(1) The director determines, in writing, that the contract competitor, or, if the contract competitor is a business entity, any trustee, officer, director, partner, or any person holding more than 5 percent of the equity or debt liability of that business entity, has engaged in activities resulting in any federal or state conviction which are significantly related to the fitness of the contract competitor to perform the contract competitor's duties or activities under the contract. For purposes of this paragraph, "conviction" means a plea or verdict of guilty or a conviction following a plea of

nolo contendere. Any action which the department may take pursuant to this subdivision relating to the department's refusal to permit a person to compete for the contract may be based upon a conviction for which any of the following has occurred:

(A) The time for appeal has elapsed.

(B) The judgment of conviction has been affirmed on appeal.

(C) Any order granting probation is made suspending the imposition of sentence, notwithstanding a subsequent order pursuant to Section 1203.4 of the Penal Code permitting that person to withdraw the plea of guilty and to enter the plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment.

(2) The director determines, in writing, that the contract competitor, or, if the contract competitor is a business entity, any trustee, officer, director, partner, or any person holding more than 5 percent of the equity in or debt liability of that business entity, has violated or failed to comply with this chapter, Chapter 6.5 (commencing with Section 25100), or Chapter 6.7 (commencing with Section 25280) of this division, the Porter-Cologne Water Quality Control Act (Division 7 (commencing with Section 13000) of the Water Code), the Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. Sec. 6901 et seq.), the Hazardous Materials Transportation Act, as amended (49 U.S.C. Sec. 1801 et seq.), the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. Sec. 9601 et seq.), the Toxic Substances Control Act (15 U.S.C. Sec. 2601 et seq.), or any other equivalent federal and state statute or any requirement or regulation adopted pursuant thereto relating to the generation, transportation, treatment, storage, recycling, disposal, or handling of a hazardous waste, as defined in Section 25117, a hazardous substance, as defined in Section 25316, or a hazardous material, as defined in Section 353 of the Vehicle Code, if the violation or failure to comply shows a repeating or recurring pattern or may pose a threat to public health or safety or the environment.

(3) The director determines, in writing, that the contract competitor has had a license, permit, or registration for the generation, transportation, treatment, storage, recycling, disposal, or handling of hazardous waste or hazardous substances revoked or suspended.

(b) This section shall remain in effect only until January 1, 1996, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1996, deletes or extends that date.

SEC. 9. Section 6.5 of this bill incorporates amendments to Section 25200.4 of the Health and Safety Code proposed by both this bill and AB 411. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1990, (2) each bill amends Section 25200.4 of the Health and Safety Code, and (3) this bill is enacted after AB 411, in which case Section 6 of this bill shall not become operative.

SEC. 10. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. However, no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1258

An act to amend Section 1063.1 of the Insurance Code, and to amend Sections 3701.5 and 3702.8 of the Labor Code, relating to workers' compensation.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989.]

(i) Life, annuity, health, or disability insurance.

(ii) Mortgage guaranty, financial guaranty, or other forms of insurance offering protection against investment risks.

(iii) Fidelity or surety insurance including fidelity or surety bonds, or any other bonding obligations.

(iv) Credit insurance.

(v) Title insurance.

(vi) Ocean marine insurance or ocean marine coverage under any insurance policy including claims arising from the following: the Jones Act (46 U.S.C.A. Sec. 688), the Longshore and Harbor Workers' Compensation Act (33 U.S.C.A. Sec. 901 et seq.), or any other similar federal statutory enactment, or any endorsement or policy affording protection and indemnity coverage.

(vii) Any claims servicing agreement or insurance policy providing retroactive insurance of a known loss or losses, except a special excess workers' compensation policy issued pursuant to paragraph (2) of subdivision (a) of Section 3702.8 of the Labor Code which cover all or any part of workers' compensation liabilities of an employer that was previously issued a certificate of consent to self-insure pursuant to subdivision (b) of Section 3700 of the Labor Code.

(3) "Covered claims" shall not include any obligations of the insolvent insurer arising out of any reinsurance contracts, nor any obligations incurred after the expiration date of the insurance policy or after the insurance policy has been replaced by the insured or canceled at the insured's request or after the insurance policy has been canceled by the association as provided in this chapter, nor any obligations to any state or to the federal government.

(4) "Covered claims" shall not include any obligations to insurers, insurance pools, or underwriting associations, nor their claims for contribution, indemnity, or subrogation, equitable or otherwise, except as otherwise provided in this chapter.

(5) "Covered claims," except in the case of a claim for workers' compensation benefits, shall not include any claim in an amount of one hundred dollars ($100) or less, nor the first one hundred dollars ($100) of any claim in excess of one hundred dollars ($100), nor that portion of any claim which is in excess of any applicable limits provided in the insurance policy issued by the insolvent insurer.

(6) "Covered claims" shall not include that portion of any claim,

other than a claim for workers' compensation benefits, which is in excess of five hundred thousand dollars ($500,000).

(7) "Covered claims" shall not include any amount sought as a return of a premium under any policy providing retroactive insurance of a known loss or losses.

(8) "Covered claims" shall not include any amount awarded as punitive or exemplary damages.

(10) "Covered claims" shall not include any obligations arising out of the issuance of an insurance policy written by the separate division of the State Compensation Insurance Fund pursuant to the provisions of Sections 11802 and 11803.

(11) "Covered claims" shall not include any obligations of the insolvent insurer arising from any policy or contract of insurance issued or renewed prior to the insolvent insurer's admission to transact insurance in the State of California.

(12) "Covered claims" shall not include surplus deposits of subscribers as defined in Section 1374.1.

(d) "Admitted to transact insurance in this state" means an insurer possessing a valid certificate of authority issued by the California Department of Insurance.

Control shall be presumed to exist if any person, directly or indirectly, owns, controls, holds with the power to vote, or holds proxies representing, 10 percent or more of the voting securities of any other person. This presumption may be rebutted by showing that control does not in fact exist.

(g) "Claimant" means any insured making a first party claim or any person instituting a liability claim; provided that no person who is an affiliate of the insolvent insurer may be a claimant.

SEC. 2. Section 3701.5 of the Labor Code is amended to read:

3701.5. (a) If the director determines that a private self-insured employer has failed to pay workers' compensation as required by this division, the security deposit shall be utilized to administer and pay the employer's compensation obligations.

(b) If the director determines the security deposit has not been immediately made available for the payment of compensation, the director shall determine the method of payment and claims administration as appropriate, which may include, but is not limited to, payment by a surety that issued the bond, or payment by an issuer of an irrevocable letter of credit, and administration by a surety or by an adjusting agency, or through the Self-Insurers' Security Fund, or any combination thereof.

(c) If the director determines the payment of benefits and claims administration shall be made through the Self-Insurers' Security Fund, the fund shall commence payment of the private self-insured employer's obligations for which it is liable under Section 3743 within 30 days of notification. Payments shall be made to claimants whose entitlement to benefits can be ascertained by the fund, with or without proceedings before the appeals board. Upon the assumption of obligations by the fund pursuant to the director's determination, the fund shall have a right to immediate possession of any posted security and the custodian, surety, or issuer of any irrevocable letter of credit shall turn over the security to the fund together with the interest that has accrued since the date of the self-insured employer's default or insolvency.

(d) The director shall promptly audit an employer upon making a determination under subdivision (a) or (b). The employer, any excess insurer, and any adjusting agency shall provide any relevant information in their possession. If the audit results in a preliminary estimate that liabilities exceed the amount of the security deposit, the director shall direct the custodian of the security deposit to liquidate it and provide all proceeds to the Self-Insurers' Security Fund. If the preliminary estimate is that liabilities are less than the security deposit, the director shall ensure the administration and payment of compensation pursuant to subdivision (b).

(e) The payment of benefits by the Self-Insurers' Security Fund from security deposit proceeds shall release and discharge any custodian of the security deposit, surety, any issuer of a letter of credit, and the self-insured employer, from liability to fulfill obligations to provide those same benefits as compensation, but does not release any person from any liability to the fund for full reimbursement. Payment by a surety constitutes a full release of the surety's liability under the bond to the extent of that payment, and entitles the surety to full reimbursement by the principal or his or her estate. Full reimbursement includes necessary attorney fees and other costs and expenses, without prior claim or proceedings on the part of the injured employee or other beneficiaries. Any decision or determination made, or any settlement approved, by the director or by the appeals board under subdivision (g) shall conclusively be

presumed valid and binding as to any and all known claims arising out of the underlying dispute, unless an appeal is made within the time limit specified in Section 5950.

(f) The director shall advise the Self-Insurers' Security Fund promptly after receipt of information indicating that a private self-insured employer may be unable to meet its compensation obligations. The director shall also advise the Self-Insurers' Security Fund of all determinations and directives made or issued pursuant to this section.

(g) Disputes concerning the posting, renewal, termination, exoneration, or return of all or any portion of the security deposit, or any liability arising out of the posting or failure to post security, or adequacy of the security or reasonableness of administrative costs, including legal fees, and arising between or among a surety, the issuer of an agreement of assumption and guarantee of workers' compensation liabilities, the issuer of a letter of credit, any custodian of the security deposit, a self-insured employer, or the Self-Insurers' Security Fund shall be resolved by the director. An appeal from the director's decision or determination may be taken to the appropriate superior court by petition for writ of mandate. Payment of claims from the security deposit or by the Self-Insurers' Security Fund shall not be stayed pending the resolution of the disputes unless and until the superior court issues a determination staying a payment of claims decision or determination of the director.

SEC. 3. Section 3702.8 of the Labor Code is amended to read:

3702.8. (a) Private employers who have ceased to be self-insured employers shall discharge their continuing obligations to secure the payment of compensation which accrued during the period of self-insurance, for purposes of Sections 3700, 3700.5, 3706, and 3715, by compliance with all of the following obligations of current certificate holders:

(1) Filing annual reports as deemed necessary by the director to carry out the requirements of this chapter.

(2) Depositing and maintaining security deposit for accrued liability for the payment of any compensation which may become due, pursuant to subdivision (b) of Section 3700 and Section 3701, except as provided in subdivision (c).

(3) Paying within 30 days all assessments of which notice is sent, pursuant to subdivision (b) of Section 3745, within 36 months from the last day its certificate of self-insurance was in effect. Assessments shall be based on the benefits paid by the employer during the last full calendar year of self-insurance on claims incurred during that year.

(b) In addition to proceedings to establish liabilities and penalties otherwise provided, a failure to comply may be the subject of a proceeding before the director. An appeal from the director's determination shall be taken to the appeals board in the manner provided for in a petition for reconsideration pursuant to Section 5903. The appeals board may, in its discretion, assign the matter to

a referee pursuant to Sections 5309 and 5310.

(c) Notwithstanding subdivision (a), a private employer who has ceased to be self-insured may discharge its continuing obligations as a self-insurer by the purchase of a special excess workers' compensation insurance policy from an insurer authorized to transact workers' compensation insurance in this state. Any special excess workers' compensation policy issued by an insurer shall be approved as to form and substance by the Insurance Commissioner. In order for the policy to discharge the full obligations of the employer to maintain a security deposit with the director for the payment of self-insured claims, the special excess policy shall provide coverage for all claims for compensation arising out of injuries occurring during the period the private employer was self-insured. The employer shall maintain the required deposit with the director for a period of three years after the issuance date of the special excess policy unless the insurer issuing the policy posts a financial guarantee bond for a period of three years in an amount equal to the deposit required by the director. The financial guarantee bond shall be issued by a company authorized to issue these bonds in the state but which is not owned or affiliated with the insurer issuing the special excess workers' compensation insurance policy.

The posting of a special excess insurance policy with the director shall discharge the obligation of the Self-Insurer's Security Fund pursuant to Section 3744 to pay claims in the event of an insolvency of the private employer. The California Insurance Guarantee Association shall be advised by the director whenever a special excess insurance policy is posted.

SEC. 4. The amendments to Section 1063.1 of the Insurance Code made by Section 1 of this act are intended to be declaratory of the existing law set forth in subdivision (c) thereof which excludes as a covered claim an insurance policy or servicing agreement providing retroactive coverage for a known loss or losses and includes as a covered claim retrospective rating plans that have continued to be assessed and have paid surcharges required by statute to fund the California Insurance Guarantee Association from and after January 1, 1988.

SEC. 2. Section 66796.30 of the Government Code is amended to read:

(i) Each application required to be filed under this section shall be accompanied by a filing fee. The enforcement agency may charge a fee which shall not exceed the estimated reasonable cost of providing the services for which the fee is charged. Notwithstanding Section 54993, the enforcement agency shall impose the fee pursuant to Chapter 13 (commencing with Section 54990) of Part 1 of Division 2 of Title 5. This fee is in addition to the fee authorized by Section 66796.20.

SEC. 3. Section 1 of this act shall become operative only if Assembly Bill 939 of the 1989–90 Regular Session is enacted and becomes operative on or before January 1, 1990, and adds Division 30 (commencing with Section 40000) to the Public Resources Code, in which case Section 2 of this act shall not be operative.

CHAPTER 1261

An act to add Section 13133 to, the Health and Safety Code, relating to fire safety.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

SECTION 1. Section 13133 is added to the Health and Safety Code, to read:

13133. The State Fire Marshal shall develop and adopt regulations establishing new occupancy classifications and specific fire safety standards appropriate for residential facilities, as defined in Section 1502, and residential care facilities for the elderly, as defined in Section 1569.2.

CHAPTER 1262

An act relating to minors.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares the following:

(1) Within any group of people, there exists a need for guidelines of acceptable behavior. It is the right and responsibility of adults to establish laws for the benefit and protection of society. In that regard, the right and responsibility for establishing reasonable guidelines for the family unit belongs to the adults within that unit. The Legislature strongly emphasizes that the family unit is the fundamental resource of American life which should be nurtured and remain intact unless there is compelling evidence to the contrary in individual cases.

(2) Runaways, truants, alcohol- and drug-dependent youths, and child prostitutes pose a serious risk to both themselves and the community at large. These types of youth would be best handled in an informal setting where the most effective kind of supervision can be administered.

(3) Runaways pose a particularly difficult problem to the state because, they, unlike other missing children, often leave home on their own volition.

(4) There is a need to review the interrelationship between statutes relating to runaway youth, including, but not limited to, child protective services, health care services, and educational and

social services, to ensure that the law adequately protects minors and prevents the exploitation of youth.

(5) It is the intent of the Legislature to promote methods within state and local government and the juvenile justice system for the care, service, and discipline of runaway and abandoned youth.

(b) The Office of Criminal Justice Planning shall review statutes and problem areas, and existing state, local, and private sector services and procedures for providing services, in order to recommend state policy, and to establish procedures for providing service to runaway and abandoned youth.

(c) In fulfilling the mandate of subdivision (b), the Office of Criminal Justice Planning may consult with the following: the Health and Welfare Agency, the State Department of Social Services, the State Department of Health Services, the State Department of Mental Health, the State Department of Alcohol and Drug Programs, the State Department of Education, a youth who has previously run away, a child advocate organization, shelters for runaway or abandoned youth, law enforcement agencies, probation officers, and juvenile court judges.

(d) The Office of Criminal Justice Planning shall submit, on or before June 30, 1991, recommendations to the Legislature which shall contain suggestions on statutory revisions designed to benefit runaway youth and strengthen the family unit.

SEC. 2. Article 8.5 (commencing with Section 8245) is added to Chapter 2 of Part 6 of the Education Code, to read:

Article 8.5. Intergenerational Center

8245. The Legislature finds and declares the following:

(a) California is currently experiencing an increased demand for both child care facilities and senior care facilities. That need will continue to increase with the relative aging of the population, the increasing number of women entering or reentering the work force, and the economic necessity of two-income households.

(b) The establishment of intergenerational centers will increase the rate of staff retention in senior care facilities, and will have positive psychological effects, and increase educational and cultural opportunities, for both children and seniors.

8246. (a) From funds made available for this purpose under Item 6110-196-001 of Section 2.00 of the Budget Act of 1989, the Superintendent of Public Instruction shall contract with an applicant local governmental agency, skilled nursing facility, or private nonprofit organization for the establishment of an intergenerational center in an existing senior care facility operated by that agency or organization. For purposes of this article, "senior care facility" means a social day care facility that serves the elderly, an adult day health center, a skilled nursing facility, an intermediate care facility, or a residential care facility for the elderly. Each application to be submitted pursuant to this article shall be developed in consultation with both the community care licensing division of the State Department of Social Services and the State Department of Health Services.

(b) The intergenerational center shall be established and operated in Oakland as a pilot project pursuant to the purposes set forth in Section 8245, and shall be operated in accordance with all staffing and other requirements that apply under law to child care or senior care facilities and services.

(c) Funding disbursed by the Superintendent of Public Instruction under the contract described in this section shall be expended only for costs related to the establishment of an intergenerational center, including, but not necessarily limited to,

planning and administrative costs, architectural fees, moving expenses, salaries and wages, training, rent, utilities, and insurance.

(d) It is the intent of the Legislature that subsequent funding for the purposes of this article be appropriated under the Budget Act of 1991 and the Budget Act of 1992.

8247. The agency or organization selected pursuant to Section 8246 shall provide reports and other information concerning the intergenerational center as the Superintendent of Public Instruction may require. No later than January 1, 1992, the Superintendent of Public Instruction shall report to the Legislature regarding the establishment and operation of the intergenerational center, together with his or her recommendations concerning the operation of intergenerational centers elsewhere in the state.

8248. The Intergenerational Center Project shall be deemed successful if the following criteria are met: increased staff retention; increased ability to attract qualified personnel; and positive psychological effects for seniors and children.

8249. This article shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1993, deletes or extends that date.

SEC. 3. (a) The City of Oakland is an urban community that demonstrates an increased need for child care and senior care facilities, based upon the growth it is experiencing in its already large populations of older persons and children. Moreover, the operation of an intergenerational center, which would provide both child care and senior care at a reduced cost, resulting from reduced capital expenses, would be of particular benefit in Oakland, in that an adequate supply of affordable child care and senior care resources is not currently available to the city's residents, many of whom are persons of low income.

(b) Due to the unique circumstances specified in subdivision (a) of this act concerning the City of Oakland, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

(c) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1993, deletes or extends that date.

(b) A pledge of collateral by a redevelopment agency to secure, directly or indirectly, the payment of the principal or redemption price of, or interest on, any bonds, or any reimbursement agreement with any provider of credit to bonds, which is issued by or entered into by an agency shall be valid and binding in accordance with the terms of the pledge document from the time the pledge is made for the benefit of pledgees and successors thereto.

The collateral shall immediately be subject to the pledge, and the pledge shall constitute a lien and security interest which immediately shall attach to the collateral and be effective, binding, and enforceable against the pledgor, its successors, purchasers of the collateral, creditors, and all others asserting the rights therein, to the extent set forth, and in accordance with, the pledge document irrespective of whether those parties have notice of the pledge and without the need for any physical delivery, recordation, filing, or further act.

CHAPTER 1265

An act to amend Sections 4600.1 and 4607.1 of the Civil Code, relating to family law.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 4600.1 of the Civil Code is amended to read:

4600.1. (a) In any proceeding under Title 2 (commencing with Section 4400) or Title 3 (commencing with Section 4500) where there are minor children of the marriage, and in any action for exclusive custody under Section 4603, a petition for a temporary custody order containing the statement required by Section 5158 may be included with the initial filing of the petition or action or may be filed at any time thereafter.

(b) If the parties have agreed to or reached an understanding on the custody or temporary custody of their children, a copy of the agreement or an affidavit as to their understanding shall be attached to the petition or action. As promptly as possible after this filing, the court shall, except in exceptional circumstances, enter an order awarding temporary custody in accordance with the agreement or understanding, or in accordance with any stipulation of the parties.

(c) In the absence of an agreement, understanding, or stipulation, the court may, if jurisdiction is appropriate, enter an ex parte order, set a hearing date within 20 days, and issue an order to show cause on the responding party. If the responding party does not appear or respond within the time set, the temporary order may be extended as necessary, pending the termination of the proceedings.

(d) If, despite good faith efforts, service of the ex parte order and order to show cause has not been effected in a timely fashion and there is reason to believe, based on an affidavit, or other manner of proof made under penalty of perjury, by the petitioner, that the responding party has possession of the minor child or children and seeks to avoid the jurisdiction of the court or is concealing the whereabouts of the child or children, then the hearing date may be reset and the ex parte order extended up to an additional 90 days After service has been effected, either party may request ex parte that the hearing date be advanced or the ex parte order be dissolved or modified.

(e) In conjunction with any ex parte order seeking or modifying an order of custody, the court shall enter an order restraining the person receiving custody from removing the child from the state pending notice and a hearing on the order seeking or modifying custody. The court shall refrain from making any order granting or modifying a custody order on an ex parte basis unless there has been a showing of immediate harm to the child or immediate risk that the

child will be removed from the State of California.

SEC. 2. Section 4607.1 of the Civil Code is amended to read:

4607.1. The Legislature finds and declares that the mediation of cases involving custody and visitation concerning children should be governed by uniform standards of practice, which shall be adopted by the Judicial Council. The standards of practice shall include, but not be limited to, all of the following:

(a) Provision for the best interests of the child and the safeguarding of the rights of the child to frequent and continuing contact with both parents.

(b) Facilitation of the transition of the family by detailing factors to be considered in decisions concerning the child's future.

(c) The conducting of negotiations in such a way as to equalize power relationships between the parties.

In adopting the standards of practice, the Judicial Council shall consider standards developed by recognized associations of mediators and attorneys and other relevant standards governing mediation of proceedings for the dissolution of marriage. The Judicial Council shall adopt the standards by January 1, 1991, and at that time, shall offer training with respect to the standards to mediators.

CHAPTER 1266

An act to amend Sections 4513, 4800.9, and 5120.110 of the Civil Code, relating to family law.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 4513 of the Civil Code is amended to read:

4513. In cases in which the court has determined that a decree of dissolution ought to be granted, but by mistake, negligence, or inadvertence, the judgment has not been signed, filed, and entered, the court may cause the judgment to be signed, dated, filed, and entered therein as of the date when the same could have been signed, dated, filed, and entered originally, if it appears to the satisfaction of the court that no appeal is to be taken in the action or motion made for a new trial, to annul or set aside the judgment or for relief under Chapter 8 (commencing with Section 469) of Title 6 of Part 2 of the Code of Civil Procedure. This action may be taken by the court on its own motion or upon the motion of either party thereto. In contested cases, the motion of a party shall be with notice to the other party. The court may cause the judgment to be entered nunc pro tunc as aforesaid, even though the judgment may have been previously entered, where through mistake, negligence, or inadvertence the judgment was not entered as soon as it could have

been entered under the law if applied for. The court shall not cause a judgment to be entered nunc pro tunc as aforesaid as of a date prior to trial in the matter, prior to the date of an uncontested judgment hearing in the matter, or prior to the date of submission to the court of an application for judgment on affidavit pursuant to Section 4511. Upon the entry of the judgment, the parties shall have the same rights with regard to the dissolution of marriage becoming final on the date that it would have become final, had the judgment been entered upon the date when it could have been originally entered.

SEC. 2. Section 4800.9 of the Civil Code is amended to read:

4800.9. (a) Notwithstanding Section 4800, in any case in which the parties do not agree in writing to a voluntary division of the community property and quasi-community property of the parties, the issue of the character, the value, and the division of the property may be submitted by the court to arbitration for resolution pursuant to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, if the total value of the community property in controversy in the opinion of the court does not exceed fifty thousand dollars ($50,000). The decision of the court regarding the value of the community property for purposes of this section shall not be appealable.

(b) The court may submit the matter to arbitration at anytime it believes the parties are unable to agree upon a division of the property.

SEC. 3. Section 5120.110 of the Civil Code is amended to read:

5120.110. (a) Except as otherwise expressly provided by statute, the community property is liable for a debt incurred by either spouse before or during marriage, regardless which spouse has the management and control of the property and regardless whether one or both spouses are parties to the debt or to a judgment for the debt.

(b) The earnings of a married person during marriage are not liable for a debt incurred by the person's spouse before marriage. After the earnings of the married person are paid, they remain not liable so long as they are held in a deposit account in which the person's spouse has no right of withdrawal and are uncommingled with other community property, except property insignificant in amount. As used in this subdivision, "deposit account" has the meaning prescribed in Section 9105 of the Commercial Code, and "earnings" means compensation for personal services performed, whether as an employee or otherwise.

(c) For purposes of this section, "during marriage" shall not include the period during which the spouses are living separate and apart prior to a judgment for dissolution of marriage or a judgment for legal separation.

CHAPTER 1267

An act to add Section 14025 to the Welfare and Institutions Code, relating to public social services.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 14025 is added to the Welfare and Institutions Code, to read:

14025. (a) Any person who buys or sells a Medi-Cal card, Medi-Cal label, or Medi-Cal beneficiary identification number is guilty of a public offense punishable by imprisonment in the county jail for not more than one year, or in the state prison, or by a fine not exceeding five thousand dollars ($5,000), or by both the fine and imprisonment.

(b) Any person who barters for the purpose of resale or commercial exchange a Medi-Cal card, Medi-Cal label, or Medi-Cal beneficiary identification number is guilty of a public offense punishable by imprisonment in the county jail for not more than one year, or in the state prison, or by a fine not exceeding five thousand dollars ($5,000), or by both the fine and imprisonment.

(c) This section shall not apply to any peace officer or any other person working under the peace officer's immediate direction, supervision, or instruction while investigating Medi-Cal fraud or other related crimes in the performance of his or her official duties.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1268

An act to amend Section 66452.6 of the Government Code. relating to subdivisions.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 66452.6 of the Government Code is amended to read:

66452.6. (a) An approved or conditionally approved tentative map shall expire 24 months after its approval or conditional approval, or after any additional period of time as may be prescribed by local ordinance, not to exceed an additional 12 months. However, if the subdivider is required to expend one hundred twenty-five thousand dollars ($125,000) or more to construct, improve, or finance the construction or improvement of public improvements outside the property boundaries of the tentative map, excluding improvements of public rights-of-way which abut the boundary of the property to be subdivided and which are reasonably related to the development of that property, each filing of a final map authorized by Section 66456.1 shall extend the expiration of the approved or conditionally approved tentative map by 36 months from the date of its expiration, as provided in this section, or the date of the previously filed final map, whichever is later. The extensions shall not extend the tentative map more than 10 years from its approval or conditional approval. However, a tentative map on property subject to a development agreement authorized by Article 2.5 (commencing with Section 65864) of Chapter 4 of Division 1 may be extended for the period of time provided for in the agreement, but not beyond the duration of the agreement. The number of phased final maps which may be filed shall be determined by the advisory agency at the time of the approval or conditional approval of the tentative map.

The amount of one hundred twenty-five thousand dollars ($125,000) shall be increased by the registrar of contractors according to the adjustment for inflation set forth in the statewide cost index for class B construction, as determined by the State Allocation Board at its January meeting. The adjustment by the registrar of contractors shall be effective on the first day of the month occurring more than 30 calendar days after the registrar of contractors makes that adjustment. The adjusted amount shall apply to tentative and vesting tentative maps whose applications were received after the effective date of the adjustment.

"Public improvements," as used in this subdivision, include traffic controls, streets, roads, highways, freeways, bridges, overcrossings, street interchanges, flood control or storm drain facilities, sewer facilities, water facilities, and lighting facilities.

(b) (1) The period of time specified in subdivision (a) shall not include any period of time during which a development moratorium, imposed after approval of the tentative map, is in existence. However, the length of the moratorium shall not exceed five years.

(2) The length of time specified in paragraph (1) shall be extended for up to three years, but in no event beyond January 1, 1992, during the pendency of any lawsuit in which the subdivider asserts, and the local agency which approved or conditionally approved the tentative map denies, the existence or application of a development moratorium to the tentative map.

(3) Once a development moratorium is terminated, the map shall be valid for the same period of time as was left to run on the map at the time that the moratorium was imposed. However, if the remaining time is less than 120 days, the map shall be valid for 120 days following the termination of the moratorium.

(c) The period of time specified in subdivision (a), including any extension thereof granted pursuant to subdivision (e), shall not include the period of time during which a lawsuit involving the approval or conditional approval of the tentative map is or was pending in a court of competent jurisdiction, if the stay of the time period is approved by the local agency pursuant to this section. After service of the initial petition or complaint in the lawsuit upon the local agency, the subdivider may apply to the local agency for a stay pursuant to the local agency's adopted procedures. Within 40 days after receiving the application, the local agency shall either stay the time period for up to five years or deny the requested stay. The local agency may, by ordinance, establish procedures for reviewing the requests, including, but not limited to, notice and hearing requirements, appeal procedures, and other administrative requirements.

(d) The expiration of the approved or conditionally approved tentative map shall terminate all proceedings and no final map or parcel map of all or any portion of the real property included within the tentative map shall be filed with the legislative body without first processing a new tentative map. Once a timely filing is made, subsequent actions of the local agency, including, but not limited to, processing, approving, and recording, may lawfully occur after the date of expiration of the tentative map. Delivery to the county surveyor or city engineer shall be deemed a timely filing for purposes of this section.

(e) Upon application of the subdivider filed prior to the expiration of the approved or conditionally approved tentative map, the time at which the map expires may be extended by the legislative body or by an advisory agency authorized to approve or conditionally approve tentative maps for a period or periods not exceeding a total of three years. Prior to the expiration of an approved or conditionally approved tentative map, upon an application by the subdivider to extend that map, the map shall automatically be extended for 60 days or until the application for the extension is approved, conditionally

approved, or denied, whichever occurs first. If the advisory agency denies a subdivider's application for an extension, the subdivider may appeal to the legislative body within 15 days after the advisory agency has denied the extension.

(f) For purposes of this section, a development moratorium includes a water or sewer moratorium, or a water and sewer moratorium, as well as other actions of public agencies which regulate land use, development, or the provision of services to the land, other than the public agency with the authority to approve or conditionally approve the tentative map, which thereafter prevents, prohibits, or delays the approval of a final or parcel map. A development moratorium shall also be deemed to exist for purposes of this section for any period of time during which a condition imposed by the city or county could not be satisfied because of either of the following:

(1) The condition was one which, by its nature, necessitated action by the city or county, and the city or county either did not take the necessary action or by its own action or inaction was prevented or delayed in taking the necessary action prior to expiration of the tentative map.

(2) The condition necessitates acquisition of real property or any interest in real property from a public agency, other than the city or county that approved or conditionally approved the tentative map, and that other public agency fails or refuses to convey the property interest necessary to satisfy the condition. However, nothing in this subdivision shall be construed to require any public agency to convey any interest in real property owned by it. A development moratorium specified in this paragraph shall be deemed to have been imposed either on the date of approval or conditional approval of the tentative map, if evidence was included in the public record that the public agency which owns or controls the real property or any interest therein may refuse to convey that property or interest, or on the date that the public agency which owns or controls the real property or any interest therein receives an offer by the subdivider to purchase that property or interest for fair market value, whichever is later. A development moratorium specified in this paragraph shall extend the tentative map up to the maximum period as set forth in subdivision (b), but not later than January 1, 1992, so long as the public agency which owns or controls the real property or any interest therein fails or refuses to convey the necessary property interest, regardless of the reason for the failure or refusal, except that the development moratorium shall be deemed to terminate 60 days after the public agency has officially made, and communicated to the subdivider, a written offer or commitment binding on the agency to convey the necessary property interest for a fair market value, paid in a reasonable time and manner.

(g) The rights conferred by a vesting tentative map as provided by Chapter 4.5 (commencing with Section 66498.1) shall last for an initial time period, as provided by ordinance, but shall not be less

than one year or more than two years beyond the recording of the final map. Where several final maps are recorded on various phases of a project covered by a single vesting tentative map, the one year initial time period shall begin for each phase when the final map for that phase is recorded.

The initial time period shall be automatically extended by any time used by the local agency for processing a complete application for a grading permit or for design or architectural review, if the time used by the local agency to process the application exceeds 30 days, from the date that a complete application is filed. At any time prior to the expiration of the initial time period provided by this section, the subdivider may apply for a one-year extension. If the extension is denied by an advisory agency, the subdivider may appeal that denial to the legislative body within 15 days.

(h) If the subdivider submits a complete application for a building permit during the periods of time specified in subdivision (g), the rights conferred by Chapter 4 5 (commencing with Section 66498.1) shall continue until the expiration of that permit, or any extension of that permit granted by the local agency.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

The examining officer may request to see evidence of financial responsibility for the vehicle prior to supervising the demonstration of the applicant's ability to operate the vehicle. The examining officer may refuse to examine an applicant who is unable to provide proof of financial responsibility for the vehicle, unless proof of financial responsibility is not required by this code.

(3) Any physical defect of the applicant, which, in the opinion of the department, is compensated for to ensure safe driving ability, shall not prevent the issuance of a license to the applicant.

(b) In accordance with the following classifications, any applicant for a driver's license shall be required to submit to an examination appropriate to the type of motor vehicle or combination of vehicles the applicant desires a license to drive:

At least 30 days in advance of advertising, marketing, or offering coverage within this state, an insurer issuing a policy to a group described in subdivision (d) of Section 10231.6 shall accomplish an informational filing with the commissioner which consists of the following materials:

(1) A specimen master policy and certificate.

(b) No group long-term care insurance coverage may be offered or sold to a resident of this state under a group policy issued in another state to a group described in subdivision (c) of Section 10231.6, unless, prior to advertising, marketing, or offering that coverage within this state, the association or associations, or the insurer of the association or associations, files evidence with the commissioner that the association or associations have at the outset a minimum of 100 persons, have been organized and maintained in good faith for purposes other than that of obtaining insurance, have been in active existence for at least one year, and have a constitution and bylaws which provide all of the following:

(1) The association or associations hold regular meetings, not less than annually, to further purposes of the members.

(2) Except for credit unions, the association or associations collect

dues or solicit contributions from members.

(3) The members have voting privileges and representation on the governing board and committees.

Thirty days after that filing, the association or associations shall be deemed to satisfy those organizational requirements, unless the commissioner makes the finding that the association or associations do not satisfy those organizational requirements.

The association or associations, or the insurer of the association or associations, shall accompany this organizational filing with an informational filing which consists of the following materials:

(1) A specimen master policy and certificate.

(2) The corresponding outline of coverage.

(3) Representative advertising materials to be used in this state.

(c) Compliance with the informational filings required to be made by this section shall also constitute compliance with the filing requirements of Section 10233.9.

(b) Conditions eligibility for benefits provided in an institutional care setting on the receipt of a higher level of institutional care.

(c) Preconditions the availability of benefits for community-based care, home health care, or home care on prior institutionalization.

10232.6. On or before March 1, 1990, every insurer shall notify, in writing, existing policyholders of long-term care insurance that the current provisions of their policy may be different than policies subject to this chapter, as amended during the 1989–90 Regular Session of the Legislature, and that the policyholders may wish to consider any difference in policy provisions in light of those amendments.

SEC. 5. Section 10232.7 of the Insurance Code is amended to read:

10232.7. (a) An applicant for a long-term care insurance policy or a certificate, other than an applicant for a certificate issued under a group long-term care insurance policy issued to a group as described in subdivisions (a) and (b) of Section 10231.6, shall have the right to return the policy or certificate by first-class United States mail within 30 days of its delivery and to have the premium refunded

if, after examination of the policy or certificate, the applicant is not satisfied for any reason.

(b) The return of a policy or certificate shall void the policy or certificate from the beginning and the parties shall be in the same position as if no policy, certificate, or contract had been issued. (d) Limit or deny benefits to a policyholder or certificate holder diagnosed as having any significant destruction of brain tissue with resultant loss of brain function, including, but not limited to, progressive, degenerative, and dementing illnesses, including, but not limited to, Alzheimer's disease. Where a particular disease can be determined only with an autopsy, "diagnosed" means clinical diagnosis as specified in Section 10123.16. The requirements of this subdivision do not modify any preexisting condition or underwriting standards and do not preclude or limit underwriting in accordance with an insurer's established underwriting standards. On and after July 1, 1989, any outline of coverage used in connection with long-term care insurance coverage issued in this state shall include or have attached thereto a statement in positive terms, to the effect that the coverage described and required by this subdivision is provided. That statement shall describe the coverage and not merely

make reference to this subdivision.

SEC. 9. Section 10233.4 is added to the Insurance Code, to read:

(e) The outline of coverage shall contain no material of an advertising nature.

(f) Use of the text and sequence of the text of the outline of coverage set forth in this section is mandatory, unless otherwise specifically indicated.

(g) Text which is capitalized or underscored in the outline of coverage may be emphasized by other means which provide prominence equivalent to capitalization or underscoring.

(h) The outline of coverage shall be in the following form:

"(COMPANY NAME)

(ADDRESS- CITY AND STATE)

(TELEPHONE NUMBER)

LONG-TERM CARE INSURANCE

OUTLINE OF COVERAGE

(Policy Number or Group Master Policy and Certificate Number)

1. This policy is (an individual policy of insurance) ((a group policy) which was issued in the (indicate jurisdiction in which group policy was issued)).

2. PURPOSE OF OUTLINE OF COVERAGE. This outline of coverage provides a very brief description of the important features of the policy. You should compare this outline of coverage to outlines of coverage for other policies available to you. This is not an insurance contract, but only a summary of coverage. Only the individual or group policy contains governing contractual provisions.

This means that the policy or group policy sets forth in detail the rights and obligations of both you and the insurance company. Therefore, if you purchase this coverage, or any other coverage, it is important that you READ YOUR POLICY (OR CERTIFICATE) CAREFULLY!

3. TERMS UNDER WHICH THE POLICY OR CERTIFICATE MAY BE RETURNED AND PREMIUM REFUNDED.

(a) Provide a brief description of the right to return--"free look" provision of the policy.

(b) Include a statement that the policy either does or does not contain provisions providing for a refund or partial refund of premium upon the death of an insured or surrender of the policy or certificate. If the policy contains such provisions, include a description of them.

4. THIS IS NOT MEDICARE SUPPLEMENT COVERAGE. If you are eligible for Medicare, review the Medicare Supplement Buyer's Guide available from the insurance company.

(a) (For agents) Neither (insert company name) nor its agents represent Medicare, the federal government or any state government.

(b) (For direct response) (insert company name) is not representing Medicare, the federal government or any state government.

5. LONG-TERM CARE COVERAGE. Policies of this category are designed to provide coverage for one or more necessary or medically necessary diagnostic, preventive, therapeutic, rehabilitative, maintenance, or personal care services, provided in a setting other than an acute care unit of a hospital, such as in a nursing home, in the community, or in the home.

This policy provides coverage in the form of a fixed dollar indemnity benefit for covered long-term care expenses, subject to policy (limitations) (waiting periods) and (coinsurance) requirements. (Modify this paragraph if the policy is not an indemnity policy.)

6. BENEFITS PROVIDED BY THIS POLICY.

(a) (Covered services, related deductible(s) waiting periods, elimination periods and benefit maximums.)

(b) (Institutional benefits, by skill level.)

(c) (Noninstitutional benefits, by skill level.)

(Any benefit screens must be explained in this section. If these screens differ for different benefits, explanation of the screen should accompany each benefit description. If an attending physician or other specified person must certify a certain level of functional dependency in order to be eligible for benefits, this too must be specified. If activities of daily living (ADLs) are used to measure an insured's need for long-term care, then these qualifying criteria or screens must be explained.)

7. LIMITATIONS AND EXCLUSIONS.

(Describe:

(a) Preexisting conditions.

(b) Noneligible facilities/provider.

(c) Noneligible levels of care (e.g., unlicensed providers, care or treatments provided by a family member, etc.).

(d) Exclusions/exceptions.

(e) Limitations.)

(This section should provide a brief specific description of any policy provisions which limit, exclude, restrict, reduce, delay, or in any other manner operate to qualify payment of the benefits described in (6) above.)

THIS POLICY MAY NOT COVER ALL THE EXPENSES ASSOCIATED WITH YOUR LONG-TERM CARE NEEDS.

8. RELATIONSHIP OF COST OF CARE AND BENEFITS. Because the costs of long-term care services will likely increase over time, you should consider whether and how the benefits of this plan may be adjusted. (As applicable, indicate the following:

(a) That the benefit level will NOT increase over time.

(b) Any automatic benefit adjustment provisions.

(c) Whether the insured will be guaranteed the option to buy additional benefits and the basis upon which benefits will be increased over time if not by a specified amount or percentage.

(d) If there is such a guarantee, include whether additional underwriting or health screening will be required, the frequency and amounts of the upgrade options, and any significant restrictions or limitations.

(e) And finally, describe whether there will be any additional premium charge imposed, and how that is to be calculated.

9. TERMS UNDER WHICH THE POLICY (OR CERTIFICATE) MAY BE CONTINUED IN FORCE OR DISCONTINUED.

(a) Describe the policy renewability provisions.

(b) For group coverage, specifically describe continuation/conversion provisions applicable to the certificate and group policy.

(c) Describe waiver of premium provisions or state that there are no such provisions.

(d) State whether or not the company has a right to change premium, and if such a right exists, describe clearly and concisely each circumstance under which the premium may change.

10. ALZHEIMER'S DISEASE AND OTHER ORGANIC BRAIN DISORDERS.

(State that the policy provides coverage for insureds clinically diagnosed as having Alzheimer's Disease or related degenerative and dementing illnesses. Specifically describe each benefit screen or other policy provision which provides preconditions to the availability of policy benefits for such an insured.)

11. PREMIUM.

(a) State the total annual premium for the policy.

(b) If the premium varies with an applicant's choice among benefit options, indicate the portion of annual premium which

corresponds to each benefit option.

12. ADDITIONAL FEATURES.

(a) Indicate if medical underwriting is used.

(b) Describe other important features.

13. INFORMATION AND COUNSELING. The California Department of Insurance has prepared a Consumer Guide to Long-Term Care Insurance. This guide can be obtained by calling the Department of Insurance toll-free telephone number. This number is 1-800-233-9045. Additionally, the Health Insurance Counseling and Advocacy Program (HICAP) administered by the California Department of Aging, provides long-term care insurance counseling to California senior citizens. (a) A description of the principal benefits and coverage provided in the policy.

(b) A statement of the principal exclusions, reductions, and limitations contained in the policy.

(c) A statement of the terms under which the policy or certificate, or both, may be continued in force or discontinued, including any reservation in the policy of a right to change premiums.

SEC. 14. Section 10233.9 is added to the Insurance Code, to read:

10233.9. For purposes of this section, "broker-controlled funds" means funds owned by the broker, by a spouse, child, parent, grandparent, brother, sister, father-in-law, mother-in-law, brother-in-law, or sister-in-law of the broker, or by any entity in which the broker alone or together with any of the above relatives of the broker has an

SEC. 5.5. Section 10241 of the Business and Professions Code is amended to read:

10241. The statement required by Section 10240, the form of which shall be approved by the commissioner, shall set forth separately the following items:

(1) Appraisal fees.

(2) Escrow fees.

(3) Title charges.

(4) Notary fees.

(5) Recording fees.

(6) Credit investigation fees.

If a real estate licensee performs or is to perform any of the services for which costs and expenses are disclosed pursuant to this subdivision, the licensee shall be entitled to those costs and expenses in addition to the charges specified in subdivision (b).

(b) The total of the brokerage or commissions contracted for, or to be received by, the real estate broker for services performed as an agent in negotiating, procuring, or arranging the loan or the total of loan origination fees, points, bonuses, and other charges in lieu of interest to be received by the broker if he or she elects to act as a lender rather than agent in the transaction.

(d) The estimated amounts to be paid on the order of the borrower, as disclosed by the borrower, including, but not limited to:

(1) Fire insurance premiums.

IN THAT CASE, YOU MAY AGAIN HAVE TO PAY COMMISSIONS, FEES, AND EXPENSES FOR THE ARRANGING OF THE NEW LOAN. IN ADDITION, IF YOU ARE UNABLE TO MAKE THE MONTHLY PAYMENTS OR THE BALLOON PAYMENT, YOU MAY LOSE THE PROPERTY AND ALL OF YOUR EQUITY THROUGH FORECLOSURE. KEEP THIS IN MIND IN DECIDING UPON THE AMOUNT AND TERMS OF THIS LOAN."

(i) A statement containing the name of the real estate broker negotiating the loan, his or her license number, and the address of his or her licensed place of business.

(j) If the broker anticipates that the loan to the borrower may be made wholly or in part from broker-controlled funds, a statement to that effect.

For purposes of this section, "broker-controlled funds" means funds owned by the broker, by a spouse, child, parent, grandparent, brother, sister, father-in-law, mother-in-law, brother-in-law, or sister-in-law of the broker, or by any entity in which the broker alone or together with any of the above relatives of the broker has an ownership interest of 10 percent or more.

(m) If the loan is one that is within the limits specified in Section 10245, a certification by the real estate licensee negotiating the loan that the loan is being made in compliance with the provisions of this article.

SEC. 6. Section 10241.1 of the Business and Professions Code is amended to read:

10241.1. (a) The purchase of credit life insurance on the life of the borrower or credit disability insurance to provide indemnity for payments becoming due on the indebtedness shall not be required as a condition of making a loan under this article.

(b) The licensee may provide through duly licensed agents, and collect from the borrower the costs of purchasing, credit life insurance on the life of a borrower and credit disability insurance to provide indemnity for payments becoming due on the indebtedness, with the borrower's consent. The form and rate of the insurance shall be approved by the Insurance Commissioner, as provided in Section 779.9 of the Insurance Code. The insurance shall be in an amount not in excess of that reasonably necessary to discharge the obligation of

the borrower, and for a term not exceeding the term of the loan. Only one premium for credit disability insurance may be collected by the licensee in connection with any loan contract irrespective of the number of borrowers, and only one borrower may be insured, except that where more than one borrower is a party to a loan contract and each borrower is a wage earner whose earnings are reasonably relied upon by the lender for the repayment of the loan, each borrower may be insured.

(c) The licensee may collect from the borrower the costs of purchasing fire and hazard insurance on the property offered as security for a loan in order to reasonably insure against loss for a reasonable term considering the circumstances of the loan, (1) if the policy or policies of insurance are made payable to the borrower or any member of his or her family, regardless of whether a customary mortgagee clause is attached, and (2) if the insurance is sold at standard rates through duly licensed agents.

(d) If premiums for any insurance provided under this section are to be paid from the proceeds of the loan, any amount so paid and any commission under subdivision (b) of Section 10242 attributable to borrowing that amount, shall not be considered in determining whether the loan is exempt from this article under Section 10245.

SEC. 7. Section 10242.5 of the Business and Professions Code is amended to read

10242.5. (a) A charge imposed for late payment of an installment due on a loan secured by a mortgage or deed of trust on real property shall not exceed an amount equal to 10 percent of the installment due, except that a minimum charge of five dollars ($5) may be imposed when the late charge permitted by this section would otherwise be less than that minimum charge.

The charge permitted by this section may be assessed only as a percentage of the increment of any installment due that is attributable to principal and interest.

(b) No charge may be imposed more than once for the same late payment of an installment. No late charge may be imposed on any installment which is paid or tendered in full within 10 days after its scheduled due date, even though an earlier maturing installment or a late charge on an earlier installment may not have been paid in full. For purposes of this subdivision, a payment or tender of payment made within 10 days of a scheduled installment due date shall be deemed to have been made or tendered for payment of that installment.

(c) A late-payment charge may be imposed pursuant to this subdivision for the payment of any balloon payment more than 10 days after the date due. The charge shall not exceed an amount equal to the maximum late charge that could have been assessed with respect to the largest single monthly installment previously due, other than the balloon payment, multiplied by the sum of one plus the number of months occurring since the late-payment charge began to accrue. For purposes of this subdivision, "month" means the

period between a particular day of a calendar month and the same day of the next calendar month.

SEC. 8. Section 10245 of the Business and Professions Code is amended to read:

10245. The provisions of this article, exclusive of the provisions of Sections 10240, 10242.5, and 10242.6, do not apply to any bona fide loan secured directly or collaterally by a first trust deed, the principal of which is twenty thousand dollars ($20,000) or more, or to any bona fide loan secured directly or collaterally by any lien junior thereto, the principal of which is ten thousand dollars ($10,000) or more

SEC. 9. Section 10248 1 of the Business and Professions Code is amended to read:

10248.1. No real estate licensee shall charge, receive, or negotiate for the payment by the borrower of any service charge or fee other than charges and fees specified in Sections 10241, 10241.1, 10242, and 10242.5, prepayment penalties as authorized by law, beneficiary-statement, payoff-demand, extinction, release, reconveyance or other removal of record fees, and trustee's costs and fees, and any other fees if in accordance with the Civil Code and the Code of Civil Procedure.

SEC. 10. Section 5.5 of this bill incorporates amendments to Section 10241 of the Business and Professions Code proposed by both this bill and SB 1128. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1990, (2) each bill amends Section 10241 of the Business and Professions Code, and (3) this bill is enacted after SB 1128, in which case Section 5 of this bill shall not become operative.

SEC. 11. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 3. Chapter 3.2 (commencing with Section 14340) is added to Division 12 of the Public Resources Code, to read:

CHAPTER 3.2. URBAN SERVICES AND RESTORATION CORPS

14340. (a) The Legislature finds and declares that the Urban Services Restoration Corps (USRC), a component of the California Conservation Corps, is an innovative approach to diverting young people in urban areas from the detrimental influences of unlawful drug activity and gang violence. The corps assists those who join through the disciplined work projects that they perform according to Section 14300 and by providing opportunties through education programs.

(b) In carrying out this division, public housing authorities are encouraged to work with the corps and to recognize the corps as an innovative program when seeking funds under the Anti-Drug Abuse Act of 1988 (Public Law 100-690), which provides for grants by the Secretary of Housing and Urban Development for innovative programs to reduce drug-related crime, including recreational, vocational, education, and other constructive alternatives for youth.

14341. This chapter shall become operative only if, and at the time that, federal funds are made available for the purposes of this chapter.

14342. This chapter shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

CHAPTER 1277

An act to amend Sections 51010.6, 51011, 51013, 51013.5, 51014, 51014.3, 51015, 51018.6, and 51018.7 of, and to add Section 51016 to, the Government Code, relating to pipeline safety, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989.]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Hazardous Liquid Pipeline Amendments of 1989.

SEC. 2. Section 51010.6 of the Government Code is amended to read:

51010.6. Notwithstanding Section 51010.5, that portion of an interstate pipeline which is located within this state and is subject to an agreement between the United States Secretary of Transportation and the State Fire Marshal is subject to the federal Hazardous Liquid Pipeline Safety Act of 1979 (49 U.S.C. Sec. 2001 et seq.), the Pipeline Safety Reauthorization Act of 1988 (Pub. L. 100-561), and federal pipeline safety regulations.

SEC. 2.5. Section 51011 of the Government Code is amended to read:

51011. The State Fire Marshal shall adopt hazardous liquid pipeline safety regulations in compliance with the federal law relating to hazardous liquid pipeline safety (Chapter 29 (commencing with Section 2001) of Title 49 of the United States Code) and the regulations adopted pursuant thereto (Title 49 of the Code of Federal Regulations, Part 195), including, but not limited to, compliance orders, penalties, and inspection and maintenance provisions, and including amendments to those laws and regulations which may be hereafter enacted and adopted.

The State Fire Marshal may exempt the application of regulations adopted pursuant to this section to any pipeline, or portion thereof, when it is determined that the risk to public safety is slight and the probability of injury or damage remote.

Notification of exemptions shall be written, and shall include a discussion of those factors which the State Fire Marshal considers significant to the granting of the exemption.

SEC. 3. Section 51013 of the Government Code is amended to read:

51013. (a) Any new pipeline constructed after January 1, 1984,

and which normally operates under conditions of constant flow and pressure, shall be designed and constructed in accordance with Subparts C and D of Part 195 of Title 49 of the Code of Federal Regulations, and shall include a means of leak detection and cathodic protection which the State Fire Marshal determines is acceptable, except that any pipeline which transports by gravity or operates at a stress level of 20 percent or less of the specified minimum yield strength of the pipe shall meet these design and construction requirements on or before January 1, 1991.

(b) Any new pipeline on which construction begins after January 1, 1990, shall be designed to accommodate the passage of instrumented internal inspection devices, and shall have leak mitigation and emergency response plans and equipment as the State Fire Marshal may require. Any repairs to existing pipelines which can accommodate instrumented internal inspection devices shall be done in a manner not to interfere with the passage of these devices.

(c) Subdivision (a) does not apply to the replacement of valves and the relocation or replacement of portions of pipelines.

(d) For pipelines which cannot accommodate internal inspection devices, replacements of portions of the pipe shall be done in a manner consistent, to the extent practicable, with the eventual accommodation of instrumented internal inspection devices.

SEC. 4. Section 51013.5 of the Government Code is amended to read:

51013.5. (a) Every newly constructed pipeline, existing pipeline, or part of a pipeline system that has been relocated or replaced, and every pipeline that transports a hazardous liquid substance or highly volatile liquid substance, shall be tested in accordance with Subpart E (commencing with Section 195.300) of Part 195 of Title 49 of the Code of Federal Regulations.

(b) Every pipeline not provided with properly sized automatic pressure relief devices or properly designed pressure limiting devices shall be hydrostatically tested annually.

(c) Every pipeline over 10 years of age and not provided with effective cathodic protection shall be hydrostatically tested every three years, except for those on the State Fire Marshal's list of higher risk pipelines, which shall be hydrostatically tested annually.

(d) Every pipeline over 10 years of age and provided with effective cathodic protection shall be hydrostatically tested every five years, except for those on the State Fire Marshal's list of higher risk pipelines which shall be hydrostatically tested every two years.

(e) Beginning on July 1, 1990, and continuing until the regulations adopted by the State Fire Marshal pursuant to subdivision (f) take effect, each pipeline within the State Fire Marshal's jurisdiction which satisfies any of the following sets of criteria shall be placed on the State Fire Marshal's list of higher risk pipelines until five years pass without a reportable leak due to corrosion or defect on that pipeline. Initially, pipelines on that list shall be tested by the next

scheduled test date, or within two years of being placed on the list, whichever is first. On July 1, 1990, pipeline operators shall provide the State Fire Marshal with a list of all their pipelines which satisfy the criteria in this subdivision as of July 1, 1990. Should any pipeline become eligible for the list of higher risk pipelines after that date, the pipeline company shall report that fact to the State Fire Marshal within 30 days, and the pipeline shall be placed on the list retroactively to the date on which it became eligible for listing. Pipelines which are found to belong on the list, but are not so reported by the operator to the State Fire Marshal, shall be placed on the list retroactively. Operators failing to properly report their pipelines shall be subject to penalties under Section 51018.6. Pipelines not covered under the risk criteria developed pursuant to subdivision (f) shall be deleted from the list when regulations are adopted pursuant to that subdivision. For purposes of this subdivision, a leak which is traceable to an external force, but for which corrosion is partly responsible, shall be deemed caused by corrosion, "defect" refers to manufacturing or construction defects, and "leak" or "reportable leak" means a rupture required to be reported pursuant to Section 51018. As long as all pipelines are tested in their entirety at least as frequently as standard risk pipelines under subdivisions (c) and (d), it shall suffice for additional tests on higher risk pipelines to cover 20 pipeline miles in all directions along an operator's pipeline from the position of the leak or leaks which led to the inclusion or retention of that pipeline on the higher risk list. The interim list shall include pipelines which meet any of the following criteria:

(1) Have suffered two or more reportable leaks, not including leaks during a certified hydrostatic pressure test, due to corrosion or defect in the prior three years.

(2) Have suffered three or more reportable leaks, not including leaks during a certified hydrostatic pressure test, due to corrosion, defects, or external forces, but not all due to external forces, in the prior three years.

(3) Have suffered a reportable leak, except during a certified hydrostatic pressure test, due to corrosion or defect of more than 50,000 gallons, or 10,000 gallons in a standard metropolitan statistical area, in the prior three years; or have suffered a leak due to corrosion or defect which the State Fire Marshal finds has resulted in more than 42 gallons of a hazardous liquid within the State Fire Marshal's jurisdiction entering a waterway in the prior three years; or have suffered a reportable leak of a hazardous liquid with a flashpoint of less than 140 degrees Fahrenheit, or 60 degrees centigrade, in the prior three years.

(4) Are less than 50 miles long, and have experienced a reportable leak, except during a certified hydrostatic pressure test, due to corrosion or a defect in the prior three years. For the purposes of this paragraph, the length of a pipeline with more than two termini shall be the longest distance between two termini along the pipeline.

(5) Have experienced a reportable leak in the prior five years due to corrosion or defect, except during a certified hydrostatic pressure test, on a section of pipe more than 50 years old. For pipelines which fall in this category, and no other category of higher risk pipeline, additional tests required by this subdivision shall be required only on segments of the pipe more than 50 years old as long as all pipe more than 50 years old which is within 20 pipeline miles from the leak in all directions along an operator's pipeline is tested.

(f) The State Fire Marshal shall study indicators and precursors of serious pipeline accidents, and, in consultation with the Hazardous Liquid Pipeline Technical Standards Committee, or the Pipeline Safety Advisory Committee on and after the date Assembly Bill 385 of the 1989–90 Regular Session of the Legislature is enacted and becomes effective, shall develop criteria for identifying which hazardous liquid pipelines pose the greatest risk to people and the environment due to the likelihood of, and likely seriousness of, an accident due to corrosion or defect. The study shall give due consideration to research done by the industry, the federal government, academia, and to any other information which the State Fire Marshal shall deem relevant, including, but not limited to, recent leak history, pipeline location, and materials transported. Beginning January 1, 1992, using the criteria identified in that study, the State Fire Marshal shall maintain a list of higher risk pipelines, which exceed a standard of risk to be determined by the State Fire Marshal, and which shall be tested as required in subdivisions (c) and (d) as long as they remain on the list. By January 1, 1992, after public hearings, the State Fire Marshal shall adopt regulations to implement this subdivision.

(g) In addition to the requirements of subdivisions (a) to (d), inclusive, the State Fire Marshal may require any pipeline subject to this chapter to be subjected to a pressure test, or any other test or inspection, at any time, in the interest of public safety.

(h) Test methods other than the hydrostatic tests required by subdivisions (b), (c), and (d), including inspection by instrumented internal inspection devices, may be approved by the State Fire Marshal on an individual basis. If the State Fire Marshal approves an alternative to a pressure test in an individual case, the State Fire Marshal may require that the alternative test be given more frequently than the testing frequencies specified in subdivisions (b), (c), and (d).

(i) The State Fire Marshal shall adopt regulations before January 1, 1992, to establish what the State Fire Marshal deems to be an appropriate frequency for tests and inspections, including instrumented internal inspections, which, when permitted as a substitute for tests required under subdivisions (b), (c), and (d), do not damage pipelines or require them to be shut down for the testing period. That testing shall in no event be less frequent than is required by subdivisions (b), (c), and (d). Each time one of these tests is required on a pipeline, it shall be approved on the same individual

basis as under subdivision (h). If it is not approved, a hydrostatic test shall be carried out at the time the alternative test would have been carried out, and subsequent tests shall be carried out in accordance with the time intervals prescribed by subdivision (b), (c), or (d), as applicable.

SEC. 5. Section 51014 of the Government Code is amended to read:

51014. (a) The pressure tests required by subdivisions (b), (c), and (d) of Section 51013.5 shall be conducted in accordance with Subpart E (commencing with Section 195.300) of Part 195 of Title 49 of the Code of Federal Regulations, except that an additional four-hour leak test, as specified in subsection (c) of Section 195.302 of Title 49 of the Code of Federal Regulations, shall not be required under subdivisions (b), (c), and (d) of Section 51013.5. The State Fire Marshal may authorize the use of liquid petroleum having a flashpoint over 140 degrees Fahrenheit or 60 degrees Centigrade as the test medium. The State Fire Marshal shall make these authorizations in writing. Pressure tests performed under subdivisions (b), (c), and (d) of Section 51013.5 shall not show an hourly change for each section of the pipeline under test at the time in excess of either 10 gallons or the sum of one gallon and an amount computed at a rate in gallons per mile equivalent to one-tenth of the nominal internal diameter of the pipe in inches.

(b) Test pressure shall be at least 125 percent of the actual pipeline operating pressure.

SEC. 5.5. Section 51014.3 of the Government Code is amended to read:

51014.3. (a) Each pipeline operator shall notify the State Fire Marshal and the local fire department having fire suppression responsibilities at least three working days prior to conducting a hydrostatic test which is required by this chapter. The notification shall include all of the following information:

(1) The name, address, and telephone number of the pipeline operator.

(2) The specific location of the pipeline section to be tested and the location of the test equipment.

(3) The date and time the test is to be conducted.

(4) An invitation and a telephone number for local fire departments to call for further information on what they should do in the event of a leak during testing.

(5) The test medium.

(6) The name and telephone number of the independent testing firm or person responsible for certification of the test results.

(b) The State Fire Marshal may observe tests conducted pursuant to this chapter.

SEC. 6. Section 51015 of the Government Code is amended to read:

51015. (a) Every pipeline operator shall provide to the fire department having fire suppression responsibilities a map or suitable

diagram showing the location of the pipeline, a description of all products transported within the pipeline, and a contingency plan for pipeline emergencies which shall include, but not be limited to any reasonable information which the State Fire Marshal may require.

(b) A pipeline operator shall make available to the State Fire Marshal, or any officers or employees authorized by the State Fire Marshal, upon presentation of appropriate credentials, any records, maps, and written procedures that are required, by this chapter, to be kept by the pipeline operator and which concern accident reporting, design, construction, testing, or operation and maintenance.

The State Fire Marshal, or any officer or employee authorized by the State Fire Marshal, may enter, inspect, and examine, at reasonable times and in a reasonable manner, the records and properties of any pipeline operators that are required to be inspected and examined to determine whether the pipeline operator is in compliance with this chapter.

(c) Every pipeline operator shall offer to meet with the local fire department having fire suppression responsibilities at least once each calendar year to discuss and review contingency plans for pipeline emergencies.

SEC. 6.5. Section 51016 is added to the Government Code, to read:

51016. The State Fire Marshal shall study the spacing of valves which would limit spillage into standard metropolitan statistical areas and environmentally sensitive areas from surrounding higher ground. If any existing pipeline system's valve spacing is deemed insufficient to protect California's uniquely situated population centers and environmental resources, the State Fire Marshal shall adopt regulations to require the addition of valves on existing pipelines. If the study indicates that guidelines for valve spacing do not, in the State Fire Marshal's opinion, adequately protect these population centers and environmental resources, the State Fire Marshal may adopt regulations to require new valves on new, existing, or replacement pipelines as necessary to protect the public interest.

SEC. 7. Section 51018.6 of the Government Code is amended to read:

51018.6. (a) The State Fire Marshal shall adopt regulations for conducting enforcement proceedings pursuant to this section. These regulations shall include provisions for the service and the content of the notice of probable violation, response options, conduct of hearings, issuing of the final order, amended final order, and petitions for reconsideration and compromise of penalties, and shall be consistent with the procedures specified in Sections 190.207 to 190.215, inclusive, and Section 190.227 of Title 49 of the Code of Federal Regulations.

(b) If the State Fire Marshal determines, pursuant to the regulations adopted pursuant to subdivision (a), that a person has

violated this chapter or any regulation adopted pursuant thereto, that person is subject to a civil penalty of not more than ten thousand dollars ($10,000) for each day that violation persists, except that the maximum civil penalty shall not exceed five hundred thousand dollars ($500,000) for any related series of violations.

(c) The amount of the penalty shall be assessed by the State Fire Marshal pursuant to the regulations adopted pursuant to subdivision (a). In determining the amount of the penalty, the State Fire Marshal shall consider the nature, circumstances, and gravity of the violation and, with respect to the person found to have committed the violation, the degree of culpability, any history of prior violations, the effect on ability to continue to do business, any good faith attempts to achieve compliance, ability to pay the penalty, and any other matters as justice may require.

(d) A civil penalty assessed under subdivision (b) may be recovered in an action brought by the Attorney General on behalf of the state. Prior to referring the penalty action to the Attorney General, the State Fire Marshal may accept an offer to compromise the amount of the assessed penalty pursuant to the regulations adopted pursuant to subdivision (a).

(e) The State Fire Marshal shall deposit all civil penalties assessed pursuant to this section in the Local Training Account in the California Hazardous Liquid Pipeline Safety Fund. The money in the Local Training Account is available, upon appropriation by the Legislature, to the State Fire Marshal, who shall use the money for providing hazardous liquid fire suppression training to local fire departments.

SEC. 8. Section 51018.7 of the Government Code is amended to read:

51018.7 (a) Any person who willfully and knowingly violates any provision of this chapter or a regulation issued pursuant thereto shall, upon conviction, be subject, for each offense, to a fine of not more than twenty-five thousand dollars ($25,000), imprisonment for a term not to exceed five years, or both.

(b) Any person who willfully and knowingly defaces, damages, removes, or destroys any pipeline sign or right-of-way marker required by federal or state law or regulation shall, upon conviction, be subject, for each offense, to a fine of not more than five thousand dollars ($5,000), imprisonment for a term not to exceed one year, or both.

SEC. 9. The sum of three hundred thousand dollars ($300,000) is hereby appropriated from the Interstate Pipeline Operations Account and the Intrastate Pipeline Operations Account in the California Hazardous Liquid Pipeline Safety Fund, to the State Fire Marshal for purposes of the studies required by subdivision (f) of Section 51013.5 and by Section 51016. This appropriation shall be paid for from fees assessed and collected by the State Fire Marshal from pipeline operators, and deposited in the Intrastate Pipeline Operations Account and the Interstate Pipeline Operations Account

in the California Hazardous Liquid Pipeline Safety Fund pursuant to Sections 51019 and 51019.05.

The portion of the appropriation to be made from each account shall be equal to the ratio of the total fees deposited in that account to the total fees deposited in both accounts for the purpose of funding the studies required by this act.

SEC. 10. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1278

An act to amend Sections 18013.2 and 18020 of the Health and Safety Code, relating to housing.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 18013.2 of the Health and Safety Code is amended to read:

18013.2. "Third-party entity" or "third party," as used in this part, means an entity which is all of the following:

(a) In the business of inspecting equipment, systems, and assemblies and monitoring quality assurance programs, or analyzing plans, designs, specifications, and engineering calculations supporting design concepts.

(b) Not under the control or jurisdiction of any manufacturer or supplier for any affected industry except by contract as required and approved by the department.

(c) Making available specific information as required by the department.

(d) Approved by the department.

SEC. 2. Section 18020 of the Health and Safety Code is amended to read:

18020. (a) Except as provided by the National Manufactured Housing Construction and Safety Standards Act of 1974 (42 U.S.C. Sec. 5401, et seq.), as it applies to the manufacture of new manufactured housing, the department shall enforce this part and the rules and regulations adopted thereunder.

(b) The department may, at the department's sole option, enforce Chapter 4 (commencing with Section 18025) and the rules and regulations adopted thereunder through department-approved third-party entities. The department shall adopt regulations for the approval of third-party entities, including, but not limited to, all of the following criteria:

(1) Freedom from any conflict of interest.

(2) Qualifications of personnel.

(3) Frequency of inspections or monitorings of manufacturer quality control.

(4) Involvement in collusive or fraudulent actions related to the performance of activities required by Section 18013.2.

(5) Any other conditions of operations the department may reasonably require.

(c) The department may require rotation of third-party entities performing inspection services for any manufacturing facility within the state to prevent either the third-party entity from performing within the same facility for more than 365 calendar days or from performing inspections for any facility when the third-party entity performed inspection services within the previous 365 calendar days.

(d) The department shall monitor the performance of third-party entities approved pursuant to subdivision (b) and shall require periodic reports in written form containing information the department may reasonably require to determine compliance with the conditions of the department's approval.

(1) When the department receives information about an alleged inadequacy in the performance of a third-party entity, including any involvement in collusive or fraudulent actions related to the performance of activities required by Section 18013.2, it shall consider the information in its monitoring efforts and make a determination about the validity of the alleged inadequacy in a timely manner.

(2) Where the department determines, either through its monitoring efforts or through information provided by any other person, that an approved third-party entity has failed to perform to the conditions of approval, the department may withdraw approval by forwarding written notice to the approved third-party entity by registered mail to its address of record, briefly summarizing the cause for the department's decision.

(3) A third-party entity upon having its approval withdrawn by the department, may request a hearing before the director of the department. The request for hearing shall be in writing and either delivered or postmarked prior to midnight on the 10th calendar day from the date of the department's notice.

(4) The department, upon timely receipt of a written request for hearing, shall, within 30 calendar days, schedule a hearing before the director or his or her agent. All hearings pursuant to this subdivision shall be held in the department's Sacramento offices and the decision of the director shall be final.

(5) A third-party entity whose approval has been withdrawn by the department shall not be permitted to reapply for the department's approval pursuant to subdivision (b) for a period of one year from the date the approval was withdrawn by the department.

(6) A third-party entity whose approval has been withdrawn more than once by the department shall not be permitted to reapply for department approval pursuant to subdivision (b) for a period of not less than one year from the date the department's approval was last withdrawn.

(7) No third-party entity shall perform the activities required by Section 18013.2 unless it has the approval of the department.

(e) (1) Upon finding a violation of subdivision (b) on the part of a third-party entity, the director shall issue citations and levy administrative fines. Each citation and fine assessment shall be in writing and describe the particulars for the citation. The citation and fine assessment shall be issued no later than six months after discovery of the violation.

(2) The fine for the first violation shall be at least five hundred dollars ($500) and shall not exceed one thousand dollars ($1,000), the fine for the second violation shall be at least two thousand dollars ($2,000) and not exceed four thousand dollars ($4,000), and the fine for the third violation shall be at least five thousand dollars ($5,000), and shall not exceed ten thousand dollars ($10,000). The fines shall be assessed for each day the violation occurs. If a third-party entity has been cited more than three times during a 365 day period, the approval to conduct inspections on behalf of the department shall be suspended for a minimum of one year.

(3) The third-party entity may request an administrative hearing on the citation or fine. If the party fails to request a hearing within 30 days, and does not pay the fine, the approval to perform inspections shall be automatically revoked, until such time as the department finds that the circumstances which led to the citation have been corrected and the fines have been paid.

(4) Upon review of the findings from the administrative hearing, the director may modify, rescind, or uphold the citation and fine assessment. The decision of the director shall be served by regular mail.

(5) The fines shall be paid into the Housing and Community Development Fund, which is hereby created in the State Treasury, and shall be used, when appropriated by the Legislature, to offset the department's costs to administer this part.

(f) The remedies provided in this part to any aggrieved party are not exclusive and shall not preclude the applicability of any other provision of law.

CHAPTER 1279

An act to add Section 31315 to the Public Resources Code, relating to coastal resources, and making an appropriation therefor.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) Major fishing harbors throughout California are part of the public trust and provide offloading facilities and onshore support facilities for both the commercial and recreational fishermen.

(b) The fishing industry has been an essential part of California's economy, providing an extensive base of employment and revenue for local governments. The commercial fishing industry provides viable trade opportunities for California as it expands export opportunities and tries to maintain a balance of trade.

(c) The infrastructure in commercial fishing harbors has deteriorated causing substandard and inefficient conditions that impede the industry's ability to compete with other fishing nations.

(d) This deterioration was documented in a survey of Commercial Fishing Facilities conducted by the State Coastal Conservancy in 1984 at the Legislature's request. The report recommended the injection of state resources to protect the livelihood of commercial fishing and coastal dependent industries that depend on safe and efficient harbor infrastructure.

(e) The state needs to act to make these infrastructure investments because it needs to prepare for the implementation of imminent federal sanitation inspection standards. Without these improvements, fishing harbors would not be able to meet new sanitation standards which may require mandatory inspections of seafood products similar to those in the poultry and meat industry.

(f) The consumption of seafood is rapidly increasing and the state has an interest in assuring the availability of seafood products that are safe and healthy for consumers.

(g) Infrastructure improvements in discharge methods will promote the state's interest in improving water quality in fishing harbors to protect marine ecology, and the supply and quality of seafood.

SEC. 2. Section 31315 is added to the Public Resources Code, to read:

31315. The conservancy, under its mandate for urban waterfront restoration, shall administer the distribution of state funds, when appropriated to the conservancy, for the improvement of the infrastructure of fishing harbors on public trust lands.

SEC. 3. (a) If Assembly Bill 1580 of the 1989–90 Regular Session of the Legislature is enacted on or before January 1, 1990, the

unencumbered balance of the appropriations provided in the following citations are reappropriated to the State Coastal Conservancy for the purpose of acquiring the Point Cabrillo Project:

(1) Subparagraph (Y) of paragraph (3) of subdivision (c) of Section 4 of Assembly Bill 1580 of the 1989–90 Regular Session.

(2) Subparagraph (FF) of paragraph (3) of subdivision (c) of Section 4 of Assembly Bill 1580 of the 1989–90 Regular Session.

(b) If Assembly Bill 1580 of the 1989–90 Regular Session of the Legislature is not enacted on or before January 1, 1990, the sum of two million dollars ($2,000,000) is hereby appropriated from the Public Resources Account of the Cigarette and Tobacco Products Surtax Fund to the State Coastal Conservancy for the purpose of acquiring the Point Cabrillo Project.

SEC. 4. The State Coastal Conservancy shall, from any non-general fund money available to it, allocate two million five hundred thousand dollars ($2,500,000) as follows:

(a) One million five hundred thousand dollars ($1,500,000) for the Otay River Valley Project,

(b) One million dollars ($1,000,000) for the San Francisco Bay Trail Project.

The conservancy may only allocate those funds which may constitutionally be used for those projects.

CHAPTER 1280

An act to amend Section 4904 of, and to add Section 3865 to, the Labor Code, and to amend Sections 2629 and 3253 of, and to repeal and add Section 2629.1 of, the Unemployment Insurance Code, relating to disability insurance, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 3865 is added to the Labor Code, to read.

3865. Any judgment or settlement of an action as provided for in this chapter is, upon notice to the court, subject to the same lien claims of the Employment Development Department as are provided for in Chapter 1 (commencing with Section 4900) of Part 3, and shall be allowed by the court as it determines necessary to avoid a duplication of payment as compensation to the employee for lost earnings.

SEC. 2. Section 4904 of the Labor Code is amended to read:

4904. If notice is given in writing to the insurer, or to the employer if uninsured, setting forth the nature and extent of any claim that is allowable as a lien, the claim is a lien against any amount

thereafter payable as compensation, subject to the determination of the amount and approval of the lien by the appeals board. In determining the amount of lien to be allowed for unemployment compensation disability benefits under subdivision (f) of Section 4903, the appeals board shall allow the lien in the amount of benefits which it finds were paid for the same day or days of disability for which an award of compensation for temporary disability indemnity is made and for which the employer has not reimbursed the Employment Development Department pursuant to Section 2629.1 of the Unemployment Insurance Code. In determining the amount of lien to be allowed for unemployment compensation benefits and extended duration benefits under subdivision (g) of Section 4903, the appeals board shall allow the lien in the amount of benefits which it finds were paid for the same day or days for which an award of compensation for temporary total disability is made. In the case of agreements for the compromise and release of a disputed claim for compensation, the applicant and defendant may propose to the appeals board, as part of the compromise and release agreement, an amount out of the settlement to be paid to any lien claimant claiming under subdivision (f) or (g) of Section 4903. If the lien claimant objects to the amount proposed for payment of its lien under a compromise and release settlement or stipulation, the appeals board shall determine the extent of the lien claimant's entitlement to reimbursement on its lien and make and file findings on all facts involved in the controversy over this issue in accordance with Section 5313. The appeals board may approve a compromise and release agreement or stipulation which proposes the disallowance of a lien, in whole or in part, only where there is proof of service upon the lien claimant by the defendant, not less than 15 days prior to the appeals board action, of all medical and rehabilitation documents and a copy of the proposed compromise and release agreement or stipulation. The determination of the appeals board, subject to petition for reconsideration and to the right of judicial review, as to the amount of lien allowed under subdivision (f) or (g) of Section 4903, whether in connection with an award of compensation or the approval of a compromise and release agreement, shall be binding on the lien claimant, the applicant, and the defendant, insofar as the right to benefits paid under the Unemployment Insurance Code for which the lien was claimed. The appeals board may order the amount of any lien claim, as determined and allowed by it, to be paid directly to the person entitled, either in a lump sum or in installments.

Where unemployment compensation disability benefits have been paid pursuant to the Unemployment Insurance Code while reconsideration of an order, decision, or award is pending, or has been granted, the appeals board shall determine and allow a final amount on the lien as of the date the board is ready to issue its decision denying a petition for reconsideration or affirming, rescinding, altering or amending the original findings, order,

decision, or award.

The appeals board shall not be prohibited from approving a compromise and release agreement on all other issues and deferring to subsequent proceedings the determination of a lien claimant's entitlement to reimbursement if the defendant in any of these proceedings agrees to pay the amount subsequently determined to be due under the lien claim.

SEC. 3. Section 2629 of the Unemployment Insurance Code is amended to read:

2629. (a) Except as provided in this section, an individual is not eligible for disability benefits under this part for any day of unemployment and disability for which he or she has received, or is entitled to receive, "other benefits" in the form of cash payments.

(b) "Other benefits," as used in this section and Section 2629.1, means:

(1) Temporary disability indemnity under a workers' compensation law of this state or of any other state or of the federal government.

(2) Temporary disability benefits under any employer's liability law of this state or of any other state or of the federal government.

(c) If the "other benefits" are less than the amount an individual would otherwise receive as disability benefits under this part, he or she shall be entitled to receive, for that day, if otherwise eligible, disability benefits under this part reduced by the amount of the "other benefits."

SEC. 4. Section 2629.1 of the Unemployment Insurance Code is repealed.

SEC. 5. Section 2629.1 is added to the Unemployment Insurance Code, to read:

2629.1. (a) Nothing in Section 2629 shall be construed to authorize the delay of payment of unemployment compensation disability benefits except where the claimant is currently in receipt of other benefits or where the department has received notice that the claimant's employer or insurer has agreed to commence the payment of other benefits.

(b) Notwithstanding Section 2701.5, payments shall commence within 14 days after notice to the employer or insurer under this section unless the employer or insurer has either paid or has agreed to commence the payment of other benefits.

(c) Upon the filing of a claim for unemployment compensation disability benefits, the department shall make an initial determination as to the claimant's entitlement to other benefits for purposes of Section 2629.

(1) The department shall notify the claimant and the claimant's employer if it determines that the claimant is entitled to other benefits.

(2) The notice to the claimant shall inform the claimant that disability benefits will be paid pending receipt of other benefits if the employer fails to agree to pay these other benefits within 14 days of

notification of industrial injury and shall advise the claimant of the provisions of Section 2629.

(3) The department shall also include with the claimant's notice a pamphlet to be provided by the Department of Industrial Relations which meets the criteria specified in subdivision (b) of Section 139.6 of the Labor Code.

(4) The notice to the employer shall constitute a claim for compensation and knowledge of an injury for purposes of Section 5402 of the Labor Code, and shall inform the employer of its potential liability for interest and penalties under this section.

(d) If the employer or the insurance carrier disputes liability for the payment of other benefits, or the extent thereof, the department's right to reimbursement shall be subject to the jurisdiction of the Workers' Compensation Appeals Board in accordance with Part 4 (commencing with Section 5300) of Division 4 of the Labor Code.

(e) An employer or insurance carrier who subsequently assumes liability or is determined to be liable for reimbursement to the department for unemployment compensation disability benefits which the department has paid in lieu of other benefits shall be assessed for this liability by the department. In addition, the employer shall pay the department interest on the disability benefits at the annual rate provided in Section 19269 of the Revenue and Taxation Code The employer shall also pay a penalty of 10 percent of the amount reimbursed to the department if the Workers' Compensation Appeals Board finds that the failure of the employer to pay other benefits upon notice by the department under this section was unreasonable and a penalty has not been awarded for the delay under Section 5814 of the Labor Code. All funds received by the department pursuant to this section shall be deposited in the Disability Fund.

(f) The employer shall reimburse the department in accordance with subdivision (e) within 60 days of either voluntarily accepting liability for other benefits or after a final award, order, or decision of the Workers' Compensation Appeals Board.

SEC. 6. Section 3253 of the Unemployment Insurance Code is amended to read:

3253. Except as provided in this part, an employee covered by an approved voluntary plan at the commencement of a disability benefit period, as defined in Section 2608, shall not be entitled to benefits from the Disability Fund. Benefits payable to such an employee shall be the liability of the approved voluntary plan under which the employee was covered at the commencement of the disability benefit period, regardless of any subsequent disabling condition which may occur during that disability benefit period. The Director of Employment Development shall prescribe authorized regulations to allow benefits to individuals simultaneously covered by one or more approved voluntary plans and the Disability Fund.

CHAPTER 1281

An act to amend Section 203.5 of the Labor Code, relating to wages.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 203.5 of the Labor Code is amended to read:

203.5. (a) If a bonding company issuing a bond which secures the payment of wages for labor or the surety on a bond willfully fails to pay, without abatement or reduction, any verified claim made for wages found to be due and payable, the claim for wages shall continue as a penalty against the bonding company or surety from the date on which demand for payment was made at the same rate until paid as the wages upon which the claim is based, except that the claim shall not continue as a penalty for more than 30 days.

(b) This section shall not apply to contractor's bonds required pursuant to Section 7071.6 of the Business and Professions Code.

CHAPTER 1282

An act to add Article 12 (commencing with Section 44666) to Chapter 3 of Part 25 of, and to add Sections 52049.1 and 54760.1 to, the Education Code, relating to education.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Article 12 (commencing with Section 44666) is added to Chapter 3 of Part 25 of the Education Code, to read:

Article 12. School-Based Management and Advanced Career Opportunities for Classroom Teachers Programs

44666. (a) The Legislature finds that a primary goal of every public school should be the creation of effective and productive learning environments for pupils. Increasing the educational effectiveness and productivity of public schools may require new ways of organizing instructional and adminstrative staff which increase the collective investment of all schoolsite educators in the success of their school. The Legislature also finds that innovation and change are frequently discouraged by undue administrative and organizational rigidity. The Legislature intends that the school

district's role in working with schoolsites be characterized by setting clear goals, providing sites the flexibility to achieve those goals, offering high quality technical assistance and support, and holding sites accountable for performance. The Legislature supports shifting from a rule-based system to a performance-based system of accountability. Those educators closest to pupils should be free, within limits, to create learning environments appropriate to their circumstances. The Legislature declares its intent not to diminish the leadership roles of school districts and site-level administrators. However, the Legislature does intend to encourage schools to foster more professional collaboration where teachers and principals, as an educational team, are responsible for creating the conditions that make more effective teaching and learning possible, and where schoolsite educators as a group have responsibility for the functioning and performance of their school.

It is the further intent of the Legislature to encourage and foster a shift in public school administration from a system that rigidly controls and directs what goes on at the next lowest level, to a system that guides and facilitates professionals in their quest for more productive learning opportunities for their pupils.

(b) The Legislature further finds and declares all of the following:

(1) Hierarchical decisionmaking has tended to reduce the effectiveness and productivity of teachers in educating pupils. A more collaborative decisionmaking process may result in more effective teaching and pupil learning.

(2) A true profession should offer individuals the opportunity for growth in their careers and in their professional lives.

(3) Professional growth brings with it additional responsibilities and accountability, and taking greater responsibility allows the professional to achieve enhanced status and higher salary, and to make a contribution to the profession.

(4) The current staffing structures and compensation structures in California school districts that emphasize seniority in setting teacher salaries and uniformity in teachers' roles do not adequately reward teaching excellence, exceptional achievement, or the assumption of additional educational responsibilities by teachers. Neither do they provide an incentive for teachers to continue to pursue excellence.

(5) The establishment of advanced career opportunities for teachers, in conjunction with greater teacher involvement in schoolsite management, should increase the variety and responsibility of a teacher's work. It should also provide: (A) a mechanism for restructuring salary schedules to recognize experience, additional work and responsibility; and (B) the opportunity for performance-based contracts with teachers or groups of teachers.

(6) Advanced career opportunities for teachers should also provide an incentive for teachers to remain in teaching, upgrade their skills, and improve the instructional program.

44667. (a) It is the intent of the Legislature to encourage school districts to plan and implement alternative models of school-based management projects, or advanced career opportunities for classroom teachers projects, or a combination of both, for one or more schools in the district. Further, it is the intent of the Legislature that school district governing boards and administrators work with classroom teachers and teacher bargaining units to develop and strengthen procedures that increase teachers' decisionmaking authority in responsibilities that affect their ability to teach. These procedures may include, but need not be limited to, the following:

(1) Selection of new teachers and administrators.

(2) Evaluation of teacher and administrator performance.

(3) Selection of curricular areas for improvement.

(4) Tailoring and coordination of curriculum and instruction across grade levels and within departments at the schoolsite level.

(5) Establishment of pupil discipline policies.

(6) Design and conduct of staff development programs and policies.

(7) Assignment of pupils and scheduling of classes

(8) Schoolwide problem solving and program development.

(9) Organization of the school for effective instruction.

(10) Development of procedures designed to institutionalize teacher involvement in decisionmaking.

(11) Determining the roles and functions of teachers, administrators, and classified employees at the school site.

(12) Development of alternative methods of teacher compensation that reward teaching excellence, exceptional achievement or the assumption of additional educational responsibilities.

(13) Establishment of policies to decentralize district decisionmaking by providing schoolsite administrators and teachers with greater budget authority including the allocation of fiscal, personnel, and other resources at the schoolsite.

(b) Participation of school discticts in the programs established pursuant to this article shall be on a voluntary basis. A school district shall be eligible to participate only upon the approval of participation by both the governing board of the district and the exclusive representative of certificated employees of the district.

44667.2. It is the intent of the Legislature that each school district's school-based management proposal shall include the following:

(a) A plan for involving parents in the planning, implementation, and evaluation of school restructuring efforts.

(b) A plan for staff development that shall be made available to participating school personnel in order to assist in restructuring elements specified in the district proposal.

(c) A plan for regularly assessing the progress of participating schools in meeting the goals identified in their funding proposal. Assessment plans shall include provisions for the collection of

information on various school-level indicators including pupil performance, detentions, pupil and teacher absenteeism, and staff turnover. Districts are encouraged, as well, to establish a process of onsite quality reviews with the objective of evaluating the quality of instruction, leadership, staff development, and the planning and decisionmaking processes at participating schools.

44668. (a) "Advanced career opportunities for classroom teachers" means a compensation system developed jointly by the governing board of a school district and the exclusive representative of certificated employees for one or more of the schools in the district that may include the following components:

(1) Extended contract days.

(2) Additional pay for additional duties or responsibilities.

(3) Differentiated staffing.

(4) Additional pay for meeting contracted performance goals.

(b) Each Advanced Career Opportunity Program shall include the following components:

(1) Fair selection procedures for job enlargement activities.

(2) An evaluation procedure developed jointly by the governing board of the district and the exclusive representative of certificated employees that provides for periodic, fair, objective, and consistent evaluation of educator performance for purposes of placement and career advancement.

(3) A plan for the periodic review of the district's Advanced Career Opportunity Program.

44669. Notwithstanding any other provision of law, for the purposes of implementing a program established pursuant to this article, the State Board of Education may waive any part, article, or section of this code or any regulation adopted by the State Board of Education that implements this code upon request by a governing board of a school district on a districtwide basis or on behalf of its schools or programs, if the governing board does both of the following:

(a) Provide written documentation that the exclusive representative of certificated employees concurs with the request. Failure of the exclusive representative of certificated employees to concur in the waiver request shall constitute cause for its denial.

(b) Demonstrate that the waiver request is necessary to implement the proposed pilot project.

SEC. 2. Section 52049.1 is added to the Education Code, to read:

52049.1. School improvement grants apportioned to school districts under this article for planning or implementation may be expended for the purposes of funding the School-Based Management and Advanced Career Opportunities for Classroom Teachers Programs authorized under Article 12 (commencing with Section 44666) of Chapter 3 of Part 25, provided that the plan developed pursuant to Section 52015 incorporates elements of these programs.

SEC. 3. Section 54760.1 is added to the Education Code, to read:

54760.1. Supplemental grants apportioned to school districts

under this article may be expended for the purposes of funding the School-Based Management and Advanced Career Opportunities for Classroom Teachers Pilot Programs authorized by Article 12 (commencing with Section 44666) of Chapter 3 of Part 25.

CHAPTER 1283

An act to amend Section 14031.10 of the Government Code, to add Section 21080.05 to the Public Resources Code, to add Section 99234.7 to the Public Utilities Code, and to repeal Section 10 of Chapter 1434 of the Statutes of 1988, relating to transportation.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1 Section 14031.10 of the Government Code is amended to read:

14031.10. For purposes of Sections 14031.8 and 14031.9:

(a) "Avoidable cost" means all costs associated with a particular service which would not be incurred if the service were not provided.

(b) "Operating costs" means all costs, exclusive of capital costs, amortization and depreciation costs, costs of demonstration projects of no more than two years duration designed to increase efficiency of operations and improve farebox ratios, and lease-with-an-option-to-purchase costs, associated with a particular service which would be incurred only if the service were provided.

(c) "Fare revenues" means the total revenues collected from the operation of a particular service and includes that portion of the local operating support for any existing commuter services funded under Section 14031.6 which exceeds the level of local operating support as required by the terms of any agreement in existence on January 1, 1986, between the department and local agencies.

SEC. 2. Section 21080.05 is added to the Public Resources Code, to read:

21080.05. This division does not apply to a project by a public agency to lease or purchase the rail right-of-way used for the San Francisco Peninsula commute service between San Francisco and San Jose, together with all branch and spur lines, including the Dumbarton and Vasona lines.

SEC. 3. Section 99234.7 is added to the Public Utilities Code, to read:

99234.7. (a) The Department of Transportation may negotiate and contract with the appropriate railroad corporation to provide passenger rail service between the City and County of San Francisco and the Counties of San Mateo and Santa Clara. In the process of

negotiating the contract, the department shall take into consideration the funding available and the level of service as it has been recommended by the Metropolitan Transportation Commission. Notwithstanding Section 14035 of the Government Code, the contract shall not extend beyond June 30, 1993. The California Transportation Commission shall allocate no funds pursuant to Section 14031.6 of the Government Code for this rail passenger service after the 1992–93 fiscal year. If the department enters into a contract, it shall, on or before July 1, 1992, assign the contract to the Peninsula Corridor Study Joint Powers Board or to another local or regional agency designated by the board which is authorized to operate or contract for the operation of rail passenger service, if the board or designated agency determines that the rail passenger service shall be continued. The department shall assign its operating subsidies for the 1992–93 fiscal year for that service to the board or that designated agency. Within the area of jurisdiction of the board, the board or that designated agency may acquire from the department all property owned or leased by the department for that rail passenger service, including, but not limited to, stations, facilities, equipment, and rights-of-way, and this transfer shall be consistent with the process defined in Section 160006. The California Transportation Commission shall not allocate state funds to purchase the San Francisco Peninsula commuter rail service right-of-way unless a local agency assumes operation and control of the commuter rail service on or before June 30, 1993. This section does not prohibit the commission from making a multiyear funding commitment to purchase the right-of-way subject to that assumption of operation and control occurring on or before that date.

(b) Notwithstanding subdivision (a), a transit district or county may negotiate and contract with the appropriate railroad corporation to provide passenger rail service which is to be primarily operated within its jurisdiction. Adjacent transit districts or counties may jointly negotiate and contract with the appropriate railroad corporation to provide passenger rail service which is to be primarily operated within their jurisdictions.

SEC. 4. Section 10 of Chapter 1434 of the Statutes of 1988 is repealed.

CHAPTER 1284

An act to amend Section 12022 of the Penal Code, relating to crime, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 12022 of the Penal Code is amended to read:

12022. (a) Except as provided in subdivisions (c) and (d), any person who is armed with a firearm in the commission or attempted commission of a felony shall, upon conviction of such felony or attempted felony, in addition and consecutive to the punishment prescribed for the felony or attempted felony of which he or she has been convicted, be punished by an additional term of one year, unless such arming is an element of the offense of which he or she was convicted. This additional term shall apply to any person who is a principal in the commission or attempted commission of a felony if one or more of the principals is armed with a firearm, whether or not such person is personally armed with a firearm.

(b) Any person who personally uses a deadly or dangerous weapon in the commission or attempted commission of a felony shall, upon conviction of such felony or attempted felony, in addition and consecutive to the punishment prescribed for the felony or attempted felony of which he or she has been convicted, be punished by an additional term of one year, unless use of a deadly or dangerous weapon is an element of the offense of which he or she was convicted.

When a person is found to have personally used a deadly or dangerous weapon in the commission or attempted commission of a felony as provided in this subdivision and the weapon is owned by that person, the court shall order that the weapon be deemed a nuisance and disposed of in the manner provided in Section 12028.

(c) Notwithstanding the enhancement set forth in subdivision (a), any person who is personally armed with a firearm in the commission or attempted commission of a violation of Section 11351, 11351.5, 11352, 11366.5, 11366.6, 11378, 11378.5, 11379, 11379.5, or 11379.6 of the Health and Safety Code, shall, upon conviction of that offense and in addition and consecutive to the punishment prescribed for the offense of which he or she has been convicted, be punished by an additional term of imprisonment in the state prison for three, four, or five years in the court's discretion. The court shall order the middle term unless there are circumstances in aggravation or mitigation. The court shall state the reasons for its enhancement choice on the record at the time of the sentence.

(d) Notwithstanding the enhancement set forth in subdivision (a), any person not personally armed with a firearm who, knowing

that another principal is personally armed with a firearm, is a principal in the commission or attempted commission of an offense specified in subdivision (c), shall, upon conviction of that offense, be punished by an additional term of one, two, or three years in the court's discretion. The court shall order the imposition of the middle term unless there are circumstances in aggravation or mitigation. The court shall state the reasons for its enhancement choice on the record at the time of sentencing.

(e) For purposes of imposing an enhancement under Section 1170.1, the enhancements under this section shall count as one, single enhancement.

(f) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in subdivision (c) or (d) in an unusual case where the interests of justice would best be served, if the court specifies on the record and enters into the minutes the circumstances indicating that the interests of justice would best be served by that disposition.

SEC. 2. Section 12022 of the Penal Code is amended to read:

12022. (a) (1) Except as provided in subdivisions (c) and (d), any person who is armed with a firearm in the commission or attempted commission of a felony shall, upon conviction of such felony or attempted felony, in addition and consecutive to the punishment prescribed for the felony or attempted felony of which he or she has been convicted, be punished by an additional term of one year, unless such arming is an element of the offense of which he or she was convicted. This additional term shall apply to any person who is a principal in the commission or attempted commission of a felony if one or more of the principals is armed with a firearm, whether or not such person is personally armed with a firearm.

(2) Except as provided in subdivision (c), and notwithstanding subdivision (d), if the firearm is an assault weapon, as defined in Section 12276, or a machinegun, as defined in Section 12200, the additional term described in this subdivision shall be three years whether or not the arming is an element of the offense of which he or she was convicted. The additional term provided in this paragraph shall apply to any person who is a principal in the commission or attempted commission of a felony if one or more of the principals is armed with an assault weapon or machinegun whether or not the person is personally armed with an assault weapon or machinegun.

(b) Any person who personally uses a deadly or dangerous weapon in the commission or attempted commission of a felony shall, upon conviction of such felony or attempted felony, in addition and consecutive to the punishment prescribed for the felony or attempted felony of which he or she has been convicted, be punished by an additional term of one year, unless use of a deadly or dangerous weapon is an element of the offense of which he or she was convicted.

When a person is found to have personally used a deadly or

dangerous weapon in the commission or attempted commission of a felony as provided in this subdivision and the weapon is owned by that person, the court shall order that the weapon be deemed a nuisance and disposed of in the manner provided in Section 12028.

(c) Notwithstanding the enhancement set forth in subdivision (a), any person who is personally armed with a firearm in the commission or attempted commission of a violation of Section 11351, 11351.5, 11352, 11366.5, 11366.6, 11378, 11378.5, 11379, 11379.5, or 11379.6 of the Health and Safety Code, shall, upon conviction of that offense and in addition and consecutive to the punishment prescribed for the offense of which he or she has been convicted, be punished by an additional term of imprisonment in the state prison for three, four, or five years in the court's discretion. The court shall order the middle term unless there are circumstances in aggravation or mitigation. The court shall state the reasons for its enhancement choice on the record at the time of the sentence.

(d) Notwithstanding the enhancement set forth in subdivision (a), any person not personally armed with a firearm who, knowing that another principal is personally armed with a firearm, is a principal in the commission or attempted commission of an offense specified in subdivision (c), shall, upon conviction of that offense, be punished by an additional term of one, two, or three years in the court's discretion. The court shall order the imposition of the middle term unless there are circumstances in aggravation or mitigation. The court shall state the reasons for its enhancement choice on the record at the time of sentencing.

(e) For purposes of imposing an enhancement under Section 1170.1, the enhancements under this section shall count as one, single enhancement.

(f) Notwithstanding any other provision of law, the court may strike the additional punishment for the enhancements provided in subdivision (c) or (d) in an unusual case where the interests of justice would best be served, if the court specifies on the record and enters into the minutes the circumstances indicating that the interests of justice would best be served by that disposition.

SEC. 3. Section 2 of this bill incorporates amendments to Section 12022 of the Penal Code proposed by both this bill and AB 357. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1990, but this bill becomes operative first, (2) each bill amends Section 12022 of the Penal Code, and (3) this bill is enacted after AB 357, in which case Section 12022 of the Penal Code, as amended by Section 1 of this bill, shall remain operative only until the operative date of AB 357, at which time Section 2 of this bill shall become operative.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to assure that criminal defendants are charged with

appropriate sanctions, it is necessary that this act take immediate effect.

CHAPTER 1285

An act to amend Sections 11100 and 11450 of, and to repeal and add Sections 11056 and 11266 of, the Welfare and Institutions Code, relating to public social services.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 11056 of the Welfare and Institutions Code is repealed.

SEC. 2. Section 11056 is added to the Welfare and Institutions Code, to read:

11056. (a) If the applicant is determined to be eligible, aid shall be granted from the date of application if the applicant meets all eligibility conditions on that date, or from the date on which the applicant meets all eligibility conditions, whichever is later. In any event, the beginning date of aid shall comply with federal requirements for aid programs covered under this section whether or not federal financial participation in the aid payment is available.

(b) This section shall include, but not be limited to, payments made under the Aid to Families with Dependent Children-Foster Care program.

SEC. 3. Section 11100 of the Welfare and Institutions Code is amended to read·

11100. For the purposes of the provisions of this code relating to public assistance, the continued absence of a recipient of public assistance from this state for a period of 60 days or longer shall be prima facie evidence of the intent of the recipient to have changed his or her residence to a place outside this state. The county granting the public assistance shall make inquiry from all recipients who have been continuously absent from this state for a period of 30 days, with the next assistance payment, so as to determine their intent to remain residents of California or to become residents of another state, and shall redetermine the residence of those persons. In any case where the inquiry made under this section establishes that the recipient is no longer a resident of this state, his or her aid shall be terminated immediately.

If a recipient is prevented by illness or other good cause from returning to this state at the end of 60 days, and has not by act or intent established residence elsewhere, residence shall not be deemed to have been lost in this state.

SEC. 4. Section 11266 of the Welfare and Institutions Code is

repealed.

SEC. 5. Section 11266 is added to the Welfare and Institutions Code, to read:

11266. (a) At the time of application, the county shall determine whether the applicant needs immediate assistance because the applicant does not have sufficient resources to meet his or her emergency needs, and shall determine whether the applicant is apparently eligible for aid under this chapter.

(1) The county shall determine that the applicant needs immediate assistance if the family's total available liquid resources, both nonexempt and exempt, are less than one hundred dollars ($100) and there is an emergency situation, whether foreseeable or not. Examples of emergency situations include, but are not limited to, lack of housing, lack of food, notice of termination or loss of utility service, lack of essential clothing (including diapers), and inability to meet essential transportation needs.

(2) Apparent eligibility exists when evidence presented by the applicant or which is otherwise available to the county welfare department and the information provided on the application documents indicate that there would be eligibility for aid under this chapter if the evidence and information were verified. An alien applicant who does not provide verification of his or her eligible alien status, or a woman with no eligible children who does not provide medical verification of pregnancy, shall not be considered to be apparently eligible under this subdivision.

(b) If an applicant needs immediate assistance, and is apparently eligible for aid as defined in subdivision (a), the county shall pay the applicant two hundred dollars ($200) or the maximum amount for which that applicant is eligible, whichever is less. The advance payment shall be made by the end of the first working day following the request for that aid. The county shall verify the applicant's eligibility for aid within 15 working days of the date that immediate need is requested, and advance payments made under this section shall be offset against the first grant payment made to the recipient.

(c) An applicant's receipt of a notice of eviction, including a three-day notice to pay or quit, shall constitute an emergency situation under subdivision (a), irrespective of the one hundred dollar ($100) resource test, if the applicant has insufficient income or resources to pay the rent owing. In those cases, the county shall give the applicant the option of receiving an immediate advance on the grant as described in subdivision (b), or an expedited determination of eligibility for aid. Before an applicant decides between these two options, the county shall fully apprise the applicant, in writing, of all information necessary to establish eligibility for aid. If an applicant requests expedited determination of eligibility for aid, the county shall complete the determination of eligibility for aid under this chapter, and, if the applicant is determined to be eligible, issue payment of the full prorated grant no more than three working days from the request for immediate need. If the eligibility determination

is not made within this three-day period, the county shall immediately pay the applicant two hundred dollars ($200) or the maximum amount for which the applicant is eligible, whichever is less, as specified in subdivisions (a) and (b). The county shall verify the applicant's eligibility within 15 working days of the date of the request for immediate assistance, and advance payments made under this subdivision shall be offset against the first grant payment made to the recipient.

(d) (1) The county may deny an immediate advance payment if the applicant's only immediate need is homelessness and this need will be met by issuance of nonrecurring special needs payment in accordance with subdivision (f) of Section 11450, or if the applicant's only immediate need is lack of food and this need will be met by issuance of food stamps within one working day of the request therefor. With regard to all other immediate needs, an advance payment may be denied and the applicant referred to another public or private program or resource, if all of the following conditions are met:

(A) Not more than one referral is made and the referral, when made, is to meet no more than one need.

(B) The county has verified in advance that the specific need can be satisfactorily addressed by the other program or resource immediately.

(C) Travel to the other program or resource will not impose a hardship on the applicant.

(2) If, for any reason, the other program or resource does not satisfactorily meet the applicant's need, the applicant shall be immediately issued an advance payment, as specified in subdivision (b).

(3) Except in the case of an applicant whose only need is lack of food and the need is met with the issuance of food stamps within one working day of the request, where an applicant's immediate need is met by an alternative program or resource authorized in this subdivision, the county shall verify the applicant's eligibility for aid within 15 working days of the date of request.

(e) A denial of an immediate need application shall not constitute a denial of the application for aid unless it is based upon the failure to meet relevant eligibility requirements.

SEC. 6. Section 11450 of the Welfare and Institutions Code is amended to read:

11450. (a) For each needy family which shall include all eligible brothers and sisters of each eligible applicant or recipient child and the parents of the children, but shall not include unborn children, or recipients of aid under Chapter 3 (commencing with Section 12000), qualified for aid under this chapter, there shall be paid, notwithstanding minimum basic standards of adequate care established by the department under Section 11452, an amount of aid each month which when added to the family's income, exclusive of any amounts considered exempt as income or (f) paid pursuant to

subdivision (e) or Section 11453.1, is equal to the sums specified in the following table, as adjusted for cost-of-living increases pursuant to Section 11453:

Number of eligible needy persons in the same home	Maximum aid
1	$ 258
2	424
3	526
4	625
5	713
6	802
7	880
8	959
9	1,036
10 or more	1,114

If, when, and during such times as the United States government increases or decreases its contributions in assistance of needy children in this state above or below the amount paid on July 1, 1972, the amounts specified in the above table shall be increased or decreased by an amount equal to that increase or decrease by the United States government, provided that no such increase or decrease shall be subject to subsequent adjustment pursuant to Section 11453.

(b) When the family does not include a needy child qualified for aid under this chapter, aid shall be paid to a pregnant mother in the amount which would otherwise be paid to one person as specified in subdivision (a) if the mother, and child if born, would have qualified for aid under this chapter. Verification of pregnancy shall be required as a condition of eligibility for aid under this subdivision.

(c) The amount of seventy dollars ($70) per month shall be paid to pregnant mothers qualified for aid under subdivision (a) or (b) to meet special needs resulting from pregnancy if the mother, and child, if born, would have qualified for aid under this chapter. County welfare departments shall refer all recipients of aid under this subdivision to a local provider of the Women, Infants and Children program. If that payment to pregnant mothers qualified for aid under subdivision (a) is considered income under federal law in the first five months of pregnancy, payments under this subdivision shall not apply to persons eligible under subdivision (a), except for the month in which birth is anticipated and for the three-month period immediately prior to the month in which delivery is anticipated, if the mother, and the child if born, would have qualified for aid under this chapter.

(d) For children receiving AFDC-FC under the provisions of this chapter, there shall be paid, exclusive of any amount considered

exempt as income, an amount of aid each month which when added to the child's income is equal to the rate specified in Section 11461, 11462, 11462.1, or 11463. In addition, the child shall be eligible for special needs, as specified in departmental regulations.

(e) In addition to the amounts payable under subdivision (a) and Section 11453 1, a family shall be entitled to receive an allowance for recurring special needs not common to a majority of recipients. These recurring special needs shall include, but not be limited to, special diets upon the recommendation of a physician for circumstances other than pregnancy, and unusual costs of transportation, laundry, housekeeping service, telephone, and utilities. The recurring special needs allowance for each family per month shall not exceed that amount resulting from multiplying the sum of ten dollars ($10) by the number of recipients in the family who are eligible for assistance.

(f) After a family has used all available liquid resources, both exempt and nonexempt, in excess of one hundred dollars ($100), the family shall also be entitled to receive an allowance for nonrecurring special needs.

(1) An allowance for nonrecurring special needs shall be granted for replacement of clothing and household equipment and for emergency housing needs other than those needs addressed by paragraph (2). These needs shall be caused by sudden and unusual circumstances beyond the control of the needy family. The department shall establish the allowance for each of the nonrecurring special need items. The sum of all nonrecurring special needs provided by this subdivision shall not exceed six hundred dollars ($600) per event.

(2) Homeless assistance is available to a homeless family seeking shelter when the family is eligible for aid under this chapter. Homeless assistance for temporary shelter is also available to homeless families which are apparently eligible for aid under this chapter. Apparent eligibility exists when evidence presented by the applicant or which is otherwise available to the county welfare department and the information provided on the application documents indicate that there would be eligibility for aid under this chapter if the evidence and information were verified. However, an alien applicant who does not provide verification of his or her eligible alien status, or a woman with no eligible children who does not provide medical verification of pregnancy is not apparently eligible for purposes of this section.

A family is considered homeless, for the purpose of this section, when the family lacks a fixed and regular nighttime residence; or the family has a primary nighttime residence that is a supervised publicly or privately operated shelter designed to provide temporary living accommodations; or the family is residing in a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

(A) A nonrecurring special need of thirty dollars ($30) a day shall

be available for up to three weeks to families for the costs of temporary shelter. County welfare departments may increase the daily amount available for temporary shelter to large families as necessary to secure the additional bed space needed by the family. This special need shall be granted or denied immediately upon the family's application for homeless assistance. The three-week limit shall be extended one week based upon good cause or other circumstances defined by the department. Good cause shall include, but is not limited to, situations in which the county welfare department has determined that the family, to the extent it is capable, has made a good faith but unsuccessful effort to secure permanent housing within the three week limit.

(B) A nonrecurring special need for permanent housing assistance is available to pay for last month's rent and security deposits when these payments are reasonable conditions of securing a residence.

The last month's rent portion of the payment (1) shall not exceed 80 percent of the family's maximum aid payment without special needs for a family of that size and (2) shall only be made to families that have found permanent housing costing no more than 80 percent of the family's maximum aid payment without special needs for a family of that size, in accordance with the maximum aid schedule specified in subdivision (a).

However, if the county welfare department determines that a family intends to reside with individuals who will be sharing housing costs, the county welfare department shall, in appropriate circumstances, set aside the condition specified in clause (2) of the preceding paragraph.

(C) The nonrecurring special need for permanent housing assistance is also available to cover the standard costs of deposits for utilities which are necessary for the health and safety of the family.

(D) A payment for or denial of permanent housing assistance shall be issued no later than one working day from the time that a family presents evidence of the availability of permanent housing. If an applicant family provides evidence of the availability of permanent housing before the county welfare department has established eligibility for aid under this chapter the county welfare department shall complete the eligibility determination so that the denial of or payment for permanent housing assistance is issued within one working day from the submission of evidence of the availability of permanent housing, unless the family has failed to provide all of the verification necessary to establish eligibility for aid under this chapter.

(E) Eligibility for the temporary shelter assistance and the permanent housing assistance pursuant to paragraph (2) is limited to once every 12 months.

(F) The county welfare departments, and all other entities participating in the costs of the AFDC program, have the right in their share to any refunds resulting from payment of the permanent

housing. However, if an emergency requires the family to move within the 12-month period specified in subparagraph (E), the family shall be allowed to use any refunds received from its deposits to meet the costs of moving to another residence.

(G) Payments to providers for temporary shelter and permanent housing and utilities shall be made on behalf of families requesting these payments.

(H) The daily amount for the temporary shelter special need for homeless assistance may be increased if authorized by the current year's Budget Act by specifying a different daily allowance and appropriating the funds therefor.

(g) The department shall establish rules and regulations assuring the uniform application statewide of the provisions of this subdivision.

(h) The department shall notify all applicants and recipients of aid through the standardized application form that these benefits are available and shall provide an opportunity for recipients to apply for the funds quickly and efficiently.

(i) Except for the purposes of Section 15200, the amounts payable to recipients pursuant to Section 11453.1 shall not constitute part of the payment schedule set forth in subdivision (a) of this section.

The amounts payable to recipients pursuant to Section 11453.1 shall not constitute income to recipients of aid under this section.

SEC. 7. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, the Director of Social Services shall adopt emergency regulations to implement this act. The emergency regulations shall remain in effect for no more than 120 days unless the department complies with all provisions of Chapter 3.5 (commencing with Section 11340) as required by subdivision (e) of Section 11346.1 of the Government Code.

SEC. 8. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 9. This act shall become operative 30 days following approval by the Superior Court for the County of Sacramento of the consent decree for Welfare Recipients League, Inc., et al v. McMahon, Case No. 268972, but in no event earlier than July 1, 1990.

CHAPTER 1286

An act to add Section 782 to the Financial Code, relating to financial institutions.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 782 is added to the Financial Code, to read:

782. Notwithstanding Section 1335, a bank may invest in shares of an investment company (1) registered with the Securities and Exchange Commission pursuant to the federal Investment Company Act of 1940, as amended (15 U.S.C. Sec. 80a-1 et seq.) and for which the shares are registered under the federal Securities Act of 1933, as amended (15 U.S.C. Sec. 77a et seq.), and (2) the portfolio of which consists solely of the following:

(a) Debt obligations in which a bank is permitted to invest without limitation pursuant to subdivision (a), (b), (c), or (d) of Section 1336 and repurchase agreements fully collateralized by those obligations.

(b) Loans of federal funds and similar loans of unsecured day(s) funds, maturing in six months or less to institutions insured by the Federal Deposit Insurance Corporation or Federal Savings and Loan Insurance Corporation [Federal Funds]. Loans under this subdivision are limited to transactions described in subsection (a) or (b) of Section 32.102 of Title 12 of the Code of Federal Regulations involving investment companies in which the entire beneficial interest is held exclusively by depository institutions, as permitted by Section 204.123 of Title 12 of the Code of Federal Regulations.

The superintendent may, by regulation, prescribe further conditions respecting investment by banks under this section as may be necessary for the safety or soundness of banks or as may otherwise be in the public interest.

CHAPTER 1287

An act to add and repeal Division 26 (commencing with Section 35100) of the Public Resources Code, relating to the Santa Clara County Open-Space Authority.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Division 26 (commencing with Section 35100) is

added to the Public Resources Code, to read:

DIVISION 26. SANTA CLARA COUNTY OPEN-SPACE AUTHORITY

CHAPTER 1. GENERAL PROVISIONS

35100. This division shall be known and may be cited as the Santa Clara County Open-Space Authority Act.

35101. The Legislature hereby finds and declares all of the following:

(a) In Santa Clara County, open-space preservation and creation of a greenbelt are immediate high priorities needed to counter the continuing and serious conversion of these lands to urban uses, to preserve the quality of life in the county, and to assist in the retention of agricultural activities.

(b) In order to deal in an expeditious manner with the current serious loss of these properties, the county needs to develop and implement a local funding program involving properties occupied for urban purposes which give rise to the need for open-space preservation that goes significantly beyond current existing funding which is not adequate to resolve these losses.

(c) It is in the public interest to allow the voters of Santa Clara County to create the Santa Clara County Open-Space Authority so that local open-space preservation and greenbelting decisions can be implemented in a timely manner to provide for the acquisition and maintenance of these properties.

35102. "Agricultural activity" has the same meaning as "agricultural activity, operation, or facility, or appurtenances thereof" as defined in subdivision (e) of Section 3482.5 of the Civil Code.

35103. "Authority" means the Santa Clara County Open-Space Authority created pursuant to this division in the County of Santa Clara.

35104. "Board of supervisors" means the Santa Clara County Board of Supervisors.

35105. "County" means the County of Santa Clara.

35106. "Developed parcel" means any parcel of land used or to be used for a developed purpose.

35107. "Developed purpose" means the use of a parcel of land for a residential, industrial, or commercial purpose.

35108. "Governing board" means the governing body of the authority or the interim governing board pursuant to Section 35123, as appropriate.

35109. If the electors do not approve the imposition of the special tax provided for by Chapter 5 (commencing with Section 35170), this division is repealed as of the date that the county certifies the election results to the Secretary of State and the authority is abolished on that date.

35110. Any action to determine the validity of the organization or of any action of the authority, including the validity of its bonds, shall be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure.

CHAPTER 2. CREATION OF THE OPEN-SPACE AUTHORITY

35120. The Santa Clara County Open-Space Authority is hereby created on February 1, 1990. The maximum jurisdiction of the authority shall include all areas within the county, except those areas of the county presently within the boundaries of the Mid-Peninsula Regional Open-Space District. Each city situated within the maximum jurisdictional boundaries shall pass a resolution stating its intent to be included within the authority's jurisdiction by January 15, 1990. These resolutions shall be transmitted to the board of supervisors. Any city which fails to pass that resolution or which formally states its intent to not participate shall be excluded from the authority's jurisdiction. The creation of the authority is not subject to review by the Santa Clara County Local Agency Formation Commission.

35121. (a) If, after the establishment of the authority's boundaries pursuant to Section 35120, territory within the authority is annexed to a city which is outside the authority, that territory may be detached from the authority pursuant to the Cortese-Knox Local Government Reorganization Act of 1985 (Division 3 (commencing with Section 56000) of Title 5 of the Government Code).

(b) If, after the establishment of the authority's boundaries pursuant to Section 35120, a city which is outside the authority's jurisdiction desires to be included within the authority's jurisdiction, the city council shall call an election on that question and place before its voters an ordinance which is substantially similar to the special tax ordinance approved pursuant to Chapter 5 (commencing with Section 35170). If two-thirds or more of the city's voters voting on the measure approve the ordinance, the city council shall notify the governing board which shall promptly adopt a resolution including the city within the authority's boundaries.

35122. Until the election of the governing board pursuant to Section 35123, the authority shall be governed by an interim governing board consisting of five members as follows:

(a) Three members appointed by the board of supervisors as follows:

(1) One member of the board of supervisors, whose supervisorial district is situated in part within the boundaries of the authority.

(2) Two members who are council members from the cities in the jurisdiction of the authority other than the City of San Jose and who are selected with the advice and consent of the city council on which they are members. The two members shall not be from the same city and, in an effort to achieve the broadest representation within the boundaries of the authority, shall be, where possible, from cities

which are not within the supervisorial district of the supervisor who is a member of the governing board.

(b) Two members appointed by the City Council of the City of San Jose, who are members of that council.

35123. (a) The interim governing board shall conduct the business of the authority and shall have all powers of the governing board until the election of the governing board.

(b) The interim governing board shall establish five or seven districts for the election of members of the governing board and shall adopt procedures for the election of members of the governing board for terms of four years. The election shall be conducted in the same manner as for elections in the county, and shall be held concurrently with the first statewide election following approval by the voters of a special tax adopted pursuant to Section 35171.

(c) Upon the election and qualifications of the members of the governing board pursuant to subdivision (b), the interim governing board is abolished.

(d) Notwithstanding subdivision (b), the members of the governing board elected at the first election of the authority shall meet as soon as practicable after taking office and shall classify themselves by lot into two classes, as nearly equal in number as possible. The terms of office of the class having the greater number shall be four years and the terms of office of the class having the lesser number shall be two years. Thereafter, all terms shall be for four years.

(e) Any vacancy on the governing board which occurs prior to the expiration of a term of office shall be filled by the governing board. However, the governing board, by resolution, may declare its intention to hold an election to fill a vacancy. Any election to fill a vacancy shall be held in the same manner as for elections in the county.

35124. Each member of the governing board may receive compensation in an amount set by the governing board, not to exceed seventy-five dollars ($75), for attending each meeting of the governing board. The number of meetings for which a member of the governing board may receive compensation shall not exceed two meetings in any calendar month.

CHAPTER 3. ADMINISTRATION

35130. (a) The governing board at its first meeting, and thereafter annually at the first meeting in January, shall select a chairperson who shall preside at all meetings and a vice chairperson who shall preside in his or her absence. In the event of their absence or inability to act, the members present, by an order entered in the minutes, shall select one of their members to act as chairperson pro tempore, who, while so acting, has all of the authority of the chairperson.

(b) The first meeting of the governing board shall be held on or

before February 15, 1990. Notwithstanding Section 35125 or any other provision of this division, no compensation shall be paid to members of the governing board, and no other expenses shall be incurred by the authority, prior to the date the county certifies to the Secretary of State that the voters have approved the special tax specified in Section 35171.

(c) The county or cities within the authority's boundaries may provide or lend staff, telephones, supplies, or equipment to the authority. The authority may reimburse the county or cities for anything provided under this subdivision from the special tax revenues if the special tax ordinance is approved by the voters.

35131. The governing board shall adopt rules for its proceedings consistent with the law of the state.

35132. A majority of the members of the governing board constitute a quorum for the transaction of business. All official acts of the authority require the affirmative vote of a majority of the members of the governing board, unless otherwise provided in this division.

35133. The acts of the authority shall be expressed by motion, resolution, or ordinance of its governing board.

35134. All meetings of the governing board shall be conducted pursuant to Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code.

35135. The governing board shall do all of the following:

(a) Adopt an annual budget following the public hearing required under Section 35136, hire an independent staff of its own, and fix the compensation of its officers and employees.

(b) Adopt an administrative code, by ordinance, which prescribes the powers and duties of the authority officers, the method of appointment of the authority's employees, and methods, procedures, and systems of operation and management of the authority.

(c) Cause a postaudit of the financial transactions and records of the authority to be made at least annually by a certified public accountant.

(d) Prepare and submit a report to the board of supervisors and to the city council of each city in the authority's jurisdiction on or before January 1 of each year after the special tax is imposed. The report shall evaluate and report the progress made during the preceding fiscal year in the implementation of the expenditure plan adopted pursuant to Section 35176.

(e) Do any and all things necessary to carry out the purposes of this division.

35136. (a) Notice of the time and place of the public hearing for the adoption of the annual budget shall be published pursuant to Section 6061 of the Government Code, and shall be published not later than 30 days prior to the date of the hearing.

(b) The proposed annual budget shall be available for public inspection at least 30 days prior to the hearing.

35137. The authority may enter into a contract with the Board of

Administration of the Public Employees' Retirement System to include the employees of the authority in that retirement system who are eligible for membership therein, and the employees shall be entitled to the same benefits as state employees pursuant to Part 5 (commencing with Section 22751) of Division 5 of Title 2 of the Government Code.

CHAPTER 4. POWERS AND FUNCTIONS

35150. The authority may adopt a seal and alter it at its pleasure.

35151. The authority may sue and be sued, except as otherwise provided by law, in all actions and proceedings, in all courts and tribunals of competent jurisdiction.

35152. The authority may take by grant, appropriation, purchase, gift, devise, condemnation, or lease, and may hold, use, enjoy, and lease or dispose of real and personal property of every kind, and rights in real and personal property, within the authority's jurisdiction, necessary to the full exercise of its powers. The authority may accept and hold open-space easements and purchase development credits.

Priority for open-space acquisition should be focused on those lands closest, most accessible, and visible to the urban area. The remote ranchlands east of the westernmost ridgeline of the Diablo Range shall be acquired as permanent open-space only through conservation easement purchases or the granting of lands or conservation easements by owners to the authority.

Lands subject to the grant of an open-space easement executed and accepted by the authority in accordance with this division are enforceably restricted within the meaning of Section 8 of Article XIII of the California Constitution. An easement or other interest in real property may be dedicated for open-space purposes by the adoption of a resolution by the governing board, and any interest so dedicated may be conveyed only as provided in this section.

The authority may not validly convey any interest in any real property actually dedicated and used for open-space purposes without the consent of a majority of the voters of the authority voting at a special election called by the governing board and held for that purpose. Consent need not first be obtained for a lease of any real property for a period not exceeding 25 years if that real property remains in open-space use for the entire duration of the lease.

35153. The authority may exercise the right of eminent domain to take any property necessary or convenient to accomplish the purposes of this division, except that it may not take lands in active ranching, lands in agricultural production, or lands in timberland production zones which are not threatened by imminent conversion to developed uses. Furthermore, the authority shall not acquire any interest in real property by eminent domain unless the real property is contiguous to real property which is already owned by a public agency for open-space use. The right of eminent domain may only

be exercised upon the approval of a four-fifths vote of the governing board. If the property owner objects to the acquisition of his or her property by eminent domain, the property owner may, within 30 days of the governing board's vote, file a written objection with the legislative body of the city or county in which the property is located. If the property is located in more than one city or in the county and one or more cities, the property owner shall file his or her objection with the legislative body of the city or county which includes the larger portion of the property. If the property owner files a timely written objection, the legislative body shall consider the objection at a public hearing to be held within 45 days of its receipt. If the legislative body of a city upholds by a two-thirds vote, or the legislative body of a county upholds by a majority vote, the objection by determining that the acquisition is not in the best interests of the public within the authority's jurisdiction, the authority shall not exercise its right of eminent domain on that property.

35154. The authority may, upon a four-fifths vote of the governing board and after holding a public hearing pursuant to Section 6061 of the Government Code, exchange any real property dedicated and used for open-space purposes for real property that the governing board determines to be of equal or greater value and is necessary to be acquired for open-space purposes.

35155. All property acquired by the authority shall be properly maintained in a reasonable fashion consistent with the natural conditions existing upon the properties, and those properties immediately surrounding it. This maintenance obligation does not hold the authority to a higher standard of care, but is simply a statement of a basic function of the authority.

35156. The authority may plan, adopt, lay out, plant, develop, and otherwise improve, extend, control, operate, and maintain lands, trails, natural areas, and other facilities for public recreation or agricultural activities. The authority may impose fees for the utilization of its properties which do not exceed the cost of providing services.

35157. All claims for money or damages against the authority are governed by Division 3.6 (commencing with Section 810) of Title 1 of the Government Code, except as provided in this division or by other statutes or regulations expressly applicable to this division.

35158. The authority may accept funds or donations from any public or private source for the purposes of acquisition of open-space lands or for projects which are in furtherance of the authority's open-space or greenbelting objectives within its jurisdiction. The authority may seek government grants and private donations.

35159. (a) The authority may contract with any person or public agency for any services, supplies, equipment, or materials, or for the construction or completion of any building, structure, or improvement.

(b) When a contract for any services, supplies, equipment, or materials, except for legal, architectural, or appraisal services,

exceeds ten thousand dollars ($10,000), it shall be contracted for and let to the lowest responsible bidder. If two or more bids are the same and the lowest, the governing board may accept the one it chooses. Contracts of fifty thousand dollars ($50,000) or less may be let by informal bidding procedures, but contracts of more than fifty thousand dollars ($50,000) shall be let by formal bidding procedures.

(c) The notice inviting bids shall set a date for the opening of bids. The first publication or posting of the notice shall be at least 10 days before the date of opening the bids. Notice shall be published at least twice, at least five days apart, in a newspaper of general circulation in the authority, or if there is none, it shall be posted in at least three public places in the authority. The notice shall distinctly state the nature of the contract.

(d) The governing board may reject any bids. If the governing board rejects all bids, it may either readvertise or adopt a resolution, by four-fifths vote, declaring that the contract can be performed more economically by the authority's employees or obtained at a lower price in the open market. Upon adoption of the resolution, the governing board may undertake the project without further complying with subdivisions (b) and (c).

(e) If bids are not received, the governing board may undertake the project without further complying with subdivisions (b) to (d), inclusive.

(f) In the case of an emergency, the governing board may adopt a resolution by a two-thirds vote of all the members of the governing board declaring that the public interest and necessity demand immediate expenditure of public money to safeguard life, health, or property. The governing board may expend any sum required in the emergency without submitting the expenditure to bid.

CHAPTER 5. SPECIAL TAX AND BOND ISSUANCE AUTHORIZATION

35170. The Legislature, by the enactment of this chapter, intends that the authority use any funds provided by this chapter to supplement existing local revenues being used for open-space acquisition, preservation, or maintenance purposes. The county and the cities within the jurisdiction of the authority are further encouraged to maintain their existing commitment of local funds for these purposes.

35171. (a) After complying with the requirements of subdivision (b), the governing board may, following notice and public hearing, propose by ordinance the adoption of a special tax for the purposes of the authority, in accordance with Section 35177. The proposition shall be submitted to the voters of the authority pursuant to Section 35173 and, upon the approval of two-thirds of the votes cast by voters voting upon the proposition, the authority may levy the tax.

(b) Before the governing board adopts the ordinance pursuant to subdivision (a), it shall first obtain resolutions of approval of the proposed special tax from a majority of the cities which also include

a majority of the population within the boundaries of the authority.

35172. The authority, in the ordinance, shall state each of the following:

(a) The nature of the special tax to be imposed.

(b) The maximum amount of tax to be imposed on the owner of each developed parcel, or separate categories of owners of developed parcels based upon their partially developed use of the parcels, except that the maximum rate that may be imposed on any owner may not exceed eighty dollars ($80) for each developed parcel.

(c) That the revenues derived from the special tax will be placed in the authority's general fund.

35173. (a) The county shall conduct an election called by the board of supervisors pursuant to Section 35171, and the authority shall reimburse the county for its cost in conducting the election, except that if the special tax is not approved by the electors and the authority is abolished, the county shall pay the cost of the election.

(b) The election shall be called and conducted in the same manner as provided by law for the conduct of elections by a county.

(c) The authority may enter into an agreement with the county tax collector for the collection of any special tax approved pursuant to this chapter at the same time and in the same manner as county taxes are collected. All laws applicable to the levy, collection, and enforcement of county taxes are applicable to the special tax. The amount of compensation to be paid the county for the collection of the special tax shall be provided in the agreement between the authority and the county tax collector, but shall not exceed the reasonable costs of the services provided.

35174. (a) The special tax ordinance shall be applicable for the tax year in which the special tax ordinance is approved by the voters.

(b) Prior to the effective date of the ordinance, the authority may contract with the county to perform all functions incident to the administration and operation of the authority.

35175. (a) The revenues from taxes imposed pursuant to this chapter may be allocated by the authority for the administration of this division, including legal actions related thereto, and for acquisition, preservation, or maintenance of open-space and greenbelt areas only.

(b) A minimum of 80 percent of the net revenue from the area of the city shall be spent on open-space acquisition, preservation, or maintenance within the sphere of influence of that city.

(c) Of the amount allocated to a city pursuant to subdivision (b), not more than 15 percent of the net revenue from the area of the city may be utilized for open-space acquisition, preservation, or maintenance within the city's urban service area, as defined in Section 56080 of the Government Code.

(d) Subdivisions (b) and (c) do not apply in the case of any city whose urban service area boundaries are identical to its sphere of influence boundaries. In the case of such a city, a minimum of 80

percent of the net revenue from the area of the city shall be spent on open-space acquisition, preservation, or maintenance within the urban service area of the city.

(e) The governing board may, by a four-fifths vote, modify or eliminate any provision of subdivisions (a) to (d), inclusive.

(f) As used in this section, "net revenue from the area of the city" means the revenue generated from the special tax levied pursuant to this division on developed parcels located within a participating city's sphere of influence, as defined in Section 56076 of the Government Code, and implemented by the Santa Clara County Local Agency Formation Commission pursuant to Chapter 4 (commencing with Section 56425) of Part 2 of Division 1 of Title 6 of the Government Code, together with interest on that revenue, after deduction of the proportional share of the authority's administrative, operational, and maintenance expenses.

35176 (a) The authority shall review and assess the needs for acquisition, preservation, or maintenance of open-space lands. As part of this review and assessment, the authority shall solicit proposals from the cities in the county within the boundaries of the authority and from a citizens' advisory committee, the membership of which shall be determined by the authority based upon criteria which provides a broad representation of interests within the authority's jurisdiction. The authority shall adopt a procedure for evaluating these proposals in consultation with the cities and the citizens' advisory committee in the authority's jurisdiction.

(b) Based on the evaluation, the authority shall prepare a plan for the expenditure of the revenues expected to be derived from the special tax provided by this chapter, together with other federal, state, local, and private improvements, and funding.

(c) In addition to acquisition, preservation, or maintenance of open-space lands, the expenditure plan shall also include projections of revenues likely to be available in the next five years for capital, maintenance, and operational purposes. The expenditure plan shall be periodically reviewed and amended. Before adoption or amendment of an expenditure plan, the authority shall conduct public hearings on that plan. No expenditure for open-space lands shall occur until the initial five-year expenditure plan is approved.

35177. The authority, subject to approval of the voters, as provided in Section 35171, may impose an special tax in accordance with the requirements and limitations in Section 35172. Owners of developed parcels which are subject to contracts under the Williamson Act (Chapter 7 (commencing with Section 51200) of Division 1 of Title 5 of the Government Code) shall be subject to a reduced tax rate.

35178. The board of supervisors, as part of the ballot proposition to approve the imposition of a special tax, shall seek authorization to issue bonds payable solely from the proceeds of the tax up to a specified dollar amount.

35179. (a) The bonds authorized by the voters concurrently with

the approval of the special tax may be issued by the authority at any time, and from time to time, payable solely from the proceeds of the tax. The bonds may be secured by a pledge of revenues from the proceeds of the special tax and may be known as limited tax bonds.

(b) The pledge of special taxes to the bonds authorized under this chapter has priority over the use of any of the special taxes for "pay-as-you-go" financing, except to the extent that priority is expressly restricted in the resolution authorizing the issuance of the bonds.

35180. (a) Bonds shall be issued pursuant to a resolution adopted at a public hearing for which notice has been provided pursuant to Section 6061 of the Government Code, by the authority by a four-fifths vote of the governing body.

(b) The authority shall authorize the issuance of bonds by resolution, which shall specify all of the following:

(1) The purposes for which the bonds are to be issued

(2) The maximum principal amount of the bonds.

(3) The maximum term for the bonds.

(4) The maximum rate of interest to be payable upon the bonds. This rate shall not exceed the maximum rate permitted by Section 53531 of the Government Code or any other applicable provision of law

(5) The maximum discount on the sale of the bonds. The bonds shall not be sold at less than 95 percent of the principal amount in the manner determined by the authority.

(6) The conditions under which the bonds may be called or redeemed, including the amount of any redemption premium.

(c) Each resolution shall provide for the issuance of bonds in the amounts as may be necessary, until the full amount of the bonds authorized has been issued. The full amount of bonds may be divided into two or more series with different dates of payment fixed for the bonds of each series. A bond need not mature on its anniversary date.

35181. Delivery of any bonds may be made at any place either inside or outside the state, and the purchase price may be received in cash or bank credits.

35182. All accrued interest and premiums received on the sale of bonds shall be placed in the fund to be used for the payment of principal of and interest on the bonds, and the remainder of the proceeds of the bonds shall be placed in the treasury of the authority and applied to secure the bonds or for the purposes for which the debit was incurred. However, when the purposes have been accomplished, any money remaining shall be either transferred to the fund to be used for the payment of principal of and interest on the bonds, or placed in a fund to be used for the purchase of outstanding bonds of the authority from time to time in the open market at prices and in the manner, either at public or private sale or otherwise, as determined by the authority. Bonds so purchased shall be canceled immediately.

35183. (a) The authority may provide for the issuance, sale, or exchange of refunding bonds to redeem or retire any bonds issued by the authority upon the terms, at the times and in the manner which it determines.

(b) Refunding bonds may be issued in a principal amount sufficient to pay all, or any part of, the principal of the outstanding bonds, the premiums, if any, due upon call and redemption thereof prior to maturity, all expenses of the refunding, and either of the following:

(1) The interest upon the refunding bonds from the date of sale to the date of payment of the bonds to be refunded out of the proceeds of the sale of the refunding bonds, or to the date upon which the bonds to be refunded, will be paid pursuant to call or agreement with the holders of the bonds.

(2) The interest upon the bonds to be refunded from the date of sale of the refunding bonds to the date of payment of the bonds to be refunded or to the date upon which the bonds to be refunded will be paid pursuant to call or agreement with the holders of the bonds.

(c) The provisions of this chapter for the issuance and sale of bonds apply to the issuance and sale of refunding bonds.

35184. The authority may borrow money and incur indebtedness pursuant to Article 7 (commencing with Section 53280), Article 7.5 (commencing with Section 53480), Article 7.6 (commencing with Section 53850), and Article 7.7 (commencing with Section 53859), of Chapter 4 of Part 1 of Division 2 of Title 5 of the Government Code.

35185. Any bonds issued under this chapter are legal investment for all trust funds; for the funds of insurance companies, commercial and savings banks, and trust companies; and for state school funds. Whenever any money or funds may, by any law now or hereafter enacted, may be invested in bonds of cities, counties, school districts, or other districts within the state, that money or funds may be invested in the bonds issued under this chapter, and whenever bonds of cities, counties, school districts, or other districts within this state may, by any law or hereafter enacted, be used as security for the performance of any act or the deposit of any public money, the bonds issued under this chapter may be so used. The provisions of this chapter are in addition to all other laws relating to legal investments and shall be controlling as the latest expression of the Legislature with respect thereto.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1288

An act to amend Sections 21600, 21604, 21605, 21606, 21607, and 21608 of, and to add Sections 21606.5 and 21609 to, the Business and Professions Code, relating to junk dealers and recyclers.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that there has been an alarming increase in the theft and resale of personal property made from aluminum, such as irrigation pipe, sprinkler heads, highway signs, and highway guard rails, and that the burden of those losses have fallen upon both private individuals and the public. The Legislature further finds that junk dealers are currently required to obtain certain identifying information when they acquire those kinds of items, but that persons engaged in the aluminum recycling industry are not required to do so.

The Legislature finds that the requirement of identifying the source of junk acquired by junk dealers deters the theft of personal property for profit Therefore, it is the intent of the Legislature to require persons engaged in the business of recycling of junk to be subject to the same information collection requirements as junk dealers.

SEC. 2. Section 21600 of the Business and Professions Code is amended to read:

21600. As used in this article, "junk" means any and all secondhand and used machinery and all ferrous and nonferrous scrap metals and alloys, including any and all secondhand and used furniture or other personal property, other than livestock, or parts or portions thereof.

As used in this section, "scrap metals and alloys" includes, but is not limited to, materials and equipment commonly used in construction, agricultural operations and electrical power generation, railroad equipment, oil well rigs, nonferrous materials, stainless steel, and nickel which are offered for sale to any junk dealer or recycler, but does not include scrap iron, household generated waste, or aluminum beverage containers, as defined in Chapter 2 (commencing with Section 14502) of Division 12.1 of the Public Resources Code.

SEC. 3. Section 21604 of the Business and Professions Code is amended to read:

21604. Except as otherwise provided in this article, this article does not apply to:

(a) Any person who buys or sells junk acquired in the conduct of any business other than that of a junk dealer.

(b) Those purchases of scrap metal by a junk dealer when the

payment for the scrap metal is by check issued to the company represented as being the owner of the scrap.

(c) Scrap metal purchased or received from another junk dealer or recycler who has recorded, reported, and held the material as required. The purchase or receipt shall also be exempt from further holding or reporting provided that the selling party gives the buyer written assurance of this fact. The seller shall be held responsible for any failure to report or hold.

SEC. 4. Section 21605 of the Business and Professions Code is amended to read:

21605. (a) Every junk dealer and every recycler in this state is hereby required to keep a written record of all sales and purchases made in the course of his or her business.

(b) For purposes of this article, "recycler" means any processor, recycling center, or noncertified recycler, as those terms are defined in Chapter 2 (commencing with Section 14502) of Division 12.1 of the Public Resources Code, who buys or sells scrap metal that constitutes junk, as defined in Section 21600.

SEC. 5. Section 21606 of the Business and Professions Code is amended to read:

21606. (a) Every junk dealer and every recycler shall set out in the written record required by this article all of the following:

(1) The place and date of each sale or purchase of junk made in the conduct of his or her business as a junk dealer or recycler.

(4) A description of the item or items of junk purchased or sold, including the item type and quantity, and identification number, if visible.

(5) A statement indicating either that the seller of the junk is the owner of it, or the name of the person he or she obtained it from, as shown on a signed transfer document.

(b) Any person who makes, or causes to be made, any false or fictitious statement regarding any information required by this section, is guilty of a misdemeanor.

SEC. 6. Section 21606.5 is added to the Business and Professions Code, to read:

21606.5. Every junk dealer or recycler shall, during normal business hours, allow periodic inspection of any premises maintained and any junk thereon for the purpose of determining compliance with the recordkeeping requirements of this article, and shall during those hours produce his or her records of sales and purchases and all

Every junk dealer or recycler who refuses, upon demand pursuant to Section 21606.5, to exhibit the written record required by this article, or who destroys that record within two years after making the final entry of any purchase or sale of junk therein, is guilty of a misdemeanor.

(b) Any knowing and willful violation of subdivision (a) shall be punishable as follows.

(1) For a first offense, by a fine of not less than five hundred dollars ($500), or by imprisonment in the county jail for not less than 30 days, or by both the fine and imprisonment.

(2) For a second offense, by a fine of not less than one thousand dollars ($1,000), or by imprisonment in the county jail for not less than 30 days, or by both the fine and imprisonment. In addition to any other sentence imposed pursuant to this paragraph, the court may order the defendant to stop engaging in business as a junk dealer or recycler for a period not to exceed 30 days.

(3) For a third or any subsequent offense, by a fine of not less than two thousand dollars ($2,000), or by imprisonment in the county jail for not less than six months, or by both the fine and imprisonment. In addition to any other sentence imposed pursuant to this paragraph, the court shall order the defendant to stop engaging in business as a junk dealer or recycler for a period of 30 days.

SEC. 9. Section 21609 is added to the Business and Professions Code, to read:

21609. (a) Whenever any peace officer has probable cause to believe that property in the possession of a junk dealer or recycler is stolen, in lieu of seizing the property, the peace officer as defined in subdivision (b) of Section 21606.5, at his or her option, may place

a hold on the property for a period not to exceed 90 days. When a peace officer places a hold on the property, the peace officer shall give the junk dealer or recycler a written notice at the time the hold is placed, describing the item or items to be held plus the case number. During that period the junk dealer or recycler shall not release or dispose of the property, except pursuant to a court order or upon receipt of a written authorization signed by any peace officer who is a member of the law enforcement agency of which the peace officer placing the hold on the property is a member. Except as specifically set forth in this section, a junk dealer or recycler shall not be subject to civil liability for compliance with this section.

(b) Whenever property that is in the possession of a junk dealer or recycler is subject to a hold and the property is required by a peace officer in a criminal investigation, the junk dealer or recycler, upon reasonable notice, shall produce the property at reasonable times and places or may deliver the property to any peace officer upon the request of any peace officer who is a member of the law enforcement agency of which the peace officer placing the hold on the property is a member.

(c) Whenever property that is in the possession of a junk dealer or recycler is subject to a hold and the property is no longer required for the purpose of criminal investigation, the law enforcement agency that placed the hold on the property shall undertake the following:

(1) With respect to the property being held, if the law enforcement agency has no knowledge of the property on hold being reported as stolen, the property shall be released upon written notice to the scrap metal dealer or recycler. The notice shall be provided in a timely fashion

(2) If the law enforcement agency has knowledge that the property has been reported stolen, the law enforcement agency shall notify the person who reported the stolen property of the name and address of the junk dealer or recycler holding the property and authorize the release of the property to that person.

The law enforcement agency that placed the property on hold shall release the hold after 60 days has elapsed following the delivery of the notice to the person who reported the property stolen.

(3) If a victim seeks to recover property that is subject to a hold, the junk dealer or recycler shall advise the victim of the name and badge number of the peace officer who placed the hold on the property and the name of the law enforcement agency of which the officer is a member. If the property is not required to be held pursuant to a criminal prosecution the hold shall be released.

(d) Upon conviction of any person for the theft of property placed on hold pursuant to this section, the court shall order the defendant to pay the junk dealer or recycler reasonable costs for storage of the property.

SEC. 10. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the

only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1289

An act to amend Section 21632 of, and to add Section 21606 to, the Public Utilities Code, relating to airports.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 21606 is added to the Public Utilities Code, to read:

21606. Notwithstanding any other provision of law, no person or public entity shall submit an application to a federal agency to purchase, acquire, or operate an airport owned by the United States within this state, until the department has completed its evaluation and issued a recommendation pursuant to subdivision (d) of Section 21632.

SEC. 2. Section 21632 of the Public Utilities Code is amended to read:

21632. (a) The department may also acquire existing airports and air navigation facilities, but it shall not acquire any airport or air navigation facility owned or controlled by a political subdivision of this or any other state without the consent of the political subdivision.

(b) Whenever an airport owned or operated by the United States in this state ceases to be so owned or operated, the department, in consultation with local and regional transportation planning agencies, shall evaluate the present and future need for the airport in the state's public-use airport system, including the need for both the transportation of people and goods. This evaluation shall be completed prior to December 31, 1990, or within one year of the federal announcement setting the date of closure for any airport, if the latter action occurs after January 1, 1990. The purpose of the evaluation is to determine aviation needs and does not eliminate any requirement of the California Environmental Quality Act, Division 13 (commencing with Section 21000) of the Public Resources Code.

(c) Prior to finalizing the evaluation, the department shall submit a copy of its report to the commission for review and comment. The commission shall complete its review and forward any comments to

the department not later than 45 days after receiving the evaluation.

(d) Upon completion of its evaluation, the department shall make a recommendation to the Legislature, the commission, the California Commission on Aviation and Airports, affected local agencies, and the appropriate federal agency for the airport's ownership and type of operation as a public-use airport, if the department determines that the airport would be of significant benefit to the state's airport system. It is the intent of the Legislature that the department, in making its recommendation, give priority for ownership and operation of these public-use airports to a local political subdivision or subdivisions acting jointly.

(e) Notwithstanding Section 21606, if a political subdivision or subdivisions acting jointly notify the department of their intentions to prepare a reuse plan for the airport, and simultaneously apply to the Federal Aviation Administration for a federal grant to develop an airport master plan for the airport, the department shall not make its recommendation pursuant to subdivision (d). If the department's evaluation determines that the airport would be of significant benefit to the state's airport system, and the political subdivision or subdivisions acting jointly fail to convert the federal airport to a civil public-use airport in accordance with the department's evaluation within five years of notification to the department, or fail to evidence substantial progress toward that purpose as determined by the department, then the department shall take action in accordance with subdivision (f).

(f) If the department determines the airport is of present or future benefit to the state's public-use airport system, and no political subdivision applies to the appropriate federal agency to acquire or operate the airport, or has notified the department of its intention to prepare a reuse plan for the airport and thereafter fails to act upon its application pursuant to subdivision (e), the department may, subject to subdivision (g), assist in the formation of a public entity to own and operate the airport which shall be representative of political subdivisions in the area which surrounds and is served by the airport, as determined by the department. If established, the owning and operating entity may, subject to subdivision (g), prepare and submit an application to the appropriate federal agency to acquire or operate, or acquire and operate, the airport as a public airport.

(g) Notwithstanding subdivision (f), if any political subdivision has previously applied to the appropriate federal agency to acquire and operate the airport as a public airport, has completed all required environmental and fiscal evaluations, and subsequently withdrew its application prior to December 31, 1988, the department shall not file any application to acquire or operate the airport or assist in the formation of a public entity to own and operate the airport.

CHAPTER 1290

An act to amend Sections 4582.8, 4585, 4587, and 4604 of, and to add Article 7.5 (commencing with Section 4593) to Chapter 8 of Part 2 of Division 4 of, the Public Resources Code, relating to forest practices.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 4582.8 of the Public Resources Code is amended to read:

4582.8. Within 10 days after a timber harvesting plan is determined to be in conformance under Section 4582.7, or within 10 days after receipt of a notice of timber operations or a nonindustrial timber harvest notice, the director shall transmit copies thereof to the State Board of Equalization.

SEC. 1.5. Section 4585 of the Public Resources Code, as added by Chapter 987 of the Statutes of 1987, is amended to read:

4585. Within one month after completion of the work described in the timber harvesting plan or nonindustrial timber harvest notice, excluding work for stocking, site preparation, or maintenance of drainage facilities and soil stabilization treatments on skid trails, roads, and landings after the plan period, a report shall be filed by the timber owner or the owner's agent with the department that all work, except stocking, site preparation, or maintenance of drainage facilities and soil stabilization has been completed.

SEC. 2. Section 4585 of the Public Resources Code, as amended by Section 8 of Chapter 987 of the Statutes of 1987, is amended to read:

4585. (a) Within one month after completion of the work described in the timber harvesting plan, excluding work for stocking, site preparation, or maintenance of drainage facilities and soil stabilization treatments on skid trails, roads, and landings after the plan period a report shall be filed by the timber owner or the owner's agent with the department that all work, except stocking, site preparation, or maintenance of drainage facilities and soil stabilization, has been completed.

(b) If all of the work described in the plan has not been completed, a report may be filed annually with respect to a portion of the area covered by the plan which has been completed. The portion completed shall be adequately identified on a map submitted with the report.

(c) This section shall remain in effect only until January 1, 1991, or until the effective date of the rules and regulations adopted by the State Board of Forestry pursuant to Senate Bill 1566, whichever date occurs first, and as of that date is repealed.

SEC. 3. Section 4585 is added to the Public Resources Code, to read:

4585. (a) Within one month after completion of the work described in the timber harvesting plan or nonindustrial timber harvest notice, excluding work for stocking, site preparation, or maintenance of drainage facilities and soil stabilization treatments on skid trails, roads, and landings after the plan period a report shall be filed by the timber owner or the owner's agent with the department that all work, except stocking, site preparation, or maintenance of drainage facilities and soil stabilization, has been completed.

(b) If all of the work described in the plan has not been completed, a report may be filed annually with respect to a portion of the area covered by the plan which has been completed. The portion completed shall be adequately identified on a map submitted with the report.

(c) This section shall become operative on January 1, 1991, or upon the effective date of the rules and regulations adopted by the State Board of Forestry pursuant to Senate Bill 1566, whichever date occurs first, and shall remain operative until Janaury 1, 1994, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1994, deletes or extends that date.

SEC. 4. Section 4585 of the Public Resources Code, as added by Section 9 of Chapter 987 of the Statutes of 1987, is amended to read:

4585. Within one month after completion of the work described in the timber harvesting plan or nonindustrial timber harvest notice, excluding work for stocking, site preparation, or maintenance of drainage facilities and soil stabilization treatments on skid trails, roads, and landings after the plan period, a report shall be filed by the timber owner or the owner's agent with the department that all work, except stocking, site preparation, or maintenance of drainage facilities and soil stabilization has been completed.

This section shall become operative on January 1, 1994.

SEC. 5. Section 4587 of the Public Resources Code, as added by Chapter 170 of the Statutes of 1987, is amended to read:

4587. (a) Within five years after completion of timber operations on an area covered by a timber harvesting plan or nonindustrial timber harvest notice, a report of stocking shall be filed by the timber owner or the owner's agent with the department. A separate report of stocking may be filed with the work completion report for those areas which meet stocking requirements upon completion of timber operations. The board, by regulation, shall establish one or more statistically valid standardized sampling procedures which shall be designed to measure the number of trees and their dispersion.

(b) Notwithstanding subdivision (a), the board shall adopt regulations which specify the conditions and manner in which the necessity of employing sampling procedures may be waived. The regulations shall provide that, in addition to any other possible conditions which may be required by the board, the standard

sampling procedures may be waived only if the director or the director's representative and the timber owner or a registered professional forester acting as the owner's agent agree that the area is adequately stocked to meet the standards of this chapter and other applicable rules or regulations of the board. The regulations shall require that, if the director or the director's representative does not agree that the area is so stocked, a standardized sample shall be required.

SEC. 6. Section 4587 of the Public Resources Code, as amended by Section 3 of Chapter 170 of the Statutes of 1987, is amended to read:

4587. (a) Within five years after completion of timber operations on an area identified in a report submitted pursuant to Section 4585, a report of stocking with respect to that area shall be filed by the timber owner or the owner's agent with the department. A separate report of stocking may be filed with the work completion report for those areas which meet stocking requirements upon completion of timber operations. The board, by regulation, shall establish one or more statistically valid standardized sampling procedures designed to measure the number of trees and their dispersion.

(b) Notwithstanding subdivision (a), the board shall adopt regulations which specify the conditions and manner in which the necessity of employing sampling procedures may be waived. The regulations shall provide that, in addition to any other possible conditions which may be required by the board, the standard sampling procedures may be waived only if the director or the director's representative and the timber owner or a registered professional forester acting as the owner's agent agree that the area is adequately stocked to meet the standards of this chapter and other applicable rules or regulations of the board. The regulations shall require that, if the director or the director's representative does not agree that the area is so stocked, a standardized sample shall be required.

(c) This section shall remain in effect only until January 1, 1991, or until the effective date of the rules and regulations adopted by the State Board of Forestry pursuant to Senate Bill 1566, whichever date occurs first, and as of that date is repealed.

SEC. 7. Section 4587 is added to the Public Resources Code, to read:

4587. (a) Within five years after completion of timber operations on an area identified in a report submitted pursuant to Section 4585 or nonindustrial timber harvest notice, a report of stocking with respect to that area shall be filed by the timber owner or the owner's agent with the department. A separate report of stocking may be filed with the work completion report for those areas which meet stocking requirements upon completion of timber operations. The board, by regulation, shall establish one or more statistically valid standardized sampling procedures designed to measure the number of trees and their dispersion.

(b) Notwithstanding subdivision (a), the board shall adopt regulations which specify the conditions and manner in which the necessity of employing sampling procedures may be waived. The regulations shall provide that, in addition to any other possible conditions which may be required by the board, the standard sampling procedures may be waived only if the director or the director's representative and the timber owner or a registered professional forester acting as the owner's agent agree that the area is adequately stocked to meet the standards of this chapter and other applicable rules or regulations of the board. The regulations shall require that, if the director or the director's representative does not agree that the area is so stocked, a standardized sample shall be required.

(c) This section shall become operative on January 1, 1991, or on the effective date of the rules and regulations adopted by the State Board of Forestry, pursuant to Senate Bill 1566, whichever date occurs first, and shall remain operative until January 1, 1994, and as of that date is repealed, unless a later enacted statute which is enacted before January 1, 1994, deletes or extends that date.

SEC. 8. Section 4587 of the Public Resources Code, as added by Section 4 of Chapter 170 of the Statutes of 1987, is amended to read:

4587. (a) Within five years after completion of timber operations on an area covered by a timber harvesting plan or nonindustrial timber harvest notice, a report of stocking shall be filed by the timber owner or the owner's agent with the department. A separate report of stocking may be filed with the work completion report for those areas which meet stocking requirements upon completion of timber operations. The regulations shall provide that, in addition to any other possible conditions which may be required by the board, the standard sampling procedures may be waived only if the director or the director's representative and the timber owner or a registered professional forester acting as the owner's agent agree that the area is adequately stocked to meet the standards of this chapter and other applicable rules or regulations of the board. The regulations shall require that, if the director or the director's representative does not agree that the area is so stocked, a standardized sample shall be required.

(c) This section shall become operative on January 1, 1994.

SEC. 9. Article 7.5 (commencing with Section 4593) is added to Chapter 8 of Part 2 of Division 4 of the Public Resources Code, to read:

Article 7.5. Nonindustrial Timber Management Plan

4593. (a) The Legislature finds and declares that a substantial acreage of timberlands of the state are held by private nonindustrial owners and that it is the policy of the state to increase the productivity of these timberlands under prudent management plans to serve the public's need for timber and other forest products.

(b) The Legislature further finds and declares that minimal environmental harm is caused by prudent management of nonindustrial timberlands because low volume production and dispersion around the state of these small tracts reduces damage to aesthetics, air quality, watersheds, and wildlife.

(c) The Legislature further finds and declares that it is the policy of the state to encourage prudent and responsible forest resource management of nonindustrial timberlands by approving nonindustrial timber management plans in advance and withdrawing governmental discretion to disapprove nonindustrial timber harvest notices submitted pursuant to the approved nonindustrial timber management plans.

(d) It is not the intent of the Legislature by the enactment of this article to limit the penalties and enforcement provisions of this chapter.

4593.2. Notwithstanding Section 4521, unless the context otherwise requires, the following definitions govern construction of this article:

(a) "Nonindustrial timberlands" means timberland owned by a nonindustrial tree farmer.

(b) "Nonindustrial tree farmer" means an owner of timberland with less than 2,500 acres who has an approved nonindustrial management plan and is not primarily engaged in the manufacture of forest products.

(c) "Uneven aged management" means the management of a specific forest, with the goal of establishing a well stocked stand of various age classes and which permits the periodic harvest of individual or small groups of trees to realize the yield and continually establish a new crop.

(d) "Sustained yield" means the yield of commercial wood that an area of commercial timberland can produce continuously at a given intensity of management consistent with required environmental protection and which is professionally planned to achieve over time a balance between growth and removal.

(e) "Nonindustrial timber management plan" means a management plan for nonindustrial timberlands with an objective of an uneven aged managed timber stand and sustained yield for each parcel or group of contiguous parcels meeting the requirements of Section 4593.3.

(f) "Nonindustrial timber harvest notice" means notice of timber harvest operations pursuant to an approved nonindustrial timber management plan and meeting the requirements of Section 4594.

4593.3. A nonindustrial timber management plan may be filed with the department in writing by a person who intends to become a nonindustrial tree farmer with the long-term objective of an uneven aged timber stand and sustained yield through the implementation of a nonindustrial timber management plan. The management plan shall be prepared by a registered professional forester. It shall be a public record and shall include all of the following information:

(a) The name and address of the timberland owner.

(b) A description of the land on which the plan is proposed to be implemented, including a United States Geological Survey quadrangle map or equivalent indicating the location of all streams, the location of all proposed and existing logging truck roads, and indicating boundaries of all site I classification timberlands to be stocked in accordance with subdivision (b) of Section 4561 and any other site classifications if the board establishes specific minimum stocking standards for other site classifications.

(c) A description of the silviculture methods to be applied and the type of yarding equipment to be used.

(d) An outline of the methods to be used to avoid excessive accelerated erosion from timber operations to be conducted within the proximity of a stream.

(e) Special provisions, if any, to protect any unique area within the boundaries of the proposed nonindustrial timber management plan.

(f) A description of the existing stand, its current projected growth, alterations required to achieve the management objectives, the projected timber volumes and tree sizes to be available for harvest, and projected frequencies of harvest.

(g) A certification by the registered professional forester preparing the plan that he or she or a designee has personally inspected the plan area.

(h) Any other information the board provides by regulation to meet its rules and the standards of this chapter.

4593.4. The board shall adopt regulations regarding the notice of receipt of the proposed nonindustrial timber management plan. The notice shall be given within two working days following submission of the proposed management plan and shall be consistent with Horn v. County of Ventura, 24 Cal. 3d 605, and all applicable laws. In adopting the regulations, the board shall take account of the extent of the administrative burden involved in giving the notice. The method of notice shall include, but not be limited to, mailed notice. The regulations may require the person submitting the nonindustrial timber management plan to provide to the department a list of the names and addresses of persons to whom the notice is to be mailed.

4593.5. The department shall provide notice of the filing of nonindustrial timber management plans to any person who requests, in writing, that notification.

4593.6. Upon receipt of the nonindustrial timber management

plan, the department shall place it, or a true copy thereof, in a file available for public inspection in the county in which timber operations are proposed under the plan, and, for the purpose of interdisciplinary review, shall transmit a copy to the Department of Fish and Game, the appropriate California regional water quality control board, the county planning agency, and all other agencies having jurisdiction by law over natural resources affected by the plan. The department shall invite, consider, and respond in writing to comments received from public agencies to which the plan has been transmitted and shall consult with those agencies at their request.

4593.7. (a) The director has 45 days from the date the initial inspection is completed as provided in Section 4604, or a longer period mutually agreed upon by the director and the person submitting the nonindustrial timber management plan, to review the plan to determine if the plan is in conformance with the rules and regulations of the board and this chapter. If the director determines that the plan is not in conformance with the rules and regulations of the board or this chapter, the director shall return the plan, stating his or her reasons and advising the person submitting the plan of the person's right to a hearing before the board.

(b) If the director does not act within the time periods provided in subdivision (a), a longer period shall be negotiated and mutually agreed upon by the director and the person submitting the nonindustrial timber management plan. If a longer period cannot be mutually agreed upon, the nonindustrial timber management plan shall be deemed denied and returned to the person submitting the plan.

(c) A person to whom a plan is returned may, within 10 days from the receipt of the plan, request the board for a public hearing before the board. The board shall schedule a public hearing to review the plan to determine if the plan is in conformance with the rules and regulations of the board and this chapter. Board action shall take place within 30 days from the filing of the appeal, or a longer period mutually agreed upon by the board and the person filing the appeal. If the plan is not approved on appeal to the board, the director, within 10 days of board action, may determine that the plan is in conformance if the plan is revised to bring it into full conformance with the rules and regulations of the board and this chapter.

4593.8. The nonindustrial tree farmer may submit a proposed amendment to the approved plan and may not take any action which substantially deviates, as defined by the board, from the approved plan until the amendment has been filed with the director and the director has determined that the amendment is in compliance with the rules and regulations of the board and the provisions of this chapter which were in effect at the time the nonindustrial timber management plan was approved, in accordance with the same procedures specified in Section 4593.7.

4593.9. The nonindustrial tree farmer may take actions which do

not substantially deviate from the approved plan without the submittal of an amendment, but those actions shall be subsequently reported to the department. The board shall specify, by regulation, those nonsubstantial deviations which may be taken. The board shall specify the requirements for reporting those deviations.

4593.10. In the event of a change of ownership of the land described in the nonindustrial timber management plan, the plan shall expire 180 days from the date of change of ownership unless the new timberland owner notifies the department in writing of the change of ownership and his or her assumption of the plan.

4593.11. The nonindustrial tree farmer may cancel the nonindustrial timber management plan by submitting a written notice to the department. Once timber operations have commenced pursuant to a nonindustrial timber harvest notice, cancellation is not effective on land covered by the notice until a report of satisfactory completion has been issued pursuant to Sections 4585, 4586, and 4587.

4594. The nonindustrial tree farmer who owns, leases, or otherwise controls or operates on all or any portion of any timberland within the boundaries of an approved nonindustrial timber management plan, and who plans to harvest any of the timber thereon during a given year, shall file a nonindustrial timber harvest notice with the department in writing. A notice shall be filed prior to the harvesting of any timber and shall be effective for a maximum of one year from the date of filing. If the person who files the notice is not the owner of the timberland, the person filing the notice shall notify the timberland owner by certified mail that the notice has been submitted, and shall certify that mailing to the department. The notice shall be a public record and shall include all of the following information.

(a) The name and address of the timber owner.

(b) The name and address of the timber operator.

(c) The name and address of the registered professional forester preparing the nonindustrial timber harvest notice.

(d) A description of the land on which the work is proposed to be done.

(e) A statement that no archeological sites have been discovered in the harvest area since the approval of the nonindustrial timber management plan.

(f) A statement that no rare, threatened, or endangered plant or animal species has been discovered in the harvest area since the approval of the nonindustrial timber management plan.

(g) A statement that there have been no physical environmental changes in the harvest area that are so significant as to require any amendment of the nonindustrial timber harvest plan.

(h) A certification by the registered professional forester that the notice as carried out will implement best management practices for protection of the beneficial uses of water, soil stability, forest productivity, and wildlife as required by the current rules of the board, or a certification that practices consistent with the original

plan will not result in any significant degradation to the beneficial uses of water, soil stability, forest productivity, or wildlife.

(i) Special provisions, if any, to protect any unique area within the area of timber operations.

(j) The expected dates of commencement and completion of timber operations during the year.

(k) A statement that the harvesting notice conforms to the provisions of the approved management plan.

(*l*) Any other information the board provides by regulation to meet its rules and the standards of this chapter.

4594.2. The registered professional forester who prepares the nonindustrial timber management plan or prepares the notice, or any other registered professional forester who is employed by the owner or operator, shall report to the owner or operator if there are deviations from the plan which, in his or her judgment, threaten the attainment of the resource conservation standards of the plan.

4594.4. If the board finds that a registered professional forester has made any material misstatement in any nonindustrial timber harvesting notice, nonindustrial timber management plan. or report under this chapter, the board shall take disciplinary action against him or her as provided under Section 775.

4594.6. Notwithstanding any other provisions of this chapter, if a registered professional forester certifies by written declaration, on behalf of the timber owner or operator, that the nonindustrial timber harvesting notice conforms to, and meets the requirements of, the approved nonindustrial timber management plan under which it is filed, timber operations may commence immediately unless the notice has been filed by mailing, in which case operations may commence three days after the notice has been mailed.

4594.7. If it is determined that the objectives of uneven aged management and sustained yield are not being met by a nonindustrial tree farmer, or there are other persistent violations detected that are not being corrected, a previously approved nonindustrial timber management plan shall be canceled by the department and any further timber operations under the plan shall be terminated.

SEC. 10. Section 4604 of the Public Resources Code is amended to read:

4604. The department shall provide for an initial inspection of the area in which timber operations are to be conducted within 10 days from the date of filing of the timber harvesting plan or nonindustrial timber management plan, or a longer period as may be mutually agreed upon by the department and the person submitting the plan. The department shall provide for inspections, as follows:

(a) During the period of commencement of timber operations.

(b) When timber operations are well underway.

(c) Following completion of timber operations.

(d) At any other times as determined to be necessary to enforce this chapter.

SEC. 11. Section 4604 of the Public Resources Code is amended to read:

4604. (a) The department shall provide an initial inspection of the area in which timber operations are to be conducted within 10 days from the date of filing of the timber harvesting plan, or a longer period as may be mutually agreed upon by the department and the person submitting the plan, except that the inspection need not be made if the department determines that it would not add substantive information that is necessary to enforce this chapter. In any event, the department shall provide for inspections, as needed, as follows:

(1) During the period of commencement of timber operations.

(2) When timber operations are well under way.

(3) Following completion of timber operations.

(4) At any other times as determined to be necessary to enforce this chapter.

(b) (1) The Department of Fish and Game, the regional water quality control boards, or the State Water Resources Control Board, if accompanied by Department of Forestry and Fire Protection personnel and after 24-hour advance notification is given to the landowner, may enter and inspect land during normal business hours at any time after commencement of timber harvest plan activities on the land and before the director issues a report of satisfactory completion of stocking pursuant to Section 4588 or at any time before the end of the first winter period following the filing of a work completion report pursuant to Section 4585, whichever is later. Any member of the inspection party may utilize whatever measurement and evaluation devices, including, but not limited to, photographic equipment and temperature measurement devices, as determined to be necessary, when participating in an inspection of an area pursuant to subdivision (a) or after commencement of timber harvesting plan activities pursuant to this subdivision.

(2) Photographs taken during inspections shall be clearly labeled as to time, date, and location and shall be the property of the department and part of the inspection record. The inspection record shall be subject to all provisions of the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code).

(3) This subdivision is not a limitation upon the authority of any agency to inspect pursuant to any other provision of law.

(c) This section shall remain in effect only until January 1, 1991, or until the effective date of the rules and regulations adopted by the State Board of Forestry pursuant to Senate Bill 1566, whichever date occurs first, and as of that date is repealed.

SEC. 12. Section 4604 is added to the Public Resources Code, to read:

4604. (a) The department shall provide an initial inspection of the area in which timber operations are to be conducted within 10 days from the date of filing of the timber harvesting plan or nonindustrial timber management plan, or a longer period as may be

mutually agreed upon by the department and the person submitting the plan. The department shall provide for inspections, as follows:

(1) During the period of commencement of timber operations.

(2) When timber operations are well under way.

(3) Following completion of timber operations.

(4) At any other times as determined to be necessary to enforce this chapter.

(b) (1) The Department of Fish and Game, the regional water quality control boards, or the State Water Resources Control Board, if accompanied by Department of Forestry and Fire Protection personnel and after 24-hour advance notification is given to the landowner, may enter and inspect land during normal business hours at any time after commencement of timber harvest plan activities on the land and before the director issues a report of satisfactory completion of stocking pursuant to Section 4588 or at any time before the end of the first winter period following the filing of a work completion report pursuant to Section 4585, whichever is later. Any member of the inspection party may utilize whatever measurement and evaluation devices, including, but not limited to, photographic equipment and temperature measurement devices, as determined to be necessary, when participating in an inspection of an area pursuant to subdivision (a) or after commencement of timber harvesting plan activities pursuant to this subdivision.

(2) Photographs taken during inspections shall be clearly labeled as to time, date, and location and shall be the property of the department and part of the inspection record. The inspection record shall be subject to all provisions of the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code).

(3) This subdivision is not a limitation upon the authority of any agency to inspect pursuant to any other provision of law.

(c) This section shall become operative on January 1, 1991, or on the effective date of the rules and regulations adopted by the State Board of Forestry pursuant to Senate Bill 1566, whichever date occurs first

SEC. 13. The State Board of Forestry shall adopt rules and regulations to implement Article 7.5 (commencing with Section 4593) of Chapter 8 of Part 2 of Division 4 of the Public Resources Code, not later than January 1, 1991. The rules and regulations shall include all of the following:

(a) The conduct by the Department of Forestry and Fire Protection of one or more preharvest inspections of the land on which a nonindustrial timber management plan is proposed to be implemented, prior to the Director of Forestry and Fire Protection taking action to approve or deny the plan.

(b) Procedures for the Department of Forestry and Fire Protection to follow in conducting inspections of annual timber operations for which a notice is filed pursuant to Section 4594 of the Public Resources Code, for purposes of determining (1) whether the

objectives of uneven aged management and sustained yield are being met for each parcel or group of contiguous parcels covered by the plan, and (2) compliance with the plan's other provisions, any rules and regulations of the State Board of Forestry, or Chapter 8 (commencing with Section 4511) of Part 2 of Division 4 of the Public Resources Code.

(c) Procedures for the Department of Forestry and Fire Protection to follow to cancel a nonindustrial timber management plan pursuant to Section 4594.7 of the Public Resources Code, or terminate timber operations conducted pursuant to the plan, if the objectives of uneven aged management and sustained yield are not being met, or there are persistent violations that are not corrected by the landowner or timber operator.

SEC. 14. The department shall, on or before January 1, 1998, report to the Governor and the Legislature with an evaluation on whether the objectives of uneven-aged management and sustained yield are being met for each parcel or group of contiguous parcels for which a nonindustrial timber management plan has been approved pursuant to this act.

SEC. 15. Sections 2, 3, and 4 of this bill incorporate amendments to Section 4585 of the Public Resources Code proposed by both this bill and SB 201. These sections shall only become operative if (1) both bills are enacted and become effective on January 1, 1990, (2) each bill amends Section 4585 of the Public Resources Code, and (3) this bill is enacted after SB 201, in which case Section 1.5 of this bill shall not become operative.

These sections shall only become operative if (1) both bills are enacted and become effective on January 1, 1990, (2) each bill amends Section 4604 of the Public Resources Code, and (3) this bill is enacted after SB 201, in which case Section 10 of this bill shall not become operative.

SEC. 18. Sections 1, 1.5, 5, 9, and 10 of this act shall become operative on January 1, 1991, or upon the effective date of the rules and regulations adopted by the State Board of Forestry pursuant to Section 13, whichever date occurs earlier.

SEC. 19. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty

for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1291

An act to amend Sections 17039, 17052.4, and 23036 of, and to add and repeal Sections 17052.5 and 23601.5 of, the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1 The Legislature hereby finds and declares that the development of energy technologies that diversify the sources of energy supply and reduce reliance on conventional fuels is essential to the continued growth of the California economy. The Legislature further finds and declares that solar energy systems can assist in meeting the state's energy needs while reducing the long-term use of conventional fuels and reducing adverse environmental impacts. The Legislature further finds and declares that tax credit incentives for the development of solar energy systems are necessary to achieve these public policy objectives.

The Legislature further finds and declares that it is necessary to protect public taxpayer moneys by ensuring that tax credits are directed only to those solar energy systems which further the public policy objectives of the Legislature by requiring that the State Energy Resources Conservation and Development Commission adopt guidelines and criteria that establish eligibility requirements for the credits, and by requiring that no credit for a solar energy system over 10 megawatts may be claimed unless the commission first finds that the solar energy system qualifies under those guidelines and criteria.

SEC. 2. Section 17039 of the Revenue and Taxation Code is amended to read:

17039. (a) Notwithstanding any provision in this part to the contrary, for the purposes of computing tax credits, the term "net tax" means the tax imposed under either Section 17041 or 17048 plus the tax imposed under Section 17504 (relating to lump-sum distributions) less the credits allowed by Section 17054 (relating to personal exemption credits). Credits shall be allowed against "net tax" in the following order:

(d) This section shall be applied in the computation of taxes for taxable years beginning on and after January 1, 1987.

SEC. 3. Section 17039 of the Revenue and Taxation Code is

amended to read:

17039. (a) Notwithstanding any provision in this part to the contrary, for the purposes of computing tax credits, the term "net tax" means the tax imposed under either Section 17041 or 17048 plus the tax imposed under Section 17504 (relating to lump-sum distributions) less the credits allowed by Section 17054 (relating to personal exemption credits). (d) Unless otherwise provided, any remaining carryover of a credit allowed by a section which has been repealed or made inoperative shall continue to be allowed to be carried over and applied against the "net tax" until the credit has been exhausted.

(e) This section shall be applied in the computation of taxes for taxable years beginning on or after January 1, 1987.

SEC. 4. Section 17052.4 of the Revenue and Taxation Code is amended to read:

17052.4. (a) For taxable years beginning on or after January 1, 1987, and before January 1, 1989, there shall be allowed as a credit against the "net tax" (as defined by Section 17039) and the tax imposed by Section 17062, relating to the alternative minimum tax, an amount equal to 12 percent of the cost of a solar energy system installed on premises, used for commercial purposes, which are located in California and which are owned by the taxpayer during the taxable year. For purposes of taxpayers who lease a solar energy system pursuant to subdivision (k), the tax credit shall apply only to the principal recovery portion of lease payments for the term of the lease not to exceed 10 years, as defined in paragraph (2) of subdivision (m), which are made during the taxable year, and to the amounts which are expended on the purchased portion of the solar energy system, including installation charges, during the taxable year. For taxable years beginning on or after January 1, 1988, and before January 1, 1989, the credit percentage allowed by this section shall be 10 percent.

(b) The solar energy tax credit shall be claimed on the state income tax return for the taxable year in which the solar energy system was installed.

(c) A taxpayer who claimed the solar energy tax credit in the state income tax return for the taxable year in which the solar energy system was installed may claim the credit in subsequent years for additions to the system or additional systems by the amount prescribed in subdivision (a).

(d) For purposes of computing the credit provided by this section, the cost of any solar energy system eligible for the credit shall be reduced by any grant provided by a public entity for that system.

(e) The basis of any system for which a credit is allowed shall be

reduced by the amount of the credit and the amount of any grant provided by a utility or public agency for the solar energy system. The basis adjustment shall be made for the taxable year for which the credit is allowed.

(f) With the exception of a husband and wife, if there is more than one owner of a premises on which a solar energy system is installed, each owner shall be eligible to receive the solar energy tax credit in proportion to his or her ownership interests in the premises. In the case of a husband or wife who files a separate return, the credit may be taken by either or equally divided between them.

(g) In the case of a partnership, the solar energy tax credit may be divided between the partners pursuant to a written partnership agreement.

(h) In the case where the credit allowed under this section exceeds the "net tax," and the tax imposed by Section 17062, relating to the alternative minimum tax, the excess may be carried over to reduce the "net tax" and the tax imposed by Section 17062, relating to the alternative minimum tax, in the following year, and succeeding years if necessary, until the credit has been exhausted. This subdivision shall also apply to the credit allowed under former Section 17052.5 within the limitations of subdivision (e) of that section (except that "net tax" shall include the tax imposed under Section 17062).

(i) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the current or any prior taxable year as energy conservation measures under this part.

(j) Energy conservation measures applied in conjunction with solar energy systems to reduce the total cost or backup energy requirements of those systems shall be considered part of the systems, and shall be eligible for the tax credit. Qualified energy conservation measures installed within six months of the date of installation of the solar energy system are considered to be installed "in conjunction with" the solar energy system, even if the period spans two taxable years. In cases involving more than six months between the dates of installation of the energy conservation measures and the solar energy system, the taxpayer must be able to provide persuasive evidence that the energy conservation measures were in fact installed in conjunction with a solar energy system. Eligible conservation measures applied in conjunction with solar space heating include, but are not limited to, ceiling, wall, and floor insulation above that required by law at the time of original construction. Eligible conservation measures applied in conjunction with solar water heating include, but are not limited to, water heater insulation jackets, and shower and faucet flow reducing devices. Energy conservation measures which shall be eligible for the tax credit when applied in conjunction with solar energy systems shall be defined by the State Energy Resources Conservation and Development Commission as part of the solar energy system

eligibility criteria.

(k) Taxpayers who lease a solar energy system installed on premises in California shall receive a tax credit as provided in subdivision (a), if the lessee can confirm, if necessary, by a written document signed by the lessor that (1) the lessor irrevocably elects not to claim a state tax credit for the solar energy system, and (2) if the system is installed in a locality served by a municipal solar utility, that the lessor holds a valid permit from the municipal solar utility. Leasing requirements may be established by the State Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(*l*) The State Energy Resources Conservation and Development Commission shall, after one or more public hearings, establish guidelines and criteria for solar energy systems which shall be eligible for the credit provided by this section. These guidelines and criteria may include, but are not limited to, minimum requirements for safety, reliability, and durability of solar energy systems. The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this section.

(m) For purposes of this section, the following definitions shall apply:

(4) Credits for taxes withheld under Section 26131.

(f) Unless otherwise provided, any remaining carryover from a credit which has been repealed or made inoperative shall continue to be allowed to be carried over and applied against the "tax" until the credit has been exhausted.

SEC. 8. Section 23601.5 is added to the Revenue and Taxation Code, to read:

23601.5. (a) For income years beginning on or after January 1, 1990, and before January 1, 1994, there shall be allowed as a credit against the "tax" (as defined by Section 23036), an amount equal to 10 percent of the cost of a solar energy system installed on premises, used for commercial purposes, which are located in California and which are owned by the taxpayer during the income year. For purposes of taxpayers who lease a solar energy system pursuant to subdivision (i), the tax credit shall apply only to the principal recovery portion of lease payments, as defined in subdivision (k), for the term of the lease not to exceed 10 years, which are made during the income year, and to the amounts expended on the purchased portion of the solar energy system, including installation charges, during the income year.

(b) (1) The solar energy tax credit shall be claimed on the state income tax return for the income year in which the solar energy system was installed.

(2) The solar energy tax credit may not be claimed for any solar energy system with a generating capacity in excess of 30 megawatts for any income year for which the Internal Revenue Code does not allow at least a 10-percent tax credit for those solar energy systems which is equivalent in scope to the credit available under the Internal Revenue Code for the 1989 calendar year.

(c) A taxpayer who claimed the solar energy tax credit on the state income tax return for the income year in which the solar energy system was installed may claim the credit in subsequent years for additions to the system or additional systems by the amount

prescribed in subdivision (a).

(d) For purposes of computing the credit provided by this section, the cost of any solar energy system eligible for the credit provided by this section shall be reduced by any grant provided by a public entity for that system.

(e) The basis of any system for which a credit is allowed shall be reduced by the amount of the credit and the amount of any grant provided by a utility or public agency for the solar energy system. The basis adjustment shall be made for the income year for which the credit is allowed.

(f) In the case of a partnership, the solar energy tax credit may be divided between the partners pursuant to a written partnership agreement.

(g) In the case where the credit allowed under this section exceeds the "tax," the excess may be carried over to reduce the "tax" in the following year, and succeeding years if necessary, until the credit is exhausted.

(h) No tax credit may be claimed under this section for any expenditures which have been otherwise claimed as a tax credit for the current or any prior income year as energy conservation measures under this part.

(i) Taxpayers who lease a solar energy system installed on premises in California shall receive a tax credit as provided in subdivision (a), if the lessee can confirm, if necessary, by a written document signed by the lessor that (1) the lessor irrevocably elects not to claim a state tax credit for the solar energy system, and (2) if the system is installed in a locality served by a municipal solar utility, that the lessor holds a valid permit from the municipal solar utility. Leasing requirements may be established by the State Energy Resources Conservation and Development Commission as part of the solar energy system eligibility criteria.

(j) The State Energy Resources Conservation and Development Commission shall, after one or more public hearings, establish guidelines and criteria for solar energy systems which shall be eligible for the credit provided by this section. These guidelines and criteria shall include, but are not limited to, minimum requirements for safety, cost-effectiveness, in terms of dollars per kilowatt, market readiness, reliability, and durability of solar energy systems. Any solar energy system with a generating capacity in excess of 10 megawatts may claim the credit only if the owner of the solar energy system first obtains a finding from the commission that the system is eligible for the credit under the guidelines and criteria established pursuant to this subdivision. Any solar energy system certified by the commission pursuant to Chapter 6 (commencing with Section 25500) of Division 15 of the Public Resources Code shall be deemed eligible for the credit. The Franchise Tax Board shall prescribe those regulations as may be necessary to carry out the purposes of this section.

(k) For purposes of this section, the following definitions shall

apply:

(1) "Installed" means placed in a functionally operative state.

(2) "Cost" includes equipment, installation charges, and compensation paid to the owner of burdened property in connection with the acquisition of a solar easement, as defined in Section 801.5 of the Civil Code, and the fees for the recording of the easement. In the case of a system which is leased, "cost" means the principal recovery portion of lease payments, which is the cost incurred by the taxpayer in acquiring the solar energy system, excluding interest charges and maintenance expenses.

"Cost" does not include interest charges and costs associated with the acquisition of an easement other than a solar easement.

"Cost" includes all components to carry out the intended use of the system if they are an integral part of the system.

(3) "Owner" includes duly recorded holders of legal title, lessees with at least three years remaining on their lease or easement granting use of the premises, a person purchasing premises under a contract of sale, or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy to the premises, a person who is a member of a nonprofit corporation or association which is a duly recorded holder of legal title, or a person who is a member of a nonprofit corporation or association which is a lessee with at least three years remaining on its lease.

(4) "Premises" means the principal stationary location in California where the system is installed for direct use or for purposes of sale of energy, and includes land, easements, and buildings or portions thereof.

(5) "Commercial purposes" means the installation of solar energy systems on premises other than single-family dwellings.

(6) "Single-family dwelling" means single-family residences, mobilehomes, and the individual units of condominiums.

"Single-family dwelling" does not include cooperatives, apartment buildings, or other similar multiple dwellings, including buildings and any other common areas of a condominium maintained by a homeowners' association.

(7) (A) "Solar energy system" means the use of solar devices for the individual function of production of electricity in excess of 30 watts per device.

"Solar energy system" includes, but is not limited to, solar thermal electric systems and photovoltaic systems .

For purposes of this section, "solar energy system" does not include solar devices for the individual function of wind energy for the production of electricity or mechanical work.

(B) Eligible solar energy systems shall have a useful life of not less than five years.

(8) "Solar device" means the equipment associated with the collection, conversion, transfer, distribution, storage, or control of solar energy. In the case of a solar device associated with two or more

solar energy systems, the credit allowed for the solar device may be taken for any one of the systems, or divided equally between them.

(9) "Municipal solar utility" means a city, county, or municipal utility district, or agency thereof, which sells or leases solar or other energy generating equipment or energy saving devices for residential, commercial, agricultural, or industrial uses or which issues permits to companies engaged in the leasing of this equipment.

(*l*) Except for purposes of subdivision (g) of Section 23601.4, the provisions of this section shall not apply to any solar energy system which continues to qualify for the tax credit authorized by former Section 23601 (as amended by Chapter 1200 of the Statutes of 1986) by meeting the eligibility requirements of subdivision (j) of that section.

(m) This section shall remain in effect only until December 1, 1994, and as of that date is repealed. However, any unused credit may continue to be carried forward, as provided in subdivision (g), until the credit has been exhausted.

SEC. 9. The State Energy Resources Conservation and Development Commission shall report the environmental and fiscal benefits and the fiscal cost of this act to the Legislature no later than January 1, 1992.

SEC. 10. Sections 3 and 7 of this bill incorporate amendments to Sections 17039 and 23036 of the Revenue and Taxation Code proposed by this bill and AB 802. They shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1990, (2) each bill amends Sections 17039 and 23036 of the Revenue and Taxation Code, and (3) this bill is enacted after AB 802, in which case Sections 17039 and 23036 of the Revenue and Taxation Code, as amended by AB 802, shall remain operative only until the operative date of this bill, at which time Sections 3 and 7 of this bill shall become operative, and Sections 2 and 6 of this bill shall not become operative.

SEC. 11. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 1292

An act to amend Section 214 of the Revenue and Taxation Code, relating to property taxation.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 214 of the Revenue and Taxation Code is amended to read:

214. (a) Property used exclusively for religious, hospital, scientific, or charitable purposes owned and operated by community chests, funds, foundations or corporations organized and operated for religious, hospital, scientific, or charitable purposes is exempt from taxation if:

(1) The owner is not organized or operated for profit. However, in the case of hospitals, the organization shall not be deemed to be organized or operated for profit, if during the immediate preceding fiscal year the excess of operating revenues, exclusive of gifts, endowments and grants-in-aid, over operating expenses has not exceeded a sum equivalent to 10 percent of those operating expenses. As used herein, operating expenses shall include depreciation based on cost of replacement and amortization of, and interest on, indebtedness

(2) No part of the net earnings of the owner inures to the benefit of any private shareholder or individual.

(3) The property is used for the actual operation of the exempt activity, and does not exceed an amount of property reasonably necessary to the accomplishment of the exempt purpose.

(A) For the purposes of determining whether the property is used for the actual operation of the exempt activity, consideration shall not be given to use of the property for either or both of the following described activities if that use is occasional:

(i) The owner conducts fundraising activities on the property and the proceeds derived from those activities are not unrelated business taxable income, as defined in Section 512 of the Internal Revenue Code of 1986, of the owner and are used to further the exempt activity of the owner.

(ii) The owner permits any other organization which meets all of the requirements of this subdivision, other than ownership of the property, to conduct fundraising activities on the property and the proceeds derived from those activities are not unrelated business taxable income, as defined in Section 512 of the Internal Revenue Code of 1986, of the organization, are not subject to the tax on unrelated business taxable income which is imposed by Section 511 of the Internal Revenue Code of 1986, and are used to further the exempt activity of the organization.

(B) For purposes of subparagraph (A):

(i) "Occasional use" means use of the property on an irregular or intermittent basis by the qualifying owner or any other qualifying organization described in clause (ii) of subparagraph (A) which is incidental to the primary activities of the owner or the other organization.

(ii) "Fundraising activities" means both activities involving the direct solicitation of money or other property and the anticipated exchange of goods or services for money between the soliciting organization and the organization or person solicited.

(C) Subparagraph (A) shall have no application in determining whether paragraph (3) has been satisfied unless the owner of the

property and any other organization using the property as provided in subparagraph (A) have filed with the assessor duplicate copies of valid unrevoked letters or rulings from the Internal Revenue Service which state that the owner and the other organization qualify as exempt organizations under Section 501(c)(3) of the Internal Revenue Code. The owner of the property and any other organization using the property as provided in subparagraph (A) shall also file duplicate copies of their most recently filed federal income tax returns.

Nothing in subparagraph (A), (B), or (C) shall be construed to either enlarge or restrict the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section.

(4) The property is not used or operated by the owner or by any other person so as to benefit any officer, trustee, director, shareholder, member, employee, contributor, or bondholder of the owner or operator, or any other person, through the distribution of profits, payment of excessive charges or compensations or the more advantageous pursuit of their business or profession.

(5) The property is not used by the owner or members thereof for fraternal or lodge purposes, or for social club purposes except where that use is clearly incidental to a primary religious, hospital, scientific, or charitable purpose.

(6) The property is irrevocably dedicated to religious, charitable, scientific, or hospital purposes and upon the liquidation, dissolution or abandonment of the owner will not inure to the benefit of any private person except a fund, foundation or corporation organized and operated for religious, hospital, scientific, or charitable purposes.

(7) The property, if used exclusively for scientific purposes, is used by a foundation or institution which, in addition to complying with the foregoing requirements for the exemption of charitable organization in general, has been chartered by the Congress of the United States (except that this requirement shall not apply when the scientific purposes are medical research), and whose objects are the encouragement or conduct of scientific investigation, research and discovery for the benefit of the community at large.

The exemption provided for herein shall be known as the "welfare exemption." This exemption shall be in addition to any other exemption now provided by law and the existence of the exemption provision in paragraph (2) of subdivision (a) of Section 202 shall not preclude the exemption under this section for museum or library property. Except as provided in subdivision (e), this section shall not be construed to enlarge the college exemption.

(b) Property used exclusively for school purposes of less than collegiate grade and owned and operated by religious, hospital, or charitable funds, foundations, or corporations, which property and funds, foundations, or corporations meet all of the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article

XIII of the California Constitution and this section.

(c) Property used exclusively for nursery school purposes and owned and operated by religious, hospital, or charitable funds, foundations, or corporations, which property and funds, foundations, or corporations meet all the requirements of subdivision (a), shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section.

As to educational institutions of collegiate grade, as defined in Section 203, the requirements of paragraph (6) of subdivision (a) shall be deemed to be met if both of the following are met:

(1) The property of the educational institution is irrevocably dedicated in its articles of incorporation to charitable and educational purposes, to religious and educational purposes, or to educational purposes.

(2) The articles of incorporation of the educational institution provide for distribution of its property upon its liquidation, dissolution, or abandonment to a fund, foundation, or corporation organized and operated for religious, hospital, scientific, charitable, or educational purposes meeting the requirements for exemption provided by Section 203 or this section.

(f) Property used exclusively for housing and related facilities for elderly or handicapped families and financed by, including, but not limited to, the federal government pursuant to Section 202 of Public Law 86-372 (12 U.S.C. Sec. 1715z), and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section. The amendment of this paragraph made at the 1983–84 Regular Session of the Legislature does not constitute a change in,

but is declaratory of, the existing law. However, no refund of property taxes shall be required as a result of this amendment for any fiscal year prior to the fiscal year in which the amendment takes effect.

Property used exclusively for housing and related facilities for elderly or handicapped families at which supplemental care or services designed to meet the special needs of elderly or handicapped residents are not provided, or which is not financed by the federal government pursuant to Section 202 of Public Law 86-372 (12 U.S.C. Sec. 1701q), as amended, Section 231 of Public Law 73-479 (12 U.S.C. Sec. 1715v), or Section 236 of Public Law 90-448 (12 U.S.C. Sec. 1715), shall not be entitled to exemption pursuant to this subdivision unless the property is used for housing and related facilities for low- and moderate-income elderly or handicapped families. Property which would otherwise be exempt pursuant to this subdivision, except that it includes some housing and related facilities for other than low- or moderate-income elderly or handicapped families, shall be entitled to a partial exemption. The partial exemption shall be equal to that percentage of the value of the property which is equal to the percentage which the number of low- and moderate-income elderly and handicapped families occupying the property is of the total number of families occupying the property.

As used in this subdivision, "low and moderate income" has the same meaning as the term "persons and families of low or moderate income" as defined by Section 50093 of the Health and Safety Code.

(g) Property used exclusively for rental housing and related facilities and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations, including limited partnerships in which the managing general partner is an eligible nonprofit corporation, meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section and shall be entitled to a partial exemption equal to that percentage of the value of the property which the portion of the property serving lower income households is of the total property in any year in which any of the following criteria are applicable:

(1) Twenty percent or more of the occupants of the property are lower income households whose rent does not exceed that prescribed by Section 50053 of the Health and Safety Code.

(2) The acquisition, rehabilitation, development, or operation of the property, or any combination of these factors, is financed with tax-exempt mortgage revenue bonds or general obligation bonds, or is financed by local, state, or federal loans or grants and the rents of the occupants who are lower income households do not exceed those prescribed by deed restrictions or regulatory agreements pursuant to the terms of the financing or financial assistance.

(3) The owner of the property is eligible for and receives

low-income housing tax credits pursuant to Section 42 of the Internal Revenue Code of 1986, as added by Public Law 99-514.

In order to be eligible for the exemption provided by this subdivision, the owner of the property shall do both of the following:

(A) Certify and ensure that there is a deed restriction, agreement, or other legal document which restricts the project's usage and which provides that the units designated for use by lower income households are continuously available to or occupied by lower income households at rents that do not exceed those prescribed by Section 50053 of the Health and Safety Code, or, to the extent that the terms of federal, state, or local financing or financial assistance conflicts with Section 50053, rents do not exceed those prescribed by the terms of the financing or financial assistance.

(B) Certify that the funds which would have been necessary to pay property taxes are used to maintain the affordability of, or reduce rents otherwise necessary for, the units occupied by lower income households.

As used in this subdivision, "lower income households" has the same meaning as the term "lower income households" as defined by Section 50079.5 of the Health and Safety Code.

(h) Property used exclusively for an emergency or temporary shelter and related facilities for homeless persons and families and owned and operated by religious, hospital, scientific, or charitable funds, foundations, or corporations meeting all of the requirements of this section shall be deemed to be within the exemption provided for in subdivision (b) of Section 4 and Section 5 of Article XIII of the California Constitution and this section. Property which would otherwise be exempt pursuant to this subdivision, except that it includes housing and related facilities for other than an emergency or temporary shelter, shall be entitled to a partial exemption.

As used in this subdivision, "emergency or temporary shelter" means a facility which would be eligible for funding pursuant to Chapter 11 (commencing with Section 50800) of Part 2 of Division 31 of the Health and Safety Code.

(i) Property used exclusively for housing and related facilities for employees of religious, charitable, scientific, or hospital organizations which meet all the requirements of subdivision (a) and owned and operated by funds, foundations, or corporations which meet all the requirements of subdivision (a) shall be deemed to be within the exemption provided for in subdivision (b) of Sections 4 and 5 of Article XIII of the California Constitution and this section to the extent the residential use of the property is institutionally necessary for the operation of the organization.

(j) For purposes of this section, charitable purposes include educational purposes. For purposes of this subdivision, educational purposes means those educational purposes and activities for the benefit of the community as a whole or an unascertainable and indefinite portion thereof, and shall not include those educational purposes and activities primarily for the benefit of an organization's

shareholders. Educational activities shall include the study of relevant information, the dissemination of that information to interested members of the general public, and the participation of interested members of the general public.

SEC. 2. The amendment of this section made at the 1989–90 Regular Session of the Legislature does not constitute a change in, but is declaratory of, existing law.

CHAPTER 1293

An act to add Section 426.9 to the Health and Safety Code, relating to indoor air pollution.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature of the State of California makes the following findings and declarations:

(a) The Legislature shares the concern of the United States Environmental Protection Agency and the United States Center for Disease Control regarding the increased risk of developing lung cancer faced by persons exposed to above-average levels of radon in their homes.

(b) The natural occurrence of radon gas, a known carcinogen, is the second leading cause of lung cancer in the United States and has a significant impact on the health of Californians.

(c) The risk posed by radon is regional, detectable, and substantially avoidable.

(d) The intention of the Legislature, by this enactment, is to provide responsible guidance and protection with respect to radon for the people of the state.

SEC. 2. Section 426.9 is added to the Health and Safety Code, to read:

426.9. (a) If model construction standards and techniques for controlling radon levels within new buildings are developed by the United States Environmental Protection Agency, the State Department of Health Services may adopt the standards and incorporate them into any radon assessment and mitigation plan which may be completed by the department and which becomes operative after January 1, 1990, unless the Department of Housing and Community Development adopts radon mitigation building standards, in which case the State Department of Health Services shall adopt no standards other than the standards adopted by the Department of Housing and Community Development.

Any radon assessment and mitigation plan shall include appropriate measures designed to detect, avoid, or dissipate

dangerous levels of radon gas at potential building sites or during construction of new residential buildings in areas affected by radon. Any of those measures shall be appropriately delineated so as to apply only to certain at-risk buildings and geographic areas, and the plan shall specify construction projects, building characteristics, and geographical areas to which the measures apply, to assure ease of compliance and consistency with the findings and assessment of the United States Environmental Protection Agency regarding radon risks. The plan may include reasonable provisions for testing and detection of radon at potential building sites as well as measures to provide for the appropriate radon-dissipating ventilation and insulation of new residential construction consistent with prevailing techniques.

(b) If regulations are adopted by the department to implement any radon assessment and mitigation plan completed by the department after January 1, 1990, no city, county, or other governmental agency may issue a permit to construct any building subject to state department regulation to any applicant who does not first comply with testing or building standards which may be implemented pursuant to this section.

(c) Any building standards which may be adopted pursuant to this section shall become effective as provided by Section 17958.

(d) In developing regulations pursuant to this section, the state department shall consider the methods and techniques which can provide an adequate level of safety at the lowest cost in order to reduce the impact on housing prices.

(e) Subdivisions (a) to (d), inclusive, shall only become operative if federal funds are available to the department for the purposes specified in this section, as determined by the department.

CHAPTER 1294

An act to amend Sections 11450, 11463, and 18350 of, to amend, repeal, and add Section 15200 of, to add Sections 5407, 11215, 11461, 11466.1, 11466.2, 11466.3, 11466.4, 11467, 16501.5, and 16501.7 to, to repeal and add Sections 11460 and 11462 of, and to repeal Sections 11462.6 and 11462.7 of, the Welfare and Institutions Code, relating to public social services, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 5407 is added to the Welfare and Institutions Code, to read:

5407. (a) It is the intent of the Legislature that essential mental health assessment and treatment services be available to court wards

and dependents placed out-of-home or who are at risk of requiring out-of-home care. This can be best achieved at the community level through the active collaboration of county social service, probation, education, and mental health agencies.

(b) Therefore, using the Children's Mental Health Services Act as a guideline, the State Department of Mental Health, in consultation with the California Conference of Local Mental Health Directors, the State Department of Social Services, the County Welfare Directors Association, and the Chief Probation Officer's Association, shall do all of the following:

(1) By July 1, 1990, develop an individualized mental health treatment needs assessment protocol for court wards and dependents.

(2) By October 1, 1990, establish and maintain a special system of payment for supplemental mental health services rendered to court wards and dependents pursuant to this section.

(3) By October 1, 1990, establish, by regulation, all of the following:

(A) Definitions of priority ranking of subsets of the court wards and dependents target population.

(B) Definitions of priority supplemental services to be available to the target population.

(C) A certification procedure, to be employed by the local mental health director, which assures that only mental health services approved by the local mental health director shall be eligible for reimbursement under this section.

(4) Require that the annual County Short-Doyle Plan and Negotiated Net Amount Contract ensure that interagency collaboration and program services are structured in a manner which will facilitate future implementation of the goals of the Children's Mental Health Services Act. Components shall be added to the plans and contracts which specifically address the procedures to be implemented by the county in meeting the provisions of this section. The components are to be developed in collaboration with the county social services and probation departments. Plans and contracts submitted for department approval shall document that the procedures to be implemented in compliance with this section have been approved by the county social services department and the county probation department pursuant to an interagency agreement.

(c) Only those individuals within the target population as defined in regulation and determined to be eligible for services as a result of a mental health treatment needs assessment may receive services pursuant to this section. Priority services shall be provided by the county mental health program in accordance with the County Plan or Negotiated Net Amount Contract approved by the State Department of Mental Health and to the extent that funds are appropriated for the purposes of this section.

The counties shall be held harmless for failure to provide services

to those children identified in need of services for whom there is no funding.

(d) It is the intent of the Legislature to limit supplemental mental health treatment rates for the target population of this section to rates established pursuant to paragraphs (2) and (3) of subdivision (b), effective October 1, 1990. The State Department of Mental Health and the State Department of Social Services, in consultation with appropriate organizations, shall develop a plan to accomplish this intent that includes an analysis of access to, and availability of, mental health treatment for the target population. This plan shall be submitted to the Legislature by July 1, 1990.

(e) The department shall annually report to the Legislature on the service populations provided mental health treatment services pursuant to this section, the types and costs of services provided, and the number of children identified in need of treatment services who did not receive the services.

SEC. 2. Section 11215 is added to the Welfare and Institutions Code, to read:

11215. (a) The department, with the advice and assistance of the County Welfare Directors Association, the Chief Probation Officers Association, and foster care providers, shall develop performance standards and outcome measures for determining the appropriateness of out-of-home care placements made under the AFDC-Foster Care program and for the effective and efficient administration of the AFDC-Foster Care program. These performance standards shall link county administration of the AFDC-Foster Care program to the state funding of the AFDC-Foster Care program as specified in subdivision (c) of Section 15200.

(1) These performance standards shall be developed by July 1, 1993, and shall use the Child Welfare Services Case Management System as the data base by which to collect county specific information. The performance standards shall be designed to measure each county's performance in all of the areas over which the county has some degree of influence and other areas of measurable program performance which the department can demonstrate as areas over which county welfare and probation departments have adequate resources and can demonstrate meaningful managerial or administrative influence. These areas may include accuracy of eligibility determination, stability of foster care placement, appropriateness of level of care provided, compliance with statutory timeliness, and compliance with data reporting requirements. The performance standards system shall include, but not be limited to, outcome measures reflective of county placing agencies' use of the Level of Care Assessment Instrument specified in Section 11467.

(2) The department shall complete a report by January 1, 1994, on the performance standards system, the standards/outcome measures developed, and the method by which the system shall be implemented. The report shall also identify the appropriate circumstances when placement decisions should not be in keeping

with the level of care indicated with the Level of Care Assessment Instrument.

(A) This report shall be submitted to the Chairs of the Senate Appropriations Committee, the Senate Health and Human Services Committee, the Assembly Human Services Committee, and the Assembly Ways and Means Committee.

(B) Between January 1, 1994, and January 1, 1995, the department shall conduct at least two hearings on the proposed performance standards. One hearing shall be held in the northern part of the state, and one hearing shall be held in the southern part of the state.

(3) The performance standards system shall be implemented in conjunction with the implementation of the Child Welfare Services Case Management System. If the Child Welfare Services Case Management System is not implemented by July 1, 1993, as specified in Section 16501.5, the implementation of the performance standards system, as specified in paragraphs (4) and (5), shall be moved to a date two years after the date of implementation of the Child Welfare Services Case Management System.

(4) Regulations regarding the implementation of the performance standards system shall be adopted no later than July 1, 1994. These regulations shall specify both the performance standards system and the manner by which the percentage of state reimbursement to each county for the AFDC-Foster Care program shall be determined.

(5) Effective July 1, 1995, any county which does not meet the performance standards shall be liable for a decrease in the percentage of state reimbursement for the AFDC-Foster Care program to the amounts specified in paragraph (2) of subdivision (c) of Section 15200. This amount will be determined by the department at the start of each fiscal year, beginning with fiscal year 1995–96, pursuant to regulations developed as specified in paragraph (4).

(b) No later than January 1, 1995, the department shall report to the Legislature regarding the AFDC-Foster Care ratesetting system as specified in Section 11462. The report shall contain a review of the ratesetting system, and recommendations as to whether the system should be continued or an alternative system should be considered. The department shall use, but not be limited to, the information available from the Child Welfare Services Case Management System and the Level of Care Assessment Instrument as data sources for this report.

SEC. 3. Section 11450 of the Welfare and Institutions Code is amended to read:

11450. (a) For each needy family, which shall include all eligible brothers and sisters of each eligible applicant or recipient child and the parents of the children, but shall not include unborn children, or recipients of aid under Chapter 3 (commencing with Section 12000), qualified for aid under this chapter, there shall be paid, notwithstanding minimum basic standards of adequate care established by the department under Section 11452, an amount of aid

each month which when added to the family's income, exclusive of any amounts considered exempt as income or paid pursuant to subdivision (e) or Section 11453.1, is equal to the sums specified in the following table, as adjusted for cost-of-living increases pursuant to Section 11453:

Number of eligible needy persons in the same home	Maximum aid
1	$ 258
2	424
3	526
4	625
5	713
6	802
7	880
8	959
9	1,036
10 or more	1,114

If, when, and during such times as the United States government increases or decreases its contributions in assistance of needy children in this state above or below the amount paid on July 1, 1972, the amounts specified in the above table shall be increased or decreased by an amount equal to that increase or decrease by the United States government, provided that no increase or decrease shall be subject to subsequent adjustment pursuant to Section 11453.

(b) When the family does not include a needy child qualified for aid under this chapter, aid shall be paid to a pregnant mother in the amount which would otherwise be paid to one person, as specified in subdivision (a), from the date of verification of pregnancy if the mother, and child if born, would have qualified for aid under this chapter.

(c) The amount of seventy dollars ($70) per month shall be paid to pregnant mothers qualified for aid under subdivision (a) or (b) to meet special needs resulting from pregnancy if the mother, and child, if born, would have qualified for aid under this chapter. County welfare departments shall refer all recipients of aid under this subdivision to a local provider of the Women, Infants and Children program. If that payment to pregnant mothers qualified for aid under subdivision (a) is considered income under federal law in the first five months of pregnancy, payments under this subdivision shall not apply to persons eligible under subdivision (a), except for the month in which birth is anticipated and for the three-month period immediately prior to the month in which delivery is anticipated, if the mother, and the child if born, would have qualified for aid under this chapter.

(d) For children receiving AFDC-FC under this chapter, there

shall be paid, exclusive of any amount considered exempt as income, an amount of aid each month which, when added to the child's income, is equal to the rate specified in Section 11460, 11461, 11462, 11462.1, or 11463. In addition, the child shall be eligible for special needs, as specified in departmental regulations.

(e) In addition to the amounts payable under subdivision (a) and Section 11453.1, a family shall be entitled to receive an allowance for recurring special needs not common to a majority of recipients. These recurring special needs shall include, but not be limited to, special diets upon the recommendation of a physician for circumstances other than pregnancy, and unusual costs of transportation, laundry, housekeeping service, telephone, and utilities. The recurring special needs allowance for each family per month shall not exceed that amount resulting from multiplying the sum of ten dollars ($10) by the number of recipients in the family who are eligible for assistance.

(f) After a family has used all available liquid resources, both exempt and nonexempt, in excess of one hundred dollars ($100), the family shall also be entitled to receive an allowance for nonrecurring special needs.

(1) An allowance for nonrecurring special needs shall be granted for replacement of clothing and household equipment and for emergency housing needs other than those needs addressed by paragraph (2). These needs shall be caused by sudden and unusual circumstances beyond the control of the needy family. The department shall establish the allowance for each of the nonrecurring special need items. The sum of all nonrecurring special needs provided by this subdivision shall not exceed six hundred dollars ($600) per event.

(2) Homeless assistance is available to a homeless family seeking shelter when the family is eligible for aid under this chapter. Homeless assistance for temporary shelter is also available to homeless families which are apparently eligible for aid under this chapter. Apparent eligibility exists when evidence presented by the applicant or which is otherwise available to the county welfare department and the information provided on the application documents indicate that there would be eligibility for aid under this chapter if the evidence and information were verified. However, an alien applicant who does not provide verification of his or her eligible alien status, or a woman with no eligible children who does not provide medical verification of pregnancy, is not apparently eligible for purposes of this section.

A family is considered homeless, for the purpose of this section, when the family lacks a fixed and regular nighttime residence; or the family has a primary nighttime residence that is a supervised publicly or privately operated shelter designed to provide temporary living accommodations; or the family is residing in a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

(A) A nonrecurring special need of thirty dollars ($30) a day shall be available for up to three weeks to families for the costs of temporary shelter. County welfare departments may increase the daily amount available for temporary shelter to large families as necessary to secure the additional bed space needed by the family. This special need shall be granted or denied immediately upon the family's application for homeless assistance. The three-week limit shall be extended one week based upon good cause or other circumstances defined by the department. Good cause shall include, but is not limited to, situations in which the county welfare department has determined that the family, to the extent it is capable, has made a good faith but unsuccessful effort to secure permanent housing within the three week limit.

(B) A nonrecurring special need for permanent housing assistance is available to pay for last month's rent and security deposits when these payments are reasonable conditions of securing a residence.

The last month's rent portion of the payment (1) shall not exceed 80 percent of the family's maximum aid payment without special needs for a family of that size and (2) shall only be made to families that have found permanent housing costing no more than 80 percent of the family's maximum aid payment without special needs for a family of that size, in accordance with the maximum aid schedule specified in subdivision (a).

However, if the county welfare department determines that a family intends to reside with individuals who will be sharing housing costs, the county welfare department shall, in appropriate circumstances, set aside the condition specified in clause (2) of the preceding paragraph.

(C) The nonrecurring special need for permanent housing assistance is also available to cover the standard costs of deposits for utilities which are necessary for the health and safety of the family.

(D) A payment for or denial of permanent housing assistance shall be issued no later than one working day from the time that a family presents evidence of the availability of permanent housing. If an applicant family provides evidence of the availability of permanent housing before the county welfare department has established eligibility for aid under this chapter, the county welfare department shall complete the eligibility determination so that the denial of or payment for permanent housing assistance is issued within one working day from the submission of evidence of the availability of permanent housing, unless the family has failed to provide all of the verification necessary to establish eligibility for aid under this chapter.

(E) Eligibility for the temporary shelter assistance and the permanent housing assistance pursuant to paragraph (2) is limited to once every 12 months.

(F) The county welfare departments, and all other entities participating in the costs of the AFDC program, have the right in

their share to any refunds resulting from payment of the permanent housing. However, if an emergency requires the family to move within the 12-month period specified in subparagraph (E), the family shall be allowed to use any refunds received from its deposits to meet the costs of moving to another residence.

(G) Payments to providers for temporary shelter and permanent housing and utilities shall be made on behalf of families requesting these payments.

(H) The daily amount for the temporary shelter special need for homeless assistance may be increased if authorized by the current year's Budget Act by specifying a different daily allowance and appropriating the funds therefor.

(g) The department shall establish rules and regulations assuring the uniform application statewide of this subdivision.

(h) The department shall notify all applicants and recipients of aid through the standardized application form that these benefits are available and shall provide an opportunity for recipients to apply for the funds quickly and efficiently.

(i) Except for the purposes of Section 15200, the amounts payable to recipients pursuant to Section 11453.1 shall not constitute part of the payment schedule set forth in subdivision (a).

The amounts payable to recipients pursuant to Section 11453.1 shall not constitute income to recipients of aid under this section.

SEC. 3.5. Section 11450 of the Welfare and Institutions Code is amended to read:

11450. (a) For each needy family, which shall include all eligible brothers and sisters of each eligible applicant or recipient child and the parents of the children, but shall not include unborn children, or recipients of aid under Chapter 3 (commencing with Section 12000), qualified for aid under this chapter, there shall be paid, notwithstanding minimum basic standards of adequate care established by the department under Section 11452, an amount of aid each month which when added to the family's income, exclusive of any amounts considered exempt as income or paid pursuant to subdivision (e) or Section 11453.1, is equal to the sums specified in the following table, as adjusted for cost-of-living increases pursuant to Section 11453:

Number of eligible needy persons in the same home	Maximum aid
1	$ 258

If, when, and during such times as the United States government increases or decreases its contributions in assistance of needy children in this state above or below the amount paid on July 1, 1972, the amounts specified in the above table shall be increased or decreased by an amount equal to that increase or decrease by the United States government, provided that no increase or decrease shall be subject to subsequent adjustment pursuant to Section 11453.

(b) When the family does not include a needy child qualified for aid under this chapter, aid shall be paid to a pregnant mother in the amount which would otherwise be paid to one person, as specified in subdivision (a), if the mother, and child if born, would have qualified for aid under this chapter. Verification of pregnancy shall be required as a condition of eligibility for aid under this subdivision.

(c) The amount of seventy dollars ($70) per month shall be paid to pregnant mothers qualified for aid under subdivision (a) or (b) to meet special needs resulting from pregnancy if the mother, and child, if born, would have qualified for aid under this chapter. County welfare departments shall refer all recipients of aid under this subdivision to a local provider of the Women, Infants and Children program. If that payment to pregnant mothers qualified for aid under subdivision (a) is considered income under federal law in the first five months of pregnancy, payments under this subdivision shall not apply to persons eligible under subdivision (a), except for the month in which birth is anticipated and for the three-month period immediately prior to the month in which delivery is anticipated, if the mother, and the child if born, would have qualified for aid under this chapter.

(d) For children receiving AFDC-FC under this chapter, there shall be paid, exclusive of any amount considered exempt as income, an amount of aid each month which, when added to the child's income, is equal to the rate specified in Section 11460, 11461, 11462, 11462.1, or 11463. In addition, the child shall be eligible for special needs, as specified in departmental regulations.

(e) In addition to the amounts payable under subdivision (a) and Section 11453.1, a family shall be entitled to receive an allowance for recurring special needs not common to a majority of recipients. These recurring special needs shall include, but not be limited to, special diets upon the recommendation of a physician for circumstances other than pregnancy, and unusual costs of transportation, laundry, housekeeping service, telephone, and utilities. The recurring special needs allowance for each family per month shall not exceed that amount resulting from multiplying the sum of ten dollars ($10) by the number of recipients in the family who are eligible for assistance.

(f) After a family has used all available liquid resources, both

exempt and nonexempt, in excess of one hundred dollars ($100), the family shall also be entitled to receive an allowance for nonrecurring special needs

(1) An allowance for nonrecurring special needs shall be granted for replacement of clothing and household equipment and for emergency housing needs other than those needs addressed by paragraph (2). These needs shall be caused by sudden and unusual circumstances beyond the control of the needy family. The department shall establish the allowance for each of the nonrecurring special need items. The sum of all nonrecurring special needs provided by this subdivision shall not exceed six hundred dollars ($600) per event.

(2) Homeless assistance is available to a homeless family seeking shelter when the family is eligible for aid under this chapter. Homeless assistance for temporary shelter is also available to homeless families which are apparently eligible for aid under this chapter. Apparent eligibility exists when evidence presented by the applicant or which is otherwise available to the county welfare department and the information provided on the application documents indicate that there would be eligibility for aid under this chapter if the evidence and information were verified. However, an alien applicant who does not provide verification of his or her eligible alien status, or a woman with no eligible children who does not provide medical verification of pregnancy, is not apparently eligible for purposes of this section.

A family is considered homeless, for the purpose of this section, when the family lacks a fixed and regular nighttime residence; or the family has a primary nighttime residence that is a supervised publicly or privately operated shelter designed to provide temporary living accommodations; or the family is residing in a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

(A) A nonrecurring special need of thirty dollars ($30) a day shall be available for up to three weeks to families for the costs of temporary shelter. County welfare departments may increase the daily amount available for temporary shelter to large families as necessary to secure the additional bed space needed by the family. This special need shall be granted or denied immediately upon the family's application for homeless assistance. The three-week limit shall be extended one week based upon good cause or other circumstances defined by the department. Good cause shall include, but is not limited to, situations in which the county welfare department has determined that the family, to the extent it is capable, has made a good faith but unsuccessful effort to secure permanent housing within the three week limit.

(B) A nonrecurring special need for permanent housing assistance is available to pay for last month's rent and security deposits when these payments are reasonable conditions of securing a residence.

The last month's rent portion of the payment (1) shall not exceed 80 percent of the family's maximum aid payment without special needs for a family of that size and (2) shall only be made to families that have found permanent housing costing no more than 80 percent of the family's maximum aid payment without special needs for a family of that size, in accordance with the maximum aid schedule specified in subdivision (a).

However, if the county welfare department determines that a family intends to reside with individuals who will be sharing housing costs, the county welfare department shall, in appropriate circumstances, set aside the condition specified in clause (2) of the preceding paragraph.

(C) The nonrecurring special need for permanent housing assistance is also available to cover the standard costs of deposits for utilities which are necessary for the health and safety of the family.

(D) A payment for or denial of permanent housing assistance shall be issued no later than one working day from the time that a family presents evidence of the availability of permanent housing. (E) Eligibility for the temporary shelter assistance and the permanent housing assistance pursuant to paragraph (2) is limited to once every 12 months.

(F) The county welfare departments, and all other entities participating in the costs of the AFDC program, have the right in their share to any refunds resulting from payment of the permanent housing. However, if an emergency requires the family to move within the 12-month period specified in subparagraph (E), the family shall be allowed to use any refunds received from its deposits to meet the costs of moving to another residence.

(G) Payments to providers for temporary shelter and permanent housing and utilities shall be made on behalf of families requesting these payments.

(H) The daily amount for the temporary shelter special need for homeless assistance may be increased if authorized by the current year's Budget Act by specifying a different daily allowance and appropriating the funds therefor.

(g) The department shall establish rules and regulations assuring the uniform application statewide of this subdivision.

(h) The department shall notify all applicants and recipients of aid through the standardized application form that these benefits are available and shall provide an opportunity for recipients to apply for

the funds quickly and efficiently.

(i) Except for the purposes of Section 15200, the amounts payable to recipients pursuant to Section 11453.1 shall not constitute part of the payment schedule set forth in subdivision (a).

The amounts payable to recipients pursuant to Section 11453.1 shall not constitute income to recipients of aid under this section.

SEC. 4. Section 11460 of the Welfare and Institutions Code is repealed.

SEC. 5. Section 11460 is added to the Welfare and Institutions Code, to read:

11460. (a) Foster care providers shall be paid a per child per month rate in return for the care and supervision of the AFDC-FC child placed with them. The department is designated the single organizational unit whose duty it shall be to administer a state system for establishing rates in the AFDC-FC program. State functions shall be performed by the department or by delegation of the department to county welfare departments.

(c) "Care and supervision" includes food, clothing, shelter, daily supervision, school supplies, a child's personal incidentals, liability insurance with respect to a child, and reasonable travel to the child's home for visitation.

(1) For a child placed in a group home, care and supervision shall also include reasonable administration and operational activities necessary to provide the items listed in this subdivision.

(2) For a child placed in a group home, care and supervision may also include reasonable activities performed by social workers employed by the group home provider which are not otherwise considered daily supervision or administration activities.

(c) It is the intent of the Legislature to establish a standardized schedule of rates for group homes, effective July 1, 1990.

(d) It is the intent of the Legislature to establish group home rates, effective between July 1, 1989, and June 30, 1990, using current regulations and policies of the department. Therefore, group home rates during this period shall be established as follows:

(1) Initial rates for new programs of new providers shall be based on projected allowable and reasonable costs, and the projected Program Peer Group. In no case shall the per child per month rate exceed the following:

Program Peer Group	Rate
Family	$1,299
Social	1,856
Psychological	2,323
Psychiatric	3,432

(2) Initial rates for new programs of existing providers shall be based on projected allowable and reasonable costs, and the projected Program Peer Group. The initial per child per month rate shall be established at the least of the program's projected allowable and

reasonable costs, or the rate for the provider's most comparable existing program, or the following table based on the 85th percentile of rates for all programs in the Program Peer Group for the new program's projected peer group.

Program Peer Group	Rate
Family	$1,474
Social	2,291
Psychological	2,809
Psychiatric	3,816

Prior to the department establishing a new program rate, the provider shall submit, from the welfare or probation department of the host county or primary placing county, verification of the need for the new program for placement purposes and confirmation that this program will serve an entirely different population at an entirely different level of service than currently served by the provider's existing programs.

(3) (A) A new or existing provider with a new program, operating with an initial rate, which has a first six-month cost period that ends on or before April 30, 1990, may request a rate based on that first cost period. The department shall establish a rate based on the actual allowable and reasonable costs of the first cost period. In no case shall the rate exceed the 85th percentile of rates for all programs in the same Program Peer Group, as listed in paragraph (2). The rate request shall be received by June 30, 1990, for the rate request to be processed.

(B) A new or existing provider with a new program, operating with an initial rate, shall continue with the initial rate through June 30, 1990, if the new program has either of the following:

(i) A first six-month cost period that ends after April 30, 1990.

(ii) A first six-month cost period that ends on or before April 30, 1990, and either does not request a rate based on that first cost period, or does not submit the rate request by June 1, 1990.

(4) All other group home programs shall be paid at the rates paid during the 1988–89 fiscal year.

(5) All subsequent rates for these programs shall be established pursuant to Section 11462.

(e) A foster care provider that accepts payments, following the effective date of this section, based on a rate established under this section, shall not receive rate increases or retroactive payments as the result of litigation challenging rates established prior to the effective date of this section. This shall apply regardless of whether a provider is a party to the litigation or a member of a class covered by the litigation.

SEC. 6. Section 11461 is added to the Welfare and Institutions Code, to read:

11461. (a) For children placed in a licensed or approved family home with a capacity of six or less, or in an approved home of a

relative or nonrelated legal guardian, the per child per month rates in the following schedule shall be in effect for the period July 1, 1989, through December 31, 1989:

Age	Basic rate
0–4	$ 294
5–8	319
9–11	340
12–14	378
15–20	412

(b) (1) Any county that, as of the effective date of this section, has in effect a basic rate that is at the levels set forth in the schedule in subdivision (a), shall continue to receive state participation, as specified in subdivision (c) of Section 15200, at these levels.

(2) Any county that, as of the effective date of this section, has in effect a basic rate that exceeds a level set forth in the schedule in subdivision (a), shall continue to receive the same level of state participation as it received on the effective date of this section.

(c) The amounts in the schedule of basic rates in subdivision (a) shall be adjusted as follows:

(1) Effective January 1, 1990, the amounts in the schedule of basic rates in subdivision (a) shall be increased by 12 percent.

(2) For the 1990–91 fiscal year, the amounts in the schedule of basic rates in subdivision (a) shall be increased by an additional 5 percent.

(3) Beginning with the 1991–92 fiscal year, the schedule of basic rates in subdivision (a) shall be adjusted by the percentage change in the California Necessities Index, computed pursuant to the methodology described in Section 11453, subject to the availability of funds.

(d) (1) Any county that, as of the effective date of this section, receives state participation for a basic rate that exceeds the amount set forth in the schedule of basic rates in subdivision (a), shall receive an increase each year in state participation for that basic rate of one-half of the percentage adjustments specified in subdivision (c) until the difference between the county's adjusted state participation level for its basic rate and the adjusted schedule of basic rates is eliminated.

(2) If a county has, after receiving the adjustments specified in paragraph (1), a state participation level for a basic rate that is below the amount set forth in the adjusted schedule of basic rates for that fiscal year, the state participation level for that rate shall be further increased to raise it up to the amount in the adjusted schedule of basic rates.

(e) (1) As used in this section, "specialized care increment" means an approved amount paid with state participation on behalf of an AFDC-FC child requiring specialized care to a home listed in subdivision (a) in addition to the basic rate. On the effective date of

this section, the department shall continue and maintain the current ratesetting system for specialized care.

(2) Any county that, as of the effective date of this section, has in effect specialized care increments that have been approved by the department, shall continue to receive state participation for those payments.

(3) Any county that, as of the effective date of this section, has in effect specialized care increments that exceed the amounts that have been approved by the department, shall continue to receive the same level of state participation as it received on the effective date of this section.

(4) Except for subparagraph (A), beginning January 1, 1990, specialized care increments shall be adjusted in accordance with the methodology for the schedule of basic rates described in subdivision (c). No county shall receive state participation for any increases in a specialized care increment which exceeds the adjustments made in accordance with this methodology.

(A) It is the intent of the Legislature that for fiscal year 1991–92, an amount equal to 5 percent of the State Treasury appropriation for family homes be added to the total augmentation for the AFDC-FC program in order to provide incentives and assistance to counties in the area of specialized care. This appropriation shall be used, but not limited to, encouraging counties to implement or expand specialized care payment systems, to recruit and train foster parents for the placement of children with specialized care needs, and to develop county systems to encourage the placement of children in family homes. It is also the intent of the Legislature that in the use of these funds, federal financial participation shall be claimed whenever possible.

(5) The department shall report, in consultation with counties, the State Foster Parents Association, and representatives of other foster care providers, to the Legislature by December 31, 1990, on the department's specialized care ratesetting system regarding its effectiveness in meeting the special needs of children in foster care. At a minimum, the department's report shall address the following:

(A) A description of the current specialized care system and its strengths and weaknesses.

(B) The characteristics of children receiving specialized care and the cost of that care.

(C) The types of specialized care which are needed by children but which are not readily available for these children; the cost of providing that care; and the current placements of children with special needs in the absence of that care.

(D) The extent to which specialized foster family care can provide an alternative to group home care and the costs and savings which would be associated with greater emphasis on specialized family foster care.

(E) Recommendations on needed improvements to specialized family foster care.

(F) (1) As used in this section, "clothing allowance" means the amount paid with state participation in addition to the basic rate for the provision of additional clothing for an AFDC-FC child, including, but not limited to, an initial supply of clothing and school or other uniforms.

(2) Any county that, as of the effective date of this section, has in effect clothing allowances, shall continue to receive the same level as it received on the effective date of this section.

(3) Beginning January 1, 1990, clothing allowances shall be adjusted annually in accordance with the methodology for the schedule of basic rates described in subdivision (c). No county shall be reimbursed for any increases in clothing allowances which exceed the adjustments made in accordance with this methodology.

SEC. 7. Section 11462 of the Welfare and Institutions Code is repealed.

SEC. 8. Section 11462 is added to the Welfare and Institutions Code, to read:

11462. (a) Effective July 1, 1990, foster care providers licensed as group homes, as defined in departmental regulations, including public child care institutions, as defined in Section 11402.5, shall have rates established by classifying each group home program and applying the standardized schedule of rates. For the purposes of this chapter, foster care providers licensed as group homes shall include Community Treatment Facilities (CTF's) licensed by the department. The department shall collect information from group providers beginning January 1, 1990, in order to classify each group home program.

(b) A group home program shall be classified according to the level of care and services to be provided using a point system developed by the department and described in the report, "The Classification of Group Home Programs under the Standardized Schedule of Rates System," prepared by the State Department of Social Services, August 30, 1989.

(c) The rate for each rate classification level (RCL) has been determined by the department with data from the AFDC-FC Group Home Rate Classification Pilot Study. The rates effective July 1, 1990, were developed using 1985 calendar year costs and reflect adjustments to the costs for each fiscal year, starting with the 1986–87 fiscal year, by the amount of the California Necessities Index computed pursuant to the methodology described in Section 11453. The data obtained by the department using 1985 calendar year costs shall be updated and revised by January 1, 1993.

(d) As used in this section, "standardized schedule of rates" means a listing of the 14 rate classification levels, the single rate established for each RCL, and the rate floor for each RCL.

(e) The standardized schedule of rates shall be phased in commencing July 1, 1990.

(1) In order to phase in the standardized schedule of rates, a "rate floor" has been established for each RCL.

(2) The rate floor for fiscal year 1990–91 shall be 85 percent of the standard rate for each RCL. The rate floor shall be increased to 92.5 percent of the standard rate for fiscal year 1991–92 for each RCL, and shall be equal to the standard rate for each RCL for fiscal year 1992–93 and beyond.

(f) Except as specified in paragraph (1), the department shall determine the RCL for each group home program on a prospective basis, according to the level of care and services that the group home operator projects will be provided during the period of time for which the rate is being established.

(1) For a group home program for which the department established a rate effective prior to January 1, 1990, that took into account the program's historical costs, the department shall establish the rate for fiscal year 1990–91 by determining the RCL on a retrospective basis, according to the level of care and services actually provided between July 1 and December 31, 1989.

(2) Group home programs that fail to maintain at least the level of care and services associated with the RCL upon which their rate was established shall immediately inform the department, and their rate shall be reduced to reflect the level of care and services actually being provided.

(g) The standardized schedule of rates for fiscal year 1990–91 is:

Rate Classification Level	Point Ranges	FY 1990–91 Standard Rate	FY 1990–91 Rate Floor (85%)
1	Under 60	$1,183	$1,006

(1) Unless licensed as a CTF by the department, a group home program shall be classified at RCL level 1 through 12.

(2) A CTF shall be classified at level 13 or 14 as long as the group home program has the requisite number of points. A CTF which does not have the requisite number of points to be classified at level 13 or 14 shall be classified at the appropriate RCL 1 through 12.

(h) (1) For fiscal year 1990–91, the standardized schedule of rates

shall be implemented as follows:

(A) Any group home program which received an AFDC-FC rate in the prior fiscal year below the standard rate for the fiscal year 1990–91 RCL shall receive their 1989–90 rate plus an amount equal to the California Necessities Index (CNI). The rate for fiscal year 1990–91 at which the state will participate shall not exceed the standard rate for the RCL.

(B) If the CNI increase to the group home program's fiscal year 1989–90 rate does not raise the group home program to the rate floor for the RCL, the group home program shall receive a rate equal to the rate floor for the RCL.

(C) A group home program which received an AFDC-FC rate for fiscal year 1989–90 at or above the standard rate for the RCL for fiscal year 1990–91 shall continue to receive that fiscal year 1989–90 rate.

(2) For fiscal year 1991–92 and fiscal year 1992–93, the standardized rate for each RCL shall be adjusted by an amount equal to CNI computed pursuant to the methodology described in Section 11453.

(A) Any group home program which received an AFDC-FC rate in the prior fiscal year at or above the adjusted standard rate for the RCL in the current fiscal year shall continue to receive that rate.

(B) A group home program which received an AFDC-FC rate in the prior fiscal year below the standard rate for the RCL in the current fiscal year shall receive that rate adjusted by an amount equal to the CNI. The rate for the current fiscal year shall not exceed the standard rate for the RCL and shall not be less than the rate floor for the RCL.

(3) Beginning with the 1993–94 fiscal year, the standardized schedule of rates shall be adjusted annually by an amount equal to the CNI computed pursuant to Section 11453, subject to the availability of funds.

(A) Any group home program which received an AFDC-FC rate in the prior fiscal year at or above the adjusted standard rate for the RCL in the current fiscal year shall continue to receive that rate.

(B) Any group home program which received an AFDC-FC rate in the prior fiscal year below the adjusted standard rate for the RCL in the current fiscal year shall receive the adjusted RCL rate.

(i) (1) The rate for a new group home program of a new or existing provider shall be established at the rate floor for the new program's projected RCL.

(2) The department shall not establish a rate for a new program of a new or existing provider unless the provider submits a recommendation from the host county, the primary placing county, or a regional consortium of counties that the program is needed in that county; that the provider is capable of effectively and efficiently operating the program; and that the provider is willing and able to accept AFDC-FC children for placement who are determined by the placing agency to need the level of care and services that will be provided by the program.

(3) The department shall encourage the establishment of consortia of county placing agencies on a regional basis for the purpose of making decisions and recommendations about the need for, and use of, group home programs and other foster care providers within the regions.

(4) The department shall annually conduct a county-by-county survey to determine the unmet placement needs of children placed pursuant to Sections 300 and Section 601 or 602, and shall publish its findings by November 1 of each year.

(j) (1) Group home providers that change their existing programs in any way that may affect their RCL or their AFDC-FC rates shall inform the department of the changes in a manner and within timeframes specified by the department. These changes include, but are not limited to, increases and decreases in licensed capacity, opening and closing of facilities, changes in a provider's administrative or corporate structure, changes in the types or level of care and services provided, and changes in the types of children accepted for placement. Failure to inform the department of these changes may result in a delay in the effective date of a rate increase, the termination of a provider's rates, a reduction in a provider's rates, the establishment of an overpayment which the provider is required to repay, and other actions specified by the department through regulations.

(2) Except as specified in subparagraph (A), a group home program which increases its licensed capacity and continues to provide the same level of care and services shall receive a rate that is the lesser of that program's existing rate prior to its expansion or the standard rate for its RCL.

(A) If the increase in a program's licensed capacity is five or less and the expansion occurs at a facility where the group home program is already being provided, then the program shall continue to receive its existing rate prior to the expansion.

(B) Group home programs that increase or decrease their licensed capacity and simultaneously change the level of care and services provided shall have their rates established in accordance with paragraphs (3) and (4).

(3) Except as specified in subparagraph (A), a group home program which increases the level of care and services provided, thereby changing that program's RCL, shall receive a rate equal to the greater of that program's existing rate or the rate floor for its new RCL.

(A) If the increase in the level of care and services changes a program's classification level by two or more RCLs, the provider shall submit satisfactory verification from county placing agencies, as specified in paragraphs (2) and (3) of subdivision (i).

(4) A group home program which decreases the level of care and services provided, thereby changing that program's RCL, shall receive a rate equal to the lesser of that program's existing rate or the standard rate for its new RCL.

(k) General unrestricted or undesignated private charitable donations and contributions made to charitable or nonprofit organizations shall not be deducted from the cost of providing services pursuant to this section.

(*l*) The department shall, by October 1 each year, commencing October 1, 1992, provide the Joint Legislative Budget Committee with a list of any new departmental requirements established during the previous fiscal year concerning the operation of group homes, and of any unusual, industrywide increase in costs associated with the provision of group care which may have significant fiscal impact on providers of group homes care. The committee may, in fiscal year 1993–94 and beyond, use the list to determine whether an appropriation for rate adjustments is needed in the subsequent fiscal year.

(m) Following the initial implementation of the group home ratesetting system described in this section, the department, with the advice and assistance of the counties and representatives of providers of group home care, may submit to the Legislature recommendations to modify the program classification point system, number of rate classification levels, amounts that make up the standardized schedule of rates, or other components of the system. These recommendations shall be based on the department's review and evaluation of the program classification system, group home cost data collected pursuant to Section 11466.3, and information from the Group Home Program Statements and Level of Care Assessments specified in Section 11467.

(n) It is the Legislature's intent to enact a Foster Care Ratesetting system which shall be used beginning July 1, 1993, to adjust the rates specified in subdivision (g), as adjusted pursuant to paragraphs (1) and (2) of subdivision (h). The primary goal of this system shall be to adjust rates as necessary to ensure an adequate supply of quality out-of-home care in each of the classifications specified in subdivision (g) while minimizing the costs of purchasing the care. The Legislature recognizes that there is a wide range of potential ratesetting systems that could have varying degrees of success in achieving this goal.

In order to provide the Legislature with the information it needs to choose the best possible ratesetting system, the Legislative Analyst shall report to the Legislature by December 1, 1991, on a variety of options for foster care ratesetting. Specifically, the report shall at a minimum assess (1) the possibility of modeling the ratesetting system after any of the various ratesetting systems used by the state in other programs, (2) any ratesetting system proposed by the department, (3) any ratesetting system proposed by any foster care provider, nonprofit organization representing providers of group home care and foster care in California, or by the California Welfare Director's Association. The report shall not include an assessment of any proposed ratesetting system if the written proposal is submitted to the Legislative Analyst after December 1, 1990, or if the written

proposal exceeds 50 double-spaced typewritten pages, or if the written proposal does not provide sufficient detail, in the judgment of the Legislative Analyst, to allow a comprehensive assessment. The report may also assess any ratesetting system identified by the Legislative Analyst in addition to those identified above.

In assessing each ratesetting sytem, the report shall, at a minimum, address all of the following: (1) the cost to administer the system, (2) the likelihood that the system will result in rates that are adequate to attract and maintain enough providers of foster care to prevent shortages of beds in specific geographic areas or within any of the categories of care specified in subdivision (d), and (3) the potential magnitude of rate increases that the system will generate in its first five years of operation. In order to provide the Legislative Analyst with the information that will be needed to address these effects, the department shall provide the Legislative Analyst with its estimates of each effect with respect to each proposed system by August 1, 1991.

The report shall also provide the Legislative Analyst's recommendations, if any, regarding which system the Legislature should enact.

(b) The department shall develop regulations specifying the purposes, types, and services of foster family agencies, including the use of those agencies for the provision of emergency shelter care. (b) Effective July 1, 1990, the department shall not apply or enforce standards with regard to the reasonableness of expenditures pursuant to Section 11462 that are not made available to group home providers, in writing, prior to the beginning of the period for which a rate is established.

(c) The department shall consult with representatives of group home providers concerning the development of those standards and the modification of existing standards. Group home providers shall receive written notice of, and have the opportunity to comment upon, new and modified standards proposed by the department.

(d) The department shall make available to group home providers, in writing, any new or modified standards prior to the beginning of the period upon which a rate is calculated, if possible, or as quickly as it is administratively practical to do so. Notwithstanding subdivisions (b) and (c), in the event of an unanticipated circumstance or unusual expenditure, the department may exercise its discretion in interpreting what is an allowable or a reasonable expenditure. However, the department shall make those interpretations available to group home providers, in writing, as quickly as it is practical to do so.

CHAPTER 1296

An act to amend Section 5714.2 of the Welfare and Institutions Code, relating to mental health, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 5714.2 of the Welfare and Institutions Code is amended to read:

5714.2. (a) Subject to the approval of the department, at the end of the fiscal year, a county may retain unexpended funds allocated to it, exclusive of the amount required to care for patients in state hospitals, for 12 months for expenditure for mental health services in accordance with this part.

However, no funds to which this subdivision applies shall be used

for 24-hour hospital services.

(b) Each fiscal year, counties using state hospitals in excess of their annual state hospital day allocations shall receive an assessment against their local assistance allocation for that year. This assessment shall be based on the statewide variable per diem cost of care times the number of days used in excess of the annual allocation. However, counties having a state hospital day allocation lower than the statewide per capita average shall only be assessed an amount that, when combined with assessments for counties having a state hospital day allocation exceeding the statewide per capita average, will equal but not exceed the cost of overuse to state hospitals in excess of the state hospital appropriation. The State Department of Mental Health shall execute the assessments no later than 180 days after the end of each fiscal year.

(c) To the extent that funds are available, the department shall do all of the following:

(1) The assessment required by subdivision (b) shall be waived for counties which have a population of less than 125,000 according to the most recent estimates available from the Department of Finance.

(2) For counties with populations less than 170,000 according to the most recent estimate available from the Department of Finance, up to two patients utilizing state hospital days for two years or more under conservatorship shall not be counted toward that county's allocation of state hospital days; however, no conservatee shall remain in the state hospital solely to qualify for this exemption.

(d) Funds accruing from the assessments required pursuant to subdivision (b), less any costs incurred in the year of the assessments by state hospitals which are in excess of the state hospital appropriation, shall be allocated to underusing counties. Counties shall be allowed to expend these funds for mental health services and capital outlay purposes including the acquisition of land. Allocation of funds shall be made to counties who underused their state hospital day allocation in a given year and who have a proposal approved by the State Department of Mental Health. The amount of the allocation shall be the number of underutilized days in a fiscal year times the variable per diem cost as calculated for that year, or pro rata share of available funds, whichever is less. These funds shall be spent in accordance with the approved project plan and shall be subject to audit. All audit disallowance shall be returned to the State Department of Mental Health.

(e) Funds retained by a county pursuant to subdivision (b) may be expended for capital projects for services which have been approved in the county Short-Doyle plan, in order to enable counties to purchase and renovate facilities to house treatment programs which will act as an alternative to institutional care. The approval of the capital project shall be specifically approved by the department as a part of the annual Short-Doyle plan.

SEC. 2. The provisions of this act shall be operative only to the

extent that funds are appropriated for this purpose in the annual Budget Act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to avoid financial hardship for small population counties and to avoid the unnecessary penalizing of counties which have a state hospital day allocation lower than the statewide per capita average, it is necessary that this act go into immediate effect.

SEC. 17. Section 23197 is added to the Vehicle Code, to read:

23197. (a) Except as provided in subdivision (c), an order to pay any fine, restitution, or assessment, imposed as a condition of the grant of probation or as part of a judgment of conditional sentence for a violation of Section 23152 or 23153, may be enforced in the same manner provided for the enforcement of money judgments.

(b) A willfull failure to pay any fine, restitution, or assessment during the term of probation, is a violation of the terms and conditions of probation.

(c) If an order to pay a fine as a condition of probation is stayed, a writ of execution shall not be issued, and any failure to pay the fine is not willful, until the stay is removed.

SEC. 18. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 19. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

(a) Chapter 1118 of the Statutes of 1986 contained ambiguous language pertaining to the order of probation for persons convicted of driving while under the influence of alcohol or drugs. Some jurisdictions have interpreted this provision to preclude the court from placing a defendant on formal probation under the supervision of a probation officer.

(b) Annually, in September, each county submits both alcohol and drug plans to the State Department of Alcohol and Drug Programs. The statutory guidelines for preparation and submission for each of these plans is different, thereby creating an unnecessary duplication of effort at the county and state levels.

In order to ensure that the court has the ability, when deemed appropriate, to order formal probation for persons convicted of driving under the influence of alcohol or drugs and to eliminate, before the September 1989 submission due date of the county alcohol and drug plans, the costs associated with the unnecessary duplication of effort, it is necessary for this act to take effect immediately.

CHAPTER 1298

An act to add Section 94310.5 to the Education Code, relating to postsecondary education.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 94310.5 is added to the Education Code, to read:

94310.5. A nonaccredited institution shall not issue, confer, or award an academic or honorary degree pursuant to Section 94310.2 or 94310.3 if the institution allows more than 20 percent of the credit towards a degree to be life or work experience credit.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1299

An act to amend Section 19622 of the Business and Professions Code, relating to district agricultural associations, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 19622 of the Business and Professions Code is amended to read:

19622. The following amounts are hereby annually appropriated out of the fund:

(a) Two hundred sixty-five thousand dollars ($265,000) for the support and administration of the California Exposition and State Fair.

(b) Two hundred fifty thousand dollars ($250,000) for the support and administration of the Los Angeles County Fair.

(c) Two hundred fifty thousand dollars ($250,000) for the support

and administration of the 1-A District Agricultural Association.

(d) One hundred seventy-five thousand dollars ($175,000) to the 1-A District Agricultural Association for conducting annually a junior livestock show and exposition for students in California schools, grades K to 12, inclusive.

CHAPTER 1300

An act to amend Section 31580.2 of, and to add Article 2.1 (commencing with Section 31510) to Chapter 3 of Part 3 of Division 4 of Title 3 of, the Government Code, relating to the County Employees Retirement Law of 1937, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. Article 2.1 (commencing with Section 31510) is added to Chapter 3 of Part 3 of Division 4 of Title 3 of the Government Code, to read:

Article 2.1. Additional Plan for Counties of the First Class

31510. (a) This article shall be applicable to all members of the retirement system of any county of the first class, as defined by Section 28020, as amended by Chapter 1204 of the Statutes of 1971, and Section 28022, as amended by Chapter 43 of the Statutes of 1961.

(b) The purpose of this article is to provide a defined contribution plan which, in conjunction with retirement benefit provisions otherwise contained in this chapter, will provide approximately the same level of retirement benefits to persons who first become members on or after January 1, 1990, and are subject to the limitations set forth in Section 415 of the Internal Revenue Code of 1986, as they would receive under the other retirement benefit provisions in the absence of those limitations, while not affecting the rate of either member or employer contributions to the retirement system. In addition, it is intended that subdivisions (c) and (d) constitute an election under Section 415(b)(10)(C) of the Internal Revenue Code of 1986 with respect to all retirement plans within the retirement system.

(c) Notwithstanding any other provision of this part, the benefits payable to any person who first becomes a member on or after January 1, 1990, shall be subject to the limitations set forth in Section 415 of the Internal Revenue Code of 1986, as adjusted pursuant to Section 415(d)(1)(A) and (B).

(d) Notwithstanding any other law, the benefits payable to any

person who first became a member prior to January 1, 1990, shall not be subject to the limitations set forth in Section 415(b) of the Internal Revenue Code of 1986, except to the extent required by subsection (b)(10)(A) of Section 415.

(e) The election described in subdivision (b) shall apply to all employers whose employees are members of the retirement system of the county on December 31, 1989.

(f) The retirement benefits of all persons who first become members of the retirement system on or after January 1, 1990, and participate in Safety Plan B or General Plan D shall be governed by this chapter applicable to those plans and by this article.

(g) Subdivisions (c) and (d) shall not become operative until the board of supervisors has taken the actions required by subdivision (a) of Section 31510.2.

(h) In the event of a conflict, this article shall supersede and prevail over other provisions or application of provisions otherwise contained in this chapter.

31510.1. Unless the context otherwise requires, the definitions contained in this section govern the construction of this article.

(a) "Board" means the board of retirement.

(b) "Employer" means the county, district, or agency whose employees are members of the retirement system of the county.

(c) "General Plan F" means the defined contribution plan established in accordance with this article for the benefit of certain members of General Plan D.

(d) "Plan F" means General Plan F and Safety Plan F, collectively.

(e) "Prior plan" means Safety Plan B or General Plan D, as the context requires.

(f) "Safety Plan F" means the defined contribution plan established in accordance with this article for the benefit of certain members in Safety Plan B.

31510.2. (a) The board of supervisors of any county subject to this article shall establish two defined contribution retirement plans authorized by Section 401 of the Internal Revenue Code of 1986. The terms of the plans shall be mutually agreed to by the employer and employee representatives of affected employees prior to adoption or amendment by the board of supervisors. The plans shall be known as General Plan F and Safety Plan F.

(b) Any general member described in subdivision (f) of Section 31510 shall participate in General Plan F, and any safety member described in subdivision (f) of Section 31510 shall participate in Safety Plan F, after commencement of his or her participation in the prior plan.

(c) The board, upon the advice of the actuary, shall determine the portion of the member contributions otherwise required under the prior plan that shall be credited to plan F in lieu of being credited to the other plan. In doing so, the board shall provide for the level of contributions to plan F that is the minimum amount sufficient to

satisfy the purposes set forth in subdivision (b) of Section 31510.

(d) The right of the member to benefits derived from member contributions vests under plan F upon the commencement of participation in plan F.

(e) In the event that a member or beneficiary becomes entitled to receive a benefit in the form of an annuity under the terms of the prior plan, the member's account in plan F shall be converted to the same form of annuity as is payable to the member or beneficiary from the prior plan. The amount of the annuity payable under the prior plan, calculated prior to the application of this article (including the limitations set forth in Section 415 of the Internal Revenue Code of 1986), shall be reduced by the amount of the annuity generated under plan F as described in the preceding sentence. The amount payable from plan F shall be paid at the same time and in the same manner as the annuity payable from the prior plan and may be provided through an annuity contract purchased from an insurance company, at the discretion of the board. Notwithstanding the foregoing, if the member's account in plan F does not exceed three thousand five hundred dollars ($3,500), it shall be paid to the member or beneficiary as a lump-sum payment, in lieu of the benefit otherwise payable under plan F.

(f) If a member or beneficiary becomes entitled to receive the member's accumulated contributions and interest from the prior plan, the member or beneficiary shall receive the member's account balance from plan F consisting of the member's accumulated contributions and actual earnings at the same time and in the same manner.

(g) In applying the limitations set forth in Section 415 of the Internal Revenue Code of 1986, benefits or annual additions in qualified retirement plans maintained by an employer separate from the retirement system shall be reduced first. Any additional reduction shall be made to the benefits from plans within the retirement system other than plan F, and then lastly to the annual addition to plan F.

(h) Plan F shall be administered in accordance with subsection (a) of Section 401 of the Internal Revenue Code of 1986 and the Treasury Regulations issued thereunder. The plan shall state that it is intended to be a profit-sharing plan wherein contributions are determined without regard to current or accumulated profits.

(i) For the purpose of this article, the term "annuity" means the combined benefit provided by an annuity, as defined in Section 31457, and the pension, as defined in Section 31471.

31510.3. It is intended that disability benefits payable from the retirement system pursuant to Article 10 (commencing with Section 31720), in the event of the member's termination of employment for disability, are compensation for personal injury or sickness, and therefore would not be subject to the limitations set forth in Section 415 of the Internal Revenue Code of 1986. If the Internal Revenue Service rules that the disability benefits are subject to those

limitations, any employer which is subject to this article shall provide an alternate disability benefit equal to the decrease in the disability benefit caused by application of those limitations, through a long-term disability plan which shall be separate from the retirement system. The terms of that long-term disability plan shall be mutually agreed to by the employer and employee representatives and adopted by the board of supervisors.

31510.4 It is intended that the maintenance of plan F not affect the rate of either member or employer contributions to the retirement system. The board may set a rate of regular interest credited to contributions to the prior plan made with respect to members participating in plan F that is different than the rate of regular interest credited to contributions made with respect to members not participating in plan F, if necessary to effectuate that intent.

SEC. 2. Section 31580.2 of the Government Code is amended to read:

31580.2. In counties where the board of retirement and board of investment have appointed personnel pursuant to Section 31522.1, the respective boards shall annually adopt a budget covering the entire expense of administration of the retirement system which expense shall be charged against the earnings of the retirement fund. The expense incurred in any year shall not exceed eighteen-hundredths of 1 percent of the total assets of the retirement system. However, in any county of the first class, as defined by Section 28020, as amended by Chapter 1204 of the Statutes of 1971, and Section 28022, as amended by Chapter 43 of the Statutes of 1961, until January 1, 1992, the expense incurred in that county in any intervening year shall not exceed eighteen-hundredths of 1 percent of the total assets of the retirement system provided, that any expense incurred in that county in any such intervening year which exceeds fifteen-hundredths of 1 percent shall be restricted to capital improvements and related services necessary to modernize and improve the system administration and, on and after January 1, 1992, the expense incurred in any county of the first class, as defined by Section 28020, as amended by Chapter 1204 of the Statutes of 1971, and Section 28022, as amended by Chapter 43 of the Statutes of 1961, in any year shall not exceed fifteen-hundredths of 1 percent of the total assets of the retirement system.

The extra money made available by the amendments made to this section, in the 1989 portion of the 1989–90 Regular Session of the Legislature is needed for compliance with Section 415 of the Internal Revenue Code.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the

provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the election for the Los Angeles County Employees Retirement System to be bound by certain federal income tax limitations upon public retirement systems may be made in a timely manner, it is necessary that this act take effect immediately.

CHAPTER 1301

An act to add Article 16 (commencing with Section 28110) to Chapter 5 of Division 12 of the Vehicle Code, relating to vehicles.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Article 16 (commencing with Section 28110) is added to Chapter 5 of Division 12 of the Vehicle Code, to read:

Article 16. Methanol or Ethanol Fueled Vehicles

28110. As used in this article, "antisiphoning device" means a device which prevents the removal by suction of fuel from a motor vehicle.

28111. Except as otherwise provided in Section 28112, any 1993 and later model-year vehicle which is capable of operating on methanol or ethanol and is imported into the state, or sold, purchased, leased, rented, or acquired in the state, shall be equipped with an antisiphoning device.

28112. Notwithstanding subdivision (a) of Section 28111, the State Air Resources Board may adopt regulations providing for exemptions from antisiphoning device requirements for categories of vehicles of 1993 and later model-years which it determines not susceptible to siphoning.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the

California Constitution.

CHAPTER 1302

An act to add and repeal Article 5 (commencing with Section 52760) to Chapter 11 of Part 28 of the Education Code, relating to education.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) The quality of human life depends on maintaining a balanced interdependent ecosystem.

(b) Endangered species of plants and animals are becoming extinct faster than can be documented, at the estimated rate of one per day.

(c) If this trend continues into the next decade, many scientists warn that the rate of extinction may increase to one species per hour.

(d) It is important for citizens to be aware of the interdependence of all species and to work to avert further deterioration of these natural systems, thereby preserving the quality of life for this and future generations.

SEC. 2. The Legislature further finds and declares as follows:

(a) The most recent survey of the science knowledge of 9-, 13-, and 17-year olds conducted by the National Assessment of Education Progress concluded the following:

(1) Only 9 percent of 13-year olds and 41 percent of 17-year olds have the ability to analyze scientific procedures and information and to apply what they know to real life situations.

(2) By grade 11, almost half of the students decide not to take any more science courses, few spend time on science-related hobbies, and only about half believe that what they learn in science classes is useful in their everyday lives.

(3) Seventh and eleventh grade students who actively participate in challenging science activities are more likely to have a higher science proficiency than those who did not.

(b) Schools should provide students with "real world" experiences to increase their understanding of science, to develop critical thinking skills, and to engage them in addressing community and societal problems.

(c) Studying endangered species, particularly those in the local community, and developing stategies to protect those species gives students opportunities to acquire and apply scientific knowledge in ways that enrich local communities.

SEC. 3. Article 5 (commencing with Section 52760) is added to Chapter 11 of Part 28 of the Education Code, to read:

Article 5. The Endangered Species Education Project of 1989

52760. The Endangered Species Education Project of 1989 is hereby established to provide pupils in kindergarten and grades 1 to 8, inclusive, with opportunities to increase their understanding of science and their knowledge of the interdependence of living things, through the study of endangered species in local habitats. This project shall be administered by the Superintendent of Public Instruction and shall consist of a statewide competition in which each public elementary and junior high school in California is encouraged to (1) adopt one endangered species, as selected pursuant to Section 52761, from its locale; (2) design projects to educate its community about the threats to the adopted endangered species; and (3) develop a plan for local community action to preserve the adopted species' habitats. Exemplary projects shall be selected for special recognition by a panel of pupils pursuant to subdivision (b) of Section 52762.

52761. Each elementary or junior high school participating in the project shall submit to the superintendent a proposal to adopt one endangered species from the list established pursuant to Section 2070 of the Fish and Game Code. To the extent feasible, each school shall select a species based on the close proximity of the species, the feasibility of studying it, and the course of action that might occur to preserve it.

Each proposal shall include, but need not be limited to, the following:

(a) A description of the endangered species and the reasons the pupils selected that species.

(b) A description of strategies that the pupils plan to use to educate other pupils and members of the community regarding the threat to the adopted species. Strategies may include, but need not be limited to, exhibits, art work, media campaigns, oral presentations, drama, and writing projects.

(c) An action plan designed to monitor and promote the preservation of the adopted species and its habitat.

Pupils are encouraged to use appropriate local and state resources, including science faculty and students in postsecondary education institutions, to obtain information to assist them in the selection of their species and the development of their proposal.

52762. The Superintendent of Public Instruction shall do all of the following:

(a) Develop and distribute, to each school district and county office of education that operates an elementary or junior high school, the forms and guidelines necessary to submit a proposal as described in Section 52761. The guidelines shall include, but need not be limited to, the list of endangered species established pursuant to

Section 2070 of the Fish and Game Code, local and state resources that may be of assistance to participating pupils, and the criteria that will be used to select exemplary proposals for special recognition.

(b) Establish a panel of elementary school pupils to review and select exemplary proposals submitted by pupils from elementary schools and a panel of junior high school pupils to review and select exemplary proposals submitted by pupils from junior high schools. Each panel shall represent the geographical, racial, ethnic, gender, and socioeconomic diversity of the pupil population of this state.

(c) Develop and distribute certificates of commendation for pupil panel members, certificates of recognition for all schools that submit a proposal, and certificates of commendation for proposals that are selected as exemplary at each level. To the extent feasible, the superintendent shall, in addition, issue a press release to publicize the competition, make the exemplary proposals available for distribution to other public schools, and disseminate information about the Endangered Species Education Project of 1989 to appropriate science or environmental education organizations and publications.

52763. Operation of this article shall be subject to availability of funds from within local assistance appropriated in the annual budget acts for existing environmental education programs pursuant to Chapter 4 (commencing with Section 8700) of Part 6 of the Education Code.

52764. This article shall become inoperative on June 30, 1995, and, as of January 1, 1996, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1996, deletes or extends the dates on which it becomes inoperative and is repealed.

CHAPTER 1303

An act to add Chapter 12.8 (commencing with Section 18986) to Part 6 of Division 9 of the Welfare and Institutions Code, relating to child welfare services

[Approved by Governor October 1, 1989 Filed with Secretary of State October 1, 1989]

The people of the State of California do enact as follows.

SECTION 1. Chapter 12.8 (commencing with Section 18986) is added to Part 6 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 12.8. INTERAGENCY CHILDREN'S SERVICES ACT

Article 1. General Provision and Definitions

18986. This chapter shall be known and may be cited as the Presley-Brown Interagency Children's Services Act.

18986.1. The Legislature finds and declares all of the following:

(a) According to Policy Analysis of California Education (PACE):

(1) In 1988, California had a population of 7.4 million children; by the year 2000, the population of California's children will rise to 8.7 million, a 22-percent increase; California's share of children increased from one out of nine in the United States to one out of eight. By 1995, California school enrollment will equal the total enrollment of the 24 smallest states.

(2) (A) California's children are becoming more linguistically, culturally, and ethnically diverse. A majority of California's children are now minorities and the fastest growing are Hispanics and Asians.

(B) By the year 2000, 42 percent of the children in California will be Caucasian, 13 percent will be Asian, 36 percent will be Hispanic, and 9 percent will be Black.

(C) One-fourth of California school children speak a language other than English at home.

(3) The number of immigrant children in California is the largest of any state and that number is growing. California receives 27 percent of the nation's immigrants but has only 11 percent of the nation's population. The experience of immigrants from different cultures will vary and requires different public policies.

(4) Since 1980, the number of children in poverty in California has increased 50 percent and is now 23 percent above the national average. Poverty is associated with numerous problems, including low educational performance, poor nutrition, child abuse, and delinquency.

(5) There has been an alarming increase in extremely vulnerable children. Ten to 15 percent of infants born in public hospitals in large cities are drug-or alcohol-addicted. These children require intensive services and are overwhelming California's foster care capacity.

(6) There have been major changes from the past in female and teenage work behavior. The high percentage (54 percent) of children with both parents working means that the quality of child care is very important. By the year 2000, 60 percent of parents will work full time. Publicly supported child care, however, covers only 8 percent of the eligible low-income population. The growth in the number of teenagers working (about 45 percent work 16 hours or more a week) leaves less time for leisure activities or homework.

(b) There is no adequate comprehensive system for the delivery of services to children and youth; instead, services to children are provided by various departments and agencies at both the state and county levels, often without appropriate collaboration, resulting in gaps in services and program duplication.

(c) Too often, resources are not available to provide preventive services to children and families which would alleviate the need for a more costly response to a later crisis. The current service delivery system promotes intervention at the latest, most costly, and least

effective point. A greater focus on prevention rather than intervention maximizes the expenditure of state funds and results in the provision of more effective services to children.

(d) The facts and trends cited in this section require the state's major policies and institutions to engage in planning and coordinating services to meet the needs of the state's growing and changing population of children and to develop alternative ways of organizing and allocating resources for services.

18986.2. It is the intent of the Legislature, in enacting this chapter, to encourage the development of a comprehensive and collaborative delivery system of services to children and youths beginning at the local level and to offer fiscal incentives in the form of waivers to encourage collaboration. The goal of that collaborative system shall be to:

(a) Develop a service delivery plan which emphasizes preventive and early intervention services that maximize the healthy development of children and minimize the long-term need for public resources.

(b) Allow for flexibility of expenditures in public funds.

(c) Emphasize local decisionmaking and provide for greater flexibility to local government in designing delivery systems.

(d) Provide for a continuum of family-centered, child-focused services through public/private partnerships within the community.

(e) Minimize duplicate administrative systems.

(f) Identify gaps in services to target populations.

(g) Provide case management services to children and families with multiple needs.

18986.3. For purposes of this chapter, the following definitions shall apply:

(a) "Children's services" means any services provided by any state or local agency or private entity for the health, safety, or well-being of minors.

(b) "Council" means an interagency children's services coordinating council established pursuant to Section 18986.10.

Article 2. County Interagency Collaboration

18986.10. The board of supervisors of any county or city and county may establish an interagency children's services coordination council.

18986.11. A council shall be comprised of, but not limited to, the following members:

(a) Persons responsible for management of the following county functions:

(1) Alcohol and drug programs.

(2) Children's services.

(3) Housing and redevelopment.

(4) Mental health services.

(5) Probation.

(6) Public health services.

(7) Welfare or public social services.

(b) The presiding judge of the county's juvenile court.

(c) The superintendent of the county office of education and at least one superintendent of a unified school district within the county.

(d) A prosecuting attorney of the county or city and county.

(e) A representative of a private nonprofit corporation which has a goal of entering into a public private partnership with the county to meet the needs of children that are not adequately met by existing public or private funds.

(f) One member of the county board of supervisors.

(g) A representative of law enforcement.

(h) A representative of the local child abuse council.

(i) A representative of a local planning agency participating in the California Early Intervention Program pursuant to Subchapter VIII (commencing with Section 1471) of Chapter 33 of Title 20 of the United States Code.

18986.12. (a) The council shall convene monthly and shall, in addition, convene at least two public meetings annually inviting public testimony.

(b) Meetings of the council shall be convened by an executive director who is appointed by the county board of supervisors.

18986.13. The county board of supervisors may designate an existing, duly established interagency children's services coordinating body as the county's interagency children's services coordination council as authorized by Section 18986.10. However, the membership, responsibilities, and duties of that existing body shall be modified by the board as necessary to conform to the requirements of this chapter.

18986.14. The council's duties shall include, but not be limited to, the following:

(a) Ensuring collaboration and countywide planning for the provision of children's services.

(b) Identifying those agencies that have a significant joint responsibility in providing services to children and families.

(c) Identifying gaps in services to specific populations.

(d) Developing policies and setting priorities to ensure service effectiveness.

(e) Implementing public and private collaborative programs whenever possible.

(f) Providing for countywide interagency case management to coordinate resources, especially for those children and their families who are using the services of more than one agency concurrently.

(g) Identify, coordinate with, and, where feasible, integrate with existing children's services groups and other coordinating bodies.

18986.15. Each county wishing to participate under this chapter shall develop a three-year program for phasing in a coordinated children's services system.

(a) A plan for coordinated children's services may include proposals to combine and coordinate services to one or more of the following special populations of children provided by two or more existing local service agencies:

(1). Abused or neglected children and those at risk of abuse or neglect.

(2) Children in foster care or at risk of entering foster care.

(3) Children requiring mental health services.

(4) Children needing health care services delivered by local maternal and child health services, including, but not limited to, services provided under the California Children's Services Program, the Child Health and Disability Prevention Program, and perinatal services.

(5) Delinquent, status offender, and homeless minors.

(6) Minors in need of job training and placement services.

(7) School dropouts, or those at risk of dropping out.

(8) Infants born with identified drug dependencies and children with known histories of substance abuse.

(9) Children with developmental disabilities.

(b) Plans shall include all of the following:

(1) Use of existing service capabilities within the various agencies currently serving children's needs in the county.

(2) Interagency collaboration and program consolidation among publicly and privately funded agencies providing services to children.

(3) Appropriate interagency protocols and agreements.

(4) Services for the most vulnerable or at-risk children.

The Department of Justice shall perform DNA analysis and other genetic typing analysis only for law enforcement purposes.

(c) The Department of Justice DNA laboratory shall perform genetic typing only for those markers having value for law enforcement purposes.

(d) The DNA and other genetic typing information shall be filed with the offender's file maintained by the Sex Registration Unit of the Department of Justice or in a computerized data bank system, and shall not be included in the state summary criminal history information.

The computerized data bank system shall be limited to containing information only on individuals convicted of crimes specified in subdivision (a), or evidence accumulated from crime scenes during ongoing investigations and believed to have been left by a person suspected of having committed a violent felony specified in subdivision (c) of Section 667.5 or an offense specified in Section 290. Evidence accumulated pursuant to this provision from any crime scene with respect to a particular person shall be stricken from the data bank when it is determined that the person is no longer a suspect in the case.

SEC 2 No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

(c) It is the intent of the Legislature, in authorizing this study, that to the extent deemed reasonable, the cost to the employer for any recommended alternative benefit plans shall be equivalent to the cost of the benefits in effect prior to January 1, 1990.

This subdivision shall become inoperative on January 1, 1992.

SEC. 4. Section 75075.01 is added to the Government Code, to read:

75075.01. (a) Notwithstanding any other provision of this part, the benefits payable to any person who for the first time becomes a member on or after January 1, 1990, shall be subject to the limitations set forth in Section 415 of the Internal Revenue Code.

Employees' Retirement Fund to the Board of Administration of the Public Employees' Retirement System the sum of one hundred thousand dollars ($100,000) for expenditure to carry out the purposes of Sections 2 and 3 of this act.

(f) Protecting the consumer and students against fraud, misrepresentation, or other practices which may lead to an improper loss of funds paid for educational costs, whether financed through personal resources or state and federal student financial aid.

(g) Establishing a path for the development of institutions offering fields of study or methods of instruction not previously recognized in order to encourage them to become fully approved institutions.

(h) Recognizing and encouraging quality nongovernmental accreditation, while not ceding to that or any other nongovernmental process the responsibility for state oversight for purposes of approval if the accreditation process fails either to protect minimum standards of quality or to acknowledge legitimate innovative methods in postsecondary education.

(i) Establishing an administrative agency staffed by individuals who are knowledgeable about private academic and vocational education, and charged with the responsibility of developing policies and procedures for the oversight and approval of private

postsecondary and vocational education, including the responsibility for managing a broadly construed policy and planning process that seeks to improve state accountability for private postsecondary and vocational education as well as to improve the articulation of private postsecondary and vocational education with the general postsecondary and vocational educational community. It is the intent of the Legislature that current employees of the Private Postsecondary Education division of the State Department of Education shall be covered by Section 19050.9 of the Government Code during the establishment of the new administrative agency. Article 1.5. Administration

94304. (a) There is hereby established in state government a Council for Private Postsecondary and Vocational Education whose members shall be appointed no later than July 1, 1990. It is the intent of the Legislature that the members of the general public appointed to the council have a strong interest in developing private postsecondary and vocational education, and include representation from businesses that employ persons in positions requiring academic, vocational, or technical education.

(c) It is the intent of the Legislature that the council shall be broadly and equitably representative of the general public and that it include adequate representation on the basis of gender and on the basis of the significant racial, ethnic, and economic groups in the

All fees derived from postsecondary degree granting institutions and their veterans' educational benefits shall be deposited in a special degree granting institution account, which is hereby created, in the Private Postsecondary and Vocational Education Administration Fund. All fees derived from vocational education institutions and their veterans' educational benefits shall be deposited into a special vocational education account, which is hereby created, in the Private Postsecondary and Vocational Education Administration Fund. (b) The establishment of minimum criteria for the approval of private postsecondary or vocational educational institutions to operate in California and award degrees and diplomas, and for the approval of institutions which meet the criteria.

(j) The impaneling of special committees of technically qualified persons to assist the council in the development of standards for education and educational institutions and the evaluation of any application or institutions pursuant to this chapter. The members of the special committees shall receive no compensation but shall be reimbursed for their actual expenses for attendance at official meetings and actual expenses when on official council business.

94306. (a) The initial appointments to the council shall be made in the following manner:

(1) The Governor shall appoint two members for a two-year term, two members for a three-year term, and two members for a four-year term. The representative of the California Student Aid Commission shall be appointed for a four-year term.

(2) The Senate Rules Committee shall appoint one member for a two-year term, one member for a three-year term, and one member for a four-year term.

(3) The Speaker of the Assembly shall appoint one member for a two-year term, one member for a three-year term, and one member for a four-year term.

(c) The Advisory Council for Private Postsecondary Educational Institutions shall be continued in existence until June 30, 1990, in order to provide communication with institutions approved under this chapter, to provide leadership in the transition of authority from the State Department of Education to the council, and to present recommendations to the council and to the California Postsecondary Education Commission for implementation of the requirements of this chapter. (d) The Executive Director of the California Postsecondary

Education Commission shall call and chair the initial meeting of the council in July 1990, and shall serve as the chair until the council selects a chairperson. Article 2. Requirements and Standards

94310. No institution may issue, confer, or award an academic or honorary degree unless the institution meets the requirements of subdivision (a) or (i), as follows:

(a) The institution is approved by the Council for Private Postsecondary and Vocational Education to operate in California and award degrees. The council shall not approve an institution to issue degrees, diplomas, or certificates pursuant to this paragraph until it has conducted a qualitative review and assessment of, and has approved, each degree program offered by the institution, and all of the operations of the institution, and has determined all of the following:

(1) The institution has the facilities, financial resources, administrative capabilities, faculty, and other necessary educational expertise and resources to ensure its capability of fulfilling the program or programs for enrolled students.

(2) The faculty is fully qualified to undertake the level of

instruction that they are assigned and shall possess appropriate degrees and have demonstrated professional achievement in the major field or fields offered, in sufficient numbers to provide the educational services.

(3) The education services and curriculum clearly relate to the objectives of the proposed program or programs and offers students the opportunity for a quality education.

(4) The facilities are appropriate for the defined educational objectives and are sufficient to ensure quality educational services to the students enrolled in the program or programs.

(5) The course of study for which the degree is granted provides the curriculum necessary to achieve its professed or claimed academic objective for higher education, and the institution requires a level of academic achievement appropriate to that degree.

(6) The institution provides adequate student advisement services, academic planning and curriculum development activities, research supervision for students enrolled in Ph.D. programs, and clinical supervision for students enrolled in various health profession programs.

(7) If the institution offers credit for prior experiential learning it may do so only after an evaluation by qualified faculty and only in disciplines within the institution's curricular offerings that are appropriate to the degree to be pursued. The council shall develop specific standards regarding the criteria for awarding credit for prior experiential learning at the graduate level, including the maximum number of hours for which credit may be awarded.

(b) The approval process shall include a qualitative review and assessment of all of the following:

(1) Institutional purpose, mission, and objectives.
(2) Governance and administration.
(3) Curriculum.
(4) Instruction.
(5) Faculty, including their qualifications.
(6) Physical facilities.

(14) Library and other learning resources.
(15) Student activities and services.

The standards and procedures utilized by the council shall foster the development of high quality, innovative educational programs and emerging new fields of study within postsecondary education.

(c) The council may, at its discretion, delegate the responsibilities for regulation and oversight of accredited degree granting law

schools to the California Committee of Bar Examiners, and that accreditation may be accepted by the council in lieu of state approval.

(d) (1) The council shall conduct a qualitative review and assessment of the institution and all programs offered, including the items listed in subdivision (b), through a comprehensive onsite review process, performed by a qualified visiting committee impaneled by the council for that purpose. Each institution shall submit a single application for all operations in California, and the application shall include a single fee which is institution-based and not site-based. The visiting committee shall be impaneled by the council within 90 days of the date of the receipt of a completed application and shall be composed of educators, and other individuals with expertise in the areas listed in subdivision (b), from established institutions within the state. Within 90 days of the receipt of the visiting committee's evaluation report and recommendations, the council shall take one of the following actions:

(A) Grant an approval to operate for a period not to exceed five years.

(B) Grant candidate for approval status for a period not to exceed two years plus the remainder of the calendar year in which the application was made. Candidate status may not be renewed, and shall be granted only to new institutions, or to institutions changing to operating under the provisions of Section 94310, after operating under the provisions of Section 94311. All new institutions shall operate initially as candidates for approval.

(C) Disapprove the application.

(2) When evaluating an institution whose purpose is to advance postsecondary education through innovative methods, the visiting committee shall comprise educators who are familiar with and receptive to evidence bearing on the educational quality and accomplishments of those methods.

(3) The standards and procedures utilized by the council shall not unreasonably hinder educational innovation and competition.

(e) If at any time the council determines that an institution has deviated from the standards for approval, the council may, after identifying for the institution the areas in which it has deviated from the standards, and after giving the institution due notice and an opportunity to be heard, place the institution on probation for a prescribed period of time, not to exceed 12 calendar months. During the period of probation, the institution shall be subject to special monitoring. The conditions for probation may include the required submission of periodic reports, as prescribed by the council, and special visits by authorized representatives of the council to determine progress toward total compliance. If, at the end of the probationary period, the institution has not taken steps to eliminate the cause or causes for its probation to the satisfaction of the council, the council may revoke the institution's approval to award degrees and provide notice to the institution to cease its operations.

(f) An institution may not advertise itself as an approved institution unless each degree program offered by the institution has been approved in accordance with the requirements of this section. The council shall review all operations of the institution, both within and outside of California. The council may authorize any institution approved to issue degrees under this section to issue diplomas for the completion of courses of study that are within the institution's approved degree granting programs. However, if the preponderance of the institution's enrollments are in vocational programs leading to a diploma, rather than a degree, the institutions shall comply with the requirements of Section 94311, rather than Section 94310.

(g) All institutions operating on December 31, 1990, pursuant to licensure received under subdivision (a) of Section 94310.1 or approval received under Section 94310.2, shall receive approval for a period not to exceed four years from the date of the institution's last approval review. On a specified date prior to June 30, 1995, to be determined by the council, each institution granted approval pursuant to this subdivision shall file a completed application for reapproval pursuant to this section.

(h) All institutions operating pursuant to authorization received under Section 94310.3 or 94310.4, as in effect on December 31, 1990, shall receive candidate for approval status for a period not to exceed three years from the date of the institution's last authorization review. On a specified date prior to June 30, 1994, to be determined by the council, each institution granted candidate for approval status pursuant to this subdivision shall file a completed application for approval pursuant to this section.

(i) Any public or private postsecondary educational institution incorporated in another state that has accreditation from a regional accrediting association recognized by the United States Department of Education at the time of the issuance of a degree, and that is approved by the council, may issue degrees, diplomas, or certificates. Accredited public or private postsecondary educational institutions incorporated in another state shall not offer degrees, diplomas, or certificates in California unless they comply with the provisions of this subdivision.

(1) The council shall not approve an institution to issue degrees, diplomas, or certificates pursuant to this subdivision until the council has conducted a qualitative review and assessment of and has approved, the operations of the institution in California, and the council has determined that the institution meets the following standards:

(A) The institution has financial resources to ensure the capability of fulfilling the program or programs for enrolled students.

(B) The faculty includes personnel who possess appropriate degrees from institutions accredited by a regional accrediting association recognized by the United States Department of Education in the degree major field or fields offered, in sufficient

number to provide the educational services.

(C) The education services and curriculum clearly relate to the objectives of the proposed program or programs.

(D) The facilities are appropriate for the defined educational objectives and are sufficient to ensure quality educational services to the students enrolled in the program or programs.

(E) The institution has verifiable evidence of academic achievement comparable to that required of graduates of other institutions operating in this state for the program or programs upon which the degree, diploma, or certificate is based.

(2) The council shall grant approved status under this subdivision for a period consistent with the postsecondary educational institution's regional accrediting association, but not to exceed five years.

(3) Institutions approved under this subdivision shall offer in California only programs that the institution can document to have been acknowledged and favorably reviewed by the home regional accrediting association.

(4) In reviewing the out-of-state accredited institutions, the council shall use as guidelines the standards and procedures developed by the special committee created pursuant to paragraph (5) of subdivision (b) of Section 94310.1, as in effect on December 31, 1989, and adopted by the California Postsecondary Education Commission. These standards and procedures were based on the following principles:

(A) Following the initial state review, subsequent onsite reviews by the council may be conducted in conjunction with institutional reviews by the regional accrediting association. However, if there is substantial evidence that the institution is not in compliance with state standards, the council may initiate a special review of the California operations of the institution.

(B) Each institution shall submit a single application for all operations in California, and the application shall include a single fee which is institution-based and not site-based.

(C) The council shall develop a procedural rationale to justify the number of sites to be visited by the state in the review of the institution's operations in California

(D) The purpose of the onsite review by the council shall be to determine that operations by the institution in California meet the minimum state standards identified in statute.

(E) The standards and procedures shall not unreasonably hinder educational innovation and competition.

(5) The regulations used by the council to implement this chapter shall provide for consideration of the accredited institutions' stated educational goals, purposes, and objectives, in conducting the approval review of the California operations of out-of-state based institutions.

(A) These regulations shall include a formula to determine the institutional approval fee and the number of sites to be visited by the

state.

(B) The regulations developed by the council shall be based on the procedures and standards recommended by the special committee and acted upon by the commission. In conducting the approval review of the operation of out-of-state accredited institutions in California, the council shall interpret the regulations based upon each institution's accredited educational purposes and objectives.

(6) All institutions operating under subdivision (b) of Section 94310.1, as it read on December 31, 1990, shall receive approval for a period not to exceed five years from the date of the institution's last review by the state. On a date to be specified by the council on or before June 30, 1995, each institution granted approval under this subdivision shall file a completed application for reapproval under this section.

94311. No private vocational educational institution may offer career or job training programs, or offer, confer, or award a diploma, unless the institution, or the branch or satellite campus, has been approved by the council as meeting the requirements of subdivision (a):

(a) The institution is approved by the Council for Private Postsecondary and Vocational Education to operate in California and to offer vocational or technical programs and award a diploma or certificate. The council shall not approve an institution, or the branch campus of an institution, to issue diplomas or certificates pursuant to this subdivision until it has conducted a qualitative review and assessment of the operations of the institution in California, and determined all of the following:

(1) The quality and content of each course or program of instruction, training, or study may reasonably and adequately be expected to achieve the stated objective for which the course or program is offered.

(2) There is in the institution adequate space, equipment, instructional material, and instructor personnel to provide training of the quality needed to attain the object of that particular course.

(3) Every instructor and administrator holds an applicable and valid Certificate of Authorization for Service issued by the council in the specified competence area in which the individual will serve. Certificates may be issued to administrators and to instructors upon the council's determination that the applicant possesses adequate academic, experiential, and professional qualifications, and that grounds for denying the issuance of the certificate, as provided in Section 480 of the Business and Professions Code, do not exist. The council shall not issue a certificate to any instructor or member of the administrative staff who has been convicted of, or who has pled nolo contendere or guilty to, a crime involving the acquisition, use, or expenditure of federal or state funds, or who has been judicially or administratively determined to have committed fraud involving state or federal funds.

(4) The institution maintains written records of the student's previous education and training, where applicable.

(2) The student obtained a judgment against the institution for any violation of this chapter and the student certifies that the judgment cannot be collected after diligent collection efforts. The liability of the Student Tuition Recovery Fund to a student shall not exceed the amount of the student's tuition and the cost of materials related to the course of instruction.

(b) Payments from the fund to any student shall be made from the appropriate account with the fund, as determined by the type of institution into which the student has paid his or her fees, shall be at the discretion of the council, and shall be subject to any regulations and conditions as the council shall prescribe.

The application shall be accompanied by a copy of the judgment and any other documents indicating the student's efforts made to enforce the judgment.

The application shall be filed within two years after the date upon which the judgment became final.

(3) The council may require additional information designed to facilitate payment to entitled students. The council shall relieve a student from the requirement to provide all of the information required by this subdivision if the council has the information or the information is not reasonably necessary for the resolution of a student's claim.

Upon payment of the claim, the council shall be subrogated to all of the student's rights against the institution to the extent of the amount of the payment.

(g) If the council denies the claim, the council shall notify the student of the denial and of the student's right to request a hearing within 60 days or any longer period permitted by the council. If a hearing is not requested within 60 days or any additional period reasonably requested by the student, the council's decision shall be final. If a hearing is requested, the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall apply.

94343. The council shall assess each institution which collects any moneys in advance of rendering services an amount equal to

one-tenth of 1 percent of the total course cost for each student newly enrolled. The assessment per student shall not be less than one dollar ($1), and not more than four dollars ($4). In addition, for each student who prepays an institution an amount in excess of four thousand dollars ($4,000), the council shall assess the institution one-half of 1 percent of the prepaid amount which exceeds four thousand dollars ($4,000). The council shall levy additional reasonable assessments only if they are required to ensure that sufficient funds are available to satisfy the anticipated costs of paying student claims pursuant to Section 94342. The assessments shall be paid into the State Treasury and credited to the appropriate account in the Student Tuition Recovery Fund, and the deposits shall be allocated, except as otherwise provided for in this chapter, solely for the payment of valid claims to students. Unless additional reasonable assessments are required, no assessments shall be levied during any fiscal year if, as of June 30 of the prior fiscal year, the balance in either account of the fund exceeds one million dollars ($1,000,000). However, regardless of the balance in the fund, assessments shall be made on any newly approved institution. Notwithstanding Section 13340 of the Government Code, the moneys so deposited in the Student Tuition Recovery Fund are continuously appropriated to the council for the purpose of paying claims to students pursuant to Section 94342.

Not more than one hundred thousand dollars ($100,000) per fiscal year shall be used for the administration of the tuition recovery program authorized by Section 94342 and this section. The interest earned on money in the fund shall be credited to the fund. Institutions which meet the student tuition indemnification requirements of a California state agency, or which demonstrate to the council that an acceptable alternative method of protecting their students against loss of prepaid tuition has been established, shall be exempted from this section.

In the event of a closure by any approved institution under this chapter, any assessments which have been made against those institutions, but have not been paid into the State Treasury, shall be recovered, or any payments from the Student Tuition Recovery Fund made to students on behalf of any institution may be recovered from that institution, by appropriate action taken by the council. The moneys so deposited in the Student Tuition Recovery Fund shall be exempt from execution and shall not be the subject of litigation or liability on the part of creditors of those institutions or students.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the restricted transfer of permits in the swordfish and thresher shark drift gill net fishery is necessary to provide an incentive for those who no longer wish to engage in those fisheries due to health, age, or entry into other fisheries or employment to retire from the fishery, to protect the community property and estate interests of spouses and heirs upon the dissolution of marriage or death of a permittee, to prevent speculation in permits, and to allow those seeking to enter the fishery an opportunity to obtain a permit by making available more permits pursuant to this restricted transfer method than would otherwise become available only through death or forfeiture of permits.

8561. (a) Notwithstanding Sections 8394 and 8603, shark and swordfish may not be taken for commercial purposes with drift gill nets except under a revocable drift gill net shark and swordfish permit issued annually by the department. These permits shall be revoked or suspended by the director upon a conviction for a willful violation of any provision of this article, Article 1 (commencing with Section 8601) or Article 5 (commencing with Section 8680) of Chapter 3, or violation of any condition of the permit by the permittee or the permittee's agent, servant, employee, or person acting under the permittee's direction or control.

(b) A drift gill net shark and swordfish permit shall not be required for the taking of sharks with drift gill nets with a mesh size smaller than eight inches in stretched mesh and twine size no. 18 or the equivalent of this twine size or smaller. SEC. 2. Section 12932 of the Government Code is amended to read:

12932. (a) The Legislature recognizes that the avoidance of discriminatory practices in the employment of disabled persons is most effectively achieved through the ongoing efforts of state agencies involved in the vocational rehabilitation and job placement of the disabled. The department may utilize the efforts and experience of the Department of Rehabilitation in the development of job opportunities for the disabled by requesting the Department of Rehabilitation to foster good will and to conciliate on employment policies with employers who, in the judgment of the department, have employment practices or policies that discriminate against disabled persons. (2) Investigative processes, which are not so protected.

Nothing in this part shall subject an employer to any legal liability resulting from the refusal to employ or the discharge of an employee who, because of the employee's medical condition, is unable to perform his or her duties, or cannot perform those duties in a manner which would not endanger the employee's health or safety or the health or safety of others.

(3) Nothing in this part relating to discrimination on account of marital status shall either (i) affect the right of an employer to reasonably regulate, for reasons of supervision, safety, security, or morale, the working of spouses in the same department, division, or facility, consistent with the rules and regulations adopted by the commission, or (ii) prohibit bona fide health plans from providing additional or greater benefits to employees with dependents than to those employees without or with fewer dependents.

(b) For a labor organization, because of the race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex of any person, to exclude, expel or restrict from its membership the person, or to provide only second-class or segregated membership or to discriminate against any person because of the race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex of the person in the election of officers of the labor organization or in the selection of the labor organization's staff or to discriminate in any way against any of its members or against any employer or against any person employed by an employer.

(c) For any person to discriminate against any person in the

selection or training of that person in any apprenticeship training program or any other training program leading to employment because of the race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex of the person discriminated against.

(d) For any employer or employment agency, unless specifically acting in accordance with federal equal employment opportunity guidelines and regulations approved by the commission, to print or circulate or cause to be printed or circulated any publication, or to make any non-job-related inquiry, either verbal or through use of an application form, which expresses, directly or indirectly, any limitation, specification, or discrimination as to race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex, or any intent to make any such limitation, specification or discrimination. (g) For any person to aid, abet, incite, compel, or coerce the doing of any of the acts forbidden under this part, or to attempt to do so.

(h) For an employer, labor organization, employment agency, apprenticeship training program or any training program leading to employment, or any other person, because of race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, sex, or age, to harass an employee or applicant Harassment of an employee or applicant by an employee other than an agent or supervisor shall be unlawful if the entity, or its agents or supervisors, knows or should have known of this conduct and fails to take immediate and appropriate corrective action. Nothing in this subdivision shall prohibit any employer from making, in connection with prospective employment, an inquiry as to, or a request for information regarding, the physical fitness, medical condition, physical condition or medical history of applicants if that inquiry or request for information is directly related and pertinent to the position the applicant is applying for or directly related to a determination of whether the applicant would endanger his or her health or safety or the health or safety of others.

An entity shall take all reasonable steps to prevent harassment from occurring. Loss of tangible job benefits shall not be necessary in order to establish harassment.

(2) This subdivision is declaratory of existing law, except for the new duties imposed on employers with regard to harassment.

(3) (A) For purposes of this subdivision only, "employer" means any person regularly employing one or more persons, or any person acting as an agent of an employer, directly or indirectly, the state, or any political or civil subdivision thereof, and cities.

Religious belief or observance, as used in this section, includes, but is not limited to, observance such as a Sabbath or other religious holy day or days, and reasonable time necessary for travel prior and subsequent to a religious observance.

SEC. 5. Section 12940 of the Government Code is amended to read:

(2) Nothing in this part shall prohibit an employer from refusing to hire or discharging an employee who, because of the employee's medical condition, is unable to perform his or her duties, or cannot perform those duties in a manner which would not endanger the employee's health or safety or the health or safety of others. Nothing in this part shall subject an employer to any legal liability resulting from the refusal to employ or the discharge of an employee who, because of the employee's medical condition, is unable to perform his or her duties, or cannot perform those duties in a manner which would not endanger the employee's health or safety or the health or safety of others.

(3) Nothing in this part relating to discrimination on account of marital status shall either (i) affect the right of an employer to reasonably regulate, for reasons of supervision, safety, security, or morale, the working of spouses in the same department, division, or facility, consistent with the rules and regulations adopted by the commission, or (ii) prohibit bona fide health plans from providing additional or greater benefits to employees with dependents than to those employees without or with fewer dependents.

(4) Nothing in this part relating to discrimination on account of sex shall affect the right of an employer to use veteran status as a factor in employee selection or to give special consideration to Vietnam era veterans.

(b) For a labor organization, because of the race, religious creed, color, national origin, ancestry, physical disability, medical condition, marital status, or sex of any person, to exclude, expel or restrict from its membership the person, or to provide only second-class or segregated membership or to discriminate against any person because of the race, religious creed, color, national origin, ancestry, physical disability, medical condition, marital status, or sex of the person in the election of officers of the labor organization or in the selection of the labor organization's staff or to discriminate in any way against any of its members or against any employer or against any person employed by an employer.

(d) For any employer or employment agency, unless specifically acting in accordance with federal equal employment opportunity guidelines and regulations approved by the commission, to print or circulate or cause to be printed or circulated any publication, or to

Nothing in this subdivision shall prohibit any employer from making, in connection with prospective employment, an inquiry as to, or a request for information regarding, the physical fitness, medical condition, physical condition or medical history of applicants if that inquiry or request for information is directly related and pertinent to the position the applicant is applying for or directly related to a determination of whether the applicant would endanger his or her health or safety or the health or safety of others.

(e) For any employer, labor organization, or employment agency to harass, discharge, expel, or otherwise discriminate against any person because the person has made a report pursuant to Section 11161.8 of the Penal Code which prohibits retaliation against hospital employees who report suspected patient abuse by health facilities or community care facilities.

(f) For any employer, labor organization, employment agency, or person to discharge, expel, or otherwise discriminate against any person because the person has opposed any practices forbidden under this part or because the person has filed a complaint, testified, or assisted in any proceeding under this part.

(g) For any person to aid, abet, incite, compel, or coerce the doing of any of the acts forbidden under this part, or to attempt to do so.

(h) For an employer, labor organization, employment agency, apprenticeship training program or any training program leading to employment, or any other person, because of race, religious creed, color, national origin, ancestry, physical disability, medical condition, marital status, sex, or age, to harass an employee or applicant. Harassment of an employee or applicant by an employee other than an agent or supervisor shall be unlawful if the entity, or its agents or supervisors, knows or should have known of this conduct and fails to take immediate and appropriate corrective action. An entity shall take all reasonable steps to prevent harassment from occurring. Loss of tangible job benefits shall not be necessary in order to establish harassment. The provisions of this subdivision are declaratory of existing law, except for the new duties imposed on employers with regard to harassment. For purposes of this subdivision only, "employer" means any person regularly employing one or more persons, or any person acting as an agent of an employer, directly or indirectly, the state, or any political or civil subdivision thereof, and cities. However, "employer" does not include a religious association or corporation not organized for private profit. For other types of discrimination as enumerated in subdivision (a), an employer remains as defined in subdivision (c) of Section 12926. Nothing contained in this subdivision shall be construed to apply the

definition of employer found in this subdivision to subdivision (a).

(i) For an employer, labor organization, employment agency, apprenticeship training program, or any training program leading to employment, to fail to take all reasonable steps necessary to prevent discrimination and harassment from occurring.

(j) For an employer or other entity covered by this part to refuse to hire or employ a person or to refuse to select a person for a training program leading to employment or to bar or to discharge a person from employment or from a training program leading to employment, or to discriminate against a person in compensation or in terms, conditions, or privileges of employment because of a conflict between the person's religious belief or observance and any employment requirement, unless the employer or other entity covered by this part demonstrates that it has explored any available reasonable alternative means of accommodating the religious belief or observance, including the possibilities of excusing the person from those duties which conflict with his or her religious belief or observance or permitting those duties to be performed at another time or by another person, but is unable to reasonably accommodate the religious belief or observance without undue hardship on the conduct of the business of the employer or other entity covered by this part. Religious belief or observance, as used in this section, includes, but is not limited to, observance such as a Sabbath or other religious holy day or days, and reasonable time necessary for travel prior and subsequent to a religious observance.

CHAPTER 1310

An act to repeal Sections 19063.7 and 19063.9 of the Government Code, and to amend Sections 11320.2 and 11320.3 of the Welfare and Institutions Code, relating to public assistance.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 19063.7 of the Government Code is repealed.

SEC. 2. Section 19063.9 of the Government Code is repealed.

SEC. 3. Section 11320.2 of the Welfare and Institutions Code is amended to read:

11320.2. (a) County welfare departments shall administer this chapter, in a manner consistent with the provisions of this chapter and regulations adopted by the department in order to implement this chapter.

(b) Each county welfare department, with the cooperation of

community college districts, county offices of education, and local private industry councils established under Chapter 4 (commencing with Section 15030) of Division 8 of the Unemployment Insurance Code, shall design a package of services to be provided to participants receiving services under this article, that reflect available resources and local job market needs. A joint plan may be submitted by two or more consenting counties.

Each county plan shall include a participant and labor market needs assessment, to be revised annually, which shall specify all of the following:

(1) The full employment goal of the plan, which shall be the provision of unsubsidized employment for all county registrants subject to this article.

(2) An assessment of the county's current and projected unsubsidized employment needs.

(3) An inventory of services, including those specified in subdivision (c) of Section 11320, available to county residents.

(4) The amount and kind of services required to meet the full employment goal for all registrants.

(5) The amount and kind of services that will be used in the plan year.

(6) An assessment of what services are currently unavailable and needed, including child care services, to meet the full employment goal and a plan for developing the availability of these services within a reasonable period of time, including a proposed program budget.

(c) The county welfare department shall submit to the department a program budget proposal in conjunction with the county plan, as specified in this section. The budget proposal shall specify the costs associated with providing the range of services included in the plan in the most cost-effective manner. The budget proposal shall identify the amount of funds that the county expects to spend for each component and shall provide supporting detail regarding the caseloads anticipated in each component and the amount that will be spent for (1) county employees, by classification, (2) administrative support and overhead, and (3) contracted services and support. Prior to final approval of the county's plan, as specified in subdivision (f), the department shall notify each county of the amount of its allocation of funds to carry out the plan and the assumptions used to develop that allocation. If the allocation is less than the amount of funds that the county proposed in the program budget, the department shall notify the county that the proposed program budget exceeds the funds available. The department shall specify how the costs proposed by the county exceed the costs used to develop the county's allocation. The county may provide any additional documentation to justify the higher funding level. If, after reviewing the additional information, the department finds that the proposed program costs are not reasonable or cost-effective, the county shall submit the necessary revisions to its plan and program budget to keep program expenditures within the amount of its

allocation.

In subsequent years, the county welfare department shall submit its program budget proposal for this article at the same time as the county submits its administrative cost control plan for the Aid to Families with Dependent Children, Medi-Cal, and Food Stamp programs. If services are not available in the county, the county plan may include provisions for the purchase of services from other counties.

The plan shall be approved by the board of supervisors of each county, after a public hearing is held in accordance with existing county public hearing procedures that provide adequate notice and an opportunity for affected groups and individuals to present their views and suggestions. In approving the plan, the board shall consider the views presented by affected groups during, and as part of the record of, the public hearing.

Prior to implementation, each plan must receive approval by the department. In determining whether a plan should be approved, the department shall consider the projected long-range cost-effectiveness of the plan, in addition to the appropriateness of the services proposed to be delivered under the plan, given the local labor market, maximum utilization of existing and generic services, and administrative ease.

No plan shall be approved by the department that does not provide an adequate range of services as described in Section 11320.3. With respect to large counties, as defined by the department for cost control purposes, "an adequate range of services" means that the counties shall provide all of the services outlined in Section 11320.3.

If two or more counties submit a joint plan, and the joint plan serves a participant caseload equal to or greater than a large county, the plan shall provide for all of the services outlined in Section 11320.3. If the services listed in Section 11320.3 are not provided for in the county plan, the county shall submit a justification as to why the services are not necessary No plan shall be approved which requires job search and work experience of participants to the exclusion of a range of services and which does not specify the range of services, both existing and proposed to be offered participants, in accordance with this section.

No funds appropriated for purposes of this article shall be used to fund education or training services in any county plan if these services could reasonably be provided by local educational agencies from Section A or Section B of the State School Fund which are not otherwise committed. No local educational agency shall be authorized to receive funds appropriated for purposes of this article unless it has demonstrated that it has fully committed all the funds from Section A or Section B of the State School Fund available to it, as certified by the district to the Chancellor of California Community Colleges, or the Superintendent of Public Instruction. The Chancellor of the California Community Colleges and the Superintendent of Public Instruction, as appropriate, shall certify

this information to the Director of Finance.

(d) In order to measure the effectiveness of county plans under this article, performance standards for this article shall be consistent with those developed for service delivery areas pursuant to Division 8 (commencing with Section 15000) of the Unemployment Insurance Code. The Health and Welfare Agency shall insure that these standards include, but are not limited to all of the following goals:

(1) The training program participants for unsubsidized employment.

(2) Reducing welfare costs by increasing earnings of program participants in unsubsidized employment.

(3) Placement in unsubsidized employment resulting from all program components.

(e) (1) A county plan may also provide that the program provided for in this article shall apply to recipients of aid under Part 5 (commencing with Section 17000), except that no funds appropriated for purposes of this article shall be utilized for purposes of applying this article to these individuals. A county plan may also provide that the program provided for in this article shall apply to refugees receiving Refugee Cash Assistance or assistance under Article 1 (commencing with Section 13200) of Chapter 5.2. The county shall maintain separate accounting records of expenditures related to applicants for, and recipients of, aid under this chapter, and for the individuals to whom the program applies pursuant to this subdivision. If a county elects to apply the program provided for in this article to refugees receiving Refugee Cash Assistance or assistance under Article 1 (commencing with Section 13200) of Chapter 5.2 or to refugee recipients of aid under Part 5 (commencing with Section 17000), costs of applying the program shall be funded from the county's federal social services and targeted assistance allocation as provided for under Chapter 5.5 (commencing with Section 13275).

(2) If, pursuant to paragraph (1), a county elects to apply the program provided for in this article to refugees or to recipients of aid under Part 5 (commencing with Section 17000), these individuals shall have the same rights, duties, and responsibilities that a participant has who is an applicant for, or a recipient of, aid under this chapter. Any participation by general assistance recipients shall not constitute any actual or implied responsibility for, or assumption of, costs of general assistance by the state.

(3) A county plan, with the approval of the director, may also provide for concurrent enrollment of participants in any program components provided in subdivisions (c) and (d) of Section 11320.3 which have been requested by the participant at the orientation and appraisal interview provided in subdivision (b) of Section 11320.5. Notwithstanding paragraphs (2), (3), and (4) of subdivision (b) of Section 11320.5, participation in job search or job club shall not be required prior to assignment to concurrent enrollment if the county

determines the participant lacks basic skills, language skills, or employment skills necessary to be employed in the local labor market on jobs that do not result in net loss of income as provided in subdivision (*l*) of Section 11320.7. For purposes of Section 11320.6, basic education as described in paragraph (6) of subdivision (b) of Section 11320.5 shall be considered the primary program component. It is the intent of the Legislature that concurrent enrollment plans approved under this paragraph be designed to encourage completion of the basic education requirements of this program. The department shall compare and evaluate the effectiveness of concurrent and sequential enrollment in program components.

(f) Each county shall submit its plan to the department within two years from the effective date of this article, as added during the 1985–86 Regular Session. The department shall approve a county plan within a reasonable period of time after submission of the county plan. Notwithstanding subdivision (f), a county may phase in the participation in its program for all qualified persons over a period of up to three years from the date upon which the program commences to operate in the county. A county may incorporate into its plan any existing employment or training program for applicants for, or recipients of, aid under this chapter which is operating in the county to the extent that the program is consistent with this article.

(g) This program shall be fully operational on a statewide basis within three years after the effective date of this article, as added during the 1985–86 Regular Session, by which time the department shall approve all county plans.

(h) The department shall evaluate the program and shall collect data on program cost, caseload movement, and program outcomes, including data on all of the following:

(1) The numbers of voluntary and mandatory participants in each program component.

(2) The amount of time that each participant remains in each component and the types of services, including supportive services, each participant receives.

(3) The number of recipients in each component that move to each of the other components.

(4) The number of participants sanctioned as well as the amount and duration of the sanction, the reason for the sanction, and the amount of time the participant was in the program prior to the sanction.

(5) The number of participants who go off aid, and to the extent possible, the reason they have gone off aid.

(6) The number of applicants who reapplied for and received aid after having gone off aid during the time they were participating in the program.

(7) The starting salary of employed participants.

(8) Participants job retention rates.

(9) The appropriateness of the categorization of participants.

(10) The appropriateness of assessments and employment plans.

(11) The appropriateness of preemployment preparation assignments, including a periodic review of the appropriateness of these assignments.

(12) The effectiveness of training components based upon the number of individuals placed in employment.

(13) The timeliness of preemployment preparation assignment reviews.

(14) The appropriateness of sanctions applied under this article.

The department may use standard statistical sampling methods to conduct the evaluation. The department shall maintain this data for the state and for each county. The department may contract with a qualified organization for the evaluation required by this section. The department shall submit a plan for implementing this evaluation to the Joint Legislative Budget Committee. To the extent possible, the data collection system for this evaluation shall be designed to collect data in the least expensive and least time-consuming manner possible.

Utilizing the data compiled pursuant to this subdivision, the department shall, commencing one year after the effective date of this article, as added during the 1985–86 Regular Session, annually report, by January 10, to the Legislature and the Governor on the effectiveness of the program provided for in this article. The Legislative Analyst shall submit a review of this report to the Legislature by April 15 of each year.

SEC. 4. Section 11320.3 of the Welfare and Institutions Code, as amended by Section 3.5 of Chapter 77 of the Statutes of 1989, is amended to read:

11320.3. (a) Each plan submitted pursuant to Section 11320.2 shall contain a methodology for the provision of job services, training and education, and supportive services to program participants. This methodology shall specify how county welfare departments will cooperate with, and maximize the use of, education, child care, resource and referral agencies, job service, and other appropriate local service providers. To the extent existing programs are available to county residents, each plan submitted pursuant to Section 11320.2 shall specify the manner in which these programs shall be utilized to provide services specified in this section. The county may provide services directly to program participants or enter into interagency agreements or contracts with private or public agencies for the provision of these services.

(b) Each county shall specify in its plan its target groups and the choices that shall be made available to each target group, pursuant to Section 11320.4. The county shall make available all of its programs to each target group, but may give priorities for certain programs to groups for whom these programs are reasonably expected to be the most effective.

(c) As provided in the contract entered into pursuant to Section 11320.5, job services shall include, but not be limited to, all of the following:

(1) Job club, which shall consist of both of the following:

(A) Job search workshops. These job search workshops shall be group training sessions where participants learn various job finding skills, including training in basic job seeking skills, job development skills, job interviewing skills, understanding employer requirements and expectations, and how to enhance self-esteem, self-image, and confidence.

(B) Supervised job search, which shall include, but not be limited to, access to phone banks in a clean and well-lighted place, job orders, direct referrals to employers, or other organized methods of seeking work which are overseen, reviewed, and criticized by a trained employment professional. The amount and type of activity required during this supervised job search period shall be determined by the county and the participant, based on the participant's employment history and need for supportive services, and shall be consistent with regulations developed by the department.

(2) Unsupervised job search. The individual shall seek work in his or her own way, and make periodic progress reports no less frequently than every two weeks to the county welfare department or the agency contracting with that department.

(3) Job placement, which shall include, but not be limited to, referrals to jobs listed by employers with the State Job Service.

(4) Job development, which shall be active assistance in seeking employment provided to a participant by a trained employment professional on a one-to-one basis.

(5) Employment counseling, which shall be counseling aimed at helping a person reach an informed decision on an appropriate employment goal.

(6) Notwithstanding any other provision of this article, participation in job search activities shall be limited to eight weeks in any 12 consecutive month period, except that an additional eight weeks of job search activities shall be allowed if it is required in conjunction with other education, training, or employment activity. This paragraph is intended to implement the limitations contained in the Family Support Act of 1988 (P.L 100-485), and shall not be construed to permit job search activities that are not specifically provided for elsewhere in this article.

(d) As provided in the contract entered into pursuant to Section 11320.5, training and education services include, but are not limited to, all of the following:

(1) Job training, which shall include, but is not limited to, training in employer-specific job skills in a classroom or onsite setting, including training provided by local private industry council programs and community colleges.

(2) Preemployment preparation shall be work for a public or nonprofit agency that provides the participant with either of the following:

(A) Basic preemployment preparation, which shall provide work behavior skills and a reference for future unsubsidized employment.

(B) Advanced preemployment preparation, which shall provide on-the-job enhancement of existing participant skills in a position related to a participant's experience, training, or education acquired as a result of the services funded pursuant to a contract entered into pursuant to Section 11320.5.

A short-term preemployment preparation assignment shall be for not longer than three months, and may be provided as a preparation for other education and training services as a part of the contract amendments pursuant to subdivisions (d) and (e) of Section 11320.5. A long-term preemployment preparation assignment shall not exceed one year.

(C) Except for persons subject to subparagraph (D), the number of hours a person participates in a preemployment preparation program shall be determined by dividing his or her aid grant under this chapter, less any child support paid to the county, by the average hourly wage for all job orders placed with the Employment Development Department. The average hourly wage shall be updated annually every July 1. No preemployment preparation assignment shall exceed 32 hours per week.

(D) If a person participates in a preemployment preparation assignment for nine months, the number of hours that person is required to participate shall be recomputed by the county welfare department. Beginning in the 10th month, the number of hours of preemployment preparation shall be determined by dividing a person's aid grant under this chapter, less any child support paid to the county, by the prevailing rate of pay for the same or similar job at the site to which the person is assigned. In no case shall the prevailing rate of pay fall below the average hourly wage for job orders placed with the Employment Development Department, as provided in subparagraph (C). No preemployment preparation assignment shall exceed 32 hours per week.

(3) Adult basic education, which shall be preemployment basic education, including reading, writing, and arithmetic necessary for employment or job training, including high school proficiency.

(4) College and community college education, when that education provides sufficient employment skills training that can reasonably be expected to lead to employment

(5) Vocational English-as-a-second-language which shall be intensive instruction in English for non-English speaking participants, coordinated with specific job training.

(6) Grant diversion.

(7) Supported work.

(8) Transitional employment.

For purposes of paragraph (6), "grant diversion" means public or private sector employment or on-the-job training at comparable wage rates, in which the recipient's cash grant, or a portion thereof, or the welfare grant savings from employment, is diverted to the employer as a wage subsidy subsequent to the payment of wages to the participant.

For purposes of paragraphs (7) and (8), "supported work or transitional employment" means a form of grant diversion in which the recipient's cash grant, or a portion thereof, or the welfare grant savings from employment, is diverted to an intermediary service provider subsequent to the payment of wages to the participant.

Grant diversion, supported work, and transitional employment projects shall be administered so that the recipient shall not receive less disposable income than if he or she had not participated in the project. "Disposable income" means the income available to the recipient by adding the aid payment acquired pursuant to this chapter and earnings from the grant diversion project and subtracting the allowable employment related expenses

The grant, a portion of the grant, or the estimated savings due to the earnings from a grant diversion project may be diverted into a special fund created by the county welfare department for this purpose. An employer may be reimbursed from the special fund pursuant to a contract developed by the county welfare department or the service delivery area with the employer.

The county shall obtain agreements with employers that participants will be employed upon successful completion of the grant diversion, supported work, or transitional employment period in any related job openings, and that employers will not discriminate against participants on the basis of race, sex, national origin, age, or disability. Except as provided in subdivision (b) of Section 11320.6, there shall be no interruption in receipt of income, whether wages from the employer or aid payments by the department, caused by an employer's conduct. No grant diversion, supported work, or transitional employment program shall be implemented under this article until a plan for such a program is approved by the department. No plan for grant diversion, supported work, or transitional employment programs shall be approved if the plan would jeopardize federal financial participation. Standards established by the department for purposes of these programs shall not preclude a significant portion of recipients from participation.

A plan submitted under this subparagraph shall include provisions for immediate reissuance to the recipient of any grant or portion of a grant paid to an employer or intermediary, which has been lost due to fraud, malfeasance, or theft on the part of the employer or intermediary. This plan shall also include provisions for reissuance to the recipient of any grant or portion of a grant paid to an employer or intermediary, when the recipient is determined to have had good cause for declining to participate pursuant to Section 11320.7. In the event that funds are lost due to fraud, malfeasance, or theft by an employer, the county shall initiate an action to recover from the employer or intermediary any of those funds.

(e) As provided in the contract pursuant to Section 11320.5, supportive services shall include, but are not limited to, all of the following:

(1) Child care. Paid child care shall be available to every

participant with a child under 12 years of age who needs it in order to participate in the program component to which he or she is assigned.

(2) Transportation costs shall be paid for every participant to and from his or her job or training assignment.

(3) Ancillary expenses, which shall include the cost of books, tools, clothing, fees, and other necessary costs of a work or training assignment.

(4) Personal counseling. A participant who has personal or family problems that would affect the outcome of the employment plan entered into pursuant to Section 11320.5 shall, to the extent available, receive necessary counseling or therapy to help him or her and his or her family adjust to his or her job or training assignment.

(f) Payments for supportive services, as described in subdivision (e), shall be advanced to the participant, wherever necessary, and when desired by the participant, so that the participant need not use his or her funds to pay for these services.

If the participant is working in unsubsidized employment after having participated in this program, child care shall be available for a transition period of not less than three months. If the participant is working in unsubsidized employment after having participated in this program, coverage under the Medi-Cal program shall also be provided for a transition period consistent with federal requirements.

The cost of support services, including reimbursement to licensed day care providers, shall be governed by regional market rates. Reimbursement to child care providers shall not exceed the fee charged to private clients for the same service. Participants shall be allowed to choose legal child care and the cost of that child care shall be reimbursed by counties if the cost is within the regional market rate. The regional market rate means care costing no more than 1.5 market standard deviations above the mean cost of care for that region. Reimbursement shall be made at a rate lower than that charged to private clients for the same service if the child care program agrees to charge a lower fee. Reimbursement shall be made on a per month, per week, per day, or per hour basis depending upon the basis used to charge private clients for the same service. For purposes of this section, regional market rates shall be determined in accordance with resource and referral programs provided for under Article 2 (commencing with Section 8210) of Chapter 2 of Part 6 of the Education Code, and the Alternative Payment Program provided for under Article 3 (commencing with Section 8220) of Chapter 2 of Part 6 of the Education Code. Participant plans shall include immediate referrals to local resource and referral agencies. The department shall use the State Department of Education sliding scale fee schedule for participants receiving child care. Day care by family members shall be encouraged, but the choice between licensed or exempt day care arrangements shall be made by the recipient.

(g) Each county welfare department shall be encouraged to contract with existing service providers for any or all child care services arrangements. If the county welfare department elects to contract with any child care provider which is also under contract with the State Department of Education, these contracts shall be consistent with, and shall not supersede, all of the following:

(1) Chapter 2 (commencing with Section 8200) of Part 6 of the Education Code.

(2) Applicable provisions of Title 5 and Title 22 of the California Code of Regulations.

(3) Applicable State Department of Education contract provisions.

(h) In order to provide maximum choice to parents, and to ensure the availability of child care, each county shall do all of the following:

(1) Assist participants to locate child care during and after participation under this article.

(2) Allow and promote parent choice by providing flexibility in child care arrangements and establishing payment arrangements, as necessary, to meet the cost of licensed or exempt child care settings.

(3) Assist in the development of new child care capacity, where needed.

(4) Provide for the continuity of child care during the participant's postprogram transition period consistent with subdivision (f).

(5) Provide services to meet the child care needs of all children in the participant's family up to the age of 12 years.

(6) Provide child care to participants whose program demands flexible hours of care including evening, weekends, and split shifts.

(7) To the extent possible provide for transportation of children from school to care, if reasonable and necessary.

The county may contract with the public and private child care programs to provide any or all of the services specified in this subdivision.

(i) Resource and referral programs shall assist the county welfare departments to determine the child care needs of Greater Avenues for Independence participants, provide them with a listing of available child care services in the service area, and facilitate the efforts of county welfare departments, school districts, local child care providers and parent groups for the expansion of child care services.

(j) If the county welfare department or a contractor pays for child care services which are exempt from licensure, all of the following information about the care giver shall be on file with the county welfare department or the contractor and shall be made available to the participant:

(1) The name and address of the care provider.

(2) The address where care is to be provided.

(3) The hours care is to be provided and the charge for this care.

(4) The names, addresses, and telephone numbers of two

character references.

(5) A copy of a valid California driver's license or other identification to establish that the caregiver is at least 18 years old.

(6) A statement from the caregiver as to his or her health education, experience or other qualification, criminal record, and names and ages of other persons in the home or providing care.

(k) The department, under the direction of the Health and Welfare Agency, the Chancellor's office of the California Community Colleges, and the State Department of Education shall each develop and implement regulations whereby any payment for services from funds appropriated for the purposes of this article and delivered pursuant to subdivision (d) by an entity contracting with a county shall be made in accordance with a competitively selected fixed unit price performance-based contract. Under these contracts, full payment shall not be considered earned until either of the following has occurred:

(1) The participant has successfully completed the education program.

(2) The participant has successfully completed the job training program and has been retained in unsubsidized employment for at least 180 days.

Up to 70 percent of the fixed unit price for job training may be paid upon placement. At least 30 percent of the fixed unit price for job training shall be withheld for the followup during the 180-day retention period. Progress payments shall be made from this portion upon evidence of job retention at 30, 90, and 180 days. A pro rata share of the 70 percent payment shall be paid to the training provider if the participant fails to complete the training.

(*l*) Whenever a plan entered into pursuant to Section 11320.5 provides for the use of education services provided for in subdivision (d), utilization of each education program component shall not exceed two academic years.

(m) This section shall remain in effect only until January 1, 1991, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1991, deletes or extends that date.

SEC. 5. Section 11320.3 of the Welfare and Institutions Code, as added by Section 4 of Chapter 77 of the Statutes of 1989, is amended to read:

11320.3. (a) Each plan submitted pursuant to Section 11320.2 shall contain a methodology for the provision of job services, training and education, and supportive services to program participants. This methodology shall specify how county welfare departments will cooperate with, and maximize the use of, education, child care, resource and referral agencies, job service, and other appropriate local service providers. To the extent existing programs are available to county residents, each plan submitted pursuant to Section 11320.2 shall specify the manner in which these programs shall be utilized to provide services specified in this section. The county may provide services directly to program participants or enter into interagency

agreements or contracts with private or public agencies for the provision of these services.

(b) Each county shall specify in its plan its target groups and the choices that shall be made available to each target group, pursuant to Section 11320.4. The county shall make available all of its programs to each target group, but may give priorities for certain programs to groups for whom these programs are reasonably expected to be the most effective.

(c) As provided in the contract entered into pursuant to Section 11320.5, job services shall include, but not be limited to, all of the following:

(1) Job club, which shall consist of both of the following:

(A) Job search workshops. These job search workshops shall be group training sessions where participants learn various job finding skills, including training in basic job seeking skills, job development skills, job interviewing skills, understanding employer requirements and expectations, and how to enhance self-esteem, self-image, and confidence.

(B) Supervised job search, which shall include, but not be limited to, access to phone banks in a clean and well-lighted place, job orders, direct referrals to employers, or other organized methods of seeking work which are overseen, reviewed, and criticized by a trained employment professional. The amount and type of activity required during this supervised job search period shall be determined by the county and the participant, based on the participant's employment history and need for supportive services, and shall be consistent with regulations developed by the department.

(2) Unsupervised job search. The individual shall seek work in his or her own way, and make periodic progress reports no less frequently than every two weeks to the county welfare department or the agency contracting with that department.

(3) Job placement, which shall include, but not be limited to, referrals to jobs listed by employers with the State Job Service.

(4) Job development, which shall be active assistance in seeking employment provided to a participant by a trained employment professional on a one-to-one basis.

(5) Employment counseling, which shall be counseling aimed at helping a person reach an informed decision on an appropriate employment goal.

(d) As provided in the contract entered into pursuant to Section 11320.5, training and education services include, but are not limited to, all of the following:

(1) Job training, which shall include, but is not limited to, training in employer-specific job skills in a classroom or onsite setting, including training provided by local private industry council programs and community colleges.

(2) Preemployment preparation shall be work for a public or nonprofit agency that provides the participant with either of the following:

(A) Basic preemployment preparation, which shall provide work behavior skills and a reference for future unsubsidized employment.

(B) Advanced preemployment preparation, which shall provide on-the-job enhancement of existing participant skills in a position related to a participant's experience, training, or education acquired as a result of the services funded pursuant to a contract entered into pursuant to Section 11320.5.

A short-term preemployment preparation assignment shall be for not longer than three months. and may be provided as a preparation for other education and training services as a part of the contract amendments pursuant to subdivisions (d) and (e) of Section 11320.5. A long-term preemployment preparation assignment shall not exceed one year. The number of hours a person participates in a preemployment preparation program shall be determined by adding his or her aid grant under this chapter, less any child support paid to the county, and his or her food stamp allotment and dividing by the average hourly wage for all job orders placed with the Employment Development Department. The average hourly wage shall be updated annually every July 1. No preemployment preparation assignment shall exceed 32 hours per week.

(3) Adult basic education, which shall be preemployment basic education, including reading, writing, and arithmetic necessary for employment or job training, including high school proficiency.

(4) College and community college education, when that education provides sufficient employment skills training that can reasonably be expected to lead to employment.

(5) Vocational English-as-a-second-language which shall be intensive instruction in English for non-English speaking participants, coordinated with specific job training.

(6) Grant diversion.

(7) Supported work.

(8) Transitional employment.

For purposes of paragraph (6), "grant diversion" means public or private sector employment or on-the-job training at comparable wage rates, in which the recipient's cash grant, or a portion thereof, or the welfare grant savings from employment, is diverted to the employer as a wage subsidy subsequent to the payment of wages to the participant.

For purposes of paragraphs (7) and (8), "supported work or transitional employment" means a form of grant diversion in which the recipient's cash grant, or a portion thereof, or the welfare grant savings from employment, is diverted to an intermediary service provider subsequent to the payment of wages to the participant.

Grant diversion, supported work, and transitional employment projects shall be administered so that the recipient shall not receive less disposable income than if he or she had not participated in the project. "Disposable income" means the income available to the recipient by adding the aid payment acquired pursuant to this chapter and earnings from the grant diversion project and

subtracting the allowable employment related expenses.

The grant, a portion of the grant, or the estimated savings due to the earnings from a grant diversion project may be diverted into a special fund created by the county welfare department for this purpose. An employer may be reimbursed from the special fund pursuant to a contract developed by the county welfare department or the service delivery area with the employer.

The county shall obtain agreements with employers that participants will be employed upon successful completion of the grant diversion, supported work, or transitional employment period in any related job openings, and that employers will not discriminate against participants on the basis of race, sex, national origin, age, or disability. Except as provided in subdivision (b) of Section 11320 6, there shall be no interruption in receipt of income, whether wages from the employer or aid payments by the department, caused by an employer's conduct. No grant diversion, supported work, or transitional employment program shall be implemented under this article until a plan for such a program is approved by the department. No plan for grant diversion, supported work, or transitional employment programs shall be approved if the plan would jeopardize federal financial participation. Standards established by the department for purposes of these programs shall not preclude a significant portion of recipients from participation.

A plan submitted under this subparagraph shall include provisions for immediate reissuance to the recipient of any grant or portion of a grant paid to an employer or intermediary, which has been lost due to fraud, malfeasance, or theft on the part of the employer or intermediary. This plan shall also include provisions for reissuance to the recipient of any grant or portion of a grant paid to an employer or intermediary, when the recipient is determined to have had good cause for declining to participate pursuant to Section 11320.7. In the event that funds are lost due to fraud, malfeasance, or theft by an employer, the county shall initiate an action to recover from the employer or intermediary any of those funds.

(e) As provided in the contract pursuant to Section 11320.5, supportive services shall include, but are not limited to, all of the following:

(1) Child care. Paid child care shall be available to every participant with a child under 12 years of age who needs it in order to participate in the program component to which he or she is assigned.

(2) Transportation costs shall be paid for every participant to and from his or her job or training assignment.

(3) Ancillary expenses, which shall include the cost of books, tools, clothing, fees, and other necessary costs of a work or training assignment.

(4) Personal counseling. A participant who has personal or family problems that would affect the outcome of the employment plan entered into pursuant to Section 11320.5 shall, to the extent available,

receive necessary counseling or therapy to help him or her and his or her family adjust to his or her job or training assignment.

(f) Payments for supportive services, as described in subdivision (e), shall be advanced to the participant, wherever necessary, and when desired by the participant, so that the participant need not use his or her funds to pay for these services.

If the participant is working in unsubsidized employment after having participated in this program, child care shall be available for a transition period of not less than three months. If the participant is working in unsubsidized employment after having participated in this program, coverage under the Medi-Cal program shall also be provided for a transition period consistent with federal requirements.

The cost of support services, including reimbursement to licensed day care providers, shall be governed by regional market rates. Reimbursement to child care providers shall not exceed the fee charged to private clients for the same service. Participants shall be allowed to choose legal child care and the cost of that child care shall be reimbursed by counties if the cost is within the regional market rate. The regional market rate means care costing no more than 1.5 market standard deviations above the mean cost of care for that region. Reimbursement shall be made at a rate lower than that charged to private clients for the same service if the child care program agrees to charge a lower fee. Reimbursement shall be made on a per month, per week, per day, or per hour basis depending upon the basis used to charge private clients for the same service For purposes of this section, regional market rates shall be determined in accordance with resource and referral programs provided for under Article 2 (commencing with Section 8210) of Chapter 2 of Part 6 of the Education Code, and the Alternative Payment Program provided for under Article 3 (commencing with Section 8220) of Chapter 2 of Part 6 of the Education Code. Participant plans shall include immediate referrals to local resource and referral agencies. The department shall use the State Department of Education sliding scale fee schedule for participants receiving child care. Day care by family members shall be encouraged, but the choice between licensed or exempt day care arrangements shall be made by the recipient.

(g) Each county welfare department shall be encouraged to contract with existing service providers for any or all child care services arrangements. If the county welfare department elects to contract with any child care provider which is also under contract with the State Department of Education, these contracts shall be consistent with, and shall not supersede, all of the following:

(1) Chapter 2 (commencing with Section 8200) of Part 6 of the Education Code.

(2) Applicable provisions of Title 5 and Title 22 of the California Code of Regulations.

(3) Applicable State Department of Education contract

provisions.

(h) In order to provide maximum choice to parents, and to ensure the availability of child care, each county shall do all of the following:

(1) Assist participants to locate child care during and after participation under this article.

(2) Allow and promote parent choice by providing flexibility in child care arrangements and establishing payment arrangements, as necessary, to meet the cost of licensed or exempt child care settings.

(3) Assist in the development of new child care capacity, where needed.

(4) Provide for the continuity of child care during the participant's postprogram transition period consistent with subdivision (f).

(5) Provide services to meet the child care needs of all children in the participant's family up to the age of 12 years.

(6) Provide child care to participants whose program demands flexible hours of care including evening, weekends, and split shifts.

(7) To the extent possible provide for transportation of children from school to care, if reasonable and necessary.

The county may contract with the public and private child care programs to provide any or all of the services specified in this subdivision.

(i) Resource and referral programs shall assist the county welfare departments to determine the child care needs of Greater Avenues for Independence participants, provide them with a listing of available child care services in the service area, and facilitate the efforts of county welfare departments, school districts, local child care providers and parent groups for the expansion of child care services.

(j) If the county welfare department or a contractor pays for child care services which are exempt from licensure, all of the following information about the caregiver shall be on file with the county welfare department or the contractor and shall be made available to the participant:

(1) The name and address of the care provider.

(2) The address where care is to be provided.

(3) The hours care is to be provided and the charge for this care.

(4) The names, addresses, and telephone numbers of two character references.

(5) A copy of a valid California driver's license or other identification to establish that the care giver is at least 18 years old.

(6) A statement from the caregiver as to his or her health education, experience or other qualification, criminal record, and names and ages of other persons in the home or providing care.

(k) The department, under the direction of the Health and Welfare Agency, the Chancellor's office of the California Community Colleges, and the State Department of Education shall each develop and implement regulations whereby any payment for services from funds appropriated for the purposes of this article and

delivered pursuant to subdivision (d) by an entity contracting with a county shall be made in accordance with a competitively selected fixed unit price performance-based contract. Under these contracts, full payment shall not be considered earned until either of the following has occurred:

(1) The participant has successfully completed the education program.

(2) The participant has successfully completed the job training program and has been retained in unsubsidized employment for at least 180 days.

Up to 70 percent of the fixed unit price for job training may be paid upon placement. At least 30 percent of the fixed unit price for job training shall be withheld for the followup during the 180-day retention period. Progress payments shall be made from this portion upon evidence of job retention at 30, 90, and 180 days. A pro rata share of the 70 percent payment shall be paid to the training provider if the participant fails to complete the training.

(*l*) Whenever a plan entered into pursuant to Section 11320.5 provides for the use of education services provided for in subdivision (d), utilization of each education program component shall not exceed two academic years.

(m) This section shall become operative on January 1, 1991.

CHAPTER 1311

An act relating to community colleges, and making an appropriation therefor.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. CHAPTER 3.5. MENTAL HEALTH MASTER PLAN DEVELOPMENT ACT

5730. This act is to be known as the Mental Health Master Plan Development Act.

5731. The Legislature finds and declares that the mental health system is a large and important segment of California's system of health care. The Legislature further finds and declares all of the following:

(6) There is no minimum range of treatment services which should be available in every county in California.

(7) Most funding formulas for state mental health programs are not client based.

(9) Legislative action is required to ensure that a comprehensive policy is developed which addresses the critical problems and key issues currently facing the mental health system in California.

5732. (a) Given the requirements of Public Law 99-660 and the significant policy issues currently facing the mental health system in California, a master plan for mental health is required which integrates these planning and reform efforts and which establishes priorities for the service delivery system and analyzes critical policy issues.

(b) The California Planning Council's scope shall be expanded to include the development of the Mental Health Master Plan. This Mental Health Master Plan shall be distinct but compatible with the plan mandated by Public Law 99-660, the development and implementation of which is the responsibility of the State Department of Mental Health

(c) Therefore, the California Planning Council required by Public Law 99-660 shall be expanded to include the following members:

(1) The Speaker of the Assembly shall recommend to the Governor for appointment, one council member.

(2) The Assembly Minority Floor Leader shall recommend to the Governor for appointment, one council member.

5733. The Mental Health Master Plan shall include, but not be limited to, an analysis of all of the following:

(a) The specific planning elements required by Public Law 99-660.

(b) Identification of priority populations to be served and a definition of those priority populations.

(c) Proposed methods of allocating resources which result in the most effective system of care possible for the priority populations.

(d) Proposed methods of evaluating the effectiveness of current service delivery methods and the populations which are best served by these models of care.

(e) Recommendations related to the governance and responsibilities of the state, county, or other administrative structures for the delivery of mental health programs which are cost-effective and provide the highest quality of care.

SEC. 2. The expanded role and responsibility of the California Planning Council is contingent upon the availability of federal funds appropriated for this purpose.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1314

An act to amend Sections 17052.17, 17052.18, 23617, and 23617.5 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy

[Approved by Governor October 1, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows.

SECTION 1. Section 17052.17 of the Revenue and Taxation Code is amended to read:

17052.17. (a) For taxable years beginning on or after January 1, 1988, and before January 1, 1992, there shall be allowed as a credit against the "net tax" (as defined by Section 17039) an amount equal to the amount determined in subdivision (b).

(b) (1) The amount of the credit allowed by this section shall be 30 percent of either or both of the following:

(A) The cost paid or incurred by the taxpayer on or after September 23, 1988, for the startup expenses of establishing a child care program or constructing a child care facility in California, to be used primarily by the children of the taxpayer's employees.

(B) The cost paid or incurred by the taxpayer on or after September 23, 1988, for contributions to California child care information and referral services such as those which identify local child care services, offer information describing these resources to employees, and make referrals of employees to child care services where there are vacancies.

In the case of a child care facility established by two or more taxpayers, the credit shall be allowed if the facility is to be used primarily by the children of the employees of each of the taxpayers.

(2) The amount of costs paid or incurred for each taxable year which are eligible to be taken into account under subparagraph (A) or subparagraph (B), or both, of paragraph (1) shall not exceed one hundred thousand dollars ($100,000).

(c) For purposes of this section, "startup expenses" include, but are not limited to, feasibility studies, site preparation, and construction, renovation or acquisition of facilities for purposes of establishing or expanding onsite or near-site centers by one or more employers.

(d) With the exception of a husband and wife, if two or more taxpayers share in the costs eligible for the credit provided by this section, each taxpayer shall be eligible to receive the tax credit in proportion to his or her respective share of the costs paid or incurred. In the case of a partnership, the tax credit may be divided between the partners pursuant to a written partnership agreement in accordance with Chapter 10 (commencing with Section 17851), which includes Section 704 of the Internal Revenue Code concerning substantial economic effect, relating to partners' distributive share. In the case of a husband or wife who files a separate return, the credit may be taken by either or equally divided between them.

(e) (1) In the case where the credit allowed under subdivision (b) for the taxable year exceeds the "net tax," the excess may be carried over to reduce the "net tax" in the following year, and the next four years if necessary, until the credit has been exhausted.

(2) If the credit carryovers from preceding taxable years allowed under paragraph (1) plus the credit allowed for the taxable year under subdivision (b) would exceed an aggregate total of thirty thousand dollars ($30,000), then the credit allowed to reduce net tax under this section for the taxable year shall be limited to thirty thousand dollars ($30,000) and the amount in excess of the thirty thousand dollars ($30,000) limit may be carried over and applied against net tax for the next five succeeding taxable years in an amount which, when added to the credit allowed under subdivision (b) for that succeeding taxable year, does not exceed thirty thousand dollars ($30,000).

(f) No deduction shall be allowed as otherwise provided in this

part for that portion of expenses paid or incurred for the taxable year which is equal to the amount of the credit allowed under this section attributable to those expenses.

(g) In lieu of claiming the tax credit provided by this section, the taxpayer may elect to take depreciation pursuant to Section 17250. In addition, the taxpayer may take depreciation pursuant to that section for the cost of a facility in excess of the amount of the tax credit claimed under this section.

(h) The basis for any child care facility for which a credit is allowed shall be reduced by the amount of the credit attributable to the facility. The basis adjustment shall be made for the taxable year for which the credit is allowed.

(i) (1) In order to be eligible for the credit allowed under subparagraph (A) of paragraph (1) of subdivision (b), the taxpayer shall submit to the Franchise Tax Board upon request a statement certifying that the costs for which the credit is claimed are incurred with respect to the startup expenses of establishing a child care program or constructing a child care facility in California to be used primarily by the children of the taxpayer's employees and which will be in operation for at least 60 consecutive months after completion.

(2) If the child care center for which a credit is claimed pursuant to this section is disposed of or ceases to operate within 60 months after completion, that portion of the credit claimed which represents the remaining portion of the 60-month period shall be added to the taxpayer's tax liability in the taxable year of that disposition or nonuse.

(j) This section shall remain in effect only until December 1, 1992, and as of that date is repealed. However, any unused credit may continue to be carried forward, as provided in subdivision (e), until the credit has been exhausted.

SEC. 2. Section 17052.18 of the Revenue and Taxation Code is amended to read:

(b) (1) The amount of the credit allowed by this section shall be 50 percent of the cost paid or incurred by the taxpayer on or after September 23, 1988, for contributions to a qualified care plan made on behalf of any dependent of the taxpayer's California employee who is under the age of 15.

(2) The amount of the credit allowed by this section in any taxable year shall not exceed six hundred dollars ($600) for contributions to a full-time qualified care plan and three hundred dollars ($300) for contributions to a part-time qualified care plan made on behalf of the employee's dependent.

The Franchise Tax Board may require information about fees collected from parents of children.

(e) In the case where the child care received is of less than 42-week duration, the employer shall claim a prorated portion of the allowable credit. The employer shall prorate the credit using the ratio of the number of weeks of care received divided by 42 weeks.

(f) In the case where the credit allowed under this section exceeds the "net tax," the excess may be carried over to reduce the "net tax" in the following year, and the next four years if necessary, until the credit has been exhausted.

(g) The credit shall not be available to an employer if the care provided on behalf of an employee is provided by an individual who:

(1) Qualifies as a dependent of that employee or that employee's spouse under paragraph (1) of subdivision (d) of Section 17054.

(2) Is (within the meaning of Section 17056) a son, stepson, daughter, or stepdaughter of that employee under the age of 19 at the close of that taxable year.

The Franchise Tax Board may require information about fees collected from parents of children served in the facility from taxpayers claiming credits under this section.

(e) In the case where the child care received is of less than 42-week duration, the employer shall claim a prorated portion of the allowable credit. The employer shall prorate the credit using the ratio of the number of weeks of care received divided by 42 weeks.

(f) In the case where the credit allowed under this section exceeds the "tax," the excess may be carried over to reduce the "tax" in the following year, and the next four years, if necessary, until the credit has been exhausted.

(*l*) This section shall remain in effect only until December 1, 1992, and as of that date is repealed. However, any unused credit may continue to be carried forward, as provided in subdivision (f), until the credit has been exhausted.

SEC. 2.5. Section 987.2 of the Penal Code is amended to read:

987.2. (a) In any case in which a person, including a person who is a minor, desires but is unable to employ counsel and in which counsel is assigned in the superior court, municipal court, or justice court to represent the person in a criminal trial, proceeding or appeal, the assigned counsel: (1) in a county or city and county in which there is no public defender; (2) in a county of the first or second class where there is no contract for criminal defense services between the county and one or more responsible attorneys; (3) in a case in which the court finds that because of a conflict of interest or other reasons the public defender has properly refused; or (4) in a county of the first or second class where attorneys contracted by the county are unable to represent the person accused, shall receive a reasonable sum for compensation and for necessary expenses, the amount of which shall be determined by the court, to be paid out of

the general fund of the county.

1203.2. (a) At any time during the probationary period of a person released on probation under the care of a probation officer pursuant to this chapter, or of a person released on conditional sentence or summary probation not under the care of a probation officer, if any probation officer or peace officer has probable cause to believe that the probationer is violating any term or condition of his or her probation or conditional sentence, the officer may, without warrant or other process and at any time until the final disposition of the case, rearrest the person and bring him or her before the court or the court may, in its discretion, issue a warrant for his or her rearrest. Upon such rearrest, or upon the issuance of a warrant for rearrest the court may revoke and terminate such probation if the interests of justice so require and the court, in its judgment, has reason to believe from the report of the probation officer or otherwise that the person has violated any of the conditions of his or her probation, has become abandoned to improper associates or a vicious life, or has subsequently committed other offenses, regardless whether he or she has been prosecuted for such offenses. However, probation shall not be revoked for failure of a person to make restitution pursuant to Section 1203.04 as a condition of probation unless the court determines that the defendant has willfully failed to pay and has the ability to pay. Restitution shall be consistent with a person's ability to pay. The revocation, summary or otherwise, shall serve to toll the running of the probationary period.

(b) Upon its own motion or upon the petition of the probationer, probation officer or the district attorney of the county in which the probationer is supervised, the court may modify, revoke, or terminate the probation of the probationer pursuant to this subdivision. The court shall give notice of its motion, and the probation officer or the district attorney shall give notice of his or her petition to the probationer, his or her attorney of record, and the district attorney or the probation officer, as the case may be. The probationer shall give notice of his or her petition to the probation officer and notice of any motion or petition shall be given to the district attorney in all cases. The court shall refer its motion or the petition to the probation officer. After the receipt of a written report from the probation officer, the court shall read and consider the

report and either its motion or the petition and may modify, revoke, or terminate the probation of the probationer upon the grounds set forth in subdivision (a) if the interests of justice so require.

The notice required by this subdivision may be given to the probationer upon his or her first court appearance in the proceeding. Upon the agreement by the probationer in writing to the specific terms of a modification or termination of a specific term of probation, any requirement that the probationer make a personal appearance in court for the purpose of a modification or termination shall be waived. Prior to the modification or termination and waiver of appearance, the probationer shall be informed of his or her right to consult with counsel, and if indigent the right to secure court appointed counsel. If the probationer waives his or her right to counsel a written waiver shall be required. If probationer consults with counsel and thereafter agrees to a modification or termination of the term of probation and waiver of personal appearance, the agreement shall be signed by counsel showing approval for the modification or termination and waiver.

(c) Upon any revocation and termination of probation the court may, if the sentence has been suspended, pronounce judgment for any time within the longest period for which the person might have been sentenced. However, if the judgment has been pronounced and the execution thereof has been suspended, the court may revoke the suspension and order that the judgment shall be in full force and effect. In either case, the person shall be delivered over to the proper officer to serve his or her sentence, less any credits herein provided for.

(d) In any case of revocation and termination of probation, including, but not limited to, cases in which the judgment has been pronounced and the execution thereof has been suspended, upon the revocation and termination, the court may, in lieu of any other sentence, commit the person to the Department of the Youth Authority if he or she is otherwise eligible for such commitment.

(e) If probation has been revoked before the judgment has been pronounced, the order revoking probation may be set aside for good cause upon motion made before pronouncement of judgment. If probation has been revoked after the judgment has been pronounced, the judgment and the order which revoked the probation may be set aside for good cause within 30 days after the court has notice that the execution of the sentence has commenced. If an order setting aside the judgment, the revocation of probation, or both is made after the expiration of the probationary period, the court may again place the person on probation for that period and with those terms and conditions as it could have done immediately following conviction.

(f) No licensed rating organization, member of a licensed rating organization, member of a committee of a licensed rating organization when acting in its capacity as a member of the committee, or officer or employee of a licensed rating organization when acting within the scope of his or her employment, shall be liable to any person for injury, personal or otherwise, or damages caused or alleged to have been caused, either directly or indirectly, by the disclosure of rating information pursuant to this section, or to the members of such organizations, or for the accuracy or completeness of the information disclosed.

(g) This section shall not be construed as implying the existence of liability in circumstances not defined in this section, nor as implying a legislative recognition that, except for the enactment of this section, a liability has existed or would exist in the circumstances stated in this section.

(h) This section shall not be construed as limiting any authority of a licensed rating organization to disclose information contained in its records to others.

The employees or interagency clerks shall be assigned duties to perform on behalf of the state agencies which are a party to the agreement as specified in subdivision (b). However, in the case of the Judicial Council, the clerk shall perform duties on behalf of the clerk of the municipal court district in which the inspection facility is located.

The stored or impounded vehicle shall be released upon payment of those fees, fines, or the posting of bail. Upon request, the driver or owner of the vehicle may request a hearing to determine the validity of the seizure.

(e) The Department of the California Highway Patrol may implement this program as a demonstration pilot program at one or more locations. The department, on or before February 1, 1992, shall report its recommendations for continuation, expansion, or termination of the program to the Legislature. The report shall also consider the potential for ports of entry at major highway entry points to California, similar to programs already implemented in other states.

CHAPTER 1323

An act to add Section 65917.5 to the Government Code, relating to zoning.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) It is the intent of the Legislature to encourage greater development of facilities by the private sector at points of employment concentration.

(b) It is the intent of the Legislature to encourage and foster a public and private cooperative approach to providing child care services in California communities.

(c) It is in the best interest of the state to develop and foster incentive driven programs to encourage commercial and industrial developers to provide children's centers, which can meet the needs of the city, including a charter city, city and county, or county.

(d) It is the intent of the Legislature to provide advisory guidelines which may be adopted by a city council, including a charter city council, city and county board of supervisors, or county board of supervisors, for floor area ratio bonuses as one approach in addressing the unmet need for child care services in California communities.

(e) It is in the best interest of the state to provide advisory

guidelines which assist in reducing travel time for families by increasing onsite child care facilities in developments such as business, industrial parks, and retail centers. It is also in the best interest of the state to create incentives for developers which will help to foster and attract business and tenants in new developments.

(f) It is the intent of the Legislature to provide guidelines for local jurisdictions and the private sector which will increase the number of facilities which are developed specifically for children that can enrich and nurture their physical and cognitive growth.

(g) It is further the intent of the Legislature that every city council, including a charter city council, city and county board of supervisors, or county board of supervisors, shall consider adopting the floor area ratio bonus guidelines into their local general plans.

SEC. 2. Section 65917.5 is added to the Government Code, to read:

65917.5. (a) As used in this section, the following terms shall have the following meanings:

(1) "Child care facility" means a facility installed, operated, and maintained under this section for the nonresidential care of children as defined under applicable state licensing requirements for the facility.

(2) "Density bonus" means a floor area ratio bonus over the otherwise maximum allowable density permitted under the applicable zoning ordinance and land use elements of the general plan of a city, including a charter city, city and county, or county of:

(A) A maximum of five square feet of floor area for each one square foot of floor area contained in the child care facility for existing structures.

(B) A maximum of 10 square feet of floor area for each one square foot of floor area contained in the child care facility for new structures.

For purposes of calculating the density bonus under this section, both indoor and outdoor square footage requirements for the child care facility as set forth in applicable state child care licensing requirements shall be included in the floor area of the child care facility.

(3) "Developer" means the owner or other person, including a lessee, having the right under the applicable zoning ordinance of a city council, including a charter city council, city and county board of supervisors, or county board of supervisors to make application for development approvals for the development or redevelopment of a commercial or industrial project.

(4) "Floor area" means as to a commercial or industrial project, the floor area as calculated under the applicable zoning ordinance of a city council, including a charter city council, city and county board of supervisors, or county board of supervisors and as to a child care facility, the total area contained within the exterior walls of the facility and all outdoor areas devoted to the use of the facility in accordance with applicable state child care licensing requirements.

(b) A city council, including a charter city council, city and county board of supervisors, or county board of supervisors may establish a procedure by ordinance to grant a developer of a commercial or industrial project, containing at least 50,000 square feet of floor area, a density bonus when that developer has set aside at least 2,000 square feet of floor area and 3,000 outdoor square feet to be used for a child care facility. The granting of a bonus shall not preclude a city council, including a charter city council, city and county board of supervisors, or county board of supervisors from imposing necessary conditions on the project or on the additional square footage. Projects constructed under this section shall conform to height, setback, lot coverage, architectural review, site plan review, fees, charges, and other health, safety, and zoning requirements generally applicable to construction in the zone in which the property is located. A consortium with more than one developer may be permitted to achieve the threshold amount for the available density bonus with each developer's density bonus equal to the percentage participation of the developer. This facility may be located on the project site or may be located offsite as agreed upon by the developer and local agency. If the child care facility is not located on the site of the project, the local agency shall determine whether the location of the child care facility is appropriate and whether it conforms with the intent of this section The child care facility shall be of a size to comply with all state licensing requirements in order to accommodate at least 40 children.

(c) The developer may operate the child care facility itself or may contract with a licensed child care provider to operate the facility. In all cases, the developer shall show ongoing coordination with a local child care resource and referral network or local governmental child care coordinator in order to qualify for the density bonus.

(d) If the developer uses space allocated for child care facility purposes, in accordance with subdivision (b), for any purposes other than for a child care facility, an assessment based on the square footage of the project may be levied and collected by the city council, including a charter city council, city and county board of supervisors, or county board of supervisors. The assessment shall be consistent with the market value of the space. If the developer fails to have the space allocated for the child care facility within three years, from the date upon which the first temporary certificate of occupancy is granted, an assessment based on the square footage of the project may be levied and collected by the city council, including a charter city council, city and county board of supervisors, or county board of supervisors in accordance with procedures to be developed by the legislative body of the city council, including a charter city council, city and county board of supervisors, or county board of supervisors. The assessment shall be consistent with the market value of the space. Any penalty levied against a consortium of developers shall be charged to each developer in an amount equal to the developer's percentage square feet participation. Funds collected pursuant to

this subdivision shall be deposited by the city council, including a charter city council, city and county board of supervisors, or county board of supervisors into a special account to be used for childcare services or child care facilities.

(e) Once the child care facility has been established, prior to the closure, change in use, or reduction in the physical size of, the facility, the city, city council, including a charter city council, city and county board of supervisors, or county board of supervisors shall be required to make a finding that the need for child care is no longer present, or is not present to the same degree as it was at the time the facility was established.

(f) The requirements of Chapter 5 (commencing with Section 66000) and of the amendments made to Sections 53077, 54997, and 54998, by Chapter 1002 of the Statutes of 1987 shall not apply to actions taken in accordance with this section.

(g) This section shall not apply to a voter-approved ordinance adopted by referendum or initiative.

CHAPTER 1324

An act to amend, repeal, and add Section 66901 of, and to add Article 2.5 (commencing with Section 66914) to Chapter 11 of Part 40 of, the Education Code, relating to private postsecondary educational institutions.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 66901 of the Education Code is amended to read:

(a) One representative of the Regents of the University of California designated by the regents, one representative of the Trustees of the California State University designated by the trustees, and one representative of the Board of Governors of the California Community Colleges designated by the board. Representatives of the regents, the trustees, and the board of governors shall be chosen from among the appointed members of their respective boards, but in no instance shall an ex officio member of a governing board serve on the commission.

(b) One representative of the independent California colleges and universities which are accredited by a national or regional

(d) The President of the State Board of Education or his or her designee from among the other members of the board.

(e) Nine representatives of the general public appointed as follows: three by the Governor, three by the Senate Rules Committee, and three by the Speaker of the Assembly. It is the intent of the Legislature that the commission be broadly and equitably representative of the general public in the appointment of its public members and that the appointing authorities, therefore, shall confer to assure that their combined appointments include adequate representation on the basis of sex and on the basis of the significant racial, ethnic, and economic groups in the state.

No person who is employed by any institution of public or private postsecondary education shall be appointed to or serve on the commission, except that a person who is not a permanent, full-time employee and who has part-time teaching duties which do not exceed six hours per week may be appointed to and serve on the commission.

The commission members designated in subdivisions (a), (c), and (d) shall serve at the pleasure of their respective appointing authorities. The member designated in subdivision (b) shall serve a three-year term. The members designated in subdivision (e) shall each serve a six-year term. The respective appointing authority may appoint an alternate for each member who may, during the member's absence, serve on the commission and vote on matters before the commission. When vacancies occur prior to expiration of terms, the respective appointing authority may appoint a member for the remainder of the term.

Any person appointed pursuant to this section may be reappointed to serve additional terms.

Any person appointed pursuant to this section who no longer has the position which made him or her eligible for appointment may nonetheless complete his or her term of office on the commission.

No person appointed pursuant to this section shall, with respect to any matter before the commission, vote for or on behalf of, or in any way exercise the vote of, any other member of the commission.

The commission shall meet as often as it deems necessary to carry out its duties and responsibilities.

Any member of the commission who in any calendar year misses more than one-third of the meetings of the full commission forfeits his or her office, thereby creating a vacancy.

The commission shall select a chair from among the members representing the general public. The chair shall hold office for a term of one year and may be selected to successive terms.

The commission may appoint any subcommittees or advisory committees it deems necessary to advise the commission on matters of educational policy. The advisory committees may consist of commission members or nonmembers, or both, including students, faculty members, segmental representatives, governmental representatives, and representatives of the public.

The commission shall appoint and may remove a director in the manner hereinafter specified. The director shall appoint persons to any staff positions the commission may authorize.

The commission shall prescribe rules for the transaction of its own affairs, subject, however, to all the following requirements and limitations:

(1) The votes of all representatives shall be recorded.

(2) Effective action shall require the affirmative vote of a majority of all the duly appointed members of the commission, not including vacant commission seats.

(3) The affirmative votes of two-thirds of all the duly appointed members of the commission, not including vacant commission seats, shall be necessary to the appointment of the director.

(f) This section shall remain in effect until June 30, 1990, and as of that date is repealed.

SEC. 2. Section 66901 is added to the Education Code, to read:

66901. There is hereby created the California Postsecondary Education Commission, which shall be advisory to the Governor, the Legislature, other appropriate governmental officials, and institutions of postsecondary education. The commission shall be composed of the following members:

(a) One representative of the Regents of the University of California designated by the regents, one representative of the Trustees of the California State University designated by the trustees, and one representative of the Board of Governors of the California Community Colleges designated by the board. Representatives of the regents, the trustees, and the board of governors shall be chosen from among the appointed members of their respective boards, but in no instance shall an ex officio member of a governing board serve on the commission.

(b) One representative of the independent California colleges and universities which are accredited by a national or regional association which is recognized by the United States Department of Education. This member shall be appointed by the Governor from

a list or lists submitted by an association or associations of those institutions.

No person who is employed by any institution of public or private postsecondary education shall be appointed to or serve on the commission, except that a person who is not a permanent, full-time employee and who has part-time teaching duties which do not exceed six hours per week may be appointed to and serve on the commission.

The commission members designated in subdivisions (a), (c), and (d) shall serve at the pleasure of their respective appointing authorities. The member designated in subdivision (b) shall serve a three-year term. The members designated in subdivision (e) shall each serve a six-year term. The respective appointing authority may appoint an alternate for each member who may, during the member's absence, serve on the commission and vote on matters before the commission. When vacancies occur prior to expiration of terms, the respective appointing authority may appoint a member for the remainder of the term.

Any person appointed pursuant to this section may be reappointed to serve additional terms.

Any person appointed pursuant to this section who no longer has the position which made him or her eligible for appointment may nonetheless complete his or her term of office on the commission.

No person appointed pursuant to this section shall, with respect to any matter before the commission, vote for or on behalf of, or in any way exercise the vote of, any other member of the commission.

The commission shall meet as often as it deems necessary to carry out its duties and responsibilities.

Any member of the commission who in any calendar year misses more than one-third of the meetings of the full commission forfeits his or her office, thereby creating a vacancy.

The commission shall select a chair from among the members representing the general public. The chair shall hold office for a term of one year and may be selected to successive terms.

There is established an advisory committee to the commission and the director, consisting of the chief executive officers of each of the

public segments, or their designees, the Superintendent of Public Instruction or his or her designee, and an executive officer from each of the groups of institutions designated in subdivisions (b) and (c) to be designated by the respective commission representative from these groups. Commission meeting agenda items and associated documents shall be provided to the committee in a timely manner for its consideration and comments.

The commission may appoint any subcommittees or advisory committees it deems necessary to advise the commission on matters of educational policy. The advisory committees may consist of commission members or nonmembers, or both, including students, faculty members, segmental representatives, governmental representatives, and representatives of the public.

The commission shall appoint and may remove a director in the manner hereinafter specified. The director shall appoint persons to any staff positions the commission may authorize.

The commission shall prescribe rules for the transaction of its own affairs, subject, however, to all the following requirements and limitations:

(1) The votes of all representatives shall be recorded.

(2) Effective action shall require the affirmative vote of a majority of all the duly appointed members of the commission, not including vacant commission seats.

(3) The affirmative votes of two-thirds of all the duly appointed members of the commission, not including vacant commission seats, shall be necessary to the appointment of the director.

(f) This section shall become operative on July 1, 1990.

SEC. 3. Article 2.5 (commencing with Section 66914) is added to Chapter 11 of Part 40 of the Education Code, to read:

Article 2.5. Review of National and Regional Postsecondary Accrediting Agencies

66914. (a) The commission, with the assistance of the Superintendent of Public Instruction, shall conduct an initial review of all national and regional accrediting agencies which accredit private postsecondary institutions doing business or seeking to do business in the state and shall report the results of the review to the Council for Private Postsecondary and Vocational Education and to the Legislature by December 31, 1990. This review shall determine all of the following:

(1) Whether the accrediting agency can demonstrate that its standards and procedures for the review of institutions encompass the standards and consumer protection requirements prescribed in Chapter 3 (commencing with Section 94300) of Part 59, as added by the Private Postsecondary and Vocational Education Reform Act of 1989, and that those standards are rigorously enforced. In the event that the commission determines that the accrediting agency is deficient in its standards, procedures for review, or the enforcement

mechanisms for the institutions under the accrediting agency's jurisdiction, the commission shall identify the deficiencies.

(2) The effectiveness of the accrediting agency in responding to consumer complaints, including those complaints forwarded to the accrediting agency by the council.

(b) Following the initial review of all national and regional accrediting agencies the commission shall periodically review these agencies every five years, or sooner upon the request of the Council for Private Postsecondary and Vocational Education. The commission may stagger the review procedure in a manner which allows one-fifth of the national and regional accrediting agencies to be reviewed each year. The commission shall report the findings of these periodic reviews to the council and the Legislature.

(c) The commission shall advise the Legislature and the Council for Private Postsecondary and Vocational Education whether it recommends that a regional or national accrediting agency's accreditation of a postsecondary educational institution should be utilized in lieu of part or all of the state licensing review by the council.

66915. (a) The commission, with the assistance of the Superintendent of Public Instruction, shall work in cooperation with the Council for Private Postsecondary and Vocational Education to prepare a preliminary draft of proposed regulations to implement the standards, procedures, and criteria prescribed in Chapter 3 (commencing with Section 94300) of Part 59, including all of the following:

(1) Policies for the administration of the Private Postsecondary and Vocational Education Reform Act of 1989.

(2) A procedure for the development and adoption of rules regulations, and procedures which are necessary or appropriate to conduct the work of the council.

(3) Minimum criteria for the approval of private postsecondary or vocational educational institutions to operate in the state and to award degrees and diplomas.

(4) A procedure for the approval of institutions which meet the prescribed criteria.

(b) The preliminary draft shall be delivered to the council on or before December 31, 1990.

SEC. 4. Sections 1 to 3, inclusive, of this act shall become operative only if Senate Bill 190 of the 1989–90 Regular Session is chaptered and becomes effective on or before January 1, 1990.

CHAPTER 1325

An act to amend Sections 25534, 25534.1, and 25536 of the Health and Safety Code, relating to hazardous materials.

[Approved by Governor October 1, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 25534 of the Health and Safety Code is amended to read:

25534. (a) After receiving an acutely hazardous material registration form filed pursuant to Section 25533, the administering agency shall make a preliminary determination whether there is a significant likelihood that the handler's use of an acutely hazardous material may pose an acutely hazardous materials accident risk.

(1) If the administering agency determines that there is a significant likelihood of risk pursuant to this subdivision it shall require the handler to prepare and to submit an RMPP in accordance with a timetable based on the priority ranking established in subdivision (b).

(2) If the administering agency determines that there is not a significant likelihood of risk pursuant to this subdivision, it may require the preparation and submission of an RMPP, but need not do so if it determines that the likelihood of an acutely hazardous materials accident risk is remote.

(b) The administering agency shall rank each use of an acutely hazardous material identified pursuant to paragraph (1) of subdivision (a) in terms of the relative risks associated with its use, should an acutely hazardous materials accident occur. The estimation of the relative risks posed by the use of an acutely hazardous material shall be based on worst case assumptions regarding the quantity and rate of release of the acutely hazardous material, air dispersion, toxicity, meteorological conditions, and other pertinent parameters. Based on the estimate of relative risks, the administering agency shall establish a timetable for the submission of the RMPP for the use of the acutely hazardous material.

(c) The RMPP shall be prepared within 12 months following the request made by the administering agency pursuant to this section. The RMPP shall include all of the following elements:

(1) A description of each accident involving acutely hazardous materials which has occurred at the business or facility within three years from the date of the request made pursuant to subdivision (a), together with a description of the underlying causes of the accident and the measures taken, if any, to avoid a recurrence of a similar accident.

(2) A report specifying the nature, age, and condition of the

equipment used to handle acutely hazardous materials at the business or facility and any schedules for testing and maintenance.

(3) Design, operating, and maintenance controls which minimize the risk of an accident involving acutely hazardous materials.

(4) Detection, monitoring, or automatic control systems to minimize potential acutely hazardous materials accident risks.

(5) A schedule for implementing additional steps to be taken by the business, in response to the findings of the assessment performed pursuant to subdivision (d), to reduce the risk of an accident involving acutely hazardous materials. These actions may include any of the following:

(A) Installation of alarm, detection, monitoring, or automatic control devices.

(B) Equipment modifications, repairs, or additions.

(C) Changes in the operations, procedures, maintenance schedules, or facility design.

(6) Auditing and inspection programs designed to allow the handler to confirm that the RMPP is effectively carried out.

(7) Recordkeeping procedures for the RMPP.

(d) The RMPP shall be based upon an assessment of the processes, operations, and procedures of the business, and shall consider all of the following:

(1) The results of a hazard and operability study which identifies the hazards associated with the handling of an acutely hazardous material due to operating error, equipment failure, and external events, which may present an acutely hazardous materials accident risk.

(2) For the hazards identified in the hazard and operability studies, an offsite consequence analysis which, for the most likely hazards, assumes pessimistic air dispersion and other adverse environmental conditions.

(e) The business shall submit to the administering agency any additional supporting technical information deemed necessary by the administering agency to clarify information submitted pursuant to subdivision (c).

(f) A handler shall maintain all records concerning an RMPP for a period of at least five years.

(g) The RMPP shall identify, by title, all personnel at the business who are responsible for carrying out the specific elements of the RMPP, and their respective responsibilities, and the RMPP shall include a detailed training program to ensure that those persons are able to implement the RMPP.

(h) The handler shall review the RMPP, and shall make necessary revisions to the RMPP at least every three years, but, in any event, within 60 days following a modification which would materially affect the handling of an acutely hazardous material.

(i) Any person who handles acutely hazardous materials and who owns or operates two or more business facilities which are substantially identical may prepare a single generic RMPP

applicable to all those facilities if the handling of the acutely hazardous materials is substantially similar at all of those facilities.

(j) The RMPP, and any revisions required by subdivision (h), shall be certified as complete by a qualified person and the facility operator.

(k) Except as specified in subdivision (d) of Section 25535, the handler shall implement all activities and programs specified in the RMPP within one year following the certification made pursuant to subdivision (j). Implementation of the RMPP shall include carrying out all operating, maintenance, monitoring, inventory control, equipment inspection, auditing, recordkeeping, and training programs as required by the RMPP. The administering agency may grant an extension of this deadline upon a showing of good cause.

(*l*) The Office of Emergency Services shall adopt, and publish for distribution, guidelines for the preparation and submission of an RMPP. In preparing the guidelines for hazard and operability studies, the office shall, at a minimum, base its procedural recommendations on those set forth in the 1985 Guidelines for Chemical Hazard Evaluation Procedures, prepared by the Center for Chemical Process Safety of the American Institute of Chemical Engineers.

SEC. 2. Section 25534 of the Health and Safety Code is amended to read:

25534. (a) After receiving an acutely hazardous material registration form filed pursuant to Section 25533, the administering agency shall make a preliminary determination whether there is a significant likelihood that the handler's use of an acutely hazardous material may pose an acutely hazardous materials accident risk.

(1) If the administering agency determines that there is a significant likelihood of risk pursuant to this subdivision, it shall require the handler to prepare and to submit an RMPP in accordance with a timetable based on the priority ranking established in subdivision (b).

(2) If the administering agency determines that there is not a significant likelihood of risk pursuant to this subdivision, it may require the preparation and submission of an RMPP, but need not do so if it determines that the likelihood of an acutely hazardous materials accident risk is remote.

(b) The administering agency shall rank each use of an acutely hazardous material identified pursuant to paragraph (1) of subdivision (a) in terms of the relative risks associated with its use, should an acutely hazardous materials accident occur. The estimation of the relative risks posed by the use of an acutely hazardous material shall be based on worst case assumptions regarding the quantity and rate of release of the acutely hazardous material, air dispersion, toxicity, meteorological conditions, and other pertinent parameters. Based on the estimate of relative risks, the administering agency shall establish a timetable for the submission of the RMPP for the use of the acutely hazardous

materials.

On or before January 1, 1991, the administering agency shall request the submission of an RMPP if the administering agency determines that the handler handles a significant quantity of acutely hazardous materials which may be instantly released into the atmosphere and the release would threaten the lives of the public.

(c) The RMPP shall be prepared within 12 months following the request made by the administering agency pursuant to this section. The RMPP shall include all of the following elements:

(1) A description of each accident involving acutely hazardous materials which has occurred at the business or facility within three years from the date of the request made pursuant to subdivision (a), together with a description of the underlying causes of the accident and the measures taken, if any, to avoid a recurrence of a similar accident.

(2) A report specifying the nature, age, and condition of the equipment used to handle acutely hazardous materials at the business or facility and any schedules for testing and maintenance.

(3) Design, operating, and maintenance controls which minimize the risk of an accident involving acutely hazardous materials.

(4) Detection, monitoring, or automatic control systems to minimize potential acutely hazardous materials accident risks.

(5) A schedule for implementing additional steps to be taken by the business, in response to the findings of the assessment performed pursuant to subdivision (d), to reduce the risk of an accident involving acutely hazardous materials. These actions may include any of the following:

(A) Installation of alarm, detection, monitoring, or automatic control devices.

(B) Equipment modifications, repairs, or additions.

(C) Changes in the operations, procedures, maintenance schedules, or facility design.

(6) Auditing and inspection programs designed to allow the handler to confirm that the RMPP is effectively carried out.

(7) Recordkeeping procedures for the RMPP.

(d) The RMPP shall be based upon an assessment of the processes, operations, and procedures of the business, and shall consider all of the following:

(1) The results of a hazard and operability study which identifies the hazards associated with the handling of an acutely hazardous material due to operating error, equipment failure, and external events, which may present an acutely hazardous materials accident risk.

(2) For the hazards identified in the hazard and operability studies, an offsite consequence analysis which, for the most likely hazards, assumes pessimistic air dispersion and other adverse environmental conditions.

(e) The business shall submit to the administering agency any additional supporting technical information deemed necessary by

the administering agency to clarify information submitted pursuant to subdivision (c).

(f) A handler shall maintain all records concerning an RMPP for a period of at least five years.

(g) The RMPP shall identify, by title, all personnel at the business who are responsible for carrying out the specific elements of the RMPP, and their respective responsibilities, and the RMPP shall include a detailed training program to ensure that those persons are able to implement the RMPP.

(h) The handler shall review the RMPP, and shall make necessary revisions to the RMPP at least every three years, but, in any event, within 60 days following a modification which would materially affect the handling of an acutely hazardous material.

(i) Any person who handles acutely hazardous materials and who owns or operates two or more business facilities which are substantially identical may prepare a single generic RMPP applicable to all those facilities if the handling of the acutely hazardous materials is substantially similar at all of those facilities.

(j) The RMPP, and any revisions required by subdivision (h), shall be certified as complete by a qualified person and the facility operator.

(k) Except as specified in subdivision (d) of Section 25535, the handler shall implement all activities and programs specified in the RMPP within one year following the certification made pursuant to subdivision (j). Implementation of the RMPP shall include carrying out all operating, maintenance, monitoring, inventory control, equipment inspection, auditing, recordkeeping, and training programs as required by the RMPP. The administering agency may grant an extension of this deadline upon a showing of good cause.

(*l*) The Office of Emergency Services shall adopt, and publish for distribution, guidelines for the preparation and submission of an RMPP. In preparing the guidelines for hazard and operability studies, the office shall, at a minimum, base its procedural recommendations on those set forth in the 1985 Guidelines for Chemical Hazard Evaluation Procedures, prepared by the Center for Chemical Process Safety of the American Institute of Chemical Engineers.

SEC. 3. Section 25534.1 of the Health and Safety Code is amended to read:

25534.1. Every RMPP prepared pursuant to Section 25534 shall give consideration to the proximity of the facility to schools, residential areas, general acute care hospitals, long-term health care facilities, and child day care facilities. For purposes of this section, "general acute care hospital" has the meaning provided by subdivision (a) of Section 1250, "long-term health care facility" has the meaning provided by subdivision (a) of Section 1418, and "child day care facility" has the meaning provided by Section 1596.750.

SEC. 4. Section 25536 of the Health and Safety Code is amended to read:

25536. (a) Any business, except as provided in subdivisions (b) and (c), which handles an acutely hazardous material or a mixture containing an acutely hazardous material which has a quantity at any one time equal to, or greater than, the threshold planning quantities listed in Appendix A of Part 355 of Subchapter J of Chapter I of Title 40 of the Code of Federal Regulations, shall submit a registration form pursuant to Section 25533.

(b) The administering agency, upon application by an owner or operator of a business, may exempt any business from any requirement of this article, upon a written finding that the exemption would not present an acutely hazardous materials accident risk. The administering agency shall specify in writing the basis for any exemption issued pursuant to this subdivision.

(c) Before placing additional requirements upon a business, the administering agency shall determine that the existing law or regulatory programs fail to substantially address and mitigate the purposes of this article.

(d) If the administering agency finds, and provides notice to, a business handling an acutely hazardous material in quantities less than those specified in subdivision (a), that the quantity limits specified in subdivision (a) should be decreased for that specific acutely hazardous material because of public health, safety, or environmental concerns, the administering agency may require the business to submit a registration form pursuant to Section 25533.

SEC. 5. Section 2 of this bill incorporates amendments to Section 25534 of the Health and Safety Code, proposed by both this bill and SB 1049. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1990, (2) each bill amends Section 25534 of the Health and Safety Code, and (3) this bill is enacted after SB 1049, in which case Section 1 of this bill shall not become operative.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act or for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares that it is necessary to exempt city, county, and city and county correctional treatment centers from the requirements of the Hospital Seismic Safety Act of 1983 because they are not intended to provide disaster services to the public at large in the event of an emergency.

SEC. 2. Section 15026 of the Health and Safety Code is amended to read·

15026. (a) (1) "Hospital building" includes any building not specified in subdivision (b) which is used, or designed to be used, for a health facility of a type required to be licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2.

(2) Except as provided in paragraph (9) of subdivision (b), hospital building includes a correctional treatment center, as defined in subdivision (k) of Section 1250, the construction of which was completed on or after March 7, 1973. This paragraph shall remain operative only until January 1, 1993.

(b) "Hospital building" does not include any of the following:

(1) Any building in which only outpatient clinic services are provided and which is separated from a building in which hospital

services are provided.

(2) Any building used, or designed to be used, for a skilled nursing facility or intermediate care facility if the building is of single-story, wood-frame or light steel frame construction.

(3) Any building of single-story, wood-frame or light steel frame construction in which only skilled nursing or intermediate care services are provided if the building is separated from a building housing other patients of the health facility receiving higher levels of care.

(4) Any freestanding structures of a chemical dependency recovery hospital exempted under the provisions of subdivision (c) of Section 1275.2.

(5) Any building licensed to be used as an intermediate care facility/developmentally disabled habilitative with six beds or less and any intermediate care facility/developmentally disabled habilitative of 7 to 15 beds which is a single-story, wood-frame or light steel frame building.

(6) Any building which has been used as a community care facility licensed pursuant to Chapter 3 (commencing with Section 1500) of Division 2 and which was originally licensed to provide that level of care prior to March 7, 1973, if (A) the building complied with applicable building and safety standards at the time of that licensure, (B) the Director of Health Services, upon application, determines that in order to continue to properly serve the facility's existing client population, relicensure as an intermediate care facility/developmentally disabled will be required, and (C) a notice of intent to obtain a certificate of need was filed with the area health planning agency and the Office of Statewide Health Planning and Development on or before March 1, 1983. The exemption provided in this paragraph extends only to use of the building as an intermediate care facility/developmentally disabled.

(7) Any building which has been used as a community care facility pursuant to paragraph (1) or (2) of subdivision (a) of Section 1502 and which was originally licensed to provide that level of care if all of the following conditions are satisfied:

(A) The building complied with applicable building and safety standards for a community care facility at the time of that licensure.

(B) The facility conforms to the 1973 Edition of the Uniform Building Code of the International Conference of Building Officials as a community care facility.

(C) The facility is other than single story, but no more than two stories, and the upper story is licensed for ambulatory patients only.

(D) A certificate of need was granted prior to July 1, 1983, for conversion of a community care facility to an intermediate care facility.

(E) The facility otherwise meets all nonstructural construction standards for intermediate care facilities in existence on the effective date of this act or obtains waivers from the appropriate agency.

The exemption provided in this paragraph extends only to use of

the building as an intermediate care facility as defined in subdivision (d) of Section 1250 and the facility is in Health Facilities Planning Area 1420.

(8) Any building licensed as a correctional treatment center, as defined in subdivision (k) of Section 1250, the construction of which was completed prior to March 7, 1973. This paragraph shall remain operative only until January 1, 1993.

(1) Any building in which outpatient clinic services are provided and which is separated from a building in which hospital services are provided. If any one or more outpatient clinic service in the building provides services to inpatients, the building shall not be included as a "hospital building" if those services provided to inpatients represent no more than 25 percent of the total outpatient services provided at the building. Hospitals shall maintain on an ongoing basis, data on the patients receiving services in these buildings, including the number of patients seen, categorized by their inpatient or outpatient status. Hospitals shall submit this data annually to the State Department of Health Services.

(2) Any building used, or designed to be used, for a skilled nursing facility or intermediate care facility if the building is of single-story, wood-frame or light steel frame construction.

(3) Any building of single-story, wood-frame or light steel frame construction in which only skilled nursing or intermediate care services are provided if the building is separated from a building housing other patients of the health facility receiving higher levels of care.

(4) Any freestanding structures of a chemical dependency recovery hospital exempted under the provisions of subdivision (c) of Section 1275.2.

(5) Any building licensed to be used as an intermediate care facility/developmentally disabled habilitative with six beds or less and any intermediate care facility/developmentally disabled habilitative of 7 to 15 beds which is a single-story, wood-frame or light steel frame building.

(6) Any building which has been used as a community care facility licensed pursuant to Chapter 3 (commencing with Section 1500) of Division 2 and which was originally licensed to provide that level of care prior to March 7, 1973, if (A) the building complied with applicable building and safety standards at the time of that licensure, (B) the Director of Health Services, upon application, determines that in order to continue to properly serve the facility's existing client population, relicensure as an intermediate care facility/developmentally disabled will be required, and (C) a notice of intent to obtain a certificate of need was filed with the area health planning agency and the Office of Statewide Health Planning and Development on or before March 1, 1983. The exemption provided in this paragraph extends only to use of the building as an intermediate care facility/developmentally disabled.

(7) Any building which has been used as a community care facility pursuant to paragraph (1) or (2) of subdivision (a) of Section 1502 and which was originally licensed to provide that level of care if all of the following conditions are satisfied:

(A) The building complied with applicable building and safety standards for a community care facility at the time of that licensure.

(B) The facility conforms to the 1973 Edition of the Uniform Building Code of the International Conference of Building Officials as a community care facility

(C) The facility is other than single story, but no more than two stories, and the upper story is licensed for ambulatory patients only.

(D) A certificate of need was granted prior to July 1, 1983, for conversion of a community care facility to an intermediate care facility.

The exemption provided in this paragraph extends only to use of the building as an intermediate care facility as defined in subdivision (d) of Section 1250 and the facility is in Health Facilities Planning Area 1420.

(8) Any building licensed as a correctional treatment center, as defined in subdivision (k) of Section 1250, the construction of which was completed prior to March 7, 1973. This paragraph shall remain operative only until January 1, 1993.

(9) Any building licensed as a correctional treatment center, as defined in subdivision (k) of Section 1250, operated by a city, city and county, or county.

SEC. 3. Section 15046 5 is added to the Health and Safety Code, to read:

15046.5. The statewide office shall adopt specific space and architectural standards, in cooperation with the Board of Corrections, for city, county, or city and county correctional treatment centers. Any city, county, or city and county correctional treatment center which has submitted preliminary construction

plans to the Board of Corrections on or before September 30, 1990, shall be exempt from these space and architectural standards if the final construction documents are submitted to the board on or before September 30, 1991. The statewide office shall have plan review authority only for the correctional treatment center part of the entire correctional facility, and may charge a fee for this review which shall not exceed the actual costs for this review.

SEC. 4. Section 1203.1e of the Penal Code is amended to read:

1203.1e. (a) In any case in which a defendant is ordered to serve a period of confinement in a county jail or other local detention facility, and the defendant is eligible to be released on parole by the county board of parole commissioners, the court shall, after a hearing, make a determination of the ability of the person to pay all or a portion of the reasonable cost of providing parole supervision. The reasonable cost of those services shall not exceed the amount determined to be the actual average cost of providing parole supervision.

(b) If the court determines that the person has the ability to pay all or part of the costs, the court may set the amount to be reimbursed and order the person to pay that sum to the county in the manner in which the court believes reasonable and compatible with the person's financial ability. In making a determination of whether a person has the ability to pay, the court shall take into account the amount of any fine imposed upon the person and any amount the person has been ordered to pay in restitution.

If practicable, the court shall order payments to be made on a monthly basis as directed by the court. Execution may be issued on the order in the same manner as a judgment in a civil action. The order to pay all or part of the costs shall not be enforced by contempt.

(c) For the purposes of this section, "ability to pay" means the overall capability of the person to reimburse the costs, or a portion of the costs, of providing parole supervision and shall include, but shall not be limited to, consideration of all of the following factors:

(1) Present financial position.

(2) Reasonably discernible future financial position. In no event shall the board consider a period of more than six months from the date of the hearing for purposes of determining reasonably discernible future financial position.

(3) Likelihood that the person shall be able to obtain employment within the six-month period from the date of the hearing.

(4) Any other factor or factors which may bear upon the person's financial capability to reimburse the county for the costs.

(d) At any time during the pendency of the order made under this section, a person against whom an order has been made may petition the court to modify or vacate its previous order on the grounds of a change of circumstances with regard to the person's ability to pay. The court shall advise the person of this right at the time of making the order.

(e) All sums paid by any person pursuant to this section shall be

deposited in the general fund of the county.

(f) The parole of any person shall not be denied or revoked in whole or in part based upon the inability or failure to pay under this section.

(g) The county board of parole commissioners shall not have access to offender financial data prior to the rendering of any parole decision.

SEC. 5. Title 4.85 (commencing with Section 4497) is added to Part 3 of the Penal Code, to read:

TITLE 4.85. COUNTY CORRECTIONAL FACILITIES CAPITAL EXPENDITURE AND YOUTH FACILITY BOND ACT OF 1988 ALLOCATIONS

CHAPTER 1. GENERAL

4497. (a) The Legislature finds and declares that approval by the electors of the County Correctional Facilities Capital Expenditure and Youth Facility Bond Act of 1988 has made new funds available for the construction and renovation of county jails and county juvenile facilities. The Legislature hereby directs the Board of Corrections to allocate and administer the moneys intended in the County Correctional Facilities Capital Expenditure and Youth Facility Bond Act of 1988 for county jails, and the Department of the Youth Authority to allocate and administer the moneys intended in the County Correctional Facilities Capital Expenditure and Youth Facility Bond Act of 1988 for juvenile facilities, in accordance with the provisions of this title.

(b) Money appropriated for allocation under this title may be used for the renovation, replacement, reconstruction, or construction of county jail facilities, county medical facilities designated to house persons charged with or convicted of a crime and who are mentally ill, and county juvenile facilities. Money appropriated by this title may also be used for construction of separate local detention facility space for detoxification of persons arrested because of intoxication.

(c) It is the Legislature's intention to make the money appropriated for allocation under this title available to counties with established and documented needs for capital projects for jail and juvenile facilities. However, that money shall not be used to build facilities that the counties cannot afford to operate fully and safely.

CHAPTER 2. COUNTY JAILS

4497.02. (a) For the purpose of this chapter:

(1) "Board" means the Board of Corrections.

(2) "Fund" means the 1988 County Correctional Facilities Capital Expenditure and Youth Facility Fund.

(b) The Board of Corrections shall not itself be deemed a

responsible agency, as defined by Section 21069 of the Public Resources Code, or otherwise be subject to the California Environmental Quality Act for any activities under this title, the County Jail Capital Expenditure Bond Acts of 1981 or 1984, or the County Facility Capital Expenditure Bond Act of 1986. This subdivision does not exempt any local agency from the requirements of the California Environmental Quality Act.

4497.04. Money appropriated to the board for allocation pursuant to this chapter shall be allocated as follows:

(a) Funding shall be provided for those projects entitled to be funded under subdivision (c) of Section 3 of Chapter 444, Statutes of 1984, as amended, and Section 5 of Chapter 1519, Statutes of 1986, to the extent that those projects have not received full funding.

(b) The following additional amounts shall be allocated to the counties for the construction, reconstruction, replacement, or renovation of county jail facilities. These funds shall not be used to supplant local funds directed to previously approved state projects. Nor shall these funds be used to reimburse counties whose match on previously approved projects exceeded the required 25 percent These funds may be used for allocations specified in subdivisions (c) and (d) of Chapter 444, Statutes of 1984, as amended, and Section 5, subdivision (b) of Chapter 1519, Statutes of 1986.

(c) If any county declares that it is unable to use the funds allocated to it under this section, or if any county is unable to satisfy the prerequisites for funding listed in Section 4494.10, the amount allocated to the county in this section shall revert to the state, to be reallocated by the board.

(d) If funds beyond those needed for the itemized amounts become available for reallocation, the board shall reallocate those funds under subdivision (e).

(e) Reverted funds under this chapter or subdivision (c) of Chapter 1519 of the Statutes of 1986 shall be reallocated to counties pursuant to the development and adoption of a new allocation plan as determined by an allocation advisory committee appointed by the board. The allocation advisory committee shall convene upon notification by the board that funds have been reverted. Reallocated

funds shall be distributed three times. The first distribution shall occur on December 31, 1990; the second distribution shall occur on December 31, 1992, and the final distribution shall occur on December 31, 1993. If any county seeking funds has not completed architectural drawings at the time reallocation funds become available, the county shall be removed from reallocation consideration until it has completed architectural drawings.

(f) Any county that receives funds pursuant to this chapter or pursuant to Chapter 444 of the Statutes of 1984, as amended, or Chapter 1519 of the Statutes of 1986, that, in the aggregate, total ten million dollars ($10,000,000) or less may pool or combine those funds for the purpose of financing a jail construction project, subject to approval of the project pursuant to this chapter. However, under no circumstances shall the pooling of successive bond allocations relieve or exempt the county from its obligation to meet the 25 percent local match requirement.

This subdivision shall not be interpreted as an authorization to utilize allocated funds to reimburse counties whose match on previously approved and completed projects exceeded the required 25 percent.

4497.06. (a) The board shall administer the funds allocated in this chapter to adult jail facilities, according to existing County Correctional Facilities Capital Expenditure Fund regulations, except as those regulations may be amended to comply with the provisions of this chapter.

(b) The board shall apply its regulations in the approval or disapproval of county jail projects, except that the board may approve a project if the board finds, after conducting a public hearing, that although the county cannot possibly meet the regulations, the county will nonetheless comply with Section 4485.6.

4497.08. No state moneys shall be encumbered in contracts with a county, nor released to a county, for construction or renovation of a local jail facility pursuant to this chapter until the conditions of this chapter have been fulfilled by the county.

4497.10. To be eligible for funding consideration, a county shall, to the satisfaction of the board, do all of the following:

(a) Certify that juveniles are not housed in the county's adult detention facilities, except where authorized by law; and document the existence of, or plans for, separate housing for juveniles.

(b) Document the existence of, or plans for, separate housing for persons detained or arrested because of intoxication, which will prevent mixing of this category of prisoner with other prisoners. If the county has no existing provisions for detoxification housing, it shall make provisions for that housing as part of its proposed project.

(c) Document the existence of, or plans for, separate housing for mentally disordered defendants or convicted prisoners which will prevent mixing of this category of prisoner with other prisoners until the time that the responsible health authority or his or her designee clears specific prisoners for nonseparate housing, based on clinical

judgment. If the county has no existing provisions for separate housing of mentally disordered prisoners, it shall make provisions for that housing as part of its proposed project.

(d) Submit a formal project proposal to the board on or before September 30, 1990. The project proposal shall describe the construction or renovation project to be undertaken and shall include an estimated budget for the project. The proposal shall also identify how county funding obligations, both for construction and operation of the facility, will be met. The project proposal shall be consistent with the needs and priorities identified in the needs assessment by the county.

Failure to submit a project proposal shall be deemed a declaration by the county that it does not intend to request its allocation under subdivisions (a) and (b) of Section 4497.04, and the amounts allocated in those subdivisions to the county shall be available for reallocation by the board. The board may waive this requirement for submission of a proposal within one year if it determines there are unavoidable delays in the county's preparation of a project proposal.

(e) Submit architectural drawings which shall be approved by the board for compliance with minimum jail standards and by the State Fire Marshal for compliance with fire safety requirements. If the board concludes that a county's proposed construction or renovation contains serious design deficiencies that, while they would not require a refusal to enter into the contract, would seriously impair the facility's functioning, it shall notify the sheriff and the board of supervisors of that county of the deficiencies and shall delay entering into a contract with the county for at least 30 days after mailing the letter. This letter shall be a public record.

(f) The county shall certify that it owns, or has long-term possession of, the construction site.

(g) The county shall have filed a final notice of determination on its environmental impact report with the board.

(h) The county has formally adopted a plan to finance the construction of the proposed facility.

(i) The county shall have submitted a preliminary staffing plan for the proposed facility, along with an analysis of other operating costs anticipated for the facility, to the board for review and comment. Prior to submission of the staffing plan and operating costs analysis of the board, the county board of supervisors shall have reviewed and approved the submittal in or following public hearings. The sheriff shall also have reviewed and commented on the preliminary staffing plan and the operating cost analysis. The board shall comment in writing to the sheriff and board of supervisors. This letter shall be a public record.

(j) The county shall submit either a major or minor needs assessment documenting the need for and purpose of the proposed project. The needs assessment shall meet all requirements listed in the applicable County Correctional Facility Capital Expenditure Fund regulations. The board may exempt a county from performing

a new needs assessment if any of the following conditions exist:

(1) The board determines that a prior needs assessment is in substantial compliance and it justifies the project being funded in Section 4497.04.

(2) A county receives funds from this bond act in an amount of three hundred thousand dollars ($300,000) or less.

If exempted from performing a needs assessment, counties shall provide an analysis of specific jail deficiencies, including levels of security, program, including, but not limited to, medical and mental health care, housing, and administration. This analysis shall also include specific plans for correcting the deficiencies.

(k) Demonstrate to the board unless the county's sole project is a remodel of an existing adult detention facility which will not result in the addition of any beds, that it is using, to the greatest extent feasible, alternatives to incarceration based on the following measures: an incarceration rate of no more than one standard deviation above the mean for all counties and, either a pretrial misdemeanor incarceration rate of no more than one standard deviation above the mean for all counties or a sentenced prisoner alternatives percentage or 5 percent or more as related to total sentenced prisoner admissions.

(1) The data to be used in establishing the incarceration rate will be the 1989 calendar year average daily population as reported by each county to the board and the Department of Finance Report on Population by County.

(2) The pretrial misdemeanor incarceration rate will be based on an average of the daily pretrial misdemeanor jail population, developed from a four-day sample period in 1989 specified by the board.

(3) The sentenced prisoner alternatives percentage will be based on enrollment in three programs: Section 4024.2 of the Penal Code (work-in-lieu of jail), county parole, and home detention if the placement is made after some jail time is served.

(4) Counties failing to demonstrate adequate use of alternatives to incarcerations by the above measure by March 30, 1990, shall be reevaluated annually by the board. If any county is unable to satisfy the requirements of this section by September 30, 1993, the amount allocated to the county shall revert to the state, to be reallocated by the board pursuant to subdivision (c) of Section 4497.04.

(*l*) Begin construction or renovation work within four years of the effective date of this title. If a county fails to meet this requirement, any allocations to the county under this chapter shall be deemed void and moneys allocated to the county shall revert to the board for reallocation. The board may waive this requirement if it determines that there are unavoidable delays in the initial construction activities.

(m) Counties shall provide for the construction of appropriate courtroom facilities and hearing room facilities within any jail construction plan submitted to the board. Those courtroom facilities and hearing room facilities shall be utilized for purposes of holding

appropriate arraignments and bail hearings and for the conduct of parole revocation hearings. The board may waive this requirement where county specific circumstances dictate.

4497.12. County match on projects funded under this chapter shall be a minimum of 25 percent of the total project costs. Costs eligible for state funding and as county match shall be those defined in applicable existing sections of the County Correctional Facilities Capital Expenditure Fund regulations, which regulations may be amended.

4497.14. (a) The board shall not approve the expenditures of funds allocated under this act for the construction of county detention facilities until a master site plan for county detention facilities has been prepared and adopted by the board of supervisors of the county proposing to construct the facility. The board of supervisors shall determine the location of any detention facilities pursuant to a master plan, which determination shall not be subject to any initiative or ordinance adopted by initiative. In developing the plan, the board of supervisors shall consider alternatives to additional detention facilities and the specific concerns of incorporated cities and other community representatives, and shall give special consideration to existing federal, state, and local detention facilities in order to avoid over-concentration of inmates in one geographic area of the county. If the board of supervisors decides to locate new or expanded detention facilities near existing detention facilities, it shall publicly state its reasons for that decision.

The board shall only approve expenditure of funds allocated under this chapter for the construction of detention facilities in accordance with the plan adopted pursuant to this section. The board may exempt a county from this requirement if the master site plan remains unchanged from that approved under the provisions of the County Correctional Facilities Capital Expenditure Bond Act of 1986.

(b) The board shall establish construction costs controls and shall set forth in regulation procedures for setting maximum state funding levels for appropriate construction unit costs, including cost per cell for specified categories of facilities. These cost controls shall be based on average costs in recently constructed facilities in California that are comparable in size, use, location, and other relevant factors.

Allocations listed in Section 4497.04 notwithstanding, the state contribution shall be up to 75 percent of total project costs or up to 75 percent of the applicable construction cost norms, whichever is lower. Nothing in this section is intended, however, to prescribe maximum limits on county funding levels for the projects.

Prior to releasing any funds to a county, the board shall review construction cost levels in the funded projects for compliance with cost control regulations.

(c) Prior to entering into a contract with a county, the board shall review or approve or both review and approve the county submissions required by this chapter regarding the facility or

facilities proposed for funding.

(d) The board shall collect annually from all counties information on county incarceration rates, average daily jail populations as a proportion of the total county population or total arrests or both; pretrial misdemeanant ratios, the percentage which unsentenced prisoners charged only with misdemeanors constitute the total average daily unsentenced jail population; and sentenced alternatives ratios, for example, average daily populations in work-in-lieu of jail programs and county parole as a percentage of the total average daily sentenced misdemeanant prisoner population. All counties that have received or will receive state funds for jail construction shall supply the board the information necessary to comply with this section.

4497.16. If after a hearing, the board makes a finding that a county has failed to comply with a condition or plan approved by the board relating to the requirements of Section 4485.6, the board may require the county to pay an amount equal to the pro rata portion of the principal and interest, paid by the state on bonds the proceeds of which were allocated pursuant to this chapter to the county for the period of noncompliance. The repayment provisions shall not be applicable if the noncompliance with the condition or plan is the result of circumstances beyond the control of the county, or the board finds the county cannot reasonably comply under the circumstances.

4497.18. (a) As part of its annual report to the Legislature, the board shall provide to the Legislature a report on the status of funds expended, interest being earned, actions implementing the prerequisites for funding listed in Section 4497.04, and any reallocations of funds pursuant to Section 4497.04. The report shall contain a complete listing of funds allocated to each county. The board shall also submit appropriate recommendations, if any, on needed changes in the program and on other matters pertinent to jail funding on which the board wishes to inform the Legislature. The report shall be submitted to the Legislature on or before July 1 of each year.

(b) In order to provide information pertinent to the performance of this funding program and to any additional funding needs, counties receiving funds under this chapter shall, as a condition of the funding contract, report to the board, at intervals and in a manner to be determined by the board. The sheriff or other official in charge of operating the adult detention system in a county receiving funds under this act shall maintain an inmate accounting system. Data to be maintained on an annual basis includes the following:

(1) Average daily population of sentenced and unsentenced prisoners by categories of male, female, and juvenile.

(2) Jail admissions of sentenced and unsentenced prisoners by categories of male, female, booking charge, date and time of booking, date and time of release, and operating expenses.

(3) Detention system capital and operating expenses.

CHAPTER 3. JUVENILE FACILITIES

4497.20. (a) The Department of the Youth Authority is hereby directed to administer the moneys intended for juvenile facilities in the County Correctional Facility Capital Expenditure and Youth Facility Bond Act of 1988, in accordance with the provisions of this chapter.

(b) It is the intention of the Legislature to make the money appropriated for allocation under this chapter available to counties with established and documented needs for capital projects for juvenile facilities.

(c) Counties that apply for funds to alleviate overcrowding shall submit a preliminary staffing plan for the proposed facility, along with an analysis of other operating costs anticipated for the facility, to the Department of the Youth Authority for review and comment. Prior to submission of the staffing plan and operating cost analysis to the department, the board of supervisors shall have reviewed and approved the submittal in or following public hearings. The chief probation officer shall also have reviewed and commented on the preliminary staffing plan and operating cost analysis. The department shall comment in writing to the chief probation officer and board of supervisors. This response shall be a public record.

(d) The Department of the Youth Authority shall conduct an assessment of the needs of counties for juvenile facilities in California which shall be submitted to the Legislature by June 30, 1990.

4497.22. Funds appropriated to the Department of the Youth Authority for allocation under this chapter shall be allocated as provided by this chapter.

4497.24. Two million dollars ($2,000,000) shall be set aside initially for the counties that did not have juvenile facilities on January 1, 1987. These funds shall be used to construct county juvenile facilities and are hereby allocated as follows:

4497.28. Forty-eight million seven hundred fifty thousand dollars ($48,750,000) shall be set aside initially for counties to alleviate overcrowding and eliminate health, fire, and life safety deficiencies in juvenile facilities or provide efficient and adequate facility for youth with special problems. 4497.30. Three million twenty-five thousand dollars ($3,025,000) shall be set aside initially for bond interest costs and two hundred fifty thousand dollars ($250,000) shall be set aside to conduct a statewide assessment of the counties' needs for juvenile facilities.

4497.32. (a) Funds which were set aside initially as provided by Sections 4497.24 to 4497.30, inclusive, that are not used and funds that were allocated under the provisions of the County Correctional Facility Capital Expenditure Bond Act of 1986 that are not used shall be allocated by the Department of the Youth Authority to those counties that received an allocation under Section 4497.28 which was not sufficient to fund the remaining portion of the total cost of the approved projects. The amount of each of those county's allocation shall be that county's per capita share of the total funds available for all counties with partially funded projects, or the amount needed to complete funding of that county's approved projects, whichever is less. At no time shall the allocation exceed 75 percent of the total eligible costs.

(b) The allocation procedure described in subdivision (a) shall be repeated until all of the available funds are awarded.

(c) Funds awarded by the Department of the Youth Authority under this section shall be used for the construction, reconstruction, remodeling, or replacement of county juvenile facilities, and for the performance of deferred maintenance on juvenile facilities, but may only be used for the purpose of reducing current overcrowding and eliminating health, fire, and life safety hazards

4497.34. (a) Counties with overcrowded juvenile facilities shall not be eligible to receive funds to construct, reconstruct, remodel, or replace juvenile facilities unless they have adopted a plan to correct overcrowded conditions within their facilities which includes the use of alternatives to detention. The corrective action plan shall provide for the use of five or more methods or procedures to minimize the number of minors detained and shall be approved by the board of supervisors during or subsequent to a public hearing.

(b) To be eligible for funding under this chapter, the county shall enter into a contract with the Department of the Youth Authority and begin construction or renovation work within four years of the operative date of the regulations that implement this chapter. If a county fails to meet this requirement, any allocations or awards to that county under this chapter shall be deemed void and any moneys allocated or awarded to that county shall revert to the Department

of the Youth Authority for reallocation to another county as provided by Section 4497.32. The department may waive this requirement if it determines that there are unavoidable delays in starting construction.

(c) To be eligible for funding for juvenile facilities under the County Correctional Facility Capital Expenditure Bond Act of 1986, the county shall enter into a contract with the Department of the Youth Authority and begin construction or renovation work by July 31, 1991. SEC. 10. Section 207.1 of the Welfare and Institutions Code is amended to read:

207.1. (a) No court, judge, referee, peace officer, or employee of a detention facility shall knowingly detain any minor in a jail or lockup, except as provided in subdivision (b) or (d).

(b) Any minor who is alleged to have committed an offense described in subdivision (b) of Section 707, whose case is transferred to a court of criminal jurisdiction pursuant to Section 707.1 after a finding is made that he or she is not a fit and proper subject to be dealt with under the juvenile court law, may be detained in a jail or other secure facility for the confinement of adults, if all of the following conditions are met:

(1) The juvenile court judge makes a finding at the conclusion of the fitness hearing that the minor's further detention in the juvenile hall would endanger the safety of the public or would be detrimental to the other minors in the juvenile hall.

(2) Contact between the minor and adults in the facility is restricted in accordance with Section 208.

(3) The minor is adequately supervised.

(4) The adult facility has been approved by the Youth Authority as an appropriate place for the detention of minors so transferred.

(c) A minor who is found not to be a fit and proper subject to be dealt with under the juvenile court law shall, upon the conclusion of the fitness hearing, be entitled to be released on bail or on his or her own recognizance upon the same circumstances, terms, and conditions as an adult who is alleged to have committed the same offense.

(d) A minor 14 years of age or older who is taken into temporary custody by a peace officer on the basis of being a person described by Section 602, and who, in the reasonable belief of the peace officer, presents a serious security risk of harm to self or others, may be securely detained in a law enforcement facility that contains a lockup for adults, if all of the following conditions are met:

(1) The minor is held in temporary custody for the purpose of investigating the case, facilitating release of the minor to a parent or guardian, or arranging transfer of the minor to an appropriate juvenile facility.

(2) The minor is detained in the law enforcement facility for a

period that does not exceed six hours.

(3) The minor is informed at the time he or she is securely detained of the purpose of the secure detention, of the length of time the secure detention is expected to last, and of the maximum six-hour period the secure detention is authorized to last.

(4) Contact between the minor and adults confined in the facility is restricted in accordance with Section 208.

(5) The minor is adequately supervised.

(6) A log or other written record is maintained by the law enforcement agency showing the offense which is the basis for the secure detention of the minor in the facility, the reasons and circumstances forming the basis for the decision to place the minor in secure detention, and the length of time the minor was securely detained.

Any other minor who is taken into temporary custody by a peace officer on the basis that the minor is a person described by Section 602, may be taken to a law enforcement facility that contains a lockup for adults and may be held in temporary custody in the facility for the purposes of investigating the case, facilitating the release of the minor to a parent or guardian, or arranging for the transfer of the minor to an appropriate juvenile facility. However, while in the law enforcement facility, the minor may not be securely detained and shall be supervised in a manner so as to ensure that there will be no contact with adults in custody in the facility. If the minor is held in temporary, nonsecure custody within such a facility, the peace officer shall exercise one of the dispositional options authorized by Sections 626 and 626.5 without unnecessary delay and, in every case, within six hours.

As used in this subdivision, "law enforcement facility" includes a police station or a sheriff's station, but does not include a jail, as defined in subdivision (i).

(e) The Youth Authority shall assist law enforcement agencies, probation departments, and courts with the implementation of this section by doing all of the following:

(1) The Youth Authority shall advise each law enforcement agency, probation department, and court affected by this section as to its existence and effect.

(2) The Youth Authority shall inquire of the official in charge of each jail or lockup that reported the confinement of a minor in calendar year 1984 or 1985 as to whether the jail or lockup may be used for the future confinement of any minor pursuant to subdivision (b), and if the Youth Authority is informed that the jail or lockup may be so used, it shall inspect the jail or lockup and determine whether it is an appropriate place for the secure detention of minors in conformity with the requirements of law.

(3) The Youth Authority shall make available and shall, upon request, provide technical assistance to each governmental agency that reported the confinement of a minor in a jail or lockup in calendar year 1984 or 1985. The purpose of this technical assistance

is to develop alternatives to the use of jails or lockups for the confinement of minors. These alternatives may include secure or nonsecure facilities located apart from an existing jail or lockup; improved transportation or access to juvenile halls or other juvenile facilities; and other programmatic alternatives recommended by the Youth Authority. The technical assistance shall take such form as the Youth Authority deems appropriate for effective compliance with this section.

(f) The Youth Authority may exempt a county that does not have a juvenile hall, or may exempt an offshore law enforcement facility, from compliance with this section for a reasonable period of time, until December 31, 1990, for the purpose of allowing the county or the facility to develop alternatives to the use of jails and lockups for the confinement of minors, if all of the following conditions are met:

(1) The county or the facility submits a written request to the Youth Authority for an extension of time to comply with this section.

(2) The Youth Authority agrees to make available, and the county or the facility agrees to accept, technical assistance to develop alternatives to the use of jails and lockups for the confinement of minors during the period of the extension.

(3) The county or the facility requesting the extension submits to the Youth Authority a written plan for full compliance with this section by September 1, 1987

As used in this subdivision and in subdivision (g), "offshore law enforcement facility" and "facility" means a sheriff's station containing a lockup for adults that is located on an island located at least 22 miles from the California coastline.

(g) (1) Under the limited conditions of inclement weather, acts of God, or natural disasters that result in the temporary unavailability of transportation, an extension of the six-hour maximum period of detention set forth in paragraph (2) of subdivision (d) may be granted to a county by the Youth Authority. The extensions may only be granted by the Youth Authority on an individual, case-by-case basis. If the extension is granted, the detention of minors under those conditions shall not exceed the duration of the special conditions, plus a period reasonably necessary to accomplish transportation of the minor to a suitable juvenile facility, not to exceed six hours after the restoration of available transportation.

A county that receives an extension under this paragraph shall comply with the requirements set forth in subdivision (d). The county shall also provide a written report to the Youth Authority that specifies when the inclement weather, act of God, or natural disaster ceased to exist, when transportation availability was restored, and when the minor was delivered to a suitable juvenile facility. In the event that the minor was detained for a period in excess of 72 hours, the Youth Authority shall verify the information contained in the report.

(2) Under the limited condition of temporary unavailability of transportation, an extension of the six-hour maximum period of

detention set forth in paragraph (2) of subdivision (d) may be granted by the Youth Authority to an offshore law enforcement facility. The extension may only be granted by the Youth Authority on an individual, case-by-case basis. If the extension is granted, the detention of minors under those conditions shall only extend until the next available mode of transportation can be arranged.

An offshore law enforcement facility that receives an extension under this paragraph shall comply with the requirements set forth in subdivision (d). The facility shall also provide a written report to the Youth Authority that specifies when the next mode of transportation became available, and when the minor was delivered to a suitable juvenile facility. In the event that the minor was detained for a period in excess of 24 hours, the Youth Authority shall verify the information contained in the report.

As used in this paragraph, "offshore law enforcement facility" means a sheriff's station containing a lockup for adults that is located on an island at least 22 miles from the California coastline.

(3) At least annually, the Youth Authority shall review and report on extensions sought and granted under this subdivision. If, upon that review, the Youth Authority determines that a county has sought extension resulting in the excessive confinement of minors in adult facilities, or that a county is engaged in a pattern and practice of seeding extensions, it shall require the county to submit a detailed explanation of the reasons for the extensions sought and an assessment of the need for a conveniently located and suitable juvenile facility. Upon receiving this information, the Youth Authority shall make available, and the county shall accept, technical assistance for the purpose of developing suitable alternatives to the confinement of minors in adult lockup. Based upon the information provided by the county, the Youth Authority may also place limits on, or refuse to grant, future extensions requested by the county under this subdivision

(h) Any county that did not have a juvenile hall on January 1, 1987, may establish a special purpose juvenile hall, as defined by the Youth Authority, for the detention of minors for a period not to exceed 96 hours. Any county that had a juvenile hall on January 1, 1987, may, in addition to the juvenile hall, also establish a special purpose juvenile hall. The Youth Authority shall prescribe minimum standards for any such facility.

(i) (1) As used in this chapter, "jail" means any building which contains a locked facility administered by a law enforcement or governmental agency, the purpose of which is to detain adults who have been charged with violations of criminal law and are pending trial, or to hold convicted adult criminal offenders sentenced for less than one year.

(2) As used in this chapter, "lockup" means any locked room or secure enclosure under the control of a sheriff or other peace officer which is primarily for the temporary confinement of adults upon arrest.

(j) Nothing in this section shall be deemed to prevent a peace officer or employee of an adult detention facility or jail from escorting a minor into the detention facility or jail for the purpose of administering an evaluation, test, or chemical test pursuant to Section 23157 of the Vehicle Code, if all of the following conditions are met:

(1) The minor is taken into custody by a peace officer on the basis of being a person described by Section 602 and there is no equipment for the administration of the evaluation, test, or chemical test located at a juvenile facility within a reasonable distance of the point where the minor was taken into custody.

(2) The minor is not locked in a cell or room within the adult detention facility or jail, is under the continuous, personal supervision of a peace officer or employee of the detention facility or jail, and is not permitted to come in contact or remain in contact with in-custody adults.

(3) The evaluation, test, or chemical test administered pursuant to Section 23157 of the Vehicle Code is performed as expeditiously as possible, so that the minor is not unnecessarily delayed within the adult detention facility or jail. Upon completion of the evaluation, test, or chemical test, the minor shall be removed from the detention facility or jail as soon as reasonably possible. No minor shall be held in custody in an adult detention facility or jail under the authority of this paragraph for a period in excess of two hours.

SEC. 11. Section 209 of the Welfare and Institutions Code is amended to read:

209. (a) The judge of the juvenile court of a county, or, if there is more than one such judge, any of the judges of the juvenile court shall, at least annually, inspect any jail, juvenile hall, or lockup which, in the preceding calendar year, was used for confinement, for more than 24 hours pursuant to subdivision (b) or (g) of Section 207.1, of any minor. The judge shall note in the minutes of the court whether the jail, juvenile hall, or lockup is a suitable place for confinement of minors.

The Department of the Youth Authority shall likewise conduct an annual inspection of each jail, juvenile hall, lockup, or special purpose juvenile hall situated in this state which, during the preceding calendar year, was used for confinement, for more than 24 hours pursuant to subdivision (b) or (g) of Section 207.1, of any minor.

If either a judge of the juvenile court or the department, after inspection of a jail, juvenile hall, or lockup, finds that it is not being operated and maintained as a suitable place for the confinement of minors, the juvenile court or the department shall give notice of its finding to all persons having authority to confine minors pursuant to this chapter and commencing 60 days thereafter the jail, juvenile hall, or lockup shall not be used for confinement of minors until such time as the judge or department, as the case may be, finds, after reinspection of the jail, juvenile hall, or lockup that the conditions

which rendered the facility unsuitable have been remedied, and the facility is a suitable place for confinement of minors.

The custodian of each jail, juvenile hall, and lockup shall make such reports as may be required by the department or the juvenile court to effectuate the purposes of this section.

(b) The Department of the Youth Authority may inspect any law enforcement facility which contains a lockup for adults and which it has reason to believe may not be in compliance with the requirements of subdivision (d) of Section 207.1 or with the certification requirements or standards adopted under Section 210.2. A judge of the juvenile court shall conduct an annual inspection, either in person or through a delegated member of the appropriate county or regional juvenile justice commission, of any law enforcement facility which contains a lockup for adults which, in the preceding year, was used for the secure detention of any minor.

If either the judge or the department finds after inspection that the facility is not being operated and maintained in conformity with the requirements of subdivision (d) of Section 207.1 or with the certification requirements or standards adopted under Section 210.2, the juvenile court or the department shall give notice of its finding to all persons having authority to securely detain minors in the facility, and, commencing 60 days thereafter, the facility shall not be used for the secure detention of a minor until such time as the judge or the department, as the case may be, finds, after reinspection, that the conditions which rendered the facility unsuitable have been remedied, and the facility is a suitable place for the confinement of minors in conformity with all requirements of law.

The custodian of each law enforcement facility which contains a lockup for adults shall make any report as may be required by the department or by the juvenile court to effectuate the purposes of this subdivision.

(c) The department shall collect annual data on the number, place, and duration of confinements of minors in jails and lockups, as defined in subdivision (h) of Section 207.1, and shall annually publish this information in the form as it deems appropriate for the purpose of providing public information on continuing compliance with the requirements of Section 207.1.

SEC. 12. Chapter 9 (commencing with Section 5590) is added to Part 1 of Division 5 of the Welfare and Institutions Code, to read:

CHAPTER 9. REGIONAL FACILITIES FOR SERIOUSLY EMOTIONALLY DISTURBED WARDS

5590. The Legislature finds and declares the following:

(a) The Legislature has declared its intent to provide, at the local level, a range of appropriate mental health services for seriously emotionally disturbed minors. These programs include both outpatient and nonsecure residential care and treatment.

(b) The Legislature recognizes that, while some minors will

benefit from this care and treatment, there exists a population within that group who have been adjudged wards of the juvenile court pursuant to Section 602 who are seriously emotionally disturbed, and by lack of behavior control and offense history, are not benefiting from existing programs, including the 24-hour facilities currently being operated under juvenile court law (Chapter 2 (commencing with Section 200) of Part 1 of Division 2).

(c) The Legislature finds that there are no treatment facilities specifically designed and operated to provide both intensive mental health treatment and behavior control to this population of wards in a secure setting. These wards are frequent failures in open residential care and when confined to traditional juvenile justice system facilities, disrupt programming, endanger themselves and others, and require intensive supervision including occasional isolation and provision of a one-to-one supervision ratio. The behavior and needs of this population affect the ability of the existing facilities to meet the program needs of the remainder of the population which is more appropriately detained or committed there.

(d) Psychiatric hospitals frequently refuse to accept these wards because of their offense history or their extremely disruptive behavior, because they do not always meet medical necessity for acute admission, or because the lengths of stay in inpatient programs are too limited in duration. Because of these problems, seriously emotionally disturbed minors adjuged to be wards pursuant to Section 602 do not receive the level of mental health care necessary to interrupt the cycle of emotional disturbance leading to assaultive or self-destructive behavior.

(e) The Legislature therefore declares its intent to establish regional facilities which will provide an additional dispositional resource to the juvenile justice system, and which will demonstrate the feasibility and effectiveness of providing the services described in this chapter to seriously emotionally disturbed minors who have been adjudged wards of the juvenile court pursuant to Section 602 and whose physical and mental treatment needs require a secure facility and program. It is also the intent of the Legislature to secure for the minors committed to such a facility, the protection, custody, care, treatment, and guidance that is consistent with the purpose of the juvenile court law (Chapter 2 (commencing with Section 200) of Part 1 of Division 2).

5591. There may be established, on a regional basis, secure facilities which are physically and programmatically designed for the commitment and ongoing treatment of seriously emotionally disturbed minors who have been adjudged wards of the juvenile court pursuant to Section 602. No minor shall be committed to the facility for more than 18 months from the date of admission

5592. A board of directors for a facility shall be established to provide oversight and direction to the design, implementation, and operation of the facility in order to ensure adherence to the

statement of legislative intent in Section 5590 and to the overall goals and objectives of the facility.

5593. (a) The board of directors shall be composed of the chief probation officer and the local mental health directors of each of the participating counties.

(b) The regional facilities shall operate under the administration of the onsite director who shall be directly responsible to the board of directors for adherence to all policies and procedures established by the board and to the intent of the Legislature stated in Section 5590.

5594. Prior to the opening of any regional facility, the board of directors shall develop written admission criteria, approved by the Department of the Youth Authority, for those minors who are most at risk of entering the adult criminal justice system as emotionally disordered offenders at high risk of committing predatory and violent crimes, including, but not limited to, the following requirements:

(a) The minor is at the time of commitment between the ages of 12 and 18 years, he or she has been adjudged to be a ward of the juvenile court pursuant to Section 602, and his or her custody has been placed under the supervision of a probation officer pursuant to Section 727.

(b) The ward is seriously emotionally disturbed as is evidenced by a diagnosis from the current edition of the Diagnostic and Statistical Manual of Mental Disorders and evidences behavior inappropriate to the ward's age according to expected developmental norms. Additionally, all of the following must be present:

(1) The behavior presents a danger to the community or self and requires intensive supervision and treatment, but the ward is not amenable to other private or public residential treatment programs because his or her behavior requires a secure setting.

(2) The symptomology is both severe and frequent.

(3) The inappropriate behavior is persistent.

5595. No ward shall be admitted to any regional facility described in this chapter who meets any of the following:

(a) The ward has a primary substance abuse problem.

(b) The ward has a primary developmental disability.

(c) The ward requires an acute psychiatric hospital setting.

(d) The ward can benefit from or requires a level of treatment or confinement not provided at the facility.

(e) The ward suffers from a medical condition which requires ongoing nursing and medical care, beyond the level that the program can provide.

(f) The ward is under conservatorship established pursuant to Chapter 3 (commencing with Section 5350) of this part

5596. Prior to the opening of a facility, the board of directors shall establish written program standards and policies and procedures, approved by the Department of the Youth Authority that address and include, but are not limited to, the following:

(a) A staffing number and pattern that meets the special behavior, supervision, treatment, health, and educational needs of the population described in this chapter. Staff shall be qualified to provide intensive treatment and services and shall include, at a minimum:

(1) A project or clinical director, psychiatrist or psychologist, social worker, registered nurse, and recreation or occupational therapist.

(2) A pediatrician and dentist on an as-needed basis.

(3) Educational staff in sufficient number and with the qualifications needed to meet the population served.

(4) Child care staff in sufficient numbers and with the qualifications to meet the special needs of the population.

(b) Programming to meet the needs of all wards admitted, including, but not limited to, all of the following:

(1) Physical examinations on admission and ongoing health care.

(2) Appropriate and closely monitored use of all behavioral management techniques.

(3) The establishment of written, individual treatment and educational plans and goals for each ward within 10 days of admission and which are updated at least quarterly.

(4) Written discharge planning which addresses each ward's continued treatment, educational, and supervision needs.

(5) Regular, written progress records regarding the care and treatment of each ward.

(6) Regular and structured treatment of all wards, including, but not limited to, individual, group and family therapy, psychological testing, medication, and occupational, or recreational therapy.

(7) Access to neurological testing and laboratory work as needed.

(8) The opportunity for regular family contact and involvement.

(9) A periodic review of the continued need for treatment within the facility.

(10) Educational programming, including special education as needed.

5597. Wards shall be referred for admission to the director of a regional facility following screening and approval through a joint mental health and probation screening committee in the county which refers the minor. This screening process shall be defined in the standards, policies, and procedures governing the operation of the facility. The probation officer shall, in consultation and cooperation with the county mental health staff, process the ward's admission to the facility and implement the discharge plan.

5598. The regional board of directors shall contract with the county in which the regional facility is located for the provision of a public education program which will meet the educational requirements and needs of the wards admitted to the facility.

5598.5. The board of directors of a regional facility shall submit to the Director of the Youth Authority, a report which includes, at a minimum, a description of the regional facility, the population to be

served, criteria for admission and release, program goals and services, staffing, a postrelease component, appropriate educational programming, an annual evaluation component, and a proposed budget.

5599. The Director of the Youth Authority, in conjunction with the Director of Mental Health, shall adopt rules and regulations to establish, monitor, and enforce minimum standards for regional facilities.

SEC. 13. Section 5 of Chapter 1519 of the Statutes of 1986 is amended to read:

Sec. 5. Money appropriated to the Board of Corrections by this act shall be allocated as follows:

(a) Funding shall be provided for those projects entitled to be funded under subdivision (c) of Section 3 of Chapter 444 of the Statutes of 1984, as amended, to the extent that those projects have not received full funding.

(b) The following additional amounts shall be allocated to the counties for the construction, reconstruction, replacement, or renovation of county jail facilities or medical facilities for mentally ill prisoners. These funds shall not be used to supplant local funds directed to previously approved state funded projects. These funds may be used for allocations specified in subdivisions (c) and (d) of Chapter 444, Statutes of 1984, as amended, or for new projects.

The board of supervisors shall determine the location of any detention facilities pursuant to a master plan. In developing the plan, the board of supervisors shall consider alternatives to additional detention facilities and the specific concerns of incorporated cities and other community representatives, and shall give special consideration to existing federal, state, and local detention facilities in order to avoid overconcentration of inmates in one geographic area of the county. If the board of supervisors decides to locate new or expanded detention facilities near existing detention facilities, the board shall publicly state its reasons for that decision

The Board of Corrections shall only approve expenditure of funds appropriated by this act for the construction of detention facilities in accordance with the plan adopted pursuant to this section.

By September 1, 1990, the state department shall develop a mechanism to implement a systematic and independent evaluation of the local and state programs established under this chapter. The purpose of the evaluation is to direct the most efficient allocation of resources appropriated under this chapter to accomplish the maximum prevention and reduction of tobacco use. This comprehensive evaluation shall be designed, to measure the extent to which programs funded under this chapter promote the goals identified in this chapter and in Proposition 99 of the November 1988 general election. The evaluation design shall do all of the following:

The guidelines shall require for each target population to be served a description of the services to be provided, an estimate of the number to be served, an estimate of the success rate, and a method to determine to what extent goals have been achieved. Beginning with 1990–91 fiscal year, guidelines shall require local lead agencies to describe how local funding decisions will take into account evaluations of program effectiveness and efficiency. The guidelines shall require the submission of a budget and information on staffing configurations.

(p) In consultation with the committee, develop a comprehensive master plan for implementing tobacco education programs throughout the state for the prevention and cessation of tobacco use.

(q) Consult regularly with the University of California regarding trends in the frequency and the cost of treating tobacco-related diseases and the success of research efforts to reduce tobacco use and limit its adverse health effects.

(r) Establish, in consultation with the State Department of Education and county offices of education, a data collection and data management program to study effective tobacco use interventions. Under this program the department may contract for studies and evaluations in school-based and community-based programs. The department shall consult with the State Department of Education regarding the collection and evaluation of program data.

(a) The sum of twenty-six million five hundred ninety-seven thousand dollars ($26,597,000) is appropriated from the General Fund to the department, for the 1989–90 fiscal year, to be allocated to each county receiving funds pursuant to subdivision (d) of Section 16703. Each county's maximum allocation under this section shall be determined as follows:

(1) The sum of one hundred twenty-six million five hundred ninety-seven thousand dollars ($126,597,000) shall be multiplied by

each county's percentage determined by subdivision (d) of Section 16703.

(2) For each county, the percentage of persons newly legalized under the Immigration Reform and Control Act of 1986 (IRCA) who are residents of that county divided by the total of all IRCA newly legalized persons for all counties eligible to receive funds pursuant to this section shall be determined. The department shall utilize the most recent data from the federal Department of Health and Human Services for this purpose.

(3) Each county's percentage determined in paragraph (2) shall then be multiplied by one hundred twenty-six million five hundred ninety-seven thousand dollars ($126,597,000).

(4) For each county, the amount determined in paragraph (3) shall be subtracted from the amount determined in paragraph (1). If the resulting amount is negative, no funds shall be allocated to that county. If the resulting amount is positive, that amount shall be the county's maximum allocation and shall be made available to that county in the same manner and according to the same procedures and requirements that govern funds made available pursuant to subdivision (d) of Section 16703, except that the department shall make the payment of each county's allocation as determined above in one lump sum on or before January 1, 1990.

(5) If the sum of funding that a county received from its allocation pursuant to Section 16703, the amount of reimbursement it received from federal State Legalization Impact Assistance Grant funding for indigent care, and its share of funding provided in this section is less than the amount of funding the county received pursuant to Section 16703 in fiscal year 1988–89 the state shall reimburse the county for the amount of the difference For the 1990–91 fiscal year, if the sum of funding received from its allocation, pursuant to Section 16703 and the amount of reimbursement it received from State Legalization Impact Assistance Grant Funding for indigent care that year is less than the amount of funding the county received pursuant to Section 16703 in the 1988–89 fiscal year, the state shall reimburse the amount of the difference. If the department determines that the county has not made reasonable efforts to document and claim federal SLIAG funding for indigent care, the department shall deny the reimbursement.

(6) The calculations specified in paragraph (5) shall be performed after the end of the fiscal year after all claims from a county for that fiscal year have been adjudicated. The calculations shall be performed within 90 days of the date that the final claim for a fiscal year is submitted by the county.

(7) If a county submits additional claims for services provided in a specific year and has received funds under paragraph (5) above for that year, the department shall reimburse the General Fund up to amount received under paragraph (5) from federal State Legalization Impact Assistance Grant funds otherwise payable to the county based upon the additional claims.

(b) In determining if a county has made reasonable efforts to document and claim federal State Legalization Impact Assistance Grant funding, the department may require a county to utilize statistically valid sampling methods or to utilize the federal Cost Documentation System for Social Security matching.

(c) To the extent allowed by federal law, the department shall make quarterly prospective payments of federal State Legalization Impact Assistance Grant funds to counties for the 1988–89, 1989–90, and 1990–91 fiscal years SLIAG claims for indigent health services. Prospective payments shall not exceed the total amount of a county's 1987–88 fiscal year claim, as adjusted by the department, on an annualized basis. As a condition of receiving a prospective payment, the county shall certify that it intends to submit claims exceeding the amount advanced. A county shall be liable for any overpayments or federal sanctions in the event of an excess drawdown of federal State Legalization Impact Assistance Grant funds.

(d) A county may apply for, and the Department of Finance may approve, a state General Fund loan in the 1989–90 fiscal year to meet anticipated shortfalls in their Medically Indigent Services Program. In order to receive funds, the county must demonstrate to the Department of Finance that the county will not submit 1989–90 claims totaling more than 50 percent of its estimated SLIAG amount as determined by its percentage of the newly-legalized population multiplied by the amount of total SLIAG funds available. The county shall also demonstrate that the county has made reasonable efforts to document and claim federal SLIAG funds as defined in paragraph (7) of subdivision (b) of Section 16991. In no event shall the loan amount exceed 50 percent of a county's percentage of the newly-legalized population multiplied by the amount of total SLIAG funds available, or exceed the amount to which the county is entitled pursuant to paragraph (5) of subdivision (a) of Section 16991. The loan shall be issued to the county in two equal installments on January 1, 1990, and April 1, 1990. The loan balance shall be credited in the amount of funds provided pursuant to paragraph (5) of subdivision (a) of Section 16991 upon receipt of the funds. Repayment shall include interest calculated at the rate earned by the Pooled Money Investment Account.

(3) More than 30 percent of all annual cancer deaths are attributable to smoking, with lung cancer now the leading cancer killer in women, as well as men.

(4) More than 80 percent of chronic obstructive lung diseases, including emphysema and chronic bronchitis, are caused by smoking.

(5) Smoking is responsible for one-quarter of all deaths caused by fire.

This section shall become operative January 1, 1991.

SEC. 2. Part 6.9 (commencing with Section 1189.101) is added to Division 1 of the Health and Safety Code, to read:

PART 6.9. EXPANDED ACCESS TO PRIMARY CARE

1189.101. (a) The State Department of Health Services shall select primary care clinics that are exempt from federal taxation and community based, including clinics operated by tribes or tribal organizations, to be reimbursed for delivering medical services, and preventative health care, including smoking prevention and cessation health education, to program beneficiaries. In selecting primary care clinics for reimbursement, the department shall give priority to clinics that provide services in a medically underserved area or to a medically underserved population as determined by the

department.

(b) As a part of the award process for funding pursuant to this part, the department shall take into account the availability of primary care services in the various geographic areas of the state. The department shall determine which areas within the state have populations which have clear and compelling difficulty in obtaining access to primary care. The department shall consider proposals from new and existing eligible providers to extend clinic services to these populations. The department shall give equal consideration to all applicants, regardless of whether or not they have an existing contract with the department.

(c) Each primary care clinic applying for funds pursuant to this part shall demonstrate that the funds shall be used to expand medical services, and preventative health care, including smoking prevention and cessation health education, for program beneficiaries.

(d) The department shall make prospective interim payments to the selected primary care clinics for outpatient visits, on at least a quarterly basis, based on the primary care clinic's projected increase in outpatient visits as compared to the outpatient visits provided in the 1988 calendar year, and shall adjust such payments to correct for any underestimates or overestimates of outpatient visits. The department may also pay primary care clinics on a separate basis for case management services provided as a result of these outpatient visits.

(1) For purposes of this part, an outpatient visit shall include preventive health services, diagnosis and treatment services, and the associated pharmacy, X-ray, and laboratory services that are needed as a result of the outpatient visit. For a new patient, an outpatient visit shall also include a health assessment encompassing an assessment of smoking behavior and appropriate health education.

(2) "Case management" includes, for this purpose, the management of all physician services, both primary and specialty, and arrangements for hospitalization, postdischarge care, and followup care.

(3) Payment shall be on a per visit basis at a rate that is determined by the department to be appropriate for an outpatient visit as defined in this section.

In developing a statewide uniform rate for an outpatient visit as defined in this part, the department shall consider existing rates of payments for comparable outpatient visits. The rate shall be published in accordance with subdivision (e). The department shall review the outpatient visit rate on an annual basis.

(4) The department may also pay for case management services, and may establish a separate, uniform statewide rate for these services which shall be paid in addition to the outpatient visit rate. The rate for case management shall not exceed 5 percent of the rate for an outpatient visit. If, upon establishment of the outpatient visit rate, the department determines that the rate of payment for case

management is not adequate to cover the cost of the service, the department may increase the rate for case management, but the rate shall not exceed 10 percent of the outpatient visit rate.

In developing the separate, uniform statewide rate for case management, the department shall take into account rates paid to providers for case management services under any other program funded in whole or in part by the state or federal government. The rates shall be published in accordance with subdivision (e). The department shall review the case management rate on an annual basis.

(5) A primary care clinic may, at its option, and with department approval, provide and be paid for both outpatient visits and case management services.

(e) Not later than January 15 of each year, the department shall adopt and provide each clinic with a schedule for programs under this part, including the date for notification of availability of funds, the deadline for the submission of a completed application, and an anticipated contract award date for successful applicants.

1189.102. For purposes of this part, a "program beneficiary" is any person whose income level is at or below 200 percent of the federal poverty level. Program beneficiaries shall not be required to provide any copayment for services that are funded pursuant to this part. The department shall annually adjust this income standard to reflect any changes in the federal poverty level. Payment pursuant to this part shall be made only for services for which payment will not be made through any private or public third-party reimbursement.

1189.103. (a) Any clinic applying for funds under this part shall demonstrate in its application that it is providing primary care services, to a medically underserved area or population. Any applicant who has applied for and received a federal or state designation for serving a medically underserved area or population shall be deemed to meet the requirements of subdivision (a) of Section 1189.101 In addition, the applicant shall demonstrate to the satisfaction of the department that the proposed services supplement, and do not supplant, those primary care services to program beneficiaries that are funded by any county, state, or federal program.

(b) Each application shall be evaluated by the state department prior to funding to determine all of the following:

(1) The number of program beneficiaries who are in the service area of the applicant, and the number of visits, the scope of primary care services, and the proposed total budget for outpatient visits provided to beneficiaries under this part. The applicant shall provide its most recently audited financial statement to verify budget information.

(2) The applicant's ability to deliver basic primary care to program beneficiaries within the contract allowance.

(3) A description of the applicant's operational quality assurance

program.

(4) The applicant's use of protocols for the most common diseases in the population served under this part.

1189.104. Services funded pursuant to this part shall be limited to the extent that funds are appropriated for this purpose.

1189.105 The Legislature finds and declares that an expedited contract process is necessary for the purposes of this part, in order that additional medical care services may be made available to persons who are unable to pay for medical care.

Contracts for services reimbursed under this part shall be for a period of one year and shall be renewed annually provided the applicant continues to meet the terms and conditions of the contract.

1189.106. The department shall submit a report on its activities under this part to the Legislature no later than January 1, 1991, and annually thereafter.

1189.109. As a condition of receiving funds under this article, a clinic shall provide, or arrange and pay for, medically necessary followup treatment, including prescription drugs, for any condition detected as part of a child health and disability prevention screen for any child eligible for services under Section 323.7 of the Health and Safety Code upon referral by a child health and disability prevention program provider, unless the child is eligible to receive care with no share of cost under the Medi-Cal program, is covered under another publicly funded program, or the services are payable under private insurance coverage.

From funds appropriated for the 1989–90 fiscal year, not more than ten million dollars ($10,000,000) may be utilized by the department for grants to clinics for modernization of clinic facilities and for expansion of primary care capacity in order to provide adequate access to clinic services.

1189.110. Any entity or provider which receives funds pursuant to this part shall expend those funds in accordance with the requirements of Article 2 (commencing with Section 30121) of Chapter 2 of Part 13 of Division 2 of the Revenue and Taxation Code.

1189.111. This part shall remain operative only until July 1, 1991, and shall remain in effect only until January 1, 1992, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1992, deletes or extends that date.

SEC. 3. Section 1216 of the Health and Safety Code is amended to read:

1216. (a) Every clinic holding a license shall, on or before the 15th day of February each year, file with the Office of Statewide Health Planning and Development upon forms to be furnished by the office, a verified report showing the following information relating to the previous calendar year:

SEC. 4. Chapter 1.2 (commencing with Section 24160) is added to Division 20 of the Health and Safety Code, to read:

CHAPTER 1.2. TOBACCO USE PREVENTION

24160. (a) The Legislature finds and declares as follows:

(1) Smoking is the single most important source of preventable disease and premature death in California.

(2) More than 30 percent of coronary heart disease cases are attributable to cigarette smoking.

(3) More than 30 percent of all annual cancer deaths are attributable to smoking, with lung cancer now the leading cancer killer in women as well as men.

(4) Smoking is responsible for one-quarter of all deaths caused by fire.

(5) Involuntary smoking is a cause of disease, including lung cancer, in healthy nonsmokers.

(6) More than 80 percent of chronic obstructive lung diseases including emphysema and chronic bronchitis are attributable to smoking.

(7) Tobacco-related disease places a tremendous financial burden upon the persons with the disease, their families, the health care delivery system, and society as a whole. California spends five billion six hundred million dollars ($5,600,000,000) a year in direct and indirect costs on smoking-related illnesses.

(8) The elimination of smoking is the number one weapon against four of the five leading causes of death in California.

(9) Keeping children and young adults from beginning to use tobacco and encouraging all persons to quit tobacco use shall be the highest priority in disease prevention for the State of California. More than 60 percent of all smokers begin smoking by the age of 14, and 90 percent begin by the age of 19.

(10) The State of California shall play a leading role in promoting a smoke-free society by the year 2000 and thereby supporting the National Health Status Objectives for the year 2000 relating to smoking and tobacco use.

(b) It is the intent of the Legislature, therefore, to require the State Department of Health Services, local lead agencies, and the State Department of Education to cooperatively and individually conduct activities directed at the prevention of tobacco use and tobacco-related diseases. The campaign shall focus on health promotion, disease prevention, and risk reduction, utilizing a "wellness" perspective that encourages self-esteem and positive decisionmaking techniques. It is also the intent of the Legislature that, for the purpose of program planning and program evaluation, the State Department of Health Services provide data and technical information on tobacco-related diseases, tobacco use and its consequences, and effective personal and community interventions to prevent tobacco use.

The guidelines shall require for each target population to be served a description of the services to be provided, an estimate of the number to be served, an estimate of the success rate, and a method to determine to what extent goals have been achieved. Beginning with 1990–91 fiscal year, guidelines shall require local lead agencies to describe how local funding decisions will take into account evaluations of program effectiveness and efficiency. The guidelines shall require the submission of a budget and information on staffing configurations.

Under this program the department may contract for studies and evaluations in school-based and community-based programs. The department shall consult with the State Department of Education regarding the collection and evaluation of program data.

The grants shall provide funds to eligible grantees, as determined by the state department. In awarding grants, the state department shall select a variety of projects and grantees.

(b) The state department shall develop criteria and standards for the allocation of grant awards which consider the need to balance target populations to be served, project types of rural suburban and urban projects, and consider the current regional availability of similar services. Target populations may include, but not be limited to, children, young adults, pregnant women, low-income individuals, Black, Hispanic, Native American, and Asian-Pacific Islander populations, current smokers, and school-aged youth no longer attending school classes. The grant awards may also be made to school districts for nonclassroom, districtwide efforts to reduce tobacco use. For costs of the initial implementation of this section, which are incurred prior to signing contracts with the counties, the department is authorized to transfer up to five hundred thousand dollars

($500,000) from Item 4260-101-001(b) to Item 4260-101-001(c) to fund fiscal intermediary changes and to Item 4260-001-001 to fund additional staff. As a condition of the state assuming this risk, the department may require uniform eligibility criteria and benefits to be provided which shall be mutually established by participating counties in conjunction with the department. The department in consultation with the counties may revise these eligibility criteria and benefits or alter rates of payment during the fiscal year in order to assure that sufficient funds are available for health services to county residents certified as eligible for the services. The counties and the department shall work collectively to ensure that expenditures do not exceed the funds available in the program account and may adjust eligibility and benefit criteria and payments accordingly.

(k) The Legislature hereby determines that an expedited contract process for contracts under this section is necessary. Article 6. County Application

16980. (a) The department shall no later than January 1, 1990, make monthly payments of county allocations made pursuant to Section 16941 upon application of the county assuring that it will comply with the provisions of this part. (b) The department shall recoup funds which were provided pursuant to this chapter if they were not encumbered or expended according to the requirements of this chapter within the fiscal year according to procedures and reports required pursuant to Section 16706. The funds shall revert to the CHIP Account.

Article 7. Financial Maintenance of Effort

16990. (a) Any county receiving an allocation pursuant to this chapter shall, at a minimum, maintain a level of financial support of county funds for health services at least equal to its county match and any overmatch of county funds in the 1988–89 fiscal year, provided that this amount shall be adjusted annually by the amount of any increase in county funding required by paragraph (2) of subdivision (b) of Section 16704. For purposes of this article, each county's level of financial effort shall be determined by either the 1988–89 county health services plan and budget required pursuant to Section 16700 or by the report of estimated actual expenditures, revenues, and net county costs for the 1988–89 fiscal year, required pursuant to Section 16706 after review and adjustment by the department. The level of financial effort required for compliance with this section for future fiscal years shall be based upon the plan and budget submitted for the fiscal year by the county pursuant to Section 16700 and this chapter.

(b) For purposes of this section, if a county desires to use any of its allocation pursuant to Section 16941 for programs and costs not reported as part of the plan and budget required by Section 16700, the county, as a condition of using its allocation for these purposes, must maintain an amount of county funding for those programs and costs at least equal to the 1988–89 fiscal year levels.

(c) Moneys received by a county under this chapter shall be accounted for as revenue in the plan and budget which is required pursuant to Section 16700 and shall not be used as county matching funds for purposes of Sections 16703 and 16707, or any other program requiring a county match.

Article 8. Newly Legalized Person Health Services Appropriation and Funding Guarantee

16991. (a) The sum of twenty-six million five hundred ninety-seven thousand dollars ($26,597,000) is appropriated from the General Fund to the department, for the 1989–90 fiscal year, to be allocated to each county receiving funds pursuant to subdivision (d) of Section 16703. Each county's maximum allocation under this section shall be determined as follows:

(1) The sum of one hundred twenty-six million five hundred ninety-seven thousand dollars ($126,597,000) shall be multiplied by each county's percentage determined by subdivision (d) of Section 16703.

(2) For each county, the percentage of persons newly legalized under the Immigration Reform and Control Act of 1986 (IRCA) who are residents of that county divided by the total of all IRCA newly legalized persons for all counties eligible to receive funds pursuant to this section shall be determined. The department shall utilize the most recent data from the federal Department of Health and Human Services for this purpose.

(3) Each county's percentage determined in paragraph (2) shall then be multiplied by one hundred twenty-six million five hundred ninety-seven thousand dollars ($126,597,000).

(4) For each county, the amount determined in paragraph (3) shall be subtracted from the amount determined in paragraph (1). If the resulting amount is negative, no funds shall be allocated to that county. If the resulting amount is positive, that amount shall be the county's maximum allocation and shall be made available to that county in the same manner and according to the same procedures and requirements that govern funds made available pursuant to subdivision (d) of Section 16703, except that the department shall make the payment of each county's allocation as determined above in one lump sum on or before January 1, 1990.

(5) If the sum of funding that a county received from its allocation pursuant to Section 16703, the amount of reimbursement it received from federal State Legalization Impact Assistance Grant funding for indigent care, and its share of funding provided in this section is less than the amount of funding the county received pursuant to Section 16703 in fiscal year 1988–89 the state shall reimburse the county for the amount of the difference. For the 1990–91 fiscal year, if the sum of funding received from its allocation, pursuant to Section 16703 and the amount of reimbursement it received from State Legalization Impact Assistance Grant Funding for indigent care that year is less than the amount of funding the county received pursuant to Section 16703 in the 1988–89 fiscal year, the state shall reimburse the amount of the difference. If the department determines that the county has not made reasonable efforts to document and claim federal SLIAG funding for indigent care, the department shall deny the reimbursement.

(6) The calculations specified in paragraph (5) shall be performed after the end of the fiscal year after all claims from a county for that fiscal year have been adjudicated. The calculations shall be performed within 90 days of the date that the final claim for a fiscal year is submitted by the county.

(7) If a county submits additional claims for services provided in a specific year and has received funds under paragraph (5) above for that year, the department shall reimburse the General Fund up to amount received under paragraph (5) from federal State Legalization Impact Assistance Grant funds otherwise payable to the county based upon the additional claims.

(b) In determining if a county has made reasonable efforts to document and claim federal State Legalization Impact Assistance Grant funding, the department may require a county to utilize statistically valid sampling methods or to utilize the federal Cost Documentation System for Social Security matching.

(c) To the extent allowed by federal law, the department shall make quarterly prospective payments of federal State Legalization Impact Assistance Grant funds to counties for the 1988–89, 1989–90, and 1990–91 fiscal years SLIAG claims for indigent health services. Prospective payments shall not exceed the total amount of a county's 1987–88 fiscal year claim, as adjusted by the department, on an annualized basis. As a condition of receiving a prospective payment, the county shall certify that it intends to submit claims exceeding the amount advanced. A county shall be liable for any overpayments or federal sanctions in the event of an excess drawdown of federal State Legalization Impact Assistance Grant funds.

Article 9. Capital Outlay

16994. (a) (1) Ninety percent of the amount appropriated for the purposes of this article shall be allocated to MISP counties according to the percentages specified in this chapter.

(C) Multiply the quotient derived from the application of subparagraph (B) by the total amount appropriated for the purposes of this article.

(b) Funding utilized under this section shall be for capital expediture and equipment acquisition purposes associated with the direct delivery of patient care. In addition, each county may utilize up to two million dollars ($2,000,000) or 10 percent of its allocation under this section, whichever is greater, on a one-time basis only in the 1989–90 fiscal year to restore county special fund balances to their July 1, 1988 levels. Funds from this section may be allocated for this

purpose only in circumstances where the county board of supervisors transferred moneys from those special funds to the county general fund or to health facilities enterprise funds in order to support indigent health care services in the 1988–89 fiscal year.

(c) Except as provided in subdivision (a), no less than 67 percent of the moneys a county receives under this section shall be allocated to county acute care hospitals, University of California hospitals, or any private hospital licensed pursuant to subdivision (d) of Section 1250 of the Health and Safety Code, which operates an emergency room or a burn unit or outpatient clinic. The moneys may be expended for facility repair, renovation, remodeling, expansion, or acquisition or equipment needs.

(d) Except as provided in subdivision (b), up to 33 percent of the moneys a county receives under this section may be expended for capital improvement and equipment needs for outpatient clinics, or mental health facilities, or public health clinics or licensed community and free clinics or clinics operated by tribes or tribal organizations.

(e) Noncounty hospitals shall utilize funds received under this section only for capital expenditures related to emergency room, burn unit, and outpatient clinics.

(f) County hospitals may utilize funds received under this section for expenditures related to inpatient, outpatient, emergency room, or burn unit services.

(g). Funds utilized from this section shall be for capital expenditure purposes associated with the direct treatment of patients.

(h) Each county receiving moneys under this section shall submit a plan for the use of these moneys to the department for review and approval prior to making any commitment for the expenditure of such funds. Any subsequent revision to the county's capital improvements plan shall also be submitted for review and approval. The department's approval authority shall be limited to a determination of whether the county's plan conforms to statutory provisions as contained in this section and part. The department may establish necessary procedures and forms for the submission, review, and approval of county plans and reports.

(i) The expenditure of moneys authorized by this section may be made without regard to fiscal year provided that moneys authorized by this section shall be available for encumbrance for three fiscal years and for expenditure for five fiscal years, including the 1989–90 fiscal year. At the end of five years any moneys which have not been expended shall be recouped by the department.

(j) Counties shall submit an annual report, in accordance with guidelines provided by the department, detailing the use and actual expenditure of moneys received pursuant to this section. The department shall recoup the amount of any county expenditure which does not conform to the provisions of this section.

(k) Funds provided under this section shall be added to the

allocations and payments to MISP counties pursuant to this chapter and to CMSP counties pursuant to this chapter.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 18. (a) On or before April 15, 1990, the State Department of Health Services shall report to the Legislature on the advisability of combining into a single program funding from California Healthcare for the Indigent Program, the Medically Indigent Services Program, and the inpatient/outpatient portion of the AB 8 County Health Services Program contained in Part 4.5 (commencing with Section 16700) of Division 9 of the Welfare and Institutions Code

SEC. 19. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to allow the state to fully implement the Tobacco Tax and Health Protection Act of 1988, Proposition 99 on the ballot for the General Election held November 8, 1988, to provide increased funding for programs to enhance the health of Californians, and to provide for compensation to providers of health care to encourage them to increase their level of service to those persons unable to pay for those services, at the earliest possible time, and, in order to prevent avoidable injury to the public caused by the use of tobacco products, it is necessary for this act to take effect immediately.

CHAPTER 1332

An act to amend Section 1810 of the Welfare and Institutions Code, relating to juvenile correctional facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1810 of the Welfare and Institutions Code, as amended by Section 1 of Chapter 1275 of the Statutes of 1986, is amended to read:

1810 (a) If during any fiscal year in which a county receives funds under this article, the county reduces the capacity of its juvenile homes, ranches, camps, or forestry camps below the capacity for those facilities during fiscal year 1982–83, and if during the 12-month period subsequent to the month of the reduction, or any subsequent 12-month period, there is an increase of commitments from the county's juvenile court to the Department of the Youth Authority above the number of the commitments during the 1982–83 fiscal year, the county's entitlement to funding under this article shall be reduced by an amount equivalent to the actual cost, as determined by the Department of the Youth Authority, of increasing capacity to the fiscal year 1982–83 level or by an amount equal to the increase in commitments from the juvenile court to the Department of the Youth Authority, whichever is less. However, if within 90 days of receiving notice from the department of the extent of the increase in commitments, the county increases its juvenile home, ranch, camp or forestry camp capacity for the rest of the current fiscal year in an amount equal to the reduction of that capacity, or in an amount equal to the increase in commitments from the juvenile court to the Department of the Youth Authority, whichever is less (except that the increases in capacity shall be in increments of 10 beds to the extent required to meet or surpass the required increase, but not in excess of the amount of the reduction of capacity), the funding shall not be reduced.

Any reduction shall be applied to the next payment or payments to which the county is otherwise entitled.

(b) Any commitment of funds or reduction in entitlement required under subdivision (a) shall not reduce the county's entitlement below the level of funding required to maintain the programs or services mandated by Chapter 1071 of the Statutes of 1976, as approved by the Board of Control for fiscal year 1977–78 and as increased by inflationary factors determined by the Department of Finance.

(c) A county that provides juvenile home, ranch, or camp space to another county pursuant to contract shall not have its entitlement

reduced pursuant to this section if it reduces its capacity based on a reduction in the amount of space provided pursuant to contract.

(d) The provisions of this section shall not be applicable to a reduction in capacity occurring as a result of an act of God. In addition, this section does not apply to the County of Santa Barbara because of an involuntary loss of the lease of a juvenile camp, ranch, or school facility. However, the County of Santa Barbara shall have until June 1, 1990, to develop a comparable facility, facilities, or programs. In addition, prior to June 1, 1990, funding pursuant to Section 1805 originally intended for the facility of the County of Santa Barbara which is to be closed because of the involuntary loss of the lease, shall be used to expand existing juvenile programs in the county.

(e) As used in this section, "juvenile home, ranch, camp, or forestry camp" means those facilities as are established pursuant to Article 24 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2.

(f) The Director of the Youth Authority may exempt Riverside or Tulare County, or both from the sanctions required by this section for a period of three years in response to a request for exemption submitted by the county which (1) identifies the facility which is being closed, (2) outlines the county's plan to replace the facility in question or to establish programs to limit commitments to state-operated facilities, including, but not limited to, a measure providing for the construction of a new facility which requires voter approval, and outlines the county's plan to fund the operation of the new facility, and (3) demonstrates facts showing that the fiscal status of the county does not provide sufficient local general purpose revenue to continue present operations under those sanctions or that health and safety constraints require closure of an existing facility.

(g) This section shall remain in effect only until June 1, 1990, and as of that date is repealed, unless a later enacted statute, which is enacted before June 1, 1990, deletes or extends that date.

SEC. 2. Section 1810 of the Welfare and Institutions Code, as added by Section 5 of Chapter 288 of the Statutes of 1983, is amended to read:

1810. (a) If during any fiscal year in which a county receives funds under this article, the county reduces the capacity of its juvenile homes, ranches, camps, or forestry camps below the capacity for those facilities during fiscal year 1982–83, and if during the 12-month period subsequent to the month of the reduction, or any subsequent 12-month period, there is an increase of commitments from the county's juvenile court to the Department of the Youth Authority above the number of the commitments during the 1982–83 fiscal year, the county's entitlement to funding under this article shall be reduced by an amount equivalent to the actual cost, as determined by the Department of the Youth Authority, of increasing capacity to the fiscal year 1982–83 level or by an amount equal to the increase in commitments from the juvenile court to the

Department of the Youth Authority, whichever is less. However, if within 90 days of receiving notice from the department of the extent of the increase in commitments, the county increases its juvenile home, ranch, camp, or forestry camp capacity for the rest of the current fiscal year in an amount equal to the reduction of that capacity, or in an amount equal to the increase in commitments from the juvenile court to the Department of the Youth Authority, whichever is less (except that the increases in capacity shall be in increments of 10 beds to the extent required to meet or surpass the required increase, but not in excess of the amount of the reduction of capacity), the funding shall not be reduced.

Any reduction shall be applied to the next payment or payments to which the county is otherwise entitled.

(b) Any commitment of funds or reduction in entitlement required under subdivision (a) shall not reduce the county's entitlement below the level of funding required to maintain the programs or services mandated by Chapter 1071 of the Statutes of 1976, as approved by the Board of Control for fiscal year 1977–78 and as increased by inflationary factors determined by the Department of Finance.

(c) A county that provides juvenile home, ranch, or camp space to another county pursuant to contract shall not have its entitlement reduced pursuant to this section if it reduces its capacity based on a reduction in the amount of space provided pursuant to contract.

(d) The provisions of this section shall not be applicable to a reduction in capacity occurring as a result of an act of God.

(e) As used in this section, "juvenile home, ranch, camp, or forestry camp" means those facilities as are established pursuant to Article 24 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2.

(f) The Director of the Youth Authority may exempt a county from the sanctions required by this section for a period of three years in response to a request for exemption submitted by the county which (1) identifies the facility which is being closed, (2) outlines the county's plan to replace the facility in question or to establish programs to limit commitments to state-operated facilities, including, but not limited to, a measure providing for the construction of a new facility which requires voter approval, and (3) demonstrates facts showing that the fiscal status of the county does not provide sufficient local general purpose revenue to continue present operations under those sanctions or that health and safety constraints require closure of an existing facility.

(g) This section shall become operative on June 1, 1990.

SEC. 3. The Legislature finds and declares, with respect to the changes in Section 1810 of the Welfare and Institutions Code made by Section 1 of this act, that a special law is necessary and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution for the following reasons:

Due to extremely high caseloads, Riverside County has had to utilize a gymnasium facility for detention of juvenile offenders. Health and safety inspections by the Department of the Youth Authority indicated that those children had to be moved from that facility and placed in another facility. Under current law, this would require a sanction against the county because these children were moved. This statute provides flexibility for waiver of that sanction.

Tulare County, due to severe budget constraints, was forced to close an antiquated juvenile detention facility with the intention of utilizing bond moneys to complete a new facility in the next three years. In the interim, it was the county's judgment to utilize both local and state funds on diversion programs in lieu of maintaining this facility. Under the very restrictive sanction requirements of current law, Tulare County would be subject to sanctions of four hundred fifty thousand dollars ($450,000) of state funds and would then have to cut diversion programs, as well as having closed the facility.

This act authorizes the Director of the Youth Authority to waive those sanctions upon making specific findings.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to avoid cuts in needed juvenile diversion programs, it is necessary that this act take effect immediately.

CHAPTER 1333

An act to amend Section 1264 of the Unemployment Insurance Code, relating to unemployment insurance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 1264 of the Unemployment Insurance Code is amended to read:

1264. (a) Unemployment compensation benefits, extended duration benefits, and federal-state extended benefits shall not be payable on the basis of services performed by an alien unless the alien is an individual who was lawfully admitted for permanent residence at the time the services were performed, was lawfully present for purposes of performing the services, or was permanently residing in the United States under color of law at the time the services were performed, including an alien who was lawfully present in the United States as a result of the application of the provisions of Section 203(a)(7) or Section 212(d)(5) of the

Immigration and Nationality Act.

(b) Any data or information required of individuals applying for benefits specified by subdivision (a) to determine whether these benefits are not payable to them because of their alien status shall be uniformly required from all applicants for these benefits.

(c) In the case of an individual whose application for benefits specified by subdivision (a) would otherwise be approved, no determination by the department, an administrative law judge, or the appeals board that these benefits to the individual are not payable because of his or her alien status shall be made except upon a preponderance of the evidence.

(d) If an alien presents evidence that the Immigration and Naturalization Service has granted the alien employment authorization as a result of the alien's application for temporary residence status under the federal Immigration Reform and Control Act of 1986 (Public Law 99-603), pending a final determination on this application the department shall not do either of the following:

(1) Commence or continue to pursue any administrative or judicial action to collect benefits where there has been a final determination that these benefits have been overpaid or chargeable to the alien, because of the alien's immigration status at the time he or she performed the services compensated by his or her base period wages.

(2) Determine that the alien was overpaid benefits in the current benefit year or in any prior benefit year, if the basis for the determination is the assumption that because the alien is an applicant for temporary resident status he or she was not, while performing the services compensated by base period wages, lawfully admitted for permanent residence, lawfully present for purposes of performing the services that were compensated by his or her base period wages, or permanently residing in the United States under color of law.

(e) If the Immigration and Naturalization Service grants the application and adjusts the alien's status to that of lawful temporary resident, the department shall not take any action described in paragraph (1) of subdivision (d) or make any determination described in paragraph (2) of subdivision (d). If an alien is not in the status of being lawfully admitted for permanent residence, lawfully present for the purpose of performing the services compensated by his or her base period wages, or permanently residing in the United States under color of law, at the time the alien's lawful temporary permanent status terminates, then compensation shall not be payable on the basis of services performed by the alien after the termination.

(f) Nothing in subdivision (d) shall be construed to require the department to do any of the following:

(1) Repay any amounts collected under any present or past action as described in paragraph (1) of subdivision (d).

(2) Redetermine the eligibility for unemployment compensation

benefits of any alien who the department originally determined to be ineligible because of the alien's status at the time he or she performed the services compensated by his or her base period wages and with respect to whom the determination has become final.

(3) Apply subdivision (d) or (e) retroactively.

(g) If the United States Secretary of Labor finds that subdivisions (d) and (e) are not in conformity with the federal Unemployment Tax Act, and effective as of the date that this finding becomes final, subdivisions (d), (e), and (f) shall be inoperative and of no legal force or effect.

(h) Unless subdivisions (d), (e), and (f) have earlier become inoperative and of no legal force of effect pursuant to a finding by the Secretary of Labor under subdivision (g), subdivisions (d), (e), (f), and (g) shall remain in effect only until September 30, 1990, and as of that date shall become inoperative, unless a later enacted statute which is chaptered before September 30, 1990, deletes or extends that date. Notwithstanding this subdivision, however, the department shall not take any action to collect benefits from an individual when the collection against that individual was suspended pursuant to subdivision (e) prior to September 30, 1990.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent provisions of law relating to unemployment compensation benefits for aliens who have applied for temporary resident status from becoming inoperative on September 30, 1989, it is necessary for this act to take effect immediately.

CHAPTER 1334

An act to repeal, add, and repeal Article 15 (commencing with Section 51870) of Chapter 5 of Part 28 of the Education Code, relating to education, and making an appropriation therefor.

(1) Educational technology is a valuable tool to improve and expand instruction and the learning environment, and, through its appropriate use, California's schools will meet the evolving needs of today's and tomorrow's pupils. Technology offers benefits to all levels of education, from kindergarten children to adults, from pupils of remote areas to those pupils in inner cities, from remedial education

and special education to the highest levels of scholarship and research.

(7) There is a need for organization at the state level which facilitates the planning, monitoring, and coordinating of educational technology across all levels of the educational process.

(b) It is the intent of the Legislature that:

(1) The educational benefits of new technologies be distributed efficiently and equitably to all students.

(2) Coordinating, planning, and establishing policy for the application of educational technology in California, occur within a framework and in a manner involving representatives from all educational levels, along with representatives of the business community.

(3) That the public educational sector and the private business and industry sector form a partnership to provide the best and most comprehensive education in the applications of techology for all students enrolled in public educational institutions in this state.

After approving such a request of the county or any city in the county, the commission may allocate to the county or city any lawfully available moneys of the commission, including, but not limited to, the revenues from the taxes imposed pursuant to this article and the proceeds of any limited tax bonds authorized by the voters pursuant to Section 26298.12, in amounts as the commission shall determine, to fund, in whole or in part, those detention or courthouse facilities purposes.

(b) In connection with any allocation of moneys to the county or any city in the county pursuant to subdivision (a), the commission shall enter into an allocation or funding agreement with the county or city pursuant to which the commission shall commit the moneys allocated under subdivision (a) to the county or city. The moneys shall be used solely for the purposes approved by the commission under subdivision (a). 26298.28. If a retail transactions and use tax is adopted pursuant to this article, the commission shall prepare and submit a report to the board of supervisors and to the city council of each city in the county on or before January 1 of the year following the end of the first full fiscal year after that date that the taxes are imposed pursuant to this article and annually thereafter. The report shall evaluate, and report the progress made in, the implementation of the master plan in the preceding fiscal year.

26298.30. (a) The bonds authorized by the voters concurrently with the approval of the retail transactions and use tax may be issued by the commission at any time, and from time to time, payable solely from the proceeds of the tax. The bonds shall be referred to as "limited tax bonds."

(b) Limited tax bonds may not be issued unless the estimated proceeds of the retail transactions and use tax for a period of 30 years after issuance of the bonds shall at least equal the aggregate principal and interest payable with respect to all limited tax bonds then outstanding plus the limited tax bonds proposed to be issued. For purposes of determining the principal amount of limited tax bonds outstanding, limited tax bonds shall be assumed to be paid at par either at their respective maturities or pursuant to mandatory sinking fund installments with respect thereto. For purposes of determining the aggregate interest payable with respect to any issue of limited tax bonds, bonds that bear interest at variable interest rates shall be assumed to bear interest for the terms thereof equal to the interest rate in effect on the date the bonds are issued or, in the case of limited tax bonds already outstanding, equal to the interest rate in effect on the date that the determination is made. For purposes of determining the estimated proceeds of the retail transactions and use tax for a period of 30 years, a finding made by the commission, incidental to any prospective issuance of bonds, regarding the amount of the estimated proceeds shall be binding and conclusive for all purposes.

(c) The pledge of retail transactions and use taxes to the limited tax bonds authorized under this article shall have priority over the use of any of the funds for "pay-as-you-go" financing except to the extent that priority is expressly restricted in the resolution providing for the issuance of the bonds.

26298.32. (a) Limited tax bonds shall be issued pursuant to a resolution adopted at any time, and from time to time, by the commission by a two-thirds vote of all members of the commission. Each resolution shall provide for the issuance of bonds in amounts as the necessity therefor may appear, until the full amount of the bonds authorized shall have been issued. The full amount of bonds may be divided into two or more series and different dates of payment fixed for the bonds of each series. A bond need not mature on its anniversary date.

(b) A resolution providing for the issuance of bonds shall state all of the following:

(1) The purposes for which the proposed debt is to be incurred, which may include all costs and estimated costs incidental to or connected with the accomplishment of those purposes, including, without limitation, engineering, inspection, legal, fiscal agents, financial consultant and other fees, bond and other reserve funds, working capital, bond interest estimated to accrue during the construction period and for a period not to exceed three years thereafter, and expenses of all proceedings for the authorization, issuance, and sale of the bonds.

(2) The estimated cost of accomplishing the purposes.

(4) The maximum term the bonds, proposed to be issued, shall run before maturity, which shall not exceed 31 years from the date thereof or the date of each series thereof.

(5) The maximum rate of interest to be paid, which shall not exceed the maximum interest rate specified from time to time in Section 53531 of the Government Code, without regard to any other limitation.

(6) The denomination or denominations of the bonds, which shall not be less than five thousand dollars ($5,000).

(7) A pledge of retail transactions and use taxes to the limited tax bonds, either before or after giving effect to the payment of maintenance and operations expenses as defined by the commission in the resolution, and a statement that the bonds shall have priority over the use of any of the funds for "pay-as-you-go" financing except to the extent that the priority is expressly restricted in the resolution. However, the resolution shall not provide for the pledge of retail transactions and use taxes that have been allocated to the county or any city therein pursuant to Section 26298.20, except to the extent that the proceeds of any limited tax bonds are to be so allocated in lieu of those retail transactions and use taxes.

(8) The form of the bonds, including, without limitation, registered bonds and coupon bonds, to the extent permitted by

federal law, and the form of any coupons to be attached thereto, the registration, conversion, and exchange privileges, if any, pertaining thereto, and the time when the whole or any part of the principal shall become due and payable.

(c) The resolution may also contain any other matters authorized by this article or any other law.

26298.34. (a) The commission may provide for the bonds to bear interest at a variable or fixed interest rate, for the manner and intervals, in which the rate shall vary, and for the dates on which the interest shall be payable.

(b) In the resolution or resolutions providing for the issuance of the bonds, the commission may also provide for call and redemption of the bonds prior to maturity at times and prices and upon other terms as it may specify. However, no bond shall be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

(c) The principal of and interest on the bonds shall be payable in lawful money of the United States at the office of the treasurer of the county or at such other place or places as may be designated, or at either place or places at the option of the holders of the bonds.

If any officer whose signature appears on bonds or coupons ceases to be such an officer before the delivery of the bonds, the officer's signature is as effective as if the officer had remained in office

26298.36. The bonds may be sold as the commission determines by resolution. The commission may sell the bonds at a price below par, but the discount on any bonds so sold shall not exceed 5 percent of the par value thereof.

26298.38. Delivery of any bonds issued pursuant to this chapter may be made at any place either inside or outside the state, and the purchase price may be received in cash or bank credits.

26298.40. All accrued interest and premiums received on the sale of bonds shall be placed in the fund to be used for the payment of principal of and interest on the bonds and the remainder of the proceeds of the bonds shall be placed in the treasury of the commission and applied to secure the bonds or for the purposes for which the debt was incurred. However, when those purposes have been accomplished, any moneys remaining shall be either (a)

transferred to the fund to be used for the payment of principal of and interest on the bonds or (b) placed in a fund to be used for the purchase of outstanding bonds of the commission from time to time in the open market at those prices and in that manner, either at public or private sale or otherwise, as the commission may determine. Bonds so purchased shall be canceled immediately.

26298.42. (a) The commission may provide for the issuance, sale, or exchange of refunding bonds to redeem or retire any bonds issued by the commission upon the terms, at the times and in the manner which it determines.

(b) The proceeds of any bonds issued for the purpose of refunding outstanding bonds may, in the discretion of the commission, be applied to the purchase or retirement at maturity or redemption of outstanding bonds either on their earliest or any subsequent redemption date or upon the purchase or retirement at the maturity thereof and may, pending that application, be placed in escrow to be applied to the purchase or retirement at maturity or redemption on the date as may be determined by the commission.

(c) Pending that use, the escrowed proceeds may be invested and reinvested by the commission or its trustee in obligations of, or guaranteed by, the United States of America, or in certificates of deposit or time deposits secured by obligations of, or guaranteed by, the United States of America, maturing at a time or times appropriate to ensure the prompt payment of principal, interest, and redemption premium, if any, of the outstanding bonds to be so refunded. The interest, income, and profits, if any, earned or realized on the investment may also be applied to the payment of the outstanding bonds to be so refunded. After the terms of the escrow have been fully satisfied and carried out, any balance of the proceeds and interest, income, and profits, if any, earned or realized on the investment thereof may be returned to the commission for use by it in any lawful manner.

(d) The provisions of this article for the issuance and sale of bonds apply to the issuance and sale of refunding bonds.

26298.44. (a) The commission may borrow money in anticipation of the sale of bonds which have been authorized pursuant to this article, but which have not been sold and delivered, and may issue negotiable bond anticipation notes therefor and may renew the bond anticipation notes from time to time, but the maximum maturity of any bond anticipation notes, including the renewals thereof, shall not exceed five years from the date of delivery of the original bond anticipation notes.

(b) The bond anticipation notes, and the interest thereon, may be paid from any moneys of the commission available therefor, including the revenues from the retail transactions and use taxes imposed pursuant to this article. If not previously otherwise paid, the bond anticipation notes, or any portion thereof, or the interest thereon, shall be paid from the proceeds of the next sale of the bonds of the commission in anticipation of which the notes were issued.

(c) The bond anticipation notes shall not be issued in any amount in excess of the aggregate amount of bonds which the commission has been authorized to issue, less the amount of any bonds of the authorized issued previously sold, and also less the amount of other bond anticipation notes therefor issued and then outstanding. The bond anticipation notes shall be issued and sold in the same manner as the bonds.

(d) The bond anticipation notes and the resolution or resolution authorizing them may contain provisions, conditions, or limitations which a resolution of the commission authorizing the issuance of bonds may contain.

26298.46. Any bonds issued under provisions of this article shall be legal investment for all trust funds, for the funds of insurance companies, commercial and savings banks, and trust companies, and for state school funds. Whenever any money or funds may, by any law now or hereafter enacted, be invested in bonds of cities, cities and counties, counties, school districts, or other districts within the state, those moneys or funds may be invested in the bonds issued under this article. Whenever bonds of cities, cities and counties, counties, school districts, or other districts within this state may, by any law now or hereafter enacted, be used as security for the performance of any act or the deposit of any public moneys, the bonds issued under this article may be so used. This article shall be in addition to all other laws relating to legal investments and shall be controlling as the latest expression of the Legislature with respect thereto.

All the bonds shall contain on the face thereof a statement to the following effect:

"Neither the faith and credit nor the taxing power of the State of California or any public agency, other than the Orange County Regional Justice Facilities Commission, is pledged to the payment of the principal of, or interest on, this bond."

(b) The issuance of bonds under this chapter does not in any manner obligate the state or any other public agency thereof to levy, or to pledge any form of, taxation therefor or to make any appropriation for their payment.

26298.52. Neither the members of the board of directors of the commission, nor any person executing the bonds, are liable personally on the bonds, or are subject to any personal liability or accountability by reason of the issuance thereof.

26298.54. Any action or proceeding wherein the validity of the adoption of the retail transactions and use tax ordinance provided for in this article or the issuance of any bonds thereunder or any of the proceedings in relation thereto is contested, questioned, or denied, shall be commenced pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure, and shall be commenced within six months from the date of the election at which the ordinance is approved; otherwise, the bonds and all proceedings in relation thereto, including the adoption and approval of the ordinance and the retail transactions and use tax provided for therein, shall be held to be valid and in every respect legal and incontestable.

26298.56. The county and each city within the county are authorized to contribute to the commission such amounts as the county and each city, in their discretion, deem appropriate. 26298.58. If any provision of this chapter or the application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of this chapter which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable.

Article 3. Transactions and Use Tax

26299.040. The Legislature, by the enactment of this chapter, intends that the additional funds provided governmental agencies by this chapter shall supplement existing local revenues being used for the development and operation of regional justice facilities, and that local agencies maintain their existing commitment of local funds for regional justice facilities purposes.

26299.041. (a) A retail transactions and use tax ordinance applicable in the incorporated and unincorporated territory of a county may be imposed by the agency in accordance with this chapter and Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code, if the tax ordinance is adopted by a two-thirds vote of the agency and imposition of the tax is subsequently approved by a majority of the electors voting on the measure at a special election called for that purpose by the board of supervisors, at the request of the agency, and a county regional justice facilities master plan is adopted pursuant to Section 26299.009.

(b) A retail transactions and use tax approved by the electors pursuant to this chapter shall remain in effect for not longer than 30 years, or any lesser period of time specified in the tax ordinance. The tax may be continued in effect, or reimposed, by a tax ordinance adopted by a two-thirds vote of the agency and the reimposition of the tax is approved by a majority of the electors.

(c) The special elections required by subdivisions (a) and (b) for the initial imposition and reimposition, respectively, of a retail transactions and use tax may be consolidated, if the agency so determines, with a regular election.

26299.042. A tax ordinance adopted pursuant to Section 26299.041 shall take effect at the close of the polls on the day of the election at which the proposition is adopted. The initial collection of the transactions and use tax shall take place in accordance with Section 26299.049.

26299.043. The agency, in the ordinance adopted pursuant to Section 26299.041, shall state the nature of the tax to be imposed, the tax rate, the period during which the tax will be imposed, which of the financing activities enumerated in Section 26299.031 the agency proposes to exercise, and the specific activities and purposes, if any, for which the agency proposes to allocate any fixed portion of the tax proceeds. The purposes for which the tax may be imposed are the general governmental purposes of the agency as set forth in Section 26299.031.

The proposition shall include an appropriations limit for the agency pursuant to Section 4 of Article XIII B of the California

Constitution.

26299.044. (a) The county shall conduct a special election called by the agency for the purpose of approving a transactions and use tax ordinance adopted by the agency. The election shall be held within the incorporated and unincorporated areas of the county.

(b) The election shall be called and conducted in the same manner as provided by law for the conduct of special elections by a county.

(c) If the measure is approved by the voters, the cost incurred by the county in conducting the special election shall be reimbursed by the agency from proceeds of the retail transactions and use tax.

26299.045. The agency by two-thirds vote of its board of directors, subject to the approval of the voters, may impose a tax rate of one-half of 1 percent under this chapter and Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code. Neither this chapter nor the ordinance shall affect any tax otherwise authorized.

26299.046. The revenues from the tax imposed pursuant to this chapter may be allocated by the agency for the following purposes:

(a) To administer this chapter.

(b) To pay the costs of the financing, construction, acquisition, furnishing, maintenance, and operation of adult and juvenile detention facilities, countywide law enforcement facilities, court facilities, and other structures necessary or convenient thereto, in compliance with the adopted master plan.

(c) To finance all or any portion of the cost of any prevention program, as defined in Section 26299.011.

(d) To pay the costs of the financing and acquisition of necessary lands, easements, and rights-of-way at sites designated or approved by the agency, including any costs incurred by the agency in acquiring lands, easements, and rights-of-way.

(e) To hold title as necessary to land or facilities.

(f) To retire all or a portion of any capital debt previously incurred for any adult or juvenile detention facilities, countywide law enforcement facilities, court facilities, and other structures necessary or convenient thereto which exists on the date the election is held for voter approval of the retail transactions and use tax.

(g) To pay all debt service and any other related costs and expenses of any bonds issued pursuant to this chapter.

26299.047. When adopting its annual budget pursuant to Section 26299.030, the agency shall provide that the lawfully available moneys of the agency shall be used first for the payment of debt service on all outstanding limited tax bonds of the agency unless otherwise provided in the resolution providing for the issuance of such bonds, and, unless otherwise provided in an allocation or funding agreement, for the payment of all allocations required to be made pursuant to allocation or funding agreements between the agency and the county or any city in the county prior to the payment of operating costs and expenses and any other lawful costs and

expenses of the agency.

26299.048. If a retail transactions and use tax is adopted pursuant to this chapter, the agency shall prepare and submit a report to the board of supervisors and to the city council of each city in the county on or before January 1 of the year following the end of the first full fiscal year after that date that the taxes are imposed pursuant to this chapter and annually thereafter. The report shall evaluate, and report progress made in, the implementation of the adopted master plan in the preceding fiscal year.

26299.049. (a) Any transactions and use tax ordinance adopted pursuant to this chapter shall become operative as provided in Section 7265 of the Revenue and Taxation Code, or its successor.

(b) Prior to the operative date of the ordinance, the agency shall contract with the State Board of Equalization to perform all functions incidental to the administration and operation of the ordinance.

26299.050. (a) The combined rate of any transactions and use tax imposed in a county pursuant to this chapter and all other transactions and use taxes imposed in that county pursuant to the Transactions and Use Tax Law (Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code), or any other provision of law shall not exceed 1 percent.

(b) No tax shall be considered in a county in accordance with this part if, upon adoption, the combined rate of transactions and use taxes in the county will exceed 1 percent.

Article 4. Bonds

26299.060. (a) As part of the ballot proposition to approve the imposition of a retail transactions and use tax pursuant to this chapter, authorization may be sought to issue bonds payable from the proceeds of the tax to finance capital outlay expenditures as may be provided for in the master plan for county regional justice facilities adopted pursuant to Section 26299.009.

(b) Limited tax bonds may not be issued unless the estimated proceeds of the retail transactions and use tax for a period of 30 years after issuance of the bonds shall at least equal the aggregate principal and interest payable with respect to all limited tax bonds then outstanding plus the limited tax bonds proposed to be issued. For purposes of determining the principal amount of limited tax bonds outstanding, limited tax bonds shall be assumed to be paid at par either at their respective maturities or pursuant to mandatory sinking fund installments with respect thereto. For purposes of determining the aggregate interest payable with respect to any issue of limited tax bonds, bonds that bear interest at variable interest rates shall be assumed to bear interest for the terms thereof equal to the interest rate in effect on the date the bonds are issued or, in the case of limited tax bonds already outstanding, equal to the interest rate in effect on the date that the determination is made. For purposes

of determining the estimated proceeds of the retail transactions and use tax for a period of 30 years, a finding made by the agency, incidental to any prospective issuance of bonds, regarding the amount of the estimated proceeds shall be binding and conclusive for all purposes.

26299.061. (a) The bonds authorized by the voters concurrently with the approval of the retail transactions and use tax may be issued by the agency at any time, and from time to time, payable from the proceeds of the tax. The bonds shall be referred to as "limited tax bonds."

(b) The pledge of the retail transactions and use tax revenues for the limited tax bonds authorized under this chapter shall have priority over the use of any of the tax revenues for "pay-as-you-go" financing, or any other purposes except to the extent that that priority is expressly restricted in the resolution authorizing the issuance of the bonds.

26299.062. Limited tax bonds issued under this chapter may be used only for the following purposes:

(a) To finance the capital outlay expenditures for those qualifying facilities which the agency is authorized to construct, acquire, or furnish pursuant to Section 26299.032.

(b) To pay costs incurred in the issuance of the limited tax bonds.

(c) To fund a reserve fund for the limited tax bonds.

26299.063. Limited tax bonds shall be issued pursuant to a resolution adopted at any time, and from time to time, by a two-thirds vote of the board of directors of the agency. Each resolution shall provide for the issuance of bonds in the amounts as may be necessary, until the full amount of bonds authorized have been issued. The full amount of bonds may be divided into two or more series and different dates of payment fixed for the bonds of each series. A bond need not mature on its anniversary date.

26299.064. (a) A resolution providing for the issuance of bonds pursuant to this chapter shall state all of the following:

(1) The purposes for which the proposed debt is to be incurred, which may include all costs and estimated costs incidental to, or connected with, the accomplishment of those purposes, including without limitation, engineering, inspection, legal, fiscal agents, financial consultant and other fees, bond and other reserve funds, working capital, bond interest estimated to accrue during the construction period and for a period not to exceed three years thereafter, and expenses of all proceedings for the authorization, issuance, and sale of the bonds.

(2) The estimated cost of accomplishing those purposes.

(3) The amount of the principal of the indebtedness.

(4) The maximum term the bonds proposed to be issued shall run before maturity, which shall not be beyond the date of termination of the imposition of the retail transactions and use tax.

(5) The maximum rate of interest to be paid, which shall not exceed the maximum rate allowed by Section 53531 of the

Government Code, payable at intervals determined by the agency.

(6) The denomination or denominations of the bonds, which shall not be less than five thousand dollars ($5,000).

(7) The form of the bonds, including, without limitation, registered bonds and coupon bonds, to the extent permitted by federal law, and the form of any coupons to be attached thereto, the registration, conversion, and exchange privileges, if any, pertaining thereto, and the time when all, or any part, of the principal becomes due and payable.

(b) The resolution may also contain any other matters authorized by this chapter or any other law.

26299.065. The agency may provide for the limited tax bonds to bear a variable or fixed interest rate, for the manner and intervals in which the rate shall vary, and for the dates on which the interest shall be payable.

26299.066. (a) In the resolution authorizing the issuance of the bonds, the agency may also provide for the call and redemption of the bonds prior to maturity at the times and prices and upon other terms as specified.

(b) Notwithstanding the provisons of subdivision (a), no bond is subject to call or redemption prior to maturity, unless it contains a recital to that effect or unless a statement to that effect is printed therein.

26299.067. The principal of and interest on the bonds shall be payable in lawful money of the United States at the office of the treasurer of the agency, or at such other places as may be designated, or at both the office and other places at the option of the holders of the bonds.

26299.068. (a) The bonds, or each series thereof, shall be dated and numbered consecutively and shall be signed by the chairperson or vicechairperson of the agency at the treasurer of the agency, and the official seal, if any, of the agency shall be attached.

(b) The interest coupons, if any, of the bonds shall be signed by the treasurer of the agency. All of the signatures and the seal may be printed, lithographed, or mechanically reproduced. However, the bonds shall not be valid or become obligatory for any purpose until manually signed by an authenticating agent duly appointed by the agency or its authorized designee.

(c) If any officer whose signature appears on the bonds or coupons ceases to be that officer before the delivery of the bonds, the officer's signature is as effective as if the officer had remained in office.

26299.069. The bonds may be sold as the agency determines by resolution. The agency may sell the bonds at a price below par, whether by negotiated or public sale.

26299.070. Delivery of any bonds issued pursuant to this chapter may be made at any place either inside or outside the state, and the purchase price may be received in cash or bank credits

26299.071. All accrued interest and premiums received on the sale of the bonds shall be placed in the fund to be used for the

payment of the principal of and interest on the bonds, and the remainder of the proceeds of the bonds shall be placed in the treasury of the agency and applied to secure the bonds or for the purposes for which the debt was incurred. However, when the purposes have been accomplished, any money remaining shall be either (a) transferred to the fund to be used for the payment of principal of and interest on the bonds, or (b) placed in a fund to be used for the purchase of the outstanding bonds in the open market at prices and in the manner, either at public or private sale or otherwise, as determined by the agency. Bonds so purchased shall be cancelled immediately.

26299.072. (a) The agency may provide for the issuance, sale, or exchange of refunding bonds to redeem or retire any bonds issued by the agency upon the terms, at the times and in the manner which it determines.

(b) The proceeds of any bonds issued for the purpose of refunding outstanding bonds may, in the discretion of the agency, be applied to the purchase or retirement at maturity or redemption of outstanding bonds either on their earliest or any subsequent redemption date or upon the purchase or retirement at the maturity thereof and may, pending that application, be placed in escrow to be applied to the purchase or retirement at maturity or redemption on the date as may be determined by the agency.

(c) Pending that use, the escrowed proceeds may be invested and reinvested by the agency or its trustee in obligations of, or guaranteed by, the United States of America, or in certificates of deposit or time deposits secured by obligations of, or guaranteed by, the United States of America, maturing at a time or times appropriate to ensure the prompt payment of principal, interest, and redemption premium, if any, of the outstanding bonds to be so refunded. The interest, income, and profits, if any, earned or realized on the investment may also be applied to the payment of the outstanding bonds to be so refunded. After the terms of the escrow have been fully satisfied and carried out, any balance of the proceeds and interest, income, and profits, if any, earned or realized on the investment thereof may be returned to the agency for use by it in any lawful manner.

(d) The provisions of this chapter for the issuance and sale of bonds apply to the issuance and sale or refunding bonds.

26299.073. (a) Refunding bonds may be issued in a principal amount sufficient to pay all, or any part of, the principal of the outstanding bonds, the premiums, if any, due upon call and redemption thereof prior to maturity, all expenses of the refunding, and either of the following:

(1) The interest upon the refunding bonds from the date of sale thereof to the date of payment of the bonds to be refunded out of the proceeds of the sale of the refunding bonds or to the date upon which the bonds to refunded will be paid pursuant to call or agreement with the holder of the bonds.

(2) The interest upon the bonds to be refunded from the date of sale of the refunding bonds to the date of payment of the bonds to be refunded or to the date upon which the bonds to be refunded will be paid pursuant to call or agreement with the holder of the bonds.

26299.074. (a) The agency may borrow money in anticipation of the sale of bonds which have been authorized pursuant to this chapter, but which have not been sold or delivered, and may issue negotiable bond anticipation notes therefor and may renew the bond anticipation notes from time to time, provided that the maximum maturity of any bond anticipation notes, including the renewals thereof, shall not exceed five years from the date of delivery of the original bond anticipation notes.

(b) The bond anticipation notes, and the interest thereon, may be paid from any money of the agency available therefor, including the revenues from the retail transactions and use tax which may be imposed pursuant to this chapter. If not previously otherwise paid, the bond anticipation notes, or any portion thereof, or the interest thereon, shall be paid from the proceeds of the next sale of the bonds of the agency in anticipation of which the notes were issued.

(c) The bond anticipation notes shall not be issued in any amount in excess of the aggregate amount of the bonds which the agency has been authorized to issue, less the amount of any bonds therefor issued and then outstanding. The bond anticipation notes shall be issued and sold in the same manner as the bonds.

(d) The bond anticipation notes and the resolutions authorizing them may contain any provisions, conditions, or limitations which a resolution of the agency authorizing the issuance of bonds may contain.

26299.075. Any limited tax bonds issued pursuant to this chapter are a legal investment for all trust funds; for the funds of insurance companies, commercial and savings banks, and trust companies; and for state school funds. Whenever any money or funds may, by any law now or hereafter enacted, be invested in bonds of cities, cities and counties, counties, school districts, or other districts within the state, that money or funds may be invested in the bonds issued pursuant to this chapter. Whenever bonds of cities, cities and counties, counties, school districts, or other districts within this state may, by any law now or hereafter enacted, be used as security for the performance of any act or the deposit of any public moneys, the bonds issued pursuant to this chapter may be so used. The provisions of this chapter are in addition to all other laws relating to legal investments and shall be controlling as the latest expression of the Legislature with respect thereto.

26299.076. Notwithstanding any other provision of law:

(a) The agency and its revenues are exempt from all taxes on, or measured by, income.

(b) Bonds issued by the agency are exempt from all property taxation, and the interest on the bonds is exempt from all taxes on income.

(c) All property owned by the agency is exempt from property taxes, assessments, and other public charges secured by liens.

26299.077. (a) Bonds issued pursuant to this chapter do not constitute a debt or liability of the state or of any other public agency, other than the county regional justice facilities financing agency issuing the bonds, or a pledge of the faith and credit of the state or of any other public agency, other than the issuing agency, but shall be payable solely from the funds provided therefor. All of bonds shall contain on the face thereof a statement to the following effect:

"Neither the faith and credit nor the taxing power of the State of California or any public agency, other than the _____ County Regional Justice Facilities Financing Agency, is pledged to the payment of the principal of or interest on this bond."

(b) The issuance of bonds pursuant to this chapter does not in any manner obligate the state or any other public agency thereof to levy, or to pledge any form of, taxation therefor or to make any appropriation for their payment.

26299.078. Neither the members of the board of directors of the agency, nor any person executing the bonds, are liable personally on the bonds, or are subject to any personal liability or accountability by reason of the issuance thereof.

26299.079. Any action or proceeding wherein the validity of the adoption of the retail transactions and use tax ordinance provided for in this chapter or the issuance of any bonds thereunder or any of the proceedings in relation thereto is contested, questioned, or denied, shall be commenced pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure within six months from the date of the election at which the ordinance is approved. Otherwise, the bonds and all proceedings in relation thereto, including the adoption and approval of the ordinance and the retail transactions and use tax provided for therein, shall be held to be valid and in every respect legal and incontestable.

26299.080. The county and each city within the county is authorized to contribute to the agency such amounts as the county and each city, in their discretion, deem appropriate. These amounts may be used by the agency for any lawful purpose. The agency may commit to repay all or any portion of the amounts contributed, together with interest thereon at a rate not exceeding the interest rate specified from time to time in Section 53531 of the Government Code, from any lawful source, including, but not limited to, revenues derived from the retail transactions and use tax which may be imposed pursuant to this chapter.

26299.081. The agency has no power to impose any tax other than the transactions and use tax imposed upon approval of the voters in accordance with this chapter.

26299.082. It is the intent of the Legislature in enacting this chapter to ensure that counties are not deprived of state funds which might be made available to finance needed regional justice facilities,

including adult and juvenile detention facilities, countywide law enforcement facilities, court facilities, other structures necessary or convenient thereto, and prevention programs subsequent to the enactment of this chapter, whether those funds be provided by statute or constitutional amendment.

26299.083. If any provision of this chapter or the application thereof to any person or circumstance is held invalid, that invalidity shall not affect other provisions or applications of the chapter which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable.

SEC. 2. Section 53721.6 is added to the Government Code, to read:

53721.6. (a) A retail transactions and use tax imposed by an ordinance adopted pursuant to Chapter 13.8 (commencing with Section 26299.000) of Part 2 of Division 2 of Title 3 shall be deemed to be a general tax for the purposes of this article unless the transactions and use tax ordinance, or an amendment thereto, either declares the tax to be a special tax or requires the proceeds of the tax to be placed in a fund other than the general fund of the county regional justice facilities financing agency, or a similar fund, and irrevocably restricts the use of the proceeds to specific purposes of more limited scope and type than the general governmental purposes of the county regional justice facilities financing agency set forth in Section 26299.031.

(b) The receipt or retention of the proceeds of the transactions and use tax, imposed by an ordinance adopted pursuant to Chapter 13.8 (commencing with Section 26299.000) of Part 2 of Division 2 of Title 3 by a bond trustee for bonds secured by the proceeds of the tax shall not cause a general tax to become a special tax.

SEC. 3. Section 7252.15 is added to the Revenue and Taxation Code, to read:

7252.15. "District," as used in this part, also means any county regional justice facilities financing agency imposing a tax pursuant to Chapter 13.8 (commencing with Section 26299.000) of Part 2 of Division 2 of Title 3 of the Government Code.

SEC. 4. Section 7252.30 is added to the Revenue and Taxation Code, to read:

7252.30. "District" also means the Orange County Regional Justice Facilities Commission, if authorized to impose transactions and use taxes pursuant to this part.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

[Approved by Governor September 26, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature in enacting this act to provide for an alternative form of charter-party carrier certification for those persons who provide transportation which is incidental to commercial river rafting or skiing. By so doing, the Legislature wishes to ensure that vehicles which provide that transportation are included in the vehicle and driver safety provisions applicable to other charter-party carriers, but are held to a lower required insurance level, not to exceed seven hundred fifty thousand dollars ($750,000), if their vehicles do not travel beyond a 50-mile radius of the point of origin of the carrier's operation.

SEC. 1.5. Section 404 of the Public Utilities Code is amended to read:

404. (a) All fees paid pursuant to this chapter, exclusive of any penalties for delinquency, shall be allowed by the commission in a separate order as an ordinary operating expense for purposes of establishing rates or charges. The commission shall authorize each person or corporation subject to Section 421 or 431 to annually adjust its rates or charges for intrastate services so as to collect from its customers and subscribers an amount sufficient to pay the amount of the fee required by Section 421 or 431 together with the costs of collecting the fee from each customer or subscriber.

(b) The commission shall adopt rules to determine the appropriate level of fees for carriers that provide transportation services incidental to commercial river rafting or skiing.

(c) Each person or corporation subject to Section 421 or 431 may identify separately, on the bill of each customer or subscriber, the amount to be paid by each customer or subscriber for purposes of funding the commission pursuant to this chapter.

(d) Persons or corporations subject to Section 421 or 431 shall pay the fee in accordance with Section 423 or 433 after collection from their customers or subscribers.

(e) This section shall remain in effect only until January 1, 1994, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1994, deletes or extends that date.

SEC. 1.6. Section 404 is added to the Public Utilities Code, to read:

CHAPTER 1337

An act to amend Section 35002 of, and to add Sections 9400.7 and 9400 8 to, the Vehicle Code, relating to vehicles.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 9400.7 is added to the Vehicle Code, to read:

9400.7. (a) Notwithstanding any other provision of law, except for restrictions in existence on June 1, 1989, and except as provided in subdivision (d), so long as any increases in the weight fees required by Section 9400, as enacted by Assembly Bill 471 of the 1989–90 Regular Session, remain in effect, no local agency located within an urbanized area within a county which is required to prepare a congestion management plan pursuant to Section 65089 of the Government Code may restrict the hours of operation on any street or highway which is otherwise open to truck use unless the local agency determines that the restriction is consistent with the adopted congestion management plan and is coordinated with adjacent local agencies so as to not unreasonably interfere with truck operations.

(b) If an inconsistency in access occurs between cities and counties, the inconsistent access provisions of the congestion management plan may be appealed to the California Transportation Commission. The commission shall review the inconsistent access plan and make a finding within 90 days of the appeal being filed. If the commission fails to make a finding within 90 days, the Director of Transportation shall review the issue and make a finding within 30 days.

(c) The access provisions of the congestion management plan shall not go into effect while an appeal is being made. If the commission makes a finding of inconsistency, the access provisions of the congestion management plan shall not become operative.

(d) (1) This section does not apply to Los Angeles County if the City of Los Angeles establishes restrictions on the hours of operation on any street or highway which is otherwise open to truck use.

(2) If the City of Los Angeles establishes restrictions under paragraph (1) and any other city in the County of Los Angeles establishes restrictions on the hours of operation on any street or highway which is otherwise open to truck use, the restrictions in that

other city shall conform to the restrictions imposed by the City of Los Angeles, except that the other city may appeal noncomforming restrictions to the commission pursuant to subdivision (b) for a determination as to whether a variance from this paragraph should be granted.

(3) The Legislature finds and declares that, because of unique and special traffic congestion problems in the County of Los Angeles and in the City of Los Angeles, the general provisions of this section cannot be made applicable to that county.

SEC. 2. Section 9400.8 is added to Vehicle Code, to read:

9400.8. Notwithstanding any other provision of law, if the voters approve Senate Constitutional Amendment 1 of the 1989–90 Regular Session, no local agency may impose a tax, permit fee, or other charge for the privilege of using its streets or highways, other than a permit fee for extra legal loads, after December 31, 1990, unless the local agency had imposed the fee prior to June 1, 1989.

SEC. 3. Section 35002 of the Vehicle Code is amended to read:

35002. (a) This division does not apply to any authorized emergency vehicle owned or operated by a governmental agency while being used in responding to and returning from emergency fire calls, while being moved from place to place in anticipation of emergency fire calls, when used during training in any fire service application or during fire prevention activities, or when vehicles ordinarily used for those purposes are necessarily transported for vehicle maintenance, repair, or service. This subdivision only applies to vehicles purchased prior to January 1, 1991.

(b) All vehicles purchased on and after January 1, 1991, and described in subdivision (a) shall comply with applicable permit requirements adopted by the Department of Transportation pursuant to this code, and shall meet the following requirements:

(1) It shall be the responsibility of the manufacturer to provide a gross axle weight rating (GAWR), gross combined weight rating (GCWR), and gross vehicle weight rating (GVWR), adequate to carry a full water tank with the allowance for personnel and miscellaneous equipment, including hose load, shown in the table below:

	Personnel	Misc. Equipment
Pumpers	1,200 lbs.	2,000 lbs.
Light Attack Apparatus	600 lbs.	900 lbs.
Water towers	1,200 lbs.	1,500 lbs.
Aerial Platforms with ground ladders	1,200 lbs.	2,500 lbs.
Aerial ladders with ground ladders	1,200 lbs.	2,500 lbs.

Fire apparatus shall be weighed and certified by the manufacturer to determine compliance with the table above prior to acceptance

by the purchaser. Apparatus and chassis manufacturers shall furnish certification of the gross vehicle weight rating (GVWR), gross combined weight rating (GCWR), and gross axle weight rating (GAWR) on a nameplate affixed to the apparatus.

(2) Any fire apparatus exceeding 31,000 pounds shall be equipped with a secondary braking system.

(c) Any other vehicle owned, operated, or rented by a state agency, county flood control district, or a flood control and water conservation district, while the vehicle is being used in responding to an emergency, may be operated as required with verbal permission from an authorized officer or employee of the agency having jurisdiction of the highways used, if a written permit for that use is obtained pursuant to Section 35780 within three days following the termination of the emergency. As used in this subdivision, "emergency" means a condition which poses an imminent threat of loss of property or a hazard to life, as determined by the public agency charged with responsibility to respond thereto.

(d) Any governmental agency operating an authorized emergency vehicle or other vehicle subject to this section is liable to the governmental agency having jurisdiction of any state or county highway for any damage to the highway or any highway structure caused by the operation of the vehicle of a size or weight of vehicle or load exceeding that specified in this division. The cost of repair of the damage is a proper charge against the support fund of the governmental agency operating the oversize or overweight vehicle.

(e) Neither the state nor any agency thereof is liable for damage to any highway or highway structure caused by vehicles operated, pursuant to this section, by or on behalf of a local authority or any other local governmental entity.

SEC 4. Nothing in this act shall be construed to allow local governments to impose fees not otherwise authorized by statute.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

Moreover, for other costs, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1338

An act to add Part 3.5 (commencing with Section 51500) to Division 31 of the Health and Safety Code, relating to corrections, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Part 3.5 (commencing with Section 51500) is added to Division 31 of the Health and Safety Code, to read:

PART 3.5. HOUSING FOR PRISON EMPLOYEES

51500. The Legislature finds and declares all of the following:

(a) In the past five years, the Department of Corrections has erected new state prisons in a number of communities.

(b) In most of these communities, there was insufficient housing to accommodate the needs of employees of the Department of Corrections.

(c) Local government officials and administrators from the Department of Corrections assumed that the free marketplace would generate the new housing which would be necessary to accommodate the needs of employees of the Department of Corrections.

(d) However, experience has shown that single-family housing in most locations and multiple-family housing in a number of locations has not materialized.

(e) This resultant shortage of housing has caused a hardship for employees of the Department of Corrections and local government officials, and further caused the delay in opening of at least one major new state prison.

It is now generally recognized that the necessary housing will not become available unless the state agencies responsible for housing assume a proactive role in removing barriers which have made it difficult or impossible for new housing to be developed in these new prison communities.

51501. The Public Employees' Retirement System (PERS) and the State Teachers' Retirement System (STRS) shall join with the Department of Housing and Community Development, the Office of the State Treasurer, the Department of Corrections, and the California Housing Finance Agency to determine what can be done to help produce affordable housing in communities with prisons. The participation of PERS and STRS in this program shall be in a manner as not to in any way jeopardize the fiscal stability of the retirement funds or to abrogate the fiduciary duty of their members.

51502. The California Department of Corrections, in cooperation with all the other state agencies named in Section 51501, shall jointly submit a report, not later than January 15, 1990, to the Governor, the Senate Committee on Rules, the Speaker of the Assembly, and the Joint Legislative Committee on Prison Construction and Operations, on the implementation of this part.

SEC. 2. (a) In enacting this section, the Legislature finds and declares that the decision to postpone the opening of the Pelican Bay State Prison imposed a significant cost burden on the County of Del Norte. County staff necessary to accommodate the added workload from the prison were hired and modifications to the county court facility necessary for the increased security requirements associated with the handling of maximum security prisoners were initiated. Because these expenditures were incurred by Del Norte County with the full expectation of the opening of the prison on time, and because the State of California was able to realize significant savings by postponing the opening of the prison, it is appropriate for the state to offer the county some assistance prior to the date Pelican Bay State Prison is occupied.

(b) (1) There is hereby appropriated from the General Fund the sum of one million one hundred ninety thousand dollars ($1,190,000) to the Controller for allocation as a loan to the County of Del Norte for the purpose of mitigating the impact of the late opening of Pelican Bay State Prison.

(2) The loan made pursuant to this subdivision shall be repaid, in annual installments of at least ten percent of the total amount to be repaid, within a period of not more than 10 years, plus interest at the rate calculated for moneys invested in the Pooled Money Investment Fund. In the event that the Controller certifies that the County of Del Norte is in default on this loan, the Director of Corrections is authorized to reduce amounts owed by the Department of Corrections to the County of Del Norte by up to eighty thousand dollars ($80,000) in a fiscal year, and to transfer the amount thus reduced to the Controller to offset the amount owed by the County of Del Norte on this loan. The first payment on this loan shall be due on July 1, 1991.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure that the housing needs of prison employees and their families are met in areas as soon as possible, and to provide, as soon as possible, reimbursement to Del Norte County for costs incurred by the county due to a postponement in the opening of Pelican Bay State Prison, it is necessary that this act go into immediate effect.

CHAPTER 1339

An act to amend Sections 14501, 14512, 14514.5, 14518, 14520, 14520.5, 14522.5, 14524, 14525, 14525.5, 14529, 14530.5, 14537, 14538, 14539, 14541, 14544, 14551, 14552, 14561, 14562, 14571, 14571.3, 14571.7, 14572, 14572.5, 14573, 14573.5, 14573.6, 14574, 14575, 14580, 14581, and 14585 of, to add Sections 14502.5, 14512.7, and 14530.1 to, to repeal Section 14522 of, and to repeal and add Sections 14523 and 14560 of, the Public Resources Code, relating to beverage containers, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 14501 of the Public Resources Code is amended to read:

14501. The Legislature finds and declares as follows.

(a) Experience in this state and others demonstrates that financial incentives and convenient return systems assure the efficient and large-scale recycling of beverage containers. Accordingly, it is the intent of the Legislature to encourage increased, and more convenient, beverage container redemption opportunities for all consumers. These redemption opportunities shall consist of dealer and other shopping center locations, independent and industry operated recycling centers, curbside programs, nonprofit dropoff programs, and other recycling systems that assure all consumers, in every region of the state, the opportunity to return beverage containers conveniently, efficiently, and economically.

(b) California grocery, beer, soft drink, container manufacturing, labor, agriculture, consumer, environmental, government, citizen, recreational, taxpayer, and recycling groups have joined together in calling for an innovative program to generate large-scale redemption and recycling of beverage containers.

(c) This division establishes a beverage container recycling goal of 80 percent, and when the redemption rate for any one type of beverage container falls below 65 percent, the act provides for an increased refund value.

(d) It is the intent of the Legislature to ensure that every container type proves its own recyclability.

(e) It is the intent of the Legislature to make redemption and recycling convenient to consumers, and the Legislature hereby urges cities and counties, when exercising their zoning authority, to act favorably on the siting of multimaterial recycling centers, reverse vending machines, mobile recycling units, or other types of recycling opportunities, as necessary for consumer convenience, and the overall success of litter abatement and beverage container recycling

in the state.

(f) The purpose of this chapter is to create and maintain a marketplace where it is profitable to establish sufficient recycling centers and locations to provide consumers with convenient recycling opportunities through the establishment of minimum refund values and processing fees and, through the proper application of these elements, to enhance the profitability of recycling centers, recycling locations, and other beverage container recycling programs.

(g) The responsibility to provide convenient, efficient, and economical redemption opportunities rests jointly with manufacturers, distributors, dealers, recyclers, processors, and the Department of Conservation.

(h) It is the intent of the Legislature, in enacting this division, that all empty beverage containers redeemed shall be recycled, and that the responsibilities and regulations of the department shall be determined and implemented in a manner which favors the recycling of redeemed containers, as opposed to their disposal.

(i) Nothing in this division shall be interpreted as affecting the current business practices of scrap dealers or recycling centers, except that, to the extent they function as a recycling center or processor, they shall do so in accordance with this division.

(j) The program established by this division will contribute significantly to the reduction of the beverage container component of litter in this state. .

(b) The program is certified by the department pursuant to Section 14541.5.

(c) The program accepts empty beverage containers from consumers with the intent to recycle them, but may pay the refund value. Except as provided in subdivision (c) of Section 14572, if the program pays the refund value the program shall pay the refund value, for all types of empty beverage containers, regardless of the beverage container's material.

On and before October 31, 1989, every beverage container sold or offered for sale in this state has a minimum refund value of one cent

($0.01), and any applicable redemption bonus, as defined pursuant to Section 14523 and calculated pursuant to Section 14581, as those sections read on January 1, 1989.

On and after November 1, 1989, a beverage container with a capacity of 24 fluid ounces or more shall be considered as two beverage containers for purposes of redemption payments and refund values.

(2) On and after November 1, 1989, but not on or after December 31, 1989, every beverage container sold or offered for sale in this state has a minimum refund value of one cent ($0.01), and any applicable redemption bonus, as defined pursuant to Section 14523 and calculated pursuant to Section 14581, as those sections read on January 1, 1989.

(c) Except as provided in subdivisions (d), (e), and (h), on and after January 1, 1990, every beverage container sold or offered for sale in this state has a minimum refund value of five cents ($0.05) for every two beverage containers redeemed and two cents ($0.02) for every single or unpaired beverage container redeemed in a single transaction

(d) (1) From the effective date of the act amending this section until January 1, 1993, the department shall periodically review the fund and the account to ensure that there are adequate funds in the fund and the account to pay the refund values and other disbursements required by this division.

(A) If the department determines, pursuant to a review made pursuant to paragraph (1) that there may be inadequate funds to pay the refund values and necessary disbursements required by this division, it shall immediately notify the Chairs of the Natural Resources Committees of the Senate, the Natural Resources Committee of the Assembly, the Ways and Means Committee of the Assembly, and the Budget and Fiscal Review Committee of the Senate of the need for urgent legislative action.

(B) On or before 180 days after the notice is sent pursuant to paragraph (A), the department may eliminate expenditures from the account as necessary, according to the order of priorities specified in Section 14581, to ensure there are adequate funds in the fund and the account to pay the refund values and other disbursements required by this division.

(C) If the Legislature fails to act within 180 days after receiving the notice specified in paragraph (A) to ensure there are adequate funds to pay the refund values and other disbursements required in this division, the department may increase the redemption payment by an additional one-half cent ($0.005) for a period of not more than 120 days. In addition, the department may reduce the total amount of the refund value by one-half cent ($0.005) per beverage container

until the Legislature acts to protect the solvency of the funds and the account or until the reduction is no longer needed.

(2) On and after October 1, 1992, the department shall determine and announce whether a redemption payment of two cents ($0.02) per beverage container is sufficient to refund the refund values required pursuant to subdivision (c), for each three-month period.

If the department determines in a report issued pursuant to this paragraph, that the two cents ($0.02) per beverage container redemption payment is sufficient to pay the refund values as required pursuant to subdivision (c), then the redemption payment shall not be increased until the department determines that an increase is needed. If the department determines that an increase in the redemption payment is needed pursuant to paragraph (2) to pay the refund value specified in subdivision (c), the redemption payment shall be two and one-half cents ($0.025) 90 days after the department makes this determination. The department shall provide at least 60 days' notice of redemption payment increases to distributors. This redemption payment increase shall not be subsequently decreased.

(3) If, after the department has increased the redemption payment pursuant to paragraph (2), the department determines that there are inadequate funds to pay the refund values and disbursements required by this division, the department may continue the reduction in the total amount of refund value pursuant to subparagraph (C) of paragraph (1) until the Legislature acts to protect the solvency of the fund and the account or until the reduction in the refund value is no longer needed.

(e) On and after January 1, 1993, every beverage container sold or offered for sale in this state has a minimum refund value of five cents ($0.05) for every beverage container redeemed, except as provided in subdivision (h), if the redemption rate for that type of beverage container is less than 65 percent, as determined by the procedure set forth in subdivision (f).

(f) Except as provided in subdivision (h), on and after January 1, 1993, every distributor shall pay the department for deposit into the fund, a minimum redemption payment of three cents ($0.03) for every beverage container sold or offered for sale in this state if both of the following conditions are met for that specific type of beverage container:

(1) For the reporting period beginning January 1, 1992, and ending June 30, 1992, the redemption rate determined pursuant to Section 14551 for that type of beverage container is less than 65 percent.

(2) The average redemption rate for the highest two of any four reporting periods, the fourth period of which is the period ending June 30, 1992, is less than 65 percent.

(g) Except as provided in subdivisions (d) and (h), once any redemption payment is established for any type of beverage container, the redemption payment shall not be decreased based

upon the redemption rate.

(h) The redemption payment for a specific type of beverage container established pursuant to subdivision (f) shall be decreased to not less than two and one-half cents ($0.025) per beverage container if the redemption rate for that type of beverage container is 80 percent or more during all of four consecutive reporting periods and the refund value for that type of beverage container shall be five cents ($0.05) for every two beverage containers redeemed and two cents ($0.02) for every single or unpaired beverage container redeemed in a single transaction. The decrease shall occur six months following the end of the fourth reporting period. If the redemption rate for that type of beverage container thereafter falls below 65 percent for any two of any four consecutive reporting periods, the redemption payment for that type of beverage container shall be increased to three cents ($0.03) per container until a redemption rate of 80 percent or more, during all of four consecutive reporting periods, is established for that type of beverage container and the refund value for that type of beverage container shall be five cents ($0.05) for each beverage container redeemed.

(i) This section does not apply to any refillable beverage container.

(j) (1) Any certified processor or recycling center who submits a claim to the department or a processor, respectively, for a refund value established or revised by the act amending this section during the 1989–90 Regular Session, on any beverage container purchased by the processor or received by the recycling center before the effective date of the act amending this section at that session is guilty of fraud, and the department may impose a civil penalty of up to ten thousand dollars ($10,000) upon the processor or recycling center and may revoke the certification of the processor or recycling center

(2) Each certified processor and recycling center shall submit an affidavit to the department within 15 days of the effective date of the act amending this section at the 1989–90 Regular Session. The affidavit shall attest that the processor or recycling center will not submit a claim for a refund value established by the act amending this section, which is higher than the refund value actually paid by the processor or recycler on any beverage container purchased or received before the effective date of the act amending this section.

14561. (f) Any container labeled with the message specified in subdivision (a) or (b) shall have the minimum redemption payment established pursuant to Section 14560, which shall be paid by the distributor to the department pursuant to Section 14574.

SEC. 29. Section 14562 of the Public Resources Code is amended to read:

14562. The Legislature hereby finds and declares that the minimum redemption payment established by this article is a regulatory fee collected for the purpose of assuring the return for recycling of a greater percentage of the beverage containers sold in this state, and is beneficial to the beverage industry by assuring the more reliable availability of raw materials. Accordingly, the payments of redemption payments to the department for deposit in the California Beverage Container Recycling Fund are not the "proceeds of taxes," as that term is used in subdivision (c) of Section 8 of Article XIII B of the California Constitution, and the disbursement or encumbrance of money in the fund is not subject to the limitations imposed by that article.

SEC. 30. Section 14571 of the Public Resources Code is amended to read:

(b) For purposes of this section, if the recycling center is staffed and is not a reverse vending machine, a center is "open for business" if all of the following requirements are met:

(1) An employee of the certified recycling center or location is present during the hours of operation and available to the public to accept containers and to pay the refund values.

(2) A sign having a minimum size of two feet by two feet is posted at the certified recycling center or location indicating that the center or location is open. Where allowed by local zoning requirements or where zoning restrictions apply, the sign shall be of the maximum allowable size.

(3) The prices paid, by weight or per container, are posted at the location.

(c) For the purpose of this section, if the recycling center consists of reverse vending machines or other unmanned automated equipment, the center is "open for business" if the equipment is properly functioning, accepting all types of empty beverage containers at the recycling location, and paying posted refund values no less than the minimums required by this division.

SEC. 30.5. Section 14571 of the Public Resources Code is amended to read:

14571. (a) Except as otherwise provided in this chapter, there shall be at least one certified recycling center or location within every convenience zone which accepts and pays the refund value at one location for all types of empty beverage containers during at least 30 hours per week with a minimum of five hours of operation occurring during periods other than from Monday to Friday, from 9:00 a.m. to 5:00 p.m.

(b) For purposes of this section, if the recycling center is staffed and is not a reverse vending machine, a center is "open for business" if all of the following requirements are met:

(1) An employee of the certified recycling center or location is present during the hours of operation and available to the public to accept containers and to pay the refund values.

(2) A sign having a minimum size of two feet by two feet is posted at the certified recycling center or location indicating that the center or location is open. Where allowed by local zoning requirements or where zoning restrictions apply, the sign shall be of the maximum allowable size.

(3) The prices paid, by weight or per container, are posted at the location.

(c) Except as provided in subdivision (d), for the purpose of this section, if the recycling center consists of reverse vending machines or other unmanned automated equipment, the center is "open for

business" if the equipment is properly functioning, accepting all types of empty beverage containers at the recycling location, and paying posted refund values no less than the minimums required by this division.

(d) On and after April 1, 1990, if a recycling center consists of reverse vending machines or other automated equipment, the recycling center is open for business if the equipment is properly functioning, and accepts all types of empty beverage containers at one physical recycling location within the recycling location.

SEC. 31. Section 14571.3 of the Public Resources Code is amended to read:

14571.3. (a) The department shall continuously assist any certified recycler to achieve greater service to the public in an economical and cost-effective manner. This assistance shall include, but not be limited to, advice on all of the following:

(1) Methods to enhance public participation in recycling.

(2) The most beneficial location, siting, and image of a recycling location.

(3) Methods to reduce costs and optimize efficiencies of existing resources.

(b) The department shall conduct regular, unannounced inspections of certified recycling centers for the purpose of determining that the requirements of this division are satisfied. The department shall assess civil penalties pursuant to subdivision (c) of Section 14591 for violations at certified recycling centers.

SEC. 32. Section 14571.7 of the Public Resources Code is amended to read:

14571.7. On or before March 1, 1989, in any convenience zone where a recycling location or locations were initially established, but where the location or locations cease to operate in accordance with Section 14571, the department shall notify all dealers within that convenience zone that a recycling location is required to be established within 120 days. After March 1, 1989, the department shall notify all dealers within that zone that a recycling location is required to be established within 90 days. The department shall offer a convenience incentive payment to one recycling location only. If, within 45 days of the notification, no recycling location has been established which satisfies the requirements of Section 14571, the department shall notify all dealers within that zone, and one or more dealers within that zone shall establish, or cause to be established, a recycling location. If, within 120 days of the initial notification, no recycling location has been established, all dealers within that zone shall, until a recycling location has been established, do one of the following:

(a) Offer to redeem all types of beverage containers.

(b) Pay to the fund the sum of one hundred dollars ($100) per day until a recycling location is established.

SEC. 32.5. Section 14571.7 of the Public Resources Code is amended to read:

14571.7. In any convenience zone where a recycling location or locations were initially established, but where the location or locations cease to operate in accordance with Section 14571, and in any convenience zone designated after January 1, 1990, the department shall notify all dealers within that convenience zone that a recycling location is required to be established within 90 days. The department shall offer a convenience incentive payment to one recycling location only. If, within 45 days of the notification, no recycling location has been established which satisfies the requirements of Section 14571, the department shall notify all dealers within that zone, and one or more dealers within that zone shall establish, or cause to be established, a recycling location.

SEC. 33. Section 14572 of the Public Resources Code is amended to read:

14572. (a) A certified recycling center shall accept from any consumer or dropoff or collection program any empty beverage container, and shall pay to the consumer or dropoff or collection program the refund value of the beverage container. The center may pay the refund value based on the weight of returned containers.

(b) Any recycling center, nonprofit dropoff program, or processor which was certified by the department as of June 30, 1988, which was in existence on January 1, 1986, and which refused, as of January 1, 1986, to accept at a particular location a certain type of empty beverage container may continue to refuse to accept at the location the type or types of empty beverage containers that the recycling center, nonprofit dropoff program, or processor refused to accept as of January 1, 1986. Any certified recycling center which refuses, pursuant to this subdivision, to accept a certain type or types of empty beverage containers is not eligible to receive convenience incentive payments unless the center agrees to accept all types of empty beverage containers. This subdivision does not preclude the certified recycling center from receiving a convenience incentive payment for beverage containers redeemed at locations which do accept all types of containers. Any recycling center which is certified after June 30, 1988, shall accept all beverage container types after January 1, 1989.

(c) On January 1, 1990, the department shall terminate any authorizations for retention of the redemption bonus made before January 1, 1990, pursuant to any other provision of law.

(d) Only a certified recycling center may pay the refund value to consumers, or dropoff or collection programs. No person shall pay a noncertified recycling center an amount which exceeds the scrap value for aluminum, as listed in the American Metals Market publication, or an amount for glass and plastic which exceeds the amount identified as the portion of the processing fee which are the costs for the recycler, as specified, in paragraphs (1) and (2) of subdivision (a) of Section 14571, as determined by the department.

(e) This section does not affect curbside programs under contract with cities or counties.

SEC. 34. Section 14572.5 of the Public Resources Code is amended to read:

14572.5. A certified recycling center, other than a reverse vending machine, shall accept from any consumer or any dropoff or collection program and pay the applicable deposit for any refillable empty beer and other malt beverage container. The certified recycling center shall return, or cause to be returned, the refillable beer and other malt beverage container to the beer and other malt beverage distributor or any willing purchaser, who shall then pay the deposit to the center. The beer and other malt beverage distributor or other purchaser shall also negotiate a handling fee with the recycling center for the return of these containers.

SEC. 35. Section 14573 of the Public Resources Code is amended to read:

14573. The department shall pay to a processor, for every empty beverage container received by the processor from a certified recycling center, curbside program, dropoff or collection program, or nonprofit dropoff program, with proof of the delivery, the sum of all of the following amounts:

(a) The refund value.

(b) One and three-quarter percent of the refund value for administrative costs.

(c) The processing fee established pursuant to Section 14575.

The department shall make this payment within two working days of the date the department is notified of the delivery or within the time determined by the department to be necessary and adequate. The payment shall be made in the form and manner which the department may prescribe.

SEC. 36. Section 14573.5 of the Public Resources Code is amended to read:

14573.5. Except as provided in Section 14573.6, a processor shall pay to a certified recycling center, dropoff or collection program, curbside program, or nonprofit dropoff program, for all types of empty beverage containers, by type of beverage container, received by the processor from recycling center, curbside program, dropoff or collection program, or nonprofit dropoff program, the sum of all of the following amounts:

(a) The refund value.

(b) One-half of one percent of the refund value for administrative costs.

(c) The portion of the processing fee established pursuant to Section 14575 representing the actual cost and financial return incurred by the recycling center, as determined by the department.

The processor shall make this payment within two working days of the date the processor receives these empty beverage containers, or within the time which the department determines to be necessary and adequate. A processor may authorize a redemption center to crush and compact beverage containers before the processor receives the containers.

SEC. 37. Section 14573.6 of the Public Resources Code is amended to read:

14573.6. No dropoff or collection program shall pay any refund value to the consumer, and a dropoff or collection program is not eligible to receive any sum paid pursuant to Section 14573 or 14573.5 for administrative costs.

SEC. 38. Section 14574 of the Public Resources Code is amended to read:

14574. (a) A distributor of beer and other malt beverages shall pay to the department the redemption payment for every beverage container, other than a refillable beverage container, sold or transferred to a dealer, less one-half of 1 percent for the distributor's administrative costs.

The payment shall be made not later than October 15, 1987, for labeled beverage containers sold or transferred on or before September 15, 1987; not later than November 15, 1987, for labeled beverage containers sold or transferred after September 15, 1987, but on or before September 30, 1987; not later than December 1, 1987, for labeled beverage containers sold or transferred between October 1, 1987, and October 31, 1987: not later than January 1, 1988, for labeled beverage containers sold or transferred between November 1, 1987, and November 30, 1987; and similarly not later than the first day of the second following month for each successive month.

(b) A distributor of carbonated mineral and soda waters and similar carbonated soft drinks in liquid form shall pay to the department the redemption payment for every beverage container, other than a refillable beverage container, sold or transferred to a dealer, less one-half of 1 percent for the distributor's administrative costs, within 40 days of any sale, or in the form and manner which the department may prescribe. No redemption payment applies to, or shall be paid for, any refillable beverage container.

(c) A distributor of wine and distilled spirit coolers shall pay to the department the redemption payment for every beverage container, other than a refillable beverage container, sold or transferred to a dealer on and after January 1, 1990, less one-half of 1 percent for the distributor's administrative costs, within 40 days of any sale, or in the form and manner which the department may prescribe. No redemption payment applies to, or shall be paid for, any refillable beverage container.

(d) Notwithstanding subdivisions (b) and (c), and upon approval of the department, a distributor of carbonated mineral and soda waters and similar carbonated soft drinks in liquid form, or a distributor of wine and distilled spirit coolers, may make payments in accordance with subdivision (a). The department shall prescribe the terms and conditions for payments pursuant to subdivision (a).

SEC. 39. Section 14575 of the Public Resources Code is amended to read:

14575. (a) If any type of empty beverage container with a refund value established pursuant to Section 14560 has a scrap value less than

the sum of paragraphs (1) and (2), the department shall establish a processing fee for the container, by the type of the material of the container, at least equal to the difference between the scrap value offered by a statistically significant sample of container manufacturers, beverage manufacturers, or willing purchasers, for each container sold by the beverage manufacturer, and the sum of both of the following:

(1) The actual cost of receiving, handling, processing, storing, transporting, and maintaining equipment for each container sold for recycling or, only if the container is not recyclable, for disposal, calculated pursuant to subdivision (b).

(2) A reasonable financial return for recycling centers and processors, calculated pursuant to subdivision (b).

(b) The department shall calculate a statewide average value for the amounts specified in paragraphs (1) and (2) of subdivision (a) for each type of material of the container sold and the processing fee specified in subdivision (a) on or before October 1, 1990, or whenever the statewide average scrap value changes by more than 15 percent, or more frequently if necessary, based on audited surveys of the costs specified in subdivision (a) at existing certified recycling centers, reverse vending machines, and processors, with standardized modifications for transportation distances and factors specific to a particular region, as determined by the department, and only if the container is not recyclable, local disposal fees. The processing fee shall be calculated in a manner which furthers the purposes of this division and the fee shall be sufficient to establish sufficient recycling locations and processors to achieve the goals established pursuant to subdivision (c) of Section 14501 and Section 14571. Sixty days prior to the calculation of the processing fee, the department shall submit a report to the Chairman of the Assembly Natural Resources Committee and the Chairman of the Senate Natural Resources and Wildlife Committee. The report shall include a summary of the fluctuations of costs and scrap values necessitating the recalculation. The report shall also highlight changes in markets, new technologies, and other business and economic factors.

(c) (1) Except as provided in paragraph (2), every beverage manufacturer shall pay to the department the applicable processing fee for each container sold or transferred to a distributor or dealer within 40 days of the sale in the form and in the manner which the department may prescribe.

(2) Notwithstanding Section 14506, with respect to the payment of processing fees for beer and other malt beverages, the beverage manufacturer shall be deemed to be the person or entity named on the certificate of compliance issued pursuant to Section 23671 of the Business and Professions Code. If the department is unable to collect the processing fee from the person or entity named on the certificate of compliance, the department shall give written notice by certified mail to that person or entity. The notice shall state that the processing fee shall be remitted in full within 30 days of issuance of

the notice or the person or entity shall not be permitted to offer that beverage brand for sale within the state. If the person or entity fails to remit the processing fee within 30 days of issuance of the notice, the department shall notify the Department of Alcoholic Beverage Control that the certificate holder has failed to comply, and the Department of Alcoholic Beverage Control shall prohibit the offering or sale of that beverage brand within the state.

The department shall enter into a contract with the Department of Alcoholic Beverage Control, pursuant to Section 14536.5, concerning the implementation of this paragraph, which shall include a provision reimbursing the Department of Alcoholic Beverage Control for its costs incurred in implementing this paragraph.

(3) The department shall pay the processing fees collected on redeemed containers to processors, in the same manner as it pays refund values pursuant to Sections 14573 and 14573.5. The department shall pay the processing fees collected on unredeemed containers into the Redemption Account created pursuant to Section 14580. The department shall not use processing fees collected on unredeemed beverage containers to pay all or a portion of the processing costs determined pursuant to subdivision (a). The processor shall pay the recycling center that portion of the processing fee representing the actual cost and financial return incurred by the recycling center, as specified in subdivision (a).

(d) When assessing processing fees pursuant to subdivision (b), the department shall assess the processing fee on each container sold, by the type of material of the container, assuming that every container sold will be redeemed for recycling, whether or not the container is actually recycled. When calculating and assessing processing fees the department also shall not assume that redemption bonuses will be kept by recycling centers or locations.

(e) If there are no recycling locations within a convenience zone meeting the requirements of Section 14571, the department shall examine the level of the scrap values and determine whether the department is in compliance with this section. If the department is not in compliance with this section, the department shall recalculate the processing fee pursuant to this section.

(f) The container manufacturer, or a designated agent, shall pay to, or credit, the account of the beverage manufacturer in an amount equal to the processing fee. The payment or credit shall be made no later than the date upon which the container manufacturer, or a designated agent, submits the invoice to the beverage manufacturer.

SEC. 39.5. Section 14575 of the Public Resources Code is amended to read.

14575. (a) If any type of empty beverage container with a refund value established pursuant to Section 14560 has a scrap value less than the sum of paragraphs (1) and (2), the department shall establish a processing fee for the container, by the type of the material of the container, at least equal to the difference between the scrap value

offered by a statistically significant sample of container manufacturers, beverage manufacturers, or willing purchasers, for each container sold by the beverage manufacturer, and the sum of both of the following:

(1) The actual cost of receiving, handling, processing, storing, transporting, and maintaining equipment for each container sold for recycling or, only if the container is not recyclable, for disposal, calculated pursuant to subdivision (b).

(2) A reasonable financial return for recycling centers and processors, calculated pursuant to subdivision (b).

(b) The department shall calculate a statewide average value for the amounts specified in paragraphs (1) and (2) of subdivision (a) for each type of container material sold and the processing fee specified in subdivision (a) in accordance with the following schedule:

(1) The statewide average value and processing fee in effect on January 1, 1990, shall remain in effect until October 1, 1991.

(2) On or before October 1, 1991, and on or before October 1 annually thereafter, or whenever the statewide scrap value changes by more than 15 percent, the department shall calculate a new average value and processing fee which shall be effective on October 1 of that same year.

(3) On or before October 1, 1990, the department shall calculate a new statewide average value and processing fee which shall be made public on or before that date, and which shall be done solely for information purposes and not for implementing this division. It is the intent of the Legislature that the 1990 informational calculation will serve to prepare interested parties and the public generally for the effect of a new statewide average value and processing fee to be implemented in 1991. It is the further intent of the Legislature that the 1991 calculation of the statewide average value and processing fee shall use new-to-date data and therefore is not necessarily identical to the 1990 calculation. Likewise it is the intent of the Legislature that each succeeding year's calculation shall use up-to-date data and may differ from the previous year's calculation.

(c) The calculations of the statewide average value and processing fee made pursuant to subdivision (b) shall be based on audited surveys of the costs specified in subdivision (a) at existing certified recycling centers, reverse vending machines, and processors, with standardized modifications for transportation distances and factors specific to a particular region, as determined by the department, and only if the container is not recyclable, local disposal fees. The processing fee shall be calculated in a manner which furthers the purposes of this division and the fee shall be sufficient to establish sufficient recycling locations and processors to achieve the goals established pursuant to subdivision (c) of Section 14501 and Section 14571. Sixty days prior to the annual calculation of the processing fee, the department shall submit a report to the Chairman of the Assembly Natural Resources Committee and the

Chairman of the Senate Natural Resources and Wildlife Committee. The report shall include a summary of the fluctuations of costs and scrap values necessitating the recalculation. The report shall also highlight changes in markets, new technologies, and other business and economic factors. The report shall include a description of the average per container statewide costs of recycling beverage containers, by each material type, for the following recycling systems, including a description of any assumptions used to allocate undifferentiated costs among material types, and a brief statement of the reason for the adoption of these assumptions:

(1) Automated recycling centers.

(2) Staffed recycling centers.

(3) Recycling centers established since September 29, 1988.

(4) Recycling centers established prior to September 29, 1988.

(5) Recyclers receiving convenience incentive payments, as feasible.

(6) Nonprofit dropoff programs.

(7) Curbside recycling programs.

(d) (1) Except as provided in paragraph (2), every beverage manufacturer shall pay to the department the applicable processing fee for each container sold or transferred to a distributor or dealer within 40 days of the sale in the form and in the manner which the department may prescribe.

(2) Notwithstanding Section 14506, with respect to the payment of processing fees for beer and other malt beverages, the beverage manufacturer shall be deemed to be the person or entity named on the certificate of compliance issued pursuant to Section 23671 of the Business and Professions Code. If the department is unable to collect the processing fee from the person or entity named on the certificate of compliance, the department shall give written notice by certified mail to that person or entity. The notice shall state that the processing fee shall be remitted in full within 30 days of issuance of the notice or the person or entity shall not be permitted to offer that beverage brand for sale within the state. If the person or entity fails to remit the processing fee within 30 days of issuance of the notice, the department shall notify the Department of Alcoholic Beverage Control that the certificate holder has failed to comply, and the Department of Alcoholic Beverage Control shall prohibit the offering or sale of that beverage brand within the state.

The department shall enter into a contract with the Department of Alcoholic Beverage Control, pursuant to Section 14536.5, concerning the implementation of this paragraph, which shall include a provision reimbursing the Department of Alcoholic Beverage Control for its costs incurred in implementing this paragraph.

(3) The department hall pay the processing fees collected on redeemed containers to processors, in the same manner as it pays refund values pursuant to Sections 14573 and 14573.5. The department shall pay the processing fees collected on unredeemed

containers into the Redemption Account created pursuant to Section 14580. The department shall not use processing fees collected on unredeemed beverage containers to pay all or a portion of the processing costs determined pursuant to subdivision (a). The processor shall pay the recycling center that portion of the processing fee representing the actual cost and financial return incurred by the recycling center, as specified in subdivision (a).

(e) When assessing processing fees pursuant to subdivision (b), the department shall assess the processing fee on each container sold, by the type of material of the container, assuming that every container sold will be redeemed for recycling, whether or not the container is actually recycled. When calculating and assessing processing fees the department also shall not assume that redemption bonuses will be kept by recycling centers or locations.

(f) If there are no recycling locations within a convenience zone meeting the requirements of Section 14571, the department shall examine the level of the scrap values and determine whether the department is in compliance with this section. If the department is not in compliance with this section, the department shall recalculate the processing fee pursuant to this section.

(g) The container manufacturer, or a designated agent, shall pay to, or credit, the account of the beverage manufacturer in an amount equal to the processing fee. The payment or credit shall be made no later than the date upon which the container manufacturer, or a designated agent, submits the invoice to the beverage manufacturer.

SEC. 40. Section 14580 of the Public Resources Code is amended to read·

14580. (a) The department shall deposit all amounts paid as redemption payments by distributors pursuant to Section 14574, processing fees paid pursuant to Section 14575, civil penalties or fines paid pursuant to Section 14541 or subdivision (c) of Section 14591, and all other revenues received into the California Beverage Container Recycling Fund, which is hereby created in the State Treasury. Notwithstanding Section 13340 of the Government Code, the moneys in the California Beverage Container Recycling Fund are hereby continuously appropriated to the department for expenditure without regard to fiscal year for the following purposes:

(1) The payment of refund values to processors pursuant to Section 14573.

(2) For a reserve for contingencies, which shall not be greater than an amount equal to one-fourth of the total amount paid to processors pursuant to Section 14573 during the preceding calendar year, plus any interest earned on that amount

(b) The moneys in the fund may be expended by the department for the administration of this division only upon appropriation by the Legislature in the annual Budget Act.

(c) After all of the expenditures pursuant to subdivisions (a) and (b) have been made, the balance remaining in the fund shall be deposited in the Redemption Account, which is hereby created as a

subaccount in the California Beverage Container Recycling Fund. Notwithstanding Section 13340 of the Government Code, the moneys in the Redemption Account are hereby continuously appropriated to the department, without regard to fiscal year, for the purposes specified in Section 14581.

SEC. 41. Section 14581 of the Public Resources Code is amended to read:

14581. The department shall periodically calculate and pay the refund values required in subdivisions (a), (b), (c), (e), and (h) of Section 14560 and may thereafter expend any additional funds remaining in the account, as specified in subdivision (c) of Section 14580, in the following order of priority:

(a) The department shall annually expend eight million dollars ($8,000,000) of the amount deposited in the account for urban, rural, aquatic, and recreational litter abatement and recycling activities, and for grants with statewide private nonprofit entities for recycling information, education, and promotion. The eight million dollars ($8,000,000) which the department may expend beginning January 1, 1990, pursuant to this paragraph, is a base amount, and, on and after January 1, 1991, the department shall adjust this base amount annually to reflect increases or decreases in the cost of living, as measured by the Department of Labor or a successor agency of the United States government. The funds for urban, rural, and recreational litter abatement and recycling activities shall be expended in the form of grants issued to local conservation organizations. Three-quarters of this amount shall be expended in the form of grants, as specified by the department, to certified community conservation corps, either existing or those established in the future, designated by a city or a city and county to perform litter abatement, recycling, and related activities, if the city or the city and county has a population, as determined by the last federal census, of more than 250,000 persons. Any grants provided pursuant to this paragraph shall not comprise more than 75 percent of the annual budget of a community conservation corps.

(b) The department may expend up to thirteen million dollars ($13,000,000) of the amount deposited in the account for making convenience incentive payments, pursuant to Section 14585, until January 1, 1993.

(c) After making the expenditures specified in subdivisions (a) and (b), the department may annually expend, until June 30, 1990, up to two million dollars ($2,000,000) for contracts with certified recycling centers located in convenience zones for advertising and promotion.

SEC. 41.5. Section 14581 of the Public Resources Code is amended to read:

14581. The department shall periodically calculate and pay the refund values required in subdivisions (a), (b), (c), (e), and (h) of Section 14560 and may thereafter expend any additional funds remaining in the account, as specified in subdivision (c) of Section

14580, in the following order of priority:

(a) The department shall annually expend eight million dollars ($8,000,000) of the amount deposited in the account for urban, rural, aquatic, and recreational litter abatement and recycling activities, and for grants with statewide private nonprofit entities for recycling information, education, and promotion. The eight million dollars ($8,000,000) which the department may expend beginning January 1, 1990, pursuant to this paragraph, is a base amount, and, on and after January 1, 1991, the department shall adjust this base amount annually to reflect increases or decreases in the cost of living, as measured by the Department of Labor or a successor agency of the United States government. The funds for urban, rural, and recreational litter abatement and recycling activities shall be expended in the form of grants issued to local conservation organizations. Three-quarters of this amount shall be expended in the form of grants, as specified by the department, to certified community conservation corps, either existing or those established in the future, designated by a city or a city and county to perform litter abatement, recycling, and related activities, if the city or the city and county has a population, as determined by the last federal census, of more than 250,000 persons. Any grants provided pursuant to this paragraph shall not comprise more than 75 percent of the annual budget of a community conservation corps.

(b) The department may expend up to thirteen million dollars ($13,000,000) of the amount deposited in the account for making convenience incentive payments, pursuant to Section 14585, until January 1, 1994.

(c) After making the expenditures specified in subdivisions (a) and (b), the department may annually expend, until June 30, 1990, up to two million dollars ($2,000,000) for contracts with certified recycling centers located in convenience zones for advertising and promotion.

SEC. 42. Section 14585 of the Public Resources Code is amended to read:

14585. (a) The department shall develop guidelines and criteria for issuing convenience incentive payments solely to assist in establishing recycling locations in convenience zones without sufficient recycling locations pursuant to Chapter 6 (commencing with Section 14570). The department may establish a convenience incentive payment if the payment meets all of the following:

(1) The payment shall be set by the department at the minimum level determined by the department to be sufficient to establish convenience in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(2) The department may revise the payment upon finding that the previous payment is inadequate, and shall revise the payment upon finding that the previous payment is excessive, to establish convenience in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(3) The department may require the operators of the recycling locations to maintain daily records of redemptions at the locations, and may require the locations to take any other steps necessary for the department to ensure that the operators do not receive an excessive convenience incentive payment.

(4) The department may make convenience incentive payments to the operators of recycling locations through processors or directly, at the department's discretion, in the same manner as the department pays refund values and processing fees to recycling locations.

(5) On and after January 1, 1989, the department shall not make convenience incentive payments to more than one certified recycling center in a convenience zone. When two or more convenience zones overlap by more than one-half mile, the department shall offer a single convenience incentive payment to cover the affected convenience zones. This convenience incentive payment shall not be split between the affected zones. The department shall stop making convenience incentive payments if another recycling center is willing to certify operation within the convenience zone without receiving payments pursuant to this section.

(6) If a convenience incentive payment to a certified recycling center located in a convenience zone exceeds eight hundred dollars ($800) per month, the department shall review the convenience zone to determine if the convenience zone should be exempted pursuant to Section 14571.8.

(b) The department shall conduct a study on use of each of the payment mechanisms authorized by subdivision (b) and on use of bonds, grants, and loans authorized by Section 14584 and report to the Legislature on or before January 1, 1989, on the effectiveness of each of these mechanisms.

(c) The department may authorize prepayment of convenience incentive payments to recycling centers pursuant to subdivision (a) for periods of up to one year at a time.

SEC. 42.5 Section 14585 of the Public Resources Code is amended to read:

14585. (a) The department shall develop guidelines and criteria for issuing convenience incentive payments solely to assist in establishing recycling locations in convenience zones without sufficient recycling locations pursuant to Chapter 6 (commencing with Section 14570). The guidelines and criteria shall determine the need for a convenience incentive payment for each eligible recycling location based upon the difference between the average monthly recycling location costs and the average monthly recycling location revenues. In calculating average monthly recycling location costs, the department shall calculate adminstrative and overhead costs as an amount which does not exceed the total of 40 percent of the average monthly recycling location's wages and benefits, 40 percent of the average monthly recycling location's costs for labor for

maintenance or machine leasing costs, and 30 percent of the average monthly recycling location's transportation costs.

(b) The department may establish a convenience incentive payment if the payment meets all of the following:

(1) The payment shall be set by the department at the minimum level determined by the department to be sufficient to establish convenience in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(2) The department may revise the payment upon finding that the previous payment is inadequate, and shall revise the payment upon finding that the previous payment is excessive, to establish convenience in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(3) The department may require the operators of the recycling locations to maintain daily records of redemptions at the locations, and may require the locations to take any other steps necessary for the department to ensure that the operators do not receive an excessive convenience incentive payment.

(4) The department may make convenience incentive payments to the operators of recycling locations through processors or directly, at the department's discretion, in the same manner as the department pays refund values and processing fees to recycling locations.

(5) On and after January 1, 1989, the department shall not make convenience incentive payments to more than one certified recycling center in a convenience zone. When two or more convenience zones overlap by more than one-half mile, the department shall offer a single convenience incentive payment to cover the affected convenience zones. This convenience incentive payment shall not be split between the affected zones. The department shall stop making convenience incentive payments if another recycling center is willing to certify operation within the convenience zone without receiving payments pursuant to this section.

(6) On and after October 1, 1990, the department shall pay convenience incentive payments in the following order of priority:

(A) The department shall pay convenience incentive payments to not more than 10 percent of the recycling locations located in convenience zones designated as low-population density zones by the department.

(B) The department shall pay convenience incentive payments to the remainder of eligible recycling locations which have the highest average monthly volume, by making payments based on each recycling location average monthly volume, commencing with the recycling location with the highest average monthly volume, until the funds available for convenience incentive payments are exhausted.

(7) Until January 1, 1993, the department may provide convenience incentive payments, as needed, to eligible recycling

locations, subject to the availability of funds and the requirements of Chapter 6 (commencing with Section 14570). The department shall annually, or more frequently, review the convenience incentive payments and may increase or reduce the convenience payments if the department determines that the initial commitment of funds is insufficient in excess of those funds which are necessary to provide the opportunity to redeem beverage containers in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(8) Except as provided in subparagraph (A) of paragraph (6) and notwithstanding subdivision (a), on and after October 1, 1990, the department shall not make a convenience incentive payment which exceeds seven cents ($0.07) per beverage container for the average monthly amount of beverage containers redeemed by a recycling location receiving convenience incentive payments.

(9) Except as provided in subparagraph (A) of paragraph (6), the department shall not make a convenience incentive payment which exceeds one thousand one hundred forty-five dollars ($1,145) to a recycling location per month.

(10) On or before January 1, 1993, the department may estimate the amount of the total convenience incentive payment available to an eligible recycling center through December 31, 1992, and notify the certified recycling center of that amount. The department may pay the amount of the convenience incentive payment estimated pursuant to this paragraph to the recycling center monthly, until December 31, 1992.

(c) If there are insufficient funds for making convenience incentive payments to all recycling locations in a convenience zone which the department determines are in need, the department shall review the convenience zone to determine if the convenience zone should be exempt pursuant to Section 14571.8.

(d) Any recycling location that locates in a convenience zone, thereby causing a preexisting recycling location to become ineligible to receive convenience incentive payments, is ineligible to receive any convenience incentive payments in that convenience zone.

(e) The department may authorize prepayment of convenience incentive payments to recycling centers pursuant to subdivision (a) for periods of up to one year at a time.

SEC. 10. Section 14553 of the Public Resources Code is amended to read:

14553. (a) All reports, claims, and other information required pursuant to this chapter or Sections 14573, 14573.5, and 14574, and submitted to the department shall be complete, legible, and accurate, as determined by the department by regulation, and shall be signed, by an officer, director, managing employee, or owner of the certified recycling center, processor, distributor, beverage manufacturer, container manufacturer, or other entity.

(b) The department may inspect the operations, processes, and records of any entity required to submit a report to the department pursuant to this division to determine the accuracy of the report and compliance with the requirements of this division.

(c) A violation of this subdivision is subject to the penalties specified in Section 14591.

SEC. 11. Section 14570 of the Public Resources Code, as amended by Chapter 117 of the Statutes of 1989, is amended to read:

14570. (a) Every dealer shall identify, by a clear and conspicuous sign of at least 10 inches by 15 inches posted at the entrance to the dealer's place of business, which specifies one of the following:

(1) The address and major cross streets, as provided by the department, of at least the certified recycling center, location, or locations, nearest to the dealer, which redeems all types of empty beverage containers at one location during at least 30 hours per week with a minimum of five hours of operation occurring during periods other than from Monday to Friday, from 9:00 a.m. to 5:00 p.m.

(2) One of the following procedures for redeeming beverage containers is available, pursuant to Section 14571.6:

(A) Redemption is available at one or more designated cash registers.

(B) Redemption is available at a designated location in the dealer's place of business.

(C) Store personnel can be asked for the location of redemption location.

(b) Notwithstanding subdivision (a), the department may require a certified recycling center to operate not more than 15 hours of those 30 hours per week other than during 9:00 a.m. to 5:00 p.m. if the department determines it is necessary to further the goals of this division as specified in Section 14501. Prior to acting under this

subdivision, the department shall conduct a public hearing and consider consumer convenience as well as the economic impact on the certified recycling center, public health and safety, local zoning requirements, neighborhood opinion, and any other relevant factors.

SEC. 12. Section 14571 of the Public Resources Code is amended to read:

14571. (a) Except as otherwise provided in this chapter, there shall be at least one certified recycling center or location within every convenience zone which accepts and pays the refund value, if any, at one location for all types of empty beverage containers and is open for business during at least 30 hours per week with a minimum of five hours of operation occurring during periods other than from Monday to Friday, from 9:00 a.m. to 5:00 p.m.

(b) For purposes of this section, if the recycling center is staffed and is not a reverse vending machine, a center is "open for business" if all of the following requirements are met:

(1) An employee of the certified recycling center or location is present during the hours of operation and available to the public to accept containers and to pay the refund values.

(2) A sign having a minimum size of two feet by two feet is posted at the certified recycling center or location indicating that the center or location is open. Where allowed by local zoning requirements or where zoning restrictions apply, the sign shall be of the maximum allowable size.

(3) The prices paid, by weight or per container, are posted at the location.

(c) Except as provided in subdivision (d), for the purpose of this section, if the recycling center consists of reverse vending machines or other unmanned automated equipment, the center is "open for business" if the equipment is properly functioning, accepting all types of empty beverage containers at the recycling location, and paying posted refund values no less than the minimums required by this division.

(d) On and after April 1, 1990, if a recycling center consists of reverse vending machines or other automated equipment, the recycling center is open for business if the equipment is properly functioning, and accepts all types of empty beverage containers at one physical recycling location within the recycling location.

SEC. 13. Section 14571.1 of the Public Resources Code is amended to read:

14571.1. On or before February 1, 1990, and on or before January 1, annually thereafter, the department shall, on a statewide basis, designate all convenience zones as of that date, including convenience zones in underserved areas, and shall prepare a map or maps showing these convenience zones.

SEC. 14. Section 14571.6 of the Public Resources Code is amended to read:

14571.6. In any convenience zone where no recycling location has been established which satisfies the requirements of Section

14571, and in any convenience zone which has exceeded the 90-day period for the establishment of a recycling center pursuant to Section 14571.7, all dealers within that zone shall, until a recycling location has been established in that zone, do one of the following:

(a) Submit to the department an affidavit form provided by the department stating that all of the following standards of redemption of beverage containers in the store of the dealer are being met by each dealer:

(1) The dealer redeems all empty beverage container types at all open cash registers or one designated location in the store, during all hours the dealer is open for business.

(2) The dealer has posted a sign, pursuant to paragraph (2) of subdivision (a) of Section 14570, at the entrance of the dealer's place of business, that all empty beverage containers can be redeemed in the store.

(3) The dealer is delivering, or having delivered, all empty beverage containers received from the public to a certified recycling center or processor for recycling.

(b) Pay to the department for deposit in the California Beverage Container Recycling Fund the sum of one hundred dollars ($100) per day until a recycling location is established or until the standards for redemption specified in subdivision (a) are met.

SEC. 15. Section 14571 7 of the Public Resources Code is amended to read:

14571.7. In any convenience zone where a recycling location or locations were initially established, but where the location or locations cease to operate in accordance with Section 14571, and in any convenience zone designated after January 1, 1990, the department shall notify all dealers within that convenience zone that a recycling location is required to be established within 90 days. The department shall offer a convenience incentive payment to one recycling location only. If, within 45 days of the notification, no recycling location has been established which satisfies the requirements of Section 14571, the department shall notify all dealers within that zone, and one or more dealers within that zone shall establish, or cause to be established, a recycling location.

SEC. 16. Section 14571.8 of the Public Resources Code, as amended by Chapter 117 of the Statutes of 1989, is amended to read:

14571.8. (a) If the department determines that Section 14571 cannot be fulfilled in a particular convenience zone due to local zoning or dealer's leasehold restrictions for leases in effect on January 1, 1987, and that these factors are beyond the control of the department and the dealer, the department may establish an alternative minimum convenience requirement for that convenience zone which shall not conflict with the purposes of this division. No lease entered into by a dealer after January 1, 1987, may contain a leasehold restriction that prohibits or results in the prohibition of the establishment of a recycling location

(b) The director may grant an exemption to the requirements of

Section 14571 for an individual convenience zone only if all of the following conditions are met:

(1) The exemption will not significantly decrease the ability of consumers to conveniently return beverage containers for the redemption value to a certified recycling center redeeming all material types.

(2) The volume of beverage containers redeemed in the convenience zone is below the statewide average of beverage containers redeemed in convenience zones receiving a convenience incentive payment.

(3) The exemption will further the purposes of this division.

(4) The department conducts a public hearing for purposes of taking testimony on whether or not to provide an exemption from Section 14571. The department shall develop and implement a public hearing process for the granting of exemptions pursuant to this subdivision. This process shall be designed by the department to ensure that recycling locations and members of the public in the jurisdiction affected by the proposed exemption are aware of, and able to participate in, the exemption hearing process.

(5) The exemption will prevent the creation of excessive recycling locations.

(6) An alternative certified recycling center that redeems all types of beverage containers is located within two miles of the dealer which is located in the convenience zone proposed to be exempted. This paragraph does not apply to an exemption made pursuant to subdivision (c).

(c) Upon request of a city or county, the director may grant an exemption from the requirements of Section 14571 for the location of an individual nonprofit recycling center, or for a curbside recycling program, if the conditions established under subdivision (b) are met and, for an exemption granted for a curbside recycling program, the program recycles all types of beverage containers from households at least once every two weeks or twice monthly.

(d) Except as provided in subdivision (e), the total number of exemptions granted by the director under this section shall not exceed 15 percent of the total number of convenience zones identified by the department pursuant to this section.

(e) On and after June 1, 1991, the total number of exemptions granted by the director under this section shall not exceed 20 percent of the total number of convenience zones identified pursuant to this section.

(f) The department shall annually prepare and submit to the Governor and the Legislature a report on curbside recycling programs and on the potential need for exemption authority additional to that provided by subdivisions (d) and (e).

SEC. 17. Section 14573 of the Public Resources Code is amended to read:

14573. The department shall pay to a processor, for every empty beverage container received by the processor from a certified

recycling center, curbside program, dropoff or collection program, or nonprofit dropoff program, upon presentation of a completed processor invoice accompanied by a shipping report from the supplier of the material, in the form adopted by the department, the sum of all of the following amounts:

(a) The refund value.

(b) One and three quarter percent of the refund value for administrative costs.

(c) The processing fee established pursuant to Section 14575.

The department shall make this payment within two working days of the date the department is notified of the delivery or within the time determined by the department to be necessary and adequate. If the payment is not made by the Controller to the certified processor within 20 working days of receipt of the claims schedule, the Controller shall pay the processor interest at the current prime lending rate for any period in excess of these 20 working days.

SEC. 18. Section 14573.5 of the Public Resources Code is amended to read:

14573.5. Except as provided in Section 14573.6, a processor shall pay to a certified recycling center, dropoff or collection program, curbside program, or nonprofit dropoff program, for all types of empty beverage containers, by type of beverage container, received by the processor from recycling center, curbside program, dropoff or collection program, or nonprofit dropoff program, upon receipt by the certified processor of a shipping report from the supplier of the material, in the form adopted by the regulations adopted by the department, the sum of all of the following amounts:

(a) The refund value.

(b) One-half of 1 percent of the refund value for administrative costs.

(c) The portion of the processing fee established pursuant to Section 14575 representing the actual cost and financial return incurred by the recycling center, as determined by the department.

The processor shall make this payment within two working days of the date the processor receives these empty beverage containers, or within the time which the department determines to be necessary and adequate. Under the procedures authorized by the department, a certified processor may authorize a certified recycling center to cancel containers on behalf of the certified processor.

SEC. 19. Section 14575 of the Public Resources Code is amended to read:

14575. (a) If any type of empty beverage container with a refund value established pursuant to Section 14560 has a scrap value less than the sum of paragraphs (1) and (2), the department shall establish a processing fee for the container, by the type of the material of the container, at least equal to the difference between the scrap value offered by a statistically significant sample of container manufacturers, beverage manufacturers, or willing purchasers, for each container sold by the beverage manufacturer, and the sum of

both of the following:

(1) The actual cost of receiving, handling, processing, storing, transporting, and maintaining equipment for each container sold for recycling or, only if the container is not recyclable, for disposal, calculated pursuant to subdivision (b).

(2) A reasonable financial return for recycling centers and processors, calculated pursuant to subdivision (b).

(b) The department shall calculate a statewide average value for the amounts specified in paragraphs (1) and (2) of subdivision (a) for each type of container material sold and the processing fee specified in subdivision (a) in accordance with the following schedule:

(1) The statewide average value and processing fee in effect on January 1, 1990, shall remain in effect until October 1, 1991.

(2) On or before October 1, 1991, and on or before October 1 annually thereafter or whenever the statewide scrap value changes by more than 15 percent, the department shall calculate a new average value and processing fee which shall be effective on October 1 of that same year.

(3) On or before October 1, 1990, the department shall calculate a new statewide average value and processing fee which shall be made public on or before that date, and which shall be done solely for information purposes and not for implementing this division. It is the intent of the Legislature that the 1990 informational calculation will serve to prepare interested parties and the public generally for the effect of a new statewide average value and processing fee to be implemented in 1991. It is the further intent of the Legislature that the 1991 calculation of the statewide average value and processing fee shall use new-to-date data and therefore is not necessarily identical to the 1990 calculation. Likewise it is the intent of the Legislature that each succeeding year's calculation shall use up-to-date data and may differ from the previous year's calculation.

(c) The calculations of the statewide average value and processing fee made pursuant to subdivision (b) shall be based on audited surveys of the costs specified in subdivision (a) at existing certified recycling centers, reverse vending machines, and processors, with standardized modifications for transportation distances and factors specific to a particular region, as determined by the department, and, if the container is not recyclable, local disposal fees. The processing fee shall be calculated in a manner which furthers the purposes of this division and the fee shall be sufficient to establish sufficient recycling locations and processors to achieve the goals established pursuant to subdivision (c) of Section 14501 and Section 14571. Sixty days prior to the annual calculation of the processing fee, the department shall submit a report to the Chairman of the Assembly Natural Resources Committee and the Chairman of the Senate Natural Resources and Wildlife Committee. The report shall include a summary of the fluctuations of costs and scrap values necessitating the recalculation. The report shall also highlight

changes in markets, new technologies, and other business and economic factors. The report shall include a description of the average per container statewide costs of recycling beverage containers, by each material type, for the following recycling systems, including a description of any assumptions used to allocate undifferentiated costs among material types, and a brief statement of the reason for the adoption of these assumptions:

(1) Automated recycling centers.

(2) Staffed recycling centers.

(3) Recycling centers established since September 29, 1988.

(4) Recycling centers established prior to September 29, 1988.

(5) Recyclers receiving convenience incentive payments, as feasible.

(6) Nonprofit dropoff programs.

(7) Curbside recycling programs.

(d) (1) Except as provided in paragraph (2), every beverage manufacturer shall pay to the department the applicable processing fee for each container sold or transferred to a distributor or dealer within 40 days of the sale in the form and in the manner which the department may prescribe.

(2) Notwithstanding Section 14506, with respect to the payment of processing fees for beer and other malt beverages, the beverage manufacturer shall be deemed to be the person or entity named on the certificate of compliance issued pursuant to Section 23671 of the Business and Professions Code. If the department is unable to collect the processing fee from the person or entity named on the certificate of compliance, the department shall give written notice by certified mail to that person or entity. The notice shall state that the processing fee shall be remitted in full within 30 days of issuance of the notice or the person or entity shall not be permitted to offer that beverage brand for sale within the state. If the person or entity fails to remit the processing fee within 30 days of issuance of the notice, the department shall notify the Department of Alcoholic Beverage Control that the certificate holder has failed to comply, and the Department of Alcoholic Beverage Control shall prohibit the offering or sale of that beverage brand within the state.

The department shall enter into a contract with the Department of Alcoholic Beverage Control, pursuant to Section 14536.5, concerning the implementation of this paragraph, which shall include a provision reimbursing the Department of Alcoholic Beverage Control for its costs incurred in implementing this paragraph.

(3) The department shall pay the processing fees collected on redeemed containers to processors, in the same manner as it pays refund values pursuant to Sections 14573 and 14573.5. The department shall pay the processing fees collected on unredeemed containers into the Redemption Account created pursuant to Section 14580. The department shall not use processing fees collected on unredeemed beverage containers to pay all or a portion of the

processing costs determined pursuant to subdivision (a). The processor shall pay the recycling center that portion of the processing fee representing the actual cost and financial return incurred by the recycling center, as specified in subdivision (a).

(e) When assessing processing fees pursuant to subdivision (b), the department shall assess the processing fee on each container sold, by the type of material of the container, assuming that every container sold will be redeemed for recycling, whether or not the container is actually recycled. When calculating and assessing processing fees the department also shall not assume that redemption bonuses will be kept by recycling centers or locations.

(f) If there are no recycling locations within a convenience zone meeting the requirements of Section 14571, the department shall examine the level of the scrap values and determine whether the department is in compliance with this section. If the department is not in compliance with this section, the department shall recalculate the processing fee pursuant to this section.

(g) The container manufacturer, or a designated agent, shall pay to, or credit, the account of the beverage manufacturer in an amount equal to the processing fee. The payment or credit shall be made no later than the date upon which the container manufacturer, or a designated agent, submits the invoice to the beverage manufacturer.

SEC. 20. Section 14581 of the Public Resources Code is amended to read:

14581. The department shall periodically calculate and pay the refund values required in subdivisions (a), (b), (c), (e), and (h) of Section 14560 and may thereafter expend any additional funds remaining in the account, as specified in subdivision (c) of Section 14580, in the following order of priority:

(a) The department shall annually expend eight million dollars ($8,000,000) of the amount deposited in the account for urban, rural, aquatic, and recreational litter abatement and recycling activities, and for grants with statewide private nonprofit entities for recycling information, education, and promotion. The eight million dollars ($8,000,000) which the department may expend beginning January 1, 1990, pursuant to this paragraph, is a base amount, and, on and after January 1, 1991, the department shall adjust this base amount annually to reflect increases or decreases in the cost of living, as measured by the Department of Labor or a successor agency of the United States government. The funds for urban, rural, and recreational litter abatement and recycling activities shall be expended in the form of grants issued to local conservation organizations. Three-quarters of this amount shall be expended in the form of grants, as specified by the department, to certified community conservation corps, either existing or those established in the future, designated by a city or a city and county to perform litter abatement, recycling, and related activities, if the city or the city and county has a population, as determined by the last federal census, of more than 250,000 persons. Any grants provided pursuant to this

paragraph shall not comprise more than 75 percent of the annual budget of a community conservation corps.

(b) The department may annually expend up to thirteen million dollars ($13,000,000) of the amount deposited in the account for making convenience incentive payments, pursuant to Section 14585, until January 1, 1993.

(c) After making the expenditures specified in subdivisions (a) and (b), the department may annually expend, until June 30, 1990, up to two million dollars ($2,000,000) for contracts with certified recycling centers located in convenience zones for advertising and promotion.

SEC. 21. Section 14585 of the Public Resources Code is amended to read:

14585. (a) The department shall develop guidelines and criteria for issuing convenience incentive payments solely to assist in establishing recycling locations in convenience zones without sufficient recycling locations pursuant to Chapter 6 (commencing with Section 14570). The guidelines and criteria shall determine the need for a convenience incentive payment for each eligible recycling location based upon the difference between the recycling location's average monthly costs and the recycling locations' average monthly revenue. In calculating average monthly recycling location costs, the department shall calculate adminstrative and overhead costs as an amount which does not exceed the total of 40 percent of the average monthly recycling location's wages and benefits, 40 percent of the average monthly recycling location's costs for labor for maintenance or machine leasing costs, and 30 percent of the average monthly recycling location's transportation costs.

(b) The department may establish a convenience incentive payment if the payment meets all of the following:

(1) The payment shall be set by the department at the minimum level determined by the department to be sufficient to establish convenience in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(2) The department may revise the payment upon finding that the previous payment is inadequate, and shall revise the payment upon finding that the previous payment is excessive, to establish convenience in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(3) The department may require the operators of the recycling locations to maintain daily records of redemptions at the locations, and may require the locations to take any other steps necessary for the department to ensure that the operators do not receive an excessive convenience incentive payment.

(4) The department may make convenience incentive payments to the operators of recycling locations through processors or directly, at the department's discretion, in the same manner as the department pays refund values and processing fees to recycling locations.

(5) On and after January 1, 1989, the department shall not make convenience incentive payments to more than one certified recycling center in a convenience zone. When two or more convenience zones overlap by more than one-half mile, the department shall offer a single convenience incentive payment to cover the affected convenience zones. This convenience incentive payment shall not be split between the affected zones. The department shall stop making convenience incentive payments if another recycling center is willing to certify operation within the convenience zone without receiving payments pursuant to this section.

(6) On and after October 1, 1990, the department shall pay convenience incentive payments in the following order of priority:

(A) The department shall designate not more than 15 percent of the total number of convenience zones as low population density zones and zones with curbside programs. The department may pay convenience incentive payments to eligible certified recycling centers in the low population density zones and may pay convenience incentive payments to eligible certified recycling centers in zones with curbside programs, as determined by the department.

(B) The department shall pay convenience incentive payments to the remainder of eligible recycling locations which have the highest average monthly volume, by making payments based on each recycling location average monthly volume, commencing with the recycling location with the highest average monthly volume, until the funds available for convenience incentive payments are exhausted.

(7) Until January 1, 1993, the department may provide convenience incentive payments, as needed, to eligible recycling locations, subject to the availability of funds and the requirements of Chapter 6 (commencing with Section 14570). The department shall annually, or more frequently, review the convenience incentive payments and may increase or reduce the convenience payments if the department determines that the initial commitment of funds is insufficient or in excess of those funds which are necessary to provide the opportunity to redeem beverage containers in the convenience zone pursuant to Chapter 6 (commencing with Section 14570).

(8) Except as provided in subparagraph (A) of paragraph (6) and notwithstanding subdivision (a), on and after October 1, 1990, the department shall not make a convenience incentive payment which exceeds seven cents ($0.07) per beverage container for the average monthly amount of beverage containers redeemed by a recycling location receiving convenience incentive payments.

(9) Except as provided in subparagraph (A) of paragraph (6), the department shall not make a convenience incentive payment which exceeds one thousand one hundred forty-five dollars ($1,145) to a recycling location per month.

(10) On or before January 1, 1993, the department may estimate

the amount of the total convenience incentive payment available to an eligible recycling center through December 31, 1992, and notify the certified recycling center of that amount. The department may pay the amount of the convenience incentive payment estimated pursuant to this paragraph to the recycling center monthly, until December 31, 1992.

(c) If there are insufficient funds for making convenience incentive payments to all recycling locations in a convenience zone which the department determines are in need, the department shall review the convenience zone to determine if the convenience zone should be exempt pursuant to Section 14571.8.

(d) Any recycling location that locates in a convenience zone, thereby causing a preexisting recycling location to become ineligible to receive convenience incentive payments, is ineligible to receive any convenience incentive payments in that convenience zone.

(e) The department may authorize prepayment of convenience incentive payments to recycling centers pursuant to subdivision (a) for periods of up to one year at a time.

SEC. 22 Section 14585.5 is added to the Public Resources Code, to read:

14585.5. (a) On and after April 1, 1990, except as provided in subdivision (b), the department shall not make convenience incentive payments to any certified recycling location where the department determines that all empty beverage container types are not redeemed at the same physical location within the recycling location.

(b) A certified recycling center that redeems all empty beverage container types at the same physical location within the recycling location, and issues script to consumers which is required to be redeemed at a nearby host business, is eligible to receive convenience incentive payments.

SEC. 23. Section 14591 of the Public Resources Code, as amended by Section 3 of Chapter 117 of the Statutes of 1989, is amended to read:

14591. (a) Except as provided in subdivision (b), in addition to any other applicable civil or criminal penalties, any person convicted of a violation of this division is guilty of an infraction, which is punishable by a fine of one hundred dollars ($100) for each initial separate violation and not more than one thousand dollars ($1,000) for each subsequent separate violation per day.

(b) Every person who, with intent to defraud, submits a false or fraudulent claim for payment pursuant to Section 14573 or 14573.5 or who, with intent to defraud, fails to accurately report the number of beverage containers sold, as required by subdivision (b) of Section 14550, or who, with intent to defraud, fails to make payments as required by Section 14574 or who, with intent to defraud, redeems containers which have already been redeemed or returns redeemed containers to the marketplace for redemption with intent to defraud, or who submits a false or fraudulent claim for convenience incentive

payments pursuant to Section 14585, is guilty of fraud. If the money obtained or withheld exceeds four hundred dollars ($400), the fraud is punishable by imprisonment in the county jail for not more than one year or by a fine not exceeding ten thousand dollars ($10,000), or by both, or by imprisonment in the state prison for 16 months, two years, or three years, or by a fine not exceeding twenty-five thousand dollars ($25,000) or twice the late or unmade payments plus interest, whichever is greater, or by both fine and imprisonment. If the money obtained or withheld equals, or is less than, four hundred dollars ($400), the fraud is punishable by imprisonment in the county jail for not more than six months or by a fine not exceeding one thousand dollars ($1,000), or by both.

(c) Any person who violates this division may be assessed a civil penalty by the department of up to two hundred dollars ($200) for the first violation, of up to five hundred dollars ($500) for the second violation, and up to one thousand dollars ($1,000) for the third and any subsequent violation, for each separate violation of this division per day pursuant to a hearing and notice. The department may additionally assess, upon a person who violates this division an amount equal to the department's administrative costs in assessing and collecting the penalty, including any costs of providing a hearing and any related administrative adjudication costs.

(d) The department shall suspend all convenience incentive payments received by any certified recycling center for up to six months, but not less than two months, from the date of a third violation assessed upon that recycling center pursuant to subdivision (c) within a one-year period, commencing upon the effective date of the act amending this section.

(e) This section shall remain in effect until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

SEC. 24. Section 14591 of the Public Resources Code, as added by Section 4 of Chapter 117 of the Statutes of 1989, is amended to read:

14591. (a) Except as provided in subdivision (b), in addition to any other applicable civil or criminal penalties, any person convicted of a violation of this division is guilty of an infraction, which is punishable by a fine of one hundred dollars ($100) for each initial separate violation and not more than one thousand dollars ($1,000) for each subsequent separate violation per day.

(b) Every person who, with intent to defraud, submits a false or fraudulent claim for payment pursuant to Section 14573 or 14573.5 or who, with intent to defraud, fails to accurately report the number of beverage containers sold, as required by subdivision (b) of Section 14550, or who, with intent to defraud, fails to make payments as required by Section 14574 or who, with intent to defraud, redeems containers which have already been redeemed or returns redeemed containers to the marketplace for redemption with intent to defraud, or who submits a false or fraudulent claim for convenience incentive payments pursuant to Section 14585, is guilty of fraud. If the money

obtained or withheld exceeds four hundred dollars ($400), the fraud is punishable by imprisonment in the county jail for not more than one year or by a fine not exceeding ten thousand dollars ($10,000), or by both, or by imprisonment in the state prison for 16 months, two years, or three years, or by a fine not exceeding twenty-five thousand dollars ($25,000) or twice the late or unmade payments plus interest, whichever is greater, or by both fine and imprisonment. If the money obtained or withheld equals, or is less than, four hundred dollars ($400), the fraud is punishable by imprisonment in the county jail for not more than six months or by a fine not exceeding one thousand dollars ($1,000), or by both.

(c) Any person who violates this division may be assessed a civil penalty by the department of up to two hundred dollars ($200) for the first violation, of up to five hundred dollars ($500) for the second violation, and up to one thousand dollars ($1,000) for the third and any subsequent violation, for each separate violation of this division per day pursuant to a hearing and notice. The department may additionally assess upon a person who violates this division an amount equal to the department's administrative costs in collecting and assessing the penalty, including any costs of providing a hearing and any related administrative adjudication costs.

(d) This section shall become operative on January 1, 1993.

SEC. 25. The Department of Conservation, in conjunction with other interested state agencies, certified processors, certified recyclers and other certified entities shall do all of the following:

(a) Review regulations adopted by the department regarding inspection procedures to be utilized by all of the following:

(1) Certified Recycling Center.

(2) Certified processors who take physical possession of material.

(3) Other certified entities to ensure that redemption payments and refund values are paid only on California redemption containers.

(b) Review procedures regarding payment claims and reporting requirements under the California Beverage Container Recycling and Litter Reduction Act and develop recommendations for any necessary changes to the existing payment and reporting procedures.

(c) Review current procedures regarding shipping reports which are any of the following:

(1) Submitted by the certified recycling center to the certified processor.

(2) Submitted by the certified processor to the department.

(3) Submitted by curbside programs, dropoff or collection programs and nonprofit dropoff programs to the certified processor or certified recycling centers, as required by the California Beverage Container Recycling and Litter Reduction Act.

(d) Develop recommendations for changes to the existing reporting requirements.

(e) Review the need for the addition of regulations requiring certified recycling centers to be bonded.

SEC. 26. Section 8.5 of this bill incorporates amendments to Section 14541 of the Public Resources Code proposed by both this bill and SB 933. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1345

An act to add Article 7.5 (commencing with Section 45350) to Chapter 5 of Part 25 of the Education Code, relating to teacher assistants, and making an appropriation therefor.

[Approved by Governor October 2, 1989. Filed with Secretary of State October 2, 1989.]

I am deleting the $50,000 appropriation contained in Section 3 and the $70,000 appropriation contained in Section 4 of Senate Bill No 156

This bill would establish a two-year, Associate of Arts teacher assistant degree program within the California Community Colleges to train teacher assistants for grades 1-6, and requires the Commission on Teacher Credentialing to establish an examination and certification process for teacher assistants.

The appropriations contained in this bill are for the 1990–91 Fiscal Year Appropriating funds for a future fiscal year is contrary to state fiscal practices where costs are funded on an annual basis It would be more appropriate to consider funding the provisions of this bill during the budget process for Fiscal Year 1990–91.

With this deletion, I approve Senate Bill No 156.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) California's pupil-teacher ratio is higher than that of any other state.

(b) California's public school teachers in grades 1 to 3, inclusive, are each commonly assigned the responsibility for educating 30 pupils in their self-contained classrooms.

(c) California's system of public education does not currently provide for the use of trained, noncertificated personnel who are specifically educated to assist the classroom teacher with instruction in designated subject areas.

(d) Whereas any reduction in the current pupil-teacher ratio will increase the need for more school facilities, thereby exacerbating the current shortage of classrooms, the adult-pupil ratio can be halved in California's public schools by the use of trained teacher assistants, operating within the classroom of a certificated teacher under the direction of that teacher.

(e) In addition, the teacher assistant program set forth in this act will provide an incentive to instructional paraprofessionals, including instructional aides and teacher assistants, to complete education and training that would lead to a teaching credential.

(f) It is the intent of the Legislature that the employment of trained teacher assistants not result in the supplanting or displacement of any persons employed as teacher aides.

SEC. 2. Article 7.5 (commencing with Section 45350) is added to Chapter 5 of Part 25 of the Education Code, to read:

Article 7.5. Teacher Assistants

45350. The purposes of this article include the following:

(a) To enhance the teaching of reading, language arts, mathematics, social science, science, and other basic academic subjects to general education pupils in grades 1 to 6, inclusive.

(b) To begin to reduce the impact of large classes in grades 1 to 6, inclusive, through the use of trained teacher assistants, operating within the classroom of a certificated teacher under the direction of that teacher.

(c) To develop, in persons who want to be teacher assistants, competency in specific academic subjects that are part of the curriculum in grades 1 to 6, inclusive, and in child development theory. In order to qualify as a teacher assistant for purposes of this article, a person shall meet both of the following conditions:

(1) Successful completion of a two-year course of study at a California community college, pursuant to which the applicant has been awarded an Associate of Arts, Teacher Assistant degree.

(2) Passage of an examination developed and administered for this purpose by the Commission on Teacher Credentialing.

45351. (a) No later than June 30, 1990, the Office of the Chancellor of the California Community Colleges shall issue requests for proposal from community college districts for the establishment of an Associate of Arts, Teacher Assistant program. The requests for

proposal shall describe the requirements set forth in subdivision (c), and shall be developed in consultation with representatives of the Superintendent of Public Instruction, the President of the University of California, the Chancellor of the California State University, the Chancellor of the California Community Colleges, the Executive Director of the California Postsecondary Education Commission, the Commission on Teacher Credentialing, the statewide Academic Senate for Community Colleges, and the President of the Association of Independent Colleges and Universities. That program shall include, but not necessarily be limited to, the two-year course of study described in Section 45350 and the awarding of an Associate of Arts, Teacher Assistant degree.

(b) The chancellor shall select two community college districts from separate geographic areas of this state for the purposes of this section, and shall allocate to each of those districts for the 1990–91 school year a planning grant of not less than twenty-five thousand dollars ($25,000).

(c) Each of the community college districts selected and funded under this section shall do all of the following:

(1) Implement the Associate of Arts, Teacher Assistant program in one or more community colleges, commencing with the 1991–92 school year.

(2) Ensure that each student enrolled in the program shall work under the direct supervision of a credentialed classroom teacher.

(3) Design the program to ensure that credit hours earned under the program at any community college are transferable to teacher preparation programs conducted at California State University campuses in the same region as that community college.

(4) No later than October 1, 1993, collect, and make available to the California Postsecondary Education Commission for purposes of the evaluation described in Section 45355, the following data for the 1991–92 and 1992–93 school years:

(A) The number of persons who enrolled in the program, and the number of persons who completed the program.

(B) Demographic information concerning those persons.

(C) The number and percentage of graduates of the program who pass the examination described in subdivision (c) of Section 45350.

(D) The number and percentage of graduates of the program who have obtained employment as teacher assistants, as reported pursuant to Section 45353.

45352. No later than June 30, 1991, the Commission on Teacher Credentialing shall adopt policies, procedures, and regulations as it deems necessary and appropriate for the administration of an examination pursuant to subdivision (c) of Section 45350.

45353. Teacher assistants, as described in this article, shall not be deemed to be teachers for any purpose under this code.

45354. The Commission on Teacher Credentialing shall levy a fee for the issuance and renewal of teacher assistant licenses. The fee for the issuance or renewal of the teacher assistant license shall be

twenty-five dollars ($25). In subsequent years, the Commission on Teacher Credentialing may set a different fee, but in no case shall the fee exceed forty-five dollars ($45) without the express approval of the Legislature.

45355. Annually, as part of the budget review process, the Department of Finance and the Legislative Analyst shall jointly determine the amount of the examination fee that would be sufficient to generate the revenues necessary to maintain and administer the examination described in Section 45350, and shall report to the Legislature the amount determined.

45356. The State Department of Education shall, in the 1991–92 and 1992–93 school years, and thereafter as it may deem necessary, coordinate workshops between the community college districts that operate Associate of Arts, Teacher Assistant programs, the California State University, and elementary schools located within those community college districts, regarding changes in instructional methodology that may be necessary to ensure the effective use of teacher assistants.

45357. No later than June 30, 1994, the California Postsecondary Education Commission shall complete an evaluation of the Associate of Arts, Teacher Assistant program, as operated in the two community college districts selected pursuant to Section 45351, which shall include, but need not be limited to, the data set forth in paragraph (3) of subdivision (c) of Section 45351, and shall report the results of that evaluation, together with its recommendations for program improvements, if any, to the Governor, the Legislature, the Board of Governors of the California Community Colleges, the Trustees of the California State University, and the Superintendent of Public Instruction.

45358. No later than June 30, 1994, the Superintendent of Public Instruction shall complete an evaluation of the use of teacher assistants pursuant to this article in elementary schools in this state, the scope of which evaluation shall include the extent of improvement in the performance of pupils in classes using teacher assistants, as measured by the results of academic performance testing. On or before that date, the superintendent shall report the results of that evaluation, together with recommendations for program improvements, if any, to the Governor, the Legislature, the Board of Governors of the California Community Colleges, the Trustees of the California State University, and the Commission on Teacher Credentialing.

SEC. 3. The sum of fifty thousand dollars ($50,000) is hereby appropriated from the General Fund to the Chancellor of the California Community Colleges for allocation for the 1990–91 fiscal year, for the planning grants authorized under subdivision (b) of Section 45351 of the Education Code.

SEC. 4. The sum of seventy thousand dollars ($70,000) is hereby appropriated from the General Fund to the Commission on Teacher Credentialing for the 1990–91 fiscal year, for the development of

policies, procedures, and regulations as provided for under Section 45352 of the Education Code.

CHAPTER 1346

An act to amend Sections 50712.5, 50735, 50748, 50771.1, and 50805 of the Health and Safety Code, and to amend Item 2240-001-001 of Section 2.00 of the Budget Act of 1989, Chapter 93 of the Statutes of 1989, relating to housing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989]

I am reducing the appropriation contained in Section 6, Item 2240-001-001 of Senate Bill No 480 from $6,522,000 to $6,521,000 by reducing· (d) 50 01—Administration from $7,974,000 to $7,973,000, and by deleting Provision 1

This bill would make various programmatic changes to the Rental Housing Construction Program to ensure that the program is managed in a sound, efficient and effective manner This bill would additionally establish, on a permanent basis, 9 5 positions that are currently authorized on a limited-term basis via the 1989 Budget Act for administration of the Department of Housing and Community Development's bond-financed programs

For purposes of establishing these positions on a permanent basis, the bill displays the Department's Budget Act Support Item 2240-001-001 However, the bill fails to reflect the item as it appeared in the final, enacted budget. Therefore, to ensure conformity and consistency with my earlier actions on the 1989 Budget Act, I am reducing Item 2240-001-001 by $1,000 and deleting Provision 1 which links the salary of the Public Affairs Manager to the Department's submission of a plan to the Legislature related to improving the sensitivity of various department personnel to the issue of the homelessness My Administration, including the Department of Housing and Community Development, is aware of the needs of homeless Californians and is attempting to provide needed services to the homeless in a systematic and compassionate manner

With this reduction, I approve Senate Bill No 480.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 50712.5 of the Health and Safety Code is amended to read:

50712.5. (a) The Department of Housing and Community Development, through its Office of Migrant Services, pursuant to the authority granted in subdivision (n) of Section 50406 and Section 50710 shall assist in the development of at least 100 family units in migrant farm labor centers. The department shall first encourage the development of the family units in migrant farm labor centers in the Counties of Imperial, San Diego, Riverside, and Madera. On or before September 30, 1986, if the department determines in the case of the County of Imperial, San Diego, Riverside, or Madera that available federal, state, and local contributions and funds are not adequate, or that for other reasons it is infeasible to develop the family units in centers in any of these designated counties, the department shall offer the assistance authorized by this section in

any county or counties where the department determines there is a substantial unmet need for migrant farm labor housing.

(b) The department shall use the funds appropriated by the act adding this section, during the 1985–86 Regular Session. and any excess funds appropriated for the purposes of the Office of Migrant Services by Chapter 111 of the Statutes of 1985 or any subsequent acts, to maximize the utility of any other local, federal, state or private funds or other assistance made available for the purposes of this section. These appropriated funds may be used for costs including, but not limited to, the following items:

(1) Predevelopment costs incurred in the process of securing construction or long-term financing such as site development and architectural, engineering, or legal expenses, or construction costs, including construction interest, or both. These costs shall not be subject to reimbursement from construction or permanent financing, as the case may be, if the reimbursement would contribute to, or result in, rents substantially in excess of those in other migrant farm labor centers assisted by the Office of Migrant Services, as determined by the department.

(2) A grant or deferred payment loan which may be forgiven, matching or supplementing the permanent financing or grant made available by a federal, state, or local housing assistance program.

(3) Operating cost reductions to the extent necessary to ensure that the rents in the migrant farm center are not substantially in excess of those in other migrant farm labor centers operated by the Office of Migrant Services.

(c) The department shall seek the maximum possible contribution of funds, land, and other incentives from local, federal, and private sources for all the purposes described in subdivision (b). The expenditure of funds authorized by this section shall not be used for any migrant farm labor center unless the department determines that it is likely that at least 75 percent of the final development cost of that center will be provided as a grant or a loan, or both, as contributions of funds, land, and other incentives by any combination of local, federal, and private sources.

(d) To the extent that any migrant farm labor center assisted pursuant to this section is financed or otherwise assisted by the United States Farmers Home Administration, and to the extent the Farmers Home Administration requires compliance with construction, operating, term of use, or residency standards which differ from those required by the department pursuant to regulations adopted to implement and interpret this chapter, those Farmers Home Administration standards shall supersede the department's regulations.

(e) If all the development costs of any migrant farm labor center assisted pursuant to this section are provided by federal, state, or local grants, and if no funds are available from any federal, state, or local service to write-down operating costs, the department may approve rents for that center which are in excess of rents charged in

other centers assisted by the Office of Migrant Services. However, prior to approving these rents, the department shall consider the adequacy of evidence presented by the agency operating the center that the rents reimburse actual, reasonable, and necessary costs of operation and that any reserve funds are not in excess of actual needs anticipated within the next three years.

The department shall review all complaints received concerning such trust funds and shall have all powers necessary to assure the lawful application of such funds.

(d) When the amount of moneys made payable from an annuity fund pursuant to this section exceeds the amount necessary to ensure that eligible households in a rental housing development assisted

under this chapter are paying affordable rents, or if payments from the annuity fund become unnecessary for such purpose, the department may by contract (1) require that such unneeded moneys be paid into the Rental Housing Construction Incentive Fund or (2) authorize use of such moneys to reduce rents to an affordable level for additional eligible households in the rental development.

(e) Not less than 20 percent of the moneys appropriated for the purposes of this chapter shall be utilized pursuant to this section. However, moneys transferred to the Rental Housing Construction Fund pursuant to subdivision (d) shall be used for any purpose authorized by this chapter.

SEC. 3. Section 50771.1 of the Health and Safety Code is amended to read:

50771.1. For the purpose of providing deferred payment loans pursuant to this chapter for the development costs of rental housing developments utilizing moneys transferred to the Rental Housing Construction Fund pursuant to paragraph (1) of subdivision (a) of Section 53130 and paragraph (1) of subdivision (b) of Section 53130, the following special provisions shall prevail over conflicting provisions of this chapter:

(a) (1) Sponsor applications shall be accepted by the department at any time. Awards of funds shall be based on a quarterly ranking of sponsor applications. In making this ranking, notwithstanding Sections 50737 and 50737.5, priority shall be given to projects which (A) maximize program benefits to eligible households, as defined in Section 50105 with the lowest incomes, (B) maximize program benefits to eligible households needing assisted units with three or more bedrooms, (C) are located in areas where the housing need is great, as determined by the department, taking into consideration, among other factors, variations in local development costs, low vacancy rates, high market rents, and long waiting lists for subsidized housing, (D) complement the implementation of an existing housing program, (E) maximize private, local, and other funding sources, (F) are economically feasible given local market conditions, and (G) maximize the number of units which can be assisted under the program, relative to variances in market conditions for the development of rental housing. Subparagraph (B) above does not apply to applications for residential hotels.

(2) All loans shall be made directly from the department to the housing sponsor which applies to the department and will own, operate, and develop the housing development. The sponsor shall notify the local legislative body of its loan application prior to the funding award.

(3) A sponsor may apply for awards for one or more rental housing developments.

(4) The department shall evaluate the capability of the sponsor to own, construct, and manage the rental housing development.

(b) (1) A rental housing development may utilize any combination of federal, state, local, and private financial resources

necessary to make the development affordable, for the term of the state's regulatory agreement, to eligible households.

(2) (A) Loans to sponsors of housing developments shall be for a term not less than 40 years. After 30 years from the time the loan is made, the sponsor shall begin to repay the loan in accordance with a payment plan, as determined by the department, that will maintain the rents affordable to eligible households.

(B) The term of the loan and the time for repayment may be extended by the department for additional 10-year terms as long as the rental housing development is operated in a manner consistent with the regulatory agreement and the sponsor requires an extension in order to continue to operate in a manner consistent with this chapter.

(C) Loans provided under this section shall bear an interest rate of 3 percent per annum. The department, by regulations, shall establish the conditions under which the interest may be reduced, waived, or deferred. At the request of the sponsor, the department may charge a higher interest rate.

(3) (A) Development costs shall include reasonable consulting fees, and other reasonable administrative expenses in connection with the planning and execution of the rental housing development, as determined by the department, and initial funding of emergency reserves, as required by the department. The development costs also shall further include the acquisition and completion of construction of a rental housing development where construction has halted due to financial distress, as determined by the department.

(B) A rental housing development shall include residential hotels, as defined in subdivision (b) of Section 50669, and group homes.

(4) The sponsor shall maintain an emergency reserve to defray unanticipated cost increases or revenue shortfalls to maintain the fiscal integrity of the rental housing development and maintain affordable rents for eligible households.

(5) The department, by regulation, shall specify minimum equity requirements not to exceed 10 percent of total project development costs. This requirement does not apply to proposed projects where assisted units are less than 80 percent of the total number of units.

The department, by regulation, shall define "equity" for the purposes of this section, which shall include, but shall not be limited to, cash, real property, items of personal property having monetary value contributed by the sponsor and applied toward project costs, and the capitalized value of any exemption from local taxes on real property.

(6) The department, by regulation, may specify per-unit loan limits and circumstances under which it may grant exceptions to, or variances from, these limits. The loan amount shall not exceed either 100 percent of the development costs attributable to the assisted units or the amount necessary to maintain affordable rents for the assisted units, as determined by the department.

(c) (1) Initial rents, including a reasonable utility allowance, for

assisted units reserved for occupancy by very low income households, and for all assisted units in residental hotels and group homes, shall not exceed 30 percent of 35 percent of area median income, adjusted by unit size. Initial rents, including a reasonable utility allowance, for assisted units reserved for occupancy by lower income households shall not exceed 30 percent of 60 percent of area median income, adjusted by unit size. The department, by regulation, shall specify the method for adjusting rents by unit size and for computing allowances for utility costs.

(2) The department shall develop an inflation index reflecting the annual anticipated changes in rental housing development operating costs from a base year. The inflation index shall be used by the sponsor to adjust the initial rent of each unit occupied by an eligible household to determine the annual rent. Any sponsor may appeal to the department for a greater adjustment in rents necessary to ensure the fiscal integrity of the housing development. If the department does not respond within 60 days, the request shall be deemed approved. A 30-day written notice shall be given to each eligible household prior to an adjustment in the amount of rent.

(3) Upon prior written approval by the department, a sponsor may set income limits for occupancy of assisted units designated for lower income households at a level below the limit specified in Section 50079.5. If a tenant's income exceeds this income limit established by the sponsor, but does not exceed the limit specified in Section 50079.5, that fact alone shall neither constitute cause for the tenant's eviction, nor be a violation of the sponsor's loan agreement.

(4) The monthly rent including a reasonable utility allowance may be reduced by the sponsor, to make the units affordable to the lowest income household possible as long as the project remains economically feasible.

(5) (A) If a household's income exceeds the standard pursuant to which it was accepted for tenancy, that fact alone shall neither constitute cause for the household's immediate eviction nor be a violation of the owner's or sponsor's loan agreement.

(B) If, after annual income certification, an assisted unit becomes occupied by a household which does not meet the income limits specified in Section 50105, that household shall be permitted to continue to occupy that assisted unit. When there is a vacancy in an assisted unit formerly occupied by a household which meets the income limits specified in Section 50079.5, that unit shall be rented to a household which meets the income limits specified in Section 50105.

(C) If, after annual income certification, an assisted unit becomes occupied by a household which does not meet the income limits specified in Section 50079.5, that household shall be provided a six-month notice of termination. That period may be extended for an additional six-month period in high cost rental areas with low vacancy rates, as determined by the department. That household shall have first right of refusal to occupy any nonassisted unit which

becomes available during both periods.

(D) In the case of limited equity housing cooperatives, the provisions of subparagraph (C) shall apply, except that tenants whose incomes, upon recertification, exceed the limit specified in Section 50079.5 shall not be required to vacate their units. Instead, and upon six months' notice, these tenants shall be required to pay rent in an amount equal to the market rate rent for comparable units, as determined by the department. When a tenant's income exceeds the limit specified in Section 50079.5, the next available membership share for occupancy in a comparable unit shall be sold to a household with an income at or below this limit.

(d) (1) The department may contract with the sponsor to pay all or a portion of the development costs incurred in connection with the construction of a rental housing development consistent with the requirements of this article. The department shall include such provisions in the contract as are necessary to ensure compliance with the requirements of the program.

Any rental housing development assisted pursuant to this article shall be governed by a regulatory agreement between the sponsor and the department. The regulatory agreement shall be recorded or referenced in a recorded document in the office of the county recorder for the county in which the rental housing development is located. The regulatory agreement shall contain at least all of the following:

(A) Restrictions on occupancy of dwelling units within the rental housing development, to meet the requirements of Section 50736 and this section for a period of at least 40 years.

(B) Provisions governing standards for tenant selection to ensure occupancy by eligible households of very low and low income for the term of the regulatory agreement.

(C) Provisions governing occupancy standards and rental agreements.

(D) Provisions for setting initial rents and rent increases consistent with paragraph (1) of subdivision (c) of Section 50771.1. Prior to the time any rent increase is effective, the sponsor shall notify every affected tenant, in writing, of the availability of informal meetings with the sponsor to review the proposed rent increase. Each tenant, upon request, shall be provided the information submitted to the department pursuant to this subdivision.

(E) A requirement that the sponsor submit to the department for review and approval, annual operating budgets and periodic reports, which shall at a minimum include information on the fiscal condition of the rental housing development, the maintenance of the development, and the number of units occupied by eligible households.

(F) Provisions limiting distribution of sponsor's earnings as specified in paragraph (4)

(G) A provision which specifies the conditions under which the department and any intended beneficiary may enforce the

regulatory agreement.

(H) Any other provisions necessary to carry out the purposes and to exercise the powers granted by this chapter.

The regulatory agreement shall be recorded against the property and shall be deemed a covenant running with the land and shall be binding upon the sponsor and any and all successors in interest in case of sale or transfer of the rental housing development for the original term of the loan, and any extensions thereof, regardless of any prepayment of the loan.

The department, by regulation, may require such other documents, instruments, and agreements as are reasonable and necessary to ensure compliance with the program requirements.

(2) The contract for the award of development funds to be provided as construction financing for a rental housing development shall contain at a minimum the provisions specified in Section 50766, excluding therefor subdivisions (j), (k), and (l).

(3) All state contracts and regulatory or development agreements subject to this article shall contain provisions requiring that assisted units remain affordable to eligible households for 40 years plus any permitted extension.

(4) A nonprofit sponsor, other than a governmental agency, may maintain a debt service coverage ratio of not more than 115 percent and distribute earnings from both assisted and nonassisted units in an amount no greater than 8 percent of the nonprofit sponsor's actual investment in the rental housing development. A for-profit sponsor may choose between the following options:

(A) It may distribute earnings from both assisted and nonassisted units in an annual amount no greater than 8 percent of its actual investment in the rental housing development.

(B) It may forego distribution of earnings from assisted units, and not be subject to any limitation on the amount of distributions it receives from nonassisted units.

(e) Where loans will be used in conjunction with federal and other state housing assistance or tax credit and a conflict exists between the other state and federal program requirements and this chapter regarding the test for determining a qualified low-income housing project, the requirements of the Rental Housing Construction Program may be waived only to the extent necessary to permit the federal or other state financial participation or eligibility for tax credits.

(f) (1) The department shall establish specific minimum development criteria to (A) ensure that the useful life of the rental housing development is at least equal to the term of the loan; (B) enhance the physical security of the tenants; (C) minimize long-term operating and maintenance costs; and (D) ensure that project design features and amenities are modest.

(2) No energy standards shall be required of any housing development in excess of the energy standards required for housing developments financed by conventional funding sources.

(3) The department shall employ a licensed architect or an experienced building inspector, or both, to review plans, inspect, and monitor construction of, rental housing developments.

(g) A sponsor of a housing development may receive payments from the annuity fund pursuant to Section 50738 to the extent that there are unobligated moneys available in the fund.

(h) The department shall establish an emergency reserve account in the Rental Housing Construction Fund established pursuant to Section 50740 equal to 3 percent of the moneys transferred to subdivision (a) of Section 53130.

Moneys transferred to the fund pursuant to subdivision (a) of Section 53130 shall not be subject to the requirements of Section 50770 or be used to ensure economic feasibility or enable construction pursuant to Section 50738. Notwithstanding the provisions of Sections 53130 and 53133, the department may expend moneys in the account to defray unanticipated cost increases or revenue shortfalls not covered by a rental housing development emergency reserve to the extent necessary to maintain the fiscal integrity of a rental housing development and maintain affordable rents for eligible households.

Notwithstanding the provisions of Section 53130 which limit the use of allocated proceeds with respect to project operating costs, and Section 53133, the department may use any amounts available in the account for the purpose of curing or avoiding a sponsor's defaults on the terms of any loan or other obligation which will jeopardize the financial integrity of a rental housing development or the department's security in the rental housing development. The payment or advance of any funds by the department pursuant to this subdivision shall be solely within the discretion of the department, and no sponsor shall be entitled to, or have any right to, payment of these funds. Funds advanced pursuant to this subdivision shall be added to the loan amount secured by the deed of trust and shall be payable to the department upon demand.

SEC. 4. Section 50805 of the Health and Safety Code is amended to read:

(a) Grants awarded pursuant to this chapter may be used, with the approval of the department, to purchase, lease, renovate, repair, or equip buildings and sites for use as emergency shelters, to operate those emergency shelters, and to administer emergency shelter programs. No more than 15 percent of the funds allocated to a region other than a nonurban county shall be expended for this purpose. This limitation shall also apply to funds allocated pursuant to subdivision (a) or (b) of Section 53130.

CHAPTER 1347

An act to amend Section 17058 of the Revenue and Taxation Code, relating to taxation, and making an appropriation therefor, to take effect immediately, tax levy.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989.]

I am deleting the $25,000 appropriation contained in Section 3 of Senate Bill No 726. This bill, an urgency measure, would amend personal income tax law to continue the state low-income housing tax credits beyond 1990, contingent upon continuation of the federal low-income housing tax credits and require the Legislative Analyst to report to the Legislature concerning the effectiveness of the tax credits The bill appropriates $25,000 to the Joint Legislative Budget Committee to conduct the

evaluation

It is not necessary to appropriate money from the General Fund to conduct this evaluation The Joint Legislative Budget Committee and the Legislative Analyst have sufficient resources to carry out the provisions of this bill

With this deletion, I approve Senate Bill No 726

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 17058 of the Revenue and Taxation Code, as amended by Chapter 46 of the Statutes of 1989, is amended to read:

17058. (a) (1) There shall be allowed as a credit against the amount of net tax (as defined in Section 17039) a state low-income housing credit in an amount equal to the amount determined in subdivision (c), computed in accordance with the provisions of Section 42 of the Internal Revenue Code of 1986, as amended, including the amendments contained in the Technical Corrections and Miscellaneous Revenue Act of 1988, except as otherwise provided in this section.

(2) "Taxpayer" for purposes of this section means the sole owner in the case of an individual, the partners in the case of a partnership, and the shareholders in the case of an S corporation.

(b) (1) The amount of the credit allocated to any housing sponsor shall be authorized by the Mortgage Bond and Tax Credit Allocation Committee, or any successor thereof, based on a project's need for the credit for economic feasibility.

(A) The low-income housing project shall be located in California and shall meet either of the following requirements:

(i) The project's housing sponsor shall have been allocated by the Mortgage Bond and Tax Credit Allocation Committee a credit for federal income tax purposes under Section 42 of the Internal Revenue Code.

(ii) It shall qualify for a credit under Section 42(h) (4) (B) of the Internal Revenue Code.

(2) (A) The Mortgage Bond and Tax Credit Allocation Committee shall certify to the housing sponsor the amount of tax credit under this section to which the housing sponsor is entitled for each credit period.

(B) In the case of a partnership or an S corporation, the housing sponsor shall provide a copy of the Mortgage Bond and Tax Credit Allocation Committee certification to the taxpayer.

(C) The taxpayer shall attach a copy of the certification to any return upon which a tax credit is claimed under this section.

(D) In the case of a failure to attach a copy of the certification for the year to the return in which a tax credit is claimed under this section, no credit under this section shall be allowed for that year until a copy of that certification is provided.

(E) All elections made by the taxpayer pursuant to Section 42 of the Internal Revenue Code shall apply to this section.

(c) Section 42(b) of the Internal Revenue Code shall be modified as follows:

(1) In the case of any qualified low-income building placed in service by the housing sponsor during 1987, the term "applicable percentage" means 9 percent for each of the first three years and 3 percent for the fourth year for new buildings (whether or not the building is federally subsidized) and for existing buildings.

(2) In the case of any qualified low-income building placed in service by the housing sponsor after 1987 (for new buildings whether or not the building is federally subsidized and for existing buildings), the term "applicable percentage" means either of the following:

(A) For each of the first three years, the percentage prescribed by the Secretary of the Treasury for new buildings which are not federally subsidized for the taxable year, determined in accordance with the requirements of Section 42(b)(2) of the Internal Revenue Code, in lieu of the percentage prescribed in Section 42(b)(1)(A).

(B) For the fourth year, the difference between 30 percent and the sum of the applicable percentages for the first three years.

(d) The term "qualified low-income housing project" as defined in Section 42(c)(2) of the Internal Revenue Code is modified by adding the following requirements:

(1) The taxpayer shall be entitled to receive a cumulative cash distribution from the operation of the qualified low-income housing project in an amount not to exceed 8 percent per annum on the investment in the project. For purposes of this paragraph, the investment in the project shall be equal to the amount of the capital contributions actually paid to the housing sponsor and shall not include any amounts until they are paid on an investor note. The limitation on return shall apply in the aggregate to the partners if the housing sponsor is a partnership and in the aggregate to the shareholders if the housing sponsor is an S corporation.

(2) The housing sponsor shall apply any cash available for distribution in excess of the amount eligible to be distributed under paragraph (1) to reduce the rent on rent-restricted units or to increase the number of rent-restricted units subject to the tests of Section 42(g)(1) of the Internal Revenue Code.

(e) The provisions of Section 42(f) of the Internal Revenue Code shall be modified as follows:

to the tax credit under this section.

(3) Section 42(f)(3) of the Internal Revenue Code is modified to read:

If, as of the close of the 1988 or 1989 taxable year, the qualified basis of any building exceeds the qualified basis of that building as of the close of the first year of the credit period, the housing sponsor shall be eligible for a credit on the excess in an amount equal to the applicable percentage determined pursuant to subdivision (c) for the four-year period beginning with the taxable year in which the increase in qualified basis occurs.

(f) The provisions of Section 42(h) of the Internal Revenue Code shall be modified as follows:

(1) Section 42(h)(2) of the Internal Revenue Code shall not be applicable and instead the following provisions shall be applicable:

The total amount for the four-year period of the housing credit dollars allocated in a calendar year to any building shall reduce the aggregate housing credit dollar amount of the Mortgage Bond and Tax Credit Allocation Committee for the calendar year in which the allocation is made.

(2) Paragraphs (3), (4), (6), and (7) of Section 42(h) of the Internal Revenue Code shall not be applicable to this section.

(g) (1) Except as provided in paragraph (2), the aggregate housing credit dollar amount which may be allocated annually by the Mortgage Bond and Tax Credit Allocation Committee pursuant to this section and Section 23610.5 shall be an amount equal to one dollar and twenty-five cents ($1.25) multiplied by the state population in each year, as established by the Department of Finance.

(2) The portion of the aggregate housing credit dollar amount of the Mortgage Bond and Tax Credit Allocation Committee which is not allocated for each of the calendar years may be carried over to any subsequent calendar years through 1989.

(h) (1) The term "compliance period" as defined in Section 42(i)(1) of the Internal Revenue Code is modified to mean, with respect to any building, the period of 30 consecutive taxable years beginning with the first taxable year of the credit period with respect thereto, subject to the limitation in paragraph (2).

(2) If, after the first 15 years of the compliance period, a qualified low-income housing project is not economically feasible, the housing sponsor shall be entitled to remove one or more low-income units from the set-aside and rent requirements of Section 42(g) of the Internal Revenue Code as is necessary for the project to become economically feasible, provided that once a project is again economically feasible, the housing sponsor designates the net available units as low-income units subject to the set-aside and rent requirements, up to the original number of low-income units, while keeping the project economically feasible.

(3) For purposes of paragraph (2), "economically feasible" means that project revenue equals or exceeds project operating expenses

excluding any return on investment.

(4) For purposes of paragraph (3), "operating expenses" means the reasonable expenses necessary to operate and maintain the project in habitable condition, debt service, taxes, and reasonable reserves. For purposes of this paragraph, debt service shall not include that portion of payments of principal and interest attributable to any excess refinanced principal over the outstanding principal of the loan that was refinanced.

(i) Section 42(j) of the Internal Revenue Code shall not be applicable and the following requirements of this section shall be set forth in a regulatory agreement between the Mortgage Bond and Tax Credit Allocation Committee and the housing sponsor:

(1) A term equal to the compliance period.

(2) A requirement that the agreement be filed in the official records of the county in which the qualified low-income housing project is located.

(3) A provision stating which state and local agencies can enforce the regulatory agreement in the event the housing sponsor fails to satisfy any of the requirements of this section.

(4) A provision that the regulatory agreement shall be deemed a contract enforceable by tenants as third-party beneficiaries thereto.

(5) A provision incorporating the requirements of Section 42 of the Internal Revenue Code as modified by this section.

(6) A requirement that the housing sponsor provide the Mortgage Bond and Tax Credit Allocation Committee or its designee and the local agency that can enforce the regulatory agreement with advance notice if the housing sponsor intends to reduce the number of low-income units to make a project economically feasible.

(7) A requirement that the housing sponsor notify the Mortgage Bond and Tax Credit Allocation Committee or its designee and the local agency that can enforce the regulatory agreement if there is a determination by the Internal Revenue Service that the project is not in compliance with Section 42(g) of the Internal Revenue Code.

(8) A requirement that the housing sponsor, as security for the performance of the housing sponsor's obligations under the regulatory agreement, assign the housing sponsor's interest in rents which it receives from the project, provided that until there is a default under the regulatory agreement, the housing sponsor is entitled to collect and retain the rents.

(9) The remedies available in the event of a default under the regulatory agreement that is not cured within a reasonable cure period, include, but are not limited to, allowing any of the parties designated to enforce the regulatory agreement to collect all rents with respect to the project; taking possession of the project and operating the project in accordance with the regulatory agreement until the enforcer determines the housing sponsor is in a position to operate the project in accordance with the regulatory agreement; applying to any court for specific performance; securing the appointment of a receiver to operate the project; or any other relief

as may be appropriate.

(j) In allocating the housing credit, the Mortgage Bond and Tax Credit Allocation Committee shall give priority to qualified low-income housing projects that satisfy the following criteria, which are weighted according to the numerical order of the paragraphs listed below:

(1) Projects that have received government financing or mortgage assistance and are eligible and likely to convert to market-rate rental units.

(2) (A) Projects that commit to providing low-income units for a significantly longer period than the compliance period under this section.

(B) Projects that commit to providing a greater percentage of low-income units than is required under Section 42(g)(1) of the Internal Revenue Code.

(3) Projects that commit to charging rent for low-income units that is less than the rent requirements under Section 42(g)(2) of the Internal Revenue Code.

(4) (A) Projects for which the rate of return on cash investment is less than the rate allowed under this section.

(B) Projects targeted to those groups identified in the California Statewide Housing Plan as having special needs, including projects that ensure that rural areas receive a proportionate share of the housing credits, which share shall in no event be less than 20 percent of the total allocation, including 20 percent of any unallocated credit from prior years as provided in subdivision (m). For the purposes of this paragraph, "rural areas" has the same meaning as defined in Section 50101 of the Health and Safety Code.

(k) Section 42(*l*) of the Internal Revenue Code shall be modified as follows:

The term "secretary" shall be replaced by the term "Mortgage Bond and Tax Credit Allocation Committee."

(*l*) In the case where the credit allowed under this section exceeds the net tax for the taxable year, that portion of the credit which exceeds the net tax may be carried over to the net tax in succeeding taxable years, with respect to which this section shall remain in effect for purposes of carrying over excess credit, until the credit is used. The credit shall be applied first to the earliest years possible.

(m) The aggregate amount of tax credits granted pursuant to this section and Section 23610.5 shall not exceed thirty-five million dollars ($35,000,000) per year. The Mortgage Bond and Tax Credit Allocation Committee shall not authorize any credit if the total amount of credits authorized in any year under the Personal Income Tax Law and the Bank and Corporation Tax Law exceeds thirty-five million dollars ($35,000,000).

The aggregate amount of credit granted pursuant to this section and Section 23610.5 in 1989 may exceed thirty-five million dollars ($35,000,000) by an amount equal to the unallocated credit from 1987

and 1988.

(n) The credit period with respect to an allocation of credit in 1989 by the Mortgage Bond and Tax Credit Allocation Committee of which any amount is attributable to unallocated credit from 1987 or 1988 shall not begin until after December 31, 1989.

(o) (1) This section shall remain in effect only until December 1, 1990, and as of that date is repealed. However, any unused credit may continue to be carried forward, as provided in subdivision (*l*), until the credit has been exhausted.

(2) Notwithstanding paragraph (1), this section shall remain in effect on and after December 1, 1990, for as long as Section 42 of the Internal Revenue Code pertaining to low-income housing credits remains in effect.

SEC. 2. The Legislative Analyst shall evaluate the low-income housing credits allowed by Section 17058 of the Revenue and Taxation Code and make a report of that evaluation to the Legislature on or before May 1, 1990. The report shall include, among other things, information about the number of taxpayers claiming the credits and the effectiveness of the credits in stimulating the development of low-income housing.

SEC. 3. The sum of twenty-five thousand dollars ($25,000) is hereby appropriated from the General Fund to the Joint Legislative Budget Committee for purposes of conducting the evaluation and report specified in Section 2 of this act.

SEC. 4. This act shall not become operative unless Senate Bill 1290 of the 1989–90 Regular Session is chaptered.

SEC. 5. This act provides for a tax levy within the meaning of Article IV of the California Constitution and shall go into immediate effect. However, the provisions of this act shall be applied in the computation of taxes for taxable or income years beginning on or after the first day of the calendar year in which this act becomes effective provided the effective date is more than 90 days prior to the last day of the calendar year. If the effective date is 90 days or less prior to the last day of the calendar year, the provisions of this act shall apply in the computation of taxes for taxable or income years beginning on or after the first day of the calendar year following the effective date.

The Mathematics, Engineering, and Science Achievement (MESA) program is a cooperative effort by secondary and postsecondary educational institutions, working with private industry, to increase the number of students who graduate from college or university with the academic skills needed to gain employment in engineering, mathematics, and science-related professions in California. The goals of the program shall include, but not be limited to, all of the following:

(a) To increase the number of low-income and ethnic minority secondary and community college school students who are adequately prepared in mathematics and science to pursue a mathematics-based course of study in college.

(b) To provide supplemental services at the college and university level which will result in a higher retention rate of low-income and ethnic minority students majoring in engineering, computer science, and other mathematics-based fields.

(c) To increase the number of college and university graduates from ethnic minority backgrounds who secure employment and careers in mathematics-based fields such as engineering, management, and computer service.

(d) To increase the number of college and university graduates from ethnic minority backgrounds who complete doctoral degree programs in engineering, computer science, and other mathematics-based fields, and enter the college and university teaching profession.

SEC. 2. Section 8619 is added to the Education Code, to read:

8619. It is the intent of the Legislature that funding for the Mathematics, Engineering, and Science Achievement (MESA) program, including any expansion of the program to include a community college component, shall be funded through the Budget Act process.

SEC. 3. Section 8622 of the Education Code is amended to read:

8622. This chapter shall become inoperative on June 30, 1995, and, as of January 1, 1996, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1996, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide for the expansion of the program goals of the Mathematics, Engineering, and Science Achievement (MESA) program in the 1989–90 school year, and in order to extend the program's scheduled termination date from January 1, 1991, to January 1, 1996, it is necessary that this act take effect immediately.

CHAPTER 1349

An act to amend Section 7901 of the Government Code, relating to waste, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. Section 7901 of the Government Code, as amended by Chapter 83 of the Statutes of 1989, is amended to read:

7901. For the purposes of Article XIII B of the California Constitution and this division:

(a) "Change in California per capita personal income" for a calendar year means the number resulting when the quotient of the California personal income, as published by the United States Department of Commerce in the Survey of Current Business for the fourth quarter of a calendar year divided by the civilian population of the state on January 1 of the next calendar year, as estimated by the Department of Finance, is divided by the similarly determined quotient for the next prior year. For example, the change in California per capita personal income for 1979 (to be used for computing the appropriations limit for the 1980–81 fiscal year) would equal the fourth quarter 1979 personal income divided by the January 1, 1980, population, the quotient divided by the fourth quarter 1978 personal income divided by the January 1, 1979, population.

(b) "Change in cost of living" for a calendar year means the number resulting when the United States All Urban Consumer Price Index for the month of March of a calendar year is divided by that index for the month of March of the prior calendar year.

(c) "Change in population" for a local agency for a calendar year means the number resulting when the percentage change in population between January 1 of the next calendar year and January 1 of the calendar year in question, as estimated by the Department of Finance pursuant to Section 2227 of the Revenue and Taxation

Code for each city and county and Section 2228 of the Revenue and Taxation Code for each special district, plus 100, is divided by 100. For example, the change in population for 1979 would equal the percentage change in population between January 1, 1980, and January 1, 1979, plus 100, the sum divided by 100. For purposes of the state's appropriations limit, "change in population" means the number resulting when the civilian population of the state on January 1 of the next calendar year, as estimated by the Department of Finance, is divided by the similarly estimated population for January 1 of the calendar year in question. For example, the change in population for 1979 (to be used for computing the appropriations limit for the 1980–81 fiscal year) would equal the January 1, 1980, population divided by the January 1, 1979, population.

(d) "Change in population" for a school district means the change in average daily attendance between the year prior to that for which the appropriations limit is being computed and the year for which the appropriations limit is being computed, using the average daily attendance as defined in Section 7906.

(e) "Change in population" for a community college district means the number resulting when the average daily attendance for the community college district for the current year computed pursuant to Section 84500 of the Education Code is divided by the similarly computed average daily attendance for the previous year.

(f) "Local agency" means a city, county, city and county, special district, authority or other political subdivision of the state, except a school district, community college district, or county superintendent of schools. The term "special district" shall not include any district which (1) existed on January 1, 1978, and did not possess the power to levy a property tax at that time or did not levy or have levied on its behalf, an ad valorem property tax rate on all taxable property in the district on the secured roll in excess of 12½ cents per $100 of assessed value for the 1977–78 fiscal year, or (2) existed on January 1, 1978, or was thereafter created by a vote of the people, and is totally funded by revenues other than the proceeds of taxes as defined in subdivision (c) of Section 8 of Article XIII B of the California Constitution.

If a special district levied, or had levied on its behalf, different property tax rates for the 1977–78 fiscal year depending on which area or zone within the district boundaries property was located, it shall be deemed not to have levied a secured property tax rate in excess of 12½ cents per $100 of assessed value if the total revenue derived from the ad valorem property tax levied by or for the district for 1977–78, divided by the total amount of taxable assessed valuation within the district's boundaries for 1977–78, does not exceed 0.00125.

(g) "School district" means an elementary, high school, or unified school district.

(h) "Local jurisdiction" means a local agency, school district, community college district, or county superintendent of schools.

(i) As used in Section 2 and subdivision (b) of Section 3 of Article

XIII B, "revenues" means all tax revenues and the proceeds to a local jurisdiction or the state received from (1) regulatory licenses, user charges, and user fees to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service, and (2) the investment of tax revenues as described in subdivision (i) of Section 8 of Article XIII B. For a local jurisdiction, revenues and appropriations shall also include subventions, as defined in Section 7903, and with respect to the state, revenues and appropriations shall exclude those subventions.

(j) (1) "Proceeds of taxes" shall not include proceeds to a local jurisdiction or the state from regulatory licenses, user charges, or user fees except to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service.

(2) "Proceeds of taxes" also does not include the proceeds received by a local jurisdiction from a license tax imposed pursuant to Section 25149.5 of the Health and Safety Code or a tax or fee imposed pursuant to Section 25173.5 of the Health and Safety Code on the operation of a hazardous waste facility, or the proceeds received by a local jurisdiction from a surcharge which is collected by a regional disposal facility, as authorized pursuant to Section 25878 of the Health and Safety Code to the extent that these proceeds of the license tax, tax, fee, or surcharge are expended for costs or increased burdens on local jurisdictions which are associated with the hazardous waste facility or regional disposal facility. These costs or burdens include, but are not limited to, general fund expenses, the improvement and maintenance of roads and bridges, fire protection, emergency medical response, law enforcement, air and groundwater monitoring, epidemiological studies, emergency response training, and equipment related to the hosting of the hazardous waste facility or regional disposal facility.

SEC. 2. Section 7901 of the Government Code, as amended by Chapter 83 of the Statutes of 1989, is amended to read:

7901. For the purposes of Article XIII B of the California Constitution and this division:

(a) "Change in California per capita personal income" means the number resulting when the quotient of the California personal income, as published by the United States Department of Commerce in the Survey of Current Business for the fourth quarter of a calendar year divided by the civilian population of the state on January 1 of the next calendar year, as estimated by the Department of Finance, is divided by the similarly determined quotient for the next prior year. For example, the change in California per capita personal income for 1979 (to be used for computing the appropriations limit for the 1980–81 fiscal year) would equal the fourth quarter 1979 personal income divided by the January 1, 1980, population, the quotient divided by the fourth quarter 1978 personal income divided by the January 1, 1979, population.

(b) "Change in population" for a local agency, other than a

county, for a calendar year means the number resulting when the percentage change in population between January 1 of the next calendar year and January 1 of the calendar year in question, as estimated by the Department of Finance pursuant to Section 2227 of the Revenue and Taxation Code for each city and county and Section 2228 of the Revenue and Taxation Code for each special district, plus 100, is divided by 100. For example, the change in population for 1979 would equal the percentage change in population between January 1, 1980, and January 1, 1979, plus 100, the sum divided by 100. For purposes of the state's appropriations limit, "change in population" means the number resulting when the civilian population of the state on January 1 of the next calendar year, as estimated by the Department of Finance, is divided by the similarly estimated population for January 1 of the calendar year in question. For example, the change in population for 1979 (to be used for computing the appropriations limit for the 1980–81 fiscal year) would equal the January 1, 1980, population divided by the January 1, 1979, population.

A city or special district may choose to use the change in population within its jurisdiction or within the county in which it is located. For a special district located in two or more counties, the special district may choose to use the change in population in the county in which the portion of the district is located which has the highest assessed valuation. Each city and special district shall select its change in population pursuant to this paragraph annually by a recorded vote of the governing body of the city or special district. A charter city and county may choose to use the change in population provided in this paragraph or may choose to use the change in population provided in Section 2 of Chapter 1221 of the Statutes of 1980.

(c) "Change in population" for a county shall be either (1) the percentage change from the preceding fiscal year of the total county population, (2) the percentage change from the preceding fiscal year of the total county population combined with the total population of all counties whose borders are contiguous with the county, or (3) the percentage change from the preceding fiscal year of the population within the incorporated portion of the county. Each county shall select its change in population pursuant to this paragraph annually by a recorded vote of the county's governing body.

(d) "Change in population" for a school district means the change in average daily attendance between the year prior to that for which the appropriations limit is being computed and the year for which the appropriations limit is being computed, using the average daily attendance as defined in Section 7906.

(e) "Change in population" for a community college district means the number resulting when the average daily attendance for the community college district for the current year computed pursuant to Section 84500 of the Education Code is divided by the

similarly computed average daily attendance for the previous year.

(f) "Local agency" means a city, county, city and county, special district, authority or other political subdivision of the state, except a school district, community college district, or county superintendent of schools. The term "special district" shall not include any district which (1) existed on January 1, 1978, and did not possess the power to levy a property tax at that time or did not levy or have levied on its behalf, an ad valorem property tax rate on all taxable property in the district on the secured roll in excess of 12½ cents per $100 of assessed value for the 1977–78 fiscal year, or (2) existed on January 1, 1978, or was thereafter created by a vote of the people, and is totally funded by revenues other than the proceeds of taxes as defined in subdivision (c) of Section 8 of Article XIII B of the California Constitution.

If a special district levied, or had levied on its behalf, different property tax rates for the 1977–78 fiscal year depending on which area or zone within the district boundaries property was located, it shall be deemed not to have levied a secured property tax rate in excess of 12½ cents per $100 of assessed value if the total revenue derived from the ad valorem property tax levied by or for the district for 1977–78, divided by the total amount of taxable assessed valuation within the district's boundaries for 1977–78, does not exceed 0.00125.

(g) "School district" means an elementary, high school, or unified school district.

(h) "Local jurisdiction" means a local agency, school district, community college district, or county superintendent of schools.

(i) As used in Section 2 and subdivision (b) of Section 3 of Article XIII B, "revenues" means all tax revenues and the proceeds to a local jurisdiction or the state received from (1) regulatory licenses, user charges, and user fees to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service, and (2) the investment of tax revenues as described in subdivision (i) of Section 8 of Article XIII B. For a local jurisdiction, revenues and appropriations shall also include subventions, as defined in Section 7903, and with respect to the state, revenues and appropriations shall exclude those subventions.

(j) (1) "Proceeds of taxes" shall not include proceeds to a local jurisdiction or the state from regulatory licenses, user charges, or user fees except to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service.

(2) "Proceeds of taxes" also does not include the proceeds received by a local jurisdiction from a license tax imposed pursuant to Section 25149.5 of the Health and Safety Code or a tax or fee imposed pursuant to Section 25173.5 of the Health and Safety Code on the operation of a hazardous waste facility, or the proceeds received by a local jurisdiction from a surcharge which is collected by a regional disposal facility, as authorized pursuant to Section 25878 of the Health and Safety Code to the extent that these proceeds of

the license tax, tax, fee, or surcharge are expended for costs or increased burdens on local jurisdictions which are associated with the hazardous waste facility or regional disposal facility. These costs or burdens include, but are not limited to, general fund expenses, the improvement and maintenance of roads and bridges, fire protection, emergency medical response, law enforcement, air and groundwater monitoring, epidemiological studies, emergency response training, and equipment related to the hosting of the hazardous waste facility or regional disposal facility.

SEC. 3. Section 2 of this bill incorporates amendments to Section 7901 of the Government Code proposed by both this bill and SB 88. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1990, but this bill becomes operative first, (2) each bill amends Section 7901 of the Government Code, and (3) this bill is enacted after SB 88, in which case Section 7901 of the Government Code, as amended by Section 1 of this bill, shall remain operative only until the operative date of SB 88, at which time Section 2 of this bill shall become operative.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for local governments to recover the costs imposed by the siting of a hazardous waste facility or low-level radioactive waste facility in their jurisdictions, thereby protecting public health and safety and the environment, it is necessary that this act take effect immediately.

CHAPTER 1350

An act relating to the Department of the Youth Authority.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares, based on adult correctional studies and experiences, the following:

(1) Maintaining a prisoner's family ties has a positive effect on the recidivism rate for offenders.

(2) Enhancing visitor services increases the frequency and quality of visits and, in the Department of Corrections, has demonstrated that violent behavior in institutions is thereby decreased.

(3) Enhancing visitor services provides prisoners with strong family support, which can have a stabilizing influence on the institution benefiting the prisoners, the staff, and the community.

(b) The Legislature further finds and declares that the location of

the Northern California Youth Center and lack of services to assist visitors impedes visiting.

(c) The Department of the Youth Authority shall establish a visitor center at the Northern California Youth Center which visitor center shall provide, at a minimum, each of the following services to visitors, as needed:

(1) Outreach programs to wards' families.

(2) Assistance to visitors with transportation between public transit terminals in the Stockton area and the Northern California Youth Center.

(3) Crisis intervention.

(4) Information on visiting regulations and processes.

(5) Referral to other agencies and services.

(6) Parent education.

(7) A sheltered area for visitors who are waiting before or after visits.

In addition, the visitor center staff shall maintain working relations with the local community and institution.

(d) The visitor center may also provide child care services for the children of visitors.

(e) The goals of the Department of the Youth Authority in operating a visitor center shall be to achieve all of the following:

(1) Enhancing visitor services in order to provide wards with strong family support, which support can have a stabilizing influence on the institution and enhance the ward's parole performance.

(2) Improvement of ward institutional performance and behavior.

(f) For purposes of program evaluation, records shall be maintained of wards receiving visits and families receiving services. The wards shall be traced through their institutional and parole experiences. Their success and failure rate shall be compared to that of wards who did not receive visits or services.

(g) The department shall contract with a nonprofit agency to provide any of the services at the visitor center which the department is unable to provide.

(h) The department shall report by January 1, of each year, to the Legislature regarding the services the department has provided at the visitor center pursuant to this section, either directly or through contract, during the previous fiscal year.

(i) The establishment of a visitor center at the Northern California Youth Center is subject to the availability of funds provided to the department for purposes of this act through the annual Budget Act.

SEC. 2. This act shall be operative until January 1, 1992, and on that date is repealed.

CHAPTER 1351

An act to add Sections 50714 and 50714.5 to the Health and Safety Code, relating to housing, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 2, 1989 Filed with Secretary of State October 2, 1989]

The people of the State of California do enact as follows.

SECTION 1. The Legislature finds and declares that there is a critical need for farmworker housing in the County of San Diego, which cannot be met without significant state assistance.

SEC. 2. Section 50714 is added to the Health and Safety Code, to read:

50714. (a) The San Diego County Farmworker Housing Account is hereby established, to be administered by the Department of Housing and Community Development, through its Office of Migrant Services pursuant to the authority granted in Sections 50406 and 50710, to assist in the financing, development, and operation of up to 500 family housing units for year-round use by migrant farm labor employees and their families. The sponsor shall seek federal, state, and local financial and in-kind assistance in the development of this housing, but the lack of that assistance shall not be a prerequisite for obtaining financing under this section for the development and operation of family housing units.

(b) The department shall ensure that the housing is operated on the same basis as other state-financed housing assisted pursuant to this chapter.

(c) The department shall award funds pursuant to this section to project sponsors who demonstrate that they are capable of effectively serving the housing needs of migrant farmworkers in San Diego County. The year-round use required by subdivision (a) may be interrupted as necessary to close the housing for maintenance purposes and to allow new migrant farmworker families to obtain housing.

(d) The department shall use funds appropriated by the Legislature for purposes of this section. The appropriated funds may be used for the costs permitted by, or pursuant to, subdivisions (b) to (e), inclusive, of Section 50712.5. For purposes of soliciting and awarding funds pursuant to this section, the department is not required to promulgate regulations.

(e) To be eligible for funding, a project sponsor shall make a contribution to the housing assisted under this section. However, if the housing sponsor can demonstrate that it does not have the capability to make that contribution, no contribution shall be required. A contribution, for purposes of this subdivision, may be in the form of a writedown of land costs, fee waiver, direct equivalent

financial contribution, or any other incentives of financial value.

(f) The department shall accept proposals from project sponsors commencing November 15, 1989. The department shall award grants to project sponsors commencing January 1, 1990.

SEC. 2.5. Section 50714.5 is added to the Health and Safety Code, to read:

50714.5. (a) The Director's San Diego County Farmworker Housing Discretionary Account is hereby established in the Office of Migrant Services in the department. The director may make loans or grants from this account for innovative farmworker housing projects providing housing for migrant farmworkers in San Diego County. All grants or loans shall be made to local public entities or private community-based nonprofit agencies which agree to own and operate the farmworker housing project under the terms and conditions prescribed by the department and which agree to provide and operate the project in compliance with habitability, admissions, eligibility, and rent provisions of other state-financed migrant farm labor centers operated by the Office of Migrant Services. In selecting sponsors, the director may make awards for projects serving the needs of single farmworkers, but preference shall be given to those projects primarily serving families. Funds may be used under this section for farmworker housing on either a permanent foundation or nonpermanent foundation, including manufactured housing or mobilehomes.

(b) The department shall use funds appropriated by the Legislature for purposes of this section to maximize the utility of any other local, federal, state, or private funds or other assistance made available for the purposes of this section. For purposes of soliciting and awarding funds pursuant to this section, the department is not required to promulgate regulations.

(c) To be eligible for funding, a project sponsor shall make a contribution to the housing assisted under this section. However, if the housing sponsor can demonstrate that it does not have the capability to make that contribution, no contribution shall be required. A contribution, for purposes of this subdivision, may be in the form of a writedown of land costs, fee waiver, direct equivalent financial contribution, or any other incentives of financial value.

(d) The department shall accept proposals from project sponsors commencing November 15, 1989. The department shall award grants to project sponsors commencing January 1, 1990.

SEC. 3. The Legislature finds and declares that this special law is necessary and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, because San Diego County has large numbers of farmworkers living in caves and substandard housing, constituting some of the worst housing conditions to be found in the state or nation.

SEC. 4. The sum of five hundred thousand dollars ($500,000) is hereby reappropriated from Item 2240-101-001 of the Budget Act of 1989 to the Department of Housing and Community Development

in accordance with the following schedule:

(a) The sum of four hundred thousand dollars ($400,000) for the purposes of Section 50714 of the Health and Safety Code.

(b) The sum of one hundred thousand dollars ($100,000) for the purposes of Section 50714.5 of the Health and Safety Code.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

An organization is not organized exclusively for exempt purposes listed above unless its assets are irrevocably dedicated to one or more purposes listed in this section. Dedication of assets requires that in the event of dissolution of an organization or the impossibility of performing the specific organizational purposes the assets would continue to be devoted to exempt purposes. Assets shall be deemed irrevocably dedicated to exempt purposes if the articles of organization provide that upon dissolution the assets will be distributed to an organization which is exempt under this section or Section 501(c)(3) of the Internal Revenue Code or to the federal government, or to a state or local government for public purposes; or by a provision in the articles of organization, satisfactory to the Franchise Tax Board; that the property will be distributed in trust for exempt purposes; or by establishing that the assets are irrevocably dedicated to exempt purposes by operation of law. The irrevocable dedication requirement shall not be a sole basis for revocation of an exempt determination made by the Franchise Tax Board prior to the effective date of this amendment.

(b) (1) In the case of a qualified amateur sports organization—

(A) The requirement of subdivision (a) that no part of its activities involve the provision of athletic facilities or equipment shall not apply.

(2) For purposes of this subdivision, "qualified amateur sports organization" means any organization organized and operated exclusively to foster national or international amateur sports competition if that organization is also organized and operated primarily to conduct national or international competition in sports or to support and develop amateur athletes for national or international competition in sports.

(b) For purposes of this section, the political organization taxable income of any organization for any taxable year is an amount equal to the excess over one hundred dollars ($100) (if any) of—

(1) The gross income for the taxable year (excluding any exempt function income), over

(2) The deductions allowed by this part which are directly

connected with the production of the gross income (excluding exempt function income).

(c) For purposes of this section, the term "exempt function income" means any amount received as—

(1) A contribution of money or other property,

(2) Membership dues, a membership fee or assessment from a member of the political organization, or

(3) Proceeds from a political fundraising or entertainment event, or proceeds from the sale of political campaign materials, which are not received in the ordinary course of any trade or business,

to the extent such amount is segregated for use only for the exempt function of the political organization.

(d) For purposes of this part, if any political organization—

(1) Contributes any amount to or for the use of any political organization which is treated as exempt from tax under subdivision (a) of this section,

(2) Contributes any amount to or for the use of any organization described in paragraph (1) or (2) of Section 509(a) of the Internal Revenue Code of 1954, which is exempt from tax under Section 23701, or

(3) Deposits any amount in the General Fund or the Treasury of the United States or in the General Fund of any state or local government,

such amount shall be treated as an amount not diverted for the personal use of the candidate or any other person. No deduction shall be allowed under this part for the contribution or deposit of any amount described in the preceding sentence.

(e) For purposes of this section—

(1) The term "political organization" means a party, committee, association, fund, (including the trust of an individual candidate) or other organization (whether or not incorporated) organized and operated primarily for the purpose of directly or indirectly accepting contributions or making expenditures, or both, for an exempt function.

(2) The term "exempt function" means the function of influencing or attempting to influence the selection, nomination, election, or appointment of any individual to any federal, state, or local public office or office in a political organization, or the election of Presidential or Vice Presidential electors, whether or not such individual or electors are selected, nominated, elected, or appointed. The term includes the making of expenditures relating to an office described in the preceding sentence which, if incurred by the individual, would be allowable as a deduction under Section 162(a) of the Internal Revenue Code.

(3) The term "contributions" has the meaning given to such term by paragraph (2) of subdivision (b) of Section 24434.

(4) The term "expenditures" has the meaning given to such term by paragraph (3) of subdivision (b) of Section 24434.

(f) For purposes of paragraph (1) of subdivision (e), a separate segregated fund (within the meaning of Section 610 of Title 18 of the United States Code or of any similar state statute, or within the meaning of any state statute which permits the segregation of dues money for exempt functions, within the meaning of paragraph (2) of subdivision (e)) which is maintained by an organization described in Sections 23701a through 23701p or Section 23701s which is exempt from tax under Section 23701 shall be treated as a separate organization.

(2) In the case of any fund described in paragraph (1) the exempt function shall be only the preparation and circulation of the newsletter.

(3) For purposes of paragraph (1), "candidate" means with respect to any federal, state, or local elective public office, an individual who does both of the following:

(A) Publicly announces that he or she is a candidate for nomination or election to that office.

(B) Meets the qualifications prescribed by law to hold that office.

(h) The requirements set forth in subdivisions (a), (b) and (c) of Section 23701 shall not apply to a political organization or newsletter fund described in this section. However, in the case of a corporation incorporated or organized in this state or qualified to do business in this state, such corporation shall either pay the minimum tax provided in Section 23153 or obtain a certificate of exemption from the Franchise Tax Board before the corporation files with the Secretary of State its articles of incorporation or a duly certified copy thereof.

(i) The requirements set forth in Section 23772 or Section 23774 shall not apply to a political organization or newsletter fund. Further, the requirements set forth in Sections 18405, 18405.1 and 25401 shall not apply to a political organization or newsletter fund described in this section, except that if it has political organization taxable income for any taxable year, the political organization shall be required to file income tax returns or statements as determined by the Franchise Tax Board under Chapter 3 (commencing with Section 23501).

(c) Those benefits do not discriminate in favor of employees who are highly compensated employees within the meaning of Section 414(q) of the Internal Revenue Code. A plan shall not be considered discriminatory within the meaning of this paragraph merely because the benefits received under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of the employees covered by the plan, and

(d) In the case of a plan under which an employee may designate certain contributions as deductible-

(1) Those contributions do not exceed the amount with respect to which a deduction is allowable under Section 219(b)(3) of the Internal Revenue Code,

purchasing of insurance on a group basis), warehousing, billing and collection, food, clinical, industrial engineering, laboratory, laundry, printing, communications, record center, and personnel (including selection, testing, training, and education of personnel) services; and

(A) By reason of carrying on propaganda, or otherwise attempting, to influence legislation, or

(B) By reason of participating in, or intervening in, any political campaign on behalf of (or in opposition to) any candidate for public office,

The return shall be filed on or before the 15th day of the fifth full calendar month following the close of the income year.

(2) Exceptions from filing—

(A) Mandatory exceptions—Paragraph (1) shall not apply to—

(i) Churches, their integrated auxiliaries, and conventions or association of churches,

same manner as tax) by the exempt organization or trust failing so to file, five dollars ($5) for each month or part thereof during which such failure continues, but the total amount imposed hereunder on any organization for failure to file any return shall not exceed forty dollars ($40).

(2) The Franchise Tax Board may make written demand upon a private foundation failing to file under paragraph (1) of this subdivision or subdivision (c) specifying therein a reasonable future date by which such filing shall be made, and if such filing is not made on or before such date, and unless it is shown that failure so to file is due to reasonable cause, there shall be paid (on notice and demand by the Franchise Tax Board and in the same manner as tax) by the person failing so to file, in addition to the penalty prescribed in paragraph (1), a penalty of five dollars ($5) each month or part thereof after the expiration of the time specified in the written demand during which such failure continues, but the total amount imposed hereunder on all persons for such failure to file shall not exceed twenty-five dollars ($25). If more than one person is liable under this paragraph for a failure to file, all such persons shall be jointly and severally liable with respect to such failure.
