion, transfer, distribution, storage, or control of solar energy. In the case of a solar device associated with two or more solar energy systems, the credit allowed for the solar device may be taken for any one of the systems, or divided equally between them.

(9) "Passive thermal system" means a system which utilizes the structural elements of the building, and is not augmented by mechanical components, to provide for collection, storage, or distribution of solar energy for heating or cooling.

(10) "Active thermal system" means a system which utilizes solar devices thermally isolated from the commercial space to provide for collection, storage, or distribution of solar energy for heating or cooling.

(11) "Semipassive thermal system" means a system which utilizes the structural elements of a building and is augmented by mechanical components to provide for collection, storage, or distribution of solar energy for heating or cooling.

(H) A requirement that the taxpayer, as security for the performance of taxpayer's obligations under the regulatory agreement, assign the taxpayer's interest in rents which it receives from the project, provided that until there is a default under the regulatory agreement, the taxpayer is entitled to collect and retain the rents.

(I) The remedies available in the event of a default under the regulatory agreement that is not cured within a reasonable cure period, include, but are not limited to, allowing any of the parties designated to enforce the regulatory agreement to collect all rents with respect to the project; taking possession of the project and operate the project in accordance with the regulatory agreement until the enforcer determines the taxpayer is in a position to operate the project in accordance with the regulatory agreement; applying

to any court for specific performance, securing the appointment of a receiver to operate the project, or any other relief as may be appropriate.

(k) The amount of the credit provided by this section shall not in any year exceed the amount of tax which would be imposed on the income attributed to business activities of the taxpayer within the enterprise zone (as defined in Section 7073 of the Government Code). Qualified employee includes an otherwise qualified employee who is employed by a qualified business in the 90 days prior to its certification by the Department of Commerce as a qualified business for the purpose of becoming eligible for that certification.

(c) The credit provided for each qualified employee who has been unemployed for at least six months prior to being employed pursuant to subdivision (a) shall be as follows:

(e) For purposes of this section, "qualified wages" means that portion of wages not in excess of 150 percent of the minimum hourly wage paid or incurred by the qualified business during the income year to the qualified employee.

(f) (1) If the employment of any employee with respect to whom qualified wages are taken into account under subdivision (c) is terminated by the taxpayer at any time during the first 270 days of that employment (whether or not consecutive) or before the close of the 270th calendar day after the day in which that employee completes 90 days of employment with the taxpayer, the tax imposed by this part for the income year in which that employment is terminated shall be increased by an amount equal to the credit allowed under subdivision (a) for that income year and all prior income years attributable to qualified wages paid or incurred with respect to that employee.

(2) Paragraph (1) shall not apply to any of the following:

(A) A termination of employment of an employee who voluntarily leaves the employment of the taxpayer.

(D) A termination of employment of an individual due to a substantial reduction in the trade or business operations of the taxpayer.

(E) A termination of employment of an individual, if that individual is replaced by other qualified employees so as to create a net increase in both number of employees and hours of employment.

(g) In the case where the credit allowed under this section exceeds the "tax," the excess may be carried over to reduce the "tax" in the following year, and succeeding years if necessary, until the credit has been exhausted.

(h) The amount of the credit allowed by this section for any year shall not exceed the amount of tax which would be imposed on the income attributed to business activities of the taxpayer within the program area (as defined in Section 7082 of the Government Code) as if that attributed income represented all of the net income of the taxpayer subject to tax under this part. The amount of that attributed income shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(2) Forty percent for qualified wages in the second year of employment.

(3) Thirty percent for qualified wages in the third year of employment.

(4) Twenty percent for qualified wages in the fourth year of employment.

(5) Ten percent for qualified wages in the fifth year of employment.

(d) The credit provided for each qualified employee who has been unemployed for at least three months but less than six months prior to being employed shall be 25 percent of qualified wages for the first year of employment; however, the credit for the second year of employment shall be that provided in paragraph (2) of subdivision (c), the credit for the third year of employment shall be that provided in paragraph (3) of subdivision (c), the credit for the fourth year of employment shall be that provided in paragraph (4) of subdivision (c), and the credit for the fifth year of employment shall be that provided in paragraph (5) of subdivision (c).

(e) For purposes of this section, "qualified wages" means that portion of wages not in excess of 150 percent of the minimum hourly wage paid or incurred by the qualified business during the income

year to the qualified employee.

(f) (1) If the employment of any employee with respect to whom qualified wages are taken into account under subdivision (c) is terminated by the taxpayer at any time during the first 270 days of that employment (whether or not consecutive) or before the close of the 270th calendar day after the day in which that employee completes 90 days of employment with the taxpayer, the tax imposed by this part for the income year in which that employment is terminated shall be increased by an amount equal to the credit allowed under subdivision (a) for that income year and all prior income years attributable to qualified wages paid or incurred with respect to that employee.

(2) Paragraph (1) shall not apply to any of the following:

(A) A termination of employment of an employee who voluntarily leaves the employment of the taxpayer.

(D) A termination of employment of an individual due to a substantial reduction in the trade or business operations of the taxpayer.

(E) A termination of employment of an individual, if that individual is replaced by other qualified employees so as to create a net increase in both number of employees and hours of employment.

(g) In the case where the credit allowed under this section exceeds the "tax," the excess may be carried over to reduce the "tax" in the following year, and succeeding years if necessary, until the credit has been exhausted.

(h) The amount of the credit allowed by this section for any year shall not exceed the amount of tax which would be imposed on the income attributed to business activities of the taxpayer within the program area (as defined in Section 7082 of the Government Code) as if that attributed income represented all of the net income of the taxpayer subject to tax under this part. The amount of that attributed income shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(c) A taxpayer who qualifies as a "qualified taxpayer" shall, for the income year of the net operating loss and any income year to which that net operating loss may be carried, designate on the return filed for each year the subdivision of this section which applies to that taxpayer with respect to that net operating loss. If the taxpayer is eligible to qualify under more than one subdivision of this section, the designation is to be made after taking into account the election required by subdivision (d) and shall be consistent with that election.

(d) If a taxpayer is eligible to qualify under more than one subdivision of this section as a "qualified taxpayer," with respect to a net operating loss in an income year, the taxpayer shall elect which subdivision of this section is to apply to the taxpayer. The election is to be made in a statement attached to the original return, timely filed, for the year the net operating loss is incurred and shall be irrevocable.

(e) This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute which is enacted before January 1, 1989, deletes or extends that date.

SEC. 41.3. Section 24416.2 of the Revenue and Taxation Code, as added by Chapter 32 of the Statutes of 1988, is amended to read:

(B) In the case of a financial institution to which Section 585, 586, or 593 of the Internal Revenue Code applies, a net operating loss for any income year beginning on or after January 1, 1984, shall be a net operating loss carryover to each of the five income years following the income year of the loss. Subdivision (b) of Section 24416.1 and Section 172 (b) (1) (F) and (G) of the Internal Revenue Code shall not apply.

(2) For purposes of this subdivision:

(A) "Net operating loss" means the loss determined under Section 172 of the Internal Revenue Code, as modified by Section 24416.1, attributable to the business activities of the taxpayer within the enterprise zone (as defined in Section 7073 of the Government Code) or a harbor revitalization zone (as defined in Section 7103 of that code). The attributed loss shall be determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(B) A net operating loss carryover shall be a deduction only with respect to income attributed to the business activities of the taxpayer within the enterprise zone (as defined in Section 7073 of the Government Code) or harbor revitalization zone (as defined in Section 7103 of that code), determined in accordance with the provisions of Article 2 (commencing with Section 25120) of Chapter 17.

(c) A taxpayer who qualifies as a "qualified taxpayer" shall, for the income year of the net operating loss and any income year to which that net operating loss may be carried, designate on the return filed for each year the subdivision of this section which applies to that taxpayer with respect to that net operating loss. If the taxpayer is eligible to qualify under more than one subdivision of this section, the designation is to be made after taking into account the election required by subdivision (d) and shall be consistent with that election.

(d) If a taxpayer is eligible to qualify under more than one subdivision of this section as a "qualified taxpayer," with respect to a net operating loss in an income year, the taxpayer shall elect which subdivision of this section is to apply to the taxpayer. The election is to be made in a statement attached to the original return, timely filed, for the year the net operating loss is incurred and shall be irrevocable.

SEC. 45. Section 24722 of the Revenue and Taxation Code is repealed.

SEC. 46. Section 24722.1 of the Revenue and Taxation Code is repealed.

SEC. 48. Section 24722.3 of the Revenue and Taxation Code is repealed.

SEC. 49. Section 24723 of the Revenue and Taxation Code is repealed.

SEC. 49.5. Section 24833 of the Revenue and Taxation Code is amended to read:

24833. The provisions of Section 613 of the Internal Revenue Code, relating to percentage depletion, shall be modified as follows:

(a) In the case of oil, gas, and geothermal wells the allowance for depletion under this part shall be 22 percent of the gross income from the property during the income year, excluding from that gross income an amount equal to any rents or royalties paid or incurred by the taxpayer in respect of the property. That allowance shall not exceed 50 percent of the net income of the taxpayer (computed without allowance for depletion) from the property, except that in no case shall the depletion allowance under Section 24835 be less than it would be if computed without reference to this section.

(b) Where the total accumulated amount of deduction allowed or allowable for depletion exceeds an amount equal to the adjusted cost of the taxpayer's interest in any property which is subject to recovery through depletion under subdivision (a), percentage depletion shall be allowed in respect to those interests in that property, subject to

the limitations and adjustments of subdivisions (c) and (d).

(c) Where the total depletion allowance for all properties in subdivision (b) exceeds one million five hundred thousand dollars ($1,500,000), the allowance in subdivision (b) shall be reduced by 125 percent of the excess.

(d) When either (1) the income from sources within this state of two or more corporations which are commonly owned or controlled is determined in accordance with Chapter 17 (commencing with Section 25101) or Part 18 (commencing with Section 38001), or (2) two or more commonly owned or controlled corporations derive income from sources solely within this state, whose business activities are such that if conducted within and without this state, the income derived from sources within this state would be determined in accordance with Chapter 17 (commencing with Section 25101) or Part 18 (commencing with Section 38001) (hereinafter referred to as "wholly intrastate corporations"), then those corporations shall determine the percentage depletion prescribed in subdivision (b) as if those corporations were one corporation. As to "wholly intrastate corporations," if subdivision (c) applies, then the amount of percentage depletion (as adjusted and limited by subdivision (c)) shall be prorated among them in the ratio to which the percentage depletion of each prescribed in subdivision (b) (before the application of subdivision (c)) bears to the total percentage depletion prescribed in subdivision (b) for all corporations (before the application of subdivision (c)).

(e) For purposes of this section, a "geothermal deposit" means a geothermal reservoir consisting of natural heat which is stored in rocks or in an aqueous liquid or vapor (whether or not under pressure).

(f) For purposes of this section, "gross income from the property" shall not include any lease bonus, advance royalty, or other amount payable without regard to production from the property.

SEC. 50. Section 24903 of the Revenue and Taxation Code is repealed.

24905. The provisions of Section 988 of the Internal Revenue Code, relating to treatment of certain foreign currency transactions, shall apply.

SEC. 52. Section 24941 of the Revenue and Taxation Code is amended to read:

24941. (a) No gain or loss shall be recognized on the exchange of property held for productive use in trade or business or for investment if that property is exchanged solely for property of a like kind which is to be held either for productive use in trade or business or for investment.

(b) This section shall not apply to any exchange of any of the following:

(1) Stock in trade or other property held primarily for sale.

(2) Stocks, bonds, or notes.
(3) Other securities or evidence of indebtedness or interest.
(4) Interests in a partnership.
(5) Certificates of trust or beneficial interest.
(6) Choses in action.

(c) For purposes of this section, any property received by the taxpayer shall be treated as property which is not like-kind property if—

(1) That property is not identified as property to be received in the exchange before the day which is 45 days after the date on which the taxpayer transfers the property relinquished in the exchange, or

(2) That property is received after the earlier of—

(A) The day which is 180 days after the date on which the taxpayer transfers the property relinquished in the exchange, or

(B) The due date (determined with regard to extension) for the transferor's return of the tax imposed by this part for the income year in which the transfer of the relinquished property occurs.

(d) If an exchange would be within subdivision (a) of Section 24950, or of Section 24951, if it were not for the fact that the property received in exchange consists not only of property permitted by these provisions to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of the money and the fair market value of the other property.

(e) If an exchange would be within subdivision (a) of Section 24950, or of Section 24951, if it were not for the fact that the property received in exchange consists not only of property permitted by these provisions to be received without the recognition of gain or loss, but also of other property or money, then no loss from the exchange shall be recognized.

(f) If property was acquired on an exchange described in this section, Section 24950, or Section 24951, then the basis shall be the same as that of the property exchanged decreased in the amount of any money received by the taxpayer and increased in the amount of gain or decreased in the amount of loss to the taxpayer that was recognized on the exchange. If the property so acquired consisted in part of the type of property permitted by this section, Section 24950, or Section 24951, to be received without the recognition of gain or loss, and in part of other property, the basis provided in this subdivision shall be allocated between the properties (other than money) received, and for the purpose of the allocation there shall be assigned to the other property an amount equivalent to its fair market value at the date of the exchange. For purposes of this section, Section 24950, and Section 24951, where as part of the consideration to the taxpayer another party to the exchange assumed a liability of the taxpayer or acquired from the taxpayer property subject to a liability, the assumption or acquisition (in the amount of the liability) shall be considered as money received by the taxpayer on the exchange.

(g) For the purposes of this section, livestock of different sexes is not property of like kind.

(h) (1) Subdivision (c) shall be applied to any of the following:

(A) Transfers affected by this section after the effective date of the act amending this section during the first year of the 1985–86 Regular Session of the Legislature.

(B) Transfers on or before the effective date of the act amending this section during the first year of the 1985–86 Regular Session of the Legislature, provided the property to be received in exchange is not received before January 1, 1987.

(2) In the case of any transfer, on or before the effective date of the act amending this section during the first year of the 1985–86 Regular Session of the Legislature, which the taxpayer treated as part of a like-kind exchange, the period for assessing any deficiency of tax attributable to that amendment shall not expire before January 1, 1989.

(3) If property to be received in the exchange, which the taxpayer treated as part of like-kind exchange, is identified in a binding contract in effect on the effective date of the act amending this section during the first year of the 1985–86 Regular Session of the Legislature, and at all times thereafter before the transfer, this subdivision shall be applied—

(A) By substituting "January 1, 1989" for "January 1, 1987," and

(B) By substituting "January 1, 1991" for "January 1, 1989."

## CHAPTER 1466

An act to amend Sections 1100 and 11715 of, and to add Article 14.3 (commencing with Section 1064.1) to Chapter 1 of Part 2 of Division 1 of, and Section 1104.9 to, the Insurance Code, relating to insurance, and making an appropriation therefor.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Article 14.3 (commencing with Section 1064.1) is added to Chapter 1 of Part 2 of Division 1 of the Insurance Code, to read:

### Article 14.3. Uniform Liquidation Act

1064.1. For the purposes of this act:

(a) "Insurer" means any person subject to the insurance supervisory authority of, or to liquidation, rehabilitation, reorganization, or conservation by the commissioner or the equivalent insurance supervisory official of another state.

(b) "Delinquency proceeding" means any proceeding commenced against an insurer for the purpose of liquidating, rehabilitating, reorganizing, or conserving that insurer.

(c) "Foreign country" means territory not in any state.

(d) "Domiciliary state" means the state in which an insurer is incorporated or organized, or, in the case of an insurer incorporated or organized in a foreign country, the state in which the insurer, having become authorized to do business in the state, has, at the commencement of delinquency proceedings, the largest amount of its assets held in trust and assets held on deposit for the benefit of its policyholders or policyholders and creditors in the United States; and any such insurer is deemed to be domiciled in such state.

(e) "Ancillary state" means any state other than a domiciliary state.

(f) "Reciprocal state" means any state other than this state in which in substance and effect the provisions of this act are in force, including the provisions requiring that the commissioner or equivalent insurance supervisory official be the receiver of a delinquent insurer. A "reciprocal state" includes any state also which

has, through its commissioner or equivalent supervisory official, entered into a binding and enforceable written agreement with the commissioner of this state which provides that (1) a commissioner or equivalent supervisory official is required to be the receiver of a delinquent insurer; (2) title to assets of the delinquent insurer shall vest in the domiciliary receiver, as of the date of any court order appointing him or her as receiver, and he or she shall have the same rights to recover those assets as provided under subdivision (b) of Section 1064.3; (3) nondomiciliary creditors may file and prove their claims before ancillary receivers; (4) the laws of the domiciliary state of the delinquent insurer shall be applied uniformly to residents and nonresidents in the allowance of preference of claims, except for claims to special deposits created under the laws of the domiciliary state; (5) preferences (including attachments, garnishments, and liens) for creditors with advance information shall be prevented; and (6) the domiciliary receiver may sue in the reciprocal state to recover any assets of a delinquent insurer to which he or she may be entitled under the law.

(g) "General assets" means all property, real, personal, or otherwise, not specifically mortgaged, pledged, deposited, or otherwise encumbered for the security or benefit of specified persons or limited class or classes of persons, and as to such specifically encumbered property the term includes all such property or its proceeds in excess of the amount necessary to discharge the sum or sums secured thereby. Assets held in trust and assets held on deposit for the security or benefit of all policyholders or all policyholders and creditors in the United States, shall be deemed general assets.

(h) "Preferred claim" means any claim with respect to which the law of a state accords priority of payment from the general assets of the insurer.

(i) "Special deposit claim" means any claim secured by a deposit made for the security or benefit of a limited class or classes of persons, but not including any general assets.

(j) "Secured claim" means any claim secured by mortgage, trust, deed, pledge, deposit as security, escrow, or otherwise, but not including special deposit claims or claims against general assets. The term also includes claims, which more than four months prior to the commencement of delinquency proceedings in the state of the insurer's domicile, have become liens upon specific assets by reason of judicial process.

(k) "Receiver" means receiver, liquidator, rehabilitator, or conservator as the context may require.

1064.2. (a) Whenever under the laws of this state a receiver is to be appointed in delinquency proceedings for an insurer domiciled in this state, the court shall appoint the commissioner as receiver. Upon the appointment, the court shall direct the receiver forthwith to take possession of the assets of the insurer and to administer them under the orders of the court.

(b) The domiciliary receiver and his or her successors in office shall be vested by operation of law with the title to all of the property, contracts, and rights of action, and all of the books and records of the insurer wherever located, as of the date of the order of his or her appointment, and he or she shall have the right to recover the same and reduce them to possession; except that ancillary receivers in reciprocal states shall have, as to assets located in their respective states, the rights and powers which are prescribed in this article for ancillary receivers appointed in this state as to assets located in this state. The filing or recording of the order appointing the receiver or certified copy thereof, in the office where instruments affecting title to property are required to be filed or recorded shall impart the same notice as would be imparted by a deed, bill of sale, or other evidence of title duly filed or recorded. The domiciliary receiver shall be responsible on his or her official bond for the proper administration of all assets coming into his or her possession or control.

(c) Upon taking possession of the assets of a delinquent insurer the domiciliary receiver shall, subject to the direction of the court, and in accordance with such procedures as the receiver may petition the court to establish, immediately proceed to conduct the business of the insurer or to take such steps as are authorized by the laws of this state for the purpose of liquidating, rehabilitating, reorganizing, or conserving the affairs of the insurer. In connection with delinquency proceedings, he or she may appoint one or more special deputy commissioners to act for him or her, and may employ such counsel, clerks, and assistants as he or she deems necessary. The compensation of the special deputies, counsel, clerks, or assistants and all expenses of taking possession of the delinquent insurer and of conducting the delinquency proceedings shall be fixed by the receiver, subject to the approval of the court, and shall be paid out of the funds or assets of the insurer. Within the limits of the duties imposed upon them, special deputies shall possess all the powers given to, and, in the exercise of those powers, shall be subject to all of the duties imposed upon the receiver with respect to delinquency proceedings.

1064.3. (a) Whenever under the laws of this state an ancillary receiver is to be appointed in delinquency proceedings for an insurer not domiciled in this state, the court shall appoint the commissioner as ancillary receiver. The commissioner shall file an application requesting the appointment (1) if he or she finds that there are sufficient assets of that insurer located in this state, or that there are sufficient persons residing in this state having claims against that insurer, to justify the appointment of an ancillary receiver, or (2) if 10 or more persons resident in this state having claims against that insurer file an application with the commissioner requesting the appointment of an ancillary receiver.

(b) The domiciliary receiver of an insurer domiciled in a reciprocal state, shall be vested by operation of law with the title to all of the property, contracts, and rights of action, and all of the books

and records of the insurer located in this state, and he or she shall have the immediate right to recover balances due from local agents and to obtain possession of any books and records of the insurer found in this state. He or she shall also be entitled to recover the other assets of the insurer located in this state except that upon the appointment of an ancillary receiver in this state, the ancillary receiver shall, during the ancillary receivership proceedings, have the sole right to recover such other assets. The ancillary receiver shall, as soon as practicable, liquidate from their respective securities those special deposit claims and secured claims which are proved and allowed in the ancillary proceedings in this state, and shall pay the necessary expenses of the proceedings. All remaining assets shall be promptly transferred to the domiciliary receiver. Subject to the foregoing provisions, the ancillary receiver and his or her deputies shall have the same powers and be subject to the same duties with respect to the administration of such assets, as a receiver of an insurer domiciled in this state.

(c) Notwithstanding any other provision of this article, in any ancillary receivership proceeding in this state against an insurer domiciled in a reciprocal state, assets located in this state which comprise all or part of any deposit by that insurer under the laws of that reciprocal state for the benefit and security of beneficiaries of awards of workers' compensation against insurers shall be returned promptly to the domiciliary receiver, if he or she so requests, without deduction of any amounts to satisfy claims of policyholders and creditors.

1064.4. (a) In a delinquency proceeding begun in this state against an insurer domiciled in this state, claimants residing in reciprocal states may file claims either with the ancillary receivers, if any in their respective states, or with the domiciliary receiver. All claims shall be filed on or before the last date fixed for the filing of claims in the domiciliary delinquency proceedings.

(b) Controverted claims belonging to claimants residing in reciprocal states may either (1) be proved in this state as provided by law, or (2), if ancillary proceedings have been commenced in those reciprocal states, be proved in those proceedings. In the event a claimant elects to prove his or her claim in ancillary proceedings, if notice of the claim and opportunity to appear and be heard is afforded the domiciliary receiver of this state as provided in Section 1064.5 with respect to ancillary proceedings in this state, the final allowance of such claim by the courts in the ancillary state shall be accepted in this state as conclusive as to its amount, and shall also be accepted as conclusive as to its priority, if any, against special deposits or other security located within the ancillary state.

1064.5. (a) In a delinquency proceeding in a reciprocal state against an insurer domiciled in that state, claimants against such insurer who reside within this state may file claims either with the ancillary receiver, if any, appointed in this state, or with the domiciliary receiver. All such claims shall be filed on or before the

last date fixed for the filing of claims in the domiciliary delinquency proceeding.

(b) Controverted claims belonging to claimants residing in this state may either (1) be proved in the domiciliary state as provided by the laws of that state, or (2), if ancillary proceedings have been commenced in this state, be proved in those proceedings. In the event that any such claimant elects to prove his or her claim in this state, he or she shall file his or her claim with the ancillary receiver in the manner provided by the law of this state for the proving of claims against insurers domiciled in this state, and he or she shall give notice in writing to the receiver in the domiciliary state, either by registered mail or by personal service at least 40 days prior to the date set for hearing. The notice shall contain a concise statement of the amount of the claim, the facts on which the claim is based, and the priorities asserted, if any. If the domiciliary receiver, within 30 days after the giving of notice, shall give notice in writing to the ancillary receiver and to the claimant, either by registered mail or by personal service, of his or her intention to contest that claim, he or she shall be entitled to appear or to be represented in any proceeding in this state involving the adjudication of the claim. The final allowance of the claim by the courts of this state shall be accepted as conclusive as to its amount, and shall also be accepted as conclusive as to its priority, if any, against special deposits or other security located within this state.

1064.6. (a) In a delinquency proceeding against an insurer domiciled in this state, claims owing to residents of ancillary states shall be preferred claims if like claims are preferred under the laws of this state. All such claims, whether owing to residents or nonresidents, shall be given equal priority of payment from general assets regardless of where such assets are located.

(b) In a delinquency proceeding against an insurer domiciled in a reciprocal state, claims owing to residents of this state shall be preferred if like claims are preferred by the laws of that state.

1064.7. The owners of special deposit claims against an insurer for which a receiver is appointed in this or any other state shall be given priority against their several special deposits in accordance with the provisions governing the creation and maintenance of such deposits. If there is a deficiency in any such deposit so that the claims secured thereby are not fully discharged therefrom, the claimants may share in the general assets, but, unless applicable law provides otherwise, the sharing shall be deferred until general creditors, and also claimants against other special deposits who have received smaller percentages from their respective special deposits, have been paid percentages of their claims equal to the percentage paid from the special deposit.

1064.8. The owner of a secured claim against an insurer for which a receiver has been appointed in this or any other state may surrender his or her security and file his or her claim as a general creditor, or the claim may be discharged by resort to the security, in

which case the deficiency, if any, shall be treated as a claim against the general assets of the insurer on the same basis as claims of unsecured creditors. If the amount of the deficiency has been adjudicated in ancillary proceedings as provided in this article, or if it has been adjudicated by a court of competent jurisdiction in proceedings in which the domiciliary receiver has had notice and opportunity to be heard, that amount shall be conclusive; otherwise the amount shall be determined in the delinquency proceeding in the domiciliary state.

1064.9. During the pendency of delinquency proceedings in this or any reciprocal state, no action or proceeding in the nature of an attachment, garnishment, or execution shall be commenced or maintained in the courts of this state against the delinquent insurer or its assets. Any lien obtained by any such action or proceeding within four months prior to the commencement of any such delinquency proceeding or at any time thereafter shall be void as against any rights arising in such delinquency proceeding.

1064.10. The domiciliary receiver of an insurer domiciled in a reciprocal state may sue in this state to recover any assets of that insurer to which he or she may be entitled under the laws of this state.

1064.11. If any provision of this article or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the article which can be given effect without the invalid provision or application, and to this end the provisions of this article are declared to be severable.

1064.12. (a) This article may be referred to as the "Uniform Insurers Rehabilitation Act."

(b) The Uniform Insurers Rehabilitation Act shall be so interpreted and construed as to effectuate its general purpose to make uniform the law of those states that enact it. To the extent that its provisions, when applicable, conflict with Article 14 (commencing with Section 1010), the provisions of this article shall control. The provisions of Article 14 (commencing with Section 1010) not in conflict with this article shall be unaffected by it.

(c) This article does not apply in regard to insurers domiciled in any state that is not a reciprocal state, and to any insurer domiciled in a reciprocal state before that state appoints a domiciliary receiver for the insurer. All those insurers shall be governed by Article 14 (commencing with Section 1010). If a domiciliary receiver is appointed in a reciprocal state while a receivership is proceeding under Article 14 (commencing with Section 1010), the receiver under that article shall thereafter act as ancillary receiver under Section 1064.3.

SEC. 1.5. Section 1100 of the Insurance Code is amended to read:

1100. In this state, all investments and deposits of the assets of an insurer, all purchases on behalf of an insurer, and all sales made of the property and effects of an insurer shall be made in its own name, or in that of a corporation authorized to act as a trustee under the

laws of this state, or in the name of a nominee of such a corporation in accordance with any law of this state permitting such a trustee to make use of nominees, or in the name of a qualified custodian, qualified subcustodian, or qualified depository (as defined in Section 1104.9) or in the name of a nominee of a qualified custodian, qualified subcustodian, or qualified depository, provided that the nominee is not a corporation and, as to any nominee which is a partnership, the partnership shall consist solely of the employees, officers, or directors of the qualified custodian, qualified subcustodian, or qualified depository or a corporation which is a member of the same holding company system as the nominee, or any combination thereof, or in the name of a nominee approved by the commissioner.

SEC. 2. Section 1104.9 is added to the Insurance Code, to read:

1104.9. (a) (1) As used in this section, the term "qualified custodian" means: (A) commercial banks (as defined in Section 105 of the Financial Code), savings and loan associations (as defined in Section 5102 of the Financial Code), and trust companies (other than trust departments of title insurance companies), or any entity approved by the commissioner as a qualified custodian; (B) which is domiciled and has a principal place of business in this state; and (C) which either has a net worth of at least one hundred million dollars ($100,000,000) or is able to demonstrate to the satisfaction of the commissioner that it is financially secure. The commissioner may consider, among other factors, evidence of the following in order to determine whether a custodian is financially secure for the purpose of this subdivision: (i) its obligations under an agreement approved by the commissioner pursuant to subdivision (c) are guaranteed by its parent holding company, (ii) its parent holding company has a net worth of at least one hundred million dollars ($100,000,000), or (iii) it is a member of a holding company system with a net worth of at least one hundred million dollars ($100,000,000).

(2) As used in this section, the term "qualified depository" means an entity which is located in this state or a reciprocal state and is (A) a depository that provides for the long-term immobilization of securities or a clearing corporation that is also a depository, and which in either case has been approved by or registered with the Securities and Exchange Commission, (B) a Federal Reserve Bank, or (C) an entity approved by the commissioner as a qualified depository. A "qualified depository" may also include an entity which is located outside the United States, which entity shall be a securities depository and clearing agency, incorporated or organized under the laws of a country other than the United States, which operates a transnational system for securities or equivalent book entries (specifically Euroclear and Cedel, or successors to all or substantially all of their operations).

(3) As used in this section, the term "qualified subcustodian" means an entity located in this state or a reciprocal state (A) which holds securities of the domestic insurer, and maintains an account through which such securities are held, in this state or a reciprocal

state and (B) which has a net worth of at least one hundred million dollars ($100,000,000) or is able to demonstrate to the satisfaction of the commissioner that it is financially secure. The qualified subcustodian shall be: (A) a commercial bank, a savings and loan association, or a trust company (other than trust departments of title insurance companies); (B) a subsidiary of a qualified custodian; or (C) any entity approved by the commissioner as a qualified subcustodian. The commissioner may consider, among other factors, evidence of the following in order to determine whether a subcustodian is financially secure for the purpose of this subdivision: (i) its obligations are guaranteed by its parent company, (ii) its parent holding company has a net worth of at least one hundred million dollars ($100,000,000), or (iii) it is a member of a holding company system with a net worth of at least one hundred million dollars ($100,000,000). A "qualified subcustodian" may also include an entity which is located outside the United States, which is used by the domestic insurer for the purpose of obtaining access to a qualified depository located outside the United States. The qualified foreign subcustodian shall have a net worth of at least one hundred million dollars ($100,000,000) or is able to demonstrate to the satisfaction of the commissioner that it is financially secure, and shall be: (A) a banking institution or trust company, incorporated or organized under the laws of a country other than the United States, that is regulated by that country's government or an agency thereof, and that has shareholders' equity in excess of two hundred million dollars ($200,000,000), whether in United States dollars or the equivalent of United States dollars, as of the close of its most recently completed fiscal year; (B) a majority-owned director indirect subsidiary of a qualified United States bank or bank holding company, which subsidiary is incorporated or organized under the laws of a country other than the United States and has shareholders' equity in excess of one hundred million dollars ($100,000,000), whether in United States dollars or the equivalent of United States dollars, as of the close of its most recently completed fiscal year.

(4) As used in this section, the term "subsidiary" means: (A) an entity all of whose voting securities (other than director qualifying shares, if any) are owned, directly or indirectly, by a qualified custodian; or (B) any affiliated entity approved by the commissioner as a subsidiary of a qualified custodian. For the purpose of this section, an affiliated entity means an entity that (A) controls or is controlled, either directly or indirectly or through one or more intermediaries by a qualified custodian or (B) is under the common control, directly or indirectly, as or with a qualified custodian.

(5) As used in this section, the terms "entity approved by the commissioner as a qualified custodian," "entity approved by the commissioner as a qualified depository," "entity approved by the commissioner as a qualified subcustodian," and "entity approved by the commissioner as a subsidiary of a qualified custodian" mean those entities which meet the conditions or standards established by the

commissioner. The commissioner shall charge and collect in advance a one-time fee of one thousand five hundred dollars ($1,500) to review an application for approval of any entity pursuant to this section.

(6) As used in this section, the term "reciprocal state" has the same meaning as in subdivision (f) of Section 1064.1.

(7) As used in this section, the term "moneys" means cash held incidental to securities transactions occurring in the ordinary course of business with respect to securities held pursuant to the custodial agreements under this section.

(8) (A) Except as provided in (B), as used in this section, the terms "insurer," "domestic insurer," and "domestic admitted insurer" mean any insurer, other than a domestic life insurer, which is incorporated or which has its principal place of business in this state. Except as provided in (B), no portion of this section shall be deemed to apply to domestic life insurers, nor shall this section affect the interpretation of any other portion of this code with respect to domestic life insurers, nor is it intended to create a precedent for the application of its provisions to those insurers. Provided, however, that the exclusion of domestic life insurers from this section shall not be construed to diminish the commissioner's existing authority over those insurers under any other provision of this code.

(B) Domestic life insurers which are wholly owned by any insurer other than a domestic life insurer or are part of an insurance holding company system whose other insurer affiliates are not domestic life insurers may elect to be subject to this section by affirmatively stating that election in the statement otherwise required to be filed by such system pursuant to Section 1215.4.

(b) Notwithstanding Section 1104.1, a domestic admitted insurer may maintain its securities and moneys in a reciprocal state, subject to the requirements of this section, through a custodian account located in California in or with a qualified custodian, and that qualified custodian may maintain those securities or moneys in a qualified depository or qualified subcustodian, either or both of which may be located in a reciprocal state. In addition, a domestic insurer which has foreign investments or any other investments which require delivery outside of the United States upon sale or maturity that qualify under Section 1240, 1241, 10506, or any other provision of this code may maintain those securities or moneys in or with a qualified depository located in a jurisdiction outside the United States; provided, however, that the aggregate amount of general account investments so deposited shall not exceed the lesser of 5 percent of the total admitted assets of the insurer or 25 percent of the excess of admitted assets over the sum of paidup capital, liabilities, and surplus required by Section 700.02. The percentage or dollar value of admitted assets and paid up capital and liabilities shall be determined by the insurer's last preceding annual statement of conditions and affairs made as of the preceding December 31 which has been filed with the commissioner pursuant to law. No broker or

agent, as defined in the Federal Securities Exchange Act of 1934 (15 U.S.C.A. Sec. 78c et seq.), may serve as a qualified custodian, qualified subcustodian, or qualified depository under this section; provided, however, no otherwise qualified custodian or subcustodian shall be disqualified on account of its activities as a broker or dealer, as so defined, when such activities are incidental to its custodial or other business.

(c) No securities shall be deposited in or with a qualified custodian, qualified depository, or qualified subcustodian except as authorized by an agreement between the insurer and the qualified custodian, which agreement is satisfactory to and has been approved by the commissioner. The agreement shall provide that the securities be held by the qualified custodian for the benefit of the insurer and that the books and records of the qualified custodian shall so designate. The agreement shall further provide that beneficial title to such securities shall remain in the insurer and shall provide that the qualified subcustodian and qualified depository be the agents of the qualified custodian. The agreement shall also specifically provide that the qualified custodian shall exercise the standard of care of a professional custodian engaged in the banking or trust company industry and having professional expertise in financial and securities processing transactions and custody would observe in such affairs. The provisions of this section shall not affect the burden of proof under applicable law with respect to the assertion of liability in any claim, action, or dispute alleging any breach of, or failure to observe, such standard of care.

(d) No agreement between the qualified custodian and the insurer shall be approved by the commissioner unless the qualified custodian agrees therein to comply with this section. Except when the agreement is submitted in conjunction with an application for an original certificate of authority or variable contract qualification, a fee of five hundred dollars ($500) shall be paid to the commissioner at the time of filing such agreement for approval. However, no fee shall be required if the form of the agreement has been previously submitted for approval and approved by the commissioner as certified by the insurer and qualified custodian submitting the agreement to the commissioner. The agreement shall be deemed approved unless, within 60 days after receipt by the commissioner of that agreement and any required filing fee, the commissioner has disapproved the agreement in writing citing specific reasons for disapproval.

(e) Notwithstanding the maintenance of securities with an out-of-state qualified depository or qualified subcustodian pursuant to agreement, if the commissioner has reasonable cause to believe that the domestic insurer (1) is conducting its business and affairs in such a manner as to threaten to render it insolvent, or (2) is in a hazardous condition or is conducting its business and affairs in a manner which is hazardous to its policyholders, creditors, or the public, or (3) has committed or is committing or has engaged or is

engaging in any act which would constitute grounds for rendering it subject to conservation or liquidation proceedings, or (4) the commissioner determines that irreparable loss and injury to the property and business of the domestic insurer has occurred or may occur unless the commissioner acts immediately, then the commissioner may, without hearing, order the insurer and the qualified custodian promptly to effect the transfer of the securities back to a qualified custodian, qualified subcustodian, or qualified depository located in this state from any qualified depository or qualified subcustodian located outside of this state (the transfer order). Upon receipt of the transfer order, the qualified custodian shall promptly effect the return of the securities. Notwithstanding the pendency of any hearing of action provided for in subdivision (f), the transfer order shall be complied with by those persons subject to that order. Any challenge to the validity of the transfer order shall be made in accordance with the provisions of subdivision (f). It shall be the responsibility of both the insurer and the qualified custodian to oversee that compliance with the transfer order is completed as expeditiously as possible. Upon receipt of a transfer order, there shall be no trading of securities without specific instructions from the commissioner until the securities are received in this state, except to the extent trading transactions are in process on the day the transfer order is received by the insurer and the failure to complete the trade may result in loss to the insurer's account. Issuance of a transfer order shall not affect the qualified custodian's liabilities with regard to the securities which are the subject of the order.

(f) At the same time the transfer order is served, the commissioner shall issue and also serve upon the insurer a notice of hearing to be held at a time and place fixed therein which shall not be less than 20 or more than 45 days after the service thereof. Upon request of the insurer and agreement of the department, the hearing may be held within a shorter time but in no event less than 10 days after the service of the notice of hearing. The transfer order and notice of hearing may be served by certified mail, express mail, messenger, telegram, or any other means calculated to give prompt actual notice to (1) the California office of the insurer designated in the agreement, its home office as shown on its most recently filed annual or quarterly statement, or its California agent for service of process; and (2) the California office of the qualified custodian designated in the agreement. If, as a result of the hearing, any of the statements as to conduct, conditions, or grounds for the transfer order are found to be true, or if other conditions or grounds are discovered or become known or become known at the hearing and are found to be true, the commissioner shall affirm the transfer order and may make additional order or orders, pertaining to the transfer order, as may be reasonably necessary.

The insurer subject to the transfer order, shall be entitled to judicial review in the state of the commissioner's order issued as a result of the hearing.

Alternatively, at any time prior to the commencement of the hearing on the transfer order, the insurer may waive the hearing and have judicial review in this state of the transfer order by petition for writ of mandate and declaratory relief without first exhausting administrative remedies or procedures. In that event the insurer shall not be entitled to any extraordinary remedies prior to trial.

No person other than the insurer shall have standing at the hearing by the commissioner or for any judicial review of the transfer order.

SEC. 3. Section 11715 of the Insurance Code is amended to read:

11715. (a) Any workers' compensation insurer may, in lieu of and for the same purpose as the bond required by Section 11690, and upon payment of the fee prescribed in this article, deposit cash instruments, approved letters of credit, or approved interest-bearing securities or approved stocks readily convertible into cash, or investment certificates or share accounts issued by a savings and loan association doing business in this state and insured by the Federal Savings and Loan Insurance Corporation or certificates of deposit or savings deposits in a bank licensed to do business in this state. The deposit shall be made from time to time as demanded by the commissioner and may be made with the State Treasurer, or a bank or savings and loan association authorized to engage in the trust business pursuant to Chapter 1 (commencing with Section 99) of Division 1 or Chapter 3 (commencing with Section 5500) of Division 2 of the Financial Code, or trust company pursuant to the approval of the commissioner under such rules and regulations as he shall promulgate. The deposit shall be maintained at a deposit value of not less than twenty-five thousand dollars ($25,000), nor less than the reserves required of such insurer to be maintained under any of the provisions of Article 1 (commencing with Section 11550) of Chapter 1 of Part 3 of Division 2, relating to loss reserves on workers' compensation business of the insurer in this state, nor less than the sum of the amounts specified in subdivision (a) of Section 11699.

(b) Any workers' compensation insurer electing to bring itself within the provisions of subdivision (a) by submitting securities, stock, investment certificates, or share deposits registered in a depositor's name, shall execute and deliver in duplicate to the commissioner a power of attorney in favor of the commissioner for the purposes specified in Section 11690, supported by a resolution of the depositor's board of directors. The power of attorney and directors' resolution shall be on forms approved by the commissioner, shall provide that the power of attorney cannot be revoked or withdrawn without the consent of the commissioner, and shall be acknowledged as required by law.

(c) The commissioner shall require payment of one hundred seventy-seven dollars ($177) in advance as a fee for the initial filing and the first semiannual review of each letter of credit specified in subdivision (a). In addition, each worker's compensation insurer depositing a letter of credit shall pay an annual fee of one hundred eighteen dollars ($118) in advance on account of such letter until its

expiration or revocation. Such fee shall be for annual periods commencing each January 1 and shall be due and payable on the following April 1.

(d) The commissioner shall require payment of one hundred eighteen dollars ($118) in advance as a fee for the initial filing of a deposit agreement with a bank, savings and loan association, or trust company on deposits made pursuant to subdivision (a). An additional fee of one hundred eighteen dollars ($118) shall be payable for each amendment, supplement, or other change to the deposit agreement. In addition, the commissioner shall require the payment of fifty-eight dollars ($58) in advance for receiving and processing deposit schedules pursuant to this section. An additional fee of twenty-nine dollars ($29) shall be payable for each withdrawal, substitution, or any other change in the deposit.

(e) In addition to the authority provided herein, admitted workers' compensation insurers may maintain these deposits in accordance with Section 1104.9, in states found by the commissioner to be reciprocal states, as that term is defined in subdivision (f) of Section 1064.1, if the laws of those states permit the commissioner of this state to promptly recover these deposits in a delinquency proceeding, as defined in subdivision (b) of Section 1064.1 without deduction of any amounts to satisfy claims of policyholders and creditors.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988 ]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares as follows:

(a) In order to control crime in the state the Legislature has found it necessary over the past eight years to toughen law enforcement and lengthen prison terms.

(b) These measures may well double California's existing prison population of approximately 59,000 to more than 100,000 by 1995.

(c) The state will be spending more than $2.36 billion on corrections and may find it necessary to build an additional 20 prisons besides the 14 already under construction.

(d) The good people of Del Norte County have assisted the state in providing a location for a state prison north of Crescent City at Pelican Bay, within one mile of the Pacific Ocean.

SEC. 2. Section 1.5 of Chapter 237 of the Statutes of 1985 is amended to read:

Sec. 1.5. (a) The Department of Corrections shall perform site suitability studies and evaluate the feasibility of constructing a prison in Del Norte County. The studies shall identify the proposed custody level of inmates at the proposed prison, the size of the proposed facility, and the work programs to be used at the proposed facility.

(b) In performing the studies required by this section, the Department of Corrections shall hold public hearings regarding proposed sites.

(c) The Department of Corrections shall submit the results of the studies required by subdivision (a) to the Joint Legislative Prison Committee.

SEC. 3. The Department of Corrections may contract with the County of Del Norte for the financing of the remodeling of existing court facilities, including the construction of an additional courtroom and related facilities. Under this contract, the Department of Corrections is authorized to make annual payments for the reimbursement of construction related costs to the County of Del Norte from the department's support budget from savings realized by the department due to a reduction in security costs which would result from a more secure courtroom facility.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent the unnecessary expenditure of funds for using the incorrect name for a prison, and in order to enable the Department of Corrections with Del Norte County for the financing of the remodeling of existing courtroom and related facilities at the earliest possible time, it is necessary for this act to take effect immediately.

## CHAPTER 1471

An act to amend Sections 11580.2 and 11580.26 of, and to add Section 11580.23 to, the Insurance Code, and to repeal Section 17203 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 11580.2 of the Insurance Code, as amended by Chapter 158 of the Statutes of 1988, is amended to read:

11580.2. (a) (1) No policy of bodily injury liability insurance

covering liability arising out of the ownership, maintenance, or use of any motor vehicle, except for policies which provide insurance in the Republic of Mexico issued or delivered in this state by nonadmitted Mexican insurers, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor vehicle then principally used or principally garaged in this state, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the limits specified in subdivision (m) and in no case less than the financial responsibility requirements specified in Section 16056 of the Vehicle Code insuring the insured, the insured's heirs or legal representative for all sums within such limits which he, she, or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured, prior to or subsequent to the issuance or renewal of a policy, may, by agreement in writing, in the form specified in paragraph (2) or paragraph (3), delete the provision covering damage caused by an uninsured motor vehicle (1) completely, or (2) delete such coverage when a motor vehicle is operated by a natural person or persons designated by name, or (3) agree to provide such coverage in an amount less than that required by subdivision (m) but not less than the financial responsibility requirements specified in Section 16056 of the Vehicle Code. A policy shall be excluded from the application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles or if the automobile liability coverage is provided only on an excess or umbrella basis. Nothing in this section shall be construed to require that uninsured motorist coverage shall be offered or provided in any homeowner policy, personal and residents' liability policy, comprehensive personal liability policy, manufacturers' and contractors' policy, premises liability policy, special multiperil policy, or any other policy or endorsement where automobile liability coverage is offered as incidental to some other basic coverage, notwithstanding that the policy may provide automobile or motor vehicle liability coverage on insured premises or the ways immediately adjoining.

(2) The agreement specified in paragraph (1) to delete the provision covering damage caused by an uninsured motor vehicle completely or delete the coverage when a motor vehicle is operated

"The California Insurance Code requires an insurer to provide uninsured motorists coverage in each bodily injury liability insurance policy it issues covering liability arising out of the ownership, maintenance, or use of a motor vehicle. Those provisions also permit the insurer and the applicant to delete the coverage completely or to delete the coverage when a motor vehicle is operated by a natural person or persons designated by name . Uninsured motorists coverage insures the insured, his or her heirs, or legal representatives for all sums within the limits established by law, which such person or persons are legally entitled to recover as damages for bodily injury, including any resulting sickness, disease, or death, to the insured from the owner or operator of an uninsured motor vehicle not owned or operated by the insured or a resident of the same household. An uninsured motor vehicle includes an underinsured motor vehicle as defined in subdivision (p) of Section 11580.2 of the Insurance Code."

The agreement may contain additional statements not in derogation of or in conflict with the foregoing. The execution of the agreement shall relieve the insurer of liability under this section while the agreement remains in effect.

(3) The agreement specified in paragraph (1) to provide coverage in an amount less than that required by subdivision (m) shall be in the following form:

"The California Insurance Code requires an insurer to provide uninsured motorists coverage in each bodily injury liability insurance policy it issues covering liability arising out of the ownership, maintenance, or use of a motor vehicle. Those provisions also permit the insurer and the applicant to agree to provide the coverage in an amount less then that required by subdivision (m) of Section 11580.2 of the Insurance Code but not less than the financial responsibility requirements. Uninsured motorists coverage insures the insured, his or her heirs, or legal representatives for all sums within the limits established by law, which the person or persons are legally entitled to recover as damages for bodily injury, including any resulting sickness, disease, or death, to the insured from the owner or operator of an uninsured motor vehicle not owned or operated by the insured or a resident of the same household. An uninsured motor vehicle includes an underinsured motor vehicle as defined in subdivision (p) of Section 11580.2 of the Insurance Code."

The agreement may contain additional statements not in derogation of or in conflict with this paragraph. However, it shall be presumed that an application for a policy of bodily injury liability insurance containing uninsured motorist coverage in an amount less than that required by subdivision (m), signed by the named insured and approved by the insurer, with a policy effective date after January 1, 1985, shall be a valid agreement as to the amount of uninsured motorist coverage to be provided.

(b) As used in (a) above, "bodily injury" includes sickness or disease, including death, resulting therefrom; the term "named insured" means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in (a) above; as used in (a) above if the named insured is an individual the term "insured" means the named insured and the spouse of the named insured and, while residents of the same household, relatives of either while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he or she is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; as used in (a) above, if the named insured is an entity other than an individual, the term "insured" means any person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he or she is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply. As used in this subdivision, the word "individual" shall not include persons doing business as corporations, partnerships, or associations. The term "insured motor vehicle" means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute automobile for which liability coverage is provided in the policy or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the named insured or with his or her permission or consent, express or implied, and any other automobile not owned by or furnished for the regular use of the named insured or any resident of the same household, or by a natural person or persons for whom coverage has been deleted in accordance with subdivision (a) while being operated by the named insured or his or her spouse if a resident of the same household, but the term "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. As used in this section, the term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or an "underinsured motor vehicle" as defined in subdivision (p), or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of the automobile with the insured or with an automobile which the

insured is occupying.

(2) The insured or someone on his or her behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol, and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his or her legal representative has or the insured's heirs have a cause of action arising out of the accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. As used in this section, the term "uninsured motor vehicle" shall not include a motor vehicle owned or operated by the named insured or any resident of the same household or self-insured within the meaning of the Financial Responsibility Law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer while located for use as a residence or premises and not as a vehicle, or any equipment or vehicle designed or modified for use primarily off public roads, except while actually upon public roads.

As used in this section, the term "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle coverage is in effect where the liability insurer of the tortfeasor becomes insolvent within one year of the accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making the payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of the person against the insolvent insurer.

Nothing in this section is intended to exclude from the definition of an uninsured motor vehicle any motorcycle or private passenger type four wheel drive motor vehicle if that vehicle was subject to and failed to comply with the Financial Responsibility Law of this state.

(c) The insurance coverage provided for in this section does not apply either as primary or as excess coverage to:

(1) To property damage sustained by the insured.

(2) To bodily injury of the insured while in or upon or while entering into or alighting from a motor vehicle other than the described motor vehicle if the owner thereof has insurance similar to that provided in this section.

(3) To bodily injury of the insured with respect to which the insured or his or her representative shall, without the written

consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.

(4) In any instance where it would inure directly or indirectly to the benefit of any workers' compensation carrier or to any person qualified as a self-insurer under any workers' compensation law, or directly to the benefit of the United States, or any state or any political subdivision thereof.

(5) To establish proof of financial responsibility as provided in subdivisions (a), (b), and (c) of Section 16054 of the Vehicle Code.

(6) To bodily injury of the insured while occupying a motor vehicle owned by an insured or leased to an insured under a written contract for a period of six months or longer, unless the occupied vehicle is an insured motor vehicle. "Motor vehicle" as used in this paragraph means any self-propelled vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(8) To bodily injury of the insured while occupying a motor vehicle rented or leased to the insured for public or livery purposes.

(d) Subject to paragraph (2) of subdivision (c), the policy or endorsement may provide that if the insured has insurance available to the insured under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bear to the total of such limits.

(e) The policy or endorsement added thereto may provide that if the insured has valid and collectible automobile medical payment insurance available to him or her, the damages which the insured shall be entitled to recover from the owner or operator of an uninsured motor vehicle shall be reduced for purposes of uninsured motorist coverage by the amounts paid or due to be paid under the automobile medical payment insurance. This subdivision shall become operative on January 1, 1971.

(f) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the event of disagreement, by arbitration. The arbitration shall be conducted by a single neutral arbitrator. An award or a judgment confirming an award shall not be conclusive on any party in any action or proceeding between (i) the insured, his or her insurer, his or her legal representative, or his or her heirs and (ii) the uninsured motorist to recover damages arising out of the accident upon which the award is based. If the insured has or may have rights to benefits, other than nonoccupational disability benefits, under any workers' compensation law, the arbitrator shall not proceed with the arbitration until the insured's physical condition is stationary and ratable. In those cases in which the insured claims a permanent

disability, the claims shall, unless good cause be shown, be adjudicated by award or settled by compromise and release before the arbitration may proceed. Any demand or petition for arbitration shall contain a declaration, under penalty of perjury, stating whether (i) the insured has a workers' compensation claim; (ii) the claim has proceeded to findings and award or settlement on all issues reasonably contemplated to be determined in that claim; and (iii) if not, what reasons amounting to good cause are grounds for the arbitration to proceed immediately. The arbitration shall be deemed to be a proceeding and the hearing before the arbitrator shall be deemed to be the trial of an issue therein for purposes of issuance of a subpoena by an attorney of a party to the arbitration under Section 1985 of the Code of Civil Procedure. Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to these determinations, and all rights, remedies, obligations, liabilities and procedures set forth in Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the superior court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under Article 3 with respect to the same accident, subject, however, to the right of the court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition is served by either party within 20 days after the accident.

(4) Paragraph (4) of subdivision (a) of Section 2019 of the Code of Civil Procedure is not applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in paragraph (2) of subdivision (b) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the

Code of Civil Procedure and requests for admission under Section 2033 of the Code of Civil Procedure may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section limits the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(g) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom the claim was paid against any person legally liable for the injury or death to the extent that payment was made. The action may be brought within three years from the date that payment was made hereunder.

(h) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver of rights to which he or she may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him or her, his or her executor, administrator, heirs, or legal representative under any workers' compensation law, exclusive of nonoccupational disability benefits.

(2) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part, including any amounts tendered to the insured as advance payment on behalf of such other person by the insurer providing the underlying liability insurance.

(i) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless one of the following actions have been taken within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction.

(2) Agreement as to the amount due under the policy has been concluded.

(3) The insured has formally instituted arbitration proceedings.

(j) Notwithstanding subdivisions (b) and (i), in the event the accident occurs in any other state or foreign jurisdiction to which coverage is extended under the policy and the insurer of the tortfeasor becomes insolvent, any action authorized pursuant to the provisions of this section may be maintained within three months of the insolvency of the tortfeasor's insurer, but in no event later than the pertinent period of limitation of the jurisdiction in which the

accident occurred.

(k) Notwithstanding subdivision (i), any insurer whose insured has made a claim under his or her uninsured motorist coverage, and the claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to the injury or death. Failure of the insurer to provide the written notice shall operate to toll any applicable statute of limitation or other time limitation for a period of 30 days from the date the written notice is actually given. The notice shall not be required if the insurer has received notice that the insured is represented by an attorney.

(*l*) As used in subdivision (b), "public or livery conveyance," or terms of similar import, shall not include the operation or use of a motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing social service transportation as defined in subdivision (f) of Section 11580.1. This subdivision shall apply only to policies of insurance issued, amended, or renewed on or after January 1, 1976.

(m) Coverage provided under an uninsured motorist endorsement or coverage shall be offered with coverage limits equal to the limits of liability for bodily injury in the underlying policy of insurance, but shall not be required to be offered with limits in excess of the following amounts:

(1) A limit of thirty thousand dollars ($30,000) because of bodily injury to or death of one person in any one accident.

(2) Subject to the limit for one person set forth in paragraph (1), a limit of sixty thousand dollars ($60,000) because of bodily injury to or death of two or more persons in any one accident.

(n) Underinsured motorist coverage shall be offered with limits equal to the limits of liability for the insured's uninsured motorist limits in the underlying policy, and may be offered with limits in excess of such uninsured motorist coverage. For the purposes of this section, uninsured and underinsured motorist coverage shall be offered as a single coverage. However, an insurer may offer coverage for damages for bodily injury or wrongful death from the owner or operator of an underinsured motor vehicle at greater limits than an uninsured motor vehicle.

(o) If an insured has failed to provide an insurer with wage loss information or medical treatment record releases within 15 days of the insurer's request or has failed to submit to a medical examination arranged by the insurer within 20 days of the insurer's request, the insurer may, at any time prior to 30 days before the actual arbitration proceedings commence, request, and the insured shall furnish, wage loss information or medical treatment record releases, and the insurer may require the insured, except during periods of hospitalization, to make himself or herself available for a medical examination. The wage loss information or medical treatment record releases shall be submitted by the insured within 10 days of request

and the medical examination shall be arranged by the insurer no sooner than 10 days after request, unless the insured agrees to an earlier examination date, and not later than 20 days after the request. If the insured fails to comply with the requirements of this subdivision, the actual arbitration proceedings shall be stayed for at least 30 days following compliance by the insured. The proceedings shall be scheduled as soon as practicable following expiration of the 30-day period.

(p) This subdivision applies only when bodily injury, as defined in subdivision (b), is caused by an underinsured motor vehicle. If the provisions of this subdivision conflict with subdivisions (a) through (o), the provisions of this subdivision shall prevail.

(1) As used in this subdivision, "an insured motor vehicle" is one that is insured under a motor vehicle liability policy, or automobile liability insurance policy, self-insured, or for which a cash deposit or bond has been posted to satisfy a financial responsibility law.

(2) "Underinsured motor vehicle" means a motor vehicle that is an insured motor vehicle but insured for an amount that is less than the uninsured motorist limits carried on the motor vehicle of the injured person.

(3) This coverage does not apply to any bodily injury until the limits of bodily injury liability policies applicable to all insured motor vehicles causing the injury have been exhausted by payment of judgments or settlements, and proof of such is submitted to the insurer providing the underinsured motorist coverage.

(4) When bodily injury is caused by one or more motor vehicles, whether insured, underinsured, or uninsured, the maximum liability of the insurer providing the underinsured motorist coverage shall not exceed the insured's underinsured motorist coverage limits, less the amount paid to the insured by or for any person or organization that may be held legally liable for the injury.

(5) The insurer paying a claim under this subdivision shall, to the extent of such payment, be entitled to reimbursement or credit in the amount received by the insured from the owner or operator of the underinsured motor vehicle or the insurer of such owner or operator.

(6) If the insured brings an action against the owner or operator of an underinsured motor vehicle, he or she shall forthwith give to the insurer providing the underinsured motorist coverage a copy of the complaint by personal service or certified mail. All pleadings and depositions shall be made available for copying or copies furnished the insurer, at the insurer's expense, within a reasonable time.

(7) Underinsured motorist coverage shall be included in all policies of bodily injury liability insurance providing uninsured motorist coverage issued or renewed on or after July 1, 1985. Notwithstanding this section, an agreement to delete uninsured motorist coverage completely, or with respect to a person or persons designated by name, executed prior to July 1, 1985, shall remain in full force and effect.

(q) Regardless of the number of vehicles involved whether insured or not, persons covered, claims made, premiums paid or the number of premiums shown on the policy, in no event shall the limit of liability for two or more motor vehicles or two or more policies be added together, combined, or stacked to determine the limit of insurance coverage available to injured persons.

SEC. 2. Section 11580.23 is added to the Insurance Code, to read:

11580.23. (a) If a suit for bodily injury has been filed against an uninsured motorist in a court of competent jurisdiction, notice in writing of the suit shall be provided the insurer of the insured plaintiff within a reasonable time after the insured knew or should have known of the uninsured status of the motorist, but in no event shall that notice be required before one year from the date of the accrual of the cause of action on which the claim is based. Failure of the insured or his or her representative to give notice shall not be a basis for denial of the uninsured motorist benefits in the absence of proof of prejudice by the insurer.

(b) The Legislature hereby finds that this section is declarative of existing law. It is the intent of the Legislature to abrogate the holdings in cases such as State Farm Mutual Auto. Ins. Co. v. Patton, 194 Cal. App. 3d 626, to the extent that they are inconsistent with this section. Those decisons are abrogated and shall not apply to any matters not final.

SEC. 3. Section 11580.26 of the Insurance Code is amended to read:

11580.26. (a) Except where a named insured has agreed pursuant to Section 11580.2 to delete the coverages provided by that section, no policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle, except where the policy provides insurance in the Republic of Mexico issued or delivered in this state by nonadmitted Mexican insurers, and except a policy insuring a commercial vehicle as defined in Section 260 of the Vehicle Code, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor vehicle then principally used or principally garaged in this state, unless a named insured has been offered the following coverage:

(1) Where the policy of motor vehicle liability insurance includes collision coverage as defined in subdivision (d) of Section 660, coverage which provides that the deductible amount, if any, to be paid by the named insured under the collision coverage shall be payable by the insurer in the event of collision involving a vehicle owned by the named insured and insured under the policy, and an uninsured motor vehicle.

(2) Where the policy of motor vehicle liability insurance does not include collision coverage as defined in subdivision (d) of Section 660, coverage for property damage to the insured motor vehicle, but not including personal property contained therein, caused by the

owner or operator of an uninsured motor vehicle. As used in this subdivision, "property damage" means payment for loss or damage to the insured motor vehicle resulting from collision, not to exceed its actual cash value or three thousand five hundred dollars ($3,500), whichever is less, for which loss or damage the insured is legally entitled to recover from the owner or operator of an uninsured motor vehicle. Property damage does not include compensation for loss of use of the motor vehicle. As used in this subdivision, the term "insured motor vehicle" means the motor vehicle described in the underlying insurance policy of which the uninsured motorist property damage coverage or endorsement applies.

(b) Every payment by an insurer under either coverage provided in paragraphs (1) and (2) of subdivision (a) shall be payable under the terms and conditions set forth in the policy, and shall be made only where the collision involves actual, direct physical contact between the insured and the uninsured motor vehicle and the owner or operator of the uninsured motor vehicle is identified or the uninsured motor vehicle is identified by its license number, provided that the insured or someone on his or her behalf shall have reported the accident within 10 business days to his or her insurer or their agent and, provided further, that it is also determined by the insured and insurer or, in the event of disagreement, by arbitration conducted by a single neutral arbitrator, when the insured has formally instituted arbitration proceedings within one year from the date of the accident, that the insured is legally entitled to recover the amount of the payments for property damage from the owner or operator of the uninsured motor vehicle. No cause of action shall exist against either an insured or insurer from exercising the right to request arbitration of a claim under this section or Section 11580.2.

(c) Any named insured, prior to or subsequent to the issuance or renewal of a policy, may elect not to accept the type of coverage provided by this section or the insurer and any named insured may agree in writing to waive this coverage when a motor vehicle is used or operated by a person or persons designated by name. That election shall be binding upon every insured to whom the policy or endorsement provisions apply while the policy is in force and shall continue to be so binding, with respect to any continuation or renewal of the policy, or with respect to any other policy which extends, changes, supersedes, or replaces the policy issued to the named insured by the same insurer or with respect to reinstatement of the policy within 30 days of any lapse thereof. A policy shall be excluded from the application of this section if the only coverage, with respect to the use of any motor vehicle, is limited to the contingent liability arising out of the use of nonowned motor vehicles or if the automobile liability coverage is provided only on an excess or umbrella basis.

(d) An insurer paying a claim under any coverage required by this section shall be entitled to be subrogated to the rights of the insured to whom the claim was paid against any person legally liable for the

damage to the insured motor vehicle to the extent that payment was made. The action may be brought within three years from the date that payment was made pursuant to this section.

In the event of a covered loss to a vehicle that is insured for the coverage described in paragraph (2) of subdivision (a) and also insured for collision coverage, the collision coverage shall pay for the covered loss and the insurance described in paragraph (2) of subdivision (a) shall only pay any deductible not covered by the collision coverage not to exceed three thousand five hundred dollars ($3,500).

(e) As used in this section, "uninsured motor vehicle" means any motor vehicle with respect to the ownership, maintenance, or use of which there is no property damage liability insurance or bond applicable at the time of the accident, or there is applicable insurance or bond but the company writing the insurance or bond denies coverage thereunder or refuses to admit coverage thereunder, except conditionally or with reservation, or a motor vehicle used without the permission of the owner thereof if there is no property damage liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof. A motor vehicle which has at least the minimum property damage liability limits required pursuant to Section 16056 of the Vehicle Code shall not be held to be an uninsured motor vehicle even when the property damage liability limits are not sufficient to compensate for all property damage caused by the owner or operator of the vehicle. As used in this section, "uninsured motor vehicle" shall not include a motor vehicle owned or operated by any insured or any resident of the named insured's household or self-insured within the meaning of the financial responsibility provisions of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any government, or an agency of any of the foregoing, or a land motor vehicle or trailer operated on rails or crawler treads or while located for use as a residence for premises and not as a vehicle, or a farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads. As used in this section, "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle coverage is in effect where the liability insurer of the tortfeasor becomes insolvent within one year of the accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of the coverage, the insurer making the payment shall, to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of the person against the

insolvent insurer.

(f) The offer of coverage required by this section shall be made only for policies issued or renewed on or after July 1, 1984.

(g) Any insurer whose insured has made a claim under either coverage provided in paragraphs (1) and (2) of subdivision (a), and that claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to the property damage. Failure of the insurer to provide the written notice shall operate to toll any applicable statute of limitation until 30 days after the date the written notice is actually given. The notice shall not be required if the insurer has received notice that the insured is represented by an attorney.

SEC. 4. Section 17203 of the Vehicle Code is repealed.

SEC. 5. Section 1 of this act shall become operative on April 1, 1989.

## CHAPTER 1472

An act to add Sections 6517.6 and 14015 to the Government Code, relating to state offices, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature hereby finds that it is in the best interest of the people of California to consolidate in one location all of the Department of Transportation offices which are now housed in various locations of the San Francisco Bay area at the earliest possible opportunity. The Legislature hereby finds and declares that it is in the best interest of the people of California to authorize the consolidation of offices in the San Francisco Bay area in that this consolidation affords the greatest economic benefit to the department and the state.

SEC. 2. Section 6517.6 is added to the Government Code, to read:

6517.6. (a) (1) Notwithstanding any provision of this chapter, the Department of General Services may enter into a joint powers agreement with any other public agency to finance the acquisition of real property authorized by Section 14015 and all costs incidental or related thereto. The joint powers agency or entity shall have the power to acquire office and parking facilities and to issue certificates of participation as determined by the Treasurer in accordance with Section 14015.

(2) Upon the request of the department, the Treasurer is hereby further authorized to serve as treasurer of the joint powers agency established pursuant to this section and to serve as trustee or fiscal

agent for the certificates of participation.

(3) The department may lease property from, and enter into an agreement with, the joint powers agency or entity created pursuant to subdivision (a) to purchase real property and improvements thereon on behalf of the state for terms not exceeding 25 years.

(4) The department shall provide the Legislature with a 30-day notification of intent to advertise for proposals pursuant to this section. The department shall further provide the Legislature and the California Transportation Commission with notification of intent to acquire the real property 30 days prior to the acquisition.

(b) Following the acquisition and occupation of the real property being acquired, the Department of Transportation shall sell or cause to be sold the exisiting office building located at 150 Oak Street in the City and County of San Francisco. The proceeds of the sale shall be deposited in the State Highway Account in the State Transportation Fund to be used to reduce the amount to finance the acquired facility.

SEC. 3. Section 14015 is added to the Government Code, to read:

14015. (a) The Director of General Services, as agent for the Department of Transportation, may enter into an agreement to purchase, lease-purchase, or lease with an option to purchase real property in the San Francisco Bay area for the purpose of financing, refinancing, and acquiring office and parking facilities, and any other improvements, betterments, and facilities related thereto in order to allow full occupancy by August 30, 1991. The total purchase price, excluding financing costs, shall not exceed one hundred million dollars ($100,000,000) plus all costs of financing, including, but not limited to, interest during acquisition or construction of these facilities, interest payable on any interim loan from the Pooled Money Investment Account pursuant to Section 16301 or 16313, a reasonably required reserve fund, and the costs of issuance of interim financing or permanent financing after completion of the construction or acquisition of these facilities. In selecting a site or sites for office space and parking facilities, the department shall give consideration to sites located in the East Bay region, including the City of Oakland. Criteria used in the evaluation of prospective sites shall include an economic evaluation of locating in a new or existing state office building in the East Bay region.

(b) The total cost of financing the net cost of acquiring the building and facilities described in subdivision (a), including the costs of modifications and operation, shall not exceed the total avoided costs of leasing and occupying those buildings and facilities currently occupied by the Department of Transportation which will no longer be occupied once the building and facilities described in subdivision (a) are occupied. "Net cost" means the cost of acquiring the building and facilities described in subdivision (a), including financing costs, less the amount realized from the disposition of the existing office building. "Avoided costs" mean those costs the Department of Transportation would have incurred if it continued

to occupy the buildings and facilities which would no longer be occupied as a result of the acquistion of the building and facilities described in subdivision (a). In order to ensure that the requirements of this subdivision are met, the Department of Transportation shall provide the Joint Legislative Budget Committee with a report concerning the cost-effectiveness required by this section at least 30 days prior to entering into any purchase agreement.

An act to add Section 10127.8 to the Insurance Code, relating to insurance.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 10127.8 is added to the Insurance Code, to read:

10127.8. (a) The purpose of this section is to assure truthful and adequate disclosure of all material and relevant information in the advertising of term life insurance which the commissioner, on the basis of an assessment of the total advertisement, determines is directed to individuals 55 years of age or older.

(b) Advertisements for term life insurance directed to individuals 55 years of age or older shall:

(1) Clearly and prominently distinguish basic life insurance benefits from suppplemental benefits such as accidental death benefits.

(2) Prominently disclose any limitations, exceptions, or reductions affecting each benefit.

(3) Prominently disclose any condition affecting the policy or certificate holder's continued insurability. If term coverage terminates at a stated age, or at the end of any designated period, that fact and the specified age or designated period shall be disclosed.

(4) Prominently disclose any change in benefits resulting from the aging of the insured, policy duration, or any other factor.

(5) Prominently disclose any change in premium resulting from the aging of the insured, policy duration, or any other factor. If the insurer retains any right to modify premiums in the future, that fact shall be disclosed.

(c) If the benefits of the advertised policy or certificate decrease with the insured's age or with policy or certificate duration, while the premium remains approximately constant, that fact shall, in a print or broadcast advertisement, be disclosed, in the same form and with prominence or visible duration, or both, equal to that given any positive description of benefits or the telephone number or address provided for further information or application, whichever is the most prominent.

(d) A television or radio advertisement for term life insurance

directed to individuals 55 years of age or older shall in the spoken text contain the statement "policy (or certificate) benefits and limitations should be carefully examined prior to purchase."

(e) The commissioner may, by regulation, adopt a term life insurance monetary value index, similar to the Life Insurance Surrender Cost Index of Article 12.5 (commencing with Section 2545) of Subchapter 2 of Chapter 5 of Title 10 of the California Code of Regulations, to be disclosed in all advertisements of term life insurance for individuals 55 years of age or older, and on all policies and certificates of that insurance. In developing a term life insurance monetary value index, the commissioner shall consider actual premiums and policy and certificate benefits and the manner in which they are affected with the passage of time. Any term life insurance monetary value index developed pursuant to this section shall assume an insured's desire to retain coverage for at least 10 years.

(f) This section does not supersede or repeal any regulation of the commissioner which governs life insurance advertising and such regulation shall continue to be in force in addition to this section.

(g) The commissioner shall adopt regulations that are necessary to carry out this section.

(h) This section applies to the advertisement of individual policies of insurance and any group policies or certificates delivered or issued for delivery in this state, regardless of the situs of the contract.

(i) In addition to any other penalty provided by law or the availability of any administrative procedure, if an insurer, after notice and hearing, is found to have violated this section, or regulations adopted pursuant to this section, or knowingly permits any person to do so, the commissioner, in accordance with the procedures provided in Section 704, may suspend the insurer's certificate of authority to transact life insurance. Section 704.7 shall apply in any proceeding conducted pursuant to this section.

## CHAPTER 1474

An act to amend Section 39363 of the Education Code, relating to school districts.

[Approved by Governor September 27, 1988 Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 39363 of the Education Code is amended to read:

39363. The funds derived from the sale of surplus property shall be used for capital outlay or for costs of maintenance of school district property that the governing board of the school district determines

will not recur within a five-year period. Proceeds from a lease of school district property with an option to purchase may be deposited into a restricted fund for the routine repair of district facilities, as defined by the State Allocation Board, for up to a five-year period. In addition, the proceeds may be deposited in the general fund of the district for any general fund purpose if the school district governing board and the State Allocation Board have determined that the district has no anticipated need for additional sites or building construction for the five-year period following such sale or lease, and the district has no major deferred maintenance requirements. A school district that sold or leased real property pursuant to Section 39360 and that deposited the interest earned on those proceeds in the general fund of the school district in the 1986–87 or the 1987–88 fiscal years, may continue to deposit the interest into the general fund for operating expenses through June 30, 1991. In the 1991–92 fiscal year, and each fiscal year thereafter for 5 fiscal years, the school district shall reduce the deposit of interest by twenty percent (20%) and shall use the reduction in interest for capital outlay or for costs of deferred maintenance of school district property. The State Allocation Board may grant a school district permission to change the 5-year and twenty percent (20%) requirement to 10 years and 10 percent (10%), if the State Allocation Board determines that the individual circumstances of the district warrants the change.

The proceeds may also be deposited into a special reserve fund for capital outlay, for costs of maintenance of school district property that the governing board determines will not recur within a five-year period, or for the future maintenance and renovation of schoolsites if the district governing board and the State Allocation Board have determined that the district has no anticipated need for schoolsites or building construction or major deferred maintenance projects for a five-year period following the sale or lease. Proceeds deposited in the special reserve fund shall not be available for general operating expenses as provided in Section 42842.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 66758 is added to the Government Code, to read:

66758. (a) Notwithstanding any other provision of law, a regional board shall not issue a waste discharge permit for a new landfill, or a lateral expansion of an existing landfill, which is used for the disposal of nonhazardous solid waste if the land has been primarily used at any time for the mining or excavation of gravel or sand.

(b) A regional board, in a public meeting, may grant a variance from subdivision (a) if the applicant demonstrates and the regional board determines that the discharges to a new facility or expansion of an existing facility during its operation and postclosure period will not pollute or threaten to pollute the waters of the state. In deciding whether to grant a variance, the regional board shall consider, among other factors, site characteristics, including permeability and transmissivity of the underlying soils and depth to groundwater. For the purpose of this section, "groundwater" means the uppermost aquifer useable for beneficial purposes.

(c) Nothing in this section precludes any local jurisdiction from exercising any power which it has pursuant to any other provision of law.

(d) For the purposes of this section, "lateral expansion" means a new or expanded waste management unit which is not authorized on January 1, 1989, under existing waste discharge requirements issued pursuant to Division 7 (commencing with Section 13000) of the Water Code and an existing solid waste facility permit issued pursuant to Title 7.3 (commencing with Section 66700) of the

## CHAPTER 1477

An act to amend Sections 8261 and 8266 of the Government Code, relating to the Commission on Uniform State Laws.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 8261 of the Government Code is amended to read:

8261. The commission consists of one Member of the Senate, appointed by the Committee on Rules, one Member of the Assembly, appointed by the Speaker, six additional members, appointed by the Governor, the Legislative Counsel, any person, not otherwise a member of the commission, elected as a life member of the National Conference of Commissioners on Uniform State Laws based upon service as a member of the commission, and any person, not otherwise a member of the commission, who served as a member of the commission, other than as an appointee of the Governor, for a period of at least eight years.

The Members of the Legislature appointed to the commission shall serve at the pleasure of the appointing power and shall participate in the activities of the commission to the extent that the participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this article, the Members of the Legislature shall constitute a joint interim investigating committee on the subject of this article and shall have the powers and duties imposed upon those committees by the Joint Rules of the Senate and Assembly.

SEC. 2. Section 8266 of the Government Code is amended to read:

8266. No member of the commission shall receive any compensation for his or her services as a commissioner, but shall receive one hundred dollars ($100) for each day while on official business of the commission. In addition, each member shall also be entitled to receive actual expenses incurred in the discharge of his or her duties, including actual and necessary travel expenses.

## CHAPTER 1478

An act to amend Sections 443.21, 1250, 1250.1, 1265.7, 1266, 1267.9, 1270, 1326, and 1418 of, and to add Sections 1267.12, 1267.13, 1267.15, 1267.16, 1267.17, and 1267.19 to, the Health and Safety Code, relating to health facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares that "congregate living health facilities" are needed to allow persons to receive appropriate inpatient care in the least restrictive environment. Being able to remain in a small facility in a residential neighborhood is not only progressive and humane, but cost-effective as well.

The Legislature further finds and declares, however, that certain provisions of law regarding congregate living facilities prevent a number of these facilities from becoming licensed. If a facility is not licensed, the residents do not have the same protection and may not be eligible for reimbursement for certain essential services provided them.

It is the intent of the Legislature to allow more facilities to qualify as "congregate living health facilities" in order that more people may have access to this type of care. It is further the intent of the Legislature that any modifications in the definition not substantially alter the category as the original sponsors envisioned.

Increasing the number of beds allowed from not more than six to not more than 15 will permit more facilities to qualify as "congregate living health facilities" without altering the quality of care or the character of the environment intended in the original statutes.

SEC. 2. Section 443.21 of the Health and Safety Code is amended to read:

443.21. As used in this part, the following terms mean:

(a) "Commission" means the California Health Policy and Data Advisory Commission.

(b) "Health facility" or "health facilities" means all health facilities required to be licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2.

(c) "Hospital" means all health facilities except skilled nursing, intermediate care, and congregate living health facilities.

(d) "Office" means the Office of Statewide Health Planning and Development.

SEC. 2.5. Section 443.21 of the Health and Safety Code, as amended by Section 2 of this act, is amended to read:

443.21. As used in this part, the following terms mean:

(a) "Commission" means the California Health Policy and Data

Advisory Commission.

(b) "Health facility" or "health facilities" means all health facilities required to be licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2.

(c) "Hospital" means all health facilities except skilled nursing, intermediate care, AIDS hospice, AIDS residential intermediate care, and congregate living health facilities.

(d) "Office" means the Office of Statewide Health Planning and Development.

SEC. 3. Section 1250 of the Health and Safety Code is amended to read:

1250. As used in this chapter, "health facility" means any facility, place, or building which is organized, maintained, and operated for the diagnosis, care, prevention, and treatment of human illness, physical or mental, including convalescence and rehabilitation and including care during and after pregnancy, or for any one or more of these purposes, for one or more persons, to which the persons are admitted for a 24-hour stay or longer, and includes the following types:

In addition, a general acute care hospital which, on July 1, 1983, provided required surgical and anesthesia services through a contract or agreement with another acute care hospital may continue to provide these surgical and anesthesia services through a contract or agreement with an acute care hospital.

(b) "Acute psychiatric hospital" means a health facility having a duly constituted governing body with overall administrative and professional responsibility and an organized medical staff which provides 24-hour inpatient care for mentally disordered, incompetent, or other patients referred to in Division 5 (commencing with Section 5000) or Division 6 (commencing with Section 6000) of the Welfare and Institutions Code, including the following basic services: medical, nursing, rehabilitative, pharmacy, and dietary services.

The primary need of these residents is for availability of skilled nursing care on a recurring, intermittent, extended, or continuous basis. This care is generally less intense than that provided in general acute care hospitals but more intense than that provided in skilled nursing facilities. A congregate living health facility serving persons who are terminally ill, which is located in a county with a population of 500,000 or more persons may have a capacity of up to 25 beds.

(2) A facility operated by a city and county which is owned by the government of the United States for the purposes of delivering services under this section may have a capacity of 59 beds.

(3) Congregate living health facilities shall provide one of the following supplemental services:

(A) Services for persons who are mentally alert, physically disabled, who may be ventilator dependent.

The health services provided by a correctional treatment center shall include, but are not limited to, all of the following basic services: physician and surgeon, psychiatrist, psychologist, nursing, pharmacy, dental, and dietary. A correctional treatment center may provide the following services: laboratory, radiology, perinatal, and any other services approved by the state department.

(3) Correctional treatment centers shall maintain written service agreements with general acute care hospitals to provide for those inmate physical health needs that cannot be met by the correctional treatment center.

Each health care facility in the Department of Corrections and in the Department of the Youth Authority shall have a medical director in charge of the health care services of that facility who shall be a physician and surgeon licensed to practice in California and who shall be appointed by the directors of the departments. The medical director shall direct the medical treatment programs for all health services and services supporting the health services provided in the facility.

No person shall be admitted or accepted for care or discharge by a correctional treatment facility except upon the order of a physician and surgeon. All persons admitted or accepted for care by the correctional treatment facility shall be under the care of a physician and surgeon.

(4) Physician and surgeon services shall be readily available in a

correctional treatment center on a 24-hour basis.

(5) It is not the intent of the Legislature to have a correctional treatment center supplant the facilities at the California Medical Facility, the California Men's Colony, and the California Institution for Men which were in the process of licensure in 1987.

1266. (a) Each new and renewal application for a license for the health facilities listed below shall be accompanied by an annual fee as set forth below.

The annual fee for a general acute care hospital, acute psychiatric hospital, special hospital, psychiatric health facility, and chemical dependency recovery hospital, based on the number of licensed beds, is as follows:

| | |
|---|---|
| 1–49 beds | $460 plus $8 per bed |
| 50–99 beds | $850 plus $8 per bed |
| 100 or more beds | $1,175 plus $8 per bed |

The annual fee for a skilled nursing facility, intermediate care facility, and intermediate care facility/developmentally disabled, based on the number of licensed beds, is as follows:

| | |
|---|---|
| 1–59 beds | $2,068 plus $26 per bed |
| 60–99 beds | $2,543 plus $26 per bed |

The fees provided in this subdivision shall be adjusted, commencing July 1, 1983, as proposed in the state department's 1983–84 fiscal year Health Facility License Fee Report to the Legislature. Commencing July 1, 1984, fees provided in this subdivision shall be adjusted annually, as directed by the Legislature in the annual Budget Act.

(b) The state department shall submit to the Legislature, on or before January 17 of each year, a report describing program costs within the Licensing and Certification Division, and a methodology for calculating fee levels in an amount sufficient to provide revenues equal to (1) the General Fund expenditures for the fiscal year ending on June 30 of that year, as specified in the proposed Governor's Annual Budget, less license fees which shall be collected in that fiscal year by the Licensing and Certification Program pursuant to sections other than this section, plus (2) the amount of federal funds budgeted for the fiscal year ending June 30 of that year for the Licensing and Certification Program, less federal funds received or credited, or anticipated to be received or credited, during that fiscal year for that purpose. shall include an adjustment which takes into consideration the actual amount of license fee revenue collected in the prior fiscal year pursuant to this section, as compared to the amount of license fee revenue estimated to be collected pursuant to this section for that prior fiscal year.

The report shall specifically identify federal funds received, but not previously budgeted, for the Licensing and Certification Program which are used to offset the amount of General Fund dollars to be recovered through license fees. The report shall also identify the purpose of federal funds received for any additional activities under the Licensing and Certification Program which are not used to offset the amount of General Fund dollars.

(c) The annual fees determined pursuant to this section shall be waived for any health facility conducted, maintained, or operated by this state or any state department, authority, bureau, commission, or officer, or by the Regents of the University of California, or by a local hospital district, city, county, or city and county.

(d) The department shall, by July 30 of each year, publish a list of actual numerical fee charges as adjusted pursuant to this section. This adjustment of fees and the publication of the fee list shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(e) Prior to the establishment of the annual fee, the state department shall prepare a staffing and systems analysis to ensure efficient and effective utilization of fees collected, proper allocation of departmental resources to licensing and certification activities, survey schedules, complaint investigations, enforcement and appeal activities, data collection and dissemination, surveyor training, and policy development.

The analysis under this subdivision shall include all of the following:

(1) The number of surveyors and administrative support personnel devoted to the licensing and certification of health care facilities.

(2) The percentage of time devoted to licensing and certification activities for the various types of health facilities.

(6) Training courses provided for surveyors.

(7) Other applicable activities of the licensing and certification division.

The analysis shall also include recommendations for administrative changes to streamline and prioritize the survey process, complaint investigations, management information systems, word processing capabilities and effectiveness, consumer information system, and

surveyor training.

The annual staffing and systems analysis shall be presented to the Health Care Advisory Committee and the Legislature prior to the establishment and adoption of the annual fee.

(f) The annual fee for a congregate living health facility serving persons who are terminally ill shall initially, and until adjusted by the Legislature in a Budget Act, be based on the number of licensed beds as follows:

| | |
|---|---|
| 1–3 beds | $ 800 |
| 4–6 beds | $1,000 |
| 7–10 beds | $1,200 |
| 11–15 beds | $1,500 |
| 15 or more beds | $1,700 |

Commencing July 1, 1991, fees provided in this subdivision shall be adjusted annually, as directed by the Legislature in the annual budget.

SEC. 7. Section 1267.9 of the Health and Safety Code is amended to read:

1267.9. (a) The Legislature hereby declares it to be the policy of the state to prevent overconcentrations of intermediate care facilities/developmentally disabled habilitative, intermediate care facilities/developmentally disabled—nursing, or congregate living health facilities which impair the integrity of residential neighborhoods. Therefore, the director shall deny an application for a new intermediate care facility/developmentally disabled habilitative license, a new intermediate care facility/developmentally disabled—nursing license, or a congregate living health facility if the director determines that the location is in such proximity to an existing intermediate care facility/developmentally disabled habilitative, an intermediate care facility/developmentally disabled—nursing or a congregate living health facility as would result in overconcentration.

(b) As used in this section, "overconcentration" means that if a new license is issued, either of the following will occur:

(1) There will be intermediate care facilities/developmentally disabled habilitative, intermediate care facilities/developmentally disabled—nursing, or residential care facilities, as defined in Section 1502, which are separated by a distance of less than 300 feet, as measured from any point upon the outside walls of the structures housing the facilities.

(2) There will be congregate living health facilities serving persons who are terminally ill, as defined in Section 1250, which are separated by a distance of less than 1,000 feet, as measured from any point upon the outside walls of the structures housing the facilities. Based on special local needs and conditions, the director may approve a separation distance of less than 300 feet or 1,000 feet, whichever is applicable, with the approval of the city or county in

which the proposed facility will be located.

(c) At least 45 days prior to approving any application for a new intermediate care facility/developmentally disabled habilitative, a new intermediate care facility/developmentally disabled—nursing, or a congregate living health facility the director shall notify, in writing, the city or county planning authority in which the facility will be located, of the proposed location of the facility.

(d) Any city or county may request denial of the license applied for on the basis of overconcentration of intermediate care facilities/developmentally disabled habilitative, intermediate care facilities/developmentally disabled—nursing, or a congregate living health facility.

(e) Nothing in this section authorizes the director, on the basis of overconcentration, to refuse to renew an intermediate care facility/developmentally disabled habilitative license, an intermediate care facility/developmentally disabled—nursing license, or a congregate living health facility or to refuse to grant a license upon a change of ownership of an existing intermediate care facility/developmentally disabled habilitative, intermediate care facility/developmentally disabled—nursing, or a congregate living health facility where there is no change in the location of the facility.

(f) Foster family homes and residential care facilities for the elderly shall not be considered in determining overconcentration of intermediate care facilities/developmentally disabled-habilitative, intermediate care facilities/developmentally disabled-nursing, residential care facilities, as defined in Section 1502, or a congregate living health facility.

SEC. 8. Section 1267.12 is added to the Health and Safety Code, to read:

1267.12. No person shall be admitted, or accepted for care, or discharged, by a congregate living health facility except upon the order of a physician and surgeon. Admission criteria shall be subject to review and approval by the state department. All persons admitted or accepted for care by the congregate living health facility shall remain under the care of a physician and surgeon who shall see the resident at least every 30 calendar days or more frequently if required by the resident's medical condition.

Notwithstanding, the state department has authority to make reasonable accommodation for exceptions to the standards in this section, providing the health, safety, and quality of patient care is not compromised. No exceptions shall be made for building standards. Prior written approval communicating the terms and conditions under which the exception is granted shall be required. Applicants shall request the exception in writing accompanied by detailed, supporting documentation.

In the event that the unitary property is located in an even number of counties, the assessment hearing officers shall designate one additional assessment hearing officer who shall be included in the panel. If the assessment hearing officers fail to designate the additional hearing officer within 60 days after the application is filed, the Office of Administrative Hearings shall designate the additional assessment hearing officer.

concerned. Any determination by a majority of the hearing officers shall constitute a determination by the panel.

(b) If the panel determines that the property concerned is not unitary, the application shall be referred back to each of the counties concerned to be treated as an application for reduction of assessment filed in each county.

1644. The report and recommendation of the panel of hearing officers shall be transmitted to the county clerk of each of the counties concerned. Each county clerk shall transmit a copy of the report and recommendation to the protesting party, the assessor, and to the board of equalization or the assessment appeals board of the county concerned within 14 days of the receipt thereof.

If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

# CHAPTER 1483

An act to add Section 8212.3 to the Education Code, relating to children, and making an appropriation therefor.

[Approved by Governor September 28, 1988. File with Secretary of State September 28, 1988.]

I am deleting the $250,000 appropriation contained in Section 3 of Assembly Bill No. 2412.

This bill authorizes specified short-term respite child care consistent with current practice. The bill also appropriates $250,000 from the General Fund to fund expanded short-term child care.

The demands placed on budget resources require all of us to set priorities. The budget enacted in July 1988 appropriated nearly $44 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

Thus, after reviewing this legislation, I have concluded that its merits do not sufficiently outweigh the need this year for funding top priority programs and continuing a prudent reserve for economic uncertainties.

It is more appropriate to consider funding the provisions of this bill during the budget process for Fiscal Year 1989–90. Only at that time can we review the relative merits of this program in comparison to all other funding projects. The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit.

With this deletion, I approve Assembly Bill No. 2412.

GEORGE DEUKMEJIAN, Governor

*The people of the State of California do enact as follows:*

SECTION 1. Section 8212.3 is added to the Education Code, to read:

8212.3. (a) In addition to the services described in Section 8212, a child care resource and referral program, established to serve a defined geographic area, may provide short-term respite child care. "Short-term respite care," for purposes of this article, means temporary child care services to do any of the following:

(1) Provide services to families identified and referred by child protective agencies.

[Approved by Governor September 27, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 667.5 of the Penal Code, as amended by Section 1.5 of Chapter 89 of the Statutes of 1988, is amended to read:

667.5. Enhancement of prison terms for new offenses because of prior prison terms shall be imposed as follows:

(a) Where one of the new offenses is one of the violent felonies specified in subdivision (c), in addition and consecutive to any other prison terms therefor, the court shall impose a three-year term for each prior separate prison term served by the defendant where the prior was one of the violent felonies specified in subdivision (c); provided that no additional term shall be imposed under this subdivision for any prison term served prior to a period of 10 years in which the defendant remained free of both prison custody and the commission of an offense which results in a felony conviction.

(b) Except where subdivision (a) applies, where the new offense is any felony for which a prison sentence is imposed, in addition and consecutive to any other prison terms therefor, the court shall impose a one-year term for each prior separate prison term served for any felony; provided that no additional term shall be imposed under this subdivision for any prison term served prior to a period of five years in which the defendant remained free of both prison custody and the commission of an offense which results in a felony conviction.

(c) For the purpose of this section, "violent felony" shall mean

any of the following:

(1) Murder or voluntary manslaughter.

(2) Mayhem.

(3) Rape as defined in subdivision (2) of Section 261.

(4) Sodomy by force, violence, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person.

(5) Oral copulation by force, violence, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person.

(6) Lewd acts on a child under 14 as defined in Section 288.

(7) Any felony punishable by death or imprisonment in the state prison for life.

(8) Any felony in which the defendant inflicts great bodily injury on any person other than an accomplice which has been charged and proved as provided for in Section 12022.7 or 12022.9 on or after July 1, 1977, or as specified prior to July 1, 1977, in Sections 213, 264, and 461, or any felony in which the defendant uses a firearm which use has been charged and proved as provided in Section 12022.5 or 12022.55.

(9) Any robbery perpetrated in an inhabited dwelling house or trailer coach, as defined in the Vehicle Code, or in the inhabited portion of any other building, wherein it is charged and proved that the defendant personally used a deadly or dangerous weapon, as provided in subdivision (b) of Section 12022, in the commission of that robbery.

(10) Arson, in violation of subdivision (a) of Section 451.

(11) The offense defined in subdivision (a) of Section 289 where the act is accomplished against the victim's will by force, violence, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person.

The Legislature finds and declares that these specified crimes merit special consideration when imposing a sentence to display society's condemnation for such extraordinary crimes of violence against the person.

(d) For the purposes of this section the defendant shall be deemed to remain in prison custody for an offense until the official discharge from custody or until release on parole whichever first occurs including any time during which the defendant remains subject to reimprisonment for escape from custody or is reimprisoned on revocation of parole. The additional penalties provided for prior prison terms shall not be imposed unless they are charged and admitted or found true in the action for the new offense.

(e) The additional penalties provided for prior prison terms shall not be imposed for any felony for which the defendant did not serve a prior separate term in state prison.

(f) A prior conviction of a felony shall include a conviction in another jurisdiction for an offense which if committed in California is punishable by imprisonment in state prison if the defendant served

one year or more in prison for the offense in the other jurisdiction. A prior conviction of a particular felony shall include a conviction in another jurisdiction for an offense which includes all of the elements of the particular felony as defined under California law if the defendant served one year or more in prison for the offense in the other jurisdiction.

(g) A prior separate prison term for the purposes of this section shall mean a continuous completed period of prison incarceration imposed for the particular offense alone or in combination with concurrent or consecutive sentences for other crimes, including any reimprisonment on revocation of parole which is not accompanied by a new commitment to prison, and including any reimprisonment after an escape from incarceration.

(h) Serving a prison term includes any confinement time in any state prison or federal penal institution as punishment for commission of an offense, including confinement in a hospital or other institution or facility credited as service of prison time in the jurisdiction of the confinement.

(i) For the purposes of this section, a commitment to the State Department of Health as a mentally disordered sex offender following a conviction of a felony, which commitment exceeds one year in duration, shall be deemed a prior prison term.

(j) For the purposes of this section, when a person subject to the custody, control, and discipline of the Director of Corrections is incarcerated at a facility operated by the Youth Authority, that incarceration shall be deemed to be a term served in state prison.

(k) Notwithstanding subdivisions (d) and (g) or any other provision of law, where one of the new offenses is committed while the defendant is temporarily removed from prison pursuant to Section 2690 or while the defendant is transferred to a community facility pursuant to Section 3416, 6253, or 6263, or while the defendant is on furlough pursuant to Section 6254, the defendant shall be subject to the full enhancements provided for in this section.

This subdivision shall not apply when a full, separate, and consecutive term is imposed pursuant to any other provision of law.

SEC. 2. Section 669 of the Penal Code is amended to read:

669. When any person is convicted of two or more crimes, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same judge or by different judges, the second or other subsequent judgment upon which sentence is ordered to be executed shall direct whether the terms of imprisonment or any of them to which he is sentenced shall run concurrently or consecutively; life sentences, whether with or without the possibility of parole, may be imposed to run consecutively with one another or with any other term of imprisonment for a felony conviction. Whenever a person is committed to prison on a life sentence which is ordered to run consecutive to any determinate term of imprisonment imposed pursuant to Sections 1170, 1170.1, 667, 667.5, 12022, 12022.2, 12022.4,

12022.5, 12022.55, 12022.6, 12022.7, 12022.75, and 12022.9, the determinate term of imprisonment shall be served first and no part thereof shall be credited toward the person's eligibility for parole as calculated pursuant to Section 3046 or pursuant to any other section of law that establishes a minimum period of confinement under the life sentence before eligibility for parole.

In the event that the court at the time of pronouncing the second or other judgment upon such person had no knowledge of a prior existing judgment or judgments, or having knowledge, fails to determine how the terms of imprisonment shall run in relation to each other, then, upon such failure so to determine, or upon such prior judgment or judgments being brought to the attention of the court at any time prior to the expiration of 60 days from and after the actual commencement of imprisonment upon the second or other subsequent judgments, the court shall, in the absence of the defendant and within 60 days of such notice, determine how the term of imprisonment upon said second or other subsequent judgment shall run with reference to the prior incompleted term or terms of imprisonment. Upon the failure of the court so to determine how the terms of imprisonment on the second or subsequent judgment shall run, the term of imprisonment on the second or subsequent judgment shall run concurrently.

The Department of Corrections shall advise the court pronouncing the second or other subsequent judgment of the existence of all prior judgments against the defendant, the terms of imprisonment upon which have not been completely served.

SEC. 3. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667, 667.5, 667.6, or 12022.1, and pursuant to Section 11370.2 of the Health and Safety Code. The principal term shall consist of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.3, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, 12022.8, or 12022.9 and an enhancement imposed pursuant to Section 11370.4 or 11379.8 of the Health and Safety Code. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined

in subdivision (c) of Section 667.5 exceed five years. The subordinate term for each consecutive offense which is a "violent felony" as defined in subdivision (c) of Section 667.5, including those offenses described in paragraph (8) or (9) of subdivision (c) of Section 667.5, shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.7, 12022.75, or 12022.9.

(b) When a consecutive term of imprisonment is imposed under Sections 669 and 1170 for two or more convictions for kidnapping, as defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.7, 12022.75, or 12022.9. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while the person is confined in a state prison, or is subject to reimprisonment for escape from such custody and the law either requires the terms to be served consecutively or the court imposes consecutive terms, the term of imprisonment for all the convictions which the person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

(d) When the court imposes a prison sentence for a felony pursuant to Section 1170 the court shall also impose the additional terms provided in Sections 667, 667.5, 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, and 12022.9, and the additional terms provided in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, unless the additional punishment therefor is stricken pursuant to subdivision (h). The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the

Judicial Council.

(e) When two or more enhancements under Sections 12022, 12022.4, 12022.5, 12022.55, 12022.7, and 12022.9 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of penetration of a genital or anal opening by a foreign object, as defined in Section 289, oral copulation, sodomy, robbery, rape, or burglary, or attempted penetration of a genital or anal opening by a foreign object, oral copulation, sodomy, robbery, rape, murder, or burglary the court may impose both (1) one enhancement for weapons as provided in either Section 12022, 12022.4, or subdivision (a) of Section 12022.5 and (2) one enhancement for great bodily injury as provided in either Section 12022.7 or 12022.9.

(f) The enhancements provided in Sections 667, 667.5, 667.6, 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.3, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, 12022.8, and 12022.9, and in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, shall be pleaded and proven as provided by law.

(g) The term of imprisonment shall not exceed twice the number of years imposed by the trial court as the base term pursuant to subdivision (b) of Section 1170 unless the defendant stands convicted of a "violent felony" as defined in subdivision (c) of Section 667.5, or a consecutive sentence is being imposed pursuant to subdivision (b) or (c) of this section, or an enhancement is imposed pursuant to Section 667, 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, or 12022.9, or an enhancement is being imposed pursuant to Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, or the defendant stands convicted of felony escape from an institution in which he or she is lawfully confined.

(h) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in Sections 667.5, 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, and 12022.9, or the enhancements provided in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, if it determines that there are circumstances in mitigation of the additional punishment and states on the record its reasons for striking the additional punishment.

(i) For any violation of subdivision (2) or (3) of Section 261, Section 264.1, subdivision (b) of Section 288, subdivision (a) of Section 289, or sodomy or oral copulation by force, violence, duress, menace or fear of immediate and unlawful bodily injury on the victim or another person as provided in Section 286 or 288a, the number of enhancements which may be imposed shall not be limited, regardless of whether such enhancements are pursuant to this or some other section of law. Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

SEC. 4. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to

Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667, 667.5, or 667.6, and pursuant to Section 11370.2 of the Health and Safety Code. The principal term shall consist of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.3, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, 12022.8, or 12022.9 and an enhancement imposed pursuant to Section 11370.4 or 11379.8 of the Health and Safety Code. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined in subdivision (c) of Section 667.5 exceed five years. The subordinate term for each consecutive offense which is a "violent felony" as defined in subdivision (c) of Section 667.5, including those offenses described in paragraph (8) or (9) of subdivision (c) of Section 667.5, shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.7, 12022.75, or 12022.9.

(b) When a consecutive term of imprisonment is imposed under Sections 669 and 1170 for two or more convictions for kidnapping, as defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.7, 12022.75, or 12022.9. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while the person is confined in a state prison, or is subject to reimprisonment for escape from such custody and the law either requires the terms to be served consecutively or the court imposes

consecutive terms, the term of imprisonment for all the convictions which the person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

(d) When the court imposes a prison sentence for a felony pursuant to Section 1170 the court shall also impose the additional terms provided in Sections 667, 667.5, 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, and 12022.9, and the additional terms provided in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, unless the additional punishment therefor is stricken pursuant to subdivision (h). The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the Judicial Council.

(e) When two or more enhancements under Sections 12022, 12022.4, 12022.5, 12022.55, 12022.7, and 12022.9 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of penetration of a genital or anal opening by a foreign object, as defined in Section 289, oral copulation, sodomy, robbery, rape or burglary, or attempted penetration of a genital or anal opening by a foreign object, oral copulation, sodomy, robbery, rape, murder, or burglary the court may impose both (1) one enhancement for weapons as provided in either Section 12022, 12022.4, or subdivision (a) of Section 12022.5 and (2) one enhancement for great bodily injury as provided in either Section 12022.7 or 12022.9.

(f) The enhancements provided in Sections 667, 667.5, 667.6, 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.3, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, 12022.8, and 12022.9, and in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, shall be pleaded and proven as provided by law.

(g) The term of imprisonment shall not exceed twice the number of years imposed by the trial court as the base term pursuant to subdivision (b) of Section 1170 unless the defendant stands convicted of a "violent felony" as defined in subdivision (c) of Section 667.5, or a consecutive sentence is being imposed pursuant to subdivision (b) or (c) of this section, or an enhancement is imposed pursuant to Section 667, 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, or 12022.9, or an enhancement is being imposed pursuant to Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, or the defendant stands convicted of felony

escape from an institution in which he or she is lawfully confined.

(h) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in Sections 667.5, 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, and 12022.9, or the enhancements provided in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, if it determines that there are circumstances in mitigation of the additional punishment and states on the record its reasons for striking the additional punishment.

(i) For any violation of subdivision (2) or (3) of Section 261, Section 264.1, subdivision (b) of Section 288, subdivision (a) of Section 289, or sodomy or oral copulation by force, violence, duress, menace, or fear of immediate and unlawful bodily injury on the victim or another person as provided in Section 286 or 288a, the number of enhancements which may be imposed shall not be limited, regardless of whether such enhancements are pursuant to this or some other section of law. Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

SEC. 5. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667, 667.5, 667.6, or 12022.1, and pursuant to Section 11370.2 of the Health and Safety Code. The principal term shall consist of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.3, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, 12022.8, or 12022.9 and an enhancement imposed pursuant to Section 11370.4 or 11379.8 of the Health and Safety Code. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined in subdivision (c) of Section 667.5 exceed five years. The subordinate term for each consecutive offense which is a "violent felony" as defined in subdivision (c) of Section 667.5, including those offenses described in paragraph (8) or (9) of subdivision (c) of Section 667.5, shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall include

one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.7, 12022.75, or 12022.9.

(b) When a consecutive term of imprisonment is imposed under Sections 669 and 1170 for two or more convictions for kidnapping, as defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.7, 12022.75, or 12022.9. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while the person is confined in a state prison, or is subject to reimprisonment for escape from such custody and the law either requires the terms to be served consecutively or the court imposes consecutive terms, the term of imprisonment for all the convictions which the person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the Judicial Council.

(e) When two or more enhancements under Sections 12022, 12022.4, 12022.5, 12022.55, 12022.7, and 12022.9 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of lewd or lascivious acts upon or with a child under the age of 14 years accomplished by means of force or fear, as described in Section 288, kidnapping as defined in Section 207,

(i) For any violation of subdivision (2) or (3) of Section 261, Section 264.1, subdivision (b) of Section 288, subdivision (a) of Section 289, or sodomy or oral copulation by force, violence, duress, menace or fear of immediate and unlawful bodily injury on the victim or another person as provided in Section 286 or 288a, the number of enhancements which may be imposed shall not be limited, regardless of whether such enhancements are pursuant to this or some other section of law. Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

# CHAPTER 1485

An act making an appropriation for the payment of claims against the State of California for state-mandated local costs, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1988. File with Secretary of State September 28, 1988.]

I am reducing the appropriation contained in Section 1 of Assembly Bill No. 2763 by $134,855,448 from $160,906,448 to $26,051,000, to provide funding for the 1988–89 fiscal year costs only. I am reducing:

(a) For health fee elimination from $42,418,000 to $1,400,000;
(b) For missing persons reports from $31,103,000 to $10,089,000;
(d) For the mandate reimbursement process from $19,180,000 to $4,000,000;
(e) For certification of teachers' evaluator's demonstrated competence from $6,582,000 to $582,000;
(f) For domestic violence diversion from $6,470,000 to $962,000;
(g) For motorists assistance from $10,559,000 to $3,125,000,
(h) For domestic violence from $20,777,000 to $5,493,000; and
(i) For pretreatment facilities from $3,092,000 to $400,000.

I am deleting:

(c) For victim's statements-minors, $4,534,000;
(j) For deficiencies in prior year reimbursement of mandated costs, $12,498,054;
(k) For deficiencies in prior year reimbursement of mandated costs payable from the Restitution Fund, $307,544;
(*l*) For augmentation of Schedule 55 of Item 8885-101-001 of the Budget Act of 1987, $2,504,730, and
(m) For augmentation of Schedule 56 of Item 8885-101-001 of the Budget Act of 1987, $881,120.

Due to an unexpected General Fund revenue shortfall, it has been agreed to with local government organizations and education organizations to fund the mandate costs incurred prior to fiscal year 1988–89, in equal installments in each of the Governor's Budgets for the 1989–90, 1990–91, and 1991–92 fiscal years.

The mandates listed in Schedules (a) through (i) incur reimbursable costs in fiscal year 1988–89, and are funded to that extent in this bill to ensure that the current year budgets of the affected local entities remain fiscally sound.

With these reductions and deletions, I approve Assembly Bill No. 2763.

GEORGE DEUKMEJIAN, Governor

The top of the center flap shall not be lower than the adjacent tire or set of tires, and the bottom of the center flap shall extend to within five inches of the pavement surface.

(D) Fenders which completely cover the tops of tires not already covered by the truck, truck tractor, or trailer body.

(E) Complete enclosures on all vertical sides of the cargo area, including, but not limited to, tailgates.

(F) Shed boards designed to prevent aggregate materials from being deposited on the vehicle body during top loading.

(c) (1) On and after September 1, 1990, in addition to subdivisions (a) and (b), no vehicle shall transport any aggregate material upon a highway unless the material is covered.

(2) Vehicles transporting loads composed entirely of asphalt material are exempt only from the provisions of this section

requiring that loads be covered.

(3) Vehicles transporting loads composed entirely of petroleum coke material shall not be required to cover their loads if they are loaded using safety procedures, specialized equipment, and a chemical surfactant designed to prevent materials from blowing, spilling, or otherwise escaping from the vehicle.

(4) Vehicles transporting loads of aggregate materials shall not be required to cover their loads if the load, where it contacts the sides, front, and back of the cargo container area, remains six inches from the upper edge of the container area, and if the load does not extend, at its peak, above any part of the upper edge of the cargo container area.

(5) The requirements of this subdivision shall become operative on September 1, 1990.

(d) For purposes of this section, "aggregate material" means rock fragments, pebbles, sand, gravel, cobbles, crushed base, asphalt, and other similar materials.

SEC. 4. Section 23115 of the Vehicle Code is amended to read:

23115. (a) No vehicle loaded with garbage, swill, cans, bottles, wastepapers, ashes, refuse, trash, or rubbish, or any other noisome, nauseous, or offensive matter, or anything being transported to a dump site for disposal shall be driven or moved upon any highway unless the load is totally covered in a manner which will prevent the load or any part of the load from spilling or falling from the vehicle.

(b) This section does not prohibit a rubbish vehicle from being without cover while in the process of acquiring its load if no law, administrative regulation, or local ordinance requires that it be covered in those circumstances.

This section does not apply to any vehicle engaged in transporting wet waste fruit or vegetable matter, or waste products from a food processing establishment.

SEC. 5. Section 40000.16 is added to the Vehicle Code, to read:

40000.16. A violation of Section 23114, relating to preventing the escape of materials from vehicles, is a misdemeanor, and not an infraction.

SEC. 6. The Public Utilities Commission, in conjunction with the Department of the California Highway Patrol, the Department of Insurance, and the Department of Transportation, shall conduct a study to determine if the equipment requirements in subdivision (b) of Section 23114 of the Vehicle Code have been effective in reducing vehicle damage claims resulting from aggregate materials dropping, sifting, blowing, spilling, or otherwise escaping from vehicles carrying aggregate materials. The commission shall report the results of the study to the Chairpersons of the Assembly and Senate Transportation Committees on or before April 1, 1990.

It is the intent of the Legislature to repeal the requirements in Section 23114 that were added by the act enacting this section, which would otherwise require aggregate materials vehicles to be covered, if the study determines that there has been significant reduction in

damage claims. It is also the intent of the Legislature that if there is a determination made that there has been a significant reduction in damage claims that the Department of the California Highway Patrol shall not enforce subdivision (c) of Section 23114 Vehicle Code until January 1, 1991.

The study required by this section shall be funded from the existing resources of the Public Utilities Commission.

SEC. 7. Section 4 shall become operative on September 1, 1990.

SEC. 8. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Moreover, pursuant to Section 17579 of the Government Code, the legislature finds that there is no mandate contained in this act which will result in costs incurred by a local agency or school district for any other new program or higher level of service which would require reimbursement pursuant to Section 6 of Article XIII B of the California Constitution and Part 7 (commencing with Section 17500) of Division 4 or Title 2 of the Government Code.

(d) For the purposes of this section the defendant shall be deemed to remain in prison custody for an offense until the official discharge from custody or until release on parole whichever first occurs including any time during which the defendant remains subject to reimprisonment for escape from custody or is reimprisoned on revocation of parole. (i) For the purposes of this section, a commitment to the State Department of Health as a mentally disordered sex offender following a conviction of a felony, which commitment exceeds one year in duration, shall be deemed a prior prison term.

This subdivision shall not apply when a full, separate, and

consecutive term is imposed pursuant to any other provision of law.

SEC. 1.5. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667, 667.5, 667.6, or 12022.1, and pursuant to Section 11370.2 of the Health and Safety Code. The principal term shall consist of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, 12022.8, or 12022.9 and an enhancement imposed pursuant to Section 11370.4 or 11379.8 of the Health and Safety Code. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined in subdivision (c) of Section 667.5 exceed five years. The subordinate term for each consecutive offense which is a "violent felony" as defined in subdivision (c) of Section 667.5, including those offenses described in paragraph (8) or (9) of subdivision (c) of Section 667.5, shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.7, 12022.75, or 12022.9.

(b) When a consecutive term of imprisonment is imposed under Sections 669 and 1170 for two or more convictions for kidnapping, as defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.7, 12022.75, or 12022.9. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while the person is confined in a state prison, or is subject

to reimprisonment for escape from such custody and the law either requires the terms to be served consecutively or the court imposes consecutive terms, the term of imprisonment for all the convictions which the person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

(d) When the court imposes a prison sentence for a felony pursuant to Section 1170 the court shall also impose the additional terms provided in Sections 667, 667.5, 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, and 12022.9, and the additional terms provided in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, unless the additional punishment therefor is stricken pursuant to subdivision (h). The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the Judicial Council.

(e) When two or more enhancements under Sections 12022, 12022.4, 12022.5, 12022.7, and 12022.9 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of lewd or lascivious acts upon or with a child under the age of 14 years accomplished by means of force or fear, as described in Section 288, kidnapping as defined in Section 207, penetration of a genital or anal opening by a foreign object, as defined in Section 289, oral copulation, sodomy, robbery, rape or burglary, or attempted lewd or lascivious acts upon or with a child under the age of 14 years accomplished by means of force or fear, kidnapping, penetration of a genital or anal opening by a foreign object, oral copulation, sodomy, robbery, rape, murder, or burglary the court may impose both (1) one enhancement for weapons as provided in either Section 12022, 12022.4, or 12022.5 and (2) one enhancement for great bodily injury as provided in either Section 12022.7 or 12022.9.

(f) The enhancements provided in Sections 667, 667.5, 667.6, 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, 12022.8, and 12022.9, and in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, shall be pleaded and proven as provided by law.

(g) The term of imprisonment shall not exceed twice the number of years imposed by the trial court as the base term pursuant to subdivision (b) of Section 1170 unless the defendant stands convicted of a "violent felony" as defined in subdivision (c) of Section 667.5, or a consecutive sentence is being imposed pursuant to subdivision (b)

or (c) of this section, or an enhancement is imposed pursuant to Section 667, 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, or 12022.9, or an enhancement is being imposed pursuant to Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, or the defendant stands convicted of felony escape from an institution in which he or she is lawfully confined.

(h) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in Sections 667.5, 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, and 12022.9, or the enhancements provided in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, if it determines that there are circumstances in mitigation of the additional punishment and states on the record its reasons for striking the additional punishment.

(i) For any violation of subdivision (2) or (3) of Section 261, Section 264.1, subdivision (b) of Section 288, subdivision (a) of Section 289, or sodomy or oral copulation by force, violence, duress, menace or fear of immediate and unlawful bodily injury on the victim or another person as provided in Section 286 or 288a, the number of enhancements which may be imposed shall not be limited, regardless of whether such enhancements are pursuant to this or some other section of law. Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

SEC. 2. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667, 667.5, 667.6, or 12022.1, and pursuant to Section 11370.2 of the Health and Safety Code. The principal term shall consist of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.3, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, 12022.8, or 12022.9 and an enhancement imposed pursuant to Section 11370.4 or 11379.8 of the Health and Safety Code. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined in subdivision (c) of Section 667.5 exceed five years. The subordinate term for each consecutive offense which is a "violent felony" as

defined in subdivision (c) of Section 667.5, including those offenses described in paragraph (8) or (9) of subdivision (c) of Section 667.5, shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.7, 12022.75, or 12022.9.

(b) When a consecutive term of imprisonment is imposed under Sections 669 and 1170 for two or more convictions for kidnapping, as defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.7, 12022.75, or 12022.9. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while the person is confined in a state prison, or is subject to reimprisonment for escape from such custody and the law either requires the terms to be served consecutively or the court imposes consecutive terms, the term of imprisonment for all the convictions which the person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

(d) When the court imposes a prison sentence for a felony pursuant to Section 1170 the court shall also impose the additional terms provided in Sections 667, 667.5, 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.55, 12022.6, 12022.7, 12022.75, and 12022.9, and the additional terms provided in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, unless the additional punishment therefor is stricken pursuant to subdivision (h). The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the Judicial Council.

(e) When two or more enhancements under Sections 12022,

12022.4, 12022.5, 12022.55, 12022.7, and 12022.9 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of lewd or lascivious acts upon or with a child under the age of 14 years accomplished by means of force or fear, as described in Section 288, kidnapping as defined in Section 207, penetration of a genital or anal opening by a foreign object, as defined in Section 289, oral copulation, sodomy, robbery, rape or burglary, or attempted lewd or lascivious acts upon or with a child under the age of 14 years accomplished by means of force or fear, kidnapping, penetration of a genital or anal opening by a foreign object, oral copulation, sodomy, robbery, rape, murder, or burglary the court may impose both (1) one enhancement for weapons as provided in either Section 12022, 12022.4, or subdivision (a) of Section 12022.5 and (2) one enhancement for great bodily injury as provided in either Section 12022.7 or 12022.9.

Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

SEC. 3. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667, 667.5, or 667.6, and pursuant to Section 11370.2 of the Health and Safety Code. The principal term shall consist of the greatest term of imprisonment imposed by the court for any of the crimes, including any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, 12022.8, or 12022.9 and an enhancement imposed pursuant to Section 11370.4 or 11379.8 of the Health and Safety Code. The subordinate term for each consecutive offense which is not a "violent felony" as defined in subdivision (c) of Section 667.5 shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall exclude any enhancements. In no case shall the total of subordinate terms for such consecutive offenses which are not "violent felonies" as defined in subdivision (c) of Section 667.5 exceed five years. The subordinate term for each consecutive offense which is a "violent felony" as defined in subdivision (c) of Section 667.5, including those offenses described in paragraph (8) or (9) of subdivision (c) of Section 667.5, shall consist of one-third of the middle term of imprisonment prescribed for each other such felony conviction for which a consecutive term of imprisonment is imposed, and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.7, 12022.75, or 12022.9.

(b) When a consecutive term of imprisonment is imposed under Sections 669 and 1170 for two or more convictions for kidnapping, as defined in Section 207, involving both separate victims and separate occasions, the aggregate term shall be calculated as provided in subdivision (a), except that the subordinate term for each subsequent kidnapping conviction shall consist of the middle term for each kidnapping conviction for which a consecutive term of imprisonment is imposed and shall include one-third of any enhancements imposed pursuant to Section 667.8, 667.85, 12022, 12022.2, 12022.4, 12022.5, 12022.7, 12022.75, or 12022.9. The five-year limitation on the total of subordinate terms provided in subdivision (a) shall not apply to subordinate terms for second and subsequent convictions of kidnapping, as defined in Section 207, involving separate victims and separate occasions.

(c) In the case of any person convicted of one or more felonies committed while the person is confined in a state prison, or is subject to reimprisonment for escape from such custody and the law either

requires the terms to be served consecutively or the court imposes consecutive terms, the term of imprisonment for all the convictions which the person is required to serve consecutively shall commence from the time such person would otherwise have been released from prison. If the new offenses are consecutive with each other, the principal and subordinate terms shall be calculated as provided in subdivision (a), except that the total of subordinate terms may exceed five years. The provisions of this subdivision shall be applicable in cases of convictions of more than one offense in different proceedings, and convictions of more than one offense in the same or different proceedings.

(d) When the court imposes a prison sentence for a felony pursuant to Section 1170 the court shall also impose the additional terms provided in Sections 667, 667.5, 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, and 12022.9, and the additional terms provided in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, unless the additional punishment therefor is stricken pursuant to subdivision (h). The court shall also impose any other additional term which the court determines in its discretion or as required by law shall run consecutive to the term imposed under Section 1170. In considering the imposition of such additional term, the court shall apply the sentencing rules of the Judicial Council.

(e) When two or more enhancements under Sections 12022, 12022.1, 12022.4, 12022.5, 12022.7, and 12022.9 may be imposed for any single offense, only the greatest enhancement shall apply; however, in cases of lewd or lascivious acts upon or with a child under the age of 14 years accomplished by means of force or fear, as described in Section 288, kidnapping as defined in Section 207, penetration of a genital or anal opening by a foreign object, as defined in Section 289, oral copulation, sodomy, robbery, rape or burglary, or attempted lewd or lascivious acts upon or with a child under the age of 14 years accomplished by means of force or fear, kidnapping, penetration of a genital or anal opening by a foreign object, oral copulation, sodomy, robbery, rape, murder, or burglary the court may impose both (1) one enhancement for weapons as provided in either Section 12022, 12022.4, or Section 12022.5 and (2) one enhancement for great bodily injury as provided in either Section 12022.7 or 12022.9.

(f) The enhancements provided in Sections 667, 667.5, 667.6, 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.3, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, 12022.8, and 12022.9, and in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, shall be pleaded and proven as provided by law.

(g) The term of imprisonment shall not exceed twice the number of years imposed by the trial court as the base term pursuant to subdivision (b) of Section 1170 unless the defendant stands convicted of a "violent felony" as defined in subdivision (c) of Section 667.5, or a consecutive sentence is being imposed pursuant to subdivision (b) or (c) of this section, or an enhancement is imposed pursuant to

Section 667, 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, or 12022.9, or an enhancement is being imposed pursuant to Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, or the defendant stands convicted of felony escape from an institution in which he or she is lawfully confined.

(h) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in Sections 667.5, 667.8, 667.85, 12022, 12022.1, 12022.2, 12022.4, 12022.5, 12022.6, 12022.7, 12022.75, and 12022.9, or the enhancements provided in Section 11370.2, 11370.4, or 11379.8 of the Health and Safety Code, if it determines that there are circumstances in mitigation of the additional punishment and states on the record its reasons for striking the additional punishment.

(i) For any violation of subdivision (2) or (3) of Section 261, Section 264.1, subdivision (b) of Section 288, subdivision (a) of Section 289, or sodomy or oral copulation by force, violence, duress, menace or fear of immediate and unlawful bodily injury on the victim or another person as provided in Section 286 or 288a, the number of enhancements which may be imposed shall not be limited, regardless of whether such enhancements are pursuant to this or some other section of law. Each of such enhancements shall be a full and separately served enhancement and shall not be merged with any term or with any other enhancement.

SEC. 4. Section 1170.1 of the Penal Code is amended to read:

1170.1. (a) Except as provided in subdivision (c) and subject to Section 654, when any person is convicted of two or more felonies, whether in the same proceeding or court or in different proceedings or courts, and whether by judgment rendered by the same or by a different court, and a consecutive term of imprisonment is imposed under Sections 669 and 1170, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term and any additional term imposed pursuant to Section 667, 667.5, or 667.6, and pursuant to Section 11370.2 of the Health and Safety Code. ## CHAPTER 1488

An act to amend Section 12668 of, and to add Sections 8610 and 8611 to, the Water Code, relating to flood protection.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 8610 is added to the Water Code, to read:

8610. (a) The board shall offer to lease to the Department of Fish and Game, or to an appropriate public resource protection or public conservation agency or organization approved by the Department of Fish and Game and the board, any lands it acquires as replacement habitat as mitigation for adverse environmental impacts of its projects. The lease agreement shall ensure that these lands are managed to provide the mitigation for which they were acquired and shall include, but not be limited to, provisions for funding

management of those lands. Funds for management of those lands may include, but are not limited to, funds appropriated by the Legislature to the Department of Water Resources, the Reclamation Board, or the Department of Fish and Game, and funds available from local entities. The lease agreement shall reserve the authority of the board to carry out necessary flood control activities and mitigate adverse environmental impacts.

(b) The board shall report to the appropriate policy committees of each house of the Legislature, on or before July 31, 1989, and on or before every July 31 thereafter, the amount of funds, if any, it has budgeted for maintenance of lands acquired for mitigation in accordance with subdivision (a).

SEC. 2. Section 8611 is added to the Water Code, to read:

8611. (a) Except as provided in subdivision (b), prior to construction at a site of a flood control, channel clearance, or bank stabilization project, the board, in consultation with the Department of Fish and Game, shall prepare and adopt a mitigation plan which shall be implemented as part of the project. A mitigation plan shall include, but not be limited to, all of the following:

(1) A description of the actions that the board proposes to take to ensure that the project will meet all mitigation standards required by law with the objective of ensuring that the project causes no net loss of riparian, fishery, or wildlife habitat.

(2) A designation of the agency or agencies responsible for implementing and maintaining each mitigation element of the plan.

(3) A schedule for implementation of the mitigation ensuring that the mitigation measures will be accomplished prior to, or concurrent with, construction of the project, unless the board determines that to do so would be impracticable.

(4) A financing plan for the mitigation identifying the source or sources of funds for the mitigation, the share of mitigation costs attributable to each source, and a schedule of when the funds are to be provided.

The plan may take into consideration the environmental benefits of restoring, maintaining, or increasing the sustainable diversity of native species and habitat which may result from the project, if these benefits have been approved by the Department of Fish and Game. The Department of Fish and Game may submit a review of the plan and its recommendations to the board for inclusion in the plan.

(b) No mitigation plan is required when the board is responding to an emergency where no mitigation is required.

(c) For any project authorized pursuant to Section 12668, the agreement set forth in subdivision (a) shall provide for the mitigation of the project with the objective of providing a net long-term enhancement of the riparian habitat and fishery in the project area. The degree of net enhancement required for each phase or part of the project shall not be so great as to cause the project to be infeasible.

SEC. 3. Section 12668 of the Water Code is amended to read:

12668. (a) The project for flood control on the San Joaquin River is adopted and authorized substantially in accordance with P.L. 98-63, at a federal cost of approximately eight million dollars ($8,000,000), for the accomplishment of selective clearing and snagging work in the San Joaquin Channel, from Friant Dam to the Stockton Deep Water Channel, and in that area of the North Fork of the Kings River and Mendota Pool from the southerly boundary of the James Reclamation District No. 1606 to Mendota Dam. Because of the unique situation presented by this project, the department shall maintain and operate, on behalf of the state, the work performed by the Corps of Engineers on this project, and the cost of that maintenance and operation shall be borne by the state.

(b) Any assurance agreement entered into between the Secretary of the Army and the Reclamation Board for this project shall provide for mitigation of the impact of the project with the objective of providing a net long-term enhancement of the riparian habitat and fishery in the project area.

(c) It is the intent of the Legislature, in reviewing future projects, to improve the capacity of the San Joaquin River to provide for mitigation of the impact of the project and net long-term enhancement of the riparian habitats and fisheries in the project area.

(d) The Legislature finds and declares that the local responsibility of maintenance of this and future federal projects in and along the San Joaquin River may be better, more efficiently, and more fairly fulfilled by geographically larger, or regional, local public entities. The Legislature, therefore, directs the Reclamation Board, in coordination with the department, to study the possibility of creating, by a joint powers agreement or by special act of the Legislature, one or more regional districts to undertake at a future time local maintenance responsibility for this project. The Reclamation Board shall report its findings to the Legislature not later than December 31, 1985.

SECTION 1. Section 10196 is added to the Insurance Code, to read:

10196. (a) The commissioner, with the advice of the Department of Corporations, shall prepare a guide that explains the

factors to be considered in selecting long-term care insurance and the consequences of particular clauses and exclusions. The guide shall be made available to the public and to interested organizations upon request. (b) This section does not prohibit a contractor that has contracted to perform corrective work after the report of another company has indicated the presence of asbestos or the need for related remedial action from making its own inspection prior to performing that corrective work or from making an inspection to determine whether the corrective measures were successful and, if not, thereafter peforming additional corrective work.

(c) A violation of this section is grounds for disciplinary action.

(d) A violation of this section is a misdemeanor punishable by a fine of not less than three thousand dollars ($3,000) and not more than five thousand dollars ($5,000), or by imprisonment in the county jail for not more than one year, or both.

(e) For the purpose of this section, "asbestos" has the meaning set forth in Section 6501.7 of the Labor Code.

SEC. 2. Section 6509.5 is added to the Labor Code, to read:

6509.5. (b) This section does not prohibit an asbestos consultant that has

contracted to perform corrective work after the report of another company has indicated the presence of asbestos or the need for related remedial action from making its own inspection prior to performing that corrective work or from making an inspection to determine whether the corrective measures were successful and, if not, thereafter performing additional corrective work.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 11470 of the Health and Safety Code, as amended by Section 1 of Chapter 924 of the Statutes of 1987, is amended to read:

11470. The following are subject to forfeiture:

(a) All controlled substances which have been manufactured, distributed, dispensed, or acquired in violation of this division.

(b) All raw materials, products and equipment of any kind which are used, or intended for use, in manufacturing, compounding, processing, delivering, importing, or exporting any controlled

substance in violation of this division.

(c) All property except real property or a boat, airplane, or any vehicle which is used, or intended for use, as a container for property described in subdivision (a) or (b).

(d) All books, computers, records, and research products and materials, including formulas, microfilm, tapes, data, computer programs, and software which are used, or intended for use, in violation of this division.

(e) The interest of any registered owner of a boat, airplane, or any vehicle, which has been used as an instrument to facilitate the possession for sale or sale of 7.125 grams or more of a substance containing either heroin or cocaine base, as specified in paragraph (1) of subdivision (f) of Section 11054, or 14.25 grams or more of a substance containing a Schedule I controlled substance except marijuana, peyote, or psilocybin; 5 pounds dry weight or more of marijuana, peyote, or psilocybin; or 14.25 grams or more of a substance containing cocaine, as specified in paragraph (6) of subdivision (b) of Section 11055, or methamphetamine; or 14.25 grams or more of a substance containing a Schedule II controlled substance. However, an interest not to exceed ten thousand dollars ($10,000) in a vehicle which may be lawfully driven on the highway with a class 3 or 4 license, as prescribed in Section 12804 of the Vehicle Code, which is a community property asset of a person who is a registered owner of the vehicle other than the person whose conduct renders the vehicle subject to forfeiture, and which is the sole class 3 or 4 vehicle available to that registered owner's immediate family, shall not be subject to forfeiture. The exemption from forfeiture provided by this subdivision shall not apply if pursuant to subdivision (e) of Section 11488.5 the trier of fact finds the person claiming the exemption knew or should have known of the unlawful use of the property.

(f) All moneys, negotiable instruments, securities, or other things of value furnished or intended to be furnished by any person in exchange for a controlled substance, all proceeds traceable to such an exchange, and all moneys, negotiable instruments, or securities used or intended to be used to facilitate any violation of Section 11351, 11351.5, 11352, 11355, 11359, 11360, 11378, 11378.5, 11379, 11379.5, 11379.6, or 11382 of this code, or Section 182 of the Penal Code, insofar as the offense involves manufacture, sale, possession for sale, offer for sale, or offer to manufacture, or conspiracy to commit at least one of those offenses, if the exchange, violation, or other conduct which is the basis for the forfeiture occurred within five years of the seizure of the property, or the filing of a petition under this chapter, or the issuance of an order of forfeiture of the property, whichever comes first.

(g) Real property related to a violation, whether charged or not, of Section 11366, 11366.5, 11366.6, or 11379.6. However, an interest not to exceed one hundred thousand dollars ($100,000) in real property which is used as a family residence and which is owned by two or

more persons shall not be subject to forfeiture. The exemption from forfeiture provided by this subdivision shall not apply if pursuant to subdivision (e) of Section 11488.5 the trier of fact finds the person claiming the exemption knew or should have known of the unlawful use of the property.

(h) All right, title, and interest in any property described in this section shall vest in the state upon commission of the act giving rise to forfeiture under this chapter.

The operation of the special vesting rule established by this subdivision shall be limited to circumstances where its application will not defeat the claim of any person, including a bona fide purchaser or encumbrancer who, pursuant to Section 11488.5 or 11488.6, claims an interest in the property seized, which interest arose prior to the seizure or the filing of the petition for forfeiture pursuant to this chapter, whichever occurs first, notwithstanding that the interest in the property being claimed was acquired from a person whose property interest would otherwise have been subject to divestment pursuant to this subdivision.

SEC. 2. Section 11470 of the Health and Safety Code, as amended by Section 8 of Chapter 1174 of the Statutes of 1987, is repealed.

SEC. 3. Section 11473 of the Health and Safety Code is amended to read:

11473. All seizures under provisions of this chapter, except seizures of vehicles, boats, or airplanes, as specified in subdivision (e) of Section 11470, or seizures of moneys, negotiable instruments, securities, or other things of value as specified in subdivisions (c), (d), and (f) of Section 11470, shall, upon conviction of the owner or defendant, be ordered destroyed by the court in which conviction was had.

SEC. 4. Section 11473.1 of the Health and Safety Code is repealed.

SEC. 5. Section 11473.2 of the Health and Safety Code is amended to read:

11473.2. All seizures under provisions of this chapter of vehicles, boats, or airplanes, may, upon declaration, or judgment of forfeiture, be placed in the name of the law enforcement agency for use in its law enforcement program. A certified copy of the declaration, or judgment of forfeiture issued by the court as a result of the proceeding, filed with the Department of Motor Vehicles, appropriate federal agency, or other appropriate registry, shall constitute authority for the government entity to convey clear title in its own name for use in its law enforcement program.

SEC. 6. Section 11473.3 of the Health and Safety Code is amended to read:

11473.3. (a) When authorized by a final judgment of forfeiture or by a declaration of forfeiture issued pursuant to subdivision (j) of Section 11488.4, items of property seized or subject to forfeiture, but not seized, pursuant to subdivision (b), (c), or (d) of Section 11470 may be utilized by the law enforcement agency in its law enforcement program.

(b) A certified copy of the judgment of forfeiture issued by the court or a declaration of forfeiture issued pursuant to subdivision (j) of Section 11488.4 as a result of the forfeiture proceedings shall serve to vest title to any property specified in subdivision (a) in the named law enforcement agency.

(c) The same authority with respect to transfer or sale of property as is specified in Section 11473.2 shall apply to property subject to this section.

SEC. 7. Section 11488 of the Health and Safety Code, as amended by Chapter 924 of the Statutes of 1987, is amended to read:

11488. (a) Any peace officer of this state, incident or subsequent to making or attempting to make an arrest for a violation of Section 11351, 11351.5, 11352, 11355, 11359, 11360, 11378, 11378.5, 11379, 11379.5, 11379.6, or 11382 of this code, or Section 182 of the Penal Code insofar as the offense involves manufacture, sale, purchase for the purpose of sale, possession for sale or offer to manufacture or sell, or conspiracy to commit one of those offenses, may seize any item subject to forfeiture under Section 11470.

(b) The peace officer shall notify the Franchise Tax Board of a seizure where there is reasonable cause to believe that the value of the seized property exceeds five thousand dollars ($5,000).

(c) Receipts for property seized pursuant to this section shall be delivered to any person out of whose possession such property was seized, in accordance with Section 1412 of the Penal Code. In the event property seized was not seized out of anyone's possession, receipt for the property shall be delivered to the individual in possession of the premises at which the property was seized or, if the individual is not present on the premises, the receipt shall be left in a prominent place at the premises.

(d) There shall be a presumption affecting the burden of proof that the person to whom a receipt for property was issued is the owner thereof. This presumption may, however, be rebutted at the forfeiture hearing specified in Section 11488.5.

SEC. 8. Section 11488 of the Health and Safety Code, as added by Chapter 1044 of the Statutes of 1986, is repealed.

SEC. 9. Section 11488.4 of the Health and Safety Code, as amended by Section 4 of Chapter 924 of the Statutes of 1987, is amended to read:

11488.4. (a) Except as provided in subdivision (j), if the Department of Justice or the local governmental entity determines that the factual circumstances do warrant that the moneys, negotiable instruments, securities, or other things of value seized or subject to forfeiture come within the provisions of subdivisions (a) to (g), inclusive, of Section 11470, and are not automatically made forfeitable or subject to court order of forfeiture or destruction by another provision of this chapter, the Attorney General or district attorney shall file a petition of forfeiture with the superior court of the county in which the property subject to forfeiture has been seized or, if no seizure has occurred, in the county in which the

property subject to forfeiture is located. If the petition alleges that real property is forfeitable, the prosecuting attorney shall cause a lis pendens to be recorded in the office of the county recorder of each county in which the real property is located.

A petition of forfeiture under this subdivision shall be filed within one year of the seizure of the property which is subject to forfeiture, or within one year of the filing by the Attorney General or district attorney of a lis pendens or other process against the property, whichever is earlier.

(b) Physical seizure of assets shall not be necessary in order to have that particular asset alleged to be forfeitable in a petition under this section. The prosecuting attorney may seek protective orders for any asset pursuant to Section 11492.

(c) The Attorney General or district attorney shall make service of process regarding this petition upon every individual designated in a receipt issued for the property seized. In addition, the Attorney General or district attorney shall cause a notice of the seizure, if any, and of the intended forfeiture proceeding, as well as a notice stating that any interested party may file a verified claim with the superior court of the county in which the property was seized or if the property was not seized, a notice of the initiation of forfeiture proceedings with respect to any interest in the property seized or subject to forfeiture, to be served by personal delivery or by registered mail upon any person who has an interest in the seized property or property subject to forfeiture other than persons designated in a receipt issued for the property seized.

(d) The Attorney General, district attorney, or law enforcement agency which made the seizure shall make an investigation into any right, title, interest, or lien of record with the Department of Motor Vehicles or appropriate federal agency as to a vehicle, boat, or airplane. If the investigation discloses that any person, other than the registered owner, is the legal owner thereof, and such ownership did not arise subsequent to the date and time of arrest or notification of the forfeiture proceedings or seizure of the vehicle, boat, or airplane, the Attorney General or district attorney shall forthwith send a notice to the legal owner at his or her address appearing on the records of the Department of Motor Vehicles or appropriate federal agency.

(e) When a forfeiture action is filed, the notices shall be published once a week for three successive weeks in a newspaper of general circulation in the county where the seizure was made or where the property subject to forfeiture is located.

(f) All notices shall set forth the time within which a claim of interest in the property seized or subject to forfeiture is required to be filed pursuant to Section 11488.5.

(g) (1) No sooner than 10 days after a petition is filed pursuant to Section 11488.4, a claimant, who alleges standing based on an interest in the property which arose prior to the seizure or filing of the petition for forfeiture, whichever occurs first, may move the

court for the return of the property named in the claim on the grounds that there is not probable cause to believe that the property is subject to forfeiture pursuant to Section 11470, or is not automatically forfeitable or subject to court order of forfeiture or otherwise subject to destruction by another provision of this chapter. The showing of probable cause may be supported by evidence, prior judicial testimony, deposition, affidavit, or declaration. If the court determines that there is not probable cause to believe that the property is subject to forfeiture it shall order the property returned to the owner thereof unless the property is otherwise lawfully held.

(2) If a petition is filed pursuant to Section 11488.4 and there is an underlying or related criminal action and the defendant has not pled guilty or nolo contendre, a defendant who is a claimant alleging an interest in the property in the related forfeiture proceeding shall move, exclusively pursuant to Section 1538.5 of the Penal Code, for the return of the property on the grounds that there is not probable cause to believe that the property is forfeitable pursuant to Section 11470, or is not automatically made forfeitable or subject to court order of forfeiture or destruction by another provision of this chapter.

The motion may be made at the preliminary examination or subsequent thereto. If made subsequent to the preliminary examination, the Attorney General or district attorney may submit the record of the preliminary hearing to establish that probable cause exists to believe that the property is subject to forfeiture. If the court determines that there is not probable cause to believe that the property is subject to forfeiture it shall order the property returned to the owner thereof unless the property is otherwise lawfully held.

(h) Within 30 days after a motion for return of property is granted pursuant to subdivision (g), the people may file a petition for writ of mandate or prohibition seeking appellate review of the order.

(i) Except as provided in subdivision (j) of Section 11488.4 and paragraph (1) of subdivision (b) of Section 11488.5, the state or local government entity shall have the burden of proving by a preponderance of the evidence that the property is subject to forfeiture as described in Section 11470.

A judgment of forfeiture does not require as a condition precedent thereto, that any defendant be convicted of an offense which made the property subject to forfeiture provided that the offense occurred within five years of the seizure of the property or within five years of the notification of intention to seek forfeiture. If there is a related criminal action, the issue of forfeiture may be tried in conjunction therewith. Trial shall be by jury unless waived by all parties. If there is no related criminal action, the presiding judge of the superior court shall assign the action brought pursuant to this chapter for trial.

(j) The Attorney General or the district attorney of the county in which property is subject to forfeiture under Section 11470 may, pursuant to this subdivision, order forfeiture of personal property not exceeding one hundred thousand dollars ($100,000) in value. The

Attorney General or district attorney shall provide notice of proceedings under this subdivision pursuant to subdivisions (c), (d), (e), and (f), including:

(1) A description of the property.

(2) The appraised value of the property.

(3) The date and place of seizure or location of any property not seized but subject to forfeiture.

(4) The violation of law alleged with respect to forfeiture of the property.

(5) The instructions for filing a claim with the superior court pursuant to Section 11488.5 and time limits for filing a claim. If no claims are timely filed, the Attorney General or the district attorney shall prepare a written declaration of forfeiture of the subject property to the state and dispose of the property in accordance with Section 11489. A written declaration of forfeiture signed by the Attorney General or district attorney under this subdivision shall be deemed to provide good and sufficient title to the forfeited property.

The prosecuting agency ordering forfeiture pursuant to this subdivision shall provide a copy of the declaration of forfeiture to any person listed in the receipt given at the time of seizure and to any person personally served notice of the forfeiture proceedings.

If a claim is timely filed and served, then the Attorney General or district attorney shall file a petition of forfeiture pursuant to this section within 30 days of the receipt of the claim. The petition of forfeiture shall then proceed pursuant to other provisions of this chapter, except that no additional notice need be given and no additional claim need be filed.

SEC. 10. Section 11488.4 of the Health and Safety Code, as added by Chapter 924 of the Statutes of 1987, is repealed.

SEC. 11. Section 11488.5 of the Health and Safety Code, as amended by Section 6 of Chapter 924 of the Statutes of 1987, is amended to read:

11488.5. (a) (1) Any person claiming an interest in the property seized pursuant to Section 11488 may, at any time within 30 days from the date of the first publication of the notice of seizure, if that person was not personally served or served by mail, or within 10 days after receipt of actual notice, file with the superior court of the county in which the property was seized or, if there was no seizure, in which the property is located, a verified claim stating his or her interest in the property. An endorsed copy of the claim shall be served by the claimant on the Attorney General or district attorney, as appropriate, within 10 days of the filing of the claim. The Judicial Council shall develop and approve official forms for the verified claim that is to be filed pursuant to this section. The official forms shall be drafted in nontechnical language and shall be made available through the office of the clerk of the appropriate court.

(2) Any person who claims that the property was assigned to him or to her prior to the seizure or notification of pending forfeiture of the property under this chapter, whichever occurs first, shall file a

claim with the court and prosecuting agency pursuant to Section 11488.5 declaring an interest in that property and such interest shall be adjudicated at the forfeiture hearing. The property shall remain under control of the law enforcement or prosecutorial agency until the adjudication of the forfeiture hearing.

(3) The claim of a law enforcement agency to property seized pursuant to Section 11488 or subject to forfeiture shall have priority over a claim to the seized or forfeitable property made by the Franchise Tax Board in a notice to withhold issued pursuant to Section 18817 or 26132 of the Revenue and Taxation Code.

(b) If, at the end of the time set forth in subdivision (a), there is no claim on file, the court, upon motion, shall declare the property seized or subject to forfeiture pursuant to Section 11470 forfeited to the state. In moving for a default judgment pursuant to this subdivision, the state or local governmental entity shall be required to establish a prima facie case in support of its petition for forfeiture.

(c) (1) If a verified claim is filed, the forfeiture proceeding shall be set for hearing on a day not less than 30 days therefrom, and the proceeding shall have priority over other civil cases. A claim shall not be admissible in the proceeding regarding the offense.

(2) The hearing shall be by jury, unless waived by consent of all parties.

(d) Forfeiture shall be ordered when, at the hearing, the state or local governmental entity has shown that the assets in question are subject to forfeiture pursuant to Section 11470, in accordance with the burden of proof set forth in subdivision (i) of Section 11488.4.

(e) The forfeiture hearing shall be continued upon motion of the prosecution or a claimant who is concurrently a defendant in a related criminal proceeding until the charge in that proceeding has been resolved in the trial court or the defendant fails to appear. The forfeiture hearing shall be conducted in accordance with Sections 600 to 630, inclusive, of the Code of Civil Procedure if a trial by jury, and by Sections 631 to 636, inclusive, of the Code of Civil Procedure if by the court. Unless the court or jury finds that the seized property is subject to forfeiture pursuant to Section 11470, the court shall order the seized property released to the person it determines is entitled thereto.

(f) If the court or jury finds that the seized property was subject to forfeiture, and finds that a person claiming an interest therein knew or should have known of facts which made the property subject to forfeiture pursuant to Section 11470, the court shall order that the person's interest in the seized property be forfeited. If the court or jury does not make these findings, the court shall order that the person's interest in the property be returned. The state or local governmental entity shall have the burden of proving in accordance with the burden of proof set forth in subdivision (i) of Section 11488.4, that a person claiming an interest knew or should have known of facts which made the property subject to forfeiture pursuant to Section 11470.

(g) All seized property which was the subject of a forfeiture hearing and which was not released by the court to a claimant shall be declared by the court to be forfeited to the state. Except as provided in Sections 11473.2 and 11473.3, the clerk of the court shall dispose of the forfeited property as set forth in Section 11489.

(h) All seized property which was the subject of the forfeiture hearing and which was not forfeited shall remain subject to any order to withhold issued with respect to the property by the Franchise Tax Board.

SEC. 12. Section 11488.5 of the Health and Safety Code, as added by Section 7 of Chapter 924 of the Statutes of 1987, is repealed.

SEC. 13. Section 11488.6 of the Health and Safety Code is amended to read:

11488.6. (a) If the court or jury at the forfeiture hearing finds that the property is forfeitable pursuant to Section 11470, and further finds that the state or local government entity has not met its burden of proving that a person holding a valid lien, mortgage, security interest, or interest under a conditional sales contract knew or should have known of facts which would or did make the property subject to forfeiture pursuant to Section 11470 when the interest was acquired, and the amount due that person is less than the appraised value of the property, that person may pay to the state or the local governmental entity which initiated the forfeiture proceeding the amount of the owner's equity, which shall be deemed to be the difference between the appraised value and the amount of the lien, mortgage, security interest, or interest under a conditional sales contract. Upon such payment, the state or local governmental entity shall relinquish all claims to the property. If the holder of the interest elects not to make such payment to the state or local governmental entity, the property shall be deemed forfeited to the state or local governmental entity and the ownership certificate shall be forwarded. The appraised value shall be determined as of the date judgment is entered on a wholesale basis either by agreement between the legal owner and the governmental entity involved, or if they cannot agree, then by the inheritance tax appraiser for the county in which the action is brought. A person holding a valid lien, mortgage, security interest, or interest under a conditional sales contract shall be paid the appraised value of his or her interest in accordance with the provisions of Section 11489.

(b) If the amount due to a person holding a valid lien, mortgage, security interest, or interest under a conditional sales contract is less than the value of the property and the person elects not to make payment to the governmental entity, the property, excluding vehicles identified in Section 11473.2 which a law enforcement agency may place in its own name for use in its law enforcement program, shall be sold at public auction by the Department of General Services or by the local governmental entity which shall provide notice of such sale by one publication in a newspaper published and circulated in the city, community, or locality where

the sale is to take place.

(c) The proceeds of sale pursuant to subdivision (b) shall be first distributed in accordance with the provisions of Section 11489.

SEC. 14. Section 11489 of the Health and Safety Code is amended to read:

11489. Notwithstanding Section 11502 and except as otherwise provided in Sections 11473 and 11473.2, in all cases where the property is seized pursuant to this chapter and forfeited to the state or local governmental entity and, where necessary, sold by the Department of General Services or local governmental entity, the money forfeited or the proceeds of sale shall be distributed by the state or local governmental entity as follows:

(a) To the bona fide or innocent purchaser or encumbrancer, conditional sales vendor, or mortgagee of the property, if any, up to the amount of his or her interest in the property, when the court declaring the forfeiture orders a distribution to that person.

(b) The balance, if any, to accumulate, and to be distributed and transferred quarterly in the following manner:

(1) To the state agency or local governmental entity for all expenditures made or incurred by it in connection with the sale of the property, including expenditures for any necessary repairs, storage, or transportation of any property seized under this chapter.

(3) Ninety percent of the balance shall be distributed as follows:

(A) Eighty-five percent to the state or local or to the state and local law enforcement agencies that participated in the seizure, allocated between them to reflect the proportionate contribution of each agency.

(B) Fifteen percent to the prosecutorial agency which processes the forfeiture action.

(4) Ten percent of the balance for deposit in the Asset Forfeiture Distribution Fund, which is hereby created, and which shall be administered by the Office of Criminal Justice Planning.

(A) Notwithstanding Section 11340 of the Government Code, one million five hundred thousand dollars ($1,500,000) is hereby continuously appropriated each fiscal year, as adjusted annually by the state and local implicit price deflator, to the State Department of Mental Health for the purposes of Chapter 6 (commencing with Section 5475) of Part 1 of Division 5 of the Welfare and Institutions Code. This subparagraph shall be funded prior to funding subparagraph (B).

(B) After the obligation specified in subparagraph (A) is satisfied, moneys in the Asset Forfeiture Distribution Fund are available for appropriation in the annual Budget Act for the following purposes:

(i) One million dollars ($1,000,000), in 1989 and 1990 only, to the Los Angeles County Office of Education to fund grants and administer the Gang Risk Intervention Pilot Program as established pursuant to Assembly Bill 3723 of the 1987–88 Regular Session of the Legislature. This clause (i) shall be funded prior to funding clauses (ii) and (iii). This clause (i) shall remain operative only until January

1, 1991, and as of that date is inoperative.

(ii) An amount not to exceed 5 percent of the Asset Forfeiture Distribution Fund to cover administrative costs incurred by the Office of Criminal Justice Planning. Notwithstanding Section 16305.7 of the Government Code, any interest earned or other increment derived from investments made from moneys in the Assets Forfeiture Distribution Fund shall be deposited in the Asset Forfeiture Distribution Fund. This clause (ii) shall be funded prior to funding clause (iii).

(iii) The balance, if any, remaining shall be distributed, as follows:

(I) Eighty-five percent for deposit in the Peace Officers' Training Fund as set forth in Section 13520 of the Penal Code. State agencies shall be entitled to allocations out of the funds generated by this section, in the same manner as provided in Section 13523 of the Penal Code, for drug related training provided to full-time regularly-paid peace officers employed by the state, to the extent that there are funds in the Peace Officers' Training Fund generated by this section.

All funds allocated to the Department of Justice by the federal government under its Federal Asset Forfeiture program authorized by the Comprehensive Crime Control Act of 1984 may be deposited directly into the Narcotics Assistance and Relinquishment by Criminal Offenders Fund and used for state and local law enforcement efforts pursuant to Section 11493.

Funds which are not deposited pursuant to the above paragraph shall be deposited into the Department of Justice Special Deposit Fund-Federal Asset Forfeiture Account.

(d) All the funds distributed pursuant to paragraph (3) of subdivision (b) shall not supplant any state or local funds that would, in the absence of this subdivision, be made available to support the law enforcement and prosecutorial efforts of these agencies. Funds so distributed shall be used by the law enforcement and prosecutorial agencies exclusively to support law enforcement and prosecutorial efforts of those agencies.

The court shall order the forfeiture proceeds distributed to the state, local, or state and local governmental entities as provided in this section.

This clause (ii) shall be funded prior to funding clause (iii).

(iii) The balance, if any, remaining shall be distributed, as follows:

Funds which are not deposited pursuant to the above paragraph shall be deposited into the Department of Justice Special Deposit Fund-Federal Asset Forfeiture Account.

(d) All the funds distributed pursuant to paragraph (3) of subdivision (b) shall not supplant any state or local funds that would, in the absence of this subdivision, be made available to support the law enforcement and prosecutorial efforts of these agencies. Funds so distributed shall be used by the law enforcement and prosecutorial agencies exclusively to support law enforcement and prosecutorial efforts of those agencies.

The court shall order the forfeiture proceeds distributed to the state, local, or state and local governmental entities as provided in

this section.

For the purposes of this section, "local governmental entity" means any city, county, or city and county in this state.

All proceeds from forfeiture proceedings completed after January 1, 1989, shall be distributed in accordance with this section.

Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

# CHAPTER 1493

An act relating to international trade, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 28, 1988.]

I am deleting the $100,000 appropriation contained in Section 4 of Assembly Bill No. 4219.

This bill would require the California State World Trade Commission to examine the role of international competition on California's agriculture industry. The bill would appropriate $100,000 from the General Fund to the Commission for the study.

The demands placed on budget resources require all of us to set priorities. The budget enacted in July 1988 appropriated nearly $44 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

Thus, after reviewing this legislation, I have concluded that its merits do not sufficiently outweigh the need this year for funding top priority programs and continuing a prudent reserve for economic uncertainties.

It is more appropriate to consider funding the provisions of this bill during the budget process for Fiscal Year 1989–90. Only at that time can we review the relative merits of this program in comparison to all other funding projects. The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit.

With this deletion, I approve Assembly Bill No. 4219.

GEORGE DEUKMEJIAN, Governor

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares all of the following:

(a) The recent evolution of global competition in the agriculture industry is creating a growing concern among California producers facing steadily increasing imports of farm products.

(b) Changing economics are increasingly driving California food producers and processors abroad and prompting California farmers to seek retaliatory protectionist measures against foreign producers.

(c) It is in the best interest of the California agriculture industry to take a hard comprehensive look at the factors contributing to the increasingly competitive global agriculture arena and to seek strategies and solutions to solving the problem.

SEC. 2. The California State World Trade Commission shall examine the role of international competition on California's agriculture industry. The examination shall focus on the strategies, actions, and activities necessary to maintain the competitiveness of California agriculture. The California State World Trade Commission shall convene a working group of agriculture industry representatives and experts to determine the overall scope of the examination, including:

(a) An indepth analysis of the potential impact and benefits of country-of-origin labeling requirements of agricultural products sold in California. The analysis shall address all of the following:

(1) Degree to which consumers desire to know the country-of-origin of agricultural products sold in California.

(2) Likely effect on consumption choices and buying patterns for different types of products, including an assessment of the potential for retailers to sell additional volumes of domestically produced agricultural commodities.

(3) Specific identification of any potential impacts on our international trading relationships.

(4) A review of Florida and Canada's provincial country-of-origin laws and the European Economic Community country-of-origin labeling requirement, including an assessment on the benefits to local agricultural producers from these requirements.

(5) A review of current federal country-of-origin labeling requirements and their impact on our international trading relationships.

(6) A review of the constitutionality and compliance with international trading rules of such a law.

(7) The need for, cost, and likely effectiveness of government enforcement.

(8) A review of the ability for retailers to comply with country-of-origin labeling and identification of any specific commodities for which a retailer would not know the country-of-origin.

(b) An analysis of other factors of importance in the increasingly competitive international agricultural arena and recommendations for further study or specific action necessary to maintain California competitiveness, including the following:

(1) The impact of management's cropping patterns, and efficiency of agricultural technology and decisionmaking.

(2) The impact of domestic labor costs in California and its effect on California producers' ability to compete with foreign produce domestically and abroad.

(3) The impact of California's stringent pesticide usage and residue tolerance levels on California growers' ability to compete with less stringently regulated foreign producers, both domestically and abroad, and alternative strategies to deal with this situation.

(4) The impact of the Generalized System of Preferences Program operated under the General Agreement on Tariffs and Trade on the ability of California specialty crops to compete domestically and internationally.

(5) The technological and new product development necessary to keep California competitive and an evaluation of the means for implementing the necessary research and development.

SEC. 3. The California State World Trade Commission may contract with the University of California, or any other entity, for the performance of the examination required by this act. The cost of the study shall not exceed one hundred thousand dollars ($100,000). The commission shall report all its findings and recommendations made pursuant to this act to the Governor, the Lieutenant Governor, the

Secretary of State, the Senate Committee on Rules, and the Speaker of the Assembly no later than June 30, 1989.

SEC. 4. The sum of one hundred thousand dollars ($100,000) is hereby appropriated from the General Fund to the California State World Trade Commission in order to implement this act. Any funds not needed to complete the study shall revert to the General Fund.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to assure a timely examination of a pressing issue of critical importance to the state's economy, it is necessary that this act go into immediate effect.

## CHAPTER 1494

An act to add Section 4026 to the Welfare and Institutions Code, relating to mentally disordered persons.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 4026 is added to the Welfare and Institutions Code, to read:

4026. (a) The Legislature finds and declares all of the following:

(1) That there is a severe shortage of adequate facilities for mentally disordered patients of all ages since the closing of the 48 out of 94 facilities in the mental illness program in 1968.

(2) That most of these mentally disordered people, who do not have families and money, are turned away from any treatment or therapy from the state and are forced to be sent out on the street.

(3) That these mentally disordered patients are not receiving the care that they are entitled to.

(4) That this shortage is demonstrated by the current practice of placing mentally disordered patients in jails and in transferring them from county to county.

(5) That mentally disordered patients are currently displacing potential residents over the age of 55 at our existing long-term health care facilities.

(6) That since the closing of these mental health facilities, the counties have been instructed by the State Department of Mental Health to commit the mentally disordered to skilled and long-term care nursing facilities.

(7) That when long-term care facilities house both mentally disordered patients and seniors, severe disruption and stress results, particularly in the nonmentally disordered senior population.

(8) That in order to meet the needs of seniors residing in long-term health care facilities, as well as mentally disordered patients, it would be of immense value to preclude mentally disordered persons from residing in long-term health care facilities, while, at the same time, ensuring that adequate facilities exist for the housing of mentally disordered patients.

(b) The State Department of Mental Health shall determine the extent of the problem, and identify the number of mentally disordered patients who are in need of long-term health care.

The department also shall determine how many people, whose primary illness is a mental disorder, are residing in long-term health care facilities, as defined in Section 1418 of the Health and Safety Code. If deemed appropriate, the department shall ask that any person whose primary illness is a mental disorder be precluded from residing in long-term health care facilities, if the residence is not in accordance with the then current licensing requirements.

The department also shall identify the extent of the shortage of long-term health care services and programs and make a preliminary estimate of costs of providing long-term health care services and programs for those patients. Those services and programs shall be ready to serve mentally disordered persons prior to any mentally disordered patient being denied admission to, or discharged from, the health care facility, when the denial or discharge has been made to comply with the then current licensing requirements.

The department shall report the results of its investigation to the Governor and the Legislature by January 1, 1990, with recommendations on the desired course of action to alleviate any problems identified resulting from inappropriate placement of mentally disordered persons in these facilities.

## CHAPTER 1495

An act to add Section 7072.5 to the Business and Professions Code, relating to contractors.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 28, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 7072.5 is added to the Business and Professions Code, to read:

7072.5. (a) Upon the issuance of a license, a plasticized pocket card of a size, design, and content as may be determined by the registrar shall be issued at no cost to each licensee, or to the partners or officers or responsible managing officer of licensees licensed as other than individuals, which card shall be evidence that the licensee is duly licensed pursuant to this chapter. All cards issued shall be

surrended upon the suspension, revocation, or denial of renewal of the license, and shall be mailed or delivered to the board within five days of the suspension, revocation, or denial.

(b) When any person to whom a card is issued terminates his or her position, office, or association with a licensee which is licensed as other than an individual, that person shall surrender his or her card to the licensee and within five days thereafter the card shall be mailed or delivered by the licensee to the board for cancellation.

(c) The Contractors' State License Board shall, prior to production of the plasticized cards, develop a system for the reporting and tracking of lost or stolen cards. The cards shall be issued to all licensees upon license renewal on and after July 1, 1989.

SEC. 2. (a) There is hereby created a pilot project on direct access contractor license verification systems. The goals of the pilot project shall be to determine the most appropriate method of providing cities, counties, or cities and counties with direct access to the licensure information, including bonding, maintained by the Contractors' State License Board and the most appropriate method of obtaining and providing timely and accurate workers' compensation insurance information on contractors to cities, counties, and cities and counties. The project shall be conducted in not less than six cities, counties, or cities and counties, or other entities, as determined by the Registrar of Contractors, and upon assent thereto by those cities, counties, or cities and counties, or other entities. The Contractors' State License Board shall provide each participant in the pilot project with the capability to obtain verification of proper licensure, bonding, and workers' compensation insurance of contractors engaged in projects requiring licensure through direct access, to computerized contractor license records maintained by the Contractors' State License Board. The Contractors' State License Board shall consider methods of access including magnetized stripe cards, bar coded cards, microchip-based cards, related hardware and software, and telecommunication means. Their initial analysis shall include technical feasibility, operational effectiveness, maintenance, risk factors, and cost or benefit of these media. This analysis shall be done in coordination with the office of information technology of the Department of Finance. Risk factors shall include security information in accordance with the Records Management Act, the Information Practices Act, and state electronic data processing policies. The pilot project shall be in operation no less than one year in each of the participating entities.

(b) The Contractors' State License Board shall report to the Legislature on or before March 31, 1991, as to the effectiveness of the pilot project for verification of contractor licensure and the feasibility and cost of implementing one or more of the methods statewide. The report shall include, but not be limited to, the following:

(1) The equipment and technology or technologies used in the

pilot project.

(2) The technical feasibility, operational effectiveness, maintenance, risk factors, and cost or benefit of the equipment and technology or technologies used in the pilot project, including a feasibility study report on the recommended technology or technologies if necessary for implementation.

(3) The impacts of the pilot project on unlicensed and uninsured activity in the participating entities and any economic benefits to the entities participating in the pilot project.

(4) Recommendations for ongoing direct access programming, including funding, ownership of the data base and ancillary information, and to whom and under what conditions such data base information should be available.

(5) Recommendations on any legislation necessary to make an ongoing, direct access program more feasible, including determination of liability to the state for information contained in the data base.

(6) Recommendations on changes that are necessary to access workers' compensation insurance or other records and to ensure that contractors continue to meet the license and insurance standards exisiting at the time of permit issuance throughout the term of construction for which the permit was issued.

The Contractors' State License Board shall report on a biannual basis to the Legislature, Legislative Analyst, and the Office of Information Technology of the Department of Finance on the status and findings of the pilot project.

*The people of the State of California do enact as follows:*

SECTION 1. Section 3209.3 of the Labor Code is amended to read:

3209.3. (a) "Physician" includes physicians and surgeons holding an M.D. or D.O. degree, psychologists, acupuncturists, optometrists, dentists, podiatrists, and chiropractic practitioners licensed by California state law and within the scope of their practice as defined by California state law.

Psychology.

(c) When treatment or evaluation for an injury is provided by a psychologist, provision shall be made for appropriate medical collaboration when requested by the employer or the insurer.

(d) "Acupuncturist" means a person who holds an acupuncturist's certificate issued pursuant to Chapter 12 (commencing with Section 4925) of Division 2 of the Business and Professions Code.

## CHAPTER 1497

An act to amend Section 11169 of the Penal Code, relating to child abuse, and making an appropriation therefor.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 28, 1988.]

I am deleting the $25,000 appropriation contained in Section 3 of Senate Bill No. 2457.

This bill would appropriate $25,000 from the General Fund to the Department of Justice to study the appropriateness of purging unsubstantiated reports of child abuse from the Child Abuse Registry.

The demands placed on budget resources require all of us to set priorities. The budget enacted in July 1988 appropriated nearly $44 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

Thus, after reviewing this legislation, I have concluded that its merits do not sufficiently outweigh the need this year for funding top priority programs and continuing a prudent reserve for economic uncertainties.

It is more appropriate to consider funding the provisions of this bill during the budget process for Fiscal Year 1989–90. Only at that time can we review the relative

merits of this program in comparison to all other funding projects. The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit.

With this deletion, I approve Senate Bill No. 2457.

GEORGE DEUKMEJIAN, Governor

*The people of the State of California do enact as follows:*

SECTION 1. Section 11169 of the Penal Code is amended to read:

11169. A child protective agency shall forward to the Department of Justice a report in writing of every case it investigates of known or suspected child abuse which is determined not to be unfounded, other than cases coming within subdivision (b) of Section 11165.2. A child protective agency shall not forward a report to the Department of Justice unless it has conducted an active investigation and determined that the report is not unfounded, as defined in Section 11165.12. If a report has previously been filed which subsequently proves to be unfounded, the Department of Justice shall be notified in writing of that fact and shall not retain the report. The report required by this section shall be in a form approved by the Department of Justice. A child protective agency receiving a written report from another child protective agency shall not send such report to the Department of Justice.

The immunity provisions of Section 11172 shall not apply to the submission of a report by a child protective agency pursuant to this section. However, nothing in this section shall be construed to alter or diminish any other immunity provisions of state or federal law.

SEC. 2. The Department of Justice shall conduct a study on the appropriateness of purging from the index it maintains pursuant to Section 11170 of the Penal Code all unsubstantiated reports of child abuse, as defined in Section 11165.6 of the Penal Code, or neglect, as defined in Section 11165.2 of the Penal Code, if after five consecutive years, or some other reasonable time period there have been no additional reports of suspected child abuse or neglect by that party. The study also shall include the advantages and disadvantages of advising persons that their names are on the index, how they are categorized on the index, the names of the agencies that reported them to the department, and the procedure, if any, by which they may have their names removed from the index. The study shall also include a recommendation which defines the categories of "substantiated," "unsubstantiated," and "unfounded" reports of child abuse and neglect, and a discussion of the basis for the recommendation. The department shall consult with a wide array of interested parties, including, but not limited to, child protective agencies, child abuse prevention councils, child/parents advocates, and day-care providers. The department shall report the results of the study to the Legislature on or before January 1, 1990.

SEC. 3. The sum of twenty-five thousand dollars ($25,000) is hereby appropriated from the General Fund to the Department of Justice for the purpose of conducting the study required by Section 1 of this act.

# CHAPTER 1498

An act to amend Section 13651 of the Business and Professions Code, relating to service stations.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 13651 of the Business and Professions Code is amended to read:

13651. (a) On and after January 1, 1985, every service station in this state shall provide, during operating hours, water, compressed air, and a gauge for measuring air pressure, to the public for use in servicing any passenger vehicle, as defined in Section 465 of the Vehicle Code, or any commercial vehicle, as defined in Section 260 of the Vehicle Code, with an unladen weight of 6,000 pounds or less.

(b) On and after January 1, 1990, every service station in this state located within 660 feet of an accessible right-of-way of any interstate or primary highway, as defined in Sections 5215 and 5220, shall provide, during business hours, public restrooms for use by its customers. The public restroom shall not be temporary or portable but shall be permanent and shall include separate facilities for men and women, each with toilets and sinks suitable for use by the handicapped in accordance with Section 19955.5 of the Health and Safety Code and Title 24 of the California Code of Regulations and shall be maintained in a clean and sanitary manner. This section shall not apply to service stations which are fully operational prior to January 1, 1990.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

# CHAPTER 1499

An act to add Section 17719.3 to the Education Code, relating to school facilities.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. (a) The Legislature hereby finds and declares all of the following:

(1) There is a compelling public interest in ensuring that state and local governmental funds, as well as private funds, available for the construction of school facilities be obtained and used in a timely manner.

(2) In order to maximize the use of those funds and to maintain a competitive posture in seeking state school construction assistance, it is necessary for school districts to complete school facilities construction projects in a timely manner.

(3) Changes in state and local governmental funding, and the growing participation of private funding in the state school construction program, can result in significant fluctuations in construction project management workload. In order to maintain a more stable work force in school districts, and to avoid the costly process of short-term hiring and layoff of staff while responding in a timely manner to funding opportunities and uncertainties, additional flexibility is needed to supplement the program staff of school districts, through contracting with qualified construction project management contractors.

(b) Pursuant to the findings and declarations set forth in subdivision (a), it is the intent of the Legislature that school districts contract for construction project management services in order to provide professional technical assistance in the development and implementation of a project funded under the state school construction program whenever those districts are inadequately staffed to accomplish those purposes in a timely and effective manner. It is further the intent of the Legislature that, under those circumstances, funding be provided under the state school construction program to meet the costs of that contracting.

SEC. 2. Section 17719.3 is added to the Education Code, to read:

17719.3. (a) Any applicant school district may contract with a firm, as defined in Section 4525 of the Government Code, for construction project management services to assist in the development or implementation of a project for which the district has applied for funding under this chapter, subject to the requirement that a performance bond be required from all building contractors hired to construct the project in order to ensure the completion of performance under the contract.

(b) That portion of any contract, as described in subdivision (a), concerning the final phase of construction of the project, shall be submitted by the applicant district to the board for approval. If the board does not approve, reject, or recommend modifications to, that contract portion within 15 business days after receiving that contract information, that portion of the contract shall be deemed to be approved by the board.

(c) From the amount of funding approved by the board under this chapter for any project, the board shall authorize the expenditure of funds for the costs of construction project management services provided to the project, as described in subdivision (a), where the board finds that the contracting for those services was necessary and appropriate to the school district's development or implementation of that project.

Article 2. General Provisions

76600. The Legislature finds and declares that the provisions of this chapter are enacted in the exercise of the power of this state for the purposes of protecting and furthering the public health and welfare.

76601. The Legislature further finds and declares that the salmon fishery of this state is affected with a public interest, in that, among other things:

(a) The harvesting, processing, manufacturing, and distributing of salmon and salmon products constitute a paramount industry of this state, which not only provides substantial and required revenues for the state and its political subdivisions and employment and a means of livelihood for many thousands of its population, but which also furnishes essential foods that are vital to the public health and welfare.

(b) The development of the salmon fishery requires, in addition to the protection and restoration of spawning and nursery habitat in rivers, rearing programs designed to rebuild salmon populations, the full utilization and efficient operation of mitigation fish hatcheries, and existing regulations that assure adequate returns of spawning salmon, an aggressive marketing program, and a program to allow for the purchase, during years of low abundance, of the allocation of fish provided to other salmon users in order to assure that the commercial salmon fishery has the maximum access to healthy salmon populations.

(c) The stabilization, maintenance, and expansion of the salmon fishery of California, and of the state, nationwide, and foreign markets for its products are necessary to assure the consuming public an adequate supply of foods which are indispensable in a proper human diet, to protect, for the state and its political subdivisions, a necessary source of tax revenue, to provide and maintain an adequate standard of living for a segment of the population of this state, to maintain proper wage scales for those engaged in the salmon fishery, and to maintain existing employment.

(d) The essentiality of salmon, low in fat and calories and naturally rich in Omega 3 fatty acids, in proper human nutrition and to the maintenance of a high level of public health is such as to require that the public be made thoroughly aware thereof, and be protected against misrepresentation and deception, by the dissemination of accurate and scientific information relative to the healthful qualities of salmon and salmon products, their various classifications and the food values and industrial and medicinal uses thereof, the methods, care and precautions necessary to their proper harvesting, processing, manufacturing, and distributing, and the necessary costs and expenses thereof, and the necessity and desirability on the part of the public of using and consuming salmon and salmon products of the highest standards of quality.

76602. The Legislature declares that the purposes of this chapter

are as follows:

(a) To enable the salmon fishery, with the aid of the state, to develop, maintain, and expand the state, nationwide, and foreign markets for salmon and salmon products harvested, processed, manufactured, sold, or distributed in this state for human consumption, and the use and consumption of salmon and salmon products in those markets.

(b) To enable the salmon fishery to purchase, where there are willing sellers, the allocation rights to harvest salmon, as they may exist, of other salmon user groups to provide fishermen, and thereby the salmon fishery, greater access to salmon stocks than otherwise may have been provided pursuant to a conservation, management, or allocation agreement.

(c) In aid, but not in limitation, of the purpose in subdivision (a), to authorize and enable the director to formulate and effectuate, directly or in cooperation with other agencies, organizations, including the Oregon Salmon Commission, the West Coast Fisheries Development Foundation, and the National Fish and Seafood Promotion Council, and instrumentalities which are specified in this chapter, sales stimulation and consumer, or other educational programs designed to increase the use and consumption of salmon and salmon products for human consumption.

(d) To provide funds for the administration and enforcement of this chapter by mandatory fees to be collected in the manner which is prescribed in this chapter.

76603. This chapter shall be liberally construed.

76604. If any provision of this chapter or the application thereof to any person or circumstances is held invalid, that invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

76605. A violation of this chapter is a misdemeanor.

## Article 3. Administration

76650. The director shall administer and enforce this chapter, and may exercise any of the administrative powers which are conferred by Sections 11180 to 11191, inclusive, of the Government Code upon a head of a department. In order to effectuate the declared purposes of this chapter, the director may contract to carry out the declared intent and purposes of this chapter.

76651. Upon recommendation by the council, the director may adopt, consistent with this chapter, any regulations which cover the administration and enforcement of this chapter that may be necessary to carry out the purposes and attain the objectives of this chapter, except the director shall not engage in any salmon promotion activity or pursue the purchase of allocation rights to harvest salmon without the approval of a majority of the voting members of the council.

76652. Upon the adoption of any regulations under this chapter, a copy of the regulations shall be posted on a bulletin board which shall be maintained by the director in his or her office. No regulation shall become effective until five days after the date of that posting and mailing. The director shall mail a copy of the notice of the issuance of the regulations to every marketing association and every receiver that is directly affected by the regulations whose name and address may be on file in the office of the director and to every person who files in the office of the director a written request for that notice.

## Article 4. California Salmon Council

76700. There is in the state government the California Salmon Council. The council shall be composed of nine voting members and their alternates, and five nonvoting members.

76701. The voting members of the council shall be appointed by the director, after consultation with the Director of Fish and Game, giving due consideration to proper geographic distribution. The nine members shall include:

(a) Five fishermen or their representatives, and their alternates.

(b) Two handlers who are receivers or processors or their representatives, and their alternates.

(c) One representative of a handler who is an exporter or a wholesaler, and an alternate.

(d) One public member, and an alternate.

76702. (a) The fishermen and their alternates shall be selected from lists of nominees submitted by marketing associations and any organization deemed to represent the majority of organized California commercial salmon fishermen, and from nominations by individual fishermen.

(b) The receivers, processors, wholesalers, or exporters and their alternates shall be selected from lists of nominees submitted by an organization deemed to represent the majority of those organized groups in the state, and from individual receivers, processors, wholesalers, and exporters.

(c) The public member and alternate shall be selected by the director from a list submitted by the fishermen and handler members of the council.

76703. The voting members of the council shall each be appointed to a three-year term, except that in the first year of the council, three members shall be appointed to one-year terms; three members shall be appointed to two-year terms; and three shall be appointed to three-year terms.

76704. The term of office of a member of the council shall begin on April 1 and expire on March 31.

76705. Any vacancy in the membership of the council which occurs during the unexpired term shall be filled by the director for the unexpired term from the eligible nominees. No council member

or alternate shall serve more than two consecutive three-year terms. Service as an alternate does not disqualify a person to then serve two additional terms as a member, and a member who was appointed for a one-year or a two-year term may serve two additional three-year terms.

76706. The director may remove any member of the council or alternate for cause, and, upon that removal, there is a vacancy which shall be filled in the manner as provided for the unexpired term in Section 76705.

76707. The director shall give notice, not later than January 31 of each year, of the vacancies that will exist upon the expiration of terms on March 31, in writing, to all marketing associations and organizations deemed to represent the majority of organized fishermen, or receivers, processors, wholesalers, and exporters, and shall issue any press releases and public statements that the director deems appropriate requesting nominations.

76708. (a) The notice requesting nominations shall indicate that nominations shall be mailed to the director at his or her office in Sacramento and that the director will consider nominations received by mail postmarked not later than March 15.

(b) Nominations shall set forth all of the following:

(1) The name and address of each nominee.

(2) Whether each nominee is being nominated as a member or alternate member.

(3) The type of category for which the nominee is being nominated.

(4) The list of qualifications and supporters, if any, for the nominee.

(5) The name and address of the nominating marketing association, organization, or individual.

76709. The nonvoting members of the council shall be representatives of the following agencies, as selected by the director:

(a) The department.

(b) The Department of Fish and Game.

(c) The California Sea Grant Program.

(d) The West Coast Fisheries Development Foundation or the Coastal Fisheries Foundation.

(e) The California State World Trade Commission.

76710. There is no fixed term for nonvoting members of the council. The agencies may, but are not required to, select an alternate for their representative.

76711. A majority of the voting members of the council shall constitute a quorum for the transaction of all business, including the election of officers.

76712. (a) The council shall select annually from its voting number, to serve at its pleasure, a chair and vice chair.

(b) The chair and vice chair, together with four other voting members, selected annually by the council, shall constitute the executive committee of the council. The executive committee shall

have and exercise any powers of the council that the council may delegate to it.

76713. The council shall hold two regular meetings in each year at times and places which are fixed by the council. The times for regular meetings shall be fixed so that there is an interval of at least four calendar months between the meetings. Consideration shall be given for the commercial fishing season and no regular meeting shall be held during the commercial salmon season. The council may meet in special meetings at any time and place at the call of the chair or upon the written request of five members of the council. The executive committee shall have two regular meetings each year at times and places which are fixed by it, and may meet in special meetings at any time and place at the call of the chair or on call of a majority of the members of the executive committee.

76714. The voting members of the council shall receive forty dollars ($40) per day per diem for each day spent in actual attendance at the meetings or on the business of the council and shall be reimbursed for necessary traveling and other expenses incurred in the performance of their official duties, except, during the first year of council operations, when members shall serve at their own expense. Nonvoting members shall be reimbursed at the same rate as voting members when their agencies do not pay their expenses. Alternates shall only be paid expenses and per diem for meetings at which they serve as the replacement for the regular member.

76715. No member of the council, except a member of the executive committee, shall receive compensation for more than three days' service per month, except the chair, who may receive compensation for not more than seven days per month.

76716. The director may require any employee or agent of the council to give a fidelity bond, executed by a surety company which is authorized to do business in this state, in favor of the director, in the sum, and containing any terms and conditions, that the director may prescribe. The cost of the fidelity bonds of employees or agents of the council shall be paid from the funds which are collected pursuant to this chapter.

76717. No member or employee of the council shall be held responsible individually to any person for liability on any contract or agreement of the council. All salaries, expenses, costs, obligations, and liabilities which arise out of the administration and enforcement of this chapter are payable only from funds which are collected pursuant to the provisions of this chapter.

76718. An alternate member of the council shall sit as a regular member of the council if the member for whom he or she is an alternate fails for any reason to attend any meeting of the council. The alternate member shall be compensated and reimbursed in the same manner and to the same extent as a regular member when so serving. When so serving, the alternate member has all of the powers, duties, liabilities, and immunities of the member in whose place he or she is serving, except that the alternate to the chair or

vice chair shall not succeed to the functions of these offices.

76719. The Legislature finds and declares that fishermen, receivers, processors, wholesalers, or exporters appointed to the council pursuant to this article are intended to represent and further the interest of a particular agricultural industry concerned, and that this representation and furtherance is intended to serve the public interest. Accordingly, the Legislature finds and declares that, with respect to persons who are appointed to the council, the particular agricultural industry concerned is tantamount to, and constitutes, the public generally within the meaning of Section 87103 of the Government Code.

### Article 5. Powers and Duties

76750. The duties of the council shall be advisory, except as to those duties which may be delegated to it by the director or as otherwise designated in this chapter. The council may, subject to the approval of the director, exercise any of the following powers which may be delegated to the council by the director:

(a) To recommend to the director administrative regulations which relate to the administration and enforcement of this chapter.

(b) To investigate all matters which affect the administration of this chapter, and to report violations of it to the director.

(c) To employ and, at its pleasure, discharge a manager and such clerical help and other employees as it deems necessary, and to prescribe their duties and powers and fix their compensation.

(d) To contract with, or employ, and at its pleasure, discharge any other persons that it deems necessary, and in the cases of such of them as it shall employ, to outline their powers and duties and fix their compensation.

(e) To establish offices and incur expenses incidental thereto.

(f) To make contracts and other agreements that may be proper to promote the sale of salmon and salmon products on either a local, state, national, or international basis.

(g) (1) To cooperate with any other local, state, or national commission, organization, or agency, whether voluntary or created by state or federal law, including, but not limited to, the Oregon Salmon Commission, the West Coast Fisheries Development Foundation, the Coastal Fisheries Foundation, and the National Fish and Seafood Promotion Council, which is engaged in work or activities similar to the work and activities of the council, and to recommend to the director the making of contracts and agreements with those organizations or agencies for carrying on joint programs of education, research, publicity, and advertising.

(2) To recommend to the director the making of contracts and agreements with other councils, commodity commissions, or producer organizations for joint programs of publicity and advertising where those products are compatible with the promotion of salmon and salmon products.

(3) In matters of research, to cooperate with organizations of recognized professional standing which are adequately equipped with facilities for the research which is contemplated.

(h) To recommend to the director the institution and promotion of scientific research to develop or discover, or both, the health, food, therapeutic, dietetic, and other uses of salmon.

(i) (1) To receive, invest, and disburse funds pursuant to Article 8 (commencing with Section 76900).

(2) To allocate funds to agencies not specifically or solely engaged in carrying on research or promotion for salmon, if the council and the director are satisfied that those allocations will be beneficial to the California salmon fishery and will tend to effectuate the declared purposes of this chapter.

76751. The council shall keep books, records, and accounts of all its transactions, dealings, contracts, agreements, funds, and expenditures that it deems necessary. The books, records, and accounts shall at all times be open to inspection and audit by the director.

76752. A member, alternate, agent, or employee of the council shall not do any of the following:

(a) Appear before any legislative committee of the state or federal government as a representative of the council unless requested to do so by that committee.

(b) Lobby in any manner as a representative of the council.

76753. Funds which are collected pursuant to this chapter shall not be used for political contributions.

76754. The council shall prepare, annually, summarized statements of the activities in which it has been engaged in the previous annual period, and of the activities in which it proposes to engage in the ensuing annual period. The statements shall be made available to all marketing associations, organizations of fishermen and receivers, processors, wholesalers, and exporters, and individuals that request them in writing.

## Article 6. Education, Research, and Public Information Programs

76800. The director shall conduct, or may cause the council to conduct, programs of education, research, or public information, which are designed to accomplish the following purposes, among others:

(a) Increase the consumption of salmon and salmon products.

(b) Gather, publicize, and diffuse accurate and scientific information which shows the importance of the use and consumption of salmon and salmon products in relation to the public health, economy, and diet, and proper nutrition of children and adults.

(c) Study means and methods which are employed in harvesting, processing, manufacturing, marketing, and distributing salmon and salmon products in order to comply with the sanitary and other regulations which are imposed by municipalities, this state, and the

United States.

(d) Gather and disseminate information regarding the high standards which are observed and imposed to insure pure and wholesome salmon and salmon products.

(e) Gather and disseminate information regarding the harmful effects on the public health resulting from the breakdown or instability of the salmon fishery, the factors and conditions peculiar to the salmon fishery which tend to cause an unbalanced production, and the price of salmon and salmon products in relation to the cost of other items of food in a balanced diet.

(f) Gather and disseminate information regarding the factors which tend to promote increased consumption of salmon and salmon products, stabilize the fishery, and foster a better understanding and more efficient cooperation among fishermen, receivers, processors, and the consuming public.

76801. No program or activity which is conducted or sponsored pursuant to this chapter shall make false or unwarranted claims, or disparage the quality, value, use, or sale of any commodity authorized by law to be marketed in this state, nor shall any program be conducted with reference to a private brand or trade name which refers to salmon or salmon products.

76802. The council shall not expend council funds for the advertising of brand name salmon products. The council may expend council funds to conduct cost-sharing advertising with nonbrand name salmon products.

## Article 7. Purchase of Allocation Shares

76850. The Attorney General shall annually review all applicable state and federal laws, regulations, and procedures used to set salmon fishing seasons and shall determine whether allocations of rights to harvest salmon held by users, including tribal interests, may lawfully exist for purchase, trade, or exchange or under what conditions that purchase, trade, or exchange may lawfully be made.

76851. If the Attorney General determines under Section 76850 that selling allocation rights to harvest salmon would be binding and consistent with California public policy and if an agreement for purchase of allocation rights of harvest is determined to be lawful and binding, the Director of Fish and Game may, in consultation with the director, develop a program to authorize the transfer of the allocation rights consistent with all other state or federal laws and regulations. Upon authorization by the Director of Fish and Game, the director may, at a price and quantity agreed to by the council, and with funds available from the council, enter into an agreement for the purchase of the allocation rights to harvest from another user holding bona fide rights to harvest stocks of salmon.

76852. The council, in any negotiations for the purchase of tribal allocations of rights to harvest, if any, however they may exist, may, with the director, seek federal or other funds as may be available to

match the council funds for the purchase of allocation rights to harvest in recognition of the federal government's responsibility to the Indian people and their resources.

Article 8. Financial Provisions

76900. In order to carry out the programs and administer the activities which are conducted pursuant to this chapter, except as specified in Section 76905, a fee of two cents ($0.02) per pound of every salmon sold to a receiver, or sold by a fisherman directly to the public pursuant to Section 8033.5 of the Fish and Game Code, shall be paid by the fisherman, deducted from the landing receipt issued to the fisherman by the receiver pursuant to Section 8043 of the Fish and Game Code, and shall be remitted to the director as specified in Section 76901. A fisherman selling to the public pursuant to Section 8033.5 of the Fish and Game Code shall remit the fee directly to the director as specified in Section 76901.

76901. The fees which are collected pursuant to this article shall be forwarded to the director at the time landing taxes are paid to the Department of Fish and Game pursuant to Section 8053 of the Fish and Game Code. The director shall supply forms that may be necessary for the remittance of fees. The director may consult with the Director of Fish and Game and enter into agreements with the Department of Fish and Game, where necessary and reasonable, to assist in the administration of this article and ensure compliance with it.

76902. The collection of funds from anyone who fails to pay or remit fees due and payable shall be conducted pursuant to Sections 8047 to 8052, inclusive, of the Fish and Game Code.

76903. Every claim or refund for credit for overpayment of fees shall be in writing and shall state the specific ground upon which the claim is founded.

76904. Sections 8060 to 8069, inclusive, of the Fish and Game Code shall apply to claims for overpayment of fees to the director. For purposes of this section, "department," as used in those sections, means the Department of Food and Agriculture, and "landing tax" means the fees imposed pursuant to this article.

76905. After one year after the establishment of the council, and not before the commercial salmon season of 1990, the council may recommend to the director an increase over and above the two cents ($0.02) per pound fee for the council to carry out its duties under this chapter. The council shall consider the budget for the council, funding for activities conducted pursuant to Article 6 (commencing with Section 76800) and Article 7 (commencing with Section 76850), as well as the market price of salmon, landing taxes imposed by the Department of Fish and Game, assessments charged by marketing associations, and any other relevant factor affecting the economics of the salmon fishery. The council shall, in making any determination to increase fees, consult with marketing associations and, if the

recommended increase would exceed seven cents ($0.07) per pound of salmon sold, shall conduct a ballot poll of the fishermen on the director's list established pursuant to Article 9 (commencing with Section 76950). After a ballot poll on a recommended increase exceeding seven cents ($0.07) per pound of salmon sold, the council shall consult with marketing associations and, if the recommended increase would exceed five cents ($0.05) per pound of salmon sold, shall conduct a ballot poll of the fishermen on the director's list. The director may not increase any fee without a majority approval of the voting members of the council.

76906. (a) All money which is collected by the director pursuant to this chapter shall be deposited in any bank, or other depository which is approved by the Director of Finance, allocated to the purposes of this chapter only, and disbursed by the director or the council only for the necessary expenses which are incurred by the council and the director in carrying out the purposes and provisions of this chapter, including expenses generated by the auditing requirement contained in this section. Money which is so collected shall be deposited and disbursed in conformity with appropriate auditing regulations which are prescribed by the director. The expenditure of the money is exempt from the provisions of Section 925.6 and 16304 of the Government Code.

(b) All such expenditures by the council and the director shall be audited at least once every two years by one of the following means:

(1) By contract with a certified public account.

(2) By contract with a public accountant holding a valid permit issued by the State Board of Accountancy.

(3) By contract with a public accounting firm.

(4) By agreement with the Department of Finance.

(c) A copy of the audit shall be delivered within 30 days after completion of the audit to the Governor, the director, and the Controller.

76907. Money which is deposited pursuant to Section 76906 may be invested and reinvested by the Treasurer or the council in any of the securities described in Article 1 (commencing with Section 16430) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code, or placed in a depository as provided in Chapter 4 (commencing with Section 16500) of Part 2 of Division 4 of Title 2 of the Government Code, and handled in the same manner as money in the State Treasury. For these purposes, the money may also be combined with funds which are determined by the director to be available for investment pursuant to Section 58939. Any increment which is received from investment, reinvestment, or deposit made by the Treasurer shall be remitted to the council. The Treasurer may deduct from the remittance an amount equal to the reasonable cost incurred in carrying out this section or may bill the council for the costs and the council shall pay the costs from money which is collected for it pursuant to this chapter.

76908. The director, after consultation with the council, shall

prepare an annual budget which sets forth in reasonable detail the proposed expenditures which the director deems necessary for the performance by him or her and by the department of the duties which are imposed upon them by this chapter. The director shall also prepare and submit to the council an annual statement, in reasonable detail, of the director's expenditures pursuant to this chapter.

76909. The director may receive funds in amounts that may be reasonable and necessary to defray the initial expenses in making effective this chapter. The director shall reimburse those persons from whom those funds are received in the amounts received from any funds which are received by the director pursuant to this article.

76910. The director may accept contributions to advance the purposes of this chapter. If requested by the donor, the contributions shall be segregated and separately maintained for the use of the council.

### Article 9. Implementation, Voting Procedure, and Termination

76950. On or before March 30, 1989, the director shall establish a list of fishermen eligible to vote on implementation of this chapter. In establishing the list, the director may require that handlers and fishermen submit the names and mailing addresses of all fishermen who harvested salmon during the previous season, as evidenced by receipts prepared under Section 8043 of the Fish and Game Code, together with the volume of salmon of each fisherman's landings. The director may also request the assistance of the Director of Fish and Game for the names of all fishermen who landed salmon the previous season. The request for the information shall be in writing. The list shall be filed within 30 days following receipt of the written notice. All information on volume of landings shall be kept confidential.

76951. Any fisherman whose name does not appear upon the director's list of fishermen affected may have his or her name established on the list by filing with the director a signed statement, identifying himself or herself as a fisherman and furnishing evidence of having made landings the previous year through the submission of receipts prepared under Section 8043 of the Fish and Game Code. Failure to be on the list does not exempt a fisherman from paying assessments under this chapter.

76952. This chapter, except as necessary to conduct an implementation referendum vote under this article or as provided in subdivision (b) of Section 76953, shall not become operative until the director finds in an implementation referendum conducted by the director under this article, that at least 40 percent of the total number of fishermen from the list, established by the director pursuant to Section 76950, have participated by voting in the referendum, and the director finds either of the following:

(a) Sixty-five percent or more of the fishermen who voted in the referendum voted in favor of implementing this chapter, and the

fishermen who voted in the referendum marketed a majority of the total quantity of salmon landed in the preceding fiscal year by all the fishermen who voted in the referendum.

(b) A majority of the fishermen who voted in the referendum voted in favor of implementing this chapter, and the fishermen who voted in the referendum marketed 65 percent or more of the total quantity of salmon landed in the preceding fiscal year by all of the fishermen who voted in the referendum.

76953. (a) The director shall establish a period in which to conduct the implementation referendum which shall not be less than 30 days nor more than 60 days in duration, and may prescribe additional procedures as may be necessary to conduct the referendum. If the initial period established is less than 60 days, the director may extend that period. However, the total referendum period may not exceed 60 days nor extend past May 1.

(b) If the director finds that it is not possible to establish a list and to conduct and complete an implementation referendum before May 1, 1989, this chapter shall become operative and a review referendum vote pursuant to Section 76958 shall be scheduled to begin not earlier than October 1, 1989, nor to extend past March 1, 1990.

76953.5. (a) Before the referendum vote is conducted by the director, the proponents of the council shall deposit with the director the amount that the director determines is necessary to defray the expenses of preparing the necessary lists and information and conducting the referendum vote.

(b) Any funds not used in carrying out this article shall be returned to the proponents of the council who deposited the funds with the director.

(c) Upon establishment of the council, the council may reimburse the proponents of the council for any funds deposited with the director which were used in carrying out this article, and for any legal expenses and costs incurred in establishing the council.

(d) After approval by the Commercial Salmon Trollers Advisory Committee created pursuant to Section 7862 of the Fish and Game Code, the Department of Fish and Game may expend funds collected pursuant to Section 7861 of the Fish and Game Code, for payment to the Director of Food and Agriculture to pay necessary costs incurred in conducting the implementation referendum vote. If a majority of the fishermen who voted at the implementation referendum voted in favor of implementing this article, as provided in Section 76952, the council shall reimburse the Commercial Salmon Stamp Account in the Fish and Game Preservation Fund all amounts received from that fund.

76954. Nonreceipt of a ballot shall not invalidate a referendum.

76955. (a) If the director finds that a favorable vote has been given, the director shall certify and give notice of the favorable vote to all fishermen whose names and addresses may be on file with the director.

(b) If the director finds that a favorable vote has not been given, the director shall so certify and declare all provisions of this chapter inoperative.

76957. (a) Between January 1, 1994, and February 28, 1994, and in the same period each five years thereafter, or pursuant to subdivision (b) of Section 76953, the director shall, by the public hearing procedure, and if appropriate, the review referendum procedure provided for in Sections 76958 and 76959, determine whether the council program provided for in this chapter shall continue in effect.

(b) If the director finds from evidence received at the hearing that a substantial question exists as to whether the council program is contrary to or does not effectuate the declared purposes or provisions of this chapter or receives in writing a referendum petition with the signatures of 25 percent or more of the number of fishermen who made landings in the previous year, as evidenced by receipts prepared under Section 8043 of the Fish and Game Code, the council program shall be submitted to referendum as provided in Section 76958.

76958. If the director determines that a review referendum procedure is appropriate or, pursuant to subdivision (b) of Section 76953, required, the director shall establish a referendum period of not to exceed 30 days during which period ballots shall be submitted to every fisherman on a statewide basis. If the director determines that the referendum period does not provide sufficient time for the balloting, the director may extend the referendum for an additional period not to exceed 30 days. The ballots shall provide a "yes" or "no" voting alternative to the following question:

"Shall the Salmon Council of California be continued for the next five fiscal years commencing April 1, following this referendum?"

76959. If the council program is submitted to a review referendum under Section 76958, the director shall find that fishermen statewide have approved the council program if the director finds either of the following:

(1) Sixty-five percent or more of the total number of fishermen, who voted in the review referendum and who harvested 65 percent or more of the total amount of salmon landed during the previous fiscal year by all fishermen who voted in the review referendum, approve the program.

(2) Fifty-one percent or more of the total number of fishermen, who voted in the review referendum and who harvested 65 percent or more of the total amount of salmon landed during the previous fiscal year by all fishermen who voted in the review referendum, approve the program.

76960. This chapter shall be operative indefinitely, except as provided in this article.

76961. On the termination of the council pursuant to this article, the council shall remain in existence for the purpose of furnishing the director with a complete record of its outstanding financial

obligations, accrued and to accrue. The director shall pay from the money deposited and disbursed any outstanding obligations and any obligations incurred by the director and the department under the terms and provisions of this section. Any money which remains shall be retained by the director to defray the expenses of formulation, issuance, administration, or enforcement of any subsequent program for salmon promotion. If no such program is undertaken within a period of three years from the date of termination of the council, that money shall be withdrawn from the approved depository and paid into the special account for enchancement and restoration programs established pursuant to Section 7861 of the Fish and Game Code.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

## CHAPTER 1501

An act to add Sections 44279.5 and 44279.7 to the Education Code, relating to certificated employees.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 44279.5 is added to the Education Code, to read:

44279.5. (a) The Legislature recognizes that effective professional growth must occur throughout the career of each certificated educator, in order that each educator remains informed of changes in school programs and policies, and in students' educational backgrounds and needs. In enacting this section, it is the intent of the Legislature to establish professional growth requirements that give each educator a range of acceptable options and the primary role in determining the course of his or her professional growth.

(b) A clear or professional specialist instruction credential, services credential, or designated subjects credential that is issued for the first time after September 1, 1990, shall be renewed by the commission only upon fulfillment of the requirements of the commission, including the following:

(1) Successful service as authorized by any of the valid credentials held by the applicant. The minimum length of service shall be equivalent to one-half of a school year.

(2) Completion of an individual program of professional growth

as required in this section and by the commission.

(3) Submission of an application and payment of the fee that is established by the commission pursuant to Section 44235.

(c) Life credentials shall not be subject to this section.

(d) Designated subjects credentials that authorize part-time service shall not be subject to this section.

(e) To administer subdivision (b), the commission shall establish credential renewal requirements that are comparable with the renewal requirements for clear multiple and single subject teaching credentials, as set forth in subdivisions (b) through (e), inclusive, of Section 44277. For the holders of clear specialist instruction credentials, services credentials, and designated subjects credentials that are issued initially after September 1, 1990, the commission may identify professional growth advisers who are appropriate for each category of credential holders, or the commission may authorize the holders of these credentials to plan and verify individual programs of professional growth without consulting advisers.

(f) The commission shall apply the provisions of Section 44278 and Section 44279 to clear specialist instruction credentials, services credentials, and designated subjects credentials that are issued for the first time after September 1, 1990.

SEC. 2. Section 44279.7 is added to the Education Code, to read:

44279.7. An individual who holds two or more clear credentials that have renewal requirements shall be allowed, as a condition for the renewal of all of the renewable credentials, to complete one individual program of professional growth whose length does not exceed the requirements for any one of the renewable credentials.

SEC. 3. Sections 1 and 2 of this act shall not become operative if (1) Senate Bill 148 is enacted and becomes effective on or before January 1, 1989, (2) Senate Bill 148 adds Section 44225 to the Education Code, and (3) subdivision (d) of Section 44225 of the Education Code, as set forth in the enacted version of Senate Bill 148, is identical to the version of that subdivision contained in Senate Bill 148 as amended August 1, 1988.

## CHAPTER 1502

An act to add Chapter 10.4 (commencing with Section 25915) to Division 20 of the Health and Safety Code, relating to asbestos.

[Approved by Governor September 28, 1988 Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 10.4 (commencing with Section 25915) is added to Division 20 of the Health and Safety Code, to read:

## CHAPTER 10.4. ASBESTOS NOTIFICATION

25915. (a) Notwithstanding any other provision of law, the owner of any building constructed prior to 1979, who knows that the building contains asbestos-containing construction materials, shall provide notice to all employees of that owner working within the building concerning all of the following:

(1) The existence of, conclusions from, and a description or list of the contents of, any survey conducted to determine the existence and location of asbestos-containing construction materials within the building, and information describing when and where the results of the survey are available pursuant to Section 25917.

(2) Specific locations within the building identified by the survey or known to the owner where asbestos-containing construction materials are present in any quantity.

(3) General procedures and handling restrictions necessary to prevent, and, if appropriate, to minimize disturbance, release, and exposure to the asbestos. If detailed handling instructions are necessary to ensure employee safety, the notice required by this section shall indicate where those instructions can be found.

(4) Results of any bulk sample analysis, or air monitoring, or monitoring conducted pursuant to Section 5208 of Title 8 of the California Code of Regulations, conducted for or by the owner or within the owner's control, including reference to sampling and laboratory procedures utilized, and information describing when and where the specific monitoring data and sampling procedures are available pursuant to Section 25917.

(5) Potential health risks or impacts that may result from exposure to the asbestos in the building as identified in surveys or tests referred to in this section, or otherwise known to the owner.

The notice may contain a description and explanation of the health action levels or exposure standards established by the state or federal government. However, if the notice contains this description, the notice shall include, at least, a description and explanation of the no significant risk level established pursuant to Chapter 6.6 (commencing with Section 25249.5) of Division 20, and specified in Section 12711 of Title 22 of the California Code of Regulations, the school abatement clearance level specified in Section 49410.7 of the Education Code, and the action levels established by state and federal Occupational Safety and Health Act regulations.

(b) Notice provided pursuant to this chapter shall be provided in writing to each individual employee, and shall be mailed to other owners designated to receive the notice pursuant to subdivision (a) of Section 25915.5, within 15 days of the receipt by the owner of information identifying the presence or location of asbestos-containing construction materials in the building, and shall be provided annually thereafter. Notice shall be provided to new employees within 15 days of commencement of work in the building, and shall be mailed to any new owner designated to receive the

notice pursuant to subdivision (a) of Section 25915.5 within 15 days of the effective date of the agreement under which a person becomes a new owner.

(c) If the owner has no special knowledge of the information required pursuant to paragraphs (3) and (5), of subdivision (a), the owner shall specifically inform his or her employees in the notice required by this section, that he or she lacks knowledge regarding handling instructions necessary to prevent and minimize release of, and exposure to, asbestos and the potential health impacts resulting from exposure to asbestos in the building, and shall encourage employees to contact local or state public health agencies.

(d) If a person contracting with an owner receives notice pursuant to this chapter, that contractor shall provide a copy of the notice to his or her employees or contractors working within the building.

(e) If the asbestos-containing construction material in the building is limited to an area or areas within the building that:

(1) Are unique and physically defined; and

(2) Contain asbestos-containing construction materials in structural, mechanical, or building materials which are not replicated throughout the building; and

(3) Are not connected to other areas through a common ventilation system;

then, an owner required to give notice to his or her employees pursuant to subdivision (a) may provide that notice only to the employees working within or entering that area or those areas of the building meeting the conditions above.

(f) In those areas of a building where the asbestos-containing construction material is limited to bonded asbestos in the material that composes the surface of walls, ceilings, or floors and where the asbestos fibers are completely encapsulated, if the owner knows that no asbestos fibers are being released or have the potential to be released from that material in its present condition and has no knowledge that other asbestos-containing material is present, then an owner required to give notice pursuant to subdivision (a) shall provide the information required in paragraph (2) of subdivision (a) and may substitute the following notice for the requirements of paragraphs (1), (3), (4), and (5) of subdivision (a):

(1) The existence of, conclusions from, and a description or list of the contents of, that portion of any survey conducted to determine the existence and location of asbestos-containing construction materials within the building that refers to the asbestos materials described in this subdivision, and information describing when and where the results of the survey are available pursuant to Section 25917.

(2) Information to convey that moving, drilling, boring or otherwise disturbing the asbestos-containing construction material identified can present a health risk and, consequently, should not be attempted by an unqualified employee. The notice shall identify the

appropriate person the employee is required to contact if the condition of the asbestos-containing construction material deteriorates.

25915.5. (a) An owner required to give notice to employees pursuant to this chapter, in addition to notifying his or her employees, shall mail, in accordance with this subdivision, a copy of that notice to all other persons who are owners of the building or part of the building, with whom the owner has privity of contract. Receipt of a notice pursuant to this section by an owner, lessee or operator shall constitute knowledge that the building contains asbestos-containing construction materials for purposes of this chapter. Notice to an owner shall be delivered by first-class mail addressed to the person and at the address designated for the receipt of notices under the lease, rental agreement, or contract with the owner.

(b) The delivery of notice under this section or negligent failure to provide that notice shall not constitute a breach of any covenant under the lease or rental agreement, and nothing in this chapter enlarges or diminishes any rights or duties respecting constructive eviction.

(c) No owner who, in good faith, complies with the provisions of this section shall be liable to any other owner for any damages alleged to have resulted from his or her compliance with the provisions of this section.

25916. If any construction, maintenance, or remodeling is conducted in an area of the building area where there is the potential for employees to come into contact with, or release or disturb, asbestos or asbestos-containing construction materials, the owner responsible for the performance of, or contracting for, any construction, maintenance, or remodeling in the area shall post that area with a clear and conspicuous warning notice. The posted warning notice shall read, in print which is readily visible because of its large size and bright color, as follows:

"CAUTION. ASBESTOS. CANCER AND LUNG DISEASE HAZARD. DO NOT DISTURB WITHOUT PROPER TRAINING AND EQUIPMENT."

25917. An owner shall make available, for review and photocopying, to all of his or her employees or those employees' representatives at an accessible place and time, all existing asbestos survey and monitoring data, specific to the building, upon request. This place shall be within the building, and shall be available during employee working hours, including lunch and break periods, if any owner maintains an office or similar facility in the building; if not, the survey and data shall be available at another place, and at a time accessible and convenient to employees and their representatives. Any owner may enter into an agreement with another owner to provide the location where the survey and data is available to employees within one building pursuant to this section.

25917.5. If an asbestos information system or statewide asbestos

register, or both, is established subsequent to the designing of the system and register pursuant to paragraphs (5) and (6) of subdivision (a) of Section 25927, the system or register, or both, as the case may be, shall integrate, be consistent with, and, at a minimum, include all of the requirements of this chapter.

25918. "Asbestos," as used in this chapter, has the same meaning as defined in Section 6501.7 of the Labor Code.

25919. "Asbestos-containing construction material," as used in this chapter, means any manufactured construction material, including structural, mechanical and building material, which contains more than one-tenth of 1 percent asbestos by weight.

25920. "Building," as used in this chapter, means all or part of any "public and commercial building," as defined in Section 2642 of Title 15 of the United States Code, as that section reads on January 1, 1989, except residential dwellings.

25921. "Employee," as used in this chapter, means every person who is required or directed by any employer, to engage in any employment, and who performs that employment other than on a casual or incidental basis in any building subject to this chapter, or any person contracting with an owner who is required or directed to perform services, other than on a casual or incidental basis, in any building subject to this chapter.

25922. "Employee's representative," as used in this chapter, means an employee's union representative, a member of the employee's immediate family, a nonrelated member of the employee's household, and an employee's attorney or a person with power of attorney.

25923. "Owner," as used in this chapter, means an owner, lessee, sublessee, or agent of the owner of a building or part of a building, including, but not limited to, the state or another public entity.

25924. Any owner who knowingly or intentionally fails to comply with the provisions of this chapter, or who knowingly or intentionally presents any false or misleading information to employees, is guilty of a misdemeanor punishable by a fine of up to one thousand dollars ($1,000) or up to one year in the county jail, or both. This section shall become operative on July 1, 1989.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

## CHAPTER 1503

An act to add Section 12959 to the Insurance Code, relating to insurance, and making an appropriation therefor.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 12959 is added to the Insurance Code, to read:

12959. (a) On January 1, 1990, and on every January 1, thereafter, the commissioner shall publish and distribute a comparison of insurance rates report for those lines of insurance which, in the comissioner's judgment, are of most interest to individual purchasers of personal lines of coverage. The report shall be available to consumers. The distribution shall be designed to make consumers throughout the state aware of the content of the report. This report shall be prepared by the commissioner in a manner designed to provide information useful to consumers so that they may make informed comparisons of coverages and rates.

(b) The submission of any false rate information by any such insurer pursuant to a request of the commissioner for the purpose of compiling comparative data for the report to be published as required in subdivision (a) shall be punishable by a civil fine not to exceed one hundred thousand dollars ($100,000). In determining the level of the fine, the commissioner shall consider the good faith of the insurer and any similar prior violations by the insurer under this code.

SEC. 2. The sum of two hundred thousand dollars ($200,000) is hereby appropriated from the Insurance Fund to the Department of Insurance for the purposes of carrying out Section 12959 of the Insurance Code.

## CHAPTER 1504

[Approved by Governor September 28, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 18042 of the Revenue and Taxation Code is amended to read:

18042. The provisions of Section 1042 of the Internal Revenue Code shall apply to taxable years beginning on or after January 1, 1990, and before January 1, 1995, but shall not apply to both of the following:

(1) Taxable years beginning on or after January 1, 1988, but before January 1, 1990.

(2) Taxable years beginning on or after January 1, 1995.

SEC. 2. Section 24306 is added to the Revenue and Taxation Code, to read:

24306. (a) Section 133 of the Internal Revenue Code relating to securities acquisition loan shall be applicable except as otherwise provided.

(b) (1) This section shall not apply to income years beginning on or after January 1, 1995.

(2) This section shall remain in effect only until December 1, 1995, and as of that date is repealed, unless a later enacted statute, which is enacted before December 1, 1995, deletes or extends that date.

SEC. 3. Section 24603 of the Revenue and Taxation Code is amended to read:

24603. The provisions of Section 404(k) of the Internal Revenue Code relating to dividends paid deduction shall apply to income years beginning on or after January 1, 1990, and before January 1, 1995, but shall not apply to both of the following:

(1) Income years beginning on or after January 1, 1988, but before January 1, 1990.

(2) Income years beginning on or after January 1, 1995.

SEC. 4. Section 24954 is added to the Revenue and Taxation Code, to read:

24954. (a) The provision of Section 1042 of the Internal Revenue Code shall apply.

(b) (1) The provisions of this section shall not apply to income years beginning on or after January 1, 1995.

(2) This section shall remain in effect only until December 1, 1995, and as of that date is repealed, unless a later enacted statute, which is enacted before December 1, 1995, deletes or extends that date.

SEC. 5. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, except as otherwise specifically provided in this act, Sections 2 and 4 of this act shall become operative and be applied to income years beginning on or after January 1, 1990.

# CHAPTER 1505

An act to amend Sections 8102 and 8552 of, and to add Sections 8552.2, 8552.4, 8552.5, 8552.6, 8552.7, and 8552.8 to, the Fish and Game Code, relating to commercial fishing, and making an appropriation therefor.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares that the restricted transfer of permits in the herring roe fishery is necessary to provide an incentive for those no longer wishing to engage in those fisheries due to health, age, or entry into other fisheries or employment to retire from the fishery and to allow those seeking to enter the fishery an opportunity to obtain a permit by making available more permits pursuant to this restricted transfer method than would otherwise become available only through death or forfeiture of the permits.

SEC. 2. Section 8102 of the Fish and Game Code is amended to read:

8102. (a) The Legislature finds and declares that, in some limited entry fisheries, two or more partners may be operating with one of the partners holding the permit to participate in the fishery. The Legislature further finds and declares that undocumented, de facto, family partnerships are a longstanding custom in these fisheries. The Legislature further finds and declares that great hardship results when the permittee partner is no longer able to continue working and leaves the other partner without a permit to continue participating in the fishery.

(b) In any limited entry fishery in which permits are allocated to participants in the fishery, and where the death, incapacity, or retirement of a permittee from that fishery would deprive a working partner of the permittee of the ability to continue to derive a livelihood from that fishery, a permit shall be issued, upon application, to one remaining partner.

(c) A working partner for the purposes of this section shall be a spouse, child (including an adopted child), or sibling of the permittee, whose investment or equity need not be proven by documentation, or a person who can prove an investment or equity in the vessel or gear used in the fishery, and who would otherwise have been eligible for a permit and did not obtain one because he or she was working with or was a partner with the permittee.

(d) The working partner shall also provide substantial evidence of an actual physical working participation aboard the vessel supported by the submission of documents filed with the Franchise Tax Board and supported by trip settlement sheets or similar documents that

demonstrate earnings from that participation. "Trip settlement sheet" means a document prepared after a vessel has completed a fishing trip which displays the costs incurred, revenues received, and profits paid out. Investment or equity alone does not establish that the person is a working partner.

(e) Those existing working partners other than the family relationships specified in subdivision (c) may, not later than February 1, 1984, declare and prove the working partnership in a manner satisfactory to the department and request that the department state the fact of the working partnership upon the permit. Thereafter, a nonfamily working partnership shall be declared, proved, and noted upon any limited entry permit at the first issuance of the permit.

(f) This article does not apply to permits to take herring for roe in California.

SEC. 3. Section 8552 of the Fish and Game Code is amended to read:

8552. (a) It is unlawful to take herring for roe on a vessel unless the operator holds a herring permit issued by the department pursuant to commission regulations. The permit may be transferred pursuant to Sections 8552.2 and 8552.6.

(b) No person may be issued more than one herring permit, and the department shall not issue a herring permit to more than one person except as provided in Section 8552.6.

(c) Herring permits shall only be issued to and shall be held only by a natural person.

(d) Herring permits shall not be used as any form of security for any purpose, including, but not limited to, financial or performance obligations.

(e) The permittee shall be on board the vessel at all times during herring fishing operations, subject only to exceptions provided for in this code and regulations adopted under this code.

SEC. 4. Section 8552.2 is added to the Fish and Game Code, to read:

8552.2. A herring permit may be transferred from a herring permitholder to a nonpermitholder as follows:

(a) The offeror shall mail, by certified or registered mail, to the department and every individual listed on the department's list of maximum point herring fishery participants, his or her offer to transfer his or her herring permit, which offer shall specify the gear type to be used under the herring permit; the name, address, and telephone number of the offeror; and the amount of consideration, if any, sought by the offeror.

(b) Any maximum point fishery participant, as defined in this code and regulations adopted under this code, may accept the offer. The transfer shall be made to the first acceptance received.

(c) The acceptance shall be in writing, mailed by certified or registered mail or delivered personally with a written proof of service by the deliverer to the offeror. A true copy of the offer

accepted shall be filed with the department by the offeror under penalty of perjury and shall be available for public review.

(d) The acceptance is valid only if the person accepting the offer has at least one year or more experience in the California herring fishery using the gear type authorized to be used under the permit offered.

(e) If no acceptance is received by the offeror within 30 days from the day that the offer was mailed, the offeror may offer the permit to individuals possessing the next largest number of experience points and working in descending order therefrom, but only under the same terms and conditions as the permit was originally offered.

(f) If the offeror changes the terms and conditions of his or her offer, the revised offer shall be offered pursuant to subdivision (a).

(g) If the department or the court finds, after notice and hearing, that the offeror of a transfer subject to this section discriminated against any otherwise qualified person transmitting an acceptance or otherwise violated this section, the court or the department may declare the transfer to be null and void.

SEC. 5. Section 8552.4 is added to the Fish and Game Code, to read:

8552.4. Herring permits that are revoked or not renewed may be offered by the department for a drawing to persons having the maximum number of points for experience in the fishery on the first Friday of August of each year.

SEC. 6. Section 8552.5 is added to the Fish and Game Code, to read:

8552.5. The commission shall revoke any herring permit if the holder of the herring permit was convicted of failing to report herring landings or underreported herring landings or failed to correctly file with the department the offer or the acceptance for a permit transferred pursuant to Section 8552.2.

SEC. 7. Section 8552.6 is added to the Fish and Game Code, to read:

8552.6. (a) Notwithstanding Section 8552, a herring permit may be issued to two individuals if (1) both are engaged in the herring roe fishery either by fishing aboard the vessel or by personally participating in the management, administration, and operation of the partnership's herring fishing business and (2) there is a partnership constituting equal, 50 percent, ownership in a herring fishery operation, including a vessel or equipment, and that partnership is demonstrated by any two of the following:

(A) A copy of a federal partnership tax return.

(B) A written partnership agreement.

(C) Joint ownership of a fishing vessel used in the herring fishery as demonstrated on federal vessel license documents.

(b) For purposes of this section, a herring permit does not constitute a herring fishing operation. A herring permit may be transferred to one of the partners to be held thereafter in that partner's name only if there has been a death or retirement of the

other partner or a dissolution of partnership. A transfer under this section shall be authorized only if proof that the partnership has existed for five or more consecutive years is furnished to the department.

SEC. 8. Section 8552.7 is added to the Fish and Game Code, to read:

8552.7. The department shall reissue a herring permit which has been transferred pursuant to Section 8552.2 or 8552.6 upon payment of a transfer fee of one thousand dollars ($1,000) to be paid by the purchaser of the permit. The fees shall be deposited in the Fish and Game Preservation Fund and shall be expended for research and management activities to maintain and enhance herring resources pursuant to subdivision (a) of Section 8052.

SEC. 9. Section 8552.8 is added to the Fish and Game Code, to read:

8552.8. (a) For purposes of this article, the experience points for a person engaged in the herring roe fishery shall be determined by the sum of the following:

(1) One point for each year in the previous 12 years (prior to the current license year) that the person has held a commercial fishing license issued pursuant to Section 7852, not to exceed a maximum of 10 points.

(2) One point for each year, beginning with the 1978–79 herring fishing season, of paid experience as a crewmember in the herring fishery, as determined pursuant to Section 8559, using the type of gear that is authorized under the herring permit to be obtained, not to exceed a maximum of 15 points.

## CHAPTER 1506

An act relating to the State Energy Resources Conservation and Development Commission.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds that recent projections regarding global warming trends raise long-range energy, economic, and environmental planning issues for the State of California. Preliminary studies indicate that global warming is caused in part by energy generation and consumption. These studies also show that global warming will cause significant problems in energy supply and generation, raise the level of the ocean, increase winter flooding and the need for water storage facilities by reducing mountain snowpack, and create other changes in the state's physical environment.

The Legislature therefore finds that the state should study the intensity and effects of global warming in order to anticipate and address adverse impacts to California.

SEC. 2. The State Energy Resources Conservation and Development Commission, in consultation with the State Air Resources Board, the University of California, the Department of Water Resources, and the Department of Food and Agriculture, shall conduct a study and report to the Legislature and the Governor on or before June 1, 1990, on how global warming trends may affect California's energy supply and demand, economy, environment, agriculture, and water supplies.

The study shall include recommendations for avoiding, reducing, and addressing the impacts on the energy supply and demand, economy, environment, agriculture, and water supply which are identified. The commission shall coordinate the study and any research it conducts with the research efforts of federal, state, academic, and industry research projects and may secure funding for the commission's study and research from these sources where feasible.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. This act shall be known and may be cited as the Campbell-Torres-Cortese Natural Disaster Assistance Act Amendments of 1988.

SEC. 1.5. In enacting this act, the Legislature intends the following:

(a) Eligible local agencies shall be provided with state financial assistance to ease the fiscal burden of extraordinary costs incurred by the local agencies as a direct result of responding to or recovering from natural disasters.

(b) (1) State financial assistance shall be provided in accordance with the guidelines and eligibility criteria developed by the Office of Emergency Services and approved by the Department of Finance.

(2) In the event of a major disaster declared by the President of the United States, eligible individuals or families who have disaster-related necessary expenses or serious needs in excess of relief received from all other available sources may be provided with state financial assistance of up to the maximum allowed by this act.

(c) This state financial assistance shall not be used to supplant federal assistance otherwise available in the absence of state financial relief. In the event that the total amount of assistance for eligible claims exceeds the funds made available by this act, the allocations shall be made on a pro rata basis.

Except as provided in Section 8686.3, the completion of all or part of a project prior to application for funds pursuant to this chapter shall not disqualify the project or any part thereof.

SEC. 3.5. Section 8682.8 of the Government Code is amended to read:

8682.8. When certified by the director, claims of local agencies for payment shall be presented to the Controller for payment out of funds made available therefor. The director may request the Controller to audit any claim to ensure that funds were expended in accordance with the requirements and purposes of this chapter.

SEC. 3.6. Section 8682.9 is added to the Government Code, to read:

8682.9. The director shall adopt regulations to govern the administration of the disaster assistance program authorized by this chapter in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3). SEC. 4. Section 8685 of the Government Code is amended to read:

8685. From any money appropriated for that purpose, and subject to the conditions specified in this article, the Director of Emergency Services shall allocate funds to meet the cost of any one or more projects as defined in Section 8680.4. Claims by school districts shall be submitted to the Superintendent of Public Instruction for review and approval, in accordance with instructions developed by the Office of Emergency Services, prior to the allocation of funds by the Director of Emergency Services.

Moneys appropriated for the purposes of this chapter may be used to provide financial assistance for the following local agency and state costs:

(a) Local agency personnel overtime costs and cost of supplies used during eligible disaster response projects, incurred as a result of a state of emergency proclaimed by the Governor, excluding the normal hourly wage costs of regularly assigned emergency services and public safety personnel.

(b) To repair, restore, reconstruct, or replace public facilities

belonging to local agencies damaged as a result of natural disasters.

(c) Matching fund assistance for cost sharing required under federal disaster assistance programs.

(e) Indirect costs defined as eligible by the Office of Emergency Services and in accordance with the federal Office of Management and Budget Circular No. A-87, or its successors, as well as any other assistance deemed necessary to carry out the requirements of this chapter.

SEC. 5. Section 8685.7 of the Government Code is amended to read:

8685.7. Any work performed by a state agency at the request of a local agency shall be agreed upon in writing and be subject to the State Contract Act. Work performed by a local agency shall be subject to the law governing the performance of that work by the local agency and any other applicable state or federal law. Neither the state nor any officer or employee thereof shall have any responsibility in connection with any work performed by a local agency.

SEC. 6. Section 8685.8 of the Government Code is amended to read:

8685.8. Under procedures to be prescribed by the director, a local agency may receive an advance of funds to initiate a project. Such advances shall be limited to not more than 90 percent of the estimated state's share of the project, as determined pursuant to Section 8686.

SEC. 7. Section 8686 of the Government Code is amended to read:

8686. Funds appropriated for use under this chapter shall be made available for projects as follows:

(a) For any eligible project, the state share shall amount to no more than 75 percent of total state eligible costs. The state shall make no allocation for any project application resulting in a state share of less than two thousand five hundred dollars ($2,500).

(b) Expenditures incurred by a local agency prior to the effective date of the allocation for work otherwise eligible shall be considered in determining the rate of contribution between the state and the local agency.

SEC. 8. Section 8686.3 of the Government Code is amended to read:

8686.3. Local agencies shall undertake to recover maximum federal participation in funding projects. No funds allocated under this chapter shall be used to supplant federal funds otherwise available in the absence of state financial relief. State contributions for such projects as determined by Section 8686 will be reduced by an amount equal to the amount local agencies would have recovered from federal disaster relief sources if they had applied for that

funding and had executed the eligible projects in conformity with federal requirements. When a local agency applies for federal disaster relief funds, the director shall inform the agency of available state funds.

SEC. 9. Section 8687.2 of the Government Code is amended to read:

8687.2. Notwithstanding Section 8686, whenever the director determines that a local agency to which funds are proposed to be allocated for a public facilities project is financially unable to meet the matching requirements set forth in Section 8686 due to exhaustion of its financial resources because of disaster expenditures, the provisions of Section 8686 may be suspended, and the director may allocate funds to pay all of the cost of the project or that portion of the cost which the director determines is necessary to accomplish the project, taking into consideration the financial ability of the local agency to meet the matching requirements of Section 8686 and the public benefit of the proposed work, less any money provided by the United States or any agency thereof for any portion of the cost of the project.

SEC. 10. Section 8690 of the Government Code is amended to read:

8690. As used in this article:

(a) "Fund" means the Natural Disaster Assistance Fund created by Section 8690.2.

(b) "Public Facilities and Local Agency Disaster Response Account" means the special account established in the fund pursuant to subdivision (a) of Section 8690.4.

(c) "Street and Highway Account" means the special account established in the fund pursuant to subdivision (b) of Section 8690.4.

(d) "Office of Emergency Services Disaster Administration Support Account" means the special account established in the fund pursuant to subdivision (c) of Section 8690.4.

SEC. 11. Section 8690.4 of the Government Code is amended to read:

8690.4. The Controller shall establish the following four special accounts in the Natural Disaster Assistance Fund:

(a) The Public Facilities and Local Agency Disaster Response Account, into which shall be paid all moneys appropriated by the Legislature for allocation for (1) the repair, restoration, reconstruction, or replacement of public facilities belonging to local agencies damaged as a result of natural disasters, (2) matching fund assistance for cost sharing required under federal disaster assistance programs, as specified in subdivisions (b) and (c) of Section 8685, and (3) local agency personnel overtime costs and supplies used during eligible disaster response and recovery activities, including the cost of administering those activities, as specified in subdivisions (a) and (e) of Section 8685.

(b) The Street and Highway Account, into which shall be paid all resources transferred from the Street and Highway Disaster Fund,

any money received from the federal government as reimbursement to any city or county for expenditures from funds allocated, transferred or expended pursuant to this chapter for a street and highway project, any money hereafter appropriated by the Legislature for allocation for street and highway projects, and any income from investment of moneys in the account and payments by local agencies in reimbursement of moneys disbursed from the account including deferred payments with charges, pursuant to Section 8686.8.

(c) The Office of Emergency Services Disaster Administration Support Account, into which shall be paid all moneys appropriated by the Legislature for allocation for (1) state administrative and engineering support required for the implementation and administration of the state disaster assistance program authorized under this chapter or (2) other assistance deemed necessary to carry out the requirements of this chapter, as specified in subdivision (d) of Section 8685.

(d) The Earthquake Emergency Investigations Account, into which shall be paid all moneys appropriated by the Legislature to the Seismic Safety Commission for allocation for the purpose of enabling immediate investigation of damaging earthquakes. Allocations may be made by the commission to assist organizations which have incurred expenses in the course of conducting earthquake investigations. Allocations may be made to cover the following expenses:

(1) Travel, meals, and lodging.

(2) Publishing of findings.

(3) Contractor assistance in the investigation.

(4) Other expenses which the commission may allow as necessary to assist the investigation.

(e) It is the intent of the Legislature that the Public Facilities and Local Agency Disaster Response Account and the Office of Emergency Services Administration Support Account each have an unencumbered balance of one million dollars ($1,000,000) at the beginning of each fiscal year.

In the event that any of these two accounts require additional moneys to meet claims against the account, the Director of Finance may transfer moneys from the Special Fund for Economic Uncertainties to the account in that amount sufficient to pay the amount of the claims exceeding the unencumbered balance in the account, provided that the transfer is not made sooner than 30 days after notification in writing of the necessity therefor is provided to the Joint Legislative Budget Committee.

SEC. 12. All of the assets, liabilities, and surpluses of the accounts of the Natural Disaster Assistance Fund, which are abolished by the amendment of Section 8690.4 of the Government Code by this act, shall, on order of the Director of Finance and as of the effective date of this act, be transferred to one or more of the remaining accounts in the fund in those amounts as determined by the Director of

Finance and shall become assets, liabilities, and surpluses of those accounts. The existing appropriations from any of those abolished accounts shall continue to be available for allocation, encumbrance, and expenditure in the same manner and for the same purposes and periods from the accounts to which the moneys are transferred. Any moneys received by any state agency after the effective date of this act which, by law, would otherwise be required to be deposited in an abolished account, shall on order of the Director of Finance be deposited in that account or those accounts of the National Disaster Assistance Fund designated by the director.

SEC. 13. Section 16418 of the Government Code is amended to read:

16418. (a) The Special Fund for Economic Uncertainties is hereby created in the State Treasury and is continuously appropriated for the purposes of this section. The contingency reserve for economic uncertainties established within the General Fund by Section 12.3 of the Budget Act of 1980 is hereby discontinued, and any balance in that reserve shall be transferred to the Special Fund for Economic Uncertainties. This special fund represents a reserve fund within the meaning of Section 5 of Article XIII B of the California Constitution. Notwithstanding Sections 16310 and 16314, the Controller may transfer as necessary from the Special Fund for Economic Uncertainties or from the special accounts in the General Fund to the General Fund such amounts as are needed to meet cash needs of the General Fund. The Controller shall return all such moneys so transferred without payment of interest as soon as there are sufficient moneys in the General Fund.

(b) The Controller shall transfer from the Special Fund for Economic Uncertainties to the unappropriated balance of the General Fund an amount necessary to eliminate any General Fund deficit as of the end of each fiscal year, commencing as of June 30, 1985. The amount of transfer for each fiscal year shall be determined on the basis of the State of California Preliminary Annual Report--Accrual Basis, for such fiscal year. Any subsequent adjustments shall be determined jointly by the Controller and the Director of Finance.

(c) Notwithstanding Section 13340, moneys in the Special Fund for Economic Uncertainties is hereby continuously appropriated without regard to fiscal years to the Director of Finance for the purpose of allocating funds for disaster relief pursuant to Chapter 5 (commencing with Section 194) of Part 1 of Division 1 of the Revenue and Taxation Code. However, any allocation made by the director pursuant to this subdivision shall not be made sooner than 30 days after notification in writing of the necessity therefor is provided to the Joint Legislative Budget Committee.

(d) For budgeting and accounting purposes, any appropriations heretofore or hereafter made specifically from the Special Fund for Economic Uncertainties, other than appropriations contained in this section, shall be deemed an appropriation from the General Fund.

For year-end reporting purposes, the Controller shall add the balance in the Special Fund for Economic Uncertainties to the balance in the General Fund so as to show the total moneys then available for General Fund purposes.

(e) Notwithstanding Section 13340, there is hereby appropriated from the General Fund, without regard to fiscal years, for transfer by the Controller to the Special Fund for Economic Uncertainties as of the end of each fiscal year, the lesser of the following amount:

(1) The unencumbered balance in the General Fund.

(2) The difference between the state's "appropriations subject to limitation" for the fiscal year then ended and its "appropriation limit" as defined in Section 8 of Article XIII B of the California Constitution and established in the Budget Act for that fiscal year, as jointly estimated by the Legislative Analyst's office and the Department of Finance.

SEC. 14. Chapter 5 (commencing with Section 194) is added to Part 1 of Division 1 of the Revenue and Taxation Code, to read:

## CHAPTER 5. DISASTER RELIEF: TAX DEFERRAL

194. As used in this chapter:

(a) "Eligible county" means a county which meets both of the following requirements:

(1) Has been proclaimed by the Governor to be in a state of emergency.

(2) Has adopted an ordinance providing property tax relief for disaster victims as provided in Section 170.

(b) "Eligible property" means real property and any mobilehome, including any new construction which was completed or any change in ownership which occurred prior to the date of the disaster which meets both of the following requirements:

(1) Is located in an eligible county.

(2) Has sustained substantial disaster damage and the disaster resulted in the issuance of a state of emergency proclamation by the Governor.

"Eligible property" does not include any real property or any mobilehome, whether or not it otherwise qualifies as eligible property, if that real property or mobilehome was purchased or otherwise acquired by a claimant for relief under this chapter after the last date on which the disaster occurred.

(c) "Fair market value" means "full cash value" or "fair market value" as defined in Section 110.

(d) "Next property tax installment payment date" means December 10 or April 10, whichever date occurs first after the last date on which the eligible property was damaged.

(e) "Property tax deferral claim" means a claim filed by the owner of eligible property in conjunction with, or in addition to, the filing of an application for reassessment of that property pursuant to Section 170, which enables the owner to defer payment of the next

installment of taxes on property on the regular secured roll for the current fiscal year, as provided in Section 194.1 or to defer payment of taxes on property on the supplemental roll for the current fiscal year, as provided in Section 194.9.

(f) "Substantial disaster damage," as to real property located in a county declared to be a disaster by the Governor, means, with respect to real property and any mobilehome which has received the homeowner's exemption or is eligible for the exemption as of the most recent March 1, damage amounting to at least 10 percent of its fair market value or five thousand dollars ($5,000), whichever is less; and, with respect to other property, damage to the parcel of at least 20 percent of its fair market value immediately preceding the disaster causing the damage.

194.1. (a) Any owner of eligible property who files on or before the next property tax installment payment date, a claim for reassessment pursuant to Section 170 may apply to the county assessor to defer payment of that installment of property taxes on the regular secured roll for the current fiscal year with respect to that property which are due no later than that date which immediately follows the disaster which resulted in substantial disaster damage. If a timely claim is filed, the payment shall be deferred without penalty or interest until the assessor has reassessed the property and a corrected bill prepared pursuant to Section 170 has been sent to the property owner. Taxes deferred pursuant to this section are due 30 days after receipt by the owner of the corrected tax bill and if unpaid thereafter are delinquent as provided in Section 2610.5 and shall be subject to the penalty provided by law.

(b) If, following reassessment pursuant to subdivision (a), the assessor determines that an owner who applied and was granted a deferral of property taxes did not file the claim in good faith, the owner shall be assessed a delinquency penalty for the nonpayment of the deferred taxes.

(c) This section does not apply to property taxes paid through impound accounts.

194.2. On or before January 15 or May 15, whichever date is sooner, the tax collector of an eligible county shall certify to the Director of Finance the total amount of the most recent installment of property taxes for all eligible property on both the regular secured roll and the supplemental roll for the current fiscal year which were deferred pursuant to Section 194.1.

194.3. If an eligible county has adopted an ordinance in accordance with Section 194.9, the tax collector shall certify to the Director of Finance on or before January 31 or May 31, whichever date is sooner, the total amount of supplemental roll property tax deferral claims submitted pursuant to Section 194.9 to the county by 5 p.m. on the most recent property tax installment payment date.

194.4. After the tax collector of an eligible county has made the applicable certification to the Director of Finance pursuant to Section 194.2, the director shall, within 30 days and after verification,

certify this amount to the Controller for allocation to the county. Upon receipt of certification by the Director of Finance, the Controller shall make the appropriate allocation to the county within 10 working days thereafter.

194.5. On or before December 31 or April 30, whichever date is sooner, each eligible county shall compute and remit to the Controller for deposit in the General Fund an amount equal to the amount allocated to it by the Controller pursuant to Section 194.4.

194.6. On or before December 31 or April 30, whichever date is sooner, each eligible county which has adopted an ordinance in accordance with Section 194.9, shall compute and remit to the Controller for deposit in the General Fund an amount equal to the amount allocated to it by the Controller pursuant to Section 194.4.

194.8. The allocation of funds to, and the repayment of funds by, counties made pursuant to this chapter shall be subject to review and audit by the Controller.

194.9. Each eligible county may adopt an ordinance to permit the deferral of unpaid nondelinquent current fiscal year supplemental roll taxes on eligible property reassessed pursuant to Chapter 3.5 (commencing with Section 75) of Part 0.5 if the owner files with the assessor a claim for deferral on or before the next property tax installment payment date. Taxes deferred pursuant to this section shall be due on the last day of the month following the month in which the corrected bill is mailed or the delinquent date of the next installment of the original bill whichever is later.

195. The Department of Finance shall establish guidelines in carrying out this chapter. These guidelines shall include a procedure for the review of claims submitted by an eligible county to the Department of Finance.

195.1. Any eligible county may adopt an ordinance providing for the temporary postponement of the second consecutive installment of taxes on property on the regular secured roll until the next property tax installment payment date, and, notwithstanding any other provision of this chapter, also for the further postponement of the preceding installment of taxes on property on the regular secured roll which was deferred pursuant to Section 194.1, until that date. The state shall provide no reimbursement payments to local jurisdictions for the postponement of property taxes pursuant to this section.

SEC. 15. Chapter 5.8 (commencing with Section 13600) is added to Part 3 of Division 9 of the Welfare and Institutions Code, to read:

## CHAPTER 5.8. DISASTER RELIEF GRANTS

13600. (a) The State Department of Social Services may provide state supplemental individual and family grants to meet disaster related necessary expenses or serious needs of individuals or families adversely affected by any major disaster declared by the President of the United States in those cases where individuals or families are

unable to meet those expenses or needs through assistance under the federal Disaster Relief Act, 42 United States Code, Section 5178, or other means.

(b) Grants shall only be made to individuals and families determined to be eligible for the federal individual and family grant program who have suffered losses reimbursable under that program in excess of the maximum federal grant amount.

(c) The State Department of Social Services may make a grant to those individuals and families equal to the difference between the federal grant awarded and the federally eligible appraised loss, not to exceed ten thousand dollars ($10,000) per individual or family.

(d) For purposes of this section, "federally eligible" means only those losses that are eligible under the federal individual and family grant program, without regard to the federal maximum grant.

(e) Application procedures established for the administration of this chapter shall conform to the procedures required in the federal Disaster Relief Act. The State Department of Social Services shall ensure that applicants for relief under this chapter have followed those procedures and that applicants have exhausted all other available means of seeking relief for disaster damage prior to receiving any grants pursuant to this chapter.

13601. There is hereby created in the State Treasury the California Individual and Family Supplemental Grant Fund. Any moneys appropriated to the fund by the Legislature shall be allocated to the State Department of Social Services to provide supplemental individual and family grant assistance. The funds shall not be used to fulfill matching fund requirements for federal disaster assistance, but shall be used to supplement the federal individual and family grant program. Notwithstanding Section 13340 of the Government Code, moneys in this fund are continuously appropriated, without regard to fiscal years, for the purpose of making grants pursuant to this chapter.

SEC. 16. This act shall apply to any local agency which complies with the notice, application, and reporting requirements of Sections 8685.2 and 8685.4 of the Government Code based on a natural disaster occurring on or after January 1, 1988.

56201. SEC. 3. Section 56341 of the Education Code is amended to read:

56341. (a) Each meeting to develop, review, or revise the individualized education program of an individual with exceptional needs, shall be conducted by an individualized education program team.

The person shall be qualified to interpret the results if the results or recommendations, based on the assessment, are significant to the development of the pupil's individualized education program and subsequent placement.

(e) For pupils with suspected learning disabilities, at least one member of the individualized education program team, other than the pupil's regular teacher, shall be a person who has observed the

pupil's educational performance in an appropriate setting. If the child is younger than five years or is not enrolled in a school, a team member shall observe the child in an environment appropriate for a child of that age.

(f) The parent shall have the right to present information to the individualized education program team in person or through a representative and the right to participate in meetings relating to eligibility for special education and related services, recommendations, and program planning.

(g) It is the intent of the Legislature that the individualized education program team meetings be nonadversarial and convened solely for the purpose of making educational decisions for the good of the individual with exceptional needs. However, if the public education agency uses an attorney during any part of the individualized education program meeting, that use shall be governed by the provisions of Section 56507.

SEC. 3.5. Section 56441.10 of the Education Code is amended to read:

69612. (a) The Legislature hereby recognizes that there is a

growing shortage of high quality classroom teachers, and that certain populations are particularly underrepresented in the teaching profession. The teacher shortage is most serious in particular subject areas, partly due to the shortage of students in these fields who enter the teaching profession. The Legislature also recognizes that many school districts have difficulty recruiting and retaining high quality teachers for pupils with special needs and for schools serving large populations of students from low-income and linguistic minority families.

The Legislature finds that the rising costs of higher education, coupled with a shift in available financial aid from scholarships and grants to loans, make loan repayment options an important consideration in a student's decision to pursue a postsecondary education. The availability of financial aid and loan repayment assistance are often particularly important considerations for students from underrepresented postsecondary student populations in making their educational decisions.

(b) It is the intent of the Legislature that the Assumption Program of Loans for Education be designed to encourage persons to enter into the teaching profession in designated subject matter shortage areas and in schools serving large populations of students from low-income families. It is further the intent of the Legislature in enacting this article to do all of the following:

(1) Provide outstanding postsecondary students, particularly those from populations underrepresented in the teaching profession, with the assurance of financial assistance to encourage them to complete postsecondary education programs leading to teaching credentials, and to seek employment as teachers.

(2) Provide persons who agree to become teacher trainees or teacher interns in a subject matter shortage area with the assurance of financial assistance to encourage them to complete the additional coursework necessary to obtain a teaching credential.

(3) Identify subject matter areas in which there are shortages of teachers and provide incentives for persons to obtain teaching credentials and seek teaching positions in those areas.

(4) Identify schools serving large populations of students from low-income families and provide incentives for persons to obtain teaching credentials and seek teaching positions in those schools.

SEC. 13. Section 69613.1 of the Education Code is amended to read:

69613.1. The Superintendent of Public Instruction shall furnish the Student Aid Commission with all of the following:

(a) A list of teaching fields that have the most critical shortage of teachers. The superintendent shall review this list annually and revise the list as he or she deems necessary.

(b) A list of schools that serve a large population of students from low-income families, as designated for purposes of the National Direct Student Loan Program, or according to other standards the superintendent deems appropriate.

SEC. 14. (a) The Superintendent of Public Instruction shall collect data from special education local plan areas regarding the functions actually performed by program specialists and shall compare those functions to the role specified for program specialists in subdivision (b) of Section 56368 of the Education Code.

(b) On or before June 30, 1989, the Superintendent of Public Instruction shall report the results of the analysis performed pursuant to subdivision (a) to the Governor and the chairs of the appropriate policy and fiscal committees of the Legislature.

SEC. 15. The Legislature hereby declares that the special education program that became inoperative on June 30, 1988, pursuant to Section 62000.3 of the Education Code, shall become operative, as amended by this act, on January 1, 1989.

SEC. 16. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

For the purposes of this section, a forfeiture of bail shall be equivalent to a conviction.

pursuant to subdivision (a).

(e) Within 10 days of an order terminating or revoking probation under Section 23167, 23187, or 23207, the clerk of the court, or the judge if there is no clerk, in which the order terminating or revoking probation was entered, shall prepare and immediately forward to the department at its office in Sacramento an abstract of the record of the court order terminating or revoking probation and any other order of the court to the department required by law.

SEC. 3. Section 1804 of the Vehicle Code, as amended by Section 2 of Chapter 1345 of the Statutes of 1985, is amended to read:

1804. The abstract shall be made upon a form furnished or approved by the department and shall contain all necessary information to identify the defendant, the date and nature of the offense, the license plate number of the vehicle involved in the offense, whether the vehicle was transporting a load required to be transported by a driver certified pursuant to Section 12804.1, whether the operator of the vehicle is required to be certified pursuant to Section 12804.3, the date of hearing, and the judgment. The abstract shall also indicate whether the vehicle involved in the offense is a commercial motor vehicle, as defined in subdivision (b) of Section 15210.

SEC. 3.3. Section 1804 of the Vehicle Code, as amended by Section 2 of Chapter 1345 of the Statutes of 1985, is amended to read:

(b) As to any abstract for which the original arrest and final conviction was for a violation of Section 23101 or 23102, as those sections read before January 1, 1982, or Section 23152 or 23153, the abstract shall contain a statement indicating the percentage of alcohol, by weight, in the person's blood whenever that percentage was determined by a chemical test. The information regarding the chemical test shall be compiled if it is available to the clerk of the court. All information required to be compiled pursuant to this subdivision shall be kept confidential in the records of the department pursuant to Section 1808.5. The department may use the information for research and statistical purposes and for determining the eligibility of any person to operate a motor vehicle on the highways of this state. The information shall not be released to any other public or private agency, except for research and statistical summary purposes and, for those purposes, the name and address of

the person and any other identifying information shall not be disclosed.

(c) The Legislature finds and declares that blood-alcohol percentages have valuable research potential in providing statistical summary information on impaired drivers but that a specific blood-alcohol percentage is only an item of evidence for purposes of criminal and licensing sanctions imposed by law. The Legislature recognizes that the accuracy of the determination of a specific blood-alcohol percentage is not the critical determination in a conviction for driving under the influence of an alcoholic beverage if the blood-alcohol percentage exceeds the statutory amount.

SEC. 3.5. Section 12502 of the Vehicle Code is amended to read:

12502. (a) A nonresident over the age of 18 years having in his or her immediate possession a valid driver's license issued by a foreign jurisdiction of which he or she is a resident, may operate a motor vehicle in this state without obtaining a license under this code except as provided in Section 12505.

Otherwise the license shall be valid only for operating class C vehicles which are not commercial vehicles, as defined in subdivision (b) of Section 15210, and for operating class M vehicles, if so endorsed, which are not commercial vehicles, as defined in subdivision (b) of Section 15210.

(d) A license or driver certificate issued prior to the enactment of Chapter 7 (commencing with Section 15200) shall be valid to operate the class or type of vehicles specified under the law in existence prior to that enactment until the license or certificate expires or is otherwise suspended, revoked, or canceled.

(e) The department may accept a certificate of driving experience that is issued by an employer of the applicant, in lieu of a driving test, on class A or B applications, if the applicant has first qualified for a class C license and has met the other examination requirements for the license for which he or she is applying. The certificate may be submitted as evidence of the applicant's experience or training in the operation of the types of equipment covered by the license for which he or she is applying.

(f) The department may accept a certificate of competence in lieu of a driving test on class M applications, when the certificate is issued by a law enforcement agency for its officers who operate class M vehicles in their duties, if the applicant has met the other examination requirements for the license for which he or she is applying.

(g) Notwithstanding subdivision (b), any person holding a valid California driver's license of any class may operate a motorized bicycle without taking any special examination for the operation of a motorized bicycle, and without having a class M endorsement on that license.

(h) Drivers of vanpool vehicles, may operate with class C licenses, but shall possess evidence of a medical examination required for a

class B license when operating vanpool vehicles. In order to be eligible to drive the vanpool vehicle, the driver shall keep in the vanpool vehicle a statement, signed under penalty of perjury, that he or she has not been convicted of reckless driving, drunk driving, or a hit and run offense in the last five years.

(i) During the implementation of this section, from January 1, 1989, through December 31, 1992, provisions of this code pertaining to persons holding class 1, 2, 3, or 4 licenses pursuant to Section 12804, shall apply to persons holding class A, B, C, or M licenses pursuant to this section, to the extent that class A, B, C, or M vehicles under this section fall within the definition of class 1, 2, 3, or 4 vehicles under Section 12804.

SEC. 8. Section 14900 of the Vehicle Code is amended to read:

14900. (a) Except as otherwise provided in Section 15255, upon application for an original driver's license, or for the renewal of a driver's license or for a license to operate a different class of vehicle, there shall be paid the department a fee of ten dollars ($10). The payment of the fee entitles the person paying the fee to make application for a driver's license and to three examinations within a period of 12 months or during the period of an instruction permit issued from the application as provided in Section 12509.

The term "driver's license", as used in this section, includes all licenses of every kind issued under Division 6 (commencing with Section 12500).

(b) Any person who, by reason of physical disabilities, is unable to move about as a pedestrian is exempt from the fee provided in this section, but only in the event the license issued to that person restricts that person to the operation of a self-propelled wheelchair or invalid tricycle.

SEC. 9. Chapter 7 (commencing with Section 15200) is added to Division 6 of the Vehicle Code, to read:

## CHAPTER 7. COMMERCIAL MOTOR VEHICLE SAFETY PROGRAM

### Article 1. Intent

15200. It is the intent of the Legislature, in enacting this chapter, to adopt those standards required of drivers by the Federal Highway Administration of the Department of Transportation, as set forth in the Commercial Motor Vehicle Safety Act of 1986 (Title XII of P.L. 99-570) and to reduce or prevent commercial motor vehicle accidents, fatalities, and injuries by permitting drivers to hold only one license, disqualifying drivers for certain criminal offenses and serious traffic violations, and strengthening licensing and testing standards. This act is a remedial law and shall be liberally construed to promote the public health, safety and welfare. To the extent that this chapter conflicts with general driver licensing provisions, this chapter shall prevail. Where this chapter is silent, the general driver licensing provisions shall apply. It is the further intent of the

Legislature that this program be fee supported, and that the department fully recoup its costs within four years of the program's enactment.

## Article 2. Definitions

This definition does not include portable tanks having a rated capacity under 1,000 gallons.

15220. Any driver of a commercial motor vehicle who has a driver's license issued by the department, and who is convicted of any offense involving the safe operation of a motor vehicle in any other state, shall notify the department, in the manner provided by the department, of the conviction within 30 days of the date of conviction.

(E) Authorization for the department to charge the employer a fee, as determined by the department, which is sufficient to defray the actual costs incurred by the department for administering and evaluating the employer testing program, and for carrying out any other activities deemed necessary by the department to assure sufficient training for the drivers participating in the program.

(d) Commercial driver license applicants who take and pass driving tests administered by a third party shall provide the department with evidence satisfactory to the department that the applicant has successfully passed the driving tests administered by the third party.

(e) Implementation dates for the issuance of a commercial driver's license pursuant to this chapter may be established by the department as it determines is necessary to accomplish an orderly commercial driver license program.

15255. The department shall study the adequacy of the existing fee structure for the issuance of drivers' licenses in relation to the costs of issuing commercial drivers' licenses and license endorsements as provided in this act. The department shall report to the Legislature, on or before March 1, 1989, its findings and recommendations on changes in the fees necessary to generate sufficient revenues to finance the drivers' license activities provided in this act.

15260. (a) Any applicant for a commercial driver's license who does not successfully complete the air-brake component of the knowledge test, or who does not successfully complete the driving-skill test in a vehicle or combination of vehicles equipped with air brakes, shall, if otherwise qualified, receive a commercial driver's license that restricts the licenseholder from operating a commercial motor vehicle equipped with air brakes.

*The people of the State of California do enact as follows:*

SECTION 1. Section 33012 of the Health and Safety Code is amended to read:

33012. (a) "Financial burden or detriment" means either of the following:

(1) A net increase in the quality or quantity of a service of the affected taxing entity caused by the redevelopment project.

(2) A loss of property tax revenues by the affected taxing entity produced by a change of ownership or new construction which would have been received, or was reasonably expected to have been received, by the taxing entity if the redevelopment project was not established.

(b) The division of taxes pursuant to Section 33670, by itself, shall not constitute a financial burden or detriment.

(c) This section shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1991, deletes or extends that date.

SEC. 2. Section 33353.3 of the Health and Safety Code is amended to read:

33353.3. Within 15 days after receiving notification that a fiscal review committee has been created, and prior to sending a redevelopment plan to the fiscal review committee, the agency shall commence consultations with the fiscal review committee regarding the impact of the proposed redevelopment project upon the affected taxing entities. The purpose of the consultations shall be to identify the fiscal effects of the proposed redevelopment plan upon the affected taxing entities, specify additional information, if any, needed to enable those fiscal effects to be identified and analyzed, and suggest possible provisions in the redevelopment plan which would alleviate or eliminate a financial burden or detriment.

During consultations with the fiscal review committee and affected taxing entities, the agency shall provide all written information it possesses concerning all public or private development which is planned for or taking place in the project area, except records which disclose trade secrets or the financial condition of contractors or potential contractors with the agency.

## CHAPTER 1511

An act to amend Section 8664.8 of, to add Section 8691 to, and to add and repeal Section 8687.5 of, the Fish and Game Code, relating to commercial fishing.

[Approved by Governor September 28, 1988 Filed with Secretary of State September 29, 1988 ]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds that the small existing gill and trammel net fishery for halibut, shark, smelt, and perch within Tomales Bay has been conducted without demonstrable adverse impacts to the bay's resources or fisheries.

The Legislature further finds that recent restrictions on the use of gill and trammel nets in nearshore waters of the open coast outside of Tomales Bay to protect seabirds and marine mammals could result in major increases in gill and trammel net fishing within the limited confines of Tomales Bay which could exceed the sustainable yields of fishery resources there and generate renewed impacts to seabirds and marine mammals and result in impacts to the fishery itself.

The Legislature further finds that extensive public efforts during recent years have been successful in restoring anadromous fish runs within Tomales Bay.

The Legislature further finds and declares that it is vitally important to protect the results from the unique silver salmon and steelhead trout restoration program in Lagunitas Creek, a tributary of Tomales Bay in Marin County.

In order to properly protect the silver salmon and steelhead trout resource, it is essential that the use of gill and trammel nets in Tomales Bay be carefully monitored during the months of August and September.

Therefore, the Legislature declares its intent to provide for the continuation of the existing commercial gill and trammel net fisheries within Tomales Bay by the enactment of Section 8687.5 of the Fish and Game Code, and provide for a modest increase in that fishery while providing greater long-term protections for the diverse resources and fisheries of Tomales Bay.

SEC. 2. Section 8664.8 of the Fish and Game Code is amended to read:

8664.8. (a) Notwithstanding Sections 8685, 8687, 8696, and 8724, set or drift gill or trammel nets shall not be used on or after April 1, 1987, in the following ocean waters, except as provided in subdivision (d):

(1) Between a line extending 245° magnetic from the most

westerly point of the west point of the Point Reyes headlands in Marin County and the westerly extension of the California-Oregon boundary.

(2) In waters which are 40 fathoms or less in depth at mean lower low water between a line extending 245° magnetic from the most westerly point of the west point of the Point Reyes headlands in Marin County and a line extending due east and west magnetic from Duxbury bouy in Marin County.

(b) Notwithstanding Sections 8687, 8696, and 8724, set or drift gill or trammel nets shall not be used in the following ocean waters from April 1, 1987, to March 31, 1988, except as provided in subdivision (d):

(1) In waters which are 20 fathoms or less in depth at mean lower low water between a line extending due east and west magnetic from Duxbury buoy in Marin County and a line extending 225° magnetic from Franklin Point in San Mateo County.

(2) In waters within five nautical miles of the most westerly point of Point San Pedro.

(c) Notwithstanding Sections 8664.5, 8687, 8696, and 8724, set or drift gill or trammel nets shall not be used on and after April 1, 1988, in waters which are 40 fathoms or less in depth at mean lower low water between a line extending 245° magnetic from the most westerly point of the west point of the Point Reyes headlands in Marin County and a line extending 220° magnetic from the mouth of Waddell Creek in Santa Cruz County.

(d) Subdivisions (a), (b), and (c) do not apply to the use of drift gill nets operated under a permit issued by the department in that part of Arcata Bay in Humboldt County lying northeast of the Samoa Bridge during the period from April 1 to September 30, inclusive. The department may issue not more than six permits pursuant to this subdivision. Each permit shall specify the amount and type of gear which may be used under the permit.

(e) Subdivisions (a), (b), and (c) do not apply to the use of set gill nets used pursuant to Article 15 (commencing with Section 8550) of Chapter 2 of Part 3 of Division 6 or regulations adopted under that article or to the use of drift gill nets with a mesh size of 14 inches or more.

(f) (1) Notwithstanding subdivision (b) and Sections 8687, 8696, and 8724, gill or trammel nets shall not be used within three nautical miles of the Farallon Islands, and Noonday Rock buoy in San Francisco County.

(2) If the director determines that the use of set or drift gill or trammel nets is having an adverse impact on any population of any species of sea bird, marine mammal, or fish, the director shall issue an order prohibiting the use of those nets between three nautical miles and five nautical miles of the Farallon Islands and Noonday Rock buoy or any portion of that area. The order shall take effect no later than 48 hours after its issuance. The director shall hold a properly noticed public hearing in a place convenient to the affected area within one week of the effective date of the order to describe

the action taken and shall take testimony as to the effect of the order and determine whether any modification of the order is necessary. Gill and trammel nets used to take fish in District 10 shall be marked at each end with a buoy displaying above its waterline in Arabic numerals at least two inches high, the certificate of vessel registration number issued by the department under Section 7881 for the vessel from which the net is being used. Nets shall be marked at both ends and at least every 250 fathoms between the ends with flags of the same color and at least 144 square inches in size, acceptable to the department.

SEC. 3. Section 8687.5 is added to the Fish and Game Code, to read:

8687.5. (a) Notwithstanding Section 8664.8, in that part of Tomales Bay in District 10 which lies south of a line extending westerly 252° magnetic from the western tip of Tom's Point to the opposite eastern shore of Tomales Point in Marin County, drift and set trammel nets with meshes at least eight inches in length and drift gill nets may be used during the period from April 1 through September 30 only under a revocable, nontransferable permit issued by the department, to take halibut, flounder, shark, skates, rays, smelt, and perch consistent with established season, size, and mesh size limitations for such species.

(b) The total number of permits which may be issued under this section shall not exceed four for each annual season. Two of the permits shall be made available to fishermen operating within Tomales Bay under authority of experimental gear permits during the 1987–88 permit year. Each permit shall specify the amount and type of gear which may be used under the permit.

(c) This section does not apply to the use of set gill nets used within Tomales Bay pursuant to Article 15 (commencing with Section 8550) of Chapter 2 of Part 3 of Division 6 or regulations adopted under that article.

(d) If silver salmon or steelhead trout are incidentally taken in gill or trammel nets during the period August 1 to September 30, inclusive, of 1989 to 1992, inclusive, and the department determines that the incidental take has an adverse impact on the resource, the director shall, pursuant to Section 7710, order an immmediate closure of the fishery.

(e) This section shall remain in effect only until January 1, 1993, and as of that date is repealed unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

SEC. 4. Section 8691 is added to the Fish and Game Code, to read:

8691. Set gill nets and trammel nets with mesh smaller than 4⅛ inches shall not be used or possessed on any boat taking rockfish or lingcod in ocean waters between a line extending 245° magnetic from the most westerly point of the Point Reyes headlands and a line extending 250° magnetic from the Pigeon Point Lighthouse.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the

only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

[Approved by Governor September 28, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 9414 of the Government Code is amended to read:

No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

## CHAPTER 1516

An act to add and repeal Chapter 13 (commencing with Section 52910) of Part 28 of the Education Code, relating to education.

[Approved by Governor September 29, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 13 (commencing with Section 52910) is added to Part 28 of the Education Code to read:

### CHAPTER 13. CAREER-VOCATIONAL EDUCATION AND TRAINING

52910. The Legislature hereby finds and declares all of the following:

(a) That California's present employment preparation and career education programs need to be strengthened and expanded to meet the needs of employers for a skilled work force and student and employee demands for career-vocational preparation and occupational training, including the use of computers and other technologies.

(b) That changes occurring in California's economy make it imperative that there be available a work force with the personal and occupational skills and knowledge to productively support new economic and technological developments. The Legislature also finds a need to improve coordination among the many service

providers funded by federal and state funds to avoid unnecessary duplication of programs and services.

(c) That it is in the best interest of the state to provide all students with a cohesive and well articulated system of career-vocational preparation and occupational training which prepares students for roles as family members and community members, leaders, and productive workers. The Legislature also finds that the alternative means authorized in subdivision (b) of Section 51225.3 are currently being underutilized by school districts.

(d) That students in California's public schools face inadequate access to quality career-vocational preparation and occupational training programs, and declares that providing high quality curriculum and instruction in this area is a high priority of the state. The Legislature believes that all students should be prepared with basic job entry skills at the completion of their schooling. The Legislature declares that a student's pursuit of career-vocational preparation programs in secondary school and his or her satisfaction of the admission requirements necessary for baccalaureate postsecondary education should not be mutually exclusive.

(e) That every student shall attain a minimum of 12 years of systematic study or its equivalent that effectively prepares the student to enter college, a job, or advanced preparation.

52911. For purposes of this chapter, the following definitions shall apply:

(a) "Applied academic areas" means the subject matter areas of agriculture, business and marketing, consumer and homemaking education, health careers, home economic related occupations, and industrial arts, technical, trade and industrial education and methodologies including, but not limited to, work experience education, cooperative vocational education, and community classroom.

(b) "Applied academic programs" means programs that teach and reinforce academic, technical, and employability skills, necessary for employment or advanced training, in applied academic areas.

52912. (a) Each school district or county office of education maintaining one or more high schools or regional occupational programs and centers that wishes to participate in implementing the career-vocational education and training model state curriculum standards and frameworks may use vocational education funds for this purpose.

(b) These funds may be used for planning and development, revision, or expansion of a locally approved model curriculum that meets the intent of this chapter including, but not limited to, the following:

(1) Identify the applied academic classes in the high school, adult education, and regional occupational center or program that are of sufficient rigor and duration, and include an adequate core of skills, competencies, and student outcomes which will satisfy, in part,

graduation requirements contained in subdivision (a) of Section 51225.3 and Section 51226.

(2) Adopt model curriculum standards for vocational education courses of study in the high schools and regional occupational programs and centers necessary to comply with the entry level employment skills provision of subdivision (b) of Section 51228.

(3) Provide staff development programs for principals, teachers, counselors, other school personnel, and volunteers for the development and implementation of the adopted model curriculum.

(4) Coordinate federal, state, and local public and private sources to improve career-vocational curriculum and instruction and support services. This is intended to include programs aimed at the availability and use of educational technologies.

(5) Make options available for students to participate in work experience education, cooperative vocational education, and community classrooms.

52913. The Superintendent of Public Instruction shall do all of the following:

(a) Disseminate information to secondary school districts, regional occupational programs and classes, and county offices of education to assist in the inventory, development, and implementation of competencies and required student outcomes in applied academic fields.

(b) If requested by a secondary school district, regional occupational program or class, or county office of education, train schoolsite personnel in establishing and implementing an applied academic course or program.

(c) Disseminate information to secondary school districts, regional occupational centers or programs, and county offices of education, regarding districts having policies that provide for the utilization of applied academic classes which satisfy, in part, selected graduation requirements.

(d) Provide technical assistance to the school districts, regional occupational centers or programs, and county offices of education to implement the adopted courses or programs.

(e) Conduct program quality and fiscal reviews to do all of the following:

(1) Ensure that funds allocated pursuant to this chapter are expended for the purposes intended.

(2) Determine the effectiveness of the technical assistance offered and the quality and effectiveness of improvements in the resulting programs from the activities pursuant to this chapter.

(f) Report to the Legislature regarding the improvement in the instructional program resulting from the activities provided for in this chapter.

The initial report to the Legislature shall be submitted on or before January 1, 1990, and the final report to the Legislature shall be submitted on or before January 1, 1991.

52914. This chapter shall remain in effect only until January 1,

1991, and as of that date is repealed, unless a later enacted statute, which is chaptered on or before January 1, 1991, deletes or extends that date.

SEC. 2. The State Department of Education shall receive funding for the purposes of Chapter 13 (commencing with Section 52910) of Part 28 of the Education Code only to the extent that funds may be appropriated in the annual Budget Act or to the extent that other specific appropriations may be made for the purposes of that chapter.

## CHAPTER 1517

An act to amend Sections 5250.1, 5252, 5254, 5256, 5256.6, 5256.7, 5257, 5258, 5275, 5278, 5352.3, 5402, and 6551 of, to add Section 5402.2 to, and to add Article 4.7 (commencing with Section 5270.10) of Chapter 2 of Part 1 of Division 5 of, the Welfare and Institutions Code, relating to mental health.

[Approved by Governor September 29, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares:

(1) There is a shortage of state and local hospital beds suitable for the care of acute psychiatric patients in many counties which has led to the denial or prevention of admission of mentally disordered individuals for appropriate treatment under the Lanterman-Petris-Short Act, including the 72-hour detention provided by Section 5150 of the Welfare and Institutions Code, and to an increasing urgency to discharge patients after a short stay.

(2) There is in at least 29 counties an extreme shortage of mental health emergency services and publicly funded acute psychiatric beds which has resulted in the redirection of long-term psychiatric patients from the mental health system into the criminal justice system or into a state of homelessness.

(3) The state hospital admissions have decreased from 25,000 in 1975 to approximately 6,000 in 1986 and this decrease has been accompanied by a decline in the number of beds allocated for Lanterman-Petris-Short patients and an increase in the number of beds for other patients.

(4) There is also a critical shortage of appropriate 24-hour facilities in many counties which has created the inappropriate use of acute state hospital beds for long-term psychiatric care of the mentally disordered.

(5) A master plan for the utilization of state hospital beds and other available resources on state hospital grounds is essential in order for proposed revisions to the Lanterman-Petris-Short Act to

prove of maximum benefit to the mentally disordered population.

SEC. 2. Section 5250.1 of the Welfare and Institutions Code is amended to read:

5250.1. The professional person in charge of a facility providing intensive treatment, pursuant to Section 5250 or 5270.15, or that person's designee, shall notify the county mental health director, or the director's designee, and the peace officer who made the original written application for 72-hour evaluation pursuant to Section 5150 or a person who is designated by the law enforcement agency that employs the peace officer, that the person admitted pursuant to the application has been released unconditionally if all of the following conditions apply:

(a) The peace officer has requested notification at the time he or she makes the application for 72-hour evaluation.

(b) The peace officer has certified in writing at the time he or she made the application that the person has been referred to the facility under circumstances which, based upon an allegation of facts regarding actions witnessed by the officer or another person, would support the filing of a criminal complaint.

(c) The notice is limited to the person's name, address, date of admission for 72-hour evaluation, date of certification for intensive treatment, and date of release.

If a police officer, law enforcement agency, or designee of the law enforcement agency, possesses any record of information obtained pursuant to the notification requirements of this section, the officer, agency, or designee shall destroy that record two years after receipt of notification.

SEC. 3. Section 5252 of the Welfare and Institutions Code is amended to read:

5252. A notice of certification is required for all persons certified for intensive treatment pursuant to Section 5250 or 5270.15, and shall be in substantially the following form (strike out inapplicable section):

5254. The person delivering the copy of the notice of certification to the person certified shall, at the time of delivery, inform the person certified that he or she is entitled to a certification review hearing, to be held within four days of the date on which the person is certified for a period of intensive treatment in accordance with Section 5256 unless judicial review is requested, to determine whether or not probable cause exists to detain the person for intensive treatment related to the mental disorder or impairment by chronic alcoholism. The person certified shall be informed of his or her rights with respect to the hearing, including the right to the

assistance of another person to prepare for the hearing or to answer other questions and concerns regarding his or her involuntary detention or both.

SEC. 5. Section 5256 of the Welfare and Institutions Code is amended to read:

5256. When a person is certified for intensive treatment pursuant to Sections 5250 and 5270.15, a certification review hearing shall be held unless judicial review has been requested as provided in Sections 5275 and 5276. The certification review hearing shall be within four days of the date on which the person is certified for a period of intensive treatment unless postponed by request of the person or his or her attorney or advocate. Hearings may be postponed for 48 hours or, in counties with a population of 100,000 or less, until the next regularly scheduled hearing date.

SEC. 6. Section 5256.6 of the Welfare and Institutions Code is amended to read:

5256.6. If at the conclusion of the certification review hearing the person conducting the hearing finds that there is probable cause that the person certified is, as a result of a mental disorder or impairment by chronic alcoholism, a danger to others, or to himself or herself, or gravely disabled, then the person may be detained for involuntary care, protection, and treatment related to the mental disorder or impairment by chronic alcoholism pursuant to Sections 5250 and 5270.15.

SEC. 7. Section 5256.7 of the Welfare and Institutions Code is amended to read:

5256.7. The person certified shall be given oral notification of the decision at the conclusion of the certification review hearing. As soon thereafter as is practicable, the attorney or advocate for the person certified and the director of the facility where the person is receiving treatment shall be provided with a written notification of the decision, which shall include a statement of the evidence relied upon and the reasons for the decision. The attorney or advocate shall notify the person certified of the certification review hearing decision and of his or her rights to file a request for release and to have a hearing on the request before the superior court as set forth in Article 5 (commencing with Section 5275). A copy of the decision and the certification made pursuant to Section 5250 or 5270.15 shall be submitted to the superior court.

SEC. 8. Section 5257 of the Welfare and Institutions Code is amended to read:

5257. During the period of intensive treatment pursuant to Section 5250 or 5270.15, only if the psychiatrist directly responsible for the person's treatment believes, as a result of his or her personal observations, that the person certified no longer is, as a result of mental disorder or impairment by chronic alcoholism, a danger to others, or to himself or herself, or gravely disabled, then the person's involuntary detention shall end and the person shall be released. If any other professional person who is authorized to release the person

believes the person should be released during the designated period of intensive treatment, and the psychiatrist directly responsible for the person's treatment objects, the matter shall be referred to the medical director of the facility for the final decision. However, if the medical director is not a psychiatrist, he or she shall appoint a designee who is a psychiatrist. If the matter is referred, the person shall be released during the period of intensive treatment only if the psychiatrist making the final decision believes, as a result of his or her personal observations, that the person certified no longer is, as a result of mental disorder or impairment by chronic alcoholism, a danger to others, or to himself or herself, or gravely disabled. Nothing herein shall prohibit either the person remaining at the facility on a voluntary basis or the facility from providing the person with appropriate referral information concerning mental health services.

A person who has been certified for a period of intensive treatment pursuant to Section 5250 shall be released at the end of 14 days unless the patient either:

(a) Agrees to receive further treatment on a voluntary basis.

(b) Is certified for an additional 14 days of intensive treatment pursuant to Article 4.5 (commencing with Section 5260).

(c) Is certified for an additional 30 days of intensive treatment pursuant to Article 4.7 (commencing with Section 5270.10).

(e) Is the subject of a petition for Postcertification of an Imminently Dangerous Person filed pursuant to Article 6 (commencing with Section 5300).

SEC. 9. Section 5258 of the Welfare and Institutions Code is amended to read:

5258. After the involuntary detention has begun, the total period of detention, including intervening periods of voluntary treatment, shall not exceed the total maximum period during which the person could have been detained, if the person had been detained continuously on an involuntary basis, from the time of initial involuntary detention.

SEC. 10. Article 4.7 (commencing with Section 5270.10) is added to Chapter 2 of Part 1 of Division 5 of the Welfare and Institutions Code, to read:

Article 4.7. Additional Intensive Treatment

5270.10. It is the intent of the Legislature to reduce the number of gravely disabled persons for whom conservatorship petitions are filed and who are placed under the extensive powers and authority of a temporary conservator simply to obtain an additional period of treatment without the belief that a conservator is actually needed and without the intention of proceeding to trial on the conservatorship petition. This change will substantially reduce the

number of conservatorship petitions filed and temporary conservatorships granted under this part which do not result in either a trial or a conservatorship.

5270.12. This article shall be operative only in those counties in which the county board of supervisors, by resolution, authorizes its application and, by resolution, makes a finding that any additional costs incurred by the county in the implementation of this article are funded either by new funding sufficient to cover the costs incurred by the county resulting from this article, or funds redirected from cost savings resulting from this article, or a combination thereof, so that no current service reductions will occur as a result of the enactment of this article. Compliance with this section shall be monitored by the Department of Mental Health as part of their review and approval of county Short-Doyle plans.

5270.15. Upon the completion of a 14-day period of intensive treatment pursuant to Section 5250, the person may be certified for an additional period of not more than 30 days of intensive treatment under both of the following conditions:

(a) The professional staff of the agency or facility treating the person has found that the person remains gravely disabled as a result of a mental disorder or impairment by chronic alcoholism.

(b) The person remains unwilling or unable to accept treatment voluntarily.

Any person certified for an additional 30 days pursuant to this article shall be provided a certification review hearing in accordance with Section 5256 unless a judicial review is requested pursuant to Article 5 (commencing with Section 5275).

The professional staff of the agency or facility providing intensive treatment shall analyze the person's condition at intervals of not to exceed 10 days, to determine whether the person continues to meet the criteria established for certification under this section, and shall daily monitor the person's treatment plan and progress. Termination of this certification prior to the 30th day shall be made pursuant to Section 5270.35.

5270.20. For a person to be certified under this article, a second notice of certification shall be signed by the professional person in charge of the facility providing intensive treatment to the person and by either a physician who shall, if possible, be a board-qualified psychiatrist, or a licensed psychologist who has a doctoral degree in psychology and at least five years of postgraduate experience in the diagnosis and treatment of emotional and mental disorders. The physician or psychologist who signs shall have participated in the evaluation and finding referred to in subdivision (a) of Section 5270.15.

If the professional person in charge is the physician who performed the medical evaluation and finding, or a psychologist, the second person to sign may be another physician or psychologist, unless one is not available, in which case a social worker or a registered nurse who participated in the evaluation and finding shall

sign the notice of certification.

5270.25. A second notice of certification is required for all involuntary intensive treatment, pursuant to this article, and shall be in substantially the form indicated in Section 5252.

5270.30. Copies of the second notice of certification as set forth in Section 5270.25, shall be filed with the court and personally delivered to the person certified. A copy shall also be sent to the person's attorney, to the district attorney, to the public defender, if any, and to the facility providing intensive treatment.

The person certified shall also be asked to designate any individual who is to be sent a copy of the certification notice. If the person certified is incapable of making the designation at the time of certification, that person shall be given another opportunity to designate when able to do so.

5270.35. A certification pursuant to this article shall be for no more than 30 days of intensive treatment, and shall terminate only as soon as the psychiatrist directly responsible for the person's treatment believes, as a result of his or her personal observations, that the person no longer meets the criteria for the certification, or is either prepared to accept voluntary treatment on a referral basis or to remain in the facility providing intensive treatment on a voluntary basis. If any other professional person who is authorized to release the person, believes the person should be released before 30 days have elapsed, and the psychiatrist directly responsible for the person's treatment objects, the matter shall be referred to the medical director of the facility for the final decision. However, if the medical director is not a psychiatrist, he or she shall appoint a designee who is a psychiatrist. If the matter is referred, the person shall be released before 30 days have elapsed only if the psychiatrist believes, as a result of his or her personal observations, that the person no longer meets the criteria for certification, or is prepared to accept voluntary treatment on referral or to remain in the facility providing intensive treatment on a voluntary basis.

Persons who have been certified for 30 days of intensive treatment under this article, shall be released at the end of 30 days unless the patient either:

(a) Agrees to receive further treatment on a voluntary basis.

(b) Is the subject of a conservatorship petition filed pursuant to Chapter 3 (commencing with Section 5350).

(c) Is the subject of a petition for Post-certification of an Imminently Dangerous Person filed pursuant to Article 6 (commencing with Section 5300).

5270.40. Any individual who is knowingly and willfully responsible for detaining a person for more than 30 days in violation of the provisions of Section 5270.35 is liable to that person in civil damages.

5270.45. Whenever a county designates two or more facilities to provide intensive treatment and the person to be treated, his or her family, conservator, or guardian expresses a preference for one

facility, the professional person certifying the person to be treated shall attempt, if administratively possible, to comply with the preference.

5270.50. Notwithstanding Section 5113, if the provisions of Section 5270.35 have been met, the professional person in charge of the facility providing intensive treatment, his or her designee, and the professional person directly responsible for the person's treatment shall not be held civilly or criminally liable for any action by a person released before or at the end of 30 days pursuant to this article.

5270.55. (a) Whenever it is contemplated that a gravely disabled person may need to be detained beyond the end of the 14-day period of intensive treatment and prior to proceeding with an additional 30-day certification, the professional person in charge of the facility shall cause an evaluation to be made, based on the patient's current condition and past history, as to whether it appears that the person, even after up to 30 days of additional treatment, is likely to qualify for appointment of a conservator. If the appointment of a conservator appears likely, the conservatorship referral shall be made during the 14-day period of intensive treatment.

(b) If it appears that with up to 30 days additional treatment a person is likely to reconstitute sufficiently to obviate the need for appointment of a conservator, then the person may be certified for the additional 30 days.

(c) Where no conservatorship referral has been made during the 14-day period and where during the 30-day certification it appears that the person is likely to require the appointment of a conservator, then the conservatorship referral shall be made to allow sufficient time for conservatorship investigation and other related procedures. If a temporary conservatorship is obtained, it shall run concurrently with and not consecutively to the 30-day certification period. The conservatorship hearing shall be held by the 30th day of the certification period. The maximum involuntary detention period for gravely disabled persons pursuant to Sections 5150, 5250 and 5270.15 shall be limited to 47 days. Nothing in this section shall prevent a person from excercising his or her right to a hearing as stated in Sections 5275 and 5353.

5270.60. The State Department of Mental Health shall monitor the implementation of the 30-day additional intensive treatment period pursuant to Section 5402. The department shall include its findings in its program reviews of county mental health programs and shall report its findings to the Legislature.

5270.65. Nothing in this article shall prohibit the professional person in charge of an intensive treatment facility, or a designee, from permitting a person certified for intensive treatment to leave the facility for short periods during the person's intensive treatment.

SEC. 11. Section 5275 of the Welfare and Institutions Code is amended to read:

5275. Every person detained by certification for intensive

treatment shall have a right to a hearing by writ of habeas corpus for his or her release after he or she or any person acting on his or her behalf has made a request for release to either (a) the person delivering the copy of the notice of certification to the person certified at the time of the delivery, or (b) to any member of the treatment staff of the facility providing intensive treatment, at any time during the period of intensive treatment pursuant to Section 5250, 5260, or 5270.10.

Any person delivering a copy of the certification notice or any member of the treatment staff to whom a request for release is made shall promptly provide the person making the request for his or her signature or mark a copy of the form set forth below. The person delivering the copy of the certification notice or the member of the treatment staff, as the case may be, shall fill in his or her own name and the date, and, if the person signs by mark, shall fill in the person's name, and shall then deliver the completed copy to the professional person in charge of the intensive treatment facility, or his or her designee, notifying him or her of the request. As soon as possible, the person notified shall inform the superior court for the county in which the facility is located of the request for release.

Any person who intentionally violates this section is guilty of a misdemeanor.

The form for a request for release shall be substantially as follows:

(Name of the facility) _____ day of _____ 19__

I, _____ (member of the treatment staff, or person delivering the copy of the certification notice), have today received a request for the release of _____ (name of patient) from the undersigned patient on his or her own behalf or from the undersigned person on behalf of the patient.

_____

Signature or mark of patient making request for release

_____

Signature or mark of person making request on behalf of patient

SEC. 12. Section 5278 of the Welfare and Institutions Code is amended to read:

5278. Individuals authorized under this part to detain a person for 72-hour treatment and evaluation pursuant to Article 1 (commencing with Section 5150) or Article 2 (commencing with Section 5200), or to certify a person for intensive treatment pursuant to Article 4 (commencing with Section 5250) or Article 4.5 (commencing with Section 5260) or Article 4.7 (commencing with Section 5270.10) or to file a petition for post-certification treatment for a person pursuant to Article 6 (commencing with Section 5300) shall not be held either criminally or civilly liable for exercising this authority in accordance with the law.

SEC. 13. Section 5352.3 of the Welfare and Institutions Code is amended to read:

5352.3. If the professional person in charge of the facility providing intensive treatment recommends conservatorship pursuant to Section 5352, the proposed conservatee may be held in that facility for a period not to exceed three days beyond the designated period for intensive treatment if the additional time period is necessary for a filing of the petition for temporary conservatorship and the establishment of the temporary conservatorship by the court. The involuntary detention period for gravely disabled persons pursuant to Sections 5150, 5250, and 5170.15 shall not exceed 47 days unless continuance is granted.

SEC. 14. Section 5402 of the Welfare and Institutions Code is amended to read:

5402. The State Department of Mental Health shall collect and publish annually quantitative information concerning the operation of this division including the number of persons admitted for 72-hour evaluation and treatment, 14-day and 30-day periods of intensive treatment, and 180-day post-certification intensive treatment, the number of persons transferred to mental health facilities pursuant to Section 4011.6 of the Penal Code, the number of persons for whom temporary conservatorships are established, and the number of persons for whom conservatorships are established in each county.

Each local mental health director, and each facility providing services to persons pursuant to this division, shall provide the department, upon its request, with any information, records, and reports which the department deems necessary for the purposes of this section. The department shall not have access to any patient name identifiers.

Information published pursuant to this section shall not contain patient name identifiers and shall contain statistical data only.

The department shall make the reports available to medical, legal, and other professional groups involved in the implementation of this division.

SEC. 15. Section 5402.2 is added to the Welfare and Institutions Code, to read:

5402.2. The Director of Mental Health shall develop a master plan for the utilization of state hospital facilities identifying levels of care. The level of care shall be either general acute care, skilled nursing care, subacute, intermediate care, or residential care.

SEC. 16. Section 6551 of the Welfare and Institutions Code is amended to read:

6551. If the court is in doubt as to whether the person is mentally disordered or mentally retarded, the court shall order the person to be taken to a facility designated by the county and approved by the State Department of Mental Health as a facility for 72-hour treatment and evaluation. Thereupon, Article 1 (commencing with Section 5150) of Chapter 2 of Part 1 of Division 5 applies, except that the professional person in charge of the facility shall make a written

report to the court concerning the results of the evaluation of the person's mental condition. If the professional person in charge of the facility finds the person is, as a result of mental disorder, in need of intensive treatment, the person may be certified for not more than 14 days of involuntary intensive treatment if the conditions set forth in subdivision (c) of Section 5250 and subdivision (b) of Section 5260 are complied with. Thereupon, Article 4 (commencing with Section 5250) of Chapter 2 of Part 1 of Division 5 shall apply to the person. The person may be detained pursuant to Article 4.5 (commencing with Section 5260), or Article 4.7 (commencing with Section 5270.10), or Article 6 (commencing with Section 5300) of Part 1 of Division 5 if that article applies.

If the professional person in charge of the facility finds that the person is mentally retarded, the juvenile court may direct the filing in any other court of a petition for the commitment of a minor as a mentally retarded person to the State Department of Developmental Services for placement in a state hospital. In such case, the juvenile court shall transmit to the court in which the petition is filed a copy of the report of the professional person in charge of the facility in which the minor was placed for observation. The court in which the petition for commitment is filed may accept the report of the professional person in lieu of the appointment, or subpoenaing, and testimony of other expert witnesses appointed by the court, if the laws applicable to such commitment proceedings provide for the appointment by court of medical or other expert witnesses or may consider the report as evidence in addition to the testimony of medical or other expert witnesses.

If the professional person in charge of the facility for 72-hour evaluation and treatment reports to the juvenile court that the minor is not affected with any mental disorder requiring intensive treatment or mental retardation, the professional person in charge of the facility shall return the minor to the juvenile court on or before the expiration of the 72-hour period and the court shall proceed with the case in accordance with the Juvenile Court Law.

Any expenditure for the evaluation or intensive treatment of a minor under this section shall be considered an expenditure made under Part 2 (commencing with Section 5600) of Division 5 and shall be reimbursed by the state as are other local expenditures pursuant to that part.

The jurisdiction of the juvenile court over the minor shall be suspended during such time as the minor is subject to the jurisdiction of the court in which the petition for postcertification treatment of an imminently dangerous person or the petition for commitment of a mentally retarded person is filed or under remand for 90 days for intensive treatment or commitment ordered by such court.

# CHAPTER 1518

An act to repeal and add Chapter 6 (commencing with Section 39900) of Part 2 of Division 26 of, and to repeal Sections 39906, 39907, 39908, 39909, 39910, and 39911 of, the Health and Safety Code, relating to acid deposition, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 29, 1988. Filed with Secretary of State September 29, 1988 ]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 6 (commencing with Section 39900) of Part 2 of Division 26 of the Health and Safety Code is repealed.

SEC. 2. Chapter 6 (commencing with Section 39900) is added to Part 2 of Division 26 of the Health and Safety Code, to read:

## CHAPTER 6. ATMOSPHERIC ACIDITY

39900. This chapter shall be known and may be cited as the Atmospheric Acidity Protection Act of 1988.

39901. The Legislature finds and declares that the deposition of atmospheric acidity resulting from other than natural sources is occurring in various regions of California, and that the continued deposition of this acidity, alone or in combination with other man-made pollutants and naturally occurring phenomena, could have potentially significant adverse effects on public health, the environment, and the economy.

39902. The Legislature further finds and declares that the State Air Resources Board has recently completed a multiyear acid deposition research and monitoring program under the Kapiloff Acid Deposition Act and that the research findings of the state board support the following conclusions with respect to the nature of the problem of deposition of acidity from the atmosphere in California:

(a) Acid atmospheres, in the form of fogs, and dry gases and particles, are found in areas where large numbers of people live and work, and, in many heavily populated areas of California, fogs typically contain acids and acidifying substances that aggravate asthmatic symptoms and may have other adverse health effects.

(b) Acid rain occurs in California in a pattern which generally reflects the spatial distribution of man-made sources of sulfur and nitrogen precursors of acid deposition throughout the state, and can be as much as 100 to 300 times as acidic as rain that falls in unpolluted locations. The acidity of rainfall in the spring and summer can be as high in California as in the eastern United States.

(c) Dry acid deposition due to fog, gases, and particles produced in the atmosphere is relatively more important than wet deposition due to rain or snow in California. While nitric acid, formed in the

atmosphere from emissions of nitrogen oxides and hydrocarbons, is a major constituent of atmospheric acidity in California, sulfuric acid accounts for a significant fraction of acidity within the state.

(d) Organisms in the food chain that supports sport fisheries in Sierra lakes and streams could be diminished by temporary exposures to highly acidic "pulses" during summer storms or snow melt.

(e) Forests adjacent to southern California and on the western slope of the Sierras receive significant exposure to acidity deposited from the atmosphere, and may be adversely affected by the acidity alone, or in combination with other pollutants. Forests may also be damaged indirectly through changes in soil chemistry and by increased susceptibility to insects and disease, as a result of stress on the forest ecosystem caused by the deposition of acidity.

(f) Agricultural crops, which are already known to suffer significant economic damage due to exposure to ozone, may suffer additional damage from exposure to highly acidic fogs and other forms of acid deposition.

(g) Damage to materials such as painted surfaces and treated metals from exposure to high levels of acidity causes significant economic losses in parts of the state.

39903. The Legislature declares that it is the purpose of the program established by this chapter to do all of the following:

(a) Determine the extent to which atmospheric acidity, alone or in combination with other pollutants, adversely affects public health, and the levels and duration of exposure at which those effects may be expected to occur.

(b) Document the long-term trends of all forms of atmospheric acidity deposited in California, the trends in lake and stream chemistry of sensitive watersheds, the quantity and chemical composition of acidic deposition, and the cumulative potential for damage to aquatic and terrestrial ecosystems.

(c) Develop techniques for the early detection of changes in aquatic and terrestrial ecosystems, including the chemistry of soils, which could be expected to precede ecosystem damage due to the deposition of atmospheric acidity, based on the latest scientific research, both in the United States as well as in other countries where the deposition of acidity has caused environmental damage.

(d) Determine the relationship between ambient concentrations of acidity and particles, and variations in atmospheric deposition rates; the relationship between sources of acidic pollutants and the deposition of atmospheric acidity at receptor areas; and the extent of transport and deposition of acid pollutants to mountainous areas and high-elevation watersheds.

(e) Estimate potential economic losses which may be expected to result from the long-term effects of atmospheric acidity, including, but not limited to, impacts on health, worker productivity, materials, fisheries, forests, recreation, and agriculture.

(f) Develop and adopt standards, to the extent supportable by

scientific data, at levels which are necessary and appropriate to protect public health and sensitive ecosystems from adverse effects resulting from atmospheric acidity.

39904. (a) The state board shall adopt and implement an Atmospheric Acidity Protection Program (AAPP), to determine the nature and extent of potential damage to public health and the state's ecosystem which may be expected to result from atmospheric acidity, and to develop measures which may be needed for the protection of public health and sensitive ecosystems within the state.

(b) The program shall commence upon the final compilation of information obtained pursuant to the former Kapiloff Acid Deposition Act, shall incorporate the research results and assessments undertaken pursuant to that act, and shall endeavor to acquire the latest available information on the chemical and biological processes in sensitive ecosystems which preceded the acidification of lakes and streams in other parts of the world.

(c) The Scientific Advisory Committee on Acid Deposition, appointed pursuant to the Kapiloff Acid Deposition Act is continued in existence, and shall actively assist the state board in the development and implementation of the Atmospheric Acidity Protection Program.

39905. In developing the health and ecosystem protection program the state board shall, at a minimum:

(a) Determine the effects of acidic atmospheres on sensitive populations, and the health consequences of prolonged exposure to acidic atmospheres.

(b) Conduct clinical and epidemiological studies to assess the effects on human health of acidic aerosols and fogs in combination with other pollutants.

(c) Analyze data from ongoing acid deposition monitoring programs operated by the state board and the local air pollution control districts, and relate the data to monitored changes in the chemistry of sensitive soils and bodies of water, and results from field exposure studies of economically significant materials.

(d) Characterize major source-receptor links for the deposition of atmospheric acidity using the best available scientific analysis and techniques, and the potential effects on long-term acid deposition trends of current and future air pollution control measures within the state.

(e) Conduct other studies or assessments as needed to carry out the purposes of this chapter.

39906. The state board may require districts, beginning July 1, 1988, and continuing through December 31, 1993, to impose additional variance and permit fees on nonvehicular sources within their jurisdiction.

39907. The additional fees imposed pursuant to Section 39906 may be expended only for the purpose of recovering the costs of acid deposition monitoring and research which is required to provide districts and the state board with the necessary scientific basis for

evaluating the public health and environmental impacts of issuing variances and of issuing and renewing permits for large sources of acid deposition precursors and for determining the feasibility and cost of control measures and air quality management strategies to mitigate the potential adverse effects of existing and increased levels of emissions of acid deposition precursors by large nonvehicular sources of sulfur and nitrogen oxides.

39908. The additional fees imposed pursuant to Section 39906 shall be collected from nonvehicular sources of sulfur and nitrogen oxides which emit 500 tons or more per year of either sulfur or nitrogen oxides.

The additional fees for the issuance of permits shall be set by the state board on a per pound basis at a level which most closely approximates, but does not exceed, the limits established by Section 39909.

In the case of additional fees imposed for the issuance of variances, the fees shall be based on the amount of excess emissions authorized by the variance and the length of time the variance is to remain in effect.

39909. (a) The total amount of funds appropriated by the Legislature from the Motor Vehicle Account in the State Transportation Fund and the California Environmental License Plate Fund to carry out the purposes of this chapter shall not exceed one million five hundred thousand dollars ($1,500,000) for any fiscal year, and shall reflect the level of funding deemed necessary after considering the annual report submitted pursuant to Section 39910.

(b) The total amount of funds collected from additional fees, exclusive of district administrative costs, shall be one million five hundred thousand dollars ($1,500,000) for any fiscal year. However, if the Legislature appropriates a lesser amount in any fiscal year to carry out the purposes of this chapter, the amount of the additional fees shall be reduced to an amount equal to the amount appropriated by the Legislature.

39910. (a) The state board, with the advice and participation of the scientific advisory committee, shall prepare and submit a report to the Legislature and the Governor on an annual basis. The report shall include a description of the activities undertaken pursuant to this chapter, the progress made in accomplishing the purposes of this chapter, as specified in Section 39903, and the level of funding necessary to accomplish additional progress; the findings to date of the atmospheric acidity protection program; future trends in acid deposition in California; and further actions, if any are required, in addition to existing laws, adopted regulations, and ongoing research programs, to control acid deposition and its potential adverse effects.

(b) The state board shall publish and make available to the public the annual report at least 30 days in advance of holding any hearings to consider adoption of the report.

39911. Sections 39906, 39907, 39908, 39909, 39910, and this section, shall remain in effect only until January 1, 1994, and as of that date

are repealed, unless a later enacted statute, which is chaptered before January 1, 1994, deletes or extends that date.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to continue without interruption the state's efforts to assess the threat of atmospheric acidity to public health and the state's ecosystems, it is necessary that this act take effect immediately.

## CHAPTER 1519

An act to amend Section 110 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 29, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 110 of the Revenue and Taxation Code is amended to read:

110. (a) Except as is otherwise provided in Section 110.1, "full cash value" or "fair market value" means the amount of cash or its equivalent which property would bring if exposed for sale in the open market under conditions in which neither buyer nor seller could take advantage of the exigencies of the other and both with knowledge of all of the uses and purposes to which the property is adapted and for which it is capable of being used and of the enforceable restrictions upon those uses and purposes.

(b) For purposes of determining the "full cash value" or "fair market value" of real property, other than possessory interests, being appraised upon a purchase, "full cash value" or "fair market value" shall be the purchase price paid in the transaction unless it is established by a preponderance of the evidence that the real property would not have transferred for that purchase price in an open market transaction. The purchase price shall, however, be rebuttably presumed to be the "full cash value" or "fair market value" if the terms of the transaction were negotiated at arms length between a knowledgeable transferor and transferee neither of which could take advantage of the exigencies of the other. "Purchase price," as used in this section, means the total consideration provided

by the purchaser or on the purchaser's behalf, valued in money, whether paid in money or otherwise. If a single transaction results in a change in ownership of more than one parcel of real property, the purchase price shall be allocated among those parcels and other assets, if any, transferred based on the relative fair market value of each.

(c) For real property, other than possessory interests, the change of ownership statement required pursuant to Section 480, 480.1, or 480.2, or the preliminary change of ownership statement required pursuant to Section 480.4, shall give any information as the board shall prescribe relative to whether the terms of the transaction were negotiated at "arms length". In the event that the transaction includes property other than real property, the change in ownership statement shall give information as the board shall prescribe disclosing the portion of the purchase price which is allocable to all elements of the transaction. If the taxpayer fails to provide the prescribed information, the rebuttable presumption provided by subdivision (b) shall not apply.

## CHAPTER 1520

An act relating to homeless persons, and making an appropriation therefor.

[Approved by Governor September 29, 1988. Filed with Secretary of State September 29, 1988.]

I am deleting the $107,000 General Fund appropriation contained in Section 7 of Assembly Bill 4486.

This bill would appropriate $107,000 from the General Fund to assist the counties of Santa Clara and San Diego in developing a plan to coordinate existing homeless programs and to offer specialized counseling and follow-up services to homeless persons.

The demands placed on budget resources require all of us to set priorities. The budget enacted in July 1988 appropriated nearly $44 billion in state funds. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

Thus, after reviewing this legislation, I have concluded that its merits do not sufficiently outweigh the need this year for funding top priority programs and continuing a prudent reserve for economic uncertainties.

It is more appropriate to consider funding the provisions of this bill during the budget process for Fiscal Year 1989–90. Only at that time can we review the relative merits of this program in comparison to all other funding projects. The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit.

GEORGE DEUKMEJIAN, Governor

*The people of the State of California do enact as follows:*

SECTION 1. It is the intent of the Legislature to do both of the following:

(a) Establish model projects in Santa Clara County and in San

Diego County for the coordination of intake services and needs assessment of homeless persons entering the system at current ongoing shelters, and for the comprehensive data collection, case management and stabilization assistance of homeless persons in need of such services.

(b) Promote the current voluntary private and local commitment of homeless service providers in Santa Clara County and in San Diego County by creating a coordinated intake and case management system that will also provide an opportunity for the State of California to serve the homeless on a manageable scale, with a defined target population in a specific geographic location, and by maximizing private provider's expertise, local collaborative data, and innovative service delivery components.

SEC. 2. (a) There is hereby established the Homeless Coordinated Intake System Project, to be administered by the Department of Housing and Community Development for the period commencing January 1, 1989, through December 31, 1991, in the County of Santa Clara and the County of San Diego. The purpose of the project shall be to develop and pilot a plan to coordinate the delivery of local services to the homeless, with a particular focus on data collection and individualized case management. Among the benefits of the project will be development of common intake forms, common data base, and standard case management protocols that may be easily replicated in other cities and counties throughout California.

(b) For purposes of this act, "homeless," with regard to an individual or family, is defined as being without shelter and seeking shelter, and having as the only current alternative the obtaining of shelter from a private or public agency.

(c) For the purpose of this act, "homeless youth" is defined as a minor who is without shelter and has little or no possibility of being reunified with his or her immediate family.

(d) For purposes of this act, "case management" is defined as the process of delivering human services to individuals and families in a planned manner that includes assessment of client needs, linking clients with appropriate community resources, providing clients with appropriate counseling, review of client's progress, termination of service, and completion of a followup process.

SEC. 3. The Department of Housing and Community Development shall do all of the following:

(a) Adopt program guidelines which are necessary for the effective administration of this act.

(b) Approve, no later than three months after submission, an implementation plan for the project to demonstrate a coordinated intake system for systematic delivery of local services to the homeless in Santa Clara County and in San Diego County. The plan shall take into account the demographic composition of the homeless in each county, including adults, youth, and families, and the available services for each one of these homeless groups. The plan shall require

that the following components be included:

(1) The department shall designate the County of Santa Clara and the County of San Diego as the fiscal agents for the Homeless Coordinated Intake System Project, and the counties shall be the fiscal agents upon the adoption of a resolution of acceptance by the board of supervisors in each county. The purpose of the fiscal agents shall be to receive and account for funds appropriated by the state for purposes of the Homeless Coordinated Intake System Project. In addition, the fiscal agent may hire staff, make recommendations throughout the implementation and operation of the project, subcontract, and expend funds as necessary to enable the project to fulfill its goals pursuant to this act.

(2) Each fiscal agent shall receive applications, screen, and select two local homeless agencies and sites to use as designated intake and case management sites for the purposes of the Homeless Coordinated Intake System Project. In selecting the two agencies and sites, each fiscal agent shall give preference to agencies that have a demonstrable record of success in client intake, assessments, and referral, agencies that have a history in working with one or more elements of the homeless population, and agencies that have experience in collaborative interagency projects. Preference shall also be given to those agencies that can provide some level of in-house direct services, such as food, shelter, crisis intervention, or independent living skills training. Agencies selected pursuant to this paragraph shall be exempt from income taxes under paragraph (3) of subdivision (c) of Section 501 of Title 26 of the United States Code.

(3) The fiscal agents in San Diego County and Santa Clara County each shall hire or assign a project manager for no less than 20 hours per week to supervise the overall project and to be responsible for the consistent gathering of data and case management results, both on an ongoing basis and for the purposes of the final report to be submitted to the Legislature.

(4) Each of the four selected agencies and sites shall have a full-time case manager and a full-time intake worker. Volunteers shall be used to supplement the staff.

(5) Each selected agency and site shall have its own computer terminal to track client data, including two centralized information bases: one for client characteristics and followup, and the second for resource inventory data on what services are in existence. Each selected agency and site shall aggregate its client characteristics data periodically, and submit it to the project manager for review. Data shall not be traceable back to specific clients. By the end of the project, each selected agency and site shall compile, analyze, and place in a report format the demographic characteristics of all persons who enter the homeless services system at the designated intake sites. The report shall be submitted to the department and made available to local governmental agencies, in either case at no charge.

(6) The service delivery system at each selected agency and site

shall include four primary components: initial assessments, provision of emergency service or referral service, case management, and uniform information keeping.

(c) Assure that guidelines provide that Santa Clara County and San Diego County assume the following program responsibilities:

(1) The development of the intake forms and client followup methods shall be based, where possible, on elements of existing information systems.

(2) The initial assessment and provision of service or referral shall primarily be provided by an intake worker or a volunteer. If the client requests assistance which only requires up to a few days or emergency assistance, the case shall be closed upon the receipt of the service or referral. The client's registration form shall be filed, with no further followup. Clients who at the initial assessment request, or who appear to need additional assistance, shall be referred to a case manager for a more extensive interview, and a comprehensive assessment of the client's needs and his or her psychosocial history. The client shall then be asked to participate in the development of a case management plan with short- and long-term goals. Agreements on followup shall be secured.

(3) Referrals to appropriate service shall employ the use of standardized written referrals, with the anticipation that a standard referral form will ultimately be adopted by all service providers in the system. Case management referral shall include linkages to employment and training programs, such as the Job Training Partnership Act (P.L. 97-300) and the Greater Avenues for Independence Act of 1985 (Article 3.2 (commencing with Section 11320), Chapter 2, Part 3, Division 9, Welfare and Institutions Code), to promote economic self-sufficiency and family stability.

(4) Cooperation among the four selected project agencies and sites and other community service providers shall be encouraged. Community service providers not selected as an intake site for the purposes of the Homeless Coordinated Intake System Project may refer clients in need of extensive case management to a selected site.

(5) The production of a procedural manual that may be used by any city or county in California desiring to establish a coordinated intake system.

(6) The evaluation of the demonstration project sites, and the production of interim reports of evaluation to be submitted to the Legislature by December 1, 1989, and April 30, 1990, and a final report of evaluation, to be submitted to the Legislature by January 1, 1991. The reports shall provide comments and recommendations regarding the demonstration project, project compliance with the requirements of this section, and a recommendation for future disposition of the project. In addition, the reports shall contain detailed information about the number of clients served on a monthly and annual basis, the kinds of services provided under the case management component, specific examples of the outcomes of services provided, and an assessment of the impact of the project on

the homeless population in Santa Clara County and San Diego County.

(7) Oversight for funds appropriated for the purposes of this act.

SEC. 4. It is the intent of the Legislature that at least one of the four agencies and sites selected shall have expertise, legal authorization, and a history in dealing with homeless youth. Due to the unique needs of the homeless youth population, who often exhibit an extensive history of physical and sexual abuse and who usually refrain for the same reasons from utilizing established adult services, the Homeless Coordinated Intake System Project shall give within its focus of data collection and case management appropriate attention to the homeless youth population.

SEC. 5. The demonstration project is successful if the following outcome measurements are achieved in each county:

(a) By the end of the program, 3,500 unduplicated homeless persons, including youth, children, women, and elderly persons, who entered the homeless services system at the designated intake sites, have received comprehensive intake assessment.

(b) At least 1,200 persons who enter the homeless services system at the designated sites have received or will receive comprehensive, long-range, in-depth case management services.

(c) At least 900 persons receiving comprehensive management services have been or will be linked to other community agencies and services such as health services, employment training programs such as GAIN, tenant workshops and similar kinds of supportive skills training, and the end result of these linkages is that these persons are in the process of becoming self-sufficient and no longer homeless.

(d) By the end of the program, a design and implementation plan for the complete network of all shelter providers in the county will be completed with additional corporate or voluntary funding, or both. Upon its completion, this system shall allow all data collected from standardized intake forms to be entered into a standardized software program. The data shall be sorted and arranged into a useful report on the demogaphics of homeless persons in Santa Clara County and San Diego County.

(e) By the end of the program, the data collected and analyzed will include not only basic demographic information, but also analyses of specific outcomes and results of the case management component, such as the number of recipients who were able to achieve a higher level of self-sufficiency and stability through the pilot program. This analysis shall include the number of clients who found permanent and long-term shelter, the number of clients who found employment, the number of clients who entered into education, training, social service, medical, counseling, or similar assistance programs, the number of clients who remained homeless, and other appropriate data on program outcomes.

(f) By the end of the program, a comprehensive analysis of the nature, intensity, and duration of case management services will be correlated to the specific outcome measurements listed in

subdivision (e) and the demographic intake information in subdivision (a) so as to gain a greater understanding of the cost effectiveness of various intervention programs on various populations among homeless persons.

SEC. 6. Due to the unique circumstances surrounding the lack of accurate, comprehensive data, and other information regarding the homeless in California, and due to the unique need to provide that data and information in conjunction with development of legislation to assist the homeless, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 7. The sum of one hundred seven thousand dollars ($107,000) is hereby appropriated from the General Fund to the State Department of Housing and Community Development for expenditure in the 1988–89 fiscal year pursuant to this act. In addition, it is the intent of the Legislature that the sum of five hundred thirty-four thousand dollars ($534,000) be included in the annual Budget Act, in support of this act for the next three fiscal years, in accordance with the following schedule:

| | |
|---|---|
| (a) For the 1989–90 fiscal year | $214,000 |
| (b) For the 1990–91 fiscal year | $214,000 |
| (c) For the 1991–92 fiscal year | $106,000 |

Funds appropriated in support of this act shall be one-third matched in cash or by in-kind services by the County of Santa Clara and the County of San Diego through private, county, or federal funds.

## CHAPTER 1521

An act to add Sections 17053.20 and 23615 to the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor September 29, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. This act shall be known, and may be cited as, the Small Employer Health Coverage Incentive Act of 1988.

SEC. 2. The Legislature finds:

(a) That most persons without health coverage operate a business, are employed, or are dependents of employed persons.

(b) That small employers are often less able than larger employers to afford the cost of providing health coverage.

(c) That health care services rendered to persons without health

coverage who are unable to pay for services increases health care costs for those who pay for health services.

(d) That left to face catastrophic losses without health coverage, most uninsured persons must ultimately depend on charity care from health care providers or publicly funded health care in the event of severe illness or injury.

(e) That a prudent means of making health coverage more available is to provide a tax credit to small employers to encourage provision of health coverage by the employer.

SEC. 3. Section 17053.20 is added to the Revenue and Taxation Code, to read:

17053.20. (a) There shall be allowed as a credit against the amount of "net tax" (as defined in Section 17039) an amount equal to the amount determined in subdivision (b) for payments by an eligible employer to provide health coverage for eligible individuals and their dependents.

(b) The amount of the credit allowed by subdivision (a) shall be twenty-five dollars ($25) per month per covered individuals or 25 percent per month of the total amount paid or incurred for such health coverage by the employer during the taxable year, whichever is more, plus twenty-five dollars ($25) per month or 25 percent of the total amount paid or incurred per month per covered individual's dependent or dependents, whichever is more.

(c) To qualify for the credit provided in subdivision (b), an eligible employer must pay or incur at least 75 percent of the monthly premium for health coverage for eligible individuals who elect to have that coverage, or at least 75 percent per month towards health coverage for an eligible individual's dependent or dependents and for which the individual does not pay more than 25 percent, or both. At least annually, the employer shall make participation available to all eligible individuals and to all newly hired individuals within 60 days of the date of employment. Nothing in this section shall require an eligible employer to pay for dependent health coverage in order to qualify for the eligible individual health coverage credit provided herein. Nothing in this section shall prohibit employers from making additional health benefits available to an eligible individual at the employer's or eligible individual's expense.

(d) The credit allowed by this section shall be in lieu of any deduction to which the taxpayer otherwise may be entitled for expenses on which a credit under this section is claimed.

(e) If the credit allowed under this section exceeds the "net tax" for the taxable year, that portion of the credit which exceeds the "net tax" may be carried over to the "net tax" in succeeding taxable years until the credit is used. The credit shall be applied first to the earliest taxable years possible.

(f) Any amount of expenses paid by an employer under this section shall not be included as income to the eligible individual for purposes of the Personal Income Tax Law. If those expenses have

been included in arriving at federal adjusted gross income of the eligible individual, the amount included shall be subtracted in arriving at state adjusted gross income. As used in Section 17071 with respect to the eligible individual, "compensation for services" does not include expenses paid under this section.

(g) With the exception of a husband and wife, if two or more taxpayers share in the expenses eligible for the credit provided by this section, each taxpayer shall be eligible to receive the tax credit in proportion to his or her respective share of the expenses paid or incurred. In the case of a partnership, the tax credit may be divided between the partners pursuant to a written partnership agreement in accordance with Chapter 10 (commencing with Section 17851), which includes Section 704 of the Internal Revenue Code concerning substantial economic effect, relating to partner's distributive share. In the case of a husband or wife who files a separate return, the credit may be taken by either or equally divided between them.

(h) For purposes of this section:

(1) "Eligible employer" means a taxpayer which employs on the average during the tax year no more than 25 eligible individuals in California and which makes the minimum contribution required by this section on behalf of an eligible individual and who has not subsidized or provided health insurance to an eligible individual in the two years immediately preceding the year in which this section becomes effective. An "eligible employer" is not a taxpayer who liquidates the assets of or dissolves the organization of a business, for tax purposes only, in anticipation of becoming eligible for credit allowed under this section and then subsequently reorganizes the business.

(2) "Eligible individual" means all of the following:

(A) An individual who performs services for an eligible employer for an average of at least 35 hours per week for remuneration.

(B) An individual who performs services for an eligible employer for less than 35 hours per week for remuneration, if the eligible employer provides health coverage for that individual and meets all other requirements for the credit under this section.

(3) "Health coverage" means health coverage that, at a minimum, includes basic health care services for illness or injury provided by a private insurance company holding a valid outstanding certificate of authority from the Insurance Commissioner, a nonprofit hospital service plan qualifying under Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, or a health care service plan as defined under subdivision (f) of Section 1345 of the Health and Safety Code, which is lawfully engaged in providing, arranging, paying for, or reimbursing the cost of personal health services under insurance policies or contracts, medical and hospital service agreements,

membership contracts, in consideration of premiums or other periodic charges payable to it. "Health coverage" may include provisions for cost sharing if the total cost sharing does not exceed 200 percent of the annual premium, and no copayment exceeds 50 percent of the cost of a covered service.

(4) "Basic health care services" means the services defined in subdivision (b) of Section 1345 of the Health and Safety Code, or all of the following benefits:

The Department of Insurance shall forward to the Franchise Tax Board at least annually, or more frequently upon request, a list of all insurers authorized to transact disability insurance in this state and nonprofit hospital service plan corporations holding the certificate of authority required by Section 11504 of the Insurance Code.

(k) To be eligible for the credit under this section, each disability insurance policy, health care service plan contract, or nonprofit hospital service plan contract shall be certified as providing the basic health care services described in paragraph (4) of subdivision (h), and, if applicable, either or both of the supplemental benefits of paragraph (6) of subdivision (h), by legal opinion of the plan's counsel, a copy of which shall be provided to each eligible employer to be retained for submission to the Franchise Tax Board upon request.

(*l*) The Legislative Analyst and the Department of Finance shall certify the existence of the following conditions to the Franchise Tax

Board by August 30 of the fiscal year for which the conditions exist:

(1) The Governor's Budget, as enacted and as reflected in the change book, shows that the Special Fund for Economic Uncertainties is funded at 3 percent of the General Fund expenditures.

(2) The Department of Finance projects that the real growth in California personal income will be at least 4 percent.

(m) This section shall become operative and be applied in the computation of taxes for taxable years beginning on or after January 1 of the year following the calendar year in which the certification pursuant to subdivision (*l*) is made, but shall not become operative prior to January 1, 1990. This section shall remain in effect only until January 1 of the fifth year following the year that this section first becomes operative.

SEC. 4. Section 23615 is added to the Revenue and Taxation Code, to read:

23615. (a) There shall be allowed as a credit against the tax (as defined by Section 23606), an amount equal to the amount determined in subdivision (b) for payments made by an eligible employer to provide health coverage for an eligible individual and that individual's dependent.

(b) The amount of the credit allowed by subdivision (a) shall be twenty-five dollars ($25) per month per covered individual or 25 percent of the total amount paid or incurred per month for such health coverage by the employer during the taxable year, whichever is more, plus twenty-five dollars ($25) per month or 25 percent of the total amount paid or incurred per month per covered individual's dependent or dependents.

(c) To qualify for the credit provided in subdivision (b), an eligible employer must pay or incur at least 75 percent of the monthly premium for health coverage for eligible individuals who elect to have that coverage and/or at least 75 percent per month towards health coverage for an eligible individual's dependent or dependents and for which the individual does not pay more than 25 percent. At least annually, the employer shall make participation available to all eligible individuals and to all newly hired individuals within 60 days of the date of employment. (d) The credit allowed by this section shall be in lieu of any deduction to which the taxpayer otherwise may be entitled for expenses on which a credit under this section is claimed.

(e) If two or more taxpayers share in the expenses eligible for the credit provided by this section, each taxpayer shall be eligible to receive the tax credit in proportion to its respective share of the

expenses paid or incurred.

(f) If the credit allowed under this section exceeds the taxes imposed by this part (except the minimum franchise tax and the alternative minimum tax) for the income year, that portion of the credit which exceeds those taxes may be carried over to the tax (as defined by Section 23606) in succeeding income years until the credit is used. The credit shall be applied first to the earliest income years possible.

(g) Any amount of expenses paid by an employer under this section shall not be included as income to the eligible individual for purposes of the Personal Income Tax Law. If those expenses have been included in arriving at federal taxable income of the eligible individual, the amount included shall be subtracted in arriving at state taxable income. As used in Section 17071 with respect to the eligible individual, "compensation for services" does not include expenses paid under this section.

(h) For purposes of this section:

## CHAPTER 1523

An act to add Section 1936 to the Civil Code, relating to renting.

[Approved by Governor September 29, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1936 is added to the Civil Code, to read:

1936. (a) For the purpose of this section, the following definitions shall apply:

(1) "Rental company" means any person or entity in the business of renting passenger vehicles to the public.

(2) "Renter" means any person in any manner obligated under a contract for the lease or hire of a passenger vehicle from a rental company for a period of less than 30 days.

(3) "Authorized driver" means (A) the renter, (B) the renter's spouse if that person is a licensed driver and satisfies the rental company's minimum age requirement, (C) the renter's employer or coworker if they are engaged in business activity with the renter, are

licensed drivers, and satisfy the rental company's minimum age requirement, and (D) any person expressly listed by the rental company on the renter's contract as an authorized driver.

(4) "Damage waiver" means a rental company's agreement not to hold a renter liable for all or any portion of any damage or loss related to the rented vehicle, any loss of use of the rented vehicle, or any storage, impound, towing, or administrative charges.

(5) "Estimated time for replacement" means the number of hours of labor, or fraction thereof, needed to replace damaged vehicle parts as set forth in collision damage estimating guides generally used in the vehicle repair business and commonly known as "crash books."

(6) "Estimated time for repair" means a good faith estimate of the reasonable number of hours of labor, or fraction thereof, needed to repair damaged vehicle parts.

(7) "Passenger vehicle" means a passenger vehicle as defined in Section 465 of the Vehicle Code.

(b) Except as limited by subdivision (c), a rental company and a renter may agree that the renter will be responsible for no more than all of the following:

(1) Physical or mechanical damage to the rented vehicle up to its fair market value, as determined in the customary market for the sale of that vehicle, resulting from collision regardless of the cause of the damage.

(2) Loss due to theft of the rented vehicle up to its fair market value, as determined in the customary market for the sale of that vehicle; however, the renter shall be presumed to have no liability for any loss due to theft if (A), an authorized driver has possession of the ignition key furnished by the rental company or an authorized driver establishes that the ignition key furnished by the rental company was not in the vehicle at the time of the theft and (B) an authorized driver files an official report of the theft with the police or other law enforcement agency within 24 hours of learning of the theft and reasonably cooperates with the rental company and the police or other law enforcement agency in providing information concerning the theft. The presumption set forth in this paragraph is a presumption affecting the burden of proof which the rental company may rebut by establishing that an authorized driver committed or aided and abetted the commission of the theft.

(3) Physical damage to the rented vehicle up to its fair market value, as determined in the customary market for the sale of that vehicle, resulting from vandalism occurring after, or in connection with, the theft of the rented vehicle; however, the renter shall have no liability for any damage due to vandalism if the renter would have no liability for theft pursuant to paragraph (2).

(4) Physical damage to the rented vehicle and loss of use of the rented vehicle as provided in paragraph (5) up to a total of five hundred dollars ($500) resulting from vandalism unrelated to the theft of the rented vehicle.

(5) Loss of use of the rented vehicle if the renter is liable for

damage or loss.

(6) Actual charges for towing, storage, and impound fees paid by the rental company if the renter is liable for damage or loss.

(7) An administrative charge which shall include the cost of appraisal and all other costs and expenses incident to the damage, loss, loss of use, repair, or replacement of the rented vehicle.

(c) The total amount of the renter's liability to the rental company resulting from damage to the rented vehicle shall not exceed the sum of the following:

(1) The estimated cost of parts which the rental company would have to pay to replace damaged vehicle parts. All discounts and price reductions or adjustments that are or will be received by the rental company shall be subtracted from the estimate to the extent not already incorporated in the estimate or otherwise promptly credited or refunded to the renter.

(2) The estimated cost of labor to replace damaged vehicle parts which shall not exceed the product of (A) the rate for labor usually paid by the rental company to replace vehicle parts of the type that were damaged and (B) the estimated time for replacement. All discounts and price reductions or adjustments that are or will be received by the rental company shall be subtracted from the estimate to the extent not already incorporated in the estimate or otherwise promptly credited or refunded to the renter.

(3) (A) The estimated cost of labor to repair damaged vehicle parts which shall not exceed the lesser of the following:

(i) The product of the rate for labor usually paid by the rental company to repair vehicle parts of the type that were damaged and the estimated time for repair.

(ii) The sum of the estimated labor and parts costs determined under paragraphs (1) and (2) to replace the same vehicle parts.

(B) All discounts and price reductions or adjustments that are or will be received by the rental company shall be subtracted from the estimate to the extent not already incorporated in the estimate or otherwise promptly credited or refunded to the renter.

(4) Except as provided in paragraph (5), the loss of use of the rented vehicle which shall not exceed the product of (A) the rental rate stated in the renter's contract, excluding all optional charges, and (B) the total of the estimated time for replacement and the estimated time for repair. For the purpose of converting the estimated time for repair into the same unit of time in which the rental rate is expressed, a day shall be deemed to consist of eight hours.

(5) Under any of the circumstances described in subdivision (f), the rental company's loss of use of the rented vehicle shall not exceed the product of (A) the rental rate stated in the renter's contract, excluding all optional charges and (B) the period from the date of the accident to the date the vehicle is ready to be returned to rental service. This paragraph applies only if the rental company uses its best efforts to effect repairs and return the vehicle to rental service

as soon as practicable.

(6) Actual charges for towing, storage, and impound fees paid by the rental company.

(7) The administrative charge described in paragraph (7) of subdivision (b) shall not exceed (A) fifty dollars ($50) if the total estimated cost for parts and labor is more than one hundred dollars ($100) up to and including five hundred dollars ($500), (B) one hundred dollars ($100) if the total estimated cost for parts and labor exceeds five hundred dollars ($500) up to and including one thousand five hundred dollars ($1,500), and (C) one hundred fifty dollars ($150) if the total estimated cost for parts and labor exceeds one thousand five hundred dollars ($1,500). No administrative charge shall be imposed if the total estimated cost of parts and labor is one hundred dollars ($100) or less.

(d) (1) The total amount of an authorized driver's liability to the rental company, if any, for damage occurring during the authorized driver's operation of the rented vehicle shall not exceed the amount of the renter's liability under subdivision (c).

(2) A rental company shall not recover from the renter and another authorized driver an amount exceeding the renter's liability under subdivision (c).

(3) A rental company shall not recover from the renter or other authorized driver for any item described in subdivision (b) to the extent the rental company obtains recovery from any other person.

(4) This section applies only to the maximum liability of a renter or other authorized driver to the rental company resulting from damage to the rented vehicle and not to the liability of any other person.

(e) (1) Except as provided in subdivision (f), every damage waiver shall provide or, if not expressly stated in writing, shall be deemed to provide that the renter has no liability for any damage, loss, loss of use, or any cost or expense incident thereto.

(2) Except as provided in subdivision (f), every limitation, exception, or exclusion to any damage waiver is void and unenforceable.

(f) A rental company may provide in the rental contract that a damage waiver does not apply under any of the following circumstances:

(1) Damage or loss results from an authorized driver's (A) intentional, willful, wanton, or reckless conduct, (B) operation of the vehicle under the influence of drugs or alcohol in violation of Section 23152 of the Vehicle Code, (C) towing or pushing anything, or (D) operation of the vehicle on an unpaved road if the damage or loss is a direct result of the road or driving conditions;

(2) Damage or loss occurs while the vehicle is (A) used for commercial hire, (B) used in connection with conduct that could be properly charged as a felony, (C) involved in a speed test or contest or in driver training activity, (D) operated by a person other than

an authorized driver, or (E) operated outside of the United States; or

(3) Any authorized driver (A) provided fraudulent information to the rental company or, (B) provided false information and the rental company would not have rented the vehicle if it had instead received true information.

(g) (1) A rental company which offers or provides a damage waiver for any consideration in addition to the rental rate shall clearly and conspicuously disclose the following information in the rental contract or holder in which the contract is placed and, also, in signs posted at the place, such as the counter, where the renter signs the rental contract: (A) the nature of the renter's liability, e.g., liability for all collision damage regardless of cause, (B) the extent of the renter's liability, e.g., liability for damage or loss up to a specified amount, (C) the renter's personal insurance policy may provide coverage for all or a portion of the renter's potential liability, (D) the renter should consult with his or her insurer to determine the scope of insurance coverage, (E) the renter may purchase an optional damage waiver to cover all liability subject to whatever exceptions the rental company expressly lists that are permitted under subdivision (f), and (F) the charge for the damage waiver.

(2) The following is an example, for purposes of illustration and not limitation, of a notice fulfilling the requirements of paragraph (1) for a rental company that imposes liability on the renter for collision damage to the full value of the vehicle:

NOTICE ABOUT
YOUR FINANCIAL RESPONSIBILITY AND
OPTIONAL DAMAGE WAIVER

You are responsible for all collision damage to the rented vehicle even if someone else caused it or the cause is unknown. You are responsible for the cost of repair up to the value of the vehicle, loss of use, and towing, storage, and impound fees.

Your own insurance may cover all or part of your financial responsibility for the rented vehicle. You should check with your insurance company to find out about your coverage.

The rental company will not hold you responsible if you buy damage waiver. But, damage waiver will not protect you if (list exceptions).

The cost of optional damage waiver is $_____ for every (day or week).

(h) Notwithstanding any other provision of law, a rental company may sell damage waiver but shall not charge more than nine dollars ($9) per full or partial 24-hour rental day for damage waiver.

(i) A rental company which disseminates in this state an advertisement containing a rental rate shall include in that advertisement a clearly readable statement of the charge for damage waiver and a statement that damage waiver is optional.

(j) (1) A rental company shall not require the purchase of a damage waiver, optional insurance, or any other optional good or service.

(2) A rental company shall not engage in any unfair, deceptive, or coercive conduct to induce a renter to purchase damage waiver, optional insurance, or any other optional good or service, including conduct such as, but not limited to, refusing to honor the renter's reservation, limiting the availability of vehicles, requiring a deposit, or debiting or blocking the renter's credit card account for a sum equivalent to a deposit if the renter declines to purchase damage waiver, optional insurance, or any other optional good or service.

(k) (1) A rental company shall not seek to recover any portion of any claim arising out of damage to, or loss of, the rented vehicle by processing a credit card charge or causing any debit or block to be placed on the renter's credit card account.

(2) A rental company shall not engage in any unfair, deceptive, or coercive tactics in attempting to recover or in recovering on any claim arising out of damage to, or loss of, the rented vehicle.

(*l*) (1) A rental company shall only advertise, quote, and charge a rental rate that includes the entire amount except taxes and a mileage charge, if any, which a renter must pay to hire or lease the vehicle for the period of time to which the rental rate applies. A rental company shall not charge in addition to the rental rate, taxes, and mileage charge, if any, any fee which must be paid by the renter as a condition of hiring or leasing the vehicle, such as, but not limited to, required fuel or airport surcharges, nor any fee for transporting the renter to the location where the rented vehicle will be delivered to the renter.

(2) In addition to the rental rate, taxes, and mileage charge, if any, a rental company may charge for an item or service provided in connection with a particular rental transaction if the renter could have avoided incurring the charge by choosing not to obtain or utilize the optional item or service. Items and services for which the rental company may impose an additional charge, include, but are not limited to, optional insurance and accessories requested by the renter, service charges incident to the renter's optional return of the vehicle to a location other than the location where the vehicle was hired or leased, and charges for refueling the vehicle at the conclusion of the rental transaction in the event the renter did not return the vehicle with as much fuel as was in the fuel tank at the beginning of the rental. A rental company also may impose an additional charge based on reasonable age criteria established by the rental company.

(3) A rental company shall not charge any fee for authorized drivers in addition to the rental charge for an individual renter.

(4) If a rental company states a rental rate in print advertisement or in a telephonic, in-person, or computer-transmitted quotation, the rental company shall clearly disclose in that advertisement or quotation the terms of any mileage conditions relating to the

advertised or quoted rental rate, including, but not limited to, to the extent applicable, the amount of mileage and gas charges, the number of miles for which no charges will be imposed, and a description of geographic driving limitations within the United States and Canada.

(5) If a rental company delivers a vehicle to a renter at a location other than the location where the rental company normally carries on its business, the rental company shall not charge the renter any amount for the rental for the period before the delivery of the vehicle. If a rental company picks up a rented vehicle from a renter at a location other than the location where the rental company normally carries on its business, the rental company shall not charge the renter any amount for the rental for the period after the renter notifies the rental company to pick up the vehicle.

(m) A renter may bring an action against a rental company for the recovery of damages and appropriate equitable relief for a violation of this section. The prevailing party shall be entitled to recover reasonable attorney's fees and costs.

(n) Any waiver of any of the provisions of this section shall be void and unenforceable as contrary to public policy.

SEC. 2. If any provision of Section 1 of this act or if any application thereof to any person or circumstance is held unconstitutional, the remainder of Section 1 and the application of its provisions to other persons and circumstances shall not be affected thereby.

SEC. 3. Nothing in this measure shall create a new cause of action for damages or other relief against a rental company or any other person or entity as to any transaction between a rental company and a renter occurring before January 1, 1989. Nothing in this measure shall affect or apply to any cause of action accruing independently of this measure before January 1, 1989. This measure and its legislative history shall not be admissible for any purpose before a trier of fact in any action involving a transaction between a rental company and a renter occurring before January 1, 1989.

## CHAPTER 1524

An act to amend Section 1231.1 of the Public Utilities Code, relating to transportation.

[Approved by Governor September 29, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1231.1 of the Public Utilities Code is amended to read:

1231.1. In each annual proposed budget prepared by the

Department of Transportation under Section 165 of the Streets and Highways Code, the sum of one million dollars ($1,000,000) shall be set aside for allocations to the Public Utilities Commission for the purpose of paying to the railroad or street railroad corporations the share of the costs to cities, counties, and cities and counties of maintaining automatic grade-crossing protection. The Public Utilities Commission may recommend a sum greater than one million dollars ($1,000,000) be set aside for allocations to the Public Utilities Commission for the purpose of making those payments, if the Public Utilities Commission finds that the sum of one million dollars ($1,000,000) is not sufficient due to an increase in the number of grade-crossing protection devices, or increase in the cost of maintenance of those devices. The specific amount of the total allocation shall be determined by the California Transportation Commission and shall constitute the amount necessary for that maintenance. In arriving at the amount, the California Transportation Commission shall consult with the Public Utilities Commission. Payment shall be made on the basis of verified claims filed with the Public Utilities Commission by the railroad or street railroad corporation responsible for maintenance of automatic grade-crossing protection. Any amounts not expended by the Public Utilities Commission in any one fiscal year may be credited to subsequent annual allocations.

Funds appropriated for the purposes of this section shall be available for allocation and expenditure without regard to fiscal years.

## CHAPTER 1525

An act to amend Section 11580 of, and to add Sections 11573.5 and 11575.5 to, the Health and Safety Code, relating to controlled substances.

[Approved by Governor September 29, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 11573.5 is added to the Health and Safety Code, to read:

11573.5. (a) At the time of application for issuance of a temporary writ pursuant to Section 11573, if proof of the existence of the nuisance depends, in whole or part, upon the affidavits of witnesses who are not peace officers, upon a showing of prior threats of violence or acts of violence by any defendant or other person, the court may issue orders to protect those witnesses, including, but not limited to, nondisclosure of the name, address, or any other information which may identify those witnesses.

(b) A temporary writ issued pursuant to Section 11573 may include closure of the premises pending trial when a prior writ does not result in the abatement of the nuisance. The duration of the writ shall be within the court's discretion. In no event shall the total period of closure pending trial exceed one year. Prior to ruling on a request for closure the court may order that some or all of the rent payments owing to the defendant be placed in an escrow account for a period of up to 90 days or until the nuisance is abated. If the court subsequently orders a closure of the premises, the money in the escrow account shall be used to pay for relocation assistance pursuant to subdivision (d). In ruling upon a request for closure, whether for a defined or undefined duration, the court shall consider all of the following factors:

(1) The extent and duration of the nuisance at the time of the request.

(2) Prior efforts by the defendant to comply with previous court orders to abate the nuisance.

(3) The nature and extent of any effect which the nuisance has upon other persons, such as residents or businesses.

(4) Any effect of prior orders, placing displaced residents' or occupants' rent payments into an escrow account, upon the defendant's efforts to abate the nuisance.

(5) The effect of granting the request upon any resident or occupant of the premises who is not named in the action, including the availability of alternative housing or relocation assistance, the pendancy of any action to evict a resident or occupant, and any evidence of participation by a resident or occupant in the nuisance activity.

(c) In making an order of closure pursuant to this section, the court may order the premises vacated and may issue any other orders necessary to effectuate the closure. However, all tenants who may be affected by the order shall be provided reasonable notice and an opportunity to be heard at all hearings regarding the closure request prior to the issuance of any order.

(d) In making an order of closure pursuant to this section, the court shall order the defendant to provide relocation assistance to any tenant ordered to vacate the premises, provided the court determines that the tenant was not actively involved in the nuisance activity. The relocation assistance ordered to be paid by the defendant shall be in the amount necessary to cover moving costs, security deposits for utilities and comparable housing, adjustment in any lost rent and any other reasonable expenses the court may deem fair and reasonable as a result of the court's order.

(e) At the hearing to order closure pursuant to this section, the court may make the following orders with respect to any displaced tenant not actively involved in the nuisance:

(1) Priority for senior citizens, physically handicapped persons, or persons otherwise suffering from a permanent or temporary disability for claims against money for relocation assistance.

(2) Order the local agency seeking closure pursuant to this section to make reasonable attempts to seek additional sources of funds for relocation assistance to displaced tenants, if deemed necessary.

(3) Appoint a receiver to oversee the disbursement of relocation assistance funds, whose services shall be paid from the escrow fund.

(4) Where a defendant has paid relocation assistance pursuant to subdivision (d), the escrow account under subdivision (b) may be released to the defendant and no appointment under paragraph (4) shall be made.

(f) The remedies set forth pursuant to this section shall be in addition to any other existing remedies for nuisance abatement actions.

SEC. 2. Section 11575.5 is added to the Health and Safety Code, to read:

11575.5. In any action for abatement instituted pursuant to this article, all evidence otherwise authorized by law, including evidence of reputation in a community, as provided in the Evidence Code, shall be admissible to prove the existence of a nuisance.

SEC. 3. Section 11580 of the Health and Safety Code is amended to read:

11580. A violation or disobedience of the injunction or order for abatement is punishable as a contempt of court by a fine of not less than five hundred dollars ($500) nor more than ten thousand dollars ($10,000), or by imprisonment in the county jail for not less than one nor more than six months, or by both.

A contempt may be based on a violation of any court order including failure to pay relocation assistance. Notwithstanding any other provision of law, any fines assessed for contempt shall first be held by the court and applied to satisfaction of the court's order for relocation assistance pursuant to subdivision (d) of Section 11573.5.

Evidence concerning the duration and repetitive nature of the violations shall be considered by the court in determining the contempt penalties.

[Approved by Governor September 29, 1988. Filed with Secretary of State September 29, 1988.]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature hereby finds and declares that any state official or employee and any private person or entity, when acting to affect scrap values or quantities of materials being recycled, as specified in Section 14529.5 of the Public Resources Code, should not be subject to state antitrust or trade regulation laws.

SEC. 2. Section 14501 of the Public Resources Code is amended to read:

14501. The Legislature finds and declares as follows:

(a) Experience in this state and others demonstrates that financial incentives and convenient return systems assure the efficient and large-scale recycling of beverage containers. Accordingly, it is the

intent of the Legislature to encourage increased, and more convenient, beverage container redemption opportunities for all consumers. These redemption opportunities shall consist of dealer and other shopping center locations, independent and industry operated recycling centers, curbside programs, nonprofit dropoff programs, and other recycling systems that assure all consumers, in every region of the state, the opportunity to return beverage containers conveniently, efficiently, and economically.

(b) California grocery, beer, soft drink, container manufacturing, labor, agriculture, consumer, environmental, government, citizen, recreational, taxpayer, and recycling groups have joined together in calling for an innovative program to generate large-scale redemption and recycling of beverage containers.

(c) This division establishes a beverage container recycling goal of 80 percent, and when the redemption rate for any one type of beverage container falls below 65 percent, the act provides for an increased redemption value.

(d) It is the intent of the Legislature to ensure that every container type proves its own recyclability.

(e) It is the intent of the Legislature to make redemption and recycling convenient to consumers, and the Legislature hereby urges cities and counties, when exercising their zoning authority, to act favorably on the siting of multimaterial recycling centers, reverse vending machines, mobile recycling units, or other types of recycling opportunities, as necessary for consumer convenience, and the overall success of litter abatement and beverage container recycling in the state.

(f) The purpose of this chapter is to create and maintain a marketplace where it is profitable to establish sufficient recycling centers and locations to provide consumers with convenient recycling opportunities through the establishment of minimum redemption values, bonuses, processing fees, and, through the proper application of these elements, to enhance the profitability of recycling centers, recycling locations, and other beverage container recycling programs.

(g) The responsibility to provide convenient, efficient, and economical redemption opportunities rests jointly with manufacturers, distributors, dealers, recyclers, processors, and the Department of Conservation.

(h) It is the intent of the Legislature, in enacting this division, that all empty beverage containers redeemed shall be recycled, and that the responsibilities and regulations of the department shall be determined and implemented in a manner which favors the recycling of redeemed containers, as opposed to their disposal.

(i) Nothing in this division shall be interpreted as affecting the current business practices of scrap dealers or recycling centers, except that, to the extent they function as a recycling center or processor, they shall do so in accordance with this division.

(j) The program established by this division will contribute

significantly to the reduction of the beverage container component of litter in this state.

(k) It is the intent of the Legislature, in enacting this division, to improve beverage container redemption rates by maximizing the total return possible to California consumers. Therefore, the Department of Conservation is encouraged to establish redemption bonus rates at or above a minimum of one-half of one cent ($0.005) per container. The resulting combination of redemption value and redemption bonus would be a minimum of five cents ($0.05) return for every two beverage containers redeemed on beverage container types which fail to achieve a 65-percent redemption rate by July 1, 1989, and thereby incur a two-cent ($0.02) redemption value on January 1, 1990, and a three-cent ($0.03) redemption value for every two beverage containers redeemed on beverage container types which do achieve a 65-percent redemption rate by July 1, 1989, and thereby retain a redemption value of one cent ($0.01).

SEC. 3. Section 14509.2 of the Public Resources Code is amended to read:

14509.2. "Convenience incentive payment" means a special payment, as determined by the department, as an incentive to current or potential recycling centers to establish a recycling center or location meeting the requirements of Section 14571.

SEC. 4. Section 14511.7 of the Public Resources Code is amended to read:

14511.7. "Dropoff or collection program" means any person, association, nonprofit corporation, church, club, or other organization certified by the department, and which accepts or collects empty beverage containers from consumers with the intention to recycle them, or any waste reduction facility that separates beverage containers from the waste stream with the intent to recycle them. "Dropoff or collection program" does not include a certified recycling center, nonprofit dropoff program, or curbside program.

SEC. 5. Section 14520.5 of the Public Resources Code is amended to read:

14520.5. "Recycling location" means a place, mobile unit, reverse vending machine, or other device where a certified recycling center accepts one or more types of empty beverage containers from consumers, and pays or provides the redemption value and any applicable redemption bonus for one or more types of empty beverage containers. For purposes of subdivision (c) of Section 14572, "recycling location" means the aluminum reverse vending machine and does not mean the machine's physical location.

SEC. 6. Section 14520.6 is added to the Public Resources Code, to read:

14520.6. "Noncertified recycler" means an operation which is not certified by the department and which purchases empty beverage containers from consumers, or from dropoff or collection programs.

SEC. 7. Section 14526.5 of the Public Resources Code is amended

to read:

14526.5. "Supermarket" means a full-line, self-service retail store with gross annual sales of two million dollars ($2,000,000), or more, and which sells a line of dry grocery, canned goods, or nonfood items and some perishable items. For purposes of determining which dealers are supermarkets, the department may use any relevant data, including, but not limited to, the information in the Progressive Grocer 1986 Marketing Guidebook and any computer printouts developed in conjunction with the guidebook.

SEC. 8. Section 14529.5 is added to the Public Resources Code, to read:

14529.5. Any action taken by the department, or by any person or entity, affecting scrap values, the quantities of materials being recycled, or the method of invoicing the sale of beverages pursuant to this division is not a violation of the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code) and the Unfair Practices Act (Chapter 4 (commencing with Section 17000) of Part 2 of Division 7 of the Business and Professions Code).

SEC. 9. Section 14530.5 of the Public Resources Code is amended to read:

14530.5. (a) For purposes of entering into contracts for consulting, promotional, or advisory services necessary to implement this division, the requirements of Sections 11042 and 14615 of the Government Code and Sections 10295 and 10318 of the Public Contract Code do not apply to the activities of the department pursuant to this division, except that any sole source contract awarded by the department shall be reviewed and approved by the Department of General Services.

(b) In addition to any regulations which the department is required by statute to adopt, the department may adopt any other rules and regulations pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code which the department determines may be necessary or useful to carry out this division or any of the department's duties or responsibilities imposed pursuant to this division.

(c) The department may prepare, publish, and issue printed pamphlets, promotional materials, and bulletins which the director deems necessary for the dissemination of information to the public concerning the activities of the department pursuant to this division.

Any emergency regulations, if adopted, shall be adopted in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, and for the purposes of that chapter, including Section 11349.6 of the Government Code, the adoption of these regulations is an emergency and shall be considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health and safety, and general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, any emergency regulations adopted pursuant to this section shall be filed with, but not be repealed by, the Office of Administrative Law and shall remain in effect until revised by the director.

(c) Before adopting any regulations pursuant to this division, the director shall submit the regulations to the committee, if it has been appointed, for its review and comments.

(a) The operator of the recycling centers demonstrates, to the satisfaction of the department, that the operator will operate in accordance with this division.

(b) The operator of the recycling center shall not knowingly pay a redemption value or redemption bonus for, or receive a redemption value or redemption bonus from any processor for, any food or drink packaging material or any beverage container or other product which does not have a redemption value or redemption bonus established pursuant to Section 14560 or 14581.

(c) The operator of a recycling center shall take those actions which satisfy the department to prevent the payment of a redemption value or redemption bonus for any food or drink packaging material or any beverage container or other product which does not have a redemption value established pursuant to Section 14560.

(d) Unless exempted pursuant to subdivision (b) or (c) of Section 14572, the operator of a recycling center shall accept, and pay at least the redemption value and applicable redemption bonus for, all empty beverage containers, regardless of type.

(e) The operator of the recycling center shall notify the department promptly of any change in the nature of his or her operations which conflicts with information submitted in the

operator's application for certification.

(f) The operator of a certified recycling center, or any person having paid any amount above the scrap value for aluminum, as listed in the American Metals Market publication, or having paid for glass and plastic an amount above the amount identified as the portion of the processing fee which are the costs for the recycler, as specified in paragraphs (1) and (2) of subdivision (a) of Section 14575, as determined by the department, shall be subject to an audit of empty beverage container redemptions by the department, in a manner determined by the department, to insure that the operator is complying with this division and all regulations adopted pursuant to this division.

(d) An analysis of the total amount of funds used for program administration and for payment to recyclers and an analysis of how litter abatement and recycling education funds are distributed and used.

SEC. 13. Section 14551 of the Public Resources Code is amended to read:

14551. (a) The department shall establish reporting periods for the reporting of redemption rates and recycling rates, and each reporting period shall be six months, except that the first reporting period shall be the three-month period from October 1, 1987, to December 31, 1987. The department shall determine all of the following for each reporting period and shall issue a report on its determinations, within 70 days of the end of each reporting period:

(1) Sales of beverages in aluminum beverage containers, nonaluminum metal beverage containers, glass beverage containers, plastic beverage containers, and other beverage containers in this state, including refillable beverage containers.

(2) Returns for recycling, and returns not for recycling, of empty aluminum beverage containers, nonaluminum metal beverage containers, glass beverage containers, plastic beverage containers, and other beverage containers in this state, including refillable

beverage containers returned to distributors pursuant to Section 14572. These numbers shall be calculated using the average current weights of beverage containers, as determined and reported by the department. To these numbers shall be added and separately reported the following, if greater than, or equal to, zero:

(A) All empty postfilled aluminum, glass, and plastic food or drink packaging materials sold in the state, returned for recycling, and reported by weight to the department which do not have a redemption value less the number specified in subparagraph (B).

(B) The number of beverage containers which comprise the first five percentage points of the redemption rate without including the empty postfilled aluminum, glass, and plastic food or drink packaging materials sold in the state, returned for recycling and reported by weight to the department which do not have a redemption value.

(3) An aluminum beverage container redemption rate, the numerator of which shall be the number of empty aluminum beverage containers returned, including refillable aluminum beverage containers and empty postfilled aluminum food or drink packaging material included in paragraph (2), and the denominator of which shall be the number of aluminum beverage containers sold in this state.

(4) An aluminum beverage container recycling rate, the numerator of which shall be the number of empty aluminum beverage containers returned for recycling, including refillable aluminum beverage containers, and the denominator of which shall be the number of aluminum beverage containers sold in this state.

(5) A nonaluminum metal beverage container redemption rate, the numerator of which shall be the number of empty nonaluminum metal beverage containers returned, and the denominator of which shall be the number of nonaluminum metal beverage containers sold in this state.

(6) A nonaluminum metal beverage container recycling rate, the numerator of which shall be the number of empty nonaluminum beverage containers returned for recycling, including refillable nonaluminum metal beverage containers, and the denominator of which shall be the number of nonaluminum metal beverage containers sold in this state.

(7) A glass beverage container redemption rate, the numerator of which shall be the number of empty glass beverage containers returned, including refillable glass beverage containers and empty postfilled, food or drink packaging materials included in paragraph (2), and the denominator of which shall be the number of glass beverage containers sold in this state.

(8) A glass beverage container recycling rate, the numerator of which shall be the number of empty glass beverage containers returned for recycling, including refillable glass beverage containers, and the denominator of which shall be the number of glass beverage containers sold in this state.

(9) A plastic beverage container redemption rate, the numerator

of which shall be the number of empty plastic beverage containers returned, including refillable plastic beverage containers and empty postfilled food or drink packaging materials included in paragraph (2), and the denominator of which shall be the number of plastic beverage containers sold in this state.

(10) A plastic beverage container recycling rate, the numerator of which shall be the number of empty plastic beverage containers returned for recycling, including refillable plastic beverage containers, and the denominator of which shall be the number of plastic beverage containers sold in this state.

(11) A redemption rate for other beverage containers, the numerator of which shall be the number of empty beverage containers other than those containers specified in paragraphs (1) to (10), inclusive, returned, and the denominator of which shall be the number of beverage containers, other than those containers specified in paragraphs (1) to (10), inclusive, sold in this state.

(12) A recycling rate for other beverage containers, the numerator of which shall be the number of empty beverage containers other than those containers specified in paragraphs (1) to (10), inclusive, returned for recycling, and the denominator of which shall be the number of beverage containers, other than those containers specified in paragraphs (1) to (10), inclusive, sold in this state.

(13) The department may define categories of other beverage containers, and report a redemption rate and a recycling rate for each such category of other beverage containers.

(b) The department shall determine the manner of collecting the information for the reports specified in subdivision (a), including establishing procedures, to protect any proprietary information concerning the sales and purchases.

SEC. 14. Section 14561 of the Public Resources Code, as amended by Chapter 170 of the Statutes of 1988, is amended to read:

14561. (a) (1) A manufacturer shall clearly indicate on every beverage container sold or offered for sale by that beverage manufacturer in this state the message "CA Redemption Value" or "California Redemption Value," by either printing or embossing the beverage container or by securely affixing a clear and prominent stamp, label, or other device to the beverage container.

(2) On and after January 1, 1989, a manufacturer may affix the message "CA Cash Refund" or "California Cash Refund" on a beverage container sold or offered for sale by that beverage manufacturer, instead of the message specified in paragraph (1), but the message shall be affixed in the manner prescribed in paragraph (1).

(3) Any refillable beverage container sold or offered for sale is exempt from this subdivision. However, any beverage manufacturer or container manufacturer may place upon, or affix to, a refillable beverage container, any message which they deem appropriate relating to the refund value of the container.

(b) On and after January 1, 1990, a manufacturer of wine and distilled spirit cooler beverages shall clearly indicate on every container thereof sold or offered for sale by that beverage manufacturer in this state the message specified in subdivision (a) by either printing or embossing the beverage container or by securely affixing a clear and prominent stamp, label, or other device to the beverage container.

(c) No person shall offer to sell, or sell to a consumer a beverage container subject to subdivision (a) which has not been labeled pursuant to this section, except for a refillable beverage container which is exempt from labeling.

(d) On and after January 1, 1990, no person shall offer to sell, or sell to a consumer a beverage container subject to subdivision (b) which has not been labeled pursuant to this section, except for a refillable beverage container which is exempt from labeling.

(e) The department may require that any beverage container intended for sale in this state be printed, embossed, stamped, labeled, or otherwise marked with a universal product code or similar machine-readable indicia.

(f) Any container labeled with the message specified in subdivision (a) or (b) shall have the minimum redemption value established pursuant to Section 14560, which shall be paid by the distributor to the department pursuant to Section 14574.

SEC. 15. Section 14570 of the Public Resources Code is amended to read:

14570. (a) Every dealer shall identify, by a clear and conspicuous sign posted at the dealer's place of business, the address and major cross streets, as provided by the department, of at least the recycling center, location, or locations, nearest to the dealer, which redeems all types of empty beverage containers at one location during at least 30 hours per week with a minimum of five hours of operation occurring during periods other than from Monday to Friday, from 9:00 a.m. to 5:00 p.m.

(b) Notwithstanding subdivision (a), the department may require a certified recycling center to operate not more than 15 hours of those 30 hours per week other than during 9:00 a.m. to 5:00 p.m. if the department determines it is necessary to further the goals of this division as specified in Section 14501. Prior to acting under this subdivision, the department shall conduct a public hearing and consider consumer convenience as well as the economic impact on the certified recycling center.

SEC. 16. Section 14571 of the Public Resources Code is amended to read:

14571. (a) Except as otherwise provided in this chapter, there shall be at least one certified recycling center or location within every convenience zone which accepts and pays the redemption value and applicable redemption bonus, if any, at one location for all types of empty beverage containers during at least 30 hours per week with a minimum of five hours of operation occurring during periods

other than from Monday to Friday, from 9:00 a.m. to 5:00 p.m.

(b) For purposes of this section, if the recycling center is staffed and is not a reverse vending machine, a center is "open for business" if all of the following requirements are met:

(1) An employee of the certified recycling center or location is present during the hours of operation and available to the public to accept containers and to pay the redemption values and applicable redemption bonus.

(2) A sign having a minimum size of two feet by two feet is posted at the certified recycling center or location indicating that the center or location is open. Where allowed by local zoning requirements or where zoning restrictions apply, the sign shall be of the maximum allowable size.

(3) The prices paid, by weight or per container, are posted at the location.

(c) For the purpose of this section, if the recycling center consists of reverse vending machines or other unmanned automated equipment, the center is "open for business" if the equipment is properly functioning, accepting all types of empty beverage containers at the recycling location, and paying posted refunds no less than the minimums required by this division.

SEC. 17. Section 14571.2 of the Public Resources Code is amended to read:

14571.2. The department shall continuously assist dealers and recyclers to establish certified recycling locations within each convenience zone. This assistance includes, but is not limited to, providing information to companies and organizations interested in operating recycling in the convenience zone; providing dealers with names of prospective recyclers for the convenience zone and providing recyclers with the names of dealers in need of a recycler for a convenience zone; providing dealers and recyclers with information on grants, advertising funds, and other resources available; and providing recyclers with advice regarding appearance and image of the recycling center and the efficient handling and transportation of recycled beverage containers.

SEC. 18. Section 14571.3 of the Public Resources Code is amended to read:

14571.3. (a) The department shall offer an option to retain the redemption bonus to a recycling center which, on or before October 1, 1987, established a recycling location accepting all types of beverage containers in that zone. The department may allow the recycling location to retain the redemption bonus for two to five years, at the department's discretion, for the purpose of capitalizing recycling equipment. The department shall authorize the recycling location to retain the redemption bonus for a length of time based upon the economic feasibility of developing the particular recycling location and the relative volume of material at the particular recycling location.

(b) The department shall continuously assist any certified

recycler to achieve greater service to the public in an economical and cost-effective manner. This assistance shall include, but not be limited to, advice on all of the following:

(1) Methods to enhance public participation in recycling.

(2) The most beneficial location, siting, and image of a recycling location.

(3) Methods to reduce costs and optimize efficiencies of existing resources.

(c) The department shall conduct regular, unannounced inspections of certified recycling centers for the purpose of determining that the requirements of this division are satisfied. The department shall assess civil penalties pursuant to subdivision (c) of Section 14591 for violations at certified recycling centers.

SEC. 19. Section 14571.4 of the Public Resources Code is repealed.

SEC. 20. Section 14571.5 of the Public Resources Code is repealed.

SEC. 21. Section 14571.7 of the Public Resources Code is amended to read:

14571.7. On or before March 1, 1989, in any convenience zone where a recycling location or locations were initially established, but where the location or locations cease to operate in accordance with Section 14571, the department shall notify all dealers within that convenience zone that a recycling location is required to be established within 120 days. After March 1, 1989, the department shall notify all dealers within that zone that a recycling location is required to be established within 90 days. The department shall offer a convenience incentive payment and the retention of the redemption bonus to one recycling location only. If, within 45 days of the notification, no recycling location has been established which satisfies the requirements of Section 14571, the department shall notify all dealers within that zone, and one or more dealers within that zone shall establish, or cause to be established, a recycling location. If, within 120 days of the initial notification, no recycling location has been established, all dealers within that zone shall, until a recycling location has been established, do one of the following:

(a) Offer to redeem all types of beverage containers.

(b) Pay to the California Beverage Container Recycling Fund the sum of one hundred dollars ($100) per day until a recycling location is established.

SEC. 22. Section 14571.8 of the Public Resources Code is amended to read:

14571.8. (a) If the department determines that Section 14571 cannot be fulfilled in a particular convenience zone due to local zoning or dealer's leasehold restrictions for leases in effect on January 1, 1987, and that these factors are beyond the control of the department and the dealer, the department may establish an alternative minimum convenience requirement for that convenience zone which shall not conflict with the purposes of this

division. No lease entered into by a dealer after January 1, 1987, may contain a leasehold restriction that prohibits or results in the prohibition of the establishment of a recycling location.

(b) The director may grant an exemption to the requirements of Section 14571 for an individual convenience zone only if all of the following conditions are met:

(1) The exemption will not significantly decrease the ability of consumers to conveniently return beverage containers for the redemption value.

(2) The volume of beverage containers redeemed in the convenience zone is below the statewide average.

(3) The exemption will further the purposes of this division.

(4) The department conducts a public hearing for purposes of taking testimony on whether or not to provide an exemption from Section 14571.

(5) The exemption will prevent the creation of excessive recycling locations which would result in severe adverse local market conditions for recycled materials.

(c) Upon request of a city or county, the director may grant an exemption from the requirements of Section 14571 for the location of an individual nonprofit recycling center, or for a curbside recycling program, if the conditions established under subdivision (b) are met and, for an exemption granted for a curbside recycling program, the program recycles all types of beverage containers from households at least once every two weeks.

(d) The total number of exemptions granted by the director under this section shall not exceed 10 percent of the total number of convenience zones identified by the department pursuant to this section.

(e) The department shall annually prepare and submit to the Governor and the Legislature a report on curbside recycling programs and on the potential need for exemption authority additional to that provided by subdivision (d).

SEC. 23. Section 14572 of the Public Resources Code, as amended by Chapter 320 of the Statute of 1988, is amended to read:

14572. (a) Except as provided in subdivisions (b) and (c), a certified recycling center shall accept from any consumer or dropoff or collection program any empty beverage container, and shall pay to the consumer or dropoff or collection program the redemption value and any applicable redemption bonus of the beverage container. The center may pay the redemption value and any applicable redemption bonus based on the weight of returned containers.

(b) A recycling center or recycling location may refuse to pay any redemption bonus for a beverage container to a consumer under either of the following circumstances:

(1) If the beverage container is returned to any mechanical device which accepts empty beverage containers and issues a cash refund or redeemable credit slip of not less than the redemption

value of the container. The exemption provided by this paragraph shall apply only to beverage containers returned on or before April 1, 1989.

(2) If the recycling center or location was established or caused to be established solely pursuant to Section 14571.3 or 14571.7, or pursuant to Section 14571.4 or 14571.5, as those sections read on January 1, 1988, and the department authorizes retention of the redemption bonus pursuant to Section 14571.3 or 14571.7, or pursuant to Section 14571.4 or 14571.5, as those sections read on January 1, 1988.

(c) Any recycling center, nonprofit dropoff program, or processor which was certified by the department as of June 30, 1988, which was in existence on January 1, 1986, and which refused, as of January 1, 1986, to accept at a particular location a certain type of empty beverage container may continue to refuse to accept at the location the type or types of empty beverage containers that the recycling center, nonprofit dropoff program, or processor refused to accept as of January 1, 1986. Any certified recycling center which refuses, pursuant to this subdivision, to accept a certain type or types of empty beverage containers shall pay to the consumer the full redemption bonus for containers accepted and is not eligible to receive convenience incentive payments unless the center agrees to accept all types of empty beverage containers. This subdivision does not preclude the certified recycling center from retaining the redemption bonus or receiving a convenience incentive payment for beverage containers redeemed at locations which do accept all types of containers. Any recycling center which is certified after June 30, 1988, shall accept all beverage container types after January 1, 1989.

(d) The department shall terminate the authorization for retention of the redemption bonus pursuant to Section 14571.7, or an authorization granted pursuant to Section 14571.5, as that section read on January 1, 1988, if another recycling location is willing to redeem containers to satisfy the requirements of Section 14571 within the convenience zone without retaining the redemption bonus.

(e) Only a certified recycling center may pay the redemption value or the redemption bonus to consumers, or dropoff or collection programs. No person shall pay a noncertified recycling center an amount which exceeds the scrap value for aluminum, as listed in the American Metals Market publication, or an amount for glass and plastic which exceeds the amount identified as the portion of the processing fee which are the costs for the recycler, as specified, in paragraphs (1) and (2) of subdivision (a) of Section 14571, as determined by the department.

(f) This section does not affect curbside programs under contract with cities or counties.

SEC. 24. Section 14572.5 of the Public Resources Code is amended to read:

14572.5. A certified recycling center, other than a reverse vending machine, shall accept from any consumer or any dropoff or

collection program and pay the applicable refund value or deposit for any refillable empty beer and other malt beverage container. The certified recycling center shall return, or cause to be returned, the refillable beer and other malt beverage container to the beer and other malt beverage distributor or any willing purchaser, who shall then pay the refund value or the deposit to the center. The beer and other malt beverage distributor or other purchaser shall also negotiate a handling fee with the recycling center for the return of these containers.

SEC. 25. Section 14573 of the Public Resources Code is amended to read:

14573. The department shall pay to a processor, for every empty beverage container received by the processor from a certified recycling center, curbside program, dropoff or collection program, or nonprofit dropoff program, with proof of the delivery, the sum of all of the following amounts:

(a) The redemption value.

(b) The applicable redemption bonus.

(c) Two and one-half percent of the redemption value for administrative costs.

(d) The processing fee established pursuant to Section 14575.

The department shall make this payment within two working days of the date the department is notified of the delivery or within the time determined by the department to be necessary and adequate. The payment shall be made in the form and manner which the department may prescribe.

SEC. 26. Section 14573.5 of the Public Resources Code is amended to read:

14573.5. Except as provided in Section 14573.6, a processor shall pay to a certified recycling center, dropoff or collection program, curbside program, or nonprofit dropoff program, for all types of empty beverage containers, by type of beverage container, received by the processor from recycling center, curbside program, dropoff or collection program, or nonprofit dropoff program, the sum of all of the following amounts:

(a) The redemption value.

(b) The applicable redemption bonus.

(c) One percent of the redemption value for administrative costs.

(d) The portion of the processing fee established pursuant to Section 14575 representing the actual cost and financial return incurred by the recycling center, as determined by the department.

The processor shall make this payment within two working days of the date the processor receives these empty beverage containers, or within the time which the department determines to be necessary and adequate. A processor may authorize a redemption center to crush and compact beverage containers before the processor receives the containers.

SEC. 27. Section 14576 of the Public Resources Code is repealed.

SEC. 28. Section 14580 of the Public Resources Code is amended

to read:

14580. (a) The department shall deposit all amounts paid as redemption values by distributors pursuant to Section 14574, processing fees paid pursuant to Section 14575, civil penalties or fines paid pursuant to Section 14541 or subdivision (c) of Section 14591, and all other revenues received into the California Beverage Container Recycling Fund, which is hereby created in the State Treasury. Notwithstanding Section 13340 of the Government Code, the moneys in the California Beverage Container Recycling Fund are hereby continuously appropriated to the department for expenditure without regard to fiscal year for the following purposes:

(1) The payment of redemption values to processors pursuant to Section 14573.

(2) Except as provided in subdivision (b), for costs necessary to the administration of this division.

(3) For a reserve for contingencies in the following amount:

(A) During 1987, a reasonable and prudent amount, as determined by the department, but not more than five million dollars ($5,000,000).

(B) During each calendar year after 1987, the reserve shall not be greater than an amount equal to one-fourth of the total amount paid to processors pursuant to Section 14573 during the preceding calendar year, plus any interest earned on hat amount.

(b) On and after July 1, 1989, the moneys in the fund may be expended by the department for the administration of this division only upon appropriation by the Legislature in the annual Budget Act.

(c) After all of the expenditures pursuant to subdivisions (a) and (b) have been made, the balance remaining in the fund shall be deposited in the Redemption Bonus Account, which is hereby created as a subaccount in the California Beverage Container Recycling Fund. Notwithstanding Section 13340 of the Government Code, the moneys in the Redemption Bonus Account are hereby continuously appropriated to the department, without regard to fiscal year, for the purposes specified in Section 14581.

SEC. 29. Section 14581 of the Public Resources Code is amended to read:

14581. (a) The department shall calculate the redemption bonus amount, pursuant to subdivision (b), by deducting the following amounts from the Redemption Bonus Account, for which purpose the department may expend money from the Redemption Bonus Account in the following order of priority:

(1) The department shall expend 10 percent of the amount deposited in the Redemption Bonus Account during the previous three months for urban, rural, and recreational litter abatement and recycling activities and for contracts with statewide private nonprofit entities for recycling information, education, and promotion. The funds for urban, rural, and recreational litter abatement and recycling activities shall be expended by contract

with local conservation organizations. Three-quarters of this 10 percent shall be expended in the form of grants, as specified by the department, to certified community conservation corps, either existing or those established in the future, designated by a city or a city and county to perform litter abatement, recycling, and related activities, if the city or the city and county has a population, as determined by the last federal census, of more than 250,000 persons. Any grants provided pursuant to this paragraph shall not comprise more than 75 percent of the annual budget of a community conservation corps.

(2) The department may expend up to 25 percent of the amount deposited in the Redemption Bonus Account during the previous three months for making convenience incentive payments, pursuant to Section 14585, until June 30, 1990, and may expend up to 20 percent of the amount deposited in the Redemption Bonus Account during the previous three months for making convenience incentive payments from July 1, 1990, until January 1, 1993.

(3) After making the expenditures specified in paragraphs (1) and (2), the department may expend, until June 30, 1990, up to 5 percent of the amount deposited in the Redemption Bonus Account during the previous three months for contracts with certified recycling centers located in convenience zones for advertising and promotion.

(b) The department shall calculate the redemption bonus amount using the balance remaining in the Redemption Bonus Account after deducting the amounts specified in subdivision (a).

(1) The department shall calculate the redemption bonus at least quarterly, except that the department may revise any redemption bonus to account for seasonal variations in beverage container sales and redemptions, to prevent funds accumulated during a high sales period from providing disproportionately high redemption bonuses during a low redemption period, or to prevent funds accumulated during a low sales period from providing disproportionately low redemption bonuses during a high redemption period.

(2) Notwithstanding any other provision of this section, the department shall pay out, as a redemption bonus, any amount deposited in the account within six months after receipt to ensure the payment of maximum redemption bonuses to processors compatible with the level of funds available in the Redemption Bonus Account.

(3) From the remaining balance in the Redemption Bonus Account, the department shall determine the redemption bonus by dividing the balance in the Redemption Bonus Account by the number of containers redeemed during the previous quarter or other period determined pursuant to paragraph (1). The department shall calculate the redemption bonus so that all funds shall be passed entirely to processors in a prompt and efficient manner and that the redemption bonus amount will further the purposes of this division.

(4) The redemption bonus shall be reviewed by the committee every three months.

(5) The department may round any redemption bonus to the nearest one-tenth or one-quarter of a cent.

SEC. 30. Section 14585 of the Public Resources Code is amended to read:

14585. (a) The department shall develop guidelines and criteria for issuing convenience incentive payments solely to assist in establishing recycling locations in convenience zones without sufficient recycling locations pursuant to Chapter 6 (commencing with Section 14570). The department may establish a convenience incentive payment if the payment meets all of the following:

(1) The payment shall be set by the department at the minimum level determined by the department to be sufficient to establish convenience in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(2) The department may revise the payment upon finding that the previous payment is inadequate, and shall revise the payment upon finding that the previous payment is excessive, to establish convenience in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(3) The department may require the operators of the recycling locations to maintain daily records of redemptions at the locations, and may require the locations to take any other steps necessary for the department to ensure that the operators do not receive an excessive convenience incentive payment.

(4) The department may make convenience incentive payments to the operators of recycling locations through processors or directly, at the department's discretion, in the same manner as the department pays redemption values, redemption bonuses, and processing fees to recycling locations.

(5) On and after January 1, 1989, the department shall not make convenience incentive payments to more than one certified recycling center in a convenience zone. When two or more convenience zones overlap by more than one-half mile, the department shall offer a single convenience incentive payment to cover the affected convenience zones. This convenience incentive payment shall not be split between the affected zones. The department shall stop making convenience incentive payments if another recycling center is willing to certify operation within the convenience zone without receiving payments pursuant to this section.

(6) If a convenience incentive payment to a certified recycling center located in a convenience zone exceeds eight hundred dollars ($800) per month, the department shall review the convenience zone to determine if the convenience zone should be exempted pursuant to Section 14571.8.

(b) The department shall conduct a study on use of each of the payment mechanisms authorized by subdivision (b) and on use of

bonds, grants, and loans authorized by Section 14584 and report to the Legislature on or before January 1, 1989, on the effectiveness of each of these mechanisms.

(c) The department may authorize prepayment of convenience incentive payments to recycling centers pursuant to subdivision (a) for periods of up to one year at a time.

SEC. 31. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed five hundred thousand dollars ($500,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 32. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to protect the fiscal integrity of the California Beverage Container Recycling and Litter Reduction Act, and the fiscal solvency of recyclers, thereby protecting public health and safety and the environment by encouraging the recycling of beverage containers, it is necessary that this act take effect immediately.

SEC. 2. Section 14581 of the Public Resources Code is amended to read:

14581. (a) The department shall calculate the redemption bonus amount, pursuant to subdivision (b), by deducting the following amounts from the Redemption Bonus Account, for which purpose the department may expend money from the Redemption Bonus Account:

(1) The department shall expend 10 percent of the amount deposited in the Redemption Bonus Account during the previous three months for urban, rural, aquatic, and recreational litter abatement and recycling activities. These funds shall be expended by contract with local conservation organizations. Three-quarters of this 10 percent shall be expended in the form of grants, as specified by the department, to certified community conservation corps, either existing or those established in the future, designated by a city or a city and county to perform litter abatement, recycling, and related activities, if the city or the city and county has a population, as determined by the last federal census, of more than 250,000 persons. Any grants provided pursuant to this paragraph shall not comprise more than 75 percent of the annual budget of a community conservation corps.

(2) The department shall expend 10 percent of the amount deposited in the Redemption Bonus Account during the previous three months for recycling information, education, and promotion. These funds shall be expended by entering into contracts with public or private agencies, and at least 50 percent of the funds shall be expended by entering into contracts with statewide nonprofit private agencies.

(3) The department may expend up to 20 percent of the amount deposited in the Redemption Bonus Account during the previous three months for convenience incentive payments pursuant to Section 14585 in 1987 and 1988, and the department may expend up to 10 percent for those purposes in 1989 and 1990.

(b) The department shall calculate the redemption bonus amount using the balance remaining in the Redemption Bonus Account after deducting the amounts specified in subdivision (a).

(1) The department shall calculate the redemption bonus at least quarterly, except that the department may revise any redemption bonus to account for seasonal variations in beverage container sales and redemptions, to prevent funds accumulated during a high sales period from providing disproportionately high redemption bonuses during a low redemption period, or to prevent funds accumulated during a low sales period from providing disproportionately low

redemption bonuses during a high redemption period.

(2) Notwithstanding any other provision of this section, the department shall pay out, as a redemption bonus, any amount deposited in the account within six months after receipt to ensure the payment of maximum redemption bonuses to processors compatible with the level of funds available in the Redemption Bonus Account.

(3) From the remaining balance in the Redemption Bonus Account, the department shall determine the redemption bonus by dividing the balance in the Redemption Bonus Account by the number of containers redeemed during the previous quarter or other period determined pursuant to paragraph (1). The department shall calculate the redemption bonus so that all funds shall be passed entirely to processors in a prompt and efficient manner and that the redemption bonus amount will further the purposes of this division.

(4) For the first two quarters, beginning October 1, 1987, and ending March 31, 1988, the redemption bonus shall be determined by the department after consultation with the committee.

(5) The department may round any redemption bonus to the nearest one-tenth or one-quarter of a cent.

SEC. 3. Section 14581 of the Public Resources Code is amended to read:

14581. (a) The department shall calculate the redemption bonus amount, pursuant to subdivision (b), by deducting the following amounts from the Redemption Bonus Account, for which purpose the department may expend money from the Redemption Bonus Account:

Any grants provided pursuant to this paragraph shall not comprise more than 75 percent of the annual budget of a community conservation corps.

(2) The department shall expend 10 percent of the amount deposited in the Redemption Bonus Account during the previous three months for recycling information, education, and promotion. (b) The department shall calculate the redemption bonus amount using the balance remaining in the Redemption Bonus Account after deducting the amounts specified in subdivision (a).

(1) The department shall calculate the redemption bonus at least quarterly, except that the department may revise any redemption bonus to account for seasonal variations in beverage container sales and redemptions, to prevent funds accumulated during a high sales period from providing disproportionately high redemption bonuses during a low redemption period, or to prevent funds accumulated during a low sales period from providing disproportionately low redemption bonuses during a high redemption period.

(2) Notwithstanding any other provision of this section, the department shall pay out, as a redemption bonus, any amount deposited in the account within six months after receipt to ensure the payment of maximum redemption bonuses to processors compatible with the level of funds available in the Redemption Bonus Account.

At the time and place where a contract or agreement described in this paragraph is entered into, a Spanish-language notice shall be provided to the lessee or tenant.

(b) Provision by a supervised financial organization of a Spanish-language translation of the disclosures required by Regulation M or Regulation Z, and, if applicable, Division 7 (commencing with Section 18000) or Division 9 (commencing with Section 22000) or Division 10 (commencing with Section 24000) of the Financial Code, prior to the execution of the contract shall also be deemed compliance with the requirements of subdivision (a) with regard to the original contract or agreement.

(1) "Regulation M" and "Regulation Z" mean any rule, regulation, or interpretation promulgated by the Board of Governors of the Federal Reserve System and any interpretation or approval issued by an official or employee duly authorized by the board to issue interpretations or approvals dealing with, respectively, consumer leasing or consumer lending, pursuant to the Federal Truth in Lending Act, as amended (15 U.S.C. 1601 et seq.).

(c) At the time and place where a contract or agreement described in paragraph (1) or (2) of subdivision (a) is entered into, a Spanish-language notice shall be conspicuously displayed to the effect that the person described in subdivision (a) is required to provide an unexecuted Spanish-language contract or agreement, or a Spanish-language translation of the disclosures required by law, as the case may be. If a person described in subdivision (a) does business at more than one location or branch, the requirements of this section shall apply only with respect to the location or branch at which the Spanish language is used.

(d) The term "contract" or "agreement," as used in this section, means the document creating the rights and obligations of the parties and includes any subsequent document making substantial changes in the rights and obligations of the parties. The term "contract" or "agreement" does not include any subsequent documents authorized or contemplated by the original document such as periodic statements, sales slips or invoices representing purchases made pursuant to a credit card agreement, a retail installment contract or account or other revolving sales or loan account, memoranda of purchases in an add-on sale, or refinancing of a purchase as provided by, or pursuant to, the original document.

The term "contract" or "agreement" does not include a home improvement contract as defined in Sections 7151.2 and 7159 of the Business and Professions Code, nor does it include plans, specifications, description of work to be done and materials to be used, or collateral security taken or to be taken for the retail buyer's

obligation contained in a contract for the installation of goods by a contractor licensed pursuant to Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, if such home improvement contract or installation contract is otherwise a part of a contract described in subdivision (a).

Matters ordinarily incorporated by reference in contracts or agreements as described in paragraph (3) of subdivision (a), including but not limited to rules and regulations governing a tenancy and inventories of furnishings to be provided by the person described in subsection (a) are not included in the term "contract" or "agreement."

(e) This section shall not apply to any person engaged in a trade or business who negotiates primarily in the Spanish language as described by subdivision (a) if the party with whom he or she is negotiating is a buyer of goods or services, or receives a loan or extension of credit, or enters an agreement obligating himself or herself as a tenant, lessee, or sublessee, or similarly obligates himself or herself by contract or lease, and such party negotiates the terms of the contract, lease, or other obligation through his or her own interpreter.

As used in this subdivision, "his or her own interpreter" means a person, not a minor, able to speak fluently and read with full understanding the English and Spanish languages, and who is not employed by, or whose service is made available through, the person engaged in the trade or business.

(f) The terms of the contract or agreement which is executed in English shall determine the rights and obligations of the parties. However, the Spanish-language translation of the contract or the disclosures required by subdivision (b) shall be admissible in evidence only to show that no contract was entered into because of a substantial difference in the material terms and conditions of the contract and the translation.
