Funds shall be allocated to community college districts from this section prior to allocation of any funds being transferred pursuant to Section 84707 of the Education Code.

(c) The funds appropriated by this section shall be allocated in accordance with the following schedule:

(1) Community colleges	$7,900,000
(2) Department of Education	13,500,000

The Director of Finance may transfer funds among the categories in the schedule above.

(d) Any funding allocated to the Chancellor's office of the California Community Colleges, or the Superintendent of Public Instruction, for apportionment to community college districts or local education agencies for additional average daily attendance (ADA) may, notwithstanding any other provision of law, be apportioned on an advance basis to community college districts or local education agencies, based on expected units of ADA if a prior application for the additional ADA funding has been approved by the chancellor or the Superintendent of Public Instruction. The chancellor or superintendent, shall, at the time of the annual apportionment, reduce funding by the corresponding amount to any district or local education agency receiving funds affected by this provision and which fails to generate certified levels of ADA.

(e) Of the funds appropriated in paragraph (3) of subdivision (c), up to $2,400,000 shall be allocated to the State Department of Education and/or the Chancellor's Office of the California Community Colleges, upon order of the Director of Finance, if additional resources are necessary to implement the GAIN program.

(h) Item 5180-155-001 shall be the sole source of funding for GAIN case management services in Los Angeles County. No other item in this act shall be used for that purpose.

(1) The Director of Finance may not authorize the augmentation of the total amount available for expenditure in the schedule set forth for appropriation in this item to reflect any available SLIAG funds which he or she determines have not been taken into consideration in the schedule or are in excess of the amount so taken into consideration, except as follows:

(A) The Director of Finance may allocate the balance of any remaining funds authorized for expenditure by Section 14.00 of the Budget Act of 1987 or Section 23.50 of the Budget Act of 1988 for any other category or program in the schedule set forth for appropriation in this item. These transfers may be authorized not sooner than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the committees in each house which consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the the Chairperson of the Joint Legislative Budget Committee, or his or her designee, may in each instance determine.

(B) The Director of Finance may authorize the expenditure of any available SLIAG funds which he or she determines have not been taken into consideration in the schedule or are in excess of the amount so taken into consideration, if the director determines that the state's total five-year allocation exceeds $1,700,000,000 and that the additional expenditures can be sustained over the duration of the five-year expenditure plan within the revised estimate of SLIAG allocations. These additional expenditures may be authorized not sooner than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the committees in each house which consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the Chairperson of the Joint Legislative Budget Committee, or his or her designee, may in each instance determine.

(2) The Director of Finance may authorize the further aug-

mentation of the amount available for expenditure for any category or program in the schedule set forth for appropriation in this item for increases in the level of service due to increased caseload, utilization, or cost per unit of service. These augmentations may be authorized pursuant to the provisions of paragraph (4). The Director of Finance may not authorize the augmentation of the amount available for expenditure from SLIAG funds for new program activities not identified in the schedule set forth in this item.

(3) The Director of Finance may also reduce the amount available for expenditure for any category or program in the schedule set forth for appropriation in this item for reductions in the level of service due to decreased caseload, utilization, or cost per unit of service. These reductions may be authorized pursuant to the provisions of paragraph (4). The Director of Finance may not authorize the elimination of the expenditure from SLIAG funds for program activities identified in the schedule set forth in this item.

(4) The Director of Finance may authorize the augmentation or reduction of the amount available for expenditure for a category or program designated in the schedule set forth for such appropriation in this item by transfer from or transfer to any of the other designated categories within this item for the purposes stated in paragraphs (2) and (3). This authorization is limited to transfers of funds between programs within the same category (i.e., within public health, within public assistance, or within education). These transfers may be authorized not sooner than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the committees in each house which consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the Chairperson of the Joint Legislative Budget Committee, or his or her designee, may in each instance determine. Transfers of SLIAG funds between categories may be authorized not sooner than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the committees in each house which consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the chairperson of the joint committee, or his or her designee, may in each instance determine.

(c) To the maximum extent possible, public assistance and public health programs shall use existing delivery mechanisms, funding mechanisms and service providers to deliver services or benefits to newly legalized persons.

(d) Those funding mechanisms which currently allocate resources on the basis of the general population of the respective counties

shall be interpreted to refer to the number of newly legalized persons in each county insofar as allocation of the SLIAG apportionment is concerned. Other funding mechanisms which may use variables different than population shall similarly be interpreted to utilize such variables only as they apply to newly legalized persons.

(e) It is intended that all SLIAG reimbursable costs shall be identified to ensure that California's allotment of federal SLIAG funds is maximized. Departments shall authorize service providers to claim SLIAG funds using a method of cost calculation allowable under federal SLIAG regulations which minimizes the under identification of all SLIAG reimbursable costs. The method of cost calculation which can be used may include, but shall not be limited to, the use of a statistically valid sample of a provider's caseload, or, for public health programs, the ratio of newly legalized persons in a service population to all members of the relevant service population.

(f) The Health and Welfare Agency and administering departments, including the Department of Education, shall take the steps necessary to subrogate to the providers of service, the financial liability for inappropriate expenditure or nonuse of federal funds. Whenever current program requirements do not specify such responsibility, the appropriate state agency shall enter into agreements with providers calling for their acceptance of financial responsibility in return for allocation of funds by the state. Funds shall not be allocated to any provider by administering departments absent acceptance of financial responsibility for audit exceptions by the provider.

(g) The general assistance program will remain the responsibility of the counties in which the newly legalized persons reside. The State Department of Social Services shall provide necessary oversight and shall allocate funds for newly legalized persons through the system which allows counties to claim general assistance funds for refugees. All preliminary allocations shall be adjusted on the basis of actual caseload experience to the extent funds are available.

(h) Records of services provided to newly legalized persons will be kept at the local level except for those programs that use central fiscal intermediary functions to process claims. Individual programs will require periodic reports from providers and will provide their managing state departments with summary data at quarterly intervals. The managing departments and the Health and Welfare Agency will track the provision and cost of services to newly legalized persons.

(i) K–12 education services shall be limited to those newly legalized children who meet the requirement of the Federal Emergency Immigration Act of having had less than three years of education in the United States. In accordance with federal SLIAG reg-

ulations, the Superintendent of Public Instruction shall allocate such funds, upon application by local school districts, to those districts that are highly impacted by the number of newly legalized children.

(j) The Department of Education shall distribute adult education SLIAG funds to community colleges, local school districts, and community based organizations—including qualified designated entities authorized to provide educational services by the Immigration and Naturalization Service regulations—in accordance with an IRCA Adult Education Services Delivery Plan (AESDP). This plan shall be developed by the Department of Education in consultation with representatives of the different service provider groups, and shall be provided to the Director of Finance by September 15, 1989. Prior to allocation of any SLIAG funds to the Department of Education, the AESDP shall be approved by the Director of Finance.

(k) The Adult Education Services Delivery Plan shall specify:

1. The process for tracking SLIAG funds to newly legalized persons,
2. That the maximum average reimbursement per newly legalized person participating in educational services shall be the lesser of (a) the service hours provided multiplied by the statewide average revenue limit for K–12 adult education programs computed on an hourly basis, plus funding for those ancillary services specified in paragraph (2) of subdivision (s); or (b) $500 per newly legalized person per year. However, providers of educational services shall not be reimbursed for amounts that exceed their actual costs of providing services;
3. Appropriate guarantees or safeguards that the $500 dollar limit shall not be exceeded;
4. The requirement that INS approve individual providers to issue certificates of satisfactory pursuit, as a condition of their receiving SLIAG funds;
5. How community-based organizations and qualified designated entities may receive SLIAG educational funds in an expeditious and timely manner, while guaranteeing that appropriate standards of educational quality and fiscal accountability are maintained;
6. The appropriate division of responsibility between local school districts and the community colleges, including a reiteration of legislative intent that, notwithstanding Section 8530 of the Education Code, school and community college districts which do not currently provide adult education and noncredit instruction are eligible to participate in this program;
7. The appropriate division of responsibility between the Department of Education and the chancellor's office of the

community colleges;

8. That a score of 215 on the Comprehensive Adult Student Assessment System (CASAS) test equates to a newly legalized person being able to demonstrate proficiency in English for the purposes of converting from temporary to permanent residency status. Educational services also may be provided to newly legalized persons scoring at or above the CASAS 215 level prior to their conversion to permanent residency. However, providers of educational services must target services first to those pre-1982 individuals scoring below the CASAS 215 level and then secondly to Special Agricultural Workers (SAWs) or to those pre-1982 individuals scoring at or above this level.

   The State Department of Education shall submit quarterly reports to the Health and Welfare Agency, detailing the aggregate claims for reimbursement for adult education services, the total number of newly legalized persons served, the number of certificates of satisfactory pursuit issued by SLIAG-participating providers, and the number of pre-1982 individual and SAW's served, including individuals served who do not need an educational service to convert to permanent residency. Subsequent quarterly reports shall provide data about the activities of the reporting quarter, and also add this data to the cumulative running total for adult education activities; and

9. K–12 school districts and community colleges shall not receive General Fund apportionments for services provided to newly legalized persons where reimbursement for such services has been provided from SLIAG funds.

(*l*) The Health and Welfare Agency shall oversee outreach activities targeted to newly legalized persons. The outreach efforts shall cover, to the extent SLIAG reimbursement is allowed:

1. Information on the requirements for change in status from temporary legal resident to permanent legal resident, including information on the specific requirements and guidelines for courses of study for English language and civics instruction as established by the Immigration and Naturalization Service (INS), and how and where to obtain such education services.
2. Information about employment, health, welfare, and education program services available, the importance of identifying oneself as a newly legalized person to providers of these services, the potential adverse consequences of using specific services on conversion to permanent residency, and how to obtain help in dealing with the legalization process.
3. The identification of deterrent factors and program areas in which basic needs of newly legalized persons are not being met to the extent allowable by federal law.

The Health and Welfare Agency shall have the discretion to utilize up to $900,000 in funds for these comprehensive, coordinated outreach activities, and to distribute these funds to participating state departments and other organizations based on what it determines is necessary to accomplish the objectives of the outreach program. To the extent feasible, contracting outreach entities shall subcontract with community-based organizations and qualified designated entities providing health and education services. In addition, of this amount, $250,000 shall be available for additional outreach workers providing face-to-face or other outreach efforts, through subcontracts or any other means, to community-based organizations providing health and education services.

(m) Each state department which receives or administers SLIAG funds shall make available, where necessary, through existing programs, technical assistance and training to service providers. Technical assistance may include proposal preparation, information and training in cost tracking and identification systems, accounting procedures and program accountability, reimbursement claim preparation, and identification procedures for newly legalized persons. The departments shall ensure that this assistance is allowable under federal SLIAG regulations and guidelines. The departments may provide this technical assistance directly through existing programs or through contracts with individuals or organizations having expertise in program areas and the provisions of the SLIAG program, and may implement this technical assistance through any of the following:

(1) Local or regional or statewide workshops.
(2) Identification of model programs.
(3) Onsite consultation.
(4) Statewide training/association activities.

Departments shall disseminate information to SLIAG service providers on or before September 15, 1989, advising them on opportunities to participate in the provisions of technical assistance, when that is appropriate.

(n) Primary care clinics may participate in established public health program contracting processes in order to be reimbursed from other funding sources. The Department of Health Services shall coordinate its various public health contracting programs to allow eligible primary care clinics to apply for provider status in public health programs as appropriate.

(o) The Department of Education, in providing administrative oversight of SLIAG programs, shall assist community-based organizations in establishing educational programs for newly legalized persons, in locating credentialed instructors and in obtaining in-service training.

(p) (1) All entities providing English-as-a-Second-Language (ESL)

classes to newly legalized persons shall employ at least one teacher/coordinator who holds a certificate or credential recognized by the appropriate credentialing agency as an indicator of the teacher's ability to teach in a language development program. All other individuals who teach ESL classes shall:

(A) Hold a bilingual education or language development specialist certificate issued by the appropriate credentialing agency; or

(B) Be credentialed and have successfully completed college coursework or training in ESL.

(2) When no teacher meeting the above criteria is available for placement, individuals who meet any of the following criteria and agree to participate in mandatory, concurrent training in ESL may be hired. Eligible candidates include individuals who:

(A) Are not credentialed, but have ESL college coursework or training; or

(B) Have established proven experience of not less than 6 months of successful direct ESL instruction with any age group.

(q) (1) Under the direction of the Health and Welfare Agency, the administering state departments shall develop and implement data collection, claims review, and auditing standards and criteria by November 15, 1989, to ensure that providers comply with federal documentation requirements and meet state and federal reporting and auditing needs. Particular emphasis shall be placed on adult education and indigent health services data reporting, claims review, and auditing. Notwithstanding any other provisions of law, the administering state departments may adopt emergency regulations if needed for the purposes of developing and implementing the requirements of this subdivision.

The Health and Welfare Agency shall provide information to the legislative fiscal committees and Joint Legislative Budget Committee by January 15, 1990, on claims and reimbursements in each specific line-item of programs funded under IRCA. This information shall address the following for each fiscal year:

(A) Each program's standards and policy for reviewing and paying claims for reimbursement.

(B) The documentation required by each program for claims review, and the results of each program's evaluation of this documentation.

(C) Each program's policy for recouping excess reimbursements from service providers.

(D) For each program, the average length of time between receipt of claims and the submission of these

claims to the Controller's Office.

(2) The office of the Auditor General shall evaluate the results of the administering departments' data collection, claims review, and auditing efforts, and shall report on its findings to the legislative fiscal committees and Joint Legislative Budget Committee by June 1, 1990. Their report shall include:

(A) An evaluation of whether each program's data collection, claims review, and auditing procedures comply with federal documentation requirements and meet state and federal reporting and auditing needs.

(B) An assessment of subparagraphs (A) through (D), inclusive, of paragraph (1) and of paragraph (4), for each program funded under IRCA.

(3) (A) Counties which claim SLIAG funds for indigent health services based on the documentation of services provided to individual eligible legalized aliens, to the extent SLIAG funds are allowable and to the extent this information is not now available, shall implement, by the end of the 1990–91 state fiscal year, the Medically Indigent Care Reporting System, as defined by the State Department of Health Services. This system shall provide, at a minimum:

(B) Specific patient identification and linkage to incurred costs for the five service categories below:

(i) Inpatient services rendered to newly legalized persons and associated costs.

(ii) Outpatient services and associated costs.

(iii) Emergency and associated costs.

(iv) Pregnancy-related services and associated costs.

(v) Contract services and associated costs.

(4) (A) Counties which claim SLIAG funds for medically indigent health services based on statistically valid sampling shall submit their sampling plan, inclusive of all methodologies and protocols, to the Department of Health Services for review and approval. Prior to this approval, the state department shall submit the sampling plan to the United States Department of Health and Human Services for review and comment. Any such approval by the state department shall categorically include the federal comments and shall be contingent thereon. Approval of a sampling plan shall in no way set aside the requirement for subrogation of financial liability for inappropriate expenditure or nonuse of funds contained in subdivision (f). Nothing in this subdivision shall be construed to preclude the state department from disapproving a sampling plan for cause.

(B) The size and scope of the sample population shall be sufficient to obtain reliable data on all of the following:
(i) Inpatient services rendered to newly legalized persons and associated costs.
(ii) Outpatient services and associated costs.
(iii) Emergency services and associated costs.
(iv) Contract services and associated costs.

(5) Counties shall have the option of utilizing either of the methods described in paragraphs (3) and (4) for claiming SLIAG funds for indigent health services.

(6) The State Department of Health Services, in consultation with the Health and Welfare Agency, shall inform counties concerning the extent to which SLIAG funds may be used to design, develop, implement, and maintain data collection and auditing systems, and shall monitor county implementation of the Medically Indigent Care Reporting System (MICRS). Counties shall submit an implementation plan to the department no later than six months after receipt of written federal assurance that costs incurred in the design, development, and implementation of MICRS are reimbursable using SLIAG funds. Counties shall have an appropriate patient identification system in place no later than eight months after receipt of this written assurance.

(s) (1) The State Department of Education (SDE) shall establish a funding allotment for each approved adult education SLIAG provider, so that the statewide total of these allotments does not exceed the amount scheduled in item (1) of subparagraph (C) of paragraph (2) of subdivision (a). This amount includes any additional amount made available for adult education. The SDE shall take all steps necessary to ensure that the total statewide level of 1989–90 fiscal year claims does not exceed the amount of funding available. The SDE shall adjust individual allotments at least once per semester, but also periodically as deemed necessary, to reflect updated estimates of enrollment and funding available. The SDE shall also apportion at least 10 percent of the appropriation to a reserve pending the midyear adjustment or adjustments.

(2) For the purpose of determining each provider's funding allotment, the SDE shall calculate an amount for each provider based on the following list of priorities. The calculation shall commence with subparagraph (A) for all providers statewide, and shall proceed until the total amount of funding made available for this purpose has been exhausted:

(A) 100 hours of instruction for each pre-1982 individual in need of a certificate of satisfactory pursuit, and not previously enrolled for 60 hours or meeting alternative

means of demonstrating satisfactory pursuit. The SDE's calculation shall be based on the department's estimates of the number of these individuals in each county, minus estimates of the number of those individuals receiving non-SLIAG funded services. Funding associated with these individuals shall be prorated among providers within each county based on the discretion of the Superintendent of Public Instruction, but primarily based on 1988–89 enrollment counts.

(B) An allowance for administrative and ancillary services, based on: (i) 20 percent of the statewide average revenue limit for K–12 adult education programs computed on an hourly basis, multiplied by the number of hours of service approved pursuant to subparagraphs (A) and (C), except that this amount shall be based on 30 percent of the statewide average revenue limit in severely underserved geographic areas as defined in subdivision (t); or (ii) $75 per individual served. Providers utilizing state apportionment funding to serve newly legalized aliens may apply for an allotment for ancillary services, based on the equivalent number of hours that would have been approved pursuant to subparagraphs (A) and (C) if the provider had applied for full federal funding. Funding authorized pursuant to this subdivision may be used for allowable ancillary costs, including assessment, administration, educational counseling, staff training, recordkeeping, facility rental, child care, transportation, curriculum development, and outreach. Reimbursement shall not exceed actual costs.

(C) Additional hours for English and civics instruction for pre-1982 individuals and Special Agricultural Workers (SAW's), at the discretion of the Superintendent of Public Instruction.

(t) For the purpose of initiating new programs or expanding existing ones, the State Department of Education shall consider a geographic area as severely underserved when:

(1) There are 50 or more priority individuals, as defined in subdivision (u), who are living in the geographic area and who need enrollment in an ESL/civics class in order to successfully apply for lawful permanent residency; and

(2) There are no ESL/civics class programs approved by the United States Department of Justice to issue certificates of satisfactory pursuit in the geographical area, or all existing classes in the geographical area have waiting lists of six months or longer enrollment backlog; and

(3) It is more than 40 miles, or one-hour's travel time (one way), between the underserved area and the nearest ESL/

civics provider which will have sufficient vacant class slots within the next six months.

(u) (1) Priority students for educational services are defined as persons who are applicants for permanent residence pursuant to Section 245A of the Immigration Reform Control Act of 1986 (P.L. 99-603), who score below a level of 215 on the standardized Comprehensive Adult Student Assessment System (CASAS) or a correlative score on any other standardized literacy test approved by the Superintendent of Public Instruction, or who have failed the legal proficiency test administered by the Immigration and Naturalization Service (INS) or its designated agencies, and who have not yet demonstrated that they are "satisfactorily pursuing" English and United States civics, as defined in paragraph (s) of Part 245a.1 of Title 8 of the Code of Federal Regulations and cannot qualify for any alternatives to demonstrating satisfactory pursuit other than enrolling in an adult education program.

(2) As a condition of receiving funds, educational service providers shall maintain waiting lists of prospective students eligible under the State Legalization Impact Assistance Grant (SLIAG) program identified by adjustment status pursuant to Sections 210 and 245A of Public Law 99-603. The waiting lists shall specify: (1) each individual's status (Pre-1982 or SAW); (2) CASAS score (when assessed); and (3) whether the individual was previously enrolled for the purposes of meeting INS requirements, qualifies for any alternatives to demonstrating satisfactory pursuit, or has passed the legal proficiency test administered by the INS (or its designated agencies), has failed this test, or has qualified for a certificate of satisfactory pursuit.

(3) In addition, at the end of each quarter or semester, including the summer quarter or semester, providers shall reenroll all SLIAG-funded individuals, vacancies permitting. At these times, or any other time when a vacancy arises, providers shall enroll students based on the following priorities:

(A) Priority students scoring below 215 CASAS, or who have failed an INS-approved proficiency test, in need of 60 hours of instruction in order to obtain a certificate of satisfactory pursuit and who do not qualify for any of the alternative means of demonstrating satisfactory pursuit.

(B) Students scoring 215 CASAS or above who do not qualify for any of the alternative means of demonstrating satisfactory pursuit, but who reside 40 miles or more from an INS test center (or one hour travel time, one way), and who are in need of 60 hours of instruction in

order to obtain a certificate of satisfactory pursuit.

(C) Students scoring below 215 CASAS who: (i) have qualified for a certificate of satisfactory pursuit; or (ii) are SAW's.

(D) Students scoring 215 CASAS or above and previously enrolled and not in need of a certificate of satisfactory pursuit.

(E) Students scoring 215 CASAS or above and not previously enrolled and not in need of a certificate of satisfactory pursuit.

(4) Providers shall schedule future dates on which priority individuals on waiting lists can enroll and on which other students shall reenroll, and shall inform individuals on waiting lists of these dates at the time they are included on the lists.

(5) For any given semester, providers who certify to the superintendent that there are no priority students on their waiting lists are exempt from the reenrollment requirements for that semester.

(6) If the State Department of Education has determined that a SLIAG-funded education agency has provided an average of over 100 hours of instruction at the end of the first semester, and the provider has a waiting list with priority students subsequent to enrolling second (Spring) semester students, the State Department of Education shall instruct that provider to reenroll all SLIAG funded students during the second semester once the average hours of instruction reaches 60 hours. Reenrollment shall be based on the priorities as set forth in paragraph (3).

(7) The State Department of Education shall issue guidelines defining the maximum number of weeks allowable in a given semester or quarter.

(8) This subdivision shall apply notwithstanding any provision of the Education Code or any other provision of law.

(v) It is the intent of the Legislature that educational service providers encourage individuals scoring above 210 CASAS to take the Immigration and Naturalization Services proficiency test before enrolling in adult education classes. The SDE shall notify providers of this policy.

(w) In the event that Senate Bill 109 of the 1989–90 Regular Session is chaptered, the amount scheduled in item (1) of subparagraph (c) of paragraph (2) of subdivision (a) shall be reduced by $50,000,000, or by any other amount appropriated by the measure.

(x) Educational providers receiving SLIAG funds shall report to the State Department of Education, no later than November 1, 1989, the following information by category (pre-1982, SAW, below or above 215 CASAS): the number of individuals served, the number still on waiting lists, the number of certificates of sat-

isfactory pursuit issued, and any other data deemed necessary by the State Department of Education and the Health and Welfare Agency for making midyear allotment adjustments.

(y) The aggregate allotments made to all participating community colleges pursuant to subparagraphs (A), (B), and (C) of paragraph (2) of subdivision (s), plus a proportional amount of the funds reserved for the midyear adjustment required by paragraph (1) of subdivision (s), shall be considered a program appropriation, just as if it were separately scheduled under subparagraph (C) of paragraph (2) of subdivision (a). The State Department of Education, in consultation with the Chancellor's office and the Department of Finance, shall have the authority to adjust the amounts allocated to individual community college districts. However, should these adjustments either augment or reduce the total amount of funds available to community colleges, these adjustments shall only be authorized subject to the legislative notification procedure set forth in paragraphs (2), (3), and (4) of subdivision (b).

(z) The State Department of Education shall establish a statewide advisory council of community-based organizations, qualified designated entities, adult education providers, and community college providers to assist the department in the coordination of administrative, reimbursement, and funding allocation processes, outreach, and technical assistance efforts.

(za) The State Department of Education shall develop a SLIAG Program Operations Manual for local educational providers which shall provide instructions on preparing program applications, establishing cost accounting procedures, identifying and explaining allowable expenditures, explaining applicable federal rules and regulations governing SLIAG program operations, and filing reimbursement claims. This manual shall be ready for distribution by October 31, 1989.

(zb) The Health and Welfare Agency shall conduct directly, or through subcontractors, a supplemental needs survey to identify service needs of newly legalized persons, if the Health and Welfare Budget Subcommittees, upon their review of the 88/89 Needs Assessment, determine that additional data are needed in order to assist in the SLIAG allocation budgeting process.

In the event that a supplemental needs assessment is required, both subcommittees shall jointly direct the Health and Welfare Agency in writing as to the additional information required and the requested completion date.

(zc) All contracts and agreements involving the State Legalization Impact Assistance Grant (SLIAG) Fund shall require both contracting parties to maintain confidentiality of all beneficiary information relating to immigration sta-

tus. The contracts shall specify that this information shall not be released to the United States Immigration and Naturalization Service, or to any other agency, without the beneficiary's consent, unless this release is required by state or federal law.

EDUCATION

SEC. 24.00. For the 1989–90 fiscal year, the oil and mineral revenues from federal lands which are deposited in the State School Fund shall be divided between Section A and Section B of the State School Fund, with 85 percent of these revenues to be credited to Section A of the fund exclusively for K–12 district regular apportionments and 15 percent to Section B of the fund exclusively for community college regular apportionments. The amounts accruing to the State School Fund under this section shall be disbursed fully before any General Fund transfers to Section A or Section B of the State School Fund are disbursed for regular apportionments.

SEC. 24.10. Notwithstanding the provisions of Section 1464 of the Penal Code, added by Chapter 530, Statutes of 1980, and Section 41304 of the Education Code, the State Controller shall transfer the unencumbered balance in the Driver Training Penalty Assessment Fund on June 30, 1990, to the General Fund.

SEC. 24.50. (a) Since 1932, early childhood education and development programs have been operated as part of the school programs under the authority of the Superintendent of Public Instruction.

(b) The Legislature has stated its intent that these programs be a "concomitant part of the educational system" by providing young children an equal opportunity for later school success.

(c) Participation and enrollment in a child development program provides an opportunity for many children to hear their first English words (one in three speaks another language), to be introduced to the idea of numbers, to develop basic language concepts, to learn how to get along with other children and adults, and to begin to develop a positive self-image.

(d) In the 1988–89 fiscal year, 110,000 children in California were served in early childhood education programs administered by the Superintendent of Public Instruction. Those programs are considered by the general public to be an integral and essential part of the state's public education system.

(e) Early childhood education programs for children of low-income families have been shown to increase high school graduation rates and college entry rates, to reduce the need for special education and grade level retention, and to reduce high school dropout rates.

(f) In the state's early childhood education and development programs, each child is to receive an education program which is appropriate to his or her developmental, cultural, and linguistic needs. Each child is to receive a developmental profile, updated at regular

intervals, which will be passed on to his or her elementary school, along with immunization records.

(g) It is the intent of the Legislature that funding for the state's early childhood education and development programs be considered "moneys applied by the State for the support of school districts and community college districts" for purposes of subdivision (b) of Section 8 of Article XVI of the California Constitution, so that they will be afforded the protection which Proposition 98 provides education programs generally and which, if not provided for early childhood education and development programs, would likely result in less than adequate funding for these programs.

(h) For the period from the 1986–87 fiscal year to the present, the state's early childhood education and development programs have received funding adjustments for cost-of-living and enrollment increases that have been lower than the comparable adjustments for base revenue limits for school districts.

However, it is the intent of the Legislature that the inclusion of early childhood education and development programs within the calculation of the state's education funding obligation pursuant to Proposition 98 not make up for the historically lower level of funding received by these programs, nor result in a state spending obligation pursuant to the provisions of the proposition that exceeds the State General Fund cost of providing these programs with prospective cost-of-living and enrollment increases, because such excess funding, if provided, would adversely impact other General Fund supported programs which desperately need additional funds.

Thus, it is further the intent of the Legislature that the calculation of the state's funding pursuant to paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution for the 1989–90 fiscal year, and each fiscal year thereafter, exclude the additional amount which would result from the inclusion of early childhood education and development programs in the calculation of the state's education funding pursuant to Proposition 98, to the extent that additional amount exceeds the level of state funding for those programs during the 1989–90 fiscal year, including funding for cost-of-living and enrollment increases.

SEC. 24.60. From the funds appropriated in Items 4300-003-814, 5460-001-814, 6110-101-814, 6440-001-814, 6600-001-814, 6610-001-814, 6860-001-814, and 6870-101-814 of this act, the Department of Developmental Services, the Department of the Youth Authority and the local education agencies through the Superintendent of Public Instruction, the State Special Schools, Regents of the University of California, Directors of Hastings College of the Law, Trustees of the California State University system, Board of Governors of the California Maritime Academy, and community college districts through the chancellor shall report to the Governor and the Legislature no later than January 15, 1991, the amount of lottery funds which each entity received and the purposes for which the funds were expended in the

1989–90 fiscal year, including administrative costs and proposed expenditures and purposes for expenditure for the 1990–91 fiscal year. If applicable, the amount of lottery funds received on the basis of adult education ADA and the amount of lottery funds expended for adult education shall be reported.

SEC. 26.60. Notwithstanding any other provision of law, 30 days prior to the Department of Food and Agriculture's entering into interim financing or long-term financing, including bond agreements, pursuant to Article 9 (commencing with Section 19590) of Chapter 4 of Division 8 of the Business and Professions Code, the department shall submit a report to the Chairperson of the Joint Legislative Budget Committee with copies to the Chairpersons of Senate Budget and Fiscal Review Subcommittee Number 2, Assembly Ways and Means Subcommittee Number 3, the Senate Select Committee on Fairs and Rural Issues, and the Subcommittee on Fairs and Expositions of the Assembly Committee on Agriculture. The report shall list: (a) proposed individual satellite wagering expansion projects at fairs, (b) costs for constructing, operating, and maintaining individual satellite wagering projects, (c) net revenue projections for individual satellite wagering projects, and (d) projected effect on net Satellite Wagering Account revenue resulting from individual satellite wagering projects and satellite wagering related projects. Additional notification is not required for financing proposals unless refinancing will result in the expenditure of additional funds, in which case the report shall include the above-requested information relating only to the new debt. Reporting shall not be required for health and safety projects funded by interim financing or long-term financing, including bond agreements.

SEC. 27.00. (a) Approval by the Department of Finance to the creation of deficiencies pursuant to Section 11006 or approval to expend at rates which, in the opinion of the Director of Finance, will require a deficiency appropriation shall not be made unless the approval is made in writing and filed with the Chairperson of the Joint Legislative Budget Committee and chairperson of the committee in each house which considers appropriations not later than 30 days prior to the effective date of the approval, except for an approval for an emergency expenditure or an approval which is due to caseload increases in Medi-Cal, Aid to Families with Dependent Children (AFDC), and Supplemental Security Income/State Supplementary Program (SSI/SSP). All notifications shall include (1) the date a deficiency request was received by the Department of Finance, (2) the reason for the proposed deficiency, and (3) the approved amount.

(b) Approval for any emergency expenditure shall be made in writing and filed with the Chairperson of the Joint Legislative Budget Committee and the chairperson of the committee in each house which considers appropriations not later than 10 days after the effective date of the approval. All notices shall state the reason for and amount of the deficiency.

As used in this section, "emergency expenditure" means an expenditure incurred in response to conditions of disaster or extreme peril which threaten the health or safety of person or property within the state.

(c) The Department of Finance shall report quarterly to the Chairperson of the Joint Legislative Budget Committee and the fiscal committee of each house on the cumulative deficiency requests approved pursuant to subdivisions (a) and (b). The report shall contain the information required in subsections (1), (2), and (3) of subdivision (a). This report shall be filed within 15 days after the close of each fiscal quarter.

(d) The Department of Finance shall provide copies of all requests from agencies to spend at rates which will result in a deficiency appropriation to the Chairperson of the Joint Legislative Budget Committee and the chairperson of the committee in each house which considers appropriations. The department shall submit these copies within 10 days of receipt. The transmittal of this information to the Legislature shall not be construed by the requesting agency as approval of the deficiency request.

(e) For purposes for which the Governor previously vetoed funding, allocation of funds or authorization for deficiency expenditures shall not be made under the emergency provisions.

SEC. 28.00. (a) The Director of Finance may authorize the augmentation of the amount available for expenditure for any category or program in the schedule set forth for any appropriation in this act or any additional category or program in the amount of any funds which he or she estimates will be received by an officer, department, division, bureau, or other agency during the 1989–90 fiscal year from any other state agency, from any agency of local government or the federal government, from any appropriation made by the Legislature or from any other source which he or she determines has not been taken into consideration in the schedule or is in excess of the amount so taken into consideration.

(b) The Director of Finance may also reduce any category or program whenever he or she determines that funds to be received will be less than the amount taken into consideration in the schedule.

(c) The following augmentations or reductions may not be authorized sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the chairperson of the joint committee, or his or her designee, may in each instance determine:

(1) Augmentations or reductions which either are (a) in excess of $100,000 or (b) are in excess of 10% of the amount available for expenditure in the affected category or program.

(2) Any other augmentations which the Director of Finance determines constitute an increase in the level of services above that au-

thorized by this act or other existing law or are for a new program not identified in this act as such.

(3) Any other reductions which the Director of Finance determines constitute a decrease in the level of service below that authorized by this act or other existing law.

(4) Any augmentation, regardless of the amount, for the purpose of funding a task force or advisory council created by executive order of the Governor.

(5) Any reduction in excess of 5% of the amount available for expenditure for any program funded from the Cigarette and Tobacco Products Surtax Fund.

(d) Any personnel action which is dependent on funds subject to the provisions of this section shall not be effective until after the provisions of this section have been complied with. Any authorization made pursuant to this section too late for inclusion in the Governor's Budget for the 1990–91 fiscal year shall remain in effect for such period as the director may determine in each instance, but in no event after June 30, 1991.

(e) All authorizations reported or requested under the provisions of this section shall include all of the following:

(1) A description of the proposed expenditure and identification of the statutory authority for the expenditure.

(2) A determination whether the expenditure, if federally funded, is specifically designed to be one-time, a continuing federal obligation, or one that the state is required (or expected) to fund at some future date.

(3) A determination whether the expenditure, if federally funded, supplements or replaces existing state expenditures.

(4) A determination whether the expenditure has previously been considered at some point in the legislative process and has been denied; and, if denied, for what reasons.

(f) All increased expenditures from department indirect cost funds in excess of the amount budgeted in this act or identified in a prior Section 28 notification are subject to the reporting requirements of this section.

SEC. 29.00. The Department of Finance shall calculate and publish a listing of total personnel-years and estimated salary savings for each department and agency. These listings shall be published by the Department of Finance at the same time as the publication of (a) the Governor's Budget, (b) the May revision and (c) the Final Change Book.

(a) The listing provided at the time of the publication of the Governor's Budget shall contain estimates of personnel-years for the prior year, current year, and budget year.

(b) The listing provided at the time of publication of the May revision shall contain estimates of personnel-years proposed for the budget year.

(c) The listing provided at the time of the publication of the Final

Change Book shall contain estimates of personnel-years for the budget year just enacted.

SEC. 30.00. Section 13340 of the Government Code is amended to read:

13340. On and after July 1, 1990, no moneys in any fund which, by any statute other than a Budget Act, is continuously appropriated without regard to fiscal years, may be encumbered unless the Legislature, by statute, specifies that the moneys in the fund are appropriated for encumbrance.

SEC. 31.00. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code and Article 2.5 (commencing with Section 13332) of Chapter 3 of Part 3 of Division 3 of Title 2 of the Government Code requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

The fiscal year budget shall authorize in such manner as the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new position shall be established unless authorized by the Department of Finance on the basis of work program and organization.

The Director of Finance, or his or her authorized designee, shall notify the Chairperson of the Joint Legislative Budget Committee within 30 days of authorizing any position not authorized for that fiscal year by the Legislature or any reclassification to a position with a minimum step of $2,904 per month. He or she shall also report all transfers to blanket authorizations and the establishment of any permanent positions out of a blanket authorization.

All positions administratively established pursuant to this section during the 1989–90 fiscal year shall terminate on June 30, 1990, except for those positions which have been (a) included in the 1990–91 Governor's Budget as proposed new positions, or (b) approved by the Department of Finance and reported to the Legislature after the 1990–91 Governor's Budget submission to the Legislature, may be reestablished by the Department of Finance during the 1990–91 fiscal year, provided these positions are shown in the 1991–92 proposed Governor's Budget submitted to the Legislature, or in subsequent Department of Finance letters to the Legislature, and provided that these positions do not result in establishment of positions deleted by the Legislature through the 1990–91 budget process.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. A copy of this document shall be submitted to the Department of Finance upon request. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the ex-

penditures and accrued obligations for salaries and wages chargeable to the allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. This transfer shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any 1989–90 fiscal year appropriation not appropriated for that purpose may be expended for increases in salary ranges or any other employee compensation action(s) unless the Department of Finance certifies to the salary and other compensation-setting authority prior to the adoption of these action(s) that funds are available to pay the increased salary or employee compensation resulting therefrom. Prior to certification, the Department of Finance shall determine whether this increase in salary range or employee compensation action will require supplemental funding in the 1990–91 fiscal year. If the Department of Finance determines that supplemental funding will be required, no certification shall be issued unless notification in writing is given by the Department of Finance, at least 30 days before certification is made, to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or such lesser time as the chairperson of the joint committee, or his or her designee, determines.

A certification on a payroll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the State Controller that these expenditures comply with the provisions of this section.

Each agency, department, board, commission, and institution, for whose benefit and support appropriations are made in this act, shall certify to the Director of Finance that its expenditures have been made for the purposes stated in the budget, as implemented by the Budget Act, except as the purposes stated have been revised, in accordance with law, by the Department of Finance subsequent to the enactment of the Budget Act.

SEC. 32.00. The officers of the various departments, boards, commissions and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of such appropriations, except the consent of the Department of Finance be first obtained, and a certificate, in writing, duly signed by the director of said department, of the unavoidable necessity of such expenditure; and any indebtedness attempted to be created against the state in violation of the provisions of this section shall be absolutely null and void; and shall not be allowed by the State Controller nor paid out of any state appropriation. Any member of any such department, board, commission or in-

stitution, who shall vote for any expenditure, or create any indebtedness against the state in excess of the respective appropriations made by this act, except by the consent of the Department of Finance and the certificate in this section provided to be first obtained, shall be liable both personally and on his or her official bond for the amount of such indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm or corporation to whom such indebtedness is owing.

The Department of Finance shall submit copies of certificates approved by it under this section to the Chairperson of the Joint Legislative Budget Committee, and the chairperson of the committee in each house which considers appropriations, quarterly, and shall indicate in the case of each certificate the code section or section of this act under which the department gave its consent to exceed the particular appropriation.

SEC. 33.00. If any item of appropriation in this act is vetoed, eliminated, or reduced by the Governor under Section 10 of Article IV of the Constitution, while approving portions of this act, such veto, elimination, or reduction shall not affect the other portions of this act, and these other portions of this act, so approved, shall have the same effect in law as if any vetoed or eliminated items of appropriation had not been present in this act, and as if any reduced item of appropriation had not been reduced.

SEC. 34.00. If any portion of this act is held unconstitutional, such decision shall not affect the validity of any other portion of this act. The Legislature hereby declares that it would have passed this act, and each portion thereof, irrespective of the fact that any other portion be declared unconstitutional.

SEC. 35.00. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under the provisions of Section 8 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 36.00. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This act makes appropriations and contains related provisions for support of state and local government for the 1989–90 fiscal year and provides for capital outlay appropriations, in continuation of existing programs and to promote and sustain the economy of the state. It is imperative that these appropriations be available for expenditure commencing not later than July 1, 1989. It is therefore necessary that the act go into immediate effect.

The people of the State of California do enact as follows:

SECTION 1. Section 17913 of the Business and Professions Code is amended to read:

NOTICE—THIS FICTITIOUS NAME STATEMENT EXPIRES FIVE YEARS FROM THE DATE IT WAS FILED IN THE OFFICE OF THE COUNTY CLERK. A NEW FICTITIOUS BUSINESS NAME STATEMENT MUST BE FILED BEFORE THAT TIME. THE FILING OF THIS STATEMENT DOES NOT OF ITSELF AUTHORIZE THE USE IN THIS STATE OF A FICTITIOUS BUSINESS NAME IN VIOLATION OF THE RIGHTS OF ANOTHER UNDER FEDERAL, STATE, OR COMMON LAW (SEE SECTION 14400 ET SEQ., BUSINESS AND PROFESSIONS CODE).

(b) The statement shall contain the following information set forth in the manner indicated in the form provided by subdivision (a):

(5) Where the five asterisks (*****) appear in the form, insert the date on which the registrant first commenced to transact business under the fictitious business name or names listed, if already transacting business under that name or names. If the registrant has not yet commenced to transact business under the fictitious business name or names listed, insert the statement, "Not applicable."

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to conform the fictitious business name statement form as soon as possible to the requirements of Chapter 501 of the Statutes of 1988, which became effective January 1, 1989, it is necessary that this act take effect immediately.

CHAPTER 95

An act to amend Section 23790 of the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor July 7, 1989. Filed with Secretary of State July 7, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 23790 of the Business and Professions Code is amended to read:

23790. No retail license shall be issued for any premises which are located in any territory where the exercise of the rights and privileges conferred by the license is contrary to a valid zoning ordinance of any county or city. Premises which had been used in the exercise of those rights and privileges at a time prior to the effective date of the zoning ordinance may continue operation under the following conditions:

(a) The premises retain the same type of retail liquor license within a license classification.

(b) The licensed premises are operated continuously without substantial change in mode or character of operation.

For purposes of this subdivision, a break in continuous operation does not include:

(1) A closure for not more than 30 days for purposes of repair, if that repair does not change the nature of the licensed premises and does not increase the square footage of the business used for the sale of alcoholic beverages.

(2) The closure for restoration of premises rendered totally or partially inaccessible by an act of God or a toxic accident, if the restoration does not increase the square footage of the business used for the sale of alcoholic beverages.

CHAPTER 96

An act to amend Section 2937 of the Civil Code, relating to mortgages and deeds of trust, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 7, 1989 Filed with Secretary of State July 7, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 2937 of the Civil Code is amended to read:

2937. (a) The Legislature hereby finds and declares that borrowers or subsequent obligors have the right to know when a

person holding a promissory note, bond, or other instrument transfers servicing of the indebtedness secured by a mortgage or deed of trust on real property containing one to four residential units located in this state. The Legislature also finds that notification to the borrower or subsequent obligor of the transfer may protect the borrower or subsequent obligor from fraudulent business practices and may ensure timely payments.

It is the intent of the Legislature in enacting this section to mandate that a borrower or subsequent obligor be given written notice when a person transfers the servicing of the indebtedness on notes, bonds, or other instruments secured by a mortgage or deed of trust on real property containing one to four residential units and located in this state.

(b) Any person transferring the servicing of indebtedness as provided in subdivision (a) to a different servicing agent and any person assuming from another responsibility for servicing the instrument evidencing indebtedness, shall give written notice to the borrower or subsequent obligor before the borrower or subsequent obligor becomes obligated to make payments to a new servicing agent.

(c) In the event a notice of default has been recorded or a judicial foreclosure proceeding has been commenced, the person transferring the servicing of the indebtedness and the person assuming from another the duty of servicing the indebtedness shall give written notice to the trustee or attorney named in the notice of default or judicial foreclosure of the transfer. A notice of default, notice of sale, or judicial foreclosure shall not be invalidated solely because the servicing agent is changed during the foreclosure process.

(d) The notices required by subdivision (b) shall be sent by first-class mail, postage prepaid, to the borrower's or subsequent obligor's address designated for loan payment billings, or if escrow is pending, as provided in the escrow, and shall contain each of the following:

(1) The name and address of the person to which the transfer of the servicing of the indebtedness is made.

(2) The date the transfer was or will be completed.

(3) The address where all payments pursuant to the transfer are to be made.

(e) Any person assuming from another responsibility for servicing the instrument evidencing indebtedness shall include in the notice required by subdivision (b) a statement of the due date of the next payment.

(f) The borrower or subsequent obligor shall not be liable to the holder of the note, bond, or other instrument or to any servicing agent for payments made to the previous servicing agent or for late charges if these payments were made prior to the borrower or subsequent obligor receiving written notice of the transfer as provided by subdivision (d) and the payments were otherwise on time.

(g) For purposes of this section, the term servicing agent shall not include a trustee exercising a power of sale pursuant to a deed of trust.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Thousands of loans secured by residential real property are being made on a daily basis throughout this state which are subject to Section 2937 of the Civil Code, as enacted by Chapter 1190 of the Statutes of 1988. Borrowers, lenders, and servicing agents are uncertain as to specific notice requirements and definitions of key terminology contained in Section 2937 of the Civil Code. In order to prevent unnecessary confusion and potential loss of rights as to the servicing of these loans by both borrowers and lenders, it is necessary that this act take effect immediately.

CHAPTER 97

An act to add Chapter 1.5 (commencing with Section 900) to Division 2 of the Business and Professions Code, relating to healing arts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 7, 1989. Filed with Secretary of State July 7, 1989.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that a major earthquake or other major disaster could overwhelm the response capabilities of California health care practitioners to provide services needed by the population.

Although existing statutory provisions appear to provide an answer to the problem, there is a need to ensure clarity when an emergency is duly proclaimed.

Enactment of this legislation will give the Emergency Medical Services Authority the ability to assure that any request for outside assistance from health care practitioners is necessary, well organized, and properly assigned and deployed according to need.

SEC. 2. Chapter 1.5 (commencing with Section 900) is added to Division 2 of the Business and Professions Code, to read:

CHAPTER 1.5. EXEMPTION FROM LICENSURE

900. (a) Nothing in this division applies to a health care practitioner licensed in another state or territory of the United States who offers or provides health care for which he or she is licensed, if

the health care is provided only during a state of emergency as defined in subdivision (b) of Section 8558 of the Government Code, which emergency overwhelms the response capabilities of California health care practitioners and only upon the request of the Director of the Emergency Medical Services Authority.

(b) The director shall be the medical control and shall designate the licensure and specialty health care practitioners required for the specific emergency and shall designate the areas to which they may be deployed.

(c) Health care practitioners shall provide, upon request, a valid copy of a professional license and a photograph identification issued by the state in which the practitioner holds licensure before being deployed by the director.

(d) Health care practitioners deployed pursuant to this chapter shall provide the appropriate California licensing authority with verification of licensure upon request.

(e) Health care practitioners providing health care pursuant to this chapter shall have immunity from liability for services rendered as specified in Section 8659 of the Government Code.

(f) For the purposes of this chapter, "health care practitioner" means any person who engages in acts which are the subject of licensure or regulation under this division or under any initiative act referred to in this division.

(g) For purposes of this chapter, "director" means the Director of the Emergency Medical Services Authority who shall have the powers specified in Division 2.5 (commencing with Section 1797) of the Health and Safety Code.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

There is no clear exemption from the licensure provisions of Division 2 of the Business and Professions Code for licensed, out-of-state health care practitioners to offer and provide health care or health-related services during a declared state of emergency or disaster in this state. Since it may be necessary at any time to request the services of health care practitioners who are licensed in sister states or in territories of the United States to assist as part of a response to a major emergency or disaster occurring in this state, their exemption from this state's licensure requirements in these circumstances should be immediately clarified.

CHAPTER 98

An act to amend Sections 22005 and 24005 of the Financial Code, relating to loans.

[Approved by Governor July 7, 1989 Filed with Secretary of State July 7, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 22005 of the Financial Code is amended to read:

22005. "Charges" do not include any of the following:

(a) Commissions received as a licensed insurance agent or broker in connection with insurance written as provided in Section 22458.

(b) Amounts not in excess of the amounts specified in subdivision (c) of Section 3068 of the Civil Code paid to holders of possessory liens, imposed pursuant to Chapter 6.5 (commencing with Section 3067) of Title 14 of Part 4 of Division 3 of the Civil Code, to release motor vehicles which secure loans subject to this division.

(c) Court costs, excluding attorney's fees, incurred in a suit and recovered against a debtor who defaults on his or her loan.

(d) Fees paid to a licensee for the privilege of participating in an open-end credit program, which fees are to cover administrative costs and are imposed upon executing the open-end loan agreement and on annual renewal dates or anniversary dates thereafter.

(e) Amounts received by a licensee from a seller, from whom the borrower obtains money, goods, labor, or services on credit, in connection with a transaction under an open-end credit program which are paid or deducted from the loan proceeds paid to the seller at the direction of the borrower and which are an obligation of the seller to the licensee for the privilege of allowing the seller to participate in the licensee's open-end credit program. Amounts received by a licensee from a seller pursuant to this subdivision may not exceed 6 percent of the loan proceeds paid to the seller at the direction of the borrower.

(f) Actual fees not exceeding two hundred fifty dollars ($250) paid in connection with the repossession of a motor vehicle to repossession agencies licensed pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code provided the licensee complies with Sections 22465 and 22465.5.

(g) Moneys paid to, and commissions and benefits received by, a licensee for the sale of goods, services, or insurance, whether or not the sale is in connection with a loan, that the buyer by a separately signed authorization acknowledges is optional, if sale of the goods, services, or insurance has been authorized pursuant to Section 22404.

SEC. 2. Section 24005 of the Financial Code is amended to read:

24005. "Charges" do not include any of the following:

(a) Commissions received as a licensed insurance agent or broker

in connection with insurance written as provided in Section 24458.

(b) Amounts not in excess of the amounts specified in subdivision (c) of Section 3068 of the Civil Code paid to holders of possessory liens, imposed pursuant to Chapter 6.5 (commencing with Section 3067) of Title 14 of Part 4 of Division 3 of the Civil Code, to release motor vehicles which secure loans subject to this division.

(c) Court costs, excluding attorney's fees, incurred in a suit and recovered against a debtor who defaults on his or her loan.

(d) Fees paid to a licensee for the privilege of participating in an open-end credit program, which fees are to cover administrative costs and are imposed upon executing the open-end loan agreement and on annual renewal dates or anniversary dates thereafter.

(e) Amounts received by a licensee from a seller, from whom the borrower obtains money, goods, labor, or services on credit, in connection with a transaction under an open-end credit program which are paid or deducted from the loan proceeds paid to the seller at the direction of the borrower and which are an obligation of the seller to the licensee for the privilege of allowing the seller to participate in the licensee's open-end credit program. Amounts received by a licensee from a seller pursuant to this subdivision may not exceed 6 percent of the loan proceeds paid to the seller at the direction of the borrower.

(f) Actual fees not exceeding two hundred fifty dollars ($250) paid in connection with the repossession of a motor vehicle to repossession agencies licensed pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code provided the licensee complies with Sections 24465 and 24465.5.

(g) Moneys paid to, and commissions and benefits received by, a licensee for the sale of goods, services, or insurance, whether or not the sale is in connection with a loan, that the buyer by a separately signed authorization acknowledges is optional, if sale of the goods, services, or insurance has been authorized pursuant to Section 24404.

CHAPTER 99

An act to amend Section 4420 of the Government Code, relating to public contracts.

[Approved by Governor July 7, 1989 Filed with Secretary of State July 7, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 4420 of the Government Code is amended to read:

4420. No officer or employee of this state, or of any public agency or of any public authority, and no person acting or purporting to act on behalf of any officer, employee, or public agency or authority,

except a public agency or authority created pursuant to agreement or compact with another state, shall, with respect to any public building or construction contract which is about to be or which has been competitively bid, require the bidder to make application to, or furnish financial data to, or to obtain or procure any surety bond or contract of insurance specified in connection with the contract, or specified by any law, ordinance, or regulation, from, a particular surety or insurance company, agent or broker. No officer or employee, or person, firm, or corporation acting or purporting to act on behalf of any officer or employee, shall negotiate, make application for, obtain, or procure any such surety bond or contract of insurance (except contracts of insurance for builder's risk or owner's protective liability) which can be obtained or procured by the bidder, contractor, or subcontractor.

This chapter shall not apply to any project under design or construction on August 4, 1967, by or on behalf of a public agency or authority if the agency or authority was then engaged in insurance activity with respect to the project that otherwise would be prohibited by this chapter.

This chapter shall not apply to the construction of any exclusive public mass transit guideway project in any county with a population exceeding 6,000,000, or in the County of Santa Clara, or in the City and County of San Francisco, or any exclusive public mass transit guideway project undertaken by the San Francisco Bay Area Rapid Transit (BART) District.

As used in this section, "public agency" means any city, county, city and county, district, municipal or public corporation, or any agency or instrumentality thereof.

SEC. 2. The Legislature finds that due to the unique circumstances concerning the construction of exclusive public mass transit guideway projects undertaken by the San Francisco Bay Area Rapid Transit (BART) District and the City and County of San Francisco, a general statute cannot be made applicable.

CHAPTER 100

An act to amend Section 2874 of the Public Utilities Code, relating to telephones.

[Approved by Governor July 7, 1989 Filed with Secretary of State July 7, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 2874 of the Public Utilities Code is amended to read:

2874. (a) Whenever telephone calls are placed through the use of an automatic dialing-announcing device, the device may be

operated only after an unrecorded, natural voice announcement has been made to the person called by the person calling. The announcement shall do all of the following:

(1) State the nature of the call and the name, address, and telephone number of the business or organization being represented, if any.

(2) Inquire as to whether the person called consents to hear the prerecorded message of the person calling.

(b) The calling person described in subdivision (a) shall disconnect the automatic dialing-announcing device from the telephone line upon the termination of the call by either the person calling or the person called.

CHAPTER 101

An act to amend Section 25901 of the Public Resources Code, relating to energy conservation and development.

[Approved by Governor July 7, 1989 Filed with Secretary of State July 7, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 25901 of the Public Resources Code is amended to read:

25901. (a) Within 30 days after the commission issues its determination on any matter specified in this division, except as provided in Section 25531, any aggrieved person may file with the superior court a petition for a writ of mandate for review thereof. Failure to file such an action does not preclude a person from challenging the reasonableness and validity of a decision in any judicial proceedings brought to enforce the decision or to obtain other civil remedies.

(b) The decision of the commission shall be sustained by the court unless the court finds (1) that the commission proceeded without, or in excess of its jurisdiction, (2) that, based exclusively upon a review of the record before the commission, the decision is not supported by substantial evidence in light of the whole record, or (3) that the commission failed to proceed in the manner required by law.

(c) Except as otherwise provided in this section, subdivisions (f) and (g) of Section 1094.5 of the Code of Civil Procedure govern proceedings pursuant to this section.

(d) The amendment of this section made at the 1989–90 Regular Session of the Legislature does not constitute a change in, but is declaratory of, existing law.

CHAPTER 102

An act to add Section 1266 to the Military and Veterans Code, relating to veterans.

[Approved by Governor July 7, 1989 Filed with Secretary of State July 7, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 1266 is added to the Military and Veterans Code, to read:

1266. Whenever a county has provided, maintained, or provided and maintained any building, memorial hall, meeting place, memorial park, or recreation center for the use or benefit of one or more veterans' associations, pursuant to Section 1262, the provision of that facility and its acceptance by the veterans' association constitutes a dedication of that property to a public purpose, and the county may not revoke the dedication, so long as the veterans' association has not violated the terms and conditions of the dedication, unless it dedicates substitute facilities or unless the veterans' organization has either consented to the proposed county action or has abandoned its use of the facilities.

SEC. 2. It is the intent of the Legislature, in enacting Section 1266 of the Military and Veterans Code, to codify the holding of the court in the case of Gridley Camp No. 104 v. Board of Supervisors, 98 Cal. App. 585.

CHAPTER 103

An act to amend Sections 18573, 18720.1, 19050.4, 19142, 19582, 19603, 19632, 19702, 19994, and 19997 of, to amend and renumber Sections 19060 and 19100 of, to add Sections 18525.1, 18525.2, and 18525.3 to, to add Chapter 5.6 (commencing with Section 19994.30) to Part 2.6 of Division 5 of Title 2 of, and to repeal Sections 19050.6, 19176, and 19262 of, the Government Code, relating to state employees.

[Approved by Governor July 7, 1989 Filed with Secretary of State July 7, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 18525.1 is added to the Government Code, to read:

18525.1. "Promotion" means the appointment of an employee to a position in a different class with a higher salary range, unless the appointment is by transfer, as defined by subdivision (b) of Section 18525.3.

SEC. 2. Section 18525.2 is added to the Government Code, to read:

18525.2. "Demotion" means the appointment of an employee to a position in a different class with a lower salary range, as provided by Section 19253 if voluntary, by Section 19253.5 if for medical reasons, or by Section 19570 if by adverse action.

Except for the information submitted at the discretion of the transportation planning agencies and county transportation commissions, the transportation improvement program submitted by the transportation planning agencies and county transportation commissions may not exceed, for local assistance projects, by more than 25 percent, the estimate of funds for those projects made by the

commission pursuant to Section 14525.

(b) The transportation planning agencies and county transportation commissions in urbanized areas of over 50,000 population may submit to the commission and the department their recommendations for inclusion in the list of projects pursuant to Section 14530.5. (1) The state transportation improvement program is a schedule for project delivery and shall specify the year of delivery. Each project to be included in the program shall include the escalated current cost of the project updated to at least November 1 of the preceding year. While it is recognized that the initial escalated

current cost cannot be based on a full study of all aspects of the project, nevertheless, any project previously included in a program, where the state and federal share of the latest escalated current cost exceeds 120 percent of the state and federal share of the project's base cost, shall not be included in the next adopted program unless the commission determines that the project is the most cost-effective of all the projects in the county that are not included in the program. (3) Flexible congestion relief, traffic system management projects, interregional roads, and public mass transit guideways.

(4) Environmental enhancement and mitigation program.

(5) Compatibility improvements, including landscaping and noise attenuation barriers.

(b) For the state transportation improvement program, the department shall recommend, and the commission shall include, to the extent feasible, projects in all categories specified in subdivision (a).

SEC. 15. Section 14530 of the Government Code is amended to read:

(7) A request to perform the project development work, and the supporting documents therefor, are submitted to the commission.

(8) The commission verifies that the conditions specified in paragraphs (1) to (7), inclusive, are complied with.

operation and protection plan, except as follows:

(a) The allocation is necessary for a response to an emergency condition which has placed either people or property in jeopardy or which has caused or threatens to cause closure of a critical state transportation facility or access to it.

(b) Costs will be significantly increased if the project is delayed pending amendment to the program.

(c) When bids are opened, it is necessary to obtain an additional allocation which will make the project a major project and the delay in amending the program will increase the cost of the project significantly.

(d) The allocation is to supplement funding for an advertised project.

SEC. 44. Section 164 is added to the Streets and Highways Code, to read:

164. (a) The Legislature, through the enactment of this section, intends to establish a 10-year state transportation funding plan. This plan is to be based on the best available estimate of state and federal funds and a statement of legislative priorities for the next 10 years. It is recognized that, in a changing environment such as California, periodic reviews and revisions will be necessary.

This plan is being established so that the Legislature and the administration can plan for an orderly and predictable revenue stream and that local and regional governments, as well as the private sector, can better plan for their transportation needs.

(b) The estimated new revenues to be available for expenditure

for state highways, local programs, and public mass transit purposes during the 10-year period from July 1, 1990, to June 30, 2000, inclusive, is $18.5 billion.

(c) The estimate of annual expenditures by the department for administration, maintenance, and operations is to be at the level sufficient to maintain the current level of services, having first restored all budget reductions required to balance the 1989–90 fiscal year budget. The estimate may be adjusted to reflect increases to maintenance inventories caused by newly completed state highway projects, inflationary changes, tort liabilities, court mandated changes, new legislative mandates, and other adjustments necessary to maintain the current overall level of services.

(d) New revenues, as a result of the enactment of transportation revenue measures in 1989, including general obligation bonds authorized by the Legislature and approved by the voters, shall be expended as follows:

(1) Three billion five hundred million dollars ($3,500,000,000) for funding the 1988 State Transportation Improvement Program shortfall.

(2) Three billion dollars ($3,000,000,000) for intercity rail, commuter rail, and urban rail transit.

(3) One billion two hundred fifty million dollars ($1,250,000,000) for interregional roads.

(4) One billion dollars ($1,000,000,000) for traffic system management.

(5) Three billion dollars ($3,000,000,000) for flexible congestion relief.

(6) Three billion dollars ($3,000,000,000) for subvention to counties and cities pursuant to Section 2105.

(7) Two billion dollars ($2,000,000,000) for state-local transportation partnership.

(8) One hundred fifty million dollars ($150,000,000) for retrofit soundwalls. It is the intent of the Legislature that this amount, together with the soundwall projects funded in the 1988 State Transportation Improvement Program, will complete all retrofit soundwalls on the priority list established on May 3, 1989, pursuant to Section 215.5.

(9) One hundred million dollars ($100,000,000) for environmental enhancement and mitigation program.

(10) Five hundred million dollars ($500,000,000) for transit operations and capital improvements.

(11) One billion dollars ($1,000,000,000) for maintenance and rehabilitation of state highways, although the Legislature recognizes that the total rehabilitation cost is three billion eight hundred million dollars ($3,800,000,000).

(e) The amounts included in the funding plan specified in subdivision (d) are inclusive of all cost, including, but not limited to, environmental studies, engineering, plans, estimates, and right-of-way costs.

SEC. 45. Section 164.2 is added to the Streets and Highways Code, to read:

164.2. (a) Flexible congestion relief projects are those projects designed to reduce or avoid congestion on existing routes by increasing the capacity of the transportation system, including new facilities.

(b) The department, in cooperation with local transportation officials, shall develop guidelines to implement the Flexible Congestion Relief Program. The guidelines shall identify the types of projects qualifying for funding under the program, which shall be based on the effectiveness of relieving traffic congestion. The guidelines shall determine the criteria to be used in setting the priorities for funding the projects. The criteria shall be based on the most cost-effective system which integrates the movement of people and goods on any route and is coordinated with connector routes and traffic generation sources.

(c) The department shall submit the guidelines to the commission by July 1, 1990. The commission shall adopt the guidelines by September 1, 1990.

(d) Projects qualifying under the program shall be separately identified in any transportation improvement program proposed or adopted by any agency proposing or adopting a transportation improvement program, the department, or the commission.

(e) When selecting among competing projects that serve the same transportation demand, the commission shall base its selection on cost effectiveness.

(f) Funds appropriated for the program shall be allocated by the commission to projects on city streets, county highways, state highways, and commuter rail and urban rail corridors which qualify under the adopted guidelines and are included in the state transportation improvement program. The commission shall give priority to funding projects in counties and cities that have an adopted congestion management program and are fully cooperating in the implementation of traffic systems management projects.

SEC. 46. Section 164.3 is added to the Streets and Highways Code, to read:

164.3. (a) The department shall develop an interregional road system plan to be submitted to the Legislature not later than February 1, 1990.

(b) The plan shall identify projects on which construction can be started not later than June 30, 2000, which will provide the most adequate interregional road system to all economic centers in the state. The projects shall be on eligible routes identified pursuant to subdivision (e). The projects shall be on routes located outside the boundaries of urbanized areas of over 50,000 population as designated by the most recent census of the Bureau of the Census, except as necessary to provide connections for continuation of the routes within those urban areas.

(c) From the projects contained in the plan, the department shall

To the extent that county minimums specified in Section 188.8 for the five-year period beginning on July 1, 1988, have not been adhered to in the State Transportation Improvement Program adopted by the commission on October 6, 1988, any individual county shortfall for that period shall be carried forward and be added to the following five-year period beginning on July 1, 1993.

(b) Upon adoption of the state transportation improvement program that encompasses all five years of the 1993–1994 to 1997–1998, inclusive, county minimum, the commission shall not allocate funds for any project unless the adopted state transportation improvement program is programmed to comply with the requirements of Sections 188 and 188.8.

(c) It is the intent of the Legislature that the funding plan in Section 164 be the overall state goal. The amount in each subprogram element may vary in each county.

(d) Following enactment of the 1991 Federal Surface Transportation Assistance Act, the commission, in consultation with the department and transportation planning agencies and county transportation commissions, shall analyze the impact of that federal act upon the commission's ability to comply with Sections 188 and 188.8 and submit to the Legislature, as soon as is practical, that analysis with any recommended statutory changes necessary to reconcile constraints on federal revenue with constraints on state revenue.

SEC. 62. Section 188.8 of the Streets and Highways Code is amended to read:

188.8. From the money expended pursuant to Section 188, the commission shall allocate and the department shall expend, or cause to be expended, in each county of County Group No. 1 and in each county of County Group No. 2 during the period commencing July 1, 1983, and ending June 30, 1988, and for each period of five years thereafter, not less than an amount computed as follows:

(a) The commission shall compute, for each period of five years an amount equal to 70 percent of the money to be expended in County Groups Nos. 1 and 2, respectively, as provided in Section 188.

(b) From the amount computed for County Group No. 1 in

subdivision (a) for each five-year period, the commission shall determine the minimum expenditure for each county in the group based on a formula which is based 75 percent on the population of the county to the total population of County Group No. 1 and 25 percent on state highway miles in the county to the total state highway miles in County Group No. 1.

(c) From the amount computed for County Group No. 2 in subdivision (a) for each five-year period, the commission shall determine the minimum expenditure for each county in the group based on a formula which is based 75 percent on the population of the county to the total population of County Group No. 2 and 25 percent on state highway miles in the county to the total state highway miles in County Group No. 2.

(d) A county board of supervisors may adopt a resolution to pool its county minimum expenditure with adjacent counties adopting similar resolutions. The resolution shall provide for pooling the county minimum expenditures for expenditure in any of the pooling counties for a five-year period and shall be submitted to the commission not later than May 1 immediately preceding the commencement of the five-year period.

(e) Except as provided in this subdivision, the entire obligation under a contract awarded or a day labor project commenced during any of the periods shall be deemed an expenditure within the period in which the contract was awarded or day labor project commenced. Obligations under contracts which have been awarded or day labor projects which have been commenced, but which are to be budgeted over more than one fiscal year pursuant to Section 170, shall be deemed expenditures in each of the fiscal years in which the work is to be performed in an amount equal to the final amount budgeted for each of the fiscal years for the work.

(f) For the purpose of this section, the population in each county is that determined by the last preceding federal census, or a subsequent census validated by the Population Research Unit of the Department of Finance, at the beginning of each five-year period.

(g) For the purpose of this section, "state highway miles," means the miles of state highways open to vehicular traffic at the beginning of each five-year period.

(h) It is the intent of the Legislature that there is to be flexibility in programming under this section and Section 188 so that, while ensuring that each county will receive an equitable share of state dollars, the types of projects selected and the programs from which they are funded may vary from county to county.

SEC. 63. Section 2105 is added to the Streets and Highways Code, to read:

2105. In addition to the apportionments prescribed by Sections 2104, 2106, and 2107, from the revenues derived from a per gallon tax imposed pursuant to Section 7351 of the Revenue and Taxation Code, and a per gallon tax imposed pursuant to Section 8651 of that code, the following apportionments shall be made:

(2) One million dollars ($1,000,000) for apportionment to all counties, including a city and county, as follows:

(A) Seventy-five percent in the proportion that the number of fee-paid and exempt vehicles which are registered in the county bears to the number of fee-paid and exempt vehicles registered in the state.

(B) Twenty-five percent in the proportion that the number of miles of maintained county roads in the county bears to the miles of maintained county roads in the state.

(3) For each county, determine its factor which is the higher amount calculated pursuant to paragraph (1) or (2) divided by the sum of the higher amounts for all of the counties.

(4) The amount to be apportioned to each county is equal to its factor multiplied by the amount available for apportionment.

(b) A sum equal to the net revenue from a tax of 11.5 percent of any per gallon tax in excess of nine cents ($0.09) per gallon under Section 7351 of the Revenue and Taxation Code, and 11.5 percent of any per gallon tax in excess of nine cents ($0.09) per gallon under Secton 8651 of that code, shall be apportioned to cities, including a city and county, in the proportion that the total population of the city bears to the total population of all the cities in the state.

(c) In order to receive any allocation pursuant to this section, the city or county, as the case may be, shall annually expend from its general fund for street and highway purposes an amount not less than the annual average of its expenditures from its general fund during the 1987–88, 1988–89, and 1989–90 fiscal years, as reported to the Controller pursuant to Section 2151

(b) The state-local transportation partnership program is hereby created to carry out the intent of subdivision (a). The Legislature intends to appropriate a total of three hundred million dollars ($300,000,000) for the 1990–91 fiscal year and two hundred million dollars ($200,000,000) each fiscal year thereafter to implement this program.

(2) The applicant has committed, or is capable of committing, to pay the local share from its local fund to complete the project.

(3) The project is not receiving any other state funds.

(4) The applicant has completed, or is capable of completing, all project development work so that the contracts for the project can be awarded within two years of the date that the project was submitted to the department pursuant to subdivision (a) of Section 2602.

(c) (1) If the total state share for eligible projects exceeds the amount specified in subdivision (b) of Section 2600, the department shall compute the pro rata share of state funds to be available so that each eligible project would receive the same ratio of state share to local share.

(2) Not later than April 1 of the following year, each affected applicant shall inform the department whether or not it can proceed with the project with the lower state share. The department shall compile a new list of eligible projects consisting of those projects that were included in the original list and that the applicant has indicated it can proceed with the lower state share.

(3) Using the new list and the pro rata shares established pursuant to subdivision (b), the department shall compute the matching funds necessary and shall so inform the Legislature not later than May 1.

(d) The Legislature intends to appropriate a maximum of three hundred million dollars ($300,000,000) by June 30, 1990, and two hundred million dollars ($200,000,000) by June 30 of each year thereafter for this program.

SEC. 5. Section 65080 of the Government Code is amended to read:

65080. (a) Except as provided in subdivisions (c) and (d), each transportation planning agency designated under subdivision (a) or (b) of Section 29532 shall prepare a regional transportation plan and a regional transportation improvement program directed at the achievement of a coordinated and balanced regional transportation system, including, but not limited to, mass transportation, highway, railroad, maritime, and aviation facilities and services. The plan shall be action-oriented and pragmatic, considering both the short- and long-term future, and shall present clear, concise policy guidance to local and state officials. The program shall support and be consistent with the plan. Each transportation planning agency shall consider and incorporate, as appropriate, the transportation plans of cities, counties, districts, private organizations, and state and federal agencies.

(b) Each transportation planning agency shall adopt a regional transportation plan and, if it prepares a regional transportation improvement program, shall adopt a program. Prior to adoption, a public hearing shall be held, after the giving of notice of the hearing by publication in the affected county or counties pursuant to Section 6061. Prior to the adoption of the program, the governing body or the designated policy committee of the transportation planning agency shall consider the relationship between the program and the adopted plan. Each transportation planning agency shall adopt and submit, not later than April 1, 1990, and December 1 of each odd-numbered year thereafter, an updated regional transportation improvement program as specified in Section 65082, and biennially, not later than August 1, an updated regional transportation plan to the California Transportation Commission and the Department of Transportation.

(c) A transportation planning agency designated under subdivision (b) of Section 29532 may have the regional transportation plan for the area under its jurisdiction prepared by the Department of Transportation by adopting a resolution to that effect prior to July 1, 1978. In that case, Section 65080.5 applies to the agency.

(d) The regional transportation improvement program shall be prepared and adopted only by the transportation planning agencies and by county transportation commissions representing urbanized areas of 50,000 or more in population. The department shall prepare the programs, on a state transportation district basis, for all other areas of the state.

SEC. 6. Section 65081 of the Government Code is repealed.

SEC. 6.5. Section 65081 is added to the Government Code, to read:

65081. The regional transportation plan shall include:

(a) A policy element that considers important transportation issues and describes the desired short- and long-range transportation goals, and pragmatic objective and policy statements. The objective and policy statements shall consider probable funding constraints.

(b) An action element that describes the programs and actions necessary to implement the plan and assigns implementation responsibilities. The action element shall also include a program for developing intracity and intercity bicycle programs.

The action element shall include all congestion management programs adopted by the commission pursuant to Chapter 2.6 (commencing with Section 65088).

(c) A financial element that summarizes the cost of plan implementation, compares these costs to a realistic projection of available revenues, and includes estimates of expected surplus and deficits. It shall contain recommendations for the allocation of funds and for the development of new sources of revenues if needed.

SEC. 7. Section 65082 of the Government Code is repealed.

SEC. 8. Section 65082 is added to the Government Code, to read:

65082. (a) A seven-year regional transportation improvement program shall be prepared, adopted, and submitted to the California Transportation Commission on or before April 1, 1990, and December 1 of each odd-numbered year thereafter, updated every two years, pursuant to Sections 65080 and 65080.5 and the guidelines adopted pursuant to Section 14530.1, to include projects and programs proposed to be funded, in whole or in part, by funds which are any of the following:

(1) For flexible congestion relief projects, as defined in Section 164.2 of the Streets and Highways Code.

(2) For urban rail transit and commuter rail projects.

Major projects shall include an escalated current cost updated to at least November 1 of the year of submittal, and be listed by relative priority, taking into account need, delivery milestone dates, as defined in Section 14525.5, and the availability of funding.

(b) For purposes of the regional transportation improvement program submitted to the commission on December 1, 1991, and every two years thereafter, congestion management programs adopted pursuant to Section 65089 shall be incorporated into the regional transportation improvement program. Local projects not included in a congestion management program shall not be included in the regional transportation improvement program. Projects and programs adopted pursuant to subdivision (a) shall be consistent with the seven-year capital improvement program adopted pursuant to paragraph (5) of subdivision (b) of Section 65089, and the guidelines adopted pursuant to Section 14530.1.

(c) Other projects may be included in the regional transportation

improvement program if listed separately.

(d) Unless a county not containing urbanized areas of over 50,000 population notifies the Department of Transportation by July 1 that it intends to prepare a regional transportation improvement program for that county, the department shall, in consultation with the affected local agencies, prepare the program for all counties for which it prepares a regional transportation plan.

(e) The regional transportation improvement program may not change the project delivery milestone date of any state project as shown in the prior adopted state transportation program without the consent of the department or other agency responsible for the project delivery.

SEC. 9. Chapter 2.6 (commencing with Section 65088) is added to Division 1 of Title 7 of the Government Code, to read:

CHAPTER 2.6. CONGESTION MANAGEMENT

65088. The Legislature finds and declares all of the following:

(a) Although California's economy is critically dependent upon transportation, its current transportation system relies primarily upon a street and highway system designed to accommodate far fewer vehicles than are currently using the system.

(b) California's transportation system is characterized by fragmented planning, both among jurisdictions involved and among the means of available transport.

(c) The lack of an integrated system and the increase in the number of vehicles are causing traffic congestion that each day results in 400,000 hours lost in traffic, 200 tons of pollutants released into the air we breathe, and three million one hundred thousand dollars ($3,100,000) added costs to the motoring public.

(d) To keep California moving, all methods and means of transport between major destinations must be coordinated to connect our vital economic and population centers.

(e) In order to develop the California economy to its full potential, it is intended that federal, state, and local agencies join with transit districts, business, private and environmental interests to develop and implement comprehensive strategies needed to develop appropriate responses to transportation needs.

65088.1. As used in this chapter the following terms have the following meanings:

(a) Unless the context requires otherwise, "regional agency" means the agency responsible for preparation of the regional transportation improvement program.

(b) Unless the context requires otherwise, "agency" means the agency responsible for the preparation and adoption of the congestion management program.

(c) "City" includes a city and county.

(d) "Commission" means the California Transportation Commission.

(e) "Department" means the Department of Transportation.

(f) "Urbanized area" has the same meaning as is defined in the 1990 federal census for urbanized areas of more than 50,000 population.

65089. (a) A congestion management program shall be developed, adopted, and annually updated for every county that includes an urbanized area, and shall include every city and the county. The program shall be developed, in consultation with regional transportation providers and in consultation with and with the cooperation of the transportation planning agency, local governments, the department, and the air pollution control district or the air quality management district, either by the county transportation commission, or by another public agency, as designated by resolutions adopted by the county board of supervisors and the city councils of a majority of the cities representing a majority of the population in the incorporated area of the county.

(b) The program shall contain all of the following elements:

(1) Traffic level of service standards established for specific intensities of land uses including rural, semirural, suburban, urban, and central business district. Level of service (LOS) shall be measured by Circular 212, or the method described in the most commonly used version of the Highway Capacity Manual. In no case shall the standards established be below the level of service E or the current level, whichever is lower.

(2) Standards established for the frequency and routing of public transit, and for the coordination of transit service provided by separate operators.

(3) A trip reduction and travel demand element that promotes alternative transportation methods, such as carpools, vanpools, transit, bicycles, and park-and-ride lots; improvements in the balance between jobs and housing; and other strategies, including flexible work hours and parking management programs.

(4) A program to analyze the impacts of land use decisions made by local jurisdictions on regional transportation systems, including an estimate of the costs associated with mitigating those impacts.

(5) A seven-year capital improvement program to maintain or improve the traffic level of service and transit performance standards developed pursuant to paragraphs (1) and (2), and to mitigate regional transportation impacts identified pursuant to paragraph (4), which conforms to transportation-related vehicle emissions air quality mitigation measures.

(c) The regional agency shall develop a uniform transportation and traffic computer model and data base which shall be used throughout the region to determine the quantitative impacts of traffic generated by new development on regional transportation systems. Where the regional agency has jurisdiction over two or more counties, the computer model and data base shall be approved by the majority of the agencies within the region.

65089.2. (a) Congestion management programs shall be

submitted to the regional agency. The regional agency shall evaluate the consistency between the program and the regional transportation plans required pursuant to Section 65080. In the case of multicounty regional transportation planning agency, that agency shall evaluate the consistency and compatibility of the programs within the region.

(b) The regional agency, upon finding that the program is consistent, shall incorporate the program into the regional transportation improvement program as provided for in Section 65082. If the regional agency finds the program is inconsistent, it may exclude any project in the congestion management program from inclusion in the regional transportation improvement program.

65089.3. The agency shall monitor the implementation of all elements of the congestion management program. Annually, the agency shall determine if the county and cities are conforming to the congestion management program, including, but not limited to, all of the following:

(a) Consistency with levels of service and performance standards.

(b) Adoption and implementation of a trip reduction and travel demand ordinance.

(c) Adoption and implementation of a program to analyze the impacts of land use decisions, including the estimate of the costs associated with mitigating these impacts.

65089.4. (a) If the agency determines that a city or county is not conforming to elements of the congestion management program, a finding to that effect shall be made by the governing body of the agency and submitted to the commission and to the Controller.

(b) If the agency finds that the city or county is not in conformance, the city or county, as the case may be, may appeal the finding to the California Transportation Commission. However, if the city or county is under the jurisdiction of a multicounty regional agency, the appeal may be made only to that agency.

The commission or the multicounty regional agency shall render its decision on the appeal within 90 days after receiving the appeal.

(c) Upon receiving notice from the commission or the multicounty regional agency affirming the finding by the agency of nonconformance, the Controller shall withhold apportionments of funds required to be apportioned to that nonconforming city or county by Section 2105 of the Streets and Highways Code, until the Controller is notified by the agency that the city or county is in conformance.

SEC. 23.5. Notwithstanding any other provision of law, all ballots for the June 5, 1990, direct primary election for Senate Constitutional Amendment No. 1 of the 1989–90 Regular Session shall have printed thereon in a square thereof, the words: "The Traffic Congestion Relief and Spending Limitation Act of 1990" and in the same square under those words, the following in eight-point type: "This measure would enact a statewide traffic congestion relief program and update the spending limit on state and local government to better reflect the needs of a growing California population. It would provide new revenues to be used to reduce traffic congestion by building state highways, local streets and roads, and public mass transit facilities. This measure would enact a 55% increase in truck weight fees and a five cent per gallon increase in the fuel tax on August 1, 1990, and an additional one cent on January 1 of each of the next four years. This measure updates the state appropriations limit to allow for new funding for congestion relief, mass transit, health care, services for the elderly, and other priority state programs, while still providing an overall limit on state and local spending. This measure would continue to provide that public education and community colleges receive at least 40% of the state general fund budget, and would provide that revenues in excess of the state appropriations limit are allocated equally between education and taxpayers."

Opposite the square there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 24. Sections 6, 6.5, 9, 10, 11, 21, 22, and 23 of this act shall not become operative unless Senate Constitutional Amendment 1 is approved by the voters at the June 5, 1990, direct primary election.

If Senate Constitutional Amendment 1 is approved, Sections 6, 6.5, 9, 10, 11, and 21 shall become operative on August 1, 1990; Section 22 shall become operative on June 6, 1990; and Section 23 shall become operative on July 1, 1994.

SEC. 25. Notwithstanding Section 24 of this act, this act shall not become operative unless Senate Bill 300 is enacted and becomes operative.

SEC. 26. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act because additional revenues available under this act will be allocated under Senate Bill 300 to local agencies which will exceed the costs mandated by the state under this act.

SEC. 27. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to revise the process of transportation funding, planning, and implementation so as to efficiently, effectively, and economically address the growing traffic congestion in this state, and to utilize as soon as possible the additional state funds made available if the voters approve Senate Constitutional Amendment 1 of the 1989–90 Regular Session, it is necessary that this act take effect immediately.

CHAPTER 107

An act to add Section 143 to the Streets and Highways Code, relating to transportation facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 10, 1989. Filed with Secretary of State July 10, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares all the following:

(a) It is essential for the economic well-being of the state and the maintenance of a high quality of life that the people of the State of California have an efficient transportation system.

(b) Public sources of revenues to provide an efficient transportation system have not kept pace with California's growing transportation needs, and alternative funding sources should be developed to augment or supplement available public sources of revenue.

(c) One important alternative is privately funded Build-Operate-Transfer (BOT) projects whereby private entities obtain exclusive development agreements to build, with private funds, all or a portion of public transportation projects for the citizens of California.

(d) During the term of the development agreement the private entity will have the right to lease the facility from the state and charge tolls sufficient to retire the private investment in the project (including a reasonable profit), operate and police the facility, maintain the facility, retire any outstanding bonds issued in support of the facility, and to make lease payments to the state.

(e) Privately financed projects allow for joint ventures of private and public entities that do all of the following:

(1) Take advantage of private sector efficiencies in designing and building transportation projects.

(2) Allow for the rapid formation of capital necessary for funding transportation projects.

(3) More quickly bring reductions in congestion in existing transportation corridors

(4) Require continued compliance with environmental requirements and applicable state and federal laws that all publicly financed projects must address.

(5) Offer the traveling public alternate route selections in project areas.

(f) The Department of Transportation should be permitted and encouraged to test the feasibility of building privately funded transportation facilities by developing four demonstration projects.

SEC. 2. Section 143 is added to the Streets and Highways Code, to read:

143. (a) The department may solicit proposals and enter into agreements with private entities, or consortia thereof, for the construction by, and lease to, private entities of four public transportation demonstration projects, at least one of which shall be in northern California and one in southern California.

(b) For the purpose of facilitating those projects, the agreements may include provisions for the lease of rights-of-way in, and airspace over or under, state highways, for the granting of necessary

easements, and for the issuance of permits or other authorizations to enable the private entity to construct transportation facilities supplemental to existing state-owned transportation facilities. Facilities constructed by a private entity pursuant to this section shall, at all times, be owned by the state. The agreement shall provide for the lease of those facilities to the private entity for up to 35 years. In consideration therefor, the agreement shall provide for complete reversion of the privately constructed facility to the state at the expiration of the lease at no charge to the state.

(c) The department may exercise any power possessed by it with respect to the development and construction of state transportation projects to facilitate the development and construction of transportation projects pursuant to this section. Agreements for maintenance and police services entered into pursuant to this section shall provide for full reimbursement for services rendered by the department or other state agencies. The department may provide services for which they are reimbursed with respect to preliminary planning, environmental certification, and preliminary design of the demonstration projects.

(d) Agreements entered into pursuant to this section shall authorize the private entity to impose tolls for use of a facility constructed by it, and shall require that over the term of the lease the toll revenues be applied to payment of the private entity's capital outlay costs for the project, the costs associated with operations, toll collection, and administration of the facility, reimbursement to the state for the costs of maintenance and police services, and a reasonable return on investment to the private entity. The agreement shall require that any excess toll revenue be applied to any indebtedness incurred by the private entity with respect to the project or be paid into the State Highway Account. Subsequent to expiration of the lease of a facility to a private entity, the department may continue to charge tolls for use of the facility.

(e) The plans and specifications for each project constructed pursuant to this section shall comply with the department's standards for state projects. A facility constructed by and leased to a private entity shall, during the term of the lease, be deemed to be a part of the state highway system for purposes of identification, maintenance, enforcement of traffic laws, and for the purposes of Division 3.6 (commencing with Section 810) of Title 1 of the Government Code.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the benefits, which will result from the implementation of this act, to accrue to the state's transportation program as quickly as possible, it is necessary that this act take effect immediately.

CHAPTER 108

An act to add Chapter 17 (commencing with Section 2701), Chapter 18, (commencing with Section 2702), and Chapter 19 (commencing with Section 2703) to Division 3 of the Streets and Highways Code, relating to financing a rail transportation program by providing the funds necessary therefor through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds.

Article 3. Fiscal Provisions

2701.10. Bonds in the total amount of one billion dollars ($1,000,000,000), exclusive of refunding bonds, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

2701.11. (a) Except as provided in subdivision (b), the bonds

authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

(b) Notwithstanding any provision of the State General Obligation Bond Law, each issue of bonds authorized by the committee shall have a final maturity of not more than 20 years.

2701.12. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this chapter, the Passenger Rail Finance Committee is hereby created. For purposes of this chapter, the Passenger Rail Finance Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Treasurer, the Director of Finance, the Controller, the Secretary of the Business, Transportation and Housing Agency, and the Director of Transportation, or their designated representatives. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the department is designated the "board."

2701.13. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 2701.06 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be issued and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized be issued and sold at any one time. The committee shall consider program funding needs, revenue projections, financial market conditions, and other necessary factors in determining the shortest feasible term for the bonds to be issued.

2701.14. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

2701.15. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount equal to that sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

2701.16. (a) Money may be transferred from the fund to the State Transportation Fund to reimburse the Transportation Planning and Development Account and the State Highway Account for

expenditures made from those accounts, on and after June 6, 1990, for capital improvements and acquisitions of rolling stock for intercity rail, commuter rail, and urban rail transit in accordance with Chapter 2 (commencing with Section 14520) of Part 5.3 of Division 3 of Title 2 of the Government Code, as specified in Section 2701.06.

(b) The amount that may be transferred pursuant to subdivision (a) shall not exceed the amount expended from those accounts for those capital improvements and acquisitions of rolling stock.

2701.17. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for purposes of this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of this chapter, less any amount borrowed pursuant to Section 2701.18. The board shall execute such documents as required by the Pooled Money Investment Board to obtain and repay the loan. Any amount loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

2701.18. For the purpose of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of unsold bonds which have been authorized by the committee to be sold for the purpose of carrying out this chapter, less any amount borrowed pursuant to Section 2701.17. Any amount withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from the sale of bonds for the purpose of carrying out this chapter.

2701.19. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

2701.20. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of the State General Obligation Bond Law.

2701.21. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

2701.22. Notwithstanding any provision of the State General Obligation Bond Law with regard to the proceeds from the sale of bonds authorized by this chapter that are subject to investment under Article 4 (commencing with Section 16470) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code, the Treasurer may maintain a separate account for investment earnings, order the payment of those earnings to comply with any rebate requirement

applicable under federal law, and may otherwise direct the use and investment of those proceeds so as to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

2701.23. Notwithstanding Section 2701.10, bonds may not be issued under this chapter if Senate Constitutional Amendment 1 of the 1989–90 Regular Session is not submitted to, and approved by, the voters at the June 5, 1990, direct primary election.

Article 3. Fiscal Provisions

2703.10. Bonds in the total amount of one billion dollars ($1,000,000,000), exclusive of refunding bonds, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

2703.11. (a) Except as provided in subdivision (b), the bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

(b) Notwithstanding any provision of the State General Obligation Bond Law, each issue of bonds authorized by the committee shall have a final maturity of not more than 20 years.

2703.12. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this chapter, the Passenger Rail Finance Committee is hereby created. For purposes of this chapter, the Passenger Rail Finance Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Treasurer, the Director of Finance, the Controller, the Secretary of the Business, Transportation and Housing Agency, and the Director of Transportation, or their designated representatives.

The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the department is designated the "board."

2703.13. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 2703.06 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be issued and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized be issued and sold at any one time. The committee shall consider program funding needs, revenue projections, financial market conditions, and other necessary factors in determining the shortest feasible term for the bonds to be issued.

2703.14. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

2703.15. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount equal to that sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

2703.16. (a) Money may be transferred from the fund to the State Transportation Fund to reimburse the Transportation Planning and Development Account and the State Highway Account for expenditures made from those accounts, on and after November 9, 1994, for capital improvements and acquisitions of rolling stock for intercity rail, commuter rail, and urban rail transit in accordance with Chapter 2 (commencing with Section 14520) of Part 5.3 of Division 3 of Title 2 of the Government Code, as specified in Section 2703.06.

(b) The amount that may be transferred pursuant to subdivision (a) shall not exceed the amount expended from those accounts for those capital improvements and acquisitions of rolling stock.

2703.17. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for purposes of this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of this chapter, less any amount borrowed pursuant to Section 2703.18. The board shall execute such documents as required by the Pooled Money Investment Board to obtain and repay the loan. Any amount loaned shall be deposited in the fund to be allocated by the board in

accordance with this chapter.

2703.18. For the purpose of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of unsold bonds which have been authorized by the committee to be sold for the purpose of carrying out this chapter, less any amount borrowed pursuant to Section 2703.17. Any amount withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from the sale of bonds for the purpose of carrying out this chapter.

2703.19. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

2703.20. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of the State General Obligation Bond Law.

2703.21. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

2703.22. Notwithstanding any provision of the State General Obligation Bond Law with regard to the proceeds from the sale of bonds authorized by this chapter that are subject to investment under Article 4 (commencing with Section 16470) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code, the Treasurer may maintain a separate account for investment earnings, order the payment of those earnings to comply with any rebate requirement applicable under federal law, and may otherwise direct the use and investment of those proceeds so as to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

CHAPTER 109

An act to add and repeal Article 8 (commencing with Section 228) of Chapter 1 of Division 1 of the Streets and Highways Code, relating to highways, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 10, 1989 Filed with Secretary of State July 10, 1989]

The people of the State of California do enact as follows:

SECTION 1. Article 8 (commencing with Section 228) is added to Chapter 1 of Division 1 of the Streets and Highways Code, to read:

Article 8. "Fast Track" Highway Construction Projects

228. The Legislature finds and declares:

(a) The responsibility of the Department of Transportation for the design and construction of all state highway projects has been burdened with statutory and administrative requirements which do not recognize the myriad of improvement projects which have minimal adverse environmental consequences and which do not impinge on the rights of public citizens.

(b) Highway projects, such as, but not limited to, safety, congestion relief, interchanges, rehabilitation, and bridge widening and replacements, are undertaken to extend the useful life of the existing system or are initiated to improve the motorist's traveling experience. Notwithstanding these beneficial purposes and intents, these projects are subject to processing requirements and the full range of environmental counterchecks.

(c) Based on data available in the proposed 1989–90 Budget Bill, total capital outlay support costs of six hundred seven million dollars ($607,000,000) from state and federal sources represents 43 percent of the total one billion four hundred twenty-two million dollars ($1,422,000,000) amount from state and federal sources proposed for capital outlay expenditures.

(d) In order to reduce support and contract costs, eliminate inflation costs due to delays, cut red tape, and expedite processing of projects, the Legislature finds it desirable and necessary to authorize a procedure to permit the Department of Transportation to "fast

track" highly beneficial projects which have no environmental impacts and require little or no property for right-of-way purposes. This "fast track" process shall commence only after the environmental review process is complete, so that it will not infringe on the goals and policies of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(e) To ensure that appropriate project design and engineering cost savings are achieved and made available for highway program purposes, the "fast track" process and related procedures incorporate specific capital outlay support expenditure targets.

228.1. For purposes of this article, "fast-track project" means a project which meets all of the following criteria:

(a) The project is a state highway project included in the state transportation improvement program pursuant to Section 14529 of the Government Code or on the list adopted pursuant to Section 14530.5 of the Government Code.

(b) A notice of determination has been filed for the project pursuant to Section 21108 or 21152 of the Public Resources Code.

(c) The project is located within an existing right-of-way.

(d) The project will not increase existing highway capacity.

(e) The escalated cost of the project in the state transportation improvement program, or on the list adopted pursuant to Section 14530.5 of the Government Code, at the initiation of the project by the department shall not be more than two million five hundred thousand dollars ($2,500,000). A project may not be designated as a fast-track project by the director if the project scope is significantly altered after initiation of project development work and the scope change increases the estimated cost of the project to be more than two million five hundred thousand dollars ($2,500,000).

(f) The project does not consist of more than one continuous, mixed-flow lane in each direction, except for necessary grade or interchange realignment or adjustment necessary to match the width of existing adjacent roadways.

(g) The project will have no impact on the environment, and no significant impact on issues under the jurisdiction of each affected local, regional, state, and federal agency as determined and certified by each affected agency.

(h) The project is for one of the following purposes:

(1) Strengthening and rehabilitation of bridge and railroad grade separation structures.

(2) High-occupancy vehicle, vehicle passing, two-way turn, or auxiliary lanes.

(3) Interchange modification.

(4) Traffic channelization and signalization or installation of traffic operation systems.

(5) Pavement reconstruction or resurfacing.

(6) Safety installation and upgrading of guardrail and median barriers.

228.2. The director may preliminarily designate a project as a fast-track project any state highway project eligible under Section 228.1 by issuing a notice to this effect within 24 hours of that designation to each state and local agency that would be affected by or must issue a permit for or approve the project. The notice of preliminary designation shall provide a description of the project and addend a copy of all relevant California Environmental Quality Act documents.

228.3. Each agency notified under Section 228.2 may, within 45 days of receipt, object to the designation by filing a notice to that effect with the department. Failure to file an objection within a 45 day period by any agency shall be deemed as that agency's acceptance of the designation and the expedited process prescribed by this article.

228.4. Any project which has been designated as a fast-track project pursuant to Section 228.2, and for which an objection has been filed, shall be referred to a fast-track panel made up of the following persons:

(a) The Secretary of the Business, Transportation and Housing Agency, or his or her designee.

(b) The Secretary of the Resources Agency, or his or her designee.

(c) (1) When the objecting permitting agency is a board or commission, the chairperson of that agency, or the executive director if the board or commission has no chairperson.

(2) If the objecting permitting agency is a department, the director, or his or her designee.

(3) If the objecting agency is a local agency, a person designated by the governing body of that agency.

228.5. (a) If a fast-track project is referred to the panel established pursuant to Section 228.4, the panel shall take all of the following actions:

(1) Within 24 hours of referral of the project to the panel, the panel shall, in the manner prescribed by Section 21092 of the Public Resources Code, give notice to the agency filing the objection and to the public of the date, time, and location of the hearing at which the panel will consider the objection.

(2) Not less than 10 working days after notice has been given to the public and to the objecting agency, the panel shall hold a public hearing at the date, time, and location specified in the notice to consider whether to uphold or deny the fast-track designation made by the director pursuant to Section 228.2. If one or more of the fast-track panel members, or his or her designee, is not present at the public hearing, the project shall be removed from fast-track status and may not be redesignated as a fast-track project.

(3) After the public hearing, the panel shall, by a majority vote, uphold or deny the fast-track designation. If the panel upholds the fast-track designation, it shall state its reasons for doing so in writing at the time the decision is rendered and make its findings available to the public and to the objecting agency.

(b) If the panel fails to perform any of the requirements specified in subdivision (a), or if it denies the fast-track designation of a project, the project shall be removed from fast-track status and may not be redesignated as a fast-track project.

(c) The panel shall uphold the fast-track designation for any project only if it finds and determines that the project is consistent with all applicable local, state, and federal laws and regulations adopted pursuant thereto.

228.6. The department shall, within two years of final designation of a fast-track project, complete all engineering, right-of-way acquisition, and other matters preliminary to bid advertisement for the project.

228.8. The department shall include in its application for a permit to a permitting agency notice that the project has been designated fast track together with a statement of the consequences of that designation.

228.9. Upon receipt of an application for a permit for a fast-track project, the permitting agency:

(a) Shall act on the application within its own statutory limit for action or 120 days, whichever is less, not including the time during which the application has been returned to the department for additional information, or the application shall be deemed to have been approved.

(b) May impose conditions only in accordance with comments it has made for the project's California Environmental Quality Act document or material presented to the fast-track panel.

228.10. If the permitting agency denies the permit, it shall notify the department immediately of that fact and its reasons. The department may accept those reasons and remove the project from the fast-track process or the department may appeal the permit rejection to the fast-track panel. The fast-track panel shall consider the appeal in accordance with the procedures prescribed by Section 228.5.

228.11. This article shall remain in effect only until January 1, 1997, and as of that date is repealed, unless a later enacted statute which is enacted before January 1, 1997, extends or deletes that date.

SEC. 2. Section 1 of this act shall not become operative unless Senate Constitutional Amendment 1 of the 1989–90 Regular Session is approved by the voters.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the savings which will result from the implementation of this act to accrue for the benefit of the state's highway construction program as quickly as possible, it is necessary that this act take effect immediately.

This subdivision shall become inoperative in the first fiscal year following the joint determination by the board and the Director of Finance that the funds scheduled for transfer from the General Fund pursuant to Section 23400.4 to the Supplemental Benefit Maintenance Account are adequate to meet the purposes of Section 24703.

(b) The funds advanced pursuant to subdivision (a) and any funds appropriated by Item No. 1920-111-835 of the Budget Act of 1989 from the Teachers' Retirement Fund to provide purchasing power protection payments shall be repaid from those funds transferred pursuant to Section 23400.4 which are in excess of the resources required to meet the purposes of Section 24703. Repayment shall commence in any year in which such excess funds exists and shall continue until the time all funds advanced under this section and any funds appropriated by Item No. 1920-111-835 of the Budget Act of 1989 from the Teachers' Retirement Fund to provide purchasing power protection payments are repaid. Repayment shall include regular interest from the time funds are advanced or appropriated until the time of repayment. After full repayment is made, the Director of Finance shall, notwithstanding Section 23400.4, adjust the percentage of the General Fund transfer in the amount which causes the balance in the account to equal a three-year reserve at the end of the subsequent fiscal year. The Director of Finance may base the adjusted rate on data provided by the board for projected payments in subject years, projected payroll, projected interest accrual to the account, and any other factors deemed relevant by the board.

(c) Notwithstanding Section 24703 or any other provision of law, if the state's contributions to the Teachers' Retirement Fund provided by Section 23400.4 are, for any reason whatsoever, reduced or terminated before the Teachers' Retirement Fund is fully repaid, as provided in subdivision (b), for all advances or transfers made pursuant to subdivision (a) and for any appropriations made by Item No. 1920-111-835 of the Budget Act of 1989 from the Teachers' Retirement Fund to provide purchasing power protection payments, all duties of the Teachers' Retirement Board to make the advances or transfers required by subdivision (a) and to make the distributions required by Section 24703 shall immediately cease and shall have no further force or effect.

(d) It is the intent of the Legislature, in enacting the Supplemental Benefit Maintenance Program which is embodied in this section and Sections 22300, 23400.4, and 24703, not to manifest

any promise, except as provided in subdivision (c) of Section 23400.4, which, when accepted, would create a contract, express or implied. Notwithstanding any other provision of this part, nothing in the sections establishing the Supplemental Benefit Maintenance Program shall be construed as a basis for any implied contractual obligation, or as an element of exchange of consideration by a private party for consideration offered by the state, or as an intent to grant private rights of contract, or as conferring any vested right whatsoever on any present or future member, present or future annuitant, present or future surviving spouse of a present or future member or a present or future annuitant, surviving child of a present or future member or a present or future annuitant, or present or future beneficiary of the State Teachers' Retirement System.

(e) Upon the mandatory inclusion of all members of the system within the Social Security system, the board shall review the benefit structure established by Section 24703 and the funding mechanism provided therefor by this section and Section 23400.4 and shall be prepared to provide an alternate benefit structure similar to those set forth in the report of the system entitled "Development of an Alternative Retirement Plan," dated March 1, 1989, and prepared pursuant to Section 22240.

(f) The board shall report annually to the Director of Finance and the appropriate fiscal and policy committees of the Legislature upon the benefits paid pursuant to Section 24703 and all actions taken pursuant to Section 23400.4 and this section.

SEC. 2. Section 22300 of the Education Code is amended to read:

22300. There is in the State Treasury a special trust fund to be known as the Teachers' Retirement Fund. There shall be deposited in that fund the assets of the system and its predecessors, consisting of employee contributions, employer contributions, state contributions, appropriations made to it by the Legislature, income on investments, other interest income, income from fees and penalties, donations, legacies, bequests made to it and accepted by the board and any other amounts provided by this part. General Fund transfers pursuant to Section 23400.4 shall be placed in a segregated account known as the Supplemental Benefit Maintenance Account within the Teachers' Retirement Fund, which is continuously appropriated without regard to fiscal years, notwithstanding Section 13340 of the Government Code, for expenditure for the purposes of Section 24703 and subdivisions (a) and (b) of Section 22206.5.

Disbursement of money from the Teachers' Retirement Fund of whatever nature shall be made upon claims duly audited in the manner prescribed for the disbursement of other public funds except that notwithstanding the foregoing disbursements may be made to return funds deposited in the fund in error.

SEC. 3. Section 23400.4 is added to the Education Code, to read:

23400.4. (a) In addition to any other contributions required by this part, on July 1, 1990, and on July 1 of each subsequent year, the

Controller, subject to Section 22206.5, shall transfer, based on estimated payroll data provided by the board, the following percentages of the total of the prior year salaries upon which members' contributions are based to the Supplemental Benefit Maintenance Account in the Teachers' Retirement Fund, for the purpose of funding the supplemental payments authorized under Section 24703:

(1) For the fiscal year ending June 30, 1991	0.50%
(2) For the fiscal year ending June 30, 1992	1.00%
(3) For the fiscal year ending June 30, 1993	1.50%
(4) For the fiscal year ending June 30, 1994	2.00%
(5) For the fiscal year ending June 30, 1995, and each fiscal year thereafter	2.50%

These transfers shall be based upon estimated payroll data provided to the Director of Finance by the board and shall be adjusted in January of that same fiscal year to reflect actual payroll data.

(b) The board may deduct from the annual state contributions made pursuant to this section an amount necessary for the administrative expenses to implement Section 24703, subject to the annual Budget Act.

(c) Notwithstanding any other provision of law, it is the intent of the Legislature, in establishing the Supplemental Benefit Maintenance Program which is embodied in this section and Sections 22206.5, 22300, and 24703, to manifest a contractually enforceable promise to repay the Teachers' Retirement Fund in full, with interest, as provided in subdivision (b) of Section 22206.5, for all transfers or advances made from the Teachers' Retirement Fund pursuant to subdivision (a) of Section 22206.5 and for any funds appropriated by Item No. 1920-111-835 of the Budget Act of 1989 from the Teachers' Retirement Fund to provide purchasing power protection payments.

(d) Except as provided in subdivision (c), the Legislature reserves the right to reduce or terminate the state's contributions to the Supplemental Benefit Maintenance Account in the Teachers' Retirement Fund provided by this section and to reduce or terminate the distributions required by Section 24703. It is intended that any legislative reduction or termination of the state's contributions to the Supplemental Benefit Maintenance Account in the Teachers' Retirement Fund provided by this section or any reduction or termination of distributions required by Section 24703, shall be effectuated by a separate statute rather than by an annual Budget Act.

SEC. 4. This act shall not take effect unless Senate Bill 1513 of the 1989–90 Regular Session of the Legislature is enacted in 1989 and, as enacted, adds Section 24703 to the Education Code which provides for the distribution of the proceeds of the Supplemental Benefit

Maintenance Account in the Teachers' Retirement Fund.

SEC. 5. This act and the chaptered version of Senate Bill 1513 of the 1989–90 Regular Session of the Legislature shall be known, and may be cited, as the Cecil Green-William Campbell-Dave Elder Act.

CHAPTER 116

An act to amend Section 24701 of, and to add Section 24703 to, the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor July 10, 1989 Filed with Secretary of State July 10, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 24701 of the Education Code is amended to read:

24701. (a) Annual cost-of-living adjustments for retirants, disabilitants, and beneficiaries in excess of the 2-percent adjustment authorized by Section 22131 may be included as a General Fund appropriation in the annual Budget Act. In the annual budget submitted to the Legislature, the Governor shall include a budget item equal to 5 percent of the average annualized statewide increase in payroll for certificated personnel over the three previous school years among school districts, county offices of education, and community college districts.

The amount submitted in the Budget Act pursuant to this section shall be considered as part of the overall budget allocations to the public schools and community colleges.

(b) The annual appropriation shall be made to the State Teachers' Retirement System on July 1, and shall be placed in a segregated account called the Retirees' Purchasing Power Protection Account. The proceeds of that account are continuously appropriated and shall be distributed annually in quarterly payments commencing on September 1 to retirants, disabilitants, and beneficiaries as follows:

(1) The proceeds shall be allocated among those retirants, disabilitants, and beneficiaries whose allowances, after applying the 2-percent adjustment authorized by Section 22131, have the lowest purchasing power percentage, based on the amount that would be paid had the original allowance been increased by increases in the index then being used by the Department of Finance to measure changes in the cost of living, increasing those allowances to a common minimum purchasing power level. In any year in which the purchasing power of the allowances of all retirants, disabilitants, and beneficiaries equals not less than 75 percent and additional funds remain from the allocation authorized by this section, those funds shall be allocated by the board to general accounts to reduce the unfunded actuarial liability of the fund.

(2) The board may deduct from the annual appropriation an amount necessary for administrative expenses to implement this section.

(c) The board shall inform each recipient of benefits under subdivision (b) that the increases are not cumulative, not part of the base retirement allowance, and will be available only as appropriated annually in the state Budget Act.

(d) The adjustments authorized by this section shall not be included in the base allowance for purposes of calculating the 2-percent adjustment authorized by Section 22131.

(e) It is the ultimate intent and purpose of the Legislature in amending this section at the 1983–84 Regular Session to achieve a common minimum purchasing power level equal to 75 percent of the purchasing power of the original retirement allowance. It is the present intent of the Legislature that until adequate funds are available to fulfill the ultimate intent, those persons whose retirement allowances have been most impacted by inflation shall be accorded first priority in receiving, pursuant to this section, supplemental cost-of-living adjustments from the Retirees' Purchasing Power Protection Account.

(f) This section shall not be operative in any fiscal year during which, as determined by the Teachers' Retirement Board, distributions provided for by Section 24703 are being made.

SEC. 2. Section 24703 is added to the Education Code, to read:

24703. (a) The proceeds of the Supplemental Benefit Maintenance Account shall, except as otherwise provided by Section 22206.5, be distributed annually in quarterly supplemental payments commencing on September 1, 1990, to retirants, disabilitants, and beneficiaries. The amount available for distribution in any fiscal year shall not exceed the amount necessary to restore purchasing power up to 68.2 percent of the purchasing power of the initial monthly allowance after the application of all allowance increases authorized by this part, including those specified in Section 24702.

(b) The net revenues to be distributed shall be allocated among those retirants, disabilitants, and beneficiaries whose allowances, after sequentially applying the annual improvement factor as defined in Sections 22131 and 22131.1, and the annual supplemental payment as defined in Section 24702, have the lowest purchasing power percentage. The purchasing power calculation for each individual shall be based on the change in the All Urban California Consumer Price Index between June of the calendar year of retirement and June of the fiscal year preceding the fiscal year of distribution. In any year in which the purchasing power of the allowances of all retirants, disabilitants, and beneficiaries equals not less than 68.2 percent and additional funds remain from the allocation authorized by this section, those funds shall remain in the Supplemental Benefit Maintenance Account for allocation in future years.

(c) The allowance increase shall not be applicable to annuities

payable from the accumulated annuity deposit contributions or the accumulated tax-sheltered annuity contributions.

(d) The benefits provided by subdivision (b) are not cumulative, not part of the base retirement allowance, and will be payable only to the extent that funds are available from the Supplemental Benefit Maintenance Account. The board shall inform each recipient of the contents of this subdivision.

(e) The adjustments authorized by this section are not vested and shall not be included in the base allowance for purposes of calculating the annual improvement defined by Sections 22131 and 22131.1.

SEC. 3. This act shall not take effect unless Senate Bill 1407 of the 1989–90 Regular Session of the Legislature is enacted in 1989 and, as enacted, amends Section 22300 of, and adds Sections 22206.5 and 23400.4 to, the Education Code, to provide funding mechanisms for the Supplemental Benefit Maintenance Account in the Teachers' Retirement Fund.

SEC. 4. This act and the chaptered version of Senate Bill 1407 of the 1989–90 Regular Session of the Legislature shall be known, and may be cited, as the Cecil Green-William Campbell-Dave Elder Act.

CHAPTER 117

An act to amend Sections 14570 and 14571.8 of, and to amend, repeal, and add Section 14591 of, the Public Resources Code, relating to beverage containers, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 11, 1989 Filed with Secretary of State July 11, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 14570 of the Public Resources Code is amended to read:

14570. (a) Every dealer shall identify, by a clear and conspicuous sign posted at the dealer's place of business, the address and major cross streets, as provided by the department, of at least the recycling center, location, or locations, nearest to the dealer, which redeems all types of empty beverage containers at one location during at least 30 hours per week with a minimum of five hours of operation occurring during periods other than from Monday to Friday, from 9 a.m. to 5 p.m.

(b) Notwithstanding subdivision (a), the department may require a certified recycling center to operate not more than 15 hours of those 30 hours per week other than during 9 a.m. to 5 p.m. if the department determines it is necessary to further the goals of this division as specified in Section 14501. Prior to acting under this subdivision, the department shall conduct a public hearing and shall

consider consumer convenience, economic impact on the certified recycling centers, public health and safety, local zoning requirements, neighborhood opinion, and any other relevant factors.

SEC. 2. Section 14571.8 of the Public Resources Code is amended to read:

14571.8. (a) If the department determines that Section 14571 cannot be fulfilled in a particular convenience zone due to local zoning or dealer's leasehold restrictions for leases in effect on January 1, 1987, and that these factors are beyond the control of the department and the dealer, the department may establish an alternative minimum convenience requirement for that convenience zone which shall not conflict with the purposes of this division. No lease entered into by a dealer after January 1, 1987, may contain a leasehold restriction that prohibits or results in the prohibition of the establishment of a recycling location.

(b) The director may grant an exemption to the requirements of Section 14571 for an individual convenience zone only if all of the following conditions are met:

(1) The exemption will not significantly decrease the ability of consumers to conveniently return beverage containers for the redemption value.

(2) The volume of beverage containers redeemed in the convenience zone is below the statewide average.

(3) The exemption will further the purposes of this division.

(4) The department conducts a public hearing for purposes of taking testimony on whether or not to provide an exemption from Section 14571.

(5) The exemption will prevent the creation of excessive recycling locations which would result in severe adverse local market conditions for recycled materials.

(c) Upon request of a city or county, the director may grant an exemption from the requirements of Section 14571 for the location of an individual nonprofit recycling center, or for a curbside recycling program, if the conditions established under subdivision (b) are met and, for an exemption granted for a curbside recycling program, the program recycles all types of beverage containers from households at least once every two weeks or twice monthly.

(d) The total number of exemptions granted by the director under this section shall not exceed 10 percent of the total number of convenience zones identified by the department pursuant to this section.

(e) The department shall annually prepare and submit to the Governor and the Legislature a report on curbside recycling programs and on the potential need for exemption authority additional to that provided by subdivision (d).

SEC. 3. Section 14591 of the Public Resources Code is amended to read:

14591. (a) Except as provided in subdivision (b), in addition to any other applicable civil or criminal penalties, any person convicted

of a violation of this division is guilty of an infraction, which is punishable by a fine of not more than one hundred dollars ($100) per day.

(b) Every person who, with intent to defraud, submits a false or fraudulent claim for payment pursuant to Section 14573 or 14573.5 or who, with intent to defraud, fails to accurately report the number of beverage containers sold, as required by subdivision (b) of Section 14550, or who, with intent to defraud, fails to make payments as required by Section 14574 or who, with intent to defraud, redeems containers which have already been redeemed or returns redeemed containers to the marketplace for reredemption with intent to defraud, or who submits a false or fraudulent claim for convenience incentive payments pursuant to Section 14585, is guilty of fraud. If the money obtained or withheld exceeds four hundred dollars ($400), the fraud is punishable by imprisonment in the county jail for not more than one year or by a fine not exceeding one thousand dollars ($1,000), or by both, or by imprisonment in the state prison for 16 months, two years, or three years, or by a fine not exceeding ten thousand dollars ($10,000) or twice the late or unmade payments plus interest, whichever is greater, or by both fine and imprisonment. If the money obtained or withheld equals, or is less than, four hundred dollars ($400), the fraud is punishable by imprisonment in the county jail for not more than six months or by a fine not exceeding one thousand dollars ($1,000), or by both.

(c) Any person who violates this division may be assessed a civil penalty by the department of up to one hundred dollars ($100) per day pursuant to a hearing and notice.

(d) The department shall suspend all convenience incentive payments received by any certified recycling center for up to six months, but not less than two months, from the date of a third violation assessed upon that recycling center pursuant to subdivision (c) within a one-year period, commencing upon the effective date of the act amending this section.

(e) This section shall remain in effect until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

SEC. 4. Section 14591 is added to the Public Resources Code, to read:

14591. (a) Except as provided in subdivision (b), in addition to any other applicable civil or criminal penalties, any person convicted of a violation of this division is guilty of an infraction, which is punishable by a fine of not more than one hundred dollars ($100) per day.

(b) Every person who, with intent to defraud, submits a false or fraudulent claim for payment pursuant to Section 14573 or 14573.5 or who, with intent to defraud, fails to accurately report the number of beverage containers sold, as required by subdivision (b) of Section 14550, or who, with intent to defraud, fails to make payments as required by Section 14574 or who, with intent to defraud, redeems

containers which have already been redeemed or returns redeemed containers to the marketplace for reredemption with intent to defraud, or who submits a false or fraudulent claim for convenience incentive payments pursuant to Section 14585, is guilty of fraud. If the money obtained or withheld exceeds four hundred dollars ($400), the fraud is punishable by imprisonment in the county jail for not more than one year or by a fine not exceeding one thousand dollars ($1,000), or by both, or by imprisonment in the state prison for 16 months, two years, or three years, or by a fine not exceeding ten thousand dollars ($10,000) or twice the late or unmade payments plus interest, whichever is greater, or by both fine and imprisonment. If the money obtained or withheld equals, or is less than, four hundred dollars ($400), the fraud is punishable by imprisonment in the county jail for not more than six months or by a fine not exceeding one thousand dollars ($1,000), or by both.

(c) Any person who violates this division may be assessed a civil penalty by the department of up to one hundred dollars ($100) per day pursuant to a hearing and notice.

(d) This section shall become operative on January 1, 1993.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to continue the California Beverage Container Recycling and Litter Reduction Act by increasing services provided by recycling centers, and therefore better protecting public health and safety by encouraging the recycling of beverage containers, it is necessary that this act take effect immediately.

This subdivision does not authorize expenditure of money from the inmate welfare fund for the transfer of any inmate to the custody of any other law enforcement official or jurisdiction.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant

to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. CHAPTER 128

An act to amend Section 53340 of the Government Code, relating to community facilities districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 11, 1989 Filed with Secretary of State July 12, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 53340 of the Government Code is amended to read:

53340. After a community facilities district has been created and authorized to levy specified special taxes pursuant to Article 2 (commencing with Section 53318), Article 3 (commencing with Section 53330), or Article 3.5 (commencing with Section 53339), the legislative body may, by ordinance, levy the special taxes at the rate and apportion them in the manner specified in the resolution adopted pursuant to Article 2 (commencing with Section 53318), Article 3 (commencing with Section 53330), or Article 3.5 (commencing with Section 53339), except that the legislative body may levy the special tax at a lower rate. For any tax year, the legislative body may, by resolution, levy the special tax at the same rate or at a lower rate than the rate provided by ordinance, if the resolution is adopted and a certified copy of the resolution and a list of all parcels subject to the special tax levy with the tax to be levied on each parcel, is filed by the clerk of the legislative body with the county auditor on or before the 10th day of August of that tax year. The clerk of the legislative body may file the certified copy of the resolution and the lists after the 10th of August but not later than the 21st if the clerk obtains prior written consent of the county auditor. Properties or entities of the state, federal, or other local governments shall, except as otherwise provided in Section 53317.3, be exempt from the special tax. No other properties or entities are exempt from the special tax unless the properties or entities are expressly exempted in the resolution of formation to establish a district adopted pursuant to Section 53325.1 or in a resolution of consideration to levy a new special tax or special taxes or to alter the

rate or method of apportionment of an existing special tax as provided in Section 53334. The proceeds of any special tax may only be used to pay, in whole or part, the cost of providing public facilities, services, and incidental expenses pursuant to this chapter. The special tax shall be collected in the same manner as ordinary ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure, sale, and lien priority in case of delinquency as is provided for ad valorem taxes, unless another procedure has been authorized in the resolution of formation establishing the district and adopted by the legislative body. The tax collector may collect the special tax at intervals as specified in the resolution of formation, including intervals different from the intervals at which the ordinary ad valorem property taxes are collected. The tax collector may deduct the reasonable administrative costs incurred in collecting the special tax.

All special taxes levied by a community facilities district shall be secured by the lien imposed pursuant to Section 3115.5 of the Streets and Highways Code. This lien shall be a continuing lien and shall secure each levy of special taxes. The lien of the special tax shall continue in force and effect until the special tax obligation is prepaid, permanently satisfied, and canceled in accordance with Section 53344 or until the special tax ceases to be levied by the legislative body in the manner provided in Section 53330.5.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

To provide local legislative bodies and community facilities districts with additional time with which to coordinate their overlapping taxing duties, it is necessary that this act takes effect immediately.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

77208. Except as provided in Sections 73642, 73952, 74342, and 74742 with respect to San Diego County, the board of supervisors of an option county may, at county cost, provide municipal court judges serving in any municipal court in the county on or after October 1, 1987, with retiree health benefits substantially equal to the retiree health benefits provided to superior court judges.

SEC. 7. Regardless of the effective date of this act, it is the intent of the Legislature that benefits granted pursuant to this act shall accrue as of the date of approval of those benefits by the San Diego County Board of Supervisors.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the Trial Court Funding Agreement between the County of San Diego and the courts may be implemented as quickly as possible to provide valuable service to the citizens of the County of San Diego and the expedient administration of justice, it is necessary for this act to take effect immediately.

CHAPTER 133

An act to amend Section 66491 of the Government Code, relating to subdivisions.

[Approved by Governor July 13, 1989 Filed with Secretary of State July 13, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 66491 of the Government Code is amended to read:

66491. With respect to the soils report, a local ordinance may provide that:

(a) The preliminary soils report may be waived if the local agency shall determine that, due to the knowledge it has as to the soils qualities of the soils of the subdivision, no preliminary analysis is necessary.

(b) If the preliminary soils report indicates the presence of critically expansive soils or other soils problems which, if not corrected, would lead to structural defects, a soils investigation of each lot in the subdivision may be required.

(1) The soils investigation shall be done by a civil engineer registered in this state, who shall recommend the corrective action which is likely to prevent structural damage to each structure proposed to be constructed in the area where the soils problem exists.

(2) The local agency may approve the subdivision or portion thereof where these soils problems exist if it determines that the recommended action is likely to prevent structural damage to each structure to be constructed, and as a condition to the issuance of any building permit may require that the approved recommended action be incorporated in the construction of each structure.

(c) The preliminary soils report may be submitted to the city engineer or county engineer for review. The city engineer or county engineer may review the preliminary soils report and may require additional information or reject the report if it is found to be incomplete, inaccurate, or unsatisfactory.

CHAPTER 134

An act to add Section 25503.26 to the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor July 13, 1989 Filed with Secretary of State July 13, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 25503.26 is added to the Business and Professions Code, to read:

25503.26. (a) Notwithstanding any other provision of this chapter, the holder of a beer manufacturer's or winegrower's license may purchase advertising space and time from, or on behalf of, an on-sale retail licensee subject to all of the following conditions:

(1) The on-sale licensee is the owner, or is the lessee, or is a wholly owned subsidiary of the lessee, of an arena with a fixed seating capacity in excess of 10,000 seats, at least 60 percent of the use of which is for horseracing events, and which is located within a county of the first class, as defined in Section 28022 of the Government Code.

(2) The advertising space or time is purchased only in connection with events to be held on the premises of the arena owned or leased by the on-sale licensee.

(3) The on-sale licensee serves other brands of beer or wine in addition to the brand manufactured by the beer manufacturer or produced by the winegrower purchasing the advertising space or time.

(b) Any purchase of advertising space or time pursuant to subdivision (a) shall be conducted pursuant to a written contract entered into by the holder of the beer manufacturer's or winegrower's license and the on-sale licensee.

(c) Any holder of a beer manufacturer's license or winegrower's license who, through coercion or other illegal means, induces a holder of a beer or wine wholesaler's license to fulfill the contractual obligations entered into pursuant to subdivision (a) or (b) shall be guilty of a misdemeanor and shall be punished by imprisonment in the county jail not exceeding six months, or by a fine in an amount equal to the entire value of the advertising space or time involved in the contract plus ten thousand dollars ($10,000), or by both imprisonment and fine. The person shall also be subject to license revocation pursuant to Section 24200.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless

otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 135

An act to amend, repeal, and add Section 35271 of the Education Code, relating to schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 13, 1989 Filed with Secretary of State July 13, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 35271 of the Education Code is amended to read:

35271. (a) The governing board of any school district may acquire property, construct buildings, and maintain classes outside its boundaries on any site that either is immediately adjacent to a schoolsite of the district located within its boundaries or is acquired from an adjacent school district.

(b) This section shall remain in effect only until June 30, 1993, and as of that date is repealed.

SEC. 2. Section 35271 is added to the Education Code, to read:

35271. (a) The governing board of any school district may acquire property, construct buildings, and maintain classes outside its boundaries on sites immediately adjacent to school sites of the district within its boundaries.

(b) This section shall become operative June 30, 1993.

SEC. 3. The Legislature finds and declares as follows:

(a) The Cutler-Orosi Unified School District is located primarily within Tulare County, although a portion of the district, representing approximately 7 percent of the registered voters of the district, is located within Fresno County.

(b) On November 30, 1988, the governing board of the Cutler-Orosi Unified School District adopted a resolution to consolidate the governing board election for that district, which was originally scheduled to occur November 7, 1989, with the statewide general election, commencing with the general election of November 6, 1990.

(c) The governing board of the Cutler-Orosi Unified School District submitted that resolution to the Board of Supervisors of Tulare County, that board of supervisors approved the resolution, and the registered voters of the school district were notified accordingly, in compliance with the requirements set forth in Section 5000.5 of the Education Code. However, through inadvertence, the resolution was not submitted for approval to the

Board of Supervisors of Fresno County, and insufficient time now remains, prior to the originally scheduled November 7, 1989, governing board election, for that approval process to occur.

(d) Under the circumstances set forth above, the waiver provided under Section 4 of this act is necessary in order to further the objectives of Section 5000.5 of the Education Code, namely, to facilitate the consolidation of elections in order to increase voter participation and to reduce local election costs. Moreover, the Fresno County Board of Supervisors is aware of the circumstances set forth above, and consents to the proposal to waive the requirement that the resolution to consolidate elections, as described above, be submitted for its approval.

SEC. 4. Notwithstanding Section 5000.5 of the Education Code, the resolution described in Section 3 of this act, which was adopted by the governing board of Cutler-Orosi Unified School District to postpone the governing board election of November 7, 1989, for that district, for the purpose of consolidation with the statewide general election, commencing on November 6, 1990, shall not be required to be submitted to, or approved by, the Board of Supervisors of Fresno County as a condition of that consolidation.

SEC. 5. Due to the unique circumstances specified in Section 3 of this act concerning the Cutler-Orosi Unified School District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to permit school district governing boards to adequately meet school facilities needs commencing in the 1989–90 school year, and to enable the Cutler-Orosi Unified School District to postpone its governing board election of November 7, 1989, for purposes of consolidation with the statewide general election of November 6, 1990, it is necessary that this act take effect immediately.

CHAPTER 136

An act to amend Sections 32320, 72252, and 72252.1 of, and the heading of Article 3 (commencing with Section 32320) of Chapter 3 of Part 19 of, the Education Code, relating to education.

[Approved by Governor July 13, 1989 Filed with Secretary of State July 13, 1989]

The people of the State of California do enact as follows:

SECTION 1. The heading of Article 3 (commencing with Section 32320) of Chapter 3 of Part 19 of the Education Code is amended to read:

Article 3. Tuition and Fee Exemptions

SEC. 2. Section 32320 of the Education Code is amended to read:

32320. No state-owned college, university, or other school shall charge any tuition, or incidental fees to any of the following:

(a) Any dependent receiving assistance under Article 2 (commencing with Section 890) of Chapter 4 of Division 4 of the Military and Veterans Code.

(b) Any child of any veteran of the United States military service who has a service-connected disability, and whose annual income not including governmental compensation for the service-connected disability, does not exceed five thousand dollars ($5,000).

(c) Any child of any veteran who has been killed in service or has died of a service-connected disability, where the annual income of the child, including the value of any support received from a parent, and the annual income of a surviving parent, does not exceed five thousand dollars ($5,000).

(d) Any dependent, or surviving spouse who has not remarried, of any member of the California National Guard who, in the line of duty, and while in the active service of the state, was killed, died of a disability resulting from an event that occurred while in the active service of the state, or is permanently disabled as a result of an event that occurred while in the active service of the state. "Active service of the state," for the purposes of this subdivision, means a member of the California National Guard activated pursuant to Section 146 of the Military and Veterans Code.

Nothing contained in this section shall prevent the Regents of the University of California from charging to and collecting from nonresident students an admission fee and rate of tuition nor shall anything in this section prevent the charging and collecting of fees required of nonresident students admitted to schools under the jurisdiction of the State Department of Education or the Director of Education or to a state university under the jurisdiction of the Trustees of the California State University.

This section shall not apply to a dependent of a veteran within the meaning of paragraph (4) of subdivision (a) of Section 890 of the Military and Veterans Code.

SEC. 3. Section 72252 of the Education Code is amended to read:

72252. (a) Commencing with the semester, term, or quarter that begins after January 1, 1988, the governing board of each community college district shall charge each student a fee, pursuant to this section.

(b) The fee prescribed by this section shall be five dollars ($5) per

unit per semester up to a maximum of fifty dollars ($50) per semester.

The chancellor shall proportionately adjust the amount of the fee for term lengths based upon a quarter system or other alternative system approved pursuant to Section 78002, and shall also proportionately adjust the amount of the fee for summer sessions, intersessions, and other short-term courses. In making these adjustments, the chancellor may round the per unit fee and the per term or per session fee to the nearest dollar.

(c) For the purposes of computing apportionments to community college districts, 98 percent of the revenues received by districts from charging a fee pursuant to this section or from fees defrayed pursuant to subdivision (f) shall be deemed to be local property tax revenue within the meaning of subdivision (b) of Section 84700.

(d) The chancellor shall reduce apportionments by up to 10 percent to any district that does not collect the fees prescribed by this section.

(e) The fee requirement shall not apply to students enrolled in the noncredit courses designated by Section 84711, or to California State University or University of California students enrolled in remedial classes provided by a community college district on a campus of the University of California or a campus of the California State University, for whom the district claims an attendance apportionment pursuant to an agreement between the district and the California State University or the University of California.

(f) The governing board of a community college district may exempt special part-time students admitted pursuant to Section 76001 from the fee requirement.

(g) The fee requirements of this section shall be defrayed pursuant to Section 72252.1 for any student who, at the time of enrollment, is a recipient of benefits under the Aid to Families with Dependent Children program, the Supplemental Security Income/State Supplementary Program, or a general assistance program.

(h) The fee requirements of this section shall be defrayed pursuant to Section 72252.1 for any student who, at the time of enrollment is a dependent, or surviving spouse who has not remarried, of any member of the California National Guard who, in the line of duty and while in the active service of the state, was killed, died of a disability resulting from an event that occurred while in the active service of the state, or is permanently disabled as a result of an event that occurred while in the active service of the state. "Active service of the state," for the purposes of this subdivision, means a member of the California National Guard activated pursuant to Section 146 of the Military and Veterans Code.

(i) Student financial aid funds appropriated for the purpose of assisting students to pay the fee required by this section may be awarded without regard to the requirements of Chapter 2 (commencing with Section 69500) of Part 42.

(j) The board of governors shall adopt regulations implementing this section as regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(k) This section shall remain in effect only until January 1, 1992, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1992, deletes or extends that date.

SEC. 4. Section 72252.1 of the Education Code is amended to read:

72252.1. (a) It is the intent of the Legislature to provide adequate funding for the purpose of providing financial aid funds directly to low-income students who cannot pay the fee specified in subdivision (b) of Section 72252 and for the purpose of defraying fees pursuant to subdivisions (g) and (h) of Section 72252, to be provided as follows:

Period	Amount
July 1, 1988, to June 30, 1989	$15,000,000
July 1, 1989, to June 30, 1990	15,000,000
July 1, 1990, to June 30, 1991	15,000,000
July 1, 1991, to January 1, 1992	7,500,000

(b) It is the intent of the Legislature that all funds provided pursuant to subdivision (a) be allocated to community college districts. In prescribing the manner of allocation, the board shall endeavor to ensure that students with similar characteristics shall be treated similarly with respect to the provision of financial aid pursuant to this section, regardless of the community college they attend.

In allocating funds pursuant to this section, the board shall consider the number of students eligible for assistance in the prior academic year and other factors that may have bearing on the amount of these funds required by each community college district.

The board may allocate up to 7 percent of the total amount of funds provided pursuant to subdivision (a) to community college districts for delivery of student financial aid services required as a result of this section. Funds so allocated to a district for delivery of student financial aid services shall supplement, and shall not supplant, the level of funds allocated for the administration of student financial aid programs during the 1983–84 fiscal year, adjusted annually in accordance with the cost-of-living adjustment to the general apportionments.

The board shall be provided adequate resources through the annual Budget Act to support state administration of this financial aid program.

(c) Financial aid shall be provided pursuant to this section only to those students required to pay the fee specified in Section 72252, and only in an amount equal to the fee actually charged the student pursuant to that section. In addition, the chancellor shall pay districts

the amount of fees defrayed pursuant to subdivisions (g) and (h) of Section 72252.

(d) Districts that receive an allocation of funds pursuant to this section shall administer and award the funds in accordance with regulations adopted by the board of governors.

(e) If the amount of funds provided pursuant to subdivision (a) exceeds the need for financial aid to students who cannot afford to pay the fee charged pursuant to Section 72252, the excess shall revert to the General Fund.

(f) If the amount needed for financial aid to students who cannot afford the fee charged pursuant to Section 72252 and to pay districts for the total amount of fees defrayed pursuant to subdivisions (g) and (h) of Section 72252 is greater than the amount of funds provided pursuant to subdivision (a), the chancellor shall certify to the Department of Finance the amount of the additional funds that are required. Upon receipt of this certification, the Director of Finance shall take any administrative action available to him or her to transfer the additional funds, pursuant to the Budget Act or as otherwise provided by the Legislature.

(g) This section shall remain in effect only until January 1, 1992, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1992, deletes or extends that date.

SEC. 5. No provision of this act shall apply to the University of California unless the Regents of the University of California, by resolution, makes that provision applicable.

SEC. 6. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution

CHAPTER 137

An act to amend Sections 304 and 362.4 of the Welfare and Institutions Code, relating to minors.

[Approved by Governor July 13, 1989 Filed with Secretary of State July 13, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 304 of the Welfare and Institutions Code is amended to read:

304. When a minor has been adjudged a dependent child of the juvenile court pursuant to subdivision (c) of Section 360, no other division of any superior court may hear proceedings pursuant to Section 4600 of the Civil Code regarding the custody of the minor. While the minor is a dependent child of the court all issues regarding his or her custody shall be heard by the juvenile court. In deciding issues between the parents or between a parent and a guardian regarding custody of a minor who has been adjudicated a dependent of the juvenile court, the juvenile court may review any records that would be available to the domestic relations division of a superior court hearing such a matter. The juvenile court, on its own motion, may issue an order directed to either of the parents enjoining any action specified in paragraph (2) or (3) of subdivision (a) of Section 4359 of the Civil Code. The Judicial Council shall adopt forms for these restraining orders. These form orders shall not be confidential and shall be enforceable in the same manner as any other order issued pursuant to Section 4359 of the Civil Code.

This section shall not be construed to divest the domestic relations division of a superior court from hearing any issues regarding the custody of a minor when that minor is no longer a dependent of the juvenile court.

SEC. 2. Section 362.4 of the Welfare and Institutions Code is amended to read:

362.4. When the juvenile court terminates its jurisdiction over a minor who has been adjudged a dependent child of the juvenile court prior to the minor's attainment of the age of 18 years, and proceedings for the declaration of the nullity or dissolution of the marriage, or for legal separation, of the minor's parents, or proceedings to establish the paternity of the minor child brought under the Uniform Parentage Act (Part 7 (commencing with Section 7000) of Division 4 of the Civil Code), are pending in the superior court of any county, or an order has been entered with regard to the custody of that minor, the juvenile court on its own motion, may issue an order directed to either of the parents enjoining any action specified in paragraph (2) or (3) of subdivision (a) of Section 4359 of the Civil Code or determining the custody of, or visitation with, the child.

Any order issued pursuant to this section shall continue until modified or terminated by a subsequent order of the superior court. The order of the juvenile court shall be filed in the proceeding for nullity, dissolution, or legal separation, or in the proceeding to establish paternity, at the time the juvenile court terminates its jurisdiction over the minor, and shall become a part thereof.

If no action is filed or pending relating to the custody of the minor in the superior court of any county, the juvenile court order may be used as the sole basis for opening a file in the superior court of the county in which the parent, who has been given custody, resides. The court may direct the parent or the clerk of the juvenile court to transmit the order to the clerk of the superior court of the county in which the order is to be filed. The clerk of the superior court shall, immediately upon receipt, open a file, without a filing fee, and assign a case number.

The clerk of the superior court shall, upon the filing of any juvenile court custody order, send by first-class mail a copy of the order with the case number to the juvenile court and to the parents at the address listed on the order.

The Judicial Council shall adopt forms for any custody or restraining order issued under this section. These form orders shall not be confidential.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 138

An act to add Chapter 2.1 (commencing with Section 1694) and Chapter 2.2 (commencing with Section 1694.5) to Title 5 of Part 2 of Division 3 of, the Civil Code, relating to contracts.

[Approved by Governor July 14, 1989 Filed with Secretary of State July 14, 1989]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.1 (commencing with Section 1694) is added to Title 5 of Part 2 of Division 3 of the Civil Code, to read:

CHAPTER 2.1 DATING SERVICE CONTRACTS

1694. As used in this chapter, a dating service contract is any contract with any organization that offers dating, matrimonial, or social referral services by any of the following means:

(a) An exchange of names, telephone numbers, addresses, and statistics.

(b) A photograph or video selection process.

(c) Personal introductions provided by the organization at its place of business.

(d) A social environment provided by the organization intended primarily as an alternative to other singles' bars or club-type environments.

1694.1. (a) In addition to any other right to revoke an offer, the buyer has the right to cancel a dating service contract or offer, until midnight of the third business day after the day on which the buyer signs an agreement or offer to purchase those services.

(b) Cancellation occurs when the buyer gives written notice of cancellation by certified mail or telegram to the seller at the address specified in the agreement or offer.

(c) Notice of cancellation, if given by mail, is effective when deposited in the mail properly addressed with postage prepaid.

(d) Notice of cancellation given by the buyer need not take the particular form as provided in the contract or offer to purchase and, however expressed, is effective if it indicates the intention of the buyer not to be bound by the dating service contract.

(e) All moneys paid pursuant to any contract for dating services shall be refunded within 10 days of receipt of the notice of cancellation, except that payment shall be made for any services covered by the contract and received by the buyer prior to cancellation.

(f) The buyer may notify the dating service of his or her intent to cancel the contract within the three-day period specified in this section and stop the processing of a credit card voucher or check by telephone notification to the dating service. However, this does not negate the obligation of the buyer to cancel the contract by certified mail or telegram as required pursuant to this section.

1694.2. (a) A dating service contract shall be in writing. A copy of the contract shall be provided to the buyer at the time he or she signs the contract.

(b) Every dating service contract shall contain on its face, and in close proximity to the space reserved for the signature of the buyer, a conspicuous statement in a size equal to at least 10-point boldface type, as follows:

"You, the buyer, may cancel this agreement at any time prior to midnight of the original contract seller's third business day following the date of this contract, excluding Sundays and holidays. To cancel this agreement, mail or deliver a signed and dated notice, or send a telegram which states that you, the buyer, are canceling this

agreement, or words of similar effect. This notice shall be sent to:

(Name of the business that sold you the contract)

(Address of the business that sold you the contract)."

(c) The dating service contract shall contain on the first page, in a type size no smaller than that generally used in the body of the document, the name and address of the dating service operator to which the notice of cancellation is to be mailed; and the date the buyer signed the contract.

(d) No dating service contract shall require payments or financing by the buyer over a period in excess of two years from the date the contract is entered into, nor shall the term of any such contract be measured by the life of the buyer. However, the services to be rendered to the buyer under the contract may extend over a period beginning within six months and ending within three years of the date the contract is entered into.

(e) If a dating service contract is not in compliance with this chapter, the buyer may, at any time, cancel the contract.

1694.3. Every dating service contract shall contain language providing that:

(a) If by reason of death or disability the buyer is unable to receive all services for which the buyer has contracted, the buyer and the buyer's estate may elect to be relieved of the obligation to make payments for services other than those received before death or the onset of disability, except as provided in paragraph (3).

(1) If the buyer has prepaid any amount for services, so much of the amount prepaid that is allocable to services that the buyer has not received shall be promptly refunded to the buyer or his or her representative.

(2) "Disability" means a condition which precludes the buyer from physically using the services specified in the contract during the term of disability and the condition is verified in writing by a physician designated and remunerated by the buyer. The written verification of the physician shall be presented to the seller.

(3) If the physician determines that the duration of the disability will be less than six months, the seller may extend the term of the contract for a period of six months at no additional charge to the buyer in lieu of cancellation.

(b) If the buyer relocates his or her primary residence further than 50 miles from the dating service office and is unable to transfer the contract to a comparable facility, the buyer may elect to be relieved of the obligation to make payment for services other than those received prior to that relocation, and if the buyer has prepaid any amount for dating services, so much of the amount prepaid that is allocable to services that the buyer has not received shall be promptly refunded to the buyer. A buyer who elects to be relieved of further obligation pursuant to this subdivision may be charged a

predetermined fee not to exceed one hundred dollars ($100) or, if more than half the life of the contract has expired, a predetermined fee not to exceed fifty dollars ($50).

1694.4. (a) Any contract for dating services which does not comply with this chapter is void and unenforceable.

(b) Any contract for dating services entered into under willful and fraudulent or misleading information or advertisements of the seller is void and unenforceable.

(c) Any buyer injured by a violation of this chapter may bring an action for the recovery of damages in a court of competent jurisdiction. Judgment may be entered for three times the amount at which the actual damages are assessed. Reasonable attorney fees may be awarded to the prevailing party.

(d) Notwithstanding the provisions of any contract to the contrary, whenever the contract price is payable in installments and the buyer is relieved from making further payments or entitled to a refund under this chapter, the buyer shall be entitled to receive a refund or refund credit of that portion of the cash price as is allocable to the services not actually received by the buyer. The refund of any finance charge shall be computed according to the "sum of the balance method," also known as the "Rule of 78."

(e) Any waiver by the buyer of this chapter is void and unenforceable.

SEC. 2. Chapter 2.2 (commencing with Section 1694.5) is added to Title 5 of Part 2 of Division 3 of the Civil Code, to read:

CHAPTER 2.2. WEIGHT LOSS CONTRACTS

1694.5. (a) As used in this chapter, a weight loss contract is a contract with any weight loss program or center that offers any of the following:

(1) Instruction, counseling, supervision, or assistance in weight reduction, body shaping, diet, and eating habits, by persons who are not licensed health care professionals.

(2) Use of facilities of a weight loss center for any of the purposes specified in paragraph (1).

(3) Membership in any group, club, association, or organization formed for any of the purposes specified in paragraph (1).

(4) Prepackaged, or premeasured "diet foods" provided by the weight loss program or center.

(b) This chapter does not apply to any contract for health studio services as defined in Section 1812.81.

1694.6. (a) In addition to any other right to revoke an offer, the buyer has the right to cancel a weight loss contract or offer until midnight of the third business day after the day on which the buyer signs an agreement or offer to purchase those services.

(b) Cancellation occurs when the buyer gives written notice of cancellation by certified mail or telegram to the seller at the address specified in the agreement or offer.

(c) Notice of cancellation, if given by mail, is effective when deposited in the mail properly addressed with postage prepaid.

(d) Notice of cancellation given by the buyer need not take the particular form as provided in the contract or offer to purchase and, however expressed, is effective if it indicates the intention of the buyer not to be bound by the weight loss contract.

(e) All moneys paid pursuant to any weight loss contract shall be refunded within 10 days of receipt of the notice of cancellation, except that payment shall be made for any services covered by the contract and received by the buyer prior to cancellation.

(f) The buyer may notify the weight loss program of his or her intent to cancel the contract within the three-day period specified in this section and stop the processing of a credit card voucher or check by telephone notification to the weight loss program. However, this does not negate the obligation of the buyer to cancel the contract by certified mail or telegram as required pursuant to this section.

1694.7. (a) A weight loss contract shall be in writing. A copy of the contract shall be provided to the buyer at the time he or she signs the contract.

(b) Every weight loss contract shall contain on its face, and in close proximity to the space reserved for the signature of the buyer, a conspicuous statement in a size equal to at least 10-point boldface type, as follows:

"You, the buyer, may cancel this agreement at any time prior to midnight of the original contract seller's third business day following the date of this contract, excluding Sundays and holidays. To cancel this agreement, mail or deliver a signed and dated notice, or send a telegram which states that you, the buyer, are canceling this agreement, or words of similar effect. This notice shall be sent to:

_____

(Name of the business that sold you the contract)

_____."

(Address of the business that sold you the contract)

(c) The weight loss contract shall contain on the first page, in a type size no smaller than that generally used in the body of the document, the name and address of the weight loss program operator to which the notice of cancellation is to be mailed; and the date the buyer signed the contract.

(d) No weight loss contract shall require payments or financing by the buyer over a period in excess of two years from the date the contract is entered into, nor shall the term of any such contract be measured by the life of the buyer. The services to be rendered to the buyer under the contract shall not extend for more than three years after the date the contract is entered into.

(e) If a weight loss contract is not in compliance with this chapter, the buyer may, at any time, cancel the contract.

1694.8. Every weight loss contract shall contain language

providing that:

(a) If by reason of death or disability the buyer is unable to receive all services for which the buyer has contracted, the buyer and the buyer's estate may elect to be relieved of the obligation to make payments for services other than those received before death or the onset of disability, except as provided in paragraph (3).

(1) If the buyer has prepaid any amount for services, so much of the amount prepaid that is allocable to services that the buyer has not received shall be promptly refunded to the buyer or his or her representative.

(2) "Disability" means a condition which precludes the buyer from physically using the services specified in the contract during the term of disability and the condition is verified in writing by a physician designated and remunerated by the buyer. A buyer who elects to be relieved of further obligation pursuant to this subdivision may be charged a predetermined fee not to exceed one hundred dollars ($100) or, if more than half the life of the contract has expired, a predetermined fee not to exceed fifty dollars ($50).

(b) Any contract for weight loss services entered into under willful and fraudulent or misleading information or advertisements of the seller is void and unenforceable.

(c) Any buyer injured by a violation of this chapter may bring an action for the recovery of damages in a court of competent jurisdiction. Judgment may be entered for three times the amount at which the actual damages are assessed if the violation is willful. Reasonable attorney fees may be awarded to the prevailing party.

(d) Notwithstanding the provisions of any contract to the contrary, whenever the contract price is payable in installments and the buyer is relieved from making further payments or entitled to a refund under this chapter, the buyer shall be entitled to receive a refund or refund credit of that portion of the cash price as is allocable to the services not actually received by the buyer. The refund of any finance charge shall be computed according to the "sum of the balance method," also known as the "Rule of 78."

(e) Any waiver by the buyer of this chapter is void and unenforceable.

(c) The notice requirements of subdivision (b) apply to both of the following:

(1) The construction of a new facility.

(2) The expansion of an existing facility which burns hazardous waste which would increase its permitted capacity by more than 10 percent. (B) The facility capacity authorized in the facility's original hazardous waste facilities permit, grant of interim status, or any state or local agency permit allowing the construction or operation of a facility for the burning of hazardous waste, granted on or after January 1, 1990.

(d) The notice requirements specified in subdivision (a) or (b) shall not preclude a public agency from providing additional notice by other means if the agency so desires, or from providing the public notice required by this section at the same time and in the same manner as public notice otherwise required by law for the project.

SEC. 2. Section 21151.1 of the Public Resources Code is amended to read:

21151.1. (a) Notwithstanding paragraph (6) of subdivision (b) of Section 21080, or Section 21080.5 or 21084, or any other provision of

(b) For purposes of subdivision (a), the amount of expansion of an existing facility shall be calculated by comparing the proposed facility capacity with whichever of the following is applicable:

(1) The facility capacity authorized in the facility's hazardous waste facilities permit pursuant to Section 25200 of the Health and Safety Code or its grant of interim status pursuant to Section 25200.5 of the Health and Safety Code, or the facility capacity authorized in any state or local agency permit allowing the construction or operation of a facility for the burning of hazardous waste, granted before January 1, 1990.

(2) The facility capacity authorized in the facility's original hazardous waste facilities permit, grant of interim status, or any state or local agency permit allowing the construction or operation of a facility for the burning of hazardous waste, granted on or after January 1, 1990.

For purposes of this paragraph, "transportable" means any equipment which performs a "treatment" as defined in Section 66216 of Title 22 of the California Code of Regulations, and which is transported on a vehicle as defined in Section 66230 of Title 22 of the California Code of Regulations.

(5) Exclusively burns refinery waste in a flare on the site of generation.

(6) Exclusively burns in a flare methane gas produced at a

municipal sewage treatment plant.

(8) Exclusively burns soils contaminated only with petroleum fuels or the vapors from these soils.

(9) Exclusively treats less than 3,000 pounds of hazardous waste per day in a thermal processing unit operated in the absence of open flame, and submits a worst-case health risk assessment of the technology to the State Department of Health Services for review and distribution to the interested public. This assessment shall be prepared in accordance with guidelines set forth in the Air Toxics Assessment Manual of the California Air Pollution Control Officers Association.

(10) Exclusively burns less than 1,200 pounds of infectious waste per day, as defined in Section 25117.5 of the Health and Safety Code, on hospital sites.

(13) Exclusively conducts onsite burning of less than 3,000 pounds per day of fumes directly from a manufacturing or commercial process.

(d) Subdivision (a) does not apply to any project for which the State Energy Resources Conservation and Development Commission has assumed jurisdiction under Chapter 6 (commencing with Section 25500) of Division 15.

(e) This section does not exempt any project from any other requirement of this division.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because self-financing authority is provided in Section 21089 of the Public Resources Code to cover any costs that may be incurred in carrying on any program or performing any service required to be carried on

or performed by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure that projects currently under consideration, for which a determination has not been made under Section 21080.1 of the Public Resources Code as to whether an environmental impact report will be prepared, have environmental impact reports and to provide increased public notice as soon as possible, it is necessary that this act take effect immediately.

CHAPTER 142

An act to amend Section 742 of the Public Utilities Code, relating to telephones.

[Approved by Governor July 14, 1989 Filed with Secretary of State July 14, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 742 of the Public Utilities Code is amended to read:

742. (a) The commission shall, by rule or order, adopt and enforce operating requirements for coin-activated and credit card-activated telephones available for public use owned or operated by corporations or persons other than telephone corporations. These requirements shall include, but are not limited to, all of the following:

(1) A requirement that the telephone corporation furnishing service to the corporation or person owning or operating a coin-activated or credit card-activated telephone terminate service for any violation of the commission's rules or orders or of this section, upon a determination by the commission that the violation was a significant or repeated violation. (2) A requirement that every telephone permit a caller to be connected with the operator personnel of any telephone corporation authorized by the commission to operate within a service area by dialing the numeral "0" and with the emergency services switchboard reached by dialing the numerals "911" without insertion of any coin.

(3) A requirement that every telephone contain instructions for

(b) The commission shall require every telephone corporation which publishes a directory of subscribers to include in that directory information comprising the substance of this section and the rules and orders of the commission adopted pursuant to this section.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 143

An act to add Sections 26668 and 72110 to the Government Code, relating to counties.

[Approved by Governor July 14, 1989 Filed with Secretary of State July 14, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 26668 is added to the Government Code, to read:

26668. Notwithstanding any other provision of law, the Board of Supervisors of Riverside County may find, after holding a public hearing on the issue, that cost savings can be realized by consolidation of court-related services provided by the sheriff and both offices of the marshal within that county. If that finding is made, there shall be conducted among all of the judges of the superior and municipal courts of that county an election to determine the agency, either the sheriff or both offices of the marshal, under which court-related services shall be consolidated. The outcome shall be determined by a simple majority of votes cast. The registrar of voters shall administer that election and tabulate the results thereof. The results of that election shall be reported within 15 days following the election period, by the registrar of voters to the board of supervisors

and to the judges of the superior and municipal courts of that county. The board of supervisors shall immediately commence and, within a reasonable time not to exceed 90 days, implement the determination made by a majority of the votes cast in that election. If an election is not conducted within 90 days of notification of the board of supervisors' finding, or if the results of the election are evenly divided, the board of supervisors of that county shall determine under which agency, either the sheriff or both offices of the marshal, court-related services shall be consolidated; and shall proceed to implement the consolidation as if on the basis of a majority of the votes cast by the judges of the superior and municipal courts of that county.

SEC. 2. Section 72110 is added to the Government Code, to read:

72110. (a) Notwithstanding any other provision of law, the Board of Supervisors of Riverside County may find, after holding a public hearing on the issue, that cost savings can be realized by consolidation of court-related services provided by the sheriff and both offices of the marshal within that county. If that finding is made, there shall be conducted among all of the judges of the superior and municipal courts of that county an election to determine the agency, either the sheriff or both offices of the marshal, under which court-related services shall be consolidated. The outcome shall be determined by a simple majority of votes cast. The registrar of voters shall administer that election and tabulate the results thereof. The results of that election shall be reported within 15 days following the election period by the registrar of voters to the board of supervisors and to the judges of the superior and municipal courts of that county. The board of supervisors shall immediately commence and, within a reasonable time not to exceed 90 days, implement the determination made by a majority of the votes cast by the judges of the superior and municipal courts of the county in that election. If an election is not conducted within 90 days of notification of the board of supervisors' finding, or if the results of the election are evenly divided, the board of supervisors of that county shall determine under which agency, either the sheriff or both offices of the marshal, court-related services shall be consolidated, and shall proceed to implement that consolidation as if on the basis of a majority of the votes cast by the judges of the superior and municipal courts of that county.

(b) Notwithstanding any other provision of law, the marshals and all personnel of the marshals' offices or personnel of the sheriff's office affected by a consolidation of court-related services under this section or Section 26668 shall become employees of that consolidated office at their existing or equivalent classifications, salaries, and benefits, and except as may be necessary for the operation of the agency under which court-related services are consolidated, shall not be involuntarily transferred during a period of six years following the consolidation out of that consolidated court-related services office. The elective offices of marshal for the County of Riverside shall be

abolished upon a determination pursuant to the procedures required by this section or Section 26668 that consolidated court-related services shall be provided by the sheriff.

(c) Permanent employees of the marshals' offices or sheriff's office on the effective date of a consolidation under this section or Section 26668 shall be deemed qualified, and no other qualifications shall be required for employment or retention. Probationary employees of the sheriff's office or the marshals' offices on the effective date of a consolidation under this section or Section 26668 shall retain their probationary status and rights, and shall not be deemed to have transferred so as to require serving a new probationary period. Transferring personnel may be required to take a promotional examination to promote to a higher classification but shall not be required to retest for his or her existing classification as a prerequisite to testing for a higher classification. A transferring deputy marshal requesting a transfer to another division in the sheriff's office shall not be required to take a written test as a prerequisite to making a lateral transfer.

(d) All county service or service by employees of the sheriff's office or the marshals' offices on the effective date of a consolidation under this section or Section 26668 shall be counted toward seniority in that court-related services office, and all time spent in the same, equivalent, or higher classification shall be counted toward classification seniority.

(e) No employee of the sheriff's office or the marshals' offices on the effective date of a consolidation under this section or Section 26668 shall lose peace officer status, or be demoted or otherwise adversely affected by a consolidation of court services.

SEC. 3. Due to unique facts and circumstances applicable to Riverside County, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution. Special legislation is, therefore, necessarily applicable to only Riverside County.

CHAPTER 144

Every such sign erected or posted, on an established place of business, shall have an area of not less than two square feet per side displayed and shall contain lettering of sufficient size to enable the sign to be read from a distance of at least 50 feet. This section shall not apply to a dealer who is a wholesaler involved for profit only in the sale of vehicles between licensed dealers.

SECTION 1. Section 946.6 of the Government Code is amended to read:

946.6. (a) Where an application for leave to present a claim is denied or deemed to be denied pursuant to Section 911.6, a petition may be made to the court for an order relieving the petitioner from the provisions of Section 945.4. The proper court for filing the petition is a court which would be a competent court for the trial of an action on the cause of action to which the claim relates and which is located in a county or judicial district which would be a proper place for the trial of the action, and if the petition is filed in a court which is not a proper court for the determination of the matter, the court, on motion of any party, shall transfer the proceeding to a proper court.

(b) The petition must show (1) that application was made to the board under Section 911.4 and was denied or deemed denied, (2) the reason for failure to present the claim within the time limit specified in Section 911.2 and (3) the information required by Section 910. The petition shall be filed within six months after the application to the board is denied or deemed to be denied pursuant to Section 911.6.

(c) The court shall relieve the petitioner from the provisions of Section 945.4 if the court finds that the application to the board under Section 911.4 was made within a reasonable time not to exceed that specified in subdivision (b) of Section 911.4 and was denied or deemed denied pursuant to Section 911.6 and that one or more of the following is applicable:

(1) The failure to present the claim was through mistake, inadvertence, surprise, or excusable neglect unless the public entity establishes that it would be prejudiced in the defense of the claim if the court relieves the petitioner from the provisions of Section 945.4.

(2) The person who sustained the alleged injury, damage, or loss was a minor during all of the time specified in Section 911.2 for the presentation of the claim.

(3) The person who sustained the alleged injury, damage, or loss was physically or mentally incapacitated during all of the time specified in Section 911.2 for the presentation of the claim and by reason of the disability failed to present a claim during that time.

(4) The person who sustained the alleged injury, damage, or loss died before the expiration of the time specified in Section 911.2 for the presentation of the claim.

(d) A copy of the petition and a written notice of the time and place of hearing thereof shall be served before the hearing as prescribed by Section 1005 of the Code of Civil Procedure on (1) the clerk or secretary or board of the local public entity, if the respondent is a local public entity, or (2) the Attorney General, if the respondent is the state. If the petition involves a claim arising out of alleged actions or inactions of the Department of Transportation, service of the petition and notice of the hearing shall be made on the Attorney General or the Director of Transportation. Service on the Attorney General may be accomplished at any of the Attorney General's offices in Los Angeles, Sacramento, San Diego, or San Francisco. Service on the Director of Transportation may be accomplished only at the Department of Transportation's headquarters office in Sacramento.

(e) The court shall make an independent determination upon the petition. The determination shall be made upon the basis of the petition, any affidavits in support of or in opposition to the petition, and any additional evidence received at the hearing on the petition.

(f) If the court makes an order relieving the petitioner from the provisions of Section 945.4, suit on the cause of action to which the claim relates must be filed in that court within 30 days thereafter.

The people of the State of California do enact as follows:

SECTION 1. Section 31789.12 of the Government Code is amended to read:

31789.12. Notwithstanding Section 31789.1, the board may increase the sum payable pursuant to Section 31789.1 to one thousand dollars ($1,000).

Upon adoption by any county providing benefits pursuant to this section, of Article 5.5 (commencing with Section 31610) of this chapter, the board of retirement shall, instead, pay those benefits from the Supplemental Retiree Benefits Reserve established pursuant to Section 31618.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for

reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 150

An act to amend Section 1272.1 of the Penal Code, relating to bail.

[Approved by Governor July 14, 1989 Filed with Secretary of State July 17, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1272.1 of the Penal Code is amended to read:

1272.1. Release on bail pending appeal under subdivision (3) of Section 1272 shall be ordered by the court if the defendant demonstrates all the following:

(a) By clear and convincing evidence, the defendant is not likely to flee. Under this subdivision the court shall consider the following criteria:

(1) The ties of the defendant to the community, including his or her employment, the duration of his or her residence, the defendant's family attachments and his or her property holdings.

(2) The defendant's record of appearance at past court hearings or of flight to avoid prosecution.

(3) The severity of the sentence the defendant faces.

(b) By clear and convincing evidence, the defendant does not pose a danger to the safety of any other person or to the community.

Under this subdivision the court shall consider, among other factors, whether the crime for which the defendant was convicted is a violent felony, as defined in subdivision (c) of Section 667.5.

(c) The appeal is not for the purpose of delay and, based upon the record in the case, raises a substantial legal question which, if decided in favor of the defendant, is likely to result in reversal.

For purposes of this subdivision, a "substantial legal question" means a close question, one of more substance than would be necessary to a finding that it was not frivolous. In assessing whether a substantial legal question has been raised on appeal by the defendant, the court shall not be required to determine whether it committed error.

In making its decision on whether to grant defendants' motions for bail under subdivision (3) of Section 1272, the court shall include a brief statement of reasons in support of an order granting or denying a motion for bail on appeal. The statement need only include the

basis for the order with sufficient specificity to permit meaningful review.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

(d) This section shall not be interpreted to allow disclosure of any reports or records relevant to the reports of child abuse if the disclosure would be prohibited by any other provisions of state or federal law applicable to the reports or records relevant to the reports of child abuse.

SEC. 2. Section 11170 of the Penal Code is amended to read:

11170. (a) The Department of Justice shall maintain an index of all reports of child abuse submitted pursuant to Section 11169. The index shall be continually updated by the department and shall not contain any reports that are determined to be unfounded. If the department has information which has been received subsequent to January 1, 1981, concerning such a person, it shall also make available to the State Department of Social Services or the county licensing agency any other information maintained pursuant to subdivision (a).

64. (a) The Legislature hereby finds and declares that the growth of water hyacinth in the Sacramento-San Joaquin Delta, its tributaries, and the Suisun Marsh has occurred at an unprecedented level and that the resulting accumulations of water hyacinth obstruct navigation, impair other recreational uses of waterways, have the potential for damaging manmade facilities, and may threaten the health and stability of fisheries and other ecosystems within the delta and marsh. Accordingly, it is necessary that the state, in cooperation with agencies of the United States, undertake an aggressive program for the effective control of water hyacinth in the delta, its tributaries, and the marsh.

(b) The department is designated as the lead agency of the state for the purpose of cooperating with agencies of the United States and other public agencies in controlling water hyacinth in the delta, its tributaries, and the marsh.

(b) The department shall cause appropriate signs to be placed and maintained along those portions of the highways which the department has designated pursuant to subdivision (a) as official state scenic highways that indicate that those portions of the highways are official state scenic highways.

(c) If at any time the department, with the advice of the Departmental Transportation Advisory Committee, determines that a state highway, designated as an official state scenic highway pursuant to subdivision (a), no longer meets the standards for official state scenic highways, it may revoke the designation of the highway as an official state highway and remove the signs which so indicate the highway.

(c) The payments required shall be computed by the Executive Officer of the State Allocation Board and certified to the Controller, and payments shall be equal to one one-hundredth ($1/100$) of the original purchase price of the site modified by either a factor reflecting the change in assessed value of all lands in the state from the date of purchase of the site to the current date or any other factor that in the determination of the State Allocation Board is applicable to the site under consideration.

(d) Whenever the State Allocation Board has determined that a school district in good faith has, within the preceding year, advertised the schoolsite for sale to the highest bidder pursuant to the provisions of Article 4 (commencing with Section 39360) of Chapter 3 of Part 23 and has received no bids that in the judgment of the State Allocation Board reflect the fair market value of the property, the Executive Officer of the State Allocation Board shall not compute any nonuse payments for the site for a period of one year beyond the date of the determination.

(b) No ordinance or resolution enacted under subdivision (a) shall apply to any road on which the owner has erected a notice of a size, shape, and color as to be readily legible during daylight hours from a distance of 100 feet to the effect that the road is privately owned and maintained and that it is not subject to public traffic regulations or control.

transportation of hazardous material upon the public highways.

SEC. 3. Section 2542 of the Vehicle Code is amended to read:

[Approved by Governor July 14, 1989 Filed with Secretary of State July 17, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 130238 of the Public Utilities Code is amended to read:

130238. (a) The Legislature finds and declares that (1) because of the highly specialized and unique nature of all rail transit equipment, (2) because of products and materials which are undergoing rapid technological changes, and (3) for the introduction of new technological changes into the operations of the commission, it may be in the public interest to consider, in addition to price, factors such as vendor financing, performance reliability, standardization, life-cycle costs, delivery timetables, support logistics, and the broadest possible range of competing products and materials available, fitness of purchase, manufacturer's warranty, and similar factors in the award of contracts for these vehicles and equipment.

(b) This section applies only to the purchase by the commission of (1) specialized rail transit equipment, including rail cars, and (2) computers, telecommunications equipment, fare collections equipment, microwave equipment, and other related electronic equipment and apparatus. This section does not apply to contracts for construction or for the procurement of any product available in substantial quantities to the general public.

(c) The commission may, after finding by a two-thirds vote of all of its members that a particular procurement qualifies under subdivision (b), direct that the procurement be conducted through competitive negotiation under this section. For purposes of this section, competitive negotiation includes, but is not limited to, all of the following requirements:

(1) The request for proposals shall be prepared and submitted to an adequate number of qualified sources, as determined by the commission, to permit reasonable competition consistent with the nature and requirement of the procurement.

(2) Notice of the request for proposals shall be published at least twice in a newspaper of general circulation, at least 10 days before the date for receipt of the proposals.

(3) The request for proposals shall identify all significant evaluation factors, including price, and their relative importance.

(5) Award shall be made to the qualified proposer whose proposal will be most advantageous to the commission with price and all other factors considered.

(d) The commission, at its discretion, may reject any and all proposals and request new proposals.

(e) Any proposer may protest any acquisition conducted in accordance with this section by filing with the commission, within 10 days after receiving notice of the recommended award, exclusive of Saturdays and Sundays, a full and complete written statement specifying in detail the grounds of the protest and the facts supporting the protest. The protesting proposer shall be granted an opportunity to appear and be heard before the commission prior to the final award. The decision of the commission on the protest is final.

CHAPTER 166

An act to amend Section 2104 of, and to add Section 2107.5 to, the Public Utilities Code, relating to the Public Utilities Commission.

[Approved by Governor July 19, 1989 Filed with Secretary of State July 20, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 2104 of the Public Utilities Code is amended to read:

2104. Except as provided by Sections 2100 and 2107.5, actions to recover penalties under this part shall be brought in the name of the people of the State of California, in the superior court in and for the county, or city and county, in which the cause or some part thereof

arose, or in which the corporation complained of has its principal place of business, or in which the person complained of resides. The action shall be commenced and prosecuted to final judgment by the attorney of the commission. In any action, all penalties incurred up to the time of commencing the action may be sued for and recovered. In all of these actions, the procedure and rules of evidence shall be the same as in ordinary civil actions, except as otherwise herein provided. All fines and penalties recovered by the state in any action, together with the costs thereof, shall be paid into the State Treasury to the credit of the General Fund. Any action may be compromised or discontinued on application of the commission upon the terms the court approves and orders.

SEC. 2. Section 2107.5 is added to the Public Utilities Code, to read:

2107.5. When the commission finds, after hearing, that any person or corporation, other than a highway common carrier or a cement carrier, has knowingly aided or abetted a common carrier in violating Section 458 or has violated Section 459, or any order, decision, rule, regulation, direction, demand, or requirement issued under those provisions, the commission may impose a fine for each violation not to exceed five thousand dollars ($5,000). In addition to the fine, the commission may impose interest on the fine, not to exceed the maximum rate of interest provided for in Section 1 of Article XV of the Constitution. Interest shall commence to accrue on the date when the payment of the fine becomes delinquent.

CHAPTER 167

An act to add Section 230.3 to the Labor Code, relating to firefighters.

[Approved by Governor July 19, 1989 Filed with Secretary of State July 20, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 230.3 is added to the Labor Code, to read:

230.3. (a) No employer shall discharge or in any manner discriminate against an employee for taking time off to perform emergency duty as a volunteer firefighter.

(b) Any employee who is discharged, threatened with discharge, demoted, suspended, or in any other manner discriminated against in the terms and conditions of employment by his or her employer because the employee has taken time off to perform emergency duty as a volunteer firefighter shall be entitled to reinstatement and reimbursement for lost wages and work benefits caused by the acts of the employer. Any employer who willfully refuses to rehire, promote, or otherwise restore an employee or former employee who

has been determined to be eligible for rehiring or promotion by a grievance procedure, arbitration, or hearing authorized by law, is guilty of a misdemeanor.

(c) Subdivisions (a) and (b) of this section shall not apply to any public safety agency or provider of emergency medical services when, as determined by the employer, the employee's absence would hinder the availability of public safety or emergency medical services.

(d) For purposes of this section, "volunteer firefighter" shall have the same meaning as the term "volunteer" in subdivision (m) of Section 50952 of the Government Code.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 168

An act to add Section 19133 to the Government Code, relating to state government.

[Approved by Governor July 19, 1989 Filed with Secretary of State July 20, 1989].

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares that it is the policy of the State of California to do all of the following:

(a) To provide coordinated work-study experiences to the postsecondary education students of California.

(b) To have students provide services to the state departments in a manner consistent with short-term departmental needs.

(c) To provide student employment opportunities to minority, female, and disabled students in career fields where they have been traditionally underrepresented.

SEC. 2. Section 19133 is added to the Government Code, to read:

19133. (a) Any state agency may enter into an agreement with any public or private institution of higher education in California, nonprofit campus foundation, or state higher education foundation to provide part-time employment to students attending a public or private institution of higher education that contracts with the state agency, or to students attending a public or private institution which

is affiliated with a nonprofit campus foundation, or a state higher education foundation, that contracts with a state agency, in work related to the field of study of the student.

(b) Notwithstanding any other provision of law to the contrary, no student employed pursuant to this section shall do any of the following:

(1) Accrue state civil service status.

(2) Be employed for more than 194 days in the 365 days following the initial date of employment.

(3) Cause the displacement of civil service employees.

(c) "Displacement," for the purposes of this section, includes layoffs, demotions, involuntary transfers to a new class, involuntary transfers to a new location requiring a change of residence, and time-based reductions. "Displacement," for the purposes of this section, shall not include changes in shifts or days off nor shall it include reassignment to other positions within the same class and general location.

CHAPTER 169

An act to amend Section 19995.4 of the Government Code, relating to state employees.

[Approved by Governor July 19, 1989 Filed with Secretary of State July 20, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 19995.4 of the Government Code is amended to read:

19995.4. (a) The department shall devise plans for, and cooperate with appointing powers in the conduct of, supervisorial employee training programs so that the quality of supervisorial services rendered by persons in those positions may be continually improved.

(b) Each supervisorial employee, upon the employee's initial appointment to a designated supervisory position, shall be provided a minimum of 80 hours of training, at least 40 hours of which shall be structured and be provided by a qualified instructor. The training shall consist of the role of the supervisor, techniques of supervision, planning, organizing, staffing and controlling, performance standards, performance appraisal, affirmative action, discipline, labor relations, and grievances. Every supervisor shall have access to a copy of each bargaining agreement covering the employees he or she supervises. The additional 40 hours of training may be provided on-the-job by a qualified higher level supervisor or manager.

(c) The entire 80 hours of training shall be completed within the term of the probationary period or within 12 months of appointment

to a supervisorial classification. The training shall be completed within the term of the probationary period unless it is demonstrated that to do so creates additional costs or that the training cannot be completed during the probationary period due to the limited availability of training courses.

CHAPTER 170

An act to amend Sections 54999.1, 66003, and 66006 of the Government Code, relating to developer fees.

[Approved by Governor July 19, 1989 Filed with Secretary of State July 20, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 54999.1 of the Government Code is amended to read:

54999.1. For purposes of this chapter:

(a) "Actual construction costs" includes the cost of all activities necessary or incidental to the construction of a public utility facility, such as financing, planning, designing, acquisition of property or interests in property, construction, reconstruction, and rehabilitation.

(b) "Capital facilities fee" or "capacity charge" means any nondiscriminatory charge to pay the capital cost of a public utility facility.

(c) "Public agency" means the United States or any of its agencies, the state or any of its agencies, the Regents of the University of California, a county, a city, a district, a public authority, or any other political subdivision or public corporation of this state.

(d) "Public utility facility" means a facility for the provision of water, light, heat, communications, power, or garbage service, for flood control, drainage or sanitary purposes, or for sewage collection, treatment, or disposal.

(e) "Public utility service" means service provided from a public utilities facility.

(f) "Nondiscriminatory" means that the capital facilities fee does not exceed an amount determined on the basis of the same objective criteria and methodology applicable to comparable nonpublic users, and is not in excess of the proportionate share of the cost of the public utility facilities of benefit to the person or property being charged, based upon the proportionate share of use of those facilities.

(g) "State agency" or "state" means any state office, department, division, bureau, board, or commission.

(h) A capital facilities fee is imposed on the date on which the statement of charges for a public utility service is mailed or otherwise transmitted to the public agency that is receiving or will receive the

public utility's service.

SEC. 2. Section 66003 of the Government Code is amended to read:

66003. Sections 66001 and 66002 do not apply to a fee imposed pursuant to a reimbursement agreement by and between a local agency and a property owner or developer for that portion of the cost of a public facility paid by the property owner or developer which exceeds the need for the public facility attributable to and reasonably related to the development. This chapter shall become operative on January 1, 1989.

SEC. 3. Section 66006 of the Government Code is amended to read:

66006. (a) If a local agency requires the payment of a fee specified in subdivision (c) in connection with the approval of a development project, the local agency receiving the fee shall deposit it with the other fees for the improvement in a separate capital facilities account or fund in a manner to avoid any commingling of the fees with other revenues and funds of the local agency, except for temporary investments, and expend those fees solely for the purpose for which the fee was collected. Any interest income earned by moneys in the capital facilities account or fund shall also be deposited in that account or fund and shall be expended only for the purpose for which the fee was originally collected.

(b) For each separate account or fund established pursuant to subdivision (a), the local agency shall, within 60 days of the close of each fiscal year, make available to the public the beginning and ending balance for the fiscal year and the fee, interest, and other income and the amount of expenditure by public facility and the amount of refunds made pursuant to subdivision (e) of Section 66001 during the fiscal year. The local agency shall review this information at the next regularly scheduled public meeting not less than 15 days after the availability of the information required by this subdivision.

(c) For purposes of this section, "fee" means any fee imposed to provide for an improvement to be constructed to serve a development project, or which is a fee within the meaning of subdivision (b) of Section 66000, and that is imposed by the local agency as a condition of approving the development project.

(d) Any person may request an audit of any local agency fee or charge that is subject to Section 54997, including fees or charges of school districts, in accordance with that section.

(e) The Legislature finds and declares that untimely or improper allocation of development fees hinders economic growth and is, therefore, a matter of statewide interest and concern. It is, therefore, the intent of the Legislature that subdivision (a) shall supersede all conflicting local laws and shall apply in charter cities.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level

of service mandated by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 172

An act to amend Sections 18353, 18357, and 18415 of, and to repeal and add Section 18360 of, the Financial Code, relating to industrial loan companies.

[Approved by Governor July 19, 1989 Filed with Secretary of State July 20, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 18353 of the Financial Code is amended to read:

18353. If an industrial loan company fails to pay the assessment provided in Section 18350 on or before the 30th day of December following the day upon which payment is due, the commissioner may by order summarily suspend or revoke the certificate issued to that company. If, after such an order is made, a request for hearing is filed in writing within 15 days from the date of service of the order and a hearing is not held within 60 days thereafter, the order is deemed rescinded as of its effective date. During any period when its certificate is revoked or suspended, a company shall not issue thrift certificates or make loans or otherwise conduct business pursuant to this division except as may be permitted by order of the commissioner; provided, however, that neither the revocation, suspension or surrender of a certificate shall affect the powers of the commissioner as provided in this division.

This section shall become operative January 1, 1969. For the purpose of making its provisions operative, the commissioner shall issue to all industrial loan companies authorized to conduct business under this division on said date a certificate of authorization to conduct business pursuant to this division in such form as the commissioner may prescribe and as provided in Section 18101 and thereafter all such companies shall be conclusively presumed to be conducting business under this division pursuant to such certificate of authorization.

SEC. 2. Section 18357 of the Financial Code is amended to read:

18357. (a) If it appears to the commissioner that an industrial loan company has violated or failed to comply with the provisions of its articles of incorporation, or with any law of this state, the commissioner may by written order addressed to the company, direct that company to discontinue the violation and to comply with

the law.

(b) Whenever it appears from the report of an industrial loan company or the commissioner has reason to conclude, that the capital stock of an industrial loan company is impaired or reduced below the amount required by this division, the commissioner shall by written order addressed to the company, direct that company to make good the alleged deficiency or impairment of capital. If the company fails to make good the alleged deficiency or impairment of capital, the commissioner may forthwith take possession of the property and business of the industrial loan company pursuant to Section 18415. If the company fails to make good the alleged deficiency or impairment of capital within 60 days of the date of the order, the commissioner shall take possession of the industrial loan company pursuant to Section 18415. (k) An industrial loan company has sold or issued investment certificates in violation of the provisions of this division.

(*l*) An industrial loan company has failed to maintain in effect a bond required under the provisions of this division.

(m) Any fact or condition exists which, if it had existed at the time of the original application for authority to organize and establish a corporation to engage in the industrial loan business reasonably would have warranted the commissioner in disapproving the application.

(n) An application for membership in the Federal Deposit Insurance Corporation has not been filed with and accepted by the Federal Deposit Insurance Corporation on or before January 15, 1990.

SEC. 2. Section 11126 of the Government Code is amended to read:

11126. (a) Nothing in this article shall be construed to prevent a state body from holding closed sessions during a regular or special meeting to consider the appointment, employment, or dismissal of a public employee or to hear complaints or charges brought against that employee by another person or employee unless the employee requests a public hearing. As a condition to holding a closed session on the complaints or charges to consider disciplinary action or to consider dismissal, the employee shall be given written notice of his or her right to have a public hearing, rather than a closed session, which notice shall be delivered to the employee personally or by mail at least 24 hours before the time for holding a regular or special meeting. If notice is not given, any disciplinary or other action taken against any employee at the closed session shall be null and void. The state body also may exclude from any public or closed session, during the examination of a witness, any or all other witnesses in the matter being investigated by the state body. Following the public hearing or closed session, the body may deliberate on the decision to be reached in a closed session.

For the purposes of this section, "employee" shall not include any person who is elected to, or appointed to a public office by, any state body. However, officers of the California State University who receive compensation for their services, other than per diem and ordinary and necessary expenses, shall, when engaged in that capacity, be considered employees.

(b) Nothing in this article shall be construed to prevent state bodies which administer the licensing of persons engaging in businesses or professions from holding closed sessions to prepare, approve, grade, or administer examinations.

(c) Nothing in this article shall be construed to prevent an advisory body of a state body which administers the licensing of persons engaged in businesses or professions from conducting a closed session to discuss matters which the advisory body has found would constitute an unwarranted invasion of the privacy of an individual licensee or applicant if discussed in an open meeting, provided the advisory body does not include a quorum of the

members of the state body it advises. Those matters may include review of an applicant's qualifications for licensure and an inquiry specifically related to the state body's enforcement program concerning an individual licensee or applicant where the inquiry occurs prior to the filing of a civil, criminal, or administrative disciplinary action against the licensee or applicant by the state body.

(d) Nothing in this article shall be construed to prohibit a state body from holding a closed session to deliberate on a decision to be reached based upon evidence introduced in a proceeding required to be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 or similar provisions of law.

(e) Nothing in this article shall be construed to prevent any state body from holding a closed session to consider matters affecting the national security.

(f) Nothing in this article shall be construed to grant a right to enter any correctional institution or the grounds of a correctional institution where that right is not otherwise granted by law, nor shall anything in this article be construed to prevent a state body from holding a closed session when considering and acting upon the determination of a term, parole, or release of any individual or other disposition of an individual case, or if public disclosure of the subjects under discussion or consideration is expressly prohibited by statute.

(g) Nothing in this article shall be construed to prevent any closed session to consider the conferring of honorary degrees, or gifts, donations, and bequests which the donor or proposed donor has requested in writing to be kept confidential.

(h) Nothing in this article shall be construed to prevent the Alcoholic Beverage Control Appeals Board from holding a closed session for the purpose of holding a deliberative conference as provided in Section 11125.

(i) Nothing in this article shall be construed to prevent a state body from holding closed sessions with its negotiator prior to the purchase, sale, exchange, or lease of real property by or for the state body to give instructions to its negotiator regarding the price and terms of payment for the purchase, sale, exchange, or lease.

However, prior to the closed session, the state body shall hold an open and public session in which it identifies the real property or real properties which the negotiations may concern and the person or persons with whom its negotiator may negotiate.

For purposes of this subdivision, the negotiator may be a member of the state body.

For purposes of this subdivision, "lease" includes renewal or renegotiation of a lease.

Nothing in this subdivision shall preclude a state body from holding a closed session for discussions regarding eminent domain proceedings pursuant to subdivision (q).

(j) Nothing in this article shall be construed to prevent the California Postsecondary Education Commission from holding closed sessions to consider matters pertaining to the appointment or

termination of the Director of the California Postsecondary Education Commission.

(k) Nothing in this article shall be construed to prevent the Franchise Tax Board from holding closed sessions for the purpose of discussion of confidential tax returns or data the public disclosure of which is prohibited by law, or from considering matters pertaining to the appointment or removal of the executive officer of the Franchise Tax Board.

(*l*) Nothing in this article shall be construed to prevent the Board of Corrections from holding closed sessions when considering reports of crime conditions under Section 6027 of the Penal Code.

(m) Nothing in this article shall be construed to prevent the State Air Resources Board from holding closed sessions when considering the proprietary specifications and performance data of manufacturers.

(n) Nothing in this article shall be construed to prevent a state body which invests retirement, pension, or endowment funds from holding closed sessions when considering investment decisions. For purposes of consideration of shareholder voting on corporate stocks held by the state body, closed sessions for the purposes of voting may be held only with respect to election of corporate directors, election of independent auditors, and other financial issues which could have a material effect on the net income of the corporation. For the purpose of real property investment decisions which may be considered in a closed session pursuant to this subdivision, a state body shall also be exempt from the provision of subdivision (i) relating to the identification of real properties prior to the closed session.

(o) Nothing in this article shall be construed to prevent a state body, or such boards, commissions, administrative officers, or other representatives as may properly be designated by law or by a state body, from holding closed sessions with its representatives in discharging its responsibilities under Chapter 10 (commencing with Section 3500) of Division 4 of Title 1 as the sessions relate to salaries, salary schedules, or compensation paid in the form of fringe benefits. For the purposes enumerated in the preceding sentence, a state body may also meet with a state conciliator who has intervened in the proceedings.

(p) Notwithstanding any other provision of law, any meeting of the Public Utilities Commission at which the rates of entities under the commission's jurisdiction are changed shall be open and public.

Nothing in this article shall be construed to prevent the Public Utilities Commission from holding closed sessions to deliberate on the institution of proceedings, or disciplinary actions against regulated utilities.

(q) Nothing in this article shall be construed to prevent a state body, based on the advice of its legal counsel, from holding a closed session to confer with, or receive advice from, its legal counsel regarding pending litigation when discussion in open session

concerning those matters would prejudice the position of the state body in the litigation.

For purposes of this article, all expressions of the lawyer-client privilege other than those provided in this subdivision are hereby abrogated. This subdivision is the exclusive expression of the lawyer-client privilege for purposes of conducting closed-session meetings pursuant to this article. For purposes of this subdivision, litigation shall be considered pending when any of the following circumstances exist:

(1) An adjudicatory proceeding before a court, an administrative body exercising its adjudicatory authority, a hearing officer, or an arbitrator, to which the state body is a party, has been initiated formally.

(2) (A) A point has been reached where, in the opinion of the state body on the advice of its legal counsel, based on existing facts and circumstances, there is a significant exposure to litigation against the state body; or

(B) Based on existing facts and circumstances, the state body is meeting only to decide whether a closed session is authorized pursuant to subparagraph (A).

(3) Based on existing facts and circumstances, the state body has decided to initiate or is deciding whether to initiate litigation.

The legal counsel of the state body shall prepare and submit to it a memorandum stating the specific reasons and legal authority for the closed session. If the closed session is pursuant to paragraph (1), the memorandum shall include the title of the litigation. If the closed session is pursuant to paragraph (2) or (3), the memorandum shall include the existing facts and circumstances on which it is based. The legal counsel shall submit the memorandum to the state body prior to the closed session, if feasible, and in any case no later than one week after the closed session. The memorandum shall be exempt from disclosure pursuant to Section 6254.1.

For purposes of this subdivision, "litigation" includes any adjudicatory proceeding, including eminent domain, before a court, administrative body exercising its adjudicatory authority, hearing officer, or arbitrator.

Disclosure of a memorandum required under this subdivision shall not be deemed as a waiver of the lawyer-client privilege, as provided for under Article 3 (commencing with Section 950) of Chapter 4 of Division 8 of the Evidence Code.

(r) Nothing in this article shall be construed to prevent the examining committee established by the State Board of Forestry, pursuant to Section 763 of the Public Resources Code, from conducting a closed session to consider disciplinary action against an individual professional forester prior to the filing of an accusation against the forester pursuant to Section 11503.

(s) Nothing in this article shall be construed to prevent an administrative committee established by the State Board of Accountancy pursuant to Section 5020 or 5020.3 of the Business and

Professions Code from conducting a closed session to consider disciplinary action against an individual accountant prior to the filing of an accusation against the accountant pursuant to Section 11503. Nothing in this article shall be construed to prevent an examining committee established by the Board of Accountancy pursuant to Section 5023 of the Business and Professions Code from conducting a closed hearing to interview an individual applicant or accountant regarding the applicant's qualifications.

(t) Nothing in this article shall be construed to prevent a state body, as defined in Section 11121.2, from conducting a closed session to consider any matter which properly could be considered in closed session by the state body whose authority it exercises.

(u) Nothing in this article shall be construed to prevent a state body, as defined in Section 11121.7, from conducting a closed session to consider any matter which properly could be considered in a closed session by the body defined as a state body pursuant to Section 11121, 11121.2, or 11121.5.

(v) Nothing in this article shall be construed to prevent a state body, as defined in Section 11121.8, from conducting a closed session to consider any matter which properly could be considered in a closed session by the state body it advises.

(w) Nothing in this article shall be construed to prevent the State Board of Equalization from holding closed sessions for either of the following:

(1) When considering matters pertaining to the appointment or removal of the executive secretary of the State Board of Equalization.

(2) For the purpose of hearing confidential taxpayer appeals or data, the public disclosure of which is prohibited by law.

(x) Nothing in this article shall be construed to prevent the California Earthquake Prediction Evaluation Council, or other body appointed to advise the Director of the Office of Emergency Services or the Governor pursuant to Section 8590 concerning matters relating to volcanic or earthquake predictions, from holding closed sessions when considering the evaluation of possible predictions

(y) This article shall not prevent the Teachers' Retirement Board or the Board of Administration of the Public Employees' Retirement System from holding closed sessions when considering matters pertaining to the recruitment, appointment, employment, or removal of the chief executive officer or when considering matters pertaining to the recruitment or removal of the chief investment officer of the State Teachers' Retirement System or the Public Employees' Retirement System.

19602. (a) Notwithstanding any other provision of law, any racing association in this state may authorize betting systems located outside of this state to accept wagers on a race or races conducted by that association and may transmit live audio visual signals of the race or races and their results to these betting systems, except that any authorization is subject to applicable federal laws, including, but not limited to, Chapter 57 (commencing with Section 3001) of Title 15 of the United States Code.

(b) Any racing association described in subdivision (a), when it authorizes betting systems located outside of this state to accept wagers on a race shall pay a license fee to the state in an amount equal to 10 percent of the total amount received by the association from the out-of-state betting system. However, if the out-of-state betting system is a parimutuel betting system, the association shall pay to the state either 10 percent of the total amount received by the association or one-half of 1 percent of the handle, whichever is greater. The remaining amount received by the association shall be distributed to the association which conducts the racing meeting and to horsemen participating in that racing meeting as follows: 50 percent to the association as commissions and 50 percent to the horsemen as purses.

(c) With permission of the board, wagers accepted by betting systems located outside of this state may be, but are not required to be, included in the parimutuel pool of the association which conducts the racing meeting in this state. If the wagers accepted by betting systems located outside of this state are included in the parimutuel pool of the association which conducts the racing meeting in this state, the betting system located outside of this state shall, if permissible under applicable law, deduct from the total amount handled in each conventional and exotic parimutuel pool the same total percentages deducted pursuant to Article 9.5 (commencing with Section 19610) by the association which conducts the racing meeting in this state. If the laws of the jurisdiction in which the betting system is located do not permit the betting system to deduct the same percentages as are deducted by the association which conducts the racing, the board may, nonetheless, permit the inclusion of those out-of-state wagers in the association's parimutuel pool if the board determines it to be in the public interest of this state to do so.

(d) If wagers accepted by an association conducting racing within the state and wagers accepted by a betting system located outside of the state are combined in one parimutuel pool and the association and the betting system both deduct the same total percentages as set forth in subdivision (c), the breakage shall be allocated among the association and the betting system on the basis of funds handled.

Each shall be allocated a percentage of breakage equal to the amount of funds handled by the association or betting system, respectively, divided by the total amount of the funds included in the parimutuel pool.

(e) If wagers accepted by an association conducting racing within the state are combined in one parimutuel pool with wagers accepted by a betting system located outside the state and the association and the betting system deduct different percentages from the amount handled in the parimutuel pool, a preliminary determination as to payments to be made on winning tickets shall be made using the lower of the two percentages, and funds for payment of winning tickets shall be allocated between the association and the betting system on the basis of that computation. Breakage resulting from that determination shall be allocated between the association and the betting system as provided in subdivision (d). The entity deducting the lower percentage shall pay winning tickets on the basis of this computation. The entity deducting the higher percentage shall deduct the additional amount from the funds allocated to it by the preliminary computation and recompute payments to be made on winning tickets on that basis. Any additional breakage generated by that recomputation shall be allocated to that entity and, if the entity is an association conducting racing in this state, that additional breakage shall be distributed as provided under subdivision (f).

(f) Breakage allocated pursuant to this section to an association conducting racing within this state shall be distributed in the same manner as would be breakage arising from wagers at the association in the absence of a combined parimutuel pool. This section does not apply to the disposition of breakage allocated to the betting system located outside of the state.

(g) A betting system shall allow the same period of time for presentation of winning tickets or claims relating to those tickets as is allowed by the association conducting racing under this chapter. If the laws of the jurisdiction in which the betting system is located require a longer period of time for presentation of tickets or claims, wagers accepted by that system may not be included in the parimutuel pool of the association.

(h) If wagers accepted by a betting system located outside of this state are included in the parimutuel pool of an association conducting racing in this state, funds in the parimutuel pool attributable to unclaimed tickets relating to wagers accepted by the association conducting racing within the state shall be distributed in the same manner as unclaimed tickets relating to wagers accepted by that association in the absence of a combined parimutuel pool. Funds in the parimutuel pool attributable to unclaimed tickets related to wagers accepted by the betting system located outside of this state shall be allocated to that betting system, and this section does not otherwise apply to the disposition of those funds at that location outside of the state.

SEC. 4. Section 19616 of the Business and Professions Code is

amended to read:

19616. (a) Notwithstanding any other provision of law, wagers accepted on out-of-state feature races pursuant to Section 19596, but not included in the parimutuel pool or pools if the entity conducting the out-of-state racing, shall be placed in a separate parimutuel pool or pools and shall be distributed as provided by this section.

(b) Each association accepting wagers on an out-of-state feature race shall deduct a percentage of the amount handled in its conventional and exotic parimutuel pools which is equal to the percentage deducted from the amount handled by the association in its parimutuel pools at its racing meeting.

(c) Each association shall pay a state license fee at the rate or rates applicable to the races of the association's racing program for the day on which the out-of-state feature race is offered. If the association does not conduct a regular racing program on that day of the meeting, the state license fee shall be paid at the rate or rates applicable to the most immediate prior day of the racing program.

(d) Breakage and unclaimed tickets on out-of-state feature races shall be distributed 50 percent as commissions and 50 percent as purses.

(e) The amount remaining from the deduction under subdivision (b), after payment of the state license fee and the contractual payment to the out-of-state host racing association, shall be distributed 50 percent as commissions and 50 percent as purses.

(f) From the amount distributed under subdivision (e) for thoroughbred, quarter horse, and Appaloosa purses, a sum equal to 13.33 percent thereof shall be held by the association to be paid as owners' premiums for California-breds winning at the meeting. The sum shall be deposited within 10 days of the close of the meeting with the officially recognized organizations representing the respective breeds. After deduction of expenses, not to exceed 5 percent, and approval of all the deductions by the board, the fund shall be distributed on a prorated percentage basis of first moneys earned to persons owning California-bred racehorses at the time of their wins in accordance with subdivision (b) of Section 19612.2 and subdivision (c) of Section 19617.

SEC. 5. Section 19616.1 is added to the Business and Professions Code, to read:

19616.1. (a) Notwithstanding any other provision of law, wagers accepted on out-of-state feature races pursuant to Section 19596 and included in the parimutuel pool or pools of the entity conducting the out-of-state racing shall be distributed as provided in this section.

(b) From the amount handled by the association and included in the parimutuel pool or pools of the entity conducting the out-of-state racing, each association shall deduct a percentage equal to the percentage deducted from the amount handled by the association in its parimutuel pools at its racing meeting.

(c) From the amount deducted pursuant to subdivision (b), each association shall pay a state license fee at the rate or rates applicable

to the races of the association's racing program for the day on which the out-of-state feature is offered.

(d) Breakage and unclaimed tickets on out-of-state feature races shall be distributed 50 percent as commission and 50 percent as purses.

(e) The amount remaining from the deduction under subdivision (b), after payment of the state license fee and the contractual payment to the out-of-state host racing association, shall be distributed 50 percent as commissions and 50 percent as purses.

(f) From the amount distributed under subdivision (e) for thoroughbred, quarter horse, and Appaloosa purses, a sum equal to 13.33 percent thereof shall be held by the association to be paid as owners' premiums for California-breds winning at the meeting. The sum shall be deposited within 10 days of the close of the meeting with the officially recognized organization representing the respective breeds. After deduction of expenses, not to exceed 5 percent, and approval of all the deductions by the board, the funds shall be distributed on a prorated percentage basis of first moneys earned to persons owning California-bred racehorses at the time of their wins in accordance with subdivision (b) of Section 19612.2 and subdivision (c) of Section 19617.

CHAPTER 182

An act to amend Sections 17911.5 and 17912.2 of, to repeal and add Sections 17911.4 and 17911.6 to, and to add Sections 17910.2 and 17911.7 to, the Education Code, relating to schoolbuses, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1989 Filed with Secretary of State July 20, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 17910.2 is added to the Education Code, to read:

17910.2. The Legislature finds and declares that there are many schoolbuses operating in this state which are not fuel efficient and do not meet current federal standards of safety, and that ensuring the safety of schoolbus transportation is a matter of the highest importance. It is, therefore, the intent of the Legislature, in enacting this part, to create a program for the purchase of new schoolbuses which meet federal safety standards and operate with greater efficiency and produce fewer adverse air emissions than the vehicles being replaced.

It is further the intent of the Legislature that the replacement schoolbuses provided under this program be distributed to as diverse a selection of districts as is consistent with safety and energy

considerations.

SEC. 2. Section 17911.4 of the Education Code is repealed.

SEC. 3. Section 17911.4 is added to the Education Code, to read:

17911.4. All candidate schoolbuses selected by the commission for replacement shall be inspected by the department to determine all of the following criteria:

(a) The dates of manufacture of the schoolbuses. The schoolbuses shall have been manufactured prior to April 1, 1977, and shall have been certified during the prior school year pursuant to Section 2807 of the Vehicle Code.

(b) The total accumulated mileage of each candidate schoolbus, as supported by the owner's records and records of the department. Any records maintained by the superintendent may also be considered in determining the true accumulated mileage of a candidate schoolbus.

(c) The average number of miles per day each candidate schoolbus traveled during the prior school year and to date during the current school year, as evidenced by the owner's records. Any records maintained by the department or by the superintendent may also be considered in determining the true average daily miles of a candidate schoolbus.

(d) The dates of each of the last three annual certifications and the odometer reading for each of those dates.

SEC. 4. Section 17911.5 of the Education Code is amended to read:

17911.5. (a) Schoolbuses shall be purchased by the Department of General Services pursuant to specifications developed by the commission. Title to any schoolbus purchased by the Department of General Services pursuant to this section shall be in the name of the local educational agency for which the schoolbus was purchased.

(b) Any schoolbus purchased with these funds shall meet all applicable federal motor vehicle safety standards, operate with greater energy efficiency, and produce fewer adverse air emissions than the vehicles being replaced.

(c) No replacement vehicle shall exceed the capacity of the vehicle being replaced, as estimated by the department. A local educational agency may use funds from any available source, other than grants received pursuant to this part, to pay that part of the cost of a schoolbus that exceeds the cost of a replacement vehicle, as estimated by the Department of General Services.

(d) A replacement vehicle may be of the same design, configuration, and nonpower-train specifications as the retired vehicle.

SEC. 5. Section 17911.6 of the Education Code is repealed.

SEC. 6. Section 17911.6 is added to the Education Code, to read:

17911.6. Local educational agencies may submit a statement describing special circumstances which are applicable to a qualified candidate schoolbus, such as the unavailability of repair or replacement parts, or any necessary chassis modifications requiring

the approval of the manufacturer of the chassis, as required by regulations of the department, with its application for a replacement schoolbus. The commission may consider those special circumstances in determining the local educational agencies that are to receive replacement schoolbuses.

SEC. 7. Section 17911.7 is added to the Education Code, to read:

17911.7. Schoolbuses replaced under this part shall not be used as schoolbuses, youth buses, school pupil activity buses, general public paratransit vehicles, or farm labor vehicles in this state.

SEC. 8. Section 17912.2 of the Education Code is amended to read:

17912.2. When a local educational agency accepts a replacement schoolbus, it shall also agree to participate in the demonstration program. That participation shall include maintaining records of mileage and fuel consumption, and reporting that information to the commission in a timely manner. The commission shall establish a procedure and requirement for participation in the demonstration program. All vehicles acquired under the demonstration program, at a minimum, shall meet all applicable laws and regulations, including those related to their acquisition by school districts, operation, fuel efficiency, air emissions, and safety.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the criteria for the selection of replacement schoolbuses prescribed by this act shall go into effect at the earliest possible time, and in order to expedite the implementation of the Katz Safe Schoolbus Clean Fuel Efficiency Demonstration Program by removing the requirement that procedures and requirements be established by regulation, it is necessary that this act take effect immediately.

CHAPTER 183

An act to add Chapter 8 (commencing with Section 3205) to Part 5 of Division 1 of the Revenue and Taxation Code, and to add Section 9880 to the Vehicle Code, relating to vessels.

[Approved by Governor July 20, 1989. Filed with Secretary of State July 20, 1989]

The people of the State of California do enact as follows:

SECTION 1. Chapter 8 (commencing with Section 3205) is added to Part 5 of Division 1 of the Revenue and Taxation Code, to read:

CHAPTER 8. TAX DELINQUENT VESSELS

3205. (a) The county tax collector may within 30 days after the delinquency date, give written notice to the owners of all property tax delinquent vessels that, in addition to standard county delinquent property tax procedures, the renewal of the certificate of number issued by the Department of Motor Vehicles will be withheld, as provided in Section 9880 of the Vehicle Code, until the delinquent taxes have been paid on that vessel.

(b) If the county tax collector has given notice pursuant to subdivision (a), he or she shall give written notice of the delinquency, by electronic transmission or otherwise, to the Department of Motor Vehicles for its recordation pursuant to Section 9880 of the Vehicle Code.

(c) If the county tax collector has given notice pursuant to subdivisions (a) and (b), the county tax collector shall also provide written notice to the Department of Motor Vehicles when the delinquency has been satisfied.

SEC. 2. Section 9880 is added to the Vehicle Code, to read:

9880. (a) Except as provided in subdivision (c), the department shall not renew the certificate of number of a vessel if the county tax collector has notified the department pursuant to Section 3205 of the Revenue and Taxation Code, that taxes are delinquent upon the vessel, and the department shall not subsequently issue a certificate of number until the owner presents a certificate of clearance from the county tax collector that the delinquent taxes have been paid on that vessel or until the county tax collector has provided notice to the department that the delinquency has been satisfied.

(b) The department shall record the notice of delinquent taxes on the vessel. If the department is notified by the county tax collector that the delinquency has been satisfied, the department shall, if all other requirements are satisfied, issue a certificate of number for the vessel. The department shall assess a fee upon each county tax collector in an amount that is sufficient to reimburse the department for its actual costs of administering this section.

(c) Whenever a vessel subject to this section is transferred, or not renewed for two renewal periods, the department shall notify the county tax collector of that fact and shall not thereafter withhold renewal of the certificate of number.

CHAPTER 184

An act to amend Sections 50519 and 50669 of the Health and Safety Code, relating to housing, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1989 Filed with Secretary of State July 20, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 50519 of the Health and Safety Code, is amended to read:

50519. (a) The Legislature finds and declares that the need for decent housing among individuals of very low and low income is great, and that residential hotels are often the only form of housing affordable to these individuals. Many residential hotels are in poor condition and in need of rehabilitation, and many are being demolished or converted to other uses. The state can play an important role in preserving the existence and improving the quality of this housing resource through sponsoring demonstration projects which will enable local sponsors to acquire, rehabilitate, maintain, or otherwise protect and improve residential hotels as a housing resource for persons of very low and low income. The demonstration projects should be undertaken and designed so as to demonstrate the feasibility of innovative methods of protecting and improving residential hotels and of improving their habitability while assuring their continued availability to persons of very low and low income.

(b) The following definitions govern the construction of this section:

(1) "Residential hotel" means any building containing six or more guestrooms or efficiency units, as defined by Section 17958.1, intended or designed to be used, or which are used, rented, or hired out, to be occupied, or which are occupied, for sleeping purposes by guests, which is also the primary residence of those guests, but does not mean any building containing six or more guestrooms or efficiency units, as defined by Section 17958.1, which is primarily used by transient guests who do not occupy that building as their primary residence.

(2) "Sponsor" means a local government or nonprofit housing sponsor.

(3) "Persons of low income" shall have the same meaning as persons of low income as defined in Section 50093 of the Health and Safety Code.

(c) The department, in conjunction with the State Fire Marshal, shall develop a model code for the rehabilitation of residential hotels. The department shall adopt the code on or before January 1, 1981. The code need not be adopted by any city, county, or city and county. However, those entities may adopt all or part of the code as

an alternative to the requirements of the State Housing Law, Part 1.5 (commencing with Section 17910) of Division 13, as that law applies to residential hotels.

The purpose of the standards shall be to protect the health, safety, and welfare of the occupants of those residential hotels, to allow the economically feasible rehabilitation of those residential hotels, and to assure to the extent possible the preservation of those residential hotels as housing for very low and low-income persons.

(d) The agency shall develop a program of financing and loan insurance for the purpose of assisting the rehabilitation and acquisition of residential hotels serving the housing needs of very low and low-income persons by appropriate sponsors, and shall implement that program on or before January 1, 1981.

In the event that the agency is unable to implement that program, it shall report to the Legislature on or before July 1, 1981, the reasons for its inability to implement that program, and recommend methods by which the agency could implement that program.

(e) The department shall contract, subject to the availability of federal funds, with selected sponsors to acquire, rehabilitate, maintain, or otherwise protect and improve residential hotels as housing for persons of low income. The contracts may provide for grants or loans at an interest rate which the department determines will facilitate the present and future use of residential hotels as housing for persons of very low and low income. Subject to the availability of funds, the department shall contract for the preservation and improvement of at least one residential hotel in a rural area. Subject to restrictions on funds received, the department shall give first priority to residential hotels financed or acquired with assistance from the agency pursuant to subdivision (d).

(f) In connection with contracts let pursuant to subdivision (e), the department shall fix, and may alter from time to time, a schedule of rents as may be necessary to assure affordable rents for persons of low income in residential hotels assisted by funds made available under subdivision (e), and to the extent consistent with the maintenance of the financial integrity of the sponsor of the project and with the requirements for repayment of any funds loaned as established by the department. No local government or nonprofit housing sponsor receiving funds through the provisions of subdivision (e) shall alter rents without the prior permission of the department, which permission shall be given only if the sponsor demonstrates that the alteration is necessary to defray necessary operating costs and to avoid jeopardizing the fiscal integrity of the sponsor or to maintain affordable rents to the residents in the project. If the department does not act upon a request for a rent increase within 60 days, the increase shall be deemed approved. In connection with contracts authorized by subdivision (e), the department may determine standards for the selection by sponsors of the tenants for units in projects funded by contracts pursuant to subdivision (e). The authority of the department to fix and alter

rents pursuant to this subdivision shall apply only to units within residential hotels which receive assistance pursuant to subdivision (e).

(g) On or before January 1, 1983, the department shall conduct an evaluation of the various projects funded pursuant to subdivision (e), and of the various methods of preserving and improving residential hotels as a housing resource for persons of low income, and will report on these projects and methods to the Legislature.

(h) On or before January 1, 1983, the department shall report to the Legislature on the extent of the use of residential hotels as housing for persons of low income, and on possible state actions to further the use of residential hotels and to improve existing conditions in residential hotels in a manner designed to maintain their use as housing for persons of low income.

SEC. 2. Section 50669 of the Health and Safety Code is amended to read:

50669. As used in Section 50670:

(a) "Deferred-payment loan" means a loan for acquisition and rehabilitation of a rental housing development which (1) has a term of not more than 30 years, but which shall not in any event exceed the useful life of the rental housing development for which such loan is made, as determined by the department, whichever is less, and (2) is repaid in a single payment upon refinancing of such development at the end of the term of the loan. Such loans shall bear interest at the rate of 3 percent per annum on the unpaid principal balance, provided however, that the department may reduce or eliminate interest payments on a loan for any year or alternatively defer interest payments until the deferred-payment loan is repaid, if in the exercise of sound discretion, the department determines such action is necessary to provide affordable rents to households of very low and low income.

(b) "Rental housing development" means a residential structure or structures containing five or more rental dwelling units for the elderly or handicapped, provided that each unit is equipped with a kitchen and bathroom, or a structure or structures intended for use as a group home by five or more handicapped individuals or a residential hotel for any low or very low income household. "Residential hotel" shall have the same meaning as used in paragraph (1) of subdivision (b) of Section 50519 but, for purposes of this subdivision, there shall be an additional requirement that a majority of the guestrooms in the hotel be residential hotel units. A "residential hotel unit" means a room used or intended to be used as a primary residential unit by a person or persons, which is subject to Chapter 2 (commencing with Section 1940) of Title 5 of Part 4 of Division 3 of the Civil Code, but which does not have either a self-containing kitchen or bathroom, or both. A "residential hotel unit" also includes an efficiency unit as defined in Section 17958.1. "Rental housing development" also means a residential structure or structures in operation or previously operated as a motel and subject

to subdivision (b) of Section 1940 of the Civil Code, which will contain five or more dwelling units for any low or very low income households. Eligible rehabilitation costs relative to motels may include costs associated with adding self-containing kitchens and bathrooms in each unit.

(c) "Sponsor" means any individual, joint venture, partnership, limited partnership, trust, corporation, cooperative, local public entity, duly constituted governing body of an Indian reservation or rancheria, or other legal entity, or any combination thereof, certified by the department as qualified to own, manage, and rehabilitate a rental housing development. A sponsor may be organized for profit or limited profit or be nonprofit.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

There is an urgent need for decent housing among individuals of very low and low income and residential hotels are often the only form of housing affordable to these individuals. This bill revises the definition of residential hotel to include efficiency units for the purpose of making these units eligible for funding under the Housing and Homeless Bond Act of 1988, thus protecting and improving residential hotels as a housing resource for persons of very low and low income.

CHAPTER 185

An act to add Section 1797.152 to the Health and Safety Code, relating to emergency services.

[Approved by Governor July 20, 1989 Filed with Secretary of State July 20, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1797.152 is added to the Health and Safety Code, to read:

1797.152. (a) The director, and the Director of Health Services may jointly appoint a regional disaster medical and health coordinator for each mutual aid region of the state. A regional disaster medical and health coordinator shall be either a county health officer, a county coordinator of emergency services, an administrator of a local EMS agency, or a medical director of a local EMS agency. Appointees shall be chosen from among persons nominated by a majority vote of the local health officers in a mutual aid region.

(b) In the event of a major disaster which results in a proclamation of emergency by the Governor, and in the need to

deliver medical or public and environmental health mutual aid to the area affected by the disaster, at the request of the authority, the State Department of Health Services, or the Office of Emergency Services, a regional disaster medical and health coordinator in a region unaffected by the disaster may coordinate the acquisition of requested mutual aid resources from the jurisdictions in the region.

(c) A regional disaster medical and health coordinator may develop plans for the provision of medical or public health mutual aid among the counties in the region.

(d) No person may be required to serve as a regional disaster medical and health coordinator. No state compensation shall be paid for a regional disaster medical and health coordinator position, except as determined appropriate by the state, if funds become available.

CHAPTER 186

An act to amend Section 76008 of the Government Code, relating to penalty assessments.

[Approved by Governor July 20, 1989. Filed with Secretary of State July 20, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 76008 of Government Code is amended to read:

76008. (a) Notwithstanding any other provision of law, to assist Solano County and Orange County in the funding of county criminal justice facility transition planning, the Board of Supervisors of Solano County or the Board of Supervisors of Orange County, or both, operative upon the adoption of a resolution stating that the provisions of this section and Section 76000 are necessary to county criminal justice facility transition planning, may establish in the respective county treasury a Solano County Transition Planning Trust Fund and an Orange County Transition Planning Trust Fund.

The county treasurer shall place all additional assessment amounts collected on nonparking offenses, pursuant to Section 76000, in the fund.

(b) Notwithstanding any other provision of law, to assist Solano and Orange Counties in the operation of the county jail, the Board of Supervisors of Solano County and the Board of Supervisors of Orange County, respectively, operative upon the adoption of a resolution stating that the provisions of this subdivision and Section 76000 are necessary to county jail operations, may establish in the county treasury a County Jail Fund.

The county treasurer shall place all additional penalty amounts collected on nonparking offenses, pursuant to Section 76000, in the

fund. The fund moneys, together with any interest earned thereon, shall be held by the treasurer separate from any funds subject to transfer or division pursuant to Section 1463 of the Penal Code, and shall be payable only for county jail operations.

Deposits to the fund shall continue until January 1, 2000.

(c) The fund moneys, together with any interest earned thereon, shall be held by the treasurer separate from any funds subject to transfer or division pursuant to Section 1463 of the Penal Code. The moneys in the fund, together with any interest earned thereon, shall be payable only for county criminal justice facility transition planning. The money in the fund may be used through any public agency funding mechanism, including, but not limited to, retirement of bonded indebtedness, loan repayments, and monthly payments involving lease-purchase programs, which reduce an obligation incurred in reliance upon the authority granted by this section.

(d) For purposes of this section, "county criminal justice facilities" includes, but is not limited to, jails, women's centers, detention facilities, juvenile halls, and courtrooms.

(e) Deposits to the fund shall continue through and include the second year after the initial calendar year in which the assessment is collected.

(f) Subdivisions (a), (c), (d), and (e) of this section shall remain in operation only until July 1, 1990, and shall become inoperative on that date, unless a later enacted statute which is chaptered before July 1, 1990, deletes or extends that date.

(g) Subdivision (b) of this section shall become operative on July 1, 1990.

CHAPTER 187

An act to amend Sections 9800, 9801, and 9802 of, to repeal Section 8162 of, and to add Article 6 (commencing with Section 8200) to Chapter 4 of Division 3 of, the Vehicle Code, relating to vehicles.

[Approved by Governor July 20, 1989. Filed with Secretary of State July 20, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 8162 of the Vehicle Code is repealed.

SEC. 2. Article 6 (commencing with Section 8200) is added to Chapter 4 of Division 3 of the Vehicle Code, to read:

Article 6. Enforcement of Liens on Apportioned Fleet Vehicles

8200. "Registrant," for purposes of this article, means any person issued apportioned fleet registration pursuant to Article 5 (commencing with Section 8150).

8201. (a) Fees determined to be due, including penalties and service fees, for the operation of a fleet apportionately registered vehicle shall be a lien upon all vehicles operated as part of the fleet and on any other fleet vehicles operated by the registrant. The department may collect the amount of the lien, plus costs, not to exceed two hundred fifty dollars ($250), in an appropriate civil action and by seizure and sale of the vehicle.

(b) Every lien arising under this section expires three years from the date the fee or penalty first became due unless the lien is perfected pursuant to subdivision (c).

(c) A lien shall be perfected when a notice is mailed to the registrant at the address shown on the department's records and the lien is recorded on the electronic vehicle registration records of the department. A perfected lien shall expire five years from the date of perfection.

(d) Prior to the expiration of the statute of limitations, the registrant may consent to a waiver which would allow the assessment of fees and penalties past the statute of limitations.

8202. (a) Within 30 days of the date the notice is mailed pursuant to Section 8201, the registrant may submit documentation not previously available or may request a hearing to contest the existence or the amount of the lien. If no additional documentation is submitted, or if no hearing is requested, the operating privileges of the fleet may be suspended or canceled and a sufficient number of vehicles may be seized and sold to satisfy the lien.

(b) If additional documentation is submitted, the department shall review the documentation and issue its findings to the registrant. Within 20 days of the date the findings are mailed, the registrant may request a hearing.

(c) If a hearing is requested, 10 days' notice shall be given of the time and place of the hearing, which shall be held within the county of residence of the person requesting the hearing or within the county of the established place of business of the registrant. The hearing shall be conducted by a referee who shall submit findings and recommendations to the director or his or her authorized representative, who shall decide the matter. The decision shall be effective on notice thereof to the interested parties. However, the director, or his or her authorized representative, may rescind the decision and reconsider the matter for good cause shown at any time within three years after the date the disputed fee or penalty first became due, or one year from the hearing whichever is later.

(d) Upon final completion of all administrative appeals, the department shall give written notice to the registrant of the right to a review of the decision by a court of competent jurisdiction. Any action brought in court shall be commenced within 90 days from the date notice of the decision is mailed.

8203. (a) When a lien is perfected pursuant to Section 8200 and the opportunity to submit additional documentation or to request a hearing has passed, the department may suspend or cancel the

operating privileges of the fleet. When the suspension takes effect, the department may seize a sufficient number of vehicles to satisfy the lien without further notice, upon obtaining authorization for the seizure and sale from the director or his or her authorized representative.

(b) Members of the California Highway Patrol, and peace officers employed by local authorities, are agents of the department for the purposes of this section.

(c) In all cases, prior to the sale, a notice of the lien and intent to sell the vehicle shall be given by the department to the registrant, the known legal and registered owners, and to any other person known to be claiming an interest in the vehicle. The department shall also give public notice of the lien by placing an advertisement in a newspaper of general circulation published in the county in which the registrant's place of business is located.

(d) At any time before seizure and sale, any person claiming an interest in the vehicle may pay the department the amount of the lien, plus costs. In that event, the seizure and sale shall not be held, and the vehicle, shall be returned by the department to the person entitled to its possession.

(b) When fees and penalties are waived pursuant to subdivision (a), the apportioned registration fees and penalties shall become the liability of the registrant who failed to pay the fees and penalties when they became due. The fees and penalties may be collected by the department in an appropriate civil action.

SEC. 3. Section 9800 of the Vehicle Code is amended to read:

9800. (a) Payments for any of the following, and any interest, penalties, or service fees added thereto, required to register or transfer the registration of a vehicle, constitute a lien on the vehicle on which they are due or which was involved in the offense, and on any other vehicle owned by the owner of that vehicle:

(1) Registration fees.

(2) Transfer fees.

(3) License fees.

(4) Use taxes.

(5) Penalties for offenses relating to the standing or parking of a

However, this subdivision is not applicable if the citation is issued at a scale operated by the Department of the California Highway Patrol and registration for the vehicle can be issued there immediately upon payment of the fees due.

(c) Every lien arising under this section expires three years from the date the fee, tax, or parking penalty first became due unless the lien is perfected pursuant to subdivision (d).

(d) A lien is perfected when a notice is mailed to the registered and legal owners at the addresses shown in the department's records and the lien is recorded on the electronic vehicle registration records of the department. A perfected lien shall expire five years from the date of perfection.

(e) Employees and members of the Department of the California Highway Patrol assigned to commercial vehicle scale facilities may possess and sell trip permits approved by the Department of Motor Vehicles.

SEC. 4. Section 9801 of the Vehicle Code is amended to read:

(b) At least 10 days before the seizure, notice of the lien and of the intent to seize and sell the vehicle shall be given by the department to the registered and legal owners, and to any other person known to be claiming an interest in the vehicle, by registered mail addressed to those persons at the last known addresses appearing on the records of the department.

The hearing shall be conducted by a referee who shall submit findings and recommendations to the director or his or her authorized representative, who shall decide the matter. The decision shall be effective on notice thereof to the interested parties.

However, the director or his or her authorized representative may rescind the decision and reconsider the matter for good cause shown at any time within three years after the date the disputed fee or tax first became due, or within one year from the hearing, whichever is later.

(e) At any time before seizure or sale, any registered owner, legal owner, or person claiming an interest in the vehicle may pay the department the amount of the lien, plus costs. In that event, the seizure or sale shall not be held and the vehicle, if seized, shall be returned by the department to the person entitled to its possession. This payment shall not constitute a waiver of the right to a hearing.

(f) When the department or an authorized agent has reasonable cause to believe that the lien may be jeopardized within the 10-day notice-of-intent period. the vehicle may be seized without prior notice to the registered or legal owner, upon obtaining authorization for the seizure from the Registrar of Vehicles or authorized representative. In all those cases, a notice of the lien and the intent to sell the vehicle shall be given by the department to the legal and registered owner, and to any other person known to be claiming an interest in the vehicle, within 48 hours after seizure excluding Saturdays, Sundays, and holidays specified in Section 6700 of the Government Code. Any hearing to contest the lien and the seizure shall be requested within 10 days following transmittal of that notice.

(h) The Department of the California Highway Patrol shall assist with the seizure and impounding of the vehicle. Any municipality or county law enforcement agency may assist with the seizure and impounding of the vehicle.

(i) Any property found by the department in any vehicle seized under the provisions of this article shall be handled by the department in the same manner as is provided in Sections 2414 and 2415.

9802. (a) The Registrar of Vehicles or authorized representative shall conduct the sale in the same manner as provided by law for the seizure and sale of personal property by the assessor for the collection of taxes due on personal property.

(b) The department may bid for the vehicle an amount equal to the lien held by the department for registration, transfer, and license fees, use taxes, parking penalties, and any interest, penalties, and costs added thereto. CHAPTER 190

An act to amend Section 51.3 of the Civil Code, relating to housing.

[Approved by Governor July 21, 1989. Filed with Secretary of State July 21, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 51.3 of the Civil Code is amended to read:

51.3. (a) The Legislature finds and declares that this section is essential to establish and preserve specially designed accessible housing for senior citizens. There are senior citizens who need special living environments and services, and find that there is an inadequate supply of this type of housing in the state.

(b) The Legislature finds and declares that different age limitations for senior citizen housing are appropriate in recognition of the size of a development in relationship to the community in which it is located.

(c) For the purposes of this section, the following definitions apply:

(1) "Qualifying resident" or "senior citizen" means a person 62 years of age or older, or 55 years of age or older in a senior citizen housing development.

(2) "Qualified permanent resident" means a person who meets all of the following requirements:

(A) Was residing with the qualifying resident or senior citizen prior to the death, hospitalization, or other prolonged absence of, or the dissolution of marriage with, the qualifying resident or senior citizen.

(B) Was 45 years of age or older, or was a spouse, cohabitant, or person providing primary physical or economic support to the qualifying resident or senior citizen.

(C) Has an ownership interest in, or is in expectation of an ownership interest in, the dwelling unit within the housing development that limits occupancy, residency, or use on the basis of age.

(3) "Senior citizen housing development" means a residential development consisting of at least 150 dwelling units in a standard metropolitan statistical area or at least 35 dwelling units in any other area which is developed for, or substantially rehabilitated or renovated for, senior citizens. For the purpose of computing the number of dwelling units within that development, the number of dwelling units developed, whether in single or multiple phases, shall be included in the computation. Developments commenced after July 1, 1986, shall be required to have been issued a public report as a senior citizen housing development under Section 11010.05 of the Business and Professions Code.

(4) "Dwelling unit" or "housing" means any residential

accommodation other than a mobilehome.

(5) "Cohabitant" refers to persons who live together as husband and wife.

(6) "Permitted health care resident" means a person hired to provide live-in, long-term, or terminal health care to a qualifying resident.

(d) The covenants, conditions, and restrictions or other documents or written policy shall not limit occupancy, residency, or use on the basis of age more proscriptively than to require that one person in residence in each dwelling unit may be required to be a senior citizen and that each other resident in the same dwelling unit may be required to be a qualified permanent resident.

(e) The covenants, conditions, and restrictions or other documents or written policy shall permit temporary residency, as a guest of a senior citizen or qualified permanent resident, by a person of less than 45 years of age for periods of time, not less than 60 days in any year, which are specified in the covenants, conditions, and restrictions or other documents or written policy.

(f) Upon the death or dissolution of marriage, or upon hospitalization, or other prolonged absence of the qualifying resident, any qualified permanent resident shall be entitled to continue his or her occupancy, residency, or use of the dwelling unit as a permitted resident.

(g) The condominium, stock cooperative, limited-equity housing cooperative, planned development, or multiple-family residential rental property shall have been developed for, and initially been put to use as, housing for senior citizens, or shall have been substantially rehabilitated or renovated for, and immediately afterward put to use as, housing for senior citizens, as provided in this section.

(h) The covenants, conditions, and restrictions or other documents or written policies applicable to any condominium, stock cooperative, limited-equity housing cooperative, planned development, or multiple-family residential property which contained age restrictions on January 1, 1984, shall be enforceable only to the extent permitted by this section, notwithstanding lower age restrictions contained in those documents or policies.

(i) Any person who has the right to reside in, occupy, or use the housing or an unimproved lot subject to this section on January 1, 1985, shall not be deprived of the right to continue that residency, occupancy, or use as the result of the enactment of this section.

(j) The covenants, conditions, and restrictions or other documents or written policy of the senior citizen housing development shall permit the occupancy of a dwelling unit by a permitted health care resident during any period that the person is actually providing live-in, long-term, or hospice health care to a qualifying resident for compensation.

However, nothing in this division shall require the disclosure of that portion of those investigative files which reflect the analysis or conclusions of the investigating officer.

Other provisions of this subdivision notwithstanding, state and local law enforcement agencies shall make public the following information, except to the extent that disclosure of a particular item of information would endanger the safety of a person involved in an investigation or would endanger the successful completion of the investigation or a related investigation:

However, the law of eminent domain shall not be affected by this provision.

(i) Information required from any taxpayer in connection with the collection of local taxes which is received in confidence and the disclosure of the information to other persons would result in unfair competitive disadvantage to the person supplying the information.

The California Pollution Control Financing Authority shall adopt rules for review of individual requests for confidentiality under this section and for making available to the public those portions of an application which

are subject to disclosure under this chapter.

Nothing in this section prevents any health facility from disclosing to a certified bargaining agent relevant financing information pursuant to Section 8 of the National Labor Relations Act.

(b) When a battery is committed against the person of a peace officer, custodial officer, firefighter, emergency medical technician, mobile intensive care paramedic, lifeguard, process server, traffic officer, or animal control officer engaged in the performance of his or her duties, whether on or off duty, including when the peace officer is in a police uniform and is concurrently performing the duties required of him or her as a peace officer while also employed in a private capacity as a part-time or casual private security guard or patrolman, or a physician or nurse engaged in rendering emergency medical care outside a hospital, clinic, or other health care facility, and the person committing the offense knows or reasonably should know that the victim is a peace officer, custodial officer, firefighter, emergency medical technician, mobile intensive care paramedic, lifeguard, process server, traffic officer, or animal control officer engaged in the performance of his or her duties, or a physician or nurse engaged in rendering emergency medical care, the battery is punishable by a fine not exceeding two thousand dollars ($2,000), or by imprisonment in the county jail not exceeding one year, or by both such fine and imprisonment.

(c) When a battery is committed against a peace officer, custodial officer, firefighter, emergency medical technician, mobile intensive care paramedic, lifeguard, process server, traffic officer, or animal control officer engaged in the performance of his or her duties, whether on or off duty, including when the peace officer is in a police uniform and is concurrently performing the duties required of him or her as a peace officer while also employed in a private capacity

as a part-time or casual private security guard or patrolman, or a physician or nurse engaged in rendering emergency medical care outside a hospital, clinic, or other health care facility, and the person committing the offense knows or reasonably should know that the victim is a peace officer, custodial officer, firefighter, emergency medical technician, mobile intensive care paramedic, lifeguard, process server, traffic officer, or animal control officer engaged in the performance of his or her duties, or a physician or nurse engaged in rendering emergency medical care, and an injury is inflicted on that victim, the battery is punishable by imprisonment in the county jail for a period of not more than one year, or by a fine of not more than two thousand dollars ($2,000), or by imprisonment in the state prison for 16 months, or two or three years.

(d) When a battery is committed against any person and serious bodily injury is inflicted on the person, the battery is punishable by imprisonment in the county jail for a period of not more than one year or imprisonment in the state prison for two, three, or four years.

(e) When a battery is committed against a noncohabitating former spouse, fiancé, fiancée, or a person with whom the defendant currently has, or has previously had, a dating relationship, the battery is punishable by a fine not exceeding two thousand dollars ($2,000), or by imprisonment in the county jail for a period of not more than one year, or by both. If probation is granted, or the execution or imposition of the sentence is suspended, it shall be a condition thereof that the defendant participate in, for no less than one year, and successfully complete, a batterer's treatment program, or if none is available, in another appropriate counseling program designated by the court; however, this provision shall not be construed as requiring a city, a county, or a city and county to provide a new program or higher level of service as contemplated by Section 6 of Article XIII B of the California Constitution.

The Legislature finds and declares that these specified crimes merit special consideration when imposing a sentence so as to display society's condemnation for such crimes of violence upon victims with whom a close relationship has been formed.

(f) As used in this section:

(1) "Peace officer" means any person defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2.

(2) "Emergency medical technician" means a person possessing a valid course completion certificate from a program approved by the State Department of Health Services for the medical training and education of ambulance personnel, and who meets the standards of Division 2.5 (commencing with Section 1797) of the Health and Safety Code.

(3) "Mobile intensive care paramedic" means any person who meets the standards set forth in Section 1797.84 of, and Division 2.5 (commencing with Section 1797) of, the Health and Safety Code.

(4) "Nurse" means a person who meets the standards of Division 2.5 (commencing with Section 1797) of the Health and Safety Code.

(5) "Serious bodily injury" means a serious impairment of physical condition, including, but not limited to, the following: loss of consciousness; concussion; bone fracture; protracted loss or impairment of function of any bodily member or organ; a wound requiring extensive suturing; and serious disfigurement.

(6) "Injury" means any physical injury which requires professional medical treatment.

(7) "Custodial officer" means any person who has the responsibilities and duties described in Section 831 and who is employed by a law enforcement agency of any city or county or who performs those duties as a volunteer.

(8) "Lifeguard" means a person defined in paragraph (5) of subdivision (c) of Section 241.

(9) "Traffic officer" means any person employed by a city, county, or city and county, to monitor and enforce state laws and local ordinances relating to parking and the operation of vehicles.

(10) "Animal control officer" means any person employed by a city, county, or city and county for purposes of enforcing animal control laws or regulations.

(11) "Dating relationship" means frequent, intimate associations primarily characterized by the expectation of affectional or sexual involvement independent of financial considerations.

It is the intent of the Legislature by amendments to this section at the 1981–82 and 1983–84 Regular Sessions to abrogate the holdings in cases such as People v. Corey, 21 Cal. 3d 738, and Cervantez v. J.C. Penney Co., 24 Cal. 3d 579, and to reinstate prior judicial interpretations of this section as they relate to criminal sanctions for battery on peace officers who are employed, on a part-time or casual basis, while wearing a police uniform as private security guards or patrolmen and to allow the exercise of peace officer powers concurrently with that employment.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 or Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 192

An act to amend Sections 21025.6, 21151, 21206, and 21238 of the Government Code, relating to public employees' retirement.

[Approved by Governor July 21, 1989 Filed with Secretary of State July 21, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 21025.6 of the Government Code is amended to read:

21025.6. Notwithstanding any other provision of this article, the retirement of a member who has been offered enrollment in a rehabilitation program provided by the employer, or appointing power if he or she is a state member, shall not become effective until the rehabilitation program is terminated by any of the following:

(a) The employer or appointing power determines that the rehabilitation program is ineffective and cancels the member's enrollment in the program.

(b) The member requests release from the rehabilitation program.

(c) The member rejects the offer of enrollment in the rehabilitation program within 30 days after notice by the Public Employees' Retirement System of his or her eligibility for disability retirement.

(d) The member completes the rehabilitation program.

If a member pursuant to a rehabilitation program enters a position in state service, he or she shall be retired thereafter for disability only in accordance with provisions of this part other than this section if he or she becomes incapacitated for performance of duty in that position. The disability shall be deemed to be industrial if the disability resulting in enrollment in the program was industrial, unless Section 21202.5 applies.

SEC. 2. Section 21151 of the Government Code is amended to read:

21151. A retired person may serve without reinstatement from retirement or loss or interruption of benefits provided by this system, as follows:

(a) As a member of any board, commission, or advisory committee, upon appointment by the Governor, the Speaker of the Assembly, the President pro Tempore of the Senate, director of a state department, or the governing board of the contracting agency. However, the appointment shall not be deemed employment within the meaning of Division 4 (commencing with Section 3200) and Division 4 5 (commencing with Section 6100) of the Labor Code, and shall not provide a basis for the payment of workers' compensation to a retired state employee or to his or her dependents.

(b) As a school crossing guard.

(c) As a juror or election officer.

(d) As an elective officer on and after September 15, 1961. However, all rights and immunities which may have accrued under Section 21158 as it read prior to that section's repeal during the 1969 Regular Session of the Legislature are hereby preserved.

(e) As an appointive member of the governing body of a contracting agency. However, the compensation for that office shall not exceed one hundred dollars ($100) per month.

(f) Upon appointment by the Legislature, or either house, or a legislative committee to a position deemed by the appointing power to be temporary in nature.

(g) Upon appointment by the governing body of a contracting agency to a position deemed by the governing body to be of a limited duration and requiring specialized skills. The appointment shall be only to fill a temporary vacancy until a permanent appointment can be made by the governing body.

(h) As a member of the governing body of a community college district, provided, however, that the member serves on the governing body without compensation or has elected to forego compensation, as provided in subdivision (e) of Section 72425 of the Education Code.

SEC. 3. Section 21206 of the Government Code is amended to read

21206. Notwithstanding any other provision of law, a parent having custody of surviving children eligible to receive an allowance or a lump-sum payment payable under this part shall not be required to become the guardian of those children in order to be paid, on behalf of their children, the benefits prescribed for those children.

SEC. 4. Section 21238 of the Government Code is amended to read:

21238. (a) The board shall establish an Extraordinary Performance Dividend Account in the Retirement Fund consisting of the amount of earnings of the Retirement Fund transferred from the Purchasing Power Accounts pursuant to Section 21237.

(b) The board shall from time to time on or after January 1, 1991, but only in a fiscal year in which the purchasing power of all persons receiving payments from the Purchasing Power Accounts is 75 percent, disburse, not more frequently than quarterly, extraordinary performance dividend payments to those retired persons and those survivors and beneficiaries of state, school, and local members and retired persons whose allowances, after applying the annual cost-of-living adjustments and all other increases in allowances required or authorized by this part, have the lowest purchasing power percentage, based on the amount that would be paid had the original allowance been increased by increases in the Consumer Price Index, as defined by subdivision (c) of Section 21221, increasing those allowances to a common minimum purchasing power level. The payments shall be paid by a separate identifiable warrant.

(c) The amount specified in subdivision (a) is hereby

appropriated from the Extraordinary Performance Dividend Account to the board without regard to fiscal years. Whenever the board determines that there are sufficient funds in the Extraordinary Performance Dividend Account, the board shall apply that portion of those funds deemed prudent by the board to any payments authorized by this section.

(d) The board shall inform each recipient of benefits under subdivision (b) that the payments are not cumulative, not part of the base retirement allowance, and may be available only as a result of extraordinary investment returns to the system.

CHAPTER 193

An act to amend Section 9889.75 of the Business and Professions Code, to amend Section 1793.2 of the Civil Code, and to amend Section 3016 of the Vehicle Code, relating to motor vehicles.

[Approved by Governor July 21, 1989 Filed with Secretary of State July 21, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 9889.75 of the Business and Professions Code is amended to read:

9889.75. The New Motor Vehicle Board in the Department of Motor Vehicles shall, in accordance with the procedures prescribed in this section, administer the collection of fees for the purposes of fully funding the administration of this chapter.

(a) There is hereby created in the Automotive Repair Fund a Certification Account. Fees collected pursuant to this section shall be deposited in the Certification Account and shall be available, upon appropriation by the Legislature, exclusively to pay the expenses incurred by the bureau in administering this chapter and to pay the New Motor Vehicle Board as provided in Section 3016 of the Vehicle Code. If at the conclusion of any fiscal year the amount of fees collected exceeds the amount of expenditures for that purpose during that fiscal year, the surplus in the Certification Account shall be carried over into the succeeding fiscal year.

(b) Beginning July 1, 1988, and on or before May 1 of each calendar year thereafter, every manufacturer shall file with the New Motor Vehicle Board a statement of the number of motor vehicles sold, leased, or otherwise distributed by or for the manufacturer in this state during the preceding calendar year, and shall, upon written notice delivered to the manufacturer by certified mail, return receipt requested, pay to the New Motor Vehicle Board a fee, not to exceed one dollar ($1) for each motor vehicle sold, leased, or distributed by or for the manufacturer in this state during the preceding calendar year. The total fee paid by each manufacturer

shall be rounded to the nearest dollar in the manner described in Section 9559 of the Vehicle Code. No more than one dollar ($1) shall be charged, collected, or received from any one or more manufacturers pursuant to this subdivision with respect to the same motor vehicle.

(c) (1) The fee required by subdivision (b) is due and payable no later than 30 days after the manufacturer has received notice of the amount due and is delinquent after that time. A penalty of 10 percent of the amount delinquent shall be added to that amount, if the delinquency continues for more than 30 days.

(2) In the event that a manufacturer fails to file the statement required by subdivision (b) by the date specified, the New Motor Vehicle Board shall assess the amount due from the manufacturer by using as the number of motor vehicles sold, leased, or otherwise distributed by or for the manufacturer in this state during the preceding calendar year the total number of new registrations of all motor vehicles sold, leased, or otherwise distributed by or for the manufacturer during the preceding calendar year.

(d) On or before February 1 of each calendar year, the bureau shall notify the New Motor Vehicle Board of the dollar amount necessary to fully fund the program established by this chapter during the following fiscal year. The New Motor Vehicle Board shall use this information in calculating the amounts of the fees to be collected from manufacturers pursuant to this section.

(e) For the purposes of this section, "motor vehicle" means a new passenger or commercial motor vehicle of a kind that is required to be registered under the Vehicle Code, but the term does not include a motorcycle, a motor home, or any vehicle whose gross weight exceeds 10,000 pounds.

(f) The New Motor Vehicle Board may adopt regulations to implement this section. The regulations shall include, at a minimum, a formula for calculating the fee, established pursuant to subdivision (b), for each motor vehicle and the total amount of fees to be collected from each manufacturer.

SEC. 2. Section 1793.2 of the Civil Code is amended to read:

1793.2. (a) Every manufacturer of consumer goods sold in this state and for which the manufacturer has made an express warranty shall:

(1) (A) Maintain in this state sufficient service and repair facilities reasonably close to all areas where its consumer goods are sold to carry out the terms of those warranties or designate and authorize in this state as service and repair facilities independent repair or service facilities reasonably close to all areas where its consumer goods are sold to carry out the terms of the warranties.

(B) As a means of complying with this paragraph, a manufacturer may enter into warranty service contracts with independent service and repair facilities. The warranty service contracts may provide for a fixed schedule of rates to be charged for warranty service or warranty repair work. However, the rates fixed by those contracts

shall be in conformity with the requirements of subdivision (c) of Section 1793.3. The rates established pursuant to subdivision (c) of Section 1793.3, between the manufacturer and the independent service and repair facility, shall not preclude a good faith discount which is reasonably related to reduced credit and general overhead cost factors arising from the manufacturer's payment of warranty charges direct to the independent service and repair facility. The warranty service contracts authorized by this paragraph shall not be executed to cover a period of time in excess of one year, and may be renewed only by a separate, new contract or letter of agreement between the manufacturer and the independent service and repair facility.

(2) In the event of a failure to comply with paragraph (1) of this subdivision, be subject to Section 1793.5.

(3) Make available to authorized service and repair facilities sufficient service literature and replacement parts to effect repairs during the express warranty period.

(b) Where those service and repair facilities are maintained in this state and service or repair of the goods is necessary because they do not conform with the applicable express warranties, service and repair shall be commenced within a reasonable time by the manufacturer or its representative in this state. Unless the buyer agrees in writing to the contrary, the goods shall be serviced or repaired so as to conform to the applicable warranties within 30 days. Delay caused by conditions beyond the control of the manufacturer or his representatives shall serve to extend this 30-day requirement. Where delay arises, conforming goods shall be tendered as soon as possible following termination of the condition giving rise to the delay.

(c) The buyer shall deliver nonconforming goods to the manufacturer's service and repair facility within this state, unless, due to reasons of size and weight, or method of attachment, or method of installation, or nature of the nonconformity, delivery cannot reasonably be accomplished. If the buyer cannot return the nonconforming goods for any of these reasons, he or she shall notify the manufacturer or its nearest service and repair facility within the state. Written notice of nonconformity to the manufacturer or its service and repair facility shall constitute return of the goods for purposes of this section. Upon receipt of that notice of nonconformity, the manufacturer shall, at its option, service or repair the goods at the buyer's residence, or pick up the goods for service and repair, or arrange for transporting the goods to its service and repair facility. All reasonable costs of transporting the goods when a buyer cannot return them for any of the above reasons shall be at the manufacturer's expense. The reasonable costs of transporting nonconforming goods after delivery to the service and repair facility until return of the goods to the buyer shall be at the manufacturer's expense.

(d) (1) Except as provided in paragraph (2), if the manufacturer

or its representative in this state does not service or repair the goods to conform to the applicable express warranties after a reasonable number of attempts, the manufacturer shall either replace the goods or reimburse the buyer in an amount equal to the purchase price paid by the buyer, less that amount directly attributable to use by the buyer prior to the discovery of the nonconformity.

(2) If the manufacturer or its representative in this state is unable to service or repair a new motor vehicle, as that term is defined in subparagraph (B) of paragraph (4) of subdivision (e), to conform to the applicable express warranties after a reasonable number of attempts, the manufacturer shall either promptly replace the new motor vehicle in accordance with subparagraph (A) or promptly make restitution to the buyer in accordance with subparagraph (B). However, the buyer shall be free to elect restitution in lieu of replacement, and in no event shall the buyer be required by the manufacturer to accept a replacement vehicle.

(A) In the case of replacement, the manufacturer shall replace the buyer's vehicle with a new motor vehicle substantially identical to the vehicle replaced. The replacement vehicle shall be accompanied by all express and implied warranties that normally accompany new motor vehicles of that specific kind. The manufacturer also shall pay for, or to, the buyer the amount of any sales or use tax, license fees, registration fees, and other official fees which the buyer is obligated to pay in connection with the replacement, plus any incidental damages to which the buyer is entitled under Section 1794, including, but not limited to, reasonable repair, towing, and rental car costs actually incurred by the buyer.

(B) In the case of restitution, the manufacturer shall make restitution in an amount equal to the actual price paid or payable by the buyer, including any charges for transportation and manufacturer-installed options, but excluding nonmanufacturer items installed by a dealer or the buyer, and including any collateral charges such as sales tax, license fees, registration fees, and other official fees, plus any incidental damages to which the buyer is entitled under Section 1794, including, but not limited to, reasonable repair, towing, and rental car costs actually incurred by the buyer.

(C) When the manufacturer replaces the new motor vehicle pursuant to subparagraph (A), the buyer shall only be liable to pay the manufacturer an amount directly attributable to use by the buyer of the replaced vehicle prior to the time the buyer first delivered the vehicle to the manufacturer or distributor, or its authorized service and repair facility for correction of the problem that gave rise to the nonconformity. When restitution is made pursuant to subparagraph (B), the amount to be paid by the manufacturer to the buyer may be reduced by the manufacturer by that amount directly attributable to use by the buyer prior to the time the buyer first delivered the vehicle to the manufacturer or distributor, or its authorized service and repair facility for correction of the problem that gave rise to the nonconformity. The amount

directly attributable to use by the buyer shall be determined by multiplying the actual price of the new motor vehicle paid or payable by the buyer, including any charges for transportation and manufacturer-installed options, by a fraction having as its denominator 120,000 and having as its numerator the number of miles traveled by the new motor vehicle prior to the time the buyer first delivered the vehicle to the manufacturer or distributor, or its authorized service and repair facility for correction of the problem that gave rise to the nonconformity. Nothing in this paragraph shall in any way limit the rights or remedies available to the buyer under any other law.

(e) (1) It shall be presumed that a reasonable number of attempts have been made to conform a new motor vehicle to the applicable express warranties if, within one year from delivery to the buyer or 12,000 miles on the odometer of the vehicle, whichever occurs first, either (A) the same nonconformity has been subject to repair four or more times by the manufacturer or its agents and the buyer has at least once directly notified the manufacturer of the need for the repair of the nonconformity, or (B) the vehicle is out of service by reason of repair of nonconformities by the manufacturer or its agents for a cumulative total of more than 30 calendar days since delivery of the vehicle to the buyer. The 30-day limit shall be extended only if repairs cannot be performed due to conditions beyond the control of the manufacturer or its agents. The buyer shall be required to directly notify the manufacturer pursuant to subparagraph (A) only if the manufacturer has clearly and conspicuously disclosed to the buyer, with the warranty or the owner's manual, the provisions of this subdivision and that of subdivision (d), including the requirement that the buyer must notify the manufacturer directly pursuant to subparagraph (A). This presumption shall be a rebuttable presumption affecting the burden of proof, and it may be asserted by the buyer in any civil action, including an action in small claims court, or other formal or informal proceeding.

(2) If a qualified third party dispute resolution process exists, and the buyer receives timely notification in writing of the availability of that third party process with a description of its operation and effect, the presumption in paragraph (1) may not be asserted by the buyer until after the buyer has initially resorted to the third party process as required in paragraph (3). Notification of the availability of the qualified third party dispute resolution process is not timely if the buyer suffers any prejudice resulting from any delay in giving the notification. If a qualified third party dispute resolution process does not exist, or if the buyer is dissatisfied with that third party decision, or if the manufacturer or its agent neglects to promptly fulfill the terms of the qualified third party dispute resolution process decision after the decision is accepted by the buyer, the buyer may assert the presumption provided in paragraph (1) in an action to enforce the buyer's rights under subdivision (d). The findings and decision of a

qualified third party dispute resolution process shall be admissible in evidence in the action without further foundation. Any period of limitation of actions under any federal or California laws with respect to any person shall be extended for a period equal to the number of days between the date a complaint is filed with a third party dispute resolution process and the date of its decision or the date before which the manufacturer or its agent is required by the decision to fulfill its terms if the decision is accepted by the buyer, whichever occurs later.

(3) A qualified third party dispute resolution process shall be one that does all of the following:

(A) Complies with the minimum requirements of the Federal Trade Commission for informal dispute settlement procedures as set forth in Part 703 of Title 16 of the Code of Federal Regulations, as those regulations read on January 1, 1987.

(B) Renders decisions which are binding on the manufacturer if the buyer elects to accept the decision.

(C) Prescribes a reasonable time, not to exceed 30 days after the decision is accepted by the buyer, within which the manufacturer or its agent must fulfill the terms of its decisions.

(D) Provides arbitrators who are assigned to decide disputes with copies of, and instruction in, the provisions of the Federal Trade Commission's regulations in Part 703 of Title 16 of the Code of Federal Regulations as those regulations read on January 1, 1987, Division 2 (commencing with Section 2101) of the Commercial Code, and this chapter.

(E) Requires the manufacturer, when the process orders, under the terms of this chapter, either that the nonconforming motor vehicle be replaced if the buyer consents to this remedy or that restitution be made to the buyer, to replace the motor vehicle or make restitution in accordance with paragraph (2) of subdivision (d).

(F) Provides, at the request of the arbitrator or a majority of the arbitration panel, for an inspection and written report on the condition of a nonconforming motor vehicle, at no cost to the buyer, by an automobile expert who is independent of the manufacturer.

(G) Takes into account, in rendering decisions, all legal and equitable factors, including, but not limited to, the written warranty, the rights and remedies conferred in regulations of the Federal Trade Commission contained in Part 703 of Title 16 of the Code of Federal Regulations as those regulations read on January 1, 1987, Division 2 (commencing with Section 2101) of the Commercial Code, this chapter, and any other equitable considerations appropriate in the circumstances. Nothing in this chapter requires that, to be certified as a qualified third-party dispute resolution process pursuant to this section, decisions of the process must consider or provide remedies in the form of awards of punitive damages or multiple damages, under subdivision (c) of Section 1794, or of attorney's fees under subdivision (d) of Section 1794, or of

consequential damages other than as provided in subdivisions (a) and (b) of Section 1794, including, but not limited to, reasonable repair, towing, and rental car costs actually incurred by the buyer.

(H) Requires that no arbitrator deciding a dispute may be a party to the dispute and that no other person, including an employee, agent, or dealer for the manufacturer, may be allowed to participate substantively in the merits of any dispute with the arbitrator unless the buyer is allowed to participate also. Nothing in this paragraph prohibits any member of an arbitration board from deciding a dispute.

(I) Obtains and maintains certification by the Bureau of Automotive Repair pursuant to Chapter 20.5 (commencing with Section 9889.70) of Division 3 of the Business and Professions Code.

(4) For the purposes of subdivision (d) and this subdivision the following terms have the following meanings:

(A) "Nonconformity" means a nonconformity which substantially impairs the use, value, or safety of the new motor vehicle to the buyer or lessee.

(B) "New motor vehicle" means a new motor vehicle which is used or bought for use primarily for personal, family, or household purposes. "New motor vehicle" includes the chassis, chassis cab, and that portion of a motorhome devoted to its propulsion, but does not include any portion designed, used, or maintained primarily for human habitation, a dealer-owned vehicle and a "demonstrator" or other motor vehicle sold with a manufacturer's new car warranty but does not include a motorcycle or a motor vehicle which is not registered under the Vehicle Code because it is to be operated or used exclusively off the highways. A "demonstrator" is a vehicle assigned by a dealer for the purpose of demonstrating qualities and characteristics common to vehicles of the same or similar model and type.

(C) "Motorhome" means a vehicular unit built on, or permanently attached to, a self-propelled motor vehicle chassis, chassis cab, or van, which becomes an integral part of the completed vehicle, designed for human habitation for recreational or emergency occupancy.

(5) No person shall sell or lease a motor vehicle transferred by a buyer or lessee to a manufacturer pursuant to paragraph (2) of subdivision (d) unless the nature of the nonconformity experienced by the original buyer or lessee is clearly and conspicuously disclosed, the nonconformity is corrected, and the manufacturer warrants to the new buyer or lessee in writing for a period of one year that the motor vehicle is free of that nonconformity.

SEC. 3. Section 3016 of the Vehicle Code is amended to read:

3016. New motor vehicle dealers and other licensees under the jurisdiction of the board shall be charged fees sufficient to fully fund the board's activities other than those conducted pursuant to Section 9889.75 of the Business and Professions Code. The board may recover the direct cost of the activities required by Section 9889.75 of the

Business and Professions Code by charging the Bureau of Automotive Repair a fee which shall be paid by the bureau with funds appropriated from the Certification Account in the Automotive Repair Fund. All fees shall be deposited, and held separate from other moneys, in the Motor Vehicle Account in the State Transportation Fund, and shall not be transferred to the State Highway Account pursuant to Section 42273.

The fees shall be available, when appropriated, exclusively to fund the board's activities. If at the conclusion of any fiscal year the amount of fees collected exceeds the amount of expenditures for this purpose during the fiscal year, the surplus shall be carried over into the succeeding fiscal year.

CHAPTER 194

Special services necessitated by unusually large or heavy loads requiring engineering investigations, or other services, may be billed separately for each permit.

The funds collected by the Department of Transportation pursuant to this section shall be deposited in the State Highway Account in the State Transportation Fund.

8552.2. Notwithstanding Section 1052, a herring permit may be transferred from a herring permitholder to a nonpermitholder having a minimum of 20 or more herring fishery points, as follows: The permitholder shall mail, by certified or registered mail, to the department and every individual listed on the department's list of maximum 20 or more point herring fishery participants, his or her notice of intention to transfer his or her herring permit, which notice shall specify the gear type to be used under the herring permit; the name, address, and telephone number of the transferor and proposed transferee; and the amount of consideration, if any, sought by the transferor. Sixty days after mailing the notice, the transferor may transfer the permit to any person having 20 or more experience points without the necessity for giving further notice if the transfer occurs within six months of the date the original notice was given. Transfers after that six-month period shall require another 60-day notice of intention to be given. No person may hold more than one herring permit. A true copy of the notice of intention to transfer a permit shall be filed with the department by the transferor under penalty of perjury and shall be available for public review.

SEC. 5. Section 8552.4 of the Fish and Game Code is amended to read:

8552.4. Herring permits that are revoked or not renewed may be offered by the department for a drawing to persons having 20 or more experience points in the fishery on the first Friday of August of each year.

SEC. 6. Section 8552.6 of the Fish and Game Code is amended to read:

8552.6. (a) Notwithstanding Section 8552, a herring permit may be issued to two individuals if the individuals are married to each other and file with the department a certified copy of their certificate of marriage and a declaration under penalty of perjury, or a court order, stating that the permit is community property or if (1) both are engaged in the herring roe fishery either by fishing aboard the vessel or by personally participating in the management, administration, and operation of the partnership's herring fishing business and (2) there is a partnership constituting equal, 50 percent, ownership in a herring fishery operation, including a vessel or equipment, and that partnership is demonstrated by any two of the following:

(A) A copy of a federal partnership tax return.

(B) A written partnership agreement.

(C) Joint ownership of a fishing vessel used in the herring fishery as demonstrated on federal vessel license documents.

(b) For purposes of this section, a herring permit does not constitute a herring fishing operation. A herring permit may be transferred to one of the partners to be held thereafter in that partner's name only if that partner has not less than 10 points computed pursuant to paragraph 2 or subdivision (a) of Section 8552.8 and there has been a death or retirement of the other partner, a dissolution of partnership, or the partnership is dissolved by a dissolution of marriage or decree of legal separation. A transfer under this section shall be authorized only if proof that the partnership has existed for three or more consecutive years is furnished to the department or a certified copy of a certificate of marriage is on file with the department and the permit is community property as provided in subdivision (a). The transferor of a permit shall not by reason of the transfer become ineligible to participate further in the herring fishery or to purchase another permit.

SEC. 7. Section 8552.8 of the Fish and Game Code is amended to read:

8552.8. (a) For purposes of this article, the experience points for a person engaged in the herring roe fishery shall be based on the number of years holding a commercial fishing license and the number of years having served as a crewmember in the herring roe fishery, and determined by the sum of both of the following:

(1) One point for each year in the previous 12 years (prior to the current license year) that the person has held a commercial fishing license issued pursuant to Section 7852, not to exceed a maximum of 10 points.

(2) Five points for one year of service as a paid crewmember in the herring roe fishery, as determined pursuant to Section 8559, using the type of year that is authorized under the herring permit to be obtained, three points for a second year of service as a paid crewmember, and two points for a third year as a paid crewmember,

beginning with the 1978–79 herring fishing season, not to exceed a maximum of 10 points.

(b) The department shall maintain a list of all individuals possessing the maximum of 20 experience points and of all those persons holding two points or more, grouped in a list by number of points. The list shall be maintained annually and shall be available from the department to all pointholders and to all herring permittees. All pointholders are responsible to provide the department with their current address and to verify points credited to them by the department.

(c) A herring permittee may use the department's list and rely upon that list in making offers for transfer of his or her permit until the date of the annual distribution of the new list. On and after the date of the annual revision of the list, the permittee shall use the new list.

(d) The point provisions in this section are for purposes of sale of a permit or transfer to a partner of a coowned permit.

SEC. 8. Section 1 of Chapter 1505 of the Statutes of 1988 is amended to read:

Section 1. The Legislature finds and declares that the restricted transfer of permits in the herring roe fishery is necessary to provide an incentive for those no longer wishing to engage in those fisheries due to health, age, or entry into other fisheries or employment to retire from the fishery, to protect the community property interest of spouses and the interest of families upon dissolution of marriage or death of a permittee, and to allow those seeking to enter the fishery an opportunity to obtain a permit by making available more permits pursuant to this restricted transfer method than would otherwise become available only through death or forfeiture of the permits. No increase in the number of permits issued shall result from this act and no permit shall be divisible into two or more permits.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to protect the community property interests of spouses and the interests of families upon the dissolution of marriage or death of a herring permittee, it is necessary that this act take effect immediately.

CHAPTER 210

An act to amend Sections 19491, 19596.6, and 19614 of, and to add Section 19619.7 to, the Business and Professions Code, relating to horseracing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 26, 1989. Filed with Secretary of State July 27, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 19491 of the Business and Professions Code is amended to read:

19491. (a) Subject to Sections 19491.5 and 19491.6, and except as

provided in Section 19491.7, every association which conducts a racing meeting shall pay as an additional license fee one-half of the breakage deducted pursuant to Section 19597 on the first twenty-four million dollars ($24,000,000) or less, excluding wagering at a satellite wagering facility, of the total amount handled in the parimutuel pools relating to its meeting and all of the breakage deducted on amounts so handled in excess of twenty-four million dollars ($24,000,000), excluding wagering at a satellite wagering facility.

(b) Every association which conducts a racing meeting shall distribute the remaining one-half of the breakage deducted pursuant to Section 19597 on the first twenty-four million dollars ($24,000,000) or less, excluding wagering at a satellite wagering facility, of the total amount handled in the parimutuel pools relating to the meeting as additional purses and for additional commissions in the same proportion, as between purses and commissions, as provided in Sections 19611, 19612, 19612.5, 19612.6, and 19614.

(c) Notwithstanding subdivision (b), one-half of all the breakage deducted pursuant to Section 19597 at fair racing meetings shall be retained and distributed as additional commissions.

Payment of the fee shall be made weekly on account during each meeting, and the amount attributable to breakage shall be reported as a separate item.

SEC. 2. Section 19596.6 of the Business and Professions Code, as amended by Section 4 of Chapter 74 of the Statutes of 1989, is amended to read:

19596.6. (a) Notwithstanding any other provision of law, subject to the conditions and limitations set forth in this section and Section 19596.7, the following entities in the central or southern zone are eligible to be licensed to operate a satellite wagering facility for wagering on races conducted in the central or southern zone:

(1) Any county fair, district agricultural association fair, or citrus fruit fair which conducted general fair activities in 1986 within the central or southern zone, and which is eligible for an allocation of racing days pursuant to Section 19549, but which is not licensed to conduct a racing meeting, may locate a satellite wagering facility at its fairgrounds.

(2) Any association licensed to conduct a racing meeting in the central or southern zone.

(b) The board may authorize an eligible association or, with the approval of the Department of Food and Agriculture, an eligible fair, to operate a satellite wagering facility under all of the following conditions:

(1) A racing association licensed to conduct a racing meeting shall conduct satellite wagering only within its racing inclosure.

(2) An organization described in subdivision (c) of Section 19596.4 has executed an agreement approved by the board with the association conducting a racing meeting and the satellite wagering facility. The agreement shall provide, among other things, the conditions for transmission of the signal and that the wagers made at

the satellite wagering facility are included in the appropriate conventional or exotic pool at the racetrack where the racing meeting is conducted.

(3) The accommodations and equipment used in conducting wagering at the satellite wagering facility and their location have been approved by the board.

(4) The method used by the satellite wagering facility to transmit wagers, odds, results, and other data related to wagering have been approved by the board.

(5) Any association or fair that operates a satellite wagering facility shall conduct wagering on all racing conducted in the central or southern zone that is offered to that satellite wagering facility, as long as the satellite wagering facility is not sustaining a loss on either a day meeting or a night meeting, as determined by the board, and, if sustaining a loss on either a day meeting or a night meeting, as long as that loss is not reimbursed by either an organization described in subdivision (c) of Section 19596.4 or an association.

In calculating the loss, if any, for operating a satellite wagering facility for a night meeting, only the expenses incurred by the satellite wagering facility because of acceptance of night wagers shall be considered, and no overhead expenses or expenses of the satellite wagering facility which would be incurred regardless of the acceptance of night wagers shall be considered.

(c) Notwithstanding subdivision (a), a satellite wagering facility may not be located within the County of Los Angeles or within the County of Orange, except as follows:

(1) If all other conditions in subdivision (b) are met, the Fiftieth District Agricultural Association may be authorized to operate a satellite wagering facility upon its fairgrounds in the City of Lancaster and to accept wagers on races conducted in the southern and central zones.

(2) If all other conditions are met, any fair or association licensed to conduct racing meetings in the County of Los Angeles and any racing association other than a fair which is licensed to conduct racing in the County of Orange may be authorized to operate a satellite wagering facility for the limited purpose of conducting satellite wagering on races conducted at the Twenty-Second District Agricultural Association fairgrounds at Del Mar in the County of San Diego, except that, when a fair in Orange County is licensed for a racing meeting, a satellite wagering facility located within the racing inclosure where the racing meeting is conducted may not operate on the days that racing is conducted.

(d) The total percentage deducted from wagers at satellite wagering facilities shall be the same as the percentage deducted from wagers at the racetrack where the racing meeting is being conducted and shall be distributed as set forth in this section. Amounts deducted by a satellite wagering facility under this section shall be distributed as follows:

(1) On thoroughbred meetings only, 2.5 percent of the amount

handled by the satellite wagering facility on conventional wagers and 4 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, 2.5 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and four-tenths of 1 percent shall be deposited with the official registering agency for California-bred thoroughbred racehorses for distribution pursuant to Section 19617, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(2) On harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1.5 percent of the amount handled by the satellite wagering facility on conventional wagers and 3 percent on exotic wagers shall be distributed to the state as a license fee, 2 percent shall be retained by the satellite wagering facility as a commission, and 6 percent or the amount of actual operating expenses, as determined by the board, whichever is less, shall be distributed to an organization described in subdivision (c) of Section 19596.4, and, in the case of quarter horses, four-tenths of 1 percent shall be distributed as breeders' awards to breeders of quarter horses pursuant to Section 19617.6, and, in the case of Appaloosas, four-tenths of 1 percent shall be distributed as breeders' awards to breeders of Appaloosas and, in the case of standardbreds, four-tenths of 1 percent shall be distributed for the California Standardbred Sires Stakes Program pursuant to Section 19619 and, in the case of thoroughbreds, four-tenths of 1 percent shall be deposited with the official registering agency for California-bred thoroughbred racehorses for distribution pursuant to Section 19617, and one-tenth of 1 percent of the amount wagered at the satellite wagering facility shall be distributed to the Equine Research Laboratory, School of Veterinary Medicine, University of California at Davis. It is the intent of the Legislature that these one-tenth of 1 percent funds to the Equine Research Laboratory shall supplement and not supplant other funding sources.

(3) In addition, on thoroughbred meetings and harness, quarter horse, Appaloosa, mixed breed, or fair meetings, 1 percent shall be distributed to an organization described in subdivision (c) of Section 19596.4 for promotion of the program at satellite wagering facilities. Any of the promotion funds that are not distributed in the year in which they are collected may be distributed in the following year, and if promotion funds distributed in any year exceed the amount collected for that year, the funds distributed in the following year shall be reduced by the excess amount. Additionally, thirty-three hundredths of 1 percent of the total amount handled by the satellite

wagering facility shall be paid to the city or county in which the satellite wagering facility is located pursuant to Section 19610.3 or 19610.4.

(e) On thoroughbred meetings only, the funds remaining after distribution of the amounts in subdivision (d) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent as purses to the horsemen participating in the racing meeting, except that owners' premiums shall be paid from the amount distributed for purses in the same relative percentage as owners' premiums are paid at the racing meeting. All of the funds distributed for purses from satellite wagering facilities shall go to the purse program of the association conducting the racing meeting, except that all sums for distribution as purses at satellite wagering facilities which are racing fairs in the County of Los Angeles shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the Department of Food and Agriculture for supplementing purses at fair meetings in Los Angeles and Orange Counties. The department shall distribute these funds on an equal basis to each racing fair in these counties for distribution in all nonstakes races and among all breeds.

(f) On harness, quarter horse, Appaloosa, mixed breed, and fair meetings, the funds remaining after distribution of the amounts set forth in subdivision (d) shall be distributed 50 percent as commissions to the racing association which conducts the racing meeting and 50 percent to the horsemen in the form of purses participating in the racing meeting, except that, for meetings commencing on or after the effective date of the amendments to this subdivision enacted at the 1987–88 Regular Session of the Legislature, owners' premiums shall be paid from the amount distributed for purses in the same relative percentage as owners' premiums are paid at the racing meeting.

(g) Notwithstanding subdivision (e), when satellite wagering is conducted on thoroughbred races at associations or fairs, an amount, not to exceed 1.25 percent of the total amount handled by all satellite wagering facilities, shall be deducted from the funds otherwise allocated for distribution as commissions, purses, and owners' premiums and instead distributed to an organization formed and operated by thoroughbred racing associations, fairs conducting thoroughbred racing, and the organization representing thoroughbred horsemen, with each party having meaningful representation on the board of the organization, to administer, pursuant to supervision of the board, a fund to provide reimbursement for offsite stabling at board-approved auxiliary training facilities of licensed racing associations for additional stalls beyond the number of usable stalls the association is required to make available and maintain pursuant to Section 19535, and for the vanning of starters from these additional stalls on race days for thoroughbred horses.

(h) The funds distributed to the organization formed pursuant to subdivision (g) shall be used to reimburse racing associations who are operating offsite stabling providing additional stalls for the incremental increase in operating costs directly resulting from providing the stabling. Neither the organization administering the offsite stabling and vanning program nor any of the entities forming and operating the organization, except the entity operating the offsite stabling facility where the injury occurred, shall be liable for any injury to any jockey, exercise person, owner, trainer, or any employee or agent thereof, or any horse occurring at any offsite stabling facility.

The funds shall also reimburse horsemen for the cost of vanning starting horses from a board-approved auxiliary training facility operated by a licensed racing association to the track conducting the racing meeting. Horsemen may use carriers of their own choice, except that the amount of reimbursement to horsemen is limited to the amount that the organization determines is generally charged by carriers for vanning from the auxiliary training facility to the track conducting the racing meeting. Neither the organization administering the offsite stabling and vanning program nor any of the entities forming and operating the organization, except the entity actually engaged in vanning horses, shall be liable for any injury occurring to any individual or horse during vanning from an offsite stabling facility.

The training facilities and amenities provided for offsite stabling and training purposes shall be equivalent in character to those provided during racing meetings of the association.

Upon the request of any party within the organization, the board shall adjudicate any dispute regarding costs, or other matters relating to the furnishing of offsite stabling or vanning. The board may, if necessary, appoint an independent auditor to assist in the resolution of disputes. The auditor shall be reimbursed from the funds of the organization.

The organization may maintain a reserve fund of up to 10 percent of the total estimated annual vanning and stabling costs. In addition to the reserve fund, if the funds generated for offsite stabling and vanning are insufficient to fully reimburse racing associations for expenses incurred during the offsite vanning and stabling program, the organization is entitled to accumulate sufficient funds to fully reimburse these expenses.

The amount initially deducted and distributed to the organization shall be 1.25 percent of the total amount handled by satellite wagering facilities authorized under this section on thoroughbred racing, but that allocation may be adjusted by the board, in its discretion, but the adjusted amount may not exceed 1.25 percent of the total amount handled by satellite wagering facilities, to pay expenses and maintain the reserve fund for the continuing support of the program.

(i) Forty-two percent of the revenue payable to the state from

license fees from satellite wagering facilities located at fairs under the authority of this section shall be deposited in a separate account in the fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated from that account to the Department of Food and Agriculture, for allocation by the Director of Food and Agriculture, in his or her discretion, for the following purposes, except that the concurrence of the Director of Finance shall be obtained for allocations for the purposes of paragraphs (1) and (2):

(1) For repayment of the principal of, interest on, and costs of issuance of, and as security, including any coverage factor, pledged to the payment of, bonds issued or to be issued by a joint powers agency or other debt service or expense, including repayment of any advances made or security required by any provider of credit enhancement or liquidity for those bonds or other indebtedness or expenses of maintaining that credit enhancement or liquidity, incurred for the purpose of constructing or acquiring improvements at a fair's racetrack inclosure, satellite wagering facilities at fairs, health and safety repair projects, or handicapped access compliance projects at fairs or for the purpose of refunding bonds or other indebtedness incurred for those purposes. As used in this paragraph, "coverage factor" means revenues in excess of the amount necessary to pay debt service on the bonds or other indebtedness, up to an amount equal to 100 percent more than the amount of that debt service, which a joint powers authority, pursuant to the resolution or indenture under which the bonds or other indebtedness are or will be issued, pledges as additional security for the payment of that debt service or is required to have or maintain as a condition to the issuance of additional bonds or other indebtedness. Notwithstanding any other law, the department may also commit any funds available for allocation under Article 10 (commencing with Section 19620) to complete projects funded under this paragraph in the priority described in this paragraph.

(2) For repayment of expenses incurred by fairs in establishing and operating satellite wagering facilities.

(3) For health and safety repair projects at the fair.

(4) For support purposes of the fair generally.

(k) Notwithstanding subdivision (b) of Section 19641, the state shall receive as additional license fees 50 percent of any redistributable money in a parimutuel pool arising from wagers at a satellite wagering facility, subject to payment to a claimant pursuant to Section 19598, but not successfully claimed within that period, and the funds shall be deposited in the General Fund. The remaining 50 percent of redistributable money in a parimutuel pool arising from

wagers at a satellite wagering facility shall be paid to a welfare fund established by the horsemen's organization contracting with the association conducting the racing meeting for the benefit of horsemen, and that organization shall make an accounting to the board within one calendar year of the receipt of the payment.

(*l*) Of the total breakage arising in a parimutuel pool which includes wagers at satellite wagering facilities, that percentage of breakage equal to the percentage that wagers placed at satellite wagering facilities constitute of the total parimutuel pool shall be distributed equally among the state as an additional license fee deposited in the General Fund, the track conducting the racing meeting as a commission, and the horsemen participating in the racing meeting in the form of purses. The remainder of the breakage shall be distributed in the same manner as breakage arising from wagers at the track conducting the racing meeting.

(m) Notwithstanding subdivision (f) of Section 19596.5 and subdivision (i) of this section, if the revenues deposited in the separate account pursuant to those subdivisions (f) and (i) are in excess of the eleven million dollars ($11,000,000) in any fiscal year, one-half of the amount in excess of eleven million dollars ($11,000,000) shall be transferred to the General Fund.

SEC. 3. Section 19614 of the Business and Professions Code is amended to read:

19614. $1,000,000 to $1,500,000	$30,000 plus 3.75 percent of the handle in excess of $1,000,000.
$1,500,000 or more	$48,740 plus 5 percent of the handle in excess of $1,500,000.

No fair racing association shall pay a license fee under this section in excess of 4.5 percent of its daily parimutuel handle, excluding wagering at a satellite wagering facility.

(b) After distribution of the applicable license fees as set forth in subdivision (a), all funds remaining from the deductions provided in Section 19610 shall be distributed 48 percent as commissions and 52 percent as purses.

Any additional amount generated for purses and not distributed during the previous corresponding meeting shall be added to the purses at the current meeting.

(c) In addition to the amounts deducted pursuant to Section 19610, any fair racing association shall deduct 1 percent from the total amount handled in its daily conventional and exotic parimutuel pools. The additional 1 percent shall be deposited in the Fair and Exposition Fund and is hereby appropriated for the purposes specified in Section 19627.2.

SEC. 4. Section 19619.7 is added to the Business and Professions Code, to read:

19619.7. (a) Notwithstanding any other provision of this chapter, this section applies to all racing fairs in the central and southern zones.

(b) Any purse money required by law to be paid by any fair in the central and southern zones, which has been accumulated from racing meetings prior to 1989, shall be added by that fair, in equal amounts, to purses to be distributed at its next four racing meetings commencing in 1989.

(c) In 1989 and subsequent years, a fair in the central and southern zones shall annually distribute purses equivalent to all purse money generated at its meetings from live racing and satellite wagering during that year and from other sources as provided in this chapter.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for this act to take effect and apply during the 1989 central and southern fair racing season which commences in September of this year, it is necessary that this act take effect immediately.

tax with voter approval, the appropriations limit of such an entity, unless otherwise established pursuant to law, shall be deemed established by the electors at the election approving the special tax as that amount equal to the proceeds of taxes received during the first full fiscal year in which proceeds of taxes were received, and shall thereafter be adjusted in any manner which may be required or permitted by Article XIII B of the California Constitution.

CHAPTER 212

An act to amend Sections 32103, 32121, 32126.5, and 32132 of the Health and Safety Code, relating to hospital districts.

(f) To employ legal counsel to advise the board of directors in all matters pertaining to the business of the district, to perform the functions in respect to the legal affairs of the district as the board may direct, and to call upon the district attorney of the county in which the greater part of the land in the district is situated for legal advice and assistance in all matters concerning the district, except that if that county has a county counsel, the directors may call upon the county counsel for legal advice and assistance.

The initial members of the board of directors of the nonprofit corporation or corporations shall be approved by the board of directors of the hospital district and shall be residents of the district. This subdivision does not invalidate or affect any transfers made prior to March 1, 1985, pursuant to this subdivision.

(q) To contract for bond insurance, letters of credit, remarketing services, and other forms of credit enhancement and liquidity support for its bonds, notes, and other indebtedness and to enter into reimbursement agreements, monitoring agreements, remarketing agreements, and similar ancillary contracts in connection therewith.

SEC. 3. Section 32126.5 of the Health and Safety Code is amended to read:

32126.5. In the enactment of recent legislation, the United States Congress has recognized the need to provide health care coverage to employees of small businesses and others who may not now have the benefit of this coverage. The Legislature recognizes this need and believes that district hospitals, being strategically located in both rural and urban areas of the state, possess the skilled medical staffs and facilities required to furnish this coverage. Therefore, this section authorizes a local hospital district to enter into joint exercise of power agreements with other hospital districts to provide health care coverage to those persons not otherwise covered.

The board of directors may do any of the following when it determines that the action is necessary for the provision of adequate health services within the district:

(a) Enter into contracts with health provider groups, community service groups and independent physicians and surgeons for the provision of health services.

(b) Provide assistance or make grants to nonprofit provider groups and clinics already functioning in the community.

(c) Finance experiments with new methods of providing adequate health care.

(d) Undertake those activities necessary to participate in, or manage, capitated health care plans, health maintenance organizations, preferred provider organizations, and other managed health care systems. However, no such activity shall be deemed to

result in or constitute the giving or lending of the district's credit, assets, surpluses, cash, or tangible goods to, or in aid of, any person, association, or corporation in violation of Section 6 of Article XVI of the California Constitution.

This section does not authorize activities which corporations and other artificial legal entities are prohibited from conducting by Section 2400 of the Business and Professions Code.

(e) Study the feasibility of providing health care coverage for employees of employers operating within the service area of the participating hospital district. A district shall not actually provide health care coverage pursuant to this section or any other provision of law unless the Legislature specifically authorizes the service. If the Legislature authorizes a district to provide health care coverage, a district shall not provide health care coverage within the service area of another hospital district unless it obtains the consent of the other district.

SEC. 4. Section 32132 of the Health and Safety Code is amended to read:

32132. (a) Except as otherwise provided in this section, the board of directors shall let any contract involving an expenditure of more than twenty-five thousand dollars ($25,000) for materials and supplies to be furnished, sold, or leased to the district, or any contract involving an expenditure of more than twenty-five thousand dollars ($25,000) for work to be done, to the lowest responsible bidder who shall give the security the board requires, or else reject all bids.

(b) Subdivision (a) shall not apply to medical or surgical equipment or supplies or to professional services, including data processing programs or software.

(c) Bids need not be secured for change orders which do not materially change the scope of the work as set forth in a contract previously made if such contract was made after compliance with bidding requirements, and if each individual change order does not total more than 5 percent of such contract.

(d) As used in this section, "medical or surgical equipment or supplies" includes only equipment or supplies commonly, necessarily, and directly used by, or under the direction of, a physician and surgeon in caring for or treating a patient in a hospital.

(e) Nothing in this section shall prevent any district hospital from participating as a member of any organization described in Section 23704 of the Revenue and Taxation Code, nor shall this section apply to any purchase made, or services rendered, by the organization on behalf of a district hospital which is a member of the organization.

CHAPTER 213

The policy shall take into account reasonable factors that may prevent compliance with a notice to attend. The attendance of the parent or guardian shall be limited to the class from which the pupil was suspended.

(b) The policy shall be adopted pursuant to the procedures set forth in Sections 35291 and 35291.5. Parents and guardians shall be notified of this policy prior to its implementation. A teacher shall apply any policy adopted pursuant to this section uniformly to all pupils within the classroom.

The adopted policy shall include the procedures that the district will follow to accomplish the following:

(1) Ensure that parents or guardians who attend school for the purposes of this section meet with the school administrator or his or her designee after completing the classroom visitation and before leaving the schoolsite.

(2) Contact parents or guardians who do not respond to the request to attend school pursuant to this section.

(c) If a teacher imposes the procedure pursuant to subdivision (a), the principal shall send a written notice to the parent or guardian stating that attendance by the parent or guardian is pursuant to law. This section shall apply only to a parent or guardian who is actually living with the pupil.

(d) A parent or guardian who has received a written notice pursuant to subdivision (c) shall attend class as specified in the written notice. The notice may specify that the parent's or guardian's attendance be on the day in which the pupil is scheduled to return to class, or within a reasonable period of time thereafter, as established by the policy of the board adopted pursuant to subdivision (a).

SEC. 2. Section 230.7 is added to the Labor Code, to read:

230.7. (a) No employer shall discharge or in any manner discriminate against an employee who is the parent or guardian of

a pupil for taking time off to appear in the school of a pupil pursuant to a request made under Section 48900.1 of the Education Code, if the employee, prior to taking the time off, gives reasonable notice to the employer that he or she is requested to appear in the school.

(b) Any employee who is discharged, threatened with discharge, demoted, suspended, or in any other manner discriminated against in the terms and conditions of employment by his or her employer because the employee has taken time off to appear in the school of a pupil pursuant to a request made under Section 48900.1 of the Education Code shall be entitled to reinstatement and reimbursement for lost wages and work benefits caused by those acts of the employer.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

(3) The Legislature finds and declares that, because the East Fork Carson River and West Walker River are interstate streams, and a source of agricultural water and domestic water for communities within the counties of Alpine and Mono where they originate, it is necessary that the following special provisions apply:

(A) Nothing in this subdivision shall be construed to prohibit the replacement of diversions or changes in the purpose of use, place of use, or point of diversion under existing water rights, except that (i) no such replacement or change shall operate to increase the adverse effect, if any, of the preexisting diversion facility or place or purpose of use, upon the free-flowing condition and natural character of the stream, and (ii) after January 1, 1990, no new diversion shall be constructed unless and until the secretary determines that the facility is needed to supply domestic water to the residents of any county through which the river or segment flows and that the facility will not adversely affect the free-flowing condition and natural character of the stream.

(B) Nothing in this chapter shall be construed as quantifying or otherwise affecting any equitable apportionment, or as establishing any upper limit, between the State of California and the State of Nevada of the waters of these streams.

(g) Other rivers which qualify for inclusion in the system may be recommended to the Legislature by the secretary.

SEC. 2. Section 5093.542 is added to the Public Resources Code,

to read:

5093.542. The Legislature finds and declares that the McCloud River possesses extraordinary resources in that it supports one of the finest wild trout fisheries in the state. Portions of the river have been appropriately designated by the Fish and Game Commission, pursuant to Chapter 7.2 (commencing with Section 1725) of Division 2 of the Fish and Game Code, as wild trout waters, with restrictions on the taking, or method of taking, of fish. The Legislature has determined, based upon a review of comprehensive technical data evaluating resources and potential beneficial uses, that potential beneficial uses must be balanced, in order to achieve protection of the unique fishery resources of the McCloud River, as follows:

(a) The continued management of river resources in their existing natural condition represents the best way to protect the unique fishery of the McCloud River. The Legislature further finds and declares that maintaining the McCloud River in its free-flowing condition to protect its fishery is the highest and most beneficial use of the waters of the McCloud River within the segments designated in subdivision (b), and is a reasonable use of water within the meaning of Section 2 of Article X of the California Constitution.

(b) No dam, reservoir, diversion, or other water impoundment facility shall be constructed on the McCloud River from Algoma to the confluence with Huckleberry Creek, and 0.25 mile downstream from the McCloud Dam to the McCloud River Bridge; nor shall any such facility be constructed on Squaw Valley Creek from the confluence with Cabin Creek to the confluence with the McCloud River.

(c) Except for participation by the Department of Water Resources in studies involving the technical and economic feasibility of enlargement of Shasta Dam, no department or agency of the state shall assist or cooperate with, whether by loan, grant, license, or otherwise, any agency of the federal, state, or local government in the planning or construction of any dam, reservoir, diversion, or other water impoundment facility that could have an adverse effect on the free-flowing condition of the McCloud River, or on its wild trout fishery.

(d) All state agencies exercising powers under any other provision of law with respect to the protection and restoration of fishery resources shall continue to exercise those powers in a manner to protect and enhance the fishery of those segments designated in subdivision (b). In carrying out this subdivision, any exercise of powers shall be consistent with Section 5093.58.

(e) Nothing in this section shall prejudice, alter, affect in any way, or interfere with the construction, maintenance, repair, or operation by the Pacific Gas and Electric Company of the existing McCloud-Pit development (FERC 2106) under its license, or prevent Pacific Gas and Electric from constructing a hydroelectric generating facility by retrofitting the existing McCloud Dam if the operation of the facility does not alter the existing flow regime below the dam.

CHAPTER 216

An act to amend and repeal Section 15814.15 of the Government Code, and to amend and repeal Section 25008.5 of the Public Resources Code, relating to energy resources.

[Approved by Governor July 26, 1989. Filed with Secretary of State July 27, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 15814.15 of the Government Code is amended to read:

15814.15. (a) The board may issue revenue bonds pursuant to Chapter 5 (commencing with Section 15830) to finance the cost of cogeneration equipment, alternative energy equipment, and conservation measures constituting the public buildings authorized by this chapter. The total amount of revenue bonds authorized to be issued pursuant to this section in each of the 10 fiscal years beginning

with the 1982–83 fiscal year is fifty million dollars ($50,000,000). Any portion of the authorization not used in any fiscal year may be used in any future fiscal year.

(b) This section shall remain in effect only until January 1, 2000, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 2000, deletes or extends that date.

SEC. 2. Section 25008.5 of the Public Resources Code is amended to read:

25008.5. (a) The Legislature hereby finds and declares that in order to maximize public benefit from private sector participation in state operations and to maximize the Legislature's ability to devote limited resources of the state to the responsibilities of state government that are less attractive to private sector investment, it is the policy of the state to encourage third-party financing of energy projects, including, but not limited to, cogeneration facilities, at state-owned sites.

(b) The Legislature further finds and declares that the development of energy projects at state-owned sites can be accelerated where reasonable incentives are provided to the siting institutions. These incentives are necessary to offset the long-term administrative, operational, and technical complexities of energy projects developed under this section. Reasonable incentives for implementing the policy of this section shall include the sharing of benefits derived from energy projects between the state and the siting institution. The benefits to the state and siting institutions derived from projects implemented under this section may include, but are not limited to, annual cash revenues, avoided capital costs, reduced energy costs, site improvements, and additional operations and maintenance resources. The annual cash revenues derived from those projects shall be shared equally between the state and the siting institution, if both of the following conditions are met:

(1) The use of cash and avoided cost benefits by siting institutions is to be limited to improvement of ongoing maintenance, deferred maintenance, cost-effective energy improvements, and other infrastructure improvements. To the extent an institution receives annual cash revenues under this section, the institution shall retain any money it receives, but not to exceed one-half of this amount, in a special deposit fund account, which shall be continuously appropriated to the institution for the purposes of this section. The state's benefit share, and the siting institution's benefit share that exceeds its needs, shall be deposited in the Energy and Resources Fund or, if this fund is not in existence, the General Fund for the purpose of investing in renewable resources programs and energy efficiency improvements at state facilities.

(2) The use of benefits shall be in addition to, and shall not supplant or replace, funding from traditional sources for a siting institution's normal operations and maintenance or capital outlay budgets.

(c) The Legislature further finds and declares that a

benefit-sharing incentive is applicable to energy projects reported to, or authorized by, the Legislature pursuant to Section 13304 or 14671.6 of the Government Code. This section shall not apply to energy projects which are constructed on or at facilities or property of the State Water Resources Development System.

(d) Commencing on January 1, 1986, the Department of General Services shall submit annual reports to the Legislature on the cost benefit aspects in carrying out this section.

(e) This section shall remain in effect only until January 1, 2000, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 2000, deletes or extends that date.

CHAPTER 217

An act to amend Section 1 of Chapter 198 of the Statutes of 1988 and Section 6 of Chapter 1143 of the Statutes of 1982, relating to school buildings.

[Approved by Governor July 26, 1989 Filed with Secretary of State July 27, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1 of Chapter 198 of the Statutes of 1988 is amended to read:

Section 1. The Lodi Unified School District may extend existing lease agreements on residential houses constructed after January 1, 1978, to house elementary school pupils, until June 30, 1992, if the facilities meet all applicable provisions of state and local building standards for residential houses existing at the time of construction of the houses. Notwithstanding any other provision of law, residential houses that meet those requirements, and that were leased by the Lodi Unified School District as of January 1, 1988, are exempt from Article 3 (commencing with Section 39140) and Article 6 (commencing with Section 39210) of Chapter 2 of Part 23 of the Education Code.

It is the intent of the Legislature that the Lodi Unified School District inform pupils and the parents or legal guardians of pupils of the risks that may be incurred by the continued occupation of buildings that are not in compliance with the earthquake safety standards prescribed by the Field Act, by posting a sign alerting those who use the building of its potentially unsafe condition.

This section shall remain in effect only until June 30, 1992, and as of that date is repealed unless a later enacted statute which is chaptered before June 30, 1992, deletes or extends that date.

SEC. 2. Section 6 of Chapter 1143 of the Statutes of 1982, as amended by Section 2 of Chapter 282 of the Statutes of 1984, is amended to read:

Sec. 6. Notwithstanding any other provision of law, the governing board of the Lake Tahoe Community College District may continue to use until June 30, 1995, an existing building leased by the district located at 970 Lodi Avenue, South Lake Tahoe, California. During the period of use authorized by this section, the building shall not be subject to Article 7 (commencing with Section 81130) or Article 8 (commencing with Section 81160) of Chapter 1 of Part 49 of the Education Code.

It is the intent of the Legislature that the Lake Tahoe Community College District inform students of the risks that may be incurred by the continued occupation of a building which is not in compliance with the earthquake safety standards prescribed by the Field Act, by posting a sign alerting those who use the building of its potentially unsafe condition.

SEC. 3. Due to the unique circumstances concerning the school facilities leased by the Lake Tahoe Community College District and school facilities in the Lodi Unified School District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

CHAPTER 218

An act to add Section 21087.5 to the Public Resources Code, relating to environmental quality.

[Approved by Governor July 27, 1989 Filed with Secretary of State July 27, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 21087.5 is added to the Public Resources Code, to read:

21087.5. The Office of Planning and Research shall review the provisions of this division and the guidelines prepared pursuant to Section 21083 to determine if they should be amended to respond to the potential impacts to the state from global warming. In conducting its review, the office shall not conduct any original research on global warming, but shall use available studies and reports on the subject. A report of the office's recommendations shall be submitted to the Legislature by January 1, 1991.

CHAPTER 219

An act to amend Section 22358 of the Business and Professions Code, relating to process servers.

[Approved by Governor July 27, 1989 Filed with Secretary of State July 27, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 22358 of the Business and Professions Code is amended to read:

22358. (a) A certificate of registration may be revoked or suspended whenever it has been determined that the registrant has made a service of process which does not comply with the provisions of law governing the service of process in this state or constitutes an improper service of process not amounting to a violation of law.

(b) An investigation concerning the revocation or suspension of a certificate of registration may be commenced at any time at the option of the county clerk if the county clerk deems it to be appropriate. A complaint by any person who has alleged that he or she has been injured by a service of process shall be investigated by the public prosecutor. The investigation shall determine if the registrant complied with the provisions of law governing the service of process or constituted improper service of process not amounting to a violation of the law.

(c) If the public prosecutor determines from the investigation that cause may exist for the suspension or revocation of the certificate of registration, he or she shall set the matter for hearing and give notice to the registrant. That hearing shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Division 3 of Title 2 of the Government Code, and, for the purposes of those provisions, the public prosecutor shall be deemed to be the agency.

(d) If, after the hearing, the county clerk is notified after the decision has become effective that the administrative law judge has directed that the registrant's certificate be suspended or revoked, the county clerk shall forthwith suspend or revoke the certificate. If the certificate is revoked, the bond or cash deposit required by Section 22353 shall be forfeited to the county treasury subject to the right of a person to recover against the bond or cash deposit under Section 22357.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000),

reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

(2) Physician case management.

(3) Cost containment through provider incentives and other means.

(c) The program for the pilot project shall include a plan and budget for delivery of services, administration, and evaluation. During the first year of the pilot program, the amount of the state

contract shall equal 95 percent of total projected Medi-Cal expenditures for delivery of services and for administration based on fee-for-service conditions in the program county. During the remaining years of the pilot project, Medi-Cal expenditures in the program county shall be no more than 100 percent of total projected expenditures for delivery of services and for administration based on any combination of the following paragraphs:

(1) Relevant prior fee-for-service Medi-Cal experience in the program county.

(2) The fee-for-service Medi-Cal experience in comparable counties or groups of counties.

(3) Medi-Cal experience of the pilot project in the program county if, as determined by the state department, the scope, level, and duration of, and expenditures for, any services used in setting the rates under this paragraph would be comparable to fee-for-service conditions were they to exist in the program county and would be more actuarially reliable for use in ratesetting than data available for use in applying paragraph (1) or (2).

The projected total expenditure shall be determined annually according to an acceptable actuarial process. The data elements used by the department shall be shared with the proposed contractor.

(d) The director shall accept or reject the proposal within 30 days after the date of receipt. If a decision is made to reject the proposal, the director shall set forth the reasons for this decision in writing. Upon approval of the proposal, a contract shall be written within 60 days. After signature by the local contractor, the State Department of Health Services, the Department of General Services, and the Department of Finance shall execute the contract within 60 days.

(e) The director shall seek the necessary state and federal waivers to enable operation of the program. If the federal waivers for delivery of services under this plan are not granted, the department is under no obligation to contract for implementation of the program.

(f) For purposes of Section 1343 of the Health and Safety Code, the Santa Barbara County Special Health Care Authority shall be considered to be a county-operated pilot program contracting with the State Department of Health Services pursuant to this article, and notwithstanding any other provision of law, during the period that this contract is in effect, the contractor shall be exempt from the provisions of the Knox-Keene Health Care Service Plan Act of 1975, Chapter 2.2 (commencing with Section 1340) of Division 2 of the Health and Safety Code, relative to the services provided to Medi-Cal beneficiaries under the terms and provisions of the pilot program.

(g) Nothing in this section shall be construed to include dental services within the services provided in this pilot program.

(h) Any federal demonstration funding for this pilot program shall be made available to the county within 60 days upon notification of the award without the state retaining any portion not previously

specified in the grant application as submitted.

(i) An independent evaluation of the program shall be conducted and a report submitted to the Legislature and the director by January 1, 1988. The independent evaluation of the program commissioned by the federal Health Care Financing Administration may fulfill the purposes of this part. This evaluation and report shall include, but is not limited to, the following:

(1) An assessment of the cost of medical services as compared to the cost of the existing Medi-Cal fee-for-service delivery mode.

(2) An assessment of utilization levels of specialist and emergency services.

(3) An assessment of the quality of care.

(4) Recommendations for future policy on delivery of services.

(j) This section shall remain operative only until June 30, 1993, and shall remain in effect only until January 1, 1994, and as of that date is repealed, unless a later enacted statute which is chaptered before January 1, 1994, deletes or extends that date.

SEC. 2. Section 9650.4 is added to the Business and Professions Code, to read:

9650.4. The amount of the fine shall be established by regulation in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). Failure to pay the fine within 15 days after receipt of written notification of the assessment or, where a timely request for waiver or reduction of the fine has been filed, within 15 days after receipt of written notification of the board's decision in the matter, shall be cause for disciplinary action.

(b) A cemetery authority may request waiver or reduction of a fine by making a written request therefor. The request shall be postmarked within the time specified above for payment of the fine and shall be accompanied by a statement showing good cause for the request.

(c) The board may waive or reduce the fine where a timely request is made and where it determines, in its discretion, that the cemetery authority has made a sufficient showing of good cause for the waiver or reduction.

The employment shall not operate to reinstate the retirant as a member of this system, or to terminate or suspend his or her retirement allowance, and no deduction shall be made from his or her salary as contributions to this system.

The maximum amount earnable under this section shall be adjusted by the board on July 1, 1986, and on each July 1, thereafter, by the annual amount of increase in All Urban California Consumer Price Index using December 1984 as the base.

CHAPTER 228

An act to amend Sections 2962, 2966, 2970, 2972, and 2980 of the Penal Code, relating to prisoners, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 27, 1989 Filed with Secretary of State July 27, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 2962 of the Penal Code is amended to read:

2962. As a condition of parole, a prisoner who meets the following criteria shall be required to be treated by the State Department of Mental Health, and the State Department of Mental Health shall provide the necessary treatment:

(a) The prisoner has a severe mental disorder that is not in remission or cannot be kept in remission without treatment.

The term "severe mental disorder" means an illness or disease or condition that substantially impairs the person's thought, perception of reality, emotional process, or judgment; or which grossly impairs behavior; or that demonstrates evidence of an acute brain syndrome for which prompt remission, in the absence of treatment, is unlikely. The term "severe mental disorder" as used in this section does not include a personality or adjustment disorder, epilepsy, mental retardation or other developmental disabilities, or addiction to or abuse of intoxicating substances.

The term "remission" means a finding that the overt signs and symptoms of the severe mental disorder are controlled either by psychotropic medication or psychosocial support. A person "cannot be kept in remission without treatment" if during the year prior to the question being before the Board of Prison Terms or a trial court, he or she has been in remission and he or she has been physically violent, except in self-defense, or he or she has made a serious threat of substantial physical harm upon the person of another so as to cause the target of the threat to reasonably fear for his or her safety or the safety of his or her immediate family, or he or she has intentionally caused property damage, or he or she has not voluntarily followed the treatment plan. In determining if a person has voluntarily followed the treatment plan, the standard shall be whether the person has acted as a reasonable person would in following the treatment plan.

(b) The severe mental disorder was one of the causes of or was an aggravating factor in the commission of a crime for which the prisoner was sentenced to prison.

(c) The prisoner has been in treatment for the severe mental disorder for 90 days or more within the year prior to the prisoner's parole or release.

(d) (1) Prior to release on parole, the person in charge of treating

the prisoner and a practicing psychiatrist or psychologist from the State Department of Mental Health have evaluated the prisoner at a facility of the Department of Corrections, and a chief psychiatrist of the Department of Corrections has certified to the Board of Prison Terms that the prisoner has a severe mental disorder, that the disorder is not in remission, or cannot be kept in remission without treatment, that the severe mental disorder was one of the causes or was an aggravating factor in the prisoner's criminal behavior, that the prisoner has been in treatment for the severe mental disorder for 90 days or more within the year prior to his or her parole release day, that the prisoner used force or violence or caused serious bodily injury in committing the crime referred to in subdivision (b), and that by reason of his or her severe mental disorder the prisoner represents a substantial danger of physical harm to others. For prisoners being treated by the State Department of Mental Health pursuant to Section 2684, the certification shall be by a chief psychiatrist of the Department of Corrections, and the evaluation shall be done at a state hospital by the person at the state hospital in charge of treating the prisoner and a practicing psychiatrist or psychologist from the Department of Corrections.

(2) If the professionals doing the evaluation pursuant to paragraph (1) do not concur that (1) the prisoner has a severe mental disorder, or (2) that the disorder is not in remission or cannot be kept in remission without treatment, or (3) that the severe mental disorder was a cause of, or aggravated the prisoner's criminal behavior, and a chief psychiatrist has certified the prisoner to the Board of Prison Terms pursuant to this paragraph, then the Board of Prison Terms shall order a further examination by two independent professionals, as provided for in Section 2978.

(3) Only if both independent professionals who evaluate the prisoner pursuant to paragraph (2) concur with the chief psychiatrist's certification of the issues described in paragraph (2), shall the provisions of this subdivision be applicable to the prisoner. The professionals appointed pursuant to Section 2978 shall inform the prisoner that the purpose of their examination is not treatment but to determine if the prisoner meets certain criteria to be involuntarily treated as a mentally disordered offender. It is not required that the prisoner appreciate or understand that information.

(e) The crime referred to in subdivision (b) was a crime in which the prisoner used force or violence, or caused serious bodily injury as defined in paragraph (5) of subdivision (e) of Section 243.

(f) As used in this chapter, "substantial danger of physical harm" does not require proof of a recent overt act.

SEC. 2. Section 2966 of the Penal Code is amended to read:

2966. (a) A prisoner may request a hearing before the Board of Prison Terms, and the board shall conduct a hearing if so requested, for the purpose of proving that the prisoner meets the criteria in Section 2962. At the hearing, the burden of proof shall be on the person or agency who certified the prisoner under subdivision (d)

of Section 2962. If the prisoner or any person appearing on his or her behalf at the hearing requests it, the board shall appoint two independent professionals as provided for in Section 2978. The prisoner shall be informed at the hearing of his or her right to request a trial pursuant to subdivision (b). The Board of Prison Terms shall provide a prisoner who requests a trial, a petition form and instructions for filing the petition.

(b) A prisoner who disagrees with the determination of the Board of Prison Terms that he or she meets the criteria of Section 2962, may file in the superior court of the county in which he or she is incarcerated or is being treated a petition for a hearing on whether he or she, as of the date of the Board of Prison Terms hearing, met the criteria of Section 2962. The court shall conduct a hearing on the petition within 60 calendar days after the petition is filed, unless either time is waived by the petitioner or his or her counsel, or good cause is shown. The order of the Board of Prison Terms shall be in effect until the completion of the court proceedings. The court shall advise the petitioner of his or her right to be represented by an attorney and of the right to a jury trial. The attorney for the petitioner shall be given a copy of the petition, and any supporting documents. The hearing shall be a civil hearing; however, in order to reduce costs, the rules of criminal discovery, as well as civil discovery, shall be applicable. The standard of proof shall be beyond a reasonable doubt, and if the trial is by jury, the jury shall be unanimous in its verdict. The trial shall be by jury unless waived by both the person and the district attorney.

(c) If the Board of Prison Terms continues a parolee's mental health treatment under Section 2962 when it continues the parolee's parole under Section 3001, the procedures of this section shall only be applicable for the purpose of determining if the parolee has a severe mental disorder, whether the parolee's severe mental disorder is not in remission or cannot be kept in remission without treatment, and whether by reason of his or her severe mental disorder, the parolee represents a substantial danger of physical harm to others.

SEC. 3. Section 2970 of the Penal Code is amended to read:

2970. Not later than 180 days prior to the termination of parole, or release from prison if the prisoner refused to agree to treatment as a condition of parole as required by Section 2962, unless good cause is shown for the reduction of that 180-day period, if the prisoner's severe mental disorder is not in remission or cannot be kept in remission without treatment, the medical director of the state hospital which is treating the parolee, or the county mental health director in charge of the parolee's outpatient program, or the Director of Corrections, shall submit to the district attorney of the county in which the parolee is receiving outpatient treatment, or for those in prison or in a state mental hospital, the district attorney of the county of commitment, his or her written evaluation on remission. If requested by the district attorney, the written

evaluation shall be accompanied by supporting affidavits.

The district attorney may then file a petition with the superior court for continued involuntary treatment for one year. The petition shall be accompanied by affidavits specifying that treatment, while the prisoner was released from prison on parole, has been continuously provided by the State Department of Mental Health either in a state hospital or in an outpatient program. The petition shall also specify that the prisoner has a severe mental disorder, that the severe mental disorder is not in remission or cannot be kept in remission if the person's treatment is not continued, and that, by reason of his or her severe mental disorder, the prisoner represents a substantial danger of physical harm to others.

SEC. 4. Section 2972 of the Penal Code is amended to read:

2972. (a) The court shall conduct a hearing on the petition under Section 2970 for continued treatment. The court shall advise the person of his or her right to be represented by an attorney and of the right to a jury trial. The attorney for the person shall be given a copy of the petition, and any supporting documents. The hearing shall be a civil hearing, however, in order to reduce costs the rules of criminal discovery, as well as civil discovery, shall be applicable.

The standard of proof under this section shall be proof beyond a reasonable doubt, and if the trial is by jury, the jury shall be unanimous in its verdict. The trial shall be by jury unless waived by both the person and the district attorney. The trial shall commence no later than 30 calendar days prior to the time the person would otherwise have been released, unless the time is waived by the person or unless good cause is shown.

(b) The people shall be represented by the district attorney. If the person is indigent, the county public defender shall be appointed.

(c) If the court or jury finds that the patient has a severe mental disorder, that the patient's severe mental disorder is not in remission or cannot be kept in remission without treatment, and that by reason of his or her severe mental disorder, the patient represents a substantial danger of physical harm to others, the court shall order the patient recommitted to the facility in which the patient was confined at the time the petition was filed, or recommitted to the outpatient program in which he or she was being treated at the time the petition was filed, or committed to the State Department of Mental Health if the person was in prison. The commitment shall be for a period of one year from the date of termination of parole or a previous commitment or the scheduled date of release from prison as specified in Section 2970.

(d) A person shall be released on outpatient status if the committing court finds that there is reasonable cause to believe that the committed person can be safely and effectively treated on an outpatient basis. Except as provided in this subdivision, the provisions of Title 15 (commencing with Section 1600) of Part 2, shall apply to persons placed on outpatient status pursuant to this paragraph. The standard for revocation under Section 1609 shall be

that the person cannot be safely and effectively treated on an outpatient basis.

(e) Prior to the termination of a commitment under this section, a petition for recommitment may be filed to determine whether the patient's severe mental disorder is not in remission or cannot be kept in remission without treatment, and whether by reason of his or her severe mental disorder, the patient represents a substantial danger of physical harm to others. The recommitment proceeding shall be conducted in accordance with the provisions of this section.

(f) Any commitment under this article places an affirmative obligation on the treatment facility to provide treatment for the underlying causes of the person's mental disorder.

(g) Except as provided in this subdivision, the person committed shall be considered to be an involuntary mental health patient and he or she shall be entitled to those rights set forth in Article 7 (commencing with Section 5325) of Chapter 2 of Part 1 of Division 5 of the Welfare and Institutions Code. Commencing January 1, 1986, the State Department of Mental Health may adopt regulations to modify those rights as is necessary in order to provide for the reasonable security of the inpatient facility in which the patient is being held. This subdivision and the regulations adopted pursuant thereto shall become operative on January 1, 1987, except that regulations may be adopted prior to that date.

SEC. 5. Section 2980 of the Penal Code is amended to read:

2980. This article applies to persons who committed their crimes on and after January 1, 1986.

SEC. 6. It is not the intent of the Legislature to directly or indirectly imply by this act that courts may not use the standard of evidence accepted by the court in People v. Beard, 173, Cal. App. 3d 1113, in cases arising under Article 4 (commencing with Section 2960) of Chapter 7 of Title 1 of Part 3 of the Penal Code.

SEC. 7. (a) The Department of Corrections and the State Department of Mental Health, in conjunction with the Board of Prison Terms, shall submit a report to the Legislature on or before September 30, 1990, on the following:

(1) A description of the disposition of cases of patients released from treatment under the mentally disordered offender program following the invalidation of that program by the Court of Appeal in People v. Gibson (204 Cal. App. 3d 1425), including discussion regarding any subsequent acts recorded by the Department of Justice, the State Department of Mental Health, and the Department of Corrections, to the extent resources are available.

(2) A description of the criteria used to select which prisoners are personally evaluated for possible treatment under the mentally disordered offender program, and the criteria used to determine which of those prisoners are to be treated under the program.

(b) The Department of Corrections and the State Department of Mental Health, in conjunction with the Board of Prison Terms, shall submit an annual report to the Legislature on the status of the

mentally disordered offender program on or before December 31, 1991, and on or before December 31 each year thereafter through 1996, which shall include all of the following:

App. 3d 1425) declared part of Article 4 (commencing with Section 2960) of Chapter 7 of Title 1 of Part 3 of the Penal Code in violation of the equal protection clause of the United States Constitution because it does not require proof the person represents a substantial danger of physical harm to others by reason of his or her severe mental disorder. In order to keep the mentally disordered offender program in effect for those persons who committed their crimes on or after January 1, 1986, it is necessary that this act take effect immediately.

CHAPTER 230

An act to amend Section 6385 of the Revenue and Taxation Code, relating to sales and use taxes.

[Approved by Governor July 28, 1989 Filed with Secretary of State July 28, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 6385 of the Revenue and Taxation Code is amended to read:

6385. (a) There are exempted from the computation of the amount of the sales tax the gross receipts from the sale of tangible personal property, other than fuel and petroleum products, to a common carrier, shipped by the seller via the purchasing carrier's facilities under a bill of lading whether the freight is paid in advance, or the shipment is made freight charges collect, to a point outside this state and the property is actually transported to the out-of-state destination for use by the carrier in the conduct of its business as a common carrier.

(b) There are exempted from the computation of the amount of the sales tax the gross receipts from the sale of tangible personal property, other than aircraft fuel and petroleum products, purchased by a foreign air carrier and transported by the foreign air carrier's facilities to a foreign destination for use by the air carrier in the conduct of its business as a common carrier by air of persons or property. To qualify for this exemption, the foreign air carrier shall furnish to the seller a certificate in writing that the property shall be transported and used in the manner required in this subdivision. The certificate shall be substantially in the form prescribed by the board. A seller is not liable for the sales tax if the seller accepts the certificate in good faith. If the seller does not have the certificate at the time the board requests the seller to submit the certificate to the board, the seller shall be given a reasonable time to request the foreign air carrier to provide the seller with the certificate. The foreign air carrier shall maintain records in this state, such as a copy of a bill of lading, and air waybill or cargo manifest, documenting its transportation of the tangible personal property to a foreign destination.

(c) There are exempted from the computation of the amount of the sales tax the gross receipts from the sale of fuel and petroleum

products to a water, air, or rail common carrier, for immediate shipment outside this state for consumption in the conduct of its business as a common carrier after the first out-of-state destination. To qualify for the exemption the common carrier shall furnish to the seller an exemption certificate in writing stating the quantity of fuel and petroleum products claimed as exempt which is to be consumed after reaching the first out-of-state destination. That certificate shall bear the purchaser's valid seller's permit number or valid fuel exemption registration number and shall be substantially in the form prescribed by the board. Acceptance in good faith of that certificate shall relieve the seller from liability for the sales tax.

(d) "First out-of-state destination," as used in this section, means the first point reached outside this state by a common carrier in the conduct of its business as a common carrier at which cargo or passengers are loaded or discharged, cargo containers are added or removed, fuel is bunkered, or landing or docking fees are charged.

"First out-of-state destination," as used in this section, also includes the entry point of the Panama Canal when the carrier is only transiting the canal in the conduct of its business as a common carrier.

(e) "Common carrier," as used in this section, with respect to water transportation, shall be deemed to include any vessel engaged, for compensation, in transporting persons or property in interstate or foreign commerce.

(f) "Foreign air carrier," as used in this section, means a foreign air carrier as defined in Section 1301 of Title 49 of the United States Code.

(g) "Immediate shipment," as used in this section, means that the delivery of the fuel and petroleum products by the seller is directly into a ship, aircraft, or rail car for transportation outside this state and not for storage by the purchaser or any third party.

(h) Any common carrier claiming exemption under subdivision (c) who is not required to hold a valid seller's permit shall be required to register with the board and obtain a fuel exemption registration number and shall be required to file returns as the board may prescribe if either the board notifies the carrier that returns must be filed or the carrier is liable for taxes based upon consumption of fuel erroneously claimed as exempt under this section. A common carrier required to hold a fuel exemption registration number shall be subject to all applicable provisions of this part, Part 1.5 (commencing with Section 7200), and Part 1.6 (commencing with Section 7251).

(i) A common carrier claiming an exemption under subdivision (c) upon request, shall make available to the board records, including, but not limited to, a copy of a log abstract, an air waybill, or a cargo manifest, documenting its transportation of the fuel or petroleum product to an out-of-state destination and the amount claimed as exempt. If the carrier fails to provide these records upon request, the board may revoke the carrier's fuel exemption

registration number.

(j) The board may require any carrier claiming an exemption under this section and required to obtain a fuel exemption registration number to place with it such security as the board may determine pursuant to Section 6701.

(k) Pursuant to subdivisions (a), (b), and (c), any use of the property by the purchasing carrier, other than that incident to the delivery of the property to the carrier and the transportation of the property by the carrier to the first out-of-state destination and subsequent use in the conduct of its business as a common carrier, or a failure of the carrier to document its transporting the property to the first out-of-state destination, shall subject the carrier to liability for payment of sales tax as if it were a retailer making a retail sale of the property at the time of that use or failure, and the sales price of the property to it shall be deemed to be the gross receipts from the retail sale.

CHAPTER 231

(1) The candidate shall, within three days from the date of receipt of the notice, appear before the election officer or, in the case of the Secretary of State, notify the Secretary of State by telephone, and provide an alternate designation.

(f) In all cases words so used shall be printed in 8-point roman uppercase and lowercase type except that if the designation selected is so long that it would conflict with the space requirements of Sections 10207 and 10221, the election official shall use a type size for the designation for each candidate for that office sufficiently smaller to meet these requirements.

(g) Whenever a foreign language translation of a candidate's designation is required under the Voting Rights Act of 1965 (42 U.S.C.A. SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 236

An act to amend Section 9396 of the Welfare and Institutions Code, relating to aging, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 28, 1989. Filed with Secretary of State July 28, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 9396 of the Welfare and Institutions Code is amended to read:

9396. (a) There is hereby established the Community Care Facility Demonstration Project for the Elderly in accordance with the provisions of this section. The Multipurpose Senior Services Program shall administer the Community Care Facilities Demonstration Project for the Elderly. The Multipurpose Senior Services Program may contract with the State Department of Health Services for the utilization of funds from the Health Care Deposit Fund upon determination that the demonstration project qualifies for federal financial participation as stipulated in subdivision (e).

(b) The Multipurpose Senior Services Program shall contract with two local Multipurpose Senior Services Program sites to serve as demonstration sites. One site shall be in the northern and one in the southern part of the state. The sites shall be selected through a request for proposal process.

(c) The project shall serve a selected number of frail elderly

persons, whose current medical assessment does not indicate the need for long-term intermediate or skilled nursing care. "Frail elderly persons," for purposes of this chapter, means those persons as defined in Section 9111 who meet current Medi-Cal criteria for being "certified" or "certifiable" for admission into intermediate or skilled nursing care facilities, and whom a physician has determined may remain in a community care facility with services as provided for by this section. Participating facilities shall be limited to those licensed community care facilities serving adults, as defined in Section 80001 of Title 22 of the California Code of Regulations. During the demonstration project a total of 120 persons at any one time shall be served in the two local Multipurpose Senior Services Program sites selected for participation under this chapter. Personal care services shall be purchased through the use of funds appropriated for purposes of Chapter 7 (commencing with Section 14000) of Part 3 of Division 9. Participation by a person or a community care facility shall be voluntary. Personal care provided pursuant to this chapter shall supplement, and not replace, personal care provided by community care facilities pursuant to statutory and regulatory requirements which are required to be met in order to obtain and maintain a community care facility license. This supplemental care shall be provided only when the level of care needed by a person participating under this chapter exceeds that which can be provided by the community care facility pursuant to existing statutory and regulatory requirements which are required to be met in order to obtain and maintain a community care facility license. Determination as to the necessary level of care shall be based on an assessment of need performed initially, and at six-month intervals thereafter by the case manager.

(d) The Multipurpose Senior Services Program shall submit an evaluation of this project to the Legislature not later than July 1, 1988. The evaluation shall do all of the following:

(1) Describe the service providers and the services they provide and compare them to services provided to persons within skilled nursing, intermediate care, and nonmedical community care facilities and persons receiving home health services while residing in their own homes.

(2) Describe the program participants and compare them to those residing in skilled nursing, intermediate care, and nonmedical community care facilities and persons receiving home health services while in their own homes.

(3) Contain a description of the criteria used to select participants and compare them to criteria used to determine who would be more suitably cared for in skilled nursing or intermediate care facilities.

(4) Compare the total governmental costs incurred for persons participating in this project with the costs of care provided by skilled nursing facilities.

(5) Assess the extent to which the demonstration project, in fact, did delay or prevent care in an intermediate or skilled nursing

facility and the cost effectiveness of the project.

(e) Implementation of the demonstration project is dependent upon the availability of federal financial participation for the services to be provided.

Implementation of the project shall be subject to receipt of required waivers or waiver amendments. Use of existing federal waivers and existing program authority shall be the first priority for implementation of this chapter. The Multipurpose Senior Services Program shall seek new waivers from the federal government if implementation cannot be carried out through existing waivers or existing categorical programs. The Secretary of the Health and Welfare Agency shall have the authority to waive existing state statutes or regulations at the request of the Multipurpose Senior Services Program that would prohibit or restrict the ability of the Multipurpose Senior Services Program to provide for the services authorized by this section.

(f)

(g) Funds to support this project shall be allocated from existing federal and General Fund moneys which support the Multipurpose Senior Services Program.

(h) This section shall remain operative only until June 30, 1991, and shall remain in effect only until January 1, 1992, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1992, deletes or extends that date.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the frail elderly to continue to receive needed services under the Community Care Facility Demonstration Project, it is necessary that this act take effect immediately.

remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 240

An act to amend Section 2610.5 of the Revenue and Taxation Code, relating to property taxation.

[Approved by Governor July 28, 1989 Filed with Secretary of State July 31, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 2610.5 of the Revenue and Taxation Code is amended to read:

2610.5. Annually, on or before November 1, the tax collector shall mail a county tax bill or a copy thereof for every property on the secured roll. This requirement need not be met where no taxes are due. Failure to receive a tax bill shall not relieve the lien of taxes, nor shall it prevent the imposition of penalties imposed by this code. However, the penalty imposed for delinquent taxes as provided by any section of this code shall be canceled if the assessee or fee owner demonstrates to the tax collector that delinquency is due to the tax collector's failure to mail the tax bill to the address provided on the tax roll. Penalties imposed may be canceled if the board of supervisors, upon recommendation of the tax collector, has authorized the tax collector to establish, and the tax collector has so established, specific procedures for the consideration of penalty cancellations. Those procedures may provide that penalties imposed

may be canceled by resolution of the county board of supervisors upon the recommendation of the tax collector if the assessees or fee owners demonstrate to the tax collector that the delinquency is due to the county's failure to send a notice of taxes to the owner of property acquired after the lien date on the secured roll, provided payment of the amount of taxes due, minus any penalties and costs, is made no later than June 30 of the fiscal year in which the property owner is named as the assessee for taxes coming due.

With respect to a late, amended, or corrected tax bill, the penalties imposed for delinquent taxes shall be canceled if the tax amount is paid within 30 days following the date that bill is mailed.

Under no circumstance shall a taxpayer have fewer than 30 days to pay without penalty.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 241

An act to amend Sections 22032 and 22304 of, and to add Section 22003 to, the Public Contract Code, relating to public contracts.

The ordinance shall include all of the following:

(a) The public agency shall maintain a list of qualified contractors, identified according to categories of work. Minimum criteria for development and maintenance of the contractors list shall be determined by the commission.

(b) All contractors on the list for the category of work being bid or all construction trade journals specified in Section 22036, or both all contractors on the list for the category of work being bid and all construction trade journals specified in Section 22036, shall be mailed a notice inviting informal bids unless the product or service is proprietary.

(c) All mailing of notices to contractors and construction trade journals pursuant to subdivision (b) shall be completed not less than 10 calendar days before bids are due.

The standards developed pursuant to this category for bottled water which contains carbon dioxide shall prescribe that sufficient compliance includes meeting the microbiological requirements described in Section 103.35 of Title 21 of the Code of Federal Regulations.

(C) Standards to ensure that dispensers for bottled water, which are furnished by the water bottler or distributor shall be delivered to the consumer's premises in a clean, sanitary condition, protected from dust or other contamination.

(D) Standards to ensure that ollas or other water-holding dispensers, both refrigerated and nonrefrigerated, shall be examined for cleanliness each time the dispenser is serviced by the representative of the distributor or bottler. When necessary, these dispensers shall be sanitized in place or returned to the bottler or distributor for cleaning or sanitizing before reuse according to the

methods described in Part 129 of Title 21 of the Code of Federal Regulations.

The quality standards shall include all drinking water maximum contaminant levels and may include any additional standards that the department determines are reasonably necessary to protect public health and safety, including standards for chloride, copper, manganese, iron, sulfate, or zinc in mineral water. Mineral water producers which bottle 5,000 gallons, or less, per week shall have until February 1, 1990, to comply with the quality standards imposed pursuant to this paragraph. "Polycarbonate resins" mean the substances defined by Section 177.1580 of Title 21 of the Code of Federal Regulations except as modified by this section.

(4) Minimum standards of design, construction, and sanitation for any water-vending machine. Those water-vending machines, other than coin-operated self-service devices, from which any operator or customer dispenses unit servings in bulk may be exempted by the department from the requirements of subparagraphs (G), (M), and (O). The minimum standard shall include, but not be limited to, all of the following:

(AWWA B604-74).

(L) Provide that water-vending machines shall be maintained in a clean and sanitary condition, free from dirt and vermin.

(M) Provide that water-vending machines shall be connected to a state approved and regulated public water supply.

(N) Provide that water-vending machines shall be located in an area that can be maintained in a clean condition and in a manner that avoids insect and rodent harborage.

(O) Provide that the water-vending machine shall be equipped with monitoring devices designed to shut down the labeled purified water delivery system if treatment of water by the machine does not result in a total dissolved solids content of less than 10 milligrams per liter in the purified water.

(5) Standards for labeling and advertising of bottled water, vended water, water distributed by a water hauler, water from a retail water treatment plant, and water from private water sources.

(6) Standards for processing bottled water through a line or lines used for any other food product.

5161. The commission may accept whatever evidence is available to demonstrate the "ability to perform" at the initial time of licensure. However, all commission evaluations or reevaluations shall be recorded on a form approved by the commission and maintained with the fighter's licensing file.

The evaluation or reevaluation may be used by the commission when approving bouts for not more than 120 days from the date of the evaluation.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. CHAPTER 265

An act to amend Section 8574.8 of the Government Code, and to amend Section 2454 of the Vehicle Code, relating to hazardous substances.

[Approved by Governor August 2, 1989. Filed with Secretary of State August 2, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 8574.8 of the Government Code is amended to read:

8574.8. (a) A state toxic disaster contingency plan established pursuant to this article shall provide for an integrated and effective state procedure to respond to the occurrence of toxic disasters within the state. The plan shall provide for specified state agencies to implement the plan, for interagency coordination of the training conducted by state agencies pursuant to the plan, and for on-scene coordination of response actions.

Notwithstanding any provision of the plan, the authority for the management of the scene of an on-highway toxic spill or disaster shall be vested in the appropriate law enforcement agency having primary traffic investigative authority on the highway where the incident occurs or in a local fire protection agency as provided by Section 2454 of the Vehicle Code. During the preparation of the toxic disaster contingency plan, the Office of Emergency Services shall adopt the recommendations of the Department of the California Highway Patrol in developing response and on-scene procedures for toxic disasters which occur upon the highways, based upon previous studies for such procedures, insofar as the procedures are not inconsistent with the overall plan for initial notification of toxic disasters by public agencies and for after-incident evaluation and reporting.

(b) The Office of Emergency Services shall establish a central notification and reporting system to facilitate operation of the state toxic disaster response procedures designated by the toxic disaster contingency plan.

SEC. 2. Section 2454 of the Vehicle Code is amended to read:

2454. (a) The authority for the management of the scene of an on-highway hazardous substance spill or disaster shall be vested in the appropriate law enforcement agency having primary traffic investigative authority on the highway where the spill or disaster occurs. Responsibility for managing the scene of an on-highway hazardous substance spill or disaster shall continue until all emergency operations at the scene have been completed and order has been restored.

(b) Notwithstanding subdivision (a), the local governing body of a city, whether general law or chartered, which has jurisdiction over

the location where a on-highway hazardous substance spill or disaster occurs may assign the authority for management of the scene of an on-highway hazardous substance spill or disaster on local streets and roads, other than freeways, to either the local law enforcement agency or the local fire protection agency. However, the Department of the California Highway Patrol is responsible for the management of the scene of an on-highway hazardous substance spill or disaster on all highways where the department has primary traffic investigative authority. Any law enforcement agency having primary traffic investigative authority may enter into written agreements with other public agencies to facilitate management at the scene of an on-highway hazardous substance spill or disaster on local streets and roads other than freeways.

(b) For purposes of this section, "management of the scene of an on-highway hazardous substance spill or disaster" means coordination of operations which occur at the location of a hazardous substance spill or disaster. This coordinating function does not include how the specialized functions provided by the various other responding agencies are to be performed. The agency managing the scene of an on-highway hazardous spill or disaster shall consult with other response agencies at the scene to ensure that all appropriate resources are properly utilized. The agency managing the scene of an on-highway hazardous spill or disaster shall perform its coordinating function in a manner designed to minimize the risk of death or injury to other persons.

CHAPTER 266

An act relating to the Public Utilities Commission.

[Approved by Governor August 2, 1989 Filed with Secretary of State August 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) It has been more than five years since the breakup of American Telephone and Telegraph Corporation which separated the providers of local and long-distance telephone service. Until recently, the Public Utilities Commission has continued to regulate the rates of American Telephone and Telegraph Corporation because it is the dominant long-distance service provider with a large majority of subscribers in the state.

(b) Recently, following proposals offered by American Telephone and Telegraph Corporation, the commission granted the long-distance company greater rate flexibility with the implementation of a "rate band" program. The commission also

established a new method of overseeing American Telephone and Telegraph Corporation, "monitoring," in order to "measure and assess the impact flexibility may have on American Telephone and Telegraph Corporation competition and customers of interLATA services in California."

(c) Because the "monitoring" of public utilities is a new process and a significant departure from established forms of commission regulation, the Legislature finds that it should be kept informed of the progress of the monitoring program, and how successful commission monitoring is in determining trends of competitiveness in the long-distance telephone market.

SEC. 2. (a) The Public Utilities Commission shall report to the Legislature by December 1, 1990, and submit a final report by December 1, 1991, on the results of its monitoring program to measure and assess the impact which regulatory flexibility may have on the competitors and customers of American Telephone and Telegraph Corporation. The report shall include both exhibits and attachments to the monitoring plan report, together with an explanation of the exhibits and attachments.

(b) The report shall list the persons or groups responsible for performing the monitoring, and shall describe their specific role.

(c) The report shall reach conclusions on the effectiveness of the monitoring system to measure competitiveness in the long-distance market.

(d) The report shall describe the impact regulatory flexibility has had on the rates and services of long-distance customers within the state, and how the competitors of American Telephone and Telegraph Corporation are affected by regulatory flexibility.

(c) The Governor in appointing any other day for a public fast, thanksgiving, or holiday may provide whether the community colleges shall close on the day. (f) When any of the holidays on which the schools would be closed fall on Sunday, the community colleges shall close on the Monday following, except that (1) if Lincoln Day falls on a Sunday, the community colleges may observe this holiday on the preceding or following Friday, the following Monday, or the following Tuesday, and maintain classes on the date specified in subdivision (a) where applicable, or (2) if Lincoln Day falls on a Monday, the community colleges may observe this holiday on the preceding or following Friday, that Monday, or the following Tuesday, and maintain classes on the date specified in subdivision (a) where applicable.

(c) The State Board of Equalization shall deposit the fees collected pursuant to this section in the Hazardous Substance Account in the General Fund.

SEC. 6. Section 25174.2 is added to the Health and Safety Code, to read:

25174.2. (a) The State Board of Equalization shall set the base rate for the hazardous wastes specified in Section 25174.6 which are disposed of onsite, submitted for disposal offsite, or submitted for transport to a point outside of this state, on and after July 1, 1989, at fifty-two dollars and fifty cents ($52.50) per ton.

(b) The base rate specified in subdivision (a) shall apply to persons subject to the fee specified in Section 25174.1. Beginning in fiscal year 1994-95, this base rate is the base rate for the 1989–90 fiscal year and the State Board of Equalization shall adjust the base rate annually to reflect increases or decreases in the cost of living, as measured by the Consumer Price Index issued by the United States Department of Labor or a successor agency of the federal government. Within 30 days after the enactment of the annual Budget Act, the State Board of Equalization shall send a notice of the adjusted fee rate to every person subject to the fee specified in Section 25174.1.

SEC. 7. Section 25174.3 is added to the Health and Safety Code, to read:

25174.3. Any surplus in the Hazardous Waste Control Account which exceeds 5 percent of the amount appropriated from the account in the previous fiscal year shall be transferred to the

SEC. 8. Section 25174.6 of the Health and Safety Code is amended to read:

25174.6. (a) The fee provided pursuant to Section 25174.1 to be paid by persons disposing of hazardous waste onsite, or submitting hazardous waste for disposal offsite, and by operators of hazardous waste disposal facilities, for each ton, or fraction thereof, of hazardous waste disposed of on land or applied to land on or after July 1, 1986, shall be determined as a percentage of the base rate, as adjusted by the State Board of Equalization, pursuant to Section 25174.2. The percentages of the base rate for determining these fees are as follows.

(1) Twenty-five percent of the base rate for each ton, or fraction thereof for up to the first 5,000 tons of hazardous waste disposed of, or submitted for offsite disposal, at each specific facility by each producer or at each specific onsite facility, per month, which is not subject to Subchapter III (commencing with Section 6921) of Chapter 82 of Title 42 of the United States Code, pursuant to subsection (b) of Section 6921 of Title 42 of the United States Code and which is not otherwise subject to the fee specified in paragraph (3) or (4), or hazardous waste for which the Administrator of the Environmental Protection Agency has determined that regulation is unwarranted, as specified in subparagraph (C) of paragraph (2) of, and subparagraph (C) of paragraph (3) of, subsection (b) of Section 6921 of Title 42 of the United States Code and which is not otherwise subject to the fee specified in paragraph (3) or (4).

(2) Twenty-five percent of the base rate for each ton, or fraction thereof, for up to the first 5,000 tons of hazardous waste disposed of, or submitted for offsite disposal, at each specific facility by each producer or at each specific onsite facility, per month, which result from the extraction, beneficiation, and processing of ores and minerals, including phosphate rock and the overburden from the mining of uranium ore and which is not otherwise subject to the fee specified in paragraph (3) or (4).

(3) Two hundred percent of the base rate for each ton, or fraction thereof, of extremely hazardous waste.

(4) Two hundred percent of the base rate for each ton, or fraction thereof, of restricted hazardous wastes listed in Section 66900 of Title 22 of the California Code of Regulations.

(5) One hundred percent of the base rate for each ton, or fraction thereof, of hazardous waste disposed of, or submitted for offsite disposal, which is not otherwise subject to the fees specified in paragraph (1), (2), (3), or (4) of this subdivision.

(6) For each ton, or fraction thereof, of hazardous waste generated in this state which is disposed of, or submitted for disposal, outside the state. The rate shall be as follows:

(A) Thirty-five percent of the base rate for the 1989–90 fiscal year.

(B) Forty percent of the base rate for the 1990–91 fiscal year.

(C) After the 1990–91 fiscal year, the rate shall be forty-five percent of the base rate if a new hazardous waste disposal facility is permitted pursuant to Section 25200. If no new facility is permitted the base rate shall be forty percent.

(7) Five percent of the base rate for each ton, or fraction thereof, of hazardous waste disposed of, or submitted for disposal, in the state that is a solid hazardous waste residue resulting from incineration or by any treatment method which results in free liquid removal, removal of volatile organic constituents, and a minimum waste volume reduction of 50 percent, and which has been approved by the department pursuant to Section 25179.6.

(b) The amount of fees payable to the State Board of Equalization pursuant to this section shall be calculated using the total wet weight, measured in tons or fractions thereof, of the hazardous waste in the form in which the hazardous waste existed at the time of disposal, submission for disposal, or application to land using the land disposal methods defined in Section 66122 of Title 22 of the California Code of Regulations.

(c) Notwithstanding subdivision (a), the fee rate for hazardous waste disposed of, or submitted for offsite disposal, into a surface impoundment which is double lined, meets the criteria specified in paragraph (1), and for which a report has not been submitted pursuant to paragraph (2), is 10 percent of the base rate for each ton, or fraction thereof, of hazardous waste so disposed of or submitted for disposal. The owner or operator of the surface impoundment shall certify to the State Board of Equalization that the requirements of paragraph (1) have been met before the fee rate specified in this subdivision may be applied to the hazardous waste disposed of, or submitted for disposal, into the surface impoundment.

(1) This subdivision applies only to hazardous waste disposed of, or submitted for disposal, into a surface impoundment which meets all the following criteria:

(A) The surface impoundment is double lined and is equipped with a leachate collection system which is in place and in operation, and complies with existing federal and state regulations and guidance documents published by the Environmental Protection Agency prior to July 1, 1984.

(B) The surface impoundment has in place and in operation a minimum of one upgradient and two downgradient monitoring wells capable of identifying the migration of any hazardous waste constituents disposed of into the surface impoundment.

(C) The surface impoundment has in place and in operation a vadose zone monitoring system capable of identifying the migration of any hazardous waste constituents disposed of into the surface impoundment from the impoundment into the zone between the surface and the water table.

(D) The surface impoundment has an enforceable site closure plan which initiates closure of the impoundment within 12 years after the surface impoundment is certified pursuant to this

subdivision. This plan shall require the surface impoundment, and any surrounding soils contaminated by the impoundment, to be returned to a nonhazardous condition within five years of initiating closure.

(E) The owner or operator has submitted to the department and to the California regional water quality control board documentation demonstrating full compliance with subparagraphs (A), (B), (C), and (D).

(2) Upon discovering that, or receiving notification that, a surface impoundment certified for the fee rate specified in this subdivision has leaked or overflowed, and that there is migration into the vadose zone or into the waters of the state, the owner or operator of the surface impoundment shall report the migration to the department and the California regional water quality control board within 24 hours after the migration or unauthorized release has been detected. The owner or operator shall transmit a full written report to the department and the regional board within five working days after the detection of the migration. The reporting requirements imposed by this paragraph are in addition to any requirements which may be imposed by Section 13271 of the Water Code. Unless the regional board, or its executive officer, determines that the presence of the hazardous waste constituents in the migration do not pose any short-term or long-term, present or potential, hazards to human health or the environment, the regional board shall issue a cease and desist order pursuant to Section 13301 of the Water Code prohibiting any discharge into the surface impoundment and shall take any other actions which are necessary.

(3) After a surface impoundment has been the subject of a report specified in paragraph (2), the fee rate specified in this subdivision for hazardous waste disposed of, or submitted for disposal, into that surface impoundment shall not apply and the fees shall be calculated pursuant to subdivision (a). The fee rate specified in this subdivision may again be applied to the hazardous waste disposed of, or submitted for disposal, into the surface impoundment only after the department and the California regional water quality control board determines that hazardous constituents are no longer migrating from the surface impoundment, and that there is no significant potential for them to migrate from the surface impoundment into the vadose zone or into the waters of the state, so that the presence of the hazardous constituents poses, or would pose, a present or potential hazard to human health or the environment.

(4) Hazardous waste, as used in this subdivision, includes restricted hazardous waste.

(d) All fees imposed by this section shall be paid in accordance with Part 22 (commencing with Section 43001) of Division 2 of the Revenue and Taxation Code.

SEC. 9. Section 25174.7 of the Health and Safety Code is amended to read:

25174.7. (a) The fees provided for in Sections 25174.1, 25174.6,

and 25205.5 do not apply to any of the following:

(1) Hazardous wastes which result when a state or local agency, or its contractor, removes or remedies a release of hazardous waste caused by another person. This paragraph applies to all acts performed by a state or local agency, or its contractor, on or after July 1, 1984.

(2) Hazardous wastes generated or disposed of by state or local agencies operating a household hazardous waste collection program.

(3) Hazardous wastes generated or disposed of by local vector control agencies which have entered into a cooperative agreement pursuant to Section 2426 or by county agricultural commissioners, if the hazardous wastes result from their control or regulatory activities and if they comply with the requirements of this chapter and regulations adopted pursuant thereto.

(b) This section does not prevent the department from recovering an amount equal to the full cost of the fees specified in Sections 25174.1 and 25174.6 from any person responsible for a release of hazardous waste which has been removed or remedied by a state or local agency, or its contractor. This section does not limit the department's remedies pursuant to any other provision of law.

SEC. 10. Section 25174.11 of the Health and Safety Code is amended to read:

25174.11. Section 25174.1 does not apply to the previous disposal of mining waste that is subsequently classified as nonhazardous pursuant to the department's California Assessment Manual criteria regulations set forth in Article 2 (commencing with Section 66300) of Chapter 30 of Division 4 of Title 22 of the California Administrative Code, which became effective October 27, 1984, and disposal fees shall not be assessed pursuant to Section 25174.1 for that waste if the waste previously disposed of is not significantly different from the waste classified as nonhazardous.

SEC. 11. Section 25205.2 of the Health and Safety Code is amended to read:

25205.2. (a) Except as provided in subdivision (c), in addition to the fees specified in Section 25174.1, each operator of a facility shall pay a facility fee for each state fiscal year, or any portion thereof, to the board based on the size and type of the facility, as specified in Section 25205.4. The department shall notify the board of all known facility operators by facility type and size at the time it establishes the facility fees pursuant to Section 25205.3. The department shall also notify the board of any operator issued a permit or grant of interim status within 30 days after a permit or grant of interim status is issued to the operator.

(b) The board shall deposit all fees collected pursuant to subdivision (a) in the Hazardous Waste Control Account in the General Fund. The fees so deposited may be expended by the department, upon appropriation by the Legislature, for the purposes specified in subdivision (b) of Section 25174.

(c) Notwithstanding subdivision (a), a person who is issued a

variance by the department from the requirement of obtaining a hazardous waste facilities permit or grant of interim status, or a person who is in a closure period approved by the department pursuant to Article 9 (commencing with Section 25200) and Article 12 (commencing with Section 25245), is not subject to the fee, for any fiscal year following the fiscal year in which the variance or closure was granted or approved by the department.

SEC. 12. Section 25205.3 of the Health and Safety Code is amended to read:

25205.3. The board shall establish the facility fees specified in Section 25205.2 in accordance with Section 25205.4 within 30 days after the effective date of the enactment of the annual Budget Act. the base tax rate for the current year, as adjusted. The base rate specified in subdivision (a) is for the 1989–90 fiscal year and the board shall adjust the base rate annually to reflect increases or decreases in the cost of living, as measured by the Consumer Price Index issued by the United States Department of Labor or by a successor agency of the United States Government.

(c) The tax imposed upon each person subject to Section 25342 shall be assessed according to the following formula:

$$\text{Tax} = (\text{base tax rate}) \times (0.15P_1 + P_2 + 2P_3 + 0.01P_4 + 0.05P_5)$$

where:

(1) "Base tax rate" equals the figure determined pursuant to subdivision (a).

(e) On or before July 1 of each year, each person subject to Section 25342 shall file an annual return and pay the proper amount of tax due. The tax under this chapter shall not be imposed again on hazardous waste or extremely hazardous waste if the waste, or any portion thereof, is removed subsequently to another place for disposal and if the person has paid the tax for the waste in accordance with this section before the removal thereof.

(f) Notwithstanding any other provision of this section, hazardous wastes disposed of into an injection well during the 1981 calendar year shall be subject to a tax rate that does not exceed 26.4 percent of the base tax rate, as determined in subdivision (a), as it read on January 1, 1984, per ton or fraction thereof.

(3) "Landfarm" means a waste management technique, conducted within a hazardous waste facility which has received a hazardous waste facilities permit or has obtained interim status pursuant to Article 9 (commencing with Section 25200) of Chapter 6.5, or pursuant to Section 6925 of Title 42 of the United States Code. This waste management technique consists of applying oily wastes, biodegradable wastes, or both wastes onto land and incorporating them into the surface of the soil and, by controlling critical parameters of alkalinity and acidity, moisture content, and soil texture, enhancing the aerobic biodegradation of the waste into carbon dioxide, water, and humus. Landfarming is a managed process which changes the physical, chemical, or biological composition of hydrocarbon wastes, and it does not include any other land disposal practices, including, but not limited to, landfilling or codisposal.

section.

(b) The department shall divide the fee for an activity or phase of activity specified in Section 25347.6 by the number of months estimated by the department to be required to conduct the activity or phase of activity to establish a monthly fee quotient. The department shall subtract that portion of an activity or phase of activity completed prior to July 1, 1989, from the total number of months estimated by the department to be required to conduct the activity or phase of activity. The department shall multiply the remainder by the monthly fee quotient to establish the prorated fee.

25358.3. (a) Whenever the director determines that there may be an imminent or substantial endangerment to the public health or welfare or to the environment, because of a release or a threatened release of a hazardous substance, the director may do any or all of the following:

(1) Order any responsible party or parties to take appropriate removal or remedial action necessary to protect the public health and safety and the environment. No order under this section shall be made to an owner of real property solely on the basis of that ownership as specified in Sections 101(35) and 107(b) of the federal

act (42 U.S.C. Secs. 9601(35) and 9607(b)).

(2) Take or contract for any necessary removal or remedial action.

(3) Request the Attorney General to secure the relief as may be necessary to abate the danger or threat. The superior court of the county in which the threat or danger occurs shall have jurisdiction to grant the relief which the public interest and equities of the case may require to protect public health and welfare and the environment. Upon a showing by the department that a release or threatened release has occurred or is occurring, and that there may be an imminent or substantial endangerment to the public health or welfare or to the environment, the court may grant a permanent or temporary injunction, restraining order, or other order.

(b) When the director determines that a release of a hazardous substance has occurred or is about to occur, the director may do any or all of the following:

(1) Undertake those investigations, monitoring, surveys, testing, and other information gathering necessary to identify the existence, source, nature, and extent of the hazardous substances involved and the extent of danger to the public health or environment.

(2) Undertake those planning, legal, fiscal, economic, engineering, architectural, and other studies or investigations which are necessary or appropriate to plan and direct response actions, to recover the cost of those actions, and to enforce this chapter.

(c) Whenever there is a release or threatened release of a hazardous substance into the environment, the director may take or contract for any necessary removal or remedial action and may take or contract for any actions authorized by subdivision (b), in compliance with the provisions of this chapter, including, but not limited to, subdivision (b) of Section 25355.

(d) Any person bidding for a contract specified in subdivision (c) shall submit a disclosure statement, as specified by Section 25112.5, except for a federal, state, or local agency. The director may prohibit a person from bidding on such a contract if the director makes any of the following determinations:

(1) The director determines, in writing, that the bidder, or, if the bidder is a business entity, any trustee, officer, director, partner, or any person holding more than 5 percent of the equity in or debt liability of that business entity, has engaged in activities resulting in any federal or state conviction which are significantly related to the fitness of the bidder to perform the bidder's duties or activities under the contract. For purposes of this paragraph, "conviction" means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action which the department may take pursuant to this subdivision relating to the department's refusal to permit a person to bid on the contract may be based upon a conviction for which any of the following has occurred:

(A) The time for appeal has elapsed.

(B) The judgment of conviction has been affirmed on appeal.

(C) Any order granting probation is made suspending the

imposition of sentence, notwithstanding a subsequent order pursuant to Section 1203.4 of the Penal Code permitting that person to withdraw the plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment.

(2) The director determines, in writing, that the bidder, or, if the bidder is a business entity, any trustee, officer, director, partner, or any person holding more than 5 percent of the equity in or debt liability of that business entity, has violated or failed to comply with this chapter or Chapter 6.5 (commencing with Section 25100) or Chapter 6.7 (commencing with Section 25280) of this division, the Porter-Cologne Water Quality Control Act (Division 7 (commencing with Section 13000) of the Water Code), the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. Sec. 6901 et seq.), the Hazardous Materials Transportation Act, as amended (49 U.S.C. Sec. 1801 et seq.), the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (42 U.S.C. Sec. 9601 et seq.), the Toxic Substances Control Act (15 U.S.C. Sec. 2601 et seq.), or any other equivalent federal or state statute or any requirement or regulation adopted pursuant thereto relating to the generation, transportation, treatment, storage, recycling, disposal, or handling of a hazardous waste, as defined in Section 25117, a hazardous substance, as defined in Section 25316, or a hazardous material, as defined in Section 353 of the Vehicle Code, if the violation or failure to comply shows a repeating or recurring pattern or may pose a threat to public health or safety or the environment.

(3) The director determines, in writing, that the bidder has had a license, permit, or registration for the generation, transportation, treatment, storage, recycling, disposal, or handling of hazardous waste or hazardous substances revoked or suspended.

(e) Whenever there is a release or threatened release of a hazardous substance, the director may request the Attorney General to secure the relief as may be necessary from the responsible party to abate the release or threatened release. The superior court of the county in which the release or threatened release occurs has jurisdiction to grant the relief which the public interest and equities of the case may require to protect public health and welfare and the environment. Upon a showing by the department that a release or threatened release of a hazardous substance has occurred or is occurring, the court may grant a permanent or temporary injunction, restraining order, or other order.

(f) In any civil action brought pursuant to this chapter in which a temporary restraining order, preliminary injunction, permanent injunction, or other order is sought, it shall not be necessary to allege or prove at any stage of the proceeding that irreparable damage will occur should the temporary restraining order, preliminary injunction, permanent injunction, or other order not be issued or that the remedy at law is inadequate The court shall issue the

temporary restraining order, preliminary injunction, permanent injunction, or other order without these allegations and without this proof.

(g) Notwithstanding subdivision (a) of Section 25366, subdivisions (e) and (f) and paragraph (3) of subdivision (a) apply to acts that occur both before or after the effective date of the act amending this section, without regard to when the release or threatened release first occurred.

SEC. 39. Section 25359.5 of the Health and Safety Code is amended to read:

25359.5. (a) After making a determination, based upon a preliminary site assessment that there has been a release of a hazardous substance on, under, or into the land on a site, the department or a county health officer shall order the property owner to secure the site if all of the following conditions apply to that site:

(1) The release does not comply with the terms of a current permit or interim status document or regulation of the department.

(2) The site poses a public health risk if human contact is made with the hazardous waste or the surrounding contaminated area.

(3) There is a likelihood of human or domestic animal contact.

(b) The order to secure the site shall require, within five days after receiving notification of the order, the posting of the site with signs. The order shall also require, within five days after receiving notification of the order, that the site be enclosed with a fence, unless it is physically and economically infeasible or unless the fencing is unnecessary because it will not alleviate the danger to the public health.

(c) If fencing is ordered, the fences shall be maintained at the site to prevent unauthorized persons from gaining access to the site. The signs shall be maintained and shall meet all of the following requirements:

(1) The signs shall be bilingual, appropriate to the local area, and may include international symbols, as required by the department.

(2) The signs shall have lettering which is legible from a distance of at least 25 feet.

(3) The signs shall read: "Caution: Hazardous Substance Area, Unauthorized Persons Keep Out" and shall have the name and phone number of the department or the county health officer that ordered the posting.

(4) The signs shall be visible from the surrounding contaminated area and posted at each route of entry into the site, including those routes which are likely to be used by unauthorized persons, at access roads leading to the site, and facing navigable waterways where appropriate.

(5) The signs shall be of a material able to withstand the elements.

(d) A property owner who fails to comply with an order of the department or the county health officer is subject to a civil penalty of up to twenty-five thousand dollars ($25,000). In determining the amount of a civil penalty to be imposed, the court shall consider all

relevant circumstances, including, but not limited to, the economic assets of the property owner and whether the property owner has acted in good faith.

If the property owner fails to secure and post the site, the department or the county health officer shall secure and post the site pursuant to subdivision (b) within 30 days of the expiration of the five-day period and shall seek recovery of the costs of that securing and posting from the property owner. If the site is an abandoned site, as defined in Section 25359.6, if the site cannot be traced to a specific owner, or if the owner has been declared bankrupt, the department or the county health officer shall secure and post the site, using any source of funds, pursuant to subdivision (b).

(e) The department or the county health officer shall advise other agencies on the public health risks and the need for fencing and posting of sites when those agencies confirm the release of a hazardous substance pursuant to subdivision (a).

(f) The remedies and penalties specified in this section and Section 25359.6 are in addition to, and do not affect, any other remedies, enforcement actions, requirements, or penalties otherwise authorized by law.

SEC. 40. Section 25360 of the Health and Safety Code is amended to read:

25360. (a) Any costs incurred and payable from the state account or the Hazardous Substance Cleanup Fund shall be recovered by the Attorney General, upon the request of the department, from the liable person or persons. The amount of any costs which may be recovered pursuant to this section, for a remedial or removal action paid from the Hazardous Substance Cleanup Fund, shall include the amount paid from that fund and interest on that amount calculated at a rate equal to the interest rate of the bonds sold pursuant to Article 7.5 (commencing with Section 25385).

(b) Except as provided in subdivision (c), in addition to the costs specified in subdivision (a), the person or persons are liable to the department for administrative costs in an amount equal to 10 percent of the reasonable cost actually incurred, or five hundred dollars ($500), whichever is greater.

(c) A person who is liable for costs incurred and payable from the state account for a removal or remedial action taken pursuant to an order issued or agreement entered into pursuant to paragraph (1) of subdivision (a) of Section 25355.5, or an order issued pursuant to subdivision (a) of Section 25358.3, may reduce that person's amount of liability by the amount of fees paid pursuant to Section 25347.6.

(d) The amount of cost determined pursuant to this section shall be recoverable in a civil action. Nothing in this section deprives a party of any defense he or she may have.

(e) Moneys recovered by the Attorney General pursuant to this section shall be deposited in the state account, except that, if the costs incurred were paid from the Hazardous Substance Cleanup Fund, the Attorney General shall deposit the amounts recovered into the

Hazardous Substance Clearing Account. Moneys deposited in the Hazardous Substance Clearing Account pursuant to this section are available to pay the principal of, and interest on, bonds sold pursuant to Article 7.5 (commencing with Section 25385).

SEC. 41. Section 25395 of the Health and Safety Code is amended to read:

25395. (a) Except as provided in subdivisions (b), (c), and (d), this chapter, including, but not limited to, the tax imposed by Section 25345, shall remain in effect only until July 1, 1996, and as of that date is repealed, unless a later enacted statute, which is enacted before July 1, 1996, deletes or extends that date.

(b) On July 1, 1996, the Department of Finance shall submit a report to the Secretary of State which states whether the principal of, and interest on, the bonds sold pursuant to Article 7.5 (commencing with Section 25385) have been paid and the General Fund has been reimbursed for any and all amounts that were expended therefrom to pay the principal of, and interest on, those bonds. If the report states that the bonds have not been paid and the General Fund has not been reimbursed, then, notwithstanding subdivision (a), Article 1 (commencing with Section 25300), Article 2 (commencing with Section 25310), Article 3 (commencing with Section 25330), Article 4 (commencing with Section 25340), Article 6 (commencing with Section 25360), and Article 7.5 (commencing with Section 25385), shall not be repealed and shall remain in effect until the date specified in subdivision (c).

(c) If the articles specified in subdivision (b) remain in effect after July 1, 1996, pursuant to subdivision (b), on the date when the principal of, and interest on, the bonds sold pursuant to Article 7.5 (commencing with Section 25385) have been paid and the General Fund has been reimbursed for any and all amounts that were expended therefrom to pay the principal of, and interest on, those bonds, the Department of Finance shall submit a report to the Secretary of State containing that information. The articles specified in subdivision (b) shall be repealed on the date when that report is submitted.

(d) Section 25364.6 shall not be repealed, except as provided in subdivision (j) of that section.

(e) If the articles specified in subdivision (b) remain in effect after July 1, 1996, the committee, as defined in Section 25385.1, may determine the amount of the tax revenues to be collected annually pursuant to Section 25345, which amount may be less than, but shall not exceed, twenty million dollars ($20,000,000) plus the amount of refunds made pursuant to paragraph (3) of subdivision (d) of Section 25345.4. The committee shall also inform the State Board of Equalization, on March 1 of each calendar year, of the amount of the tax revenues which will be collected for the previous calendar year.

SEC. 42. Section 43002.3 of the Revenue and Taxation Code is amended to read:

43002.3. (a) For purposes of the collection of the fees specified

in subdivision (a) of Section 25174 and the fee imposed pursuant to Section 25174.1 of the Health and Safety Code, a determination by the State Department of Health Services that a waste is nonhazardous shall be effective only for wastes disposed of, or submitted for disposal, commencing with the month during which the State Department of Health Services receives a completed application for that determination.

(b) For purposes of the collection of the tax imposed pursuant to Section 25345 of the Health and Safety Code, a determination by the State Department of Health Services that a waste is nonhazardous shall commence with, and be effective for, wastes disposed of, or submitted for disposal, during the calendar year, or portion thereof, as determined by the State Department of Health Services, in which the State Department of Health Services receives a completed application for that determination on or before November 30 of that calendar year. SEC. 50. Chapter 5.6 (commencing with Section 13390) is added to Division 7 of the Water Code, to read:

CHAPTER 5.6. BAY PROTECTION AND TOXIC CLEANUP

13390. It is the intent of the Legislature that the state board and the regional boards establish programs that provide maximum protection for existing and future beneficial uses of bay and estuarine waters, and that these programs include a plan for remedial action at toxic hot spots. It is also the intent of the Legislature that these programs further compliance with federal law pertaining to the identification of waters where the protection and propagation of shellfish, fish, and wildlife are threatened by toxic pollutants and contribute to the development of effective strategies to control these pollutants. It is also the intent of the Legislature that these programs be structured and maintained in a manner which allows the state board and the regional boards to make maximum use of any federal funds which may be available for any of the purposes specified in this chapter.

13391. It is the intent of the Legislature that the State Water Resources Control Board review and update the "Water Quality Control Policy for Enclosed Bays and Estuaries of California," as adopted in 1974 pursuant to Article 3 (commencing with Section 13140) of Chapter 3, and shall develop numerical water quality objectives for the state's bays and estuaries. It is also the intent of the Legislature that appropriate state and regional agencies, including, but not limited to, the State Water Resources Control Board, regional water quality control boards, the State Department of Health Services, and the Department of Fish and Game, take all necessary actions to fully implement the policies and the principles contained in the state board's "Water Quality Control Policy for the Enclosed

Bays and Estuaries of California," and that the State Water Resources Control Board approve water quality control plans or plan amendments, pursuant to Section 13170 or Article 3 (commencing with Section 13240) of Chapter 4, consistent with that policy. Each regional board shall review and, if necessary, revise waste discharge requirements that are inconsistent with those policies and principles.

13391.5. The definitions set forth in this section govern the construction of this chapter.

(a) "Enclosed bays" means indentations along the coast which enclose an area of oceanic water within distinct headlands or harbor works. "Enclosed bays" include all bays where the narrowest distance between the headlands or outermost harbor works is less than 75 percent of the greatest dimension of the enclosed portion of the bay. "Enclosed bays" include, but are not limited to, Humboldt Bay, Bodega Harbor, Tomales Bay, Drake's Estero, San Francisco Bay, Morro Bay, Los Angeles-Long Beach Harbor, Upper and Lower Newport Bay, Mission Bay, and San Diego Bay. For the purposes of identifying, characterizing, and ranking toxic hot spots pursuant to this chapter, Monterey Bay and Santa Monica Bay shall also be considered to be enclosed bays.

(b) "Estuaries" means waters, including coastal lagoons, located at the mouths of streams which serve as mixing zones for fresh and ocean waters. Coastal lagoons and mouths of streams which are temporarily separated from the ocean by sandbars shall be considered as estuaries. Estuarine waters shall be considered to extend from a bay or the open ocean to a point upstream where there is no significant mixing of fresh water and sea water. Estuarine waters include, but are not limited to, the Sacramento-San Joaquin Delta, as defined in Section 12220, Suisun Bay, Carquinez Strait downstream to the Carquinez Bridge, and appropriate areas of the Smith, Mad, Eel, Noyo, Russian, Klamath, San Diego, and Otay Rivers.

(c) "Health risk assessment" means an analysis which evaluates and quantifies the potential human exposure to a pollutant that bioaccumulates or may bioaccumulate in edible fish, shellfish, or wildlife. "Health risk assessment" shall include an analysis of both individual and population wide health risks associated with anticipated levels of human exposure, including potential synergistic effects of toxic pollutants and impacts on sensitive populations.

(d) "Sediment quality threshold" means that level of a constituent in sediment which is established with an adequate margin of safety, for the reasonable protection of the beneficial uses of water or the prevention of nuisances.

(e) "Toxic hot spots" means locations in enclosed bays, estuaries, or any adjacent waters in the "contiguous zone" or the "ocean," as defined in Section 502 of the Clean Water Act (33 U.S.C. Sec. 1362), the pollution or contamination of which affects the interests of the state, and where hazardous substances have accumulated in the sediment to levels which (1) may pose a substantial present or

potential hazard to aquatic life, wildlife, fisheries, or human health, or (2) may adversely affect the beneficial uses of the bay, estuary, or ocean waters as defined in water quality control plans. For purposes of this chapter, "hazardous substances" shall have the same meaning as in subdivision (d) of Section 25281 of the Health and Safety Code.

13392. The state board and the regional boards, in consultation with the State Department of Health Services and the Department of Fish and Game, shall develop and maintain a comprehensive program to (1) identify and characterize toxic hot spots, as defined in Section 13391.5, (2) plan for the cleanup or other appropriate remedial or mitigating actions at the sites, and (3) amend water quality control plans and policies to incorporate strategies to prevent the creation of new toxic hot spots and the further pollution of existing hot spots. As part of this program, the state board and regional boards shall, to the extent feasible, identify specific discharges or waste management practices which contribute to the creation of toxic hot spots, and shall develop appropriate prevention strategies, including, but not limited to, adoption of more stringent waste discharge requirements, onshore remedial actions, adoption of regulations to control source pollutants, and development of new programs to reduce urban and agricultural runoff.

13392.5. (a) Each regional board which has regulatory authority for one or more enclosed bays or estuaries shall, by January 1, 1991, develop for each enclosed bay or estuary, a consolidated data base which identifies and describes all known and suspected toxic hot spots. Each regional board shall, in consultation with the state board, also develop an ongoing monitoring and surveillance program that includes, but is not limited to, the following components:

(1) Establishment of a monitoring and surveillance task force that includes representation from agencies, including, but not limited to, the State Department of Health Services and the Department of Fish and Game, that routinely monitor water quality, sediment, and aquatic life.

(2) Suggested guidelines to promote standardized analytical methodologies and consistency in data reporting.

(3) Identification of additional monitoring and analyses that are needed to develop a complete toxic hot spot assessment for each enclosed bay and estuary.

(b) Each regional board shall make available to state and local agencies and the public all information contained in the consolidated data base, as well as the results of new monitoring and surveillance data.

13392.6. (a) On or before July 1, 1991, the state board shall adopt and submit to the Legislature a workplan for the adoption of sediment quality thresholds for toxic pollutants that have been identified in known or suspected toxic hot spots and for toxic pollutants that have been identified by the state board or a regional board as a pollutant of concern. The workplan shall include priorities and a schedule for development and adoption of sediment quality

thresholds, identification of additional resource needs, and identification of staff or funding needs. The state board is not prohibited from adopting a sediment quality threshold in the workplan for a constituent for which the workplan identifies additional research needs.

(b) In preparing the workplan pursuant to subdivision (a), the state board shall conduct public hearings and workshops and shall consult with persons associated with municipal discharges, industrial discharges, other public agencies, research scientists, commercial and sport fishing interests, marine interests, organizations for the protection of natural resources and the environment, and the general public.

13393. The state board, when adopting sediment quality thresholds pursuant to the workplan submitted pursuant to Section 13392.6, shall base the sediment quality thresholds on monitoring and bioaccumulation studies, shall provide adequate protection for the most sensitive aquatic organisms, and shall base the sediment quality thresholds on a health risk assessment if there is potential for bioaccumulation of pollutants through the food chain to edible fish, shellfish, or wildlife.

13393.5. On or before July 1, 1992, the state board, in consultation with the State Department of Health Services and the Department of Fish and Game, shall adopt general criteria for the assessment and priority ranking of toxic hot spots. The criteria shall take into account the pertinent factors relating to public health and environmental quality, including, but not limited to, potential hazards to public health, toxic hazards to fish, shellfish, and wildlife, and the extent to which the deferral of a remedial action will result or is likely to result in a significant increase in environmental damage, health risks, or cleanup costs.

13394. On or before July 1, 1993, each regional board shall complete and submit to the state board a toxic hot spots cleanup plan. On or before January 1, 1994, the state board shall submit to the Legislature a consolidated statewide toxic hot spots cleanup plan. The cleanup plan submitted by each regional board and the state board shall include, but not be limited to, the following information:

(a) A priority ranking of all hot spots, including the state board's recommendations for remedial action at each toxic hot spot site.

(b) A description of each hot spot site including a characterization of the pollutants present at the site.

(c) An estimate of the total costs to implement the plan.

(d) An assessment of the most likely source or sources of pollutants.

(e) An estimate of the costs that may be recoverable from parties responsible for the discharge of pollutants that have accumulated in sediment.

(f) A preliminary assessment of the actions required to remedy or restore a toxic hot spot.

(g) A two-year expenditure schedule identifying state funds

needed to implement the plan.

(h) A summary of actions that have been initiated by the regional board to reduce the accumulation of pollutants at existing hot spots and to prevent the creation of new hot spots.

(i) The plan submitted by the state board shall include findings and recommendations concerning the need for establishment of a toxic hot spots cleanup program.

13394.5. The state board, as part of the annual budget process, shall prepare and submit to the Legislature a recommended annual expenditure plan for the implementation of this chapter.

13395. Each regional board shall, within 120 days from the ranking of a toxic hot spot, initiate a reevaluation of waste discharge requirements for dischargers who, based on the determination of the regional board, have discharged all or part of the pollutants which have caused the toxic hot spot. These reevaluations shall be for the purpose of ensuring compliance with water quality control plans and water quality control plan amendments. These reevaluations shall be initiated according to the priority ranking established pursuant to subdivision (a) of Section 13394 and shall be scheduled so that, for each region, the first reevaluation shall be initiated within 120 days from, and the last shall be initiated within one year from, the ranking of the toxic hot spots. The regional board shall, consistent with the policies and principles set forth in Section 13391, revise waste discharge requirements to ensure compliance with water quality control plans and water quality control plan amendments adopted pursuant to Article 3 (commencing with Section 13240) of Chapter 4, including requirements to prevent the creation of new toxic hot spots and the maintenance or further pollution of existing toxic hot spots. The regional board may determine it is not necessary to revise a waste discharge requirement only if it finds that the toxic hot spot resulted from practices no longer being conducted by the discharger or permitted under the existing waste discharge requirement, or that the discharger's contribution to the creation or maintenance of the toxic hot spot is not significant.

13395.5. The state board may enter into contracts and other agreements for the purpose of evaluating or demonstrating methods for the removal, treatment, or stabilization of contaminated bottom sediment. For the purpose of preparing health risk assessments pursuant to Section 13393, the state board shall enter into contracts or agreements with the State Department of Health Services, or with other state or local agencies, subject to the approval of the State Department of Health Services. The costs incurred for work conducted by other state agencies, including, but not limited to, the State Department of Health Services and the Department of Fish and Game, pursuant to this chapter shall be reimbursed according to the terms of an interagency agreement between the state board and the agency.

13396. No person shall dredge or otherwise disturb a toxic hot spot site that has been identified and ranked by a regional board

without first obtaining certification pursuant to Section 401 of the Clean Water Act (33 U.S.C. Sec. 1341) or waste discharge requirements from the board. If the state board or a regional board does not issue waste discharge requirements or a certification within the period provided for certification under Section 401 of the Clean Water Act, the certification shall be deemed denied without prejudice. On or after January 1, 1993, no regional board shall grant approval for a dredging project that involves the removal or disturbance of sediment which contains pollutants at or above the sediment quality thresholds established pursuant to Section 13393 unless the regional board determines all of the following:

(a) The polluted sediment will be removed in a manner that prevents or minimizes water quality degradation.

(b) Polluted dredge spoils will not be deposited in a location that may cause significant adverse effects to aquatic life, fish, shellfish, or wildlife or may harm the beneficial uses of the receiving waters, or does not create maximum benefit to the people of the state.

(c) The project or activity will not cause significant adverse impacts upon a federal sanctuary, recreational area, or other waters of significant national importance.

SEC. 2. Section 87790 is added to the Education Code, to read:

87790. Notwithstanding any other provisions of this code, except Part 13 (commencing with Section 22000), the governing body of a community college district may adopt a workload balancing program for certificated employees, under which time worked in excess of that required for a full-time position is banked and an equivalent paid leave of absence is granted in a subsequent quarter, semester, or academic year.

SEC. 3. Section 87822 of the Education Code is amended to read:

87822. Except as provided in Section 87790, when any community college district employs a certificated employee to perform instruction or other services in addition to his or her regular instructing duties, or when a district employs a certificated employee to perform instructing or other services at a summer school maintained by the district, the district shall pay the employee for those services either in one lump sum or at an hourly, daily, biweekly, quadriweekly, or monthly rate of pay. If the pay is in one lump sum,

the district shall pay the employee within 10 days after the termination of the services. If the pay is at an hourly, daily, biweekly, quadriweekly or monthly rate, the district shall pay the employee within 10 days after the end of each calendar month or pay period during which the services are performed.

SEC. 4. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 271

An act relating to public social services

[Approved by Governor August 3, 1989. Filed with Secretary of State August 3, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) There are an estimated 8,000 to 12,000 Amerasian children living in Vietnam who were fathered by American servicemen between 1962 and 1976.

(b) Because of the prominent American features which stand out among the homogeneous Vietnamese population, these children, whose ties to our country are undisputed, and their families face severe hardship, ostracism, and deprivation of education and other services and often live on the streets of Saigon.

(c) With the passage of the federal Amerasian Homecoming Act, 30,000 Amerasian children and their family members will be coming to the United States in the next two years.

(d) A number of these children have relatives in California and will be making their home here.

(e) A needs assessment is necessary because data on numbers and information on service needs is currently inadequate for appropriate service planning and to determine what level of federal refugee funds will adequately meet the needs of Amerasians making their homes in California.

(f) Because admission of Amerasians is a federal decision, the

federal government bears the financial responsibility to assure adequate support to the states and localities for their effective resettlement and ultimate integration into American life.

SEC. 2. The State Department of Social Services shall develop information on the characteristics and service needs of this population, in consultation with the State Department of Education, volunteer agencies responsible for initial resettlement, refugee mutual assistance associations, and other appropriate state agencies as determined by the State Department of Social Services. The State Department of Social Services shall include provisions in the state's plan for refugee and entrant assistance and services to address these needs. The plan shall, at a minimum, address the need for the following:

(a) Orientation and information and referral services for Amerasian children, their fathers, and family members after their arrival in the United States.

(b) Orientation services for foster parents of Amerasian children without family members.

(c) Educational services, including tutoring services.

(d) Available bilingual counseling and educational services.

(e) Identification of contact persons in county welfare departments for casework and other services.

(f) Appropriate independent living skills services for older children.

SEC. 3. The State Department of Social Services shall seek federal funding for unmet service requirements of Amerasian children and their families identified in the needs determination required by Section 2 of this act. These unmet requirements shall only be provided to the extent that federal funding is available and allowable pursuant to federal law and regulations.

19546. (a) In order to encourage and develop the racing of all horses in California, regardless of breed, whenever the California Fair and State Exposition, a county fair, or a district agricultural association fair conducts a program of horseraces with parimutuel wagering, it may provide a program of mixed breed racing that includes thoroughbred racing, harness racing, quarter horse racing, Arabian racing, paint racing, Appaloosa racing, steeplechase races, barrel races, and match jumping races.

(b) All recognized breeds of horses may compete in barrel races, match jumping races, and steeplechase races. Parimutuel wagering may be conducted on barrel races, match jumping races, and steeplechase races.

(1) Within three months after the board has deducted an offset portion, the local agency may request the board to transmit the offset portion to the local agency.

(2) As promptly as feasible after the board receives the local agency's request, the board shall transmit to the local agency the offset portion as part of the board's periodic transmittal of sales and use taxes.

(3) The board shall thereafter deduct a pro rata share of the offset portion from future transmittals of sales and use taxes to the local agency over a period to be determined by the board, but not less than two calendar quarters and not more than eight calendar quarters, until the entire amount of the offset portion has been deducted.

(c) The board shall not transmit the offset portion of the refund to the local agency if that transmittal would reduce or delay either the board's payment of the refund to the taxpayer or the board's periodic transmittals of sales and use taxes to other local agencies.

CHAPTER 275

An act relating to the Whittier Union High School District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 3, 1989. Filed with Secretary of State August 3, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares all of the following:

(a) The Whittier Union High School District currently is experiencing financial distress due to a shortfall of one million eight hundred thousand dollars ($1,800,000) in the June 1988 state education apportionment to the district.

(b) This deficiency in the June 1988 apportionment to the Whittier Union High School District is compounded in subsequent state apportionments to the district, since the state's formula for allocating apportionments to the district in the 1989–90 fiscal year is based on this deficient June 1988 apportionment, and that the total amount of the shortfall through February 1989 will thus be approximately three million dollars ($3,000,000).

(c) The effect of this deficient 1988 state apportionment on the Whittier Union High School District has been particularly acute in the light of recent earthquake damage afflicting the district.

(d) The shortfall in the 1988–89 state apportionments to the Whittier Union High School District did not occur as a result of any error on the part of the district, or the state, but rather was due to a miscalculation by the Los Angeles County Auditor-Controller in overstating the district's property tax revenues.

(e) The state has experienced a windfall in the form of accrued interest on the funds that should have been provided to the Whittier Union High School District.

(f) The financial hardship of the Whittier Union High School District would be substantially alleviated by the timely and complete repayment of the depreciated portion of its 1988–89 apportionments.

(g) The foregone interest that the Whittier Union High School District would have accrued on the depreciated portion of its 1988–89 state apportionment has been accurately calculated on the basis of the standard investment procedure whereby school districts in Los Angeles County deposit funds in the County Pooled Money Investment Account until they are needed.

(h) The state should rectify its depreciated 1988–89 apportionments to the Whittier Union High School District by fully and promptly compensating the district in the amount of the deficiency in its 1988–89 apportionments and by reimbursing the district for the foregone interest that would have accrued on this sum.

(i) The state will experience neither a net loss nor a net gain in revenue by reimbursing the Whittier Union High School District in a timely and just manner for the deficiency in the 1988–89 state apportionments and for the lost interest thereupon.

(j) The state should provide a mechanism for the district to recoup the interest earnings which were lost as a result of the county's miscalculation. However, it is the intent of the Legislature that provision for payment of calculation errors of this type shall not be made unless the revenue loss which occurs is equal to at least 10 percent of the affected agency's total budget.

SEC. 2. For the 1989–90 fiscal year only, notwithstanding any other provision of law to the contrary warrants from the State Treasury for amounts apportioned to the Whittier Union High School District shall be for amounts equal to 15 percent in July, August, September, and October; 0 percent in November and December; and 6 percent in January of the amounts certified by the

Superintendent of Public Instruction as part of the advance apportionment. Warrants for amounts apportioned to the district for the months of February to May, inclusive, shall be in accordance with paragraph (3) of subdivision (a) of Section 14041 of the Education Code, and for the month of June shall be in accordance with paragraph (4) of subdivision (a) of Section 14041 of the Education Code.

SEC. 3. It is the intent of the Legislature that the Superintendent of Public Instruction shall, notwithstanding Section 41330 of the Education Code, implement this act as if it had been enacted by July 15, 1989.

SEC. 4. Due to the unique circumstances concerning the Whittier Union High School District, it is necessary that funding be made available to the district and the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to alleviate the financial distress that the Whittier Union High School District is currently experiencing, it is necessary that this act take effect immediately.

CHAPTER 276

An act to add Section 21290.6 to the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor August 3, 1989 Filed with Secretary of State August 3, 1989]

The people of the State of California do enact as follows.

SECTION 1. Section 21290.6 is added to the Government Code, to read:

21290.6. Notwithstanding any provision of this part to the contrary, a retired state safety or state peace officer/firefighter member who, before January 1, 1986, was eligible for an industrial disability allowance but elected, instead, for a nonindustrial disability allowance may elect for an industrial disability retirement allowance. A change in retirement status pursuant to this section does not, in itself, constitute a basis for a change in the optional settlement or the beneficiary designation. The industrial disability allowance shall be calculated as if former Section 21293.5, as repealed by Chapter 557 of the Statutes of 1985, was never enacted and in no event shall be in an amount less than his or her nonindustrial disability allowance.

The allowance elected pursuant to this section shall be paid only

on and after the effective date of the election and nothing in this section shall be construed as providing for any increase in benefits payable prior to the effective date of the election, or for any claim for such an increase. The effective date of an election shall be no earlier than the first day of the month following the month in which the election is received by the board.

Any state safety member who applies for an election pursuant to this section shall have the burden of proving that he or she was, by competent medical evidence, industrially disabled at retirement and the duties of his or her job at retirement.

The board has no duty to identify, locate, or notify any annuitant who may be eligible for the benefits provided by this section.

CHAPTER 277

An act to add Section 7285.5 to the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature. Filed with Secretary of State August 7, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 7285.5 is added to the Revenue and Taxation Code, to read:

7285.5. As an alternative to the procedure set forth in Section 7285, the board of supervisors of any county with a population of 350,000 or less on January 1, 1987, may establish an authority for specific purposes.

An authority so established may impose a transactions and use tax at a rate of 0.5 percent for the purpose for which it is established, if all of the following requirements are met:

(a) The ordinance proposing that tax is approved by a two-thirds vote of the authority and is subsequently approved by a majority vote of the qualified voters of the county voting in an election on the issue.

(b) The transactions and use tax conforms to Part 1 6 (commencing with Section 7251).

(c) The ordinance includes an expenditure plan describing the specific projects for which the revenues from the tax may be expended.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to timely provide an adequate system for using tax revenues, it is necessary that this act take effect immediately.

CHAPTER 278

The people of the State of California do enact as follows:

SECTION 1. Section 1720 of the Labor Code is amended to read:

1720. As used in this chapter, "public works" means:

(a) Construction, alteration, demolition, or repair work done under contract and paid for in whole or in part out of public funds, except work done directly by any public utility company pursuant to order of the Public Utilities Commission or other public authority.

(b) Work done for irrigation, utility, reclamation, and improvement districts, and other districts of this type. "Public work" shall not include the operation of the irrigation or drainage system of any irrigation or reclamation district, except as used in Section 1778 relating to retaining wages.

(c) Street, sewer, or other improvement work done under the direction and supervision or by the authority of any officer or public body of the state, or of any political subdivision or district thereof, whether the political subdivision or district operates under a freeholder's charter or not.

(d) The laying of carpet done under a building lease-maintenance contract and paid for out of public funds.

(e) The laying of carpet in a public building done under contract and paid for in whole or part out of public funds.

(f) Public transportation demonstration projects authorized pursuant to Section 143 of the Streets and Highways Code.

SEC. 2. This act shall become operative only if Assembly Bill 680 is enacted in the 1989–90 Regular Session of the Legislature and adds Section 143 to the Streets and Highways Code authorizing the Department of Transportation to enter into agreements with private entities for the construction by, and lease to, private entities of public transportation demonstration projects. In that case, this act shall become operative on the operative date of Assembly Bill 680, or as soon as possible thereafter.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the

California Constitution.

CHAPTER 279

An act to amend Section 2775.5 of the Public Utilities Code, relating to public utilities.

[Approved by Governor August 30, 1989 Filed with Secretary of State August 31, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 2775.5 of the Public Utilities Code is amended to read:

2775.5. (a) If an electrical or gas corporation desires to manufacture, lease, sell, or otherwise own or control any solar energy system, it shall submit to the commission, in such form as the commission may specify, a description of the proposed program of solar energy development which it desires to pursue. The corporation may pursue the program of solar energy development unless the commission, within 45 days after the commission has accepted the filing of the corporation's description pursuant to this subdivision, orders the corporation to obtain from the commission the authorization to do so as provided in this section. No such authorization shall be required for any solar energy system which is owned or controlled for experimental or demonstration purposes. As used in this subdivision, "experimental or demonstration purposes" means a limited program of installation, use, or development the sole purpose of which is to investigate the technical viability or economic cost effectiveness of a solar application.

(b) The commission shall deny the authorization sought if it finds that the proposed program will restrict competition or restrict growth in the solar energy industry or unfairly employ in a manner which would restrict competition in the market for solar energy systems any financial, marketing, distributing, or generating advantage which the corporation may exercise as a result of its authority to operate as a public utility. Before granting any such authorization, the commission shall find that the program of solar energy development proposed by the corporation will accelerate the development and use of solar energy systems in this state for the duration of the program.

(c) The commission shall suspend or terminate any authorization granted pursuant to this section whenever it finds and determines that the program of solar energy development no longer qualifies for the authorization under subdivision (b). This subdivision applies to all programs of solar energy development undertaken by a gas or electrical corporation pursuant to this section, including programs undertaken pursuant to subdivision (a) without formal authorization

of the commission.

(d) As used in this section, "solar energy system" means equipment which uses solar energy to heat or cool or produce electricity and which has a useful life of at least three years. "Solar energy system" shall not include an electric plant as defined by Section 217.

(e) The commission shall prescribe the form of the description required by subdivision (a) by July 1, 1990. The description of the solar energy program filed with the commission shall include, but not be limited to, a showing that the program will not restrict competition, or restrict growth in the solar energy industry, or unfairly employ any financial, marketing, distributing, or generation advantage by the corporation on behalf of the solar energy program.

(f) The costs and expenses of implementing a program of solar energy development proposed pursuant to this section shall not be passed through to the ratepayers of an electrical or gas corporation.

(g) An electrical or gas corporation shall file a written notice with the commission in all cases where one of its subsidiaries seeks to implement a solar energy development program. If the corporation intends to provide financial, marketing, or distribution assistance to any subsidiary thereof in implementing the subsidiary's program of solar energy development, the corporation shall obtain authorization from the commission to provide that assistance. Authorization by the commission shall be given in the manner provided in subdivisions (a) and (b), and suspension or termination by the commission may be imposed in the manner provided in subdivision (c).

(h) The commission shall provide public notice of the receipt of any corporation filings submitted pursuant to this section.

In addition, the conservancy may make loans to public agencies or nonprofit organizations, or any combination thereof, for the full cost of preparing an urban waterfront restoration plan, if both of the following are satisfied:

(1) Funding for those loans is provided for in the Budget Act.

(2) The cost of preparation of a plan is included in the cost of a project approved for funding pursuant to Division 22 (commencing with Section 32000).

(b) The loans shall be repaid when the bonds funding the project are sold and upon terms and at a rate of interest which recovers the costs of the funds to the state.

SEC. 4. Section 31352.5 of the Public Resources Code is amended to read:

31352.5. Where a nonprofit organization is better situated than the conservancy to acquire temporarily a site for later acquisition by a federal, state, or local public agency, the conservancy may loan the nonprofit organization the necessary funds to accomplish the acquisition. As a condition of that loan, the nonprofit organization shall adhere to the procedures and restrictions of this chapter in accomplishing the acquisition.

4011.1. (a) Notwithstanding Section 29602 of the Government Code and any other provisions of this chapter, a county, city or the Department of the Youth Authority is authorized to make claim for and recovery of the costs of necessary hospital, medical, surgical, dental, or optometric care rendered to any prisoner confined in a county or city jail or any juvenile confined in a detention facility, who would otherwise be entitled to that care under the Medi-Cal Act (Chapter 7 (commencing with Section 14000) Part 3, Division 9, Welfare and Institutions Code), and who is eligible for that care on the first day of confinement or detention, to the extent that federal financial participation is available, or under the provisions of any private program or policy for that care, and the county, city or the Department of the Youth Authority shall be liable only for the costs of that care as cannot be recovered pursuant to this section. No person who is eligible for Medi-Cal shall be eligible for benefits under the provisions of this section, and no county or city or the Department of the Youth Authority is authorized to make a claim for any recovery of costs for services for that person, unless federal financial participation is available for all or part of the costs of providing services to that person under the Medi-Cal Act.

Notwithstanding any other provision of law, any county or city making a claim pursuant to this section and under the Medi-Cal Act shall reimburse the Health Care Deposit Fund for the state costs of paying those medical claims. Funds allocated to the county from the County Health Services Fund pursuant to Part 4.5 (commencing with Section 16700) of Division 9 of the Welfare and Institutions Code may be utilized by the county or city to make that reimbursement.

(b) Notwithstanding Section 29602 of the Government Code and any other provisions of this chapter, to the extent that recovery of costs of necessary hospital, medical, surgical, dental, or optometric care are not accomplished under subdivision (a), a county, city, or the Department of the Youth Authority is authorized to make claim for and recover from a prisoner or a person legally responsible for a prisoner's care and maintenance the costs of necessary hospital, medical, surgical, dental, or optometric care rendered to any prisoner confined in a county or city jail, or any juvenile confined in

a detention facility, where the prisoner or the person legally responsible for the prisoner's care and maintenance is financially able to pay for the prisoner's care, support, and maintenance. Nothing in this subdivision shall be construed to authorize a city, a county, or the Department of the Youth Authority to make a claim against a spouse of a prisoner.

(c) Necessary hospital, medical, dental, or optometric care, as used in this section, does not include care rendered with respect to an injury occurring during confinement in a county or city jail or juvenile detention facility, nor does it include any care or testing mandated by law.

(d) Subdivisions (b) and (c) shall apply only where there has been a determination of the present ability of the prisoner or responsible third party to pay all or a portion of the cost of necessary hospital, medical, surgical, dental, or optometric care. The person legally responsible for the prisoner's care shall provide a financial disclosure statement, executed under penalty of perjury, based on his or her past year's income tax return, to the Department of the Youth Authority. The city, county, or Department of the Youth Authority may request that the prisoner appear before a designated hearing officer for an inquiry into the ability of the prisoner or responsible third party to pay all or part of the cost of the care provided.

(e) Notice of this request shall be provided to the prisoner or responsible third party, which shall contain the following:

(1) A statement of the cost of the care provided to the prisoner.

(2) The prisoner's or responsible third party's procedural rights under this section.

(3) The time limit within which the prisoner or responsible third party may respond.

(4) A warning that if the prisoner or responsible third party fails to appear before, or respond to, the designated officer, the officer may petition the court for an order requiring him or her to make payment of the full cost of the care provided to the prisoner.

(f) At the hearing, the prisoner or responsible third party shall be entitled to, but shall not be limited to, all of the following rights:

(1) The right to be heard in person.

(2) The right to present witnesses and documentary evidence.

(3) The right to confront and cross-examine adverse witnesses.

(4) The right to have adverse evidence disclosed to him or her.

(5) The right to a written statement of the findings of the designated hearing officer.

(g) If the hearing officer determines that the prisoner or responsible third party has the present ability to pay all or a part of the cost, the officer shall set the amount to be reimbursed, and shall petition the court to order the prisoner or responsible third party to pay the sum to the city, county, or state, in the manner in which it finds reasonable and compatible to the prisoner's or responsible third party's financial ability. The courts order shall be enforceable in the manner provided for money judgments in a civil action under the

Code of Civil Procedure.

(h) At any time prior to satisfaction of the judgment rendered according to the terms of this section, a prisoner or responsible third party against whom a judgment has been rendered, may petition the rendering court for a modification of the previous judgment on the grounds of a change of circumstance with regard to his or her ability to pay the judgment. The prisoner or responsible third party shall be advised of this right at the time the original judgment is rendered.

(i) As used in this section, "Ability to pay" means the overall capacity of the prisoner or responsible third party to reimburse the costs, or a portion of the costs, of the care provided to the prisoner, and shall include, but not be limited to, all of the following:

(1) The prisoner's or responsible third party's present financial position.

(2) The prisoner's or responsible third party's discernible future financial position.

(3) The likelihood that the prisoner or responsible third party will be able to obtain employment in the future.

(4) Any other factor or factors which may bear upon the prisoner's or responsible third party's financial position.

CHAPTER 283

An act to amend Sections 6555, 6555.5, 15365, and 27032 of the Elections Code, relating to elections.

[Approved by Governor August 30, 1989 Filed with Secretary of State August 31, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 6555 of the Elections Code is amended to read:

6555. (a) Notwithstanding any other provision of this article, a candidate may submit a petition containing signatures of registered voters in lieu of a filing fee as follows:

(1) For the office of California State Assembly, 1,500 signatures.

(2) For the office of California State Senate and the United States House of Representatives, 3,000 signatures.

(3) For candidates running for statewide office, 10,000 signatures.

(4) For all other offices for which a filing fee is required, if the number of registered voters in the district in which he seeks nomination is 2,000 or more, a candidate may submit a petition containing four signatures of registered voters for each dollar of the filing fee, or 10 percent of the total of registered voters in the district in which he seeks nomination, whichever is less.

(5) For all other offices for which a filing fee is required, if the number of registered voters in the district in which he or she seeks

nomination is less than 2,000, a candidate may submit a petition containing four signatures of registered voters for each dollar of the filing fee, or 20 percent of the total of registered voters in the district in which he or she seeks nomination, whichever is less.

(6) Notwithstanding any other provision of this section, a candidate seeking the nomination of a qualified party with whom he or she is registered, the registered voters of which who were eligible to vote at the last statewide election constituted less than 5 percent of all registered voters eligible to vote at the last statewide election, may submit a petition containing signatures of 10 percent of the registered voters of that party in the district in which he seeks nomination, or 150 signatures, whichever is less.

(7) A voter may sign both a candidate's nomination papers and his or her in-lieu-filing-fee petition. However, if signatures appearing on the documents are counted towards both the nomination paper and the in-lieu-filing-fee petition signature requirements, a person may only sign one of the documents.

(b) Each clerk shall furnish to each candidate, upon request, and without charge therefor, forms for securing signatures. The number of forms which a clerk shall furnish a candidate shall be a quantity which provides the candidates with spaces for signatures sufficient in number to equal the number of signatures which the candidate is required to secure pursuant to subdivision (a) if the candidate desires that number of forms. However, the clerk may, rather than provide the candidate with the number of forms set forth in the preceding sentence, or, upon the request of a candidate, provide the candidate with a master form, which may be duplicated by the candidate at the candidate's expense for the purpose of circulating additional petitions. The Secretary of State shall prescribe the format of the master form. All forms shall be made available commencing 45 days before the first day for circulating nomination papers. However, in cases of vacancies for which a special election is authorized or required to be held to fill the vacancy, and where the prescribed nomination period would commence less than 45 days after the creation of the vacancy, the forms shall be made available within five working days after the creation of the vacancy. No other form except the form furnished by the county clerk or forms duplicated from a master form shall be used to secure signatures. Each petition section shall bear an affidavit signed by the circulator, in substantially the same form as set forth in Section 6494. The substitution of signatures for fees shall be subject to the following provisions:

(1) Any registered voter may sign an in-lieu-filing-fee petition for any candidate for whom he or she is eligible to vote.

(2) If a voter signs more candidates' petitions than there are offices to be filled, the voter's signatures shall be valid only on those petitions which, taken in the order they were filed, do not exceed the number of offices to be filled.

(3) In-lieu-filing-fee petitions shall be filed at least 15 days prior to

the close of the nomination period. Upon receipt of the minimum number of in-lieu-filing-fee signatures required, or a sufficient combination of signatures and pro rata filing fee, the clerk shall issue nomination papers provisionally. Within 10 days after receipt of a petition, the clerk shall notify the candidate of any deficiency. The candidate shall then, prior to the close of the nomination period, either submit a supplemental petition, or pay a pro rata portion of the filing fee, to cover the deficiency.

(4) If the petition is circulated for an office in more than one county, the candidate shall submit the signatures to the county clerk in the county in which the petition was circulated. The county clerk shall at least two days after verifying the signatures on the petition, notify the Secretary of State of the total number of valid signatures. If the number of signatures is insufficient, the Secretary of State shall notify the candidate and the county clerks of the fact. The candidate may submit the necessary number of valid signatures at any time prior to the close of the period for circulating nomination papers. Each circulator of an in-lieu-filing-fee petition shall be a registered voter of the district or political subdivision in which the candidate is to be voted on. The circulator shall serve within the county in which he or she resides.

(5) Each candidate may submit a greater number of signatures to allow for subsequent losses due to invalidity of some signatures. The clerk shall not be required to determine the validity of a greater number of signatures than that required by this section.

(c) For the purposes of this section, the requisite number of signatures shall be computed from the latest registration figures forwarded to the Secretary of State pursuant to Section 607 prior to the first day on which petitions are available.

(d) All valid signatures obtained pursuant to this section shall be counted towards the number of voters required to sign a nomination paper in accordance with Section 6494.1 or 6834.1.

SEC. 2. Section 6555.5 of the Elections Code is amended to read:

6555.5. If the number of signatures affixed to an in-lieu filing fee petition filed pursuant to Section 6555 is 100 or more, the clerk may use a random sampling technique for verification of the signatures. If a random sampling technique is used and the number of signatures on a petition is 100 or more but less than 2,000, the random sampling shall include an examination of 100 signatures. If the number of signatures on a petition is 2,000 or more, the random sampling shall include an examination of 5 percent of the signatures. Upon completion of the verification of signatures in the sample, the percentage of signatures which are valid shall be applied and projected to the total number of signatures submitted.

SEC. 3. Section 15365 of the Elections Code is amended to read:

15365. Before adjourning, the precinct board shall seal the operating lever with the seal provided and lock the machine so that the voting and counting mechanism may not be operated.

It shall remain locked and sealed against operation until the time

for filing a contest of election has expired, which shall not exceed a period of 30 days following the declaration of the result of the election by the body canvassing the returns.

SEC. 4. Section 27032 of the Elections Code is amended to read:

27032. (a) The petition sections shall be designed so that each signer shall personally affix his or her:

(1) Signature.

(2) Printed name.

(3) Residence address, giving street and number, or if no street or number exists, adequate designation of residence so that the location may be readily ascertained.

(4) Name of incorporated city or unincorporated community.

(b) A margin, at least one inch wide, shall be left blank across the top of each page of the petition. A margin, at least one-half inch wide, shall be left blank along the bottom of each side of the petition.

(c) A space, at least one inch wide, shall be left blank after each name for the use of the clerk in verifying the petition.

If any of those persons remove a trap, a buoy, or a trap or buoy line, any captured marine life shall be immediately returned to the ocean. Persons removing a trap or buoy, or a trap or buoy line, shall report to the department the buoy identification number for the purposes of identifying the owner. The person removing the trap or buoy, or trap or buoy line, shall notify the owner of its removal and the location where it can be reclaimed. This subdivision does not create any duty on any state or local agency to remove or move a trap, line, or buoy which may endanger the public safety and does not create any liability pursuant to Part 2 (commencing with Section 814) of Division 3.6 of Title 1 of the Government Code.

1102.15. The seller of residential real property subject to this article who has actual knowledge of any former federal or state ordnance locations within the neighborhood area shall give written notice of that knowledge as soon as practicable before transfer of title.

For purposes of this section, "former federal or state ordnance locations" means an area identified by an agency or instrumentality of the federal or state government as an area once used for military training purposes which may contain potentially explosive munitions. "Neighborhood area" means within one mile of the residential real property.

The disclosure required by this section does not limit or abridge any obligation for disclosure created by any other law or that may exist in order to avoid fraud, misrepresentation, or deceit in the transfer transaction.

SEC. 2. Section 1940.7 is added to the Civil Code, to read:

1940.7. (a) The Legislature finds and declares that the

December 10, 1983, tragedy in Tierra Santa, in which lives were lost as a result of a live munition exploding in a residential area that was formerly a military ordnance location, has demonstrated (1) the unique and heretofore unknown risk that there are other live munitions in former ordnance locations in California, (2) that these former ordnance locations need to be identified by the federal, state, or local authorities, and (3) that the people living in the neighborhood of these former ordnance locations should be notified of their existence. Therefore, it is the intent of the Legislature that the disclosure required by this section is solely warranted and limited by (1) the fact that these former ordnance locations cannot be readily observed or discovered by landlords and tenants, and (2) the ability of a landlord who has actual knowledge of a former ordnance location within the neighborhood of his or her rental property to disclose this information for the safety of the tenant.

(b) The landlord of a residential dwelling unit who has actual knowledge of any former federal or state ordnance locations in the neighborhood area shall give written notice to a prospective tenant of that knowledge prior to the execution of a rental agreement. In cases of tenancies in existence on January 1, 1990, this written notice shall be given to tenants as soon as practicable thereafter.

(c) For purposes of this section:

(1) "Former federal or state ordnance location" means an area identified by an agency or instrumentality of the federal or state government as an area once used for military training purposes and which may contain potentially explosive munitions.

(2) "Neighborhood area" means within one mile of the residential dwelling.

(2) There is a reasonable probability that the action, regulation, or permit will be consistent with the plan being prepared by the commission.

(3) There is little or no probability of substantial detriment to or interference with the future adopted plan if the action, regulation, or permit is ultimately inconsistent with the plan.

(d) If the commission disapproves an action, regulation, or permit, the commission shall notify the city or county. The city or county may overrule the commission, by a two-thirds vote of its governing body, if it makes specific findings that the proposed action, regulation, or permit is consistent with the purposes of this article, as stated in Section 21670.

(e) If a city or county overrules the commission pursuant to subdivision (d), that action shall not relieve the city or county from further compliance with this article after the commission adopts the plan.

(f) If a city or county overrules the commission pursuant to subdivision (d) with respect to a publicly owned airport that the city or county does not operate, the operator of the airport shall be immune from liability for damages to property or personal injury from the city's or county's decision to proceed with the action, regulation, or permit.

(g) A commission may adopt rules and regulations which exempt any ministerial permit for single-family dwellings from the requirements of subdivision (b) if it makes the findings required pursuant to subdivision (c) for the proposed rules and regulations, except that the rules and regulations may not exempt either of the following:

(1) More than two single-family dwellings by the same applicant within a subdivision prior to June 30, 1991.

(2) Single-family dwellings in a subdivision where 25 percent or more of the parcels are undeveloped.

(b) The action, regulation, or permit shall be deemed approved only if the public notice required by this subdivision has occurred. If the applicant has provided seven days advance notice to the commission of the intent to provide public notice pursuant to this subdivision, then, not earlier than the date of the expiration of the time limit established by Section 21675.1, an applicant may provide the required public notice. If the applicant chooses to provide public notice, that notice shall include a description of the proposed action, regulation, or permit substantially similar to the descriptions which are commonly used in public notices by the commission, the location of any proposed development, the application number, the name and address of the commission, and a statement that the action, regulation, or permit shall be deemed approved if the commission has not acted within 60 days. If the applicant has provided the public notice specified in this subdivision, the time limit for action by the commission shall be extended to 60 days after the public notice is provided. If the applicant provides notice pursuant to this section, the commission shall refund to the applicant any fees which were collected for providing notice and which were not used for that purpose.

(c) Failure of an applicant to submit complete or adequate information pursuant to Sections 65943 to 65946, inclusive, of the Government Code, may constitute grounds for disapproval of actions, regulations, or permits.

(d) Nothing in this section diminishes the commission's legal responsibility to provide, where applicable, public notice and hearing before acting on an action, regulation, or permit.

SEC. 6. Section 21679.5 is added to the Public Utilities Code, to read:

21679.5. (a) Until June 30, 1991, no action pursuant to Section 21679 to postpone the effective date of a zoning change, a zoning variance, the issuance of a permit, or the adoption of a regulation by a local agency, directly affecting the use of land within one mile of the boundary of a public airport, shall be commenced in any county in which the commission or other designated body has not adopted an airport land use plan, but is making substantial progress toward the completion of the plan.

(b) If a commission has been prevented from adopting the comprehensive land use plan by June 30, 1991, or if the adopted plan could not become effective, because of a lawsuit involving the adoption of the plan, the June 30, 1991, date in subdivision (a) shall be extended by the period of time during which the lawsuit was pending in a court of competent jurisdiction.

(c) Any action pursuant to Section 21679 commenced prior to January 1, 1990, in a county in which the commission or other designated body has not adopted an airport land use plan, but is making substantial progress toward the completion of the plan, which has not proceeded to final judgment, shall be held in abeyance until June 30, 1991. If the commission or other designated body adopts an airport land use plan on or before June 30, 1991, the action shall be dismissed. If the commission or other designated body does not adopt an airport land use plan on or before June 30, 1991, the plaintiff or plaintiffs may proceed with the action.

(d) An action to postpone the effective date of a zoning change, a zoning variance, the issuance of a permit, or the adoption of a regulation by a local agency, directly affecting the use of land within one mile of the boundary of a public airport for which an airport land use plan has not been adopted by June 30, 1991, shall be commenced within 30 days of June 30, 1991, or within 30 days of the decision by the local agency, or within the appropriate time periods set by Section 21167 of the Public Resources Code, whichever date is later.

SEC. 7. The Legislature finds and declares that the requirement for airport land use commissions to adopt comprehensive land use plans was adopted in 1970. The Legislature finds and declares that this act sets July 1, 1991, as the deadline for the commissions to adopt these required plans. The Legislature further finds and declares that this deadline provides sufficient time to the commissions to adopt these plans. Therefore, it is the intent of the Legislature not to reimburse airport land use commissions for costs incurred by the commissions after July 1, 1991, for the preparation of comprehensive land use plans pursuant to Article 3.5 (commencing with Section 21670) of Chapter 4 of Division 9 of the Public Utilities Code.

SEC. 8. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 307

An act to add Section 12599 to the Government Code, relating to fundraisers.

[Approved by Governor September 6, 1989 Filed with Secretary of State September 7, 1989]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature to provide to the public and to charities in California the maximum protection against fraudulent and misleading charitable solicitation permissible under the United States Constitution. The Legislature declares that any person or corporation engaged in commercial activities who, for compensation, solicits funds in California for charitable purposes is, under California law, a constructive trustee for charitable purposes as to the funds collected and is legally accountable for all of the funds.

The Attorney General has primary responsibility for supervising charitable trusts in California, and has broad powers to protect charitable assets. To fulfill this reponsibility, the Attorney General maintains the Registry of Charitable Trusts, and requires registration and annual financial reporting by trustees for charitable purposes.

It is the intent of the Legislature in enacting Section 12599 of the Government Code that the Attorney General have primary responsibility for supervising commercial fundraisers for charitable purposes who solicit funds in California, and to require that commercial fundraisers for charitable purposes fully account, as constructive trustees for charitable purposes, for all funds collected as a result of solicitation for charitable purposes. Commercial fundraisers for charitable purposes shall register annually with the Attorney General and file annual financial reports accounting for all funds collected as a result of solicitation for charitable purposes. Commercial fundraisers for charitable purposes shall be subject to the Attorney General's supervision and enforcement over charitable assets to the same extent as trustees for charitable purposes.

SEC. 2. Section 12599 is added to the Government Code, to read:

12599. (a) "Commercial fundraiser for charitable purposes" is defined as any individual, corporation, or other legal entity who for compensation does either of the following:

(1) Solicits funds in this state for charitable purposes and who receives and controls the funds or assets solicited for charitable purposes.

(2) As a result of a solicitation of funds in this state for charitable purposes, receives and controls the funds or assets solicited for charitable purposes.

A commercial fundraiser for charitable purposes shall not include a "trustee" as defined in Section 12582 or 12583, a "charitable corporation" as defined in Section 12582.1, or any employee thereof.

A commercial fundraiser for charitable purposes shall not include a person who is an employee of a commercial fundraiser for charitable purposes registered with the Attorney General.

(b) A commercial fundraiser for charitable purposes shall, prior to soliciting any funds in California for charitable purposes, or prior to receiving and controlling any funds or assets as a result of a solicitation in this state for charitable purposes, register with the Attorney General's Registry of Charitable Trusts on a registration form provided by the Attorney General. Renewals of registration shall be filed with the Registry of Charitable Trusts by January 15 of each calendar year in which the commercial fundraiser for charitable purposes does business and shall be effective for one year. For 1990, a registration or renewal fee of two hundred dollars ($200) shall be required for registration of a commercial fundraiser for charitable purposes, and shall be payable by certified or cashier's check to the Attorney General's Registry of Charitable Trusts at the time of registration or renewal. The Attorney General may adjust the annual registration or renewal fee as needed to ensure that revenues will fully offset, but not exceed, the actual costs incurred by the Department of Justice pursuant to this section. The Attorney General's Registry of Charitable Trusts may grant extensions of time to file annual registration as required, pursuant to subdivision (b) of Section 12586.

(c) A commercial fundraiser for charitable purposes shall file with the Attorney General's Registry of Charitable Trusts an annual financial report on a form provided by the Attorney General, accounting for all funds collected pursuant to any solicitation for charitable purposes during the preceding calendar year. The annual financial report shall be filed with the Attorney General's Registry of Charitable Trusts no later than 30 days after the close of the preceding calendar year.

(d) The contents of the forms for annual registration and annual financial reporting by commercial fundraisers for charitable purposes shall be established by the Attorney General in a manner consistent with the procedures set forth in subdivisions (a) and (b) of Section 12586. The annual financial report shall require a detailed, itemized accounting of funds solicited for charitable purposes on behalf of each charitable organization exempt from taxation under Section 501(c)(3) of the Internal Revenue Code or for each charitable purpose during the accounting period, and shall include, among other data, the following information for funds solicited by the commercial fundraiser for charitable purposes:

(1) Total revenue.

(2) The fee or commission charged by the commercial fundraiser for charitable purposes.

(3) Salaries paid by the commercial fundraiser for charitable purposes to its officers and employees.

(4) Fundraising expenses.

(5) Distributions to the identified charitable organization or

purpose.

(6) The names and addresses of any director, officer, or employee of the commercial fundraiser for charitable purposes who is a director, officer, or employee of any charitable organization listed in the annual financial report.

(e) It shall be unlawful for any commercial fundraiser for charitable purposes to solicit funds in this state for charitable purposes unless the commercial fundraiser for charitable purposes has complied with the registration or annual renewal and financial reporting requirements of this article. Failure to comply with these registration or annual renewal and financial reporting requirements shall be grounds for injunction against solicitation in this state for charitable purposes and other civil remedies provided by law.

(f) A commercial fundraiser for charitable purposes is a constructive trustee for charitable purposes as to all funds collected pursuant to solicitation for charitable purposes and shall account to the Attorney General for all funds. A commercial fundraiser for charitable purposes is subject to the Attorney General's supervision and enforcement over charitable funds and assets to the same extent as a trustee for charitable purposes under this article.

This subdivision shall not apply to any person temporarily released under guard from the institution where he or she is confined.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

However, the director may, by public announcement, allow the use of gill or trammel nets in all, or any part, of the area of District 18 south of Point San Luis in San Luis Obispo County for a specified period if the director determines, on the basis of written findings, that the use of those nets will not result in any accidental take of sea otters. The director shall immediately rescind the authorization pursuant to this subdivision if the director determines that further use of those nets may result in the accidental entanglement or take of sea otters.

If the authorized monitor is not on board the fishing vessel, the fishing vessel operator and the authorized monitor shall make every effort to remain in radio contact if the radio equipment is made available to the monitor.

(3) To ensure the effectiveness of the monitor program, gill nets and trammel nets may be set or pulled only between one-half hour after sunrise and one-half hour before sunset.

(4) A permit may be revoked and canceled pursuant to Section 8681 for failure to comply with the department's notification and monitoring requirements.

(d) If the director determines that the use of gill or trammel nets is having an adverse impact on any population of any species of seabird, marine mammal, or fish, the director shall issue an order

prohibiting or restricting the use, method of use, size, or materials used in the construction of either or both types of those nets in all or any part of District 10 or 17, or in all or any part of District 18 north of a line extending due west from Point Conception in Santa Barbara County for a specified period. The order shall take effect no later than 48 hours after its issuance. The director shall hold a properly noticed public hearing in a place convenient to the affected area within one week of the effective date of the order to describe the action taken and shall take testimony as to the effect of the order and determine whether any modification of the order is necessary.

(f) This section does not apply to any gill net with meshes 3½ inches or less in length in any portion of District 18 between Yankee Point in Monterey County and Point Sal in Santa Barbara County.

(g) The department shall explore, as alternatives to the use of gill and trammel nets, what fishing gear and methods may be used to take California halibut in areas closed pursuant to this section. The department shall consider issuing experimental gear permits pursuant to Section 8606 for authorizing the use of the alternative fishing gear and methods in the California halibut fishery in those areas.

SEC. 5. Section 8753 of the Fish and Game Code is amended to read:

[Approved by Governor September 8, 1989 Filed with Secretary of State September 8, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 6074 of the Revenue and Taxation Code is amended to read:

6074. (a) When the board determines it is necessary for the efficient administration of this part, the board may, by written notice, require any person making sales to operators of catering trucks, operated out of that person's facility pursuant to Section 27792 of the Health and Safety Code, who resell the property in the regular course of his or her business, to obtain evidence that the operator is the holder of a valid seller's permit issued pursuant to Section 6067.

At any time as the board may specify in a written notice, but in no case more than three times in a calendar year, the board may require a person making sales to operators of catering trucks to submit to the board a listing of operators of catering trucks who purchase goods from that person. Each listing shall be provided to the board within 30 days after the date of the board's notice, and shall include the name and seller's permit number on file of each operator, or, for those operators who do not provide evidence of a valid seller's permit, the operator's name, address, and telephone number.

The board may also, by written notice, require a person making sales to operators of catering trucks to promptly notify the board if a newly purchasing operator does not provide to the person, within 30 days of the date of the first purchase, evidence of a valid seller's permit.

Persons required by written notice of the board to obtain evidence, or provide a listing or notification, who fail to comply, may be subject to a penalty not to exceed five hundred dollars ($500) for each failure.

(b) Persons making sales to operators of catering trucks who do not have valid seller's permits or whose permits have been revoked shall report and pay the tax on property as if the property were sold at retail at the time of the sale. Nothing in this section shall relieve any operator of a catering truck of his or her obligations as a seller under this part.

(c) If the board finds that a person's failure to comply with this section is due to reasonable cause and circumstances beyond the person's control, and occurred notwithstanding the exercise of ordinary care and the absence of willful neglect, the person may be relieved of the penalty imposed by this section.

Any person seeking to be relieved of the penalty shall file with the

board a statement under penalty of perjury setting forth the facts upon which he or she bases his or her claim for relief.

An act to repeal Section 18154 of the Health and Safety Code, relating to the mobilehomes, and making an appropriation therefor.

[Approved by Governor September 8, 1989. Filed with Secretary of State September 8, 1989]

I am deleting the $100,000 appropriation contained in Section 2 of Assembly Bill No 722.

This bill would delete the sunset date for the Mobilehome Ombudsman and appropriate $100,000 for the purposes of paying the costs of the duties ombudsman for the last 6 months of the 1989–90 fiscal year

The appropriation in this bill duplicates the appropriation in SB 81 (Craven, Chapter 189/89) and, therefore, is unnecessary.

With this deletion, I approve Assembly Bill No. 722.

CHAPTER 324

An act to amend Sections 56375 and 57200 of the Government Code, and to add Section 22613 to the Streets and Highways Code, relating to public improvements.

[Approved by Governor September 8, 1989 Filed with Secretary of State September 8, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 56375 of the Government Code is amended to read:

56375. The commission shall have all of the following powers and duties subject to any limitations upon its jurisdiction set forth in this part:

(a) To review and approve or disapprove with or without amendment, wholly, partially, or conditionally, proposals for changes of organization or reorganization. However, a commission shall not have the power to disapprove an annexation to a city, initiated by resolution, of contiguous territory which the commission finds is either:

(1) Surrounded or substantially surrounded by the city to which the annexation is proposed or by that city and a county boundary or the Pacific Ocean if the territory to be annexed is substantially developed or developing, is not prime agricultural land as defined in Section 56064, is designated for urban growth by the general plan of the annexing city, and is not within the sphere of influence of another city.

(2) (A) Located within an urban service area which has been delineated and adopted by a commission, which is not prime agricultural land, as defined by Section 56064, and is designated for urban growth by the general plan of the annexing city.

(B) As a condition to the annexation of an area, which is surrounded, or substantially surrounded, by the city to which the annexation is proposed, the commission may require, where consistent with the purposes of this division, that the annexation include the entire island of surrounded, or substantially surrounded, territory.

(C) A commission shall not impose any conditions which would directly regulate land use density or intensity, property development, or subdivision requirements. When the development purposes are not made known to the annexing city, the annexation shall be reviewed on the basis of the adopted plans and policies of the annexing city or county. This paragraph does not prohibit a commission from requiring, as a condition to annexation, that a city prezone the territory to be annexed. However, the commission shall not specify how, or in what manner, the territory shall be prezoned.

(b) With regard to a proposal for annexation or detachment of territory to, or from, a city or district or with regard to a proposal for reorganization which includes annexation or detachment, to determine whether territory proposed for annexation or detachment, as described in its resolution approving the annexation, detachment, or reorganization, is inhabited or uninhabited.

(c) With regard to a proposal for consolidation of two or more cities or districts, to determine which city or district shall be the consolidated, successor city or district.

(d) To approve the annexation to a city after notice and hearing, and authorize the conducting authority to order annexation of the territory without an election, if the commission finds that the territory contained in an annexation proposal meets all of the following requirements:

(1) It does not exceed 75 acres in area, that area constitutes the entire island, and the island does not constitute a part of an unincorporated area which is more than 100 acres in area.

(2) It is surrounded in either of the following ways:

(A) Surrounded, or substantially surrounded, by the city to which annexation is proposed or by the city and a county boundary or the Pacific Ocean.

(B) Surrounded by the city to which annexation is proposed and adjacent cities.

(3) It is substantially developed or developing. The finding required by this subparagraph shall be based upon one or more factors, including, but not limited to, any of the following factors:

(A) The availability of public utility services.

(B) The presence of public improvements.

(C) The presence of physical improvements upon the parcel or parcels within the area.

(4) It is not prime agricultural land, as defined by Section 56064.

(5) It will benefit from the annexation or is receiving benefits from the annexing city.

(e) To approve the annexation of unincorporated, noncontiguous territory, subject to the limitations of Section 56111, located in the same county as that in which the city is located, and which is owned by a city and used for municipal purposes and to authorize the conducting authority to annex the territory without notice and hearing.

(f) Subject to Section 56029, to designate in the resolution making determinations the conducting authority for proceedings.

(g) When a change of organization or a reorganization includes the annexation of inhabited territory to a city and the assessed value of land within the territory equals one-half or more of the assessed value of land within the city, or the number of registered voters residing within the territory equals one-half or more of the number of registered voters residing within the city, to determine as a condition of the proposal that the change of organization or reorganization shall also be subject to confirmation by the voters in an election to be called, held, and conducted within the territory of the city to which annexation is proposed.

(h) With respect to the incorporation of a new city or the formation of a new special district, to determine the number of registered voters residing within the proposed city or special district.

(i) To adopt procedures for the evaluation of proposals. The commission may adopt standards for any of the factors enumerated in Section 56841.

(j) To adopt standards and procedures for the evaluation of service plans submitted pursuant to Section 56653.

(k) To make and enforce regulations for the orderly and fair conduct of hearings by the commission.

(*l*) To incur usual and necessary expenses for the accomplishment of its functions.

(m) To appoint and assign staff personnel and to employ or contract for professional or consulting services to carry out and effect the functions of the commission.

(n) To review the boundaries of the territory involved in any proposal with respect to the definiteness and certainty of those boundaries, the nonconformance of proposed boundaries with lines of assessment or ownership, and other similar matters affecting the proposed boundaries.

(o) To waive the restrictions of Section 56109 if it finds that the

application of the restrictions would be detrimental to the orderly development of the community and that the area that would be enclosed by the annexation or incorporation is so located that it cannot reasonably be annexed to another city or incorporated as a new city.

(p) To waive the application of Section 25210.90 or Section 22613 of the Streets and Highways Code if it finds the application would deprive an area of a service needed to ensure the health, safety, or welfare of the residents of the area and if it finds that the waiver would not affect the ability of a city to provide any service. However, within 60 days of the inclusion of the territory within the city, the legislative body may adopt a resolution nullifying the waiver.

(q) If the proposal includes the incorporation of a city, as defined in Section 56043, or the formation of a district, as defined in Section 2215 of the Revenue and Taxation Code, the commission shall determine the property tax revenue to be exchanged by the affected local agencies pursuant to Section 56842.

SEC. 2. Section 57200 of the Government Code is amended to read:

57200. (a) Immediately after adoption of a resolution ordering a change of organization or reorganization without election or a resolution confirming an order for a change of organization or reorganization after confirmation by the voters, the clerk of the conducting authority shall transmit a certified copy of the resolution along with a remittance to cover the fees required by Section 54902.5 to the executive officer.

(b) The executive officer shall examine the resolution and determine whether it is in compliance with the boundaries, modifications, and conditions specified by the commission in its resolution making determinations.

(1) If the resolution ordering the change of organization or reorganization is determined not to be in compliance by the executive officer, the executive officer shall specify in writing the points of noncompliance and return the resolution to the conducting authority for modification.

(2) If the resolution ordering the change of organization or reorganization is determined to be in compliance by the executive officer, the executive officer shall prepare and execute a certificate of completion and shall make the filings required by this division.

(c) Whenever the commission approves the inclusion of any territory of a landscape and lighting assessment district within a city, the executive officer shall, upon receipt of the resolution specified in subdivision (a), notify the clerk of the landscape and lighting assessment district or other person designated by the district to receive notification.

SEC. 3. Section 22613 is added to the Streets and Highways Code, to read:

22613. (a) Whenever any territory of an assessment district is included within a city by annexation or incorporation, whether that

inclusion occurs before or after the completion of the formation of the assessment district, and the notification requirements of subdivision (c) of Section 57200 of the Government Code have been met, that territory is thereby excluded from the assessment district.

(b) Subdivision (c) of Section 99 of the Revenue and Taxation Code applies to alterations of territory pursuant to this section.

(c) If the assessment district has issued bonds or notes pursuant to Section 22662.5 and the bonds or notes are outstanding and owing on the date of the withdrawal, the property within any territory withdrawing from the district shall continue to be liable for assessment and payment of its pro rata share of the bonds or notes.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 325

An act to amend Section 14087.21 of the Welfare and Institutions Code, relating to public social services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 8, 1989 Filed with Secretary of State September 8, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 14087.21 of the Welfare and Institutions Code is amended to read:

14087.21. Commencing November 1, 1984, reimbursement to children's hospitals shall be on a basis that reflects the relative severity of pediatric diagnostic case types. For the purposes of this section, "children's hospital" means those hospitals where 30 percent of the infants and children served by the single institution qualify for Medi-Cal payment systems, and the institution serves primarily children.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Because procedures for negotiating contracts with children's hospitals require quantitative consideration of the current pediatric diagnostic group reimbursement methodology of the children's hospitals, and Medi-Cal eligible infants and children and children

eligible for the CCS program may be adversely affected, it is necessary that this act take effect immediately.

CHAPTER 326

An act to amend Sections 447.42 and 1460 of the Health and Safety Code and Section 14083 of the Welfare and Institutions Code, relating to nursing shortages.

[Approved by Governor September 8, 1989 Filed with Secretary of State September 8, 1989.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that:

(a) California is suffering one of the most serious shortages of registered nurses in the nation. While staff shortage problems plague all hospitals, the problem is most acute in county facilities, those 6 percent of the state's hospitals that provide almost 60 percent of all uncompensated inpatient care provided in this state and almost 40 percent of all inpatient Medi-Cal hospital services in this state.

(b) Statewide, the average registered nurse vacancy rate is 11 percent, while in county hospitals the average rate is 16 percent, with some facilities having a rate as high as 40 percent. Lower salaries and benefits offered, the location, and the demanding types of patients and services offered at county hospitals, have combined to increase the registered nurse vacancy rate in county hospitals.

(c) California's county hospitals have been forced to close critical care beds and other beds as a result of the shortage of qualified registered nurses to care for these patients. In Los Angeles, Alameda, San Francisco and other counties, the closure of beds has negatively impacted the availability of needed health care services for residents of these counties and has resulted in private facilities incurring unnecessary losses.

(d) The closure of inner city hospital beds, as a result of the nursing shortage, has also contributed to the weakening of an already fragile trauma care system. In particular, the closure of critical care beds and other specialty beds have placed undue strain on many counties' trauma care systems, incorporating both private and public facilities.

(e) The growing number of California residents without health insurance has placed increasing demands on county hospitals as principal providers of care to those with limited health care options. Declining physician participation in Medi-Cal has also increased the reliance of persons eligible for Medi-Cal on county facilities. As a result, private facilities report an average bed occupancy rate of 60 percent, while California's county hospitals average 77 percent, with some county facilities averaging as high as 90 percent. This high

demand for services accentuates nursing shortage problems and jeopardizes the continued availability of care to emergency patients and those with limited health care options.

(f) The recent report of the National Commission on Nursing specifically recommended not only a Medicare rate adjustment to address the nursing shortage, but also that a review of Medicaid payment policies was critical in order to address this intractable problem.

(g) Because many county hospitals are located in economically disadvantaged or medically underserved areas, it is difficult to recruit and retain nursing staff at these facilities. Therefore, these facilities deserve recognition as unique medically underserved areas.

SEC. 2. Section 447.42 of the Health and Safety Code is amended to read:

447.42. (a) There is hereby created the Registered Nurse Education Program within the Minority Health Professions Education Foundation. Persons participating in this program shall be either persons from demographically underrepresented groups or persons who agree in writing prior to graduation to serve in an eligible county health facility or a health manpower shortage area, as designated by the director of the Office of Statewide Health Planning and Development. Persons from demographically underrepresented groups may apply for awards to persons agreeing to serve in eligible county health facilities or health manpower shortage areas. The Registered Nurse Education Program shall be administered in accordance with Article 14 (commencing with Section 69795) of Chapter 2 of Part 42 of the Education Code, except that all funds in the Registered Nurse Education Fund shall be used only for the purpose of promoting the education of registered nurses and related administrative costs, and except that persons who apply for awards that require them to serve in an eligible county health facility or a health manpower shortage area may be, but are not required to be, persons from demographically underrepresented groups or persons from "underrepresented minority groups" as defined in subdivision (g) of Section 69795 of the Education Code. The Minority Health Professions Education Foundation shall make recommendations to the Director of the Office of Statewide Health Planning and Development concerning both the following:

(1) A standard contractual agreement to be signed by the director and any student who has received an award to work in an eligible county health facility or in a health manpower shortage area that would require a period of obligated professional service in the areas of California designated by the Health Manpower Policy Commission as deficient in primary care services. The obligated professional service shall be in direct patient care. The agreement shall include a clause entitling the state to recover the funds awarded plus the maximum allowable interest for failure to begin or complete the service obligation.

(2) Maximum allowable amounts for scholarships, educational

loans, and loan repayment programs in order to assure the most effective use of these funds.

(b) Applicants may be persons licensed as registered nurses or graduates of associate degree nursing programs prior to entering a program granting a baccalaureate of science of nursing. Priority shall be given to applicants who hold associate degrees in nursing.

(c) Not more than 5 percent of the funds available under the Registered Nurse Education Program shall be available for a pilot project designed to test whether it is possible to encourage articulation from associate degree nursing programs to baccalaureate of science of nursing programs. Persons who otherwise meet the standards of subdivision (a) shall be eligible for educational loans when they are enrolled in associate degree nursing programs. If these persons complete a baccalaureate of science of nursing program in California within five years of obtaining an associate degree in nursing and meet the standards of this article, these loans shall be completely forgiven.

(d) As used in this section, "eligible county health facility" means a county health facility that has been determined by the Office of Statewide Health Planning and Development to have a nursing vacancy rate greater than noncounty health facilities located in the same health facility planning area.

SEC. 3. Section 1460 of the Health and Safety Code is amended to read:

1460. (a) Upon a determination and establishment of the need to recruit and retain registered nurses, licensed vocational nurses, X-ray technicians, laboratory technologists, and other health care professionals, the board of supervisors of a county may establish nursing or health care professional scholarships. For purposes of this section, "health care professional" shall not include a physician and surgeon.

(b) The board of supervisors, or a designee of the board, shall administer the scholarship program for students participating in a nurse or health care professional training program and shall adopt such rules and regulations as are reasonably necessary to carry out the provisions of this section.

(c) Scholarships made pursuant to this section, shall be repayable to the board of supervisors or canceled under the following conditions:

(1) A graduate nurse or health care professional who maintains employment in a county-operated health facility for less than one year after becoming licensed shall repay the scholarship in addition to accrued interest charges. The scholarships shall be repayable to the board of supervisors under the terms specified in the agreement.

(2) The total amount of the scholarship and all accrued interest shall be canceled for a graduate nurse or graduate health care professional who maintains employment in a county-operated facility for more than a year from the date of licensure and may be canceled under any other conditions established by rules and

regulations adopted by the board of supervisors. For the purposes of this section, one year of employment in a county-operated health facility shall be deemed to have lapsed one year from the date the licensed nurse or health care professional presents proof, in writing, to the board of supervisors, or designee of the board, that he or she is licensed and is employed in a county-operated health facility.

(d) In addition to the principal amount of the scholarship, interest shall accrue on the principal at a rate to be established by the board of supervisors. Interest shall accrue from the date the scholarship is made until it is repaid unless the scholarship is canceled pursuant to paragraph (2) of subdivision (c).

SEC. 4. Section 14083 of the Welfare and Institutions Code, as amended by Chapter 8 of the Statutes of 1989, is amended to read:

14083. The factors to be considered by the negotiator in negotiating contracts under this article, or in drawing specifications for competitive bidding, include, but are not limited to, all of the following:

(a) Beneficiary access.

(b) Utilization controls.

(c) Ability to render quality services efficiently and economically.

(d) Demonstrated ability to provide or arrange needed specialized services.

(e) Protection against fraud and abuse.

(f) Any other factor which would reduce costs, promote access, or enhance the quality of care.

(g) The capacity to provide a given tertiary service, such as specialized children's services, on a regional basis.

(h) Recognition of the variations in severity of illness and complexity of care.

(i) Existing labor-management collective bargaining agreements.

(j) The situation of county hospitals and university medical centers contracting with counties for provision of health care to indigent persons entitled to care under Section 17000, which are burdened to a greater extent than private hospitals with bad debts, indirect costs, medical education programs, and capital needs.

(k) The special circumstances of hospitals serving a disproportionate number of Medi-Cal beneficiaries and patients who are not covered by other third-party payers, including the costs associated with assuring an adequate supply of registered nurses.

(*l*) The costs of providing complex emergency services, including the costs of meeting and maintaining state and local requirements for trauma center designation.

(m) The hospital does any of the following:

(1) Provides additional obstetrical beds.

(2) Contracts with one or more comprehensive perinatal providers.

(3) Permits certified nurse midwives, subject to hospital rules, and consistent with existing laws and regulations, to admit patients to the health facility.

(4) Expands overall obstetrical services in the hospital.

CHAPTER 327

An act to amend Sections 24612, 24612.5, and 24615 of the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor September 8, 1989 Filed with Secretary of State September 8, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 24612 of the Education Code is amended to read:

24612. The first check to a retirant or option beneficiary shall be paid within 45 days of the effective date of retirement, the date of death of the member or retirant, or from the date of receipt of the retirement application, whichever is later. Monthly checks shall continue thereafter. Initial checks may be based on a good faith estimated amount pending receipt by the system of all the necessary employment and dependent information.

The retirant or option beneficiary will be placed on the final roll and paid a retroactive check, if one is due, within 45 days of receipt by the system of all the necessary information.

SEC. 2. Section 24612.5 of the Education Code is amended to read:

24612.5. The system shall pay the retirant, option beneficiary, disabilitant, beneficiary, or estate interest for delays in excess of the allowable days listed in Sections 24612 to 24612.2, inclusive. The interest rate for late payments shall be the regular interest rate. The interest payments are deemed to be interest earned in the year in which they are paid. All interest payments under this section shall be in addition to the credited interest that is paid.

SEC. 3. Section 24615 of the Education Code is amended to read:

24615. The board may establish a special account and procedures to pay, on an emergency basis, allowances, death payments, and up to 75 percent of the return of the balance of the accumulated retirement contributions as a result of termination of employment or death. Disbursements under the special account shall be by checks issued by the system and subject to the auditing requirements of the Controller. Payments under the special account shall be deducted from allowances, death benefits, and payment of accumulated retirement contributions, otherwise due.

CHAPTER 328

An act to amend Section 10145 of the Business and Professions Code, and to amend Section 12413.5 of the Insurance Code, relating to escrow.

[Approved by Governor September 8, 1989. Filed with Secretary of State September 8, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 10145 of the Business and Professions Code is amended to read:

10145. (a) A real estate broker who accepts funds belonging to others in connection with any transaction subject to this part shall deposit all such funds which are not immediately placed into a neutral escrow depository or into the hands of the broker's principal, into a trust fund account maintained by the broker in a bank or recognized depository in this state. All funds deposited by the broker in a trust fund account shall be maintained there until disbursed by the broker in accordance with instructions from the person entitled to the funds.

(b) A real estate broker acting as a principal pursuant to Section 10131.1 or Article 6 (commencing with Section 10237) of this part shall place all funds received from others for the purchase of real property sales contracts or promissory notes secured directly or collaterally by liens on real property in a neutral escrow depository unless delivery of the contract or note is made simultaneously with the receipt of the purchase funds.

(c) A real estate sales person who accepts trust funds from others on behalf of the broker under whom he or she is licensed, shall immediately deliver the funds to the broker or, if so directed by the broker, shall place the funds into the hands of the broker's principal, into a neutral escrow depository, or shall deposit the funds into the broker's trust fund account.

(d) If not otherwise expressly prohibited by a provision of this part, a real estate broker may, at the request of the owner of trust funds or of the principals to a transaction or series of transactions from whom the broker has received trust funds, deposit the funds into an interest-bearing account in a bank, savings and loan association, credit union, or industrial loan company whose accounts are insured by the Federal Deposit Insurance Corporation, if all of the following requirements are met:

(1) The account is in the name of the broker as trustee for the specified beneficiary or specified principal of a transaction or series of transactions.

(2) All of the funds in the account are covered by insurance provided by an agency of the federal government.

(3) The funds in the account are kept separate, distinct, and apart

from funds belonging to the broker or to any other person for whom the broker holds funds in trust.

(4) The broker discloses to the person from whom the trust funds are received and to any beneficiary whose identity is known to the broker at the time of establishing the account the nature of the account, how interest will be calculated and paid under various circumstances, whether service charges will be paid to the depository and by whom, and possible notice requirements or penalties for withdrawal of funds from the account.

(5) No interest earned on funds in the account shall inure directly or indirectly to the benefit of the broker nor to any person licensed to the broker.

(6) In an executory sale, lease, or loan transaction in which the broker accepts funds in trust to be applied to the purchase, lease, or loan, the parties to the contract shall have specified in the contract or by collateral written agreement the person to whom interest earned on the funds is to be paid or credited.

(e) The broker shall have no obligation to place trust funds into an interest-bearing account unless requested to do so and unless all of the conditions in subdivision (d) are met; nor, in any event, if he or she advises the party making the request that the funds will not be placed in an interest-bearing account.

(f) Nothing in subdivision (d) shall preclude the commissioner from prescribing by regulation circumstances in which and conditions under which a real estate broker is authorized to deposit funds received in trust into an interest-bearing trust fund account.

(g) The broker shall maintain a separate record of the receipt and disposition of all funds described in subdivisions (a) and (b), including any interest earned on the funds.

(h) Upon request of the commissioner, a broker shall furnish to the commissioner an authorization for examination of financial records of any such trust fund accounts maintained in a financial institution, in accordance with the procedures set forth in Section 7473 of the Government Code.

(i) As used in this section "neutral escrow" means an escrow business conducted by a person licensed under Division 6 (commencing with Section 17000) of the Financial Code or by any person described in subdivision (a) of Section 17006 and subdivision (c) of Section 17006 of that code.

SEC. 2. Section 12413.5 of the Insurance Code is amended to read:

The funds shall not be subject to any debts of the title insurance company, controlled escrow company, or underwritten title company and shall be used only to fulfill the terms of the individual escrow for which the funds were accepted and none of the funds shall be utilized until the conditions of the escrow have been met.

Any interest received on funds deposited in connection with any escrow which are deposited in a bank, savings and loan association, or industrial loan company shall be paid over by the escrow to the depositing party to the escrow unless the escrow is otherwise instructed by the depositing party, and shall not be transferred to the account of the title insurance company, controlled escrow company, or underwritten title company.

CHAPTER 329

An act to add Section 14041.5 to the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 8, 1989 Filed with Secretary of State September 8, 1989]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds that delays in processing claims for payment under Medi-Cal are discouraging many providers from participating in the Medi-Cal program.

(b) The Legislature further finds that limited provider participation in the Medi-Cal program limits access to medically necessary health care services by many individuals and contributes to uncompensated care problems of health care providers and the overburdening of county hospitals and health programs.

(c) The Legislature further finds that claims processing and provider participation in the provision of Medi-Cal services could be significantly improved by the availability of interactive claims processing software for use by individual providers and billing services and the encouragement of electronic billing to reduce or eliminate common billing errors that result in claims being subjected to manual review.

SEC. 2. Section 14041.5 is added to the Welfare and Institutions Code, to read:

14041.5. (a) The department shall develop, disseminate, and update, on a periodic basis, claims preparation and processing software programs that may be used on computers at individual provider or billing service sites. The software shall be made available, to the extent feasible, for the most common computers used in the provider community for use, on an optional basis, by clerical or

billing personnel to facilitate the preparation and submission of Medi-Cal claims for services rendered.

(b) The software programs specified in subdivision (a) shall, to the extent possible:

(1) Contain all necessary validity edits utilized by the fiscal intermediary.

(2) Be designed to reasonably reduce common submission and billing errors.

(3) Contain features which provide options for the provider to use provider-developed files to reduce data entry requirements and improve reporting accuracy.

(4) Provide, at the provider's discretion, for the electronic or paper transmission of claims to the Medi-Cal fiscal intermediary.

(c) The department shall consult with affected provider groups prior to developing, disseminating, and updating claims preparation and processing software pursuant to this section.

(d) The department shall report to the Chairpersons of the Senate Health and Human Services Committee and Assembly Health Committee by April 1, 1990, on a plan and timetable for implementing this section. The plan and timetable shall identify provider groups for which the department plans to develop, disseminate, and update claims preparation and processing software.

(e) Notwithstanding the plan and timetable required by subdivision (d), the department shall develop and begin disseminating claims processing software programs to physician providers no later than January 1, 1991.

(f) The department shall, as part of implementing this section, provide technical assistance to providers, including, but not limited to, a user hotline and appropriate training materials. These materials shall cover the installation of the programs, use of the software to enter Medi-Cal claims data, and submission procedures.

(g) The software programs for the submission of Medi-Cal claims shall be made available to all interested parties for a reasonable initial fee, plus an annual subscription fee for updates, maintenance, and support provided to users. Fees shall be set so as to recover, as nearly as possible, the development, distribution, and ongoing support costs of software programs, instructional materials, or subsequent updates.

(h) Third-party vendors may obtain and enhance these programs for resale and provisions of value-added services to Medi-Cal providers. However, the state or any of its officials, employees, or agents shall bear no liability for software provided through any third party that has been altered or misused by any third party.

(i) Neither the state nor any of its officials, employees, or agents shall be responsible for any of the following:

(1) A provider's failure to meet Medi-Cal documentation and billing requirements, including timely billing pursuant to Section 14115.

(2) Alteration or misuse of the software in the submission of claims to the Medi-Cal program.

(3) Use of the software for any purpose other than the submission of claims to the Medi-Cal program.

(4) This subdivision shall not apply to any failure to meet Medi-Cal documentation and billing requirements which is substantiated as resulting from the use of software which is directly provided by the department and which contains proven flaws or defects which significantly contribute to the failure to meet those requirements.

(j) A provider or third party's eligibility to bill claims electronically by using software programs made available pursuant to this section shall be governed by Section 14040 and Section 14040.5, and any rules and regulations adopted by the director pursuant to these sections.

(k) The department shall report to the Legislature, on January 1, 1992, and January 1, 1993, on the response of the provider community, the participation of providers in this process, the volume of claims for participating providers, and error rates for participating and nonparticipating providers.

CHAPTER 330

An act to add Section 7104 to the Public Contract Code, relating to public works.

[Approved by Governor September 8, 1989 Filed with Secretary of State September 8, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 7104 is added to the Public Contract Code, to read:

7104. Any public works contract of a local public entity which involves digging trenches or other excavations that extend deeper than four feet below the surface shall contain a clause which provides the following:

(a) That the contractor shall promptly, and before the following conditions are disturbed, notify the public entity, in writing, of any:

(1) Material that the contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

(2) Subsurface or latent physical conditions at the site differing from those indicated.

(3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the contract.

(b) That the public entity shall promptly investigate the

conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the contractor's cost of, or the time required for, performance of any part of the work shall issue a change order under the procedures described in the contract.

(c) That, in the event that a dispute arises between the public entity and the contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the contractor's cost of, or time required for, performance of any part of the work, the contractor shall not be excused from any scheduled completion date provided for by the contract, but shall proceed with all work to be performed under the contract. The contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties.

CHAPTER 331

An act to amend Section 22651 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 8, 1989. Filed with Secretary of State September 11, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 22651 of the Vehicle Code is amended to read:

22651. Any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code; or any regularly employed and salaried employee, who is engaged in directing traffic or enforcing parking laws and regulations, of a city or a county in which a vehicle is located, may remove a vehicle located within the territorial limits in which the officer or employee may act, under any of the following circumstances:

(a) When any vehicle is left unattended upon any bridge, viaduct, or causeway or in any tube or tunnel where the vehicle constitutes an obstruction to traffic

(b) When any vehicle is parked or left standing upon a highway in a position so as to obstruct the normal movement of traffic or in a condition so as to create a hazard to other traffic upon the highway.

(c) When any vehicle is found upon a highway or any public lands and a report has previously been made that the vehicle has been stolen or a complaint has been filed and a warrant thereon issued charging that the vehicle has been embezzled.

(d) When any vehicle is illegally parked so as to block the entrance to a private driveway and it is impractical to move the vehicle from in front of the driveway to another point on the

highway.

(e) When any vehicle is illegally parked so as to prevent access by firefighting equipment to a fire hydrant and it is impracticable to move the vehicle from in front of the fire hydrant to another point on the highway.

(f) When any vehicle, except any highway maintenance or construction equipment, is stopped, parked, or left standing for more than four hours upon the right-of-way of any freeway which has full control of access and no crossings at grade and the driver, if present, cannot move the vehicle under its own power.

(g) When the person or persons in charge of a vehicle upon a highway or any public lands are, by reason of physical injuries or illness, incapacitated to an extent so as to be unable to provide for its custody or removal.

(h) When an officer arrests any person driving or in control of a vehicle for an alleged offense and the officer is, by this code or other law, required or permitted to take, and does take, the person into custody.

(i) (1) When any vehicle, other than a rented vehicle, is found upon a highway or any public lands and it is known to have been issued five or more notices of parking violation over a period of five or more days, to which the owner or person in control of the vehicle has not responded to the agency responsible for processing notices of parking violations, the vehicle may be impounded until that person furnishes to the impounding law enforcement agency evidence of his or her identity and an address within this state at which he or she can be located and satisfactory evidence that bail has been deposited for all notices of parking violation issued for the vehicle. A notice of parking violation issued for an unlawfully parked vehicle shall be accompanied by a warning that repeated violations may result in the impounding of the vehicle. In lieu of requiring satisfactory evidence that the bail has been deposited, the impounding law enforcement agency may, in its discretion, issue a notice to appear for the offenses charged, as provided in Article 2 (commencing with Section 40500) of Chapter 2 of Division 17. In lieu of either furnishing satisfactory evidence that the bail has been deposited or accepting the notice to appear, that person may demand to be taken without unnecessary delay before a magistrate within the county in which the offenses charged are alleged to have been committed and who has jurisdiction of the offenses and is nearest or most accessible with reference to the place where the vehicle is impounded. Evidence of current registration shall be produced after a vehicle has been impounded or a notice to appear for violation of subdivision (a) of Section 4000 shall be issued to that person.

(2) A vehicle shall be released to the legal owner, as defined in Section 370, if the legal owner does all of the following:

(A) Pays the cost of towing and storing the vehicle.

(B) Submits evidence of payment of fees as provided in Section

9561.

(C) Completes an affidavit in a form acceptable to the impounding law enforcement agency stating that the vehicle was not in possession of the legal owner at the time of occurrence of the offenses relating to standing or parking. A vehicle released to a legal owner under this subdivision is a repossessed vehicle for purposes of disposition or sale. The impounding agency shall have a lien on any surplus that remains upon sale of the vehicle to which the registered owner is or may be entitled, as security for the deposit of bail for all notices of parking violations issued for the vehicle. The legal owner shall promptly remit to, and deposit with, the agency responsible for processing notices of parking violations from that surplus, on receipt thereof, bail for all notices of parking violations issued for the vehicle.

(j) When any vehicle is found illegally parked and there are no license plates or other evidence of registration displayed, the vehicle may be impounded until the owner or person in control of the vehicle furnishes the impounding law enforcement agency evidence of his or her identity and an address within this state at which he or she can be located.

(k) When any vehicle is parked or left standing upon a highway for 72 or more consecutive hours in violation of a local ordinance authorizing removal.

(*l*) When any vehicle is illegally parked on a highway in violation of any local ordinance forbidding standing or parking and the use of a highway, or a portion thereof, is necessary for the cleaning, repair, or construction of the highway, or for the installation of underground utilities, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by local authorities pursuant to the ordinance.

(m) Wherever the use of the highway, or any portion thereof, is authorized by local authorities for a purpose other than the normal flow of traffic or for the movement of equipment, articles, or structures of unusual size, and the parking of any vehicle would prohibit or interfere with that use or movement, and signs giving notice that the vehicle may be removed are erected or placed at least 24 hours prior to the removal by local authorities pursuant to the ordinance.

(n) Whenever any vehicle is parked or left standing where local authorities, by resolution or ordinance, have prohibited parking and have authorized the removal of vehicles. No vehicle may be removed unless signs are posted giving notice of the removal.

(o) (1) When any vehicle is found upon a highway, any public lands, or an offstreet parking facility with a registration expiration date in excess of one year before the date it is found on the highway, public lands, or the offstreet parking facility. However, if the vehicle is occupied, only a peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may remove the vehicle. For purposes of this subdivision, the vehicle shall be released to the owner or person in control of the vehicle only

after the owner or person furnishes the storing law enforcement agency with proof of current registration and a currently valid driver's license to operate the vehicle.

(2) As used in this subdivision, "offstreet parking facility" means any offstreet facility held open for use by the public for parking vehicles and includes any publicly owned facilities for offstreet parking, and privately owned facilities for offstreet parking where no fee is charged for the privilege to park and which are held open for the common public use of retail customers.

(p) When the peace officer issues the driver of a vehicle a notice to appear for a violation of Section 12500, 14601, 14601.1, or 14601.2 and there is no passenger in the vehicle who has a valid driver's license and authorization to operate the vehicle. Any vehicle so removed from the highway or any public lands shall not be released to the registered owner or his or her agent, except upon presentation of the registered owner's or his or her agent's currently valid driver's license to operate the vehicle and proof of current vehicle registration, or upon order of a court.

(q) Whenever any vehicle is parked for more than 24 hours on a portion of highway which is located within the boundaries of a common interest development, as defined in subdivision (c) of Section 1351 of the Civil Code, and signs, as required by Section 22658.2, have been posted on that portion of highway providing notice to drivers that vehicles parked thereon for more than 24 hours will be removed at the owner's expense, pursuant to a resolution or ordinance adopted by the local authority.

(r) When any vehicle is illegally parked and blocks the movement of a legally parked vehicle.

CHAPTER 332

An act to amend Section 1596.853 of the Health and Safety Code, relating to child day care.

[Approved by Governor September 8, 1989 Filed with Secretary of State September 11, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 1596.853 of the Health and Safety Code is amended to read:

1596.853. (a) Any person may request an inspection of any child day care facility in accordance with the California Child Day Care Facilities Act by transmitting to the department notice of an alleged violation of applicable requirements prescribed by the statutes or regulations of this state. A complaint may be made either orally or in writing.

(b) The substance of the complaint shall be provided to the

licensee no earlier than at the time of the inspection. Unless the complainant specifically requests otherwise, neither the substance of the complaint provided the licensee nor any copy of the complaint or any record published, released, or otherwise made available to the licensee shall disclose the name of any person mentioned in the complaint, except the name of any duly authorized officer, employee, or agent of the department conducting the investigation or inspection pursuant to this chapter.

(c) Upon receipt of a complaint, the department shall make a preliminary review and, unless the department determines that the complaint is willfully intended to harass a licensee or is without any reasonable basis, the department shall make an onsite inspection within 10 days after receiving the complaint, except where the visit would adversely affect the licensing investigation or the investigation of other agencies, including, but not limited to, law enforcement agencies. In either event, the complainant shall be promptly informed of the department's proposed course of action.

If the department determines that the complaint is without a reasonable basis, then the complaint shall be marked confidential and shall not be disclosed to the public. The child-care provider shall be notified in writing within 30 days of the dismissal that the complaint has been dismissed.

(d) (1) Upon issuance of a license for a child day care facility or upon denial, revocation, or temporary suspension of a license or within 24 hours of a finding that physical abuse or sexual abuse has occurred, the department shall notify the resource and referral agency funded under Section 8210 of the Education Code for that jurisdiction.

The resource and referral agency shall be notified of the final resolution.

(2) With the exception of parents seeking local day care service, any other entity specified in subdivision (b) of Section 1596.86 may request that the department provide the notification described in paragraph (1).

(e) When the department substantiates an allegation which it deems to be serious, in a facility funded by the Child Development Division of the State Department of Education pursuant to Chapter 2 (commencing with Section 8200) of Part 6 of the Education Code it shall notify the Child Development Division.

CHAPTER 333

An act to amend Section 1317 of the Health and Safety Code, relating to health facilities.

[Approved by Governor September 8, 1989. Filed with Secretary of State September 11, 1989]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares that it is necessary and appropriate to grant licensed clinical psychologists immunity from liability for refusal to provide emergency services offered within their authorized scope of practice in licensed health facilities.

(b) The immunity granted by this bill shall not be construed to affect the scope of licensure of any health care professional.

SEC. 2. Section 1317 of the Health and Safety Code is amended to read:

1317. (a) Emergency services and care shall be provided to any person requesting the services or care, or for whom services or care is requested, for any condition in which the person is in danger of loss of life, or serious injury or illness, at any health facility licensed under this chapter that maintains and operates an emergency department to provide emergency services to the public when the health facility has appropriate facilities and qualified personnel available to provide the services or care.

(b) In no event shall the provision of emergency services and care be based upon, or affected by, the person's race, ethnicity, religion, national origin, citizenship, age, sex, preexisting medical condition, physical or mental handicap, insurance status, economic status, or ability to pay for medical services, except to the extent that a circumstance such as age, sex, preexisting medical condition, or physical or mental handicap is medically significant to the provision of appropriate medical care to the patient.

(c) Neither the health facility, its employees, nor any physician and surgeon, dentist, clinical psychologist, or podiatrist shall be liable in any action arising out of a refusal to render emergency services or care if the refusal is based on the determination, exercising reasonable care, that the person is not suffering from an emergency medical condition, or that the health facility does not have the appropriate facilities or qualified personnel available to render those services.

(d) Emergency services and care shall be rendered without first questioning the patient or any other person as to his or her ability to pay therefor. However, the patient or his or her legally responsible relative or guardian shall execute an agreement to pay therefor or otherwise supply insurance or credit information promptly after the services are rendered.

(e) If a health facility subject to this chapter does not maintain an emergency department, its employees shall nevertheless exercise reasonable care to determine whether an emergency exists and shall direct the persons seeking emergency care to a nearby facility which can render the needed services, and shall assist the persons seeking emergency care in obtaining the services, including transportation services, in every way reasonable under the circumstances.

(f) No act or omission of any rescue team established by any health facility licensed under this chapter, or operated by the federal or state government, a county, or by the Regents of the University of California, done or omitted while attempting to resuscitate any person who is in immediate danger of loss of life shall impose any liability upon the health facility, the officers, members of the staff, nurses, or employees of the health facility, including, but not limited to, the members of the rescue team, or upon the federal or state government or a county, if good faith is exercised.

(g) "Rescue team," as used in this section, means a special group of physicians and surgeons, nurses, and employees of a health facility who have been trained in cardiopulmonary resuscitation and have been designated by the health facility to attempt, in cases of emergency, to resuscitate persons who are in immediate danger of loss of life.

(h) This section shall not relieve a health facility of any duty otherwise imposed by law upon the health facility for the designation and training of members of a rescue team or for the provision or maintenance of equipment to be used by a rescue team.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 334

An act to amend Section 5056 of, and to repeal Section 5057 of, the Business and Professions Code, relating to accountancy.

[Approved by Governor September 8, 1989. Filed with Secretary of State September 11, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 5056 of the Business and Professions Code is amended to read:

5056. Any person who has received from the board a certificate of public accountant and holds a valid permit to practice under this chapter shall be styled and known as a "public accountant" and may also use the abbreviation "P.A." No other person, except a partnership registered under Article 4 (commencing at Section 5070) or the holder of a certificate of certified public accountant issued by the board shall assume or use that title, designation, or abbreviation or any other title, designation, sign, card or device tending to indicate that the person using it is a public accountant.

SEC. 2. Section 5057 of the Business and Professions is repealed.

CHAPTER 335

An act to amend Section 1808.4 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 8, 1989. Filed with Secretary of State September 11, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1808.4 of the Vehicle Code is amended to read:

1808.4. The home address of the Attorney General, the State Public Defender, any Member of the Legislature, judge or court commissioner, or the spouse or children of a judge or commissioner, whether living with that person or not, district attorney, public defender, any attorney employed by the Department of Justice, office of the State Public Defender, or a county office of the district attorney or public defender, or a peace officer as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code or the spouse or children of a peace officer, whether living with the peace officer or not, or any employee of the Department of Corrections, the Department of the Youth Authority, or the Prison Industry Authority specified in Section 20017.77 and 20017.79 of the Government Code or the spouse or children of those employees,

whether living with those employees or not, appearing in any record of the department is confidential if the person requests confidentiality of that information, and shall not be disclosed to any person, except a court, a law enforcement agency, the State Board of Equalization, or any governmental agency to which, under any provision of law, information is required to be furnished from records maintained by the department. Any record of the department containing a confidential home address shall be open to public inspection, as provided in Section 1808, if the address is completely obliterated or otherwise removed from the record. The home address shall be withheld from public inspection for three years following termination of office or employment. The department shall inform any person who requests a confidential home address what agency the individual whose address was requested is employed by or the court at which the judge or court commissioner presides.

CHAPTER 336

An act to add Sections 809, 809.05, 809.1, 809.2, 809.3, 809.4, 809.5, 809.6, 809.7, 809.8, and 809.9 to the Business and Professions Code, relating to healing arts practitioners, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 8, 1989 Filed with Secretary of State September 11, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 809 is added to the Business and Professions Code, to read:

809. (a) The Legislature hereby finds and declares the following:

(1) In 1986, Congress enacted the Health Care Quality Improvement Act of 1986 (Chapter 117 (commencing with Section 11101) Title 42, United States Code), to encourage physicians to engage in effective professional peer review, but giving each state the opporunity to "opt-out" of some of the provisions of the federal act.

(2) Because of deficiencies in the federal act and the possible adverse interpretations by the courts of the federal act, it is preferable for California to "opt-out" of the federal act and design its own peer review system.

(3) Peer review, fairly conducted, is essential to preserving the highest standards of medical practice.

(4) Peer review which is not conducted fairly results in harm both to patients and healing arts practitioners by limiting access to care.

(5) Peer review, fairly conducted, will aid the appropriate state licensing boards in their responsibility to regulate and discipline

errant healing arts practitioners.

(6) To protect the health and welfare of the people of California, it is the policy of the State of California to exclude, through the peer review mechanism as provided for by California law, those healing arts practitioners who provide substandard care or who engage in professional misconduct, regardless of the effect of that exclusion on competition.

(7) It is the intent of the Legislature that peer review of professional health care services be done efficiently, on an ongoing basis, with an emphasis on early detection of potential quality problems and resolutions through informal educational interventions.

(8) Sections 809 to 809.8, inclusive, shall not affect the respective responsibilities of the organized medical staff or the governing body of an acute care hospital with respect to peer review in the acute care hospital setting. It is the intent of the Legislature that written provisions implementing Sections 809 to 809.8, inclusive, in the acute care hospital setting shall be included in medical staff bylaws which shall be adopted by a vote of the members of the organized medical staff and which shall be subject to governing body approval, which approval shall not be withheld unreasonably.

(9) (A) The Legislature thus finds and declares that the laws of this state pertaining to the peer review of healing arts practitioners shall apply in lieu of Chapter 117 (commencing with Section 11101) of Title 42 of the United States Code, because the laws of this state provide a more careful articulation of the protections for both those undertaking peer review activity and those subject to review, and better integrates public and private systems of peer review. Therefore, California exercises its right to opt out of specified provisions of the Health Care Quality Improvement Act relating to professional review actions, pursuant to subparagraph (B) of paragraph (2) of subdivision (c) of Section 11111 of Chapter 117 of Title 42 of the United States Code. This election shall not affect the availability of any immunity under California law.

(B) The Legislature further declares that it is not the intent or purposes of Sections 809 to 809.8, inclusive, to opt out of any mandatory national data bank established pursuant to Subchapter II (commencing with Section 11131) of Chapter 117 of Title 42 of the United States Code.

(b) For the purpose of this section and Sections 809.1 to 809.8, inclusive, "healing arts practitioner" or "licentiate" means a physician and surgeon, podiatrist, clinical psychologist, or dentist; and "peer review body" means a peer review body as specified in paragraph (1) of subdivision (a) of Section 805, and includes any designee of the peer review body.

SEC. 1.5. Section 809.05 is added to the Business and Professions Code, to read:

809.05. It is the policy of this state that peer review be performed by licentiates. Only licentiates who possess the same, or similar

education, training, and experience have the requisite expertise to ensure an efficacious, fair, and responsive peer review system. This policy is subject to the following limitations:

(a) The governing bodies of acute care hospitals have a legitimate function in the peer review process. In all peer review matters, the governing body shall give great weight to the actions of peer review bodies and, in no event, shall act in an arbitrary or capricious manner.

(b) In those instances in which the peer review body's failure to investigate, or initiate disciplinary action, is contrary to the weight of the evidence, the governing body shall have the authority to direct the peer review body to initiate an investigation or a disciplinary action, but only after consultation with the peer review body. No such action shall be taken in an unreasonable manner.

(c) In the event the peer review body fails to take action in response to a direction from the governing body, the governing body shall have the authority to take action against a licentiate. Such action shall only be taken after written notice to the peer review body and shall fully comply with the procedures and rules applicable to peer review proceedings established by Sections 809.1 to 809.6, inclusive.

(d) A governing body and the medical staff shall act exclusively in the interest of maintaining and enhancing quality patient care.

SEC. 2. Section 809.1 is added to the Business and Professions Code, to read:

809.1. (a) A licentiate who is the subject of a final proposed action of a peer review body for which a report is required to be filed under Section 805 shall be entitled to written notice as set forth in subdivisions (b) and (c). For the purposes of this section, the "final proposed action" shall be the final decision or recommendation of the peer review body after informal investigatory activity or prehearing meetings, if any.

(b) The peer review body shall give the licentiate written notice of the final proposed action. This notice shall include all the following information:

(1) That an action against the licentiate has been proposed by the peer review body which, if adopted, shall be taken and reported pursuant to Section 805.

(2) The final proposed action.

(3) That the licentiate has the right to request a hearing on the final proposed action.

(4) The time limit, within which to request such a hearing.

(c) If a hearing is requested on a timely basis, the peer review body shall give the licentiate a written notice stating all of the following:

(1) The reasons for the final proposed action taken or recommended, including the acts or omissions with which the licentiate is charged.

(2) The place, time, and date of the hearing.

SEC. 3. Section 809.2 is added to the Business and Professions Code, to read:

809.2. If a licentiate timely requests a hearing concerning a final proposed action for which a report is required to be filed under Section 805, the following shall apply:

(a) The hearing shall be held, as determined by the peer review body, before a trier of fact, which shall be an arbitrator or arbitrators selected by a process mutually acceptable to the licentiate and the peer review body, or before a panel of unbiased individuals who shall gain no direct financial benefit from the outcome, who have not acted as an accuser, investigator, factfinder, or initial decisionmaker in the same matter, and which shall include, where feasible, an individual practicing the same specialty as the licentiate.

(b) If a hearing officer is selected to preside at a hearing held before a panel, the hearing officer shall gain no direct financial benefit from the outcome, shall not act as a prosecuting officer or advocate, and shall not be entitled to vote.

(c) The licentiate shall have the right to a reasonable opportunity to voir dire the panel members and any hearing officer, and the right to challenge the impartiality of any member or hearing officer. Challenges to the impartiality of any member or hearing officer shall be ruled on by the presiding officer, who shall be the hearing officer if one has been selected.

(d) The licentiate shall have the right to inspect and copy at the licentiate's expense any documentary information relevant to the charges which the peer review body has in its possession or under its control, as soon as practicable after the receipt of the licentiate's request for a hearing. The peer review body shall have the right to inspect and copy at the peer review body's expense any documentary information relevant to the charges which the licentiate has in his or her possession or control as soon as practicable after receipt of the peer review body's request. The failure by either party to provide access to this information at least 30 days before the hearing shall constitute good cause for a continuance. The right to inspect and copy by either party does not extend to confidential information referring solely to individually identifiable licentiates, other than the licentiate under review. The arbitrator or presiding officer shall consider and rule upon any request for access to information, and may impose any safeguards the protection of the peer review process and justice requires.

(e) When ruling upon requests for access to information and determining the relevancy thereof, the arbitrator or presiding officer shall, among other factors, consider the following:

(1) Whether the information sought may be introduced to support or defend the charges.

(2) The exculpatory or inculpatory nature of the information sought, if any.

(3) The burden imposed on the party in possession of the information sought, if access is granted.

(4) Any previous requests for access to information submitted or resisted by the parties to the same proceeding.

(f) At the request of either side, the parties shall exchange lists of witnesses expected to testify and copies of all documents expected to be introduced at the hearing. Failure to disclose the identity of a witness or produce copies of all documents expected to be produced at least 10 days before the commencement of the hearing shall constitute good cause for a continuance.

(g) Continuances shall be granted upon agreement of the parties or by the arbitrator or presiding officer on a showing of good cause.

(d) Upon receipt by the department of a verified statement, signed under penalty of perjury, that less than 5 percent of the business a licensee transacts emanates from controlled business sources, the licensee shall be relieved of further reporting under this article, but shall be subject to reporting under subdivision (c) at any time that 5 percent or more of the business which the licensee transacts emanates from controlled business sources.

12398. The failure of an applicant or licensee to comply with any of the requirements of this article shall be grounds for the denial of an application for a license, the suspension or revocation of an issued license, or other disciplinary action determined by the commissioner, in accordance with procedures prescribed by law therefor.

(f) The fraudulent failure or refusal of an employee or dependent to disclose a preexisting condition to the succeeding carrier shall not be ascribed to the entire group and shall not alleviate the duty of a succeeding carrier under subdivision (a) to immediately cover all employees and dependents who were validly covered under the previous policy on the date of discontinuance. Any denial of benefits on the basis of fraud shall be limited to the employee or dependent who committed the fraud.

The people of the State of California do enact as follows:

SECTION 1. Section 44277 of the Education Code is amended to read:

44277. The Legislature recognizes that effective professional growth must continue to occur throughout the careers of all teachers, in order that teachers remain informed of changes in pedagogy, subject matter, and student needs. In enacting this section, it is the intent of the Legislature to establish professional growth requirements that give individual teachers a wide range of options to pursue as well as significant roles in determining the course of their professional growth.

(a) The minimum requirements for maintaining the validity of the clear multiple or single subject teaching credential pursuant to Section 44251 shall be both of the following:

(1) Successful service as a classroom teacher or successful service authorized by a services credential. The minimum length of service shall be equivalent to one-half of a school year.

(2) Completion of an individual program of professional growth as prescribed in this section and by the commission.

(b) An individual program of professional growth shall consist of a minimum of 150 clock hours of participation in activities which contribute to competence, performance, or effectiveness in the profession of education. Acceptable activities shall be defined by the commission to include, among other acceptable activities, the completion of courses offered by regionally accredited colleges and universities; participation in professional conferences, workshops, teacher center programs or staff development programs; service as a mentor teacher pursuant to Section 44496; participation in school curriculum development projects; participation in systematic programs of observation and analysis of teaching; service in a leadership role in a professional organization; and participation in educational research or innovation efforts. Employing agencies and employees' bargaining agents may negotiate to agree on the terms of programs of professional growth within their jurisdictions, provided that the agreements shall be consistent with the provisions of this section.

(c) An individual program of professional growth shall be developed and planned by the holder of a clear teaching credential.

(d) Effective January 1, 1991, an individual program of professional growth may include a basic course in cardiopulmonary

resuscitation, which includes training in the subdiaphragmatic abdominal thrust (also known as the "Heimlich maneuver"), which is at least equivalent to the standards for these courses established by the American Heart Association or the American Red Cross. Should an individual teacher choose to participate in this training option it shall count towards the minimum 150 clock hours required to satisfy the professional growth requirements.

(e) Before a holder of a clear teaching credential commences or amends an individual program of professional growth, a school principal, a mentor teacher provided for in Section 44496, or other district designee shall certify to the credentialholder that the planned program or amendment complies with this section and with regulations of the commission.

(f) A clear teaching credential shall be deemed to remain valid so long as the holder of the credential, at five-year intervals, submits to the commission verification by a school principal, a mentor teacher, or other district designee that the holder has satisfied the minimum requirements specified in subdivision (a). In the absence of adequate verification, the commission shall invalidate the credential. Verification by a school principal, a mentor teacher, or other district designee shall be independent of any evaluation of the performance of the holder of the clear teaching credential that is conducted for the purpose of determing the credentialholder's employment status. The arbitrary refusal of a school principal, a mentor teacher, or other district designee to verify completion of an individual program of professional growth meeting the requirements of this section and commission regulations shall constitute grounds for an appeal as prescribed in Section 44278.

persons who hold a license, certificate or similar authority from such board. Each such central file shall be so created and maintained as to provide an individual historical record for each such person with respect to (1) any conviction of a crime in this or any other state which constitutes unprofessional conduct pursuant to the reporting requirements of Section 803; (2) any judgment or settlement requiring him or his insurer to pay any amount of damages in excess of three thousand dollars ($3,000) with respect to any claim that injury or death was proximately caused by such person's negligence, error or omission in practice or rendering of unauthorized professional services, pursuant to the reporting requirements of Section 801 or 802; (3) any public complaints for which provision is hereinafter made, pursuant to subdivision (b) of this section; (4) disciplinary information reported pursuant to Section 805.

If a board, or division thereof, a committee, or a panel has failed to act upon a complaint or report within five years, or has found that the complaint or report is without merit, the central file shall be purged of information relating to the complaint or report.

(c) The contents of any central file which are not public records under any other provision of law shall be confidential except that the licensee involved or his or her counsel or representative shall have the right to inspect and have copies made of his or her complete file except for the provision that may disclose the identity of an information source. For the purposes of this section a board may protect an information source by providing a copy of the text of the material with only those deletions as are necessary to protect the identity of the source or by providing a comprehensive summary of the substance of the material. Whichever method is used, the board shall ensure that full disclosure is made to the subject of any personal information that could reasonably in any way reflect or convey anything detrimental, disparaging, or threatening to an individual's reputation, rights, benefits, privileges, or qualifications, or be used by a board to make a determination that would affect an individual's rights, benefits, privileges, or qualifications.

The licensee may, but is not required to, submit any additional exculpatory or explanatory statement or other information which the board shall include in the central file.

Each board may permit any law enforcement or regulatory agency when required for an investigation of unlawful activity or for licensing, certification, or regulatory purposes to inspect and have copies made of that licensee's file, unless the disclosure is otherwise prohibited by law.

These disclosures shall effect no change in the confidential status of these records.

SEC. 2. Section 809.05 is added to the Business and Professions Code, to read:

809.05. It is the policy of this state that peer review be performed by licentiates. This policy is subject to the following limitations:

(b) In those instances in which the peer review body's failure to investigate, or initiate disciplinary action, is contrary to the weight of the evidence, the governing body shall have the authority to direct the peer review body to initiate an investigation or a disciplinary action, but only after consultation with the peer review body. No such action shall be taken in an unreasonable manner.

(c) In the event the peer review body fails to take action in response to a direction from the governing body, the governing body shall have the authority to take action against a licentiate. (d) A governing body and the medical staff shall act exclusively in the interest of maintaining and enhancing quality patient care.

(e) It is not the intent or purpose of this section to prohibit or discourage public members on state licensing boards and medical quality review committees from participating in disciplinary actions as authorized by law.

SEC. 3. Section 2 of this bill shall only become operative if (1) both this bill and SB 1211 are enacted and become effective on or before January 1, 1990, (2) each bill adds Section 809.05 to the Business and Professions Code, and (3) this bill is enacted after SB 1211, in which case Section 809.05 of the Business and Professions Code, as added by SB 1211, shall remain operative only until the operative date of this bill, at which time Section 2 of this bill shall become operative, and Section 1.5 of SB 1211 shall become inoperative.

A single taxpayer which is engaged in more than one business activity subject to allocation and apportionment as provided in Article 2 (commencing with Section 25120) of Chapter 17 may make a separate election for each business. (4) Pursuant to a Franchise Tax Board audit determination, as evidenced by a notice of the deficiency proposed to be assessed or a notice of tax change, a substantial modification is made to the composition of the water's-edge group as filed, in which case the election may be terminated only with respect to income years beginning on or after January 1 of the year in which the audit determination is made.

No refund of any amounts paid pursuant to Section 25115 shall be made for those years during which the election was in effect.

(c) A water's-edge election may be disregarded by the Franchise Tax Board, only if any of the following occurs:

(A) Retain and make available upon request the documents and information, including any questionnaires completed and submitted to the Internal Revenue Service or qualified states, which are necessary to audit issues involving attribution of income to the United States or foreign jurisdictions under Sections 482, 861, 863, 902, and 904, and Subpart F of Part III of Subchapter N, or similar sections of the Internal Revenue Code.

(B) Identify, upon request, principal officers or employees who have substantial knowledge of, and access to, documents and records which discuss pricing policies, profit centers, cost centers, and the methods of allocating income and expense among these centers. The information shall include the employees' titles and addresses.

(C) Retain and make available upon request all documents and correspondence ordinarily available to a bank or corporation included in the water's-edge election which are submitted to or obtained from the Internal Revenue Service, foreign countries or their territories or possessions, and competent authority pertaining to ruling requests, rulings, settlement resolutions, and competing claims involving jurisdictional assignment and sourcing of income that affect the assignment of income to the United States. The documents shall include all ruling requests and rulings on reorganizations involving foreign incorporation of branches, all ruling requests and rulings on changing a bank or corporation's jurisdictional incorporation, and all documents which are ordinarily available to a bank or corporation included in the water's-edge election which pertain to the determination of foreign tax liability, including examination reports issued by foreign taxing administrations. If the documents have been translated, the translations shall be furnished.

(D) Upon request, prepare and make available for each bank or corporation included in the disclosure spreadsheet referred to in Section 25401d in which the taxpayer is included, a list of each state of the United States, including the District of Columbia, territories or possessions, and each foreign country in which it has payroll, property, or sales. The sales shall be determined by destination whether or not the taxpayer is taxable in the destination jurisdiction.

(E) Retain and make available, upon request, forms filed with the Internal Revenue Service to comply with Sections 6038, 6038A, and 6041 of the Internal Revenue Code.

(F) Upon request, prepare and make available for each bank or corporation organized or created under the laws of the United States or a political subdivision thereof, of which 50 percent or more of its voting stock is directly or indirectly owned or controlled, the information which would be included in the forms described in subparagraph (E) if those forms were required for United States corporations.

(G) Retain and make available, upon request, all state tax returns filed by each bank or corporation included under subdivision (a) in each state, including the District of Columbia.

(H) Comply with reasonable requests for information necessary to determine or verify its net income, apportionment factors, or the geographic source of that income pursuant to the Internal Revenue Code.

(I) For purposes of this subdivision, information for any year shall be retained for that period of time in which the taxpayer's income or franchise tax liability to this state may be subject to adjustment,

including all periods in which additional income or franchise taxes may be assessed or during which an appeal is pending before the State Board of Equalization or a lawsuit is pending in the courts of this state or the United States with respect to California franchise or income tax.

(d) The taxpayer shall be provided 90 days' prior written notice that the Franchise Tax Board intends to disregard a water's-edge election under subdivision (c). The taxpayer shall have the right to seek review in the superior court of the Franchise Tax Board's intended decision to disregard the election.

(e) In disregarding an election or in granting a change of election, the Franchise Tax Board shall impose any conditions which are necessary to prevent the avoidance of tax or clearly reflect income for the period the election was, or was purported to be, in effect. These conditions may include a requirement that income, including dividends paid from income earned while a water's-edge election was in effect, which would have been included in determining the income of the taxpayer from sources within and without this state pursuant to Section 25101 but for the water's-edge election shall be included in income in the year in which the election is changed or disregarded.

(f) If the taxpayer desires in any year not to renew the contract, the taxpayer shall serve written notice of nonrenewal of the contract upon the board in advance of the annual renewal date of the contract. Unless that written notice is served by the taxpayer at least 90 days prior to the renewal date, the contract shall be considered renewed as provided in subdivision (a).

(g) If the taxpayer serves notice of intent in any year not to renew the contract, the existing contract shall remain in effect for the balance of the period remaining since the original execution or the last renewal of the contract, as the case may be.

CHAPTER 367

An act to amend Section 40005 of the Public Utilities Code, and to amend Section 941.1 of, and to add Sections 941.4 and 1630 to, the Streets and Highways Code, relating to transportation.

[Approved by Governor September 12, 1989 Filed with Secretary of State September 12, 1989.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the development of county expressway systems is in the interest of the people of California and can provide a cost-effective supplement to the state highway system. Scarce resources together with high costs have limited the expansion of the state highway system. The development of county expressway systems, where appropriate, offers the opportunity to expand transportation service through a local-state partnership.

SEC. 2. Section 40005 of the Public Utilities Code is amended to read:

40005. "Transit" means the transportation of passengers only and their incidental baggage by means other than by chartered bus, sightseeing bus, or any other motor vehicle not on an individual passenger fare-paying basis and includes carpools and ridesharing in private vehicles. Nothing in this section shall be construed to prohibit the district from leasing its buses to private certified public carriers or to prohibit the district from providing schoolbus service for the transportation of pupils between their homes and schools.

SEC. 3. Section 941.1 of the Streets and Highways Code is amended to read:

941.1. The board of supervisors may lay out, acquire, construct, and maintain any section or portion of any street or highway within the county as a freeway or expressway and may make any existing street or highway a freeway or expressway.

SEC. 4. Section 941.4 is added to the Streets and Highways Code, to read:

941.4. (a) The board of supervisors, with the consent of any city in which the proposed system is located, in whole or in part, may designate a system of expressways within the county. The designation shall be based on a study of the transportation needs of the county, which shall include a financing plan for the expressway system.

(b) The purpose of the county expressway system is to provide a level of service that is greater than that of city streets and county roads, but less than that provided by the state system of freeways. The designated county expressway system shall serve both incorporated and unincorporated areas of a county, as appropriate.

(c) The board of supervisors may enter into an agreement with

the city council or other governing body of a city to close any city street at or near its intersection with an expressway or to provide for carrying the street over, under, or to a connection with the expressway, and to perform any work necessary for this purpose. No city street may be closed by the construction of an expressway except pursuant to such an agreement. No city street may be connected with an expressway unless the board of supervisors, by resolution, consents and specifies the terms and conditions of that connection. The board of supervisors may permit or prohibit, or specify the terms and conditions of, a connection as, in its opinion, will best serve the public interest of the county. This subdivision does not apply to any connection constructed prior to January 1, 1989.

(d) Notwithstanding any other provision of this division, the designated county expressway system may be planned, designed, acquired, constructed, reconstructed, rehabilitated, maintained, operated, and owned by the county in both incorporated and unincorporated areas.

(e) The board of supervisors may delegate any authority under this section to any local agency which it finds and determines has the capability to plan, design, acquire, construct, reconstruct, rehabilitate, maintain, operate, and own an expressway.

(f) The boards of supervisors of two or more adjacent counties into which an expressway is proposed to extend may enter into an agreement to plan, design, acquire, construct, reconstruct, rehabilitate, maintain, operate, or own the expressway. The agreement shall provide for the creation of a governing body with representation from each county.

(g) Any county having an existing expressway system which was designated by the board of supervisors before January 1, 1989, shall be deemed to have met the conditions of this section. Any new expressway project within such a system is subject to this section.

(h) As used in this section, "expressway" means a highway having partial or complete control of access, whether or not divided or with separations of grade at intersections.

SEC. 5. Section 1630 is added to the Streets and Highways Code, to read:

1630. The board of supervisors may use any appropriate method of funding the planning, designing, acquisition, construction, reconstruction, rehabilitation, maintenance, and operation of the county expressway system designated pursuant to Section 941.4.

CHAPTER 368

[Approved by Governor September 12, 1989 Filed with Secretary of State September 12, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 7031 of the Business and Professions Code is amended to read:

7031. (a) No person engaged in the business or acting in the capacity of a contractor, may bring or maintain any action, or recover in law or equity in any action, in any court of this state for the collection of compensation for the performance of any act or contract for which a license is required by this chapter without alleging and proving that he or she was a duly licensed contractor at all times during the performance of that act or contract, regardless of the merits of the cause of action brought by the person, except that this prohibition shall not apply to contractors who are each individually licensed under this chapter but who fail to comply with Section 7029.

(b) A security interest taken to secure any payment for the performance of any act or contract for which a license is required by this chapter is unenforceable if the person performing the act or contract was not a duly licensed contractor at all times during the performance of the act or contract.

(c) Proof of licensure pursuant to this section shall be made by production of a verified certificate of licensure from the Contractors' State License Board which establishes that the individual or entity bringing the action was duly licensed in the proper classification of contractors at all times during the performance of any act or contract covered by the action.

(d) The judicial doctrine of substantial compliance shall not apply to this section.

SEC. 2. The Legislature finds and declares that the reenactment of Section 753 of the Insurance Code, which was repealed by Proposition 103, is in furtherance of the purpose of Proposition 103, within the meaning of subdivision (b) of Section 8 of Proposition 103. The Legislature determines that the repeal of Section 753 of the Insurance Code by Proposition 103 did not further the interests of consumers, was inconsistent with the purposes of that proposition, and was inadvertent. If this bill is chaptered, it is the intent of the Legislature that the Insurance Commissioner enforce the reenactment of Section 753 in the same manner as that section was previously enforced, specifically in accordance with repealed Section 766 of the Insurance Code, as amended by Chapter 4 of the Statutes of 1959.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 373

An act to amend Sections 4034.5, 4035.4, 4050.6, 4050.8, 4080, 4081, and 4227 of the Business and Professions Code, relating to pharmacy.

[Approved by Governor September 12, 1989 Filed with Secretary of State September 12, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 4034.5 of the Business and Professions Code is amended to read:

4034.5. (a) "Medical device retailer" is an area, place, or premises, other than a pharmacy, in and from which dangerous devices are sold, fitted, or dispensed pursuant to prescription. "Medical device retailer" includes, but is not limited to, any area, place, or premises described in a permit issued by the board by reference to plans filed with and approved by the board wherein dangerous devices, as defined, are stored, possessed, prepared, manufactured, or repackaged, and from which the dangerous devices are furnished, sold or dispensed at retail.

(b) "Medical device retailer" shall not include any area in a facility licensed by the State Department of Health Services where floor supplies, ward supplies, operating room supplies, or emergency room supplies of dangerous devices are stored or possessed solely for treatment of patients registered for treatment in the facility or for treatment in the facility or for treatment of patients receiving emergency care in the facilities.

(c) "Dangerous devices" as used in this chapter shall include, but is not limited to, all devices to which any of the following apply:

(1) Devices bearing the legend, "Caution, federal law prohibits dispensing without prescription," or words of similar import.

(2) Devices enumerated in Section 4211.

(3) Hypodermic syringes and needles, or other devices, the sale of which is restricted by law to a registered pharmacist.

Notwithstanding any other provision of this chapter, hypodermic needles and syringes shall only be distributed, possessed, or used as authorized by Article 5.5 (commencing with Section 4140) of this chapter.

(d) For purposes of this chapter, "device" does not include contact lenses.

(e) Neither this section nor any other provision of law shall be construed as prohibiting a medical device retailer from furnishing a prescription device to a licensed health care facility for storage in a secured emergency pharmaceutical supplies container maintained within the facility in accordance with facility regulations of the State Department of Health Services set forth in Title 22 of the California Code of Regulations.

SEC. 2. Section 4035.4 of the Business and Professions Code is

amended to read:

4035.4. No person other than a registered pharmacist, as defined in Section 4037, or an intern pharmacist, as defined in Section 4038.1, an exempt person, as specified in Section 4050.8, or an authorized officer of the law or a person authorized to prescribe, as provided in Section 4036, shall be permitted in that area, place, or premises described in the permit issued by the board pursuant to Section 4034.5 wherein dangerous devices as therein defined are stored, possessed, prepared, manufactured, or repacked, except that a registered pharmacist or exemptee shall be responsible for any individual who enters the medical device retailer as described in Section 4034.5 for the purposes of receiving fitting or consultation from the pharmacist or exemptee or (2) any person performing clerical, inventory control, housekeeping, delivery, maintenance, or similar functions relating to the medical device retailer, if the registered pharmacist or exemptee remains present in the medical device retailer during all times as the individual is present. However, an exemptee need not be present in a warehouse facility owned by a medical device retailer unless the board establishes that requirement by regulation based upon the need to protect the public.

A "warehouse" as used in this section, is a facility owned by a medical device retailer which is used for storage only. There shall be no fitting, display or sales at the location. A pharmacist or exemptee shall be designated as "in charge" of a warehouse but need not be present during operation. The pharmacist or exemptee may permit others to possess a key to the warehouse.

The board may by regulation establish reasonable security measures consistent with this section in order to prevent unauthorized persons from gaining access to the area, place, or premises or to the dangerous devices therein.

The board may by regulation establish a list of those dangerous devices which may be maintained, dispensed, sold, or furnished only by a pharmacist in a pharmacy. In establishing or modifying that list, the board shall consider factors, including, but not limited to:

(a) The potential for abuse or spread of illness.

(b) The danger to the public if the device is not so restricted.

(c) The potential danger to minors if the device is not so restricted.

The board may, by regulation, establish labeling requirements for dangerous devices sold, fitted, or dispensed by a medical device retailer as it deems necessary for the protection of the public.

SEC. 3. Section 4050.6 of the Business and Professions Code is amended to read:

4050.6. Each person applying for an exemption under Section 4050.5, 4050.7, or 4050.8 shall pay to the executive officer of the board the fees provided for in subdivision (h) of Section 4416.

SEC. 4. Section 4050.8 of the Business and Professions Code is amended to read:

4050.8. Section 4050 shall not prohibit a medical device retailer from selling or dispensing dangerous devices if the board finds that sufficient, qualified supervision is employed by the medical device retailer to adequately safeguard and protect the public health. Each person applying for an exemption shall meet the following requirements to obtain and maintain that exemption:

(a) The medical device retailer shall be in charge of an exempt person who has taken and passed an examination administered by the board and whose certificate of exemption is currently valid.

(b) The exempt person shall be on the premises at all times dangerous devices are available for sale or fitting unless dangerous devices are stored separately from other merchandise and are under the exclusive control of the exemptee. An exemptee need not be present in the warehouse facility of a medical device retailer unless the board establishes that requirement by regulation based upon the need to protect the public.

(c) No renewal certificate shall be issued by the board to an exempt person unless he or she submits proof satisfactory to the board of completion of board approved courses of home health education during the year preceding the application for renewal consisting of the number of hours, not to exceed five hours, designated by the board. The board may require a certificate holder to complete more than five hours of coursework as a condition in connection with any disciplinary action taken against the holder.

(d) Each premises maintained by a medical device retailer shall have a permit issued by the board and shall have an exempt person on the premises if dangerous devices are furnished, sold, or dispensed.

SEC. 5. Section 4080 of the Business and Professions Code is amended to read:

4080. (a) No person shall conduct a pharmacy or medical device retailer in the State of California unless he or she has obtained a certificate, license, permit or registration from the board. A certificate, license, permit or registration shall be required for each pharmacy or medical device retailer owned or operated by a specific person. A separate certificate, license, permit, or registration shall be required for each of the premises of any person operating a pharmacy or medical device retailer in more than one location. Such certificate, license, permit or registration shall be renewed annually and shall not be transferable.

(b) A warehouse owned by a medical device retailer, the primary purpose of which is storage, not dispensing of dangerous devices to patients, shall be licensed at a fee one-half of that for a medical device retailer. There shall be no separate or additional license fee for warehouse premises owned by a medical device retailer which are physically connected to the retail premises or which share common access.

SEC. 6. Section 4081 of the Business and Professions Code is amended to read:

4081. (a) Each application to conduct a pharmacy or medical device retailer shall be made on a form furnished by the board, and shall state the name, address, usual occupation, and professional qualifications, if any, of the applicant. If the applicant is other than a natural person, the application shall state the information as to each person beneficially interested therein.

(b) As used in this section, and subject to subdivision (c), the term "person beneficially interested" means and includes:

(1) If the applicant is a partnership or other unincorporated association, each partner or member.

(2) If the applicant is a corporation, each of its officers, directors, and stockholders, provided that no natural person shall be deemed to be beneficially interested in a nonprofit corporation.

(c) In any case where the applicant is a partnership or other unincorporated association, or is a corporation, and where the number of partners, members, or stockholders, as the case may be, exceeds five, the application shall so state, and shall further state the information required by subdivision (a) as to each of the five partners, members, or stockholders who own the five largest interests in the applicant entity. Upon request by the executive officer, the applicant shall furnish the board with the information required by subdivision (a) as to partners, members, or stockholders not named in the application, or shall refer the board to an appropriate source of that information.

(d) The application shall contain a statement to the effect that the applicant has not been convicted of a felony and has not violated any of the provisions of this chapter. If the applicant cannot make this statement the application shall contain a statement of the violation, if any, or reasons which will prevent the applicant from being able to comply with the requirements with respect to the statement.

(e) Upon the approval of the application by the board and payment of the fee required by this chapter for each pharmacy or medical device retailer, the executive officer of the board shall issue a permit to conduct a pharmacy or medical device retailer under the provisions of Section 4080, if all of the provisions of this chapter have been complied with.

(f) Any other provision of law notwithstanding, the permit shall authorize the holder to conduct a pharmacy and to sell and dispense prophylactics, hypodermics, hypnotics, and poisons. The permit shall be renewed annually and shall not be transferable, and any change in the beneficial ownership interest of the pharmacy shall be reported within 30 days thereafter upon a form to be furnished by the board.

(g) Any other provision of law notwithstanding, the medical device retailer permit shall authorize the holder thereof to conduct a medical device retailer and to sell and dispense dangerous devices as defined in Section 4211. Any change in the beneficial ownership interest of the medical device retailer shall be reported within 30 days thereafter upon a form to be furnished by the board.

SEC. 7. Section 4227 of the Business and Professions Code is amended to read:

4227. (a) No person shall furnish any dangerous drug or device except upon the prescription of a physician, dentist, podiatrist, or veterinarian.

(b) This section shall not apply to the furnishing of any dangerous drug or device by a manufacturer or wholesaler or pharmacy to each other or to a physician, dentist, podiatrist, or veterinarian, or to a laboratory under sales and purchase records that correctly give the date, the names and addresses of the supplier and the buyer, the drug or device and its quantity.

(c) A registered pharmacist, or a person exempted pursuant to Section 4050.7, may distribute dangerous drugs and devices directly to hemodialysis patients pursuant to regulations promulgated by the board. The board shall promulgate such regulations as are necessary to insure the safe distribution of such drugs and devices to hemodialysis patients without interruption of supply including, but not limited to, the following: vendor licensing, records and labeling, patient receipts, patient training, report records, specific product and quantity limitations, verification order forms, reports and supplies, adequate establishment facilities, and reports to the board. A person who violates a regulation promulgated pursuant to this subdivision shall be liable upon order of the board to surrender his or her personal license. These penalties shall be in addition to penalties which may be imposed pursuant to Sections 4389 and 4350.5. If the board finds any hemodialysis drugs or devices distributed pursuant to this subdivision to be ineffective or unsafe for the intended use, the board may institute immediate recall of any or all of such drugs or devices distributed to individual patients.

(d) Home hemodialysis patients who receive any drugs or devices pursuant to subdivision (c) shall have completed a full course of home training given by a renal dialysis center accredited by the State Department of Health Services. The physician and surgeon prescribing the hemodialysis products shall submit proof satisfactory to the manufacturer or wholesaler that the patient has completed such program.

(e) A registered pharmacist may furnish a dangerous drug authorized for use pursuant to Section 2620.3 to a physical therapist or may furnish a topical pharmaceutical agent authorized for use pursuant to subdivision (e) of Section 3041 to an optometrist. A record containing the date, name and address of the buyer, and name and quantity of the drug shall be maintained. This subdivision shall not be construed to authorize the furnishing of a controlled substance as defined in Division 10 (commencing with Section 11000) of the Health and Safety Code.

(f) A medical device retailer shall dispense, furnish, transfer, or sell a dangerous device only to another medical device retailer, a pharmacy, a licensed physician and surgeon, a licensed health care facility, or a patient or his or her personal representative.

CHAPTER 375

An act to amend Section 44225 of, and to add Section 44255.5 to, the Education Code, relating to teachers, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 12, 1989 Filed with Secretary of State September 12, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 44225 of the Education Code is amended to read:

44225. The commission shall do all of the following:

(a) Establish professional standards, assessments, and examinations for entry and advancement in the education profession. While the Legislature recognizes that the commission will exercise its prerogative to determine those requirements, it is the intent of the Legislature that standards, assessments, and examinations be developed and implemented for the following:

(1) The preliminary teaching credential, to be granted upon possession of a baccalaureate degree from a regionally accredited institution in a subject other than professional education, completion of an accredited program of professional preparation, and either successful passage of an examination or assessment that has been

adopted or approved by the commission in the subject or subjects appropriate to the grade level to be taught, to include college level reading, writing, and mathematics skills, or completion of an accredited program of subject matter preparation and successful passage of the basic skills proficiency test as provided for in Article 4 (commencing with Section 44250). The commission shall uniformly consider the results of the basic skills proficiency test in conjunction with other pertinent information about the qualifications of each candidate for a preliminary credential, and may award the credential on the basis of the overall performance of a candidate as measured by several criteria of professional competence, provided that each candidate meets minimum standards set by the commission on each criterion. Upon application by a regionally accredited institution of higher education, the commission may categorically grant credit to coursework completed in an accredited program of professional preparation, as specified by this paragraph, by undergraduates of that institution, where the commission finds there are adequate assurances of the quality of necessary undergraduate instruction in the liberal arts and in the subject area or areas to be taught.

(2) The professional teaching credential, to be granted upon successful passage of a state examination or assessment in the subject or subjects appropriate to the grade level to be taught, to include college level basic reading, writing, and mathematic skills, and completion of a period of beginning teacher support that includes assessments of ability to teach subject matter to pupils, ability to work well with pupils, classroom management, and instructional skills. A candidate who successfully passes the examination or assessment pursuant to paragraph (1) shall be deemed to have passed the state examination or assessment in the subject or subjects to be taught pursuant to this paragraph.

(b) Reduce and streamline the credential system to ensure teacher competence in the subject field or fields, while allowing greater flexibility in staffing local schools. The commission shall award the following types of credentials to applicants whose preparation and competence satisfy its standards:

(1) Basic teaching credentials for teaching in kindergarten, or any of the grades 1 to 12, inclusive, in public schools in this state.

(2) Credentials for teaching adult education classes and vocational education classes.

(3) Credentials for teaching specialties, including, but not necessarily limited to, bilingual education, early childhood education, and special education. The commission may grant credentials to any candidate who concurrently meets the commission's standards of preparation and competence for the preliminary basic teaching credential and the preliminary specialty credential.

(4) Credentials for school services, for positions including, but not limited to, administrators, school counselors, speech-language therapists, audiologists, school psychologists, library media teachers,

supervisors of attendance, and school nurses.

The commission may establish standards and requirements for preliminary and professional credentials of each type.

(c) Review and, if necessary, revise the code of ethics for the teaching profession.

(d) Establish standards for the issuance and renewal of credentials, certificates, and permits. In setting standards, the commission shall seek to ensure, through its credentialing of teachers, that public school teachers satisfy all of the following criteria:

(1) Are academically talented.

(2) Are knowledgeable of the subjects to be taught in the classroom.

(3) Are creative and energetic.

(4) Have the human skills to motivate and inspire pupils to achieve their goals.

(5) Have the sensitivity to foster self-esteem in pupils through recognition that each pupil has his or her own goals, talents, and levels of development.

(6) Be willing to relate the educational process and their instructional strategies to meet pupils' needs.

(7) Are able to work effectively with and motivate pupils from a variety of ethnic, socioeconomic, cultural, academic, and linguistic backgrounds.

(8) Have an understanding of principles and laws related to educational equity, and the equitable practice of the profession of education among all pupils regardless of their ethnicity, race, gender, age, religious background, primary language, or handicapping condition.

(e) Determine the scope and authorization of credentials, to ensure competence in teaching and other educational services, and establish sanctions for the misuse of credentials and the misassignment of credential holders. The commission may grant an added or supplementary authorization to a credential holder who has met the requirements and standards of the commission for the added or supplementary authorization. The commission shall exempt the holder of a teaching credential obtained prior to January 1, 1974, who adds an authorization by successfully completing a commission approved subject matter examination, from the requirements of subdivision (e) of Section 44259 and Sections 44261, 44261.5, and 44261.7.

(f) Collect, compile, and disseminate information regarding exemplary practices in supporting and assessing beginning teachers.

(g) Establish alternative methods for entry into the teaching profession, and into other certificated roles in the schools, by persons in varying circumstances, including persons who have been educated outside of California, provided that each applicant satisfies all of the requirements established by the commission. One alternative method shall be the successful completion of at least two

years of classroom instruction under a district intern certificate, pursuant to Article 7.5 (commencing with Section 44325). In establishing alternative methods for entry into the teaching profession, the commission shall develop strategies to encourage classroom aides to become credentialed teachers.

(h) Adopt a framework and general standards for the accreditation of preparation programs for teachers and other certificated educators pursuant to Article 7 (commencing with Section 44320).

(i) Appoint classroom teachers, school administrators, other school services personnel, representatives of the public, and public or private higher education representatives to one or more standing committees, which shall be given authority to recommend to the commission standards relating to examinations, performance assessments, program accreditation, and licensing. The commission shall establish criteria for membership on those committees, and shall determine the terms of committee members. Appointments to standing committees by the commission shall reflect, to the extent feasible, the ethnic and cultural diversity of the California public schools.

(j) Consult with classroom teachers, faculty members from institutions of higher education that maintain accredited programs of professional preparation for teachers, administrators or other school services personnel, and other experts to aid in the development of examinations and assessments, and to study the impact of examinations and assessments on the teaching profession. To increase the fairness of its certification decisions, the commission may uniformly consider the results of tests, subtests, and assessments in conjunction with each other, and in conjunction with other pertinent information about the qualifications of each candidate. The commission may award credentials on the basis of average overall performances by candidates on several criteria of professional competence, provided that each candidate meets minimum standards set by the commission on each criterion.

(k) Adopt standards for all examinations and assessments which shall ensure that all prospective teachers demonstrate an understanding of the history and cultures of the major ethnic populations of this state and of teaching strategies for the acquisition of English language skills by non-English-speaking pupils.

(*l*) Determine the terms of credentials, certificates, and permits, except that no credential, certificate, or permit shall be valid for more than five years from the date of issuance. This article shall govern the issuance of any credential, certificate or permit, except as follows:

(1) A credential, certificate, or permit shall remain in force as long as it is valid and continues to be valid under the laws and regulations that were in effect when it was issued.

(2) The commission shall grant teaching credentials pursuant to statutes that were in effect on December 31, 1988, to candidates who,

prior to the effective date of regulations to implement subdivision (a), are in the process of meeting the requirements for teaching credentials that were in effect on December 31, 1988, except that neither enrollment as an undergraduate student nor receipt of a baccalaureate degree from a regionally accredited institution prior to the effective date of the regulations shall, by themselves, exempt a candidate from the requirements of subdivision (a). Enrollment in a preparation program for teachers prior to the effective date of the regulations shall not exempt a candidate from the requirements of paragraph (2) of subdivision (a), if the candidate's preliminary credential was granted after the effective date of the regulations.

(m) Review requests from school districts, private schools, postsecondary institutions, and individual applicants for the waiver of one or more of the provision of this chapter. The commission may grant a waiver upon its finding that professional preparation equivalent to that prescribed under the provision or provisions to be waived will be completed by the credential candidate or candidates affected. No provision in this chapter may be waived under Sections 33050 and 33051, after June 30, 1994, by the State Board of Education

(n) It is the intent of the Legislature that the commission develop models for voluntary use by California colleges and universities which do not have these models in place, to assist in the screening of applications for admission to teacher education programs. The models shall give emphasis to the following qualifications of the applicants: academic talent, knowledge of subjects to be taught, basic academic skills, creativity, experience in working with children and adolescents, ability to motivate and inspire pupils, and willingness to relate education to pupils with a wide variety of cultural, ethnic, and academic backgrounds. The commission may continue to administer the state basic skills proficiency test, in order (1) to utilize the results of this test in awarding preliminary teaching credentials and emergency permits, and (2) to enable colleges and universities to utilize this test in conjunction with other appropriate sources of information in teacher preparation admission decisions. However, it is the intent of the Legislature that applicants for admission to teacher preparation programs may not be denied admission solely on the basis of state basic skills proficiency test results. The commission may recover the costs of administering and developing the test by charging examinees a fee for taking the test.

(o) It is the intent of the Legislature that the commission encourage colleges and universities to design and implement, by August 1, 1990, concentrated internship programs for persons who have attained a bachelor's degree in the field in which they intend to teach. Those programs would be targeted at subject area shortages, would substitute for conventional training programs, and would include a full summer session of college level coursework, a one-year internship, or the equivalent, a seminar throughout the internship, and a summer session following the internship. Educator preparation through internship programs shall be subject to Article

10 (commencing with Section 44370).

(p) Grant a field placement certificate to any candidate who has been admitted to an accredited program of professional preparation, and who must complete a supervised practicum in public elementary or secondary schools as a condition for completion of the program. The commission shall establish standards for the issuance of field placement certificates.

(q) Propose appropriate rules and regulations to implement the act which enacts this section.

(r) Adopt subject matter assessments for teaching credentials after developing those assessments jointly with the Superintendent of Public Instruction.

SEC. 2. Section 44255.5 is added to the Education Code, to read:

44255.5. Notwithstanding Section 44256, until the Commission on Teacher Credentialing completes a study of teacher assignments in kindergarten and grades 1 to 6, inclusive, and modifications are made to the statutes as a result of the study, the holder of a multiple subject teaching credential, or a standard elementary credential, who is employed by the San Diego City Unified School District may be assigned with his or her consent to teach any subject in grades 1 to 6, inclusive, in a departmentalized setting.

SEC. 3. Due to the unique circumstances concerning teacher assignments in the San Diego City Unified School District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to require the Commission on Teacher Credentialing to exempt the holders of teaching credentials obtained prior to January 1, 1974, who add an authorization to teach by successfully completing a commission approved subject matter examination from specified statutory requirements at the earliest possible time, and in order to authorize the holders of multiple subject teaching credentials and standard elementary teaching credentials to be assigned, with their consent, to teach any subject in kindergarten and grades 1 to 6, inclusive, in a departmental setting, in the San Diego City Unified School District during the 1989–90 school year, it is necessary that this act take effect immediately.

CHAPTER 376

An act to add Section 17980.8 to the Health and Safety Code, relating to building safety.

[Approved by Governor September 12, 1989. Filed with Secretary of State September 12, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 17980.8 is added to the Health and Safety Code, to read:

17980.8. Notwithstanding any other provision of law, if a determination that an unsafe or substandard condition exists in any building, or upon the lot upon which it is situated, has been made in an administrative proceeding conducted under this part, including any code incorporated by Section 17922, the enforcement agency may abate the nuisance as provided in this part or exercise any other authority conferred upon it by this part, subject only to the exclusive remedy of the owner to challenge the administrative determination pursuant to Section 1094.5 of the Code of Civil Procedure. The court may exercise its independent judgment on the evidence to determine whether the findings are supported by the weight of the evidence. This section shall apply only to administrative proceedings commenced on or after January 1, 1990.

CHAPTER 377

An act to amend Section 7 of the San Joaquin County Flood Control and Water Conservation Act (Chapter 46 of the Statutes of 1956, First Extraordinary Session), and to amend Section 36.5 of, and to add Sections 3.5 and 5.1 to, the San Luis Obispo County Flood Control and Water Conservation District Act (Chapter 1294 of the Statutes of 1945), relating to flood control and water conservation districts.

[Approved by Governor September 12, 1989 Filed with Secretary of State September 12, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 7 of the San Joaquin County Flood Control and Water Conservation District Act (Chapter 46 of the Statutes of 1956, First Extraordinary Session) is amended to read:

Sec. 7. The board shall establish, by ordinance, a commission. The board may delegate any or all of its powers to the commission. The board may, by resolution, provide for compensation for services and payment of the actual necessary expenses incurred by members of the commission in the performance of official duties under this act,

payable from the funds of the district. Members of the commission shall serve at the pleasure of the board.

SEC. 2. Section 3.5 is added to the San Luis Obispo County Flood Control and Water Conservation District Act (Chapter 1294 of the Statutes of 1945), to read:

Sec. 3.5. (a) The board of supervisors may in any year levy benefit assessments on a districtwide basis or within a zone or participating zone. The benefit assessment may be levied in any manner which reasonably reflects the benefit that will accrue to the area being assessed for the purpose of the assessment, including, but not limited to: (1) a per acre or fraction thereof basis, or (2) for benefit assessments related to drain, storm, flood control, or water conservation purposes, upon all taxable property in each or any of the zones, according to the benefits derived or to be derived by the respective zones, to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to the respective zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works or improvements within the respective zones. Except as provided in subdivisions (b) and (c), in the case of any benefit assessment under this act, the benefit may be determined on the basis of the proportionate storm water runoff from each parcel. It is declared that all property within a given zone that is located within a watershed or watersheds which are tributary to an existing or proposed flood control or water conservation improvement is equally benefited.

(b) Whenever a railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way is included within an area proposed to be assessed, the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way shall be subject to the assessment only if, and to the extent that, it is found that it will benefit from the service, and the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way shall be subject to the same penalties, and the same procedure and sale, in the event of delinquencies, as other parcels in the assessment area. In determining whether or not the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way benefits from the services provided, its use as a right-of-way for a railroad, gas, water, telephone, cable television, electric, or other utility shall be presumed to be permanent.

(c) (1) Proportionate storm water runoff may be used as a measure of benefit on an undeveloped parcel of land pursuant to the section only if, and to the extent that, it is found that it will benefit from the service.

(2) For the purposes of this section, "undeveloped parcel of land" means a parcel of rural land in its undeveloped natural state, although the land may be grazed, if otherwise undisturbed, in a manner consistent with the normally accepted grazing land management practices for the geographic area. "Undeveloped parcel of land" also includes wetlands and marshlands if undisturbed and subject to periodic inundation. For purposes of this section, "rural land" is land which is outside of an urbanized area as designated by the most recent federal decennial census of the United States Bureau of the Census.

(d) Benefit assessments may be levied for expenditures made, or expenditures estimated to be required during the next calendar or fiscal year, for any lawful purpose of the district. The revenues derived from the benefit assessment shall be used for no purpose other than the purpose specified at the time of levy of the assessment.

(e) The board may impose a benefit assessment on a districtwide basis or within a zone or participating zone pursuant to this section to finance the maintenance and operation costs of the following services:

(1) Drainage.

(2) Flood control.

(3) Water conservation.

(f) The district may, in addition to imposing a benefit assessment for the purposes authorized pursuant to subdivision (e), impose that assessment on a districtwide basis or within a zone or participating zone to finance the cost of installation and improvement of facilities.

(g) The board may adopt a resolution of intention to levy a special benefit assessment on land only. The resolution shall set forth the proposed amount, manner of levy, and purpose of the proposed benefit assessment and designate by a map or otherwise the boundaries of the area proposed for assessment, and shall designate a time and place of hearing on the resolution.

(h) Notice of the hearing shall be given by publishing a copy of the resolution of intention in a newspaper of general circulation published in the district pursuant to Section 6066 of the Government Code, the first publication to be at least 14 days prior to the time fixed for the hearing.

(i) At the time and place so fixed, or at any time or place to which the hearing is continued, the board shall hold the hearing provided for by the resolution, at which time any interested person may appear and be heard concerning any matter set forth in the resolution or any matters material thereto. Upon the conclusion of the hearing, the board may terminate further proceedings on the proposed assessment, order an election on the assessment within the

area to be assessed, or levy the assessment, unless prior to the conclusion of the hearing, or any continued hearing, written protests against the proposed assessment signed by 25 percent of the eligible voters within the area to be assessed are filed with the board, in which event further proceedings relating to the proposed assessment shall be suspended for not less than one year following the date of the conclusion of the hearing. The board of directors shall not levy the assessment without an election unless a majority in number of the eligible voters within the affected area have filed with the board written consent to levy the assessment. If an election is held, a majority of the votes cast in the area to be assessed shall be required to approve the assessment.

(j) After its approval, the benefit assessment shall be levied, collected, and enforced at the same time and in the same manner as county taxes.

SEC. 3. Section 5.1 is added to the San Luis Obispo County Flood Control and Water Conservation District Act (Chapter 1294 of the Statutes of 1945), to read:

Sec. 5.1. (a) In addition to the powers specified in Section 5, the district may borrow money to finance any flood control or conservation project of any zone of the district. The loan shall be repaid in installments over a period not to exceed 15 years. The loans shall constitute a charge against the funds of the zone in which the improvements occur. Pursuant to this section, the board of supervisors may borrow money from the United States, or any agency or department thereof, or from the State of California, or any agency thereof, or from any bank or banking institution authorized to transact business within the state, or from any private corporation organized under the laws of this state and authorized by its articles of incorporation to lend money to public agencies for construction of public works. The power to borrow money authorized by this section shall be exercised only when both of the following has occurred:

(1) The board of supervisors has declared the existence of an emergency and ordered the holding of a special election not less than 30 days from the date of the resolution declaring the existence of the emergency, or the board of supervisors has formed a special zone pursuant to Section 2.5 and ordered the holding of a special election not less than 30 days from the date of the resolution forming the special zone.

(2) The proposition authorizing the borrowing of money has been ratified and authorized by two-thirds of the votes cast at the special election called for that purpose. A special election may be consolidated with a primary election or general election.

(b) Interest on any loan authorized by this section shall not exceed the maximum rate authorized by Section 53531 of the Government Code. A loan pursuant to this act shall be evidenced by a written contract signed by the chairperson of the board specifying the particular flood control work or projects for which the money

shall be expended. If a surplus remains after completion of the work, that surplus shall be applied to the payment of the principal and interest due upon the loan. The board of supervisors shall annually levy a tax upon the taxable property of the zone or zones within which the work is performed, sufficient to pay the installments and interest on the loan as it becomes due and payable in accordance with the terms of the contract. However, the tax levy for the repayment of the principal and interest on any loan shall not, together with all other charges and obligations for construction, maintenance, operation, and improvements within the zone, exceed the limitations fixed by Section 13.

(c) All tax liens of taxes imposed pursuant to this section shall be levied, collected, and enforced at the same time and in the same manner as county taxes.

SEC. 4. Section 36.5 of the San Luis Obispo County Flood Control and Water Conservation District Act (Chapter 1294 of the Statutes of 1945) is amended to read:

Sec. 36.5. (a) The acts or any of them may be used in the discretion of the board in the construction of any work to be done or improvements made under this act and in the levying of assessments and reassessments and the issuing of bonds to pay for costs and expenses of the work and improvements done or to be done under this act.

(b) The assessments or reassessments may be levied in any manner which reasonably reflects the benefit that will accrue to the area being assessed for the purpose of the assessment or reassessment, including, but not limited to: (1) a per acre or fraction thereof basis, or (2) for assessments or reassessments related to drain, storm, flood control, or water conservation purposes, upon all taxable property in each or any of the zones, according to the benefits derived or to be derived by the respective zones to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to the respective zones, including the constructing, extending, repairing, or otherwise improving any or all works or improvements within the respective zones. Except as provided in subdivision (c), in the case of any assessment or reassessment under this act, the benefit may be determined on the basis of the proportionate storm water runoff from each parcel. It is declared that all property within a given zone that is located within a watershed or watersheds which are tributary to an existing or proposed flood control or water conservation improvement is equally benefited.

(c) Whenever a railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way is included within an area proposed to be assessed, the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way shall be subject to the assessment only if, and to the extent that, it is found that it will benefit from the service, and the railroad, gas,

water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way shall be subject to the same penalties, and the same procedure and sale, in the event of delinquencies, as other parcels in the assessment area. In determining whether or not the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way benefits from the services provided, its use as a right-of-way for a railroad, gas, water, telephone, cable television, electric, or other utility shall be presumed to be permanent.

(d) (1) Proportionate storm water runoff may be used as a measure of benefit on an undeveloped parcel of land pursuant to the section only if, and to the extent that, it is found that it will benefit from the service.

(2) For the purposes of this section, "undeveloped parcel of land" means a parcel of rural land in its undeveloped natural state, although the land may be grazed, if otherwise undisturbed, in a manner consistent with the normally accepted grazing land management practices for the geographic area. "Undeveloped parcel of land" also includes wetlands and marshlands if undisturbed and subject to periodic inundation. For purposes of this section, "rural land" is land which is outside of an urbanized area as designated by the most recent federal decennial census of the United States Bureau of the Census.

The acreage fee shall be calculated using as a basis the total of the acreage at all locations where nursery stock is produced, stored, or sold.

(d) As to all the fees, the director may require payment of prorated amounts when necessary in the issuance of new licenses for branch salesyards, stores, or sales locations to persons already licensed pursuant to the licensing periods established in Section 6724.

(b) Except for property located within a county which has assumed responsibility for prevention and suppression of all fires pursuant to Section 4129, the seller shall also disclose to any prospective buyer that it is not the state's responsibility to provide fire protection services to any building or structure located within the wildlands unless the department has entered into a cooperative agreement with a local agency for such purposes pursuant to Section 4142.

(c) Disclosures required pursuant to this section may be set forth in, and made on a copy of, the disclosure form required by Section 1102.6 or 1102.6a of the Civil Code.

CHAPTER 381

An act to amend Section 739 of the Public Utilities Code, relating to public utilities.

[Approved by Governor September 12, 1989. Filed with Secretary of State September 12, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 739 of the Public Utilities Code is amended to read:

739. (a) The commission shall designate a baseline quantity of gas and electricity which is necessary to supply a significant portion of the reasonable energy needs of the average residential customer. In estimating those quantities, the commission shall take into account differentials in energy needs between customers whose residential energy needs are currently supplied by electricity alone or by both electricity and gas. The commission shall develop a separate baseline quantity for all-electric residential customers. For these purposes, "all-electric residential customers" are residential customers having electrical service only or whose space heating is provided by electricity, or both. The commission shall also take into account differentials in energy use by climatic zone and season.

(b) (1) The commission shall establish a standard limited allowance which shall be in addition to the baseline quantity of gas and electricity for residential customers dependent on life-support equipment, including, but not limited to, emphysema and pulmonary patients. A residential customer dependent on life-support equipment shall be given a higher energy allocation than the average residential customer.

(2) "Life-support equipment" means that equipment which utilizes mechanical or artificial means to sustain, restore, or supplant a vital function, or mechanical equipment which is relied upon for mobility both within and outside of buildings. "Life-support equipment," as used in this subdivision, includes all of the following: all types of respirators, iron lungs, hemodialysis machines, suction machines, electric nerve stimulators, pressure pads and pumps, aerosol tents, electrostatic and ultrasonic nebulizers, compressors, IPPB machines, and motorized wheelchairs.

(3) The limited additional allowance shall also be made available to paraplegic and quadriplegic persons in consideration of the increased heating and cooling needs of those persons.

(4) The limited additional allowance shall also be made available to multiple sclerosis patients in consideration of the increased heating and cooling needs of those persons.

(5) The limited additional allowance shall also be made available to scleroderma patients in consideration of the increased heating needs of those persons.

(c) (1) The commission shall require that every electrical and gas corporation file a schedule of rates and charges providing baseline rates. The baseline rates shall apply to the first or lowest block of an increasing block rate structure which shall be the baseline quantity and shall be established for the residential consumption of gas and electricity. In establishing these rates, the commission shall avoid excessive rate increases for residential customers, and shall establish an appropriate gradual differential between the rates for the respective blocks of usage.

(2) In establishing residential electric and gas rates, including baseline rates, the commission shall assure that the rates are sufficient to enable the electrical corporation or gas corporation to recover a just and reasonable amount of revenue from residential customers as a class, while observing the principle that electricity and gas services are necessities, for which a low affordable rate is desirable.

(d) As used in this section:

(1) "Baseline quantity" means a quantity of electricity or gas for residential customers to be established by the commission based on from 50 to 60 percent of average residential consumption of these commodities, except that, for residential gas customers and for all-electric residential customers, the baseline quantity shall be established at from 60 to 70 percent of average residential consumption during the winter heating season. In establishing the baseline quantities, the commission shall take into account climatic and seasonal variations in consumption and the availability of gas service. The commission shall review and revise baseline quantities as average consumption patterns change in order to maintain these ratios.

(2) "Residential customer" means those customers receiving electrical or gas service pursuant to a domestic rate schedule and excludes industrial, commercial, and every other category of customer.

(e) Wholesale electrical or gas purchases, and the rates charged therefor, are exempt from this section.

(f) Nothing contained in this section shall be construed to prohibit experimentation with alternative gas or electrical rate schedules for the purpose of achieving energy conservation.

(g) The commission shall establish a program of assistance to low-income electric and gas customers, the cost of which shall not be borne solely by any single class of customer.

CHAPTER 382

An act to amend Section 2453 of the Business and Professions Code, relating to healing arts.

[Approved by Governor September 12, 1989 Filed with Secretary of State September 12, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 2453 of the Business and Professions Code is amended to read:

2453. (a) It is the policy of this state that holders of M.D. degrees and D.O. degrees shall be accorded equal professional status and privileges as licensed physicians and surgeons.

(b) Notwithstanding any other provision of law, no health facility subject to licensure under Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code, no health care service plan, nonprofit hospital service plan, policy of disability insurance, self-insured employer welfare benefit plan, and no agency of the state or of any city, county, city and county, district, or other political subdivision of the state shall discriminate with respect to employment, staff privileges, or the provision of, or contracts for, professional services against a licensed physician and surgeon on the basis of whether the physician and surgeon holds an M.D. or D.O. degree. This section shall not be construed to require a disability insurer health care service plan or hospital service plan to employ, offer staff privileges, or contract for professional services with a class of physician who holds an M.D. or D.O. degree. However, this subdivision shall not prohibit a school of allopathic medicine or a school of osteopathic medicine from employing a physician and surgeon as an instructor on the basis of whether the physician and surgeon holds an M.D. or D.O. degree, where the subject matter to be taught specifically requires allopathic or osteopathic training and experience.

(c) Whenever the health facility staffing requirements for a service mandate that the physician responsible for the service be certified or eligible for certification by an appropriate American medical board, that position must be made available on an equal basis to an osteopathic physician who is certified or eligible for certification by the appropriate American osteopathic board which has training and education requirements comparable to the appropriate American medical board.

(d) Staff self-government, involving M.D. and D.O. physicians and surgeons, with respect to the professional work performed in the health facility, shall be accomplished by holding periodic meetings of the staff to review and analyze at regular intervals their clinical experience. Patient medical records shall be the basis for such review and analysis.

(e) The physician and surgeon staff shall be required to establish controls that are designed to ensure the achievement and maintenance of high standards of professional and ethical practices including a provision that all members of the physician and surgeon staff be required to demonstrate their ability to perform surgical and other procedures competently and to the satisfaction of an appropriate committee or committees of the staff at the time of original application for appointment to the staff and at least every two years thereafter.

(f) No health facility may adopt written bylaws in accordance with legal requirements that in any way are construed to circumvent the intent of the Legislature or any other nondiscriminatory provisions contained in either the Medical Practice Act or in any provisions applicable to osteopathic physicians.

(g) For the purposes of this section, no professional medical or osteopathic association may mandate membership in their respective organizations as a prerequisite for a physician to obtain staff privileges, employment, or in the offering of a contract for services.

(h) Any violation of subdivisions (b), (c), (d), (e), (f), and (g) may be enjoined in an action brought in the name of the people of the State of California by the district attorney of the county in which the violation occurs, upon receipt of a complaint by an aggrieved physician and surgeon.

CHAPTER 384

An act to add Section 69761.7 to the Education Code, relating to education.

[Approved by Governor September 12, 1989. Filed with Secretary of State September 12, 1989.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares all of the following:

(1) Since the 1980's, California students have increasingly turned to loans as a way to help finance their education.

(2) Currently, California's net default rate at 14.8 percent ranks high compared to other states in the nation, exceeding default rates of approximately 12 percent for New York, Pennsylvania, Illinois, and New Jersey.

(3) By 1986–87, the cumulative volume of California's Guaranteed Student Loan (GSL) program exceeded four billion five hundred million dollars ($4,500,000,000) and the total volume of matured paper in the program exceeded two billion three hundred million dollars ($2,300,000,000).

(4) In the three-year period between 1983 and 1986, the volume of matured paper increased by 468 percent, from four hundred ninety-nine million dollars ($499,000,000) to two billion three hundred million dollars ($2,300,000,000).

(5) In addition to the loans entering repayment, California students still in school have borrowed nearly two billion dollars ($2,000,000,000) in outstanding loans they will eventually have to repay, and that amount increases at the rate of over six hundred million dollars ($600,000,000) each year.

(6) Because of the shrinking dollars available for federal and state financial aid grant programs, students' dependency on California's GSL program will continue to increase at dramatic rates.

(7) Currently, state and federal law does not require regular reporting practices for guaranteed student loans.

(b) It is the intent of the Legislature to do all of the following:

(1) Provide an incentive for borrowers to repay GSL loans.

(2) Reward responsible borrowers with positive credit ratings and the establishment of a credit base.

(3) To make known to GSL borrowers that failure to comply with terms and conditions of GSL loans will result in poor credit ratings

(4) To promote responsible and timely repayment of GSLs.

(5) To require credit agencies to fully comply with fair credit reporting practices.

(c) It is not the intent of the Legislature to create a barrier for students who are in default as a result of technical or administrative errors or who do not have adequate resources to repay their loans

immediately, but are attempting to make arrangements to retire their debt through a mutually agreed upon repayment plan.

SEC. 2. Section 69761.7 is added to the Education Code, to read:

69761.7. To promote responsible and timely repayment of Guaranteed Student Loans, the commission shall establish a process to ensure regular, annual credit reporting on the repayment status of borrowers whose loans are guaranteed by the commission and whose paper has matured.

CHAPTER 385

An act to amend Sections 44256 and 44258.7 of the Education Code, relating to teachers, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 12, 1989 Filed with Secretary of State September 12, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 44256 of the Education Code is amended to read:

44256. Authorization for teaching credentials shall be of four basic kinds, as defined below:

(a) "Single subject instruction" means the practice of assignment of teachers and students to specified subject matter courses, as is commonly practiced in California high schools and most California junior high schools. The holder of a single subject teaching credential or a standard secondary credential or a special secondary teaching credential, as defined in this subdivision, who has completed 20 semester hours of coursework or 10 semester hours of upper division or graduate coursework approved by the commission at an accredited institution in any subject commonly taught in grades 7 to 12, inclusive, other than the subject for which he or she is already certificated to teach, shall be eligible to have this subject appear on the credential as an authorization to teach this subject. The commission, by regulation, may require that evidence of additional competence is a condition for instruction in particular subjects, including, but not limited to, foreign languages. The commission may establish and implement alternative requirements for additional authorizations to the single subject credential on the basis of specialized needs. For purposes of this subdivision, a special secondary teaching credential means a special secondary teaching credential issued on the basis of at least a baccalaureate degree, a student teaching requirement, and 24 semester units of coursework in the subject specialty of the credential.

(b) "Multiple subject instruction" means the practice of assignment of teachers and students for multiple subject matter

instruction, as is commonly practiced in California elementary schools and as is commonly practiced in early childhood education.

The holder of a multiple subject teaching credential or a standard elementary credential who has completed 20 semester hours of coursework or 10 semester hours of upper division or graduate coursework approved by the commission at an accredited institution in any subject commonly taught in grades 6, 7, 8, and 9 shall be eligible to have that subject appear on the credential as authorization to teach the subject in departmentalized classes in grades 6, 7, 8, and 9. The governing board of a school district by resolution may authorize the holder of a multiple subject teaching credential or a standard elementary credential to teach any subject in departmentalized classes to a given class or group of students below grade 9, provided that the teacher has completed at least 12 semester units, or six upper division or graduate units, of coursework at an accredited institution in each subject to be taught. The authorization shall be with the teacher's consent. However, the commission, by regulation, may provide that evidence of additional competence is necessary for instruction in particular subjects, including, but not limited to, foreign languages. The commission may establish and implement alternative requirements for additional authorizations to the multiple subject credential on the basis of specialized needs.

(c) "Specialist instruction" means any specialty requiring advanced preparation or special competence including, but not limited to, reading specialist, mathematics specialist, specialist in special education, or early childhood education, and such other specialties as the commission may determine.

(d) "Designated subjects" means the practice of assignment of teachers and students to designated technical, trade, or vocational courses which courses may be part of a program of trade, technical, or vocational education.

(c) A teacher employed on a full-time basis who has special skills and preparation outside of his or her credential authorization may, with his or her consent, be assigned to teach in the area of such special skills or preparation for up to 40 percent of a full-time teaching assignment, provided that the assignment is first approved by a committee on assignments. The membership of the committee on assignments shall include an equal number of teachers, selected by teachers, and school administrators, selected by school administrators.

(d) Assignments approved by the committee on assignments shall be for a maximum of one school year, but may be extended by action of the committee upon application by the schoolsite administrator and the affected teacher. [Approved by Governor September 12, 1989. Filed with Secretary of State September 12, 1989.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) California's homeless population with mental disorders is in need of treatment and support services.

(b) A Rand Corporation study, entitled "Review of California's Program for the Homeless Mentally Disabled" (1988), found that current programs providing assistance need the clarification that mentally disordered persons who are also substance abusers can receive supportive services from the Community Support System for Homeless Mentally Disabled Persons.

(c) The Rand study also found that greater provision of money management services could help stabilize mentally disordered persons in the community.

SEC. 2. Section 5683 of the Welfare and Institutions Code is amended to read:

5683. The function of the community support system is to conduct active outreach to homeless mentally disabled persons, to secure and maintain income, housing, food, and clothing for clients, and to develop social skills and prevocational and vocational skills on a voluntary basis. Each community support system shall make available, as may be necessary to meet each client's needs, the following:

(a) Personal assistance in securing and maintaining housing, food, and clothing arrangements.

(b) Personal assistance in securing and maintaining income and health benefits.

(c) Money management assistance.

(d) Crisis intervention services, focusing on finding appropriate alternatives to acute inpatient hospital care.

(e) Social and vocational skill development activities, as determined by each client's needs, interests, and abilities.

(f) Service coordination including, but not limited to, treatment services.

No individual service offered may be contingent upon the acceptance of any other community support service or mental health treatment.

Each agency designated by a county to be a service provider under this chapter shall establish personnel hiring policies that it determines are necessary to ensure the hiring of staff with

demonstrated skills in various functions to be performed by the agency.

Each agency designated by a county to be a service agency under this chapter shall advise its clients about the range of services available through the community support system in that county.

SEC. 3. Section 5686.5 of the Welfare and Institutions Code is amended to read:

5686.5. In order to make the most efficient use of the public funds appropriated for this purpose, counties are encouraged to maximize the use of existing public and private community resources. If voluntarily requested by the client, the community support agency shall help the client learn to manage his or her own money. Any SSI/SSP money, or other personal funds, if managed by the program or by the local office of the public guardian, shall, at all times, be considered as the client's money. Nothing in this section, however, shall prevent a client from purchasing residential care with SSI/SSP funds.

SEC. 4. Section 5688.7 is added to the Welfare and Institutions Code, to read:

5688.7. Nothing in this chapter shall prohibit the provision of services to dual-diagnosed persons with a primary diagnosis of a serious mental disorder and a secondary diagnosis of substance abuse, developmental disability, or other physical or mental disorder. Counties may establish programs and services, within the scope of this chapter, specifically targeted to meet the needs of these dually diagnosed homeless persons. Counties wishing to establish these programs pursuant to this section shall first obtain a memorandum of understanding with the local alcohol and drug abuse programs, and the local mental health program, delineating the types of special treatment that will be provided to dually diagnosed homeless persons, and delineating the local institutional relationships between the programs.

SEC. 5. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 394

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

(a) The Irvine Ranch Water District has funds for the replacement of capital facilities when those facilities reach the end of their useful lives. These funds are not required for the immediate necessities of the district and, subject to certain specified limitations, the investment and reinvestment of the funds in real estate would benefit the ratepayers of the district.

(b) The Legislature hereby finds and declares that a special law is necessary with respect to the Irvine Ranch Water District, that Section 1 of this act is needed to meet the special circumstances within the district, and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

This agency is governed by Section 5204 of the California Probate Code. Under Section 5204, (1) the agent has no present or future ownership or right of survivorship in this account, (2) the agent must keep a record of the transactions and disbursements made under the agency, and (3) the agent may make disbursements from this account only to or for the benefit of the account owner unless the account owner has authorized the disbursement in writing."

(d) The power of attorney granted under this section shall endure as between the grantor and grantee of the power until the earliest to happen of the following:

(f) For the purposes of subdivision (e), "convincing evidence" means and requires both of the following:

(1) Reasonable reliance on a document that would satisfy the requirement of Section 2511 of the Civil Code.

(2) The absence of any information, evidence, or other

circumstances that would lead a reasonable person to believe that the person signing the power of attorney as principal is not the individual he or she claims to be.

(g) The protection provided by subdivision (e) does not extend to payments made after written notice is received by the financial institution as to any of the events of termination of the power under subdivision (d) if the financial institution has had a reasonable time to act on the notice. No other notice or any other information shown to have been available to the financial institution shall affect its right to the protection provided by this subdivision.

(h) The attorney in fact acting under the power of attorney granted under this section shall maintain any books or records that will permit an accounting of the acts of the attorney in fact if an accounting is requested by a legal representative of the grantor of the power.

(i) The attorney in fact acting under a power of attorney granted under this section is liable for any disbursement other than a disbursement to or for the benefit of the grantor of the power, unless the grantor has authorized the disbursement in writing.

(j) Nothing in this section limits the use or effect of any other form of power of attorney for transactions with a financial institution. Nothing in this section creates any implication that a financial institution is liable for acting in reliance upon a power of attorney under circumstances where the requirements of subdivision (e) are not satisfied. Nothing in this section affects any immunity that may otherwise exist apart from this section.

(k) Nothing in this section prevents the attorney in fact from also being designated as a P.O.D. payee.

SEC. 28. Section 5301 of the Probate Code is amended to read:

5301. (a) An account belongs, during the lifetime of all parties, to the parties in proportion to the net contributions by each to the sums on deposit, unless there is clear and convincing evidence of a different intent.

(b) In the case of a P.O.D. account, the P.O.D. payee has no rights in the sums on deposit during the lifetime of any party, unless there is clear and convincing evidence of a different intent.

(c) In the case of a Totten trust account, the beneficiary has no rights to the sums on deposit during the lifetime of any party, unless there is clear and convincing evidence of a different intent. If there is an irrevocable trust, the account belongs beneficially to the beneficiary.

SEC. 29. Section 5302 of the Probate Code is amended to read:

5302. (a) Sums remaining on deposit at the death of a party to a joint account belong to the surviving party or parties as against the estate of the decedent unless there is clear and convincing evidence of a different intent. If there are two or more surviving parties, their respective ownerships during lifetime are in proportion to their previous ownership interests under Section 5301 augmented by an equal share for each survivor of any interest the decedent may have

owned in the account immediately before the decedent's death; and the right of survivorship continues between the surviving parties.

(b) If the account is a P.O.D. account:

(1) On death of one of two or more parties, the rights to any sums remaining on deposit are governed by subdivision (a).

(2) On death of the sole party or of the survivor of two or more parties, (A) any sums remaining on deposit belong to the P.O.D. payee or payees if surviving, or to the survivor of them if one or more die before the party, (B) if two or more P.O.D. payees survive, any sums remaining on deposit belong to them in equal and undivided shares unless the terms of the account or deposit agreement expressly provide for different shares, and (C) if two or more P.O.D. payees survive, there is no right of survivorship in the event of death of a P.O.D. payee thereafter unless the terms of the account or deposit agreement expressly provide for survivorship between them.

(c) If the account is a Totten trust account:

(1) On death of one of two or more trustees, the rights to any sums remaining on deposit are governed by subdivision (a).

(2) On death of the sole trustee or the survivor of two or more trustees, (A) any sums remaining on deposit belong to the person or persons named as beneficiaries, if surviving, or to the survivor of them if one or more die before the trustee, unless there is clear and convincing evidence of a different intent, (B) if two or more beneficiaries survive, any sums remaining on deposit belong to them in equal and undivided shares unless the terms of the account or deposit agreement expressly provide for different shares, and (C) if two or more beneficiaries survive, there is no right of survivorship in event of death of any beneficiary thereafter unless the terms of the account or deposit agreement expressly provide for survivorship between them.

(d) In other cases, the death of any party to a multiple-party account has no effect on beneficial ownership of the account other than to transfer the rights of the decedent as part of the decedent's estate.

(e) A right of survivorship arising from the express terms of the account or under this section, a beneficiary designation in a Totten trust account, or a P.O.D. payee designation, cannot be changed by will.

SEC. 30. Section 5303 of the Probate Code is amended to read:

5303. (a) The provisions of Section 5302 as to rights of survivorship are determined by the form of the account at the death of a party.

(b) Once established, the terms of a multiple-party account can be changed only by any of the following methods:

(1) Closing the account and reopening it under different terms.

(2) Presenting to the financial institution a modification agreement that is signed by all parties with a present right of withdrawal. If the financial institution has a form for this purpose, it may require use of the form.

(3) If the provisions of the terms of the account or deposit agreement provide a method of modification of the terms of the account, complying with those provisions.

(4) As provided in subdivision (c) of Section 5405.

(c) During the lifetime of a party, the terms of the account may be changed as provided in subdivision (b) to eliminate or to add rights of survivorship. Withdrawal of funds from the account by a party with a present right of withdrawal during the lifetime of a party also eliminates rights of survivorship upon the death of that party with respect to the funds withdrawn.

SEC. 31. Section 5305 of the Probate Code is amended to read:

5305. (a) Notwithstanding Sections 5301 to 5303, inclusive, if parties to an account are married to each other, whether or not they are so described in the deposit agreement, their net contribution to the account is presumed to be and remain their community property.

(b) Notwithstanding Sections 4800.1 and 4800.2 of the Civil Code, the presumption established by this section is a presumption affecting the burden of proof and may be rebutted by proof of either of the following:

(1) The sums on deposit that are claimed to be separate property can be traced from separate property unless it is proved that the married persons made a written agreement that expressed their clear intent that such sums be their community property.

(2) The married persons made a written agreement, separate from the deposit agreement, that expressly provided that the sums on deposit, claimed not to be community property, were not to be community property.

(c) Except as provided in Section 5307, a right of survivorship arising from the express terms of the account or under Section 5302, a beneficiary designation in a Totten trust account, or a P.O.D. payee designation, may not be changed by will.

(d) Except as provided in subdivisions (b) and (c), a multiple-party account created with community property funds does not in any way alter community property rights.

SEC. 32. Section 5306 of the Probate Code is amended to read:

5306. For the purposes of this chapter, if an account is expressly described in the deposit agreement as a "tenancy in common" account, no right of survivorship arises from the terms of the account or under Section 5302 unless the terms of the account or deposit agreement expressly provide for survivorship.

SEC. 33. Section 5307 is added to the Probate Code, to read:

5307. For the purposes of this chapter, except to the extent the terms of the account or deposit agreement expressly provide otherwise, if the parties to an account are married to each other and the account is expressly described in the account agreement as a "community property" account, the ownership of the account during lifetime and after the death of a spouse is governed by the law governing community property generally.

SEC. 34. Section 5401 of the Probate Code is amended to read:

5401. (a) Financial institutions may enter into multiple-party accounts to the same extent that they may enter into single-party accounts. Any multiple-party account may be paid, on request and according to its terms, to any one or more of the parties or agents.

(b) The terms of the account or deposit agreement may require the signatures of more than one of the parties to a multiple-party account during their lifetimes or of more than one of the survivors after the death of any one of them on any check, check endorsement, receipt, notice of withdrawal, request for withdrawal, or withdrawal order. In such case, the financial institution shall pay the sums on deposit only in accordance with such terms, but those terms do not limit the right of the sole survivor or of all of the survivors to receive the sums on deposit.

(c) A financial institution is not required to do any of the following:

(1) Inquire as to the source of funds received for deposit to a multiple-party account, or inquire as to the proposed application of any sum withdrawn from an account, for purposes of establishing net contributions.

(2) Determine any party's net contribution.

(3) Limit withdrawals or any other use of an account based on the net contribution of any party, whether or not the financial institution has actual knowledge of each party's contribution.

(d) All funds in an account, unless otherwise agreed in writing by the financial institution and the parties to the account, remain subject to liens, security interests, rights of setoff, and charges, notwithstanding the determination or allocation of net contributions with respect to the parties.

SEC. 35. Section 5404 of the Probate Code is amended to read:

5404. Any Totten trust account may be paid, on request and according to its terms, to any trustee. Unless the financial institution has received written notice that the beneficiary has a vested interest not dependent upon surviving the trustee, payment may be made to the personal representative or heirs of a deceased trustee if proof of death is presented to the financial institution showing that the deceased trustee was the survivor of all other persons named on the account either as trustee or beneficiary. A Totten trust account may be paid to a beneficiary or beneficiaries or the personal representative or heirs of a beneficiary or beneficiaries if proof of death is presented to the financial institution showing that the beneficiary or beneficiaries survived all persons named as trustees.

SEC. 36. Section 5406 of the Probate Code is amended to read:

5406. The provisions of this chapter that apply to the payment of a Totten trust account apply to an account in the name of one or more parties as trustee for one or more other persons if the financial institution has no other or further notice in writing that the account is not a Totten trust account as defined in Section 80.

SEC. 37. Section 5407 of the Probate Code is amended to read:

5407. If a financial institution is required or permitted to make payment pursuant to this chapter to a person who is a minor:

(a) If the minor is a party to a multiple-party account, payment may be made to the minor or to the minor's order, and payment so made is a valid release and discharge of the financial institution, but this subdivision does not apply if the account is to be paid to the minor because the minor was designated as a P.O.D. payee or as a beneficiary of a Totten trust account.

(b) In cases where subdivision (a) does not apply, payment shall be made pursuant to the California Uniform Transfers to Minors Act, Part 9 (commencing with Section 3900) of Division 4, or as provided in Chapter 2 (commencing with Section 3400) of Part 8 of Division 4.

SEC. 38. Section 6600 of the Probate Code is amended to read:

6600. (a) Subject to subdivision (b), for the purposes of this chapter, "decedent's estate" means all the decedent's personal property, wherever located, and all the decedent's real property located in this state.

(b) For the purposes of this chapter:

(1) Any property or interest or lien thereon which, at the time of the decedent's death, was held by the decedent as a joint tenant, or in which the decedent had a life or other interest terminable upon the decedent's death, shall be excluded in determining the estate of the decedent or its value.

(2) A multiple-party account to which the decedent was a party at the time of the decedent's death shall be excluded in determining the estate of the decedent or its value, whether or not all or a portion of the sums on deposit are community property, to the extent that the sums on deposit belong after the death of the decedent to a survivng party, P.O.D. payee, or beneficiary. As used in this paragraph, the terms "multiple-party account," "party," "P.O.D. payee," and "beneficiary" have the same meaning as given those terms in Article 2 (commencing with Section 5120) of Chapter 1 of Part 1 of Division 5.

SEC. 39. Section 13050 of the Probate Code is amended to read:

13050. (a) For the purposes of this part:

(1) Any property or interest or lien thereon which, at the time of the decedent's death, was held by the decedent as a joint tenant, or in which the decedent had a life or other interest terminable upon the decedent's death, or which was held by the decedent and passed to the decedent's surviving spouse pursuant to Section 13500, shall be excluded in determining the property or estate of the decedent or its value.

(2) A multiple-party account to which the decedent was a party at the time of the decedent's death shall be excluded in determining the property or estate of the decedent or its value, whether or not all or a portion of the sums on deposit are community property, to the extent that the sums on deposit belong after the death of the decedent to a surviving party, P.O.D. payee, or beneficiary. As used

in this paragraph, the terms "multiple-party account," "party," "P.O.D. payee," and "beneficiary" have the same meaning as given those terms in Article 2 (commencing with Section 5120) of Chapter 1 of Part 1 of Division 5.

(b) For the purposes of this part, all of the following property shall be excluded in determining the property or estate of the decedent or its value:

(1) Any vehicle registered under Division 3 (commencing with Section 4000) of the Vehicle Code or titled under Division 16.5 (commencing with Section 38000) of the Vehicle Code.

(2) Any vessel numbered under Division 3.5 (commencing with Section 9840) of the Vehicle Code.

(3) Any manufactured home, mobilehome, commercial coach, truck camper, or floating home registered under Part 2 (commencing with Section 18000) of Division 13 of the Health and Safety Code.

(c) For the purposes of this part, the value of the following property shall be excluded in determining the value of the decedent's property in this state:

(1) Any amounts due to the decedent for services in the armed forces of the United States.

(2) The amount, not exceeding five thousand dollars ($5,000), of salary or other compensation, including compensation for unused vacation, owing to the decedent for personal services from any employment.

SEC. 40. (a) A financial institution (as defined in Section 5128 of the Probate Code) has no duty to inform any of the following of the enactment of this act:

(3) Any P.O.D. payee designated on a P.O.D. account on January 1, 1990.

(4) Any agent designated on an agency account on January 1, 1990.

(b) No liability may be imposed on a financial institution for failing to inform any person designated in subdivision (a) of the enactment of this act.

SEC. 41. This act applies to accounts in existence on July 1, 1990, and accounts thereafter established.

SEC. 42. This act becomes operative on July 1, 1990.

CHAPTER 398

An act to amend Sections 801, 802, and 803 of the Business and Professions Code, relating to healing arts.

[Approved by Governor September 12, 1989 Filed with Secretary of State September 12, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 801 of the Business and Professions Code is amended to read:

801. (a) Every insurer providing professional liability insurance to a person who holds a license, certificate or similar authority from or under any agency mentioned in subdivision (a) of Section 800 (except a person licensed pursuant to Chapter 3 (commencing with Section 1200) or Chapter 5 (commencing with Section 2000) of Division 2) or the Osteopathic Initiative Act shall send a complete report to that agency as to any settlement or arbitration award over three thousand dollars ($3,000) of a claim or action for damages for death or personal injury caused by that person's negligence, error or omission in practice, or rendering of unauthorized professional services. The report shall be sent within 30 days after the written settlement agreement has been reduced to writing and signed by all parties thereto or within 30 days after service of the arbitration award on the parties.

(b) Every insurer providing professional liability insurance to a physician and surgeon licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2 or the Osteopathic Initiative Act shall send a complete report to the Board of Medical Quality Assurance or the Board of Osteopathic Examiners, as appropriate, as to any settlement or arbitration award over thirty thousand dollars ($30,000) of a claim or action for damages for death or personal injury caused by that person's negligence, error or omission in practice, or rendering of unauthorized professional services. The report shall be sent within 30 days after the written settlement agreement has been reduced to writing and signed by all parties thereto or within 30 days after service of the arbitration award on the parties.

(c) Every insurer providing professional liability insurance to a person licensed pursuant to Chapter 13 (commencing with Section 4980) or Chapter 14 (commencing with Section 4990) shall send a complete report to the Board of Behavioral Science Examiners as to any settlement or arbitration award over ten thousand dollars ($10,000) of a claim or action for damages for death or personal injury caused by that person's negligence, error, or omission in practice, or rendering of unauthorized professional services. The report shall be sent within 30 days after the written settlement agreement has been reduced to writing and signed by all parties thereto or within 30 days after service of the arbitration award on the parties.

(d) Notwithstanding any other provision of law, no insurer shall enter into such a settlement without the written consent of the insured, except that this prohibition shall not void any settlement entered into without that written consent. The requirement of written consent can only be waived by both the insured and the insurer. The provisions of this section shall only apply to a settlement on a policy of insurance executed or renewed on or after January 1, 1971.

SEC. 2. Section 802 of the Business and Professions Code is amended to read:

802. (a) Every settlement or arbitration award over three thousand dollars ($3,000) of a claim or action for damages for death or personal injury caused by negligence, error or omission in practice, or the unauthorized rendering of professional services, by a person who holds a license, certificate or other similar authority from an agency mentioned in subdivision (a) of Section 800 (except a person licensed pursuant to Chapter 3 (commencing with Section 1200) or Chapter 5 (commencing with Section 2000) of Division 2) or the Osteopathic Initiative Act who does not possess professional liability insurance as to that claim shall, within 30 days after any such written settlement agreement has been reduced to writing and signed by all the parties thereto or 30 days after service of the arbitration award on the parties, be reported to the agency which issued the license, certificate, or similar authority. A complete report shall be made by appropriate means by the person or his or her counsel, with a copy of the communication to be sent to the claimant through his or her counsel if the person is so represented, or directly if he or she is not. If, within 45 days of the conclusion of the written settlement agreement or service of the arbitration award on the parties, counsel for the claimant (or if the claimant is not represented by counsel, the claimant himself or herself) has not received a copy of the report, he or she shall himself or herself make such a complete report. Failure of the physician or claimant (or, if represented by counsel, their counsel) to comply with this section is a public offense punishable by a fine of not less than fifty dollars ($50) or more than five hundred dollars ($500). Knowing and intentional failure to comply with this section, or conspiracy or collusion not to comply with this section, or to hinder or impede any other person in such compliance is a public offense punishable by a fine of not less than five thousand dollars ($5,000) nor more than fifty thousand dollars ($50,000).

(b) Every settlement or arbitration award over thirty thousand dollars ($30,000) of a claim or action for damages for death or personal injury caused by negligence, error or omission in practice, or the unauthorized rendering of professional services, by a physician and surgeon licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2, or the Osteopathic Initiative Act, who does not possess professional liability insurance as to such claim shall, within 30 days after any such written settlement agreement has

been reduced to writing and signed by all the parties thereto or 30 days after service of the arbitration award on the parties, be reported to the agency which issued the license, certificate or similar authority. A complete report shall be made by appropriate means by the person or his or her counsel, with a copy of the communication to be sent to the claimant through his or her counsel if he or she is so represented, or directly if he or she is not. If, within 45 days of the conclusion of the written settlement agreement or service of such arbitration award on the parties, counsel for the claimant (or if the claimant is not represented by counsel, the claimant himself or herself) has not received a copy of the report, he shall himself or herself make such a complete report. Failure of the physician or claimant (or, if represented by counsel, their counsel) to comply with this section is a public offense punishable by a fine of not less than fifty dollars ($50) or more than five hundred dollars ($500). Knowing and intentional failure to comply with this section, or conspiracy or collusion not to comply with this section, or to hinder or impede any other person in such compliance is a public offense punishable by a fine of not less than five thousand dollars ($5,000) nor more than fifty thousand dollars ($50,000).

(c) Every settlement or arbitration award over ten thousand dollars ($10,000) of a claim or action for damages for death or personal injury caused by negligence, error, or omission in practice, or the unauthorized rendering of professional services, by a marriage, family, and child counselor or clinical social worker licensed pursuant to Chapter 13 (commencing with Section 4980) or Chapter 14 (commencing with Section 4990), who does not possess professional liability insurance as to that claim shall within 30 days after any such written settlement agreement has been reduced to writing and signed by all the parties thereto or 30 days after service of the arbitration award on the parties, be reported to the agency which issued the license, certificate, or similar authority. A complete report shall be made by appropriate means by the person or his or her counsel, with a copy of the communication to be sent to the claimant through his or her counsel if he or she is so represented, or directly if he or she is not. If, within 45 days of the conclusion of the written settlement agreement or service of the arbitration award on the parties, counsel for the claimant (or if he or she is not represented by counsel, the claimant himself or herself) has not received a copy of the report, he or she shall himself or herself make a complete report. Failure of the marriage, family, and child counselor or clinical social worker or claimant (or, if represented by counsel, their counsel) to comply with this section is a public offense punishable by a fine of not less than fifty dollars ($50) or more than five hundred dollars ($500). Knowing and intentional failure to comply with this section, or conspiracy or collusion not to comply with this section, or to hinder or impede any other person in that compliance is a public offense punishable by a fine of not less than five thousand dollars ($5,000) nor more than fifty thousand dollars

($50,000).

SEC. 3. Section 803 of the Business and Professions Code is amended to read:

803. Within 10 days after a judgment by a court of this state that a person who holds a license, certificate or other similar authority from the Board of Behavioral Science Examiners or from an agency mentioned in Section 800(a) (except a person licensed pursuant to Chapter 3 (commencing with Section 1200) of Division 2) has committed a crime, or is liable for any death or personal injury resulting in a judgment for an amount in excess of thirty thousand dollars ($30,000) caused by his or her negligence, error or omission in practice, or his or her rendering unauthorized professional services, the clerk of the court which rendered the judgment shall report that fact to that agency which issued the license, certificate or other similar authority.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 399

An act to amend Section 8664.8 of the Fish and Game Code, relating to commercial fishing.

[Approved by Governor September 12, 1989 Filed with Secretary of State September 12, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 8664.8 of the Fish and Game Code is amended to read:

8664.8. (a) Notwithstanding Sections 8685, 8687, 8696, and 8724, set or drift gill or trammel nets shall not be used on or after April 1,

1987, in the following ocean waters, except as provided in subdivision (d):

(1) Between a line extending 245° magnetic from the most westerly point of the west point of the Point Reyes headlands in Marin County and the westerly extension of the California-Oregon boundary.

(2) In waters which are 40 fathoms or less in depth at mean lower low water between a line extending 245° magnetic from the most westerly point of the west point of the Point Reyes headlands in Marin County and a line extending due east and west magnetic from Duxbury buoy in Marin County.

(b) Notwithstanding Sections 8687, 8696, and 8724, set or drift gill or trammel nets shall not be used in the following ocean waters from April 1, 1987, to March 31, 1988, except as provided in subdivision (d):

(1) In waters which are 20 fathoms or less in depth at mean lower low water between a line extending due east and west magnetic from Duxbury buoy in Marin County and a line extending 225° magnetic from Franklin Point in San Mateo County.

(2) In waters within five nautical miles of the most westerly point of Point San Pedro.

(c) (1) Notwithstanding Sections 8664.5, 8687, 8696, and 8724, set or drift gill or trammel nets shall not be used on and after April 1, 1988, in waters which are 40 fathoms or less in depth at mean lower low water between a line extending 245° magnetic from the most westerly point of the west point of the Point Reyes headlands in Marin County and a line extending 220° magnetic from the mouth of Waddell Creek in Santa Cruz County.

(2) Notwithstanding Sections 8664.5, 8687, 8696, and 8724, set or drift gill or trammel nets shall not be used on or after April 1, 1990, in ocean waters which are 60 fathoms or less in depth at mean lower low water between a line extending 225° magnetic from Pillar Point at Half Moon Bay in San Mateo County to a line extending 220° magnetic from the mouth of Waddell Creek in Santa Cruz County.

(d) Subdivisions (a), (b), and (c) do not apply to the use of drift gill nets operated under a permit issued by the department in that part of Arcata Bay in Humboldt County lying northeast of the Samoa Bridge during the period from April 1 to September 30, inclusive. The department may issue not more than six permits pursuant to this subdivision. Each permit shall specify the amount and type of gear which may be used under the permit.

(e) Subdivisions (a), (b), and (c) do not apply to the use of set gill nets used pursuant to Article 15 (commencing with Section 8550) of Chapter 2 of Part 3 of Division 6 or regulations adopted under that article or to the use of drift gill nets with a mesh size of 14 inches or more.

(f) (1) Notwithstanding subdivision (b) and Sections 8687, 8696, and 8724, gill or trammel nets shall not be used within three nautical miles of the Farallon Islands, and Noonday Rock buoy in San Francisco County.

(2) If the director determines that the use of set or drift gill or trammel nets is having an adverse impact on any population of any species of sea bird, marine mammal, or fish, the director shall issue an order prohibiting the use of those nets between three nautical miles and five nautical miles of the Farallon Islands and Noonday Rock buoy or any portion of that area. The order shall take effect no later than 48 hours after its issuance. The director shall hold a properly noticed public hearing in a place convenient to the affected area within one week of the effective date of the order to describe the action taken and shall take testimony as to the effect of the order and determine whether any modification of the order is necessary. Gill and trammel nets used to take fish in District 10 shall be marked at each end with a buoy displaying above its waterline in Arabic numerals at least two inches high, the certificate of vessel registration number issued by the department under Section 7881 for the vessel from which the net is being used. Nets shall be marked at both ends and at least every 250 fathoms between the ends with flags of the same color and at least 144 square inches in size, acceptable to the department.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 400

An act to amend Section 4513 of, and to add Section 4582.9 to, the Public Resources Code, relating to forest resources.

[Approved by Governor September 12, 1989 Filed with Secretary of State September 12, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 4513 of the Public Resources Code is amended to read:

4513. It is the intent of the Legislature to create and maintain an effective and comprehensive system of regulation and use of all timberlands so as to assure that:

(a) Where feasible, the productivity of timberlands is restored, enhanced, and maintained.

(b) The goal of maximum sustained production of high-quality

timber products is achieved while giving consideration to values relating to recreation, watershed, wildlife, range and forage, fisheries, employment, and aesthetic enjoyment.

SEC. 2. Section 4582.9 is added to the Public Resources Code, to read:

4582.9. (a) Notwithstanding any other provision of this chapter, the Director of Fish and Game or the State Water Resources Control Board may, not later than 10 days after approval of a plan by the director, appeal the approval to the board. At the time of filing of an appeal with the board, the person shall notify the director and the plan submitter of the appeal, and no further timber operations shall occur under the plan until the final determination of the appeal by the board.

(b) The Director of Fish and Game or the State Water Resources Control Board may appeal the approval of a plan by the director only if the Department of Fish and Game or the State Water Resources Control Board or a California regional water quality control board has (1) participated in an onsite inspection of the plan with the department and (2) participated in a multidisciplinary review of the plan. The board may establish procedures for filing an appeal and may, in order to demonstrate that a substantial issue is raised with respect to the environment or public safety, specify findings which are required to be made in filing an appeal.

(c) The board shall grant a hearing if it determines that the appeal under this section raises substantial issues with respect to the environment or to public safety. The board, by regulation, may delegate this determination to its chairperson.

(d) The board shall hold a public hearing within 30 days after the filing of an appeal, or a longer period mutually agreed upon by the board, the appellant, and the plan submitter. Witnesses may appear either at the request of a party having standing or at a request of a majority of the board or board committee holding the hearing. Within 10 days after the conclusion of the hearing, the board shall approve or deny the plan. The basis for the board's decision shall be all applicable provisions of California law, including, but not limited to, the California Timberland Productivity Act of 1982 (Chapter 6.7 (commencing with Section 51100) of Division 1 of Title 5 of the Government Code) and subdivision (d) of Section 4512. Before taking a minor into custody a social worker shall consider whether there are any reasonable services available to the worker which, if provided to the minor's parent, guardian, caretaker, or to the minor, would eliminate the need to remove the minor from the custody of his or her parent, guardian, or caretaker. The commission

shall phase in this program, on a geographical basis, over a three-year period ending on January 1, 1987.

The surcharge shall be in effect until July 1, 1992. The commission shall require that the programs implemented under this section be identified on subscribers' bills as "communication devices funds for deaf and disabled" and shall establish a fund and require separate accounting for each of the programs implemented under this section.

(2) The imposition of limits or other restrictions on maximum usage levels for the relay service, which shall include the development of a program to provide basic communications

requirements to relay users at discounted rates and, for usage in excess of those basic requirements, at rates which recover the full costs of service.

The members of the board of supervisors of the county shall be ex officio members of the board of directors of the agency. Two members of the board of directors shall be elected by the voters in accordance with this section. The other elected director shall reside south of the Yuba River and shall be elected by voters residing south of the Yuba River.

(b) The term of office of the two elected directors shall be four years, except that the initial terms of office shall be staggered with one director, chosen by lot, serving for a term of two years. The two elected directors shall initially be elected at the general election held on November 6, 1990, and shall take office at the first meeting of the board of directors after January 1, 1991.

(c) Directors shall be entitled to receive from the agency the sum of twenty dollars ($20) for each meeting attended, plus actual, necessary and reasonable traveling expenses. SEC. 2. The Yuba County Water Agency Advisory Council is hereby abolished.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 415

An act to amend Section 29632 of, and to add Section 29630.5 to, the Elections Code, relating to elections.

[Approved by Governor September 13, 1989 Filed with Secretary of State September 13, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 29630.5 is added to the Elections Code, to read:

29630.5. (a) No person shall, with the intent of dissuading another person from voting, within 100 feet of a polling place:

(b) Every person who conspires to violate subdivision (a) is guilty of a felony.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 416

An act to amend Sections 14 and 14.3 of the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945), and to amend Sections 32, 201, 202, 205, 521, and 700 of the Colusa Basin Drainage District Act (Chapter 1399 of the Statutes of 1987), relating to water agencies.

[Approved by Governor September 13, 1989 Filed with Secretary of State September 13, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 14 of the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945) is amended to read:

Sec. 14. (a) The board of supervisors of the district shall have power in any year to do both of the following:

(1) Levy an ad valorem tax or an assessment upon all taxable property in the district to pay the costs and expenses of the district and to carry out any of the objects or purposes of this act of common benefit to the district as a whole. However, the ad valorem tax or the assessment shall not exceed two and one-half cents ($0.025) on each one hundred dollars ($100) of assessed valuation. It is declared that for purposes of such a tax or assessment all property within the district is equally benefited.

(2) Levy an ad valorem tax or an assessment upon all taxable property in each or any of the zones, according to the benefits derived or to be derived by the respective zones to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to the respective zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works or improvements within the respective zones. Except as provided in subdivisions (b) and (c), in the case of any assessment under this act, the benefit may be determined on the basis of the proportionate storm water runoff from each parcel. It is declared that all property within a given zone that is located within a watershed or watersheds which are tributary to an existing or proposed flood control improvement is equally benefited.

(b) Whenever a railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way is included within an area proposed to be assessed, the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way shall be subject to the assessment only if, and to the extent that, it is found that it will benefit from the service, and the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way shall be subject to the same penalties, and the same procedure and sale, in the event

of delinquencies, as other parcels in the assessment area. In determining whether or not the railroad, gas, water, telephone, cable television, electric utility right-of-way, electric line right-of-way, or other utility right-of-way benefits from the services provided, its use as a right-of-way for a railroad, gas, water, telephone, cable television, electric, or other utility shall be presumed to be permanent.

(c) Proportionate storm water runoff may be used as a measure of benefit on an undeveloped parcel of land pursuant to this section only if, and to the extent that, it is found that it will benefit from the service.

For the purposes of this section, "undeveloped parcel of land" means a parcel of rural land in its undeveloped natural state, although the land may be grazed, if otherwise undisturbed, in a manner consistent with the normally accepted grazing land management practices for that geographic area. "Undeveloped parcel of land" also includes wetlands and marshlands if undisturbed and subject to periodic inundation. For purposes of this section, "rural land" is land which is outside of an urbanized area as designated by the most recent federal decennial census of the United States Bureau of the Census.

(d) The taxes or assessments shall be levied and collected together with, and not separately from, taxes for county purposes, and the revenues derived from the taxes or assessments shall be paid into the county treasury to the credit of the district and the board of supervisors of the district shall have the power to control and order the expenditure thereof for those purposes. However, no revenues, or portions thereof, derived in any of the several zones from the taxes or assessments levied under the provisions of paragraph (2) of subdivision (a) shall be expended for constructing, maintaining, operating, extending, repairing, or otherwise improving any works or improvements located in any other zone except joint projects or joint works of improvement in two or more zones or works of improvement which are for the common benefit of two or more zones. The aggregate taxes or assessments levied under this act for any one fiscal year shall not exceed forty cents ($0.40) on each one hundred dollars ($100) of assessed valuation of the taxable property in the zones exclusive of any tax levied to meet the bonded indebtedness of any of the zones and the interest thereon.

(e) Assessments levied pursuant to this section to pay the cost of constructing, maintaining, operating, extending, repairing, or otherwise improving works or improvements shall be based upon the benefit that each parcel of real property to be assessed will derive from the works and improvements to be constructed, maintained, operated, extended, or repaired. For purposes of levying any assessment, the board of supervisors may establish one or more zones of benefit, including parcels of real property which benefit similarly from those works and improvements, and may levy different assessments within those zones. The zones of benefit shall be identified and described in a resolution adopted by the board of

supervisors. In levying assessments pursuant to this section, the board of supervisors shall be subject to the substantive requirements of Section 54711 of the Government Code and shall employ the procedures provided for in Sections 54715 and 54716 of the Government Code, except that, if, prior to the conclusion of the hearing, written protests against the proposed assessment signed by 25 percent of the eligible voters within the area to be assessed are filed with the board, further proceedings relating to the proposed assessment shall be suspended for not less than one year following the date of the conclusion of the hearing. Proceedings for levying assessments pursuant to this section may be combined with proceedings for levying assessments pursuant to Sections 26.1 to 26.9, inclusive, and the procedures prescribed by those sections shall be modified as the board deems necessary to accommodate the combination of the proceedings. Assessments levied pursuant to this section may, but need not be, ad valorem assessments.

The amendment of this section made at the 1989–90 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the existing law.

SEC. 2. Section 14.3 of the Riverside County Flood Control and Water Conservation District Act (Chapter 1122 of the Statutes of 1945) is amended to read:

Sec. 14.3. The board of supervisors of the district may issue negotiable promissory notes pursuant to this section for the purpose of acquiring funds to finance construction of administrative offices, construction of headquarters, commercial offices or facilities for similar district purposes, and for acquisition of land for any of the foregoing district purposes. The maturity of the promissory notes shall not be later than 10 years from the date thereof. The total aggregate amount of the promissory notes outstanding at any one time shall not exceed the lesser of either four million dollars ($4,000,000) or 1 percent of the assessed valuation of the taxable property in the district or zone or zones thereof as shown on the last assessment roll.

SEC. 3. Section 32 of the Colusa Basin Drainage District Act (Chapter 1399 of the Statutes of 1987) is amended to read:

Sec. 32. The district shall comprise generally the valley lands within the watershed of the Colusa Basin which are tributary to the mouth of the Colusa Basin Drain at the Knights Landing Outfall Gates. The boundary of the district is delineated on United States Geological Survey Quadrangles on file with the Northern District office of the Department of Water Resources in Red Bluff. The boundary of the district is described generally as commencing at the State Highway Route 113 bridge across the Knights Landing Ridge Cut, thence along the Knights Landing Ridge between the Colusa Basin and the Cache Creek watersheds southerly and westerly through the town of Yolo to the intersection of the westerly boundary of the United States Bureau of Reclamation (USBR) Tehama-Colusa Canal Service Area (as shown on the USBR map of

the Sacramento River Division, Sacramento Canals Unit, California, Tehama-Colusa Canal Service Area, including Sacramento River Water Districts [dated September 11, 1969, Rev. 9-82, drawing #602-208-1766]), thence northerly and westerly along that boundary until it intersects the ridge separating the Stony Creek and Colusa Basin watersheds approximately four miles east of Orland, except that where Colusa Basin water, irrigation, reclamation, or drainage district boundaries or the Tehama-Colusa Canal are west of the USBR Service Area boundary, that the westernmost boundary of either will prevail, thence along the ridge separating lands that are tributary to the Colusa Basin from those tributary to Stony Creek or the Sacramento River to where the ridge intersects the northernmost end of the westerly or right bank levee of the Sacramento River near the town of Ordbend, thence southerly along the westerly or right bank levee of the Sacramento River to the Knights Landing Outfall Gates, thence along the southerly bank of the Colusa Basin Drain to the northerly end of the Knights Landing Ridge Cut, thence along the easterly bank of the Knights Landing Ridge Cut to the State Highway Route 113 bridge. The assessors of Glenn, Colusa, and Yolo Counties shall conform the boundary of the district to the boundaries nearest the exterior watershed boundary, as described above, of the assessment parcels lying totally within the watershed and situated nearest to that exterior boundary, except as to the easterly boundary which shall be the westerly or right bank levee of the Sacramento River. Each county assessor shall, within a reasonable time after January 1, 1988, hold a hearing within the respective county for the purpose of conforming the district boundary to the assessment parcel boundaries as provided herein. Notice shall be published once a week for two successive weeks in a newspaper of general circulation within the county stating that a hearing will be held for the purpose of conforming the district boundary to the boundaries of the nearest assessment parcels. Notice shall also be given by mail at least two weeks prior to the hearing to the owners of those assessment parcels within the respective county directly affected by this conformance, mailed to the address shown on the records of the assessor. At the hearing, the assessor shall present a map showing the proposed boundary as conformed to the boundaries of the nearest assessment parcels, and shall hear any objections which may be made to that boundary. Following the hearing the assessor shall describe the precise boundary of the district as conformed to the nearest assessment parcels, and shall record in the records of that particular county the description of the boundary of the district within that county, including the westerly or right bank levee of the Sacramento River as the most easterly boundary. The costs of notice, hearing, and preparation of the description shall be included as formation costs of the district.

SEC. 4. Section 201 of the Colusa Basin Drainage District Act (Chapter 1399 of the Statutes of 1987) is amended to read:

Sec. 201. (a) One director each shall be appointed by the Board

Each district shall have one vote to be cast by a proxy designated by resolution of the governing board of that district and may vote for the representative of the division in which a majority of the land within the district authorizing the proxy is located. A majority of the votes cast in the respective divisions shall be required for selection of the director from that division.

(c) The initial three directors shall be selected not later than September 15, 1988. The meeting to make these selections shall be convened by the Director of Water Resources or his or her representative.

Sec. 205. Except for the initial directors, the directors shall serve for terms of four years. The terms shall be concurrent with the terms of district officials elected under the Uniform District Election Law. interested person may appear and be heard concerning any matter set forth in the resolution or any matter material thereto.

Upon the conclusion of the hearing, the board may abandon the proposal, or order the election on the proposal within the area affected. If prior to the conclusion of the hearing, or any continued hearing, written protest against the proposal signed by a majority in number of the eligible voters within the area determined to be benefited pursuant to Section 520 are filed with the board, further proceedings relating to the proposal shall be suspended for not less than six months following the date of the conclusion of the hearing.

If there is a majority protest, the board shall not proceed with the proposal before holding an election within the affected area. A majority of the votes cast at the election shall be required to approve the proposal to issue the bonds.

The Legislature finds and declares that California's system of fostering and monitoring residential care facilities for our rapidly increasing population of frail elderly and disabled adults has resulted in an uneven and unacceptable standard of care. According to estimates provided by long-term care ombudsmen in various counties, from 20 to 50 percent of residential care facilities for the elderly have been categorized as "substandard and unlivable." As recommended by the Little Hoover Commission in the Report on Community Residential Care for the Elderly, January 1989, one of the most direct paths to upgrading the quality of residential care is to require certification of onsite administrative personnel. It is in the state's interest to act upon this recommendation.

The study shall also address minimum education and training requirements for residential care facility for the elderly personnel who provide direct care and supervision to residents. An advisory committee shall be established by the department to provide guidance and assistance and to review the department's conclusions. The advisory committee shall include representatives from residential care facility for the elderly providers, consumers, and the State Departments of Social Services, Consumer Affairs, Aging, Mental Health, and Developmental Services. The State Department of Social Services shall submit a report to the Legislature on or before December 1, 1990, on the findings of the study. The report shall include information specified in the Department of Consumer Affairs' Sunrise Model report and shall identify an appropriate state agency to carry out the administration of the certification process. It is the intent of the Legislature that, subsequent to the receipt of this report by the Legislature, legislation be enacted for the establishment of residential care for the elderly administrator certification requirements. The study shall be funded in accordance with subdivision (b).

(b) There is hereby established in the State Treasury the

Residential Care Facility for the Elderly Administrative Certification Fund. All money in the fund shall be used to perform the study required by subdivision (a). Notwithstanding Section 13340 of the Government Code, all moneys deposited in the Residential Care Facility for the Elderly Administrative Certification Fund are continuously appropriated to the State Department of Social Services without regard to fiscal years for the purposes of the fund.

Notwithstanding Section 1569.18 of the Health and Safety Code, fees collected for the application for and the renewal of residential care facility for the elderly licenses shall be credited to the Residential Care Facility for the Elderly Administrative Certification Fund up to an amount not to exceed one hundred thousand dollars ($100,000).

Any moneys deposited in the Residential Care Facility for the Elderly Administrative Certification Fund which remain unexpended on the date that the study required by this section is submitted to the Legislature shall be expended in accordance with Section 1569.18 of the Health and Safety Code.

(c) This section shall remain in effect only until July 1, 1991, and as of that date is repealed, unless a later enacted statute chaptered prior to July 1, 1991, deletes or extends that date.

Service in this manner is deemed complete on the 10th day after delivery of the process to the Secretary of State.

(b) Upon the receipt of any such copy of process and the fee therefor, the Secretary of State shall give notice of the service of the process to the corporation at its principal executive office, by forwarding to such office, by registered mail with request for return receipt, the copy of the process or, if the records of the Secretary of State do not disclose an address for its principal executive office, by forwarding such copy in the same manner to the last designated agent for service of process who has not resigned. Service in this manner is deemed complete on the 10th day after delivery of the process to the Secretary of State.

488.730. (a) The levying officer shall release attached property when the levying officer receives a written direction to release the property from the plaintiff's attorney of record or, if the plaintiff does not have an attorney of record, from the plaintiff or when the levying officer receives a certified copy of a court order for release or when otherwise required to release the property. The release extinguishes any attachment lien in favor of the plaintiff on the property released.

(b) If the property to be released has been taken into custody under the levy, it shall be released to the person from whom it was taken unless otherwise ordered by the court. If the person does not claim the property to be released, the levying officer shall retain custody of the property and shall serve on the person a notice of

where possession of the property may be obtained. If the person does not claim the property within 30 days after the notice is served, the levying officer shall sell the property (other than cash which does not have a value exceeding its face value) in the manner provided by Article 6 (commencing with Section 701.510) of Chapter 3 of Division 2 of Title 9. The levying officer shall deposit the proceeds of sale and cash, after first deducting the levying officer's costs, with the county treasurer of the county where the property is located payable to the order of the person. If the amount deposited is not claimed by the person or the legal representative of the person within five years after the deposit is made, by making application to the treasurer or other official designated by the county, it shall be paid into the general fund of the county.

(c) If the property to be released has not been taken into custody under the levy, the levying officer shall release the attachment by issuing a written notice of release and serving it on the person who was served with a copy of the writ and a notice of attachment to create the lien.

(d) If the property to be released was levied upon by recording or filing a copy of the writ and a notice of attachment, the levying officer shall record or file a written notice of release in the same office. If the notice of attachment had been filed with the Secretary of State, any release shall have the effect prescribed in Section 697.650.

(e) The levying officer is not liable for releasing an attachment in accordance with this section and no other person is liable for acting in conformity with the release.

SEC. 2. Section 697.590 of the Code of Civil Procedure is amended to read:

697.590. (a) As used in this section:

security interest" as defined in Section 9107 of the Commercial Code.

(b) Except as provided in subdivisions (d) and (e), priority between a judgment lien on personal property and a conflicting security interest in the same personal property shall be determined according to this subdivision. Conflicting interests rank according to priority in time of filing or perfection. In the case of a judgment lien, priority dates from the time filing is first made covering the personal property. In the case of a security interest, priority dates from the time a filing is first made covering the personal property or the time the security interest is first perfected, whichever is earlier, provided that there is no period thereafter when there is neither filing nor perfection.

(c) For the purposes of subdivision (b), a date of filing or perfection as to personal property is also a date of filing or perfection as to proceeds.

(d) A purchase money security interest has priority over a conflicting judgment lien on the same personal property or its proceeds if the purchase money security interest is perfected at the time the judgment debtor (as a debtor under the security agreement) receives possession of the personal property or within 20 days thereafter.

(e) If a purchase money security interest in inventory has priority over a judgment lien pursuant to subdivision (d) and a conflicting security interest has priority over the purchase money security interest in the same inventory pursuant to subdivision (3) of Section 9312 of the Commercial Code, the conflicting security interest also has priority over the judgment lien on the inventory subject to the purchase money security interest notwithstanding that the conflicting security interest would not otherwise have priority over the judgment lien.

(f) A judgment lien that has attached to personal property and that is also subordinate under subdivision (b) to a security interest in the same personal property is subordinate to the security interest only to the extent that the security interest secures advances made before the judgment lien attached or within 45 days thereafter or made without knowledge of the judgment lien or pursuant to a commitment entered into without knowledge of the judgment lien. For the purpose of this subdivision, a secured party shall be deemed not to have knowledge of a judgment lien on personal property until (1) the judgment creditor serves a copy of the notice of judgment lien on the secured party personally or by mail and (2) the secured party has knowledge of the judgment lien on personal property, as "knowledge" is defined in Section 1201 of the Commercial Code. If service on the secured party is by mail, it shall be sent to the secured party at the address shown in the financing statement or security agreement.

SEC. 3. Section 697 650 of the Code of Civil Procedure is amended to read:

697.650. (a) The judgment creditor may by a writing do any of

the following:

(1) Release the judgment lien on all the personal property subject to the lien of a sole judgment debtor or of all the judgment debtors.

(2) If the notice of judgment lien names more than one judgment debtor, release the judgment lien on all the personal property subject to the lien of one or more but of less than all the judgment debtors.

(3) Release the judgment lien on all or a part of the personal property subject to the lien.

(4) Subordinate to a security interest or other lien or encumbrance the judgment lien on all or a part of the personal property subject to the judgment lien.

(b) A statement of release or subordination is sufficient if it is signed by the judgment creditor and contains the name and address of the judgment debtor, the file number of the notice of judgment lien, and wording appropriate to bring the statement within one of the paragraphs of subdivision (a). In the case of a release under paragraph (3) of subdivision (a), the statement of release shall also describe the property being released. In the case of a subordination under paragraph (4) of subdivision (a), the statement of subordination shall also describe the property on which the judgment lien is being subordinated and describe the security interest or other lien or encumbrance to which the judgment lien is being subordinated.

(c) The filing officer shall treat the filing of a statement of release pursuant to paragraph (1) of subdivision (a) of this section in the same manner as a termination statement filed pursuant to Section 9404 of the Commercial Code. The filing officer shall treat the filing of a statement of release pursuant to paragraph (2) of subdivision (a) of this section in the same manner as a comparable amendment filed pursuant to subdivision (4) of Section 9402 of the Commercial Code. The filing officer shall treat the filing of a statement of release pursuant to paragraph (3) of subdivision (a) of this section and the filing of a statement of subordination filed pursuant to paragraph (4) of subdivision (a) of this section in the same manner as a statement of release filed pursuant to Section 9405 of the Commercial Code.

(d) The fee for filing the statement is the same as that provided in Section 9405 of the Commercial Code.

(j) Using available data, the racial, ethnic, and sex breakdown of all test subjects taking each test during the testing year.

(k) If a separate fee is charged test subjects for admissions data assembly service, the test sponsor shall report information concerning the data assembly service in substantially the same form as would be required for a test under this section.

(*l*) The test sponsor shall also supply to the commission any other information mutually identified by the commission and the test sponsor that will be reasonably available and helpful in either (1) assessing the state's progress in increasing the number of Hispanic, Black, or American Indian students who graduate from high school eligible to enroll in either the University of California or the California State University or (2) developing strategies to involve the testing companies in cooperative actions with schools, colleges, and universities to expand access to college for Hispanic, Black, and American Indian students.

(m) This section shall not be construed to require any test agency to submit to the commission any reports or documents containing information relating to any individual test subject. Any information relating to any individual test subject shall be deleted or obliterated from any reports or documents filed with the commission pursuant to this section.

(n) This section shall not apply to any standardized test which is administered to fewer than 3,000 test subjects in California during a testing year.

SEC. 2. Section 99155 of the Education Code is amended to read:

The testing companies shall cooperate with the commission in the sharing of available information and the development of policy recommendations for strengthening the college preparatory curriculum and increasing the availability of test preparation activities for students from ethnic groups traditionally underrepresented in postsecondary education. The commission shall present specific recommendations on (1) methods to remove the inappropriate obstacles that standardized college admissions tests may provide in precluding some students from obtaining regular admission to public colleges and universities and (2) strategies to involve the testing companies in cooperative actions with the schools, colleges, and universities to expand access to college for Hispanic, Black, and American Indian students.

The people of the State of California do enact as follows:

SECTION 1. Section 31656 of the Government Code is amended to read:

31656. CHAPTER 449

An act to amend Sections 42281, 42282, and 42284, of the Education Code, relating to school finance.

[Approved by Governor September 14, 1989 Filed with Secretary of State September 15, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 42281 of the Education Code is amended to read:

42281. Except as specified in subdivision (d), for each elementary school district that maintains only one school with a second principal apportionment average daily attendance of less than 101, the county superintendent shall make one of the following computations, whichever provides the lesser amount:

(a) For each small school that has an average daily attendance during the fiscal year of less than 26, exclusive of pupils attending the 7th and 8th grades of a junior high school, and for which school at least one teacher was hired full time, the county superintendent shall compute for the district fifty-two thousand nine hundred twenty-five dollars ($52,925).

(b) For each small school that has an average daily attendance during the fiscal year of 26 or more and less than 51, exclusive of pupils attending the 7th and 8th grades of a junior high school, and for which school at least two teachers were hired full time for more than one-half of the days schools were maintained, the county superintendent shall compute for the district one hundred five thousand eight hundred fifty dollars ($105,850).

(c) For each small school that has an average daily attendance during the fiscal year of 51 or more but less than 76, exclusive of pupils attending the 7th and 8th grades of a junior high school, and for which school three teachers were hired full time for more than one-half of the days schools were maintained, the county superintendent shall compute for the district one hundred fifty-eight thousand seven hundred seventy-five dollars ($158,775).

(d) For each small school that has an average daily attendance during the fiscal year of 76 or more and less than 101, exclusive of pupils attending the 7th and 8th grades of a junior high school, and for which school four teachers were hired full time for more than one-half of the days schools were maintained, the county superintendent shall compute for the district two hundred eleven thousand seven hundred dollars ($211,700). A school district that qualifies under this subdivision may use this funding calculation until the revenue limit per unit of average daily attendance multiplied by the average daily attendance produces state aid equal to the small school funding formula.

SEC. 2. Section 42282 of the Education Code is amended to read:

42282. For each district with fewer than 2,501 units of second principal apportionment average daily attendance, on account of each necessary small school, the county superintendent shall make the following computations:

(a) For each necessary small school which has an average daily attendance during the fiscal year of less than 26, exclusive of pupils attending the 7th and 8th grades of a junior high school, and for which school at least one teacher was hired full time, the county superintendent shall compute for the district fifty-two thousand nine hundred twenty-five dollars ($52,925).

(b) For each necessary small school which has an average daily attendance during the fiscal year of 26 or more and less than 51, exclusive of pupils attending the 7th and 8th grades of a junior high school, and for which school at least two teachers were hired full time for more than one-half of the days schools were maintained, the county superintendent shall compute for the district one hundred five thousand eight hundred fifty dollars ($105,850).

(c) For each necessary small school which has an average daily attendance during the fiscal year of 51 or more but less than 76, exclusive of pupils attending the 7th and 8th grades of a junior high school, and for which school three teachers were hired full time for more than one-half of the days schools were maintained, the county superintendent shall compute for the district one hundred fifty-eight thousand seven hundred seventy-five dollars ($158,775).

(d) For each necessary small school which has an average daily attendance during the fiscal year of 76 or more and less than 101, exclusive of pupils attending the 7th and 8th grades of a junior high school, and for which school four teachers were hired full time for more than one-half of the days schools were maintained, the county superintendent shall compute for the district two hundred eleven thousand seven hundred dollars ($211,700). These school districts may use this funding calculation until the revenue limit per unit of average daily attendance multiplied by the average daily attendance produces state aid equal to the small school funding formula.

SEC. 3. Section 42284 of the Education Code is amended to read:

42284. For each district with fewer than 2,501 units of average daily attendance, on account of each necessary small high school, the county superintendent of schools shall make one of the following computations selected with regard only to the number of certificated employees employed or average daily attendance, whichever provides the lesser amount:

Average daily attendance	Minimum number of certificated employees	Amount to be computed
1– 20	less than 3	$42,980 per teacher
1– 20	3	191,340
21– 40	4	234,320
41– 60	5	277,300
61– 75	6	320,280
76– 90	7	363,260
91–105	8	406,240
106–120	9	449,220
121–135	10	492,200
136–150	11	535,180
151–180	12	578,160
181–220	13	621,140
221–260	14	664,120
261–300	15	707,100

For purposes of this section, a "certificated employee" means an equivalent full-time position of an individual holding a credential authorizing service and providing service in grades 9 through 12 in any secondary school. Any fraction of an equivalent full-time position remaining after all equivalent full-time positions for certificated employees within the district have been calculated shall be deemed to be a full-time position.

A school district that qualifies under this section may use the funding calculation as provided in this section until the revenue limit per unit of average daily attendance multiplied by the average daily attendance produces state aid equal to the funding provided under this section.

SEC. 4. Regardless of the time this act becomes effective, it is the intent of the Legislature to make changes in state apportionments to school districts for the entire 1989–90 fiscal year. For the purpose of implementing the changes required by Section 1, the Superintendent of Public Instruction and other public officers shall take all necessary steps to effect the required adjustments, including the authority to adjust allowance computations, apportionments, and disbursements ordered from Section A of the State School Fund and other public funds.

(c) No system exists to monitor and evaluate the efficacy of these measures or to determine the achievement of the Legislature's goals.

(d) This lack of accurate and up-to-date comprehensive statistics hampers the ability of the Legislature to make informed and timely policy decisions.

The demand shall state the purpose for which the list is requested. The membership list shall be made available on or before the later of 10 business days after the demand is received or after the date specified therein as the date as of which the list is to be compiled.

In any subsequent action brought by the member under Section 6336, the court shall enforce the rights set forth in subdivision (a) unless the corporation proves that the member will allow use of the information for purposes unrelated to the person's interest as a member or that the alternative method offered reasonably achieves the proper purpose set forth in the demand.

(c) The corporation may, within 10 business days after receiving a demand under subdivision (a), deliver to the person or persons making the demand a written offer of an alternative method of achieving the purpose identified in the demand without providing

access to or a copy of the membership list. An alternative method which reasonably and in a timely manner accomplishes the proper purpose set forth in a demand made under subdivision (a) shall be deemed a reasonable alternative, unless within a reasonable time after acceptance of the offer the corporation fails to do those things which it offered to do. Any rejection of the offer shall be in writing and shall indicate the reasons the alternative proposed by the corporation does not meet the proper purpose of the demand made pursuant to subdivision (a).

CHAPTER 452

SECTION 1. Section 8210 is added to the Fish and Game Code, to read:

8210. (a) The Legislature finds and declares that the spring run of king salmon of the Klamath River Basin is presently underutilized and could sustain an increased ocean commercial hook and line fishery. The Legislature further finds and declares that this fishery would help local fishermen whose seasons have been severely impacted by the Pacific Fishery Management Council within the Klamath Management Zone which has sought to increase the returns of fall run king salmon to the Klamath River by restricting the ocean commercial salmon fishery.

(b) The director, after consultation with the National Oceanic and Atmospheric Administration and the Director of the Oregon Department of Fish and Wildlife, may open commercial king salmon fishing in ocean waters of this state, in times and areas as may be appropriate, to harvest the underutilized spring run king salmon stocks.

(c) A comparison of the systems, programs, methods, and services used to provide opportunities to redeem beverage containers to consumers by certified recycling centers established pursuant to this division, and by recycling centers which were in existence prior to the enactment of this division.

(d) Information which compares the economic efficiencies of recycling centers and programs. This information shall include the amounts of redemption values, redemption bonuses, convenience incentive payments, administrative fees and other payments from the California Beverage Container Recycling Fund provided to consumers and to recycling centers and programs, including those recycling centers and programs which were established pursuant to this division and recycling centers which were in existence prior to the enactment of this division.

(e) Recommendations for modifications to this division which would improve consumer convenience and improve the economic efficiencies of recycling centers and programs, if the department determines that those modifications are necessary.

CHAPTER 455

An act to amend Section 44942 of the Education Code, relating to schools.

[Approved by Governor September 14, 1989. Filed with Secretary of State September 15, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 44942 of the Education Code is amended to read:

44942. (a) Any certificated employee may be suspended or transferred to other duties by the governing board if the board has reasonable cause to believe that the employee is suffering from mental illness of such a degree as to render him or her incompetent to perform his or her duties.

(b) The governing board shall immediately, upon any suspension or transfer under this section, give to the employee a written statement of the facts giving rise to the board's belief, and an opportunity to appear before the board within 10 days to explain or refute the charges.

(c) If, after the employee's appearance before the board, the board decides to continue the suspension or transfer, or if the employee chooses not to appear before the board, the employee shall then be offered, in writing, the opportunity of being examined by a panel consisting of three persons who are either psychiatrists or psychologists, at least one of whom shall be a psychiatrist, selected by him or her from a list of psychiatrists and psychologists to be provided by the board. To assist the panel in making its determination, the governing board shall supply to the panel, prior to the date scheduled for the examination, a list of the duties of the position from which the employee was suspended or transferred. The employee shall continue to receive his or her regular salary and all other benefits of employment during the period dating from his or her suspension to the filing of the report of the panel with the governing board.

(d) The examination shall be conducted at school district expense within 15 days of any suspension or transfer ordered under this section. The employee shall submit to the examination, but shall be entitled to be represented by a psychiatrist, psychologist licensed under Chapter 6.6 (commencing with Section 2900) of Division 2 of the Business and Professions Code, or physician of his or her own choice, and any report of the psychiatrist, psychologist, or physician selected by him or her shall be filed with the panel at the request of the employee.

A written report of the panel on the examination of the suspended or transferred employee shall be submitted to the governing board no later than 10 days after completion of the examination. A copy

shall be supplied to the employee upon request. The report shall contain a finding on whether the employee is suffering from mental illness of such a degree as to render him or her incompetent to perform his or her duties.

(e) If a majority of the panel conclude that the employee should be permitted to return to his or her duties, no written record of the suspension or of the determination of the panel shall be retained, and in all respects any written record concerning the employee shall appear as it did before the suspension was made.

(f) If a majority of the panel find in the panel's report that the employee is suffering from mental illness of such a degree as to render him or her incompetent to perform his or her duties, the governing board may, upon receipt of the report, place the employee on mandatory sick leave of absence. Any mandatory sick leave of absence imposed under this section shall not exceed two years, during which period the employee shall be entitled to sick leave and hospital and medical benefits that he or she accrued during his or her employment by the governing board but only to the extent of that accrual.

(g) Any employee placed on mandatory sick leave of absence pursuant to this section may, in writing, immediately demand a hearing. Upon receipt of that written demand, the governing board shall file a complaint in the superior court of the county in which the school district, or the major part thereof, is located, setting forth the charges against the employee and asking that the court inquire into the charges and determine whether or not the charges are true, and, if true, whether they constitute sufficient grounds for placing the employee on mandatory sick leave of absence, and for a judgment pursuant to its findings.

(h) If the court finds that the employee was not, at the time of the suspension, incompetent to perform his or her assigned duties and should not have been placed on mandatory sick leave of absence, the employee shall be immediately reinstated to the same or a substantially similar position with full back salary, and any written record of the suspension or transfer or any report of the panel shall be destroyed.

(i) If the court confirms the placing of the employee on mandatory sick leave, or if the employee does not seek a hearing, then, upon written request of the employee made not earlier than six months nor later than two years after the date he or she was placed on mandatory sick leave of absence, a new panel consisting of three persons who are either psychiatrists or psychologists, at least one of whom shall be a psychiatrist, shall be convened by, and at the expense of, the governing board to review its original conclusion. If the original conclusion is not changed by the new panel as a result of that review, the employee shall be continued on the mandatory sick leave of absence, except that when the employee's total period of absence exceeds two years, the governing board shall either rescind its action and reinstate the employee to the same or a

substantially similar position, or shall serve the employee with a notice of intention to dismiss him or her, and proceed according to Section 44943.

(j) If a majority of the new panel concludes in its report, or any subsequent review thereof, that the suspended employee or employee on mandatory sick leave of absence should be permitted to return to his or her duties, or if the court so concludes, the governing board shall take immediate action to restore the employee to the position from which he or she was suspended or transferred or to a substantially similar position.

(k) Every hearing and action by or before the governing board pursuant to this section shall be in executive session, and no decision, action, or occurrence therein shall be made public, unless the employee so requests in writing.

(*l*) Nothing in this section shall be construed to supersede Section 44949.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 456

[Approved by Governor September 14, 1989 Filed with Secretary of State September 15, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 10925 of the Fish and Game Code is amended to read:

10925. (a) In that part of District 1½ comprising the waters of Francis Creek, Rees Creek, and Williams Creek, and in that part of District 1⅜ comprising the waters of the Sawmill Pond, it is unlawful for any person over the age of 14 to take any fish. Not more than five fish may be taken and possessed from those waters during one day.

(b) It is the purpose of this section to create a junior fishing reserve for young people so that they may practice the art of angling

safely without interference with, or being interfered with by, licensed sporting fishermen and others during lawful fishing seasons.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 457

An act to amend Section 3068.1 of the Civil Code, and to amend Section 22851 of, and to add Section 22856 to, the Vehicle Code, relating to vehicles.

[Approved by Governor September 14, 1989 Filed with Secretary of State September 15, 1989]

The people of the State of California do enact as follows:

(c) If the vehicle has been determined to have a value exceeding one thousand dollars ($1,000) pursuant to Section 22670 of the Vehicle Code, the lien shall be satisfied pursuant to Section 3071. The storage lien may be for a period not exceeding 60 days or, if an application for an authorization to conduct a lien-sale has been filed pursuant to Section 3071 within 30 days after the lien arises, a period not exceeding 120 days.

SEC. 2. Section 22851 of the Vehicle Code is amended to read:

22851. (a) Whenever a vehicle has been removed to a garage under this chapter and the keeper of the garage has received the

notice or notices as provided herein, the keeper shall have a lien dependent upon possession for his or her compensation for towage and for caring for and keeping safe the vehicle for a period not exceeding 60 days or, if an application for an authorization to conduct a lien sale has been filed pursuant to Section 3068.1 of the Civil Code within 30 days after the removal of the vehicle to the garage, 120 days and, if the vehicle is not recovered by the owner within that period or the owner is unknown, the keeper of the garage may satisfy his or her lien in the manner prescribed in this article. The lien shall not be assigned. Possession of the vehicle is deemed to arise when a vehicle is removed and is in transit.

(b) No lien shall attach to any personal property in or on the vehicle. The personal property in or on the vehicle shall be given to the registered owner or the owner's authorized agent upon demand. The lienholder shall not be responsible for property after any vehicle has been disposed of pursuant to this chapter.

SEC. 3. Section 22856 is added to the Vehicle Code, to read:

22856. Notwithstanding any other provision of law, no cause of action for despoliation of evidence shall arise against any towing company that sells any vehicle at, or disposes of any vehicle after, a lien sale, unless the company knew, or should have known, that the vehicle will be needed as evidence in a legal action.

CHAPTER 458

An act to add Sections 1514, 1569.314, and 1596.861 to the Health and Safety Code, relating to health.

[Approved by Governor September 14, 1989 Filed with Secretary of State September 15, 1989]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares the following:

(1) The population of the United States of persons over 80 years old will grow from 2.9 million in 1980 to 7.9 million in 2020—an increase of nearly 175 percent in only 40 years. In California, the aging of the population is accelerating more rapidly than in the nation at large.

(2) Personal care or mobility assistance is needed by 15.4 percent of persons over the age of 65. Many more of those persons over the age of 65 are too vulnerable, frail, or lonely to live independently in their own homes, but they do not need the intensive medical care and attention provided by skilled nursing facilities. Residential care facilities provide an appropriate alternative which allows older Californians to maintain a sense of independence within a home setting.

(3) The number of working parents with small children in need of formal child-care arrangements has increased dramatically in the past 10 years and is expected to continue to rise.

(4) The number of child-care options available to working parents is also increasing.

(5) The public is often unaware as to whether residential care facilities and child care facilities are actually licensed and may make judgments regarding providers without reasonable certainty of the provider's qualifications.

(b) It is the intent of the Legislature to require all residential care facilities which are licensed by the state and all child care facilities which are licensed by the state to include their license number in all advertisings.

SEC. 2. Section 1514 is added to the Health and Safety Code, to read:

1514. (a) Each residential care facility licensed under this chapter shall reveal its license number in all advertisements, publications, or announcements made with the intent to attract clients or residents.

(b) Advertisements, publications, or announcements subject to the requirements of subdivision (a) shall include, but are not limited to, those contained in the following:

(1) Newspaper or magazine.

(2) Consumer report.

(3) Announcement of intent to commence business.

(4) Telephone directory yellow pages.

(5) Professional or service directory.

(6) Radio or television commercial.

SEC. 3. Section 1569.314 is added to the Health and Safety Code, to read:

1569.314. (a) Each residential care facility for the elderly licensed under this chapter shall reveal its license number in all advertisements, publications, or announcements made with the intent to attract clients or residents.

(b) Advertisements, publications, or announcements subject to the requirements of subdivision (a) referred to herein include, but are not limited to, those contained in the following:

(1) Newspaper or magazine.

(2) Consumer report.

(3) Announcement of intent to commence business.

(4) Telephone directory yellow pages.

(5) Professional or service directory.

(6) Radio or television commercial.

SEC. 4. Section 1596.861 is added to the Health and Safety Code, to read:

1596.861. (a) Each child day care facility licensed under this chapter, or Chapter 3.5, Chapter 3.6 shall reveal its license number in all advertisements, publications, or announcements made with the intent to attract clients.

(b) Advertisements, publications, or announcements subject to the requirements of subdivision (a) include, but are not limited to, those contained in the following:

(1) Newspaper or magazine.
(2) Consumer report.
(3) Announcement of intent to commence business.
(4) Telephone directory yellow pages.
(5) Professional or service directory.
(6) Radio or television commercial.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 459

An act to amend Section 52 of the Civil Code, relating to civil rights.

[Approved by Governor September 14, 1989 Filed with Secretary of State September 15, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 52 of the Civil Code is amended to read:
