CHAPTER 1139

An act to amend Section 1176 of the Insurance Code, relating to insurers.

[Approved by Governor September 29, 1989 Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1176 of the Insurance Code is amended to read:

1176. Domestic incorporated insurers may invest in notes or bonds secured by a mortgage or other first lien upon unencumbered real property meeting the criteria of subdivision (e), if the secured obligation meets the conditions of subdivisions (a) and (b), as follows:

(a) There exists no condition or right of reentry or of forfeiture under which the lien can be cut off, subordinated, or otherwise disturbed.

(b) The secured obligation satisfies the conditions of paragraph (1), (2), (3), or (4), as follows:

(1) The principal so loaned or the entire note or bond issue so secured, plus the amount of the liens of any public bond, assessment, or tax assessed upon the property loaned upon, does not exceed 80 percent of the market value of that real property, together with improvements which are taken as security at the date of investment.

(2) Where the loan is insured by an admitted mortgage guaranty insurer conforming to the provisions of Chapter 2A (commencing with Section 12640.01) of Part 6 of Division 2, the unguaranteed portion of the loan, plus the amount of the liens of any public bond, assessment, or tax assessed upon the property loaned upon, does not exceed 80 percent of the market value of that real property, together with improvements which are taken as security at the date of investment.

(3) Where the loan is made or the notes or bonds are issued for a building loan on real property, the principal so loaned, or the entire outstanding notes or bonds so issued, plus the amount of the lien of any public bond, assessment, or tax assessed upon the property loaned upon, at no time exceeds 80 percent of the market value of the real property together with the actual cost of the improvements thereon taken as security.

(4) Where the loan is secured by a first mortgage or other first lien upon real property primarily improved with a residential building, or buildings, which for the purposes of this paragraph includes a condominium unit, designed for occupancy by not more than four families, the terms of the loan provide for monthly payments of principal and interest sufficient to effect full repayment of the loan within the remaining useful life of the building as estimated in the

appraisal for the loan, or 40 years, whichever is less, and the principal so loaned or the entire note or bond issue so secured, plus the amount of the liens of any public bond, assessment, or tax assessed upon the property loaned, does not exceed 90 percent of the market value of that real property, or of that real property together with improvements which are taken as security on the date of investment.

(c) Real property is not encumbered within the meaning of this section if subject only to one or more of the following:

(1) The lien of taxes and assessments not delinquent at the time of investment.

(2) The lien for delinquent taxes or assessments delinquent at the time of investment, which are being contested by any legal proceedings, if indemnity has been given pursuant to the indenture under which the bonds and notes are issued, or otherwise, for the payment of any amount which may be found to be due upon the final adjudication of that contest.

(1) There is an improvement on the real property with a value that is substantial in relation to the total value of the property .

(2) There is no improvement on the real property, but the funds loaned on account of the secured obligation, which meets the criteria of paragraph (3) of subdivision (b), are used to construct an improvement on real property and the value of the improvement constructed on the real property is at all times substantial in relation to the amount of the construction loan funds advanced by the insurer and drawn down by or on account of the borrower.

(3) There is no improvement on the real property, but the property is revenue producing and is used primarily as agricultural, horticultural, farm, or ranch property.

(4) There is no improvement on the real property, but the note or bond secured by that real property is held in conjunction with another note or bond held by the insurer that is secured by other real property on which there exists a substantial improvement. However, the value of the unimproved real property may not exceed 20 percent of the total value of all real property taken as security for all those notes or bonds.

CHAPTER 1140

An act to amend Sections 65582 and 65583 of the Government Code, to amend Sections 33080.4, 33334.3, 33334.6, 33413, 51005, 52080, and 52097.5 of, and to add Section 33334.4 to, the Health and Safety Code, relating to housing.

[Approved by Governor September 29, 1989 Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 65582 of the Government Code is amended to read:

65582. As used in this article:

(a) "Community," "locality," "local government," or "jurisdiction" means a city, city and county, or county.

(b) "Department" means the Department of Housing and Community Development.

(c) "Housing element" or "element" means the housing element of the community's general plan, as required pursuant to this article and subdivision (c) of Section 65302.

(d) "Low- and moderate-income households" means persons and families of low or moderate incomes as defined by Section 50093 of the Health and Safety Code.

SEC. 2. Section 65583 of the Government Code is amended to read:

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, and mobilehomes, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include the following:

(1) Analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584.

(2) Analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable for residential development,

including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning and public facilities and services to these sites.

(4) Analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, and local processing and permit procedures.

(5) Analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, and the cost of construction.

(6) Analysis of any special housing needs, such as those of the handicapped, elderly, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter.

(7) Analysis of opportunities for energy conservation with respect to residential development.

(b) A statement of the community's goals, quantified objectives, and policies relative to the maintenance, improvement, and development of housing.

It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the identified existing housing needs, but should establish the maximum number of housing units that can be constructed, rehabilitated, and conserved over a five-year time frame.

(c) A program which sets forth a five-year schedule of actions the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, provision of regulatory concessions and incentives, and the utilization of appropriate federal and state financing and subsidy programs when available and the utilization of moneys in a Low and Moderate Income Housing Fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify adequate sites which will be made available through appropriate zoning and development standards and with public services and facilities needed to facilitate and encourage the development of a variety of types of housing for all income levels, including rental housing, factory-built housing, mobilehomes, emergency shelters and transitional housing in order to meet the

community's housing goals as identified in subdivision (b).

(2) Assist in the development of adequate housing to meet the needs of low- and moderate-income households.

(3) Address and, where appropriate and legally possible, remove governmental constraints to the maintenance, improvement, and development of housing.

(4) Conserve and improve the condition of the existing affordable housing stock.

(5) Promote housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, or color.

The program shall include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals. The local government shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

SEC. 2.5. Section 65583 of the Government Code is amended to read:

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, and mobilehomes, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include the following:

(1) Analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584.

(2) Analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable for residential development, including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning and public facilities and services to these sites.

(4) Analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, and local processing and permit procedures.

(5) Analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, and the cost of construction.

(6) Analysis of any special housing needs, such as those of the handicapped, elderly, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter.

(7) Analysis of opportunities for energy conservation with respect to residential development.

(8) An analysis of existing assisted housing developments that are eligible to change to non-low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of use restrictions. "Assisted housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project by project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government which have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs which can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing

authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program which have not been legally obligated for other purposes and which could be available for use in preserving assisted housing developments.

(b) A statement of the community's goals, quantified objectives, and policies relative to the maintenance, preservation, improvement, and development of housing.

It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the identified existing housing needs, but should establish the maximum number of housing units that can be constructed, rehabilitated, and conserved over a five-year time frame.

(c) A program which sets forth a five-year schedule of actions the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, provision of regulatory concessions and incentives, and the utilization of appropriate federal and state financing and subsidy programs when available and the utilization of moneys in a Low and Moderate Income Housing Fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify adequate sites which will be made available through appropriate zoning and development standards and with public services and facilities needed to facilitate and encourage the development of a variety of types of housing for all income levels, including rental housing, factory-built housing, mobilehomes, emergency shelters and transitional housing in order to meet the community's housing goals as identified in subdivision (b).

(2) Assist in the development of adequate housing to meet the needs of low- and moderate-income households.

(3) Address and, where appropriate and legally possible, remove governmental constraints to the maintenance, improvement, and development of housing.

(4) Conserve and improve the condition of the existing affordable housing stock.

(5) Promote housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, or color.

(6) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (8) of subdivision (a). The program for preservation of the assisted housing

developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (8) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

The program shall include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals. The local government shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(d) The analysis and program for preserving assisted housing developments required by the amendments to this section enacted by the Statutes of 1989 shall be adopted as an amendment to the housing element by January 1, 1992.

(e) Failure of the department to review and report its findings pursuant to Section 65585 to the local government between January 1, 1992, and the next periodic review and revision required by Section 65588, concerning the housing element amendment required by the amendments to this section by the Statutes of 1989, shall not be used as a basis for allocation or denial of any housing assistance administered pursuant to Part 2 (commencing with Section 50400) of Division 31 of the Health and Safety Code.

SEC. 3. *Section 33334.3 of the Health and Safety Code is amended* to read:

33334.3. (a) The funds which are required by Section 33334.2 or 33334.6 to be used for the purposes of increasing and improving the community's supply of low- and moderate-income housing shall be held in a separate Low and Moderate Income Housing Fund until used.

(b) Any interest earned by the Low and Moderate Income Housing Fund and any repayments or other income to the agency for loans, advances, or grants, of any kind, from the Low and Moderate Income Housing Fund, shall accrue to and be deposited in the fund and may only be used in the manner prescribed for the Low and Moderate Income Housing Fund.

(c) The moneys in the Low and Moderate Income Housing Fund shall be used to increase and improve the supply of low- and moderate-income housing within the territorial jurisdiction of the agency.

(d) It is the intent of the Legislature that the Low and Moderate Income Housing Fund be used to the maximum extent possible to defray the costs of production and improvement of low- and moderate-income housing and that the amount of money spent for planning and general administrative activities associated with the development or improvement of that housing not be disproportionate to the amount actually spent for the costs of

production and improvement of that housing.

(e) The requirements of this subdivision apply to all new or substantially rehabilitated housing units developed or otherwise assisted, with moneys from the Low and Moderate Income Housing Fund, pursuant to an agreement approved by an agency on or after January 1, 1988. Except to the extent a longer period of time may be required by other provisions of law, the agency shall require that housing units subject to this subdivision shall remain available at affordable housing costs to persons and families of low or moderate income and very low income households for the longest feasible time, but for not less than the following periods of time, except as provided in Section 33334.13:

(1) Fifteen years for rental units. However, the agency may replace rental units with equally affordable and comparable rental units in another location within the community if (A) the replacement units are available for occupancy prior to the displacement of any persons and families of low or moderate income residing in the units to be replaced and (B) the comparable replacement units are not developed with moneys from the Low and Moderate Income Housing Fund.

(2) Ten years for owner-occupied units. However, the agency may permit sales of owner-occupied units prior to the expiration of the 10-year period for a price in excess of that otherwise permitted under this subdivision pursuant to an adopted program which protects the agency's investment of moneys from the Low and Moderate Income Housing Fund, including, but not limited to, an equity sharing program which establishes a schedule of equity sharing that permits retention by the seller of a portion of those excess proceeds based on the length of occupancy. The remainder of the excess proceeds of the sale shall be allocated to the agency and deposited in the Low and Moderate Income Housing Fund.

The agency shall require the recording in the office of the county recorder of covenants or restrictions implementing this subdivision for each parcel or unit of real property subject to this subdivision. Notwithstanding any other provision of law, the covenants or restrictions shall run with the land and shall be enforceable, against the original owner and successors in interest, by the agency or the community.

(f) "Housing," as used in this section, includes residential hotels, as defined in subdivision (k) of Section 37912. The definitions of "lower income households" and "very low income households" in Sections 50079.5 and 50105 shall apply to this section. "Longest feasible time," as used in this section, includes, but is not limited to, unlimited duration.

SEC. 3.5 Section 33334.3 of the Health and Safety Code is amended to read:

33334.3. (a) The funds which are required by Section 33334.2 or 33334.6 to be used for the purposes of increasing and improving the community's supply of low- and moderate-income housing shall be

held in a separate Low and Moderate Income Housing Fund until used.

(b) Any interest earned by the Low and Moderate Income Housing Fund and any repayments or other income to the agency for loans, advances, or grants, of any kind from the Low and Moderate Income Housing Fund, shall accrue to and be deposited in, the fund and may only be used in the manner prescribed for the Low and Moderate Income Housing Fund.

(c) The moneys in the Low and Moderate Income Housing Fund shall be used to increase, improve, and preserve the supply of low- and moderate-income housing within the territorial jurisdiction of the agency.

(d) It is the intent of the Legislature that the Low and Moderate Income Housing Fund be used to the maximum extent possible to defray the costs of production, improvement, and preservation of low- and moderate-income housing and that the amount of money spent for planning and general administrative activities associated with the development, improvement, and preservation of that housing not be disproportionate to the amount actually spent for the costs of production, improvement, or preservation of that housing.

(e) The requirements of this subdivision apply to all new or substantially rehabilitated housing units developed or otherwise assisted, with moneys from the Low and Moderate Income Housing Fund, pursuant to an agreement approved by an agency on or after January 1, 1988. Except to the extent a longer period of time may be required by other provisions of law, the agency shall require that housing units subject to this subdivision shall remain available at affordable housing costs to persons and families of low or moderate income and very low income households for the longest feasible time, but for not less than the following periods of time, except as provided in Section 33334.13:

(1) Fifteen years for rental units. However, the agency may replace rental units with equally affordable and comparable rental units in another location within the community if (A) the replacement units are available for occupancy prior to the displacement of any persons and families of low or moderate income residing in the units to be replaced and (B) the comparable replacement units are not developed with moneys from the Low and Moderate Income Housing Fund.

(2) Ten years for owner-occupied units. However, the agency may permit sales of owner-occupied units prior to the expiration of the 10-year period for a price in excess of that otherwise permitted under this subdivision pursuant to an adopted program which protects the agency's investment of moneys from the Low and Moderate Income Housing Fund, including, but not limited to, an equity sharing program which establishes a schedule of equity sharing that permits retention by the seller of a portion of those excess proceeds based on the length of occupancy. The remainder of the excess proceeds of the sale shall be allocated to the agency and

deposited in the Low and Moderate Income Housing Fund.

The agency shall require the recording in the office of the county recorder of covenants or restrictions implementing this subdivision for each parcel or unit of real property subject to this subdivision. Notwithstanding any other provision of law, the covenants or restrictions shall run with the land and shall be enforceable, against the original owner and successors in interest, by the agency or the community.

(f) "Housing," as used in this section, includes residential hotels, as defined in subdivision (k) of Section 37912. The definitions of "lower income households" and "very low income households" in Sections 50079.5 and 50105 shall apply to this section "Longest feasible time," as used in this section, includes, but is not limited to, unlimited duration.

(g) "Increasing, improving, and preserving the community's supply of low- and moderate-income housing," as used in this section and in Section 33334.2, includes the preservation of rental housing units assisted by federal, state, or local government on the condition that units remain affordable to low- and moderate-income households, including very low income households, for a specified period of time, beyond the date the subsidies and use restrictions could be terminated and the assisted housing units converted to market rate rentals. In preserving these units the agency shall require the units remain affordable to persons and families of low- and moderate-income and very low income households for the longest feasible time. However, the agency may replace rental units with equally affordable and comparable rental units in another location within the community if (1) the replacement units in another location are available for occupancy prior to the displacement of any persons and families of low or moderate income residing in the units to be replaced and (2) the comparable replacement units are not developed with moneys from the Low and Moderate Income Housing Fund.

SEC 4. Section 33334.4 is added to the Health and Safety Code, to read:

33334.4. The Legislature finds and declares that is shall be the policy of each agency to expend, over the duration of the redevelopment plan, the moneys in the Low and Moderate Income Housing Fund to assist housing for persons of low and very low income in at least the same proportion as the total number of housing units needed for those income groups which are not being provided by other governmental programs bears to the total number of units needed for persons of moderate, low and very low income within the community.

SEC. 5. Section 33334.6 of the Health and Safety Code is amended to read:

33334.6. (a) The Legislature finds and declares that the provision of housing is itself a fundamental purpose of the Community Redevelopment Law and that a generally inadequate

statewide supply of decent, safe, and sanitary housing affordable to persons and families of low or moderate income, as defined by Section 50093, threatens the accomplishment of the primary purposes of the Community Redevelopment Law, including job creation, attracting new private investments, and creating physical, economic, social, and environmental conditions to remove and prevent the recurrence of blight. The Legislature further finds and declares that the provision and improvement of affordable housing, as provided by Section 33334.2, outside of redevelopment project areas can be of direct benefit to those projects in assisting the accomplishment of project objectives whether or not those redevelopment projects provide for housing within the project area. The Legislature finds and determines that the provision of affordable housing by redevelopment agencies and the use of taxes allocated to the agency pursuant to subdivision (b) of Section 33670 is of statewide benefit and of particular benefit and assistance to all local governmental agencies in the areas where the housing is provided.

(b) This section is applicable to all project areas, or portions of project areas, which are not subject to Section 33334.2, except that a project area, or portion of a project area, for which a resolution was adopted pursuant to subdivision (1) of Section 33334.2 is subject to this section. Project areas subject to this section which are merged prior to, or on or after, January 1, 1986, are subject to the requirements of both this section and Section 33487. The deposit of taxes into the Low and Moderate Income Housing Fund in compliance with either this section or Section 33487 shall satisfy the requirements of both sections in the year those taxes are deposited.

(c) Except as otherwise permitted by subdivisions (d) and (e), not less than 20 percent of the taxes allocated to the agency pursuant to Section 33670 from project areas specified in subdivision (b) for the 1985–86 fiscal year and each succeeding fiscal year shall be deposited into the Low and Moderate Income Housing Fund established pursuant to Section 33334.3 and used for the purposes set forth in Section 33334.2, unless the agency, by resolution, makes one of the findings described in paragraphs (1) to (3), inclusive, of subdivision (a) of Section 33334.2 Subdivisions (b) and (c) of Section 33334.2 apply if an agency makes any of those findings.

(d) In any fiscal year, the agency may deposit less than the amount required by subdivision (c) into the Low and Moderate Income Housing Fund if the agency finds that the difference between the amount deposited and the amount required by subdivision (c) is necessary to make payments under existing obligations of amounts due or required to be committed, set aside, or reserved by the agency during that fiscal year and which are used by the agency for that purpose. For purposes of this section, "existing obligations" means the principal of, and interest on, loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed, or otherwise) incurred by the agency to finance or refinance, in whole or in part, any redevelopment project existing on, and created

prior to January 1, 1986, and contained on the statement of existing obligations adopted pursuant to subdivision (f). Obligations incurred on or after January 1, 1986, shall be deemed existing obligations for purposes of this section if the net proceeds are used to refinance existing obligations contained on the statement.

(e) In each fiscal year prior to July 1, 1996, the agency may deposit less than the amount required by subdivisions (c) and (d) into the Low and Moderate Income Housing Fund if the agency finds that the deposit of less than the amount required by those subdivisions is necessary in order to provide for the orderly and timely completion of public and private projects, programs, or activities approved by the agency prior to January 1, 1986, which are contained on the statement of existing programs adopted pursuant to subdivision (f). Approval of these projects, programs, and activities means approval by the agency of written documents which demonstrate an intent to implement a specific project, program, or activity and is not limited to final approval of a specific project, program, or activity.

(f) Any agency which deposits less than the amount required by subdivision (c) into the Low and Moderate Income Housing Fund pursuant to subdivision (d) or (e) shall adopt prior to September 1, 1986, by resolution, after a noticed public hearing, a statement of existing obligations or a statement of existing programs, or both.

(1) The agency shall prepare and submit the proposed statement to the legislative body and to the Department of Housing and Community Development prior to giving notice of the public hearing. Notice of the time and place of the public hearing shall be transmitted to the Department of Housing and Community Development at least 15 days prior to the public hearing and notice of the time and place of the public hearing shall be published in a newspaper of general circulation in the community once a week for at least two successive weeks prior to the public hearing. The legislative body shall maintain a record of the public hearing.

(2) A copy of the resolution adopted by the agency, together with any amendments to the statement of the agency, shall be transmitted to the Department of Housing and Community Development within 10 days following adoption of the resolution by the agency.

(3) A statement of existing obligations shall describe each existing obligation and, based upon the best available information, as determined by the agency, list the total amount of the existing obligation, the annual payments required to be made by the agency pursuant to the existing obligation, and the date the existing obligation will be discharged in full.

(4) A statement of existing programs shall list the specific public and private projects, programs, or activities approved prior to January 1, 1986, which are necessary for the orderly completion of the redevelopment plan as it existed on January 1, 1986. No project, program, or activity shall be included on the statement of existing programs unless written evidence of the existence and approval of the project, program, or activity prior to January 1, 1986, is attached

to the statement of existing programs.

(g) If, pursuant to subdivision (d) or (e), the agency deposits less than 20 percent of the taxes allocated to the agency pursuant to Section 33670 in the 1985–86 fiscal year or any subsequent fiscal year in the Low and Moderate Income Housing Fund, the amount equal to the difference between 20 percent of the taxes allocated to the agency pursuant to Section 33670 for each affected project and the amount deposited that year shall constitute a deficit of the project. The agency shall adopt a plan to eliminate the deficit in subsequent years as determined by the agency.

(h) The obligations imposed by this section, including deficits, if any, created under this section, are hereby declared to be an indebtedness of the redevelopment project to which they relate, payable from taxes allocated to the agency pursuant to Section 33670, and shall constitute an indebtedness of the agency with respect to the redevelopment project until paid in full.

(i) In any litigation to challenge or attack a statement of existing obligations, the decision by the agency after the public hearing to include an existing obligation on the statement of existing obligations, or the decision by the agency after the public hearing to include a project, program, or activity on the statement of existing programs, the court shall uphold the action of the agency unless the court finds that the agency has abused its discretion. The Legislature finds and declares that this standard of review is necessary in order to protect against the possible impairment of existing obligations, programs, and activities because agencies with project areas adopted prior to January 1, 1977, have incurred existing obligations and have adopted projects, programs, and activities with the authority to receive and pledge the entire allocation of funds authorized by Section 33670.

SEC. 6 Section 33413 of the Health and Safety Code is amended to read:

33413. (a) Whenever dwelling units housing persons and families of low or moderate income are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project, which is subject to a written agreement with the agency or where financial assistance has been provided by the agency, the agency shall, within four years of the destruction or removal, rehabilitate, develop, or construct, or cause to be rehabilitated, developed, or constructed, for rental or sale to persons and families of low or moderate income, an equal number of replacement dwelling units within the territorial jurisdiction of the agency. When dwelling units are destroyed or removed after September 1, 1989, 75 percent of the replacement dwelling units shall replace dwelling units available at affordable housing cost to the same income level of very low income households, lower-income households, and persons and families of low and moderate income, as the persons displaced from those destroyed or removed units.

(b) (1) At least 30 percent of all new or rehabilitated dwelling

units developed by an agency shall be available at affordable housing cost to persons and families of low or moderate income. Not less than 50 percent of the dwelling units required to be available at affordable housing cost to persons and families of low or moderate income shall be available at affordable housing cost to, and occupied by, very low income households.

(2) At least 15 percent of all new or rehabilitated dwelling units developed within the project area by public or private entities or persons other than the agency shall be available at affordable housing cost to persons and families of low or moderate income. Not less than 40 percent of the dwelling units required to be available at affordable housing cost to persons and families of low or moderate income shall be available at affordable housing cost to very low income households.

(3) The requirements of this subdivision shall apply independently of the requirements of subdivision (a) and in the aggregate to housing made available pursuant to paragraphs (1) and (2), respectively, and not to each individual case of rehabilitation, development, or construction of dwelling units.

(c) The agency shall require that the aggregate number of replacement dwelling units and other dwelling units rehabilitated, developed, or constructed pursuant to subdivision (a) or (b) remain available at affordable housing cost to persons and families of low income, moderate income, and very low income households, respectively, for the longest feasible time, as determined by the agency, but for not less than the period of the land use controls established in the redevelopment plan, except to the extent a longer period of time may be required by other provisions of law. If land on which those dwelling units are located is deleted from the project area, the agency shall continue to require that those units remain affordable as specified in the previous sentence. These requirements shall be made enforceable in the same manner as provided in subdivision (e) of Section 33334.3.

(d) (1) This section applies only to redevelopment projects for which a final redevelopment plan is adopted pursuant to Article 5 (commencing with Section 33360) on or after January 1, 1976, and to areas which are added to a project area by amendment to a final redevelopment plan adopted on or after January 1, 1976. In addition, subdivision (a) shall apply to any other redevelopment project with respect to dwelling units destroyed or removed from the low- and moderate-income housing market on or after January 1, 1996, irrespective of the date of adoption of a final redevelopment plan or an amendment to a final redevelopment plan adding areas to a project area Additionally, any agency may, by resolution, elect to make all or part of the requirements of this section applicable to any redevelopment project of the agency for which the final redevelopment plan was adopted prior to January 1, 1976.

(2) An agency may, by resolution, elect to require that whenever dwelling units housing persons or families of low or moderate income

are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project, the agency shall replace each dwelling unit with up to two replacement dwelling units pursuant to subdivision (a).

(e) Except as otherwise authorized by law, this section does not authorize an agency to operate a rental housing development beyond the period reasonably necessary to sell or lease the housing development.

(f) Notwithstanding subdivision (a), the agency may replace destroyed or removed dwelling units with a fewer number of replacement dwelling units if the replacement dwelling units meet both of the following criteria:

(1) The total number of bedrooms in the replacement dwelling units equal or exceed the number of bedrooms in the destroyed or removed units. Destroyed or removed units having one or no bedroom are deemed for this purpose to have one bedroom.

(2) The replacement units are affordable to the same income level of households as the destroyed or removed units.

(g) "Longest feasible time," as used in this section, includes, but is not limited to, unlimited duration.

SEC. 6.5. Section 33413 of the Health and Safety Code is amended to read:

33413. (a) Whenever dwelling units housing persons and families of low or moderate income are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project which is subject to a written agreement with the agency or where financial assistance has been provided by the agency, the agency shall, within four years of the destruction or removal, rehabilitate, develop, or construct, or cause to be rehabilitated, developed, or constructed, for rental or sale to persons and families of low or moderate income, an equal number of replacement dwelling units within the territorial jurisdiction of the agency. When dwelling units are destroyed or removed after September 1, 1989, 75 percent of the replacement dwelling units shall replace dwelling units available at affordable housing cost to the same income level of very low income households, lower income households, and persons and families of low and moderate income, as the persons displace from those destroyed or removed units.

(b) (1) At least 30 percent of all new or rehabilitated dwelling units developed by an agency shall be available at affordable housing cost to persons and families of low or moderate income. Not less than 50 percent of the dwelling units required to be available at affordable housing cost to persons and families of low or moderate income shall be available at affordable housing cost to, and occupied by, very low income households.

(2) At least 15 percent of all new or rehabilitated dwelling units developed within the project area by public or private entities or persons other than the agency shall be available at affordable housing cost to persons and families of low or moderate income. Not less than

40 percent of the dwelling units required to be available at affordable housing cost to persons and families of low or moderate income shall be available at affordable housing cost to very low income households.

(3) The requirements of this subdivision shall apply independently of the requirements of subdivision (a) and in the aggregate to housing made available pursuant to paragraphs (1) and (2), respectively, and not to each individual case of rehabilitation, development, or construction of dwelling units.

(c) The agency shall require that the aggregate number of replacement dwelling units and other dwelling units rehabilitated, developed, or constructed pursuant to subdivision (a) or (b) remain available at affordable housing cost to persons and families of low income, moderate income, and very low income households, respectively, for the longest feasible time, as determined by the agency, but for not less than the period of the land use controls established in the redevelopment plan, except to the extent a longer period of time may be required by other provisions of law. If land on which those dwelling units are located is deleted from the project area, the agency shall continue to require that those units remain affordable as specified in the previous sentence. These requirements shall be made enforceable in the same manner as provided in subdivision (e) of Section 33334.3.

(d) (1) This section applies only to redevelopment projects for which a final redevelopment plan is adopted pursuant to Article 5 (commencing with Section 33360) on or after January 1, 1976, and to areas which are added to a project area by amendment to a final redevelopment plan adopted on or after January 1, 1976. In addition, subdivision (a) shall apply to any other redevelopment project with respect to dwelling units destroyed or removed from the low- and moderate-income housing market on or after January 1, 1996, irrespective of the date of adoption of a final redevelopment plan or an amendment to a final redevelopment plan adding areas to a project area. Additionally, any agency may, by resolution, elect to make all or part of the requirements of this section applicable to any redevelopment project of the agency for which the final redevelopment plan was adopted prior to January 1, 1976.

(2) An agency may, by resolution, elect to require that whenever dwelling units housing persons or families of low or moderate income are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project, the agency shall replace each dwelling unit with up to two replacement dwelling units pursuant to subdivision (a).

(e) Except as otherwise authorized by law, this section does not authorize an agency to operate a rental housing development beyond the period reasonably necessary to sell or lease the housing development.

(f) Notwithstanding subdivision (a), the agency may replace destroyed or removed dwelling units with a fewer number of

replacement dwelling units if the replacement dwelling units meet both of the following criteria:

(1) The total number of bedrooms in the replacement dwelling units equal or exceed the number of bedrooms in the destroyed or removed units. Destroyed or removed units having one or no bedroom are deemed for this purpose to have one bedroom.

(2) The replacement units are affordable to the same income level of households as the destroyed or removed units.

(g) "Longest feasible time," as used in this section, includes, but is not limited to, unlimited duration.

SEC. 7. Section 33080.4 of the Health and Safety Code, as amended by Section 3 of Chapter 1604 of the Statutes of 1988, is amended to read:

33080.4. For the purposes of compliance with subdivision (c) of Section 33080.1, the description of the agency's activities shall contain the following information regardless of whether each activity is funded exclusively by the state or federal government, for each project area and for the agency overall:

(a) Pursuant to Section 33413, the total number of family and elderly households, including separate subtotals of the numbers of households for persons and families of low or moderate income and very low income households, that were displaced or moved from their dwelling units as part of a redevelopment project of the agency during the previous fiscal year

(b) Pursuant to Section 33413 5, the total number of family and elderly households, including separate subtotals of the numbers of households for persons and families of low or moderate income and very low income households, that the agency estimates will be displaced or will move from their dwellings as part of a redevelopment project of the agency during the present fiscal year and the date of adoption of a replacement housing plan for each project area subject to Section 33413.5.

(c) The total number of dwelling units housing persons and families of low and moderate income and very low income households, respectively, which have been destroyed or removed from the low- or moderate-income housing market during the previous fiscal year as part of a redevelopment project of the agency, specifying the number of those units which are not subject to Section 33413.

(d) The total numbers of agency-assisted dwelling units which were constructed, rehabilitated, acquired, or subsidized during the previous fiscal year for occupancy at an affordable housing cost by elderly persons and families, but only if the units are restricted by agreement or ordinance for occupancy by the elderly, and by persons and families of low or moderate income and very low income households, respectively, specifying those units which are not currently so occupied, those units which have replaced units destroyed or removed pursuant to subdivision (a) of Section 33413, and the length of time any agency-assisted units are required to

remain available at affordable costs.

(e) The total numbers of new or rehabilitated units subject to paragraph (2) of subdivision (b) of Section 33413, including separate subtotals of the number originally affordable to and currently occupied by, elderly persons and families, but only if the units are restricted by agreement or ordinance for occupancy by the elderly, and by persons and families of low or moderate income and very low income households, respectively, and the length of time these units are required to remain available at affordable costs.

(f) The status and use of the Low and Moderate Income Housing Fund created pursuant to Section 33334.3, including information on the use of this fund for very low income households, lower income households, and persons and families of low or moderate income, respectively. (g) A compilation of the annual reports obtained by the agency under Section 33418 including identification of the number of units occupied by persons and families of low or moderate income, lower income households, and very low income households, respectively, as those terms are defined in Division 31 (commencing with Section 50000), and identification of projects in violation of law or any agreements in relation to affordable units.

(h) Any other information which the agency believes useful to explain its housing programs, including, but not limited to, housing for persons and families of other than low and moderate income.

"Elderly," as used in this section, has the same meaning as specified in Section 50067.

This section shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1991, deletes or extends that date.

SEC. 8. Section 33080.4 of the Health and Safety Code, as added by Section 3.5 of Chapter 1111 of the Statutes of 1987, is amended to read:

This section shall become operative January 1, 1991.

SEC. 9. Section 51005 of the Health and Safety Code is amended to read:

51005. (a) The agency shall, by November 1 of each year, submit an annual report of its activities under this division for the preceding year to the Governor, the Secretary of the Business and Transportation Agency, the Director of Housing and Community Development, the Treasurer, the Joint Legislative Budget Committee, the Legislative Analyst, and the Legislature. The report shall set forth a complete operating and financial statement of the agency during the concluded fiscal year. The report shall specify the number of units assisted, the distribution of units among the metropolitan, nonmetropolitan, and rural areas of the state, and shall contain a summary of statistical data relative to the incomes of households occupying assisted units, the monthly rentals charged to occupants of rental housing developments, and the sales prices of housing developments purchased during the previous fiscal year by housing sponsors who are persons or families of low or moderate income. The agency shall specifically include in its report on affirmative action goals, statistical data on the numbers and percentages of minority sponsors, developers, contractors, subcontractors, suppliers, architects, engineers, attorneys, mortgage bankers or other lenders, insurance agents, and managing agents.

(b) The report shall also include specific information evaluating the extent to which the programs administered by the agency have attained the statutory objectives of the agency, including, but not limited to, (1) the primary purpose of the agency in meeting the housing needs of persons and families of low or moderate income pursuant to Section 50950, (2) the occupancy requirements for very low income households established pursuant to Sections 50951 and 51226, (3) the elderly and orthopedic disability occupancy requirements established pursuant to Section 51230, (4) the use of surplus moneys pursuant to Section 51007, (5) the metropolitan, nonmetropolitan, and rural goals established pursuant to subdivision (h) of Section 50952, (6) the California Statewide Housing Plan, as required by Section 50154, (7) the statistical and other information developed and maintained pursuant to Section 51650, (8) the implementation and administration of the Senior Citizens Housing Assistance Program established pursuant to Chapter 9 (commencing

with Section 51450), including (A) the number of assisted units in rental housing developments, (B) the number of units in rental housing developments occupied by, or available to, eligible households, (C) the number of units in rental housing developments occupied by, or available to, very low income eligible households, (D) the average income of, and the distribution of annual incomes among, eligible households, (E) the average and median cost of a unit in each rental housing development, (F) the administrative costs incurred by the agency to implement and manage each program, (G) the agency's recommendations, as needed, to improve the operation of each program, (9) the number of manufactured housing units assisted by the agency, (10) information with respect to the proceeds derived from the issuance of bonds or securities and any interest or other increment derived from the investment of bonds or securities, and the uses for which those proceeds or increments are being made as provided for in Section 51365, including the amount by which each fund balance exceeds indenture requirements, (11) any recommendations described in subdivision (d), (12) any recommendations described in Section 51227, (13) the revenue bonding authority plan adopted pursuant to Section 51004.5, (14) the statistical and other information required to be provided pursuant to Section 50156 (15) an analysis of the agency's compliance with the targeting requirements of subsection (d) of Section 142 of the Internal Revenue Code of 1986 (26 U.S.C. Sec. 142) with respect to any issue of bonds subject to those requirements under Section 103 of the Internal Revenue Code of 1986 (26 U.S.C. Sec. 103), including the numbers of rental units subject to this reporting requirement by categories based on the number of bedrooms per unit and (16) the statistical and other information relating to congregate housing for the elderly pursuant to Section 51218.

The agency may, at its option, include the information required by this section in a single document or may separately report the statistical portion of the information in a supplement appended to its annual report. This statistical supplement shall be distributed with copies of the agency's annual report, but need not be provided to bond rating agencies, underwriters, investors, developers, or financial institutions

The Legislative Analyst shall include an analysis of the information in the report on the Senior Citizens Housing Assistance Program in the Legislative Analyst's analysis of the 1989 and 1990 Budget Bills and evaluate the extent to which the objectives of Chapter 9 (commencing with Section 51450) are being accomplished along with any recommendations for improving program performance and meeting statutory objectives.

(c) The agency shall cause an audit of its books and accounts with respect to its activities under this division to be made at least once during each fiscal year by an independent certified public accountant and the agency shall be subject to audit by the Department of Finance not more often than once each fiscal year.

(d) The agency shall assess any obstacles or problems which it has encountered in meeting its mandate to serve nonmetropolitan and rural metropolitan areas, and recommend legislative and administrative solutions to overcome these obstacles or problems. The agency shall separately assess its progress in meeting the rehabilitation needs of rural areas and the new construction needs of rural areas, and separately assess its progress as to single and multifamily units. The agency shall include in its report a quantification and evaluation of its progress in meeting the housing needs of communities of various sizes in rural areas.

(e) By December 1 of each fiscal year, the agency shall ascertain that not less than 25 percent of the total units financed by mortgage loans during the preceding 12 months pursuant to this part were made available to very low income households. If the agency finds that these very low income occupancy goals have not been met, the agency shall immediately notify the Governor, the Speaker of the Assembly, and the Senate Rules Committee, and shall recommend legislation or other action as may be required to make (1) at least 25 percent of the units so available, and (2) at least 25 percent of the units thereafter financed so available. In housing developments for which the agency provides a construction loan but not a mortgage loan, the agency shall report annually on the percentage of units projected to be made available for occupancy and actually occupied by lower income households.

SEC. 10. Section 52080 of the Health and Safety Code is amended to read:

52080. (a) (1) Multifamily rental housing development financed, or for which financing has been extended or committed pursuant to this chapter from the proceeds of sale of each bond issue, shall at all times during the qualified project period meet the requirement of subparagraph (A) or (B), whichever is elected by the issuer at the time of issuance of the issue for each development:

(A) Twenty percent or more of the residential units in the development shall be occupied by individuals whose income is 50 percent or less of area median income.

(B) Forty percent or more of the residential units in the development shall be occupied by individuals whose income is 60 percent or less of area median income.

As used in this subdivision, "qualified project period," "income," and "area median income" shall have the meanings specified in, and shall be determined in accordance with the provisions of, subsection (d) of Section 142 of the Internal Revenue Code of 1986, as amended, and United States Treasury regulations and rulings promulgated pursuant thereto.

With respect to a development for which the issuer has elected to meet the requirement of subparagraph (A), the rental payments paid by the occupants of the units meeting the requirement of subparagraph (A) (excluding any supplemental rental assistance from the state, the federal government, or any other public agency

to those occupants or on behalf of those units) shall not exceed 30 percent of 50 percent of area median income. With respect to a development for which the issuer has elected to meet the requirement of subparagraph (B), the rental payments paid by the occupants of the units meeting the requirement of subparagraph (B) (excluding any supplemental rental assistance from the state, the federal government, or any other public agency to those occupants or on behalf of those units) shall not exceed 30 percent of 60 percent of median income.

(2) The governing body shall ensure that the local agency issuing permits for the development of the multifamily rental housing development shall consider opportunities to contribute to the economic feasibility of the units and to the provision of units for very low income households through concessions and inducements including, but not limited to, the following:

(A) Reductions in construction and design requirements.

(B) Reductions in setback and square footage requirements and the ratio of vehicular parking spaces that would otherwise be required.

(C) Granting density bonuses.

(D) Providing expedited processing of permits.

(E) Modifying zoning code requirements to allow mixed use zoning.

(F) Reducing or eliminating fees and charges for filing and processing applications, petitions, permits, planning services, water and sewer connections, and other fees and charges.

(G) Reducing or eliminating requirements relating to monetary exactions, dedications, reservations of land, or construction of public facilities.

(H) Other financial incentives or concessions for the multifamily rental housing development which result in identifiable cost reductions, as determined by the governing body. The governing body shall ensure that the local agency issuing permits for the development considers its responsibilities under this section and makes a good faith effort to enhance the feasibility of the project and to provide housing for lower income households and very low income households.

(3) The governing body shall not permit a selection criteria to be applied to certificate holders under Section 8 of the United States Housing Act of 1937 (42 U.S.C. Sec. 1437f) that is more burdensome than the criteria applied to all other prospective tenants.

(4) It is the intent of the Legislature that the governing body finance projects that assist in meeting the urgent need for providing shelter for lower income households, very low income households, and persons and families of low or moderate income. To that end, the quality of materials and the amenities provided should not be excessive so as to hinder the prospect of achieving the stated goal. The Legislature finds and declares that the design standards utilized in the past, including, but not limited to, the design requirements

adopted to govern the new construction program under Section 8 of the United States Housing Act of 1937 (42 U.S.C. Sec. 1437f), are substantially in excess of those required for a decent, healthy, and safe residential unit and intends, by the amendment adding this paragraph to this section by the Statutes of 1985, that cities and counties finance multifamily rental developments with substantially less costly design requirements than those required by the governing body prior to January 1, 1986.

(5) It is the intent of the Legislature that the governing body finance projects that assist in meeting the urgent need for providing shelter for families. To that end, developments with three- and four-bedroom units affordable to larger families shall have priority over competing developments.

(b) As a condition of financing pursuant to this chapter, the housing sponsor shall enter into a regulatory agreement with the city or county providing that units reserved for occupancy by lower income households remain available on a priority basis for occupancy until the bonds are retired. The regulatory agreement shall contain a provision making the covenants and conditions of the agreement binding upon successors in interest of the housing sponsor. The regulatory agreement shall be recorded in the office of the county recorder of the county in which the multifamily rental housing development is located. The regulatory agreement shall be recorded in the grantor-grantee index to the name of the property owner as grantor and to the name of the city or county as grantee.

(c) The governing body shall ensure that units occupied by lower income households are of comparable quality and offer a range of sizes and number of bedrooms comparable to those units which are available to other tenants.

(d) (1) The city or county shall give priority to processing construction loans and mortgage loans or may take other steps such as reducing loan fees or other local fees for multifamily rental developments which incorporate innovative and energy-efficient techniques which reduce development or operating costs and which have the lowest feasible per unit cost, as determined by the city or county, based on efficiency of design or the elimination of improvements that are not required by applicable building standards.

(2) The city or county shall give equal priority to processing construction loans and mortgage loans or may take other steps such as reducing loan fees or other local fees on multifamily rental housing developments which do any of the following:

(A) Utilize federal housing or development assistance.

(B) Utilize redevelopment funds or other local financial assistance, including, but not limited to, contributions of land.

(C) Are sponsored by a nonprofit housing organization.

(D) Provide a significant number of housing units, as determined by the city or county, as part of a coordinated jobs and housing plan adopted by the city or county.

(E) Exceeds the ratios specified in subparagraph (A) or (B) of paragraph (1) of subdivision (a) or restricts the occupancy for these units for the longest period beyond the required minimum number of years.

(e) (1) New and existing rental housing developments may be syndicated after prior written approval of the governing body. The governing body shall grant that approval only after the city or county determines that the terms and conditions of the syndication comply with this section.

(2) The terms and conditions of the syndication shall not reduce or limit any of the requirements of this chapter or regulations adopted or documents executed pursuant to this chapter. No requirements of the city or county shall be subordinated to the syndication agreement. A syndication shall not result in the provision of fewer assisted units, or the reduction of any benefits or services, than were in existence prior to the syndication agreement.

(f) At the option of the city or county, the amendments to this subdivision made by Chapter 907 of the Statutes of 1983 may be made applicable to any multifamily rental housing development financed by the issuance, on or after September 3, 1982, of bonds authorized by this chapter.

SEC. 11. Section 52097.5 of the Health and Safety Code is amended to read:

52097.5. (a) At least 30 days prior to issuing bonds pursuant to this chapter, a charter provision, or an ordinance for the purposes specified in Section 52097, an issuer shall notify the Mortgage Bond and Tax Credit Allocation Committee in writing that the issuer intends to issue bonds pursuant to this chapter or such other authority. The notification shall specify the amount of bonds expected to be issued, the development or developments to be financed, and the development or developments, if any, that are subject to the restriction on occupancy described in subdivision (d). The Mortgage Bond and Tax Credit Allocation Committee shall advise the issuer of the aggregate amount of bonds previously issued in the calendar year pursuant to this chapter, charter provisions, or ordinances.

(b) An issuer shall certify to the Mortgage Bond and Tax Credit Allocation Committee, at the time of filing the notification of intent to issue, that it has in an escrow specifically established for the purpose, an amount equal to 1 percent of the amount of bonds expected to be issued for developments other than developments to be owned by nonprofit or public entities. To the extent that bonds are not issued for the development or developments before the later of the end of the calendar year in which the notification of intent was filed or the passage of nine months during which amounts were available for the issuance under subdivision (d), a pro rata proportion of the amount in the escrow shall be forwarded to the Mortgage Bond and Tax Credit Allocation Committee for immediate deposit in the Rental Housing Construction Fund established

pursuant to Section 50740. To the extent that bonds are issued for the development or developments, or notwithstanding the preceding sentence, are not issued during the periods specified in the preceding sentence for reasons beyond the control of the issuer or the developer, as determined by the issuer, the amount in escrow may be released by the issuer to the appropriate person or entity and not forwarded to the committee for deposit in that fund.

(c) Within five days, exclusive of weekends and holidays, of the issuance of bonds pursuant to this chapter, a charter provision, or an ordinance for the purposes specified in Section 52097, the city, county, or city and county shall notify the Mortgage Bond and Tax Credit Allocation Committee of the amount of the bonds issued.

(d) The maximum aggregate amount of bonds which may be issued pursuant to this chapter, charter provisions, or ordinances for the purposes specified in Section 52097, shall not exceed one billion five hundred million dollars ($1,500,000,000) in any calendar year.

(e) Multifamily rental housing development financed, or for which financing has been extended or committed, pursuant to this chapter from the proceeds of sale of each bond issue shall at all times during the qualified project period meet the requirement of paragraph (1) or (2), whichever is elected by the issuer at the time of issuance of the issue for each development:

(1) Twenty percent or more of the residential units in the development shall be occupied by individuals whose income is 50 percent or less of area median income.

(2) Forty percent or more of the residential units in the development shall be occupied by individuals whose income is 60 percent or less of area median income.

As used in this subdivision, "qualified project period," "income," and "area median income" shall have the meanings specified in, and shall be determined in accordance with the provisions of, subsection (d) of Section 142 of the Internal Revenue Code of 1986, as amended, and United States Treasury regulations and rulings promulgated pursuant thereto.

SEC. 2. This act shall not become operative until July 1, 1990.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1142

An act to amend Sections 221.5 and 226.5 of, and to add and repeal Section 226.51 of, the Civil Code, and to amend Section 1522.4 of the Health and Safety Code, relating to adoption.

[Approved by Governor September 29, 1989 Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Independent Adoption Preplacement Program Act. It is the intent of the Legislature, in enacting this act, to provide an alternative optional procedure to prospective adoptive parents and birth parents choosing the independent adoption process. This optional procedure is intended to encourage the preplacement assessments and criminal checks of prospective adoptive parents in order to ensure that better placements and more information are available to the birth parents. It is also the intent of the Legislature to encourage preplacement and postplacement counseling of birth parents in order to assure an informed choice of placement of the child by the birth parent and to ensure that birth parents are fully informed about adoption prior to their placement of the child with prospective adoptive parents. The goal is to provide a procedure in which better, more secure placements will be made and the best interests of the adoptive child will be better met.

SEC. 2. Section 221.5 of the Civil Code is amended to read:

221.5. (a) "Full-service adoption agency," for the purposes of this chapter, means any licensed entity engaged in the business of providing adoption services, who does all of the following:

(1) Assumes care, custody, and control of a child through relinquishment of the child to the agency or involuntary termination of parental rights to the child.

(2) Assesses the birth parents, prospective adoptive parents, or child.

(3) Places children for adoption.

(4) Supervises adoptive placements

(b) "Noncustodial adoption agency," for the purposes of this chapter, means any licensed entity engaged in the business of providing adoption services, who does all of the following:

(1) Assesses the prospective adoptive parents.

(2) Cooperatively matches children freed for adoption, who are under the care, custody, and control of a licensed adoption agency, for adoption, with assessed and approved adoptive applicants

(3) Cooperatively supervises adoptive placements with a full-service adoption agency, but does not disrupt a placement or remove a child from a placement.

(c) Private adoption agencies shall be organized and operated on

a nonprofit basis.

(d) An agency described in subdivision (a) or (b) may provide services to birth parents or adoptive parents pursuant to subdivision (b) of Section 226.51. This subdivision shall be inoperative on January 1, 1994.

SEC. 3. Section 226.5 of the Civil Code is amended to read:

226.5. The State Department of Social Services or a licensed county adoption agency shall interview the petitioners and all persons from whom consent is required and whose addresses are known as soon as possible and in the case of residents of California within 45 working days, excluding legal holidays, after the filing of the adoption petition. In order to facilitate these interviews, at the same time the petition is filed, the petitioner shall file with the district office of the State Department of Social Services or with the licensed county adoption agency responsible for the investigation of the adoption, a copy of the petition together with the names, addresses, and phone numbers of all parties to be interviewed, if known.

SEC. 4. Section 226.51 is added to the Civil Code, to read:

226.51. (a) Notwithstanding the time limits of Section 226.5, if the person to be interviewed has been advised as provided in subdivision (b) and if there is no serious question about the suitability of the prospective adoptive family as provided in subdivision (c), the State Department of Social Services or a licensed county adoption agency shall interview at the department or agency office any person willing to be interviewed from whom consent is required within 10 working days of receiving a copy of the filed adoption petition and documentation that all of the following conditions have been met:

(1) The person from whom consent is required has been advised pursuant to subdivision (b).

(2) There is no serious question about the suitability of the prospective adoptive family as provided in subdivision (c).

(3) The department or the agency has received the name, address, and phone number of the person to be interviewed and the complete report of the assessment of the prospective adoptive family.

The State Department of Social Services or the licensed county adoption agency may take the consent of the person to the adoption at this interview or subsequently.

(b) The advice required by subdivision (a) shall be given by a representative of the department or a full-service adoption agency or noncustodial adoption agency, as defined in Section 221.5, as specified in this subdivision prior to placement of the child for adoption. The advice shall include a balanced presentation of the alternatives to adoption, the right to obtain additional counseling, the right to retain separate legal counsel, the meaning of the consent to adoption, the right to future information about the status of the adoption, the need of the child and the adopting parents for

complete information on the background of the child, the content of the assessment of the prospective adoptive family, and other information determined necessary by the department. The person giving the advice shall also collect information on the background of the child from the person being advised.

Each person advised pursuant to this subdivision shall be offered at least three separate counseling sessions, to be held on different days, except that this requirement does not apply to birth fathers from whom consent for the adoption is not required. Each counseling session shall be no less than 50 minutes duration. The counseling may be provided by a representative of the department or a licensed adoption agency or by persons licensed to provide psychotherapy or counseling selected by the person. The counseling costs shall be paid by the prospective adoptive parents at the request of the birth parents. If counseling is requested prior to the placement of the child for adoption, it shall be initiated prior to the placement.

Confirmation that a person has been advised and has received counseling, if desired, as required by this subdivision, shall be documented by the department or by an agency as described in Section 221.5 on a form prescribed by the department.

If the person from whom consent is required decides to relinquish the child for adoption, rather than to consent to adoption of the child by the petitioners, the agency advising the birth parent or parents shall not accept the relinquishment of the child, except where there are no other licensed adoption agencies in the county acceptable to the birth parent or parents, in which case the advising agency still shall not accept a relinquishment sooner than five days after completion of the giving of that advice.

(c) The determination that there is no serious question about the suitability of the prospective adoptive family, as required by subdivision (a), shall be based on an assessment conducted by the department or by a licensed adoption agency. The assessment shall be completed or updated within 12 months before the placement of the child for adoption. The assessment shall include consideration of those factors required by the department in a study to determine whether the prospective adoptive family and its home is suitable for a child where neither the department nor a licensed adoption agency is a party to the adoption, except those factors regarding the adjustment of the child in the home. In addition to describing fully information collected in the assessment and the conclusions of the assessment, the report of the assessment shall specify the characteristics of a child which the family would adopt including, but not limited to, age, sex, ethnicity, race, and special needs. The prospective adoptive parents and any person being advised pursuant to subdivision (b) shall be provided with a written summary of the report of the assessment.

If the assessment results in a determination that there is a serious question as to the suitability of the prospective adoptive family, or if the assessment is discontinued prior to completion because of such

a question, the department or the adoption agency shall provide a report of the complete or incomplete assessment to the department. The department shall retain this report for 10 years for use in any assessment of the suitability of the family to adopt a child.

(d) Any relationship between an attorney and a licensed private adoption agency involved in providing advice, counseling, or assessment to any party in an adoption pursuant to subdivision (b), shall be disclosed in writing to any person from whom consent is required and to the prospective adoptive parents.

(e) No licensed private full-service or noncustodial adoption agency, as defined in subdivisions (a) and (b) of Section 221.5, respectively, is required to provide the advice and assessment services specified in subdivisions (b) and (c). However, if an agency elects to provide these services, it shall provide both services. There is no requirement that prospective adoptive parents and birth parents use the same adoption agency for these services. If the agency has a policy that allows it to provide services only to members of specific groups, this policy shall be disclosed to families prior to the beginning of the assessment process.

(f) The department or the licensed county adoption agency shall perform the advice and assessment services specified in subdivisions (b) and (c) at no cost only in those cases where all of the following apply:

(1) The prospective adoptive parents are seeking the assessment because of the intended placement of a specific child of an identified birth parent.

(2) The advice and assessment services can be conducted prior to the placement of the child.

(3) The department or the licensed county adoption agency can provide the services without delaying any mandated service.

(4) The fees specified in subdivision (a) of Section 225q would be waived because they would cause economic hardship to the adoptive parents and would be detrimental to the welfare of the adopted child as determined by the department.

(g) The State Department of Social Services shall study the effect of the processes described in subdivisions (a) and (f), inclusive, on the child and the parties to the adoption. The study shall provide and evaluate comparative data using information regarding the factors specified in this subdivision, which shall cover a period prior to, and concurrent with, the implementation of this section for adoptions conducted under this section or pursuant to other statutory provisions. These factors include the number and percentage of birth parents actually receiving counseling, the number of petitions in which a birth parent seeks the withdrawal of consent to adoption, the number of occasions in which the birth parent's consent is not taken at the initial interview under provisions of this section and the reasons, the number of adoptions commenced and completed under this section and pursuant to other statutory provisions, the number of requests for return of a child by a birth parent after placement but

before consent, the amount of time spent by the state in completing the home study, and the number of negative home studies presented to the court.

The Independent Adoption Preplacement Program authorized by this section shall be deemed to be successful if there is a 10 percent reduction in the number of withdrawals of consent to adoption in cases commenced under this section, and if at least 25 percent of all nonagency adoptions are commenced pursuant to this section at the time the evaluation is completed.

The State Department of Social Services shall report its findings to the Legislature on or before January 1, 1993.

(i) The State Department of Social Services may adopt emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Division 3 of Title 2 of the Government Code to implement this section.

This section shall remain in effect only until January 1, 1994, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1994, deletes or extends that date.

SEC. 5 Section 1522.4 of the Health and Safety Code is amended to read:

1522.4. (a) In addition to any other requirements of this chapter and except for foster family homes, small family homes, and certified family homes of foster family agencies, all of the following apply to any community care facility providing 24-hour care for children:

(1) The facility shall have one or more facility managers. "Facility manager," as used in this section, means a person on the premises with the authority and responsibility necessary to manage and control the day-to-day operation of a community care facility and supervise the clients. The facility manager, licensee, and administrator, or any combination thereof, may be the same person provided he or she meets all applicable requirements. If the administrator is also the facility manager for the same facility, this person shall be limited to the administration and management of only one facility.

(2) The facility manager shall have at least one year of experience working with the client group served, or equivalent education or experience, as determined by the department.

(3) A facility manager shall be at the facility at all times when one or more clients are present. To ensure adequate supervision of clients when clients are at the facility outside of their normal schedule, a current telephone number where the facility manager can be reached shall be provided to the clients, licensing agency, school, and any other agency or person as the department determines is necessary. The facility manager shall instruct these agencies and individuals to notify him or her when clients will be returning to the facility outside of the normal hours.

(4) The Legislature intends to upgrade the quality of care in licensed facilities. For the purposes of Sections 1533 and 1534, the licensed facility shall be inspected and evaluated for quality of care

at least once each year, without advance notice and as often as necessary, without advance notice, to ensure the quality of care being provided.

Paragraphs (1), (2), and (3) shall apply only to new facilities licensed for six or fewer children which apply for a license after January 1, 1985, and all other new facilities licensed for seven or more children which apply for a license after January 1, 1988. Existing facilities licensed for seven or more children shall comply by January 1, 1989.

(b) No employee of the state or county employed in the administration of this chapter or employed in a position that is in any way concerned with facilities licensed under this chapter shall hold a license or have a direct or indirect financial interest in a facility described in subdivision (a).

The department, by regulation, shall make the determination pursuant to the purposes of this section and chapter, as to what employment is in the administration of this chapter or in any way concerned with facilities licensed under this chapter and what financial interest is direct or indirect.

This subdivision does not prohibit the state or county from securing a license for, or operating, a facility that is otherwise required to be licensed under this chapter.

(c) A licensed private full-service or noncustodial adoption agency, as defined in subdivisions (a) and (b) of Section 221.5, respectively, which advises a person as specified in subdivision (b) of Section 226.51 of the Civil Code or which assesses the prospective adoptive family as specified in subdivision (c) of Section 226.51 of the Civil Code shall not have received financial contributions in excess of five hundred dollars ($500) or volunteer or paid services from the adoption petitioners, the attorneys advising the petitioners in connection with the adoption, members of the immediate families of the petitioners or the attorneys advising them in connection with the adoption, or members or employees of any such attorney's firm during a one-year period immediately prior to the beginning of the advice or assessment services and shall not accept financial contributions in excess of five hundred dollars ($500) or volunteer or paid services from any of those persons for at least one year after the advice or assessment service is completed. This does not include fees for services charged by the agency. This subdivision shall be inoperative on January 1, 1994.

SEC. 6. This act shall take effect and become operative only if Senate Bill 64 of the 1989–90 Regular Session or other legislation is chaptered and takes effect on or before January 1, 1990, and provides for the establishment of a fee of at least five hundred dollars ($500) to be paid by the adoptive parents to the State Department of Social Services or the county adoption agency prior to the finding of a favorable report in those cases where the child has not been placed for adoption by a licensed adoption agency or the department.

SEC. 7. Notwithstanding Section 17610 of the Government Code,

if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

A member who so elects shall be subject to the reduced benefit factors specified in Section 21251.13 only for service also included in the federal system.

SEC. 5. Section 20603 of the Government Code is amended to read:

20603. (a) The normal rate of contribution for a state miscellaneous member whose service is not included in the federal system shall be 6 percent of the compensation in excess of three hundred seventeen dollars ($317) per month paid that member for service rendered on and after July 1, 1976. The normal rate of contribution for a school member, or a local miscellaneous member shall be 7 percent of the compensation paid that member for service rendered on and after the operative date of the amendments to this section at the 1971 Regular Session.

The normal rate of contribution as established under this subdivision for a member whose service is included in the federal system, and whose service retirement allowance is reduced under Section 21251.13 because of that inclusion, shall be reduced by one-third as applied to compensation not exceeding four hundred dollars ($400) per month for service after the date of execution of the agreement including service in the federal system and prior to termination of the agreement with respect to the coverage group to which he or she belongs.

(b) The normal rate of contribution for a state miscellaneous member whose service has been included in the federal system shall be 5 percent of compensation in excess of five hundred thirteen dollars ($513) per month paid that member for service rendered on and after July 1, 1976.

(c) The normal rate of contribution for a state miscellaneous member who elects to become subject to Section 21251.146 or Section 21251.147 shall be 0 percent, unless the member subsequently elects

to become subject to Section 21251.13, as authorized by subdivision (c) of Section 20013.7. A member who elects to become subject to Section 21251.13 shall contribute at the rate specified in subdivision (a) or (b) of this section, as determined by the member's status with the federal system, and the rate shall be applied from the first of the month following the date of the election. A member who makes the election shall also contribute for service prior to the date the contribution rate was applied, in the manner specified in Section 20813.5. A member who elected to become subject to Section 21251.13 solely for service rendered on or after the effective date of the election, as authorized by subdivision (c) of Section 20013.7 during the period between November 1, 1988, and October 31, 1989, is not required to make the contributions specified in Section 20813.5.

(d) Notwithstanding any other provision of this part, state member contributions on premium compensation for planned overtime paid at the "half-time" rate as part of the regular shift under the federal Fair Labor Standards Act or the Memorandum of Understanding of State Bargaining Units 7 and 8 are waived for the period April 15, 1985, through June 30, 1988.

This subdivision applies to State Bargaining Units 7 and 8 and becomes effective only if the board approves a waiver of employer contributions on the same premium compensation for the same period of time. If this subdivision is approved by the board, benefits shall be calculated to include overtime paid at the one-half time rate.

SEC. 6. Section 20685 of the Government Code is amended to read:

20685. (a) If a basic death benefit becomes payable before the payment of the total amount the member elected to pay under any election with respect to normal contributions, arrears contributions, absences, or public service credit permitted under this part, the member's entire compensation, or the service upon which that total amount was based, as the case may be, shall be included in the computation of the portion of the death benefit which is provided in subdivision (b) of Section 21361, and the unpaid balance of the total amount shall not be paid to this system, nor shall it be included in the member's accumulated contributions which constitute a part of the basic death benefit.

(b) Any balance of any total amount remaining unpaid at the death of the member on account of whom a special death benefit is payable or at the retirement of a member for industrial disability shall become due and payable forthwith, except that the survivor of a member who died under circumstances under which a special death benefit is payable and who had authorized payroll deductions may elect to continue such deductions from the survivor allowance in lieu of the lump-sum payment otherwise required. If the balance is not paid, the portion of the unpaid amount representing contributions on compensation earned in the membership applicable to the member at the time of injury resulting in death or disability shall be deducted from the benefit otherwise payable and

the system shall be discharged from any liability for any annuity or benefit with respect to any remainder of the unpaid contribution.

(c) Any balance of the total amount remaining unpaid at the time of retirement for service or ordinary disability, or at death, with respect to which a benefit is payable under Section 21365.5, shall become due and payable immediately, except that the survivor of a member who died under circumstances under which a benefit under Section 21365.5 is payable and who had authorized payroll deductions may elect to continue those deductions from the survivor allowance in lieu of a lump-sum payment of the balance due. If the balance is not paid, the service credit included in the election shall be reduced proportionately and any service credit dependent on completion of payments eliminated for purposes of computing the allowance but not for purposes of determining entitlement to an allowance.

(d) Notwithstanding any provision of subdivision (b) or (c), a member who retires after January 1, 1976, before payment of the total amount which he or she elected to pay, may elect to pay the balance due, or the total amount if no payroll deductions had been made prior to retirement, by deductions from his or her retirement allowance equal to those which the member authorized as payroll deductions. In such case, service credit included in the election shall not be reduced, nor shall any prior service dependent on completion of payments be eliminated for purposes of computing the allowance. Any balance of the total amount remaining unpaid upon the death of the member shall be treated in the same manner as unpaid balances are treated if a special death benefit is payable, except that the survivor of a retired member who had authorized deductions from his or her retirement allowance in accordance with this subdivision, and who is eligible for a monthly allowance, may elect to continue those deductions from the survivor's allowance in lieu of the lump-sum payment otherwise required.

(e) Interest paid with respect to normal contributions, arrears contributions, absences, or public service credit permitted under this part, prior to date of retirement or death of the member, shall be credited to the member's individual account. Interest paid after the date of retirement or death of the member shall be credited to the retirement fund pursuant to Section 20203.

SEC. 7. Section 20745 of the Government Code is amended to read:

20745. Notwithstanding any other provision of this part, the state's contribution on premium compensation for planned overtime paid at the "half-time" rate as part of the regular shift under the federal Fair Labor Standards Act or the Memorandum of Understanding of State Bargaining Units 7 and 8 are waived for the period April 15, 1985, through June 30, 1988. This section applies to State Bargaining Units 7 and 8 and becomes effective only if the board approves a waiver of employer contributions on the same premium compensation for the same period of time. If this section

is approved by the board, benefits shall be calculated to include overtime paid at the one-half time rate.

SEC. 8. Section 20803.8 of the Government Code is amended to read:

20803.8. "State safety service" with respect to a member who becomes a state safety member pursuant to Section 20017.79 shall also include service prior to the date on which he or she becomes a state safety member as an officer or employee of the Adult Authority, Department of Corrections, Prison Industry Authority, or the Department of the Youth Authority.

SEC. 9. Section 20813.5 of the Government Code is amended to read:

20813.5. (a) A member who elects to receive service credit under Section 21251.13, as authorized by subdivision (c) of Section 20013.7, for time during which he or she was subject to Section 21251.147, shall contribute in a lump sum or by installments, over such period and subject to such minimum payments as may be prescribed by regulations of the board, an amount equal to the contributions he or she would have made had he or she not been subject to Section 21251.147, plus an amount equal to the interest, to the date of completion of payments, which would have been credited to those contributions.

(b) A member who elects to receive service credit under Section 21251.13, as authorized by subdivision (c) of Section 20013.7, for time during which he or she received service credit under Section 21251.146, shall deposit in the retirement fund, subject to the regulations of the board, an amount equal to (1) any accumulated contributions that he or she withdrew pursuant to Section 20653, plus an amount equal to the interest, to the date of completion of payments, which would have been credited to those contributions, and (2) an amount equal to the contributions he or she would have made had he or she not been subject to Section 21251.146, plus an amount equal to the interest, to the date of completion of payments, which would have been credited to those contributions.

Upon electing to be subject to Section 21251.13, a member shall return to coverage under that formula without credit for any previous creditable state miscellaneous or industrial service credited at no cost pursuant to Section 20813.1, unless the member elects to redeposit or to purchase the service as otherwise required in this part, or the member has elected to be subject to Section 21251.13 solely for service rendered on or after the effective date of the election, as permitted during the one-year period specified in subdivision (c) of Section 20013.7.

SEC. 9.5. Section 20816 of the Government Code is amended to read:

20816. Notwithstanding any other provisions of this part, whenever the Governor, by executive order, determines that because of an impending curtailment of, or change in the manner of performing service, the best interests of the state would be served

by encouraging the retirement of state employees, and that sufficient economies could be realized to offset any cost to state agencies resulting from this section, an additional two years of service shall be credited to state members, other than school members, if the following conditions exist:

(a) The member meets the service requirements of Section 20950 or Section 20950.1 and retires during a period not to exceed 120 days or less than 60 days commencing no sooner than the date of issuance of the Governor's executive order which shall specify such period.

(b) The appointing power, as defined in Section 18524, or the Board of Regents of the University of California or the Board of Trustees of the California State University, transmits to the retirement fund an amount determined by the board which is equal to the actuarial equivalent of the difference between the allowance the member receives after the receipt of service credit under this section and the amount the member would have received without such service credit. The transfer to the retirement fund shall be made in a manner and time period acceptable to the employer and the board.

(c) The appointing power or the Board of Regents or the Board of Trustees determines that it is electing to exercise the provisions of this section, pursuant to the Governor's order, and certifies to the State Department of Finance and to the Office of Legislative Analyst, as to the specific economies that will be realized were the additional service credit towards retirement granted.

As used in this section, "member" means a state employee who is employed in a job classification, department, or other organizational unit designated by the appointing power, as defined in Section 18524, the Board of Regents of the University of California, or the Board of Trustees of the California State University.

The amount of service credit shall be two years regardless of credited service, but shall not exceed the number of years intervening between the date of the member's retirement and the date the member would be required to be retired because of age. The appointing power or the Board of Regents or the Board of Trustees shall make such payment with respect to all eligible employees who retired pursuant to this section.

Any member who qualifies under this section, upon subsequent reentry to the system shall forfeit the service credit acquired under this section.

This section shall not be applicable to any member otherwise eligible if such member receives any unemployment insurance payments arising out of employment with an employer subject to this part during a period extending one year beyond the date of issuance of the executive order or if the member is not eligible to retire without the additional credit available under this section.

The benefit provided by this section shall not be applicable to the employees of any appointing power or the Board of Regents or the Board of Trustees until the Director of Finance approves the

transmittal of funds by that appointing power or the Board of Regents or the Board of Trustees to the retirement fund pursuant to subdivision (c).

The Director of Finance shall approve the transmittal of funds by the appointing power or the Board of Regents or the Board of Trustees not sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than such lesser time as the chairperson of the committee, or his or her designee, may in each instance determine. If there is any written communication between the Director of Finance and the Legislative Analyst, a copy thereof shall be forthwith transmitted to the chairperson of each appropriate policy committee.

SEC. 10. Section 20860 of the Government Code is amended to read:

20860. Except as provided in Article 4 (commencing with Section 20890), time during which a member is absent from state service without compensation shall not be allowed in computing service.

SEC. 11. Section 20898.1 of the Government Code is amended to read:

20898.1. "Leave of absence" also means any time during which a member is granted an approved leave for the purpose of service with a university; college; local, state, federal or foreign governmental agency; or nonprofit organization, if he or she returns to employment within the terms and conditions under which the leave was granted. However, any member electing to receive credit for that leave of absence shall in addition to contributions otherwise required by this article contribute an amount equal to the contribution that would have been made on behalf of the member had the member not been absent, assuming that the employer rate of contribution in effect at the time of election had been in effect during the absence. In no event shall a member receive service credit in excess of two years for each approved leave of absence.

SEC. 12. Section 20901.5 is added to the Government Code, to read:

20901.5. Notwithstanding Section 20901, for a member electing to receive service credit for time during which he or she was absent from state service who is subject to Sections 21251.146 and 21251.147, the contribution rate to be used for the purposes of computation shall be deemed to be the contribution rate that would have been used had the member not been subject to Sections 21251.146 and 21251.147.

SEC. 13. Section 20930 of the Government Code is amended to read:

20930. "Public service" for purposes of this article means the following:

(a) The period of time an employee served the state, a school employer, or a contracting agency prior to becoming a member,

when the service was rendered in a position in which the employee was excluded provided one of the following conditions is met:

(1) The position has since become subject to compulsory membership in this system.

(2) The employee was excluded because the employee was serving on a part-time basis.

(3) The employee was excluded because the employee failed to exercise the right to elect membership under this part.

(b) Employment in the State Emergency Relief Administration or the State Relief Administration subsequent to March 1933, regardless of the source of the compensation paid for that employment.

(c) Employment as an academic employee of the University of California prior to October 1, 1963. However, any member electing to receive credit for public service shall in addition to other contributions required by this article contribute an amount equal to the contributions which would have been made on his or her behalf by the state had he or she been in membership during that employment, assuming that the state rate of contribution in effect at the time of election has been in effect during that employment.

(d) Employment of the state in which the person was not eligible for membership in the system if the ineligibility was solely because his or her compensation was paid from other than state-controlled funds. However, time spent in work as a work relief recipient under programs such as, but not limited to, the Works Progress Administration, the Civil Works Administration, the Federal Emergency Relief Administration, the National Youth Administration, and the Civilian Conservation Corps, shall not constitute public service.

21253 Notwithstanding any other provision of law, and with respect only to an election by a contracting agency to amend its contract to become subject to Section 21252.6, 21252.61, or 21252.02, instead of Section 21252.1, the following shall apply:

(a) Members who are on the amending agency's active payroll on the effective date of the contract amendment shall elect in writing, within 90 days after the notification by the board of the amendment, to be subject to Section 21252.1, 21252.61, or 21252.02, as applicable, or Section 21252.6 with respect to all safety service performed for the contracting agency.

The election shall be effective only if the reinstated member remains in the employment for at least one year subsequent to reinstatement.

This bill would allow the Department of Housing and Community Development to more effectively regulate those persons engaged in the manufacturing and sale of manufactured homes and

mobilehomes, would permit the department to have greater control over the implementation and enforcement of certain building standards, and would expand the protections afforded to consumers involved in transactions related to mobilehomes; therefore, it is necessary that this act take effect immediately.

(b) The board shall lease-purchase to the Regents of the University of California any public building or facility acquired, constructed, renovated, or equipped pursuant to this chapter. The board shall contract with the lessee for all activities required to acquire, plan, construct, equip, and renovate these facilities.

SEC. 2. Section 15820.18 of the Government Code is amended to read:

(c) No certificates, revenue bonds, notes, or anticipation notes shall be issued, and no acquisition, construction, or renovation and the equipping for any public building or facility and related infrastructure authorized by this chapter shall be commenced or purchased, unless the Legislature, by statute, authorizes the total amount of certificates, revenue bonds, notes, or anticipation notes that may be used to finance that public building or facility and related infrastructure, or the Legislature, pursuant to Section 15820.185, authorizes a specific amount of financing to be made available to the board for a specific period of time to finance the cost of acquisition, construction, or renovation and the equipping of public buildings or facilities and related infrastructure without authorizing any specific building.

At any legislative hearing wherein a proposed statute described in this subdivision is considered, there shall be included, but not limited to, in that consideration an examination of the total interest cost of the issue.

(d) Any project proposed for funding under Section 15820.185 shall be approved by statute except that the board may request a waiver of this approval requirement. To secure such a waiver, the board shall submit to the Joint Legislative Budget Committee and to the appropriate policy and fiscal committees of the Legislature sufficient information for any committee of the Legislature to examine the merits of the projects. The Joint Legislative Budget Committee may waive the statutory approval of projects after consultation with the fiscal committees within 90 days or sooner of the submission of the projects by the board.

(e) All increases in revenues received by the University of California arising from use of the buildings, facilities, or equipment financed pursuant to Section 15820.185 shall be available to the Regents of the University of California and shall, to the extent necessary, be used by the regents for the purposes of making the lease or lease-purchase payments to the board.

(f) The cost of the lease or lease-purchase agreement with the board under Section 15820.185 payable from university funds shall be the responsibility of the regents. For purposes of this subdivision, "university funds" shall not include any funds appropriated from the General Fund.

infrastructure to be dedicated to long-term scientific research activities which are expected to generate a stable revenue base over the term of the lease or lease-purchase agreement and to enhance the economy of this state and the nation or the competitive position of this state and the nation in the international economy.

(b) The amount of negotiable bond anticipation notes to be sold shall not exceed the amount of revenue bonds or negotiable notes authorized by this section.

SEC. 12. Section 1253.3 of the Unemployment Insurance Code is

amended to read:

1253.3. (a) Notwithstanding any other provision of this division, unemployment compensation benefits, extended duration benefits, and federal-state extended benefits are payable on the basis of service to which Section 3309(a)(1) of the Internal Revenue Code of 1954 applies, in the same amount, on the same terms, and subject to the same conditions as benefits payable on the basis of other service subject to this division, except as provided by this section.

(b) Benefits specified by subdivision (a) based on service performed in the employ of a nonprofit organization, or of any public entity as defined by Section 605, with respect to service in an instructional, research, or principal administrative capacity for an educational institution are not payable to any individual with respect to any week which begins during the period between two successive academic years or terms or, when an agreement provides instead for a similar period between two regular but not successive terms, during that period, or during a period of paid sabbatical leave provided for in the individual's contract, if the individual performs services in the first of the academic years or terms and if there is a contract or a reasonable assurance that the individual will perform services for any educational institution in the second of the academic years or terms.

(c) Benefits specified by subdivision (a) based on service performed in the employ of a nonprofit organization, or of any public entity as defined by Section 605, with respect to service in any other capacity than specified in subdivision (b) for an educational institution shall not be payable to any individual with respect to any week which commences during a period between two successive academic years or terms if the individual performs the service in the first of the academic years or terms and there is a reasonable assurance that the individual will perform the service in the second of the academic years or terms. However, if the individual was not offered an opportunity to perform the services for an educational institution for the second of the academic years or terms, the individual shall be entitled to a retroactive payment of benefits for each week for which the individual filed a timely claim for benefits and for which benefits were denied solely by reason of this subdivision. Retroactive benefits shall be claimed in accordance with the department's procedures which shall specify that except where the individual was entitled to benefits based on services performed for other than an educational institution, an individual who has a reasonable assurance of reemployment may satisfy the search for work requirement of subdivision (e) of Section 1253, by registering for work pursuant to subdivision (b) of Section 1253 during the period between the first and second academic terms or years. A claim for retroactive benefits may be made no later than 30 days following the commencement of the second academic year or term.

(d) Benefits specified by subdivision (a) based on service performed in the employ of a nonprofit organization, or of any public

entity as defined by Section 605, with respect to services specified by subdivision (b) or (c), are not payable to any individual with respect to any week which commences during an established and customary vacation period or holiday recess if the individual performs the services in the period immediately before the vacation period or holiday recess, and there is a reasonable assurance that the individual will perform the services in the period immediately following the vacation period or holiday recess.

(e) With respect to any services specified by subdivision (b) or (c), compensation payable on the basis of services in any such capacity may be denied as specified in subdivision (b), (c), or (d) to any individual who performed the services in an educational institution while in the employ of an educational service agency, and for this purpose the term "educational service agency" means a governmental agency or governmental entity which is established and operated exclusively for the purpose of providing the services to one or more educational institutions.

(f) Benefits specified by subdivision (a) based on service performed in the employ of a nonprofit organization, or of any public entity as defined by Section 605, are not payable during the periods of time, and subject to the same conditions, contained in subdivisions (b), (c), (d), and (h), if the services are provided to, or on behalf of, an educational institution.

(g) For purposes of this section, "reasonable assurance" includes, but is not limited to, an offer of employment or assignment made by the educational institution, provided that the offer or assignment is not contingent on enrollment, funding, or program changes. An individual who has been notified that he or she will be replaced and does not have an offer of employment or assignment to perform services for an educational institution is not considered to have reasonable assurance.

(h) For purposes of this section, if the time for service performed during the period of and pursuant to any contract for any academic year or term by an individual for any employing unit as specified in subdivision (b) or (c) constitutes one-half or more of the time in total service performed for the employing unit by the individual during that same period for remuneration, all the services of the individual for the employing unit for that period shall be deemed subject to the benefit payment restriction provisions of this section.

(i) Any public entity as defined by Section 605, with respect to any individual performing a service in any other capacity other than specified in subdivision (b) for an educational institution, shall provide a written statement indicating the following to the individual no later than 30 days before the end of the first of the academic years or terms:

(1) Whether or not there is a reasonable assurance of reemployment.

(2) Whether or not it is stated that the individual has no reasonable assurance of reemployment, that the individual should

file a claim for benefits at the close of the academic year or term.

(3) If it is stated that the individual has reasonable assurance of reemployment, the written statement shall also inform the employee that he or she may file a claim for benefits and that the determination for eligibility for benefits is made by the Employment Development Department and not by the employer.

(4) If it is stated that the individual has reasonable assurance of reemployment, that the individual shall be entitled to a retroactive payment of benefits if the individual is not offered an opportunity to perform the services for the educational institution for the second of the academic years or terms, if the individual is otherwise eligible and he or she filed a claim for each week benefits are claimed, and if a claim for retroactive benefits is made no later than 30 days following the commencement of the second academic year or term.

SEC. 13. Section 1260 of the Unemployment Insurance Code is amended to read:

No disqualification under this subdivision shall be applied to any week if all or any portion of the week is beyond the three-year period next succeeding the date of the mailing or personal service of the determination. This

subdivision shall not apply to an individual convicted under Section 2101.

(d) An individual disqualified under subdivision (a) of Section 1257, under a determination transmitted to him or her by the department, and who was paid any benefit amount as a result of his or her false statement or representation, is ineligible to receive unemployment compensation benefits for five weeks commencing with the week in which the determination is mailed to or personally served upon him or her, or any subsequent week, for which he or she is first otherwise in all respects eligible for unemployment compensation benefits and for not more than 10 subsequent weeks for which he or she is otherwise in all respects eligible for unemployment compensation benefits. No disqualification under this subdivision shall be applied to any week if all or any portion of the week is beyond the three-year period next succeeding the date of the mailing or personal service of the determination. This subdivision shall not apply to an individual convicted under Section 2101.

(e) Notwithstanding subdivision (c) or (d), an individual who is subject to a disqualification that is imposed under subdivision (b) of Section 1257 may, if he or she is otherwise in all respects eligible for unemployment compensation benefits, concurrently serve a disqualification imposed under subdivision (a) of Section 1257.

CHAPTER 1147

An act to add Chapter 6.8 (commencing with Section 52080) and Chapter 6.9 (commencing with Section 52100) to Part 28 of the Education Code, relating to education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 29, 1989 Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. (a) It is the intent of the Legislature to implement over an eight-year period a state-local cost sharing program, which has the goal of attaining greater pupil proficiency made possible by a class size of 20 in high school courses taught by the English, mathematics, science, or social studies department to meet graduation requirements. The Legislature further recognizes the impracticality of imposing an absolute maximum of 20 pupils per class. Therefore, for the purposes of this act, classes taught by the English, mathematics, science, or social studies department to meet graduation requirements shall be reduced to an average of 20 pupils, per certificated teacher, per class. It is also the intent of the Legislature that school district governing boards shall have the option of implementing this program in their choice of grade levels and courses specified in the Program to Reduce Class Size in Grades 9 to 12, Inclusive, Chapter 6.8 (commencing with Section 52080) of Part 28 of the Education Code. The Legislature intends that this program not increase the need for additional classroom facilities, and that school district governing boards will add an extra period to the instructional day, if necessary, to implement the provisions of this program.

(b) It is further the intent of the Legislature to implement a

Language Arts Enrichment Program in Grades 1 to 3, Inclusive, to attain greater pupil proficiency in reading, writing, spelling, and speaking and listening. Incentive funding provided under this program would provide new direct instructional services to pupils for this purpose.

SEC. 2. Chapter 6.8 (commencing with Section 52080) is added to Part 28 of the Education Code, to read:

CHAPTER 6.8. PROGRAM TO REDUCE CLASS SIZE IN GRADES 9 TO 12, INCLUSIVE

52080. This chapter shall be known and may be cited as the Morgan-Hart Class Size Reduction Act of 1989.

52081. The following entities shall not be eligible to participate in the Program to Reduce Class Size in Grades 9 to 12, Inclusive:

(a) County boards of education.

(b) County superintendents of schools.

52082. Except as otherwise provided by subdivisions (a) and (b) of Section 52081, any school district that maintains any of grades 9 to 12, inclusive, may apply to the Superintendent of Public Instruction for an apportionment to implement a Program to Reduce Class Size in Grades 9 to 12, Inclusive.

52084. A school district's application to implement a program pursuant to this chapter shall comprise the following:

(a) Certification of the grade level to be included in the program for the first fiscal year of implementation, during which only one grade level may be certified, or, for any subsequent fiscal year, of the grade level to be added to the program, for the fiscal year for which funding is sought. No more than one additional grade level shall be added to the program in any one fiscal year. That grade level shall continue to be included in the program in subsequent fiscal years for which an apportionment is sought.

(b) Certification that all courses that count toward completion of the graduation requirements established in Section 51225.3 and that are taught in any of the English, mathematics, social studies, or science departments in the grade level or levels designated pursuant to subdivision (a) shall on the average be no more than 20 pupils, per certificated teacher, per class in the subject selected for state reimbursement. For the first fiscal year of funding for which a subject is chosen in a particular grade level, a school district may certify a pupil load that represents a 50-percent improvement toward the goal of an average of 20 pupils, per certificated teacher, per class for the 1988–89 fiscal year calculated by subject area selected for state funding. Once a department has been designated pursuant to this subdivision, it shall remain in the program as additional departments are added in subsequent fiscal years.

(c) Certification of pupil enrollment as of October of the prior fiscal year in each grade level designated pursuant to subdivision (a). For purposes of this subdivision, the enrollment figure shall equal

total enrollment minus the sum of the following:

(1) The number of special education pupils enrolled in special day classes on a full-time basis.

(2) The number of pupils enrolled in necessary small schools that receive funding pursuant to Article 4 (commencing with Section 42280) of Chapter 7 of Part 24.

(d) If, in any subsequent fiscal year for which an apportionment is sought, the district certifies that the program in a particular grade level designated pursuant to subdivision (a) will be expanded to include courses required for graduation taught in the departments not previously designated pursuant to subdivision (b), the enrollment figure obtained pursuant to subdivision (c) for that grade level shall be increased proportionately for that fiscal year and each fiscal year thereafter for which an apportionment is sought.

(e) A district shall also certify, as a condition for the continued receipt of state apportionments pursuant to Section 52086, that the district has maintained all class size reductions accomplished through previous apportionments under this chapter. The district's certification shall include a statement that implementation of a class size reduction program pursuant to this chapter has not adversely affected existing class size in courses not referenced in this chapter.

(f) While it is the intent of the Legislature that this program not increase the need for additional classroom facilities, a school district may utilize any funds apportioned pursuant to Section 52086 for the purpose of leasing additional classroom space in order to reduce overcrowded classroom conditions and to reduce pupil-to-teacher ratios.

52086. (a) The Superintendent of Public Instruction shall apportion to each applicant district an amount equal to two hundred fifty dollars ($250) per unit of enrollment reported pursuant to subdivision (c) or (d) of Section 52084 if the district certifies an average class size of 20 pupils. If a district uses the alternate option of reducing class size via two stepdown increments pursuant to subdivision (b) of Section 52084, the district shall receive an amount equal to one hundred twenty-five dollars ($125) per unit of enrollment for each increment, which shall be increased to a total of two hundred fifty dollars ($250) commencing with the fiscal year in which the district certifies an average class size of 20 pupils.

(b) Funds apportioned pursuant to this section shall not become part of a district's revenue limit, and shall be identified as a separate item of expenditure on any financial reports filed by school districts with the state pursuant to statute or regulation.

52088. On or before November 1 of each year, the Superintendent of Public Instruction shall report to the Governor and to both houses of the Legislature regarding the number of districts that have implemented a program pursuant to this chapter, the grade levels involved in those programs, and the total amount of the state and local funds expended in the prior fiscal year for the programs.

52090. In any fiscal year, if the funds appropriated for the purposes of this chapter by the Budget Act are insufficient to fully fund the program pursuant to the formula established in Section 52086, the Superintendent of Public Instruction shall apportion the available funds on a pro rata basis by applying a deficit factor to the apportionment calculated for each applicant district pursuant to Section 52086.

SEC. 3. Chapter 6.9 (commencing with Section 52100) is added to Part 28 of the Education Code, to read:

CHAPTER 6.9. LANGUAGE ARTS ENRICHMENT PROGRAM IN GRADES 1 TO 3, INCLUSIVE

52100. There is hereby established the Language Arts Enrichment Program in Grades 1 to 3, Inclusive.

52102. "Language arts," for purposes of this chapter, means reading, writing, spelling, and speaking and listening.

52104. The following entities shall not be eligible to participate in the Language Arts Enrichment Program in Grades 1 to 3, Inclusive:

(a) County boards of education.

(b) County superintendents of schools.

52106. (a) Incentive funding for the Language Arts Enrichment Program in Grades 1 to 3, Inclusive, shall be apportioned in the following manner:

(1) For the 1989–90 fiscal year, the Superintendent of Public Instruction shall apportion to each applicant district an amount equal to thirty dollars ($30) per unit of enrollment.

(2) Enrollment in grades 1 to 3, inclusive, used to calculate district apportionments shall be certified as of October 1 of the prior fiscal year. This enrollment figure shall equal total enrollment minus the number of special education pupils enrolled in special day classes on a full-time basis.

(b) Funds apportioned pursuant to this section shall not become part of a district's revenue limit, and shall be identified as a separate item of expenditure on financial reports filed by school districts with the state pursuant to statute or regulation.

52108. Funding provided under this program shall be used to increase direct individual instruction in language arts to pupils.

52110. A school district shall, as part of its application for funding to implement the Language Arts Enrichment Program for Grades 1 to 3, Inclusive, submit a plan to the State Department of Education specifying how funds will be expended and how the district proposes to evaluate the success of the program.

52112. On or before November 1 of each year, the Superintendent of Public Instruction shall report to the Governor and to both houses of the Legislature regarding the number of districts that have implemented a program pursuant to this chapter, the grade levels involved in those programs, and the total amount of the state and local funds expended for the programs in the prior fiscal

year.

52114. In any fiscal year, if the funds appropriated for the purposes of this chapter by the Budget Act are insufficient to fund the programs fully pursuant to the formula established in Section 52106, the Superintendent of Public Instruction shall apportion the available funds on a pro rata basis by applying a deficit factor to the apportionment calculated for each applicant district.

SEC. 4. It is the intent of the Legislature that:

(a) Subsequent to the adjustment of the amount of the funding reserved pursuant to Section 12.31 of the Budget Act of 1989 to accurately reflect the state funding obligation under subdivision (b) of Section 8 of Article XVI of the California Constitution, funds be appropriated from that reserve for purposes of deficiency allocation for kindergarten and grades 1 to 12, inclusive, pursuant to Section 27 of the Budget Act of 1989.

(b) Following the adjustment and appropriation described in subdivision (a), up to one hundred ten million dollars ($110,000,000) be appropriated from the amount reserved under Section 12.31 of the Budget Act of 1989, to be allocated as follows:

(a) The first forty million dollars ($40,000,000) to be allocated for the purposes of the Program to Reduce Class Size in Grades 9 to 12, Inclusive, pursuant to Chapter 6.8 (commencing with Section 52080) of Part 28 of the Education Code.

(b) The remaining seventy million dollars ($70,000,000) to be allocated for the purposes of the Language Arts Enrichment Program in Grades 1 to 3, Inclusive, pursuant to Chapter 6.9 (commencing with Section 52100) of Part 28 of the Education Code and the Program to Reduce Class Size in Grades 9 to 12, Inclusive, pursuant to Chapter 6.8 (commencing with Section 52080) of Part 28 of the Education Code in increments of five million dollars ($5,000,000). The Language Arts Enrichment Program in Grades 1 to 3, Inclusive, pursuant to Chapter 6.9 (commencing with Section 52100) of Part 28 of the Education Code, is to receive the first five million dollar ($5,000,000) allocation and the Program to Reduce Class Size in Grades 9 to 12, Inclusive, pursuant to Chapter 6.8 (commencing with Section 52080) of Part 28 of the Education Code, is to receive the second five million dollar ($5,000,000) allocation. The remaining funding is to be allocated in the same order. If available funds are insufficient to provide a full increment of five million dollars ($5,000,000) to a program, the available amount is to be allocated.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to implement the programs created by this bill, it is necessary that this act take effect immediately.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the penalty for a crime or infraction, changes the definition of a crime or infraction, or eliminates a crime or infraction.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide costs of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1152

An act to add and repeal Section 1349.2 of the Health and Safety Code, relating to health care service plans.

[Approved by Governor September 29, 1989 Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1349.2 is added to the Health and Safety Code, to read·

1349.2. (a) A health care service plan operated by any city, county, city and county, public entity, or political subdivision which satisfies all of the following criteria is exempt from Section 1349:

(1) Provides services only to its employees, their dependents, and retirees, but not to the general public.

(2) Provides funding for the program.

(3) Provides that providers are not at risk in contracting arrangements, that is, that the reimbursement system is on a fee-for-service basis.

(b) The Senate Office of Research shall conduct a study of the factors which should be considered by the Legislature in determining whether to create an exemption, and the scope of the exemption, under this chapter for public entities and political subdivisions operating a health care service plan for their employees, retired employees, and their dependents which satisfies all of the conditions set forth in subdivision (a). The study shall include, but not be limited to, evaluation of all of the following:

(1) An estimate of the number of public entity and political subdivision plans which would be affected by an exemption.

(2) The fiscal impact of licensure on public entities and political subdivisions and upon the regulatory authority, including any increase in public entity or regulatory authority employees needed to comply with licensure.

(3) The impact, if any, on services offered by the plan due to costs associated with regulation, including any unintended results of creating barriers to health care.

(4) Any potential concomitant increase in taxes in order for public entities and political subdivisions to provide health care services.

(5) If the plans are not licensed and monitored, any risks of financial insolvency, inadequate benefit packages, inadequate education of enrollees of plans concerning available benefits and services, appeal rights, or of economic stability of the plan; and any adverse impact on the ability of enrollees of plans to obtain quality health care, including barriers to accessibility and claims payment practices.

(6) The impact on the private sector, including physicians, allied health providers, and hospitals.

(7) The impact on health care service plans from any increase in enrollee assessments to fund the regulatory authority's efforts in licensing public entities and political subdivisions.

(8) The impact and effect of competition on private sector plans from licensed public entities and political subdivisions.

(9) Any constitutional barriers precluding the operation or a health care service plan by a joint exercise of powers agreement pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code.

In conducting the study, the Senate Office of Research shall seek assistance and input from all interested parties. The study shall be completed and submitted to the Legislature no later than December 31, 1991.

(c) It is the intent of the Legislature that the Senate Office of Research study shall provide relevant factual and legal information which may assist the Legislature in determining whether, and to what extent, a permanent exemption for public entity and political subdivision employee plans would be in the public interest and not detrimental to the protection of subscribers, enrollees, or persons regulated under this chapter, and the extent to which regulation of those plans is not essential to the purposes of this chapter.

It is therefore the intent of the Legislature that the temporary exemption in subdivision (a) is to alleviate the necessity for the Department of Corporations to commence enforcement actions against those plans solely because they are unlicensed during this period.

(d) During the time period of temporary exemption, any public entity or political subdivision operating a health care service plan pursuant to subdivision (a) shall not engage in any actions which are contrary to Sections 1378 and 1379 and shall not reduce or change current benefits except in accordance with collecting bargaining agreements existing on the effective date of this section.

(e) This section shall remain in effect only until December 31, 1992, and as of that date is repealed, unless a later enacted statute, which is enacted before December 31, 1992, deletes or extends that date.

CHAPTER 1153

An act to amend Section 116.4 of, and to add Section 116.41 to, the Code of Civil Procedure, relating to small claims court.

[Approved by Governor September 29, 1989 Filed with Secretary of State September 30, 1989.]

116.4. (a) An action shall be commenced by the plaintiff's filing, in person or by mail with the judge or clerk of the small claims division, a claim under oath setting forth: the name and address of the defendant, the amount and the basis of the claim; and that the plaintiff has demanded payment and, in applicable cases, the possession of the property; that the defendant has failed or refused to pay, and where applicable, has refused to surrender the premises; and that the plaintiff understands that the judgment on his or her claim will be conclusive without right of appeal by him or her.

(b) The judge or clerk shall thereupon do either of the following:

(1) The judge or clerk shall (A) sign an order directing a defendant who resides within the county in which the action is filed, to appear on a hearing date not more than 40 days nor less than 15 days from the date of the order or, if the defendant resides outside of the county in which the action is filed, to appear on a hearing date not more than 70 days nor less than 30 days from the date of the order, (B) cause a copy of the claim and order to be mailed to the defendant by any form of mail providing for a return receipt, or cause a copy to be delivered to defendant in person, and (C) inform the plaintiff of a specified hearing date and direct him or her to appear on that date with witnesses and documents to prove his or her claim.

(2) The judge or clerk shall (A) cause a copy of any claim to be mailed to the defendant by any form of mail providing for a return receipt or cause a copy to be delivered to defendant in person, (B) upon proof of service in accordance with subparagraph (A), sign an order setting a hearing date for a defendant who resides within the county in which the action is filed of not more than 40 days nor less than 15 days from the date of receipt of proof of service or, if the defendant resides outside of the county in which the action is filed, a hearing date of not more than 70 days nor less than 30 days from the date of receipt of service, (C) cause a copy of the order setting the hearing date and directing the defendant to appear on that date to be served upon the defendant as provided in subparagraph (A), and (D) cause a copy of the order setting the hearing date and directing the plaintiff to appear on that date with witnesses and documents to prove his or her claim to be served upon the plaintiff

as provided in subparagraph (A).

(c) Service by these methods shall be deemed complete on the date of personal service, or on the date that the defendant signs the mail return receipt, or upon the presentation of other competent evidence to the court, whichever is applicable. Service of a copy of the claim and order may also be made and shall be complete, as provided in subdivision (a) or (b) of Section 415.20, without requirement for attempted service by either of the methods above provided, and shall be complete as provided in Section 415.20. Except for personal service upon the owner of record of real property in California, who resides in another state and who has no lawfully designated agent in California for service of process, of a complaint relative to that real property, service to be valid must be made within this state.

(d) If, in the case of paragraphs (1) and (2) of subdivision (b), the service of the claim and order upon the defendant is not completed at least 10 days prior to the hearing date where the defendant resides within the county in which the action is brought, or at least 15 days prior to the hearing date where the defendant resides outside the county in which the action is brought, unless the defendant personally appears and does not request a continuance, the court shall continue the date for the hearing for at least 15 days, and shall cause notice thereof by first-class mail to be served on any defendant who has been served but did not personally appear.

SEC. 2. Section 116.41 is added to the Code of Civil Procedure, to read:

116.41. Any party may submit a written request for continuance of a hearing date. When the court finds that it would best serve the interests of justice, the court shall continue the date for the hearing for at least 15 days, and shall cause notice thereof by first-class mail to be served on all plaintiffs and defendants.

SEC 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

The money in the Vehicle Inspection and Repair Fund necessary for the administration of this chapter and Chapter 5 (commencing with Section 44000) of Part 5 of Division 26 of the Health and Safety Code is available to the department, when appropriated for those purposes. The money in the Certification Account, which is hereby created in the Vehicle Inspection and Repair Fund, shall be available pursuant to Chapter 20.5 (commencing with Section 9889.70).

SEC. 2. Section 9889.75 of the Business and Professions Code is amended to read:

9889.75. The New Motor Vehicle Board in the Department of Motor Vehicles shall, in accordance with the procedures prescribed in this section, administer the collection of fees for the purposes of fully funding the administration of this chapter.

(a) Fees collected pursuant to this section shall be deposited in the Certification Account in the Vehicle Inspection and Repair Fund and shall be available, upon appropriation by the Legislature, exclusively to pay the expenses incurred by the bureau in administering this chapter. If, at the conclusion of any fiscal year, the amount of fees collected exceeds the amount of expenditures for that purpose during that fiscal year, the surplus in the Certification Account shall be carried over into the succeeding fiscal year.

(b) Beginning July 1, 1988, and on or before May 1 of each calendar year thereafter, every manufacturer shall file with the New Motor Vehicle Board a statement of the number of motor vehicles sold, leased, or otherwise distributed by or for the manufacturer in this state during the preceding calendar year, and shall, upon written notice delivered to the manufacturer by certified mail, return receipt requested, pay to the New Motor Vehicle Board a fee, not to exceed one dollar ($1) for each motor vehicle sold, leased, or distributed by or for the manufacturer in this state during the preceding calendar year. The total fee paid by each manufacturer shall be rounded to the nearest dollar in the manner described in

Section 9559 of the Vehicle Code. Not more than one dollar ($1) shall be charged, collected, or received from any one or more manufacturer pursuant to this subdivision with respect to the same motor vehicle.

(c) (1) The fee required by subdivision (b) is due and payable not later than 30 days after the manufacturer has received notice of the amount due and is delinquent after that time. A penalty of 10 percent of the amount delinquent shall be added to that amount, if the delinquency continues for more than 30 days.

(2) If a manufacturer fails to file the statement required by subdivision (b) by the date specified, the New Motor Vehicle Board shall assess the amount due from the manufacturer by using, as the number of motor vehicles sold, leased, or otherwise distributed by or for the manufacturer in this state during the preceding calendar year, the total number of new registrations of all motor vehicles sold, leased, or otherwise distributed by or for the manufacturer during the preceding calendar year.

(d) On or before February 1 of each year, the bureau shall notify the New Motor Vehicle Board of the dollar amount necessary to fully fund the program established by this chapter during the following fiscal year. The New Motor Vehicle Board shall use this information in calculating the amounts of the fees to be collected from manufacturers pursuant to this section.

(e) For purposes of this section, "motor vehicle" means a new passenger or commercial motor vehicle of a kind that is required to be registered under the Vehicle Code, but the term does not include a motorcycle, a motor home, or any vehicle whose gross weight exceeds 10,000 pounds.

(f) The New Motor Vehicle Board may adopt regulations to implement this section. The regulations shall include, at a minimum, a formula for calculating the fee, established pursuant to subdivision (b), for each motor vehicle and the total amount of fees to be collected from each manufacturer.

SEC. 2.5. Section 9889.75 of the Business and Professions Code is amended to read:

9889.75. The New Motor Vehicle Board in the Department of Motor Vehicles shall, in accordance with the procedures prescribed in this section, administer the collection of fees for the purposes of fully funding the administration of this chapter.

(b) Beginning July 1, 1988, and on or before May 1 of each calendar year thereafter, every manufacturer shall file with the New Motor Vehicle Board a statement of the number of motor vehicles sold, leased, or otherwise distributed by or for the manufacturer in this state during the preceding calendar year, and shall, upon written notice delivered to the manufacturer by certified mail, return receipt requested, pay to the New Motor Vehicle Board a fee, not to exceed one dollar ($1) for each motor vehicle sold, leased, or distributed by or for the manufacturer in this state during the preceding calendar year. The total fee paid by each manufacturer shall be rounded to the nearest dollar in the manner described in Section 9559 of the Vehicle Code. Not more than one dollar ($1) shall be charged, collected, or received from any one or more manufacturers pursuant to this subdivision with respect to the same motor vehicle.

(c) (1) The fee required by subdivision (b) is due and payable not later than 30 days after the manufacturer has received notice of the amount due and is delinquent after that time. A penalty of 10 percent of the amount delinquent shall be added to that amount, if the delinquency continues for more than 30 days.

(2) If a manufacturer fails to file the statement required by subdivision (b) by the date specified, the New Motor Vehicle Board shall assess the amount due from the manufacturer by using as the number of motor vehicles sold, leased, or otherwise distributed by or for the manufacturer in this state during the preceding calendar year the total number of new registrations of all motor vehicles sold, leased, or otherwise distributed by or for the manufacturer during the preceding calendar year.

(d) On or before February 1 of each year, the bureau shall notify the New Motor Vehicle Board of the dollar amount necessary to fully fund the program established by this chapter during the following fiscal year. The New Motor Vehicle Board shall use this information in calculating the amounts of the fees to be collected from manufacturers pursuant to this section.

(e) For purposes of this section, "motor vehicle" means a new passenger or commercial motor vehicle of a kind that is required to be registered under the Vehicle Code, but the term does not include a motorcycle, a motor home, or any vehicle whose gross weight exceeds 10,000 pounds.

(f) The New Motor Vehicle Board may adopt regulations to implement this section. The regulations shall include, at a minimum, a formula for calculating the fee, established pursuant to subdivision (b), for each motor vehicle and the total amount of fees to be collected from each manufacturer.

(b) The state board may collect a civil penalty not to exceed one thousand five hundred dollars ($1,500) for each violation of Section 27156 of the Vehicle Code. Any penalties shall be paid to the Treasurer for deposit in the Air Pollution Control Fund.

(c) The civil penalty specified in subdivision (b) may be collected for one or more violations involving the tampering with or disabling of a gasoline-powered vehicle's air injection, exhaust gas recirculation, crankcase ventilation, fuel injection, carburetion, ignition timing, or evaporative control system, fuel filler neck restrictor, oxygen sensor or related electronic controls, or catalytic converter, or for the use of leaded fuel in a vehicle certified for the use of unleaded fuel only.

(d) The civil penalty specified in subdivision (b) may not be collected for a violation that is related to any tampering or disabling of a gasoline-powered vehicle specified in subdivision (c) by a rental customer of that vehicle, including, but not limited to, a missing gasoline filler cap and a disconnected or missing heated air intake tube or vacuum hose. However, if more than 20 percent of an owner's or operator's gasoline-powered vehicles are found to be nonconforming during each of three consecutive inspections conducted 30 or more days apart during any one-year period, the civil penalty specified in subdivision (b) applies and shall be collected for each time a vehicle is found in a nonconforming condition.

SEC. 4. Section 43205 of the Health and Safety Code is amended to read:

43205. (a) Commencing with the 1990 model-year, the manufacturer of each light-duty and medium-duty motor vehicle and motor vehicle engine shall warrant to the ultimate purchaser and each subsequent purchaser that the motor vehicle or motor vehicle engine meets all of the following requirements.

(1) Is designed, built, and equipped so as to conform with the applicable emissions standards specified in this part.

(2) Is free from defects in materials and workmanship which cause the motor vehicle or motor vehicle engine to fail to conform with applicable requirements specified in this part for three years or 50,000 miles, whichever first occurs.

(3) Will, for a period of three years or 50,000 miles, whichever first occurs, pass a test established under Section 44012, but that the warranty shall not apply if the manufacturer demonstrates that the

failure of the motor vehicle or motor vehicle engine to pass the test was directly caused by the abuse, neglect, or improper maintenance or repair of the vehicle or engine.

(4) Is free from defects in materials and workmanship in emission related parts which, at the time of certification by the state board, are estimated by the manufacturer to cost individually more than three hundred dollars ($300) to replace, for a period of seven years or 70,000 miles, whichever first occurs.

(b) The state board shall, by regulation, periodically revise the three hundred dollar ($300) replacement cost level specified in paragraph (4) of subdivision (a) in accordance with the consumer price index, as published by the United States Bureau of Labor Statistics.

(b) The department shall take those actions consistent with its statutory authority to ensure that the reduction in vehicle emissions of hydrocarbons and carbon monoxide is 25 percent or more, and the reduction in vehicle emissions of oxides of nitrogen is 10 percent or more, than would have occurred without a motor vehicle inspection program. The department shall endeavor to achieve these vehicle emission reductions as expeditiously as practicable, but not later than January 1, 1994.

(c) In areas of the state where testing for oxides of nitrogen vehicle emissions is conducted pursuant to subdivision (b) of Section 44003, the department shall take all actions to ensure that the reduction in vehicle emissions of hydrocarbons is 40 percent or more, the reduction in carbon monoxide vehicle emissions is 25 percent or more, and the reduction in oxides of nitrogen vehicle emissions is 20 percent or more, than would have occurred without a motor vehicle inspection program. The department shall endeavor to achieve these vehicle emission reductions as expeditiously as practicable, but not later than four years after the commencement of testing for oxides of nitrogen vehicle emissions pursuant to subdivision (b) of Section 44003.

SEC. 6. Section 44003 of the Health and Safety Code is amended to read:

44003. (a) Any district may request the department to implement within its area of jurisdiction a motor vehicle inspection program which meets the requirements of this chapter. The area subject to the program shall include the entire urbanized area as defined by the United States Bureau of the Census in which any violation of ambient air quality standards related to motor vehicle

emissions exists and any other areas within the district specified by the requesting district or determined by the state board, in consultation with the districts, to contribute to violations of the ozone or carbon monoxide air quality standards in the district or in an adjacent district.

(b) At the time of the initial request pursuant to subdivision (a), or at any time thereafter, testing for oxides of nitrogen emissions shall be included at the option of the district requesting the program or upon a determination by the state board, after a hearing held within the district, that testing for oxides of nitrogen emissions will contribute to improved air quality.

(c) If testing for oxides of nitrogen emissions is requested pursuant to subdivision (b), the department shall implement a testing program within the district as soon as the department can develop a procedure for testing for oxides of nitrogen emissions that will be feasible and more effective than the testing program existing in 1988. The implementation date for testing for oxides of nitrogen emissions shall be the earliest date which provides sufficient lead time for the development, production, and installation of testing equipment. The department shall endeavor to implement testing within two years of the district's request. If the department determines that more time is required, the department shall provide the district with a detailed implementation schedule and shall periodically report to the district on the progress being made to implement testing.

SEC. 7. Section 44012 of the Health and Safety Code is amended to read.

44012. The test at the smog check stations shall include all of the following:

(a) A determination that emission control devices and systems required by state and federal law are installed and functioning correctly in accordance with the test procedure adopted pursuant to subdivision (b) of Section 44013.

(b) A preconditioning of the motor vehicle to ensure representative and stabilized operation of the vehicle's emission control system.

(c) For other than diesel-powered vehicles, a test of the vehicle's exhaust emissions of hydrocarbons, carbon monoxide, and carbon dioxide in an idle mode or loaded mode in accordance with the procedure prescribed by the department. Testing for oxides of nitrogen emissions shall be included if the district has requested testing for oxides of nitrogen and the department has implemented a testing program pursuant to Section 44003.

(d) For diesel-powered vehicles when the department determines that the inclusion of those vehicles is technologically and economically feasible, a test of the vehicle's exhaust emissions in an idle mode or loaded mode in accordance with the procedure prescribed by the department. The test may include testing of emissions of any or all of the pollutants specified in subdivision (c)

and, upon the adoption of applicable standards, measurement of emissions of smoke or particulates, or both.

(e) A determination as to whether the motor vehicle complies with the emission standards for that vehicle's class and model-year as prescribed by the department.

SEC. 8. Section 44014 of the Health and Safety Code is amended to read:

44014. (a) The testing and repair portion of the program shall be conducted by smog check stations licensed by the department, and by smog check mechanics who have qualified pursuant to this chapter.

(b) A smog check station may be licensed by the department as a smog check test only station and, when so licensed, need not comply with the requirement for onsite availability of current service and adjustment procedures specified in paragraph (3) of subdivision (b) of Section 44030. A smog check mechanic employed by a smog check test only station shall be qualified in accordance with this section.

(c) Smog check mechanics are qualified to test and repair only those classes and categories of vehicles for which they have passed a qualification test administered by the department. The department shall provide for smog check mechanics to be qualified for different categories of motor vehicle inspection based on vehicle classification and model-year.

(d) The consumer protection-oriented quality assurance portion of the program, shall be conducted by more than one private entity pursuant to contracts with the department.

SEC. 9. Section 44017 of the Health and Safety Code is amended to read:

44017. (a) The department shall set cost limitations for repairs required under the program, including parts and labor. On and after January 1, 1990, the cost limitations shall be as follows:

(1) For motor vehicles of 1971 and earlier model-years, fifty dollars ($50).

(2) For motor vehicles of 1972 to 1974, inclusive, model-years, ninety dollars ($90).

(3) For motor vehicles of 1975 to 1979, inclusive, model-years, one hundred twenty-five dollars ($125).

(4) For motor vehicles of 1980 to 1989, inclusive, model-years, one hundred seventy-five dollars ($175).

(5) For motor vehicles of 1990 and later model-years, three hundred dollars ($300).

(b) The department shall periodically revise the cost limitations specified in subdivision (a) in accordance with changes in the Consumer Price Index, as published by the United States Bureau of Labor Statistics. No limit shall be imposed in those cases where emissions control equipment is missing or is partially or totally inoperative as a result of tampering.

(c) The review committee established pursuant to Section 44021

shall prepare and submit to the Legislature on or before December 31, 1992, a report on the effect of the cost limitations established in subdivision (a) on reductions in air pollution accomplished pursuant to this chapter and on the extent of compliance with motor vehicle registration laws.

SEC. 10. Section 44019 of the Health and Safety Code is amended to read:

44019. (a) Every public agency, including, but not limited to, a publicly owned public utility, owning or operating any motor vehicle that is exempt from annual renewal of registration, and is otherwise subject to this chapter, shall obtain for the vehicle a certificate of compliance with the same frequency as is required for vehicles subject to renewal of registration. The cost limitations specified in Section 44017 do not apply to any vehicle owned or operated by a public agency.

(b) Certificates of compliance required by subdivision (a) shall be issued if the vehicle meets the requirements of Section 44012 using a test analyzer system meeting the requirements of the department. Any certificate so issued shall be indexed by vehicle license plate number or vehicle identification number and retained by the public agency for not less than three years, and shall be available for inspection by the department.

(c) Every public agency subject to subdivision (a) shall annually report to the department the number of certificates issued, the number of motor vehicles owned, and the schedule under which the motor vehicles were issued certificates of compliance.

(d) The department may accept proof of compliance with this section other than by a certificate of compliance.

SEC. 11. Section 44031.5 of the Health and Safety Code is amended to read:

44031.5. (a) No smog check mechanic may perform tests or make repairs required by this chapter, for compensation, unless qualified by the department for the class and category of vehicle being tested or repaired. To qualify, smog check mechanics shall pass a qualification test administered by the department in addition to meeting minimum experience and training criteria established by the department. Passage of the qualification test shall also be required upon each biennial renewal of the smog check mechanic's license.

(b) No person may perform the duties of a licensed inspector, including, but not limited to, the signing of certificates, unless that person is licensed and has met the requirements of subdivision (b) of Section 44031. This subdivision applies to every licensed inspector upon the first renewal of the inspector's license after January 1, 1988, and upon each renewal thereafter.

(c) The department shall prescribe training and periodic retraining courses for licensed inspectors and for smog check mechanics.

(d) Whenever the department determines, through

investigation, that a previously qualified smog check mechanic may lack the skills to reliably and accurately perform the test or repair functions within the required qualification, it may prescribe for the mechanic one or more retraining courses which have been certified by the department. The smog check mechanic may request and be granted a hearing, pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, on the department's determination. The request for a hearing shall be submitted within 30 days of the department's notification of its determination. A failure to complete the prescribed retraining course within the time designated by the department, or to request a hearing within 30 days of the department's notification of its determination, shall result in loss of qualification. Upon a later completion of the prescribed department certified retraining course, the department may reinstate the smog check mechanic's qualification.

(e) Smog check mechanics shall have the option to do hands-on work in lieu of written work in order to successfully complete the department certified training and retraining courses. The institution administering the department certified training or retraining courses shall issue a certificate of completion to each person successfully completing the certified courses. The certificate shall be valid for two years.

(f) There is hereby created a training course advisory board to assist and advise the department in recommending the form and content of training courses. The advisory board shall consist of five members appointed by the director, of whom two shall represent smog check station owners or managers, two shall represent smog check mechanics, and one shall be a public member. The members of the advisory board shall receive no compensation for their services, but shall be reimbursed for their actual and necessary expenses in performing their duties under this subdivision.

SEC. 12. Section 44034 of the Health and Safety Code is amended to read:

44034. Annual license fees for smog check stations and biennial license fees for smog check mechanics may be imposed by the department, but shall not exceed the reasonable cost of administering the qualifications and licensing program.

SEC. 13. Section 44034.1 is added to the Health and Safety Code, to read:

44034.1. The department may impose an examination fee for smog check mechanic initial and biennial renewal applicants. Payment of the fee entitles the applicant to be scheduled for an examination. If the applicant fails to pass the examination or fails to appear for the examination, the applicant shall forfeit the examination fee.

SEC. 14. Section 44036 of the Health and Safety Code is amended to read:

44036. (a) The consumer protection-oriented quality assurance

portion of the motor vehicle inspection program shall ensure uniform and consistent tests and repairs by all qualified smog check mechanics and licensed smog check stations throughout the district, and shall include a number of referee stations available to consumers. Sufficient referee stations shall be provided to accommodate at least 2 percent of the motor vehicles subject to the requirements of this chapter.

(b) All licensed smog check stations shall utilize equipment which has been certified by the department. The department shall adopt, and may from time to time revise, standards for certification and decertification of the equipment, which may include a device for testing of emissions of oxides of nitrogen. As expeditiously as possible, the department shall adopt equipment standards which shall include a test analyzer system containing all of the following:

(1) A microprocessor to control test sequencing, selection of proper test standards, the automatic pass or fail decision, and the format for the test report and the recorded data file. The microprocessor shall be capable of using a standardized programming language specified by the department

(2) An exhaust gas analysis portion with an analyzer for hydrocarbons, carbon monoxide, and carbon dioxide which is designed to accommodate an optional oxides of nitrogen analyzer.

(3) A device to accept and record motor vehicle identification information, including a device capable of reading bar code information affixed to vehicles pursuant to regulations of the state board.

(4) A device to provide a printed record of the test process and diagnostic information for the motorist.

(5) A device capable of measuring engine speed from all models of vehicles using spark ignition at the time the specification is adopted by the department.

(6) A mass storage device capable of storing not less than the minimum amount of program software and data specified by the department

(7) A device to provide for the periodic modification of all program and data files contained on the mass storage device, using a standardized form of removable media conforming to specifications of the department.

(8) A device which provides for the storage of test records on a standardized form of removable media conforming to specifications of the department.

(9) One or more communications ports conforming to the specifications established by the department.

(10) An interface capable of monitoring equipment used with loaded mode testing.

(11) Any other features that the department determines will increase the effectiveness of the program.

(c) The department shall require all smog check stations to use equipment meeting the requirements of subdivision (b) as soon as

possible after July 1, 1990, but not later than January 1, 1992. However, the department may defer the requirement for any equipment, external to the chassis of the test analyzer system, needed to read bar code information until such time as a substantial portion of the vehicles subject to the requirements of this chapter are equipped with bar code labels. Prior to a requirement for equipment meeting the requirements of subdivision (b), every smog check station shall use equipment meeting the specifications of the department in effect on January 1, 1988. Any equipment required may be supplied by a single supplier in any nonattainment area if it is determined that there would be a demonstrable cost savings as shown through the solicitation and evaluation of competitive bids for each nonattainment area. If it is determined that any equipment required shall be supplied by a single supplier, the supplier shall enter into a master agreement with the department specifying the prices, terms, and conditions under which the supplier will provide equipment in a uniform manner within the nonattainment area. The master agreement shall contain terms consistent with the bid upon which it is based.

(d) The quality assurance portion shall provide for inspections of licensed smog check stations, data collection and forwarding, equipment accuracy checks, operation of referee stations, and other necessary functions. In contracting for services pursuant to subdivision (d) of Section 44014, the department shall prepare detailed specifications and solicit bids from private entities for the implementation of the quality assurance functions.

(e) The department may revise the specifications for equipment annually if the cost thereof is less than 20 percent of the total system cost. A more comprehensive revision to the specifications may be required not more often than every five years.

SEC. 15. Section 44036.5 is added to the Health and Safety Code, to read:

44036.5. (a) The department shall set standards for test analyzer system (TAS) calibration gases and shall establish criteria to certify and decertify gas blenders who blend, fill, or sell TAS calibration gases.

(b) On and after January 1, 1990, no person shall blend, fill, or sell any TAS calibration gases unless certified by the department and no person shall use in a TAS calibration gases which are not certified.

SEC. 16. Section 44060 of the Health and Safety Code is amended to read:

44060. (a) The department shall prescribe the form of the certificate of compliance or noncompliance. The department shall charge a fee to licensed smog check stations for the issuance by the department to the stations of certificate of compliance or noncompliance forms. The fee charged shall be calculated to allow funding of the department and any other state agency directly involved in the implementation of the motor vehicle inspection program, and shall not exceed the amount reasonably necessary to

fund the operation of the program, including all responsibilities, requirements, and obligations imposed upon the department or any of those state agencies by this chapter, which are not otherwise recoverable by license fees pursuant to Section 44034. Except for adjustments to reflect changes in the Consumer Price Index, as published by the United States Bureau of Labor Statistics, the fee for each certificate of compliance or noncompliance shall not exceed six dollars ($6). It is the intent of the Legislature that a prudent surplus be maintained in the Vehicle Inspection and Repair Fund. If the surplus exceeds reasonable costs of administration of the programs specified in this chapter and in Chapter 20.3 (commencing with Section 9880) of Division 3 of the Business and Professions Code, the department shall, by regulation, prescribe a lower fee for the certificate of compliance or noncompliance.

(b) The sale or transfer of any certificate of compliance or noncompliance by a licensed smog check station to any other licensed smog check station or any other person, and the purchase or acquisition of any certificate of compliance or noncompliance by any person, other than from the department, the department's designee, or pursuant to a vehicle inspection or repair conducted pursuant to this chapter, is prohibited.

(c) The fee charged by licensed stations to consumers for a certificate of compliance or a certificate of noncompliance shall be the same amount charged by the department.

SEC. 17. Section 4000.1 of the Vehicle Code is amended to read:

4000.1. (a) Except as otherwise provided in subdivision (b), (c), or (d) of this section, or subdivision (b) of Section 43654 of the Health and Safety Code, the department shall require upon initial registration, and upon transfer of ownership and registration, of any motor vehicle subject to Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code, and upon registration of a motor vehicle previously registered outside this state which is subject to those provisions of the Health and Safety Code, a valid certificate of compliance or a certificate of noncompliance, as appropriate, issued in accordance with Section 44015 of the Health and Safety Code.

(b) With respect to new vehicles certified pursuant to Chapter 2 (commencing with Section 43100) of Part 5 of Division 26 of the Health and Safety Code, the department shall accept a statement completed pursuant to subdivision (b) of Section 24007 in lieu of the certificate of compliance.

(c) For purposes of determining the validity of a certificate of compliance or noncompliance submitted in compliance with the requirements of this section, the definitions of new and used motor vehicle contained in Chapter 2 (commencing with Section 39010) of Part 1 of Division 26 of the Health and Safety Code shall control.

(d) Subdivision (a) does not apply to a transfer of ownership and registration under any of the following circumstances:

(1) The transferor is either the parent, grandparent, child,

grandchild, or spouse of the transferee.

(2) A vehicle registered to a sole proprietorship is transferred to the proprietor as owner.

(3) The transfer is between companies whose principal business is leasing vehicles, if there is no change in the lessee or operator of the vehicle or between the lessor and the person who has been, for at least one year, the lessee's operator of the vehicle.

(4) The transfer is between the lessor and lessee of the vehicle, if there is no change in the lessee or operator of the vehicle.

(5) Commencing on January 1, 1993, the vehicle was manufactured prior to the 1966 model-year.

(e) The State Air Resources Board, under Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code, may exempt designated classifications of motor vehicles from subdivision (a) as it deems necessary, and shall notify the department of that action.

SEC. 18. Section 4000.2 of the Vehicle Code is amended to read:

4000.2. (a) Except as otherwise provided in subdivision (b) of Section 43654 of the Health and Safety Code, and, commencing on January 1, 1993, except for 1965 or earlier model-year motor vehicles, the department shall require upon registration of a motor vehicle subject to Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code, previously registered outside this state, a valid certificate of compliance or a certificate of noncompliance, as appropriate, issued in accordance with Section 44015 of the Health and Safety Code.

(b) For the purposes of determining the validity of a certificate of compliance or noncompliance submitted in compliance with the requirements of this section, the definitions of new and used motor vehicle contained in Chapter 2 (commencing with Section 39010) of Part 1 of Division 26 of the Health and Safety Code shall control.

SEC. 19. Section 2.5 of this bill incorporates amendments to Section 9889.75 of the Business and Professions Code proposed by both this bill and AB 1104. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1990, (2) each bill amends Section 9889.75 of the Business and Professions Code, and (3) this bill is enacted after AB 1104, in which case Section 2 of this bill shall not become operative.

SEC. 20 No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

Moreover, no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1155

An act to amend Section 33413 of, and to add Section 33334.15 to, the Health and Safety Code, relating to housing.

[Approved by Governor September 29, 1989 Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 33334.15 is added to the Health and Safety Code, to read:

33334.15. Subsidies provided pursuant to paragraph (8) of subdivision (e) of Section 33334.2 may include payment of a portion of the principal and interest on bonds issued by a public agency to finance housing for persons and families specified in that paragraph if the agency ensures by contract that the benefit of the subsidy will be passed on to those persons and families in the form of lower housing costs.

SEC. 2. Section 33413 of the Health and Safety Code is amended to read:

33413. (a) Whenever dwelling units housing persons and families of low or moderate income are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project which is subject to a written agreement with the agency or where financial assistance has been provided by the agency, the agency shall, within four years of the destruction or removal, rehabilitate, develop, or construct, or cause to be rehabilitated, developed, or constructed, for rental or sale to persons and families of low or moderate income, an equal number of replacement dwelling units which have an equal or greater number of bedrooms as those destroyed or removed units at affordable housing cost within the territorial jurisdiction of the agency.

(b) (1) At least 30 percent of all new or rehabilitated dwelling units developed by an agency shall be available at affordable housing cost to persons and families of low or moderate income. Not less than 50 percent of the dwelling units required to be available at affordable housing cost to persons and families of low or moderate income shall be available at affordable housing cost to, and occupied by, very low income households.

(2) At least 15 percent of all new or rehabilitated dwelling units developed within the project area by public or private entities or persons other than the agency shall be available at affordable housing

cost to persons and families of low or moderate income. Not less than 40 percent of the dwelling units required to be available at affordable housing cost to persons and families of low or moderate income shall be available at affordable housing cost to very low income households.

(3) The requirements of this subdivision shall apply independently of the requirements of subdivision (a) and in the aggregate to housing made available pursuant to paragraphs (1) and (2), respectively, and not to each individual case of rehabilitation, development, or construction of dwelling units.

(c) The agency shall require that the aggregate number of replacement dwelling units and other dwelling units rehabilitated, developed, or constructed pursuant to subdivision (a) or (b) remain available at affordable housing cost to persons and families of low income, moderate income, and very low income households, respectively, for the longest feasible time, as determined by the agency, but for not less than the period of the land use controls established in the redevelopment plan, except to the extent a longer period of time may be required by other provisions of law. If land on which those dwelling units are located is deleted from the project area, the agency shall continue to require that those units remain affordable as specified in the previous sentence. These requirements shall be made enforceable in the same manner as provided in subdivision (e) of Section 33334.3.

(d) (1) This section applies only to redevelopment projects for which a final redevelopment plan is adopted pursuant to Article 5 (commencing with Section 33360) on or after January 1, 1976, and to areas which are added to a project area by amendment to a final redevelopment plan adopted on or after January 1, 1976. In addition, subdivision (a) shall apply to any other redevelopment project with respect to dwelling units destroyed or removed from the low- and moderate-income housing market on or after January 1, 1996, irrespective of the date of adoption of a final redevelopment plan or an amendment to a final redevelopment plan adding areas to a project area. Additionally, any agency may, by resolution, elect to make all or part of the requirements of this section applicable to any redevelopment project of the agency for which the final redevelopment plan was adopted prior to January 1, 1976.

(2) An agency may, by resolution, elect to require that whenever dwelling units housing persons or families of low or moderate income are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project, the agency shall replace each dwelling unit with up to two replacement dwelling units pursuant to subdivision (a).

(e) Except as otherwise authorized by law, this section does not authorize an agency to operate a rental housing development beyond the period reasonably necessary to sell or lease the housing development.

(f) Notwithstanding subdivision (a), the agency may replace

destroyed or removed dwelling units with a fewer number of replacement dwelling units if the replacement dwelling units meet both of the following criteria:

(1) The total number of bedrooms in the replacement dwelling units equal or exceed the number of bedrooms in the destroyed or removed units. Destroyed or removed units having one or no bedroom are deemed for this purpose to have one bedroom.

(2) The replacement units are affordable to the same income level of households as the destroyed or removed units.

SEC 2.5. Section 33413 of the Health and Safety Code is amended to read:

33413. (a) Whenever dwelling units housing persons and families of low or moderate income are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project which is subject to a written agreement with the agency or where financial assistance has been provided by the agency, the agency shall, within four years of the destruction or removal, rehabilitate, develop, or construct, or cause to be rehabilitated, developed, or constructed, for rental or sale to persons and families of low or moderate income, an equal number of replacement dwelling units within the territorial jurisdiction of the agency. When dwelling units are destroyed or removed after September 1, 1989, 75 percent of the replacement dwelling units shall replace dwelling units available at affordable housing cost in the same income level of very low income households, lower income households, and persons and families of low and moderate income, as the persons displaced from those destroyed or removed units.

(b) (1) At least 30 percent of all new or rehabilitated dwelling units developed by an agency shall be available at affordable housing cost to persons and families of low or moderate income. Not less than 50 percent of the dwelling units required to be available at affordable housing cost to persons and families of low or moderate income shall be available at affordable housing cost to, and occupied by, very low income households.

(2) At least 15 percent of all new or rehabilitated dwelling units developed within the project area by public or private entities or persons other than the agency shall be available at affordable housing cost to persons and families of low or moderate income. Not less than 40 percent of the dwelling units required to be available at affordable housing cost to persons and families of low or moderate income shall be available at affordable housing cost to very low income households

(3) The requirements of this subdivision shall apply independently of the requirements of subdivision (a) and in the aggregate to housing made available pursuant to paragraphs (1) and (2), respectively, and not to each individual case of rehabilitation, development, or construction of dwelling units.

(c) The agency shall require that the aggregate number of replacement dwelling units and other dwelling units rehabilitated,

developed, or constructed pursuant to subdivision (a) or (b) remain available at affordable housing cost to persons and families of low income, moderate income, and very low income households, respectively, for the longest feasible time, as determined by the agency, but for not less than the period of the land use controls established in the redevelopment plan, except to the extent a longer period of time may be required by other provisions of law. If land on which those dwelling units are located is deleted from the project area, the agency shall continue to require that those units remain affordable as specified in the previous sentence. These requirements shall be made enforceable in the same manner as provided in subdivision (e) of Section 33334.3.

(d) (1) This section applies only to redevelopment projects for which a final redevelopment plan is adopted pursuant to Article 5 (commencing with Section 33360) on or after January 1, 1976, and to areas which are added to a project area by amendment to a final redevelopment plan adopted on or after January 1, 1976. In addition, subdivision (a) shall apply to any other redevelopment project with respect to dwelling units destroyed or removed from the low- and moderate-income housing market on or after January 1, 1996, irrespective of the date of adoption of a final redevelopment plan or an amendment to a final redevelopment plan adding areas to a project area. Additionally, any agency may, by resolution, elect to make all or part of the requirements of this section applicable to any redevelopment project of the agency for which the final redevelopment plan was adopted prior to January 1, 1976.

(2) An agency may, by resolution, elect to require that whenever dwelling units housing persons or families of low or moderate income are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project, the agency shall replace each dwelling unit with up to two replacement dwelling units pursuant to subdivision (a)

(e) Except as otherwise authorized by law, this section does not authorize an agency to operate a rental housing development beyond the period reasonably necessary to sell or lease the housing development.

(f) Notwithstanding subdivision (a), the agency may replace destroyed or removed dwelling units with a fewer number of replacement dwelling units if the replacement dwelling units meet both of the following criteria:

(1) The total number of bedrooms in the replacement dwelling units equal or exceed the number of bedrooms in the destroyed or removed units. Destroyed or removed units having one or no bedroom are deemed for this purpose to have one bedroom.

(2) The replacement units are affordable to the same income level of households as the destroyed or removed units.

(g) "Longest feasible time," as used in this section, includes, but is not limited to, unlimited duration

SEC. 3. Section 2.5 of this bill incorporates amendments to

Section 33413 of the Health and Safety Code proposed by both this bill and AB 2080. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1990, (2) each bill amends Section 33413 of the Health and Safety Code, and (3) this bill is enacted after AB 2080, in which case Section 2 of this bill shall not become operative.

CHAPTER 1156

An act to amend Section 23610.5 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor September 29, 1989 Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 23610.5 of the Revenue and Taxation Code, as amended by Chapter 46 of the Statutes of 1989, is amended to read:

23610.5. (a) (1) For income years beginning before January 1, 1990, there shall be allowed as a credit against the "tax" (as defined by Section 23036) a state low-income housing tax credit in an amount equal to the amount determined in subdivision (c), computed in accordance with Section 42 of the Internal Revenue Code of 1986, as amended, including the amendments contained in the Technical Corrections and Miscellaneous Revenue Act of 1988, except as otherwise provided in this section.

(2) "Taxpayer," for purposes of this section, means the sole owner in the case of a C corporation, the partners in the case of a partnership, and the shareholders in the case of an S corporation.

(3) "Housing sponsor," for purposes of this section, means the sole owner in the case of a C corporation, the partnership in the case of a partnership, and the S corporation in the case of an S corporation.

(H) A requirement that the housing sponsor, as security for the performance of the housing sponsor's obligations under the regulatory agreement, assign the housing sponsor's interest in rents

which it receives from the project, provided that until there is a default under the regulatory agreement, the housing sponsor is entitled to collect and retain the rents.

(I) The remedies available in the event of a default under the regulatory agreement that is not cured within a reasonable cure period, include, but are not limited to, allowing any of the parties designated to enforce the regulatory agreement to collect all rents with respect to the project; taking possession of the project and operating the project in accordance with the regulatory agreement until the enforcer determines the housing sponsor is in a position to operate the project in accordance with the regulatory agreement; applying to any court for specific performance; securing the appointment of a receiver to operate the project; or any other relief as may be appropriate.

The term "secretary" shall be replaced by the term "Mortgage Bond and Tax Credit Allocation Committee."

(*l*) In the case where the state credit allowed under this section exceeds the "tax," the excess may be carried over to reduce the "tax" in the following year, and succeeding years if necessary, until the credit has been exhausted.

(m) The aggregate amount of tax credits granted pursuant to this section and Section 17058 shall not exceed thirty-five million dollars ($35,000,000) per year. The Mortgage Bond and Tax Credit Allocation Committee shall not authorize any credit if the total amount of credits authorized in any year under the Personal Income Tax Law and the Bank and Corporation Tax Law exceeds thirty-five million dollars ($35,000,000).

The aggregate amount of credit granted pursuant to this section and Section 17058 in 1989 may exceed thirty-five million dollars ($35,000,000) by an amount equal to the unallocated credit from 1987 and 1988.

(b) A suspension taken under this section shall remain in effect until terminated by receipt of the report of the accident or upon receipt of evidence that financial responsibility as provided in Section 16022 is in effect.

(c) The driving privilege shall not be suspended under this section, and, if a suspension has been imposed and is in effect under this section, that suspension shall be terminated, if the driving privilege is suspended under Section 16370 or 16381 as the result of a judgment arising out of the same accident for which the report of the accident is required by this section. The department may suspend or reimpose the suspension of the driving privilege of a person under this section if the suspension under Section 16370 or 16381 is later set aside for a reason other than that the person has satisfied the judgment in full or to the extent provided in Chapter 2 (commencing with Section 16250) and has given proof of financial responsibility, as provided in Chapter 3 (commencing with Section 16430).

An act to amend Section 14585 of the Public Resources Code, relating to beverage containers, and making an appropriation therefor.

[Approved by Governor September 29, 1989. Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 14585 of the Public Resources Code is amended to read:

14585. (a) The department shall develop guidelines and criteria for issuing convenience incentive payments solely to assist in establishing recycling locations in convenience zones without sufficient recycling locations pursuant to Chapter 6 (commencing with Section 14570). The department may establish a convenience incentive payment if the payment meets all of the following:

(1) The payment shall be set by the department at the minimum level determined by the department to be sufficient to establish convenience in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(2) The department may revise the payment upon finding that the previous payment is inadequate, and shall revise the payment upon finding that the previous payment is excessive, to establish convenience in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(3) The department may require the operators of the recycling locations to maintain daily records of redemptions at the locations, and may require the locations to take any other steps necessary for the department to ensure that the operators do not receive an excessive convenience incentive payment.

(4) The department may make convenience incentive payments to the operators of recycling locations through processors or directly, at the department's discretion, in the same manner as the department pays redemption values, redemption bonuses, and processing fees to recycling locations.

(5) On and after January 1, 1989, the department shall not make convenience incentive payments to more than one certified recycling center in a convenience zone. When two or more convenience zones overlap by more than one-half mile, the department shall offer a single convenience incentive payment to cover the affected convenience zones. The department shall stop making convenience incentive payments if another recycling center is willing to certify operation within the convenience zone without receiving payments pursuant to this section and operates in compliance with this division for 60 days. If

the department stops making convenience incentive payments, the department shall pay to the recycling center all amounts which were to be paid to the recycling center prior to the termination of these payments.

(6) If a convenience incentive payment to a certified recycling center located in a convenience zone exceeds eight hundred dollars ($800) per month, the department shall review the convenience zone to determine if the convenience zone should be exempted pursuant to Section 14571.8.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1168

An act to add Part 6.5 (commencing with Section 12700) to Division 2 of the Insurance Code, relating to insurance, and making an appropriation therefor.

[Approved by Governor September 30, 1989 Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. Part 6.5 (commencing with Section 12700) is added to Division 2 of the Insurance Code, to read:

PART 6.5. CALIFORNIA MAJOR MEDICAL INSURANCE PROGRAM

CHAPTER 1. GENERAL

12700. The Legislature finds and declares all of the following:

(a) That many Californians, who do not have employer-sponsored group health coverage and are unable to secure adequate health coverage for themselves and their dependents because of preexisting medical conditions.

(b) That, even where uninsured persons with preexisting conditions are able to secure coverage, the cost of coverage is prohibitively high or is secured only by waiving coverage for the preexisting conditions for which they are most likely to need care.

(c) That adverse selection precludes private health plans regulated by the State of California from enrolling medically uninsurable persons in the face of the escalating health care costs, and a highly competitive market.

(d) That, left to face the cost of major medical care without health coverage, all but the extremely affluent uninsured persons must ultimately look to publicly funded programs including Medi-Cal or MISP in the event of severe illness or injury.

(e) That a prudent means of making major medical coverage available to persons presently unable to purchase it, is to subsidize their purchase of private health coverage from participating health plans.

CHAPTER 2. DEFINITIONS

12711. The board shall have the authority:

(a) To determine the eligibility of applicants.

12711.5. The board shall include a promotional component in the administrative costs of the program. This component shall include reasonable costs of advertising and other appropriate means of notifying the public of the program. Any state agency requested by the board shall provide assistance in implementing this promotional component of the program.

12712. The board shall, pursuant to the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code), adopt all necessary rules and regulations to carry out this part, including the following:

In adopting these rules and regulations, the board shall be guided by the needs and welfare of persons unable to secure adequate health coverage for themselves and their dependents, and prevailing practices among private health plans.

12713. Plan rates for major medical benefits approved for the program shall not be excessive, inadequate, or unfairly discriminatory, but shall be adequate to pay anticipated costs of claims or services and administration, when combined with program subsidies made available under Chapter 8 (commencing with Section 12739).

12714. There is in the program an appropriately qualified three-member physician advisory panel to be appointed by the board to provide consultation to the board on the utilization review, including peer review and quality assurance procedures of any participating health plan. This consultation shall be nonbinding. The term of office of each member of this panel shall be for three years.

CHAPTER 4. MAJOR MEDICAL INSURANCE

12715. If the board is unable to contract with participating health plans pursuant to Chapter 5 (commencing with Section 12720) the board shall issue or cause to be issued a policy of major medical coverage to subscribers. The policy may be offered directly by the program or by a participating health plan through a contract with the board. The contract may provide that the contracting health plan assumes full or partial risk for the cost of covered health services or that the contracting health plan undertakes only to provide administrative services. The subscriber contribution under this chapter shall not exceed 125 percent of the standard average individual rate for comparable coverage as determined by the board.

12716. The program may place a lien on compensation or benefits recovered or recoverable by a subscriber from any party or parties responsible for the compensation or benefits for which benefits have been provided under a policy issued under this chapter or Chapter 5 (commencing with Section 12720).

12717. Except as provided in Article 3.5 (commencing with Section 14124.70) of Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code, benefits received under this chapter or Chapter 5 (commencing with Section 12720) are in excess of and secondary to, any other form of health benefits coverage.

12718 Benefits under this chapter or Chapter 5 (commencing with Section 12720) shall be subject to a required subscriber copayment of 20 percent and an annual household deductible amount of five hundred dollars ($500). However, the aggregate amount of deductible and copayments payable annually under this section shall not exceed two thousand dollars ($2,000) for an individual and three thousand dollars ($3,000) for a family.

CHAPTER 5. PARTICIPATING HEALTH PLANS

12720 The program shall, without compliance with any provision of law relating to competitive bidding, enter into contracts with private organizations which qualify as participating health plans to provide major medical coverage to individuals and their dependents who apply for coverage through the program.

12721. The board may provide or purchase stop-loss coverage under which the program and participating health plans share the risk for health plan expenses which exceed plan rates.

12722. The board shall withdraw its approval of any participating

health benefits plan for noncompliance with program standards, nonpayment of claims, or other good cause shown. Approval shall not be withdrawn except after reasonable notice to the health plan, program subscribers enrolled in the plan, physicians or organizations of physicians offering services through the plan, and all interested parties.

12723. The participating health plans with which the program shall contract, if available, shall include:

(a) One or more statewide service benefit plans under which payment is made by a carrier under contracts with physicians, hospitals, or other providers of health services rendered to subscribers.

(b) One or more statewide indemnity benefit plans under which a carrier agrees to pay certain sums of money, not in excess of actual expenses incurred, for health services.

(c) Comprehensive group-practice prepayment plans which offer benefits, in whole or in substantial part, on a prepaid basis, with professional services thereunder provided by physicians or other providers of health services practicing as a group in a common center or centers. This group shall include physicians representing at least three major medical specialties who receive all or a substantial part of their professional income from the prepaid funds.

(d) Individual practice prepayment plans which offer health services in whole or in part on a prepaid basis, with professional services thereunder provided by individual physicians or other providers of health services who agree, under such conditions as may be prescribed by the board, to accept the payments provided by the plans as full payment for covered services rendered by them.

(e) Cost containment and cost reduction incentive programs which involve the subscriber as an active participant, along with the health plan and providers, in a joint effort toward containing and reducing the cost of providing medical and hospital health care services.

CHAPTER 6. SUBSCRIBER ELIGIBILITY AND ENROLLMENT

12725. Each resident of the state meeting the eligibility criteria of this section and who is unable to secure adequate private health coverage is eligible to apply for major medical coverage through the program. To be eligible for enrollment in the program an applicant shall have been rejected for health care coverage by at least one private health plan. An applicant shall be deemed to have been rejected if the only private health coverage which the applicant could secure would (1) impose substantial waivers which the program determines would leave a subscriber without adequate coverage for medically necessary services, or (2) would afford such limited coverage, as the program determines would leave the subscriber without adequate coverage for medically necessary services, or (3) would afford coverage only at an excessive price,

which the board determines is significantly above standard average individual coverage rates.

12725.5. (a) It shall constitute unfair competition for purposes of Chapter 5 (commencing with Section 17200) of Part 2 of Division 7 of the Business and Professions Code for an insurer, an insurance agent or broker, or an administrator, as defined in Section 1759, to refer an individual employee to the program, or arrange for an individual employee to apply to the program, for the purpose of separating that employee from group health coverage provided in connection with the employee's employment.

(b) It shall constitute an unfair labor practice contrary to public policy for any employer to refer an individual employee to the program, or to arrange for an individual employee to apply to the program, for the purpose of separating that employee from group health coverage provided in connection with the employee's employment.

(c) As used in this section, "group health coverage" includes any nonprofit hospital service plan, health care service plan, self-insured employee welfare benefit plan, or disability insurance providing medical or hospital benefits.

12726. The program shall not provide coverage or benefits for charges or expenses incurred by a subscriber during the first six months of enrollment in the program for any condition which, during the six months immediately preceding enrollment in the program, had manifested itself in a manner as would cause an ordinarily prudent person to seek diagnosis, care, or treatment or for which medical advice, care, or treatment was recommended or received as to the condition during that period.

However, the exclusion from coverage of this section shall be waived to the extent to which the subscriber has previously satisfied the waiting period of any similar exclusion for that preexisting condition under the terms of any prior health insurance coverage that was involuntarily terminated, provided the subscriber has applied for enrollment in the program not later than 31 days following involuntary termination of the prior coverage. The exclusion from coverage of this section shall also be waived as to any condition of a subscriber previously receiving coverage under a plan of another state similar to the program established by this part, if the subscriber was eligible for benefits under that other-state coverage for the condition.

12727. Where more than one participating health plan is offered, the program shall make available to applicants eligible to enroll in the program sufficient information to make an informed choice among the various types of participating health plans. Each applicant shall be issued an appropriate document setting forth or summarizing the services to which an enrollee is entitled, procedures for obtaining major medical coverage, a list of contracting health plans and providers, and a summary of grievance procedures.

12728. After the applicant notifies the program in writing of his or her choice of participating health plan, the program shall assist the applicant in enrolling as a subscriber and securing major medical coverage for the subscriber and any dependents.

12729. A subscriber may request a change in coverage based upon a change in the family status of any dependent, by filing an application within 30 days after the occurrence of the change in family status, or at other times and under conditions as may be prescribed by program regulations.

12730. Health coverage secured through the program shall permit a covered dependent of a subscriber to elect to continue the same coverage upon the death of the subscriber.

12731. A transfer of enrollment from one participating health plan to another may be made by a subscriber at times and under conditions as may be prescribed by regulations of the program

12732. If a subscriber is dissatisfied with any action or failure to act which has occurred in connection with a participating plan's coverage, the subscriber shall have the right to appeal to the board and shall be accorded an opportunity for a fair hearing. Hearings shall be conducted, insofar as practicable, pursuant to the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

12733. Subscribers and their dependents who become eligible for Part A and Part B of Medicare shall not be enrolled, or continue to be enrolled, in major medical coverage afforded by this part.

CHAPTER 7. PLAN RATES AND COMPENSATION FROM THE FUND

12735. Upon enrollment as a subscriber in the program, the subscriber shall be responsible for payment of the subscriber contribution. Termination of coverage by a participating health plan for nonpayment of the subscriber contribution shall be governed by the same laws and regulations by which the participating health plan is regulated as to all its subscribers and enrollees.

12736. Each participating plan shall submit annually to the program, rates which it estimates are sufficient to cover the cost of providing major medical coverage to its subscribers. The rates shall be submitted on the basis of categories of risk which shall be established by the program in a manner consistent with industry practice.

12737. The program shall establish program contribution amounts for each category of risk. The program contribution amounts shall be established at levels which, when subtracted from the average rate charged by participating health plans will result in subscriber contributions of 125 percent of the standard average individual rates for comparable coverage. The program shall pay contribution amounts to participating health plans from the Major Medical Insurance Fund.

12738. A participating health plan may charge subscriber

contributions under this chapter which do not exceed the difference between its plan rate for the category of risk and the program contribution amount for the category of risk.

CHAPTER 8. MAJOR MEDICAL INSURANCE FUND

12739. There is hereby created in the State Treasury a special fund known as the Major Medical Insurance Fund which is, notwithstanding Section 13340 of the Government Code, continuously appropriated to the board for the purposes specified in Section 12739.1. No policies shall be issued under this program until thirty million dollars ($30,000,000) has been deposited in the Major Medical Insurance Fund. The thirty million dollars ($30,000,000) shall come first from the interest accrued on the unspent balances in the Unallocated Account, the Health Services Account, and the Physician Services Account in the Cigarette and Tobacco Products Surtax Fund. If the accrued interest is less than thirty million dollars ($30,000,000), the balance shall be appropriated from unspent 1988–89 and 1990–91 moneys in the three accounts

After June 30, 1991, thirty million dollars ($30,000,000) shall be deposited annually in the Major Medical Insurance Fund from the Unallocated Account of the Cigarette and Tobacco Products Surtax Fund.

12739.1. Except as provided in Section 12739.2, the board shall authorize the expenditure of money in the fund to cover program expenses, including program expenses which exceed subscriber contributions.

12739.2. The Legislature shall appropriate moneys from the fund each fiscal year for the administrative operation of the program. However, the state shall not be liable beyond the assets of the fund for any obligations incurred, or liabilities sustained, in the operation of the California Major Medical Insurance Program.

12739.3. Any moneys remaining in the fund at the end of any fiscal year may be carried forward to the next succeeding fiscal year

12739.4. The board shall establish a reserve which is sufficient to prudently operate the program.

SEC. 2. The sum of two hundred fifty thousand dollars ($250,000) is hereby transferred from the Unallocated Account of the Cigarette and Tobacco Products Surtax Fund to the Major Medical Insurance Fund and is appropriated to the Catastrophie Health Insurance Board for initial operating expenses incurred in carrying out the provisions of this act.

An act to add Sections 11349.10 and 11349.11 to the Government Code, relating to administrative regulations.

[Approved by Governor September 30, 1989 Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 11349.10 is added to the Government Code, to read:

11349.10. (a) If the office is notified of, or on its own becomes aware of, an existing regulation in the California Code of Regulations for which the statutory authority has been repealed or becomes ineffective or inoperative by its own terms, the office shall order the adopting agency to show cause why the regulation should not be repealed for lack of statutory authority and shall notify the Legislature in writing of this order. In issuing the order, the office shall specify in writing the reasons for issuance of the order. "Agency," for purposes of this section and Section 11349.11, refers to the agency that adopted the regulation and, if applicable, the agency that is responsible for administering the regulation in issue.

(b) The agency may, within 30 days after receipt of the written notification, submit in writing to the office any citations, legal arguments, or other information opposing the repeal, including public comments during this period. This section shall not apply where the agency demonstrates in its response that any of the following conditions exists:

(1) The statute or section thereof is simultaneously repealed and substantially reenacted through a single piece of legislation, or where subsequent legislation evinces a specific legislative intent to reenact the substance of the statute or section. When a regulation cites more than one specific statute or section as reference or authority for the adoption of a regulation, and one or more of the statutes or sections are repealed or become ineffective or inoperative, then the only provisions of the regulation which remain in effect shall be those for which the remaining statutes or sections provide specific or general authority.

(2) The statute is temporarily repealed, or rendered ineffective or inoperative by a provision of law which is effective only for a limited period, in which case any regulation described in subdivision (a) is thereby also temporarily repealed, rendered ineffective, or inoperative during that limited period. Any regulation so affected shall have the same force and effect upon the expiration of the limited period during which the provision of law was effective as if that temporary provision had not been enacted.

(3) The statute or section of a statute being repealed, or becoming ineffective or inoperative by its own terms, is to remain in full force

and effect as regards events occurring prior to the date of repeal or ineffectiveness, in which case any regulation adopted to implement or interpret that statute shall likewise be deemed to remain in full force and effect in regards to those same events.

(c) This section shall not be construed to deprive any person or public agency of any substantial right which would have existed prior to, or hereafter exists subsequent to, the effective date of this section.

(d) Thirty days after receipt of the agency's opposition material, or the close of the 30-day agency and public response period if no response is submitted, the office shall do one of the following:

(1) Inform the agency and the Legislature in writing that the office has withdrawn its order to show cause.

(2) Issue a written notice to the agency specifying the reasons for the repeal and its intent to file a Notice of Repeal of the invalid regulation with the Secretary of State. Within seven calendar days of the filing of the Notice of Repeal, the office shall provide the agency, the Governor, and the Legislature with a written decision detailing the reasons for the repeal and a copy of the Notice of Repeal, and publish the office's written decision in the California Regulatory Notice Register.

(e) The office shall order the removal of the repealed regulation from the California Code of Regulations within 30 days after filing the Notice of Repeal, if the agency has not appealed the office's decision, or upon receipt of notification of the Governor's decision upholding the office's decision, if an appeal has been filed pursuant to Section 11349.11.

SEC. 2. Section 11349.11 is added to the Government Code, to read:

11349.11. (a) To initiate a review of the office's Notice of Repeal pursuant to Section 11349.10, the agency shall appeal the office's decision by filing a written Request for Review with the Governor's Legal Affairs Secretary within 10 days of receipt of the Notice of Repeal and written decision provided for by paragraph (2) of subdivision (d) of Section 11349.10. The Request for Review shall include a complete statement as to why the agency believes the decision is incorrect and should be overruled. Along with the Request for Review, the agency shall submit all of the following:

(1) The offices' written opinion detailing the reasons for repeal required by paragraph (2) of subdivision (d) of Section 11349.10.

(2) Copies of all statements and other documents which were submitted to the office.

(b) A copy of the agency's Request for Review shall be delivered to the office on the same day it is delivered to the Governor's office. The office shall file its written response to the agency's request with the Governor's Legal Affairs Secretary within 10 days, and deliver a copy of its response to the agency on the same day it is delivered to the Governor's office.

(c) The Governor's office shall provide the requesting agency and the office with a written decision within 15 days of receipt of the

response by the office to the agency's Request for Review. Upon receipt of the decision, the office shall publish in the California Regulatory Notice Register the agency's Request for Review, the office's response thereto, and the decision of the Governor's office.

(d) The time requirements set by subdivisions (a) and (b) may be shortened by the Governor's office for good cause.

(e) In the event the Governor overrules the decision of the office, the office shall immediately transmit the regulation to the Secretary of State for filing.

(f) Upon overruling the decision of the office, the Governor shall transmit to the Rules Committees of both houses of the Legislature a statement of the reasons for overruling the decision of the office.

The compensation which is awarded for cancer shall include full hospital, surgical, medical treatment, disability indemnity, and death benefits, as provided by this division.

The cancer so developing or manifesting itself in these cases shall be presumed to arise out of and in the course of the employment. (a) Except as provided in Section 7071.8 and subdivision (b), the board shall require, as a condition precedent to the issuance, reinstatement, reactivation, or renewal of a license, that the applicant file or have on file a contractor's bond in the sum of five thousand dollars ($5,000). No bond shall be required of a holder of an inactive license during the period the license is inactive.

(b) Notwithstanding subdivision (a), the board shall require, as a condition precedent to the issuance, reinstatement, reactivation, or renewal of a license for the license classification of swimming pool contractor, that the applicant file or have on file a contractor's bond in the sum of ten thousand dollars ($10,000). CHAPTER 1175

An act to amend Section 1507.5 of the Health and Safety Code, relating to health services.

[Approved by Governor September 30, 1989. Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the cost of maintaining physically disabled people in hospitals and nursing homes continues to increase annually. Prolonged institutionalization can be detrimental to psychological and social growth, especially that of infants and children. There is a national trend to home-based health care as an alternative to prolonged institutional care. Therefore, it is the intent of the Legislature that physically disabled Californians of all ages who receive health care through the California Medical Assistance Program (Medi-Cal) and who otherwise would require institutional care, be offered alternative home- and community-based care services subject to the terms and conditions of federally approved home- and community-based care waivers as authorized by Title XIX of the Social Security Act (42 U.S.C.A. Sec. 1396, et seq.).

SEC. 2. Section 1507.5 of the Health and Safety Code is amended to read:

1507.5. (a) In-home medical care and home and community-based services, as described in subdivisions (t) and (u) of Section 14132 of the Welfare and Institutions Code, may, when deemed medically appropriate by the State Department of Health Services, be provided by a licensed home health agency to children with special medical needs, as defined by the State Department of

Health Services, in foster family homes. For children described in this section, these medical services shall not be considered as a substantial component of the services provided by the licensee for the purposes of Section 1507. To be eligible under this section for placement in a foster home, a child shall be receiving medical supervision and medical case management by an agent designated by the State Department of Health Services.

(b) No more than two children eligible for services under this section may be placed in a single licensed foster family home at one time.

(c) The State Department of Social Services and its agents shall not evaluate or have any responsibility or liability for the evaluation of the medical services described in this section.

SEC. 3. The State Department of Health Services shall report to the Legislature on or before July 1, 1990, on all of the following:

(a) A description and the status of all waivers applied for or amended which serve HIV- and drug-exposed foster children, including those concerning level of care eligibility criteria.

(b) The estimated number and geographic distribution of Medi-Cal-eligible HIV- and drug-exposed children and the number and geographic distribution of those eligible for waiver services, in the foster care system and residing with their natural parents or relatives.

(c) A description of how Medi-Cal coverage can be obtained for services similar to those included in the waivers, such as case management, for those HIV- and drug-exposed children found ineligible for the waiver services based on the level of care criteria but who require ongoing health and support services in order to successfully remain at home or in foster family homes.

(d) A description of the Medicaid waiver enacted in the Medicare Catastrophic Coverage Act of 1988 (P.L. 100-360) for HIV-and drug-exposed children, the differences, if any, between this waiver and the other waivers which the department is amending, and, if the state determines there is no need to apply for this waiver, an explanation as to why it is not needed.

(e) A description as to how the department, in consultation with the State Department of Alcohol and Drug Programs, the State Department of Social Services, the State Department of Developmental Services, county welfare departments, county drug programs, and county health programs, disseminates information regarding the availability of waiver services and the service application process.

SEC. 4. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000),

reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1176

An act to amend Section 1858.2 of the Insurance Code, relating to insurance.

[Approved by Governor September 30, 1989 Filed with Secretary of State September 30, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1858.2 of the Insurance Code is amended to read:

1858.2. (a) If the insurer, organization, group, or association does not make those changes as may be necessary to correct the noncompliance specified in the notice issued under Section 1858.1, or if the insurer, organization, group, or association has failed to establish to the satisfaction of the commissioner that the noncompliance does not exist, the commissioner shall hold a public hearing by mailing a notice to that insurer, organization, group, or association not less than 30 days prior to the date set for hearing specifying the matters to be considered at the hearing.

(b) In the event that the insurer and complainant resolve the matter and the insurer has consented to a rating modification, then that modification shall apply to other policyholders underwritten by the insurer for that class of insurance.

(c) If the insurer, organization, group, or association has refused to enter into informal conciliation at the request of the commissioner, the commissioner may hold a public hearing, whether or not the complaint was accompanied by a request for a public hearing, by mailing a notice to the insurer, organization, group, or association not less than 30 days prior to the date set for hearing specifying the matters to be considered at the hearing.

(d) If a hearing noticed under subdivisions (a) and (c) is based upon a complaint made pursuant to Section 1858, the commissioner shall also mail notice to the complainant not less than 30 days prior to the date set for hearing specifying the matters to be considered at the hearing.

(e) If upon sufficient complaint as provided in Section 1858 and upon review and investigation of the complaint, the commissioner has good cause to believe that the insurer, organization, group, or association, or any rate, rating plan, or rating system made or used by that insurer or rating organization, does not comply with the

requirements and standards of this chapter applicable to it, the commissioner shall hold a public hearing by mailing a notice to the complainant and to the insurer, organization, group, or association not less than 30 days prior to the date set for hearing specifying the matters to be considered at the hearing.

(f) Within 60 days of submission of a matter for decision following a public hearing thereon pursuant to this section, the commissioner shall issue his or her decision or order.

(g) With respect to public hearings under this section, the commissioner may at his or her discretion, grant preference to a hearing in which the complainant has reached the age of 70 years.

CHAPTER 1177

An act to amend, add, and repeal Section 7071.6 of the Business and Professions Code, relating to contractors.

[Approved by Governor September 30, 1989. Filed with Secretary of State September 30, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 7071.6 of the Business and Professions Code is amended to read:

7071.6. (a) Except as provided in Section 7071.8 and subdivision (b), the board shall require, as a condition precedent to the issuance, reinstatement, reactivation, or renewal of a license, that the applicant file or have on file a contractor's bond in the sum of five thousand dollars ($5,000). No bond shall be required of a holder of an inactive license during the period the license is inactive.

(b) Notwithstanding subdivision (a), the board shall require, as a condition precedent to the issuance, reinstatement, reactivation, or renewal of a license for the license classification of swimming pool contractor, that the applicant file or have on file a contractor's bond in the sum of ten thousand dollars ($10,000). No bond shall be required of a holder of an inactive license during the period the license is inactive.

(c) Notwithstanding any other provision of the law, the board shall require, as a condition to the continued maintenance of any active license, that the holder of a license file, or have on file, on and after January 1, 1980, a contractor's bond in the sum of five thousand dollars ($5,000); provided, that the holder of a license for the classification of swimming pool contractor file, or have on file, a contractor's bond in the sum of ten thousand dollars ($10,000).

(d) Notwithstanding any other provision of law, the board shall require, as a condition precedent to the issuance, reinstatement, or reactivation of a license, that an applicant, previously found to have failed or refused to pay a contractor, subcontractor, consumer,

materials supplier, or employee based on an entered and unsatisfied final judgment from a court of law, file or have on file with the board a judgment bond or other security sufficient to guarantee payment of an amount equal to the unsatisfied final judgment or judgments. The applicant shall have 90 days from date of notification by the board to file the bond or the application shall become void and the applicant shall reapply for issuance, reinstatement, or reactivation of a license. The board may not issue, reinstate, or reactivate a license until the judgment bond is filed with the board. The judgment bond is in addition to the contractor's bond. The bond shall be on file for a minimum of one year, after that the bond may be removed by submitting proof of satisfaction of all debts. The applicant may provide the board with a notarized copy of any accord, reached with any judgment creditor holding an unsatisfied final judgment, to satisfy a debt in lieu of filing the bond. Failure to maintain the bond or failure to abide by the accord shall result in the automatic suspension, by operation of law, of any license to which this section applies. After a license is suspended for failure to maintain the bond or abide by the accord the license can only be reinstated when proof of a satisfaction of all debts is made.

Except as otherwise provided, the judgment bond shall remain in full force in the amount posted until the entire debt is satisfied. If at the time of renewal, the licensee submits proof of partial satisfaction of the outstanding final judgment, the board may authorize the judgment bond be reduced to the amount of the unsatisfied portion of the outstanding judgment. When the licensee submits proof of satisfaction of all debts, the judgment bond requirement may be removed.

The board shall include on the license application for issuance, reinstatement, or reactivation, a statement, to be made under penalty of perjury, as to whether there are any entered and unsatisfied judgments against the applicant on behalf of contractors, subcontractors, consumers, or the applicant's employees. Notwithstanding any other provision of law if it is found that the applicant falsified the statement then the license will be retroactively suspended to date of issuance and the license will stay suspended until the judgment bond is filed.

This subdivision applies only with respect to an unsatisfied judgment which is substantially related to the qualifications, functions, or duties of the license being applied for. This section shall not apply to an applicant for issuance, reinstatement, or reactivation where an unsatisfied judgment has been fully discharged in a completed bankruptcy proceeding.

(e) Notwithstanding any other provision of law, the licensee shall notify the registrar in writing of any entered and unsatisfied judgments within 90 days from the date of judgment.

If the licensee fails to notify the registrar in writing within 90 days, the license shall be automatically suspended retroactively to 90 days from the date of judgment. The suspension shall not be removed

until proof of satisfaction of judgment is submitted to the registrar.

This section applies only with respect to an unsatisfied judgment which is substantially related to the qualifications, functions, or duties of the license being applied for. In lieu of submitting proof of satisfaction of judgment in order to remove this suspension a licensee may submit proof that the unsatisfied judgment has been fully discharged in a completed bankruptcy proceeding.

If the licensee notifies the registrar in writing within 90 days of the date of judgment of any entered and unsatisfied judgments the board shall require as a condition to the continual maintenance of the license that the licensee file or have on file with the board a judgment bond or other security sufficient to guarantee payment of an amount equal to the unsatisfied judgment or judgments. The licensee has 90 days from date of notification by the board to file the bond or at the end of the 90 days the license shall be automatically suspended. The licensee may provide the board with a notarized copy of any accord, reached with any individual holding an unsatisfied judgment, to satisfy a debt in lieu of filing the bond. Failure to maintain the bond or failure to abide by the accord shall result in the automatic suspension, by operation of law, to any license that this section applies. If a licensee does not file the bond within 90 days from the board's date of notification and the license is suspended or if the bond is not maintained and the license is suspended or if the licensee does not abide by the accord and the license is suspended the license suspension can only be removed and the license reinstated when proof of a satisfaction of all debts is made.

Except as otherwise provided, the judgment bond shall remain in full force in the amount posted until the entire debt is satisfied. If at the time of renewal, the licensee submits proof of partial satisfaction of the outstanding final judgment, the board may authorize the judgment bond be reduced to the amount of the unsatisfied portion of the outstanding judgment. When the licensee submits proof of satisfaction of all debts, the judgment bond requirement may be removed.

(f) The board shall take the actions required by this section upon notification by any party having knowledge of the outstanding judgment upon a showing of proof of the judgment.

(g) For the purposes of this section, the term "judgment" includes any final arbitration award.

(h) Notwithstanding any other provision of law, as a condition precedent to licensure, the board may require an applicant to post a contractor's bond in twice the amount required pursuant to subdivision (a) until such time as the license is renewed, under the following conditions:

(1) The applicant has either been convicted of a violation of Section 7028 or has been cited pursuant to Section 7028.7.

(2) If the applicant has been cited pursuant to Section 7028.7, the citation has been reduced to a final order of the registrar.

(3) The violation of Section 7028, or the basis for the citation

issued pursuant to Section 7028.7, constituted a substantial injury to the public.

This section shall be operative until January 1, 1992, and on that date is repealed.

SEC. 1.5. Section 7071.6 of the Business and Professions Code is amended to read:

7071.6. (a) Except as provided in Section 7071.8 and subdivision (b), the board shall require, as a condition precedent to the issuance, reinstatement, reactivation, or renewal of a license, that the applicant file or have on file a contractor's bond in the sum of five thousand dollars ($5,000). No bond shall be required of a holder of an inactive license during the period the license is inactive.

(b) Notwithstanding any other provision of law, the board shall require, as a condition precedent to the issuance, reinstatement, or reactivation of a license, that an applicant, previously found to have failed or refused to pay a contractor, subcontractor, consumer, materials supplier, or employee based on an entered and unsatisfied final judgment from a court of law, file or have on file with the board a judgment bond or other security sufficient to guarantee payment of an amount equal to the unsatisfied final judgment or judgments. The applicant shall have 90 days from date of notification by the board to file the bond or the application shall become void and the applicant shall reapply for issuance, reinstatement, or reactivation of a license. The board may not issue, reinstate, or reactivate a license until the judgment bond is filed with the board. The judgment bond is in addition to the contractor's bond. The bond shall be on file for a minimum of one year, after that the bond may be removed by submitting proof of satisfaction of all debts. The applicant may provide the board with a notarized copy of any accord, reached with any judgment creditor holding an unsatisfied final judgment, to satisfy a debt in lieu of filing the bond. Failure to maintain the bond or failure to abide by the accord shall result in the automatic suspension, by operation of law, of any license to which this section applies. After a license is suspended for failure to maintain the bond or abide by the accord the license can only be reinstated when proof of a satisfaction of all debts is made.

Except as otherwise provided, the judgment bond shall remain in full force in the amount posted until the entire debt is satisfied. If at the time of renewal, the licensee submits proof of partial satisfaction of the outstanding final judgment, the board may authorize the judgment bond be reduced to the amount of the unsatisfied portion of the outstanding judgment. When the licensee submits proof of satisfaction of all debts, the judgment bond requirement may be removed.

The board shall include on the license application for issuance, reinstatement, or reactivation, a statement, to be made under penalty of perjury, as to whether there are any entered and unsatisfied judgments against the applicant on behalf of contractors, subcontractors, consumers, or the applicant's employees.

Notwithstanding any other provision of law if it is found that the applicant falsified the statement then the license will be retroactively suspended to date of issuance and the license will stay suspended until the judgment bond is filed.

This subdivision applies only with respect to an unsatisfied judgment which is substantially related to the qualifications, functions, or duties of the license being applied for. This section shall not apply to an applicant for issuance, reinstatement, or reactivation where an unsatisfied judgment has been fully discharged in a completed bankruptcy proceeding.

(c) Notwithstanding any other provision of law, the licensee shall notify the registrar in writing of any entered and unsatisfied judgments within 90 days from the date of judgment.

If the licensee fails to notify the registrar in writing within 90 days, the license shall be automatically suspended retroactively to 90 days from the date of judgment. The suspension shall not be removed until proof of satisfaction of judgment is submitted to the registrar.

This section applies only with respect to an unsatisfied judgment which is substantially related to the qualifications, functions, or duties of the license being applied for. In lieu of submitting proof of satisfaction of judgment in order to remove this suspension a licensee may submit proof that the unsatisfied judgment has been fully discharged in a completed bankruptcy proceeding.

If the licensee notifies the registrar in writing within 90 days of the date of judgment of any entered and unsatisfied judgments the board shall require as a condition to the continual maintenance of the license that the licensee file or have on file with the board a judgment bond or other security sufficient to guarantee payment of an amount equal to the unsatisfied judgment or judgments. The licensee has 90 days from date of notification by the board to file the bond or at the end of the 90 days the license shall be automatically suspended. The licensee may provide the board with a notarized copy of any accord, reached with any individual holding an unsatisfied judgment, to satisfy a debt in lieu of filing the bond. Failure to maintain the bond or failure to abide by the accord shall result in the automatic suspension, by operation of law, to any license that this section applies. If a licensee does not file the bond within 90 days from the board's date of notification and the license is suspended or if the bond is not maintained and the license is suspended or if the licensee does not abide by the accord and the license is suspended the license suspension can only be removed and the license reinstated when proof of a satisfaction of all debts is made.

Except as otherwise provided, the judgment bond shall remain in full force in the amount posted until the entire debt is satisfied. If at the time of renewal, the licensee submits proof of partial satisfaction of the outstanding final judgment, the board may authorize the judgment bond be reduced to the amount of the unsatisfied portion of the outstanding judgment. When the licensee submits proof of satisfaction of all debts, the judgment bond requirement may be

removed.

(d) The board shall take the actions required by this section upon notification by any party having knowledge of the outstanding judgment upon a showing of proof of the judgment.

(e) For the purposes of this section, the term "judgment" includes any final arbitration award.

(f) Notwithstanding any other provision of law, as a condition precedent to licensure, the board may require an applicant to post a contractor's bond in twice the amount required pursuant to subdivision (a) until such time as the license is renewed, under the following conditions:

(1) The applicant has either been convicted of a violation of Section 7028 or has been cited pursuant to Section 7028.7.

(2) If the applicant has been cited pursuant to Section 7028.7, the citation has been reduced to a final order of the registrar.

(3) The violation of Section 7028, or the basis for the citation issued pursuant to Section 7028.7, constituted a substantial injury to the public.

This section shall be operative until January 1, 1992, and on that date is repealed.

SEC. 2. Section 7071.6 is added to the Business and Professions Code, to read:

7071.6. (a) Except as provided in Section 7071.8 and subdivision (b), the board shall require, as a condition precedent to the issuance, reinstatement, reactivation, or renewal of a license, that the applicant file or have on file a contractor's bond in the sum of five thousand dollars ($5,000). No bond shall be required of a holder of an inactive license during the period the license is inactive.

(b) Notwithstanding subdivision (a), the board shall require, as a condition precedent to the issuance, reinstatement, reactivation, or renewal of a license for the license classification of swimming pool contractor, that the applicant file or have on file a contractor's bond in the sum of ten thousand dollars ($10,000). No bond shall be required of a holder of an inactive license during the period the license is inactive.

(c) Notwithstanding any other provision of the law to the contrary, the board shall require, as a condition to the continued maintenance of any active license, that the holder of a license file, or have on file, on and after January 1, 1980, a contractor's bond in the sum of five thousand dollars ($5,000); provided, that the holder of a license for the classification of swimming pool contractor file, or have on file, a contractor's bond in the sum of ten thousand dollars ($10,000).

(d) Notwithstanding any other provision of the law to the contrary, the board shall require, as a condition precedent to the issuance, reinstatement, reactivation, or renewal of a license, that an applicant, previously found to have failed or refused to pay a contractor, subcontractor, consumer, or employee based on a recorded and unsatisfied judgment from a court of law or on an

unsatisfied final arbitration award in the five years preceding the application, file or have on file a contractor's bond or other security sufficient to guarantee payment of an amount equal to the unsatisfied judgment or judgments, to a maximum of fifty thousand dollars ($50,000). The applicant shall provide the board with a notarized copy of any accord, reached with any individual holding an unsatisfied judgment or final arbitration award, to satisfy a debt. This section applies only with respect to an unsatisfied judgment or arbitration award which is substantially related to the qualifications, functions, or duties of the license being applied for. If the applicant shows proof of satisfaction of the judgment, this requirement does not apply. This section shall not apply to an applicant for issuance, reinstatement, reactivation, or renewal where an unsatisfied judgment has been discharged in a bankruptcy proceeding. The bond shall be on file for a minimum of one year or until such time as a satisfaction of all debts is made. Proof of the satisfaction of a debt shall be provided to the registrar. Failure to provide the bond or a copy of any accord, as required by this subdivision, shall be grounds to deny the issuance, reinstatement, reactivation, or renewal of a license.

The board shall include on the license application for issuance, reinstatement, reactivation, or renewal, a statement, to be made under penalty of perjury, as to whether there are any such recorded and unsatisfied judgments against the applicant on behalf of contractors, subcontractors, consumers, or the applicant's employees.

(e) Falsification of any application for the issuance, reinstatement, reactivation, or renewal of a license is a cause for disciplinary action.

(f) Notwithstanding any other provision of law, as a condition precedent to licensure, the board may require an applicant to post a contractor's bond in twice the amount required pursuant to subdivision (a) until such time as the license is renewed, under the following conditions:

(1) The applicant has either been convicted of a violation of Section 7028 or has been cited pursuant to Section 7028.7.

(2) If the applicant has been cited pursuant to Section 7028.7, the citation has been reduced to a final order of the registrar.

(3) The violation of Section 7028, or the basis for the citation issued pursuant to Section 7028.7, constituted a substantial injury to the public.

This section shall become operative on January 1, 1992.

SEC. 3. Section 7071.6 is added to the Business and Professions Code, to read:

No bond shall be required of a holder of

an inactive license during the period the license is inactive.

(b) Notwithstanding any other provision of the law to the contrary, the board shall require, as a condition precedent to the issuance, reinstatement, reactivation, or renewal of a license, that an applicant, previously found to have failed or refused to pay a contractor, subcontractor, consumer, or employee based on a recorded and unsatisfied judgment from a court of law or on an unsatisfied final arbitration award in the five years preceding the application, file or have on file a contractor's bond or other security sufficient to guarantee payment of an amount equal to the unsatisfied judgment or judgments, to a maximum of fifty thousand dollars ($50,000). The applicant shall provide the board with a notarized copy of any accord, reached with any individual holding an unsatisfied judgment or final arbitration award, to satisfy a debt. This section applies only with respect to an unsatisfied judgment or arbitration award which is substantially related to the qualifications, functions, or duties of the license being applied for. (c) The attorney of the district, upon request of the board, shall petition the superior court to impose, assess and recover the sums provided for in subdivisions (a) and (b). In determining the amount of the fine the court shall take into consideration all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the nature and persistence of the violation, the length of time over which the violation occurs and corrective action, if any, attempted or taken by the discharger.

(d) Notwithstanding any other provision of law, all civil fines imposed by the court for a violation of this section shall be distributed as follows:

(1) Fifty percent shall be transferred into the general fund of the county in which the action to recover the fine was brought.

(2) Fifty percent shall be transferred once a month to the treasurer of any municipal utility district in the county for deposit in the funds of the district.

(e) Remedies under this section are in addition to and do not supersede or limit any and all other remedies, civil or criminal, but no liability shall be recoverable under this section for any violation for which liability is recovered under Section 13575.5.

SEC. 2. Section 13575.5 is added to the Public Utilities Code, to read:

13575.5. (a) The district may issue a complaint to any person on whom civil liability may be imposed pursuant to this article. The complaint shall allege the act or failure to act that constitutes a violation of law, the provision of law authorizing civil liability to be imposed pursuant to this article, and the proposed civil liability.

(b) The complaint shall be served by personal notice or certified mail on the person subject to the district's discharge and reporting requirements, and shall inform the party served that a hearing shall be conducted within 60 days after the party has been served. The hearing shall be before a hearing officer designated by the board. The person who has been issued a complaint may waive the right to a hearing, in which case the district shall not conduct a hearing. A person dissatisfied with the decision of the hearing officer may appeal to the board of directors within 30 days of notice of the hearing officer's decision.

(c) If after the hearing, or appeal, if any, it is found that the person has violated reporting or discharge requirements, the hearing officer or board may assess a fine against that person. In determining the amount of the fine the hearing officer or board shall take into consideration all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the nature and persistence of the violation, the length of time over which the violation occurs and corrective action, if any, attempted or taken by the discharger.

(d) Civil liability may be imposed by the district as follows:

(1) In an amount which does not exceed one thousand dollars ($1,000) for each day for knowingly or willfully failing or refusing to furnish technical or monitoring reports.

(2) In an amount which does not exceed five thousand dollars ($5,000) for each day of intentionally or negligently discharging hazardous waste, as defined in Section 25117 of the Health and Safety Code, knowingly falsifying any information provided in any furnished technical or monitoring report.

(3) In an amount which does not exceed ten dollars ($10) per gallon for discharges in violation of any of the district's cease and desist or other orders, or prohibitions issued, reissued, or adopted by the district.

(e) All moneys collected under this section shall be deposited in a special district account and shall be made available for the monitoring, treatment, and control of discharges into district facilities.

(f) Unless appealed, orders setting administrative civil liability shall become effective and final upon issuance thereof, and payment

shall be made within 30 days. Copies of these orders shall be served by personal service or by registered mail upon the party served with the complaint and upon other persons who appeared at the hearing and requested a copy.

(g) No liability shall be recoverable under this section for any violation for which liability is recovered under Section 13575.

SEC. 3. Section 13575.6 is added to the Public Utilities Code, to read:

13575.6. Any party aggrieved by a final order issued by the board under Section 13575.5, after granting review of a hearing officer order, may obtain review of the order of the board in the superior court by filing in the court a petition for writ of mandate within 30 days following the issuance of the order by the board. Any party aggrieved by a final order of a hearing officer issued under Section 13575.5 for which the board denies review may obtain review of the order of the hearing officer in the superior court by filing in the court a petition of writ of mandate within 30 days following the denial of review by the board.

If no aggrieved party petitions for writ of mandate within the time provided by this section, an order of the board or a hearing officer shall not be subject to review by any court or agency, except that the board may grant review on its own motion of an order issued under Section 13575.5 after the expiration of the time limits set by that section.

SEC. 4. Section 13575.7 is added to the Public Utilities Code, to read:

13575.7. (a) Within 30 days after service of a copy of a decision and order issued by the board pursuant to Section 13575.5, any aggrieved party may file with the superior court a petition for writ of mandate for review thereof. Failure to file a petition shall not preclude a party from challenging the reasonableness and validity of a decision or order of a hearing officer or the board in any judicial proceedings brought to enforce that decision or order or for other civil remedies.

(b) The evidence before the court shall consist of the record before the board, including the hearing officer's record, and any other relevant evidence which, in the judgment of the court, should be considered to effectuate and implement the policies of this division. In every such case, the court shall exercise its independent judgment on the evidence.

(c) Except as otherwise provided in this section, subdivisions (e) and (f) of Section 1094.5 of the Code of Civil Procedure shall govern proceedings pursuant to this section.

SEC. 5. Section 13576.5 is added to the Public Utilities Code, to read:

13576.5. Any person who knowingly makes any false statement or representation in any record, report, plan, or other document filed with the district, or who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required by the district,

shall be punished by a fine of not more than twenty-five thousand dollars ($25,000) or by imprisonment in the county jail for not more than six months, or by both.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1181

An act to amend Sections 33530, 60041, 60200, 60204, and 60205 of, and to add and repeal Section 60200.1 of, the Education Code, relating to education, and making an appropriation therefor.

[Approved by Governor September 30, 1989 Filed with Secretary of State September 30, 1989]

I am deleting the $150,000 General Fund appropriation contained in Section 8 of Senate Bill No 594

This bill would modify the instructional materials adoption process for grades one through eight, requiring adoption of materials in each subject area every two years instead of every seven

I believe the duties imposed upon the Superintendent of Public Instruction by this legislation can be accomplished from within existing resources

With this deletion, I approve Senate Bill No 594

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature to simplify, clarify, and improve the current instructional materials adoption system for kindergarten and grades 1 to 8, inclusive. It is further the intent of the Legislature that textbooks shall be adopted by the State Board of Education and furnished without cost for use in these grades, as required by Section 7.5 of Article IX of the California Constitution.

The Legislature hereby declares that the objectives of the instructional materials adoption systems shall be to make available the most up-to-date materials with respect to content and quality, to provide a diverse assortment of basic instructional materials, to provide a wide range of instructional materials which reflect the diversity of the pupils enrolled in the state school system, including, where appropriate, a diversity of pedagogical approaches to learning, and to increase the availability and quality of instructional materials in the public schools that are in concert with the subject area frameworks.

SEC. 2. Section 33530 of the Education Code is amended to read:

33530. There is in the state government the Curriculum

Development and Supplemental Materials Commission consisting of a Member of the Assembly appointed by the Speaker of the Assembly, a Member of the Senate appointed by the Senate Committee on Rules, one public member appointed by the Speaker of the Assembly, one public member appointed by the Senate Committee on Rules, one public member appointed by the Governor, and 13 public members appointed by the State Board of Education upon the recommendation of the Superintendent of Public Instruction or the members of the State Board of Education.

So far as is practical and consistent with the duties assigned to the commission by the State Board of Education, at least seven of the 13 public members appointed by the State Board of Education shall be persons, who because they have taught, written, or lectured on the subject matter fields specified in Section 33533, in the course of public or private employment, have become recognized authorities or experienced practitioners in such fields. The State Board of Education shall make its appointments so as to ensure that, at any one time, at least seven of the public members shall be current classroom teachers, or mentor teachers, or both assigned to teach kindergarten or any of grades 1 to 12, inclusive.

Notwithstanding the requirement that seven of the public members shall be current classroom teachers or mentor teachers, current members of the commission who were appointed on or before December 31, 1989, shall be allowed to complete their terms.

In making the remaining appointments to the commission, and in establishing the commission's advisory task forces or committees, the State Board of Education is encouraged to consider the role of other representatives of the educational community in the development of curriculum and instructional materials, including, but not limited to, administrators, governing school board members and parents who are reflective of the various ethnic groups and types of school districts in California.

SEC. 3. Section 60041 of the Education Code is amended to read:

60041. When adopting instructional materials for use in the schools, governing boards shall include only instructional materials which accurately portray, whenever appropriate:

(a) Humanity's place in ecological systems and the necessity for the protection of our environment.

(b) The effects on the human system of the use of tobacco, alcohol, narcotics and restricted dangerous drugs as defined in Section 11032 of the Health and Safety Code, and other dangerous substances.

SEC. 4. Section 60200 of the Education Code is amended to read:

60200. The state board shall adopt basic instructional materials for use in kindergarten and grades 1 to 8, inclusive, for governing boards, subject to the following provisions:

(a) The state board shall adopt basic instructional materials for all applicable grade levels in each of the following categories:

(1) Language arts.

(2) Mathematics.
(3) Reading.
(4) Science.
(5) Social Science.
(6) Bilingual or bicultural subjects.
(7) Any other subject, discipline, or interdisciplinary areas for which the state board determines the adoption of instructional materials to be necessary or desirable.

(b) The state board shall adopt any of the following for basic instructional materials in each subject in each grade:
(1) Instructional materials.
(2) Instructional materials systems.
(3) Instructional materials sets.
(4) A combination of instructional materials, instructional materials systems, and instructional materials sets, as the state board may select.

(c) The state board shall adopt procedures for the submission of basic instructional materials in order to comply with each of the following:
(1) Instructional materials may be submitted for adoption in any of the subject areas pursuant to subdivision (a) at least every two years so that there will be submissions in each subject consistent with the framework cycles established by the state board. The state board may prescribe reasonable conditions to restrict the resubmission of materials that have been previously rejected if those resubmitted materials have no substantive changes.
(2) Submitted instructional materials shall be adopted or rejected within six months of the submission date of the materials pursuant to paragraph (1), unless the state board determines that a longer period of time, not to exceed an additional three months, is necessary due to the estimated volume or complexity of the materials for that subject in that year, or due to other circumstances beyond the reasonable control of the state board.

(d) In reviewing and adopting or recommending for adoption submitted basic instructional materials, the state board and its appropriate advisors and advisory groups shall use, and ensure that, in its judgment, all of the following conditions are met:
(1) The submitted basic instructional materials are consistent with the criteria and the standards of quality prescribed in the state board's adopted curriculum framework. In making this determination, the state board shall consider both the framework and the submitted instructional materials as a whole.
(2) The submitted basic instructional materials comply with the requirements of Sections 60040, 60041, 60042, 60043, 60044, 60200.5, and 60200.6, and the state board's guidelines for social content.
(3) The submitted instructional materials are factually accurate and incorporate principals of instruction reflective of current and confirmed research.
(4) The submitted instructional materials adequately cover the

subject area for the grade level or levels for which they are submitted.

(5) The submitted instructional materials meet other criteria as are established by the state board as being necessary to accomplish the intent of Section 7.5 of Article IX of the California Constitution and of Section 1 of this act, provided that the criteria are approved by resolution at the time the resolution adopting the framework for the current adoption is approved, or at least 30 months prior to the date that the materials are to be approved for adoption.

(e) If basic instructional materials are rejected, the state board shall provide a specific, written explanation of the reasons why the submitted materials were not adopted, based upon one or more of the criteria established under subdivision (d). In providing this explanation, the state board may use, in whole or in part, materials written by the commission or any other advisors to the state board.

(f) The state board may adopt fewer than five basic instructional materials in each subject area for each grade level if either of the following occurs:

(1) Fewer than five basic instructional materials are submitted.

(2) The state board specifically finds that fewer than five basic instructional materials meet the criteria prescribed by paragraphs (1) to (5), inclusive, of subdivision (d) of Section 60200, or the materials fail to meet the state board's adopted curriculum framework. In the event that the state board adopts fewer than five basic instructional materials in any subject for any grade level, the state board shall conduct a review of the degree to which the criteria and procedures used to evaluate the submitted materials for that adoption were consistent with the state board's adopted curriculum framework.

(g) Nothing in this section shall limit the authority of the state board to adopt materials that are not basic instructional materials.

(h) In the event that a district board establishes to the satisfaction of the state board that the state-adopted instructional materials do not promote the maximum efficiency of pupil learning in the district, the state board shall authorize that district board to use its instructional materials allowances to purchase materials as specified by the state board, in accordance with standards and procedures established by the state board.

(i) Consistent with the quality criteria for the state board's adopted curriculum framework, the state board shall prescribe procedures to provide the most open and flexible materials submission system and ensure that the adopted materials in each subject, taken as a whole, provide for the educational needs of the diverse pupil populations in the public schools, provide collections of instructional materials that illustrate diverse points of view, represent cultural pluralism, and provide a broad spectrum of knowledge, information, and media to meet the goals of the program and the needs of pupils.

(j) Upon making an adoption, the state board shall make available

to listed publishers and manufacturers and all school interests a listing of instructional materials, including the most current unit cost of those materials as computed pursuant to subdivision (b) of Section 60222 and Section 60223. Items placed upon lists shall remain thereon, and be available for procurement through the state's systems of financing, for a period beginning with the date of the adoption of the item and ending on a date established by the state board as being not less than 30 months after the state board's approval of the curriculum framework that will succeed the framework on which the current adoption is based. All previous adoptions shall be integrated on lists and made available by subject and grade level. The lists shall terminate and shall no longer be effective on the date prescribed by the state board pursuant to this subdivision.

(k) The state board may approve multiple lists of instructional materials, without designating a grade or subject, and the state board may designate more than one grade or subject whenever it determines that a single subject designation or a single grade designation would not promote the maximum efficiency of pupil learning. Any materials so designated may be placed on single grade or single subject lists, or multigrade or interdisciplinary lists, or may be placed on separate lists including other materials with similar grade or subject designations.

(*l*) A composite listing in the format of an order form may be used to meet the requirements of this section.

(m) The lists maintained pursuant to this section shall not be deemed to control the use period by any local district.

(n) Upon making an adoption, the state board shall establish the date upon which those adopted materials shall initially be available for use by schools.

SEC. 5. Section 60200.1 is added to the Education Code, to read:

60200.1. The implementation of the new submission cycle pursuant to Section 60200 may be phased in over a three-year period concluding January 1, 1993, if the state board ensures that submission opportunities for major subjects are available, during the transition period.

This section shall remain in effect only until January 1, 1993, and as of that date is repealed.

SEC. 6. Section 60204 of the Education Code is amended to read:

60204. The commission shall:

(a) Recommend curriculum frameworks to the state board.

(b) Develop criteria for evaluating instructional materials submitted for adoption so that the materials adopted shall adequately cover the subjects in the indicated grade or grades and which comply with the provisions of Article 3 (commencing with Section 60040) of Chapter 1. The criteria developed by the commission shall be consistent with the duties of the state board pursuant to Section 60200. The criteria shall be public information and shall be provided in written or printed form to any person requesting such

information.

(c) Study and evaluate instructional materials submitted for adoption.

(d) Recommend to the state board instructional materials which it approves for adoption.

(e) Review and have the authority to adopt the educational films or videotapes produced in accordance with Article 3 (commencing with Section 52740) of Chapter 11 of Part 28.

(f) Recommend to the state board policies and activities to assist the department and school districts in the use of the curriculum framework and other available model curriculum materials for the purpose of guiding and strengthening the quality of instruction in the public schools.

SEC. 7. Section 60205 of the Education Code is amended to read:

60205. The commission may, in order to fulfill its duties pursuant to Section 60204, appoint task forces or committees of subject matter experts to assist and advise them. Each task force or committee appointed by the commission shall include a majority consisting of current classroom teachers as defined in Section 33150 providing instruction in kindergarten and grades 1 to 8, inclusive, or mentor teachers, or certificated teachers employed by school districts or county offices of education who are not in a position that requires a services credential with a specialization in administrative services, or any combination of those teachers. The commission shall endeavor to appoint persons who are representatives of various ethnic groups and of various types of school districts. Accurate records of the advice and recommendations of each task force or committee member shall be maintained by the commission, and made available to the state board at its request. For the purpose of developing the curriculum framework or for other activities not associated with the evaluation of basic instructional materials, the commission may expand the authority for the appointment of classroom teachers to include teachers providing instruction in kindergarten and grades 1 to 12, inclusive.

SEC. 8. The sum of one hundred fifty thousand dollars ($150,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for the period commencing January 1, 1990, and ending June 30, 1990, for the purpose of establishing six additional staff positions and for administrative costs incurred in the implementation of this act.

It is the intent of the Legislature that commencing with the 1990–91 fiscal year, and for each subsequent fiscal year, funds shall be made available to the State Department of Education through the annual Budget Act for the purpose of implementing the department's duties with respect to the instructional materials adoption system for kindergarten and grades 1 to 8, inclusive.

(b) Section 22127, except the first paragraph thereof, shall apply to classroom teachers who retire after June 30, 1990, and any statutory reference to Section 22127 or "final compensation" with respect to a classroom teacher who retires after June 30, 1990, shall be deemed to be a reference to this section.

(c) As used in this section, "classroom teacher" means:

(1) All teachers and substitute teachers in positions requiring certification qualifications who spend, during the last 10 years of their service which immediately precedes their retirement, 60 percent or more of their time each year providing direct instruction.

(2) Other certificated personnel who spend, during the last 10 years of their service which immediately precedes their retirement, 60 percent or more of their time each year providing direct services to pupils, including, but not limited to, librarians, counselors, nurses, speech therapists, resource specialists, audiologists, audiometrists, hygienists, optometrists, psychologists, driver safety instructors, and personnel on special assignment to perform school attendance and adjustment services.

(d) As used in this section, "classroom teacher" does not include:

(1) Certificated employees whose job descriptions require an administrative credential.

(2) Certificated employees whose job descriptions include responsibility for supervision of certificated staff.

(3) Certificated employees who serve as advisers, coordinators, consultants, or developers or planners of curricula, instructional materials, or programs, who spend, during the last 10 years of their service which immediately precedes their retirement, less than 60 percent of their time in direct instruction.

(4) Certificated employees whose job descriptions require

provision of direct instruction or services, but who are temporarily functioning in nonteaching assignments.

(5) Classified employees.

(e) This section shall apply only to teachers employed by an employer which has, pursuant to Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, entered into a written agreement with an exclusive representative, which makes this section applicable to its certificated employees.

(f) The written agreement shall include a mechanism to pay for all increases in benefits and allowances provided for by this section through employer contributions or employee contributions or both, which shall be collected and retained by the employer in a trust fund to be used solely and exclusively to pay the system for all increases in benefits and allowance provided by this section and related administrative costs. The employer shall annually reimburse the system from the trust fund an amount equal to: (1) the difference between what the member receives pursuant to this section and the amount the member would have received in the absence of this section, as determined by the board, and (2) the proportionate share of the cost to the system, as determined by the board, of administering this section. The reimbursement of the system shall include the cost of all increases in benefits and allowances provided for by this section for all years of service normally included in the calculation of the benefits and allowances.

(g) Upon the execution of the agreement, the employer shall notify all certificated employees of the agreement. Any certificated employee of the employer, who is in the Public Employees' Retirement System pursuant to Section 22608, may, within 90 days following the date of notification, elect to terminate his or her membership in the Public Employees' Retirement System and become a member of this system. An employer which elects to become subject to this section shall certify the eligibility of an employee, upon retirement or eligibility for a disability allowance, pursuant to the criteria set forth in this section.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1185

An act to add Article 19.5 (commencing with Section 8430) to Chapter 2 of Part 6 of the Education Code, relating to child care, and making an appropriation therefor.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989.]

I am deleting the $60,000 appropriation contained in Section 2 of Assembly Bill No. 1169.

This bill would require the Department of Education to contract with a nonprofit agency to establish a model program to recruit and train in-home day providers for infants in Los Angeles, Orange, and Butte Counties.

The demands placed on budget resources require all of us to set priorities. With legislation I will be signing and the budget enacted in July 1989, more than $50 billion in state funds will be appropriated this fiscal year. This amount is more than adequate to provide the necessary essential services provided for by State Government. It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided.

It is more appropriate to consider funding the provisions of this bill during the budget process for Fiscal Year 1990–91. Only at that time can we review the relative merits of this program in comparison to all other funding projects. The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit.

With this deletion, I approve Assembly Bill No. 1169.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Article 19.5 (commencing with Section 8430) is added to Chapter 2 of Part 6 of the Education Code, to read:

Article 19.5. Pilot Project on Infant Home Care

8430. The Legislature finds and declares all of the following:

(a) That the demand for child care for infants and toddlers exceeds the supply.

(b) That persons employed as day care providers offer a needed and valuable service to infants and to their working parents.

(c) That family day care offers employment opportunities to individuals with a gift for caring and for nurturing young children.

(d) That because the provision of care for infants is an occupation in demand, the state can support the recruitment and training of individuals to enter this service profession.

8431. There is hereby established a three-year pilot project on infant home care for the purposes of developing and evaluating a model program for the recruitment, training, and monitoring of a network of infant care providers.

8432. (a) The State Department of Education shall contract with one nonprofit agency located in Los Angeles County, one nonprofit agency located in Orange County, and one nonprofit agency located in Butte County to establish the Infant Home Care Model Program.

(b) The model program shall recruit adults who meet state statutory and regulatory qualifications of infant home care providers

to become infant home care providers. The model program shall assist the individuals recruited, where appropriate, to meet the statutory and regulatory requirements of infant home care providers.

(c) The model program shall provide training to the adults recruited including, but not limited to, the following content areas:

(1) First aid and CPR.

(2) Health, safety, and nutrition.

(3) Child growth and development.

(4) Age appropriate programming and program resources.

(5) Effective parent communication and understanding of parental needs.

(6) Small business management.

(7) Community resources and the appropriate use of these resources.

(8) The home as a learning environment.

(d) The nonprofit agencies selected to establish the program shall provide the following services on an ongoing basis:

(1) Assist the adults recruited in obtaining a family day care license.

(2) Assist the adults recruited in registering with the Childcare Resource and Referral Agency in the area.

(3) Visit each home site on a regular basis to provide consultation and support.

(4) Provide short-term crisis intervention.

(5) Serve as a resource to provide access to goods and services vital to operating an infant care home.

(6) Provide a designated staff professional who shall be available.

(e) The nonprofit agencies shall conduct an annual evaluation of the effectiveness of the program in recruiting and establishing infant care homes and the effectiveness of the support services offered to the providers. Specific annual measurement outcomes shall be developed to include, but not be limited to:

(1) The number of adults recruited annually to become infant home care providers.

(2) The number of adults assisted annually in meeting the statutory and regulatory requirements of infant home care providers.

(3) The number of infant care homes established annually as a result of the program.

8433. The Legislative Analyst shall evaluate the success of the model program based on the indicators outlined in Section 8432 and based on an analysis of the agencies' annual evaluation of the effectiveness of the program. The Legislative Analyst shall report the results of the evaluation in the analysis of the 1991–92 Budget Bill.

SEC. 2. The sum of sixty thousand dollars ($60,000) is hereby appropriated from the General Fund for the 1989–90 fiscal year to the State Department of Education for the purposes of providing staff, including, but not limited to, a director, support personnel, and

trainers; training materials; and the agencies' administrative costs to establish, monitor, and evaluate the project established pursuant to Article 19.5 (commencing with Section 8430) of Chapter 2 of Part 6 of the Education Code.

It is the intent of the Legislature that funding for these purposes shall be provided for the second and third year of the pilot project in the 1990–91 and 1991–92 Budget Acts.

SEC. 3. It is the intent of the Legislature that no moneys appropriated pursuant to Section 2 of this act be used to cover the costs of providing the child care services under the model program.

CHAPTER 1186

An act relating to education, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

I am deleting the $50,000 appropriation contained in Section 4 of Assembly Bill No 1562

This bill would require the Superintendent of Public Instruction (SPI) to report on the number and type of school and school district reports required or requested by the federal government, the State, county offices of education or governing boards of school districts The intent would be to identify and eliminate insignificant reports. This bill appropriates $50,000 to the Superintendent to carry out the provisions of this bill

The costs associated with this bill are minor and should be absorbed by the Department of Education The demands placed on budget resources require all of us to set priorities With legislation I will be signing and the budget enacted in July 1989, more than $50 billion in state funds will be appropriated this fiscal year This amount is more than adequate to provide the necessary essential services provided for by State Government It is not necessary to put additional pressure on taxpayer funds for programs that fall beyond the priorities currently provided

With this deletion, I approve Assembly Bill No. 1562

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature in enacting this act to reduce the burden of paperwork on all school districts and thereby save staff time and lower administrative costs.

SEC. 2. Not later than November 1, 1990, the Superintendent of Public Instruction shall report to the education policy committees of the Legislature and to the Joint Legislative Budget Committee the following information:

(a) The number of reports that schools and school districts are mandated by the federal government, the state, the county superintendents of schools, or the governing boards of school districts to file with the state and the identity of each of those reports.

(b) The number of reports that school districts are asked, but not mandated, to file with the state and the identity of each of those reports.

(c) The use, application, and utility of the data that is collected from school districts as identified in subdivisions (a) and (b) and submitted to the Superintendent of Public Instruction and the time of school principals, teachers, and clerks that is required to prepare the reports.

SEC. 3. The Legislative Analyst shall include in the Analysis of the 1991–92 Budget Bill a review of the report required by Section 2 of this act. The Legislative Analyst shall include recommendations that would provide for a reduction in paperwork and reporting by school districts, with special attention to those school districts with 2,500 or fewer regular average daily attendance. The Legislative Analyst shall consider the consolidation or deletion of reports, reduction in frequency of reports, and abbreviated reports as means to reduce the burden imposed on all school districts in making reports to the State Department of Education.

SEC. 4. The sum of fifty thousand dollars ($50,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for the purposes of Section 2 of this act.

SEC. 5. Funding for purposes of this act shall not exceed the appropriation specified in Section 4 of this act.

CHAPTER 1187

An act relating to education, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

I am reducing the $125,000 appropriation contained in Section 2 of Senate Bill No 410 to $85,000 by deleting the $40,000 appropriation for cost associated with conducting the survey and preparing the reports for programs administered by the State Department of Education.

This bill would require the Superintendent of Public Instruction to submit two reports that together are intended to cover all programs directed at high-risk pupils and specialized program participants One report would focus on programs available in each county, and the other would focus on programs administered by the State Department of Education. $85,000 would be designated for the report and associated survey on programs operated and administered by the counties The remaining $40,000 would be designated for the report on programs administered by the State Department of Education.

I believe that the Department can complete the report on the programs that it administers within existing resources.

With this reduction, I approve Senate Bill No. 410

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. (a) The Superintendent of Public Instruction shall prepare a report to be submitted to the Legislature on or before December 31, 1989, to identify in specific terms for every county each educational program directed at high-risk pupils and

specialized program participants. The report shall include information obtained from a survey of each county office of education regarding the relative success of these programs that are operated in each school district within each respective county. The report shall also include a description of the allocation of funding to each program and shall provide a comparative analysis of the level of funding for these programs for each county.

(b) The Superintendent of Public Instruction shall submit a report to the Legislature on or before December 31, 1989, on the programs administered by the State Department of Education for the purpose of assisting pupils who are at risk of not completing a high school education and programs that are designed to provide education and training to noncollege bound youth. The report shall include all available recent indicators of the relative success of the programs, based upon each individual program. The report shall also include a description of the allocation of funding to each program and shall provide a comparative analysis of the level of funding for these programs in each county.

(c) It is the intent of the Legislature that the reports required by this act shall encompass all programs that are directed at high-risk pupils and specialized program participants, and that they shall not be limited to statutorily authorized programs. The Superintendent of Public Instruction may incorporate the report required by this section into the report required by Section 1 of this act.

SEC. 2. The sum of one hundred twenty-five thousand dollars ($125,000) is hereby appropriated from the General Fund to the State Department of Education as follows:

(1) For costs associated with conducting the survey and preparing the reports required by subdivision (a) of Section 1 of this act for programs operated and administered by the counties	$85,000
(2) For costs associated with conducting the survey and preparing the reports required by subdivision (b) of Section 1 of this act for programs administered by the State Department of Education	$40,000

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The escalating cost of education for kindergarten and grades 1 to 12, inclusive, and the corresponding decrease in available resources to fund essential educational programs requires a careful analysis of current expenditures for existing programs which are targeted toward keeping pupils in school.

In order to require the Superintendent of Public Instruction to prepare and submit the reports required by Section 1 of this act on

educational programs which are directed at high-risk pupils and specialized program participants at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 1188

An act to add Article 11.5 (commencing with Section 69730) to Chapter 2 of Part 42 of the Education Code, relating to postsecondary education.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) High school students are a valuable resource of the State of California. Among the contributions high school students make to the state are growth of the state's economy, improvement of the welfare of the general populace, and, by their attendance in school, promotion of the educational attainment of its citizenry. In addition, many high school students make contributions to their community through volunteer activities in local service programs.

(b) Many complex problems face our society today that cannot be effectively addressed solely by the public or private sector. Assistance to victims of poverty, child care services, care for the elderly, services for the handicapped, assistance for victims of the physically and mentally handicapped, aid to victims of drug and alcohol abuse, and aid to the homeless, among other needs, cannot be provided by the public or private sector alone.

(c) The nonprofit community services sector of our economy provides the state with valuable services that help address those complex problems. The service organizations that comprise that sector in each community rely upon the volunteer resources of individuals, including high school students, to help solve those problems where they exist in the community.

(d) The State of California can encourage high schools to promote volunteerism in service organizations by recognizing the unique contributions high school students have made to the community. This recognition can occur through the Willie L. Brown, Jr. Community Service Scholarship Program, as established under this act.

SEC. 2 Article 11.5 (commencing with Section 69730) is added to Chapter 2 of Part 42 of the Education Code, to read:

Article 11.5. Willie L. Brown, Jr. Community Service Scholarship Program

69730. There is hereby established the Willie L. Brown, Jr. Community Service Scholarship Program, the purpose of which shall be to reward pupils for volunteering to serve their communities, to address serious social and economic community needs, and to increase the tendency of youth to be involved in public service. The program shall be administered by the Student Aid Commission. Pursuant to that authority, the commission shall do all of the following.

(a) Provide information regarding the program to each school district in this state. Any public high school of this state, other than any continuation or alternative high school, may participate in the program upon request. Each participating high school shall provide adequate notice to its pupils of the availability of the scholarships authorized under this article.

(b) Establish a model scholarship application form of no more than one page in length, requiring no more than 25 data elements, and provide copies of that application form to all participating high schools. Participating high schools may use either the model form or their own scholarship application form. Scholarship funds to be awarded pursuant to this article shall be provided without regard to the requirements otherwise set forth in this chapter.

(c) Conduct periodic reviews in order to ensure that the selection of scholarship recipients is conducted in compliance with this article.

69731. (a) At least one scholarship under this article shall be made available each year to each high school participating in the program to award to a pupil who is enrolled in that high school. One additional scholarship shall be available each year to each participating high school for each 1,000 pupils enrolled in that school in excess of 1,000 pupils.

(b) Each participating high school shall establish and maintain a community service scholarship committee that consists of the following persons:

(1) One full-time teacher employed by the school.

(2) One employee of the school who is a classified employee or pupil counselor, and who has contributed to the academic or personal development of high school pupils. In the event that no person meets those qualifications, the principal of the school shall designate any other employee of the school to serve on the committee

(3) One parent of any pupil who is enrolled in the high school but is not an applicant for a scholarship under this article.

(4) Two representatives from community organizations or agencies, as described in subdivision (c).

(c) Scholarships made available to the participating high school shall be awarded by the community service scholarship committee to pupil applicants determined by a majority vote of the membership

of the committee to have made significant contributions to the community through community service. For the purposes of this article, "community service" means volunteer work for any nonprofit organization that meets the description set forth in paragraph (3) of subdivision (c) of Section 501 of Title 26 of the United States Code, or for any other community service agency or organization that is nonprofit, nonpartisan, and nonsectarian, which work is performed to further purposes of education, environmental quality, health care, local, state, or federally funded public assistance, public safety crime prevention or control, transportation, recreation, housing and neighborhood improvement, rural development, conservation, child care, senior citizens' quality of life, outdoor beautification, or any other purpose of human betterment and community improvement. In the event that the community service scholarship committee determines that the number of applicants who qualify for a scholarship under this subdivision exceeds the number of scholarships available to the high school under this article, the committee shall apply the following additional criteria in order to select scholarship recipients:

(1) The applicant's financial status, including his or her ability to finance a college education.

(2) The extent to which the applicant's capacity to provide volunteer service has been limited by the applicant's other extracurricular activities, summer or part-time employment, or responsibilities to his or her family.

(3) Whether the applicant would be the first member of his or her immediate family to attend an institution of higher education.

(d) Each scholarship awarded shall be for a period of one year, subject to the requirement that no scholarship funding shall be payable as to any academic term in which the recipient fails to both maintain a course load of at least six semester units or the equivalent and meet or exceed the institution's standards for satisfactory academic progress.

(e) No later than June 15 of each year, the community service scholarship committee of each participating high school shall notify the Student Aid Commission of the names of the scholarship recipients selected by the committee, or, alternatively, that no pupil applicants were determined by the committee to qualify for a scholarship pursuant to subdivision (c). No later than August 15 of that year, the commission shall provide funding for the subsequent academic year for each scholarship awarded pursuant to this section, in an amount equal to the amount of the undergraduate student fees charged for that school year by the University of California, except that no such allotment shall be in an amount of less than one thousand five hundred dollars ($1,500).

(f) Scholarship funding provided under this article may be applied to educational costs incurred by the recipient pursuant to his or her attendance at an institution of higher education. Those costs may include, but are not necessarily limited to, tuition, fees,

instructional materials, and room and board.

(g) Scholarships shall be funded under this article to the extent funds are made available for that purpose.

(h) This article shall not be construed to prevent any participating high school or pupil from seeking private or other funding sources to supplement the amount of any scholarship or scholarships awarded under this article. Any scholarship or scholarships awarded under this article shall augment, and not supplant, student financial aid from other sources.

69732. Each applicant for a scholarship under this article shall meet all of the following qualifications:

(a) Is maintaining satisfactory educational progress, as defined in Section 35160.5.

(b) Has provided volunteer service to one or more community organizations or agencies, as described in subdivision (c).

(c) Is eligible to graduate from high school in the school year in which the application is made.

(d) Intends to attend an institution of higher education in California during the subsequent school year, and to maintain a course load of at least six semester units or the equivalent.

(e) Is a resident of California.

69733. No later than September 1, 1991, and annually thereafter, the Student Aid Commission shall submit to the education policy and fiscal committees of the Legislature a report that specifies, but is not necessarily limited to, the number of high schools, scholarship applicants, and scholarship recipients who, in the prior school year, participated in the program set forth in this article.

SEC. 3. This bill shall become operative on July 1, 1990.

CHAPTER 1189

An act to add and repeal Section 11487.5 of the Welfare and Institutions Code, relating to public assistance.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

SECTION 1. Section 11487.5 is added to the Welfare and Institutions Code, to read:

(1) If the county's error rate is below the statewide average, the county shall be reimbursed for all necessary administrative costs

incurred to make a recovery of overpayments under Section 11004, not to exceed the state's share of the overpayments recovered by the county.

(2) (A) If the county's error rate is above the state average, the county may do either of the following:

(i) Retain only the county share of the recovered grant payment.

(ii) Be reimbursed for all necessary administrative costs incurred to make a recovery of overpayments under Section 11004, not to exceed the state's share of the overpayments recovered, and dedicate all of these reimbursements to support eligibility functions.

(B) For purposes of this paragraph, "eligibility functions" means intake, continuing eligibility, and quality control activities.

(b) On or before January 30, 1992, the department shall report to the appropriate committees of the Legislature on the implementation of this section.

(c) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

The people of the State of California do enact as follows:

SECTION 1. Section 19596.1 is added to the Business and Professions Code, to read:

19596.1. Notwithstanding any other provision of law, the board may authorize an association conducting a race meeting to accept wagers on the results of out-of-state harness or quarter horse feature races or stake races, and, with the board's approval and with the concurrence of the horsemen's organization contracting with the association, other designated harness or quarter horse races during the period it is conducting the racing meeting on days and nights when live races are being run, if the following conditions are met:

(c) Any other association may pay to the horsemen's organization contracting with the association with respect to the conduct of racing meetings for administrative expense and services rendered to horsemen an amount out of the portion as may be determined by the association by agreement or otherwise, but, in all events, shall include, relative to a thoroughbred horsemen's organization, 1 percent of the portion for a pension plan for backstretch personnel to be administered by the horsemen's organization. The remainder of the portion shall be distributed as purses.

(d) Notwithstanding subdivisions (b) and (c), any association conducting a fair racing meeting or conducting a mixed breed racing meeting shall pay to the horsemen's organizations contracting with the association with respect to the conduct of races for their respective breeds of horses at the meetings for administrative expense and services rendered to their respective horsemen those amounts out of the portion as determined by the horsemen's organization for the respective breeds with the approval of the board. The amount to be distributed as purses or commissions for any race meet under this subdivision shall be based on respective parimutuel pools during the previous corresponding meeting, if any.

Pursuant to this subdivision, amounts equivalent to 3 percent of the portion for the horsemen's organization shall be distributed to any thoroughbred horsemen's organizations contracting with an association for a fair racing meeting or participating in mixed breed racing meetings as follows: 1 percent for administrative expenses and services rendered to their respective horsemen, 1 percent for welfare funds, and 1 percent for a pension program for backstretch personnel, to be administered by the thoroughbred horsemen's organizations.

(e) Any association other than a fair which conducts a quarter horse racing meeting, except a mixed breed meeting, shall pay to the horsemen's organization contracting with the association with respect to the conduct of racing meetings for administrative expense and services rendered to horsemen an amount equivalent to 2.5 percent of the portion. The remainder of the portion shall be distributed as purses.

(f) For racing meetings other than thoroughbred meetings, if no contract has been signed between the association conducting the racing meeting and the organization representing the horsemen by the time the racing meeting commences, the distribution of purses shall be governed by the following:

(1) If the association conducted a racing meeting within the past 15 months and a contract was in existence for that meeting with the horsemen's organization and the association is conducting a subsequent meeting for the same breed or mixed breeds, the

amounts payable to the horsemen's organization under subdivision (c) shall be computed under the provisions of the last signed contract between the parties.

(2) This subdivision applies regardless of the cause of the failure to execute a contract, whether that failure is a result of inadvertence or otherwise.

(3) For racing meetings which do not come within paragraph (1), the board shall, within 15 days after the commencement of the racing meeting, determine the amounts payable to the horsemen's organization for administrative expenses and services, and provide for the direct payment of those amounts.

CHAPTER 14.5. LOW-INCOME HOUSING POLICY

50860. The Legislature finds and declares that California continues to experience a critical shortage of housing. The Legislature reaffirms that the subject of housing, including housing for lower income households, is of statewide importance to the health, safety, and welfare of the residents of this state and that the attainment of the goal of a decent home and suitable living environment for every California family is a priority of the highest order.

The Legislature finds and declares that governmental actions and policies, including those of local governments, which significantly impede the attainment of this goal are a matter of statewide concern and contrary to state policy.

50861. (a) The Legislature finds and declares all of the following:

(1) There are limited state resources for the purposes of assisting the attainment of the state's housing goal.

(2) It is the policy of the state to apply those resources in order that they achieve maximum benefit, and to facilitate rather than impede efforts to provide housing opportunities for lower income households within communities where this housing has not historically been provided.

(3) Most housing for lower income households is provided by the private sector and the state's limited resources available to assist in the provision of housing for lower income households should be targeted to enhance and complement the provision of this type of housing by the private sector.

(4) It is local government's critical role to assist in attaining the state's housing goal by assuring that local governmental policies encourage the provision of housing for lower income households.

(5) Local governments shall administer their regulatory policies in a manner to encourage the production and availability of housing, especially housing for lower income persons and households, in order to assist in attainment of the state's housing goal and the purposes of this division and to carry out the intent of Article 10.6 (commencing with Section 65580) of Chapter 3 of Division 1 of Title 7 of the Government Code.

(b) It is the Intent of the Legislature to enact future legislation to take effect on or after January 1, 1992, to ensure that funds made available pursuant to Proposition 77 and Proposition 84 shall be administered in a manner that encourages the efficient use of revenues, and that priority shall be given to projects and programs proposed for a city, county, or city and county which administers its regulatory policies in a manner which, taken as a whole, encourages

and facilitates the production and the availability of housing for lower income households. The Legislature further intends to facilitate rather than impede efforts to provide housing opportunities for lower income households within communities where this housing has not historically been provided.

(c) For purposes of developing a standard and procedure for making the determinations to be required pursuant to subdivision (b):

(1) The department shall require from all local agencies applying for funds under Propositions 77 and 84 to submit, as part of its application after July 1, 1990, a report on the actions it is taking to implement its housing element, including policies or programs especially targeted towards providing housing for lower income households. All other applicants shall be required to request a similar report from the locality in which the housing is to be provided.

(2) The Legislative Analyst, subject to sufficient funding, shall review the housing element reports and any other materials the Legislative Analyst deems appropriate in order to submit a report to the Legislature and the Governor on or before July 1, 1991. The report shall discuss alternative methodologies for determining a locality's substantial progress toward implementing its housing elements, including, but not limited to, meeting its regional share of lower income housing. The department shall make all housing element reports available to the Legislative Analyst.

(3) The department shall not utilize the report from any city, county, or city and county in evaluating its application prior to January 1, 1992.

(d) This chapter shall remain in effect only until January 1, 1992, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1992, deletes or extends that date.

50862. This chapter shall only apply to assistance allocated for projects for which applications are submitted after January 1, 1991.

CHAPTER 1194

An act to amend Section 17980.7 of, and to add Section 17980.8 to, the Health and Safety Code, relating to landlord-tenant relations.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 17980.7 of the Health and Safety Code is amended to read:

17980.7. If the owner fails to comply with the terms of the order or notice pursuant to Section 17980.6, the following provisions shall apply:

(a) The enforcement agency may seek and the court shall order imposition of the penalties provided for under Chapter 6 (commencing with Section 17995).

(b) The enforcement agency may seek and the court may order the owner to not claim any deduction with respect to state taxes for interest, taxes, expenses, depreciation, or amortization paid or incurred with respect to the cited structure, in the taxable year of the initial order or notice, in lieu of the enforcement agency processing a violation in accordance with Sections 17274 and 24436.5 of the Revenue and Taxation Code.

If the owner fails to comply with the terms of the order or notice to correct the condition that caused the violation pursuant to subdivision (a) of Section 17980.5, the court may order the owner to not claim these tax benefits for the following year.

(c) If the court finds that a building is in a condition which substantially endangers the health and safety of residents pursuant to subdivision (a) of Section 17980.6, upon the entry of any order or judgment the court shall do all of the following:

(1) Order the owner to pay all reasonable and actual costs of the enforcement agency including, but not limited to, inspection costs, investigation costs, enforcement costs, attorney fees or costs, and all costs of prosecution.

(2) Order that the local enforcement agency shall provide the tenant with notice of the court order or judgment.

(3) (A) Order that if the owner undertakes repairs or rehabilitation as a result of being cited for a notice under this chapter, and if the conditions of the premises or the repair or rehabilitation thereof significantly affect the safe and sanitary use of the premises by any lawful tenant, such that the tenant cannot safely reside in the premises, then the owner shall provide or pay relocation benefits to each lawful tenant. These benefits shall consist of actual reasonable moving and storage costs and relocation compensation. The actual moving and storage costs shall consist of all of the following:

(i) Transportation of the tenant's personal property to the new location. The new location shall be in close proximity to the substandard premises, except where relocation to a new location beyond a close proximity is determined by the court to be justified.

(ii) Packing, crating, unpacking, and uncrating the tenant's personal property.

(iii) Insurance of the tenant's property while in transit.

(iv) The reasonable replacement value of property lost, stolen, or damaged (not through the fault or negligence of the displaced person, his or her agent or employee) in the process of moving, where insurance covering such loss, theft, or damage is not reasonably available.

(v) The cost of disconnecting, dismantling, removing, reassembling, reconnecting, and reinstalling machinery, equipment, or other personal property of the tenant, including connection

charges imposed by utility companies for starting utility service.

The relocation compensation shall be an amount equal to the differential between the contract rent and the fair market rental value determined by the federal Department of Housing and Urban Development for a unit of comparable size within the area for the period that the unit is being repaired, not to exceed 120 days.

If the court finds that a tenant has been substantially responsible for causing or substantially contributing to the substandard conditions, then the relocation benefits of this section shall not be paid to this tenant. Each other tenant on the premises who has been ordered to relocate due to the substandard conditions and who is not substantially responsible for causing or contributing to the conditions shall be paid these benefits and moving costs at the time that he or she actually relocates.

(B) Determine the date when the tenant is to relocate, and order the tenant to notify the enforcement agency and the owner of the address of the premises to which he has relocated within five days after the relocation.

(C) Order that the owner shall offer the first right to occupancy of the premises to each tenant who received benefits pursuant to subparagraph (A), before letting the unit for rent to a third party. The owner's offer on the first right to occupancy to the tenant shall be in writing, and sent by first-class certified mail to the address given by the tenant at the time of relocation. If the owner has not been provided the tenant's address by the tenant as prescribed by this section, the owner shall not be required to provide notice under this section or offer the tenant the right to return to occupancy.

The tenant shall notify the owner in writing that he or she will occupy the unit. The notice shall be sent by first-class certified mail no later than 10 days after the notice has been mailed by the owner.

(4) Order that failure to comply with any abatement order under this chapter shall be punishable by civil contempt, penalties under Chapter 6 (commencing with Section 17995), and any other penalties and fines as are available.

(d) The initiation of a proceeding or entry of a judgment pursuant to this section or Section 17980.6 shall be deemed to be a "proceeding" or "judgment" as provided by paragraph (4) or (5) of subdivision (a) of Section 1942.5 of the Civil Code.

(e) The term "owner," for the purposes of this section, shall include the owner, including any public entity that owns residential real property, at the time of the initial notice or order and any successor in interest who had actual or constructive knowledge of the notice, order, or prosecution.

(f) These remedies shall be in addition to any other remedies provided by law.

(g) Nothing in this section or in Section 17980.6 shall impair the rights of an owner exercising his or her rights established pursuant to Chapter 12.75 (commencing with Section 7060) of Division 7 of Title 1 of the Government Code.

SEC. 2. Section 17980.8 is added to the Health and Safety Code, to read:

17980.8. An enforcement agency which properly declares any dwelling a nuisance and, using the notice requirements and procedures specified in Subchapter 1 (commencing with Section 1) of Chapter 1 of Part 1 of Title 25 of the California Code of Regulations, confirms the declaration by resolution of its governing board shall be deemed to have acquired jurisdiction to abate the nuisance by repairing or causing to have repairs made to the property, by razing or removing the dwelling or in any other way causing the nuisance to be abated.

(b) The enforcement agency shall keep an itemized account of all of the expenses involved in abating the nuisance, including the razing or removing of the dwelling. The enforcement agency shall cause to be posted conspicuously on the property from which the nuisance was abated, repairs made or from which the dwelling was razed or removed, an expense statement. This statement shall be verified by the officer of the enforcement agency in charge of doing the work, showing the reasonable gross and net expense of the abatement actions taken by the agency, including the expense of inspections; repairs, if any; the cost of the razing or removing of the building, if applicable; and any other costs of abatement, together with a notice of the time and place when and where the statement shall be submitted to the governing board of the enforcement agency for approval and confirmation. In addition to being posted on the property, this statement shall be sent by certified mail to each owner and other interested party, as specified in Subchapter 1 (commencing with Section 1) of Chapter 1 of Part 1 of Title 25 of the California Code of Regulations.

(c) At the meeting noticed pursuant to subdivision (b), the governing board shall consider any objections or protests, if any, which may be raised by the property owner liable to be assessed for the cost of such work, or by any other interested persons. If the governing board confirms the statement of costs of abatement, those costs shall be the obligation of each owner of the property to pay to the public entity which has incurred them.

(d) Notwithstanding any other provision of law, any hearing required under this section shall be conducted in accordance with requirements adopted by the enforcement agency that are in substantial compliance with those contained in Chapter 13 (commencing with Section 1301), or the successor provisions to that chapter, of the most recent edition of the Uniform Housing Code of the International Conference of Building Officials.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1195

An act to amend Section 24202 of, and to add Section 25375 to, the Business and Professions Code, and to amend Sections 11470, 11473, 11488, 11488.4, 11488.5, and 11489 of, and to add Section 11471.1 to, the Health and Safety Code, relating to controlled substances, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 24202 of the Business and Professions Code is amended to read:

24202. (a) All state and local law enforcement agencies shall immediately notify the department of any arrests made by them for violations over which the department has jurisdiction which involve a licensee or licensed premises. The department shall promptly cause an investigation to be made as to whether grounds exist for suspension or revocation of the license or licenses of the licensee.

(b) The department may not open or add an entry to a file or initiate an investigation of a licensee or suspend or revoke a license (1) solely because the licensee or an agent acting on behalf of the licensee has reported to a state or local law enforcement agency that suspected controlled substance violations have taken place on the licensed premises or (2) solely based on activities constituting violations described in such a report, unless the violations reported occurred with the actual knowledge and willful consent of the licensee.

SEC. 1.2. Section 25375 is added to the Business and Professions Code, to read:

25375. (a) Upon 10 days notice to a person who holds a license described in this division, the Attorney General or a district attorney shall seek an order from the superior court for the seizure of a license described in this division for purposes of seeking forfeiture of the license pursuant to Sections 11470 to 11492, inclusive, of the Health and Safety Code. From the time of notice until the hearing to establish probable cause, as provided by this section, the license may not be sold or transferred. The 10-day period may be extended by the court for good cause or upon the stipulation of the parties.

(b) A petition for forfeiture pursuant to Section 11488.4 of the Health and Safety Code shall be filed within 10 days of the service

of notice pursuant to this section.

(c) At the hearing, the Attorney General or district attorney shall establish probable cause that the license is subject to forfeiture pursuant to Section 11470 of the Health and Safety Code. The showing of probable cause may be established by deposition, affidavit, declaration, prior judicial testimony, or other evidence. The licensee may produce evidence to refute the showing of probable cause.

(d) If the court determines there is probable cause that the license is subject to forfeiture, it shall issue an order for its seizure by any peace officer within its jurisdiction.

(e) If probable cause is not established at the hearing, or if the hearing is neither held within the 10-day period nor continued for good cause or by stipulation of the parties, the prohibition against the sale or transfer of the license shall immediately cease and the petition for forfeiture shall be dismissed.

(f) Immediately upon seizure of the license, the peace officer shall surrender the license to the department by certified mail, along with written notice to the department of the seizure and intention to seek the initiation of forfeiture proceedings. No person who holds any interest in a license shall exercise any privileges of that license after it has been seized and during the time it is surrendered to the department pursuant to this subdivision.

However, if the licensee appears and in any manner contest the showing of probable cause required by this subdivision, the licensee shall be barred from bringing a motion pursuant to paragraph (2) of subdivision (g) of Section 11488.4 of the Health and Safety Code.

(g) Notwithstanding Article 5 (commencing with Section 23090) of Chapter 1.5 of this division, the Attorney General or a district attorney may seek a pendente lite order as provided in Section 11492 of the Health and Safety Code or Section 186.6 of the Penal Code relating to the custody, right, title, interest, and exercise of rights and privileges as related to a license described in this division which is the subject of a forfeiture proceeding pursuant to Section 11488.4 of the Health and Safety Code or Section 186.4 of the Penal Code.

(h) Rights and privileges related to any license which is the subject of a forfeiture proceeding and which has been seized and surrendered to the department pursuant to this section may be exercised solely by a receiver appointed pursuant to Section 11492 of the Health and Safety Code or Section 186.6 of the Penal Code. No license, rights, or privileges of a license may be exercised by a receiver until that person has been found qualified to hold a license in his or her own right by the department pursuant to this division and the license has been issued to the custody of the receiver. Chapter 6 (commencing with Section 23950) of this division does not apply to a receiver appointed pursuant to this paragraph. Any receiver appointed pursuant to Section 11492 of the Health and Safety Code or Section 186.6 of the Penal Code who exercises privileges of a license issued to his or her custody shall be subject to

disciplinary proceedings and may have the license suspended or revoked in the same manner as if he or she were licensed directly pursuant to this division.

(i) Upon the entry of a judgment of forfeiture pursuant to Section 11488.5 of the Health and Safety Code or Section 186.6 of the Penal Code, or a declaration of forfeiture pursuant to subdivision (j) of Section 11488.5 of the Health and Safety Code forfeiting a license described in this division, the state or local government entity shall sell and transfer the license in accordance with Chapter 6 (commencing with Section 23950) of this division. The proceeds of that sale and transfer shall be allocated as specified in Section 11489 of the Health and Safety Code or Section 186.8 of the Penal Code, as appropriate.

(j) Any alcoholic beverage which is the subject of a judgment of forfeiture pursuant to Section 11488.5 of the Health and Safety Code or Section 186.7 of the Penal Code, or a declaration of forfeiture pursuant to subdivision (i) of Section 11488.4 of the Health and Safety Code may be sold, transferred, and delivered by the state or local governmental entity, as specified in Section 11489 of the Health and Safety Code or Section 186.8 of the Penal Code, to a person licensed to sell that type of alcoholic beverage pursuant to this division.

SEC. 1.3. Section 11470 of the Health and Safety Code, as amended by Section 1 of Chapter 1492 of the Statutes of 1988, is amended to read:

11470. The following are subject to forfeiture:

(a) All controlled substances which have been manufactured, distributed, dispensed, or acquired in violation of this division.

(b) All raw materials, products and equipment of any kind which are used, or intended for use, in manufacturing, compounding, processing, delivering, importing, or exporting any controlled substance in violation of this division.

(c) All property except real property or a boat, airplane, or any vehicle which is used, or intended for use, as a container for property described in subdivision (a) or (b).

(d) (1) All books, computers, records, and research products and materials, including formulas, microfilm, tapes, data, computer programs, and software which are used, or intended for use, in violation of this division.

(2) Any firearm or other weapon, device, or ammunition subject to Title 2 (commencing with Section 12000) of Part 4 of the Penal Code which is used in any manner to facilitate or which is possessed or used in the commission of a violation of this division.

(e) (1) The interest of any registered owner of a boat, airplane, or any vehicle, which has been used in any manner to facilitate the possession for sale or sale of 7.125 grams or more of a substance containing either heroin or cocaine base, as specified in paragraph (1) of subdivision (f) of Section 11054, or 14.25 grams or more of a substance containing a Schedule I controlled substance except marijuana, peyote, or psilocybin; five pounds dry weight or more of

marijuana, peyote, or psilocybin; or 14.25 grams or more of a substance containing cocaine, as specified in paragraph (6) of subdivision (b) of Section 11055, or methamphetamine; or 14.25 grams or more of a substance containing a Schedule II controlled substance. However, an interest not to exceed ten thousand dollars ($10,000) in a vehicle which may be lawfully driven on the highway with a class 3 or 4 license, as prescribed in Section 12804 of the Vehicle Code, which is a community property asset of a person who is a registered owner of the vehicle other than the person whose conduct renders the vehicle subject to forfeiture, and which is the sole class 3 or 4 vehicle available to that registered owner's immediate family, shall not be subject to forfeiture. The exemption from forfeiture provided by this subdivision shall not apply if pursuant to subdivision (e) of Section 11488.5 the trier of fact finds the person claiming the exemption knew or should have known of the unlawful use of the property.

(2) The interest of any person in a license described in Section 23393, 23394, or 23396 of the Business and Professions Code when the licensed premises were used or intended to be used, with the actual knowledge and willful consent of the licensee, to facilitate any violation of Sections 11351, 11351.5, 11355, 11359, 11360, 11378, 11378.5, 11379, 11379.5, 11379.6, and 11382 of this code, or Section 182 of the Penal Code, insofar as the offense involves the manufacture, sale, possession for sale, offer for sale, or offer to manufacture, a controlled substance, or conspiracy to commit at least one of those offenses.

(f) All moneys, negotiable instruments, securities, or other things of value furnished or intended to be furnished by any person in exchange for a controlled substance, all proceeds traceable to such an exchange, and all moneys, negotiable instruments, or securities, which were used or intended to be used to facilitate any violation of Section 11351, 11351.5, 11352, 11355, 11359, 11360, 11378, 11378.5, 11379, 11379.5, 11379.6, or 11382 of this code, or Section 182 of the Penal Code, insofar as the offense involves manufacture, sale, possession for sale, offer for sale, or offer to manufacture, or conspiracy to commit at least one of those offenses, if the exchange, violation, or other conduct which is the basis for the forfeiture occurred within five years of the seizure of the property, or the filing of a petition under this chapter, or the issuance of an order of forfeiture of the property, whichever comes first.

(g) Real property related to a violation, whether charged or not, of Section 11366, 11366.5, 11366.6, or 11379.6. However, an interest not to exceed one hundred thousand dollars ($100,000) in real property which is used as a family residence and which is owned by two or more persons shall not be subject to forfeiture. The exemption from forfeiture provided by this subdivision shall not apply if pursuant to subdivision (e) of Section 11488.5 the trier of fact finds the person claiming the exemption knew or should have known of the unlawful use of the property.

(h) All right, title, and interest in any property described in this

section shall vest in the state upon commission of the act giving rise to forfeiture under this chapter.

The operation of the special vesting rule established by this subdivision shall be limited to circumstances where its application will not defeat the claim of any person, including a bona fide purchaser or encumbrancer who, pursuant to Section 11488.5 or 11488.6, establishes an interest in the property seized, which interest arose prior to the seizure or the filing of the petition for forfeiture pursuant to this chapter, whichever occurs first, notwithstanding that the interest in the property being claimed was acquired from a person whose property interest would otherwise have been subject to divestment pursuant to this subdivision.

SEC. 1.4. Section 11471.1 is added to the Health and Safety Code, to read:

11471.1. (a) Notwithstanding any other provision of this division, a license described in Section 23393, 23394, or 23396 of the Business and Professions Code which is subject to forfeiture under this division may be seized by any peace officer only pursuant to the order of a court issued pursuant to Section 25375 of the Business and Professions Code.

SEC. 1.5. Section 11473 of the Health and Safety Code, as amended by Section 3 of Chapter 1492 of the Statutes of 1988, is amended to read:

11473. Except as provided in Section 11473.3, all seizures under provisions of this chapter, except seizures of vehicles, boats, or airplanes, as specified in subdivision (e) of Section 11470, or seizures of moneys, negotiable instruments, securities, or other things of value as specified in subdivisions (c), (d), and (f) of Section 11470, shall, upon conviction of the owner or defendant, be ordered destroyed by the court in which conviction was had.

SEC. 2. Section 11488 of the Health and Safety Code, as amended by Section 7 of Chapter 1492 of the Statutes of 1988, is amended to read:

11488. (a) Any peace officer of this state, incident or subsequent to making or attempting to make an arrest for a violation of Section 11351, 11351.5, 11352, 11355, 11359, 11360, 11378, 11378.5, 11379, 11379.5, 11379.6, 11382, or 11383 of this code, or Section 182 of the Penal Code insofar as the offense involves manufacture, sale, purchase for the purpose of sale, possession for sale or offer to manufacture or sell, or conspiracy to commit one of those offenses, may seize any item subject to forfeiture under Section 11470.

(b) The peace officer shall notify the Franchise Tax Board of a seizure where there is reasonable cause to believe that the value of the seized property exceeds five thousand dollars ($5,000).

(c) Receipts for property seized pursuant to this section shall be delivered to any person out of whose possession such property was seized, in accordance with Section 1412 of the Penal Code. In the event property seized was not seized out of anyone's possession, receipt for the property shall be delivered to the individual in

possession of the premises at which the property was seized or, if the individual is not present on the premises, the receipt shall be left in a prominent place at the premises.

(d) There shall be a presumption affecting the burden of proof that the person to whom a receipt for property was issued is the owner thereof. This presumption may, however, be rebutted at the forfeiture hearing specified in Section 11488.5.

SEC. 3. Section 11488.4 of the Health and Safety Code, as amended by Section 9 of Chapter 1492 of the Statutes of 1988, is amended to read:

11488.4. (a) Except as provided in subdivision (j), if the Department of Justice or the local governmental entity determines that the factual circumstances do warrant that the moneys, negotiable instruments, securities, or other things of value seized or subject to forfeiture come within the provisions of subdivisions (a) to (g), inclusive, of Section 11470, and are not automatically made forfeitable or subject to court order of forfeiture or destruction by another provision of this chapter, the Attorney General or district attorney shall file a petition of forfeiture with the superior court of the county in which the property subject to forfeiture has been seized or, if no seizure has occurred, in the county in which the property subject to forfeiture is located. If the petition alleges that real property is forfeitable, the prosecuting attorney shall cause a lis pendens to be recorded in the office of the county recorder of each county in which the real property is located.

A petition of forfeiture under this subdivision shall be filed within one year of the seizure of the property which is subject to forfeiture, or within one year of the filing by the Attorney General or district attorney of a lis pendens or other process against the property, whichever is earlier.

(b) Physical seizure of assets shall not be necessary in order to have that particular asset alleged to be forfeitable in a petition under this section. The prosecuting attorney may seek protective orders for any asset pursuant to Section 11492.

(c) The Attorney General or district attorney shall make service of process regarding this petition upon every individual designated in a receipt issued for the property seized. In addition, the Attorney General or district attorney shall cause a notice of the seizure, if any, and of the intended forfeiture proceeding, as well as a notice stating that any interested party may file a verified claim with the superior court of the county in which the property was seized or if the property was not seized, a notice of the initiation of forfeiture proceedings with respect to any interest in the property seized or subject to forfeiture, to be served by personal delivery or by certified mail upon any person who has an interest in the seized property or property subject to forfeiture other than persons designated in a receipt issued for the property seized.

(d) The Attorney General, district attorney, or law enforcement agency which made the seizure shall make an investigation into any

right, title, interest, or lien of record with the Department of Motor Vehicles or appropriate federal agency as to a vehicle, boat, or airplane. If the investigation discloses that any person, other than the registered owner, is the legal owner thereof, and such ownership did not arise subsequent to the date and time of arrest or notification of the forfeiture proceedings or seizure of the vehicle, boat, or airplane, the Attorney General or district attorney shall forthwith send a notice to the legal owner at his or her address appearing on the records of the Department of Motor Vehicles or appropriate federal agency.

(e) When a forfeiture action is filed, the notices shall be published once a week for three successive weeks in a newspaper of general circulation in the county where the seizure was made or where the property subject to forfeiture is located.

(f) All notices shall set forth the time within which a claim of interest in the property seized or subject to forfeiture is required to be filed pursuant to Section 11488.5.

(g) (1) No sooner than 10 days after a petition is filed pursuant to Section 11488.4, a claimant, who alleges standing based on an interest in the property which arose prior to the seizure or filing of the petition for forfeiture, whichever occurs first, may move the court for the return of the property named in the claim on the grounds that there is not probable cause to believe that the property is subject to forfeiture pursuant to Section 11470, or is not automatically forfeitable or subject to court order of forfeiture or otherwise subject to destruction by another provision of this chapter. The showing of probable cause may be supported by evidence, prior judicial testimony, deposition, affidavit, or declaration. If the court determines that there is not probable cause to believe that the property is subject to forfeiture it shall order the property returned to the owner thereof unless the property is otherwise lawfully held.

(2) If a petition is filed pursuant to Section 11488.4 and there is an underlying or related criminal action and the defendant has not pled guilty or nolo contendre, a defendant who is a claimant alleging an interest in the property in the related forfeiture proceeding shall move, exclusively pursuant to Section 1538.5 of the Penal Code, for the return of the property on the grounds that there is not probable cause to believe that the property is forfeitable pursuant to Section 11470, or is not automatically made forfeitable or subject to court order of forfeiture or destruction by another provision of this chapter.

The motion may be made at the preliminary examination or subsequent thereto If made subsequent to the preliminary examination, the Attorney General or district attorney may submit the record of the preliminary hearing to establish that probable cause exists to believe that the property is subject to forfeiture. If the court determines that there is not probable cause to believe that the property is subject to forfeiture it shall order the property returned to the owner thereof unless the property is otherwise lawfully held.

(h) Within 30 days after a motion for return of property is granted pursuant to subdivision (g), the people may file a petition for writ of mandate or prohibition seeking appellate review of the order.

(i) Except as provided in subdivision (j) of Section 11488.4 and paragraph (1) of subdivision (b) of Section 11488.5, the state or local government entity shall have the burden of proving by a preponderance of the evidence that the property is subject to forfeiture as described in Section 11470.

A judgment of forfeiture does not require as a condition precedent thereto, that any defendant be convicted of an offense which made the property subject to forfeiture provided that the offense occurred within five years of the seizure of the property or within five years of the notification of intention to seek forfeiture. If there is a related criminal action, the issue of forfeiture may be tried in conjunction therewith by agreement of all parties. Trial shall be by jury unless waived by all parties. If there is no related criminal action, the presiding judge of the superior court shall assign the action brought pursuant to this chapter for trial.

(j) The Attorney General or the district attorney of the county in which property is subject to forfeiture under Section 11470 may, pursuant to this subdivision, order forfeiture of personal property not exceeding one hundred thousand dollars ($100,000) in value. The Attorney General or district attorney shall provide notice of proceedings under this subdivision pursuant to subdivisions (c), excluding the provision relating to service of process regarding the petition, (d), (e), and (f), including:

(1) A description of the property.

(2) The appraised value of the property.

(3) The date and place of seizure or location of any property not seized but subject to forfeiture.

(4) The violation of law alleged with respect to forfeiture of the property.

(5) The instructions for filing a claim with the superior court pursuant to Section 11488.5 and time limits for filing a claim. If no claims are timely filed, the Attorney General or the district attorney shall prepare a written declaration of forfeiture of the subject property to the state and dispose of the property in accordance with Section 11489. A written declaration of forfeiture signed by the Attorney General or district attorney under this subdivision shall be deemed to provide good and sufficient title to the forfeited property.

The prosecuting agency ordering forfeiture pursuant to this subdivision shall provide a copy of the declaration of forfeiture to any person listed in the receipt given at the time of seizure and to any person personally served notice of the forfeiture proceedings.

If a claim is timely filed and served, then the Attorney General or district attorney shall file a petition of forfeiture pursuant to this section within 30 days of the receipt of the claim. The petition of forfeiture shall then proceed pursuant to other provisions of this chapter, except that no additional notice need be given and no

additional claim need be filed.

SEC. 4. Section 11488.5 of the Health and Safety Code, as amended by Section 11 of Chapter 1492 of the Statutes of 1988, is amended to read:

11488.5. (a) (1) Any person claiming an interest in the property seized pursuant to Section 11488 may, at any time within 30 days from the date of the first publication of the notice of seizure, if that person was not personally served or served by mail, or within 10 days after receipt of actual notice, file with the superior court of the county in which the property was seized or, if there was no seizure, in which the property is located, a verified claim stating the nature of his or her interest in the property. An endorsed copy of the claim shall be served by the claimant on the Attorney General or district attorney, as appropriate, within 10 days of the filing of the claim. The Judicial Council shall develop and approve official forms for the verified claim that is to be filed pursuant to this section. The official forms shall be drafted in nontechnical language and shall be made available through the office of the clerk of the appropriate court.

(2) Any person who claims that the property was assigned to him or to her prior to the seizure or notification of pending forfeiture of the property under this chapter, whichever occurs first, shall file a claim with the court and prosecuting agency pursuant to Section 11488.5 declaring an interest in that property and such interest shall be adjudicated at the forfeiture hearing. The property shall remain under control of the law enforcement or prosecutorial agency until the adjudication of the forfeiture hearing.

(3) The claim of a law enforcement agency to property seized pursuant to Section 11488 or subject to forfeiture shall have priority over a claim to the seized or forfeitable property made by the Franchise Tax Board in a notice to withhold issued pursuant to Section 18817 or 26132 of the Revenue and Taxation Code.

(b) If, at the end of the time set forth in subdivision (a), there is no claim on file, the court, upon motion, shall declare the property seized or subject to forfeiture pursuant to Section 11470 forfeited to the state. In moving for a default judgment pursuant to this subdivision, the state or local governmental entity shall be required to establish a prima facie case in support of its petition for forfeiture.

(c) (1) If a verified claim is filed, the forfeiture proceeding shall be set for hearing on a day not less than 30 days therefrom, and the proceeding shall have priority over other civil cases. A claim shall not be admissible in the proceeding regarding the offense.

(2) The hearing shall be by jury, unless waived by consent of all parties.

(d) Forfeiture shall be ordered when, at the hearing, the state or local governmental entity has shown that the assets in question are subject to forfeiture pursuant to Section 11470, in accordance with the burden of proof set forth in subdivision (i) of Section 11488.4.

(e) The forfeiture hearing shall be continued upon motion of the prosecution or a claimant who is concurrently a defendant in a

related criminal proceeding until the charge in that proceeding has been resolved in the trial court or the defendant fails to appear. The forfeiture hearing shall be conducted in accordance with Sections 600 to 630, inclusive, of the Code of Civil Procedure if a trial by jury, and by Sections 631 to 636, inclusive, of the Code of Civil Procedure if by the court. Unless the court or jury finds that the seized property is subject to forfeiture pursuant to Section 11470, the court shall order the seized property released to the person it determines is entitled thereto.

(f) If the court or jury finds that the seized property was subject to forfeiture, and finds that a person claiming an interest therein knew or should have known of facts which made the property subject to forfeiture pursuant to Section 11470, the court shall order that the person's interest in the seized property be forfeited. If the court or jury does not make these findings, the court shall order that the person's interest in the property be returned. The state or local governmental entity shall have the burden of proving in accordance with the burden of proof set forth in subdivision (i) of Section 11488.4, that a person claiming an interest knew or should have known of facts which made the property subject to forfeiture pursuant to Section 11470.

(g) All seized property which was the subject of a forfeiture hearing and which was not released by the court to a claimant shall be declared by the court to be forfeited to the state. Except as provided in Sections 11473.2 and 11473.3, the clerk of the court shall dispose of the forfeited property as set forth in Section 11489. A judgment entered pursuant to this section is not subject to Section 473 of the Code of Civil Procedure.

(h) All seized property which was the subject of the forfeiture hearing and which was not forfeited shall remain subject to any order to withhold issued with respect to the property by the Franchise Tax Board.

SEC. 5. Section 11489 of the Health and Safety Code, as amended by Section 14 of Chapter 1492 of the Statutes of 1988, is amended to read:

11489. Notwithstanding Section 11502 and except as otherwise provided in Sections 11473, 11473.2, and 11473.3, in all cases where the property is seized pursuant to this chapter and forfeited to the state or local governmental entity and, where necessary, sold by the Department of General Services or local governmental entity, the money forfeited or the proceeds of sale, and any interest accrued thereon, shall be distributed by the state or local governmental entity as follows:

(b) The balance, if any, to accumulate, and to be distributed and transferred quarterly in the following manner:

(1) To the state agency or local governmental entity for all expenditures made or incurred by it in connection with the sale of the property, including expenditures for any necessary costs of notice required by Section 11488.4 and any necessary repairs, storage, or transportation of any property seized under this chapter.

Funds which are not deposited pursuant to the above paragraph shall be deposited into the Department of Justice Special Deposit Fund-Federal Asset Forfeiture Account.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1800 of the Financial Code, is amended and renumbered to read:

1800.3. (a) No person shall engage in the business of receiving money for the purpose of transmitting the same or its equivalent to foreign countries without first obtaining a license from the superintendent.

(b) This chapter shall not apply to any of the following:

(1) A bank, the deposits of which are insured by the Federal Deposit Insurance Corporation or its successor, or any foreign (other nation) bank which is licensed under Article 3 (commencing with Section 1750) of Chapter 13.5 or which is authorized under federal law to maintain a federal agency or federal branch office in this state.

(2) A trust company licensed pursuant to Section 401 or a national association authorized under federal law to engage in a trust banking business.

(3) An association or federal association, as defined in Section 5102 the deposits of which are insured by the Federal Savings and Loan Insurance Corporation or its successor.

(4) Any federally or state chartered credit union the member accounts of which are insured or guaranteed as provided in Section 14858.

(5) An industrial loan company or thrift and loan company, as defined in Section 18003, the investment certificates of which are insured by the Federal Deposit Insurance Corporation or its successor.

SEC. 2. Section 1800 is added to the Financial Code, to read:

1800. (a) It is the intent of the Legislature in enacting this chapter to protect the people of this state from being victimized by unscrupulous practices by persons receiving money for transmission to foreign countries and to establish a minimum level of fiscal responsibility and corporate integrity for all entities engaging in the business of receiving money for transmission to foreign countries without regard to the method of transmission.

(b) The Legislature finds and declares that California has a large and diverse population many of whom are concerned with the financial plight of people remaining in the countries which they left. Many of these people are not familar with the varied and intricate financial systems of this state and due to language barriers and other obstacles do not have access to entities offering legitimate money transmission services. In an effort to transmit money to their friends and relatives, these persons give their money to persons under the precept that the money or its equivalent will be immediately transmitted to the designated foreign country. The money is frequently misappropriated or never transmitted. The victims of

these practices are generally not aware of the law enforcement services available to help them, thus this unlawful conduct goes unreported.

SEC. 3. Section 1800.4 is added to the Financial Code, to read:

1800.4. (a) The receipt of money by an incorporated telegraph company, or its agents, for immediate transmission by telegraph to foreign countries shall be exempt from licensure under this chapter until July 1, 1990, provided each of the following conditions is satisfied.

(1) The company has applied before February 1, 1990, to the superintendent for licensure under this chapter.

(2) The company, and its agents, shall comply with and be subject to all applicable provisions of this chapter.

(3) The company directly, or through agents, on or before February 1, 1989, received money for immediate transmission by telegraph to foreign countries.

(b) The superintendent may extend the licensure exemption period provided in subdivision (a) once for up to 60 days for an applicant incorporated telegraph company in the event that the superintendent is unable to approve or deny the application before July 1, 1990, provided that the applicant incorporated telegraph company shall continue to comply with paragraphs (1) to (3), inclusive, of subdivision (a) during the extension period.

SEC. 4. Section 1800.5 of the Financial Code is amended to read:

1800.5. For the purposes of this chapter:

(a) (1) "Receiving money for transmission" means receiving money for the purpose of transmitting the same or its equivalent to foreign countries.

(2) Except as otherwise provided in paragraph (3), "receiving money for transmission" does not include selling any check, draft, money order, travelers check, or other instrument (whether or not negotiable) for the transmission or payment of money.

(b) "Transmission money" means money received in this state by a licensee for transmission to a foreign country, or any equivalent into which the money is converted, from the time the money is received for transmission to a foreign country until the time the transmission of the money in accordance with the agreement of the licensee with the customer is completed, or, if the transmission is not completed, until such time as the money is repaid to the customer.

(c) "Agent" means any person whom a licensee has appointed as

its agent with authority to receive transmission money on behalf of the licensee, provided that the licensee becomes liable for the transmission of the transmission money at the time when the transmission money is received by the person. (2) "Officer" has the meaning set forth in Section 33057.

SEC. 5. Section 1800.7 is added to the Financial Code, to read:

1800.7. (a) As used in this section, "designated person" means any agent, any applicant, the officers, directors, and controlling persons of any applicant or agent, and the directors and officers of the controlling persons of any applicant or agent.

(b) For the purposes of Sections 1802.2, 1803.5, and 1804, each of the following applies:

(1) The superintendent may, in the absence of the credible evidence to the contrary, presume that designated persons are each of good character and sound financial standing.

(E) Willfully committed any violation of, or has willfully aided, abetted, counseled, commanded, induced, or procured the violation by any other person of, any provision of this division or of any regulation or order issued under this division.

(3) Paragraph (2) shall not be deemed to be an exclusive list of grounds upon which the superintendent may find that a designated person is not of good character.

SEC. 6. Section 1800.9 is added to the Financial Code, to read:

1800.9. The superintendent may impose on any authorization, approval, license, or order issued pursuant to this chapter any conditions that he or she deems reasonable or necessary to the public

interest.

SEC. 7. Section 1801 of the Financial Code is repealed.

SEC. 8. Section 1801 is added to the Financial Code, to read:

1801. (a) Fees shall be paid to, and collected by, the superintendent, as follows:

(1) The fee for filing with the superintendent an application for a license is five thousand dollars ($5,000).

(2) The fee for filing with the superintendent an application for authorization to appoint an agent is seventy-five dollars ($75). This paragraph shall become inoperative as of July 1, 1991.

(c) The superintendent shall, not later than January 1, 1991, submit recommendations to the Legislature for the collection after July 1, 1991, of moneys in an amount that may be necessary to replace fees authorized by paragraph (2) of subdivision (a).

SEC. 9. Section 1801.1 is added to the Financial Code, to read:

1801.1. Each fiscal year the superintendent shall levy an assessment on a pro rata basis on those licensees which at any time

during the preceeding calendar year received transmission money. The total assessment levied on all of those licensees shall be in an amount which, when added to the fees that the superintendent collects during the fiscal year the assessment is levied, is sufficient to meet the expenses of the superintendent in administering this chapter and to provide a reasonable reserve for contingencies. The basis of the apportionment of the assessment among the licensees assessed shall be the proportion that the amount of transmission money received by the licensee bears to the total amount of transmission money received by all licensees as shown by the reports of licensees to the superintendent for the preceding calendar year, as required by Section 1807. The assessment rate shall be fixed from time to time by the superintendent but shall not exceed one dollar ($1) per one thousand dollars ($1,000) of transmission money received by the licensee.

The superintendent shall notify each licensee by mail of the amount levied against it. The licensee shall pay the amount levied within 20 days. If, after notice and a hearing, the superintendent finds otherwise, the superintendent shall deny the application.

(3) Refund to the customer any money not forwarded as represented within 10 days of the customer's written request for a refund pursuant to subdivision (a) of Section 1810.5 of the Financial Code.

(b) (1) If the total value of the funds received from the customer is less than four hundred dollars ($400), the offense set forth in subdivision (a) is punishable by imprisonment in the county jail not exceeding one year or by a fine not exceeding one thousand dollars ($1,000), or by both imprisonment and fine.

(2) If the total value of the money received from the customer is four hundred dollars ($400) or more, or if the total value of all moneys received by the person from different customers is four hundred dollars ($400), or more and the receipts were part of a common scheme or plan, the offense set forth in subdivision (a) is punishable by imprisonment in the state prison for 16 months, 2, or 3 years, by a fine not exceeding ten thousand dollars ($10,000), or by both imprisonment and fine.

SEC. 34. There is hereby appropriated from the State Banking Fund to the State Banking Department one hundred forty-one thousand dollars ($141,000) for expenses and 6.0 personnel years for the additional supervision and enforcement duties required by this act.

SEC. 35. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1197

An act to add Section 14137.6 to the Welfare and Institutions Code, relating to AIDS.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows.

SECTION 1. (a) The Legislature finds and declares that there has been a significant increase in the survival of persons with human immunodeficiency virus (HIV) infection as a result of earlier diagnosis and newly available drug treatments. In the period of 1981 to 1985, the average survival rate was 11 months for persons with acquired immune deficiency syndrome (AIDS). In 1988, this has increased to 16 to 18 months. This survival time is projected to continue to increase due to early interventions and use of therapeutic drugs on both an inpatient and outpatient basis.

(b) It is the intent of the Legislature to improve access to promising drug treatments for people with HIV infection. Unfortunately, the drug approval process is generally slow and cumbersome. An individual's survival may hinge on his or her ability to get access to drugs having treatment Investigational New Drug status, but the current Medi-Cal policy for medically necessary services may be subject to varying interpretations of the appropriate use of a drug not yet licensed by the federal Food and Drug Administration, resulting in the denial of payment under the Medi-Cal program.

(c) It is the intent of the Legislature to allow HIV-positive Medi-Cal beneficiaries, like other health care recipients, to have the right to receive any approved drug having treatment Investigational New Drug status which their physician prescribes to them, and to have that care necessary for administering the drug paid for by Medi-Cal.

SEC. 2. Section 14137.6 is added to the Welfare and Institutions Code, to read:

14137.6. (a) Notwithstanding any other provision of law, and subject to federal financial participation, covered services under this chapter shall include, subject to utilization controls, medically necessary inpatient and outpatient services associated with the administration of any drug that has been classified by the department or the Food and Drug Administration as having treatment Investigational New Drug (IND) status, when the drug is being administered for the treatment of acquired immune deficiency syndrome (AIDS), AIDS-related complex (ARC), or human immunodeficiency virus (HIV), to otherwise eligible persons.

(b) The department shall adopt emergency regulations pursuant

to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code to implement this section. The adoption of the regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health, or safety. Notwithstanding the provisions of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, emergency regulations adopted by the department in order to implement this section shall not be subject to the review and approval of the Office of Administrative Law. These regulations shall become effective immediately upon filing with the Secretary of State.

(c) No part of this section shall be construed to require the department to pay for the cost of treatment IND drugs provided for research purposes by pharmaceutical companies or any other sponsors at no cost.

(d) Payment for care to any Medi-Cal eligible HIV infected person in need of treatment shall not be denied solely on the basis of the use of a drug having treatment IND status.

(e) When medically feasible, every effort shall be made to administer drugs having treatment IND status on an outpatient basis.

CHAPTER 1198

An act relating to health, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. The State Department of Health Services shall report to the policy and fiscal committees of the Legislature on the costs, savings, and administrative structure that would be necessary to implement a common eligibility procedure and uniform eligibility standard for departmental programs that deliver services to pregnant women, women with infants and young children, and programs for children and adolescents by November 1, 1990. The report shall include programs which currently provide nutritional supplements, health screenings and examinations, health treatments, immunizations, health education, and other services which the department deems appropriate. The report shall evaluate the feasibility of implementing a uniform computerized eligibility system which is based on a standardized client application form for all affected programs.

SEC. 2. The report shall include:

(a) A description of federal statutes, regulations, and guidelines relating to the programs described in Section 1 concerning eligibility, and options available for exemption from these

requirements as necessary.

(b) A description of state statutes and regulations requiring amendment in order to develop a single, uniform eligibility standard and determination procedure.

(c) Changes in administrative structures at the state and local level that could improve the coordination of the delivery of services for women, infants, children and adolescents.

SEC. 3. The sum of one hundred fifty-five thousand dollars ($155,000) or so much thereof as may be necessary is hereby appropriated from funds available in Item 4260-111-001 of the Budget Act of 1989 for the purposes of this act.

CHAPTER 1199

An act to amend Sections 1010, 1012, 1015, 1017, and 1019 of, and to add Sections 26508 and 26509 to, the Health and Safety Code, relating to health.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1010 of the Health and Safety Code is amended to read:

1010. (a) The state department may accredit laboratories which perform for regulatory purposes analyses of food, drinking water, waste water, hazardous wastes, and contaminated soils or sediments, or any combination of these, through the issuance of certificates of accreditation. Laboratory activities regulated under Section 12591 of the Food and Agricultural Code shall be exempt from accreditation until January 1, 1992.

(b) In any arrangement between laboratories, which involves the transfer of samples or portions of samples, the analyzing laboratory shall be identified in all sample reports and shall be the laboratory for purposes of accreditation.

(c) For the purposes of this chapter:

(1) "Certificate" means a certificate of accreditation issued under this chapter.

(2) "Laboratory" means any facility or vehicle which is owned by a person or persons, or by a public or private entity, and which is equipped and operated to carry out environmental analyses or pesticide residue analysis on food, as determined by the department.

(3) "Pesticide" means any substance which alone, in chemical combination, or in any formulation with one or more substances, is an "economic poison" within the meaning of Section 12753 of the Food and Agricultural Code or a "pesticide" as defined in the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. Sec.

136 et seq.).

SEC. 2. Section 1012 of the Health and Safety Code is amended to read:

1012. (a) The department by regulation may establish minimum standards for the following:

(1) Quality assurance programs in effect at the laboratory.

(2) Laboratory facilities.

(3) Methods.

(4) Equipment.

(5) Qualifications of laboratory directors and other laboratory personnel.

(6) Any other area concerning the operation or maintenance of a laboratory not inconsistent with this chapter as may be necessary to carry out the provisions of this chapter.

(b) The regulations governing the minimum standards for accreditation of laboratories that perform analysis of food shall be adopted, in cooperation with the Department of Food and Agriculture, as they relate to the testing of raw agricultural commodities or dairy products.

SEC. 3. Section 1015 of the Health and Safety Code is amended to read:

1015. (a) Upon the filing of an application for accreditation and after a finding by the department that the applicant is in full compliance with the provisions of this chapter and rules and regulations adopted under this chapter, the department shall issue to the applicant a certificate in the fields of testing identified in Section 1017.

(b) The department shall deny accreditation, or revoke a certificate of accreditation if it finds one of the following:

(1) The laboratory fails to report acceptable results in the analysis of performance evaluation samples.

(2) The laboratory fails to pass an onsite inspection.

(3) The laboratory is not in compliance with any other provision of this chapter or regulations adopted under this chapter.

(c) Provided that the applicant complies with all other provisions of this chapter, accreditation may be restricted to the fields of testing of Section 1017 or subgroups thereof as defined by regulation for which acceptable results have been produced and onsite inspection was passed.

(d) Upon the filing of a complete application for accreditation pursuant to subdivision (a), the department may issue a certificate of interim accreditation to the applicant pending the completion of onsite inspection and an analysis of performance evaluation samples. An interim accreditation shall be nonrenewable and shall remain in effect until accreditation is either granted under subdivision (a) or denied under subdivision (b), but not later than one year after the date of issuance of the interim accreditation.

SEC. 4. Section 1017 of the Health and Safety Code is amended to read:

1017. (a) At the time of application and annually thereafter, any private entity or public entity shall pay a nonrefundable annual accreditation fee. The fee shall consist of a basic fee of eight hundred seventy-nine dollars ($879) and an additional fee of three hundred ninety-six dollars ($396) for accreditation in each of the following fields of testing for which accreditation is sought: (1) microbiology of drinking water and waste water, (2) inorganic chemistry and physical properties of drinking water excluding toxic chemical elements, (3) analysis of toxic chemical elements in drinking water, (4) organic chemistry of drinking water (measurement by gc/ms combination), (5) organic chemistry of drinking water (excluding measurements by gc/ms combination), (6) radiochemistry, (7) shellfish sanitation, (8) aquatic toxicity bioassays, (9) physical properties testing of hazardous waste, (10) inorganic chemistry and toxic chemical elements of hazardous waste, (11) extraction tests of hazardous waste, (12) organic chemistry of hazardous waste (measurement by gc/ms combination), (13) organic chemistry of hazardous waste (excluding measurements by gc/ms combination), (14) bulk asbestos analysis, (15) substances regulated under the California Safe Drinking Water and Toxic Enforcement Act and not included in other listed groups, (16) waste water inorganic chemistry, nutrients, and demand, (17) toxic chemical elements in waste water, (18) organic chemistry of waste water (measurements by gc/ms combination), (19) organic chemistry of waste water (excluding measurements by gc/ms combination), (20) inorganic chemistry and toxic chemical elements of pesticide residues in food, (21) organic chemistry of pesticide residues in food (measurement by gc/ms combination), (22) organic chemistry of pesticide residues in food, (excluding measurement by gc/ms combination), (23) operation of a mobile laboratory in any one of the above fields of testing in addition to activity in the same field of testing in an accredited stationary laboratory under the same owner.

(b) In addition to the payment of accreditation fees, laboratories located outside the State of California shall reimburse the department for travel and per diem necessary to perform onsite inspections.

(c) If reciprocity is established by regulation as described in Section 1011, the regulations may provide for the waiver of accreditation fees for program activities considered equivalent.

(d) Fees collected under this section shall be adjusted annually as specified in Section 113. In addition, the department shall increase or decrease the fees collected under this section, as necessary, in order to support the full program costs of this chapter.

(e) State and local government-owned laboratories in California established under Section 1000 or performing work only in a reference capacity as a reference laboratory are exempt from the payment of the fee prescribed under subdivision (a).

(f) In addition to the payment of accreditation fees, laboratories accredited or applying for accreditation in fields of testing, (20), (21),

or (22) under subdivision (a) shall pay the department a fee of four hundred dollars ($400) for the preparation and handling of each performance evaluation sample set.

(g) For the purpose of this section, a reference laboratory is a laboratory owned and operated by a governmental regulatory agency for the principal purpose of analyzing samples referred by other laboratories for confirmatory analysis. Reference laboratories carry out quality assurance functions relative to other laboratories and may carry out unusual, highly specialized, and difficult analyses not generally available through commercial laboratories, and a limited amount of routine analyses, for regulatory purposes only, and without assessing per-sample fees for the services.

SEC. 5. Section 1019 of the Health and Safety Code is amended to read:

1019. Any laboratory which is accredited or has applied for accreditation, or for renewal of accreditation under this chapter, shall analyze performance evaluation samples provided by the department. The samples shall be tested by the laboratory according to methods specifically approved for this purpose by the United States government or the department, or alternate methods of demonstrated adequacy or equivalence, as determined by the department. Results of the testing shall be submitted to the department on forms provided by the department on or before the date specified by the department, and shall be used in determining the competency of the laboratory. The department shall not be charged a fee for the analysis of the performance evaluation samples. The department shall provide performance evaluation sample sets not less than twice nor more than four times a year to each accredited laboratory which performs analyses of food for pesticide residues.

SEC. 6. Section 26508 is added to the Health and Safety Code, to read:

26508. (a) A laboratory which performs analyses of foods for pesticide chemical residues for other persons shall be accredited pursuant to Chapter 7.5 (commencing with Section 1010) of Part 2 of Division 1. This subdivision shall not apply to any of the following:

(1) A laboratory operated by a government agency.

(2) A laboratory not operated for commercial purposes that performs pesticide chemical residue analysis on foods for research or quality control for the internal use of the person initiating the analysis. For purposes of this section, "commercial purposes" means that the laboratory performs pesticide chemical residue analysis on the foods primarily for the purpose of making a profit.

(b) A laboratory accredited pursuant to Section 12591 of the Food and Agricultural Code shall not be required to be accredited under this section until January 1, 1992.

(c) A laboratory which performs analyses of foods for pesticide chemical residues, but which is not required by subdivision (a) to be accredited may apply for accreditation pursuant to Chapter 7.5

(commencing with Section 1010) of Part 2 of Division 1.

(d) This section shall become operative on January 1, 1991, or 60 days after the initial set of regulations adopted pursuant to Sections 1011 and 1012 becomes effective, whichever is later.

SEC. 7. Section 26509 is added to the Health and Safety Code, to read:

26509. (a) Every laboratory or other person which performs or which brokers or otherwise arranges for the performance of pesticide chemical analysis on food shall report to the appropriate state agency any finding of pesticide chemical residues in a food for which no chemical residue tolerance has been established or that is in excess of federal or state residue tolerances or tolerances for a pesticide suspended, banned, or otherwise not permitted by the Department of Food and Agriculture or the United States Environmental Protection Agency, if the food is in the channels of trade. The report shall be made as soon as possible, and in any event, not later than 24 hours after the analyzing laboratory makes the finding. Findings on raw agricultural commodities and dairy products shall be reported to the Department of Food and Agriculture. Findings on all other foods shall be made to the State Department of Health Services.

(b) For the purpose of reporting findings regarding raw agricultural commodities, "in the channels of trade" means the point at which the raw agricultural commodities leave the farm, including raw agricultural commodities bound for processing up to the point that processing is initiated. For the purpose of reporting findings in processed foods, "in the channels of trade" means at the point the processed food leaves the direct control of the processor, which means either that the product is not located on the premises owned by, or under the control of, the processor or a portion of the product has been released for sale or use.

(c) The person submitting the food for pesticide chemical analysis to a laboratory or other person shall certify in writing, at the time the sample is submitted for analysis, whether or not the food has entered the channels of trade and if not, whether or not the food will enter the channels of trade prior to the communication of the test results Absent that certification, the laboratory or person receiving the food for chemical analysis shall presume that the food has entered the channels of trade and make the report or reports required by subdivision (a).

(d) The department shall adopt standardized reporting guidelines for laboratories and shall provide laboratories with those guidelines and a list of citations and other sources of information regarding applicable pesticide chemical tolerances.

(e) The agency shall provide to the reporting laboratory or other person, within a reasonable time, a written description of any additional information the agency requests regarding the sample in question.

SEC. 8. No reimbursement is required by this act pursuant to

Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1200

An act to amend Section 12841 of, and to add Sections 12535, 12797, 12798, 12846, 12979, 13060, 13061, 55861.7, and 56571.7 to, the Food and Agricultural Code, and to add Sections 26505.5, 26506.6, and 26509 to the Health and Safety Code, relating to food and agriculture, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) California presently has the safest food in the world as a result of a combination of federal and state programs of pesticide registration, pesticide use controls, licensing persons who recommend and use pesticides, and monitoring food for pesticide residues and other contaminants.

(b) California has continually upgraded the state's pesticide regulatory and food safety programs to ensure that California produced food is in the forefront of food safety.

(c) Additional regulatory efforts will build upon and strengthen California's food safety programs to further ensure that California consumed foods meet our existing rigorous standards for safe consumption.

(d) Recent events have heightened public awareness relative to food safety and led to a desire for additional regulatory practices to advance California's food safety protections even further.

(e) Pest management is vital to the agricultural economy and to continued availability of an adequate, wholesome, and economical food supply.

(f) There is a need to develop additional funding alternatives that will provide a more broad based and equitable approach to the activities required by this act. It is the intent of the Legislature that the Department of Food and Agriculture immediately coordinate a review, with the affected entities, of the funding provisions of this

act. The review shall include recommendations for alternative long-term funding mechanisms and shall identify additional sources of funding for the extension of alternative pest management research under this act. The department shall report its findings to the Legislature by July 1, 1990.

SEC. 2. Section 12535 is added to the Food and Agricultural Code, to read:

12535. (a) Commencing in 1990, the department shall substantially expand and maintain its focused pesticide residue monitoring program beyond the 1988 level. The focused monitoring program shall be prioritized considering pesticides of greatest health concern and contribution to dietary exposure, and for various sensitive subpopulations, including children.

(b) The department shall consider, but not be limited to, the following lists of pesticides in establishing priorities for monitoring:

(1) Pesticides identified by the federal Environmental Protection Agency as known, possible, or probable human carcinogens which are registered for use on food crops.

(2) Pesticides listed as high priority for risk assessment as a result of the evaluation process of the Birth Defect Prevention Act of 1984.

(3) Pesticides listed as known to cause cancer or reproductive toxicity pursuant to Section 25249.9 of the Health and Safety Code.

(4) Class I and II pesticides on the United States Food and Drug Administrations's Surveillance Index.

SEC. 3. Section 12797 is added to the Food and Agricultural Code, to read:

12797. (a) The director, on or before March 1, 1990, in consultation with the State Director of Health Services, shall also establish a separate scientific advisory committee with an emphasis on persons with expertise in residue chemistry, analytical chemistry, or food technology from the department, the State Department of Health Services, qualified public and private institutions of higher education, laboratories licensed pursuant to Section 26507 of the Health and Safety Code, consumer interest groups, and the agricultural chemical industry. The committee shall make recommendations on how the state can improve its existing pesticide residue analytical methods and review recent scientific advancements concerning new and revised analytical methods for testing produce and processed foods for the presence of pesticide residues. The director may invite representatives of the federal Environmental Protection Agency and the United States Food and Drug Administration to participate in the committee's review.

(b) The committee shall determine when newly emerging analytical methods are developed to the point that it is feasible to adopt their usage in the residue monitoring programs of the department or the State Department of Health Services.

(c) The committee shall focus its review on analytical methods for pesticide residues not detectable on the existing multiple-residue screens available for use by the department or the State Department

of Health Services, and on pesticide residues which the committee deems are difficult to accurately identify and quantify due to time, equipment, or expense.

SEC. 4. Section 12798 is added to the Food and Agricultural Code, to read:

12798. (a) The department shall make funds available to qualified public and private entities to conduct pest management research projects, with an emphasis on projects that will result in the reduction of pesticide use, the use of safer pesticides, or minimizing pesticide residues.

(b) Research conducted pursuant to this section shall have the further development of alternative pest management practices and methods as a priority. Prior to making research awards, the department shall assess existing research activities and developments in integrated pest management, alternatives to pesticides, and other alternative pest management practices and methods, including, but not limited to, cultural, biological, and biotechnological research.

(c) (1) The director shall appoint a pest management research screening committee, of not to exceed nine persons, the membership of which may be rotated as determined by the director.

(2) The committee shall consist of agriculturalists, including organic farmers, researchers, scientists, academics, representatives of public interest organizations, and other persons who are knowledgeable, technically qualified, and experienced in pest management techniques, with an emphasis on alternative methods, for which projects are being reviewed. The committee shall meet at the call of the director to review and give its advice and recommendations with respect to research projects funded by this section.

(d) In order to facilitate the utilization of pest management practices and methods developed pursuant to this section, the director shall cooperate with qualified public and private entities to provide outreach consultation, information dissemination, and education services to the agricultural community and other interested parties.

SEC. 5. Section 12841 of the Food and Agricultural Code is amended to read:

12841. (a) Each registrant shall pay to the director an assessment not to exceed nine mills ($0.009) per dollar of sales for all sales of his or her registered and labeled economic poisons for use in this state. A registrant is not required to pay an assessment on his or her products registered and labeled only for use in further manufacturing or formulating of economic poisons. The director may reduce the assessment if he or she determines that a lesser assessment rate, together with other available funds, will provide adequate revenue to administer and enforce Division 6 (commencing with Section 11401), this chapter, Chapter 3 (commencing with Section 14001), and Chapter 3.5 (commencing

with Section 14101).

(b) Upon application of any registrant, the director shall determine whether a fertilizer or paper product is used as a carrier for economic poison, and is sold in combination, and whether the mill assessment under this section shall be on the economic poison value only, when the product is designed, developed, manufactured, and sold primarily for other than an economic poison use. If the director finds that the combination product has such a major component and is designed, developed, manufactured, and sold primarily for other than an economic poison use, the assessment provided for by this section shall be paid on the equivalent percentage of the sales price of the active ingredients of the economic poison product. The director shall establish this percentage of the sales price. The percentage shall be the ratio of that portion of the sales price attributable to the economic poison portion to the total sales price of the combination product.

(c) For purposes of this section, "active ingredient" means any active ingredient which is required to be stated on the label on any registered economic poison under Section 12883.

(d) It has been and continues to be the intent of the Legislature that this division requires the department to register all economic poisons prior to their sale for use in this state and, except as otherwise provided by law, requires the department to regulate and control economic poison use in accordance with this division. The department shall continue to collect the mill tax as provided in this section at the same rate on all registered agricultural and registered nonagricultural economic poisons.

SEC. 6. Section 12846 is added to the Food and Agricultural Code, to read:

12846. The Food Safety Account is hereby created in the Department of Food and Agriculture Fund to be used, upon appropriation, for purposes of Sections 12535, 12797, 12798, 12979, 13060, and 13061 of this code and Section 26509 of the Health and Safety Code.

SEC. 7. Section 12979 is added to the Food and Agricultural Code, to read.

12979. A pesticide use report shall be submitted to the commissioner or director on a form and in a manner prescribed by the director. The data from the pesticide use reports shall be considered in setting priorities for food monitoring, pesticide use enforcement, farm worker safety programs, environmental monitoring, pest control research, public health monitoring and research, and similar activities by the department, or by the department in cooperation with other state, regional, or local agencies with appropriate authority.

SEC. 8. Section 13060 is added to the Food and Agricultural Code, to read.

13060 (a) Commencing July 1, 1990, the department, in cooperation with the State Department of Health Services, shall

conduct an assessment of dietary risks associated with the consumption of produce and processed foods treated with pesticides. This assessment shall integrate adequate data on acute effects and the mandatory health effects studies specified in subdivision (c) of Section 13123, appropriate dietary consumption estimates, and relevant residue data based on the department's and the State Department of Health Services' monitoring data and appropriate field experimental and food technology information to quantify consumer risk. Differences in age, sex, ethnic, and regional consumption patterns shall be considered. The department shall submit each risk assessment to the State Department of Health Services, with necessary supporting documentation, for peer review, which shall consider the adequacy of public health protection. The State Department of Health Services may provide comments to the department. The department shall formally respond to all of the comments made by the State Department of Health Services. The department shall modify the risk assessment to incorporate the comments as deemed appropriate by the director. All correspondence between the department and the State Department of Health Services in this matter shall be made available to any person, upon request, pursuant to the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code).

(b) The department shall consider those pesticides designated for priority food monitoring pursuant to Section 12535 and the results of the department's or the State Department of Health Services' monitoring in establishing priorities for the dietary risk assessments.

(c) (1) If the department lacks adequate data on the acute effects of pesticide active ingredients or mandatory health effects studies specified in subdivision (c) of Section 13123 necessary to accurately estimate dietary risk, the department shall require the appropriate data to be submitted by the registrant of products whose labels include food uses. This subdivision shall not be construed to affect the time frames established pursuant to Section 13127.

(2) No applicant for registration, or current registrant, of a pesticide who proposes to purchase or purchases a registered pesticide from another producer in order to formulate the purchased pesticide into an end use product shall be required to submit or cite data pursuant to this section or offer to pay reasonable compensation for the use of any such data if the producer is engaged in fulfilling the data requirements of this section.

(d) (1) If a registrant fails to submit the data requested by the director pursuant to this section within the time specified by the director, the director shall issue a notice of intent to suspend the registration of that pesticide. The director may include in the notice of intent to suspend any provisions that are deemed appropriate concerning the continued sale and use of existing stocks of that pesticide. Any proposed suspension shall become final and effective 30 days from the receipt by the registrant of the notice of intent to

suspend, unless during that time a request for hearing is made by a person adversely affected by the notice or the registrant has satisfied the director that the registrant has complied fully with the requirements that served as a basis for the notice of intent to suspend. If a hearing is requested, a hearing shall be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code. The only matter for resolution at the hearing shall be whether the registrant has failed to take the action that served as the basis for the notice of intent to suspend the registration of the pesticide for which additional data is required and whether the director's determination with respect to the disposition of existing stocks is consistent with this subdivision.

(2) A hearing shall be held and a determination made within 75 days after receipt of a request for a hearing. The decision rendered after completion of the hearing shall be final. Any registration suspended shall be reinstated by the director if the director determines that the registrant has complied fully with the requirements that served as a basis for the suspension of the registration.

(e) If the department finds that any pesticide use represents a dietary risk that is deleterious to the health of humans, the department shall prohibit or take action to modify that use or modify the tolerance pursuant to Section 12561, or both, as necessary to protect the public.

SEC. 9. Section 13061 is added to the Food and Agricultural Code, to read:

13061. The department and the State Department of Health Services shall jointly review the existing federal and state pesticide registration and food safety system and determine if the existing programs adequately protect infants and children from dietary exposure to pesticide residues. The review shall commence as early as possible in 1990, so that any policy or administrative adjustments determined to be necessary as a result of the joint review can be made on a timely basis. The department shall consult with the University of California and other qualified public and private entities in conducting the joint review. The joint review shall continue for a sufficient time in order to evaluate the report of infant exposure to pesticide residues, which is presently being undertaken by the National Academy of Sciences. Within six months of the official release of the National Academy of Sciences' study, the department shall finalize a report describing the evaluation that was conducted pursuant to this section, including any recommendations for modification of the existing regulatory system in order to adequately protect infants and children. A copy of this report shall be submitted to the Governor and the Legislature.

SEC. 10. Section 55861.7 is added to the Food and Agricultural Code, to read:

55861.7. Notwithstanding Section 55861.5, in addition to the fee paid pursuant to Section 55861, each licensee shall pay a 50 percent

surcharge to the director, in a form and manner prescribed by the director. CHAPTER 1202

An act to amend Section 13965 of the Government Code, relating to victims of crime, and making an appropriation therefor.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the experience of sexual assault is unique among the many categories of crime. Victims of this type of crime take months to regain control of their lives and rebuild self esteem lost due to the traumatization of the crime. They are revictimized throughout the duration of the legal process and long afterwards. In many cases, the victim cannot return to work for a long period of time, and in some cases, cannot return at all. This results in wage loss and a need for job rehabilitation.

SEC. 2. Section 13965 of the Government Code is amended to read:

13965. (a) If the application for assistance is approved, the board shall determine what type of state assistance will best aid the victim. The board may take any or all of the following actions:

(1) Authorize a direct cash payment to a provider of psychological or psychiatric treatment or mental health counseling services, including peer counseling services provided by a rape crisis center as defined by Section 13837 of the Penal Code or to the victim, equal to the pecuniary loss attributable to medical or medical-related expenses, including counseling, directly resulting from the injury. However, the board may not authorize, without good cause, a direct cash payment to a licensed health care provider or rape crisis center over the objection of the victim.

Payments authorized pursuant to this paragraph for peer counseling services provided by a rape counseling center shall not exceed fifteen dollars ($15) for each hour of services provided. Those services shall be limited to individual, in-person counseling on a face-to-face basis for a period not to exceed 10 weeks plus one series of facilitated support group counseling sessions.

(2) Authorize a cash payment to the victim equal to the pecuniary loss resulting from loss of wages or support directly resulting from the injury.

(3) Authorize cash payments to or on behalf of the victim for job retraining or similar employment-oriented rehabilitative services.

(4) Obtain an independent examination and report from any provider of psychological or psychiatric treatment or mental health counseling services, if it believes there is a reasonable basis for requesting an additional evaluation. In cases where the crime involves sexual assault, the provider shall have expertise in the needs

of sexual assault victims.

(5) The total award to or on behalf of the victim shall not exceed twenty-three thousand dollars ($23,000), and may be increased only in accordance with this section.

(b) Assistance granted pursuant to this article shall not disqualify an otherwise eligible victim from participation in any other public assistance program.

(c) Cash payments made pursuant to this article may be on a one-time or periodic basis. If periodic, the board may increase, reduce, or terminate the amount of assistance according to need, subject to the maximum limits provided in this section.

(d) The board may also authorize payment of attorney's fees representing the reasonable value of legal services rendered to the applicant, but not to exceed 10 percent of the amount of the award, or five hundred dollars ($500), whichever is less.

(e) No attorney shall charge, demand, receive, or collect any amount for services rendered in connection with any proceedings under this article except as awarded under this section.

(f) The maximum cash payments authorized in subdivision (a) shall be increased to forty-six thousand dollars ($46,000) if federal funds for those increases are available, and may be further increased pursuant to subdivision (i).

(g) Notwithstanding subdivisions (a) and (f), a victim injured between January 1, 1985, and December 31, 1985, shall be entitled to receive a maximum cash payment of forty-six thousand dollars ($46,000) if federal funds for these increases are available, but only for costs in excess of limitations provided for in subdivision (a) which are attributable to medical or medical-related expenses, except for psychological or psychiatric treatment, or mental health counseling services.

(h) Notwithstanding any conflicting provision of this chapter, the board may make additional payments for purposes described in paragraph (1) of subdivision (a) to any victim who filed an application with the board on or after December 1, 1982, who was a victim of a crime involving sexual assault, and who is a minor at the time the additional payments pursuant to this subdivision are made. The payments authorized by this subdivision shall not in the aggregate of all payments made by the board to the victim of the crime exceed twenty-three thousand dollars ($23,000), unless federal funds are available, in which case the aggregate maximum award may be increased to forty-six thousand dollars ($46,000).

(i) Notwithstanding any conflicting provision of this chapter, the board may, at its discretion, make additional cash payments not to exceed ten thousand dollars ($10,000) over any maximum payment amount specified in this section, for pecuniary losses as defined in subdivision (d) of Section 13960 or for services provided pursuant to this section, subject to any restrictions that apply under subdivision (a), to or on behalf of a victim of a crime involving sexual assault which occurred after January 1, 1980, who has made more than two

appearances in open court, or hearings, in criminal actions involving the defendant, over an extended period of time.

SEC. 3. Section 13965 of the Government Code is amended to read:

13965. (a) If the application for assistance is approved, the board shall determine what type of state assistance will best aid the victim. The board may take any or all of the following actions:

(1) Authorize a direct cash payment to a provider of services, including, but not limited to, a provider of psychological or psychiatric treatment or mental health counseling services, including peer counseling services provided by a rape crisis center as defined by Section 13837 of the Penal Code or to the victim, equal to the pecuniary loss attributable to medical or medical-related expenses, including counseling, directly resulting from the injury. However, the board may not authorize without good cause a direct cash payment to a licensed health care provider or rape crisis center over the objection of the victim.

Payments authorized pursuant to this paragraph for peer counseling services provided by a rape counseling center shall not exceed fifteen dollars ($15) for each hour of services provided. Those services shall be limited to individual, in-person counseling on a face-to-face basis for a period not to exceed 10 weeks plus one series of facilitated support group counseling sessions.

(2) Authorize a cash payment to the victim equal to the pecuniary loss resulting from loss of wages or support directly resulting from the injury.

(3) Authorize cash payments to or on behalf of the victim for job retraining or similar employment-oriented rehabilitative services.

(4) Obtain an independent examination and report from any provider of psychological or psychiatric treatment or mental health counseling services, if it believes there is a reasonable basis for requesting an additional evaluation. In cases where the crime involves sexual assault, the provider shall have expertise in the needs of sexual assault victims.

(5) The total award to or on behalf of the victim shall not exceed twenty-three thousand dollars ($23,000), and may be increased only in accordance with this section.

(b) Assistance granted pursuant to this article shall not disqualify an otherwise eligible victim from participation in any other public assistance program.

(c) Cash payments made pursuant to this article may be on a one-time or periodic basis. If periodic, the board may increase, reduce, or terminate the amount of assistance according to need, subject to the maximum limit provided in this section.

(d) The board may also authorize payment of attorney's fees representing the reasonable value of legal services rendered to the applicant as follows:

(1) Attorney's fees may not exceed 10 percent of the award or five hundred dollars ($500), whichever is less.

(2) In addition to any amount awarded under paragraph (1) of this subdivision, after the successful appeal of an adverse board decision pursuant to subdivision (c) of Section 13969.1, a court may award reasonable attorney's fees not to exceed one thousand dollars ($1,000).

(e) No attorney shall charge, demand, receive, or collect any amount for services rendered in connection with any proceedings under this article except as awarded under subdivision (d) of this section.

(f) The maximum cash payments authorized in subdivision (a) shall be increased to forty-six thousand dollars ($46,000) if federal funds for those increases are available, and may be further increased pursuant to subdivision (i).

(g) Notwithstanding subdivisions (a) and (f), a victim injured between January 1, 1985, and December 31, 1985, shall be entitled to receive a maximum cash payment of forty-six thousand dollars ($46,000) if federal funds for these increases are available, but only for costs in excess of limitations provided for in subdivision (a) which are attributable to medical or medical-related expenses, except for psychological or psychiatric treatment, or mental health counseling services.

(h) Notwithstanding any conflicting provision of this chapter, the board may make additional payments for purposes described in paragraph (1) of subdivision (a) to any victim who filed an application with the board on or after December 1, 1982, who was a victim of a crime involving sexual assault, and who is a minor at the time the additional payments pursuant to this subdivision are made. The payments authorized by this subdivision shall not in the aggregate of all payments made by the board to the victim of the crime exceed twenty-three thousand dollars ($23,000), unless federal funds are available, in which case the aggregate maximum award may be increased to forty-six thousand dollars ($46,000).

(i) Notwithstanding any conflicting provision of this chapter, the board may, at its discretion, make additional cash payments not to exceed ten thousand dollars ($10,000) over any maximum payment amount specified in this section, for pecuniary losses as defined in subdivision (d) of Section 13960 or for services provided pursuant to this section, subject to any restrictions that apply under subdivision (a), to or on behalf of a victim of a crime involving sexual assault which occurred after January 1, 1980, who has made more than two appearances in open court, or hearings, in criminal actions involving the defendant, over an extended period of time.

SEC. 4. Section 13965 of the Government Code is amended to read:

13965. (a) If the application for assistance is approved, the board shall determine what type of state assistance will best aid the victim. The board may take any or all of the following actions:

(1) Authorize a direct cash payment to a provider of psychological or psychiatric treatment or mental health counseling services,

including peer counseling services provided by a rape crisis center as defined by Section 13837 of the Penal Code or to the victim, equal to the pecuniary loss attributable to medical or medical-related expenses, including counseling, directly resulting from the injury. However, the board may not authorize without good cause a direct cash payment to a licensed health care provider or rape crisis center over the objection of the victim.

When a public agency, including a court or district attorney or a police, county child protective services, or other state or local governmental agency, refers a victim of crime to a private nonprofit agency for treatment for that victim, the private nonprofit agency shall be reimbursed for those services at the level of the normal and customary fee charged by the private nonprofit agency to clients with adequate means of payment for its services, except that this reimbursement shall not exceed the maximum reimbursement rates set by the board and may be made only to the extent that the victim otherwise qualifies for services under the victims of crime program and that other reimbursement or direct subsidies are not available to serve the victim.

Payments authorized pursuant to this paragraph for peer counseling services provided by a rape counseling center shall not exceed fifteen dollars ($15) for each hour of services provided. Those services shall be limited to individual, in-person counseling on a face-to-face basis for a period not to exceed 10 weeks plus one series of facilitated support group counseling sessions.

(2) Authorize a cash payment to the victim equal to the pecuniary loss resulting from loss of wages or support directly resulting from the injury

(3) Authorize cash payments to or on behalf of the victim for job retraining or similar employment-oriented rehabilitative services.

(4) Obtain an independent examination and report from any provider of psychological or psychiatric treatment or mental health counseling services, if it believes there is a reasonable basis for requesting an additional evaluation. In cases where the crime involves sexual assault, the provider shall have expertise in the needs of sexual assault victims.

(5) The total award to or on behalf of the victim shall not exceed twenty-three thousand dollars ($23,000), and may be increased only in accordance with this section.

(b) Assistance granted pursuant to this article shall not disqualify an otherwise eligible victim from participation in any other public assistance program

(c) Cash payments made pursuant to this article may be on a one-time or periodic basis. If periodic, the board may increase, reduce, or terminate the amount of assistance according to need, subject to the maximum limit provided in this section.

(d) The board may also authorize payment of attorney's fees representing the reasonable value of legal services rendered to the applicant, but not to exceed 10 percent of the amount of the award,

or five hundred dollars ($500), whichever is less.

(e) No attorney shall charge, demand, receive, or collect any amount for services rendered in connection with any proceedings under this article except as awarded under this section.

(f) The maximum cash payments authorized in subdivision (a) shall be increased to forty-six thousand dollars ($46,000) if federal funds for those increases are available, and may be further increased pursuant to subdivision (i).

(g) Notwithstanding subdivisions (a) and (f), a victim injured between January 1, 1985, and December 31, 1985, shall be entitled to receive a maximum cash payment of forty-six thousand dollars ($46,000) if federal funds for these increases are available, but only for costs in excess of limitations provided for in subdivision (a) which are attributable to medical or medical-related expenses, except for psychological or psychiatric treatment, or mental health counseling services.

(h) Notwithstanding any conflicting provision of this chapter, the board may make additional payments for purposes described in paragraph (1) of subdivision (a) to any victim who filed an application with the board on or after December 1, 1982, who was a victim of a crime involving sexual assault, and who is a minor at the time the additional payments pursuant to this subdivision are made. The payments authorized by this subdivision shall not in the aggregate of all payments made by the board to the victim of the crime exceed twenty-three thousand dollars ($23,000), unless federal funds are available, in which case the aggregate maximum award may be increased to forty-six thousand dollars ($46,000).

(i) Notwithstanding any conflicting provision of this chapter, the board may, at its discretion, make additional cash payments not to exceed ten thousand dollars ($10,000) over any maximum payment amount specified in this section, for pecuniary losses as defined in subdivision (d) of Section 13960 or for services provided pursuant to this section, subject to any restrictions that apply under subdivision (a), to or on behalf of a victim of a crime involving sexual assault which occurred after January 1, 1980, who has made more than two appearances in open court, or hearings, in criminal actions involving the defendant, over an extended period of time.

(j) The board may establish maximum rates and service limitations for reimbursement of medical and medical-related expenses, including counseling expenses, incurred by a victim for which restitution is requested pursuant to this section. For mental health and counseling services provided to victims of crime, rates shall not exceed the statewide average.

To assure service limitations which are uniform and appropriate to the levels of mental health treatment required by the victim, the board may review all claims for these services as necessary to ensure their medical necessity. The board may further require additional documentation, information, or medical review of cases of continuing treatment which are projected to exceed five thousand

dollars ($5,000) to determine the need to continue treatment in excess of that amount. The board may accept or reject claims for the amount in excess of five thousand dollars ($5,000) by applying the same standards applicable to processing the initial claim or may approve a continuing treatment regimen for a specific interval or subject to periodic review as appropriate. All information requested of the treating therapist shall be provided at no cost to the applicant, the board, or to local victim centers, pursuant to subdivision (b) of Section 13962. Requests for additional information shall be made in a timely manner so as not to interfere with necessary treatment.

(k) The authority provided by this section shall not be construed to in any way diminish, enhance, or otherwise affect any authority which the board may have under current law except as explicitly provided in this section.

SEC. 5. Section 13965 of the Government Code is amended to read:

13965. (a) If the application for assistance is approved, the board shall determine what type of state assistance will best aid the victim. The board may take any or all of the following actions:

assistance program.

(c) Cash payments made pursuant to this article may be on a one-time or periodic basis. If periodic, the board may increase, reduce, or terminate the amount of assistance according to need, subject to the maximum limit provided in this section.

(d) The board may also authorize payment of attorney's fees representing the reasonable value of legal services rendered to the applicant as follows:

(1) Attorney's fees may not exceed 10 percent of the award or five hundred dollars ($500), whichever is less.

(2) In addition to any amount awarded under paragraph (1) of this subdivision, after the successful appeal of an adverse board decision pursuant to subdivision (c) of Section 13969.1, a court may award reasonable attorney's fees not to exceed one thousand dollars ($1,000).

(e) No attorney shall charge, demand, receive, or collect any amount for services rendered in connection with any proceedings under this article except as awarded under subdivision (d) of this section.

(f) The maximum cash payments authorized in subdivision (a) shall be increased to forty-six thousand dollars ($46,000) if federal funds for those increases are available, and may be further increased pursuant to subdivision (i).

(g) Notwithstanding subdivisions (a) and (f), a victim injured between January 1, 1985, and December 31, 1985, shall be entitled to receive a maximum cash payment of forty-six thousand dollars ($46,000) if federal funds for these increases are available, but only for costs in excess of limitations provided for in subdivision (a) which are attributable to medical or medical-related expenses, except for psychological or psychiatric treatment, or mental health counseling services.

(h) Notwithstanding any conflicting provision of this chapter, the board may make additional payments for purposes described in paragraph (1) of subdivision (a) to any victim who filed an application with the board on or after December 1, 1982, who was a victim of a crime involving sexual assault, and who is a minor at the time the additional payments pursuant to this subdivision are made. The payments authorized by this subdivision shall not in the aggregate of all payments made by the board to the victim of the crime exceed twenty-three thousand dollars ($23,000), unless federal funds are available, in which case the aggregate maximum award may be increased to forty-six thousand dollars ($46,000).

(i) Notwithstanding any conflicting provision of this chapter, the board may, at its discretion, make additional cash payments not to exceed ten thousand dollars ($10,000) over any maximum payment amount specified in this section, for pecuniary losses as defined in subdivision (d) of Section 13960 or for services provided pursuant to this section, subject to any restrictions that apply under subdivision (a), to or on behalf of a victim of a crime involving sexual assault

which occurred after January 1, 1980, who has made more than two appearances in open court, or hearings, in criminal actions involving the defendant, over an extended period of time.

(j) The board may establish maximum rates and service limitations for reimbursement of medical and medical-related expenses, including counseling expenses, incurred by a victim for which restitution is requested pursuant to this section. For mental health and counseling services provided to victims of crime, rates shall not exceed the statewide average.

To assure service limitations which are uniform and appropriate to the levels of mental health treatment required by the victim, the board may review all claims for these services as necessary to ensure their medical necessity. The board may further require additional documentation, information, or medical review of cases of continuing treatment which are projected to exceed five thousand dollars ($5,000) to determine the need to continue treatment in excess of that amount. The board may accept or reject claims for the amount in excess of five thousand dollars ($5,000) by applying the same standards applicable to processing the initial claim or may approve a continuing treatment regimen for a specific interval or subject to periodic review as appropriate. All information requested of the treating therapist shall be provided at no cost to the applicant, the board, or to local victim centers, pursuant to subdivision (b) of Section 13962. Requests for additional information shall be made in a timely manner so as not to interfere with necessary treatment.

(k) The authority provided by this section shall not be construed to in any way diminish, enhance, or otherwise affect any authority which the board may have under current law except as explicitly provided in this section.

SEC. 7. Section 13965 of the Government Code is amended to read:

13965. (a) If the application for assistance is approved, the board shall determine what type of state assistance will best aid the victim. The board may take any or all of the following actions:

(1) Authorize a direct cash payment to a provider of services, including, but not limited to, a provider of psychological or psychiatric treatment or mental health counseling services, including peer counseling services provided by a rape crisis center as defined by Section 13837 of the Penal Code or to the victim, equal to the pecuniary loss attributable to medical or medical-related expenses, including counseling, directly resulting from the injury. However, the board may not authorize without good cause a direct cash payment to a licensed health care provider or rape crisis center over the objection of the victim.

Payments authorized pursuant to this paragraph for peer counseling services provided by a rape counseling center shall not exceed fifteen dollars ($15) for each hour of services provided. Those services shall be limited to individual, in-person counseling on a face-to-face basis for a period not to exceed 10 weeks plus one series

of facilitated support group counseling sessions.

(2) Authorize a cash payment to the victim equal to the pecuniary loss resulting from loss of wages or support directly resulting from the injury.

(3) Authorize cash payments to or on behalf of the victim for job retraining or similar employment-oriented rehabilitative services.

(4) Obtain an independent examination and report from any provider of psychological or psychiatric treatment or mental health counseling services, if it believes there is a reasonable basis for requesting an additional evaluation. In cases where the crime involves sexual assault, the provider shall have expertise in the needs of sexual assault victims.

(5) The total award to or on behalf of the victim shall not exceed twenty-three thousand dollars ($23,000), which may include an award of not more than one thousand dollars ($1,000) for other reasonable expenses related to the crime or the consequence or the effects of the crime on the victim, and may be increased only in accordance with this section.

(b) Assistance granted pursuant to this article shall not disqualify an otherwise eligible victim from participation in any other public assistance program.

(c) Cash payments made pursuant to this article may be on a one-time or periodic basis. If periodic, the board may increase, reduce, or terminate the amount of assistance according to need, subject to the maximum limit provided in this section.

(d) The board may also authorize payment of attorney's fees representing the reasonable value of legal services rendered to the applicant as follows:

(1) Attorney's fees may not exceed 10 percent of the award or five hundred dollars ($500), whichever is less.

(2) In addition to any amount awarded under paragraph (1) of this subdivision, after the successful appeal of an adverse board decision pursuant to subdivision (c) of Section 13969.1, a court may award reasonable attorney's fees not to exceed one thousand dollars ($1,000).

(e) No attorney shall charge, demand, receive, or collect any amount for services rendered in connection with any proceedings under this article except as awarded under subdivision (d) of this section.

(f) The maximum cash payments authorized in subdivision (a) shall be increased to forty-six thousand dollars ($46,000) if federal funds for those increases are available, and may be further increased pursuant to subdivision (i).

(g) Notwithstanding subdivisions (a) and (f), a victim injured between January 1, 1985, and December 31, 1985, shall be entitled to receive a maximum cash payment of forty-six thousand dollars ($46,000) if federal funds for these increases are available, but only for costs in excess of limitations provided for in subdivision (a) which are attributable to medical or medical-related expenses, except for

psychological or psychiatric treatment, or mental health counseling services.

(h) Notwithstanding any conflicting provision of this chapter, the board may make additional payments for purposes described in paragraph (1) of subdivision (a) to any victim who filed an application with the board on or after December 1, 1982, who was a victim of a crime involving sexual assault, and who is a minor at the time the additional payments pursuant to this subdivision are made. The payments authorized by this subdivision shall not in the aggregate of all payments made by the board to the victim of the crime exceed twenty-three thousand dollars ($23,000), unless federal funds are available, in which case the aggregate maximum award may be increased to forty-six thousand dollars ($46,000).

(i) Notwithstanding any conflicting provision of this chapter, the board may, at its discretion, make additional cash payments not to exceed ten thousand dollars ($10,000) over any maximum payment amount specified in this section, for pecuniary losses as defined in subdivision (d) of Section 13960 or for services provided pursuant to this section, subject to any restrictions that apply under subdivision (a), to or on behalf of a victim of a crime involving sexual assault which occurred after January 1, 1980, who has made more than two appearances in open court, or hearings, in criminal actions involving the defendant, over an extended period of time.

SEC. 8. Section 13965 of the Government Code is amended to read:

13965. (a) If the application for assistance is approved, the board shall determine what type of state assistance will best aid the victim. The board may take any or all of the following actions:

(1) Authorize a direct cash payment to a provider of psychological or psychiatric treatment or mental health counseling services, including peer counseling services provided by a rape crisis center as defined by Section 13837 of the Penal Code or to the victim, equal to the pecuniary loss attributable to medical or medical-related expenses, including counseling, directly resulting from the injury. However, the board may not authorize without good cause a direct cash payment to a licensed health care provider or rape crisis center over the objection of the victim.

When a public agency, including a court or district attorney or a police, county child protective services, or other state or local governmental agency, refers a victim of crime to a private nonprofit agency for treatment for that victim, the private nonprofit agency shall be reimbursed for those services at the level of the normal and customary fee charged by the private nonprofit agency to clients with adequate means of payment for its services, except that this reimbursement shall not exceed the maximum reimbursement rates set by the board and may be made only to the extent that the victim otherwise qualifies for services under the victims of crime program and that other reimbursement or direct subsidies are not available to serve the victim.

Payments authorized pursuant to this paragraph for peer counseling services provided by a rape counseling center shall not exceed fifteen dollars ($15) for each hour of services provided. Those services shall be limited to individual, in-person counseling on a face-to-face basis for a period not to exceed 10 weeks plus one series of facilitated support group counseling sessions.

(2) Authorize a cash payment to the victim equal to the pecuniary loss resulting from loss of wages or support directly resulting from the injury.

(3) Authorize cash payments to or on behalf of the victim for job retraining or similar employment-oriented rehabilitative services.

(4) Obtain an independent examination and report from any provider of psychological or psychiatric treatment or mental health counseling services, if it believes there is a reasonable basis for requesting an additional evaluation. In cases where the crime involves sexual assault, the provider shall have expertise in the needs of sexual assault victims.

(5) The total award to or on behalf of the victim shall not exceed twenty-three thousand dollars ($23,000), which may include an award of not more than one thousand dollars ($1,000) for other reasonable expenses related to the crime or the consequences or effects of the crime on the victim, and may be increased only in accordance with this section.

(b) Assistance granted pursuant to this article shall not disqualify an otherwise eligible victim from participation in any other public assistance program.

(c) Cash payments made pursuant to this article may be on a one-time or periodic basis. If periodic, the board may increase, reduce, or terminate the amount of assistance according to need, subject to the maximum limit provided in this section.

(d) The board may also authorize payment of attorney's fees representing the reasonable value of legal services rendered to the applicant, but not to exceed 10 percent of the amount of the award, or five hundred dollars ($500), whichever is less.

(e) No attorney shall charge, demand, receive, or collect any amount for services rendered in connection with any proceedings under this article except as awarded under this section.

(f) The maximum cash payments authorized in subdivision (a) shall be increased to forty-six thousand dollars ($46,000) if federal funds for those increases are available, and may be further increased pursuant to subdivision (i).

(g) Notwithstanding subdivisions (a) and (f), a victim injured between January 1, 1985, and December 31, 1985, shall be entitled to receive a maximum cash payment of forty-six thousand dollars ($46,000) if federal funds for these increases are available, but only for costs in excess of limitations provided for in subdivision (a) which are attributable to medical or medical-related expenses, except for psychological or psychiatric treatment, or mental health counseling services.

(h) Notwithstanding any conflicting provision of this chapter, the board may make additional payments for purposes described in paragraph (1) of subdivision (a) to any victim who filed an application with the board on or after December 1, 1982, who was a victim of a crime involving sexual assault, and who is a minor at the time the additional payments pursuant to this subdivision are made. The payments authorized by this subdivision shall not in the aggregate of all payments made by the board to the victim of the crime exceed twenty-three thousand dollars ($23,000), unless federal funds are available, in which case the aggregate maximum award may be increased to forty-six thousand dollars ($46,000).

(i) Notwithstanding any conflicting provision of this chapter, the board may, at its discretion, make additional cash payments not to exceed ten thousand dollars ($10,000) over any maximum payment amount specified in this section, for pecuniary losses as defined in subdivision (d) of Section 13960 or for services provided pursuant to this section, subject to any restrictions that apply under subdivision (a), to or on behalf of a victim of a crime involving sexual assault which occurred after January 1, 1980, who has made more than two appearances in open court, or hearings, in criminal actions involving the defendant, over an extended period of time.

(j) The board may establish maximum rates and service limitations for reimbursement of medical and medical-related expenses, including counseling expenses, incurred by a victim for which restitution is requested pursuant to this section. For mental health and counseling services provided to victims of crime, rates shall not exceed the statewide average.

To assure service limitations which are uniform and appropriate to the levels of mental health treatment required by the victim, the board may review all claims for these services as necessary to ensure their medical necessity. The board may further require additional documentation, information, or medical review of cases of continuing treatment which are projected to exceed five thousand dollars ($5,000) to determine the need to continue treatment in excess of that amount. The board may accept or reject claims for the amount in excess of five thousand dollars ($5,000) by applying the same standards applicable to processing the initial claim or may approve a continuing treatment regimen for a specific interval or subject to periodic review as appropriate. All information requested of the treating therapist shall be provided at no cost to the applicant, the board, or to local victim centers, pursuant to subdivision (b) of Section 13962. Requests for additional information shall be made in a timely manner so as not to interfere with necessary treatment.

(k) The authority provided by this section shall not be construed to in any way diminish, enhance, or otherwise affect any authority which the board may have under current law except as explicitly provided in this section.

SEC. 9. Section 13965 of the Government Code is amended to read:

13965. (a) If the application for assistance is approved, the board shall determine what type of state assistance will best aid the victim. The board may take any or all of the following actions:

CHAPTER 1203

An act to amend Sections 51600 and 51601 of, and to add Chapter 6 (commencing with Section 51950) to Part 4 of Division 31 of, the Health and Safety Code, relating to seismic safety, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 51600 of the Health and Safety Code is amended to read:

51600. The Legislature finds and declares as follows:

(a) For reasons of prudent investment policy, private lending institutions are not making mortgage financing available for residential structures located in many older residential neighborhoods, or for certain housing developments occupied or intended to be occupied by substantial numbers of persons and families of low and moderate income because of the perceived risks these loans entail. The lack of this financing has caused and contributed to deterioration of residential neighborhoods, inhibited local governments in their attempts to arrest and reverse deterioration through local code enforcement programs, and generally reduced or limited the supply of safe, decent, and sanitary housing available to persons and families of low and moderate income.

(b) The state has authorized local agencies, redevelopment agencies, and housing authorities to provide financing for preservation and construction of residential structures to enhance housing opportunities for persons and families of low or moderate income. However, some of these local public entities will be unable to sell revenue bonds pursuant to that act on terms sufficiently favorable to enable them to make loans at less than the market-rate interest because of a lack of adequate bond security.

(c) The agency, although it is empowered to sell revenue bonds in order to raise funds for housing assistance, may be unable to market these bonds on terms and at interest rates adequate to enable the agency to accomplish its purposes.

(d) For reasons of prudent investment policy, private lending institutions are not making mortgage financing available for rental housing developments in California because of the perceived risks these loans entail. The lack of this financing has resulted in a severe shortage of rental housing units in many areas of the state. This shortage of rental housing units particularly impacts persons and families of low income.

(e) For reasons of prudent investment policy, private lending institutions are not making mortgage financing available for the

rehabilitation of buildings identified by local jurisdictions as being potentially hazardous, as defined in Chapter 12.2 (commencing with Section 8875) of Division 1 of Title 2 of the Government Code, or as being hazardous to life in the event of an earthquake, as defined in Article 4 (commencing with Section 19160) of Chapter 2 of Part 3 of Division 13.

SEC. 2. Section 51601 of the Health and Safety Code is amended to read:

51601. It is the intent of the Legislature in enacting this part to establish a program of bond and loan insurance to encourage and facilitate the preservation of existing housing and improve housing opportunities for persons and families of low or moderate income by reducing the risk factor (1) for loans for housing in older deteriorating areas and neighborhood preservation areas, (2) for revenue bonds issued by local agencies for the purpose of providing housing for persons and families of low or moderate income, (3) for loans to provide housing for persons and families of low or moderate income, (4) for privately financed loans for rental housing developments and structures which benefit lower income households, and (5) for construction loan loss guarantee assistance for rehabilitation of buildings in need of seismic rehabilitation improvements, where the building has been identified by local jurisdictions as being potentially hazardous, as defined in Chapter 12.2 (commencing with Section 8875) of Division 1 of Title 2 of the Government Code, or as being hazardous to life in the event of an earthquake, as defined in Article 4 (commencing with Section 19160) of Chapter 2 of Part 3 of Division 13.

SEC. 3. Chapter 6 (commencing with Section 51950) is added to Part 4 of Division 31 of the Health and Safety Code, to read:

CHAPTER 6. LOAN LOSS GUARANTEE PROGRAM

51950. The California Housing Insurance Fund may administer a loan loss guarantee program in order to induce private lenders to make construction loans for seismic rehabilitation improvements which are designed to increase seismic structural safety in accordance with a plan developed by a civil engineer, structural engineer, or an architect for a property which has been identified by a local jurisdiction as being potentially hazardous, as defined in Chapter 12.2 (commencing with Section 8875) of Division 1 of Title 2 of the Government Code, or as being hazardous in the event of an earthquake, as defined in Article 4 (commencing with Section 19160) of Chapter 2 of Part 3 of Division 13.

51951. The fund shall only issue rehabilitation loan loss guarantees on buildings with five or more residential units and where any commercial use in those buildings is limited to the basement and ground floors or where the commercial use occupies less than 15 percent of the total square footage of the building.

51952. The fund may issue a loan loss guarantee in the amount of

25 percent of the actual loss of a loan guaranteed under this section. The fund may not guarantee any loan loss in excess of the amount of permanent loan financing for the property. No guarantee shall be made for a property which does not have a binding, unconditional permanent financing commitment from a lender acceptable to the fund, nor for a property in which the owner has less than a 20-percent equity interest.

51953. The fund shall collect a premium for a loan loss guarantee as provided in Section 58155. All premiums shall be deposited in the Seismic Rehabilitation Loan Loss Guarantee Account within the fund, which is hereby created.

Premiums shall be calculated in an amount which, when added to the other revenues of the account, will be adequate to, in the following order of priority: pay losses on claims made under loan loss guarantees issued hereunder, pay actual operating costs of the program, and repay moneys transferred to the account pursuant to Section 51954. The fund is authorized to transfer from the account such actual operating expenses as may be necessary for its administration of this program. Any excess premiums shall be retained in the account and used to expand the loan loss guarantee program hereunder.

Moneys in the account shall be segregated from other moneys of the fund and shall not be transferred from the account for any purpose, except as provided in this chapter. Loan loss guarantees issued by the fund for the benefit of either construction lenders or borrowers shall specify that only the moneys in the account are available to pay claims under loan loss guarantees and that the other assets of the fund, the assets of the California Housing Finance Agency, and the assets of the State of California are not available to pay claims or damages resulting from loan loss guarantees.

51954. Notwithstanding any other provision of law, the California Housing Insurance Fund may borrow one million eight hundred thousand dollars ($1,800,000) from the Local Agency Indebtedness Fund, established pursuant to Article 6.5 (commencing with Section 16496) of Chapter 3 of Division 4 of Title 2 of the Government Code, for the purpose of establishing the Seismic Rehabilitation Loan Loss Guarantee Account within the fund as authorized by subdivision (d) of Section 51659.

Upon request of the fund, the Pooled Money Investment Board shall transfer from the Local Agency Indebtedness Fund such amounts as may be authorized hereunder and upon such terms and conditions as the fund and the board shall agree. Moneys borrowed hereunder shall constitute a loan which shall be repaid with simple interest accrued at the pooled money investment rate exclusively from premium income collected by the fund for seismic rehabilitation loan loss guarantees issued under this chapter. No other moneys of the fund or the agency shall be liable for repayment of the loan from the Local Agency Indebtedness Fund. The loan authorized, along with accrued interest, shall be due and payable not

later than one year from the date of expiration of the last outstanding loan loss guarantee issued, or not later than January 1, 2010, whichever comes first, or unless the Legislature extends the sunset provision of this program because of the success and continuing need for the program.

Moneys transferred to the fund under this section may be used to create reserves for loan loss guarantees authorized by this chapter and for the initial administrative expenses of the program which are not offset by premium income.

51955. In addition to the powers expressly granted by this chapter, the fund shall have all the powers granted under this part in administering this program which are not inconsistent with this chapter.

51956. The California Housing Finance Agency shall prepare an annual statement on the condition of the program established by this chapter. The statement shall be transmitted on or before January 1 of each year to the Governor, the President pro Tempore of the Senate, the Speaker of the Assembly, the Chairpersons of the Senate Committees on Appropriations, Budget and Fiscal Review, and Housing and Urban Affairs, the Chairpersons of the Assembly Committees on Housing and Community Development and Ways and Means, and the Directors of the Seismic Safety Commission and Office of Emergency Services. This chapter shall be inoperative if moneys are not transferred to the fund pursuant to Section 51659 for the purposes defined in Section 51950.

SEC. 4. The Legislature finds and declares that this act supports the public purpose of assuring that the public health and safety is protected through the making of seismic rehabilitation improvements to hazardous buildings. The Legislature further finds and declares that this act is necessary to support this public purpose because California lending institutions would otherwise be reluctant to loan private funds for seismic rehabilitation improvements to hazardous buildings.

CHAPTER 1204

An act to amend Section 311.5 of the Health and Safety Code, relating to nutrition.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares all of the following:

(1) The California Special Supplemental Food Program for Women, Infants, and Children (WIC) is one of the most effective

preventive measures against infant mortality and life disabilities caused by low birth weight.

(2) By providing comprehensive and early perinatal care, of which WIC is an integral part, currently high hospitalization and health care costs to the state are lessened considerably.

(3) Due to limited federal funding, the California WIC program is only able to serve 35 percent of the potentially eligible population, leaving approximately 500,000 persons unserved.

(4) Due to recently contracted for infant formula rebate revenues, the State Department of Health Services has the potential to expand WIC services by 110,000 persons.

(5) California is one of only six states that limits income eligibility for the WIC program to less than the federally allowed maximum of 185 percent of the poverty level thereby arbitrarily keeping thousands of working poor families off the program.

(6) Removing this income eligibility barrier to WIC would allow the state department to expand the WIC caseload as rapidly as allowed, given other programmatic constraints. In addition, WIC would have the same income guidelines as Medi-Cal, thereby streamlining intake and access to both of these programs.

(b) It is the intent of the Legislature to do all of the following:

(1) Streamline and make more effective the delivery of perinatal care.

(2) Reduce provider and state administrative paperwork and overhead.

(3) Ensure that all needy pregnant women, infants, and children have prompt access to perinatal and child health care services.

SEC. 2. Section 311.5 of the Health and Safety Code is amended to read:

311.5. As used in this article, the following definitions shall apply:

(a) "Health professional" means a physician and surgeon, registered nurse, nutritionist, dietitian, or state or local medically trained health official, who is competent to professionally evaluate nutritional need and to authorize supplemental foods, as determined by the state department.

(b) "Low income" means an income of not more than 185 percent of the poverty level as determined by the federal poverty income guidelines promulgated by the United States Department of Health and Human Services.

(c) "Recipient" means low-income pregnant women, low-income postpartum and lactating women, and low-income infants and children under five years of age, who are determined to be at nutritional risk by a health professional, based on criteria established by the state department.

(d) "Nutrition coupon" means a check which is limited as to value, food type, and food quantity and which has a limited period of validity.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act

contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1205

An act relating to highways.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. (a) Upon the request of the California Transportation Commission, the Department of Transportation may conduct a transportation study of Crow Canyon Road between Castro Valley and San Ramon. The study shall include, but not be limited to, all of the following:

(1) An analysis of the origins and destinations of vehicle traffic on the road in order to ascertain the extent of the use of the road by interregional traffic.

(2) A list of improvements that would be necessary for this road to meet state highway standards.

(3) Potential alternative alignments for the road.

(b) The department shall report the results of this study, including its findings, conclusions, and recommendations, to the Senate Committee on Transportation and to the Assembly Committee on Transportation on or before July 1, 1990.

CHAPTER 1206

An act to add Chapter 11 (commencing with Section 1199.200) to Division 2.5 of the Health and Safety Code, relating to emergency care, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) Critically ill and injured children have special needs that are different from those of adults. Specialized personnel, equipment, and services are needed to provide adequate treatment and care for these children.

Approximately 20,000 children under the age of 18 require intensive care each year in California for severe medical, surgical, and trauma-related conditions.

Although excellent emergency services and critical care services are available in California, they are often adult oriented and do not address the needs of children.

(b) Significant progress has been made over the past decade in the evaluation and management of life threatening conditions in children and in the development of organized systems of care for critically ill and injured children. Pediatric deaths and disabilities can be reduced if these children are rapidly transported by appropriately trained and equipped personnel to emergency departments and pediatric critical care centers that have appropriate pediatric staff, equipment, and support services for the optimal care of these children.

(c) There is currently little information in the scientific literature about the components of a critical care system for children that may influence outcomes. The American Academy of Pediatrics recommends that a study be done to determine the outcome measures that can be used to evaluate the implementation of a critical care system for critically ill and injured children.

It is extremely important that any model developed be evaluated and demonstrate that the implementation of a pediatric critical care system has a positive effect on the care of critically ill and injured infants and children.

SEC. 2. Chapter 11 (commencing with Section 1199.200) is added to Division 2.5 of the Health and Safety Code, to read:

CHAPTER 11. EMERGENCY AND CRITICAL CARE SERVICES FOR CHILDREN

1199.200. (a) The State Department of Health Services shall

contract with an organization with expertise in program evaluation, pediatric emergency medical services, and critical care, for the purposes specified in subdivision (b).

(b) The contractor, in consultation with a professional pediatric association, a professional emergency physicians association, a professional emergency medical services medical directors association, the Emergency Medical Services Authority, and the State Department of Health Services, shall perform a study that will identify the outcome criteria which can be used to evaluate pediatric critical care systems. This study shall include, but not be limited to, all of the following:

(1) Development of criteria to identify how changes in pediatric critical care systems affect the treatment of critically ill and injured children.

(2) Development of criteria to compare the systems in place in various areas of the state.

(3) Determination of whether the necessary data is currently available.

(4) Estimate of the cost to providers, such as emergency medical service agencies and hospitals, of collecting this data.

(5) Recommendations concerning the most reliable and cost-effective monitoring plan for use by agencies and facilities at the state, regional, and local levels

1199.201. The contractor shall submit the results of the study to the Legislature and the Governor not later than January 1, 1991.

SEC. 3. Of the amount appropriated in Item 4260-111-001 of Section 2.00 of the Budget Act of 1989, one hundred thirty-five thousand dollars ($135,000) shall be expended by the State Department of Health Services in order to implement Section 2 of this act.

CHAPTER 1207

An act to add Article 6 (commencing with Section 999) to Chapter 6 of Division 4 of the Military and Veterans Code, relating to veterans.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Article 6 (commencing with Section 999) is added to Chapter 6 of Division 4 of the Military and Veterans Code, to read:

Article 6. Disabled Veterans Participation Goals for Professional Bond Services and State Contracts

999. As used in this article, the following definitions apply:

(a) "Administering agency" means the Treasurer in the case of contracts for professional bond services, and the Office of Small and Minority Business in the case of contracts governed by Section 999.2.

(b) "Awarding department" means any agency, department, constitutional officer, governmental entity, or other officer or entity of the state empowered by law to issue bonds or enter into contracts on behalf of the State of California.

(c) "Bonds" means bonds, notes, warrants, certificates of participation, and other evidences of indebtedness issued by or on behalf of the State of California.

(d) "Contract" includes any contract, agreement, or joint agreement to provide professional bond services to the State of California or an awarding department. "Contract" also includes any agreement or joint development agreement to provide labor, services, material, supplies, or equipment in the performance of a contract, franchise, concession, or lease granted, let, or awarded for and on behalf of the State of California.

(e) "Contractor" means any person or persons, firm, partnership, corporation, or combination thereof who submits a bid and enters into a contract with a representative of a state agency, department, governmental entity, or other officer empowered by law to enter into contracts on behalf of the State of California. "Contractor" includes any provider of professional bond services who enters into a contract with an awarding department.

(f) "Disabled veteran" means a veteran of the military, naval, or air service of the United States with a service-connected disability who is a resident of the State of California.

(g) "Disabled veteran business enterprise" means a business concern certified by the administering agency as meeting all of the following requirements:

(1) A sole proprietorship owned by a disabled veteran; or a firm or partnership, 100 percent of the stock or partnership interests of which are owned by one or more disabled veterans.

(2) Managed by, and the daily business operations are controlled by, one or more disabled veterans.

(3) A sole proprietorship, corporation, or partnership with its home office located in the United States, which is not a branch or subsidiary of a foreign corporation, firm, or other business.

(h) "Goal" means a numerically expressed objective that awarding departments are required to make efforts to achieve.

(i) "Professional bond services" include services as financial advisers, bond counsel, underwriters in negotiated transactions, underwriter's counsel, financial printers, feasibility consultants, and other professional services related to the issuance and sale of bonds.

999.1. (a) (1) Notwithstanding any other provision of law, each

awarding department shall have annual statewide participation goals of not less than 3 percent for disabled veteran business enterprises for contracts entered into by the awarding department during the year for professional bond services. This section shall not apply if a contract for professional bond services of an underwriter is to be obtained by competitive bid. However, each awarding department shall establish goals for contracts to be obtained by competitive bid for professional bond services.

(2) These goals shall apply to the overall dollar amount expended by the awarding department with respect to the contracts for professional bond services relating to the issuance of bonds by the awarding department, including amounts spent as underwriter's discounts.

(b) In attempting to meet the goals set forth in subdivision (a), the awarding department shall consider establishing cocounsel, joint venture, and subcontracting relationships, including disabled veteran business enterprises, in all contracts for professional bond services. It shall be the responsibility of the head of each awarding department to be supportive of the Treasurer's program for assigning representative portions of professional bond services contracts for purposes of meeting the goals established pursuant to this section. However, nothing in this article shall preclude the awarding department from achieving the goals set forth in this section without requiring joint ventures, cocounsel, or subcontracting arrangements.

(c) This section shall not limit the ability of any awarding department to meet a goal higher than those set forth in subdivision (a) for the participation of disabled veteran business enterprises in contracts awarded by the awarding department.

999.2. Notwithstanding any other provision of law, all contracts awarded by any state agency, department, officer, or other state governmental entity for construction, professional services (except those subject to Chapter 6 (commencing with Section 16850) of Part 3 of Division 4 of Title 2 of the Government Code), materials, supplies, equipment, alteration, repair, or improvement shall have statewide participation goals of not less than 3 percent for disabled veteran business enterprises. These goals apply to the overall dollar amount expended each year by the awarding department. This article shall not apply to any contract that is subject to Section 10108.5 of the Public Contract Code.

999 3. Notwithstanding Section 999.1, if a contract for professional bond services of an underwriter is to be obtained by competitive bid, the awarding department shall, at a minimum, take all of the following actions:

(a) Deliver the notice of sale or other notification of intention to issue the bonds to all disabled veteran business enterprises that have listed their names with the awarding department for the purpose of this notice and other qualified disabled veteran enterprises known to the awarding department.

(b) State in all notices of sale and other notifications of intention to issue bonds that disabled veteran business enterprises are encouraged to respond.

(c) Require all submitting bidders to certify their awareness of the goals of the awarding department in accordance with this article.

999.4. In awarding contracts to the lowest responsible bidder, the awarding department shall consider the responsiveness of a bidder to disabled veteran business enterprise goals set forth in this article. If a bidder fails to show a good faith effort, the awarding department shall award the contract to the next lowest responsive and responsible bidder.

999.5. (a) The administering agency shall establish a method of monitoring adherence to the goals specified in Sections 999.1 and 999.2, including requiring a followup report from all contractors upon the completion of any sale of bonds.

(b) The administering agency shall adopt rules and regulations, including standards for good faith efforts for the purpose of implementing this section. Emergency regulations consistent with this section may be adopted.

999.6. In implementing this article, the awarding department shall utilize existing resources such as the Office of Small and Minority Business, the Department of Veterans Affairs, the federal Department of Veterans Affairs, and the Small Business Administration.

999.7. Beginning July 1, 1990, and on January 1, 1991, and on January 1 of each year thereafter, the Treasurer and Office of Small and Minority Business shall report to the Governor and the Legislature on the level of participation by disabled veteran business enterprises in contracts identified in this article. If the established goals are not met, the awarding department shall report to the administering agency, which shall in turn report to the Governor and the Legislature, the reasons for its inability to achieve the goals and identify steps it shall take in an effort to achieve the goals. In complying with this section, the Treasurer, at his or her discretion, may utilize the monitoring and reporting procedure established by the Office of Small and Minority Business pursuant to subdivision (a) of Section 10115.3 and Section 10115.5 of the Public Contract Code.

999.8. (a) Notwithstanding anything in this article to the contrary, the validity or enforceability of any bonds, or any contract or any notes, or other obligations issued by the awarding department to provide for the payment of any contract subject to this article shall not be affected in any way by the failure of an awarding department to meet the goals established under this article.

(b) No action may be maintained to enjoin the issuance of any bonds to which this article applies or the enforcement of any contract for professional bond services based on an awarding department's failure to meet the goals set forth in Section 999.1.

CHAPTER 1208

An act to amend Section 972 of, and to add Section 972.1 to, the Military and Veterans Code, relating to veterans, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares as follows:

(a) There currently reside in California approximately 3.3 million veterans who, along with their dependents, account for approximately 20 percent of the state's total population.

(b) Many veterans who are entitled to federal veterans' benefits are unaware of their entitlement and, instead, seek assistance through state health and welfare programs. County veteran service officers assist veterans in obtaining their federal entitlements, thus eliminating the need for state assistance and avoiding the expenditure of millions in state tax dollars.

SEC. 2. Section 972 of the Military and Veterans Code is amended to read:

972. The board of supervisors may provide the county veteran service officer with any assistance and facilities which it determines to be necessary. If such a position is created and filled, the compensation and expenses of the county veteran service officer shall be a county charge, but the Department of Veterans Affairs, out of state moneys available therefor, shall, pursuant to Section 972.1, pay each county a portion of those costs in an amount determined by the department, conditioned upon the observance of standards and regulations adopted by, and in compliance with the direction of, the department and its authorized representatives. State money available for paying counties any portion of the cost of the compensation and expenses of county veteran service officers shall not include any funds of the Veterans' Farm and Home Building Fund of 1943 Contributions by the department to any county toward the payment of the salary of the county veteran service officer who is not employed in that capacity on a full-time basis shall not exceed the sum of seventy-five dollars ($75) per month.

SEC. 3. Section 972.1 is added to the Military and Veterans Code, to read:

972.1. (a) The sum of five hundred thousand dollars ($500,000) is hereby appropriated from the General Fund to the Department of Veterans Affairs for allocation, during the 1989–90 fiscal year, for purposes of funding the activities of county veteran service officers pursuant to this section. Funds for allocation in future years shall be as provided in the annual Budget Act.

(b) Funds shall be disbursed each fiscal year on a pro rata basis to counties which have established and maintain a county veteran service officer in accordance with the staffing level and workload of each county veteran service officer under a formula based upon performance which shall be developed by the Department of Veterans Affairs for these purposes, and which allocate county funds in any fiscal year for county veterans service officers in an amount not less than the amount allocated in the 1988–89 fiscal year.

(c) The Department of Veterans Affairs shall annually compile and publish in one or more newspapers of general circulation in each county receiving funding under this section a statistical review to inform the people of the county of the effectiveness of county veteran service officers.

CHAPTER 1209

An act to amend Section 11010 of the Business and Professions Code, to amend Sections 17702.1, 17705.5, 17714, 17718.5, 17719.5, 17732, 17742, 17742.7, 17746.7, 17749, 39140, and 39304.5 of, and to add Sections 16080.5 and 17740.2 to, the Education Code, to amend Sections 53080, 65995, 65995.1, 65996, and 66007 of, and to add Sections 15492, 53080.1, 53080.2, 53080.3, 53080.6, 65974.5, 65995.2, and 66413.7 to, the Government Code, and to amend Sections 18035 and 18035.2 of the Health and Safety Code, relating to school facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 11010 of the Business and Professions Code is amended to read:

11010. (a) Except as otherwise provided pursuant to subdivision (c) or elsewhere in this chapter, any person who intends to offer subdivided lands within this state for sale or lease shall file with the Department of Real Estate an application for a public report consisting of a notice of intention and a completed questionnaire on a form prepared by the department.

(b) The notice of intention shall contain the following information about the subdivided lands and the proposed offering:

(1) The name and address of the owner.

(2) The name and address of the subdivider.

(3) The legal description and area of lands.

(4) A true statement of the condition of the title to the land, particularly including all encumbrances thereon.

(5) A true statement of the terms and conditions on which it is intended to dispose of the land, together with copies of any contracts

intended to be used.

(6) A true statement of the provisions, if any, that have been made for public utilities in the proposed subdivision, including water, electricity, gas, telephone, and sewerage facilities.

(7) A true statement of the use or uses for which the proposed subdivision will be offered.

(8) A true statement of the provisions, if any, limiting the use or occupancy of the parcels in the subdivision.

(9) A true statement of the amount of indebtedness which is a lien upon the subdivision or any part thereof, and which was incurred to pay for the construction of any onsite or offsite improvement, or any community or recreational facility.

(10) A true statement or reasonable estimate, if applicable, of the amount of any indebtedness which has been or is proposed to be incurred by an existing or proposed special district, entity, taxing area, assessment district, or community facilities district within the boundaries of which, the subdivision, or any part thereof, is located, and which is to pay for the construction or installation of any improvement or to furnish community or recreational facilities to that subdivision, and which amounts are to be obtained by ad valorem tax or assessment, or by a special assessment or tax upon the subdivision, or any part thereof.

(11) (A) As to each school district serving the subdivision, a statement approved or ratified by the governing board of the district that indicates the location of each high school, junior high school, and elementary school serving the subdivision, or documentation that a statement to that effect has been requested from the governing board of the school district.

(B) In the event that, as of the date the notice of intention and application for issuance of a public report are otherwise deemed to be qualitatively and substantially complete pursuant to Section 11010.2, the statement described in subparagraph (A) has not been provided by any school district serving the subdivision, the person who filed the notice of intention and application for issuance of a public report immediately shall provide the department with the name, address, and telephone number of that district.

(12) The location of all existing airports, and of all proposed airports shown on the general plan of any city or county, located within two statute miles of the subdivision.

(13) A true statement, if applicable, referencing any soils or geologic report or soils and geologic reports that have been prepared specifically for the subdivision.

(14) A true statement of whether or not fill is used, or is proposed to be used in the subdivision and a statement giving the name and the location of the public agency where information concerning soil conditions in the subdivision is available.

(15) Any other information that the owner, his or her agent, or the subdivider may desire to present.

(c) The commissioner may, by regulation, or on the basis of the

particular circumstances of a proposed offering, waive the requirement of the submission of a completed questionnaire if the commissioner determines that prospective purchasers or lessees of the subdivision interests to be offered will be adequately protected through the issuance of a public report based solely upon information contained in the notice of intention.

SEC. 2. The Legislature finds and declares as follows:

(a) Certain school districts in this state are recipients of state school construction apportionments under the State School Building Aid Law of 1952. Each of those recipient districts is required under statute to make specified repayments to the state on the basis of a designated property tax rate to be applied to property within the district.

(b) The school facilities funding program currently employed by this state is the Leroy F. Greene State School Building Lease-Purchase Law of 1976, under which sufficient funding is not available to meet the school facilities needs of school districts throughout the state.

(c) The application of local funding sources to district school facilities needs is encouraged, therefore, in order to alleviate the statewide demand on the state program of school facilities funding. Pursuant to that purpose, the statutory repayment schedule applicable under the State School Building Aid Law of 1952 should be revised so as to reduce the property tax rate in a qualified recipient school district, thus facilitating the approval of a general obligation bond measure within the district.

SEC. 3. Section 16080.5 is added to the Education Code, to read:

16080 5. (a) Notwithstanding any other provision of this chapter, for any school district that qualifies under subdivision (b), as certified by the State Allocation Board, the Controller, upon receipt of a written request to that effect from the governing board of the school district, shall reduce the tax amount that would otherwise be utilized in computing the district's annual repayment obligation under this chapter by the amount of 50 percent.

(b) Subdivision (a) shall apply to any school district in which, on or after January 1, 1989, the voters of the district approve a local general obligation bond measure, which measure includes within its purposes the funding of school facilities construction or reconstruction. Subdivision (a) shall apply to a district that qualifies under this subdivision as of the day following the date of that voter approval.

SEC. 4. Section 17702.1 of the Education Code is amended to read:

17702.1. As used in this chapter, construction shall include, but not be limited to, reconstruction, modernization, and replacement of facilities, and the performance of deferred maintenance activities on facilities pursuant to rules and regulations regarding those activities as may be adopted by the board. Funding for deferred maintenance activities for a facility may be approved under this chapter without

regard to whether project funding for the reconstruction, modernization, or replacement of the facility is prohibited under Section 17721.

SEC. 5. Section 17705.5 of the Education Code is amended to read:

17705.5. (a) The total building cost portion of any state funding for any project approved under this chapter for the construction of one or more school facilities shall be reduced by the amount of the local matching share requirement computed under subdivision (b).

(b) Each school district to which funds are allocated pursuant to this chapter for the construction or reconstruction of one or more school facilities shall provide, as its share of the cost of the project, an amount equal to the product of the applicable maximum fee authorized under Section 53080 of the Government Code, or Chapter 4.7 (commencing with Section 65970) of Division 1 of Title 7 of the Government Code, or both, times the number of square feet of new residential, commercial, and industrial construction, as appropriate, for which building permits are issued within the boundaries of the school district from the date on which the board approves the district's application for project funding under this chapter to the date upon which the notice of completion for the project is issued. Notwithstanding any other provision of this paragraph, as to any construction for which the payment of a fee, charge, or dedication is required under a contract as described in paragraph (1) of subdivision (c) of Section 65995 of the Government Code, the matching share required under this subdivision shall be deemed to be the maximum payment that may be required under that contract as a condition of the approval of that construction. The amount calculated in this subdivision is reduced by the sum of the following:

(1) Any amounts expended by the district during the described period of time for the acquisition of interim classroom facilities pursuant to Chapter 4.7 (commencing with Section 65970) of Division 1 of Title 7 of the Government Code from the proceeds of the fee levied by the district during that period. This amount is limited to the acquisition of interim classroom facilities necessary to temporarily house that number of pupils calculated, under state pupil loading standards, by subtracting the average daily attendance of the district based on a three-year enrollment projection from the average daily attendance of the district based on a five-year enrollment projection. Notwithstanding that limit, the board may authorize the acquisition of additional interim classroom facilities for the purposes of this paragraph to the extent it determines that acquisition to be necessary to alleviate severe classroom overcrowding. Enrollment projections for this purpose shall be made in accordance with this chapter.

(2) Any amounts expended by the district during the described period of time for the local matching share of any project funded under this chapter from the proceeds of the fee levied by the district

during that period.

(3) An amount reflecting the extent to which the district is precluded from collecting those fees by reason of the levy and collection of developer fees by another school district having common territorial jurisdiction.

(4) An amount reflecting the reasonable administrative expenses incurred by the school district in calculating and collecting the fees or other requirements levied by the school district during that period. If the school district has entered into an agreement pursuant to subdivision (a) of Section 53080 of the Government Code whereby the fees or other requirements imposed are collected in whole or in part by a city or county, the amount of administrative expenses calculated under this paragraph shall include any amount paid by the school district to the city or county as reimbursement for that service. In no event shall the total amount of the administrative expenses calculated under this paragraph exceed 3 percent of the fees collected during that period.

(c) Where, pursuant to Section 65995.5 of the Government Code, part or all of the local matching share is funded from the proceeds of a special tax or other charge, rather than from the imposition of a school facilities fee or other requirement, the applicant district shall not be required to pay that amount of the local matching share until those proceeds become available to the district.

(d) For purposes of establishing an estimate of the state project costs pursuant to subdivision (a), the board may estimate the local matching share by using the product of the annual average of the amount that would have resulted from the application of the maximum fee to the square footage of all new construction within the district over the three calendar years preceding the district's project application times the number of years over which the board estimates the fee will be collected by the district pursuant to the project to be funded.

(e) Only those project applications for which, prior to January 1, 1987, the board had made the apportionment for site acquisition and working drawings or the final apportionment for construction of the project shall be subject to the provisions of this chapter in effect prior to that date.

(f) The board may provide a loan to any applicant district in an amount equal to all or a part of the district's obligation under subdivision (b), subject to the requirement that the district pay each month to the board, as reimbursement, an amount equal to the proceeds that would be received by the district from the imposition of the fee described under subdivision (b) until the total amount of the loan has been repaid, together with interest computed pursuant to Section 16065.

(g) The board may make the loan specified in subdivision (f) from any funds available from any source, including, but not limited to, those amounts made available pursuant to Section 16065.

(h) All loan and interest amounts paid to the state pursuant to this

section shall be available for the use of the board in the funding of projects as otherwise provided under this chapter, including, but not limited to, additional loans.

(i) The board is authorized to accept from applicant school districts, as a method of compliance with all or part of the local matching share requirement calculated under this section, land that will be part of the project for which the matching share is to be paid, in which event title to the land shall be conveyed to the state. The board shall determine the value of the land to be used for this purpose, and shall adopt rules and regulations as necessary to otherwise implement this subdivision.

(j) This section shall remain in effect only until such date as any state general obligation bond measure submitted to the voters of this state for their ratification, which measure includes within its purposes the funding of school facilities construction, fails to receive that ratification, and as of that date is repealed.

SEC. 6. Section 17714 of the Education Code is amended to read:

17714. (a) The board shall require the school district to make all necessary repairs, renewals, and replacements to ensure that a project is at all times kept in good repair, working order, and condition. All costs incurred for this purpose will be borne by the school district.

(b) In order to ensure compliance with subdivision (a) and encourage applicants to maintain all buildings under their control, the board shall require the applicant to do all of the following prior to the approval of a project:

(1) Establish a restricted account within the district's general fund for the exclusive purpose of providing moneys for regular maintenance and routine repair of school buildings, according the highest priority to funding for the purpose set forth in subdivision (a).

(2) Agree to deposit into the account established pursuant to paragraph (1), in each fiscal year for the term of the lease agreements of all projects constructed under this chapter, a minimum amount equal to or greater than 2 percent of the applicant's General Fund budget for that fiscal year. This paragraph is applicable only to the following districts:

(A) High school districts with average daily attendance greater than 300.

(B) Elementary school districts with average daily attendance greater than 900.

(C) Unified school districts with average daily attendance greater than 1,200.

SEC. 7. Section 17718.5 of the Education Code is amended to read.

17718.5. (a) The Legislature intends for the board to encourage school districts to utilize alternative methods to fund school facilities.

(b) The board shall approve applications pursuant to the requirements of this section that request the board to share a portion

of the cost of projects constructed pursuant to the Mello-Roos Community Facilities Act of 1982, as set forth by Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code. The board shall disregard the fact that structures have been constructed in accordance with that act, and neither consider nor approve any application for cost sharing until the time that the applicant school district would have become eligible for approval of its application during the normal process established for considering and approving applications.

(c) The board shall approve applications for cost sharing based on both of the following factors:

(1) Estimates of average daily attendance at the time the application is considered.

(2) The amount of cost sharing requested.

(d) The costs shared by the board shall be an amount equal to the cost that would have been allowed for the project had it been originally approved pursuant to this chapter less 5 percent per year depreciation, exclusive of land, for each year that the project was constructed in advance of the application approval, but no more than the lesser of an amount equal to 75 percent of the allowable cost of the project or the principal amount of any outstanding callable bonds and other debts incurred to finance the project under the Mello-Roos Community Facilities Act of 1982.

(e) If the board utilizes a point system to prioritize applications for funding, the computation of priorities for an application pursuant to this section shall be increased by 4 percent for each year from the date of construction of the project to the date of approval of the cost sharing application.

(f) Section 17705.5 does not apply to any project funded pursuant to this section.

SEC. 8. Section 17719.5 of the Education Code is amended to read:

17719 5 For a school district having an average daily attendance of 2,500 or less for the prior fiscal year, the board may approve, subject to the building cost standards established under this chapter, a supplemental apportionment up to five thousand five hundred dollars ($5,500) for any new construction project, and up to one thousand three hundred twenty dollars ($1,320) for any other project approved under this chapter, as reimbursement for administrative expenses incurred by the district in filing the application for the project. The amount of the supplemental apportionments shall be adjusted in 1990, and every two years thereafter, by the board at its January meeting, which adjustment shall be in an amount equal to the amount of the adjustment for inflation set forth in the statewide cost index for class D construction.

SEC. 9. Section 17732 of the Education Code is amended to read:

17732. The board shall fix rents for all projects acquired and may change the rents from time to time as may be needed provided the rents shall not in any year exceed the sum of the following:

(a) One dollar ($1).

(b) Any interest earned on funds in the county school lease-purchase fund for the district.

(c) Any unencumbered bond funds of the district, exclusive of funds that are used by the district to fund a project pursuant to Section 17740.2.

(d) The net proceeds from the sale or lease of any school buildings or land no longer needed for school purposes, exclusive of proceeds that are used for capital outlay expenditures for school construction that conforms to building area standards established under this chapter, for revenue purposes under a joint venture as authorized by Section 17732.3, or for the district funding requirement under subdivision (b) of Section 17705.5.

SEC. 10. (a) The Legislature recognizes the increasing unmet need for additional school facilities in this state. The Legislature further recognizes that this state does not have the resources necessary to fund all of the school facilities needed.

(b) In 1986, the people of California approved the use of local general obligation bonds secured by the property tax as a method of acquiring or improving real property. The Legislature finds and declares that this method of financing was used for 95 percent of all public schools built in California prior to 1978, and should be encouraged.

SEC. 11. Section 17740.2 is added to the Education Code, to read:

17740.2. Where 75 percent or more of the total cost of a project approved under this chapter, not including the portion of the project cost funded by the district matching share required under Section 17705.5, is to be funded by the applicant district from sources other than any state program administered by the board, the area of the allowable new building construction for that project, and the amount of the building cost allowed for that project under this chapter, shall each be increased by 5 percent, plus 1 percent for each 1 percent by which that local contribution exceeds 75 percent. In addition, any project funded pursuant to this section shall be expedited by permitting the applicant district to certify its eligibility for project funding under the building area and cost standards established under this chapter, subject to the requirement that the district maintain documentation of that eligibility, which shall be subject to subsequent audit as the board may direct.

SEC. 12. Section 17742 of the Education Code is amended to read:

17742. (a) The board, by the adoption of rules, shall provide for the manner of determining the area of adequate school construction existing in an applicant school district at the time of application. Those rules shall define and provide for the method of determining building areas that are to be included in, in whole or in part, or to be excluded from, the area of existing adequate school construction. Any building to which Article 3 (commencing with Section 39140) of Chapter 1 of Part 23 of Division 3 of Title 2 does not apply shall not be considered adequate school construction for the purpose of

determining the maximum total building area per attendance unit.

The board may make exceptions to the provisions of this section, or to the rules adopted pursuant thereto, if it determines that the exception or exceptions will be for the benefit of pupils affected.

(b) For the purposes of this chapter, the area of adequate school construction existing in an applicant school district does not include any of the following:

(1) Any portable classroom made available to the district under Chapter 25 (commencing with Section 17785).

(2) In any school operated on a year-round schedule, any building area that has been in continuous use during the preceding five-year period primarily for the operation of any preschool program or programs.

(c) The board shall provide that building area for covered unenclosed space shall be counted as one-third of the actual area. For purposes of this subdivision, "covered unenclosed space" includes, but is not limited to, all of the following:

(1) Open-ended or open-sided covered passages, arcades, shelters, porches, and planting areas.

(2) Open-ended or open-sided covered areas that provide shelter between buildings that are 20 feet or more apart.

(3) Overhangs and sun control devices designed and located to function in lieu of covered walks or other shelters.

(4) Mezzanines used for storage purposes.

(d) The board may make exceptions to this section, or to the rules adopted pursuant thereto, if it determines that the exception or exceptions will be for the benefit of pupils affected.

SEC. 13. Section 17742.7 of the Education Code is amended to read:

17742.7. (a) For any project application filed or amended on or after January 1, 1987, the area of adequate school construction existing in the applicant school district or, where appropriate, in the attendance area, at the time of application shall be calculated as otherwise provided by this article or, at the request of the district, pursuant to the following formula:

(1) Identify by grade level all teaching stations existing in the school district or, where appropriate, the attendance area, as of January 1, 1986. For the purposes of this section, "teaching station" means any space that was constructed or reconstructed to serve as an area in which to provide pupil instruction.

(2) Determine the maximum pupil loading figure for each grade level pursuant to the district pupil loading standards in effect on January 1, 1986. For the purposes of this section, the "district pupil loading standards" are those pupil loading standards in effect in a school district on January 1, 1986, as a result of actions including, but not necessarily limited to, the execution of a collective bargaining agreement or the adoption of a district policy by the governing board of the school district. In no event may this figure be more than the maximum pupil loading standards established by the board, or less

than three pupil units lower than those maximum pupil loading standards.

(3) Multiply the figure determined under paragraph (2) for each grade level by the number of teaching stations for the particular grade level, as determined under paragraph (1).

(4) Multiply the product determined under paragraph (3) by the maximum area allowance established for that grade level under this article.

(5) The sum of these computations for each grade level, as determined under paragraphs (1) to (4), inclusive, in addition to the area of existing adequate school construction as calculated under Section 17740 for all school construction completed after January 1, 1986, in the district or, where appropriate, the attendance area, shall be the total area of adequate school construction existing in the district or attendance area pursuant to this formula.

(b) For purposes of this section, a school district that is participating in a class size reduction program set forth in this code shall use the pupil loading standard established pursuant to that program.

SEC. 14. Section 17746.7 of the Education Code is amended to read:

17746.7. Notwithstanding any other provision of law, the determination of the area of allowable new building construction for any project for an applicant school district for which original construction commenced on or after January 1, 1987, shall be made on the basis of 107 percent of the area that would otherwise be determined for that purpose under this chapter, calculated to the nearest whole number.

SEC. 15. Section 17749 of the Education Code is amended to read:

17749. (a) The board shall require, as a condition of providing funding for any project under this chapter, that, for any facilities for kindergarten or any of grades 1 to 12, inclusive, or for any facilities for special education or continuation high school purposes, at least 30 percent of allowable new building construction for classrooms under the project be utilized for relocatable structures.

(b) The board may reduce the percentage requirement set forth in subdivision (a), as to any applicant, in the event that the quantity of relocatable structures necessary to comply with those requirements is unavailable from the manufacturers of those structures.

(c) The board may reduce or eliminate the percentage requirements set forth in subdivision (a), as to any applicant, under either of the following circumstances:

(1) Where the board finds that special conditions of terrain, climate, or unavailability of space within the attendance area make the use of relocatable structures impractical or inappropriate.

(2) Under the condition that, as the result of a future project for which the district receives funding under this chapter, located on the same schoolsite on which the current project is located, at least 30

percent of total building construction for classrooms on that schoolsite will be utilized for relocatable structures.

(d) Relocatable structures acquired by an applicant school district up to two years preceding the final approval by the board of the project application submitted by the district shall apply to the percentage requirements set forth in subdivision (a). The cost of acquiring those structures shall apply to fulfilling the district's funding requirement under Section 17705.5.

(e) Whenever at least 10 percent of the allowable new building construction contained in an application is to be utilized for relocatable structures, an additional three square feet of building area for each pupil to be housed under the approved project shall be allowed.

SEC. 16. Section 39140 of the Education Code is amended to read:

39140. (a) The Department of General Services under the police power of the state shall supervise the design and construction of any school building or, if the estimated cost exceeds twenty thousand dollars ($20,000), the reconstruction or alteration of or addition to any school building, to ensure that plans and specifications comply with the rules and regulations adopted pursuant to this article and building standards published in Title 24 of the California Code of Regulations, and to ensure that the work of construction has been performed in accordance with the approved plans and specifications, for the protection of life and property. Nothing in this section shall be construed to allow a school district to perform work with its own forces in excess of the limitations set forth in Sections 39640 and 39649. In calculating the cost of any project of reconstruction or alteration of, or addition to, any school building for the purpose of determining the applicability of the rules and regulations adopted pursuant to this article and building standards published in Title 24 of the California Code of Regulations, the Department of General Services shall not include, as an element of that cost, any expenses of air-conditioning equipment or insulation materials for that building, or of installing the equipment or materials.

(b) Whenever repairs due to fire damage, not including any damage caused by wind or earthquake, must be made to any school building previously approved by the Department of General Services, the approved plans and specifications used in the original work under then existing rules, regulations, and building standards may be used without modification, providing all other provisions of this article are carried out.

(c) Notwithstanding any other provision of law, no school district shall be authorized to construct or reconstruct any school building, regardless of the source of funding, unless and until one of the following criteria has been met:

(1) The district architect has certified that the project satisfies the construction cost and allowable area standards prescribed by Chapter 22 (commencing with Section 17700) of Part 10.

(2) The governing board of the district has, by resolution,

indicated the agreement of the district that any school building construction or reconstruction that exceeds those construction cost and allowable area standards or any allowable building area computed for an attendance area pursuant to Section 17741 shall, in the event of the district's subsequent application for state funding for school facility construction, be deducted from the allowable building area for which the district would otherwise have been eligible, which restriction shall not be subject to waiver or exception, as may otherwise be provided by law, including, but not limited to, Section 17742.

If it is determined that, for any reason, a school district failed to comply with the requirement of this section, the district shall not be eligible for any additional building area pursuant to Section 17749 and may be denied any time priority established for the particular project pursuant to Section 17716.

SEC. 17. Section 39304.5 of the Education Code is amended to read:

39304.5. Any lease or agreement shall be subject to the following requirements:

(a) A building or structure which is to be used for school purposes shall be subject to the provisions of Article 3 (commencing with Section 39140) and Article 6 (commencing with Section 39210). The governing board of a school district may request and obtain from the State Allocation Board authority for use of any building not meeting the structural standards prescribed by Article 3 (commencing with Section 39140) until September 1, 1990. After September 1, 1990, the governing board of a school district may request and obtain from the State Allocation Board a one-time waiver of Article 3 (commencing with Section 39140) for a maximum of three years upon presentation of satisfactory evidence to the State Allocation Board that the district is proceeding in a timely manner with a program that will eliminate the need for the leased facilities within that time period. A building or facility used by a school district under a lease or lease-purchase agreement into which neither pupils nor teachers are required to enter or that would be excluded from the definition of "school building," as contained in Section 39214, shall not be considered to be a "school building" within the meaning of Section 39141.

(b) Subdivision (a) shall not apply to trailer coaches used for classrooms or laboratories if the trailer coaches conform to the requirements of Part 2 (commencing with Section 18000) of Division 13 of the Health and Safety Code, and the rules and regulations promulgated thereunder concerning mobilehomes, are not expanded or fitted together with other sections to form one unit greater than 24 feet in width, are used for special educational purposes, and are used by not more than 12 pupils at a time, except that the trailer coaches may be used by not more than 20 pupils at a time for driver training purposes.

(c) The site on which a leased relocatable structure is located shall be owned by the school district, or shall be under the control of the

school district pursuant to a lease or a permit.

"Relocatable structure" is any structure that is designed to be relocated.

SEC. 18. Section 15492 is added to the Government Code, to read:

15492. (a) The Department of General Services shall assign one full-time position within the Office of Local Assistance to the performance of the following functions:

(1) Providing advisory assistance to school districts regarding the process of site acquisition for projects for which the State Allocation Board has approved funding under Chapter 22 (commencing with Section 17700) of Part 10 of the Education Code.

(2) Formulating recommendations for administrative or statutory revision to the manner in which school sites are acquired under Chapter 22 (commencing with Section 17700) of Part 10 of the Education Code, and submitting those recommendations to the State Allocation Board.

(b) The Department of General Services shall establish a screening unit or other mechanism within the Office of Local Assistance to ensure that the office responds in a timely manner to any inquiry regarding the status of an application for project funding under Chapter 22 (commencing with Section 17700) of Part 10 of the Education Code.

(c) The requirements set forth in this section shall not increase the staffing level of the Office of Local Assistance, as that staffing level existed on the operative date of this section.

SEC. 19. Section 53080 of the Government Code is amended to read:

53080. (a) (1) The governing board of any school district is authorized to levy a fee, charge, dedication, or other requirement against any development project within the boundaries of the district, for the purpose of funding the construction or reconstruction of school facilities, subject to any limitations set forth in Chapter 4.9 (commencing with Section 65995) of Division 1 of Title 7 This fee, charge, dedication, or other requirement may be applied to construction only as follows:

(A) To new commercial and industrial construction. The chargeable covered and enclosed space of a commercial or industrial development project, as defined in Section 65995, shall not be deemed to include the square footage of any structure existing on the site of that development project as of the date the first building permit is issued for any portion of that development project.

(B) To new residential construction.

(C) To other residential construction, only if the resulting increase in assessable space, as defined in Section 65995, exceeds 500 square feet. The calculation of the "resulting increase in assessable space" for this purpose shall reflect any decrease in assessable space in the same residential structure that also results from that construction. Where authorized under this paragraph, the fee, charge, dedication, or other requirement is applicable to the total

resulting increase in assessable space.

(2) For purposes of this section, "development project" means any project undertaken for the purpose of development, and includes a project involving the issuance of a permit for construction or reconstruction, but not a permit to operate.

(3) For purposes of this section, "construction or reconstruction of school facilities" does not include any item of expenditure for any of the following:

(A) The regular maintenance or routine repair of school buildings and facilities.

(B) The inspection, sampling, analysis, encapsulation, or removal of asbestos-containing materials, except where incidental to school facilities construction or reconstruction for which the expenditure of fees or other consideration collected pursuant to this section is not prohibited.

(C) The purposes of deferred maintenance described in Section 39618 of the Education Code.

(4) The appropriate city or county may be authorized, pursuant to contractual agreement with the governing board, to collect and otherwise administer, on behalf of the school district, any fee, charge, dedication, or other requirement levied under this subdivision. In the event of any agreement authorizing a city or county to collect that fee, charge, dedication, or other requirement in any area within the school district, the certification requirement set forth in subdivision (b) or (c), as appropriate, is deemed to be complied with as to any residential development project within that area upon receipt by that city or county of payment of the fee, charge, dedication, or other requirement imposed on that project.

(5) Fees or other consideration collected pursuant to this section may be expended by a school district for the costs of performing any study or otherwise making the findings and determinations required under subdivisions (a), (b), and (d) of Section 66001. In addition, an amount not to exceed, in any fiscal year, 3 percent of the fees collected in that fiscal year pursuant to this section may be retained by the school district, city, or county, as appropriate, for reimbursement of the administrative costs incurred by that entity in collecting the fees. When any city or county is entitled, under an agreement as described in paragraph (4), to compensation in excess of that amount, the payment of that excess compensation shall be made from other revenue sources available to the school district.

(b) No city or county, whether general law or chartered, may issue a building permit for any development absent certification by the appropriate school district of compliance by that development project with any fee, charge, dedication, or other requirement levied by the governing board of that school district pursuant to subdivision (a), or of the district's determination that the fee, charge, dedication, or other requirement does not apply to the development project.

(c) If, pursuant to subdivision (c) of Section 53080.1, the governing board specifies that the fee, charge, dedication, or other

requirement levied under subdivision (a) is subject to the restriction set forth in subdivision (a) of Section 66007, the restriction set forth in subdivision (b) of this section does not apply. In that event, however, no city or county, whether general law or chartered, may conduct a final inspection or issue a certificate of occupancy, whichever is later, for any residential development project absent certification by the appropriate school district of compliance by that development project with any fee, charge, dedication, or other requirement levied by the governing board of that school district pursuant to subdivision (a).

(d) Neither subdivision (b) nor (c) shall apply to a city or county as to any fee, charge, dedication, or other requirement as described in subdivision (a), or as to any increase in that fee, charge, dedication, or other requirement, except upon the receipt by that city or county of notification of the adoption of, or increase in, the fee or other requirement in accordance with subdivision (c) of Section 53080.1.

SEC. 20. Section 53080.1 is added to the Government Code, to read:

53080.1. (a) Any resolution adopting or increasing a fee, charge, dedication, or other requirement pursuant to Section 53080, for application to residential, commercial, or industrial development, shall be enacted in accordance with Chapter 5 (commencing with Section 66000) of Division 1 of Title 7, with Section 54994.1, and with the procedures for mailed notice set forth in Section 54992. The adoption, increase, or imposition of any fee, charge, dedication, or other requirement pursuant to Section 53080 shall not be subject to Division 13 (commencing with Section 21000) of the Public Resources Code. The adoption of, or increase in, the fee, charge, dedication, or other requirement shall be effective no sooner than 60 days following the final action on that adoption or increase, except as specified in subdivision (b).

(b) Without following the procedure otherwise required for adopting or increasing a fee, charge, dedication, or other requirement, the governing board of a school district may adopt an urgency measure as an interim authorization for a fee, charge, dedication, or other requirement, or increase in a fee, charge, dedication, or other requirement, where necessary to respond to a current and immediate threat to the public health, welfare, or safety. The interim authorization shall require a four-fifths vote of the governing board for adoption, and shall contain findings describing the current and immediate threat to the public health, welfare, or safety. The interim authorization shall have no force or effect on and after a date 30 days after its adoption. After notice and hearing in accordance with subdivision (a), the governing board, upon a four-fifths vote of the board, may extend the interim authority for an additional 30 days. Not more than two extensions may be granted.

(c) Upon adopting or increasing a fee, charge, dedication, or other requirement pursuant to subdivision (a) or (b), the school district

shall transmit a copy of the resolution to each city and each county in which the district is situated, accompanied by all relevant supporting documentation and a map clearly indicating the boundaries of the area subject to the fee, charge, dedication, or other requirement. The school district governing board shall specify, pursuant to that notification, whether or not the collection of the fee or other charge is subject to the restriction set forth in subdivision (a) of Section 66007.

(d) Any party on whom a fee, charge, dedication, or other requirement has been directly imposed pursuant to Section 53080 may protest the establishment or imposition of that fee, charge, dedication, or other requirement in accordance with Section 66009, except that the procedures set forth in Section 66008 are deemed to apply, for this purpose, to commercial and industrial development, as well as to residential development.

(e) In the case of any commercial or industrial development, the following procedures shall also apply:

(1) The school district governing board shall, in the course of making the findings required under subdivisions (a) and (b) of Section 66001, do all of the following:

(A) Make the findings on either an individual project basis or on the basis of categories of commercial or industrial development. Those categories may include, but are not limited to, the following uses: office, retail, transportation, communications and utilities, light industrial, heavy industrial, research and development, and warehouse.

(B) Conduct a study to determine the impact of the increased number of employees anticipated to result from the commercial or industrial development upon the cost of providing school facilities within the district. For the purpose of making that determination, the study shall utilize employee generation estimates that are based on commercial and industrial factors within the district, as calculated on either an individual project or categorical basis, in accordance with subparagraph (A). The governing board shall take into account the results of that study in making the findings described in this subdivision.

(2) In addition to any other requirement imposed by law, in the case of any development project against which a fee, charge, dedication, or other requirement is to be imposed pursuant to Section 53080 on the basis of a category of commercial or industrial development, as described in paragraph (1), the governing board shall provide a process that permits the party against whom the fee, charge, dedication, or other requirement is to be imposed the opportunity for a hearing to appeal that imposition. The grounds for that appeal include, but are not limited to, the inaccuracy of including the project within the category pursuant to which the fee, charge, dedication, or other requirement is to be imposed, or that the employee generation or pupil generation factors utilized under the applicable category are inaccurate as applied to the project. The

party appealing the imposition of the fee, charge, dedication, or other requirement shall bear the burden of establishing that the fee, charge, dedication, or other requirement is improper.

SEC. 21. Section 53080.2 is added to the Government Code, to read:

53080.2. (a) In the event the fee authorized pursuant to Section 53080 is levied by two nonunified school districts having common territorial jurisdiction, in a total amount that exceeds the maximum fee authorized under Section 65995, the fee revenue for the area of common jurisdiction shall be distributed in the following manner:

(1) The governing boards of the affected school districts shall enter into an agreement specifying the allocation of fee revenue and the duration of the agreement. A copy of that agreement shall be transmitted by each district to the State Allocation Board.

(2) In the event the affected school districts are unable to reach an agreement pursuant to paragraph (1), the districts shall jointly submit the dispute to a three-member arbitration panel composed of one representative chosen by each of the districts and one representative chosen jointly by both of the districts. The decision of the arbitration panel shall be final and binding upon both districts for a period of three years.

(b) For purposes of the calculation of the district matching share under Section 17705.5 of the Education Code, the fee revenue allocated to the applicant district pursuant to subdivision (a) is deemed to be, as to that district, the maximum fee authorized under Section 53080, or Chapter 4.7 (commencing with Section 65970) of Division 2 of Title 7, or both.

SEC. 22. Section 53080.3 is added to the Government Code, to read:

53080.3. (a) Any school district that has imposed or, subsequent to the operative date of this section, imposes, any fee, charge, dedication, or other requirement under Section 53080 against any development project that subsequently meets the description set forth in subdivision (b), shall repay or reconvey, as appropriate, that fee, charge, dedication, or other requirement to the person or persons from whom that fee, charge, dedication, or other requirement was collected, less the amount of the administrative costs incurred in collecting and repaying the fee, charge, dedication, or other requirement.

(b) This section applies to any development project for which the building permit, including any extensions, expires on or after January 1, 1990, without the commencement of construction, as defined in subdivision (c) of Section 65995.

(c) Where the amount of a local matching share required of any school district pursuant to Section 17705.5 of the Education Code includes the amount of a fee or other consideration imposed against a development project that is entitled to reimbursement under this section, the local matching share shall be reduced by the amount of that fee or other consideration.

SEC. 23. Section 53080.6 is added to the Government Code, to read:

53080.6. (a) A fee, charge, dedication, or other requirement authorized under Section 53080, whether or not allowable under Chapter 6 (commencing with Section 66010) of Division 1 of Title 7, may not be applied to the reconstruction of any residential, commercial, or industrial structure that is damaged or destroyed as a result of a disaster, except to the extent the square footage of the reconstructed structure exceeds the square footage of the structure that was damaged or destroyed. That square footage comparison shall be made, in the case of a commercial or industrial structure, on the basis of chargeable covered and enclosed space, as defined in Section 65995, or, in the case of a residential structure, on the basis of assessable space, as defined in Section 65995.

(b) The following definitions apply for the purposes of this section:

(1) "Disaster" means a fire, earthquake, landslide, mudslide, flood, tidal wave, or other unforeseen event that produces material damage or loss.

65974.5. Notwithstanding any other provision of this chapter, the governing board of any school district that receives funds that are collected pursuant to this chapter under a local ordinance, resolution, or other regulation in existence on September 1, 1986, may expend those funds for any of the construction or reconstruction purposes authorized under Section 53080, where the governing board has first held a public hearing on the subject of the proposed expenditure.

SEC. 25. Section 65995 of the Government Code is amended to read:

65995. (a) Except for a fee, charge, dedication, or other requirement authorized under Section 53080, or pursuant to Chapter 4.7 (commencing with Section 65970), no fee, charge, dedication, or other requirement shall be levied by the legislative body of a local agency against a development project, as defined in Section 53080, for the construction or reconstruction of school facilities.

(b) In no event shall the amount of any fees, charges, dedications, or other requirements authorized under Section 53080, or pursuant to Chapter 4.7 (commencing with Section 65970), or both, exceed the following:

(1) One dollar and fifty cents ($1.50) per square foot of assessable space, in the case of any residential development "Assessable space," for this purpose, means all of the square footage within the perimeter of a residential structure, not including any carport, walkway, garage, overhang, patio, enclosed patio, detached accessory

structure, or similar area. The amount of the square footage within the perimeter of a residential structure shall be calculated by the building department of the city or county issuing the building permit, in accordance with the standard practice of that city or county in calculating structural perimeters.

(2) In the case of any commercial or industrial development, twenty-five cents ($0.25) per square foot of chargeable covered and enclosed space. "Chargeable covered and enclosed space," for this purpose, means the covered and enclosed space determined to be within the perimeter of a commercial or industrial structure, not including any storage areas incidental to the principal use of the development, garage, parking structure, unenclosed walkway, or utility or disposal area. The determination of the chargeable covered and enclosed space within the perimeter of a commercial or industrial structure shall be made by the building department of the city or county issuing the building permit, in accordance with the building standards of that city or county.

(3) The amount of the limits set forth in paragraphs (1) and (2) shall be increased in 1990, and every two years thereafter, according to the adjustment for inflation set forth in the statewide cost index for class B construction, as determined by the State Allocation Board at its January meeting, which increase shall be effective as of the date of that meeting. The State Allocation Board shall not raise the amount of the district matching share calculated under Section 17705.5 of the Education Code, as a result of the increase under this paragraph, until at least 90 days after the date of that increase.

(c) (1) Notwithstanding any other provision of law, during the term of any contract entered into between a subdivider or builder and a school district, city, county, or city and county, whether general law or chartered, on or before January 1, 1987, that requires the payment of a fee, charge, or dedication for the construction of school facilities as a condition to the approval of residential development, neither Section 53080 nor this chapter applies to that residential development.

(2) Any development project for which a final map was approved and construction had commenced on or before September 1, 1986, is subject to only the fee, charge, dedication, or other requirement prescribed in any local ordinance in existence on that date and applicable to the project.

(d) For purposes of Section 53080 and this chapter, "residential, commercial, or industrial development" does not include any facility used exclusively for religious purposes that is thereby exempt from property taxation under the laws of this state, any facility used exclusively as a private full-time day school as described in Section 48222 of the Education Code, or any facility that is owned and occupied by one or more agencies of federal, state, or local government. In addition, "commercial or industrial development" includes, but is not limited to, any hotel, inn, motel, tourist home, or other lodging for which the maximum term of occupancy for guests

does not exceed 30 days, but does not include any residential hotel, as defined in paragraph (1) of subdivision (b) of Section 50519 of the Health and Safety Code.

(e) The Legislature finds and declares that the subject of the financing of school facilities with development fees is a matter of statewide concern. For this reason the Legislature hereby occupies the subject matter of mandatory development fees and other development requirements for school facilities finance to the exclusion of all local measures on the subject.

(f) Nothing in this section shall be interpreted to limit or prohibit the use of Chapter 2.5 (commencing with Section 53311) of Division 2 of Title 5 to finance the construction or reconstruction of school facilities.

SEC. 26. Section 65995.1 of the Government Code is amended to read:

65995.1. (a) Notwithstanding any other provision of law, as to any development project for the construction of senior citizen housing, as described in Section 51.3 of the Civil Code, a residential care facility for the elderly as described in subdivision (j) of Section 1569.2 of the Health and Safety Code, or a multilevel facility for the elderly as described in paragraph (9) of subdivision (d) of Section 15432, any fee, charge, dedication, or other form of requirement that is levied under Section 53080 may be applied only to new construction, and is subject to the limits and conditions applicable under subdivision (b) of Section 65995 in the case of commercial or industrial development.

(b) Any development project against which school facilities fees or other requirements have been levied in accordance with the limit set forth in subdivision (a) may be converted to any use other than those uses described in the statutes cited in that subdivision only with the approval of the city or county that issued the building permit for the project. That approval shall not be granted absent certification by the appropriate school district that payment has been made on the part of the development project at the rate of the school facilities fee, charge, dedication, or other form of requirement applied by the district under Section 53080 to residential development as of the date of conversion, less the amount of any school facilities fees or other requirements paid on the part of the project in accordance with the limits set forth in subdivision (a).

SEC. 27. Section 65995.2 is added to the Government Code, to read:

65995.2. limits and conditions that are applicable under subdivision (b) of Section 65995 in the case of commercial and industrial development.

(b) Any mobilehome park, or subdivision, cooperative, or condominium for mobilehomes, in which school facilities fees, charges, dedications, or other requirements have been imposed against one or more manufactured homes or mobilehomes in accordance with the limit set forth in subdivision (a) may subsequently choose to permit the residence of persons other than older persons, in which event it shall so notify the appropriate school district and city or county. As a condition of the first sale, subsequent to that notification, of each manufactured home or mobilehome in the mobilehome park, or subdivision, cooperative, or condominium for mobilehomes, payment shall be made to the school district in the amount of the school facilities fee or other requirement applied by the district under Section 53080, or Chapter 4.7 (commencing with Section 65970), or both, to residential development as of the date of that sale, less the amount of any school facilities fees, charges, dedications, or other requirements imposed against that manufactured home or mobilehome in accordance with the limits described in subdivision (a). Any prospective purchaser of a manufactured home or mobilehome that is subject to the requirement set forth in this subdivision shall be given written notice of the existence of that requirement by the seller prior to entering into any contract for that purchase.

(c) Compliance on the part of any manufactured home or mobilehome with any additional fee or other requirement applied by the school district pursuant to subdivision (b), and certification by the appropriate school district of that compliance, shall be required as a condition of the following, as applicable:

(1) The close of escrow of the first sale of the manufactured home or mobilehome following the notice required by subdivision (b), where the manufactured home or mobilehome is to be located, installed, or occupied in a mobilehome park that has chosen to permit the residence of persons other than older persons pursuant to subdivision (b) and the sale or transfer of the manufactured home or mobilehome is subject to escrow as provided in Section 18035 or 18035.2 of the Health and Safety Code.

(2) The approval of the manufactured home or mobilehomes for initial occupancy pursuant to Section 18551 or 18613 of the Health and Safety Code following the notice required by subdivision (b), where the manufactured home or mobilehome is to be located, installed, or occupied in a mobilehome park that has chosen to permit the residence of persons other than older persons pursuant to subdivision (b), in the event that paragraph (1) does not apply.

SEC. 27.5. Section 65996 of the Government Code is amended to read:

65996. The following provisions shall be the exclusive methods of mitigating environmental effects related to the adequacy of school facilities when considering the approval or the establishment of

conditions for the approval of a development project, as defined in Section 53080, pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code:

(a) Chapter 22 (commencing with Section 17700) of Part 10 of the Education Code.

(b) Chapter 25 (commencing with Section 17785) of Part 10 of the Education Code.

(c) Chapter 28 (commencing with Section 17870) of Part 10 of the Education Code.

(d) Article 2.5 (commencing with Section 39327) of Chapter 3 of Part 23 of the Education Code.

(e) Section 53080 of the Government Code.

(f) Chapter 2.5 (commencing with Section 53311) of Division 2 of Title 5 of the Government Code.

(g) Chapter 4.7 (commencing with Section 65970) of Division 1 of Title 7 of the Government Code.

No public agency shall, pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code or Division 2 (commencing with Section 66410) of this code, deny approval of a project on the basis of the adequacy of school facilities.

SEC. 28. Section 66007 of the Government Code is amended to read:

66007. (a) Except as otherwise provided in subdivision (b), any local agency that imposes any fees or charges on a residential development for the construction of public improvements or facilities shall not require the payment of those fees or charges, notwithstanding any other provision of law, until the date of the final inspection, or the date the certificate of occupancy is issued, whichever occurs first. However, utility service fees may be collected at the time an application for utility service is received. If the residential development contains more than one dwelling, the local agency may determine whether the fees or charges shall be paid on a pro rata basis for each dwelling when it receives its final inspection or certificate of occupancy, whichever occurs first; on a pro rata basis when a certain percentage of the dwellings have received their final inspection or certificate of occupancy, whichever occurs first; or on a lump-sum basis when the first dwelling in the development receives its final inspection or certificate of occupancy, whichever occurs first.

(b) Notwithstanding subdivision (a), the local agency may require the payment of those fees or charges at an earlier time if (1) the local agency determines that the fees or charges will be collected for public improvements or facilities for which an account has been established and funds appropriated and for which the local agency has adopted a proposed construction schedule or plan prior to final inspection or issuance of the certificate of occupancy or (2) the fees or charges are to reimburse the local agency for expenditures previously made. "Appropriated," as used in this subdivision, means authorization by the governing body of the local agency for which

the fee is collected to make expenditures and incur obligations for specific purposes.

(c) (1) If any fee or charge specified in subdivision (a) is not fully paid prior to issuance of a building permit for construction of any portion of the residential development encumbered thereby, the local agency issuing the building permit may require the property owner, or lessee if the lessee's interest appears of record, as a condition of issuance of the building permit, to execute a contract to pay the fee or charge, or applicable portion thereof, within the time specified in subdivision (a). If the fee or charge is prorated pursuant to subdivision (a), the obligation under the contract shall be similarly prorated.

(2) The obligation to pay the fee or charge shall inure to the benefit of, and be enforceable by, the local agency that imposed the fee or charge, regardless of whether it is a party to the contract. The contract shall contain a legal description of the property affected, shall be recorded in the office of the county recorder of the county and, from the date of recordation, shall constitute a lien for the payment of the fee or charge, which shall be enforceable against successors in interest to the initial holder of the building permit. The contract shall be recorded in the grantor-grantee index in the name of the public agency issuing the building permit as grantee and in the name of the building permit holder as grantor.

(3) The contract may require the building permit holder to provide appropriate notification of the opening of any escrow for the sale of the property for which the building permit was issued and to provide in the escrow instructions that the fee or charge be paid to the local agency imposing the same from the sale proceeds in escrow prior to disbursing proceeds to the seller.

(d) This section applies only to fees collected by a local agency to fund the construction of public improvements or facilities. It does not apply to fees collected to cover the cost of code enforcement or inspection services, or to other fees collected to pay for the cost of enforcement of local ordinances or state law.

(e) "Final inspection" or "certificate of occupancy," as used in this section, has the same meaning as described in Sections 305 and 307 of the Uniform Building Code, International Conference of Building Officials, 1985 Edition.

(f) Methods of complying with the requirement in subdivision (b) that a "proposed construction schedule or plan" be adopted include, but are not limited to, (1) the adoption of the capital improvement plan described in Section 66002, or (2) the submittal of a five-year plan for construction and rehabilitation of school facilities pursuant to subdivision (c) of Section 17717.5 of the Education Code.

(g) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1993, deletes or extends that date.

SEC. 29. Section 66413.7 is added to the Government Code, to read:

66413.7. Whenever there is consideration of an area within a development for a public school site, the advisory agency shall give the State Department of Education written notice of the proposed site. If the site is within the distance of an airport runway as described in Section 39005 of the Education Code, the department shall notify the State Department of Transportation as required by the section. The State Department of Education shall investigate the proposed site and, within 35 days after receipt of the notice, shall submit to the advisory agency and school district a written report and its recommendations concerning the site.

The governing board of the school district shall not acquire title to the property until the report of the State Department of Education has been received. If the report does not favor the acquisition of the property for a schoolsite, the governing board shall not acquire title to the property until 30 days after the department's report has been read at a public hearing duly called after 10 days' notice published once in a newpaper of general circulation within the school district or, if there is no newspaper of this type, in a newspaper of general circulation within the county in which the property is located.

SEC. 30. Section 18035 of the Health and Safety Code is amended to read:

18035. (a) For every sale by a dealer of a new or used manufactured home or mobilehome subject to registration under this part, the dealer shall execute in writing and obtain the buyer's signature on a purchase order, conditional sale contract, or other document evidencing the purchase contemporaneous with, or prior to, the receipt of any cash or cash equivalent from the buyer, shall establish an escrow account with an escrow agent, and shall cause to be deposited into that escrow account any cash or cash equivalent received at any time prior to the close of escrow as a deposit, downpayment, or whole or partial payment for the manufactured home or mobilehome or accessory thereto. The downpayment, or whole or partial payment, shall include an amount designated as a deposit, which may be less than, or equal to, the total amount placed in escrow, and shall be subject to the provisions of subdivision (f). The parties shall provide for escrow instructions that identify the fixed amounts of the deposit, downpayment, and balance due prior to closing consistent with the amounts set forth in the purchase documents and receipt for deposit if one is required by Section 18035.1. The deposits shall be made by the dealer within three working days of receipt, one of which shall be the day of receipt. For purposes of this section, "cash equivalent" means any property, other than cash. If an item of cash equivalent is, due to its size, incapable of physical delivery to the escrow holder, the property may be held by the dealer for the purchaser until close of escrow and, if the property has been registered with the department or the Department of Motor Vehicles, its registration certificate and, if available, its certificate of title shall be delivered to the escrowholder.

(b) For every sale by a dealer of a new manufactured home or mobilehome, the escrow instructions shall provide all of the following:

(1) That the original manufacturer's certificate of origin be placed in escrow.

(2) That, in the alternative, either of the following shall occur:

(A) The lien of any inventory creditor on the manufactured home or mobilehome shall be satisfied by payment from the escrow account.

(B) The inventory creditor shall consent in writing to other than full payment.

For purposes of this paragraph, "inventory creditor" includes any person who is identified as a creditor on the manufacturer's certificate of origin or any person who places the original certificate of origin in escrow and claims in writing to the escrow agent to have a purchase money security interest in the manufactured home or mobilehome, as contemplated by Section 9107 of the Commercial Code.

(3) That the escrow agent shall obtain from the manufacturer a true and correct facsimile of the copy of the certificate of origin retained by the manufacturer pursuant to Section 18093.

(c) For every sale by a dealer of a used manufactured home or mobilehome, the escrow instructions shall provide:

(1) That the current registration card, all copies of the registration cards held by junior lienholders, and the certificate of title be placed in escrow.

(2) That, in the alternative, either of the following shall occur:

(A) (i) The registered owner shall acknowledge in writing the amount of the commission to be received by the dealer for the sale of the manufactured home or mobilehome, and (ii) the registered owner shall release all of its ownership interests in the manufactured home or mobilehome either contemporaneously upon the payment of a specified amount from the escrow account or at the close of the escrow where the buyer has executed a security agreement approved by the registered owner covering the unpaid balance of the purchase price.

(B) (i) The dealer shall declare in writing that the manufactured home or mobilehome is its inventory, (ii) the registered owner shall acknowledge in writing that the purchase price relating to the sale of the manufactured home or mobilehome to the dealer for resale has been paid in full by the dealer, (iii) the current certificate of title shall be appropriately executed by the registered owner to reflect the release of all of its ownership interests, and (iv) the dealer shall release all of its ownership interests in the manufactured home or mobilehome either contemporaneously upon the payment of a specified amount from the escrow account or at the close of escrow where the buyer has executed a security agreement approved by the dealer covering the unpaid balance of the purchase price.

(3) That, in the alternative, the legal owner and each junior

lienholder, respectively, shall either:

(A) Release his or her security interest or transfer its security interest to a designated third party contemporaneously upon the payment of a specified amount from the escrow account.

(B) Advise the escrow agent in writing that the new buyer or the buyer's stated designee shall be approved as the new registered owner upon the execution by the buyer of a formal assumption of the indebtedness secured by his or her lien approved by the creditor at or before the close of escrow.

(d) For every sale by a dealer of a used manufactured home or mobilehome:

(1) The dealer shall present the buyer's offer to purchase the manufactured home or mobilehome to the seller in written form signed by the buyer. The seller, upon accepting the offer to purchase, shall sign and date the form. Copies of the fully executed form shall be presented to both the buyer and seller, with the original copy retained by the dealer. Any portion of the form that reflects the commission charged by the dealer to the seller need not be disclosed to the buyer.

(2) The escrow agent, upon receipt of notification from the dealer that the seller has accepted the buyer's offer to purchase and receipt of mutually endorsed escrow instructions, shall, within three working days, prepare a notice of escrow opening on the form prescribed by the department and forward the completed form to the department with appropriate fees. If the escrow is canceled for any reason before closing, the escrow agent shall prepare a notice of escrow cancellation on the form prescribed by the department and forward the completed form to the department.

(3) (A) The escrow agent shall forward to the legal owner and each junior lienholder at their addresses shown on the current registration card a written demand for a lien status report, as contemplated by Section 18035.5, and a written demand for either an executed statement of conditional lien release or an executed statement of anticipated formal assumption, and shall enclose blank copies of a statement of conditional lien release and a statement of anticipated formal assumption on forms prescribed by the department. The statement of conditional lien release shall include, among other things, both of the following:

(i) A statement of the dollar amount or other conditions required by the creditor in order to release or transfer its lien.

(ii) The creditor's release or transfer of the lien in the manufactured home or mobilehome contingent upon the satisfaction of those conditions.

(B) The statement of anticipated formal assumption shall include, among other things, both of the following:

(i) A statement of the creditor's belief that the buyer will formally assume the indebtedness secured by its lien pursuant to terms and conditions which are acceptable to the creditor at or before the close of escrow.

(ii) The creditor's approval of the buyer or his or her designee as the registered owner upon the execution of the formal assumption.

(4) Within five days of the receipt of the written demand and documents required by paragraph (3), the legal owner or junior lienholder shall complete and execute either the statement of conditional lien release or, if the creditor has elected to consent to a formal assumption requested by a qualified buyer, the statement of anticipated formal assumption, as appropriate, and prepare the lien status report and forward the documents to the escrow agent by first-class mail. If the creditor is the legal owner, the certificate of ownership in an unexecuted form shall accompany the documents. If the creditor is a junior lienholder, the creditor's copy of the current registration card in an unexecuted form shall accompany the documents.

(5) If either of the following events occur, any statement of conditional lien release or statement of anticipated formal assumption executed by the creditor shall become inoperative, and the escrow agent shall thereupon return the form and the certificate of ownership or the copy of the current registration card, as appropriate, to the creditor by first-class mail:

(A) The conditions required in order for the creditor to release or transfer his or her lien are not satisfied before the end of the escrow period agreed upon in writing between the buyer and the seller or, if applicable, before the end of any extended escrow period as permitted by subdivision (g).

(B) The registered owner advises the creditor not to accept any satisfaction of his or her lien or not to permit any formal assumption of the indebtedness and the creditor or registered owner advises the escrow agent in writing accordingly.

(6) If a creditor willfully fails to comply with the requirements of paragraph (4) within 21 days of the receipt of the written demand and documents required by paragraph (3), the creditor shall forfeit to the escrow agent three hundred dollars ($300), except where the creditor has reasonable cause for noncompliance. The three hundred dollars ($300) shall be credited to the seller, unless otherwise provided in the escrow instructions. Any penalty paid by a creditor under this paragraph shall preclude any civil liability for noncompliance with Section 18035.5 relating to the same act or omission.

(e) For every sale by a dealer of a new or used manufactured home or mobilehome, the escrow instructions shall specify one of the following:

(1) Upon the buyer receiving delivery of an installed manufactured home or mobilehome on the site and the manufactured home or mobilehome passing inspection pursuant to Section 18613 or after the manufactured home or mobilehome has been delivered to the location specified in the escrow instructions when the installation is to be performed by the buyer, all funds in the escrow account, other than escrow fees and amounts for accessories

not yet delivered, shall be disbursed.

(2) Upon the buyer receiving delivery of an installed manufactured home or mobilehome not subject to the provisions of Section 18613 with delivery requirements as mutually agreed to and set forth in the sales documents, all funds in the escrow account, other than escrow fees, shall be disbursed.

(f) In the event any dispute arises between the parties to the escrow and upon notification in writing to the escrow agent, unless otherwise specified in the escrow instructions, all funds denoted as deposit shall be held in escrow until a release is signed by the disputing party, or pursuant to new written escrow instructions signed by the parties involved, or pursuant to a final order for payment or division by a court of competent jurisdiction. Any other funds, other than escrow fees, shall be returned to the buyer or any person, other than the dealer or seller, as appropriate.

(g) Escrow shall be for a period of time mutually agreed upon, in writing, by the buyer and the seller. However, the parties may, by mutual consent, extend the time, in writing, with notice to the escrow agent.

(h) No dealer or seller shall establish with an escrow agent any escrow account in an escrow company in which the dealer or seller has more than a 5 percent ownership interest.

(i) The escrow instructions may provide for the proration of any local property tax due or to become due on the manufactured home or mobilehome, and if the tax, or the license fee imposed pursuant to Section 18115, or the registration fee imposed pursuant to Section 18114, is delinquent, the instructions may provide for the payment of the taxes or fees, or both, and any applicable penalties.

(j) For every sale by a dealer of a new or used manufactured home or mobilehome that is subject to inspection pursuant to Section 18613, and for which it is stated, on the face of the document certifying or approving occupancy or installation, that the issuance of the document is conditioned upon the payment of a fee, charge, dedication, or other requirement levied pursuant to Section 53080 of the Government Code, the escrow instructions shall provide that the payment of that fee, charge, dedication, or other requirement be made to the appropriate school district upon the close of escrow.

(k) No agreement shall contain any provision by which the buyer waives his or her rights under this section, and any waiver shall be deemed contrary to public policy and shall be void and unenforceable.

(*l*) If a portion of the amount in the escrow is for accessories, then that portion of the amount shall not be released until the accessories are actually installed.

(m) Upon opening escrow on a used manufactured home or mobilehome which is subject to local property taxation, and subject to registration under this part, the escrow officer may forward to the tax collector of the county in which the used manufactured home or mobilehome is located, a written demand for a tax clearance

certificate, if no liability exists, or a conditional tax clearance certificate if a tax liability exists, to be provided on a form prescribed by the office of Controller. The conditional tax clearance certificate shall state the amount of the tax liability due, if any, and the final date that amount may be paid out of the proceeds of escrow before a further tax liability may be incurred.

(1) Within five working days of receipt of the written demand for a conditional tax clearance certificate or a tax clearance certificate, the county tax collector shall forward the conditional tax clearance certificate or a tax clearance certificate showing no tax liability exists to the requesting escrow officer. In the event the tax clearance certificate's or conditional tax clearance certificate's final due date expires within 30 days of date of issuance, an additional conditional tax clearance certificate or a tax clearance certificate shall be completed which has a final due date of at least 30 days beyond the date of issuance.

(2) If the tax collector on which the written demand for a tax clearance certificate or a conditional tax clearance certificate was made fails to comply with that demand within 30 days from the date the demand was mailed, the escrow officer may close the escrow and submit a statement of facts certifying that the written demand was made on the tax collector and the tax collector failed to comply with that written demand within 30 days. This statement of facts may be accepted by the department in lieu of a conditional tax clearance certificate or a tax clearance certificate, as prescribed by subdivision (a) of Section 18092.7, and the transfer of ownership may be completed

(3) The escrow officer may satisfy the terms of the conditional tax clearance certificate by paying the amount of tax liability shown on the form by the tax collector out of the proceeds of escrow on or before the date indicated on the form and by certifying in the space provided on the form that all terms and conditions of the conditional tax clearance certificate have been complied with.

(n) This section creates a civil cause of action against a buyer or dealer or other seller who violates this section, and upon prevailing, the plaintiff in the action shall be awarded actual damages, plus an amount not in excess of two thousand dollars ($2,000). In addition, attorney's fees and court costs shall also be awarded a plaintiff who prevails in the action.

CHAPTER 1215

An act to add Division 26 (commencing with Section 36000) to the Public Resources Code, relating to ocean resources.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Division 26 (commencing with Section 36000) is added to the Public Resources Code, to read:

DIVISION 26. OCEAN RESOURCES MANAGEMENT

CHAPTER 1. FINDINGS AND DECLARATIONS

36000. This division shall be known and may be cited as the California Ocean Resources Management Act of 1990.

36001. The Legislature hereby finds and declares all of the following:

(a) The Pacific Ocean and its many renewable and nonrenewable resources are of economic, environmental, aesthetic, recreational, military, and scientific importance to the people of the state and the nation.

(b) Humankind will benefit from ocean resources as technology continues to develop. Our ability to protect, preserve, coordinate, develop, and utilize these resources requires that we do so in an informed and balanced manner.

(c) On March 10, 1983, President Reagan established by proclamation an exclusive economic zone for the United States, declaring sovereign rights over living and nonliving resources within the 200-mile United States exclusive economic zone (EEZ).

(d) On December 27, 1988, President Reagan extended by proclamation the seaward limit of United States territorial waters from 3 to 12 nautical miles.

(e) The establishment of the exclusive economic zone and the extension of the Territorial Sea create zones under federal jurisdiction adjacent to state waters, and provide opportunity for all coastal states of the United States to more fully exercise and assert their responsibilities pertaining to the protection, conservation, and development of ocean resources under United States jurisdiction.

(f) Exploration, scientific research, development, and production of ocean resources resulting from differing jurisdictions and multiple programs in federal and state waters, will increase the chance of conflicting demands on ocean resources and uses, such as those for food, energy, minerals, and waste disposal.

(g) Resolution of conflicting interests in the use, development, and conservation of ocean resources will become one of the major policy issues facing the state. The problems which will emerge in the future due to interactions of competing users are already prevalent to some degree today.

(h) State agencies do have particular regulatory or program interests in protecting and managing resources and uses in state waters and for coordinating state interests in the territorial sea and the EEZ, but the state needs to formulate a framework of statewide objectives for management of ocean resources and their uses, and outline a clear statement of functional responsibility for state ocean resources management.

(i) The exclusive economic zone, the territorial sea, state waters, and terrestrial environments are an interdependent system that has to be managed through a cooperative effort between appropriate

federal, state, and local agencies. The fluid, dynamic nature of the ocean and the migration of many of its living resources beyond state and federal boundaries extend the ocean management interests of this state beyond the three-nautical-mile limit currently managed by the state pursuant to the federal Submerged Lands Act (43 U.S.C. Sec. 1301 et seq.).

36002. The Legislature further finds and declares all of the following:

(a) It is the policy of the State of California to do the following:

(1) Assess the long-term values and benefits of the conservation and development of ocean resources and uses with the objective of restoring or maintaining the health of the ocean ecosystem and ensuring the proper management of renewable and nonrenewable resources.

(2) Encourage ocean resources development which is environmentally sound, sustainable, and economically beneficial.

(3) Provide for efficient and coordinated resources management in state and federal waters.

(4) Assert the interests of this state in cooperation with federal agencies in the sound management of ocean resources.

(5) Promote research, study, and understanding of ocean processes and resources to acquire the scientific information necessary to understand the ocean ecosystem and life-support systems and the relationships of ocean development activities and associated impacts on ocean and coastal resources of the state and adjacent zones of federal jurisdiction.

(6) Encourage research and development of innovative, environmentally compatible marine technologies for protection, exploration, and utilization of ocean resources.

(b) It is further the policy of the State of California to develop and maintain an ocean resources planning and management program to promote and ensure coordinated management of federal resources and uses with those in state waters, and with adjacent states, to ensure effective participation in federal planning and management of ocean resources and uses which may affect this state, and to coordinate state agency management of ocean resources with local government management of coastal zone uses and resources above the mean high tide line.

36003. (a) No authority is created under this division, nor shall any of its purposes or provisions be used by any public or private agency or person, to delay or deny any existing or future project or activity during the preparation and delivery of the report and recommendations required by this division.

(b) No authority is created under this division to supersede current state agency statutory authority.

(c) The task force established pursuant to Section 36300 shall cease to exist upon delivery of its report and recommendations to the Governor and the Legislature.

(a) Upon receipt of a written recommendation from the Department of the California Highway Patrol that a new or renewal application for a charter-party carrier certificate or permit be denied either (1) for failure to maintain any vehicle used in transportation for compensation in a safe operating condition or to comply with the Vehicle Code or with regulations contained in Title 13 of the California Code of Regulations relative to motor carrier safety or (2) for failure to comply with the pull notice system or periodic report requirements required by Section 1808.1 of the Vehicle Code, the commission shall deny the application. The department's written recommendation shall specifically indicate compliance with subdivision (b).

(b) Before transmitting a recommendation pursuant to subdivision (a) to the commission, the Department of the California Highway Patrol shall notify the applicant for the charter-party carrier certificate or permit of all of the following in writing:

(1) That the department has determined that the applicant's safety record is unsatisfactory, furnishing a copy of any documentation or summary of any other evidence supporting the determination.

(2) That the determination may result in a denial of the applicant's certificate or permit by the commission.

(3) That the applicant may request a review of the determination by the department within five days of its receipt of the notice required under this subdivision. The department shall, upon request, conduct and evaluate that review prior to transmitting any notification to the commission pursuant to subdivision (a).

(c) Whenever the commission denies an application for renewal pursuant to subdivision (a), the commission shall furnish the charter-party carrier written notice of the denial and shall hold a hearing within a reasonable time, not to exceed 21 days, after a written request is filed with the commission, with a copy thereof furnished to the Department of the California Highway Patrol. At the hearing, the carrier shall show cause why the denial was improper or unwarranted. At the conclusion of the hearing, the commission may, in addition to any other remedy provided in this part, reverse the denial, or sustain the denial.

(d) Any applicant for a charter-party carrier certificate or permit denied pursuant to subdivision (a), whose denial has not been reversed as a result of the hearing provided for in subdivision (c),

that wishes to obtain a certificate or permit shall reapply for the desired authority.

SEC. 8. Section 612 of the Vehicle Code is amended to read:

612. "Tour bus" means a bus, which is operated by or for a charter-party carrier of passengers, as defined in Section 5360 of the Public Utilities Code, or a passenger stage corporation, as defined in Section 226 of the Public Utilities Code, or any highway carrier of passengers required to register with the California Public Utilities Commission pursuant to Section 3910 of the Public Utilities Code.

SEC. 9. Section 1808.1 of the Vehicle Code is amended to read:

1808.1. (a) The prospective employer of a driver who drives a vehicle requiring a class 1, class 2, class A, or class B driver's license, or a certificate issued pursuant to Section 2512, 12517, 12519, 12519.5, 12521, 12523, 12523.5, 12524, 12804.1, or 12804.3, shall obtain a report showing the driver's current public record as recorded by the department.

(b) The employer of a driver who drives a vehicle requiring a class 1, class 2, class A, or class B driver's license, or a certificate issued pursuant to Section 2512, 12517, 12519, 12519.5, 12521, 12523, 12523.5, 12524, 12804.1, or 12804.3, shall make a request to the department to participate in a pull notice system, which is a process for the purpose of providing the employer with a report showing the driver's current public record as recorded by the department, and any subsequent convictions, failures to appear, accidents, driver's license suspensions, driver's license revocations, or any other actions taken against the driving privilege or certificate, added to the driver's record while the employer's notification request remains valid and uncanceled.

(c) The employer of a driver of a vehicle requiring a class 1, class 2, class A, or class B driver's license shall, additionally, obtain a periodic report from the department at least every six months, except that an employer who employs more than 500 drivers shall obtain a report no less than annually. The employer shall verify that each employee's driver's license has not been suspended or revoked, the employee's traffic violation point count, and whether the employee has been convicted of a violation of Section 23152 or 23153. The report shall be signed and dated by the employer and maintained at the employer's principal place of business. The reports shall be presented upon demand to any authorized representative of the Department of the California Highway Patrol during regular business hours.

(d) Upon the termination of a driver's employment, the employer may notify the department to cancel any reports required by this section.

(e) For the purposes of the pull notice system and periodic report process required by subdivisions (b) and (c), owners, other than owner-operators as defined in Section 3557 of the Public Utilities Code, and employers who drive vehicles described in subdivisions (b) and (c), shall be enrolled as if they were employees. Family

members and volunteer drivers who drive vehicles described in subdivisions (b) and (c) shall also be enrolled as if they were employees.

(f) An employer who, after receiving any driving record pursuant to this section, employs or continues to employ as a driver any person against whom a disqualifying action has been taken regarding his or her driving privilege or required driver's certificate, is guilty of a public offense, and upon conviction thereof, shall be punished by imprisonment in the county jail for not more than six months, by a fine of not more than one thousand dollars ($1,000), or by both that fine and imprisonment.

(g) As part of its inspection of bus maintenance facilities and terminals required at least once every 13 months pursuant to subdivision (c) of Section 34501, the Department of the California Highway Patrol shall determine whether each transit operator, as defined in Section 99210 of the Public Utilities Code, is then in compliance with this section, and shall certify each operator found to be in compliance. No funds shall be allocated under Chapter 4 (commencing with Section 99200) of Part 11 of Division 10 of the Public Utilities Code to a transit operator which the Department of the California Highway Patrol has not certified under this section.

(h) A request to participate in the pull notice system established by this section shall be accompanied by a fee determined by the department to be sufficient to defray the entire actual cost to the department for the notification service. For the receipt of subsequent reports, the employer shall also be charged a fee established by the department pursuant to Section 1811. Any employer who qualifies under Section 1812 shall be exempt from any fee required under this section. Failure to pay the fee shall result in automatic cancellation of the employer's participation in the notification services.

(i) The department, as soon as feasible, may establish an automatic procedure to provide the periodic reports in subdivision (c) to employers on a regular basis without the need for individual requests.

(j) This section shall not be construed to change the definition of "employer," "employee," or "independent contractor" for any other purpose.

(k) The employer of a driver who is employed as a casual driver is not required to enter that driver's name in the pull notice system, as otherwise required by subdivision (a). However, the employer of a casual driver shall be in possession of a report of the driver's current public record as recorded by the department, prior to allowing a casual driver to drive a vehicle requiring a class 1, class 2, class A, or class B driver's license, or a certificate issued pursuant to Section 2512, 12517, 12519, 12519.5, 12521, 12523, 12523.5, 12524, 12804.1, or 12804.3. A report is current if it was issued less than six months prior to the date the employer employs the driver. As used in this subdivision, a driver is employed as a casual driver when the

employer has employed the driver less than 30 days during the preceding six months.

SEC. 10. Section 34501.12 of the Vehicle Code is amended to read:

34501.12. (a) Notwithstanding Section 408, as used in this section and Sections 34505.5 and 34505.6, "motor carrier" means the registered owner of any vehicle described in subdivision (a), (b), (d), (e), (f), or (g) of Section 34500, except in the following circumstances:

(1) The registered owner leases the vehicle to another person for a term greater than four months. If the lease is greater than four months, the lessee is the motor carrier.

(2) The registered owner operates the vehicle exclusively under the authority and direction of another person. If the operation is exclusively under the authority and direction of another person, that other person may assume the responsibilities as the motor carrier. If not so assumed, the registered owner is the motor carrier.

(b) Each motor carrier who, in this state, directs the operation of, or maintains, any vehicle of a type described in subdivision (a) shall designate one or more terminals, as defined in Section 34515, in this state where vehicles can be inspected by the department pursuant to paragraph (3) of subdivision (a) of Section 34501 and where vehicle inspection and maintenance records and driver records will be made available for inspection.

(c) The department shall inspect, at least every 25 months, every terminal, as defined in Section 34515 of any motor carrier who, at any time, operates any vehicle described in subdivision (a).

As used in this section and in Sections 34505.5 and 34505.6, subdivision (g) of Section 34500 includes only those vehicles transporting hazardous material for which the display of placards is required pursuant to Section 27903, a license is required pursuant to Section 32000.5, or for which hazardous waste hauler registration is required pursuant to Section 25163 of the Health and Safety Code. Historical vehicles, as described in Section 5004, vehicles which display special identification plates in accordance with Section 5011, implements of husbandry, as defined in Chapter 1 (commencing with Section 36000) of Division 16, and vehicles owned or operated by an agency of the federal government are not subject to this section or to Sections 34505.5 and 34505.6.

(d) (1) It is the responsibility of the motor carrier to schedule with the department the inspection required by subdivision (c). The motor carrier shall submit an application form supplied by the department, accompanied by the required fee. The fee shall be four hundred dollars ($400) per terminal, except in the case of an owner-operator, as defined in Section 3557 of the Public Utilities Code, or a nonregulated motor carrier who owns, leases, or otherwise operates not more than one heavy power unit and not more than three towed vehicles described in subdivision (a), (b), (d), (e), (f), or (g) of Section 34500, for which the fee shall be one hundred dollars ($100). Federal, state, and local public entities are exempt from the

fee requirements of this section.

(2) Every motor carrier subject to the requirements of this section shall submit an application for the initial inspection required by subdivision (a) on or before July 1, 1989. The inspection term for a motor carrier shall expire 25 months from the date the department conducts the motor carrier's first terminal inspection, and every 25 months thereafter. Applications and fees for subsequent inspections shall be submitted not later than seven months before the expiration of the motor carrier's then current inspection term. If the motor carrier has submitted the inspection application and the required accompanying fees, but the department is unable to complete the inspection within the 25-month inspection period, then no additional fee shall be required for the inspection requested in the original application.

(3) All fees collected pursuant to this subdivision shall be deposited in the Motor Vehicle Account in the State Transportation Fund. An amount equal to the fees collected shall be available for appropriation by the Legislature from the Motor Vehicle Account to the department for the purpose of conducting truck terminal inspections and for the additional roadside safety inspections required by Section 34514.

(e) On and after July 1, 1989, it shall be unlawful for any motor carrier to operate any vehicle subject to this section without having submitted an inspection application and the required fees to the department as required by paragraph (2) of subdivision (b).

(f) On and after January 1, 1992, it shall be unlawful for any motor carrier to operate any vehicle subject to this section after submitting an inspection application to the department, without the inspection described in subdivision (a) having been performed and a safety compliance report having been issued to the motor carrier within the 25-month inspection period or within 60 days immediately preceding the inspection period.

(g) It is the intent of the Legislature that the department make its best efforts to inspect terminals within the resources provided. In the interest of the state, the Commissioner of the California Highway Patrol may extend for a period not to exceed six months the inspection terms beginning prior to July 1, 1990.

(h) The department shall report to the Legislature not later than September 1, 1991, on the mandates of the California Commercial Motor Vehicle Safety Act of 1988 and the mandates of Section 34514. The department shall recommend any program adjustments that may be desirable, and shall report on any fee adjustments that may be required to fully fund biennial terminal inspections of all California truck terminals. The department shall also consider the feasibility of implementing an incentive program which would benefit truck operators with excellent safety records.

SEC. 11. Section 34505.1 of the Vehicle Code is amended to read:

34505.1. (a) Upon determining that a tour bus operator has either (1) failed to maintain any vehicle used in transportation for

compensation in a safe operating condition or to comply with the Vehicle Code or with regulations contained in Title 13 of the California Code of Regulations relative to motor carrier safety, and, in the department's opinion, that failure presents an imminent danger to public safety or constitutes such a consistent failure as to justify a recommendation to the Public Utilites Commission or the Interstate Commerce Commission or (2) failed to comply with the pull notice system or periodic report requirements required by Section 1808.1, the department shall recommend to the Public Utilities Commission or the Interstate Commerce Commission that the carrier's operating authority be suspended, denied, or revoked, whichever is appropriate. However, when recommending denial of an application for new or renewal authority, the department need not conclude that the carrier's failure presents an imminent danger to public safety or that it constitutes a consistent failure. The department need only conclude that the carrier's compliance with the safety-related matters described in paragraph (1) of subdivision (a) is sufficiently unsatisfactory to justify a recommendation for denial. The department shall retain a record, by operator, of every recommendation made pursuant to this section.

(b) Before transmitting a recommendation pursuant to subdivision (a), the department shall notify the carrier in writing of all of the following.

(1) That the department has determined that the carrier's safety record is unsatisfactory, furnishing a copy of any documentation or summary of any other evidence supporting the determination.

(2) That the determination may result in a suspension, revocation, or denial of the carrier's operating authority by the California Public Utilities Commission or the Interstate Commerce Commission.

(3) That the carrier may request a review of the determination by the department within five days of its receipt of the notice required under this subdivision. If a review is requested by the carrier, the department shall conduct and evaluate that review prior to transmitting any notification pursuant to subdivision (a).

SEC. 11.5. Section 34505.5 of the Vehicle Code is amended to read:

34505.5. (a) Every motor carrier operating any vehicle described in subdivision (a), (b), (d), (e), (f), or (g) of Section 34500, except those vehicles exempted under subdivision (c) of Section 34501 12, shall, as a part of the systematic inspection, maintenance, and lubrication services required of all motor carriers, require the vehicle or vehicles for which it is responsible pursuant to subdivision (a) of Section 34501.12 to be inspected at least every 90 days, or more often if necessary to ensure safe operation. Vehicles which are out of service for periods greater than 90 calendar days are not required to be inspected at 90-day intervals if they are inspected before operation on the highway. This inspection shall include, but not be limited to, all of the following:

(1) Brake adjustment.

(2) Brake system components and leaks.
(3) Steering and suspension systems.
(4) Tires and wheels.
(5) Vehicle connecting devices.

(b) No vehicle subject to this section shall be operated on the highway other than to a place of repair until all defects listed during the inspection conducted pursuant to subdivision (a) have been corrected and attested to by the signature of the motor carrier's authorized representative.

(c) Records of inspections conducted pursuant to subdivision (a) shall be kept at the motor carrier's terminals, as designated in accordance with subdivision (b) of Section 34501.12. The records shall be retained by the motor carrier for two years, and shall be made available for inspection upon request by any authorized employee of the department. Each record shall include, but not be limited to, all of the following:

(1) Identification of the vehicle, including make, model, license number, company vehicle number, or other means of positive identification.

(2) Date and nature of each inspection and any repair performed.

(3) Signature of the motor carrier's authorized representative attesting to the inspection and to the completion of all required repairs

(d) Printouts of inspection and maintenance records maintained in computer systems shall be accepted in lieu of signed inspection or repair records if the printouts include the information required in paragraphs (1) and (2) of subdivision (c).

(e) Notwithstanding subdivisions (a) to (d), inclusive, records of 90-day inspections need not be retained in California for interstate vehicles which are not physically based in California. However, when these vehicles are present in California, they are subject to inspection by the department. If the inspection results indicate maintenance program deficiencies, the department may require the motor carrier to produce the maintenance records or copies of those records for inspection within 10 working days.

SEC. 12 Section 34505.6 of the Vehicle Code is amended to read:

34505.6. (a) Upon determining that a motor carrier operating any vehicle described in subdivision (a), (b), (d), (e), (f), or (g) of Section 34500 has either (1) failed to maintain any vehicle used in transportation for compensation in a safe operating condition or to comply with the Vehicle Code or with regulations contained in Title 13 of the California Code of Regulations relative to motor carrier safety, and, in the department's opinion, that failure presents an imminent danger to public safety or constitutes such a consistent failure as to justify a recommendation to the Public Utilities Commission or the Interstate Commerce Commission, or (2) failed to comply with the pull notice system or periodic report requirements required by Section 1808.1, the department shall recommend to the Public Utilities Commission or the Interstate

Commerce Commission that the carrier's operating authority be suspended, denied, or revoked, whichever is appropriate. The department shall retain a record, by operator, of every recommendation made pursuant to this section.

(b) Before transmitting a recommendation pursuant to subdivision (a), the department shall notify the carrier in writing of all of the following:

(1) That the department has determined that the carrier's safety record is unsatisfactory, furnishing a copy of any documentation or summary of any other evidence supporting the determination.

(2) That the determination may result in a suspension, revocation, or denial of the carrier's operating authority by the California Public Utilities Commission or the Interstate Commerce Commission.

(3) That the carrier may request a review of the determination by the department within five days of its receipt of the notice required under this subdivision. If a review pursuant to this paragraph is requested by the carrier, the department shall conduct and evaluate that review prior to transmitting any notification pursuant to subdivision (a).

SEC. 13. Section 34507.5 of the Vehicle Code is amended to read:

34507.5. (a) Every motor carrier shall obtain a carrier identification number from the department. Application for a carrier identification number shall be on forms furnished by the department. Information provided in connection with applications for carrier identification numbers shall be updated by motor carriers upon request from the department.

(b) (1) The carrier identification number shall be displayed on both sides of each vehicle set forth in Section 34500, or on both sides of at least one motor vehicle in each combination of vehicles.

(2) The display of the carrier identification number shall be in sharp contrast to the background, and shall be of such size, shape, and color as to be readily legible during daylight hours from a distance of 50 feet.

(3) The carrier identification number shall be removed before sale, transfer, or other disposal of the vehicle.

(c) This section does not apply to any of the following vehicles:

(1) Vehicles which are regulated by, and which display a valid operating authority or identification number assigned by, the Interstate Commerce Commission, the Public Utilities Commission, or the United States Department of Transportation.

(2) Vehicles described in subdivision (g) of Section 34500 if the hazardous material transportation does not require the display of placards pursuant to Section 27903, a license pursuant to Section 32000.5, or hazardous waste hauler registration pursuant to Section 25163 of the Health and Safety Code.

(3) Historical vehicles, as described in Section 5004, vehicles which display special identification plates in accordance with Section 5011, and implements of husbandry as defined in Chapter 1 (commencing with Section 36000) of Division 16.

SEC. 14. Section 34515 of the Vehicle Code is amended to read:

34515. (a) As used in this division and in regulations adopted pursuant thereto, "maintenance facility or terminal" means any place or places where a vehicle of a type listed in Section 34500 is regularly garaged or maintained, or from which it is operated or dispatched. "Maintenance facility or terminal" may include a private business or residence.

(b) For the purpose of the inspections required by subdivision (c) of Section 34501.12, "terminal" means the location or locations in this state which are designated by a motor carrier, where subject vehicles may be inspected by the department pursuant to paragraph (3) of subdivision (a) of Section 34501, and where vehicle maintenance and inspection records and drivers' records will be made available for inspection.

SEC. 15. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 16. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to remove the Attorney General's enforcement moratorium on the biennial truck terminal inspection program established by the Department of the California Highway Patrol pursuant to Chapter 1586 of the Statutes of 1988, and in order to enable the Department of the California Highway Patrol to immediately commence the safety inspection program which was to have begun on July 1, 1989, it is necessary that this act take effect immediately.

CHAPTER 1217

An act to amend Sections 53341.5 and 66007 of, and to amend and renumber Section 53340.1 of, the Government Code, to amend Section 987.8 of the Penal Code, to amend Section 16472.1 of the Public Utilities Code, and to amend Section 3114.5 of the Streets and Highways Code, relating to liens.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows.

SECTION 1. Section 53340.1, as added to the Government Code by Chapter 1365 of the Statutes of 1988, is amended and renumbered to read:

53340.2. The legislative body levying the special tax shall designate an office, department, or bureau of the local agency which shall be responsible for annually preparing the current roll of special tax levy obligations by assessor's parcel number on nonexempt property within the district and which will be responsible for estimating future special tax levies. The designated office, department, or bureau shall establish procedures to promptly respond to inquiries concerning current and future estimated tax liability. Neither the designated office, department, or bureau, nor the legislative body, shall be liable if any estimate of future tax liability is inaccurate.

SEC. 2. Section 53341.5 of the Government Code is amended to read:

53341.5. (a) If a lot, parcel, or unit of a subdivision is subject to a special tax levied pursuant to this chapter for which a public report is not required pursuant to Article 2 (commencing with Section 11010) of Chapter 1 of Part 2 of Division 4 of the Business and Professions Code, the subdivider, his or her agent, or representative, shall not sell, or lease for a term exceeding five years, the lot, parcel, or unit, or cause it to be sold or leased for a term exceeding five years, until the prospective purchaser or lessee of the lot, parcel, or unit has been furnished with and has signed a written notice as provided in this section. The notice shall contain the heading "NOTICE OF SPECIAL TAX" in type no smaller than 8-point type, and shall state the following in clear and simple language:

(1) That the property being purchased is or will be subject to a special tax.

(2) The maximum annual amount of the special tax, and the number of years for which it will be levied.

(3) The types of facilities or services to be paid for with the proceeds of the special tax.

(b) "Subdivision," as used in subdivision (a), means improved or unimproved land that is divided or proposed to be divided for the

purpose of sale, lease, or financing, whether immediate or future, into two or more lots, parcels, or units and includes a condominium project, as defined by Section 1350, a community apartment project, a stock cooperative, and a limited-equity housing cooperative, as defined in Sections 11004, 11003.2, and 11003.4, respectively, of the Business and Professions Code.

(c) If any disclosure required to be made by this section is delivered after the execution of an agreement to purchase, the buyer shall have three days after delivery in person or five days after delivery by deposit in the mail, to terminate his or her agreement by delivery of written notice of that termination to the owner, subdivider, or agent. Any disclosure delivered after the execution of an agreement to purchase shall contain a statement describing the buyer's right, method and time to rescind as prescribed by this subdivision.

(d) The failure to furnish the notice to the buyer or lessee, and failure of the buyer or lessee to sign the notice of a special tax, shall not invalidate any grant, conveyance, lease, or encumbrance.

(e) Any person or entity who willfully violates the provisions of this section shall be liable to the purchaser of a lot or unit which is subject to the provisions of this section, for actual damages, and in addition thereto, shall be guilty of a public offense punishable by a fine in an amount not to exceed five hundred dollars ($500). In an action to enforce such liability or fine, the prevailing party shall be awarded reasonable attorney's fees.

SEC. 3. Section 66007 of the Government Code is amended to read.

66007. (a) Except as otherwise provided in subdivision (b), any local agency which imposes any fees or charges on a residential development for the construction of public improvements or facilities shall not require the payment of those fees or charges, notwithstanding any other provision of law, until the date of the final inspection, or the date the certificate of occupancy is issued, whichever occurs first. However, utility service fees may be collected at the time an application for utility service is received. If the residential development contains more than one dwelling, the local agency may determine whether the fees or charges shall be paid on a pro rata basis for each dwelling when it receives its final inspection or certificate of occupancy, whichever occurs first; on a pro rata basis when a certain percentage of the dwellings have received their final inspection or certificate of occupancy, whichever occurs first; or on a lump-sum basis when the first dwelling in the development receives its final inspection or certificate of occupancy, whichever occurs first.

(b) Notwithstanding subdivision (a), the local agency may require the payment of those fees or charges at an earlier time if (1) the local agency determines that the fees or charges will be collected for public improvements or facilities for which an account has been established and funds appropriated and for which the local agency

has adopted a proposed construction schedule or plan prior to final inspection or issuance of the certificate of occupancy or (2) the fees or charges are to reimburse the local agency for expenditures previously made. "Appropriated," as used in this subdivision, means authorization by the governing body of the local agency for which the fee is collected to make expenditures and incur obligations for specific purposes.

(c) (1) If any fee or charge specified in subdivision (a) is not fully paid prior to issuance of a building permit for construction of any portion of the residential development encumbered thereby, the local agency issuing the building permit may require the property owner, or lessee if the lessee's interest appears of record, as a condition of issuance of the building permit, to execute a contract to pay the fee or charge, or applicable portion thereof, within the time specified in subdivision (a). If the fee or charge is prorated pursuant to subdivision (a), the obligation under the contract shall be similarly prorated.

(2) The obligation to pay the fee or charge shall inure to the benefit of, and be enforceable by, the local agency that imposed the fee or charge, regardless of whether it is a party to the contract. The contract shall contain a legal description of the property affected, shall be recorded in the office of the county recorder of the county and, from the date of recordation, shall constitute a lien for the payment of the fee or charge, which shall be enforceable against successors in interest to the property owner or lessee at the time of issuance of the building permit. The contract shall be recorded in the grantor-grantee index in the name of the public agency issuing the building permit as grantee and in the name of the property owner or lessee as grantor. The local agency shall record a release of the obligation, containing a legal description of the property, in the event the obligation is paid in full, or a partial release in the event the fee or charge is prorated pursuant to subdivision (a).

(3) The contract may require the property owner or lessee to provide appropriate notification of the opening of any escrow for the sale of the property for which the building permit was issued and to provide in the escrow instructions that the fee or charge be paid to the local agency imposing the same from the sale proceeds in escrow prior to disbursing proceeds to the seller.

(d) This section applies only to fees collected by a local agency to fund the construction of public improvements or facilities. It does not apply to fees collected to cover the cost of code enforcement or inspection services, or to other fees collected to pay for the cost of enforcement of local ordinances or state law.

(e) "Final inspection" or "certificate of occupancy," as used in this section, have the same meaning as described in Sections 305 and 307 of the Uniform Building Code, International Conference of Building Officials, 1985 Edition.

(f) Methods of complying with the requirement in subdivision (b) that a proposed construction schedule or plan be adopted,

include, but are not limited to, (1) the adoption of the capital improvement plan described in Section 66002, or (2) the submittal of a five-year plan for construction and rehabilitation of school facilities pursuant to subdivision (c) of Section 17717.5 of the Education Code.

(g) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1993, deletes or extends that date.

SEC. 4. Section 987.8 of the Penal Code is amended to read:

987.8. (a) Upon a finding by the court that a defendant is entitled to counsel but is unable to employ counsel, the court may hold a hearing or, in its discretion, order the defendant to appear before a county officer designated by the court, to determine whether the defendant owns or has an interest in any real property or other assets subject to attachment and not otherwise exempt by law. The court may impose a lien on any real property owned by the defendant, or in which the defendant has an interest to the extent permitted by law. The lien shall contain a legal description of the property, shall be recorded with the county recorder in the county or counties in which the property is located, and shall have priority over subsequently recorded liens or encumbrances. The county shall have the right to enforce its lien for the payment of providing legal assistance to an indigent defendant in the same manner as other lienholders by way of attachment, except that a county shall not enforce its lien on a defendant's principal place of residence pursuant to a writ of execution. No lien shall be effective as against a bona fide purchaser without notice of the lien.

(b) In any case in which a defendant is provided legal assistance, either through the public defender or private counsel appointed by the court, upon conclusion of the criminal proceedings in the trial court, or upon the withdrawal of the public defender or appointed private counsel, the court may, after notice and a hearing, make a determination of the present ability of the defendant to pay all or a portion of the cost thereof. The court may, in its discretion, hold one such additional hearing within six months of the conclusion of the criminal proceedings. The court may, in its discretion, order the defendant to appear before a county officer designated by the court to make an inquiry into the ability of the defendant to pay all or a portion of the legal assistance provided.

(c) In any case in which the defendant hires counsel replacing a publicly provided attorney; in which the public defender or appointed counsel was required by the court to proceed with the case after a determination by the public defender that the defendant is not indigent; or, in which the defendant, at the conclusion of the case, appears to have sufficient assets to repay, without undue hardship, all or a portion of the cost of the legal assistance provided to him or her, by monthly installments or otherwise; the court shall make a determination of the defendant's ability to pay as provided in subdivision (b), and may, in its discretion, make other orders as

provided in that subdivision.

This subdivision shall be operative in a county only upon the adoption of a resolution by the board of supervisors to that effect.

(d) If the defendant, after having been ordered to appear before a county officer, has been given proper notice and fails to appear before a county officer within 20 working days, the county officer shall recommend to the court that the full cost of the legal assistance shall be ordered to be paid by the defendant. The notice to the defendant shall contain all of the following:

(1) A statement of the cost of the legal assistance provided to the defendant as determined by the court.

(2) The defendant's procedural rights under this section.

(3) The time limit within which the defendant's response is required.

(4) A warning that if the defendant fails to appear before the designated officer, the officer will recommend that the court order the defendant to pay the full cost of the legal assistance provided to him or her.

(e) At a hearing, the defendant shall be entitled to, but shall not be limited to, all of the following rights:

(1) The right to be heard in person.

(2) The right to present witnesses and other documentary evidence.

(3) The right to confront and cross-examine adverse witnesses.

(4) The right to have the evidence against him or her disclosed to him or her.

(5) The right to a written statement of the findings of the court.

If the court determines that the defendant has the present ability to pay all or a part of the cost, the court shall set the amount to be reimbursed and order the defendant to pay the sum to the county in the manner in which the court believes reasonable and compatible with the defendant's financial ability. Failure of a defendant who is not in custody to appear after due notice is a sufficient basis for an order directing the defendant to pay the full cost of the legal assistance determined by the court. The order to pay all or a part of the costs may be enforced in the manner provided for enforcement of money judgments generally but may not be enforced by contempt.

Any order entered under this subdivision is subject to relief under Section 473 of the Code of Civil Procedure.

(f) Prior to the furnishing of counsel or legal assistance by the court, the court shall give notice to the defendant that the court may, after a hearing, make a determination of the present ability of the defendant to pay all or a portion of the cost of counsel. The court shall also give notice that, if the court determines that the defendant has the present ability, the court shall order him or her to pay all or a part of the cost. The notice shall inform the defendant that the order shall have the same force and effect as a judgment in a civil action and shall be subject to enforcement against the property of the defendant

in the same manner as any other money judgment.

(g) As used in this section:

(1) "Legal assistance" means legal counsel and supportive services including, but not limited to, medical and psychiatric examinations, investigative services, expert testimony, or any other form of services provided to assist the defendant in the preparation and presentation of the defendant's case.

(2) "Ability to pay" means the overall capability of the defendant to reimburse the costs, or a portion of the costs, of the legal assistance provided to him or her, and shall include, but not be limited to, all of the following:

(A) The defendant's present financial position.

(B) The defendant's reasonably discernible future financial position. In no event shall the court consider a period of more than six months from the date of the hearing for purposes of determining the defendant's reasonably discernible future financial position. Unless the court finds unusual circumstances, a defendant sentenced to state prison shall be determined not to have a reasonably discernible future financial ability to reimburse the costs of his or her defense.

(C) The likelihood that the defendant shall be able to obtain employment within a six-month period from the date of the hearing.

(D) Any other factor or factors which may bear upon the defendant's financial capability to reimburse the county for the costs of the legal assistance provided to the defendant.

(h) At any time during the pendency of the judgment rendered according to the terms of this section, a defendant against whom a judgment has been rendered may petition the rendering court to modify or vacate its previous judgment on the grounds of a change in circumstances with regard to the defendant's ability to pay the judgment. The court shall advise the defendant of this right at the time it renders the judgment.

(i) This section shall apply to all proceedings, including contempt proceedings, in which the party is represented by a public defender or appointed counsel

SEC. 5. Section 16472.1 of the Public Utilities Code is amended to read:

16472.1. (a) Notwithstanding Sections 16469 to 16472, inclusive, and as an alternative to the procedures specified in those sections, a district may provide by resolution or ordinance that delinquent water charges and interest and penalties thereon constitute a lien on the real property served to the extent that the property is owned by the person or entity receiving the service, when a certificate is recorded pursuant to this section, which shall continue in effect until the amount of charges, interest, and penalties are paid or the property is sold to satisfy the charges, interest, and penalties. No lien may be created under this section on any publicly owned property.

(b) A lien pursuant to this section attaches when the district files for record in the office of the county recorder a certificate specifying

the amount of charges, interest, and penalties due; the name of the owner of record of the property who received the water service; the legal description of the property served; and the fact that the district has complied with all provisions of this part in the determination of the charges, interest, and penalties due. From the time of recordation of the certificate, the charges, interest, and penalties constitute a lien on the property. Within 30 days of receipt of payment of all costs specified in subdivision (a), or within 30 days of a demand by an escrow agent in the event of a voluntary sale, the district shall record in the office of the county recorder a release of the lien created by this section.

(c) The county recorder shall charge the district the fees specified in Sections 27361 and 27361.4 of the Government Code for recording any certificate pursuant to subdivision (b), which certificate shall be indexed to the name of the property owner as grantor and the district as grantee.

(d) This section is in addition to any other remedies available to a district.

SEC. 6. Section 3114.5 of the Streets and Highways Code is amended to read:

3114.5. (a) This section applies only to community facilities districts.

(b) Within 15 days after determination pursuant to Section 53328 of the Government Code that the requisite number of voters are in favor of the levy of a special tax, the clerk of the legislative body shall execute and record a notice of special tax lien in the office of the county recorder of each county in which all or any part of the community facilities district is located, and the county recorder shall accept that notice. The county recorder shall index the notice of special tax liens to the names of the property owners within the community facilities district and shown in the notice, as grantors. The notice of special tax lien shall contain the information required by Section 27288.1 of the Government Code and shall be in substantially the following form:

SEC. 7. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant

to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1218

An act to add Article 11.9 (commencing with Section 25244.12) to Chapter 6.5 of Division 20 of the Health and Safety Code, relating to hazardous waste.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Article 11.9 (commencing with Section 25244.12) is added to Chapter 6.5 of Division 20 of the Health and Safety Code, to read:

Article 11.9. Hazardous Waste Source Reduction and Management Review Act of 1989

25244.12. This article shall be known and may be cited as the Hazardous Waste Source Reduction and Management Review Act of 1989.

25244.13. The Legislature finds and declares as follows:

(a) Existing law requires the department and the State Water Resources Control Board to promote the reduction of generated hazardous waste. This policy, in combination with hazardous waste land disposal bans, requires the rapid development of new programs and incentives for achieving the goal of optimal minimization of the generation of hazardous wastes. Substantial improvements and additions to the state's hazardous waste reduction program are required to be made if these goals are to be achieved.

(b) It is the goal of this article to do all of the following:

(1) Reduce the generation of hazardous waste.

(2) Reduce the release into the environment of chemical contaminants which have adverse and serious health or environmental effects.

(3) Document hazardous waste management information and make that information available to state and local government.

(c) It is the intent of this article to promote the reduction of hazardous waste at its source, and wherever source reduction is not

feasible or practicable, to encourage recycling. Where it is not feasible to reduce or recycle hazardous waste, the waste should be treated in an environmentally safe manner to minimize the present and future threat to health and the environment.

(d) It is the intent of the Legislature not to preclude the regulation of environmentally harmful releases to all media, including air, land, surface water, and groundwater, and to encourage and promote the reduction of these releases to air, land, surface water, and groundwater.

(e) It is the intent of the Legislature to encourage all state departments and agencies, especially the State Water Resources Control Board, the California regional water quality control boards, the State Air Resources Board, the air pollution control districts, and the air quality management districts, to promote the reduction of environmentally harmful releases to all media.

25244.14. For purposes of this article, the following definitions apply:

(a) "Appropriate local agency" means a county, city, or regional association which has adopted a hazardous waste management plan pursuant to Article 3.5 (commencing with Section 25135).

(b) "Hazardous waste management approaches" means approaches, methods, and techniques of managing the generation and handling of hazardous waste, including source reduction, recycling, and the treatment of hazardous waste.

(c) "Hazardous waste management performance report" or "report" means the report required by subdivision (b) of Section 25244.20 to document and evaluate the results of hazardous waste management practices.

(d) "Hazardous waste management performance report summary" or "report summary" means the summary required by subdivision (c) of Section 25244.20.

(e) (1) "Source reduction" means one of the following:

(A) Any action which causes a net reduction in the generation of hazardous waste.

(B) Any action taken before the hazardous waste is generated that results in a lessening of the properties which cause it to be classified as a hazardous waste.

(2) "Source reduction" includes, but is not limited to, all of the following:

(A) "Input change" which means a change in raw materials or feedstocks used in a production process or operation so as to reduce, avoid, or eliminate the generation of hazardous waste.

(B) "Operational improvement" which means improved site management so as to reduce, avoid, or eliminate the generation of hazardous waste.

(C) "Production process change" which means a change in a process, method, or technique which is used to produce a product or a desired result, including the return of materials or their components, for reuse within the existing processes or operations, so

as to reduce, avoid, or eliminate the generation of hazardous waste.

(D) "Product reformulation" which means changes in design, composition, or specifications of end products, including product substitution, so as to reduce, avoid, or eliminate the generation of hazardous waste.

(3) "Source reduction" does not include any of the following:

(A) Actions taken after a hazardous waste is generated.

(B) Actions that merely concentrate the constituents of a hazardous waste to reduce its volume or that dilute the hazardous waste to reduce its hazardous characteristics.

(C) Actions that merely shift hazardous wastes from one environmental medium to another environmental medium.

(D) Treatment.

(f) "Source reduction evaluation review and plan" or "review and plan" means a review conducted by the generator of the processes, operations, and procedures in use at a generator's site, according to the format established by the department pursuant to subdivision (a) of Section 25244.16, and which does both of the following:

(1) Determines any alternatives to, or modifications of, the generator's processes, operations, and procedures that may be implemented to reduce the amount of hazardous waste generated.

(2) Includes a plan to document and implement source reduction measures for the hazardous wastes specified in paragraph (1) which are technically feasible and economically practicable for the generator, including a reasonable implementation schedule.

(g) "Source reduction evaluation review and plan summary" or "plan summary" means the summary required by subdivision (c) of Section 25244.19.

(h) "SIC Code" has the same meaning as defined in Section 25501.

(i) "Hazardous waste," "person," "recycle," and "treatment" have the same meaning as defined in Article 2 (commencing with Section 25110).

25244.15. (a) The department shall establish a program for hazardous waste source reduction pursuant to this article.

(b) The department shall coordinate the activities of all state agencies with responsibilities and duties relating to hazardous waste and shall promote coordinated efforts to encourage the reduction of hazardous waste. Coordination between the program and other relevant state agencies and programs shall, to the fullest extent possible, include joint planning processes and joint research and studies.

(c) The department shall adopt regulations to carry out this article.

(d) (1) This article applies only to generators who, by site, routinely generate, through ongoing processes and operations, more than 12,000 kilograms of hazardous waste in a calendar year, or more than 12 kilograms of extremely hazardous waste in a calendar year.

(2) The department shall adopt regulations to establish procedures for exempting generators from the requirements of this

article where the department determines that no source reduction opportunities exist for the generator.

25244.16. On or before January 1, 1991, the department shall do both of the following:

(a) Adopt a format to be used by generators for completing the review and plan and plan summary required by Section 25244.19, and the report and the report summary required by Section 25244.20. The format shall include at least all of the factors the generator is required to include in the review and plan, the plan summary, the report, and the report summary. The department may include any other factor determined by the department to be necessary to carry out this article. The adoption of a format pursuant to this subdivision is not subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(b) Establish a data and information system to be used by the department for developing the categories of generators specified in Section 25244.18, for processing and evaluating the source reduction and other hazardous waste management information submitted by generators pursuant to Section 25244.18, and for developing the program evaluation required by Section 25244.22. In establishing the data and information system, the department shall do all of the following:

(1) Establish methods and procedures for appropriately processing or managing hazardous waste source reduction and management information.

(2) Use the data management expertise, resources, and forms of already established environmental protection programs, to the extent practicable.

(3) Establish computerized data retrieval and data processing systems, including safeguards to protect trade secrets designated pursuant to Section 25244.23.

(4) Identify additional data and information needs of the program.

25244.17. The department shall establish a technical and research assistance program to assist generators in identifying and applying methods of source reduction and other hazardous waste management approaches. The program shall emphasize assistance to smaller businesses that have inadequate technical and financial resources for obtaining information, assessing source reduction methods, and developing and applying source reduction techniques. The program shall include at least all of the following elements, which shall be carried out by the department:

(a) The department shall encourage programs by private or public consultants, including onsite consultation at sites or locations where hazardous waste is generated, to aid those generators requiring assistance in developing and implementing the review and plan, the plan summary, the report, and the report summary required by this article.

(b) The department shall conduct review and plan assistance

programs, seminars, workshops, training programs, and other similar activities to assist generators to evaluate source reduction alternatives and to identify opportunities for source reduction.

(c) The department shall establish a program to assemble, catalogue, and disseminate information about hazardous waste source reduction methods, available consultant services, and regulatory requirements.

(d) The department shall identify the range of generic and specific technical solutions that can be applied by particular types of hazardous waste generators to reduce hazardous waste generation.

25244.18. (a) On or before September 15, 1991, and every two years thereafter, the department shall select at least two categories of generators by SIC Code with potential for source reduction, and, for each category, shall do all of the following:

(1) Request that selected generators in the category provide the department, on a timely basis, with a copy of the generator's completed review and plan, or plan summary, or both, and with a copy of the generator's completed report, or report summary, or both.

(2) Examine the review and plan or plan summary and the report or report summary of selected generators in the category.

(3) Ensure that the selected generators in that category comply with Sections 25244.19 and 25244.20.

(4) Identify successful source reduction and other hazardous waste management approaches employed by generators in the category and disseminate information concerning those approaches to generators within the category.

(b) In carrying out subdivision (a), the department shall not disseminate information determined to be a trade secret pursuant to Section 25244.23.

(c) On and after September 15, 1991, the department may request from any generator, and the generator shall provide within 30 days of the request, a copy of the generator's review and plan, plan summary, report, or report summary. The department may evaluate any of these documents submitted to the department to determine whether it satisfies the requirements of this article.

(d) If the department determines that a generator has not completed the review and plan or plan summary in the manner required by Section 25244.19, or the report or report summary in the manner required by Section 25244.20, the department shall provide the generator with a notice of noncompliance, specifying the deficiencies in the review and plan, plan summary, report, or report summary identified by the department. If the department finds that the review and plan does not comply with Section 25244.19, the department shall consider the review and plan to be incomplete. A generator shall file a revised review and plan, plan summary, report, or report summary correcting the deficiencies identified by the department within 60 days of the receipt of the notice. The department may grant, in response to a written request from the

generator, an extension of the 60-day deadline, for cause, except that the department shall not grant this extension for more than an additional 60 days.

If a generator fails to submit a revised review and plan, plan summary, report, or report summary complying with the requirements of this article within the required period, or if the department determines that a generator has failed to implement the measures included in the generator's review and plan or plan summary for reducing the generator's hazardous waste, in accordance with Section 25244.19, except as provided in subdivision (e), the department may impose civil penalties pursuant to Section 25189.3, in an amount not to exceed one thousand dollars ($1,000) for each day the violation of this article continues, notwithstanding Section 25189.2, seek an order directing compliance pursuant to Section 25181, or enter into a consent agreement or a compliance schedule with the generator.

(e) If a generator fails to implement a measure specified in the review and plan, or plan summary, pursuant to paragraph (5) of subdivision (b) of Section 25244.19, the generator shall not be deemed to be in violation of Section 25244.19 for not implementing the selected measure if the generator does both of the following:

(1) The generator finds that, upon further analysis or as a result of unexpected consequences, the selected measure is not technically feasible or economically practicable, or if the selected approach has resulted in any of the following:

(A) An increase in the generation of hazardous waste.

(B) An increase in the release of hazardous chemical contaminants to other media.

(C) Adverse impacts on product quality.

(D) A significant increase in the risk of an adverse impact to human health or the environment.

(2) The generator revises the review and plan and plan summary to comply with the requirements of Section 25244.19.

(f) When taking enforcement action pursuant to this article, the department shall not judge the appropriateness of any decisions or proposed measures contained in a review and plan, plan summary, report, or report summary, but shall only determine whether the review and plan, plan summary, report, or report summary is complete, prepared, and implemented in accordance with this article.

(g) On and after September 15, 1991, an appropriate local agency which has jurisdiction over a generator's site may request from the generator, and the generator shall provide within 30 days, a copy of the generator's current review and plan, plan summary, report, and report summary.

25244.19. (a) On or before September 1, 1991, and every four years thereafter, each generator shall conduct a source reduction evaluation review and plan and a source reduction evaluation review and plan summary pursuant to subdivisions (b) and (c).

(b) Except as provided in subdivision (d), the source reduction evaluation review and plan required by subdivision (a) shall be conducted and completed for each site pursuant to the format adopted pursuant to subdivision (a) of Section 25244.16 and shall include, at a minimum, all of the following:

(1) The name and location of the site.

(2) The SIC Code of the site.

(3) Identification of all routinely generated hazardous waste streams which result from ongoing processes or operations that have a yearly volume exceeding 5 percent of the total yearly volume of hazardous waste generated at the site, or, for extremely hazardous waste, 5 percent of the total yearly volume generated at the site.

(4) For each hazardous waste stream identified in paragraph (3), the review and plan shall include all of the following information:

(A) An estimate of the quantity of hazardous waste generated.

(B) An evaluation of source reduction approaches available to the generator which are potentially viable. The evaluation shall consider at least all of the following source reduction approaches:

(i) Input change.

(ii) Operational improvement.

(iii) Production process change.

(iv) Product reformulation.

(5) A specification of, and a rationale for, the technically feasible and economically practicable source reduction measures which will be taken by the generator with respect to each hazardous waste stream identified in paragraph (3). The review and plan shall fully document any statement explaining the generator's rationale for rejecting any available source reduction approach identified in paragraph (4).

(6) An evaluation, and, to the extent practicable, a quantification, of the effects of the chosen source reduction method on emissions and discharges to air, water, or land.

(7) A timetable for making reasonable and measurable progress towards implementation of the selected source reduction measures specified in paragraph (5).

(8) Certification pursuant to subdivision (e).

(c) The source reduction evaluation review and plan summary required by subdivision (a) shall be completed in accordance with the format adopted pursuant to subdivision (a) of Section 25244.19 and shall include the information specified in paragraphs (1), (2), (3), and (6) of subdivision (b) and a summary of the information required pursuant to paragraphs (4) and (5) of subdivision (b).

(d) If a generator owns or operates multiple sites with similar processes, operations, and waste streams, the generator may prepare a single multisite review and plan and plan summary addressing all of these sites.

(e) Every review and plan and plan summary conducted pursuant to this section shall be submitted by the generator for review and certification by an engineer who is registered as a

professional engineer pursuant to Section 6762 of the Business and Professions Code and who has demonstrated expertise in hazardous waste management, by an individual who is responsible for the processes and operations of the site, or by an environmental assessor who is registered pursuant to Section 25570.3 and who has demonstrated expertise in hazardous waste management. The engineer, individual, or environmental assessor shall certify the review and plan and plan summary only if the review and plan and plan summary meet all of the following requirements:

(1) The review and plan addresses each hazardous waste stream identified pursuant to paragraph (3) of subdivision (b).

(2) The review and plan addresses the source reduction approaches specified in subparagraph (B) of paragraph (4) of subdivision (b).

(3) The review and plan clearly sets forth the measures to be taken with respect to each hazardous waste stream for which source reduction has been found to be technically feasible and economically practicable, with timetables for making reasonable and measurable progress, and properly documents the rationale for rejecting available source reduction measures.

(4) The plan summary meets the requirements of subdivision (c).

(5) The review and plan and plan summary does not merely shift hazardous waste from one environmental medium to another environmental medium by increasing emissions or discharges to air, water, or land.

(f) At the time a review and plan or a plan summary is submitted to the department, the generator shall certify that the generator has implemented, is implementing, or will be implementing, the source reduction measures identified in the review and plan or the plan summary according to the implementation schedule contained in the review and plan or the plan summary. A generator may determine not to implement a measure selected in paragraph (5) of subdivision (b) only if the generator determines, upon conducting further analysis or due to unexpected circumstances, that the selected measure is not technically feasible or economically practicable, or if attempts to implement that measure reveal that the measure would result in, or has resulted in, any of the following:

(1) An increase in the generation of hazardous waste.

(2) An increase in the release of hazardous chemicals to other environmental media.

(3) Adverse impacts on product quality.

(4) A significant increase in the risk of an adverse impact to human health or the environment.

(g) If the generator elects not to implement the review and plan or plan summary, including, but not limited to, a selected measure pursuant to subdivision (f), the generator shall amend its review and plan and plan summary to reflect this rejection and include in the review and plan and plan summary proper documentation identifying the rationale for this rejection.

25244.20. (a) On or before September 1, 1991, and every four years thereafter, each generator shall prepare a hazardous waste management performance report and a hazardous waste management performance report summary documenting hazardous waste management approaches implemented by the generator.

(b) Except as provided in subdivision (e), the hazardous waste management performance report required by subdivision (a) shall be prepared for each site in accordance with the format adopted pursuant to subdivision (a) of Section 25244.16 and shall include all of the following:

(1) The name and location of the site.

(2) The SIC Code for the site.

(3) All of the following information for each waste stream identified pursuant to paragraph (3) of subdivision (b) of Section 25244.19:

(A) An estimate of the quantity of hazardous waste generated and the quantity of hazardous waste managed, both onsite and offsite, during the current reporting year and the baseline year, as specified in subdivision (d).

(B) An assessment of the effect, during the current year, of each hazardous waste management measure implemented since the baseline year, upon the generation and the onsite and offsite management of hazardous waste. The report shall consider, but shall not be limited to, measures which use all of the following approaches:

(i) Source reduction.

(ii) Recycling.

(iii) Treatment.

(C) A description of factors during the current reporting year that have affected hazardous waste generation and onsite and offsite hazardous waste management since the baseline year, including, but not limited to, any of the following:

(i) Changes in business activity.

(ii) Changes in waste classification.

(iii) Natural phenomena.

(iv) Other factors that have affected either the quantity of hazardous waste generated or onsite and offsite hazardous waste management requirements.

(4) The certification of the report pursuant to subdivision (f).

(c) The hazardous waste management performance report summary required by subdivision (a) shall be completed in accordance with the format adopted pursuant to subdivision (a) of Section 25244.16, shall provide the information specified in paragraphs (1) and (2) of subdivision (b), and a summary of the information required by paragraph (3) of subdivision (b), and shall be certified pursuant to subdivision (f).

(d) For purposes of subdivision (b), the following definitions apply:

(1) The current reporting year is the calendar year immediately preceding the year in which the report is to be prepared.

(2) The baseline year is either of the following, whichever is applicable:

(A) For the initial report, the baseline year is the calendar year selected by the generator for which substantial hazardous waste generation, or onsite or offsite management data is available, prior to 1991, except the generator may select 1990 as the baseline year. If the generator selects 1990 as the baseline year for the initial report, the information required pursuant to paragraph (3) of subdivision (b) for the initial report shall be provided for the 1990 calendar year only.

(B) For all subsequent reports, the baseline year is the current reporting year of the immediately preceding report.

(e) If a generator owns or operates multiple sites with similar processes, operations, and waste streams, the generator may prepare a single multisite report and report summary addressing all of these sites.

(f) Every report and report summary completed pursuant to this section shall be submitted by the generator for review and certification by an engineer who is registered as a professional engineer pursuant to Section 6762 of the Business and Professions Code and who has demonstrated expertise in hazardous waste management, by an individual who is responsible for the processes and operations of the site, or by an environmental assessor who is registered pursuant to Section 25570.3 and who has demonstrated expertise in hazardous waste management. The engineer, individual, or environmental assessor shall certify the report and report summary only if the report and report summary meet all of the following requirements, as applicable:

(1) The report identifies factors that affect the generation and onsite and offsite management of hazardous wastes and summarizes the effect of those factors on the generation and onsite and offsite management of hazardous wastes.

(2) The report summary complies with the requirements specified in subdivision (c).

25244.21. (a) Every generator shall retain the original of the current review and plan, plan summary, report, and report summary, shall maintain a copy of the current review and plan, plan summary, report, and report summary at each site, or, for a multisite review and plan, plan summary, report, or report summary, at a central location, and upon request, shall make it available to any authorized representative of the department conducting an inspection pursuant to Section 25185. If a generator fails, within five days, to make available to the inspector the review and plan, plan summary, report, or report summary, the department or any authorized representative of the department conducting an inspection pursuant to Section 25185, shall, if appropriate, impose a civil penalty pursuant to Section 25189.3, in an amount not to exceed one thousand dollars ($1,000) for each day the violation of this article continues, notwithstanding Section 25189.2

(b) If a generator fails to respond to a request for a copy of its review and plan, plan summary, report, or report summary made by the department pursuant to subdivision (c) of Section 25244.18, or by a local agency pursuant to subdivision (g) of Section 25244 18, within 30 days from the date of the request, the department shall, if appropriate, assess a civil penalty pursuant to Section 25189.3, in an amount not to exceed one thousand dollars ($1,000) for each day the violation of this article continues, notwithstanding Section 25189.2.

(c) Any person may request the department to certify that a generator is in compliance with this article by having the department certify that the generator has properly completed the review and plan, plan summary, report and report summary required pursuant to Sections 25244.19 and 25244.20. The department shall respond within 60 days to a request for certification. Upon receiving a request for certification, the department shall request from the generator, which is the subject of the request, a copy of the generator's review and plan, plan summary, report, and report summary, pursuant to subdivision (c) of Section 25244.19, if the department does not have these documents. The department shall forward a copy of the review and plan, plan summary, report, and report summary to the person requesting certification, within 10 days after the department receives the request for certification or receives the review and plan, plan summary, report, and report summary, whichever is later. The department shall protect trade secrets in accordance with Section 25244.23 in a review and plan, plan summary, report, or report summary, requested to be released pursuant to this subdivision.

This subdivision does not prohibit any person from directly requesting from a generator a copy of the review and plan, plan summary, report, or report summary. Solely for the purposes of responding to a request pursuant to this subdivision, the department shall deem the review and plan, plan summary, report, or report summary to be a public record subject to Section 25152.5, and shall act in compliance with that section.

25244.22. Commencing July 1, 1993, and every other year thereafter, the director shall prepare and submit to the Governor and the Legislature a report of the department's operations and activities in carrying out this article. The director may include this report within the report required under Section 25171. This report shall include, but not be limited to, all of the following information:

(a) An evaluation of the hazardous waste source reduction progress in the state.

(b) Recommendations for legislation.

(c) Identification of any state, federal, or private economic and financial incentives that can best accelerate and maximize the research and development of source reduction and other hazardous waste management technologies and approaches.

(d) The status, funding, and results of all research projects.

25244.23. (a) The department shall adopt regulations to ensure

that trade secrets designated by a generator in all or a portion of the review and plan, the plan summary, the report, or the report summary required by this article are utilized by the director, the department, or the local agency only in connection with the responsibilities of the department pursuant to this article, and that those trade secrets are not otherwise disseminated by the director, the department, or any authorized representative of the department, or the local agency, without the consent of the generator. However, any information shall be made available to governmental agencies for use in making studies and for use in judicial review or enforcement proceedings involving the person furnishing the information. As provided by Section 25159.5, the regulations shall conform with the corresponding trade secret regulations adopted by the Environmental Protection Agency pursuant to the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. Sec. 6901 et seq.), except that the regulations adopted by the department may be more stringent or more extensive than the federal trade secret regulations. "Trade secrets," as used in this section, may include, but are not limited to, any formula, plan, pattern, process, tool, mechanism, compound, procedure, production data, or compilation of information which is not patented, which is known only to certain individuals within a commercial concern who are using it to fabricate, produce, or compound an article of trade or a service having commerical value, and which gives its user an opportunity to obtain a business advantage over competitors who do not know or use it.

(b) The department and the appropriate local agency shall protect from disclosure any trade secret designated by the generator pursuant to this section. The department shall make available information concerning source reduction approaches that have proved successful, and which do not constitute a trade secret, when carrying out subdivision (c) of Section 25244.17 and to subdivision (a) of Section 25244.18.

(c) This section does not permit a generator to refuse to disclose the information required pursuant to this article to the department or to the appropriate local agency, except an officer or employee of the department, or the appropriate local agency, in connection with the official duties of that officer or employee under this article.

(d) Any officer or employee of the department or the appropriate local agency, or any other person, who, because of his or her employment or official position, has possession of, or has access to, confidential information, and who, knowing that disclosure of the information to the general public is prohibited by this section, knowingly and willfully discloses the information in any manner to any person not entitled to receive it, is guilty of a misdemeanor and, upon conviction thereof, shall be punished by imprisonment in the county jail not exceeding six months, by a fine not exceeding one thousand dollars ($1,000), or by both the fine and imprisonment.

25244.24. On or before December 1, 1993, the Auditor General

shall submit a report to the Legislature, assessing the performance of the department in carrying out this article. The report shall include information on all of the following:

(a) The effectiveness of the source reduction evaluation reviews and plans in achieving a net reduction in the generation of hazardous waste.

(b) Data on the frequency of requests for certification pursuant to subdivision (c) of Section 25244.21, and an evaluation of the effectiveness and efficiency of this provision, including the department's implementation, in providing timely information to the public.

(c) Data on regulatory and enforcement activities conducted by the department pursuant to Section 25244.18, and the effectiveness of this section, including the department's implementation, in accomplishing compliance with this article.

(d) Data on the certification process required by Sections 25244.19 and 25244.20, and the effectiveness of this requirement in guaranteeing the integrity of the review and plans, plan summaries, reports, and report summaries.

25244.25. (a) On or before January 1, 1991, the department shall adopt, by regulation, a fair and equitable system for charging and collecting a fee from hazardous waste generators subject to this article. The department shall set the fee in an amount sufficient to produce revenues to efficiently and effectively implement this article, and may set the fees at a level sufficient to repay the Hazardous Waste Control Account for the initial costs of implementing this article.

(b) All fees collected pursuant to this section shall be paid to the department on or before September 1, 1991, and shall be deposited in the Hazardous Waste Control Account in the General Fund, for expenditure by the department, upon appropriation by the Legislature, to carry out this article.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1219

An act to amend Section 15814.14 of, and to add Section 15814.20 to, the Government Code, relating to state government energy services.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 15814.14 of the Government Code is amended to read:

15814.14. (a) Any state agency may enter into a contract with the board for the purchase or exchange of thermal or electrical energy, or to acquire conservation services through the use of conservation measures, for a term not exceeding 35 years, at such rates and upon such terms as are approved by the agency and the board.

(b) The Department of General Services, with the consent of the state agency having jurisdiction over the property, or any other state agency with the approval of the Department of General Services, may lease as lessor for terms of up to 35 years any structure, building, facility, work, or land, owned or acquired by the agency, to any person, including the board, to permit the board to enter into an energy service contract with that person, or to permit the board to undertake other projects authorized under this chapter, at such rates and upon such terms as may be approved by the state agency and the board.

SEC. 2. Section 15814.20 is added to the Government Code, to read:

15814.20. The board shall not enter into leases and energy service contracts authorized under this chapter sooner than 45 days after notification in writing of the necessity therefor has been submitted to the Chairperson of the Joint Legislative Budget Committee and the chairpersons of the fiscal committees of each house, or sooner than whatever lesser time the chairperson of the joint committee, or his or her designee, may in each instance determine. At the request of the chairperson of the joint committee, the Joint Legislative Budget Committee may hold a hearing within 45 days of receipt of the notification. If a hearing is held, the affected agencies shall be provided all information available to the Joint Legislative Budget Committee at least 10 days in advance of the hearing. In the event that a hearing is conducted, the Joint Legislative Budget Committee may recommend to the board approval, modification, or rejection of leases or energy service contracts.

CHAPTER 1220

An act to add and repeal Title 7 (commencing with Section 14000) of Part 4 of the Penal Code, relating to crime, and making an appropriation therefor.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Title 7 (commencing with Section 14000) is added to Part 4 of the Penal Code, to read:

TITLE 7. CALIFORNIA CHILD VICTIM WITNESS PILOT AND DEMONSTRATION PROGRAMS

Article 1. General

14000. This title shall be known and may be cited as the California Child Victim Witness Pilot and Demonstration Programs.

14001. The Legislature finds and declares that there is a continuing need to improve the treatment of children in legal proceedings by developing methods to achieve all of the following:

(a) Eliminate unnecessary repetitive interviews and court appearances of child victim witnesses.

(b) Streamline and improve investigative and judicial practices and procedures involving child victim witnesses.

(c) Improve the truth-finding process in cases involving child victim witnesses.

(d) Protect the rights of the child victims, their families, and the accused.

14002. (a) It is the intent of the Legislature to establish up to three pilot program and demonstration projects, specifically, three investigative, judicial, and child advocacy pilot and demonstration projects, in counties to improve the treatment of child victim witnesses in legal proceedings by funding those projects for three years.

(b) The investigative pilot and demonstration projects shall incorporate the essential elements for improving and streamlining the investigative process as it affects child victim witnesses, as those elements were identified by the California Child Victim Witness Judicial Advisory Committee, created under former Section 14152. Those elements shall include the following:

(1) Interviewing children in a child oriented setting.

(2) Using a child interview specialist to conduct comprehensive interviews with children.

(3) Developing interdisciplinary child interview protocols.

(4) Memorializing the comprehensive interview to eliminate or

minimize the need for subsequent interviews.

(5) Conducting multidisciplinary team reviews to make recommendations on child abuse cases and the needs of child victim witnesses.

(6) Ensuring that initial medical evidentiary examinations of suspected child abuse victims are conducted by medical professionals with expertise in diagnosing child abuse.

(7) Assigning a child advocate.

(8) Providing appropriate mental health services.

(c) The judicial pilot and demonstration projects shall incorporate the California Child Victim Witness Judicial Advisory Committee's proposals for streamlining and improving California's judiciary as it affects child victim witnesses and their families, including all of the following:

(1) Restructuring the superior court to create a family relations division coequal with the civil and criminal divisions.

(2) Developing special relationships among different courts.

(3) Addressing the special problems relating to child victim witnesses in the courts.

(d) The child advocacy pilot and demonstration projects shall provide a full range of advocacy and support services to child victim witnesses throughout all investigative and judicial proceedings, including providing a knowledgeable, caring person who shall undertake each of the following:

(1) Overseeing the child's emotional well-being and best interests.

(2) Protecting the child's legal rights.

(3) Identifying other advocacy services for the child.

Article 2. California Child Victim Witness Pilot and Demonstration Programs

14005. There is hereby established a three-year pilot program in the office of the Attorney General, and a three-year pilot program in the Judicial Council, which programs shall be known as the California Child Victim Witness Pilot and Demonstration Programs. The program operated by the office of the Attorney General shall consist of an investigative pilot and demonstration program, and the program operated by the Judicial Council shall consist of judicial and child advocacy pilot and demonstration programs. Each program shall operate in up to three counties which have made application to and have been designated by the administering agency of the respective programs.

14006. The office of the Attorney General and the Judicial Council shall, after consultation and coordination with each other, determine the counties in which the respective projects will be operated. Each shall give preference for selection of the pilot projects to those counties willing to operate all three pilot and demonstration projects, or alternatively to counties which otherwise

provided the most comprehensive proposals for the projects.

Article 3. Investigative Pilot and Demonstration Projects

14008. The office of the Attorney General shall establish and fund from moneys appropriated by the Legislature for purposes of this article up to three investigative pilot and demonstration projects for a three-year period in order to implement and evaluate the recommendations of the California Child Victim Witness Judicial Advisory Committee. Each county investigative pilot and demonstration project designated by the Attorney General should:

(a) Require the mandatory use of videotaping of the comprehensive child victim interview, with the understanding and agreement of the child. This videotaping shall be conducted only after initial interviews and contacts have been made, if necessary, by the district attorney, local law enforcement agencies, or social services agencies.

(b) Establish a child victim witness center or centers, or special interview settings.

(c) Develop interagency agreements and protocols for interviewing child victims, including procedures to limit the number of interviewers and minimize the number of interviews.

(e) Require that comprehensive interviews be conducted by a child interview specialist.

(f) Establish procedures for maintaining the confidentiality of audio and video tape interviews of child victim witnesses.

(g) Establish multidisciplinary teams to review and make recommendations on child abuse cases and the needs of child victim witnesses.

(h) Adopt procedures to ensure that initial medical evidentiary examinations of suspected child abuse victims are conducted by a medical professional with expertise in diagnosing child abuse, and that the results of the examination are used in the judicial process, so long as the results are otherwise admissible under law, and in the development of medical treatment plans for the child.

(i) Develop procedures for providing mental health services for child victim witnesses

Article 4. Judicial Pilot and Demonstration Projects

14010. The Judicial Council shall establish and fund from moneys appropriated by the Legislature for purposes of this article up to three judicial demonstration projects for a three-year period in order to implement and evaluate the recommendations of the California Child Victim Witness Judicial Advisory Committee. Each county judicial pilot and demonstration project designated by the Judicial

Council shall:

(a) Restructure the superior court to create a family relations division grouping civil, child, family, and human relations-oriented legal actions within that division. The family relations division shall be coequal with the civil and criminal divisions with a supervising judge. The administrative support, including staffing, of the family relations division shall be no less than the level of administrative support of the civil or criminal divisions. However, if the administrative support for the juvenile, probate, civil, and family court proceedings to be processed by the family relations division is, prior to the implementation of this act, at a level which is higher than the administrative support of the civil or criminal divisions, then the administrative support for the family relations division shall be no less than the above-specified level of administrative support for the juvenile, probate, civil, and family court which existed prior to the implementation of this act. Restructuring plans shall include the following elements:

(1) Policies which ensure that judges are assigned to the family relations division for substantial periods of time and that they are selected based upon interest and ability.

(2) Procedures to enable, to the maximum extent possible, one judge to hear all actions in the family relations division relating to a child victim witness, and to enable the judge to combine hearings whenever it is appropriate.

(3) A plan to educate family relations court judges in all of the legal proceedings which may be heard within the division and in family dynamics and child development.

(4) Protective orders to protect children who appear in any division of the family relations court and to protect against unauthorized disclosure of audio or video tape interviews or testimony of a child victim witness.

(b) Develop formal relationships among court systems, including the following:

(1) Developing efficient means for courts and court systems to communicate with each other regarding proceedings involving the same child or family, including effective methods for the immediate transmission of court orders.

(2) Developing effective methods for exchanging information among investigative and supervisory agencies serving the court to ensure that all relevant information concerning the child or family is before the court.

(3) Developing special procedures for coordination and cooperation in case management when a child is involved in criminal and dependency proceedings, domestic relations and dependency proceedings, dependency and delinquency proceedings, or related domestic violence proceedings.

(c) Address special problems relating to child victim witnesses, including the following:

(1) Developing guidelines for managing courtroom examinations

of child witnesses for the purposes of reducing the child's stress and eliciting more accurate testimony.

(2) Developing procedures for appointing a child development expert, when appropriate, to advise the court in developing guidelines for courtroom examination of a child in all legal proceedings.

(3) Developing guidelines for controlling access to children who are victims or witnesses in legal proceedings.

(4) Modifying courts and courtrooms to accommodate the needs of children and families when possible.

Article 5. Child Advocacy Pilot and Demonstration Projects

14012. The Judicial Council shall establish and fund from moneys appropriated by the Legislature for purposes of this article up to three child advocacy demonstration projects for a three-year period in order to implement and evaluate the recommendations of the California Child Victim Witness Judicial Advisory Committee. Each county child advocacy demonstration project shall:

(a) Establish a child advocacy program or office to provide a full range of advocacy and support services to child victim witnesses throughout investigative and judicial proceedings.

(b) Provide to each child victim witness a knowledgeable, caring person whose primary responsibility is to guide the child through the difficult investigative and court processes, to look out for the child's emotional well-being and best interests, to protect the child's legal rights, and to identify other advocacy services for the child.

(c) (1) Make available to each child victim witness an attorney trained in the representation of the child's interests. This attorney shall not have standing to represent the child's interests before the court and jury in criminal cases. However, each county child advocacy demonstration project shall establish procedures to receive information and advice from the attorney where the attorney believes it is necessary to protect the rights and best interests of the child.

(2) Subject to the restrictions in paragraph (1) on the attorney's standing, the attorney shall have the same rights and limitations in representing the interests of the child as an attorney representing the interests of any nonparty in criminal proceedings.

(d) Require that attorneys for children in family relations actions continue, to the maximum extent possible, to represent children in related proceedings and in relations with other agencies such as schools, mental health agencies, regional centers, and community services agencies.

(e) Ensure that children receive all necessary mental health services and are not harmed by the system itself.

(f) Provide multiple support services for child victim witnesses.

Article 6. Research and Evaluation

14013. Each administering agency shall establish a Research and Evaluation Advisory Panel consisting of at least five panel members, which panels shall coordinate the research design, operation, and evaluation of the pilot and demonstration projects. By June 30, 1990, the panels shall establish procedures for determining and describing current investigative, judicial, and child advocacy services and their costs, and for measuring the advantages, disadvantages, and associated cost savings, if any, of the changes in those services affected by the pilot and demonstration projects. The panels shall ensure uniformity of data collection in the various projects so that valid comparisons can be drawn, and ensure that the project evaluation is carried out in a manner that allows for valid and unambiguous conclusions.

14014. (a) Each investigative pilot and demonstration project shall collect the following baseline data either for a period of six months before the commencement of the project or during the operation of the project so long as there is a randomly selected and statistically valid comparison group of those served and not served by the project:

(1) The number and identity of the interviewers, the number and length of interviews, and the optimal number of interviews for each child victim witness.

(2) The number and type of interview settings, and the optimal number of interview settings, for each child victim witness.

(3) The number of medical examinations of suspected child abuse victims and the type of medical tests and procedures conducted, including the number of initial medical evidentiary examinations conducted by medical professionals with an expertise in diagnosing child abuse and their qualifications.

(4) The number of interviews of child victim witnesses that are videotaped or audiotaped.

(5) The number and percentage of child abuse cases that receive multidisciplinary team reviews, the qualifications of the members of the teams, and the results of the interviews.

(6) A description of any established interagency procedures or protocols for interviewing child victim witnesses.

(7) A description of any established procedures for selecting and training child interviewers.

(8) A description of any established procedures for ensuring the confidentiality of audiotape and videotape interviews of child victim witnesses.

(9) A description of any established procedures for providing mental health or other support services to child victim witnesses.

(10) Data on perceptions of the investigative process, including the number and quality of interviewers, interviews, interview settings, and medical examinations, and the availability of mental health or other support services.

(11) Any other information appropriate to collect.

(b) The panel appointed by the office of the Attorney General shall evaluate the investigative pilot and demonstration project in each county for the purpose of determining whether each project has been successful in meeting the following goals or objectives:

(1) Reducing the number of interviewers and the number of interviews after the initial interview for child victim witnesses by at least 25 percent.

(2) Reducing the number of interview settings for child victim witnesses by at least 50 percent.

(3) Reducing the number of medical examinations of suspected child abuse victims after the initial examination by at least 25 percent.

(4) Videotaping 100 percent of the interviews of child victim witnesses who agree to be videotaped.

(5) Conducting multidisciplinary team reviews in 100 percent of the child abuse cases.

(6) Developing interagency agreements and protocols for interviewing child victim witnesses, focusing on reducing the stress on the child caused by the investigation

(7) (A) Providing 40 hours of training to child interview specialists selected by a team composed of representatives from the district attorney's office, local law enforcement agencies, and social services agencies.

(B) Improving the qualifications, selection process, and training of interviewers.

(8) Establishing or improving procedures for maintaining the confidentiality of audiotape and videotape interviews of child victim witnesses.

(9) Developing procedures for providing mental health and other support services to child victim witnesses.

(10) Reducing the traumatic impact of the investigative process on the minor by 30 percent.

(c) The panel appointed by the office of the Attorney General shall collect data from each investigative pilot and demonstration project for purposes of comparing the costs for child victim witnesses not served by the project Savings will be measured by costs related to, but not limited to, the reduction in the number of interviewers, interview settings, and medical examinations, and other savings associated with coordination efforts.

14015. The panel appointed by the Judicial Council shall evaluate each judicial pilot and demonstration project to determine whether the goals and objectives specified in Section 14001 and subdivision (c) of Section 14002 have been met. The evaluation and goals shall include:

(a) The effect of court restructuring on tracking, coordination, and consolidating proceedings in the family relations division involving the same child or family, including whether court restructuring, coordinating, and consolidating of procedures and

actions involving the same child or family in the family relations division produces a 20-percent decrease in the average number of court hearings involving a child who may be a minor as defined in Section 300 of the Welfare and Institutions Code, a decrease of 30 percent in the amount of time this minor spends awaiting and attending court hearings, a 20-percent reduction in the duplication or overlap of services for children, and a measurable increase in the level of satisfaction with the legal process, as reported by children, families, attorneys, judges, and other groups and individuals involved in the process.

(b) The effect of existing and newly established formal relationships between the court system on the management of cases involving child victim witnesses, including whether newly instituted case management strategies and techniques diminish by 30 percent the traumatic impact on minors of courtroom appearances, and increase by 30 percent the number of children permitted to testify in court.

(c) The effect of special child victim witness courtroom management strategies and techniques on the child's emotional state, including whether newly instituted rules controlling access to, and protecting the emotional and physical well-being of, minors reduce by 30 percent the number of contacts within the court setting, including court appearances and excluding the contacts with the child advocate appointed to protect the child.

(d) The cost of providing special services, techniques, and physical plants for the pilot and demonstration program, their benefit to the justice system, and their potential utilization in a cost-beneficial manner to other proceedings.

14016. The panel appointed by the Judicial Council shall evaluate each child advocacy pilot and demonstration project to determine whether the goals and objectives specified in Section 14001 and subdivision (d) of Section 14002 have been met. The evaluation and goals shall include:

(a) Whether 100 percent of the minors, who are involved in at least two related court proceedings, are provided a capable and supportive child advocate, the number of other minors provided a child advocate, the types of services performed by each advocate, the cost of that service, and the benefit to each minor and the justice system. If an advocate was not provided, an explanation of why not shall be included.

(b) Whether an attorney was available throughout the proceeding to the child advocate or the minor, the nature and extent of services provided, the source of funds for services, cost of services, and the number of contacts.

(c) Whether each minor subject to the projects was provided all necessary mental health services, the nature and extent of the mental health and other support services recommended for, and those actually provided to, the minor, the cost of services provided, the source of payments for those services, whether future mental

health services will be likely to be necessary, and whether there exists a source for their payment.

(d) Whether the provision of the services to the minor minimize the traumatic impact of the court proceedings.

(e) Whether the project has increased the use of volunteers in providing support services to the courts by at least 40 percent and whether the volunteers have made contributions beyond their direct provision of services and what these contributions are, and whether the use of volunteers has created any problems of undesirable side effects and what those are, including the costs of arranging and providing those services.

(f) Any other information the Judicial Council or advisory panels determine is appropriate.

14017. Not later than July 1, 1994, the Attorney General and the Judicial Council shall report to the Legislature on the results of each of the pilot and demonstration projects. The reports shall include the evaluations of the Research and Evaluation Advisory Panels, recommendations as to whether the techniques utilized in the pilot and demonstration projects should be required or encouraged on a statewide basis, and how any expenses related to the changes should be financed. Recommended changes in the law shall be included in the reports.

14020. Nothing in this title shall alter or impair the existing statutory authority of a district attorney to determine whether a criminal complaint should be filed and prosecuted, or of a county welfare department or probation officer to determine whether a petition to declare a minor a dependent child of the court should be filed, or, except as expressly stated, of law enforcement agencies, probation officers, or county welfare departments to determine whether additional interviews should be conducted.

14021. This title shall remain in effect only until January 1, 1994, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1994, deletes or extends that date.

SEC. 2. The sum of eighty-three thousand dollars ($83,000) is hereby appropriated from the General Fund to the Controller, to be allocated to the Department of Justice and the Judicial Council according to the schedule set forth in this section for staff assistance and operational expenses incurred in connection with establishing and implementing the California Child Victim Witness Pilot and Demonstration Programs created by Title 7 (commencing with Section 14000) of Part 4 of the Penal Code.

(a) The sum of twenty-six thousand five hundred dollars ($26,500) shall be allocated to the Department of Justice.

(b) The sum of fifty-six thousand five hundred dollars ($56,500) shall be allocated to the Judicial Council.

CHAPTER 1221

An act to add Section 14132aa to the Welfare and Institutions Code, relating to Medi-Cal, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

I am deleting the $1,250,000 General Fund appropriation contained in Section 3 of Senate Bill No 276

This bill would establish, as a California Medical Assistance (Medi-Cal) Program benefit, the services provided by facilities licensed as congregate living health facilities to individuals diagnosed as having acquired immune deficiency syndrome

A change in federal law will be required before the provisions of this bill can become operative Therefore, the appropriation in this bill is premature and unwarranted until federal financial participation is assured

With this deletion, I approve Senate Bill No 276

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 14132aa is added to the Welfare and Institutions Code, to read:

14132aa. (a) Services provided by facilities licensed as congregate living health facilities to individuals diagnosed as having acquired immune deficiency syndrome (AIDS), are a covered benefit under this chapter, subject to utilization controls.

(b) Congregate living health facilities shall be reimbursed for services covered by this section at a rate set by the department and the provision of those services shall be subject to audit.

(c) This section shall be operative only to the extent that federal medicaid financial participation is made available pursuant to Subchapter XIX (commencing with Section 1396) of Title 42 of the United States Code.

SEC. 2. The Legislature finds and declares all of the following:

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

(c) The work will not have an adverse impact on employment.

(d) The work is approved by the Director of Industrial Relations as meeting the requirements of this section

For purposes of subdivision (c), the director shall request information on whether or not the work will have an adverse impact on employment from the appropriate local or state organization of duly authorized employee representatives of workers employed on public works.

SEC. 2. Section 1771.5 is added to the Labor Code, to read:

1771.5. (a) Nothwithstanding Section 1771, an awarding body shall not require the payment of the general prevailing rate of per diem wages or the general prevailing rate of per diem wages for holiday and overtime work for any public works project of twenty-five thousand dollars ($25,000) or less when the project is for construction work, or for any public works project of fifteen thousand dollars ($15,000) or less when the project is for alteration, demolition, repair, or maintenance work, if the awarding body elects to initiate and enforce a labor compliance program pursuant to subdivision (b) for every public works project under the authority of the awarding body.

(b) For the purposes of this section, a labor compliance program shall include, but not be limited to, the following requirements:

(1) All bid invitations and public works contracts shall contain appropriate language concerning the requirements of this chapter.

(2) A prejob conference shall be conducted with the contractor and subcontractors to discuss federal and state labor law requirements applicable to the contract.

(3) Project contractors and subcontractors shall maintain and furnish, at a designated time, a certified copy of each weekly payroll

containing a statement of compliance signed under penalty of perjury.

(4) The awarding body shall review, and, if appropriate, audit payroll records to verify compliance with this chapter.

(5) The awarding body shall withhold contract payments when payroll records are delinquent or inadequate.

(6) The awarding body shall withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment has occurred.

SEC. 3. Section 1771.6 is added to the Labor Code, to read:

1771.6. Notwithstanding Sections 1730, 1731, and 1734, any political subdivision which enforces this chapter in accordance with Section 1771.5 shall, at the expiration of 90 days after the completion of the contract and the formal acceptance of the job, deposit all penalties or forfeitures withheld from any contract payment in the general fund of the political subdivision. Any court collecting any fines or penalties under the criminal provisions of this chapter, or any of the labor laws pertaining to public works, when the fines and penalties resulted from enforcement actions by a political subdivision pursuant to Section 1771.5, shall deposit the fines or penalties in the general fund of the political subdivision.

SEC. 4. Section 1771.7 is added to the Labor Code, to read:

1771.7. A contractor may appeal an enforcement action by a political subdivision pursuant to Section 1771.5 to the Director of Industrial Relations. Any ruling by the director shall be final and, notwithstanding Section 1732, any appeal shall waive the contractor's right to bring court action on the same issue.

SEC. 5. Section 1773.5 of the Labor Code is amended to read:

1773.5. The Director of Industrial Relations may establish rules and regulations for the purpose of carrying out this chapter, including, but not limited to, the responsibilities and duties of awarding bodies under this chapter.

SEC. 6. Section 1775 of the Labor Code is amended to read:

1775. The contractor shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by him or her or by any subcontractor under him or her. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the contractor in meeting his or her prevailing wage obligations, or a contractor's willful failure to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages is not excusable if the contractor had knowledge of his or her obligations under this part. The difference between the prevailing wage rates and the

amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the contractor, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

To the extent that there is insufficient money due a contractor to cover all penalties forfeited and amounts due in accordance with this section, or in accordance with Section 1813, and in all cases where the contract does not provide for a money payment by the awarding body to the contractor, the awarding body shall notify the Division of Labor Standards Enforcement of the violation and the Division of Labor Standards Enforcement, if necessary with the assistance of the awarding body, may maintain an action in any court of competent jurisdiction to recover the penalties and the amounts due provided in this section. This action shall be commenced not later than 90 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 90 days after acceptance of the public work, whichever last occurs. No issue other than that of the liability of the contractor for the penalties allegedly forfeited and amounts due shall be determined in the action, and the burden shall be upon the contractor to establish that the penalties and amounts demanded in the action are not due.

Out of any money withheld, recovered, or both there shall first be paid the amount due each worker, and if insufficient funds are withheld, recovered, or both to pay each worker in full, the money shall be prorated among all workers.

SEC. 7. Section 1775 of the Labor Code is amended to read:

1775. The employer shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by the contractor or under subcontract by the subcontractor. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the contractor in meeting his or her prevailing wage obligations, or a contractor's willful failure to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages is not excusable if the contractor had knowledge of his or her obligations under this part. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the employer, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

To the extent that there is insufficient money due an employer to cover all penalties forfeited and amounts due in accordance with this section, or in accordance with Section 1813, and in all cases where the contract does not provide for a money payment by the awarding body to the employer, the awarding body shall notify the Division of Labor Standards Enforcement of the violation and the Division of Labor Standards Enforcement, if necessary with the assistance of the awarding body, may maintain an action in any court of competent jurisdiction to recover the penalties and the amounts due under this section. This action shall be commenced not later than six months after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than six months after acceptance of the public work, whichever last occurs. No issue other than that of the liability of the employer for the penalties allegedly forfeited and amounts due shall be determined in the action, and the burden shall be upon the employer to establish that the penalties and amounts demanded in the action are not due.

Out of any money withheld, recovered, or both, there shall first be paid the amount due each worker and if insufficient funds are withheld, recovered, or both, to pay each worker in full, the money shall be prorated among all the workers.

"Employer," as used in this section, means the contractor or the subcontractor, whichever one employs the worker.

SEC. 8 Section 1775 of the Labor Code is amended to read:

1775. The contractor shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by him or her or by any subcontractor under him or her. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the contractor in meeting his or her prevailing wage obligations, or a contractor's willful failure to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages is not excusable if the contractor had knowledge of his or her obligations under this part. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the contractor, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

To the extent that there is insufficient money due a contractor to cover all wages and penalties forfeited and amounts due in accordance with this section, or in accordance with Section 1813, and

in all cases where the contract does not provide for a money payment by the awarding body to the contractor, the awarding body shall notify the Division of Labor Standards Enforcement of the violation and the Division of Labor Standards Enforcement, if necessary with the assistance of the awarding body, may maintain an action in any court of competent jurisdiction to recover the wages and penalties due under this section. This action shall be commenced not later than 90 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 90 days after acceptance of the public work, whichever last occurs. The division may maintain a court action whether or not it has an assignment of the wage claim of the worker. No issue other than that of the liability of the contractor for the wages and penalties due shall be determined in the action, and the burden shall be upon the contractor to establish that the penalties demanded in the action are not due.

Out of any money withheld, recovered, or both, there shall first be paid the amount due each worker and if insufficient funds are withheld, recovered, or both, to pay each worker in full, the money shall be prorated among all the workers.

SEC. 9. Section 1775 of the Labor Code is amended to read:

1775. The employer shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by the contractor or under subcontract by the subcontractor. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the contractor in meeting his or her prevailing wage obligations, or a contractor's willful failure to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages is not excusable if the contractor had knowledge of his or her obligations under this part. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the employer, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

To the extent that there is insufficient money due an employer to cover all wages and penalties forfeited and amounts due in accordance with this section, or in accordance with Section 1813, and in all cases where the contract does not provide for a money payment by the awarding body to the, employer the awarding body shall notify the Division of Labor Standards Enforcement of the violation and the Division of Labor Standards Enforcement, if necessary with

the assistance of the awarding body, may maintain an action in any court of competent jurisdiction to recover the wages and penalties due under this section. This action shall be commenced not later than six months after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than six months after acceptance of the public work, whichever last occurs. The division may maintain a court action whether or not it has an assignment of the wage claim of the worker. No issue other than that of the liability of the employer for the wages and penalties due shall be determined in the action, and the burden shall be upon the employer to establish that the wages and penalties demanded in the action are not due.

Out of any money withheld, recovered, or both, there shall first be paid the amount due each worker and if insufficient funds are withheld, recovered, or both, to pay each worker in full, the money shall be prorated among all the workers.

"Employer," as used in this section, means the contractor or the subcontractor, whichever one employs the worker.

SEC. 10. Section 1777.1 is added to the Labor Code, to read:

1777.1. (a) Whenever any contractor or subcontractor performing a public works project pursuant to this chapter is found by the Labor Commissioner to be in violation of this chapter with intent to defraud, except Section 1777.5, the contractor or subcontractor or any firm, corporation, partnership, or association in which the contractor or subcontractor has a substantial interest shall be ineligible to bid on or to receive any public works contract for a period of not less than one year or more than three years. The period of debarment shall run from the date the determination of the violation is made by the Labor Commissioner.

(b) Whenever any contractor or subcontractor performing a public works project pursuant to this chapter is found by the Labor Commissioner to be in willful violation of this chapter, except Section 1777.5, the contractor or subcontractor or any firm, corporation, partnership, or association in which the contractor or subcontractor has a substantial interest shall be ineligible to bid on or to receive any public works contract for a period up to three years for each second and subsequent violation occurring within three years of a separate and previous willful violation of this chapter. These periods of debarment shall run from the date the determination of the violation is made by the Labor Commissioner.

(c) Any determination by the Labor Commissioner shall be made after a full investigation by the Labor Commissioner and a fair and impartial hearing and reasonable notice.

(d) A willful violation occurs when the contractor or subcontractor knew or reasonably should have known of his or her obligations under the public works law and deliberately fails or refuses to comply with its provisions.

(e) The Labor Commissioner shall promulgate rules and regulations for the administration and enforcement of this section,

the definition of terms, and appropriate penalties.

SEC. 11. Section 1777.5 of the Labor Code is amended to read:

1777.5. Nothing in this chapter shall prevent the employment of properly registered apprentices upon public works.

Every such apprentice shall be paid the standard wage paid to apprentices under the regulations of the craft or trade at which he or she is employed, and shall be employed only at the work of the craft or trade to which he or she is registered.

Only apprentices, as defined in Section 3077, who are in training under apprenticeship standards and written apprentice agreements under Chapter 4 (commencing with Section 3070) of Division 3, are eligible to be employed on public works. The employment and training of each apprentice shall be in accordance with the apprenticeship standards and apprentice agreements under which he or she is training.

When the contractor to whom the contract is awarded by the state or any political subdivision, or any subcontractor under him or her, in performing any of the work under the contract or subcontract, employs workers in any apprenticeable craft or trade, the contractor and subcontractor shall apply to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade in the area of the site of the public work for a certificate approving the contractor or subcontractor under the apprenticeship standards for the employment and training of apprentices in the area or industry affected. However, approval as established by the joint apprenticeship committee or committees shall be subject to the approval of the Administrator of Apprenticeship. The joint apprenticeship committee or committees, subsequent to approving the subject contractor or subcontractor, shall arrange for the dispatch of apprentices to the contractor or subcontractor in order to comply with this section. Every contractor and subcontractor shall submit contract award information to the applicable joint apprenticeship committee which shall include an estimate of journeyman hours to be performed under the contract, the number of apprentices to be employed, and the approximate dates the apprentices will be employed. There shall be an affirmative duty upon the joint apprenticeship committee or committees administering the apprenticeship standards of the craft or trade in the area of the site of the public work to ensure equal employment and affirmative action in apprenticeship for women and minorities. Contractors or subcontractors shall not be required to submit individual applications for approval to local joint apprenticeship committees provided they are already covered by the local apprenticeship standards. The ratio of work performed by apprentices to journeymen who shall be employed in the craft or trade on the public work may be the ratio stipulated in the apprenticeship standards under which the joint apprenticeship committee operates, but, except as otherwise provided in this section, in no case shall the ratio be less than one hour of apprentices

work for every five hours of labor performed by a journeyman. However, the minimum ratio for the land surveyor classification shall not be less than one apprentice for each five journeymen.

Any ratio shall apply during any day or portion of a day when any journeyman, or the higher standard stipulated by the joint apprenticeship committee, is employed at the job site and shall be computed on the basis of the hours worked during the day by journeymen so employed, except for the land surveyor classification. The contractor shall employ apprentices for the number of hours computed as above before the end of the contract. However, the contractor shall endeavor, to the greatest extent possible, to employ apprentices during the same time period that the journeymen in the same craft or trade are employed at the job site. Where an hourly apprenticeship ratio is not feasible for a particular craft or trade, the Division of Apprenticeship Standards, upon application of a joint apprenticeship committee, may order a minimum ratio of not less than one apprentice for each five journeymen in a craft or trade classification.

The contractor or subcontractor, if he or she is covered by this section, upon the issuance of the approval certificate, or if he or she has been previously approved in the craft or trade, shall employ the number of apprentices or the ratio of apprentices to journeymen stipulated in the apprenticeship standards. Upon proper showing by the contractor that he or she employs apprentices in the craft or trade in the state on all of his or her contracts on an annual average of not less than one hour of apprentice work for every five hours of labor performed by a journeyman, or in the land surveyor classification, one apprentice for each five journeymen, the Division of Apprenticeship Standards may grant a certificate exempting the contractor from the 1-to-5 hourly ratio as set forth in this section. This section shall not apply to contracts of general contractors or to contracts of specialty contractors not bidding for work through a general or prime contractor, when the contracts of general contractors or those specialty contractors involve less than thirty thousand dollars ($30,000) or 20 working days. Any work performed by a journeyman in excess of eight hours per day or 40 hours per week, shall not be used to calculate the hourly ratio required by this section.

"Apprenticeable craft or trade," as used in this section, means a craft or trade determined as an apprenticeable occupation in accordance with rules and regulations prescribed by the Apprenticeship Council. The joint apprenticeship committee shall have the discretion to grant a certificate, which shall be subject to the approval of the Administrator of Apprenticeship, exempting a contractor from the 1-to-5 ratio set forth in this section when it finds that any one of the following conditions is met:

(a) Unemployment for the previous three-month period in the area exceeds an average of 15 percent.

(b) The number of apprentices in training in such area exceeds a

ratio of 1 to 5.

(c) There is a showing that the apprenticeable craft or trade is replacing at least one-thirtieth of its journeymen annually through apprenticeship training, either on a statewide basis, or on a local basis.

(d) Assignment of an apprentice to any work performed under a public works contract would create a condition which would jeopardize his or her life or the life, safety, or property of fellow employees or the public at large or if the specific task to which the apprentice is to be assigned is of such a nature that training cannot be provided by a journeyman.

When exemptions are granted to an organization which represents contractors in a specific trade from the 1-to-5 ratio on a local or statewide basis the member contractors will not be required to submit individual applications for approval to local joint apprenticeship committees, if they are already covered by the local apprenticeship standards.

A contractor to whom the contract is awarded, or any subcontractor under him or her, who, in performing any of the work under the contract, employs journeymen or apprentices in any apprenticeable craft or trade and who is not contributing to a fund or funds to administer and conduct the apprenticeship program in any craft or trade in the area of the site of the public work, to which fund or funds other contractors in the area of the site of the public work are contributing, shall contribute to the fund or funds in each craft or trade in which he or she employs journeymen or apprentices on the public work in the same amount or upon the same basis and in the same manner as the other contractors do, but where the trust fund administrators are unable to accept the funds, contractors not signatory to the trust agreement shall pay a like amount to the California Apprenticeship Council. The contractor or subcontractor may add the amount of the contributions in computing his or her bid for the contract. The Division of Labor Standards Enforcement is authorized to enforce the payment of the contributions to the fund or funds as set forth in Section 227.

The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.

All decisions of the joint apprenticeship committee under this section are subject to Section 3081.

SEC. 12. Section 1777.7 of the Labor Code is repealed.

SEC. 13. Section 1777.7 is added to the Labor Code, to read:

1777.7. (a) In the event a contractor or subcontractor willfully fails to comply with Section 1777.5, the Director of Industrial Relations shall deny to the contractor or subcontractor, both individually and in the name of the business entity under which the contractor or subcontractor is doing business, the right to bid on, or to receive, any public works contract for a period of up to one year

for the first violation and for a period of up to three years for the second and subsequent violations. Each period of debarment shall run from the date the determination of noncompliance by the Administrator of Apprenticeship becomes an order of the California Apprenticeship Council.

(b) A contractor or subcontractor who violates Section 1777.5 shall forfeit as a civil penalty the sum of fifty dollars ($50) for each calendar day of noncompliance. Notwithstanding Section 1727, upon receipt of a determination that a civil penalty has been imposed, the awarding body shall withhold the amount of the civil penalty from contract progress payments then due or to become due.

(c) In lieu of the penalty provided for in subdivision (a) or (b), the director may for a first time violation and with the concurrence of the joint apprenticeship committee, order the contractor or subcontractor to provide apprentice employment equivalent to the work hours that would have been provided for apprentices during the period of noncompliance.

CHAPTER 1225

An act to add Chapter 2.5 (commencing with Section 4240) to Part 2 of Division 4 of the Welfare and Institutions Code, relating to mental health, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.5 (commencing with Section 4240) is added to Part 2 of Division 4 of the Welfare and Institutions Code, to read:

CHAPTER 2.5. FAMILIES OF PERSONS WITH SERIOUS MENTAL DISORDERS

4240. The Legislature finds and declares all of the following:

(a) The symptoms and behaviors of persons with serious mental disorders may cause severe disruption of normal family relationships.

(b) Families are often the principal caregivers, housing providers, and case managers for family members with serious mental disorders.

(c) Families of persons with serious mental disorders more often than not have little or no legal authority over their adult mentally disordered and sometimes difficult to manage family members and consequently need advice, skills, emotional support, and guidance to cope with the stressful burden of caregiving in order to be effective and helpful.

(d) Involved families are of inestimable value to the publicly funded and professionally operated state and county mental health system and programs emphasizing self-help can be the best way to assist families in maintaining the cohesion of family life while caring for and assisting a mentally disordered family member.

(e) Since the state's mental health resources are limited and are increasingly being directed on a priority basis toward provision of services to persons with serious mental disorders, informed and active families helping one another can effectively extend and amplify the value of state mental health dollars.

4241. It is the intent of the Legislature, by this chapter, to support an organized program of self-help in which families exchange information, advice, and emotional support to enable them to maintain and strengthen family life and secure or provide more effective treatment, care, and rehabilitation for mentally disordered family members.

It is further the intent of the Legislature to utilize an existing organized statewide network of families, who have mentally disordered family members, as a means of delivering the services

designated in this chapter.

4242. As used in this chapter:

(a) "Family" means persons whose children, spouses, siblings, parents, grandparents, or grandchildren have a serious mental disorder.

(b) "Serious mental disorder" means a mental disorder which is severe in degree and pesistent in duration and which may cause behavioral disorder or impair functioning so as to interfere substantially with activities of daily living. Serious mental disorders include schizophrenia, major affective disorders, and other severely disabling mental disorders.

4243. (a) All funds appropriated for the purposes of this chapter shall be used to contract with an organization to establish a statewide network of families who have mentally disordered family members for the purpose of providing information, advice, support, and other assistance to these families.

(b) A request for proposal shall be issued seeking applicants who are capable of supplying the services specified in Section 4244. The respondent organizations shall demonstrate that they:

(1) Focus their activities exclusively on the seriously mentally disordered.

(2) Have experience in successfully working with state agencies, including, but not limited to, the State Department of Mental Health.

(3) Have the ability to reach and involve the target population as active members.

(4) Have proven experience providing structured self-help services that benefit the target population.

(5) Have experience holding statewide and local conferences to educate families and professionals regarding the needs of the mentally disordered.

(6) Have the financial and organizational structure and experience to manage the funds provided under the proposed contract.

4244. The Director of Mental Health shall enter into a contract with the successful bidder to provide services which shall include, but not be necessarily limited to, all of the following:

(a) Production and statewide dissemination of information to families regarding methods of obtaining and evaluating services needed by mentally disordered family members.

(b) Provision of timely advice, counseling, and other supportive services to assist families in coping with emotional stress and to enable them to care for or otherwise assist mentally disordered family members.

(c) Organizing family self-help services in local communities, accessible to families throughout the state.

(d) Conducting training programs for mental health practitioners and college and university students to inform current and future mental health professionals of the needs of families and methods of

utilizing family resources to assist mentally disordered clients.

4245. Contracts entered in pursuant to this chapter shall:

(a) Have an annual contract period from July 1 through June 30 of each fiscal year unless the Director of Mental Health or the contractor terminates the contract earlier.

(b) Require an annual report by the contractor accounting for all expenditures and program accomplishments.

SEC. 2. The sum of one hundred forty-five thousand dollars ($145,000) is hereby appropriated from the General Fund to the State Department of Mental Health for the purposes of Chapter 2.5 (commencing with Section 4240) of Part 2 of Division 4 of the Welfare and Institutions Code.

CHAPTER 1226

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

(c) The growth of the market for recycled oil products further serves the state's interests in the preservation of the state's and the nation's dwindling supply of petroleum.

SEC. 2. The Legislature further finds and declares as follows:

(a) New technologies currently employed by the recycled oil industry are capable of yielding high quality oils equivalent or superior to virgin oils.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 93 of the Revenue and Taxation Code is amended to read:

93. (a) Notwithstanding any other provision of law, except as provided in subdivisions (b) and (c), no local agency, school district, county superintendent of schools, or community college district shall levy an ad valorem property tax, other than that amount which is equal to the amount needed to make annual payments for the interest and principal on general obligation bonds or other indebtedness approved by the voters prior to July 1, 1978 or the amount levied pursuant to Part 10 (commencing with Section 15000) of Division 1 and Sections 39308, 39311, 81338, and 81341 of the Education Code. In determining the tax rate required for the purposes specified in this subdivision, the amount of the levy shall be increased to compensate for any allocation and payment of tax revenues required pursuant to subdivision (b) of Section 33670 and subdivision (d) of Section 33675 of the Health and Safety Code.

(b) A county shall levy an ad valorem property tax on taxable assessed value at a rate equal to four dollars ($4) per one hundred dollars ($100) of assessed value, and at an equivalent rate when the ratio prescribed in Section 401 is changed from 25 percent to 100 percent. The revenue from that tax shall be distributed, subject to the allocation and payment as provided in subdivision (d) of Section 33675 of the Health and Safety Code, to local agencies, school districts, county superintendents of schools, and community college districts in accordance with the provisions of the Government Code through the 1978–79 fiscal year and in accordance with applicable provisions of the Revenue and Taxation Code in each fiscal year thereafter. (c) Any jurisdiction may levy an ad valorem property tax rate in the excess of the rate permitted in subdivision (b) in order to produce revenues in an amount which is equal to the amount needed to make annual payments for the interest and principal on any bonded indebtedness for the acquisition or improvement of real property which is approved by a two-thirds vote of its voters after June 4, 1986.

SEC. 2. The Legislature finds and declares that property tax delinquency penalties, and accrued legal interest paid on judgments for the recovery of unpaid property taxes rendered by courts of this state, are separate and distinct from property tax revenues, and that it is the intent of the Legislature in enacting this act to nullify the holding of the court in City of Los Angeles v. County of Los Angeles, (1983) 139 Cal. App. 3d 999.

SEC. 3. Notwithstanding the amendments to Section 93 of the Revenue and Taxation Code made by this act, the allocation of funds pursuant to subdivision (b) of Section 93 of the Revenue and Taxation Code in fiscal years 1978–79 to 1988–89, inclusive, and in fiscal year 1989–90 to December 31, 1989, inclusive, shall be deemed correct, and no reductions or increases in those allocations shall be required by reason of this act.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that the revenues provided to counties by this act exceed any additional costs which might be incurred by counties as a result of this act Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989.]

I am deleting the $500,000 appropriation contained in Section 3 of Assembly Bill No. 241.

This bill would appropriate $500,000 to the Controller for allocation as a grant to the Board of Trustees of the California Museum of Latino History, Art, and Culture, for the development of preliminary plans for this museum and for administrative costs of the board of trustees

I will be signing AB 1580, which appropriates $300,000 for the California Museum of Latino History. Thus, the appropriation in this bill is duplicative and unnecessary as the provisions of this bill are funded by the enactment of AB 1580

With this deletion, I approve Assembly Bill No 241.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows.

SECTION 1. Chapter 8.8 (commencing with Section 8740) is added to Division 1 of Title 2 of the Government Code, to read:

CHAPTER 8.8. CALIFORNIA MUSEUM OF LATINO HISTORY, ART, AND CULTURE

8740. The Legislature finds and declares as follows:

(a) That Latino Americans have made major contributions to the social, cultural, and economic greatness of California.

(b) That the California Museum of Latino History, Art, and Culture, a nonprofit corporation, and the exhibits contained therein, shall serve a statewide purpose by informing and educating the public as to the contributions of Latino Americans and by enhancing cultural understanding and appreciation.

8741. The Board of Trustees for the California Museum of Latino History, Art, and Culture shall, on or before January 1, 1991, and annually thereafter, report to the Legislature on the status of the museum project and the use of state funds appropriated and allocated for the establishment of the museum, until the funds are fully expended.

8742. State moneys, from whichever fund appropriated, may be used only for developing preliminary plans and working drawings, construction, and initial equipment, including equipment for exhibits. State financial assistance shall not exceed one-half of the total cost of the project, exclusive of any costs of land acquisition and the costs of the design, construction, and installation of exhibits and the provision of interpretive services.

8743. The state shall have no liability arising from the project and its operation, and shall have no operational or maintenance responsibility for the project. The grantee shall guarantee

performance in carrying out the project as "performance" is defined by the Legislature and as represented to the granting state agency. The grantee shall maintain adequate insurance to recover the state's investment in the event of loss.

SEC. 3. The sum of five hundred thousand dollars ($500,000) is hereby appropriated from the Special Account for Capital Outlay in the General Fund to the Controller for allocation as a grant to the Board of Trustees of the California Museum of Latino History, Art, and Culture, for purposes of developing preliminary plans for the establishment of the California Museum of Latino History, Art, and Culture, and for meeting the administrative costs of the Board of Trustees.

CHAPTER 1234

An act relating to domestic violence.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1 The Legislature finds and declares that a critical number of domestic violence victims who appear in the courts of this state are of minority descent, speak only limited English, or both. The Legislature further finds and declares that these domestic violence victims are often unwilling to provide testimony for the prosecution of these offenses due to fear of retaliation, low self-esteem and a belief that the battery was caused by the victim's behavior, and a misunderstanding of the criminal justice system.

SEC. 2. It is, therefore, the intent of the Legislature to authorize an educational program on domestic violence involving persons of Asian and Hispanic descent. Subject to the availability of funding, the Office of Criminal Justice Planning shall provide a one-time-only grant of seventy-five thousand dollars ($75,000) pursuant to this act for the purpose of developing videos addressing the problems identified in Section 1 of this act. Two videos shall be made, with one addressing the needs of Asian victims and one addressing the needs of Spanish-speaking victims. The videos shall include an explanation of the American criminal justice system and specific court proceedings likely to be applicable in domestic violence situations. After the two videos are developed, the grantee shall deliver the videos to the Office of Criminal Justice Planning. The Office of Criminal Justice Planning shall make copies of the videos available for use and shall, within the limits of available funding, make copies of the videos available for statewide distribution. The Office of Criminal Justice Planning shall award the grant pursuant to this section on the basis of proposals received in response to a request for

proposals developed by it. In addition to the grant provided by the Office of Criminal Justice Planning, the grantee shall provide a 20 percent match of the grant amount in order to receive funding pursuant to this act, which match may be in cash, the value of in-kind services, or a combination thereof. Any additional expenses incurred in the process of developing the two videos shall be paid through local, private and public donations or in-kind services. It is the intent of the Legislature that state funding for the grant shall be included in the operating budget of the Office of Criminal Justice Planning in the annual Budget Act.

CHAPTER 1235

An act to add Article 2.2 (commencing with Section 9027) to Chapter 1.5 of Part 1 of Division 2 of Title 2 of, and to repeal Sections 9027, 9028, 9029, 9031, 9032, 9926, 9927, 9928, 9929, and 9929.5 of, the Government Code, relating to legislative open meetings.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 9027 of the Government Code is repealed.

SEC. 2. Article 2.2 (commencing with Section 9027) is added to Chapter 1.5 of Part 1 of Division 2 of the Title 2 of the Government Code, to read:

Article 2.2. Open Meetings

9027. Except as otherwise provided in this article, all meetings of a house of the Legislature or a committee thereof shall be open and public, and all persons shall be permitted to attend the meetings. As used in this article, "meeting" means a gathering of a quorum of the members of a house or committee in one place for the purpose of discussing legislative or other official matters within the jurisdiction of the house or committee. As used in this article, "committee" includes a standing committee, joint committee, conference committee, subcommittee, select committee, special committee, research committee, or any similar body.

9028. Any meeting that is required to be open and public pursuant to this article, including any closed session held pursuant to subdivision (a) of Section 9029, shall be held only after full and timely notice to the public as provided by the Joint Rules of the Assembly and Senate.

9029. (a) A house of the Legislature or a committee thereof may hold a closed session solely for any of the following purposes:

(1) To consider the appointment, employment, evaluation of

performance, or dismissal of a public officer or employee, to consider or hear complaints or charges brought against a Member of the Legislature or other public officer or employee, or to establish the classification or compensation of an employee of the Legislature.

(2) To consider matters affecting the safety and security of Members of the Legislature or its employees or the safety and security of any buildings and grounds used by the Legislature.

(3) To confer with, or receive advice from, its legal counsel regarding pending or reasonably anticipated, or whether to initiate, litigation when discussion in open session would not protect the interests of the house or committee regarding the litigation.

(b) A caucus of the Members of the Senate, the Members of the Assembly, or the Members of both houses, which is composed of members of the same political party, may meet in closed session.

9029.5. (a) A closed session may be held pursuant to paragraph (3) of subdivision (a) of Section 9029 under any of the following circumstances:

(1) An adjudicatory proceeding before a court, administrative body exercising its adjudicatory authority, hearing officer, or arbitrator, to which a house of the Legislature or a committee, Member, or employee thereof is a party, has been initiated formally

(2) Based on existing facts and circumstances, a point has been reached where, in the opinion of a house of the Legislature or a committee thereof, on the advice of its legal counsel, litigation against the house or a committee, Member, or employee thereof is reasonably anticipated.

(3) Based on existing facts and circumstances, a house of the Legislature or a committee thereof has decided to initiate or is deciding whether to initiate litigation.

(4) To confer with, or receive advice from, its legal counsel and negotiator prior to the purchase, sale, exchange, or lease of real property by or for the house or committee regarding the price and terms of payment for the purchase, sale, exchange, or lease

(b) Prior to holding a closed session pursuant to paragraph (3) of subdivision (a) Section 9029 and this section, the presiding officer of the house or the chair of the committee shall state publicly which paragraph of subdivision (a) is applicable. If the closed session is held pursuant to paragraph (1) of subdivision (a), the presiding officer or chair shall state the title of or otherwise specifically identify the litigation to be discussed, unless the presiding officer or chair states that to do so would jeopardize the ability to effectuate service of process upon one or more unserved parties, or that to do so would jeopardize the ability of the house or the committee to conclude existing settlement negotiations to its advantage. If the closed session is held pursuant to paragraph (4) of subdivision (a), the notice of the closed session shall identify the real property which the negotiations may concern and the person with whom the negotiations may take place.

(c) The legal counsel of the house or the committee shall prepare

and submit to the house or the committee a memorandum stating the specific reasons and legal authority for the closed session. If the closed session is held pursuant to paragraph (1) of subdivision (a), the memorandum shall include the title of or other identification of the litigation. If the closed session is held pursuant to paragraph (2) or (3) of subdivision (a), the memorandum shall set forth the existing facts and circumstances on which the closed session is based. The legal counsel shall submit the memorandum to the house or the committee prior to the closed session, if feasible, or, in any case, not later than one week after the closed session. The memorandum shall be exempt from disclosure under the Legislative Open Records Act (Article 3.5 (commencing with Section 9070) of Chapter 1.5 of Part 1 of Division 2 of Title 2).

(d) For purposes of paragraph (3) of subdivision (a) of Section 9029 and this section, "litigation" includes any adjudicatory proceeding, including eminent domain, before a court, administrative body exercising its adjudicatory authority, hearing officer, or arbitrator

(e) For purposes of this article, all expressions of the lawyer-client privilege other than those provided in this section are hereby abrogated. This section is the exclusive expression of the lawyer-client privilege for the purposes of conducting closed-session meetings pursuant to this article

(f) Disclosure of a memorandum required under this section shall not be deemed a waiver of the lawyer-client privilege provided for under Article 3 (commencing with Section 950) of Chapter 4 of Division 8 of the Evidence Code.

9031. Any interested person may commence an action by mandamus, injunction, or declaratory relief for the purpose of stopping or preventing violations or threatened violations of this article by Members of the Legislature or to determine the applicability of this article to actions or threatened future action of a house of the Legislature or a committee thereof.

SEC. 3. Section 9028 of the Government Code is repealed.

SEC. 4. Section 9029 of the Government Code is repealed.

SEC 5 Section 9031 of the Government Code is repealed.

SEC. 6. Section 9032 of the Government Code is repealed.

SEC 7. Section 9926 of the Government Code is repealed.

SEC. 8. Section 9927 of the Government Code is repealed.

SEC. 9. Section 9928 of the Government Code is repealed.

SEC 10 Section 9929 of the Government Code is repealed.

SEC. 11. Section 9929.5 of the Government Code is repealed.

SEC. 12. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless

otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1236

An act to add Section 1246.5 to the Business and Professions Code, relating to clinical laboratories.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature, in passing this act, to promote health care in California by increasing the opportunity for citizens to obtain high quality laboratory testing by licensed clinical laboratories. The Legislature recognizes the fact that expanded access to medical testing will result in a citizenry which is more knowledgeable about the status of various bodily conditions and, therefore, more concerned about maintaining good health.

SEC. 2. Section 1246.5 is added to the Business and Professions Code, to read:

1246.5. Notwithstanding any other provision of law, any person may request, and any licensed clinical laboratory may perform, the laboratory tests specified in this section. The results from any test may be provided directly to the person requesting the test provided the test is on or for his or her own body. These test results shall be provided in a manner which presents clear information and which identifies results indicating the need for referral to a physician and surgeon.

The tests which may be conducted pursuant to this section are: pregnancy, glucose level, cholesterols, and occult blood.

The department may add additional tests to the list of tests specified in this section. However, the director may consider the addition of a test only after it has been approved by the federal Food and Drug Administration for sale to the public without a prescription in the form of an over-the-counter test kit.

CHAPTER 1237

An act to add Section 7861.4 to the Fish and Game Code, relating to fishing.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 7861.4 is added to the Fish and Game Code, to read:

7861.4 A priority for funding shall be given to programs and projects restoring, enhancing, and protecting salmon streams with funds appropriated pursuant to subparagraph (A) of paragraph (1) of subdivision (e) of Section 5907 of the Public Resources Code, that employ fishermen who are unemployed or underemployed as a result of commercial fishing restrictions within and immediately adjacent to the Klamath Management Zone imposed by federal laws or regulations.

CHAPTER 1238

An act to repeal Chapter 344 of the Statutes of 1913 and Chapter 542 of the Statutes of 1917, relating to tidelands and submerged lands and to convey certain tide and submerged lands to the City of Arcata.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. (a) There is hereby granted in trust to the City of Arcata, hereafter referred to as the "trustee" all of the right, title, and interest of the State of California, held by the state by virtue of its sovereignty in and to all tidelands and submerged lands, whether filled or unfilled, situated in the County of Humboldt and described in Section 13, hereafter referred to as "trust lands." The lands shall be held by the trustee and its successors in trust for the benefit of all the people of the state for purposes of commerce, navigation, and fisheries, and for other public trust purposes, including, but not limited to, preservation of the lands in their natural state for scientific study, open space, wildlife habitat, and recreational and visitor-oriented uses, as more particularly provided in this act.

(b) This trust grant is subject to the following express conditions:

(1) The use of the trust lands shall be in conformity with a trust lands use plan, as defined in Section 2.

(2) The trustee or its successors shall not at any time grant,

convey, give, or otherwise alienate the trust lands, or any part thereof, to any person, firm, entity, or corporation for any purposes whatsoever. The trustee may lease the trust lands, or any part thereof, for limited periods, not exceeding 50 years, for purposes consistent with the trust upon which those lands are held. The trustee may collect and retain rents and other trust revenues from those leases, under rules and regulations adopted in accordance with Section 2 and consistent with Section 5.

(3) In the management, conduct, operation, and control of the trust lands, or any improvement, betterments, or structures thereon, the trustee or its successors shall make no illegal discrimination in rates, tolls, or charges for any use or service in connection herewith, nor shall the trustee discriminate against or lawfully segregate any person or group of persons on account of sex, race, color, creed, national origin, ancestry, or physical handicap for any use or service in connection herewith.

(4) The state shall have the right to use, without charge, any transportation, landing, or storage improvements, betterments, or structures constructed upon the trust lands for any vessel or other watercraft or railroad owned or operated by or under contract to the state. The state's use of the facilities shall be governed by the trustee's rules and regulations.

(5) There is reserved to the people of the State of California the right to fish in the waters over the trust lands, with the right to convenient access to those waters over the trust lands for that purpose.

(6) There is excepted and reserved to the state all remains or artifacts of archaeological and historical significance and all deposits of minerals, including, but not limited to, all substances specified in Section 6407 of the Public Resources Code, in the trust lands, and the right to prospect for, mine, and remove those deposits from the lands

(7) The trustee shall not authorize a capital outlay project, lease, or agreement for port facilities, such as marine terminals, pipelines, or other related energy facilities on the granted lands without first requesting and receiving the approval, in writing, of the State Lands Commission. Prior to approving any such capital outlay project, lease, or agreement, the commission shall consult with other governmental agencies and shall determine that the project is in the best interests of the state and complies with applicable laws.

SEC. 2. (a) On or before January 1, 1994, the trustee shall submit to the State Lands Commission, hereafter referred to as the "commission," a trust lands use plan indicating details of intended development, preservation, or other use of the trust lands. The trustee shall thereafter submit to the commission for approval all changes of, amendments to, or extensions of the trust lands use plan. Any use of the trust lands shall be consistent with the trust lands use plan as approved by the commission.

(b) The commission shall review with reasonable promptness the

trust lands use plan submitted by the trustee and any changes or amendments to determine that they are consistent with the public trust and the requirements of this act. Based upon its review, the commission shall either approve or disapprove the plan. If the commission disapproves the plan, the commission shall furnish the trustee with its formal recommendations, and the trustee shall submit a revised plan to the commission within 180 days. If that revised plan is determined by the commission to be inconsistent with the public trust and the requirements of this act, all right, title, and interest of the trustee in and to the trust lands and improvements thereon shall revert to the state.

(c) The trust lands use plan may consist of any plan, program, or other document which includes all of the following:

(1) A general description of the type of uses planned or proposed for the trust lands. The location of these land uses shall be shown on a map or aerial photograph.

(2) The projected statewide benefit to be derived from the planned or proposed uses of the trust lands, including, but not limited to, the financial benefit and the furtherance of those purposes set forth in Section 1.

(3) The proposed method of financing the planned or proposed uses of the trust lands, including estimated capital costs, annual operating costs, and anticipated annual trust revenues.

(4) An estimated timetable for implementation of the trust lands use plan or any phase thereof.

(5) A description of how the trustee proposes to protect and preserve natural and manmade resources in connection with the use of the trust lands.

(d) The governing body of the trustee shall submit to the commission, for its approval, procedures, rules, and regulations to govern the use or development of the trust lands. These rules and regulations shall include, but not be limited to, lease rates, the bases upon which the rates are established, lease terms and conditions, provision for renegotiation of rates and terms and assignments, and other information as may be required by the commission.

(e) All leases or agreements proposed, or entered into, by any trustee after January 1, 1990, shall be consistent with the trust lands use plan submitted by the trustee and approved by the commission.

(f) Upon request, the trustee shall submit to the commission a copy of all leases and agreements entered into, renewed, or renegotiated.

SEC. 3. (a) On or before September 30 of every succeeding fifth year, commencing on September 30, 1991, the trustee shall submit a report of its utilization of the trust lands for each immediately preceding five-calendar-year period ending with June 30 of the calendar year in which the report is required to be submitted.

(b) The report shall include all of the following:

(1) A general description of the uses to which the trust lands have been placed during the period covered by the report.

(2) A list of the owners and holders of leases or permits granted or issued by the trustee, which list shall specify, as to each owner or holder, all of the following:

(A) The use to which the trust lands have been placed by the owner or holder.

(B) The consideration provided for in each lease or permit, and the consideration actually received by the trustee for the lease or permit granted or issued.

(3) An enumeration of the restrictions which the trustee has placed on the use of the trust lands and each area thereof for the period covered by the report.

SEC. 4. The trustee shall demonstrate good faith in carrying out its trust lands use plan and amending it when necessary in accordance with Section 2. If the commission determines that the trustee has substantially failed to improve, restore, preserve, or maintain the trust lands, as required by the trust lands use plan, in the time period set forth in paragraph (4) of subdivision (c) of Section 2, or has unreasonably delayed adopting that proposal, all right, title, and interest of the trustee in and to the trust lands and improvements thereon shall revert to the state.

SEC 5 (a) The trustee shall establish and maintain accounting procedures, in accordance with generally accepted accounting principles, providing accurate records of all revenues received from the trust lands and trust assets and of all expenditures of those revenues. If the trustee has several trust grants of adjacent lands and operates the granted lands as a single integrated entity, separation of accounting records for each trust grant is not required. All revenues received from trust lands and trust assets, hereafter referred to as "trust revenues," shall be expended only for those uses and purposes set forth in subdivision (a) of Section 1. The purpose of this requirement is to provide for the segregation of funds derived from the use of the trust lands in order to ensure that they are only expended to enhance the lands in accordance with the trust uses and purposes upon which the trust lands are held.

(b) Trust revenues may be used to acquire appropriate uplands to benefit and enhance the trust with the prior written consent of the commission. Property acquired with these trust revenues shall be considered an asset of the trust and subject to the terms and conditions of this act.

SEC 6. On or before October 1 of each year, the trustee shall file with the commission a detailed statement of all trust revenues and expenditures relating to its trust lands and trust assets, including obligations incurred but not yet paid, covering the fiscal year preceding submission of the statement. This statement shall be prepared according to generally accepted accounting principles and may take the form of an annual audit prepared by or for the trustee.

SEC. 7. (a) As to the expenditure of trust revenues for any single capital improvement on the trust lands involving an amount in excess of two hundred fifty thousand dollars ($250,000) in the

aggregate, the trustee shall file with the commission a detailed description of the capital improvement not less than 90 days prior to the time of any disbursement therefor or in connection therewith.

(b) Within 90 days after the time of that filing, the commission shall determine whether the capital improvement is in the statewide interest and benefit and is consistent with the conditions of this act. The commission may request the opinion of the Attorney General on the matter; and, if it does so, a copy of that opinion shall be delivered to the trustee with the notice of its determination. If the commission notifies the trustee that the capital improvement is not authorized, the trustee shall not disburse any trust revenues for, or in connection with, the capital improvement, unless and until it is determined to be authorized by a final order or judgment of a court of competent jurisdiction.

(c) The trustee may bring suit against the state for the purpose of securing such an order or judgment, which suit shall have priority over all other civil matters. Service shall be made upon the executive officer of the commission and the Attorney General, and the Attorney General shall defend the state in that suit. If judgment is given against the state in the suit, no costs may be recovered.

SEC. 8 (a) On June 30, 1992, and at the end of every third fiscal year thereafter, that portion of the trustee's trust revenues in excess of two hundred fifty thousand dollars ($250,000) remaining after current and accrued operating costs and expenditures directly related to the operation or maintenance of trust activities shall be deemed excess revenues.

(b) However, any funds deposited in a reserve fund for future capital expenditures or any funds used to retire bond issues for the improvement or operation of the granted lands shall not be deemed excess revenue. Any reserve fund for future capital expenditure shall be for projects that are consistent with the trust lands use plan required by Section 2 and have prior commission approval under Section 7 to be deemed nonexcess revenues. Capital improvements of the trust lands made for purposes authorized by this act may be considered as expenditures for the purpose of determining excess revenues.

(c) The excess revenues, as determined pursuant to this section, shall be allocated 85 percent to the Treasurer for deposit in the General Fund in the State Treasury and 15 percent to the trustee for expenditures consistent with this act.

SEC. 9. The commission shall, from time to time, institute a formal inquiry to determine that the terms and conditions of this act, and amendments thereto, have been complied with and that all other applicable provisions of law concerning the trust lands are being complied with in good faith.

SEC. 10. Reimbursement for any and all expenditures of nontrust revenues for management, maintenance, and improvements made to the trust shall be approved by the commission in advance of those expenditures, or the expenditures shall be deemed a gift to the trust.

SEC. 11. (a) Whenever the commission finds that the trustee has violated, or is about to violate, the terms of its trust grant or any other principle of law relating to its obligation under the public trust, the commission shall notify the trustee of the violations.

(b) The trustee shall have 30 days from receipt of that notice of violation to conform to the terms of its grant and the principles and laws under the public trust. If the trustee fails or refuses to so conform, the commission may bring such actions as are necessary to enforce the rights of the state and people pursuant to the public trust. The Attorney General shall represent the state and people in those actions or proceedings. If the judgment is given against the state in the action or proceeding, no costs may be recovered from the state.

SEC 12. Section 6359 of the Public Resources Code does not apply to this act.

SEC. 13. The lands granted in Section 1 are those tidelands and submerged lands in Humboldt Bay, City of Arcata, Humboldt County, California described as follows:

SEC. 4. Article 2.5 (commencing with Section 94316) is added to Chapter 3 of Part 59 of the Education Code, to read:

Article 2.5 Student Protections

94316. (a) This article shall be known and may be cited as the Maxine Waters School Reform and Student Protection Act of 1989.

(b) The Legislature finds and declares that students have been substantially harmed and the public perception of reputable institutions has been damaged because of the fraudulent, deceptive, and unfair conduct of some institutions that offer courses of instruction for a term of two years or less that are supposed to prepare students for employment in various occupations. Students have been induced to enroll in these schools through various misrepresentations including misrepresentations related to the quality of education, the availability and quality of equipment and materials, the language of instruction, and employment and salary opportunities. Some of the most egregious misrepresentations are made by representatives who recruit students at places other than the institution's premises. Some students have been enrolled who do not have the ability to benefit from the instruction In addition, the quality of the education offered is often inadequate to enable students to obtain jobs after the completion of instruction.

(c) The Legislature further finds and declares that many students who enroll in these schools pay their tuition from the proceeds of loans and grants guaranteed or provided by the state and federal governments. Students who leave schools before the completion of instruction, often because of misrepresentations and inadequate instruction, do not receive adequate refunds of tuition for the instruction not received. Students remain liable to repay student loans but are frequently unable to do so in part because they were unable to obtain the proper educational preparation for jobs. Students are also harmed by the closure of institutions, often caused by the fraud or mismanagement of the institution's operators,

because the students neither obtain the education promised nor a refund of tuition and the cost of materials. As a result of all of the foregoing, the state and federal governments spend many millions of dollars annually to satisfy loan guarantees for often inadequate and misrepresented vocational school courses.

(d) It is the intent and purpose of this article to protect students and reputable institutions, assure appropriate state control of business and operational standards, assure minimum standards for educational quality, prohibit misrepresentations, require full disclosures, prohibit unfair dealing, and protect student rights. It is the intent and purpose of this article to save millions of dollars of taxpayer's funds from being misused to underwrite the activities of institutions that depart from the standards of fair dealing and the requirements of this article.

(e) This article shall be liberally construed to effectuate its intent and achieve its purposes.

94316.1. (a) This article applies to private postsecondary educational institutions other than institutions that (1) are incorporated and lawfully operate as nonprofit public benefit corporations pursuant to Part 2 (commencing with Section 5110) of Division 2 of Title 1 of the Corporations Code and are not managed or administered by any entity for profit, or (2) either exclusively confer degrees upon the completion of a course of study of two or more years or regularly confer degrees such as master or doctorate on students who have completed an undergraduate course of study of two or more years at a college or university. Except as otherwise provided, this article also applies to schools subject to Section 94319.13

(b) Section 94312 shall not apply to institutions subject to this article. In the event of a conflict between any other provision of this chapter and this article, this article applies

(A) The federal or state government or the loan guarantee agency can take action against the student including applying any income tax refund to which the person is entitled to reduce the balance owed on the loan

(c) No institution shall enter an agreement for a course of instruction with, or prepare or assist in the preparation of a student loan or grant application for, a person solicited or recruited as described in subdivision (a) within 10 days of the date on which the person was solicited or recruited.

94316.5. (a) No institution that has offered a course of instruction at any time during the time period described in subdivision (d) shall continue to offer that course of instruction if more than 40 percent of the students who began the course and were originally scheduled at the time of enrollment to complete the course during that period failed to complete it or if more than 30 percent of the students who completed the course within that period failed to obtain employment, within six months of completing the course, in the

occupations or job titles to which the course of instruction was represented to lead. For the purpose of this subdivision, "course of instruction" or "course" includes all courses of instruction, however denominated, that lead or are represented to lead to the same or closely related occupations or job titles.

(b) No institution that has offered courses of instruction at any time during the time period described in subdivision (d) shall continue to offer any course of instruction if more than 40 percent of all the students who began the courses and were originally scheduled at the time of enrollment to complete these courses during that time period failed to complete these courses or if more than 30 percent of all the students who completed the courses within that time period failed to obtain employment, within six months of completing the courses, in the occupations or job titles to which the courses of instruction were represented to lead.

(c) An institution shall maintain records of the name, address, and telephone number of students who enroll in a course of instruction and of students who graduate from that course of instruction. An institution shall inquire whether students who complete a course of instruction obtain employment in the occupation to which the course of instruction is represented to lead. The inquiry shall be documented by a list indicating the student's name, address, and telephone number; the employer's name and address; the name and address of the person who provided the information to the institution; the name, title, or description of the job; and the date the student obtained employment.

(d) The superintendent may permit an institution to exclude specific students from the calculation of the percentage of students who failed to obtain employment within six months of completing a course of instruction only if all of the following conditions are satisfied:

(1) For each student for whom the institution seeks an exclusion, the institution shall submit to the superintendent the name and current address and telephone number of the student and the student's statement, completed in accordance with paragraph (2), indicating both of the following:

(A) The student does not seek employment within six months of completing the course of instruction in the occupations or job titles to which the course of instruction leads or was represented to lead.

(B) The reasons why the student does not seek employment.

(2) The statement described in paragraph (1) shall be made by the student in the student's own handwriting within six months after the student completed the course of instruction and shall be signed and dated by the student.

(3) No institution or representative of an institution shall offer or pay any consideration, make any untrue or misleading statement, or engage in any deceptive or unfair practice to obtain a student's statement.

(4) The superintendent shall make a reasonable effort to contact

each student for whom a statement is submitted to verify the accuracy of the student's statement and that no violation of paragraph (3) has occurred. The superintendent shall maintain a record of each contact.

(5) The institution shall pay all reasonable costs and expenses incurred by the superintendent in connection with this subdivision at a time designated by the superintendent.

(6) The superintendent may exclude a specific student if the superintendent verifies the student's statement after contacting that student as provided in paragraph (4). The superintendent shall not exclude a specific student if the superintendent does not verify the student's statement or if the superintendent is unable to contact the student after a reasonable effort. The superintendent shall not exclude any student if the institution or a representative of the institution violated paragraph (3) or if the institution fails to make payment as required by paragraph (5). The superintendent shall send written notice to the institution within 60 days of the date the institution submitted the student's statement of whether the superintendent has excluded the student.

(7) This subdivision applies only if an institution fails to comply with subdivisions (a) or (b) because an insufficient number of students obtained employment within six months of completing a course of instruction, and the superintendent's grant of the institution's request for the exclusion of specific students would result in the institution's satisfaction of the requirements of subdivisions (a) and (b).

(e) For the purpose of subdivisions (a) and (b), "the time period" or "that period" means the following:

(1) For courses of instruction that an institution proposes to offer during 1991, the one-year period that ended not more than six months before the date the institution proposes to continue to offer a course of instruction.

(2) For courses of instruction that an institution proposes to offer on and after January 1, 1992, the two-year period that ended not more than six months before the date the institution proposes to continue to offer a course of instruction.

(f) This section shall become operative on January 1, 1991.

94316.6. No institution shall enter into an agreement with any person to provide to that person any course of instruction if any of the following has occurred:

(a) The institution has failed to comply at all times with the following:

94316.7. If any person willfully violates this article and the violation results in the closure of an institution, that person shall pay to all students of the closed institution full refunds or full compensation for actual damages resulting from the closure that

were not paid by the closed institution.

94316.8. No institution shall establish a branch or satellite campus unless the branch or satellite campus has been first approved by the superintendent as complying with the minimum criteria prescribed in Section 94311, as added by Senate Bill 190 in the 1989–90 Regular Session of the Legislature, or Section 94311.1, whichever is applicable, and unless the institution complies with this chapter.

(1) A copy of the agreement.

(A) The completion rate for students in the course of instruction for the most recent calendar year that ended not less than 18 months prior to the date of disclosure This rate shall be calculated by determining the percentage of students enrolled in the course of instruction who were originally scheduled, at the time of enrollment, to complete the course of instruction in that calendar year that successfully completed the course of instruction, or obtained full-time employment in the occupation or job title category for which the training was offered, within 150 percent of the amount of time normally required to complete the course of instruction.

(B) The job placement rate for students who were originally scheduled, at the time of enrollment, to complete the course of instruction in the most recent calendar year that ended not less than 18 months prior to the date of disclosure. In calculating this rate, the institution shall consider as not having obtained employment any graduate or other student for whom the institution does not possess evidence, documented in the student's file, showing that the graduate or other student has obtained employment in the occupation or job title category for which the course of instruction is offered.

(C) Any other information necessary to substantiate the truth of any claim made by the institution as to job placement.

(D) If the institution or a representative of the institution makes any express or implied claim about the salary which may be earned after completing a course of instruction, such as a claim that the student may be able to repay a student loan from the salary received at a job obtained following completion of the course of instruction:

(i) The percentage of students who were originally scheduled, at the time of enrollment, to complete the course of instruction in the most recent calendar year that ended not less than six months prior to the date of disclosure who earn salaries at or above the claimed level.

(4) A current catalog or brochure containing information describing the courses offered, program objectives, length of program, faculty and their qualifications, schedule of tuition payments, fees, and all other charges and expenses necessary for completion of the course of instruction, cancellation and refund rights, the total cost of tuition over the entire period, and all other material facts concerning the institution and the course of instruction that might reasonably affect the student's decision to enroll.

(b) The information required by paragraph (2) of subdivision (a) shall be based on an inquiry by the institution and shall be documented by a list indicating the student's name, address, and telephone number; the employer's name, address, and telephone number; the name and address or telephone number of the person who provided the information to the institution; the name, title, or description of the job; the date the student obtained the job; and the amount of the salary, if any salary claim has been made.

(c) No institution which has offered a course of instruction for less than one year shall make any express or implied claims about the salary that a student may earn after completing the course of instruction.

(f) No institution shall obtain the signature of any person to an agreement obligating that person to pay any money to the institution until the person has had a reasonable opportunity to read and review all of the items described in subdivision (a).

(g) For the purpose of subdivision (a), a student is "originally

scheduled, at the time of enrollment, to complete the course of instruction" on the date when the student will have been enrolled in the course of instruction for the amount of time normally required to complete the course of instruction. The "amount of time normally required to complete the course of instruction" is the period of time specified in the institution's enrollment contract, catalog, or other materials for completion of the course of instruction by a full-time student, or the period of time between the date of enrollment and the anticipated graduation date appearing on the student's loan application (if any), whichever is less. However, the "amount of time normally required to complete the program" shall be calculated on a pro rata basis for students enrolled on a less than full-time basis.

(h) The disclosure of any information pursuant to Section 94316.4 shall not relieve any institution of any obligation to make any disclosure required under this section.

94316.12. If a state board, bureau, department, or agency has established the minimum number of classes or class hours or the minimum criteria of a course of instruction necessary for licensure in an occupation and an institution offers a course of instruction differing from the state agency's minimum requirements, the institution shall disclose orally and in writing the state agency's minimum requirements and how the course of instruction differs from those criteria. The institution shall make this disclosure before a prospective student executes an agreement obligating that person to pay any money to the institution for the course of instruction.

94316.14 (a) Every institution shall file annually with the superintendent, on July 1, or another date designated by the superintendent, a report subscribed under penalty of perjury that contains all of the following:

(5) Any additional information that the superintendent may prescribe.

(b) The superintendent shall maintain each report for 10 years and shall provide copies of the reports to any person upon request.

(c) Based on the review of the information submitted pursuant to this section, the superintendent may initiate a compliance review, may take action including placing the institution on probation as provided in Section 94319.10, or may require evidence of compliance with this article in a form satisfactory to the superintendent.

94316.15. (a) An institution shall notify the superintendent in writing at least 30 days before the institution (1) increases the

amount of any salary, dividend, distribution, or cash draw paid to any person in a calendar year by twenty thousand dollars ($20,000) or more than the amount paid to that person during the prior calendar year, (2) pays one or more salary advances to any person in an aggregate amount of twenty thousand dollars ($20,000) or more, or (3) makes or guarantees loans to any person in an aggregate amount of ten thousand dollars ($10,000) or more. The notice shall contain the amount to be paid, the amount paid during the calendar year, and the name of the recipient.

(b) If the superintendent determines that the proposed payment, loan, or loan guarantee would cause the institution to violate the financial and fiduciary standards required under this chapter, the superintendent shall so notify the institution. The superintendent shall take appropriate action to prevent any proposed violation of this chapter.

(c) The superintendent shall not disclose the notice filed pursuant to subdivision (a) to any person except in an administrative or judicial proceeding or as required by any law or by subpoena or court order.

94316 16. Except as provided in Section 94319.5, an institution shall not disclose the records maintained pursuant to subdivision (c) of Section 94316.5 and subdivision (b) of Section 94316.10 unless production of those records are required by any law or by subpoena or court order.

94316.20. (a) When a person executes an agreement obligating that person to pay any money to an institution for a course of instruction or related materials, the institution shall provide the person with a document containing only the following notice.

94318. (a) Each student of an institution has the right to withdraw from a course of instruction at any time.

(b) If a student withdraws from a course of instruction after the period described in subdivision (a) of Section 94317, the institution shall remit a refund as provided in Section 94318.5 less a registration fee not exceeding seventy-five dollars ($75) within 10 days following the student's withdrawal.

(c) If any portion of the tuition was paid from the proceeds of a loan, the refund shall be sent to the lender or, if appropriate, to the state or federal agency that guaranteed or reinsured the loan. Any amount of the refund in excess of the unpaid balance of the loan shall be first used to repay any student financial aid programs from which the student received benefits, in proportion to the amount of the benefits received, and any remaining amount shall be paid to the student.

(d) Within 10 days of the day on which the refund is made, the institution shall notify the student in writing of the date on which the refund was made, the amount of the refund, the method of calculating the refund, and the name and address of the entity to which the refund was sent. The following statement shall be placed at the top of the notice in a least 10-point bold face type: "This Notice Is Important. Keep It For Your Records."

94318.5. (a) Except as provided in subdivision (d), (e), or (f), the refund shall be the total price specified in the agreement multiplied by a fraction determined pursuant to subdivisions (b) and (c).

(b) The numerator of the fraction shall be (1) the number of classes or hours remaining in a course with a fixed class schedule after the student's withdrawal, (2) the number of classes or hours remaining in a course without a fixed class schedule after the student's withdrawal, or (3) the number of lessons remaining in a

home study or correspondence course after the student's withdrawal, whichever is applicable.

(c) The denominator of the fraction shall be the total number of classes or hours in a course with a fixed class schedule, the total number of classes or hours necessary to complete a class without a fixed class schedule, or the total number of lessons in a home study or correspondence course, whichever is applicable.

(d) If the institution specifies in the agreement for a course of instruction a separate charge for equipment which the student actually obtains and the student fails to return that equipment in good condition, allowing for reasonable wear and tear, within 10 days following the date of the student's withdrawal, the institution may offset against the refund calculated under subdivision (a) the amount specified in the agreement for equipment. The student shall be liable for the amount, if any, by which the amount for equipment exceeds the refund amount calculated under subdivision (a).

(e) If the institution specifies in the agreement for a course of instruction a separate charge for equipment which the student has not obtained at the time of the student's withdrawal, the refund shall be calculated by multiplying the fraction described in subdivisions (b) and (c) by an amount equal to the total price less the charge specified in the agreement for the equipment.

(f) If the total price specified in an agreement for a home study or correspondence course includes a portion for resident instruction which the student has not begun at the time of the student's withdrawal, the refund shall be calculated by multiplying the fraction described in subdivisions (b) and (c) by an amount equal to the total price less the charge specified in the agreement for the resident instruction or, if no charge is specified, the greater of the value which the institution represented the resident portion to be worth or the amount of the total price allocable to the portion for resident instruction.

(g) For the purpose of determining a refund under this section, a student shall be deemed to have withdrawn from a course of instruction when any of the following occur:

(1) The student notifies the institution of the student's withdrawal or of the date of the student's withdrawal, whichever is later.

(2) The institution terminates the student's enrollment as provided in the agreement.

(3) The student has failed to attend classes for a three-week period. For the purpose of this paragraph, the date of the student's withdrawal shall be deemed the last date of recorded attendance.

(4) The student has failed to submit three consecutive completed lessons or has failed to submit a completed lesson within 60 days of its due date as required in a home study or correspondence course. For the purpose of this paragraph, the date of the student's withdrawal shall be deemed to be the date on which the student submitted the last completed lesson.

(h) An institution shall have the burden of proof to establish the

number of classes or hours remaining in a class without a fixed class schedule after a student's withdrawal, and the amount of the total price of a home study or correspondence course allocable to the portion for resident instruction. The institution shall maintain records for five years of all the evidence on which the institution relies.

94319 (a) No institution shall offer any course of instruction to any person, or receive any consideration from any person for a course of instruction, except pursuant to a written agreement as described in this section. Every agreement for a course of instruction shall provide the following:

(1) A general description of the course of instruction and any equipment to be provided.

(2) The total number of classes, hours, or lessons required to complete the course of instruction.

(3) The total amount which the student is obligated to pay including all fees, charges, and expenses separately itemized that must be paid to complete the course of instruction. The total amount shall be underlined and shall appear immediately above the following notice, which shall be printed above the space on the agreement that is reserved for the student's signature:

"YOU ARE RESPONSIBLE FOR THIS AMOUNT. IF YOU GET A STUDENT LOAN, YOU ARE RESPONSIBLE FOR REPAYING THE LOAN AMOUNT PLUS ANY INTEREST."

(4) The total amount charged for each item of equipment shall be separately stated. The amount charged for each item of equipment shall not exceed the equipment's fair market value. The institution shall have the burden of proof to establish the equipment's fair market value.

(5) A schedule of payments.

(6) The student's right to withdraw from the course of instruction and obtain a refund and an explanation of refund rights and of how the amount of the refund will be determined including a hypothetical example.

(7) A detailed explanation of the student's right to cancel the agreement as provided in Section 94317.

(8) The following statement printed in 12-point boldface type on the first page of the agreement:

"If you have any complaints, questions, or problems which you cannot work out with the school, write or call:

(insert name, address, and telephone number of Superintendent of Public Instruction or of successor agency, whichever applies)"

(b) Unless otherwise provided in subdivision (a), the institution shall provide the information required under Sections 94316.10, 94317, 94317.5, and subdivision (a) of this section in at least 10-point type in English and, if any solicitation or negotiation leading to the agreement for a course of instruction was in a language other than English, in that other language.

94319.2. (a) An institution shall not enter into an agreement for a course of instruction with a student unless the institution first administers to the student and the student passes a test that establishes the student's ability to benefit from the course of instruction

(b) (1) No later than March 1, 1990, the superintendent shall publish a list of tests and their respective passing scores, time limits, and testing rules, which shall be used by institutions, on and after that date, to test a student's ability to benefit from a course of instruction. The superintendent shall indicate whether a particular test is generally applicable or, instead. is to be used only for one or more specific courses of instruction. From April 1, 1990, to June 30, 1991, inclusive, all institutions shall use one or more of the appropriate tests on that list in order to comply with subdivision (a). No later than July 1, 1990, the superintendent shall adopt the procedure that he or she will use in approving tests, the respective passing scores for those tests, testing time limits, and testing rules for purposes of paragraph (2).

(2) Subject to subdivision (c), the superintendent shall approve, no later than July 1, 1991, each test and the passing score for that test to be used to establish the student's ability to benefit from each course of instruction for which that test will be used, as well as testing time limits and testing rules. On and after July 1, 1991, in order to comply with subdivision (a), each institution shall use only the tests, the respective passing scores for those tests, testing time limits, and testing rules approved by the superintendent pursuant to this paragraph, as may be subsequently modified by the superintendent.

(3) The superintendent may approve nationally recognized standardized tests for use in testing a student's ability to benefit from a particular course of instruction.

(c) The institution shall have the burden of establishing to the superintendent's reasonable satisfaction that the test is a reliable and valid indicator of a student's ability to benefit from the course of instruction when administered in accordance with the test's instructions, rules, and time limits, that the minimum passing score is appropriate, and that the institution administers the test in accordance with the test's instructions, rules, and time limits.

(e) The test shall be completed solely by the student. No institution or any person in any manner associated with the institution shall (1) answer any of the test questions, or (2) provide any assistance whatsoever to the student in answering test questions. (2) If a course of instruction is based on a series of modules of classes or lessons and the learning experience to be derived from any module is not based on a student's attendance at or completion of any classes or lessons in any other module, an institution shall only enroll a student if the course of instruction begins with the first class or lesson in a module.

(c) The superintendent, at any time, may determine whether the learning experience to be derived from any class or lesson in a sequence of classes or lessons or from any module is based in any manner on a student's attendance at, or completion of, a prior class or lesson in the sequence or any class or lessons in any other module. The superintendent may make the determination described in this subdivision upon the application of any person or when the superintendent deems that a determination is appropriate. This subdivision does not apply to a change in the day or time of individual class sessions if there are no more than three changes in a six-month period or if all of the students agree to the change.

(f) If an institution enrolls a student in a course of instruction that is not offered or designed as a home study or correspondence course at the time of enrollment, the institution shall not convert the course of instruction from classroom instruction to a home study or correspondence course.

(b) Notwithstanding any provision in an agreement, a student may bring an action for a violation of this article or an institution's failure to perform its legal obligations and, upon prevailing, shall be entitled to the recovery of damages, equitable relief, any other relief authorized by this article, and reasonable attorney's fees and costs.

(c) If a court finds that a violation was willfully committed or that the institution failed to refund all consideration as required by subdivision (a) on the student's written demand, the court shall, in addition to the relief awarded under subdivision (b), award a civil penalty of up to two times the amount of the damages sustained by the student.

(e) An action brought under this section shall be commenced within three years of the discovery of the facts constituting grounds

for commencing the action.

(f) Any provision in any agreement which purports to require a student to invoke any grievance dispute procedure established by the institution or any other procedure before bringing an action to enforce any right or remedy is void and unenforceable.

(g) A student may assign his or her causes of action for a violation of this article to the superintendent, or to any state or federal agency that guaranteed or reinsured a loan for the student or provided any grant or other financial aid.

(h) The section applies to any action pending on the effective date of this section.

94319.10. (a) An institution is legally authorized to offer courses of instruction if the institution complies with this article and has received approval from the superintendent. No institution shall offer any course of instruction if the institution's approval to offer that course of instruction has been suspended or revoked.

(b) The superintendent may suspend or revoke an institution's approval to operate a branch or satellite campus because of any violation of this article.

(2) During the period of probation, the institution shall be subject to monitoring that may include the required submission of periodic reports, as prescribed by the superintendent, and special onsite inspections to determine progress toward compliance.

(3) If, as of the end of the period of probation, the superintendent is not satisfied with the steps taken by the institution to eliminate the violations of this article upon which the probation was based, the superintendent may revoke the institution's approval to operate.

(4) The superintendent may assess a penalty of up to ten thousand dollars ($10,000) as part of an order placing an institution on probation for violations of this article. In determining the amount of that penalty, the superintendent shall consider the number and gravity of the violations, the degree of the institution's good faith or culpability, the history of the institution's previous violations, and the institution's ability to pay. If the institution fails to pay a penalty within 30 days after the effective date of the superintendent's decision, the institution's approval to operate shall be automatically suspended.

(d) The superintendent shall determine an institution's compliance with this article without regard to the findings or conclusions of any accrediting agency.

94319.11. The suspension or revocation of an institution's approval to operate may also be embraced in any action otherwise proper in any court involving the institution's compliance with this chapter or performance of its legal obligations.

94319.12. (a) If the superintendent has evidence that an institution has violated this article and determines that immediate action is necessary to protect students, prevent misrepresentations to the public, or prevent the loss of public funds or tuition and other money paid by students, the superintendent may institute an emergency action to suspend, for not more than 60 days, the approval of an institution to operate.

(b) The superintendent shall provide notice of the emergency action to the institution by certified mail or personal service. If a hearing is requested, the superintendent shall set a date within 20 days after receipt of the request.

(c) The superintendent may terminate the emergency action at any time if the superintendent concludes that the grounds for instituting the emergency action no longer remain.

(d) If the institution does not request a hearing within the time specified in subdivision (b) or if the superintendent concludes after a hearing that grounds exist for the suspension or revocation of the institution's approval to operate, the superintendent may permanently suspend or revoke the institution's approval to operate, may order probation and a penalty, or may condition the institution's approval to operate as the superintendent deems appropriate.

(e) During the pendency of an emergency action, the superintendent may investigate the institution's compliance with this article and may institute a proceeding pursuant to Section 94319.10 to suspend or revoke an institution's approval to operate, or order probation and a penalty, based on any violation of this article.

(f) This section supplements but does not supplant the authority of the superintendent to seek judicial relief, including a temporary restraining order and injunction, to redress any violation of this article.

94319.13. (c) The penalties provided by this section supplement, but do not supplant, the remedies and penalties provided under other law

94319.16. The superintendent may adopt and enforce regulations as may be necessary, appropriate, or useful to interpret and otherwise implement this article. Pending the adoption of formal regulations, the superintendent may adopt temporary regulations, which shall be immediately effective, notwithstanding any other provision of law, and which shall be superseded upon the adoption of formal regulations.

94319.18. If any provision of this article or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the article that can be given effect without the invalid provision or application, and to this end the provisions of this article are severable.

94342. (a) The superintendent shall establish and maintain a Student Tuition Recovery Fund for the purpose of relieving or

mitigating pecuniary losses suffered by any California student of an approved institution and who meets either of the following conditions:

(1) The student was enrolled in an institution prior to the institution's closure, prepaid tuition, and suffered loss as the result of (A) the closure of the institution, (B) the institution's breach or anticipatory breach of the agreement for the course of instruction, or (C) a decline in the quality or value of the course of instruction within the 30-day period before the institution's closure, or, if the decline began before that period, the period of decline as determined by the superintendent.

(2) The student obtained a judgment against the institution for any violation of this chapter and the student certifies that the judgment cannot be collected after diligent collection efforts.

(b) The superintendent shall attempt to obtain the names and addresses of people who were students of an institution within 60 days before its closure and notify these students of their rights under the Student Tuition Recovery Fund and how to apply for payment.

(c) (1) Students entitled to payment as provided in paragraph (1) of subdivision (a) shall file with the superintendent a verified application indicating (A) the student's name, address, telephone number, and social security number, (B) if any portion of the tuition was paid from the proceeds of a loan, the name of the lender and any state or federal agency that guaranteed or reinsured the loan, (C) the amount of the prepaid tuition, (D) the date the student ceased attending the institution, (E) a description of the reasons the student ceased attending the institution, and (F) if the student ceased attending because of a breach or anticipatory breach or because of the decline in the quality or value of the course of instruction as described in subparagraph (C) of paragraph (1) of subdivision (a), a statement describing in detail the nature of the economic loss incurred. The application shall be filed within one year of the superintendent's service on the student of the notice described in subdivision (b) or, if no notice is served, within four years of the institution's closure.

(2) Students entitled to payment as provided in paragraph (2) of subdivision (a) shall file with the superintendent a verified application indicating the student's name, address, telephone number, and social security number, the amount of the judgment obtained against the institution, a statement that the judgment cannot be collected, and a description of the efforts attempted to enforce the judgment. The application shall be accompanied by a copy of the judgment and any other documents indicating the student's efforts made to enforce the judgment. The application shall be filed within two years after the date upon which the judgment became final.

(3) The superintendent may require additional information designed to facilitate payment to entitled students. The superintendent shall relieve a student from the requirement to

provide all of the information required by this subdivision if the superintendent has the information or the information is not reasonably necessary for a resolution of the student's claim.

(d) Within 60 days of the superintendent's receipt of an application for payment, the superintendent shall pay the claim from the Student Tuition Recovery Fund or deny the claim. The superintendent may, for good cause, extend the time period for up to 90 days to investigate the accuracy of the claim.

(e) If the superintendent pays the claim, the amount of the payment shall be the total amount of the student's economic loss, notwithstanding the amount of the refund to which the student would have been entitled after a voluntary withdrawal, although the amount of the payment shall in no event exceed the amount of the student's tuition and the cost of materials related to the course of instruction. Upon payment of the claim, the superintendent shall be subrogated to all of the student's rights against the institution to the extent of the amount of the payment.

(f) If the superintendent denies the claim, the superintendent shall notify the student of the denial and of the student's right to request a hearing within 60 days or any longer period permitted by the superintendent. If a hearing is not requested within 60 days or any additional period reasonably requested by the student, the superintendent's decision shall be final. If a hearing is requested, the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code apply.

(g) It is the intent of the Legislature that, when a student is enrolled in an institution that closes prior to the completion of the student's program, the students have the option for a teach-out at another institution approved by the superintendent. The superintendent shall seek to promote teach-out opportunities whenever possible, with the student to be informed by the superintendent that he or she has the option of either payment from the fund or a teach-out.

SEC 10 Section 94343 of the Education Code is amended to read:

94343 The superintendent shall assess each institution which collects any moneys in advance of rendering services an amount equal to one-tenth of 1 percent of the total course cost for each student newly enrolled. The assessment per student shall be not less than one dollar ($1), and not more than four dollars ($4). In addition, for each student who prepays an institution an amount in excess of four thousand dollars ($4,000), the superintendent shall assess the institution one-half of 1 percent of the prepaid amount which exceeds four thousand dollars ($4,000). The superintendent shall levy additional reasonable assessments only if required to assure that sufficient funds are available to satisfy the anticipated costs of paying student claims pursuant to Section 94342. The assessments shall be paid into the State Treasury and credited to the Student Tuition Recovery Fund, and the deposits shall be allocated, except as otherwise provided for in this chapter, solely for the payment of valid

claims to students. Unless additional reasonable assessments are required, no assessments shall be levied during any fiscal year if, as of June 30 immediately preceding that fiscal year, the balance in the fund exceeds one million dollars ($1,000,000). However, regardless of the balance in the fund, assessments shall be paid by each newly approved institution. Notwithstanding Section 13340 of the Government Code, the moneys so deposited in the Student Tuition Recovery Fund are continuously appropriated to the State Department of Education for the purpose of paying claims to students pursuant to Section 94342. Not more than one hundred thousand dollars ($100,000) per fiscal year shall be used for the administration of the tuition recovery program authorized by Section 94342 and this section. The interest earned on money in the fund shall be credited to the fund. Except for institutions which offer vocational or job training programs, institutions which are accredited by a regional accrediting association recognized by the United States Department of Education, or which meet the student tuition indemnification requirements of a California state agency, or which demonstrate to the superintendent that an acceptable alternative method of protecting their students against loss of prepaid tuition has been established, shall be exempted from the provisions of this section.

In the event of a closure by any institution approved under this chapter, any assessments which have been made against that institution, but have not been paid into the State Treasury, shall be recovered, and any payments from the Student Tuition Recovery Fund made to students on behalf of that institution may be recovered from that institution, by appropriate action taken by the Superintendent of Public Instruction. The moneys so deposited in the Student Tuition Recovery Fund shall be exempt from execution and shall not be the subject of litigation or liability on the part of creditors of such institutions or students.

(2) Section 1.5 of this bill shall become operative on January 1, 1991.

(3) Section 3 of this bill shall not become operative.

(4) Section 4 of this bill shall become operative on January 1, 1990, and shall remain in effect notwithstanding Section 3 of SB 190.

SEC. 13. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

(a) Notwithstanding Section 8681.5, any person who possessed a valid permit issued pursuant to Section 8681 and who was denied renewal of that permit, may appeal to the commission where evidence can be presented that illness or the loss of a vessel resulted in the person not meeting the qualifications for renewal or reissuance of that permit.

(b) Any person, who possessed a valid permit issued pursuant to Section 8681 during the preceding season and whose application has been denied because he or she failed to meet the landing requirements or renewal deadline specified in paragraphs (3) and (4) of subdivision (c) of Section 8681, may appeal to the commission, submitting circumstances surrounding nonuse of the permit or failure to renew by the deadline. The commission may authorize renewal of a permit issued pursuant to Section 8681 if it finds the nonuse of the permit or failure to meet the renewal deadline were for reasons beyond the control of the applicant under the circumstances.

(c) An appeal pursuant to this section shall be filed with the commission within 60 days of a denial of the renewal of a permit.

(d) If the commission determines that a permit is to be issued to a prior permittee under this section, a permit shall be issued to that person upon payment of required fees.

SEC. 6. Section 8682 of the Fish and Game Code is repealed.

SEC. 7. Section 8682 is added to the Fish and Game Code, to read:

8682. A person who does not possess a permit issued pursuant to Section 8681 may qualify for a permit transfer as provided for under paragraph (2) of subdivision (d) of Section 8681 and Section 8681.5 or a random drawing for a permit as provided for under paragraph (1) of subdivision (d) of Section 8681 if the person meets all of the following requirements:

(a) The person possesses a gill and trammel net crewmember permit issued by the department. To qualify for a crewmember permit issued pursuant to this section, an applicant shall meet both of the following:

(1) Be licensed pursuant to Section 7850.

(2) Have worked as a crewmember for at least 12 months on vessels using gill nets or trammel nets, and have worked at least 180 days at sea on those vessels during the three-year period prior to the date of application.

(c) In order to qualify for a random drawing during the current permit year, a person shall submit an application for a new crewmember permit, which shall be received during ordinary business days and hours at one of the department offices located at Menlo Park, Monterey, Long Beach, or San Diego, and which shall be received not later than 5 p.m. on the first ordinary business day of June of the year for which the permit is to be issued. A gill and trammel net crewmember permit year shall extend from April 1 of the year for which the permit is issued to March 31 of the next calendar year, inclusive

(d) The fee for a gill and trammel net crewmember permit is ten dollars ($10).

SEC. 8. Section 8683 of the Fish and Game Code is amended to read:

8683. On or after April 1, 1990, the fee for a permit issued pursuant to Section 8681 shall be two hundred fifty dollars ($250).

SEC 9 No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1243

An act to amend Section 214 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 214 of the Revenue and Taxation Code is amended to read:

214. (a) Property used exclusively for religious, hospital, scientific, or charitable purposes owned and operated by community chests, funds, foundations or corporations organized and operated

for religious, hospital, scientific, or charitable purposes is exempt from taxation if:

(1) The owner is not organized or operated for profit; provided, that in the case of hospitals, the organization shall not be deemed to be organized or operated for profit, if during the immediate preceding fiscal year the excess of operating revenues, exclusive of gifts, endowments and grants-in-aid, over operating expenses has not exceeded a sum equivalent to 10 percent of those operating expenses. As used herein, operating expenses shall include depreciation based on cost of replacement and amortization of, and interest on, indebtedness.

(2) No part of the net earnings of the owner inures to the benefit of any private shareholder or individual.

(3) The property is used for the actual operation of the exempt activity, and does not exceed an amount of property reasonably necessary to the accomplishment of the exempt purpose.

(A) For the purposes of determining whether the property is used for the actual operation of the exempt activity, consideration shall not be given to use of the property for either or both of the following described activities if that use is occasional:

(i) The owner conducts fundraising activities on the property and the proceeds derived from those activities are not unrelated business taxable income, as defined in Section 512 of the Internal Revenue Code of 1986, of the owner and are used to further the exempt activity of the owner.

(ii) The owner permits any other organization which meets all of the requirements of this subdivision, other than ownership of the property, to conduct fundraising activities on the property and the proceeds derived from those activities are not unrelated business taxable income, as defined in Section 512 of the Internal Revenue Code of 1986, of the organization, are not subject to the tax on unrelated business taxable income which is imposed by Section 511 of the Internal Revenue Code of 1986, and are used to further the exempt activity of the organization.

(B) For purposes of subparagraph (A):

(i) "Occasional use" means use of the property on an irregular or intermittent basis by the qualifying owner or any other qualifying organization described in clause (ii) of subparagraph (A) which is incidental to the primary activities of the owner or the other organization.

(ii) "Fundraising activities" means both activities involving the direct solicitation of money or other property and the anticipated exchange of goods or services for money between the soliciting organization and the organization or person solicited.

(C) Subparagraph (A) shall have no application in determining whether paragraph (3) has been satisfied unless the owner of the property and any other organization using the property as provided in subparagraph (A) have filed with the assessor duplicate copies of valid unrevoked letters or rulings from the Internal Revenue Service

which state that the owner and the other organization qualify as exempt organizations under Section 501(c)(3) of the Internal Revenue Code. The owner of the property and any other organization using the property as provided in subparagraph (A) shall also file duplicate copies of their most recently filed federal income tax returns

Nothing in subparagraph (A), (B), or (C) shall be construed to either enlarge or restrict the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section.

(4) The property is not used or operated by the owner or by any other person so as to benefit any officer, trustee, director, shareholder, member, employee, contributor, or bondholder of the owner or operator, or any other person, through the distribution of profits, payment of excessive charges or compensations or the more advantageous pursuit of their business or profession.

(5) The property is not used by the owner or members thereof for fraternal or lodge purposes, or for social club purposes except where such use is clearly incidental to a primary religious, hospital, scientific, or charitable purpose.

(6) The property is irrevocably dedicated to religious, charitable, scientific, or hospital purposes and upon the liquidation, dissolution or abandonment of the owner will not inure to the benefit of any private person except a fund, foundation or corporation organized and operated for religious, hospital, scientific, or charitable purposes.

(7) The property, if used exclusively for scientific purposes, is used by a foundation or institution which, in addition to complying with the foregoing requirements for the exemption of charitable organization in general, has been chartered by the Congress of the United States (except that this requirement shall not apply when the scientific purposes are medical research or oceanographic research), and whose objects are the encouragement or conduct of scientific investigation, research and discovery for the benefit of the community at large. For purposes of this paragraph, "oceanographic research" means the study of the biology, geology, chemistry, and physics of the oceans and seas and underlying substrates, including the development of scientific measurements necessary to pursue that study, conducted by oceanographic research institutes based in counties of the 17th class, established prior to June 30, 1987.

The exemption provided for herein shall be known as the "welfare exemption." This exemption shall be in addition to any other exemption now provided by law and the existence of the exemption provision in paragraph (2) of subdivision (a) of Section 202 shall not preclude the exemption under this section for museum or library property. Except as provided in subdivision (e), this section shall not be construed to enlarge the college exemption.

(b) Property used exclusively for school purposes of less than collegiate grade and owned and operated by religious, hospital, or charitable funds, foundations, or corporations, which property and

funds, foundations, or corporations meet all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section.

(c) Property used exclusively for nursery school purposes and owned and operated by religious, hospital, or charitable funds, foundations, or corporations, which property and funds, foundations, or corporations meet all the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section.

(d) Property used exclusively for a noncommercial educational FM broadcast station or an educational television station and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations meeting all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section.

(e) Property used exclusively for religious, charitable, scientific, or hospital purposes and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations or educational institutions of collegiate grade, as defined in Section 203, which property and funds, foundations, corporations, or educational institutions meet all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section. As to educational institutions of collegiate grade, as defined in Section 203, the requirements of paragraph (6) of subdivision (a) shall be deemed to be met if both of the following are met:

(1) The property of the educational institution is irrevocably dedicated in its articles of incorporation to charitable and educational purposes, to religious and educational purposes, or to educational purposes.

(2) The articles of incorporation of the educational institution provide for distribution of its property upon its liquidation, dissolution, or abandonment to a fund, foundation, or corporation organized and operated for religious, hospital, scientific, charitable, or educational purposes meeting the requirements for exemption provided by Section 203 or this section.

(f) Property used exclusively for housing and related facilities for elderly or handicapped families and financed by, including, but not limited to, the federal government pursuant to Section 202 of Public Law 86-372 (12 U.S.C. Sec. 1701q), as amended, Section 231 of Public Law 73-479 (12 U.S.C. Sec. 1715v), or Section 236 of Public Law 90-448 (12 U.S.C. Sec. 1715z), and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and

Section 5 of Article XIII of the Constitution of the State of California and this section. The amendment of this paragraph made at the 1983–84 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the existing law. However, no refund of property taxes shall be required as a result of this amendment for any fiscal year prior to the fiscal year in which the amendment takes effect.

Property used exclusively for housing and related facilities for elderly or handicapped families at which supplemental care or services designed to meet the special needs of elderly or handicapped residents are not provided, or which is not financed by the federal government pursuant to Section 202 of Public Law 86-372 (12 U.S.C. Sec. 1701q), as amended, Section 231 of Public Law 73-479 (12 U.S.C. Sec. 1715v), or Section 236 of Public Law 90-448 (12 U.S.C. Sec. 1715), shall not be entitled to exemption pursuant to this subdivision unless the property is used for housing and related facilities for low- and moderate-income elderly or handicapped families. Property which would otherwise be exempt pursuant to this subdivision, except that it includes some housing and related facilities for other than low- or moderate-income elderly or handicapped families, shall be entitled to a partial exemption. The partial exemption shall be equal to that percentage of the value of the property which is equal to the percentage which the number of low- and moderate-income elderly and handicapped families occupying the property is of the total number of families occupying the property.

As used in this subdivision, "low and moderate income" has the same meaning as the term "persons and families of low or moderate income" as defined by Section 50093 of the Health and Safety Code.

(g) Property used exclusively for rental housing and related facilities and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations, including limited partnerships in which the managing general partner is an eligible nonprofit corporation, meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California and this section and shall be entitled to a partial exemption equal to that percentage of the value of the property which the portion of the property serving lower income households is of the total property in any year in which any of the following criteria are applicable:

(1) Twenty percent or more of the occupants of the property are lower income households whose rent does not exceed that prescribed by Section 50053 of the Health and Safety Code.

(2) The acquisition, rehabilitation, development, or operation of the property, or any combination of these factors, is financed with tax-exempt mortgage revenue bonds or general obligation bonds, or is financed by local, state, or federal loans or grants and the rents of the occupants who are lower income households do not exceed those

prescribed by deed restrictions or regulatory agreements pursuant to the terms of the financing or financial assistance.

(3) The owner of the property is eligible for and receives low-income housing tax credits pursuant to Section 42 of the Internal Revenue Code of 1986, as added by Public Law 99-514.

In order to be eligible for the exemption provided by this subdivision, the owner of the property shall do both of the following:

(A) Certify and ensure that there is a deed restriction, agreement, or other legal document which restricts the project's usage and which provides that the units designated for use by lower income households are continuously available to or occupied by lower income households at rents that do not exceed those prescribed by Section 50053 of the Health and Safety Code, or, to the extent that the terms of federal, state, or local financing or financial assistance conflicts with Section 50053, rents do not exceed those prescribed by the terms of the financing or financial assistance.

(B) Certify that the funds which would have been necessary to pay property taxes are used to maintain the affordability of, or reduce rents otherwise necessary for, the units occupied by lower income households.

As used in this subdivision, "lower income households" has the same meaning as the term "lower income households" as defined by Section 50079.5 of the Health and Safety Code.

(h) Property used exclusively for an emergency or temporary shelter and related facilities for homeless persons and families and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section. Property which would otherwise be exempt pursuant to this subdivision, except that it includes housing and related facilities for other than an emergency or temporary shelter, shall be entitled to a partial exemption.

As used in this subdivision, "emergency or temporary shelter" means a facility which would be eligible for funding pursuant to Chapter 11 (commencing with Section 50800) of Part 2 of Division 31 of the Health and Safety Code.

(i) Property used exclusively for housing and related facilities for employees of religious, charitable, scientific, or hospital organizations which meet all the requirements of subdivision (a) and owned and operated by funds, foundations, or corporations which meet all the requirements of subdivision (a) shall be deemed to be within the exemption provided for in subdivision (b) of Sections 4 and 5 of Article XIII of the California Constitution and this section to the extent the residential use of the property is institutionally necessary for the operation of the organization.

SEC. 2. Section 214 of the Revenue and Taxation Code is amended to read:

214. (a) Property used exclusively for religious, hospital,

scientific, or charitable purposes owned and operated by community chests, funds, foundations or corporations organized and operated for religious, hospital, scientific, or charitable purposes is exempt from taxation if:

(1) The owner is not organized or operated for profit. However, in the case of hospitals, the organization shall not be deemed to be organized or operated for profit, if during the immediate preceding fiscal year the excess of operating revenues, exclusive of gifts, endowments and grants-in-aid, over operating expenses has not exceeded a sum equivalent to 10 percent of those operating expenses. As used herein, operating expenses shall include depreciation based on cost of replacement and amortization of, and interest on, indebtedness.

(2) No part of the net earnings of the owner inures to the benefit of any private shareholder or individual.

(3) The property is used for the actual operation of the exempt activity, and does not exceed an amount of property reasonably necessary to the accomplishment of the exempt purpose.

(A) For the purposes of determining whether the property is used for the actual operation of the exempt activity, consideration shall not be given to use of the property for either or both of the following described activities if that use is occasional:

(i) The owner conducts fundraising activities on the property and the proceeds derived from those activities are not unrelated business taxable income, as defined in Section 512 of the Internal Revenue Code of 1986, of the owner and are used to further the exempt activity of the owner.

(ii) The owner permits any other organization which meets all of the requirements of this subdivision, other than ownership of the property, to conduct fundraising activities on the property and the proceeds derived from those activities are not unrelated business taxable income, as defined in Section 512 of the Internal Revenue Code of 1986, of the organization, are not subject to the tax on unrelated business taxable income which is imposed by Section 511 of the Internal Revenue Code of 1986, and are used to further the exempt activity of the organization.

(B) For purposes of subparagraph (A):

(i) "Occasional use" means use of the property on an irregular or intermittent basis by the qualifying owner or any other qualifying organization described in clause (ii) of subparagraph (A) which is incidental to the primary activities of the owner or the other organization.

(ii) "Fundraising activities" means both activities involving the direct solicitation of money or other property and the anticipated exchange of goods or services for money between the soliciting organization and the organization or person solicited.

(C) Subparagraph (A) shall have no application in determining whether paragraph (3) has been satisfied unless the owner of the property and any other organization using the property as provided

in subparagraph (A) have filed with the assessor duplicate copies of valid unrevoked letters or rulings from the Internal Revenue Service which state that the owner and the other organization qualify as exempt organizations under Section 501(c)(3) of the Internal Revenue Code. The owner of the property and any other organization using the property as provided in subparagraph (A) shall also file duplicate copies of their most recently filed federal income tax returns.

Nothing in subparagraph (A), (B), or (C) shall be construed to either enlarge or restrict the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section.

(4) The property is not used or operated by the owner or by any other person so as to benefit any officer, trustee, director, shareholder, member, employee, contributor, or bondholder of the owner or operator, or any other person, through the distribution of profits, payment of excessive charges or compensations or the more advantageous pursuit of their business or profession.

(5) The property is not used by the owner or members thereof for fraternal or lodge purposes, or for social club purposes except where that use is clearly incidental to a primary religious, hospital, scientific, or charitable purpose.

(6) The property is irrevocably dedicated to religious, charitable, scientific, or hospital purposes and upon the liquidation, dissolution or abandonment of the owner will not inure to the benefit of any private person except a fund, foundation or corporation organized and operated for religious, hospital, scientific, or charitable purposes.

(7) The property, if used exclusively for scientific purposes, is used by a foundation or institution which, in addition to complying with the foregoing requirements for the exemption of charitable organization in general, has been chartered by the Congress of the United States (except that this requirement shall not apply when the scientific purposes are medical research or oceanographic research), and whose objects are the encouragement or conduct of scientific investigation, research and discovery for the benefit of the community at large. For purposes of this paragraph, "oceanographic research" means the study of the biology, geology, chemistry, and physics of the oceans and seas and underlying substrates, including the development of scientific measurements necessary to pursue that study, conducted by oceanographic research institutes based in counties of the 17th class, established prior to June 30, 1987.

The exemption provided for herein shall be known as the "welfare exemption." This exemption shall be in addition to any other exemption now provided by law and the existence of the exemption provision in paragraph (2) of subdivision (a) of Section 202 shall not preclude the exemption under this section for museum or library property. Except as provided in subdivision (e), this section shall not be construed to enlarge the college exemption.

(b) Property used exclusively for school purposes of less than

collegiate grade and owned and operated by religious, hospital, or charitable funds, foundations, or corporations, which property and funds, foundations, or corporations meet all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section.

(c) Property used exclusively for nursery school purposes and owned and operated by religious, hospital, or charitable funds, foundations, or corporations, which property and funds, foundations, or corporations meet all the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section.

As to educational institutions of collegiate grade, as defined in Section 203, the requirements of paragraph (6) of subdivision (a) shall be deemed to be met if both of the following are met:

(1) The property of the educational institution is irrevocably dedicated in its articles of incorporation to charitable and educational purposes, to religious and educational purposes, or to educational purposes.

(2) The articles of incorporation of the educational institution provide for distribution of its property upon its liquidation, dissolution, or abandonment to a fund, foundation, or corporation organized and operated for religious, hospital, scientific, charitable, or educational purposes meeting the requirements for exemption provided by Section 203 or this section.

(f) Property used exclusively for housing and related facilities for elderly or handicapped families and financed by, including, but not limited to, the federal government pursuant to Section 202 of Public Law 86-372 (12 U.S.C. all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section. The amendment of this paragraph made at the 1983–84 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the existing law. However, no refund of property taxes shall be required as a result of this amendment for any fiscal year prior to the fiscal year in which the amendment takes effect.

Property used exclusively for housing and related facilities for elderly or handicapped families at which supplemental care or services designed to meet the special needs of elderly or handicapped residents are not provided, or which is not financed by the federal government pursuant to Section 202 of Public Law 86-372 (12 U.S.C. (g) Property used exclusively for rental housing and related facilities and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations, including limited partnerships in which the managing general partner is an eligible nonprofit corporation, meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section and shall be entitled to a partial exemption equal to that percentage of the value of the property which the portion of the property serving lower income households is of the total property in any year in which any of the following criteria are applicable:

(2) The acquisition, rehabilitation, development, or operation of the property, or any combination of these factors, is financed with tax-exempt mortgage revenue bonds or general obligation bonds, or

is financed by local, state, or federal loans or grants and the rents of the occupants who are lower income households do not exceed those prescribed by deed restrictions or regulatory agreements pursuant to the terms of the financing or financial assistance.

(B) Certify that the funds which would have been necessary to pay property taxes are used to maintain the affordability of, or reduce rents otherwise necessary for, the units occupied by lower income households

Property which would otherwise be exempt pursuant to this subdivision, except that it includes housing and related facilities for other than an emergency or temporary shelter, shall be entitled to a partial exemption.

As used in this subdivision, "emergency or temporary shelter" means a facility which would be eligible for funding pursuant to Chapter 11 (commencing with Section 50800) of Part 2 of Division 31 of the Health and Safety Code.

(i) Property used exclusively for housing and related facilities for employees of religious, charitable, scientific, or hospital organizations which meet all the requirements of subdivision (a) and owned and operated by funds, foundations, or corporations which meet all the requirements of subdivision (a) shall be deemed to be within the exemption provided for in subdivision (b) of Sections 4 and 5 of Article XIII of the California Constitution and this section to the extent the residential use of the property is institutionally necessary for the operation of the organization.

(j) For purposes of this section, charitable purposes include

educational purposes. For purposes of this subdivision, educational purposes means those educational purposes and activities for the benefit of the community as a whole or an unascertainable and indefinite portion thereof, and shall not include those educational purposes and activities primarily for the benefit of an organization's shareholders. SEC. 3. Section 2 of this bill incorporates amendments to Section 214 of the Revenue and Taxation Code proposed by both this bill and SB 350. CHAPTER 1246

An act to add Chapter 1.85 (commencing with Section 188) to Part 1 of Division 1 of the Health and Safety Code, relating to health care.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1.85 (commencing with Section 188) is added to Part 1 of Division 1 of the Health and Safety Code, to read:

CHAPTER 1.85. HUMAN IMMUNODEFICIENCY VIRUS (HIV) TREATMENT

188. The Legislature hereby finds and declares all of the following:

(a) State-of-art knowledge regarding treatment of people infected with the human immunodeficiency virus (HIV) indicates that active HIV infection (AIDS) can be a manageable, though chronic, condition with the use of drugs such as zidovudine (AZT), aerosolized pentamidine, and ganciclovir. AIDS experts across the nation agree that early intervention with these drugs can prolong life, minimize the related occurrences of more serious illnesses, reduce more costly treatments, and maximize the HIV-infected person's vitality and productivity.

(b) For reasons of compassion and cost effectiveness, the State of California has a compelling interest in ensuring that its citizens infected with the HIV virus have access to these drugs.

(c) The department subsidizes the cost of these drugs for persons who do not have private health coverage, are not eligible for Medi-Cal, or cannot afford to purchase the drug privately. The subsidy program is funded through state and federal sources.

(d) Congress is expected to place limitations on the federal subsidy program which will jeopardize access to these life-prolonging drugs for people whose income is higher than federal income eligibility cap but lower than the state's income eligibility cap.

(e) It is critical that suffering persons with limited income have access to life-prolonging drugs. It is also critical that persons currently eligible for the subsidy program remain eligible regardless

of changes that may result from the congressional action and the enactment of this chapter. However, it is appropriate that people who can afford to pay a portion of the cost of treatment be obligated to share the cost of these drugs.

188.1. (a) To the extent that state and federal funds are appropriated in the Budget Act for these purposes, the director shall establish and may administer a program to provide drug treatments to persons infected with human immunodeficiency virus (HIV), the etiologic agent of acquired immune deficiency syndrome (AIDS). The director shall develop, maintain, and update as necessary a list of drugs to be provided under this program. Drugs on the list shall include, but not be limited to, the drugs zidovudine (AZT) and aerosolized pentamidine.

(b) The director may grant funds to a county public health department through standard agreements to administer this program in that county.

(c) The director shall establish a rate structure for reimbursement for the cost of each drug included in the program. Rates shall not be less than the actual cost of the drug. However, the director may purchase a listed drug directly from the manufacturer and negotiate the most favorable bulk price for that drug.

(d) Reimbursement under this chapter shall not be made for any drugs which are available to the recipient under any other private, state, or federal programs, or under any other contractual or legal entitlements, except that the director may authorize an exemption from this subdivision where exemption would represent a cost savings to the state.

188.2. (a) The department shall establish uniform standards of financial eligibility for the drugs under the program established under this chapter.

(b) Nothing in the financial eligibility standards shall prohibit drugs to an otherwise eligible person whose adjusted gross income does not exceed fifty thousand dollars ($50,000) per year. However, the director may authorize drugs for persons with incomes higher than fifty thousand dollars ($50,000) per year if the estimated cost of those drugs in one year is expected to exceed 20 percent of the person's adjusted gross income.

(c) The department shall establish and may administer a repayment schedule to determine the repayment obligation of a person receiving drugs No person shall be obligated for repayment whose adjusted gross income is less than four times the federal poverty level. The repayment obligation shall be the lesser of the following:

(1) Two times the person's annual state income tax liability, less funds expended by the person for health insurance premiums.

(2) The cost of drugs.

188 3 Any person deemed eligible under the HIV drug treatment subsidy program in existence as of the date the statute adding this chapter becomes operative shall be deemed eligible for

benefits under this chapter.

CHAPTER 1247

An act to amend Section 66784.4 of the Government Code, and to add Division 31 (commencing with Section 50000) to the Public Resources Code, relating to solid waste.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows.

SECTION 1. The Legislature hereby declares that the purpose of this act is as follows:

(a) To encourage recycling of sewage sludge for use as a fertilizer material.

(b) To encourage reduction of the amount of sewage sludge that is disposed of in municipal landfills.

(c) To make available to the agricultural industry additional fertilizer materials.

(d) To assure that facilities which produce fertilizer material derived from municipal sewage sludge are in compliance with all applicable requirements which are intended to protect public health and the environment, including any relevant waste discharge requirements imposed by a California regional water quality control board and local health departments.

(e) To assure that sites where the fertilizer material derived from municipal sewage sludge is applied as a fertilizer material are in compliance with all applicable requirements which are intended to protect public health and the environment, including any relevant waste discharge requirements imposed by a California regional water quality control board and local health departments.

(f) To assure that applications of fertilizer material derived from municipal sewage sludge be made at rates that protect public health, the environment, benefit the soil, and do not merely constitute disposal.

SEC. 2. Section 66784.4 of the Government Code is amended to read:

66784.4. (a) The board may, by regulation, specify classifications of solid waste facilities that shall be exempt from the requirements of Sections 66783.1 and 66784. Any regulation may be adopted only if the board makes all of the following findings:

(1) The exemption is not contrary to the public interest.

(2) The quantity of solid wastes to be disposed of at each site is insignificant.

(3) The nature of the solid wastes poses no significant threat to the public health, the public safety, or the environment.

(b) The application to land of agricultural products derived from municipal sewage sludge for use as a fertilizer material shall, based on a finding by the board that the nature of the solid waste poses no significant threat to the public health, the public safety, or the environment, be exempt from the requirements of Sections 66783.1 and 66784.

SEC. 3. Division 31 (commencing with Section 50000) is added to the Public Resources Code, to read:

DIVISION 31. WASTE MANAGEMENT FACILITIES

50000. (a) Until a countywide integrated waste management plan of a county has been approved by the California Integrated Waste Management Board pursuant to Division 30 (commencing with Section 40000), no new transfer or processing station or disposal sites approved by a city or county after January 1, 1978, shall be established in a city or county without a finding by the board, at a public meeting, that the protection of the public health, or public need and necessity, require the immediate implementation of the sites.

(b) Any site is exempt from this requirement if, prior to August 28, 1974, there is an environmental impact report notice of determination filed with the state or if a use permit or approval has been issued for the site by the city or county.

50001. No person shall establish sites for solid waste disposal, a transfer station, waste processing, or resource recovery not in conformance with the countywide integrated waste management plan approved by the California Integrated Waste Management Board. Nonprofit private resources recovery or recycling sites for neighborhood or community type activities approved by a local governmental entity are exempt from this requirement. If the board or any local governmental entity determines that a proposed site in a city or county is not in conformance with the countywide integrated waste management plan of that county, the board may, after public hearing, require conformance to the plan, or approve an amendment to the plan. Any amendment to a county solid waste management plan is subject to the requirements of former subdivision (c) of Section 66780.5 of the Government Code, as it read before January 1, 1990. No person shall establish or operate, or permit the establishment or operation of, a site which the board has determined is not in conformance with the plan. At the request of the board or any local governmental entity, the Attorney General shall bring an action to enforce this division.

50002. (a) The California Integrated Waste Management Board may, by regulation, specify classifications of solid waste facilities that are exempt from the requirements of Sections 50000 and 50001. The regulation may be adopted only if the board makes all of the following findings:

(1) The exemption is not contrary to the public interest.

(2) The quantity of solid wastes to be disposed of at each site is insignificant.

(3) The nature of the solid wastes poses no significant threat to the public health, the public safety, or the environment.

(b) The application to land of agricultural products derived from municipal sewage sludge for use as a fertilizer material, based on a finding by the board that the nature of the solid waste poses no significant threat to the public health, the public safety, or the environment, is exempt from the requirements of Sections 50000 and 50001.

SEC. 4. Section 3 of this act shall become operative only if AB 939 of the 1989–90 Regular Session is enacted and becomes operative on or before January 1, 1990.

CHAPTER 1248

(d) Upon receipt of the donated agricultural product, the nonprofit organization shall provide a certificate to the donor. The certificate shall contain a statement signed and dated by a person authorized by that organization that the product is donated under Chapter 5 (commencing with Section 58501) of Part 1 of Division 21 of the Food and Agricultural Code. (f) This section shall remain in effect only until December 1, 1992, and as of that date is repealed. However, any unused credit may continue to be carried forward, as provided in subdivision (e), until the credit has been exhausted.

(b) If two or more taxpayers share in the expenses eligible for the credit provided by this section, each taxpayer shall be eligible to receive the tax credit in proportion to his or her respective share of the expenses paid or incurred. In the case of a partnership, the tax credit may be divided between the partners pursuant to a written partnership agreement in accordance with Chapter 10 (commencing with Section 17851), which includes Section 704 of the Internal Revenue Code concerning substantial economic effect, relating to a partner's distributive share.

(c) If the credit allowed by this section is claimed by the taxpayer, any deduction otherwise allowed under this part for that amount of

the cost paid or incurred by the taxpayer which is eligible for the credit shall be reduced by the amount of the credit provided in subdivision (a).

corporations, has the ability to provide state loan guarantees and technical assistance to small businesses needing financial assistance.

(b) In carrying out this section, the south coast district shall establish a special small business assistance account for the purpose of setting aside funds to be used in underwriting, guaranteeing, or otherwise participating in the provision of financing assistance by other public agencies or private lenders.

(c) In carrying out this section, and its responsibilities for the mitigation of socioeconomic impacts, the south coast district shall utilize, to the maximum extent, the financing instruments and administrative capacity of other public agencies and private lenders with respect to providing financing assistance, and shall endeavor to obtain the maximum leverage of its funds through guarantees and other forms of risk sharing with other public agencies and private lenders, in order to increase the availability of financing assistance to small businesses. The south coast district shall consider, and shall make available to public agencies and private lenders, relevant information contained in environmental and socioeconomic impact assessments conducted by it.

(b) Notwithstanding subdivision (a), the authority, or any other agency implementing a small business financing assistance program pursuant to an interagency agreement with the authority, may adopt regulations relating to small business financing as emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For purposes of that Chapter 3.5, including Section 11349.6 of the Government Code, the adoption of the regulations shall be considered by the Office of Administrative Law to be necessary for the immediate preservation of the public peace, health and safety, and general welfare. The total amount of these fees, charges, and deposits with respect to a single issue of bonds shall not exceed 3 percent of the principal amount of that issue of bonds. Prior to levying any fees or charges or requiring deposits, the authority shall adopt regulations for the operation of the common reserve funds, the amounts and any payment schedule for the fees, charges, or deposits, eligibility

standards for small businesses desiring to use or benefit from the common reserve funds, and any other matters the authority deems necessary for the establishment and maintenance of common reserve funds. The regulations may provide for differential fees from participating parties based upon the size of a project financed by the authority or other factors deemed relevant by the authority, and the regulations may restrict any benefits to those eligible small businesses as may be specified in the regulations. The authority may transfer any funds available to it or set aside for its administrative expenses to any common reserve fund established under this section.

The authority may contract with qualified financial institutions including, but not limited to, banks, investment and mortgage bankers, insurance companies, sureties, and guarantors, to provide any necessary assistance in the granting of credit for these purposes.

(d) Each common reserve fund established pursuant to this section shall be deposited in a special account which the Controller shall create. Notwithstanding any other provision of law, and subject to any requirements of federal tax law or regulations relative to maintaining the tax exempt status of the obligations of the authority, all interest or other gains earned by investment or deposit of money in the special account pursuant to any provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code or pursuant to any other provision of law shall be credited to, and deposited in, the account.

(e) In carrying out this section, the authority shall participate with the South Coast Air Quality Management District in providing financial assistance in its lending programs.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1252

An act to amend Section 51012 of, and to add Sections 51015.1, 51015.2, 51015.3, 51015.4, and 51015.5 to, the Government Code, relating to pipeline safety, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 51012 of the Government Code is amended to read:

51012. The State Fire Marshal shall establish a Pipeline Safety Advisory Committee for purposes of informing local agencies and every pipeline operator of changes in applicable laws and regulations affecting the operations of pipelines and reviewing proposed hazardous liquid pipeline safety regulations adopted pursuant to Section 51011.

The committee shall be composed of eight members of whom two shall represent pipeline operators, three shall represent local agencies, one shall be a fire chief, and two shall be public members. The committee shall meet when requested by the State Fire Marshal, but not less than once a year. The members shall be paid expenses and one hundred dollars ($100) per diem for each meeting.

SEC. 2 Section 51015.1 is added to the Government Code, to read:

51015.1. (a) The State Fire Marshal shall conduct and prepare a risk assessment study dealing with intrastate and interstate hazardous liquid pipelines which are located not more than 500 feet from any rail line. The study shall include, but is not limited to, the following:

(1) Identification of each of these pipelines, its operator, geographic location, leak history, and the name of the railroad line or lines.

(2) Analysis of historic events involving reported damage to pipelines as a result of railroad train derailments. This analysis shall differentiate between main higher speed rail lines and other lines such as those within railroad yards and maintenance facilities for railroad vehicles, and other "spur" lines used for the transfer of railroad vehicles from one line or train to another.

(3) Analysis of the feasibility of requiring that railroad operators and pipeline operators prepare, subject to approval of the State Fire Marshal, a coordinated contingency plan for pipeline emergencies and derailments.

(4) Identification and analysis of any impacts which geological or seismic activities may have on the safe operation of intrastate and interstate hazardous liquid pipelines.

(5) Analysis of the feasibility of requiring the pipeline operator to

test, repair, replace, or relocate intrastate pipelines suspected of potential damage resulting from a railroad car derailment. As a minimum, that analysis shall include the examination of issues involved in obtaining necessary rights-of-way, and requirements for gaining approval of concerned local, state, and federal governmental agencies for pipeline relocation.

(6) Analysis of the feasibility of requiring pipeline operators to notify local affected fire agencies of the contents of hazardous liquid pipelines. The notification would be required anytime there is a change in material being transported.

(b) A pipeline located in a rural area shall be excluded from this study.

(c) This risk assessment study shall be completed and submitted to the Governor and the Legislature by January 1, 1991.

(d) It is the intent of the Legislature in enacting this section that the findings and recommendations set forth in the risk assessment study will be used by the State Fire Marshal in preparing and adopting regulations provided for in Section 51015.2.

SEC 3. Section 51015.2 is added to the Government Code, to read:

51015.2. (a) The Legislature recognizes that hazardous liquid pipelines are often located alongside and in the immediate proximity of rail lines. In the event of a derailment, these pipelines may be damaged in such a fashion that their integrity is lost, making a rupture or leak more likely.

(b) In an effort to better protect public safety, the State Fire Marshal shall adopt regulations governing the construction, testing, operations, periodic inspection, and emergency operations of intrastate hazardous liquid pipelines located within 500 feet of any rail line. These regulations shall, at a minimum, include provisions dealing with the following:

(1) Minimum depth of cover for newly constructed or reconstructed pipelines.

(2) Minimum hydrostatic testing requirements for newly constructed pipelines.

(3) Minimum requirements for testing existing pipelines which

may have been affected by a derailment.

(4) Minimum requirements for periodic inspections.

(5) Minimum requirements for installation and operation of safety or check valves.

(6) Procedures for developing, testing, approving, and implementing coordinated emergency contingency plans prepared by pipeline and rail operators. These procedures shall also provide for consultation with local affected agencies, and require pipeline and rail operations to develop and implement emergency training for their employees approved by the State Fire Marshal.

SEC. 4. Section 51015.3 is added to the Government Code, to read:

51015.3. The State Fire Marshal may, in the interest of public safety, adopt emergency regulations which govern intrastate pipeline emergencies involving railroad car derailments. Any hazardous liquid pipeline located in a rural area shall be exempt from these regulations. Notwithstanding any other provision of law, these emergency regulations shall remain in effect until permanent regulations provided for in Section 51015.2 are adopted, but in no case beyond January 1, 1995.

SEC. 5. Section 51015.4 is added to the Government Code, to read:

51015.4. (a) Each operator shall, as specified in regulations provided for in subdivision (c), maintain each valve and check valve that is necessary for the safe operation of its pipeline systems in good working order at all times.

(b) Each operator shall provide protection for each valve and check valve from unauthorized operation and from vandalism.

(c) The State Fire Marshal shall adopt regulations, not later than June 30, 1991, which establish procedures for maintaining, testing, and inspecting mainline valves and check valves on intrastate hazardous liquid pipelines.

SEC. 6. Section 51015.5 is added to the Government Code, to read:

51015.5. (a) In the event of an intrastate pipeline rupture, leak, or other incident which could affect safe pipeline operation, any person who performs or intends to perform nonemergency site cleanup, repair, reconstruction, or any other alteration shall obtain prior approval from the State Fire Marshal.

(b) Approval by the State Fire Marshal of a repair plan, submitted by a pipeline operator in conformance with contingency plan requirements established by the State Fire Marshal, shall constitute prior approval to perform repairs as specified in subdivision (a).

(c) The State Fire Marshal may adopt regulations to implement subdivisions (a) and (b).

SEC. 7. The sum of one hundred fifty thousand dollars ($150,000) is hereby appropriated from the Interstate Pipeline Operations Account and the Intrastate Pipeline Operations Account in the California Hazardous Liquid Pipeline Safety Fund, to the State Fire

Marshal for the purposes of the study required by subdivision (a) of Section 51015.1 of the Government Code. This appropriation shall be paid for from fees assessed and collected by the State Fire Marshal from pipeline operators, and deposited in the Intrastate Pipeline Operations Account and the Interstate Pipeline Operations Account in the California Hazardous Liquid Pipeline Safety Fund pursuant to Sections 51019 and 51019.05 of the Government Code. The portion of the appropriation to be made from each account shall be equal to the ratio of the total fees deposited in that account to the total fees deposited in both accounts for the purpose of funding the study required by this act.

SEC. 8. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

35294. It is the intent of the Legislature that all California public schools, in kindergarten, and grades 1 to 12, inclusive, operated by school districts, in cooperation with local law enforcement agencies, community leaders, parents, pupils, teachers, administrators, and other persons who may be interested in the prevention of campus crime and violence, develop a comprehensive school safety plan that addresses the safety concerns identified through a systematic planning process. For the purposes of this section, law enforcement agencies include local police departments, county sheriffs' offices, school district police or security departments, probation

departments, and district attorneys' offices. For purposes of this section a "safety plan" means a plan to develop strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on the school campus.

35294.1. (a) School safety planning may include, but not be limited to:

(1) Assessing the current status of school crime committed on school campuses and at school-related functions.

(2) Identifying appropriate strategies and programs that will provide or maintain a high level of school safety.

(3) Developing an action plan, in conjunction with local law enforcement agencies, for implementing appropriate safety strategies and programs and determining the fiscal impact of executing the strategies and programs. The action plan may identify available resources which will provide for implementation of the plan.

(b) Existing schoolsite councils may be responsible for developing a safety plan. In any event, the plan may be developed with the participation of teachers, classified employees, parents, law enforcement, school administrators, and, if deemed appropriate, students.

(c) It is the intent of the Legislature that schools develop school safety plans using existing resources, including the materials and services of the School Safety Partnership, pursuant to Chapter 2.5 (commencing with Section 32260) of Part 19. It is also the intent of the Legislature that schools use the handbook developed and distributed by the School/Law Enforcement Partnership Program entitled "Safe Schools: A Planning Guide for Action" in conjunction with developing their plan for school safety.

(d) It is the intent of the Legislature that schools shall not contract with private consultants to develop school safety plans.

(e) Grants to assist schools in implementing their school safety plan shall be made available through the School Safety Partnership as authorized by Section 32262 of the Education Code.

35294.3. The Department of Justice and the State Department of Education, in accordance with Section 32262, shall contract with one professional law enforcement trainer and one professional educator trainer, respectively, to coordinate and present statewide workshops for school districts, county offices of education, and schoolsite personnel, and in particular school principals, to assist them in the development of their respective school safety plans. The Department of Justice and the State Department of Education shall work in cooperation with regard to the workshops coordinated and presented pursuant to these two contracts. The enactment of this section of this act shall be subject to the availability of funds in the Budget Act of 1990.

SEC. 2. Section 35294.1 of the Education Code, as added by Chapter 92 of the Statutes of 1989, is amended and renumbered to read:

35294.5. (a) The governing board of a school district, on behalf of one or more schools within the district that have developed a school safety plan, may apply to the Superintendent of Public Instruction for a grant to implement school safety plans. The School Safety Partnership shall award grants for school safety plans that include, but are not limited to, the following criteria:

(1) Assessment of the recent incidence of crime committed on the school campus.

(2) Identification of appropriate strategies and programs that will provide or maintain a high level of school safety.

(3) Development of an action plan, in conjunction with local law enforcement agencies, for implementing appropriate safety strategies and programs, and determining the fiscal impact of executing the strategies and programs. The action plan shall identify available resources which will provide for implementation of the plan.

(b) In the 1989–90, 1990–91, and 1991–92 fiscal years, the Superintendent of Public Instruction shall award grants pursuant to this section to school districts for the implementation of individual school safety plans in an amount not to exceed five thousand dollars ($5,000) for each school. No grant shall be made unless the school district makes available, for purposes of implementing the school safety plans, an amount of funds equal to the amount of the grant. Grants should be awarded through a competitive process, based upon criteria including, but not limited to, the merit of the proposal and the need for imposing school safety, based on school crime rates.

(c) Any school receiving a grant under this section shall submit to the Superintendent of Public Instruction verified copies of its schoolsite crime report annually for three consecutive years following the receipt of the grant to study the impact of the implementation of the school safety plan on the incidence of crime on the campus of the school.

SEC. 4. Section 35294.3 of the Education Code shall be operative only to the extent funds are made available in the annual Budget Act for purposes of that section.

CHAPTER 1254

An act to amend Sections 25143.2, 25250.1, 25250.5, 25250.7, 25250.11, 25250.16, 44320, 44322, and 44323 of the Health and Safety Code, relating to the environment.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 25143.2 of the Health and Safety Code is amended to read:

25143.2. (a) Recyclable materials are subject to the requirements of this chapter which apply to hazardous wastes, unless the department issues a variance pursuant to Section 25143, or except as provided otherwise in subdivision (b), (c), or (d) or the regulations adopted by the department pursuant to Sections 25150 and 25151.

(b) Except as otherwise provided in subdivision (e), any recyclable material is not a waste under this chapter when the material can be shown to be recycled by any of the following methods:

(1) Used or reused as an ingredient in an industrial process to make a product, if the material is not being reclaimed.

(2) Used or reused as a safe and effective substitute for commercial products, if the material is not being reclaimed.

(3) Returned to the original process from which the material was generated, without first being reclaimed, if the material is returned as a substitute for raw material feedstock, and the process uses raw materials as principal feedstocks.

(c) Except as otherwise provided in subdivisions (b), (d), and (e), any recyclable material may be recycled at a facility which is not authorized by the department pursuant to the applicable hazardous waste facilities permit requirements of Article 9 (commencing with Section 25200) if either of the following requirements is met:

(1) The material is a petroleum refinery waste containing oil which is converted into petroleum coke at the same facility at which the waste was generated, unless the resulting coke product would be identified as a hazardous waste under this chapter. A waste subject to this paragraph is exempt from this chapter to the same extent the waste is exempt from subsections (q), (r), and (s) of Section 6924 of Title 42 of the United States Code.

(2) The material meets all of the following conditions:

(A) The material is recycled and used at the same facility at which the material was generated.

(B) The material is recycled within 90 days of its generation.

(C) The material is managed in accordance with all applicable requirements for generators of hazardous wastes under this chapter and regulations adopted by the department.

(d) Except as otherwise provided in subdivision (e), any recyclable material which is a non-RCRA hazardous waste, as defined in Section 25117.9, is not a waste under this chapter if the material meets any of the following requirements:

(1) The material can be shown to be recycled and used at the site where the material was generated.

(2) The material qualifies as one or more of the following:

(A) The material is a product, which has been processed from a

hazardous waste, or which has been handled, at a facility authorized by the department pursuant to the facility permit requirements of Article 9 (commencing with Section 25200) to process or handle the material, if the product meets both of the following conditions:

(i) The product contains no hazardous constituents, other than those for which the material is being recycled.

(ii) The product is used, or distributed or sold for use, in a manner for which the product is commonly used.

(B) The material is a petroleum refinery waste containing oil which is converted into petroleum coke at the same facility at which the waste was generated, unless the resulting coke product would be identified as a hazardous waste under this chapter.

(C) The material is oily waste, used oil, or spent nonhalogenated solvent which is managed by the owner or operator of a refinery which is processing primarily crude oil and which is not subject to permit requirements for recycling of used oil, or a public utility, or a corporate subsidiary, corporate parent, or subsidiary of the same corporate parent of the refinery or public utility, and which meets all of the following requirements:

(i) The material is either burned in an industrial boiler, an industrial furnace, an incinerator, or a utility boiler which complies with all applicable federal and state laws, or is recombined with normal process streams to produce a fuel

(ii) The material is either managed at the site where it was generated or managed at another site owned or operated by the generator, a corporate subsidiary of the generator, a subsidiary of the same entity of which the generator is a subsidiary, or the corporate parent of the generator.

(iii) The material contains no hazardous constituents other than those for which the material is being recycled.

(3) The material is transported between locations operated by the same generator, if the material is recycled at the last location and is not handled at any interim location not operated by the generator. If requested by the department or by any law enforcement official, a person handling material subject to this paragraph shall, within 15 days of the request, supply documentation to show that the requirements of this paragraph have been satisfied.

(4) The material is transferred between locations operated by the same generator, if the material is to be recycled at an authorized offsite hazardous waste facility and if all of the following conditions are met:

(A) The material is transferred by employees of the generator in vehicles under the control of the person or by a registered hazardous waste hauler under contract to the generator.

(B) The material is not handled at any interim location not operated by the generator.

(C) The material is not held at any publicly accessible interim location for more than four hours.

(D) The material is managed in compliance with the

requirements of this chapter and the regulations adopted pursuant to this chapter prior to the initial transportation of the material and after the receipt of the material at the last location operated by the person. Upon receipt of the material at the last location operated by the generator, the material shall be deemed to have been generated at that location.

(E) If requested by the department, or by any law enforcement official, a generator handling material subject to this paragraph shall, within 15 days of the request, supply documentation to show that the requirements of this paragraph have been satisfied.

(5) The material is both transported and used or reused, as an ingredient in an industrial process to make a product, if the material is not treated before that use or reuse.

(e) Notwithstanding subdivisions (b), (c), and (d), all of the following recyclable materials are hazardous wastes and subject to full regulation under this chapter, even if the recycling involves use, reuse, or return to the original process as described in subdivision (b), or even if the recycling involves activities or materials described in subdivisions (c) and (d):

(1) Materials used in a manner constituting disposal, or used to produce products that are applied to the land including, but not limited to, materials used to produce a fertilizer, soil amendment, agricultural mineral, or an auxiliary soil and plant substance. The department may adopt regulations to exclude materials from regulation pursuant to this paragraph.

(2) Materials burned for energy recovery, used to produce a fuel, or contained in fuels, except materials exempted under paragraph (1) of subdivision (c) or subparagraph (B) or (C) of paragraph (2) of subdivision (d).

(3) Materials accumulated speculatively.

(4) Materials determined to be inherently waste like pursuant to regulations adopted by the department.

(5) Used or spent etchants, stripping solutions, and plating solutions, which are transported to an offsite facility operated by a person other than the generator and which conform to either of the following:

(A) Meet a characteristic or a criterion of a hazardous waste established by the Environmental Protection Agency or the department.

(B) Are listed by the Environmental Protection Agency or the department as a hazardous waste.

(6) Used oil, as defined in subdivision (a) of Section 25250.1, unless one of the following applies:

(A) The used oil meets the definition of recycled oil contained in subdivision (c) of Section 25250.1.

(B) The used oil is exempted under subparagraph (B) or (C) of paragraph (2) of subdivision (d) or paragraph (4) of subdivision (d) of this section, or, under subdivision (e) of Section 25250.1, or under Section 25250.3.

(C) The used oil is used or reused on the site where it was generated or is exempt under paragraph (3) of subdivision (d) of this section and, in either situation, is not any of the following:

(i) Used in a manner constituting disposal or used to produce a product that is applied to land.

(ii) Burned for energy recovery or used to produce a fuel, unless the used oil is exempted under subparagraph (B) or (C) of paragraph (2) of subdivision (d).

(iii) Accumulated speculatively.

(iv) Determined to be inherently waste like pursuant to regulations adopted by the department.

(f) This section does not limit, abridge, or supersede any authority granted to the department pursuant to Section 25143.

(g) If the department brings an action to enforce this chapter, any person subject to the action who claims that a certain recyclable material is not a waste or is excluded, exempt, or conditionally exempt, from regulation under this chapter, shall demonstrate to the department that there is a known market or disposition for the material, and that the requirements of any exemption, exclusion, or conditional exemption from this chapter are met, by providing appropriate documentation to demonstrate that the material is not a waste or is excluded, exempt, or conditionally exempt, from regulation. Any person subject to an enforcement action and making this claim shall provide to the department, upon request, the name, street and mailing address, and telephone number of the owner or operator of any facility that manages the material, and any other information related to the management of the material requested by the department. Any owner or operator of a facility subject to an action to enforce this chapter who claims to be recycling materials shall show that the facility has the necessary equipment to recycle the material.

SEC. 2. Section 25250.1 of the Health and Safety Code is amended to read:

25250.1. As used in this article, the following terms have the following meanings:

(a) "Used oil" means any of the following:

(1) Any oil that has been refined from crude oil, and has been used, and, as a result of use, has been contaminated with physical or chemical impurities.

(2) Any oil that has been refined from crude oil and, as a consequence of extended storage, spillage, or contamination with nonhazardous impurities such as dirt and water, is no longer useful to the original purchaser.

(3) Spent lubricating fluids which have been removed from an engine crankcase, transmission, gearbox, or differential of an automobile, bus, truck, vessel, plane, heavy equipment, or machinery powered by an internal combustion engine.

(4) Spent industrial oils, including compressor, turbine, and bearing oil, hydraulic oil, metal-working oil, refrigeration oil, and

railroad drainings.

(5) Contaminated fuel oil with a flashpoint equal to or greater than 100°F.

"Used oil" does not include oil which has a flashpoint below 100°F or which has been intentionally mixed with hazardous waste, other than minimal amounts of vehicle fuel. "Used oil" also does not include oil which contains polychlorinated biphenyls (PCBs) at a concentration of 5 ppm or greater. Used oil containing more than 1,000 ppm total halogens shall also meet the Environmental Protection Agency requirements listed in paragraph (c) of Section 266.40 (excluding the exception referenced to paragraph (d)) of Title 40 of the Code of Federal Regulations.

(b) "Board" means the California Waste Management Board.

(c) "Recycled oil" means any oil, produced from used oil, which has been prepared for reuse and which achieves minimum standards of purity, in liquid form, as established by the department. This subdivision does not apply to oil which is to be disposed. The following standards of purity are in effect unless the department, by regulation, establishes more stringent standards:

(1) Flashpoint: minimum standards set by the American Society for Testing and Materials for the recycled products.

(2) Lead: 100 ppm or less prior to January 1, 1988; 50 ppm or less on and after January 1, 1988.

(3) Arsenic: 5 ppm or less.

(4) Chromium: 10 ppm or less.

(5) Cadmium: 2 ppm or less.

(6) Total halogens: 3,000 ppm or less, except that the regulations of the Environmental Protection Agency regarding used oil containing more than 1,000 ppm total halogens, as provided in paragraph (c) of Section 266.40 (excluding the exception referenced to paragraph (d)) of Title 40 of the Code of Federal Regulations (50 Fed. Reg. 49205) shall be met.

(7) Polychlorinated biphenyls (PCBs): less than 2 ppm.

Compliance with these standards shall not be met by blending or diluting used oil with crude or virgin oil and shall be determined in accordance with the procedures for identification and listing of hazardous waste adopted in regulations by the department.

(d) The standards set in subdivision (c) include the only concentrations allowed above the criteria adopted pursuant to Section 25141.

(e) Used oil which meets the standards set in subdivision (c), is not hazardous pursuant to the criteria adopted pursuant to Section 25141 for constituents other than those listed in subdivision (c), and is not mixed with any waste listed as a hazardous waste in Part 261 (commencing with Section 261.1) of Chapter 1 of Title 40 of the Code of Federal Regulations is not regulated by the department, unless otherwise specified. Any person who generates used oil, and who claims that the oil is exempt from regulation pursuant to this subdivision, shall notify the department, in writing, of that claim and

shall comply with the testing and recordkeeping requirements of Section 25250.19 prior to its reuse. In any action to enforce this article, the burden is on the generator and user of the used oil to prove that the oil met those standards and criteria.

(f) "Used oil recycling facility" means a facility which reprocesses or rerefines used oil.

(g) "Used oil storage facility" means a storage facility, as defined in subdivision (a) of Section 25123.3, which stores used oil.

(h) "Used oil transfer facility" means a transfer facility, as defined in subdivision (c) of Section 25123.3, that either stores used oil for periods greater than 144 hours or that transfers used oil from one container to another.

SEC. 3. Section 25250.5 of the Health and Safety Code is amended to read:

25250.5. (a) Disposal of used oil by discharge to sewers, drainage systems, surface or groundwaters, watercourses, or marine waters; by incineration or burning as fuel; or by deposit on land, is prohibited, unless authorized under other provisions of law.

(b) The use of used oil, recycled oil, or oil exempted pursuant to subdivision (e) of Section 25250.1 as a dust suppressant or weed control agent is prohibited unless the oil meets the requirements of subdivision (e) of Section 25250.1 and additionally meets all of the following standards:

(1) Lead is less than 5 ppm.

(2) Cadmium is less than 1 ppm.

(3) Total regulated halogens listed by the Environmental Protection Agency or the department as a hazardous waste are 100 ppm or less.

SEC. 4. Section 25250.7 of the Health and Safety Code is amended to read:

25250.7. No person who generates, stores, or transfers used oil shall intentionally contaminate used oil with other hazardous waste, other than minimal amounts of vehicle fuel.

SEC. 5. Section 25250.11 of the Health and Safety Code is amended to read:

25250.11. (a) Any person who receives used oil from consumers or other used oil generators, is exempt from hazardous waste facility permit requirements imposed pursuant to Article 9 (commencing with Section 25200) with respect to any location at which used oil is received if all of the following conditions are met:

(1) Each shipment of used oil received does not exceed 20 gallons, and the contents of any single container does not exceed five gallons.

(2) Other than lead-acid storage batteries and antifreeze, no other hazardous wastes are received at the location.

(3) The used oil is transported by the generator of the used oil.

(b) Any person who transports used oil is exempt from the requirements of subdivisions (a) and (e) of Section 25163 and from the requirements of Section 25160 concerning the possession of a manifest while transporting used oil to a location described in

subdivision (a) if all of the following conditions are met:

(1) The contents of any single container do not exceed five gallons.

(2) Each shipment of used oil does not exceed 20 gallons.

(3) The person transporting the used oil had generated the oil.

SEC. 6. Section 25250.16 of the Health and Safety Code is amended to read:

25250.16. No person may recycle used oil without obtaining authorization from the department pursuant to Section 25200 or 25200.5, or unless exempted pursuant to Section 25143.2.

SEC. 7. Section 44320 of the Health and Safety Code is amended to read:

44320. This part applies to the following:

(a) Any facility which manufactures, formulates, uses, or releases any of the substances listed pursuant to Section 44321 or any other substance which reacts to form a substance listed in Section 44321 and which releases or has the potential to release total organic gases, particulates, or oxides of nitrogen or sulfur in the amounts specified in Section 44322.

(b) Except as provided in Section 44323, any facility which is listed in any current toxics use or toxics air emission survey, inventory, or report released or compiled by a district. A district may, with the concurrence of the state board, waive the application of this part pursuant to this subdivision for any facility which the district determines will not release any substance listed pursuant to Section 44321 due to a shutdown or a process change.

SEC. 8. Section 44322 of the Health and Safety Code is amended to read:

44322. This part applies to facilities specified in subdivision (a) of Section 44320 in accordance with the following schedule:

(a) For those facilities that release, or have the potential to release, 25 tons per year or greater of total organic gases, particulates, or oxides of nitrogen or sulfur, this part becomes effective on July 1, 1988.

(b) For those facilities that release, or have the potential to release, more than 10 but less than 25 tons per year of total organic gases, particulates, or oxides of nitrogen or sulfur, this part becomes effective July 1, 1989.

(c) For those facilities that release, or have the potential to release, less than 10 tons per year of total organic gases, particulates, or oxides of nitrogen or sulfur, the state board shall, on or before July 1, 1990, prepare and submit a report to the Legislature identifying the classes of those facilities to be included in this part and specifying a timetable for their inclusion.

SEC. 9. Section 44323 of the Health and Safety Code is amended to read:

44323. A district may prepare an industrywide emissions inventory and health risk assessment for facilities specified in subdivision (b) of Section 44320 and subdivisions (a) and (b) of

Section 44322, and shall prepare an industrywide emissions inventory for the facilities specified in subdivision (c) of Section 44322, in compliance with this part for any class of facilities that the district finds and determines meets all of the following conditions:

(a) All facilities in the class fall within one four-digit Standard Industrial Classification Code.

(b) Individual compliance with this part would impose severe economic hardships on the majority of the facilities within the class.

(c) The majority of the class is composed of small businesses.

(d) Releases from individual facilities in the class can easily and generically be characterized and calculated.

SEC. 10. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1255

An act to amend Section 65302 of, and to repeal Section 65919.12 of, the Government Code relating to local agencies.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 65302 of the Government Code is amended to read:

65302. The general plan shall consist of a statement of development policies and shall include a diagram or diagrams and text setting forth objectives, principles, standards, and plan proposals. The plan shall include the following elements:

(a) A land use element which designates the proposed general distribution and general location and extent of the uses of the land for housing, business, industry, open space, including agriculture, natural resources, recreation, and enjoyment of scenic beauty, education, public buildings and grounds, solid and liquid waste disposal facilities, and other categories of public and private uses of land. The land use element shall include a statement of the standards of population density and building intensity recommended for the various districts and other territory covered by the plan. The land use element shall identify areas covered by the plan which are subject

to flooding and shall be reviewed annually with respect to those areas. The land use element shall designate, in a land use category that provides for timber production, those parcels of real property zoned for timberland production pursuant to the California Timberland Productivity Act of 1982, Chapter 6.7 (commencing with Section 51100) of Part 1 of Division 1 of Title 5.

(b) A circulation element consisting of the general location and extent of existing and proposed major thoroughfares, transportation routes, terminals, and other local public utilities and facilities, all correlated with the land use element of the plan.

(c) A housing element as provided in Article 10.6 (commencing with Section 65580).

(d) A conservation element for the conservation, development, and utilization of natural resources including water and its hydraulic force, forests, soils, rivers and other waters, harbors, fisheries, wildlife, minerals, and other natural resources. That portion of the conservation element including waters shall be developed in coordination with any countywide water agency and with all district and city agencies which have developed, served, controlled or conserved water for any purpose for the county or city for which the plan is prepared. The conservation element may also cover:

(1) The reclamation of land and waters.

(2) Prevention and control of the pollution of streams and other waters.

(3) Regulation of the use of land in stream channels and other areas required for the accomplishment of the conservation plan.

(4) Prevention, control, and correction of the erosion of soils, beaches, and shores.

(5) Protection of watersheds.

(6) The location, quantity and quality of the rock, sand and gravel resources.

(7) Flood control.

The conservation element shall be prepared and adopted no later than December 31, 1973.

(e) An open-space element as provided in Article 10.5 (commencing with Section 65560).

(f) A noise element which shall identify and appraise noise problems in the community. The noise element shall recognize the guidelines established by the Office of Noise Control in the State Department of Health Services and shall analyze and quantify, to the extent practicable, as determined by the legislative body, current and projected noise levels for all of the following sources:

(1) Highways and freeways.

(2) Primary arterials and major local streets.

(3) Passenger and freight online railroad operations and ground rapid transit systems.

(4) Commercial, general aviation, heliport, helistop, and military airport operations, aircraft overflights, jet engine test stands, and all other ground facilities and maintenance functions related to airport

operation.

(5) Local industrial plants, including, but not limited to, railroad classification yards.

(6) Other ground stationary noise sources identified by local agencies as contributing to the community noise environment.

Noise contours shall be shown for all of these sources and stated in terms of community noise equivalent level (CNEL) or day-night average level (L_{dn}). The noise contours shall be prepared on the basis of noise monitoring or following generally accepted noise modeling techniques for the various sources identified in paragraphs (1) to (6), inclusive.

The noise contours shall be used as a guide for establishing a pattern of land uses in the land use element that minimizes the exposure of community residents to excessive noise.

The noise element shall include implementation measures and possible solutions that address existing and foreseeable noise problems, if any. The adopted noise element shall serve as a guideline for compliance with the state's noise insulation standards.

(g) A safety element for the protection of the community from any unreasonable risks associated with the effects of seismically induced surface rupture, ground shaking, ground failure, tsunami, seiche, and dam failure; slope instability leading to mudslides and landslides; subsidence and other geologic hazards known to the legislative body; flooding; and wild land and urban fires. The safety element shall include mapping of known seismic and other geologic hazards. It shall also address evacuation routes, peakload water supply requirements, and minimum road widths and clearances around structures, as those items relate to identified fire and geologic hazards Prior to the periodic review of its general plan and prior to preparing or revising its safety element, each city and county shall consult the Division of Mines and Geology of the Department of Conservation and the Office of Emergency Services for the purpose of including information known by and available to the department and the office required by this subdivision.

To the extent that a county's safety element is sufficiently detailed and contains appropriate policies and programs for adoption by a city, a city may adopt that portion of the county's safety element that pertains to the city's planning area in satisfaction of the requirement imposed by this subdivision.

At least 45 days prior to adoption or amendment of the safety element, each county and city shall submit to the Division of Mines and Geology of the Department of Conservation one copy of a draft of the safety element or amendment and any technical studies used for developing the safety element. The division may review drafts submitted to it to determine whether they incorporate known seismic and other geologic hazard information, and report its findings to the planning agency within 30 days of receipt of the draft of the safety element or amendment pursuant to this subdivision. The legislative body shall consider the division's findings prior to

final adoption of the safety element or amendment unless the division's findings are not available within the above prescribed time limits or unless the division has indicated to the city or county that the division will not review the safety element. If the division's findings are not available within those prescribed time limits, the legislative body may take the division's findings into consideration at the time it considers future amendments to the safety element. Each county and city shall provide the division with a copy of its adopted safety element or amendments. The division may review adopted safety elements or amendments and report its findings. All findings made by the division shall be advisory to the planning agency and legislative body.

SEC. 2. Section 65919.12 of the Government Code is repealed.

SEC. 3. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of the law. The pupil-teacher ratio in a work experience program shall not exceed 125 pupils per full-time equivalent certificated teacher coordinator. Notwithstanding Section 52033, this ratio may be waived by the State Board of Education pursuant to Article 3 (commencing with Section 33050) of Chapter 1 of Part 20 under criteria developed by the State Board of Education.

A school district shall not receive proportional average daily attendance credit pursuant to this subdivision for any pupil in attendance for less than 145 minutes each day.

The divisor for computing proportional average daily attendance pursuant to this subdivision is 240; except, in the case of a pupil excused from physical education classes pursuant to Section 52316, the divisor is 180.

Notwithstanding any other provision of law, travel time of pupils to attend a regional occupational center or regional occupational program shall not be used in any manner in the computation of average daily attendance.

(e) In computing the average daily attendance of a school district, there shall also be included the attendance of pupils participating in an independent study program conducted pursuant to Article 5.5 (commencing with Section 51745) of Chapter 5 of Part 28.

A pupil enrolled in an independent study program shall not be credited with more than one day of attendance per calendar day.

(f) For purposes of cooperative vocational education programs and community classrooms described in Section 52372.1, the term "immediate supervision" means pupil participation in paid and unpaid on-the-job experiences, as outlined under a training agreement and individualized training plans wherein the supervisor of the training site and certificated school personnel share the responsibility for the supervision of on-the-job experiences.

(g) In computing the average daily attendance of a school district, there shall be included the attendance of pupils in kindergarten after they have completed one school year in kindergarten only if the school district has on file for each of those pupils an agreement made pursuant to Section 48011, approved in form and content by the State Department of Education and signed by the pupil's parent or guardian, that the pupil shall be retained in kindergarten for not more than an additional school year.
